Report of Independent Certified Public Accountants

Board of Directors
WallStreet Electronica, Inc.

We have audited the accompanying statement of financial condition of WallStreet Electronica, Inc. as of September 30, 2007, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of WallStreet Electronica, Inc. as of September 30, 2007, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying reconciliation of net capital, calculation of aggregate indebtedness and report on internal control are presented for purposes of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

WALLSTREET ELECTRONICA, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2007

1. ORGANIZATION AND NATURE OF BUSINESS

Wallstreet Electronica, Inc. (the "Company") was incorporated on August 14, 1997 in the state of Florida. The Company is a registered broker-dealer with the Securities and Exchange Commission and a member of the National Association of Securities Dealers ("NASD").

The Company operates three offices in Miami and Coral Gables, Florida. The Company provides web-based internet brokerage services to individuals and corporate customers, and it also provides support to stock brokers, investment advisors, money managers and financial institutions that need web-based handling of their transactions for their clients. The Company uses the technology of Broker WebStation, Inc., (a related party company), and BellSouth/IBM e-commerce to offer web hosting services and internet data circuits to its customers. The Company is an introducing broker-dealer and cleared its trades through Ridge Clearing and Outsourcing Services (formerly ADP Clearing and Outsourcing Services) (the "Clearing Broker").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents – Cash and cash equivalents are short-term, liquid investments with an original maturity of three months or less and are carried at cost, which approximates market value.

Receivables from clearing broker – Receivables from clearing broker represent monies due the Company from the Clearing Broker. An allowance for doubtful accounts is not recorded since the Clearing Broker adjusts accounts to actual collections, as necessary.

Good faith clearing deposit held by clearing broker – The Company's Clearing Broker holds a good faith deposit that it may use to cover any securities transactions that do not close. The good faith deposit is comprised of marketable securities and cash. The marketable securities represent treasury notes held for trading purposes. Marketable securities are recorded at fair value and investment income is recorded in earnings as incurred.

Property and equipment – Property and equipment are recorded at cost. Depreciation is provided on a straight-line basis over three to five years. Maintenance and minor repairs are charged to operations when incurred. When assets are retired or sold, the related cost and accumulated depreciation are removed from the accounts and the resulting gain or loss is reflected in current operations. Property and equipment is fully depreciated at September 30, 2007.

Securities transactions - Securities transactions are recorded on a trade date basis.

Advertising – Advertising is expensed as incurred and \$22,301 was expensed during the year ended September 30, 2007.

WALLSTREET ELECTRONICA, INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
SEPTEMBER 30, 2007

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income taxes – The Company accounts for income taxes according to Statement of Financial Accounting Standard No. 109, “Accounting for Income Taxes”, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred asset will not be realized. Income tax expense is the tax payable or refundable for the period, plus or minus the change during the period in deferred tax assets and liabilities.

Fair value of financial instruments - All of the Company's financial assets and liabilities are carried at market value or at amounts, which, because of their short-term nature, approximate current fair value.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

3. RELATED PARTY TRANSACTIONS

During the year ended September 30, 2007, the Company paid a company owned by two of its stockholders, approximately \$95,400 for technical services.

4. GOOD FAITH DEPOSIT

The Company has agreed to maintain a minimum good faith deposit of \$125,000 with the Clearing Broker. As of September 30, 2007, the Company had on deposit \$132,260 of which \$9,695 was in cash and \$122,565 in marketable securities. Income earned on the marketable securities is recorded as interest income.

WALLSTREET ELECTRONICA, INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
SEPTEMBER 30, 2007

5. PROPERTY AND EQUIPMENT

Property and equipment consisted of the following at September 30, 2007:

Equipment	\$ 3,957
Less accumulated depreciation	<u>(3,957)</u>
	<u>\$ -</u>

Depreciation recorded for the year ended September 30, 2007 was \$353.

