STATEMENTS & NOTES
- 49 CORPORATE INFORMATION

## Corporate Profile

Atlantic Power Corporation owns interests in a diversified portfolio of fifteen power generation projects located primarily in major markets in the United States. The Company's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions. The Company's Income Participating Securities (IPSs) are listed on the Toronto Stock Exchange under the symbol ATP.UN.

## Operating Highlights

- Completed accretive acquisition of 40% interest in Chambers project
- Sold Masspower asset and contracts for significant contribution to cash flow
- Increased ownership at Gregory project
- Executed accretive new Power Purchase Agreements at two existing projects
- Enhanced operating performance and cash flow at existing facilities
- Increased annual cash distributions to Cdn. \$1.03 per IPS

2003  
2002  
2001  
2000

Report To Shareholders: We were pleased with our performance in our first full year as a publicly-traded income fund. Most importantly, we achieved our goals of generating solid growth in cash flow and providing shareholders with our first increase in monthly cash distributions.

#### **A SUCCESSFUL YEAR**

2005 was a successful year for Atlantic Power on a number of fronts. We strengthened and further diversified our portfolio of power generating projects and grew distributable cash flow. In addition, with the completion of an accretive and strategic acquisition, we increased annualized cash distributions by \$0.03 per Unit while still maintaining a very conservative payout ratio of 67% for the year.

#### **CHAMBERS ACQUISITION**

In September we purchased a 40% interest in a 262 MW coal-fired cogeneration facility located at DuPont's Chambers Works complex in southwestern New Jersey. The plant has demonstrated an excellent operating history over the last ten years and is managed by a highly experienced operator. It utilizes the best available environmental control technologies, including scrubbers, a bag house, and selective catalytic reduction to reduce emissions. We were very pleased to have added this high quality and environmentally responsible power plant to our growing portfolio.

More importantly, the Chambers acquisition was immediately accretive to our cash flow, and provides a number of additional benefits to our shareholders. By adding two new investment grade electricity and steam off-takers, we strengthened our customer base and further mitigated risk for our shareholders. We also enhanced the diversity of our fuel sources, and increased the weighted average term of our power purchase agreement portfolio.

#### **COMPLETION OF MASSPOWER SALE**

During the year we sold our 17.5% indirect interest in the Masspower project, a 240 MW natural gas-fired power

plant located near Springfield, Massachusetts. As disclosed in our Initial Public Offering, the project's three largest Power Purchase Agreements (PPAs) terminated in March 2005, and since then it has largely been operating as a merchant facility. In total, we received over \$59 million in payments for the termination of the PPAs and the sale of other contracts and the physical asset. These proceeds exceeded the net present value of future cash flows projected at the time of our IPO by over \$20 million. The proceeds were then redeployed towards the accretive Chambers acquisition.

#### **NEW POWER PURCHASE AGREEMENTS**

Another important development during 2005 was the execution of new PPAs at our Gregory and Rumford plants. At the Rumford cogeneration facility in Maine, the prior PPA with Central Maine Power expired as expected on December 31, 2005. Under the interim one year PPA the Project will sell all of its power output to an adjacent paper manufacturing company at spot market prices. Whereas at the IPO we had anticipated no distributions from Rumford for 2006 and beyond, we now expect approximately \$4-6 million this year and are working with the project's partners to lock in profits over a longer term as indicated by NYMEX forward curves and anticipated fuel costs.

At the Gregory facility where a previous PPA expired as expected in June last year, with assistance from our management team a better credit quality counterparty was found, Constellation Energy, for a new agreement through 2008. This new PPA provides improved economics compared to projections at the IPO. These innovative transactions are excellent examples of how we are managing our PPA expirations and adding incremental cash flow by leveraging our

solid asset base and significant experience in the industry for the benefit of our investors.

In addition to these key transactions, we generated improved operating margins at a number of our facilities, and increased our ownership at the Gregory project, initiatives that contributed to our strong performance through the year.

#### **PRIVATE PLACEMENT - NEW INVESTOR**

We were also pleased during the year to welcome the Caisse de dépôt et placement du Québec as a major new investor in Atlantic Power. The proceeds from their \$75 million investment were used to redeem a portion of the ownership

We are uniquely positioned in the U.S. market to grow our business over the next several years.

interests held indirectly by our sponsor ArcLight Capital Partners pursuant to their stated objective to reduce their interest over time. ArcLight currently retains a 30% interest in Atlantic Power, and we continue to benefit from their considerable industry experience and extensive relationships within the North American power and energy business.

#### **ENHANCING PROJECT PERFORMANCE**

With these transactions, our portfolio currently consists of 15 power producing projects primarily located in nine states representing most of the major U.S. power markets. In aggregate, Atlantic's interest in the generating capacity of our projects totals 802 MW. In addition, our capacity remains well diversified based on electricity and steam off-takers, regulatory jurisdictions, and regional power pools, mitigating our exposure to market, regulatory and environmental conditions specific to any one region. Our plants sell their electricity and steam to 23 different off-takers, with over 95% of the contracted generation sold to investment-grade off takers.

During the year numerous initiatives were completed to enhance cash flow from our existing plants. One example is a

gas turbine upgrade at our Orlando facility that improved both its efficiency and output. Like all similar maintenance capital expenditures at the plants, this project was accomplished with operating funds before partnership distributions to Atlantic, and generally all such capex is expensed unless it contributes to a more significant expansion of output.

#### **DELIVERING ON OUR GROWTH STRATEGIES**

We will evaluate additional acquisition opportunities within the fragmented North American independent power industry that meet our acquisition and investment guidelines and result in an increase in cash available for our investors. The immediate contribution to cash flow derived from the purchase of our interest in the Chambers project is an excellent example of how we are creating value by adding new projects to our growing portfolio.

We will also work with our project operators and managers to enhance the operating and financial performance of our facilities through ongoing operational improvements and the optimization of our power purchase agreements, fuel supply contracts and other commercial arrangements. We experienced enhanced performance at a number of our projects in 2005, and the new PPAs at our Rumford and Gregory facilities will contribute to our growth going forward.

Finally, we will continue to consolidate and increase our ownership in projects where we have partial interests. The contribution to cash flow from our increased interest in the Gregory project during 2005 is a case in point of how this strategy is enhancing the value of our portfolio.

Looking ahead, our ultimate objective remains to deliver predictable, stable and growing cash distributions for our investors. We made considerable progress in 2005, and we believe we have the facilities, the industry relationships and the management expertise to build on the strong track record of performance demonstrated by our projects over the past year.

In closing, I would like to thank our customers, partners and sponsors for their significant contributions over the past year, and our shareholders for their continued support.

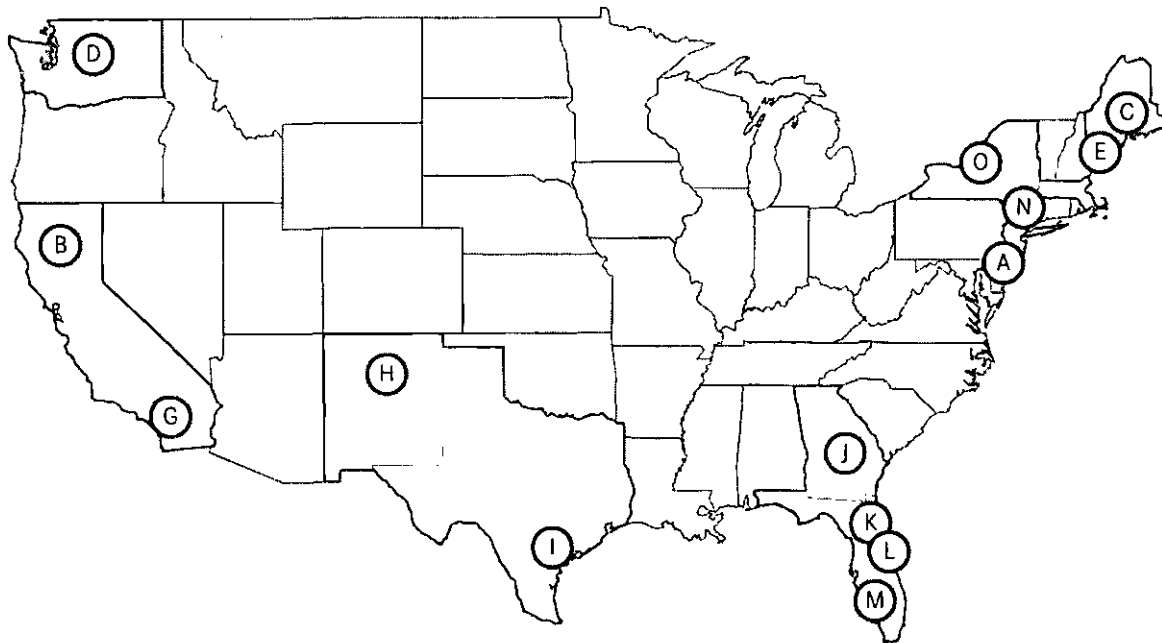

**BARRY WELCH**  
*President and CEO*

<sup>1</sup> Represents the percentage ownership interest in the Project held indirectly by Atlantic Holdings (except as otherwise noted).

<sup>2</sup> Accounting Treatment: (refer to Note 1 of Consolidated Financial Statements).

C = Consolidated P = Proportionate Consolidation E = Equity Method

<sup>3</sup> Represents the interest of Holdings in each Project's electric generation capacity based on Holdings' economic interest in each project.

<sup>4</sup> Represents Holdings' estimate of its economic interest in the Project's cash flow.

<sup>5</sup> New PPA with Constellation Energy through 2008. See discussion in the New Power Purchase Agreements Section of the MD&A.

<sup>6</sup> A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.

<sup>7</sup> PPA with Central Maine Power expired December 31, 2005. See discussion of the new interim PPA with the former Mead/Westvaco paper mill (now owned by NewPage) in the New Power Purchase Agreements section of the MD&A.

<sup>8</sup> Holdings owns a lessor interest in this Project.

<sup>9</sup> The merchant output of the facility is sold by Atlantic City Electric in the PJM regional spot market through a profit sharing arrangement with Chambers.

# Management Discussion and Analysis of Financial Condition and Results of Operations

The following management discussion and analysis (“MD&A”) of financial condition and results of operations should be read in conjunction with the audited financial statements of Atlantic Power Corporation (“Atlantic Power” or the “Company”) for the year ended December 31, 2005. All amounts described in the management discussion and analysis of financial condition and results of operations are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles (“GAAP”). This management discussion and analysis of financial condition and results of operation also contains forward-looking statements, which are subject to a variety of factors. When used in this MD&A, the words “anticipate”, “expect”, “project”, “believe”, “estimate”, “forecast” and similar expressions are intended to identify forward-looking statements, which include statements relating to the projects. Such statements are subject to a variety of risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements. Some of the factors that could cause results or events to differ from current expectations include, but are not limited to, the factors described under “Risk Factors”. Information contained in this management discussion and analysis is based on information available to management as of March 31, 2006.

Copies of financial data and other publicly filed documents are available through the internet on SEDAR at [www.sedar.com](http://www.sedar.com) under Atlantic Power Corporation.

## OVERVIEW

The Company completed its Initial Public Offering (“IPO”) on November 18, 2004 and after the exercise of the underwriter’s over-allotment on December 6, 2004, it owned 58.1% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Power Holdings, LLC (“Holdings”). Holdings was formed initially to acquire indirect interests in a diversified portfolio of power generating facilities (the “Projects”) located primarily in major markets in the United States from ArcLight Energy Partners Funds I and II (the “ArcLight Funds”) and Caithness Energy (such entities, together, the “Existing Investors”). The Company currently has 44,339,500 Income Participating Securities (“IPSs”) outstanding and owns 70.1% of Holdings. Each IPS represents one common share of the Company (“Common Shares”) and Cdn. \$5.767 aggregate principal amount of 11% subordinated notes of the Company (“Subordinated Notes”).

As of December 31, 2005 Holdings owned interests in fourteen projects in the United States and one in Jamaica with a combined total power generating capacity of 2,156 megawatts (“MW”). Holdings’ interests in the projects represented approximately 860 MW of power generating capacity as of December 31, 2005. Most of the projects sell their power under long-term Power Purchase Agreements (“PPAs”) to investment grade utilities. These agreements are typically structured to stabilize cash flows by 1) providing a significant revenue component of steady capacity payments generally designed to provide a return of and on capital plus cover most fixed operating costs regardless of how much electricity the project is called upon to produce, provided that the plant meets an availability requirement and 2) passing through most of the Projects’ fuel costs to the utilities. As a result, effects on the portfolio’s cash flow changes in the amount of power generated, spot market electricity prices and fuel price changes are significantly mitigated.

The Company’s objectives are to maintain the stability and sustainability of cash distributions to holders of IPSs in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares. To achieve these objectives, Company management, working directly with project managers, focuses on enhancing the operation of the existing projects by improving facility performance, increasing output, optimizing contracts and hedging cash flows when practicable. In addition, the Company has a focused growth strategy that includes the consolidation of interests in projects that it currently owns and making accretive acquisitions with a primary focus on power generating facilities in the United States.

## **SUMMARY OF SIGNIFICANT EVENTS**

On January 12, 2005, Holdings increased its indirect interest in the Gregory project from 9.4% to 17.1% or 68 net MW. The interest was acquired indirectly via Holding's interest in Javelin and was accomplished using cash available at the project level, discussed further in Acquisitions & Dispositions.

On September 8, 2005, Holdings acquired an indirect 40% interest in Chambers Cogeneration, LP, ("Chambers") which owns and operates a 262 MW coal-fired cogeneration plant in southwestern New Jersey, discussed further in Acquisitions & Dispositions. On the same day, the Company also announced a Cdn. \$0.03 increase in its annual distribution per IPS to Cdn. \$1.03 per year, commencing with the September distribution.

On October 3, 2005, the Company issued 7.5 million Income Participating Securities to Caisse de dépôt et placement du Québec ("the Caisse") at a price of Cdn. \$10.00 per IPS in a private placement. Net proceeds, along with proceeds from the issuance of 39,500 IPSs to certain officers of the Company, were used to increase the Company's common membership interest in Holdings to 70.1%. The remaining 29.9% of the common membership interests and all of the outstanding Class B preferred membership interests in Holdings are owned by the Existing Investors.

On December 28, 2005, Holdings sold its 17.5% interest in the 267 MW Masspower project following the restructuring of the project's PPAs and subsequent disposition of its gas supply and transportation contracts, which is discussed further in Acquisitions & Dispositions.

## **NON-GAAP FINANCIAL MEASURES**

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities from the Company's financial statements to Cash Flow Available for Distribution is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate unaudited EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about project performance. A reconciliation of 2005 Project EBITDA to Project Income is appended to this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

## **RESULTS OF OPERATIONS FOR THE THREE AND TWELVE MONTH PERIODS ENDED DECEMBER 31, 2005**

The Company commenced operations on November 18, 2004 on completion of its IPO and the acquisition of interests in fifteen non-utility power projects. The Company did not hold any material assets prior to November 18, 2004 and is considered to have begun operations on that date. The financial results for the year ended December 31, 2005 include the contribution from the 40% interest in the Chambers project, acquired on September 8, 2005 and the sale of the Masspower project interest (see Acquisitions & Dispositions). Since the prior year period that ended on December 31, 2004 was only six weeks in length, no meaningful comparison of financial information is available. As of December 31, 2005, the Company had PPAs with 16 customers. Details on the length of the PPAs for each Project are presented in the table in the Project Portfolio section below.

Project Income is the primary determinant of the Company's operating results and is discussed in the Project Performance section below. Within Administrative and Other Expenses, the cash items are expected to be relatively steady, including management fees and administration, net interest (principally interest on Subordinated Notes and revolving credit facility) and the distribution to non-controlling interest (29.9% of Holdings owned by Existing Investors at December 31, 2005, 41.9% at December 31, 2004). Significant non-cash items subject to potentially significant fluctuations include the change in fair value of the non-controlling investors, which is based on the change in price of the Company's IPSs from period to period, and the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange changes from period to period on the value of the Company's Canadian dollar denominated debt and the mark-to-market value of currency hedges.

Net Income for the three months ended December 31, 2005 was negatively impacted by increased amortization resulting from the finalization of the purchase price allocation with respect to Projects acquired November 18, 2004 and positively impacted by the inclusion of Chambers for the full quarter.

#### **BREAKDOWN OF SUMMARY FINANCIAL INFORMATION**

Appendix I to this MD&A provides an unaudited non-GAAP breakdown of the 2005 summary Income Statement and Balance Sheet information into the categories of 1) Consolidated and proportionately consolidated, 2) Proportionate share of Equity Investments, and 3) Corporate.

#### **PROJECT PERFORMANCE: THREE MONTH PERIOD ENDED DECEMBER 31, 2005**

EBITDA at the Projects was up 24%, excluding the Masspower disposals and the deferred revenue adjustment at Mid-Georgia. Significant contributors to the increased EBITDA included 1) improved operating margins at the Lake, Orlando and Pasco projects, 2) increased ownership in the Gregory project combined with a new PPA, and 3) a full quarter of Chambers ownership. Offsetting the increase in part were expected lower scheduled swap settlements at Onondaga and the effect of fuel cost pass-through limitations at Selkirk as is more fully discussed in the following section.

While aggregate generation was up by 15%, plant availability declined by 3.9% at the projects during the fourth quarter of 2005 compared to the fourth quarter of 2004. The comparative increase in generation in the fourth quarter of 2005 is due to a modest increase in dispatch at Selkirk, increased ownership at Gregory and a full quarter of Chambers offset in part by reduced generation resulting from a major planned outage at Gregory in 2004. Availability decreases are primarily driven by an extension of the 2005 planned outage at Orlando and both planned and forced outages at Gregory. Generation can be higher while plant availability is lower based on the degree to which the plants are called upon, or dispatched, to run during their available hours.

Summary of Financial Results (In thousands of U.S. dollars)

	3 Months Ended December 31, 2005 (Unaudited)	12 Months Ended December 31, 2005 (Audited)

Distributions <sup>6</sup>	9,760	32,448
<i>Per IPS, USD</i>	0.22	0.83
<i>Per IPS, Cdn.</i>	0.26	1.01

<sup>1</sup> Project revenue and project expenses of Holdings' interests in ten Projects, including two wholly owned Projects which are consolidated, and eight proportionately consolidated Projects with interests ranging from 40% to 50%. (Refer to Accounting Treatment presented in the table in the Project Portfolio section later.)

<sup>2</sup> Includes equity in earnings from partnerships of \$(7,928) for the three-month period and \$8,446 for the twelve-month period from five projects in which Holdings owns interests of between 17.1% and 40%, accounted for on an equity basis.

<sup>3</sup> Distributions declared to Existing Investors.

<sup>4</sup> As of December 31, 2004, Existing Investors owned a 41.9% non-controlling interest in Holdings with certain Liquidity Rights to request that the Company use best efforts to issue equity securities (including IPSs) to raise proceeds that would indirectly be used to redeem portions of the Existing Investors' interest. On October 3, 2005, the Existing Investors reduced their common membership interests in Holdings to 29.9%. Until November 18, 2006, the Existing Investors must maintain a minimum 10% aggregate ownership interest in Holdings. This amount represents the mark-to-market change during the reporting period in the potential obligation of the Company to issue securities to redeem the entire Existing Investors' interests in Holdings based on the change in market price per IPS from Cdn. \$10.75 at December 31, 2004 and September 30, 2005 to Cdn. \$10.40 at December 31, 2005.

<sup>5</sup> Net impact of foreign exchange on the U.S. dollar equivalent of Canadian dollar denominated debt, the mark-to-market value of currency hedges and realized foreign exchange gains and losses for the period.

<sup>6</sup> Distributions declared during the reporting period.

### **PROJECT PERFORMANCE: YEAR ENDED DECEMBER 31, 2005**

Aggregate generation was up 5% and availability was down 1% at the Projects during 2005 compared to the prior full year operating history of the Projects. EBITDA at the Projects was up 20% for the year, excluding the Masspower disposals and a deferred revenue adjustment at Mid-Georgia. Significant factors in this EBITDA increase include 1) favourable impacts from improved operating margins at the Lake, Orlando, and Pasco projects, 2) increased ownership in the Gregory project combined with a new PPA at that project that benefits from high gas costs and 3) almost four months of Chambers ownership, offset by unfavourable impacts from 1) fuel costs under recently renewed fuel supply agreements at Selkirk that increased during the period to slightly above the formulaic amount that can be passed through to the utility under one of its PPAs and 2) lower scheduled swap settlement payments received at Onondaga.

Among the Company's largest costs is the supply of natural gas, coal and other fuels. Fuel costs, particularly natural gas costs, were at historically high levels in the U.S. throughout the reporting period. However, the majority of the PPAs provide for the pass-through or indexing of fuel costs to the off-takers. Therefore, EBITDA has not been significantly impacted by the higher prices. Some projects, like Gregory, show margin improvements at higher gas prices. Selkirk extended the term of three of its four gas purchase agreements towards the end of 2004 and replaced the fourth contract effective November 1, 2005. While most of the gas cost is passed through in the power purchase price under the Project's PPA with Consolidated Edison, there is a formulaic cap in the energy payment that may be slightly exceeded at some times by the Project's fuel cost. During the year ended December 31, 2005 this cap was exceeded at times, resulting in slightly reduced margins at Selkirk.

### **CASH FLOW FROM OPERATIONS AND RESERVE ACCOUNT**

The Company's cash flow from the Projects will vary from year to year based on, among other things, changes in rates under the PPAs, fuel supply and transportation agreements, steam sales agreements and other project contracts, compliance with the terms of non-recourse project-level financing, including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the operating performance of the Projects. Project cash flows themselves may have some seasonality and the pattern and frequency of distributions from Projects to Holdings during the year can also vary.

The Company's cash flow from operations was \$19,473 and \$38,370 for the three-month period and year ended December 31, 2005, respectively, and was in line with expectations for the year. The annual results include significant cash flow of \$59,365 from the disposal of the Masspower PPAs, fuel supply agreements and the sale of the facility.

In order to provide holders of IPSs with stable and sustainable cash distributions, the Company established a Reserve Account at the closing of its IPO and will deposit funds in the Reserve Account from time to time to stabilize future cash distributions and fund acquisitions and other growth opportunities that have the same ultimate effect. The Reserve Account held \$12,509 as of December 31, 2004. It increased by \$35,857 in March based largely on the Masspower PPA termination payments and reached a maximum of \$48,737 in July before dropping by \$38,500 in August in connection with the Chambers acquisition. As of December 31, 2005 the Reserve Fund held \$10,508.

### **CASH FLOW AVAILABLE FOR DISTRIBUTION**

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. On September 8, 2005, the Company announced an increase to its annual dividend of Cdn. \$0.03 per IPS commencing with the September distribution from Cdn. \$1.00 to Cdn. \$1.03 per IPS. For the three month period ended December 31, 2005, aggregate distributions of \$9.8 million were declared (Cdn. \$0.26 per IPS comprised of interest payments of Cdn. \$0.16 on the 11% subordinated note portion of the IPS, plus Cdn. \$0.10 common share dividend per IPS).

The table below presents the calculation of Cash Flow Available for Distribution beginning with cash flow from operating activities for the three month period and year ended December 31, 2005.

Calculation of Cash Flow Available for Distribution (In thousands of U.S. dollars)

Periods Ended (Unaudited)	3 Months Ended December 31, 2005	12 Months Ended December 31, 2005
Cash flow available for distribution		
Cash flows from operating activities <sup>1</sup>	\$ 19,473	\$ 38,370
Project level debt repayment	(10,052)	(20,679)
Interest on IPS portion of subordinated notes	6,009	20,346
Income tax withholding installments recoverable <sup>2</sup>	768	7,682
Income tax payable on disposal of equity investment <sup>3</sup>	5,519	5,519
Addition to property, plant and equipment	(1,068)	(2,558)
Cash flow available for distribution, USD	20,649	48,680
<b>Cash flow available for distribution, Cdn.</b>	<b>24,013</b>	<b>58,981</b>
Distributions		
Interest on IPS subordinated notes	6,009	20,346
Dividend on IPS common shares	3,751	2,102
Total IPS distributions, USD	9,760	32,448
<b>Total IPS distributions, Cdn.</b>	<b>11,421</b>	<b>39,124</b>
<b>Cash flow available for distribution per IPS, Cdn.</b>	<b>0.54</b>	<b>1.46</b>
<b>Total distribution per IPS, Cdn.</b>	<b>0.26</b>	<b>1.01</b>

1 In previous quarters, Masspower's distributions in respect of disposal proceeds were included in Cash flows from operating activities and separately netted out of Cash flow available for distribution. Those proceeds now appear as a disposal in the financing activities section of the statement of cash flows.

2 Represents the portion of income tax withholding installments paid during the quarter related to operating activities which are anticipated to be recoverable by the Company.

3 In the second and third quarters estimated tax payments of \$5,281 on Masspower disposals were not added back in the calculation of cash flow available for distribution. This fourth quarter calculation benefits from adding back the entire \$5,519 finalized estimate of tax payable on the Masspower disposal.

## SUMMARY OF QUARTERLY RESULTS

Variations in quarterly results are driven by the following factors:

- There is some seasonality of Project Revenues based on some projects being paid higher rates during peak seasons, which tends to be summer in the US markets.
- Variations in quarterly cash flow and distributions from Projects accounted for using the equity method are also driven by the timing of non-recourse debt payments at the Projects (i.e., some are made quarterly and some semi-annually), as distributions from the Projects to the Company must occur in conjunction with the Projects passing certain tests at those payment dates.
- Non-cash charges, principally 1) the change in fair value of the non-controlling investors, which is based on the change in price in the Company's IPSs from period to period, and 2) the non-cash portion (majority) of the foreign exchange gain or loss, reflecting the impact of foreign exchange changes from period to period on the value of the Company's Canadian dollar denominated debt and the mark-to-market value of currency hedges.
- Net Income for the three months ended December 31, 2005 was negatively impacted by increased amortization resulting from the finalization of the purchase price allocation with respect to projects acquired November 18, 2004.
- Cash flow from operations was higher in the first and fourth quarters of 2005 due to the proceeds from Masspower dispositions of three of its PPAs and the physical plant respectively.

- Calculation of cash flow available for distribution ("CFAD") during the first three quarters included a reduction of cash flow from operating activities ("CFFO") by the proceeds of Masspower disposals. The disposal proceeds are now presented in the financing activities section of the statement of cash flows, so reduction of the proceeds from CFFO is not required.
- During the fourth quarter, the Company finalized the estimated tax on Masspower disposals of \$5,519, which has been included in the above CFAD table as a separate line item. In the second and third quarters, estimated tax payments of \$5,281 on Masspower disposals were not added back in the calculation of CFAD. The fourth quarter CFAD calculation benefits from adding back the entire \$5,519 finalized estimate of tax payable on the Masspower disposal.

#### Selected Quarterly Consolidated Financial Data (unaudited)

	2005					2004
	Total	Q4	Q3	Q2	Q1	Nov. 18 - Dec. 31
Project Revenues	\$184,700	\$58,023	\$50,848	\$37,966	\$37,863	\$18,490
Net income (loss)	(509)	2,738	(7,863)	(5,326)	9,942	(19,894)
Cash flow from operating activities	38,370	19,473	6,242	8,098	4,557	12,897
Cash distributions (a)	32,448	9,760	7,808	7,385	7,495	3,658
Cash available for distribution (b)	48,630	20,649	9,130	11,551	7,350	5,119
Payout ratio (a divided by b)	67%	47%	86%	64%	102%	71%

#### ACQUISITIONS & DISPOSITIONS

CHAMBERS // On September 8, 2005, Holdings closed the acquisition of Epsilon Power Partners, LLC ("Epsilon"), which owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of the 262 MW (net output) Carney's Point pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's ("DuPont") Chambers Works complex in southwestern New Jersey. The purchase price was approximately \$105 million and was funded through Holdings' cash on hand and a draw on Holdings' revolving credit facility and the assumption of \$43 million of non-recourse Epsilon debt. The facility acquired is one of the projects in which Holdings was granted a right of first offer by ArcLight Energy Partners Fund I, L.P. at the time of Atlantic's IPO. The former owners of Epsilon are subsidiaries of ArcLight Energy Fund I and Delta Power Company, LLC.

The project sells electricity through 2024 under a PPA with Atlantic City Electric Company (rated BBB+) and electricity and steam to DuPont (rated AA-) for use in its industrial operations, also through 2024. Carney's Point began commercial operations in 1994.

Plant operations are managed by a highly experienced firm and the Project has demonstrated an excellent operating history over the last ten years. The facility utilizes the best available environmental control technologies including scrubbers, a baghouse and selective catalytic reduction to reduce emissions and is considered one of the cleanest coal-fired power plants in the U.S.

On November 8, 2005, the Company filed on SEDAR an Independent Technical Review for Chambers. The report, prepared by Stone & Webster Management Consultants, Inc., concludes that the Project uses proven and appropriate technology,

has operated successfully under the principal project agreements and permits since its commercial operation in 1994, has been well-maintained, and has an expected useful life exceeding the life of the PPA, which expires in 2024. The report also includes a cash flow projection for Chambers through 2024.

**MASSPOWER** // In March 2005, the Masspower project completed the restructuring and monetization of three of its four PPAs through a buyout of the contracts by Boston Edison and Commonwealth Electric. During the second and third quarters of the year, the project disposed of its long-term fuel supply and transportation agreements. On December 28, 2005, Atlantic, along with the other partners of the Masspower facility, sold its interest in the physical facility along with the remaining PPA. During 2005, the Company received distributions of \$61,469 generated from operations, PPA restructuring, fuel contract disposals and sale of the facility.

**GREGORY** // On January 12, 2005, Holdings increased its indirect interest in the Gregory project from 9.4% to 17.1% or 68 net MW. The interest was acquired indirectly via Holdings' interest in Javelin and was accomplished using cash available at Javelin (\$1,074 was Atlantic's portion).

#### **NEW PROJECT POWER PURCHASE AGREEMENTS**

On July 15, 2005, the Gregory Project's PPA with Dynegy expired as expected. Gregory is located in the ERCOT regional electricity market in Texas, which has been returning to supply-demand balance following a period of overbuilding new plants and, more recently, very substantial retirements of older utility plants. Effective September 1, 2005, Gregory entered into a PPA with Constellation Energy (S&P: BBB) that expires December 31, 2008. Consistent with information filed on SEDAR at the time of the IPO, Gregory is still not anticipated to be a significant contributor to near term cash flows, but under the new contract it is now expected to produce cumulative cash flows that are higher than management's previous expectations for the period September 1, 2005 through December 31, 2008.

Rumford's PPA with Central Maine Power expired as anticipated at the end of December 2005. While earlier projections at the time of the IPO showed no cash flow for 2006 and beyond from Rumford, the project has entered into an interim agreement to sell all of its output for 2006 to the NewPage paper mill at New England power market prices. This agreement is anticipated to produce distributions of approximately \$4,000 to \$6,000 in 2006 and management also believes that there is an opportunity to produce cash flow beyond 2006 by extending the PPA with the NewPage paper mill, selling the output into the New England power market, or entering into a contract with a power marketing entity.

#### **LIQUIDITY AND CAPITAL RESOURCES**

The Company has adequate liquidity from several sources in addition to cash flow from operations. For 2005, the Company's payout ratio of total distributions to cash flow available for distribution was 66.7%. The Reserve Fund held \$10,508 as of December 31, 2005. In the future, as the Reserve Fund builds, a portion of it will be available to fund acquisitions and other growth opportunities, enhancing the long-term stability of distributions.

Holdings recently increased the capacity of its revolving credit facility from \$50,000 to \$75,000, \$15,061 of which was allocated, but not drawn as of December 31, 2005, to support letters of credit for contingent liabilities at several projects. On September 1, 2005, a draw of \$25,000 was made to partially fund the Chambers acquisition. After a paydown utilizing proceeds from the sale of Masspower in December 2005, the drawn amount was reduced to \$10,000. Approximately 50,000 is available to the Company under the facility as of December 31, 2005. In addition, the Projects themselves generally have their own reserve accounts to support payments for major maintenance costs and project-level debt service. For Projects that are consolidated or proportionately consolidated with Atlantic, these amounts or Atlantic's portion of these amounts respectively, are reflected as Restricted Cash on Atlantic's balance sheet, which was \$26,758 as of December 31, 2005.

All project-level debt and the Epsilon debt assumed in the Chambers acquisition is non-recourse to the Company or Holdings and is fully amortized over the life of the Projects' PPAs.

### CAPITAL EXPENDITURES

Capital expenditures for the Projects are made at the project level using project cash flows and project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the projects. Generally, capital expenditures are not significant since most major expenditures are for repairs and maintenance and therefore are expensed.

During the third quarter, an estimated \$2,000 capital project was completed at the Pasco project to construct a water distillation facility that will serve as the project's thermal load. Total capital expenditures ("capex") for 2005 were \$2,558. Estimated capex for 2006 is not more than \$2,500.

### CONTRACTUAL OBLIGATIONS - DEBT

Contractual Obligations (In thousands of U.S. dollars)	Payment due by period				
	Total	2006	2007-9	2010-11	2012 and beyond
Long-term debt					
Subordinated Notes	251,844	-	-	-	251,844
Non-recourse project debt *	246,040	21,558	63,777	31,925	128,780
<b>Total Contractual Obligations</b>	<b>497,884</b>	<b>21,558</b>	<b>63,777</b>	<b>31,925</b>	<b>380,624</b>

\* Project debt is non-recourse to the Company and fully amortizing during PPA terms.

### PROJECT PORTFOLIO

The following table outlines the Company's portfolio of power generating assets as of December 31, 2005, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any one region.

## PROJECT PORTFOLIO

Project Name	Location (State)	Fuel Type	Total MW	Ownership Interest <sup>1</sup>	Acct Tmt <sup>2</sup>	Net MW <sup>3</sup>	Electricity Off-Taker's	PPA Expiry	Off-Taker's S&P Credit Rating

<sup>1</sup> Represents the percentage ownership interest in the Project held indirectly by Atlantic Holdings (except as otherwise noted).

<sup>2</sup> Accounting Treatment: (refer to Note 1 of Consolidated Financial Statements).

C = Consolidated P = Proportionate Consolidation E = Equity Method

<sup>3</sup> Represents the interest of Holdings in each Project's electric generation capacity based on Holdings' economic interest in each project.

<sup>4</sup> Represents Holdings' estimate of its economic interest in the Project's cash flow.

<sup>5</sup> New PPA with Constellation Energy through 2008. See discussion in the New Power Purchase Agreements Section of the MD&A.

<sup>6</sup> A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.

<sup>7</sup> PPA with Central Maine Power expired December 31, 2005. See discussion of the new interim PPA with the former Mead/Westvaco paper mill (now owned by NewPage) in the New Power Purchase Agreements section of the MD&A.

<sup>8</sup> Holdings owns a lessor interest in this Project.

<sup>9</sup> The merchant output of the facility is sold by Atlantic City Electric in the PJM regional spot market through a profit sharing arrangement with Chambers.

## **OTHER CONTRACTUAL OBLIGATIONS**

### **A // PROJECT CONTRACTS**

Each project typically has a set of contracts that include the following obligations of the project partnerships, all of which are non-recourse to the Company. Therefore, specific contracts for individual projects are not discussed in detail in the MD&A.

- PPAs generally allow projects to pass through their fuel costs. See the earlier project Portfolio table for off-takers and durations.
- Fuel supply agreements may have minimum volume requirements.
- Fuel transportation agreements incorporate capacity reservation/demand payments for natural gas, or shipping cost per ton of coal.
- Steam sales agreements track PPA lengths and are designed to meet regulatory requirements for thermal load/efficiency at fossil fuel plants.
- O & M agreements contract for operations and maintenance services by third parties or owners.
- Long-term service agreements may be in place for gas or steam turbine inspections and overhauls.
- Site lease agreements grant use of project land where Projects do not own the site.

A detailed description of the Projects' agreements at the time of the IPO is contained in the Technical Review performed by Stone & Webster in conjunction with the Company's IPO, updated information contained in the Company's Annual Information Form dated March 30, 2006 and a detailed review of contracts at the newly acquired Chambers project in Stone & Webster's review. All documents are available on SEDAR.

**B // FINANCIAL INSTRUMENT CONTRACTS** – see Financial and Other Instruments section below.

### **C // CREDIT FACILITY**

Holdings has a \$75,000 revolving credit facility, \$15,061 of which was allocated, but not drawn as of December 31, 2005, to support letters of credit for contingent liabilities at several projects. \$10,000 was drawn under the revolving term credit facility as of December 31, 2005.

### **D // OFFICE OPERATING LEASE OBLIGATIONS**

The Manager subleases its office space from ArcLight, under an agreement through 2014. The obligations under this sublease are \$130 per year in 2005-2007 and a total of \$933 for the period 2008-2014.

### **E // MANAGEMENT AND INCENTIVE FEES**

The Company pays a management fee under the Management Agreement that is subject to adjustment for acquisitions as agreed to by the Company and Holdings' Independent Managers, plus incentives, inflation adjustment and expenses. The Company paid the Manager \$2,990 in management and incentive fees during the year ended December 31, 2005.

### **F // SUBORDINATED NOTES**

As of December 31, 2005, the Company had \$251,844 outstanding of 11% subordinated notes due 2016. The notes pay interest only until their maturity.

## RELATED PARTY TRANSACTIONS

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid (1) an annual management fee, (2) reimbursement of costs, and (3) an incentive fee equal to 25% of the excess in distributions paid to IPS holders and Existing Investors during the year above Cdn. \$1.00 per IPS. The Management Agreement has an initial term of 20 years from the Company's November 2004 IPO. The Manager is owned by ArcLight Funds. Subsidiaries of the ArcLight Funds along with a subsidiary of Caithness Energy owned 41.9% of Holdings' common membership interests after the IPO, but reduced their interest to 29.9% in October 2005 in connection with the sale of 7,539,500 IPSs to the Caisse and certain officers of the Company, as discussed earlier.

The seven-person Board of Managers of Holdings includes two members from the manager of the ArcLight Funds who were appointed by the Existing Investors, and the President/CEO of the Manager. These three individuals may not vote on any proposed acquisitions by Holdings of projects from the ArcLight Funds.

The Manager receives administrative and office support services from the manager of the ArcLight Funds under a Management Support Agreement. This agreement also requires ArcLight and its affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for ArcLight Fund I and Fund II or other investment funds managed by ArcLight or its affiliates.

At the time of the IPO, Holdings was granted a right of first offer ("ROFO") on a number of power producing projects owned by the ArcLight Energy Partners Fund. The right of first offer related to interests in 11 power generating projects representing approximately 706 net MW of total electric generation capacity. During the third quarter of 2005 Holdings completed the acquisition of Chambers, one of the ROFO projects, as described in the Acquisitions & Dispositions section above. During the second quarter of 2005, ArcLight Energy Partners Fund I ("Fund I") offered a package of nine of the ROFO projects to Holdings for purchase. Holdings conducted an analysis of the price and terms offered by Fund I and notified Fund I that it was declining to purchase the projects on the terms offered. In late September 2005, ArcLight Fund I entered a purchase and sale agreement with a third party and closed the sale of the projects to that company in December 2005.

As discussed under Contractual Obligations above, the Manager subleases its office space from ArcLight, under an agreement that runs through 2014.

Caithness Energy has an indirect ownership interest in one of the Existing Investors. Subsidiaries of Caithness Energy provide operations and maintenance at four of the Projects and accounting, tax and other administrative functions for 12 of the Projects under agreements which are in effect through 2007 and renewable thereafter. During the year ended December 31, 2005, Holdings incurred fees and expenses of \$2,750 for these services provided by Caithness Energy.

## FINANCIAL AND OTHER INSTRUMENTS

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates as the Company earns its income principally in the United States and has the obligation to make distributions predominantly in Canadian dollars. The Company has entered into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2010 at the current annual distribution level of Cdn. \$1.03 per IPS to all holders including the Existing Investors, as well as interest payments on the separate Subordinated Notes. It is the Company's intention to extend the length of these forward contracts out to five years at or near the end of each year. As planned, changes in the fair market value of the Company's forward contracts partially offset exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations.

For the year ended December 31, 2005, the Company has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,608 monthly through December 2009. The Company also has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,209 monthly during 2010. The average rate during the period to December 2009 is \$1.2055 and \$1.1225 during 2010.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange loss. The foreign exchange contracts are classified as other assets.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects to cash flow of changing natural gas prices, which is a major component of project expenses. Some of these contracts have been designated as hedges for accounting purposes. In addition, other projects have entered into natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

### ACCOUNTING ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the period presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property plant and equipment and power purchase contracts, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives.

The Company has acquired the majority of its long-term assets through acquisitions. In applying the purchase method of accounting, the Company is required to fair value the assets acquired including the property plant and equipment and intangible assets. The determination of these fair values is complex and involves significant judgments. On an ongoing basis, the Company monitors the performance of the facilities to determine if any recoverability issues exist or if any change in the useful life of the facility is required.

The annual audit for 2005 at one of the projects contains a going concern qualification in the Auditor's Letter based on the assessment that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, might need to renegotiate with its lenders in or around the year 2010. As disclosed at the time of the IPO, the Company is not expecting to receive any distributions from the project until after the debt is retired, as scheduled in 2018. In accordance with GAAP, a review of the recorded value of the project's assets indicated that no economic impairment has occurred as of December 31, 2005. There is a risk that conditions contributing to this assessment could further deteriorate and management will continue to monitor the project closely.

The future tax asset valuation allowance has been determined pursuant to the provisions of CICA 3465, "Income Taxes", including the Company's estimation of future taxable income, where necessary, and is adequate to reduce the total future tax asset to an amount that will more likely than not be realized. The Company has limited operating history. It incurred taxable losses for the taxation period ended December 31, 2004 and the taxable income for the year ended December 31, 2005. The Company does not anticipate generating significant taxable income over the next several years. It is not considered likely that future tax assets will be realized over the next few years. Accordingly, the Company has provided a valuation allowance equivalent to the Company's net future tax assets.

The fair value of financial instruments and derivatives such as the forward foreign currency contracts, interest rate swaps and natural gas swaps are typically based on market quotes. The Company also has Indexed Swap and related hedge agreement as discussed in Note 14 of the audited consolidated financial statements. The fair values of these agreements are based on estimated future cash flows taking into account certain assumptions, including forecasts of future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair values of these agreements.

Refer to Note 1 of the audited consolidated financial statements for the period ended December 31, 2005.

#### **ADOPTION OF ACCOUNTING POLICY**

The Company applies CICA Accounting Guideline 15, "Consolidation of Variable Interest Entities". As a result of applying this guideline, the Company consolidated a variable interest entity for which it is determined to be the primary beneficiary.

#### **DISCLOSURE CONTROLS**

As of December 31, 2005, an evaluation was carried out, under the supervision of and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as defined under Multilateral Instrument 52-109. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective.

#### **LITIGATION**

One of Holdings' subsidiaries was previously a partner of Masspower. In July 2005, Masspower and its former partners were named as defendants in a suit filed by the Massachusetts Municipal Wholesale Electric Company ("MMWEC"), which holds a power purchase agreement entitling it to 7.86% of the capacity and energy of the facility. MMWEC alleges that Masspower has, among other things, breached the agreement by restructuring its natural gas contracts without MMWEC's approval. The Masspower partners filed an answer to the suit denying its material allegations. On December 28, 2005, the Masspower partners sold their interest in the facility to a third party. Under the terms of the purchase and sale agreement, the sellers are indemnified by the buyer with respect to any successful claim against Masspower partners that may result from the resolution of the suit, which indemnity is secured by the plant. In addition, the buyer may use a portion of the sale price that was placed in escrow pending the outcome of the litigation process toward defense costs and potential claims. The Company has not recognized in income the \$437 portion of the sales proceeds placed in escrow. Management believes that the settlement of this dispute will have no material impact on the Company.

The Chambers partnership, in which Holdings owns a 40% indirect interest, has filed suit against its coal supplier, CONSOL Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things, 1) a declaratory judgment regarding the terms of the agreement, 2) damages for missed deliveries, and 3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defenses and counterclaims in its answer and the parties are currently in the discovery process. Although the outcome of the matter is not certain, management believes the coal supplier's affirmative defenses and counterclaims are without merit and the litigation is at too early a stage to estimate exposure.

The Rumford cogeneration facility purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague are disputing terms and compensation for certain terminal services provided by Sprague and Massey asserts that Rumford also has failed to pay certain amounts due under the coal supply agreement. The amounts in dispute are not material and management has not yet formed an expectation regarding the potential outcome of this suit. Massey continues to supply coal to the plant on a timely basis.

#### **OUTSTANDING SHARE DATA**

The Company had outstanding 44,339,500 IPSs at March 31, 2006.

## **OUTLOOK**

In order to maintain stable distributions and provide long-term growth, the Company will continue to focus on enhancing the financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

PPAs in the portfolio have various expirations and, in each case, the project's partners plan for that occurrence by evaluating various options in the market in order to continue maximizing project cash flows. For example, projects with PPA expirations in the 2008-2009 timeframe have already begun to prepare for potential new or extended power purchase arrangements. The new arrangements may involve responses to utility solicitations for capacity, direct negotiations with the original purchasing utility for PPA extensions, or arrangements with creditworthy marketers for tolling agreements, PPAs or the use of derivatives to lock in value. Neither Stone & Webster in its Technical Review nor management assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations.

## **RISK FACTORS**

Atlantic Power's future performance and ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs involves a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares, or Subordinated Notes or on the market price or value of IPSs, Common Shares or Subordinated Notes. The following is a list of the primary risks facing the Company, with further discussion of risk factors found in the Company's Annual Information Form dated March 30, 2006.

### **REVENUE MAY BE REDUCED UPON EXPIRATION OR TERMINATION OF PPAs**

Power generated by the Projects, in most cases, is sold under PPAs that expire at various times. In addition, these PPAs may be subject to termination in certain circumstances, including default by the Project owner or operator. When a PPA expires or is terminated, it is possible that the price received by the relevant Project for power under subsequent arrangements may be reduced significantly. It is possible that subsequent power purchase arrangements may not be available at prices that permit the operation of the Project on a profitable basis. If this occurs, the affected Project may temporarily or permanently cease operations.

### **THE PROJECTS DEPEND ON THEIR ELECTRICITY AND THERMAL ENERGY CUSTOMERS**

Each Project relies on one or more PPAs, steam sales agreements or other agreements with one or more utilities or other customers for a substantial portion of its revenue. The amount of cash available for distribution to holders of IPSs, Common Shares and Subordinated Notes is highly dependent upon customers under such agreements fulfilling their contractual obligations. There is no assurance that these customers will perform their obligations or make required payments to the Project Operating Entities.

### **CERTAIN PROJECTS ARE EXPOSED TO FLUCTUATIONS IN THE PRICE OF ELECTRICITY**

While a majority of the off-takers of the Projects are contractually obligated to purchase electricity under long-term PPAs, those Projects with power purchase arrangements based on market pricing will be exposed to fluctuations in the wholesale price of electricity. In addition, should any of the long-term PPAs expire or terminate, the Manager or the relevant Project operator will be required to either negotiate new PPAs or sell into the electricity wholesale market, in which case the prices for electricity will depend on market conditions at that time.

### **PREDICTING PROJECT CASH FLOWS OVER THE LONG TERM IS DIFFICULT**

Due to the many uncertainties described in this risk factors section that could materially affect future revenues or expenses, it can be difficult to make long-term projections of the Company's operating margins.

#### OPERATIONS ARE SUBJECT TO THE PROVISIONS OF VARIOUS ENERGY LAWS AND REGULATIONS

Generally, in the United States, the Company's projects are subject to regulation by the Federal Energy Regulatory Commission ("FERC") regarding the terms and conditions of wholesale service and rates, as well as by state agencies regarding PPAs entered into by Qualifying Facilities ("QF") projects and the siting of the generation facilities. The majority of the Company's generation is sold by QF projects under PPAs that required approval by state authorities.

On August 8, 2005, EPOA 2005 was enacted, which removed certain regulatory constraints on investment in utility power producers by repealing the Public Utility Holding Company Act of 1935 ("PUHCA 1935") and enacting the Public Utility Holding Company Act of 2005 ("PUHCA 2005"). EPOA 2005 also limited the requirement that electric utilities buy electricity from QFs to certain markets that lack competitive characteristics. Finally, EPOA 2005 amended and expanded the reach of FERC's corporate merger approval authority under section 203 of the Federal Power Act ("FPA"). Over the last several months, FERC has issued final rulemakings implementing these provisions of EPOA 2005.

If any Project that is a QF were to lose its status as a QF, then such Project may no longer be entitled to exemption from provisions of PUHCA 2005 or from provisions of the FPA and state law and regulations. Loss of QF status could trigger defaults under covenants to maintain QF status in the PPAs, steam sales agreements and Project-level debt agreements and result, if not cured within allowed cure periods, in termination of agreements, penalties or acceleration of indebtedness under such agreements, plus interest.

The Projects would also have to file with FERC for market-based rates or file for acceptance for filing of the rates set forth in the applicable PPA and its rates would then be subject to initial and potentially subsequent reviews by FERC under the FPA, which could result in reductions to the rates.

The Company's projects require licenses, permits and approvals which can be in addition to any required environmental permits. No assurance can be provided that we will be able to obtain, comply with and renew as required all necessary licenses, permits and approvals for these facilities. If we cannot comply with and renew as required all applicable regulations, our business, results of operations and financial condition could be adversely affected.

EPOA 2005 provides incentives for various forms of electric generation technologies, which may subsidize our competitors. In addition, EPOA 2005 requires the FERC to select an industry self-regulatory organization which will impose mandatory reliability rules and standards. Among other things, FERC's rules implementing these provisions allow such reliability organizations to impose sanctions on generators that violate their new reliability rules.

We cannot provide assurance that the introduction of new laws, or other future regulatory developments, will not have a material adverse impact on our business, operations or financial condition.

#### PROJECTS ARE SUBJECT TO SIGNIFICANT AIR EMISSIONS REGULATIONS

Environmental laws and regulations have generally become more stringent over time, and this trend may continue. In particular, the U.S. Environmental Protection Agency, or EPA, has recently promulgated regulations requiring additional reductions in nitrogen oxides, or NO<sub>x</sub> and sulfur dioxide, or SO<sub>2</sub>, emissions, commencing in 2009 and 2010 respectively, and has also promulgated regulations requiring reductions in mercury emissions from coal-fired electric generating units, commencing in 2010 with more substantial reductions in 2018. Moreover, certain of the states in which we operate have promulgated air pollution control regulations which are more stringent than existing and proposed federal regulations. Specifically, there is a proposed multi-state carbon cap-and-trade program known as the Regional Greenhouse Gas Initiative, or RGGI, which would apply to the Company's fossil-fueled facilities in the Northeast. A model rule for implementation of RGGI is expected to be released within the next few months.

**THE PROJECTS DEPEND ON SUPPLIERS UNDER FUEL SUPPLY AGREEMENTS AND INCREASES IN FUEL COSTS MAY ADVERSELY AFFECT THE PROFITABILITY OF THE PROJECTS**

Revenues in respect of the Projects may be affected by the availability, or lack of availability, of a stable supply of fuel at reasonable prices. To the extent possible, the Projects attempt to match fuel costs to PPA energy payments. To the extent that fuel costs are not matched directly to PPA energy payments, increases in fuel costs may adversely affect the profitability of the Projects.

The amount of energy generated at the Projects is highly dependent on suppliers under certain fuel supply agreements fulfilling their contractual obligations. The loss of significant fuel supply agreements or an inability or failure by any supplier to meet its contractual commitments may adversely affect cash distributions by the Company.

Upon the expiry or termination of existing fuel supply agreements, the Manager or Project operators will have to renegotiate these agreements or may need to source fuel from other suppliers. There can be no assurance that the Manager or Project operators will be able to renegotiate these agreements or enter into new agreements on similar terms. Furthermore, there can be no assurance as to availability of the supply or pricing of fuel under new arrangements.

The amount of energy generated at the Projects is dependent upon the availability of natural gas, coal, oil or biomass. There can be no assurance of the long-term availability of such resources.

**U.S. FEDERAL INCOME TAX RISKS**

There can be no assurance that U.S. federal income tax laws and IRS administrative policies respecting the U.S. federal income tax consequences generally applicable to a holder of Common Shares and Subordinated Notes, as represented by IPSs, will not be changed in a manner which adversely affects Non-U.S. Holders.

There is no authority that directly addresses the tax treatment of securities similar to the Subordinated Notes as part of a unit that includes common shares of the Company. In light of this absence of direct authority, it cannot be concluded with certainty that the Subordinated Notes will be treated as debt for U.S. federal income tax purposes, and, although the Company intends to take the position that the Subordinated Notes are debt for U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, interest payments on the Subordinated Notes would be re-characterized as non-deductible distributions with respect to the Company's equity, and the Company's net taxable income and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after-tax cash flow would be reduced and the Company's ability to make interest payments on Subordinated Notes and distributions with respect to Common Shares could be materially and adversely impacted.

**ADDITIONAL INFORMATION**

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or at [www.sedar.com](http://www.sedar.com).

## MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS to the Shareholders of Atlantic Power Corporation

The accompanying consolidated financial statements for Atlantic Power Corporation, the management discussion and analysis, and the information included in this annual report have been prepared by Atlantic Power Management, LLC, the Corporation's management who are responsible for their consistency, integrity and objectivity. Management is also responsible for ensuring that the consolidated financial statements are prepared and presented in accordance with Canadian generally accepted accounting principles, which include amounts that are based on estimates and judgments. To fulfill these responsibilities, management maintains appropriate internal control systems and policies and procedures to provide reasonable assurance that assets are safeguarded and the financial records are reliable and form a proper basis for preparation of financial statements.

KPMG LLP, the Corporation's independent auditor, is responsible for auditing the consolidated financial statements in accordance with Canadian generally accepted accounting procedures, and has expressed their opinion on the consolidated financial statements in this report. Their report as auditors, is set forth herein.

The Corporation's Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal controls. The Board of Directors carries out this responsibility through its Audit Committee which meets regularly with management and the independent auditors. The members of the Audit Committee are independent of management. The consolidated financial statements have been reviewed and approved by the Board of Directors and its Audit Committee. The independent auditors have direct and full access to the Audit Committee and the Board of Directors.

**BARRY WELCH**  
*President*

**MARK BYKOV**  
*Chief Financial Officer*

## AUDITORS' REPORT to the Shareholders of Atlantic Power Corporation

We have audited the consolidated balance sheets of Atlantic Power Corporation as at December 31, 2005 and 2004 and the consolidated statements of operations and deficit and cash flows for the year December 31, 2005 and period from November 18, 2004 to December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2005 and 2004 and the results of its operations and its cash flows for the year December 31, 2005 and period from November 18, 2004 to December 31, 2004 in accordance with Canadian generally accepted accounting principles.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Year Ended December 31, 2005 and period from November 18, 2004 to December 31, 2004  
(in thousands of U.S. dollars)

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004 and continued to the Province of British Columbia on July 8, 2005. The Company issued Income Participating Securities ("IPSs") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

The Company has indirect interests in 15 power generation projects located primarily in the United States of America (collectively, the "Projects"). Two of the Projects are wholly owned subsidiaries of the Company, being Onondaga Cogeneration Limited Partnership ("Onondaga") and Lake Cogen Ltd. ("Lake").

The Projects are primarily "Qualifying Facilities" ("QFs") and "exempt wholesale generators" ("EWGs"), which have long-term contracts to sell power. QFs are small power producers or cogenerators (power producers that produce steam as a by-product of the electricity-generating process for use in a second industrial process) that meet certain operating, efficiency and fuel use standards set forth by the United States' Federal Energy Regulatory Commission ("FERC").

## 1. SIGNIFICANT ACCOUNTING POLICIES

### A. BASIS OF CONSOLIDATION

The consolidated financial statements of the Company are prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP") and include the consolidated accounts of all of its subsidiaries. The Company uses equity accounting for investments in which it has significant influence but does not control. The Company proportionately consolidates investments in which it has joint control. The Company eliminates intercompany accounts and transactions.

In June 2003, The Canadian Institute of Chartered Accountants ("CICA") issued Accounting Guideline 15, "Consolidation of Variable Interest Entities" ("AcG-15"). AcG-15 addresses the application of consolidation principles to certain entities that are subject to control on a basis of control other than ownership of voting interests. AcG-15 addresses when an enterprise should include the assets, liabilities and results of activities of such an entity in its consolidated financial statements. The Company adopted AcG-15 on a retroactive basis. The adoption had no impact on opening deficit. The Company has one variable interest entity acquired during 2005 (note 2(b)).

### B. CASH AND CASH EQUIVALENTS, RESERVE FUND AND RESTRICTED CASH

Cash and cash equivalents include cash deposited at banks and highly liquid investments with original maturities of three months or less.

The reserve fund represents short-term investments and cash that management has set aside to support future distributions and to use in part to make acquisitions.

Restricted cash represents cash and short-term investments maintained in accounts administered by a separate agent as required under certain Projects' debt agreements.

### C. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost, net of accumulated amortization. Amortization is provided on a straight-line basis over the estimated useful life of the related asset. The amortization period for facilities ranges from nine to 33 years. The weighted average period of amortization is 23 years.

### D. INTANGIBLE ASSETS

Intangible assets include power purchase contracts, fuel supply agreements and licenses and rights.

Power purchase contracts are valued at the time of acquisition based on the rates received under the power purchase contracts relative to projected market rates. The balances are net of accumulated amortization. Amortization is provided on a straight-line basis over the remaining term of the contract. The amortization period ranges from three to 19 years. The weighted average period of amortization is 10 years.

Fuel supply agreements are valued at the time of acquisition based on the rates projected to be paid under the fuel supply agreement relative to projected market rates. The amortization period ranges from four to 18 years. The weighted average period of amortization is 10 years.

Licenses and rights are valued at the time of acquisition based on the estimated value. Amortization is provided on a straight-line basis over the remaining benefit period of the licenses and rights.

#### E. REVENUE RECOGNITION

Generally, the Company recognizes revenue when electricity and steam are delivered under the terms of the related contracts. If the power purchase contract has pricing that fluctuates over the term of the contract then the Company recognizes revenue based on the estimated average rate for the duration of the contract with the difference between cash received and revenue recognized reflected as deferred revenue.

Onondaga recognizes revenue as the swap agreements it has entered settle monthly, net of any change in fair value on these swap agreements (note 14).

#### F. INCOME TAXES

Income taxes are accounted for using the asset and liability method. Future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in earnings in the year that includes the date of enactment or substantive enactment.

A valuation allowance is recorded against future tax assets to the extent that it is more likely than not that the future tax asset will not be realized.

#### G. GAS TRANSPORTATION CONTRACTS

Onondaga has certain long-term commitments for the provision of natural gas transportation service to the Onondaga project through the year 2013. The contracts all provide for fixed monthly demand charges, in addition to variable commodity charges based on the quantity of gas transported. Obligations related to the long-term gas transportation agreements were recognized as liabilities in purchase accounting upon the acquisition of Onondaga by the Company. These obligations are being relieved over the remaining lives of the contracts.

All of the Company's other gas transportation costs are expensed as incurred.

#### H. ACCOUNTING FOR DERIVATIVES

The Company uses financial derivative agreements in the form of interest rate swaps and foreign exchange forward contracts to manage its current and anticipated exposure to fluctuations in interest rates and foreign currency exchange rates. On occasion, the Company has also entered into natural gas supply contracts and natural gas forwards or swaps to minimize the effects of the price volatility of natural gas which is a major production cost. The Company does not enter into financial derivative agreements for trading or speculative purposes; however, not all derivatives qualify for hedge accounting.

The Company follows Accounting Guideline 13, "Hedging Relationships" ("AcG-13"), issued by CICA, which addresses the identification, designation, documentation and effectiveness of hedging relationships for the purpose of applying hedge accounting and provides guidance with respect to the discontinuance of hedge accounting. Derivative financial instruments not designated within an AcG-13 compliant hedging relationship are measured at fair value with changes in fair value recorded in the consolidated statements of operations and deficit. Derivative financial instruments not designated as hedges are the foreign currency forward contracts, the indexed swap and the indexed swap hedge agreements and certain interest rate swaps. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange loss, indexed swap and indexed swap hedge agreements are netted and reflected as indexed swap under project revenue and adjustments of interest rate swaps are reflected in project interest expense in the consolidated statements of operations.

Effectiveness tests are performed to evaluate hedge effectiveness at inception and on an ongoing basis, both retroactively and prospectively. Unrealized gains or losses on the interest rate swaps designated within a compliant AcG-13 relationship are not recognized.

Gains and losses on natural gas forward contracts and swaps which are designated as a hedge of fuel costs are recognized in income as actual fuel costs are recognized.

Natural gas supply contracts in the normal course of business in which the Company takes possession of the natural gas are treated as executory contracts.

#### I. ASSET RETIREMENT OBLIGATIONS

The fair value of estimated asset retirement obligations is recognized in the consolidated balance sheet when identified and a reasonable estimate of fair value can be made. The asset retirement cost, equal to the estimated fair value of the asset retirement obligation, is capitalized as part of the cost of the related long-lived asset. The asset retirement costs are amortized over the asset's estimated useful life and included in amortization expense in the consolidated statements of operations and deficit. Increases in the asset retirement obligation resulting from the passage of time are recorded as accretion of asset retirement obligation in the consolidated statements of operations and deficit. Actual expenditures incurred are charged against the accumulated obligation.

#### J. LONG-LIVED ASSETS

Long-lived assets, such as property, plant and equipment and intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset.

#### K. DEFERRED FINANCING COSTS

Deferred financing costs consist of loan fees and other costs of financing that are amortized over the term of the related financing using the straight-line method. The amortization period is the term of the debt.

#### L. FOREIGN CURRENCY TRANSLATION

The Company's functional currency and reporting currency is the United States dollar. The functional currency of the Company's subsidiaries and other investments is the United States dollar. Monetary assets and liabilities denominated in Canadian dollars are translated into United States dollars using the rate of exchange in effect at the end of the year. All transactions denominated in Canadian dollars are translated into United States dollars at the exchange rates in effect at the transaction date. Foreign currency translation gains and losses are reflected in the consolidated statements of operations and deficit.

#### M. USE OF ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the year. Actual results could differ from those estimates. During the periods presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property, plant and equipment and power purchase contracts, the recoverability of equity investments, the recoverability of future tax assets, and the fair value of financial instruments and derivatives. These estimates and valuation assumptions are based on present conditions and management's planned course of action, as well as assumptions about future business and economic conditions. Should the underlying valuation assumptions and estimates change, the recorded amounts could change by a material amount.

## N. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform with the financial statement presentation adopted in the current year.

## 2. ACQUISITIONS

The Company formed Atlantic Power Holdings, LLC ("Atlantic Holdings"), a Delaware limited liability company, for the purpose of acquiring indirect interests in 15 Projects from Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC (the "Existing Investors") and acquired the interests of the Existing Investors in the Projects that were held by their wholly owned subsidiaries.

### A. ADJUSTMENT OF 2004 ACQUISITION

On November 18, 2004, the Company acquired for total consideration of \$522,638 (including \$1,014 in acquisition costs) an indirect interest in 15 projects located primarily in the United States of America. During the year ended December 31, 2005, the fair value of certain projects was finalized. The purchase price allocation has been adjusted as follows:

	Preliminary purchase equation	Adjustments	Revised purchase equation
Working capital	\$ 47,213	\$ 577	\$ 47,790
Equity investments	142,777	467	143,244
Property, plant and equipment	296,132	6,002	302,134
Intangible assets	107,340	1,175	108,515
Indexed swap and hedge, net	71,902	-	71,902
Other liabilities	(2,242)	(991)	(3,233)
Long-term debt	(102,476)	(810)	(103,286)
Gas transportation contracts	(38,008)	-	(38,008)
Future tax liability	-	(6,420)	(6,420)
Total purchase price	522,638	-	522,638
Less repayment of assumed debt	167,831	-	167,831
	354,807	-	354,807
Less cash acquired	12,000	-	12,000
	\$ 342,807	\$ -	\$ 342,807
Consideration represented by:			
Cash paid, net of cash acquired	\$ 83,725	\$ -	\$ 83,725
Non-controlling interest liability (note 10)	259,082	-	259,082
	\$ 342,807	\$ -	\$ 342,807

#### B. EPSILON POWER PARTNERS, LLC ACQUISITION

On September 8, 2005, the Company acquired Epsilon Power Partners, LLC ("Epsilon") for cash consideration of \$65,008 including acquisition costs of \$564. Epsilon owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of a 262 megawatt pulverized coal fired cogeneration facility located at E.I. DuPont de Nemours & Company's Chambers Works complex in southwestern New Jersey. The purchase price has been allocated as follows:

Working capital	\$	9,541
Property, plant and equipment		142,817
Intangible assets		87,258
Other liabilities		(7,766)
Long-term debt		(166,842)
<hr/>		
Total purchase price		65,008
Less cash acquired		1,617
<hr/>		
Cash paid, net of cash acquired	\$	63,391

The property, plant and equipment will be amortized over its remaining life estimated as 23 years. The intangible assets will be amortized over periods ranging from 18 years to 23 years.

The Company remains in the process of finalizing its purchase price allocation and the tax basis of the assets acquired.

#### C. PROJECT ACQUISITION

During the year ended December 31, 2005, Atlantic Holdings increased its interest in one of its existing projects. The fair value of the interest acquired by the Company was \$1,074 and was financed by cash consideration at the project level.

#### 3. JOINT VENTURE INVESTMENTS

The Company accounts for eight entities under proportionate consolidation. Chambers was acquired in 2005 (note 2(b)).

Entity name	Proportion consolidated
Badger Creek Limited	50.0%
Chambers	40.0%
Koma Kulshan Associates	50.0%
Mid-Georgia Cogen LP	50.0%
Orlando Cogen Limited LP	50.0%
Pasco Cogen Ltd.	49.9%
Stockton Cogen Company	50.0%
Topsham Hydro Assets	50.0%

The following summarizes the balance sheet at December 31, 2005 and 2004 and, operating results and distributions for the year ended December 31, 2005 and the period from November 18, 2004 to December 31, 2004 for the Company's proportionate share for the eight entities:

	Company's share	
	2005	2004
<b>ASSETS</b>		
Current assets	\$ 64,776	\$ 43,658
Non-current assets	526,761	231,390
	<b>\$ 591,537</b>	<b>\$ 275,048</b>
<b>LIABILITIES</b>		
Current liabilities	\$ 46,940	\$ 23,857
Non-current liabilities	243,552	87,238
	<b>\$ 290,492</b>	<b>\$ 111,095</b>
Operating results:		
Revenue	\$ 126,989	\$ 11,953
Net income	9,231	1,262
Distributions	\$ 19,107	\$ 6,700

#### 4. PROPERTY, PLANT AND EQUIPMENT

	2005	2004
Cost	\$ 447,595	\$ 296,141
Less accumulated amortization	19,116	2,153
	<b>\$ 428,479</b>	<b>\$ 293,988</b>

Amortization expense of \$16,886 (2004 - \$2,153) was expensed during the year.

#### 5. EQUITY INVESTMENTS

The Company has an investment in five entities accounted for under the equity method. The entities are Delta-Person Limited Partnership, Gregory Power Partners LP, Jamaica Private Power Limited Company, Rumford Cogeneration Company LP and Selkirk Cogen Partners LP. The Company owns its interests in Gregory Power Partners LP and a portion of its interest in Rumford Cogeneration Company LP through Javelin Energy LLC. On December 28, 2005, the Company sold its interest in for proceeds of \$59,365 realizing a gain on disposition of \$5,015. An analysis of the investments is presented below:

	2005	2004
Equity investments, beginning of period (note 2)	\$ 139,696	\$ 142,777
Adjustment to purchase price allocations (note 2)	467	-
Disposal of equity investment	(54,350)	-
Equity earnings, net	8,446	593
Distributions received	(15,924)	(3,674)
Equity investments, end of period	<b>\$ 78,335</b>	<b>\$ 139,696</b>

The fair value increment on acquisition of the investments has been allocated to property, plant and equipment and intangible assets.

## 6. INTANGIBLE ASSETS

Intangible assets include power purchase agreements, fuel supply agreements and licenses and rights.

	2005	2004
Power purchase agreements	\$ 14,832	\$ 107,340
Fuel supply agreements	110,403	-
Licenses and rights	70,538	-
	195,773	107,340
Less accumulated amortization	21,096	1,426
	\$ 174,677	\$ 105,914

Amortization expense of \$19,670 (2004 - \$1,426) was expensed during the year.

## 7. CREDIT FACILITY

The Company has a \$75,000 revolving credit facility maturing November 18, 2007, which bears interest at a rate equal to LIBOR or U.S. Base Rate, plus an applicable margin to those rates. At December 31, 2005, \$10,000 was drawn and an additional \$15,061 (2004 - \$14,750) was allocated, but not drawn to support letters of credit. The Company has to meet certain financial covenants. The facility is secured by pledges of assets and interests in certain subsidiaries and Projects.

## 8. LONG-TERM DEBT

	2005	2004
Project debt of joint ventures, interest ranging from 3.25% to 9.125%, expiring between 2006 and 2018	\$ 246,040	\$ 99,066
Less current portion of project debt of joint ventures	21,558	13,764
	\$ 224,482	\$ 85,302

Principal payments due under the terms of non-recourse financing at the Projects in the next five years and thereafter are as follows:

2006	\$ 21,558
2007	24,022
2008	24,376
2009	15,379
2010	15,320
Thereafter	145,385
	\$ 246,040

The Project debt of joint ventures is secured by the respective facility and its contracts with no other recourse to the Company. The loans have certain financial covenants which must be met.

## 9. SUBORDINATED NOTES

	2005	2004
Subordinated Notes (Cdn. \$292,207; 2004 - Cdn. \$248,727)	\$ 251,844	\$ 206,927

The Company issued \$176,560 of 11% Subordinated Notes in conjunction with its initial public offering of IPSs (note 10) and \$30,367 of 11% Subordinated Notes separately. In connection with the October 3, 2005 issuance of IPSs, the Company issued an additional \$37,730 of 11% Subordinated Notes. The proceeds of \$37,730 include a premium of \$605 which is being amortized over the term of the notes. The Subordinated Notes will mature in 2016 subject to redemption under specified conditions at the option of the Company, commencing on or after November 18, 2009. Interest is payable monthly in arrears and the principal repayment will occur at maturity. The Subordinated Notes are secured by a subordinated pledge of the Company's interest in Atlantic Holdings and contain certain restrictive covenants.

## 10. OTHER LIABILITIES, NON-CONTROLLING INTEREST

The net proceeds from the private placement were used by the Company to increase its common membership ownership in Atlantic Holdings from 58.1% to 70.1%. Atlantic Holdings concurrently redeemed membership interests held indirectly by the Existing Investors, reducing the Existing Investors' common membership ownership from 41.9% to 29.9%.

As of December 31, 2005, the Existing Investors have a 29.9% (2004 - 41.9%) interest in Atlantic Holdings and also have the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest for a two-year period from November 18, 2004. The repurchase of the Existing Investors' interests is conditional upon Atlantic Holdings being able, after utilizing its best efforts, to complete or cause the completion of an equity financing on terms acceptable to the managers of Atlantic Holdings who are independent of the Existing Investors and their affiliates, acting reasonably, to secure the necessary funds to enable it to purchase the Existing Investors' interests. Atlantic Holdings may only finance repurchases of Existing Investors' interests pursuant to the exercise of the rights by issuing additional equity securities. This may occur through the sale of equity interests to the Company, the purchase of which by the Company may be financed by a sale of IPSs or other equity securities of the Company. This liquidity right is treated as a liability of the Company and is recorded at fair value on the consolidated balance sheet. To purchase the remaining 29.9% interest, 22,283,721 IPSs would be required to be issued. Existing Investors must hold a minimum 10% interest in Atlantic Holdings until November 18, 2006.

Any change in fair value of the non-controlling interest is recognized in the consolidated statements of operations and deficit as a change in fair value of non-controlling interest. For the period ended December 31, 2005, a gain of \$6,404 (2004 - a cost of \$16,490) is reflected in the consolidated statements of operations and deficit.

## 11. SHARE CAPITAL

	Number (000s)	Amount
Issuance of common stock, initial public offering	32,000	\$ 105,549
Issuance of common stock	4,800	15,832
Balance, December 31, 2004	36,800	121,381
Issuance of common stock	7,539	26,644
Balance, December 31, 2005	44,339	\$ 148,025

The Company issued 32,000,000 IPSs for cash pursuant to its initial public offering on November 18, 2004 and a further 4,800,000 IPSs on December 6, 2004. Each IPS was issued for Cdn. \$10.00. Each IPS consists of one common share of the Company and Cdn. \$5.767 of aggregate principal amount of 11% Subordinated Notes of the Company (note 9). Proceeds of \$121,381 (net of offering costs of \$7,593) were allocated to common stock.

On October 3, 2005, the Company issued 7,539,000 IPSs at a rate of Cdn. \$10.00 per IPS to Caisse de dépôt et placement du Québec and certain officers of the Company in a secondary private placement. Proceeds of \$26,644 (net of offering costs of \$64) were allocated to common stock.

## 12. INCOME TAXES

	2005	2004
Current income tax expense	\$ 8,959	\$ -
Future income tax expense (recovery)	(6,420)	-
	\$ 2,539	\$ -

The following is a reconciliation of income taxes calculated at the Canadian enacted statutory rate (36.12%) to the provision for income taxes in the consolidated statements of operations and deficit.

	2005		2004
Computed income tax expense at Canadian statutory rate	\$ 733	\$	(7,186)
Increase (decrease) resulting from:			
Operating in countries with different income tax rates	58		(164)
	791		(7,350)
Valuation allowance	21,547		357
	22,338		(6,993)
Non-taxable foreign-source income	(904)		-
Canadian loss carryforwards	(12,996)		-
Branch profits tax	739		-
Prior year true-up	(6,420)		-
Other	(218)		6,993
	(19,799)		6,993
Income tax expense	\$ 2,539	\$	-

The tax effect of temporary differences that give rise to significant portions of the future tax assets and future tax liabilities at December 31, 2005 are presented below:

	2005		2004
<b>FUTURE TAX ASSETS</b>			
Intangible assets	\$ 8,849	\$	8,629
Loss carryforwards	12,996		690
Gas transportation contract and other accrued liabilities	13,321		-
Unrealized foreign exchange loss on subordinated notes	3,427		-
Other	2,702		2,168
Total future tax assets	41,295		11,487
Valuation allowance	(21,904)		(357)
	19,391		11,130
<b>FUTURE TAX LIABILITIES</b>			
Property, plant and equipment	15,682		10,336
IPS issuance costs	-		176
Unrealized foreign exchange gain	2,858		-
Other	851		618
Total future tax liabilities	19,391		11,130
Net future tax asset (liability)	\$ -	\$	-

As of December 31, 2005, the Company has the following net operating loss carryforwards that are scheduled to expire in the following years:

2014	\$	5,504
2015		30,476
	\$	35,980

These losses relate to the Canadian entity and may only be used to offset the future income of the Canadian entity for Canadian income tax purposes. A full valuation allowance was taken against the future tax assets set up in respect of the Canadian entity's loss carryforwards as the Company believes that it is not more likely than not that the Canadian entity would be able to use any of these loss carryforwards.

### 13. COMMITMENTS AND CONTINGENCIES

a. In the normal course of business, the Projects may be involved in litigation from time to time.

- i. In July 2005, Masspower and its former partners, including a subsidiary of the Company, were named as defendants in a suit filed by the Massachusetts Municipal Wholesale Electric Company ("MMWEC"), which holds a power purchase agreement entitling it to 7.86% of the capacity and energy of the facility. MMWEC alleges that Masspower has, among other things, breached the agreement by restructuring its natural gas contracts without MMWEC's approval. The Masspower partners filed an answer to the suit denying its material allegations. On December 28, 2005, the Masspower partners sold their interest in the facility to a third party. Under the terms of the purchase and sale agreement, the sellers are indemnified by the buyer with respect to any successful claim against the Masspower partners that may result from the resolution of the suit, which indemnity is secured by the plant. In addition, the buyer may use a portion of the sale price that was placed in escrow pending the outcome of the litigation process toward defence costs and potential claims. The Company has not recognized in income the portion of the sales proceeds placed in escrow on the sale of Masspower of \$437. Management of the Company believes that the settlement of this dispute will have no material impact to the Company.
- ii. Chambers, in which the Company owns a 40% indirect interest, has filed suit against its coal supplier, CONSOL Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things, 1) a declaratory judgement regarding the terms of the agreement, 2) damages for missed deliveries, and 3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defences and counterclaims in its answer, including claims of unjust enrichment and fraud, and the parties are currently in the discovery process. On December 1, 2005, Chambers moved to dismiss the claims of fraud and unjust enrichment, as well as making requests for punitive damages should the fraud claim be dismissed. An order on the Chambers motion is pending. Management of the Company believes the coal supplier's affirmative defences and counterclaims are without merit and the situation is at too early a stage to estimate exposure. The coal supplier is continuing to supply coal.
- iii. The Rumford cogeneration facility purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague are disputing terms and compensation for certain terminal services provided by Sprague. Massey asserts that Rumford also has failed to pay certain amounts due under the coal supply agreement. The amounts in dispute are not material and management has not yet formed an expectation regarding the potential outcome of this suit. Massey continues to supply coal to the plant on a timely basis.

b. Certain projects have long-term contracts for supply and transportation of fuel. The contracts may have minimum volumetric commitments of delivery, but these obligations are non-recourse to the Company.

c. One of Company's proportionately consolidated joint ventures contains a going concern qualification in the auditors' report based on the assessment that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, could need to renegotiate with its lenders in or around the year 2010.

d. Certain projects provide letters of credit ("LOCs") to PPA buyers for contingent project obligations. The Company's aggregate share of these LOCs was \$15,061 at December 31, 2005 (2004 – \$14,750) supported by the Company's revolving credit facility.

#### 14. INDEXED SWAP

A swap agreement (the "Indexed Swap") between the power utility and Onondaga has replaced the Project's original power purchase agreement. The Indexed Swap expires on June 30, 2008. The Indexed Swap is a financial instrument under which the utility company makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full term of the Indexed Swap.

In May 2004, Onondaga contributed the Indexed Swap to a newly formed wholly owned special purpose subsidiary, Onondaga Power Swap Holdings, LLC ("OPSH"). Onondaga has guaranteed OPSH's obligations to the utility company under the Indexed Swap. Also in May 2004, OPSH entered into commodity hedges (the "Indexed Swap Hedge"), in order to lock in favourable gas, power and capacity pricing under the Indexed Swap. The hedges extend through June 30, 2008 and remove almost all commodity exposure from the Indexed Swap through its term.

Changes related to the Indexed Swap are summarized below:

	2005	2004
Fair value, as of December 31, 2004	\$ 99,591	\$ 101,468
Increase in fair value during the period	46,818	1,880
Settlements received	(38,495)	(3,757)
Fair value, as of December 31, 2005	\$ 107,914	\$ 99,591

Changes related to the Indexed Swap Hedge:

	2005	2004
Fair value, as of December 31, 2004	\$ (30,293)	\$ (29,566)
Increase in fair value during the period	(40,479)	(606)
Settlements received	12,225	(121)
Fair value, as of December 31, 2005	\$ (58,547)	\$ (30,293)

## 15. RELATED PARTY TRANSACTIONS

The Company has contracted with Atlantic Power Management, LLC (the "Manager"), a company owned by certain entities that form part of the non-controlling interest (note 10), for management services, including business planning, asset management, acquisitions, financial reporting and general management services. The Manager receives an annual management fee of \$300, cost reimbursements and an incentive fee equal to approximately 25% of cash distributions in excess of Cdn. \$1.00 per IPS and also on existing investors' shares. In 2005, the Manager was paid \$2,989 (2004 – \$620).

The Manager subleases its office space from an existing investor under an agreement through 2014. The obligation under this sublease is \$130 per year in 2006 and 2007 and a total of \$933 for the period 2008 through 2014.

The Company has engaged Caithness Energy, a company affiliated with the non-controlling interest to provide operations and maintenance at four of the Project and accounting, taxes and other administrative functions for 12 of the Projects. In 2005, Caithness Energy was paid \$2,750 (2004 – \$687).

## 16. FAIR VALUES OF FINANCIAL INSTRUMENTS

The fair values of cash and cash equivalents, cash reserve fund, restricted cash, accounts receivable, dividends payable and accounts payable and accrued liabilities approximate carrying values due to the short-term nature of these balances.

The Indexed Swap and Hedge agreements (note 14) are recorded at their estimated fair value based on estimated future cash flows taking into account certain assumptions, including forecasts of future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair value of this agreement.

The non-controlling interests are carried at estimated fair value based on the quoted market value of the IPSs.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value.

The fair value of long-term debt approximates its carrying value based on discounting of cash flows at current market rates.

The fair value of derivative financial instruments is as follows:

	Fair value		Carrying value	
	2005	2004	2005	2004
Indexed swap	\$ 107,914	\$ 99,591	\$ 107,914	\$ 99,591
Indexed swap hedge	(58,547)	(30,293)	(58,547)	(30,293)
Forward foreign currency contract (ii)	10,212	10,212	1,827	1,827
Interest rate swap assets (i), (ii)	-	1,666	-	-
Interest rate swap liabilities (i), (ii)	(6,171)	(3,195)	(6,171)	-
Natural gas swap assets (i), (ii)	3,183	2,626	-	-

i. represents the Company's proportionate share of joint venture investments.

ii. included in other assets on the balance sheet.

iii. included in other liabilities on the balance sheet.

For the year ended December 31, 2005, the Company has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,608 monthly through December 2009. The Company also has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,209 monthly during 2010. The average rate during the period to December 2009 is \$1.2055 and \$1.1225 during 2010.

#### 17. BASIC LOSS PER SHARE

Basic loss per share has been calculated using the weighted average number of units outstanding during the year of 38,659,055 (2004 – 34,727,273).

#### 18. SEGMENTED INFORMATION

The Company operates 14 Projects in the United States. It has one Project in Jamaica which is accounted for using the equity method.

The Company has one line of business being the sale of energy.

Revenue is earned primarily from contracts with large investor-owned utilities. One investment-grade utility contributed more than 10% of revenue (60% of revenue), whereas in the prior year, two investment-grade utilities contributed more than 10% of revenue (58% and 20% of revenue).

**Atlantic Power Corporation Announces September 2007 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of September 2007. A distribution of \$0.0884 per Income Participating Security (“IPS”) will be payable on October 31, 2007 to holders of record at the close of business on September 28, 2007.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0884 reflects a cash dividend per common share of \$0.0355 and an interest payment of \$0.0529 for the month of September 2007.

Atlantic Power Corporation designates this dividend to be an “eligible dividend” pursuant to subsection 89(14) of the Income Tax Act (Canada) and its equivalent in any provinces of Canada.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

NEWS RELEASE TRANSMITTED BY MARKETWIRE

FOR: ATLANTIC POWER CORPORATION

TSX SYMBOL: ATP.UN

August 14, 2007

### **Atlantic Power Corporation Announces Strong Second Quarter 2007 Results and New Power Purchase Agreements**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN, ATP.DB) (the “Company”) today announced its results for the three and six months ended June 30, 2007. All amounts are in U.S. dollars unless otherwise indicated.

#### **Second Quarter 2007 Highlights:**

- **EBITDA at Projects up 9%**
- **New tolling agreements at the Gregory and Pasco projects enhance growth profile and cash flow stability**
- **Revolving credit facility amended to reflect longer term, increased amount and improved pricing**
- **Distribution payout ratio of 87% for the quarter and 76% year-to-date**

“Our strong operating and financial performance in the second quarter reflects our continued success in optimizing our high quality asset base to grow cash flow,” commented Barry Welch, President and CEO. “A number of key transactions during and subsequent to the quarter are expected to contribute to further growth and the increased stability of our cash flow over the long term.”

#### **Cash Flow Available for Distribution**

For the three months ended June 30, 2007, Cash Flow Available for Distribution was \$17.4 million (Cdn \$0.28 per diluted IPS) compared to \$21.1 million (Cdn \$0.54 per diluted IPS) for the same period last year. Distributions declared in the second quarter of 2007 were Cdn\$16.3 million (Cdn \$0.27 per IPS), generating a payout ratio of 87%. The decrease in Cash Flow Available for Distribution in the second quarter of 2007 compared to 2006 is primarily attributable to routine fluctuations in the timing of working capital and the timing of semi-annual debt payments at the Path 15 Project.

For the six months ended June 30, 2007, Cash Flow Available for Distribution was \$38.2 million (Cdn \$0.61 per diluted IPS) compared to \$31.4 million (Cdn \$0.81 per diluted IPS) for the same period last year. Distributions declared for the first half of 2007 were Cdn\$32.6 million (Cdn \$0.53 per IPS), resulting in a payout ratio of 76%. The increase in Cash Flow Available for Distribution for the six-month period was primarily due to higher operating cash flow, attributable to a full period contribution from Path 15 transmission line, purchased in September 2006, and improved results at the Chambers and Pasco projects.

## Strong Operating Performance

Adjusted EBITDA at the Projects, including earnings from equity investments, increased 9% and 16% to \$34.6 million and \$68.1 million, respectively, in the three and six month periods of 2007 compared to the same periods last year (see *Non-GAAP Measures* in this news release). The increase was driven by the new contribution from Path 15, increased generation and efficiency as well as lower maintenance expense at Pasco and strong performance at Chambers due to higher power prices. These increases were partially offset by a lower contribution from the Selkirk project and the absence of any contributions from Gregory. Because these two projects are accounted for under the cost method of accounting, their Adjusted EBITDA is equal to distributions received. Distributable cash at Gregory is currently restricted under the terms of its project-level debt agreement. Also partially offsetting results was the \$5.1 million impairment charge incurred related to the planned sale of the Company's interest in the Jamaica project (see discussion under Recent Transactions below).

The Company generated project income of \$2.7 million in the second quarter, which included non-cash mark-to-market losses of \$24.2 million related to changes in the fair value of the Chambers PPA. For the first six months of 2007, the Company generated a project loss of \$32.2 million, which included \$73.5 million of non-cash mark-to-market losses related to the Chambers PPA. The fair value adjustment to the Chambers PPA arises due to adoption by the Company at January 1, 2007 of a new accounting standard for financial instruments, as fully described in the Company's MD&A for the second quarter of 2007. During the second quarter of 2007, the Company also recognized a \$10 million non-cash gain associated with a settlement of firm gas transportation contracts at the Onondaga project (see discussion under Recent Transactions below). Excluding these non-cash items, project income was \$16.9 million for the three months and \$31.2 million for the six months ended June 30, 2007, compared to \$16.8 million and \$29.0 million respectively, for the same periods last year. The net loss for the three and six months ended June 30, 2007 was \$24.2 million or \$0.39 per IPS and \$56.2 million or \$0.91 per IPS, respectively. Not including the mark-to-market losses and the non-cash gain at Onondaga, the net loss for the three months would have been \$10.0 million or \$0.16 per IPS and the net income for the six months ended June 30, 2007 would have been \$7.3 million or \$0.12 per IPS.

During the second quarter of 2007, it was determined that a future tax liability should be reflected as a result of the adjustments to opening retained earnings (deficit) as of January 1, 2007 related to the initial adoption of new accounting standards for financial instruments. As a result, opening retained earnings as of January 1, 2007 has been reduced by \$87,938 with a corresponding increase in the future tax liability. In addition, the change in the fair value of the Chambers PPA resulted in a reduction in the future tax liability of \$9,704 and \$29,401, respectively, in the three and six months ended June 30, 2007. These amounts were recorded as a credit to income taxes in the consolidated statement of operations and retained earnings (deficit) in the three and six months ended June 30, 2007. The impact of this correction, which does not affect cash flows, is to reduce the previously reported loss for the three months ended March 31, 2007 by \$17,693 or \$0.29 per IPS. Accordingly, income tax expense (benefit), net income (loss) and income (loss) per IPS are restated to (\$16,687), (\$32,047) and (\$0.52), respectively, for the three months ended March 31, 2007 and the future tax liability as of March 31, 2007 was \$87,676. The Company has filed the restated first quarter financial statements and management's discussion and analysis on SEDAR.

## Recent Transactions

In June 2007, the Onondaga project paid \$9.75 million to an unrelated third party in exchange for the assumption by the third party of long-term firm gas transportation contract obligations that are no longer required by the project. Associated tax benefits will reduce the after-tax cost to the Company by an estimated \$3.2 million. This transaction resulted in a gain to second quarter 2007 earnings of approximately \$10.0 million. The payment was funded with a \$9.75 million contribution from the Company, which in turn was partially funded by a \$9.4 million release of restricted cash at the Path 15 project.

In July 2007, a subsidiary of the Company entered into an agreement to sell its interest in the Jamaica project for \$6.2 million. The carrying value of the project at June 30, 2007 exceeded the sale price, and accordingly an impairment charge in the amount of \$5.1 million was recorded in the second quarter of 2007. The transaction is expected to close in the second half of 2007.

In July 2007, the Gregory project executed a tolling agreement with Fortis Merchant and Private Banking. This new agreement will commence when the current PPA expires in 2009 and extends for five years through 2013. Under the tolling agreement structure, the project receives fixed payments based on meeting plant availability and heat rate targets and is not exposed to fuel or electricity price risk. Based on the terms of the new agreement, the terms of the project-level financing arrangements and forecasted operations at the plant, the Company expects to receive distributions from the Gregory project in the range of \$10 to \$12 million in 2008, \$8 million of which is expected from a release of restricted cash debt reserves.

In August 2007, the Pasco Project signed a new 10-year tolling agreement with Tampa Electric Company ("TECo"). Under the terms of the agreement, which is effective from 2009 to 2018, all of the capacity of the project is dedicated to TECo and Pasco does not retain any fuel or electricity price risk. This agreement is subject to customary approval by the Florida Public Service Commission. The Company expects to receive distributions from Pasco of approximately \$2 million per year during the term of the agreement.

In August 2007, the Company amended its revolving credit facility. Under the terms of the amendment, the total amount available under the credit facility has been increased from \$75 million to \$100 million, of which \$50 million may be utilized for letters of credit. The November 2008 maturity date of the credit facility has been extended to August 2012 with an option for the Company to extend the maturity date by one additional year. Outstanding amounts under the amended credit facility bear interest at the London Interbank Offered Rate ("LIBOR") plus an applicable margin that varies based on certain credit ratios of Holdings. The range of applicable margin is 0.875% to 1.625%. Based on Holdings' credit statistics at June 30, 2007, the applicable margin is currently 0.875%. Prior to the amendment, the applicable margin was fixed at 1.50%.

The calculation of Cash Flow Available for Distribution and a summary of Adjusted EBITDA by individual project for the three and six months ended June 30, 2007 and 2006 are attached to this news release. The Company's financial statements for the period and management's discussion and analysis for the three and six months ended June 30, 2007 are available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com) and on SEDAR at [www.sedar.com](http://www.sedar.com).

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

**Forward-Looking Statements**

*Certain statements in this news release constitute forward-looking statements, which reflect the expectations of the management of Atlantic Power Management, LLC, the manager of the Company, regarding the Projects and the anticipated financial results and operations of the Projects. Words such as "will", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect current expectations regarding future events and operating performance and speak only as of the date of this news release. Forward-looking statements involve a variety of significant risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, fuel and electricity prices, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements and should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or when such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the risks and uncertainties discussed in the Company's management's discussion and analysis for the year ended December 31, 2006 and the factors discussed under "Risk Factors" contained in the Company's annual information form dated March 28, 2007. Although the forward-looking statements contained in this news release are based upon what are believed to be reasonable assumptions, investors can not be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this news release and the Company assumes no obligation to update or revise them to reflect new events or circumstances.*

**Non-GAAP Measures**

*Cash Flow Available for Distribution is not a measure recognized under Canadian generally accepted accounting principles ("GAAP") and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of Cash Flows from Operating Activities to Cash Flow Available for Distributions is attached to this news release and is also included in the Company's management's discussion and analysis for the three and six months ended June 30, 2007. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.*

*Adjusted EBITDA, earnings before interest, taxes, depreciation, amortization and change in fair value of derivative instruments, is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses Adjusted EBITDA at the Project-level to provide comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other issuers.*

1. Income tax installments recoverable represents management's estimate of U.S. federal income tax installment payments that will be recovered in future periods. The amount presented is comprised of installment payments made during the period, offset by the current tax provision recorded in the consolidated statement of operations and deficit and any income tax refunds received. These adjustments have the effect of removing changes in working capital resulting from the timing of tax payments from the calculation of cash flow available for distribution.
2. Cash flow available for distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP and is therefore unlikely to be comparable to similar measures presented by other issuers. Non-GAAP measures should not be considered as alternatives to net income or comparable metrics determined in accordance with GAAP as indicators of the Company's performance, liquidity, cash flows and profitability. For more information on non-GAAP measures, see "Non-GAAP Financial Measures" in the Company's management's discussion and analysis for the three and six month periods ended June 30, 2007.

- Adjusted EBITDA is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP and is therefore unlikely to be comparable to similar measures presented by other issuers. Non-GAAP measures should not be considered as alternatives to net income or comparable metrics determined in accordance with GAAP as indicators of the Company's performance, liquidity, cash flows and profitability. For more information on non-GAAP measures, see "Non-GAAP Financial Measures" in the Company's management's discussion and analysis for the three and six month periods ended June 30, 2007. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, amortization and changes in fair value of derivative instruments. Management uses adjusted EBITDA at the Projects to provide comparative information about Project performance.
- Effective January 1, 2007, the Gregory and Selkirk Projects are accounted for under the cost method of accounting. See "Changes in Accounting Policies" in the Company's management's discussion and analysis for the three and six month periods ended June 30, 2007 for additional information.

**Form 52-109F2 - Certification of Interim Filings**

I, *Barry E. Welch, Chief Executive Officer of Atlantic Power Management, LLC, Manager of Atlantic Power Corporation*, certify that:

1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of *Atlantic Power Corporation*, (the issuer) for the interim period ending *March 31, 2007*;
2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings;
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the issuer, and we have:
  - (a) designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared; and
  - (b) designed such internal control over financial reporting, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP; and
5. I have caused the issuer to disclose in the interim MD&A any change in the issuer's internal control over financial reporting that occurred during the issuer's most recent interim period that has materially affected, or is reasonably likely to materially affect, the issuer's internal control over financial reporting.

Date: August 14, 2007

Patrick J. Welch  
Chief Financial Officer  
Atlantic Power Management, LLC  
As Manager of  
Atlantic Power Corporation

## MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management's discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the unaudited financial statements of Atlantic Power Corporation ("Atlantic Power" or the "Company") for the three months ended March 31, 2007. All dollar amounts in this MD&A are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP").

### Forward-Looking Statements

Certain statements in this MD&A constitute forward-looking statements, which reflect the expectations of the management of Atlantic Power Management, LLC (the "Manager"), the manager of the Company regarding the Projects and the anticipated financial results and operations of the Projects (as defined below). Words such as "will", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect current expectations regarding future events and operating performance. Forward-looking statements involve a variety of significant risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, fuel and electricity prices, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements and should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or when such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed in the "Risk Factors" section in this MD&A and under "Risk Factors" in the Company's Annual Information Form dated March 28, 2007. All forward-looking statements in this MD&A are qualified by these cautionary statements. Except as required by applicable law, the Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Information contained in this MD&A is based on information available to management as of May 15, 2007.

Copies of financial data and other publicly filed documents, including the Company's annual information form, are available through the Internet on SEDAR at [www.sedar.com](http://www.sedar.com) under "Atlantic Power Corporation".

### Overview

The Company currently has 61,470,500 income participating securities ("IPSs") and Cdn\$60 million principal amount of 6.25% convertible secured debentures due October 31, 2011 (the "Debentures") outstanding, and owns 100% of the membership interests in Atlantic Power Holdings, LLC ("Holdings"). Holdings was formed in 2004 to acquire indirect interests in a diversified portfolio of power generating facilities located primarily in major markets in the United States from ArcLight Energy Partners Funds I, L.P. ("Fund I") and ArcLight Energy Partners Funds II, L.P. ("Fund II", and, together with Fund I, the "ArcLight Funds") and Caithness Energy, LLC ("Caithness") (together with the ArcLight Funds, the "Existing Investors"). Each IPS represents: (1) one common share of the Company ("Common Share"); and (2) Cdn\$5.767 aggregate principal amount of 11.0% subordinated notes of the Company ("Subordinated Notes"). IPS investors receive a monthly distribution comprised of a dividend payment on the common share and an interest payment on the Subordinated Notes. The current annual rate of the total distribution is Cdn\$1.06 per IPS. The Debentures were issued on October 11, 2006 and bear interest at an annual rate of 6.25%, payable semi-annually in arrears on April 30 and October 31 of each year commencing on April 30, 2007.

As of March 31, 2007, Holdings owned interests in 14 power generating facilities in the United States and one in Jamaica, and a transmission line located in central California (collectively, the "Projects" and individually a "Project"). The generating Projects have a combined total power generating capacity of approximately 2,160 megawatts ("MW"). Holdings' interest in the Projects represented approximately 860 MW of power generating capacity as of March 31, 2007. Most of the generating Projects sell their power under long-term power purchase agreements ("PPAs") to investment-grade utilities. These agreements are typically structured to stabilize cash flows by: (1) providing a significant portion of revenues via steady capacity payments generally designed to provide a return of and on capital and to cover fixed costs regardless of how much electricity the plant is called upon to produce, provided that the plant meets an availability requirement; and (2) passing most of the generating Projects' fuel costs through to the utilities. As a result, variations in the portfolio's cash flow based on changes in the amount of power generated, spot market electricity prices and fuel price changes are significantly mitigated.

The Path 15 transmission line is a United States Federal Energy Regulatory Commission ("FERC") regulated asset with a 30-year regulatory life. Its annual revenue requirement is collected by the California Independent System Operator ("CAISO") from utilities in California without variations from changes in power prices or line usage and with virtually no technical or operating risks.

The Company's objectives are to maintain the stability and sustainability of cash distributions to holders of IPSs in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares. To achieve these objectives, Company management, working directly with project managers, focuses on enhancing the operation of the existing Projects by improving facility performance, increasing output and efficiency, optimizing contracts and managing other project risks. In addition, the Company has a focused growth strategy that includes: consolidating interests in Projects that it currently owns and making accretive acquisitions with a primary focus on the electric power industry in the United States and Canada.

Management believes that opportunities for accretive acquisitions will be available based on a number of factors, including continued electricity demand growth and the corresponding need for new power plants, increased liquidity in the secondary market for ownership interest in power-related assets, and superior access to potential growth transactions through ArcLight and the Manager's industry contacts. Competition for these opportunities has also increased from private equity funds and other sources.

The most significant economic factors affecting the Company's performance are changes in interest rates and the currency exchange rates between the U.S. dollar and the Canadian dollar. Most debt at the Projects bears interest at a fixed rate, but a small amount does have exposure to variability in interest rates. Substantially all of the Company's operating cash flow is earned in U.S. dollars and a large portion of the Company's cash obligations, primarily distributions on IPSs and interest payments on the Debentures, is denominated in Canadian dollars. See "Financial and Other Instruments" in this MD&A for more information about these economic risks and the Company's strategy for managing these risks.

#### **Non-GAAP Financial Measures**

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities from the Company's financial statements to Cash Flow Available for Distribution is set out in the "Calculation of Cash Flow Available for Distribution" section of this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings before interest, taxes, depreciation and amortization and change in fair value of derivative instruments ("Adjusted EBITDA") is not a measure recognized under GAAP and does not have a

standardized meaning prescribed by GAAP. Management uses unaudited Adjusted EBITDA at the Projects to provide comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

#### **Recent Transactions**

On December 20, 2006, the Company announced that it had agreed to sell, on a private placement basis, a total of 8,600,000 IPSs to three institutional investors, including Caisse de dépôt et placement du Québec ("CDP"), as well as Cdn\$3.0 million principal amount of Subordinated Notes issued and sold separately from the IPSs of the Company (the "Separate Subordinated Notes"). This transaction increased CDP's ownership in the Company to 19% of IPSs outstanding. Net proceeds were used by the Company in February 2007 to acquire all of the remaining interest of the Existing Investors in Holdings.

In February 2007, the Rumford Project executed an Interim Financial Consolidation Agreement ("IFCA") with its steam host, the Rumford Paper Company ("Rumford Paper"). The IFCA consolidates the payment obligations of the various agreements between the Rumford Project and Rumford Paper into fixed payment obligations commencing January 1, 2007. The effect of the IFCA is similar to a lease wherein Rumford Paper assumes the risk of fuel and power price volatility as well as most operating costs. Payments under the IFCA will be made quarterly to the partnership over a three-year term ending December 31, 2009. The Company expects to receive annual project distributions of approximately \$2.7 million during the term of the IFCA compared to project distributions in the amount of \$2.3 million received in 2006 from Rumford.

#### **Changes in Accounting Policies**

##### **FINANCIAL INSTRUMENTS**

On January 1, 2007, the Company adopted the new recommendations of Section 3855, *Financial Instruments - Recognition and Measurement*, Section 3865, *Hedges*, Section 1530, *Comprehensive Income* and Section 3251, *Equity*, from the Handbook of The Canadian Institute of Chartered Accountants (the "Handbook"). The retroactive application of the new standards does not require restatement of prior periods.

This change in accounting policy will result in significantly increased variability in net income but will not impact cash flows.

Section 3855, *Financial Instruments - Recognition and Measurement*, establishes standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. The standard requires that financial assets, financial liabilities and non-financial derivatives be recognized on the consolidated balance sheets.

Under this standard, all financial instruments are required to be measured at fair value on initial recognition. Measurement in subsequent periods is based on the classification of the financial instrument as held-for-trading, available-for-sale, held-to-maturity, loans and receivables or other financial liabilities. Transaction costs are expensed as incurred for financial instruments classified or designated as held-for-trading. For other financial instruments, transaction costs are capitalized on initial recognition.

##### *Chambers Power Purchase Agreement*

As a result of adopting the requirements of Section 3855, the Company has determined that the power purchase agreement ("PPA") at the proportionately consolidated Chambers Project is a derivative instrument. The PPA does not qualify for normal purchases and normal sales and has not been designated as a hedge. Accordingly, the PPA has been recorded at its fair value in the consolidated balance sheets and changes in the fair value are recognized in change in fair value of derivative instruments in the consolidated statements of income and deficit.

The fair value of the PPA is measured by comparing the net present value of the cash flows expected to be received under the terms of the PPA to the net present value of the cash flows that would be received if the same volumes were sold at projected market power prices over the term of the contract expiring in 2024. Accordingly, periodic changes to the fair value of the PPA reflect changes in market conditions and do not directly impact the amount of cash flow the Chambers project will receive under the terms of the PPA.

The impact of this change was to increase opening retained earnings (deficit) as of January 1, 2007 by \$212,183 to reflect the fair value of the PPA in the amount of \$155,762 and the removal from the consolidated balance sheet of the unamortized cost of the PPA in the amount of \$56,421 (previously presented as a credit in other intangible assets) on that date. As of March 31, 2007, the fair value of the PPA in the amount of \$106,519 was reflected in the consolidated balance sheets as \$11,319 in current portion of derivative instruments asset and \$95,200 as derivative instruments asset. The change in fair value of the PPA for the three months ended March 31, 2007 is recorded as a loss in the amount of \$49,243 in the consolidated statements of income and deficit.

During the second quarter of 2007, it was determined that a future tax liability should be reflected as a result of the adjustments to opening retained earnings (deficit) as of January 1, 2007 described above. As a result, opening retained earnings as of January 1, 2007 has been reduced by \$87,938 with a corresponding increase in the future tax liability. In addition, the change in the fair value of the Chambers PPA resulted in a reduction in the future tax liability of \$19,697 in the three months ended March 31, 2007. These amounts were recorded as a credit to income taxes in the consolidated statement of operations and retained earnings (deficit) in the three months ended March 31, 2007. The impact of this correction is to reduce the previously reported loss for the three months ended March 31, 2007 by \$17,693 or \$0.29 per IPS. Accordingly, income tax expense (benefit), net income (loss) and income (loss) per IPS are restated to (\$16,687), (\$32,047) and (\$0.52), respectively, for the three months ended March 31, 2007 and the future tax liability as of March 31, 2007 was \$87,676.

#### *Deferred Financing Costs*

Deferred financing costs in the amount of \$10,990 as of January 1, 2007 have been reclassified and presented together with the respective debt instrument to which the costs relate and are now being amortized using the effective interest method. The difference between the straight-line and the effective interest methods of amortization of these costs is de minimus.

See Note 2(a) to the Interim Consolidated Financial Statements for the three months ended March 31, 2007 for additional information about the adoption of the Handbook Sections described above.

#### LONG-TERM INCENTIVE PLAN

The officers and other employees of Atlantic Power Management, LLC (the "Manager") are eligible to participate in the Atlantic Holdings' Long-Term Incentive Plan ("LTIP"), as determined by the independent members of the Board of Directors of the Company. On an annual basis, the Board of Directors establishes awards that are based on the cash flow performance of the Company, each participant's base salary and the market price of the IPSs at the award date. Awards are granted in the form of notional units that have similar economic characteristics to the Company's IPSs. Notional units vest over a three-year period and are redeemed in a combination of cash and IPSs upon vesting. Unvested notional awards are entitled to receive distributions equal to the distributions per public IPS during the vesting period and are awarded in the form of additional notional units. Unvested awards are subject to forfeiture if the participant is not an employee of the Manager at the vesting date or if the Company does not meet certain ongoing cash flow performance targets.

Compensation expense related to awards granted to participants in the LTIP is recorded over the vesting period based on the estimated fair value of the award at each balance sheet date. Forfeitures are recorded as they occur and are not included in the estimated fair value of the

awards. The aggregate number of IPSs which may be issued from treasury under the LTIP is limited to one million.

On March 28, 2007, the Board of Directors approved grants of notional units to acquire a maximum of 172,071 IPSs under the terms of the LTIP. The grant date for the awards for accounting purposes occurred when participants were informed of the details of their awards in April 2007. As a result, no compensation expense related to the LTIP was recorded in the three-month periods ended March 31, 2007 and 2006.

#### LONG-TERM INVESTMENTS

During the three months ended March 31, 2007, management reviewed its accounting for its investments in the Gregory and the Selkirk Projects that have historically been accounted for using the equity method. Based on a current assessment, management has determined that as of January 1, 2007, the cost method of accounting is appropriate for these investments. Beginning January 1, 2007, the Company has prospectively changed its accounting for its investments in the Gregory and Selkirk Projects from the equity method to the cost method of accounting. Under the cost method, investment income is recorded to the extent of distributions received from the Projects. This change in accounting does not impact cash flow.

The Company's investments in the Delta Person, Jamaica and Rumford Projects continue to be recorded under the equity method of accounting and are also included in long-term investments in the consolidated balance sheets.

**Selected Financial Data (in thousands of U.S. dollars, except as otherwise stated)**

<sup>1</sup> Includes equity in earnings from partnerships of \$1,085 for the three month period ended March 31, 2007 from three Projects in which Holdings owns interest of between 24.1% and 40.0%, accounted for on an equity basis.

**Results of Operations for the Three-Month Period Ended March 31, 2007**

**OVERVIEW**

Project income is the primary GAAP measure of the Company's operating results and is discussed in the "Project Operations Performance – Three-Month Period Ended March 31, 2007" section below. In addition, an analysis of non-project expenses impacting the results of the Company is set out in the "Administrative and Other Expenses" section below.

Significant non-cash items, which are subject to potentially significant fluctuations, include: (1) the change in fair value of certain financial instruments which are required by GAAP to be revalued at each balance sheet date (see "Financial and Other Instruments in this MD&A for additional information); (2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S. dollar equivalent of the Company's Canadian dollar-denominated debt and the mark-to-market value of currency forward contracts; and (3) the change in fair value of the non-controlling interest previously held in Holdings by the Existing Investors.

Cash flow available for distribution was \$20,819 for the three months ended March 31, 2007 compared to \$10,243 for the same period in 2006, representing an increase of 103%. See the "Cash Flow Available for Distribution" section of this MD&A for additional information.

Net loss for the three months ended March 31, 2007 was \$32,047 compared to net income of \$3,321 for the comparable period in 2006. The change reflects a project loss of \$34,873 during the first quarter of 2007, attributable to the \$48,403 non-cash change in fair value of derivative instruments. See "PROJECT INCOME" in this MD&A for additional information. Administrative and other expenses increased by \$5,153 to \$13,861 in the three months ended March 31, 2007. The increase includes higher interest expense and a foreign exchange loss in the 2007 period compared to a foreign exchange gain in 2006. Partially offsetting these items is the absence of impacts of the non-controlling interest liability during the three months ended March 31, 2007 as compared to the same period in 2006 as a result of the redemption of Existing Investor interest in the fourth quarter of 2006.

#### PROJECT INCOME

Project revenue totaled \$67,341 during the three months ended March 31, 2007, an increase of \$13,577 from the same period in the prior year. The increase in project revenues during the first quarter of 2007 included a full quarter of operations of the Path 15 Project acquired in the third quarter of 2006. In addition, revenues increased at the Chambers Project as a result of increased generation and higher spot market prices and at Badger Creek due to higher variable energy payments under the Project's power purchase agreement due to higher natural gas prices.

Project expenses increased by \$5,065 or 12% during the three months ended March 31, 2007 compared to the prior year. This increase is attributable to (1) higher fuel and maintenance expenses at Badger Creek as a result of higher natural gas prices and increased costs associated with a planned outage; (2) increased operations and maintenance expense at Lake due to a non-recurring property tax refund received in the first quarter of 2006; partially offset by decreased maintenance expense at Pasco related to expenses associated with an outage and turbine upgrade in the first quarter of 2006.

Project other income (expense) of (\$53,484) during the three months ended March 31, 2007 includes a non-cash charge attributable to the change in fair value of derivative instruments of \$48,403. The change in fair value of derivative instruments is comprised of (1) a decrease in the fair value of the Chambers PPA of \$49,243, driven by changes in forecasted long-term commodity prices; partially offset by (2) the net change in fair value of the indexed swap derivative instruments at the Onondaga Project in the net amount of \$840. The increase in project interest expense during the first quarter 2007 compared to the first quarter 2006 is attributable to non-recourse project-level debt associated with Path 15, which was acquired in September 2006. Other income of \$2,499 in the three months ended March 31, 2006 represents fees received as consideration for amendments to fuel contracts at two of the Projects.

#### ADMINISTRATIVE AND OTHER EXPENSES

Management fees and administration includes the costs of operating a public company, as well as the fees and costs associated with the Manager. The Manager is indirectly owned by the ArcLight Funds and receives compensation in the form of an annual base fee which is indexed to inflation and an incentive fee that is equal to 25% of cash distributions to IPS holders and Existing Investors in excess of Cdn\$1.00 per year per IPS. The Company also reimburses the Manager for reasonable costs incurred to manage the Company. Management fees and administration in the three months ended March 31, 2007 did not change significantly from the same period in the prior year.

Interest expense primarily relates to required interest payments to holders of the Subordinated Notes and the Debentures. The increase in net interest expense during the first quarter of 2007 is due to the issuance of the Debentures and additional Subordinated Notes in the fourth quarter of 2006. Earnings on higher levels of cash and cash equivalents invested in the first quarter of 2007, as well as higher short-term interest rates on these investments, partially offset this increase in interest expense.

Prior to December 31, 2006, distributions to non-controlling interest represented distributions paid by Holdings on membership interests owned by the Existing Investors. As described in "Recent Transactions" in this MD&A, the Company acquired all of the remaining Existing Investors' interest in Holdings in February 2007 and, accordingly, no further distributions will be paid to the Existing Investors. Also related to the Existing Investors interest in Holdings prior to 2007, the loss (income) from change in non-controlling interest represented: (1) the change in the fair value of the liability during each period based on the market value of the IPSs at each balance sheet date; and (2) the reduction in the liability resulting from the redemptions of the Existing Investors' interest in Holdings that occurred in the fourth quarter of 2006.

Prior to December 31, 2006, the non-controlling interest liability was estimated at each balance sheet date based on the market value of the Company's IPSs at the balance sheet date multiplied by the number of membership interest in Holdings owned by the Existing Investors at that date. In December 2006, the final amount to be paid to the Existing Investors for its remaining interest in Holdings was determined based on the net price received per IPS for the Company's sale, on a private placement basis, of 8,600,000 IPSs (see "Recent Transactions" in this MD&A for additional information). As a result, the liability was recorded at \$76.9 million at December 31, 2006 and this amount was paid to the Existing Investors in February 2007 to redeem their remaining interest in Holdings, extinguishing the liability. Beginning in 2007, the financial statements no longer reflect income variations that are attributable to changes in the non-controlling interest liability.

Foreign exchange loss (gain) primarily reflects the unrealized impact of changes in foreign exchange rates on the U.S. dollar equivalent of the Company's Canadian dollar-denominated obligations to holders of Subordinated Notes and Debentures and, prior to 2007, obligations to non-controlling interest. In addition, unrealized and realized gains and losses on the Company's forward contracts for the purchase of Canadian dollars to satisfy these obligations are included in foreign exchange loss (gain). The U.S. dollar to Canadian dollar exchange rate declined slightly during the three months ended March 31, 2007, compared to a slight gain during the comparative 2006 period. These fluctuations in the currency exchange rate resulted in a foreign exchange loss of \$2,481 in the first quarter of 2007 compared to a gain of \$1,553 in the first quarter of 2006.

#### SUPPLEMENTARY FINANCIAL INFORMATION

The key measure used by management to evaluate the results of the Company's investments is Cash Flow Available for Distribution. See the "Cash Flow Available for Distribution" section of this MD&A for additional details and for a reconciliation of Cash Flow Available for Distribution to its nearest GAAP measure, cash flows from operating activities.

The primary factor influencing Cash Flow Available for Distribution is cash distributions received from the Projects. These distributions received are generally funded from Adjusted EBITDA generated by the Projects, reduced by Project-level debt service and capital expenditures, and adjusted for changes in Project-level working capital and cash reserves. Please read the "Non-GAAP Financial Measures" section of this MD&A for important disclosures with respect to Cash Flow Available for Distribution and Adjusted EBITDA.

Because Project Adjusted EBITDA and Project distributions are key drivers of both the performance of the Company's investments and Cash Flow Available for Distribution, this MD&A contains supplementary unaudited non-GAAP information that summarizes Adjusted EBITDA by Project and a reconciliation of Adjusted EBITDA by Project to Project distributions actually received by the Company.

Many of the Company's investments are either proportionately consolidated or accounted for under the cost or equity method of accounting in the consolidated financial statements presented in accordance with GAAP. The proportionate consolidation method of accounting is applied by recording in the Company's consolidated financial statements its proportionate share of each financial statement account at the proportionately consolidated Project. As a result, some components of the Company's balance sheet contain assets that are not directly available to the

Company in the normal course of business, or liabilities that are not direct obligations of the Company.

For example, the Company's proportionate share of cash at a proportionately consolidated Project is reflected in the consolidated balance sheet even though this cash may not be directly controlled by the Company because it is subject to: (1) the provisions of the partnership agreement that governs the underlying investment or; (2) in the case of Restricted Cash, the non-recourse debt covenants at the Projects. Conversely, the Company's proportionate share of debt at a proportionately consolidated Project is also reflected in the consolidated balance sheet notwithstanding that all of the Project-level debt at the Projects is secured by assets at the Projects and is non-recourse to the Company.

Attached to this MD&A are tables of supplementary unaudited non-GAAP information that segregate the consolidated statements of operations and the consolidated balance sheet into amounts attributable to consolidated and proportionately consolidated Projects and amounts attributable to corporate balances. In addition, a column is included that presents the Company's proportionate share of balance sheet and income statement items that are attributable to Projects accounted for under the equity method of accounting. These amounts attributable to Projects accounted for under the equity method of accounting are not included in the consolidated financial statements presented in accordance with GAAP and are provided for informational purposes only.

#### PROJECT OPERATIONS PERFORMANCE – THREE-MONTH PERIOD ENDED MARCH 31, 2007

Aggregate Adjusted EBITDA for the Projects, including earnings from projects accounted for under the equity method, increased 24% during the first quarter 2007 compared to the first quarter 2006. The first quarter included strong performance at Chambers due to higher levels of generation due to a planned outage in the prior year period and stronger spot market pricing, and increased generation and efficiency at Pasco resulting from turbine upgrades in 2006. These increases were partially offset by the absence of any Adjusted EBITDA contribution from Selkirk or Gregory. Because these two projects are now accounted for under the cost method of accounting, their Adjusted EBITDA is equal to distributions received. There were no distributions received from these projects during the first quarter because Selkirk receives distributions in second and fourth quarters of each year and distributable cash at Gregory is currently restricted under the terms of its project-level debt agreement. The first quarter of 2007 results also included a full quarter of contribution from the Path 15 project, which was acquired on September 15, 2006.

Aggregate power generation did not significantly change during the first quarter of 2007 compared to the same period in 2006, while plant availability declined 2.4%. Generation in the first quarter of 2007 was impacted by reductions in energy production at: Lake Cogen, as a result of lower energy sales; Selkirk, due to an unplanned generator outage in January 2007; and Stockton, as a result of a scheduled maintenance outage in March 2007. These reductions in production were offset by increased generation at Chambers, Gregory and Orlando, resulting from outages in the same period in 2006; and Pasco, as a result of increased capacity in 2007 associated with its turbine upgrades completed last year and an unplanned outage in the same period in 2006.

The Project portfolio achieved a weighted average availability of 94.9% for the first quarter of 2007 compared to 97.4% for the same period in 2006. The lower availability was primarily driven by maintenance outages in 2007 at Mid-Georgia and Stockton, and an unplanned outage at Selkirk, partially offset by outages at Gregory and Orlando for the same period in 2006. Each of the three facilities with lower availability this quarter was nevertheless able to achieve 100% of their respective capacity payments as a result of contract provisions that allow for specified levels of planned and unplanned outages.

**Cash Flow from Operating Activities**

The Company's cash flow from the Projects varies from year to year based on, among other things, changes in rates under the PPAs, fuel supply and transportation agreements, steam sales agreements and other Project contracts, compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the operating performance of the Projects. Project cash flows themselves may have some seasonality and the pattern and frequency of distributions from the Projects to Holdings during the year can also vary.

The Company's cash flow from operating activities increased by 134% for the three-month period ended March 31, 2007 compared to the same period in the prior year. The increase was primarily attributable to the results of operations from the Path 15 Project, acquired in September 2006, as well as improvements in cash from operations at the proportionately consolidated Chambers and Lake Projects. In addition, cash flow from operations benefited during the quarter from routine changes in the timing of working capital balances.

**Cash Flow Available for Distribution**

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. The Company increased the distribution from an annual rate of Cdn\$1.03 per IPS to an annual rate of Cdn\$1.06 per IPS, effective with the September 2006 distribution.

Cash flow available for distribution in the three months ended March 31, 2007 increased by \$10,576, or 103% over the same period in 2006 due primarily to the increase in cash flow from operations during the period.

The Company periodically evaluates its level of distributions with its Board of Directors by analyzing payout ratios and long-term cash flow projections, as well as the accretion to cash flow provided by acquisitions.

The table below presents the Company's calculation of Cash Available for Distribution for the three-month period ended March 31, 2007 and 2006.

