Notes to Financial Statements

July 31, 2007

1. ORGANIZATION

J.P. McGowan & Company, Inc. (the "Company") is a securities broker dealer, registered with the Securities and Exchange Commission and NASD. The Company conducts a general securities business on a fully disclosed basis. The Company, like other securities firms, is directly affected by general economic and market conditions, including fluctuations in volume and price levels of securities, changes in interest rates and securities brokerage services, all of which have an impact on the Company's liquidity.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue – Securities transactions (and related revenue and expense, if applicable) are recorded on a settlement date basis, generally the third business day following the transaction date. This is not materially different from trade date basis.

Property and Depreciation – Furniture and equipment are depreciated generally on an accelerated basis over their estimated useful lives (three to seven years).

Income Taxes – The Company's method of accounting for income taxes conforms to Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes ("SFAS No. 109") (Note 8). This method requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting basis and tax basis of assets and liabilities.

Fair Value of Securities – The market value of securities owned and sold short, consisting of state and municipal obligations is determined by the Company using quoted market prices, dealer quotes and prices obtained from independent third parties.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates and assumptions.

3. COMPUTATION FOR DETERMINATION OF RESERVE REQUIREMENTS

The Company will operate in accordance with the exemptive provision of paragraph (k)(2)(B) of SEC Rule 15c3-3. All customer transactions are cleared through Pershing Division of Donaldson, Lufkin & Jenrette Securities Corporation ("Pershing") on a fully disclosed basis.

J.P. MCGOWAN & COMPANY, INC.
Notes to Financial Statements (Continued)

4. NET CAPITAL REQUIREMENTS

The Company is subject to the Uniform Net Capital Rule (Rule 15c3-1) of the Securities Exchange Act of 1934 that prohibits a broker-dealer from withdrawing corporation capital except upon six months' notice and from engaging in any securities transaction at a time when its "Aggregate Indebtedness" exceeds fifteen times its "Net Capital" as those terms are defined by this Rule. As a result of this Rule, Company capital may be withdrawn only to the extent that net capital is in excess of required net capital that, in any event, may not be less than \$100,000.

At July 31, 2007, the Company's "Aggregate Indebtedness" and "Net Capital" (as defined) were \$43,759 and \$406,609, respectively, and its net capital ratio was .11 to 1. "Net Capital" exceeded minimum capital requirements by \$306,609 at that date.

5. PAYABLE TO CLEARING BROKER

Pursuant to the clearing agreement with Pershing (See Note 3), the Company can borrow from Pershing up to 75% of its eligible municipal inventory in order to finance such inventory. The Company pays interest on any outstanding balance due Pershing at brokers call rate plus ½% (7.50%) at July 31, 2007. Interest expense was \$28,003 for the year ended July 31, 2007.

6. COMMITMENTS AND CONTINGENT LIABILITIES

In the normal course of business, the Company enters into when-issued and underwriting commitments. The transactions relating to such commitments that were open at July 31, 2007 had no material effect on the financial condition of the Company.

7. PROFIT SHARING PLAN

The Company has a profit sharing plan for those employees who meet the eligibility requirements set forth in the plan. The amount of the contribution to the plan is at the discretion of the Company's management. The Company made no contribution to the plan for the year ended July 31, 2007.

Income taxes are provided for the tax effects of transactions reported in the financial statements and consists of deferred taxes that may be recognized for operating losses that are available to offset future taxable income. At July 31, 2007, the Company had deferred tax asset of approximately \$9,470 composed entirely of net operating losses. The deferred tax asset was reduced by a full valuation allowance at July 31, 2007, due to the uncertainty of future profits.

Due to certain Pennsylvania municipal bond profits being exempt from tax the Company's income tax provision does not include a provision for Pennsylvania corporate income tax.

The Company has approximately \$63,131 of net operating losses (NOLS), as of July 31, 2007, available to reduce future federal taxable income. These NOLS will expire as follows:

Board of Directors

J. P. McGowan & Company, Inc.

In planning and performing our audit of the financial statements and supplemental schedules of J.P. McGowan & Company, Inc. (the Company) for the year ended July 31, 2007, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities Exchange Commission (SEC) we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1) Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13.
- 2) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at July 31, 2007, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the NASD, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
