Chairman's and Chief Executive's Report

'The need for quality information, and the value people place on it, is growing. We are seeing good demand for our products and services across all formats and are benefiting from additional revenue growth by connecting formats, markets and territories. This has resulted in a strong first half and we are confident of another successful full year for Informa.'

David Gilbertson, Chief Executive

Informa has begun the year strongly. On a pro forma constant currency basis ('pro forma'), revenue rose 10% and adjusted operating profit was 24% higher.

Profit before tax (PBT) for the period of £87.8m was 125% ahead of the same time last year, £33.4m of this was from the disposal of Informa's Blackwell Publishing share holdings. Adjusted PBT increased by 14%.

All three divisions (Academic & Scientific, Professional and Commercial) translated good pro forma revenue growth into even greater adjusted operating profit increases. Informa's adjusted operating profit margin for the first half of the year is 21.8%, ahead of last half year's 19.7% and 2006 full year 21.1%.

The Academic & Scientific division had resilient pro forma revenue growth of 7%, translating into pro forma adjusted operating profit growth of 27%. The Professional division had a robust 10% pro forma revenue growth, translating into 18% pro forma adjusted operating profit growth and the Commercial division had a growth capturing 14% pro forma revenue increase, translating into 28% higher pro forma adjusted operating profit.

The diversity of Informa's product offering across sectors and geographies gives us particular strength. In the first half of this year from our operations in 80 countries and hundreds of vertical markets, Informa customers paid to receive premium content in books, journals, magazines, newspapers, exhibitions, training courses, PI engagements, data feeds, and increasingly through a full range of electronic media.

Across Informa 95% of all subscription and licence revenue is now digitally delivered. We have made the investment to ensure that we can take advantage of the many opportunities provided by digital delivery: greater customisation, greater speed to market and greater reach.

The acquisition of Datamonitor (DM), whose market intelligence is delivered electronically, supports this further. We expect to accelerate Datamonitor's already robust growth through extending its global footprint using Informa's broad geographical office network; leveraging Informa's 20 million record marketing database and 12,500 event promotion opportunities and connecting key account customers in shared markets.

Datamonitor has also strengthened our revenue mix. On an annualised basis with DM as part of the Group then 41% of our revenue now comes from highly resilient subscription and academic books sales. If we add to that the 40% of our events revenue which comes from our top 200 largest events and the 90% of our PI revenue which renews annually, we see that three quarters of Informa's revenue mix is visible and renewing. Due to the higher margins of both our publishing revenues and our leading events this translates to approximately 90% in adjusted operating profit terms.

Current Trading and Outlook

Current trading across all divisions and revenue streams is good. We are seeing good demand for our information across all formats and benefiting from additional revenue growth by connecting formats, markets and territories.

In Academic & Scientific we continue to benefit from our high subscription renewals and the increase of electronic media. The next set of electronic archives (Health Sciences; Politics, International Relations and Area Studies; Strategic, Defence and Security Studies) which all have a high drop through have been sourced and are beginning pre sales.

In the Professional division the PI businesses which have enjoyed double digit growth in the first half are being fuelled by the on-going internationalisation of their sales teams and client base. This is expected to provide a strong engine for the second half year also.

In Commercial, the extension of our leading brands into all media formats is driving strong half year growth. Building on the successful event brand, Cityscape, the Cityscape Market Intelligence Service is set to launch in October 2007. In Commodities, the World Ethanol event, which will celebrate its 10th anniversary in the second half of the year, has for the first time been produced according to the Large Scale Event model and current registrations are four times the same point last year.

Datamonitor

Datamonitor has had a strong start to the year with organic growth of 22% and total revenue growth of 62%. This momentum is continuing well into the second half of the year. Supported by the planned Informa synergies, forecasts for the rest of the year are comfortably in line with our expectations.

Across Informa, our increased scale is helping improve margins, as individual businesses take advantage of shared service centres, new technology developments and existing office space to reduce costs.

We are confident of another successful full year which meets the Board's expectations.

Board changes

On 17 July 2007 Tony Foye announced he was stepping down after 20 years in charge of the Group's finances. Tony has been Group Finance Director since the merger of Taylor & Francis and Informa in May 2004. Prior to this he was Finance Director of Taylor & Francis Group plc and instrumental in its successful flotation on the London Stock Exchange in May 1998. Tony will remain in his role and as a member of the Informa plc board in order to achieve a smooth transition of responsibilities, which is likely to be until the end of the current financial year. An external search process is now being initiated for his successor.

Review by Business Stream

Publishing

Publishing, at £205.5m accounted for 39% of the first half year revenues. On a pro forma basis this represents an increase of 6%. Over half of the revenue, 62%, is subscription based. Subscription revenues are split approximately 60 / 40 between corporate and academic clients. Had Datamonitor, acquired in July, been part of Informa for the first half of the year, subscription revenues would increase from the current 24% of total revenue to approximately 27% of total revenue. The split between corporate and academic markets would be approximately 70 / 30.

In each of our divisions and markets the successful migration from print based publishing to content which is technology enabled has allowed us to add value through functionality, increased comprehensiveness and speed. This has helped us to widen the sales offering and drive incremental yield as organisations readily access more of our information.

In the Academic division, the successful launch in 2006 of four electronic subject based archives, based on the rich authoritative journals content, has continued well into first half of 2007. Sales of the first four archives, Education, Business, Management and Economics, Chemistry and Physics, are growing well with over \$1m in incremental sales for the 2006 period and \$4m 2007 year-to-date, including nationwide agreements in Germany and Greece. The next four archives have just been launched and there are more launches planned for the second half of the year.

Digital versions of academic books, e-books, also play an important part in the development of the on-line offering. They are sold through aggregators to the library community as part of 'libraries of information' as well as forming part of the overall multi product online delivery of academic content sourced from books, journals, reference and archive materials. Large parts of the back catalogue and all new titles are converted to build this collection which is now approaching 15,000 titles.

In the Professional division, the good growth in subscription revenues for Informa Professional was driven mainly by online take-up. Expanding from a small base of early adopters our law portal, i-law, has grown significantly in the first half of 2007.

In the Commercial division, Lloyd's MIU, the leader in global maritime information, continued the rollout of the world's largest AIS electronic network in order to track the movement of the world merchant fleet. Combining this with other intelligence and functionality has enabled increased leverage from the information for sale to a wide range of customers.

Products in all Informa publishing divisions are now designed to be media neutral. The venerable title Lloyd's List is a prime example of this. In June this year it unveiled a new design as a full-colour compact broadsheet format with increased content. Maintaining the quality ethic underpinning it since 1734, the redesign was merely the front end of a significant investment in a world-leading media neutral publishing system. We are now migrating all transport magazines and newspapers into the system, so that we will have a large database of highly structured XML content to combine with our data driven products and to allow us to re-purpose content across all our titles and develop their online revenues.

We continue to have very little reliance on advertising revenues, they account for just 3% of total revenue.

Performance Improvement

Performance Improvement (PI) at £109.7m accounted for 21% of first half year revenues. On a pro forma basis this represents an increase of 10%.

The PI business is performing well. Communispond, the smallest of the PI brands which had a flat 2006, has turned around and is now producing good top line and strong profit growth.

Robbins-Gioia, the programme management specialists with a significant government client base and the largest of the PI businesses, has seen its \$4m investment last year in new solutions development starting to pay-off. Pro forma revenue in the first half year 2007 is 10% ahead of the same point last year and pro forma adjusted operating profit has grown by 14%.

Good growth is being achieved throughout PI as the result of the two pronged investment approach: developing new intellectual property driven product and expanding the international sales force. This is enhanced by two related client drivers: a demand for proof of results and a need for global best practice consistency.

Haagen-Dazs, for example, worked with Forum to improve the business performance of its retail stores by creating an enhanced customer experience. They needed a partner who could help them deliver consistency of best practice globally. Forum worked with them in four major locations - London, France, Hong Kong and Spain - to achieve:

- Same store sales up an average of 13%;
- Increased sales per customer by encouraging trading-up/additional purchases;
- Top customer satisfaction up 19% (from 55% to 74%);
- Employee satisfaction up; staff turnover down;

Haagen-Dazs is now expanding the Forum-led programme to all 640 stores worldwide.

Informa's decision to buy back some PI Asian franchises in order to drive growth is already beginning to pay off. ESI's acquisition and subsequent integration of its Asian distributor and successful launch in India has produced top line growth in Asia 26% ahead of budget. Investment in the EMEA sales force and closer partnering with IIR events sister companies in Dubai and South Africa, have contributed to good top line growth of 38% in EMEA. Total ESI non US revenues are \$8m ahead of the same period in 2006.

AchieveGlobal's purchase of its Taiwan and Greater Chinese franchise operation is also producing good results. All of Achieve's wholly owned non-US operations have had a strong start to the year with total revenues increasing by over 88 %. Growth on a pro forma basis of 37% came about as a result of the investment in internationalising the intellectual property and building a global marketing support structure.

The rest of the franchise operations are also showing good growth with actual franchise royalty increased by 18%, despite a reduction in the number of franchise businesses due to acquisition.

In the first half of the year, non-US revenues accounted for 17% of total PI revenues, compared to 10% of revenue produced by IIR prior to the acquisition in July 2005.

Events

Events at £217.3m constituted 40% of first half year revenues. On a pro forma basis this represents an increase of 16%. All regional and vertical markets saw good growth from a focus on growing and extending large scale events,

geo-cloning and capturing the Sponsorship and Exhibition opportunities represented by client demand for a proven and targeted audience.

The geo-cloning of events is continuing well. ICBF, the Finance specialists, has been particularly focussed on taking European flagship events and rolling them out in new geographic locations. Funds Europe, now in its 17th year, is Europe's largest mutual funds event, attracting over 1400 participants. In April this year we successfully launched Funds Asia. Its results exceeded expectations.

In the large US conference market, revenues continue to increase by double digit percentages and produce subscription quality operating margins by focusing on growing Large Scale Events domestically and internationally such as the GAIM series of events for the hedge fund market.

GAIMUSA grew through innovation in the form of improved programming content, the use of the personal electronic delegate finder devices, rapid-fire company presentations on the exhibit floor and increased networking time and events. Total revenue at £1.6m was 17% up on prior year.

Prior year international roll-outs continue to gain momentum. For example, in the first half of 2007 IIR held the regional version of its GAIM event in the Cayman Islands for the second year and grew event revenue by 34% to £0.7m.

Informa continues to benefit from the increased requirement of corporate marketing departments for measurable Return On Investment from access to more targeted and proven buying audiences. Sponsorship and Exhibition (SpEx) revenues, events' ancillary revenue stream, in the first half of the year grew on a pro forma basis by 30% compared to the same period last year.

This growth has been consistent in both newer Informa sectors such as Energy and in long-held market leadership positions such as Insurance.

Energy conferences were a major success story for the first half of the year with significantly increased revenues from both SpEx and record numbers of delegates attending the events, most notably the annual London event on Kazakhstan in April. The growth in Energy events looks set to continue with increased focus on alternative supply strategies against a backdrop of sustained high oil prices.

The roll-out of the London Insurance Day Summit to Bermuda was also a success with strong profits in its launch year. A good example of the global geo-cloning strategy, there was a mere 5% delegate overlap between the core and the regional events. This confirms the opportunity to extend the brand further without risking profit dilution of the core flagship event.

In the first half of the year Informa also opened new regional events businesses in China and in Mexico.

Academic & Scientific

Academic & Scientific	2007 £'m	2006 £'m	Inc %	Pro forma %

HSS	60.5	52.7	15	10

HSS	12.7	8.7	45	49
	37.4	29.9	25	27
Adjusted Operating Margin	24.7	21.5		

Revenues increased by 9% to £151.2m in the first half year 2007. On a pro forma basis they increased by 7%. Adjusted operating profit increased by 25% to £37.4m and on a pro forma basis by 27%. Acquisitions including Citeline, Libropharm and LEA contributed £10.9m to revenue and £4.5m to adjusted operating profit.

The subscription mainstay of the business which accounts for almost half its total sales performed strongly in both our Scientific Technical and Medical

(STM) and Humanities and Social Sciences (HSS) with renewal rates continuing above 95%. Non subscription journal revenue has also improved year on year as new electronic sales models and archive deals are introduced.

In the first half of 2007, Informa produced 203 new books in the STM division and 968 new HSS titles. Revisions and reprints are increasingly being made available as print on demand (POD) which means that orders are fulfilled by books being printed as needed. Innovation and control in the production process enabled us to publish books more quickly and at less cost with first half year savings in excess of £1.7m.

The STM division saw solid profit growth. Its corporate sales had excellent growth across its Pharma business in online subscriptions, particularly for Scrip which have grown by 12% year on year and continue to see an upward trajectory. The acquisition of Citeline and its Trialstrove Global Clinical Trials Database at the end of 2006 has been extremely successful and has increased our penetration of the largest pharmaceutical companies with all of the top 20 Global Pharmaceutical Companies now subscribers to the online service. Connections between Trialstrove and Pharmaprojects, Informa Healthcare's Drug Development Database are being made and the launch of a combined trials and drugs service is planned for Q4.

Events, which contributed approximately 10% of the division's revenues and is made up of the legacy life sciences and pharmaceutical event divisions in IBC and IIR and the exhibition Vitafoods, started the year well. The UK Life Science business in particular had a good first half with revenues up by 21% and adjusted operating profit by 44% driven largely by a focus on higher quality event formats, particularly Large Scale Events, which produced average yield per delegate significantly above last year and the Informa average.

Flagship Large Scale Life Sciences Events such as BioProcess International in the UK and the US events Clinical Trials Congress, Partnering with Central Labs, Drug Delivery and Partnerships with CROs all showed strong growth of both the primary delegate revenue stream and the high margin sponsorship and exhibition revenues.

The Humanities and Social Sciences business which has seen strong revenue growth of 15% is benefiting from the strategic acquisitions made in 2006 and 2007. These have been in core subject areas, including education and the behavioural sciences where the introduction of established titles and lists has brought enhanced market share and growth through cross marketing and selling. Margins have also grown well to 21% from 16.5% at the prior half year, benefiting from acquisition integration savings and the production cost savings mentioned earlier.

Adjusted Operating Margin	20.0	18.7		

Revenues increased to £189.7m representing 36% of Informa revenue. This is a 4% increase and a pro forma growth rate of 10%. Demonstrating strong operational gearing, this revenue growth translates into an adjusted operating profit growth of 11% and 18% on a pro forma basis surpassing last year 2006's half year and full year adjusted operating profit growth. Acquisitions contributed £3.1m to revenue and £0.8m to adjusted operating profit.

Performance Improvement

In Performance Improvement, which represents 58% of the revenue of the division,

revenue grew on a pro forma basis by 10%.

AchieveGlobal, one of the three largest PI brands, is seeing good growth of 17% proforma revenue with a particularly strong contribution from the retail sector where first half year revenues are over 50% ahead of the same period last year and three of its top clients, Wal-Mart, Office Depot and Coach, all in this developing sector. With the Datamonitor acquisition, who have a very strong retail presence, we have an opportunity to cross-introduce clients, expanding the DM footprint in the US and the AchieveGlobal one in the UK.

Omega Performance, a mid sized PI business specialising in the Financial Services sector, continued its strong growth and international rollout. In the first half of 2007, Omega Performance opened offices in China, Greece, and Nigeria and expanded operations to Malaysia and Thailand. This expanded footprint, as well as continued focus in Omega's traditional geographies, enabled Omega to grow revenues nearly 16% over the same period in 2006 and to deliver an operating profit almost 80% ahead of last year.

Continued investment in new product development and overseas sales force expansion across PI has meant that adjusted operating profit growth has increased on a pro forma basis at 11% just ahead of revenue growth, with much of the drop through from existing client revenue growth being re-invested into the business particular in its overseas sales force as well as intellectual property development.

Finance Insurance Law and Tax

The strongest growth within the division came from the Finance, Insurance, Law and Tax (FILT) unit which includes Informa Professional a market facing unit and the legacy IIR specialist Finance events businesses in both the UK and the US. With revenues at £48.8m and adjusted operating profit at £14.2m representing over 37% of the division's profits FILT had pro forma revenue growth of 20% and adjusted operating profit growth of 46% demonstrating the same strong gearing as full year 2006.

Informa Professional with a particularly strong contribution from its legal portfolio, which includes the on-line data service i-law.com increased adjusted operating profit by 24%. Increases in subscription and licence fee revenue helped the business grow its margin from 17% in the same period in 2006 to 21%.

UK Finance which includes the market leader ICBI, saw strong revenue growth of 32% which translated into 48% operating growth, enhanced by £2m from this year holding one flagship event in June rather than July. Seven of the top 25 global events in the first half are in this portfolio and six of these were in last year's top 25. Delegate revenue, the primary revenue stream, grew by 20% for these events combining good growth in the number of delegates and delegate yield. Sponsorship and Exhibition revenue also grew well, contributing 36% of total revenue for these must attend events and helping drive strong margins.

Financial Data Analysis

Financial Data Analysis was the weakest part of the division.

Informa Global Markets which in 2006 experienced a slight decline in pro forma revenue due primarily to consolidation in the banking community, continued to see some revenue attrition whilst defending 30%+ operating profit margins. Increasing monthly revenue run rates are now suggesting a more encouraging outlook for the rest of the year and in EMEA revenue year to date has grown over 7% from Q306.

Informa Research Services (providing competitive intelligence, market research, and mystery shopping services to the financial industry) had a disappointing start to the year. The core rate information business performed well however the mystery shopping and full service business experienced some weakness.

Informa Investment Solutions (IIS) conversely, with its strong wealth management solution set, had another good set of results successfully integrating Investment Scorecard and thereby growing revenues by 41%. The acquisition has given Informa Investment Solutions greater access to trust banks while expanding the performance measurement and client reporting offering of the legacy IIS business.

iMoneyNet, the publishers of the Money Fund Report also saw revenue growth in the first half of the year after the successful launch last year of their Money Fund Analyser, a browser-based analytical tool designed to help US-based mutual fund companies, banks and insurance companies meet their business goals.

Revenues increased by 14% on a pro forma basis to £191.6m representing 35% of total company revenue. Revenue was reduced due to the £39.0m aggregate impact from the absence of the quadrennial IPEX exhibition which was held in 2006 and the changed relationship for the 3GSM World Congress under which profits rather than revenues are shared with the trade association. This arrangement lasts until end of 2009. The impact of this change is to reduce turnover by £18m and has a small impact on adjusted operating profits. The IPEX event in 2006 contributed £21m of turnover and £7.7m of operating profit.

Adjusted operating profit at £40.6m was flat despite the revenue shortfall, demonstrating again the good gearing of this division and its ability to protect profit. On a pro forma basis adjusted operating profit grew by a strong 28%.

Regional Events

The bulk of revenue in this division at 84% comes from events. Regional Events had a good period with a 12% pro forma revenue increase translating into 28% pro forma adjusted operating profit growth.

The Dubai events business one of the largest contributors to Regional Events with 23% of revenue and 42% of adjusted operating profit, had a strong start to the year with 46% pro forma revenue growth.

Flagship events such as Arab Health and Middle East Electricity grew revenues by 19% and 22% respectively and geo-cloned launches such as Cityscape Abu Dhabi beat budgeted revenues and had above average gross profit margins. Held for the first time this year, Cityscape Abu Dhabi welcomed 15,670 participants from 71 countries. In line with Informa's strategy to be media neutral and extend all brands through all media formats, we launched Cityscape Magazine at the beginning of the year. It was profitable from the first issue.

The German and Dutch conference businesses which between them represent over 37% of both revenue and adjusted operating profit of the Regional Events' portfolio had a good start to the year with pro forma revenue growth of 10.5% translating well into a 20.2% operating profit growth. June was a particularly strong month with a profit of £2.9m, twice what was achieved in the same month last year when German events were impacted by the distraction of the World Cup.

The smaller Regional Events businesses are, with the exception of Italy which typically relies on a strong Q4, trading very well. The focus on best practice programme development, marketing KPIs, cost control and productivity is paying off. Their first half combined turnover is some 16% ahead of last year and their aggregate adjusted operating profit shows a 38% advance on last year and 46% growth on a pro forma basis. Within those numbers, the largest business -- Spain -- is 35% up on last year; Sweden has reversed a loss into a record first half profit of £0.44m; Brazil and Poland have both doubled their first half 2006 profits and South Africa is three and a half times higher.

Telecoms and Media

Telecoms and Media which as a market facing unit combines publishing and events revenues enjoyed 23% pro forma revenue growth to reach £32.9m. Revenues were 28% lower than in 2006 due to the change in the relationship with a telecoms trade association over the 3GSM World Congress. Adjusted operating profit though increased by 14% and 23% on a pro forma basis due to an increased focus on cost

control.

The GSM World Series of events is growing strongly and the training business continues to roll out its successful MiniMBA series.

The acquisition of Junction Group, which has delivered strong growth in its core IPTV Event series in the first half, will strengthen and broaden our position in the converging content and technology markets through the year.

Maritime and Commodities

Maritime and Commodities grew revenues by 9% and on a pro forma basis by 11% with a particularly strong performance from Commodities. On an adjusted operating profit basis, Maritime and Commodities grew by 38% and 42% on a pro forma basis.

Commodities had a particularly good start to the year with 43.5% adjusted operating growth on a pro forma basis. Subscription and event revenues are particularly strong as this market facing unit repurposes its content and leverages its brands across multiple media. The Maritime business continues to benefit from strong underlying trading conditions in this sector.

Financial Review

Informa's revenue on a pro forma basis was up 10% for the first 6 months compared to the same period in 2006. Adjusted operating profit on the same pro forma basis was up 24%. Revenue at £532.5m was flat compared to 2006 and despite the adverse impact of currency, adjusted operating profit was up 10% with adjusted operating margins increasing by over 2 percentage points to 21.8% from 19.7% in 2006.

Recent acquisitions traded strongly and contributed well to the first half year's results, particularly Lawrence Erlbaum Associates ('LEA' acquired November 2006) which contributed £5.9m to revenue and £2.3m to adjusted operating profits and CiteLine (Acquired November 2006) which contributed £3.1m to revenue and £1.6m to adjusted operating profits. Other acquisitions (including Librapharm acquired July 2006) and Investment Scorecard acquired in April 2007 contributed £5.1m to turnover and £1.6 to adjusted operating profits.

Revenue

In the six months ended 30 June 2007 we recorded revenue of £532.5m which was flat compared to £533.7m in the same period a year earlier. These results were affected by the recent weakness in the US \$ which reduced reported sterling revenue by £27m. Also affecting the revenue was the change to the relationship with the 3GSMA (which reduced our revenue from this event by £18m compared to same period in 2006) and the Quadrennial IPEX exhibition last run in 2006 which accounted for £21m of revenue. As mentioned earlier acquisitions offset these impacts contributing £14m to revenues in the period.

Operating Costs

Operating costs overall decreased by 3% (£15.7m) to £457.7m due mainly to the currency impact from a weaker US \$. Raw material costs dropped by 12% due to the US dollar exchange rate, the change of the relationship with the GSMA, and savings initiatives within the Academic & Scientific division. Employee costs increased 4% reflecting investment in new staff (FTEs grew to 8,200 from 7,600 in 2006) to support the strong pro forma growth in the business. Amortisation was flat with Intangible asset growth associated with acquisition activity offset by currency effects with around 50% of all Group intangible fixed assets dollar denominated.

Operating profits increased by 24% (£14.4m) to £74.8m from £60.4m in 2006.

Finance Costs

Finance costs, which consist principally of interest costs net of interest receivable decreased by 4% to £20.4m from £21.3m. This decrease is due to over £150m spent on acquisitions since 1st July 2006 offset by strong cash flow and £38.9m received from the sale of our investment in Blackwell Publishing Group, the profit on which is shown in the £33.4m item on the face of the consolidated income statement.

Acquisitions

As mentioned above the Group spent over £150m since 1st July 2006 on acquisitions and related deferred consideration with further details given in note 11. As well as matching the Group's business criteria and strategy the

group continues to apply its rigorous financial investment criteria which are that every acquisition should pay back its initial investment within seven years, be earnings enhancing it in its first full year and associated cash flows must produce a positive Net Present Value within ten years when discounted back at the Groups weighted average cost of capital plus a suitable premium for risk.

On 13th July 2007 the Group announced its second largest acquisition having declared its offer for Datamonitor plc unconditional. Datamonitor will be consolidated from this date. Just prior to its acquisition and not included in these financial statements Datamonitor recorded a strong unaudited financial performance in the six months to 30th July 07 with turnover up 62% to £53.3m and adjusted operating profits up 51% to £11.9m.

Taxation

Across the Group tax has been provided for at an adjusted tax rate of 25.0% (2006: 27.0%). This adjusted tax rate benefits from profits generated in low tax jurisdictions including Dubai.

The effective group tax charge was 21.5% (2006: 24.5%). The tax on the exceptional gain for the disposal of the Blackwell investment is relatively low and reduces the effective tax rate when compared to the 2006 half year.

EPS

Basic and diluted EPS were up 132% compared with 2006.

Adjusted Results

Adjusted operating profit, which is shown in note 4 of these results, is calculated after removing certain items not relating to the pro forma trading operations of the group. This adjusted operating profit increased by 10% to £116.0m from £105.6m.

Adjusted profit before tax increased 14% to £95.6m from £83.8m and adjusted profit for the period increased 17% to £71.7m from £61.2m.

Adjusted Diluted EPS after deducting tax at 25.0% (2005: 27.0%) and minority interests was up 17% to 16.9p from 14.4p.

The board believes these adjusted operational figures provide additional information to explain the pro forma performance and associated trends of the group. Further details are given in note 4 of the results.

Dividend

The Board has reviewed the Group's dividend policy and given the excellent cash flow characteristics of the business and the resilience of our revenue and profit streams we have decided to increase our dividend payout ratio. This will be achieved by reducing our cover so that adjusted diluted earnings per share for the full year are in a range of 2.0 to 2.5 times the dividend.

In line with this new policy and in recognition of the continued good trading prospects, the Board has recommended an interim dividend of 5.6p (2006: 3.3p), this represents an increase of 70% on the 2006 equivalent. The dividend will be payable on 5th October 2007 to ordinary shareholders registered as of the close of business on 7th September, 2007.

Balance sheet

Goodwill increased to £1,126.9m from £1,124.5m principally with additions from the acquisitions made during the period being offset by currency movements as nearly 50% of the Goodwill assets are denominated in US\$.

Other intangible assets decreased to £916.1m from £921.1m due to acquisitions in the period offset by the normal amortisation charge which came to £41.1m and exchange rate effects on US dollar denominated assets.

Trade and other receivables rose £18.9m to £211.9m from £193.0m due to acquisitions in the period and due to acquisitions and normal trading variances.

Net debt reduced by £18.0m to £720.4m from £738.4m compared with 31 December 2006, reflecting inter alia operational cash inflows of £94.3m and disposals of assets of £38.9m offset by interest, tax, dividends and capital expenditure together with subsidiary and business acquisitions. In turn due to the structure of the Group's debt which is held in sterling, Euros and US dollars, these net increases are offset by favorable exchange impacts of £7.6m.

In support of the Datamonitor acquisition the group has put in place a new £1.45bn multicurrency 5 year bank loan facility. The Group has also entered into interest rate hedge agreements to the extent that 75% of the current expected interest exposure is effectively covered at fixed rates for the next 2 years. This means that based on current interest rates and current gearing the Group expects to pay a blended interest rate on its debt of around 6.5% pa.

Given the strong cash flow of the Group, its indebtedness expressed as a ratio of net debt to adjusted EBITDA is expected to drop below 3.75 times by the end of December 2008.

Cash conversion (expressed as adjusted cash generated by operations as a percentage of adjusted operating profit, note 10 of the results) was 79% (2006 67%). The inclusion of Datamonitor, which generated in excess of 125% cash conversion in its last two financial years, will increase Informa's cash conversion rates still further.

The decrease in the revaluation reserve of £26.2m reflects the disposal of the Group's investment in Blackwell Publishing Ltd.

The increase in the hedging and translation reserve of £12.9m relates to the net currency impact from retranslating assets held in foreign currencies (principally intangible fixed assets and goodwill) offset by the conversion of liabilities (principally loans) also held in those same currencies.

Deferred income at £172.6m was up 6% compared to the same period in 2006 using a consistent US\$ exchange rate.

Informa gross defined pension liabilities disclosed under 'retirement benefit obligations' have reduced by £5.2m compared with 31 December 2006 to £6.0m due mainly to actuarial gains of £4.9m.

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 June 2007.

UK corporation tax is calculated at 30 per cent (2006: 30 per cent) of the estimated assessable profit for the year. Taxation for other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

A reduction in the UK tax rate to 28% (from 30%) was substantively enacted at 30 June 2007. As a result all UK deferred tax balances have been restated at 28%. The reduction in the rate will apply from 1 April 2008 and will therefore impact the current tax charge for the year to 31 December 2008.

8 Earnings per share

Basic

The basic earnings per share calculation is based on a profit attributable to equity shareholders of the parent of £68,786,000 (2006 profit: £29,439,000 six months and £67,368,000 twelve months). This profit on ordinary activities after taxation is divided by the weighted average number of shares in issue (less those non-vested shares held by employee share ownership trusts) which is 423,518,487 (2006: 421,235,091 six months and 421,619,174 twelve months).

Diluted

The diluted earnings per share calculation is based on the basic earnings per share calculation above except that the weighted average number of shares includes all potentially dilutive options granted by the Balance Sheet date as if those options had been exercised on the first day of the accounting period or the date of the grant, if later, giving a weighted average of 425,130,597 (2006: 423,270,461 six months and 423,346,817 twelve months).