(In thousands of U.S. dollars, except as otherwise stated)

(unaudited)	Three months ended March 31,	
	2007	2006
Cash flows from operating activities	18,782	8,027
Project-level debt repayment	(4,689)	(4,037)
Interest on IPS portion of Subordinated Notes	8,354	6,127
Income tax installments recoverable (net) <sup>1</sup>	(202)	548
Purchase of property, plant and equipment	(1,426)	(422)
Cash flow available for distribution, US\$	20,819	10,243
Cash flow available for distribution, Cdn\$	24,150	11,938
Interest on IPS Subordinated Notes	8,354	6,127
Dividends on IPS Common Shares	5,610	3,824
Total IPS distributions, US\$	13,964	9,951
Total IPS distributions, Cdn\$	16,297	11,421
Cash flow available for distribution per basic IPS, Cdn\$	\$0.39	\$0.27
Cash flow available for distribution per diluted IPS, Cdn\$	\$0.36	\$0.27
Total distribution declared per IPS, US\$	\$0.23	\$0.22
Total distribution declared per IPS, Cdn\$	\$0.27	\$0.26

<sup>1</sup> Income tax installments recoverable represents management's estimate of U.S. federal income tax installment payments that will be recovered in future periods. The amount presented is comprised of installment payments made during the period, offset by the current tax provision recorded in the consolidated statement of operations and deficit and any income tax refunds received. These adjustments have the effect of removing changes in working capital resulting from the timing of tax payments from the calculation of cash flow available for distribution.

### Summary of Quarterly Results

Variations in quarterly results are driven by the following factors:

- Seasonality of Project revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the PPA payments and the typical scheduling of major facility maintenance in the spring and fall.
- Variations in cash flow may also be driven by the timing of quarterly and semi-annual Project-level debt payments, as distributions from the Projects to the Company must occur in conjunction with passing certain tests at those payment dates.
- Non-cash charges, principally: (1) the change in fair value of certain financial instruments which are required by GAAP to be revalued at each balance sheet date (see "Financial and Other Instruments in this MD&A for additional information); (2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S. dollar equivalent of the Company's Canadian dollar-denominated debt and the mark-to-market value of currency forward contracts; and (3) the change in fair value of the non-controlling interest previously held in Holdings by the Existing Investors.

The table on the following page presents selected quarterly consolidated financial data for the eight most recently completed fiscal quarters.

**Selected Quarterly Consolidated Financial Data (in thousands of U.S. dollars, except as otherwise stated)<sup>1</sup>**

(unaudited)	2005				2006			2007
	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1

<sup>1</sup> Certain 2005 and 2006 figures have been reclassified to conform to the financial statement presentation adopted in 2007

**Liquidity and Capital Resources**

The Company's primary source of cash and cash equivalents is distributions from the Projects. A significant portion of the cash received from Project distributions is distributed in the form of interest and dividends to holders of the IPSs, the Separate Subordinated Notes and the Debentures. The Company plans to maintain the stability and sustainability of cash distributions to holders of IPSs, and to increase, when prudent, dividends on the Common Shares. Future increases in dividends on the Common Shares will be achieved if the Company is successful in maximizing the performance of existing Projects and making accretive acquisitions. The Company may fund future acquisitions with a combination of cash on hand, the issuance of additional debt or equity securities and the incurrence of bank debt.

Management believes that the Company will be able to generate sufficient amounts of cash and cash equivalents to maintain the Company's operations and meet obligations as they become due. The following additional sources of liquidity, in addition to cash flow from operations, are available to the Company.

**CREDIT FACILITY**

Holdings maintains a revolving credit facility in the amount of \$75 million. The facility expires in November 2008. Advances outstanding under the credit facility bear interest at LIBOR plus a margin of 1.5%. As of December 31, 2006, \$13,465 was allocated, but not drawn, to support letters of credit for contingent liabilities at several Projects. In the first quarter of 2007, \$31,000 was borrowed under the credit facility and used to repay the outstanding balance on the Path 15 Acquisition Credit Facility. See "PATH 15 ACQUISITION CREDIT FACILITY" in this MD&A for additional information. As at March 31, 2007, advances of \$31 million were outstanding under the credit facility and the amount available for advances or letters of credit was \$30,535.

**RESTRICTED CASH**

The Projects generally have reserve requirements to support payments for major maintenance costs and project-level debt service. For Projects that are consolidated or proportionately consolidated with Atlantic Power, these amounts, or Atlantic Power's portion of these amounts, are reflected as Restricted Cash on the Company's consolidated balance sheet.

At March 31, 2007, Restricted Cash at consolidated and proportionately consolidated Projects totaled approximately \$37.9 million. All Project-level debt is non-recourse to the Company or Holdings and is fully amortized over the life of the Projects' PPAs.

At certain of the Projects, a portion of the Restricted Cash represents reserves for debt service that are required by Project-level financing arrangements. In some, but not all, cases where a Project-level debt service reserve is represented by Restricted Cash, it is possible for the Company to replace its proportionate share of the debt service reserve with a letter of credit under the revolving credit facility. If the Company chose to replace the Restricted Cash with a letter of credit, the Restricted Cash could be released and distributed to the Company. This represents an additional source of liquidity that the Company may consider for funding acquisitions or other general corporate purposes.

In December 2006, the Company sold 8,600,000 IPSs in a private placement transaction. See "Recent Transactions" in this MD&A for additional details. The proceeds from the private placement transaction were used in February 2007 to acquire all of the remaining interest of the Existing Investors in Holdings. The net proceeds from the private placement transaction were deposited into an escrow account until regulatory approval was received in February 2007 for the transaction, in which the Company acquired all of the remaining interest of the Existing Investors in Holdings. The balance in the escrow account was \$74,433 at December 31, 2006 and was included in Restricted Cash in the consolidated balance sheet. The entire balance in the escrow account was paid to the Existing Investors in February 2007.

#### PATH 15 ACQUISITION CREDIT FACILITY

The acquisition of the Path 15 Project on September 15, 2006 was initially financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. Loans under the Acquisition Credit Facility bear interest at a rate equal to a Eurodollar rate or a U.S. base rate, plus an applicable margin to those rates.

In October 2006, approximately \$37 million of the net proceeds of the Company's public offering of IPSs and Debentures were applied to repay a portion of the principal amount outstanding on the Acquisition Credit Facility. In the first quarter of 2007, the remaining balance due on the Acquisition Credit Facility was repaid using cash on hand and funds drawn from Holdings' revolving credit facility. Management intends to enter into a permanent financing arrangement for the acquisition of the Path 15 Project in the second quarter of 2007. The final amount to be borrowed is expected to be approximately \$50 million and will be non-recourse to the Company.

## Project Portfolio

The following table outlines the Company's portfolio of power generating assets as of March 31, 2007, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any single region.

Project Name	Location	Primary Fuel Type	Total MW	Ownership Interest <sup>1</sup>	Acctg Trmt <sup>2</sup>	Net MW <sup>3</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating
Badger Creek	California	Natural gas	46	50.0%	P	23	Pacific Gas & Electric	2011	BBB
							Atlantic City Electric	2024	BBB

							Reedy Creek Improvement District	2013	A <sup>9</sup>
Pasco	Florida	Natural gas	121	49.9%	P	60	Progress Energy Florida	2008	BBB+
Path 15	California	Transmission	N/A <sup>11</sup>	100.0%	C	N/A <sup>11</sup>	California Utilities via CAISO <sup>10</sup>	N/A <sup>11</sup>	BBB to A <sup>12</sup>
Rumford	Maine	Coal/biomass	85	23.5% <sup>5</sup>	E	20	Rumford Paper Co. <sup>7</sup>	2009	N/R
Selkirk	New York	Natural gas	345	18.5% <sup>5</sup>	Cost	15	Niagara Mohawk	2008	A
							Consolidated Edison	2014	A
Stockton	California	Coal	55	50.0%	P	24	Pacific Gas & Electric	2008	BBB
							Com Products Int'l	2008	BBB-
Topsham <sup>8</sup>	Maine	Hydro	14	50.0%	P	7	Central Maine Power	2011	BBB+

- Except as otherwise noted, economic interest represents the percentage ownership interest in each Project held indirectly by Atlantic Holdings.
- Accounting treatment: C – Consolidated; P – Proportionate consolidation; E – Equity method; Cost – Cost method.
- Represents the interest of Atlantic Holdings in each Project's electricity generation capacity based on Atlantic Holdings' economic interest in each Project.
- The merchant output of the facility is sold by Atlantic City Electric in the spot market through a profit-sharing arrangement with Chambers.
- Represents Atlantic Holdings' estimate of its share of the cash flow from the project.
- A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.
- For further information, see the discussion of the new interim financial consolidation agreement with the former Mead/Westvaco paper mill (now owned by NewPage) under the earlier "Recent Transactions" section.
- Atlantic Holdings owns its interest in this Project as a lessor.
- Rating from Fitch.
- California utilities pay Transmission Access Charges ("TACs") to California Independent System Operator ("CAISO"), which allocates the payments among owners of transmission and Transmission System Rights, such as Path 15, in accordance with their FERC-approved annual revenue requirement.
- Path 15 is an 84-mile, 500-kilovolt transmission line in California. The Project is a FERC-regulated asset with a FERC-approved regulatory life of 30 years, through 2034.
- The largest payers of TACs supporting Path 15's annual revenue requirement and their S&P credit ratings are PG&E (BBB), SoCal Ed (BBB+) and SDG&E (A). CAISO imposes minimum credit quality requirements of A or better for all participants unless collateral is posted per CAISO imposed schedule.

## Capital Expenditures

Capital expenditures for the Projects are made at the Project level using Project cash flows and Project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the Projects and the Company has not to date needed to inject funds into the Projects for ongoing capital expenditures. The Projects in which the Company has investments generally consist of large capital assets that have established commercial operations. Ongoing capital expenditures for assets of this nature are generally not significant because most major expenditures relate to planned repairs and maintenance and are expensed when incurred.

## Related Party Transactions

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid: (1) an annual base management fee of \$3.4; (2) reimbursement of costs; and (3) an incentive fee equal

to 25% of the excess in distributions paid to IPS holders and Existing Investors during the year above Cdn\$1.00 per IPS. The Management Agreement has an initial term of 20 years from the IPO completed in November 2004.

The Manager receives administrative and office support services from ArcLight under a management support agreement executed in November 2004 among the Manager, ArcLight and the Company. This agreement also requires the ArcLight Funds and their affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Holdings, investment opportunities that do not fit within the investment guidelines for the ArcLight Funds or other investment funds managed by ArcLight or its affiliates.

The Manager is owned indirectly by the ArcLight Funds. Subsidiaries of the ArcLight Funds, in conjunction with a subsidiary of Caithness, owned 41.9% of Holdings' common membership interest after the IPO, but reduced their interest to 29.9% in October 2005 and further reduced their interest to approximately 14.0% in October 2006. In February 2007, the Company acquired all of the remaining interest of the Existing Investors in Holdings.

### Financial and Other Instruments

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates, as the Company earns its income principally in the United States and has the obligation to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has executed this strategy by entering into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn\$1.06 per IPS to all holders including the Existing Investors, as well as interest payments on the Subordinated Notes. It is the Company's intention to periodically extend the length of these forward contracts by one additional year. Changes in the fair market value of the Company's forward contracts partially offset exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations. The following table summarizes the Company's forward foreign currency contracts with monthly settlement terms as of March 31, 2007:

#### Notional monthly amounts

Period	Sell U.S. dollars	Buy Cdn. dollars	Average rate
Current-2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

In addition to the forward contracts in the table above that settle on a monthly basis, the Company has executed forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make semi-annual payments on the Debentures. The contracts provide for the purchase of Cdn\$2.1 million and Cdn\$1.9 million in April 2007 and October 2007, respectively, at a rate of 1.1240 Canadian dollars per U.S. dollar and the purchase of Cdn\$1.9 million in April and in October of 2008 through 2011 at a rate of 1.1075 Canadian dollars per U.S. dollar.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange gains and losses. The foreign exchange contracts are classified as other assets.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects on cash flow of changing natural gas prices, which are a significant component of Project expenses. In addition, other Projects have entered into natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

The Company has an Indexed Swap at the Onondaga Project under which it receives monthly payments based upon the differential between an indexed contract price and a market reference price for electricity through June 2008. In order to lock in favorable gas, power, and capacity pricing under the Indexed Swap, the Company has entered into an Indexed Swap Hedge.

The values of all the financial instruments described above are subject to changes in market prices and none have been designated as a cash flow hedge for accounting purposes. Management of the Company monitors these risks and the market values of these financial instruments and periodically reviews its risk management strategies as market conditions change.

#### **Accounting Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the periods presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property, plant and equipment and PPAs, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives.

The Company has acquired the majority of its long-term assets through acquisitions. In applying the purchase method of accounting, the Company is required to estimate the fair value of the assets acquired including the property, plant and equipment and intangible assets. The determination of these fair values is complex and involves significant judgments.

Revenue recognition is based on monthly invoices by the Projects to electricity and steam buyers and, for one Project which has fluctuating rates over time, the average rate over the term of the PPA is used for revenue with the difference between cash received and revenue recognized as deferred revenue. Fixed asset valuations of power plants are based on depreciated replacement cost. Valuations of PPAs and fuel supply agreements are based on the incremental net present value of cash flows provided by the agreement as compared to the merchant value of the plant. The Company typically uses outside consultants to determine the merchant value of a facility. On an ongoing basis, the Company monitors the performance of the facilities to determine if any recoverability issues exist or if any change in the useful life of the facility is required.

The future tax asset valuation allowance has been determined pursuant to the provisions of The Canadian Institute of Chartered Accountants (CICA) Handbook Section 3465, *Income Taxes*, including the Company's estimation of future taxable income, where necessary, and is adequate to reduce the total future tax asset to an amount that will more likely than not be realized. The Company has provided a valuation allowance to reduce net future tax assets to an amount expected to be recovered in the foreseeable future.

The fair values of financial instruments and derivatives such as the forward foreign currency contracts, interest rate swaps and natural gas swaps are typically based on market quotes. The Company also has an Indexed Swap and related hedge agreement and, pursuant to the adoption of Section 3855, has adopted fair value accounting for the Chambers PPA as of January 1, 2007. See "Accounting Policy Changes" in this MD&A for additional information. The fair values of these agreements are based on estimated future cash flows and take into account certain assumptions, including forecasts or future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair values of these agreements.

For additional information regarding accounting policies and estimates, please see Note 1 of the Company's audited consolidated financial statements for the twelve months ended December 31, 2006.

**Commitments and Contingencies**

From time to time, the Company and its subsidiaries and Projects are parties to disputes and litigation that arise in the normal course of business. The Company assesses its exposure to these matters and records estimated loss contingencies when a loss is likely and can be reasonably estimated. There were no matters pending as of March 31, 2007 which are expected to have a material impact on the Company's financial position or results of operations.

**Outstanding Share Data**

The Company had 61,470,500 IPSs outstanding at March 31, 2007 compared to 44,339,500 IPSs outstanding at March 31, 2006. The Debentures are convertible to approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS. As of March 31, 2007, approximately 4,838,700 IPSs would be required to be issued if all of the outstanding Debentures were converted to IPSs.

**Outlook**

In order to maintain stable distributions and provide long-term growth, the Company will continue to focus on enhancing the financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

PPAs in the portfolio have various expiration dates as listed in the "Project Portfolio" table in this MD&A. In each case, the Project's partners plan for such expirations by evaluating various options in the market in order to continue maximizing Project cash flows. For example, partners of Projects with PPA expirations in 2008 have already begun efforts to provide for potential new or extended PPAs. The new agreements may involve responses to utility solicitations for capacity, direct negotiations with the original purchasing utility for PPA extensions, arrangements with other creditworthy parties for tolling agreements, and PPAs or the use of derivatives to lock in stable power and/or fuel prices beyond the spot markets. Management has not assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations.

In 2009, the gas supply agreement at Lake will expire, whereas the PPA extends until 2013. While it is still somewhat early to work on extending this agreement or entering into a new agreement, management is monitoring forward prices in that market. The current gas agreement provides pricing that is currently below market, so management assumes that margins at Lake may fall in 2010 and beyond. Other options to maximize cash flow at Lake include a PPA restructuring and extension, and an analysis is being performed on a possible upgrade of the Project's turbines.

**Risk Factors**

Atlantic Power's future performance and its ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs, and the Common Shares and Subordinated Notes represented thereby, and to holders of Debentures, are subject to a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares, Subordinated Notes or Debentures or on the market price or value of IPSs, Common Shares or Subordinated Notes. A discussion of these risks and uncertainties can be found in the Company's management's discussion and analysis for the year ended December 31, 2006 and Annual Information Form dated March 28, 2007. The Company's management's discussion and analysis and its annual information form are available on SEDAR's website at [www.sedar.com](http://www.sedar.com).

**Disclosure Controls and Procedures**

Based on the requirements of Multilateral Instrument 52-109, *Certification of Disclosure in Issuers' Annual and Interim Filings*, the Chief Executive Officer and Chief Financial Officer of the Manager have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Multilateral Instrument 52-109) as of March 31, 2007. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer of the Manager have concluded that the Company's disclosure controls and procedures were effective as of March 31, 2007 to provide reasonable assurance that material information relating to the Company would be made known to them by others within the Company.

**Additional Information**

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or under the Company's profile on the SEDAR website at [www.sedar.com](http://www.sedar.com).

The following tables present unaudited non-GAAP supplementary financial information provided for informational purposes. Please see "Non-GAAP Financial Measures" and "Results of Operations for the Three-Month Period Ended March 31, 2007 – Supplementary Financial Information" for additional details about the supplementary information.

1 Adjusted EBITDA is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, amortization and changes in fair value of derivative instruments. Management uses adjusted EBITDA at the Projects to provide comparative information about Project performance.

2 Effective January 1, 2007, the Gregory and Selkirk Projects are accounted for under the cost method of accounting. See "Changes in Accounting Policies" in this MD&A for additional information.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 (Restated) and 2006  
(Unaudited)

---

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004 and continued to the Province of British Columbia on July 8, 2005. The Company issued income-participating securities ("IPSs") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

The Company currently owns indirect interests in 15 power generation projects and one transmission line located primarily in the United States of America (collectively, the "Projects"). Three of the Projects are wholly owned subsidiaries of the Company, being Onondaga Cogeneration Limited Partnership ("Onondaga"), Lake Cogen Ltd. and Atlantic Holdings Path 15, LLC ("Path 15").

## 1. Basis of presentation:

These interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2006, as set out in the 2006 Annual Report since they do not contain all the disclosures that are required by Canadian generally accepted accounting principles for annual financial statements. These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, using the same accounting policies and methods of computation as were used for the audited consolidated financial statements for the year ended December 31, 2006, except for the changes described in note 2.

There is some seasonality of the Company's revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the power purchase agreement payments and the typical scheduling of major facility maintenance in the spring and fall.

## 2. Changes in accounting policies:

### (a) Financial instruments (restated):

On January 1, 2007, the Company adopted the new recommendations of Section 3855, Financial Instruments - Recognition and Measurement, Section 3865, Hedges, Section 1530, Comprehensive Income and Section 3251, Equity, from the Handbook of The Canadian Institute of Chartered Accountants. The retroactive application of the new standards does not require restatement of prior periods.

This change in accounting policy will result in significantly increased variability in net income but will not impact cash flows.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006

(Unaudited)

---

## 2. Changes in accounting policies (continued):

Section 3855, Financial Instruments - Recognition and Measurement, establishes standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. The standard requires that financial assets, financial liabilities and non-financial derivatives be recognized on the consolidated balance sheets.

Under this standard, all financial instruments are required to be measured at fair value on initial recognition. Measurement in subsequent periods is based on the classification of the financial instrument as held-for-trading, available-for-sale, held-to-maturity, loans and receivables or other financial liabilities. Transaction costs are expensed as incurred for financial instruments classified or designated as held-for-trading. For other financial instruments, transaction costs are capitalized on initial recognition.

Financial assets and financial liabilities held-for-trading are measured at fair value with changes in those fair values recognized in earnings. Financial assets and liabilities classified as held-to-maturity are measured at amortized cost using the effective interest method of amortization.

Derivative instruments are recorded on the consolidated balance sheets at fair value unless the derivative instrument is a contract to buy or sell a non-financial item in accordance with the Company's expected purchase, sale or usage requirements, referred to as a "normal purchase or normal sale." Changes in the fair values of derivative instruments are recognized in earnings unless the derivative instrument qualifies and is designated as an effective cash flow hedge or a normal purchase or normal sale. Normal purchases and normal sales are exempt from the application of the standard and are accounted for as executory contracts. Changes in the fair value of a derivative instrument designated as an effective cash flow hedge are recorded in accumulated other comprehensive income, a component of equity.

Other significant accounting implications of Section 3855 include the use of the effective interest method of amortization for any transaction costs or fees, premiums or discounts earned or incurred for financial instruments measured at amortized cost.

# ATLANTIC POWER CORPORATION

Three months ended March 31, 2007 and 2006

(Unaudited)

---

## 2. Changes in accounting policies (continued):

As a result of adopting the requirements of Section 3855, the Company has determined that the power purchase agreement ("PPA") at the proportionately consolidated Chambers Project is a derivative instrument. The PPA does not qualify for normal purchases and normal sales and has not been designated as a hedge. Accordingly, the PPA has been recorded at its fair value in the consolidated balance sheets and changes in the fair value are recognized in change in fair value of derivative instruments in the consolidated statements of income and deficit.

The fair value of the PPA is measured by comparing the net present value of the cash flows expected to be received under the terms of the PPA to the net present value of the cash flows that would be received if the same volumes were sold at projected market power prices over the term of the contract expiring in 2024. Accordingly, periodic changes to the fair value of the PPA reflect changes in market conditions and do not directly impact the amount of cash flow the Chambers Project will receive under the terms of the PPA.

The impact of this change was to increase opening retained earnings (deficit) as of January 1, 2007 by \$212,183 to reflect the fair value of the PPA in the amount of \$155,762 and the removal from the consolidated balance sheet of the unamortized cost of the PPA in the amount of \$56,421 (previously presented in other liabilities) on that date. As of March 31, 2007, the fair value of the PPA in the amount of \$106,519 was reflected in the consolidated balance sheets as \$11,319 in current portion of derivative instruments asset and \$95,200 as derivative instruments asset. The change in fair value of the PPA for the three months ended March 31, 2007 is recorded as a loss in the amount of \$49,243 in the consolidated statements of income and deficit.

During the second quarter of 2007, it was determined that a future tax liability should be reflected as a result of the adjustments to opening retained earnings (deficit) as of January 1, 2007 described above. As a result, opening retained earnings as of January 1, 2007 has been reduced by \$87,938 with a corresponding increase in the

---

## 2. Changes in accounting policies (continued):

future tax liability. In addition, the change in the fair value of the Chambers PPA resulted in a reduction in the future tax liability of \$19,697 in the three months ended March 31, 2007. These amounts were recorded as a credit to income taxes in the consolidated statement of operations and retained earnings (deficit) in the three months ended March 31, 2007. The impact of this correction is to reduce the previously reported loss for the three months ended March 31, 2007 by \$17,693 or \$0.29 per IPS. Accordingly, income tax expense (benefit), net income (loss) and income (loss) per IPS are restated to (\$16,687), (\$32,047) and (\$0.52), respectively, for the three months ended March 31, 2007 and the future tax liability as of March 31, 2007 was \$87,676.

Deferred financing costs in the amount of \$10,990 as of January 1, 2007 have been reclassified and presented together with the respective debt instrument to which the costs relate and are now being amortized using the effective interest method. The difference between the straight-line and effective interest methods of amortization of these costs is de minimus.

See note 4 for information about other financial instruments that were not impacted by the adoption of Section 3855.

Section 3865, Hedges, specifies the criteria that must be satisfied in order for hedge accounting to be applied and the accounting for fair value hedges and cash flow hedges. Hedge accounting is discontinued prospectively when the derivative no longer qualifies as an effective hedge, or the derivative is terminated or sold, or upon the sale of the hedged item. As of March 31, 2007, the Company has not designated any derivative instruments as a cash flow hedge or a fair value hedge.

Section 1530, Comprehensive Income, establishes standards for the reporting and display of comprehensive income which consists of net income and other comprehensive income ("OCI"). OCI is presented as a component of equity and is comprised of certain changes in shareholders' equity that are not recognized in net income. Examples of items included in OCI include the effective portion of the changes in fair value of derivative instruments designated as a cash flow hedge and changes in the currency translation adjustment relating to self-sustaining foreign operations. As of March 31, 2007, the Company does not have any items recorded in OCI.

## 2. Changes in accounting policies (continued):

Section 3251, Equity, establishes standards for the presentation of equity and changes in equity during the reporting period, in addition to the requirement in Section 1530. The adoption of Section 1530 had no impact on the Company's consolidated financial statements.

### (b) Long-term incentive plan:

The officers and other employees of Atlantic Power Management, LLC (the "Manager") are eligible to participate in the Atlantic Holdings' Long-Term Incentive Plan ("LTIP"), as determined by the independent members of the Board of Directors of the Company. On an annual basis, the Board of Directors establishes awards that are based on the cash flow performance of the Company, each participant's base salary and the market price of the IPSs at the award date. Awards are granted in the form of notional units that have similar economic characteristics to the Company's IPSs. Notional units vest over a three-year period and are redeemed in a combination of cash and IPSs upon vesting. Unvested notional awards are entitled to receive distributions equal to the distributions per public IPS during the vesting period and are awarded in the form of additional notional units. Unvested awards are subject to forfeiture if the participant is not an employee of the Manager at the vesting date or if the Company does not meet certain ongoing cash flow performance targets.

Compensation expense related to awards granted to participants in the LTIP is recorded over the vesting period based on the estimated fair value of the award at each balance sheet date. Forfeitures are recorded as they occur and are not included in the estimated fair value of the awards. The aggregate number of IPSs which may be issued from treasury under the LTIP is limited to one million.

On March 28, 2007, the Board of Directors approved grants of notional units to acquire a maximum of 172,071 IPSs under the terms of the LTIP. The grant date for the awards for accounting purposes occurred when participants were informed of the details of their awards in April 2007. As a result, no compensation expense related to the LTIP was recorded in the three-month periods ended March 31, 2007 and 2006.

## 2. Changes in accounting policies (continued):

### (c) Long-term investments:

During the three months ended March 31, 2007, management reviewed its accounting for its investments in the Gregory and the Selkirk Projects that have historically been accounted for using the equity method. Based on a current assessment, management has determined that as of January 1, 2007, the cost method of accounting is appropriate for these investments. Beginning January 1, 2007, the Company has prospectively changed its accounting for its investments in the Gregory and Selkirk Projects from the equity method to the cost method of accounting. Under the cost method, investment income is recorded to the extent of distributions received from the Projects. This change in accounting policy does not impact cash flow.

The Company's investments in the Delta Person, Jamaica and Rumford Projects continue to be recorded under the equity method of accounting and are also included in long-term investments in the consolidated balance sheets.

(Unaudited)

### 3. Related party transactions:

In connection with the Company's initial public offering, the Existing Investors acquired the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest for a two-year period from November 18, 2004. This liquidity right was treated as a liability of the Company and recorded at fair value on the consolidated balance sheets. Any change in the non-controlling interest liability was recognized in the consolidated statements of income and retained earnings (deficit) as a change in non-controlling interest liability.

The Existing Investors have exercised the liquidity right in a series of transactions since the initial public offering through February 2007 as follows:

Date	Amount paid to Existing Investors	Incremental share <sup>(i)</sup>
October 2005	\$ 64,374	12.0%
October 2006	87,287	15.5%
February 2007	76,888	14.4%

<sup>(i)</sup> Represents incremental portion of Atlantic Holdings purchased by the Company from the Existing Investors in the transaction.

The amounts paid to the Existing Investors in the transactions above were financed by the Company through the sale of IPSs and convertible debentures.

At December 31, 2006, \$74,433 restricted cash included in the consolidated balance sheets was held in escrow pending regulatory approval of a transaction whereby the remaining interests of the Existing Investors were acquired by Atlantic Holdings. In February 2007, the required regulatory approval was obtained and the transaction was completed. As of March 31, 2007, Atlantic Holdings is a wholly owned subsidiary of the Company and the liquidity right of the Existing Investors has been extinguished.

During the three months ended March 31, 2007, in accordance with the Management Agreement, the Company paid management and incentive fees and cost reimbursements of \$836 (2006 - \$871) to the Manager.

Three months ended March 31, 2007 and 2006

(Unaudited)

## 4. Financial instruments:

### (a) Indexed Swap and Indexed Swap Hedge:

A swap agreement ("Indexed Swap") exists between the power utility and Onondaga, which replaced Onondaga's original power purchase contract. The Indexed Swap expires on June 30, 2008. The Indexed Swap is a financial instrument under which the utility company makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full term of the Indexed Swap.

In May 2004, a subsidiary of Onondaga entered into commodity derivative instruments ("Indexed Swap Hedge"), in order to lock in favorable gas, power and capacity pricing under the Indexed Swap. The Indexed Swap Hedge extends through June 30, 2008 and removes almost all commodity price risk from the Indexed Swap through its term.

The Indexed Swap and Indexed Swap Hedge are recorded at fair value and included in derivative instruments in the consolidated balance sheets. Changes in the fair values of derivative instruments are recorded in change in fair value of derivative instruments in the consolidated statements of income and retained earnings (deficit).

Changes related to the Indexed Swap asset are summarized below:

	Three months ended March 31,	
	2007	2006
Fair value, beginning of period	\$ 50,124	\$ 107,914
Decrease in fair value	(9,854)	(12,625)
Settlements received (paid)	8,057	(8,539)
Fair value, end of period	\$ 48,327	\$ 86,750

# ATLANTIC POWER CORPORATION

## 4. Financial instruments (continued):

Changes related to the Indexed Swap Hedge liability:

	Three months ended March 31,	
	2007	2006
Fair value, beginning of period	\$ 18,989	\$ 58,547
Increase (decrease) in fair value	5,422	(13,968)
Settlements paid	(2,465)	(2,393)
<b>Fair value, end of period</b>	<b>\$ 21,946</b>	<b>\$ 42,186</b>

### (b) Foreign currency contracts:

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign currency exchange rates as the Company earns its income principally in the United States and has the obligations to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has entered into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn. \$1.06 per IPS to all holders, as well as interest payments on the Subordinated Notes. Changes in the fair market value of the Company's forward contracts partially offset exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations. The following table summarizes the Company's forward foreign currency contracts with monthly settlement terms as of March 31, 2007:

Date	Notional monthly amounts		Average rate
	Sell U.S. dollars	Buy Canadian dollars	
Current - 2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006

(Unaudited)

## 4. Financial instruments (continued):

In addition to the forward contracts in the table above that settle on a monthly basis, the Company has executed forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make semi-annual payments on the convertible debentures. The contracts provide for the purchase of Cdn. \$2.1 million and Cdn. \$1.9 million in April 2007 and October 2007, respectively, at a rate of 1.1240 Canadian dollars per U.S. dollar and the purchase of Cdn. \$1.9 million in April and in October of 2008 through 2011 at a rate of 1.1075 Canadian dollars per U.S. dollar.

Forward foreign currency contracts are recorded at fair value and are included in other assets in the consolidated balance sheets.

The foreign exchange loss (gain) of \$2,481 (2006 - (\$1,553)) during the three months ended March 31, 2007 primarily reflects unrealized foreign exchange gains on the U.S. dollar equivalent of the Company's Canadian dollar-denominated obligation related to convertible debentures and subordinated notes, unrealized foreign exchange losses on the changes in the fair market value of the Company's forward contracts and realized foreign exchange gains on forward contract settlements during the period. Foreign exchange gains (losses) are as follows:

	Three months ended March 31,	
	2007	2006
Subordinated Notes and convertible debentures	\$ (2,524)	\$ 1,076
Non-controlling interest	-	720
Forward contracts	729	(985)
Unrealized foreign exchange gains (losses)	(1,795)	811
Realized foreign exchange gains (losses) on forward contract settlements	(686)	742
	\$ (2,481)	\$ 1,553

# ATLANTIC POWER CORPORATION

(Unaudited)

---

**5. Path 15 Project financing:**

The acquisition of the Path 15 Project closed on September 15, 2006 and was financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. The Acquisition Credit Facility had an outstanding balance of \$51 million at December 31, 2006. The remaining outstanding balance was paid in the first quarter of 2007 using cash on hand and \$31 million drawn from the Company's revolving credit facility.

**6. Basic and diluted income (loss) per share:**

Basic income (loss) per share has been calculated using the weighted average number of units outstanding during the three months ended March 31, 2007 of 61,470,500 (2006 - 44,339,500).

Diluted income (loss) per share is computed by assuming that the convertible debentures are converted into 4,838,712 IPSs for the three months ended March 31, 2007.

Because the Company reported a loss during the three months ended March 31, 2007, the effect of including these shares in the calculation is anti-dilutive. During the three months ended March 31, 2006, there were no potentially dilutive securities outstanding.

**7. Commitments and contingencies:**

From time to time, the Company, its subsidiaries and the Projects are parties to disputes and litigation that arise in the normal course of business. The Company assesses its exposure to these matters and records estimated loss contingencies when a loss is likely and can be reasonably estimated. There are no matters pending as of March 31, 2007 which are expected to have a material impact on the Company's financial position or results of operations.

**8. Comparative figures:**

Certain 2006 figures have been reclassified to conform to the financial statement presentation adopted in 2007.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RECEIVED  
2007 OCT 14 P 3:25  
ATLANTIC POWER CORPORATION

The following management's discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the unaudited financial statements of Atlantic Power Corporation ("Atlantic Power" or the "Company") for the three months and six months ended June 30, 2007. All dollar amounts in this MD&A are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP").

#### Forward-Looking Statements

Certain statements in this MD&A constitute forward-looking statements, which reflect the expectations of the management of Atlantic Power Management, LLC (the "Manager"), the manager of the Company regarding the Projects and the anticipated financial results and operations of the Projects (as defined below). Words such as "will", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect current expectations regarding future events and operating performance. Forward-looking statements involve a variety of significant risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, fuel and electricity prices, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements and should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or when such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed in the "Risk Factors" section in this MD&A and under "Risk Factors" in the Company's Annual Information Form dated March 28, 2007. All forward-looking statements in this MD&A are qualified by these cautionary statements. Except as required by applicable law, the Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Information contained in this MD&A is based on information available to management as of August 14, 2007.

Copies of financial data and other publicly filed documents, including the Company's annual information form, are available through the Internet on SEDAR at [www.sedar.com](http://www.sedar.com) under "Atlantic Power Corporation" or on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com).

#### Overview

The Company currently has 61,470,500 income participating securities ("IPSs") and Cdn\$60 million principal amount of 6.25% convertible secured debentures due October 31, 2011 (the "Debentures") outstanding, and owns 100% of the membership interests in Atlantic Power Holdings, LLC ("Holdings"). Holdings was formed in 2004 to acquire indirect interests in a diversified portfolio of power generating facilities located primarily in major markets in the United States from ArLight Energy Partners Funds I, L.P. ("Fund I") and ArLight Energy Partners Funds II, L.P. ("Fund II", and, together with Fund I, the "ArLight Funds") and Caithness Energy, LLC ("Caithness") (together with the ArLight Funds, the "Existing Investors"). As of February 2007, Holdings is a wholly-owned subsidiary of the Company.

Each IPS is comprised of: (1) one common share of the Company ("Common Share"); and (2) Cdn\$5.767 aggregate principal amount of 11.0% subordinated notes of the Company ("Subordinated Notes"). IPS investors receive a monthly distribution comprised of a dividend payment on the common share and an interest payment on the Subordinated Notes. The current annual rate of the total distribution is Cdn\$1.06 per IPS. The Debentures were issued on October 11, 2006 and bear interest at an annual rate of 6.25%, payable semi-annually in arrears on April 30 and October 31 of each year commencing on April 30, 2007.

As of June 30, 2007, the Company owned interests in 14 power generating facilities in the United States and one in Jamaica, and a transmission line located in central California (collectively, the "Projects" and individually a "Project"). The generating Projects have a combined total power generating capacity of approximately 2,160 megawatts ("MW"). The Company's interest in the Projects represented approximately 860 MW of power generating capacity as of June 30, 2007. Most of the generating Projects sell their power under long-term power purchase agreements ("PPAs") to investment-grade utilities or other purchasers. These agreements are typically structured to stabilize cash flows by: (1) providing a significant portion of revenues via steady capacity or tolling payments generally designed to provide a return of and on capital and to cover fixed costs regardless of how much electricity the plant is called upon to produce, provided that the plant meets an availability requirement; and (2) passing most of the generating Projects' fuel costs through to the purchasers. As a result, variations in the portfolio's cash flow based on changes in the amount of power generated, spot market electricity prices and fuel price changes are significantly mitigated.

The Path 15 transmission line is a United States Federal Energy Regulatory Commission ("FERC") regulated asset with a 30-year regulatory life. Its annual revenue requirement is established by FERC and is collected by the California Independent System Operator ("CAISO") from utilities in California without variations from changes in power prices or line usage and with virtually no technical or operating risks.

The Company's objectives are to maintain the stability and sustainability of cash distributions to holders of IPSs in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares. To achieve these objectives, Company management, working directly with project managers, focuses on cash flows of the existing Projects by improving facility performance, increasing output and efficiency, optimizing contracts and managing other project risks. In addition, the Company has a focused growth strategy that includes consolidating interests in Projects in which it currently owns an interest and making accretive acquisitions with a primary focus on the electric power industry in the United States and Canada.

Management believes that opportunities for accretive acquisitions will be available based on a number of factors, including continued electricity demand growth and the corresponding need for new power plants, increased liquidity in the secondary market for ownership interest in power-related assets, and superior access to potential growth transactions through ArLight, certain of the Company's institutional investors and the Manager's industry contacts. Competitors for these opportunities include private equity funds, power income funds and other sources of capital.

The most significant economic factors affecting the Company's performance are changes in interest rates, credit spreads and the currency exchange rates between the U.S. dollar and the Canadian dollar. Most debt at the Projects bears interest at a fixed rate, but a small amount does have exposure to variability in interest rates. Substantially all of the Company's operating cash flow is earned in U.S. dollars and a large portion of the Company's cash obligations, primarily distributions on IPSs and interest payments on the Debentures, is denominated in Canadian dollars. See "Financial and Other Instruments" in this MD&A for more information about these economic risks and the Company's strategy for managing these risks.

#### Non-GAAP Financial Measures

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities from the Company's financial statements to Cash Flow Available for Distribution is set out in the "Calculation of Cash Flow Available for Distribution" section of this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings before interest, taxes, depreciation and amortization and change in fair value of derivative instruments ("Adjusted EBITDA") are not measures recognized under GAAP and do not have a standardized meaning prescribed by GAAP. Management uses unaudited Adjusted EBITDA at the Projects to provide comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

#### Recent Transactions

In August 2007, the Company amended its revolving credit facility. Under the terms of the amendment, the total amount available under the credit facility has been increased from \$75 million to \$100 million, of which \$50 million may be utilized for letters of credit. The November 2008 maturity date of the credit facility has been extended to August 2012 with an option for the Company to extend the maturity date by one additional year. See "Liquidity and Capital Resources – CREDIT FACILITY" in this MD&A for additional information.

In August 2007, the Pasco Project signed a new ten-year tolling agreement with Tampa Electric Company ("TECO"). Under the terms of the tolling agreement, which is effective from 2009-2018, all of the capacity and energy of the Project is dedicated to TECO and the Project does not retain any fuel or electricity price risk. The agreement is subject to customary approval by the Florida Public Service Commission. The Company expects to receive annual distributions from the Pasco Project of approximately \$2 million during the term of the agreement.

In July 2007, the Gregory Project executed a PPA with Fortis Merchant and Private Banking ("Fortis"). The PPA begins when the current PPA at the Project expires in 2009 and extends for five years, through 2013. The PPA is structured as a tolling agreement whereby the Project receives rental payments for making the plant available and is not exposed to fuel or electricity price risk. Based on the terms of the new PPA, the terms of the project-level financing arrangements and the forecasted operations of the plant, the Company expects to receive project distributions from Gregory in the range of \$10 million to \$12 million in 2008, including approximately \$8 million attributable to the release of project-level debt service reserves.

In July 2007, a subsidiary of The Company entered into an agreement to sell its equity investment in the Jamaica Project for \$6.2 million. The carrying value of the Jamaica Project at June 30, 2007 exceeds the sales price and, accordingly, an impairment charge in the amount of \$5.1 million was recorded in the second quarter of 2007. The sale transaction is expected to close before the end of 2007.

In June 2007, the Onondaga Project paid \$9.75 million to an unrelated third party in exchange for the assumption by the third party of long-term gas transportation contractual obligations that are not required for the operations of the Project. The carrying value of the gas transportation liability at the date of the transaction exceeded the amount paid by the Onondaga Project to extinguish the liability, resulting in a gain of approximately \$10.0 million in the second quarter of 2007. The Onondaga Project funded the transaction with a \$9.75 million contribution from the Company, which was partially funded by a \$9.4 million release of restricted cash at the Path 15 Project. The Company had previously intended to extinguish this liability in 2008, but management determined that it was more economical to execute the transaction in the second quarter of 2007. See "Liquidity and Capital Resources –RESTRICTED CASH" in this MD&A for additional information.

In February 2007, the Rumford Project executed an Interim Financial Consolidation Agreement ("IFCA") with its steam host, the Rumford Paper Company ("Rumford Paper"). The IFCA consolidates the payment obligations of the various agreements between the Rumford Project and Rumford Paper into fixed payment obligations commencing January 1, 2007. The effect of the IFCA is similar to a lease wherein Rumford Paper assumes the risk of fuel and power price volatility as well as most operating costs. Payments under the IFCA will be made quarterly to the partnership over a three-year term ending

December 31, 2009. The Company expects to receive annual project distributions of approximately \$2.7 million during the term of the IFCA compared to project distributions in the amount of \$2.3 million received in 2006 from Rumford.

On December 20, 2006, the Company announced that it had agreed to sell, on a private placement basis, a total of 8,600,000 IPSs to three institutional investors, including Caisse de dépôt et placement du Québec ("CDP"), as well as Cdn\$3.0 million principal amount of Subordinated Notes issued and sold separately from the IPSs of the Company (the "Separate Subordinated Notes"). This transaction increased CDP's ownership in the Company to 19% of IPSs outstanding. Net proceeds were used by the Company in February 2007 to acquire all of the remaining interest of the Existing Investors in Holdings.

#### Changes in Accounting Policies FINANCIAL INSTRUMENTS

On January 1, 2007, the Company adopted the new recommendations of Section 3855, Financial Instruments - Recognition and Measurement, Section 3865, Hedges, Section 1530, Comprehensive Income and Section 3251, Equity, from the Handbook of The Canadian Institute of Chartered Accountants (the "Handbook"). The retroactive application of the new standards does not require restatement of prior periods.

This change in accounting policy will result in significantly increased variability in net income but will not impact cash flows.

Section 3855, Financial Instruments - Recognition and Measurement, establishes standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. The standard requires that financial assets, financial liabilities and non-financial derivatives be recognized on the consolidated balance sheets.

Under this standard, all financial instruments are required to be measured at fair value on initial recognition. Measurement in subsequent periods is based on the classification of the financial instrument as held-for-trading or available-for-sale assets or liabilities, held-to-maturity or available for-sale investments or loans and receivables. Transaction costs are expensed as incurred for financial instruments classified or designated as held-for-trading. For other financial instruments, transaction costs are capitalized on initial recognition.

#### Chambers Power Purchase Agreement

As a result of adopting the requirements of Section 3855, the Company has determined that the power purchase agreement ("PPA") at the proportionately consolidated Chambers Project is a derivative instrument. The PPA does not qualify for exclusion from Section 3855 and has not been designated as a hedge. Accordingly, the PPA has been recorded at its fair value in the consolidated balance sheets and changes in the fair value are recognized in change in fair value of derivative instruments in the consolidated statements of income and deficit.

The fair value of the PPA is measured by comparing the net present value of the cash flows expected to be received under the terms of the PPA to the net present value of the cash flows that would be received if the same volumes were sold at projected market power prices over the term of the contract expiring in 2024. Accordingly, periodic changes to the fair value of the PPA reflect changes in market conditions and do not directly impact the amount of cash flow the Chambers project will receive under the terms of the PPA.

The impact of this change was to increase opening retained earnings (deficit) as of January 1, 2007 by \$212,183 to reflect the fair value of the PPA in the amount of \$155,762 and the removal from the consolidated balance sheet of the unamortized cost of the PPA in the amount of \$56,421 (previously

presented as a credit in other intangible assets) on that date. As of June 30, 2007, the fair value of the PPA in the amount of \$82,260 was reflected in the consolidated balance sheets as \$8,580 included in current portion of derivative instruments asset and \$73,680 included in derivative instruments asset. The change in fair value of the PPA for the three and six months ended June 30, 2007 is recorded as a loss in the amount of \$24,260 and \$73,503, respectively, in the consolidated statements of income and deficit.

During the second quarter of 2007, it was determined that a future tax liability should be reflected as a result of the adjustments to opening retained earnings (deficit) as of January 1, 2007 described above. As a result, opening retained earnings as of January 1, 2007 has been reduced by \$87,938 with a corresponding increase in the future tax liability. In addition, the change in the fair value of the Chambers PPA resulted in a reduction in the future tax liability of \$9,704 and \$29,401, respectively, in the three and six months ended June 30, 2007. These amounts were recorded as a credit to income taxes in the consolidated statement of operations and retained earnings (deficit) in the three and six months ended June 30, 2007. The impact of this correction is to reduce the previously reported loss for the three months ended March 31, 2007 by \$17,693 or \$0.29 per IPS. Accordingly, income tax expense (benefit), net income (loss) and income (loss) per IPS are restated to \$16,687, (\$32,047) and (\$0.52), respectively, for the three months ended March 31, 2007 and the future tax liability as of March 31, 2007 was \$87,676.

#### Deferred Financing Costs

Deferred financing costs in the amount of \$10,990 as of January 1, 2007 have been reclassified and presented together with the respective debt instrument to which the costs relate and are now being amortized using the effective interest method. The difference between the straight-line and the effective interest methods of amortization of these costs is de minimus.

See Note 2(a) to the Interim Consolidated Financial Statements for the three months ended June 30, 2007 for additional information about the adoption of the Handbook Sections described above.

#### LONG-TERM INCENTIVE PLAN

The officers and other employees of Atlantic Power Management, LLC (the "Manager") are eligible to participate in the Company's Long-Term Incentive Plan ("LTIP"), as determined by the independent members of the Board of Directors of the Company. On an annual basis, the Board of Directors establishes awards that are based on the cash flow performance of the Company in the most recently completed year, each participant's base salary and the market price of the IPSs at the award date. Awards are granted in the form of notional units that have similar economic characteristics to the Company's IPSs. Notional units vest over a three-year period and are redeemed in a combination of cash and IPSs upon vesting. Unvested notional awards are entitled to receive distributions equal to the distributions per public IPS during the vesting period and are awarded in the form of additional notional units. Unvested awards are subject to forfeiture if the participant is not an employee of the Manager at the vesting date or if the Company does not meet certain ongoing cash flow performance targets.

Compensation expense related to awards granted to participants in the LTIP is recorded over the vesting period based on the estimated fair value of the award at each balance sheet date. Forfeitures are recorded as they occur and are not included in the estimated fair value of the awards. The aggregate number of IPSs which may be issued from treasury under the LTIP is limited to one million.

On March 28, 2007, the Board of Directors approved grants of notional units to acquire 172,071 IPSs under the terms of the LTIP. The vesting of the granted notional units occurs ratably over three years and is subject to the Company achieving future performance targets. The measurement date for the awards for accounting purposes occurred when participants were informed of the details of their awards in April 2007. As a result, compensation expense related to the LTIP in the amount of \$0.3 million was recorded in the three and six month periods ended June 30, 2007. No compensation expense related to the LTIP was recorded in the three and six-month periods ended June 30, 2006.

#### LONG-TERM INVESTMENTS

During the first quarter of 2007, management reviewed its accounting for its investments in the Gregory and the Selkirk Projects that have historically been accounted for using the equity method. Based on a current assessment, management determined that as of January 1, 2007, the cost method of accounting is appropriate for these investments. Beginning January 1, 2007, the Company has prospectively changed its accounting for its investments in the Gregory and Selkirk Projects from the equity method to the cost method of accounting. Under the cost method, investment income is recorded to the extent of distributions received from the Projects. This change in accounting does not impact cash flow.

The Company's investments in the Delta Person and Rumford Projects continue to be recorded under the equity method of accounting and are also included in long-term investments in the consolidated balance sheets. As a result of the pending sale of the Company's investment in the Jamaica Project, it is recorded at fair value and is included in long-term investments in the consolidated balance sheet at June 30, 2007.

Selected Financial Data (in thousands of U.S. dollars, except as otherwise stated)

(unaudited)	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006

Total long-term liabilities at June 30	844,130	688,269	844,130	688,269
Cash flows from operating activities	11,927	15,978	30,709	24,005

<sup>1</sup> Includes investment income from partnerships of \$693 and \$1,989 for the three month periods ended June 30, 2007 and June 30, 2006 and \$1,778 and \$3,824 for the six-month periods ended June 30, 2007 and 2006 from Projects in which the Company owns interest of between 17.1% and 40.0%, accounted for on the cost or equity basis. Also includes non-cash mark-to-market losses from the change in fair value of derivative instruments of \$23,505 and 71,908, respectively, for the three and six months ended June 30, 2007.

Results of Operations for the Three and Six-Month Periods Ended June 30, 2007

OVERVIEW

Project income is the primary GAAP measure of the Company's operating results and is discussed in the "Project Operations Performance – Three-Month and Six Month Periods Ended June 30, 2007" section below. In addition, an analysis of non-project expenses impacting the results of the Company is set out in the "Administrative and Other Expenses" section below.

Significant non-cash items, which are subject to potentially significant fluctuations, include: (1) the change in fair value of certain financial instruments and non-financial derivatives which are required by GAAP to be revalued at each balance sheet date (see "Financial and Other Instruments" in this MD&A for

additional information); (2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S. dollar equivalent of the Company's Canadian dollar-denominated debt and the mark-to-market value of currency forward contracts; and (3) for periods prior to January 1, 2007, the change in fair value of the non-controlling interest previously held in Holdings by the Existing Investors.

Cash flow available for distribution was \$17,413 and \$38,232 for the three and six months ended June 30, 2007, respectively, compared to \$21,137 and \$31,380, respectively for the same periods in 2006, representing a decrease of 18% in the second quarter and an increase of 22% for the year-to-date periods. See the "Cash Flow Available for Distribution" section of this MD&A for additional information.

Net loss for the three and six months ended June 30, 2007 was \$24,188 and \$56,235, respectively, compared to net income of \$4,656 and \$7,977, respectively, for the comparable periods in 2006. The change reflects project income (loss) of \$2,660 and (\$32,213), respectively, during the three and six month periods ended June 30, 2007, attributable to the non-cash change in fair value of derivative instruments of \$23,505 for the second quarter of 2007 and \$71,908 for the six months ended June 30, 2007. Excluding the non-cash change in fair value of derivative instruments and related future taxes, the net loss for the three months ended June 30, 2007 would have been \$683 and the net income for the six months ended June 30, 2007 would have been \$15,673. See "PROJECT INCOME" in this MD&A for additional information.

Administrative and other expenses increased by \$14,631 to \$26,527 for the three months ended June 30, 2007 and increased by \$19,784 to \$40,388 for the six months ended June 30, 2007. The increase includes higher interest expense and a higher foreign exchange loss in the 2007 periods. In addition, the net impact of the non-controlling interest liability reduced administrative and other expenses during the three and six months ended June 30, 2006 by 10,786 and 13,225, respectively. The non-controlling interest liability was extinguished as a result of the redemption of Existing Investor interest in the fourth quarter of 2006 and has no impact on 2007 results. Excluding the impact of the non-controlling interest liability on the 2006 amounts, the increase in administrative and other expenses for the three and six months ended June 30, 2007 over the comparable 2006 periods would have been \$3,845 and \$6,559. See "ADMINISTRATIVE AND OTHER EXPENSES" in this MD&A for additional information.

The Company is organized as a Canadian corporation but pays income taxes primarily in the United States and in the individual states in which it operates. The Company's taxable income has historically not been significant and therefore net cash taxes have also not been significant. The adoption of the new accounting standards related to financial instruments as of January 1, 2007 resulted in the PPA at the Chambers Project being recorded at fair value at each balance sheet date. Accounting for this contract at fair value has resulted in significant volatility in its recorded value. The future tax liability related to these changes in fair value has also changed significantly from period to period and is expected to continue to be subject to significant variations in future periods. Accordingly, a significant portion of the amounts recorded as income taxes in the consolidated statement of operations and deficit relates to fluctuations in the future tax liability that result from changes in the market value of the Chambers PPA. Management does not expect these fluctuations in income taxes for book purposes to result in material cash payments of taxes in the foreseeable future.

## PROJECT INCOME

Project revenue totalled \$70,146 and \$137,487 during the three and six months ended June 30, 2007, an increase of \$13,600 and \$27,177, respectively, from the same periods in the prior year. The increase in project revenues during the first half of 2007 was attributable to the following factors:

- the operations of the Path 15 Project acquired in the third quarter of 2006
- increased revenues at the Chambers Project as a result of increased generation and higher spot market prices
- higher variable energy payments at Badger Creek under the Project's power purchase agreement due to higher natural gas prices in the three and six months ended June 30, 2007

For the three-month period ended June 30, 2007, revenues at the Mid-Georgia Project increased by 55% over the prior year second quarter as a result of higher dispatch from the Project's PPA counterparty due to warmer than average weather in the region.

Project expenses increased by \$8,007 or 19% to \$50,225 during the three months ended June 30, 2007 compared to the prior year as a result of:

- higher fuel expense at Mid-Georgia resulting from higher dispatch from the Project's PPA counterparty
- increased fuel and maintenance expenses at Badger Creek as a result of higher natural gas prices and increased costs associated with a planned outage
- additional depreciation expense attributable to the acquisition of the Path 15 Project in the third quarter of 2006

For the six months ended June 30, 2007, project expenses increased by \$13,072 or 15% to \$98,955 over the same period in 2006. In addition to the factors described above for the second quarter 2007, the higher expenses in the year-to-date period include increased operations and maintenance expense at Lake due to a non-recurring property tax refund received in the first quarter of 2006 and higher fuel prices at Orlando; partially offset by decreased maintenance expense at Pasco related to expenses associated with an outage and turbine upgrade in the first quarter of 2006.

Project other income (expense) of (\$17,261) and (\$70,745) during the three and six months ended June 30, 2007, respectively, includes a non-cash charge attributable to the change in fair value of derivative instruments of \$23,505 and \$71,908, respectively. The change in fair value of derivative instruments is comprised of (1) a decrease in the fair value of the Chambers PPA of \$24,261 and \$73,504, respectively, for the three and six month periods in 2007, driven by changes in forecasted long-term commodity prices; partially offset by (2) the net change in fair value of the indexed swap derivative instruments at the Onondaga Project in the net amount of \$756 and \$1,596, respectively, for the second quarter and year-to-date periods in 2007.

The increase in project interest expense during the six months ended June 30, 2007 compared to the same period in 2006 is attributable to non-recourse project-level debt associated with Path 15, which was acquired in September 2006. In addition, the Chambers Project recorded higher interest expense in the second quarter of 2007 due to the absence of a positive adjustment in 2006 to the fair value of a Project-level interest rate swap that does not qualify for hedge accounting.

Other income of \$10,041 and \$10,032 for the three and six month periods ended June 30, 2007, respectively, is primarily attributable to the settlement of a gas transportation contract liability at the Onondaga Project in June 2007 (see "Recent Transactions" in this MD&A for additional information). Other income of \$2,499 in the six months ended June 30, 2006 represents fees received as consideration for amendments to fuel contracts at two of the Projects during the first quarter of 2006.

#### ADMINISTRATIVE AND OTHER EXPENSES

Management fees and administration includes the costs of operating a public company, as well as the fees and costs associated with the Manager. The Manager is indirectly owned by the ArcLight Funds and receives compensation in the form of an annual base fee which is indexed to inflation and an incentive fee that is equal to 25% of cash distributions to IPS holders and Existing Investors in excess of Cdn\$1.00 per year per IPS. The Company also reimburses the Manager for reasonable costs incurred to manage the Company. The increase in management fees and administration during the three and six month periods ended June 30, 2007 is primarily attributable to personnel additions in the Company's headquarters office and the expense recognized related to awards under the Company's LTIP.

Interest expense primarily relates to required interest payments to holders of the Subordinated Notes and the Debentures. The increase in net interest expense during the three and six month periods ended June 30, 2007 is due to the issuance of the Debentures and additional Subordinated Notes in the fourth quarter of 2006. Earnings on higher levels of cash and cash equivalents invested in the three and six month periods ended June 30, 2007, as well as higher short-term interest rates on these investments, partially offset this increase in interest expense.

Prior to December 31, 2006, distributions to non-controlling interest represented distributions paid by Holdings on membership interests owned by the Existing Investors. As described in "Recent Transactions" in this MD&A, the Company acquired all of the remaining Existing Investors' interest in Holdings in February 2007 and, accordingly, no further distributions will be paid to the Existing Investors. Also related to the Existing Investors interest in Holdings prior to 2007, the loss (income) from change in non-controlling interest represented: (1) the change in the fair value of the liability during each period based on the market value of the IPSs at each balance sheet date; and (2) the reduction in the liability resulting from the redemptions of the Existing Investors' interest in Holdings that occurred in the fourth quarter of 2006.

Prior to December 31, 2006, the non-controlling interest liability was estimated at each balance sheet date based on the market value of the Company's IPSs at the balance sheet date multiplied by the number of membership interest in Holdings owned by the Existing Investors at that date. In December 2006, the final amount to be paid to the Existing Investors for its remaining interest in Holdings was determined based on the net price received per IPS for the Company's sale, on a private placement basis, of 8,600,000 IPSs (see "Recent Transactions" in this MD&A for additional information). As a result, the liability was recorded at \$76.9 million at December 31, 2006 and this amount was paid to the Existing Investors in February 2007 to redeem their remaining interest in Holdings, extinguishing the liability. Beginning in 2007, the financial statements no longer reflect income variations that are attributable to changes in the non-controlling interest liability.

Foreign exchange loss (gain) primarily reflects the unrealized impact of changes in foreign exchange rates on the U.S. dollar equivalent of the Company's Canadian dollar-denominated obligations to holders of Subordinated Notes and Debentures and, prior to 2007, obligations to non-controlling interest. In addition, unrealized and realized gains and losses on the Company's forward contracts for the purchase of Canadian dollars to satisfy these obligations are included in foreign exchange loss (gain).

The Canadian dollar to U.S. dollar exchange rate declined by approximately 9% during the three months ended June 30, 2007, compared to a decline of approximately 4% during the comparative 2006 period. The changes in the exchange rate during the first quarter of both 2007 and 2006 were not significant. Accordingly, the foreign exchange loss of \$14,709 for the six month period ended June 30, 2007 is primarily comprised of the \$12,228 net loss (\$13,673 unrealized loss partially offset by \$1,445 realized gain) that occurred in the second quarter. The foreign exchange losses were lower in the comparative 2006 periods as a result of a smaller change in the exchange rate when compared to 2007, partially offset by the absence of the Canadian dollar denominated non-controlling interest liability in 2007.

## SUPPLEMENTARY FINANCIAL INFORMATION

The key measure used by management to evaluate the results of the Company's investments is Cash Flow Available for Distribution. See the "Cash Flow Available for Distribution" section of this MD&A for additional details and for a reconciliation of Cash Flow Available for Distribution to its nearest GAAP measure, cash flows from operating activities.

The primary factor influencing Cash Flow Available for Distribution is cash distributions received from the Projects. These distributions received are generally funded from Adjusted EBITDA generated by the Projects, reduced by Project-level debt service and capital expenditures, and adjusted for changes in Project-level working capital and cash reserves. Please read the "Non-GAAP Financial Measures" section of this MD&A for important disclosures with respect to Cash Flow Available for Distribution and Project Adjusted EBITDA.

Because Project Adjusted EBITDA and Project distributions are key drivers of both the performance of the Company's investments and Cash Flow Available for Distribution, this MD&A contains supplementary unaudited non-GAAP information that summarizes Adjusted EBITDA by Project and a reconciliation of Adjusted EBITDA by Project to Project distributions actually received by the Company.

Many of the Company's investments are either proportionately consolidated or accounted for under the cost or equity method of accounting in the consolidated financial statements presented in accordance with GAAP. The proportionate consolidation method of accounting is applied by recording in the Company's consolidated financial statements its proportionate share of each financial statement account at the proportionately consolidated Project. As a result, some components of the Company's balance sheet contain assets that are not directly available to the Company in the normal course of business, or liabilities that are not direct obligations of the Company.

For example, the Company's proportionate share of cash at a proportionately consolidated Project is reflected in the consolidated balance sheet even though this cash may not be directly controlled by the Company because it is subject to: (1) the provisions of the partnership agreement that governs the underlying investment or; (2) in the case of Restricted Cash, the non-recourse debt covenants at the Projects. Conversely, the Company's proportionate share of debt at a proportionately consolidated Project is also reflected in the consolidated balance sheet notwithstanding that all of the Project-level debt at the Projects is secured by assets at the Projects and is non-recourse to the Company.

Attached to this MD&A are tables of supplementary unaudited non-GAAP information that segregate the consolidated statements of operations and the consolidated balance sheet into amounts attributable to consolidated and proportionately consolidated Projects and amounts attributable to corporate balances. In addition, a column is included that presents the Company's proportionate share of balance sheet and income statement items that are attributable to Projects accounted for under the equity method of accounting. These amounts attributable to Projects accounted for under the equity method of accounting are not included in the consolidated financial statements presented in accordance with GAAP and are provided for informational purposes only.

## PROJECT OPERATIONS PERFORMANCE – THREE AND SIX-MONTH PERIODS ENDED JUNE 30, 2007

Aggregate Adjusted EBITDA for the Projects, including earnings from projects accounted for under the cost and equity methods, increased 9% to \$34,591 for the three month period ended June 30, 2007 compared to the second quarter of 2006. For the six months ended June 30, 2007, Adjusted EBITDA increased 16% to \$68,095 compared to the year-to-date period in 2006.

The increase in Project Adjusted EBITDA in the second quarter was primarily attributable to the following factors:

- The contribution from the Path 15 Project, which was acquired in the third quarter of 2006
- Increased generation and efficiency and lower maintenance expense at Pasco resulting from turbine upgrades in 2006
- Strong performance at Chambers due to higher levels of generation due to a planned outage in the prior year period and stronger spot market pricing

Factors that partially offset the increase described above include:

- An impairment charge of approximately \$5.1 million at the Jamaica project related to the planned sale of the Company's interest in the Project
- Lower Adjusted EBITDA at Selkirk and no Adjusted EBITDA contribution from Gregory in 2007 due to these Projects now being recorded under the cost method of accounting. Under the cost method of accounting, Adjusted EBITDA for is equal to distributions received. The Selkirk Project pays distributions in the second and fourth quarter of each year and distributable cash at Gregory is currently restricted under the terms of its project-level debt agreement. See "Recent Transactions" in this MD&A for additional information about the new PPA at Gregory that is expected to result in distributions from that Project beginning in 2008.
- Lower Adjusted EBITDA at the Orlando Project attributable to higher fuel prices in 2007

In addition to the factors described above for the second quarter, the year-to-date period in 2007 compared to 2006 is impacted by increased operations and maintenance expense at Lake attributable to the absence in 2007 of a non-recurring property tax refund received in the first quarter of 2006.

Aggregate power generation did not change significantly during the six months ended June 30, 2007 compared to the same period in 2006, while plant availability declined 1.0%. Generation in period was impacted largely by a reduction in energy production at Selkirk, primarily due to reduced dispatch of the Project and an unplanned outage in January 2007. This decline at Selkirk was offset by increased generation at Gregory and Pasco, resulting from outages in the same period in 2006; and at Mid-Georgia, due to increased dispatch of the facility.

The Project portfolio achieved a weighted average availability of 95.9% for the first half of 2007, versus 96.9% in the same period last year. The lower availability was primarily driven by a maintenance outage at Mid-Georgia and an unplanned outage at Selkirk in 2007; partially offset by an outage at Gregory during the same period in 2006. Each of the projects with reduced availability was nevertheless able to achieve 100% of their respective capacity payments as a result of contract terms that provide for certain levels of planned and unplanned outages.

#### Cash Flow from Operating Activities

The Company's cash flow from the Projects varies from year to year based on, among other things, changes in rates under the PPAs, fuel supply and transportation agreements, steam sales agreements and other Project contracts, compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the operating performance of the Projects. Project cash flows themselves may have some seasonality and the pattern and frequency of distributions from the Projects to the Company during the year can also vary.

The Company's cash flow from operating activities decreased by \$4,175 for the three-month period ended June 30, 2007 compared to the same period in the prior year. The decrease was primarily attributable to higher interest expense resulting from higher levels of debt at both the project and corporate levels. In addition, routine changes in the timing of working capital balances negatively impacted cash flow from operations in the second quarter of 2007 when compared to the prior year

period. For the six months ended June 30, 2007, cash flow from operations increased by \$6,475 over the comparable prior year period. The increase is attributable to the results of operations from the Path 15 Project, acquired in September 2006, as well as improvements in cash from operations at the proportionately consolidated Chambers and Lake Projects, partially offset by the factors described above for the second quarter of 2007. In addition, cash flow from operations benefited during the quarter from routine changes in the timing of working capital balances.

#### Cash Flow Available for Distribution

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. The Company increased the distribution from an annual rate of Cdn\$1.03 per IPS to an annual rate of Cdn\$1.06 per IPS, effective with the September 2006 distribution.

Cash flow available for distribution declined by \$3,724 in the three months ended June 30, 2007 and increased by \$6,852 in the six months ended June 30, 2007 when compared to the prior year periods.

The decrease in the second quarter was attributable to lower cash flow from operations and higher project-level debt repayments, partially offset by higher amounts of recoverable tax installments. Higher project level debt repayments were the result of the acquisition of the Path 15 project in the third quarter of 2006, which has project-level debt that is payable semi-annually in the second and fourth quarter of each year.

The increase in cash flow available for distribution for the six months ended June 30, 2007 when compared to the prior year is attributable to the factors described above for the second quarter and higher operating cash flows in the first quarter of 2007.

The Company periodically evaluates its level of distributions with its Board of Directors by analyzing payout ratios and long-term cash flow projections, as well as the accretion to cash flow provided by acquisitions.

The table below presents the Company's calculation of Cash Available for Distribution for the three and six months ended June 30, 2007 and 2006.

(In thousands of U.S. dollars, except as otherwise stated) (unaudited)	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Cash flows from operating activities	11,927	15,978	30,709	24,005
Project-level debt repayment	(15,093)	(7,201)	(19,782)	(11,238)
Interest on IPS portion of Subordinated Notes	9,015	6,325	17,369	12,452
Income tax installments recoverable (net) <sup>(1)(2)</sup>	12,597	7,849	12,395	8,397
Purchase of property, plant and equipment	(1,033)	(1,814)	(2,459)	(2,236)
Cash flow available for distribution, US\$	17,413	21,137	38,232	31,380
Cash flow available for distribution, Cdn\$	19,328	24,141	42,644	35,761
Interest on IPS Subordinated Notes	9,015	6,325	17,369	12,452
Dividends on IPS Common Shares	6,054	3,948	11,664	7,773
Total IPS distributions, US\$	15,069	10,273	29,033	20,225
Total IPS distributions, Cdn\$	16,296	11,422	32,590	22,843
Cash flow available for distribution per basic IPS, Cdn\$	\$0.31	\$0.54	\$0.69	\$0.81
Cash flow available for distribution per diluted IPS, Cdn\$	\$0.28	\$0.54	\$0.61	\$0.81
Total distribution declared per IPS, US\$	\$0.25	\$0.23	\$0.47	\$0.46
Total distribution declared per IPS, Cdn\$	\$0.27	\$0.26	\$0.53	\$0.52

1. Income tax installments recoverable represents management's estimate of U.S. federal income tax installment payments that will be recovered in future periods. The amount presented is comprised of installment payments made during the period, offset by the current tax provision recorded in the consolidated statement of operations and deficit and any income tax refunds received. These adjustments have the effect of removing changes in working capital resulting from the timing of tax payments from the calculation of cash flow available for distribution.
2. During the second quarter of 2007, the Company settled a long-term gas transportation contract liability for a \$9.75 million cash payment. The cash payment is expected to create a taxable loss in 2007 that will be carried back to prior years and result in a refund of approximately \$3.2 million. This expected refund is included in income tax installments recoverable for the three and six month periods ended June 30, 2007.

#### Summary of Quarterly Results

Variations in quarterly results are driven by the following factors:

- Seasonality of Project revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the PPA payments and the typical scheduling of major facility maintenance in the spring and fall.
- Variations in cash flow may also be driven by the timing of quarterly and semi-annual Project-level debt payments, as distributions from the Projects to the Company must occur in conjunction with passing certain tests at those payment dates.
- Non-cash charges, principally: (1) the change in fair value of certain financial instruments which are required by GAAP to be revalued at each balance sheet date (see "Financial and Other Instruments in this MD&A for additional information); (2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S. dollar equivalent of the Company's Canadian dollar-denominated debt and the mark-to-market value of currency forward contracts; and (3) the change in fair value of the non-controlling interest previously held in Holdings by the Existing Investors.

1. Certain 2005 and 2006 figures have been reclassified to conform to the financial statement presentation adopted in 2007

#### Liquidity and Capital Resources

The Company's primary source of cash and cash equivalents is distributions from the Projects. A significant portion of the cash received from Project distributions is distributed in the form of interest and dividends to holders of the IPSs, the Separate Subordinated Notes and the Debentures. The Company plans to maintain the stability and sustainability of cash distributions to holders of IPSs, and to increase, when prudent, dividends on the Common Shares. Future increases in dividends on the Common Shares will be achieved if the Company is successful in maximizing the performance of existing Projects and making accretive acquisitions. The Company may fund future acquisitions with a combination of cash on hand, the issuance of additional debt or equity securities and the incurrence of bank debt.

Management believes that the Company will be able to generate sufficient amounts of cash and cash equivalents to maintain the Company's operations and meet obligations as they become due. The following additional sources of liquidity, in addition to cash flow from operations, are available to the Company.

#### CREDIT FACILITY

In August 2007, the Company amended its credit facility. Under the terms of the amendment, the total amount available under the credit facility has been increased from \$75 million to \$100 million, of which \$50 million may be utilized for letters of credit. The November 2008 maturity date of the credit facility has been extended to August 2012 with an option for the Company to extend the maturity date by one additional year.

Outstanding amounts under the amended credit facility bear interest at the London Interbank Offered Rate ("LIBOR") plus an applicable margin that varies based on certain credit statistics of Holdings. The range of applicable margin is 0.875% to 1.625%. Based on Holdings' credit ratios at June 30, 2007, the applicable margin is currently 0.875%. Prior to the amendment, the applicable margin was fixed at 1.50%.

As of June 30, 2007, prior to the amendments described above, \$23,307 was allocated, but not drawn, to support letters of credit for contingent liabilities at several Projects. In the first quarter of 2007, \$31,000 was borrowed under the credit facility and used to repay the outstanding balance on the Path 15

Acquisition Credit Facility. See "PATH 15 ACQUISITION CREDIT FACILITY" in this section of the MD&A for additional information. As of June 30, 2007, advances of \$31,000 were outstanding under the credit facility and the amount available for advances and letters of credit was \$20,693 and \$6,693, respectively.

#### RESTRICTED CASH

The Projects generally have reserve requirements to support payments for major maintenance costs and project-level debt service. For Projects that are consolidated or proportionately consolidated with Atlantic Power, these amounts, or Atlantic Power's portion of these amounts, are reflected as Restricted Cash on the Company's consolidated balance sheet.

At June 30, 2007, Restricted Cash at consolidated and proportionately consolidated Projects totalled approximately \$27 million. All Project-level debt is non-recourse to the Company and is fully amortized over the life of the Projects' PPAs.

At certain of the Projects, a portion of the Restricted Cash represents reserves for debt service that are required by Project-level financing arrangements. In some, but not all, cases where a Project-level debt service reserve is represented by Restricted Cash, it is possible for the Company to replace its proportionate share of the debt service reserve with a letter of credit under the revolving credit facility. If the Company chose to replace the Restricted Cash with a letter of credit, the Restricted Cash could be released and distributed to the Company. This represents an additional source of liquidity that the Company may consider for funding acquisitions or other general corporate purposes.

In June 2007, the Company issued a letter of credit in the amount of \$9.4 million to provide credit support related to debt service reserve requirements at the Path 15 Project. As a result, \$9.4 million in restricted cash was released to the Company. The released cash was used to partially fund a \$9.75 million investment in the Onondaga Project, which was used by the Onondaga Project for the extinguishment of a gas transportation contract liability. See "Results of Operations for the Three and Six-Month Periods Ended June 30, 2007" in this MD&A for additional information.

In December 2006, the Company sold 8,600,000 IPSs in a private placement transaction. See "Recent Transactions" in this MD&A for additional details. The proceeds from the private placement transaction were used in February 2007 to acquire all of the remaining interest of the Existing Investors in Holdings. The net proceeds from the private placement transaction were deposited into an escrow account until regulatory approval was received in February 2007 for the transaction, in which the Company acquired all of the remaining interest of the Existing Investors in Holdings. The balance in the escrow account was \$74,433 at December 31, 2006 and was included in Restricted Cash in the consolidated balance sheet. The entire balance in the escrow account was paid to the Existing Investors in February 2007.

#### PATH 15 ACQUISITION CREDIT FACILITY

The acquisition of the Path 15 Project on September 15, 2006 was initially financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Holdings. Loans under the Acquisition Credit Facility bear interest at a rate equal to a Eurodollar rate or a U.S. base rate, plus an applicable margin to those rates.

In October 2006, approximately \$37 million of the net proceeds of the Company's public offering of IPSs and Debentures were applied to repay a portion of the principal amount outstanding on the Acquisition Credit Facility. In the first quarter of 2007, the remaining balance due on the Acquisition Credit Facility was repaid using cash on hand and funds drawn from the revolving credit facility. Management intends to enter into a permanent financing arrangement for the acquisition of the Path 15 Project in the third quarter of 2007. The final amount to be borrowed is expected to be approximately \$48 million and will be non-recourse to the Company. The permanent financing arrangement is expected to amortize over a 20-year period and bear interest at 7.9%. The Company expects to use a portion of the proceeds to repay the outstanding \$31 million on the credit facility and for general corporate purposes.

## PROJECT-LEVEL DEBT

Long-term debt, including the current portion, which is included on the Company's consolidated balance sheet, is primarily comprised of debt at Projects that are consolidated or proportionately consolidated in the Company's financial statements. This project-level debt is serviced by the Projects before any cash distributions are made to the Company and is also non-recourse to the Company. The following table summarizes the maturities of project-level debt. The amounts presented represent the Company's proportionate share of the non-recourse project-level debt balances and exclude any purchase accounting adjustments recorded to adjust the debt to its fair value at the time the Project was acquired by the Company. Certain of the projects have more than one tranche of debt outstanding with different interest rates and/or debt containing variable interest rates. The range of interest rates presented represents the rates in effect at June 30, 2007.

	Range of Interest Rates	Total Remaining Principal Repayments	Jul-Dec 2007	2008	2009	2010	Thereafter

1. Sale of the Company's investment in Jamaica for \$6.2 million is expected to close before the end of 2007.

## Project Portfolio

The following table outlines the Company's portfolio of power generating assets as of March 31, 2007, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any single region.

Project Name	Location	Primary Fuel Type	Total MW	Ownership Interest <sup>1</sup>	Acctg Tmt <sup>2</sup>	Net MW <sup>3</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating

Topsham <sup>8</sup>	Maine	Hydro	14	50.0%	P	7	Central Maine Power	2011	BBB+

1. Except as otherwise noted, economic interest represents the percentage ownership interest in each Project held indirectly by the Company.
2. Accounting treatment: C – Consolidated; P – Proportionate consolidation; E – Equity method; Cost – Cost method.
3. Represents the interest of the Company in each Project's electricity generation capacity based on the Company's economic interest.
4. Includes separate power sales agreement in which the Project and Atlantic City Electric ("ACE") share profits on merchant sales of electricity not purchased by ACE under the base PPA.
5. Represents the Company's estimate of its share of the cash flow from the project.
6. A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.
7. For further information, see the discussion of the new interim financial consolidation agreement with the former Mead/Westvaco paper mill (now owned by NewPage) under the earlier "Recent Transactions" section.
8. The Company owns its interest in this Project as a lessor.
9. Rating from Moody's Investor Services.
10. California utilities pay Transmission Access Charges ("TACs") to California Independent System Operator ("CAISO"), which allocates the payments among owners of transmission and Transmission System Rights, such as Path 15, in accordance with their FERC-approved annual revenue requirement.
11. Path 15 is an 84-mile, 500-kilovolt transmission line in California. The Project is a FERC-regulated asset with a FERC-approved regulatory life of 30 years, through 2034.
12. The largest payers of TACs supporting Path 15's annual revenue requirement and their S&P credit ratings are PG&E (BBB+), SoCal Ed (BBB+) and SDG&E (A). CAISO imposes minimum credit quality requirements of A or better for all participants unless collateral is posted per CAISO imposed schedule.
13. Sale of the Company's investment in JPPC for \$6.2 million is expected to close before the end of 2007.
14. PPA with Fortis Merchant and Private Banking commences in 2009 at the expiry of the PPA with Constellation Energy

### Capital Expenditures

Capital expenditures for the Projects are made at the Project level using Project cash flows and Project reserves. Therefore, the distributions that The Company receives from the Projects are made net of capital expenditures needed at the Projects and the Company has not to date needed to inject funds into the Projects for ongoing capital expenditures. The Projects in which the Company has investments generally consist of large capital assets that have established commercial operations. Ongoing capital expenditures for assets of this nature are generally not significant because most major expenditures relate to planned repairs and maintenance and are expensed when incurred.

The Company has authorized an upgrade of the gas turbines at the Lake Project that will occur in the last half of 2007. The net cost of the upgrade is expected to be approximately \$10 million, which will be funded with cash on hand at the Project and a capital contribution from the Company in the amount of approximately \$7.5 million. The upgrade is expected to increase both the efficiency and the output of the Lake Project and will be accretive to cash flow available for distribution.

### Related Party Transactions

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company, for which it is paid: (1) base management fee (\$344 in 2007), which is adjusted annually for inflation and when acquisitions increase the scope of the Manager's responsibilities under the agreement; (2) reimbursement of costs; and (3) an incentive fee equal to 25% of the excess in distributions paid to IPS holders and Existing Investors during the year above Cdn\$1.00 per IPS. The Management Agreement has an initial term of 20 years expiring in 2024.

The Manager receives administrative and office support services from ArLight under a management support agreement executed in November 2004 among the Manager, ArLight and the Company. This agreement also requires the ArLight Funds and their affiliates to give the Manager the opportunity to pursue, on behalf of the Company, investment opportunities that do not fit within the investment guidelines for the ArLight Funds or other investment funds managed by ArLight or its affiliates.

The Manager is owned indirectly by the ArLight Funds. Subsidiaries of the ArLight Funds, in conjunction with a subsidiary of Caithness, owned 41.9% of Holdings' common membership interest after the IPO, but reduced their interest to 29.9% in October 2005 and further reduced their interest to approximately 14.0% in October 2006. In February 2007, the Company acquired all of the remaining interest of the Existing Investors in Holdings.

### Financial and Other Instruments

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates, as the Company earns its income principally in the United States and has the obligation to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has executed this strategy by entering into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn\$1.06 per IPS to IPS holders, as well as interest payments on the Subordinated Notes. It is the Company's intention to periodically extend the length of these forward contracts by one additional year. Changes in the fair market value of the Company's forward contracts partially offset exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations.

The following table summarizes the Company's forward foreign currency contracts with monthly settlement terms as of June 30, 2007:

Period	Notional monthly amounts		
	Sell U.S. dollars	Buy Cdn. dollars	Average rate
Current-2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

In addition to the forward contracts in the table on the previous page that settle on a monthly basis, the Company has executed forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make semi-annual payments on the Debentures. The contracts provide for the purchase of Cdn\$1.9 million in October 2007, at a rate of 1.1240 Canadian dollars per U.S. dollar and the purchase of Cdn\$1.9 million in April and in October of 2008 through 2011 at a rate of 1.1075 Canadian dollars per U.S. dollar.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange gains and losses. At June 30, 2007, the fair value of the foreign exchange forward contracts was included in current portion of derivative instruments asset and derivative instruments asset in the amount of \$8,032 and \$15,831 respectively.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects on cash flow of changing natural gas prices, which are a significant component of Project expenses. In addition, other Projects have entered into natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

The Company has an Indexed Swap at the Onondaga Project under which it receives monthly payments based upon the differential between an indexed contract price and a market reference price for electricity through June 2008. In order to lock in favorable gas, power, and capacity pricing under the Indexed Swap, the Company has entered into an Indexed Swap Hedge.

The values of all the financial instruments described above are subject to changes in market prices and none have been designated as a cash flow hedge for accounting purposes. Management of the Company monitors these risks and the market values of these financial instruments and periodically reviews its risk management strategies as market conditions change.

#### Accounting Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the periods presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property, plant and equipment and PPAs, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives.

The Company has acquired the majority of its long-term assets through acquisitions. In applying the purchase method of accounting, the Company is required to estimate the fair value of the assets acquired including the property, plant and equipment and intangible assets. The determination of these fair values is complex and involves significant judgments.

Revenue recognition is based on monthly invoices by the Projects to electricity and steam buyers and, for one Project which has fluctuating rates over time, the average rate over the term of the PPA is used for revenue with the difference between cash received and revenue recognized as deferred revenue. Fixed asset valuations of power plants are based on depreciated replacement cost. Valuations of PPAs and fuel supply agreements are based on the incremental net present value of cash flows provided by the agreement as compared to the merchant value of the plant. The Company typically uses outside consultants to determine the merchant value of a facility. On an ongoing basis, the Company monitors the performance of the facilities to determine if any recoverability issues exist or if any change in the useful life of the facility is required.

The future tax asset valuation allowance has been determined pursuant to the provisions of The Canadian Institute of Chartered Accountants (CICA) Handbook Section 3465, Income Taxes, including the Company's estimation of future taxable income, where necessary, and is adequate to reduce the total future tax asset to an amount that will more likely than not be realized. The Company has provided a valuation allowance to reduce net future tax assets to an amount expected to be recovered in the foreseeable future.

The fair values of financial instruments and derivatives such as the forward foreign currency contracts, interest rate swaps and natural gas swaps are typically based on market quotes. The Company also has an Indexed Swap and related hedge agreement and, pursuant to the adoption of Section 3855, has adopted fair value accounting for the Chambers PPA as of January 1, 2007. See "Accounting Policy Changes" in this MD&A for additional information. The fair values of these agreements are based on estimated future cash flows and take into account certain assumptions, including forecasts or future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair values of these agreements.

For additional information regarding accounting policies and estimates, please see Note 1 of the Company's audited consolidated financial statements for the twelve months ended December 31, 2006.

#### Commitments and Contingencies

From time to time, the Company and its subsidiaries and Projects are parties to disputes and litigation that arise in the normal course of business. The Company assesses its exposure to these matters and records estimated loss contingencies when a loss is likely and can be reasonably estimated. There were no matters pending as of June 30, 2007 which are expected to have a material impact on the Company's financial position or results of operations.

#### Outstanding Share Data

The Company had 61,470,500 IPSs outstanding at June 30, 2007 compared to 44,339,500 IPSs outstanding at June 30, 2006. The Debentures are convertible to approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS. As of June 30, 2007, approximately 4,838,700 IPSs would be required to be issued if all of the outstanding Debentures were converted to IPSs.

#### Outlook

In order to maintain stable distributions and provide long-term growth, the Company will continue to focus on enhancing the operating and financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

PPAs in the portfolio have various expiration dates as listed in the "Project Portfolio" table in this MD&A. In each case, management and the Project's partners plan for such expirations by evaluating various options in the market in order to continue maximizing Project cash flows. For example, partners of

Projects with PPA expirations in 2008 began efforts some time ago to provide for potential new or extended PPAs, with new agreements at Gregory and Pasco described in this MD&A. The new agreements may involve responses to utility solicitations for capacity, reverse RFPs for power buyers, direct negotiations with the original purchasing utility for PPA extensions, arrangements with other creditworthy parties for tolling agreements, or the use of derivatives to lock in stable power and/or fuel prices. Management has not assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations.

In 2009, the gas supply agreement at Lake will expire, whereas its PPA extends until 2013. While it is still somewhat early to extend this agreement or enter into a new agreement, management is monitoring forward prices in that market. The current gas agreement provides pricing that is currently below market, so management assumes that margins at Lake may fall in 2010 and beyond. Another option to maximize cash flow at Lake could include a PPA restructuring and extension.

#### Risk Factors

Atlantic Power's future performance and its ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs, and the Common Shares and Subordinated Notes represented thereby, and to holders of Debentures, are subject to a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares, Subordinated Notes or Debentures or on the market price or value of IPSs, Common Shares or Subordinated Notes. A discussion of these risks and uncertainties can be found in the Company's management's discussion and analysis for the year ended December 31, 2006 and Annual Information Form dated March 28, 2007. The Company's management's discussion and analysis and its annual information form are available on SEDAR's website at [www.sedar.com](http://www.sedar.com).

#### Disclosure Controls and Procedures

Based on the requirements of Multilateral Instrument 52-109, Certification of Disclosure in Issuers' Annual and Interim Filings, the Chief Executive Officer and Chief Financial Officer of the Manager have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Multilateral Instrument 52-109) as of June 30, 2007. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer of the Manager have concluded that the Company's disclosure controls and procedures were effective as of June 30, 2007 to provide reasonable assurance that material information relating to the Company would be made known to them by others within the Company.

#### Additional Information

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or under the Company's profile on the SEDAR website at [www.sedar.com](http://www.sedar.com).

The following tables present unaudited non-GAAP supplementary financial information provided for informational purposes. Please see "Non-GAAP Financial Measures" and "Results of Operations for the Three and Six-Month Periods Ended June 30, 2007 – Supplementary Financial Information" for additional details about the supplementary information.

1 Adjusted EBITDA is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, amortization and changes in fair value of derivative instruments. Management uses adjusted EBITDA at the Projects to provide comparative information about Project performance.

2 Effective January 1, 2007, the Gregory and Selkirk Projects are accounted for under the cost method of accounting. See "Changes in Accounting Policies" in this MD&A for additional information.

3 Sale of the Company's equity investment in the Jamaica Project for \$6.2 million is expected to close before the end of 2007. Adjusted EBITDA for the Jamaica Project includes an impairment in the amount of \$5.1 million recorded in the second quarter of 2007.

2. The Company's investments in the Gregory and Selkirk Projects, which are accounted for under the cost method of accounting are included in long-term investments in the "Corporate" column.

**Form 52-109F2 - Certification of Interim Filings**

I, *Barry E. Welch, Chief Executive Officer of Atlantic Power Management, LLC, Manager of Atlantic Power Corporation*, certify that:

1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of *Atlantic Power Corporation*, (the issuer) for the interim period ending *June 30, 2007*;
2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings;
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the issuer, and we have:
  - (a) designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared; and
  - (b) designed such internal control over financial reporting, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP; and
5. I have caused the issuer to disclose in the interim MD&A any change in the issuer's internal control over financial reporting that occurred during the issuer's most recent interim period that has materially affected, or is reasonably likely to materially affect, the issuer's internal control over financial reporting.

## **ATLANTIC POWER CORPORATION**

Notes to Consolidated Financial Statements

Three and Six months ended June 30, 2007 and 2006 (Unaudited)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

---

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004 and continued to the Province of British Columbia on July 8, 2005. The Company issued income-participating securities ("IPs") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

The Company currently owns indirect interests in 15 power generation projects and one transmission line located primarily in the United States of America (collectively, the "Projects"). Three of the Projects are wholly owned subsidiaries of the Company, being Onondaga Cogeneration Limited Partnership ("Onondaga"), Lake Cogen Ltd. and Atlantic Holdings Path 15, LLC ("Path 15").

### **1. Basis of presentation:**

These interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2006, as set out in the 2006 Annual Report since they do not contain all the disclosures that are required by Canadian generally accepted accounting principles for annual financial statements. These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, using the same accounting policies and methods of computation as were used for the audited consolidated financial statements for the year ended December 31, 2006, except for the changes described in Note 2.

There is some seasonality of the Company's revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the power purchase agreement payments and the typical scheduling of major facility maintenance in the spring and fall.

### **2. Changes in accounting policies:**

#### **(a) Financial instruments:**

On January 1, 2007, the Company adopted the new recommendations of Section 3855, Financial Instruments - Recognition and Measurement, Section 3865, Hedges, Section 1530, Comprehensive Income and Section 3251, Equity, from the Handbook of The Canadian Institute of Chartered Accountants. The retroactive application of the new standards does not require restatement of prior periods.

This change in accounting policy will result in significantly increased variability in net income but will not impact cash flows.

Section 3855, Financial Instruments - Recognition and Measurement, establishes standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. The standard requires that financial assets, financial liabilities and non-financial derivatives be recognized on the consolidated balance sheets.

Under this standard, all financial instruments are required to be measured at fair value on initial recognition. Measurement in subsequent periods is based on the classification of the financial instrument as held-for-trading or available-for-sale assets or liabilities, held-to-maturity or available-for-sale investments or loans and receivables. Transaction costs are expensed as incurred for financial instruments classified or designated as held-for-trading. For other financial instruments, transaction costs are capitalized on initial recognition.

## ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements

Three and Six months ended June 30, 2007 and 2006 (Unaudited)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

---

Financial assets and financial liabilities held-for-trading are measured at fair value with changes in those fair values recognized in earnings. Financial assets and liabilities classified as held-to-maturity are measured at amortized cost using the effective interest method of amortization.

Derivative instruments are recorded on the consolidated balance sheets at fair value unless the derivative instrument is a contract to buy or sell a non-financial item in accordance with the Company's expected purchase, sale or usage requirements, referred to as a "normal purchase or normal sale." Changes in the fair values of derivative instruments are recognized in earnings unless the derivative instrument qualifies and is designated as an effective cash flow hedge or a normal purchase or normal sale. Normal purchases and normal sales are exempt from the application of the standard and are accounted for as executory contracts. Changes in the fair value of a derivative instrument designated as an effective cash flow hedge are recorded in accumulated other comprehensive income a component of equity.

Other significant accounting implications of Section 3855 include the use of the effective interest method of amortization for any transaction costs or fees, premiums or discounts earned or incurred for financial instruments measured at amortized cost.

As a result of adopting the requirements of Section 3855, the Company has determined that the power purchase agreement ("PPA") at the proportionately consolidated Chambers Project is a derivative instrument. The PPA does not qualify for exclusion from Section 3855 and has not been designated as a hedge. Accordingly, the PPA has been recorded at its fair value in the consolidated balance sheets and changes in the fair value are recognized in change in fair value of derivative instruments in the consolidated statements of income and deficit.

The fair value of the PPA is measured by comparing the net present value of the cash flows expected to be received under the terms of the PPA to the net present value of the cash flows that would be received if the same volumes were sold at projected market power prices over the term of the contract expiring in 2024. Accordingly, periodic changes to the fair value of the PPA reflect changes in market conditions and do not directly impact the amount of cash flow the Chambers Project will receive under the terms of the PPA.

The impact of this change was to increase opening retained earnings (deficit) as of January 1, 2007 by \$212,183 to reflect the fair value of the PPA in the amount of \$155,762 and the removal from the consolidated balance sheet of the unamortized cost of the PPA in the amount of \$56,421 (previously presented as a credit in other intangible assets) on that date. As of June 30, 2007, the fair value of the PPA in the amount of \$82,260 was reflected in the consolidated balance sheets as \$8,580 included in current portion of derivative instruments asset and \$73,680 included in derivative instruments asset. The change in fair value of the PPA for the three and six months ended June 30, 2007 is recorded as a loss in the amount of \$24,260 and \$73,503, respectively, in the consolidated statements of income and deficit.

During the second quarter of 2007, it was determined that a future tax liability should be reflected as a result of the adjustments to opening retained earnings (deficit) as of January 1, 2007 described above. As a result, opening retained earnings as of January 1, 2007 has been reduced by \$87,938 with a corresponding increase in the future tax liability. In addition, the change in the fair value of the Chambers PPA resulted in a reduction in the future tax liability of \$9,704 and \$29,401, respectively, in the three and six months ended June 30, 2007. These amounts were recorded as a

## ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements

Three and Six months ended June 30, 2007 and 2006 (Unaudited)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

---

credit to income taxes in the consolidated statement of operations and retained earnings (deficit) in the three and six months ended June 30, 2007. The impact of this correction is to reduce the previously reported loss for the three months ended March 31, 2007 by \$17,693 or \$0.29 per IPS. Accordingly, income tax expense (benefit), net income (loss) and income (loss) per IPS are restated to \$16,687, (\$32,047) and (\$0.52), respectively, for the three months ended March 31, 2007 and the future tax liability as of March 31, 2007 was \$87,676.

Deferred financing costs in the amount of \$10,990 as of January 1, 2007 have been reclassified and presented together with the respective debt instrument to which the costs relate and are now being amortized using the effective interest method. The difference between the straight-line and effective interest methods of amortization of these costs is de minimus.

See Note 4 for information about other financial instruments that were not impacted by the adoption of Section 3855.

Section 3865, Hedges, specifies the criteria that must be satisfied in order for hedge accounting to be applied and the accounting for fair value hedges and cash flow hedges. Hedge accounting is discontinued prospectively when the derivative no longer qualifies as an effective hedge, or the derivative is terminated or sold, or upon the sale of the hedged item. As of June 30, 2007, the Company has not designated any derivative instruments as a cash flow hedge or a fair value hedge.

Section 1530, Comprehensive Income, establishes standards for the reporting and display of comprehensive income, which consists of net income and other comprehensive income ("OCI"). OCI is presented as a component of equity and is comprised of certain changes in shareholders' equity that are not recognized in net income. Examples of items included in OCI include the effective portion of the changes in fair value of derivative instruments designated as a cash flow hedge and changes in the currency translation adjustment relating to self-sustaining foreign operations. As of June 30, 2007, the Company does not have any items recorded in OCI.

Section 3251, Equity, establishes standards for the presentation of equity and changes in equity during the reporting period, in addition to the requirement in Section 1530. The adoption of Section 1530 had no impact on the Company's consolidated financial statements.

(b) Long-term incentive plan:

The officers and other employees of Atlantic Power Management, LLC (the "Manager") are eligible to participate in the Company's Long-Term Incentive Plan ("LTIP"), as determined by the independent members of the Board of Directors of the Company. On an annual basis, the Board of Directors establishes awards that are based on the cash flow performance of the Company in the most recently completed year, each participant's base salary and the market price of the IPSs at the award date. Awards are granted in the form of notional units that have similar economic characteristics to the Company's IPSs. Notional units vest over a three-year period and are redeemed in a combination of cash and IPSs upon vesting. Unvested notional awards are entitled to receive distributions equal to the distributions per public IPS during the vesting period and are awarded in the form of additional notional units. Unvested awards are subject to forfeiture if the participant is not an employee of the Manager at the vesting date or if the Company does not meet certain ongoing cash flow performance targets.

**ATLANTIC POWER CORPORATION**

Notes to Consolidated Financial Statements

Three and Six months ended June 30, 2007 and 2006 (Unaudited)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

---

Compensation expense related to awards granted to participants in the LTIP is recorded over the vesting period based on the estimated fair value of the award at each balance sheet date. Forfeitures are recorded as they occur and are not included in the estimated fair value of the awards. The aggregate number of IPSs which may be issued from treasury under the LTIP is limited to one million.

On March 28, 2007, the Board of Directors approved grants of notional units to acquire a maximum of 172,071 IPSs under the terms of the LTIP. The measurement date for the awards for accounting purposes occurred when participants were informed of the details of their awards in April 2007. As a result, compensation expense related to the LTIP in the amount of \$0.3 million was recorded in the three and six month periods ended June 30, 2007 and 2006. No compensation expense related to the LTIP was recorded in the three and six-month periods ended June 30, 2006.

(c) Long-term investments:

During the first quarter of 2007, management reviewed its accounting for its investments in the Gregory and the Selkirk Projects that have historically been accounted for using the equity method. Based on a current assessment, management has determined that as of January 1, 2007, the cost method of accounting is appropriate for these investments. Beginning January 1, 2007, the Company has prospectively changed its accounting for its investments in the Gregory and Selkirk Projects from the equity method to the cost method of accounting. Under the cost method, investment income is recorded to the extent of distributions received from the Projects. This change in accounting policy does not impact cash flow.

The Company's investments in the Delta Person, Jamaica and Rumford Projects continue to be recorded under the equity method of accounting and are also included in long-term investments in the consolidated balance sheets.

In July 2007, a subsidiary of the Company entered into an agreement to sell its equity investment in the Jamaica Project for \$6.2 million. The carrying value of the equity investment at June 30, 2007 exceeds the sales price and, accordingly, an impairment charge in the amount of \$5.1 million was recorded in the second quarter of 2007 and is included in income from cost and equity method investments in the consolidated statement of operations and retained earnings (deficit). The sale transaction is expected to close in before the end of 2007. The equity investment in the Jamaica Project is included in the long-term investments in the consolidated balance sheet at June 30, 2007.

**ATLANTIC POWER CORPORATION**

Notes to Consolidated Financial Statements

Three and Six months ended June 30, 2007 and 2006 (Unaudited)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

**3. Related party transactions:**

In connection with the Company's initial public offering, ArLight Energy Partners Funds I, L.P. ("Fund I") and ArLight Energy Partners Funds II, L.P. ("Fund II", and, together with Fund I, the "ArLight Funds") and Caithness Energy, LLC ("Caithness") (together with the ArLight Funds, the "Existing Investors") acquired the right to request, at any time, that Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Holdings, subject to a minimum remaining 10% interest for a two-year period from November 18, 2004. This liquidity right was treated as a liability of the Company and recorded at fair value on the consolidated balance sheets. Any change in the non-controlling interest liability was recognized in the consolidated statements of income and retained earnings (deficit) as a change in non-controlling interest liability.

The Existing Investors have exercised the liquidity right in a series of transactions since the initial public offering through February 2007 as follows:

Date	Amount paid to Existing Investors	Incremental share <sup>(i)</sup>
October 2005	\$ 64,374	12.0%
October 2006	87,287	15.5%
February 2007	76,888	14.4%

<sup>(i)</sup> Represents incremental portion of Holdings purchased by the Company from the Existing Investors in the transaction.

The amounts paid to the Existing Investors in the transactions above were financed by the Company through the sale of IPSs and convertible debentures.

At December 31, 2006, \$74,433 restricted cash included in the consolidated balance sheets was held in escrow pending regulatory approval of a transaction whereby the remaining interests of the Existing Investors were acquired by Holdings. In February 2007, the required regulatory approval was obtained and the transaction was completed. Holdings is now a wholly owned subsidiary of the Company and the liquidity right of the Existing Investors has been extinguished.

During the three and six months ended June 30, 2007, in accordance with the Management Agreement, the Company paid management and incentive fees and cost reimbursements of \$800 (2006 - \$687) and \$1,636 (2006 - \$1,375), respectively, to the Manager.

**ATLANTIC POWER CORPORATION**

Notes to Consolidated Financial Statements

Three and Six months ended June 30, 2007 and 2006 (Unaudited)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

**4. Financial instruments:****(a) Indexed Swap and Indexed Swap Hedge:**

A swap agreement ("Indexed Swap") exists between the power utility and Onondaga, which replaced Onondaga's original power purchase contract. The Indexed Swap expires on June 30, 2008. The Indexed Swap is a financial instrument under which the utility company makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full term of the Indexed Swap.

In May 2004, a subsidiary of Onondaga entered into commodity derivative instruments ("Indexed Swap Hedge"), in order to lock in favorable gas, power and capacity pricing under the Indexed Swap. The Indexed Swap Hedge extends through June 30, 2008 and removes almost all commodity price risk from the Indexed Swap through its term.

The Indexed Swap and Indexed Swap Hedge are recorded at fair value and included in derivative instruments in the consolidated balance sheets. Changes in the fair values of derivative instruments are recorded in change in fair value of derivative instruments in the consolidated statements of income and retained earnings (deficit).

Changes related to the Indexed Swap asset are summarized below:

	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Fair value, beginning of period	\$ 48,327	86,750	\$ 50,124	\$ 107,914
Decrease in fair value	(1,164)	(4,248)	5,097	(16,873)
Settlements received	(9,743)	(7,722)	(17,801)	(16,261)
Fair value, end of period	\$ 37,420	74,780	\$ 37,420	\$ 74,780

Changes related to the Indexed Swap Hedge liability:

	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Fair value, beginning of period	\$ 21,946	\$ 42,186	\$ 18,989	58,547
Decrease in fair value	(1,918)	(5,732)	3,503	(19,700)
Settlements paid	(4,048)	(2,617)	(6,513)	(5,010)
Fair value, end of period	\$ 15,980	\$ 33,837	\$ 15,980	\$ 33,837

**ATLANTIC POWER CORPORATION**

Notes to Consolidated Financial Statements

Three and Six months ended June 30, 2007 and 2006 (Unaudited)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

## (b) Foreign currency contracts:

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates, as the Company earns its income principally in the United States and has the obligation to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has executed this strategy by entering into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn\$1.06 per IPS to IPS holders, as well as interest payments on the Subordinated Notes. It is the Company's intention to periodically extend the length of these forward contracts by one additional year. Changes in the fair market value of the Company's forward contracts partially offset exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations. The following table summarizes the Company's forward foreign currency contracts with monthly settlement terms as of June 30, 2007:

Period	Notional monthly amounts		
	Sell U.S. dollars	Buy Cdn. dollars	Average rate
Current-2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

In addition to the forward contracts in the table above that settle on a monthly basis, the Company has executed forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make semi-annual payments on the Debentures. The contracts provide for the purchase of Cdn\$1.9 million in October 2007, at a rate of 1.1240 Canadian dollars per U.S. dollar and the purchase of Cdn\$1.9 million in April and in October of 2008 through 2011 at a rate of 1.1075 Canadian dollars per U.S. dollar.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange gains and losses. At June 30, 2007, the fair value of the foreign exchange forward contracts was included in current portion of derivative instruments asset and derivative instruments asset in the amount of \$8,032 and \$15,831 respectively.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects on cash flow of changing natural gas prices, which are a significant component of Project expenses. In addition, other Projects have entered into natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

The foreign exchange loss of \$12,228 (2006 - \$9,104) and \$14,709 (2006 - \$7,551) during the three and six months ended June 30, 2007, respectively, primarily reflects unrealized foreign exchange gains on the U.S. dollar equivalent of the Company's Canadian dollar-denominated

**ATLANTIC POWER CORPORATION**

Notes to Consolidated Financial Statements

Three and Six months ended June 30, 2007 and 2006 (Unaudited)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

obligation related to convertible debentures and subordinated notes, unrealized foreign exchange losses on the changes in the fair market value of the Company's forward contracts and realized foreign exchange gains on forward contract settlements during the period. Foreign exchange gains (losses) are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Subordinated notes and convertible debentures	<b>\$(32,921)</b>	\$(11,610)	<b>\$ (36,565)</b>	(10,535)
Non-controlling interest	–	(7,468)	<b>1,120</b>	(6,748)
Forward contracts	<b>19,248</b>	8,932	<b>19,977</b>	7,948
Unrealized foreign exchange gains (losses)	<b>(13,673)</b>	(10,146)	<b>(15,468)</b>	(9,335)
Realized foreign exchange gains on forward contract settlements	<b>1,445</b>	1,042	<b>759</b>	1,784
	<b>\$(12,228)</b>	\$(9,104)	<b>\$(14,709)</b>	(7,551)

**5. Path 15 Acquisition:**

The acquisition of the Path 15 Project closed on September 15, 2006 and was financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Holdings. The Acquisition Credit Facility had an outstanding balance of \$51 million at December 31, 2006. The remaining outstanding balance was paid in the first quarter of 2007 using cash on hand and \$31 million drawn from the Company's revolving credit facility.

During the three month period ended June 30, 2007, management revised its initial estimate of the future tax liability recorded at the time of Path 15 acquisition. The revised estimate was recorded as an increase to goodwill and future tax liability in the amount of \$2,367 in the consolidated balance sheet as of June 30, 2007.

**6. Basic and diluted income (loss) per share:**

Basic income (loss) per share has been calculated using the weighted average number of units outstanding during the three and six months ended June 30, 2007 of 61,470,500 (2006 - 44,339,500).

Diluted income (loss) per share is computed including dilutive potential IPSs as if they were outstanding IPSs during the period. Dilutive potential IPSs include 4,883,712 IPSs that would be issued if all of the convertible debentures were converted into IPSs at January 1, 2007. Dilutive potential IPSs also include the weighted average number of IPSs that would be issued if the unvested notional units outstanding under the Company's LTIP were vested and redeemed for IPSs as of the date such notional units were granted. Weighted average dilutive potential IPSs related to the LTIP were 209,586 and 105,372 for the three and six month periods ended June 30, 2007, respectively.

**ATLANTIC POWER CORPORATION**

Notes to Consolidated Financial Statements

Three and Six months ended June 30, 2007 and 2006 (Unaudited)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

---

Because the Company reported a loss during the three and six months ended June 30, 2007, the effect of including these shares in the calculation is anti-dilutive. During the three months ended June 30, 2006, there were no potentially dilutive securities outstanding.

**7. Gas transportation contract liability:**

In June 2007, the Company paid \$9.75 million to an unrelated third party in exchange for the assumption by the third party of long-term gas transportation obligations at the Onondaga Project that are not required for the operations of the Project. The carrying value of the gas transportation liability at the date of the transaction exceeded the amount paid by the Onondaga Project to extinguish the liability, resulting in a gain of approximately \$10.0 million in the second quarter of 2007, which is included in other project income in the accompanying statement of operations and retained earnings (deficit). The Onondaga Project funded the transaction with a \$9.75 million contribution from the Company, which was partially funded by a \$9.4 million release of restricted cash at the Path 15 Project.

**8. Commitments and contingencies:**

From time to time, the Company, its subsidiaries and the Projects are parties to disputes and litigation that arise in the normal course of business. The Company assesses its exposure to these matters and records estimated loss contingencies when a loss is likely and can be reasonably estimated. There are no matters pending as of June 30, 2007 which are expected to have a material impact on the Company's financial position or results of operations.

**9. Credit facility amendment:**

In August 2007, the Company amended its credit facility. Under the terms of the amendment, the total amount available under the credit facility has been increased from \$75 million to \$100 million, of which \$50 million may be utilized for letters of credit. The November 2008 maturity date of the credit facility has been extended to August 2012 with an option for the Company to extend the maturity date by one additional year.

Outstanding amounts under the amended credit facility bear interest at the London Interbank Offered Rate ("LIBOR") plus an applicable margin that varies based on certain credit ratios of Holdings. The range of applicable margin is 0.875% to 1.625%. Based on Holdings' credit statistics at June 30, 2007, the applicable margin is currently 0.875%. Prior to the amendment, the applicable margin was fixed at 1.50%.

**10. Comparative figures:**

Certain 2006 figures have been reclassified to conform to the financial statement presentation adopted in 2007.

August 10, 2007

**Atlantic Power Corporation Announces August 2007 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of August 2007. A distribution of \$0.0884 per Income Participating Security (“IPS”) will be payable on September 28, 2007 to holders of record at the close of business on August 31, 2007.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0884 reflects a cash dividend per common share of \$0.0355 and an interest payment of \$0.0529 for the month of August 2007.

Atlantic Power Corporation designates this dividend to be an “eligible dividend” pursuant to subsection 89(14) of the Income Tax Act (Canada) and its equivalent in any provinces of Canada.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

**Atlantic Power Corporation Announces July 2007 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX: ATP.UN) (the “Company”) today announced its distribution for the month of July 2007. A distribution of \$0.0884 per Income Participating Security (“IPS”) will be payable on August 31, 2007 to holders of record at the close of business on July 31, 2007.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0884 reflects a cash dividend per common share of \$0.0355 and an interest payment of \$0.0529 for the month of July 2007.

Atlantic Power Corporation designates this dividend to be an “eligible dividend” pursuant to subsection 89(14) of the Income Tax Act (Canada) and its equivalent in any provinces of Canada.

## PROXY FOR REGISTERED HOLDERS OF COMMON SHARES

This proxy is being solicited by Atlantic Power Management, LLC (the "Manager") the Manager of Atlantic Power Corporation (the "Issuer") from holders of common shares of the Issuer ("Shareholders") for use in connection with the annual meeting (the "Meeting") of Shareholders to be held on June 6, 2007 at the Le Royal Meridien King Edward Hotel, The Belgravia Room, 37 King Street East, Toronto, Ontario at 10:00 a.m. (Toronto time). Reference is made to the accompanying management information circular of the Issuer dated May 10, 2007 (the "Circular") for further information.

The undersigned Shareholder of the Issuer hereby appoints IRVING GERSTEIN or, failing him, JOHN McNEIL (or instead of either of them .....), as proxy of the undersigned to attend and vote at the Meeting and at any adjournment thereof, with full power of substitution and with all the powers which the undersigned could exercise if personally present and with authority to vote at the said proxyholder's discretion unless herein otherwise specified. The said proxyholder is hereby specifically directed to:

1. **VOTE FOR**  **or WITHHOLD FROM VOTING ON**  the election of Irving Gerstein, Ken Hartwick, John McNeil, Barry Welch and William Whitman as members of the Issuer's board of directors; and
2. **VOTE FOR**  **or WITHHOLD FROM VOTING ON**  the appointment of KPMG LLP as the auditors of the Issuer and the authorization of the Issuer's board of directors to fix such auditors' remuneration.

DATED this \_\_\_\_\_ day of \_\_\_\_\_, 2007.

\_\_\_\_\_  
Name of Shareholder

\_\_\_\_\_  
Signature of Shareholder

**NOTE:**

1. The shares represented by this proxy will be voted for or withheld from voting in accordance with the instructions noted hereon on any ballot that may be called for. In the absence of instructions to the contrary, the shares will be voted "FOR" the above-mentioned items. The Manager presently knows of no matters to come before the Meeting other than the matters identified in the notice of the Meeting. If any matters that are not known should properly come before the Meeting, the shares will be voted on such matters in accordance with the best judgment of the said proxyholder.
2. To vote this proxy, the Shareholder must sign in the space provided on this form. Please sign exactly as the name appears hereon and in which the shares are registered. If the Shareholder is a corporation, the proxy should be executed by duly authorized officers and its corporate seal must be affixed. If this proxy is not dated in the space provided, the proxy shall be deemed to bear the date on which it was mailed by the Issuer.
4. The Shareholder has the right to appoint a person, other than the persons designated, to attend, vote and act for the Shareholder and on the Shareholder's behalf at the Meeting. Such right may be exercised by striking out the names of the specified persons and inserting the name of such other person in the space provided.
5. This proxy revokes all prior proxies given by the Shareholder represented by this proxy and may be revoked at any time before it has been exercised.
6. Reference should be made to the Circular, which accompanies the notice of Meeting, for a full explanation of the rights of Shareholders regarding completion and use of this proxy and other information pertaining to the Meeting.

## INFORMATION CIRCULAR

This information circular (the “**Information Circular**”) is furnished in connection with the solicitation of proxies by or on behalf of Atlantic Power Management, LLC (the “**Manager**”), as manager of Atlantic Power Corporation (the “**Corporation**”), for use at the annual meeting (the “**Meeting**”) of shareholders (the “**Shareholders**”) of the Corporation to be held on June 6, 2007 at the Le Royal Meridien King Edward Hotel, The Belgravia Room, 37 King Street East, Toronto, Ontario commencing at 10:00 a.m. (Toronto time), and at all postponements or adjournments thereof, for the purposes set forth in the accompanying notice of the Meeting (the “**Notice of Meeting**”).

### PROXY SOLICITATION AND VOTING

#### Solicitation of Proxies

The solicitation of proxies for the Meeting will be made primarily by mail, but proxies may also be solicited personally, in writing or by telephone by employees of the Manager, at nominal cost. The Corporation will bear the cost in respect of the solicitation of proxies for the Meeting and will bear the legal, printing and other costs associated with the preparation of the Information Circular.

The information contained herein is given as at May 10, 2007, except where otherwise noted.

#### Appointment and Revocation of Proxies

Together with the Information Circular, the Shareholders will also be sent a form of proxy (a “**Form of Proxy**”). The persons named in such proxy are directors of the Corporation. **A Shareholder who wishes to appoint some other person to represent him, her or it at the Meeting may do so by crossing out the persons named in the enclosed proxy and inserting such person’s name in the blank space provided in the form of proxy or by completing another proper form of proxy. Such other person need not be a Shareholder of the Corporation.**

Computershare Trust Company of Canada (the “**Agent**”) holds the common shares (“**Common Shares**”) of the Corporation represented by income participating securities (“**IPSs**”) in trust for the benefit of holders of IPSs (“**IPS Holders**”) and has the right to vote such Common Shares at the Meeting. The Agent is required to submit proxies (as a Shareholder) for voting rights attached to such Common Shares in accordance with the instructions provided by IPS Holders. Upon submission by an IPS Holder (or his, her or its designee) whose name appears on a list of beneficial IPS Holders prepared in connection with the Meeting, of identification satisfactory to the Agent’s representative, an IPS Holder may require the Agent to sign and deliver to such holder (or his, her or its designee) a proxy to exercise personally the voting rights attaching to Common Shares underlying such IPS Holder’s IPSs, if such holder either (i) has not previously given the Agent voting instructions in respect of the Meeting or (ii) submits to such representative written revocation of any such previous instructions. At the Meeting, the IPS Holder (or his, her or its designee) exercising voting rights under a proxy granted by the Agent, has the right to speak at the Meeting in respect of any matter, question, proposal or proposition, to vote by way of ballot at the Meeting in respect of any matter, question, proposal or proposition, and to vote at the Meeting by way of a show of hands in respect of any matter, question or proposition. Together with the Information Circular, IPS Holders will also be sent an instruction form addressed to the Agent which may be completed and returned to the Agent setting out the IPS Holder’s voting instructions.

To be valid, proxies or instructions to the Agent must be deposited at the offices of the Agent, 9<sup>th</sup> Floor, North Tower, 100 University Avenue, Toronto, Ontario, M5J 2Y1, so as not to arrive later than 5:00 p.m. (Toronto time) on June 4, 2007, or be deposited with the chair of the Meeting (the “**Chair of the Meeting**”) prior to the commencement of the Meeting. If the Meeting is adjourned, proxies or instructions to the Agent must be deposited 48 hours (excluding Saturdays, Sundays and holidays), before the time set for any reconvened meeting at which the proxy or instructions are to be used, or be deposited with the Chair of the Meeting prior to the commencement of the Meeting or any reconvened meeting.

The document appointing a proxy must be in writing and completed and signed by a Shareholder or his or her attorney authorized in writing or, if the Shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Instructions provided to the Agent by an IPS Holder must be in writing and completed and signed by the IPS Holder or his or her attorney authorized in writing or, if the IPS Holder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Persons signing as officers, attorneys, executors, administrators, and trustees or similarly otherwise should so indicate and provide satisfactory evidence of such authority.

A Shareholder that has given a proxy may revoke the proxy: (a) by completing and signing a proxy bearing a later date and depositing it as aforesaid; (b) by depositing an instrument in writing executed by the Shareholder or by his or her attorney authorized in writing; (i) at the registered office of the Corporation at any time up to and including the last business day preceding the day of the applicable Meeting, or any adjournment thereof, at which the proxy is to be used, or (ii) with the Chair of the Meeting prior to the commencement of such Meeting on the day of such Meeting or any adjournment thereof; or (c) in any other manner permitted by law. An IPS Holder that has given instructions to the Agent with respect to the voting of the Common Shares underlying its IPSs may revoke the instructions: (a) by completing and signing instructions bearing a later date and depositing it as aforesaid; (b) by depositing an instrument in writing executed by the IPS Holder or by his or her attorney authorized in writing; (i) at the registered office of the Agent at any time up to and including the last business day preceding the day of the applicable Meeting, or any adjournment thereof, at which the instructions are to be relied on, or (ii) with the Chair of the Meeting prior to the commencement of such Meeting on the day of such Meeting or any adjournment thereof; or (c) in any other manner permitted by law.

#### **Voting of Proxies**

The persons named in the accompanying Form of Proxy will vote Common Shares in respect of which they are appointed, on any ballot that may be called for, in accordance with the instructions of the Shareholder as indicated on the proxy. The Agent will vote Common Shares underlying IPSs in respect of which they are instructed, on any ballot that may be called for, in accordance with the instructions of the IPS Holder. **In the absence of such specification, such Common Shares will be voted at the Meeting as follows:**

- **FOR the election of Irving Gerstein, Ken Hartwick, John McNeil, Barry Welch and William Whitman to the board of directors as described under the heading "Matters to be Considered at the Meeting – Election of Directors"; and**
- **FOR the appointment of KPMG LLP as auditors of the Corporation and to authorize the board of directors to fix the auditor's remuneration.**

For more information on these issues, please see the section entitled "Matters to be Considered at the Meeting" in this Information Circular.

The persons appointed under the Form of Proxy are conferred with discretionary authority with respect to amendments to or variations of matters identified in the Form of Proxy and the Notice of Meeting and with respect to other matters, which may properly come before the Meeting. In the event that amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting, it is the intention of the persons designated in the enclosed Form of Proxy to vote in accordance with their best judgment on such matter or business. At the time of printing the Information Circular, the directors of the Corporation (the "Directors", the "Board" or the "Board of Directors") know of no such amendments, variations or other matters.

#### **INFORMATION FOR BENEFICIAL HOLDERS OF SECURITIES**

**Information set forth in this section is very important to persons who hold Common Shares or IPSs otherwise than in their own names.** A non-registered securityholder of the Corporation (a "Beneficial Holder") who beneficially owns Common Shares or IPSs, but such Common Shares or IPSs are registered in the name of an intermediary (such as a securities broker, financial institution, trustee, custodian or other nominee who holds securities on behalf of the Beneficial Holder or in the name of a clearing agency in which the intermediary is a participant) should note that only proxies or instructions deposited by securityholders whose names are on the

records of the Corporation as the registered holders of Common Shares or IPSs can be recognized and acted upon at the Meeting.

Common Shares or IPSs that are listed in an account statement provided to a Beneficial Holder by a broker are likely not registered in the Beneficial Holder's own name on the records of the Corporation and such Common Shares or IPSs are more likely registered in the name of CDS Clearing and Depository Services Inc. ("CDS") or its nominee.

Applicable regulatory policy in Canada requires brokers and other intermediaries to seek voting instructions from Beneficial Holders in advance of securityholders' meetings. Every broker or other intermediary has its own mailing procedures and provides its own return instructions, which should be carefully followed by Beneficial Holders in order to ensure that their Common Shares are voted at the Meeting. Often, the form of proxy supplied to a Beneficial Holder by its broker is identical to that provided to registered securityholders. However, its purpose is limited to instructing the registered securityholder how to vote on behalf of the Beneficial Holder. Most brokers now delegate responsibility for obtaining instructions from clients to ADP Investor Communications ("ADP"). ADP typically prepares a machine-readable voting instruction form, mails those forms to the Beneficial Holders and asks Beneficial Holders to return the proxy forms to ADP. ADP then tabulates the results of all instructions received and provides appropriate instructions representing the voting of the securities to be represented at the Meeting. A Beneficial Holder receiving an ADP voting instruction form cannot use that voting instruction form to vote Common Shares directly at the Meeting. The voting instruction form must be returned to ADP well in advance of the Meeting in order to have the Common Shares voted.

