Measures undertaken by the Issuer and the Auditor to reduce the effect of the specified factors: *due to absence of factors which may influence the auditor's independence from the Issuer, the Issuer and the Auditor undertook no such measures. The main action undertaken by the Issuer for non-occurrence of the specified factors was inclusion of conditions of the Auditor's independence from the Issuer into the conditions of rendering audit services.*

Issuer's auditor selection procedure:

Every year the Company engages a qualified auditor having no material relationships with the Company and its shareholders to carry out audit and confirm authenticity of the Company's annual financial statements.

The Auditor performs audit of the Company's financial and economic activity in accordance with the legislation of the Russian Federation on a contractual basis.

On March 3, 2005 the Board of Directors of the Issuer approved the Provisions on the procedure for holding a tender for selection of an auditing company for performing audit of accounting procedures and financial statements of "UTK" PJSC.

At the session of the Audit Committee of UTK's Board of Directors held on April 14, 2006 Ernst and Young LLC was proposed to be appointed the Auditor of "UTK" PJSC for 2006.

The auditor is to be approved by the Annual General Shareholders' Meeting. Terms of the Contract with the Auditor including size of compensation (fee) are to be approved by the Company Board of Directors.

Audit of economic and financial activity of the company shall be performed at any time at the request of shareholders owning in the aggregate 10 (ten) or more percent of the authorized capital. The shareholders initiating an audit shall submit a written request to the Board of Directors including reason of the request, names of the shareholders, number and type of shares owned by them, signature of the shareholder or his proxy. Should a proxy sign the request, Letter of Attorney shall be attached to the request.

During the reporting period the Company did not issue any securities distributed by public or private subscription.

2.5. Risks Related to Acquisition of the Placed Issued Securities (to be Placed)

2.5.1. Sector risks

The level of a competition in the Russian market of telecommunication services steadily grows. In spite of the fact that the market of fixed telephone services is shared among 7 inter-regional consolidated telecom operators, each of them being an absolute monopolist in the sphere of traditional services, we observe strengthening of competition with alternative operators in the sphere of providing new telecom services and services of long-distance telephony.

One of the major factors of uncertainty still remains a tariff reform, character and terms of which remain unclear.

Deterioration of the market position of the Company can be caused by the following factors:

- decrease in demand for services by the business sector in case of possible change of world prices for energy resources and non-ferrous metals;
- general downfall of the production volumes and economic growth impairment;
- the ruble devaluation rate exceeding the tariff growth rate, which would result in a significant increase of negative exchange rate margins and more expensive currency debt service;
- higher competition in the mobile communication sector by the largest mobile operators (OJSC "MTS", OJSC "MegaFon", OJSC "Vypelcom"). We consider this risk to be the most essential of sector risks in the long term;
- higher tariffs of OJSC Rostelecom as the major long-distance and international communication operator providing the Issuer's access to the national network and international communication channels;
- economic risks typical for the Russian Federation in general, including predictable revisions of legislation resulting in lower earnings of the Issuer or in a stricter taxation procedure for income on securities.

In case of unfavorable development of the situation in the region the Issuer plans to:

- optimize its operating costs structure;
- reduce enterprise's expenses, including reduction and revision of Issuer's investment program;
- change the structure of provided services in order to maximize the profit.

Risks related to possible variation of prices for raw materials and services used by the Issuer in its business (separately for the domestic and international market):

"UTK" PJSC acts as a telecommunications operator; the Issuer does not export any products, works or services. The portion of imported equipment or its component parts is significant. So, change in prices for such equipment may affect the Issuer's business.

Generally, influence of sector risks on the Issuer's business is estimated as moderate. Due to the Company's consolidation, "UTK" PJSC has obtained an opportunity to use unified infrastructure and technical means of the South of Russia, that allows to provide customers with the broadest range of telecom services in the regional market, as well as to develop inter-regional communication networks in order to reduce the cost of services and to increase profitability.

Though sector risks are unlikely to occur, the specified risks may result in decrease of the Issuer's revenues that will have an adverse effect on its paying capacity and fulfillment of its obligations in respect of securities.

Risks related to possible variation of prices for the Issuer's products and/or services (separately for the domestic and international market). Impact of the above risks on the Issuer's business and fulfillment of its securities-related obligations:

State regulation of the telecommunication industry brings risks and uncertainty common for all interregional companies into the Issuer's business. They are related to tariff revision and restricted cross-subsidizing. In particular, within the framework of reform of pricing of telecom services, local tariffs are to be increased and cross-subsidy of local telephony at the expense of long-distance services is to be eliminated. Work on improvement of tariff policy is carried out by holding of Svyazinvest together with Ministry of information technologies and communications of the Russian Federation, Federal Service for Tariffs and Federal Communications Control service.

According to the active laws, the rates for services of operators recognized as natural monopolists are subject to regulation by the RF antitrust authorities. According to the law, interregional communication operators are natural monopolists, and their business is subject to regulation by antitrust authorities.

Any change in the rates charged by natural monopolist operators requires approval by the RF antitrust authorities, and may therefore lag behind the variations of the actual economic situation and of the operator's costs. Therefore, the natural monopolists see the risk of delayed tariff updating, which impairs their competitiveness and may adversely affect their business profitability.

According to the new law "On communication", universal communication services are guaranteed in the RF. A universal service operator to be named in a bidding shall provide a universal communication service. Where no applicants are available, an operator having a material

standing in the territory may be appointed as such operator. Currently, an interregional company is the only communication operator of such level over most of the RF. Therefore, it will be assigned the "universal service operator" functions. In this case, the operator may not deny the duties assigned thereto. The "universal service" mechanism is to be introduced in the Russian Federation in 2006.

Provision of a universal service implies provision of a minimum scope of telecommunication services in all communities. Article 57 of the Federal law "On Communications" defines the requirements for provision of universal services:

rendering universal services provided from payphones – it must not take more than one hour for a user of universal services to arrive at a payphone on foot; at least one payphone must be installed in each inhabited locality and it must ensure free access to emergency services.

rendering universal services of data transmission and Internet access provided from public access centers – at least one public Internet access center must be organized in each settlement having more than 500 inhabitants.

"UTK" PJSC took part in the biddings on provision of universal services in Rostov and Astrakhan regions, announced by the Ministry for information technologies and communication. According to the results of the biddings the Company won:

in bidding 47 on rendering universal services provided from payphones in the Astrakhan region;

in bidding 53 on rendering universal services provided from payphones in the Rostov region.

According to the decision of the Bidding Commission the Company concluded agreements with the Federal Communications Agency on rendering universal services provided from payphones with respect to 11 lots in the Rostov region and 2 lots in the Astrakhan region. Under the terms of the agreements "UTK" PJSC is obliged to start provision of universal services no later than six months after the date of signing the agreement (at least one payphone per each lot should be in service), all payphones under the agreement should be put into service no later than 12 months from the date of signing the agreement.

2.5.2. National and regional risks

Main factors of national risks are the following:

- imperfection of the legislation regulating economic relations;
- inefficiency of judicial system;

Economic situation in Russia may become worse in case of the following material changes: drastic changes of national currency exchange rate that may result in reduction of the number of industry and agricultural enterprises of all forms of ownership operating in the district, growth of unemployment, decrease in the solvent demand of population. Such succession of events would result in suspension of the Issuer's investment program, decrease in volume of telecommunications services provided by the Issuer in the territory of the Southern federal district, and slowdown of revenue base growth.

Results of the elections to the State Duma and the presidential elections in Russia held on March 14, 2004 allow to predict with confidence that economic, legal and other reforms in the country will be continued that will result in increase in political and economic stability. In connection therewith we can speak about the essential downtrend of national risks. Their effect on the Issuer's economic operations can be recognized immaterial in the intermediate-term prospect.

On December 15, 2005 international rating agency Standard & Poor's raised the long-term foreign currency credit rating of the Russian Federation from "BBB-" to "BBB" and the long-term local currency credit rating from "BBB" to "BBB+". Standard & Poor's also upgraded short-term senior credit rating of the Russian Federation from "A-3" to "A-2" and affirmed its "ruAAA" rating according to national scale. The outlook is stable. Analytics consider, that the rating growth will not effect materially the Russia economy.

Regional risks should be estimated as more significant, than national ones due to the fact that the Issuer operates in the territory of Northern Caucasus, which is the most politically unstable region of Russia.

Among the factors of regional investment risk for SFD, sociopolitical risks owing to presence of the potential centers of development of conflicts in boundary territories of Northern Caucasian Republics and affinity of the Chechen republic are of the greatest importance. The basic risks are connected with the possibility of nationalization of the private capitals at sharp change of a political policy or their destruction in case of armed conflict. There is a risk of armed conflicts in Northern Caucasian republics and, therefore, faulty operation of cellular operators, serving the territory, and increase in traffic volume passing through UTK's communication networks. In case of emergency all communication facilities will be under strong protection of security service of "UTK" PJSC and FGUP "Svyaz -Bezopasnost". However, the basic part of the territory of the Southern federal district is occupied by the subjects of the Russian Federation with quite favorable conditions for development of business. It is important to note that "UTK" PJSC does not operate in the territory of the Chechen and Ingush republics which sociopolitical instability considerably worsens an integrated risk parameter of SFD.

At present process of creation of vertically and horizontally integrated holdings, reorganization of the companies continues in the district that in the future may lead to increase of efficiency of business sector of the district, and thus to growth of investments into economy of SFD. In opinion of the Issuer, an economic situation in the region and relations with administrations of the subjects of the Federation and municipalities are developing positively that affects favorably the activity of the company and execution of its obligations. However contradictions between the central and regional authorities can create uncertainties in the sphere of the Company's operations that may affect its long-term planning and costs of investments in Russia.

