The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

GRANITE SECURITIES, LLC NOTES TO FINANCIAL STATEMENTS (Continued)

At December 31, 2006, the Company had net capital of \$165,881 which was \$160,881 in excess of its required net capital of \$5,000. The Company had net capital of \$121,506 which was \$116,506 in excess of its required net capital of \$5,000. 6. DISCRETIONARY SETTLEMENT

Discretionary settlements are normal in the course of doing business. During year ended December 31, 2005, two discretionary settlements were paid out as per the recommendation of counsel to avoid incurring legal fees in excess of the discretionary settlements.

7. RECLASSIFICATIONS

Certain amounts in the 2005 financial statements have been reclassified to conform with the 2006 presentation.

8. PENDING LITIGATION

Two legal actions have commenced against the Company. No amount has been accrued in these financial statements since the outcome of this matter is uncertain, and since the resulting liability, if any, cannot be determined. However, it is at least reasonably possible that a liability could result in the near term.

REPORT ON INTERNAL CONTROL

December 31, 2006

VINCENT D. CULLEN, CPA JAMES E. DANOWSKI, CPA JILL S. FICHTER, CPA CHRISTOPHER V. REINO, CPA PETER F. RODRIGUEZ, CPA STEPHEN J. WAGNER, CPA ALAN YU, CPA

February 22, 2007

To the Members of Granite Securities, LLC Cutchogue, New York

In planning and performing our audit of the financial statements of Granite Securities, LLC (the Company), for the year ended December 31, 2006, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g), in the following:

- 1. Making the periodic computations if aggregate indebtedness (or aggregate debits) and net capital under rule 15c3-3(e)
- 2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13
- 3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
- 4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by rule 15c3-3

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal controls and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate. Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2006, to meet the SEC's objectives.

This report is intended solely for the information and use of the members, management, the SEC and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other that these specified parties.