Although Beneficial Holders may not be recognized directly at the Meeting for the purposes of voting Common Shares registered in the name of CDS or their broker or other intermediary, a Beneficial Holder may attend at the Meeting as proxyholder for the registered holder and vote their Common Shares in that capacity. Beneficial Holders who wish to attend the Meeting and indirectly vote their own Common Shares as proxyholder for the registered holder should enter their own names in the blank space on the Form of Proxy or voting instruction form provided to them and return the same to their broker or other intermediary (or the agent of such broker or other intermediary) in accordance with the instructions provided by such broker, intermediary or agent well in advance of the Meeting.

#### VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

The Corporation is authorized to issue an unlimited number of Common Shares. As of the date of this Information Circular, there were 61,470,500 Common Shares and IPSs outstanding (66,309,210 Common Shares and IPSs outstanding on fully diluted basis). All of the outstanding Common Shares are registered in the name of the Agent and are held by the Agent in trust for the IPS Holders.

At the Meeting, each Shareholder of record at the close of business on May 7, 2007, the record date established for the Notice of Meeting (the "Record Date"), will be entitled to one vote for each Common Share held on all matters proposed to come before the Meeting, except to the extent such Shareholder has transferred any such Common Shares after the Record Date and the transferee of such Common Shares establishes ownership thereof and makes a written demand to the Corporate Secretary of the Manager, not later than 10 days before the date of the Meeting, to be included in the list of Shareholders entitled to vote at the Meeting, in which case the transferee will be entitled to vote such Common Shares.

To the knowledge of the Directors, the following persons beneficially own or exercise control or direction over Common Shares carrying approximately 10% or more of the votes attached to the issued and outstanding Common Shares:

Name	Number of Common Shares beneficially owned or over which control or direction is exercised	Percentage of Total Common Shares
CAISSE DE DÉPÔT ET PLACEMENT DU QUÉBEC	11,575,000	18.83%

(1) Based on publicly available filings.

## MATTERS TO BE CONSIDERED AT THE MEETING

### Election of Directors

The number of directors to be elected at the Meeting has been fixed at five. The persons named in the enclosed Form of Proxy, if not expressly directed to the contrary in such Form of Proxy, intend to vote for the election, as directors, of the proposed nominees whose names are set out below. It is not contemplated that any of the proposed nominees will be unable to serve as a director but, if that should occur for any reason prior to the Meeting, the persons named in the enclosed Form of Proxy reserve the right to vote for another nominee at their discretion. Each nominee elected as a director will hold office until the next annual meeting of the Shareholders or until his successor is elected or appointed.

The following table sets forth the names of, and certain information for, the individuals proposed to be nominated for election as directors. Biographies for each nominee, which include a summary of each nominee's principal occupation and employment within the five preceding years, are set out at pages 80 to 82 of the Corporation's annual information form dated March 28, 2007 (the "AIF") and such information is incorporated by reference herein. The AIF can be found under the Corporation's profile at [www.sedar.com](http://www.sedar.com). Upon request, the Manager will promptly provide a copy of the AIF free of charge to a securityholder of the Corporation.

Name & Province of Residence	Principal Occupation	Date Appointed as a Director	Ownership or Control over IPSs <sup>(1)</sup>
IRVING GERSTEIN <sup>(2), (3)</sup> Ontario, Canada	Corporate Director	October 4, 2004	2,000
KEN HARTWICK <sup>(2), (4)</sup> Ontario, Canada	President, Ontario Energy Savings Corp.	October 4, 2004	2,000
JOHN MCNEIL <sup>(2)</sup> Ontario, Canada	President, BDR North America Inc.	October 4, 2004	4,000
BARRY WELCH MASSACHUSETTS, U.S.A.	President and Chief Executive Officer, Atlantic Power Management, LLC	—	37,500
WILLIAM WHITMAN <sup>(2)</sup> New Jersey, U.S.A.	Senior Vice President, NW Financial Group, LLC	December 12, 2006	—

- (1) The information as to IPSs beneficially owned, directly or indirectly, including by associates or affiliates, not being within the knowledge of the Corporation, has been furnished by the respective nominees individually.
- (2) Each independent director is also a member of the audit committee of the Corporation. Further information regarding the audit committee of the Corporation and auditors' fees can be found at pages 86 and 87 of the AIF.
- (3) Chair of the Board.
- (4) Chair of the Audit Committee.

### Appointment of Auditors

The audit committee of the Corporation (the "Audit Committee") recommends to the Shareholders that KPMG LLP, Chartered Accountants, be appointed as the independent auditor of the Corporation, to hold office until the next annual meeting of the Shareholders or until their successor is appointed, and that the Directors be authorized to fix the remuneration of the auditors.

KPMG LLP has been the auditor of the Corporation since its inception. The persons named in the enclosed Form of Proxy, if not expressly directed to the contrary in such Form of Proxy, will vote such proxies in favour of a resolution to appoint KPMG LLP as auditors of the Corporation and authorize the Directors to fix their remuneration.

### Financial Statements

The annual report, the financial statements of the Corporation for the year ended December 31, 2006 and the auditors' report thereon accompanying this Information Circular will be placed before the Shareholders at the

Meeting. No formal action will be taken at the Meeting to approve the financial statements. If any Shareholder has questions regarding such financial statements, such questions may be brought forward at the Meeting.

**MANAGEMENT AND ADMINISTRATION OF ATLANTIC HOLDINGS AND THE CORPORATION**

The Manager is a Delaware limited liability company formed by ArcLight Capital Partners, LLC (“ArcLight”) and ArcLight Energy Partners Fund I, L.P. (“Fund I”) and ArcLight Energy Partners Fund II, L.P. (“Fund II”). The Manager’s principal place of business is located at 200 Clarendon Street, 25<sup>th</sup> Floor, Boston, Massachusetts 02116. The names, municipalities of residence, positions with the Manager and principal occupations of the officers of the Manager are as follows:

Name and State of Residence	Position(s) with the Manager	Principal Occupation
BARRY WELCH ..... Massachusetts, U.S.A.	President and Chief Executive Officer	President and Chief Executive Officer of the Manager
PATRICK WELCH <sup>(1)</sup> ..... Massachusetts, U.S.A.	Chief Financial Officer and Corporate Secretary	Chief Financial Officer and Corporate Secretary of the Manager
STEVEN CHWIECKO..... Massachusetts, U.S.A.	Managing Director, Asset Management & Acquisitions	Managing Director, Asset Management & Acquisitions of the Manager

(1) Patrick Welch commenced his duties on May 31, 2006.

In addition to the officers listed above, the Manager contracts with ArcLight to obtain certain back-office and support services and for the secondment of ArcLight employees from time to time as appropriate to assist the Manager in fulfilling its responsibilities under the Management Agreement (as defined below). The Manager is owned by Atlantic Power Management Holdings, LLC (“APM”), an entity managed by ArcLight and owned by Fund I and Fund II.

The Manager provides management and administrative services to the Corporation and Atlantic Holdings pursuant to the terms of an amended and restated management agreement entered into between the Manager, Atlantic Holdings and the Corporation (the “Management Agreement”). The Management Agreement has an initial 20-year term (to November 10, 2024) and will be automatically renewed for additional five-year terms unless, at least six months prior to the expiration of the then-current term, Atlantic Holdings and the Corporation (as evidenced by the approval of the independent Directors) determine that the Management Agreement will not be renewed and notify the Manager accordingly. The Management Agreement was initially entered into on November 10, 2004 in connection with the Corporation’s initial public offering. Effective April 24, 2007, the Management Agreement was amended to reflect changes arising from amendments to the operating agreement for Atlantic Holdings (which was amended to reflect the fact that Atlantic Holdings is now a wholly-owned subsidiary of the Corporation).

Under the terms of the Management Agreement, the Manager provides the following services to Atlantic Holdings: (i) representing Atlantic Holdings’ interests in the entities (the “Project Holding Entities”) through which the Corporation holds interests in its power projects (the “Projects”) and overseeing the operation of the Projects; (ii) assisting in the development, implementation and monitoring of strategic plans; (iii) assisting in developing an annual budget and an annual distributable cash forecast; (iv) assisting with treasury, legal and compliance, financing and risk assessment activities; (v) reviewing the budgets and schedules for major maintenance proposed for the Projects; (vi) assisting in the preparation of financial reports in respect of the Projects and any future projects; (vii) assisting in the negotiation of material agreements; (viii) monitoring compliance with the annual budget and distributable cash forecast; (ix) assisting in and supervising the analysis of potential acquisitions, investments and dispositions; (x) carrying out or supervising the making of acquisitions, dispositions or investments; (xi) retaining accountants, lawyers, consultants, investment bankers and other such professional advisers; and (xii) assisting in the preparation, planning and coordination of meetings of the board of managers of Atlantic Holdings and holders of membership interests in Atlantic Holdings.

Under the Management Agreement, the Manager also provides certain administrative services to the Corporation including: (i) assisting the Corporation in complying with its continuous disclosure obligations under applicable securities legislation; (ii) providing or causing to be provided to holders of securities of the Corporation, all information to which they are entitled under the constating documents of the Corporation and the subordinated note indenture dated

November 18, 2004 among the Corporation, certain guarantors and Computershare Trust Company of Canada (the "Indenture") and applicable laws; (iii) monitoring compliance of the Corporation with applicable tax laws; (iv) advising on and negotiating any financings by the Corporation; (v) providing for the calculation and distribution of interest payments and other distributions to holders of securities of the Corporation; and (vi) assisting in the preparation, planning and coordination of meetings of the Board of Directors and holders of Common Shares of the Corporation.

Pursuant to the Management Agreement, a number of material actions may not be authorized by the Manager without first obtaining the approval of Atlantic Holdings and the Corporation (as evidenced by the approval of a majority of the independent Directors) including: (i) adopting, amending or materially deviating from annual business plans; (ii) taking any action by or on behalf of a Project Holding Entity, any subsidiary of a Project Holding Entity or any limited partnership, corporation or other entity that directly owns the Projects that may have a material impact on the annual distributable cash forecast; (iii) disposing of any material assets; and (iv) raising capital by way of an issuance of securities of Atlantic Holdings or the Corporation. Without the approval of Atlantic Holdings and the Corporation (as evidenced by the approval of a majority of the independent Directors), the Manager, on behalf of Atlantic Holdings or the Corporation or a subsidiary or affiliate of Atlantic Holdings or the Corporation, may not (i) enter into any material transaction with the Manager or an affiliate of the Manager; or (ii) amend any existing material terms of the Management Agreement or fees payable thereunder.

In consideration for providing the management and administrative services under the Management Agreement, the Manager receives: (i) an annual management fee; (ii) payments representing cost reimbursement; and (iii) an incentive fee. The annual management fee for 2007 will be approximately US\$344,000, subject to adjustment for any future acquisitions or investments on the basis that the annual fee will increase by an amount agreed between the Manager and Atlantic Holdings and the Corporation (as evidenced by the approval of a majority of the independent Directors), taking into consideration the increased service levels required and the resource requirements imposed as a result of or created by such acquisition or investment. The annual fee is subject to adjustment for inflation and is payable monthly in advance on the first business day of each month. The Manager is entitled to be reimbursed for all out-of-pocket costs and expenses reasonably incurred by the Manager or its affiliates in carrying out the management and administrative services including reasonable allocations for charges incurred by the Manager for services provided by ArcLight pursuant to the Management Support Agreement (as defined below) and for any other services provided by affiliates of the Manager (which charges will be reimbursed on a cost-recovery basis). The allocations for such charges are subject to the approval of Atlantic Holdings and the Corporation (as evidenced by the approval of a majority of the independent Directors), by way of either annual budget approval or specific authorization. For the year ended December 31, 2006, Atlantic Holdings and the Corporation paid to the Manager a total of approximately US\$894,000 which included the annual management fee, cost reimbursement for expenses incurred by the Manager and its other reasonable out-of-pocket costs and expenses incurred in connection with its duties under the Management Agreement (including amounts paid to ArcLight for services provided to the Manager by employees of ArcLight).

The Manager is also entitled to an annual incentive fee equal to 25% of the product obtained by multiplying (i) the excess of the actual cash distributions per IPS (or, following the redemption, repurchase or maturity of all of the 11% subordinated notes of the Corporation issued in accordance with the Indenture or separation of all of the IPSs, per Common Share) in each fiscal year over Cdn\$1.00 per IPS (or Cdn\$0.3657 per Common Share, as applicable), by (ii) the weighted average number of IPSs and Common Shares not represented by IPSs outstanding for the relevant calendar year or part thereof, subject to customary anti-dilution provisions. For the fiscal year ended December 31, 2006, an incentive fee of US\$554,000 was paid to the Manager.

Atlantic Holdings and the Corporation have the right to terminate the Management Agreement in circumstances of: (i) bankruptcy, insolvency or receivership of the Manager; (ii) fraud, wilful default or gross negligence committed by the Manager; or (iii) default by the Manager in the performance of a material obligation under the Management Agreement, if (1) such default is not caused by a *force majeure* event, and (2) such default is not cured within 60 days of written notice being given by Atlantic Holdings to the Manager of the default or if such default is not reasonably capable of being cured within 60 days, the Manager has not taken all reasonable steps to cure such default as soon as possible thereafter but in any event within 120 days. The Manager will have the right to terminate the Management Agreement earlier (i) in the event of (1) the bankruptcy, insolvency or receivership of Atlantic Holdings or the Corporation, or (2) a default by Atlantic Holdings or the Corporation in the performance of a material obligation under the Management Agreement (other than as a result of the occurrence of a *force majeure* event) which is not remedied

within 60 days after notice thereof has been delivered, or if such default is not reasonably capable of being cured within 60 days, Atlantic Holdings or the Corporation has not taken all reasonable steps to cure such default as soon as possible thereafter but in any event within 120 days; or (ii) upon 90 days' prior written notice to Atlantic Holdings or the Corporation.

Atlantic Holdings or the Corporation may terminate the Management Agreement upon 90 days' prior written notice if: (i) while APM owns the Manager, ArcLight should cease to be the manager of the members of APM; or (ii) APM sells the Manager and ArcLight ceases to have a significant influence over the operation of the Manager, without, in either case, the prior written consent of Atlantic Holdings and the Corporation (as evidenced by the approval of a majority of the independent Directors), which consents shall not be unreasonably withheld.

The Manager may delegate certain aspects of its responsibilities under the Management Agreement, but no such delegation will relieve the Manager of its obligations thereunder. The Manager may, with the approval of Atlantic Holdings and the Corporation (as evidenced by the approval of a majority of the independent Directors), contract with affiliates to provide services to the Corporation and Atlantic Holdings not otherwise provided for in the Management Agreement, such as advisory and investment banking services.

The Manager and any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager shall be indemnified and saved harmless by Atlantic Holdings and the Corporation from and against all losses, claims, damages, liabilities, obligations, costs and expenses (including judgments, fines, penalties, amounts paid in settlement and counsel and accountants' fees) of whatsoever kind or nature incurred by, borne by or asserted against the Manager and any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager, in any way arising from or related in any manner to the Management Agreement, unless such claims arise from the fraud, wilful default or gross negligence of the Manager or any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager. The Manager and its affiliates and associates may rely on information provided by Atlantic Holdings, the Corporation or any employee or agent thereof unless it has actual notice that such information is inaccurate.

On the closing of the Corporation's initial public offering, the Manager and ArcLight entered into a management support agreement (the "**Management Support Agreement**") which provides that certain ArcLight employees will be available to provide administrative and office support services to the Manager and that ArcLight employees may be seconded to the Manager from time to time as appropriate to enable the Manager to fulfill its responsibilities under the Management Agreement. Services and resources provided by ArcLight under the Management Support Agreement will be provided to the Manager on a cost-recovery basis. The Management Support Agreement requires ArcLight and its affiliates to give the Manager the opportunity to pursue, on behalf of the Corporation and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for Fund I, Fund II or other investment funds managed by ArcLight or its affiliates or that do fit within such investment guidelines but which such investment funds determine not to pursue.

## EXECUTIVE COMPENSATION

Under applicable securities legislation, the Corporation is required to disclose certain financial and other information relating to the compensation of its Chief Executive Officer, Chief Financial Officer and the Corporation's three most highly compensated executive officers (other than the Chief Executive Officer and Chief Financial Officer). The Corporation, however, does not have executive officers; rather the executive officers of the Manager are responsible for the management of the business of the Corporation. The following table sets forth a summary of salary and other annual compensation earned by the individuals who were, during the year ended December 31, 2006, the Chief Executive Officer, Chief Financial Officer and the three most highly compensated executive officers of the Manager (the "Named Executive Officers") during the periods ended December 31, 2006, 2005 and 2004.

Name and Principal Position	Fiscal Year Ended December 31,	Annual Compensation		Long-Term Compensation Awards	All Other Compensation (US\$)
		Salary (US\$)	Bonus (US\$) <sup>(1)</sup>	LTIP Awards <sup>(2)</sup> (# of Notional Units)	
BARRY WELCH President and Chief Executive Officer, Atlantic Power Management, LLC	2006	500,000	600,000	79,529	15,000 <sup>(3)</sup>
	2005	500,000	300,000	—	355,760 <sup>(4)</sup>
	2004 <sup>(5)</sup>	142,308	—	—	—
PATRICK WELCH Chief Financial Officer and Corporate Secretary, Atlantic Power Management, LLC	2006 <sup>(6)</sup>	140,833	140,000	38,174	3,864 <sup>(3)</sup>
MARK BYSKOV Chief Financial Officer and Corporate Secretary, Atlantic Power Management, LLC	2006 <sup>(7)</sup>	120,000	110,000	—	15,000 <sup>(3)</sup>
	2005	224,167	130,000	—	—
	2004 <sup>(8)</sup>	12,552	20,000	—	—
STEVEN CHWIECKO Managing Director, Asset Management & Acquisitions, Atlantic Power Management, LLC	2006	211,354	160,000	34,993	20,000 <sup>(3)</sup>
	2005 <sup>(9)</sup>	126,878	115,000	—	—

- (1) During 2006 and 2005, bonuses paid to Named Executive Officers included \$430,000 and \$130,000, respectively, that was paid by the Manager and not reimbursed by the Company.
- (2) The LTIP (as defined herein) was approved by the Board of Directors on May 10, 2006 and subsequently approved by the Shareholders on June 7, 2006. For further details on the LTIP, see the discussion under "— Long Term Incentive Plan" in this Information Circular.
- (3) These amounts represent matching contributions by the Corporation to the respective Named Executive Officer's 401(k) plan account.
- (4) This amount was paid by the Manager to Barry Welch in order to fund the purchase of 25,000 IPSs and was not reimbursed by the Company.
- (5) Barry Welch commenced his duties as President and Chief Executive Officer on September 20, 2004.
- (6) Patrick Welch commenced his duties as Chief Financial Officer and Corporate Secretary on May 31, 2006.
- (7) Mr. Byskov served as Chief Financial Officer and Corporate Secretary for the period December 13, 2004 to May 31, 2006. Following the effective date of Mr. Byskov's resignation, he continued to serve the Corporation on an independent consulting basis for the period June 1, 2006 to December 31, 2006 and received total compensation of US\$50,021 for such services.
- (8) Mr. Byskov commenced his duties as Chief Financial Officer and Corporate Secretary on December 13, 2004.
- (9) Mr. Chwiecko commenced his duties as Managing Director, Asset Management & Acquisitions on May 19, 2005.

## Equity Compensation Plan Information

The following table provides information regarding the LTIP, being the only equity compensation plan of the Corporation or its subsidiaries. Information is provided as of May 10, 2007.

Plan Category	Number of IPSs that may be issued upon redemption of outstanding notional units	Weight-average exercise price of outstanding notional units	Number of IPSs remaining available for issuance under the LTIP <sup>(2)</sup>
Equity compensation plans approved by Shareholders	172,021 <sup>(1)</sup>	N/A	827,979

- (1) Assumes that the participants elect to receive 100% IPSs upon redemption.
- (2) The maximum aggregate number of IPSs that may be issued under the LTIP upon redemption of Notional Units is 1,000,000 IPSs, subject to certain adjustments. For a discussion of the vesting and redemption provisions under the LTIP, see discussion under “— Long Term Incentive Plan” below.

## LTIP – Awards in Most Recently Completed Financial Year

The following table provides a summary of the awards under the LTIP for fiscal 2006 to the Named Executive Officers.

Name	Securities, Units or Other Rights (#of Notional Units)	Performance or Other Period Until Maturation or Payout <sup>(1)</sup>	Minimum Possible Payout (# of IPSs) <sup>(1)</sup>	Maximum Possible Payout (# of IPSs) <sup>(1)</sup>
BARRY WELCH	79,529	3-year vesting period subject to performance-based forfeiture	0	79,529
PATRICK WELCH	38,174	3-year vesting period subject to performance-based forfeiture	0	38,174
STEVEN CHWIECKO	34,993	3-year vesting period subject to performance-based forfeiture	0	34,993

- (1) Notional units granted under the LTIP vest over a three-year period in accordance with the terms of the LTIP, subject to performance-based forfeiture. Participants may elect to defer the redemption of notional units for additional one-year periods to a maximum of three years from each vesting date provided that the participant provides written notice of such election in accordance with applicable U.S. law. In the event that the Corporation achieves less than 80% of the Target Project Cash Flow (as defined below) established pursuant to the LTIP for a Performance Period (as defined below), all notional units with a vesting date in the next Performance Period shall be cancelled, shall no longer be redeemable for IPSs and the participant shall forfeit all rights, title and interest with respect to such notional units, unless otherwise determined by the Independent Directors (as defined below), as administrators of the LTIP. For further details on vesting and performance-based forfeiture under the LTIP, see discussion under “— Long Term Incentive Plan” below.

## Long Term Incentive Plan

On May 10, 2006, the Board of Directors approved the adoption of Atlantic Holdings’ long term incentive plan (the “LTIP”), which was subsequently approved by Shareholders on June 7, 2006. The LTIP was amended and restated effective April 24, 2007 by the Board of Directors in order to (a) change the administrator of the LTIP to the independent members of the Board of Directors (the “Independent Directors”) (or such committee or person(s) the Board delegates such authority); and (b) amend the definition of “Determination Date” to provide that the date for the calculation and grant (if any) of notional units to a participant in respect of a Performance Period (as defined below) shall be the date the Board approves the audited financial statements of the Corporation for such Performance Period. Shareholder approval of these amendments was not required under the terms of the LTIP or by the Toronto Stock Exchange since these amendments do not constitute material amendments to the LTIP.

The purpose of the LTIP is to align the interests of Eligible Persons (as defined below) with those of IPS Holders and to assist in attracting, retaining and motivating key employees of the Manager by making a significant portion of the incentive compensation of key employees directly dependent upon the achievement of key strategic, financial

and operational objectives that are critical to ongoing growth and profitability and that result in the Corporation exceeding its per IPS distribution targets.

The officers and other employees of the Manager ("**Eligible Persons**") are eligible to participate in the LTIP as determined by the Independent Directors. For each performance period (being, generally, a period of one calendar year commencing on January 1 of each year, a "**Performance Period**"), the Independent Directors establish percentages ("**LTIP Award Percentages**") that will determine the amount (based on a percentage of base salary) that Eligible Persons are entitled to receive under the LTIP if certain levels of target project cash flow ("**Target Project Cash Flow**") for the Performance Period are achieved. If certain levels of Target Project Cash Flow are achieved, the Eligible Person will be eligible to receive a number of notional units (including fractional units) to be calculated by dividing an incentive amount (based on the LTIP Award Percentages and the Eligible Person's base salary) by the "market price per IPS". The market price per IPS is defined in the LTIP as the weighted average closing price of IPSs on the Toronto Stock Exchange for the five days immediately preceding the applicable day. Any notional units granted to a participant in respect of a Performance Period will be credited to an account maintained by Atlantic Holdings for each participant ("**Notional Unit Account**") on the determination date for such Performance Period.

For grants under the LTIP, one-third of the notional units in a participant's Notional Unit Account for a Performance Period will vest on the 13-month anniversary following the determination date for such Performance Period, 50% of the notional units remaining in a participant's Notional Unit Account for a Performance Period will vest on the second anniversary date of the determination date for such Performance Period, and all remaining notional units in a Participant's Notional Unit Account for a Performance Period will vest on the third anniversary of the determination date for such Performance Period. Each notional unit is entitled to receive distributions equal to the distributions on an IPS, to be credited in the form of additional notional units immediately following any distribution on the IPSs. Participants may elect to defer the redemption of notional units for additional one-year periods to a maximum of three years from each vesting date provided that the participant provides written notice of such election in accordance with applicable U.S. law.

On the applicable vesting date for notional units held in a participant's Notional Unit Account, Atlantic Holdings will redeem such notional units as follows: (i) one-third by lump sum cash payment (net of any applicable withholdings), and (ii) the remaining two-thirds by an exchange for IPSs. Notwithstanding the foregoing, a participant may elect to redeem such notional units for 100% IPSs upon prior written notice of such election. All issuances of IPSs on redemption of notional units under the LTIP are subject to compliance with applicable securities laws.

If the net cash flows (as determined by the Independent Directors) achieved in a Performance Period are less than 80% of the Target Project Cash Flow previously approved by the Independent Directors for that Performance Period, all notional units having a vesting date in the next Performance Period will be cancelled, will no longer be redeemable for IPSs and the participants will forfeit all rights, title and interest with respect to such notional units, unless otherwise expressly determined by the Independent Directors, as administrators of the LTIP.

The aggregate number of IPSs which may be issued from treasury under the LTIP is limited to 1,000,000, subject to increase or decrease by reason of amalgamation, rights offerings, reclassifications, consolidations or subdivisions, or as may otherwise be permitted by applicable law and the Toronto Stock Exchange.

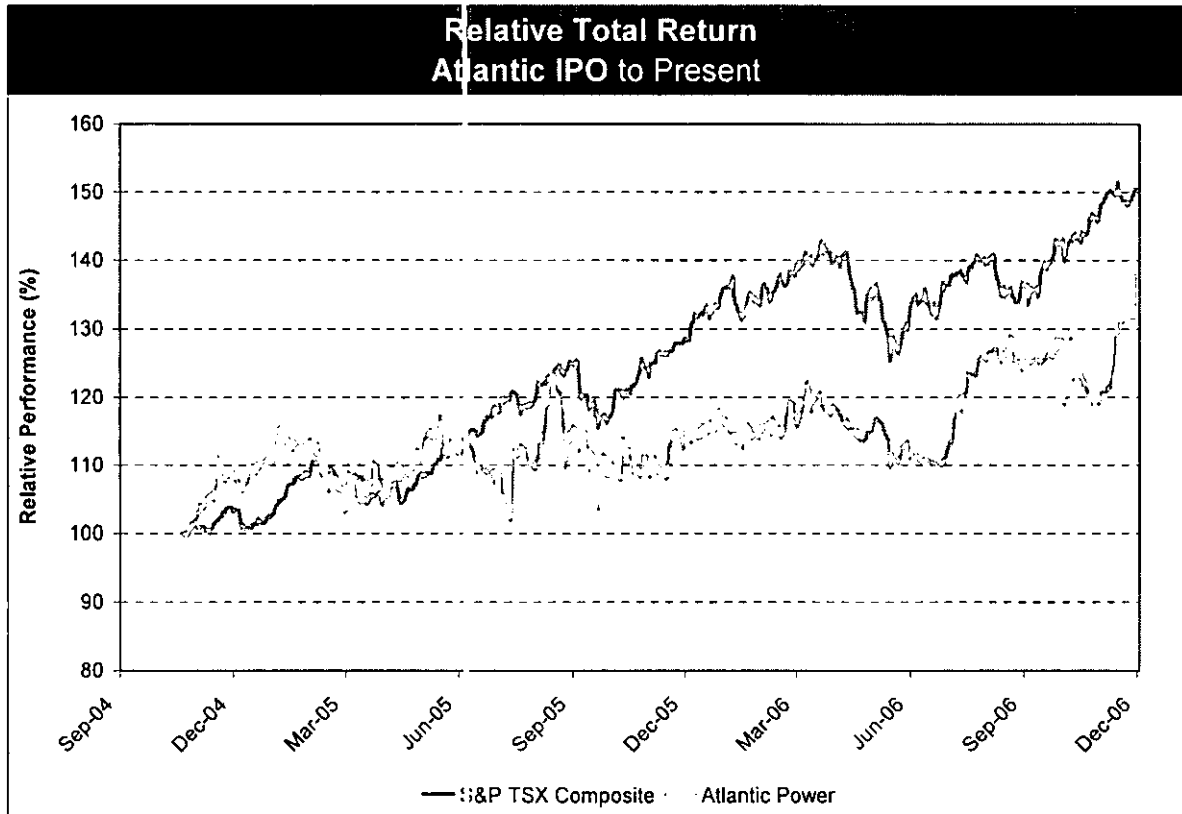

The LTIP provides that the aggregate number of IPSs reserved for issuance from treasury under the LTIP and any other IPS compensation arrangement of the Corporation or its subsidiaries or the Manager ("**IPS Compensation Arrangement**") shall not exceed 10% of the IPSs then issued and outstanding on the date of grant. The number of IPSs that may be issuable at any time, pursuant to the LTIP and any other IPS Compensation Arrangement to insiders (as such term is defined in the *Securities Act* (Ontario)), together with such insider's associates (collectively, "**Insider Participants**") shall not exceed 10% of IPSs then issued and outstanding. Additionally, the number of IPSs that may be issued, within a one-year period, pursuant to the LTIP and any other IPS Compensation Arrangement to Insider Participants shall not exceed 10% of IPSs then issued and outstanding.

On March 28, 2007, notional units to acquire a maximum of 172,021 IPSs, in the event participants elect to redeem all of such notional units for 100% IPSs, were granted under the LTIP in respect of the 2006 Performance Period all of which remain outstanding as of the date hereof, such maximum representing approximately 0.3% of the IPSs currently issued and outstanding.

The Independent Directors may terminate, modify or amend the LTIP, without securityholder approval, at any time in such manner and to such extent as they deem advisable, subject to applicable corporate, securities and tax law requirements and the requirements of the Toronto Stock Exchange, provided that any such action may not adversely affect any rights already acquired under the LTIP to such date. The amendments that may be made by the Independent Directors to the LTIP include, without limitation, the vesting and redemption dates for notional units and the persons who may qualify as Eligible Persons under the LTIP provided that any change to the Eligible Persons does not have the potential of broadening or increasing insider participation. A participant may not assign or transfer any right or interest in the LTIP. All unvested notional units are forfeited by a participant on the date he or she ceases to be employed by the Manager or Atlantic Holdings, except in the case of death, disability, retirement or change of control (in certain circumstances, as described below). If the employment of a participant is terminated in connection with the death, retirement or upon a change of control (in the case of a change of control, where termination is by the participant for good reason or by the Manager or Atlantic Holdings without cause) prior to the applicable vesting date, all notional units credited to the participant's Notional Unit Account will vest or be deemed to have vested effective the date immediately prior to the date of such termination of the participant's employment. If the employment of a participant is terminated due to the disability of the participant prior to the applicable vesting date, all notional units credited to the participant's Notional Unit Account will vest on the vesting date as if the participant continued to be actively employed until the applicable vesting date.

## IPS PERFORMANCE GRAPH

The following graph compares the total cumulative return to IPS Holders for Cdn\$100 invested in IPSs (assuming the reinvestment of distributions) with the total cumulative return of the S&P/TSX Composite Index for the period from the closing of the Corporation's initial public offering on November 18, 2004, when the IPSs were listed for trading on the Toronto Stock Exchange, to December 31, 2006.

## COMPENSATION OF DIRECTORS

### Director Fees

For 2006, each independent Director was entitled to receive an annual retainer of US\$20,000 and US\$1,500 per meeting attended in person or US\$500 per meeting attended by phone. The Chair of the Board and Audit Committee receive an additional US\$10,000 per year. Directors are reimbursed for out-of-pocket expenses for attending meetings. The Directors also participate in the insurance and indemnification arrangements described below. For 2007, it was determined that the annual retainer for independent Directors should be increased to more closely align with the compensation paid to independent board members of the Company's peers and to better reflect the time commitment and responsibility assumed by the Company's four independent Directors. For 2007, the annual retainer for each independent Director will be US\$40,000.

### Equity Ownership Guideline

On April 24, 2007, the Board of Directors adopted an equity ownership guideline for independent Directors. The guideline provides that by April 24, 2010 (for existing independent Directors) or within three years of their initial election (for new independent Directors), each independent Director should own IPSs or other equity securities of the Corporation (which will include non-voting shares issued under the deferred share unit plan described below), representing an investment by each independent Director of three times their current annual retainer.

## **Deferred Share Unit Plan**

On April 24, 2007, the Board of Directors established a deferred share unit plan (“**DSU Plan**”) for Directors. Under the DSU Plan, each non-management Director is entitled to elect to have fees paid to them by the Corporation for their services as directors contributed to the DSU Plan. All fees contributed to the DSU Plan shall be credited to such Director in the form of notional shares representing the estimated fair value, as determined by the Corporation, of the common share component of the IPSs at the time of contribution. For so long as the participant continues to serve on the Board, dividends will accrue on the notional shares consistent with amounts declared by the Board on the common share component of the IPSs and additional notional shares representing the dividends will be credited to the participant’s notional share account. Notional shares credited to the participant’s notional share account may be redeemed only when a participant no longer serves on the Board for any reason or upon a reorganization of the Corporation.

## **DIRECTORS’ AND OFFICERS’ INSURANCE AND INDEMNIFICATION**

The Corporation has obtained a directors’ and officers’ policy of insurance for directors and officers of the Corporation and the managers of Atlantic Holdings that provides an aggregate limit of liability to the insured directors, officers and managers of US\$35 million.

The articles of the Corporation and the operating agreement for Atlantic Holdings also provide for the indemnification of their respective Directors, managers and officers (if any) from and against liability and costs in respect of any action or suit against them in connection with the execution of their duties of office, subject to certain limitations.

## **INDEBTEDNESS OF DIRECTORS AND OFFICERS**

For the year ended December 31, 2006, there was no indebtedness of any current or former officers or directors of the Corporation, the Manager or any of their subsidiaries entered into in connection with a purchase of securities of the Corporation or its subsidiaries or for any other purpose.

## **INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS**

To the knowledge of the Directors, other than (i) the acquisition of additional IPSs by the Caisse de dépôt et placement du Québec under the private placement completed on December 21, 2006; (ii) as disclosed in the section entitled “Related Party Transactions” beginning on page 18 of the Corporation’s management’s discussion and analysis for the year ended December 31, 2006 (the “**MD&A**”); and (iii) as described in the section “Transaction Approvals” on page 2 of the material change report of the Corporation dated September 21, 2006, which sections are incorporated by reference in this Information Circular, no insider, Director or proposed nominee for election as a Director, or any associate or affiliate of any such persons, had any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any material transaction with the Corporation since the commencement of the Corporation’s last financial period. A copy of the MD&A and material change report may be found on SEDAR at [www.sedar.com](http://www.sedar.com) and, upon request, the Corporation will promptly provide a copy of such documents free of charge to a securityholder of the Corporation. As at December 31, 2006, Barry Welch had a net investment in investment funds managed by ArcLight of approximately US\$90,000.

## **CORPORATE GOVERNANCE DISCLOSURE**

While the business and affairs of the Corporation are managed by the Board of Directors, the Corporation has delegated responsibility for managerial and executive oversight and certain administrative services to Atlantic Holdings. Atlantic Holdings and the Corporation have entered into the Management Agreement with the Manager to fulfill these responsibilities. For further discussion, please see “Management and Administration of Atlantic Holdings and the Corporation” in this Information Circular.

National Policy 58-201 *Corporate Governance Guidelines* and National Instrument 58-101 *Disclosure of Corporate Governance Practices* set out requirements and best practice standards for effective corporate governance. These rules require all reporting issuers in Canada to disclose their corporate governance practices. We are pleased to make the following disclosure regarding our governance practices:

## Board of Directors

- (a) The independent members of the Board, representing all members of the Board, are Irving Gerstein, Ken Hartwick, John McNeil and William Whitman.
- (b) One of the Directors also serves as director on the boards of other reporting issuers (or the equivalent). Mr. Gerstein serves as a director on the boards of Medical Facilities Corporation, Student Transportation of America Ltd., Student Transportation of America ULC and Economic Investment Trust Limited.
- (c) The Board and the Audit Committee, each of the members of which are independent, meet regularly without management present. In the year ended December 31, 2006, the Board and the Audit Committee held eight of such meetings. The Audit Committee meets quarterly with the external auditors without management present to discuss matters affecting the conduct of their audit and other corporate matters.
- (d) The Chair of the Board, Mr. Gerstein, is an independent director. Mr. Gerstein's responsibilities include establishing, in consultation with the Chief Executive Officer of the Manager, the Directors and appropriate members of management, the agendas for each meeting of the Board. The agenda for each committee meeting will be established by the Chair of that committee in consultation with appropriate members of the committee and management.
- (e) The following table sets forth the number of Board and committee meetings held and attendance by Directors for the year ended December 31, 2006:

### Attendance of Directors

<i>Director</i>	<i>Board of Directors and Audit Committee Meetings of the Corporation Attended (in person or by telephone)</i>
Irving Gerstein	22 of 22
Ken Hartwick	22 of 22
John McNeil	22 of 22
William Whitman <sup>(1)</sup>	1 of 1

- (1) Mr. Whitman was appointed to the Board of Directors and the Audit Committee on December 12, 2006. As such, his attendance reflects the meetings held since his appointment.

It is expected that the Board will meet at least four times each year: three meetings to review quarterly results, and prior to the issuance of the annual audited financial results of the Corporation (and more frequently, if required). The Audit Committee will meet as required by its charter.

### Board Mandate

The mandate of the Board of Directors is included as Schedule A to the Information Circular.

## **Position Descriptions**

Position descriptions for the Chair of the Board, the Chair of the Audit Committee and the Chief Executive Officer of the Manager are as follows:

### **I. Responsibilities of the Board of Directors Chair:**

- (a) the Chair shall be expected to attend and chair meetings of the Board of Directors and securityholders of the Corporation;
- (b) the Chair shall be an independent director;
- (c) the Chair shall not be expected to and shall not perform policy-making functions other than in his or her capacity as a Director. The Chair shall not have the right or entitlement to bind the Corporation in his or her capacity as Chair;
- (d) the Chair shall provide direction with respect to the dates and frequencies of Board meetings and related committee meetings and the Chair shall liaise with the Chief Executive Officer of the Manager to prepare Board meeting agendas;
- (e) the Chair shall ensure that the Board understands the boundaries between the Board and management responsibilities; and
- (f) the Chair shall ensure that the Board of Directors carries out its responsibilities effectively, which will involve the Board meeting on a regular basis without management present and may involve assigning responsibility for administering the Board's relationship with management to a committee of the Board.

### **II. Responsibilities of the Audit Committee Chair:**

- (a) the Chair will provide leadership to the Audit Committee in discharging its mandate as set out in the written charter of the Audit Committee (the "Charter"), including by:
  - (i) promoting a thorough understanding by members of the Audit Committee, management and the Corporation's external auditor of:
    - (A) the duties and responsibilities of the Audit Committee; and
    - (B) the relationship between the Audit Committee and each of the Corporation's:
      - 1. management, and
      - 2. external auditor; and
  - (ii) promoting cohesiveness among members of the Audit Committee.
- (b) the Chair shall be the liaison between the Audit Committee and the Corporation's management and external auditor, promoting open and constructive discussions between members of the Audit Committee and each of these parties.
- (c) the Chair shall promote the proper flow of information to the Audit Committee to keep the Audit Committee fully apprised of all matters which are material to the Corporation at all times.
- (d) in connection with meetings of the Audit Committee, the Chair shall be responsible for:

- (i) scheduling meetings of the Audit Committee;
  - (ii) organizing and presenting the agenda for Audit Committee meetings such that:
    - (A) all of the responsibilities assigned to the Audit Committee under the terms of the Charter are discharged on a timely and diligent basis, and
    - (B) members of the Audit Committee have input into the agendas;
  - (iii) monitoring the adequacy of materials provided to the Audit Committee by management in connection with the Audit Committee's deliberations;
  - (iv) ensuring that members of the Audit Committee have sufficient time to review the materials provided to them and to fully discuss the business that comes before the Audit Committee;
  - (v) presiding over meetings of the Audit Committee; and
  - (vi) presiding over *in camera* meetings of the Audit Committee.
- (e) the Chair shall report to the Board of Directors on the activities of the Audit Committee as contemplated in the Charter.
  - (f) on an annual basis the Chair shall lead the Audit Committee in the process established by the Board for reviewing the performance of the Audit Committee.
  - (g) under the direction of the Chair, the Audit Committee shall review and assess the adequacy of the Charter of the Audit Committee annually and recommend to the Board any changes it deems appropriate.
  - (h) the Chair shall perform such other functions:
    - (i) as may be ancillary to the duties and responsibilities described above; and
    - (ii) as may be delegated to the Chair by the Audit Committee or the Board from time to time.

**III. Responsibilities of the Chief Executive Officer of the Manager:**

- (a) the Chief Executive Officer of the Manager shall have responsibility for the day-to-day operation of the business of the Corporation in accordance with the Corporation's strategic plan and operating and capital expenditure budgets as previously approved by the Board.
- (b) specific responsibilities:
  - (i) to initiate the strategic planning process for the Corporation and to recommend to the Board goals for the Corporation's business and, when approved by the Board, to implement the corresponding strategic, operational and profit plans;
  - (ii) to report to, and meet regularly and as required with, the Board and all formally appointed committees of the Board to review Board and committee issues and provide to the Board or the relevant committee all information and access to management necessary to permit the Board or the relevant committee to fulfil its statutory and other legal obligations on a timely basis;

- (iii) to direct and monitor the activities of the Corporation to achieve agreed-upon targets;
  - (iv) to develop and implement risk management policies to safeguard the assets of the Corporation;
  - (v) to develop and implement operations policies to guide the Corporation;
  - (vi) to develop and recommend top level organizational structure and staffing to the Board and to direct the implementation of the Board's decisions in this regard;
  - (vii) to assist in the development of Board policies regarding the Corporation's public disclosures, and to manage and oversee the Corporation's communications with holders of IPSs, the investment community, media, governments and their agencies, employees and the general public;
  - (viii) to develop and seek the Board's concurrence for plans for management development and succession in all key positions and then to implement such plans;
  - (ix) to review the financial reporting and public disclosure of the Corporation, to satisfy himself concerning the processes followed in their preparation and to provide the certifications required under applicable securities laws concerning such reporting and disclosure;
  - (x) to encourage and promote a culture of ethical business conduct;
  - (xi) to perform other duties as are regularly and customarily performed by a chief executive officer of a reporting issuer; and
  - (xii) to assume such other appropriate responsibilities as are delegated to him or her by the Board.
- (c) the Chief Executive Officer will ensure the delivery of information to Directors on a timely basis to keep the Directors fully apprised of all matters that are material to Directors at all times.
  - (d) the Chief Executive Officer will coordinate with the Chair of the Board to ensure that information requested by any Director is provided and meets the needs of that Director.

#### **Orientation and Continuing Education**

The Manager, working with the Directors will provide orientation opportunities for new directors to familiarize them with the Corporation and its business. All new Directors will participate in an orientation program soon after the date on which a new director first joins the Board. To date, all of the Directors have visited power projects of the Corporation to obtain an understanding of the operations of the Corporation. In addition to operational orientation, management has scheduled periodic presentations for the Board to ensure they are aware of major business trends and industry practices as and when required.

#### **Ethical Business Conduct**

The Board has adopted a written code of business conduct and ethics for the Corporation (the "Code"), which sets out basic principles to guide all directors, managers, officers and employees of the Corporation and of the Manager and their subsidiaries. The issues the Code addresses include, among other things, the following:

- (a) compliance with laws, rules and regulations;

- (b) conflicts of interest;
- (c) confidentiality;
- (d) corporate opportunities;
- (e) protection and proper use of Atlantic Power Entity (as defined in the Code) assets;
- (f) competition and fair dealing;
- (g) gifts and entertainment; and
- (h) reporting of any illegal or unethical behaviour.

To ensure the Directors exercise independent judgement, in considering transactions, agreements or decisions in respect of which a Director, a director of Atlantic Holdings or officer has declared a material personal interest (in accordance with relevant corporate law requirements), the Board follows a practice whereby any such individual must not cast a vote on any such matter.

The senior officers of the Manager are responsible for monitoring compliance with the Code and report to the Board on any issues that have arisen under the Code. The Corporation's Whistleblower Policy is administered by the Chair of the Audit Committee. Any person may report complaints or concerns directly to the Chair of the Audit Committee. The Whistleblower Policy requires that such complaints or concerns will be kept confidential to the fullest extent possible.

Under the Code, any waivers from the requirements in the Code that are to be granted for the benefit of the Directors, managers or executive officers of the Manager are to be granted by the Directors only (or a committee of the Board to whom that authority has been delegated) and will be promptly disclosed as required by law or stock exchange regulation.

At least annually, the Board reviews the adequacy of the Code.

The Code is available on the Corporation's website at [atlanticpowercorporation.com](http://atlanticpowercorporation.com) and under the Corporation's profile on SEDAR at [www.sedar.com](http://www.sedar.com).

#### **Nomination of Directors**

In lieu of corporate governance and nominating committees, the Board of Directors is responsible for identifying and nominating individuals qualified to become members of the Board and the board of directors/managers of the Corporation's subsidiaries and their various committees in the context of the Corporation's needs and any formal criteria established by the Board. The Board has the authority to retain and compensate any outside advisor that it determines to be necessary to permit it to carry out its business. On an annual basis, the Board:

- assesses the independence and qualifications of the various members of the Board and the boards of directors/managers of the Corporation's subsidiaries and their various committees;
- assesses the effectiveness of the Board and the boards of directors/managers of the Corporation's subsidiaries and their committees and the contribution of each director and manager; and
- reviews the competencies, skills and personal qualities required of Directors in light of relevant factors, including the objective of adding value to the Corporation in light of the opportunities and risks facing the Corporation and its proposed strategies.

The Board of Directors is responsible for selecting the nominees for election to the Board of Directors and for appointing directors to fill vacancies. The Board of Directors makes determinations as to whether a nominee or appointee would be independent.

## **Compensation**

The Board reviews and approves cash bonuses and grants under the LTIP awarded to employees of the Manager and also reviews any proposed salary increases for officers of the Corporation. In 2006, the Board of Directors retained Mercer Human Resource Consulting ("Mercer") to assist in its review of the compensation of the employees of the Manager. The two primary roles of Mercer were (i) to provide a compensation benchmarking review, and (ii) to provide a review of LTIP alternatives and assist the Board in the design of the LTIP that was ultimately approved by the Board and Shareholders. The compensation benchmarking review provided the Board with an objective review of existing compensation relative to an industry peer group and identified the appropriateness and desirability of implementing the LTIP to further align the interests of employees of the Manager with those of the Corporation and holders of IPSs, and to adequately assist with attracting and retaining qualified employees in the relevant U.S. labour pool.

## **Other Board Committees**

The Board has no committees other than the Audit Committee.

## **Assessments**

In lieu of corporate governance and nominating committees, the Board of Directors conducts, at least annually, a self-evaluation of its powers, mandate, performance and membership that will be discussed with the Board of Directors after the end of each fiscal year. This evaluation focuses on the contribution of the Board of Directors to the Corporation and specifically focuses on areas in which directors and management believe that the contribution of the Board of Directors could be improved. Each committee of the Board is also reviewed by the Board, at least annually.

## **OTHER BUSINESS**

The Directors are not aware of any matters intended to come before the Meeting other than those items of business set forth in the attached Notice of Meeting accompanying this Information Circular. If any other matters properly come before the Meeting, it is the intention of the persons named in the Form of Proxy to vote in respect of those matters in accordance with their judgment.

## **ADDITIONAL INFORMATION**

Financial information is provided in the Corporation's comparative financial statements and the MD&A. Copies of the Corporation's financial statements for the year ended December 31, 2006, together with the auditors' report thereon, the MD&A, AIF (together with any document incorporated therein by reference) and this Information Circular are available upon written request from the Corporate Secretary of the Manager, 200 Clarendon Street, 25<sup>th</sup> Floor, Boston, Massachusetts 02116. The Corporation may require payment of a reasonable charge if the request is made by a person who is not a Shareholder. These documents and additional information relating to the Corporation may also be found on SEDAR at [www.sedar.com](http://www.sedar.com) and on the Corporation's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com).

**APPROVAL OF DIRECTORS**

The contents and the sending of this Information Circular to the Shareholders have been approved by the Board of Directors.

**BY ORDER OF THE BOARD OF DIRECTORS**

Dated: May 10, 2007

*“Irving Gerstein”*

Chair of the Board of Directors  
Atlantic Power Corporation

## SCHEDULE A

### MANDATE OF THE BOARD OF DIRECTORS

The purpose of this mandate is to set out the mandate and responsibilities of the board of directors of Atlantic Power Corporation (the “**Issuer**”).

#### Composition

The board of directors shall be constituted with a majority of individuals who qualify as “independent directors” as defined in Multilateral Instrument 52-110 – Audit Committees.<sup>1</sup>

#### Responsibilities of the Board of Directors

The board of directors is responsible for the stewardship of the Issuer and in that regard shall be specifically responsible for:

- (i) adopting a strategic planning process and approving, on at least an annual basis, a budget, and evaluating and discussing a strategic plan for the upcoming year which takes into account, among other things, the opportunities and risks of the Issuer’s business and investments;
- (ii) to the extent feasible, satisfying itself as to the integrity of the Chief Executive Officer and senior officers of Atlantic Power Management, LLC (the “**Manager**”) and that such officers create a culture of integrity throughout the organization as well as satisfying itself that the Chief Executive Officer is assessing the integrity of the other senior officers of the Issuer and its subsidiaries;
- (iii) the identification of the principal risks of the Issuer’s business and ensuring the implementation of appropriate systems to manage these risks;
- (iv) ensuring that the Issuer has adopted processes, procedures and controls that are designed to ensure compliance with all applicable laws and legal requirements;
- (v) succession planning (including meeting with, and discussing with, the Chief Executive Officer key matters pertaining to the appointment, training, and monitoring of senior management);
- (vi) adopting a communication policy which enables the Issuer to communicate effectively and addresses how the Issuer interacts with all of its stakeholders, including analysts and the public, contains measures for the Issuer to avoid selective disclosure and is reviewed at such intervals or times as the board deems appropriate;
- (vii) administering and to the extent delegated by the independent directors of the Issuer, overseeing the administration of the long-term incentive plan, as amended, of Atlantic Power Holdings, LLC (“**Atlantic Holdings**”), including without limitation, the determination and granting of awards thereunder;
- (viii) with the assistance of the senior officers of the Manager, reviewing and making recommendations to the board of managers of Atlantic Holdings with respect to all asset acquisitions and/or dispositions of the Issuer and/or any of its subsidiaries;
- (ix) ensuring the integrity of the Issuer’s internal control and management information systems;
- (x) establishing and maintaining a standing audit committee of the board of directors (the “**Audit Committee**”);

---

<sup>1</sup> See Appendix C.

- (xi) reviewing and reassessing the adequacy of the terms of reference of the Audit Committee at such intervals or times as the board deems appropriate;
- (xii) receiving recommendations of the Audit Committee respecting, and reviewing and approving, the audited, interim and any other publicly announced financial information of the Issuer;
- (xiii) developing the Issuer's approach to governance, including developing a set of governance principles and guidelines that are specifically applicable to the Issuer;<sup>2</sup>
- (xiv) implementing a process for assessing the effectiveness of the board as a whole, the committees of the board and the contribution of individual directors;
- (xv) implementing a process for examining the size of the board of directors and undertaking, where appropriate, a program to establish a board size which facilitates effective decision-making;
- (xvi) implementing a process for reviewing the adequacy and form of compensation of directors and ensuring that compensation realistically reflects the responsibilities and risk involved in being a director;
- (xvii) meeting regularly with management to receive reports respecting the performance of the Issuer, new and proposed initiatives, the Issuer's business and investments, management concerns and any areas of concern involving the Issuer;
- (xviii) meeting regularly without management and non-independent directors; and
- (xix) to the extent necessary under the terms of the management agreement with the Manager, supervising the Manager and considering approvals required thereunder.

While the board of directors is called upon to "manage" the business and affairs of the Issuer, the Issuer has delegated responsibility for managerial and executive oversight and certain administrative services to Atlantic Holdings. Atlantic Holdings and the Issuer have entered into a management agreement with the Manager to fulfil these responsibilities. The board of directors is responsible for the on-going strategic planning process of the Issuer, approves the goals of the business and the strategies and policies within which it is managed, and then steps back and evaluates the Manager's performance. Reciprocally, the Manager keeps the board of directors fully informed of the progress of the Issuer and its subsidiaries towards the achievement of their established goals and of all material deviations from the goals or objectives and policies established by the board of directors in a timely and candid manner.

It is recognized that every director in exercising powers and discharging duties must act honestly and in good faith with a view to the best interest of the Issuer. Directors must exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. In this regard, they will comply with their duties of honesty, loyalty, care, diligence, skill and prudence.

In addition, directors are expected to carry out their duties in accordance with policies adopted by the board of directors from time to time, the current policy being annexed hereto as Appendix A.

It is expected that the Manager will co-operate in all ways to facilitate compliance by the board of directors with its legal duties by causing the Issuer and its subsidiaries to take such actions as may be necessary in that regard and by promptly reporting any data or information to the board of directors that may affect such compliance.

---

<sup>2</sup> See Appendix B.

### **Responsibilities of Chair**

The role and responsibilities of the Chair of the board of directors are set out below:

- (i) the Chair shall be expected to attend and chair meetings of the board of directors of the Issuer and securityholders of the Issuer;
- (ii) the Chair shall be an independent director;
- (iii) the Chair shall not be expected to and shall not perform policy-making functions other than in his or her capacity as a director of the Issuer. The Chair shall not have the right or entitlement to bind the Issuer in his or her capacity as Chair;
- (iv) the Chair shall provide direction with respect to the dates and frequencies of board meetings and related committee meetings and the Chair shall liaise with the Chief Executive Officer of the Manager to prepare board meeting agendas;
- (v) the Chair shall ensure that the board understands the boundaries between board and management responsibilities; and
- (vi) the Chair shall ensure that the board of directors carries out its responsibilities effectively, which will involve the board meeting on a regular basis without management present and will include acting as a liaison between the independent directors and senior management, and may involve assigning responsibility for administering the board's relationship with management to a committee of the board.

### **Decisions Requiring Prior Approval of the Board of Directors**

Approval of the board of directors shall be required for:

- (i) dividends;
- (ii) significant acquisitions/dispositions;
- (iii) related party transactions;
- (iv) the annual budget for the Manager;
- (v) the public dissemination of any financial information;
- (vi) the issuance or repurchase of securities of the Issuer;
- (vii) the terms of reference of committees of the board; and
- (viii) any other matter that would give rise to a "material change" to the Issuer.

In considering related party transactions, when appropriate, the board of directors will review a report of an independent financial advisor in making their decision. The foregoing list is intended to specify particular matters requiring board approval and is not intended to be an exhaustive list.

### **Measures for Receiving Shareholder Feedback**

All publicly disseminated materials of the Issuer shall provide for a mechanism for feedback of securityholders. Persons designated to receive such information shall be required to provide a summary of the feedback to the directors on a semi-annual basis or at such other more frequent intervals as they see fit.

### **Meetings**

The board of directors will meet not less than four times per year: three meetings to review quarterly results; and one prior to the issuance of the annual financial results of the Issuer. A quorum for the meetings shall be a majority of the directors then holding office.

From time to time directors may be asked to participate in board retreats, which may last one to three days.

### **Meeting Guidelines**

Directors will be expected to have read and considered the materials sent to them in advance of each meeting, and to be prepared to discuss the matters contained in such materials at the meeting. Administrative matters (eg., bank signing resolutions, etc.), which require a vote, will be batched for voting purposes. Directors will be expected to ask questions relating to batched items in advance of the meeting. The notice of meeting will highlight significant matters to be dealt with at each meeting so that directors can focus on reviewing the related materials. The Manager will be made accessible to directors at board meetings and committee meetings to fulfill their obligations.

### **Remuneration**

Remuneration shall be at a level, which will attract and motivate professional and competent members.

### **Telephone Board Meetings**

A director may participate in a meeting of the directors or in a committee meeting by means of telephone, electronic or such other communications facilities as permit all persons participating in the meeting to communicate with each other and a director participating in such a meeting by such means is deemed to be present at the meeting.

While it is the intent of the board of directors to follow an agreed meeting schedule as closely as possible, it is felt that, from time to time, with respect to time sensitive matters telephone board meetings may be required to be called in order for directors to be in a position to better fulfill their legal obligations. Alternatively, management may request the directors to approve certain matters by unanimous consent.

### **Expectations of Management**

The Manager shall be required to report to the board of directors at the request of the board on the performance of the Issuer, new and proposed initiatives, the Issuer's business and investments, management concerns and any other matter the board or its Chair may deem appropriate. In addition, the board expects the Manager to promptly report to the Chair of the board any significant developments, changes, transactions or proposals respecting the Issuer or its subsidiaries.

**APPENDIX A**  
**POLICY OF PRACTICES FOR DIRECTORS**

**Attendance at Meetings**

Each director is expected to have a very high record of attendance at meetings of the board of directors, and at meetings of each committee on which the director sits. A director is expected to:

- (i) advise the Chair as to planned attendance at board and committee meetings shortly after meeting schedules have been distributed;
- (ii) advise the Chair as soon as possible after becoming aware that he or she will not be able to attend a meeting; and
- (iii) attend a meeting by conference telephone if unable to attend in person.

**Preparation for Meetings**

Directors are expected to carefully review and consider the materials distributed in advance of a meeting of the board of directors or a committee of the board of directors. Directors are also encouraged to contact the Chair, the Chief Executive Officer of the Manager and any other appropriate officers to ask questions and discuss agenda items prior to meetings.

**Conduct at Meetings**

Directors are expected to ask questions and participate in discussions at meetings, and to contribute relevant insights and experience. In discussions at meetings, a director should:

- (i) be candid and forthright;
- (ii) not be reluctant to express views contrary to those of the majority;
- (iii) be concise and, in most circumstances, respect the time constraints of a meeting; and
- (iv) be courteous to and respectful of other directors and guests in attendance.

**Knowledge of the Issuer's Business**

Directors are expected to be knowledgeable with respect to the various fields and divisions of business of the Issuer. Although the Manager has a duty to keep the board of directors informed about developments in the Issuer's business, directors have a primary duty of care and diligence, which includes a duty of inquiry. Directors should:

- ask questions of the Manager and other directors/managers, at meetings and otherwise, to increase their knowledge of the business of the Issuer;
- familiarize themselves with the risks and challenges facing the business of the Issuer;
- read all internal memoranda and other documents circulated to the directors, and all reports and other documents issued by the Issuer for external purposes;
- insist on receiving adequate information from the Manager with respect to a proposal before board approval is requested;
- familiarize themselves with the Issuer's competitors by, among other things, reading relevant news, magazine and trade journal articles; and

- familiarize themselves with the legal and regulatory framework within which the Issuer carries on its business.

### **Personal Conduct**

Directors are expected to:

- (i) exhibit high standards of personal integrity, honesty and loyalty to the Issuer;
- (ii) project a positive image of the Issuer to news media, the financial community, governments and their agencies, securityholders and employees;
- (iii) be willing to contribute extra efforts, from time to time as may be necessary including, among other things, being willing to serve on committees of the board; and
- (iv) disclose any potential conflict of interest that may arise with the business or affairs of the Issuer and, generally, avoid entering into situations where such conflicts could arise or could reasonably be perceived to arise.

### **Independent Advice**

In discharging its mandate the board shall have the authority to retain (and authorize the payment by the Issuer of) and receive advice from, special legal, accounting or other advisors and outside consultants if appropriate.

## APPENDIX B

### CORPORATE GOVERNANCE AND NOMINATING RESPONSIBILITIES

The Proposed Policy recommends the appointment of corporate governance and nominating committees. In lieu of such committees, the board of directors will directly assume responsibility for corporate governance and the nomination of directors and in that regard shall have the responsibilities set forth below.

#### Governance Responsibilities

- To assess the independence and qualifications of the various members of the board of directors and the boards of directors/managers of the Issuer's subsidiaries and their various committees.
- To ensure that programs relating to succession planning and performance evaluation are effectively integrated with the Issuer's strategy.
- To review the composition of the various committees of the board of directors and the boards of directors/managers of the Issuer's subsidiaries.
- To monitor the quality of the relationship between the Manager and the board of directors and applicable boards of directors/managers of the Issuer's subsidiaries and to recommend improvements.
- To review and respond to requests by individual directors or managers to engage outside advisors.
- To assess the need, and to coordinate a program, for continuing education for members of the board.
- To assess the effectiveness of the board of directors and the boards of directors/managers of the Issuer's subsidiaries and their committees and the contribution of each director and manager.
- To annually review organizational structure and succession planning matters.
- To report on governance as required by public disclosure requirements.
- To review and ensure compliance of the Issuer with its internal governance guidelines.
- To review from time to time the governance practices of the Issuer and its subsidiaries, and their respective boards and committees, to determine compliance with rules and policies of regulatory authorities governing the Issuer.
- At least annually, to review the adequacy of the corporate governance guidelines of the Issuer and its subsidiaries.
- To determine and monitor the Issuer's and its subsidiaries' categorical standards for director and manager independence.
- At least annually, to audit the practices of the board of directors (including separate meetings of non-management directors) to ensure compliance with the governance guidelines of the Issuer.
- At least annually, to review the powers, mandates and performance, and the membership of the various committees of the board of directors and the boards of directors/managers of the Issuer's subsidiaries.
- To undertake such other initiatives as are needed to help the board of directors and the boards of directors/managers of the Issuer's subsidiaries deliver exemplary governance.

### Nominating Responsibilities

- To review annually the competencies, skills and personal qualities required of board members in light of relevant factors, including: the objective of adding value to the Issuer in light of the opportunities and risks facing the Issuer and the Issuer's proposed strategies; the need to ensure, to the greatest extent possible, that a majority of the board is comprised of individuals who meet the independence requirements of the applicable stock exchange rules, legislation or other guidelines; and the policies of the board with respect to board member tenure, retirement and succession and board member commitments.
- To establish and oversee an appropriate orientation and education program for new board members in order to familiarize them with the Issuer and the nature and operation of the Issuer's business (including the Issuer's reporting structure, strategic plans, significant financial, accounting and risk issues, compliance programs and policies, management and the external auditors), the role of the board and its committees, as well as the contribution individual directors are expected to make.
- To actively seek individuals qualified (in context of the Issuer's needs and any formal criteria established by the board) to become members of the board.
- To review the membership and allocation of board members to the various committees of the board.
- To establish procedures for the receipt of comments from all board members to be included in an annual assessment of the board's performance, including individual contributions.
- To appoint and, if appropriate, terminate any search firm to be used to identify board candidates.

**APPENDIX C**  
**DEFINITIONS**

**“independent director”** means a director who has no direct or indirect material relationship with the Issuer.<sup>3</sup>

**“material relationship”** means a relationship, which could, in the view of the board of directors of the Issuer, be reasonably expected to interfere with the exercise of a member’s independent judgement. Without limiting the generality of the foregoing, the following individuals are considered to have a material relationship with the Issuer:<sup>4</sup>

- (a) an individual who is, or has been within the last three years, an employee or executive officer<sup>5</sup> of the Issuer;
- (b) an individual whose immediate family member is, or has been within the last three years, an executive officer of the Issuer;
- (c) an individual who:
  - (i) is a partner<sup>6</sup> of a firm that is the Issuer’s internal or external auditor,
  - (ii) is an employee of that firm, or
  - (iii) was within the last three years a partner or employee of that firm and personally worked on the Issuer’s audit within that time;
- (d) an individual whose spouse, minor child or stepchild, or child or stepchild who shares a home with the individual:
  - (i) is a partner of a firm that is the Issuer’s internal or external auditor,
  - (ii) is an employee of that firm and participates in its audit, assurance or tax compliance (but not tax planning) practice, or
  - (iii) was within the last three years a partner or employee of that firm and personally worked on the Issuer’s audit within that time;
- (e) an individual who, or whose immediate family member, is or has been within the last three years, an executive officer of an entity if any of the Issuer’s current executive officers serves or served at that same time on the entity’s compensation committee; and

---

<sup>3</sup> For the purpose of the definitions of “independent director” and “material relationship” in this Appendix, “Issuer” includes a subsidiary entity of the Issuer and a parent of the Issuer, as applicable.

<sup>4</sup> An individual will not be considered to have a material relationship with the Issuer solely because he or she had a relationship identified in this definition if that relationship ended before March 30, 2004 or, if such relationship was with a subsidiary entity of the Issuer or a parent of the Issuer, that relationship ended before June 30, 2005. An individual will not be considered to have a material relationship with the Issuer solely because the individual or his or her immediate family member has previously acted as an interim chief executive officer of the Issuer or acts, or has previously acted, as a chair or vice-chair of the board of directors or of any board committee of the Issuer on a part-time basis.

<sup>5</sup> An “executive officer” includes any individual who performs a policy-making function in respect of the entity.

<sup>6</sup> A partner does not include a fixed income partner whose interest in the firm that is the internal or external auditor is limited to the receipt of fixed amounts of compensation (including deferred compensation) for prior service with that firm if the compensation is not contingent in any way on continued service.

- (f) an individual who received, or whose immediate family member who is employed as an executive officer of the Issuer received, more than \$75,000 in direct compensation<sup>7</sup> from the Issuer during any 12-month period within the last three years.<sup>8</sup>

---

<sup>7</sup> Direct compensation does not include: (a) remuneration for acting as a member of the board of directors or of any board committee of the Issuer; and (b) the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with the Issuer if the compensation is not contingent in any way on continued service.

<sup>8</sup> An individual who: (a) has a relationship with the Issuer pursuant to which the individual may accept, directly or indirectly, any consulting, advisory or other compensatory fee from the Issuer or any subsidiary entity of the Issuer, other than as remuneration for acting in his or her capacity as a member of the board of directors or any board committee, or as a part-time chair or vice-chair of the board or any board committee; or (b) is an affiliated entity of the Issuer or any of its subsidiary entities, is considered to have a material relationship with the Issuer. The indirect acceptance by an individual of any consulting, advisory or other compensatory fee includes acceptance of a fee by: (a) an individual's spouse, minor child or stepchild, or a child or stepchild who shares the individual's home; or (b) an entity in which such individual is a partner, member, an officer such as a managing director occupying a comparable position or executive officer, or occupies a similar position (except limited partners, non-managing members and those occupying similar positions who, in each case, have no active role in providing services to the entity) and which provides accounting, consulting, legal, investment banking or financial advisory services to the Issuer or any subsidiary entity of the Issuer. Compensatory fees do not include the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with the Issuer if the compensation is not contingent in any way on continued service.

**Atlantic Power Corporation Announces May 2007 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of May 2007. A distribution of \$0.0884 per Income Participating Security (“IPS”) will be payable on June 29, 2007 to holders of record at the close of business on May 31, 2007.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0884 reflects a cash dividend per common share of \$0.0355 and an interest payment of \$0.0529 for the month of May 2007.

Atlantic Power Corporation designates this dividend to be an “eligible dividend” pursuant to subsection 89(14) of the Income Tax Act (Canada) and its equivalent in any provinces of Canada.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

FOR: ATLANTIC POWER CORPORATION

TSX SYMBOL: ATP.UN

May 15, 2007

### **Atlantic Power Corporation Announces Strong First Quarter 2007 Results**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN, ATP.DB) (the “Company”) today announced its results for the three months ended March 31, 2007. All amounts are in US dollars unless otherwise indicated.

#### **Highlights:**

- **Adjusted Project EBITDA up 24% vs. last year period**
- **Cash flow available for distribution increased to \$20.8 million vs. \$10.2 million in the first quarter 2006**
- **New three-year agreement at Rumford extends project’s cash flow profile**

“We are very pleased with our strong financial and operating performance in the quarter,” commented Barry Welch, President and CEO. “Going forward we will continue to execute our strategy to extend expiring power purchase agreements at our projects to support and grow our future cash flows.”

#### **Extending Power Purchase Agreements**

The Company continued its strategy to mitigate risk by extending the duration of its projects’ contracted cash flows. During 2006 the Rumford project operated under an interim market-based power purchase agreement (“PPA”). In the first quarter of 2007, the project signed a new three-year agreement with Rumford Paper Company, the Project’s steam host, which provides fixed payments of approximately \$2.7 million per year with no operating, fuel or power price risks.

#### **Cash Flow Available for Distribution**

For the three months ended March 31, 2007, Cash Flow Available for Distribution was \$20.8 million (Cdn \$0.36 per diluted IPS) compared to \$10.2 million (Cdn \$0.27 per diluted IPS) for the same period last year. Distributions declared in the quarter were \$14.0 million (Cdn \$0.27 per IPS), resulting in a payout ratio of 67%, versus 97% in the first quarter of 2006. The increase in Cash Flow Available for Distribution was primarily due to higher operating cash flow, a full quarter’s contribution from Path 15 acquired on September 15, 2006, and improved results at the Chambers and Pasco projects.

#### **Strong Operating Performance**

The Company reported project revenue of \$67.3 million in the first quarter of 2007, an increase of over 25% from the first quarter last year. The increase was due to the acquisition of the Path 15 project and improved operational performance at existing projects. The Chambers project had increased generation and lower maintenance costs in the first quarter of 2007 due to the planned outage in the prior year period, and also experienced stronger spot market electricity pricing. Pasco benefited from increased generation and higher fuel efficiency due to the gas turbine upgrades completed in 2006.

Adjusted EBITDA at the Projects, including earnings from equity investments, increased 24% in the first quarter of 2007 compared to the prior year period. The increase was driven by the new contribution from Path 15 and the improved project performance discussed above. These increases were partially offset by the absence of any Selkirk or Gregory Adjusted EBITDA contributions. Because these two projects are accounted for under the cost method of accounting, their Adjusted EBITDA is equal to distributions received. There were no distributions received from these projects during the first quarter of 2007 because Selkirk receives its distributions in the second and fourth quarters of each year, and distributable cash at Gregory is currently restricted under the terms of its project-level debt agreement.

The Company generated a project loss of \$34.9 million in the first quarter, which included non-cash mark-to-market losses of \$48.4 million related to changes in the fair value of the Chambers PPA and Onondaga's swap and index hedge agreements. The fair value adjustment to the Chambers PPA arises due to adoption by the Company at January 1, 2007 of a new accounting standard for financial instruments, as fully described in the Company's first quarter 2007 MD&A. Excluding this non-cash accounting adjustment, project income was \$13.5 million for the first quarter compared to \$10.8 million in the prior year period. The net loss for the three months ended March 31, 2007 was \$49.7 million or \$0.81 per IPS. Not including the mark-to-market losses, the net loss would have been \$1.3 million or \$0.02 per IPS.

The calculation of Cash Flow Available for Distribution and a summary of Adjusted EBITDA by individual project for the three months ended March 31, 2007 are attached to this news release.

The Company's financial statements for the period and management's discussion and analysis for the three months ended March 31, 2007 are available on the Company's web site at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com) or on SEDAR [www.sedar.com](http://www.sedar.com).

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

*Certain statements in this news release may constitute forward-looking statements, which reflect the expectations of the manager of the Company regarding the Projects and the anticipated financial results and operations of the Projects. Words such as "will", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect current expectations regarding future events and operating performance and speak only as of the date of this news release. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by which such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under "Risk Factors" contained in the Company's annual information form dated March 28, 2007. Although the forward-looking statements contained in this news release are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this news release and the Company assumes no obligation to update or revise them to reflect new events or circumstances.*

*Cash Flow Available for Distribution is not a measure recognized under Canadian generally accepted accounting principles ("GAAP") and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of Cash Flows from Operating Activities to Cash Flow Available for Distributions is attached to this news release and is also included in the MD&A for the three months ended March 31, 2007. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.*

*Adjusted EBITDA, earnings before interest, taxes, depreciation and amortization is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses Adjusted EBITDA at the Projects to provide comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.*

Interest on IPS Subordinated Notes	8,354	6,127
<u>Dividends on IPS Common Shares</u>	<u>5,610</u>	<u>3,824</u>
Total IPS distributions, US\$	13,964	9,951
<b>Total IPS distributions, Cdn\$</b>	<b>16,297</b>	<b>11,421</b>
<b>Cash flow available for distribution per basic IPS, Cdn\$</b>	<b>\$0.39</b>	<b>\$0.27</b>
<b>Cash flow available for distribution per diluted IPS, Cdn\$</b>	<b>\$0.36</b>	<b>\$0.27</b>
<b>Total distribution declared per IPS, Cdn\$</b>	<b>\$0.27</b>	<b>\$0.26</b>

1 Income tax installments recoverable represents management's estimate of U.S. federal income tax installment payments that will be recovered in future periods. The amount presented is comprised of installment payments made during the period, offset by the current tax provision recorded in the consolidated statement of operations and deficit and any income tax refunds received. These adjustments have the effect of removing changes in working capital resulting from the timing of tax payments from the calculation of cash flow available for distribution.

1 Adjusted EBITDA is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, amortization and changes in fair value of derivative instruments. Management uses adjusted EBITDA at the Projects to provide comparative information about Project performance.

2 Effective January 1, 2007, the Gregory and Selkirk Projects are accounted for under the cost method of accounting. See "Changes in Accounting Policies" in the Company's MD&A for the three months ended March 31, 2007 for additional information.

## Form 52-109F2 - Certification of Interim Filings

I, Patrick J. Welch, Chief Financial Officer of Atlantic Power Management, LLC, Manager of Atlantic Power Corporation, certify that:

- 1) I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Atlantic Power Corporation (the issuer) for the interim period ending March 31, 2007;
- 2) Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
- 3) Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings;
- 4) The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the issuer, and we have:
  - a) designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared; and
  - b) designed such internal control over financial reporting, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP; and.
- 5) I have caused the issuer to disclose in the interim MD&A any change in the issuer's internal control over financial reporting that occurred during the issuer's most recent interim period that has materially affected, or is reasonably likely to materially affect, the issuer's internal control over financial reporting.

Date: May 15, 2007

"Patrick Welch"

Patrick J. Welch  
Chief Financial Officer  
Atlantic Power Management, LLC  
As Manager of  
Atlantic Power Corporation

## MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RECEIVED  
OCT 14 2007  
11:05

The following management's discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the unaudited financial statements of Atlantic Power Corporation ("Atlantic Power" or the "Company") for the three months ended March 31, 2007. All dollar amounts in this MD&A are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP").

### Forward-Looking Statements

Certain statements in this MD&A constitute forward-looking statements, which reflect the expectations of the management of Atlantic Power Management, LLC (the "Manager"), the manager of the Company regarding the Projects and the anticipated financial results and operations of the Projects (as defined below). Words such as "will", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect current expectations regarding future events and operating performance. Forward-looking statements involve a variety of significant risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, fuel and electricity prices, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements and should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or when such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed in the "Risk Factors" section in this MD&A and under "Risk Factors" in the Company's Annual Information Form dated March 28, 2007. All forward-looking statements in this MD&A are qualified by these cautionary statements. Except as required by applicable law, the Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Information contained in this MD&A is based on information available to management as of May 15, 2007.

Copies of financial data and other publicly filed documents, including the Company's annual information form, are available through the Internet on SEDAR at [www.sedar.com](http://www.sedar.com) under "Atlantic Power Corporation".

### Overview

The Company currently has 61,470,500 income participating securities ("IPSs") and Cdn\$60 million principal amount of 6.25% convertible secured debentures due October 31, 2011 (the "Debentures") outstanding, and owns 100% of the membership interests in Atlantic Power Holdings, LLC ("Holdings"). Holdings was formed in 2004 to acquire indirect interests in a diversified portfolio of power generating facilities located primarily in major markets in the United States from ArcLight Energy Partners Funds I, L.P. ("Fund I") and ArcLight Energy Partners Funds II, L.P. ("Fund II", and, together with Fund I, the "ArcLight Funds") and Caithness Energy, LLC ("Caithness") (together with the ArcLight Funds, the "Existing Investors"). Each IPS represents: (1) one common share of the Company ("Common Share"); and (2) Cdn\$5.767 aggregate principal amount of 11.0% subordinated notes of the Company ("Subordinated Notes"). IPS investors receive a monthly distribution comprised of a dividend payment on the common share and an interest payment on the Subordinated Notes. The current annual rate of the total distribution is Cdn\$1.06 per IPS. The Debentures were issued on October 11, 2006 and bear interest at an annual rate of 6.25%, payable semi-annually in arrears on April 30 and October 31 of each year commencing on April 30, 2007.

As of March 31, 2007, Holdings owned interests in 14 power generating facilities in the United

States and one in Jamaica, and a transmission line located in central California (collectively, the "Projects" and individually a "Project"). The generating Projects have a combined total power generating capacity of approximately 2,160 megawatts ("MW"). Holdings' interest in the Projects represented approximately 860 MW of power generating capacity as of March 31, 2007. Most of the generating Projects sell their power under long-term power purchase agreements ("PPAs") to investment-grade utilities. These agreements are typically structured to stabilize cash flows by: (1) providing a significant portion of revenues via steady capacity payments generally designed to provide a return of and on capital and to cover fixed costs regardless of how much electricity the plant is called upon to produce, provided that the plant meets an availability requirement; and (2) passing most of the generating Projects' fuel costs through to the utilities. As a result, variations in the portfolio's cash flow based on changes in the amount of power generated, spot market electricity prices and fuel price changes are significantly mitigated.

The Path 15 transmission line is a United States Federal Energy Regulatory Commission ("FERC") regulated asset with a 30-year regulatory life. Its annual revenue requirement is collected by the California Independent System Operator ("CAISO") from utilities in California without variations from changes in power prices or line usage and with virtually no technical or operating risks.

The Company's objectives are to maintain the stability and sustainability of cash distributions to holders of IPSs in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares. To achieve these objectives, Company management, working directly with project managers, focuses on enhancing the operation of the existing Projects by improving facility performance, increasing output and efficiency, optimizing contracts and managing other project risks. In addition, the Company has a focused growth strategy that includes: consolidating interests in Projects that it currently owns and making accretive acquisitions with a primary focus on the electric power industry in the United States and Canada.

Management believes that opportunities for accretive acquisitions will be available based on a number of factors, including continued electricity demand growth and the corresponding need for new power plants, increased liquidity in the secondary market for ownership interest in power-related assets, and superior access to potential growth transactions through ArcLight and the Manager's industry contacts. Competition for these opportunities has also increased from private equity funds and other sources.

The most significant economic factors affecting the Company's performance are changes in interest rates and the currency exchange rates between the U.S. dollar and the Canadian dollar. Most debt at the Projects bears interest at a fixed rate, but a small amount does have exposure to variability in interest rates. Substantially all of the Company's operating cash flow is earned in U.S. dollars and a large portion of the Company's cash obligations, primarily distributions on IPSs and interest payments on the Debentures, is denominated in Canadian dollars. See "Financial and Other Instruments" in this MD&A for more information about these economic risks and the Company's strategy for managing these risks.

#### **Non-GAAP Financial Measures**

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities from the Company's financial statements to Cash Flow Available for Distribution is set out in the "Calculation of Cash Flow Available for Distribution" section of this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings before interest, taxes, depreciation and amortization and change in fair value of derivative instruments ("Adjusted EBITDA") is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses unaudited Adjusted EBITDA at the

Projects to provide comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

#### **Recent Transactions**

On December 20, 2006, the Company announced that it had agreed to sell, on a private placement basis, a total of 8,600,000 IPSs to three institutional investors, including Caisse de dépôt et placement du Québec ("CDP"), as well as Cdn\$3.0 million principal amount of Subordinated Notes issued and sold separately from the IPSs of the Company (the "Separate Subordinated Notes"). This transaction increased CDP's ownership in the Company to 19% of IPSs outstanding. Net proceeds were used by the Company in February 2007 to acquire all of the remaining interest of the Existing Investors in Holdings.

In February 2007, the Rumford Project executed an Interim Financial Consolidation Agreement ("IFCA") with its steam host, the Rumford Paper Company ("Rumford Paper"). The IFCA consolidates the payment obligations of the various agreements between the Rumford Project and Rumford Paper into fixed payment obligations commencing January 1, 2007. The effect of the IFCA is similar to a lease wherein Rumford Paper assumes the risk of fuel and power price volatility as well as most operating costs. Payments under the IFCA will be made quarterly to the partnership over a three-year term ending December 31, 2009. The Company expects to receive annual project distributions of approximately \$2.7 million during the term of the IFCA compared to project distributions in the amount of \$2.3 million received in 2006 from Rumford.

#### **Changes in Accounting Policies**

##### **FINANCIAL INSTRUMENTS**

On January 1, 2007, the Company adopted the new recommendations of Section 3855, *Financial Instruments - Recognition and Measurement*, Section 3865, *Hedges*, Section 1530, *Comprehensive Income* and Section 3251, *Equity*, from the Handbook of The Canadian Institute of Chartered Accountants (the "Handbook"). The retroactive application of the new standards does not require restatement of prior periods.

This change in accounting policy will result in significantly increased variability in net income but will not impact cash flows.

Section 3855, *Financial Instruments - Recognition and Measurement*, establishes standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. The standard requires that financial assets, financial liabilities and non-financial derivatives be recognized on the consolidated balance sheets.

Under this standard, all financial instruments are required to be measured at fair value on initial recognition. Measurement in subsequent periods is based on the classification of the financial instrument as held-for-trading, available-for-sale, held-to-maturity, loans and receivables or other financial liabilities. Transaction costs are expensed as incurred for financial instruments classified or designated as held-for-trading. For other financial instruments, transaction costs are capitalized on initial recognition.

As a result of adopting the requirements of Section 3855, the Company has determined that the power purchase agreement ("PPA") at the proportionately consolidated Chambers Project is a derivative instrument. The PPA does not qualify for normal purchases and normal sales and has not been designated as a hedge. Accordingly, the PPA has been recorded at its fair value in the consolidated balance sheets and changes in the fair value are recognized in change in fair value of derivative instruments in the consolidated statements of income and deficit.

The fair value of the PPA is measured by comparing the net present value of the cash flows expected to be received under the terms of the PPA to the net present value of the cash flows that would be received if the same volumes were sold at projected market power prices over the term of the contract expiring in 2024. Accordingly, periodic changes to the fair value of the PPA reflect

changes in market conditions and do not directly impact the amount of cash flow the Chambers project will receive under the terms of the PPA.

The impact of this change was to increase opening retained earnings (deficit) as of January 1, 2007 by \$212,183 to reflect the fair value of the PPA in the amount of \$155,762 and the removal from the consolidated balance sheet of the unamortized cost of the PPA in the amount of \$56,421 (previously presented as a credit in other intangible assets) on that date. As of March 31, 2007, the fair value of the PPA in the amount of \$106,519 was reflected in the consolidated balance sheets as \$11,319 in current portion of derivative instruments asset and \$95,200 as derivative instruments asset. The change in fair value of the PPA for the three months ended March 31, 2007 is recorded as a loss in the amount of \$49,243 in the consolidated statements of income and deficit.

In addition, previously deferred financing costs in the amount of \$10,990 as of January 1, 2007 have been reclassified and presented together with the respective debt instrument to which the costs relate and are now being amortized using the effective interest method. The difference between the straight-line and the effective interest methods of amortization of these costs is de minimus.

See Note 2(a) to the Interim Consolidated Financial Statements for the three months ended March 31, 2007 for additional information about the adoption of the Handbook Sections described above.

#### LONG-TERM INCENTIVE PLAN

The officers and other employees of Atlantic Power Management, LLC (the "Manager") are eligible to participate in the Atlantic Holdings' Long-Term Incentive Plan ("LTIP"), as determined by the independent members of the Board of Directors of the Company. On an annual basis, the Board of Directors establishes awards that are based on the cash flow performance of the Company, each participant's base salary and the market price of the IPSs at the award date. Awards are granted in the form of notional units that have similar economic characteristics to the Company's IPSs. Notional units vest over a three-year period and are redeemed in a combination of cash and IPSs upon vesting. Invested notional awards are entitled to receive distributions equal to the distributions per public IPS during the vesting period and are awarded in the form of additional notional units. Unvested awards are subject to forfeiture if the participant is not an employee of the Manager at the vesting date or if the Company does not meet certain ongoing cash flow performance targets.

Compensation expense related to awards granted to participants in the LTIP is recorded over the vesting period based on the estimated fair value of the award at each balance sheet date. Forfeitures are recorded as they occur and are not included in the estimated fair value of the awards. The aggregate number of IPSs which may be issued from treasury under the LTIP is limited to one million.

On March 28, 2007, the Board of Directors approved grants of notional units to acquire a maximum of 172,071 IPSs under the terms of the LTIP. The grant date for the awards for accounting purposes occurred when participants were informed of the details of their awards in April 2007. As a result, no compensation expense related to the LTIP was recorded in the three-month periods ended March 31, 2007 and 2006.

#### LONG-TERM INVESTMENTS

During the three months ended March 31, 2007, management reviewed its accounting for its investments in the Gregory and the Selkirk Projects that have historically been accounted for using the equity method. Based on a current assessment, management has determined that as of January 1, 2007, the cost method of accounting is appropriate for these investments. Beginning January 1, 2007, the Company has prospectively changed its accounting for its investments in the Gregory and Selkirk Projects from the equity method to the cost method of accounting. Under the cost method, investment income is recorded to the extent of distributions received from the Projects. This change in accounting does not impact cash flow.

The Company's investments in the Delta Person, Jamaica and Rumford Projects continue to be recorded under the equity method of accounting and are also included in long-term investments in the consolidated balance sheets.

<sup>1</sup> Includes equity in earnings from partnerships of \$1,085 for the three month period ended March 31, 2007 from three Projects in which Holdings owns interest of between 24.1% and 40.0%, accounted for on an equity basis.

**Results of Operations for the Three-Month Period Ended March 31, 2007**

**OVERVIEW**

Project income is the primary GAAP measure of the Company's operating results and is discussed in the "Project Operations Performance – Three-Month Period Ended March 31, 2007" section below. In addition, an analysis of non-project expenses impacting the results of the Company is set out in the "Administrative and Other Expenses" section below.

Significant non-cash items, which are subject to potentially significant fluctuations, include: (1) the change in fair value of certain financial instruments which are required by GAAP to be revalued at each balance sheet date (see "Financial and Other Instruments in this MD&A for additional information) ; (2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S. dollar equivalent of the Company's Canadian dollar-denominated debt and the mark-to-market value of currency forward contracts; and (3) the change in fair value of the non-controlling interest previously held in Holdings by the Existing Investors.

Cash flow available for distribution was \$20,819 for the three months ended March 31, 2007 compared to \$10,243 for the same period in 2006, representing an increase of 103%. See the "Cash Flow Available for Distribution" section of this MD&A for additional information.

Net loss for the three months ended March 31, 2007 was \$49,740 compared to net income of \$3,321 for the comparable period in 2006. The change reflects a project loss of \$34,873 during the first quarter of 2007, attributable to the \$48,403 non-cash change in fair value of derivative instruments. See "PROJECT INCOME" in this MD&A for additional information. Administrative and other expenses increased by \$5,153 to \$13,861 in the three months ended March 31, 2007. The increase includes higher interest expense and a foreign exchange loss in the 2007 period compared to a foreign exchange gain in 2006. Partially offsetting these items is the absence of impacts of the non-controlling interest liability during the three months ended March 31, 2007 as compared to the same period in 2006 as a result of the redemption of Existing Investor interest in the fourth quarter of 2006.

#### PROJECT INCOME

Project revenue totaled \$67,341 during the three months ended March 31, 2007, an increase of \$13,577 from the same period in the prior year. The increase in project revenues during the first quarter of 2007 included a full quarter of operations of the Path 15 Project acquired in the third quarter of 2006. In addition, revenues increased at the Chambers Project as a result of increased generation and higher spot market prices and at Badger Creek due to higher variable energy payments under the Project's power purchase agreement due to higher natural gas prices.

Project expenses increased by \$5,065 or 12% during the three months ended March 31, 2007 compared to the prior year. This increase is attributable to (1) higher fuel and maintenance expenses at Badger Creek as a result of higher natural gas prices and increased costs associated with a planned outage; (2) increased operations and maintenance expense at Lake due to a non-recurring property tax refund received in the first quarter of 2006; partially offset by decreased maintenance expense at Pasco related to expenses associated with an outage and turbine upgrade in the first quarter of 2006.

Project other income (expense) of (\$53,484) during the three months ended March 31, 2007 includes a non-cash charge attributable to the change in fair value of derivative instruments of \$48,403. The change in fair value of derivative instruments is comprised of (1) a decrease in the fair value of the Chambers PPA of \$49,243, driven by changes in forecasted long-term commodity prices; partially offset by (2) the net change in fair value of the indexed swap derivative instruments at the Onondaga Project in the net amount of \$840. The increase in project interest expense during the first quarter 2007 compared to the first quarter 2006 is attributable to non-recourse project-level debt associated with Path 15, which was acquired in September 2006. Other income of \$2,499 in the three months ended March 31, 2006 represents fees received as consideration for amendments to fuel contracts at two of the Projects.

#### ADMINISTRATIVE AND OTHER EXPENSES

Management fees and administration includes the costs of operating a public company, as well as the fees and costs associated with the Manager. The Manager is indirectly owned by the ArcLight Funds and receives compensation in the form of an annual base fee which is indexed to inflation and an incentive fee that is equal to 25% of cash distributions to IPS holders and Existing Investors in excess of Cdn\$1.00 per year per IPS. The Company also reimburses the Manager for reasonable costs incurred to manage the Company. Management fees and administration in the three months ended March 31, 2007 did not change significantly from the same period in the prior year.

Interest expense primarily relates to required interest payments to holders of the Subordinated Notes and the Debentures. The increase in net interest expense during the first quarter of 2007 is due to the issuance of the Debentures and additional Subordinated Notes in the fourth quarter of 2006. Earnings on higher levels of cash and cash equivalents invested in the first quarter of 2007, as well as higher short-term interest rates on these investments, partially offset this increase in interest expense.

Prior to December 31, 2006, distributions to non-controlling interest represented distributions paid by Holdings on membership interests owned by the Existing Investors. As described in "Recent Transactions" in this MD&A, the Company acquired all of the remaining Existing Investors' interest in Holdings in February 2007 and, accordingly, no further distributions will be paid to the Existing Investors. Also related to the Existing Investors interest in Holdings prior to 2007, the loss (income) from change in non-controlling interest represented: (1) the change in the fair value of the liability during each period based on the market value of the IPSs at each balance sheet date; and (2) the reduction in the liability resulting from the redemptions of the Existing Investors' interest in Holdings that occurred in the fourth quarter of 2006.

Prior to December 31, 2006, the non-controlling interest liability was estimated at each balance sheet date based on the market value of the Company's IPSs at the balance sheet date multiplied by the number of membership interest in Holdings owned by the Existing Investors at that date. In December 2006, the final amount to be paid to the Existing Investors for its remaining interest in Holdings was determined based on the net price received per IPS for the Company's sale, on a private placement basis, of 8,600,000 IPSs (see "Recent Transactions" in this MD&A for additional information). As a result, the liability was recorded at \$76.9 million at December 31, 2006 and this amount was paid to the Existing Investors in February 2007 to redeem their remaining interest in Holdings, extinguishing the liability. Beginning in 2007, the financial statements no longer reflect income variations that are attributable to changes in the non-controlling interest liability.

Foreign exchange loss (gain) primarily reflects the unrealized impact of changes in foreign exchange rates on the U.S. dollar equivalent of the Company's Canadian dollar-denominated obligations to holders of Subordinated Notes and Debentures and, prior to 2007, obligations to non-controlling interest. In addition, unrealized and realized gains and losses on the Company's forward contracts for the purchase of Canadian dollars to satisfy these obligations are included in foreign exchange loss (gain). The U.S. dollar to Canadian dollar exchange rate declined slightly during the three months ended March 31, 2007, compared to a slight gain during the comparative 2006 period. These fluctuations in the currency exchange rate resulted in a foreign exchange loss of \$2,481 in the first quarter of 2007 compared to a gain of \$1,553 in the first quarter of 2006.

#### SUPPLEMENTARY FINANCIAL INFORMATION

The key measure used by management to evaluate the results of the Company's investments is Cash Flow Available for Distribution. See the "Cash Flow Available for Distribution" section of this MD&A for additional details and for a reconciliation of Cash Flow Available for Distribution to its nearest GAAP measure, cash flows from operating activities.

The primary factor influencing Cash Flow Available for Distribution is cash distributions received from the Projects. These distributions received are generally funded from Adjusted EBITDA generated by the Projects, reduced by Project-level debt service and capital expenditures, and adjusted for changes in Project-level working capital and cash reserves. Please read the "Non-GAAP Financial Measures" section of this MD&A for important disclosures with respect to Cash Flow Available for Distribution and Adjusted EBITDA.

Because Project Adjusted EBITDA and Project distributions are key drivers of both the performance of the Company's investments and Cash Flow Available for Distribution, this MD&A contains supplementary unaudited non-GAAP information that summarizes Adjusted EBITDA by Project and a reconciliation of Adjusted EBITDA by Project to Project distributions actually received by the Company.

Many of the Company's investments are either proportionately consolidated or accounted for under the cost or equity method of accounting in the consolidated financial statements presented in accordance with GAAP. The proportionate consolidation method of accounting is applied by recording in the Company's consolidated financial statements its proportionate share of each financial statement account at the proportionately consolidated Project. As a result, some components of the Company's balance sheet contain assets that are not directly available to the

Company in the normal course of business, or liabilities that are not direct obligations of the Company.

For example, the Company's proportionate share of cash at a proportionately consolidated Project is reflected in the consolidated balance sheet even though this cash may not be directly controlled by the Company because it is subject to: (1) the provisions of the partnership agreement that governs the underlying investment or; (2) in the case of Restricted Cash, the non-recourse debt covenants at the Projects. Conversely, the Company's proportionate share of debt at a proportionately consolidated Project is also reflected in the consolidated balance sheet notwithstanding that all of the Project-level debt at the Projects is secured by assets at the Projects and is non-recourse to the Company.

Attached to this MD&A are tables of supplementary unaudited non-GAAP information that segregate the consolidated statements of operations and the consolidated balance sheet into amounts attributable to consolidated and proportionately consolidated Projects and amounts attributable to corporate balances. In addition, a column is included that presents the Company's proportionate share of balance sheet and income statement items that are attributable to Projects accounted for under the equity method of accounting. These amounts attributable to Projects accounted for under the equity method of accounting are not included in the consolidated financial statements presented in accordance with GAAP and are provided for informational purposes only.

#### PROJECT OPERATIONS PERFORMANCE – THREE-MONTH PERIOD ENDED MARCH 31, 2007

Aggregate Adjusted EBITDA for the Projects, including earnings from projects accounted for under the equity method, increased 24% during the first quarter 2007 compared to the first quarter 2006. The first quarter included strong performance at Chambers due to higher levels of generation due to a planned outage in the prior year period and stronger spot market pricing, and increased generation and efficiency at Pasco resulting from turbine upgrades in 2006. These increases were partially offset by the absence of any Adjusted EBITDA contribution from Selkirk or Gregory. Because these two projects are now accounted for under the cost method of accounting, their Adjusted EBITDA is equal to distributions received. There were no distributions received from these projects during the first quarter because Selkirk receives distributions in second and fourth quarters of each year and distributable cash at Gregory is currently restricted under the terms of its project-level debt agreement. The first quarter of 2007 results also included a full quarter of contribution from the Path 15 project, which was acquired on September 15, 2006.

Aggregate power generation did not significantly change during the first quarter of 2007 compared to the same period in 2006, while plant availability declined 2.4%. Generation in the first quarter of 2007 was impacted by reductions in energy production at: Lake Cogen, as a result of lower energy sales; Selkirk, due to an unplanned generator outage in January 2007; and Stockton, as a result of a scheduled maintenance outage in March 2007. These reductions in production were offset by increased generation at Chambers, Gregory and Orlando, resulting from outages in the same period in 2006; and Pasco, as a result of increased capacity in 2007 associated with its turbine upgrades completed last year and an unplanned outage in the same period in 2006.

The Project portfolio achieved a weighted average availability of 94.9% for the first quarter of 2007 compared to 97.4% for the same period in 2006. The lower availability was primarily driven by maintenance outages in 2007 at Mid-Georgia and Stockton, and an unplanned outage at Selkirk, partially offset by outages at Gregory and Orlando for the same period in 2006. Each of the three facilities with lower availability this quarter was nevertheless able to achieve 100% of their respective capacity payments as a result of contract provisions that allow for specified levels of planned and unplanned outages.

**Cash Flow from Operating Activities**

The Company's cash flow from the Projects varies from year to year based on, among other things, changes in rates under the PPAs, fuel supply and transportation agreements, steam sales agreements and other Project contracts, compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the operating performance of the Projects. Project cash flows themselves may have some seasonality and the pattern and frequency of distributions from the Projects to Holdings during the year can also vary.

The Company's cash flow from operating activities increased by 134% for the three-month period ended March 31, 2007 compared to the same period in the prior year. The increase was primarily attributable to the results of operations from the Path 15 Project, acquired in September 2006, as well as improvements in cash from operations at the proportionately consolidated Chambers and Lake Projects. In addition, cash flow from operations benefited during the quarter from routine changes in the timing of working capital balances.

**Cash Flow Available for Distribution**

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. The Company increased the distribution from an annual rate of Cdn\$1.03 per IPS to an annual rate of Cdn\$1.06 per IPS, effective with the September 2006 distribution.

Cash flow available for distribution in the three months ended March 31, 2007 increased by \$10,576, or 103% over the same period in 2006 due primarily to the increase in cash flow from operations during the period.

The Company periodically evaluates its level of distributions with its Board of Directors by analyzing payout ratios and long-term cash flow projections, as well as the accretion to cash flow provided by acquisitions.

The table below presents the Company's calculation of Cash Available for Distribution for the three-month period ended March 31, 2007 and 2006.

(In thousands of U.S. dollars, except as otherwise stated)

(unaudited)	Three months ended March 31,	
	2007	2006
Cash flows from operating activities	18,782	8,027
Project-level debt repayment	(4,689)	(4,037)
Interest on IPS portion of Subordinated Notes	8,354	6,127
Income tax installments recoverable (net) <sup>1</sup>	(202)	548
<u>Purchase of property, plant and equipment</u>	<u>(1,426)</u>	<u>(422)</u>
Cash flow available for distribution, US\$	20,819	10,243
<b>Cash flow available for distribution, Cdn\$</b>	<b>24,150</b>	<b>11,938</b>
Interest on IPS Subordinated Notes	8,354	6,127
<u>Dividends on IPS Common Shares</u>	<u>5,610</u>	<u>3,824</u>
Total IPS distributions, US\$	13,964	9,951
<b>Total IPS distributions, Cdn\$</b>	<b>16,297</b>	<b>11,421</b>
<b>Cash flow available for distribution per basic IPS, Cdn\$</b>	<b>\$0.39</b>	<b>\$0.27</b>
<b>Cash flow available for distribution per diluted IPS, Cdn\$</b>	<b>\$0.36</b>	<b>\$0.27</b>
<b>Total distribution declared per IPS, US\$</b>	<b>\$0.23</b>	<b>\$0.22</b>
<b>Total distribution declared per IPS, Cdn\$</b>	<b>\$0.27</b>	<b>\$0.26</b>

<sup>1</sup> Income tax installments recoverable represents management's estimate of U.S. federal income tax installment payments that will be recovered in future periods. The amount presented is comprised of installment payments made during the period, offset by the current tax provision recorded in the consolidated statement of operations and deficit and any income tax refunds received. These adjustments have the effect of removing changes in working capital resulting from the timing of tax payments from the calculation of cash flow available for distribution.

### Summary of Quarterly Results

Variations in quarterly results are driven by the following factors:

- Seasonality of Project revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the PPA payments and the typical scheduling of major facility maintenance in the spring and fall.
- Variations in cash flow may also be driven by the timing of quarterly and semi-annual Project-level debt payments, as distributions from the Projects to the Company must occur in conjunction with passing certain tests at those payment dates.
- Non-cash charges, principally: (1) the change in fair value of certain financial instruments which are required by GAAP to be revalued at each balance sheet date (see "Financial and Other Instruments in this MD&A for additional information); (2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S. dollar equivalent of the Company's Canadian dollar-denominated debt and the mark-to-market value of currency forward contracts; and (3) the change in fair value of the non-controlling interest previously held in Holdings by the Existing Investors.

The table on the following page presents selected quarterly consolidated financial data for the eight most recently completed fiscal quarters.

**Selected Quarterly Consolidated Financial Data (in thousands of U.S. dollars, except as otherwise stated)<sup>1</sup>**

(unaudited)	2005			2006			2007

<sup>1</sup> Certain 2005 and 2006 figures have been reclassified to conform to the financial statement presentation adopted in 2007

**Liquidity and Capital Resources**

The Company's primary source of cash and cash equivalents is distributions from the Projects. A significant portion of the cash received from Project distributions is distributed in the form of interest and dividends to holders of the IPSs, the Separate Subordinated Notes and the Debentures. The Company plans to maintain the stability and sustainability of cash distributions to holders of IPSs, and to increase, when prudent, dividends on the Common Shares. Future increases in dividends on the Common Shares will be achieved if the Company is successful in maximizing the performance of existing Projects and making accretive acquisitions. The Company may fund future acquisitions with a combination of cash on hand, the issuance of additional debt or equity securities and the incurrence of bank debt.

Management believes that the Company will be able to generate sufficient amounts of cash and cash equivalents to maintain the Company's operations and meet obligations as they become due. The following additional sources of liquidity, in addition to cash flow from operations, are available to the Company.

**CREDIT FACILITY**

Holdings maintains a revolving credit facility in the amount of \$75 million. The facility expires in November 2008. Advances outstanding under the credit facility bear interest at LIBOR plus a margin of 1.5%. As of December 31, 2006, \$13,465 was allocated, but not drawn, to support letters of credit for contingent liabilities at several Projects. In the first quarter of 2007, \$31,000 was borrowed under the credit facility and used to repay the outstanding balance on the Path 15 Acquisition Credit Facility. See "PATH 15 ACQUISITION CREDIT FACILITY" in this MD&A for additional information. As at March 31, 2007, advances of \$31 million were outstanding under the credit facility and the amount available for advances or letters of credit was \$30,535.

**RESTRICTED CASH**

The Projects generally have reserve requirements to support payments for major maintenance costs and project-level debt service. For Projects that are consolidated or proportionately consolidated with Atlantic Power, these amounts, or Atlantic Power's portion of these amounts, are reflected as Restricted Cash on the Company's consolidated balance sheet.

At March 31, 2007, Restricted Cash at consolidated and proportionately consolidated Projects totaled approximately \$37.9 million. All Project-level debt is non-recourse to the Company or Holdings and is fully amortized over the life of the Projects' PPAs.

At certain of the Projects, a portion of the Restricted Cash represents reserves for debt service that

are required by Project-level financing arrangements. In some, but not all, cases where a Project-level debt service reserve is represented by Restricted Cash, it is possible for the Company to replace its proportionate share of the debt service reserve with a letter of credit under the revolving credit facility. If the Company chose to replace the Restricted Cash with a letter of credit, the Restricted Cash could be released and distributed to the Company. This represents an additional source of liquidity that the Company may consider for funding acquisitions or other general corporate purposes.

In December 2006, the Company sold 8,600,000 IPSs in a private placement transaction. See "Recent Transactions" in this MD&A for additional details. The proceeds from the private placement transaction were used in February 2007 to acquire all of the remaining interest of the Existing Investors in Holdings. The net proceeds from the private placement transaction were deposited into an escrow account until regulatory approval was received in February 2007 for the transaction, in which the Company acquired all of the remaining interest of the Existing Investors in Holdings. The balance in the escrow account was \$74,433 at December 31, 2006 and was included in Restricted Cash in the consolidated balance sheet. The entire balance in the escrow account was paid to the Existing Investors in February 2007.

#### **PATH 15 ACQUISITION CREDIT FACILITY**

The acquisition of the Path 15 Project on September 15, 2006 was initially financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. Loans under the Acquisition Credit Facility bear interest at a rate equal to a Eurodollar rate or a U.S. base rate, plus an applicable margin to those rates.

In October 2006, approximately \$37 million of the net proceeds of the Company's public offering of IPSs and Debentures were applied to repay a portion of the principal amount outstanding on the Acquisition Credit Facility. In the first quarter of 2007, the remaining balance due on the Acquisition Credit Facility was repaid using cash on hand and funds drawn from Holdings' revolving credit facility. Management intends to enter into a permanent financing arrangement for the acquisition of the Path 15 Project in the second quarter of 2007. The final amount to be borrowed is expected to be approximately \$50 million and will be non-recourse to the Company.

## Project Portfolio

The following table outlines the Company's portfolio of power generating assets as of March 31, 2007, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any single region.

Project Name	Location	Primary Fuel Type	Total MW	Ownership Interest <sup>1</sup>	Acctg Tmt <sup>2</sup>	Net MW <sup>3</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating
Badger Creek	California	Natural gas	46	50.0%	P	23	Pacific Gas & Electric	2011	BBB
						74	Atlantic City Electric	2024	BBB
						16	DuPont	2024	A

Orlando	Florida	Natural gas	126	50.0%	P	19	Progress Energy Florida	2023	BBB +
							Reedy Creek Improvement District	2013	A- <sup>9</sup>
Pasco	Florida	Natural gas	121	49.9%	P	60	Progress Energy Florida	2008	BBB+
Path 15	California	Transmission	N/A <sup>11</sup>	100.0%	C	N/A <sup>11</sup>	California Utilities via CAISO <sup>10</sup>	N/A <sup>11</sup>	BBB to A <sup>12</sup>
Rumford	Maine	Coal/biomass	85	23.5% <sup>2</sup>	E	20	Rumford Paper Co. <sup>4</sup>	2009	N/R
Selkirk	New York	Natural gas	145	18.5% <sup>3</sup>	Cost	15	Niagara Mohawk	2008	A
						49	Consolidated Edison	2014	A
Stockton	California	Coal	55	50.0%	P	24	Pacific Gas & Electric	2008	BBB
						3	Com Products Int'l	2008	BBB-
Topsham <sup>8</sup>	Maine	Hydro	14	50.0%	P	7	Central Maine Power	2011	BBB+

1. Except as otherwise noted, economic interest represents the percentage ownership interest in each Project held indirectly by Atlantic Holdings.
2. Accounting treatment: C – Consolidated; P – Proportionate consolidation; E – Equity method; Cost – Cost method.
3. Represents the interest of Atlantic Holdings in each Project's electricity generation capacity based on Atlantic Holdings' economic interest in each Project.
4. The merchant output of the facility is sold by Atlantic City Electric in the spot market through a profit-sharing arrangement with Chambers.
5. Represents Atlantic Holdings' estimate of its share of the cash flow from the project.
6. A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.
7. For further information, see the discussion of the new interim financial consolidation agreement with the former Mead/Westvaco paper mill (now owned by NewPage) under the earlier "Recent Transactions" section.
8. Atlantic Holdings owns its interest in this Project as a lessor.
9. Rating from Fitch.
10. California utilities pay Transmission Access Charges ("TACs") to California Independent System Operator ("CAISO"), which allocates the payments among owners of transmission and Transmission System Rights, such as Path 15, in accordance with their FERC-approved annual revenue requirement.
11. Path 15 is an 84-mile, 500-kilovolt transmission line in California. The Project is a FERC-regulated asset with a FERC-approved regulatory life of 30 years, through 2034.
12. The largest payers of TACs supporting Path 15's annual revenue requirement and their S&P credit ratings are PG&E (BBB), SoCal Ed (BBB+) and SDG&E (A). CAISO imposes minimum credit quality requirements of A or better for all participants unless collateral is posted per CAISO imposed schedule.

## Capital Expenditures

Capital expenditures for the Projects are made at the Project level using Project cash flows and Project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the Projects and the Company has not to date needed to inject funds into the Projects for ongoing capital expenditures. The Projects in which the Company has investments generally consist of large capital assets that have established commercial operations. Ongoing capital expenditures for assets of this nature are generally not significant because most major expenditures relate to planned repairs and maintenance and are expensed when incurred.

## Related Party Transactions

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid: (1) an annual base management fee of \$34.1; (2) reimbursement of costs; and (3) an incentive fee equal

to 25% of the excess in distributions paid to IPS holders and Existing Investors during the year above Cdn\$1.00 per IPS. The Management Agreement has an initial term of 20 years from the IPO completed in November 2004.

The Manager receives administrative and office support services from ArcLight under a management support agreement executed in November 2004 among the Manager, ArcLight and the Company. This agreement also requires the ArcLight Funds and their affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Holdings, investment opportunities that do not fit within the investment guidelines for the ArcLight Funds or other investment funds managed by ArcLight or its affiliates.

The Manager is owned indirectly by the ArcLight Funds. Subsidiaries of the ArcLight Funds, in conjunction with a subsidiary of Caithness, owned 41.9% of Holdings' common membership interest after the IPO, but reduced their interest to 29.9% in October 2005 and further reduced their interest to approximately 14.0% in October 2006. In February 2007, the Company acquired all of the remaining interest of the Existing Investors in Holdings.

### Financial and Other Instruments

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates, as the Company earns its income principally in the United States and has the obligation to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has executed this strategy by entering into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn\$1.06 per IPS to all holders including the Existing Investors, as well as interest payments on the Subordinated Notes. It is the Company's intention to periodically extend the length of these forward contracts by one additional year. Changes in the fair market value of the Company's forward contracts partially offset exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations. The following table summarizes the Company's forward foreign currency contracts with monthly settlement terms as of March 31, 2007:

#### Notional monthly amounts

Period	Sell U.S. dollars	Buy Cdn. dollars	Average rate
Current-2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

In addition to the forward contracts in the table above that settle on a monthly basis, the Company has executed forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make semi-annual payments on the Debentures. The contracts provide for the purchase of Cdn\$2.1 million and Cdn\$1.9 million in April 2007 and October 2007, respectively, at a rate of 1.1240 Canadian dollars per U.S. dollar and the purchase of Cdn\$1.9 million in April and in October of 2008 through 2011 at a rate of 1.1075 Canadian dollars per U.S. dollar.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange gains and losses. The foreign exchange contracts are classified as other assets.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects on cash flow of changing natural gas prices, which are a significant component of Project expenses. In addition, other Projects have entered into natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

The Company has an Indexed Swap at the Onondaga Project under which it receives monthly

payments based upon the differential between an indexed contract price and a market reference price for electricity through June 2008. In order to lock in favorable gas, power, and capacity pricing under the Indexed Swap, the Company has entered into an Indexed Swap Hedge.

The values of all the financial instruments described above are subject to changes in market prices and none have been designated as a cash flow hedge for accounting purposes. Management of the Company monitors these risks and the market values of these financial instruments and periodically reviews its risk management strategies as market conditions change.

### **Accounting Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the periods presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property, plant and equipment and PPAs, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives.

The Company has acquired the majority of its long-term assets through acquisitions. In applying the purchase method of accounting, the Company is required to estimate the fair value of the assets acquired including the property, plant and equipment and intangible assets. The determination of these fair values is complex and involves significant judgments.

Revenue recognition is based on monthly invoices by the Projects to electricity and steam buyers and, for one Project which has fluctuating rates over time, the average rate over the term of the PPA is used for revenue with the difference between cash received and revenue recognized as deferred revenue. Fixed asset valuations of power plants are based on depreciated replacement cost. Valuations of PPAs and fuel supply agreements are based on the incremental net present value of cash flows provided by the agreement as compared to the merchant value of the plant. The Company typically uses outside consultants to determine the merchant value of a facility. On an ongoing basis, the Company monitors the performance of the facilities to determine if any recoverability issues exist or if any change in the useful life of the facility is required.

The future tax asset valuation allowance has been determined pursuant to the provisions of The Canadian Institute of Chartered Accountants (CICA) Handbook Section 3465, *Income Taxes*, including the Company's estimation of future taxable income, where necessary, and is adequate to reduce the total future tax asset to an amount that will more likely than not be realized. The Company has provided a valuation allowance to reduce net future tax assets to an amount expected to be recovered in the foreseeable future.

The fair values of financial instruments and derivatives such as the forward foreign currency contracts, interest rate swaps and natural gas swaps are typically based on market quotes. The Company also has an Indexed Swap and related hedge agreement and, pursuant to the adoption of Section 3855, has adopted fair value accounting for the Chambers PPA as of January 1, 2007. See "Accounting Policy Changes" in this MD&A for additional information. The fair values of these agreements are based on estimated future cash flows and take into account certain assumptions, including forecasts of future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair values of these agreements.

For additional information regarding accounting policies and estimates, please see Note 1 of the Company's audited consolidated financial statements for the twelve months ended December 31, 2006.

**Commitments and Contingencies**

From time to time, the Company and its subsidiaries and Projects are parties to disputes and litigation that arise in the normal course of business. The Company assesses its exposure to these matters and records estimated loss contingencies when a loss is likely and can be reasonably estimated. There were no matters pending as of March 31, 2007 which are expected to have a material impact on the Company's financial position or results of operations.

**Outstanding Share Data**

The Company had 61,470,500 IPSs outstanding at March 31, 2007 compared to 44,339,500 IPSs outstanding at March 31, 2006. The Debentures are convertible to approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS. As of March 31, 2007, approximately 4,838,700 IPSs would be required to be issued if all of the outstanding Debentures were converted to IPSs.

**Outlook**

In order to maintain stable distributions and provide long-term growth, the Company will continue to focus on enhancing the financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

PPAs in the portfolio have various expiration dates as listed in the "Project Portfolio" table in this MD&A. In each case, the Project's partners plan for such expirations by evaluating various options in the market in order to continue maximizing Project cash flows. For example, partners of Projects with PPA expirations in 2008 have already begun efforts to provide for potential new or extended PPAs. The new agreements may involve responses to utility solicitations for capacity, direct negotiations with the original purchasing utility for PPA extensions, arrangements with other creditworthy parties for tolling agreements, and PPAs or the use of derivatives to lock in stable power and/or fuel prices beyond the spot markets. Management has not assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations.

In 2009, the gas supply agreement at Lake will expire, whereas the PPA extends until 2013. While it is still somewhat early to work on extending this agreement or entering into a new agreement, management is monitoring forward prices in that market. The current gas agreement provides pricing that is currently below market, so management assumes that margins at Lake may fall in 2010 and beyond. Other options to maximize cash flow at Lake include a PPA restructuring and extension, and an analysis is being performed on a possible upgrade of the Project's turbines.

**Risk Factors**

Atlantic Power's future performance and its ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs, and the Common Shares and Subordinated Notes represented thereby, and to holders of Debentures, are subject to a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares, Subordinated Notes or Debentures or on the market price or value of IPSs, Common Shares or Subordinated Notes. A discussion of these risks and uncertainties can be found in the Company's management's discussion and analysis for the year ended December 31, 2006 and Annual Information Form dated March 28, 2007. The Company's management's discussion and analysis and its annual information form are available on SEDAR's website at [www.sedar.com](http://www.sedar.com).

**Disclosure Controls and Procedures**

Based on the requirements of Multilateral Instrument 52-109, *Certification of Disclosure in Issuers' Annual and Interim Filings*, the Chief Executive Officer and Chief Financial Officer of the Manager have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Multilateral Instrument 52-109) as of March 31, 2007. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer of the Manager have concluded that the Company's disclosure controls and procedures were effective as of March 31, 2007 to provide reasonable assurance that material information relating to the Company would be made known to them by others within the Company.

**Additional Information**

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or under the Company's profile on the SEDAR website at [www.sedar.com](http://www.sedar.com).

The following tables present unaudited non-GAAP supplementary financial information provided for informational purposes. Please see "Non-GAAP Financial Measures" and "Results of Operations for the Three-Month Period Ended March 31, 2007 – Supplementary Financial Information" for additional details about the supplementary information.

<sup>1</sup> Adjusted EBITDA is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation, amortization and changes in fair value of derivative instruments. Management uses adjusted EBITDA at the Projects to provide comparative information about Project performance.

<sup>2</sup> Effective January 1, 2007, the Gregory and Selkirk Projects are accounted for under the cost method of accounting. See "Changes in Accounting Policies" in this MD&A for additional information.

**Form 52-109F2 - Certification of Interim Filings**

I, Barry E. Welch, Chief Executive Officer of Atlantic Power Management, LLC, Manager of Atlantic Power Corporation, certify that:

- 1) I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Atlantic Power Corporation (the issuer) for the interim period ending March 31, 2007;
- 2) Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
- 3) Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings;
- 4) The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the issuer, and we have:
  - a) designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared; and
  - b) designed such internal control over financial reporting, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP; and.
- 5) I have caused the issuer to disclose in the interim MD&A any change in the issuer's internal control over financial reporting that occurred during the issuer's most recent interim period that has materially affected, or is reasonably likely to materially affect, the issuer's internal control over financial reporting.

Notes to Consolidated Financial Statements

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006  
(Unaudited)

---

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004 and continued to the Province of British Columbia on July 8, 2005. The Company issued income-participating securities ("IPSs") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

The Company currently owns indirect interests in 15 power generation projects and one transmission line located primarily in the United States of America (collectively, the "Projects"). Three of the Projects are wholly owned subsidiaries of the Company, being Onondaga Cogeneration Limited Partnership ("Onondaga"), Lake Cogen Ltd. and Atlantic Holdings Path 15, LLC ("Path 15").

## 1. Basis of presentation:

These interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2006, as set out in the 2006 Annual Report since they do not contain all the disclosures that are required by Canadian generally accepted accounting principles for annual financial statements. These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, using the same accounting policies and methods of computation as were used for the audited consolidated financial statements for the year ended December 31, 2006, except for the changes described in note 2.

There is some seasonality of the Company's revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the power purchase agreement payments and the typical scheduling of major facility maintenance in the spring and fall.

## 2. Changes in accounting policies:

### (a) Financial instruments:

On January 1, 2007, the Company adopted the new recommendations of Section 3855, Financial Instruments - Recognition and Measurement, Section 3865, Hedges, Section 1530, Comprehensive Income and Section 3251, Equity, from the Handbook of The Canadian Institute of Chartered Accountants. The retroactive application of the new standards does not require restatement of prior periods.

This change in accounting policy will result in significantly increased variability in net income but will not impact cash flows.

(Unaudited)

---

## 2. Changes in accounting policies (continued):

Section 3855, Financial Instruments - Recognition and Measurement, establishes standards for recognizing and measuring financial assets, financial liabilities and non-financial derivatives. The standard requires that financial assets, financial liabilities and non-financial derivatives be recognized on the consolidated balance sheets.

Under this standard, all financial instruments are required to be measured at fair value on initial recognition. Measurement in subsequent periods is based on the classification of the financial instrument as held-for-trading, available-for-sale, held-to-maturity, loans and receivables or other financial liabilities. Transaction costs are expensed as incurred for financial instruments classified or designated as held-for-trading. For other financial instruments, transaction costs are capitalized on initial recognition.

Financial assets and financial liabilities held-for-trading are measured at fair value with changes in those fair values recognized in earnings. Financial assets and liabilities classified as held-to-maturity are measured at amortized cost using the effective interest method of amortization.

Derivative instruments are recorded on the consolidated balance sheets at fair value unless the derivative instrument is a contract to buy or sell a non-financial item in accordance with the Company's expected purchase, sale or usage requirements, referred to as a "normal purchase or normal sale." Changes in the fair values of derivative instruments are recognized in earnings unless the derivative instrument qualifies and is designated as an effective cash flow hedge or a normal purchase or normal sale. Normal purchases and normal sales are exempt from the application of the standard and are accounted for as executory contracts. Changes in the fair value of a derivative instrument designated as an effective cash flow hedge are recorded in accumulated other comprehensive income, a component of equity.

Other significant accounting implications of Section 3855 include the use of the effective interest method of amortization for any transaction costs or fees, premiums or discounts earned or incurred for financial instruments measured at amortized cost.