The territory of the Northern - Caucasian district is characterized by high natural and climatic risks connected with geographical features of the region. At the same time "Southern Telecommunications Company" PJSC has many years' experience of successful liquidation of consequences of acts of nature related to technical means and telecom infrastructure. "UTK" PJSC closely cooperates with federal and regional bodies of the Ministry of Emergency Measures of Russia and in case emergency gets essential state support. "UTK" PJSC carries out regularly preventive actions with a view of prevention and minimization of influence of unfavorable climatic conditions on efficiency of the Company's economic activities.

In case of any deterioration of the situation in the district, the Issuer will fulfill its obligations under securities at the expense of its operating profit and, if necessary, it will attract commercial bank credits for that purpose.

On the basis of the abovementioned facts we can make a conclusion about the moderate level of regional risks.

2.5.3. Financial risks

Risks associated with change of interest rates, exchange rate of foreign currencies (in connection with the Issuer's operations or hedging carried out to reduce adverse results of the above-stated risks):

The situation in the credit market is characterized by stable interest rates having an insignificant downtrend that allows to speak about the insignificant risks connected with change of interest rates.

Interest rates of commercial banks being reduced, the Issuer undertakes measures on change of conditions of the current credit contracts and agreements relating to reduction of cost of credits. Changes of the currency exchange rate are not likely to increase the expenses or hamper repayment of its debts.

Influence of the change of the exchange rate on the financial condition of the Issuer (its liquidity, sources of financing, performance results) (currency risks):

The risk remains that rate of growth of tariffs will lag behind rates of falling of a ruble exchange rate. It is expected that the Issuer will not experience difficulties in payment or re-financing of a debt in foreign currency in case of sharp devaluation of ruble of the Russian Federation in relation to US dollar and euro. Should a dollar exchange rate increase, the Issuer will replace obligations

nominated in US dollar with ruble obligations.

During the last years the inflation rate in Russia has been decreasing. In 2002 the inflation rate was 15.1 %, in 2003 – 12 %, in 2004 – 11.6 %, in 2005 – 10.9%. The RF Ministry of Finance predicts that in 2006 the inflation rate will be the lowest in the newest history of Russia (8 – 9%).

From the point of view of the Issuer's financial results, the effect of the inflation factor is polyvalent. Lower inflation rates given a continuing economic growth will promote further growth of real earnings of the population and the corporate sector, thus increasing consumption of communication services. On the contrary, higher price rise rates may result both in lower consumption of communication services and in the Issuer's higher costs (for example, due to a fuel price rise) and higher borrowed funds cost, causing a decrease in profitability indices. Therefore, in case of the inflation rates increasing to critical 25%, the Issuer intends to take actions to restrict the cost increase, to cut down the accounts receivable, and to reduce their average periods.

Indicators of the financial statements of the Issuer most subject to financial risks:

In the Issuer's opinion, main financial indicators of the Issuer - profit and cost price of services - are most subject to influence of the financial risks listed herein. Financial risks have a minimum effect on revenues. Probability of financial risks listed herein (sudden change of exchange rates, inflation, growth of interest rates) is estimated by the Issuer as low for the nearest years. Nevertheless, should such risks occur, cost price of services provided and reduction of profit are possible and it can be compensated by tariff growth and decrease in volume of borrowed funds.

Risks influencing the financial indicators of the Issuer	Probability of their occurrence	Changes in financial reports
Change of interest rates	Low	Change of interest rates may influence the Issuer's policy on debt management
Change of the exchange rate	Low	Changes of the currency exchange rate may increase the expenses and reduce the reserves of the Issuer or hamper repayment of its debts.
Inflation	Low	Inflation may result in increase of expenses of the Company (because of the increased prices of fixed assets, materials, works and services of outsider organizations)) and, as a consequence, in a drop in profits of the Issuer and, respectively, in the profitability of its business. Besides, growth of inflation will lead to an increase in the borrowed funds value for the Issuer, which may result in shortage of the Company's working capital.

2.5.4. Legal risks

"UTK" PJSC acts as a telecommunications operator; the Issuer does not export any products, works or services. In this connection we describe legal risks only for domestic market.

Risks of change of currency exchange regulations:

Risks connected to change of currency exchange regulation are minimal in the Issuer's opinion. Risks connected to the change of the currency exchange legislation are being reduced due to the current policy on liberalization of currency exchange regulation.

Risks of change of tax legislation:

Federal law No. 137-FZ "On Amending Some Legislative Acts of the Russian Federation and Declaring Some Provisions of the Legislative Acts of the Russian Federation Invalid Due to the Implementation of Measures Aimed at Modernization of Administrative Procedures for the Disputes Settlement" dated November 4, 2005 has become effective since January 1, 2006.

This Law

1) expands authority of tax bodies related to:

a) determination whether a taxpayer is guilty or not of tax violations; establishment of the circumstances significant for determination of liability for violations: mitigating and aggravating (Articles 108, 112 of the RF Tax Code);

b) out-of-court procedure for levying tax penalties from organizations and individual entrepreneurs (Article 103.1 of the RF Tax Code);

2) defines the procedure for levy of underpaid amounts on insurance payments, penalties and penalizing interest based on the decisions of regional bodies of the Russia Pension Fund including indisputable levy of penalties and underpaid amounts and penalizing interest (Article 25.1 of Federal Law N 167-FZ of 15.12.2001);

3) enables the Russia Pension Fund bodies to settle disputes with payers (Articles 25, 25.1 of Federal Law N 167-FZ of 15.12.2001);

Russian tax legislation is subject to varying interpretations and frequent changes. Recent events in the Russian Federation show that the interpretation of the tax legislation by the tax authorities can be very strict. As a result, tax authorities may challenge transactions and accounting principles, not claimed by them before, and the Company may be assessed additional taxes, penalties and interest which can be significant. Tax books remain open to review by the tax authorities for three years. Under certain conditions, even earlier periods may be audited.

Recent court decisions of various degrees of jurisdiction of the Russian Federation on privatization and taxation matters casting doubt on some law interpretations, that has been universally accepted until recently, increase risk of possible trials for many Russia companies, including the Issuer.

The Issuer's management believes that the corresponding provisions of the current law are interpreted by it correctly, and the position of the Company in respect to law observance is most likely to remain intact. At the same time it is highly probable that the current opinions of the Issuer's management in respect of some law interpretations and taxation matters can be later on considered by the state fiscal bodies as not having sufficient ground. Financial (accounting) reports does not contain corrections which may be needed due to such uncertainties and opinions of the Issuer.

Risks associated with change of customs laws and duties:

As the most part of acquired telecommunications equipment is imported or made of component parts of foreign manufacture, change of the customs Rules and customs duties can result in certain risks for the Issuer associated with rise in prices of acquired equipment.

Russian customs legislation is subject to varying interpretations and frequent changes. Recent events in the Russian Federation show that the interpretation of the customs legislation by the customs authorities can be very strict. As a result, tax authorities may challenge transactions and accounting principles, not claimed by them before, and the Company may be assessed additional taxes, penalties and interest which can be significant. Tax books remain open to review by the tax authorities for three years. Under certain conditions, even earlier periods may be audited.

In order to protect domestic manufacturers the Government of the Russian Federation may increase import duties, so in the future the Issuer may face the risk of increase in import duties.

Effect of changed requirements for licensing of the Issuer's core business or for licensing of the rights to use facilities of restricted circulation (natural resources included):

The main risks are connected with regulatory uncertainty in the telecommunications sector due to new Federal Law "On Telecommunications" effective since January 1, 2004.

A number of statutory acts regulating licensing of telecom services is under development stage, and the existing by-laws do not fully correspond to the requirements of the new law. At the moment the management of the Issuer cannot predict the effect these risks on the Issuer's business.

Risks of changes in judiciary practices on the matters relating to the Issuer's activity (including on

licensing matters) which can have an adverse effect on its performance results as well as the results of the current litigations in which the Issuer is a participant:

Changes in court practices on the matters relating to the Issuer's activity are possible due to coming into force of the new law "On Telecommunications". Such changes in court practices are possible in favor of both the Issuer and its opponents. There is also a risk of occurrence of new kinds of litigations.

Changes in court practices on the matters relating to the Issuer's activity cannot affect essentially its performance results, as well as the results of the current lawsuits of the Issuer with the third parties as the current lawsuits have no adverse effect on the Issuer's core activity (volume of claims against the Issuer under the existing lawsuits is insignificant in proportion to its total turnover).

At present main legal risks are associated with uncertainties in legal regulation of separate kinds of services and conditions of economic activities in the telecommunications sector after coming into force since January 01, 2004 of Federal law № 126-FZ "On Telecommunications". More than 30 statutory acts regulating various operations in the sphere of rendering telecom services should be developed and accepted in connection with the new Law. But till now such statutory acts are under development stage, and the existing by-laws do not fully correspond to the requirements of the new law.

2.5.5. Risks connected to the Issuer's activity

Company-specific risks, including:

Risks related to the current litigations in which the Issuer is a participant:

In July 2005 the Ministry of Finance of the Russian Federation advanced a claim to the Issuer concerning the repayment of debts due to Vnesheconombank valued at 33,346,039.43 Euro as of December 31, 2006.

Sanctions imposed on the Issuer: *none*

The parties agreed to settle the claim through amicable agreement. On 27th December 2006 the amicable agreement was signed. The abovementioned amicable agreement will be submitted to the Krasnodar kray Arbitration Court for approval on February 26, 2007.