5. INCOME TAXES

Income taxes have been calculated at the effective rates as of September 30, 2007 for federal and state obligations. The effective rate is approximately 5% after giving affect to the state tax deduction, prior accruals and fixed and partial differences per federal tax law.

6. COMMITMENTS

Effective August 1, 2005, the Company entered into a 36 month lease for approximately 1,425 square feet of office space with initial monthly rent of \$1,841, plus sales tax with annual increases of approximately 4% for years two and three. The lease is renewable for an additional three years.

Future rental obligations are as follow:

Year ended September 30:

2008	\$ 19,940
------	-----------

Rent expense for the year ended September 30, 2007 was \$29,070, which included sales tax, common area maintenance charges and some miscellaneous rental amounts.

7. CONTINGENCIES

The Company has been named in certain matters brought before the NASD filed by clients of its correspondents or by prior correspondent/brokers in the normal course of business. Management intends to fight all claims vigorously that have been brought forth, and management believes outcomes of the matters will not have a material effect on the financial condition of the Company. During the year ended September 30, 2007, the Company's insurance carrier paid \$153,100 to settle an arbitration matter and to cover certain legal expenses. An equal amount of expense was also recorded under other operating costs.

WALLSTREET ELECTRONICA, INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
SEPTEMBER 30, 2007

8. CONCENTRATION OF BUSINESS AND CREDIT RISK

From time to time the Company may have cash deposits with its banks or its clearing broker that exceed levels insured by the banks and clearing broker. At September 30, 2007, \$107,725 was on deposit in excess of the banks' insured amounts. However, management of the Company believes the money to be secure.

9. OFF-BALANCE-SHEET RISK AND LOSS ON TRANSACTION

The Company's customer activities handled through the Clearing Broker involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contractual obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss. Management of the Company has developed a multiple management and risk control system that management believes minimizes the off-balance-sheet risk.

10. NET CAPITAL REQUIREMENTS

The Company is subject to the Securities Exchange Act of 1934 uniform net capital rules, which requires maintenance of a minimum net capital and requires that the ratio of aggregate indebtedness to net capital not exceed 1500%. As of September 30, 2007, the Company's net capital was \$433,609 as defined by the SEC, which was \$383,609 in excess of its minimum net capital requirement of \$50,000, which amount was greater than 6 2/3% of aggregate indebtedness (\$2,800). The Company's percentage of aggregate indebtedness to net capital was approximately 9.7%.

11. RECONCILIATION OF NET CAPITAL

The differences in the net capital computation shown on the Company's September 30, 2007 FOCUS IIA is shown in the attached required supplemental information to the audited financial statements. The difference results from an audit adjustment to record additional income tax expense and to increase the income tax payable at September 30, 2007.

REQUIRED SUPPLEMENTAL INFORMATION

Pursuant to Rule 17a-5 of the
Securities Exchange Act of 1934

As of September 30, 2007

**REPORT ON INTERNAL CONTROL STRUCTURE REQUIRED BY SEC RULE 17a-5 FOR A
BROKER-DEALER CLAIMING EXEMPTION FROM SEC RULE 15c3-3**

Board of Directors
WallStreet Electronica, Inc.

In planning and performing my audit of the financial statements of WallStreet Electronica, Inc. (the "Company") for the year ended September 30, 2007, I considered its internal control structure, including procedures for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission ("SEC"), I have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company, including tests of such practices that I considered relevant to the objectives stated in Rule 17a-5(g)(1) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications and comparisons
2. Recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

919 WEST STATE ROAD 436 ► SUITE 300 ► ALTAMONTE SPRINGS, FL 32714
TELEPHONE 407.774.2044 ► FAX 407.774.6199 ► IN LAKE COUNTY 352.383.5552

Member of American Institute & Florida Institute of Certified Public Accountants & CPA USA Network

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure, including procedures for safeguarding securities that I consider to be material weaknesses as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and the practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at September 30, 2007, to meet the SEC's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the National Association of Securities Dealers, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.

Tushnet, Sebald ; Retuff, P. A.