Three months ended March 31, 2007 and 2006  
(Unaudited)

---

## 2. Changes in accounting policies (continued):

As a result of adopting the requirements of Section 3855, the Company has determined that the power purchase agreement ("PPA") at the proportionately consolidated Chambers Project is a derivative instrument. The PPA does not qualify for normal purchases and normal sales and has not been designated as a hedge. Accordingly, the PPA has been recorded at its fair value in the consolidated balance sheets and changes in the fair value are recognized in change in fair value of derivative instruments in the consolidated statements of income and deficit.

The fair value of the PPA is measured by comparing the net present value of the cash flows expected to be received under the terms of the PPA to the net present value of the cash flows that would be received if the same volumes were sold at projected market power prices over the term of the contract expiring in 2024. Accordingly, periodic changes to the fair value of the PPA reflect changes in market conditions and do not directly impact the amount of cash flow the Chambers Project will receive under the terms of the PPA.

The impact of this change was to increase opening retained earnings (deficit) as of January 1, 2007 by \$212,183 to reflect the fair value of the PPA in the amount of \$155,762 and the removal from the consolidated balance sheet of the unamortized cost of the PPA in the amount of \$56,421 (previously presented in other liabilities) on that date. As of March 31, 2007, the fair value of the PPA in the amount of \$106,519 was reflected in the consolidated balance sheets as \$11,319 in current portion of derivative instruments asset and \$95,200 as derivative instruments asset. The change in fair value of the PPA for the three months ended March 31, 2007 is recorded as a loss in the amount of \$49,243 in the consolidated statements of income and deficit.

In addition, previously deferred financing costs in the amount of \$10,990 as of January 1, 2007 have been reclassified and presented together with the respective debt instrument to which the costs relate and are now being amortized using the effective interest method. The difference between the straight-line and effective interest methods of amortization of these costs is de minimus.

See note 4 for information about other financial instruments that were not impacted by the adoption of Section 3855.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006  
(Unaudited)

---

## 2. Changes in accounting policies (continued):

Section 3865, Hedges, specifies the criteria that must be satisfied in order for hedge accounting to be applied and the accounting for fair value hedges and cash flow hedges. Hedge accounting is discontinued prospectively when the derivative no longer qualifies as an effective hedge, or the derivative is terminated or sold, or upon the sale of the hedged item. As of March 31, 2007, the Company has not designated any derivative instruments as a cash flow hedge or a fair value hedge.

Section 1530, Comprehensive Income, establishes standards for the reporting and display of comprehensive income, which consists of net income and other comprehensive income ("OCI"). OCI is presented as a component of equity and is comprised of certain changes in shareholders' equity that are not recognized in net income. Examples of items included in OCI include the effective portion of the changes in fair value of derivative instruments designated as a cash flow hedge and changes in the currency translation adjustment relating to self-sustaining foreign operations. As of March 31, 2007, the Company does not have any items recorded in OCI.

Section 3251, Equity, establishes standards for the presentation of equity and changes in equity during the reporting period, in addition to the requirement in Section 1530. The adoption of Section 1530 had no impact on the Company's consolidated financial statements.

### (b) Long-term incentive plan:

The officers and other employees of Atlantic Power Management, LLC (the "Manager") are eligible to participate in the Atlantic Holdings' Long-Term Incentive Plan ("LTIP"), as determined by the independent members of the Board of Directors of the Company. On an annual basis, the Board of Directors establishes awards that are based on the cash flow performance of the Company, each participant's base salary and the market price of the IPSs at the award date. Awards are granted in the form of notional units that have similar economic characteristics to the Company's IPSs. Notional units vest over a three-year period and are redeemed in a combination of cash and IPSs upon vesting. Unvested notional awards are entitled to receive distributions equal to the distributions per public IPS during the vesting period and are awarded in the form of additional notional units. Unvested awards are subject to forfeiture if the participant is not an employee of the Manager at the vesting date or if the Company does not meet certain ongoing cash flow performance targets.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006  
(Unaudited)

---

## 2. Changes in accounting policies (continued):

Compensation expense related to awards granted to participants in the LTIP is recorded over the vesting period based on the estimated fair value of the award at each balance sheet date. Forfeitures are recorded as they occur and are not included in the estimated fair value of the awards. The aggregate number of IPSs which may be issued from treasury under the LTIP is limited to one million.

On March 28, 2007, the Board of Directors approved grants of notional units to acquire a maximum of 172,071 IPSs under the terms of the LTIP. The grant date for the awards for accounting purposes occurred when participants were informed of the details of their awards in April 2007. As a result, no compensation expense related to the LTIP was recorded in the three-month periods ended March 31, 2007 and 2006.

### (c) Long-term investments:

During the three months ended March 31, 2007, management reviewed its accounting for its investments in the Gregory and the Selkirk Projects that have historically been accounted for using the equity method. Based on a current assessment, management has determined that as of January 1, 2007, the cost method of accounting is appropriate for these investments. Beginning January 1, 2007, the Company has prospectively changed its accounting for its investments in the Gregory and Selkirk Projects from the equity method to the cost method of accounting. Under the cost method, investment income is recorded to the extent of distributions received from the Projects. This change in accounting policy does not impact cash flow.

The Company's investments in the Delta Person, Jamaica and Rumford Projects continue to be recorded under the equity method of accounting and are also included in long-term investments in the consolidated balance sheets.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006  
(Unaudited)

### 3. Related party transactions:

In connection with the Company's initial public offering, the Existing Investors acquired the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest for a two-year period from November 18, 2004. This liquidity right was treated as a liability of the Company and recorded at fair value on the consolidated balance sheets. Any change in the non-controlling interest liability was recognized in the consolidated statements of income and retained earnings (deficit) as a change in non-controlling interest liability.

The Existing Investors have exercised the liquidity right in a series of transactions since the initial public offering through February 2007 as follows:

Date	Amount paid to Existing Investors	Incremental share <sup>(1)</sup>
October 2005	\$ 64,374	12.0%
October 2006	87,287	15.5%
February 2007	76,888	14.4%

<sup>(1)</sup> Represents incremental portion of Atlantic Holdings purchased by the Company from the Existing Investors in the transaction.

The amounts paid to the Existing Investors in the transactions above were financed by the Company through the sale of IPSs and convertible debentures.

At December 31, 2006, \$74,433 restricted cash included in the consolidated balance sheets was held in escrow pending regulatory approval of a transaction whereby the remaining interests of the Existing Investors were acquired by Atlantic Holdings. In February 2007, the required regulatory approval was obtained and the transaction was completed. As of March 31, 2007, Atlantic Holdings is a wholly owned subsidiary of the Company and the liquidity right of the Existing Investors has been extinguished.

During the three months ended March 31, 2007, in accordance with the Management Agreement, the Company paid management and incentive fees and cost reimbursements of \$836 (2006 - \$871) to the Manager.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006

(Unaudited)

## 4. Financial instruments:

### (a) Indexed Swap and Indexed Swap Hedge:

A swap agreement ("Indexed Swap") exists between the power utility and Onondaga, which replaced Onondaga's original power purchase contract. The Indexed Swap expires on June 30, 2008. The Indexed Swap is a financial instrument under which the utility company makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full term of the Indexed Swap.

In May 2004, a subsidiary of Onondaga entered into commodity derivative instruments ("Indexed Swap Hedge"), in order to lock in favorable gas, power and capacity pricing under the Indexed Swap. The Indexed Swap Hedge extends through June 30, 2008 and removes almost all commodity price risk from the Indexed Swap through its term.

The Indexed Swap and Indexed Swap Hedge are recorded at fair value and included in derivative instruments in the consolidated balance sheets. Changes in the fair values of derivative instruments are recorded in change in fair value of derivative instruments in the consolidated statements of income and retained earnings (deficit).

Changes related to the Indexed Swap asset are summarized below:

	Three months ended March 31,	
	2007	2006
Fair value, beginning of period	\$ 50,124	\$ 107,914
Decrease in fair value	(9,854)	(12,625)
Settlements received (paid)	8,057	(8,539)
Fair value, end of period	\$ 48,327	\$ 86,750

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006

(Unaudited)

## 4. Financial instruments (continued):

Changes related to the Indexed Swap Hedge liability:

	Three months ended March 31,	
	2007	2006
Fair value, beginning of period	\$ 18,989	\$ 58,547
Increase (decrease) in fair value	5,422	(13,968)
Settlements paid	(2,465)	(2,393)
<b>Fair value, end of period</b>	<b>\$ 21,946</b>	<b>\$ 42,186</b>

### (b) Foreign currency contracts.

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign currency exchange rates as the Company earns its income principally in the United States and has the obligations to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has entered into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn. \$1.06 per IPS to all holders, as well as interest payments on the Subordinated Notes. Changes in the fair market value of the Company's forward contracts partially offset exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations. The following table summarizes the Company's forward foreign currency contracts with monthly settlement terms as of March 31, 2007:

Date	Notional monthly amounts		Average rate
	Sell U.S. dollars	Buy Canadian dollars	
Current - 2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006

(Unaudited)

## 4. Financial instruments (continued):

In addition to the forward contracts in the table above that settle on a monthly basis, the Company has executed forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make semi-annual payments on the convertible debentures. The contracts provide for the purchase of Cdn. \$2.1 million and Cdn. \$1.9 million in April 2007 and October 2007, respectively, at a rate of 1.1240 Canadian dollars per U.S. dollar and the purchase of Cdn. \$1.9 million in April and in October of 2008 through 2011 at a rate of 1.1075 Canadian dollars per U.S. dollar.

Forward foreign currency contracts are recorded at fair value and are included in other assets in the consolidated balance sheets.

The foreign exchange loss (gain) of \$2,481 (2006 - (\$1,553)) during the three months ended March 31, 2007 primarily reflects unrealized foreign exchange gains on the U.S. dollar equivalent of the Company's Canadian dollar-denominated obligation related to convertible debentures and subordinated notes, unrealized foreign exchange losses on the changes in the fair market value of the Company's forward contracts and realized foreign exchange gains on forward contract settlements during the period. Foreign exchange gains (losses) are as follows:

	Three months ended March 31,	
	2007	2006
Subordinated Notes and convertible debentures	\$ (2,524)	\$ 1,076
Non-controlling interest	-	720
Forward contracts	729	(985)
Unrealized foreign exchange gains (losses)	(1,795)	811
Realized foreign exchange gains (losses) on forward contract settlements	(686)	742
	\$ (2,481)	\$ 1,553

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2007 and 2006  
(Unaudited)

---

## 5. Path 15 Project financing:

The acquisition of the Path 15 Project closed on September 15, 2006 and was financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. The Acquisition Credit Facility had an outstanding balance of \$51 million at December 31, 2006. The remaining outstanding balance was paid in the first quarter of 2007 using cash on hand and \$31 million drawn from the Company's revolving credit facility.

## 6. Basic and diluted income (loss) per share:

Basic income (loss) per share has been calculated using the weighted average number of units outstanding during the three months ended March 31, 2007 of 61,470,500 (2006 - 44,339,500).

Diluted income (loss) per share is computed by assuming that the convertible debentures are converted into 4,838,712 IPSs for the three months ended March 31, 2007.

Because the Company reported a loss during the three months ended March 31, 2007, the effect of including these shares in the calculation is anti-dilutive. During the three months ended March 31, 2006, there were no potentially dilutive securities outstanding.

## 7. Commitments and contingencies:

From time to time, the Company, its subsidiaries and the Projects are parties to disputes and litigation that arise in the normal course of business. The Company assesses its exposure to these matters and records estimated loss contingencies when a loss is likely and can be reasonably estimated. There are no matters pending as of March 31, 2007 which are expected to have a material impact on the Company's financial position or results of operations.

## 8. Comparative figures:

Certain 2006 figures have been reclassified to conform with the financial statement presentation adopted in 2007.

**Atlantic Power Corporation Announces April 2007 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of April 2007. A distribution of \$0.0884 per Income Participating Security (“IPS”) will be payable on May 31, 2007 to holders of record at the close of business on April 30, 2007.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0884 reflects a cash dividend per common share of \$0.0355 and an interest payment of \$0.0529 for the month of April 2007.

Atlantic Power Corporation designates this dividend to be an “eligible dividend” pursuant to subsection 89(14) of the Income Tax Act (Canada) and its equivalent in any provinces of Canada.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

## Atlantic Power Corporation

NEWS RELEASE TRANSMITTED BY CCMATTHEWS

FOR: ATLANTIC POWER CORPORATION

TSX SYMBOL: ATP.UN

March 28, 2007

### **Atlantic Power Corporation Announces Strong Fourth Quarter and Year-End 2006 Results**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN, ATP.DB) (the “Company”) today announced its results for the three months and year ended December 31, 2006. All amounts are in US dollars unless otherwise indicated.

#### **2006 Highlights:**

- Accretive purchase of an interest in Path 15 transmission line
- Cash distributions to shareholders increased at an annual rate of Cdn.\$0.03 per IPS
- Cdn.\$90 million of IPSs and Cdn.\$60 million of 6.25% convertible debentures publicly issued
- Cdn \$86 million of IPSs privately issued
- Ownership in Atlantic Power Holdings increased to 100%
- 17% EBITDA increase and conservative 75% payout ratio

“2006 was another year of strong financial and operating performance for Atlantic Power,” commented Barry Welch, President and CEO. “Looking ahead, we are confident our solid base of power-producing assets, combined with the ongoing execution of our proven growth and value-enhancing strategies, will continue to deliver stable, sustainable and growing cash flow over the long-term.”

#### **Path 15 Acquisition**

In September 2006 Atlantic Power Holdings, LLC (“Holdings”) indirectly acquired 100% of the equity interests in Trans-Elect NTD Holdings Path 15, LLC, the indirect owner of approximately 72% of the transmission system rights in the Path 15 transmission project (“Path 15”) located in California. Path 15 is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor to help alleviate what had been a chronic transmission congestion point in the State’s north-south capacity. The Project commenced commercial operations in December 2004. The Company paid \$78.4 million in cash for the equity interests including transaction costs, and assumed approximately \$145 million in non-recourse project-level debt.

“The Path 15 acquisition was a highly strategic purchase for Atlantic Power. It helps to mitigate risk by increasing the diversity and duration of our project portfolio. Most importantly, it was immediately accretive to our cash flow,” Mr. Welch stated.

#### **IPS and Convertible Offerings**

On October 11, 2006 the Company completed a \$150 million bought deal financing with the issuance of 8,531,000 income participating securities (“IPS”) for gross proceeds of Cdn. \$90 million and Cdn. \$60 million of 6.25% convertible secured debentures. The net proceeds of the financing were used to partially repay \$37 million of an acquisition credit facility arranged in connection with the purchase of Path 15

and to redeem a portion of the ownership interests in Holdings held by subsidiaries of ArcLight Energy Partners Funds I and II and another investor. With the closing of the financing, the Company increased its ownership interest in Holdings to approximately 86% from 70.1%.

On December 20, 2006, the Company completed a private placement of 8,600,000 IPSs to three institutional investors, including the Caisse de dépôt et placement du Québec, who as a result owned 19% of the Company's Common Shares at that time. In addition, Cdn. \$3.0 million principal amount of Separate Subordinated Notes were sold. On February 7, 2007, the Company used the net proceeds of these private placements to redeem all of the remaining interests held by the Existing Investors in Atlantic Holdings. Following completion of the redemption, Atlantic Holdings became a wholly-owned subsidiary of the Company.

#### **Distribution Increase**

Concurrent with the closing of the Path 15 acquisition, the Company increased its cash distributions to shareholders by an annual rate of Cdn. \$0.03 per IPS commencing with the September 2006 distribution. Since its initial public offering in November 2004 the Company has increased annualized cash distributions per IPS by 6%.

#### **Extending Power Purchase Agreements**

The Company continued its strategy to mitigate risk by extending the duration of its power producing projects. During 2006 the Company's Rumford project operated under an interim market-based power purchase agreement ("PPA"). Subsequent to the year-end, the facility signed a new three-year agreement with Rumford Paper Company, the Project's steam host that provides fixed payments of approximately \$2.7 million per year with no operating, fuel or power price risks.

#### **Cash Flow Available for Distribution**

For the three months ended December 31, 2006 Cash Flow Available for Distribution was \$11.6 million (Cdn \$0.25 per IPS) compared to \$20.6 million (Cdn \$0.54 per IPS) for the same period last year. Distributions declared in the quarter were \$12.9 million (Cdn \$0.27 per IPS), resulting in a payout ratio of 111%, versus 47% in last year's fourth quarter. The lower payout ratio in the fourth quarter of 2005 was due to the one-time add-back of a \$5.5 million estimated tax payable on an asset disposal (as no disposal proceeds were included in CFFO). The higher payout ratio in fourth quarter 2006 was due to a number of factors, including a decrease in distributions received from equity investments, revisions of income tax estimates for the full year of 2006 that were recorded in the fourth quarter, and an increase in interest expense, and lower realized gains on foreign currency transactions. In addition, distributions declared on IPSs increased by 29% over the comparable period in the prior year as a result of both higher distributions per IPS and a substantial increase in IPSs outstanding.

For the year ended December 31, 2006, Cash Flow Available for Distribution was \$57.9 million (Cdn \$1.45 per IPS) compared to \$48.7 million (Cdn \$1.53 per IPS) last year. Distributions declared for 2006 were \$43.4 million (Cdn \$1.04 per IPS), resulting in a payout ratio of 75%, as compared to 67% last year. The increase in Cash Flow Available for Distribution was due to higher operating cash flow, primarily driven by the acquisitions of Chambers and Path 15, partially offset by lower distributions from equity investments, including the impact of the sale of Masspower in 2005. The higher payout ratio is a result of higher declared distributions per IPS and an increase in the number of IPSs outstanding when compared to last year.

#### **Strong Operating Performance**

The Company reported project income of \$14.6 million in the fourth quarter of 2006. Net income for the three months ended December 31, 2006 was \$2.9 million or \$0.06 per IPS. The Company generated project revenue of \$242.9 million and project income of \$57.2 million in 2006. Net loss for the year ended December 31, 2006 was \$2.4 million or (\$0.05) per IPS.

EBITDA at the Projects, including earnings from equity investments, increased 25% in the fourth quarter of 2006 compared to the prior year period. The increases were driven by the contribution from the Chambers acquisition acquired in late 2005 and from the Path 15 acquisition which closed on September 15, 2006, improved EBITDA from Selkirk due to the sale of excess natural gas at favorable prices and a fourth quarter 2005 reduction from a semi-annual adjustment to partnership income required by its legal structure, and from Gregory due to higher dispatch. These positive factors were partially offset by reduced EBITDA from Rumford due to its operation under an interim market-based PPA and Chambers due to decreased dispatch.

For the year ended December 31, 2006, EBITDA at the Projects was up 17% compared to the same period in 2005. The twelve months of 2006 included contributions from Chambers and Path 15, and improved margins at Lake and Selkirk due to scheduled increases in PPA capacity payments. Partially offsetting these positive contributions was the absence of any contribution from Masspower which was sold in 2005, Rumford's reduced EBITDA due to both its transition to a market-based interim PPA and a third quarter 2006 forced outage, and a first quarter 2006 unplanned turbine outage at Pasco, which included voluntarily accelerated major maintenance and an upgrade to the plant's combustion turbines' output and efficiency.

The calculation of Cash Flow Available for Distribution and a breakdown of unaudited EBITDA by individual project for the three months and year ended December 31, 2006 attached to this news release.

#### **Recent Canadian Federal Income Tax Proposals**

On December 21, 2006, the Department of Finance (Canada) released for public comment draft legislation significantly modifying the income tax rules applicable to certain publicly listed trusts and partnerships. An investment in IPSs does not involve a publicly listed trust or partnership but an investment in IPSs shares certain characteristics with investments in publicly listed trust or partnership entities that are the subject of the draft legislation and the proposals first announced on October 31, 2006. Management believes that the proposed rules do not apply to the Company and do not alter the tax consequences of an investment in Common Shares and Subordinated Notes represented by IPSs. However, there is no assurance that the December 21, 2006 draft legislation and, more generally, Canadian federal income tax laws and administrative policies will not be changed in a manner that adversely affects the holders of Common Shares and Subordinated Notes represented by IPSs.

The Company's financial statements for the period and management's discussion and analysis for year ended December 31, 2006 are available on the Company's web site at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com) or on SEDAR [www.sedar.com](http://www.sedar.com).

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

*Certain statements in this news release constitute forward-looking statements, which reflect the expectations of the manager of the Company regarding the Projects and the anticipated financial results and operations of the Projects. Words such as "will", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect current expectations regarding future events and operating performance and speak only as of the date of this news release. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by*

*which such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under "Risk Factors" contained in the Company's annual information form dated March 28, 2007. Although the forward-looking statements contained in this news release are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this news release and the Company assumes no obligation to update or revise them to reflect new events or circumstances.*

*Cash Flow Available for Distribution is not a measure recognized under Canadian generally accepted accounting principles ("GAAP") and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of Cash Flows from Operating Activities to Cash Flow Available for Distributions is attached to this news release and is also included in the MD&A for the twelve months ended December 31, 2006. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.*

*EBITDA, earnings before interest, taxes, depreciation and amortization, is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.*

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

(Unaudited)

	Three months ended December 31,		Twelve months ended December 31,	
	2006	2005	2006	2005
Cash flows from operating activities	23,883	19,473	57,521	38,370
Project level debt repayment	(11,441)	(10,052)	(27,185)	(20,679)
Interest IPS portion of subordinated notes	7,723	6,009	26,464	20,346
Net income tax installments recoverable	(8,124) <sup>(1)</sup>	768	4,734 <sup>(1)</sup>	7,682
Purchase of property, plant and equipment	(415)	(1,068)	(3,641)	(2,558)
Cash flow available for distribution, USD	11,626	20,649	57,893	48,680
Cash flow available for distribution, Cdn.	13,272	24,013	67,399	58,981
Interest on IPS subordinated notes	7,723	6,009	26,464	20,346
Dividends on IPS common shares	5,187	3,751	16,985	12,102
Total IPS distributions, USD	12,910	9,760	43,449	32,448
Total IPS distributions, Cdn.	14,776	11,421	49,151	39,124
<b>Cash flow available for distribution per basic IPS, Cdn.</b>	<b>\$0.25</b>	<b>\$0.54</b>	<b>\$1.45</b>	<b>\$1.53</b>
<b>Cash flow available for distribution per diluted IPS, Cdn.</b>	<b>\$0.23</b>	<b>\$0.54</b>	<b>\$1.42</b>	<b>\$1.53</b>
<b>Total distribution declared per IPS, Cdn.</b>	<b>\$0.27</b>	<b>\$0.26</b>	<b>\$1.04</b>	<b>\$1.01</b>

(1) Net income tax installments recoverable represents management's estimate of U.S. federal income tax installment payments that will be recovered in future periods. The amount presented is comprised of installment payments made during the period, offset by the current tax provision recorded in the consolidated statement of operations and deficit and any income tax refunds received. These adjustments have the effect of removing changes in working capital resulting from the timing of tax payments from the calculation of cash flow available for distribution.

**ATLANTIC POWER CORPORATION**  
**CODE OF BUSINESS CONDUCT AND ETHICS**

The following code of business ethics was adopted by the board of directors of Atlantic Power Corporation (the "Issuer") on December 13, 2004.

---

This Code of Business Conduct and Ethics covers a wide range of business practices and procedures. It does not cover every issue that may arise, but sets out basic principles to guide all directors, managers, officers and employees of the Issuer and of Atlantic Power Management LLC (the "Manager") and their subsidiaries (collectively, "Atlantic Power Personnel"). All Atlantic Power Personnel must conduct themselves accordingly and seek to avoid even the appearance of improper behavior.

If a law conflicts with a policy in this Code, Atlantic Power Personnel must comply with the law. If a local custom or policy conflicts with this Code, Atlantic Power Personnel must comply with this Code. If you have any questions about these conflicts, you should ask a senior officer of the Manager how to handle the situation. **The Manager is responsible for administering this Code and Barry Welch, Chief Executive Officer of the Manager, is the contact person for any questions regarding the Code (phone 617-977-2401).**

Atlantic Power Personnel who violate the standards in this Code will be subject to disciplinary action, up to and including termination of their employment or other relationship with the Issuer or its subsidiaries (collectively, the "Atlantic Power Entities"). If you are in a situation that you believe may violate or lead to a violation of this Code, follow the guidelines described below under "Compliance Procedures".

#### THE CODE

##### Compliance with Laws, Rules and Regulations

Obedying the law, both in letter and in spirit, is the foundation on which the Atlantic Power Entities' ethical standards are built and is critical to our reputation and continued success. All Atlantic Power Personnel must respect and obey the laws of the various jurisdictions in which the Atlantic Power Entities operate and avoid even the appearance of impropriety. Although not all Atlantic Power Personnel are expected to know the details of these laws, it is important to know enough to determine when to seek advice from executive members or other appropriate personnel. Barry Welch, Chief Executive Officer of the Manager, is available to assist Atlantic Power Personnel in determining applicable legal requirements and to seek the advice of legal counsel where appropriate.

##### Conflicts of Interest

A "conflict of interest" exists when a person's private interests interfere in any way with the interests of the Atlantic Power Entities. A conflict of interest can arise when Atlantic Power Personnel take actions or have interests that may make it difficult for them to perform their work for an Atlantic Power Entity objectively and effectively. Conflicts of interest also may arise when Atlantic Power Personnel or members of their families receive improper personal benefits as a result of their positions with an Atlantic Power Entity.

Conflicts of interest are prohibited as a matter of policy, except as may be approved by the board of directors of the Issuer. Conflicts of interest may not always be clear-cut. If you have a question, you should consult with your supervisor or department head. Any Atlantic Power Personnel who become aware of a conflict or potential conflict should bring it to the attention of a supervisor or department head and consult the procedures described below under "Compliance Procedures".

## **Confidentiality**

Atlantic Power Personnel must maintain the confidentiality of confidential information entrusted to them by any Atlantic Power Entity and persons with whom the Atlantic Power Entities do business, except when disclosure is authorized under the Confidential Information Policy or required by laws or regulations. Confidential information includes all non-public information that might be of use to competitors or harmful to any Atlantic Power Entity or the person to whom it relates if disclosed. The obligation to preserve the confidentiality of confidential information continues even after Atlantic Power Personnel cease to have a relationship with the Atlantic Power Entities.

Atlantic Power Personnel who have access to confidential information are not permitted to use or share that information for trading purposes or for any other purpose except the conduct of the Atlantic Power Entities' business. All Atlantic Power Personnel should read and abide by the Issuer's Confidential Information Policy, Disclosure Policy and Insider Trading Policy.

## **Corporate Opportunities**

Atlantic Power Personnel are prohibited from taking for themselves personally opportunities that are discovered through the use of corporate property, information or positions without the consent of the board of directors and from using corporate property, information or positions for improper personal gain. No Atlantic Power Personnel may compete with any of the Atlantic Power Entities directly or indirectly. Atlantic Power Personnel owe a duty to each Atlantic Power Entity to advance its legitimate interests when the opportunity to do so arises.

## **Protection and Proper Use of Atlantic Power Entity Assets**

All Atlantic Power Personnel should endeavor to protect Atlantic Power Entity assets and ensure their efficient use. Theft, carelessness and waste have a direct impact on the profitability of the Atlantic Power Entities. Any suspected incident of fraud or theft should be reported immediately to your supervisor or department head for investigation.

The obligation of Atlantic Power Personnel to protect the assets of the Atlantic Power Entities includes the Atlantic Power Entities' proprietary information. Proprietary information includes any information that is not known generally to the public or would be helpful to competitors of any of the Atlantic Power Entities. Examples of proprietary information include intellectual property (such as trade secrets, patents, trademarks and copyrights), business, marketing and service plans, designs, databases, salary information and any unpublished financial data and reports. Unauthorized use or distribution of this information would violate Atlantic Power Entity policy and could be illegal and result in civil or criminal penalties. The obligation to preserve the confidentiality of proprietary information continues even after Atlantic Power Personnel cease to have a relationship with the Atlantic Power Entities.

Atlantic Power Entity assets may never be used for illegal purposes.

## **Competition and Fair Dealing**

The Atlantic Power Entities seek to excel and to outperform any competitors fairly and honestly through superior performance and not through unethical or illegal business practices. Taking proprietary information without the owner's consent, inducing disclosure of that information by past or present employees of other persons or using that information is prohibited. Atlantic Power Personnel should respect the rights of, and deal fairly with, the Atlantic Power Entities' competitors and persons with whom the Atlantic Power Entities have a business relationship. No Atlantic Power Personnel should take unfair advantage of anyone through illegal conduct, manipulation, concealment, abuse of proprietary information, misrepresentation of material facts or any other intentional unfair-dealing practice. Nor should any Atlantic Power Personnel act in a manner that may be anti-competitive under anti-trust laws. Barry Welch, Chief Executive Officer of the Manager, is available to assist Atlantic Power Personnel in determining the application of those laws and to seek the advice of legal counsel where appropriate.

## **Gifts and Entertainment**

Business gifts and entertainment are customary courtesies designed to build goodwill and constructive relationships among business partners. These courtesies may include such things as meals and beverages, tickets to sporting or cultural events, discounts not available to the general public, accommodation and other merchandise or services. In some cultures, they play an important role in business relationships. However, a problem may arise when these courtesies compromise, or appear to compromise, an Atlantic Power Entity's ability to make fair and objective business decisions or to gain an unfair advantage.

Offering or receiving any gift, gratuity or entertainment that might be perceived to unfairly influence a business relationship should be avoided. These guidelines apply at all times and do not change during traditional gift-giving seasons.

No gift or entertainment should ever be offered, given, provided, authorized or accepted by any Atlantic Power Personnel or their family members unless it is not a cash gift, is consistent with customary business practices, is not excessive in value, cannot be construed as a bribe or payoff and does not violate any laws. Strict rules apply when an Atlantic Power Entity does business with governmental agencies and officials (as discussed in more detail below). Atlantic Power Personnel should discuss with their supervisor or department head any gifts or proposed gifts about which they have any questions.

## **Lobbying**

Any contact with government personnel for the purpose of influencing legislation or rule-making, including such activity in connection with marketing or procurement matters, is considered lobbying. Atlantic Power Personnel are responsible for knowing and adhering to all relevant lobbying laws and associated gift laws, if applicable, and for compliance with all reporting requirements. Atlantic Power Personnel must obtain the prior approval of Barry Welch, the Chief Executive Officer of the Manager to lobby or authorize anyone else (for example, a consultant or agent) to lobby on behalf of the Atlantic Power Entities, except when lobbying only involves normal marketing activities and not influencing legislation or rule-making.

## **Payments to Government Personnel**

All Atlantic Power Personnel must comply with all laws prohibiting improper payments to domestic and foreign officials. Other governments have laws regarding business gifts that may be accepted by government personnel. The promise, offer or delivery to an official or employee of various governments of a gift, favour or other gratuity in violation of these laws would not only violate the Atlantic Power Entities' policies but could also be a criminal offence. Illegal payments should not be made to government officials of any country. Barry Welch, Chief Executive Officer of the Manager, can provide guidance to Atlantic Power Personnel in this area.

## **Discrimination and Harassment**

The diversity of Atlantic Power Personnel is a tremendous asset. The Atlantic Power Entities are firmly committed to providing equal opportunity in all aspects of employment and will not tolerate any illegal discrimination or harassment of any kind. Examples include derogatory comments based on racial or ethnic characteristics and unwelcome sexual advances. Violence and threatening behavior are not permitted. Atlantic Power Personnel are encouraged to speak with Barry Welch, Chief Executive Officer of the Manager, when a co-worker's conduct makes them uncomfortable and to report harassment when it occurs.

## **Health and Safety**

The Atlantic Power Entities strive to provide all Atlantic Power Personnel with a safe and healthy work environment. All Atlantic Power Personnel have responsibility for maintaining a safe and healthy workplace by following safety and health rules and practices and reporting accidents, injuries and unsafe equipment, practices or conditions to a supervisor or department head. Being under the influence, and the possession, of illegal drugs in the workplace will not be tolerated. Atlantic Power Personnel should report to work in condition to perform their duties, free from the influence of illegal drugs or alcohol.

## **Accuracy of Records and Reporting**

The Atlantic Power Entities require honest and accurate recording and reporting of information to make responsible business decisions. Each Atlantic Power Entity accounting records are relied upon to produce reports for management, directors, managers, security holders, governmental agencies and persons with whom the applicable Atlantic Power Entity does business. All of each Atlantic Power Entity's financial statements and the books, records and accounts on which they are based must appropriately reflect such Atlantic Power Entity's activities and conform to applicable legal, accounting and auditing requirements and to the Atlantic Power Entity's system of internal controls. Unrecorded or "off the books" funds or assets should not be maintained unless required by applicable law or regulation.

All Atlantic Power Personnel have a responsibility, within the scope of their positions, to ensure that each Atlantic Power Entity's accounting records do not contain any false or intentionally misleading entries. The Atlantic Power Entities do not permit intentional misclassification of transactions as to accounts, departments or accounting records. All transactions must be supported by accurate documentation in reasonable detail and recorded in the proper accounts and in the proper accounting period.

Many Atlantic Power Personnel use business expense accounts, which must be documented and recorded accurately. If Atlantic Power Personnel are not sure whether a certain expense is legitimate, a supervisor or department head can provide advice. General rules and guidelines are available from Barry Welch, Chief Executive Officer of the Manager.

Business records and communications often become public through legal or regulatory proceedings or the media. Atlantic Power Personnel should avoid exaggeration, derogatory remarks, guesswork or inappropriate characterizations that can be misunderstood. This requirement applies equally to communications of all kinds, including e-mail, informal notes, internal memos and formal reports.

## **Use of E-Mail and Internet Services**

E-Mail and internet services are provided to assist Atlantic Power Personnel in carrying out their work only. Atlantic Power Personnel may not access, send or download any information that could be insulting or offensive to another person, such as sexually explicit messages, cartoons or jokes; unwelcome propositions; derogatory messages based on racial or ethnic characteristics; or any other message that could reasonably be viewed as harassment. Flooding the Atlantic Power Entities' web-based system with junk mail and trivia hampers the ability of the system to handle legitimate business and is prohibited.

Messages (including voicemail) and computer information sent, received or created by Atlantic Power Personnel are considered property of the Atlantic Power Entities and Atlantic Power Personnel should realize that these messages and information are not "private". Unless prohibited by law, the Atlantic Power Entities reserve the right to access and disclose those messages and information as necessary for business purposes. Atlantic Power Personnel should use good judgment and not access, send messages, or store any information that they would not want to be seen or heard by others.

## **WAIVERS OF THE CODE**

Any waiver of this Code for directors, managers or executive officers may be made only by the directors (or a committee of the board of directors to whom that authority has been delegated) and will be promptly disclosed as required by law or stock exchange regulation.

## **REPORTING ANY ILLEGAL OR UNETHICAL BEHAVIOR**

Each of the Atlantic Power Entities has a strong commitment to the conduct of its business in a lawful and ethical manner. Atlantic Power Personnel are encouraged to talk to supervisors, managers or other appropriate personnel about observed illegal or unethical behavior and when in doubt about the best course of action in a particular situation. It is the policy of the Atlantic Power Entities not to allow retaliation for reports of misconduct by others made in good faith. It is, at the same time, unacceptable to file a report knowing that it is false. All Atlantic Power Personnel are expected to cooperate in internal investigations of misconduct.

## COMPLIANCE PROCEDURES

All Atlantic Power Personnel must work to ensure prompt and consistent action against violations of this Code. However, in some situations it is difficult to know right from wrong. Since we cannot anticipate every situation that will arise, it is important that the Atlantic Power Entities have a way to approach a new question or problem. These are the steps to keep in mind:

- Make sure you have all the facts. In order to reach the right solutions, we must be as fully informed as possible.
- Ask yourself: What specifically am I being asked to do? Does it seem unethical or improper? This will help you to focus on the specific question you are faced with and the alternatives you have. Use your judgement and common sense - if something seems like it might possibly be unethical or improper, it probably is.
- Clarify your responsibility and role. In most situations, there is shared responsibility. Are your colleagues informed? It may help to get others involved and discuss the problem.
- Discuss the problem with your manager. This is the basic guidance for all situations. In many cases, your manager will be more knowledgeable about the question and will appreciate being brought into the decision-making process. Remember that it is your manager's responsibility to help solve problems.
- Seek help from company resources. In the rare case where it may not be appropriate to discuss an issue with your manager, or where you do not feel comfortable approaching your manager with your question, discuss it locally with your "two-up". If that is not appropriate for any reason, contact Barry Welch, Chief Executive Officer of the Manager.
- You may report ethical violations in confidence and without fear of retaliation. If your situation requires that your identity be kept secret, your anonymity will be protected. The Atlantic Power Entities do not permit retaliation of any kind against employees for good faith reports of ethical violations.
- Always ask first, act later: If you are unsure of what to do in any situation, seek guidance before you act.

## AUDITORS' REPORT TO THE SHAREHOLDERS

We have audited the consolidated balance sheets of Atlantic Power Corporation as at December 31, 2006 and 2005 and the consolidated statements of operations and deficit and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2006 and 2005 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

---

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004 and continued in the Province of British Columbia on July 8, 2005. The Company issued income-participating securities ("IPSs") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

The Company formed Atlantic Power Holdings, LLC ("Atlantic Holdings"), a Delaware limited liability company, for the purpose of acquiring indirect interests in 15 projects from Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC (the "Existing Investors") and acquired the interests of the Existing Investors in these projects that were held by their wholly owned subsidiaries.

The Company currently owns indirect interests in 15 power generation projects and one transmission line located primarily in the United States of America (collectively, the "Projects"). Three of the Projects are wholly owned subsidiaries of the Company, being Onondaga Cogeneration Limited Partnership ("Onondaga"), Lake Cogen Ltd. and Atlantic Holdings Path 15, LLC ("Path 15").

## 1. Significant accounting policies:

### (a) Basis of consolidation:

The consolidated financial statements of the Company are prepared in accordance with Canadian generally accepted accounting principles and include the consolidated accounts of all of its subsidiaries. The Company applies the equity method of accounting for investments in which it has significant influence but does not control. The Company proportionately consolidates investments in which it has joint control. The Company eliminates intercompany accounts and transactions.

### (b) Cash and cash equivalents:

Cash and cash equivalents include cash deposited at banks and highly liquid investments with original maturities of three months or less.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

---

## 1. Significant accounting policies (continued):

### (c) Restricted cash:

Restricted cash represents cash and short-term investments that are maintained by the Projects to support payments for major maintenance costs and meet project-level contractual debt obligations. In addition, at December 31, 2006, \$74,433 of restricted cash represents amounts held in escrow for the February 2007 transaction in which the Company acquired all of the remaining interests in Atlantic Holdings from the Existing Investors.

### (d) Property, plant and equipment:

Property, plant and equipment are stated at cost, net of accumulated depreciation. Depreciation is provided on a straight-line basis over the estimated useful life of the related asset. The useful lives for facilities range from 3 to 33 years. The weighted average useful life is 23 years.

### (e) Transmission system rights:

Transmission system rights are an intangible asset that represents the long-term right to approximately 72% of the capacity of the Path 15 transmission line in California (note 2(a)). Transmission system rights are amortized on a straight-line basis over 30 years, the regulatory life of the project.

### (f) Goodwill:

Goodwill is the residual amount that results when the purchase price of an acquired business exceeds the sum of the amounts allocated to the assets acquired, less liabilities assumed, based on their fair values. Goodwill is allocated, as of the date of the business combination, to the Company's reporting units that are expected to benefit from the synergies of the business combination.

Goodwill is not amortized and is tested for impairment annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test is carried out in two steps. In the first step, the carrying amount of the reporting unit is compared with its fair value. When the fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not to be impaired and the second step of the impairment test is unnecessary.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

---

## 1. Significant accounting policies (continued):

The second step is carried out when the carrying amount of a reporting unit exceeds its fair value, in which case, the implied fair value of the reporting unit's goodwill is compared with its carrying amount to measure the amount of the impairment loss, if any. The implied fair value of goodwill is determined in the same manner as the value of goodwill is determined in a business combination described in the preceding paragraph using the fair value of the reporting unit as if it was the purchase price. When the carrying amount of reporting unit goodwill exceeds the implied fair value of the goodwill, an impairment loss is recognized in an amount equal to the excess and is presented as a separate line item in the consolidated statement of operations before extraordinary items and discontinued operations.

### (g) Other intangible assets:

Other intangible assets include power purchase contracts and fuel supply agreements.

Power purchase contracts are valued at the time of acquisition based on the rates received under the power purchase contracts relative to projected market rates. The balances are presented net of accumulated amortization. Amortization is recorded on a straight-line basis over the remaining term of the contract. The amortization period ranges from 1 to 19 years. The weighted average period of amortization is 10 years.

Fuel supply agreements are valued at the time of acquisition based on the rates projected to be paid under the fuel supply agreement relative to projected market rates. The amortization period ranges from 4 to 18 years. The weighted average period of amortization is 10 years.

### (h) Revenue recognition:

Generally, the Company recognizes energy sales revenue when electricity and steam are delivered under the terms of the related contracts. If the power purchase contract contains capacity payments that fluctuate over the term of the contract then the Company recognizes revenue based on the estimated average rate for the duration of the contract with the difference between cash received and revenue recognized reflected as deferred revenue.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

---

## 1. Significant accounting policies (continued):

Transmission services revenue is recognized as transmission services are provided. The annual revenue requirement for transmission services is regulated by the Federal Energy Regulatory Commission ("FERC") and is established through a rate-making process that occurs every three years. When actual cash receipts from transmission services revenue are different than the regulated revenue requirement because of timing differences, the over or under collections are deferred until the timing differences reverse in future periods.

Onondaga recognizes revenue as the swap agreements it has entered settle monthly, net of any change in fair value on these swap agreements (note 15).

### (i) Income taxes:

Income taxes are accounted for using the asset and liability method. Future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in income in the year that includes the date of enactment or substantive enactment.

A valuation allowance is recorded against future tax assets to the extent that it is more likely than not that the future tax asset will not be realized.

### (j) Gas transportation contract liability:

Onondaga has certain long-term commitments for the provision of natural gas transportation service to the Onondaga project through the year 2013. The contracts provide for fixed monthly demand charges, in addition to variable commodity charges based on the quantity of gas transported. Obligations related to the long-term gas transportation agreements were recognized as liabilities in purchase accounting upon the acquisition of Onondaga by the Company. These obligations are being amortized over the remaining lives of the contracts.

All of the Company's other gas transportation costs are expensed as incurred.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

---

## 1. Significant accounting policies (continued):

### (k) Accounting for derivatives

The Company uses financial derivative agreements in the form of interest rate swaps and foreign exchange forward contracts to manage its current and anticipated exposure to fluctuations in interest rates and foreign currency exchange rates. On occasion, the Company has also entered into natural gas supply contracts and natural gas forwards or swaps to minimize the effects of the price volatility of natural gas which is a major production cost. The Company does not enter into financial derivative agreements for trading or speculative purposes; however, not all derivatives qualify for hedge accounting.

Derivative financial instruments not designated as a hedge are measured at fair value with changes in fair value recorded in the consolidated statements of operations and deficit. Derivative financial instruments not designated as hedges are the foreign currency forward contracts, the indexed swap and the indexed swap hedge agreements and certain interest rate swaps. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange loss, indexed swap and indexed swap hedge agreements are netted and reflected as indexed swap under project revenue and adjustments of interest rate swaps are reflected in project interest expense in the consolidated statements of operations and deficit.

Effectiveness tests are performed to evaluate hedge effectiveness at inception and on an ongoing basis, both retroactively and prospectively. Unrealized gains or losses on the interest rate swaps designated within a designated hedging relationship are not recognized.

Gains and losses on natural gas forward contracts and swaps which are designated as a hedge of fuel costs are recognized in income as actual fuel costs are recognized.

Natural gas supply contracts in the normal course of business in which the Company takes possession of the natural gas are treated as executory contracts.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

---

## 1. Significant accounting policies (continued):

### (l) Asset retirement obligations:

The fair value of estimated asset retirement obligations is recognized in the consolidated balance sheets when identified and a reasonable estimate of fair value can be made. The asset retirement cost, equal to the estimated fair value of the asset retirement obligation, is capitalized as part of the cost of the related long-lived asset. The asset retirement costs are depreciated over the asset's estimated useful life and included in depreciation expense on the consolidated statements of operations and deficit. Increases in the asset retirement obligation resulting from the passage of time are recorded as accretion of asset retirement obligation in the consolidated statements of operations and deficit. Actual expenditures incurred are charged against the accumulated obligation.

### (m) Impairment of long-lived assets:

Long-lived assets, such as property, plant and equipment, transmission system rights and other intangible assets subject to depreciation and amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset.

### (n) Deferred financing costs:

Deferred financing costs consist of loan fees and other costs of financing that are amortized over the term of the related financing using the straight-line method. The amortization period is the term of the debt.

### (o) Foreign currency translation:

The Company's functional currency and reporting currency is the United States dollar. The functional currency of the Company's subsidiaries and other investments is the United States dollar. Monetary assets and liabilities denominated in Canadian dollars are translated into United States dollars using the rate of exchange in effect at the end of the year. All transactions denominated in Canadian dollars are translated into United States dollars at the exchange rates in effect at the transaction date. Foreign currency translation gains and losses are reflected in the consolidated statements of operations and deficit.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

---

## 1. Significant accounting policies (continued):

### (p) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Actual results could differ from those estimates. During the periods presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property, plant and equipment and power purchase contracts, the recoverability of equity investments, the recoverability of future tax assets, and the fair value of financial instruments and derivatives. These estimates and valuation assumptions are based on present conditions and management's planned course of action, as well as assumptions about future business and economic conditions. Should the underlying valuation assumptions and estimates change, the recorded amounts could change by a material amount.

## 2. Acquisitions:

### (a) Path 15 acquisition:

On June 29, 2006, Atlantic Holdings agreed to indirectly acquire 100% of Trans-Elect NTD Holdings Path 15, LLC, which owns approximately 72% of the transmission system rights in the Path 15 transmission project (the "Path 15 Project") located in California. Subsequent to the acquisition, management changed the name of Trans-Elect NTD Holdings Path 15, LLC to Atlantic Holdings Path 15, LLC.

The acquisition of Path 15 closed on September 15, 2006 and was financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. Loans under the Acquisition Credit Facility bear interest at a rate equal to Eurodollar rate or a U.S. base rate, plus an applicable margin to those rates. The Acquisition Credit Facility is secured by pledges of assets in certain wholly owned and other investment companies of the Company. As of December 31, 2006, the applicable rate, including margin, is 7.33% on the loan outstanding on the Acquisition Credit Facility. The Acquisition Credit Facility is included in current portion of long-term debt and short-term debt in the consolidated balance sheet and had an outstanding balance of \$31 million at December 31, 2006. The remaining outstanding balance was paid in March 2007 using funds drawn from the Company's revolving credit facility.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 2. Acquisitions (continued):

At the time of the acquisition, ratemaking issues related to the Path 15 Project were under FERC review, the outcome of which would determine the annual regulated revenues to be earned by Path 15 and any potential refund obligation associated with past revenue collections. Given the potential impact of the ruling on the cash flows of Path 15, the Company negotiated certain purchase price adjustments in the purchase and sale agreement in the event of an adverse outcome on two of these issues. Specifically, \$24,100 of the purchase price was deposited into escrow pending the FERC's final determination of these two ratemaking issues.

In the fourth quarter of 2006, the FERC issued its final order in the ratemaking issues. The result of the decision by FERC is an annual reduction in regulated revenues of approximately \$1,000 per year and a refund of previously collected revenues of approximately \$3,900. As a result, approximately \$9,573 of the amount deposited in escrow was returned to the Company and the remaining balance in escrow was remitted to the selling parties. With the FERC matters resolved, the purchase price is now final and management has completed its determination of the fair value of the assets and liabilities acquired as follows:

	Preliminary purchase equation	Adjustments	Revised purchase equation
Working capital	\$ 14,653	\$ (2,172)	\$ 12,481
Transmission system rights	217,578	3,385	220,963
Goodwill	32,412	(24,980)	7,432
Other long-term assets	738	-	738
Future tax liability	(20,463)	8,413	(12,050)
Long-term debt (excluding current portion)	(156,918)	5,781	(151,137)
Total purchase price	88,000	(9,573)	78,427
Less cash acquired	8,105	4,579	12,684
Cash paid, net of cash acquired	\$ 79,895	\$ (14,152)	\$ 65,743

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 2. Acquisitions (continued):

### (b) Epsilon Power Partners, L.L.C acquisition:

On September 8, 2005, the Company acquired Epsilon Power Partners, LLC ("Epsilon") for cash consideration of \$65,008, including acquisition costs of \$564. Epsilon owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of a 262 megawatt pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's Chambers Works complex in southwestern New Jersey.

During the quarter ended September 30, 2006, determination of the fair value of the power purchase and other contracts was finalized. The purchase price allocation has been adjusted as follows:

	Preliminary purchase equation	Adjustments	Revised purchase equation
Working capital	\$ 9,541	\$ —	\$ 9,541
Property, plant and equipment	142,817	—	142,817
Power purchase and other contracts	87,258	(71,726)	15,532
Goodwill	—	71,726	71,726
Other liabilities	(7,766)	—	(7,766)

Less cash acquired	1,617	—	1,617
Cash paid, net of cash acquired	\$ 63,391	\$ —	\$ 63,391

### (c) Project acquisition:

During the year ended December 31, 2005, Atlantic Holdings increased its interest in one of its existing Projects. The fair value of the interest acquired by the Company was \$1,074 and was financed by cash consideration at the project level.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 3. Joint venture investments (continued):

	Company's share	
	2006	2005
Operating results:		
Revenue	\$ 173,484	\$ 126,989
Net income	19,848	9,231
Distributions paid to the Company	\$ 31,056	\$ 19,107

## 4. Property, plant and equipment:

	2006	2005
Cost	\$ 450,923	\$ 447,595
Less accumulated depreciation	39,743	19,116
	\$ 411,180	\$ 428,479

Depreciation of \$20,627 (2005 - \$16,886) was expensed during the year.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 5. Equity investments:

The Company has an investment in five entities accounted for under the equity method. The entities are Delta-Person Limited Partnership, Gregory Power Partners LP, Jamaica Private Power Limited Company, Rumford Cogeneration Company LP ("Rumford") and Selkirk Cogen Partners LP. The Company owns its interests in Gregory Power Partners LP and a portion of its interest in Rumford through Javelin Energy LLC. On December 28, 2005, the Company sold its interest in MASSPOWER for proceeds of \$59,365, realizing a gain on disposition of \$5,015. An analysis of the investment is presented below:

	2006	2005
Equity investments, beginning of year (note 2)	\$ 78,335	\$ 139,696
Adjustment to purchase price allocations (note 2)	-	467
Disposal of equity investment	-	(54,350)
Equity earnings, net	10,438	8,446
Distributions received	(11,800)	(15,924)
<b>Equity investments, end of year</b>	<b>\$ 76,973</b>	<b>\$ 78,335</b>

The fair value increment on acquisition of the investments has been allocated to property, plant and equipment and other intangible assets.

## 6. Other intangible assets and transmission system rights:

Other intangible assets include, power purchase agreements, fuel supply agreement and licenses and rights. Transmission system rights represent the long-term right to approximately 72% of the capacity of the Path 15 transmission line.

	2006	2005
Transmission system rights	\$ 220,963	\$ -
Power purchase agreements	110,403	110,403
Fuel supply agreements	13,644	14,832
Licenses and rights	-	70,538
	345,010	195,773
Less accumulated amortization	40,890	21,096
	<b>\$ 304,120</b>	<b>\$ 174,677</b>

Amortization of \$19,794 (2005 - \$19,670) was expensed during the year.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 7. Credit facility:

The Company has a \$75,000 revolving credit facility maturing November 18, 2008, which bears interest at a rate equal to LIBOR or U.S. Base Rate, plus an applicable margin to those rates. At December 31, 2006, nil (2005 - \$10,000) was drawn and an additional \$13,465 (2005 - \$15,061) was allocated, but not drawn to support letters of credit. The Company has to meet certain financial covenants. The facility is secured by pledges of assets and interests in certain subsidiaries. In March 2007, the Company borrowed \$31,000 under the credit facility and used the proceeds to repay the Acquisition Credit Facility related to the acquisition of Path 15.

## 8. Long-term debt:

	2006	2005
Project debt, interest rates ranging from 3.25% to 9.5%, maturing between 2007 and 2022	\$ 414,374	\$ 246,040
Less current portion of project debt	86,168	21,558
	<u>\$ 328,206</u>	<u>\$ 224,482</u>

The amount presented in long-term debt above excludes the net unamortized purchase price adjustment of \$14,207.

Principal payments due under the terms of short-term and long-term debt in the next five years and thereafter are as follows:

2007	\$ 86,168
2008	30,018
2009	21,412
2010	21,800
2011	23,085
Thereafter	231,891
	<u>\$ 414,374</u>

The Project debt of joint ventures is secured by the respective facility and its contracts with no other recourse to the Company. The loans have certain financial covenants which must be met. All of the debt in the table above is represented by non-recourse debt of joint ventures, except for the \$31,000 outstanding balance on the Acquisition Credit Facility (note 2(a)).

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 8. Long-term debt (continued):

Long-term debt represents the Company's consolidated and proportionately consolidated share of Project long-term debt related to the fair value of debt assumed the Path 15 acquisition. Project debt is non-recourse to the Company and amortizes during the term of the respective revenue generating contracts of the Projects.

## 9. Subordinated Notes:

	2006	2005
Subordinated Notes (Cdn. \$392,553; 2005 - Cdn. \$292,207)	\$ 336,840	\$ 251,844

The Company issued \$176,560 of 11% Subordinated Notes in conjunction with its initial public offering of IPSs (note 11) and \$30,367 of 11% Subordinated Notes separately.

Since the initial public offering, the Company has completed the following additional issuances of 11% Subordinated Notes:

Date	Amount issued	Premium (discount)	Net proceeds
October 2005 <sup>(1)</sup>	\$ 37,125	\$ 605	\$ 37,730
October 2006 <sup>(1)</sup>	43,278	(878)	42,400
December 2006 <sup>(1)</sup>	42,926	(871)	42,055
December 2006 <sup>(2)</sup>	2,597	(53)	2,544

<sup>(1)</sup> Issuance made in connection with IPS offering.

<sup>(2)</sup> Issuance of 11% Subordinated Notes separate from IPSs.

The Subordinated Notes will mature in 2016 subject to redemption under specified conditions at the option of the Company, commencing on or after November 18, 2009. Interest is payable monthly in arrears and the principal repayment will occur at maturity. The Subordinated Notes are denominated in Canadian dollars and are secured by a subordinated pledge of the Company's interest in Atlantic Holdings and certain subsidiaries, and contain certain restrictive covenants.

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 10. Convertible debentures:

On October 11, 2006, the Company closed the sale of Cdn. \$60,000 aggregate principal amount of convertible secured debentures ("Debentures") for gross proceeds of \$52,780. The Debentures pay interest semi-annually on April 30 and October 31 of each year, commencing on April 30, 2007. The Debentures mature on October 31, 2011 and are convertible into approximately 80.6452 IPSs per Cdn. \$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn. \$12.40 per IPS. The Debentures are listed on the Toronto Stock Exchange under the symbol ATP.DB.

## 11. Non-controlling interest liability:

In connection with the Company's initial public offering, the Existing Investors acquired the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest for a two-year period from November 18, 2004. The repurchase of the Existing Investors' interests is conditional upon Atlantic Holdings being able, after utilizing its best efforts, to complete or cause the completion of an equity financing on terms acceptable to the managers of Atlantic Holdings who are independent of the Existing Investors and their affiliates, acting reasonably, to secure the necessary funds to enable it to purchase the Existing Investors' interests. Atlantic Holdings may only finance repurchases of Existing Investors' interests pursuant to the exercise of the rights by issuing additional equity securities. This may occur through the sale of equity interests to the Company, the purchase of which by the Company may be financed by a sale of IPSs or other equity or debt securities of the Company. This liquidity right is treated as a liability of the Company and is recorded at fair value on the consolidated balance sheets. Any change in the non-controlling interest liability is recognized in the consolidated statements of operations and deficit as a change in non-controlling interest liability.

The Existing Investors have exercised the liquidity right in a series of transactions since the initial public offering through February 2007 as follows:

Date	Amount paid to Existing Investors	Incremental share <sup>(i)</sup>
October 2005	\$ 64,374	12.0%
October 2006	87,287	15.5%
February 2007	76,888	14.4%

<sup>(i)</sup> Represents incremental portion of Atlantic Holdings purchased by the Company from the Existing Investors in the transaction.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 11. Non-controlling interest liability (continued):

The amounts paid to the Existing Investors in the transactions above were financed by the Company through the sale of IPSs and Debentures.

## 12. Common stock:

	Number of shares (000's)	Amount
Balance, December 31, 2004	36,800	\$ 121,381
Issuance of common stock	7,539	26,644
Balance, December 31, 2005	44,339	148,025
Issuance of common stock	8,531	36,232
Private placement of common stock	8,600	32,378
Balance, December 31, 2006	61,470	\$ 216,635

The Company issued 32,000,000 IPSs for cash pursuant to its initial public offering on November 18, 2004 and a further 4,800,000 IPSs on December 6, 2004. Each IPS was issued for Cdn. \$10.00. Each IPS consists of one common share of the Company and Cdn. \$5.767 of aggregate principal amount of 11% Subordinated Notes of the Company (note 9). Proceeds of \$121,381 (net of offering costs of \$7,593) were allocated to common stock.

On October 3, 2005, the Company issued 7,539,000 IPSs at a rate of Cdn. \$10.00 per IPS to Caisse de depot et placement du Quebec and certain officers of the Company in a secondary private placement. Proceeds of \$26,644 (net of offering costs of \$64) were allocated to common stock.

On October 6, 2006, the Company issued 8,531,000 IPSs at a rate of Cdn. \$10.55 per IPS. Proceeds of \$36,232, net of offering costs, were allocated to common stock.

On December 21, 2006, the Company issued 8,600,000 IPSs at a rate of Cdn. \$10.00 per IPS to Caisse de Depot et placement du Quebec and two other institutional investors. Proceeds of \$32,378, net of estimated offering costs, were allocated to common stock.

## 13. Income taxes:

	2006	2005
Current income tax expense	\$ 577	\$ 8,959
Future income tax benefit	-	(6,420)
	<u>\$ 577</u>	<u>\$ 2,539</u>

The following is a reconciliation of income taxes calculated at the Canadian enacted statutory rate of 36.12% (2005 - 36.12%) to the provision for income taxes in the consolidated statements of operations and deficit:

	2006	2005
Computed income tax expense (recovery) at Canadian statutory rate	\$ (662)	\$ 733
Increase (decrease) resulting from:		
Operating in countries with different income tax rates	(65)	58
	<u>(727)</u>	<u>791</u>
Valuation allowance	10,103	21,547
	<u>9,376</u>	<u>22,338</u>
Non-taxable foreign-source income	(466)	(904)
Permanent differences	5,287	-
Canadian loss carryforwards	(10,735)	(12,996)
Branch profits tax	546	739
Prior year true-up	(3,588)	(6,420)
Other	157	(218)
	<u>(8,799)</u>	<u>(19,799)</u>
Income tax expense	<u>\$ 577</u>	<u>\$ 2,539</u>

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 13. Income taxes (continued):

The tax effect of temporary differences that give rise to significant portions of the future tax assets and future tax liabilities as of December 31, 2006 is presented below:

	2006	2005
<b>Future tax assets:</b>		
Intangible assets	\$ 57,697	\$ 8,849
Loss carryforwards	23,594	12,996
Gas transportation contract and other accrued liabilities	16,090	13,321
Unrealized foreign exchange loss on Subordinated Notes	570	3,427
IPS issuance costs	4,372	-
Other	744	2,702
<b>Total future tax assets</b>	<b>103,067</b>	<b>41,295</b>
Valuation allowance	(61,602)	(21,904)
	41,465	19,391
<b>Future tax liabilities:</b>		
Property plant and equipment	57,012	15,682
IPS issuance costs	-	-
Unrealized foreign exchange gain	1,554	2,858
Other	-	851
<b>Total future tax liabilities</b>	<b>58,566</b>	<b>19,391</b>
<b>Net future tax liability</b>	<b>\$ (17,101)</b>	<b>\$ -</b>

As of December 31, 2006, the Company has the following net operating loss carryforwards that are scheduled to expire in the following years:

2014	\$ 5,504
2015	30,476
2026	28,144
	<b>\$ 64,124</b>

These losses relate to the Canadian entity and may only be used to offset the future income of the Canadian entity for Canadian income tax purposes. A full valuation allowance was taken against the future tax assets set up in respect of the Canadian entity's loss carryforwards as the Company believes that it is not more likely than not that the Canadian entity would be able to use any of these loss carryforwards.

---

## 14. Commitments and contingencies:

- (a) From time to time, the Company and its subsidiaries and the Projects are parties to disputes and litigation that arise in the normal course of business. The Company assesses its exposure to these matters and records estimated loss contingencies when a loss is likely and can be reasonably estimated. There are no matters pending as of December 31, 2006 which are expected to have a material impact on the Company's financial position or results of operations.
- (i) The Chambers partnership, in which Atlantic Holdings owns a 40% indirect interest, filed suit against its coal supplier, Consol Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers was seeking, among other things, (a) a declaratory judgment regarding the terms of the agreement, (b) damages for missed deliveries, and (c) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier had asserted affirmative defenses and counterclaims in its answer. In the third quarter of 2006, a settlement agreement was reached, subject to final documentation. The terms of the proposed settlement do not have a material impact to the financial position or results of operations of the project.
- (ii) Rumford purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague had disputed terms and compensation for certain terminal services provided by Sprague and Massey had asserted that Rumford also had failed to pay certain amounts due under the coal supply agreement. In the third quarter of 2006, the dispute was settled for an amount that was not material to the project.
- (b) Certain projects have long-term contracts for supply and transportation of fuel. The contracts may have minimum volumetric commitments of delivery, but these obligations are non-recourse to the Company.
- (c) Certain projects provide letters of credit ("LOCs") to power purchase agreement buyers for contingent project obligations. The Company's aggregate share of these LOCs was \$13,465 at December 31, 2006 (2005 - \$15,061) supported by the Company's revolving credit facility.

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 15. Indexed swap:

A swap agreement (the "Indexed Swap") between the power utility and Onondaga has replaced the Projects' original power purchase contract. The Indexed Swap expires on June 30, 2008. The Indexed Swap is a financial instrument under which the utility company makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full term of the Indexed Swap.

In May 2004, Onondaga contributed the Indexed Swap to a newly formed wholly owned special purpose subsidiary, Onondaga Power Swap Holdings, LLC ("OPSH"). Onondaga has guaranteed OPSH's obligations to the utility company under the Indexed Swap. Also in May 2004, OPSH entered into commodity hedges (the "Indexed Swap Hedge"), in order to lock in favourable gas, power and capacity pricing under the Indexed Swap. The hedges extend through June 30, 2008 and remove almost all commodity exposure from the Indexed Swap through its term.

Changes related to the Indexed Swap are summarized below:

	2006	2005
Fair value, as of December 31, 2005	\$ 107,914	\$ 99,591
Increase (decrease) in fair value	(25,432)	46,818
Settlements received	(32,358)	(38,495)
<b>Fair value, as of December 31, 2006</b>	<b>\$ 50,124</b>	<b>\$ 107,914</b>

Changes related to the Indexed Swap Hedge:

	2006	2005
Fair value, as of December 31, 2005	\$ (58,547)	\$ (30,293)
Decrease (increase) in fair value	29,941	(40,479)
Settlements received	9,617	12,225
<b>Fair value, as of December 31, 2006</b>	<b>\$ (18,989)</b>	<b>\$ (58,547)</b>

Years ended December 31, 2006 and 2005

---

## 16. Related party transactions:

The Company has contracted with Atlantic Power Management, LLC (the "Manager"), a company owned by certain entities that form part of the non-controlling interest (note 11), for management services, including business planning, asset management, acquisitions, financial reporting and general management services. The Manager receives an annual management fee of \$340, cost reimbursements and an incentive fee equal to approximately 25% of aggregate cash distributions in excess of Cdn. \$1.00 per IPS and existing investor interest. In 2006, the Manager was paid \$3,899 (2005 - \$2,989).

The Company has engaged Caithness Energy, a company affiliated with the non-controlling interest to provide operations and maintenance at four of the Projects and accounting, taxes and other administrative functions for certain of the Projects. In 2006, Caithness Energy was paid \$2,750 (2005 - \$2,750).

## 17. Fair values of financial instruments:

The fair values of cash and cash equivalents, restricted cash, accounts receivable, dividends payable and accounts payable and accrued liabilities approximate carrying values due to the short-term nature of these balances.

The Indexed Swap and Hedge agreements (note 15) are recorded at their estimated fair value based on estimated future cash flows taking into account certain assumptions, including forecasts of future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair value of this agreement.

The non-controlling interests are carried at estimated fair value. Prior to December 31, 2006, fair value was estimated based on the number of IPSs that would be issued to extinguish the liability multiplied by the market price of the IPS at the end of the period. At December 31, 2006, the fair value was estimated as the actual amount paid to the Existing Investors in February 2007 to extinguish the liability.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 17. Fair values of financial instruments (continued):

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value.

The fair value of long-term debt approximates its carrying value based on discounting of cash flows at current market rates.

The fair value of derivative financial instruments is as follows:

	Fair value		Carrying value	
	2006	2005	2006	2005
Indexed swap	\$ 50,124	\$ 107,914	\$ 50,124	\$ 107,914
Indexed swap hedge	(18,989)	(58,547)	(18,989)	(58,547)
Forward foreign currency contract <sup>(i)</sup>	3,886	10,212	3,886	1,827
Interest rate swap liabilities <sup>(i), (ii)</sup>	(4,402)	(6,171)	(4,402)	(6,171)
Natural gas swap assets <sup>(i), (ii)</sup>	—	3,183	—	—

<sup>(i)</sup> represents the Company's proportionate share of joint venture investments.

<sup>(ii)</sup> included in other assets on the consolidated balance sheets.

<sup>(iii)</sup> included in other liabilities on the consolidated balance sheets.

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates, as the Company earns its income principally in the United States and has the obligation to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has executed this strategy by entering into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn. \$1.06 per IPS to all holders including the Existing Investors, as well as interest payments on the Subordinated Notes.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

## 17. Fair values of financial instruments (continued):

The following table summarizes the Company's forward foreign currency contracts with monthly settlement terms as of December 31, 2006:

Date	Notional monthly amounts		Average rate
	Sell U.S. dollars	Buy Canadian dollars	
Current - 2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

In addition to the forward contracts in the table on the previous page that settle on a monthly basis, the Company has executed forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make semi-annual payments on the Debentures. The contracts provide for the purchase of Cdn. \$2.1 million and Cdn. \$1.9 million in April 2007 and October 2007, respectively, at a rate of 1.1240 Canadian dollars per U.S. dollar and the purchase of Cdn. \$1.9 million in April and in October of 2008 through 2011 at a rate of 1.1075 Canadian dollars per U.S. dollar.

## 18. Basic and diluted loss per share:

Basic loss per share has been calculated using the weighted average number of units outstanding during the year of 46,398,368 (2005 - 38,659,055).

Diluted loss per share is computed by assuming that the Debentures are converted into 4,838,712 IPSs for the period during 2006 when the Debentures were outstanding.

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Years ended December 31, 2006 and 2005

---

## 19. Segmented information:

The Company owns investments in 15 projects in the United States, as well as one project in Jamaica which is accounted for using the equity method.

The Company has one line of business being the investment in projects engaged in the business of generating and transmitting electricity.

Revenue is earned primarily from contracts with large investor-owned utilities. Two investment grade utilities contributed more than 10% of revenue in each of the years ended December 31, 2006 and 2005 as follows:

	Percent of total revenue	
	2006	2005
Utility A	47%	58%
Utility B	17%	20%

## 20. Comparative figures:

Certain 2005 figures have been reclassified to conform with the financial statement presentation adopted in 2006

FORM 13-502F1  
CLASS 1 REPORTING ISSUERS – PARTICIPATION FEE

Reporting Issuer Name: Atlantic Power Corporation  
Financial Year Ending used to calculate capitalization: December 31, 2006

Market value of listed or quoted securities: 61,470,500  
Total number of securities of a class or series outstanding as at the issuer's most recent financial year end (i) \_\_\_\_\_

**Form 52-109F1 - Certification of Annual Filings**

I, Patrick Welch, Chief Financial Officer of Atlantic Power Management, LLC, the Manager of Atlantic Power Corporation, certify that:

1. I have reviewed the annual filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Atlantic Power Corporation (the issuer) for the period ending on December 31, 2006;
2. Based on my knowledge, the annual filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the annual filings;
3. Based on my knowledge, the annual financial statements together with the other financial information included in the annual filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the annual filings;
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the issuer, and we have:
  - (a) designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the annual filings are being prepared;
  - (b) designed such internal control over financial reporting, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP; and
  - (c) evaluated the effectiveness of the issuer's disclosure controls and procedures as of the end of the period covered by the annual filings and have caused the issuer to disclose in the annual MD&A our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by the annual filings based on such evaluation; and

5. I have caused the issuer to disclose in the annual MD&A any change in the issuer's internal control over financial reporting that occurred during the issuer's most recent interim period that has materially affected, or is reasonably likely to materially affect, the issuer's internal control over financial reporting.

Date: March 28, 2007

**Atlantic Power Corporation**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following management's discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the audited financial statements of Atlantic Power Corporation ("Atlantic Power" or the "Company") for the year ended December 31, 2006. All dollar amounts described in this MD&A are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP").

### **FORWARD LOOKING STATEMENTS**

Certain statements in this MD&A constitute forward-looking statements, which reflect the expectations of the management of Atlantic Power Management, LLC (the "Manager"), the manager of the Company regarding the Projects and the anticipated financial results and operations of the Projects (as defined below). Words such as "will", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect current expectations regarding future events and operating performance. Forward-looking statements involve a variety of significant risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, fuel and electricity prices, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements and should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by which such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed in the "Risk Factors" section in this MD&A and under "Risk Factors" in the Company's annual information form dated March 28, 2007. All forward-looking statements in this MD&A are qualified by these cautionary statements. Except as required by applicable law, the Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Information contained in this MD&A is based on information available to management as of March 28, 2007.

Copies of financial data and other publicly filed documents, including the Company's annual information form, are available through the internet on SEDAR at [www.sedar.com](http://www.sedar.com) under Atlantic Power Corporation.

## OVERVIEW

The Company currently has 61,470,500 income participating securities (“IPs”) and Cdn\$60,000,000 principal amount of 6.25% convertible secured debentures due October 31, 2011 (the “Debentures”) outstanding and owns 100% of the membership interests in Atlantic Power Holdings, LLC (“Holdings”). Holdings was formed initially to acquire indirect interests in a diversified portfolio of power generating facilities located primarily in major markets in the United States from ArcLight Energy Partners Funds I, L.P. (“Fund I”) and ArcLight Energy Partners Funds II, L.P. (“Fund II”, and together with Fund I, the “ArcLight Funds”) and Caithness Energy, LLC (“Caithness”) (together, the “Existing Investors”). Each IPS represents: (1) one common share of the Company (“Common Share”), and (2) Cdn\$5.767 aggregate principal amount of 11.0% subordinated notes of the Company (“Subordinated Notes”). The Debentures were issued on October 11, 2006 and bear interest at an annual rate of 6.25%, payable semi-annually in arrears on April 30 and October 31 of each year commencing on April 30, 2007.

As of December 31, 2006, Holdings owned interests in 14 power generating facilities in the United States and one in Jamaica and a transmission line constructed along the Path 15 transmission corridor located in central California (collectively, the “Projects” and each individually a “Project”). The generating Projects have a combined total power generating capacity of approximately 2,160 megawatts (“MW”). Holdings’ interest in the Projects represented approximately 860 MW of power generating capacity as of December 31, 2006. Most of the generating Projects sell their power under long term power purchase agreements (“PPAs”) to investment grade utilities. These agreements are typically structured to stabilize cash flows by: 1) providing a significant portion of revenues via steady capacity payments generally designed to provide a return of and on capital and to cover fixed costs regardless of how much electricity the plant is called upon to produce, provided that the plant meets an availability requirement, and 2) passing through most of the generating Projects’ fuel costs to the utilities. As a result, variations in the portfolio’s cash flow based on changes in the amount of power generated, spot market electricity prices and fuel price changes are significantly mitigated.

The Path 15 transmission line is a United States Federal Energy Regulatory Commission (“FERC”) regulated asset with a 30-year regulatory life. Its annual revenue requirement is collected by the California Independent System Operator (“CAISO”) from utilities in California without variations from the changes in power prices or line usage and with virtually no technical or operating risks.

The Company’s objectives are to maintain the stability and sustainability of cash distributions to holders of IPs in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares. To achieve these objectives, Company management, working directly with project managers, focuses on enhancing the operation of the existing Projects by improving facility performance, increasing output and efficiency, optimizing contracts and hedging cash flows when practicable. In addition, the Company has a focused growth strategy that includes the consolidation of interests in Projects that it currently owns and making accretive acquisitions with a primary focus on the electric power industry in the United States and Canada.

Management believes that opportunities for accretive acquisitions will be available based on a number of factors, including continued electricity demand growth and the corresponding need for new power plants, increased liquidity in the secondary market for ownership interests in power-related assets and superior access to potential growth transactions through ArcLight and the Manager’s industry contacts. Competition for these opportunities has also increased from private equity funds and other sources.

The most significant economic factors affecting the Company’s performance are changes in interest rates and the currency exchange rates between the U.S. dollar and the Canadian dollar. Most debt at the Projects bears interest at a fixed rate but a small amount does have exposure to variability in interest rates. Substantially all of the Company’s operating cash flow is earned in U.S. dollars and a large portion of the Company’s cash obligations, primarily distributions on IPs and interest payments on the Debentures, are denominated in Canadian dollars. See “Financial and Other Instruments” in this MD&A for more information about these economic risks and the Company’s strategy for managing these risks.

## **NON-GAAP FINANCIAL MEASURES**

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities from the Company's financial statements to Cash Flow Available for Distribution is set out in the "Calculation of Cash Flow Available for Distribution" section in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate unaudited EBITDA at the Projects as a supplementary cash flow measure to provide aggregate annual comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

## **RECENT TRANSACTIONS**

On September 15, 2006, the Company through a subsidiary of Holdings, completed the acquisition of 100% of the equity interests in Path 15 Holdco, which indirectly owns approximately 72% of the transmission system rights in a transmission line constructed along the Path 15 transmission corridor located in central California (the "Path 15 Project"). The Company paid \$78.4 million in cash for the equity interests in Path 15, which has approximately \$145 million in non-recourse debt.

The Path 15 Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point in the state's north-south capacity. The Path 15 Project commenced commercial operations in December 2004.

The revenue stream associated with the Path 15 Project is regulated by the FERC on a cost-of-service rate base methodology, which insulates cash flows from any impacts of power prices or actual line usage. The approved rate base includes all costs that were incurred to construct and finance the transmission line by Trans-Elect NTD Path 15, LLC ("Path 15 Opco"), a wholly-owned subsidiary of Path 15 Holdco. Path 15 Opco earns an allowed rate of return on the approved rate base that is reviewed by the FERC every three years. The rate base is depreciated over 30 years. In addition, all prudently incurred operating and maintenance costs and capital expenditures may be collected in rates charged. The CAISO collects Transmission Access Charges being paid predominantly by the state's investor-owned utilities and passes them to transmission system rights owners, such as Path 15 Opco.

Subsequent to Holdings' acquisition of equity interests in Path 15 Holdco, Trans-Elect NTD Holdings Path 15, LLC was renamed Atlantic Path 15 Holdings, LLC and Trans-Elect NTD Path 15, LLC was renamed Atlantic Path 15, LLC.

The Company also announced on September 15, 2006 that it increased its cash distribution to shareholders by an annual rate of Cdn\$ 0.03 per IPS commencing with the September distribution. Since its Initial Public Offering ("IPO") in November 2004, the Company has increased annualized cash distributions per IPS by 6%.

On October 11, 2006, the Company completed a sale of 8,531,000 IPSs and the Debentures for gross proceeds of Cdn\$150 million. The IPSs were sold at a price of Cdn\$10.55 per IPS for gross proceeds of Cdn\$90 million and Cdn\$60 million aggregate principal amount of the Debentures were issued. The IPSs and Debentures were sold on a bought deal basis to a syndicate of underwriters.

The Debentures pay interest semi-annually on April 30 and October 31 each year, commencing on April 30, 2007. The Debentures mature on October 31, 2011 and are convertible into approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS. The Debentures are listed on the Toronto Stock Exchange under the symbol ATP.DB.

The net proceeds of the offering were used by Atlantic Power to: (i) repay US\$37 million of the credit facility arranged in connection with an acquisition of an interest in the Path 15 Project, and (ii) provide proceeds to Holdings that were used to redeem a portion of the ownership interests in Holdings held by the Existing Investors. In connection with the closing of the offering, Atlantic Power increased its ownership in Holdings from 70.1% to approximately 86%.

On December 20, 2006, the Company announced that it had agreed to sell, on a private placement basis, a total of 8,600,000 IPSs to three institutional investors, including Caisse de depot et placement du Québec ("CDP"), as well as Cdn \$3.0 million principal amount of Subordinated Notes issued and sold separately from the IPSs of the Company (the "Separate Subordinated Note"). This transaction increased CDP's ownership in the Company to 19% of IPSs outstanding. Net proceeds were used by the Company in February 2007 to acquire all of the remaining interests of the Existing Investors in Holdings.

In February 2007, the Rumford Project executed an Interim Financial Consolidation Agreement ("IFCA") with its steam host, the Rumford Paper Company ("Rumford Paper") that consolidates the payment obligations of the various agreements between the Rumford Project and Rumford Paper into a single payment obligation effective January 1, 2007. The effect of the IFCA is similar to a lease wherein Rumford Paper assumes the risk of fuel and power price volatility as well as most operating costs. Payments under the IFCA will be made quarterly to the partnership over a three year term ending December 31, 2009. The Company expects to receive annual project distributions of approximately \$2.7 million during the term of the IFCA compared to project distributions in the amount of \$2.3 million received in 2006 from Rumford.

(1) Includes equity in earnings from partnerships of \$4,157 and \$10,438 for the three and twelve months ended December 31, 2006 from five projects in which Holdings owns interests of between 17.1% and 40%, accounted for on an equity basis.

## RESULTS OF OPERATIONS FOR THE THREE AND TWELVE MONTH PERIODS ENDED DECEMBER 31, 2006

### *Overview*

The financial results for the three and twelve month periods ended December 31, 2006 include contributions from Holdings' 40% indirect interest in the Chambers Project, acquired on September 8, 2005, while the comparative financial results for the same periods in 2005 included contributions from the Masspower Project, which was sold in the fourth quarter of 2005. The results of Path 15 Holdco are included from the date of acquisition, which was September 15, 2006. As of December 31, 2006, the Projects had PPAs with 17 customers. Details on several aspects of the PPAs for each Project are presented in the "Project Portfolio" section in this MD&A.

Project income is the primary GAAP measure of the Company's operating results and is discussed in the "Project Operations Performance – Three-month period ended December 31, 2006" and "Project Operations Performance – Twelve-month period ended December 31, 2006" sections below. In addition, an analysis of non-project expenses impacting the results of the Company is set out in the "Administrative and Other Expenses" section below.

Significant non-cash items, which are subject to potentially significant fluctuations, include: (1) the change in fair value of the non-controlling interest held in Holdings by the Existing Investors, (2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S. dollar equivalent of the Company's Canadian dollar-denominated debt and the mark-to-market value of currency forward contracts, and (3) the non-cash portion of interest rate swaps that have been executed to fix the interest rate paid on Project-level non-recourse debt.

Cash flow available for distribution was \$11,626 for the three months ended December 31, 2006 compared to \$20,649 for the same period in 2005. For the twelve months ended December 31, 2006, cash flow available for distribution was \$57,893, representing an increase of \$9,213 over the same period in 2005. See the "Cash Flow Available for Distribution" section in this MD&A for additional information.

Net income for the three months ended December 31, 2006 was \$2,934 compared to net income of \$2,738 for the comparable period in 2005. The change reflects a 91% increase in project income, primarily attributable to the acquisition of Chambers in the third quarter of 2005 and Path 15 in the third quarter of 2006, partially offset by higher interest expense and a foreign exchange gain as compared to a foreign exchange loss in the prior year. In addition, distributions to non-controlling interest were lower in 2006 as a result of the redemption of Existing Investor interests in October 2005 and October 2006. The income statement impact of changes in the non-controlling interest liability resulted in a small loss in the fourth quarter of 2006, driven by increases in the market value of the IPS up to the point that the final value of the liability was determined on December 20, 2006. In the prior year fourth quarter, a decrease in the market value of the IPS resulted in a gain related to the non-controlling interest liability.

For the twelve months ended December 31, 2006, net loss increased to \$2,408 from \$509 over the same period in 2005 as a result of higher administrative and other expenses, primarily comprised of interest expense on higher outstanding debt balances and the absence of a large decrease in the non-controlling interest liability that occurred in 2005. These items were partially offset by improved project income due primarily to acquisitions, as well as lower distributions to non-controlling interest and a lower foreign exchange loss in the full year 2006.

### *Project Income*

Project revenue increased 11% and 31% for the three and twelve month periods ended December 31, 2006, respectively. The increase for the three-month period is primarily attributable to the acquisition of Path 15 on September 15, 2006, partially offset by a decrease in revenue at Chambers attributable to lower dispatch. Higher revenues for the full year 2006 are primarily attributed to the acquisition of Chambers in September 2005 and the acquisition of Path 15 described above. In addition, 2006 revenues were higher at Orlando due to higher volumes of electricity generated.

Project expenses increased by 26% for the twelve months ended December 31, 2006 when compared to the prior year. \$26.3 million of this increase is attributable to the acquisition of Chambers in September 2006. In addition, an unplanned outage at Pasco resulted in increased maintenance costs of approximately \$3.5 million in 2006. Also, fuel costs were higher at Orlando due to higher generation output as described above.

Project other income (expense) primarily includes interest expense on non-recourse debt at the Projects and earnings from investments that are accounted for under the equity method of accounting.

Interest expense on debt at the Projects increased by \$11.1 million to \$16.8 million during the twelve months ended December 31, 2006 when compared to the same period in the prior year. The increase was almost entirely attributable to the acquisitions of Chambers in the third quarter of 2005 and Path 15 in the third quarter of 2006. Both of these Projects contain debt that is serviced from the Project cash flows before distributions are made to the Company. The increase in interest expense for the three months ended December 31, 2006 over the same period in the prior year is also attributable to these acquisitions.

Equity earnings decreased by 24% to \$10.4 million for the twelve months ended December 31, 2006 when compared to the year ended December 31, 2005. This decrease is attributable to the sale of Masspower and lower earnings at Rumford. Partially offsetting these decreases is an increase at Selkirk. See "Project Operations Performance – twelve-month period ended December 31, 2006" in this MD&A for additional discussion of performance at these Projects. Equity earnings for the three-month period ended December 31, 2006 increased over the same period in the prior year for the same reasons.

### *Administrative and Other Expenses*

Management fees and administrative expenses include the costs of operating a public company, as well as the fees and costs associated with the Manager. The Manager is indirectly owned by the ArcLight Funds and receives compensation in the form of an annual base fee which is indexed to inflation and an incentive fee that is equal to 25% of cash distributions to IPS holders and Existing Investors in excess of Cdn\$1.00 per year per IPS or Existing Investor membership interest. The Company also reimburses the Manager for reasonable costs incurred to manage the Company. The increase in Administrative and Other Expenses in 2006 was primarily the result of higher professional fees related to documentation of internal controls for compliance with public company requirements, increased personnel costs due to corporate office staff additions, and higher management incentive fees due to increases in distributions to IPS holders. Partially offsetting these increases is a reduction in directors and officers liability insurance premiums.

Interest expense primarily relates to required interest payments to holders of the Subordinated Notes and the Debentures. The increase in net interest expense during 2006 is due to the issuance of the Debentures in October 2006, as well as the issuance of additional Subordinated Notes in October 2005 and in October and December of 2006. Earnings on higher levels of cash and cash equivalents invested throughout 2006, as well as higher short-term interest rates on these investments, partially offset this increase in interest expense.

Distributions to non-controlling interest represent distributions paid by Holdings on membership interests owned by the Existing Investors. These distributions decreased in 2006 as a result of redemptions of the Existing Investors interests in Holdings that occurred in October 2005 and October 2006. As described in "Recent Transactions" in this MD&A, the Company acquired all of the remaining Existing Investors' interests in Holdings in February 2007 and, accordingly, no further distributions will be paid to the Existing Investors.

The Change in Value of Non-Controlling Interest Liability represents: (1) the change in the fair value of the liability during each period based on the market value of the IPSs at each balance sheet date, and (2) the reduction in the liability resulting from the redemptions of the Existing Investors' interests in Holdings that occurred in October 2005 and October 2006.

Prior to December 31, 2006, the liability to non-controlling interest was estimated at each balance sheet date based on the market value of the Company's IPSs at the balance sheet date multiplied by the number of membership interests in Holdings owned by the Existing Investors at that date. In December 2006, the final amount to be paid to the Existing Investors for its remaining interests in Holdings was determined based on the net price received per IPS for the Company's sale, on a private placement basis, of 8,600,000 IPSs (see "Recent Transactions" in this MD&A for additional information). As a result, the liability is recorded in the amount of \$76.9 million at December 31, 2006 and this amount was paid to the Existing Investors in February 2007 to redeem their remaining interest in Holdings and the liability was extinguished. After December 31, 2006, the financial statements will no longer reflect income variations that are attributable to changes in the non-controlling interest liability.

Foreign Exchange Loss (Gain) primarily reflects the unrealized impact of changes in foreign exchange rates on the U.S. dollar equivalent of the Company's Canadian dollar-denominated obligations to non-controlling interests, and to holders of Subordinated Notes and Debentures, as well as the unrealized and realized gains and losses on the Company's forward contracts for the purchase of Canadian dollars for distributions on IPSs and non-controlling interests, and interest payments on Debentures. The U.S. dollar to Canadian dollar exchange rate was nearly the same on December 31, 2006 and 2005. However, the exchange rates did fluctuate throughout the year. As a result, the foreign exchange loss for the twelve months ended December 31, 2005 is \$1.3 million. This loss is primarily due to the change in fair value of forward hedge contracts executed during 2006. For the three-months ended December 31, 2006, the foreign exchange gain of \$5.3 million is attributable to a strengthening U.S. dollar during the period.

### ***Supplementary Financial Information***

The key measure used by management to evaluate the results of the Company's investments is Cash Flow Available for Distribution. See the "Cash Flow Available for Distribution" section of this MD&A for additional details and for a reconciliation of Cash Flow Available for Distribution to its nearest GAAP measure, cash flows from operating activities.

The primary factor influencing Cash Flow Available for Distribution is cash distributions received from the Projects. These distributions received are generally funded from EBITDA generated by the Projects, reduced by project-level debt service and capital expenditures, and adjusted for changes in project-level working capital and cash reserves. Please read the "Non-GAAP Financial Measures" section of this MD&A for important disclosures with respect to Cash Flow Available for Distribution and EBITDA.

Because Project EBITDA and project distributions are key drivers of both the performance of the Company's investments and Cash Flow Available for Distribution, this MD&A contains supplementary unaudited non-GAAP information that summarizes EBITDA by Project and a reconciliation of EBITDA by Project to Project distributions actually received by the Company.

Many of the Company's investments are either proportionately consolidated or accounted for under the equity method of accounting in the consolidated financial statements presented in accordance with GAAP. The proportionate consolidation method of accounting is applied by recording in the Company's consolidated financial statements its proportionate share of each financial statement account at the proportionately consolidated Project. As a result, some components of the Company's balance sheet contain assets that are not directly available to the Company in the normal course of business, or liabilities that are not direct obligations of the Company.

For example, the Company's proportionate share of cash at a proportionately consolidated Project is reflected in the consolidated balance sheet even though this cash may not be directly controlled by the Company because it is subject to 1) the provisions of the partnership agreement that governs the underlying investment or, 2) in the case of Restricted Cash, the non-recourse debt covenants at the Projects. Conversely, the Company's proportionate share of debt at a proportionately consolidated Project is also reflected in the consolidated balance sheet notwithstanding that all of the Project-level debt at the Projects is secured by assets at the Projects and is non-recourse to the Company.

Attached to this MD&A is supplementary unaudited non-GAAP information that segregates the consolidated statements of operations and the consolidated balance sheet into amounts attributable to consolidated and proportionately consolidated Projects and amounts attributable to corporate balances. In addition, a column is included that presents the Company's proportionate share of balance sheet and income statement items that are attributable to Projects accounted for under the equity method of accounting. These amounts attributable to Projects accounted for under the equity method of accounting are not included in the consolidated financial statements presented in accordance with GAAP and are provided for informational purposes only.

#### ***Project Operations Performance – Three-month period ended December 31, 2006***

Aggregate EBITDA at the Projects, including earnings from equity investments was \$37,701 during the fourth quarter 2006, a 25% increase compared to the prior year period. The fourth quarter 2006 results included a full quarter of contribution from the Path 15 project, which was acquired on September 15, 2006. Contributors to improved EBITDA included: 1) Selkirk due to (i) operational variances attributable to the sale of excess natural gas supply at favorable market prices offset by lower energy margins and (ii) a fourth quarter 2005 reduction in EBITDA resulting from an adjustment to partnership income that is made on a semi-annual basis in accordance with the legal structure of the partnership; 2) Gregory due to higher levels of dispatch.

Partially offsetting these positive contributions was reduced EBITDA at Rumford, primarily due to its transition to a market-based interim PPA as of January 2006 and at Chambers, due to lower dispatch.

Aggregate power generation declined 9% while plant availability increased 0.8% during the fourth quarter of 2006 compared to the same period in 2005. The comparative decrease in generation in the fourth quarter of 2006 was driven by: 1) Selkirk due to a planned outage in October and 2) Chambers as a result of lower dispatch and reduced output due to a planned outage of one of the two boilers. Facilities in the Project portfolio achieved a 95.3% availability level for the fourth quarter of 2006 representing a slight increase from 94.5% for the same period in 2005.

### *Project Operations Performance – Twelve-month period ended December 31, 2006*

EBITDA at the Projects for the twelve-month period ended December 31, 2006 increased to \$131,825, 17% over the level achieved for the same period in 2005. The twelve months of 2006 included the contributions from a full year of Chambers and a partial year of Path 15; improved margins at Lake due to scheduled contractual increase in capacity payments and an increase in as-available energy sales; and an increase in contractual capacity payments for Selkirk's Consolidated Edison and Niagara Mohawk PPA's. There were also higher water flows at Topsham leading to improved performance over the prior year.

Partially offsetting these positive contributions was the absence of any contribution from Masspower, which was sold in the fourth quarter of 2005; Rumford's reduced EBITDA due to both its transition to a market-based interim PPA and a third quarter 2006 forced outage; and a first quarter 2006 unplanned turbine outage at Pasco, which included voluntarily accelerated major maintenance and an upgrade to the plant's combustion turbines' output and efficiency.

Aggregate generation for the twelve-month period ended December 31, 2006 increased 12% compared to the year 2005. The main drivers were increases from: 1) the addition of Chambers generation from the time of its acquisition in September 2005; 2) increased dispatch at Mid-Georgia; partially offset by decreases from: 1) absence of Masspower generation since its sale in December 2005; 2) reduced generation at Selkirk mainly due to scheduled maintenance in October and reduced dispatch; 3) reduced generation at Orlando 4) reduced generation at Rumford operating under a market based PPA and a forced outage in third quarter 2006; and 5) reduced generation at Pasco due to a forced outage that included extended downtime to perform an upgrade to its gas turbines.

The aggregate plant availability level for the year 2006 of 96.8% did not change significantly from 2005.

### **CASH FLOW FROM OPERATING ACTIVITIES**

The Company's cash flow from the Projects will vary from year-to-year based on, among other things, changes in rates under the PPAs, fuel supply and transportation agreements, steam sales agreements and other project contracts, compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the operating performance of the Projects. Project cash flows themselves may have some seasonality and the pattern and frequency of distributions from the Projects to Holdings during the year can also vary.

The Company's cash flow from operating activities increased by 23% for the three-month period ended December 31, 2006 as compared to the same period in the prior year. The increase was primarily attributable to lower restricted cash balances at the Projects but also included normal fluctuations in many non-cash income statement items and routine changes due to timing in working capital.

The Company's cash flow from operating activities increased by 50% for the twelve-month period ended December 31, 2006 as compared to the same period in the prior year. The increase was attributable to the lack of recurrence of non-cash items that were included in earnings in 2005. Examples of such items include the gain on the sale of Masspower and the recording of future income taxes recoverable in 2005. Without these non-cash earnings items 2005, net income would have been higher in 2006 than in 2005.

## CASH FLOW AVAILABLE FOR DISTRIBUTION

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. The Company increased the distribution to a rate of Cdn\$1.03 per IPS annually effective with the September 2005 distribution and further increased the distribution to Cdn\$1.06 per IPS annually, effective with the September 2006 distribution, which latter increase was payable to holders of record as of September 29, 2006.

Cash flow available for distribution in the three-months ended December 31, 2006 decreased over the same period in 2005, due to a number of factors, including a decrease in distributions received from equity investments, an increase in interest expense, the impact of a revision of the Company's income tax estimate for the full year of 2006 that was recorded in the fourth quarter, and lower realized gains on foreign currency transactions. For the full year 2006, cash flow available for distribution increased over the full year 2005, primarily as a result of higher operating cash flow, primarily driven by the acquisitions of Chambers and Path 15, partially offset by lower distributions from equity investments.

The Company evaluates its level of distributions with its Board of Directors by analyzing payout ratios and long-term cash flow projections, as well as the accretion to cash flow provided by acquisitions.

The table immediately below presents the Company's calculation of Cash Available for Distribution for the three- and twelve-month periods ended December 31, 2006, and for the same periods in fiscal 2005.

	Three months ended December 31,		Twelve months ended December 31,	
	2006	2005	2006	2005
Cash flows from operating activities	23,883	19,473	57,521	38,370
Project level debt repayment	(11,441)	(10,052)	(27,185)	(20,679)
Interest IPS portion of subordinated notes	7,723	6,009	26,464	20,346
Net income tax installments recoverable	(8,124) <sup>(1)</sup>	768	4,734 <sup>(1)</sup>	7,682
Purchase of property, plant and equipment	(415)	(1,068)	(3,641)	(2,558)
Cash flow available for distribution, USD	11,626	20,649	57,893	48,680
Cash flow available for distribution, Cdn.	13,272	24,013	67,399	58,981
Interest on IPS subordinated notes	7,723	6,009	26,464	20,346
Dividends on IPS common shares	5,187	3,751	16,985	12,102
Total IPS distributions, USD	12,910	9,760	43,449	32,448
Total IPS distributions, Cdn.	14,776	11,421	49,151	39,124
Cash flow available for distribution per basic IPS, Cdn.	\$0.25	\$0.54	\$1.45	\$1.53
Cash flow available for distribution per diluted IPS, Cdn.	\$0.23	\$0.54	\$1.42	\$1.53
Total distribution declared per IPS, Cdn.	\$0.27	\$0.26	\$1.04	\$1.01

(1) Net income tax installments recoverable represents management's estimate of U.S. federal income tax installment payments that will be recovered in future periods. The amount presented is comprised of installment payments made during the period, offset by the current tax provision recorded in the consolidated statement of operations and deficit and any income tax refunds received. These adjustments have the effect of removing changes in working capital resulting from the timing of tax payments from the calculation of cash flow available for distribution.

## SUMMARY OF QUARTERLY RESULTS

Variations in quarterly results are driven by the following factors:

- Seasonality of Project revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the PPA payments and relatively small amounts of uncontracted output, and the typical scheduling of major facility maintenance in the spring and fall.
- Variations in cash flow may also be driven by the timing of project-level debt payments (i.e., most are quarterly and some semi-annual), as distributions from the Projects to the Company must occur in conjunction with the passing of certain tests at those payment dates.
- Non-cash charges, principally: 1) the change in fair value of the non-controlling investors, which is based on the change in the price of IPSs from period to period, 2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S. equivalent of the Company's Canadian dollar denominated debt and the mark-to-market value of currency forward contracts, and 3) the non-cash portion of interest rate swaps that have been executed to fix the interest rate paid on project-level non-recourse debt.

The table immediately below presents selected quarterly consolidated financial data for the eight most recently completed fiscal quarters.

### SELECTED QUARTERLY CONSOLIDATED FINANCIAL DATA

## LIQUIDITY AND CAPITAL RESOURCES

The Company's primary source of cash and cash equivalents is distributions from the Projects. Substantially all of the cash received from Project distributions is distributed in the form of interest and dividends to holders of the IPSs, the Separate Subordinated Notes or the Debentures. The Company plans to maintain the stability and sustainability of cash distributions to holders of IPSs, and to increase, when prudent, dividends on the Common Shares. Future increases in dividends on the Common Shares will be achieved if the Company is successful in maximizing the performance of existing Projects and making accretive acquisitions. The Company may fund future acquisitions with a combination of cash on hand, the issuance of additional debt or equity securities and the incurrence of bank debt.

Management believes that the Company will be able to generate sufficient amount of cash and cash equivalents to maintain the Company's operations and meet obligations as they become due. The following additional sources of liquidity, in addition to cash flow from operations, are available to the Company.

### *Credit facility*

Holdings maintains a revolving credit facility in the amount of \$75 million. The facility expires in November 2008. Loans outstanding under the credit facility bear interest at LIBOR plus a margin of 1.5%. As of December 31, 2006, \$13,465 was allocated, but not drawn, as of December 31, 2006 to support letters of credit for contingent liabilities at several Projects. In the second quarter of 2006, \$10,000 previously drawn on the credit facility was repaid. As at December 31, 2006, no loans were outstanding under the credit facility and the amount available for loans or letters of credit was \$61,535.

### *Restricted cash*

At December 31, 2006, Restricted Cash included Project-level reserve accounts and amounts held in escrow for the redemption of the Existing Investors that occurred in February 2007.

The Projects generally have reserve requirements to support payments for major maintenance costs and project-level debt service. For Projects that are consolidated or proportionately consolidated with Atlantic Power, these amounts, or Atlantic Power's portion of these amounts, are reflected as Restricted Cash on the Company's consolidated balance sheet. At December 31, 2006, Restricted Cash at consolidated and proportionately consolidated projects totaled approximately \$37.4 million. All Project-level debt is non-recourse to the Company or Holdings and is fully amortized over the life of the Projects' PPAs.

At certain of the Projects, a portion of the Restricted Cash represents reserves for debt service that are required by Project-level financing arrangements. In some, but not all cases where a Project-level debt service reserve is represented by Restricted Cash, it is possible for the Company to replace its proportionate share of the debt service reserve with a letter of credit under the revolving credit facility. If the Company chose to replace the Restricted Cash with a letter of credit, the Restricted Cash could be released and distributed to the Company. This represents an additional source of liquidity that the Company may consider for funding acquisitions or other general corporate purposes.

In December 2006, the Company sold 8,600,000 IPSs in a private placement transaction. See "Recent Transactions" in this MD&A for additional details. The proceeds from the private placement transaction were used to in February 2007 to acquire all of the remaining interests of the Existing Investors in Holdings. The net proceeds from the private placement transaction were deposited into an escrow account until regulatory approval was received in February 2007 for the transaction in which the Company acquired all of the remaining interests of the Existing Investors in Holdings. The balance in the escrow account was \$74,433 at December 31, 2006 and is included in Restricted Cash in the consolidated balance sheet. The entire balance in the escrow account was paid to the Existing Investors in February 2007.

### *Path 15 Acquisition Credit Facility*

The acquisition of the Path 15 Project on September 15, 2006 was initially financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. Loans under the Acquisition Credit Facility bear interest at a rate equal to a Eurodollar Rate or a U.S. Base Rate, plus an applicable margin to those rates. As of December 31, 2006, the applicable rate, including margin, was 7.35% on the Eurodollar loan outstanding on the Acquisition Credit Facility.

In October 2006, approximately \$37 million of the net proceeds of its public offering of IPSs and Debentures were applied to repay a portion of the principal amount outstanding on the Acquisition Credit Facility. In December 2006, the Company made an additional \$20 million payment on the Acquisition Credit Facility. As at December 31, 2006, the outstanding balance on the Acquisition Credit Facility was \$31 million. In March 2007, the remaining balance of the Acquisition Credit Facility was repaid using funds drawn from Holdings' revolving credit facility. Management intends to enter into a permanent financing arrangement for the acquisition of the Path 15 Project in the second quarter of 2007. The final amount to be borrowed under the permanent financing arrangement has not been determined, but it is expected to be in the range of \$50 million to \$60 million and will be non-recourse to the Company.

### *Reserve Fund*

In order to contribute to the Company's ability to provide holders of IPSs with stable and sustainable cash distributions, the Company established a Reserve Fund at the closing of the IPO to stabilize future cash distributions and fund acquisitions and other growth opportunities. The Company maintains a balance of approximately \$10 million in the Reserve Fund, which is invested in highly liquid Aa securities. The Reserve Fund is not legally restricted and is included in cash and cash equivalents in the consolidated balance sheets of the Company. The Reserve Fund was not utilized to fund the acquisition of the Path 15 Project in September 2006.

## INFORMATION REGARDING GUARANTORS

The Subordinated Notes and the Debentures are secured by a pledge of the Company's membership interests in Atlantic Holdings and are guaranteed by Atlantic Holdings and Teton Power Funding, LLC, Epsilon Power Funding, LLC, MP Power LLC, Teton East Coast Generation LLC, Teton Fuels Mid-Georgia LLC, Teton Selkirk LLC, Badger Power Generation I LLC, Badger Power Generation II LLC, Baker Lake Hydro LLC, Dade Investment, L.P., Geddes II Company LLC, Geddes Cogeneration Company LLC, MEP Rumford, LLC, NCP Dade Power LLC, NCP Houston Power LLC, NCP Pasco LLC, NCP Perry LLC, Olympia Hydro LLC, Onondaga Cogeneration Limited Partnership, Orlando Power Generation I LLC, Orlando Power Generation II LLC, Stockton Cogen (II) LLC, Teton Operating Services, LLC and Teton New Lake, LLC (the "Guarantors"). The guarantee of Atlantic Holdings is secured by a pledge of its membership interests in Teton Power Funding, LLC and Epsilon Power Funding, LLC and the guarantees of certain of the Guarantors are secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases.

The consolidated financial statements of the Company include the consolidated financial results of the Company and its Guarantor and non-Guarantor subsidiaries. Summary unaudited consolidating financial information of the Company, the Guarantors and the non-Guarantor subsidiaries of the Company as at and for the twelve-month period ended December 31, 2006 is presented in the table below. The selected financial information for the Company and for the Guarantors includes certain investments in subsidiaries accounted for on a cost basis and is therefore not presented in accordance with GAAP.

	Atlantic Power Corporation	Guarantor Subsidiaries	Non-Guarantor Subsidiaries	Consolidation Adjustments	Consolidated
<b>Income statement</b>					
Project revenue	-	2,265	240,593	-	242,858
Project expenses	-	1,148	180,605	-	181,753
Project other income and (expenses)	-	67	(3,925)	-	(3,858)
Project income	-	1,184	56,063	-	57,247

## PROJECT PORTFOLIO

The following table outlines the Company's portfolio of power generating assets as of December 31, 2006, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any single region.

Project Name	Location (State/Country)	Fuel Type	Total MW	Ownership Interest <sup>(1)</sup>	Accounting Treatment <sup>(2)</sup>	Net MW <sup>(3)</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating

Topsham <sup>(8)</sup>	Maine	Hydro	14	50%	P	7	Central Maine Power	2011	BBB

(1) Except as otherwise noted, economic interest represents the percentage ownership interest in the project held indirectly by Atlantic Holdings.

(2) Accounting Treatment: C – Consolidated, P – Proportionate Consolidation, E – Equity Method of Accounting (see Note 1 of Consolidated Financial Statements for additional details).

(3) Represents the interest of Atlantic Holdings in each Project's electric generation capacity based on Atlantic Holdings' economic interest in each Project.

(4) The merchant output of the facility is sold by Atlantic City Electric in the spot market through a profit sharing arrangement with Chambers.

(5) Represents Atlantic Holdings' estimate of its share of the cash flow from the project.

(6) A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.

(7) For further information, see discussion of the new interim financial consolidation agreement with the former Mead/Westvaco paper mill (now owned by NewPage) under "Project Descriptions – Rumford Project".

(8) Atlantic Holdings owns its interest in this Project as a lessor.

(9) California utilities pay Transmission Access Charges ("TACs") to California ISO, who owners of Transmission System Rights, such as Path 15, in accordance with its FERC approved annual revenue requirement.

(10) Path 15 is a FERC regulated asset with a FERC-approved regulatory life of 30 years: through 2034

(11) Largest payers of TACs supporting Path 15's annual revenue requirement are PG&E (BBB), SoCal Ed (BBB+) and SDG&E (A). CAISO imposes minimum credit quality requirement for any participants of A or better unless collateral is posted per CAISO imposed schedule.

(12) Fitch rating.

## CAPITAL EXPENDITURES

Capital expenditures for the Projects are made at the project level using project cash flows and project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the Projects and the Company has not to date needed to inject funds into the Projects for ongoing capital expenditures. The Projects in which the Company has investment generally consist of large capital assets that have established commercial operations. Ongoing capital expenditures for assets of this nature are generally not significant because most major expenditures relate to planned repairs and maintenance and are expensed when incurred.

## CONTRACTUAL OBLIGATIONS

As of December 31, 2006  
(In thousands of U.S. dollars)  
(Unaudited)

	Payment due by period				
	Total	2007	2008 to 2010	2011 to 2012	Thereafter
Long-term debt (a)	417,373	85,242	74,155	47,231	207,745
Subordinated notes (b)	336,840				336,840
Convertible debentures (c)	51,485			51,485	
Total contractual obligations	802,698	85,242	74,155	98,716	544,585

### (a) Long-Term Debt

Long-term represents the Company's consolidated and proportionately consolidated share of Project long-term debt. The amount presented excludes the net unamortized purchase price adjustment of \$14,207 related to the fair value of debt assumed in the Path 15 acquisition. Project debt is non-recourse to the Company and amortizes during the term of the respective revenue generating contracts of the Projects. The range of interest rates on long-term Project debt at December 31, 2006 was 3.25% to 9.5%.

### (b) Subordinated Notes

As of December 31, 2006, the Company had \$336,840 outstanding principal amount of Subordinated Notes due 2016. The notes pay only interest at a rate of 11% until their maturity.

### (c) Convertible Debentures

The Debentures pay interest semi-annually on April 30 and October 31 each year, commencing on April 30, 2007. The Debentures mature on October 31, 2011 and are convertible into approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS.

**(d) Project Contracts**

Each Project typically has a set of contracts that include the following obligations of the Project partnerships, all of which are non-recourse to the Company. Therefore, specific contracts for individual Projects are not discussed in detail in the MD&A or included in Contractual Obligations table above. Following are general characteristics of the typical contracts at the Projects:

- PPAs generally allow Projects to pass through their fuel costs. See the table in the "Project Portfolio" section in this MD&A with respect to off-takers and durations.
- Fuel supply agreements may have minimum volume requirements.
- Fuel transportation agreements incorporate capacity reservation/demand payments for natural gas, or shipping cost per ton of coal.
- Steam sales agreements typically have a tenor that matches that of the related PPA and are designed to meet regulatory requirements for thermal load/efficiency at fossil fuel plants.
- Operating and maintenance agreements provide for services provided by third parties or owners.
- Long term service agreements may be in place for gas or steam turbine inspections and overhauls.
- Site lease agreements grant use of project land where Projects do not own the site.

Further information about the Projects' agreements is contained in the Company's annual information form dated March 28, 2007, which is available on SEDAR's website at [www.sedar.com](http://www.sedar.com).

**(e) Financial Instrument Contracts**

Please see the discussion in the "Financial and Other Instruments" section in this MD&A.

**(f) Credit Facility**

Please see the discussion in the "Liquidity and Capital Resources" section of this MD&A.

**(g) Management and Incentive Fees**

The Company pays a management fee under the management agreement executed in November 2004 among the Company, Holdings and the Manager (the "Management Agreement") that is subject to adjustment for acquisitions as agreed to by the Company and the independent members of Holdings' Board of Managers, plus incentives, inflation adjustment and expenses. See "Related Party Transactions" in this MD&A for additional details. The Company paid the Manager \$894 and \$435 in aggregate base management and incentive fees during the twelve months ended December 31, 2006 and 2005, respectively.

**RELATED PARTY TRANSACTIONS**

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid: (1) an annual base management fee, (2) reimbursement of costs, and (3) an incentive fee equal to 25% of the excess in distributions paid to IPS holders and Existing Investors during the year above Cdn. \$1.00 per IPS. The Management Agreement has an initial term of 20 years from the IPO completed in November 2004. The Company paid the Manager \$340 and \$300 for the annual base management fee, \$554 and \$135 in incentive fees and \$3,005 and \$2,554 for cost reimbursements during the years ended December 31, 2006 and 2005, respectively.

The Manager receives administrative and office support services from ArcLight under a management support agreement executed in November 2004 among the Manager, ArcLight and the Company. This agreement also requires the ArcLight Funds and their affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Holdings, investment opportunities that do not fit within the investment guidelines for the ArcLight Funds or other investment funds managed by ArcLight or its affiliates.

Through December 1, 2006, the Manager sublet its office space from ArcLight Capital Partners, LP (“ArcLight”), under a sublease agreement. The agreement was terminated on December 1, 2006.

The Manager is owned indirectly by the ArcLight Funds. Subsidiaries of the ArcLight Funds, in conjunction with a subsidiary of Caithness, owned 41.9% of Holdings’ common membership interests after the IPO, but reduced their interest to 29.9% in October 2005 and further reduced their interest to approximately 14.0% in October 2006. In February 2007, the Company acquired all of the remaining interest of the Existing Investors in Holdings.

As of the date hereof, there are six members of the Board of Managers of Holdings consisting of the four directors of the Company, as well as the President and Chief Executive Officer and the Chief Financial Officer of the Manager. These two individuals may not vote on any proposed acquisitions by Holdings of projects in which the ArcLight Funds have an ownership interest.

At the time of the IPO, Holdings was granted a right of first offer (“ROFO”) on eleven power-producing projects owned by the ArcLight Funds. The acquisition of a 40% indirect interest in Chambers Cogeneration LP in September 2005 is the only asset that has been acquired under the terms of the ROFO agreement. As of December 31, 2006, a 90 MW project located in Florida is the only project that remains subject to the ROFO agreement.

Caithness has an indirect ownership interest in one of the Existing Investors. Subsidiaries of Caithness provide operations, maintenance and accounting at four of the Projects and administrative and project management functions for an additional eight Projects under agreements which are in effect until December 2011 and renewable thereafter. During the three- and twelve-month periods ended December 31, 2006, Holdings incurred fees and expenses of \$688 and \$2,976 respectively, for these services provided by Caithness.

## **FINANCIAL AND OTHER INSTRUMENTS**

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates, as the Company earns its income principally in the United States and has the obligation to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has executed this strategy by entering into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn\$1.06 per IPS to all holders including the Existing Investors, as well as interest payments on the Subordinated Notes. It is the Company’s intention to periodically extend the length of these forward contracts by one additional year. Changes in the fair market value of the Company’s forward contracts partially offset exchange gains or losses on the U.S. dollar equivalent of the Company’s Canadian dollar obligations. The following table summarizes the Company’s forward foreign currency contracts with monthly settlement terms as of December 31, 2006:

<b><u>NOTIONAL MONTHLY AMOUNTS</u></b>			
<b><u>Period</u></b>	<b><u>Sell U.S. Dollars</u></b>	<b><u>Buy Canadian Dollars</u></b>	<b><u>Average Rate</u></b>
Current - 2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

In addition to the forward contracts in the table above that settle on a monthly basis, the Company has executed forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make semi-annual payments on the Debentures. The contracts provide for the purchase of Cdn. \$2.1 million and Cdn. \$1.9 million in April 2007 and October 2007, respectively, at a rate of 1.1240 Canadian dollars per U.S. dollar and the purchase of Cdn. \$1.9 million in April and in October of 2008 through 2011 at a rate of 1.1075 Canadian dollars per U.S. dollar.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange gains and losses. The foreign exchange contracts are classified as other assets. See "Results of Operations for the Three and Twelve Month Periods Ended December 31, 2006 – *Administrative expenses*" in this MD&A for additional details related to foreign exchange gains and losses recognized.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects to cash flow of changing natural gas prices, which is a major component of project expenses. Some of these contracts have been designated as hedges for accounting purposes. In addition, other Projects have entered into natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

The Company has an Indexed Swap under which it receives monthly payments based upon the differential between an indexed contract price and a market reference price for electricity through June 2008. In order to lock in favorable gas, power, and capacity pricing under the Indexed Swap, the Company has entered into an Indexed Swap Hedge. For further details on the Indexed Swap Hedge, please see Note 8 of the Company's audited consolidated financial statements for the twelve months ended December 31, 2006.

The values of all of the financial instruments described above are subject to changes in market prices. Management of the Company monitors these risks and the market values of these financial instruments and periodically reviews its risk management strategies as market conditions change.

## **ACCOUNTING ESTIMATES**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the periods presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property, plant and equipment and PPAs, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives.

The Company has acquired the majority of its long-term assets through acquisitions. In applying the purchase method of accounting, the Company is required to estimate the fair value of the assets acquired including the property, plant and equipment and intangible assets. The determination of these fair values is complex and involves significant judgments.

Revenue recognition is based on monthly invoices by the Projects to electricity and steam buyers and in one case with fluctuating rates over time, the average rate over the term of the PPA is used for revenue with the difference between cash received and revenue recognized as deferred revenue. Fixed asset valuations of power plants are based on depreciated replacement cost. Valuations of PPAs and fuel supply agreements are based on the incremental net present value of cash flows provided by the agreement as compared to the merchant value of the plant. The Company typically uses outside consultants to determine the merchant value of a facility. On an ongoing basis, the Company monitors the performance of the facilities to determine if any recoverability issues exist or if any change in the useful life of the facility is required.

The future tax asset valuation allowance has been determined pursuant to the provisions of CICA 3465, *Income Taxes*, including the Company's estimation of future taxable income, where necessary, and is adequate to reduce the total future tax asset to an amount that will more likely than not be realized. The Company incurred taxable income for the nine-month period ended December 31, 2005 and taxable income for the nine-month period ended December 31, 2006. During the third quarter of 2006, the Company completed its 2005 tax returns and recorded an income tax benefit in the amount of \$2.2 million, representing an adjustment in the estimated amounts of tax that were previously recorded. The Company has provided a valuation allowance to reduce net future tax assets to an amount expected to be recovered in the foreseeable future.

The fair value of financial instruments and derivatives such as the forward foreign currency contracts, interest rate swaps and natural gas swaps are typically based on market quotes. The Company also has an Indexed Swap and related hedge agreement, discussed in Note 8 to the Company's audited consolidated financial statements for the twelve months ended December 31, 2006. The fair value of these agreements are based on estimated future cash flows taking into account certain assumptions, including forecasts of future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair values of these agreements.

For additional information regarding accounting policies and estimates, please see Note 1 of the Company's audited consolidated financial statements for the twelve months ended December 31, 2006.

## **RECENT ACCOUNTING PRONOUNCEMENTS**

### **Financial Instruments — Recognition and Measurement**

In January 2005, the CICA released new Handbook Section 3855, *Financial Instruments — Recognition and Measurement*, effective for annual and interim periods beginning on or after October 1, 2006. This new section establishes standards for the recognition and measurement of all financial instruments, provides a characteristics-based definition of a derivative financial instrument, provides criteria to be used to determine when a financial instrument should be recognized, and provides criteria to be used when a financial instrument is to be extinguished.

### **Comprehensive Income and Equity**

In January 2005, the CICA released new Handbook Section 1530, *Comprehensive Income*, and Section 3251, *Equity*, effective for annual and interim periods beginning on or after October 1, 2006. Section 1530 establishes standards for reporting comprehensive income. These standards require that an enterprise present comprehensive income and its components in a separate financial statement that is displayed with the same prominence as other financial statements. Section 3251 establishes standards for the presentation of equity and changes in equity during the reporting period in addition to the requirements in Section 1530.

### **Hedges**

In January 2005, the CICA released new Handbook Section 3865, *Hedges*, effective for annual and interim periods beginning on or after October 1, 2006. This new section establishes standards for when and how hedge accounting may be applied. Hedge accounting is optional.

All of the new pronouncements described above will be implemented by the Company as of January 1, 2007. The Company is in the process of finalizing its implementation of these new standards and assessing the impact on its consolidated financial position and results of operations.

## **COMMITMENTS AND CONTINGENCIES**

The Chambers partnership, in which Holdings owns a 40% indirect interest, filed suit against its coal supplier, Consol Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers was seeking, among other things, (1) a declaratory judgment regarding the terms of the agreement, (2) damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier had asserted affirmative defenses and counterclaims in its answer. In the third quarter of 2006, the matter was settled for an amount that was not material to the project.

The Rumford cogeneration facility purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague had disputed terms and compensation for certain terminal services provided by Sprague and Massey had asserted that Rumford also had failed to pay certain amounts due under the coal supply agreement. In the third quarter of 2006, the dispute was settled for an amount that was not material to the project.

From time to time, the Company and its subsidiaries and Projects are parties to disputes and litigation that arise in the normal course of business. The Company assesses its exposure to these matters and records estimated loss contingencies when a loss is likely and can be reasonably estimated. There are no matters pending as of December 31, 2006 which are expected to have a material impact on the Company's financial position or results of operations.

## **OUTSTANDING SHARE DATA**

The Company had 61,470,500 IPSs outstanding at December 31, 2006 as compared to 44,339,500 IPSs which were outstanding at December 31, 2005. As of March 27, 2007, 61,470,500 IPSs were outstanding.

The Debentures are convertible to into approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS. As of December 31, 2006, approximately 4,838,700 IPSs would be required to be issued if all of the outstanding Debentures were converted to IPSs.

## **OUTLOOK**

In order to maintain stable distributions and provide long term growth, the Company will continue to focus on enhancing the financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

PPAs in the portfolio have various expiration dates as listed in the "Project Portfolio" table in this MD&A. In each case, the Project's partners plan for such expirations by evaluating various options in the market in order to continue maximizing project cash flows. For example, partners of Projects with PPA expirations in 2008 have already begun efforts to provide for potential new or extended power purchase arrangements. The new arrangements may involve responses to utility solicitations for capacity, direct negotiations with the original purchasing utility for PPA extensions, arrangements with other creditworthy parties for tolling agreements, PPAs or the use of derivatives to lock in stable power and/or fuel prices beyond the spot markets. Management has not assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations.

In 2009, the gas supply agreement at Lake will expire, whereas the PPA extends until 2013. While it is still somewhat early to work on extending this agreement or entering into a new agreement, Management is monitoring forward prices in that market. The current gas agreement provides pricing that is currently below market, so management assumes that margins at Lake may fall in 2010 and beyond. Other options to maximize cash flow at Lake include a PPA restructuring and extension, and an analysis is being performed on a possible upgrade of the Project's turbines.

