NOTES TO STATEMENT OF FINANCIAL CONDITION

JUNE 30, 2007

1. NOTES ON SIGNIFICANT BUSINESS ACTIVITIES

Lantern Investments, Inc. (the "Company") was incorporated in the State of Delaware in 1992. The Company is registered as a broker-dealer with the Securities and Exchange Commission (the "SEC") and is a member of the National Association of Securities Dealers, Inc (the "NASD"), the Municipal Securities Rulemaking Board (the "MSRB") and the Securities Investor Protection Corporation ("SIPC"). In this capacity, it executes both principal and agency transactions for itself and its customers. The Company does not hold funds or securities for, nor owe funds or securities to customers. Any funds or securities received by the Company are promptly transmitted to the clearing broker.

In the normal course of business, the Company enters into financial transactions where the risk of potential loss due to the changes in market or failures of the other party to the transaction to perform exceeds the amounts recorded for the transactions.

The Company's policy is to continuously monitor its exposure to market and counter-party risk through the use of a variety of financial, position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the customer and/or other counter-party with which it conducts its business.

The Company executes all of its customer trades through New York Stock Exchange member firms as an introducing broker and earns commission on its introduced customers. The Company has an agreement with a clearing broker to clear securities transactions, carry customers' accounts on a fully disclosed basis and perform certain recordkeeping functions. In connection therewith, the Company has agreed to indemnify its clearing broker for losses that the clearing broker may sustain related to the Company's customers. At June 30, 2007, the receivable from clearing broker reflected on the statement of financial condition was substantially in cash.

In the course of its normal trading activities, the Company is a party to financial instruments that involve, to indeterminable degrees, market risks in excess of that presented in the statement of financial condition. All positions are reported at market value and any change in market value is reflected in the accompanying statement of income as gain or loss as it occurs.

2. SIGNIFICANT ACCOUNTING POLICIES

Securities transactions and related commission revenues and expenses are recorded on a settlement date basis.

Securities transactions and financing with the clearing broker are classified as operating activities on the statement of cash flows since this is the Company's principal business.

The Company maintains its books and records on an accrual basis in accordance with accounting principles generally accepted in the United States of America. This requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

The Company files their federal and state corporate income tax returns using the accrual basis of accounting.

Depreciation of property and equipment is provided for on accelerated and straight-line methods over the useful life of the assets. Amortization of leasehold improvements is provided for by the straight-line method over the term of the lease.

In September 2006, Statement of Financial Accounting Standards ("SFAS") No. 157, "Fair Value Measurements", was issued and is effective for fiscal years beginning after November 15, 2007. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair values measurements. Management is currently evaluating the impact of adoption of SFAS No. 157 will have on the Partnership's financial statement disclosure.

3. CASH AND CASH EQUIVALENTS

The Company considers all highly liquid debt instruments and other short-term investments with an initial maturity of three months or less to be cash equivalents. Cash and cash equivalents includes \$23,801 in money market funds and \$51,275 in a certificate of deposit held at a bank.

4. GOODWILL

In June 2004, the Company purchased certain intangible assets of Tradex Brokerage Service, Inc., under an asset purchase agreement. Additionally, in June 2007 the Company purchased intangible assets from a retired employee under an asset purchase agreement. The Company has adopted FASB Statement No. 142 ("SFAS 142") "Goodwill and Other Intangible Assets". Under SFAS 142, goodwill will be assessed annually to determine whenever events or circumstances have occurred which would indicate that goodwill might be impaired. The financials include an impairment charge of \$6,140 for the year ended June 30, 2007.

5. OTHER ASSETS

Other assets include \$8,011 of incentive fees paid to employees and are being expensed over various periods. The financial statements reflect an expense of \$2,500 relating to this agreement.

6. PROVISIONS FOR INCOME TAXES

The Company has adopted Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes," which requires an asset and liability approach to financial accounting and reporting of income taxes. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the period in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

As of June 30, 2007, the Company had federal net operating loss carryforwards totaling approximately \$10,444, which expires starting in 2023. As of June 30, 2007, the deferred asset is \$13,500. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities. As a result of usage of the loss carryforwards, the current tax expense included in the financial statements reflects only the minimum taxes charged by the State of New York and other states where the Company is registered.

7. DEFERRED RENT

The lease for the Company's office space in Melville and New York provides for rent abatements as well as scheduled increases in base rent. Rent expense is charged to operations ratably over the term of the lease, which results in deferred rent payable. This represents cumulative rent expense charged to operations from inception of the lease in excess of required lease payments.

The Company leases office space in Melville, Lawrence, and New York City under non-cancelable lease agreements. The leases expire in 2010, 2008, and 2009 respectively. The leases contain provisions for escalations based on increases in certain costs incurred by the lessor. Future minimum rent payments on the leases are as follows:

The subordinated loan agreement can be withdrawn by the lender only at the stated maturity date or may be prepaid under limited circumstances. Any subordinated debt can be repaid only if, after giving effect to such repayment, the Company meets net capital requirements governing withdrawal of subordinated debt.

Interest expense on the subordinated liabilities was \$2,500 for the year ended June 30, 2007.
