REG-Surfcontrol PLC Interim Results - Part 1

RNS Number:3344Q
Surfcontrol PLC
30 January 2007

SurfControl plc ("SurfControl" or "the Company") FY 2007 Second Quarter Earnings

On-demand services growing faster than market and accelerated transition towards full channel model

Scotts Valley, CA (January 30, 2007) - SurfControl plc (London: SRF.L) the leading provider of global on-demand, network and endpoint IT security solutions, today reported financial results for the second quarter ended December 31, 2006.

Second Quarter Operational Highlights

- Q2 revenues and pro-forma profits in line with market expectations
- Overall billings growth of 11% (Q2 FY06: 3%)
- Shift in billings mix, reflecting market demand for multiple delivery mechanisms, increased channel success and shorter contracts
- On-demand service and product growth rates were 100% and -6% respectively, producing 2% overall growth on a like-for-like basis
- On-demand growth significantly ahead of market growth rates. Global availability and sales channel integration progressing well
- Expectation of positive profit contribution from on-demand sales confirmed for the fourth quarter
- Accelerated transition to full channel model: Q2 channel sales were 79% of total billings (Q2 FY 06: 68%) and new business was 89% (Q2 FY 06: 80%) of total new business
- Shorter contract lengths due to withdrawal of the 3-year deep discount programme
- E-mail security sales now 34% of total billings mix

Commenting on the results, Patricia Sueltz, CEO said, "I am very pleased that we are on schedule with our strategy of building on our existing technologies and making our on-demand services globally available. Market demand for on-demand services and appliances continues to grow faster than software and the shift in our sales mix directly reflects this. Our strategy of providing e-mail, web and endpoint protection - all via either on-demand service, or appliance or software - is being very well received by our partners and customers. We expect a successful outcome to the year as a whole."

Second Quarter and Half Year Financial Highlights

Since SurfControl acquired BlackSpider Technologies (BST) in July 2006, on-demand service billings have grown 44% in Q1 and 100% year-over-year in Q2. This growth momentum and achievement of infrastructure leverage through BST's integration into our existing operations are both ahead of management's plan. As a result we now confirm that we expect there to be a positive profit contribution from on-demand sales during the fourth quarter.

Billings in the quarter grew 11% to \$33.5m (Q2 FY06: \$30.3m). On-demand services billings grew 100% to \$5.0m with product billings declining 6% to \$28.5m (Q2 FY06: \$30.3m). Adjusted to recognise the prior year Q2 on-demand services billings of BST of \$2.5m, the quarter on quarter billings growth rate of the Company is 2% on a like-for-like basis.

The continuing stability of our renewal rates, and the growing popularity of on-demand services, provides increasing confidence of renewing customer contracts. A decision was therefore taken to withdraw automatic deep discounting on three year deals. This reduced three year contracts as a proportion of total billings to 34% (Q2 FY06: 44%). This had little impact on recognised revenue in the quarter although deferred revenue growth and operating cash flow were slightly lower as a direct result.

In addition, during the quarter we moved further towards a full channel business model which is in line with our commitment to our channel partners and remains a strategic goal for the Company. The channel sold 89% of new business (Q2 FY 06: 80%) and made 79% of overall sales (Q2 FY 06: 68%). The proportion of sales made by distributors rather than resellers also rapidly increased in Q2 compared to the prior year. Distributors receive incremental margin over that received by resellers.

The combined effect of shorter contract lengths and an increased proportion of billings through our reseller and distributor partners meant that the level of billings declined compared to last year.

On 7 December 2006 SurfControl made a regulatory-driven disclosure of an unsolicited approach

in relation to a potential offer for the Company, which created a degree of uncertainty surrounding SurfControl's future as an independent company. While we cannot quantify the direct impact on billings, the Company did experience a number of instances in the last three weeks of December where new business opportunities were deferred possibly as a result of customer caution, coupled with opportunistic competitive activity.

During the quarter the Company won 1,151 new customers (Q2 FY06: 919) including 295 on-demand customers. Renewal rates are strong and remained steady in the target range of 70-80%. The number of large deals >\$50,000 was 73 in the quarter (Q2 FY06: 77).

Revenue for the quarter increased by 26% to \$31.6m (Q2 FY06: \$25.1m) and increased by 24% to \$61.3m for the half year to December 31, 2006 (H1 FY06: \$49.2m). Q2 product revenue increased 14% and Q2 on-demand services revenue grew 98%. Adjusted to recognise the prior year on-demand services revenues of BST of \$1.6m, the quarter on quarter revenue growth rate of the Company is 19% on a like for like basis.