In 4Q2005 "UTK" PJSC brought the case before the arbitration court to contest tax authorities' claim, namely, Decision N 9 of 16 December 2005 resulting in back-tax claim N198 (ref. N58-11-09/7257) of 21 December 2005 issued to "Southern Telecommunications Company" PJSC. According to the Decision underpaid taxes amounted to 677,979,856.04 rubles and the amount of penalties interest made 240,261,304.64 rubles; the underpaid taxes and penalties should be paid till 30 December 2005. At present the hearing of the case has been postponed till giving judgment for the case.

Risks concerning a possibility of prolongation of the Issuer licenses:

In compliance with Decree No. 314 of the President of the RF dated March 9, 2004 and with the RF Government Resolution No. 163 of 06.04.2004, communication business will be licensed by the Federal Communication Supervision Service. The period of "UTK" PJSC licenses expires at different times in the range of the years 2006 - 2012 and can be prolonged after submitting an application to the Federal Communication Supervision Service. "UTK" PJSC has no guarantees that the licenses will be extended upon expiry of their term of validity, and that the liabilities will not be increased and/ or that the rights will not be reduced under extended licenses, which would involve higher costs, and possibly a restriction of the communication service zone. If the Issuer is unable to extend the existing licenses or to obtain updated licenses on conditions comparable to the current ones, it will have to reduce the scope of services provided, which will entail a decrease of the number of subscribers. On the other hand, the term of validity of the licenses for provision of communication services making the largest segment in the Company's earnings is four to nine years, which materially reduces the mid-term risk of uncertainty in license prolongation.

Risks concerning a possibility of prolongation of the Issuer's licenses for use of objects having limited circulation (including natural resources):

At present such risks are considered as minimal.

Other risks related to possible liabilities of the Issuer for third parties' debts, including the Issuer's subsidiaries:

Risks related to liabilities of the Issuer for the debts of its subsidiaries are minimal, as the Issuer has no right to give obligatory instructions for subsidiaries (such right is not stipulated by the charters of subsidiaries or by the contracts with them).

Risks associated with possible loss of customers accounting for more than 10 percent of the Issuer's total revenue from sale of products (works, services):

There are no customers accounting for more than 10 percent of the Issuer's total revenue from sale of products (works, services). Therefore, there are no risks associated with possible loss of such customers.

Other risks:

Since January 1, 2005 Article 47 of Federal Law «On Telecommunications» №126-FZ has come into force. This Article changed the order of providing certain benefits to privileged customers when telecom operators rendered telecom services to such customers at reduced cost and then received tariff compensation from the state budget. The new order obliges privileged customers to pay in full for telecom services provided with the subsequent reimbursement of their expenses by the state budget of a corresponding level. The Issuer's management believes that monetization of benefits will allow the Company to reduce this type of receivables.

3.3. Plans of Issuer's Future Operation

According to the Company's adjusted budget for 2006 approved by the Board of Directors (Minutes № 10 of 29 September 2006) "Southern Telecommunications Company" PJSC expects to generate 2006 total revenue of RUR 16,910.5 mln which is down 8.1% over 2005. Actually, the Company generated a revenue of 17,664.4 million rubles.

Revenues from core activity (sale of telecom services) are to be decreased by 10.7% to RUR 15,969.3 mln including from local telephony – RUR 8,489.9 mln, from long-distance telephony – RUR 2,472.1 mln, from value-added services – RUR 1,751.6 mln (representing a 30.6%-increase over 2005). 2006 expenses on ordinary activities are planned at 12,471.1 mln rubles, a 10.6 %-decrease over 2005. 2006 EBITDA is expected to grow by 15.2% to 5,889 mln rubles. Estimated 2006 revenue decrease is due to liberalization of long-distance market.

One of the main directions of "UTK" PJSC business activity in order to increase revenues, raise the Company's business efficiency and strengthen its financial position is the increase in number of basic telephone sets. "UTK" PJSC is actively developing its communication network and increasing its number capacity. In 2006 the Company plans to put into service 174.8 thousand lines and increase the number of basic telephones by 43,603 sets.

UTK's main task for 2006 is to strengthen its position in the market of perspective and higher-margin services and to increase VAS share in total revenue structure in order to raise the

Company's business efficiency.

Implementation of 2006 investment plan will allow to increase the digitization rate to 65.5% and equipped number capacity level to 94.3%.

The Company's development plans are supported by 2006 plan of capital expenditures, which provide for RUR 2,383.1 mln of capital investments and about RUR 3,626.8 mln of basic assets to be put into operation. In 2006 the investments will be financed from the Company's own funds.

Medium-term strategic directions of "UTK" PJSC development:

- strengthening the Company's leading position in the fixed-line market by reaching at least 84%-share in SFD fixed-line telecom market revenues by the end of 2006;
- maintaining the Company's aggregate share in total revenues of SFD telecommunication market of at least 34 % in 2006;
- meeting the solvent demand for key telecom services by increase of equipped number capacity;

List of services under the registered trade mark: telecommunications; news agencies; TV broadcasting; Internet access (services of providers); provision of telecommunication connection to the Internet and other.

Risk associated with the possibility of withdrawal of the certificate on usage of trademarks:

The main risks are connected with regulatory uncertainty in the telecommunications sector due to new Federal Law № 126 "On Telecommunications" of July 7, 2003, effective since January 1, 2004. A number of statutory acts regulating licensing of telecom services is under development stage, and the existing by-laws do not fully correspond to the requirements of the new law. At the moment the management of the Issuer cannot predict the effect of these risks on the Issuer's business.

4.5. Analysis of the Development Trends in the Sector of the Issuer's Principal Activity

During many years telecom sector of Russia has a growing tendency of industrial and economic activity. It demonstrates increase of solvent demand for telecom services and growth of volume of the provided telecom services. Investment activity of the telecom sector is increasing against the background of economic growth in all telecom market segments.

In 1H2003 process of reorganization of Svyazinvest holding structure completed and resulted in creation of seven interregional telecom companies which could be compared with East-European operators of fixed communications. Completion of the legal procedure of reorganization of Svyazinvest subsidiaries has become an initial phase of reforming telecom sector. At present corporate restructuring of the consolidated telecoms is being carried out.

The basic tendencies in telecommunications sector within the next few years will be the following:

- transition to time-based billing system for local outgoing calls;
- fundamental improvement of tariff policy;
- increase of a technical level of public telephone systems.

The Federal Tariff Service has set new tariffs for local and intercity telephone calls in the Republic of Adygeia, Republic of Kabardino-Balkaria, Republic of Kalmykia, Republic of Karachaevo-Cherkessia, Republic of the North Osetia-Alaniya, the Astrakhan region, the Volgograd region, the Krasnodarsky krai, the Rostov region, and Stavropolsky krai (orders by FTS head №№376-c10 and 375-c9, dated August 17, 2005) effective since September 1, 2005.

The monthly subscriber's rental was raised on average by 20% for residential customers and 15% for businesses. In order to restrict cross-subsidizing and taking into consideration sizable decrease in growth rate of long-distance traffic volume, the FTS of Russia took a decision to cut the long-distance connection rates for individuals and legal entities by average of 4.1%.

According to the adopted decision on local tariffs growth and on simultaneous decrease in long-distance tariffs, the average increase in tariffs has made 8.2%.

The new legal acts in addition to the Federal law «On Communications» having come into effect since January 1, 2006, namely: decrees of the Government of the Russian Federation № 87 of February 18, 2005, № 161 of March 28, 2005 and № 310 of May 18, 2005, the terms of the licenses and procedures of interconnection and provision of telecom services have also changed for telecom operators belonging to Svyazinvest holding. In compliance with these changes, Order of the Head of the Federal Tariffs service №375-c/9 has become invalid since January 1, 2006. According to Order of the Head of the Federal Tariffs Service №731-c/5 tariffs for "UTK" PJSC on intra-zonal services remained the same and compensation fee in addition to the price of local and zonal call initiation price was established at 0.64 rubles per one minute.

Share of communication and IT sector in gross domestic product reached 5%, in 2000 it was 3.2%. According to estimates of the RF Ministry of Communications share of communication and IT sector in gross domestic product will increase from 5% to 10% by 2010.

According to estimated 2006 results, revenues of large and medium-size communication companies will increase by 24,6% over 2005 to 801.9 billion rubles. Revenue from telecom services amounted to RUR 788.7 billion representing a 23.5%-increase over 2005. Telecom revenues of large and medium-size communication companies made 744.7 billion rubles which is up 24.3% over 2005.

One of the strategic directions of telecom sector development in the nearest future is radical improvement of tariff policy of the telecom companies. The key points here are to bring telecom tariffs to the level of economically justified costs and to minimize cross subsidizing of various telecom services. This improvement implies growth of local telephony tariffs to put an end to its subsidizing by long-distance and international telephony. "Svyazinvest" PJSC works out new tariff

policy together with Ministry of Telecommunications and Informatics of the Russian Federation and Federal Anti-Monopoly Service of the Russian Federation.

Main factors of the Issuer's tariff income growth in medium-term outlook will be the following:

- Growth of local tariffs;
- Increase of long-distance traffic per line due to improvement of the residents' standard of living and growth of revenues from business sector;
- Considerable increase in number of communication lines in operation and as a result growth of telephone density in the country;
- Growth of revenues from value-added telecom services especially from providing Internet access, because this market segment is characterized by low satiety level.

Heavy capital investments will be continued to extend and modernize public telephone and data transmission networks of the inter-regional telecom companies aimed at liquidation of waiting lists for installation of telephone sets and increase of level of network digitization.

