INDEPENDENT AUDITORS' REPORT

To the Board of Directors

DELPHI FINANCIAL CORPORATION

We have audited the statements of financial condition of Delphi Financial Corporation as of September 30, 2007 and 2006 and the related statements of operations, changes in stockholders' equity, and cash flows for the years then ended that you are filing pursuant to Rule 17a-5(g) under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of Delphi Financial Corporation as of September 30, 2007 and 2006, and the results of its operations and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

A handwritten signature in black ink, appearing to read 'Mayer Hoffman McCann P.C.', written in a cursive style.

DELPHI FINANCIAL CORPORATION

NOTES TO FINANCIAL STATEMENTS

(1) Nature of business and significant accounting policies

Nature of business - Delphi Financial Corporation (the Company) arranges private financing of \$5 million to \$50 million for both public and private companies. The Company provides investment banking and advisory services to corporate clients regarding strategic financial and general business matters. The Company's 2007 investment banking activities and advisory services were primarily performed on behalf of two customers, which accounted for 100% of its revenues.

A summary of the Company's significant accounting policies follows:

Cash and cash equivalents - For purposes of reporting the statement of cash flows, the Company includes all cash accounts and all highly liquid investments purchased with a maturity of three months or less, other than securities held for sale in the normal course of business, as cash and cash equivalents. At times cash balances may be in excess of FDIC insurance limits.

Investments - The Company, in connection with providing investment banking and advisory services, has historically purchased certain warrants of the company it serves. These warrants are valued by management, as no ready market is available for the warrants or significant restrictions exist which limited the value of the warrants. Changes in fair market value of these securities are recognized as unrealized gains or losses.

Furniture and equipment - Furniture and equipment are recorded at cost. Expenditures for additions and improvements are capitalized, while repairs and maintenance costs are charged to expense.

Depreciation of furniture and equipment is computed on accelerated methods. Estimated useful lives for furniture and equipment are 5-7 years. Total depreciation expense was \$109 and \$0 for the years ended September 30, 2007 and 2006, respectively.

Revenue recognition - Investment banking fee income is recognized when earned, typically upon closing of the transaction. Income from consulting is recognized as the specific services are performed or if the arrangement does not specify the services over the term of the agreement. Reimbursements for expenses advanced on the clients' behalf are recognized as the expenses are incurred.

Receivable and credit policies - Receivables from clearing organizations for commissions earned by the Company are paid within 30 days of the month end close of business. Employee receivables principally consist of non-interest bearing loans due in six months. An employee receivable is considered delinquent if not paid on its maturity date. At that time, the note is placed on delinquent status.

The carrying amounts of employee receivables are reduced by a valuation allowance that reflects management's best estimate of the amounts that will not be collected. Management individually reviews all employee receivable balances monthly and based on an assessment of current creditworthiness, estimates the portion, if any, of the balance that will not be collected.

DELPHI FINANCIAL CORPORATION

NOTES TO FINANCIAL STATEMENTS

(1) Nature of business and significant accounting policies (continued)

A summary of the Company's significant accounting policies follows: (continued)

Income taxes - Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. The Company's temporary differences relate primarily to operating loss carryforwards. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Concentration of credit risk - As a broker and dealer, the Company is engaged in various securities activities, principally involving investment banking services to obtain debt and or equity capital for both private and public companies. The Company's investment banking activities are performed on a "best effort" basis. The Company is exposed to credit risk associated with the nonperformance of these customers in fulfilling their contractual obligations pursuant to these services.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) Income tax matters

The components of the income tax provision and deferred tax asset and liability are as follows:

	<u>Years Ended September 30,</u>	
	<u>2007</u>	<u>2006</u>
Current income taxes		
Federal income taxes	\$ 33,505	\$ 8,828
State and local income taxes	14,870	5,910
Tax benefit of net operating loss carryforward	<u>(5,800)</u>	<u>(14,738)</u>
Total current income tax expense	<u>42,575</u>	<u>-</u>
Deferred income taxes		
Change in deferrred tax valuation allowance	(5,800)	(14,738)
Net operating loss carryforward	<u>5,800</u>	<u>14,738</u>
Total deferred income tax expense	<u>-</u>	<u>-</u>
Total income tax expense	<u>\$ 42,575</u>	<u>\$ -</u>

DELPHI FINANCIAL CORPORATION
NOTES TO FINANCIAL STATEMENTS

(2) Income tax matters (continued)

The primary differences which give rise to net deferred taxes at September 30, 2007 and 2006 are:

	September 30,	
	2007	2006
Deferred tax asset		
Net operating loss carryforward	\$ -	\$ 2,624
Less valuation allowance	-	(2,624)
Total deferred tax asset	\$ -	\$ -

(3) Net capital requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. In addition, restrictions may be imposed to prohibit equity withdrawals or cash dividends if the resulting net capital ratio would exceed 10 to 1. At September 30, 2007, the Company had a deficit net capital as defined by Rule 15c3-1 of \$(9,298) and a required net capital of \$5,000. The Company's ratio of aggregate indebtedness to net capital was also a deficit at September 30, 2007. Subsequent to the September 30, 2007 the Company's stockholder deposited \$ 80,000 into its bank account, thereby reducing his obligation to the Company and increasing its net capital by the same amount.