Overall gross margin for the quarter was 97% (Q2 FY06: 97%) and 96% for the half year ended December 31, 2006 (H1 FY06: 97%), reflecting an improvement in the negotiated royalty rates payable to our anti-virus partners.

Licence revenue was 10% of total revenue in the quarter (Q2 FY06: 15%). The lower proportion of licence revenue compared to last year reflects the shift towards subscription pricing for our products, as well as the increasing mix of on-demand revenue which is fully subscription-based. Deferred revenue increased by 17% to \$98.1m (Q2 FY06: \$83.8m) increasing forward revenue visibility. As a result of the reduced contract lengths in the quarter, 71% of the deferred revenue will be recognised as revenue in the next 12 months (Q2 FY 06: 68%).

Americas' revenue for the quarter was 53% of the total (Q2 FY06: 61%). The shift has been primarily driven by the rapid take up of on-demand services, which to date has been largely generated by customers in EMEA.

Pro-forma operating profit for the quarter was \$3.0m (Q2 FY06: \$4.1m pre-restructuring) and was \$4.2m for the half year to December 31, 2006 (H1 FY06: \$7.5m pre-restructuring). The year on year decrease reflects the pro-forma operating losses arising from the on-demand services of \$0.6m in Q2, and a general increase in operating expenses compared with a year ago.

FTE headcount at the end of the second quarter was 631 (Q1 FY07: 608), with the increases primarily arising in engineering and sales within the Americas.

Share-based payment costs, amortisation of intangible assets and depreciation are required under IFRS to be included in the principal operating cost categories of selling and distribution, research and development, and general and administrative. Amortisation of intangibles increased to \$1.6m (Q2 06: \$0.6m) as a result of the BST acquisition. Share-based payments were \$1.1m (Q2 06: \$0.6m) due to the increase in the number of employees, staff turnover, and the provision for employer taxes linked to the increase in the share price during the second quarter. Depreciation was \$1.0m (Q2 06: \$0.5m) in line with capital expenditure on internal infrastructure, information systems and most recently the extension of on-demand data centres.

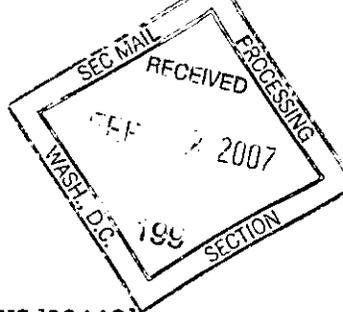

Net interest income for the quarter was \$0.5m (Q2 FY 06: \$0.8m) and was \$0.8m for the half year to December 31, 2006 (H1 FY06: \$1.6m). The reduction in net interest income reflects the lower levels of cash and liquid investments following the purchase of BST in July 2006 and interest paid on a line of credit partially drawn in Q1 that was subsequently repaid in Q2.

After charging these costs, the loss before tax for the quarter was \$0.4m (Q2 FY06: loss of \$0.4m) and was a loss of \$2.0m for the half year to December 31, 2006 (H1 FY06: loss of \$0.6m). The effective tax rate for FY07 is estimated at approximately 25%. Basic loss per share for the quarter was 1.0 cents (Q2 FY06: loss of 1.0 cents) and was a loss of 5.3 cents for the half year to December 31, 2006 (H1 FY06: loss of 1.6 cents).

Pre-restructuring operating cash flow for the quarter was \$1.6m (Q2 FY06: \$3.8m) and was \$4.5m for the half year to December 31, 2006 (H1 FY06: \$10.8m). The decrease relative to the prior year was primarily driven by the reduced levels of pro-forma profit and the current negative cash flow from on-demand services. Cash generated from operations was \$1.4m for the quarter (Q2 FY06: \$1.7m) and was \$4.0m for the half year to December 31, 2006 (H1 FY06: \$7.7m). Net cash and liquid investments ended the quarter at \$43.5m, slightly lower than the \$45.8m as at September 30, 2006 primarily due to capital expenditure outflows.

Second Quarter Corporate Highlights

Introduction

During the second quarter SurfControl made continued progress on key FY 07 objectives with strengthened channel relationships and the integration and roll out in the Americas of its on-demand services (ODS). The Company's complete portfolio of security solutions protect corporations from Internet threats, deliver business and regulatory compliance, and enable business continuity. Our "best of need" solutions offer an integrated and higher level of protection at a lower total cost of ownership, compared to a collection of point product offerings from different vendors. Reflecting this change in market demand, SurfControl now has a more balanced product mix with e-mail representing 34% of total sales.