## **RISK FACTORS**

Atlantic Power's future performance and its ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs, and the Common Shares and Subordinated Notes represented thereby, and to holders of Debentures, are subject to a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares, Subordinated Notes or Debentures or on the market price or value of IPSs, Common Shares or Subordinated Notes. In addition to the summary of certain risk factors below and other information contained or incorporated by reference in this MD&A, the "Risk Factors" section in the Company's annual information form dated March 28, 2007 should be given careful consideration and is incorporated by reference herein. Additional risks and uncertainties not currently known to the Company or management of the Manager, or that the Company or management of the Manager currently consider immaterial, may also impair operations of the Company. If any such risks actually occur, the business, financial condition, or liquidity and results of operations of the Company, and the ability of the Company to make distributions on the IPSs, the Common Shares and Subordinated Notes represented thereby, and the Debentures, could be materially adversely affected. The Company's annual information form is available on SEDAR's website at [www.sedar.com](http://www.sedar.com).

The following is a summary of the primary risks facing the Company, with further discussion of risk factors found in the Company's Annual Information Form dated March 28, 2007.

### **Revenue May be Reduced Upon Expiration or Termination of PPAs**

Power generated by the Projects, in most cases, is sold under PPAs that expire at various times. In addition, these PPAs may be subject to termination in certain circumstances, including default by the Project owner or operator. When a PPA expires or is terminated, it is possible that the price received by the relevant Project for power under subsequent arrangements may be reduced significantly. It is possible that subsequent power purchase arrangements may not be available at prices that permit the operation of the Project on a profitable basis. If this occurs, the affected Project may temporarily or permanently cease operations.

### **The Projects Depend on their Electricity and Thermal Energy Customers**

Each Project relies on one or more PPAs, steam sales agreements or other agreements with one or more utilities or other customers for a substantial portion of its revenue. The amount of cash available for distribution to holders of IPSs, Common Shares and Subordinated Notes is highly dependent upon customers under such agreements fulfilling their contractual obligations. There is no assurance that these customers will perform their obligations or make required payments to the Project Operating Entities.

### **Certain Projects are Exposed to Fluctuations in the Price of Electricity and Fuels**

While a majority of the off-takers of the Projects are contractually obligated to purchase electricity output under long-term PPAs, and a portion of the revenues under the contracts is typically a relatively fixed capacity payment, variable payments made for energy produced will depend on escalators based on fluctuations in electricity and/or fuel prices and possibly inflation, which may not effectively hedge the Project's operating margins relative to changes in variable inputs. In addition, should any of the long-term PPAs expire or terminate, the Manager or the relevant Project operator will be required to either negotiate new PPAs or sell into the electricity wholesale market, in which case the changed price relationships between electricity revenues and variable inputs may result in operating margin reduction or elimination.

### **Predicting Project Cash Flows Over the Long Term Is Difficult**

Due to the many uncertainties described in this risk factors section that could materially affect future revenues or expenses, it can be difficult to make long term projections of the Company's operating margins.

### **Operations are Subject to the Provisions of Various Energy Laws and Regulations**

Generally, in the United States, the Company's projects are subject to regulation by the FERC regarding the terms and conditions of wholesale service and rates, as well as by state agencies regarding PPAs entered into by Qualify Facility ("QF") projects and the siting of the generation facilities. The majority of the Company's generation is sold by QF projects under PPAs that required approval by state authorities.

On August 8, 2005, EAct 2005 was enacted, which removed certain regulatory constraints on investment in utility power producers by repealing the Public Utility Holding Company Act of 1935 ("PUHCA 1935") and enacting the Public Utility Holding Company Act of 2005 ("PUHCA 2005"). EAct 2005 also limited the requirement that electric utilities buy electricity from QFs to certain markets that lack competitive characteristics. Finally, EAct 2005 amended and expanded the reach of FERC's corporate merger approval authority under section 203 of the Federal Power Act ("FPA"). Over the last several months, FERC has issued final rulemakings implementing these provisions of EAct 2005.

If any Project that is a QF were to lose its status as a QF, then such Project may no longer be entitled to exemption from provisions of PUHCA 2005 or from provisions of the FPA and state law and regulations. Loss of QF status could trigger defaults under covenants to maintain QF status in the PPAs, steam sales agreements and Project-level debt agreements and result, if not cured within allowed cure periods in termination of agreements, penalties or acceleration of indebtedness under such agreements, plus interest.

The Projects would also have to file with FERC for market-based rates or file for acceptance for filing of the rates set forth in the applicable PPA and its rates would then be subject to initial and potentially subsequent reviews by FERC under the FPA, which could result in reductions to the rates.

In connection with its first transmission investment: Path 15, the Company will be required to have its Path 15 operating subsidiary make a triennial filing with the Federal Energy Regulatory Commission ("FERC") for review of certain aspects of its rate recovery, such as the allowed return on equity. The first such filing will be in late 2007 for the 2008-2010 rate recovery period. While the Company believes that Path 15's current rate recovery assumptions are supported both by other recent analogous FERC precedents and recent FERC policy statements, it is possible that such rate reviews result in a lower allowed return on equity or other changes that could have a material affect on the project's revenues.

EAct 2005 provides incentives for various forms of electric generation technologies, which may subsidize our competitors. In addition, EAct 2005 requires the FERC to select an industry self-regulatory organization which will impose mandatory reliability rules and standards. Among other things, FERC's rules implementing these provisions allow such reliability organizations to impose sanctions on generators that violate their new reliability rules.

The Company's projects require licenses permits and approvals which can be in addition to any required environmental permits. No assurance can be provided that we will be able to obtain, comply with and renew as required all necessary licenses, permits and approvals for these facilities. If we cannot comply with and renew as required all applicable regulations, our business, results of operations and financial condition could be adversely affected.

We cannot provide assurance that the introductions of new laws, or other future regulatory developments, will not have a material adverse impact on our business, operations or financial condition.

## **Projects are Subject to Significant Air Emissions Regulations**

Environmental laws and regulations have generally become more stringent over time, and this trend may continue. In particular, the U.S. Environmental Protection Agency, or EPA, has recently promulgated regulations requiring additional reductions in nitrogen oxides, or NOx and sulfur dioxide, or SO2, emissions, commencing in 2009 and 2010 respectively, and has also promulgated regulations requiring reductions in mercury emissions from coal-fired electric generating units, commencing in 2010 with more substantial reductions in 2018.

Moreover, certain of the states in which we operate have promulgated air pollution control regulations which are more stringent than existing and proposed federal regulations. Specifically, there is a proposed multi-state carbon cap-and-trade program known as the Regional Greenhouse Gas Initiative, or RGGI, which would apply to the Company's fossil-fueled facilities in the Northeast, primarily Chambers and Rumford, which utilize coal. A model rule for implementation of RGGI is expected to be released within the next few months.

In 2006, the State of California passed legislation initiating two programs to control/reduce the creation of greenhouse gases ("GHG"). The two laws, more commonly known as Assembly Bill ("AB") 32 and Senate Bill ("SB") 1368, are currently in the regulatory rulemaking phase which will involve public comment and negotiations over specific provisions.

Under AB 32 a GHG emissions cap is mandated on all major sources (not limited to the electric sector). In order to do so, regulations will be adopted for the mandatory reporting and verification of GHG emissions and to reduce statewide emissions of GHG to 1990 levels by 2020. This will most likely require that electric generating facilities reduce their emissions of GHG or pay for the right to emit by the implementation date of January 1, 2012. The program has yet to be finalized and the decision as to whether allocations will be distributed or auctioned will be determined in the rulemaking process that is currently underway. This could affect the Company's coal-fired Stockton Project and to a much lesser extent, if at all, its Badger Creek Project.

SB 1368 added the requirement to establish a GHG emission performance standard and implement regulations for power purchase agreements that exceed five years entered into prospectively by publicly-owned electric utilities. Provisions are under consideration in the rulemaking to allow facilities that have higher CO2 emissions to be able to negotiate PPA's for up to a five-year period or sell power to entities not subject to SB 1368. This statute may limit Stockton's ability to extend its PPA with PG&E (which currently expires in early 2008) beyond the five year limit.

In addition to the regional initiatives, legislation for the regulation of GHG has been introduced at the federal level and if passed, may eventually override the regional efforts with a national cap and trade program.

## **The Projects Depend on Suppliers Under Fuel Supply Agreements and Increases in Fuel Costs may Adversely Affect the Profitability of the Projects**

Revenues in respect of the Projects may be affected by the availability, or lack of availability, of a stable supply of fuel at reasonable prices. To the extent possible, the Projects attempt to match fuel costs to PPA energy payments. To the extent that fuel costs are not matched directly to PPA energy payments, increases in fuel costs may adversely affect the profitability of the Projects.

The amount of energy generated at the Projects is highly dependent on suppliers under certain fuel supply and transportation agreements fulfilling their contractual obligations. The loss of significant fuel supply agreements or an inability or failure by any supplier to meet its contractual commitments may adversely affect cash distributions by the Company. The amount of energy generated at the Projects is also dependent upon the availability of natural gas, coal, oil or biomass. There can be no assurance of the long-term availability of such resources.

Upon the expiry or termination of existing fuel supply or transportation agreements, the Manager or Project operators will have to renegotiate these agreements or may need to source fuel from other suppliers. There can be no assurance that the Manager or Project operators will be able to renegotiate these agreements or enter into new agreements on similar terms. Furthermore, there can be no assurance as to availability of the supply or pricing of fuel under new arrangements. The gas supply contract expiration in 2009 at the Company's Lake Project is discussed in the "Outlook" section of this MD&A.

### **U.S. Federal Income Tax Risks**

There can be no assurance that U.S. federal income tax laws and IRS administrative policies respecting the U.S. federal income tax consequences generally applicable to a holder of Common Shares and Subordinated Notes, as represented by IPSs, will not be changed in a manner which adversely affects Non-U.S. Holders.

There is no authority that directly addresses the tax treatment of securities similar to the Subordinated Notes as part of a unit that includes common shares of the Company. In light of this absence of direct authority, it cannot be concluded with certainty that the Subordinated Notes will be treated as debt for U.S. federal income tax purposes, and, although the Company intends to take the position that the Subordinated Notes are debt for U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, interest payments on the Subordinated Notes would be re-characterized as non-deductible distributions with respect to the Company's equity, and the Company's net taxable income and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after-tax cash flow would be reduced and the Company's ability to make interest payments on Subordinated Notes and distributions with respect to Common Shares could be materially and adversely impacted.

### ***Recent Canadian Federal Income Tax Proposals***

On December 21, 2006, the Department of Finance (Canada) released for public comment draft legislation significantly modifying the income tax rules applicable to certain publicly listed trusts and partnerships. An investment in IPSs does not involve a publicly listed trust or partnership but an investment in IPSs shares certain characteristics with investments in publicly listed trust or partnership entities that are the subject of the draft legislation and the proposals first announced on October 31, 2006. The proposals of October 31, 2006 indicated that although the details outlined therein reflected the then present intentions of the Government, any aspect of these measures may be changed accordingly and possibly with retroactive effect if there should emerge structures or transactions that are clearly devised to frustrate the policy objectives underlying the proposals. Management believes that the proposed rules do not apply to the Company and do not alter the tax consequences of an investment in Common Shares and Subordinated Notes represented by IPSs. However, there is no assurance that the December 21, 2006 draft legislation and, more generally, Canadian federal income tax laws and administrative policies will not be changed in a manner that adversely affects the holders of Common Shares and Subordinated Notes represented by IPSs.

### **DISCLOSURE CONTROLS AND PROCEDURES**

Based on the requirements of Multilateral Instrument 52-109 – *Certification of Disclosure in Issuers' Annual and Interim Filings*, the Chief Executive Officer and Chief Financial Officer of the Manager have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Multilateral Instrument 52-109) as of December 31, 2006. Based on that evaluation, the Chief Executive Officer and Financial Officer of the Manager have concluded that the Company's disclosure controls and procedures were effective as of December 31, 2006 to provide reasonable assurance that material information relating to the Company would be made known to them by others within the Company.

The Company's management has designed its internal control over financial reporting as of December 31, 2006 to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external purposes in accordance with GAAP.

#### **ADDITIONAL INFORMATION**

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or under the Company's profile on the SEDAR website at [www.sedar.com](http://www.sedar.com).

The following tables represent unaudited non-GAAP supplementary financial information provided for informational purposes. Please see "Non-GAAP Financial Measures" and "Results of Operations for the Three and Twelve Month Periods Ended December 31, 2006 – *Supplementary Financial Information*" for additional details about the supplementary information.

## PROJECT EBITDA

(In thousands of U.S. dollars)

## Form 52-109F1 - Certification of Annual Filings

I, Barry Welch, Chief Executive Officer of Atlantic Power Management, LLC, the Manager of Atlantic Power Corporation, certify that:

1. I have reviewed the annual filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Atlantic Power Corporation (the issuer) for the period ending on December 31, 2006;
2. Based on my knowledge, the annual filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the annual filings;
3. Based on my knowledge, the annual financial statements together with the other financial information included in the annual filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the annual filings;
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures and internal control over financial reporting for the issuer, and we have:
  - (a) designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the annual filings are being prepared;
  - (b) designed such internal control over financial reporting, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP; and
  - (c) evaluated the effectiveness of the issuer's disclosure controls and procedures as of the end of the period covered by the annual filings and have caused the issuer to disclose in the annual MD&A our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by the annual filings based on such evaluation; and

5. I have caused the issuer to disclose in the annual MD&A any change in the issuer's internal control over financial reporting that occurred during the issuer's most recent interim period that has materially affected, or is reasonably likely to materially affect, the issuer's internal control over financial reporting.

Date: March 28, 2007

## GLOSSARY OF TERMS

In this annual information form, the following terms will have the meanings set forth below, unless otherwise indicated. All amounts herein are in U.S. dollars, unless otherwise indicated. Words importing the singular include the plural and vice versa and words importing any gender include all genders:

**“Acquisition Agreements”** means, collectively, the agreements dated as of November 10, 2004 among the Company, Atlantic Holdings and each of the Existing Investors respecting, among other things, the acquisition by Atlantic Holdings of the Project Holding Entities from the Existing Investors.

**“Acquisition Credit Facility”** means the term loan credit facility extended to the Company for the purpose of assisting in the financing of the Path 15 Acquisition.

**“affiliate”** has the meaning ascribed thereto in the *Securities Act* (Ontario).

**“Amended Credit Facility”** means the amended credit agreement dated as of November 18, 2004 (as may be amended from time to time) as amended through the fourth amendment dated as of October 11, 2006 entered into among Atlantic Holdings and a syndicate of financial institutions.

**“APM”** means Atlantic Power Management Holdings, LLC.

**“ArcLight”** means ArcLight Capital Partners, LLC.

**“Atlantic Holdings”** means Atlantic Power Holdings, LLC, a limited liability company formed under the laws of Delaware.

**“avoided cost”** means the incremental expense that a utility would incur to either generate or purchase from an outside source electricity, capacity or both.

**“Btu”** means British thermal unit.

**“business day”** means a day other than a Saturday, Sunday or other day on which banking institutions in the Province of Ontario are authorized or required by law to close.

**“CAISO”** means the California Independent System Operator.

**“Caithness”** means Caithness Energy, LLC

**“Capital Stock”** means: (i) in the case of a corporation, corporate stock or equity interests, including, without limitation, corporate stock represented by IPSs and corporate stock outstanding upon the separation of IPSs into the securities represented thereby; (ii) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock; (iii) in the case of a partnership or limited liability company, partnership or membership interests (whether general or limited); and (iv) any other interest or participation that confers on a person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing person.

**“CDS”** means CDS Clearing and Depository Services Inc.

**“Chambers”** means Chamber Cogeneration LP.

“**Change of Control**” means the occurrence of any of the following events:

- (i) the sale, lease or transfer to any person or group, in one or a series of related transactions, of the Company’s or Atlantic Holdings’ assets generating more than 66 <sup>2</sup>/<sub>3</sub>% of the Company cash flow for the 12-month period ended on the last day of the most recent fiscal quarter to any person or group;
- (ii) the adoption of a plan relating to the liquidation or dissolution of the Company or Atlantic Holdings;
- (iii) the acquisition by any person or group of a direct or indirect interest in more than 50% of: (A) the Common Shares of the Company or the common membership interests of Atlantic Holdings; or (B) the voting power of the Company or Atlantic Holdings; by way or purchase, merger or consolidation or otherwise (other than a creation of a holding company that does not involve a change in the beneficial ownership of the Company as a result of such transaction); or
- (iv) the merger or consolidation of the Company or Atlantic Holdings with or into another person or the merger of another person into the Company or Atlantic Holdings with the effect that immediately after such transaction the shareholders of the Company or the holders of common membership interests of Atlantic Holdings immediately prior to such transaction hold, directly or indirectly, less than 50% of the voting control over the person surviving such merger or consolidation, in each case other than the creation of a holding company that does not involve a change in the beneficial ownership of the Company or Atlantic Holdings as a result of such transaction.

“**Code**” means the *United States Internal Revenue Code of 1986*, as amended.

“**cogeneration**” means the simultaneous production of electricity and thermal energy in the form of heat or steam from a single fuel source.

“**Common Shares**” means the common shares in the capital of the Company.

“**Company**” means Atlantic Power Corporation.

“**Conversion Price**” means the price of Cdn\$12.40 per IPS, being a ratio of approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, subject to adjustment in certain events in accordance with the Indenture, at which price each Debenture will be convertible into IPSs at the option of the holder at any time prior to the close of business on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures.

“**DBRS**” means Dominion Bond Rating Service Limited.

“**Debenture Indenture**” means the trust indenture dated October 11, 2006 between the Company and the Debentures Trustee, governing the terms of the Debentures.

“**Debenture Trustee**” means Computershare Trust Company of Canada.

“**Debentures**” means the 6.25% convertible secured debentures of the Company due October 31, 2011 issued pursuant to the Debenture Indenture as of the date of closing of the Offering, and “**Debenture**” means one of them.

“**DTC**” means Depository Trust Company.

“**EIA**” means the Energy Information Administration, a statistical agency of the U.S. Department of Energy.

“**EPAct of 1992**” means the United States *Energy Policy Act of 1992*.

“**EPAct of 2005**” means the United States *Energy Policy Act of 2005*.

“**Epsilon Funding**” means Epsilon Power Funding, LLC.

“**Equivalent Amount**” on any given date in one currency (the “first currency”) of any amount denominated in another currency (the “second currency”) means the amount of the first currency which could be purchased with such amount of the second currency at the rate of exchange approximately equal to the noon rate of exchange quoted by the Bank of Canada on such day for the purchase of the first currency with the second currency.

“**ERISA**” means the United States *Employee Retirement Income Security Act of 1974*, as amended.

“**ERISA Plan**” shall mean any employee benefit plan that is subject to the fiduciary and prohibited transaction provisions of ERISA and/or any plan that is subject to Section 4975 of the Code, any trust holding assets of such a plan, and any entity that is deemed to hold the assets of such a plan pursuant to 29 C.F.R. Section 2510.3-101, issued by the United States Department of Labor.

“**EWG**” means an exempt wholesale generator as defined under PUHCA 2005.

“**Existing Investor Interests**” means the common membership interests and Class B preferred membership interests in Atlantic Holdings held by the Existing Investors.

“**Existing Investors**” means Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC.

“**FERC**” means the United States Federal Energy Regulatory Commission, an independent regulatory agency within the United States Department of Energy that, among other things, oversees regulatory matters relating to electricity projects.

“**FPA**” means the United States *Federal Power Act*, as amended.

“**Fund I**” means ArcLight Energy Partners Fund I, L.P.

“**Fund II**” means ArcLight Energy Partners Fund II, L.P.

“**Fund III**” means ArcLight Energy Partners Fund III, L.P.

“**gigawatt**” or “**GW**” means 1,000 megawatts of energy.

“**Global Debentures**” means Debentures issued in the form of fully registered global Debentures.

“**guarantee**” means a guarantee (other than by endorsement of negotiable instruments for collection in the ordinary course of business) direct or indirect, in any manner (including letters of credit and reimbursement agreements in respect thereof), of all or any part of any indebtedness or other obligations.

“**Guarantee**” means any guarantee of the obligations of the Company under the Debenture Indenture and the Debentures by any person in accordance with the provisions of the Debenture Indenture.

“**Guarantors**” means Atlantic Holdings, Teton Funding, Epsilon Funding, MP Power LLC, Teton East Coast Generation LLC, Teton Fuels Mid-Georgia LLC, Teton Selkirk LLC, Badger Power Generation I LLC, Badger Power Generation II LLC, Baker Lake Hydro LLC, Dade Investment, L.P., Geddes II Company LLC, Geddes Cogeneration Company LLC, MEP Rumford, LLC, NCP Dade Power LLC, NCP Houston Power LLC, NCP Pasco LLC, NCP Perry LLC, Olympia Hydro LLC, Onondaga Cogeneration Limited Partnership, Orlando Power Generation I LLC, Orlando Power Generation II LLC, Stockton Cogen (II) LLC, Teton Operating Services, LLC and Teton New Lake, LLC, and “**Guarantor**” means any one of them.

“**GWh**” means an amount of energy equivalent to one gigawatt of energy delivered continuously for one hour.

“**Heat rate**” is a measure of a thermal power plant’s efficiency, usually measured in MMBtu’s.

“**Indenture**” means the trust indenture dated November 18, 2004 among the Company, certain guarantors and Computershare Trust Company of Canada governing the Subordinated Notes.

“**IPO**” means the initial public offering of IPSs completed on November 18, 2004.

“**IPS Interest Payment Election**” has the meaning set forth under “Description of Debentures — IPS Interest Payment Election”.

“**IPSs**” means the income participating securities of the Company.

“**IRS**” means the United States Internal Revenue Service.

“**kilowatt**” or “**kW**” means 1,000 watts of energy.

“**kWh**” means an amount of energy equivalent to one kilowatt of energy delivered continuously for one hour.

“**LTIP**” means the long term incentive plan of the Manager.

“**Management Agreement**” means the management agreement dated as of November 10, 2004 between the Manager, the Company and Atlantic Holdings, as it may be amended, supplemented and restated from time to time.

“**Management Support Agreement**” means the management support agreement between the Manager and ArcLight providing for, among other things, certain ArcLight employees to be available to provide administrative and office support services to the Manager.

“**Manager**” means Atlantic Power Management, LLC.

“**Maturity Date**” means October 31, 2011, the maturity date of the Debentures.

“**megawatt**” or “**MW**” means 1,000 kilowatts of energy.

“**MMBtu**” means one million Btu.

“**MWh**” means an amount of energy equivalent to one megawatt of energy delivered continuously for one hour.

“**NERC**” means the North American Electric Reliability Council.

“**Non-U.S. Holder**” means a Holder that is not: (i) a citizen or individual resident in the U.S. for U.S. federal tax purposes; (ii) a corporation or other entity taxable as a corporation created or organized under the laws of the U.S. or a political subdivision thereof; (iii) an estate, the income of which is subject to U.S. federal income tax regardless of the source; or (iv) a trust, if (A) a court within the U.S. is able to exercise primary supervision over the trust’s administration and one or more U.S. persons have the authority to control all of its substantial decisions, or (B) the trust was in existence on August 20, 1996 and has properly elected under applicable Treasury Regulations to continue to be treated as a United States person.

“**Onondaga**” means Onondaga Cogeneration Limited Partnership.

“**Operating Agreement**” means the second amended and restated limited liability company agreement of Atlantic Holdings dated October 11, 2006, as amended, entered into among the Company, Atlantic Holdings and the Existing Investors governing the operation of Atlantic Holdings.

**“Path 15 Acquisition”** means the indirect acquisition by the Company of the equity interests of Path 15 Holdco whose principal asset is Path 15 Opco, owner of 72% of the TSRs relating to the Path 15 Project, pursuant to a Purchase and Sale Agreement.

**“Path 15 Holdco”** means Trans-Elect NTD Holdings Path 15, LLC, which has been renamed Atlantic Path 15 Holdings, LLC.

**“Path 15 Opco”** means Trans-Elect NTD Path 15, LLC, which has been renamed Atlantic Path 15, LLC.

**“Path 15 Project”** means the transmission line upgrade along the Path 15 transmission corridor located in central California.

**“PJM”** means the PJM Interconnection, a regional transmission organization that coordinates the movement of wholesale electricity in all or parts of Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, North Carolina, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia and the District of Columbia.

**“PPA”** means power purchase agreement.

**“PPM”** means PPM Energy.

**“Project Holding Entities”** means Teton Funding, Epsilon Power Partners, LLC, Harbor Capital Holdings, LLC, and Epsilon Funding, LLC.

**“Project Operating Entities”** means the limited partnerships, corporations or other entities that directly own the Projects.

**“Projects”** means the 15 power generation projects and the Path 15 Project described under “Description of the Business – Summary Table of the Projects” and “Project Descriptions”.

**“PUHCA 1935”** means *Public Utility Holding Company Act of 1935*, as amended.

**“PUHCA 2005”** means the Public Utility Holding Company Act of 2005.

**“PURPA”** means the *Public Utility Regulatory Policies Act of 1978*, as amended.

**“Put Date”** means the date which is 30 days following the date the Company gives notice to a holder of Debentures of a Change of Control.

**“Put Price”** means 101% of the principal amount of the Debentures.

**“QF”** means a qualifying facility under the FPA, as amended by PURPA.

**“Reserve Account”** means the reserve account established by the Company at the time of its IPO to stabilize future cash distributions and fund acquisitions and other growth opportunities.

**“ROFO Projects”** means the 11 power generation projects described under “Description of the Business – Objectives and Business Strategy – Opportunity to Purchase ArcLight Projects”.

**“S&P”** means Standard and Poor’s, a division of The McGraw-Hill Companies, Inc.

**“Securities Commissions”** means the securities commissions or securities regulatory authority in the provinces and territories of Canada in which the Company is a reporting issuer (or equivalent).

**“Senior Secured Indebtedness”** means the principal of and the interest and premium (or any other amounts payable thereunder), if any, on:

- (i) all secured indebtedness, liabilities and obligations of the Company and any Guarantor, whether outstanding on the date of the Debenture Indenture or thereafter created, incurred, assumed, or guaranteed in connection with the acquisition by the Company of any Guarantor of any businesses, properties or other assets or for monies borrowed or raised by whatever means (including, without limitation, by means of commercial paper, bankers’ acceptance, letters of credit, debt instruments, bank debt and financial leases, and any other secured liability evidenced by bonds, debentures, notes or similar instruments) or in connection with the acquisition of any businesses, properties or other assets or for monies borrowed or raised by whatever means (including, without limitation, by means of commercial paper, bankers’ acceptance, letters of credit, debt instruments, bank debt and financial leases, and any other secured liability evidenced by bonds, debentures, notes or similar instruments) by others including, without limitation, any Significant Entity of the Company or any Guarantor, for payment of which the Company or Guarantor is responsible or liable, whether absolutely or contingently;
- (ii) all secured obligations of the Company, any Guarantor or any Significant Entity under (A) currency exchange, interest rate or commodity swap agreements, currency exchange, interest rate or commodity cap agreements and currency exchange, interest rate or commodity collar agreements, and (B) other agreements or arrangements designed to manage or hedge fluctuations in currency exchange, interest rates or commodity prices;
- (iii) all indebtedness, liabilities and obligations under the guarantee(s) now or at any time hereafter granted by the Company, any Guarantor or any of their Significant Entities in respect of the obligations, liabilities and indebtedness under the credit agreements in connection with the Amended Credit Facility and the Acquisition Credit Facility; and
- (iv) renewals, extensions, restructurings, refinancings and refundings of any such indebtedness, liabilities or obligations,

unless in each case it is provided by the terms of the instrument creating or evidencing such secured indebtedness, liabilities or obligations that such secured indebtedness, liabilities or obligations are not superior in right of payment to Debentures which by their terms are subordinated, which for greater certainty includes the initial debentures; and “Senior Secured Indebtedness” shall, in all events, exclude the Subordinated Notes but include all of the obligations of the borrower, issuer and/or guarantor under the Amended Credit Facility and the Acquisition Credit Facility.

**“Separate Subordinated Notes”** means the approximately Cdn\$39.5 million principal amount of Subordinated Notes issued and sold separately from the IPSs by the Company.

**“Significant Entity”** means, with respect to any person, (i) any corporation, association or other business entity (other than a partnership, joint venture or limited liability company) of which 40% or more of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time of determination owned or controlled, directly or indirectly, by such person or one or more of the other Significant Entities of that person or a combination thereof and (ii) any partnership, joint venture or limited liability company of which 40% or more of the capital accounts, distribution rights, total equity and voting interests or general and limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such person or one or more of the other Significant Entities of that person or a combination thereof, whether in the form of membership, general, special or limited partnership interests or otherwise and such person owns or controls, directly or indirectly, 40% or more of the total equity and voting rights of the general partner of such entity.

**“Subordinated Indebtedness”** means, with respect to the Company, any Guarantor or any Significant Entity, (i) all indebtedness which is not senior indebtedness or *pari passu* indebtedness, (ii) the Subordinated Notes, (iii) all unsecured indebtedness or obligations of the Company, any Guarantor or any Significant Entity, and (iv) any indebtedness of the Company, any Guarantor or any Significant Entity that is subordinated pursuant to the terms of the instrument creating or evidencing such indebtedness.

**“Subordinated Notes”** means the 11.0% subordinated notes of the Company issued in accordance with the Indenture.

**“TAC”** means transmission access charges.

**“Targeted Cash Distribution”** means Cdn\$1.00 per IPS and, following the maturity, redemption or repurchase of all the Subordinated Notes or the separation of all of the IPSs, means Cdn\$0.3657 per Common Share.

**“Tax Act”** means the *Income Tax Act* (Canada) and the regulations thereunder, in each case in effect on the date hereof.

**“Teton Funding”** means Teton Power Funding, LLC.

**“Treasury Regulations”** means the U.S. Treasury regulations (including final, temporary and proposed regulations) promulgated under the Code.

**“Trustee”** means Computershare Trust Company of Canada.

**“TSR”** means transmission system right.

**“TSX”** means the Toronto Stock Exchange.

**“Umatilla Funding”** means Umatilla Power Funding, LLC.

**“Underwriting Agreement”** means the underwriting agreement among the Company, Atlantic Holdings and certain underwriters dated September 22, 2006 entered into in connection with the offering of IPSs and the Debentures by way of a bought deal.

**“U.S. Holder”** means any Holder that is not a Non-U.S. Holder.

**“Vendors”** means New Transmission Development Company, United States Power Fund, L.P., Cardinal Power Funding, LLC (an affiliate of ArcLight) and TransValley Transmission LLC.

**“Western”** means Western Area Power Administration.

## GENERAL

The information in this annual information form is stated as at December 31, 2006, unless otherwise indicated.

Certain capitalized terms used in this annual information form have the meaning set out under “Glossary of Terms”. In this annual information form, references to “Cdn\$” and “Canadian dollars” are to the lawful currency of Canada and references to “\$”, “US\$” and “U.S. dollars” are to the lawful currency of the United States. All dollar amounts herein are in U.S. dollars, unless otherwise indicated.

## **FORWARD LOOKING STATEMENTS**

Certain statements in this annual information form may constitute “forward-looking statements”, which reflect the expectations of Atlantic Power Management, LLC (the “Manager”) regarding future growth, results of operations, performance and business prospects and opportunities of Atlantic Power Corporation (the “Company”), Atlantic Power Holdings, LLC (“Atlantic Holdings”) and the Projects (as defined below). Such forward-looking statements reflect current expectations regarding future events and operating performance and speak only as of the date of this annual information form. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by which such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under “Risk Factors”. Although the forward-looking statements contained in this annual information form are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this annual information form and, except as expressly required by applicable law, the Company assumes no obligation to update or revise them to reflect new events or circumstances.

## **THE COMPANY, ATLANTIC HOLDINGS, THE MANAGER AND ARCLIGHT**

### **The Company**

The Company is a corporation continued under the laws of the Province of British Columbia on July 8, 2005. The registered office of the Company is located at 355 Burrard Street, Suite 1900, Vancouver, British Columbia V6C 2G8 and the head office of the Company is located at 200 Berkeley Street, B-7, Boston, Massachusetts, USA 02117. The Company, through its wholly-owned subsidiary Atlantic Holdings, owns interests in a diversified portfolio of 15 power generation projects and one electric transmission line (collectively, the “Projects”, and individually, a “Project”) located predominantly in major markets in the United States. 15 of the Projects are located in nine states in the U.S. and one Project is located in Jamaica. The power generation Projects have an aggregate gross electric generation capacity of approximately 2,160 MW, and Atlantic Holdings’ net ownership interest in the electric generation capacity of the Projects is approximately 860 MW.

### **Atlantic Holdings**

Atlantic Holdings is a Delaware limited liability company. The registered office of Atlantic Holdings is located at 2711 Centerville Road, Suite 400, Wilmington, Delaware, USA 19808 c/o Corporation Service Company and the head office of Atlantic Holdings is located at 200 Clarendon Street, Floor 25, Boston, Massachusetts, USA 02116.

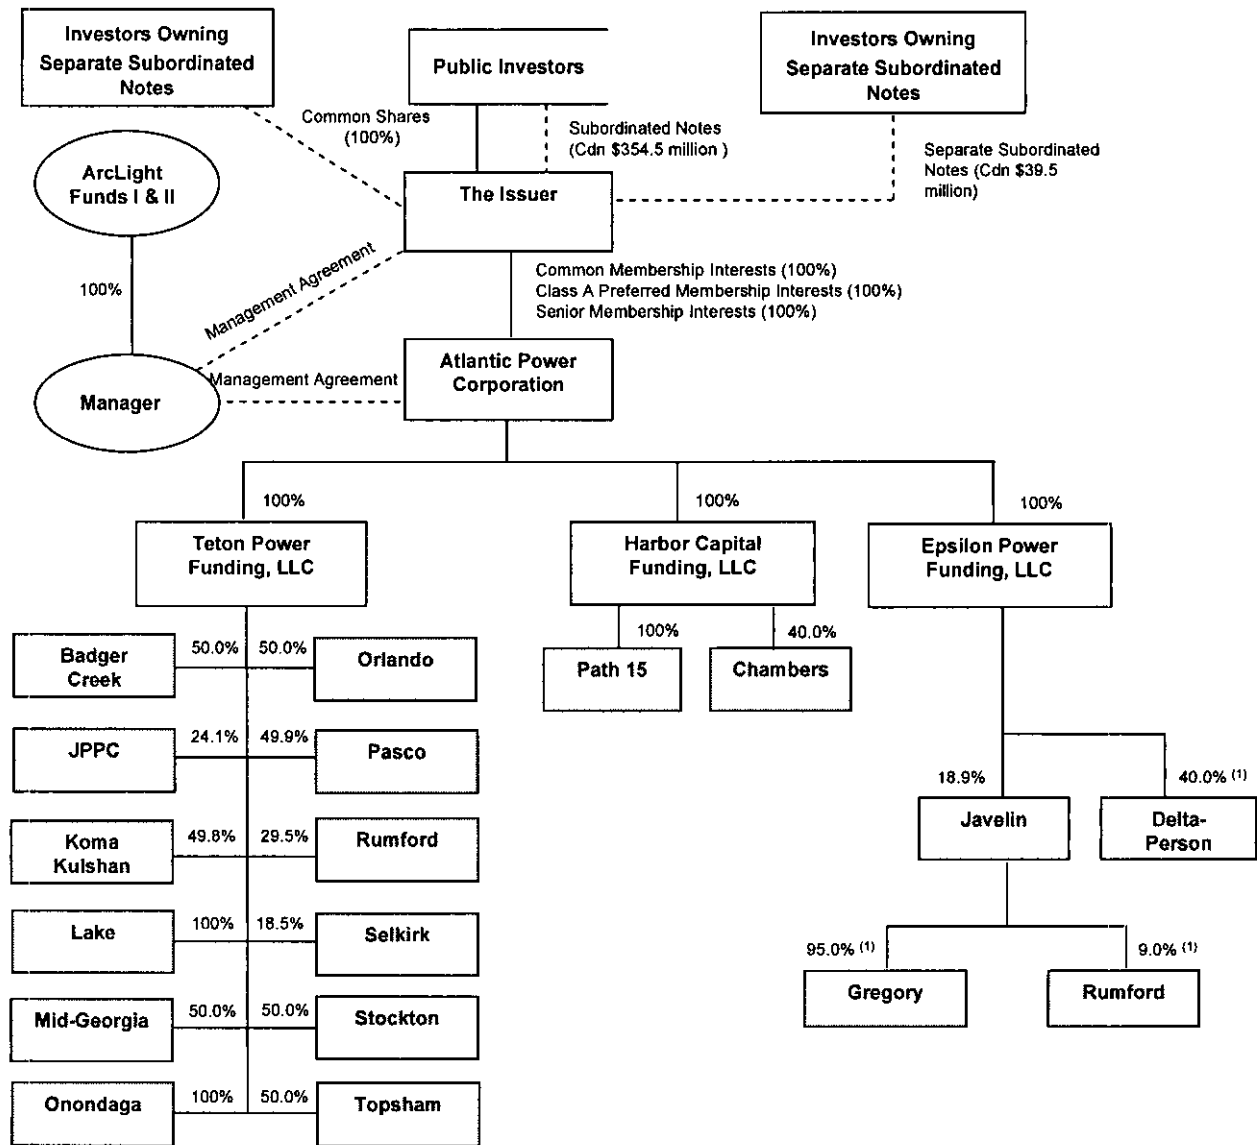

### **The Manager**

The Manager is a Delaware limited liability company owned by ArcLight Energy Partners Fund I, L.P. (“Fund I”) and ArcLight Energy Partners Fund II, L.P. (“Fund II”), which are investment funds managed by ArcLight Capital Partners, LLC (“ArcLight”), a Delaware limited liability company. The Manager provides management and administrative services to the Company and its subsidiaries pursuant to the terms of a management agreement dated as of November 10, 2004 (the “Management Agreement”). The Manager manages the business with the objective of providing holders of IPSs with stable and sustainable cash distributions in the form of interest payments on the Subordinated Notes and dividends on the Common Shares. The Manager is also focused on identifying additional acquisitions and investments for the Company, including acquisitions of, or investments in, power, energy, transmission, distribution, utility, infrastructure and related assets primarily in Canada and the U.S.

## **ArcLight**

ArcLight, was founded in 2001 and is a leading specialized private equity firm exclusively focused on the energy industry. Through its three private equity funds, ArcLight manages over \$4.6 billion of private equity capital, of which nearly \$2.5 billion has already been committed or invested in over 60 transactions. ArcLight has substantial investments in power generation, gas storage, gas distribution, coal mining, distributed generation, cogeneration and other combined heat and power facilities, electric power transmission and oil and gas production assets.

The following chart illustrates in simplified form the structure of the Company and its indirect ownership interests in the Projects.

<sup>(1)</sup> Represents Atlantic Holdings' estimate of its share of the cash flow from the Project.

## GENERAL DEVELOPMENT OF THE BUSINESS

Upon completion of its initial public offering of 32,000,000 IPSs and private placement of \$30,221,000 (Cdn\$36,501,000) aggregate principal amount of Subordinated Notes on November 18, 2004, the Company subscribed for 32,000,000 common membership interests and 38,329,287 Class A preferred membership interests in Atlantic Holdings for total consideration of approximately \$276,695,000 (Cdn\$334,192,000). Atlantic Holdings used approximately \$94,711,000 (Cdn\$114,393,000) of this amount, together with 31,291,865 common membership interests and 31,291,865 Class B preferred membership interests issued by it, to acquire Teton Funding, Epsilon Funding and Umatilla Funding from the Existing Investors. Atlantic Holdings also used approximately \$167,831,000 (Cdn\$202,707,000) of the proceeds from the subscription for membership interests by the Company to repay outstanding indebtedness to Teton Funding.

Upon the exercise on December 6, 2004 of an over-allotment option granted to the underwriters to the IPO, the Company subscribed for 4,800,000 common membership interests and 4,800,000 Class A preferred membership interests in Atlantic Holdings for total consideration of \$37,655,000 (Cdn\$45,480,000). Atlantic Holdings used this amount to redeem 4,800,000 common membership interests and 4,800,000 Class B preferred membership interests held by the Existing Investors.

Upon completion of the transactions described above, the Company and the Existing Investors owned 58.1% and 41.9% of the common membership interests in Atlantic Holdings, respectively.

On January 12, 2005, Atlantic Holdings increased its indirect interest in the Gregory project from 9.4% to 17.1% or 68 net MW. The interest was acquired indirectly via Atlantic Holding's interest in Javelin and was accomplished using cash available at the project level. For further information with respect to the acquisition, see "Project Descriptions – Gregory Project".

In March 2005 the MASSPOWER project completed the restructuring and monetization of three of its four PPAs through a buy out of the contracts by Boston Edison and Commonwealth Electric. During the second and third quarters of the year the project liquidated its long term fuel commodity and transport agreements.

On August 11, 2005, the Company announced the acquisition, through Atlantic Holdings, of Epsilon Power Partners, LLC, which owns a 40% interest in Chamber Cogeneration LP ("Chambers"), the owner and operator of a net 262 MW pulverized coal-fired cogeneration facility located at E.I. Dupont de Nemours & Company's Chambers Works complex in southwestern New Jersey.

On September 8, 2005, the Company announced an increase in annual distributions per share of \$0.03 per share commencing with the September 2005 distribution.

On October 3, 2005, the Company issued 7,500,000 IPSs to Caisse de dépôt et placement du Québec and 39,500 IPSs to the President and Chief Executive Officer and the Managing Director of the Manager pursuant to a private placement. Net proceeds of the private placement were used by the Company to increase its common membership interest in Atlantic Holdings to 70.1%. The remaining 29.9% of the common membership interests and all of the outstanding Class B preferred membership interests in Atlantic Holdings were held by the Existing Investors.

On December 28, 2005, Atlantic, along with its co-owners of the MASSPOWER facility, sold its interest in the facility. The Company's share of the total distributions generated from the operations, PPA restructuring, fuel contract liquidation and sale of the facility in 2005 totalled \$61.5 million.

On September 15, 2006, the Company, through a subsidiary of Atlantic Holdings, completed the acquisition of 100% of the equity interests in Trans-Elect NTD Holdings Path 15, LLC ("Path 15 Holdco"), which indirectly owns approximately 72% of the transmission system rights ("TSRs") in the transmission line upgrade along the Path 15 transmission corridor located in central California. The purchase price for the equity interests in Path 15 Holdco was approximately \$85.5 million. In connection with this transaction, the Company,

through Atlantic Holdings, entered into the Acquisition Credit Facility in the amount of \$88 million, which was drawn on the closing of the acquisition. For further details on the Path 15 Project, see “Project Descriptions – Path 15 Project”.

Subsequent to the acquisition of equity interests in Path 15 Holdco, Path 15 Holdco was renamed Atlantic Path 15 Holdings, LLC and Path 15 Opco was renamed Atlantic Path 15, LLC.

On September 15, 2006, the Company also announced an increase in its monthly distribution on the IPSs by Cdn\$0.0025 per IPS per month (Cdn\$0.03 annually). The first distribution of the increased rate was paid on October 31, 2006 to IPS holdings of record at the close of business on September 29, 2006.

On October 11, 2006, the Company completed the sale of IPSs and the Debentures for gross proceeds of Cdn\$150,000,000. The offering consisted of 8,531,000 IPSs sold at a price of Cdn\$10.55 per IPS for gross proceeds of Cdn\$90 million and Cdn\$60 million aggregate principal amount of the Debentures. For further information regarding the IPSs and the Debentures, see “The Company – Description of IPSs” and “– Description of Debentures”.

The net proceeds of the offering were used by the Company to: (i) partially repay \$37 million of the credit facility arranged in connection with an acquisition of an interest in the Path 15 Project (the “Acquisition Credit Facility”), and (ii) provide proceeds to Atlantic Holdings that were used to redeem a portion of the ownership interests in Atlantic Holdings held by the Existing Investors. In connection with the closing of the bought deal financing, the Company increased its ownership in Atlantic Holdings from 70.1% to approximately 86.0%.

On December 20, 2006, the Company completed a private placement of 8,600,000 IPSs and Cdn \$3.0 million principal amount of Separate Subordinated Notes to three institutional investors, including the Caisse de dépôt et placement du Québec who as a result owned 19% of the Company’s Common Shares at that time. On February 7, 2007, the Company used the net proceeds of the private placement to redeem all of the remaining interests held by the Existing Investors in Atlantic Holdings. Following completion of the redemption, Atlantic Holdings became a wholly-owned subsidiary of the Company.

## **POWER INDUSTRY OVERVIEW**

### **Independent Power Generation and North American Demand Outlook**

Historically, the North American electricity industry was characterized by vertically-integrated monopolies. During the late 1980s, several jurisdictions began a process of restructuring by moving away from vertically integrated monopolies towards more competitive market models. Rapid growth in electricity demand, environmental concerns, increasing electricity rates, technological advances and other concerns prompted government policies to encourage the supply of electricity from independent power producers.

In the independent power generation sector, electricity is generated from a number of sources, including water, natural gas, coal, waste products such as biomass (e.g., wood, wood waste, agricultural waste), landfill gas, geothermal, sun and wind. According to a report published in October 2006 by the North American Electric Reliability Council (“NERC”) on the long-term reliability assessment of bulk electric systems in North America, the average annual peak demand growth rate for electricity for since 1995 was 2.0% per annum in the U.S. and 0.9% per annum in Canada. The NERC projects that average annual peak demand growth for the period 2006 to 2015 will be 1.9% in the U.S. and 1.1% in Canada.

### **The Non-Utility Power Generation Industry**

The 15 generation Projects are non-utility electric generating facilities that operate primarily in the U.S. electric power generation industry. The electric power industry is one of the largest industries in the U.S., generating sales in excess of \$298 billion in 2005 based on information published by the Energy Information

Administration ("EIA"), a statistical agency of the U.S. Department of Energy. A growing portion of the power produced in the U.S. is generated by non-utility generators. According to the EIA, there were approximately 8,007 non-utility generators representing 459 GW of capacity and 1,501 GWhs of total net electric generation in 2005, the most recent year for which data is available, (equal to 45%, 46% and 37%, respectively, of total generating plants, capacity and electricity generated). Non-utility generators sell the electricity that they generate to electric utilities and other load-serving entities (such as municipalities and electric cooperatives) by way of bilateral contracts or open power exchanges. The electric utilities and other load-serving entities, in turn, generally sell this electricity to industrial, commercial and residential customers. The power generated by the Projects is generally sold under long-term contracts.

The Manager believes that merger and acquisition activity in the power generation sector over the next several years will be characterized by continued divestiture activity and focused acquisitions aimed at restructuring portfolios.

### **Industry Regulation**

In the United States, the trend toward restructuring the electric power industry and the introduction of competition in electricity generation commenced with the passage and implementation of the *Public Utility Regulatory Policies Act of 1978*, as amended ("PURPA"). Among other things, PURPA, as implemented by the United States Federal Energy Regulatory Commission ("FERC"), generally required that vertically integrated electric utilities purchase power from qualifying facilities ("QFs") at their avoided cost. FERC defines avoided cost as the incremental cost to a utility of energy or capacity which, but for the purchase from QFs, the utility would itself generate or purchase from another source.

A QF is a distinct type of energy producer that falls into one or both of two primary classes. The first class of QFs includes energy producers that generate power using specific energy sources such as wind, solar, geothermal, hydro, biomass or waste fuels. The second class of QFs includes cogeneration facilities. With the exception of QFs, generation, transmission and distribution of electricity remained largely owned by vertically integrated electric utilities until the enactment of the *Energy Policy Act of 1992* (the "EPAAct of 1992") and subsequent orders in 1996, along with electric industry restructuring initiated at the state level. Among other things, the EPAAct of 1992 enhanced FERC's power to open access to power transmission systems, contributing to significant growth in the independent power generation industry.

On August 8, 2005, EPAAct 2005 was enacted, which removed certain regulatory constraints on investment in utility power producers by repealing the PUHCA 1935 and enacting the PUHCA 2005. EPAAct 2005 also limited the requirement that electric utilities buy electricity from QFs to certain markets that lack competitive characteristics. Finally, EPAAct 2005 amended and expanded the reach of FERC's corporate merger approval authority under section 203 of the FEA.

The revenue stream associated with the Path 15 Project is regulated by the FERC on a cost-of-service rate base methodology, which insulates cash flows from any impacts of power prices or actual line usage. The approved rate base includes all costs of Path 15 Opco, a wholly-owned subsidiary of Path 15 Holdco, and Path 15 Opco earns an allowed rate of return that is reviewed by the FERC every three years, and the rate base is depreciated over 30 years. All prudently incurred operating and maintenance costs and capital expenditures may be collected in rates charged. The California Independent System Operator ("CAISO") collects transmission access charges ("TACs") being paid predominantly by the state's investor-owned utilities and passes them on to transmission owners, such as Path 15 Opco.

## DESCRIPTION OF THE BUSINESS

### Business Strengths

#### *Diversified Portfolio of Power Generating Projects*

The power generation Projects represent approximately 860 MW of net generating capacity and are diversified by geographic location, electricity, steam off-takers and project operators. 14 of the Projects are located across nine states in the U.S., representing most major U.S. power markets, and one Project is located in Jamaica. The Projects are diversified across most of the deregulated electricity markets in New England, New York, PJM, California and Texas or are located in regions of high electricity demand growth such as Florida, Georgia, Texas and New Mexico. As a result, the Company's exposure to various conditions (such as market, regulatory or environmental conditions) specific to any particular region is limited.

The generation Projects have contracts with 23 different electricity and steam off-takers. Progress Energy Florida, Inc. ("PEF"), Georgia Power Company ("Georgia Power") and National Grid are the largest electricity off-takers of the Projects, purchasing approximately 24%, 18% and 12% of the Projects' net electric generation capacity, respectively. No other electricity off-taker purchases more than 9% of the Projects' net electric generation capacity.

The generation Projects rely on a number of different operators for their operation. Affiliates of Caithness, Cogentrix Energy, Inc. and Arroyo Energy Investors, LP operate Projects representing approximately 48%, 19% and 11% of the total electric generation capacity of the Projects, respectively. No other operator is responsible for the operation of Projects representing more than 7% of the Projects' total electric generation capacity.

The Path 15 Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point in the state's north-south capacity. The Path 15 Project began commercial operations in December 2004 and is operated by the Western Area Power Administration, a Federal agency.

The revenue stream associated with the Path 15 Project is regulated by the FERC on a cost-of-service rate base methodology, which insulates cash flows from any impacts of power prices or actual line usage. The approved rate base includes all costs incurred by Path 15 Opco to construct and finance the Path 15 transmission line and is depreciated over 30 years. Path 15 Opco earns an allowed rate of return that is reviewed by the FERC every three years. In addition, all prudently incurred operating and maintenance costs and capital expenditures may be collected in rates charged. The California Independent System Operator ("CAISO") collects transmission access charges ("TACs") being paid predominantly by the state's investor-owned utilities and passes them on to transmission owners, such as Path 15 Opco.

#### *Predictable, Stable and Sustainable Cash Distributions*

Approximately 93% of the Projects' net electric generation capacity is sold to electricity off-takers having investment grade credit ratings from S&P. The Projects generally have long-term fuel supply arrangements that match the term of their respective PPAs. Each of the generating Projects has been operating for a minimum of five years.

The Company's cash flow from the Projects will vary from year to year based on, among other things, changes in rates under the PPAs, fuel supply agreements, steam sales agreements and other Project contracts, compliance with the terms of Project-level financing and other contractual arrangements including debt repayment schedules, the transition to market pricing or new contracts following the expiry of original PPAs and fuel supply and transportation contracts, working capital requirements and the performance generally of the Projects. There is some seasonality of Project revenues created by seasonal variances in demand for electric

power, in some cases varied seasonal pricing for portions of the PPA payments and relatively small amounts of uncontracted output, and the typical scheduling of major facility maintenance in the spring and fall.

Variations in cash flow are also driven by the timing of project debt payments (i.e., most are quarterly and some semi-annual), as distributions from the Projects to the Company must occur in conjunction with the passing of certain tests at those payment dates. In order to provide holders of IPSs with stable and sustainable cash distributions, the Company placed \$10 million into a Reserve Account that may be used to stabilize future cash distributions and fund acquisitions and other growth opportunities.

#### ***Sponsorship of ArcLight Capital Partners, LLC***

Fund I and Fund II are indirect owners of the Manager. ArcLight, as manager of Fund I and Fund II, has input related to the management of the Manager. ArcLight possesses a management team with substantial energy investing experience and industry relationships. ArcLight is one of the leading private investment firms focused exclusively on the electric power and energy sectors with over \$4.6 billion under management. The Manager believes that its relationship with ArcLight will continue to provide access to additional compelling investment opportunities.

#### ***Opportunities to Grow Distributable Cash***

The Manager expects continued changes in the U.S. power markets and project ownership to provide the Company with opportunities for accretive acquisitions. The Manager believes that the experience and industry relationships of its employees, together with its ongoing relationship with ArcLight, will allow it to provide the Company with unique access to such acquisition opportunities.

The Manager intends to enhance the operation of the Projects and increase cash distributions through the: (i) optimization of commercial arrangements such as PPAs, fuel supply and transport contracts, steam sales agreements and management and operation agreements; (ii) achievement of operating efficiencies; (iii) upgrade or enhancement of existing equipment or plant configurations; and (iv) expansion of existing Projects. The Manager believes that opportunities also exist to consolidate, on an accretive basis, ownership positions in the Projects in which the Company owns partial interests and that financial restructuring and recapitalization opportunities at the Projects may provide capital to the owners of the Projects to fund future growth opportunities.

#### **Objectives and Business Strategy**

The Company's objectives include maintaining the stability and sustainability of its cash distributions to holders of IPSs and to increase, when prudent, cash distributions on the Common Shares. In order to achieve these objectives, the Company intends to focus on enhancing the financial performance of the Projects and pursuing additional acquisitions and investments with a focus on the electric power industry in the U.S. and Canada.

#### ***Acquisition and Investment Strategy***

Where practical and economical, the Company intends to expand its operations by making additional investments and acquisitions with a focus on power generation, transmission distribution and related facilities in the U.S. and Canada, and such other businesses or activities, including investments in other forms of energy-related projects, utility projects and infrastructure projects. The Company will make additional acquisitions or investments only where it believes that such acquisition or investment meets the Company's acquisition and investment guidelines. Such acquisitions or investments may be financed through the issuance of additional IPSs or other securities of the Company, from the cash flows of the Company, from cash on hand including any amounts held in the Reserve Account, from the proceeds of asset sales or by incurring additional indebtedness, which may be non-recourse to the Company.

Certain regions of North America are expected to require new sources of electricity supply due to growth in electricity demand, transmission constraints or the obsolescence of, and environmental concerns associated with, older native generation. The Manager believes that new electricity generation projects will emerge throughout Canada and the U.S. over the next several years. As new projects are developed, the Manager expects to be able to present additional acquisition and investment opportunities to the Company. ArcLight is contractually obligated to give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that ArcLight has determined do not fit within the investment guidelines for Fund I, Fund II or other future investment funds managed by ArcLight or its affiliates, or that fit within such guidelines but the investment funds have determined not to pursue. The Manager believes that there will be many such opportunities.

#### ***Acquisition and Investment Guidelines***

The following guidelines will be used in the review and evaluation of possible acquisitions and other investments:

- each acquisition or investment will be made only if the Manager believes that the acquisition or investment will result in an increase in cash available for distribution to holders of IPSs;
- each acquisition or investment will be reviewed and approved by the board of managers of Atlantic Holdings;
- in the case of an acquisition of, or investment in, power generation facilities, facilities with long-term PPAs with major electrical utilities or other creditworthy offtakers will be preferred; and, for facilities without such agreements, free market electricity price assumptions used in acquisition or investment evaluations will be obtained from a recognized independent source;
- in the case of an acquisition of, or investment in, a power generation facility, the expected useful life of the facility and associated structures will, with regular maintenance and upkeep, be long enough for an investment therein to conform with the Company's objective of providing stable long-term cash distributions to holders of IPSs;
- in the case of acquisitions or investments involving ArcLight or its affiliates or investment funds managed by ArcLight or an affiliate of ArcLight, the acquisition or investment will be reviewed and approved by the independent members of the board of managers of Atlantic Holdings.

#### ***Opportunity to Purchase ArcLight Projects***

In connection with the IPO, Atlantic Holdings was granted a right of first offer on the ROFO Projects. In May 2005, Atlantic Holdings declined an offer to acquire nine of the projects under the ROFO process and those projects were eventually sold to a third party by ArcLight in December 2005. In September 2005, Atlantic Holdings purchased the Carney's Point facility ("Carneys") from ArcLight through the ROFO process. As at December 31, 2006, one project (Auburndale) remained available as a potential acquisition under the ROFO agreement. The Auburndale project is a gas fired cogeneration project located in Florida. The net MW of power generating capacity of this project that is available under the ROFO arrangement is 107 MW.

Should Fund I desire to sell its interest in the Auburndale project; it must first offer such interest for sale to Atlantic Holdings at a specified price. If such first offer is not accepted by Atlantic Holdings within a 45-day period, Fund I may then, within the following 180 days, sell its interest in the project to any third party purchaser at a price and on terms no more favourable to the third party than those offered to Atlantic Holdings. If, within this 180-day period, Fund I receives an offer from a third party to purchase its interest in the Auburndale project that it is prepared to accept, but which hasas terms or price more favourable to the third party than those offered to Atlantic Holdings, then, before it may accept the offer, Fund I must give Atlantic Holdings notice of the offer and Atlantic Holdings will have a 30-day period to match the offer. If, however, Fund I has not sold its interest in the Auburndale project during such 180-day period, the procedures described

in this paragraph will again apply with respect to any potential future sale of its interest in the Auburndale project.

***Extending PPAs Following Their Expiration***

PPAs in the portfolio have various expiration dates as listed in the Summary Table of Projects on the next page. In each case, the Project's partners plan for such expirations by evaluating various options in the market in order to continue maximizing project cash flows. For example, partners of projects with PPA expirations in 2008 and 2009 have already commenced preparation for potential new or extended power purchase arrangements. The new arrangements may involve responses to utility solicitations for capacity, direct negotiations with the original purchasing utility for PPA extensions, or arrangements with creditworthy marketers for tolling agreements, full service PPAs or the use of derivatives to lock in value. Management has not assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations. Potential risks associated with obtaining extended or new PPAs is discussed later in the "Risk Factors" section.

## SUMMARY TABLE OF THE PROJECTS

Project Name	Location (State)	Fuel Type	Total MW	Economic Interest <sup>(1)</sup>	Accounting Treatment <sup>(2)</sup>	Net MW <sup>(3)</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating
Badger Creek	California	Natural Gas	46	50.00%	P	23	Pacific Gas & Electric	2011	BBB

- (1) Except as otherwise noted, economic interest represents the percentage ownership interest in the project held indirectly by Atlantic Holdings.
- (2) Accounting Treatment: C – Consolidated; P – Proportionate Consolidation; E – Equity Method of Accounting (see Note 1 of Consolidated Financial Statements for additional details).
- (3) Represents the interest of Atlantic Holdings in each Project's electric generation capacity based on Atlantic Holdings' economic interest in each Project.
- (4) The merchant output of the facility is sold by Atlantic City Electric in the spot market through a profit sharing arrangement with Chambers.
- (5) Represents Atlantic Holdings' estimate of its share of the cash flow from the project.
- (6) A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.
- (7) For further information, see discussion of the new interim financial consolidation agreement with the former Mead/Westvaco paper mill (now owned by NewPage) under "Project Descriptions — Rumford Project".
- (8) Atlantic Holdings owns its interest in this Project as a lessor.
- (9) California utilities pay Transmission Access Charges ("TACs") to California ISO, who owners of Transmission System Rights, such as Path 15, in accordance with its FERC approved annual revenue requirement.
- (10) Path 15 is a FERC regulated asset with a FERC-approved regulatory life of 30 years: through 2034
- (11) Largest payers of TACs supporting Path 15's annual revenue requirement are PG&E (BBB), SoCal Ed (BBB+) and SDG&E (A). CAISO imposes minimum credit quality requirement for any participants of A or better unless collateral is posted per CAISO imposed schedule.
- (12) Rating from Fitch

## **Commercial Structure and Operation of the Projects**

Atlantic Holdings indirectly owns interests in each of the Projects as described in the above table. Fifteen of the Projects are located in nine states in the U.S. and one Project is located in Jamaica. The Projects have an aggregate gross electric generation capacity of approximately 2,160 MW, and Atlantic Holdings' net economic interest in the electric generation capacity of the Projects is approximately 860 MW. One project is a transmission line in California. In addition, Atlantic Holdings owns 72% of the TSRs for the Path 15 Project; an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point in the state's north-south capacity.

The discussion below describes certain general characteristics of the commercial structure and operations of the Projects.

### ***Ownership and Project Financing***

The Projects are typically owned by the Project Operating Entities, in which the owners of the Projects hold limited partnership, general partnership or other equity interests. Atlantic Holdings' interests in each of Projects are held, directly or indirectly, through a Project Holding Entity.

Typically, construction of the Projects was financed by non-recourse loan arrangements, certain of which remain outstanding. These loan arrangements are typically secured by the Project assets, including associated contracts, and contain extensive affirmative and negative covenants on the part of the Project Operating Entity that may restrict their activities and, in some cases, limit or prevent distributions of cash. In addition, the partnership or other equity interests in Project Operating Entities with outstanding indebtedness, including those held indirectly by Atlantic Holdings, are in some cases pledged to the Project lenders to secure such indebtedness. In the event of a default that has not been cured, the lenders may foreclose on the equity interests of the Project Operating Entity, including those held indirectly by Atlantic Holdings.

### ***Energy, Capacity and Steam Sales***

The majority of the generating Projects have long-term PPAs for the sale of electricity to off-takers having investment grade credit ratings, with some of the Projects having more than one PPA. The expiry dates of the PPAs vary from 2008 to 2037. Generally, the Projects receive payments for electric energy sold under PPAs (known as energy payments) as well as for electric generation capacity (known as capacity payments). In addition, the majority of the Projects which are coal or natural gas-powered co-generation QFs sell steam under steam sales agreements to industrial purchasers.

### ***Transmission System Rights***

The Path 15 Project is entitled to receive its FERC-regulated annual revenue requirement based on the 72% of Path 15's transmission system rights that it owns.

### ***Fuel Supply Arrangements***

The coal and natural gas-powered Projects generally have long-term supply agreements for the fuel required to operate the Project. These purchase agreements may also be accompanied by fuel transportation arrangements. In many cases, the fuel supply and transportation arrangements have been designed to correspond to the term of the PPAs and most of the Projects' PPAs and steam sales agreements provide for the pass through or indexing of fuel costs to the off-takers.

### ***Operations and Maintenance***

The Projects are typically operated and maintained by third party operators under management and/or operations and maintenance contracts with the relevant Project Operating Entity. Some of these agreements are long-term, while others have shorter terms and provide generally for subsequent renewal terms. Teton

Operating Services LLC, a subsidiary of Teton Funding, has assumed responsibility under operations and maintenance contracts for the Lake, Mid-Georgia, Onondaga and Pasco Projects. An affiliate of Caithness has been retained to perform the services to be provided by Teton Operating Services LLC under these contracts under certain operations and maintenance agreements (the "Caithness O&M Agreements") which expire in December 2011. Under the Caithness O&M Agreements, the operator is responsible for operations, maintenance and repair services.

### *Asset Management Strategy*

The Manager's asset management strategy is to partner with recognized leaders in the independent power business. Atlantic Holdings' interests in the majority of the Projects are managed by Caithness;; Cogentrix Energy, Inc. ("Cogentrix"), a subsidiary of Goldman Sachs;; Arroyo Energy Investors, LP ("Arroyo"), a subsidiary of Bear Stearns;;and, in the case of Path 15, Western Area Power Administration ("Western" a U.S. federal power agency). On a case-by-case basis, Caithness, Cogentrix, Arroyoand Western may provide: (i)day-to-day project-level management, such as operations and maintenance and certain asset management; (ii) and certain partnership level management tasks, such as insurance renewals; (iii) passive partnership level management, such as acting as limited partner; and (iv) management responsibility over the investment or pool of investments. In some cases these project managers or the project partnerships may subcontract with other firms experienced in project operations such as General Electric to provide for day-to-day plant operations. The Manager is involved in all major decisions and drives value-creating transactions such as contract restructurings, asset-level refinancing, acquisitions and divestitures.

Caithness is one of the largest privately-held independent power producers in the United States and is actively engaged in the development, acquisition and management of power facilities for its own account as well as in ventured arrangements with other entities. During its 25 years in the independent power business, Caithness, through its subsidiaries, has assembled a domestic power generation portfolio comprised of economic interests in 21 operating power projects totalling approximately 1,055 MW of nameplate capacity. Caithness' portfolio of operating projects consists of approximately 222 MW of gas-fired projects, 340 MW of geothermal projects, 160 MW of solar projects and 333 MW of wind projects.

Cogentrix develops, owns, and operates independent power plants, located primarily in the US. The company has an operational generating capacity of 3,300 MW from its ownership in more than 20 coal and gas-fired facilities. The company also sells electricity wholesale to utilities and power marketers, primarily through long-term purchase or conversion contracts. New York-based investment firm Goldman Sachs Group acquired Cogentrix in December 2003. Cogentrix manages operation of the 262 MW Carney's Point (Chambers) power plant in which Atlantic owns a 40% interest and the 345 MW Selkirk facility in which Atlantic owns an 18% economic interest.

Arroyo invests in and manages over 2,400 MW of generating capacity in a portfolio that includes over 20 generating facilities as well as a 100% ownership of a number of structured wholesale power sales agreements. Arroyo manages the Gregory and Badger facilities in which Atlantic Holdings owns 17% and 50% interests, respectively.

Western markets and delivers hydroelectric power and related services within a 15-state region of the central and western U.S. Western is one of four power marketing administrations within the U.S. Department of Energy whose role is to market and transmit electricity from multi-use water projects. Western's transmission system carries electricity from 57 power plants operated by the Bureau of Reclamation, U.S. Army Corps of Engineers and the International Boundary and Water Commission. Together, these plants have an operating capacity of 8,785 megawatts. Western owns and operates the Path 15 Project in which Atlantic Holdings indirectly owns 72% of the TSRs.

### *Site Leases*

The Projects are generally constructed on leased sites. Many of the sites are leased from a neighbouring electricity or steam off-taker. The site leases provide for terms longer than the term of the Project's PPA.

## ***Regulation***

All of the generating Projects are QFs, EWGs or dually-certified, pursuant to FERC regulations. Twelve of the Projects are QFs and the three that are not QFs are exempt wholesale generators ("EWGs") under the *Public Utility Holding Company Act of 2005*, as amended ("PUHCA 2005"). The generating Projects with QF status are exempt from FERC rate-making. The Onondaga and Delta-Person Projects have EWG status but are not dually-certified as EWGs and QFs. Although these Projects are subject to FERC rate-making, FERC regulation has granted these EWGs the authority to charge market-based rates based primarily on a finding that the seller of electricity lacks market power. The JPPC Project, which is also an EWG but not a QF, does not sell power in the U.S. market and therefore is not subject to FERC regulation. The generating Projects are exempt from regulation under PUHCA 2005 and the Projects with QF status are exempt from state regulation respecting the rates of electric utilities and the financial or organizational regulation of electric utilities.

## ***Regulatory Matters – Rate Case***

The revenues received by the Path 15 Project are regulated by the FERC through a periodic rate review process that sets an annual revenue requirement. Under terms of the initial rate case settlement, the project must go through the rate review process every three years. The initial revenue requirement expires at the end of 2007. The Company is currently preparing for the submission of its revenue requirement to the FERC for the 2008 through 2010 timeframe under the mandated periodic review process.

The revenue requirement filed by Atlantic Path 15 is used to determine the tariff amounts that serve as the basis for the revenues realized by Atlantic Path 15. The revenue requirement comprises two components. The first component provides for the recovery of all operating expenses forecasted to be incurred by Atlantic Path 15 during the years covered by the triennial rate case. Second, it provides for a return on the net investment associated with the project.

Atlantic Path 15 established its current annual revenue requirement in a filing submitted to the FERC in October 2004. In December 2004, FERC ordered that rates be established consistent with the filed revenue requirement, subject to refund. A number of parties intervened in the case. Testimony was provided by various parties and hearings were held before a FERC Administrative Law Judge ("ALJ") on September 19 and 20, 2005. On December 21, 2005 the ALJ issued an Initial Decision. The issues in dispute were: 1) the inclusion of its debt and liquidity reserve account balances required under its loan documents as rate base items, 2) the calculation of a working capital allowance of approximately \$7.3 million to be included the rate base, 3) utilization of monthly compounding with regard to calculating AFUDC (interest during construction) and 4) whether to add a question as to the allocation of TSRs to Western to the rate case.

In November 2006, after considering the ALJ's Initial Decision as well as the filings made by Atlantic Path 15 and intervenors, the FERC commissioners issued their opinion 1) allowing the inclusion of the debt liquidity reserves in the rate base, 2) disallowing inclusion of all but approximately \$300,000 of the working capital allowance in the rate base, 3) mandating a semi-annual calculation methodology for the AFUDC and 4) dismissing consideration of the Western TSR allocation from the Path 15 rate case. At the time the Project was purchased by the Company, the sellers agreed to escrow approximately \$24 million of the purchase price to compensate Atlantic should the FERC disallow the inclusion of either the debt liquidity reserves and/or the full working capital allowance in the rate base. As noted above, the FERC disallowed all but \$300,000 of the working capital allowance requested in its decision. Therefore, the Company was refunded approximately \$9.7 million of the purchase price. This amount was calculated in order to cover the retroactive refund due plus the prospective revenue requirement reduction's impact to Atlantic Power's acquisition economics. The Company has also appealed FERC's disallowance of the use of compounding methodology for the computation of the AFUDC included in the rate base.

## PROJECT DESCRIPTIONS

### Badger Creek Project

#### *Description*

The Badger Creek Project is a 46 MW simple-cycle, cogeneration facility located near Bakersfield, California which commenced commercial operation in April 1991 as a QF. The Badger Creek Project is owned by Badger Creek Limited, L.P. ("Badger"), a Texas limited partnership in which Atlantic Holdings indirectly owns a 50% general partnership interest and Juniper Generation, LLC ("Juniper"), which is indirectly owned by affiliates of ArcLight and John Hancock Life Insurance Company ("John Hancock"), indirectly owns the other 50% limited partnership interest. Electrical output is sold to Pacific Gas & Electric Corporation ("PG&E") under a PPA that was amended and reaffirmed in December 2001. Steam is sold to OXY USA Inc. ("Occidental"), an affiliate of Occidental Petroleum Corporation under a 20-year steam energy agreement that expires in 2011. Badger leases the approximately 3.5 acre site for the Badger Creek Project from the Fano Realty Trust under a ground lease. The base lease term is 25 years commencing in 1990, which the parties may extend for up to 10 additional one-year periods.

In 1990, Badger entered into a non-recourse term loan due June 30, 2006 to finance the construction of the Project. In 2005 the partners of Badger elected to accelerate the repayment of the remaining principal and on December 6, 2005 the loan was repaid in full.

#### *Capacity and Energy Sales*

##### *Power Purchase Agreement*

Electric power generated by the Badger Creek Project is purchased by PG&E pursuant to a PPA expiring in 2011. The Badger Creek PPA provides for monthly capacity and energy payments, and Badger is entitled to receive a performance bonus if the average on-peak capacity factor, net of allowed forced outages and scheduled maintenance outages, exceeds 85%. The PPA provided for an annual average energy price through July 15, 2006. Subsequent to July 15, 2006, the Project received PG&E's interim short-run avoided cost. The California Public Utilities Commission (the "CPUC"), is currently engaged in a regulatory proceeding that is expected to result in a new short-run avoided cost formula. Once that proceeding is complete, the new formula will be applied to the energy payments that the Project receives. As of the date of this filing the regulatory proceedings to determine the future short-run avoided cost for California were still in process.

##### *Steam Sales Agreement*

Process steam from the Badger Creek Project is sold to Occidental under a steam energy agreement which expires in 2011, but is terminable by Occidental in 2006 and thereafter upon one year's prior notice. The agreement provides for successive renewal terms of one year each unless either party gives advance notice of termination. Occidental utilizes the steam in its enhanced oil recovery operations to allow for more effective and efficient extraction of heavy crude oil. Subject to certain conditions, Occidental has an obligation to purchase steam under this agreement in an amount at least equal to the minimum requirements necessary to maintain the Project's status as a QF. Although Occidental is not currently purchasing any power from the Project, the steam energy agreement allows for up to 1 MW of electricity to be sold to Occidental.

##### *Fuel Supply Arrangements*

Initially, natural gas was supplied to the Badger Creek Project under a supply and transportation agreement with PG&E. However, as restructuring of the natural gas industry proceeded, Badger, in partnership with certain other gas-fired facilities in the area, determined that construction of a private natural gas pipeline was a prudent way to minimize curtailment and pricing risk. A joint venture was entered into to construct, own and operate a natural gas pipeline connecting these facilities, including the Badger Creek Project, with the Kern

River-Mojave Pipeline thereby enabling Badger to bypass PG&E but maintain access to PG&E as a source of back-up supply. Under the joint venture arrangement, each owner must contribute funds, and shares in profits and losses, in proportion to its ownership interest. Badger's interest is approximately 21%. WCAC Gas Services LLC, an affiliate of Juniper, operates the pipeline. WCAC Gas Services LLC has procured a short term gas commodity supply agreement and interim gas transportation agreement while awaiting a final decision by the CPUC on a new short-run avoided cost formula.

### ***Operations & Maintenance***

Operations and maintenance for the Eadger Creek Project is performed by WCAC Operating Company California, LLC, an affiliate of Juniper, under a fixed price operations and maintenance agreement. The agreement has a term of 20 years expiring in 2011, but is terminable by either party upon six months' notice. The operator receives a base monthly fee, adjusted annually, based on changes in the GNP deflator and labour indices. In addition, the agreement provides for incentive fees and penalties based on the Project's availability.

In addition to the operations and maintenance agreement, Badger entered into a management services agreement with WCAC Operating Company California, LLC to provide all day-to-day management services required by the Project. The manager is paid a semi-annual fee for such management services based on a percentage of gross cash receipts of the Project.

### **Chambers (Carney's Point)**

#### ***Description***

The Chambers Project, a 262 MW pulverized coal-fired cogeneration facility located at the E.I. du Pont de Nemours and Company ("DuPont") Chambers Works chemical complex near Carney's Point, New Jersey, began commercial operation in March 1994 as a QF. The Chambers Project is owned by Chambers Cogeneration, L.P. ("Chambers"), a Delaware limited partnership in which Atlantic Holdings indirectly owns a 40% limited partnership interest and Peregrine Power Corp. and Cogentrix/Carney's Point, Inc. (affiliates of Goldman Sachs) own the general partnership interest. The Project is situated on a site owned by DuPont, pursuant to a ground lease with DuPont, which serves as the Project's steam off-taker. Pursuant to the terms of the ground lease, DuPont has a right to purchase the Project within 60 days of the expiration of the ground lease in 2024, or earlier termination of the ground lease, at fair market value. Pursuant to a lease agreement, Carney's Point Generating Company general partnership ("Carney's") has agreed to lease the facility and sublease the site from Chambers for a period of 24 years from the date of commencement. Carney's has also agreed to perform, discharge and assume all of the obligations of Chambers under certain assigned Project contracts and to operate, repair and maintain the Project. Payments to Chambers under the lease agreement are based upon revenues from the operation of the facility, after the payment of operating costs and payments due under the facility's financing arrangements.

Chambers financed the construction of the Project with a combination of term debt due March 31, 2014 and New Jersey Economic Development Authority bonds ("NJEDA Bonds") due July 1, 2021. As of December 31, 2006, approximately \$180 million and \$100 million in principal remained outstanding under the term loan and NJEDA Bonds, respectively. The term loan is expected to amortize over its remaining term, while the NJEDA Bonds are repayable at maturity.

Epsilon Power Partners, L.P. is the entity that the Company purchased, which owns its interest in Chambers. It had existing non-recourse debt in place at the time of the acquisition which has a remaining balance as at December 31, 2006 of \$41.1 million which fully amortizes by its final maturity in 2019.

## ***Capacity and Energy Sales***

### ***Power Purchase Agreements***

The 30 year term of the PPA began on March 15, 1994, the date of commercial operation of the Chambers Project. Atlantic City Electric ("ACE") has agreed to purchase 184 MW of capacity and has dispatch rights for energy of up to 187.6 MW during the summer season (May 1 to October 31) and 173.2 MW during the winter season (November 1 to April 30). Under the terms of the PPA, the project must be available to deliver power to ACE at 90% of the ACE system facility average availability rate. The net deliverable capacity of the Project is capped at a capacity level of 184 MW for purposes of the capacity payment. The energy payment under the Chambers PPA is divided between on-peak and off-peak periods and linked to the annual average cost of coal for New Jersey utilities relative to cost in 1992. Since the last utility owned coal plant in New Jersey was sold in 2006, the Project has had discussions with ACE about a replacement coal index to use beginning with the 2008 energy payments. The replacement index is expected to be a broader based index that tracks the coal supply contract escalation very closely. Chambers is guaranteed a minimum energy payment equivalent to 3,500 hours of operation per contract year, whether or not dispatched, provided the Project is available for energy production for at least 3,500 hours during the course of such contract year.

DuPont purchases all its electrical needs for its Chambers Works chemical complex from the Chambers Project, subject to a peak requirement of 40 MW, under a long-term steam and electricity purchase agreement. The term of the agreement is for 30 years from the initial delivery date. The agreement will continue thereafter unless terminated by at least 36 months' prior written notice. Pricing is a fixed rate adjusted quarterly by the lesser of either: (i) the price of coal delivered to the facility; and (ii) the change in Atlantic City Electric's average retail rate.

Power generated at the Chambers Project in excess of amounts deliverable to Atlantic City Electric and DuPont is sold into the spot market and profits from such sales are shared between Atlantic City Electric and Chambers.

### ***Steam Sales Agreement***

Steam is sold to DuPont under a long-term steam and electricity purchase agreement. The term of the agreement is for 30 years from the initial delivery date. The agreement will continue in effect thereafter unless terminated by at least 36 months' prior written notice. The agreement requires steam to be provided to DuPont up to the peak steam requirement levels that vary throughout the year. DuPont may purchase steam in excess of the peak steam requirement from any third party, provided that DuPont has granted the Chambers Project a right of first refusal to provide steam at the same price. DuPont has the option after the 20<sup>th</sup> operating year, provided specific conditions are met, to construct and operate its own steam generation facility. DuPont is required to purchase the quantity of steam necessary for the Chambers Project to maintain its status as a QF. The steam price is fixed subject to quarterly adjustments based on the price of coal delivered to the facility. DuPont has the option in certain circumstances to take over operation of the steam facility in the event of failure to deliver steam.

### ***Fuel Supply Arrangements***

Coal is supplied to the Chambers Project pursuant to a coal purchase agreement with Consol Energy Inc. dated December 10, 1990. The agreement governs the sale of coal (including transportation) to the Chambers Project and the disposal of related ash by the coal suppliers. Under the agreement, the coal supplier agrees to supply the entire coal requirements for the Project, which may include stockpiling. The coal purchase agreement is for a term of 20 years ending in 2014 and is subject to a five to 10-year renewal based on good faith negotiations. Due to the coal-based price escalator under the PPA with Atlantic City Electric, energy payments and coal costs are expected to be relatively well matched following expiry of the coal purchase agreement in 2014.

## ***Operations & Maintenance***

Operations and maintenance of the Chambers Project is performed pursuant to an agreement with U.S. Operating Services Company general partnership ("U.S. OSC"), a wholly-owned indirect subsidiary of Cogentrix, which expires in April 2009. Thereafter, the agreement will be automatically renewed for periods of five years until terminated by either party on six months' notice. U.S. OSC is paid a base annual fee and a fee for services on a cost reimbursement basis. U.S. OSC is also paid fees based on facility net availability, efficiency and excess energy optimization, and is eligible for a management performance bonus.

Management services are provided to the Project under an agreement with a wholly-owned subsidiary of Cogentrix. The agreement provides for the manager to provide day-to-day management and administration services to the Chambers Project. The agreement continues until terminated by either party or upon expiration of the lease between Chambers and Carneys for the lease of the facility. The manager is paid a monthly fee and is reimbursed for wages and benefits for employees working on the business of the Project and other costs directly related to the Project.

## **Delta-Person Project**

### ***Description***

The Delta-Person Project, a 132 MW natural gas-fired peaking facility located near Albuquerque, New Mexico, is an EWG that commenced commercial operation in June 2000. The Project is owned by Delta Person Limited Partnership ("Person"), a Delaware limited partnership in which Atlantic Holdings indirectly owns a 40% partnership interest and by Delta Power and John Hancock own the remaining partnership interests. The Delta-Person Project is situated on the Public Service of New Mexico's retired Delta Generating Station site pursuant to a lease agreement which expires on the expiry or earlier termination of the Project's PPA. Cash distributions from the Project are split among the partners based on after-tax return hurdles. The Delta-Person Project sells all of its electrical output to the Public Service of New Mexico under a long-term PPA that expires in 2020.

Construction of the Delta-Person Project was financed through a construction loan totalling \$59.7 million. The construction loan was converted to permanent project financing once commercial operation was achieved. The project financing was divided into two term loans: (i) Tranche A due March 31, 2017; and (ii) Tranche B due March 31, 2019, both of which are expected to amortize over their remaining terms. As at December 31, 2006, approximately \$39 million in aggregate of principal remained outstanding. The debt service reserve requirement is currently supported by a contribution obligation. Atlantic Holdings guarantees its *pro rata* share (approximately \$1.22 million) of such contribution obligation.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreement***

Electrical power generated by the Delta-Person Project is purchased by the Public Service of New Mexico under a PPA that will expire in 2020. The Public Service of New Mexico has the unilateral right to extend the PPA for five years by giving written notice of such extension no later than two years prior to the end of the original term of the PPA. Subject to adjustments provided for in the PPA, the Public Service of New Mexico will purchase and accept from the Project the entire output of the plant when the Public Service of New Mexico calls upon the capacity. Payments will consist of: (i) the energy purchase price multiplied by the kWh delivered; (ii) the capacity purchase price multiplied by the dependable capacity; (iii) the Project's costs of purchasing electric service from the Public Service of New Mexico for the operations and maintenance of the facility; and (iv) any other applicable charges. In order to earn full capacity payments, the Project must maintain availability of at least 90%.

### ***Fuel Supply Arrangements***

Person purchases fuel from PNM Gas Services, a division of the Public Service of New Mexico, with fuel costs passed through to the Public Service of New Mexico under the PPA. The Project has access to interruptible gas supply and transportation like other standard industrial customers on PNM Gas Services' system.

### ***Operations & Maintenance***

As a simple cycle peaking facility, the Project operations do not require extensive staffing and technical resources. Delta Power provides asset management services, which include operational and contractual oversight of the facility, budget setting and environmental compliance.

## **Gregory Project**

### ***Description***

The Gregory Project is a 400 MW natural gas-fired combined cycle cogeneration QF located near Corpus Christi, Texas that commenced commercial operation in July 2000. The Gregory Project is owned by Gregory Power Partners, LP ("Gregory"), a Texas limited partnership. On January 12, 2005, Javelin Energy LLC ("Javelin"), in which Atlantic Holdings has an 18.9% interest, increased its ownership in Gregory from 50% to 95% by purchasing a 45% interest from an affiliate of LG&E Energy LLC ("LG&E"). As a result, Atlantic Holdings' economic interest in Gregory, determined based on ownership percentage and certain after-tax return hurdles, increased from approximately 9.45% to approximately 17.1%. The other members of Javelin are Arroyo and John Hancock. Gregory sells approximately [345] MW of its capacity to Constellation Energy ("Constellation") and sells up to 33 MW of electric energy and capacity to Reynolds Metals Company ("Reynolds"), with the remainder sold in the spot market. The Project is located on a site adjacent to Reynolds' Sherwin alumina production facility, which serves as the Project's steam off-taker. Gregory leases the land on which the Gregory Project is located from Reynolds under an operating lease with a 35-year term which expires in August 2035.

The Project was initially financed by ING Capital Corporation and a consortium of lenders. The original amount of the loan was \$175 million. The loan has a 17-year term commencing at term conversion, which occurred in October 2000. Fifty percent of the principal amount of the term loan is hedged, whereby Gregory pays a fixed rate and receives a floating rate based on three-month LIBOR. Gregory has the discretion to pay interest anywhere from a monthly to semi-annual basis. As at December 31, 2006, approximately \$130.2 million remained outstanding under the loan, which is expected to be amortized over its remaining term. Currently the terms of a coverage test under the loan are not being met and cash distributions to Gregory's owners will likely be blocked through 2007.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreements***

Gregory sells 345 MW of its output to Constellation Energy under a tolling agreement that will expire on December 31, 2008. Under the terms of the agreement, Constellation pays a fixed capacity and a payment for energy calculated by multiplying the price of natural gas at Houston Ship Channel by a contract heat rate. Credit support for the new PPA consists of a \$5 million letter of credit provided by ING and the withholding of certain payments for capacity otherwise due under the agreement. The Project has also executed a series of contracts for the forward sale of gas in certain months of 2007 with Sempra Energy Trading to lock in the advantage of high natural gas prices in the energy price formula described above.

### *Steam Sales Agreement*

Gregory sells steam to Reynolds under the steam and electricity purchase agreement described above. Under the terms of the agreement, Gregory is the exclusive source of steam to Reynolds' Sherwin alumina plant, up to a maximum of 1,500,000 lbs/hr. Other key aspects of the agreement include: (i) 10-year take-or-pay provision for a minimum quantity of steam (930,000 lbs/hr); (ii) steam pricing based on a fixed fee with a variable gas component; and (iii) delivery of gas by Reynolds in lieu of paying cash for steam (the quantity of gas supplied is based on steam conversion efficiency).

### *Fuel Supply Arrangements*

Gregory purchases natural gas under various short-term and long-term agreements. Gregory has the option of procuring 100% of its natural gas requirements from Kinder Morgan Tejas Pipeline, L.P., pursuant to a 10-year gas supply agreement that expires in 2010. Gregory has the option of terminating the agreement at the end of the fifth contract year.

### *Operations & Maintenance*

DPS Gregory, LLC, a wholly-owned subsidiary of Olympus, is responsible for the operation and maintenance under an agreement that terminates November 2008. DPC Javelin Energy, LLC receives a fee for management of the facility (subject to escalation) on a quarterly basis and reimbursement of certain costs.

### *Energy Management Services*

On March 1, 2004, Gregory and Dynege extended an existing energy management services contract with Dynege through December 2006. Services under the contract included selling and marketing excess power from the Gregory Project. Under the terms of the Dynege contract, Gregory terminated the contract before the end of 2006 and entered into a new contract with Tenaska to provide similar energy management services through the end of 2008. Tenaska will optimize Gregory's assets in the ancillary services market of the Electric Reliability Council of Texas ("ERCOT"), purchase natural gas for operations, provide scheduling services, provide back-office support (including the reconciliation of ERCOT and pipeline settlement and accounting issues and the preparation of invoices) and serve as Gregory's retail energy provider and qualified scheduling entity.

## **JPPC Project**

### *Description*

The JPPC Project, a 60 MW low-speed fuel oil EWG power plant located in Kingston, Jamaica, resulted from a request for proposal issued by the Government of Jamaica in 1992 as part of a national policy to privatize the generation of electric power. The project site is adjacent to Kingston Harbour, which is the plant's source for cooling water. The Project began commercial operation on January 7, 1998. The JPPC Project is owned by Jamaica Private Power Company Limited ("JPPC"), a limited liability company under the laws of Jamaica in which Atlantic Holdings indirectly owns a 24.1% economic interest and CMS Energy Corporation ("CMS"), Energy Investors Fund and Commonwealth Development Corporation own the remainder.

Construction of the JPPC Project was financed through a series of loans, all of which have been repaid except a term loan from the National Investment Bank of Jamaica Limited which is due on October 20, 2011. As at December 31, 2006, approximately \$32.1 million in principal remained outstanding under the term loan, which is expected to be amortized over its remaining term.

## ***Capacity and Energy Sales***

### ***Power Purchase Agreement***

The electrical output of the Project is sold to Jamaica Public Service Company Limited (“Jamaica Public Service”) under a 20-year PPA expiring in 2018. Jamaica Public Service is a fully integrated utility and the sole provider of electricity on the island of Jamaica. The Government of Jamaica guarantees Jamaica Public Service’s payment obligations under the PPA. The PPA allows Jamaica Public Service to dispatch the Project according to its requirements. Under the PPA, the Project receives a monthly energy payment for kWhs actually sold and a monthly capacity payment to cover the Project’s fixed costs. Both the energy and capacity payments are indexed for inflation and are made in Jamaican currency, but are indexed, in part, to the U.S. dollar equivalent value. The energy payment component of the tariff reimburses the Project for its variable costs, including the purchase price of fuel, variable maintenance, lubricating oil, and fuel oil transportation. The capacity cost component of the tariff reimburses the Project for its hard currency and local fixed costs, and also provides for a return on investment. The reasonable cost of complying with material or unforeseeable changes in law or regulation is also passed through in the tariff.

### ***Fuel Supply Arrangements***

JPPC purchases all of its heavy fuel oil from Petrojam Limited (“Petrojam”), a government-owned refinery located west of Kingston, Jamaica. The fuel supply agreement has a term of 20 years expiring in 2018. The price of the fuel oil and transportation of the fuel oil is set by Petrojam based on published reference prices as set out in the agreement. The cost of fuel and transportation is passed through in the tariff to Jamaica Public Service, subject to minimum efficiency standards for the Project. Petrojam must furnish, either from its own assets or by contract, all local transportation from the refinery storage facilities to the point of delivery at the Project.

### ***Operations & Maintenance***

JPPC entered into an operations and maintenance agreement with Private Power Operators Limited, a subsidiary of CMS the initial term of which was for five years expiring on December 31, 2003. The agreement automatically renews each January 1<sup>st</sup>, adding a one-year period to the end of the unexpired portion of the existing term such that there is always a rolling five-year term remaining under the agreement unless either party gives notice of its intent to terminate the agreement at the end of the then-existing five-year term. Under this agreement, the operator is responsible for all operations, maintenance and repair services, as well as substantial administrative, treasury and contract administration services. In consideration for services performed, the operator is reimbursed for allowable direct costs, and receives a fixed overhead reimbursement, and, if earned, a performance bonus.

## **Koma Kulshan Project**

### ***Description***

The Koma Kulshan Project is a 13.3 MW run-of-the-river hydro-electric generation facility located on the slopes of Mt. Baker, approximately 80 miles north of Seattle, Washington. The Koma Kulshan Project is owned by Koma Kulshan Associates, a California limited partnership in which Atlantic Holdings indirectly owns a 49.75% economic interest, Mt. Baker Corporation indirectly owns a 0.25% economic interest and Covanta Energy Corporation (“Covanta”) indirectly owns the remaining 50%. The Koma Kulshan Project is certified as a QF under PURPA and was issued a 50-year hydro licence from FERC which expires in 2037. The Project began commercial operation in October 1990 and its electrical output is sold to Puget Sound Energy, Inc. (“Puget Sound Energy”) under a 50-year PPA expiring in 2037.

As at December 31, 2006, approximately \$1.9 million in principal remained outstanding under the project term loan which is expected to be fully amortized by the end of 2007. In addition, under a funding and option agreement, certain royalty payments are made to third parties in connection with the development of the Project.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreement***

The power generated by the Project is sold to Puget Sound Energy pursuant to a long-term PPA expiring in 2037. Power is sold at a per kWh rate that is adjusted annually. The energy rate equals the sum of a capital component (which provides for a return on investment) plus a variable component. The capital component is designed to cover capital expenditures to improve the Project. The variable component covers operating and maintenance, tax and insurance costs. The term of the PPA is coterminous with the FERC licence. Puget Sound Energy has the right to renew the PPA for a term equivalent to the term of any subsequent licence or annual licence granted by FERC for the Project.

#### ***Operations & Maintenance***

Covanta Hydro Operations West, Inc. ("Covanta Hydro"), a subsidiary of Covanta, performs the operation and maintenance of the facility pursuant to an operations and maintenance agreement which has been extended through December 31, 2007. In addition to being reimbursed for actual costs incurred, Covanta Hydro receives an annual fee adjusted annually by the CPI – All Urban Consumers for Seattle – Tacoma – Bremerton, WA – All Urban Index.

### **Lake Project**

#### ***Description***

The Lake Project, a 110 MW dual fuel (oil and natural gas), combined-cycle QF cogeneration plant located in Florida, began commercial operation in July 1993. The Lake Project is owned by Lake Cogen Ltd. ("Lake"), a Florida limited partnership in which Atlantic Holdings indirectly owns a 100% interest. The Project is located on a 16 acre site at a citrus processing facility in Umatilla, Florida. Lake sells all of its capacity and electric energy to PEF under the terms of a PPA expiring in July 2013. Steam is sold to Citrus World, Inc. ("Citrus World") for use at its citrus processing facility and is also used to make distilled water in distillation units.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreement***

Electrical output is sold to PEF pursuant to a PPA that commenced in July 1993 and expires on July 1, 2013. Revenues from the sale of electricity consist of a payment for capacity and an energy payment generally comprised of a fuel component, a voltage adjustment and an hourly performance adjustment. Capacity payments are subject to the Project maintaining an on-peak capacity factor of at least 90% during on-peak hours (11 hours daily), on a 12-month rolling average basis. Lake is subject to reductions in its capacity payments should it not achieve the 90% on-peak capacity factor. PEF applies a performance adjustment when its avoided cost exceeds the Project's firm energy payments. During off-peak hours, payments are made in accordance with a prescribed formula based on the price of gas. Lake has agreed to use commercially reasonable efforts not to deliver electric energy during off-peak hours except as prescribed or as needed. Further, PEF has the option to request non-delivery during on-peak hours on Saturdays and Sundays on notice to Lake. Pursuant to the Facility Lease, Umatilla Power Funding, LLC has provided a \$6.0 million letter of credit in favour of PEF to support the Lake Project's obligations under the PPA.

### *Steam Sales Agreement*

Citrus World purchases steam, but the amount is not sufficient to allow Lake to meet its QF requirements. During 2002, distillation equipment was installed with three distillation units using steam to make distilled water that is sold to unaffiliated third parties. The distillation business, owned by Teton Distillation, enables Lake to meet its QF requirements without the need to sell steam to Citrus World. Umatilla Funding has an option to purchase the distillation equipment and an option to purchase Lake's interest in Teton Distillation at certain specified times.

### *Fuel Supply Arrangements*

In March 2006 Duke Energy Marketing America LLC, the primary natural gas supplier for the Project, assigned the Lake gas supply agreement to PPM Energy ("PPM") an indirect, wholly owned subsidiary of ScottishPower, plc. The gas supply agreement terminates in July 2009. PPM provides natural gas at a price that is adjusted monthly to track the PPA's pricing factors, including energy and capacity-based components. Lake is required to make certain payments if at least 80% of the maximum daily quantity specified in the agreement is not purchased each month. Lake has not purchased the minimum quantity since 2000, however, to date, the gas suppliers have not assessed any penalties. Excess gas requirements above those supplied by PPM are to be supplied by TECO Gas Services Inc. ("TECO"). Gas purchased under this agreement is at the spot market price plus a commission. TECO also supplies certain gas management and supply services to Lake under a separate agreement. The gas for the Project is transported using firm capacity on the Florida Gas Transmission Company ("FGT") system and interruptible capacity on the Peoples Gas System, a division of Tampa Electric Company, ("Peoples Gas") pipeline from the receipt points on the FGT pipeline to the plant. The gas transportation agreements expire in July 2008 and 2013. Lake is permitted to operate each of its combustion turbines on fuel oil for up to 240 hours per rolling 12-month period under the terms of the Project's air permit. The Project includes a 170,000 gallon fuel oil storage tank.

### *Operations & Maintenance*

An affiliate of Caithness is responsible for the operations and maintenance of the Project pursuant to one of the Caithness O&M Agreements.

## **Mid-Georgia Project**

### *Description*

The Mid-Georgia Project, a 308 MW dual-fuel, combined-cycle, cogeneration plant located approximately 100 miles south of Atlanta in Kathleen, Georgia, commenced commercial operation in June 1998 as a QF. The Mid-Georgia Project is owned by Mid-Georgia Cogen L.P. ("Mid-Georgia"), a Delaware limited partnership in which Atlantic Holdings indirectly owns a 50% partnership interest and Northern Star indirectly owns a 50% partnership interest. Mid-Georgia sells its electrical output to Georgia Power, a subsidiary of the Southern Company, and its process steam to Frito-Lay, Inc. ("Frito-Lay"). The Project is located adjacent to Frito-Lay's food processing facility on a 9.3 acre site leased from the Houston County Development Authority.

Construction of the Mid-Georgia Project was financed through a series of loans totalling \$116.5 million, which mature in 2013 and 2018. As at December 31, 2006, approximately \$89 million in principal remained outstanding under the loans which are scheduled to be amortized over their remaining terms.

Distributions to partners are subject to the funding level of required reserve accounts and achieving certain quarterly debt service coverage ratios. The Manager does not currently anticipate that Mid-Georgia will exceed each of the quarterly debt service ratio tests under its financing agreements and as a result, no distributions are projected to be made by Mid-Georgia until retirement of the Project's debt in 2018. This is unchanged from the information provided at the time of the IPO.

In 2005, the Project dispatched fewer hours than historical levels. Consequently, it received full capacity payments, but very little energy payments, causing cash flows to be constrained. As a result, the independent auditors of the Project included an explanatory paragraph in their audit opinion that expressed substantial doubt about the Project's ability to continue as a going concern. During 2006, the financial performance of the Project and management's projections of the future rate of dispatch of the Project have improved. As of March 28, 2007, the independent auditor's report on the Project's 2006 financial statements has not yet been issued. However, management does not anticipate the auditor's report will express substantial doubt about the Project's ability to continue as a going concern.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreements***

Electrical output is sold to Georgia Power under a 30-year PPA expiring in June 2028 that provides for payments for both capacity and energy. The price for energy is based on: (i) a fuel price, transportation and contract heat rate formula specified in the PPA; (ii) an SO<sub>2</sub> emissions component; (iii) an operations and maintenance component; and (iv) a start-up component. The Project may sell capacity and energy to third parties, subject to a right of first refusal by Georgia Power.

#### ***Steam Sales Agreement***

Mid-Georgia sells process steam to Frito-Lay pursuant to a 22-year energy savings agreement which expires in June 2020. The agreement may be extended for two additional four-year terms at Frito-Lay's option. Under the agreement, Mid-Georgia is obligated to provide all of Frito-Lay's process steam requirements. As a back-up to its auxiliary boiler, Mid-Georgia leases additional boilers from Frito-Lay and is obligated to operate and maintain such boilers for the term of the lease agreement.

#### ***Fuel Supply Arrangements***

Teton Fuels Mid-Georgia ("TFMG"), an indirect subsidiary of Atlantic Holdings, is responsible for arranging natural gas and fuel oil supply, gas transportation and balancing services (the reconciliation of gas usage versus gas delivered) for Mid-Georgia through agreements with local fuel oil suppliers, the Municipal Gas Authority of Georgia and the City of Warner Robins.

Pursuant to the PPA, Mid-Georgia maintains the ability to operate each of its combustion turbines on fuel oil instead of natural gas in the event natural gas is not available. To operate, the fuel oil must have an ultra low sulfur content (less than 0.05%). The Project includes a 500,000 gallon oil storage tank with high volume off-loading capability.

#### ***Operations & Maintenance***

An affiliate of Caithness is responsible for the operations and maintenance of the Project pursuant to one of the Caithness O&M Agreements.

### **Onondaga Project**

#### ***Description***

The Onondaga Project, a 91 MW dual fuel, combined-cycle, cogeneration facility located in Geddes, New York, began commercial operation in December 1993 as a QF. The Onondaga Project is operated by Onondaga Cogeneration Limited Partnership ("Onondaga"), a New York limited partnership in which Atlantic Holdings indirectly owns a 100% economic interest. In 2000, the Project's steam supply obligations were terminated. The Project is no longer a QF, but is now an EWG and currently sells its electrical output into the New York Independent System Operator's ("NYISO") Zone C capacity and energy markets. The Onondaga Project has no outstanding debt.

## ***Capacity and Energy Sales***

### ***Power Purchase Agreement***

The Project operates as a merchant generation facility unencumbered by any power or steam sales obligations. The Project is located in NYISO Zone C and dispatches electricity when the day-ahead electricity price exceeds the Project's marginal operating cost. The Project also sells capacity through NYISO administered capacity auctions.

A swap agreement (the "Onondaga Swap") between National Grid and Onondaga has replaced the Project's original PPA. The Onondaga Swap expires on June 30, 2008. The Onondaga Swap is a financial instrument under which National Grid makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full 10-year term of the Onondaga Swap.

In May 2004, Onondaga contributed the Onondaga Swap to a newly formed wholly-owned special purpose subsidiary, Onondaga Power Swap Holdings, LLC ("SwapCo"). Onondaga has guaranteed SwapCo's obligations to National Grid under the Onondaga Swap. Also in May 2004, SwapCo entered into commodity hedges with Constellation Energy Commodities Group, Inc. (formerly Constellation Power Source, Inc.), a subsidiary of Constellation Energy Group, Inc., in order to lock in favourable gas, power and capacity pricing under the Onondaga Swap. The hedges extend from June 1, 2004 through June 30, 2008 and remove almost all commodity exposure from the Onondaga Swap through its term.

### ***Energy Conversion and Capacity Release Agreement***

Onondaga entered into an Energy Conversion Agreement with Coral Power, LLC ("Coral") from April 7, 2005 through March 31, 2006 ("Tolling Agreement"). Under the Tolling Agreement, Onondaga converted fuel into electrical energy and was paid a tolling payment and variable payment by Coral. In addition, Onondaga executed two letter agreements with Coral Energy Resources, L.P. on April 7, 2005 to define the temporary release of the ANR Pipeline Company ("ANR") and Dominion Transportation Inc. ("DTI") transportation capacity. The pipeline capacity was released via the ANR and DTI capacity release bulletin board systems on a pre-arranged, biddable basis for the period starting April 12, 2005 through March 31, 2006.

On February 16, 2006, Onondaga executed a swap agreement with Merrill Lynch Commodities Inc. which locked in the capacity price for the period May through October 2006. On September 29, 2006, Onondaga executed a contract with Coral for the sale of a portion of its winter capability period for the period November through April. The remaining winter capacity is auctioned directly into the NYISO.

### ***Fuel Supply Arrangements***

Onondaga has entered into three gas transportation agreements to provide natural gas transportation service to the Project, firm arrangements with DTI and ANR and a limited interruptible arrangement with National Grid. The DTI and ANR contracts provide for fixed monthly demand charges in addition to variable commodity charges based upon the quantity of gas transported. The National Grid transport contract has an annual minimum payment obligation. Under the National Grid transport contract, Onondaga has issued a letter of credit in favour of National Grid in the amount of \$550,000. The letter of credit must be maintained during the term of the National Grid transport contract and is cash collateralized.

### *Gas Supply and Transportation Optimization*

The Project engaged Sequent Energy Management, L.P. to provide fuel management services for the Project, including fuel purchasing, nominations, scheduling and balancing services. This is a short-term agreement effective April 1, 2006 through March 31, 2007 and will likely be renewed or replaced. Onondaga is permitted to operate each of its combustion turbines on fuel oil instead of natural gas for up to 1,752 hours per year under the terms of the Project's air permit. The Project includes a 380,000 gallon oil storage tank.

### *Operations & Maintenance*

An affiliate of Caithness is responsible for the operations and maintenance of the Project pursuant to one of the Caithness O&M Agreements.

## **Orlando Project**

### *Description*

The Orlando Project, a 126 MW natural gas-fired combined-cycle cogeneration facility located in an industrial park near Orlando in Orange County, Florida, commenced commercial operation in September 1993 as a QF. The Orlando Project is owned by Orlando CoGen Limited, L.P. ("Orlando"), a Delaware limited partnership in which Atlantic Holdings indirectly owns a 50% partnership interest and Northern Star indirectly owns a 50% partnership interest. The Project is situated on a four acre site located adjacent to an air separation facility owned by Air Products and Chemicals, Inc. ("APCI") which serves as the Project's steam off-taker. Orlando sells all of its electric output to PEF and Reedy Creek Improvement District ("RCID") pursuant to long-term PPAs and chilled water to APCI to improve the efficiency of its air separation unit.

As at December 31, 2006, approximately \$14.9 million in principal of the original \$84.6 million non-recourse financing remained outstanding which amount is expected to be amortized over its remaining term ending in 2008.

### *Capacity and Energy Sales*

#### *Power Purchase Agreements*

Orlando has entered into a 30-year contract to sell electrical capacity and energy to PEF which expires on December 31, 2023. Orlando is obligated to sell and deliver a committed capacity of 79.2 MW and has committed to a 93% on-peak capacity factor. Orlando receives a monthly capacity payment based on achieving the on-peak capacity factor and a monthly energy payment based on the total amount of electric energy actually delivered to PEF. The capacity payment is a fixed payment escalating at 5.1% annually and is reduced whenever the on-peak capacity factor is below 93%, calculated on a 12-month rolling average basis. Energy payments are based on the amount of energy delivered during the on-peak hours and off-peak hours during each month.

Orlando has entered into a 20-year contract to sell electrical capacity and energy to RCID, a municipal district serving the Walt Disney World complex, which expires in 2013. Orlando is obligated to sell and deliver 35 MW of electricity and has committed to a 93% average capacity factor. Orlando receives a monthly capacity payment based on the actual average capacity factor and a monthly energy payment based on the total amount of electric energy actually delivered to RCID. This PPA may be extended for an additional 10-year term upon the consent of both parties. The capacity payment is a fixed rate that escalates at 4.5% annually and is based upon achieving a 93% average capacity factor (calculated on a three-year rolling average basis). The agreement provides both incentive and penalty provisions for performance above and below a 93% average capacity factor, respectively. RCID reimburses Orlando for a portion of the Florida Gas reservation charges associated with the firm gas transportation agreement. On October 12, 2005, Orlando executed an enabling agreement with RCID for periodic sales of up to 15 MW of non-firm available energy at firm rates.

### *Steam Sales Agreement*

Orlando has entered into an agreement with Air Products Manufacturing Corporation (“APMC”), a wholly-owned subsidiary of APCI, to supply chilled water to its cryogenic air separation facility. Orlando has the right to deliver up to 35,000 lbs/hr of steam for use in the chiller and does not have any minimum steam delivery requirements beyond the thermal and efficiency requirements required to maintain QF status pursuant to PURPA. Orlando is required to purchase its nitrogen requirements from APMC, but does not have a minimum purchase requirement. Both the purchase price of nitrogen and the sales price of chilled water produced using steam from the Project are at fixed prices that escalate at the percentage increase/decrease in the producer price index.

### *Fuel Supply Arrangements*

Orlando has entered into 20-year gas supply agreements with Orlando Power Holdings, LLC (“Orlando Power”), indirectly owned by Northern Star, expiring on December 31, 2013. Orlando Power has back-to-back agreements for the purchase and supply of natural gas from Vastar Gas Marketing, Inc. (“Vastar”), which is a wholly-owned subsidiary of BP Energy Company. Under the agreements, which expire on December 31, 2013, Vastar is obligated to provide Orlando Power with Orlando’s entire daily natural gas requirement. Orlando’s purchase price is tied to the coal-based and fixed escalators used for calculating the energy payments under the PPAs. Orlando also holds a gas supply agreement with TECO which is currently not utilized by the Project. Pursuant to this agreement, Orlando pays TECO for all gas consumed by the Project (whether or not supplied under the agreement with TECO). This agreement may be terminated by Orlando on July 31, 2010.

Orlando has entered into two 20-year gas transportation agreements expiring on July 31, 2010 with Peoples Gas for the delivery of natural gas to the Project. Peoples Gas has entered into 20-year back-to-back agreements with Florida Gas for the delivery of natural gas to the Project. If requested by Orlando, Peoples Gas will use its best efforts to extend or renew its firm transportation agreement with Florida Gas and, if Peoples Gas secures such an extension or renewal, the terms of both gas transportation agreements will be similarly extended. Transportation costs under the agreements are determined by Florida Gas’ rate schedule as filed with FERC. These agreements provide for the transportation of up to 23,600 MMBtu per day to the Project.

### *Operations & Maintenance*

The Project is operated and maintained by an affiliate of Northern Star pursuant to a 30-year operations and administrative services agreement expiring on December 31, 2023. If the PEF PPA is extended beyond December 31, 2023, this agreement may be extended, at the operator’s option until December 31, 2033. The operator is compensated on a cost-reimbursement basis plus a fixed general and administrative charge. In addition, the operator is entitled to receive an incentive fee equal to a percentage of the excess of Orlando’s operating cash flow after deducting originally anticipated maintenance capital and anticipated debt service. In 1997, Orlando entered into a maintenance agreement (the “LTSA”) with Alstom Power Inc. (“Alstom”), for the long-term supply of hot gas path gas turbine parts, pursuant to which Alstom receives a monthly fee from the partnership and additional fees in certain circumstances. The LTSA was amended and restated on April 22, 2005 to provide for three additional major inspections and overhauls of the gas turbine. As part of the Amended and Restated LTSA, the gas turbine was upgraded to an 11NM model in 2005.

## **Pasco Project**

### *Description*

The Pasco Project, a 121 MW dual fuel, combined-cycle, cogeneration plant located in Dade City, Florida, commenced commercial operations in July 1993 as a QF. The Pasco Project is owned by Pasco Cogen, Ltd. (“Pasco”), a Florida limited partnership in which Atlantic Holdings indirectly holds a 49.9% partnership interest, an affiliate of Dana Corp. holds direct and indirect partnership interests totalling 50.089% and an affiliate of TECO Energy Inc. holds a 0.011% indirect partnership interest. Pasco provides firm capacity and

energy to PEF pursuant to a PPA that expires on December 31, 2008. Pasco has a thermal agreement which expires in December 2008 providing for the sale of steam to Pasco Beverage Company ("Pasco Beverage"). The Project is situated on a 2.7 acre site, adjacent to Pasco Beverage's fruit juice processing facility, approximately 45 miles north of Tampa, Florida. The Project site is owned by Pasco Cogen Realty, LP, an affiliate of Pasco, and leased to Pasco pursuant to a site lease which expires in July 2013.

Construction on the Pasco Project was financed with two loans totalling approximately \$92.6 million, both due December 31, 2008. As at December 31, 2006, approximately \$26.0 million in principal of the term loans remained outstanding which are expected to be amortized over their remaining terms.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreement***

Electrical output is sold to PEF pursuant to a PPA that commenced in July 1993 and expires on December 31, 2008. Revenues from the sale of electricity consist of a payment for capacity, an energy payment generally comprised of a fuel component, a voltage adjustment and an hourly performance adjustment in addition to a special monthly payment scheduled to end in 2006. Capacity payments are subject to the Project maintaining an on-peak capacity factor of at least 90% during on-peak hours (11 hours daily) on a 12-month rolling-average basis. The Project is subject to reductions in its capacity payments should it not achieve the 90% on-peak capacity factor. PEF applies a performance adjustment when its avoided cost exceeds the Project's firm energy payments. PEF also pays Pasco a special monthly payment scheduled to end in 2006 which is not subject to plant performance requirements.

#### ***Steam Sales Agreement***

On September 30, 2004, Pasco filed a petition seeking a temporary waiver of QF requirements for calendar year 2004 and 2005 with FERC because the steam demands from the current and new steam users were insufficient to reliably maintain QF status. The FERC granted the waiver to the Project for the 2004 and 2005 calendar years, allowing Pasco the time needed to complete the installation of water distillation equipment so it can sell distilled water to unaffiliated third parties and retain its QF status. The cost of the distillation system was \$2.0 million and was completed in 2005. Effective October, 2005, Pasco executed a letter agreement with an unaffiliated third party for the sale of distilled water. The Project filed for and received recertification of its QF status in late 2005.

#### ***Fuel Supply Arrangements***

In March 2006 Duke, the primary natural gas supplier for the Project, assigned the Pasco gas supply agreement (which terminates in June 2008) to PPM an indirect, wholly owned subsidiary of ScottishPower, plc. PPM provides natural gas at a price that is adjusted monthly to track the PPA's pricing factors, including energy and capacity based components. Pasco is required to make certain payments if at least 80% of the maximum daily quantity specified in the gas supply agreement is not purchased each month. Pasco has not taken the minimum quantity since 2000; however, to date, the gas suppliers have not assessed any penalties. The gas for the Project is transported using firm capacity on FGT and interruptible capacity on the Peoples Gas pipeline, from the receipt points on the FGT pipeline to the plant. The gas transportation arrangements expire between 2008 and 2010.

#### ***Operations & Maintenance***

An affiliate of Caithness is responsible for the operations and maintenance of the Project pursuant to one of the Caithness O&M Agreements.

In 2006 the existing turbines at the facility were upgraded to increase the efficiency of the facility and increase its output capability from 109 MW to 121 MW.

## **Path 15 Project**

### *Description*

The Path 15 Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in central California to help alleviate what has been a chronic north-south transmission congestion point. The Path 15 Project and the two other previously existing transmission lines in the corridor represent the only significant transmission connection between the electrical grids of northern and southern California. Commencing commercial operations in December 2004, the Path 15 Project increased transmission capacity from southern to northern California by approximately 1,500 MW to 5,400 MW (approximately enough electricity to power 1.5 million households), and increased transmission capacity from northern to southern California by approximately 1,100 MW. This transmission line facilitates the movement of power from the Pacific Northwest to southern California in the summer months and from generators in southern California to northern California in the winter months.

Western, a federal power marketing entity that was active in the development and construction of the Path 15 Project, owns the transmission line and real estate rights associated with the Path 15 Project, while Path 15 Opco owns 72% of the TSRs associated with the Path 15 Project. Western is also responsible for the operation and maintenance of the Path 15 Project at the expense of Path 15 Opco. The TSRs entitle Path 15 Opco to receive revenues that are regulated and approved by the FERC, currently being collected and remitted to owners of TSRs by the CAISO. The revenue received by Path 15 Opco bears minimal operation risk since rates are based on a FERC determined revenue requirement. As such, in the event the Path 15 Project experiences a temporary lapse in service, Path 15 Opco would continue to receive monthly tariff payments from the CAISO.

The CAISO is a not-for-profit corporation that acts as a clearinghouse to settle third-party transactions involving the purchase and sale of power in California. In order for transmission facilities to become part of the transmission grid in California, owners of transmission assets must place their assets under the operational control of the CAISO by entering into a standard transmission control agreement with the CAISO. The CAISO-operated grid encompasses approximately 75% of California for which the CAISO is responsible for matching net generation and loads. In general, the CAISO coordinates the dispatch of power generation, and manages the reliability of, and provides open access to, the transmission grid. The CAISO is responsible for charging transmission users for service through a TAC and remits the TAC payments to the owners of the transmission assets.

Path 15 Opco has entered into a transmission control agreement with CAISO pursuant to which Path 15 Opco assigned its TSRs to the CAISO. In return for this assignment, Path 15 Opco receives compensation in the form of FERC-approved tariff rates remitted by the CAISO. The amount of tariffs paid to Path 15 Opco are not dependent upon the amount of capacity represented by the TSRs, the usage of the transmission capacity represented thereby, or the availability of such transmission capacity. Rather, the amounts paid to Path 15 Opco are based upon permitted rates of return determined by FERC using a "cost of service" methodology. Based upon the rates of return established by the FERC, the CAISO sets system-wide TACs (which are collected from utilities and other service providers) at levels that are expected to produce the specific revenue targets established for transmission owners.

### *Regulated Revenues*

The revenue stream associated with the Path 15 Project represents a stable revenue stream, based on tariff rates regulated and approved by the FERC. It is anticipated that these revenues will decline modestly over time on a 30-year straight-line basis. Path 15 Opco receives payments from the CAISO based on approved revenue requirements. As a result, this revenue stream is not exposed to the risks that may arise from volatility in the volume of power generation and usage of the transmission system. In the event of a temporary lapse in service, Path 15 Opco would continue to receive monthly tariff payments.

The Path 15 Project is owned and operated by Western, an experienced operator of transmission lines that operates and maintains approximately 17,000 miles of transmission lines, providing its customers with economical and reliable energy transmission. The operations of the Path 15 Project consist entirely of the transmission of electric power, which is not subject to the volatility that may arise from changes in the price of electricity or fuel.

## **Rumford Project**

### *Description*

The Rumford Project, a 85 MW multi-fuel (coal, wood waste and tire-derived fuel) circulating fluidized bed boiler cogeneration facility located in the town of Rumford, Maine, began commercial operation in May 1990 as a QF. The Rumford Project is owned by Rumford Cogeneration Company Limited Partnership ("Rumford"), a Maine limited partnership in which Atlantic Holdings indirectly owns a 24.3% limited partnership interest through its ownership of Teton Funding and an estimated 1.7% economic interest in Rumford through its indirect 18.9% ownership of Javelin, which indirectly owns a 10.2% limited partnership interest (an estimated 9% economic interest) in the Project. Other interests in Rumford are owned by: NewPage Corporation ("NewPage") indirectly through its 30% general partnership interest held by its affiliate, Rumford Cogeneration Inc. ("RCI"); Catamount Energy Corporation indirectly through its 15.1% limited partnership interest; Sojitz Corporation of America indirectly through its 10.2% limited partnership interest; and Dominion Resources, Inc. indirectly through its 10.2% limited partnership interest. Cash distributions from the Project are split among the partners according to a cash "waterfall" defined under the terms of the Rumford partnership agreement. The Project was constructed for the dual purpose of supplying steam and electricity to an adjacent paper mill owned by a subsidiary of NewPage and electricity to Central Maine Power Company ("CMP"). Rumford leases the site from NewPage and the Project is situated adjacent to the paper mill pursuant to a lease expiring on December 31, 2020. Rumford has no outstanding debt. RCI has an assignable option to purchase all of the limited partnership interests in Rumford at a pre-determined price so that upon completion of any exercise of this option, RCI or any assignee would own 100% of Rumford. This option may be exercised on December 31 of each year until December 31, 2014. The option price is four times the average of the net pre-debt service cash flow over the four years preceding the option exercise date (after removing the lowest figure of the four).

### *Capacity and Energy Sales*

#### *Power Purchase Agreements*

Rumford had a 15-year PPA to sell electric energy to CMP that expired on December 31, 2005. CMP had the option to extend the term of the PPA for three successive five-year periods, but allowed the option to expire unexercised on July 1, 2004. During 2005, Rumford received an energy payment based on the sale of 75 MW of power at rates that increase in accordance with a fixed price schedule.

In December 2005, Rumford executed a one year interim agreement to sell all of its output to Rumford Paper Company, the adjacent paper mill that has served as the Project's steam host, at the New England hourly power market price.

In February 2007, Rumford executed an Interim Financial Consolidation Agreement ("IFCA") with Rumford Paper Company. The IFCA consolidates the payment obligations of the various agreements between Rumford and Rumford Paper Company into a single payment obligation effective January 1, 2007. The effect of the IFCA is similar to a lease wherein Rumford Paper Company assumes the risk of fuel and power price volatility as well as most operating costs. Payments under the IFCA will be made quarterly to the partnership over a three year term ending December 31, 2009. The Company expects to receive annual partnership distributions of approximately \$2.7 million during the terms of the IFCA.