The table below sets out the adjustment in respect of diluted potential ordinary shares:

	6 months 2007	6 months 2006	12 months 2006

Adjusted earnings per share

The basic and diluted adjusted earnings per share calculations have been made to allow shareholders to gain a further understanding of the trading performance of the Group. They are based on the basic and diluted earnings per share calculations above except that profits are based on continuing operations attributable to equity shareholders and are adjusted for items that are not perceived by management to be part of the underlying trends in the business and the tax effect on those adjusting items as follows:

	6 months 2007 £'000	6 months 2006 £'000	12 months 2006 £'000

Recommended cash Offer for Datamonitor

Update on acceptances received

On 13 July 2007, Informa announced that the recommended cash Offer made by Informa Acquisitions for Datamonitor at a price of 650 pence per Datamonitor Share had been declared unconditional in all respects.

The Board of Informa announces that as at 3.00pm on 20 July 2007 valid acceptances of the Offer had been received in respect of a total of 65,868,251 Datamonitor Shares representing 91.3 per cent. of the existing issued share capital of Datamonitor.

None of the acceptances referred to above were received from persons acting in concert with Informa Acquisitions or Informa. The total acceptances includes valid acceptances of the Offer received in respect of a total of 12,021,327 Datamonitor Ordinary Shares, representing approximately 16.7 per cent. of the issued share capital of Datamonitor for which irrevocable undertakings to accept the Offer had been received.

De-listing and compulsory acquisition of Datamonitor Shares

Informa Acquisitions now intends to exercise its rights pursuant to the provisions of sections 979 to 982 (inclusive) of the Companies Act 2006 to acquire compulsorily the remaining Datamonitor Shares, in respect of which the Offer has not been accepted, in each case on the same terms as the Offer.

Informa Acquisitions will now procure that Datamonitor makes applications to cancel the listing of Datamonitor Shares from the UKLA's Official List and to cancel admission to trading in Datamonitor Shares on the London Stock Exchange's main market for listed securities. Delisting will significantly reduce the liquidity and marketability of any Datamonitor Shares not acquired under the Offer.

It is anticipated that the cancellation of listing on the Official List and of admission to trading on the London Stock Exchange will take effect on 10 August 2007.

It is currently intended that, following the cancellation of the listing of the Datamonitor Shares on the Official List and the cancellation of admission to trading of Datamonitor Shares on the London Stock Exchange's main market for listed securities, Datamonitor may be re-registered as a private company under the relevant provisions of the Companies Act 1985.

Further acceptances

The Offer (including the Loan Note Alternative) remains open for acceptance until further notice. Datamonitor Shareholders who wish to accept the Offer, but have not yet done so, are strongly encouraged (in the case of Datamonitor Shares which are not held in CREST) to complete and return a Form of Acceptance or (in the case of Datamonitor Shares held in uncertificated form (that is, held in CREST)) to take the action set out in paragraph 14 of the letter from Informa in Part II of the Offer Document, in each case as soon as possible.

General

Save as set out in this announcement, neither Informa, nor Informa Acquisitions nor any person acting in concert with Informa or Informa Acquisitions, has an interest in or right to subscribe for relevant securities of Datamonitor or has any short position in relation to relevant securities of Datamonitor (whether conditional or absolute and whether in money or otherwise) including any short position under a derivative, any agreement to sell or any delivery obligation or right to require another person to purchase or take delivery of any relevant securities of Datamonitor.

Save for the irrevocable undertakings described in the Offer Document, neither Informa, nor Informa Acquisitions nor any person acting in concert with Informa or Informa Acquisitions has borrowed or lent any relevant securities nor has any arrangement in relation to relevant securities been made. For these purposes, 'arrangement' includes any indemnity or option arrangement, any agreement or understanding, formal or informal, of whatever nature, relating to relevant securities which is, or may be, an inducement to deal or refrain from dealing in such securities.

All times referred to in this announcement are London times.

Terms defined in the Offer Document have the same meanings in this announcement. The terms 'acting in concert' and 'relevant securities' have the same meanings as in the City Code.

Departure of Director

Informa plc announces that its Finance Director, Anthony Foye has decided he would like to seek new opportunities outside the Group. He will remain in his role and as a member of the Informa board in order to achieve a smooth transition of responsibilities, which is likely to be until the end of the current financial year. An external search process is now being initiated for his successor. Anthony, who is 44, has been Finance Director of Informa since its merger with Taylor & Francis in May 2004. Prior to this he had held the same position at Taylor & Francis, having first joined in 1987.

Peter Rigby, Chairman said, 'The board of Informa is extremely appreciative of Tony's contribution to the Group. He has played a significant role in building Informa into a highly successful and growing information business. I am particularly grateful for the critical parts he played during the merger of Informa and Taylor & Francis and the acquisition of IIR, both of which were executed rapidly and according to plan. He is set to leave the Group at a time of record profitability and with the business in robust financial health. The acquisition of Datamonitor opens up the next chapter of our growth.

'After twenty years with the Group, his decision to seek different opportunities is understandable and I wish him well. His desire to remain with the Company until the end of the year to ensure a smooth transition is typical of his commitment.'

Tony Foye said: 'I have had twenty great years at Taylor & Francis and Informa during which time the businesses have developed on all fronts. I am proud to have been associated with the Group which has already achieved so much and is positioned to continue to develop strongly in the years ahead, but I feel that the time is now right for me to seek new challenges.'

13 July 2007

Recommended offer for Datamonitor declared unconditional in all respects

Offer declared unconditional in all respects

On 14 May 2007, Informa announced the terms of a recommended cash Offer to be made by Informa Acquisitions for Datamonitor at a price of 650 pence per Datamonitor Share. The Offer Document containing details of the offer was posted to Datamonitor Shareholders the same day.

The Board of Informa announces that as at 1.00pm on 13 July 2007 valid acceptances of the Offer had been received in respect of a total of 54,865,761 Datamonitor Shares representing 76.05 per cent. of the existing issued share capital of Datamonitor.

The Offer was conditional on Informa Acquisitions receiving valid acceptances in respect of not less than 90 per cent. (or such lower percentage as Informa Acquisitions may decide) of Datamonitor Shares to which the Offer relates, subject to Informa Acquisitions acquiring or agreeing to acquire (whether pursuant to the Offer or otherwise) more than 50 per cent. of Datamonitor Shares. Informa Acquisitions announces that it has elected to waive the requirement to receive acceptances of not less than 90 per cent. and that, having acquired or agreed to acquire 76.05 per cent. of Datamonitor Shares, the Offer is declared unconditional as to acceptances.

In addition, following receipt of approval of the Offer by the German Federal Cartel Office, Informa announces that (all other conditions to the Offer having been satisfied or waived) the Offer is now unconditional in all respects.

David Gilbertson, Chief Executive, said:

'Datamonitor is a model example of a company that slots neatly into Informa.

We are delighted that the vast majority of Datamonitor shareholders have accepted the offer. Both companies provide customers with data and analysis that is essential and unique - information they cannot do without. As part of the Informa group we believe Datamonitor will be able to market to our 20 million-strong contact database, take part in our 10,000+ events each year and use our global sales infrastructure across 43 countries. Combining the businesses will enhance growth prospects and margins.'

None of the acceptances referred to above were received from persons acting in concert with Informa Acquisitions or Informa. The total acceptances includes valid acceptances of the Offer received in respect of a total of 12,021,327 Datamonitor Ordinary Shares, representing approximately 16.7 per cent. of the issued share capital of Datamonitor for which irrevocable undertakings to accept the Offer had been received.

Closing date of the Offer

On 25 June 2007, the Board of Informa Acquisitions announced that the Offer had been extended to remain open for acceptance until 1.00 p.m. on 13 July 2007. Following the Offer being declared unconditional in all respects by the Board of Informa Acquisitions, the Offer will remain open until further notice.

Settlement of consideration

Settlement of cash consideration due under the Offer will be despatched (or, in respect of Datamonitor Shares held in uncertificated form, credited through CREST) on or before 27 July in respect of Datamonitor Shares for which acceptances of the Offer, valid in all respects, have already been received or, in respect of Datamonitor Shares held in uncertificated form, for which Electronic Acceptances have already been validly made. Settlement of cash consideration in respect of valid acceptances received or made after 13 July 2007 will be despatched (or, in respect of Datamonitor Shares held in uncertificated form, credited through CREST) within 14 days of such acceptances being received. As regards any valid acceptances of the Offer that contain an election for the Loan Note Alternative, definitive certificates in respect of that election will be despatched within 14 days of such acceptance being received.

De-listing and compulsory acquisition of Datamonitor Shares

If Informa Acquisitions receives acceptances under the Offer in respect of, or otherwise acquires, 90 per cent. or more of Datamonitor Shares to which the Offer relates, Informa Acquisitions intends to exercise its rights pursuant to the provisions of sections 979 to 982 (inclusive) of the Companies Act 2006 to acquire compulsorily the remaining Datamonitor Shares, in respect of which the Offer has not been accepted, in each case on the same terms as the Offer.

Following the Offer being declared unconditional in all respects Informa Acquisitions will now procure that Datamonitor makes applications to cancel the listing of Datamonitor Shares from the UKLA's Official List and to cancel admission to trading in Datamonitor Shares on the London Stock Exchange's market for listed securities. Delisting will significantly reduce the liquidity and marketability of any Datamonitor Shares not acquired under the Offer at that time.

It is anticipated that the cancellation of listing on the Official List and of admission to trading on the London Stock Exchange will take effect on 10 August 2007.

It is currently intended that, following the cancellation of the listing of the Datamonitor Shares on the Official List and the cancellation of admission to trading of Datamonitor Shares on the London Stock Exchange's market for listed securities, Datamonitor may be re-registered as a private company under the relevant provisions of the Companies Act 1985.

Further acceptances

Datamonitor Shareholders who wish to accept the Offer, but have not yet done so, are strongly encouraged (in the case of Datamonitor Shares which are not held in CREST) to complete and return a Form of Acceptance or (in the case of Datamonitor Shares held in uncertificated form (that is, held in CREST)) to take the action set out in paragraph 14 of the letter from Informa in Part II of the Offer Document, in each case as soon as possible.

General

Save as set out in this announcement, neither Informa, nor Informa Acquisitions nor any person acting in concert with Informa or Informa Acquisitions, has an interest in or right to subscribe for relevant securities of Datamonitor or has any short position in relation to relevant securities of Datamonitor (whether conditional or absolute and whether in money or otherwise) including any short position under a derivative, any agreement to sell or any delivery obligation or right to require another person to purchase or take delivery of any relevant securities of Datamonitor.

Save for the irrevocable undertakings described in the Offer Document, neither Informa, nor Informa Acquisitions nor any person acting in concert with Informa or Informa Acquisitions has borrowed or lent any relevant securities nor has any arrangement in relation to relevant securities been made. For these purposes, 'arrangement' includes any indemnity or option arrangement, any agreement or understanding, formal or informal, of whatever nature, relating to relevant securities which is, or may be, an inducement to deal or refrain from dealing in such securities.

All times referred to in this announcement are London times.

Terms defined in the Offer Document have the same meanings in this announcement. The terms 'acting in concert' and 'relevant securities' have the same meanings as in the City Code.

Informa PLC - Interim Pre-close Update

Informa PLC
29 June 2007

Informa plc

Interim Pre-close update

Informa has performed well in the first half of the year and is trading in line with the Board's expectations across all three of its business activities: events, Performance Improvement and publishing. The interim results will be announced on 30 August 2007.

Events

Informa's events portfolio is continuing to grow well. This is being fuelled in particular by the continued strengthening of the company's Large Scale Events (the 'must attend' events in each industry). In 2006 these top 200 events accounted for 40% of Informa's total events' revenue and 70% of our events' operating profit. The strength of these leading event brands, which cover 70 industry sectors, creates strong barriers to entry, the opportunity for geo-cloning, and the ability to meet customer information needs using multiple media formats.

Cityscape, the world's largest property investment and development event, is a good example of this. In 2002 Cityscape was held in a hotel in Dubai with 500 square metres of exhibition space and 1000 visitors. In 2006 the event had over 25,000 square metres and 35000 participants in the Dubai International Exhibition Centre and is on course for further growth in this year's event in October. In May this year, Cityscape was cloned as the inaugural event in the Abu Dhabi Centre, attracting 15,670 participants from 71 countries. In addition Cityscape China and Cityscape Asia launched profitably this year. Cityscape India will take place in November. The Cityscape Magazine, launched early in 2007, was profitable from the first issue. The Cityscape Market Intelligence Service, a subscription-based online information service, launches in October.

Performance Improvement

The Performance Improvement (PI) businesses, which help both government and corporate clients meet their strategic goals by enabling their employees to operate more effectively, are continuing to enjoy strong client retention and new business development.

International revenues are increasing as multi-national clients look to instil best practice and consistency across their global operations. The franchise buy-back programme is progressing well with Forum (the PI leadership specialists) acquiring its Asian franchises in April this year. Robbins-Gioia, (the PI programme management specialists) with 90% of revenues from the US Federal Government, has started the year particularly well, benefiting from the 2006 investment in its intellectual property and sales teams.

Publishing

Informa's subscription-driven businesses, which have minimal advertising dependency, have also begun the year strongly. The Academic & Scientific, Commercial and Professional divisions are all gaining from the move to electronic delivery of information and services. The increased utility and customer value from digital delivery has provided extra pricing power and market penetration. Digital archives, data services and daily information provision have all contributed to good growth further enhanced by cross leveraging event brands and publishing PI intellectual property.

David Gilbertson, Informa's Chief Executive, notes 'Our philosophy is to behave like a small company, however big we get. This continues to pay off. By running a flat organisation, staying close to our markets and rewarding people for the success they create, we ensure that we have a business full of entrepreneurs who move quickly to capture growth and just as quickly to defend their profits. We

move into the second half confident of another good financial performance in 2007.'

Informa PLC - Rec. offer for Datamonitor

Informa PLC
25 June 2007

Not for release, publication or distribution in whole or in part, directly or indirectly, in or into or from the United States, Canada, Australia or Japan or any jurisdiction where to do so would constitute a violation of the relevant laws of such jurisdiction

For immediate release

25 June 2007

Recommended offer for Datamonitor plc by Informa Acquisitions Limited, a member of the Informa Group

Level of Acceptances

On 14 May 2007, Informa announced the terms of a recommended cash offer to be made by Informa Acquisitions for Datamonitor at a price of 650 pence per Datamonitor Share. The document setting out the full terms of the Offer (the 'Offer Document') was posted to Datamonitor Shareholders on 14 May 2007.

The Board of Informa Acquisitions announces that as at 1.00 p.m. on 25 June 2007, being the second closing date of the Offer, valid acceptances of the Offer had been received in respect of a total of 15,974,664 Datamonitor Shares representing 22.1 per cent. of the existing issued share capital of Datamonitor. None of these acceptances were received from persons acting in concert with Informa Acquisitions or Informa.

This total includes valid acceptances of the Offer received in respect of a total of 9,687,944 Datamonitor Ordinary Shares, representing approximately 13.4 per cent of the issued share capital of Datamonitor for which irrevocable undertakings to accept the Offer had been received.

No Increase Statement and Extension of Offer

Informa announces that the Offer remains at 650 pence per Datamonitor Share and will not be increased except that Informa Acquisitions reserves the right (without any obligation to do so) to increase the Offer only in circumstances where a third party announces a competing offer for, scheme of arrangement, or other combination with, Datamonitor.

Informa further announces that the Offer, which remains subject to the terms and conditions set out in the Offer Document, has been extended and will remain open for acceptance until 1.00 p.m. on 13 July 2007. Under the rules of the Takeover Code, if the Offer is not, or has not been declared, unconditional as to acceptances by that date, the Offer will lapse.

Shareholders are reminded that the Offer is subject, amongst other things, to Informa Acquisitions obtaining acceptances of the Offer in respect of a minimum of 90 per cent. of the Datamonitor Shares to which the Offer relates, or such lower percentage as Informa Acquisitions may decide, provided that it has received acceptances in respect of, or acquired more than, 50 per cent. of the voting rights exercisable at general meetings of Datamonitor.

No Other Offers or Approaches

The Board of Datamonitor announces that it has not received any proposal or approach from a third party and has not had any requests for information under Rule 20.1 of the City Code.

Recommendation

In the opinion of the Datamonitor Directors, the Offer represents a certain, fair and reasonable value today giving Datamonitor Shareholders an opportunity to realise their return following a period of strong performance by Datamonitor.

The Datamonitor Directors, who have been so advised by LongAcre Partners, financial adviser to Datamonitor, consider the terms of the Offer to be fair and reasonable. In providing such advice, LongAcre Partners have taken into account

the commercial assessments of the Datamonitor Directors. Accordingly, the Datamonitor Directors unanimously recommend that Datamonitor Shareholders accept the Offer, as all of the Datamonitor Directors have done in respect of their entire beneficial holdings of Datamonitor Shares, which in total amount to 9,687,994 Datamonitor Shares, representing, in aggregate, approximately 13.4 per cent. of the existing issued share capital of Datamonitor.

General

Save as set out in this announcement, neither Informa, nor Informa Acquisitions nor any person acting in concert with Informa or Informa Acquisitions, has an interest in or right to subscribe for relevant securities of Datamonitor or has any short position in relation to relevant securities of Datamonitor (whether conditional or absolute and whether in money or otherwise) including any short position under a derivative, any agreement to sell or any delivery obligation or right to require another person to purchase or take delivery of any relevant securities of Datamonitor.

Save for the irrevocable undertakings described in the Offer Document, neither Informa, nor Informa Acquisitions nor any person acting in concert with Informa or Informa Acquisitions has borrowed or lent any relevant securities nor has any arrangement in relation to relevant securities been made. For these purposes, 'arrangement' includes any indemnity or option arrangement, any agreement or understanding, formal or informal, of whatever nature, relating to relevant securities which is, or may be, an inducement to deal or refrain from dealing in such securities.

Datamonitor Shareholders who wish to accept the Offer, but have not yet done so, are strongly encouraged (in the case of Datamonitor Shares which are not held in CREST) to complete and return a Form of Acceptance or (in the case of Datamonitor Shares held in uncertificated form (that is, held in CREST)) to take the action set out in paragraph 14 of the letter from Informa in Part II of the Offer Document, in each case as soon as possible and, in any event, by not later than 1.00 p.m. on 13 July 2007.

All times referred to in this announcement are London times.

Terms defined in the Offer Document have the same meanings in this announcement. The terms 'acting in concert' and 'relevant securities' have the same meanings as in the City Code.

Informa PLC - First Close Announcement

Informa PLC
04 June 2007

Not for release, publication or distribution in whole or in part, directly or indirectly, in or into or from the United States, Canada, Australia or Japan or any jurisdiction where to do so would constitute a violation of the relevant laws of such jurisdiction

Recommended offer for Datamonitor plc by Informa Acquisitions Limited, a member of the Informa Group

Level of Acceptances and Extension of Offer

On 14 May 2007, Informa announced the terms of a recommended cash offer to be made by Informa Acquisitions for Datamonitor at a price of 650 pence per Datamonitor Share. The document setting out the full terms of the Offer (the 'Offer Document') was posted to Datamonitor Shareholders on 14 May 2007.

The Board of Informa Acquisitions announces that as at 1.00 p.m. on 4 June 2007, being the first closing date of the Offer, valid acceptances of the Offer had been received in respect of a total of 12,335,178 Datamonitor Shares representing 17.1 per cent. of the existing issued share capital of Datamonitor. None of these acceptances were received from persons acting in concert with Informa Acquisitions or Informa.

This total includes valid acceptances of the Offer received in respect of a total of 9,687,944 Datamonitor Ordinary Shares, representing approximately 13.4 per cent. of the issued share capital of Datamonitor for which irrevocable undertakings to accept the Offer had been received.

The Offer, which remains subject to the terms and conditions set out in the Offer Document, has been extended and will remain open for acceptance until 1.00 p.m. on 25 June 2007.

Shareholders should be aware that the Offer is subject, amongst other things, to Informa Acquisitions obtaining acceptances for a minimum of 90 per cent. of the Datamonitor Shares to which the Offer relates, or such lower percentage as Informa Acquisitions may decide, provided that it has received acceptance for, or acquired more than, 50 per cent. of the voting rights exercisable at general meetings of Datamonitor.

If Informa Acquisitions is unable to achieve the required level of acceptances, the Offer will lapse.

In the opinion of the Datamonitor Directors, the Offer represents a certain, fair and reasonable value today giving Datamonitor Shareholders an opportunity to realise their return following a period of strong performance by Datamonitor.

The Datamonitor Directors, who have been so advised by LongAcre Partners, financial adviser to Datamonitor, consider the terms of the Offer to be fair and reasonable. In providing such advice, LongAcre Partners have taken into account the commercial assessments of the Datamonitor Directors. Accordingly, the Datamonitor Directors unanimously recommend that Datamonitor Shareholders accept the Offer, as all of the Datamonitor Directors have done in respect of their entire beneficial holdings of Datamonitor Shares, which in total amount to 9,687,944 Datamonitor Shares, representing, in aggregate, approximately 13.4 per cent. of the existing issued share capital of Datamonitor.

Save as set out in this announcement, neither Informa, nor Informa Acquisitions nor any person acting in concert with Informa or Informa Acquisitions, has an interest in or right to subscribe for relevant securities of Datamonitor or has any short position in relation to relevant securities of Datamonitor (whether conditional or absolute and whether in money or otherwise) including any short position under a derivative, any agreement to sell or any delivery obligation or right to require another person to purchase or take delivery of any relevant securities of Datamonitor.

Save for the irrevocable undertakings described in the Offer Document, neither Informa, nor Informa Acquisitions nor any person acting in concert with Informa or Informa Acquisitions has borrowed or lent any relevant securities nor has any arrangement in relation to relevant securities been made. For these purposes, 'arrangement' includes any indemnity or option arrangement, any agreement or understanding, formal or informal, of whatever nature, relating to relevant securities which is, or may be, an inducement to deal or refrain from dealing in such securities.

Datamonitor Shareholders who wish to accept the Offer, but have not yet done so, are strongly encouraged (in the case of Datamonitor Shares which are not held in CREST) to complete and return a Form of Acceptance or (in the case of Datamonitor Shares held in uncertificated form (that is, held in CREST)) to take the action set out in paragraph 14 of the letter from Informa in Part II of the Offer Document, in each case as soon as possible and, in any event, by not later than 1.00 p.m. on 25 June 2007.

All times referred to in this announcement are London times.

Terms defined in the Offer Document have the same meanings in this announcement. The terms 'acting in concert' and 'relevant securities' have the same meanings as in the City Code.

Recommended acquisition of Datamonitor plc ('Datamonitor') by Informa Acquisitions Limited ('Informa Acquisitions'), a member of the Informa Group

Summary

- The Boards of Informa and Datamonitor are pleased to announce that they have reached agreement on the terms of a recommended offer for Datamonitor by Informa Acquisitions at a price of 650 pence per Datamonitor Share in cash, valuing the fully diluted(1) ordinary share capital of Datamonitor at approximately £502m.

(1) Refer to Bases and Sources in Appendix 2 for definition of 'fully diluted'

- Datamonitor is a leading global provider of market intelligence through on-line data, analysis and forecasting platforms. Through its research-based proprietary databases and wealth of expertise, Datamonitor provides clients with objective, high quality data, analysis and in-depth forecasts for six industry sectors: Automotive, Consumer (including Retail), Energy, Financial Services, Healthcare and Technology/Telecoms. This electronic, high value content helps its clients make better, more timely decisions.
 - Datamonitor represents an attractive opportunity consistent with Informa's strategy of providing high value, specialist content through a variety of delivery formats to identified communities of business interest, globally.
 - Highly complementary business models
 - Scalable technology platforms
 - Significant cross-over revenue opportunities with Informa through sales, marketing and product development synergies
 - Further resilience and visibility in Informa's revenue mix across each of its three divisions, through Datamonitor's high renewing subscription models
 - Enhanced growth prospects and margins for Informa
 - Expected annualised cost savings of £3m
 - As a result of revenue and cost synergies, the Informa Directors expect that the effect of the Acquisition on Informa's adjusted earnings per share will be neutral in 2007 and will be enhancing in the first full year(2) and expect that the post-tax return on invested capital will exceed Informa's cost of capital in the second full year.
- (2) This statement should not be interpreted to mean that the future earnings per share of Informa will necessarily be greater than those for the relevant preceding financial period
- The price of 650 pence for each Datamonitor Share represents:
 - a premium of approximately 35.7 per cent. to the average Closing Price of 479.2 pence per Datamonitor Share for the 12 months prior to 11 May 2007, being the last business day prior to this announcement;
 - a premium of approximately 2.2 per cent. to the Closing Price of

636.0 pence per Datamonitor Share on 11 May 2007, being the last business day prior to this announcement:

- an enterprise value which is a multiple of approximately 7.3 times Datamonitor's revenue for the year ended 31 December 2006 of £70.4m;
- an enterprise value which is a multiple of approximately 31.7 times Datamonitor's reported EBITDA for the year ended 31 December 2006 of £16.2m; and
- an enterprise value which is a multiple of approximately 18.6 times the consensus of analysts' estimates of Datamonitor's EBITDA of £27.5m for the year ending 31 December 2007(3).

(3) Refer to Bases and Sources in Appendix 2 for the definition of 'consensus of analysts' estimates of Datamonitor's EBITDA'

- The Board of Datamonitor, who have been so advised by LongAcre Partners, Datamonitor's financial adviser, consider the terms of the Offer to be fair and reasonable. In providing their advice, LongAcre Partners have taken into account the commercial assessments of the Board of Datamonitor. Accordingly, the Datamonitor Directors unanimously recommend that Datamonitor Shareholders accept the Offer as they intend to do in respect of their own entire beneficial holdings of Datamonitor Shares.
- Informa Acquisitions has received irrevocable undertakings to accept (or procure acceptance of) the Offer from the Datamonitor Directors in respect of 9,687,994 Datamonitor Shares representing, in aggregate, 13.4 per cent. of Datamonitor's issued ordinary share capital.
- Michael Danson, CEO of Datamonitor, has committed to purchase £5 million of Informa Shares in the 30 days following the Offer becoming or being declared wholly unconditional and to hold those shares until the announcement of the preliminary results for Informa for the year ending 31 December 2008.
- A Loan Note Alternative will be made available.
- Further information on the terms and conditions to which the Offer will be subject are set out in Appendix 1 and will be set out in the Offer Document, which Informa expects to post to Datamonitor Shareholders as soon as practicable although the Offer is not being made directly or indirectly in or into the United States, Canada, Australia or Japan.

Commenting on the Acquisition, David Gilbertson, Managing Director of Informa, said:

'Datamonitor is a model example of a company that slots neatly into the Informa group. Both companies provide business customers with data and analysis that is essential and unique - information they cannot do without.

'Datamonitor will enable us to extend our range of high value, specialist information products by adding greater depth of proprietary data in our core sectors, such as healthcare, financial services and telecoms; as well as take us further into the technology and energy sectors. As part of the Informa group we believe Datamonitor will be able to market to our 20 million-strong contact database, take part in our 10,000 events each year and use our global sales infrastructure across 43 countries. Combining the businesses will enhance growth prospects and margins.'

Peter Rigby, Chief Executive of Informa, added:

'The team at Datamonitor has built a terrific business information company that nicely complements our publishing, events and performance improvement businesses. As part of Informa, we believe Datamonitor can accelerate growth and provide data to a wider range of clients. Additionally, Datamonitor's subscription-based business is strongly cash generative, economically resilient and characterised by robust renewal rates.'

Commenting on the Acquisition, Bernard Cragg, Chairman of Datamonitor, said:

'Informa and Datamonitor together make an excellent combination. This is an excellent outcome for our shareholders. Like us, Informa has enjoyed the benefits of a clear strategy executed well, with sustained investment in the product range. It is the right home for Datamonitor. Together the two businesses will be stronger and have greater potential.'

Informa trading update

Trading during the first months of 2007 continues to be good. As reported in the preliminary results for the year ended 31 December 2006, which were issued on 14 March, all areas of the business started the year strongly and they continue to trade ahead of last year in constant currency terms. Informa has had some notable highlights in events, with a highly successful annual energy event in Germany adding to the success of SuperReturn (private equity) and the Arab Health event in Dubai which Informa reported in March. In publishing, high renewal rates across Informa's subscription titles and databases have continued. The performance improvement (PI) sector continues to perform well, with continued success with its expansion plans, in particular with the Asian business based in Singapore and growing operations in the Middle East.

The Board of Informa remains confident that 2007 will be another successful year. The combination of organic and acquisitive growth is a solid base for further progress. Informa has a balanced configuration of businesses across markets, formats and geographical regions, providing enhanced growth capabilities in an economic upturn and defensive qualities in a downturn.

This summary should be read in conjunction with the full text of the attached announcement and the Appendices thereto. Appendix 1 sets out the conditions and certain further terms of the Offer. Appendix 2 contains source notes relating to certain information contained in this announcement. Certain terms used in this announcement are defined in Appendix 4 to the announcement.

The Datamonitor business is believed by the Informa Directors to be complementary to Informa's. Both are centred on the provision of high value content. sectors in which Datamonitor operates, with particular strengths in healthcare, financial services and technology/telecoms.

- Significant sales and marketing revenue opportunities with Informa

The Informa Directors believe that Datamonitor will have the opportunity to market to the names on Informa's 20 million contact database; speak, exhibit and sponsor at Informa's 10,000+ events annually; and cross-sell to Informa's extensive key account client list.