On-demand services

Following the integration of on-demand services into our product portfolio, a particular focus during the quarter has been the launch and roll-out of our on-demand services in the Americas and preparation for its roll-out in the third quarter across APAC. The significant growth in Q2 was largely achieved by our momentum in EMEA. In the Americas the service was launched in the middle of the quarter. Early feedback from our resellers and our US customers has been positive and we are gaining early traction from a standing start.

MailControl, our on-demand e-mail security service, was recently awarded the Anti-Spam Premium Checkmark Certification from West Coast Labs. This level of certification is awarded to solutions that have a spam capture rate of more than 97 percent and MailControl successfully identified over 99 percent. SurfControl has now received Premium Level Certification for all three of the Company's e-mail solutions: E-mail Filter, RiskFilter and MailControl. SurfControl also moved up in the most recent Gartner Magic Quadrant for E-mail Filtering from "Niche" player to "Challenger".* These awards and recognition further underscore SurfControl's delivery of market leading protection at all points of vulnerability. In combination with our award-winning software and appliance offerings, the addition of on-demand services places the Company in a unique position: SurfControl is the only company to offer all three delivery methods worldwide.

In addition to its award winning MailControl service, SurfControl released a new version WebDefense, the Company's on-demand Web security service. WebDefense 1.1 includes new functionality such as new spyware and adware protection, as well as new time-based filtering capabilities. A V2.0 release will be released in the Spring.

The market

The market is supported by continued demand for maximum protection against all forms of online threats. During the quarter SurfControl identified and tracked a number of major threats such as spoof e-mail messages claiming to be from Adobe and Microsoft as well as threats embedded in a malicious website posing as the Italian Google site. During the last quarter, spam e-mail increased to a reported 90% of e-mail traffic, due to new spamming techniques such as image-based spam. MailControl successfully blocks image-based spam by using advanced technologies including optical character recognition, and advanced heuristics. By addressing these ever-increasing, ever-evolving threats to corporations, SurfControl is well positioned to grow in the future.

*Source: Gartner Magic Quadrant for E-Mail Security Boundary, 2006

We have also seen a marked change in the market's appetite for the various delivery mechanisms. Demand for appliances and on-demand services are growing faster than the demand for software solutions - a dynamic that has been reflected in SurfControl's business. Shipments of the RiskFilter e-mail appliance grew 60% sequentially from Q1 and 45% year-over-year.

Infrastructure enhancements for products and services

In recognition of the global demand for SurfControl's portfolio of product and service offerings, the Company announced in the quarter that it will host its award winning e-mail and Web security services at Equinix Internet Business Exchange™ (IBX(R)) centres in the Silicon Valley, Washington, D.C., Sydney and Hong Kong areas. These new deployments at Equinix's Internet hubs will provide SurfControl with unmatched global coverage providing customers with unparalleled levels of service. The new operations at Equinix are the infrastructure foundation for the global roll out of on-demand services currently underway at SurfControl. Since the end of the quarter the Company also announced its partnership with Akamai Technologies, Inc. who is now providing the product download and threat database update services to SurfControl's web, e-mail and endpoint security product customers around the world. Both of these infrastructure partnerships will help SurfControl provide best-in-class global reach for Internet threat protection to its customers.

Strategic channel partnerships and OEM relationships

The Company has seen a rapid take-up by resellers who wish to sell SurfControl's products. This is extremely encouraging and has been a key strategic goal for the Company, supported by an ongoing programme of initiatives. Globally, the channel partners have responded well to the increased focus, with sales of new products and services via the channel increasing to 89% in the quarter (Q2 FY06: 68%). Key distributors in the US and the UK have also significantly increased the volume of their business compared to the prior year. Whilst this had the effect of reducing the level of billings in Q2 compared to the prior year, we expect this to deliver both cost leverage and volume benefits in the near and medium term.

The Company's recognized excellence in technology is also being well received by existing and new OEM partners. Today SurfControl focuses on two main market areas; Unified Threat Management (UTM) appliances and mobile carriers/ISPs with partners such as Finjan and Juniper, and ByteMobile and Cisco CSE respectively. SurfControl filtering technology is also integrated with many other market leading appliance and on-demand service vendors as exemplified in the recently announced contract with Sophos and their web security and control appliance. Extending our reach via OEM partners is a key component of our channel strategy.

Extended customer relationships

The Company continues to win new customers and cross sell additional products and services to its existing customers. Renewal rates remain strong. New customer sales were 23% of billings, sales into the customer base 25%, renewals 48% and other 4% (Q2 FY06: 24%, 23%, 51% and 2% respectively). The average invoice value in the quarter decreased to \$7,100 (Q2 FY06: \$7,700) as a result of shorter contract periods, and bundled sales represented 25% of billings (Q2 FY06: 25%).