Development of the Issuer's business corresponds to the general development tendencies of the telecommunications sector.

Main factors having effect on the state of the telecommunications sector:

– changes in state regulation of the sector (including pricing policy on regulated telecom services, availability of licenses, realization of the reform of the sector);

– general condition of national economy, as telecommunications as an infrastructural sector, is very sensitive to such changes.

Development of the Issuer's business corresponds to the general development tendencies of the telecommunications sector.

Grounds for the received activity results (satisfactory and unsatisfactory results in the opinion of the Issuer):

Telecommunications sector development corresponds to common positive trends in the Russia economy. The sector has been developing dynamically during the last several years: new technologies and new services have appeared; solvent demand for telecom services has increased. The Issuer's activity is aimed at providing full range of telecom services to wide circle of customers.

Factors and terms having effect on the Issuer's activity and its performance results:

The main risk factors of the Issuer's activity:

1) The most recent version of the federal law "On Telecommunications" came into effect on 1 January 2004. It determines the authority that various branches of the government exercise over the regulation of the telecommunications sector. The law can increase a degree of regulation of the Issuer's business. Till the moment of approval of the corresponding normative acts, the period of contradictions and uncertainties relating to different interpretation of the Law by regulating authorities is inevitable.

Pursuant to the new Law the Company is obliged to establish equal status of connection of communication networks and pass-through of traffic for telecom operators providing similar services and to render to these operators services on connection and pass-through of traffic on the same conditions and of the same quality as for its own structural divisions and affiliated persons.

In addition, according to the new Law "On Telecommunications" a subscriber (natural person) has the right to choose form of payment for local telephone calls: monthly subscriber fee or time-based billing system of payment.

2) Running processes of integration of alternative telecoms in large holdings.

Forecast concerning duration of the specified factors and conditions:

It is difficult to predict the duration of the main adverse factors because it is impossible to determine the period of validity of the main law regulating activity in telecommunications sector. Integration process of alternative operators is very dynamic and it will be continued for several more years.

Actions undertaken by the Issuer and actions which the Issuer plans to undertake in the future for effective usage of the given factors and conditions:

The Issuer is going to make advantage of its main competitive strengths.

Actions taken by the Issuer and actions which the Issuer plans to undertake in the future in order to diminish negative effect of factors and conditions influencing the Issuer's business:

The Issuer takes and plans to take the following actions:

– *development of cable TV. High quality of video transmission, a lot of digital, analog and satellite channels to any taste and availability of many additional services, such as high-speed Internet access, IP telephony, telex, intruder and fire alarm systems and others, attract great number of customers;*

– *rendering of new additional service under the brand "DiSeL-TV" in the Krasnodar krai for broadband Internet subscribers using ADSL2 + technology. "DiSeL-TV" bundle includes 33 TV channels with digital quality of video and audio signals. In future the Company plans to extend a list of TV channels for viewing and to provide video upon request;*

– *further improvements in range and quality of offered services as well as in customer service in order to attract new clients including large corporate clients.*

Essential events / factors which can have a negative effect on the opportunity of the Issuer to receive similar or better future results than those received in the last accounting period. Probability of occurrence of such events (factors):

Among major factors are liberalization of long-distance market and privatization of Svyazinvest. However it is not obviously possible at the moment to estimate the size and influence of the given factors.

In future the main negative effect is expected from strengthening of competition especially with mobile operators. Probability of the situation that mobile operators will be strong competitors is very high, since they are actively building up their presence in all regional markets.

Main existing and potential competitors of the Issuer in the sphere of its core activity including foreign ones. Competitive capacity factors of the Issuer with the description of a degree of their influence on competitive power of products (jobs, services).

As of 31 December 2006 400 telecom operators operated in the territory of the Southern Federal District, 121 of them being Internet-providers, 226 – providers of local and long-distance telephone services. But main competitors of "Southern Telecommunications Company" PJSC in SFD telecom market are cellular operators. 42 cellular operators representing 11 trademarks operate in the Company's licensed territory.

In spite of high level of competition "UTK" PJSC maintains major market share of traditional fixed-line services.

According to 2006 preliminary results total market share of "UTK" PJSC in the aggregate SFD fixed-line market constituted 81%.

According to 9m2006 estimates UTK's share of regional telecom market was:

- *91% - local telephony;*
- *45%* - long-distance telephony;*
- *50% - value-added telecom services.*

As a whole UTK's market share was estimated at 27% in 2006. UTK's fixed line market share was estimated at 61%* in 2006.*

** - due to introduction of new settlement system with Rostelecom and other long-distance operators, payments of end users –UTK's subscribers are not revenues of "UTK" PJSC.*

"Southern Telecommunications Company" PJSC states the following priority tasks:

- *Introducing new technologies and services meeting the market development tendencies and customers' real requirements*
- *Making value-added services more competitive*
- *Developing integrated data networks (multi-service networks) in the Southern Federal District*
- *Introduction and deployment of pre-paid universal service cards throughout the licensed*

territory of "UTK" PJSC.

- *Technical realization of intra-regional service roaming.*
- *Provision of services "in package".*

Priority services of the Issuer are the following:

- *Broadband access to Internet services*
- *Call-center services*
- *Intelligent services*
- *Services of multimedia and multi service networks (including digital cable TV and IP-TV)*
- *Content services*
- *Construction of VPN*

One of the priorities in the service sphere is introduction and further development of pre-paid service cards including universal cards, development of "self-service" system, as well as development of the content to be accessed by subscribers through various information access channels (Internet, E-mail, SMS, WAP, IVR, operators of the Contact-center).

Members of the Board of Directors, RUR	0	0	13,615,256	13,615,256
Members of the Management Board*, RUR	32,323,488	7,449,067	8,397,606	48,170,161

* - Amount of remuneration paid to I. F. Ignatenko and G.A. Romsky who were the members of the Board of Directors and the Management Board in 2005 is included in the specified amount of remuneration paid to the members of the Management Board.

According to the Provisions on the Company's Board of Directors approved by the Extraordinary General Shareholders' Meeting on January 21, 2003 (Minutes # 13) and amended on June 30, 2004 (Minutes of the Annual General Shareholders' Meeting # 15), June 30, 2005 (Minutes of the Annual General Shareholders' Meeting #16), June 27, 2006 (Minutes of the annual General Shareholders' Meeting # 17) remuneration of the members of the Board of Directors shall include quarterly and yearly remunerations.

1) Quarterly remuneration to each member of the Board of Directors shall be established in the amount of 200, 000 rubles.

Remuneration to the Chairman of the Board of Directors shall be set with a raising coefficient 1.5.

Remuneration to a member of the Board of Directors shall be cut down by:

30 percent – in case of his attendance at less than a half of the Board of Directors meetings held in the form of joint personal presence;

100 percent – in case of his attendance at less than a half of the held Board of Directors meetings.

Remuneration for the quarter, in which re-election of the Board of Directors was held, shall be paid to the members of the Board of Directors in proportion to the hours worked during the quarter.

2) The annual remuneration for the entire body of the Board of Directors of the Company shall be rated as a sum of:

percentage of the Company's EBITDA for the reported year as per the Company's financial statements in accordance with IFRS;

percentage of the Company's net profit allocated to dividend payment according to the financial results of the reporting year;

The annual remuneration shall be distributed among all the directors by equal shares.

The annual remuneration to a member of the Board of Directors shall be reduced by 50 percent, should he attend less than a half of the Board of Directors meetings held during his term of office.

Percent of deductions for calculation of the annual remuneration shall be determined by the resolution of the General Shareholders' Meeting electing the current membership of the Board of Directors.

The annual remuneration shall be paid to a member of the Board of Directors not later than three months after termination of the term of office of the current membership of the Board of Directors.

Should a member of the Board of Directors be also a member of a Board of Directors' Committee, the bonus of RUR 40 thousand shall be paid to him in addition to his quarterly remuneration; a member of the Board of Directors shall not be at the same time a member of more than two Committees of the Board of Directors.

This bonus for the Chairman of a Board of Directors' Committee shall be rated by a raising factor 1.25.

The Issuer's Annual General Shareholders' Meeting held on June 27, 2006 adopted the following resolutions (Minutes № 17 of June 27, 2006):

To approve the following rates of deductions for calculation of the annual remuneration to be paid to the members of the Board of Directors elected at the present Meeting :

0.26% of the Company's EBITDA for the reporting year as per the Company's IFRS 2006 financial statements;

0.78% of the Company's net profit allocated to dividend payment according to 2005 financial results.

According to the Provisions on the Company's Management Board approved by the Extraordinary General Shareholders' Meeting on January 21, 2003 (Minutes # 13) and amended on June 30, 2004 (Minutes of the Annual General Shareholders' Meeting # 15), June 27, 2006 (Minutes of the annual General Shareholders' Meeting # 17) size of remuneration and its distribution among the members of the Management Board shall be determined by the resolution of the Board of Directors of the Company.

According to the Provisions on the Remuneration to the Company's Management Board approved by the Board of Directors on September 6, 2005 (Minutes # 6) remuneration to the members of the Management Board shall be paid on the basis of performance results for each quarter. Total amount of a quarterly remuneration to the members of the Management Board shall be determined by the resolution of the Board of Directors of the Company but shall not exceed 150,000 rubles to each member of the Management Board for a quarter.

Size of remuneration shall be calculated on the basis of the following characteristics:

- execution of the basic planned economic parameters of the Company's budget;
- fulfillment of the decisions taken by General Shareholders' Meetings and Board of Directors of the Company;
- quality of preparation of materials for the Board of Directors meetings.

