Report of Independent Registered Public Accounting Firm

To the Member of
Investec Securities (US) LLC:

We have audited the accompanying statement of financial condition of Investec Securities (US) LLC (the "Company") as of March 31, 2007. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, and evaluating the overall statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above present fairly, in all material respects, the financial position of Investec Securities (US) LLC at March 31, 2007, in conformity with U.S. generally accepted accounting principles.

The accompanying notes are an integral part of the statement of financial condition.

Investec Securities (US) LLC

Notes to Statement of Financial Condition

March 31, 2007

1. Organization and Nature of Business

Investec Securities (US) LLC (the "Company"), is a wholly owned subsidiary of Investec USA Holdings Corp. ("Holdings"), whose ultimate parent is Investec plc ("Investec"), a London Stock exchange listed company. The Company is a registered broker-dealer under the Securities Exchange Act of 1934 and became a member of the National Association of Securities Dealers, Inc. ("NASD") and commenced operations on January 26, 2006. The Company was initially formed for the primary purpose of collecting, on a passive basis, a set percentage of the commission business generated by Maxim Partners LLC ("Maxim"), an unaffiliated NASD member firm pursuant to an Asset Purchase Agreement (See Notes 2 and 5). In addition, the Company has served as an intermediary on behalf of foreign affiliates in accordance with SEC Rule 15a-6 whereby the Company distributes third party affiliate research and intermediates foreign equity transactions.

2. Significant Accounting Policies

Cash and cash equivalents consists of cash and highly liquid investments with maturities of 90 days or less.

The statement of financial condition has been prepared in accordance with U.S. generally accepted accounting principles. The preparation of the statement of financial condition in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial condition, and the reported amounts of revenues and expenses during the period then ended. Actual results could differ from those estimates.

The Company is a single member limited liability company and is treated as a "disregarded entity" for tax purposes. Thus the Company's assets, liabilities, and items of income, deductions, and tax credits are treated as those of its sole member, Holdings, who is responsible for including the Company in its tax reports.

In June 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109, ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a Company's financial statements and prescribes a recognition threshold and measurement attribute for

2. Significant Accounting Policies (continued)

the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 will be effective for the Company beginning in fiscal year 2008. The Company does not expect the adoption of FIN 48 to have a significant impact on its financial position.

On September 15, 2006 the Financial Accounting Standards Board ("FASB") issued FASB Statement No. 157 ("FAS 157") on fair value measurement. The standard provides guidance for using fair value to measure assets and liabilities. The standard also responds to investors' requests for expanded information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. The provisions of FAS 157 are effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating whether FAS 157 will have an impact to the statement of financial condition.

3. Credit Risk

The Company maintains its cash in bank accounts, which, at times, may exceed federally insured limits. The Company's receivables from broker-dealer are outstanding with Maxim and are generally collected within 30 days of month-end.

4. Related Party Transactions

The Company shares space, equipment and other related support with Holdings. Under a management services agreement with Holdings, overhead expenses including employee salaries and related costs, office rent, equipment rental, amortization and depreciation of assets and other expenses are allocated to the Company based on formulas applied to these expenses.

"Due to parent" represents the balance due to Holdings by the Company for its share of expenses under the management services agreement, as well as direct expenses of the Company paid by Holdings awaiting reimbursement.

5. Receivable from Broker Dealer

The receivable at March 31, 2007, represents commissions due (including a one month estimate) under the Asset Purchase Agreement as mentioned in Notes 1 and 2. The Company

Investec Securities (US) LLC

Notes to Statement of Financial Condition (continued)

5. Receivable from Broker Dealer (continued)

receives a certain percentage of the gross commissions generated by certain registered representatives defined in the agreement. The Company also holds the right up until October 22, 2008 to audit the books and records of Maxim. If an audit reveals that there has been an underpayment or overpayment of any amounts due to or due from the Company, Maxim, after confirming such amount, shall remit or request the difference. At the time of issuance of the Company's audited financial statements, the Company is in the process of auditing the books and records of Maxim. The Company has not yet determined if the audit will have an impact to the financial statements.

6. Net Capital Requirement

The Company, a registered broker-dealer, is subject to the Net Capital Rule 15c3-1 under the Securities Exchange Act of 1934, which requires the maintenance of minimum net capital. The Company utilized the alternative method available under this rule and is required to maintain \$250,000 in minimum net capital. At March 31, 2007, the Company had net capital of approximately \$1,371,788 which was \$1,121,788 in excess of the required minimum net capital.

Advances, dividends, and capital withdrawals may be limited by various regulations in order to maintain required minimum net capital.

The Company is exempt from Securities and Exchange Commission Rule 15c3-3 under the exemptive provision of section (k)(2)(i).