During the quarter the Company raised the level of protection for 1,151 new customers around the world (Q2 FY05: 919) including Faulkner University, Commerzbank, Veritas AG, Hudson City Saving Bank, Institute of Directors, Norwich City Council, Sunguard Business Integration, Oregon Department of Justice, Messier Dowty, Atos Origin IT Services UK LTD, State Of Maryland Department of Human Resources and the Northern Territories Government in Australia. New customers for our on-demand services included AGF Group, Kuoni Travel, Legal & General, ARM Holdings, William Grant Distillers and KKH.

Corporate activity

On 7th December 2006, the Company announced that it has received an unsolicited approach in relation to a potential offer for the Company. Discussions in relation to the potential offer are continuing. These discussions may or may not lead to an offer being made for the Company in due course. The Company is not providing any further information in relation to these discussions at this time. A further statement will be made in due course depending on the outcome of the discussions.

Outlook

The Company is on schedule with its strategy of making on-demand services globally available and building on its existing technologies. Market demand for on-demand services and appliances continues to grow faster than software and the shift in sales mix directly reflects this. The strategy of providing web, e-mail and endpoint protection - all via either on-demand service, or appliance or software - is being very well received by partners and customers. We expect a successful outcome to the year as a whole.

About SurfControl

SurfControl provides a portfolio of security solutions to protect our customers from Internet threats, deliver business and regulatory compliance, and enable business continuity. SurfControl believes that security should be treated as a science, delivering protection at multiple points -- "in the cloud" with on-demand security services, on the network with software and appliances, and on the desktop and mobile client. All of SurfControl's solutions for Web, e-mail and endpoint security are backed by industry-leading threat detection technologies, delivered by SurfControl's Global Threat Experts who work 24/7 to provide customers with dynamic zero-day protection. The company protects approximately 16 million users in over 25,000 customers worldwide, and employs more than 600 people in offices across Europe, the Americas, and Asia/Pacific. Independent review report to SurfControl plc

Introduction

We have been engaged by the company to review the income statement, balance sheet, statement of recognised income and expenditure, cash flow statement and supporting financial information for the six months ended 31 December 2006 set out on pages 8 to 25. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the company in accordance with the terms of our engagement to assist the company in meeting the requirements of the Listing Rules of the Financial Services Authority. Our review has been undertaken so that we might state to the company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company for our review work, for this report, or for the conclusions we have reached.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of and has been approved by the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual financial statements except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4 Review of interim financial information issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review is substantially less in scope than an audit performed in accordance with Auditing Standards and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 31 December 2006.

Notes to the un-audited financial information for the three months ended 31 December 2006

1. Basis of preparation

This interim financial information has been prepared under the same accounting policies, and methods of computation, as applied in the Group's most recent full year financial statements. In addition the following accounting policy has been adopted for acquired intangible assets.

* Intangible assets

During the period the Group's parent undertaking acquired the entire issued share capital of Black Spider Technologies Limited. As a consequence of this acquisition, the Group has recognised additional intangible assets including brands, customers relationships and customer contacts, which have been recognised on the basis that they are separable, arise from contractual or other legal rights, and can be measured reliably. Future economic benefits are expected to flow from the assets, which are carried at fair value, and are to be amortised to the income statement over an estimated useful economic life of five years. These additional intangible assets are subject to impairment testing, in accordance with the Group's existing accounting policies, on an annual or more frequent basis, and would be impaired to the extent that the recoverable amount is less than the asset carrying value.

The comparative financial information for the full year ended 30 June 2006 is abridged, and does not constitute SurfControl plc's statutory accounts for that year within the meaning of section 240 of the Companies Act 1985. The financial statements for year ended 30 June 2006 have been reported on by KPMG Audit Plc. The report of the auditor was unqualified and did not contain any statement under Section 237 of the Companies Act 1985.

The comparative financial information for the full year ended 30 June 2006 is abridged, and does not constitute SurfControl plc's statutory accounts for that year within the meaning of section 240 of the Companies Act 1985. The financial statements for year ended 30 June 2006 have been reported on by KPMG Audit Plc. The financial information for periods ended 31 December 2006, and 31 December 2005 is un-audited.

2. Segment reporting

Segment reporting is presented in the condensed financial information on a geographical basis, reflecting the Group's management and internal reporting structure. Geography is therefore the primary basis of segment reporting in the current and preceding financial periods.

