- **Delay in the completion of an order**
- **High demand for leading Oerlikon solar technology continues unabated**
- **Targets for 2007 fully confirmed**

Pfäffikon SZ, April 19, 2007 – For the order placed by API, Offenburg, which was announced at the beginning of December 2006, for the delivery of production systems for thin-film silicon solar modules, a payment delay has occurred. Oerlikon and API are currently working together towards a solution. Production of the plants is proceeding according to plan on the basis of a legally-binding contract. All in all, the demand for Oerlikon's cutting-edge thin film solar technology continues to be very high. At present, Oerlikon is the only provider in the world that can offer and supply turn-key, industrial, technically mature production solutions for thin-film silicon solar modules based on amorphous silicon. The plant, which was delivered to ersol Thin Film in Erfurt at the end of 2006, is currently ramping up production. Based on the strong interest in the market and intensive negotiations with potential customers, Oerlikon is convinced that the 2007 targets defined for the Oerlikon Solar business unit will be met, even with the delay of individual orders.

Oerlikon (SWX: OERL) is among the world's most successful industrial high-tech companies focusing on machine and systems engineering. Oerlikon stands for leading industrial solutions and cutting-edge technology in textile production, thin film coating, propulsion, precision and vacuum technology. As a company with Swiss roots and a 100-year tradition, Oerlikon, with CHF 4.8 billion in sales, over 19,000 employees at 170 locations in 35 countries, has evolved into a global player today. The group is ranked first or second in each of its respective markets. Oerlikon's share price trebled in 2006 and its market capitalization exceeded the CHF 8.5 billion mark, which led to the company's inclusion in the European STOXX 600 index. Oerlikon was the best performing stock of the year 2006.*

** Cumulated annual sales for the Oerlikon Group in 2006 (CHF 1.7 billion) and the Saurer Group (CHF 3.1 billion)*