The item on definition of the size of quarterly remuneration to the Management Board shall be without fail considered by the Personnel and Rewards Committee of UTK's Board of Directors.

The sum of quarterly remuneration to the Management Board determined by the resolution of the Board of Directors shall be distributed equally among the members of the Management Board.

The Board of Directors can take a decision on reduction of the total amount of quarterly remuneration to each membership of the Management Board being in office during the quarter.

Total amount of such reduction may reach 100% of the maximal size of quarterly remuneration to the members of the Company's Management Board.

In addition, members of the Board of Directors and the Management Board of the Issuer who are the employees of "Southern Telecommunications Company" PJSC shall receive salaries and bonuses according to the staff list of "UTK" PJSC.

Full and abbreviated registered names, location of organization that assigned the credit rating:

Company " Standard & Poor's International Services Inc." (Standard & Poor's)

Location: 615 South Dupont Highway, Dover, Kent county, Delaware, USA.

Brief description of the method of assigning the credit rating:

Issuer's credit rating according to Standard & Poor's international scales expresses the current opinion on general credit capacity of the Issuer of bonds, underwriter or guarantee, business partner, its ability and intention to service its debt in full and in due time.

Standard & Poor's assigns ratings on the basis of transparent methodology taking into consideration quantitative and qualitative factors, financial risks and business risks only if there is sufficient information.

Depending on categories of issuers and type of rating, there are different methods of Standard & Poor's rating assignment. Thus, in the case of companies, the characteristics of the business (market, position in competition, management and strategy) are analyzed, as well as the financial profile (financial policy, profitability, capital structure, cash flow indices, financial flexibility).

Standard & Poor's Russian national credit rating scale serves issuers, insurers, counter parties, intermediaries and investors in the Russian financial market by providing both Debt Credit Ratings which apply to a specific debt instrument, and Enterprise Credit Ratings which apply to an obligor (i.e., borrower, guarantor, insurer, or other provider of credit enhancement). The Russian national credit rating scale uses Standard & Poor's global rating symbols with the addition of "ru" prefix to denote "Russia" and the scale's focus on Russian financial markets. The criteria employed for determining ratings on the Standard & Poor's Russian National Scale are broadly similar to those employed on the Standard & Poor's Global Scale.

However, certain direct sovereign risk considerations weigh less heavily on the Standard & Poor's Russian National Scale than on the global scale. For example, some types of sovereign risk considerations that can adversely affect all Russian obligors equally are not considered within the bounds of Standard & Poor's National Scale. Indeed, sovereign risk is examined only in a local context relative to the credit risk of other Russian obligors. As a result, the Standard & Poor's Russian National Scale is not directly comparable to Standard & Poor's global scale or to any other national rating scale.

Other information about the credit rating specified at the Issuer's own discretion:

On October 26, 2006 Standard & Poor's Ratings Services raised its long-term corporate credit rating on Southern Telecommunications Company to "B-" from "CCC+", reflecting the Company's improving financial risk profile. The outlook is stable. At the same time, Standard & Poor's raised its long-term Russia national scale rating on UTK to «ruBBB» from «ruBB». The upgrade is mainly attributable to increase in the Company's positive free cash flows on the back of drastic reduction of its investment program, strong focus on cost control and sound operating profitability growth. The Company's liquidity is improving helped by favorable capital markets and declining dominance of short-term debt maturities.

On 26th September 2005 Standard & Poor's revised its outlook on "UTK" PJSC to Stable from Negative due to the Company's ability to stabilize its financial profile shown in first-half-2005. At the same time Standard & Poor's affirmed its «CCC+» long-term corporate credit rating and

"ruBB" Russia national scale and senior unsecured debt ratings on the Company.

According to Standard & Poor's analysts, outlook revision reflects UTK's showing noticeable improvements in its operating and financial performance during 2005 as the Company stuck to its promised focus on cost control, much reduced capital spending and profitability enhancements.

The ratings, however, remain constrained by the Company's weak liquidity position, significant debt levels, limited business diversification, and uncertainties associated with industry restructuring. These risks are moderated by UTK's solid market position, its improving operations, progress in the regulation of local tariffs, and growth potential.

Stable outlook reflects Standard & Poor's expectation that UTK's continuing focus on stringent cost and cautious approach to capital investments – combined with increasing EBITDA and cash flow generation will help the Company to stabilize its financial profile.

On 2 February 2005 Standard & Poor's downgraded the credit rating of "Southern Telecommunications Company" PJSC according to international scale from «B-» to «CCC+»; outlook «Negative» (according to Russia national scale - from ruBBB to ruBB).

On 10.02.2004 Standard and Poor's changed the outlook of UTK ratings from "Stable" to "Negative" that reflected expectations of the rapid growth of a negative operating cash flow and debt obligations in 2003.

At the same time Standard and Poor's confirmed its "B-" long-term credit rating of "UTK" PJSC according to international scale, but decreased Russia national scale credit ratings of the Company and its senior unsecured bond issues from "ruBBB" to "ruBBB-".

Credit analyst of Standard and Poor's Pavel Kochanov noted: "Increase in a negative free operating cash flow and debt obligations has exceeded initial expectations of Standard and Poor's; similar changes in financial position of "UTK" PJSC can be continued in 2004".

The aggressive investment policy is aimed at essential increase in revenues from traditional telecommunications services and new non-regulated telecommunications services, however Standard and Poor's believes, that impact of capital investments on revenue growth and profitability of the Company in the next several years are uncertain at the given stage. Demand for new telecommunications services due to which the Company expects to increase proceeds, and also revenue growth from extension of the subscriber base can appear not so optimistic.

On August 6, 2003 Standard & Poor's assigned its "ruBBB" Russia national scale rating to "Southern Telecommunications Company" PJSC. At the same time Standard & Poor's assigned its "ruBBB" Russia national scale rating to "UTK" PJSC proposed Russian ruble 1.5 billion senior unsecured bond issue due 2006. The proceeds from the bond issue will be used to finance RUR 5 billion capital expenditure program in 2003 which will further upgrade the company's outdated network and expand its network capacity.

The ratings continue to be supported by "UTK" PJSC dominant market share as the main provider of essential telecoms services in the southern region of the Russian Federation and progress in enabling the provision of a wider range of higher-quality services. Standard & Poor's expects "UTK" PJSC to increase its debt to a manageable level without materially weakening its financial profile and ability to service its debt obligations.

The rating action of 02.04.2003 reflects the net benefits of the merger of Southern Telecom with nine other fixed-line incumbents in the southern region of Russia that are controlled by the state-owned holding Syazinvest. The merger has resulted in a stronger competitive position and improved business profile for the company. The outlook is stable. The new company—which had approximately 3x greater revenues of about \$331 million in 2002—should benefit from its larger scale by receiving better terms from vendors of telecoms equipment. The merger will also give it a stronger market position that is less vulnerable to weaknesses in a particular area or customer segment, and make it easier to access capital markets.

Offsetting these gains to some extent is the fact that the enlarged service area has marginally less attractive average market characteristics and will require integration work and additional investments to reconcile and improve network characteristics to a more uniform level across the whole area. It is expected that Southern Telecom will continue with its structural reorganization, management improvement, and network modernization, and that it will execute its business plan without materially weakening its financial profile and ability to service its debt obligations.

A manageable increase in debt is already factored into the rating on Southern Telecom. The rating assumes, however, that operating cash flow will be sufficient to service debt in the short-term and that the company can return to free operating cash flow generation in the medium term as network investments are completed.

Brief description of the method of assigning the credit rating:

Issuer's credit rating expresses the current opinion on its ability and intention to service its debt in full and in due time.

Interfax rating agency (IRA) assigns credit ratings to the Russian companies according to national scale of the agency. Credit rating of IRA is an instrument allowing local investors to differentiate credit risks of various Russian borrowers as well as their obligations. Such borrowers and obligations can turn out to be indistinguishable when using international ratings, which take into consideration country risks. IRA national scale credit ratings do not take into account some country risks, in particular, risk of introduction of governmental restrictions on transfer of foreign currency abroad, as well as other system-defined risks relating equally to all borrowers in Russia.

Quantitative analysis plays an important role when assigning credit rating to a company, however assignment of a credit rating is not reduced to application of some universal formula including a number of quantity indicators. IRA pays special attention to qualitative analysis of existing and future credit risks to which companies and their obligations are subject. Experts of IRA make their final opinion on a company's credit status on the basis of the qualitative analysis of risk factors and possible changes in the environment of the company's activity which may result in the company's default on its obligations. Great attention is paid to comparison of the company being under rating procedure with other companies of the sector and-or special group of companies. The main object of the analysis is the company's ability to generate cash flow sufficient for financing urgent investments, dividend payments and debt service.

When assigning a credit rating, experts of IRA usually rely on the information about the activity of a company being under rating procedure including on its financial accounts for the last 3-5 years as well as use corresponding forecasts both of a company's specialists and of its own.

The basic aspects of the analysis of companies' credit status are the following:

- sector risks,
- political and regulatory risks,
- market position of the company and its business efficiency,
- management quality,
- ownership structure,
- financial risk.

Other data on the credit rating specified by the Issuer at its own discretion:

Credit ratings have been assigned in association with international rating agency Moody's Investors Service.

The rating reflects UTK's strong position on the telecommunications market of the Southern Federal District; the company's strengthening position on the fast-growing and lucrative segment of the market for new communications services; improved technical condition of networks; and opportunity to receive support from the state. The rating is constrained by government tariff regulation, aggressive investment policy, growing competition from alternative telecoms providers.