## **Selkirk Project**

### ***Description***

The Selkirk Project, a 345 MW dual-fuel, combined-cycle cogeneration plant located in the Town of Bethlehem in Albany County, New York, commenced commercial operation in 1994 as a QF. The Selkirk Project is owned by Selkirk Cogen Partners, L.P. ("Selkirk"), a Delaware limited partnership in which Atlantic Holdings estimates that it is entitled to an 18.5% economic interest in the cash flow and Cogentrix Energy, Inc., affiliates of The McNair Group and Fort Point Power LLC (an affiliate of Osaka Gas Energy America Corporation) own the remainder. Each of the Selkirk partners has an interest in cash distributions by Selkirk which changes when certain Selkirk partners achieve a specified return on their contributions to Selkirk. The cash distributions are divided into three levels: (i) distributions in fixed amounts payable to the Selkirk partners in proportion to their equity contributions during an initial period extending until such specified return is achieved (the "Selkirk Level I Distributions"); (ii) distributions of the Selkirk available cash remaining after payment of the Selkirk Level I Distributions; and (iii) distributions after the expiration of such initial period. The 15.7 acre project site is leased by Selkirk from GE and is situated adjacent to a GE plastics manufacturing plant which is also the Project's steam host. The Project includes two units: Unit I sells output to both National Grid and third parties; and Unit II sells output to Consolidated Edison, Inc. ("Con Ed").

On December 12, 1994, Selkirk refinanced its existing debt with the issuance by Selkirk Cogen Funding Corporation, a wholly-owned subsidiary of Selkirk, of \$165 million of 8.65% First Mortgage Bonds due 2007 and \$227 million of 8.98% First Mortgage Bonds due 2012. As at December 31, 2006, approximately \$255.4 million in aggregate remained outstanding on the bonds, which is expected to be amortized over the remaining term of the respective bonds. Under Selkirk's financing agreements, Selkirk did not satisfy certain conditions with respect to the extension or replacement of its firm gas supply agreements by December 26, 2004, so cash otherwise available for distribution to Selkirk's partners was deposited into a separate account until the balance in the account is sufficient to fund all scheduled principal repayments on Selkirk's outstanding bonds from June 26, 2010 through June 26, 2012. Selkirk had successfully extended three of the four contracts and, in November 2005, the project successfully concluded negotiations on the fourth and final contract. Upon entering into the fourth contract the requirement to trap otherwise distributable cash was lifted and the cash held in the separate account was released and distributed to the partners in November and December 2005.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreements***

Selkirk has a PPA that expires on July 1, 2008 to sell electric capacity and energy from Unit I to National Grid. The Unit I PPA provides for a monthly contract payment which is comprised of four indexed pricing components: a capacity payment, an energy payment, a transportation payment and an operations and maintenance payment. The capacity payment, transportation payment, operations and maintenance payment and a fixed portion of the energy payment are payable regardless of whether Selkirk sells energy or capacity. The variable portion of the energy payment varies with the quantities of energy and capacity actually sold. Selkirk retains the right to sell Unit I energy and associated capacity at the prevailing market price which mitigates the impact of any payments that may be required to be made during periods of high market prices. National Grid has a right of first refusal to purchase energy and/or capacity up to the applicable monthly contract quantity during the term of the Unit I PPA at the market energy price and, if applicable, the market capacity price.

Selkirk also has a PPA to sell electric capacity and energy from Unit II to Con Ed. This PPA expires on September 1, 2014, subject to a 10-year extension at the option of Con Ed under certain conditions. The Unit II PPA provides for a capacity payment, a fuel payment, an operations and maintenance payment and a wheeling payment. The capacity payment, a portion of the fuel payment, a portion of the operations and maintenance payment and the wheeling payment are fixed charges to be paid on the basis of plant availability.

### *Steam Sales Agreement*

Selkirk is obligated to sell up to 400,000 lbs/hr of thermal output of Units I and II for use as process steam at the GE plant located adjacent to the Project through September 1, 2014. GE is not charged for steam in an amount up to the annual equivalent of 160,000 lbs/hr during each hour in which the GE plant is in production. Steam sales in excess of this amount are priced at GE's avoided variable direct cost, subject to an annual "true-up" to ensure that GE receives the annual equivalent of the discounted quantity at nominal pricing. GE is required to purchase the minimum thermal output necessary for Selkirk to maintain its QF status.

### *Fuel Supply Arrangements*

To supply natural gas for Unit I, Selkirk has entered into a gas supply agreement expiring on October 31, 2012 with Coral Energy Canada on a firm (variable quantity) 365-day per year basis. To supply natural gas for Unit II, Selkirk entered into gas supply agreements with Imperial Oil Resources Limited, EnCana Corporation and Canadian Forest Oil Ltd. (formerly Producers Marketing Ltd.). In the fourth quarter of 2004, each of the Unit II gas supply agreements was restructured and extended through October 31, 2014.

Long-term contracts for the transportation of Units I and II natural gas volume on a firm 365-day per year basis have been executed with TransCanada Pipelines Limited, Iroquois Gas and Tennessee Gas. Each of the Unit I and II gas transportation contracts expire on November 1, 2012 and November 1, 2014, respectively.

Units I and II have the capability to operate on fuel oil and are able to switch fuel sources from natural gas to fuel oil and back without interrupting the generation of electricity. Selkirk's air permit allows the facility to burn oil for a maximum of 2,190 hours per year at full capacity. The Project has on-site storage for approximately 910,000 gallons of fuel oil, a supply sufficient to run all three combustion turbines for one and one half days at full capacity without refilling. The Project site is approximately five miles from the Port of Albany, New York, a major oil terminal area. Additionally, several major oil companies supply fuel oil in the Albany area through leased storage or throughput arrangements.

### *Operations & Maintenance*

GE operates the Selkirk Project under the Third Amended and Restated Operations and Maintenance Agreement expiring on December 31, 2012. The agreement provides for a fixed fee, capital parts discounts, a pass-through of management costs and a performance bonus. Management services for Selkirk are provided by JMCS I Management, Inc. ("JMCS"), an affiliate of Cogentrix, under an administrative services agreement. The term of the agreement is 20 years and expires in September 2014 unless terminated earlier in accordance with its terms. JMCS is entitled to compensation under the agreement which is subject to renegotiation every four years and provides for the full recovery of JMCS's actual costs and properly allocated overhead plus a reasonable fee which must be approved by all of the Selkirk partners.

## **Stockton Project**

### *Description*

The Stockton Project is a 55 MW solid fuel-fired cogeneration facility located in Stockton, California that commenced commercial operation in March 1988 as a QF. The Stockton Project is owned by Stockton CoGen Company ("Stockton"), a California general partnership in which Atlantic Holdings indirectly holds a 50% partnership interest and Air Products ("APCI") holds a 50% partnership interest. The majority of the Project's electricity is sold under a 20-year IPA with PG&E that expires in February 2008. In addition, steam and electric energy are supplied to Corn Products International, Inc. ("CPI") under a 20-year energy supply contract expiring in February 2008. The Project is located adjacent to CPI's corn wet-milling plant on a 9.5 acre industrial site that is leased from CPI. A ground lease was executed in 1986 with a base lease term of 20 years, which runs the duration of the CPI energy supply contract. Stockton has the option of extending the site lease

term for a period of five years at the maturity of the CPI energy supply contract term. The Stockton Project has no outstanding debt.

### *Capacity and Energy Sales*

#### *Power Purchase Agreements*

Stockton has two purchase agreements for electrical output from the Project: (i) the PG&E PPA, which is a 20-year energy and capacity PPA that expires in February 2008; and (ii) the CPI energy supply contract, which provides for the sale of both electricity and steam and is for a term of 20 years coinciding with the PG&E PPA.

Electric power generated by the Stockton Project is sold to PG&E pursuant to a PPA expiring in 2008. The PG&E PPA provides for monthly capacity and energy payments, and Stockton is entitled to receive a performance bonus if the average on-peak capacity factor, net of allowed forced outages and scheduled maintenance outages, exceeds 85%. The PPA provided for an annual average energy price through July 15, 2006. Subsequent to July 15, 2006, the Project received PG&E's interim short-run avoided cost. The California Public Utilities Commission (the "CPUC"), is currently engaged in a regulatory proceeding that is expected to result in a new short-run avoided cost formula. Once that proceeding is complete, the new formula will be applied to the energy payments that the Project receives. As of the date of this filing the regulatory proceedings to determine the future short-run avoided cost for California were still in process.

#### *Steam Sales Agreement*

Under the CPI energy supply contract, the Stockton Project supplies up to 130,000 lbs/hr of steam and 6,200 kW of electricity to the CPI facility. CPI pays Stockton a monthly base product charge. The CPI energy supply contract requires CPI to pay monthly energy charges for back-up steam and electric power, provided the Project has satisfied its minimum requirement for availability.

#### *Fuel Supply Arrangements*

The Project's boiler system is capable of burning several solid fuels, including coal, petroleum coke and tire-derived fuel. This diverse solid fuel mix provides opportunities to source fuel from several suppliers and provides cost advantages through controlled blending for optimal performance. Stockton has experienced success in blending fuels to minimize cost and maintain efficiency.

Stockton purchases coal from two coal supply contracts which expire in December 2007. Stockton also blends petroleum coke with coal to reduce fuel costs and has one year contracts with two major northern California suppliers of coke expiring on December 31, 2007. Although petroleum coke does have higher sulfur content than most coals, the Project can incorporate it up to 45% (by volume) into the overall fuel supply and still operate within its air quality permit emissions requirements.

The Project also utilizes tire-derived fuel for up to 10% of its fuel mixture. Tire-derived fuel provides an excellent source of lower-cost energy for the Project. Stockton purchases tire-derived fuel from Golden By-Products, Inc. under an agreement that expires on February 28, 2008. This contract has been in place since April 1999. It had an original term of three years and is renewable annually subject to mutual agreement on price and quantity of tire-derived fuel.

As an alternative to landfill disposal, Stockton has established programs with several local companies for the beneficial reuse of a majority of the ash produced by the Project. Stockton also maintains existing waste hauling and landfill disposal contracts for excess volumes of ash not utilized in beneficial reuse.

### ***Operations & Maintenance***

Air Products Energy Enterprises, L.P. ("APEE") a wholly-owned subsidiary of APCI, provides all operating, maintenance and administrative services for the Stockton Project. APEE receives an operating fee, adjusted annually based on inflation and labour indices, for a defined list of costs and expenses incurred. APEE can also earn an annual incentive fee based on Project cash flow which provides an incentive for APEE to control operating costs and maintain high project reliability.

### **Topsham Project**

#### ***Description***

The Topsham Project is a 14 MW hydroelectric facility located on the Androscoggin River at the Pejepscot dam near Topsham, Maine and commenced commercial operation in 1987 as a QF. The Topsham Project is leased and operated by Topsham Hydro Partners Limited Partnership ("Topsham"), a Minnesota limited partnership. A 100% undivided interest in the Topsham Project and a 100% undivided site interest in the Topsham Project site is owned by a financial institution, in its capacity as owner trustee for the benefit of a subsidiary of Atlantic Holdings (50%) and DaimlerChrysler Services North America LLC (50%) as owner participants. Electrical output is sold to CMF under a PPA that expires in 2011.

The following discussion deals only with the lease arrangements as they relate to the Atlantic Holdings indirect interest. Pursuant to a sale and lease back transaction, Topsham leases both the 50% Project and 50% site interest until November 17, 2011. At the end of the initial term, or any renewal term, as the case may be, of the Atlantic Holdings lease, Topsham has the option to renew the lease either for a period of two to 15 years at 50% of the average rate for the initial lease term or for a period of two years to as long as December 2070 at the market rate at time of renewal. Further, Topsham has the option to purchase both the Atlantic Holdings 50% Project and site interests on the last day of the initial term or any renewal term. Lease payments made by Topsham are based on certain Project operating cash flows. Certain of such payments are used to pre-pay amounts due under the note used to finance construction of the Project and are applied against a lease balloon payment due in November 2011.

A portion of the monies used to purchase the Project and site interests was borrowed from a financial institution and a secured note was issued representing this indebtedness. Indebtedness under this note is due November 17, 2011. As at December 31, 2004, approximately \$7.0 million remained outstanding under the note.

#### ***Capacity and Energy Sales***

##### ***Power Purchase Agreement***

Electrical output from the Topsham Project is sold to CMP pursuant to a PPA terminating on December 31, 2011. CMP has the option to terminate the PPA as of December 31, 2006 through 2010 if, as of December 31, 2005, 2006, 2007, 2008 or 2009, CMP does not have the sole right to provide electric service to customers in its now existing franchise territory who account for at least 50% of the total load being serviced on the applicable option date by all suppliers in the territory. If CMP exercises this termination option, CMP must make a termination payment to Topsham on the effective date of the termination.

CMP is required to pay for power generated by the Topsham Project based on a fixed-price schedule through December 2011.

#### ***Operations & Maintenance***

Topsham operates the Project and provides all general and administrative services for the Project pursuant to an operation agreement in effect until the earlier of December 31, 2027 or upon Topsham becoming the owner of 100% of the Project and the site, subject to renewal or earlier termination.

## THE COMPANY

The Company is a corporation continued under the *Business Corporations Act* (British Columbia).

### Description of IPSs

#### *General*

As at December 31, 2006, there were 61,470,500 IPSs issued and outstanding. Each IPS represents: (a) one Common Share; and (b) Cdn\$5.767 aggregate principal amount of Subordinated Notes.

The ratio of Common Shares to principal amount of Subordinated Notes represented by an IPS is subject to change in the event of a stock split, recombination or reclassification, or upon a partial redemption or repurchase of the Subordinated Notes.

#### *Voluntary Separation and Recombination*

At any time after the 45<sup>th</sup> day following the original issuance or upon the occurrence of a change of control of the Company, holders of IPSs may separate their IPSs into the Common Shares and Subordinated Notes represented thereby through their broker or other financial institution. Similarly, any holder of Common Shares and Subordinated Notes may, at any time, recombine the applicable number of Common Shares and principal amount of Subordinated Notes to form IPSs through their broker or other financial institution.

#### *Automatic Separation*

Upon the occurrence of any of the following, the IPSs will be automatically separated into the Common Shares and Subordinated Notes represented thereby:

- with respect to any holder of IPSs, acceptance by such holder of the Company's offer to repurchase the Subordinated Notes represented by that holder's IPSs in connection with a change of control of the Company;
- exercise by the Company of its right to redeem all or a portion of the Subordinated Notes which may be represented by IPSs at the time of such redemption;
- the date on which the outstanding principal amount of the Subordinated Notes becomes due and payable, whether at the stated maturity date or upon acceleration thereof; or
- if CDS is unwilling or unable to continue as securities depository with respect to the IPSs and the Company is unable to find a successor depository.

#### *Book-Entry Settlement and Clearance*

##### *General*

CDS acts as securities depository for the IPSs, the Subordinated Notes and the Common Shares represented by the IPSs, which are referred to collectively as the "Securities". The IPSs and the Subordinated Notes and the Common Shares represented by the IPSs are represented by one or more global notes and global stock certificates. The global notes and global stock certificates are issued as fully-registered in book-entry only form in the name of CDS or its nominee, CDS & Co. If an investor intends to purchase IPSs, an investor must do so through direct and indirect CDS participants. The participant through whom a purchase is made will receive a credit for the applicable number of IPSs on CDS's records. The ownership interest of each actual purchaser of the applicable security, referred to as a "beneficial owner", is to be recorded on the participant's records. Beneficial owners will not receive written confirmation from CDS of their purchases, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic

statements of their holdings, from the CDS participant through which the beneficial owner entered into the transaction.

All interests in the Securities are subject to the operations and procedures of CDS. The following is a summary of those operations and is provided by the Company solely for convenience. The operations and procedures of each settlement system may be changed at any time. The Company is not responsible for those operations and procedures.

To facilitate subsequent transfers, all Securities deposited by direct CDS participants are registered in the name of CDS. The deposit of Securities with CDS and their registration in the name of CDS effect no change in beneficial ownership. CDS has no knowledge of the actual beneficial owners of the Securities. CDS's records reflect only the identity of the direct CDS participants to whose accounts such Securities are credited, which may or may not be the beneficial owners. The CDS participants will remain responsible for keeping account of their holdings on behalf of their customers.

Transfers of ownership interests in the Securities are effected by entries made on the books of the CDS participants acting on behalf of beneficial owners. Beneficial owners of Securities will not receive certificates representing their ownership interests in the applicable Security except in the event that use of the book-entry only system for the Securities is discontinued.

Cross-market transfers between CDS participants, on the one hand, and the Depository Trust Company ("DTC") participants, on the other hand, will be effected within CDS through DTC. To deliver or receive an interest in Securities held in a DTC account an investor must send transfer instructions to DTC under the rules and procedures of that system and within the established deadlines of that system. If the transaction meets its settlement requirements, DTC will send instructions to its CDS depository to take action to effect final settlement by delivering or receiving interests in the Securities in CDS and making or receiving payment under normal procedures for same-day funds settlement applicable to CDS. DTC participants may not deliver instructions directly to the CDS depository that is acting for DTC.

Conveyance of notices and other communications by CDS to direct participants, by direct participants to indirect CDS participants, and by CDS participants to beneficial owners is governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

The Company and the Trustee under the Indenture make any payments on the Common Shares and Subordinated Notes to CDS. CDS's practice is to credit direct CDS participants' accounts on the payment date in accordance with their respective holdings shown on CDS's records unless CDS has reason to believe that it will not receive payment on the payment date. Payments by CDS participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such participant and not of CDS, the Company or the Trustee, subject to any statutory or regulatory requirements as may be in effect from time to time.

The Company and the Trustee under the Indenture are responsible for the payment of all amounts to CDS. CDS is responsible for the disbursement of those payments to its participants, and the participants are responsible for disbursements of those payments to beneficial owners.

CDS may discontinue providing its service as securities depository with respect to the IPSs, the Common Shares or the Subordinated Notes at any time by giving reasonable notice to the Company and the Trustee under the Indenture. If CDS discontinues providing its service as securities depository with respect to the IPSs and the Company is unable to obtain a successor securities depository, the beneficial owners will automatically take a position in the Common Shares and Subordinated Notes represented by the IPSs and the Company will print and deliver certificates representing Common Shares and Subordinated Notes to the beneficial owners or their nominees. If CDS discontinues providing its service as securities depository with respect to the Common Shares or Subordinated Notes and the Company is unable to obtain a successor

securities depository, the beneficial owners will automatically take a position in the securities and the Company will print and deliver certificates for the Common Shares and Subordinated Notes to the beneficial owners or their nominees.

The Company has the option of discontinuing the registration of any of the Securities through the book-entry only system at any time. In the event that the Company decides to discontinue use of the system of book-entry only system for any of the Securities, the Company will print and deliver certificates for the Common Shares and Subordinated Notes to the beneficial owners or their nominees.

The information in this section concerning CDS and CDS' book-entry only system has been obtained from sources that the Manager believes to be reliable, including CDS, but the Company takes no responsibility for its accuracy.

The Company will not have any responsibility or obligation to participants, or the persons for whom they act as nominees, with respect to:

- the accuracy of the records of CDS, its nominee, or any participant, as to any ownership interest in the Securities; or
- any payments to, or the providing of notice to, participants or beneficial owners.

#### *Separation and Recombination*

Any voluntary or automatic separation of IPSs, and any subsequent recombination of IPSs from Subordinated Notes and Common Shares, are to be accomplished by entries made by the CDS participants on behalf of beneficial owners. In any such case, the participant's account through which a separation or recombination is effected will be credited and debited for the applicable securities on CDS's records.

#### *Procedures Relating to Subsequent Issuances*

The Indenture and the agreements with CDS provide that, in the event there is a subsequent issuance of Subordinated Notes, the terms of the newly issued Subordinated Notes (including interest and maturity) will be identical in all material respects to the previously issued Subordinated Notes and all such Subordinated Notes will be traded under the same CUSIP number. Any such subsequently issued Subordinated Notes may be issued at a discount or premium to the stated principal amount.

#### **Description of Share Capital**

The authorized share capital of the Company consists of an unlimited number of Common Shares. As at December 31, 2006, there were 61,470,500 Common Shares issued and outstanding, all of which were represented by IPSs.

Holders of Common Shares are entitled to receive dividends as and when declared by the board of directors of the Company and are entitled to one vote per Common Share on all matters to be voted on at all meetings of shareholders. Upon the voluntary or involuntary liquidation, dissolution or winding-up of the Company, the holders of Common Shares are entitled to share rateably in the remaining assets available for distribution, after payment of liabilities.

## **Description of Subordinated Notes**

### ***General***

As at December 31, 2006, \$333,082,525 (Cdn\$394,001,374) aggregate principal amount of Subordinated Notes were outstanding. \$3(4,187,724 (Cdn\$354,500,374) of such Subordinated Notes were represented by IPSs and \$33,894,800 (Cdn\$39,501,000) of such Subordinated Notes were sold separately by private placement.

The Subordinated Notes were issued under the Indenture. The following is a brief summary of the terms of the Indenture and is subject to, and is qualified in its entirety by reference to the Indenture, which is specifically incorporated herein by reference. The Indenture can be found on SEDAR at [www.sedar.com](http://www.sedar.com).

### ***Market***

In certain circumstances, the Subordinated Notes and Common Shares represented by the IPSs will separate. There is no market through which such Subordinated Notes may be sold and purchasers may not be able to resell Subordinated Notes purchased by them.

### ***Interest Rate***

The interest rate on the Subordinated Notes is 11.0% per annum. Payments of interest, to the extent permitted by law, not made when due, will bear interest from the date such payment was due until paid at a default rate of 13.0% per annum.

### ***Record and Payment Dates***

Interest is paid monthly in arrears on the last business day of each month to holders of record on the last business day of the preceding month.

### ***Maturity Date***

The Subordinated Notes will mature on November 18, 2016.

### ***Principal Repayment***

The Subordinated Notes provide for the payment of interest only until the end of the term of the Subordinated Notes, at which time the principal balance will be payable by the Company.

### ***Optional Redemption***

On or after November 18, 2009, the Company may redeem the Subordinated Notes, at its option, at any time in whole and from time to time in part, upon not less than 30 nor more than 60 days' notice, for cash, at a redemption price equal to: (i) 105% of the principal amount of Subordinated Notes being redeemed where the redemption occurs on or after November 18, 2009 but before November 18, 2011; (ii) 104% of such amount where the redemption occurs on or after November 18, 2011 but before November 18, 2013; (iii) 103% of such amount where the redemption occurs on or after November 18, 2013 but before November 18, 2014; (iv) 102% of such amount where the redemption occurs on or after November 18, 2014 but before November 18, 2015; and (v) 101% of such amount where the redemption occurs on or after November 18, 2015 but before November 18, 2016, together with, in each case, accrued but unpaid interest to the date of redemption. Any exercise by the Company of its option to redeem Subordinated Notes, in whole or in part, will result in an automatic separation of the IPSs into Common Shares and Subordinated Notes.

### ***Change of Control***

Upon the occurrence of a change of control, the Company will be required to make an offer to each holder of Subordinated Notes to repurchase that holder's Subordinated Notes at a price equal to 101% of the principal amount of the Subordinated Notes being repurchased, plus any accrued but unpaid interest to the date of repurchase. However, a holder of IPSs will not be able to have its Subordinated Notes repurchased unless such holder surrenders the IPSs to the depository, and receives delivery of the Common Shares and Subordinated Notes represented thereby.

### ***Security and Guarantees***

The Subordinated Notes are secured by a pledge of the Company's membership interests in Atlantic Holdings and are guaranteed by Atlantic Holdings and certain of its direct and indirect, wholly-owned subsidiaries including, among others, Onondaga Cogeneration L.P. The guarantee of Atlantic Holdings is secured by a pledge of its membership interests in the Project Holding Entities and the guarantees of certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries are secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases.

Onondaga Cogeneration L.P.'s guarantee of the Subordinated Notes is secured by a pledge of certain of the Onondaga Project assets. None of the other Project Operating Entities have provided a guarantee of the Subordinated Notes and none of the other Project assets are pledged to secure a guarantee of, or indebtedness under, the Subordinated Notes.

### ***Ranking***

The Subordinated Notes are secured subordinated indebtedness of the Company and are subordinated in right of payment, as set forth in the Indenture, to all existing and future secured senior indebtedness of the Company, including the Company's guarantee of Atlantic Holdings' obligations under the Amended Credit Facility, but rank senior to all unsecured indebtedness of the Company (including trade payables).

The indebtedness evidenced by each secured guarantee of the Subordinated Notes is secured subordinated indebtedness of each guarantor, and is subordinated in right of payment, as set forth in the Indenture, to all existing and future senior indebtedness of each such guarantor, including the Amended Credit Facility, but ranks senior to any unsecured indebtedness of each such guarantor (including trade payables).

Indebtedness evidenced by each unsecured guarantee of the Subordinated Notes is unsecured subordinated indebtedness of each such guarantor and is subordinated in right of payment, as set forth in the Indenture, to all existing and future secured indebtedness of such guarantor, including the Amended Credit Facility, and ranks *pari passu* in right of payment with all existing and future unsecured indebtedness of each such guarantor (including trade payables).

### ***Restrictive Covenants***

The Indenture contains covenants with respect to the Company that restrict:

- the incurrence of additional indebtedness;
- the payment of dividends on, and repurchase of, Common Shares;
- a number of other types of payments, including investments;
- specified sales of assets;
- specified transactions with affiliates;
- the creation of a number of liens; and
- consolidations, mergers and transfers of all or substantially all of the Company's assets.

The limitations and prohibitions described above are subject to a number of important qualifications and exceptions described in the Indenture.

### **Description of Debentures**

As at December 31, 2006, \$51.5 million (Cdn \$60 million) aggregate principal amount of Debentures were outstanding.

The Debentures were issued under the Debenture Indenture. The following is a brief summary of the Debenture Indenture and is subject to, and is qualified in its entirety by reference to, the Debenture Indenture, which is specifically incorporated herein by reference. The Debenture Indenture can be found on SEDAR at [www.sedar.com](http://www.sedar.com).

### **General**

The aggregate principal amount of debentures authorized to be issued under the Indenture is unlimited. The Company may, from time to time, without the consent of the holders of the Debentures, issue additional debentures in addition to the Debentures offered hereby. The Debentures are issuable only in denominations of Cdn\$1,000 and integral multiples thereof. The Debentures are available for delivery in book-entry form only through the facilities of CDS. Holders of beneficial interests in the Debentures do not have the right to receive physical certificates evidencing their ownership of Debentures except under certain circumstances described under "— Book Entry, Delivery and Form". No fractional Debentures will be issued.

The Debentures bear interest from the date of issue at a rate of 6.25% per annum payable semi-annually in arrears on April 30 and October 31 in each year, commencing on April 30, 2007 (each, an "Interest Payment Date"). The first interest payment will include accrued and unpaid interest for the period from the date of the closing of the Debenture Offering up to, but excluding April 30, 2007. Interest is payable based on a 365-day year. The interest on the Debentures is payable in lawful money of Canada as specified in the Debenture Indenture. At the option of the Company, subject to regulatory approval, the Company may deliver IPSs to its agent who shall sell such IPSs on behalf of the Company in order to raise funds to satisfy all or any part of the Company's obligations to pay interest on the Debentures, but in any event, the holders of Debentures shall be entitled to receive cash payments equal to the interest payable on the Debentures. See "— IPS Interest Payment Election". Any amounts paid or deemed to be paid as interest in respect of the Debentures are subject to withholding tax as may be applicable.

The principal amount on the Debentures is payable in lawful money of Canada as further described under "— Payment upon Redemption or Maturity" and "— Redemption and Purchase" and "— Put Right Upon a Change of Control" below.

The Debentures are direct obligations of the Company and are secured and rank senior to the Company's obligations with respect to all existing and future Subordinated Indebtedness including the Subordinated Notes, but rank junior to all existing and future Senior Secured Indebtedness including the Amended Credit Facility and the Acquisition Credit Facility as further described under "— Ranking" below. The Indenture does not restrict the Company from incurring additional indebtedness for borrowed money or otherwise from mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing.

#### *Conversion Privilege*

The Debentures are convertible at the holder's option into fully-paid, non-assessable and freely-tradeable IPSs at any time prior to 5:00 p.m. (Toronto time) on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures, at a conversion price of Cdn\$12.40 per IPS (the "Conversion Price"), being a ratio of approximately 80.6452 IPSs for each Cdn\$1,000 principal amount of Debentures. No adjustment will be made to the record date for distributions on IPSs issuable upon conversion or for interest accrued on Debentures surrendered for conversion; however, holders converting their Debentures will be entitled to receive, in addition to the applicable number of IPSs, accrued and unpaid interest in respect thereof for the period from the date of the latest Interest Payment Date to the date of conversion. Pursuant to the Debenture Indenture, a Debenture will be deemed to be surrendered for conversion on the date on which it is so surrendered in accordance with the provisions of the Debenture Indenture and, in the case of a Debenture so surrendered by post or other means of transmission, on the date on which it is received in proper form by the Debenture Trustee at its principal offices in Toronto, provided that if a Debenture is surrendered for conversion on a day on which the register of IPSs is closed, the holder of the Debentures entitled to receive IPSs shall become the holder of record of such IPSs as at the date on which such register is next reopened. Notwithstanding the foregoing, no Debentures may be converted on any Interest Payment Date and during the five business days preceding April 30 and October 31 in each year, as the registers of the Debenture Trustee will be closed during such periods.

Subject to the provisions thereof, the Debenture Indenture provides for the adjustment of the Conversion Price in certain events including: (a) the subdivision or consolidation of the outstanding IPSs; (b) the distribution of IPSs (or securities convertible into or exchangeable for IPSs) to all or substantially all holders of IPSs by way of dividend or distribution or otherwise; (c) the issuance of options, rights or warrants to holders of all or substantially all IPSs entitling them for a period of not more than 45 days to acquire IPSs or other securities convertible into or exchangeable for IPSs at less than 95% of the then Current Market Price of the IPSs; and (d) the distribution by the Company to all or substantially all holders of outstanding IPSs of (i) securities of any class other than IPSs, (ii) rights, options or warrants (excluding rights, options or warrants entitling the holders thereof for a period of not more than 45 days to subscribe for or purchase IPSs or securities convertible into IPSs), (iii) evidences of its indebtedness, or (iv) assets (excluding dividends or distributions paid (including payments on the Subordinated Notes) in the ordinary course). There will be no adjustment of the Conversion Price in respect of any event described in (a), (b), (c) or (d) above if, subject to prior regulatory approval, the holders of the Debentures are allowed to participate as though they had converted their Debentures prior to the applicable record date or effective date. The Company will not be required to make adjustments in the Conversion Price unless the cumulative effect of such adjustments would change the Conversion Price by at least 1%.

In the case of any reclassification or change (other than a change resulting only from consolidation or subdivision) of the IPSs (or either of the Common Shares or Subordinated Notes comprising the IPSs) or in case of any amalgamation, consolidation or merger of the Company with or into any other entity, or in the case of any sale, transfer or other disposition of the properties and assets of the Company as, or substantially as, an entirety to any other entity, or the liquidation, dissolution or winding-up of the Company, the terms of the conversion privilege will be adjusted so that each Debenture shall, after such reclassification, change, amalgamation, consolidation, merger sale or conveyance or liquidation, dissolution or winding-up or other similar transactions, be exercisable for the kind and amount of securities or property of the Company, or such continuing, successor or purchaser entity, as the case may be, which the holder thereof would have been entitled

to receive as a result of such reclassification, change, amalgamation, consolidation, merger or sale if on the effective date thereof it had been the holder of the number of IPSs into which the Debenture was convertible prior to the effective date of such reclassification, change, amalgamation, consolidation, merger or sale or conveyance or liquidation, dissolution or winding-up or other similar transactions.

Upon the conversion of Debentures into IPSs pursuant to the conversion privilege, the Company will allocate the fair market value of such Debentures between the Common Shares and Subordinated Notes represented by IPSs acquired on the conversion on a reasonable basis. Such determinations will be disclosed in the continuous disclosure documentation of the Company as filed with the applicable securities regulators from time to time and by purchasing a Debenture, the holder is deemed to agree to such allocation and agrees not to take a contrary position for any purpose.

No fractional IPSs will be issued on any conversion of the Debentures, but in lieu thereof the Company shall satisfy such fractional interest by a cash payment equal to the Current Market Price of such fractional interest.

#### *Redemption and Purchase*

The Debentures may not be redeemed by the Company on or prior to October 31, 2009 (except in the case of a change of control). Thereafter, but prior to the Maturity Date, the Debentures may be redeemed in whole or in part from time to time at the option of the Company on not more than 60 days' and not less than 30 days' prior notice, at a redemption price equal to the principal amount thereof plus accrued and unpaid interest, provided that the weighted average trading price of the IPSs on the TSX for the 20 consecutive trading days ending on the fifth trading day preceding the date on which notice of redemption is given (or, if IPSs are not listed on the TSX or any other market, the fair market value of the securities comprising an IPS as determined by an independent financial advisor retained by the Company) is at least 125% of the Conversion Price.

The Company or any of its affiliates has the right to purchase Debentures in the market, by tender or by private contract subject to regulatory requirements, provided however, that if an event of default under the Debenture Indenture has occurred and is continuing, the Company or any of its affiliates will not have the right to purchase the Debentures.

In the case of redemption of less than all of the Debentures, the Debentures to be redeemed will be selected by the Debenture Trustee on a *pro rata* basis or in such other manner as the Debenture Trustee deems equitable, subject to the consent of the TSX.

The Debenture Indenture contains a covenant that so long as Debentures are outstanding the Company will not redeem the Subordinated Notes unless it concurrently redeems the Debentures.

#### *Payment Upon Redemption or Maturity*

On redemption or on the Maturity Date, the Company will repay the indebtedness represented by the Debentures by paying to the Debenture Trustee in lawful money of Canada an amount equal to the principal amount of the outstanding Debentures, together with accrued and unpaid interest thereon.

### *IPS Interest Payment Election*

Unless an event of default (as defined in the Debenture Indenture) has occurred and is continuing, the Company may elect, from time to time, subject to applicable regulatory approval, to issue and deliver freely tradeable IPSs to its agent for sale in order to raise funds to satisfy the Company's obligations to pay interest on the Debentures in accordance with the Indenture (the "IPS Interest Payment Election") in which event holders of the Debentures will be entitled to receive a cash payment equal to the interest payable from the proceeds of the sale of such IPSs by the agent. The Debenture Indenture provides that, upon such election, the agent will (i) accept delivery of IPSs from the Company; (ii) accept bids with respect to, and consummate sales of, such IPSs, each as the Company shall direct in its absolute discretion; (iii) invest the proceeds of such sales in short-term Canadian government obligations which mature prior to the applicable Interest Payment Date and deliver proceeds to holders of Debentures sufficient to satisfy the Company's interest payment obligations; and (iv) perform any other action necessarily incidental thereto. The amount received by a holder in respect of interest will not be affected by whether or not the Company elects to utilize the IPS Interest Payment Election.

Neither the Company's making of the IPS Interest Payment Election nor the consummation of sales of IPSs pursuant thereto will (i) result in the holders of Debentures not being entitled to receive on the applicable Interest Payment Date cash in an aggregate amount equal to the interest payable on such Interest Payment Date; or (ii) entitle or require such holders to receive any IPSs in satisfaction of the interest payable on the applicable Interest Payment Date.

### *Cancellation*

All Debentures converted, redeemed or purchased as aforesaid will be cancelled and may not be reissued or resold.

### *Security and Guarantees*

The Debentures are secured by a pledge of the Company's membership interests in Atlantic Holdings and is guaranteed by Atlantic Holdings and certain of Atlantic Holdings' direct and indirect wholly owned subsidiaries at the time of the closing of the Debenture Offering. The Guarantee of Atlantic Holdings is secured by a pledge of the membership interests of the Project Holding Entities and the Guarantees of certain Guarantors are secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases.

Onondaga Cogeneration Limited Partnership's Guarantee is secured by a pledge of certain of the Onondaga Project assets. None of the other Project Operating Entities provided a Guarantee and none of the other Project assets were pledged to secure a guarantee of, or indebtedness under, the Debentures. As a result, in the event of a bankruptcy, liquidation or reorganization of any Project Operating Entity other than Onondaga Cogeneration Limited Partnership, such Project Operating Entity will be required to pay the holders of its debt and its trade creditors before any monies or assets would be available to distribute to its equity holders.

### *Ranking*

The Debentures are secured indebtedness of the Company, rank senior to Subordinated Indebtedness, but rank junior to Senior Secured Indebtedness. Additionally, the Debentures rank senior to any unsecured indebtedness of the Company (including trade payables) to the extent of the security therefor.

The indebtedness evidenced by each secured Guarantee is secured indebtedness of each such Guarantor, and is subordinated in right of payment, as set forth in the Guarantee, to all existing and future Senior Secured Indebtedness of such Guarantor, including guarantees of the Senior Secured Indebtedness under the Amended Credit Facility and the Acquisition Credit Facility but ranks senior to guarantees of the Subordinated Notes and any unsecured indebtedness of each such Guarantor (including trade payables) to the extent of the security therefor.

The indebtedness evidenced by each unsecured Guarantee is unsecured subordinated indebtedness of each such Guarantor and is subordinated in right of payment, as set forth in the Guarantee, to all existing and future secured indebtedness of such Guarantor, including guarantees of the Senior Secured Indebtedness under the Amended Credit Facility and the Acquisition Credit Facility, and ranks *pari passu* in right of payment with all existing and future unsecured indebtedness of each such Guarantor (including trade payables) (unless stated otherwise in the instrument creating such Indebtedness).

The Debenture Indenture does not restrict the Company from incurring additional indebtedness for borrowed money or otherwise mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing.

#### *Put Right Upon a Change of Control*

Upon the occurrence of a Change of Control of the Company, each holder of Debentures may require the Company to purchase, on the Put Date as set out below, the whole or any part of such holder's Debentures at a price equal to 101% of the principal amount thereof (the "Put Price") plus accrued and unpaid interest up to, but excluding, the Put Date.

If 90% or more of the aggregate principal amount of the Debentures outstanding on the date of the giving of notice of the Change of Control have been tendered for purchase on the Put Date, the Company will have the right to redeem all the remaining Debentures on such date at the Put Price, together with accrued and unpaid interest up to, but excluding, such date. Notice of such redemption must be given to the Debenture Trustee prior to the Put Date and as soon as possible thereafter, by the Debenture Trustee to the holders of the Debentures not tendered for purchase. The principal on the Debentures will be payable in lawful money of Canada.

The Debenture Indenture contains notification provisions to the effect that:

- (a) the Company will promptly give written notice to the Debenture Trustee of the occurrence of a Change of Control and the Debenture Trustee will thereafter give to the holders of Debentures a notice of the Change of Control, the repayment right of the holders of Debentures and the right of the Company to redeem untendered Debentures under certain circumstances; and
- (b) a holder of Debentures, to exercise the right to require the Company to purchase its Debentures, must deliver to the Debenture Trustee, not less than five business days prior to the Put Date, written notice of the holder's exercise of such right, together with a duly endorsed form of transfer.

The Company will comply with the requirements of Canadian securities laws and regulations to the extent such laws and regulations are applicable in connection with the repurchase of the Debentures in the event of a Change of Control.

### *Modification*

The rights of the holders of the Debentures as well as any other series of debentures that may be issued under the Indenture may be modified in accordance with the terms of the Debenture Indenture. For that purpose, among others, the Debenture Indenture contains certain provisions which make binding on all holders of Debentures resolutions passed at meetings of the holders of Debentures by votes cast thereat by holders of not less than 25% of the principal amount of the then outstanding Debentures present at the meeting or represented by proxy, or rendered by instruments in writing signed by the holders of not less than 66 2/3% of the principal amount of the then outstanding Debentures. In certain cases, the modification will, instead of or in addition to the foregoing, require assent by the holders of the required percentage of Debentures of each particularly affected series. Under the Debenture Indenture, the Debenture Trustee has the right to make certain amendments to the Debenture Indenture in its discretion, without the consent of the holders of Debentures.

### *Events of Default*

The Debenture Indenture provides that an event of default in respect of the Debentures occurs if certain events described in the Debenture Indenture occur, including if any one or more of the following described events has occurred and is continuing with respect to the Debentures: (i) failure for 30 days to pay interest on the Debentures when due; (ii) failure to pay principal or premium, if any, on the Debentures, whether at maturity, upon redemption, by declaration or otherwise; (iii) certain events of bankruptcy, insolvency or reorganization of the Company under bankruptcy or insolvency laws; (iv) failure to make any payment when due in respect of any indebtedness having an aggregate principal amount of more than \$10,000,000; or (v) default in the observance or performance of any material covenant or condition of the Debenture Indenture and the continuance of such default for a period of 30 days after notice in writing has been given by the Debenture Trustee to the Company specifying the default and requiring the Company to rectify same. If an event of default has occurred and is continuing, the Debenture Trustee may, in its discretion, and shall, upon the request of holders of not less than 25% in principal amount of the then outstanding Debentures, declare the principal of (and premium, if any) and interest on all outstanding Debentures to be immediately due and payable. Generally, the Debenture Indenture provides that the Company will not make any payments when an event of default has occurred and is continuing under the Senior Secured Indebtedness.

### *Offers for Debentures*

The Debenture Indenture contains provisions to the effect that if an offer is made for the Debentures then outstanding and not less than 90% of the principal amount of the Debentures then outstanding (other than Debentures held at the date of the offer by or on behalf of the offeror or associates or affiliates of the offeror) are taken up and paid for by the offeror, the offeror will be entitled to acquire the Debentures held by holders of Debentures who did not accept the offer on the terms offered by the offeror, provided that the holders of Debentures will have the right to elect to be paid the fair value of their Debentures by providing notice to the offeror and following the other procedures set forth in the Debenture Indenture.

### *Ownership Restrictions*

There are ownership restrictions on the Debentures. The ownership restrictions that apply to the IPSs apply equally to the holders of the Debentures. For a discussion of these ownership restrictions, please see “— Limitations on ERISA Plan Ownership”, “— Limitation on U.S. Resident Ownership” and “— Limitations on Ownership by Electric Utilities and Others”.

### *Book Entry, Delivery and Form*

Debentures are issued in the form of fully registered global Debentures (the “Global Debentures”) held by, or on behalf of, CDS or its successor (the “Depository”) as custodian for its participants.

All Debentures will be represented in the form of Global Debentures registered in the name of the Depository or its nominee. Purchasers of Debentures represented by Global Debentures will not receive Debentures in definitive form except in certain circumstances described in the Debenture Indenture. Rather, the Debentures will be represented only in "book-entry only" form (unless the Company, in its sole discretion, elects to prepare and deliver definitive Debentures in fully registered form). Beneficial interests in Global Debentures, constituting ownership of the Debentures, will be represented through book-entry accounts of institutions (including the underwriters to the offering of the Debentures) acting on behalf of beneficial owners, as direct and indirect participants of the Depository (the "participants"). Each purchaser of a Debenture represented by a Global Debenture will receive a customer confirmation of purchase from the underwriter or underwriters from whom the Debenture is purchased in accordance with the practices and procedures of the selling underwriter or underwriters. The practices of the underwriters may vary but generally customer confirmations are issued promptly after execution of a customer order. The Depository will be responsible for establishing and maintaining book-entry accounts for its participants having interests in Global Debentures.

If the Depository notifies the Company that it is unwilling or unable to continue as depository in connection with the Global Debentures, or if at any time the Depository ceases to be a clearing agency or otherwise ceases to be eligible to be a depository and the Company has not appointed a successor, or if the Company elects, in its sole discretion, to terminate the book-entry system, or if under certain circumstances described in the Debenture Indenture, an event of default has occurred, Global Debentures may be transferred by the registered holder thereof and accordingly definitive certificates shall be issued to beneficial holders of Debentures (the "Definitive Debentures").

#### *Transfer and Conversion of Debentures*

Transfers of interests in Debentures represented by Global Debentures are effected through records maintained by the Depository for such Global Debentures or its nominees (with respect to interests of participants) and on the records of participants (with respect to interests of persons other than participants). Unless the Company elects, in its sole discretion, to prepare and deliver Definitive Debentures, beneficial owners who are not participants in the Depository's book-entry system, but who desire to purchase, sell or otherwise transfer ownership of or other interests in Global Debentures, may do so only through participants in the Depository's book-entry system. The ability of a beneficial owner of an interest in a Debenture represented by a Global Debenture to pledge the Debenture or otherwise take action with respect to such owner's interest in a Debenture represented by a Global Debenture (other than through a participant) may be limited due to the lack of a physical certificate.

Registered holders of Definitive Debentures may transfer such Debentures upon payment of taxes, duties or other charges incidental thereto, if any, by executing and delivering a form of transfer together with the Debentures to the Debenture Trustee at its principal offices in Toronto, Ontario, or such other city or cities as may from time to time be designated by the Company, whereupon new Debentures will be issued in authorized denominations in the same aggregate principal amount as the Debentures so transferred, registered in the names of the transferees. No transfer or conversion of a Debenture will be registered during the period beginning five business days before the day of the mailing of a notice of redemption of the Debentures and ending on the close of business on the day of such mailing or on any Interest Payment Date or during the period from the fifth business day preceding the Interest Payment Date.

#### **Payments**

Payments of interest and principal on each Global Debenture are made to the Depository or its nominee, as the case may be, as the registered holder of the Global Debenture. As long as the Depository or its nominee is the registered owner of a Global Debenture, such Depository or its nominee, as the case may be, will be considered the sole legal owner of the Global Debenture for the purposes of receiving payments of interest and principal on the Debentures and for all other purposes under the Debenture Indenture and the Debentures. The record date for the payment of interest is that day which is the fifth business day preceding the applicable Interest Payment Date. Interest payments on Global Debentures are made by electronic funds transfer or such

other means as may be agreed to by the Debenture Trustee on the day interest is payable and delivered to the Depository or its nominee, as the case may be.

The Company understands that the Depository or its nominee, upon receipt of any payment of interest or principal in respect of a Global Debenture, will credit participants' accounts, on the date interest or principal is payable, with payments in amounts proportionate to their respective beneficial interest in the principal amount of such Global Debenture as shown on the records of the Depository or its nominee. The Company also understands that payments of interest and principal by participants to the owners of beneficial interests in such Global Debenture held through such participants will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name" and will be the responsibility of such participants. The responsibility and liability of the Company in respect of payments on Debentures represented by the Global Debenture is limited solely and exclusively, while the Debentures are registered in Global Debenture form, to making payment of any interest and principal due on such Global Debenture to the Depository or its nominee.

If Definitive Debentures are issued instead of or in place of Global Debentures, payments of interest on each Definitive Debenture will be made by electronic funds transfer, if agreed to by the holder of the Definitive Debenture, or by cheque dated the Interest Payment Date and mailed to the address of the holder appearing in the register maintained by the registrar for the Debentures as soon as practicable following the applicable Interest Payment Date. Payment of principal at maturity will be made at the principal office of the paying agent in the City of Toronto (or in such other city or cities as may from time to time be designated by the Company) against surrender of the Definitive Debentures, if any.

#### *Reports to Holders*

The Company shall file with the Debenture Trustee, within 15 days after the filing thereof with the securities commission or securities regulatory authority in the provinces in which the Company is a reporting issuer (the "Securities Commissions"), copies of the Company's annual report and the information, documents and other reports that the Company is required to file with the Securities Commissions and deliver to holders of IPSs. Notwithstanding that the Company may not be required to remain subject to the reporting requirements of the Securities Commissions, the Company shall provide to the Debenture Trustee (a) within 90 days after the end of each fiscal year, the annual financial statements of the Company, and (b) within 45 days after the end of each of the first three fiscal quarters of each fiscal year, interim financial statements of the Company which in each case shall, at a minimum, contain such information as is required to be provided in financial statements under the laws of Canada or any province thereof to security holders of a company with securities listed on the TSX, whether or not the Company has any of its securities so listed. Each of such reports will be prepared in accordance with Canadian disclosure requirements and accounting principles generally accepted in Canada. The Company will provide copies of such information, documents and reports to holders of Debentures upon request.

#### **Governing Law**

Each of the Debenture Indenture and the Debentures are governed by, and construed in accordance with, the laws of the Province of Ontario and the federal laws of Canada applicable therein applicable to contracts executed and to be performed entirely in such Province.

#### **Limitations on ERISA Plan Ownership**

To avoid having the Company become subject to the fiduciary and prohibited transaction provisions of ERISA and Section 4975 of the Code, at no time may the IPSs, Subordinated Notes, Common Shares or Debentures be beneficially owned by any "ERISA Plan" (which includes plans subject to such statutory provisions and entities that, by regulation, are deemed to hold assets of such plans). Any transferee of beneficial ownership of IPSs, Subordinated Notes, Common Shares or Debentures (whether by initial purchase or subsequent transfer) will be deemed to represent to the Company that it is not an ERISA Plan. Any purported

transfer (whether or not the result of a transaction entered into through the facilities of the TSX) that, if effective, would result in any ERISA Plan beneficially owning any IPSs, Subordinated Notes, Common Shares or Debentures will be void from the date of the purported transfer, and the ERISA Plan that pursuant thereto would purport to have beneficial ownership of the IPSs or Debentures will not acquire any interest in the IPSs, Subordinated Notes, Common Shares or Debentures. In the event of such a purported transfer, such IPSs, Subordinated Notes, Common Shares or Debentures will be transferred to a trust created by the Company and sold. The ERISA Plan will not have any beneficial interest in the trust, and the ERISA Plan's sole right with respect to the IPSs, Subordinated Notes, Common Shares or Debentures that were the subject of the purported transfer to the ERISA Plan will be to receive the net proceeds of sale of such IPSs, Subordinated Notes, Common Shares or Debentures by the trust. The Company may require any person who attempts to acquire IPSs, Subordinated Notes, Common Shares or Debentures or who otherwise is purported to beneficially own IPSs, Subordinated Notes, Common Shares or Debentures, to provide a written statement or affidavit to the Company stating such information as the Company may request in order to determine whether such person is an ERISA Plan or not.

The Indenture and the Debenture Indenture contain substantively identical provisions concerning prohibitions on ERISA Plan ownership of the Subordinated Notes and the Debentures, respectively, as described above, including the right to compel an ERISA Plan to dispose of the Subordinated Notes and/or the Debentures.

#### **Limitation on U.S. Resident Ownership**

The articles of incorporation of the Company provide that at no time may more than 100 U.S. persons (as determined by the Company) be the beneficial owners of the Company's securities, nor may any U.S. person be the beneficial owner of more than 10% of the IPSs, the Subordinated Notes, the Common Shares. The Company may require declarations as to the jurisdictions in which beneficial owners of the Company's securities are resident. If the Company becomes aware that either of the foregoing limitations may be contravened, the transfer agent and registrar of the Company will make a public announcement and will not accept a subscription for the Company's securities from or issue or register a transfer of the Company's securities to a person unless the person provides a declaration that the person is not a U.S. person. If, notwithstanding the foregoing, the Company determines that more than 100 U.S. persons are beneficial owners of any class of the Company's securities (on either a non-diluted or fully-diluted basis), the Company may send a notice to the U.S. holders of such securities, chosen in inverse order to the order of acquisition or registration or in any manner as the Company may consider equitable and practicable, requiring them to sell their securities or a portion of their securities within a specified period of not less than 10 days. If the holders of the Company's securities receiving the notice have not sold the specified number of securities, or provided the Company with satisfactory evidence that they are not U.S. persons within that period, the Company may, on behalf of those holders of the Company's securities, sell those securities, and, in the interim, will suspend the voting and distribution rights attached to those securities. Upon that sale, the affected holders will cease to be holders of the securities, and their rights will be limited to receiving the net proceeds of the sale.

#### **Limitation on Ownership by Electric Utilities and Others**

The United States Congress enacted the *Energy Policy Act of 2005* ("EPAAct 2005") on August 8, 2005. EPAAct 2005 removed certain regulatory constraints on investment in utility power producers by repealing the PUHCA 1935 and enacting the *Public Utility Holding Company Act of 2005* ("PUHCA 2005"). EPAAct 2005 also limited the requirement that electric utilities buy electricity from QFs to certain markets that lack competitive characteristics and eliminated the electric utility ownership limitation for QFs. Finally, EPAAct 2005 amended and expanded the reach of FERC's corporate merger authority under section 203 of the FPA. Over the last several months, FERC has issued rulemakings implementing these provisions of EPAAct 2005.

While the new regulatory regime does mean some changes in terms of required filings and approvals, many of the regulatory issues related to the ownership Projects have not changed.

The Projects include QFs that qualify under FERC's rules implementing PURPA and EWGs under PUHCA 2005 with market-based rates on file with FERC pursuant to the FPA. Ownership of the Company is restricted in order to ensure that the Projects with market-based rates on file with FERC comply with representations made to FERC, and continue to qualify for market-based rates. Such ownership restrictions generally relate to persons or companies having equity ownership or operation of certain utility assets in the U.S. or affiliation with an entity that owns or operates such assets. As a result, the articles of incorporation of the Company provide that no U.S. entity (other than entities that have made certain regulatory filings such as Teton Holdings) may hold more than 10% of the IPSs or Common Shares. In addition, should any entity wish to hold more than 5% but less than 10% of the IPSs or Common Shares, that entity must agree to cooperate with the Company and provide information necessary to make any filings with FERC that may be required pursuant to the FPA. Further, the articles of incorporation of the Company provide that no person may own IPSs or Common Shares if such person (i) is affiliated with any franchised electric utility; (ii) has controlling ownership interests in any electric generating, transmission, or distribution facilities; (iii) is affiliated with any power marketers; (iv) is subject to regulation as a "public utility" under the FPA; or (v) is subject to regulation with respect to rates or to financial or organizational matters as an electric utility, public utility, or public service company or corporation under the laws of any state, unless such person satisfies the Company that the ownership of the IPSs or Common Shares by such person will not adversely affect the order issued under the FPA with respect to certain Projects, or the Projects' qualification for market-based rates under the FPA.

Determination of such potential adverse effect is at the sole discretion of the Company, and the Company may elect to strictly enforce any or all of the restrictions set forth above against such entity. If the Company becomes aware that any of the foregoing restrictions may be contravened, the transfer agent and registrar of the Company will make a public announcement and will not accept a subscription for IPSs or Common Shares from or issue or register a transfer of IPSs or Common Shares to a person unless the person provides a declaration that the person is not an entity described above. If, notwithstanding the foregoing, the Company determines that an owner of IPSs or Common Shares violates the foregoing restrictions, the Company may send a notice to such owner of IPSs or Common Shares requiring it to provide specified information to the Company such that Company can determine whether such person's ownership may have an adverse affect upon the Company. Upon such determination, the Company may send a further notice requiring such owner to sell its IPSs or Common Shares within a specified period of not less than 10 days. If the holder of IPSs or Common Shares receiving the notice has not sold the IPSs or Common Shares, as applicable, or provided the Company with satisfactory evidence that it does not contravene the foregoing restrictions, the Company may, on behalf of that holder of IPSs or Common Shares, sell those IPSs or Common Shares, and, in the interim, will suspend the voting and distribution rights attached to those IPSs or Common Shares. Upon that sale, the affected holder will cease to be a holder of the IPSs or the Common Shares, as applicable, and its rights will be limited to receiving the net proceeds of the sale.

### **Interest Payments and Distribution Policy**

Distributions of the Company are paid in Canadian dollars unless a holder of IPSs, Common Shares or Subordinated Notes elects to receive distributions in U.S. dollars. Holders of IPSs, Common Shares or Subordinated Notes that elect to receive U.S. dollar distributions will receive the U.S. dollar Equivalent Amount of distributions by the Company. A holder of IPSs, Common Shares or Subordinated Notes may from time to time elect to change the currency of the distributions it receives on all or any part of the IPSs, Common Shares or Subordinated Notes it holds from Canadian dollars to U.S. dollars or vice versa upon notice to the securities broker through which the holder holds its IPSs, Common Shares or Subordinated Notes.

The Company pays interest on the Subordinated Notes and dividends on the Common Shares (if declared) on the last business day of each month to holders of record at the close of business on the last business day of the preceding month.

The Company intends to pay equal monthly dividends on the Common Shares at a stable and sustainable level, subject to applicable law and the covenants contained in the Amended Credit Facility and the Indenture, after:

- satisfying its debt service obligations under any credit facilities or other agreements with third parties, if any;
- making interest payments at the rate of 11.0% per annum of the aggregate principal amount of the Subordinated Notes outstanding;
- satisfying its other expense obligations, including withholding and other applicable taxes; and
- retaining reasonable reserves for working capital and other expenses.

The Company may make additional distributions in excess of monthly dividends during the year, as the board of directors may determine in its sole discretion.

The Indenture and the Amended Credit Facility contain restrictions on the ability of the Company to declare and pay dividends on the Common Shares. The board of directors of the Company may, in its discretion, modify or repeal the Company's dividend policy. No assurances can be made that the Company will pay dividends at the level contemplated in the future or at all.

The following table summarizes distributions declared by the Company.

	Year Ended December 31,		
	2004	2005	2006
Dividend per Common Share	Cdn\$0.0437	Cdn\$0.3760	Cdn\$0.4060
Interest Payment on Subordinated Note	Cdn\$0.0758	Cdn\$0.6344	Cdn\$0.6344
<b>Total Distribution per IPS</b>	<b>Cdn\$0.1195</b>	<b>Cdn\$1.0104</b>	<b>Cdn\$1.0404</b>

Management generally anticipates designating dividends paid on the Common Shares as eligible dividends for purposes of the *Income Tax Act* (Canada) (the "Tax Act"). To the extent that the Company makes a valid designation in respect of any dividends paid on the Common Shares, holders of Common Shares that are individuals resident in Canada for purposes of the Tax Act will be entitled to the enhanced gross-up and dividend tax credit mechanism applicable to eligible dividends.

#### Administration

The Company has no executive officers and engages the Manager to provide certain services pursuant to the Management Agreement. Under the Management Agreement, the Manager, if requested by the Company, has agreed to: (i) assist the Company in complying with its continuous disclosure obligations under applicable securities legislation; (ii) provide or cause to be provided to holders of securities of the Company, all information to which they are entitled under the constating documents of the Company and the Indenture and applicable laws; (iii) monitor compliance of the Company with applicable laws; (iv) provide for the calculation of interest payments and distributions to holders of IPSs and the Separate Subordinated Notes; and (v) assist in the preparation, planning and coordination of meetings of the board of directors of the Company and the holders of Common Shares of the Company. The Company may directly retain professionals and other service providers from time to time to provide advice and other administrative services directly to the Company.

## ATLANTIC HOLDINGS

Atlantic Holdings is a Delaware limited liability company.

### Capital of Atlantic Holdings

The authorized capital of Atlantic Holdings consists of an unlimited number of common membership interests, an unlimited number of Class A preferred membership interests, an unlimited number of Class B preferred membership interests and an unlimited number of senior membership interests. As at December 31, 2006, 61,470,500 common membership interests, 68,319,988 Class A preferred membership interests and 60,000 senior membership interests of Atlantic Holdings were owned by the Company, and 8,908,622 common membership interests and 8,908,622 Class B preferred membership interests were owned by the Existing Investors. As of the date hereof, the Company owns 61,470,500 common membership interests, 68,319,988 Class A preferred membership interests and 60,000 senior membership interests of Atlantic Holdings, and the Existing Investors do not own any interests in Atlantic Holdings.

On February 7, 2007, the Company completed the purchase of additional membership interests in Atlantic Holdings and the redemption of all of the remaining membership interests in Atlantic Holdings held by the Existing Investors. The Company purchased the membership interests in Atlantic Holdings with the net proceeds from the private placement of IPSs to three institutional investors completed in December 2006. Following completion of the redemption, the Existing Investors no longer hold any retained interest in Atlantic Holdings and Atlantic Holdings is a wholly-owned subsidiary of the Company. Fund I and Fund II continue to indirectly own 100% of the Manager. For further information on the redemption or the private placement, see discussion under "General Development of the Business".

### *Class A Preferred Membership Interests*

The Class A preferred membership interests are non-voting membership interests. Each Class A preferred membership interest has a liquidation preference of Cdn\$5.767 and is entitled to a cumulative preferred return of  $11 \frac{1}{16}\%$ , plus an amount equal to all of the Company's ongoing expenses and costs. The Class A preferred membership interests are entitled to full payment of any unpaid preferred return prior to distributions being made on the common membership interests and Class B preferred membership interests, but only after unpaid returns are paid on the senior membership interests. The Class A preferred membership interests do not have any right to distributions from Atlantic Holdings in excess of their liquidation preference and preferred return.

The Class A preferred membership interests are redeemable at the option of the holder upon the maturity date of the Subordinated Notes, or upon any redemption or prepayment of the Subordinated Notes being required under the Indenture, for a price equal to their liquidation preference plus any accumulated preferred return. The Class A preferred membership interests are redeemable at the option of Atlantic Holdings on or after November 18, 2009 at a redemption price equal to: (i) 105% of the liquidation preference of the Class A preferred membership interests being redeemed where the redemption occurs on or after November 18, 2009 but before November 18, 2011; (ii) 104% of such amount where the redemption occurs on or after November 18, 2011 but before November 18, 2013; (iii) 103% of such amount where the redemption occurs on or after November 18, 2013 but before November 18, 2014; (iv) 102% of such amount where the redemption occurs on or after November 18, 2014 but before November 18, 2015; and (v) 101% of such amount where the redemption occurs on or after November 18, 2015 but before November 18, 2016, together with, in each case, any accumulated preferred return to the date of redemption. The Class A preferred membership interests are redeemable at the option of the holder, at a redemption price equal to 100% of the liquidation preference of the Class A preferred membership interests plus any accumulated preferred return, during any period that for U.S. federal income tax purposes the Company: (i) is not, or would not be, in the opinion of nationally recognized tax counsel, permitted to deduct all or a substantial portion of the interest payable on the Subordinated Notes from its income; or (ii) is required to withhold or deduct any amount for or on account of taxes from any amounts paid or credited under or with respect to the Subordinated Notes and the Company is required to pay additional

amounts. The Class A preferred membership interests are redeemable at the option of the holder for an amount equal to 101% of the liquidation preference of the Class A preferred membership interests plus any accumulated preferred return, in the event that a change of control occurs.

#### ***Class B Preferred Membership Interests***

The Class B preferred membership interests are non-voting membership interests. Each Class B preferred membership interest has a liquidation preference of Cdn\$5.767 and is entitled to a cumulative preferred return of 11.0%. The Class B preferred membership interests are entitled to full payment of any unpaid preferred return prior to distributions being made on the common membership interests, but only after preferred returns are paid on the senior membership interests and the Class A preferred membership interests. The Class B preferred membership interests do not have any right to distributions from Atlantic Holdings in excess of their liquidation preference and preferred return.

The Class B preferred membership interests are redeemable at the option of the holder at any time after redemption in full of the Class A preferred membership interests. Upon exercise by a holder of its redemption right with respect to the Class B preferred membership interests, all distributions of available cash (other than tax distributions) will be paid to the holders of the Class B preferred membership interests until they have received payment in full of their liquidation preference plus any accumulated preferred return.

#### ***Common Membership Interests***

Each common membership interest carries one vote on all matters to be voted on at all meetings of members. Holders of common membership interests are entitled to receive distributions as and when declared by the board of managers after payment in full of all cumulative preferred returns on the senior membership interests, and Class A and Class B preferred membership interests. Upon the voluntary or involuntary liquidation, dissolution or winding-up of Atlantic Holdings, the holders of common membership interests are entitled to share rateably in the remaining assets available for distribution, after payment of liabilities and the liquidation preference to which the Class A and Class B preferred membership interests are entitled.

#### ***Senior Membership Interests***

The senior membership interests were issued by Atlantic Holdings to the Company in exchange for the net proceeds of the sale of the Debentures under the bought deal financing completed on October 11, 2006 (see "General Development of the Business" for further details). The senior membership interests are non-voting membership interests. Each senior membership unit has a liquidation preference of Cdn\$1,000 and is entitled to a cumulative return of 6.3125%. The senior membership interests are entitled to full payment of any unpaid preferred return prior to distributions being made to any other class of membership interests. The senior membership interests do not have any right to distributions from Atlantic Holdings in excess of their liquidation preference and preferred return.

In the event that the Company elects to satisfy all or a part of an interest obligation under the Debenture Indenture by delivering IPSs to the Debenture Trustee for sale (the aggregate dollar amount of the portion of such Interest Obligation satisfied with such sale proceeds, an "IPS Sale Payment"): (a) the cumulative distribution per senior membership interest to which the holder thereof would be entitled on such corresponding semi-annual payment date shall be reduced by an amount equal to the quotient of (x) such IPS Sale Payment, divided by (y) the aggregate number of senior membership interests outstanding on such date and (b) Atlantic Holdings will issue to the Company IPS equivalent membership interests equal to the number of IPSs issued by the Company and deposited with and sold by or on behalf of the Debenture Trustee in connection with such IPS Sale Payment.

Upon the conversion by the holder of any Debentures pursuant to the terms of the Debenture Indenture, a number of senior membership interests with an aggregate liquidation preference equal to the aggregate principal amount of the Debentures being so converted shall be automatically converted into a number of IPS

equivalent membership interests equal to the number of IPSs issuable by the Company upon the conversion of such Debentures, as determined in accordance with the terms of the Debenture Indenture. Immediately prior to such conversion, the Company shall pay in cash to the holders of such senior membership interests to be converted an amount equal to the accrued but unpaid distributions thereon. The only consideration to be received by a holder in respect of a conversion of senior membership interests will be the applicable number of IPS equivalent membership interests issuable to such holder and in no event will the payment of accrued distributions immediately prior to such conversion be deemed to be in consideration for the surrender and cancellation of such senior membership interests.

Upon the maturity of or any redemption, repurchase or prepayment by the Company of any Debentures for cash pursuant to the terms of the Debenture Indenture, a number of senior membership interests with an aggregate liquidation preference equal to the aggregate principal amount of the Debentures maturing or being so redeemed, repurchased or prepaid will be redeemed or repurchased by Atlantic Holdings, at such time and price and in the same amount that the Debentures are redeemed, repurchased, prepaid or otherwise become payable, plus any accrued but unpaid distributions.

### **Distribution Policy**

Atlantic Holdings intends to pay equal monthly distributions on its common membership interests at a stable and sustainable level, subject to applicable law and the covenants contained in the Amended Credit Facility and the Indenture, after:

- satisfying its debt service obligations under the Amended Credit Facility or other agreements with third parties, if any;
- satisfying its other expense obligations, including management and administration expenses, and withholding and other applicable taxes;
- paying distributions on the outstanding senior membership interests;
- paying distributions on the outstanding Class A preferred membership interests;
- paying distributions on the outstanding Class B preferred membership interests;
- retaining reasonable reserves for working capital and other expenses; and
- making deposits into the Reserve Account to be used to stabilize distributions and fund acquisitions and other growth opportunities.

### **Reserve Account**

Upon completion of the IPO and transactions contemplated by the Acquisition Agreements, Cdn.\$12.5 million of the net proceeds of the IPO was deposited into the Reserve Account. The Company currently maintains a balance of approximately \$10 million in the reserve account. The funds in the Reserve Account are available to: (a) stabilize future cash distributions; and (b) fund acquisitions and other growth opportunities to enhance the long-term stability of cash distributions. Any such acquisition or growth opportunity will be required to meet the acquisition and investment guidelines established by the Company. All acquisitions are subject to the approval of the members of the board of managers of Atlantic Holdings.

### **Operating Agreement**

The Company, Atlantic Holdings and the Existing Investors entered into the Operating Agreement with respect to the operations and affairs of Atlantic Holdings. Among other things, the Operating Agreement contains certain benefits and rights applicable to the Existing Investors. As at the date hereof and discussed under "General Development of the Business", Atlantic Holdings has redeemed all of the interests in Atlantic Holdings held by the Existing Investors. Accordingly, Atlantic Holdings intends to amend the Operating Agreement to remove such benefits and rights which are no longer applicable. The following is a brief

summary of certain provisions of the Operating Agreement (excluding those benefits and rights of the Existing Investors that are no longer applicable) and is subject to, and qualified in its entirety by, all the provisions of the Operating Agreement, which is specifically incorporated herein by reference. A copy of the Operating Agreement can be found on SEDAR at [www.sedar.com](http://www.sedar.com).

**Managers.** As of the date hereof, the board of managers of Atlantic Holdings consists of six managers. In connection with the recent redemption by Atlantic Holdings of all of the remaining interests in Atlantic Holdings held by the Existing Investors, Atlantic Holdings intends to amend the Operating Agreement. It is expected that such amendment will include, among other things, a reduction in the size of the board of managers to two, being Barry Welch and Patrick Welch. A majority of the managers must be U.S. residents. All representatives of the Existing Investors and the Manager must be U.S. residents. The Company is entitled to appoint a majority of the board of managers of Atlantic Holdings. As at the date hereof, the board of managers of Atlantic Holdings is comprised of a majority of managers unrelated to Atlantic Holdings and its subsidiaries and the Manager, as follows:

- four representatives of the Company (the four directors of the Company); and
- two representatives of the Manager.

Because the Existing Investors no longer own common membership interests in Atlantic Holdings, the Existing Investors are no longer entitled to board representation rights.

**Special Approvals.** In addition to majority approval of the board of managers of Atlantic Holdings, Atlantic Holdings may not, without the approval by at least 80% of the votes cast by holders of outstanding common membership interests: (i) other than in connection with an event of default under the Indenture, enter into a merger, consolidation, combination or other material transaction of a similar nature; (ii) other than in connection with an event of default under the Indenture, directly or indirectly sell or otherwise dispose of all or substantially all of its assets; (iii) redeem any of the outstanding Class A preferred membership interests where such redemption is made at its discretion; (iv) adopt any plan or proposal for the liquidating, dissolving, reorganizing or recapitalizing of Atlantic Holdings or to commence any action seeking relief under any laws relating to bankruptcy, insolvency, conservatorship or relief of debtors; (v) change its fiscal year (unless required or indicated for tax reasons) or make a material change in its accounting policies or procedures unless required under the applicable generally accepted accounting principles; (vi) change the size of the board of managers of Atlantic Holdings; (vii) take, or permit, any action which would prevent the business from continuing on an ongoing basis; or (viii) agree to do any of the preceding.

**Executives.** Pursuant to the terms of the Management Agreement, the Manager has the exclusive authority to manage the business and affairs of Atlantic Holdings, to make all decisions regarding Atlantic Holdings and to bind Atlantic Holdings subject to approval, in certain circumstances, by the board of managers of Atlantic Holdings. The Manager has appointed a full-time chief executive officer, a chief financial officer and corporate secretary, and a Managing Director of Acquisitions & Asset Management, and will appoint such other officers as are considered necessary to fulfil its obligations under the Management Agreement.

**Amendment.** The Operating Agreement provides that it can only be amended, modified or waived with the approval of the Company and Atlantic Holdings.

## RISK FACTORS

An investment in the IPSs or the Debentures and the Common Shares and Subordinated Notes represented by IPSs, involves a number of risks in addition to those described under "Forward Looking Statements". In addition to other information contained in this annual information form, prospective investors should give careful consideration, in light of their own financial circumstances, to the following factors. Any of the matters highlighted in the risk factors could have a material adverse effect on the Company's results of

operations, business prospects or financial condition, the cash available to the Company for distribution to holders of IPSs, Debentures, Common Shares and Subordinated Notes or on the market price or value of IPSs, Debentures, Common Shares, or Subordinated Notes.

## **Risks Related to the Business and the Projects**

### ***Revenue May be Reduced Upon Expiration or Termination of PPAs***

Power generated by the Projects, in most cases, is sold under PPAs that expire at various times. In addition, these PPAs may be subject to termination in certain circumstances, including default by the Project owner or operator. When a PPA expires or is terminated, it is possible that the price received by the relevant Project for power under subsequent arrangements may be reduced significantly. It is possible that subsequent power purchase arrangements may not be available at prices that permit the operation of the Project on a profitable basis. If this occurs, the affected Project may temporarily or permanently cease operations.

### ***The Projects Depend on their Electricity, Thermal Energy Customers***

Each Project relies on one or more PPAs, steam sales agreements or other agreements with one or more utilities or other customers for a substantial portion of its revenue. The amount of cash available for distribution to holders of IPSs, Common Shares and Subordinated Notes is highly dependent upon customers under such agreements fulfilling their contractual obligations. There is no assurance that these customers will perform their obligations or make required payments to the Project Operating Entities.

### ***Certain Projects are Exposed to Fluctuations in the Price of Electricity***

While a majority of the off-takers of the Projects are contractually obligated to purchase electricity under long-term PPAs, those Projects with power purchase arrangements based on market pricing will be exposed to fluctuations in the wholesale price of electricity. In addition, should any of the long-term PPAs expire or terminate, the Manager or the relevant Project operator will be required to either negotiate new PPAs or sell into the electricity wholesale market, in which case the prices for electricity will depend on market conditions at the time.

### ***Operations are Subject to the Provisions of Various Energy Laws and Regulations***

Generally, in the United States, the Company's projects are subject to regulation by the FERC regarding the terms and conditions of wholesale service and rates, as well as by state agencies regarding PPAs entered into by QF projects and the siting of the generation facilities. The majority of the Company's generation is sold by QF projects under PPAs that required approval by state authorities.

On August 8, 2005, EAct 2005 was enacted, which removed certain regulatory constraints on investment in utility power producers by repealing the PUHCA 1935 and enacting the PUHCA 2005. EAct 2005 also limited the requirement that electric utilities buy electricity from QFs to certain markets that lack competitive characteristics. Finally, EAct 2005 amended and expanded the reach of FERC's corporate merger approval authority under section 203 of the FPA. Over the last several months, FERC has issued final rulemakings implementing these provisions of EAct 2005.

If any Project that is a QF were to lose its status as a QF, then such Project may no longer be entitled to exemption from provisions of PUHCA 2005 or from provisions of the FPA and state law and regulations. Loss of QF status could trigger defaults under covenants to maintain QF status in the PPAs, steam sales agreements and Project-level debt agreements and result, if not cured within allowed cure periods, could result in termination of agreements, penalties or acceleration of indebtedness under such agreements, plus interest.

The Projects would also have to file with FERC for market-based rates or file for acceptance for filing of the rates set forth in the applicable PPA, and its rates would then be subject to initial and potentially subsequent reviews by FERC under the FPA, which could result in reductions to the rates.

The Projects require licenses, permits and approvals which can be in addition to any required environmental permits. No assurance can be provided that we will be able to obtain, comply with and renew, as required, all necessary licenses, permits and approvals for these facilities. If we cannot comply with and renew as required all applicable regulations, our business, results of operations and financial condition could be adversely affected.

EPA Act 2005 provides incentives for various forms of electric generation technologies, which may subsidize our competitors. In addition, EPA Act 2005 requires the FERC to select an industry self-regulatory organization which will impose mandatory reliability rules and standards. Among other things, FERC's rules implementing these provisions allow such reliability organizations to impose sanctions on generators that violate their new reliability rules.

The Company cannot provide assurance that the introductions of new laws, or other future regulatory developments, will not have a material adverse impact on our business, operations or financial condition.

#### ***Projects May Not Operate as Planned***

The revenue generated by the Projects is dependent, in whole or in part, on the amount of electric energy and steam generated by them. The ability of the Projects to generate the maximum amount of power to be sold to customers under the PPAs is the primary determinant of the amount of cash that will be distributed to the Company, and that will in turn be available for distribution to holders of IPSs, Common Shares, Subordinated Notes and Debentures. With respect to each of the Projects, there is a risk of equipment failure due to wear and tear, latent defect, design error or operator error, among other things, which could adversely affect revenues and cash available for distribution. To the extent that the Projects' equipment requires longer than forecast down times for maintenance and repair, or suffers disruptions of power generation for other reasons, the amount of cash available for distribution may be adversely affected.

In general, the Projects transmit electric power to the transmission grid for purchase under the PPAs through a single, main step up transformer. As a result, the transformer represents a single point of vulnerability and may exhibit no abnormal behaviour in advance of a catastrophic failure that could cause a temporary shutdown of the facility until a spare transformer can be found or a replacement manufactured. In some cases, a spare transformer may be shared among several facilities. If the reason for a shutdown is outside of the control of the operator, the Projects may be able to make a force majeure claim under the Project contracts such as the PPA, fuel supply, steam sales agreement, loan agreements or insurance policies. If successful, such a claim may prevent a default or reduce monetary losses under such contracts. However, a force majeure claim may be challenged by the contract counterparty and, to the extent the challenge is successful, it may have a materially adverse effect on the Project.

#### ***Predicting Project Cash Flows Over the Long Term Is Difficult***

Due to the many uncertainties described in this risk factors section that could materially affect future revenues or expenses, it can be difficult to make long term projections of the Company's operating margins.

#### ***The Projects are Subject to Significant Environmental and Other Regulations***

The Projects are subject to numerous and significant federal, state and local laws, including statutes, regulations, by-laws, guidelines, policies, directives and other requirements governing or relating to, among other things: air emissions; discharges into water; the storage, handling, use, transportation and distribution of dangerous goods and hazardous and residual materials, such as chemicals; the prevention of releases of hazardous materials into the environment; the prevention, presence and remediation of hazardous materials in

soil and groundwater, both on and off site; land use and zoning matters; and workers' health and safety matters. As such, the operation of the Projects carries an inherent risk of environmental, health and safety liabilities (including potential civil actions, compliance or remediation orders, fines and other penalties), and may result in the Projects being involved from time to time in administrative and judicial proceedings relating to such matters.

Environmental laws and regulations have generally become more stringent over time, and this trend may continue. In particular, the EPA has promulgated regulations under the Clean Air Interstate Rule requiring additional reductions in nitrogen oxides, or NOX and sulphur dioxide, or SO<sub>2</sub>, emissions, beginning in 2009 and 2010 respectively, and has also promulgated regulations requiring reductions in mercury emissions from coal-fired electric generating units, beginning in 2010 with more substantial reductions in 2018. Moreover, certain of the states in which we operate have promulgated air pollution control regulations which are more stringent than existing and proposed federal regulations.

Ongoing public concerns about emissions of carbon dioxide and other greenhouse gases ("GHG") from power plants have resulted in proposed laws and regulations at the federal, state and regional levels that, if they were to take effect substantially as proposed, would likely apply to Project operations. For example, a proposed multi-state carbon dioxide cap-and-trade program known as the Regional Greenhouse Gas Initiative ("RGGI") would apply to the Company's fossil fuel facilities in the Northeast region. Model rules for implementation of RGGI have already been proposed by several Northeastern states and currently are in the public comment stage.

In 2006, the State of California passed legislation initiating two programs to control/reduce the creation of GHG. The two laws, more commonly known as AB 32 and SB 1368, are currently in the regulatory rulemaking phase which will involve public comment and negotiations over specific provisions.

Under AB 32 (the California Global Warming Act of 2006) CARB is required to adopt a GHG emissions cap on all major sources (not limited to the electric sector). In order to do so, it must adopt regulations for the mandatory reporting and verification of GHG emissions and to reduce statewide emissions of GHG to 1990 levels by 2020. This will most likely require that electric generating facilities reduce their emissions of GHG or pay for the right to emit by the implementation date of January 1, 2012. The program has yet to be finalized and the decision as to whether allocations will be distributed or auctioned will be determined in the rulemaking process that is currently underway.

SB 1368 added the requirement that the California Energy Commission, in consultation with the California Public Utilities Commission ("CPUC") and the California Air Resources Board ("CARB") establish a GHG emission performance standard and implement regulations for power purchase agreements that exceed five years entered into prospectively by publicly-owned electric utilities. The legislation directs the CEC to establish the performance standard as one not exceeding the rate of GHG emitted per megawatt-hour associated with combined-cycle, gas turbine baseload generation. Provisions are under consideration in the rulemaking to allow facilities that have higher CO<sub>2</sub> emissions to be able to negotiate PPA's for up to a five-year period or sell power to entities not subject to SB 1368. This statute may limit Stockton's ability to extend its PPA with PG&E (which currently expires in early 2008) beyond the five year limit.

In addition to the regional initiatives, legislation for the regulation of GHG has been introduced at the federal level and if passed, may eventually override the regional efforts with a national cap and trade program.

Significant expenditures may be required for either capital expenditures or the purchase of allowances under any or all of these programs to keep our facilities compliant with environmental laws and regulations. The Projects' PPAs do not allow for the pass through of emissions allowance or emission reduction capex costs. If it is not economical to make those expenditures it may be necessary to retire or mothball facilities, or restrict or modify our operations to comply with more stringent standards.

The Projects have obtained environmental permits and other approvals that are required for their operations. Compliance with applicable laws and future changes to them is material to the Company's businesses. Although the Manager believes the operations of the Projects are currently in material compliance

with applicable environmental laws, licences, permits and other authorizations required for the operation of the Projects and although there are environmental monitoring and reporting systems in place with respect to all the Projects, there is no guarantee that more stringent laws will not be imposed, that there will not be more stringent enforcement of applicable laws or that such systems may not fail, which may result in material expenditures. Failure by the Projects to comply with any environmental, health or safety requirements, or increases in the cost of such compliance, including as a result of unanticipated liabilities or expenditures for investigation, assessment, remediation or prevention, could result in additional expense, capital expenditures, restrictions and delays in the Projects' activities, the extent of which cannot be predicted.

***The Projects Depend on Suppliers Under Fuel Supply Agreements and Increases in Fuel Costs may Adversely Affect the Profitability of the Projects***

Revenues in respect of the Projects may be affected by the availability, or lack of availability, of a stable supply of fuel at reasonable or predictable prices. To the extent possible, the Projects attempt to match fuel cost setting mechanisms in supply agreements to PPA energy payments formulas. To the extent that fuel costs are not matched well to PPA energy payments, increases in fuel costs may adversely affect the profitability of the Projects.

The amount of energy generated at the Projects is highly dependent on suppliers under certain fuel supply agreements fulfilling their contractual obligations. The loss of significant fuel supply agreements or an inability or failure by any supplier to meet its contractual commitments may adversely affect cash distributions by the Company.

Upon the expiry or termination of existing fuel supply agreements, the Manager or Project operators will have to renegotiate these agreements or may need to source fuel from other suppliers. There can be no assurance that the Manager or Project operators will be able to renegotiate these agreements or enter into new agreements on similar terms. Furthermore, there can be no assurance as to availability of the supply or pricing of fuel under new arrangements and it can be very difficult to accurately predict the future prices of fuel.

The amount of energy generated at the Projects is dependent upon the availability of natural gas, coal, oil or biomass. There can be no assurance that the long-term availability of such resources will remain unchanged.

***Increasing Competition Could Adversely Affect the Performance of the Company and the Projects***

The power generation industry is characterized by intense competition, and the Projects encounter competition from utilities, industrial companies and other independent power producers, in particular with respect to un-contracted output. In recent years, there has been increasing competition among generators in an effort to obtain power sales agreements, and this competition has contributed to a reduction in electricity prices in certain markets where supply has surpassed demand plus appropriate reserve margins. In addition, many states are implementing or considering regulatory initiatives designed to increase competition in the U.S. power industry.

***The Projects Depend on a Favourable Regulatory Regime***

The profitability of the Projects is in part dependent upon the continuation of a favourable regulatory climate with respect to the continuing operations and the future growth and development of the independent power industry. Should the regulatory regime in an applicable jurisdiction be modified in a manner which adversely affects the Projects, including increases in taxes and permit fees, cash available for distribution may be adversely affected. The failure to obtain all necessary licences or permits, including renewals thereof or modifications thereto, may also adversely affect cash available for distribution.

### ***ArcLight May Manage Entities that Compete with the Company and Atlantic Holdings***

The officers of the Manager are full-time employees of the Manager and devote their time and efforts exclusively to or for the benefit of the business of Atlantic Holdings and the Company. ArcLight and their affiliates and employees or agents may be engaged or invest directly or indirectly in a variety of other companies or other entities involved in owning, managing or advising on or otherwise engaged in the business of the generation, production, transmission, distribution, purchase and sale of electricity, other forms of energy-related projects, infrastructure projects, utility projects or other businesses.

Affiliates of ArcLight currently act, and may hereafter act, as managers to investment funds whose investment criteria encompass investments in power generation, transmission and distribution and related facilities in Canada and the U.S. In particular, an affiliate of ArcLight is the general partner of Funds I, II and III which invest in power generation, transmission and distribution assets as well as power-related fuel, services and equipment businesses, primarily in the United States. Existing and future agreements governing investment funds managed by affiliates of ArcLight, including the agreements governing Fund I, II and III, require, and are expected to require in the case of future agreements, that suitable investments for such investment funds identified by ArcLight first be offered to the investment funds. The Management Support Agreement (as defined below) requires that ArcLight and its affiliates give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for Fund I, Fund II, Fund III or other investment funds managed by ArcLight or its affiliates or that do fit within such investment guidelines but which such investment funds determine not to pursue. None of ArcLight or its affiliates is prohibited by the Management Agreement or any other agreement with Atlantic Holdings or the Company from competing with Atlantic Holdings or the Company, or from acquiring, investing in, or providing administrative or managerial services to, a competitor of Atlantic Holdings or the Company.

### ***The Company Has Limited Control Over the Operation of Certain Projects***

In most cases, the Projects are not wholly-owned by the Company, and in many cases the Company has limited control over the operation of the Projects. Third-party operators manage the operations of many of the Projects. As such, the Company must rely on the technical and management expertise of these third-party operators. To the extent that such third party operators do not fulfill their obligations to manage the operations of the Projects or are not effective in doing so, the amount of cash available for distribution may be adversely affected.

### ***Sufficient Capital May Not be Available to Fund Acquisitions, Investments, Expansions or Capital Expenditures***

Future acquisitions, investments, expansions and other capital expenditures by the Company and its subsidiaries will be financed by cash generated from operations, sales of additional securities of the Company and borrowings. There can be no assurance that sufficient capital will be available on acceptable terms to fund acquisitions, investments, capital expenditures or expansion projects.

### ***The Company May Face Significant Competition for Acquisitions and May Not Successfully Integrate Acquisitions***

The Company's business plan includes growth through identifying suitable acquisition or investment opportunities, pursuing such opportunities, consummating acquisitions or investments and effectively integrating acquisitions or investments with the Company's business. There can be no assurance that the Manager will be able to identify attractive acquisition candidates in the power industry in the future, that the Company will be able to make acquisitions or investments on an accretive basis or that acquisitions or investments will be successfully integrated into the Company's existing operations.

Although the U.S. power industry is continuing to undergo consolidation and may offer attractive acquisition and investment opportunities, the Manager believes that the Company is likely to confront significant competition for those opportunities; and, due to the constriction in the availability of capital resources for acquisitions, investments and other expansion, to the extent that any opportunities are identified, the Company may be unable to effect acquisitions; or investments.

Any acquisition or investment may involve potential risks, including an increase in indebtedness, the inability to successfully integrate operations, the potential disruption of the Company's ongoing business and the diversion of management's attention from other business concerns and the possibility that the Company pays more than the acquired company or interest is worth. There may also be liabilities that the Manager failed to discover, or was unable to discover, in its due diligence prior to the consummation of the acquisition or investment, and the Company may not be indemnified for some or all these liabilities. In addition, the Company's funding requirements associated with acquisitions or investments and integration costs may reduce the funds available to the Company to make distributions.

#### ***Operations are Subject to a Number of Natural and Inherent Risks***

The occurrence of a significant event which disrupts the ability of the Projects to produce or sell power for an extended period, including events which preclude existing customers from purchasing power, could have a material adverse effect on the amount of cash that will be available for distribution to holders of IPSs, Common Shares and Subordinated Notes **and Debentures**. A certain portion of the events that might give rise to force majeure may, however, be mitigated by the Projects' insurance programs.

#### ***Insurance May Not be Sufficient to Cover All Losses***

While the Manager believes that the Projects' insurance coverage addresses all material insurable risks, provides coverage that is similar to what would be maintained by a prudent owner/operator of similar facilities, and are subject to deductibles, limits and exclusions which are customary or reasonable given the cost of procuring insurance, current operating conditions and insurance market conditions, there can be no assurance that such insurance will continue to be offered on an economically feasible basis, nor that all events that could give rise to a loss or liability are insurable, nor that the amounts of insurance will at all times be sufficient to cover each and every loss or claim that may occur involving the assets or operations of the Projects or the Company.

#### ***Financing Arrangements Could Impact the Business of the Company***

Current or future borrowings by the Company or its subsidiaries will increase the level of financial risk to the Company and, to the extent that the interest rates are not fixed or that borrowings are refinanced at different rates, will increase the sensitivity of cash available for distribution to interest rate variations. Contractual arrangements in respect of those borrowings may also adversely affect cash available for distribution. In addition, most of the Projects currently have term loan or other financing arrangements in place with various lenders. These financing arrangements are typically secured by all of the Project assets and contracts as well as the equity interests in the Project Operating Entities (including those owned by the Company). The terms of these financing arrangements generally impose many covenants and obligations on the part of the Project Operating Entity and other borrowers and guarantors. In many cases, a default by any party under other Project operating agreements (such as a PPA or a steam sales agreement) will also constitute a default under the Project's term loan or other financing arrangement. Failure to comply with the terms of these term loans or other financing arrangements, or events of default thereunder, may prevent cash distributions by the Project or the Project Operating Entity and may entitle the lenders to demand repayment and enforce their security against Project assets. In addition, if an event of default should occur, the lenders are entitled to take possession of the equity interests in Project Operating Entities held by the owners of the Project that have been pledged to such lenders.

The failure of the Company to refinance or repay any indebtedness ranking senior to the Subordinated Notes (including indebtedness outstanding under the Amended Credit Facility and indebtedness to holders of the Debentures) when due would constitute a default under such indebtedness. Under such circumstances, it is expected that distributions by the Company to holders of IPSs would not be permitted until such indebtedness was refinanced or repaid and the Company may be required to sell assets or take other actions, including the initiation of bankruptcy proceedings or the commencement of an out-of-court debt restructuring.

#### ***Equity Interests in the Project Operating Entities may be Subject to Transfer Restrictions***

In addition to the pledges referred to above, the partnership, or other agreements governing some of the Project Operating Entities may limit a partner's ability to deal with its interest. Specifically, such agreements may prohibit any sale, pledge, transfer, assignment or other conveyance of the interest in a Project Operating Entity without the consent of the other partners or shareholders. In some cases, other partners may have rights of first offer or rights of first refusal in the event of a proposed sale or transfer. Such restrictions may limit or prevent the Company from dealing with its interests in the Project Operating Entities in the manner it sees fit, and may have an adverse effect on the Company's ability to realize on its investments.

#### ***The Projects' Operations are Subject to the Risk of Future Proceedings***

The Projects' operations are subject to all operating hazards and risks normally incidental to the generation of electricity. As a result, at any given time, the Projects, Project Operating Entities and other entities associated with the operation of the Projects may be defendants in various legal proceedings and litigation arising in the ordinary course of business. The Projects maintain insurance policies with insurers in amounts and with coverages and deductibles that the Manager believes to be reasonable and prudent. However, there can be no assurance that this insurance will be adequate to protect the Projects from all material expenses related to potential future claims for loss or damage or that these levels of insurance will be available in the future at economical prices. A significant judgment against any Project or Project Operating Entity, the loss of a significant permit or other approval or the imposition of a significant fine or penalty could have a material adverse effect on the Company's business, financial condition and future prospects and could adversely affect cash distributions by the Company.

#### ***The Project Operating Entities are Exposed to Risks Inherent in the Use of Derivative Instruments***

The Project Operating Entities may use derivative instruments, including futures, forwards, options and swaps, to manage their commodity and financial market risks. In addition, the Project Operating Entities purchase and sell commodity-based contracts in the natural gas, electricity and oil markets for trading purposes. In the future, the Project Operating Entities could recognize financial losses on these contracts as a result of volatility in the market values of the underlying commodities or if a counterparty fails to perform under a contract. In the absence of actively quoted market prices and pricing information from external sources, the valuation of these contracts involves judgement or use of estimates. As a result, changes in the underlying assumptions or use of alternative valuation methods could affect the reported fair value of these contracts.

### **Risks Related to the Path 15 Project**

#### ***Future FERC Rate Determinations Could Negatively Impact Cash Flows***

The stability of Path 15 Opco's cash flows will continue to be subject to the risk related to the FERC's authority to adjust the expected formulation of revenues upon its rate review every three years. The cost-of-service methodology currently applied by the FERC is well established and transparent, however certain inputs in the FERC's determination of rates are subject to its discretion, which include return on equity and the recovery of certain extraordinary expenses. Unfavourable decisions on these matters could adversely affect the cash flow, financial position and results of operations of Path 15 Opco and Path 15 Holdco, and the Company, and could adversely affect the cash available for distribution by the Company.

### ***Counterparty Credit***

The CAISO operates as a clearinghouse for the settlement of third party transactions involving purchases and sales of power in California. The CAISO does not purchase or sell power for its own account, but relies on payments owed to it by investor owned utilities and other users of the California transmission grid. The CAISO transmission system users are required to have an approved short-term credit rating (A1 — S&P, F1 — Fitch IBCA, P1 — Moody's). If these rating standards are not attained, the transmission system user must provide an acceptable letter of credit, an acceptable surety bond, a guarantee of a company with an approved credit rating, a cash deposit, a certificate of deposit or a payment bond certificate. Despite these mitigating factors, it is possible that a payment problem could reduce revenues received by Path 15 Opco and the Company.

### ***Tax Risks Associated with the Depreciation of TSRs***

The current owners of Path 15 Opco have been depreciating their ownership of TSRs as a transmission asset for tax purposes. The Company expects that it will depreciate its investment on the same basis. However, there can be no assurance that the IRS will not challenge the tax treatment related to the depreciation of TSRs in a manner which adversely affects the Company by, for example, determining that TSRs are undepreciable intangible property. If such a challenge were sustained, depreciation on TSRs could be recharacterized as non-deductible and the taxable income and tax liability associated with the Path 15 Project could be materially increased. If taxes increase at Path 15 Opco, Path 15 Opco can submit to the FERC for a prospective recovery of these increases.

### ***Income Tax Allowances Included by Path 15 Opco in its Rates have been Challenged by Certain Parties and Path 15 Opco may be Subject to a Refund Liability***

On October 4, 2004, Path 15 Opco filed a Revenue Requirement and Transmission Owner Tariff with the FERC to recover investment costs related to the Path 15 Project. On November 17, 2005, the FERC issued an order related to Path 15 Opco's proposed income tax allowance in rates, determining that the owners of Path 15 Opco have an actual or potential income tax liability with respect to the income from Path 15 Opco. Pursuant to the FERC's income tax policies the FERC order permitted Path 15 Opco to include a tax allowance in its rates. On April 13, 2006, a request filed by certain third parties for a rehearing of the FERC's order was denied.

On June 1, 2006, the Transmission Agency of Northern California (the "TANC") petitioned the United States Court of Appeals for the District of Columbia Circuit for review of the FERC's order permitting Path 15 Opco to include an income tax allowance in its rates. The Court rejected TANC's petition as premature since the rate case at the FERC had not reached its conclusion. The FERC has issued its decision in the rate case and TANC may choose to re-file its petition with the Court. In the event the appeal is successful and the FERC's order granting Path 15 Opco an income tax allowance in rates is overturned, it is possible that the determination will result in Path 15 Opco incurring a refund liability equal to the amount of the tax allowance included in the rates and collected from customers. Furthermore, such an outcome may also preclude Path 15 Opco from including an income tax allowance in future rates. Given the general deference of the courts to regulatory agency decisions, their reluctance to overturn longstanding FERC precedent and the extensive process followed by the FERC in the formulation of its policy statement issued in connection with the tax issue raised by the TANC, the Manager believes that it is unlikely that the TANC will succeed in its appeal.

### ***Restrictive Covenants in Existing Debt Agreements Could Impact Distributions by the Company***

The debt covenants of Path 15 Opco and Path 15 Holdco restrict the payment of dividends to Path 15 Holdco and ultimately to the Company based on the maintenance of various cash coverage ratios. While the Manager's projections do not anticipate any violation of these covenants, an unanticipated event that results in a temporary cash shortage could prevent the distribution of certain available cash to Harbor Transmission, LLC. As discussed above, an adverse FERC ruling on rate issues or an adverse decision of the United States Court of

Appeals for the District of Columbia Circuit on the income tax issue could result in a refund liability to Path 15 Opco that would be netted out of rates. Any refund liability would require a lump sum payment for the over collection during the interim rate period. The excluded amounts would also be removed from rates prospectively.

***It is Possible that Future Administration and Management Expenses Exceed Historical Costs and May Not be Approved in the Rates***

Trans Elect, Inc. provided administrative and management services to Path 15 Opco for a transitional period that ended on December 31, 2006. These services included participation in the coordination with Western and Pacific Gas and Electric Company of the operation and maintenance, accounting and reporting requirements with existing lenders to Path 15 Opco and Path 15 Holdco and the management of rate proceedings with the FERC. Following the transition period, the Manager assumed the administration and management of Path 15 Opco. Following the end of the transition period, there is a risk that the Company will incur higher expenses in the administration and management of Path 15 Opco than historically experienced by Trans Elect, Inc. It is possible that any increased costs incurred by the Company will not be approved in the rates.

***Outstanding Condemnation Proceedings Related to Portions of the Rights of Way for the Path 15 Project May Result in Adverse Judgments***

There are three condemnation proceedings related to portions of the rights of way for the Path 15 Project that are being defended by the U.S. Department of Justice on behalf of Western:

**Wood Harris** — A jury at district court level in February 2007 awarded the landowner \$3.4 million including interest, which may still be appealed.

**Campion** — This matter went to trial earlier in 2006. The landowner claimed a value of \$16 million and the government's appraisal was approximately \$100,000. At the conclusion of the matter, the jury awarded approximately \$2.1 million, including interest, which was paid into court pending the plaintiff's appeal. A hearing has not yet been scheduled.

**Stone** — In this matter, the plaintiff challenged Western's right to condemn the plaintiff's property. The district court granted summary judgment *sua sponte* to the government, but the plaintiff has appealed. A hearing has not yet been scheduled.

Path 15 has what management believes are adequate reserves to resolve these issues which are currently included in ratebase, but as discussed above under "Project Descriptions – Path 15 Project", the Path 15 Project may add to its ratebase all prudently incurred costs. In the event that unfavourable results on a condemnation proceeding resulted in an increased cost to Path 15 Opco beyond its reserves, it could request that the FERC approve the addition of such costs to its ratebase which, if approved, would generate incremental returns for Path 15 Opco. The Manager believes any amounts payable would be available under the Company's credit facilities and the result of having increased capital earning the applicable FERC approved rates of return would not have a material adverse effect.

**Risks Related to the Structure of the Company**

***The Company is Dependent on the Projects for virtually all Cash Available for Distributions***

The Company is dependent on the operations and assets of the Projects through its indirect ownership of interests in the Projects. The Company's ability to make payments on the Subordinated Notes and the Debentures and to make cash distributions to holders of IPSs and Common Shares is dependent on the ability of Atlantic Holdings to make distributions to the Company, which in turn is dependent on the ability of the Project Holding Entities and the partnerships and other entities in which they hold interests, directly or indirectly, to make distributions to Atlantic Holdings. The actual amount of cash available for payments to holders of

Subordinated Notes and the Debentures and for distribution to holders of IPSs and Common Shares depends upon numerous factors relating to each of the Projects, including profitability, changes in revenues, fluctuations in working capital, capital expenditure levels, applicable laws, compliance with contracts and contractual restrictions contained in the instruments governing any indebtedness. Any reduction in the amount of cash available for distribution, or actually distributed, by the Projects or Atlantic Holdings will reduce the amount of cash available for the Company to make payments to holders of Subordinated Notes and the Debentures and distributions to holders of IPSs and Common Shares. While the Company is contractually obligated to make interest payments on the Subordinated Notes, cash distributions by the Company on the Common Shares, including the Common Share component of an IPS, are not guaranteed and could fluctuate based on the performance of the Projects. Generally, the interest in the Projects held indirectly by the Company is 50% or less. Accordingly, the Company's influence on the operations and assets of the Projects may be limited.

***Distribution of all Available Cash May Restrict Potential Growth of Atlantic Holdings and the Company***

The payout by the Company and Atlantic Holdings of substantially all of their operating cash flow will make additional capital and operating expenditures dependent on increased cash flow or additional financing in the future. Lack of these funds could limit the future growth of the Company and Atlantic Holdings and their cash flow. In addition, the Company may be precluded from pursuing otherwise attractive acquisitions or investments because they may not be accretive to the Company on a short-term basis.

***Future Distributions are not Guaranteed***

While the Company is contractually obligated to make interest payments on the Subordinated Notes and the Debentures, the Company's board of directors or Atlantic Holdings' board of managers may, in their respective discretion, amend or repeal the existing distribution policy relating to equity distributions. Future equity distributions from these companies, if any, will depend on, among other things, the results of operations, cash requirements, financial condition, contractual restrictions, business opportunities, provisions of applicable law and other factors that the board of directors or managers may deem relevant. Either of these boards of directors or managers may decrease the level of equity distributions provided for in their existing distribution policies or entirely discontinue such distributions.

***Exchange Rate Fluctuations May Impact the Amount of Cash Available for Distribution by the Company***

A substantial portion of the Company's payments to holders of IPSs, Common Shares, Subordinated Notes and Debentures may be denominated in Canadian dollars. Conversely, all of the Projects' revenues and expenses, together with distributions received by Atlantic Holdings from the Projects, are denominated in U.S. dollars. As a result, the Company is exposed to currency exchange rate risks.

Although Atlantic Holdings has entered into hedging arrangements to mitigate this exchange rate risk, there can be no assurance that these arrangements will be sufficient to fully protect against this risk. If hedging transactions do not fully protect against this risk, changes in the currency exchange rate between U.S. and Canadian dollars could adversely affect cash distributions by the Company. The costs associated with the conversion of U.S. dollars to Canadian dollars and these hedging arrangements are borne by Atlantic Holdings.

### ***Indebtedness Could Negatively Impact the Business of the Company and the Projects***

The degree to which the Company is leveraged on a consolidated basis could have important consequences to the holders of IPSs, Common Shares, Subordinated Notes and Debentures, including:

- the Company's ability in the future to obtain additional financing for working capital, capital expenditures or other purposes may be limited;
- the Company may be unable to refinance indebtedness on terms acceptable to the Company or at all;
- defaults under Senior Indebtedness may prevent the Company from making payments on the Subordinated Notes and the Debentures;
- a significant portion of the Company's cash flow (on a consolidated basis) is likely to be dedicated to the payment of the principal of and interest on its indebtedness, including the Subordinated Notes and the Debentures, thereby reducing funds available for future operations, capital expenditures and/or dividends on its Common Shares; and
- the Company may be more vulnerable to economic downturns and be limited in its ability to withstand competitive pressures.

### ***The Company May Not be Able to Repurchase the Subordinated Notes and/or Debentures Upon a Change of Control***

Upon the occurrence of certain specific kinds of change of control events, the Company will be required to offer to repurchase outstanding Subordinated Notes and/or Debentures at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of repurchase. However, it is possible that the Company will not have sufficient funds at the time of the change of control to make any required repurchases. Failure to purchase tendered notes would constitute a default under the Indenture, which, in turn, would constitute a default under the Amended Credit Facility.

### ***Changes in the Company's Creditworthiness May Affect the Value of the IPSs, Common Shares and Subordinated Notes and the Debentures***

The perceived creditworthiness of the Company, Atlantic Holdings and their respective subsidiaries that have guaranteed the Subordinated Notes, as well as changes in ratings of the IPSs, may affect the market price or value and the liquidity of the IPSs, Common Shares, Subordinated Notes and Debentures. There is no assurance that a rating will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by a rating agency if in its judgement circumstances so warrant. The rating of the IPSs is not a recommendation to purchase, hold or sell such securities.

### ***Restrictive Covenants in Credit Facilities Could Impact the Business of the Company***

The Amended Credit Facility contains restrictive covenants that limit the discretion of Atlantic Holdings with respect to certain matters. The ability of Atlantic Holdings to make distributions is subject to the restrictive covenants contained in the Amended Credit Facility. If an event of default occurs under the Amended Credit Facility or other senior indebtedness of Atlantic Holdings and the lender enforces a guarantee provided by the Company, the Company will be restricted or prevented from making distributions on its Common Shares and from making payments on the Subordinated Notes and the Debentures.

### ***Future Issuances of IPSs or Common Shares Could Result in Dilution***

The Company's articles of incorporation authorize the issuance of an unlimited number of Common Shares for such consideration and on such terms and conditions as are established by the board of directors without the approval of any shareholders. Additional IPSs or Common Shares may be issued by the Company in connection with a future financing or acquisition by the Company. The issuance of additional IPSs or Common Shares may dilute an investor's investment in the Company and reduce distributable cash per Common Share or per IPS.

### ***Investment Eligibility***

There can be no assurance that the Common Shares and Subordinated Notes represented by the IPSs will continue to be qualified investments under the Tax Act for trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans and registered education savings plans. The Tax Act imposes penalties for the acquisition or holding of non-qualified or ineligible investments.

### ***Recent Canadian Federal Income Tax Proposals***

On December 21, 2006, the Department of Finance (Canada) released for public comment draft legislation significantly modifying the income tax rules applicable to certain publicly listed trusts and partnerships. An investment in IPSs does not involve a publicly listed trust or partnership, but an investment in IPSs shares certain characteristics with investments in publicly listed trust or partnership entities that are the subject of the draft legislation and the proposals first announced on October 31, 2006. The proposals of October 31, 2006 indicated that although the details outlined therein reflected the then present intentions of the government, any aspect of these measures may be changed accordingly and possibly with retroactive effect if there should emerge structures or transactions that are clearly devised to frustrate the policy objectives underlying the proposals. Management believes that the proposed rules do not apply to the Company and do not alter the tax consequences of an investment in Common Shares and Subordinated Notes represented by IPSs. However, there is no assurance that the December 21, 2006 draft legislation and, more generally, Canadian federal income tax laws and administrative policies will not be changed in a manner that adversely affects the holders of Common shares and Subordinated Notes represented by IPSs.

### ***U.S. Federal Income Tax Risks***

There can be no assurance that U.S. federal income tax laws and IRS administrative policies respecting the U.S. federal income tax consequences generally applicable to a holder of Common Shares and Subordinated Notes, as represented by IPSs, will not be changed in a manner which adversely affects Non-U.S. Holders.

There is no authority that directly addresses the tax treatment of securities similar to the Subordinated Notes which are offered in circumstances similar to the Offering (i.e., as part of a unit that includes common shares of the Company). In light of this absence of direct authority, it cannot be concluded with certainty that the Subordinated Notes will be treated as debt for U.S. federal income tax purposes, and, although the Company takes the position that the Subordinated Notes are debt for U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, some or all of the interest payments on the Subordinated Notes would be recharacterized as non-deductible distributions with respect to the Company's equity, and the Company's net taxable income which is effectively connected income and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after-tax cash flow would be reduced and the Company's ability to make interest payments on Subordinated Notes and distributions with respect to Common Shares could be materially and adversely impacted.

***Certain U.S. Tax Considerations May Discourage Third Parties from Pursuing a Tender Offer or other Change of Control Transaction***

Under certain circumstances, Code Section 163(j) limits a corporation's deductions for interest paid to related foreign persons exempt from U.S. tax. For these purposes, a corporation and a creditor of the corporation will generally be "related" if the creditor owns, directly or by attribution, more than 50% of the corporation by vote or value. The purchase of an IPS should be treated for U.S. tax purposes as a purchase of both an equity interest and a creditor's interest in the Company. As a result, a purchase by any non-U.S. person of more than 50% of the IPSs could result in the Company's interest deductions being limited with respect to the Subordinated Notes forming part of those IPSs or otherwise owned by such person. Furthermore, if any non-U.S. person owns, directly or by attribution, 10% or more of the outstanding voting stock of the Company (including stock owned through IPSs), or certain other relationships exist, then the Company may be required to withhold U.S. tax at a rate of up to 30% on interest payable on any Subordinated Notes owned by that person (including Subordinated Notes owned through IPSs), unless an exemption or reduced rate of U.S. withholding tax applies. Either of these factors could discourage third parties from pursuing a tender offer or other change of control transaction with respect to the Company, which otherwise might have led to a premium being paid for IPSs.

***The Company May Not be Able to Make all Principal Payments on the Subordinated Notes***

The Subordinated Notes will mature on November 18, 2016. The Company may not be able to refinance the principal amount of the Subordinated Notes in order to repay the principal outstanding or may not have generated enough cash from operations to meet this obligation. There is no guarantee that the Company will be able to repay the outstanding principal amount upon maturity of the Subordinated Notes.

As a result of the subordinated nature of the guarantees of the Subordinated Notes, upon any distribution to creditors of Atlantic Holdings in a bankruptcy, liquidation or reorganization or similar proceeding relating to Atlantic Holdings or its property or assets, the holders of Atlantic Holdings' senior indebtedness will be entitled to be paid in full in cash before any payment may be made with respect to the Subordinated Notes under the guarantee provided by Atlantic Holdings. In the event of a bankruptcy, liquidation or reorganization or similar proceeding relating to any of the Project Operating Entities or the Projects (other than the Onondaga Project and the Lake Project), the holders of the Subordinated Notes will not have a claim against the assets of such Projects.

***Holders of IPSs, Common Shares, Subordinated Notes and Debentures May Have Limited Liquidity***

Neither the IPSs nor the Common Shares have an extensive public market history. No assurance can be made that an active trading market for the IPSs will be sustained in the future, and the Company currently does not expect that an active trading market for the Common Shares will develop until the Subordinated Notes or Debentures mature. The Common Shares will not be posted for trading on the Toronto Stock Exchange until there exists a sufficient public distribution (for the purposes of the listing requirements of the Toronto Stock Exchange) of Common Shares that are held separately from Subordinated Notes. There is no intention to list the Subordinated Notes on any stock exchange. BMO Nesbitt Burns Inc. has advised the Company that it currently intends to facilitate a secondary market in the Subordinated Notes and Common Shares subject to customary market practice and applicable legal and regulatory requirements and limitations. However, BMO Nesbitt Burns Inc. is not obligated to do so and may discontinue any such activities, if commenced, at any time and without notice. Moreover, if and to the extent that BMO Nesbitt Burns Inc. facilitates a market for the Subordinated Notes and Common Shares, there can be no assurance that such market would provide sufficient liquidity for any holder of any such securities.

***Amounts in the Reserve Account may not be Sufficient to Stabilize Future Cash Distributions of the Company and Fund Acquisitions and Other Growth Opportunities***

The Reserve Account has been established to stabilize future cash distributions and to fund acquisitions and other growth opportunities with the objective of enhancing the long-term stability of cash distributions to holders of IPSs. There can be no assurance that amounts in the Reserve Account and the return on investment on such amounts will be sufficient to stabilize future cash distributions or fund growth opportunities. Investments held in the Reserve Account are generally Aaa rated instruments. Atlantic Holdings may lose all or part of the funds in the Reserve Account due to factors that are beyond the control. The Manager will seek professional investment advice in situations where it deems it necessary or prudent or in situations where it is otherwise required by law to do so.

***The Market Price for the IPSs, Common Shares or Subordinated Notes May be Volatile***

There has been limited public market for income participating securities. Factors such as variations in the Company's financial results, announcements by the Company, the Projects or others, developments affecting the business of the Company or the Projects, general interest rate levels, the market price of the Common Shares and general market volatility could cause the market price of the IPSs, the Common Shares or the Subordinated Notes to fluctuate significantly.

In addition, future sales or the availability for sale of substantial amounts of IPSs or Common Shares or a significant principal amount of Subordinated Notes or Debentures in the public market could adversely affect the prevailing market price of the IPSs, the Common Shares and the Subordinated Notes and could impair the Company's ability to raise capital through future sales of its securities.

**Risks Related to the Debentures**

***Repayment of the Debentures***

The Debentures mature on October 31, 2011. The Company may not be able to refinance the principal amount of the Debentures in order to repay the principal outstanding or may not have generated enough cash from operations to meet this obligation. There is no guarantee that the Company will be able to repay the outstanding principal amount upon maturity of the Debentures.

As a result of the subordinated nature of the guarantees of the Debentures, upon any distribution to creditors of Atlantic Holdings in a bankruptcy, liquidation or reorganization or similar proceeding relating to Atlantic Holdings or its property or assets, the holders of Atlantic Holdings' senior indebtedness will be entitled to be paid in full in cash before any payment may be made with respect to the Debentures under the guarantee provided by Atlantic Holdings. In the event of a bankruptcy, liquidation or reorganization or similar proceeding relating to any of the Project Operating Entities or the Projects (other than the Onondaga Project), the holders of the Debentures will not have a claim against the assets of such Projects.

***Trading Market for Debentures***

The Debentures may trade at a discount from their offering price depending on prevailing interest rates, the market for similar securities, the performance of the Company and other factors. No assurance can be given as to whether an active trading market will be maintained for the Debentures. To the extent that an active trading market for the Debentures is not maintained, the liquidity and trading prices for the Debentures may be adversely affected.

***Prior Ranking Indebtedness***

The Debentures rank junior to all existing and future Senior Secured Indebtedness, including the Amended Credit Facility and the Acquisition Credit Facility. See "Description of Debentures — Ranking".

### ***Absence of Covenant Protection***

The Debenture Indenture does not restrict the ability of the Company or any of its subsidiaries from incurring additional indebtedness for borrowed money or otherwise from mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing. The Debenture Indenture does not contain any provisions specifically intended to protect holders of the Debentures in the event of a future leveraged transaction involving the Company or any of its subsidiaries.

### ***Redemption Prior to Maturity***

The Debentures may be redeemed, at the option of the Company, after October 31, 2009 and prior to the Maturity Date in whole or in part, at a redemption price equal to the principal amount thereof, together with any accrued and unpaid interest subject to certain conditions described under "Description of Debentures — Redemption and Purchase". Holders of Debentures should assume that this redemption option will be exercised if the Company is able to refinance at a lower interest rate or it is otherwise in the interest of the Company to redeem the Debentures.

### ***Inability of the Company to Purchase Debentures***

The Company will be required to offer to purchase all outstanding Debentures upon the occurrence of a Change of Control. However, it is possible that following a Change of Control, the Company will not have sufficient funds at that time to make the required purchase of outstanding Debentures or that restrictions contained in other indebtedness will restrict those purchases. See "Description of Debentures — Put Right Upon a Change of Control".

### ***Conversion Following Certain Transactions***

In the event of certain transactions, pursuant to the terms of the Debenture Indenture, each Debenture will become convertible into securities, cash or property receivable by a holder of IPSs in the kind and amount of securities, cash or property as if such holder had converted the Debentures into IPSs prior to completion of the transaction. This change could substantially reduce or eliminate any potential future value of the conversion privilege associated with the Debentures. For example, if the Company were acquired in a cash merger, each Debenture would become convertible solely into cash that would no longer be convertible into securities whose value would vary depending on the Company's future prospects and other factors. See "Description of Debentures — Conversion Privilege".

### ***U.S. Federal Income Tax Risks***

There can be no assurance that U.S. federal income tax laws and IRS administrative policies respecting the U.S. federal income tax consequences generally applicable to a holder of Debentures or Common Shares and Subordinated Notes, as represented by IPSs, will not be changed in a manner which adversely affects Non U.S. Holders.

There is no authority that directly addresses the tax treatment of securities similar to the Debentures. In light of this absence of direct authority, it cannot be concluded with certainty that the Debentures will be treated as debt for U.S. federal income tax purposes, and, although the Company intends to take the position that the Debentures are debt for U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, interest payments on the Debentures would be recharacterized as non deductible distributions with respect to the Company's equity, and the Company's net taxable income which is effectively connected income and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after tax cash flow would be reduced and the Company's ability to make interest payments on the Debentures and Subordinated Notes and distributions with respect to Common Shares could be materially adversely impacted.

## RATING OF IPSs

DBRS confirmed, as of September 22, 2006, a stability rating of STA 3 (low) with respect to the IPSs. The stability rating is based on a rating scale developed by DBRS that provides an indication of both the stability and sustainability of an issuer's distributable income. Ratings categories range from STA-1 to STA-7, with STA-1 being the highest. DBRS further separates the ratings into high, middle and low to indicate where they fall within the ratings category. Ratings take into consideration the seven main factors of: (i) operating and industry characteristics; (ii) asset quality; (iii) financial profile; (iv) diversification; (v) size and market position; (vi) sponsorship/governance; and (vii) growth. Issuers rated at STA-3 are considered by DBRS to have good stability and sustainability of distributions per IPS, but performance may be more sensitive to economic factors, have greater cyclical tendencies, and may not be as well diversified as an issuer with a STA-2 rating, resulting in some potential for distributions per unit to fluctuate. Such issuers will not be above average in all areas of consideration, but will tend to outperform in many areas.

A stability rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by DBRS. On March 19, 2007, DBRS discontinued its stability rating at the request of the Company.

## MARKET FOR SECURITIES

The IPSs are listed and posted for trading on the TSX under the symbol ATP.UN. The following table sets forth the price ranges and volume of trading of the outstanding IPSs as reported by the TSX for the periods indicated.

Period	High (Cdn\$)	Low (Cdn\$)	Volume
January 2006	10.74	10.15	1,600,967
February 2006	10.61	9.81	985,067
March 2006	10.66	10.13	1,136,766
April 2006	10.81	10.28	1,529,304
May 2006	10.55	9.90	1,904,672
June 2006	10.20	9.44	1,920,113
July 2006	9.71	9.40	1,751,845
August 2006	10.85	9.58	2,006,202
September 2006	10.95	10.45	2,740,597
October 2006	10.89	10.37	4,273,190
November 2006	10.79	9.42	4,715,786
December 2006	11.36	9.86	2,621,231

## DIRECTORS, OFFICERS AND MANAGEMENT

### The Company

#### *Directors of the Company*

The Company's articles of incorporation provide for a minimum of one and a maximum of 20 directors, a majority of whom must be residents of Canada and must be unrelated to the Company and its subsidiaries, the Existing Investors and the Manager. The directors of the Company are Irving Gerstein, Kenneth Hartwick, John McNeil and William Whitman all of whom are unrelated to the Company and its subsidiaries, the Existing Investors and the Manager. Directors will be elected at each annual meeting of shareholders of the Company. The term of office for each of the directors will expire at the time of the next annual meeting of shareholders of the Company. A director may be removed by a resolution passed by a majority of the shareholders or may resign. The vacancy created by the removal of a director must be filled at the shareholder meeting at which he or she was removed. A vacancy not so filled at a shareholder meeting, or created by the resignation of a director, may be filled by a quorum of the remaining directors. A quorum for meetings of directors is a majority of the directors, provided that a majority of directors present (or one director, where a quorum is two directors) must be residents of Canada. If there is no quorum of directors, a special meeting of shareholders must be called to fill vacancies.

The directors supervise the activities and manage the affairs of the Company, including acting for, voting on behalf of and representing the Company as a holder of membership interests in Atlantic Holdings.

#### *Governance of the Company*

In lieu of a corporate governance and compensation committee, the directors are directly responsible for developing the Company's approach to governance issues, filling vacancies among the directors and

periodically reviewing the composition and effectiveness of the directors, the contribution and compensation of individual directors and oversight of Holdings. The directors also review and approve cash bonuses for the Manager's employees' under the Long Term Incentive Plan ("LTIP") which was approved by the Company's shareholders at the annual and special meeting of shareholders held on June 7, 2006.

The board of directors is also responsible for adopting and periodically reviewing and updating the written disclosure policy for the Company and its subsidiaries. This policy, among other things:

- articulates the legal obligations of the Company, its affiliates and their respective directors, managers, officers and employees with respect to confidential information;
- identifies spokespersons of the Company, who are the only persons authorized to communicate with third parties such as analysts, media and investors;
- provides guidelines on the disclosure of forward-looking information; and
- provides guidelines to prevent the selective disclosure of material information and to ensure that if selective disclosure of material information does occur, a news release is issued immediately.

#### ***Remuneration of the Directors (Amounts in actual dollars)***

Initial compensation for directors of the Company is \$20,000 per year and \$1,500 per director for attending board or committee meetings in person. The Chairman of the board and the Chairman of the audit committee each receive an additional \$10,000 per year. Directors receive \$500 for attending meetings by phone. Directors are reimbursed for out-of-pocket expenses for attending board meetings. Directors participate in the insurance and indemnification arrangements described below.

