**Forward Looking Information**

*Certain information in this release is "forward looking information", which reflects management's expectations regarding the Company's future growth, results of operations, performance and business prospects and opportunities. In this release, the words "may", "would", "could", "should", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate" and "expect" and similar expressions, as they relate to the Company, are often, but not always, used to identify forward looking information. Such forward looking information reflects management's current beliefs and is based on information currently available to management. Forward looking information involves significant risks and uncertainties, should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of whether or not or the times at, or by which, such performance or results will be achieved. Such forward looking information includes: anticipated timing of loan borrowings; the commencement or outcome of any negotiations with third parties; future production levels; the amount, nature and timing of capital expenditures; the timing of refinery construction and mine start up; expectations regarding the financing of the alumina refinery project and associated infrastructure and the sources of financing; prices for alumina and aluminum; operation and other costs; and business strategies and plans of management.*

*A number of factors could cause actual results to differ materially from the results discussed in the forward looking information, including, but not limited to: a failure by the Company or its subsidiaries to complete the preconditions to the drawdowns under the loan; the political and economic risks of investing in a developing country; the Company may not be able to secure sufficient financing; construction may be affected by costs overruns, delays, labour shortages and other construction risks; the Company's dependence on a single mining property; the possible forfeiture of the Mining Concession (as defined in the Company's Annual Information Form dated March 29, 2006) in certain circumstances; volatility of alumina and aluminum prices; operational risks such as access to infrastructure and skilled labour; the cost of resettlement of affected populations; the volatility of prices of raw materials; and all other factors discussed under the heading "Risk Factors" in the Company's Annual Information Form dated March 29, 2006. Although the forward looking information contained in this release is based upon what management of the Company believes are reasonable assumptions, the Company cannot assure investors that actual results will be consistent with this forward looking information. If the assumptions underlying forward looking information prove incorrect or if more of the risks or uncertainties materialize, actual results may vary materially from those described in this release as intended, planned, anticipated, believed, estimated or expected. This forward looking information is made as of the date of this release, and the Company assumes no obligation to update or revise it to reflect new events or circumstances.*

**FOR IMMEDIATE RELEASE**

**GLOBAL ALUMINA ANNOUNCES STATUS  
OF JOINT VENTURE NEGOTIATIONS**

TORONTO, ON – February 7, 2007 – In its press release dated January 12, 2007, Global Alumina Corporation (the "Company") (TSX: GLA.U) announced an extension to February 15, 2007 of the negotiations to form the joint venture to develop and operate the Company's alumina refinery project in the Republic of Guinea (the "Project") with BHP Billiton group ("BHPB"), Dubai Aluminium Company Limited ("DUBAL") and Mubadala Development Company PJSC ("Mubadala").

The Company is pleased to announce that following meetings between the parties in January 2007, negotiations with respect to the Project have been substantially advanced and are expected to be completed by February 15, 2007. The agreements will then be subject to the approval of the management of BHPB and the Boards of the Company, DUBAL and Mubadala.

The board of directors of the Company has formed an independent committee to consider the proposed transactions in connection with the Project and make a recommendation to the Board of the Company.

BHPB is world's largest diversified resources company and the world's sixth largest producer of primary aluminum, with a total operating capacity in excess of one million tonnes of aluminum, approximately 14 million tonnes of bauxite and four million tonnes of alumina per annum.

DUBAL is the owner of one of the largest single site aluminum smelters in the western world. DUBAL, which is wholly owned by the Dubai government, produces and exports primary aluminum products to more than 40 countries world-wide. DUBAL is also party to a subscription agreement with the Company dated August 10, 2005, a copy of which is available on the Company's reference page at [www.sedar.com](http://www.sedar.com).