Company " Standard & Poor's International Services Inc." (Standard & Poor's)

Location: *615 South Dupon Highway, Dover, Kent, Delaware, USA.*

Brief description of the method of assigning the credit rating:

Standard & Poor's Russian national credit rating scale serves issuers, insurers, counter parties, intermediaries and investors in the Russian financial market by providing both Debt Credit Ratings which apply to a specific debt instrument, and Enterprise Credit Ratings which apply to an obligor (i.e., borrower, guarantor, insurer, or other provider of credit enhancement). The Russian national credit rating scale uses Standard & Poor's global rating symbols with the addition of "ru" prefix to denote "Russia" and the scale's focus on Russian financial markets. The criteria employed for determining ratings on the Standard & Poor's Russian National Scale are broadly similar to those employed on the Standard & Poor's Global Scale.

However, certain direct sovereign risk considerations weigh less heavily on the Standard & Poor's Russian National Scale than on the global scale. For example, some types of sovereign risk considerations that can adversely affect all Russian obligors equally are not considered within the bounds of Standard & Poor's National Scale. Indeed, sovereign risk is examined only in a local context relative to the credit risk of other Russian obligors. As a result, the Standard & Poor's Russian National Scale is not directly comparable to Standard & Poor's global scale or to any other national rating scale.

Abbreviated registered name: *CJSC "RA Interfax"*

Location: *building 1, 2, 1-st Tverskaya-Yamskaya Str., Moscow, 127006*

Brief description of the method of assigning the credit rating:

Credit rating of a bonded issue or type of the company's bonded issues expresses the current opinion on its credit status relating to such bonded issue/type of bonded issues.

Interfax rating agency (IRA) assigns credit ratings to the Russian companies according to national scale of the agency. Credit rating of IRA is an instrument allowing local investors to differentiate credit risks of various Russian borrowers as well as their obligations. Such borrowers and obligations can turn out to be indistinguishable when using international ratings, which take into consideration country risks. IRA national scale credit ratings do not take into account some country risks, in particular, risk of introduction of governmental restrictions on transfer of foreign currency abroad, as well as other system-defined risks relating equally to all borrowers in Russia.

Credit rating of a separate obligation (bonded issue) cannot coincide with the company's credit rating because it must take into account the issue's structure, degree of security of the rights of the creditor under the obligation, credit status of underwriters of the bonded issue. If the bond issue is objectively secure enough, that is, provides for certain forms of risks reduction such as, for example, reliable security, then credit rating of the obligation can be higher than the rating of the borrower.

Quantitative analysis plays an important role when assigning credit rating to a company, however assignment of a credit rating is not reduced to application of some universal formula including a number of quantity indicators. IRA pays special attention to qualitative analysis of existing and future credit risks to which companies and their obligations are subject. Experts of IRA make their final opinion on a company's credit status on the basis of the qualitative analysis of risk factors and possible changes in the environment of the company's activity which may result in the company's default on its obligations. Great attention is paid to comparison of the company being under rating procedure with other companies of the sector and/or special group of companies. 1. Coupon: Annual interest rate on the first coupon is to be fixed during the auction held in the MICEX Stock market section (9.25% per annum). The Auction shall start and end on the launch day of the bond placement. Time of fixing interest rate on the first coupon and conclusion of transactions is determined by the Moscow Interbank Currency Stock Exchange as agreed with the Issuer and-or the Underwriter

On the date of the Auction the members of the Stock Market Section of MICEX participating in the Auction shall submit orders for the Bond acquisition through the trading system of MICEX. Each order shall include the interest rate under the first coupon at which potential buyers are ready to acquire the Bonds at the price of 100 percent of their par value and the corresponding number of Bonds which potential buyers are ready to acquire if the Issuer fixes the interest rate on the first coupon higher or equal to that specified in the order. Interest rate on the first coupon specified in the order shall be expressed as annual interest rate to the 100-th share of percent.

By the beginning of the Auction the members of the Stock Market Section of MICEX participating in the Auction shall have to reserve money resource on their accounts in the MICEX Clearing system, sufficient for full payment of the Bonds specified in the orders for purchase including MICEX commission fee.

The orders, which do not conform, to the above-mentioned conditions are not allowed to take part in the Auction.

After the period of submission of the orders for the Auction expires, members of the Stock Market Section of MICEX cannot withdraw the submitted orders.

After the period of submission of the orders for the Auction expires, MICEX shall make a joint register of the submitted orders and send it to the Issuer.

All the submitted orders are to be considered by the Issuer. Individual executive body of the Issuer shall make decision on the size of the annual interest rate under the first coupon on the basis of total number of the submitted orders and the interest rates on the first coupon indicated in them and inform the Underwriter and MICEX about it.

The Underwriter shall publish a notice on the size of the interest rate under the first coupon using MICEX Trading system by means of e-mail to all members of the MICEX Stock Market Section.

Bond Owners, their authorized persons including depositors of NDC are obliged to provide all necessary information to NDC and independently control the completeness and actuality of the data provided by them to the Depositary, they bear all the risks related to non-provision/untimely provision of such information.

Should the said data fail to be submitted, or fail to be submitted in due time to NDC, the Issuer bears no responsibility for untimely or undue execution of obligations on Bond redemption. It is the Owner of Bonds who takes the risks of damages in case of untimely or incomplete submission of the above-mentioned data.

Should the said data fail to be submitted, or fail to be submitted in due time to NDC, execution of such obligations shall be effected in favor of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. The Issuer fulfils the obligations under the Bonds on the basis of the NDC's data. In such a case obligations of the Issuer

are considered executed in full and properly. If the essential elements of bank account and other information necessary for execution by the Issuer of its obligations under Bonds, provided by a Bond owner or Bond Holder or available in the Depository, do not allow the Payment agent to transfer money resources in due time such delay cannot be considered as a delay of execution of obligations under Bonds, and a Bond owner has no right to claim extra interest or any other compensation for such delay in payment. In cases stipulated by the Agreement with NDC the Issuer is entitled to demand confirmation of such data by information from the Register.

On the basis of the list of Bond Owners and/or nominal Holders, provided by NDC, the Payment Agent calculates the amounts of money to be paid to each person authorized to receive Bond redemption amounts.

Not later than 3 (three) working days before the Maturity Date, the Issuer transfers the appropriate money to the Payment Agent's account.

As at the date of Bonds redemption the Payment Agent transfers the appropriate money to accounts of the persons authorized to get the sums of redemption under Bonds for the benefit of the Bond Owners.

If one person is authorized to receive Bond redemption amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

The Maturity date:

The last day of the Maturity date:

Coincides with the first day of the Maturity date.

Size of interest yield (coupon income) on Bonds, procedure and terms of its payment.

Procedure of calculating income paid under each bond:

Coupon period		Coupon income
Starting date	Expiry date	

1st Coupon: Annual interest rate on the first coupon is to be fixed during the auction held in the MICEX Stock market section among the potential buyers of the Bonds on the starting day of the bond placement (12.3%).

On the date of the Auction the members of the Stock Market Section of MICEX (hereinafter referred to as the Section Members) shall submit target orders for the Bond acquisition with T0 code through the trading system of MICEX in compliance with the Securities Trading Rules of MICEX and other regulatory documents of MICEX both at their own expense and at the expense and on behalf of their client. Time and procedure for submission of orders for participation in the auction on determination of the first coupon interest rate are defined by the Moscow Interbank Currency Stock Exchange as agreed with the Issuer and-or the Underwriter. The members of the Stock Market Section of MICEX shall submit orders for the Bond acquisition to the Underwriter.

Each order shall include the interest rate under the first coupon at which potential buyers are ready to acquire the number of Bonds specified in the order. Interest rate on the first coupon specified in the order shall be expressed as annual interest rate to the 100-th share of percent.

By the beginning of the Auction the members of the Stock Market Section of MICEX participating in the Auction shall have to reserve money resource, sufficient for full payment of the Bonds specified in the orders for purchase including MICEX commission fee.

The orders, which do not conform, to the above-mentioned conditions are not allowed to take part in the Auction.

After the period of submission of the orders for the Auction expires, members of the Stock Market Section of MICEX cannot withdraw the submitted orders.

After the period of submission of the orders for the Auction expires, MICEX shall make a joint register

of the submitted orders for the Issuer and/or Underwriter.

The joint register of the submitted orders shall include all terms specified in each order, namely: the price of acquisition, number of securities, date and time of the order's reception as well as the name of the Member of the Section who submitted the order. The joint register of the submitted orders shall be approved by the Financial Consultant in the equity market.

Individual executive body of the Issuer shall make decision on the size of the annual interest rate under the first coupon on the basis of total number of the submitted orders and the interest rates on the first coupon indicated in them. The Issuer shall inform the MICEX about such decision in written form not later than 30 minutes prior to its sending to a news agency. After sending notification on the size of the interest rate under the first coupon to a news agency the Issuer informs the Underwriter about the size of the interest rate under the first coupon. The Underwriter informs all members of the MICEX Stock Market Section about the size of the interest rate under the first coupon fixed by the Issuer using MICEX Trading system by means of e-mail to all members of the MICEX Stock Market Section.

The information on the interest rate under the first coupon shall be disclosed in terms and order stipulated in item 1) of the Decision on the bond issue and item 2.9 of the Emissive Prospectus of the securities.

Procedure of Coupon Yield payment:

Payment of the coupon yield on the Bonds is effected by a payment agent upon instructions and at the expense of the Issuer. Payment of the Bond yield is effected in the currency of the Russian Federation in the non-cash order for the benefit of owners of Bonds. It is presumed that a nominal bondholder who is a depositor of NDC is authorized to receive amounts from the Bond yield (coupon) payment.