#### ***Management and Administration***

The Company has no executive officers and engages the Manager to provide certain services pursuant to the Management Agreement. The Company may directly retain professionals and other service providers from time to time to provide advice and other administrative services directly to the Company.

### **Atlantic Holdings**

#### ***Board of Managers and Operating Agreement***

Atlantic Holdings is governed in accordance with its constituting documents and the Operating Agreement. As at the date hereof, the board of managers of Atlantic Holdings is comprised of six individuals, a majority of whom are unrelated to and independent from Atlantic Holdings and its subsidiaries and the Manager. The Company is entitled to appoint a majority of the board of managers of Atlantic Holdings. The board of managers of Atlantic Holdings is comprised as follows:

- four representatives of the Company comprised of the four directors of the Company; and
- two representatives of the Manager.

Following the completion of the sale of IPSs and Debentures by way of a bought deal on October 6, 2006, the Existing Investors' interest in Atlantic Holdings was reduced from 30% to 14%. Accordingly, Robb Turner, a senior partner of ArcLight, tendered and Atlantic Holdings' board of managers accepted his resignation. At the time Robb Turner's resignation was accepted, the board of managers appointed Patrick Welch to the board. On February 7, 2007, Atlantic Holdings redeemed all of the remaining interests held by the Existing Investors in Atlantic Holdings following which Daniel Revers (the managing partner of ArcLight) tendered, and Atlantic Holdings' board accepted, his resignation from the board of managers. Following the resignations of Robb Turner and Daniel Revers, there are no longer any representatives of the Existing Investors serving on the board of managers of Atlantic Holdings.

Under the Management Agreement, the Manager is entitled to appoint one manager for so long as it is the manager of Atlantic Holdings.

The board of managers of Atlantic Holdings has, subject to the provisions of the Operating Agreement and the Management Agreement, full power to manage the business and affairs of Atlantic Holdings, to make all decisions regarding Atlantic Holdings and to bind Atlantic Holdings. Certain fundamental transactions are subject to approval by at least 80% of votes cast by holders of Atlantic Holdings' common membership interests.

The following table sets out the name, province or state of residence, positions with the Company and Atlantic Holdings and principal occupation of the individuals who are directors of the Company and managers of Atlantic Holdings as at the date hereof.

<u>Name and Province/State of Residence</u>	<u>Position(s)</u>	<u>Principal Occupation</u>
IRVING GERSTEIN <sup>(1),(2)</sup> ..... Ontario, Canada	Chairman of the Board of Directors of the Company and Manager of Atlantic Holdings	Corporate Director
KENNETH HARTWICK <sup>(1),(2)</sup> .. Ontario, Canada	Director and Chairman of the Audit Committee of the Company and Manager of Atlantic Holdings	President, Ontario Energy Savings Corp.
JOHN MCNEIL <sup>(1),(2)</sup> ..... Ontario, Canada	Director of the Company and Manager of Atlantic Holdings	President, Barker, Dunn & Rossi (Canada)
WILLIAM WHITMAN <sup>(1),(2)</sup> ..... New Jersey, U.S.A.	Manager of Atlantic Holdings	Senior Vice President, NW Financial Holdings LLC
BARRY WELCH <sup>(3)</sup> ..... Massachusetts, USA	Manager of Atlantic Holdings	President and Chief Executive Officer of the Manager
PATRICK WELCH <sup>(3)</sup> ..... Massachusetts, USA	Manager of Atlantic Holdings	Chief Financial Officer and Corporate Secretary of the Manager

(1) Member of the audit committee of the Company.

(2) Representative of the Company on the board of managers of Atlantic Holdings.

(3) Representative of the Manager on the board of managers of Atlantic Holdings.

As at December 31, 2006, the directors of the Company and executive officers of the Manager, as a group, beneficially owned, directly or indirectly, or exercised control or direction over, 48,170 IPSs, representing approximately 0.1% of the outstanding IPSs of the Company.

### ***Biographies***

**Irving Gerstein, C.M., O.Ont:** Mr. Gerstein has been a director of the Company since October 2004 and a manager of Atlantic Holdings since November 2004. Mr. Gerstein is a retired executive and is currently a director of Medical Facilities Corporation, Student Transportation of America Ltd. and Economic Investment Trust Limited, and previously served as a director of other public companies, including CTV Inc., Traders Group Limited, Guaranty Trust Company of Canada, Confederation Life Insurance Company and Scott's Hospitality Inc., and as an officer and director of Peoples Jewellers Limited. Mr. Gerstein is a Member of the Order of Canada and a Member of the Order of Ontario. He is an honorary director of Mount Sinai Hospital (Toronto), having previously served as Chairman of the Board, Chairman Emeritus and a director over a period of twenty-five years, and is currently a member of its Research Committee. Mr. Gerstein received his BSc. in Economics from the University of Pennsylvania (Wharton School of Finance and Commerce). During Mr. Gerstein's service as a director of each of Peoples Jewellers Limited and Confederation Life Insurance

Company, bankruptcy proceedings were initiated (and, in the case of Peoples Jewellers Limited, claims were made against senior executives of the company, including Mr. Gerstein); all of the creditor and other claims were settled. Mr. Gerstein also entered into a settlement of personal claims arising primarily from participation in a Peoples Jewellers Limited share incentive plan.

**Kenneth Hartwick, C.A.:** Mr. Hartwick has been a director of the Company since October 2004 and a manager of Atlantic Holdings since November 2004. Mr. Hartwick is currently the President of Ontario Energy Savings Corp. ("OESC"). OESC is a wholly-owned subsidiary of, and provides administrative services to, Energy Savings Income Fund ("Energy Savings"), an income trust traded on the Toronto Stock Exchange. Through its subsidiaries and affiliates, Energy Savings markets natural gas to residential customers and small to mid-sized commercial businesses in Manitoba, Ontario, Illinois, Indiana, New York and Alberta and solely to commercial customers in Québec and British Columbia. In addition, Energy Savings markets electricity to customers in New York, Ontario and Alberta. Energy Savings also markets electricity to mid-sized commercial and small industrial customers in Ontario. Mr. Hartwick serves on OESC's Executive Committee and is involved in providing strategic direction. Prior to joining OESC, Mr. Hartwick served as Senior Vice President, Finance (October 2000 to September 2001) and Chief Financial Officer and Senior Vice President, Finance (October 2001 to April 2004) of Hydro One Inc., the largest electricity delivery company in Ontario and one of the largest in North America. Mr. Hartwick was a member of Hydro One Inc.'s Executive Committee. From May to October 2000, Mr. Hartwick was Vice President, Cap Gemini Ernst & Young and from 1994 to April 2000 Mr. Hartwick was a partner of Ernst & Young LLP. Mr. Hartwick received his B.A. (Honours) from Trent University in Peterborough, Ontario.

**John McNeil:** Mr. McNeil has been a director of the Company since October 2004 and a manager of Atlantic Holdings since November 2004. Mr. McNeil is President of BDR NorthAmerica Inc. ("BDR") an energy consulting company based in Toronto, Ontario. Prior to his appointment at BDR in 2000, Mr. McNeil was Managing Director Investment Banking with Scotia Capital Inc. from 1996 to 1999. Previously, he was a Senior Vice-President and Director of ScotiaMcLeod Inc. from 1991 to 1995. Mr. McNeil has extensive expertise in the areas of asset management models, capitalization, mergers and acquisitions, business and enterprise valuations, capital markets and market ratings and has worked extensively throughout North America and Europe. Mr. McNeil has been a member of the Electricity Task Force of The Toronto Board of Trade since 1996. Mr. McNeil specializes in the electric power sector and his major focus in recent years has been in the field of corporate and enterprise unbundling and reconstitution resulting from the restructuring of the electricity sector in North America. Mr. McNeil received a B.A. (Honours) from Queens University, a Bachelor of Laws from the University of Toronto and an M.B.A. from the University of British Columbia."

**William Whitman:** Mr. Whitman has been a manager of Atlantic Holdings since November 2004 and a director of the Company since December 2006. Mr. Whitman is currently the Senior Vice President of NW Financial Group, LLC ("NW"), an investment bank specializing in municipal finance. Mr. Whitman has over twenty years of experience in structuring and managing waste-to-energy projects. At NW, Mr. Whitman helps clients structure and finance projects, providing essential public services such as waste disposal and water treatment. From July 2003 to March 2004, Mr. Whitman was a contract employee of MSW Energy Holdings LLC ("MSW"), where he fulfilled the duties of Chief Financial Officer. MSW owns a 50% indirect membership interest in Ref-Fuel Holdings LLC, which is one of the largest owners and operators of waste-to-energy projects in the United States. Prior to joining MSW, Mr. Whitman played a leading role in the start-up and management of Covanta's (formerly Ogden Corporation) waste-to-energy business from 1987 to 2002. At Covanta, Mr. Whitman directed financial operations, resolved contract and client issues and generally helped to manage day-to-day operations. He was also involved in the structuring and financing of several of the waste-to-energy projects and led the restructuring of distressed projects. Mr. Whitman served as Chief Financial Officer of Ogden Energy Group from 1990 to 2001 and Senior Vice-President of Covanta from 2001 to 2002. During Mr. Whitman's service as a senior officer of Covanta, Covanta filed voluntary petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code. On March 10, 2004, Covanta and 79 of its affiliates, comprising Covanta's energy and water businesses, were acquired by Danielson Holding Corporation. With the closing of this transaction, Covanta and these affiliates emerged from bankruptcy protection. Mr. Whitman received a

Bachelor of Science degree in Environmental Engineering from Syracuse University and an M.B.A. from Carnegie Mellon University.

**Barry Welch:** Mr. Welch has been President and Chief Executive Officer of the Manager since October 1, 2004 and a manager of Atlantic Holdings since November 2004. Prior to joining the Manager, Mr. Welch was the Senior Vice President and head or co-head of the Bond & Corporate Finance Group of John Hancock from 2000 to 2004. Mr. Welch served on several committees at John Hancock, including its Pension Investment Advisory Committee and Investment Operating Committee. Mr. Welch was Chairman of John Hancock's Bond Investment Committee and reported monthly on investment portfolio, strategy and activity to the Committee of Finance of John Hancock's board of directors. Mr. Welch also led the development and approval of Hancock's involvement with Fund I and served as a member of Fund I's Investment Committee. Previously at John Hancock, Mr. Welch headed the Bond and Corporate Finance Group's Power and Energy investment team. From 1986 to 2004, he was involved indirectly or oversaw \$25 billion of investments in over 1,000 utility, project finance and oil & gas transactions. Prior to joining John Hancock, Mr. Welch spent over three years as a developer of power projects at Thermo Electron Corporation's Energy Systems Division (later known as Thermo Ecotek). There he was involved in greenfield development of natural gas, wood and waste-to-energy projects, as well as asset management roles for operating plants. Mr. Welch received a Bachelors of Science in Mechanical and Aerospace Engineering from Princeton University and an M.B.A. from Boston College. Mr. Welch serves on the board of Directors of the Walker Home and School in Needham, Massachusetts.

**Patrick Welch, CPA:** Mr. Welch, who is not related to Barry Welch, has been the Chief Financial Officer and Corporate Secretary of the Manager since May 2006, and has an extensive background in the energy and independent power industries. Mr. Welch's most recent position was Vice President and Controller of DCP Midstream, LP ("DCP") and DCP Midstream Partners, LP ("DCPLP") headquartered in Denver, Colorado. DCP is a private midstream natural gas company owned by Spectra Energy and ConocoPhillips and DCPLP is a public master limited partnership sponsored by DCP. In these roles, Mr. Welch was responsible for all accounting, budgeting, SEC and financial reporting and compliance with Section 404 of the *Sarbanes-Oxley Act of 2002* for DEFS and DCPLP. Prior to that, Mr. Welch held various positions at Dynegy Inc. in Houston, Texas, including Vice President and Controller for Dynegy Generation, and Assistant Corporate Controller. Prior to Dynegy, Mr. Welch was a Senior Audit Manager in the Energy, Utilities and Mining Practice of PricewaterhouseCoopers LLP, predominantly in Houston, Texas, where he served several major energy clients. Mr. Welch received his bachelor's degree from the University of Central Oklahoma and is a Certified Public Accountant.

#### ***Remuneration of Board of Managers of Atlantic Holdings***

Compensation for non-management managers of Atlantic Holdings (other than members of the board of managers who are also directors of the Company) is \$20,000 per year. Each non-management member of the board of managers of Atlantic Holdings receives \$1,500 per meeting for attending board or committee meetings in person and \$500 for attending meetings by phone. Managers are also reimbursed for out-of-pocket expenses for attending board and committee meetings. Managers participate in the insurance and indemnification arrangements described below.

#### ***Management***

Atlantic Holdings has no executive officers. Management and administrative services are provided to Atlantic Holdings by the Manager pursuant to the Management Agreement.

#### **Insurance Coverage for Directors and Managers and Indemnification**

The Company has obtained a policy of insurance for the directors of the Company and for the managers of Atlantic Holdings. Under the policy, each of the Company and Atlantic Holdings has reimbursement coverage to the extent that it has indemnified the directors or managers. The policy includes securities claims

coverage, insuring against any legal obligation to pay on account of any securities claims brought against the directors of the Company or the managers of Atlantic Holdings. The total limit of liability is shared among the directors of the Company and the managers of Atlantic Holdings so that the limit of liability will not be exclusive to any one of the respective directors or managers.

The by-laws of the Company and the Operating Agreement for Atlantic Holdings provide for the indemnification of their respective directors, managers and officers (if any) from and against liability and costs in respect of any action or suit brought against them in connection with the execution of their duties of office, subject to certain limitations.

**The Manager**

The Manager is a Delaware limited liability company formed by ArcLight and the Existing Investors. The names, states of residence, positions with the Manager and principal occupations of the officers of the Manager, if different from position(s) held with the Manager, together with brief biographies of those who are not members of the board of managers of Atlantic Holdings, are set out below. Each of the officers listed in the table below are full-time employees of the Manager. In addition to the officers listed below, the Manager has contracted with ArcLight to obtain certain back-office and support services and for possible secondment of ArcLight employees from time to time as appropriate to assist the Manager in fulfilling its responsibilities under the Management Agreement.

<u>Name and State of Residence</u>	<u>Position(s)</u>	<u>Principal Occupation, if different from position(s) held with the Manager</u>
BARRY WELCH..... Massachusetts, USA	President and Chief Executive Officer	—
PATRICK WELCH ..... Massachusetts, USA	Chief Financial Officer and Corporate Secretary	—
STEVEN P. CHWIECKO..... Massachusetts, USA	Managing Director, Asset Management and Acquisitions	—

***Additional Biography***

**Steven P. Chwiecko:** Mr. Chwiecko has more than 20 years of energy industry experience in development, acquisitions, asset management, financial structuring, consulting and project restructuring. Immediately before joining the management team of the Manager he managed his own consulting practice and served as Chairman of the audit committee of National Energy & Gas Transmission’s Board of Directors. Previously, as a Senior Vice President with El Paso Merchant Energy, he originated the Newark Bay acquisition and restructuring and co-originated the Eagle Point acquisition and restructuring. Prior to El Paso, while Senior Vice President and Chief Financial Officer at Adirondack Hydro Development Corporation, he represented the New York independent hydro industry in the master restructuring agreement with Niagara Mohawk Power Corp. This was a \$5+ billion landmark restructuring in the late 1990s of substantially all of Niagara’s obligations with plants owned by non-regulated independent power producers. Mr. Chwiecko has a Bachelor of Science degree in Geology from St. Lawrence University, a Masters of Business Administration from Rochester Institute of Technology and is a former Certified Public Accountant.

**Management Agreement**

The Manager has been engaged to provide or cause to be provided management and administrative services to Atlantic Holdings and its subsidiaries pursuant to the terms of the Management Agreement. These management and administrative services include: (i) representing Atlantic Holdings’ interests in the Project Holding Entities and their subsidiaries and overseeing the operation of the Projects; (ii) assisting in the

development, implementation and monitoring of strategic plans; (iii) assisting in developing an annual budget and an annual distributable cash forecast; (iv) assisting with treasury, legal and compliance, financing and risk assessment activities; (v) reviewing the budgets and schedules for major maintenance proposed for the Projects; (vi) assisting in the preparation of financial reports in respect of the Projects and any future projects; (vii) assisting in the negotiation of material agreements; (viii) monitoring compliance with the annual budget, applicable laws and distributable cash forecast; (ix) assisting in and supervising the analysis of potential acquisitions, investments and dispositions; (x) carrying out or supervising the making of acquisitions, dispositions or investments; (xi) retaining accountants, lawyers, consultants, investment bankers and other such professional advisers; and (xii) assisting in the preparation, planning and coordination of meetings of the board of managers of Atlantic Holdings and holders of membership interests in Atlantic Holdings.

Under the Management Agreement, the Manager, if requested by the Company, has also agreed to provide certain administrative services to the Company including: (i) assisting the Company in complying with its continuous disclosure obligations under applicable securities legislation; (ii) providing or causing to be provided to holders of securities of the Company, all information to which they are entitled under the constating documents of the Company and the Indenture and applicable laws; (iii) monitoring compliance of the Company with applicable laws; (iv) advising on and negotiating any financings by the Company; (v) providing for the calculation and distribution of interest payments and distributions to holders of IPSs and the Separate Subordinated Notes; and (vi) assisting in the preparation, planning and coordination of meetings of the board of directors of the Company and holders of Common Shares of the Company.

Pursuant to the Management Agreement, a number of material actions may not be authorized by the Manager without first obtaining the approval of the managers of Atlantic Holdings or the board of directors of the Company, as applicable, including: (i) adopting, amending or materially deviating from annual business plans; (ii) taking any action by or on behalf of a Project Holding Entity, any subsidiary of a Project Holding Entity or any Project Operating Entity that may have a material impact on the annual distributable cash forecast; (iii) disposing of any material assets; and (iv) raising capital by way of an issuance of securities of Atlantic Holdings or the Company. Without the approval of a majority of the Atlantic Holdings managers who are independent of the Manager and its affiliates, the Manager, on behalf of Atlantic Holdings or the Company or a subsidiary or affiliate of Atlantic Holdings or the Company, may not (i) enter into any material transaction with the Manager or an affiliate of the Manager; or (ii) amend any existing material terms of the Management Agreement or fees payable thereunder.

In consideration for providing the management and administrative services under the Management Agreement, the Manager receives: (i) an annual management fee; (ii) payments representing cost reimbursement; and (iii) an incentive fee. The annual management fee is an amount equal to approximately \$340,000, subject to adjustment for any future acquisitions or investments on the basis that the annual fee will increase by an amount agreed between the Manager and Atlantic Holdings, as approved by the managers of Atlantic Holdings who are independent of the Existing Investors and the Manager, taking into consideration the increased service levels required and the resource requirements imposed as a result of or created by such acquisition or investment. The annual fee is subject to adjustment for inflation and is payable monthly in advance on the first business day of each month. The Manager is entitled to be reimbursed for all out-of-pocket costs and expenses reasonably incurred by the Manager or its affiliates in carrying out the management and administrative services including reasonable allocations for charges incurred by the Manager for services provided by ArcLight pursuant to the agreement described below and for any other services provided by affiliates of the Manager (which charges are reimbursed on a cost recovery basis). The allocations for such charges are subject to the approval by the managers of Atlantic Holdings who are independent of the Existing Investors and the Manager, by way of either annual budget approval or specific authorization.

The incentive fee is designed to enhance the profitability and cash flow of Atlantic Holdings and thus, that of the Company. The Manager is entitled to an annual incentive fee equal to 25% of the product obtained by multiplying (i) the excess of the cash distributed per IPS (or, following the redemption, repurchase or maturity of all of the Subordinated Notes or separation of all of the IPSs, per Common Share) in any fiscal year over the Targeted Cash Distribution by (ii) the weighted average number of IPSs, Common Shares not

represented by IPSs and Existing Investor Interests outstanding for the relevant calendar year or part thereof, subject to customary anti-dilution provisions. The incentive fee will be adjusted in any given fiscal year to account for any period less than a full year during which the Manager provides services under the Management Agreement. The incentive fee will also be adjusted in various other circumstances, including certain events which affect the capital of the Company.

The Management Agreement has an initial 20-year term and will be automatically renewed for additional five-year terms unless, at least six months prior to the expiration of the then current term, a majority of the managers of Atlantic Holdings and the directors of the Company independent of the Existing Investors and the Manager determine that the Management Agreement will not be renewed and notify the Manager accordingly. Atlantic Holdings and the Company have the right to terminate the Management Agreement earlier in circumstances of: (i) bankruptcy, insolvency or receivership of the Manager; (ii) fraud, wilful default or gross negligence committed by the Manager; or (iii) default by the Manager in the performance of a material obligation under the Management Agreement, if (1) such default is not caused by an event of force majeure, and (2) such default is not cured within 60 days of written notice being given by Atlantic Holdings to the Manager of the default, or if such default is not reasonably capable of being cured within 60 days, the Manager has not taken all reasonable steps to cure such default as soon as possible thereafter but in any event within 120 days. The Manager has the right to terminate the Management Agreement earlier (i) in the event of (1) the bankruptcy, insolvency or receivership of Atlantic Holdings or the Company, or (2) a default by Atlantic Holdings or the Company in the performance of a material obligation under the Management Agreement (other than as a result of the occurrence of a force majeure event) which is not remedied within 60 days after notice thereof has been delivered, or if such default is not reasonably capable of being cured within 60 days, Atlantic Holdings or the Company has not taken all reasonable steps to cure such default as soon as possible thereafter but in any event within 120 days; or (ii) upon 90 days' prior written notice to Atlantic Holdings or the Company.

Atlantic Holdings or the Company may terminate the Management Agreement upon 90 days' prior written notice if: (i) while Atlantic Power Management Holdings, LLC ("APM") owns the Manager, ArcLight should cease to be the manager of the members of APM; or (ii) APM sells the Manager and ArcLight ceases to have a significant influence over the operation of the Manager, without, in either case, the prior written consent of the managers of Atlantic Holdings and the directors of the Company who are independent of the Existing Investors and the Manager, which consents shall not be unreasonably withheld.

No party shall sell or assign its rights or obligations under the Management Agreement to a third party without the prior written consent of the other parties, which consent may not be unreasonably withheld (unless the assignee is not a reputable and experienced manager), except (i) in the case of Atlantic Holdings or the Company, to a bona fide lender as security, including as security for any guarantee granted by Atlantic Holdings or the Company in respect of the obligations of its affiliates to any third party or parties providing bona fide financing to such affiliates; or (ii) in the case of the Manager, to a direct or indirect wholly-owned subsidiary of the Existing Investors or their affiliates.

The Manager may delegate certain aspects of its responsibilities under the Management Agreement, but no such delegation will relieve the Manager of its obligations thereunder. The Manager may, with the approval of the directors of the Company and the managers of Atlantic Holdings who are independent of the Existing Investors and the Manager, contract with affiliates to provide services to the Company and Atlantic Holdings not otherwise provided for in the Management Agreement, such as advisory and investment banking services.

The Manager and any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager shall be indemnified and saved harmless by Atlantic Holdings and the Company from and against all losses, claims, damages, liabilities, obligations, costs and expenses (including judgments, fines, penalties, amounts paid in settlement and counsel and accountants' fees) of whatsoever kind or nature incurred by, borne by or asserted against the Manager and any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager, in any way arising from or related in any manner to the Management Agreement, unless such claims arise from the fraud, wilful default or gross negligence of the Manager or any person who is serving or shall

have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager. The Manager and its affiliates and associates may rely on information provided by Atlantic Holdings, the Company or any employee or agent thereof unless it has actual notice that such information is inaccurate.

The Manager and ArcLight have entered into an agreement (the "Management Support Agreement") which provides that certain ArcLight employees will be available to provide administrative and office support services to the Manager and that ArcLight employees may be seconded to the Manager from time to time as appropriate to enable the Manager to fulfill its responsibilities under the Management Agreement. Services and resources provided by ArcLight under the Management Support Agreement will be provided to the Manager on a cost recovery basis. The Management Support Agreement requires ArcLight and its affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for Fund I, Fund II or other investment funds managed by ArcLight or its affiliates or that do fit within such investment guidelines but which such investment funds determine not to pursue.

### **Conflicts of Interest**

ArcLight and its affiliates and their employees or agents may be engaged or invest directly or indirectly in a variety of other companies or other entities involved in owning, managing or advising on or otherwise engaged in the business of the generation, production, transmission, distribution, purchase and sale of electricity, other forms of energy-related projects, infrastructure projects, utility projects or other businesses.

Affiliates of ArcLight currently act, and may hereafter act, as managers to investment funds whose investment criteria encompass investments in power generation facilities in Canada and the U.S. In particular, affiliates of ArcLight are the general partners of Fund I, Fund II, and Fund III which invest in power generation, transmission and distribution assets as well as power-related fuel, services and equipment businesses, primarily in the United States. Existing and future agreements governing investment funds managed by affiliates of ArcLight, including the agreements governing Fund I and Fund II, require, and are expected to require in the case of future agreements, that suitable investments for such investment funds identified by ArcLight first be offered to the investment funds. The Management Support Agreement requires that ArcLight and its affiliates give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for Fund I, Fund II or other investment funds managed by ArcLight or its affiliates or that do fit within such investment guidelines but which such investment funds determine not to pursue. None of ArcLight or its affiliates is prohibited by any agreement with Atlantic Holdings or the Company from competing with Atlantic Holdings or the Company, or from acquiring, investing in, or providing administrative or managerial services to, a competitor of Atlantic Holdings or the Company.

### **AUDIT COMMITTEE**

The Company has established an audit committee comprised of four directors: Ken Hartwick (Chair), Irving Gerstein, William Whitman and John McNeil, each of whom is considered "independent" and "financially literate" within the meaning of Multilateral Instrument 52-110 – *Audit Committees*. The audit committee is responsible for the oversight and supervision of the accounting and financial reporting practices and procedures of the Company, the adequacy of internal accounting controls and procedures and the quality and integrity of financial statements of the Company. The independent auditors of the Company report directly to the audit committee. In addition, the audit committee is responsible for directing the auditors' examination of specific areas and for recommending to the Company's board of directors the selection of independent auditors of the Company. The charter of the audit committee is attached hereto as Appendix "A".

### **Relevant Education and Experience of Audit Committee Members**

In addition to each member's general business experience, the education and experience of each audit committee member that is relevant to the performance of his responsibilities as an audit committee member is set forth in their respective biographies above under "Directors, Officers and Management".

## External Auditor Service Fees

During the years ended December 31, 2006 and 2005, the Company retained its principal accountant, KPMG LLP, to provide services in the categories and for the approximate amounts that follow (Cdn\$):

	<u>2006</u>	<u>2005</u>
Audit fees .....	817,040	660,200
• Atlantic Corporate	335,000	305,000
• Project Partnerships	482,040	355,200
Audit related fees .....	589,500	243,652
Tax fees .....	252,820	171,700
Other .....	-	-

The nature of each category of fees is described below.

### *Tax Fees*

Tax fees were paid for tax compliance services and tax advice and planning, including preparation of U.S. federal and state and Canadian federal and provincial tax returns and supporting schedules, as well as information forms.

### **Pre-Approval Policies and Procedures**

The Company's audit committee has adopted specific policies and procedures for the engagement of non-audit services. The policies and procedures for such engagement are set out in the audit committee's charter attached hereto as Appendix "A".

### **Audit Committee Oversight**

At no time since the commencement of the Company's most recently completed financial year has a recommendation of the audit committee to nominate or compensate an external auditor not been adopted by the board of directors of the Company.

## **LEGAL PROCEEDINGS**

In the ordinary course of business, the Company and its subsidiaries and each Project Operating Entity may, from time to time, be subject to various pending and threatened lawsuits in which claims for monetary damages are asserted. To the knowledge of the Company, none of the Company or its subsidiaries or any Project Operating Entity is involved in any legal proceeding which is expected to have a material effect on the Company and no legal proceedings of a material nature are pending or to the knowledge of the Company threatened against the Company or its subsidiaries or any Project Operating Entity.

## **INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS**

To the knowledge of the Company, except as may be described elsewhere in this annual information form, no director, manager or executive officer of the Company or any of its subsidiaries, no executive officer of the Manager, no person or company that is the director or indirect beneficial owner of, or who exercises control or direction over, more than 10% of any class or series of the outstanding voting securities of the Company and no associate or affiliate of any of the foregoing persons or companies, has or has had any material interest, direct or indirect, in any transaction that has materially affected or will materially affect the Company since the closing of the IPO.

## TRANSFER AGENT AND REGISTRAR

The transfer agent and registrar for the IPSs and the Common Shares is Computershare Investor Services Inc. at its principal office in Toronto, Ontario.

## MATERIAL CONTRACTS

The only material contracts, other than contracts entered into in the ordinary course of business, that were entered into within the financial year ended December 31, 2006, or prior to the year ended December 31, 2006 but which are still in effect, by the Company and/or Atlantic Holdings are as follows:

- the Acquisition Agreements;
- the Indenture;
- the Operating Agreement;
- the Management Agreement;
- the Amended Credit Facility;
- the Underwriting Agreement;
- the Debenture Indenture; and
- the Acquisition Credit Facility

See the “Glossary of Terms” for particulars of these contracts. These contracts can be found on SEDAR at [www.sedar.com](http://www.sedar.com). Copies of these agreements may also be examined at the head and principal office of the Company during normal business hours.

## INTERESTS OF EXPERTS

KPMG LLP, the auditor of the Company and PwC LLP, the historical auditor of Path 15 Holdco financial statements, has been named as having prepared or certified a statement, report or valuation described or included in a filing, or referred to in a filing, made under National Instrument 51-102 – *Continuous Disclosure Obligations* by the Company during, or relating to, the Company’s financial year ended December 31, 2006. KPMG and PwC are independent of the Company within the meaning of the Rules of Professional Conduct of the Institute of Chartered Accountants of Ontario.

## ADDITIONAL INFORMATION

Additional information relating to the Company may be found on SEDAR at [www.sedar.com](http://www.sedar.com).

Additional information, including directors’ and officers’ remuneration and indebtedness, principal holders of the Company’s securities, is contained in the Company’s information circular relating to the annual and special meeting of shareholders of the Company held on June 7, 2006. Additional financial information is provided in the Company’s financial statements and management’s discussion and analysis for the year ended December 31, 2006.

## APPENDIX "A"

### ATLANTIC POWER CORPORATION

#### AUDIT COMMITTEE

#### CHARTER

The Audit Committee (the "**Committee**") of Atlantic Power Corporation (the "**Company**") is established in order to assist the board of directors of the Company in their oversight activities. The purpose of the Committee is to assist the board in its oversight and supervision of:

- the integrity of the Company's accounting and financial reporting practices and procedures,
- the adequacy of the Company's internal accounting controls and procedures,
- the quality and integrity of the Company's consolidated financial statements, and
- the independence and performance of the Company's independent auditor.

#### Composition:

- The board of directors of the Company shall elect annually from among its members a committee to be known as the Audit Committee to be composed of a minimum of three directors who are "unrelated" directors (within the meaning of the Toronto Stock Exchange corporate governance guidelines), who qualify as "independent directors" within the meaning of Multilateral Instrument 52-110 – Audit Committees (the "**Audit Committee Rule**") and each of whom is "financially literate" (or will become so within a reasonable period of time following his or her appointment) within the meaning of the Audit Committee Rule.
- A member of the Committee who sits on the board of directors/managers of an affiliated entity is exempt from the requirement that he or she be independent if that member, except for being a director/manager (or member of a board committee) of the Company and the affiliated entity, is otherwise independent of the Company and the affiliated entity, provided that the boards have determined that appointing such member to the Committee will not materially adversely affect the ability of the Committee to act independently.
- If a member of the Committee ceases to be independent for reasons outside that member's reasonable control, that member is exempt from the requirement to be independent for a period ending on the later of:
  - (a) *the next annual meeting of the Company; and*
  - (b) *the date that is six months from the occurrence of the event which caused the member to not be independent,*provided that the board of directors has determined that appointing such member to the Committee will not materially adversely affect the ability of the Committee to act independently.
- Where the death, disability or resignation of a member of the Committee has resulted in a vacancy on the Committee that the boards are required to fill, a member appointed to fill such

vacancy is exempt from the requirements to be independent and financially literate for a period ending on the later of:

- (a) *the next annual meeting of the Company; and*
- (b) *the date that is six months from the day the vacancy was created,*

provided that the board of directors has determined that appointing such member to the Committee will not materially adversely affect the ability of the Committee to act independently.

**Reports:**

The Committee shall report to the board of directors of the Company on a regular basis and, in any event, before the public disclosure by the Company of its quarterly and annual financial results. The reports of the Committee shall include any issues of which the Committee is aware with respect to the quality or integrity of the Company's consolidated financial statements, its compliance with legal or regulatory requirements, and the independence and performance of the Company's independent auditor.

**Responsibilities:**

Subject to the powers and duties of the board of directors of the Company, the board hereby delegates to the Committee the following powers and duties to be performed by the Committee on behalf of and for the board of directors of the Company:

**Financial Statements and Other Financial Information**

The Committee shall:

- (i) *review the Company's consolidated annual audited financial statements and related documents prior to any public disclosure of such information;*
- (ii) *review the Company's consolidated interim unaudited financial statements and related documents prior to any public disclosure of such information;*
- (iii) *following a review with management and the independent auditor of such annual and interim consolidated financial statements and related documents, recommend to the board of directors of the Company the approval of such financial statements and related documents;*
- (iv) *review with management and/or the independent auditor all critical policies and practices used as well as significant management estimates and judgements and any changes in accounting policies or financial reporting requirements that may affect the Company's consolidated financial statements;*
- (v) *review with management and/or the independent auditor the treatment in the financial statements of any significant transactions and other potentially difficult matters;*
- (vi) *conduct an annual and semi-annual review of the expenses of the Manager and the Company;*

- (vii) *review a summary provided by the Company's legal counsel of the status of any material pending or threatened litigation, claims and assessments respecting the Company and its subsidiaries; and*
- (viii) *review the other annual financial reporting documents as well as management's discussion and analysis and earnings press releases of the Company prior to any disclosure to the public.*

#### **Financial Reporting Control Systems**

The Committee shall:

- (i) *require management to implement and maintain appropriate internal controls, and use reasonable efforts to satisfy itself as to the adequacy of the Company's policies for the management of risk and the preservation of assets and the fulfillment of legislative and regulatory requirements;*
- (ii) *annually, in consultation with management, the independent auditor and, if applicable, the officer or employee responsible for the internal audit function, review, evaluate and assess the adequacy and integrity of the Company's consolidated financial reporting processes and internal controls, and discuss significant financial risk, exposures and the steps management has taken to monitor, control and report such exposures;*
- (iii) *if applicable, meet separately with the officer or employee responsible for the internal audit function to discuss any matters that the Committee or independent auditor believe should be discussed in private;*
- (iv) *submit to the board of directors of the Company and the boards of directors/managers of its subsidiaries any recommendations the Committee may have from time to time with respect to financial reporting, accounting procedures and policies and internal controls;*
- (v) *review reports from senior officers of the Company and its subsidiaries outlining any significant changes in financial risks facing the Company;*
- (vi) *review the management letter of the independent auditor and the responses to suggestions made;*
- (vii) *review any new appointments to senior positions of the Company, its subsidiaries and Atlantic Power Management, LLC with financial reporting responsibilities (such review may be carried out by the Chairman of the Committee);*
- (viii) *satisfy itself that adequate procedures are in place for the review of the Company's disclosure of the Company's financial information extracted or derived from the Company's consolidated financial statements (other than the financial statements, management's discussion and analysis and earnings press releases) and periodically assess the adequacy of those procedures;*
- (ix) *establish procedures for:*

*the receipt, retention and treatment of complaints received by the Company or its subsidiaries regarding accounting, internal accounting controls or auditing matters; and*

*the confidential, anonymous submission by employees of the Company or its subsidiaries of concerns regarding questionable accounting or auditing matters;*

- (x) review and approve the Company's (and its respective subsidiaries') hiring policies regarding partners, employees and former partners and employees of the present and former independent auditors of the Company; and*
- (xi) obtain assurance from the independent auditor regarding the overall control environment and the adequacy of accounting system controls.*
- (xii) review employee expense reports of the officers of the Manager on a semi-annual basis (performed by Chairman)*
- (xiii) review a summary of bank account of the Company on a semi-annual basis (performed by Chairman)*

#### **Independent Auditor**

The Committee shall:

- (i) review the audit plan with the independent auditor;*
- (ii) discuss in private with the independent auditor matters affecting the conduct of its audit and other corporate matters;*
- (iii) review the performance and the remuneration of the Company's independent auditor;*
- (iv) recommend to the board of directors of the Company each year the retention or replacement of the independent auditor to be nominated for the purpose of preparing or issuing an auditor's report or performing other audit, review or attest services for the Company and the remuneration of the independent auditor;*
- (v) if there is a plan to change the independent auditor, review all issues related to the change and the steps planned for an orderly transition;*
- (vi) annually review and recommend for approval to the shareholders the terms of engagement and the remuneration of the independent auditor;*
- (vii) oversee the work of the independent auditor engaged for the purpose of preparing or issuing an auditor's report or performing other audit, review or attest services for the Company, including the resolution of disagreements between management and the independent auditor regarding financial reporting;*
- (viii) discuss with the Company's independent auditor the quality and not just the acceptability of the Company's accounting principles;*

- (ix) *meet with the Company's independent auditor on a regular basis in the absence of management;*
- (x) *relay its expectations to the Company's independent auditor from time to time including its expectation that (i) any disagreements of a material nature with management be brought to the attention of the Committee, (ii) the independent auditor is accountable to the Committee and the board, each as representatives of the shareholders and must report directly to the Committee, (iii) any irregularities in the financial information be reported to the Committee, (iv) the independent auditor explains the process undertaken by it in auditing or reviewing the Company's financial disclosure, (v) the independent auditor discloses to the Committee any significant changes to accounting policies or treatment of the Company, (vi) the independent auditor discloses to the Committee any reservations it may have about the financial statements or its access to materials and/or persons in reviewing or auditing such statements, and (vii) the independent auditor discloses any conflict of interest that may arise in its engagement;*
- (xi) review at least annually the non-audit services provided by the Company's independent auditor for the purposes of getting assurance that the performance of such services will not compromise the independence of the independent auditor; and
- (xii) *pre-approve all non-audit services to be provided to the Company or its subsidiary entities by its independent auditor or the independent auditor of its subsidiary entities,<sup>1</sup> provided that the Committee may delegate to one or more independent members the authority to pre-approve non-audit services in satisfaction of this requirement. The pre-approval of non-audit services by any member to whom authority has been delegated must be presented to the full Committee at its first scheduled meeting following such pre-approval.*

**Structure:**

- The Committee shall appoint one of its members to act as Chairman of the Committee. The Chairman will appoint a secretary who will keep minutes of all meetings (the "Secretary"). The Secretary does not have to be a member of the Committee or a director and can be changed by simple notice from the Chairman
- The Committee will meet as many times as is necessary to carry out its responsibilities but in no event will the Committee meet less than once a year. Meetings will be at the call of the Chairman. Notwithstanding the foregoing, the independent auditor of the Company or any member of the Committee may call a meeting of the Committee on not less than 48 hours' notice.

---

<sup>1</sup> The Committee may satisfy the pre-approval requirement if: (a) the aggregate amount of all the non-audit services that were not pre-approved is reasonably expected to constitute no more than five per cent of the total amount of fees paid by the Company and its subsidiary entities to the Company's independent auditor during the fiscal year in which the services are provided; (b) the services were not recognized by the Company or the subsidiary entity of the Company at the time of the engagement to be non-audit services; and (c) the services are promptly brought to the attention of the Committee and approved, prior to the completion of the audit, by the Committee or by one or more members of the Committee to whom authority to grant such approvals has been delegated by the Committee. The pre-approval requirement applies to audit and non-audit services at subsidiary entities which are operated or otherwise controlled by the Company.

- No business may be transacted by the Committee except at a meeting of its members at which a quorum of the Committee is present or by a resolution in writing signed by all the members of the Committee. A majority of the members of the Committee shall constitute a quorum provided that if the number of members of the Committee is an even number one half of the number of members plus one shall constitute a quorum.
- Any member of the Committee may be removed or replaced at any time by the board of directors of the Company and shall cease to be a member of the Committee as soon as such member ceases to be a director. Subject to the foregoing, each member of the Committee shall hold such office until the next annual meeting of shareholders after his or her election as a member of the Committee.
- The independent auditor of the Company shall be entitled to receive notice of every meeting of the Committee and, at the expense of the Company, to attend and be heard thereat.
- The time at which and the place where the meetings of the Committee shall be held, the calling of meetings and the procedure in all respects of such meeting shall be determined by the Committee, or otherwise determined by resolution of the board of directors.
- The members of the Committee shall be entitled to receive such remuneration for acting as members of the Committee as the board of directors may from time to time determine.

**Independent Advice:**

In discharging its mandate the Committee shall have the authority to retain and receive advice from special legal, accounting or other advisors.

**Annual Evaluation:**

At least annually, the Committee shall, in a manner it determines to be appropriate:

- Perform a review and evaluation of the performance of the Committee and its members, including the compliance of the Committee with its terms of reference.
- Review and assess the adequacy of its terms of reference and recommend to the board of directors of the Company any improvements to its terms of reference that the Committee determines to be appropriate.

**Limitation:**

Nothing in this charter is intended to or shall have the effect of limiting or impairing the independent decision making authority or responsibility of any board of directors/managers of a subsidiary of the Company mandated by applicable law.

**Definitions:**

“**financially literate**” means the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Company’s consolidated financial statements.

**“independent director”** means a director who has no direct or indirect material relationship with the Company.<sup>2</sup>

**“material relationship”** means a relationship which could, in the view of the board of directors of the Company, be reasonably expected to interfere with the exercise of a member’s independent judgement. Without limiting the generality of the foregoing, the following individuals are considered to have a material relationship with the Company:<sup>3</sup>

- (a) an individual who is, or has been within the last three years, an employee or executive officer<sup>3</sup> of the Company;
- (b) an individual whose immediate family member is, or has been within the last three years, an executive officer of the Company;
- (c) an individual who:
  - (i) is a partner<sup>4</sup> of a firm that is the Company’s internal or external auditor,
  - (ii) is an employee of that firm, or
  - (iii) was within the last three years a partner or employee of that firm and personally worked on the Company’s audit within that time;
- (d) an individual whose spouse, minor child or stepchild, or child or stepchild who shares a home with the individual:
  - (i) is a partner of a firm that is the Company’s internal or external auditor,
  - (ii) is an employee of that firm and participates in its audit, assurance or tax compliance (but not tax planning) practice, or
  - (iii) was within the last three years a partner or employee of that firm and personally worked on the Company’s audit within that time;
- (e) an individual who, or whose immediate family member, is or has been within the last three years, an executive officer of an entity if any of the Company’s current executive officers serves or served at that same time on the entity’s compensation committee; and

---

<sup>2</sup> For the purpose of the definitions of “independent director” and “material relationship” in this section, “Company” includes a subsidiary entity of the Company and a parent of the Company, as applicable.

<sup>3</sup> An individual will not be considered to have a material relationship with the Company solely because he or she had a relationship identified in this definition if that relationship ended before March 30, 2004. An individual will not be considered to have a material relationship with the Company solely because the individual or his or her immediate family member has previously acted as an interim chief executive officer of the Company or acts, or has previously acted, as a chair or vice-chair of the board of directors or of any board committee of the Company on a part-time basis.

<sup>4</sup> An “executive officer” includes any individual who performs a policy-making function in respect of the entity.

<sup>5</sup> A partner does not include a fixed income partner whose interest in the firm that is the internal or external auditor is limited to the receipt of fixed amounts of compensation (including deferred compensation) for prior service with that firm if the compensation is not contingent in any way on continued service.

- (f) an individual who received, or whose immediate family member who is employed as an executive officer of the Company received, more than \$75,000 in direct compensation<sup>5</sup> from the Company during any 12 month period within the last three years.<sup>6</sup>

**“unrelated director”** means a director who is independent of management and is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director’s ability to act with a view to the best interests of the Company, other than interests and relationships arising from holding securities.

---

<sup>6</sup> Direct compensation does not include: (a) remuneration for acting as a member of the board of directors or of any board committee of the Company; and (b) the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with the Company if the compensation is not contingent in any way on continued service.

<sup>7</sup> An individual who: (a) has a relationship with the Company pursuant to which the individual may accept, directly or indirectly, any consulting, advisory or other compensatory fee from the Company or any subsidiary entity of the Company, other than as remuneration for acting in his or her capacity as a member of the board of directors or any board committee, or as a part-time chair or vice-chair of the board or any board committee; or (b) is an affiliated entity of the Company or any of its subsidiary entities, is considered to have a material relationship with the Company. The indirect acceptance by an individual of any consulting, advisory or other compensatory fee includes acceptance of a fee by: (a) an individual’s spouse, minor child or stepchild, or a child or stepchild who shares the individual’s home; or (b) an entity in which such individual is a partner, member, an officer such as a managing director occupying a comparable position or executive officer, or occupies a similar position (except limited partners, non-managing members and those occupying similar positions who, in each case, have no active role in providing services to the entity) and which provides accounting, consulting, legal, investment banking or financial advisory services to the Company or any subsidiary entity of the Company. Compensatory fees do not include the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with the Company if the compensation is not contingent in any way on continued service.

NEWS RELEASE TRANSMITTED BY CCMATTHEWS

FOR: **ATLANTIC POWER CORPORATION**

TSX SYMBOL: **ATP.UN**

March 15, 2007

**Atlantic Power Corporation Announces March 2007 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of March 2007. A distribution of \$0.0884 per Income Participating Security (“IPS”) will be payable on April 30, 2007 to holders of record at the close of business on March 30, 2007.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0884 reflects a cash dividend per common share of \$0.0355 and an interest payment of \$0.0529 for the month of March 2007.

Atlantic Power Corporation designates this dividend to be an “eligible dividend” pursuant to subsection 89(14) of the Income Tax Act (Canada) and its equivalent in any provinces of Canada.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

**Atlantic Power Announces Receipt of Regulatory Approval and Redemption of Sponsors'  
Interest in Atlantic Power Holdings**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power”) announced today that it has completed the purchase of additional membership interests in Atlantic Power Holdings, LLC (“Holdings”) and the redemption of all of the remaining membership interests in Holdings held by subsidiaries of ArcLight Energy Partners Funds I and II and another investor (collectively, the “Existing Investors”). Atlantic Power purchased the membership interests in Holdings with the net proceeds from the private placement completed in December 2006. Regulatory approval for the transaction was obtained on January 30, 2007.

Following completion of the transaction, the Existing Investors no longer hold any retained interest in Holdings and Holdings is a wholly-owned subsidiary of Atlantic Power. ArcLight Energy Partners Funds I and II continue to indirectly own 100% of Atlantic Power Management, LLC, which is the Manager for both Atlantic Power and Holdings under a long-term management agreement.

## MATERIAL CHANGE REPORT

1. *Name and Address of Company:*

Atlantic Power Corporation ("Atlantic")  
250 Yonge Street, Suite 2400  
Toronto, ON M5B 2M6

2. *Date of Material Change:*

December 20, 2006

3. *Press Release:*

Attached as Schedule "A" is the press release issued on December 20, 2006 at Boston, Massachusetts and disseminated in Canada through CCN Matthews.

4. *Summary of Material Change:*

On December 20, 2006, Atlantic agreed to sell, on a private placement basis, a total of 8,600,000 Income Participating Securities ("IPSs") at a net price of \$10 per IPS to three institutional investors, including the Caisse de depot et placement du Quebec ("Caisse"), as well as Cdn \$3.0 million principal amount of 11% subordinated notes due 2016.

5. *Full Description of Material Change:*

Please see Schedule "A" attached hereto.

The sale of IPSs to the Caisse may be considered a "related party transaction" within the meaning of Ontario Securities Commission Rule 61-501 — *Insider Bids, Issuer Bids, Business Combination and Related Party Transactions* ("Rule 61-501") and under Policy Statement No. Q-27 ("Q-27") of the Québec Autorité des marchés financiers. Rule 61-501 and Q-27 provide that, unless exempted, an issuer proposing to undertake a related party transaction is required to obtain a formal valuation of the subject matter of the proposed transaction and seek approval of the transaction by a majority of the votes cast by the "minority" holders of the affected securities.

Atlantic has relied on an exemption available pursuant to Rule 61-501 and Q-27 from the formal valuation and minority approval requirements for the sale of IPSs to the Caisse. Rule 61-501 and Q-27 provide that if, at the time the transaction is agreed to, neither the fair market value of the subject matter of, nor the fair market value of the consideration for, the transaction, insofar as it involves interested parties, exceeds 25% of the issuer's market capitalization, the formal valuation and minority approval requirements do not apply to such transaction. The sale of IPSs to the Caisse is exempt from the formal valuation and minority approval requirements of Rule 61-501 and Q-27 because, at the time the sale was agreed to, neither the fair market value of the IPSs to be sold to the Caisse nor the fair market value of the consideration paid by the Caisse exceeded 25% of Atlantic's market capitalization calculated in accordance with Rule 61-501 and Q-27.

6. *Reliance on subsection 7.1(2) or (3) of National Instrument 51-102:*

Not Applicable.

7. *Omitted Information:*

None.

8. *Executive Officer:*

For further information, please contact:

Barry Welch  
(Tel): (617) 977-2700

DISSEMINATION IN THE UNITED STATES. ANY FAILURE TO COMPLY WITH  
THIS RESTRICTION MAY CONSTITUTE A VIOLATION OF U.S. SECURITIES  
LAW.**

Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power” or the “Company”) announced today that it has agreed to sell, on a private placement basis, a total of 8,600,000 Income Participating Securities (“IPSs”) at a net price of \$10 per IPS to three institutional investors, including the Caisse de dépôt et placement du Québec (“Caisse”), as well as Cdn \$3.0 million principal amount of 11% subordinated notes due 2016 (the “Private Placement”). The \$10 price per IPS was established using a 20-day average of the Company’s volume-weighted average trading price less a 3% discount, subject to a minimum price of \$10 per IPS. It is anticipated that the transaction will close on or about December 21, 2006.

The net proceeds from the Private Placement will be used by Atlantic Power to purchase additional membership interests in Atlantic Power Holdings, LLC (“Holdings”) which will in turn use the proceeds of that transaction to redeem all of the remaining membership interests in Holdings held by subsidiaries of ArcLight Energy Partners Funds I and II and another investor (the “Existing Investors”). The purchase and the redemption will occur when regulatory approval is obtained, which is expected in the first quarter of 2007. Until the purchase and redemption occur, the proceeds of the Private Placement will be placed in escrow and the Existing Investors will reimburse Atlantic Power for the difference between interest earned on those funds and distributions on the new IPSs. Following the purchase by Atlantic Power and the redemption of the Existing Investors, the Existing Investors will no longer hold any retained interest in Holdings and Holdings will become a wholly-owned subsidiary of Atlantic Power. The Private Placement will result in no dilution to public holders of IPSs and all expenses of the Private Placement will be borne by the Existing Investors. Should regulatory approval for the redemption not be obtained or could contain unacceptable conditions, Atlantic Power will be

required to repurchase the IPSs sold under the Private Placement using the funds held in escrow at the same price as the IPSs were initially sold under the Private Placement.

At the time of Atlantic Power's initial public offering ("IPO") in November, 2004, the Existing Investors were granted a liquidity right (the "Liquidity Right") allowing them to request that Holdings redeem all or a portion of their interest in Holdings, subject to holding a minimum 10% interest during the first two years after the IPO. Following delivery of a liquidity notice from the Existing Investors, Holdings is obligated to use its best efforts to fund the redemption through the sale of additional securities of Atlantic Power, which in turn is obligated to use its best efforts to raise funds through the issuance of IPSs or other securities. The Private Placement is being conducted pursuant to the Existing Investors' exercise of the Liquidity Right.

Following closing of the Private Placement and the redemption transaction, ArcLight Energy Partners Funds I and II will continue to indirectly own 100% of Atlantic Power Management, LLC, which is the Manager for both Atlantic Power and Holdings under a long-term management agreement.

"We anticipate continued cooperation from ArcLight as a result of its longstanding working relationship with Atlantic and because it has a financial incentive under the management agreement to facilitate continued Atlantic growth through acquisitions that lead to increased distributions for our shareholders" said Barry Welch, Atlantic Power's President and CEO.

Caisse will own approximately 19% of the outstanding IPSs of Atlantic Power on closing of the Private Placement, increased from approximately 14% previously; a new institutional investor and another existing institutional investor will each own approximately 7% of the outstanding IPSs after the closing of the Private Placement.

"We are very pleased to add a significant new institutional investor in the Company and to have increased ownership by both the Caisse and the other existing institutional investor. We believe these represent strong endorsements of our future prospects," Mr. Welch added.

The Company also announced today that Mr. William Whitman has been appointed to the board of the Company. Mr. Whitman is currently the Senior Vice President of NW Financial Group, LLC, an investment bank specializing in municipal finance, and has served on Holdings' Board of Managers since the time of Atlantic Power's IPO. "We are delighted that Mr. Whitman has accepted our invitation to join the Board of Directors", said Mr. Irving Gerstein, Chairman of the Company's Board.

When used in this news release, the words "will be", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the Private Placement and the use of proceeds thereof (including the redemption of the ownership interests in Holdings held by the Existing Investors which is intended to occur in the first quarter of 2007). Such statements are subject to certain risks, uncertainties and assumptions which may cause the actual results, performance or achievements of Atlantic Power to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such forward-looking statements are based on a number of assumptions which may prove to be incorrect. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly,

readers should not place undue reliance on forward-looking statements. The forward-looking statements contained in this news release represent our expectations as of the date of this news release and, accordingly, are subject to change after such date. Except as required by applicable law, we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

**About Atlantic Power Corporation:**

# Atlantic Power Corporation

## Form 51-102F4 Business Acquisition Report

### ITEM 1 IDENTITY OF COMPANY

#### 1.1 Name and Address of the Company

Atlantic Power Corporation ("Atlantic")  
355 Burrard Street  
Suite 1900  
Vancouver, British Columbia  
V6C 2G8

#### 1.2 Executive Officer

The name of the executive officer of Atlantic Power Management LLC, the manager of Atlantic Power Corporation who is knowledgeable about the significant acquisition and this report is Barry E. Welch, President and Chief Executive Officer and his business telephone number is 617-531-6377.

### ITEM 2 DETAILS OF ACQUISITION

#### 2.1 Nature of Business Acquired

On September 15, 2006, Atlantic, through a subsidiary of Atlantic Holdings, LLC, completed the indirect acquisition of 100% of the equity interests in Trans-Elect NTD Holdings Path 15, LLC ("Path 15 Holdco"), which indirectly owns approximately 72% of the transmission system rights in the transmission line upgrade along the Path 15 transmission corridor located in central California (the "Project").

The Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point in the state's north-south capacity. The Project went into service in December 2004.

#### 2.2 Date of Acquisition

September 15, 2006

#### 2.3 Consideration

The purchase price for the indirect acquisition of Path 15 Holdco was approximately US\$85.5 million in cash. In addition, non-recourse debt at Path 15 Holdco combined with

that of its wholly-owned subsidiary, Trans-Elect NTD Path 15, LLC, of approximately US\$145 million remained in place following completion of the acquisition. The purchase price was partially financed through a term loan credit facility (the "Acquisition Credit Facility") in the amount of US\$88 million, all of which was drawn on the closing of the Acquisition. On October 2, 2006, Atlantic filed a (final) short form prospectus (the "Prospectus") in all of the provinces and territories of Canada for an offering of approximately Cdn\$90 million of income participating securities and Cdn\$60 million aggregate principal amount of 6.25% convertible secured debentures due October 31, 2011 (the "Offering"). On October 11, 2006, Atlantic closed the Offering. Approximately Cdn\$42 million of the net proceeds of the Offering were used to repay a portion of the amount outstanding under the Acquisition Credit Facility.

#### **2.4 Effect on Financial Position**

Not applicable.

#### **2.5 Prior Valuations**

Not applicable.

#### **2.6 Parties to Transaction**

The vendors to the indirect acquisition of Path 15 Holdco included, among others, Cardinal Power Funding, LLC, which is an affiliate of Atlantic's sponsor, ArcLight Capital Partners, LLC. At the time of the acquisition, certain investment funds managed by ArcLight Capital Partners, LLC together with another investor were the indirect owners of a 29.9% interest in Atlantic Power Holdings, LLC and therefore the acquisition involved an informed person of Atlantic under National Instrument 51-102 – *Continuous Disclosure Obligations*.

#### **2.7 Date of Report**

November 29, 2006

### **ITEM 3 FINANCIAL STATEMENTS**

The following financial statements included in the Prospectus are incorporated by reference in this Business Acquisition Report:

- (a) the audited consolidated financial statements of Path 15 Holdco as at December 31, 2005 and 2004 and for the years then ended;
- (b) the unaudited consolidated financial statements of Path 15 Holdco as at June 30, 2006 and for the six months ended June 30, 2006 and 2005; and
- (c) the unaudited *pro forma* consolidated balance sheet of Atlantic as at June 30, 2006 and the unaudited *pro forma* consolidated statement of income for the six months ended June 30, 2006 and for the year ended December 31, 2005.

PricewaterhouseCoopers LLP, the auditors of Path 15 Holdco, have not given their consent to include or incorporate by reference their audit report in this Business Acquisition Report.

## Certification of Interim Filings

### Form 52-109F2

I, Barry E. Welch, Chief Executive Officer of Atlantic Power Management, LLC, Manager of Atlantic Power Corporation, certify that:

1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Atlantic Power Corporation (the issuer) for the interim period ending September 30, 2006.;
2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings; and
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure control and procedures for the issuer, and we have designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared.

## Certification of Interim Filings

### Form 52-109F2

I, Patrick J. Welch, Chief Financial Officer of Atlantic Power Management, LLC, Manager of Atlantic Power Corporation, certify that:

1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Atlantic Power Corporation (the issuer) for the interim period ending September 30, 2006;
2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings; and
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure control and procedures for the issuer, and we have designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared.

NEWS RELEASE TRANSMITTED BY CCMATTHEWS

FOR: ATLANTIC POWER CORPORATION

TSX SYMBOL: ATP.UN

November 9, 2006

**Atlantic Power Corporation Announces Third Quarter 2006 Results**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN, ATP.DB) (the “Company”) today announced its results for the three and nine months ended September 30, 2006. All amounts are in US dollars unless otherwise indicated.

**Third Quarter 2006 Highlights:**

- Accretive purchase of interest in Path 15 transmission line completed
- Annual cash distributions to shareholders increased Cdn.\$0.03 per IPS
- Cdn.\$90 million of IPSs and Cdn.\$60 million of 6.25% convertible debentures issued in bought deal financing that closed on October 11
- Increased ownership in Atlantic Power Holdings from 70.1% to approximately 86%
- Cash Flows from Operating Activities in the third quarter increased by 49%
- Payout Ratio for the first nine months of 2006 at conservative 66%

“With the accretive acquisition of a substantial interest in the Path 15 transmission project, and the strong performance of our power generating assets, we were pleased to increase cash distributions during the third quarter, the second increase since our IPO in November 2004,” commented Barry Welch, President and CEO.

For the three months ended September 30, 2006 Cash Flow Available for Distribution was \$14.8 million (Cdn \$0.37 per IPS) compared to \$9.1 million (Cdn \$0.30 per IPS) for the same period last year. Distributions declared in the quarter were \$10.3 million (Cdn \$0.26 per IPS), resulting in a payout ratio of 70%, versus 86% in last year’s third quarter. The Company reported project income of \$13.6 million in the third quarter of 2006. Net loss for the three months ended September 30, 2006 was \$13.3 million or (\$0.30) per IPS.

For the nine months ended September 30, 2006, Cash Flow Available for Distribution was \$46.2 million (Cdn \$1.19 per IPS) compared to \$28.0 million (Cdn \$0.90 per IPS) for the same period last year. Distributions declared in the first nine months of 2006 were \$30.5 million (Cdn \$0.78 per IPS), and the payout ratio improved to 66%, as compared to 81% last year. The Company generated project revenue of \$178.7 million and project income of \$42.6 million in the first nine months of 2006. Net loss for the nine months ended September 30, 2006 was \$5.3 million or (\$0.12) per IPS.

EBITDA at the Projects increased 3% in the third quarter of 2006 compared to the prior year period. The increases were driven by the large contribution in 2006 from the Chambers acquisition and a small initial contribution from the Path 15 acquisition which closed on September 15, 2006. These positive factors were partially offset by reduced EBITDA from Pasco due to maintenance costs incurred during a forced outage earlier in the year and from Rumford due to its transition to a market-based interim PPA. In addition, the Stockton project recorded a non-cash charge in the quarter related to future asset retirement obligations.

For the nine months ended September 30, 2006, EBITDA at the Projects was up 11% compared to the same period in 2005. The first nine months of 2006 included the contribution from Chambers, improved margins at Lake and stronger EBITDA at Orlando, due to improved performance this year from the turbine upgrade completed in May 2005 compared to the prior year, which also included the upgrade outage. Partially offsetting these positive contributions was the absence of any contribution from Masspower, Rumford's reduced EBITDA due to its transition to a market-based interim PPA, and reduced margin at Selkirk due primarily to lower gas resale margins.

The calculation of Cash Flow Available for Distribution and a breakdown of unaudited EBITDA by individual project for the three and nine-month periods ended September 30, 2006 is attached to this news release.

On September 15, 2006, the Company announced that Atlantic Power Holdings, LLC ("Holdings") had indirectly acquired 100% of the equity interests in Trans-Elect NTD Holdings Path 15, LLC ("Path 15 Holdco"), the indirect owner of approximately 72% of the transmission system rights in the Path 15 transmission project (the "Project" or "Path 15") located in California. Path 15 is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor to help alleviate what had been a chronic transmission congestion point in the State's north-south capacity. The Project commenced commercial operations in December 2004. The Company paid \$88 million in cash for the equity interests in Path 15 Holdco including transaction costs, and assumed approximately \$145 million in non-recourse project-level debt.

"The Path 15 acquisition is accretive to cash flow, increases the diversity and duration of our project portfolio, and decreases overall risk", commented Mr. Welch.

Concurrent with the closing of this acquisition, the Company increased its cash distributions to shareholders by an annual rate of Cdn. \$0.03 per IPS commencing with the September 2006 distribution. Since its initial public offering in November 2004 the Company has increased annualized cash distributions per IPS by approximately 6%.

On October 11, 2006 the Company completed a \$150 million bought deal financing with the issuance of 8,531,000 income participating securities ("IPS") for gross proceeds of Cdn. \$90 million and Cdn. \$60 million of 6.25% convertible secured debentures. The net proceeds of the financing were used to partially repay an acquisition credit facility arranged in connection with the acquisition of Path 15 Holdco and to redeem a portion of the ownership interests in Holdings held by subsidiaries of ArcLight Energy Partners Funds I and II and another investor. With the closing of the bought-deal financing, the Company increased its ownership interest in Holdings to approximately 86% from 70.1%.

On October 31, 2006, the Government of Canada announced a comprehensive taxation plan to levy a "Distribution Tax" on distributions from publicly traded income trusts and limited partnerships. Under the tax proposal, certain distributions of flow through entities income would be subject to tax at corporate income tax rate. Based on management's initial analysis of the proposed tax, it appears that Atlantic Power, which is organized as a Canadian corporation, is not likely to be directly impacted by the proposed new law. However, the application of the proposed rules cannot be definitively concluded until the legislation implementing the proposed rules is finalized and enacted.

The Company's financial statements for the period and management's discussion and analysis for the nine months ended September 30, 2006 are available on the Company's web site at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com) or on SEDAR [www.sedar.com](http://www.sedar.com).

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

Certain statements in this news release constitute forward-looking statements, which reflect the expectations of the manager of the Company regarding the Projects and the anticipated financial results and operations of the Projects and Path 15 Holdco. Words such as "will", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect current expectations regarding future events and operating performance and speak only as of the date of this news release. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by which such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under "Risk Factors" contained in the Company's annual information form dated March 30, 2006. Although the forward-looking statements contained in this news release are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this news release and the Company assumes no obligation to update or revise them to reflect new events or circumstances.

Cash Flow Available for Distribution is not a measure recognized under Canadian generally accepted accounting principles ("GAAP") and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of Cash Flows from Operating Activities to Cash Flow Available for Distributions is attached to this news release and is also included in the MD&A for the nine months ended September 30, 2006. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

EBITDA, earnings before interest, taxes, depreciation and amortization, is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

(1) EBITDA, earnings before interest, taxes, depreciation and amortization, is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide comparative information about Project performance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management's discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the unaudited financial statements of Atlantic Power Corporation ("Atlantic Power" or the "Company") for the three and nine month periods ended September 30, 2006. All dollar amounts described in this MD&A are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP").

Certain statements in this MD&A constitute forward-looking statements, which reflect the expectations of the manager of the Company regarding the Projects and the anticipated financial results and operations of the Projects and Path 15 Holdco. Words such as "will", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect current expectations regarding future events and operating performance and speak only as of the date of this news release. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by which such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under "Risk Factors" contained in the Company's annual information form dated March 30, 2006. Although the forward-looking statements contained in this news release are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this news release and the Company assumes no obligation to update or revise them to reflect new events or circumstances.

When used in this MD&A, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the Projects (as defined below). Such statements are subject to a variety of risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements. Some of the factors that could cause results or events to differ from current expectations include, but are not limited to, the factors described under "Risk Factors". Information contained in this MD&A is based on information available to management as of November 9, 2006.

Copies of financial data and other publicly filed documents are available through the internet on SEDAR at [www.sedar.com](http://www.sedar.com) under Atlantic Power Corporation.

## OVERVIEW

The Company currently has 52,870,500 income participating securities ("IPSS") and Cdn. \$60,000,000 principal amount of 6.25% convertible subordinated debentures due October 31, 2011 (the "Debentures") outstanding and owns approximately 86% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Power Holdings, LLC ("Holdings"). Holdings was formed initially to acquire indirect interests in a diversified portfolio of power generating facilities located primarily in major markets in the United States from ArcLight Energy Partners Funds I and II (the "ArcLight Funds") and Caithness Energy (together, the "Existing Investors"). Each IPS represents one common share of the Company ("Common Shares") and Cdn. \$5.767 aggregate principal amount of 11% subordinated notes of the Company ("Subordinated Notes"). The Debentures were issued on October 11, 2006 and bear interest at an annual rate of 6.25% payable semi-annually in arrears on April 30 and October 31 in each year (or the immediately following business day if any interest payment date would not otherwise be a business day) commencing on April 30, 2007.

As of September 30, 2006, Holdings owned interests in 15 power generating facilities in the United States and one in Jamaica (the "Projects"), as well as a transmission line in California. The Projects have a combined total power generating capacity of 2,156 megawatts ("MW"). Holdings' interest in the Projects represented approximately 860 MW of power generating capacity as of September 30, 2006. Most of the Projects sell their power under long term power purchase agreements ("PPAs") to investment grade utilities. These agreements are typically structured to stabilize cash flows by: 1) providing significant steady capacity payments generally designed to provide a return of and on capital and fixed costs regardless of how much electricity it is called upon to produce, provided that the plant meets an availability requirement, and 2) passing through most of the Projects' fuel costs to the utilities. As a result, effects on the portfolio's cash flow based on changes in the amount of power generated, spot market electricity prices and fuel price changes are significantly mitigated.

The Company's objectives are to maintain the stability and sustainability of cash distributions to holders of IPSS in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares. To achieve these objectives, Company management, working directly with project managers, focuses on enhancing the operation of the existing Projects by improving facility performance, increasing output, optimizing contracts and hedging cash flows when practicable. In addition, the Company has a focused growth strategy that includes the consolidation of interests in Projects that it currently owns and making accretive acquisitions with a primary focus on the electric power industry in the United States.

## NON-GAAP FINANCIAL MEASURES

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities from the Company's financial statements to Cash Flow Available for Distribution is set out under "Calculation of Cash Flow Available for Distribution" in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate unaudited EBITDA at the Projects as a supplementary cash flow measure to provide aggregate annual comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

## RECENT SIGNIFICANT TRANSACTIONS

On September 15, 2006, the Company announced that Holdings had indirectly acquired 100% of the equity interests in Trans-Elect NTD Holdings Path 15, LLC ("Path 15 Holdco"), which indirectly owns approximately 72% of the transmission system rights in the transmission line upgrade along the Path 15 transmission corridor located in central California. (the "Path 15 Project") The Company paid \$85.5 million in cash for the equity interests in Path 15, which has approximately \$145 million in non-recourse project-level debt.

The Path 15 Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point in the state's north-south capacity. The Path 15 Project commenced commercial operations in December 2004.

The revenue stream associated with the Path 15 Project is regulated by the Federal Energy Regulatory Commission (the "FERC") on a cost-of-service rate base methodology, which insulates cash flows from any impacts of power prices or actual line usage. The approved rate base includes all costs of Trans-Elect NTD Path 15, LLC ("Path 15 Opco"), a wholly-owned subsidiary of Path 15 Holdco, and Path 15 Opco earns an allowed rate of return that is reviewed by the FERC every three years, and the rate base is depreciated over 30 years. All prudently incurred operating and maintenance costs and capital expenditures may be collected in rates charged. The California Independent System Operator collects Transmission Access Charges being paid predominantly by the state's investor-owned utilities and passes them to transmission owners, such as Path 15 Opco.

Subsequent to Holdings' acquisition of equity interests in Path 15 Holdco, Trans-Elect NTD Holdings Path 15, LLC was renamed Atlantic Path 15 Holdings, LLC and Trans-Elect NTD Path 15, LLC was renamed Atlantic Path 15, LLC.

The Company also announced on September 15, 2006 that it increased its cash distribution to shareholders by an annual rate of Cdn\$ 0.03 per IPS commencing with the September distribution. Since its Initial Public Offering ("IPO") in November 2004, the Company has increased annualized cash distributions per IPS by 6%.

On October 11, 2006, the Company completed a sale of 8,531,000 IPSs and the Debentures for gross proceeds of Cdn\$150 million. The IPSs were sold at a price of Cdn\$10.55 per IPS for gross proceeds of Cdn\$90 million and Cdn\$60 million aggregate principal amount of the Debentures were issued. The IPSs and Debentures were sold on a bought deal basis to a syndicate of underwriters led by BMO Capital Markets that included National Bank Financial Inc., RBC Capital Markets, Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation.

The Debentures pay interest semi-annually on April 30 and October 31 each year, commencing on April 30, 2007. The Debentures mature on October 31, 2011 and are convertible into approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS. The Debentures are listed on the Toronto Stock Exchange under the symbol ATP.DB.

The net proceeds of the offering were used by Atlantic Power to: (i) partially repay US\$37 million of the credit facility arranged in connection with an acquisition of an interest in the Path 15 Project, and (ii) provide proceeds to Holdings that were used to redeem a portion of the ownership interests in Holdings held by the Existing Investors. In connection with the closing of the offering, Atlantic Power increased its ownership in Holdings from 70.1% to approximately 86%.

## **RESULTS OF OPERATIONS FOR THE THREE AND NINE-MONTH PERIODS ENDED SEPTEMBER 30, 2006**

The financial results for the three and nine month periods ended September 30, 2006 include contributions from Holdings' 40% indirect interest in the Chambers project, acquired on September 8, 2005, while the comparative financial results for the same periods in 2005 included contributions from the Masspower project, which was sold in the fourth quarter of 2005. The results of Path 15 are included from the date of acquisition. As of September 30, 2006, the Projects had PPAs with 17 customers. Details on several aspects of the PPAs for each Project are presented in the "Project Portfolio" section in this MD&A.

Project Income is the primary determinant of the Company's operating results and is discussed in the "Project Performance: Three and Nine-Month Periods Ended September 30, 2006" section below. Within Administrative and Other Expenses, cash outflows, including management fees and administration, net interest (principally interest on Subordinated Notes and revolving credit facility) and distributions to the non-controlling interest (29.9% of Holdings owned by Existing Investors at September 30, 2006, 41.9% at September 30, 2005) are expected to be consistent with the growth of the Company.

Significant non-cash items, which are subject to potentially significant fluctuations, include: 1) the change in fair value of the non-controlling interest held in Holdings by the Existing Investors, which is based on the change in the price of IPSs from period to period, 2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S equivalent of the Company's Canadian dollar denominated debt and the mark-to-market value of currency forward contracts, and 3) the non-cash portion of interest rate swaps that have been executed to fix the interest rate paid on project-level debt.

Cash flow available for distribution was \$14,310 for the three months ended September 30, 2006 compared to \$9,130 for the same period in 2005. For the nine months ended September 30, 2006, cash flow available for distribution as \$46,189, an increase of \$18,158 over the nine months ended September 30, 2005. See "Cash Flow Available for Distribution" beginning on page 7 for additional information.

Net loss for the three months ended September 30, 2006 was \$13,321 compared to a net loss of \$7,863 in the third quarter of 2005. The loss in the current year third quarter was primarily attributable to the non cash change in fair value of non-controlling interest in the amount of \$15.3 million. This amount is computed by multiplying the market price of the Company's IPS at the end of the quarter by the number of units that are required to redeem the remaining interests of the Existing Investors. The large increase in the fair value of this liability during the quarter is attributable to an increase in the market value of the Company's IPS from Cdn. \$9.60 at June 30, 2006 to Cdn. \$10.50 at September 30, 2006. The loss in the third quarter of 2005 was primarily attributable to a \$10.8 million foreign exchange loss. In addition, Project Income was lower in the current year quarter primarily due to higher project level interest expense. For the nine months ended September 30, 2006 net loss increased to \$5,343 from \$3,247 in the comparable prior year period as a result of the change in fair value of non-controlling interest, partially offset by a positive adjustment to income taxes in the nine months ended September 30, 2006.

### **SUPPLEMENTARY FINANCIAL INFORMATION**

Appended to this MD&A are tables containing the following unaudited non-GAAP supplementary information:

- summary of EBITDA summary by Project;
- reconciliation of Project distribution:: to EBITDA by Project; and
- consolidated balance sheet and income statement data.

## **PROJECT PERFORMANCE: THREE AND NINE-MONTH PERIODS ENDED SEPTEMBER 30, 2006**

Aggregate EBITDA at the Projects, including earnings from equity investments, increased 3% during the third quarter 2006 compared to the prior year period. The third quarter 2006 results included a full quarter of contribution from the Chambers project, which was acquired in September 2005, and fifteen days of contribution from the Path 15 project, which was acquired on September 15, 2006.

Partially offsetting these positive contributions was reduced EBITDA at Rumford, primarily due to its transition to a market-based interim PPA and at Pasco due to maintenance costs incurred during the forced outage earlier in the year. In addition, the Stockton project recorded a non-cash charge in the quarter related to future asset retirement obligations.

Aggregate power generation increased 14% while plant availability did not significantly change at the Projects during the third quarter of 2006 compared to the same period in 2005. The comparative increase in generation in the third quarter of 2006 was driven by a full quarter of production at Chambers, partially offset by the reduction in generation resulting from the sale of Masspower and reduced dispatch at Selkirk and Onondaga. Facilities in the Project portfolio achieved a 98.1% availability level for the third of quarter 2006 representing an increase from 97.5% for the same period in 2005.

EBITDA at the projects for the nine-month period ended September 30, 2006 increased 11% over the level achieved for the same period in 2005. The first nine months of 2006 included the contribution from Chambers, improved margins at Lake and stronger EBITDA at Orlando, which benefited from improved performance this year from the turbine upgrade completed in May 2005 compared to the prior year, which also included the upgrade outage. Partially offsetting these positive contributions was the absence of any contribution from Masspower, Rumford's reduced EBITDA due to both its transition to a market-based interim PPA and a third quarter forced outage, a first quarter unplanned turbine outage at Pasco, which included voluntarily accelerated major maintenance and an upgrade of the turbine's output and efficiency, and reduced margin at Selkirk due primarily to lower gas resale margins.

Aggregate generation for the nine-month period increased 20% compared to the year earlier period. The main drivers were increases from 1) the addition of Chambers generation from the time of its acquisition in September 2005, 2) Orlando based on incremental output from its turbine upgrade completed in May 2005 and the associated major planned outage; partially offset by decreases from 1) absence of Masspower generation since its sale in December 2005, 2) decreased dispatch at Onondaga, and 3) a forced outage at Pasco, including extended downtime to perform an upgrade on that gas turbine and 4) an extended maintenance outage at Gregory.

Aggregate plant availability did not significantly change for the first nine months of 2006 versus the year earlier period.

## SUMMARY OF FINANCIAL INFORMATION

(In thousands on U.S. dollars)

(Unaudited)

<i>Per IPS, Cdn.</i>	0.26	0.25	0.78	0.75

(1) Project revenue and project expenses of Holdings' interests in 11 projects, including three wholly-owned projects which are consolidated, and eight proportionately consolidated projects with interests ranging from 40% to 50% (see "Accounting Treatment" column in the "Project Portfolio" section in this MD&A.).

(2) Includes equity in earnings from partnerships of \$2,457 and \$6,281 for the three and nine months ended September 30, 2006 from five projects in which Holdings owns interests of between 17.1% and 40%, accounted for on an equity basis.

(3) Distributions declared to Existing Investors.

(4) As of December 31, 2004, Existing Investors owned a 41.9% non-controlling interest in Holdings with certain Liquidity Rights to request that the Company use best efforts to issue equity securities (including IPSs) to raise proceeds that would indirectly be used to redeem portions of the Existing Investors' interest. On October 3, 2005, the Existing Investors reduced their common membership interests in Holdings to 29.9%. Until November 18, 2006, the Existing Investors must maintain a minimum 10% aggregate ownership interest in Holdings. This amount represents the mark-to-market change during the reporting period in the potential obligation of the Company to issue securities to redeem the *entire* Existing Investors' interests in Holdings based on the change in market price per IPS for the period using prices of Cdn. \$10.75 and \$10.40 at December 31, 2004 and 2005 respectively, Cdn. \$10.80 and \$9.60 at June 30, 2005 and 2006, respectively and Cdn. \$10.75 and \$10.50 at September 30, 2005 and 2006, respectively.

(5) Net impact of foreign exchange on the US dollar equivalent of Canadian dollar denominated debt, the mark-to-market value of currency forward contracts and realized foreign exchange gains and losses for the period.

(6) Distributions declared during the reporting period.

## **CASH FLOW FROM OPERATIONS AND RESERVE FUND**

The Company's cash flow from the Projects will vary from year-to-year based on, among other things, changes in rates under the PPAs, fuel supply and transportation agreements, steam sales agreements and other project contracts, compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the operating performance of the Projects. Project cash flows themselves may have some seasonality and the pattern and frequency of distributions from the Projects to Holdings during the year can also vary.

The Company's cash flow from operations ("CFFO") was \$9,322 for the three-month period ended September 30, 2006 compared to \$6,242 for the prior year period. For the nine-month period ended September 30, 2006, CFFO was \$33,326, up from \$18,897 in the first nine months of 2005. The increase in both periods is primarily attributable to the increase in EBITDA generated by the Projects as described above.

In order to provide holders of IPSs with stable and sustainable cash distributions, the Company established a Reserve Fund at the closing of its IPO and deposited funds into the Reserve Account from time to time to stabilize future cash distributions and fund acquisitions and other growth opportunities. The Reserve Fund held \$10,894 as of September 30, 2006 and \$10,508 and December 31, 2005.

## **CASH FLOW AVAILABLE FOR DISTRIBUTION**

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. The Company increased the distribution to a rate of Cdn. \$1.06 per IPS annually effective with the September 2006 distribution, which was payable to holders of record as of September 29, 2006. For the three month period ended September 30, 2006, aggregate distributions of \$10,314 were declared (Cdn. \$0.26 per IPS comprised of interest payments of Cdn. \$0.16 on the Subordinated Note portion of the IPS, plus Cdn. \$0.10 Common Share dividend per IPS).

The Company evaluates its level of distributions with its Board of Directors by analyzing payout ratios and long-term cash flow projections, as well as the accretion to cash flow provided by acquisitions.

The table on the following page presents the calculation of Cash Available for Distribution for the three and nine month periods ended September 30, 2006 and 2005.

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

(Unaudited)

	Three months ended September, 30		Nine months ended September, 30	
	2006	2005	2006	2005
Cash flows from operating activities	9,322	6,242	33,326	18,897
Project level debt repayment	(4,505)	(3,885)	(15,743)	(10,627)
Interest IPS portion of subordinated notes	6,289	4,901	18,741	14,337
Income tax installments recoverable	4,461 <sup>(1)</sup>	2,180	12,858 <sup>(1)</sup>	6,914
Purchase of property, plant and equipment	(757)	(308)	(2,993)	(1,490)
Cash flow available for distribution, USD	14,810	9,130	46,189	28,031
<b>Cash flow available for distribution, Cdn.</b>	<b>16,543</b>	<b>10,902</b>	<b>52,674</b>	<b>33,144</b>
Interest on IPS subordinated notes	6,289	4,901	18,741	14,337
Dividends on IPS common shares	4,025	2,907	11,798	8,351
Total IPS distributions, USD	10,314	7,808	30,539	22,688
<b>Total IPS distributions, Cdn.</b>	<b>11,532</b>	<b>9,297</b>	<b>34,376</b>	<b>27,703</b>
<b>Cash flow available for distribution per IPS, Cdn.</b>	<b>\$0.37</b>	<b>\$0.30</b>	<b>\$1.19</b>	<b>\$0.90</b>
<b>Total distribution per IPS, Cdn.</b>	<b>\$0.26</b>	<b>\$0.25</b>	<b>\$0.78</b>	<b>\$0.75</b>

(1) During the third quarter of 2006, the income tax returns for 2005 were finalized, resulting in a decrease of the 2005 income tax provision in the amount of \$2,195. This amount is included in the table as an increase to income tax installments recoverable.

## SUMMARY OF QUARTERLY RESULTS

Variations in quarterly results are driven by the following factors:

- There is some seasonality of Project Revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the PPA payments and relatively small amounts of uncontracted output, and the typical scheduling of major facility maintenance in the spring and fall.
- Variations in cash flow are also driven by the timing of project debt payments (i.e., most are quarterly and some semi-annual), as distributions from the Projects to the Company must occur in conjunction with passing certain tests at those payment dates.
- Non-cash charges, principally: 1) the change in fair value of the non-controlling investors, which is based on the change in the price of IPSs from period to period, 2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S equivalent of the Company's Canadian dollar denominated debt and the mark-to-market value of currency forward contracts, and 3) the non-cash portion of interest rate swaps that have been executed to fix the interest rate paid on project-level debt.
- Net loss for the three-month and nine-month periods ended September 30, 2006 increased 69% and 65%, respectively, compared with the same periods in 2005 due to increases to net interest, foreign exchange loss and the market value of the liability that reflects the non-controlling interest.

## SELECTED QUARTERLY CONSOLIDATED FINANCIAL DATA

(In thousands of U.S. dollars)

## **LIQUIDITY AND CAPITAL RESOURCES**

The Company has liquidity from several sources in addition to cash flow from operations. The Reserve Fund held \$10,894 and \$10,508 as of September 30, 2006 and December 31, 2005, respectively. In the future, as the Reserve Fund increases, a portion of it will be available to fund acquisitions and other growth opportunities, enhancing the long-term stability of distributions. The Reserve Fund was not utilized to fund the acquisition of the Path 15 project in September 2006.

Holdings has a revolving credit facility of \$75,000, \$13,465 of which was allocated, but not drawn, as of September 30, 2006 to support letters of credit for contingent liabilities at several of the Projects. In the second quarter 2006, \$10,000 previously drawn on the facility was repaid, leaving \$61,535 available to the Company under the facility as of September 30, 2006. In addition, the Projects generally have their own reserve accounts to support payments for major maintenance costs and project-level debt service. For Projects that are consolidated or proportionately consolidated with Atlantic Power, these amounts, or Atlantic Power's portion of these amounts, are reflected as Restricted Cash on Atlantic Power's balance sheet, and, as at September 30, 2006, totaled \$47,727.

The acquisition of the Path 15 project on September 15, 2006 was initially financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. Loans under the Acquisition Credit Facility bear interest at a rate equal to a Eurodollar Rate or a U.S. Base Rate, plus an applicable margin to those rates. As of September 30, 2006, the applicable rate, including margin, was 6.83% on the Eurodollar loan outstanding on the Acquisition Credit Facility. The Acquisition Credit Facility matures on September 14, 2007. On October 13, 2006, a portion of the proceeds of a public offering of IPS and Convertible Subordinated Debentures was used to make a \$37 million principal payment on the Acquisition Credit Facility, leaving an outstanding balance of \$51 million as of that date.

All project-level debt is non-recourse to the Company or Holdings and is fully amortized over the life of the projects' PPAs.

## **CAPITAL EXPENDITURES**

Capital expenditures for the Projects are made at the project level using project cash flows and project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the projects. Generally, capital expenditures are not significant because most major expenditures are for repairs and maintenance and therefore are expensed.

## PROJECT PORTFOLIO

The following table outlines the Company's portfolio of power generating assets as of September 30, 2006, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any one region.

Project Name	Location (State)	Fuel Type	Total MW	Ownership Interest <sup>(1)</sup>	Accounting Treatment <sup>(2)</sup>	Net MW <sup>(3)</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating

(1) Represents the percentage ownership interest in the project held indirectly by Atlantic Holdings (except as otherwise noted).

(2) Accounting Treatment: (see to Note 1 to the audited consolidated financial statements for the year ended December 31, 2005).

C = Consolidated

P = Proportionate Consolidation

E = Equity Method

(3) Represents the interest of Holdings in each project's electric generation capacity based on Holdings' economic interest in each project.

(4) Represents Holdings' estimate of its economic interest in the project's cash flow.

(5) A swap agreement with Niagara Mohawk Power Corporation replaced the Onondaga PPA.

(6) Holdings owns a lessor interest in this Project.

(7) The merchant output of the facility is sold by Atlantic City Electric in the PJM regional spot market through a profit sharing arrangement with Chambers.

The Path 15 Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point in the state's north-south capacity. Path 15 Project commenced commercial operations in December 2004. An indirectly wholly-owned, consolidated subsidiary of the Company (Path 15 Opco) owns 72% of the Transmission System Rights related to the Path 15 Project.

## CONTRACTUAL OBLIGATIONS

As of September 30, 2006  
(In thousands of U.S. dollars)  
(Unaudited)

	Payment due by period				
	Total	2006 (after September 30)	2007 to 2009	2010 to 2011	2012 and thereafter
Subordinated notes	261,987				261,987
Long-term debt <sup>(1)</sup>	462,814	9,594	176,477	44,885	231,888
<b>Total contractual obligations</b>	<b>724,801</b>	<b>9,594</b>	<b>176,447</b>	<b>44,885</b>	<b>493,875</b>

- (1) Long term debt represents the Company's consolidated and proportionately consolidated share of Project long term debt. Excludes net unamortized purchase price adjustment of \$20,166 related to the assumption of long-term debt in the Path 15 acquisition. Project debt is non-recourse to the Company and fully amortizes during the term of the respective PPAs.
- (2) The interest rate on the subordinated notes is 11% and the range of interest rates on long-term debt at September 30, 2006 was 3.74% to 9.125%.

### (a) Project Contracts

Each project typically has a set of contracts that include the following obligations of the project partnerships, all of which are non-recourse to the Company. Therefore, specific contracts for individual projects are not discussed in detail in the MD&A.

- PPAs generally allow Projects to pass through their fuel costs. See the table under the "Project Portfolio" section in this MD&A for off-takers and durations.
- Fuel supply agreements may have minimum volume requirements.
- Fuel transportation agreements incorporate capacity reservation/demand payments for natural gas, or shipping cost per ton of coal.
- Steam sales agreements track PPA lengths and are designed to meet regulatory requirements for thermal load/efficiency at fossil fuel plants.
- O&M agreements contract for operations and maintenance services provided by third parties or owners.
- Long-term service agreements may be in place for gas or steam turbine inspections and overhauls.
- Site lease agreements grant use of project land where Projects do not own the site.

Further information about the Projects' agreements is contained in the Company's Annual Information Form dated March 30, 2006, which is available on SEDAR at [www.sedar.com](http://www.sedar.com).

(b) **Financial Instrument Contracts**— see the "Financial and Other Instruments" section in this MD&A.

**(c) Credit Facility**

Holdings has a \$75,000 revolving credit facility, \$13,465 of which was allocated, but not drawn as of September 30, 2006, to support letters of credit for contingent liabilities at several of the Projects. No amount was drawn under the revolving term credit facility as of September 30, 2006.

**(d) Office Operating Lease Obligations**

Atlantic Power Management, LLC (the "Manager") the manager of the Company subleases its office space from ArcLight Capital Partners, LP, under an agreement that expires in 2014. The obligations under this sublease are \$130 per year in 2006-2007 and a total of \$933 for the period 2008-2014.

**(e) Management and Incentive Fees**

The Company pays a management fee under the Management Agreement that is subject to adjustment for acquisitions as agreed to by the Company and Holdings' Independent Managers, plus incentives, inflation adjustment and expenses. The Company paid the Manager \$2,762 in management and incentive fees during the nine-month period ended September 30, 2006.

**(f) Subordinated Notes**

As of September 30, 2006, the Company had \$261,987 outstanding of Subordinated Notes due 2016. The notes pay only interest until their maturity.

**RELATED PARTY TRANSACTIONS**

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid (i) an annual management fee, (ii) reimbursement of costs, and (iii) an incentive fee equal to 25% of the excess in distributions paid to IPS holders and Existing Investors during the year above Cdn. \$1.00 per IPS. The Management Agreement has an initial term of 20 years from the Company's IPO completed in November 2004. The Manager is owned by ArcLight Energy Partners Funds I and II (the "ArcLight Funds") The ArcLight Funds. Subsidiaries of the ArcLight Funds along with a subsidiary of Caithness Energy owned 41.9% of Holdings' common membership interests after the IPO, but reduced their interest to 29.9% in October 2005 and further reduced their interest to approximately 14% in October 2006.

The seven-person Board of Managers of Holdings includes one member from ArcLight Capital Partners, LLC who was appointed by the Existing Investors, as well as the President and Chief Executive Officer and the Chief Financial Officer of the Manager. These three individuals may not vote on any proposed acquisitions by Holdings of projects in which The ArcLight Funds has an ownership interest.

The Manager receives administrative and office support services from ArcLight Capital Partners, LP under a Management Support Agreement. This agreement also requires the ArcLight Funds and their affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Holdings, investment opportunities that do not fit within the investment guidelines for The ArcLight Funds or other investment funds managed by ArcLight Capital Partners, LLC or its affiliates.

At the time of the IPO, Holdings was granted a right of first offer ("ROFO") on eleven power producing projects owned by the ArcLight Funds. The acquisition of a 40% indirect interest in Chambers Cogeneration LP in September 2005 is the only asset that has been acquired under the terms of the ROFO agreement. As of September 30, 2006, a 90 MW project located in Florida is the only project that remains subject to the ROFO agreement.

As discussed in the "Contractual Obligations" section above, the Manager subleases its office space from ArcLight Capital Partners, LP under an agreement that expires in 2014.

Caithness Energy has an indirect ownership interest in one of the Existing Investors. Subsidiaries of Caithness Energy provide operations, maintenance and accounting at four of the Projects and administrative and project management functions for an additional eight Projects under agreements which are in effect until February 2007 and renewable thereafter. During the three- and nine-month periods ended September 30, 2006, Holdings incurred fees and expenses of \$687 and \$2,063, respectively for these services provided by Caithness Energy.

## FINANCIAL AND OTHER INSTRUMENTS

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates as the Company earns its income principally in the United States and has the obligation to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has executed this strategy by entering into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn. \$1.06 per IPS to all holders including the Existing Investors, as well as interest payments on the Subordinated Notes issued separately at the time of the Company's IPO. It is the Company's intention to extend the length of these forward contracts by one additional year periodically. Changes in the fair market value of the Company's forward contracts partially offset set exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations. The following table summarizes the Company's forward foreign currency contracts as of September 30, 2006:

<u>NOTIONAL MONTHLY AMOUNTS</u>			
<u>Period</u>	<u>Sell U.S. Dollars</u>	<u>Buy Canadian Dollars</u>	<u>Average Rate</u>
Current - 2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange gains and losses. The foreign exchange contracts are classified as other assets.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects to cash flow of changing natural gas prices, which is a major component of project expenses. Some of these contracts have been designated as hedges for accounting purposes. In addition, other projects have entered into natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

The Company has an Indexed Swap under which the Company receives monthly payments based upon the differential between an indexed contract price and a market reference price for electricity through June 2008. In order to lock in favorable gas, power, and capacity pricing under the Indexed Swap, the Company has entered into an Indexed Swap Hedge. Refer to Note 3 of the Company's unaudited consolidated financial statements for the nine months ended September 30, 2006.

## ACCOUNTING ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the

financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the periods presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property, plant and equipment and PPAs, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives.

The Company has acquired the majority of its long-term assets through acquisitions. In applying the purchase method of accounting, the Company is required to estimate the fair value of the assets acquired including the property, plant and equipment and intangible assets. The determination of these fair values is complex and involves significant judgments.

Revenue recognition is based on monthly invoices by the Projects to electricity and steam buyers and in one case with fluctuating rates over time, the average rate over the term of the PPA is used for revenue with the difference between cash received and revenue recognized as deferred revenue. Fixed asset valuations of power plants are based on depreciated replacement cost. Valuations of PPAs and fuel supply agreements are based on the incremental net present value of cash flows provided by the agreement as compared to the merchant value of the plant. The Company typically uses outside consultants to determine the merchant value of a facility. On an on-going basis, the Company monitors the performance of the facilities to determine if any recoverability issues exist or if any change in the useful life of the facility is required.

The future tax asset valuation allowance has been determined pursuant to the provisions of CICA 3465, Income Taxes, including the Company's estimation of future taxable income, where necessary, and is adequate to reduce the total future tax asset to an amount that will more likely than not be realized. The Company incurred taxable income for the nine-month period ended September 30, 2005 and taxable income for the nine-month period ended September 30, 2006. During the third quarter of 2006, the Company completed its 2005 tax returns and recorded an income tax benefit in the amount of \$2.2 million representing an adjustment in the estimated amounts of tax that were previously recorded. The Company has limited operating history. It is not considered to be reasonably certain that future tax assets will be realized over the next few years. Accordingly, the Company has provided a valuation allowance equivalent to the Company's net future tax assets.

The fair value of financial instruments and derivatives such as the forward foreign currency contracts, interest rate swaps and natural gas swaps are typically based on market quotes. The Company also has an Indexed Swap and related hedge agreement, discussed in Note 8 to the Company's unaudited consolidated financial statements for the nine months ended September 30, 2006. The fair value of these agreements are based on estimated future cash flows taking into account certain assumptions, including forecasts or future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair values of these agreements.

For additional information regarding accounting policies and estimates refer to Note 1 of the consolidated financial statements for the year ended December 31, 2005.

## **RECENT ACCOUNTING PRONOUNCEMENTS**

### **Financial Instruments — Recognition and Measurement**

In January 2005, the CICA released new Handbook Section 3855, "Financial Instruments — Recognition and Measurement," effective for annual and interim periods beginning on or after October 1, 2006. This new section establishes standards for the recognition and measurement of all financial instruments, provides a characteristics-based definition of a derivative financial instrument, provides criteria to be used to determine when a financial instrument should be recognized, and provides criteria to be used when a financial instrument is to be extinguished. The Company has not yet determined the effect that these new standards will have on its consolidated financial position and results of operations.

### **Comprehensive Income and Equity**

In January 2005, the CICA released new Handbook Section 1530, "Comprehensive Income," and Section 3251, "Equity," effective for annual and interim periods beginning on or after October 1, 2006. Section 1530 establishes standards for reporting comprehensive income. These standards require that an enterprise present comprehensive income and its components in a separate financial statement that is displayed with the same prominence as other financial statements. Section 3251 establishes standards for the presentation of equity and changes in equity during the reporting period in addition to the requirements in Section 1530. The Company has not yet determined the effect these new standards will have on its consolidated financial position and results of operations.

### **Hedges**

In January 2005, the CICA released new Handbook Section 3865, "Hedges," effective for annual and interim periods beginning on or after October 1, 2006. This new section establishes standards for when and how hedge accounting may be applied. Hedge accounting is optional. The Company has not yet determined the effect these new standards will have on its consolidated financial position and results of operations.

### **COMMITMENTS AND CONTINGENCIES**

The Chambers partnership, in which Holdingco owns a 40% indirect interest, filed suit against its coal supplier, Consol Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers was seeking, among other things, (1) a declaratory judgment regarding the terms of the agreement, (2) damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier had asserted affirmative defenses and counterclaims in its answer. In the third quarter of 2006, a settlement agreement was reached, subject to final documentation. The terms of the proposed settlement do not have a material impact to the financial position or results of operations of the project.

The Rumford cogeneration facility purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague had disputed terms and compensation for certain terminal services provided by Sprague and Massey had asserted that Rumford also had failed to pay certain amounts due under the coal supply agreement. In the third quarter of 2006, the dispute was settled for an amount that was not material to the project.

Other than the resolution of the Chambers and Rumford matters described above, there have been no significant changes in the status of litigation matters reported in the Company's consolidated financial statements and management's discussion and analysis for the year ended December 31, 2005. For a comprehensive discussion on litigation matters involving the Company, see the "Litigation" section in its management's discussion and analysis for the three-month period ended March 31, 2006. Management believes that the outcome of the litigation matters previously disclosed will not have a material impact on the Company.

The 2005 financial statements of one of the Company's proportionately consolidated joint ventures contained a going concern qualification in the auditor's report based on the assessment at that time that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, could need to renegotiate with its lenders in or around the year 2010. Management is currently evaluating its strategic alternatives with respect to this investment.

### **OUTSTANDING SHARE DATA**

The Company had 44,339,500 IPSs outstanding at September 30, 2006 and 52,870,500 IPSs outstanding at November 9, 2006.

## **OUTLOOK**

In order to maintain stable distributions and provide long term growth, the Company will continue to focus on enhancing the financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

PPAs in the portfolio have various expiration dates as listed in the "Project Portfolio" table in this MD&A. and, in each case, the project's partners plan for that occurrence by evaluating various options in the market in order to continue maximizing project cash flows. For example, projects with PPA expirations in the 2008-2009 timeframe have already been preparing for potential new or extended power purchase arrangements. The new arrangements may involve responses to utility solicitations for capacity, direct negotiations with the original purchasing utility for PPA extensions, or arrangements with creditworthy marketers for tolling agreements, full service PPAs or the use of derivatives to lock in value. Management has not assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations.

## **RISK FACTORS**

Atlantic Power's future performance and its ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs and the Common Shares and Subordinated Notes represented thereby involve a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares or Subordinated Notes or on the market price or value of IPSs, Common Shares or Subordinated Notes. A discussion of these risks and uncertainties can be found in the Company's management's discussion and analysis for the year ended December 31, 2005 and Annual Information Form dated March 30, 2006.

In connection with its first transmission investment: Path 15, the Company will be required to have its Path 15 operating subsidiary make a triennial filing with the Federal Energy Regulatory Commission ("FERC") for review of certain aspects of its rate recovery, such as the allowed return on equity. The first such filing will be in late 2007 for the 2008-2010 rate recovery period. While the Company believes that Path 15's current rate recovery assumptions are supported both by other analogous FERC precedents and recent FERC policy statements, it is possible that such rate reviews result in a lower ratebase and/or recovery on ratebase that could have a material affect on the project's revenues.

On October 31, 2006, the Government of Canada announced a comprehensive taxation plan to levy a "Distribution Tax" on distributions from publicly traded income trusts and limited partnerships. Under the tax proposal, certain distributions of flow through entities income would be subject to tax at corporate income tax rate. Based on management's initial analysis of the proposed tax, it appears that Atlantic Power, which is organized as a Canadian corporation, is not likely to be directly impacted by the proposed new law. However, the application of the proposed rules cannot be definitively concluded until the legislation implementing the proposed rules is finalized and enacted.

## **ADDITIONAL INFORMATION**

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or on SEDAR's website at [www.sedar.com](http://www.sedar.com).

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006

(Unaudited)

---

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004 and continued to the Province of British Columbia on July 8, 2005. The Company issued income-participating securities ("IPS") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

## 1. Basis of presentation:

These interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2005, as set out in the 2005 Annual Report since they do not contain all the disclosures that are required by Canadian generally accepted accounting principles for annual financial statements. These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, using the same accounting policies and methods of computation as were used for the audited consolidated financial statements for the year ended December 31, 2005, except for the adoption of the accounting policy for goodwill.

There is some seasonality of the Company's revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the power purchase agreement payments and relatively small amounts of uncontracted output, and the typical scheduling of major facility maintenance in the spring and fall.

## 2. Change in accounting policy:

Goodwill:

Goodwill is the residual amount that results when the purchase price of an acquired business exceeds the sum of the amounts allocated to the assets acquired, less liabilities assumed, based on their fair values. Goodwill is allocated, as of the date of the business combination, to the Company's reporting units that are expected to benefit from the synergies of the business combination.

Goodwill is not amortized and is tested for impairment annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test is carried out in two steps. In the first step, the carrying amount of the reporting unit is compared with its fair value. When the fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not to be impaired and the second step of the impairment test is unnecessary.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006

(Unaudited)

---

## 2. Change in accounting policy (continued):

The second step is carried out when the carrying amount of a reporting unit exceeds its fair value, in which case, the implied fair value of the reporting unit's goodwill is compared with its carrying amount to measure the amount of the impairment loss, if any. The implied fair value of goodwill is determined in the same manner as the value of the goodwill is determined in a business combination, using the fair value of the reporting unit as if it were the purchase price. When the carrying amount of the reporting unit goodwill exceeds the implied fair value of the goodwill, an impairment loss is recognized in an amount equal to the excess and is presented as a separate line item in the consolidated statement of income before extraordinary items and discontinued operations.

## 3. Acquisitions:

### (a) Path 15 acquisition:

On June 29, 2006, Atlantic Power Holdings LLC ("Atlantic Holdings") agreed to indirectly acquire 100% of Trans-Elect NTD Holdings Path 15, LLC ("Path 15"), which owns approximately 72% of the transmission system rights ("TSRs") in the Path 15 transmission project (the "Path 15 Project") located in California.

The acquisition of Path 15 closed on September 15, 2006 and was financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. Loans under the Acquisition Credit Facility bear interest at a rate equal to Eurodollar rate or a U.S. base rate, plus an applicable margin to those rates. The Acquisition Credit Facility is secured by pledges of assets in certain wholly owned and other investment companies of the Company. As of September 30, 2006, the applicable rate, including margin, is 6.83% on the loan outstanding on the Acquisition Credit Facility. The Acquisition Credit Facility matures on September 14, 2007 and is included in current portion of long-term debt and short-term debt in the consolidated balance sheet. See additional information in note 10 related to a payment made on the Acquisition Credit Facility in October 2006.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006

(Unaudited)

### 3. Acquisitions (continued):

The cash payment for the acquisition in the amount of \$88,000, including acquisition costs of approximately \$2,500, has been allocated to the net assets acquired, based on management's preliminary estimate of the fair value at September 15, 2006 as follows:

Working capital, including acquired cash	\$ 14,653
Transmission system rights	217,578
Goodwill	32,412
Other long-term assets	738
Deferred tax liability	(20,463)
Long-term debt (excluding current portion)	(156,918)
	<hr/>
	\$ 88,000

There are currently two material ratemaking issues related to the Path 15 Project under Federal Energy Regulatory Commission ("FERC") review that could affect the revenue earned by Path 15. These issues are expected to be determined by the FERC commissioners by the end of the fourth quarter of 2006. Given the potential impact of the ruling on the cash flows of Path 15, the Company negotiated certain purchase price adjustments in the purchase and sale agreement in the event of an adverse outcome. Specifically, \$24.1 million of the purchase price is being held in escrow pending the FERC's final determination of the two ratemaking issues. If the FERC's resolution of the outstanding rate issues is favourable to Path 15, a portion or all of the amount held in escrow will be released to the sellers in accordance with a formula set forth in the purchase and sale agreement. If the FERC's resolution of the outstanding rate issues is not favourable to Path 15, the purchase price will be reduced in accordance with a formula set forth in the purchase and sale agreement and all or a portion of the amount held in escrow will be returned to Atlantic Holdings. Management believes that the escrow provisions in the purchase and sale agreement allow the Company to maintain virtually the same economic outcome from the acquisition regardless of the outcome of the issues that remain subject to a FERC ruling.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006

(Unaudited)

## 3. Acquisitions (continued):

### (b) Epsilon Power Partners, LLC acquisition:

On September 8, 2005, the Company acquired Epsilon Power Partners, LLC ("Epsilon") for cash consideration of \$65,008, including acquisition costs of \$564. Epsilon owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of a 262 megawatts pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's Chambers Works complex in southwestern New Jersey.

During the quarter ended September 30, 2006, determination of the fair value of the power purchase and other contracts was finalized. The purchase price allocation has been adjusted as follows:

	Preliminary purchase equation	Adjustments	Revised purchase equation
Working capital	\$ 9,541	\$ -	\$ 9,541
Property, plant and equipment	142,817	-	142,817
Power purchase and other contracts	87,258	(71,726)	15,532
Goodwill	-	71,726	71,726
Other liabilities	(7,766)	-	(7,766)
Long-term debt	(166,842)	-	(166,842)
Total purchase price	65,008	-	65,008
Less cash acquired	1,617	-	1,617
<b>Cash paid, net of cash acquired</b>	<b>\$ 63,391</b>	<b>\$ -</b>	<b>\$ 63,391</b>

The property, plant and equipment will be amortized over its remaining life estimated as 23 years. The power purchase and other contracts will be amortized over periods ranging from 18 years to 23 years.

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006

(Unaudited)

## 4. Intangible assets:

Intangible assets include power purchase agreements, fuel supply agreements and licenses and rights.

	September 30, 2006	December 31, 2005
Power purchase agreements	\$ 14,832	\$ 14,832
Fuel supply agreements	110,403	110,403
Licenses and rights	–	70,538
	125,235	195,773
Less accumulated amortization	35,298	21,096
	\$ 89,937	\$ 174,677

Amortization expense of \$3,296 (year ended December 31, 2005 - \$19,670) was expensed during the quarter.

## 5. Other liabilities, non-controlling interest:

As of September 30, 2006, ArcLight Energy Partners Funds I and II and Caithness Energy (the "Existing Investors") have a 29.9% common membership interest in Atlantic Holdings (December 31, 2005 - 29.9%) and also have the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest to November 18, 2006. The repurchase of the Existing Investors' interests is conditional upon Atlantic Holdings being able, after utilizing its best efforts, to complete or cause the completion of an equity financing on terms acceptable to the managers of Atlantic Holdings who are independent of the Existing Investors and their affiliates, acting reasonably, to secure the necessary funds to enable it to purchase the Existing Investors' interests. Atlantic Holdings may only finance repurchases of Existing Investors' interests pursuant to the exercise of the rights by issuing additional equity securities. This may occur through the sale of equity interests to the Company, the purchase of which may be financed by a sale of IPS or other equity or debt securities of the Company. These interests are treated as a liability of the Company and are recorded at fair value on the consolidated balance sheet. At September 30, 2006, to purchase the remaining 29.9% interest, 18,952,365 IPS would be required to be issued. On October 11, 2006, a portion of the Existing Investors' interests were purchased by the Company (note 10).

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006  
(Unaudited)

---

## 5. Other liabilities, non-controlling interest (continued):

The change in fair value of the non-controlling interest, resulting from changes in the fair market value of the Company's IPS, is recognized in the consolidated statement of income and deficit as change in fair value of non-controlling interest. For the three months and nine months ended September 30, 2006, an increase of \$15,270 and \$2,045, respectively (three months and nine months ended September 30, 2005, a decrease of \$1,035 and nil, respectively) is reflected in the consolidated statements of income and deficit.

The change in fair value of the non-controlling interest, resulting from foreign exchange, is recognized in the consolidated statements of income and deficit within foreign exchange loss (gain). For the three months and nine months ended September 30, 2006, the foreign exchange loss (gain) related to the non-controlling interest was (\$228) and \$6,519, respectively (three months and nine months ended September 30, 2005, loss of \$12,486 and \$8,008, respectively).

On October 3, 2005, the Company issued 7,539,000 IPS at a rate of Cdn. \$10.00 per IPS to Caisse de dépôt et placement du Québec and officers of the Company in a secondary private placement. Gross proceeds were Cdn. \$75,390.

The net proceeds from the private placement were used by the Company to increase its common membership ownership in Atlantic Holdings from 58.1% to 70.1%. Atlantic Holdings concurrently redeemed membership interests held indirectly by the Existing Investors reducing the Existing Investors' common membership ownership from 41.9% to 29.9%.

## 6. Related party transactions:

During the three months and nine months ended September 30, 2006, in accordance with the Management Agreement, the Company paid management and incentive fees of \$876 and \$2,762, respectively (three months and nine months ended September 30, 2005 - \$740 and \$1,950, respectively) to Atlantic Power Management, LLC, the Manager.

In addition, during the three months and nine months ended September 30, 2006, the Company incurred expenses of \$687 and \$2,063, respectively (three months and nine months ended September 30, 2005 - \$387 and \$2,063, respectively) for operations and maintenance services provided by Caithness Energy, a company which holds an indirect interest in one of the Existing Investors. Caithness Energy provides operations and maintenance services to 4 of the Company's projects and project management services to 12 projects.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006

(Unaudited)

---

## 7. Basic loss per share:

Basic loss per share has been calculated using the weighted average number of units outstanding during the three months and nine months ended September 30, 2006 of 44,339,500 (three months and nine months ended September 30, 2005 - 36,800,000).

## 8. Commitments and contingencies:

(a) The Chambers partnership, in which Atlantic Holdings owns a 40% indirect interest, filed suit against its coal supplier, Consol Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers was seeking, among other things, (i) a declaratory judgment regarding the terms of the agreement, (ii) damages for missed deliveries, and (iii) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier had asserted affirmative defenses and counterclaims in its answer. In the third quarter of 2006, a settlement agreement was reached, subject to final documentation. The terms of the proposed settlement do not have a material impact to the financial position or results of operations of the project.

(b) The Rumford cogeneration facility purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague had disputed terms and compensation for certain terminal services provided by Sprague and Massey had asserted that Rumford also had failed to pay certain amounts due under the coal supply agreement. In the third quarter of 2006, the dispute was settled for an amount that was not material to the project.

(c) Other than the resolution of the Chambers and Rumford matters described above, there have been no significant changes in the status of litigation matters reported in the Company's consolidated financial statements and management's discussion and analysis for the year ended December 31, 2005. Management believes that the outcome of the litigation matters previously disclosed will not have a material impact on the Company.

(d) The 2005 financial statements of one of the Company's proportionately consolidated joint ventures contains a going concern qualification in the auditors' report based on the assessment that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, could need to renegotiate with its lenders in or around the year 2010. Management is currently evaluating its strategic alternatives with respect to this investment.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006  
(Unaudited)

## 8. Commitments and contingencies (continued):

- (e) The Company uses forward foreign currency contracts to manage its exposure to changes in foreign currency exchange rates as the Company earns its income principally in the United States and has the obligations to make distributions predominantly in Canadian dollars. The Company has entered into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn. \$1.03 per IPS to all holders including the Existing Investors, as well as interest payments on the separate subordinated notes. It is the Company's intention to extend the length of these forward contracts out to five years at or near the end of each year. Changes in the fair market value of the Company's forward contracts partially offset exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations. The following table summarizes the Company's forward foreign currency contracts as of September 30, 2006:

Period	Notional monthly amounts		Average rate
	Sell U.S. dollars	Buy Canadian dollars	
Current - 2009	\$ 4,811	\$ 5,800	1.2055
2010	5,167	5,800	1.1224
2011	5,494	5,800	1.0557

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006

(Unaudited)

## 8. Commitments and contingencies (continued):

The foreign exchange loss (gain) of (\$958) and \$6,593 (three months and nine months ended September 30, 2005 - loss of \$10,869 and \$4,581, respectively) during the three months and nine months ended September 30, 2006, primarily reflects unrealized foreign exchange gains on the U.S. dollar equivalent of the Company's Canadian dollar denominated obligation to non-controlling interests and subordinated notes, unrealized foreign exchange losses on the changes in the fair market value of the Company's forward contracts and realized foreign exchange gains on forward contract settlements during the period. Foreign exchange gains (losses) are as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2006	2005	2006	2005
Subordinated notes	\$ 351	\$ (10,946)	\$ (10,183)	\$ (6,994)
Non-controlling interest	228	(12,486)	(6,519)	(8,008)
Forward contracts	(751)	12,351	7,195	10,752
Unrealized foreign exchange losses	(172)	(11,081)	(9,507)	(4,250)
Realized foreign exchange gains (losses) on forward contract settlements	1,130	212	2,914	(331)
	\$ 958	\$ (10,869)	\$ (6,593)	\$ (4,581)

## 9. Indexed swap:

A swap agreement (the "Indexed Swap") exists between the power utility and Onondaga Cogeneration Limited Partnership ("Onondaga"), which replaced Onondaga's original power purchase contract. The Indexed Swap expires on June 30, 2008. The Indexed Swap is a financial instrument under which the utility company makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full term of the Indexed Swap.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2006  
(Unaudited)

## 9. Indexed swap (continued):

In May 2004, Onondaga contributed the Indexed Swap to a newly formed wholly owned special purpose subsidiary, Onondaga Power Swap Holdings, LLC ("OPSH"). Onondaga has guaranteed OPSH's obligations to the utility company under the Indexed Swap. Also in May 2004, OPSH entered into commodity hedges (the "Indexed Swap Hedge"), in order to lock in favourable gas, power and capacity pricing under the Indexed Swap. The hedges extend through June 30, 2008 and remove almost all commodity exposure from the Indexed Swap through its term.

Changes related to the Indexed Swap are summarized below:

	Three months ended September 30,		Nine months ended September 30,	
	2006	2005	2006	2005
Fair value, beginning of period	\$ 74,780	\$ 96,187	\$ 107,914	\$ 99,591
Increase (decrease) in fair value during the period	(8,389)	33,547	(25,261)	45,951
Settlements paid	(7,183)	(9,477)	(23,445)	(25,285)
<b>Fair value, end of period</b>	<b>\$ 59,208</b>	<b>\$ 120,257</b>	<b>\$ 59,208</b>	<b>\$ 120,257</b>

Changes related to the Indexed Swap Hedge:

	Three months ended September 30,		Nine months ended September 30,	
	2006	2005	2006	2005
Fair value, beginning of period	\$ 33,837	\$ 38,054	\$ 58,547	\$ 30,293
Increase (decrease) in fair value during the period	(9,438)	25,827	(29,139)	34,742
Settlements paid	(1,631)	(3,832)	(6,640)	(4,986)
<b>Fair value, end of period</b>	<b>\$ 22,768</b>	<b>\$ 60,049</b>	<b>\$ 22,768</b>	<b>\$ 60,049</b>

## 10. Subsequent event:

On October 11, 2006, the Company closed the sale of IPSs and 6.25% convertible secured debentures ("Debentures") for gross proceeds of Cdn. \$150 million. The offering consisted of 8,531,000 IPSs sold at a price of Cdn. \$10.55 per IPS for gross proceeds of Cdn. \$90 million and Cdn. \$60 million aggregate principal amount of Debentures.

The Debentures pay interest semi-annually on April 30 and October 31 each year, commencing on April 30, 2007. The Debentures mature on October 31, 2011 and are convertible into approximately 80.6452 IPSs per Cdn. \$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn. \$12.40 per IPS. The Debentures are listed on the Toronto Stock Exchange under the symbol ATP.DB.

The net proceeds of the offering were used by the Company to: (i) partially repay U.S. \$37 million of the Acquisition Credit Facility arranged in connection with an acquisition of an interest in the Path 15 Project, and (ii) provide proceeds to Atlantic Holdings that were used to redeem a portion of the ownership interests in Atlantic Holdings held by the Existing Investors. In connection with the closing of the offering, the Company increased its ownership in Atlantic Holdings from 70.1% to approximately 86%.

NEWS RELEASE

FOR: ATLANTIC POWER CORPORATION

TSX SYMBOL: ATP.UN

### **Atlantic Power Announces Closing of \$150 Million Bought Deal Financing**

BOSTON, MASSACHUSETTS – (CNMatthews – Oct. 11, 2006)

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES. ANY FAILURE TO COMPLY WITH THIS RESTRICTION MAY CONSTITUTE A VIOLATION OF U.S. SECURITIES LAW.

Atlantic Power Corporation (TSX: ATP.UN) ("Atlantic Power") today announced the successful closing of its previously announced sale of income participating securities ("IPSs") and 6.25% convertible secured debentures ("Debentures") for gross proceeds of Cdn\$150 million. The offering consisted of 8,531,000 IPSs sold at a price of Cdn\$10.55 per IPS for gross proceeds of Cdn\$90 million and Cdn\$60 million aggregate principal amount of Debentures. The IPSs and Debentures were sold on a bought deal basis to a syndicate of underwriters led by BMO Capital Markets that included National Bank Financial Inc., RBC Capital Markets, Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation.

The first distribution which purchasers of IPSs under the offering are eligible to receive will be payable on or about November 30, 2006 to holders of record on October 31, 2006.

The Debentures pay interest semi-annually on April 30 and October 31 each year, commencing on April 30, 2007. The Debentures mature on October 31, 2011 and are convertible into approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS. The Debentures are listed on the Toronto Stock Exchange under the symbol ATP.DB.

As previously reported, the net proceeds of the offering will be used by Atlantic Power to: (i) partially repay approximately US\$37 million of the credit facility arranged in connection with an acquisition of an interest in the Path 15 Project, and (ii) provide proceeds to Atlantic Power Holdings, LLC ("Holdings") that Holdings will use to redeem a portion of the ownership interests in Holdings held by subsidiaries of ArcLight Energy Partners Funds I and II and another investor. In connection with the closing of the offering, Atlantic Power increased its ownership in Holdings from 70.1% to approximately 86%.

The securities offered have not been registered under the *United States Securities Act of 1933*, as amended (the "U.S. Securities Act"), and may not be offered or sold within the United States or

to, or for the account or benefit of, U.S. persons. This news release does not constitute an offer to sell or a solicitation of an offer to buy securities in any jurisdiction.