- Intellectual property and content expertise synergies

The Informa Directors believe that Datamonitor's analysts will provide a research source for Informa conferences and an analytic / diagnostic source for Informa's performance improvement business. They also believe that Datamonitor's product expansion plans will be enhanced by accelerating the development of new data sets in niche segments of Datamonitor's existing industry sectors where Informa has significant expertise.

The Informa Directors believe that Datamonitor's sales force will benefit from Informa's existing global infrastructure with offices and local market expertise in 43 countries.

- Increased resilience and visibility in Informa's revenue mix through Datamonitor's resilient business

With its largely subscription-based income stream Datamonitor is expected by the Informa Directors to be resilient to the effects of changes in the economic cycle. Contributing to each of Informa's divisions, the highly renewing subscriber base will add accelerated growth to the Academic & Scientific division and greater resilience and visibility to both the Professional and Commercial divisions.

- Enhanced growth prospects and margins

The Informa Directors believe that the combination of Datamonitor's existing high growth opportunities and high margins with the significant cross-over revenue opportunities will improve Informa's growth rate and its overall operating margin.

- Cost savings

The Informa Directors believe that the Acquisition will generate annualised cost savings of £3 million with expected one-off costs of £1 million.

4. Financial effects of the Acquisition

The Board of Informa believes that the Acquisition will complement the Informa Group's strong medium-term organic growth and continued high cash generation. As a result of revenue and cost synergies, the Board of Informa expects that the effect of the Acquisition on Informa's adjusted earnings per share will be neutral in 2007 and will be enhancing in the first full year(5) and it expects that the post-tax return on invested capital will exceed Informa's cost of capital in the second full year. In addition, the Board of Informa believes that the associated cashflows resulting from the Acquisition will generate a positive net present value.

- (5) This statement should not be interpreted to mean that the future earnings per share of Informa will necessarily be greater than those for the relevant preceding financial period

The Informa Directors expect that the ratio of net debt to earnings before interest, tax, depreciation, amortisation and exceptional items will be approximately 4.9 times at completion of the Acquisition and expect that the strong cash generation of the combined business will result in rapid debt pay-down. Excluding the effect of any other potential acquisitions, this ratio is expected to fall to below 3.75 times by the end of the first full year following the Acquisition.

5. Recommendation

The Board of Datamonitor, who have been so advised by LongAcre Partners, Datamonitor's financial adviser, consider the terms of the Offer to be fair and reasonable. In providing their advice, LongAcre Partners have taken into account the commercial assessments of the Datamonitor Directors. Accordingly, the

Datamonitor Directors unanimously recommend that Datamonitor Shareholders accept the Offer as they intend to do in respect of their own entire beneficial holdings of Datamonitor Shares.

6. Background to and reasons for the Recommendation

The Datamonitor Shares were admitted to the Official List and to trading on the London Stock Exchange's market for listed securities in November 2000 at a price of 165 pence per Datamonitor Share. Since that time, Datamonitor has achieved substantial growth in both revenue and profitability.

The Offer represents(6):

(6) Please see Appendix 2 for the Bases and Sources of statements set out in this paragraph

- a total shareholder return (with gross dividends reinvested) of approximately 506.8 per cent. over the three years ended on 11 May 2007 (the last business day prior to the date of this announcement), which equates to an annual return of approximately 82.4 per cent. over the same period;
- a premium of approximately 35.7 per cent. over the average Closing Price of 479.2 pence per Datamonitor Share for the 12 months prior to this announcement;
- an enterprise value which is a multiple of approximately 7.3 times Datamonitor's revenue for the year ended 31 December 2006 of £70.4m;
- an enterprise value which is a multiple of approximately 31.7 times Datamonitor's reported EBITDA for the year ended 31 December 2006 of £16.2m; and
- an Offer value which is a multiple of approximately 46.7 times reported diluted earnings per share, for the year ended 31 December 2006 of 13.9 pence.

The above multiples are at a significant premium to the trading multiples of the principal comparable companies listed in the UK, Europe and US within the B2B publishing sector. Similarly, the enterprise value of the Offer as a multiple to Datamonitor's reported 2006 EBITDA compares favourably to the relevant EBITDA acquisition multiples of relevant comparable transactions.

The Offer also represents an enterprise value which is a multiple of approximately 28.4 times Datamonitor's normalised EBITDA for the year ended 31 December 2006 of £18.0m (earnings before interest, tax, depreciation, goodwill amortisation, reorganisation costs and the charge relating to share-based payment transactions) and a multiple of approximately 41.1 times normalised diluted earnings per share, adjusted for the impact of amortisation of acquired intangible assets, share based payments, net financial income and reorganisation costs and applying a normalised tax charge of 30 per cent. for the year ended 31 December 2006 of 15.8 pence.

In addition to valuation parameters, the Datamonitor Directors also considered Datamonitor's ability to continue to grow, sustain historic growth rates and deliver acceptable returns to its shareholders as an independent company. A number of potential options, including an ability to consider transformational acquisitions and consolidate the database B2B sector, would be hindered by Datamonitor's relatively small size, competition for assets from other industry players and valuation ratings in the sector. The Datamonitor Directors also believe that an aggressive acquisition strategy to enable Datamonitor to compete effectively with larger capitalised industry players on a longer term basis would potentially expose Datamonitor to a greater degree of financial risk.

Given the above, in the opinion of the Datamonitor Directors, the Offer represents a certain, fair and reasonable value today giving Datamonitor Shareholders an opportunity to realise their return following a period of strong performance by Datamonitor.

7. Irrevocable Undertakings and commitment to purchase Informa Shares

The Datamonitor Directors have given irrevocable undertakings to accept (or procure acceptance of) the Offer to Informa Acquisitions in respect of their entire beneficial holdings of Datamonitor Shares amounting, in total, to 9,687,994 Datamonitor Shares representing, in aggregate, 13.4 per cent. of Datamonitor's issued ordinary share capital. These undertakings remain binding in the event of a competing offer being made for Datamonitor unless the Offer lapses or is withdrawn.

Further details of these irrevocable undertakings are set out in Appendix 3 to this announcement.

Michael Danson, Chief Executive Officer of Datamonitor, has committed to purchase £5 million of Informa Shares in the 30 days following the Offer becoming or being declared wholly unconditional and to hold those shares until the announcement of the preliminary results for Informa for the year ending 31 December 2008.

8. Information on Informa Acquisitions

Informa Acquisitions, a wholly-owned indirect subsidiary of Informa, was formed for the purpose of making the Acquisition. The entire issued share capital of Informa Acquisitions is held by Informa Acquisitions Holdings Limited, which is wholly-owned by Informa. Both Informa Acquisitions and Informa Acquisitions Holdings Limited are private limited companies registered in England and Wales and were incorporated on 30 April 2007. Neither Informa Acquisitions nor Informa Acquisitions Holdings Limited have traded since incorporation, nor have they entered into any obligations, other than in connection with the Acquisition and the financing of the Acquisition. The directors of Informa Acquisitions and Informa Acquisitions Holdings Limited are officers of Informa.

9. Financial information relating to Informa

For the year ended 31 December 2006, on an IFRS basis and from continuing operations, Informa reported revenues of £1,039.1m (2005: £729.3m) and profit before taxation of £86.5m (2005: £61.0m). Net assets as at 31 December 2006 were £932.0m (2005: £926.0m) and gross assets were £2,384.8m (2005: £2,349.4m). As at 11 May 2007 Informa had a market capitalisation of approximately £2.6 billion.

10. Informa trading update

Trading during the first months of 2007 continues to be good. As reported in the preliminary results for the year ended 31 December 2006, which were issued on 14 March, all areas of the business started the year strongly and they continue to trade ahead of last year in constant currency terms. Informa has had some notable highlights in events, with a highly successful annual energy event in Germany adding to the success of SuperReturn (private equity) and the Arab Health event in Dubai which Informa reported in March. In publishing, high renewal rates across Informa's subscription titles and databases have continued. The performance improvement (PI) sector continues to perform well, with continued success with its expansion plans, in particular with the Asian business based in Singapore and growing operations in the Middle East.

The Board of Informa remains confident that 2007 will be another successful year. The combination of organic and acquisitive growth is a solid base for further progress. Informa has a balanced configuration of businesses across markets, formats and geographical regions, providing enhanced growth capabilities in an economic upturn and defensive qualities in a downturn.

11. Financial information relating to Datamonitor

For the year ended 31 December 2006, Datamonitor reported a normalised profit before tax, amortisation of acquired intangible assets, reorganisation costs and the charge relating to share-based payment transactions and net financial income of approximately £16.8m on revenues of approximately £70.4m and had gross assets as at that date of approximately £113.8m. Datamonitor Shares are traded on the London Stock Exchange.

Datamonitor performed strongly in the first quarter of 2007. The integration of Ovum plc, acquired in December 2006 for a total consideration of approximately £41.0m, inclusive of fees and net of share option proceeds, is progressing well, with performance in line with management expectations.

12. Financing of the Offer

The cash consideration payable by Informa Acquisitions will be funded using a new debt facility of £1,450 million from The Royal Bank of Scotland plc which will also refinance the existing bank facilities of Informa and Datamonitor.

Greenhill confirms that it is satisfied that sufficient resources are available to Informa Acquisitions to satisfy in full the consideration payable under the Offer.

13. Directors, management, employees and location

Informa attaches great importance to the skills and experience of the existing management and employees of Datamonitor. Accordingly, Informa has given assurances to the Datamonitor Directors that the existing employment rights of all employees of Datamonitor, including pension rights, will be fully safeguarded.

The Datamonitor Directors (save for Michael Danson and Simon Pyper) have agreed to resign from the board of Datamonitor upon the Offer becoming or being declared unconditional in all respects.

Michael Danson, Datamonitor Chief Executive Officer, will remain with Datamonitor as its Chief Executive Officer for a period of twelve months to assist with the integration of Datamonitor within the enlarged group.

Informa has no immediate plans to change the locations of Datamonitor operational places of business.

Informa's proposals for the Datamonitor Capital Appreciation Plan are set out in paragraph 15 below.

14. The Loan Note Alternative

As an alternative to all or part of the cash consideration to which they would otherwise be entitled under the Offer, accepting Datamonitor Shareholders, other than Restricted Overseas Persons, will, subject to the conditions and further terms set out in the Offer Document and (in respect of certificated Datamonitor Shares) the Form of Acceptance, be entitled to elect to receive Loan Notes to be issued by Informa Acquisitions on the following basis:

for each £1 of cash consideration £1 nominal of Loan Notes

The Loan Notes will be issued by Informa Acquisitions, credited as fully paid, in amounts and integral multiples of £1 and the balance of any entitlement that is not a whole multiple of £1 will be disregarded and not issued. The Loan Notes will constitute direct, unsecured and unsubordinated obligations of Informa Acquisitions and will be guaranteed as to payment of principal by The Royal Bank of Scotland plc. The Loan Notes will bear interest at a rate of 1 per cent. below twelve-month sterling LIBOR to be determined on the first business day of each interest period. Interest will be payable by yearly instalments in arrears (less any tax where deduction thereof is required by law) on 31 December in each year up to and including 31 December 2009 (each an 'interest payment date'). The first payment of interest will be made on 31 December 2007. On 31 December 2007, interest will be paid in respect of the period from (and including) the date of issue of the relevant Loan Notes to (but excluding) 31 December 2007. The Loan Notes will be redeemable, on not less than 14 days' notice, in whole for cash at par at the option of noteholders on a date being either 30 June or 31 December in any year between the first date on which all of the relevant holding of Loan Notes has been in issue for more than six months and 31 December 2009 (both dates inclusive) (a 'redemption date').

Unless Informa Acquisitions decides otherwise, no Loan Notes will be issued by Informa Acquisitions unless the aggregate nominal value of all Loan Notes to be issued as a result of valid elections for the Loan Note Alternative exceeds £5 million. If such aggregate nominal value is less than £5 million, any such election shall, unless Informa Acquisitions decides otherwise, be void and the relevant Datamonitor Shareholders will be deemed to have elected for cash. Informa Acquisitions may redeem all (but not some only) of the Loan Notes (so long as they have all been in issue for at least six months) if at any time less than £5 million of the Loan Notes remains outstanding. Informa Acquisitions may purchase any Loan Notes which have been in issue for more than six months at a price by tender available to all holders of Loan Notes alike, or otherwise by agreement with any holders of Loan Notes. The Loan Notes may be redeemed in accordance with their terms. If not previously redeemed, the final redemption date will be 31 December 2009. Any Loan Notes outstanding on the final redemption date will be redeemed at par together with any accrued interest (less any tax where deduction thereof is required by law) on that date. In relation to any redemption date falling on or after the first anniversary of the date of issue of each of the relevant Loan Notes, the Loan Notes may be redeemed, at the option of the holder or the issuer, in US dollars. The Loan Notes will not be transferable (other than by a noteholder to a spouse/civil partner, parent, child, certain family members or a family trust of any of them) and no application will be made for them to be listed on, or dealt on, any stock exchange or other trading facility.

The Loan Notes that may be issued in connection with the Offer are not and will not be registered under the United States Securities Act of 1933, as amended, or under the relevant securities laws of any state, district or other jurisdiction

of the United States. Accordingly, Loan Notes may not be offered, sold, resold or delivered, directly or indirectly, in, into or from the United States (or to any residents thereof) if to do so would constitute a violation of the relevant laws of such jurisdiction.

In addition, the relevant clearances and registrations have not been, and will not be, sought or obtained, nor have any steps been taken, nor will any steps be taken, to enable the Loan Notes to be publicly offered in compliance with applicable securities laws of Australia, Canada or Japan (or any province or territory thereof, if applicable) or any other jurisdiction. Accordingly, the Loan Notes may not be offered, sold, resold or delivered, directly or indirectly, in, into or from Australia, Canada or Japan (or to any residents thereof) or any other jurisdiction (or to any residents in that jurisdiction) if to do so would constitute a violation of the relevant laws of that jurisdiction.

The Loan Note Alternative is conditional upon the Offer becoming or being declared unconditional in all respects. The Loan Note Alternative will remain open for acceptance for as long as the Offer remains open for acceptance.

Greenhill has advised that, based on market conditions on 11 May 2007 (being the latest practicable date prior to this announcement), in its opinion the value of the Loan Notes (if the Loan Notes had been in issue) would have been not less than 98p per £1 nominal value.

Further details of the Loan Notes will be contained in the Offer Document.

15. Datamonitor Share Schemes and Datamonitor Long Term Incentive Plans

The Offer will extend to any Datamonitor Shares unconditionally allotted or issued or unconditionally allotted and fully paid (or credited as fully paid) before the date on which the Offer closes (or, subject to the City Code, by such earlier date as Informa Acquisitions may decide), including Datamonitor Shares issued pursuant to the exercise of options or release of awards under the Datamonitor Share Schemes.

Participants in the Datamonitor Share Schemes will be written to separately and appropriate proposals will be made to such participants in due course.

In relation to the Datamonitor Capital Appreciation Plan ('CAP'), Informa intends to amend the rules of the plan so as to fix the value of the entitlements at the value of 650 pence per Datamonitor Share, to be satisfied in cash at the time of vesting, but otherwise broadly to leave the operation of the scheme unchanged so far as is practicable and to deal with discretionary matters under the scheme in a reasonable manner.

16. Disclosure of interests in Datamonitor relevant securities

As at the date of this announcement, neither Informa, Informa Acquisitions, nor any of the Informa Directors or the Informa Acquisitions Directors, nor, so far as Informa, Informa Acquisitions or the Informa Directors or the Informa Acquisitions Directors are aware, any person acting in concert with Informa or Informa Acquisitions for the purposes of the Acquisition, owns or controls any Datamonitor Shares or any securities convertible or exchangeable into Datamonitor Shares or any rights to subscribe for or purchase the same, or holds any options (including traded options) in respect of, or has any option to acquire, any Datamonitor Shares or has entered into any derivatives referenced to Datamonitor Shares ('Relevant Datamonitor Securities') which remain outstanding or has a short position (including a short position under a derivative, an agreement to sell or a delivery obligation or right to acquire another person to take delivery), nor does any such person have any arrangement in relation to Relevant Datamonitor Securities. For these purposes, 'arrangement' includes any indemnity or option arrangement, any agreement or understanding, formal or informal, of whatever nature, relating to Relevant Datamonitor Securities which may be an inducement to deal or refrain from dealing in such shares and any borrowing or lending of Relevant Datamonitor Securities that have been on-lent or sold.

In view of the requirement of confidentiality and therefore the availability to Informa Acquisitions of all relevant persons who are presumed to be acting in concert with Informa Acquisitions to provide information, it has not been possible to ascertain all of the interests and dealings in Datamonitor Shares of all relevant persons who are presumed to be acting in concert with Informa Acquisitions for the purposes of the Offer. Any such additional interest(s) or dealing(s) will be discussed with the Panel and, if appropriate, will be disclosed in the Offer Document or announced if so requested by the Panel.

17. Inducement Fees

As a pre-condition to Informa Acquisitions agreeing to announce the Offer, Datamonitor has agreed to pay a fee to Informa of £5,018,236 (inclusive of any non-recoverable VAT) if, following the date of this announcement, the Offer lapses or is withdrawn:

(a) following the announcement of an independent competing offer (with or without pre-conditions), which becomes or is declared unconditional in all respects or is otherwise completed or implemented; or

(b) following the Datamonitor Directors (or any of them), or any committee thereof, withdrawing, or modifying in any manner adverse to Informa or the success or the likely success of the Offer, their recommendation to Datamonitor Shareholders to accept the Offer; or

(c) in circumstances where the Panel finds that there has been a breach of Rule 21.1 of the City Code by Datamonitor.

However, Datamonitor shall only be liable to pay a fee under paragraph (b) above if and to the extent a further independent competing offer is made and subsequently lapses or is withdrawn, or does not become or is not declared wholly unconditional in all respects and the offeror thereunder is obliged to make a payment to Datamonitor.

Under the terms of that agreement, Informa has agreed to pay a fee to Datamonitor of £2,509,118 (inclusive of any non-recoverable VAT) if, following the date of this announcement, either the Offer lapses or is withdrawn or does not become or is not declared wholly unconditional in all respects, or the Offer is not made by means of the posting of the Offer Document within 28 days of the date of this announcement, in each case save in circumstances where Datamonitor is liable to pay or has paid a fee to Informa as described in the paragraph above.

18. Delisting, cancellation of trading, compulsory acquisition

If Informa Acquisitions receives acceptances under the Offer in respect of, or otherwise acquires, 90 per cent. or more of Datamonitor Shares to which the Offer relates, Informa Acquisitions intends to exercise its rights pursuant to the provisions of sections 979 to 982 (inclusive) of the Companies Act 2006 to acquire compulsorily the remaining Datamonitor Shares, in respect of which the Offer has not been accepted, in each case on the same terms as the Offer.

If the Offer becomes or is declared unconditional in all respects, and sufficient acceptances under the Offer are received, Informa Acquisitions intends to procure that Datamonitor makes applications to cancel the listing of Datamonitor Shares from the UKLA's Official List and to cancel admission to trading in Datamonitor Shares on the London Stock Exchange's market for listed securities. Delisting would significantly reduce the liquidity and marketability of any Datamonitor Shares not acquired under the Offer at that time.

It is anticipated that the cancellation of listing on the Official List and of admission to trading on the London Stock Exchange will take effect no earlier than 20 business days after either (i) the date(s) on which Informa Acquisitions has, by virtue of its shareholdings and acceptances of the Offer, acquired or agreed to acquire issued ordinary share capital carrying 75 per cent. of the voting rights of the Datamonitor Shares, or (ii) the first date(s) of issue of compulsory acquisition notices under section 979 of the Companies Act 2006. Informa will notify Datamonitor Shareholders when the relevant events set out above have occurred and confirm that the notice period has commenced and the anticipated date of cancellation.

Following the Offer becoming or being declared unconditional, Datamonitor may be re-registered as a private company under the relevant provisions of the Companies Act 1985.

19. Further details of the Offer

There are no agreements or arrangements to which Informa is a party which relate to the circumstances in which it may or may not invoke or seek to invoke a condition of the Offer.

20. Overseas Shareholders

The availability of the Offer to Datamonitor Shareholders who are not resident in the United Kingdom may be affected by the laws of their relevant jurisdiction. Such persons should inform themselves of, and observe, any applicable legal or regulatory requirements of their jurisdiction.

Full details in relation to Overseas Shareholders will be contained in the Offer Document.

Datamonitor Shareholders who are in any doubt regarding such matters should consult an appropriate independent professional adviser in the relevant jurisdiction without delay.

21. Datamonitor issued share capital

In accordance with Rule 2.10 of the Code, Datamonitor confirms that it has 72,144,664 Datamonitor Shares in issue (of which 5,326,168 are held in an employee share ownership trust) and has outstanding 10,385,135 options to acquire Datamonitor Shares. The International Securities Identification Number for Datamonitor Shares is GB0009757112. Datamonitor also has 18,897 Datamonitor Deferred Shares in issue to which the Offer will not extend. No offer will be made for the Datamonitor Deferred Shares.

The Offer will be subject to the conditions and further terms set out in Appendix 1.

The bases and sources of certain financial information contained in this announcement are set out in Appendix 2.

Certain terms used in this announcement are defined in Appendix 4.

Further details in relation to Overseas Shareholders will be contained in the Offer Document.

In accordance with normal UK market practice, Informa Acquisitions or any person acting on its behalf may from time to time make certain market or private purchases of, or arrangements to purchase, directly or indirectly, Datamonitor Shares other than pursuant to the Offer. Any information about such purchases will be publicly announced as required by law or regulation in the UK.

Forward-looking statements

This announcement includes certain 'forward looking statements'. These statements are based on the current expectations of the management of Datamonitor, Informa and Informa Acquisitions (as applicable) and are naturally subject to uncertainty and changes in circumstances. The forward looking statements contained herein may include statements about the expected effects on Informa, Informa Acquisitions or Datamonitor of the Offer, the expected timing and scope of the Offer, anticipated earnings enhancements, estimated cost savings and other synergies, costs to be incurred in achieving synergies, other strategic options and all other statements in this document other than historical facts. Forward looking statements include, without limitation, statements typically containing words such as 'intends', 'expects', 'anticipates', 'targets', 'estimates' and words of similar import. By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by such forward looking statements. These factors include, but are not limited to, the satisfaction of the conditions to the Offer, and Informa Acquisitions' ability to successfully integrate the operations and employees of Datamonitor, as well as additional factors, such as changes in economic conditions, changes in the level of capital investment, success of business and operating initiatives and restructuring objectives, customers' strategies and stability, changes in the regulatory

environment, fluctuations in interest and exchange rates, the outcome of litigation, government actions and natural phenomena such as floods, earthquakes and hurricanes. Other unknown or unpredictable factors could cause actual results to differ materially from those in the forward looking statements. Neither Datamonitor nor Informa, nor Informa Acquisitions undertakes any obligation to update publicly or revise forward looking statements, whether as a result of new information, future events or otherwise, except to the extent legally required.

Dealing Disclosure Requirements

Under the provisions of Rule 8.3 of the City Code, if any person is, or becomes, 'interested' (directly or indirectly) in 1% or more of any class of 'relevant securities' of Datamonitor, all 'dealings' in any 'relevant securities' of Datamonitor, (including by means of an option in respect of, or a derivative referenced to, any such 'relevant securities') must be publicly disclosed by no later than 3.30 pm (London time) on the London business day following the date of the relevant transaction. This requirement will continue until the date on which the Offer becomes, or is declared, unconditional as to acceptances, lapses or is otherwise withdrawn or on which the 'offer period' otherwise ends. If two or more persons act together pursuant to an agreement or understanding, whether formal or informal, to acquire an 'interest' in 'relevant securities' of Datamonitor, they will be deemed to be a single person for the purpose of Rule 8.3.

Under the provisions of Rule 8.1 of the City Code, all 'dealings' in 'relevant securities' of Datamonitor by Informa Acquisitions, Informa or Datamonitor, or by any of their respective 'associates', must be disclosed by no later than 12.00 noon (London time) on the London business day following the date of the relevant transaction.

A disclosure table, giving details of the companies in whose 'relevant securities' 'dealings' should be disclosed, and the number of such securities in issue, can be found on the Panel's website at <http://www.thetakeoverpanel.org.uk>

'Interests in securities' arise, in summary, when a person has long economic exposure, whether conditional or absolute, to changes in the price of securities. In particular, a person will be treated as having an 'interest' by virtue of the ownership or control of securities, or by virtue of any option in respect of, or derivative referenced to, securities.

Terms in quotation marks are defined in the City Code, which can also be found on the Panel's website. If you are in any doubt as to whether or not you are required to disclose a 'dealing' under Rule 8, you should consult the Panel.

If you are in any doubt about the action you should take, you are recommended to seek your own personal financial advice immediately from your stockbroker, bank manager, solicitor, accountant or independent financial adviser authorised under the Financial Services and Markets Act 2000 if you are resident in the United Kingdom or, if not, from another appropriately authorised independent financial adviser.

Appendix 1

CONDITIONS AND CERTAIN FURTHER TERMS OF THE OFFER

PART A: CONDITIONS OF THE OFFER

The Offer complies with the rules and regulations of the FSA and the City Code.

The Offer will be subject to the following conditions:

(a) valid acceptances being received (and not, where permitted, withdrawn) by not later than 1.00 p.m. on the First Closing Date (or such later time(s) and/or date(s) as Informa Acquisitions may, with the consent of the Panel or in accordance with the City Code, decide) in respect of not less than 90 per cent. (or such lower percentage as Informa Acquisitions may decide) in nominal value of the Datamonitor Shares to which the Offer relates provided that this condition shall not be satisfied unless Informa Acquisitions and/or any of its wholly-owned subsidiaries shall have acquired or agreed to acquire, whether pursuant to the Offer or otherwise, Datamonitor Shares carrying in aggregate more than 50 per cent. of the voting rights then normally exercisable at general meetings of Datamonitor (including for this purpose, to the extent (if any) required by the Panel, any voting rights attaching to any Datamonitor Shares which may be unconditionally allotted or issued before the Offer becomes or is declared unconditional as to acceptances, whether pursuant to the exercise of

any outstanding conversion or subscription rights or otherwise). For the purposes of this condition:

(vi) require any member of the Wider Informa Group or the Wider Datamonitor Group to acquire, or to offer to acquire, any shares or other securities (or the equivalent) or interest in any member of the Wider Datamonitor Group or the Wider Informa Group owned by any third party (other than in the implementation of the Offer);

Informa Acquisitions reserves the right to waive, in whole or in part, all or any of the above conditions, except condition (a). Conditions (b) to (h) (inclusive) must be fulfilled by midnight on the 21st day after the later of the First Closing Date and the date on which condition (a) is fulfilled (or in each such case such later date as Informa Acquisitions may, with the consent of the Panel, decide). Informa Acquisitions shall be under no obligation to waive or treat as satisfied any of the conditions (b) to (h) (inclusive) by a date earlier than the latest date specified above for the satisfaction thereof, notwithstanding that the other conditions of the Offer may at such earlier date have been waived or fulfilled and that there are at such earlier date no circumstances indicating that any of such conditions may not be capable of fulfilment.

If Informa Acquisitions is required by the Panel to make an offer for Datamonitor Shares under the provisions of Rule 9 of the City Code, Informa Acquisitions may make such alterations to any of the above conditions as are necessary to comply with the provisions of that Rule.

The Offer will lapse if the Acquisition is referred to the Competition Commission in the UK before 1.00 p.m. on the later of the First Closing Date and the date on which the Offer becomes or is declared unconditional as to acceptances.

If the Offer lapses, it will cease to be capable of further acceptance. Datamonitor Shareholders who have already accepted the Offer shall then cease to be bound by acceptances delivered on or before the date on which the Offer lapses.

PART B: CERTAIN FURTHER TERMS OF THE OFFER

The Offer will be made on the terms and will be subject to the conditions which are set out in this Appendix 1, those terms which will be set out in the Offer Document and the Form of Acceptance and such further terms as may be required to comply with the provisions of the City Code. The Offer and any acceptance of the Offer will be governed by English law. This announcement does not constitute an offer or invitation to purchase any securities.

The Datamonitor Shares will be acquired by Informa Acquisitions fully-paid up and free from all liens, equitable interests, charges, encumbrances, rights of pre-emption and other third party rights or interests of any nature whatsoever and together with all rights now or hereafter attaching thereto, including the right to receive and retain all dividends and other distributions (if any) declared, made or paid on or after the date on which the Offer is made.

The Offer is not being and will not be made, directly or indirectly, in or into, or by use of the mails of, or by any means or instrumentality (including, without limitation, facsimile transmission, electronic mail, telex or telephone) of interstate or foreign commerce of, or any facilities of a national securities exchange of the United States, Canada, Australia or Japan and the Offer will not be capable of acceptance by any such use, means, instrumentality or facility, directly or indirectly from or within the United States, Canada, Australia or Japan.

Accordingly, copies of this announcement and any other documents related to the Offer are not being, and must not be, mailed or otherwise distributed or sent in or into or from the United States, Canada, Australia or Japan and persons receiving this announcement, the Form of Acceptance or such other documents (including custodians, nominees and trustees) must not distribute or send them in, or into or from, the United States, Canada, Australia or Japan.

Appendix 2

Bases and Sources

1 Unless otherwise stated:

(a) financial information relating to Informa has been extracted or derived (without any adjustment) from the consolidated audited annual report and accounts for Informa for the year ended 31 December 2006; and

(b) financial information relating to Datamonitor has been extracted or derived (without any adjustment) from the consolidated audited annual reports and accounts for Datamonitor for the years ended 31 December 2004, 2005 and 2006, save as described below in 4.

