DAIRI ZINC-LEAD PROJECT – FORESTRY APPROVAL UPDATE

As previously flagged, on February 13 the Company made its presentation to Commission IV, a sub-committee of the Indonesian parliament dealing with forestry matters.

The Company is still waiting to hear the outcome. The Commission typically has a number of matters before it for consideration at any one time, and do require input from other parties before making their recommendation. It is our hope that this recommendation will be received before the end of March. The Company has also had meetings with the Director General and the Minister of Energy and Minerals who have been a great support to us in our quest to get the required forestry permit in order to further develop the Dairi Project.

To date the Company has not been given any reason to believe that the permit will not be granted.

Yours faithfully

MICHAEL P WRIGHT
Executive Director
