INDEPENDENT AUDITOR'S REPORT

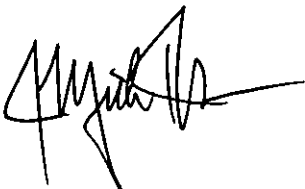

The Board of Directors
Murray Securities, Inc.

I have audited the accompanying statement of financial condition of Murray Securities, Inc. as of September 30, 2007 and the related statements of income, changes in stockholder's equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above, present fairly, in all material respects, the financial position of Murray Securities, Inc. at September 30, 2007 and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

My audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II, and III, is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MURRAY SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2007

NOTE A – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization

Murray Securities, Inc. (the Company) was incorporated under the laws of the State of Texas on October 17, 2006. The company intends to act as a broker/dealer in certain securities as allowed by the Securities and Exchange Commission ("S.E.C.") and the National Association of Securities Dealers ("N.A.S.D."). The Company received approval from N.A.S.D. to be a registered broker/dealer effective April 4, 2007.

Depreciation

Depreciation is provided on a straight-line basis using estimated useful lives of five to seven years. Depreciation of \$823 has been charged to expense for the year ended September 30, 2007. Depreciation for income tax purposes totaled \$16,271.

Securities Transactions

Murray has an arrangement with Southwest Securities, Inc. in Dallas, Texas, through which securities transactions are cleared. Murray receives commissions from Southwest Securities, Inc. net of any clearance fees.

Marketable Securities

Marketable securities consist of money market and debt securities. The Company classifies these as trading securities based on its intent to sell them in the near term. These securities are reported at fair value, with unrealized gains and losses included in income.

Commissions

Commissions and related clearing expenses are recorded on a trade-date basis as security transactions occur.

Statement of Cash Flows

The Company's daily cash transactions are conducted through a money market account. Regulatory agencies require that these accounts be subject to special deductions for net capital computations. Therefore, the money market account is not considered a cash equivalent.

Estimates

Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Because it is at least reasonably possible that a change in estimate will occur in the near term, actual results could vary from the estimates that were assumed in preparing the financial statements.

Income Taxes

The Company accounts for income taxes in accordance with the provisions of Statement of Financial Accounting Standards SFAS No. 109 which requires recognition of deferred tax liabilities and assets for

NOTE A – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES(continued)

the expected future consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates. Income tax benefit for the year ending September 30, 2007 is due to the recognition of deferred income taxes for the difference in book and tax depreciation. The Company's net deferred tax liability of \$3,141 consists of the difference in book and tax depreciation.

Advertising

The Company expenses the cost of advertising as incurred. Advertising expense was \$689 for the year ending September 30, 2007.

NOTE B – NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and exchange Commission Uniform Net Capital Rule (SEC rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At September 30, 2007 the Company had net capital of \$97,060, which was \$47,060 in excess of its required net capital of \$50,000. The Company's net capital ratio was 0.96 to 1.

NOTE C – COMMITMENTS AND CONTINGENCIES

During the normal course of business, the Company clears customer transactions with Southwest Securities, Inc. in Dallas, Texas. Should customers default or otherwise fail to perform, Murray Securities, Inc. is obligated to close the transaction and bear any resulting loss. It is reasonably possible that a change in estimate will occur in the near term. An estimate of possible loss or range of loss cannot be made. At September 30, 2007, there was no liability for any such loss. In the normal course of business there are various outstanding commitments and contingent liabilities, which are not reflected in the accompanying financial statements. No losses are anticipated as a result of these transactions.

NOTE D – CONCENTRATIONS OF CREDIT RISK

The company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions in Texas. In the even the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

NOTE E – RETIREMENT PLAN

The Company has a Savings Incentive Match Plan for Employees (Simple) that covers all employees who have received at least \$5,000 in compensation during the preceding two years. The Company matches the employee salary deferrals up to 3% of annual compensation. Salary deferrals under Simple Plans for 2007 are limited to \$14,000 for employees fifty years of age or over and \$10,500 for employees under fifty years of age.

NOTE F – OPERATING LEASES AND RENTALS

The Company leases its office space under a operating lease dated January 1, 2007, requiring monthly lease payments of \$3,904. The lease is for a for thirty six (36) months terminating on December 31, 2009 with an option to renew for an addition thirty six (36) months. The payments for facility lease for the year ended September 30, 2007, totaled \$19,520. The following is a schedule of future minimum lease payments for the year ending September 30, 2007:

Year ending September 30,	
2008	\$ 46,848
2009	46,848
2010	<u>11,712</u>
Total	<u>\$ 105,408</u>

November 27, 2007

The Board of Directors
Murray Securities, Inc.

In planning and performing my audit of the financial statements of Murray Securities, Inc., for the year ended September 30, 2007 I considered its internal control, including control activities for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by rule 7a-5(g)(1) of the Securities and Exchange Commission, I have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that I considered relevant to the objectives stated in rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3 (a)(11) and for determining compliance with exemptive provisions of rule 15c3-3. Because the company does not carry securities accounts for customers or perform custodial functions for customer securities, I did not review the practices and procedures followed by the company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the company is responsible for establishing and maintaining internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5 (g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that the effectiveness of their design and operation may deteriorate.

My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control, including control activities for safeguarding securities that I believe to be material weaknesses as defined above. I understand that practices and

procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at September 30, 2007 to meet the SEC's objectives.

This report is intended solely for the use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on rule 17-a5 (g) under the Securities Exchange Act of 1934 in their regulations of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink, appearing to read 'J. Michael Johnson', with a long horizontal stroke extending to the right.