2 The total equity value of the Offer is calculated based on a fully diluted share capital of Datamonitor of 77,203,631 Datamonitor Shares. This in turn is calculated on the basis of:

the number of issued Datamonitor Shares, being 72,144,664 Datamonitor Shares; and the 6,955,135 'in the money' options outstanding under the Datamonitor Share Schemes (and which are expected to become exercisable as a consequence of the Offer), less the 5,326,168 Datamonitor Shares held by the Datamonitor employee share ownership trust, plus the options over 3,430,000 Datamonitor Shares held under the Datamonitor Capital Appreciation Plan ('CAP') (notwithstanding that the CAP options are not currently vested as the applicable performance target has not yet been met).

Whilst the CAP options are included for the purposes of calculating the total equity value of the Offer, Informa intends to amend the rules of the plan so as to fix the value of the entitlements at the value of 650 pence per Datamonitor Share, to be satisfied in cash at the time of vesting, but otherwise broadly to leave the operation of the scheme unchanged so far as is practicable.

3 For the purposes of calculating the Offer enterprise value, the net debt of Datamonitor of £16.5m is as at 31 December 2006 and includes minority interests of £1.9m and deferred consideration of £0.9m. The Offer enterprise value is calculated net of share option proceeds of £5.7m.

4 The consensus of analysts' estimates of EBITDA for Datamonitor for the year ending 31 December 2007 of £27.5m is calculated on the basis of:

the arithmetic average of £27.7m, being the forecast from Investec Securities, 18 January 2007; £27.4m, being the forecast from Numis Securities, 27 February 2007; and £27.4m, being the forecast from Altium Securities, 30 April 2007.

Informa PLC - Board Changes

Informa PLC
14 March 2007

Informa plc
Board Changes

14 March 2007 Informa plc ('Informa' or the 'Group') announces the appointment of Peter Rigby as Chairman and David Gilbertson as Chief Executive as from the AGM on May 15th 2007.

The Board of Informa announces that it is to appoint Peter Rigby as Chairman succeeding Richard Hooper, who is to retire from the Informa Board.

At Informa's inception upon the merger of IBC and LLP in 1998 Peter Rigby became Chairman. He then became Chief Executive upon the merger of Informa with Taylor & Francis in May 2004.

David Gilbertson will become Chief Executive. Upon the Group's inception in 1998 David became its Chief Executive and was appointed Managing Director upon the merger with Taylor & Francis in 2004.

Richard Hooper was appointed Senior Non-Executive Director of Informa in 1998 and has been its Non-Executive Chairman since March 2005.

The Board has agreed to appoint a fifth Non-Executive Director to the Board. Details of the appointee to that role will be made in due course.

As required by the UK Combined Code on Corporate Governance, the appointment of Peter Rigby as Chairman has been discussed in advance with the Group's six largest shareholders. In reaching this decision, the Board considered in particular the complexity of the Group's global operations, the need for management stability at the top of the Group following three years of fundamental changes, and the long-term partnership and proven complementary leadership provided by Peter Rigby and David Gilbertson since 1998.

In addition, the Board has resolved to make certain governance changes which include annual re-election of all Directors from this year's AGM and the enhancement of the role of the Senior Independent Director, Derek Mapp. This will include Derek Mapp having his own reporting section in the Annual Report, beginning with the 2007 Annual Report.

Richard Hooper stated:

'It has been a pleasure and an honour to serve Informa over the last nine and a half years in the roles of non-executive director, senior independent director and chairman. During that time the company has grown from a market capitalisation of £137m (LLP) to £2.5bn today. We have successfully achieved two large nil premium mergers and one transforming acquisition during that time. My board colleagues and I have been working on my succession for over a year and I am delighted to be handing over at the AGM in May to Peter Rigby, with David Gilbertson becoming CEO. I know from close observation over many years how crucial the partnership of Peter and David has been to the success of Informa. This succession plan announced today cements that partnership going forward into the next exciting phase of Informa's growth and development'.

Peter Rigby said:

'We will be sorry to see Richard depart. His support and advice through a period of extraordinary growth and corporate activity over the years has been enormously valuable. We have moved from being a small company to a big company over a short period of time whilst retaining the small company focus which has made us successful. I am honoured to be succeeding Richard and I look forward to steering the company to further success.'

Informa PLC - Trading Statement

Informa PLC
11 January 2007

TRADING UPDATE FOR YEAR ENDED 31 DECEMBER 2006

Informa plc, the global information specialist for the academic & scientific, professional and commercial markets, has continued to perform well in the second half of the year and the Board is confident that the 2006 results will be in line with the significant growth expectations of the market.

Informa's business activities comprise Events, Performance Improvement and Publishing.

The Events businesses have taken full advantage of positive market conditions to finish the year well. The geographically focused, regional businesses and the vertical market facing teams have both enjoyed good results.

The IIR Dubai events business has finished a particularly good year with strong growth in all its flagship products including 'Cityscape' which became the world's largest international property investment & development event. The show welcomed 35,000 participants from 90 countries and over 500 exhibitors from 55 countries.

The Performance Improvement (PI) group of companies, working with corporate and government clients to solve business issues in different operational disciplines, continue to experience strong global demand for their products and services. The ability of these businesses to drive better results for their clients using tailored intellectual property based learning programmes, coaching and measurement is generating strong repeat business. Each of the seven brands is performing well, with particularly noteworthy results from Omega, specialising in financial services clients, which had profit growth of over 30%.

Informa's Publishing businesses are taking advantage of electronically driven revenue increases and cost savings. For example, within journals, Taylor & Francis is generating good incremental revenue through digital archives as well as faster and more cost-effective production by means of print-on-demand. In Maritime and Transport, the prestigious Lloyd's Maritime Intelligence Unit (MIU) with a history dating back nearly 300 years, has benefited from the launch in the summer of a new marine information portal: www.lloydsniu.com. The site possesses the world's largest ship tracking system, currently capturing 28 million vessel positions a day.

Informa's broad geographic strength combined with deep-seated local knowledge delivers results. All of Informa's business formats benefit from the Group's international infrastructure. This has facilitated international product roll-out. The Events businesses have taken market leaders such as 'SuperReturn', the largest private equity event in the world, and 'The GSM World Series', the premier mobile telecoms event brand, to Asia and North Africa respectively with notable success. Performance Improvement has begun its franchise buy-back programme and is seeing particular growth in its international operations where, for example, ESI Europe, which specialises in project management, is expected to have increased profits in 2006 by around 20%.

By matching costs to revenues across geographies, and spreading debt between sterling, euros and dollars, the net effect of foreign exchange fluctuations in Informa's 2006 results has been minimal, despite the volatility of the dollar. The impact of further currency movements in 2007 will be mitigated by 2006 bolt-on acquisitions such as the Lawrence Erlbaum Associates behavioural science and education business.

The Board looks forward with confidence to another good year of growth in 2007.

Peter Rigby, Informa's Chief Executive, notes:

'We moved into the second half of the year confident of more good performance in 2006. We expected the growth opportunities from the IIR acquisition and the

merger with Taylor & Francis in 2004 would pay off. And they have.

'We've a good balance of resilient and growth capturing businesses. This combination has allowed us to invest ambitiously in growth and this means that we move into 2007 with strong current trading, good visibility and pleasing prospects for another successful year.'

The preliminary results for the 12 months ended 31 December 2006, will be announced on 14 March 2007.

Informa plc
Statement regarding approach

Further to the announcement dated 19 October, Informa plc ('Informa' or the 'Company') announces that, following discussions with Springer Science + Business Media ('SSBM'), whose principal shareholders are Cinven and Candover, it has today received a final proposal from SSBM regarding a possible offer for the entire issued and to be issued share capital of the Company at 630p per share in cash. This proposal was subject, inter alia, to various pre-conditions including financing and due diligence.

The Board believes that this offer significantly undervalues Informa and its future prospects. Informa is currently trading comfortably in line with the Board's expectations for 2006 and the Board is confident of another strong set of results in 2007. Consequently, the Board believes Informa will deliver shareholder value in excess of this possible offer and has therefore rejected the proposal and has terminated discussions with SSBM.

Dealing Disclosure Requirements

Under the provisions of Rule 8.3 of the City Code on Takeovers and Mergers (the 'Code'), if any person is, or becomes, 'interested' (directly or indirectly) in 1% or more of any class of 'relevant securities' of Informa, all 'dealings' in any 'relevant securities' of that company (including by means of an option in respect of, or a derivative referenced to, any such 'relevant securities') must be publicly disclosed by no later than 3.30 pm (London time) on the London business day following the date of the relevant transaction.

This requirement will continue until the date on which the offer becomes, or is declared, unconditional as to acceptances, lapses or is otherwise withdrawn or on which the 'offer period' otherwise ends. If two or more persons act together pursuant to an agreement or understanding, whether formal or informal, to acquire an 'interest' in 'relevant securities' of Informa, they will be deemed to be a single person for the purpose of Rule 8.3.

Under the provisions of Rule 8.1 of the Code, all 'dealings' in 'relevant securities' of Informa by Informa or Springer Science & Business Media, or by any of their respective 'associates', must be disclosed by no later than 12.00 noon (London time) on the London business day following the date of the relevant

transaction.

A disclosure table, giving details of the companies in whose 'relevant securities' 'dealings' should be disclosed, and the number of such securities in issue, can be found on the Takeover Panel's website at www.thetakeoverpanel.org.uk.

'Interests in securities' arise, in summary, when a person has long economic exposure, whether conditional or absolute, to changes in the price of securities. In particular, a person will be treated as having an 'interest' by virtue of the ownership or control of securities, or by virtue of any option in respect of, or derivative referenced to, securities. Terms in quotation marks are defined in the Code, which can also be found on the Panel's website. If you are in any doubt as to whether or not you are required to disclose a 'dealing' under Rule 8, you should consult the Panel.

Informa PLC - Pre-Close Update

Informa PLC
19 July 2006

19 July 2006

Informa plc

Pre-close update for the six months ended 30 June 2006

Informa plc, the leading global information specialist, issues the following update for the six months ended 30 June 2006, prior to entering its close period. The interim results will be announced on 26 September 2006.

The Group has performed well in the first half of the year and is currently trading comfortably in line with the Board's expectations.

Informa's position of broad geographic strength combined with deep-seated local knowledge continues to deliver results. The range of international and national products and services creates a balanced portfolio with diverse and complementary revenue characteristics.

Informa's ability to capture growth quickly during periods of positive market conditions is highlighted by the first half year performance of its Dubai-based Middle East business. Middle East revenues which are largely events related, are enjoying strong organic growth both from increasing the size of existing events and adding new ones. Delegate registrations there are currently 37% ahead of last year and flag ship multi-million dollar events such as Arab Health (www.arabhealthonline.com) and Middle East Electricity (www.middleeastelectricity.com) have significantly outperformed 2005.

The pooling of events best practice from both IIR and Informa to create a proprietary blue print for operational success in the training and conference sector, provides a solid foundation for Informa to build these revenue streams. This organic growth is driven both geographically as evidenced by Dubai and by sector, such as Telecoms, which has also performed strongly in the half year.

The Performance Improvement group of companies, Informa's newest revenue stream, is demonstrating that in addition to its durable qualities it can deliver strong growth. Forum (www.forum.com) for example, had its best performing month this May since its acquisition by IIR in 2003. Existing clients in the commercial sector such as American Express and Irving Oil continue to launch new engagements. In addition, assisted by sister company Robbins-Gioia, Forum is expanding its large government initiatives, such as Department for Homeland Security, a multi million dollar engagement.

Informa's subscription-driven publishing businesses, which have minimal advertising dependency, have started the year well. Books have recovered strongly from a softer 2005 for the market as a whole and the Humanities and Social Sciences (HHS) Journals in particular continue to benefit on both sides of the Atlantic from their market leading positions and the growth in HSS research.

The net effect of foreign exchange fluctuations in the Group's results in the six months has been minimal, despite the volatility of the dollar in the period. Matching costs to revenues across geographies, and spreading debt between sterling, euros and dollars, confines the effect of currency fluctuation to profit translation only.

Peter Rigby, Informa's CEO, notes 'Our strategy to assemble and develop a combination of specialist, high quality information businesses with diverse but complementary revenue characteristics, from the very dynamic to the strongly resilient is working well. Events, Performance Improvement and Publishing are all delivering the organic growth we targeted. We move into the second half confident of another good financial performance in 2006.'

To come away with the award for the second year in a row is commendable and I am delighted for them," said Ian Whitfield, Director of broadcasting technology at ITV.

The application uses the entire Microsoft SQL Server 2005 BI platform and ProClarity's Analytics in this end-to-end BI solution. The scalability of SQL Server 2005, combined with the enhanced analytical benefits allows ITV to effectively calculate the profitability of its television programmes and perform the high level of analytics necessary to achieve this.

"We are thrilled that our solution has once again won this coveted award and very proud to be continually recognised by Microsoft for our proven ability to provide industry leading BI solutions. It is an outstanding achievement for IMGroup to achieve this level of global recognition for two consecutive years," said Nakis Papadopoulos, joint CEO at IMGroup.

The Technology Innovation awards are presented to top Microsoft partners who excel in delivering innovative, technical solutions and teams. The ability to package together, at a technical level, and creatively use different Microsoft products is recognised as a driving force behind the successful partners.

"It is a privilege to recognise IMGroup as this year's Microsoft Partner of the Year Award for Technology Innovation in Business Intelligence Solutions. It is this level of effectiveness in reaching out to our shared customers regarding the value of solutions built on Microsoft technology that enables continued success for us and our partners. 'The current year has started well and the Group is performing in line with our expectations. The integration of IIR is now complete and the acquisition benefits are coming through as planned. The core markets in which we operate are in good health and we are benefiting from strong growth in a number of geographies, including the Middle East.

'We have a well balanced portfolio combining complementary skill sets in Publishing, Performance Improvement and Events that enable us to grow quickly when markets are strong and to defend our profits robustly in a downturn. Our global, market leading brands are well positioned in their respective markets allowing us to continue to develop new products that provide our customers with the high value information they require and take advantage of the full range of delivery media available within the Group. We are on track to meet our targets and deliver another good financial performance in 2006.'

Pre Close Statement

Informa plc, the leading provider of specialist information and services to the academic, professional and business communities worldwide, today issued the following update. This is made prior to the Group entering its close period ahead of its preliminary results announcement for the 12 months ended 31 December 2005, scheduled for 14 March 2006.

Trading in the second half of 2005 was in line with the Board's expectations, with the Group making good progress on the integration of IIR Holdings Ltd ('IIR') acquired in July 2005.

The Board is fully focused on exploiting the organic opportunities from both the IIR acquisition as well as from the merger with Taylor & Francis in 2004, and looks forward with confidence to another good year of growth in 2006.

“We have had an excellent start to the year. The three arms of the business, publishing, performance improvement and events are all performing well.”

Chief Executive Peter Rigby said:

“We have had an excellent start to the year. These results underline the core strengths of Informa. The three arms of the business – publishing, performance improvement and events – are all performing well and demonstrating their unique combination of dynamic growth capture and resilience.

The acquisition of IIR has proved a signal success, strengthening many of Informa’s sector and geographic positions and helping drive revenue and cost synergy across the group. This is having its effect both in stimulating turnover growth and margin improvement. We look forward with confidence to completing another successful year for Informa.”

drives strong growth.

Informa has enjoyed a strong start to 2006, reflected in an excellent set of financial results for the six months ended June 30.

Informa's revenue in the period was £533.7m, more than double its prior year level, and adjusted operating profit increased by 118% to £105.1m.

These results reflect the increased scale of the group following the acquisition of IIR in July 2005 but they also include strong organic revenue growth of 11%. This is almost twice the organic growth rate achieved in the same 2005 period and underlines the greater leverage within the enlarged business. Organic revenue growth was accelerated by increasing collaboration between the three divisions of the business which are now bringing their format expertise to bear on a wider range of market opportunities.

Adjusted operating profit on an organic basis grew by 21% on the same period a year earlier, demonstrating the effect of operational gearing and greater cost efficiency. Adjusted operating margin, at 19.7%, was 1.2 percentage points higher than a year ago.

Recent acquisitions traded strongly and contributed well to the half year results, particularly IIR which has achieved a pre-tax return on capital employed of 9% in its first twelve months of ownership. In each instance, either by sector or geography, where legacy IIR and Informa businesses have been co-located or merged to take advantage of management expertise and market leadership, profits have been enhanced. For example, the combined UK Life Sciences events business produced a 57% profit contribution increase on a proforma basis for the first half year. Similarly, the combined Australian events business achieved 29% growth.

Informa's three revenue streams: publishing, performance improvement and events, are all performing well. Each demonstrated significant growth within its core market sectors and benefited in addition from both revenue and cost synergies across the enlarged Informa group.

Publishing which constituted 36% of revenue within the period continues to enjoy good operating margins. On a proforma basis revenue was up 11%¹. The resilient subscription based products again delivered robust results, underpinned by high academic journal renewal rates of over 95%. Journal productivity was strong in terms of both new journal launches and increased frequency of publication, reflecting particularly the continuing high volume of research in Humanities and Social Sciences. The new electronic delivery and pricing models have been well received and market uptake is expected to continue growing in the 2007 renewal cycle.

Academic book sales rebounded well and were 10% higher on an organic basis after a rather flat 2005. All key subject areas are performing strongly: social sciences, reference, science and engineering were the largest contributors. Critically acclaimed new books released include: *The War for Children's Minds*, *Urban Design Futures*, *Genocide: A Comprehensive Introduction*, *Introduction to Geopolitics* and *The English Legal System*.

engagement in action.

Performance Improvement ("PI") which constituted 21% of revenue within the period, achieved proforma revenue growth of 16%¹, confirming and expanding its market leadership position. Adjusted operating profit rose by 21%¹, reflecting both the operational gearing that is a feature of this part of the business as well as the benefit of cost savings garnered from being part of Informa.

Execution of Informa's global PI expansion plan has continued with the foundation of an Asian PI hub designed to fast track opportunities within this market. The first half year confirmed again the competitive advantage Informa enjoys from its international reach to meet client demands for global delivery. AchieveGlobal, for example, launched a large international engagement with State Street Bank to enable its global expansion plans: initiatives have already taken place in the US, Canada, UK, France, Germany, Benelux, Italy, EMEA, Australia, Japan, Singapore and Hong Kong.

Events which constituted 43% of revenue within this period, saw dynamic growth across a wide range of geographies and vertical sectors, taking advantage of good market trading conditions, enlarged group synergies and enhanced operational expertise. Events revenue grew by 28% on a proforma basis¹.

All events sectors performed well with notable proforma¹ operating profit growth in Telecoms of 36%, Maritime of 57% and Life Sciences of 60%. Geographically, Dubai profit grew by an impressive 52%, while among the smaller businesses the Czech Republic rose by 39% and Italy by 34%. The acquisition of the quadrennial print exhibition business, IPEX also contributed £17m in revenue.

Benefiting significantly from increasing spend from clients seeking more targeted marketing opportunities, events' ancillary revenue from sponsorship and exhibition presence increased by 28% organically.

Divisional Review

Informa's three divisions: Academic & Scientific, Professional and Commercial, each of which combine growth capturing and resilient business models, all reported robust growth in the six months.

Academic & Scientific divisional revenue increased by 24%, comprising an organic increase of 8% and contributions from acquisitions. Adjusted operating profit was 35% higher at £29.9m, which included organic growth of 17%. IIR contributed £10.5m to revenue and £2.8m to adjusted operating profit (2005 £8.2m and £2.0m respectively prior to acquisition and therefore not included in the 2005 comparative above).

The adjusted operating margin rose to 21.5% from 19.7%, benefiting from the 10% organic increase in books sales as well as the impact of cost savings and efficiencies associated with the integration of the IIR businesses.

The STM segment saw revenue grow 7% organically with solid journal growth supported by the rebound in book sales and good increases from life science events and associated publications.

The adjusted operating margin rose to 21.5% from 19.7%, benefiting from the 10% organic increase in books sales as well as the impact of cost savings and efficiencies associated with the integration of the IIR businesses.

Routledge is a long-established leading brand in Social Sciences and Humanities.

The combined Informa-IIR Life Science conference businesses in both the UK and US benefited from the integration to post a revenue increase of 32% and an operating profit increase of 60% on a proforma basis¹ from 2005, reversing trends experienced over the last two years. This result was driven by cost synergies from combining these legacy businesses and revenue increases associated with focusing on Large Scale Events which have an inherently higher margin. For example, the Large Scale Events, *Partnerships with CROS*, *National Managed Health Care Congress* and *Drug Discovery Technologies* together grew revenue in excess of 42% on a proforma basis¹.

The PJB pharmaceutical information business strengthened its high margin revenue base by the addition of product from the M2M and Ashley acquisitions in 2005. Ashley saw particularly strong sales in its expert opinion information service.

The division also saw excellent revenue growth in HSS revenues which were up 11% in organic terms with subscription renewals at or above the levels of recent years and a similar rebound in books to that reported by the STM business. HSS journals continue to see good growth in article submission levels, reflecting the rising volume of research in these disciplines.

As reported last year, in response to the increase in demand from academic institutions for electronic delivery of journal content, the Academic & Scientific division announced new on-line information products and pricing models for 2006. These were well received by the library community and we will be expanding these initiatives during 2007.

InformaWorld, our new group electronic content platform allows our customers comprehensive electronic access to our Academic and Scientific journal and book content. The new platform will be rolled out across the group over the next few years and incorporate progressively more of Informa's products and services.

InformaWorld will also facilitate the introduction of our new open access model for journals called "i-open". This will be a hybrid offering for research journals initially in Chemistry, Physics, Mathematics and Statistics. The model allows us to offer full electronic open access to certain journal articles for which authors opt to pay an open access fee of \$3,000. Journals operating the i-open model will therefore contain some subscriber-only articles alongside open access articles which can be web accessed via InformaWorld. All published articles, whether subscriber-only or open access, will continue to be subject to the same peer review process before acceptance.

The Professional division's overall revenue increased by 303% and adjusted operating profits rose by 268%, driven by a strong contribution from Performance Improvement and good organic growth from Finance, Insurance, Law and Tax. IIR businesses, which now account for almost three quarters of the division's sales, contributed £135.5m to revenue and £22.2m to adjusted operating profit (2005 £116.3m and £19.0m respectively prior to acquisition and therefore not included in the 2005 comparative above).

Performance Improvement ("PI") revenue grew 16% on a proforma basis to £109.9m from £94.9m in 2005 and profits were 21%¹ higher. Solid profit growth was reported by six of the seven PI businesses, led by Forum and Achieve Global which each recorded year on year profit rises of more than 25%. Only Communispond, the smallest of the PI companies accounting for 2% of PI revenue, did not contribute to growth, recording a flat performance for the first six months.

Financial Data and Analysis saw high renewals and increased margins contributing to an increase of 8% in revenue and 20% rise in adjusted operating profits. The unit saw a slight decline in organic revenues as a result of some attrition in the Informa Global Markets business. This attrition reflects

the more challenging and competitive market conditions for real-time trading-related information for the banking community. The other businesses in the unit all produced good growth and to this end M Solutions was acquired in February to add wealth management solutions to the Informa Investment Solutions product offering.

The Finance, Insurance, Law and Tax businesses revenue grew 5% organically led by a strong performance from legal subscription publishing which was up 31% with strong electronic sales, and a continued improvement in the advertising income of the Insurance information portfolio. Financial events under IIR's ICBI brand traded strongly in the period with good performances from Large Scale Events in the funds and private equity fields. This unit also benefited from the integration of IIR and Informa output in Europe which resulted in reduced staff costs and higher margins from growth in the larger events and the elimination of the weaker elements of the combined portfolio. Adjusted operating profit growth in this unit was particularly strong due to these reduced overheads and increased yields, growing by £7.7m to £9.4m with an organic profit rise of £1.2m. IIR contributed £6.5m profit compared with £6.1m in 2005 (prior to acquisition by Informa).

Commercial division revenue increased 108% (£109.9m) and adjusted operating profit 146% (£24.3m). Organic revenue growth of 19% translated into a 27% improvement in organic operating profit, again reflecting the cost synergies of the enlarged group. IIR businesses contributed £73.2m to the division's revenue and £15.5m to its adjusted operating profit (2005 £63.8m and £11.2m respectively prior to acquisition and therefore not included in the 2005 comparatives opposite).

Regional Events, which includes a wide range of conferences, exhibitions and courses in a number of European, Middle East, Asian, Australian and Latin American markets, had a strong first half year despite the impact in June of the FIFA World Cup which caused the postponement of a number of events in Germany. The legacy Informa business which has a relatively higher proportion of its revenue in Germany, still recorded organic growth of 7%, while the IIR Regional Events showed a proforma organic revenue growth of 16% (£9.4m).

The Maritime unit grew revenue by 10% and adjusted operating profit by 19%, capturing growth from the strong trading conditions in the international maritime markets and continuing high energy prices.

Above:
The Monaco Yacht Show,

Informa's market-leading Telecoms & Media unit continues to find good opportunities in the growing strength and diversity of the mobile communications sector. The 3GSM World Congress was moved to Barcelona from Cannes and saw another healthy growth in visitors, exhibitors and delegates with overall attendance rising to some 50,000 from 39,000 a year earlier. The relocation of the event unlocked pent-up demand for exhibition space which had been limited by the physical constraints of the previous Cannes location. This, together with strong growth in the first half contribution from Informa's nine other large scale telecoms events in the GSM to 3G World Series, combined to help record an organic increase of 46% in revenue and 49% rise in adjusted operating profits.

The Maritime unit grew revenue by 10% and adjusted operating profit by 19%, capturing growth from the strong trading conditions in the international maritime markets and continuing high energy prices. Events saw a good increase in delegate revenues and sponsorship income with profits up 57% as a result. Lloyd's List, Informa's flagship daily newspaper, contributed strongly to the unit's profit improvement after driving a 28% increase in advertising revenues in the period. Commodities revenue also saw good growth, up 9% over 2005. These gains were offset by a weaker performance in Freight Publishing. This came both from publishing and from conference income. There has also been a welcome rebound in the consultancy side of the business which has exposure to the US agriculture sector.

Lloyd's List is the registered trademark of the society incorporated by the Lloyd's Act 1871 by the name of Lloyd's.

Informa plc for the six months ended June 30, 2006 recorded revenue of £533.7m, up 105% from £259.7m in the same period a year earlier. IIR, which was acquired on July 6, 2005, contributed £218.1m to revenue and a further £20.0m was contributed by other acquisitions in the period (mainly from IPEX, the quadrennial print exhibition, which contributed £17.0m). Organic revenue growth year on year was 11%. The translation impact of currency movements on the results was minimal despite some US dollar to sterling exchange rate volatility during the period.

Operating profit increased by £110.7m to £60.4m from a loss of £50.3m in 2005. The latter included a one-off non cash related goodwill write off of £86.6m which depressed last year's interim operating profit and profit before tax. This year amortisation of intangibles has increased by £35.0m, reflecting principally the charge in respect of intangible assets acquired with the IIR acquisition.

EPS

Basic and diluted EPS were down 52% compared with 2005 due principally to the net benefit in 2005 of the one off £116.6m deferred tax credit, offset by the £86.6m goodwill write-off.

Adjusted Results

Adjusted operating profit, which is shown in note 4 of the interim results, is calculated after removing certain items not relating to the underlying trading operations of the group. This adjusted operating profit increased by 118% to £105.1m from £48.1m.

Adjusted profit before tax increased 112% to £83.8m from £39.6m and adjusted profit for the period increased 122% to £61.2m from £27.6m.

Adjusted Diluted EPS after deducting tax at 27% (2005: 30%) was up 76% to 14.4p from 8.2p, reflecting higher profit after tax offset by a partial dilution from the additional shares issued to help finance the acquisition of IIR.

The board believes these adjusted operational figures provide additional information to explain the underlying performance and associated trends of the group. Further details are given in note 4 of the interim results.

Finance Costs

Finance costs, which consist predominantly of interest payable net of interest receivable and other income, increased from £8.6m in 2005 to £21.3m due to the extra debt incurred in financing acquisitions, principally IIR.

Taxation

The 2005 comparative interim results include a one off £116.6m deferred tax credit resulting from the reorganisation of Informa's UK businesses in 2005.

Other tax which is provided at 25% (2005: 30%) was £9.6m, up £0.7m from £8.9m in 2005. The tax rate is lower than in 2005 due principally to the lower tax rates applicable to some IIR profit streams.

Dividend

In recognition of the enhanced trading prospects, Informa has declared an interim dividend of 3.3p per share. This represents an increase of 22% on the 2005 equivalent. The dividend will be payable on November 6, 2006 to ordinary shareholders registered as of the close of business on October 6, 2006.

Balance sheet

Goodwill decreased from £1,123.4m to £1,122.5m with additions from the acquisitions made during the period being offset by currency movements.

Other intangible assets decreased from £935.7m to £900.4m due to the normal amortisation charge which came to £43.7m and exchange rate effects on US dollar denominated assets, offset by additions from acquisitions in the period.

Net debt rose £6.9m from £735.4m to £742.3m compared with December 31, 2005, reflecting *inter alia* the seasonal nature of Informa's cash flows, capital expenditure of £10.1m and £29.8m spent on acquisitions in the first six months of 2006, offset by favourable exchange impacts of £15.8m.

Cash conversion (expressed as adjusted cash generated by operations as a percentage of adjusted operating profit - see note 10 of the interim results) was up on the same period last year at 67% (2005: 26%) partly due a change in mix in business resulting from the acquisition of IIR but also due to a one off pension contribution of £10.0m in the 2005 period.

Informa's gross defined pension liabilities disclosed under "retirement benefit obligations" have reduced by £6.5m compared with December 31, 2005 to £11.2m due mainly to actuarial gains of £6.7m.

