## NOTES TO FINANCIAL STATEMENTS

### YEARS ENDED JULY 31, 2007 AND 2006

#### Note 1 - Summary of Significant Accounting Policies

**Nature of Operations** - The Company was organized on November 30, 2001 and commenced active operations on September 13, 2002. Its principal business activity is to provide investment banking services including advising and managing the sale of private enterprises and non-core subsidiaries or divisions, raising capital and refinancing, advising and managing the acquisition of businesses, and providing strategic options advice.

**Estimates** - Management uses estimates and assumptions in preparing these financial statements in accordance with U.S. generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

**Cash Equivalents** - Cash equivalents consist of highly liquid investments with original maturities of three months or less.

**Accounts Receivable** - Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

**Short-term Investments** - Short-term investments consist principally of U.S. Treasury Bills with maturities between three months and two years. Debt securities that the Company has the ability and intent to hold until maturity are accounted for as held-to-maturity securities and are carried at amortized cost.

**Revenue Recognition** - Commission revenues are recognized on a trade date basis.

**Income Taxes** - The Company does not pay federal and state income taxes on its taxable income. Instead, the members are liable for individual federal and state income taxes on their proportionate share of the Company's taxable income.

**Concentration of Credit Risk** - Financial instruments which potentially subject the Company to concentration of credit risk consist principally of temporary cash investments and short-term investments. The Company places its temporary cash investments and marketable securities with high credit financial institutions. However, a portion of temporary cash investments may exceed FDIC insured levels from time to time. The Company monitors the condition of the financial institutions in which it invests.

The Company claims exemption from Rule 15c3-3 of the Securities and Exchange Commission under paragraph (k) (2) (i) of that rule. During the year ended July 31, 2007, the Company was in compliance with the conditions of the exemption.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL STRUCTURE  
REQUIRED BY SEC RULE 17a-5**

Member  
Grant Thornton Corporate Finance, LLC  
Boston, Massachusetts

In planning and performing our audit of the financial statements of Grant Thornton Corporate Finance, LLC (the "Company") as of July 31, 2007 and for the year then ended, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission ("Commission"), we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Rule 17a-5(g); (1) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of rule 15c3-3. We did not review the practices and procedures followed by the Company, (1) in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; or (2) in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with U.S. generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected timely by employees in the normal course of performing their assigned functions. However, we noted no matters involved in the internal control structure, including procedures for safeguarding securities that we consider to be material weaknesses as defined above. The Company was in compliance with the exemptive provisions of Rule 15c3-3 as of July 31, 2007 and no facts came to our attention indicating that such conditions had not been complied with during the year then ended.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and our study, we believe that the Company's practices and procedures were adequate at July 31, 2007 to meet the Commission's objectives.

This report is intended solely for the information and use of management, the Securities and Exchange Commission, the National Association of Securities Dealers, Inc. and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
