FMS BONDS, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business and Organization

FMS Bonds, Inc. (the Company), is a broker and dealer specializing in municipal bonds. The Company acts primarily in a principal capacity, buying and selling for its own account and trading with customers and other dealers. To a lesser extent, the Company acts in an agency capacity, buying and selling equity securities and annuities for its customers and charging a commission.

Government and Other Regulation

The Company's business is subject to significant regulation by various governmental agencies and self-regulatory organizations. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

Securities Transactions and Revenue Recognition

Securities transactions are reported on a trade date basis, and securities owned and securities sold, but not yet purchased are valued at market. The resulting difference between cost and market is included in the statement of operations.

Interest income is recorded on an accrual basis.

Property and Equipment

Property and equipment is recorded at cost. Expenditures for major betterments and additions are charged to the asset accounts while replacements, maintenance and repairs which do not improve or extend the lives of the respective assets are charged to expense currently.

Depreciation and Amortization

Depreciation and amortization of property and equipment is computed using the straight-line method at various rates based upon the estimated useful lives of the assets. The range of estimated useful lives is summarized as follows:

Furniture and fixtures	5 to 8 years
Office equipment	5 to 8 years
Leasehold improvements	5 to 10 years
Transportation equipment	5 years

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Receivables

The Company does not provide a reserve for uncollected receivables as substantially all amounts are collateralized by securities awaiting delivery. Amounts are charged directly to expense when deemed uncollectible, and have historically been immaterial.

Income Taxes

The Company has elected, with the stockholders' consent, to be taxed under the S Corporation provisions of the Internal Revenue Code. Under these provisions, the taxable income of the Company is reflected by the stockholders on their personal income tax returns.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising Costs

Advertising costs are charged to operations when incurred. Advertising expense approximated \$1,330,285 for the year ended June 30, 2007.

NOTE 2. SECURED DEMAND NOTES COLLATERALIZED BY MARKETABLE SECURITIES AND SUBORDINATED LIABILITIES

Secured demand notes collateralized by marketable securities consist of non-interest bearing loans to stockholders of \$6,350,000.

The subordinated liabilities may be repaid at the stated maturity dates only if, after giving effect to such repayment, the Company meets the regulatory net capital requirements governing repayment of such subordinated debt. These loans were made under agreements pursuant to the rules and regulations of the Securities and Exchange Commission, approved by the Financial Industry Regulatory Authority ("FINRA") (formerly known as the National Association of Security Dealers, Inc.) and are subordinated to the claims of general creditors.

Effective August 13, 2007, extension of maturity of \$3,035,000 of secured demand notes receivable and corresponding liabilities to stockholders was granted, with FINRA approval, with a new expiration date of August 31, 2010.

At June 30, 2007, the Company had accrued \$142,211 for this plan. Additionally, the Company maintains a non-qualified Senior Executives' Retirement Plan (SERP). Securities Sold, But Not Yet Purchased

Securities sold, but not yet purchased aggregate \$621,457 at June 30, 2007. Subsequent market fluctuations may require the Company to purchase these securities at prices which exceed the market value in the accompanying statement of financial condition.

Custody of Securities

Custodial functions for the Company's securities transactions are substantially provided by a New York City bank. At June 30, 2007, a majority of securities owned is held by this bank.

Deposits with Financial Institutions

The Company may, during the course of operations, maintain cash deposits in excess of federally insured limits.

NOTE 9. CREDIT CONCENTRATIONS AND OFF-BALANCE-SHEET RISK
(Continued)

Other Risk Concentrations

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
REQUIRED BY SEC RULE 17a-5**

To the Stockholders
FMS Bonds, Inc.
Boca Raton, Florida

In planning and performing our audit of the financial statements of FMS Bonds, Inc. (the Company) for the year ended June 30, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC); we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g), in the following:

1. Making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the reserve required by rule 15c3-3(e)
2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by rule 15c3-3

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

**KAUFMAN
ROSSIN &
CO.** PROFESSIONAL
ASSOCIATION
CERTIFIED PUBLIC ACCOUNTANTS

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

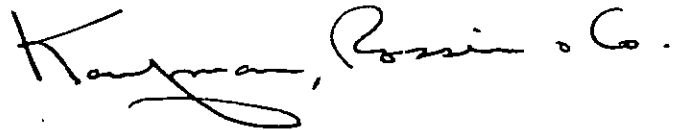

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at June 30, 2007, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, FINRA and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