Deferred income, which represents income receivable in advance, was up £58.5m (55%) on the same period in 2005 to £165.6m from £107.1m, reflecting the increased scale of the business and the strong momentum into the second half of the year. This balance represents revenue still to be recognised in the income statement as it is earned in future periods.

Above:
Maritime: one of Informa's
hundreds of niche
communities of interest.

Informa had an excellent first half and trading conditions remain positive, providing a solid base for future organic growth. Informa generates revenue from three main areas which serve specific markets and specialist sectors: Publishing, Performance Improvement and Events with relatively little exposure to more volatile advertising which now accounts for just 3% of Informa's revenue.

Informa is seeing steadily growing interest from subscriptions and copy sales customers in e-based product offerings and continues to develop new products to meet this demand. For example the new eCollections offering allows access to Informa's academic e book collection by subject area for an annual subscription. Informa is now increasingly exploiting this interest in digital content, providing an accelerator of organic growth.

With the IIR integration now complete, Informa looks forward to taking advantage of the enlarged scope of products, opportunities and synergies that now present themselves. Informa is well placed to continue to grow organically and, where appropriate, through further selective acquisitions at a time when many of our client markets are developing positively. As a result, the Board remains confident of a successful outcome for 2006 and of the prospects for the future.

Over the past two years Informa staff have wholeheartedly contributed to the successful fusion of Informa, Taylor & Francis and IIR. This has been a key factor in building a creative and energetic group with strong prospects and increased opportunities. We wish to take this opportunity to thank the staff for their professionalism and enthusiasm in seizing the opportunities that we now enjoy.

1 General information

Informa plc is a company incorporated in the United Kingdom. The unaudited consolidated interim financial statements as at 30 June 2006 and for the six months then ended comprise those of the Company and its subsidiaries and its interests in associates and jointly controlled entities (together referred to as the "Group").

The information for the year ended 31 December 2005 does not constitute statutory accounts as defined in section 240 of the Companies Act 1985. A copy of the statutory accounts for that year has been delivered to the Registrar of Companies. The auditors' report on those accounts was not qualified and did not contain statements under section 237(2) or (3) of the Companies Act 1985. The consolidated financial statements of the Group as at and for the year ended 31 December 2005 are available upon request from the Company's registered office at Monimer House, 37-41 Mortimer Street, London, W1T 3JH or at www.informa.com.

2 Accounting policies and estimates

The consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The Group has chosen not to apply IAS 34 "Interim Financial Reporting" in the preparation of these consolidated interim financial statements.

The accounting policies applied by the Group in the consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements for the year ended 31 December 2005.

The preparation of consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2005.

3 Business segments

For management purposes, the Group is currently organised into three operating divisions, Academic & Scientific, Professional and Commercial. These divisions are the basis on which the Group reports its primary segment information.

8 Earnings per share*Basic*

The basic earnings per share calculation is based on a profit attributable to equity shareholders of the parent of £29,439,000 (2005 profit: £48,758,000 six months and £8,825,000 twelve months). This profit on ordinary activities after taxation is divided by the weighted average number of shares in issue (less those non-vested shares held by employee share ownership trusts) which is 421,235,000 (2005: 335,255,000 six months and 388,231,000 twelve months).

Diluted

The diluted earnings per share calculation is based on the basic earnings per share calculation above except that the weighted average number of shares includes all potentially dilutive options granted by the Balance Sheet date as if those options had been exercised on the first day of the accounting period or the date of the grant, if later, giving a weighted average of 423,270,000 (2005: 336,820,000 six months and 390,004,000 twelve months).

The table below sets out the adjustment in respect of diluted potential ordinary shares:

	6 months 2006	6 months 2005*	12 months 2005
Weighted average number of shares used in basic earnings per share calculation	421,235,091	335,254,980	388,230,732
Effect of dilutive share options	2,035,370	1,230,032	1,772,953

Weighted average number of shares used in diluted earnings per share calculation	423,270,461	336,819,746	390,003,685

* The weighted average number of shares at 30 June 2005 has been adjusted for the effects of the Rights Issue at 25 July 2005.

Adjusted earnings per share

The basic and diluted adjusted earnings per share calculations have been made to allow shareholders to gain a further understanding of the trading performance of the Group. They are based on the basic and diluted earnings per share calculations above except profits are based on continuing operations only, before minority interests, and are adjusted for items that are not perceived by management to be part of the underlying trends in the business and the tax effect on those adjusting items as follows:

	6 months 2006 £'000	6 months 2005 £'000	12 months 2005 £'000

We identify communities of interest and serve their information needs progressively through a variety of delivery formats.

Above Mantine:
one of Informa's hundreds
of niche communities of
interest.

Informa is an integrated portfolio of businesses, founded on the creation and sale of high value information for academic & scientific, commercial and professional communities. Our strategy is to build, maintain and develop a range of product and service formats with diverse and complementary revenue characteristics. The combination is designed to enable us to capture growth quickly during periods of positive conditions in cyclical markets while also demonstrating superior defensive qualities during periods of economic downturn.

We aim to identify communities of interest, often niches of specialist focus, and serve their information needs progressively with a variety of delivery formats. We achieve this through a combination of:

- strong, frequently market-leading brands;
- the extension across the Group of delivery format best practice; and
- our broad geographic reach.

Informa is distinctive within the media peer group in that our content-led product range gives us:

- minimal reliance on client advertising and marketing spend; and
- limited exposure to any one product or market sector.

Combining Market Focus and Best Practice

Our market leadership in areas of each of our core business types (publishing, events and performance improvement) has enabled us to produce and hone best practice metrics, guidelines, tools and methodologies. These models ensure that across many operating units we deliver products and services within each media type to consistent quality standards. By spreading best practice quickly and effectively we ensure client satisfaction, enjoy strong operating margins and maintain our market leadership.

Broad Global Reach, Targeted Local Knowledge

The Group's broad geographic strength allows us to expand winning brands and formats in a range of selected vertical markets and media types globally. Our deep-seated local knowledge helps us stay attuned to what the market values.

Existing infrastructure, including technical, financial and legal support, ensures that our businesses can focus on a fast and effective entry into the market place, rather than dealing with costly and time-consuming logistics. Already established sister companies can provide contacts, cross-selling opportunities and market access.

Informa now has offices in 43 countries and trades in 200. The acquisition in July 2005 of IIR with its strong presence in the Middle East has provided a spring board for further expansion in that region. New and expanding initiatives in China and India suggest significant potential for continued growth across Informa's portfolio of brands, communities of interest and business types.

Broad Geographic Spread

The IIR acquisition accelerates growth in North America.

2005 Pro Forma¹ Revenue
Geographic Mix (%)

- United Kingdom 17%
- North America 41%
- Continental Europe 26%
- Rest of the World 16%

¹ Including revenue from IIR from 1 January 2005.

Our broad geographic strength allows us to expand winning brands and formats globally. Our deep-seated local knowledge ensures that we stay attuned to what the market values.

Informa's Values

At Informa, we ensure that we are much more than just the sum of our parts by embracing and nurturing a distinct corporate identity. This is captured by our value system. The I-N-F-O-R-M-A values support and underpin our market-facing brands, providing the foundation for all that we do and believe in when interacting with customers and each other. They also facilitate the swift and clear integration of merged and acquired companies.

We operate with the focus and speed of a small company allied to the efficiencies and strengths of a large group.

I am pleased to present my first report as Chairman of Informa plc against a backdrop of tremendous change and exciting developments. 2005 was a notable year for Informa for many reasons, in particular the addition in July of IIR to the Group. It has been most gratifying to see the way in which the various businesses in the Group have responded in a collegiate manner to the challenges, changes and opportunities that have presented themselves.

Much work remains to be done but with the support of the many dedicated colleagues around the Group we are building an even more successful and integrated business, with common goals and shared values.

Integration

The efforts and dedication of our now 7,400 employees, have once again helped to produce excellent results and continue to be the major contributor to the Group's ongoing success. Enthusiasm for our products, services and markets truly underpins the Group's momentum. During the past 12 months great progress has been made in the integration and consolidation of the various offices and teams across the Group as well as in upgrading and standardising our key strategic systems.

Some of the key developments include a new warehouse facility in Kentucky handling all the Group's book distribution in North America, a common CODA accounting platform which is currently being rolled out to our IIR operations, the successful transfer of global journal subscription processing to existing SAP systems and new book production systems implemented in the UK and the US. Many other initiatives are underway across the Group to bring the Informa family closer together and we look forward to a successful roll out during 2006 of our new combined SAP-based Customer Relationship Management and Sales Order Processing system, known as Fusion.

Corporate Strategy

Our strategy is to serve the information needs of our customers through the provision of quality products and services using whichever media format they require. We focus on specialist groups and sectors, seeking to become their information provider of choice and a trusted partner. As a consequence of our specialist market positions, the 2004 merger with Taylor & Francis, the July 2005 acquisition of IIR and the continued emphasis on profitable growth, we are able to operate with the focus and speed of a small company allied to the efficiencies and strengths of a large group.

Coupled to our organic growth is a successful acquisition policy which has also generated opportunities both inside and outside of existing markets. IIR has, for example, given the Group a small but important presence in exhibition businesses as well as an industry-leading position in the fast-growing Performance Improvement field. As a result of acquisitions the Group has operations in a number of adjacent professions and industries that have similar requirements for high quality information. Acquisitions have also helped the Group to continue to expand its position in the important US market as well as developing markets in China, India and the former Soviet Union.

Looking forward the Group will continue to implement this successful strategy of developing its businesses through a combination of organic development and the identification and integration of suitable earnings-enhancing acquisitions. 2006 has started well and we look forward to the rest of the year with confidence.

Chairman

We are a unique media company.
Our results confirm our strength.

I am delighted to report that we start 2006 with great momentum following a year in which our vision for both the merger of T&F and the acquisition of IIR came to fruition. We have broadened our geographical reach, enhanced the resilience of our revenue streams and solidified our market leading positions.

Overview

The Group traded strongly in 2005 benefiting from good organic growth and an encouraging first six months contribution from IIR. Turnover in the year ended 31 December 2005 increased by 62% to £729.3m and operating profit by 47% to £91.4m. Adjusted operating profit increased by 54% to £147.3m.

Turnover, excluding acquisitions made in 2005 and currency impacts, increased organically by 6% on a fully comparable basis. Adjusted operating profit growth on the same organic basis was 13%.

In recognition of the Group's performance and its encouraging prospects, the Board is pleased to recommend a significant increase in the dividend. The total 2005 dividend will grow from 7.26p per share paid in respect of 2004 (after adjusting for the July 2005 Rights Issue) to 8.70p payable in respect of 2005, an increase of 20%.

Informa plc was formed from the merger between Taylor & Francis Group plc (Taylor & Francis) and Informa Group plc on 10 May 2004. Under International Financial Reporting Standards (IFRS) this transaction is accounted for as an acquisition and accordingly the comparative 2004 results shown in these financial statements only include the Taylor & Francis contribution from 10 May 2004, making comparison between 2005 and 2004 difficult. To assist comparability, reference is made in this statement to "organic" results, which include the Taylor & Francis results from 1 January 2004 in the comparative 2004 figures.

The reported 2005 results include IIR from 6 July 2005, the date of its acquisition. In the reporting period IIR contributed £192.5m to turnover and £31.7m to adjusted operating profit. "Organic" results exclude the contribution from IIR to both turnover and adjusted operating profit.

Divisional Results

Academic & Scientific Division

The Academic & Scientific division's reported turnover increased by 37% and adjusted operating profit by 25%. Organic revenue increased by 4% and organic adjusted operating profit by 10%.

The academic journals subscription business remained resilient, showing an overall increase in organic revenue of 7.5%, with the Humanities & Social Sciences (HSS) subscription business performing particularly well. As reported at the half year, the academic book publishing business experienced tougher market conditions, particularly in the UK and showed a marginal decline in organic turnover.

Overall our Scientific, Technical & Medical (STM) business showed organic adjusted operating profit growth of 10%, while HSS saw profits grow by 9% on the same basis.

Professional Division

Trading conditions in the markets served by our Professional division were positive during 2005. The division's reported revenue increased by 133% and adjusted operating profit by 114%, driven by good organic growth and a pleasing first contribution from the Performance Improvement businesses acquired with IIR.

The Group strategy is to build, maintain and develop a range of product and service formats with diverse and complementary revenue characteristics.

The Financial Data Analysis business saw strong renewals and increased margins contributing to an increase of 1% in organic revenue and a 13% rise in organic operating profit. The Finance, Insurance, Law & Tax businesses also experienced good organic growth, posting a 6% increase in revenues and a 23% increase in adjusted operating profit, as customer yields increased.

Overall the Professional division enjoyed organic turnover growth of 3% and adjusted organic operating profit growth of 14%.

Commercial Division

The Commercial division reported turnover growth of 50% and adjusted operating profit growth of 68%.

The Regional Events business, which operates across a wide range of geographical markets and vertical sectors, saw both turnover and adjusted operating profit grow organically by 15%.

The Telecoms & Media business achieved strong growth in revenues, with the number of events held almost doubling. Turnover grew organically by 17% and adjusted operating profit by 26%, as third-generation mobile services reached end-users.

The Maritime & Commodities businesses benefited as the world's economies generally remained robust. Organic revenue growth, driven particularly through publications, was 4% and organic adjusted operating profit growth was 23%.

Acquisitions

IIR, acquired in July 2005, produced excellent results in its first period with the Group, reporting turnover of £192.5m and adjusted operating profit of £31.7m. A number of smaller acquisitions of products and businesses contributed a further £3.7m to turnover and £0.6m to adjusted operating profit.

IIR's Performance Improvement (PI) business, which is a new area for the Group, contributed turnover of £106.2m and adjusted operating profit of £17.6m. Another significant area of contribution was in Regional Events, where IIR contributed £60.1m to turnover and £8.9m to adjusted operating profit.

The addition of IIR significantly extends the Group's events presence and fully complements our pre-existing business, with little or no duplication. Through the combination with IIR we have significantly strengthened our geographic reach and vertical market positions. Illustratively we now have critical mass in international financial events and geographically, in the Middle East, through our market leading position in the United Arab Emirates.

The IIR PI businesses, with their respected brands, strong market positions, and good cash generation, give the Group a substantial position in an attractive new market which offers strong recurring revenue streams and exciting growth prospects. The PI businesses, which are built around specialist proprietary intellectual property,

follow a similar model to the other Informa businesses. This has facilitated their integration into the Group and we are encouraged by the opportunities this new business brings. We are pursuing a number of initiatives to drive synergies between our PI businesses and publishing operations.

We have successfully executed a detailed 90-day integration plan for the IIR businesses. All the key IIR senior management have been retained and we are pleased with their high calibre, the cultural fit between the organisations, the progress to date and the prospects for the combined business.

Merger Update

The merger of Informa with Taylor & Francis was completed on 10 May 2004. New product development resulting from the merger continues to proceed to plan and we estimate that we have achieved £9m of incremental revenue in 2005 through a combination of new products and the increased sale of existing products driven by improved marketing access. This revenue benefited not only the Academic & Scientific division in terms of additional events and advertising revenue but also businesses such as Finance, Insurance, Law & Tax and Telecoms, through the launch of new publications. £9m of cost savings were also achieved in 2005 from the merger.

Under IFRS the business combination between Taylor & Francis and Informa is treated for accounting purposes as an acquisition of Taylor & Francis by Informa from the transaction date of 10 May 2004. As a consequence, the financial results of Taylor & Francis prior to this date are excluded from the 2004 comparative figures shown above. Turnover for this excluded period was £54.4m, and adjusted operating profit was £9.2m.

For comparative purposes we have shown in the "Organic" column the growth adjusting for acquisitions, discontinued businesses and currency effects, while treating Taylor & Francis as if it were part of the Group from 1 January 2004.

Acquisitions contributed £9.6m to the STM business' reported turnover and £1m to its adjusted operating profit in 2005, of which IIR contributed £5.9m to revenue and £0.4m to adjusted operating profit.

A solid STM journal performance was offset by a marginal reduction in book sales to academic bookshops. Within STM, the Pharmaceutical Information business achieved an encouraging growth in profitability as a result of investments in new products, including written courses, awards and directories. The business saw an increase in overall revenue and improved margins, with the flagship products Scrip and PharmaProjects at the centre of this growth. The inaugural Scrip Awards, held in December 2005, were a sell out.

Our publishing businesses benefit from strong renewal rates, excellent visibility of earnings and high margins supported by electronic added value.

Above: Routledge is a long-established leading brand in Social Sciences and Humanities.

The HSS business saw good organic growth, with journal subscription renewals at or above the levels of recent years and good content growth in a number of our leading journals. Routledge academic books, the main imprint of Taylor & Francis in the HSS subject areas, encountered the same challenges seen in the STM books business.

During the year a number of new journal sales models were introduced to supplement the existing successful single subscription model, aimed at building sustainable on-line revenues. We also launched Informa World, our own platform, which we developed to store, process, sell and distribute on-line the Group's digital content. Initially Informa World will contain academic on-line information only, but this will be expanded to include more of the Group's content during 2006 and beyond.

We had a successful year for new journal titles and have acquired or are launching an additional 64 titles for 2006 and a further 12 titles are already in hand for 2007.

Technological developments in automated manuscript processing and print-on-demand are helping us to drive efficiencies in the books production process and reduce levels of physical inventory. We now have nearly 6,000 titles available in print-on-demand format, out of a total catalogue of more than 40,000 titles.

As part of a continued focus on the growth potential offered by developing countries, the Academic & Scientific division has opened a new office in Beijing to drive sales of its products in China and a new company has been established in India to develop local publishing initiatives.

The leading brands which make up Informa's new Performance Improvement portfolio:

Professional Division

The Professional division includes our US-led Financial Data Analysis businesses together with our specialist publishing and event products for finance, insurance, legal and tax professionals. The Performance Improvement businesses acquired with IIR are also included here.

The Professional division's reported turnover was up 133% and adjusted operating profit up 114%. The acquisition of the Performance Improvement businesses materially enhanced the overall growth, although underlying performance was also good, with 3% and 14% organic growth achieved in turnover and adjusted operating profit, respectively.

IIR contributed £122.0m to the division's revenue and £21.2m to its adjusted operating profit since acquisition.

The Financial Data Analysis businesses continued to leverage their strong positions in the fixed income, credit and currency analysis markets. Both businesses in this area, Informa Global Markets and International Insider, performed strongly in 2005 and we are well positioned to take advantage of investments we have made in IT infrastructure and new products.

Market conditions improved within the money fund industry in the second half of the year and the iMoneyNet business continued to grow. Its new product, Analyzer, launched early in 2005, was well received by the industry and provides improved, flexible analysis.

The Finance, Insurance, Law & Tax business had an excellent year supported by good growth in advertising and sponsorship revenue. Subscription revenues grew as a result of on-line product developments throughout 2005, with electronic revenues up 35% on the prior year and the launch of www.i-law.com, a new integrated on-line service

aimed at practitioners in the niche sectors of maritime, insurance, construction and intellectual property law.

In 2005 we established a new distance learning business which already has 20 courses in the Finance, Insurance, Law & Tax areas and which moved into profit in its first year.

IIR, with its strong portfolio of events, particularly in investment banking, contributed £15.8m to the Finance, Insurance, Law & Tax business' turnover and £3.4m to its operating profit.

The Performance Improvement business traded at the high end of our expectations in the post-acquisition period. Comparing the 12 months ended 31 December 2005 to the 12 months ended 31 December 2004 and excluding the contribution of Robbins Gioia, acquired in July 2004, from both periods, the PI business' revenue grew by 9% and adjusted operating profit by 13%.

All seven of the individual PI business units grew over the prior year, with particularly encouraging results from Robbins Gioia, the largest of the PI businesses, with some 90% of its revenues generated from US government contracts, and from ESI, the project management specialists, which had a record year.

The Commercial division's turnover was up 50% and adjusted operating profit up 68%. Overall margins improved across the division and were helped by the addition of higher margin, predominantly large scale events from IIR. IIR contributed £64.6m to the division's revenue and £10.1m to its adjusted operating profit since acquisition.

Our Regional Events, comprising domestic language conferences, exhibitions and courses, had an outstanding year benefiting from general improvements in economic conditions. The acquired IIR business also contributed strongly to the businesses' performance.

Regional Events' organic revenue and organic adjusted operating profit both grew by 15%. The key drivers were a 17% increase in delegate numbers and a 10% rise in the number of events staged. Germany, the largest of the Regional Events business units, saw 19% growth in organic revenue, while The Netherlands, the second largest events business in this group, showed an increase of 28%. Scandinavia, Brazil and Australia also achieved encouraging growth. However, our French business sustained continued losses and with no prospect of a turnaround we closed this operation.

The markets served by our Telecoms & Media business continued to rebound strongly and the unit reported a 17% increase in organic turnover and a 26% improvement in organic adjusted operating profit.

IIR's exhibitions and Large Scale Events add further depth and resilience to our dynamic events businesses.

Above: The Monaco Yacht Show, a leading IIR event.

New mobile technologies are providing the business with significant opportunities for new product development from events to a range of publications, including textbooks, with 30 new titles set for publication in 2006.

Telecoms event output more than doubled over 2004 and sector coverage was enhanced still further by the complementary IIR telecoms events. We have developed the premier mobile telecoms events in some of the fastest-growing territories across the world, including in Africa, Asia, the Middle East, Central and Eastern Europe, Russia, India and the Americas. The annual 3GSM World Congress which has been held in Cannes for the last ten years was successfully transferred to Barcelona in February 2006.

The Maritime & Commodities businesses, which encompass the leading daily newspaper *Lloyd's List*, and Agra, our commodities business, grew turnover and adjusted operating profit organically by 3% and 23%, respectively.

The Maritime business enjoyed sustained growth in training programmes including distance learning, classroom courses and bespoke training development, while the Commodities business performed particularly well in events, especially in the growing renewable fuels sector.

Informa operates in 550 niche industry sectors and segments. We have limited exposure to any one product or market.

Financial Review

The Group's annual results are reported under IFRS for the first time in these financial statements. Under IFRS accounting the Group reported an increase in turnover of 62%, to £729.3m from £449.8m. The reported 2005 results include £196.2m in turnover from acquisitions made during the year. Currency had little impact on turnover in 2005 compared to 2004.

Reported operating profit increased by 47% to £91.4m from £62.3m, with acquisitions contributing £3m (inclusive of £29.3m amortisation of intangible assets). Adjusted operating profit, which is presented after removing non-recurring and non-trading items and amortisation, increased by 54% to £147.3m from £95.4m.

Within operating costs amortisation increased from £9.6m to £49.8m, reflecting the impact of increases in intangible assets resulting from acquisitions in 2005.

Finance Costs

Finance costs increased to £36.2m from £20.5m, driven by increased debt associated with acquisitions and increased pension scheme interest costs.

In connection with the acquisition of IIR, the Group's debt facilities have been increased to £965m.

Taxation

Following a detailed review of the impact of the introduction of IFRS, the Board has resolved to write-off deferred tax assets of £35.2m, resulting in a distorted effective tax rate of 82%. However,

the underlying tax rate was 25% (2004: 27%), benefiting from a combination of the utilisation of operating losses generated in the US and from profits generated by IIR in relatively low tax jurisdictions.

Earnings Per Share

Adjusted diluted earnings per share, which is stated after removing non-recurring and non-trading items and amortisation, increased by 6% to 22.18p from 20.97p. The increase in adjusted diluted EPS has been adversely affected by the requirement under IFRS to use acquisition accounting for the combination of Informa with Taylor & Francis, whereby the financial results of Taylor & Francis from 1 January to 10 May 2004 have been excluded from the 2004 comparative figures. The result of this was to unevenly distribute reported profits to the post-acquisition period in 2004. Adjusted diluted EPS in 2005 was also affected by the issue of 120m ordinary shares in July 2005 in support of the acquisition of IIR.

Mainly as a result of the write-off of the deferred tax asset referred to above, basic EPS from continuing operations decreased to 2.76p (2004: 25.47p) and diluted EPS from continuing operations decreased to 2.75p (2004: 25.30p).

Dividend

In recognition of the Group's performance and its encouraging prospects, the Directors have recommended a significant increase to the total annual dividend. The Directors have declared a final dividend of 6.00p per ordinary share (2004: 4.76p after adjusting for the Rights Issue in July

Above: The Commercial division which includes Regional Events enjoyed organic profit growth of 21%.

2005). This dividend is payable on 30 May 2006 to ordinary shareholders registered as of the close of business on 28 April 2006.

Total dividends declared in respect of 2005 are 8.70p which represents an increase of 20% on 2004 of 7.26p (after adjusting for the July 2005 Rights Issue).

Balance Sheet

Goodwill increased by £520.4m to £1,123.4m and other intangible assets by £454.7m to £935.7m, mainly as a result of the acquisition of IIR.

The Group has net pension scheme liabilities of £17.7m in respect of defined-benefit retirement schemes. The pension scheme liabilities mainly relate to UK-based entities.

Net debt increased by £433.5m to £735.4m, mainly due to £812.8m spent on acquisitions, offset by £311m raised in the Rights Issue. Share capital and the share premium account increased as a result of the Rights Issue.

The deferred tax liability at 31 December 2005 increased by £138.5m to £240.4m, largely due to the provision of £146.5m arising on acquired intangible assets in the year.

Trade debtors, trade and other payables and deferred income increased largely due to acquisitions made in the year, reflecting the greater scale of the Group's operations.

The Group has excellent cash flow properties – annual cash conversion is over 100%.

Cash Flow

The Group again demonstrated excellent cash generation from operations, with a conversion ratio of 113% of adjusted operating profit into cash (2004: 112%). Overall the Group has negative working capital requirements and relatively low capital expenditure.

Outlook

The Group's strategy of combining organic growth with selective acquisitions has led to considerable growth over the last 18 months, initially through the merger of Taylor & Francis and Informa and now through the acquisition of IIR. The enlarged Group has a strong, well-branded portfolio with leading positions in its selected market sectors. The focus for 2006 is to continue to exploit the opportunities arising from these transactions – developing new product revenue streams and capitalising on the Group's broader geographic presence.

2006 has started well across the three divisions and in line with our expectations, with our academic books unit, Middle-East-based events and Performance Improvement businesses reporting particularly strong trading. As a result, we are confident of meeting our targets and delivering another good financial performance in 2006.

Specialist, research-based, high quality information is the heart of every one of our revenue streams.

Informa's strategy is to assemble and develop a portfolio of revenue streams with diverse but complementary characteristics. We want a combination of high quality information businesses which will be capable of capturing growth opportunity quickly when economic conditions permit but which will also demonstrate superior defensive qualities during periods of economic downturn.

Our three core revenue streams today are Publishing, Performance Improvement and Events. Individually they display strong qualities but taken together these assets gives Informa particular strengths through the economic cycle.

Publishing

Looking at publishing first, this part of our portfolio accounts for around 40% of the Group's total turnover. It is intrinsically high operating margin business and with limited cyclical exposure.

The reason for this is that the greatest part of the publishing profit derives from our subscription businesses – academic journals, specialist information products for the legal, insurance and maritime sectors and detailed data and market intelligence for banks and financial institutions. The majority of these subscription products are already delivered digitally, often with added value interrogation and analytical tools.

Our subscription business is very stable. It renews each year at 90%+ and enjoys considerable visibility because subscribers pay up to one year in advance. Sometimes these products attract

additional advertising revenue but this is largely ancillary revenue. Informa is not a B2B publisher built around advertising income. Advertising accounts for only 8% of our publishing sales.

Our other major revenue stream from publishing is books, which amounts to around a third of publishing sales. The great majority of our books are academic – covering a host of topics from science, technology and medicine to social science and humanities. They tend to have a rather lower profit margin than our subscription products because of generally lower price points but they meet a steady and annually refreshing student and institutional information need.

Performance Improvement

Next is Performance Improvement (PI) which amounts to 22% of our sales. We see this as a durable income stream which is hedged over many customer sectors, both corporate and government. Our seven PI businesses each has its own niche focus on one, or two, operational disciplines: among them project management, leadership, sales optimisation and program management. In each case they are founded on proprietary intellectual property built from their own primary research.

Our PI businesses analyse and diagnose their customers' performance challenges and then customise their proprietary IP to meet the specific circumstances identified. Finally they manage and deliver the training necessary to enable clients' staff to achieve the improvement they seek.

PI contracts are usually high value and customer relationships tend to be long lasting. The PI group renews more than 90% of its client revenue each year and 70% of its top 100 customers have been with us for four or more years. Our PI businesses enjoy strong relationships with most of the Fortune 100 companies and they now earn 40% of their combined income from long running government contracts.

The great diversity of the PI customer base means that PI is not exposed unduly to cyclical changes in any one sector, enabling this part of the business to enjoy stable operating margins of 15%+.

Events

Finally, Events. This revenue stream is our fastest growth capturer. It is readily scalable and highly flexible. Conferences are fast to market – we can move from concept to product in as little as 16 weeks and we can gear up our event output quickly when opportunity presents in the external market. This might be when a technological innovation breaks through for example or an important legislation change is announced.

Events are more cyclically exposed than our other revenue streams but Informa's scale as the largest conference organiser in the world gives us significant protection against economic downturn in specific markets. Our 4,500 events a year cover more than 500 industries and sectors in 70 national and regional economies. Our 20 million strong customer database, which we believe is unrivalled anywhere in the media business, enables us both to maximise opportunity within sectors and also

to move our focus to more productive areas if individual markets turn down. Because event output can be quickly reduced, if need be, we are not locked into cost.

Events are also not capital intensive. A small event might require only £15k of marketing spend and all but around 5% of the conferences we research and launch each year become profitable contributors in their first incarnation.

