Dear Sirs:

The enclosed supplemental information is being furnished to the Securities and Exchange Commission (the "SEC") on behalf of Witwatersrand Consolidated Gold Resources Limited (the "Company") pursuant to the exemption from the Securities Exchange Act of 1934 (the "Act") afforded by Rule 12g3-2(b) thereunder.

This information is being furnished under paragraph (1) of Rule 12g3-2(b) under the Act with the understanding that such information and documents will not be deemed to be "filed" with the SEC or otherwise subject to the liabilities of Section 18 of the Act and that neither this letter nor the furnishing of such information and documents shall constitute an admission for any purpose that the Company is subject to the Act.

Very truly yours,

Mr H G Hira
Investor Relations Manager

(Wits Gold or the Company)

Wits Gold intersects reefs in Free State drilling

Wits Gold (JSE: WGR; ADR: WIWTY.PK) wishes to announce the intersection of Witwatersrand conglomerate reefs in its De Bron in-fill drilling programme. Diamond drilling in borehole DWN 21 has produced the following geological information:

	Depth from (m)	Depth to (m)	True Width (cm)
Beatrice Reef	663.38	566.12	271
Kalkoenkrans Reef	667.72	667.91	19
B Reef	674.72	679.87	505
Leader Reef	700.34	703.77	328

Wits Gold is encouraged by the continuity and thickness of these regionally important reefs as well as their shallow disposition in an area adjacent to Harmonys Merriespruit Shafts. In addition to intersections of these reefs in the original borehole, three deflections have also been completed. All of these core intersections have been sampled and submitted for gold and uranium analysis at the accredited Anglo Research laboratories. Receipt of these assay results is expected during January 2007.

A previous independent assessment of the De Bron project by Snowden Mining Industry Consultants estimated an Inferred Resource of 22.0Mt at 4.7g/t Au containing 103.4 tonnes (3.6Moz) of gold. This estimate was based on 14 boreholes, containing 241 reef intersections that had been achieved by Anglo American, an earlier holder of the De Bron mineral rights.