(4) Exemption

The Company is exempt from Rule 15c3-3 of the Securities and Exchange Commission. Therefore, the Company is not required to make the periodic computation of reserve requirements for the exclusive benefit of customers.

(5) Leases

The Company leased office space in Minneapolis, Minnesota under a lease agreement which expired June 30, 2007. The Company continued to lease the space until September 30, 2007 on a month to month basis. Rent expense charged to operations was \$33,800 and \$34,700 for the years ended September 30, 2007 and 2006, respectively.

Effective October 1, 2007 the Company entered into an expense sharing agreement with an affiliated company. This agreement provides for the Company's use of a portion of the facility in exchange for a monthly fee. The fee is a variable amount based on the extent of the Company's use of the facility. The term of the expense sharing agreement is for the period beginning October 1, 2007 through September 30, 2008 and continues indefinitely thereafter subject to termination by either party on 90 days advance notice. The facilities portion of the expense sharing agreement is estimated to be \$2,500 a month for the 12 month period ending September 30, 2008

DELPHI FINANCIAL CORPORATION
NOTES TO FINANCIAL STATEMENTS

(5) Leases (continued)

The minimum estimated facilities payments required under this expense sharing agreement, are as follows:

<u>Years Ending September 30,</u>	<u>Amount</u>
2007	\$ 30,000
Totals	\$ 30,000

(6) Stockholders' equity

On May 25, 2001, the Company issued 17,000 shares of common stock for \$225,000. In conjunction with the newly issued shares, the Company and stockholders entered into an agreement which includes a policy for sharing revenue where the two parties collaborated on transactions, and a conditional put agreement obligating the Company to repurchase the newly issued shares. The stockholders can exercise this right on May 25, 2003 and anytime thereafter. The purchase price of the shares would be the lesser of \$225,000 or, an amount calculated by multiplying the three year total of net adjusted cash revenues and expenses by 6.25%. The purchase price is payable over five years with interest at the prime rate, or by any amount which would not reduce the Company's net capital below the minimum required.

Effective October 1, 2007 the Company and the owner of the 17,000 shares entered into an agreement whereby the Company would pay \$50 to the owner in exchange for the 17,000 shares of the Company's stock and the mutual release of any rights or obligation contained in their agreement.

INDEPENDENT AUDITORS' REPORT ON INTERNAL ACCOUNTING CONTROL

To the Board of Directors

DELPHI FINANCIAL CORPORATION

We have audited the financial statements of Delphi Financial Corporation for the year ended September 30, 2007, and have issued our report thereon dated November 26, 2007. As part of our audit, we made a study and evaluation of the Company's system of internal accounting control (which includes the procedures for safeguarding securities) to the extent we considered necessary to evaluate the system as required by auditing standards generally accepted in the United States of America. The purpose of our study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing, and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

We also made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13; or in complying with the requirements for prompt payment for securities of Section 4(c) of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. The objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

To the Board of Directors
Delphi Financial Corporation
Page Two

Because of inherent limitations in any internal accounting control procedures or the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of Delphi Financial Corporation taken as a whole. However, as discussed below, we identified a certain deficiency in internal control over financial reporting that we consider to be a significant deficiency.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Company's ability to initiate, authorize, record, process, or report financial data reliably, in accordance with generally accepted accounting principles, such that there is more than a remote likelihood that a misstatement of the Company's financial statements that is more than inconsequential will not be prevented or detected by the Company's internal control. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We consider the following deficiency to be a material weakness in internal control over financial reporting.

The size of the business and limited number of employees imposes practical limitations on the effectiveness of those internal accounting control practices and procedures that depend on the segregation of duties. The Company's employees have only a moderate level of knowledge relating to financial reporting and disclosure requirements. The Company relies on its external auditors to assist in the preparation of certain of its financial disclosures. Under the provisions of American Institute of Certified Public Accountants Statements of Auditing Standards No. 112 the knowledge necessary to apply generally accepted accounting principles in preparing financial statements is defined as an area of material weakness in internal control. Since this condition is inherent in the size of the Company, the specific weaknesses are not described herein, and no corrective action has been taken or proposed by the Company.

In addition we considered the Company's lack of thoroughness in identifying and accruing certain amounts payable at year end to be a significant deficiency. The Company is taking steps to revise its procedures to identify and timely record all amounts payable at period end.

To the Board of Directors
Delphi Financial Corporation
Page Three

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at September 30, 2007, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission and the National Association of Securities Dealers, Inc., and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of members, and should not be used for any other purpose.

INDEPENDENT AUDITORS' REPORT ON ADDITIONAL INFORMATION

To the Board of Directors

DELPHI FINANCIAL CORPORATION

We have audited the financial statements of Delphi Financial Corporation as of September 30, 2007. Our audit was made for the purpose of forming an opinion on the basic financial statements.

The information contained in Schedules I, II, III, and IV are presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements.