The Group has around 100 industry leading events across a range of sectors. These Large Scale Events tend to be very stable in attendance whatever phase of the economic cycle their industry is in. Because of their relative size and the effect of operational gearing these events contribute a substantial portion of the total profits we earn from events. Each year around one third of our total events are branded annuals, another third are repeated iterations of previous successes and the final portion are new targets of opportunity we have identified through our extensive topic research effort.

Our conferences are content-rich, targeted at the specialist and typically delegate-driven. As events grow they tend to attract increasing amounts of sponsorship and related exhibition income but the heart of our events business, just as it is for publishing and performance improvement, is the communication of high value information.

Principal Activities

Informa plc and its subsidiary undertakings provide specialist information to the academic & scientific, professional and commercial communities through multiple distribution channels.

Business Review

The results for the year are summarised in the Consolidated Income Statement on page 36 and the related Notes. A review of the Group's business and future prospects is set out in the Chief Executive's Review on pages 5 to 15.

Dividends

The Directors recommend that a final dividend of 6.0p per ordinary share be paid on 30 May 2006 to ordinary shareholders registered as at the close of business on 28 April 2006 which, together with the interim dividend of 2.7p per ordinary share paid on 4 November 2005, makes a total for the year of 8.7p per ordinary share.

Directors

The interests of the Directors who held office as at 31 December 2005 in the share capital of the Company are set out in the Directors' Remuneration Report on page 31.

Brief biographical details of the Directors who held office as at 31 December 2005 appear on pages 18 and 19. Those Directors served throughout the year, other than Mr J Davis, who was appointed with effect from 1 October 2005. Mr D Cruickshank resigned on 24 January 2005 and Mr D Smith resigned on 10 March 2005.

Resolutions will be submitted to the Annual General Meeting in accordance with the Company's Articles of Association for the re-appointment of two Directors. The Company's Articles of Association state that any Director who has been appointed by the Company's Directors since the previous Annual General Meeting or who has held office for more than 30 months since last re-elected by the Company in general meeting must retire from office but shall be eligible for re-election. Accordingly Mr J Davis retires and, being eligible, offers himself for election by the shareholders and Mr D Gilbertson retires and, being eligible, offers himself for re-election.

Annual General Meeting

The Annual General Meeting will be held on 16 May 2006 and the notice will be despatched separately.

Charitable and Political Contributions

The Group made charitable donations during the year of £143,000, principally to local charities serving the communities in which the Group operates. No political donations were made.

Supplier Payment Policy

The Company's policy, which is also applied by the Group, is to settle terms of payment with suppliers when agreeing the terms of each transaction, to ensure that suppliers are aware of the terms of payment and to abide by the agreed terms, provided that the supplier has provided the goods or services in accordance with the relevant terms and conditions. As at 31 December 2005 trade payables of the Group were on average 46 days' outstanding (2004: 23 days'), based on the year end ageing of the trade payables balance. The Company had no trade payables as at 31 December 2005 and 2004.

Substantial Shareholdings

As at 13 March 2006 the Company had been notified, in accordance with Sections 198 to 208 of the Companies Act 1985, of the following interests of 3% or more of the issued ordinary share capital of the Company:

Standard Life Investments	22,304,218	5.29	4 Aug 2005

Going Concern Basis

After making enquiries, the Directors have formed a judgement, at the time of approving the financial statements, that there is a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. For this reason the Directors continue to adopt the going concern basis in preparing the financial statements.

Employee Consultation

The Group places considerable value on the involvement of its employees and continues to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Group. This is achieved principally through formal and informal meetings, email updates and via the Company's intranet site, which is updated regularly and also includes a facility enabling employees anonymously to ask questions of executive management to which answers are also published. Employee representatives are consulted regularly on a wide range of matters affecting their current and future interests.

From January 2006 all UK employees are eligible to participate in the Company's Share Incentive Plan (SIP), introduced and approved by shareholders in 2005. The SIP is an Inland Revenue Approved All Employee Share Incentive Plan offering UK employees the opportunity to purchase annually up to £1,500 of shares in the Company out of pre-tax salary. During 2006 consideration will be given to rolling-out similar plans to other principal jurisdictions in which the Group operates.

Disabled Employees

Full consideration is given to applicants for employment, the continuing employment, training and career development of disabled persons.

Auditors

Deloitte & Touche LLP have expressed their willingness to continue in office as auditors and a resolution to reappoint them will be proposed at the forthcoming Annual General Meeting.

By order of the Board

Jeff Thomasson
Company Secretary
13 March 2006

The Company is committed to the principles of corporate governance contained in the Combined Code on Corporate Governance (the Code) for which the Board is accountable to shareholders. Throughout the year ended 31 December 2005 the Company was in compliance with the Code provisions set out in Section 1 of the Code except for the following matters in respect of the number of Board committee members:

- Code provision B.2.1 specifies that the Remuneration Committee of the Board should comprise at least three independent Non-Executive Director members. Following the resignation of Mr D Cruickshank from the Board, for the period from 25 January to 9 March 2005 the Remuneration Committee comprised two independent Non-Executive Director members. This was rectified by the appointment of additional members with effect from 10 March 2005. The membership of the Remuneration Committee during 2005 is shown on page 27.
- Code provision C.3.1 specifies that the Audit Committee of the Board should comprise at least three independent Non-Executive Director members. Following the resignation of Mr D Cruickshank from the Board, for the period from 25 January to 30 September 2005 the Audit Committee comprised two independent Non-Executive Director members. This was rectified by the appointment of an additional member with effect from 1 October 2005. The membership of the Audit Committee during 2005 is shown on page 25.

The paragraphs below and in the Directors' Remuneration Report explain how the Company has applied the Principles of Good Governance set out in Section 1 of the Code.

The Board

The Group is controlled through its Board of Directors. The Board's main roles are to create value for shareholders, to provide leadership of the Group, to approve the Group's strategic objectives and to ensure that the necessary financial and other resources are made available to enable those objectives to be met.

A schedule which sets out the matters reserved for the Board's approval is reviewed and updated annually. The specific responsibilities reserved for the Board include: approving the Group's long-term objectives and commercial strategy; approving the Group's annual operating and capital expenditure budgets; reviewing operational and financial performance; approving major acquisitions, disposals and capital projects; reviewing the Group's systems of internal controls and risk management; reviewing the environmental, health and safety policies of the Group; approving appointments to and removals from the Board and of the Company Secretary; and approving policies relating to Directors' remuneration.

The Board has delegated the following activities to the Executive Directors: the development and recommendation of strategic plans for consideration by the Board that reflect the longer-term objectives and priorities established by the Board; implementation of the strategies and policies of the Group as determined by the Board; monitoring of the operating and financial results against plans and budgets; monitoring the performance of acquisitions and investments against plans and objectives; prioritising the allocation of capital, technical and human resources and developing and implementing risk management systems.

The Roles of the Chairman and Chief Executive

The division of responsibilities between the Chairman of the Board and the Chief Executive is clearly defined.

The Chairman leads the Board and is responsible for organising the business of the Board, setting its agenda and ensuring its effectiveness. The Chairman is also responsible for ensuring that Directors receive accurate, timely and clear information and for effective communication with shareholders. The Chairman facilitates the effective contribution of Non-Executive Directors and constructive relations between the Executive and Non-Executive Directors.

The Chief Executive has direct charge of the Group on a day-to-day basis and is accountable to the Board for its operational and financial performance. The Chief Executive is also primarily responsible for developing and articulating the Company's strategy and for day-to-day dealings with shareholders, particularly following the interim and year-end results announcements.

Senior Independent Director

Mr D Mapp has been designated the Senior Independent Director since 10 March 2005; previously Mr R Hooper was the designated Senior Independent Director. The Senior Independent Director is available to meet shareholders on request and to ensure that the Board is aware of any shareholder concerns not resolved through existing mechanisms for investor communication.

Directors and Directors' Independence

As of 31 December 2005 the Board comprised the Chairman, four independent Non-Executive Directors and three Executive Directors. The names of the Directors, together with their brief biographical details are given on pages 18 and 19. The periods served by each Director during 2005 are set out on page 20.

The Board includes independent Non-Executive Directors who constructively challenge and help develop proposals on strategy and bring strong, independent judgement, knowledge and experience to the Board's deliberations. The independent Directors are of sufficient calibre and number that their views carry significant weight in the Board's decision-making process.

The Board considers all of its Non-Executive Directors to be independent in character and judgement. The Board has considered the independence of Mr S Watson with particular care in view of his position as a partner at the law firm of CMS Cameron McKenna, one of several legal advisers used by the Company. The Board does not consider the relationship between the Company and the law firm to be of a material nature given that the transaction values between the two entities have not exceeded 1% of their respective turnovers during each of the three years ended 31 December 2005. In addition Mr Watson does not lead any transaction or have any significant role in any work undertaken by the law firm on behalf of the Company.

There is an agreed procedure in place for the Directors to obtain independent professional advice, at the Group's expense, should they consider it necessary to do so in order to carry out their responsibilities.

The other significant professional commitments of the Chairman, Mr R Hooper, are summarised on page 18.

Professional Development

On appointment the Directors receive relevant information about the Group, the role of the Board and the matters reserved for its decision, the terms of reference and membership of the principal Board committees and the powers delegated to those committees, the Group's corporate governance policies and procedures and the latest financial information about the Group. This is supplemented by visits to key locations and meetings with key senior executives. On appointment Directors are also advised of their legal and other duties and obligations as a Director of a listed company.

Throughout their period in office the Directors are continually updated on the Group's business and the environment in which it operates, by written briefings and by meetings with senior executives, who are invited to attend and present at Board meetings from time to time. They are also updated on any changes to the legal and governance requirements of the Group and which affect themselves as Directors and are able to obtain training, at the Group's expense, to ensure they are kept up to date on relevant new legislation and changing commercial risks.

Performance Evaluation

The Board utilises a formal and rigorous process, led by the Chairman, for the annual evaluation of the performance of the Board, its principal committees and individual Directors, with particular attention to those who are due for re-appointment. On appointment the Directors are made aware that their performance will be subject to evaluation.

For 2005 the evaluation was performed by the Chairman who conducted a series of focused interviews with each member of the Board in his or her capacity as a Director and, where applicable, as a member or Chairman of a principal committee. The findings and recommendations of the review were presented to the Board as a whole, with a view to implementing any recommendations made to improve the overall effectiveness of the Board during 2006. The Non-Executive Directors, led by the Senior Independent Director, also met without the Chairman present to conduct an evaluation of the Chairman's performance.

Re-election

Subject to the Company's Articles of Association, the Companies Act and satisfactory performance evaluation, Non-Executive Directors are appointed for an initial period envisaged to last three years and thereafter subject to annual review.

The Company Secretary

The Company Secretary is responsible for advising the Board through the Chairman on all governance matters and all Directors have access to the advice and services of the Company Secretary.

Information

Regular reports and papers are circulated to the Directors in a timely manner in preparation for Board and Committee meetings. These papers are supplemented by any information specifically requested by the Directors from time to time.

The Non-Executive Directors receive monthly management reports from the Chief Executive and the Finance Director which enable them to scrutinise the Group's and management's performance against agreed objectives.

Relations with Shareholders

In fulfilment of the Chairman's obligations under the Code, the Chairman provides the Board with feedback on any issues raised with him by shareholders.

In addition, the Executive Directors have frequent discussions with institutional shareholders on a range of issues affecting the Group's performance. These include meetings with the Group's largest institutional shareholders on an individual basis following the announcement of the Group's interim and annual results. In addition the Group responds to individual ad hoc requests for discussions from institutional shareholders. Following meetings held with shareholders after the interim and annual results announcements, the Board receives feedback from each of the Chief Executive, the Group's brokers and its public relations advisers on investor perceptions. External analysts' reports on the Group are also circulated to all Directors, as are monthly reports of significant changes in the holdings of larger investors.

The Annual General Meeting (AGM), for which at least 20 working days' notice is given and where shareholders are invited to ask questions during the meeting and are able to meet with the Directors after the meeting, is normally attended by all the Directors. The number of proxy votes for, against or withheld in respect of each resolution is disclosed at the AGM and a separate resolution is proposed for each item.

The Group's corporate website at www.informa.com contains a wide range of information of interest to both institutional and private investors, including any announcements made by the Company to the London Stock Exchange as well as video recordings of the interim and annual presentations made to analysts.

Internal Control and Risk Management

The Board is responsible for the Group's system of internal control and for reviewing its effectiveness. Such a system is designed to manage rather than eliminate the risk of failure to achieve business objectives and can only provide reasonable, and not absolute, assurance against material misstatement or loss.

The Board has an ongoing process for identifying, evaluating and managing the significant risks faced by the Group. In accordance with the guidance on internal control published in September 1999 (the Turnbull Guidance), the Board regularly reviews this process, which has been in place from the start of the year to the date of approval of this Report.

The Board regularly reviews the effectiveness of the Group's system of financial and non-financial internal controls, including operational and compliance controls, risk management and the Group's high-level internal control arrangements. The Board's monitoring is based principally on reviewing reports from management to consider whether significant risks have been identified, evaluated, managed and controlled and whether any significant weaknesses are promptly remedied and indicate a need for more extensive monitoring. The Board has also performed an assessment for the purpose of this Annual Report. This assessment considers all significant aspects of internal control arising during the period covered by the Report including the work of internal audit. The Audit Committee assists the Board in discharging its review responsibilities.

The Directors view the careful management of risk as a key management activity and steps are being taken to embed internal control and risk management further into the operations of the Group and to deal with any areas of improvement which come to management's and the Board's attention. For example, at the end of 2005 the Group's Business Risk Management and Internal Audit functions were brought under one unified structure, known as Group Internal Control.

Board Committees

The number of scheduled Board meetings and committee meetings attended as a member by each Director during the year was as follows:

	Scheduled Board meetings	Nomination Committee meetings	Remuneration Committee meetings	Audit Committee meetings
R Hooper	7 (8)	1 (1)	2 (2)	1 (1)
P Righy	8 (8)	—	—	—

Figures in brackets indicate the number of meetings held in the period in which the Director was a member.

Nomination Committee

The Company has established a Nomination Committee whose terms of reference, which were updated by the Board in October 2005, are available on the Company's website.

The membership of the Nomination Committee during 2005 was as follows:

	Period of membership 2005
R Hooper (Chairman of Committee)	1 Jan – 31 Dec
D Mapp	10 Mar – 31 Dec
S Watson	1 Jan – 31 Dec
P Kirby	10 Mar – 31 Dec
J Davis	1 Oct – 31 Dec
D Smith	1 Jan – 10 Mar
D Cruickshank	1 Jan – 24 Jan

Mr R Hooper replaced Mr D Smith as Chairman of the Committee from 10 March 2005.

The Nomination Committee considers the mix of skills and experience that the Board requires and seeks the appointment of Directors who meet those requirements to ensure that the Board is effective in discharging its responsibilities.

The Nomination Committee met during 2005 for the purpose of appointing an additional Non-Executive Director to the Board. The process began by identifying the core competencies and attributes required of the candidate to fill the role. An independent professional search firm was then engaged to seek out and identify potential candidates. Following both a long-listing and short-listing process, a selection panel, composed of members of the Committee and other Board members, was held at which three short-listed candidates were interviewed. The selection panel recommended the appointment of Mr J Davis to the Nomination Committee, which in turn recommended Mr Davis' appointment to the full Board and he was appointed by the Board with effect from 1 October 2005.

Remuneration Committee

The membership of the Remuneration Committee is set out in the Directors' Remuneration Report on page 27. The Committee's terms of reference, which were updated by the Board in October 2005, are available on the Company's website. The Committee's principal responsibilities are to:

- set, review and recommend to the Board for approval the remuneration policy and strategy with respect to the Executive Directors;
- set, review and approve the individual remuneration packages of the Executive Directors including terms and conditions of employment and any changes to the packages; and
- approve the introduction and rules of any Group share-based incentive schemes.

Audit Committee

The membership of the Audit Committee during 2005 was as follows:

	Period of membership 2005
D Mapp (Chairman of Committee)	1 Jan – 31 Dec
R Hooper	1 Jan – 9 Mar
S Watson	10 Mar – 31 Dec
J Davis	1 Oct – 31 Dec
D Cruickshank	1 Jan – 24 Jan

The Audit Committee has at least one member possessing recent and relevant experience, as described in the Smith Report appended to the Code. Mr D Mapp has extensive experience of audit committee procedures, and Mr J Davis is a qualified chartered accountant and the Chief Financial Officer of Yell Group plc, a FTSE 100 company. It can also be seen from the Directors' biographical details appearing on pages 18 and 19 that the other members who served on the Committee during the year possess a wide range of high-level experience.

The Audit Committee monitors the integrity of the Group's financial statements and any formal announcements relating to the Group's performance. The Committee is responsible for monitoring the effectiveness of the external audit process and making recommendations to the Board in relation to the appointment, re-appointment and remuneration of the external auditors. It is responsible for ensuring that an appropriate relationship between the Group and the external auditors is maintained, including reviewing non-audit services and fees. The Committee also reviews annually the Group's system of internal controls and the process for monitoring and evaluating the risks faced by the Group. It reviews the effectiveness of the Group Internal Control function (consisting of Business Risk Management and Internal Audit) and is responsible for approving, upon the recommendation of the Chief Executive, the appointment and termination of the head of that function.

The Committee meets as appropriate with the Executive Directors and management, as well as privately with both the external and internal auditors.

In 2005 the Committee discharged its responsibilities primarily by:

- reviewing the Group's draft preliminary and interim results statements prior to Board approval and reviewing the external auditors' detailed reports thereon;
- reviewing the Group's pre-Close Period updates prior to their release;
- reviewing the appropriateness of the Group's accounting policies;
- reviewing regularly the impact on the Group's financial statements of matters such as the adoption of International Financial Reporting Standards;
- recommending to the full Board, which adopted the recommendation, the reappointment of Deloitte & Touche LLP as the Group's external auditors;
- reviewing and approving the audit fee and reviewing non-audit fees payable to the Group's external auditors;
- reviewing the external auditors' plan for the audit of the Group's accounts, which included key areas of scope of work; key risks on the accounts; confirmations of auditor independence and the proposed audit fee and approving the terms of engagement for the audit;
- reviewing the Group's system of controls and its effectiveness;
- reviewing the Group's systems to identify and manage risks;
- reviewing the ongoing reports from Business Risk Management; and
- reviewing post-acquisition reports on integration and performance of significant recent acquisitions compared to plans.

The Audit Committee also monitors the Group's whistle blowing procedures to ensure that appropriate arrangements are in place for employees to be able to raise matters of possible impropriety in confidence, with suitable subsequent follow-up action.

The Audit Committee's terms of reference, which were updated by the Board in October 2005, are available on the Company's website.

Auditor Independence and Objectivity

The Audit Committee regularly monitors the scope of the services and the non-audit services being provided to the Group by its external auditors to review the independence and objectivity of the external auditors, taking into consideration the relevant professional and regulatory requirements, so that these are not impaired by the provision of permissible non-audit services. Any activities that may be perceived to be in conflict with the role of the external auditors must be submitted to the Committee for approval prior to engagement.

At Informa we endeavour to practise our business with integrity, respecting the different cultures, dignity and rights of individuals everywhere we operate.

2005 was the year that Corporate Responsibility (CR) was formalised at Informa, with the appointment of Mr K Brownlie as CR Director, reporting to Mr P Rigby, Chief Executive. During 2005 four active sub-committees were formed to address CR issues, covering workplace, marketplace, community and environment. The head of each of these sub-committees is a member of the CR Committee, along with Messrs Rigby and Brownlie. The sub-committees meet regularly and have targeted their short, medium and long-term actions, which have been agreed by the CR Committee. Further details are included within the full 2005 CR Report available on the Group's website at www.informa.com.

The Company is delighted to have also been awarded the FTSE4Good accolade during 2005.

While significant strides have been made in the area of Corporate Responsibility during 2005, there remains much internal research to complete, including a global staff satisfaction survey being conducted during 2006, many processes and procedures to create and a good deal to articulate both internally and externally over the coming months and years. We have though completed the first year of formalised CR with a renewed sense of belief in the Group's ability to create positive change for all those involved with Informa.

Introduction

This report has been prepared in accordance with Schedule 7A to the Companies Act 1985. The report also meets the relevant requirements of the Listing Rules of the Financial Services Authority. As required by the Act, a resolution to approve the Report will be proposed at the Annual General Meeting.

The Act requires the auditors to report to the Company's members on certain parts of this report and to state whether in their opinion those parts of the report have been properly prepared in accordance with the Companies Act 1985. This report has therefore been divided into separate sections for audited and unaudited information.

Unaudited Information

Remuneration Committee

The membership of the Remuneration Committee during 2005 was as follows:

	Period of membership 2005
P Kirby (Chairman of Committee)	10 Mar – 31 Dec
R Hooper	1 Jan – 9 Mar
S Watson	10 Mar – 31 Dec
D Mapp	1 Jan – 31 Dec
D Cruickshank	1 Jan – 24 Jan

Dr P Kirby replaced Mr R Hooper as Chairman of the Committee from 10 March 2005.

None of the members who served on the Committee during the year had any personal financial interest (other than as a shareholder of the Company), conflicts of interests arising from cross-directorships or day-to-day involvement in running the business. The Committee makes recommendations to the Board.

In determining the Executive Directors' remuneration the Committee consulted Mr P Rigby, Chief Executive, about its proposals although no Director played a part in any discussion about his or her own remuneration. The Committee also engaged independent advisers New Bridge Street Consultants LLP (NBS) to provide advice on the structure and operation of Directors' remuneration packages. NBS did not provide any other services to the Company or Group.

Remuneration Policy

The remuneration of the Executive Directors is prudently designed to provide for a competitive compensation package which reflects the Group's performance against financial objectives and personal performance criteria. It rewards above-average performance and is designed to attract, motivate and retain high-calibre executives. The performance measurement of the Executive Directors and the determination of their annual remuneration packages are undertaken by the Committee.

There are five elements of the remuneration package for Executive Directors as follows:

- basic annual salary;
- benefits;
- annual bonus;
- share incentives; and
- retirement and life assurance benefits.

The Company's policy is that a substantial proportion of the remuneration of the Executive Directors should be performance related. As described further below, Executive Directors may earn annual bonus payments of up to 100% of their basic salaries, together with the benefits of participation in performance-based share incentive schemes.

Executive Directors are entitled to accept appointments outside of the Company provided that the Chairman's consent is obtained. During 2005 Mr P Rigby served as Non-Executive Chairman of Electric World plc, for which he received and retained fees of £9,000 and, through October 2005, as Non-Executive Chairman of Conatus plc, for which no fees were received. From February 2005 Mr D Gilbertson served as Non-Executive Chairman of John Brown Holdings Limited, for which he received and retained fees of £33,000. From March 2005 Mr A Foye served as a Non-Executive Director of YouGov plc, for which he received and retained fees of £12,500.

Basic Salary

The basic salaries of the Executive Directors are reviewed by the Remuneration Committee prior to the beginning of each year and upon a change of position or responsibility. In deciding appropriate levels, the Committee considers pay practices in the Group as a whole and makes reference to objective research which gives current information on appropriate comparator groups of companies.

Following a review at the end of 2004, the basic salaries of the Executive Directors were increased by 3% with effect from 1 January 2005. Following the significant acquisition of IIR in July 2005, the Remuneration Committee considered whether to review again the remuneration packages of the Executive Directors, but chose to defer this review until the regular annual salary review at the end of 2005. The review at the end of 2005 was undertaken with the assistance of independent remuneration consultants NBS and included a comparison of benchmark data from two comparator groups of companies – one drawn from the FTSE All Share Media Index, of which the Company is a constituent company, and the other drawn from the FTSE All Share Index and comprised of companies of a broadly similar size to Informa in terms of market capitalisation, turnover and overseas operations. Following its review the Committee concluded that it was appropriate to increase the basic salaries of the Executive

Directors with effect from 1 January 2006 to the following levels, which reflect the greater scale of the Group's business, the attendant increased responsibilities of the Executive Directors and their continued outstanding performance:

	£'000
P Rigby, Chief Executive	550
D Gilbertson, Managing Director	520
A Foye, Finance Director	310

Benefits

Each of the Executive Directors receives a benefit allowance of £25,000 per annum and private medical insurance cover. In addition Messrs Rigby and Gilbertson receive permanent health insurance cover.

Annual Bonus

Each of the Executive Directors has the opportunity to earn a bonus of up to 100% of basic salary, subject to the achievement of performance criteria set by the Committee.

In respect of the year ended 31 December 2005, as in the previous year, a bonus of up to 80% of basic salary could be earned based on achievement of adjusted diluted earnings per share (EPS) targets and up to 20% based on achievement of personal objectives, covering strategic, financial and operational areas. On the basis of both corporate and individual performance and targets having been achieved, the Remuneration Committee determined that 100% bonuses had been earned by each of the Executive Directors, in a year in which exceptional operational demands had been placed upon them.

The Remuneration Committee continues to consider adjusted diluted EPS to be the most suitable financial measurement to determine performance and align the interests of the Executive Directors with those of the Company's shareholders as this measurement of performance can be directly influenced by the performance of the Executive Directors. Therefore, the existing weightings will continue to apply for the year ending 31 December 2006.

Share Incentives

Share Matching Plan

In 2004 and 2005 the Company has operated a Share Matching Plan in which the Executive Directors could participate. Following approval at the 2004 Annual General Meeting, the Share Matching Plan was amended to introduce a requirement for the Executive Directors to invest at least 50% of their annual bonuses (net of tax and any other deductions), where such bonus exceeded half of annual basic salary, in the Company's shares. Corresponding awards of free matching shares were then made under the Share Matching Plan. In addition, the requirement was introduced for performance criteria to be achieved in order for the free matching shares to vest. The first awards under the amended Share Matching Plan were made in April 2005, as set out on page 31.

Long-Term Incentive Plan

Following a review by the Remuneration Committee and after consultation with the Company's principal institutional shareholders undertaken at the beginning of 2006, the Committee has concluded that the awards made to the Executive Directors in April 2005 should be the last made under the Share Matching Plan. Instead, from 2006 the Executive Directors will be invited to participate in the Company's Long-Term Incentive Plan (LTIP), introduced and approved by shareholders in 2005.

It is intended that the first grant of awards to Executive Directors under the LTIP will be made in 2006, when they will be given the alternative of:

- a maximum award of 100% of basic salary in the Company's shares, provided they are prepared to sacrifice 5% of that year's basic salary; or
- a maximum award of 50% of basic salary in the Company's shares, with no salary sacrifice required.

The purpose of the higher award for a basic salary sacrifice is to encourage participants to share some of the risk for a greater level of potential benefit and also to help mitigate the cost to the Company of the LTIP.

The first awards made under the LTIP will vest subject to continued employment over a three-year performance period, including the year of award, and the satisfaction of performance conditions which will require both that:

- the Company's Total Shareholder Return is at least at the median compared to the companies constituting, at grant, the FTSE All Share Media Index; and
- the Company's average adjusted diluted EPS grows by at least RPI plus 5% per annum (for 20% of the award to vest) increasing to RPI plus 12% per annum (for 100% of the award to vest).

The Remuneration Committee believes that these performance conditions are appropriate as they encourage both the generation of above market returns to shareholders and the delivery of substantial EPS growth. The Committee will continue to review the performance conditions for appropriateness before making future grants under the LTIP. Where applicable the Committee will also take account of the transition to International Financial Reporting Standards when determining the extent to which awards vest, with the overriding aim being to provide a consistent measurement of performance.

Share Incentive Plan

From January 2006 the Executive Directors, along with all other UK employees, are eligible to participate in the Company's Share Incentive Plan (SIP), introduced and approved by shareholders in 2005. The SIP is an Inland Revenue Approved All Employee Share Incentive Plan which offers UK employees the opportunity to purchase up to £1,500 of shares in the Company per annum out of pre-tax salary.

Share Options

Prior to their merger in May 2004, both Taylor & Francis and Informa operated discretionary share option schemes for the benefit of the Executive Directors. In the light of changes to the accounting treatment for share options and changing market practice, the Remuneration Committee decided not to grant options to Executive Directors during 2005 and does not intend to do so in the foreseeable future. Details of subsisting options granted to the Executive Directors in 2004 and earlier are shown on page 32.

Share Ownership Guidelines

During early 2006 the Remuneration Committee introduced formal share ownership guidelines requiring the Executive Directors to build up, over a three-year period and with pre-existing shareholdings taken into account, a holding in the Company's shares equal to at least 1.5 times annual basic salary.

Retirement and Life Assurance Benefits

The Executive Directors are entitled to receive a contribution of 25% of basic salary toward their retirement arrangements.

Mr P Rigby receives a Company contribution of 25% of basic salary to his personal pension plan. He received an additional employer contribution in respect of 2005 of £453,500 (2004: £199,000), as described further on page 31. The Company also provides life assurance cover providing for the payment of a lump sum in the event of the insured's death in service.

Mr D Gilbertson is a deferred member of the Informa Final Salary Scheme, a defined benefit scheme which provides for a pension on retirement of up to two thirds of final basic salary at the age of 60. Dependents are eligible for dependants' pension and the payment of a lump sum in the event of the member's death in service. Further details of the benefits accrued under the scheme are shown on page 33. Mr Gilbertson also has a personal money purchase pension plan funding his pension above the earnings cap. Through April 2005 the Company contributed to both schemes to the combined entitlement level of 25% of basic salary. In consideration of forthcoming legislative changes, from May 2005 the Company ceased to contribute on Mr Gilbertson's behalf to either pension arrangement and instead began paying him a monthly payment in lieu of pension equal to 25% of basic salary (after deducting any incremental National Insurance costs to the Company).