Bond Owners, their authorized persons including depositors of NDC independently control the completeness and actuality of the data provided by them to the Depository and bear all the risks related to non-provision/untimely provision of such information. Should the said data fail to be submitted, or fail to be submitted in due time to NDC, execution of such obligations shall be effected in favor of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. The Issuer fulfils the obligations under the Bonds on the basis of the NDC's data. In such a case obligations of the Issuer are considered executed in full and properly. If the essential elements of bank account and other information necessary for execution by the Issuer of its obligations under Bonds, provided by a Bond owner or Bond Holder or available in the Depository, do not allow the Payment agent to transfer money resources in due time such delay cannot be considered as a delay of execution of obligations under Bonds, and a Bond owner has no right to claim extra interest or any other compensation for such delay in payment. In cases stipulated by the Agreement with NDC the Issuer is entitled to demand confirmation of such data by information from the Register.

Coupon income payment is made for the benefit of owners of the Bonds being those as of the end of working hours of NDC, previous to the seventh business day before the date of the coupon payment. Obligations on coupon income payment are executed by the Issuer on the basis of the List of owners and/or nominal Holders of Bonds presented by NDC.

Not later than 6 (six) working days prior to the date of coupon income payment NDC depositor who is not authorized by the clients to receive amounts from coupon income on the Bonds shall provide NDC with the List of the Bond owners including all the essential elements mentioned below in the List of the Bond Owners and/or Nominal Holders.

If the Bond Owners who authorized a nominal holder to receive amounts from the Bond redemption are non-residents and-or physical persons, the nominal holder is obliged to specify the following information about such persons in the list of Bond Owners:

- full name/first name, middle initial, last name the owner of Bonds;
- number of the Bonds owned;
- full name of the person, authorized to receive the redemption sums under Bonds;
- location (or place of registration – for individual persons) and postal address of the Bond Owner including postal code;
- essential elements of the bank account of the person, authorized to receive the sums of repayment under Bonds;
- Tax-payer's Identification number (TIN) of the Bond Owner;
- tax status of the Bond Owner.

If a Bond Owner is a juridical person – non-resident:

- personal identification number (IIN) – if any.

If a Bond Owner is a natural person:

- kind, number, date and place of issue of the identity document of a Bond Owner, name of the authority issuing the identity card;
- number of the certificate of the state retirement insurance of the Bond Owner (if any);

- Tax-payer's Identification number (TIN) of the Bond Owner (if any);
- date, month and year of birth of the Bond Owner.

Execution of obligations in relation to the Bond owner being those at the date of making up a list of owners and nominal Holders of Bonds declares appropriate including in case of alienation of Bonds after Date of making up a list of owners and nominal Holders of Bonds.

If the rights of an owner to Bonds are transferred to a nominal holder and a nominal holder is authorized to receive amounts from the Bond redemption, then a person authorized to receive amounts from the Bond redemption is understood as a nominal holder.

If the rights of an owner to Bonds are not transferred to a nominal holder or a nominal holder is not authorized by a Bond owner to receive amounts from the Bond redemption, then a person authorized to receive amounts from the Bond redemption is understood as a Bond owner.

Not later than 4 (four) working days prior to the date of coupon income payment NDC provides the Issuer and the Payment agent with the List of owners and nominal Holders of the Bonds, made on the Date of making up the list of owners and nominal Holders of Bonds including the following data:

- a) A full name of the person, authorized to receive the coupon income sums under Bonds.
- b) Number of the Bonds on the account of depot of the owner or inter-deposit account of depot of the nominal Holder of Bonds, authorized to receive the sums of coupon income under Bonds;
- c) Location and postal address of the person, authorized to receive the sums of coupon income under Bonds;
- d) Essential elements of the bank account of the person, authorized to receive the sums of coupon income under Bonds, namely:
 - Number of the account;
 - The name of the bank in which the account is open;
 - The correspondent account of the bank in which the account is open;
 - Bank identification code (BIK) and Tax-payer's Identification number (TIN) of the bank in which the account is open;
- e) Tax-payer's Identification number (TIN) of the person, authorized to receive the sums of coupon income under Bonds;
- f) The tax status of the person authorized to receive the sums of coupon income under Bonds.

Should the said data fail to be submitted, or fail to be submitted in due time to NDC, the Issuer bears no responsibility for untimely or undue execution of obligations on coupon income payment on Bonds. It is the Owner of Bonds who takes the risks of damages in case of untimely or incomplete submission of the above-mentioned data.

Should the said data fail to be submitted, or fail to be submitted in due time to NDC, execution of such obligations shall be effected in favor of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. In such a case the Issuer fulfils the obligations under the Bonds on the basis of the NDC's data.

On the basis of the list of Bond Owners and nominal Holders, provided by NDC, the Payment Agent calculates the amounts of money to be paid to each person authorized to receive Bond coupon income amounts.

Not later than 3 (three) working days before the date of coupon income payment under Bonds, the Issuer transfers the appropriate money to the Payment Agent's account.

As at the date of coupon income payment the Payment Agent transfers the appropriate money to accounts of the persons authorized to get the sums of coupon income under Bonds for the benefit of the Bond Owners.

If one person is authorized to receive Bond coupon income amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

Terms and the arrangements of the redemption:

The dates (procedure for setting the dates) as of which the lists of Bonds Holders are made up for the purpose of their retirement:

Retirement of the appropriate part of the Bonds face value is effected in favor of Bond Owners who are such Owners as of the end of Depository's operation day preceding the fourth day before the day of the retirement of the appropriate part of the Bonds' face value (hereinafter referred to as the Date of Making up the List of Bond Holders for Retirement of a Part of the Bonds' Face Value).

If the owner's title to the Bonds are taken into account by the nominal holder of the Bonds and the nominal holder of the Bonds is authorized to receive the money from retirement of Bonds, the person authorized to receive the money from retirement of Bonds shall mean the nominal holder of the Bonds.

If the owner's title to the Bonds are not taken into account by the nominal holder of the Bonds or the nominal holder of the Bonds is not authorized by the owner to receive the money from retirement of Bonds, the person authorized to receive the money from retirement of Bonds shall mean the owner of the Bonds.

It is presumed that nominal holders, who are the depositors of the Depository, are authorized to receive Bonds retirement money. Not later than at 2.00 p.m. Moscow time on the 4th (Fourth) working day before the Date of Retirement of a Part of the Bonds Face Value, the depositors of the Depository, who are nominal holders and who are not authorized by their clients to receive Bonds retirement money, shall transfer to the Depository the list of Bond holders, that must contain all the details indicated below in the List of Bond Holders for Retirement of a Part of the Face Value.

If a Bond Owner who authorizes a nominal Bond holder to receive amounts from retirement of the Bonds face value is a non-resident or/and an individual, the nominal holder shall be obliged to specify in the List of Bond Owners the following information about such person.

- full name/first name, middle initial, last name the owner of Bonds;
- number of the Bonds owned;
- full name of the person, authorized to receive the redemption sums under Bonds;
- location (or place of registration – for individuals) and postal address of the Bond Owner including postal code;
- details of the bank account of the person, authorized to receive the sums of repayment under Bonds;
- Tax-payer's Identification number (TIN) of the Bond Owner;
- tax status of the Bond Owner.

If a Bond Owner is a legal entity – non-resident:

- personal identification number (IIN) – if any.

If a Bond Owner is an individual:

- kind, number, date and place of issue of the identity document of a Bond Owner, name of the authority issuing the identity card;
- number of the certificate of the state retirement insurance of the Bond Owner (if any);
- Tax-payer's Identification number (TIN) of the Bond Owner (if any);
- date, month and year of birth of the Bond Owner.

A Bond Owner, if it/he/she is not a depositor of the Depository, may authorize a Bond holder who is a depositor of the Depository to receive amounts from yield payment and retirement of a part of the Bonds face value.

On the basis of the data available and/or submitted by depositors, the Depository shall make up the List of Bond Holders for Retirement of a Part of the Face Value, which List shall be submitted to the Issuer and/or to the Payment Agent no later than on the 3rd (third) working day before the Date of retirement of a part of the Bonds face value. The List of Bond Holders for Retirement of a Part of the Face Value shall include the following details:

a) full official name (official name for non-profit organizations, full personal name for an individual) of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;

b) the number of Bonds registered on the custody account of the Owner or on the inter-depository account of the nominal Bonds holder authorized by the Owner to receive the retirement amounts under the Bonds;

c) location and mailing address of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;

d) bank account details of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds, viz:

- No. of the bank account;

- name of the bank, with which the account is opened;

- correspondent account of the bank, with which the account is opened;

- location and mailing address of the bank;

- bank identification code of the bank, with which the account is opened;

e) tax-payer's identification No. (INN, or TIN) of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;

f) tax status of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds (resident, non-resident with a permanent representative office in the Russian Federation, non-resident without a permanent representative office in the Russian Federation, etc.)

Owners of the Bonds, their authorized representatives, including Depository's depositors, shall independently monitor whether the details of the bank account presented to the Depository are complete and up-to-date. Should the said details fail to be submitted, or fail to be submitted in due time to Depository, execution of such obligations shall be effected in favor of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim.

In such a case the Issuer fulfils the obligations under the Bonds on the basis of Depository's data and the Issuer's obligations shall be considered as fulfilled duly and in full. Should the bank account details and the other data provided by the Owner or the nominal holder or available in the Depository, which are necessary for the Issuer to perform its obligations under the Bonds, do not make it possible for the Payment Agent to effect money transfer in due time, then such a delay shall not be considered as a delinquency in commitment of obligations under the Bonds. Then the Bond Owner is not entitled to demand any interest or any other compensation for such a delay in payment.

