## INDEPENDENT AUDITORS' REPORT

To the Board of Directors of BMO Nesbitt Burns Securities Ltd.

We have audited the accompanying statement of financial condition of BMO Nesbitt Burns Securities Ltd. as of October 31, 2007 that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of BMO Nesbitt Burns Securities Ltd. as of October 31, 2007 in conformity with accounting principles generally accepted in the United States of America.

## **2. Significant accounting policies (continued):**

### **(d) Income taxes:**

Deferred income taxes are provided in recognition of temporary differences between the carrying amount of assets and liabilities and their respective tax bases, operating losses and tax credit carryforwards made for financial reporting and income tax purposes. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax expense or benefits are recognized in the financial statements for the changes in the deferred tax assets or liabilities between years.

### **(e) Foreign currency transactions:**

Monetary assets and liabilities denominated in foreign currencies are translated at year-end rates of exchange, while the income statement accounts are translated at average rates of exchange for the year. Gains or losses resulting from foreign currency translation are included in net income.

Non-monetary assets and liabilities related to foreign currency balances are translated into U.S. dollars at the exchange rates prevailing at the transaction dates.

### **(f) Use of estimates:**

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Actual results could differ from those estimates.

### **(g) Fair values of financial assets and liabilities:**

The fair values of financial assets and liabilities approximate their carrying amounts due to the imminent or short-term maturity of these financial assets and liabilities.

### **5. Net capital requirements:**

In the United States of America, the Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital.