Mr A Foye was an active member of the Taylor & Francis Group Pension and Life Assurance Scheme throughout the year. This is a defined benefit scheme which provides for a pension on retirement of up to two thirds of final basic salary at the age of 63. Dependents are eligible for dependants' pension and the payment of a lump sum in the event of the member's death in service. Further details of the benefits accrued under the scheme are shown on page 33.

Performance Graph

The graph below shows the Company's performance, measured by total shareholder return, compared with the performance of the FTSE All Share Media Index, also measured by total shareholder return, in the five-year period ended 31 December 2005. The FTSE All Share Media Index has been selected for this comparison because the Company is a constituent company of that index.

Directors' Contracts

At 31 December 2005 and in accordance with the Company's policy, each of the Executive Directors had service contracts with an indefinite term under which 12 months' notice must be given by the Company or by the Director. In the event of early termination, each of the Executive Directors' contracts provide for compensation equal to basic salary, bonus, benefits allowance and retirement benefit for the notice period.

Each of the Non-Executive Directors has specific terms of appointment, terminable by three months' notice, but envisaged to be initially for three years.

The dates of the Directors' original contracts are shown in the table below, although the contracts have been amended from time to time by letter agreement as required to reflect changes to, for example, salary or fee levels. The contracts, which include details of remuneration, will be available for inspection at the Annual General Meeting.

Non-Executive Directors

The remuneration of the Non-Executive Directors is determined by the Board within the limits set by the Articles of Association. Fees are reviewed annually, including a comparison with the level of fees paid by other companies of similar size and complexity.

From 1 January to 9 March 2005 the basic fee payable to Non-Executive Directors was £35,000 per annum, increasing to £36,000 from 10 March 2005. Also from 10 March 2005, the date of his appointment as Non-Executive Chairman, the basic fee payable to Mr R Hooper was increased to £120,000 per annum.

During 2005 the Non-Executive Directors were also paid £2,000 per annum for the additional work performed by them as members of the Nomination, Remuneration and Audit Committees or £3,000 and £7,500 per annum, respectively, as chairmen of the Remuneration and Audit Committees.

Approval

This Report was approved by the Board of Directors and signed on its behalf by:

Dr Pamela Kirby
Chairman of the Remuneration Committee
13 March 2006

The Directors are responsible for preparing the Annual Report and the financial statements. The Directors have chosen to prepare accounts for the Group in accordance with International Financial Reporting Standards adopted by the European Commission (IFRS) and for the Company in accordance with United Kingdom Generally Accepted Accounting Practice.

In the case of UK GAAP accounts, the Directors are required to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- state whether applicable accounting standards have been followed.

In the case of IFRS accounts, International Accounting Standard 1 requires that financial statements present fairly for each financial year the Group's financial position, financial performance and cash flows. This requires the faithful representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's "Framework for the preparation and Presentation of Financial Statements". In virtually all circumstances, a fair presentation will be achieved by compliance with all applicable International Financial Reporting Standards. Directors are also required to:

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information; and
- provide additional disclosures when compliance with the specific requirements in International Financial Reporting Standards is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance.

The Directors are responsible for ensuring that the Company keeps proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company, for safeguarding the assets, for taking reasonable steps for the prevention and detection of fraud and other irregularities and for the preparation of a Directors' Report and Directors' Remuneration Report which comply with the requirements of the Companies Act 1985.

The Directors are responsible for the maintenance and integrity of the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements differs from legislation in other jurisdictions.

To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective Responsibilities of Directors and Auditors

The Directors' responsibilities for preparing the Group Annual Report, the Directors' Remuneration Report and the financial statements in accordance with applicable United Kingdom law and International Financial Reporting Standards (IFRS) as adopted for use in the European Union are set out in the Statement of Directors' Responsibilities.

Our responsibility is to audit the Group financial statements and the part of the Directors' Remuneration Report described as having been audited, in accordance with relevant United Kingdom legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view in accordance with the relevant financial reporting framework and whether the Group financial statements and the part of the Directors' Remuneration Report described as having been audited, have been properly prepared in accordance with the Companies Act 1985 and Article 4 of the IAS Regulation. We report to you if, in our opinion, the Directors' Report is not consistent with the Group financial statements. We also report to you if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' transactions with the Company and other members of the Group is not disclosed.

We also report to you if, in our opinion, the Company has not complied with any of the four directors' remuneration requirements specified for review by the Listing Rules of the Financial Services Authority. These comprise the amount of each element in the remuneration package and information on share options, details of long-term incentive schemes and money purchase and defined benefit schemes. We give a statement, to the extent possible, of details of any non-compliance.

We review whether the Corporate Governance statement reflects the Company's compliance with the nine provisions of the 2003 FRC Combined Code specified for our review by the Listing Rules of the Financial Services Authority, and we report if it does not. We are not required to consider whether the Board's statement on internal control covers all risks and controls, or form an opinion on the effectiveness of the Group's corporate governance procedures or its risk and control procedures.

We read the Directors' Report and the other information contained in the Annual Report for the above year as described in the contents section and we consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements.

Basis of Audit Opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion:

- the Group financial statements give a true and fair view, in accordance with IFRS as adopted for use in the European Union, of the state of the Group's affairs as at 31 December 2005 and of its profit for the year then ended; and
- the Group financial statements and the part of the Directors' Remuneration Report described as having been audited, have been properly prepared in accordance with the Companies Act 1985 and Article 4 of the IAS Regulation.

1 General Information

Informa plc is a company incorporated in the United Kingdom. The Company name was changed following a special resolution from T&F Informa plc on 18 August 2005. The address of the registered office is given on page 19. The nature of the Group's operations and its principal activities are set out in Note 7 and in the Directors' Report on pages 20 to 21.

These financial statements are presented in pounds sterling (GBP) because that is the currency of the primary economic environment in which the group operates. Foreign operations are included in accordance with the policies set out in note 3.

At the date of authorisation of these financial statements, the following standards and interpretations which have not been applied in these financial statements were in issue but have not yet come into effect:

IFRS 6 *Exploration for and Evaluation of Mineral Resources*

IFRS 7 *Financial Instruments: Disclosures*; and the related amendment to IAS 1 on capital disclosures

IFRIC 4 *Determining whether an Arrangement contains a Lease*

IFRS 5 *Right to Interests Arising from Decommissioning, Restoration and Environmental Rehabilitation Funds*

The Directors anticipate that the adoption of these standards and interpretations in future periods will have no material impact on the financial statements of the Group except for additional disclosures on capital and financial instruments when the relevant standards come into effect for periods commencing on or after 1 January 2007. The additional disclosures under IFRS 7 include stating the carrying amount of financial assets and liabilities under each of the classifications in IAS 39 "Financial Instruments: Recognition and Measurement"; an analysis of the age for financial assets that are either past due or impaired; a reconciliation of changes in carrying amounts during a period where impairment is recorded through an allowance account as opposed to a direct reduction to the carrying amount of the financial asset; and additional requirements on providing sensitivity analysis on market risks and how changes in these risks would have impacted profit or loss and equity in the period.

2 Basis of Preparation

On 1 January 2005, Informa plc adopted International Financial Reporting Standards ("IFRS"). Informa plc has elected to adopt the amendments to IAS 19 "Employee Benefits", issued in December 2004, in advance of their effective date of 1 January 2006 and is presenting actuarial gains and losses arising on defined benefit pension schemes in the Consolidated Statement of Recognised Income and Expense.

The comparative figures for the financial year ended 31 December 2004 have been restated from accounting principles generally accepted in the United Kingdom ("UK GAAP") to IFRS. Reconciliations between UK GAAP and IFRS equity as at 1 January 2004 and 31 December 2004 and a reconciliation of profit and loss for the year ended 31 December 2004 are included in Note 42. The IFRS 1 exemptions adopted by the Group along with the key impact analysis between UK GAAP and IFRS on the financial year ended 31 December 2004 are included within the Regulatory Announcement "REG-T&F Informa plc IFRS Statement" released on 13 June 2005.

The Group adopted IAS 32 "Financial Instruments: Presentation and Disclosure" and IAS 39 "Financial Instruments: Recognition and Measurement" on 1 January 2005. The impact on the opening balance sheet as shown in the Regulatory Announcement "REG-T&F Informa plc IFRS Statement" made on 13 June 2005 is set out in Note 4.

The Group believes that adjusted operating profit (Note 9) and adjusted earnings per share (Note 17) provide additional useful information on underlying trends to shareholders. These measures are used for internal performance analysis and incentive compensation arrangements for employees. The term adjusted is not a defined term under IFRS and may not therefore be comparable with similarly titled profit measurements reported by other companies. It is not intended to be a substitute for, or superior to IFRS measurements of profit. The principal adjustments made are in respect of:

- Restructuring costs – the costs incurred by the Group in reorganising and integrating businesses, notably in relation to acquisitions and closures, are classified as restructuring;
- Amortisation and impairment of acquired intangible fixed assets – the Group continues to amortise these intangible fixed assets and test for impairment of those assets but does not see these charges as integral to underlying trading;
- Non-trading items – for example gains and losses on disposal of fixed assets;
- Bank facility fees written off – capitalised facility fees are amortised over the loan periods but where syndicated loan facilities have been terminated early and new facilities undertaken on funding major acquisitions, the unamortised fees are immediately expensed. This accelerated expense is not viewed as being part of operating activities and is thus excluded from the adjusted results; and
- Discontinuing activities – where the Group is in the process of exiting a major geographical location or line of business, having announced the decision but still being in the process of winding down trade.

The Group's operations are split into three broad market sectors of Academic & Scientific, Professional, and Commercial. These divisions are further analysed in to more specific segments which bring together products in comparable market areas under common business heads. This is how the Group's operational management is structured and its results are reviewed and thus form the primary reporting segments (Note 7).

3 Accounting Policies

Basis of Accounting

The financial statements have been prepared in accordance with IFRS.

The financial statements have been prepared on the historical cost basis, except for the revaluation of certain properties and financial instruments. The principal accounting policies adopted are set out below. Refer to the reconciliations in Note 42, the Regulatory Announcement "REG-T&F Informa plc IFRS Statement" made on 13 June 2005 and the Interim Report released on 22 September 2005 for the impacts of the transition from UK GAAP to IFRS.

Basis of Consolidation

The consolidated financial statements incorporate the accounts of the Company and all of its subsidiaries and joint ventures. Control is achieved where the Company has the power to govern the financial and operating policies of an investee entity so as to obtain benefits from its activities. The results of subsidiaries acquired or sold are included in the consolidated financial statements from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the results of acquired subsidiaries to bring their accounting policies into line with those used by other members of the Group.

Minority interests in the net assets of consolidated subsidiaries are identified separately from the Group's equity and consist of the amount of those interests at the date of the original business combination plus their share of changes in equity since that date.

A joint venture is a contractual arrangement whereby the Group and other parties undertake an economic activity that is subject to joint control, which is when the strategic and operating policy decisions require the unanimous consent of the parties sharing control. The arrangements the Group has entered into involve the establishment of a separate entity in which each venturer has an interest. The Group reports its interests using proportionate consolidation and combines its share of the assets, liabilities, income and expense with the equivalent items in the consolidated financial statements on a line-by-line basis.

Revenue

Revenue is measured at the fair value of consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business, net of discounts, VAT and other sales-related taxes, and provisions for returns and cancellations.

Subscription income is deferred and recognised over the term of the subscription. Conference income is deferred and recognised when the conference is held. Income from managed events represents fees earned and is recognised when the event is held. Consulting and training revenues are recognised as services are delivered. Where consultancy services are provided over a period of time, revenue is recognised using the stage of completion method when the outcome of the contract can be measured reliably. The stage to completion is determined with regard to key milestones in the contract being attained and the percentage of services performed under the contract as a percentage of the total services to be performed. Royalties revenue is recognised as the franchisee recognises their revenue.

Interest Income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Dividend Income

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established.

Business Combinations

The acquisition of subsidiaries is accounted for using the purchase method. The cost of acquisition is measured at the aggregate of fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree, plus any costs directly attributable to the business combination. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 are recognised at their fair value at the acquisition date, except for non-current assets (or disposal groups) that are classified as held for resale in accordance with IFRS 5 "Non-Current Assets Held for Sale and Discontinued Operations", which are recognised and measured at fair value less costs to sell.

Goodwill

Goodwill arising on the acquisition of subsidiary companies and businesses is calculated as the excess of purchase consideration over the fair value of net identifiable assets and liabilities at the date of acquisition. It is recognised as an asset at cost, assessed for impairment at least annually and subsequently measured at cost less accumulated impairment losses. Any impairment is recognised immediately in the Income Statement and is not subsequently reversed.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the combination. Goodwill is tested for impairment annually or more frequently when there is an indication that it may be impaired. Where an impairment test is performed a discounted cash flow analysis is carried out based on the cash flows of the cash-generating unit compared with the carrying value of that goodwill. Management estimate the discount rates as the risk affected cost of capital for the particular cash-generating units. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata on the basis of the carrying amount of each asset in the unit.

Upon disposal the attributable carrying value of goodwill is included in the calculation of the profit or loss on disposal.

3 Accounting Policies continued

Intangible Assets

Intangible assets are initially measured at cost. For business combinations, cost is calculated based on the Group's valuation methodology, using discounted cash flows. These assets are amortised over their estimated useful lives on a straight-line basis, which are as follows:

Book lists	20 years
Journal titles	20 to 40 years
Database content and intellectual property	Four to ten years
Large scale events and exhibitions	Eight to ten years

Software which is not integral to a related item of hardware is included in intangible assets. Capitalised internal-use software costs include external direct costs of materials and services consumed in developing or obtaining the software, and payroll and payroll-related costs for employees who are directly associated with, and who devote substantial time to, the project. Capitalisation of these costs ceases no later than the point at which the project is substantially complete and ready for its internal purpose. These costs are amortised over their expected useful lives which are deemed to be three to five years.

The expected useful lives of intangible assets are reviewed annually.

Property and Equipment

Property and equipment is recorded at cost less accumulated depreciation and provision for impairment. Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets on a straight-line basis over the estimated useful lives of the assets. The rates of depreciation are as follows:

Freehold property	50 years
Leasehold properties and improvements	Over life of the lease
Equipment, fixtures and fittings	Three to 15 years

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in the Income Statement.

Available For Sale Investments

Available for sale investments are held at fair value where movements are taken through equity.

Non-Current Assets Classified as Held For Sale

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of carrying value and fair value less costs to sell.

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Inventory

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and expenses incurred in bringing the inventory to its present location and condition. Net realisable value represents the estimated selling price less marketing and distribution costs expected to be incurred.

Foreign Currencies

Transactions in currencies other than the entity's functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the Balance Sheet date are retranslated at the rates ruling at that date. These translation differences are disclosed in the Income Statement.

Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in the Income Statement for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity. For such non-monetary items, any exchange component of that gain or loss is also recognised directly in equity.

In order to hedge its exposure to certain foreign exchange risks, the Group enters into forward contracts and options (see below for details of the Group's accounting policies in respect of such derivative financial instruments).

The balance sheets of foreign subsidiaries are translated into pounds sterling at the closing rates of exchange. The results are translated at an average rate, recalculated for each month between that month's closing rate and the equivalent for the preceding month.

Foreign exchange differences arising from the translation of opening net investments in foreign subsidiaries at the closing rate are taken directly to the hedging and translation reserve. In addition, foreign exchange differences arising from retranslation of the foreign subsidiaries' results from average rate to closing rate are also taken directly to the Group's hedging and translation reserve. Such translation differences are recognised in the Income Statement in the financial year in which the operations are

3 Accounting Policies continued

disposed of. The translation movement on matched long-term foreign currency borrowings, qualifying as hedged under IAS 39, are also taken directly to the hedging and translation reserve.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases and hire purchase contracts are capitalised at their fair value on the inception of the lease and depreciated over the shorter of the period of the lease and the estimated useful economic lives of the assets. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation. Finance charges are allocated over the period of the lease in proportion to the capital amount outstanding and are charged to the Income Statement.

Operating lease rentals are charged to the Income Statement in equal annual amounts over the lease term.

Rental income from sub-leasing property space is recognised on a straight-line basis over the term of the relevant lease and is matched with the corresponding payments made under the head lease.

Taxation

The tax expense represents the sum of current tax and deferred tax.

Current tax is based on taxable profit for the year. Taxable profit differs from net profit as reported in the Income Statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the Balance Sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax nor accounting profit.

Deferred tax is calculated for all business combinations from the transition date of 31 March 2004 in respect of intangible assets and properties. A deferred tax liability is recognised to the extent that the fair value of the assets for accounting purposes exceeds the value of those assets for tax purposes and will form part of the associated goodwill on acquisition.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, including interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the Income Statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Pension Costs

Certain Group companies operate defined contribution pension schemes for employees. The assets of the schemes are held separately from the individual companies. The pension cost charges associated with these schemes represent contributions payable and are charged as an expense when they fall due.

The Group also operates funded defined benefit schemes for employees. The cost of providing these benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each Balance Sheet date. Past service cost is recognised immediately to the extent the benefits are vested, and otherwise are amortised on a straight-line basis over the average period until the benefits become vested. The current service cost and the recognised element of any past service cost are presented within operating profit. The interest cost arising on the pension liability less the interest return on the plan assets is presented within finance costs. Actuarial gains and losses are recognised in full in the period in which they occur, outside of the Income Statement and in the Statement of Recognised Income and Expense. The expected return on plan assets reflects the estimate made by management of the long-term yields that will arise from the specific assets held within the pension plan.

The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost and the fair value of any relevant scheme assets.

3 Accounting Policies continued

Share Based Payments

The Group has applied the requirements of IFRS 2 "Share based Payment". In accordance with transitional provisions, IFRS 2 has been applied to all grants of equity instruments after 7 November 2002 that were unvested at 1 January 2005.

The Group issues equity settled share based payments to certain employees. A fair value for the equity settled share awards is measured at the date of grant. The fair value of the share options and Long-Term Incentive Plan is measured using the Binomial model of valuation, which is considered to be the most appropriate valuation technique. The valuation takes into account factors such as non-transferability, exercise restrictions and behavioural considerations. To assign a fair value to share awards granted under the Share Matching Plan where the proportion of the award released is dependent on the level of total shareholder return the Monte Carlo Simulation methodology is considered the most appropriate.

An expense is recognised to spread the fair value of each award over the vesting period on a straight-line basis, after allowing for an estimate of the share awards that will actually vest. The estimate of vesting is reviewed annually, with any impact on the cumulative charge being recognised immediately.

Financial Instruments

Financial assets and financial liabilities are recognised on the Group's Balance Sheet when the Group becomes a party to the contractual provisions of the instrument.

Trade Receivables

Trade receivables are measured at initial recognition at fair value, and are subsequently measured at amortised cost using the effective interest rate method. Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

Investments

Investments are recognised and derecognised on a trade date where a purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at cost, including transaction costs.

Investments are classified as either held for trading or available for sale, and are measured at subsequent reporting dates at fair value. Fair values are based on market values for listed investments and discounted future cash flows for non-listed investments. Where securities are held for trading purposes, gains or losses arising from changes in fair value are included in the Income Statement for the period. For available for sale investments, gains or losses arising from changes in fair value are recognised directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognised in equity is included in the Income Statement for the period. Impairment losses recognised in the Income Statement for equity investments classified as available for sale are not subsequently reversed through the Income Statement. Impairment losses recognised in the Income Statement for debt instruments classified as available for sale are subsequently reversed if an increase in the fair value of the instrument can be objectively related to an event occurring after the recognition of the impairment loss.

Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible (with a maturity of three months or less) to a known amount of cash and are subject to an insignificant risk of changes in value.

Financial Liabilities and Equity

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Bank Borrowings

Interest bearing bank loans and overdrafts are recorded at the proceeds received, net of direct issue costs. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are accounted for on an accruals basis in the Income Statement using the effective interest rate method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

Trade Payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Equity Instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

3 Accounting Policies continued

Derivative Financial Instruments and Hedge Accounting

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The derivative instruments utilised by the Group to hedge these exposures are interest rate swaps, cross currency swaps and spot and forward foreign exchange contracts. The Group does not use derivative contracts for speculative purposes.

The Board sets the Group's treasury policy to ensure that it has adequate financial resources to develop the Group's businesses and to manage the currency and interest risks to which the Group is exposed. All external hedging is performed by the Group Treasury Function. Group Treasury acts as a service centre operating under the clearly defined regulation of the Board. The Group monitors the distribution of its cash assets, borrowings and facilities so as to control exposure to the relative performance of any particular territory, currency or institution.

Changes in the fair value of derivative financial instruments that are designated and effective as hedges of future cash flows are recognised directly in equity and the ineffective portion is recognised immediately in the Income Statement. If the cash flow hedge of a firm commitment or forecasted transaction results in the recognition of an asset or a liability, then, at the time the asset or liability is recognised, the associated gains or losses on the derivative that had previously been recognised in equity are included in the initial measurement of the asset or liability. For hedges that do not result in the recognition of an asset or a liability, amounts deferred in equity are recognised in the Income Statement in the same period in which the hedged item affects net profit or loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Income Statement as they arise.

Amounts payable or receivable in respect of interest rate swaps are recognised as adjustments to interest expense over the period of the contracts.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognised in equity is retained in equity until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to the Income Statement for the period.

Finance Costs

Finance costs of debts are capitalised against the debt value on first drawdown of the debt and are recognised in the Income Statement at a constant rate over the life of the debt.

ESOP Trust Shares

Own shares deducted in arriving at shareholders' funds represent the cost of the Company's ordinary shares acquired by the Employee Share Option Plan (ESOP) trusts in connection with certain of the Group's employee share schemes.

Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, and it is probable that the Group will be required to settle that obligation. Provisions are measured at the Directors' best estimate of the expenditure required to settle the obligation at the Balance Sheet date, and are discounted to present value where the effect is material.

Restructuring provisions are recognised when the Group has a detailed formal plan for the restructuring that has been communicated to the affected parties.

4 IAS 32 and IAS 39

The Group adopted IAS 32 "Financial Instruments: Presentation and Disclosure" and IAS 39 "Financial Instruments: Recognition and Measurement" from 1 January 2005. In the preparation of its financial statements in accordance with IFRS for the year ended 31 December 2004, the Group continued to apply the hedge accounting rules of UK GAAP, taking advantage of the exemption available within IFRS 1 "First-Time Adoption of IFRS".

The Group is required to recognise transitional adjustments in accounting for its financial instruments in accordance with the measurement requirements of IAS 39 at 1 January 2005. The financial impact of the adoption is detailed in the Statement of Recognised Income and Expense.

IFRS 1 requires the Group to recognise various transitional adjustments to account for those hedging relationships at 1 January 2005. The accounting for those hedging relationships at transition depends on the nature of the hedged item and the hedged risk.

The Group's interest rate swaps and forward exchange contracts and similar instruments that were fair value hedges of interest and foreign exchange risk on borrowings under UK GAAP were not previously accounted for on the Balance Sheet at their full fair value. In these cases, the difference between the derivative's fair value and its previously reported carrying value has been recognised directly in opening equity (hedging and translation reserve). This has the effect of increasing trade and other receivables (prepayments) by £1,503,000 and increasing trade and other payables (accruals) by £2,451,000. Future adjustments to hedged borrowings will be recognised in earnings on an amortised basis.

4 IAS 32 and IAS 39 continued

All derivative instruments will continue to be recognised on the Balance Sheet at fair value with future gains and losses being recognised immediately in earnings, except when the cash flow hedging requirements of IAS 39 are met, in which case the effective portion of gains and losses are deferred in equity and are recycled through the Income Statement at the time the hedged item affects the Income Statement.

In accordance with IAS 39 the Group has increased trade and other payables (accruals) by £5,000,000 to provide for sales ledger credits which are potentially repayable under local country legislation and relevant statutes.

5 Key Sources of Estimation Uncertainty

Key Sources of Estimation Uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Valuation of Share Based Payments

In order to determine the value of share based payments, management are required to make an estimation of the effects of non-transferability, exercise restrictions, and behavioural considerations. The expected volatility is determined by calculating the historical volatility of the Group's share price calculated over one, two and three years back from the date of grant. The list of inputs used in the Binomial and Monte Carlo Simulation models to calculate the fair values are provided in Note 40.

Valuation of Financial Instruments at Fair Value

Management has made a number of assumptions with regards to the models used to value financial instruments at their fair value at year end. Note 27(c) details the methods used to value the primary financial instruments held or issued to finance the Group's borrowing requirements and the derivative financial instruments held to manage the interest rate profile.

Impairment of Goodwill and Other Intangible Assets

There are a number of assumptions management have considered in performing impairment reviews of goodwill and intangible assets. Note 18 details the assumptions that have been applied.

Pension Assumptions

There are a number of assumptions management have considered by use of actuaries which have an impact on the results of the valuation of the pension scheme liabilities at year end. The most significant assumptions are those relating to the rate of return on investments and the rates of increase in salaries and pensions. Note 39 details the assumptions which have been applied.

Vacant Property Provision

The Group has assumed that vacant properties will not be sub-let and has provided in full to the end of the relevant leases (Note 31).

8 Restructuring Costs

The acquisitions of IIR Holdings Limited in July 2005 and Taylor & Francis Group plc in May 2004 led to the re-organisation of the Group, particularly in relation to the merging of back office functions. To the extent that employees could not be redeployed, termination terms were agreed. In 2005, there were also costs associated with Board-level changes and £1,008,000 of vacant property costs which relate to a dormant overseas subsidiary and additional provisions in respect of the 2004 US book reorganisation.

	2005 £'000	2004 £'000
Board level changes	1,200	-
Acquisition and integration	6,069	9,285
Vacant property	1,008	-

In the year ended 31 December 2005, acquisition and integration costs comprise reorganisation costs of £3,436,000, redundancies of £2,126,000 and vacant property provisions of £507,000. These items are included in the other expenses line on the Income Statement except for redundancies which are included in employee benefit expense. Board level changes costs are also included within employee benefit expense. Restructuring and re-organisation costs of £9,285,000 in the year ended 31 December 2004 consist of costs of re-organising book publications operations in the UK and US of £4,200,000, redundancy costs of £3,657,000, property move costs of £762,000 and other reorganisation costs of £666,000.

On the transfer of the trade and assets of PJB Publications Limited to T&F Informa UK Limited on 1 September 2004, a deferred tax asset of £35,386,000 was recognised, with a resultant credit to the Income Statement. While management still believe the asset to be recoverable this cannot be said to be certain. The balance of £35,224,000 has therefore been charged to the Income Statement during the year.

Of the charge to current tax, approximately £8,000 (2004: £nil) related to discontinued operations arising in the Regional Events division, which was disposed of during the year. No tax charge or credit arose on the disposal of the relevant subsidiary.

In addition to the income tax expense charged to the Income Statement, a tax credit of £3,752,000, of which £3,808,000 relates to current tax and £(55,000) relates to deferred tax (Note 25) (2004: £nil) has been recognised in equity during the year.

14 Discontinued Operations

On 17 June 2005, the Group made the decision to close the operations of Euroforum France E.U.R.L. which carried out all of the Group's French operations. The disposal was effected due to business performance.

17 Earnings Per Share

Basic

The basic earnings per share calculation is based on a profit attributable to equity shareholders of the parent of £8,825,000 (2004 profit: £69,862,000). This profit on ordinary activities after taxation is divided by the weighted average number of shares in issue (less those non-vested shares held by employee share ownership trusts) which is 388,230,732 (2004: 274,319,229*).

Diluted

The diluted earnings per share calculation is based on the basic earnings per share calculation above except that the weighted average number of shares includes all potentially dilutive options granted by the Balance Sheet date as if those options had been exercised on the first day of the accounting period or the date of the grant, if later, giving a weighted average of 390,003,685 (2004: 276,104,452). In 2004, in accordance with IAS 33 the weighted average number of shares includes the estimated maximum number of shares payable to the vendors of Routledge Publishing Holdings Limited. This liability was settled in cash during 2005.

The table below sets out the adjustment in respect of dilutive potential ordinary shares:

	2005	2004*
Weighted average number of shares used in basic earnings per share calculation	388,230,732	274,319,229
Effect of dilutive share options	1,772,953	1,449,594
Shares potentially to be issued or allotted	–	335,629
Weighted average number of shares used in diluted earnings per share calculation	390,003,685	276,104,452

*The weighted average number of shares at 31 December 2004 has been adjusted for the effects of the Rights Issue at 25 July 2005.

Adjusted Earnings Per Share

The basic and diluted adjusted earnings per share calculations have been made to allow shareholders to gain a further understanding of the trading performance of the Group. It is based on the basic and diluted earnings per share calculations above except that profits are based on continuing operations only, before minority interests, and are adjusted for items that are not perceived by management to be part of the underlying trends in the business (Note 2) and the tax effect of those adjusting items as follows:

	2005 £'000	2004 £'000
Profit for the financial year from continuing operations	10,767	69,836

Goodwill acquired in a business combination is allocated, at acquisition, to the cash-generating units (CGUs) that are expected to benefit from that business combination. The CGUs are consistent with the segments as identified in Note 7. The carrying amount of goodwill had been allocated as follows:

	2005 £'000	2004 £'000
Academic & Scientific division		
Scientific, Technical & Medical	398,571	340,337

Consolidated total	1,123,418	603,023

The Group tests goodwill annually for impairment or more frequently if there are indications that goodwill might be impaired. The recoverable amounts of the cash-generating units are determined from value in use calculations. The key assumptions for the value in use calculations are those regarding the discount rates and growth rates for the period. Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the cash-generating units. The growth rates are based on industry growth forecasts and long-term growth in gross domestic product.

