## REG-Surfcontrol PLC Trading Update Q3 FY07

RNS Number:6583U  
Surfcontrol PLC  
11 April 2007

SurfControl plc  
("SurfControl" or "the Company")  
Third Quarter FY07 Trading Update

SurfControl grows its product and on-demand services portfolio 24% and achieves positive profit contribution from BlackSpider acquisition

Scotts Valley, CA (April 11, 2007) - SurfControl plc (London: SRF.L) the leading provider of global on-demand, network and endpoint IT security solutions, today provided a trading update for the third quarter ended March 31, 2007.

### Third Quarter Highlights

- Overall billings growth of 24% to \$32.6m (Q3 FY06: 3% to \$26.4m)
- On-demand service and product billings growth rates were 40% and 7% respectively, producing 10% billings growth on a like-for-like basis
- On-demand services produced a positive profit contribution three months ahead of management expectations
- Proportion of billings via channel partners increased to 79% (Q3 FY06:67%)

On-demand services and appliances. Our Q3 billings results reflect the higher levels of market demand for Secure Content solutions delivered via an on-demand service or an appliance, as compared to licensed software. Layered solutions of more than one of these delivery methods are becoming increasingly popular as an economic way for enterprises to raise their level of protection against Internet threats and to secure and manage their content. On-demand billings grew 40% compared to the prior year performance of BlackSpider Technologies ("BST"), with the comparative BST Q3 FY06 billings including one exceptionally large contract. Also consistent with underlying market demand, appliance billings grew 41% and software billings grew 6% compared to the prior year.

Positive profit contribution from BST. Growth in on-demand revenues and achievement of integration cost synergies are ahead of management expectations. As a result, on-demand services for the first time produced a small positive contribution to overall Company profit in the month of March which is three months ahead of plan. During the third quarter the provision of on-demand services was extended to Australia, and data centres were opened in Sydney and Hong Kong. The Company now has global coverage with 11 data centres to provide on-demand services on a world-wide basis, and further country launches are planned in the coming months.

Strategic channel partnerships and OEM relationships. Relationships with channel and OEM partners continued to strengthen in the third quarter with the proportion of billings through the channel increasing to 79% (Q3 FY06: 67%). Further underscoring this improvement in channel volume was the continued year-over-year growth in business through key distributors in the UK and US. OEM partner relations were particularly strong with billings growth of 101% in Q3 compared to the third quarter last year.

Announcement of web filtering appliance. Recognizing the relative growth in demand for appliances as a platform to deliver Secure Content solutions, the Company has announced a web filtering appliance to complement its existing e-mail filtering appliance. At the March CeBIT tradeshow in Germany, the Company showcased the SurfControl Web Filter Appliance which combines Microsoft's Internet Security and Acceleration (ISA) Server 2006 Standard Edition and SurfControl's web filtering software onto a single appliance. Celestix' market leading appliance expertise provides the underlying appliance platform. SurfControl's Web Filter Appliance will ship in Q4.

Stable contract lengths. During the second quarter contract lengths shortened relative to the same period in the prior year due to the withdrawal of systematic '3 for 2' promotions that were historically only offered in the second and fourth quarters. Contract lengths in the third quarter remained stable when compared to the previous year. The value of three-year contracts as a proportion of total billings in Q3 was 33% (Q3 FY06: 33%).

Corporate activity. On 7th December 2006, the Company announced that it had received an unsolicited approach which could result in a potential offer being made for the Company. These discussions are continuing and may or may not lead to an offer being made for the Company. The Company is not providing any further information in relation to these discussions at this time. A further statement will be made in due course depending on the outcome of the discussions.

Commenting on the results, Patricia Sueltz, CEO said, "Our third quarter results endorse SurfControl's strengthening of our products and on-demand services portfolio as well as our delivery partnerships. The development of our portfolio of Secure Content solutions has put us in a very strong position to take advantage of the relative growth rates in on-demand services, appliances, and software that underlie the overall growth in the Secure Content Market. Layered protection in the cloud, at the network edge and at the desktop is being recognized as an economic way to increase protection, and SurfControl can now deliver in all three areas at a lower total cost of ownership.

"Our investment in BlackSpider is delivering excellent results, with on-demand services now contributing ahead of schedule to the Company's overall profits. I am extremely proud of our team and pleased to be a partner with the best channel resellers and distributors in the industry. I look forward to a successful outcome to the year as a whole."

The financial measures contained in this RNS are preliminary. Full details of the third quarter financial results will be provided via SurfControl's regularly scheduled earnings release on Tuesday, May 1, 2007.

About SurfControl

SurfControl provides a portfolio of security solutions to protect our customers from Internet threats, deliver business and regulatory compliance, and enable business continuity. SurfControl believes that security should be treated as a science, delivering protection at multiple points -- "in the cloud" with on-demand security services, on the network with software and appliances, and on the desktop and mobile client. All of SurfControl's solutions for Web, e-mail and endpoint security are backed by industry-leading threat detection technologies, delivered by SurfControl's Global Threat Experts who work 24/7 to provide customers with dynamic zero-day protection. The company protects more than 14.5 million users in over 25,000 customers worldwide, and employs more than 600 people in offices across Europe, the Americas, and Asia/Pacific. For further information and news on SurfControl, please visit [www.surfcontrol.com](http://www.surfcontrol.com).

Caution concerning forward-looking statements

Any statements contained in this announcement that are not historical facts are forward-looking statements. Although the Company believes that its plans, intentions and expectations reflected in such forward-looking statements are reasonable, a number of important factors could cause SurfControl's actual future results to differ materially from those expressed in any such forward-looking statements. The forward-looking statements herein speak only as of today.

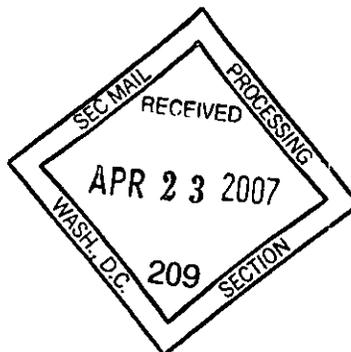

SurfControl expressly disclaims any obligation or undertaking to update or revise such information.