The Group had one business segment during the current and preceding financial periods, being the development and sale of Internet security products and managed services.

12. Acquisitions

Acquisition of Black Spider Technologies Limited ("BST")

On 13 July 2006 the Group's parent undertaking, SurfControl plc, acquired the entire share capital of BST an "on demand" security services company. The provisional purchase price including directly attributable acquisition costs was \$38,239,000 paid in cash, together with the assumption of interest bearing borrowings with a fair value of \$2,296,000.

Acquiree net liabilities at the acquisition date, together with intangible assets. and deferred tax amounts recognised on acquisition were as follows:

	Carrying values \$'000	Provisional fair value adjustments (1) \$'000	Provisional recognised values \$'000
Customer relationships and contracts	-	13,891	13,891

Total consideration (2)			38,239
Unpaid or accrued acquisition costs			-

Cash outflow			38,239
			=====
Cash acquired from acquisition			2,766

Notes:

- (1) The provisional fair value adjustments relate to:
- recognition of acquired purchase intangibles together with deferred tax assets and liabilities.
 - Interest bearing borrowings acquired being restated to fair value.
 - Additional accruals for professional fees, employer tax obligations on options, and bonuses.
- (2) Acquisition costs were \$1,331,000.
- (3) Goodwill, intangible assets, and deferred tax amounts, together with the net liabilities of BST, are denominated in GBP.

The provisional value of intangible assets, deferred tax, and the fair value adjustments are based on management's best estimates, and will be finalised in the Group's 2007 full year financial statements. Goodwill represents the value of assets which cannot be separately recognised under IFRS, or which cannot be currently recognised on the grounds of uncertainty, including the value of the acquiree's workforce, potential revenue from cross selling into the Group's existing customer base, leverage of the on demand managed services outside of the UK/EMEA region, tax losses, and operating cost synergies.

BST contributed subscription revenue of \$5,881,000 and a net loss of \$2,664,000 after tax to the Group for the six month period. The unaudited draft financial statements for the year ended 30 June 2006 under BST's UK GAAP accounting policies reported subscription revenue of \$7,087,000 and a loss after tax of \$6,789,000.

REG-Surfcontrol PLC Rule 2.10 Announcement

RNS Number:5321Q
Surfcontrol PLC
01 February 2007

SURFCONTROL PLC ("SurfControl")

Rule 2.10 Disclosure - UPDATE

In accordance with Rule 2.10 of the City Code on Takeovers and Mergers, SurfControl announces that, as at the close of business on 31 January 2007, it had the following securities in issue:

- 28,745,898 ordinary shares of 10 pence each.

The ISIN reference number for these securities is GB0002901790.

Dealing Disclosure Requirements

Under the provisions of Rule 8.3 of the City Code on Takeovers and Mergers ("the Code"), if any person is, or becomes, "interested" (directly or indirectly) in 1% or more of any class of "relevant securities" of SurfControl, all "dealings" in any "relevant securities" of that company (including by means of an option in respect of, or a derivative referenced to, any such "relevant securities") must be publicly disclosed by no later than 3.30 pm (London time) on the London business day following the date of the relevant transaction. The requirement will continue until the date on which any offer becomes, or is declared, unconditional as to acceptances, lapses or is otherwise withdrawn or on which the "offer period" otherwise ends. If two or more persons act together pursuant to an agreement or understanding, whether formal or informal, to acquire an "interest" in "relevant securities" of SurfControl, they will be deemed to be a single person for the purpose of Rule 8.3.

Under the provisions of Rule 8.1 of the Code, all "dealings" in "relevant securities" of SurfControl by any offeror or SurfControl, or by any of their respective "associates", must be disclosed by no later than 12.00 noon (London time) on the London business day following the date of the relevant transaction.

A disclosure table, giving details of the companies in whose "relevant securities" "dealings" should be disclosed, and the number of such securities in issue, can be found on the Takeover Panel's website at www.thetakeoverpanel.org.uk

"Interests in securities" arise, in summary, when a person has long economic exposure, whether conditional or absolute, to changes in the price of securities. In particular, a person will be treated as having an "interest" by virtue of the ownership or control of securities, or by virtue of any option in respect of, or derivative referenced to, securities.

Terms in quotation marks are defined in the Code, which can also be found on the Panel's website. If you are in any doubt as to whether or not you are required to disclose a "dealing" under Rule 8, you should consult the Panel.

The distribution of this announcement in jurisdictions other than the United Kingdom may be restricted by law and therefore persons into whose possession this announcement comes should inform themselves about, and observe such restrictions.