The Group prepares cash flow forecasts derived from the most recent financial budgets approved by management for the next year and extrapolates cash flows for the following five years based on estimated growth rates of between 3% and 6% and a further 15 years based on estimated long growth in gross domestic product of 2.5%. The rates do not exceed the average long-term growth rate for the relevant markets. The rates used to discount the cash flows for all cash-generating units are between 7% and 10%.

*At 31 December 2004, specific goodwill balances were identified as being impaired at a charge of £15,000,000 based on future projected cash flows. At 31 December 2004 and 31 December 2005, the carrying amounts of goodwill for cash-generating units were impairment tested and deemed not to be impaired. These were calculated based on future projected cash flows discounted at a rate of between 7% and 10% (2004: 7% and 10%), which represented the Group's weighted average cost of capital plus a premium for risk. The weighted average cost of capital for the Group at 31 December 2005 was estimated as 7.58% (2004: 7.85%).

The investments comprise holdings in both listed equity securities and non-listed equity securities that present the Group with the opportunity for return through dividend and trading gains. They have no fixed maturity or coupon rate. The fair values of listed securities are based on quoted market prices.

In February 2006, the Group disposed of its shares in Expomedia Group plc at cost (Note 41).

24 Trade and Other Receivables

	2005 £'000	2004 £'000
Trade receivables	144,209	69,515

The average credit period taken on sales of goods is 30 days. An allowance has been made for estimated irrecoverable amounts from the sale of goods of £13,563,000 (2004: £8,716,000). This allowance has been determined by references to past default experience. The Directors consider that the carrying amount of trade and other receivables approximates to their fair value.

Credit Risk

The Group's principal financial assets are cash and cash equivalents, trade and other receivables, prepayments and accrued income, derivative financial instruments and investments, which represent the Group's maximum exposure to credit risk in relation to financial assets.

The Group's credit risk is primarily attributable to its trade and other receivables, and prepayments and accrued income. The amounts presented in the balance sheet are net of allowances for doubtful receivables, estimated by the Group's management based on prior experience and their assessment of the current economic environment.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

The Group has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers. The maximum exposure to credit risk is represented by the carrying amount of each financial asset, including derivative financial instruments, in the balance sheet.

Certain deferred tax assets and liabilities have been offset in accordance with the Group's accounting policy. The following is the analysis of the deferred tax balances (after offset) for balance sheet purposes:

	2005 £'000	2004 £'000
Deferred tax liability	240,431	101,901

	227,325	61,803

At 31 December 2005, the Group has unused tax losses of £8,856,000 (2004: £nil) available for offset against future profits. A deferred tax asset of £3,720,000 (2004: £nil) has been recognised in respect of these losses.

On the combination of Informa Group plc and Taylor & Francis Group plc on 10 May 2004 a deferred tax liability of £101,901,000 in respect of intangible and other assets, excluding goodwill, was recognised with a corresponding increase in goodwill. During 2005, a further deferred tax liability of £146,500,000 was recognised in respect of the acquisitions of IIR Holdings Limited (£143,370,000) and Ashley Publications Limited (£3,130,000).

At the Balance Sheet date, the aggregate amount of post-acquisition undistributed earnings for which deferred tax liabilities have not been recognised was £161,894,000. No liability has been recognised in respect of these differences because the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

Temporary differences arising in connection with interests in associates and joint ventures are insignificant.

27 Financial Instruments

The Group's activities expose it mainly to the financial risks of changes in foreign currency exchange rates and changes in interest rates. The Group's policy is to hedge these exposures as explained further below using primarily interest rate swaps, cross currency swaps and spot and forward foreign exchange contracts.

Treasury Policy

The Board sets the Group's treasury policy to ensure that it has adequate financial resources to develop the Group's businesses and to manage the currency and interest risks to which the Group is exposed. The Group mainly uses foreign exchange forward and spot contracts and interest rate swap contracts to hedge these exposures. All external hedging is performed by the Group Treasury Function. The Group does not use derivative financial instruments for speculative purposes. Where a derivative (in whole or in part) cannot be designated in an effective hedge relationship any gain or loss arising on the undesignated portion of the derivative is immediately recognised in the Income Statement. Those derivative financial instruments (or portions thereof) that are not designated in a hedge relationship are classified as held for trading. Group Treasury acts as a service centre operating under the clearly defined regulation of the Board. The Group monitors the distribution of its cash assets, borrowings and facilities so as to control exposure to the relative performance of any particular territory, currency or institution.

Funding and Cash Management

The Group primarily borrows at short-term variable rates under its multi-currency loan facilities. These borrowings are guaranteed on the results of certain subsidiary companies. In connection with the acquisition of IIR, in May 2005 the Group arranged for a new five year loan agreement, becoming effective upon the acquisition of IIR in July 2005 and comprising three facilities:

- A – Term loans of GBP 250 million and USD 500 million;
- B – Multi-currency revolving facilities of GBP 400 million; and
- C – Equity bridge facility of GBP 300 million.

The previously existing loan facility was cancelled at the same time. Facility C was repaid and cancelled in July 2005 following the Rights Issue. In 2001, the Group raised USD 50 million on the US private placement market. The 7.35% Guaranteed Senior Unsecured Notes in respect of the Private Placement are due in seven equal annual instalments from August 2005 to August 2011.

Operationally, cash pooling arrangements have been organised in GBP, EUR, USD to minimise interest payable on net overdrafts and/or maximise interest receivable on net surplus balances.

Cash Flows

Historically and for the foreseeable future the Group has been and is expected to continue to be in a net borrowing position. The Group's policy is to fulfil its borrowing requirements by borrowing in the currencies in which it operates, principally GBP, USD and EUR; thereby providing a natural hedge against projected future surplus USD and EUR cash inflows as well as spreading the Group's interest rate profile across a number of currencies. In addition, GBP denominated borrowings serve to reduce the exposure of the debt to EBITDA banking covenant to movements in exchange rates in respect of currency denominated debt. Therefore the Group seeks to maintain GBP denominated borrowings in the range of 25% to 50% of total borrowings, including where necessary, the selling of USD and EUR for GBP on a regular basis.

In addition, if a significant foreign currency denominated future transaction or cash flow is projected, then the Group may utilise forward foreign exchange contracts to help hedge the associated risk.

Foreign Currency Risk

Allied to the Group's above policy on the hedging of surplus foreign currency cash inflows, the Group will usually seek to finance its net investment in its principal overseas subsidiaries by borrowing in those subsidiaries' functional currencies, primarily EUR and USD. This policy has the effect of protecting the Group's consolidated balance sheet from movements in those currencies to the extent that the associated net assets exceed the net foreign currency borrowings.

Interest Rate Risk

The Group seeks to minimise its exposure to fluctuations in interest rates by using interest rate swaps as cash flow hedges to hedge up to 90% of forecast interest payments over a period of up to five years, based on forecast net debt levels by currency during that period. This policy provides a level of certainty of future interest costs by swapping floating to fixed interest payments which in turn assists the predictability of achieving interest based loan covenants.

27 (c) Fair Values of Financial Assets and Liabilities

The fair value is defined as the amount at which a financial instrument could be exchanged in an arm's length transaction between informed and willing parties and is calculated by reference to market rates discounted to current value. The fair value of these financial instruments was:

Primary Financial Instruments Held or Issued to Finance the Group's Operations

	2005 Book value £'000	2005 Estimated fair value £'000	2004 Book value £'000	2004 Estimated fair value £'000

The fair value of the other financial assets is calculated based on the quoted market price where applicable, excluding any transaction costs.

39 Retirement Benefit Schemes

As explained in the accounting policies set out in Note 3, in the UK the Group operates three defined benefit pension schemes, the Informa Final Salary Scheme, the Taylor & Francis Group Pension and Life Assurance Scheme and the Achieve Learning (UK) Pension and Benefits Scheme for all qualifying UK employees providing benefits based on final pensionable pay (the "Scheme"). The assets of the schemes are held in separate trustee administered funds. Contributions to the schemes are charged to the profit and loss account so as to spread the cost of contributions over employees' working lives with the Group. Contributions are determined by a qualified actuary on the basis of triennial valuations using the attained age method to reflect the fact that the schemes are closed to new entrants.

The most recent actuarial valuation of the Informa Final Salary Scheme was at 31 December 2005. Employees who are members contribute 10% of pensionable pay; the Group's contribution over the year was 18.9% of pensionable pay. The market value of the scheme's assets as at 31 December 2005 was £34,452,000, which represented 75% of the benefits that had accrued to members, after allowing for expected future increases in earnings.

The assumptions which have the most significant effect on the results of the valuation are those relating to the rate of return on investments and the rates of increase in salaries and pensions. The assumptions adopted are:

	2005	2004
Rate of return on investments after retirement	4.8% p.a.	5.5% p.a.
Rate of return on investments before retirement	4.8% p.a.	6.5% p.a.
Rate of increase in pensions in payment	3.0% p.a.	2.7% p.a.
Rate of increase in salaries	4.5% p.a.	4.2% p.a.

The most recent actuarial valuation of the Taylor & Francis Group Pension and Life Assurance Scheme was at 31 December 2005. Employees who are members contribute 3% of pensionable pay; the Group's contribution over the year was 33.6% of pensionable pay. The market value of the scheme's assets as at 31 December 2005 was £10,273,000, which represented 67% of the benefits that had accrued to members, after allowing for expected future increases in earnings.

The assumptions which have the most significant effect on the results of the valuation are those relating to the rate of return on investments and the rates of increase in salaries and pensions. The assumptions adopted are:

	2005	2004
Rate of return on investments	4.8% p.a.	9.0% p.a.
Rate of increase in pensions in payment	3.0% p.a.	4.5% p.a.
Rate of increase in salaries	4.5% p.a.	6.5% p.a.

As part of the acquisition of IIR Holdings Limited, the Group acquired the Achieve Learning (UK) Pension & Benefits Scheme. The most recent actuarial valuation of the scheme was at 31 December 2005. The scheme was closed to future accrual of pensions at the time of the acquisition of IIR Holdings limited. The market value of the scheme's assets as at 31 December 2005 was £4,262,000, which represented 80% of the benefits that had accrued to members, after allowing for expected future increases in earnings.

The assumptions which have the most significant effect on the results of the valuation are those relating to the rate of return on investments and the rates of increase in salaries and pensions. The assumptions adopted are:

	2005	2004
Expected long-term rate of return on scheme assets	6.2%	—
Rate of increase in pensions in payment	3.0%	—
Rate of increase in salaries	N/A	—

The pension charge for the schemes in the income statement for the year was £2,052,000 (2004: £2,346,000), of which £1,360,000 (2004: £1,400,000) was charged to operating profit.

The Group also operates defined contribution schemes. Contributions charged to the income statement during the year were £3,622,000 (2004: £2,637,000), all of which (2004: all) was charged to operating profit.

40 Share-Based Payments

The Group Share Options, Share Matching and Long-Term Incentive Plans provide for a grant price equal to the average quoted market price of the Group shares on the date of grant. The vesting period is generally three years. The options expire if they remain unexercised after the exercise period has lapsed. Furthermore, options are forfeited if the employee leaves the Group before the options vest. The options are equity settled.

² On acquisition of IIR Holdings Limited on 6 July 2005, share options were adjusted for a two for five Rights Issue.

The weighted average share price at the date of exercise for share options exercised during the year was 285.66p. The options outstanding at 31 December 2005 had a weighted average remaining contractual life of 4.34 years (2004: 3.76 years) ranging from 9.77p to 736.61p (Note 28).

Expected volatility was determined by calculating the historical volatility of the Group's share price over one, two and three years back from the date of grant. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

The Group recognised total expenses of £1,834,000 and £2,559,000 related to equity-settled share-based payment transactions in 2005 and 2004 respectively.

A complete listing of all options outstanding as at 31 December 2005 is included in Note 28.

42 Explanation of Transition to IFRS

This is the first year that the Company has presented its financial statements under IFRS. The last financial statements under UK GAAP were for the year ended 31 December 2004 and the date of transition to IFRS was therefore 1 January 2004. For further detail on the transition to IFRS refer to the regulatory announcement "REG – T&F Informa plc IFRS Statement" released on 13 June 2005, which is available on the Group's website.

Notes on significant items:

- Under former UK GAAP the business combination of Informa Group plc and Taylor & Francis Group plc was accounted for using merger accounting. In accordance with IFRS, the purchase accounting method has been used, meaning that the results of Taylor & Francis pre-merger have been eliminated. This reduces revenue by £54,821,000, operating profit by £3,660,000, profit before tax by £1,506,000 and tax is increased by £1,528,000. In addition, certain costs, treated as merger costs under UK GAAP, have been reclassified as costs of acquisition and added to goodwill in the balance sheet, resulting in a £15,703,000 reduction in costs for the year ending 31 December 2004. This increased profit before tax in total by £14,197,000.
- Under IFRS the Group's share of the result of its joint ventures is not disclosed separately on the face of the income statement and its share of revenue is included in Group revenue.
- IAS 38 "Intangible Assets" states that deferred promotional costs, which had previously been capitalised as inventory, must be written off as incurred. An amount of £4,000,000 was written off from the opening balance sheet at 1 January 2004. A further, £961,000 was written off in the year ending 31 December 2004 from both the Income Statement and Balance Sheet.
- Under former UK GAAP, there was no requirement for an expense to be recognised in the financial statements in relation to equity instruments granted, based on their "fair value" at the date of grant. In accordance with IFRS 2 "Share-Based Payments", this expense, which is primarily in relation to employee option and performance share schemes, is then recognised over the vesting period of the relevant scheme. The charge to the income statement for the year ending 31 December 2004 is £2,560,000.
- The Group has elected to adopt early the amendment to IAS 19, "Employee Benefits" issued by the IASB on 16 December 2004 which allows for all actuarial gains and losses to be charged or credited to equity. The incremental net charge on the Group's income statement is £826,000 for the year ending 31 December 2004. The transitional adjustment of £13,894,000 to opening reserves comprises the reversal of entries in relation to UK GAAP less the recognition of the net liabilities of the Group's and associated undertakings' defined benefit schemes. The adjustment to the 31 December 2004 Balance Sheet is a further £3,762,000.
- IAS 38 states that goodwill should not be amortised, but instead subjected to an annual impairment review. The goodwill amortisation charge previously calculated under UK GAAP has been credited to the profit and loss account. However, IAS 38 does require the Group to amortise intangible fixed assets over their estimated useful lives. Further, computer software is considered an intangible asset and therefore the resulting reduction in value of this asset is taken through the amortisation line in the Income Statement. The resultant net credit to the Group's Income Statement is £20,156,000 for the year ending 31 December 2004, which comprises a reduction of £8,534,000 in intangible fixed assets, an increase of £29,529,000 in goodwill, and the software amortisation amount of £839,000.
- On the transfer of the trade and assets of PJB Publications Limited to T&F Informa UK Limited on 1 September 2004, a deferred tax asset of £35,386,000 has been recognised with a resultant credit to the Income Statement. The balance of £3,739,000 is the attributable taxation effect of the above adjustments.

Notes on significant items:

- 8 Under IAS "Intangible Fixed Assets", only computer software that is integral to a related item of hardware can be included as property and equipment. Accordingly, £6,752,000 of computer software has been reclassified from property and equipment to other intangible assets. As at 31 December 2004 this amount is £5,931,000.
- 9 Under IAS 10 "Events After Balance Sheet Date", dividends to shareholders declared after the balance date but before the financial statements are authorised for issue are not recognised as a liability at the balance sheet date but disclosed separately in the notes. Under former UK GAAP such dividends were previously recognised as a liability. The change results in an increase in equity of £8,389,000 at 31 December 2004 (£7,480,000 as of 1 January 2004).
- 10 Previously, under former UK GAAP the Group did not recognise a provision for holiday pay, as required under IAS 19 "Employee Benefits". The Group has recognised a liability of £468,000 in the opening balance sheet.
- 11 Previously deferred costs of £1,066,000 have been written off to align accounting policies as a result of the business combination between Informa Group plc and Taylor & Francis Group plc.
- 12 Note that the 2004 Financial Statements had opening balances restated on the adoption of UTTF 38 "Accounting for ESOP Trusts", with the cost of shares now shown as a reduction to shareholders' funds (of £3,641,000). This adjustment is consistent with IFRS presentation.

42 Explanation of Transition to IFRS continued

Explanation of Material Adjustments to the Cash Flow Statement for 2004

The major impact on the Cash Flow Statement for 2004 relates to the business combination of Informa Group plc and Taylor & Francis Group plc. As noted previously, under IFRS the acquisition method has been used, rather than merger accounting. This has not resulted in a change to the net cash position of the Company, but has impacted the way cash flow items have been disclosed. The impact was a decrease in cash from operating activities by £20,692,000 to £67,492,000. This also impacts the acquisition of subsidiaries and movements on financing amounts.

We have audited the individual Company financial statements (the "financial statements") of Informa plc ("the Company") for the year ended 31 December 2005 which comprise the Balance Sheet and the related Notes 1 to 17. These financial statements have been prepared under the accounting policies set out therein.

The Corporate Governance Statement and the Directors' Remuneration Report are included in the Group Annual Report of Informa plc for the year ended 31 December 2005.

We have reported separately on the Group financial statements of Informa plc for the year ended 31 December 2005 and on the information in the Directors' Remuneration Report that is described as having been audited.

This report is made solely to the Company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective Responsibilities of Directors and Auditors

The Directors' responsibilities for preparing the annual report and the individual Company financial statements in accordance with applicable law and United Kingdom Generally Accepted Accounting Practice are set out in the Statement of Directors' Responsibilities.

Our responsibility is to audit the financial statements in accordance with relevant United Kingdom legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view in accordance with the relevant financial reporting framework and whether the financial statements have been properly prepared in accordance with the Companies Act 1985. We report to you if, in our opinion, the Directors' Report is not consistent with the financial statements. We also report to you if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and transactions with the Company is not disclosed.

We read the Directors' Report and the other information contained in the Annual Report for the above year and described in the contents section and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion:

- the financial statements give a true and fair view, in accordance with United Kingdom Generally Accepted Accounting Practice, of the state of the Company's affairs as at 31 December 2005; and
- the financial statements have been properly prepared in accordance with the Companies Act 1985.

1 Accounting Policies

Basis of Accounting

The separate financial statements of the Company are presented as required by the Companies Act 1985. They have been prepared under the historical cost convention and in accordance with applicable United Kingdom Accounting Standards and law.

The Directors' Report, Corporate Governance Statement and Directors' Remuneration Report disclosures are included in the Group Annual Report of Informa plc.

The principal accounting policies are summarised below. They have all been applied consistently throughout the year and the preceding year, with the exception of the implementation of FRS 20 "Share-Based Payment", FRS 21 "Events after the Balance Sheet Date", FRS 25 "Financial Instruments: Disclosure and Presentation" and FRS 26 "Financial Instruments: Measurement", the impact of which is detailed in Notes 10, 11 and 12. The comparative information has been disclosed in accordance with FRS 13 "Derivatives and other financial investments: Disclosure".

Interest Income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Tangible Fixed Assets

Tangible fixed assets are recorded at cost less accumulated depreciation and provision for impairment. Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets in equal instalments over the estimated useful lives of the assets. The rates of depreciation are as follows:

Leasehold properties and improvements	Over life of the lease
Equipment, fixtures and fittings	3 to 15 years

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in income.

Share Based Payments

The Company has applied the requirements of FRS 20 "Share Based Payment". In accordance with the transitional provisions, FRS 20 has been applied to all grants of equity instruments after 7 November 2002 that were unvested at 1 January 2005.

The Company issues equity settled share based payments to certain employees. A fair value for the equity settled share awards is measured at the date of grant. The fair value is measured using the Binomial model of valuation, which is considered to be the most appropriate valuation technique. The valuation takes into account factors such as non-transferability, exercise restrictions and behavioural considerations. To assign a fair value to share awards granted under the Share Matching Plan where the proportion of the award released is dependent on the level of total shareholder return the Monte Carlo Simulation methodology is considered the most appropriate.

An expense is recognised to spread the fair value of each award over the vesting period on a straight line basis, after allowing for an estimate of the share awards that will actually vest. The estimate of vesting is reviewed annually, with any impact on the cumulative charge being recognised immediately.

Investments

Investments held as fixed assets are stated at cost less provision for any impairment in value. Investments held by the Company in subsidiaries and joint ventures denominated in foreign currencies are translated at rates of exchange ruling at the balance sheet date.

Financial Instruments

The Company has adopted FRS 26 "Financial Instruments: Measurement" with effect from 1 January 2005.

Financial assets and financial liabilities are recognised on the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Investments

Investments are recognised and derecognised on a trade date where a purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at cost, including transaction costs.

Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible (with a maturity of three months or less) to a known amount of cash and are subject to an insignificant risk of changes in value.

1 Accounting Policies continued

Financial Liabilities and Equity

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Bank Borrowings

Interest-bearing bank loans and overdrafts are recorded at the proceeds received, net of direct issue costs. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are accounted for on an accrual basis in the Profit and Loss Account using the effective interest rate method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

Equity Instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Derivative Financial Instruments and Hedge Accounting

The Company's holding activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The derivative instruments utilised by the Company to hedge these exposures are interest rate swaps, cross currency swaps and spot and forward foreign exchange contracts. The Company does not use derivative contracts for speculative purposes.

The Board set the Company's treasury policy to ensure that it has adequate financial resources to develop the Company's businesses and to manage the currency and interest risks to which the Company is exposed. All external hedging is performed by the Company Treasury Function. Company Treasury acts as a service centre operating under the clearly defined regulation of the Board. The Company monitors the distribution of its cash assets, borrowings and facilities so as to control exposure to the relative performance of any particular territory, currency or institution.

Changes in the fair value of derivative financial instruments that are designated and effective as hedges of future cash flows are recognised directly in equity and the ineffective portion is recognised immediately in the Profit and Loss Account. If the cash flow hedge of a firm commitment or forecasted transaction results in the recognition of an asset or a liability, then, at the time the asset or liability is recognised, the associated gains or losses on the derivative that had previously been recognised in equity are included in the initial measurement of the asset or liability. For hedges that do not result in the recognition of an asset or a liability, amounts deferred in equity are recognised in the Profit and Loss Account in the same period in which the hedged item affects net profit or loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Profit and Loss Account as they arise.

Amounts payable or receivable in respect of interest rate swaps are recognised as adjustments to interest expense over the period of the contracts.

Hedge accounting is discontinued when the hedge instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognised in equity is retained in equity until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to the Profit and Loss Account for the year.

Finance Costs

Finance costs of debts are capitalised against the debt value on first drawdown of the debt and are recognised in the Profit and Loss Account at a constant rate over the life of the debt.

ESOP Trust Shares

Own shares deducted in arriving at shareholders' funds represent the cost of the Company's ordinary shares acquired by the Employee Share Option Plan (ESOP) trusts in connection with certain of the Company's employee share schemes.

Provisions

Provisions are recognised when the Company has a present obligation as a result of a past event, and it is probable that the Company will be required to settle that obligation. Provisions are measured at the Directors' best estimate of the expenditure required to settle the obligation at the Balance Sheet date, and are discounted to present value where the effect is material.

Current tax

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted at the Balance Sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the Balance Sheet date where the transactions or events that give rise to an obligation to pay more or less tax in the future have occurred by the Balance Sheet date.

A deferred tax asset is recognised only when it is considered more likely than not that it will be recovered.

During 2005 a number of new Financial Reporting Standards were implemented, the impact on the profit is detailed in Note 12. The following table details the impact of compliance with the new FRS on the 2004 profit and loss account:

	2004 £'000
Profit and Loss Account as at 31 December 2004 – as previously stated	253,066
Share based payments ¹	(380)

¹ Under FRS 20 "Share Based Payments", equity settled share based payments to employees are a part of employee benefit expense charged to operating profit. A corresponding increase to the Reserve for Own Shares has been made.

² Under FRS 21 "Events after the Balance Sheet Date", dividends to shareholders declared after the balance date but before the financial statements are authorised for issue are not recognised as a liability at the balance sheet date. The final dividend accrued in the 2004 UK GAAP Financial Statements has therefore been reversed. Under FRS 26 "Financial Instruments: Measurement", all hedging activity is taken to the balance sheet. There is no profit and loss impact during 2004, however an amount of £2,451,000 was taken to the hedging and translation reserve with a corresponding increase in accruals.

17 Financial Instruments

The Company's activities expose it mainly to the financial risks of changes in foreign currency exchange rates and changes in interest rates. The Company's policy is to hedge these exposures as explained further below using primarily interest rate swaps, cross currency swaps and spot and forward foreign exchange contracts.

Treasury Policy

The Board set the Company's treasury policy to ensure that it has adequate financial resources to develop the Company's businesses and to manage the currency and interest risks to which the Company is exposed. The Company mainly uses foreign exchange forward and spot contracts and interest rate swap contracts to hedge these exposures. All external hedging is performed by the Company Treasury Function. The Company does not use derivative financial instruments for speculative purposes. Where a derivative (in whole or in part) cannot be designated in an effective hedge relationship any gain or loss arising on the undesignated portion of the derivative is immediately recognised in the Profit and Loss Account. Those derivative financial instruments (or portions thereof) that are not designated in a hedging relationship are classified as held for trading. The Treasury Function acts as a service centre operating under the clearly defined regulation of the Board. The Company monitors the distribution of its cash assets, borrowings and facilities so as to control exposure to the relative performance of any particular territory, currency or institution.

Funding and Cash Management

The Company primarily borrows at short-term variable rates under its multi-currency loan facilities. These borrowings are guaranteed by material subsidiary companies. In connection with the acquisition of IIR, in May 2005 the Company arranged for a new five-year loan agreement, becoming effective upon the acquisition of IIR in July 2005 and comprising three facilities:

- A – Term loans of GBP 250 million and USD 500 million;
- B – Multi-currency revolving facilities of GBP 400 million; and
- C – Equity bridge facility of GBP 300 million.

The previously existing loan facility was cancelled at the same time. Facility C was repaid and cancelled in July 2005 following the Rights Issue. In 2001, the Company raised USD 50 million on the US private placement market. The 7.35% Guaranteed Senior Unsecured Notes in respect of the Private Placement are due in seven equal annual instalments from August 2005 to August 2011.

Operationally, cash-pooling arrangements have been organised in GBP, EUR and USD to minimise interest payable on net overdrafts and/or maximise interest receivable on net surplus balances.

Cash Flows

Historically and for the foreseeable future the Company has been, and is expected to continue to be, in a net borrowing position. The Company's policy is to fulfil its borrowing requirements by borrowing in the currencies in which it operates, principally GBP, USD and EUR; thereby providing a natural hedge against projected future surplus USD and EUR cash inflows as well as spreading the Company's interest rate profile across a number of currencies. In addition, GBP-denominated borrowings serve to reduce the exposure of the debt to EBITDA banking covenant to movements in exchange rates in respect of currency-denominated debt. Therefore the Company seeks to maintain GBP-denominated borrowings in the range of 25% to 50% of total borrowings, including where necessary, the selling of USD and EUR for GBP on a regular basis.

In addition, if a significant foreign currency denominated future transaction or cash flow is projected, then the Company may utilise forward foreign exchange contracts to help hedge the associated risk.

Foreign Currency Risk

Allied to the Company's above policy on the hedging of surplus foreign currency cash inflows, the Company will usually seek to finance its net investment in its principal overseas subsidiaries by borrowing in those subsidiaries' functional currencies, primarily EUR and USD. This policy has the effect of protecting the Company's balance sheet from movements in those currencies to the extent that the associated net assets exceed the net foreign currency borrowings.

Interest Rate Risk

The Company seeks to minimise its exposure to fluctuations in interest rates by using interest rate swaps as cash flow hedges to hedge up to 90% of forecast interest payments over a period of up to five years, based on forecast net debt levels by currency during that period. This policy provides a level of certainty of future interest costs by swapping floating costs to fixed-interest payments which in turn assists the predictability of achieving interest-based loan covenants.

17 (c) Fair Values of Financial Assets and Liabilities

The fair value is defined as the amount at which a financial instrument could be exchanged in an arm's length transaction between informed and willing parties and is calculated by reference to market rates discounted to current value. The fair value of these financial instruments was:

Primary Financial Instruments Held or Issued to Finance the Company's Operations

	2005 Book value £'000	2005 Estimated fair value £'000	2004 Book value £'000	2004 Estimated fair value £'000
Bank loans and overdrafts (including current portion of long-term borrowing)	(53,745)	(53,745)	(5,156)	(5,156)
Loan notes due in less than one year	—	—	(5,774)	(5,774)
Long-term borrowings	(692,500)	(692,500)	(305,721)	(305,721)
Cash deposits	—	—	5,710	5,710

Other financial liabilities	2,425	2,425	(556)	(3,007)

The carrying value of primary financial instruments approximates to fair value due to the short maturity of the instruments or because they bear interest at rates approximate to the market. The fair value of the other financial assets is calculated based on the quoted market price, excluding any transaction costs.

Derivative Financial Instruments Held to Manage the Interest Rate Profile

	2005		2004	
	Carrying amount £'000	Estimated fair value £'000	Carrying amount £'000	Estimated fair value £'000
Interest rate swaps (Note 17 (b))	2,425	2,425	(556)	(3,007)

The fair value of the derivative financial instruments is based on year-end listed market prices. In line with FRS 26, the derivative financial instruments were brought onto the balance sheet as at 1 January 2005 at fair value. The carrying amount of the interest rate swaps comprise £(1,352,000) in GBP, £3,945,000 in USD, £(81,000) in EUR and £(87,000) in other worldwide currencies.
