Atlas Copco has completed Greenfield acquisition

Stockholm, Sweden, March 21, 2007: Atlas Copco has completed the acquisition of the business of GreenField, based in Switzerland. The company is engaged in high pressure gas applications, mainly compressed natural gas (CNG) for natural gas vehicles. The turnover of GreenField is approximately MSEK 270 (MEUR 30) and it has around 200 employees.

GreenField designs, manufactures and markets a range of CNG compressors aimed at the natural gas vehicles market. The company has a long history in high pressure gas compression systems, a solid application knowledge and a well-known brand.

GreenField's headquarters are located in Pratteln, near Basel, Switzerland. The acquisition, which was announced on February 19, includes the business of the companies in the United States, Germany, Argentina, Brazil, Colombia, Venezuela, Canada, and Australia.

GreenField will be part of the Oil-free Air division in the Compressor Technique business area. GreenField will continue to be a stand-alone brand.

Atlas Copco is a world leading provider of industrial productivity solutions. The products and services range from compressed air and gas equipment, generators, construction and mining equipment, industrial tools and assembly systems, to related aftermarket and rental. In close cooperation with customers and business partners, and with more than 130 years of experience, Atlas Copco innovates for superior productivity. Headquartered in Stockholm, Sweden, the Group's global reach spans more than 150 markets. In 2006, Atlas Copco had 25 900 employees and revenues of BSEK 51 (BEUR 5.6). Learn more at www.atlascopco.com.

Oil-free Air is a division within Atlas Copco's Compressor Technique business area. It develops, manufactures, and markets oil-free air compressors for all kind of industries worldwide where the air quality is vital, and oil-injected compressors for less critical applications. The division focuses on air optimization systems, aftermarket products and quality air solutions to further improve customers' productivity. The divisional headquarters and main production center are located in Antwerp, Belgium.
