News Release 07-14

OFFICE OF INTER-CORPORATE FINANCE

Court Action Stayed

REDCORP VENTURES LTD. (RDV-TSX) and Redfern Resources Ltd. ("Redfern"), its wholly-owned subsidiary, (together the "Company"), announce that the Federal Court has ordered a stay of proceedings in the case of the court action filed in the federal court last August 24, 2006 by the Transboundary Watershed Alliance ("TWA"), with the consent of all parties to the case.

As announced by the Company on August 25, 2006 the action was filed to seek to prohibit Fisheries and Oceans Canada and Transport Canada from issuing necessary authorizations and permits for the construction of the proposed access road to the new Tulsequah Chief Mine.

The action had proceeded to filing of initial documents and responses by the parties. However the announcement of the Company's intent to seek the use of modern barging technology for access to the mine in conjunction with the release of the updated Feasibility Study on January 29, 2007 has obviated the basis of the action. As part of the consent order, Redfern has agreed to provide notice to TWA if it intends to proceed with road construction in the future.

Redcorp Ventures Ltd. is a Vancouver-based mineral exploration and development company with active projects in British Columbia and Portugal. Further information on Redcorp and the Tulsequah Project can be obtained on the Company's website at www.redcorp-ventures.com and at Redfern's website at www.redfern.bc.ca or by calling toll-free to Troy Winsor, Manager of Investor Relations, at 1-888-225-9662.

ON BEHALF OF THE BOARD OF DIRECTORS OF REDCORP VENTURES LTD.

Certain of the statements made and information contained herein is "forward- looking information" within the meaning of the *Securities Act* (Ontario) and the *Securities Act* (Alberta) . Forward-looking information includes disclosure regarding possible or anticipated events, conditions or results of operations that is based on assumptions about future economic conditions and courses of action and includes future oriented financial information with respect to prospective results of operations or financial position that is presented either as a forecast or a projection. Forward looking information is often, but not always, identified by the use of words such as "seek", "anticipate", "believe", "plan", "estimate", "expect" and "intend"; statements that an event or result is "due" on or "may", "will", "should", "could", or might" occur or be achieved; and, other similar expressions.

REDCORP VENTURES LTD.

REDCORP

More specifically, forward looking information contained herein includes, without limitation, statements concerning the Company's plans at its Tulsequah Project (inclusive of the Big Bull Project), the net present value of the Tulsequah Project, the timing and amount of estimated future production and mine life, expected future prices of gold, silver, copper, lead and zinc, metallurgical response and net smelter return valuations, mineral reserve and mineral resource estimates, estimated capital and operating costs of the project, estimated capital pay back period, timing of development and permitting time lines; all of which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information.

Forward-looking information contained herein is based on material factors and assumptions and is subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from a conclusion, forecast or projection in the forward-looking information. These include, without limitation, material factors and assumptions relating to, and risks and uncertainties associated with, the availability of financing for activities when required and on acceptable terms, the accuracy of the interpretation of drill results and the estimation of mineral resources and reserves, the geology, grade and continuity of mineral deposits, the consistency of future exploration, development or mining results with the Company's expectations, metal price fluctuations, the achievement and maintenance of planned production rates, the accuracy of component costs of capital and operating cost estimates, current and future environmental and regulatory requirements, favourable governmental relations, the availability of permits and the timeliness of the permitting process, the availability of shipping services, the availability of specialized vehicles and similar equipment, costs of remediation and mitigation, maintenance of title to the Company's mineral properties, industrial accidents, equipment breakdowns, contractor's costs, remote site transportation costs, materials costs for remediation, labour disputes, the potential for delays in exploration or development activities, timely completion of future NP 43-101 compliant reports, timely completion of future feasibility studies, the inherent uncertainty of production and cost estimates and the potential for unexpected costs and expenses, commodity price fluctuations, currency fluctuations, continuing global demand for base metals, expectations and beliefs of management and other risks and uncertainties, including those described under Risk Factors Relating to the Company's Business in the Company's Annual Information Form, dated March 28, 2006, and in each subsequent Management's Discussion and Analysis. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from any conclusions, forecasts or projections described in the forward-looking information. Accordingly, readers are advised not to place undue reliance on forward-looking information. Except as required under applicable securities legislation, the Company undertakes no obligation to publicly update or revise forward-looking information, whether as a result of new information, future events or otherwise.