Other terms and the procedure of Bonds retirement:

Bonds are retired in the monetary form in the currency of the Russian Federation using non-cash instruments by transfer to the Bond Owners. Bonds are to be redeemed by the Payment agent on behalf and at the expense of the Issuer.

Not later than on the 2nd (second) working day before the Date of Retirement of a Part of the Bonds Face Value, the Issuer shall transfer the required monetary funds to the Payment Agent's account. On the basis of the list of Bond Holders, provided by the Depository, the Payment Agent calculates the amounts of money to be paid to each of the Bond Holders authorized to receive Bond retirement amounts.

On the date of Bonds face value partial retirement, the Payment Agent transfers the appropriate monies to accounts of Bond Holders in favor of Bond Owners.

If one person is authorized to receive Bond retirement amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

Should the Date of Bonds Face Value Partial Retirement fall on a day off, irrespective of whether it is a national holiday or a day off for settlement operations, then payment of the due amount shall be effected on the first working day following the day off. The bondholder is not entitled to demand any interest or any other compensation for such a delay in payment.

Execution of the obligations under the Bonds in respect of a party included in the List of Bond Holders for Bonds face value partial retirement shall be considered as due and proper also in case of

The procedure of the coupon (interest) yield payment:

Payment of the Bond yield is effected in the monetary form in the currency of the Russian Federation using non-cash instruments by transfer to Bond Owners and/or Bond Holders authorized to receive appropriate amounts from the Bond yield payment in favor of Bond Owners. A Bond owner, if it/he/she is not a depositor of the Depository may, but is not obliged to authorize the Bond holder who is a depositor of the Depository to receive amounts from the Bond yield payment. If the owner of Bonds has not authorized a Depository's depositor to receive money from the yield on the Bonds in his/her favor, the yield on the Bonds shall be paid directly to the owner of the Bonds.

It is presumed that nominal holders, who are the depositors of the Depository, are authorized to receive Bonds retirement money. Not later than at 2.00 p.m. Moscow time on the 4th (Fourth) working day before the Date of Retirement of a Part of the Bonds Face Value, the depositors of the Depository, who are nominal holders and who are not authorized by their clients to receive Bonds retirement money, shall transfer to the Depository the list of Bond holders, that must contain all the details indicated below in the List of Bond Holders for Retirement of a Part of the Face Value.

If a Bond Owner who authorizes a nominal Bond holder to receive amounts from retirement of the Bonds face value is a non-resident or/and an individual, the nominal holder shall be obliged to specify in the List of Bond Owners the following information about such person.

- full name/first name, middle initial, last name the owner of Bonds;
- number of the Bonds owned;
- full name of the person, authorized to receive the redemption sums under Bonds;
- location (or place of registration – for individuals) and postal address of the Bond Owner including postal code;
- details of the bank account of the person, authorized to receive the sums of repayment under Bonds;
- Tax-payer's Identification number (TIN) of the Bond Owner;
- tax status of the Bond Owner.

If a Bond Owner is a legal entity – non-resident:

- personal identification number (IIN) – if any.

If a Bond Owner is an individual:

- kind, number, date and place of issue of the identity document of a Bond Owner, name of the authority issuing the identity card;

- number of the certificate of the state retirement insurance of the Bond Owner (if any);
- Tax-payer's Identification number (TIN) of the Bond Owner (if any);
- date, month and year of birth of the Bond Owner.

A Bond Owner, if it/he/she is not a depositor of the Depository, may authorize a Bond holder who is a depositor of the Depository to receive amounts from yield payment and retirement of a part of the Bonds face value.

On the basis of the data available and/or submitted by depositors, the Depository shall make up the List of Bond Holders for Retirement of a Part of the Face Value, which List shall be submitted to the Issuer and/or to the Payment Agent no later than on the 3rd (third) working day before the Date of retirement of a part of the Bonds face value. The List of Bond Holders for Retirement of a Part of the Face Value shall include the following details:

- a) full official name (official name for non-profit organizations, full personal name for an individual) of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;
- b) the number of Bonds registered on the custody account of the Owner or on the inter-depository account of the nominal Bonds holder authorized by the Owner to receive the retirement amounts under the Bonds;
- c) location and mailing address of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;
- d) bank account details of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds, viz:
 - No. of the bank account;
 - name of the bank, with which the account is opened;
 - correspondent account of the bank, with which the account is opened;
 - location and mailing address of the bank;
 - bank identification code of the bank, with which the account is opened;
- e) tax-payer's identification No. (INN, or TIN) of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;
- f) tax status of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds (resident, non-resident with a permanent representative office in the Russian Federation, non-resident without a permanent representative office in the Russian Federation, etc.)

Owners of the Bonds, their authorized representatives, including Depository's depositors, shall independently monitor whether the details of the bank account presented to the Depository are complete and up-to-date. Should the said details fail to be submitted, or fail to be submitted in due time to Depository, execution of such obligations shall be effected in favor of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim.

In such a case the Issuer fulfils the obligations under the Bonds on the basis of Depository's data and the Issuer's obligations shall be considered as fulfilled duly and in full. Should the bank account details and the other data provided by the Owner or the nominal holder or available in the Depository, which are necessary for the Issuer to perform its obligations under the Bonds, do not make it possible for the Payment Agent to effect money transfer in due time, then such a delay shall not be considered as a delinquency in commitment of obligations under the Bonds. Then the Bond Owner is not entitled to demand any interest or any other compensation for such a delay in payment.

Not later than on the 2nd (second) working day before the Date of Retirement of a Part of the Bonds Face Value, the Issuer shall transfer the required monetary funds to the Payment Agent's account. On the basis of the list of Bond Holders, provided by the Depository, the Payment Agent calculates the amounts of money to be paid to each of the Bond Holders authorized to receive Bond retirement amounts.

On the date of Bonds face value partial retirement, the Payment Agent transfers the appropriate monies to accounts of Bond Holders in favor of Bond Owners.

If one person is authorized to receive Bond retirement amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

Should the Date of Bonds Face Value Partial Retirement fall on a day off, irrespective of whether it is a national holiday or a day off for settlement operations, then payment of the due amount shall be effected on the first working day following the day off. The bondholder is not entitled to demand any interest or any other compensation for such a delay in payment.

8.8. Description of the Taxation Procedure for Income under Issuer's Placed Securities

Taxation of income of legal entities under the placed securities received in the form of dividends according to the current legislation

	Categories of owners of securities	
	Legal entities – tax residents of the Russian Federation	Foreign legal entities – non-residents gaining income from the sources in the Russian Federation
Form of income under placed securities	Dividends	
Kind of the tax on income under securities	Tax on income	
Tax rates	9 %	15 %
Procedure and terms of tax payment	Dividends are subject to a tax deducted from the source of income payment and transferred to the federal budget by the fiscal agent within 10 days from the date of income payment.	The tax amount deducted from the foreign organizations is transferred by the tax agent to the federal budget together with payment of the income either in currency of payment of this income or in currency of the Russian Federation at the official rate of the Central bank of the Russian Federation as at the date of tax payment.

	Categories of owners of securities	
	Legal entities – tax residents of the Russian Federation	Foreign legal entities – non-residents gaining income from the sources in the Russian Federation
Peculiarities of taxation of the given category of owners of securities	The total tax amount is determined from differences between the sum of the dividends to be distributed among shareholders-residents in the current tax period and the sum of the dividends received by the <i>fiscal agent himself in the current accounting (tax) period</i> . In case the received difference is negative, the duty on tax payment does not arise and compensation from the budget is not made. The tax amount to be deducted from taxable income of the taxpayer - recipient of dividends, is calculated on the basis of the total tax amount and share of each taxpayer in the total sum of dividends.	The rules of double taxation agreements. If a tax payer is entitled to avoid tax under a double tax agreement, to receive tax exemption or other benefits, he should provide documentary evidence to fiscal authorities to confirm that it is a tax resident of a state with which the Russian Federation has a double taxation agreement as well as the document on the received income and on tax payments outside the Russian Federation, verified by the tax authority of the corresponding foreign country. If such confirmation is not <i>presented prior</i> to tax payment date, the fiscal agent should withhold taxes from the received income of a foreign legal entity. According to paragraph 2 of Article 312 of the Tax Code the foreign recipient of the income has the right to compensation of the withheld tax under the paid income within three years from the end of the tax period in which the income has been paid, provided the foreign recipient of the income presents corresponding documents (list of which is indicated in Article 312 of the Tax Code of the Russian Federation) to the tax body at the place of registration of the tax agent. The withheld and paid taxes shall be returned within a month period from the date of submitting application and the mentioned documents.

Notes relating to bond issues of series K-1, K-2 and C-1 described in item 10.3.1:

According to the terms of bonds redemption, they should be repaid after submission of the application on payment of face value and income under bonds by a Bond Holder.

The term of bonds redemption having been expired, notices were sent to the Bond Holders, who had not submitted such applications, informing them about the necessity to receive money resources under bonds owned by them. Not all Bond Holders of "UTK" PJSC submitted applications for repayment of bonds.

According to item 327 of the Civil Code of the Russian Federation and items 87-88 of the Basis of the legislation of the Russian Federation «On notary» obligations have been fulfilled by transferring money resources on the deposit account of the notary according to the Agreements with the notary (Agreement № 148/2004 of 24.05.2004 and Agreement of 25.06.2004)

According to Article 87 of the Basis of the legislation of the Russian Federation «On notary » the notary informs a creditor about receipt of money and pays out due sums of money to him at his request.
