### Manson Creek Updates Its Continuous Disclosure Filing

Manson Creek Resources Ltd. ('Manson Creek') wishes to announce that as part of an ordinary course continuous disclosure review conducted by the Alberta Securities Commission, it has submitted an amended Form 52-109F2 for the period ended December 31, 2006 and December 31, 2007 and an addendum to its Information Circular dated March 12, 2007.

The Original Certificates for the three months ended December 31, 2005, incorrectly make reference in paragraph 4(a) to the annual filings instead of the interim filings. As of the date of this notice, the Original Certificate is superseded and replaced by the Form 52 - 109F2 dated June 28, 2007 required to be filed by the issuer with the Canadian securities regulatory authorities through SEDAR.

The Original 52 - 109F2 Certificates filed on February 28, 2007 for the three months ended December 31, 2006, incorrectly included paragraph 4(c), which is required on the annual certificate 52 - 109F1 but not the correct content for Form 52 - 109F2. As of March 5, 2007, the Original Certificates are superseded and replaced by the Form 52 - 109F2 dated March 5, 2007 required to be filed by the Issuer with the Canadian securities regulatory authorities through SEDAR.

As part of an ordinary course continuous disclosure review conducted by the Alberta Securities Commission, Manson Creek has filed their Audit Committee Charter as an Addendum to our Information Circular dated March 12, 2007. The original Information Circular instructed the reader to refer to the Company's website and did not attach the Audit Committee Charter.

#### Manson Creek

Manson Creek Resources Ltd. is a mineral exploration company with a focus on acquiring and advancing early stage Gold, Silver, Uranium, and Base Metal projects located in western Canada.

The Manson Creek technical team of professional geologists has assembled a comprehensive portfolio of uranium, precious and base metal projects in Saskatchewan, British Columbia, and the Yukon. These diverse projects, all at varied stages of exploration, offer excellent exposure to the favorable commodity markets.

The TSX Venture Exchange has neither approved nor disapproved of the contents of this press release.

All statements, other than statements of historical fact, in this news release are forward-looking statements that involve various risks and uncertainties, including, without limitation, statements regarding the potential extent of mineralization and reserves, exploration results and future plans and objectives of Manson Creek Resources Ltd. These risks and uncertainties include, but are not restricted to, the amount of geological data available, the uncertain reliability of drilling results and geophysical and geological data and the interpretation thereof and the need for adequate financing for future exploration and development efforts. There can be no assurance that such statements will prove to be accurate. Actual results and future events could differ materially from those anticipated in such statements. These and all subsequent written and oral forward-looking statements are based on the estimates and opinions of management on the dates they are made and are expressly qualified in their entirety by this notice. The Company assumes no obligation to update forward-looking statements should circumstances or management's estimates or opinions change.
