INDEPENDENT ACCOUNTANTS' REPORT

To the Board of Directors and Stockholders of  
Perkins, Smart & Boyd, Inc.

We have audited the accompanying statements of financial condition of Perkins, Smart & Boyd, Inc., as of April 30, 2007 and 2006, and the related statements of income, changes in stockholders' equity, cash flows, and changes in liabilities subordinated to claims of general creditors for the years then ended. In addition, we audited the supplementary schedules of computation of net capital, computation of basic net capital requirements, computation of aggregate indebtedness, computation of determination of reserve requirements, information relating to the possession or control requirements and reconciliation pursuant to Rule 17a-5(d)(4). These financial statements and supplementary schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and supplementary schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and supplementary schedules referred to above present fairly, in all material respects, the financial position of Perkins, Smart & Boyd, Inc. at April 30, 2007 and 2006, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

PERKINS, SMART & BOYD, INC.

Notes to Financial Statements

April 30, 2007 and 2006

1) Description of Business and Summary of Significant Accounting Policies

Description of Business

Perkins, Smart & Boyd, Inc. (Company) is a full service securities broker providing investment advisory and other related services to clients in the United States. It operates as an introducing broker on a fully disclosed basis and does not hold funds or securities for customers. The Company is a member of the National Association of Securities Dealers (NASD) and the Securities Investor Protection Corporation (SIPC). The Company was incorporated under Kansas laws and commenced operations on May 5, 1976.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities Exchange Act of 1934 and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and preserves all related books and records as are customarily kept by a clearing broker-dealer.

Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less to be cash equivalents.

Receivables

The Company considers receivables to be fully collectible; accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made.

Office Furniture and Equipment

Office furniture and equipment are recorded at cost. Major renewals and betterments are capitalized, and maintenance and repairs that do not improve or extend the life of the respective assets are charged against earnings in the current period. Depreciation is provided for in amounts sufficient to relate the cost of depreciable assets to operations over their useful lives of five to seven years using accelerated recovery methods.

Investments

Investments are carried at market value and consist of common stock held for trading purposes. Net unrealized gains included in earnings for the year ended April 30, 2007 and 2006 are \$11,430 and \$62,128, respectively.

Intangibles

Customer accounts acquired with the purchase of a business in February 1995 are being amortized over 15 years.

Revenue Recognition

Customers' securities transactions and related commission income and expense are recorded on a trade date basis.

Income Taxes

Income tax provisions are based on income reported for financial statement purposes. Deferred income taxes arise from the recognition of temporary differences between earnings determined for financial and tax purposes. Such temporary differences are principally related to the use of accelerated depreciation methods for tax purposes, the difference between the book and tax basis of investment securities, and the net effect of the conversion from accrual accounting to cash basis accounting for income tax purposes.

PERKINS, SMART & BOYD, INC.

Notes to Financial Statements

April 30, 2007 and 2006

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentrations

Because of the nature and size of the Company's operations, it occasionally maintains cash balances in excess of federally insured limits at financial institutions. The Company has not experienced any losses on such accounts.

2) Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1). This rule requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 10 to 1. Rule 15c3-1 also provided that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At April 30, 2007, the Company had net capital of \$234,120 which was \$184,120 in excess of its required net capital of \$50,000. The Company's debt to net capital ratio was .69 to 1.

3) Income Taxes

The Company's aggregate (current plus deferred) income taxes for the years ending April 30, 2007 and 2006 represent 45% and 28%, respectively, of its income before income taxes for the periods. These percentages are greater than the expected income tax rates that would apply to such income. The greater tax rates are principally attributable in both periods to expenses that are net deductible in determining taxable income.

Deferred income taxes are provided for temporary differences between the financial statement and income tax bases of assets and liabilities and temporary differences in reporting income and expense. The principal components of the Company's deferred income taxes at April 30, 2007 and 2006 consisted of the following:

	<u>2007</u>	<u>2006</u>
Deferred tax asset:		
Contributions not deductible until future years	\$ <u>1,900</u>	<u>2,471</u>
Deferred tax liabilities:		
Depreciation	\$ 267	530
Use of cash basis for income tax reporting	12,052	10,179
Unrealized gains in value of investments, not recognized for income tax reporting	<u>40,863</u>	<u>38,690</u>
	\$ <u>53,182</u>	<u>49,399</u>

PERKINS, SMART & BOYD, INC.

Notes to Financial Statements

April 30, 2007 and 2006

4) **Operating Lease**

The Company leases office space and automobiles under various operating leases. Minimum future obligations on these operating leases are as follows:

<u>Year Ended</u>		
April 30, 2008	\$	59,239
April 30, 2009		54,482
April 30, 2010		32,572

Total rent expense under operating leases for the years ended April 30, 2007 and 2006 were \$78,075 and \$71,859, respectively.

5) **Deposits**

Deposits with clearing organizations represent funds required to remain on deposit with the Company's clearing brokers, Southwest Securities, Inc. and First Southwest Securities, Inc. Withdrawals can be made only with the permission of the clearing companies, and a minimum balance of \$10,000 and \$20,000, respectively, must be maintained at all times.

6) **Employee Benefit Plan**

The Company has a 401(k) plan for the benefit of all eligible employees. Participants may elect to defer up to 10% of their annual compensation to be contributed to the plan subject to limits as specified by the Internal Revenue code. During the years ended April 30, 2007 and 2006, the company made no matching contributions to the plan.

7) **Financial Instruments with Off-balance-sheet Credit and Market Risk**

Customer transactions are introduced to and cleared through clearing brokers. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations. Such transaction may expose the Company to significant off-balance sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. In conjunction with the clearing brokers, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral, or reduce positions where necessary.

The Company does not anticipate nonperformance by customers or its clearing brokers. In addition, the Company has a policy of reviewing, as considered necessary, the clearing broker with which it conducts business.

8) **Material Inadequacies**

None noted.

## INDEPENDENT ACCOUNTANTS' REPORT

To the Board of Directors and Stockholders of  
Perkins, Smart & Boyd, Inc.

In planning and performing our audit of the financial statements of Perkins, Smart & Boyd, Inc. for the years ended April 30, 2007 and 2006, we considered its internal control structure including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

We also made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

INDEPENDENT ACCOUNTANTS' REPORT - Continued

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at April 30, 2007, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the New York Stock Exchange and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