When used in this news release, the words “will be”, “anticipate”, “expect”, “project”, “believe”, “estimate”, “forecast” and similar expressions are intended to identify forward-looking statements, which include statements relating to the bought deal financing, the use of proceeds thereof and the amount and timing of the payment of distributions by Atlantic Power. Such statements are subject to certain risks, uncertainties and assumptions which may cause the actual results, performance or achievements of Atlantic Power to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such forward-looking statements are based on a number of assumptions which may prove to be incorrect. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements contained in this news release represent our expectations as of October 11, 2006 and, accordingly, are subject to change after such date. Except as required by applicable law, we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

## TRUST INDENTURE

THIS TRUST INDENTURE made as of the 11<sup>th</sup> day of October, 2006,

BETWEEN:

**ATLANTIC POWER CORPORATION**, a corporation continued under the laws of the Province of British Columbia (hereinafter referred to as the "**Company**")

- and -

**COMPUTERSHARE TRUST COMPANY OF CANADA**, a trust company authorized to carry on business in all of the provinces and territories of Canada (hereinafter referred to as the "**Debenture Trustee**")

WITNESSES THAT:

WHEREAS the Company deems it advisable to create and issue the Debentures to be created and issued in the manner as herein provided;

AND WHEREAS the Company, under the laws relating thereto, is duly authorized to create and issue the Debentures to be issued as herein provided;

AND WHEREAS all necessary steps in relation to the Company have been duly enacted, passed and/or confirmed and other proceedings taken and conditions complied with to make the Debentures, when certified by the Debenture Trustee and issued as in this Indenture provided, legal, valid and binding obligations of the Company;

AND WHEREAS the foregoing recitals are made as representations and statements of fact by the Company and not by the Debenture Trustee;

NOW THEREFORE it is hereby covenanted, agreed and declared as follows:

### ARTICLE 1 INTERPRETATION

#### 1.1 Definitions

In this Indenture and in the Debentures, unless there is something in the subject matter or context inconsistent therewith, the expressions following shall have the following meanings, namely:

- (a) "**90% Redemption Right**" has the meaning ascribed thereto in Section 2.4(h)(iv);

- (b) “**Additional Debentures**” means Debentures of any one or more series, other than the first series of Debentures being the Initial Debentures, issued under this Indenture;
- (c) “**Affiliate**” of any specified Person means any Person directly or indirectly controlling or controlled by or under direct or indirect common control with such specified Person. For purposes of this definition, “control” (including, with correlative meanings, the terms “controlling”, “controlled by” and “under common control with”), as used with respect to any Person, means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of such Person, whether through the ownership of voting securities, by agreement or otherwise;
- (d) “**Applicable Laws**” means any and all laws, including all federal, state, provincial and local statutes, codes, ordinances, decrees, rules, regulations and municipal by-laws and all judicial, arbitral, administrative, ministerial, departmental or regulatory judgments, orders, decisions, rulings or awards or other requirements of any other governmental entity, binding on or affecting the Person referred to in the context in which the term was used;
- (e) “**Applicable Securities Legislation**” means applicable securities laws (including rules, regulations, policies and instruments) in each of the provinces and territories of Canada;
- (f) “**Atlantic Holdings**” means Atlantic Power Holdings, LLC, a limited liability company formed under the laws of Delaware;
- (g) “**Bankruptcy Law**” means Title 11, United States Code, or any similar federal or state law for the relief of debtors, or the *Bankruptcy and Insolvency Act* (Canada) or any other Canadian federal or provincial law or foreign law relating to bankruptcy, insolvency, winding up, liquidation, reorganization or relief of debtors;
- (h) “**Beneficial Holder**” means any person who holds a beneficial interest in a Global Debenture as shown on the books of the Depository or a Depository Participant;
- (i) “**Blockage Notice**” is defined in Section 6.5;
- (j) “**Business Day**” means any day other than a Saturday, Sunday or statutory holiday in Toronto, Ontario;
- (k) “**Canadian Dollars**” or “**CS**” means the lawful money in Canada;
- (l) “**Capitalized Lease Obligations**” means, at the time any determination thereof is to be made, the amount of the liability in respect of a capital lease that would at such time be required to be capitalized and reflected as a liability on a balance sheet (excluding the footnotes hereto) in accordance with GAAP;
- (m) “**Capital Stock**” means: (i) in the case of a corporation, corporate stock or equity interests, including, without limitation, corporate stock represented by IPSs and corporate stock outstanding upon the separation of IPSs into the securities

represented thereby; (ii) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock; (iii) in the case of a partnership or limited liability company, partnership or membership interests (whether general or limited); and (iv) any other interest or participation that confers on a Person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing Person;

- (n) **“Cash Flow Coverage Ratio”** means for the most recently ended four full fiscal quarters of the Company for which financial statements are available, the ratio of Company Cash Flow for such period to the total Interest Expense of the Company plus any mandatory principal repayments on outstanding Indebtedness of the Company for such period;
- (o) **“Certificate of the Manager”** means a written certificate signed by any one of the Chief Executive Officer or Chief Financial Officer of the Manager;
- (p) **“Change of Control”** means the occurrence of any of the following events:
  - (i) the sale, lease or transfer to any Person or group, in one or a series of related transactions, of the Company’s or Atlantic Holdings’ assets generating more than 66 2/3% of Company Cash Flow for the 12-month period ended on the last day of the most recent fiscal quarter;
  - (ii) the adoption of a plan relating to the liquidation or dissolution of the Company or Atlantic Holdings;
  - (iii) the acquisition by any Person or group of a direct or indirect interest in more than 50% of: (A) the Common Shares of the Company or the common membership interests of Atlantic Holdings; or (B) the voting power or Voting Stock of the Company or Atlantic Holdings; by way of purchase, merger or consolidation or otherwise (other than a creation of a holding company that does not involve a change in the beneficial ownership of the Company as a result of such transaction); or
  - (iv) the merger or consolidation of the Company or Atlantic Holdings with or into another Person or the merger of another Person into the Company or Atlantic Holdings with the effect that immediately after such transaction the shareholders of the Company or the holders of common membership interests of Atlantic Holdings immediately prior to such transaction hold, directly or indirectly, less than 50% of the total Voting Stock of the Person surviving such merger or consolidation, in each case other than the creation of a holding company that does not involve a change in the beneficial ownership of the Company or Atlantic Holdings as a result of such transaction;
- (q) **“Change of Control Notice”** has the meaning attributed to it in Section 2.4(h)(ii);
- (r) **“Collateral Agency and Intercreditor Agreement”** means that certain Second Amended and Restated Collateral Agency and Intercreditor Agreement dated as of October 11, 2006, by and among Bank of Montreal as collateral agent, the lenders

party to the Existing Credit Facility, Bank of Montreal as agent under the Existing Credit Facility, the lenders party to the Term Loan Facility, Bank of Montreal as agent under the Term Loan Facility, the Debenture Trustee and Computershare Trust Company of Canada as "Trustee" under the Subordinated Note Indenture, as such agreement may be amended, restated, supplemented, or otherwise modified from time to time and at any time;

- (s) "**Collateral Agent**" means Bank of Montreal in its capacity as "Collateral Agent" pursuant to the Collateral Agency and Intercreditor Agreement;
- (t) "**Common Share**" means the common shares in the capital of the Company;
- (u) "**Company**" has the meaning attributed to it in the recitals;
- (v) "**Company's Auditors**" or "**Auditors of the Company**" means an independent firm of chartered accountants duly appointed as auditors of the Company;
- (w) "**Company Cash Flow**" means, for any period, the difference of (i) the aggregate amount of all cash distributions received or receivable in respect of such period, by the Company from Atlantic Holdings or any other source during such period plus the Company's *pro rata* share (based on its common membership ownership interest in Atlantic Holdings) of any cash distributions received by Atlantic Holdings in respect of such period and retained by Atlantic Holdings, in each such case exclusive of any distribution attributable to any net proceeds realized by the Company, a Significant Entity of the Company or a project upon the sale or disposition of plant, property and equipment, which is not disposed of in the ordinary course of business and any other extraordinary items, minus (ii) any amounts paid in cash by the Company in respect of expenses (other than Interest Expense), including taxes determined on a pro forma, annual basis for a full tax year;
- (x) "**Conversion Price**" means (i) with respect to the Initial Debentures, the C\$12.40 amount for which each IPS may be issued from time to time upon the conversion of the Initial Debentures, as adjusted in accordance with the provisions of Article 7 and (ii) for any other series of Debentures which are by their terms convertible, the amount set upon their creation, as adjusted in accordance with the provisions of Article 7;
- (y) "**Counsel**" means a barrister or solicitor or firm of barristers or solicitors retained or employed by the Debenture Trustee or retained or employed by the Company and acceptable to the Debenture Trustee, acting reasonably;
- (z) "**Current Market Price**" means the volume weighted average price per IPS, in Canadian Dollars, for the 20 consecutive trading days ending on the fifth trading day preceding the date of the applicable event on the TSX (or, if not listed thereon, on such stock exchange on which IPSs are listed or, if the IPSs are not listed on any stock exchange, then on the over-the-counter market) or, if there is no market, fair value as determined by an independent financial advisor;

- (aa) **“Date of Conversion”** has the meaning ascribed thereto in Section 7.4(b);
- (bb) **“Debenture Liabilities”** means the indebtedness, liabilities and obligations of the Company under Debentures issued under this Indenture of any series, including on account of principal, interest or otherwise;
- (cc) **“Debenture Trustee”** means Computershare Trust Company of Canada and includes any successor or successors or any other trustee subsequently appointed pursuant to Section 16.2;
- (dd) **“Debentureholders”** or **“holders”** means the Persons for the time being entered in the register for Debentures as registered holders of Debentures;
- (ee) **“Debentures”** means the debentures, notes or other evidence of indebtedness of the Company issued and certified hereunder, or deemed to be issued and certified hereunder, including, without limitation, the Initial Debentures, and for the time being outstanding, whether in definitive or interim form or in the form of Global Debentures;
- (ff) **“Depository”** means, with respect to the Debentures of any series issuable or issued in the form of one or more Global Debentures, the Person designated as depository by the Company pursuant to Section 2.6(a) until a successor depository shall have become such pursuant to the applicable provisions of this Indenture, and thereafter **“Depository”** shall mean each Person who is then a depository hereunder, and if at any time there is more than one such Person, **“Depository”** as used with respect to the Debentures of any series shall mean each depository with respect to the Global Debentures of such series and, in the case of the Initial Debentures, the Depository shall initially be the Canadian Depository for Securities Limited (**“CDS”**);
- (gg) **“Depository Participant”** means a broker, dealer, bank, other financial institution or other person for whom from time to time, a Depository effects book entries for a Global Debenture deposited with the Depository;
- (hh) **“Designated Senior Secured Indebtedness”** means outstanding Senior Secured Indebtedness which requires subordinated debt of the Company to have a forbearance provision.
- (ii) **“Directors”** means the directors of the Company on the date hereof or such directors as may, from time to time, be appointed or elected directors of the Company pursuant to the Company’s articles and by-laws, and applicable laws, and **“Director”** means any one of them, and reference to action by the Directors means action by the Directors as a board;
- (jj) **“ERISA”** means the *United States Employee Retirement Income Security Act of 1974*, as amended, or any successor statute;
- (kk) **“Event of Default”** has the meaning ascribed thereto in Section 9.1;
- (ll) **“Existing Credit Facility”** means the credit agreement in connection with a revolving term credit facility dated as of November 18, 2004, as amended to the date

hereof, among, *inter alia*, Atlantic Holdings, as borrower, the various financial institutions as are or may become parties thereto, and Bank of Montreal, as agent, as amended by that certain First Amendment to Credit Agreement dated as of April 29, 2005, as further amended by that certain Second Amendment to Credit Agreement dated as of November 13, 2005, as further amended by that certain Third Amendment to Credit Agreement, dated as of September 15, 2006, as further amended by that certain Fourth Amendment to Credit Agreement dated as of October 11, 2006 and as may be further modified, amended, revised, restated, supplemented, assigned or replaced from time to time and at any time;

- (mm) “**Existing Investors**” means Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC;
- (nn) “**Existing Investor Interests**” means the common membership interests and Class B membership interests in Atlantic Holdings held by the Existing Investors;
- (oo) “**Extraordinary Resolution**” has the meaning ascribed thereto in Section 14.12;
- (pp) “**Fair Market Value**” means, with respect to any asset or property, the price which could be negotiated in an arm’s-length, free market transaction, for cash, between a willing seller and a willing and able buyer, neither of whom is under undue pressure or compulsion to complete the transaction;
- (qq) “**Freely Tradeable**” means, in respect of any IPSs, Common Shares, Subordinated Notes or any other securities of the Company or any other Person, as the case may be, which securities (i) may be issued without the necessity of filing a prospectus or any other similar offering document (other than such prospectus or similar offering document that has already been filed) under Applicable Securities Legislation and such issue does not constitute a distribution (other than a distribution already qualified by prospectus or similar offering document) under Applicable Securities Legislation; and (ii) can be traded by the holder thereof without any restriction under Applicable Securities Legislation, such as hold periods, except in the case of a control distribution (as defined in the Applicable Securities Legislation);
- (rr) “**Fully Registered Debentures**” means Debentures registered as to both principal and interest;
- (ss) “**generally accepted accounting principles or GAAP**” means generally accepted accounting principles in Canada from time to time approved by the Canadian Institute of Chartered Accountant;
- (tt) “**Global Debenture**” means a Debenture that is issued to and registered in the name of the Depository, or its nominee, pursuant to Section 2.6 for purposes of being held by or on behalf of the Depository as custodian for participants in the Depository’s book-entry only registration system;
- (uu) “**Government Obligations**” means short-term Canadian government obligations;

- (vv) **“guarantee”** means a guarantee (other than by endorsement of negotiable instruments for collection in the ordinary course of business) direct or indirect, in any manner (including, letters of credit and reimbursement agreements in respect thereof), of all or any part of any indebtedness or other obligations;
- (ww) **“Guarantee”** means that certain guarantee dated as of October 11, 2006 by each of the Guarantors listed on Schedule 1 hereto and any other guarantee of the obligations of the Company under this Indenture by any Person in accordance with the provisions of this Indenture, in each case, as same may from time to time be modified, amended, revised, restated, supplemented, assigned, consolidated or replaced;
- (xx) **“Guarantor”** means any Person that incurs a Guarantee including the parties listed as Guarantors on Schedule 1; provided that upon the release or discharge of such Person from its Guarantee in accordance with this Indenture, such Person ceases to be a Guarantor;
- (yy) **“Incur”** means issue, assume, guarantee, incur or otherwise become liable for and **“Incurred”** or **“Incurrence”** will have a corresponding meaning; provided, however, that any Indebtedness or Capital Stock of a Person existing at the time such Person becomes a Significant Entity (whether by merger, consolidation, acquisition or otherwise) shall be deemed to be Incurred by such Person at the time it becomes a Significant Entity;
- (zz) **“Indebtedness”** means, with respect to any Person: (i) the principal of any indebtedness of such Person, whether or not contingent: (a) in respect of borrowed money, (b) evidenced by bonds, notes, debentures or similar instruments or letters of credit or bankers’ acceptances (or, without duplication, reimbursement agreements in respect thereof), (c) representing the deferred and unpaid purchase price of any property, except any such balance that constitutes a trade payable or similar obligation to a trade creditor due within six months from the date on which it is Incurred and Incurred in the ordinary course of business, which purchase price is due more than six months after the date of placing the property in service or taking delivery and title thereto, or (d) in respect of Capitalized Lease Obligations; (ii) to the extent not otherwise included, any obligation of such Person to be liable for, or to pay, as obligor, guarantor or otherwise, on the Indebtedness of another Person (other than by endorsement of negotiable instruments for collection in the ordinary course of business); and (iii) to the extent not otherwise included, Indebtedness of another Person secured by a Lien on any asset owned by such Person (whether or not such Indebtedness is assumed by such Person); provided, however, that the amount of such Indebtedness will be the lesser of (a) the Fair Market Value of such asset at such date of determination and (b) the amount of such Indebtedness of such other Person; provided, further, that any obligation of the Company or any Significant Entity in respect of account credits or participants under any employee, director or officer compensation plan of the Company or Significant Entity and any obligation of the Company or any Significant Entity in respect of the Liquidity Right, will be deemed not to constitute Indebtedness;
- (aaa) **“Initial Debentureholders”** means the Persons for the time being entered into the register of Debentures as registered holders of the Initial Debentures;

- (bbb) **“Initial Debentures”** means the Debentures designated as “6.25% Convertible Secured Debentures” and described in Section 2.4;
- (ccc) **“Interest Expense”** means, in respect of any Person, for any period, the total cash interest expense (including that attributable to Capitalized Lease Obligations) of such Person for such period with respect to all outstanding Indebtedness of such Person (including, without limitation, all commissions, discounts and other fees and charges owed by such Person with respect to letters of credit and bankers’ acceptance financing and net costs of such Person under hedge agreements in respect of interest rates to the extent such net costs are allocable to such period in accordance with GAAP);
- (ddd) **“Interest Obligation”** means the obligation of the Company to pay interest on the Debentures, as and when the same becomes due;
- (eee) **“Interest Payment Date”** means a date specified in a Debenture as the date on which an instalment of interest on such Debenture shall become due and payable;
- (fff) **“IPS”** means an “income participating security” consisting of one Common Share and C\$5.767 aggregate principal amount of Subordinated Notes, as such IPSs are constituted on the date of execution and delivery of this Indenture and for greater certainty, upon or following a separation of IPSs, references herein to IPSs shall mean and refer to the component Common Share and Subordinated Notes thereof; provided that in the event of a change or a subdivision, redivision, reduction, combination or consolidation thereof, any reclassification, capital reorganization, consolidation, amalgamation, arrangement, merger, sale or conveyance or liquidation, dissolution or winding-up, or such other similar transaction, or such successive changes, subdivisions, redivisions, reductions, combinations or consolidations, reclassifications, capital reorganizations, consolidations, amalgamations, arrangements, mergers, sales, conveyances, liquidations, dissolutions, windings-up or similar transactions, then “IPSs” shall mean securities or property resulting from such change, subdivision, redivision, reduction, combination or consolidation, reclassification, capital reorganization, consolidation, amalgamation, arrangement, merger, sale or conveyance or liquidation, dissolution or winding-up or such other similar transaction;
- (ggg) **“IPS Bid Request”** means a request for bids to purchase IPSs (to be issued by the Company on the IPS Delivery Date) made by the Debenture Trustee in accordance with the IPS Interest Payment Election Notice and which shall make the acceptance of any bid conditional upon the acceptance of sufficient bids to result in aggregate net proceeds from such issue and sale of IPSs which, together with the cash payments by the Company, if any, equal the Interest Obligation;
- (hhh) **“IPS Delivery Date”** means a date not less than one Business Day prior to the applicable Interest Payment Date, upon which IPSs are delivered by the Company to the Debenture Trustee for sale pursuant to IPS Purchase Agreements (together with the cash payments by the Company, if any, required to be made in order to pay in full the applicable Interest Obligation);

- (iii) **“IPS Interest Payment Election”** means an election by the Company to raise funds to satisfy all or part of an Interest Obligation on the applicable Interest Payment Date by the delivery of IPSs in the manner described in the IPS Interest Payment Election Notice;
- (jjj) **“IPS Interest Payment Election Amount”** means the sum of (i) the amount of the aggregate net proceeds resulting from the sale of IPSs on the IPS Delivery Date pursuant to acceptable bids obtained pursuant to the IPS Bid Request; and (ii) the cash payments by the Company, if any, including any cash amount paid by the Company in respect of fractional IPSs pursuant to Section 11.1(g), which sum shall be equal to the aggregate amount of the Interest Obligation in respect of which the IPS Interest Payment Election Notice was delivered;
- (kkk) **“IPS Interest Payment Election Notice”** means a written notice made by the Company to the Debenture Trustee specifying:
  - (i) the Interest Obligation to which the election relates;
  - (ii) the IPS Interest Payment Election Amount;
  - (iii) the investment banks, brokers or dealers (i) through which the Debenture Trustee shall seek bids to purchase the IPSs and the conditions of such bids, which may include the minimum number of IPSs, minimum price per IPS, timing for closing for bids and such other matters as the Company may specify, or (ii) with which the Company will establish an account or accounts for the purpose of selling IPSs; and
  - (iv) that the Debenture Trustee shall accept through the investment banks, brokers or dealers selected by the Company only those bids which comply with such notice;
- (lll) **“IPS Proceeds Investment”** has the meaning attributed thereto in Section 11.1(h);
- (mmm) **“IPS Purchase Agreement”** means an agreement in customary form among the Company, the Debenture Trustee and the Persons making acceptable bids pursuant to an IPS Bid Request, providing for the purchase of IPSs, which complies with all applicable laws, including the Applicable Securities Legislation and the rules and regulations of any stock exchange on which the Debentures or IPSs are then listed;
- (nnn) **“Lien”** means, with respect to any asset, any mortgage, lien, pledge, charge, security interest or encumbrance of any kind in respect of such asset, whether or not filed, recorded or otherwise perfected under applicable law (including any conditional sale or other title retention agreement, any lease in the nature thereof, any option or other agreement to sell or give a security interest in and any filing of or agreement to give any financing statement under the *Personal Property Security Act* (Ontario) (or equivalent statutes) of any jurisdiction); provided that in no event will an operating lease be deemed to constitute a Lien;

- (ooo) **“Liquidity Right”** means the right in the limited liability company agreement of Atlantic Holdings permitting the holders of the Existing Investor Interests to require Atlantic Holdings to purchase for cancellation the Existing Investor Interests;
- (ppp) **“Major Project Operating Entity”** means a Project Operating Entity if the cash distributions received indirectly by Atlantic Holdings from such Project Operating Entity during the 12 month period ended on the last day of the most recent fiscal quarter represent, in the aggregate, 20% or more of the consolidated cash flow of Atlantic Holdings determined in accordance with U.S. GAAP for such period;
- (qqq) **“Major Significant Entity”** means a Significant Entity of the Company if the cash flow of the Significant Entity for the 12 month period ended on the last day of the most recent fiscal quarter, on a consolidated basis, is equal to or greater than 20% of the consolidated cash flow of the Company determined in accordance with U.S. GAAP for such period and includes each Major Project Operating Entity;
- (rrr) **“Manager”** means Atlantic Power Management, LLC, the manager of the Company;
- (sss) **“Material Adverse Effect”** means (a) a material adverse change in, or a material adverse effect upon, the operations, business, properties, financial condition, or assets of (i) the Company or (ii) Atlantic Holdings and its consolidated Significant Entities taken as a whole; (b) a material impairment of the ability of Atlantic Holdings or the Guarantors to pay any obligation when due or otherwise to perform its material obligations under the Senior Credit Agreements or the Security Documents, in each case, to which it is a party; or (c) a material adverse effect upon the legality, validity, binding effect or enforceability of this Indenture, the Senior Credit Agreements or the Security Documents, in each case, against the Company, Atlantic Holdings or any Guarantor a party thereto;
- (ttt) **“Maturity Account”** means an account or accounts required to be established by the Company (and which shall be maintained by and subject to the control of the Debenture Trustee) for each series of Debentures pursuant to and in accordance with this Indenture;
- (uuu) **“Maturity Date”** for a Debenture means the date of maturity for such Debenture as prescribed in this Indenture or in any supplement hereto;
- (vvv) **“Offering”** means the public offering by short form prospectus dated October 2, 2006 of C\$60,000,000 aggregate principal amount of Initial Debentures;
- (www) **“Ordinary Resolution”** has the same meaning as “Extraordinary Resolution” except that references in the latter to “66⅔%” shall become references to “a majority” for the purposes of defining “Ordinary Resolution”;
- (xxx) **“Payment Blockage Period”** is defined in Section 6.5;
- (yyy) **“Periodic Offering”** means an offering of Debentures of a series from time to time, the specific terms of which Debentures, including, without limitation, the rate or rates of interest, if any, thereon, the stated maturity or maturities thereof and the

redemption and conversion provisions, if any, with respect thereto, are to be determined by the Company upon the issuance of such Debentures from time to time;

- (zzz) **"Person"** includes an individual, corporation, company, limited liability company, partnership, joint venture, association, trust, trustee, unincorporated organization or government or any agency or political subdivision thereof;
- (aaaa) **"Pledge Agreements"** means those amended and restated pledge agreements dated the date of this Indenture between the Pledgors and the Collateral Agent, as set out in Schedule 2, as same may from time to time be modified, amended, revised, restated, supplemented, assigned, consolidated or replaced and **"Pledge Agreement"** means any one of such agreements;
- (bbbb) **"Pledgor"** means any Person that enters into a Pledge Agreement including the parties listed as Pledgors on Schedule 2;
- (cccc) **"Proceedings"** means any action, suit, remedy or proceeding (whether judicial or extra-judicial) against the Company or any of its Significant Entities, or any of their respective property, assets or undertaking, to collect or enforce payment of the principal of, premium, if any, and interest on any or all of the Debentures or any other amounts owing under the Debentures or this Indenture or to enforce performance of any other covenants or obligations of the Company under this Indenture or any of the Debentures (including, without limitation, any action or proceedings for payment under the Debentures, the appointment of a liquidator or receiver of the Company or any of its Significant Entities or any of its property, assets or undertaking or the winding up of the Company or any of its Significant Entities or any proceeding to petition the Company or any of its Significant Entities into bankruptcy);
- (dddd) **"Project Operating Entity"** means a limited partnership, corporation or other entity that directly owns the Projects;
- (eeee) **"Projects"** means the projects described in the Prospectus as well as any other power generation or transmission projects, energy-related projects, utility or infrastructure projects or other projects in which the Company has a direct or indirect investment;
- (ffff) **"Prospectus"** means the final prospectus of the Company dated October 2, 2006 and filed with the securities regulatory authorities in each province and territory of Canada;
- (gggg) **"Put Date"** has the meaning ascribed thereto in Section 2.4(h)(i);
- (hhhh) **"Put Price"** has the meaning ascribed thereto in Section 2.4(h)(i);
- (iiii) **"Put Right"** has the meaning ascribed thereto in Section 2.4(h)(i);
- (jjjj) **"Redemption Date"** has the meaning ascribed thereto in Section 5.3;
- (kkkk) **"Redemption Notice"** has the meaning ascribed thereto in Section 5.3;

- (llll) **“Redemption Price”** means, in respect of a Debenture, the amount, excluding interest, payable on the Redemption Date fixed for such Debenture;
- (mmmm) **“Representative”** means the trustee, agent or representative (if any) for an issue of Senior Secured Indebtedness;
- (nnnn) **“Security Documents”** means the Pledge Agreements and the Guarantees;
- (oooo) **“Securityholder”** means the Person in whose name a security is registered on the registrar’s books;
- (pppp) **“Senior Credit Agreements”** means the Existing Credit Facility and the Term Loan Facility;
- (qqqq) **“Senior Creditor”** means a holder or holders of Senior Secured Indebtedness and includes any agent or agents or representative or representatives or trustee or trustees of any such holder or holders;
- (rrrr) **“Senior Secured Indebtedness”** shall mean the principal of and the interest and premium (or any other amounts payable thereunder), if any, on:
- (i) all secured Indebtedness, liabilities and obligations of the Company, Atlantic Holdings and any other Guarantor, whether outstanding on the date of this Indenture or thereafter created, incurred, assumed or guaranteed whether or not in connection with an acquisition by the Company, Atlantic Holdings or any other Guarantor of any businesses, properties or other assets or for monies borrowed or raised by whatever means (including, without limitation, by means of commercial paper, bankers’ acceptances, letters of credit, debt instruments, bank debt and financial leases, and any other secured liability evidenced by bonds, debentures, notes or similar instruments) or whether or not in connection with an acquisition of any businesses, properties or other assets or for monies borrowed or raised by whatever means (including, without limitation, by means of commercial paper, bankers’ acceptances, letters of credit, debt instruments, bank debt and financial leases, and any other secured liability evidenced by bonds, debentures, notes or similar instruments) by others including, without limitation, any Significant Entity of the Company or any Guarantor, for payment of which the Company, Atlantic Holdings or such other Guarantor is responsible or liable, whether absolutely or contingently;
  - (ii) all secured obligations of the Company, Atlantic Holdings, any other Guarantor or any Significant Entity under (A) currency exchange, interest rate or commodity swap agreements, currency exchange, interest rate or commodity cap agreements and currency exchange, interest rate or commodity collar agreements, and (B) other agreements or arrangements designed to manage or hedge fluctuations in currency exchange, interest rates or commodity prices;
  - (iii) all Indebtedness, liabilities and obligations under the guarantee(s) now or at any time hereafter granted by the Company, Atlantic Holdings, any other Guarantor or any of their Significant Entities in respect of the obligations,

liabilities and indebtedness under either or both of the Senior Credit Agreements; and

- (iv) amendments, restatements, modifications, renewals, extensions, restructurings, refinancings and refundings of any such indebtedness, liabilities or obligations,

unless in each case it is provided by the terms of the instrument creating or evidencing such secured indebtedness, liabilities or obligations that such secured indebtedness, liabilities or obligations are not superior in right of payment to Debentures; and “**Senior Secured Indebtedness**” shall, in all events, exclude the Subordinated Notes but include all of the obligations of the borrower, issuer and/or guarantor under either or both of the Senior Credit Agreements;

- (ssss) “**Senior Security**” means all mortgages, liens, pledges, charges (whether fixed or floating), security interests or other encumbrances of any kind, contingent or absolute, granted by the Company and its Significant Entities, including without limitation Atlantic Power Holdings and the Guarantors and held by or on behalf of any Senior Creditor and in any manner securing any Senior Secured Indebtedness;
- (tttt) “**Significant Entity**” means, with respect to any Person, (i) any corporation, association or other business entity (other than a partnership, joint venture or limited liability company) of which 40% or more of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time of determination owned or controlled, directly or indirectly, by such Person or one or more of the other Significant Entities of that Person or a combination thereof and (ii) any partnership, joint venture or limited liability company of which 40% or more of the capital accounts, distribution rights, total equity and voting interests or general and limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such Person or one or more of the other Significant Entities of that Person or a combination thereof, whether in the form of membership, general, special or limited partnership interests or otherwise and, in the case of a general or limited partnership, such Person owns or controls, directly or indirectly, 40% or more of the total equity and voting rights of the general partner of such entity;
- (uuuu) “**Subordinated Indebtedness**” means, with respect to the Company, any Guarantor or any Significant Entity, (i) all indebtedness which is not Senior Indebtedness or *pari passu* indebtedness, (ii) the Subordinated Notes, (iii) all unsecured indebtedness or obligations of the Company, any Guarantor or any Significant Entity, and (iv) any indebtedness of the Company, any Guarantor or any Significant Entity that is subordinated pursuant to the terms of the instrument creating or evidencing such indebtedness;
- (vvvv) “**Subordinated Notes**” means the 11.0% secured, subordinated notes issued and to be issued from time to time by the Company pursuant to the Subordinated Note Indenture;

- (www) “**Subordinated Note Indenture**” means the indenture dated November 18, 2004 between the Company, Atlantic Holdings, Computershare Trust Company of Canada and certain other parties;
- (xxxx) “**Tax Act**” means the *Income Tax Act* (Canada) and the regulations thereunder, as amended from time to time;
- (yyyy) “**Term Loan Facility**” means the term loan credit facility established pursuant to a credit agreement dated September 15, 2006 by and among Atlantic Holdings, the various financial institutions as are or may become parties thereto and Bank of Montreal, as administrative agent, as amended by that certain First Amendment to Term Loan Credit Agreement dated as of October 11, 2006 and as may be further modified, amended, revised, restated, supplemented, assigned or replaced from time to time and at any time;
- (zzzz) “**Teton Funding**” means Teton Power Funding, LLC;
- (aaaa) “**this Indenture**”, “**this Trust Indenture**”, “**hereto**”, “**herein**”, “**hereby**”, “**hereunder**”, “**hereof**” and similar expressions refer to this Indenture and not to any particular Article, Section, subsection, clause, subdivision or other portion hereof and include any and every instrument supplemental or ancillary hereto;
- (bbbb) “**Time of Expiry**” means the time of expiry of certain rights with respect to the conversion of Debentures under Article 7 which is to be set forth for each series of Debentures which by their terms are to be convertible;
- (cccc) “**Total Put Price**” has the meaning ascribed thereto in Section 2.4(h)(i);
- (dddd) “**trading day**” means, with respect to the TSX or other market for securities, any day on which such exchange or market is open for trading or quotation;
- (eeee) “**TSX**” means the Toronto Stock Exchange or its successor or successors;
- (ffff) “**Underwriters**” means, with respect to the Initial Debentures, BMO Nesbitt Burns Inc., National Bank Financial Inc., RBC Dominion Securities Inc., Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation, and with respect to any Additional Debentures of the Company, those Persons or that Person that agrees to purchase, as a security issue, on a fixed date at a fixed price, Additional Debentures of the Company with a view to public distribution of such Additional Debentures;
- (gggg) “**Underwriting Agreement**” means the underwriting agreement dated September 22, 2006 by and among the Company, Atlantic Holdings and the Underwriters with respect to, among other securities, the Initial Debentures;
- (hhhh) “**U.S.**” means the United States of America, its territories and possessions and States of the U.S.;
- (iiii) “**U.S. Dollars**” or “**US\$**” means the lawful money in the U.S.;

- (jjjj) **“U.S. Plan Assets”** means any underlying assets described in clause (iii) of the definition of **“U.S. Retirement Plan”** and any assets of any **“employee benefit plan”** or **“plan”** described in clause (i) or (ii) of such definition;
- (kkkkk) **“U.S. Retirement Plan”** means (i) any **“employee benefit plan”**, as defined in Section 3 of ERISA that is subject to Title I of ERISA, (ii) any **“plan”**, as defined in and subject to Section 4975 of the U.S. Tax Code, and (iii) any other entity which may be deemed (pursuant to ERISA, regulations of the United States Department of Labor or otherwise) to hold at any time assets of any such **“employee benefit plan”** or **“plan”** for any purpose of ERISA or Section 4975 of the U.S. Tax Code;
- (lllll) **“U.S. Retirement Plan Debentures”** has the meaning ascribed thereto in Section 3.1;
- (mmmmm) **“U.S. Retirement Plan Holder”** has the meaning ascribed thereto in Section 3.1;
- (nnnnn) **“U.S. Retirement Plan Prohibition”** has the meaning ascribed thereto in Section 3.1;
- (ooooo) **“U.S. Tax Code”** means the *United States Internal Revenue Code of 1986*, as amended, or any successor statute;
- (ppppp) **“Voting Stock”** of any Person as of any date means the Capital Stock of such Person that is at the time entitled to vote in the election of the board of directors, managers or trustees, as the case may be, of such Person;
- (qqqqq) **“Written Direction of the Manager”** means an instrument in writing signed by any one of the Chief Executive Officer or Chief Financial Officer of the Manager.

## 1.2 **Meaning of “Outstanding”**

Every Debenture certified and delivered by the Debenture Trustee hereunder shall be deemed to be outstanding until it is cancelled, converted, redeemed or delivered to the Debenture Trustee for cancellation, conversion or redemption or monies and/or IPSs or other securities or property, as the case may be, for the payment thereof shall have been set aside under Section 10.2, provided that:

- (a) Debentures which have been partially redeemed, purchased or converted shall be deemed to be outstanding only to the extent of the unredeemed, unpurchased or unconverted part of the principal amount thereof;
- (b) when a new Debenture has been issued in substitution for a Debenture which has been lost, stolen or destroyed, only one of such Debentures shall be counted for the purpose of determining the aggregate principal amount of Debentures outstanding; and
- (c) for the purposes of any provision of this Indenture entitling holders of outstanding Debentures to vote, sign consents, requisitions or other instruments or take any other action under this Indenture, or to constitute a quorum of any meeting of

Debentureholders, Debentures owned directly or indirectly, legally or equitably, by the Company or a Significant Entity of the Company shall be disregarded except that:

- (i) for the purpose of determining whether the Debenture Trustee shall be protected in relying on any such vote, consent, acquisition or other instrument or action, or on the holders of Debentures present or represented at any meeting of Debentureholders, only the Debentures which the Debenture Trustee knows are so owned shall be so disregarded;
- (ii) Debentures so owned which have been pledged in good faith other than to the Company or a Significant Entity of the Company shall not be so disregarded if the pledgee shall establish to the satisfaction of the Debenture Trustee the pledgee's right to vote such Debentures, sign consents, requisitions or other instruments or take such other actions in his or her discretion free from the control of the Company or a Significant Entity of the Company; and
- (iii) Debentures so owned shall not be disregarded if they are the only Debentures outstanding.

### **1.3 Interpretation**

In this Indenture:

- (a) words importing the singular number or masculine gender shall include the plural number or the feminine or neuter genders, respectively, and vice versa;
- (b) all references to Articles and Schedules refer, unless otherwise specified, to articles of and schedules to this Indenture;
- (c) all references to Sections, subsections or clauses refer, unless otherwise specified, to sections, subsections or clauses of this Indenture; and
- (d) words and terms denoting inclusiveness (such as "include" or "includes" or "including"), whether or not so stated, are not limited by and do not imply limitation of their context or the words or phrases which precede or succeed them.

### **1.4 Headings, etc.**

The division of this Indenture into Articles and Sections, the provision of a Table of Contents and the insertion of headings are for convenience of reference only and shall not affect the construction or interpretation of this Indenture or of the Debentures.

### **1.5 Day not a Business Day**

In the event that any day on which any action required to be taken hereunder is not a Business Day, then such action shall be required to be taken on or before the requisite time on the next succeeding day that is a Business Day.

**1.6 Applicable Law**

This Indenture and the Debentures shall be construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein and shall be treated in all respects as Ontario contracts. The Company hereby irrevocably attorns to the jurisdiction of the courts of the Province of Ontario.

**1.7 Monetary References**

Whenever any amounts of money are referred to herein, such amounts shall be deemed to be in lawful money of Canada unless otherwise expressed.

**1.8 Invalidity, etc.**

Any provision hereof which is prohibited or unenforceable shall be ineffective only to the extent of such prohibition or unenforceability, without invalidating the remaining provisions hereof.

**1.9 Language**

Each of the parties hereto hereby acknowledges that it has consented to and requested that this Indenture and all documents relating thereto, including, without limiting the generality of the foregoing, the form of Debenture attached hereto as Schedule A, be drawn up in the English language only.

Les parties aux présentes reconnaissent avoir accepté et demandé que le présent acte de fiducie et tous les documents s'y rapportant, y compris, sans restreindre la portée générale de ce qui précède, le formulaire de débenture joint aux présentes à titre d'annexe A, soient rédigés en langue anglaise seulement.

**1.10 Successors and Assigns**

All covenants and agreements in this Indenture by the Company shall bind its respective successors and assigns, whether expressed or not.

**1.11 Time of Essence**

Time shall be of the essence of this Indenture.

**1.12 All Payments Net of Taxes**

For greater certainty, any and all payments to be made pursuant to this Indenture of or on account of principal, premium, if any, and interest or any deemed interest on the Debentures (including upon redemption, purchase or conversion of the Debentures) or of any other amount, whether paid or payable in money, IPSs or other securities or property, shall be made subject to the deduction of any and all applicable taxes or withholdings.

**1.13 Schedules**

The following Schedules form part of this Indenture:

Schedule "A"	-	Form of Debenture
Schedule "B"	-	Form of Redemption Notice
Schedule "C"	-	Form of Maturity Notice
Schedule "D"	-	Form of Notice of Conversion
Schedule "E"	-	Form of Put Exercise Notice
Schedule 1	-	Guarantors
Schedule 2	-	Pledgors, Pledge Agreements and Security Agreement

## **ARTICLE 2 THE DEBENTURES**

### **2.1 Limit of Debentures**

The aggregate principal amount of Debentures authorized to be issued under this Indenture is unlimited; provided, however that Debentures may be issued only upon and subject to the conditions and limitations herein set forth.

### **2.2 Terms of Debentures of any Series**

The Debentures may be issued in one or more series. There shall be established herein or in or pursuant to one or more indentures supplemental hereto or pursuant to the Written Direction of the Manager, prior to the initial issuance of Debentures of any particular series (other than the Initial Debentures, which are provided for in Section 2.4):

- (a) the designation of the Debentures of the series (which need not include the term "**Debentures**"), which shall distinguish the Debentures of the series from the Debentures of all other series;
- (b) any limit upon the aggregate principal amount of the Debentures of the series that may be certified and delivered under this Indenture (except for Debentures certified and delivered upon registration of, transfer of, amendment of, or in exchange for, or in lieu of, other Debentures of the series pursuant to Sections 2.9, 2.10, 4.2, 4.3 and 4.6);
- (c) the date or dates on which the principal of the Debentures of the series is payable;
- (d) the rate or rates at which the Debentures of the series shall bear interest, if any, the date or dates from which such interest shall accrue, on which such interest shall be payable and on which a record, if any, shall be taken for the determination of holders to whom such interest shall be payable and/or the method or methods by which such rate or rates or date or dates shall be determined;
- (e) the place or places where the principal of and any interest on Debentures of the series shall be payable or where any Debentures of the series may be surrendered for registration of transfer or exchange;
- (f) the right, if any, of the Company to redeem Debentures of the series, in whole or in part, at its option and the period or periods within which, the price or prices at which

and any terms and conditions upon which, Debentures of the series may be so redeemed, pursuant to any sinking fund or otherwise;

- (g) the obligation, if any, of the Company to redeem, purchase or repay Debentures of the series pursuant to any mandatory redemption, sinking fund or analogous provisions or at the option of a holder thereof and the price or prices at which, the period or periods within which, the date or dates on which, and any terms and conditions upon which, Debentures of the series shall be redeemed, purchased or repaid, in whole or in part, pursuant to such obligations;
- (h) if other than denominations of \$1,000 and any integral multiple thereof, the denominations in which Debentures of the series shall be issuable;
- (i) subject to the provisions of this Indenture, any trustees, Depositories, authenticating or paying agents, transfer agents or registrars or any other agents with respect to the Debentures of the series;
- (j) any other events of default or covenants with respect to the Debentures of the series;
- (k) whether and under what circumstances the Debentures of the series will be convertible into or exchangeable, in whole or in part, for securities of any Person;
- (l) the form and terms of the Debentures of the series;
- (m) if applicable, that the Debentures of the series shall be issuable in whole or in part as one or more Global Debentures and, in such case, the Depository or Depositories for such Global Debentures in whose name, or whose nominee's name, the Global Debentures will be registered, and any circumstances other than or in addition to those set forth in Section 2.9 or 4.2 or those applicable with respect to any specific series of Debentures, as the case may be, in which any such Global Debenture may be exchanged for Fully Registered Debentures, or transferred to and registered in the name of a person other than the Depository for such Global Debentures or a nominee thereof;
- (n) if other than Canadian currency, the currency in which the Debentures of the series are issuable; and
- (o) any other terms of the Debentures of the series (which terms shall not be inconsistent with the provisions of this Indenture).

All Debentures of any one series shall be substantially identical, except as may otherwise be established herein or by or pursuant to a resolution of the Directors, Certificate of the Manager or in an indenture supplemental hereto. Debentures of any one series need not be issued at the same time and may be issued from time to time, including pursuant to a Periodic Offering, consistent with the terms of this Indenture, if so provided herein, by or pursuant to such resolution of the Directors, Certificate of the Manager or in an indenture supplemental hereto.

### 2.3 Form of Debentures

Except in respect of the Initial Debentures, the form of which is provided for herein, the Debentures of each series shall be substantially in such form or forms (not inconsistent with this Indenture) as shall be established herein or by or pursuant to one or more resolutions of the Directors (as set forth in a resolution of the Directors or to the extent established pursuant to, rather than set forth in, a resolution of the Directors, in a Certificate of the Manager detailing such establishment) or in one or more indentures supplemental hereto, in each case, with such appropriate insertions, omissions, substitutions and other variations as are required or permitted by this Indenture, and may have imprinted or otherwise reproduced thereon such legend or legends or endorsements, not inconsistent with the provisions of this Indenture, as may be required to comply with any law, or with any rules or regulations pursuant thereto or with any rules or regulations of any securities exchange or securities regulatory authority or to conform to general usage, all as may be determined by the Directors or authorized officer(s) of the Manager executing such Debentures, as conclusively evidenced by his or her execution of such Debentures. The Debenture Trustee shall not be required to ensure compliance with any law or with any rules or regulations pursuant thereto or with any rules or regulations of any securities exchange or securities regulatory authority or to conform to general usage in connection with the issue, transfer or conversion of the Debentures. The responsibility for compliance with the foregoing shall be that of the Company or the holder, as applicable.

### 2.4 Form and Terms of Initial Debentures

- (a) The first series of Debentures (the “**Initial Debentures**”) authorized for issue immediately is limited to an aggregate principal amount of \$60,000,000 and shall be designated as “**6.25% Convertible Secured Debentures**”.
- (b) The Initial Debentures shall be dated as of the date of closing of the Offering, shall mature on October 31, 2011 and shall bear interest from the date of issue at the rate of 6.25% per annum, payable semi-annually in arrears on April 30 and October 31 in each year, the first such payment to fall due on April 30, 2007 and the last such payment (representing interest payable from and including the last Interest Payment Date to, but excluding, the Maturity Date or the earlier date of redemption or conversion of the Initial Debentures) to fall due on the Maturity Date or the earlier date of redemption or conversion, payable after as well as before maturity and after as well as before default, with interest on amounts in default at the same rate, compounded semi-annually. For certainty, the first interest payment will include interest accrued and unpaid from and including October 11, 2006 to, but excluding, April 30, 2007, which will be equal to \$34.42 for each \$1,000 principal amount of the Initial Debentures.
- (c) The Initial Debentures will be redeemable at the option of the Company in accordance with the terms of Article 5, provided that the Initial Debentures will not be redeemable on or prior to October 31, 2009. After October 31, 2009 and prior to the Maturity Date, the Initial Debentures may be redeemed in whole or in part from time to time at the option of the Company on notice as provided for in Section 5.3, provided that the Current Market Price is at least 125% of the Conversion Price and the Company shall have provided to the Debenture Trustee a Certificate of the Manager confirming such Current Market Price. In such circumstances, the Initial Debentures will be redeemable at a price equal to their principal amount plus accrued

and unpaid interest. The Redemption Notice for the Initial Debentures shall be substantially in the form of Schedule B.

- (d) The Initial Debentures will be subordinated to the Senior Secured Indebtedness (including indebtedness outstanding under either or both of the Senior Credit Agreements) in accordance with the provisions of Article 6. The Company covenants and agrees that the Initial Debentures will be senior to any Subordinated Indebtedness, including the Subordinated Notes, such that no payment of principal on any such debt shall be made nor shall any trustee or holders thereof be entitled to demand, accelerate, institute Proceedings, or receive any payment or benefit (including without limitation by set-off, combination of accounts or otherwise in any manner whatsoever) on account of payment of principal until such time as: (i) the obligations under the Initial Debentures shall have been indefeasibly paid in full in cash; or (ii) all of the Initial Debentures have been converted in accordance with Article 7.
- (e) Upon and subject to the provisions and conditions of Article 7, the holder of each Initial Debenture shall have the right, at such holder's option, at any time prior to the earlier of the close of business on the Maturity Date and the last Business Day immediately preceding the Redemption Date specified by the Company for redemption of the Initial Debentures by notice to the holders of Initial Debentures in accordance with Sections 2.4(c) and 5.3 (the earlier of which will be the "**Time of Expiry**" for the purposes of Article 7 in respect of the Initial Debentures), to convert the whole or, in the case of a Debenture of a denomination in excess of \$1,000, any part which is \$1,000 or an integral multiple thereof, of the principal amount of such Debenture into Freely Tradeable IPSs at the Conversion Price in effect on the Date of Conversion (as defined in Section 7.4(b)).

The Conversion Price in effect on the date hereof for each IPS to be issued upon the conversion of Initial Debentures shall be equal to \$12.40 per IPS being a conversion ratio of approximately 80.6452 IPSs for each \$1,000 principal amount of Initial Debentures so converted. No adjustment to the Conversion Price will be made for dividends or distributions on Common Shares and interest on Subordinated Notes issuable upon conversion or for interest accrued or accruing on Initial Debentures surrendered for conversion. Holders converting their Initial Debentures will receive interest which has accrued but not been paid from the date of the most recent Interest Payment Date on which interest was paid in full in accordance with this Indenture to, but not including, the Date of Conversion. The Conversion Price applicable to, and the IPSs, securities or other property receivable on the conversion of, the Initial Debentures is subject to adjustment pursuant to the provisions of Section 7.5.

- (f) The Initial Debentures shall be issued in denominations of \$1,000 and integral multiples of \$1,000 and the Debenture Trustee is hereby appointed as registrar and transfer agent for the Initial Debentures. Each Initial Debenture and the certificate of the Debenture Trustee endorsed thereon shall be issued in substantially the form set out in Schedule A, with such insertions, omissions, substitutions or other variations as shall be required or permitted by this Indenture, and may have imprinted or otherwise reproduced thereon such legend or legends or endorsements, not inconsistent with the provisions of this Indenture, as may be required to comply with any law or with any

rules or regulations pursuant thereto or with any rules or regulations of any securities exchange or securities regulatory authority or to conform with general usage, all as may be determined by the Directors or an officer of the Manager executing such Initial Debenture in accordance with Section 2.7 hereof, as conclusively evidenced by his or her execution of an Initial Debenture. Each Initial Debenture shall additionally bear such distinguishing letters and numbers as the Debenture Trustee shall approve. Notwithstanding the foregoing, an Initial Debenture may be in such other form or forms as may, from time to time, be approved by a resolution of the Directors or as specified in a Certificate of the Manager. The Initial Debentures may be engraved, lithographed, printed, mimeographed or typewritten or partly in one form and partly in another.

The Initial Debentures shall be issued as one or more Global Debentures and the Global Debentures will be registered in the name of the Depository (or any nominee of the Depository). No Beneficial Holder will receive definitive certificates representing its interest in Debentures except as provided in Section 4.2. A Global Debenture may be exchanged for Debentures in registered form that are not Global Debentures, or transferred to and registered in the name of a Person other than the Depository for such Global Debentures or a nominee thereof as provided in Section 4.2.

- (g) Upon and subject to the provisions and conditions of Article 11, the Company may elect, from time to time, to raise funds to satisfy all or part of an Interest Obligation on the Initial Debentures on any Interest Payment Date by delivering IPSs to the Debenture Trustee for sale through the facilities of a registered broker/dealer.
- (h) Subject to Applicable Securities Legislation and any required regulatory approval, upon the occurrence of a Change of Control and subject to the provisions and conditions of this Section 2.4(h) and Article 6, Debentureholders have a right to require the Company to purchase their Initial Debentures. The terms and conditions of such right are set forth below.
  - (i) Upon the occurrence of a Change of Control, each holder of Initial Debentures shall have the right (the "**Put Right**") to require the Company to purchase, on the date (the "**Put Date**") which is 30 days following the date upon which the Debenture Trustee delivers a Change of Control Notice (as defined below) to the holders of Initial Debentures, all or any part of such holder's Initial Debentures at a price equal to 101% of the principal amount thereof (the "**Put Price**") plus accrued and unpaid interest, if any, on such Initial Debenture up to, but excluding, the Put Date (collectively, the "**Total Put Price**").
  - (ii) The Company will, as soon as practicable, and in any event no later than two Business Days after the occurrence of a Change of Control, give written notice to the Debenture Trustee of the Change of Control. The Debenture Trustee will, as soon as practicable thereafter, and in any event no later than four Business Days after receiving notice from the Company of the Change of Control, provide written notice to the holders of Initial Debentures of the Change of Control (a "**Change of Control Notice**"). The Change of Control

Notice shall include a description of the Change of Control, details of the Debentureholders' Put Right under the terms of the Indenture, a statement that each holder will be entitled to withdraw his election to require the Company to purchase if the Debenture Trustee receives, no later than the close of business on the third Business Day immediately preceding the Put Date, a facsimile transmission or letter setting forth the name of such holder, the principal amount of the Initial Debentures tendered for purchase and a statement that such holder is withdrawing his election to have the Initial Debentures purchased and a description of the rights of the Company to redeem untendered Initial Debentures in accordance with Section 2.4(h)(iv) hereof.

- (iii) To exercise the Put Right the Debentureholder must deliver to the Debenture Trustee, not less than five Business Days prior to the Put Date, written notice of the holder's exercise of such right in the form attached as Schedule E.
- (iv) If 90% or more in aggregate principal amount of Initial Debentures outstanding on the date the Company provides notice of a Change of Control to the Debenture Trustee have been tendered for purchase pursuant to the Put Right on the Put Date, the Company shall have the right upon written notice provided to the Debenture Trustee prior to the Put Date, to redeem all the remaining outstanding Initial Debentures on the Put Date at the Total Put Price (the "**90% Redemption Right**").
- (v) Upon receipt of notice that the Company shall exercise the 90% Redemption Right and acquire the remaining Initial Debentures, the Debenture Trustee shall as soon as reasonably practicable provide written notice to all Debentureholders that did not previously exercise the Put Right that:
  - (A) the Company has exercised the 90% Redemption Right and will purchase all outstanding Initial Debentures on the Put Date at the Total Put Price, including a calculation of such holder's Total Put Price;
  - (B) they must transfer their Initial Debentures to the Debenture Trustee on the same terms as those holders that exercised the Put Right and the Depository shall make notations on the Global Debenture of the principal amount thereof so transferred; and
  - (C) the rights of such holder under the terms of the Initial Debentures shall cease as of the Put Date provided the Company has paid the Total Put Price to, or to the order of, the Debenture Trustee and thereafter the Initial Debentures shall not be considered to be outstanding and the holder shall not have any right except to receive the Total Put Price upon surrender and delivery of such holder's Initial Debentures in accordance with the Indenture.
- (vi) The Company shall, on or before 11:00 a.m. (Toronto time) on the Business Day immediately prior to the Put Date, deposit with the Debenture Trustee or any paying agent to the order of the Debenture Trustee, by electronic transfer of funds, such sums of money as may be sufficient to pay the Total Put Price of the Initial Debentures to be purchased or redeemed by the Company on the

Put Date, provided the Company may elect to satisfy this requirement by providing the Debenture Trustee with a certified cheque for such amounts required under this Section 2.4(h)(vi). The Company shall also deposit with the Debenture Trustee a sum of money sufficient to pay any charges or expenses that may be incurred by the Debenture Trustee in connection with such purchase and/or redemption, as the case may be. Every such deposit shall be irrevocable. From the sums so deposited, the Debenture Trustee shall pay or cause to be paid to the holders of such Initial Debentures, the Total Put Price to which they are entitled on the Company's purchase or redemption.

- (vii) In the event that one or more of such Initial Debentures being purchased in accordance with this Section 2.4(h) becomes subject to purchase in part only, upon surrender of such Initial Debentures for payment of the Total Put Price, the Depository shall make notations on the Global Debenture of the principal amount thereof so purchased.
- (viii) Initial Debentures for which holders have exercised the Put Right and Initial Debentures which the Company has elected to redeem in accordance with the 90% Redemption Right shall become due and payable at the Total Put Price on the Put Date, in the same manner and with the same effect as if it were the date of maturity specified in such Initial Debentures, anything therein or herein to the contrary notwithstanding, and from and after such Put Date, if the money necessary to purchase or redeem the Initial Debentures shall have been deposited as provided in this Section 2.4(h) and affidavits or other proofs satisfactory to the Debenture Trustee as to the publication and/or mailing of such notices shall have been lodged with it, interest on the Initial Debentures shall cease. If any question shall arise to whether any notice has been given as above provided and such deposit made, such question shall be decided by the Debenture Trustee whose decision shall be final and binding upon all parties in interest.
- (ix) In case the holder of any Initial Debenture to be purchased or redeemed in accordance with this Section 2.4(h) shall fail on or before the Put Date to surrender such holder's Initial Debenture or shall not within such time accept payment of the money payable; or give such receipt therefor, if any, as the Debenture Trustee may require, such monies may be set aside in trust, either in the deposit department of the Debenture Trustee or in a chartered bank, and such setting aside shall for all purposes be deemed a payment to the Debentureholder of the sum so set aside and, to that extent, the Initial Debenture shall thereafter not be considered as outstanding hereunder and the Debentureholder shall have no other right except to receive payment of the monies so paid and deposited, upon surrender and delivery up of such holder's Initial Debenture, of the Total Put Price. In the event that any money required to be deposited hereunder with the Debenture Trustee or any depository or paying agent on account of the Total Put Price shall remain so deposited for a period of ten years from the Put Date, then such monies shall at the end of such period be paid over or delivered over by the Debenture Trustee or such depository or paying agent to the Company and the Debenture Trustee shall not be responsible to Debentureholders for any amounts owing to them.

- (x) Subject to the provisions above related to Initial Debentures purchased in part, all Initial Debentures redeemed and paid under this Section 2.4(h) shall forthwith be delivered to the Debenture Trustee and cancelled and no Initial Debentures shall be issued in substitution therefor.
- (i) The Debenture Trustee shall be provided with the documents and instruments referred to in Sections 2.5(b), (c) and (d) with respect to the Initial Debentures prior to the issuance of the Initial Debentures.

## **2.5 Certification and Delivery of Additional Debentures**

The Company may from time to time request the Debenture Trustee to certify and deliver Additional Debentures of any series by delivering to the Debenture Trustee the documents referred to below in this Section 2.5 whereupon the Debenture Trustee shall certify such Additional Debentures and cause the same to be delivered in accordance with the Written Direction of the Manager referred to below or pursuant to such procedures acceptable to the Debenture Trustee as may be specified from time to time by a Written Direction of the Manager. The maturity date, issue date, interest rate (if any) and any other terms of the Additional Debentures of such series shall be set forth in a supplemental indenture or determined by or pursuant to such Written Direction of the Manager. In certifying such Additional Debentures, the Debenture Trustee shall be entitled to receive and shall be fully protected in relying upon, unless and until such documents have been superseded or revoked:

- (a) a Certificate of the Manager and/or executed supplemental indenture by or pursuant to which the form and terms of such Additional Debentures are established;
- (b) a Written Direction of the Manager, addressed to the Debenture Trustee, requesting certification and delivery of such Additional Debentures and setting forth delivery instructions, provided that, with respect to Additional Debentures of a series subject to a Periodic Offering:
  - (i) such Written Direction of the Manager may be delivered by the Company to the Debenture Trustee prior to the delivery to the Debenture Trustee of such Additional Debentures of such series for certification and delivery;
  - (ii) the Debenture Trustee shall certify and deliver Additional Debentures of such series for original issue from time to time, in an aggregate principal amount not exceeding the aggregate principal amount, if any, established for such series, pursuant to a Written Direction of the Manager or pursuant to procedures acceptable to the Debenture Trustee as may be specified from time to time by a Written Direction of the Manager; and
  - (iii) the maturity date or dates, issue date or dates, interest rate or rates (if any) and any other terms of Additional Debentures of such series shall be determined by an executed supplemental indenture or by Written Direction of the Manager or pursuant to such procedures;
- (c) an opinion of Counsel that all requirements imposed by this Indenture or by law in connection with the proposed issue of Additional Debentures have been complied

with, subject to the delivery of certain documents or instruments specified in such opinion; and

- (d) a Certificate of the Manager, addressed to Debenture Trustee, certifying that the Company is not in default under this Indenture, that the terms and conditions for the certification and delivery of Additional Debentures (including those set forth in Section 16.5), have been complied with subject to the delivery of any documents or instruments specified in such Certificate of the Manager and that no Event of Default exists or will exist upon such certification and delivery.

## **2.6 Issue of Global Debentures**

- (a) The Company may specify that the Debentures of a series are to be issued in whole or in part as one or more Global Debentures registered in the name of a Depository, or its nominee, designated by the Company in the Written Direction of the Manager delivered to the Debenture Trustee at the time of issue of such Debentures, and in such event the Company shall execute and the Debenture Trustee shall certify and deliver one or more Global Debentures that shall:

- (i) represent an aggregate amount equal to the principal amount of the outstanding Debentures of such series to be represented by one or more Global Debentures;
- (ii) be delivered to such Depository or pursuant to such Depository's instructions; and
- (iii) bear a legend substantially to the following effect:

“This Debenture is a Global Debenture within the meaning of the Indenture hereinafter referred to and is registered in the name of a Depository or a nominee thereof. This Debenture may not be transferred to or exchanged for Debentures registered in the name of any person other than the Depository or a nominee thereof and no such transfer may be registered except in the limited circumstances described in the Indenture. Every Debenture authenticated and delivered upon registration of, transfer of, or in exchange for, or in lieu of, this Debenture shall be a Global Debenture subject to the foregoing, except in such limited circumstances described in the Indenture.”

- (b) Each Depository designated for a Global Debenture must, at the time of its designation and at all times while it serves as such Depository, be a clearing agency registered or designated under the securities legislation of the jurisdiction where the Depository has its principal offices.

## **2.7 Execution of Debentures**

All Debentures shall be signed (either manually or by facsimile signature) by any one Director of the Company or authorized officer or director of the Manager holding office at the time of signing. A facsimile signature upon a Debenture shall for all purposes of this Indenture be deemed to be the signature of the person whose signature it purports to be. Notwithstanding that any

person whose signature, either manual or in facsimile, appears on a Debenture as a Director of the Company or authorized officer or director of the Manager may no longer hold such office at the date of the Debenture or at the date of the certification and delivery thereof, such Debenture shall be valid and binding upon the Company and entitled to the benefits of this Indenture.

## **2.8 Certification**

No Debenture shall be issued or, if issued, shall be obligatory or shall entitle the holder to the benefits of this Indenture, until it has been manually certified by or on behalf of the Debenture Trustee substantially in the form set out in this Indenture, in the relevant supplemental indenture, or in some other form approved by the Debenture Trustee. Such certification on any Debenture shall be conclusive evidence that such Debenture is duly issued, is a valid obligation of the Company and the holder is entitled to the benefits hereof.

The certificate of the Debenture Trustee signed on the Debentures, or interim Debentures hereinafter mentioned, shall not be construed as a representation or warranty by the Debenture Trustee as to the validity of this Indenture or of the Debentures or interim Debentures or as to the issuance of the Debentures or interim Debentures and the Debenture Trustee shall in no respect be liable or answerable for the use made of the Debentures or interim Debentures or any of them or the proceeds thereof. The certificate of the Debenture Trustee signed on the Debentures or interim Debentures shall, however, be a representation and warranty by the Debenture Trustee that the Debentures or interim Debentures have been duly certified by or on behalf of the Debenture Trustee pursuant to the provisions of this Indenture.

## **2.9 Interim Debentures or Certificates**

Pending the delivery of definitive Debentures of any series to the Debenture Trustee, the Company may issue and the Debenture Trustee may certify in lieu thereof interim Debentures in such forms and in such denominations and signed in such manner as provided herein, entitling the holders thereof to definitive Debentures of the series when the same are ready for delivery; or the Company may execute and the Debenture Trustee may certify a temporary Debenture for the whole principal amount of Debentures of the series then authorized to be issued hereunder and the Company may deliver the same to the Debenture Trustee and thereupon the Debenture Trustee may issue its own interim certificates in such form and in such amounts, not exceeding in the aggregate the principal amount of the temporary Debenture so delivered to it, as the Company, and the Debenture Trustee may approve entitling the holders thereof to definitive Debentures of the series when the same are ready for delivery; and, when so issued and certified, such interim or temporary Debentures or interim certificates shall, for all purposes but without duplication, rank in respect of this Indenture equally with Debentures duly issued hereunder and, pending the exchange thereof for definitive Debentures, the holders of the interim or temporary Debentures or interim certificates shall be deemed without duplication to be Debentureholders and entitled to the benefit of this Indenture to the same extent and in the same manner as though the said exchange had actually been made. Forthwith after the Company shall have delivered the definitive Debentures to the Debenture Trustee, the Debenture Trustee shall cancel such temporary Debentures, if any, and shall call in for exchange all interim Debentures or certificates that shall have been issued and forthwith after such exchange shall cancel the same. No charge shall be made by the Company or the Debenture Trustee to the holders of such interim or temporary Debentures or interim certificates for the exchange thereof. All interest paid upon interim or temporary Debentures or interim certificates shall be noted thereon as a condition precedent to such payment unless paid by cheque to the registered holders thereof.

## 2.10 Mutilation, Loss, Theft or Destruction

In case any of the Debentures issued hereunder shall become mutilated or be lost, stolen or destroyed and in the absence of the Company's receipt of any notice that such Debenture has been acquired by a *bona fide* purchaser, the Company, in its discretion, may issue, and thereupon the Debenture Trustee shall certify and deliver, a new Debenture upon surrender and cancellation of the mutilated Debenture, or in the case of a lost, stolen or destroyed Debenture, in lieu of and in substitution for the same, and the substituted Debenture shall be in a form approved by the Debenture Trustee and shall be entitled to the benefits of this Indenture and rank equally in accordance with its terms with all other Debentures issued or to be issued hereunder. The new or substituted Debenture may have endorsed upon it the fact that it is in replacement of a previous Debenture. In case of loss, theft or destruction the applicant for a substituted Debenture shall furnish to the Company and to the Debenture Trustee such evidence of the loss, theft or destruction of the Debenture and such other documents as shall be satisfactory to them in their discretion and shall also furnish an indemnity and surety bond satisfactory to them in their discretion. The applicant shall pay all reasonable expenses incidental to the issuance of any substituted Debenture.

## 2.11 Concerning Interest

- (a) Except as may otherwise be provided in this Indenture or in any supplemental indenture or Written Direction of the Manager in respect of a series of Debentures and subject to Section 2.4(b) with respect to the calculation of interest in respect of the initial interest payment to be paid on the Initial Debentures, all Debentures issued hereunder, whether originally or upon exchange or in substitution for previously issued Debentures which are interest bearing, shall bear interest (i) from their issue date, or (ii) from and including the last Interest Payment Date in respect of which interest shall have been paid or made available for payment on the outstanding Debentures of that series, whichever shall be the later, or, in respect of Debentures subject to a Periodic Offering, from their issue date or from and including the last Interest Payment Date in respect of which interest shall have been paid or made available for payment on such Debentures, in all cases, to but excluding the next Interest Payment Date. All interest shall accrue from day to day and shall be payable in arrears for the actual number of days lapsed in the relevant interest period. Interest payable in a calendar year shall be payable semi-annually in arrears. Interest on all Debentures issued hereunder shall cease to accrue on, but not including, the Maturity Date, Redemption Date or Date of Conversion, as applicable, for such Debentures, unless, upon due presentation, payment of principal or delivery of amounts, securities or other property payable or deliverable hereunder and payment of any accrued and unpaid interest or other amounts payable hereunder is improperly withheld or refused.
- (b) Subject to Section 2.4(b) in respect of the method for calculating the amount of interest to be paid on the Initial Debentures on the first Interest Payment Date in respect thereof, with respect to any series of Debentures, whenever interest is computed on a basis of a year (the "deemed year") which contains fewer days than the actual number of days in the calendar year of calculation, such rate of interest shall be expressed as a yearly rate for purposes of the *Interest Act* (Canada) by multiplying such rate of interest by the actual number of days in the calendar year of calculation and dividing it by the number of days in the deemed year.

**2.12 Debentures to Rank *Pari Passu***

The Debentures will be direct secured obligations of the Company. Each Debenture of the same series of Debentures will rank *pari passu* with each other Debenture of the same series (regardless of their actual date or terms of issue). The payment of the principal of, and interest on, the Debentures shall, as provided in Article 6, be subordinated and postponed in right of payment to all Senior Secured Indebtedness.

**2.13 Payments of Amounts Due on Maturity**

Except as may otherwise be provided in this Indenture or any supplemental indenture in respect of any series of Debentures, payments of amounts due upon maturity of the Debentures will be made in the following manner. The Company will establish and maintain with the Debenture Trustee a Maturity Account for each series of Debentures. Each such Maturity Account shall be maintained by and be subject to the control of the Debenture Trustee for the purposes of this Indenture. On or before 11:00 a.m. (Toronto time) on the Business Day immediately prior to each Maturity Date for Debentures outstanding from time to time under this Indenture, the Company will deposit in the applicable Maturity Account an amount sufficient to pay the cash amount payable in respect of such Debentures (including the principal amount and premium (if any), together with any accrued and unpaid interest thereon less any withholding tax required or permitted by law to be deducted or withheld), provided the Company may elect to satisfy this requirement by providing the Debenture Trustee with one or more certified cheques, or with funds by electronic transfer, for such amounts required under this Section 2.13. The Debenture Trustee, on behalf of the Company, will pay to each holder entitled to receive payment the principal amount of and premium (if any) and accrued and unpaid interest on the Debenture (less applicable withholding taxes, if any), upon surrender of the Debenture at any branch of the Debenture Trustee designated for such purpose from time to time by the Company and the Debenture Trustee. The deposit or the making available of such amounts to the applicable Maturity Account will satisfy and discharge the liability of the Company for the Debentures to which the deposit or making available of funds relates to the extent of the amount deposited or made available (plus the amount of any withholding tax deducted as aforesaid) and such Debentures will thereafter to that extent not be considered as outstanding under this Indenture and such holder will have no other right in regard thereto other than to receive out of the money so deposited or made available the amount to which such holder is entitled.

**2.14 Payment of Interest**

The following provisions shall apply to Debentures, except as otherwise provided in Section 2.4(b) or permitted by Article 11 or specified in a resolution of the Directors, a Certificate of the Manager or a supplemental indenture relating to a particular series of Additional Debentures:

- (a) As interest becomes due on each Debenture (except at maturity, on redemption or conversion, when interest may at the option of the Company be paid upon surrender of such Debenture) the Company, either directly or through the Debenture Trustee or any agent of the Debenture Trustee, shall send or forward by prepaid ordinary mail, electronic transfer of funds or such other means as may be agreed to by the Debenture Trustee, payment of such interest (less any withholding tax required or permitted to be withheld therefrom) to the order of the registered holder of such Debenture appearing on the registers maintained by the Debenture Trustee at the close of business on the fifth Business Day prior to the applicable Interest Payment Date and

addressed to the holder at the holder's last address appearing on the register, unless such holder otherwise directs. If payment is made by cheque, such cheque shall be forwarded at least three days prior to each date on which interest becomes due and if payment is made by other means (such as electronic transfer of funds), such payment shall be made in a manner whereby the holder receives credit for such payment on the date such interest on such Debenture becomes due. The mailing of such cheque or the making of such payment by other means shall, to the extent of the sum represented thereby, plus the amount of any withholding tax withheld as aforesaid, satisfy and discharge all liability for interest on such Debenture, unless in the case of payment by cheque, such cheque is not paid at par on presentation. In the event of non-receipt of any cheque for or other payment of interest by the person to whom it is so sent as aforesaid, the Company or the Debenture Trustee will issue to such person a replacement cheque or other payment for a like amount upon being furnished with such evidence of non-receipt as it shall reasonably require and upon being indemnified to its satisfaction. Notwithstanding the foregoing, if the Company is prevented by circumstances beyond its control (including, without limitation, any interruption in mail service) from making payment of any interest due on each Debenture in the manner provided above, the Company may make payment of such interest or make such interest available for payment in any other manner acceptable to the Debenture Trustee with the same effect as though payment had been made in the manner provided above.

- (b) Notwithstanding Section 2.14(a), if a series of Debentures is represented by a Global Debenture, then all payments of interest on the Global Debenture shall be made by electronic funds transfer or cheque made payable to the Depository or its nominee for subsequent payment (less applicable withholding taxes, if any) to Beneficial Holders of interests in that Global Debenture, unless the Company and the Depository otherwise agree. None of the Company, the Debenture Trustee or any agent of the Debenture Trustee for any Debenture issued as a Global Debenture will be liable or responsible to any person for any aspect of the records related to or payments made on account of beneficial interests in any Global Debenture or for maintaining, reviewing, or supervising any records relating to such beneficial interests.

### **ARTICLE 3 LIMITATIONS ON OWNERSHIP**

#### **3.1 Prohibition Against Ownership by Certain U.S. Retirement Plans**

U.S. Retirement Plans are prohibited from purchasing or otherwise acquiring or holding, directly or indirectly, beneficial ownership of any Debentures at any time, and each purchaser or other acquirer of any Debentures (including any subsequent purchaser or other acquirer), by its purchasing or acquiring Debentures, shall be deemed to have represented to the Company, the Manager and any underwriters of such Debentures that (a) it is not investing assets of a U.S. Retirement Plan in order to acquire or hold the Debentures and will not otherwise hold the Debentures as U.S. Plan Assets and (b) prior to any transfer of the Debentures, it will inform any transferee thereof (other than a transferee in a transaction consummated on the TSX) of the foregoing prohibitions and the representations which such transferee will be deemed to make by purchasing or acquiring the Debentures. The foregoing prohibition and deemed representations are hereinafter

referred to as the “**U.S. Retirement Plan Prohibition**”. Each purchaser or other acquirer of any Debentures at any time (including any subsequent purchaser or other acquirer) shall also be deemed to have agreed to indemnify the Company, the Manager, any underwriters of such Debentures, their Affiliates and their respective directors and employees (including their respective successors and assigns) against any loss, cost or damage caused by any breach by such Person of the U.S. Plan Prohibition (a “**Deemed Indemnity**”).

The Manager may require any purchaser or other acquirer of Debentures to file a declaration to the effect that it has not violated the U.S. Retirement Plan Prohibition. If the Manager determines, as a result of any such declaration or otherwise, that a violation of the U.S. Retirement Plan Prohibition has occurred or that, after giving effect to any proposed subscription, issue or transfer of Debentures to any Person, a violation of the U.S. Retirement Plan Prohibition would occur, the Manager may instruct the Debenture Trustee not to accept any subscription for any Debentures from such Person, issue any Debentures to such Person or register or otherwise recognize the transfer of any Debentures to such Person, unless such Person shall provide a declaration that it has not violated the U.S. Retirement Plan Prohibition. If, notwithstanding the foregoing, the Manager determines that one or more Debentures were acquired or are being held in violation of the U.S. Retirement Plan Prohibition, the Manager may instruct the Debenture Trustee to send a written notice prepared by the Manager (a “**U.S. Retirement Plan Notice**”) to the appropriate holder of record to be delivered to the applicable beneficial owner of the Debentures (a “**U.S. Retirement Plan Holder**”). The U.S. Retirement Plan Notice shall require such U.S. Retirement Plan Holder to sell all of its Debentures (collectively, “**U.S. Retirement Plan Debentures**”) to a Person whose ownership does not violate the U.S. Retirement Plan Prohibition within the period stipulated in the U.S. Retirement Plan Notice. The U.S. Retirement Plan Notice shall be given by registered prepaid mail to the holder of record for such U.S. Retirement Plan Holder and shall specify a date, which shall not be less than 10 days, within which the U.S. Retirement Plan Debentures must be sold to a Person whose ownership does not violate the U.S. Retirement Plan Prohibition. The U.S. Retirement Plan Notice shall also require the U.S. Retirement Plan Holder to notify the Manager forthwith after the required sale has been completed.

If the U.S. Retirement Plan Debentures have not been sold by the U.S. Retirement Plan Holder on or before the date stipulated in the U.S. Retirement Plan Notice and the U.S. Retirement Plan Holder has not provided evidence satisfactory to the Manager to the effect that U.S. Retirement Plan Holder’s ownership does not violate the U.S. Retirement Plan Prohibition before such date, the Manager may instruct the Debenture Trustee, without further notice, to effect the transfer of the U.S. Retirement Plan Debentures on behalf of the U.S. Retirement Plan Holder on and subject to the terms herein contained and, in the interim, to suspend the rights of such U.S. Retirement Plan Holder to receive interest payments or receive distributions in respect of the U.S. Retirement Plan Debentures, to exercise the voting rights of the U.S. Retirement Plan Debentures or to convert the U.S. Retirement Plan Debentures to IPSs. The provisions of Section 8.1 shall be applicable *mutatis mutandis* with respect to any such transfer by the Debenture Trustee, except that such U.S. Retirement Plan Holder shall only have the right to receive the net proceeds of such sale and shall have no right to receive any unpaid interest or distributions in respect of such U.S. Retirement Plan Debentures. Notwithstanding the immediately preceding two sentences, the Debenture Trustee will have no obligation to carry out any actions contemplated in the immediately preceding two sentences unless it is satisfied (relying on the opinion of Counsel), acting reasonably, that taking such actions will not expose the Debenture Trustee to any liability.

Notwithstanding the foregoing, if the Manager makes a public announcement that the Manager has determined that the U.S. Retirement Plan Prohibition and the Deemed Indemnity are not then in the best interests of the Company, the U.S. Retirement Plan Prohibition and the Deemed Indemnity shall thereafter be immediately suspended until such time as the Manager reinstates the U.S. Retirement Plan Prohibition and the Deemed Indemnity by issuing a public announcement of such reinstatement. Unless otherwise determined by the Manager, certificates, representing the Debentures, and any certificates issued in exchange therefor or in substitution thereof, shall bear an appropriate legend referring to the U.S. Retirement Plan Prohibition and the Deemed Indemnity, provided that any such legend may be removed at such time as the Manager shall determine.

### **3.2 Limitation on U.S. Resident Ownership**

The articles of incorporation of the Company provide that at no time may more than 100 U.S. persons (as determined by the Company) be the beneficial owners of the Company's securities, nor may any U.S. person be the beneficial owner of more than 10% of the IPSs, the Subordinated Notes or the Common Shares. The Company may require declarations as to the jurisdictions in which beneficial owners of the Company's securities are resident. If the Company becomes aware that either of the foregoing limitations may be contravened, the transfer agent and registrar of the Company will make a public announcement and will not accept a subscription for the Company's securities from or issue or register a transfer of the Company's securities to a person unless the person provides a declaration that the person is not a U.S. person. If, notwithstanding the foregoing, the Company determines that more than 100 U.S. persons are beneficial owners of any class of the Company's securities (on either a non-diluted or fully-diluted basis), the Company may send a notice to the U.S. holders of such securities, chosen in inverse order to the order of acquisition or registration or in any manner as the Company may consider equitable and practicable, requiring them to sell their securities or a portion of their securities within a specified period of not less than 10 days. If the holders of the Company's securities receiving the notice have not sold the specified number of securities, or provided the Company with satisfactory evidence that they are not U.S. persons within that time period, the Company may, on behalf of those holders of the Company's securities, sell those securities, and, in the interim, will suspend the voting and distribution rights attached to those securities. Upon that sale, the affected holders will cease to be holders of the securities, and their rights will be limited to receiving the net proceeds of the sale.

### **3.3 Limitation on Ownership by Electric Utilities and Others**

The Company's power generation projects (the "Projects") include qualifying facilities ("QFs") under the United States Federal Power Act ("FPA") as amended by the Public Utility Regulatory Policies Act of 1978 ("PURPA") that qualify under the rules of the United States Federal Energy Regulatory Commission ("FERC") implementing PURPA and exempt wholesale generators ("EWGs") under the Public Utility Holding Company Act of 1935 ("PUHCA") with market-based rates on file with FERC pursuant to the FPA. The articles of incorporation of the Company provide that no U.S. entity (other than entities that have made certain regulatory filings such as Teton Power Holdings LLC) may hold more than 10% of the IPSs or Common Shares. In addition, should any entity wish to hold more than 5% but less than 10% of the IPSs or Common Shares, that entity must agree to cooperate with the Company and provide information necessary to make any filings with FERC that may be required pursuant to the FPA. Further, the articles of incorporation of the Company provide that no person may own IPSs or Common Shares if such person (i) is engaged primarily in the electric or gas business; (ii) is otherwise affiliated with any franchised electric utility; (iii) has controlling ownership interests in any electric generating,

transmission, or distribution facilities; (iv) is affiliated with any power marketers; (v) is a “public-utility company” or a “holding company” or an “associate company”, “affiliate”, or “subsidiary company” of a “holding company” as each term is defined in section 2(a) of PUHCA; (vi) is subject to regulation under PUHCA; (vii) is subject to regulation as a “public utility” under the FPA; or (viii) is subject to regulation with respect to rates or to financial or organizational matters as an electric utility, public utility, or public service company or corporation under the laws of any state unless such person satisfies the Company that the ownership of the IPSs or Common Shares by such person will not adversely affect the Projects’ qualification for QF status under FERC’s rules implementing PURPA, the order issued under the FPA with respect to certain Projects, or the Projects’ qualification for market-based rates under the FPA. Determination of such potential adverse effect is at the sole discretion of the Company, and the Company may elect to strictly enforce any or all of the restrictions set forth above against such entity. If the Company becomes aware that any of the foregoing restrictions may be contravened, the transfer agent and registrar of the Company will make a public announcement and will not accept a subscription for IPSs or Common Shares or any other securities of the Company from or issue or register a transfer of IPSs, Common Shares or any other securities of the Company to a person unless the person provides a declaration that the person is not an entity described above. If, notwithstanding the foregoing, the Company determines that an owner of IPS, Common Shares or any other securities of the Company violates the foregoing restrictions, the Company may send a notice to such owner of IPSs, Common Shares or other securities requiring it to provide specified information to the Company such that the Company can determine whether such person’s ownership may have an adverse effect upon the Company. Upon such determination, the Company may send a further notice requiring such owner to sell its IPS, Common Shares or other securities within a specified period of not less than 10 days. If the holder of IPS, Common Shares or other securities receiving the notice has not sold the IPSs, Common Shares or other securities, as applicable, or provided the Company with satisfactory evidence that it does not contravene the foregoing restrictions, the Company may, on behalf of that holder of IPSs, Common Shares or other securities, sell those IPSs, Common Shares or other securities, and, in the interim, will suspend the voting and distribution rights attached to those IPS, Common Shares or other securities. Upon that sale, the affected holder will cease to be a holder of the IPSs, Common Shares or other securities, as applicable, and its rights will be limited to receiving the net proceeds of the sale.

The ownership restrictions set out above in Sections 3.1, 3.2 and 3.3 apply equally to IPSs.

#### **ARTICLE 4**

#### **REGISTRATION, TRANSFER, EXCHANGE AND OWNERSHIP**

##### **4.1 Fully Registered Debentures**

- (a) With respect to each series of Debentures issuable as Fully Registered Debentures, the Company shall cause to be kept by and at the principal offices of the Debenture Trustee in Toronto and by the Debenture Trustee or such other registrar as the Company, with the approval of the Debenture Trustee, may appoint at such other place or places, if any, as may be specified in the Debentures of such series or as the Company may designate with the approval of the Debenture Trustee, a register in which shall be entered the names and last known addresses of the holders of Fully Registered Debentures and particulars of the Debentures held by them respectively

and of all transfers of Fully Registered Debentures. Such registration shall be noted on the Debentures by the Debenture Trustee or other registrar unless a new Debenture shall be issued upon such transfer.

- (b) No transfer of a Fully Registered Debenture shall be valid unless made on such register referred to in Section 4.1(a) by the registered holder or such holder's executors, administrators or other legal representatives or an attorney duly appointed by an instrument in writing in form and execution satisfactory to the Debenture Trustee or other registrar upon surrender of the Debentures together with a duly executed form of transfer acceptable to the Debenture Trustee and upon compliance with such other reasonable requirements as the Debenture Trustee or other registrar may prescribe, nor unless the name of the transferee shall have been noted on the Debenture by the Debenture Trustee or other registrar.

#### **4.2 Global Debentures**

- (a) With respect to each series of Debentures issuable in whole or in part as one or more Global Debentures, the Company shall cause to be kept by and at the principal offices of the Debenture Trustee in Toronto and by the Debenture Trustee or such other registrar as the Company, with the approval of the Debenture Trustee, may appoint at such other place or places, if any, as the Company may designate with the approval of the Debenture Trustee, a register in which shall be entered the name and address of the holder of each such Global Debenture (being the Depository, or its nominee, for such Global Debenture) as holder thereof and particulars of the Global Debenture held by it, and of all transfers thereof. If any Debentures of such series are at any time not Global Debentures, the provisions of Section 4.1 shall govern with respect to registrations and transfers of such Debentures.
- (b) Notwithstanding any other provision of this Indenture, a Global Debenture may not be transferred by the registered holder thereof and accordingly, no definitive certificates shall be issued to Beneficial Holders of Debentures, except in the following circumstances or as otherwise specified in a resolution of the Directors, Certificate of the Manager or supplemental indenture relating to a particular series of Additional Debentures:
  - (i) Global Debentures may be transferred by a Depository to a nominee of such Depository or by a nominee of a Depository to such Depository or to another nominee of such Depository or by a Depository or its nominee to a successor Depository or its nominee;
  - (ii) Global Debentures may be transferred at any time after the Depository for such Global Debentures (i) has notified the Company that it is unwilling or unable to continue as Depository in connection with Global Debentures, or (ii) if at any time the Depository ceases to be a clearing agency or otherwise ceases to be eligible to be a Depository under Section 2.6(b) and the Company has not appointed a successor;
  - (iii) Global Debentures may be transferred at any time after the Company has determined, in its sole discretion, to terminate the book-entry only registration

- system in respect of such Global Debentures and has communicated such determination to the Debenture Trustee in writing;
- (iv) Global Debentures may be transferred at any time after the Debenture Trustee has determined that an Event of Default has occurred and is continuing with respect to the Debentures of the series issued as a Global Debenture, provided that Beneficial Holders of the Debentures representing, in the aggregate, not less than 25% of the aggregate principal amount of the Debentures of such series advise the Depository in writing, through the Depository Participants, that the continuation of the book-entry only registration system for such series of Debentures is no longer in their best interest and also provided that at the time of such transfer the Debenture Trustee has not waived the Event of Default pursuant to Section 9.3;
  - (v) Global Debentures may be transferred if required by applicable law; and
  - (vi) Global Debentures may be transferred if the book-entry only registration system ceases to exist.
- (c) With respect to the Global Debentures, unless and until definitive certificates have been issued to Beneficial Holders pursuant to subsection 4.2(b):
- (i) the Company and the Debenture Trustee may deal with the Depository for all purposes (including paying interest on the Debentures) as the sole holder of such series of Debentures and the authorized representative of the Beneficial Holders;
  - (ii) the rights of the Beneficial Holders shall be exercised only through the Depository and shall be limited to those established by law and agreements between such Beneficial Holders and the Depository or the Depository Participants;
  - (iii) the Depository will make book entry transfers among the Depository Participants; and
  - (iv) whenever this Trust Indenture requires or permits actions to be taken based upon instruction or directions of Debentureholders evidencing a specified percentage of the outstanding Debentures, the Depository shall be deemed to be counted in that percentage only to the extent that it has received instructions to such effect from the Beneficial Holders or the Depository Participant, and has delivered such instructions to the Debenture Trustee.
- (d) Whenever a notice or other communication is required to be provided to Debentureholders, unless and until definitive certificate(s) have been issued to Beneficial Holders pursuant to this Section 4.2, the Debenture Trustee shall provide all such notices and communications to the Depository and the Depository shall deliver such notices and communications to such Beneficial Holders in accordance with Applicable Securities Legislation. Upon the termination of the book-entry only registration system on the occurrence of one of the conditions specified in Section 4.2(b) with respect to a series of Debentures issued hereunder, the Debenture Trustee shall notify all applicable Beneficial Holders, through the Depository, of the availability of definitive Debenture certificates. Upon surrender by the Depository of

the certificate(s) representing the Global Debentures and receipt of new registration instructions from the Depository, the Debenture Trustee shall deliver the definitive Debenture certificates for such Debentures to the holders thereof in accordance with the new registration instructions and thereafter, the registration and transfer of such Debentures will be governed by Section 4.1 and the remaining Sections of this Article 4.

#### **4.3 Transferee Entitled to Registration**

The transferee of a Debenture shall be entitled, after the appropriate form of transfer is lodged with the Debenture Trustee or other registrar and upon compliance with all other conditions in that behalf required by this Indenture or by law, to be entered on the register as the owner of such Debenture free from all equities or rights of set-off or counterclaim between the Company and the transferor or any previous holder of such Debenture, save in respect of equities of which the Company is required to take notice by statute or by order of a court of competent jurisdiction.

#### **4.4 No Notice of Trusts**

Neither the Company, the Debenture Trustee nor any registrar shall be bound to take notice of or see to the execution of any trust (other than that created by this Indenture) whether express, implied or constructive, in respect of any Debenture, and may transfer the same on the direction of the person registered as the holder thereof, whether named as trustee or otherwise, as though that person were the beneficial owner thereof.

#### **4.5 Registers Open for Inspection**

The registers referred to in Sections 4.1 and 4.2 shall, during regular business hours of the Debenture Trustee, be open for inspection by the Company, the Debenture Trustee or any Debentureholder, subject to applicable laws. Every registrar, including the Debenture Trustee, shall from time to time when requested so to do by the Company or by the Debenture Trustee, in writing, furnish the Company or the Debenture Trustee, as the case may be, with a list of names and addresses of holders of registered Debentures entered on the register kept by them and showing the principal amount and serial numbers of the Debentures held by each such holder, provided the Debenture Trustee shall be entitled to charge a reasonable fee to provide such a list.

#### **4.6 Exchanges of Debentures**

- (a) Subject to Section 4.7, Debentures in any authorized form or denomination, other than Global Debentures, may be exchanged for Debentures in any other authorized form or denomination, of the same series and date of maturity, bearing the same interest rate and of the same aggregate principal amount as the Debentures so exchanged.
- (b) In respect of exchanges of Debentures permitted by Section 4.6(a), Debentures of any series may be exchanged only at the principal offices of the Debenture Trustee in Toronto or at such other place or places, if any, as may be specified in the Debentures of such series and at such other place or places as may from time to time be designated by the Company with the approval of the Debenture Trustee. Any Debentures tendered for exchange shall be surrendered to the Debenture Trustee.

The Company shall execute and the Debenture Trustee shall certify all Debentures necessary to carry out exchanges as aforesaid. All Debentures surrendered for exchange shall be cancelled.

- (c) Debentures issued in exchange for Debentures which at the time of such issue have been selected or called for redemption at a later date shall be deemed to have been selected or called for redemption in the same manner and shall have noted thereon a statement to that effect.

#### **4.7 Closing of Registers**

- (a) Neither the Company nor the Debenture Trustee nor any registrar shall be required to:
  - (i) make transfers or exchanges of Fully Registered Debentures on any Interest Payment Date for such Debentures or during the five preceding Business Days;
  - (ii) make transfers or exchanges of any Debentures on the day of any selection by the Debenture Trustee of Debentures to be redeemed or during the five preceding Business Days; or
  - (iii) make exchanges of any Debentures which will have been selected or called for redemption unless upon due presentation thereof for redemption such Debentures shall not be redeemed.
- (b) Subject to any restriction herein provided, the Company with the approval of the Debenture Trustee may at any time close any register for any series of Debentures, other than those kept at the principal offices of the Debenture Trustee in Toronto, and transfer the registration of any Debentures registered thereon to another register (which may be an existing register) and thereafter such Debentures shall be deemed to be registered on such other register. Notice of such transfer shall be given to the holders of such Debentures.

#### **4.8 Charges for Registration, Transfer and Exchange**

For each Debenture exchanged, registered, transferred or discharged from registration, the Debenture Trustee or other registrar, except as otherwise herein provided, may make a reasonable charge for its services and in addition may charge a reasonable sum for each new Debenture issued (such amounts as agreed upon by the Debenture Trustee and the Company from time to time), and payment of such charges and reimbursement of the Debenture Trustee or other registrar for any stamp taxes or governmental or other charges required to be paid shall be made by the party requesting such exchange, registration, transfer or discharge from registration as a condition precedent thereto. Notwithstanding the foregoing provisions, no charge shall be made to a Debentureholder hereunder:

- (a) for any exchange, registration, transfer or discharge from registration of any Debenture applied for within a period of two months from the date of the first delivery of Debentures of that series or, with respect to Debentures subject to a Periodic Offering, within a period of two months from the date of delivery of any such Debenture;

- (b) for any exchange of any interim or temporary Debenture or interim certificate that has been issued under Section 2.9 for a definitive Debenture;
- (c) for any exchange of a Global Debenture as contemplated in Section 4.2;
- (d) for any conversion of any Debenture resulting from a partial redemption under Section 5.2;
- (e) for any conversion of any Debenture resulting from a partial conversion under Section 7.4(d); or
- (f) for any conversion of any Debenture resulting from a partial purchase under Section 2.4(h).

**4.9 Ownership of Debentures**

- (a) Unless otherwise required by law, the person in whose name any registered Debenture is registered shall for all the purposes of this Indenture be and be deemed to be the owner thereof and payment of or on account of the principal of and premium, if any, on such Debenture and, interest thereon, shall be made to such registered holder.
- (b) None of the Company, any Underwriters nor the Debenture Trustee shall have any liability for:
  - (i) any aspect of the records relating to the beneficial ownership of the Debentures held by a Depository or of the payments relating thereto; or
  - (ii) maintaining, supervising or reviewing any such records relating to the Debentures.

The rules governing Depositories provide that they act as the agent and depository for Depository Participants. As a result, such Depository Participants must look solely to the Depository and Beneficial Holders of Debentures must look solely to the Depository Participants for the payment of principal and interest on the Debentures paid by or on behalf of the Company to the Depository.

- (c) Beneficial Holders of Debentures:
  - (i) may not have Debenture certificates registered in their name;
  - (ii) may not have physical certificates representing their interest in the Debentures;
  - (iii) may not be able to sell the Debentures to institutions required by law to hold certificates for securities they own; and
  - (iv) may be unable to pledge Debentures as security.
- (d) The registered holder for the time being of any registered Debenture shall be entitled to the principal, premium, if any, and/or interest evidenced by such instruments, respectively, free from all equities or rights of set-off or counterclaim between the

Company and the original or any intermediate holder thereof and all Persons may act accordingly and the receipt of any such registered holder for any such principal, premium or interest shall be a good discharge to the Company and/or the Debenture Trustee for the same and neither the Company nor the Debenture Trustee shall be bound to inquire into the title of any such registered holder.

- (e) Where Debentures are registered in more than one name, the principal, premium, if any, and interest (in the case of Fully Registered Debentures) from time to time payable in respect thereof may be paid to the order of all such holders, failing written instructions from them to the contrary, and the receipt of any one of such holders therefor shall be a valid discharge, to the Debenture Trustee, any registrar and to the Company.
- (f) In the case of the death of one or more joint holders of any Debenture the principal, premium, if any, and interest from time to time payable thereon may be paid to the order of the survivor or survivors of such registered holders and the receipt of any such survivor or survivors therefor shall be a valid discharge to the Debenture Trustee and any registrar and to the Company.

## **ARTICLE 5 REDEMPTION AND PURCHASE OF DEBENTURES**

### **5.1 Applicability of Article**

Subject to Applicable Laws and any required regulatory approval, the Company shall have the right at its option to redeem, either in whole or in part before maturity by payment of money any Debentures issued hereunder of any series which by their terms are made so redeemable (subject, however, to any applicable restriction on the redemption of Debentures of such series) at such rate or rates of premium, if any, and on such date or dates and in accordance with such other provisions as shall have been determined at the time of issue of such Debentures and as shall have been expressed in this Indenture, in the Debentures, in a Certificate of the Manager, or in a supplemental indenture authorizing or providing for the issue thereof, or in the case of Additional Debentures issued pursuant to a Periodic Offering, in the Written Direction of the Manager requesting the certification and delivery thereof.

### **5.2 Partial Redemption**

If less than all the Debentures of any series for the time being outstanding are at any time to be redeemed, the Debentures to be so redeemed shall be selected by the Debenture Trustee on a *pro rata* basis to the nearest multiple of \$1,000 in accordance with the principal amount of the Debentures registered in the name of each holder, or in such other manner as the Debenture Trustee deems equitable, subject to the approval of the TSX confirmed in a Certificate of the Manager as required. Unless otherwise specifically provided in the terms of any series of Debentures, no Debenture shall be redeemed in part unless the principal amount redeemed is \$1,000 or a multiple thereof. For this purpose, the Debenture Trustee may make, and from time to time vary, regulations with respect to the manner in which such Debentures may be drawn for redemption and regulations so made shall be valid and binding upon all holders of such Debentures notwithstanding the fact that as a result thereof one or more of such Debentures may become subject to redemption in part only. In the event that one or more of such Debentures becomes subject to redemption in part only, upon

surrender of any such Debentures for payment of the Redemption Price, together with interest accrued to but excluding the Redemption Date, the Company shall execute and the Debenture Trustee shall certify and deliver without charge to the holder thereof or upon the holder's order one or more new Debentures for the unredeemed part of the principal amount of the Debenture or Debentures so surrendered or, with respect to a Global Debenture, the Depository shall make notations on the Global Debenture of the principal amount thereof so redeemed. Unless the context otherwise requires, the terms "Debenture" or "Debentures" as used in this Article 5 shall be deemed to mean or include any part of the principal amount of any Debenture which in accordance with the foregoing provisions has become subject to redemption.

### 5.3 Notice of Redemption

Notice of redemption (the "Redemption Notice") of Debentures of any series shall be given to the holders of the Debentures so to be redeemed not more than 60 days nor less than 30 days prior to the date fixed for redemption (the "Redemption Date") in the manner provided in Section 15.2. Every such notice shall specify the aggregate principal amount of Debentures called for redemption, the Redemption Date, the Redemption Price, together with accrued and unpaid interest to but excluding the Redemption Date, and the places of payment and shall state that interest upon the principal amount of Debentures called for redemption shall cease to accrue and be payable from and after the Redemption Date. In addition, unless all the outstanding Debentures are to be redeemed, the Redemption Notice shall specify:

- (a) the distinguishing letters and numbers of the registered Debentures which are to be redeemed (or of such thereof as are registered in the name of such Debentureholder);
- (b) in the case of a published notice, the distinguishing letters and numbers of the Debentures which are to be redeemed or, if such Debentures are selected *pro rata* or by other similar system, such particulars as may be sufficient to identify the Debentures so selected; and
- (c) in all cases, the principal amounts of such Debentures or, if any such Debenture is to be redeemed in part only, the principal amount of such part.

In the event that all Debentures to be redeemed are registered Debentures, publication shall not be required.

### 5.4 Debentures Due on Redemption Dates

Notice having been given as aforesaid, all the Debentures so called for redemption shall thereupon be and become due and payable at the Redemption Price, together with accrued and unpaid interest to but excluding the Redemption Date (less any withholding taxes required or permitted to be deducted or withheld), on the Redemption Date specified in such notice, in the same manner and with the same effect as if it were the date of maturity specified in such Debentures, anything therein or herein to the contrary notwithstanding, and from and after such Redemption Date, if the monies necessary to redeem such Debentures shall have been deposited as provided in Section 5.5 and affidavits or other proof satisfactory to the Debenture Trustee as to the publication and/or mailing of such notices shall have been lodged with it, interest upon the Debentures shall cease. If any question shall arise as to whether any notice has been given as above provided and such deposit

made, such question shall be decided by the Debenture Trustee whose decision shall be final and binding upon all parties in interest.

### **5.5 Deposit of Redemption Monies**

Redemption of Debentures shall be provided for by the Company depositing with the Debenture Trustee or any paying agent to the order of the Debenture Trustee, on or before 11:00 a.m. (Toronto) time on the Business Day immediately prior to the Redemption Date specified in such notice, such sums of money as may be sufficient to pay the Redemption Price of the Debentures so called for redemption, plus accrued and unpaid interest thereon up to but excluding the Redemption Date, provided the Company may elect to satisfy this requirement by providing the Debenture Trustee with one or more certified cheques for such amounts required under this Section 5.5 post-dated to the Redemption Date, or by providing the Debenture Trustee with such funds through electronic transfer of funds on the Business Day immediately prior to the Redemption Date. The Company shall also deposit with the Debenture Trustee a sum of money sufficient to pay any charges or expenses that may be incurred by the Debenture Trustee in connection with such redemption. Every such deposit shall be irrevocable. From the sums so deposited, the Debenture Trustee shall pay or cause to be paid, or issue or cause to be issued, to the holders of such Debentures so called for redemption, upon surrender of such Debentures, the principal, premium (if any) and interest (if any) to which they are respectively entitled on redemption, less applicable withholding taxes, if any. The Company may pay the interest hereunder in accordance with Article 11.

### **5.6 Failure to Surrender Debentures Called for Redemption**

In case the holder of any Debenture so called for redemption shall fail on or before the Redemption Date to so surrender such holder's Debenture, or shall not within such time accept payment of the Redemption Price payable or give such receipt therefor, if any, as the Debenture Trustee may require, such redemption monies may be set aside in trust, without interest, or such certificates may be held in trust, either in the deposit department of the Debenture Trustee or in a chartered bank, and such setting aside shall for all purposes be deemed a payment to the Debentureholder of the sum so set aside and, to that extent, the Debenture shall thereafter not be considered as outstanding hereunder and the Debentureholder shall have no other right except to receive payment out of the monies so paid and deposited upon surrender and delivery up of such holder's Debenture of the Redemption Price plus accrued interest and unpaid interest to the Redemption Date. In the event that any money required to be deposited hereunder with the Debenture Trustee or any depository or paying agent on account of principal, premium, if any, or interest, if any, on Debentures issued hereunder shall remain so deposited for a period of ten years from the Redemption Date, then such monies shall at the end of such period be paid over or delivered over by the Debenture Trustee or such depository or paying agent to the Company on its demand, and thereupon the Debenture Trustee shall not be responsible to Debentureholders for any amounts owing to them and subject to applicable law, thereafter the holder of a Debenture in respect of which such money was so repaid to the Company shall have no rights in respect thereof except to obtain payment of the money due from the Company, subject to any limitation period provided by the laws of the Province of Ontario.

### **5.7 Cancellation of Debentures Redeemed**

Subject to the provisions of Sections 5.2 and 5.8 as to Debentures redeemed or purchased in part, all Debentures redeemed and paid whose obligations have been satisfied under this

Article 5 shall forthwith be delivered to the Debenture Trustee and cancelled and no Debentures shall be issued in substitution therefor.

#### **5.8 Purchase of Debentures by the Company**

Unless otherwise specifically provided with respect to a particular series of Debentures, the Company or an Affiliate may, if the Company is not at the time in default hereunder, at any time and from time to time, purchase Debentures in the market (which shall include purchases from or through an investment dealer or a firm holding membership on a recognized stock exchange) or by tender or by private contract, at any price. All Debentures so purchased may, at the option of the Company or such Affiliate, be delivered to the Debenture Trustee and shall be cancelled and no Debentures shall be issued in substitution therefor.

If, upon an invitation for tenders, more Debentures than the Company or an Affiliate is prepared to accept are tendered at the same lowest price, the Debentures to be purchased by the Company or such Affiliate shall be selected by the Debenture Trustee, in such manner (which may include selection by lot, selection on a *pro rata* basis, random selection by computer or any other method) consented to by the TSX, as required, which the Debenture Trustee considers appropriate, from the Debentures tendered by each tendering Debentureholder who tendered at such lowest price. For this purpose the Debenture Trustee may make, and from time to time amend, regulations with respect to the manner in which Debentures may be so selected, and regulations so made shall be valid and binding upon all Debentureholders, notwithstanding the fact that as a result thereof one or more of such Debentures become subject to purchase in part only or not subject to purchase at all. The holder of a Debenture of which a part only is purchased, upon surrender of such Debenture for payment, shall be entitled to receive, without expense to such holder, one or more new Debentures for the unpurchased part so surrendered, and the Debenture Trustee shall certify and deliver such new Debenture or Debentures upon receipt of the Debenture so surrendered or, with respect to a Global Debenture, the Depository shall make notations on the Global Debenture of the principal amount thereof so purchased.

#### **5.9 Deposit of Maturity Monies**

Payment on maturity of Debentures shall be provided for by the Company depositing with the Debenture Trustee or any paying agent to the order of the Debenture Trustee, on or before 11:00 a.m. (Toronto time) on the Business Day immediately prior to the Maturity Date such sums of money as may be sufficient to pay the principal amount of the Debentures, together with accrued and unpaid interest thereon up to but excluding the Maturity Date, provided the Company may elect to satisfy this requirement by providing the Debenture Trustee with one or more certified cheques or with funds by electronic transfer, for such amounts required under this Section 5.9. The Company shall also deposit with the Debenture Trustee a sum of money sufficient to pay any charges or expenses which may be incurred by the Debenture Trustee in connection therewith. Every such deposit shall be irrevocable. From the sums so deposited, the Debenture Trustee shall pay or cause to be paid to the holders of such Debentures, upon surrender of such Debentures, the principal, premium (if any) and interest (if any) to which they are respectively entitled on maturity.

## ARTICLE 6 SUBORDINATION OF DEBENTURES

### 6.1 Applicability of Article

The Debenture Liabilities of the Company under any Debentures issued hereunder of any series, shall be subordinated and postponed and subject in right of payment, to the extent and in the manner hereinafter set forth in the following sections of this Article 6, to the prior indefeasible payment in full in cash of all existing and future Senior Secured Indebtedness and the termination of all related commitments and the expiration or termination of any letters of credit or other similar instruments issued in connection therewith and each holder of any such Debenture by his acceptance thereof agrees to and shall be bound by the provisions of this Article 6.

### 6.2 Order of Payment

Upon the distribution of the assets of the Company, Atlantic Holdings or of any other Guarantor upon any dissolution, winding-up, liquidation, bankruptcy, insolvency, receivership, creditor enforcement or realization or other similar proceedings relating to the Company, Atlantic Holdings or any other Guarantor or any of their property (whether voluntary or involuntary, partial or complete) or any other marshalling of the assets and liabilities of the Company, Atlantic Holdings or of any other Guarantor:

- (a) all existing and future Senior Secured Indebtedness shall first be paid indefeasibly in full in cash and all related commitments shall have been terminated and all letters of credit or other similar instruments issued in connection therewith shall have expired or shall have been terminated before any payment is made on account of Debenture Liabilities;
- (b) the Debentures shall in all aspects rank senior in right of payment to all existing and future Subordinated Indebtedness (including trade payables);
- (c) no future indebtedness of the Company, Atlantic Holdings or any other Guarantor shall rank *pari passu* with the Debentures unless the instrument creating such future indebtedness expressly states that it ranks *pari passu* with the Debentures (and, for the avoidance of doubt, the Company and the Guarantors shall be entitled to include such language in such instrument provided that the underlying indebtedness may be incurred hereunder);
- (d) any payment or distribution of assets of the Company (including without limitation payments or distributions made by or on behalf of Atlantic Holdings or any other Guarantor), whether in cash, property or securities, to which the holders of the Debentures or the Debenture Trustee on behalf of such holders would be entitled except for the provisions of this Article 6, shall be paid or delivered by the trustee in bankruptcy, receiver, assignee for the benefit of creditors, or other liquidating agent making such payment or distribution, directly to the holders of such Senior Secured Indebtedness or their representative or representatives, or to the trustee or trustees under any indenture pursuant to which any instruments evidencing any of such Senior Secured Indebtedness may have been issued, to the extent necessary to pay all Senior Secured Indebtedness in full after giving effect to any concurrent payment or

distribution, or provision therefor, to the holders of such Senior Secured Indebtedness; and

- (e) the Senior Creditors or a receiver or a receiver-manager of the Company or of all or part of its assets (including without limitation any equity or other ownership interests in or property or collateral of any or all of Atlantic Holdings or any other Guarantor) or any other enforcement agent may sell, mortgage, or otherwise dispose of the Company assets (including without limitation any equity or other ownership interests in or property or collateral of any or all of Atlantic Holdings or any other Guarantor) in whole or in part, free and clear of all Liens securing the Debenture Liabilities and without the approval of the Debentureholders or the Debenture Trustee, but subject to the requirement to account to the Debenture Trustee or the Debentureholders for any surplus from any such disposition.

The rights and priority of the Senior Secured Indebtedness and the subordination pursuant hereto shall not be affected by:

- (a) the time, sequence or order of creating, granting, executing, delivering of, or registering, perfecting or failing to register or perfect any security notice, caveat, financing statement or other notice in respect of the Senior Security;
- (b) the time or order of the attachment, perfection or crystallization of any security constituted by the Senior Security;
- (c) the taking of any collection, enforcement or realization proceedings pursuant to the Senior Security or any release of any Senior Security;
- (d) the date of obtaining of any judgment or order of any bankruptcy court or any court administering bankruptcy, insolvency or similar proceedings as to the entitlement of the Senior Creditors, or any of them or the Debentureholders or any of them to any money or property of the Company (including without limitation any equity or other ownership interests in or property or collateral of any or all of Atlantic Holdings or any other Guarantor);
- (e) the failure to exercise any power or remedy reserved to the Senior Creditors under the Senior Security or to insist upon a strict compliance with any terms thereof;
- (f) whether any Senior Security is now perfected, hereafter ceases to be perfected, is avoidable by any trustee in bankruptcy or like official or is otherwise set aside, invalidated or lapses;
- (g) the date of giving or failing to give notice to or making demand upon the Company; or
- (h) any amendment, modification, increase, extension, renewal, replacement of any Senior Secured Indebtedness or Senior Security.

### **6.3 Subrogation to Rights of Holders of Senior Secured Indebtedness**

After all Senior Secured Indebtedness of the Company is paid in full and all related commitments are terminated and letters of credit or other similar instruments issued in connection therewith have expired or terminated and until the Debentures are paid in full, the Debentureholders' rights hereunder and under the Security Documents shall be subrogated to the rights of the existing and future holders of such Senior Secured Indebtedness to receive payments or distributions of assets of the Company (including without limitation any equity or other ownership interests in or property or collateral of any or all of Atlantic Holdings or any other Guarantor) applicable to Senior Secured Indebtedness. A distribution made under this Article 6 and Article 4 of the Guarantee to the existing and future holders of such Senior Secured Indebtedness of the Company which otherwise would have been made to Debentureholders is not, as between the Company and the Debentureholders, a payment by the Company to such Debentureholders, it being understood that the provisions of this Article 6 and Article 4 of the Guarantee are and are intended solely for the purpose of defining the relative rights of the holders of the Debentures, on the one hand, and the holders of Senior Secured Indebtedness, on the other hand.

The Debenture Trustee, on behalf of each of the Debentureholders, hereby waives any and all rights to require a Senior Creditor to pursue or exhaust any rights or remedies with respect to the Company, Atlantic Holdings or any other Guarantor or any property and assets subject to the Senior Security or in any other manner to require the marshalling of property, assets or security in connection with the exercise by the Senior Creditors of any rights, remedies or recourses available to them.

### **6.4 Obligation to Pay Not Impaired**

Subject at all times to the terms and provisions of this Article 6 and Article 4 of the Guarantee, nothing contained in this Indenture or in the Debentures is intended to or shall impair, as between the Company, its creditors other than the holders of Senior Secured Indebtedness, and the holders of the Debentures, the obligation of the Company, which is absolute and unconditional, to pay to the holders of the Debentures the principal, premium, if any, and interest on the Debentures, as and when the same shall become due and payable in accordance with their terms, or affect the relative rights of the holders of the Debentures and creditors of the Company other than the holders of the Senior Secured Indebtedness and Subordinated Indebtedness, nor, subject to the terms and provisions of this Article 6 and Article 4 of the Guarantee, shall anything herein or therein prevent the Debenture Trustee or the holder of any Debenture from exercising all remedies otherwise permitted by applicable law upon default under this Indenture, subject to the rights, if any, under this Article 6 of the holders of Senior Secured Indebtedness in respect of cash, property or securities of the Company (including without limitation any equity or other ownership interests in or property or collateral of any or all of Atlantic Holdings or any other Guarantor) received upon the exercise of any such remedy.

### **6.5 Prohibited Payments**

Upon the maturity of any Senior Secured Indebtedness by lapse of time, acceleration or otherwise, all obligations in respect of such Senior Secured Indebtedness shall first be paid in full, or shall first have been duly provided for, and all related commitments have been terminated and all letters of credit or other similar instruments issued in connection therewith have been terminated or otherwise expired before any payment is made on account of the Debenture Liabilities.

If (A) a default in the payment of the principal of, premium, if any, or interest on any Senior Secured Indebtedness occurs and is continuing or any other amount owing in respect of any Senior Secured Indebtedness is not paid when due, or (B) any other default on Senior Secured Indebtedness occurs and the maturity of such Senior Secured Indebtedness is accelerated in accordance with its terms, no payment of principal or interest or otherwise (by purchase of Debentures or otherwise) shall be made by the Company with respect to any and all of the Debenture Liabilities unless the default has been cured or waived and any such acceleration has been rescinded or such Senior Secured Indebtedness has been paid in full and all related commitments have been terminated and all letters of credit or other similar instruments issued in connection therewith have been terminated or otherwise expired. However, the Company may make payments with respect to any and all of the Debenture Liabilities without regard to the foregoing if the Company and the Debenture Trustee receive written notice approving such payment from the Representative or Representatives, as the case may be, of such Senior Secured Indebtedness with respect to which either of the events set forth in clause (A) or (B) of the immediately preceding sentence has occurred and is continuing.

During the continuance of a default (other than a default described in clause (A) or (B), of the second preceding sentence) with respect to any Senior Secured Indebtedness pursuant to which the maturity thereof may be accelerated immediately without further notice (except such notice as may be required to effect such acceleration) or the expiration of any applicable grace periods, the Company may not make any payments with respect to any and all of the Debenture Liabilities for a period (a "**Payment Blockage Period**") commencing upon the receipt by the Debenture Trustee (with a copy to the Company) of written notice (a "**Blockage Notice**") of such default from any Representative of such Senior Secured Indebtedness specifying an election to effect a Payment Blockage Period and ending 179 days thereafter (or earlier if such Payment Blockage Period is terminated (i) by written notice to the Debenture Trustee and the Company from the Person or Persons who gave such Blockage Notice, (ii) by repayment in full of such Senior Secured Indebtedness and the termination of all related commitments and the termination or expiration of all letters of credit or other similar instruments issued in connection therewith or (iii) because the default giving rise to such Blockage Notice is no longer continuing). Notwithstanding the provisions described in the immediately preceding sentence (but subject to the provisions contained in the first sentence of this Section 6.5 and Section 6.2), unless the holders of such Senior Secured Indebtedness or a Representative of such holders shall have accelerated the maturity of such Designated Senior Secured Indebtedness, the Company may resume making any payments on any and all of the Debenture Liabilities after the end of such Payment Blockage Period. In no event may the total number of days during which any Payment Blockage Period or Periods is in effect exceed 179 days in the aggregate during any 360 consecutive day period. For purposes of this Section 6.5, no default or event of default that existed or was continuing on the date of the commencement of any Payment Blockage Period with respect to the Senior Secured Indebtedness initiating such Payment Blockage Period shall be, or be made, the basis of the commencement of a subsequent Payment Blockage Period by the Representative of such Designated Senior Secured Indebtedness, whether or not within a period of 360 consecutive days, unless such default or event of default shall have been cured or waived for a period of not less than 90 consecutive days.

After the occurrence of an Event of Default hereunder or a default under the Guarantee, the Company or the Debenture Trustee shall promptly notify the holders of the Senior Secured Indebtedness (or their respective Representatives) of such occurrence. If any Senior Secured Indebtedness is outstanding, the Company may not make any payments on any and all of the Debenture Liabilities until five Business Days after such holders or a Representative of the Senior

Secured Indebtedness receives notice of such occurrence and, thereafter, may make payments on any and all of the Debenture Liabilities only if the provisions of this Article 6 otherwise permit payment at that time.

In the event that, after the happening of such default or Event of Default or default under the Guarantee and notwithstanding the foregoing paragraph, any payment on account of the Debenture Liabilities or any "Guaranty Liabilities" (as defined in the Guarantee) shall be made and be received by the Debenture Trustee or the holders of Debentures before all Senior Secured Indebtedness is paid in full and all related commitments have been terminated and all letters of credit or other similar instruments issued in connection therewith have been terminated or otherwise expired, (other than any payment by issuance of IPSs upon any conversion pursuant to Article 7 or other securities in accordance with Article 7), unless and until such an Event of Default shall have been cured or waived or shall have ceased to exist or the Payment Blockage Period shall have expired, such payment shall be held in trust for the benefit of, and, if and when such Senior Secured Indebtedness shall have become due and payable, shall be paid over to, the holders of such Senior Secured Indebtedness or their representative(s), or to the trustee(s) under any loan agreement indenture or other similar agreement under which any instruments evidencing any of such Senior Secured Indebtedness may have been issued, as their respective interests may appear, for application to the payment of all Senior Secured Indebtedness remaining unpaid until all such Senior Secured Indebtedness shall have been paid in full (and all related commitments have been terminated and all letters of credit or other similar instruments issued in connection therewith have been terminated or otherwise expired) after giving effect to any concurrent payment or distribution to the holders of such Senior Secured Indebtedness in respect thereof; provided, however, subject to the terms and conditions of this Article 6, that the foregoing shall in no way prohibit, restrict or prevent the Debenture Trustee from taking such actions as may be necessary to preserve claims of the Debenture Trustee and/or the holders of the Debentures under this Indenture in any bankruptcy, reorganization or insolvency proceeding (including, without limitation, the filing of proofs of claim in any such bankruptcy, reorganization or insolvency proceedings by or against the Company, Atlantic Holdings or any other Guarantor and exercising its rights to vote as an unsecured creditor under any such bankruptcy, reorganization or insolvency proceedings commenced by or against the Company, Atlantic Holdings or any other Guarantor).

The fact that any payment hereunder is prohibited by this Section 6.5 shall not prevent the failure to make such payment from being an Event of Default hereunder.

#### **6.6 Payment on Debentures Permitted**

Except as provided by Section 6.5, nothing contained in this Article 6 or elsewhere in this Indenture, or in any of the Debentures, shall affect the obligation of the Company to make, or prevent the Company from making, at any time except during the pendency of any dissolution, winding up or liquidation of the Company or reorganization proceeding specified in Section 6.2 affecting the affairs of the Company any payment of principal of or interest on the Debentures. For greater certainty, except as provided in Section 6.5, the Company shall not be prevented from making any payment of principal of or interest on the Debentures on each Interest Payment Date, on the Maturity Date or on the Redemption Date. The fact that any payment in respect of the Debentures is prohibited by this Article 6 or under any instrument relating to Senior Secured Indebtedness shall not prevent the failure to make such payment from being an Event of Default hereunder. Nothing contained in this Article 6 or elsewhere in this Indenture, or in any of the Debentures, shall prevent the conversion of the Debentures or, except as prohibited by Section 6.5, the application by the

Debenture Trustee of any monies deposited with the Debenture Trustee hereunder for the purpose, to the payment of or on account of the Debenture Liabilities.

**6.7 Confirmation of Subordination**

Each holder of Debentures by his acceptance thereof authorizes and directs the Debenture Trustee on his behalf to take such action as may be necessary or appropriate to effectuate the subordination as provided in this Article 6 and Article 4 of the Guarantee and appoints the Debenture Trustee his attorney-in-fact for any and all such purposes. This power of attorney, being coupled with an interest and rights, shall be irrevocable. Upon request of the Company or any Guarantor, and upon being furnished a Certificate of the Manager stating that one or more named persons are Senior Creditors and specifying the amount and nature of the Senior Secured Indebtedness of such Senior Creditor, the Debenture Trustee shall enter into a written acknowledgement, confirmation and/or agreement with the Company, any such Guarantor and/or the person or persons named in such Certificate of the Manager acknowledging, confirming and/or providing that such person or persons are entitled to all the rights and benefits of this Article 6 and Article 4 of the Guarantee as a Senior Creditor. Such instruments shall be conclusive evidence that the indebtedness specified therein is Senior Secured Indebtedness. However, nothing herein or in the Guarantee shall impair the rights of any Senior Creditor who has not entered into such an agreement or instrument including without limitation any Senior Creditor that is a holder of Indebtedness with respect to either or both of the Senior Credit Agreements.

**6.8 Knowledge of Debenture Trustee**

Notwithstanding the provisions of this Article 6 or any provision in this Indenture or in the Debentures, the Debenture Trustee will not be charged with knowledge of any Senior Secured Indebtedness or of any default in the payment thereof or any other default or event of default, or of the existence of any other fact that would prohibit the making of any payment of monies to or by the Debenture Trustee, or the taking of any other action by the Debenture Trustee, unless and until the Debenture Trustee has received written notice thereof from the Company, any Debentureholder, any Senior Creditor or a trustee on behalf of anyone or more Senior Creditors, and such notice to the Debenture Trustee shall be deemed to be notice to holders of the Debentures; provided, however, that the Debenture Trustee agrees and acknowledges that each of the Senior Credit Agreements and the Indebtedness incurred in connection therewith are and shall be Senior Secured Indebtedness. It is acknowledged that any Event of Default hereunder constitutes a default under each of the Senior Credit Agreements. The Debenture Trustee will notify holders of Debentures as soon as reasonably practical of such notice.

**6.9 Debenture Trustee May Hold Senior Secured Indebtedness**

The Debenture Trustee is entitled to all the rights set forth in this Article 6 with respect to any Senior Secured Indebtedness at the time held by it, to the same extent as any other holder of Senior Secured Indebtedness, and nothing in this Indenture deprives the Debenture Trustee of any of its rights as such holder.

**6.10 Rights of Holders of Senior Secured Indebtedness Not Impaired**

No right of any present or future holder of any Senior Secured Indebtedness to enforce the subordination herein will at any time or in any way be prejudiced or impaired by any act

or failure to act on the part of the Company or by any non-compliance by the Company with the terms, provisions and covenants of this Indenture, regardless of any knowledge thereof which any such holder may have or be otherwise charged with.

**6.11 Altering the Senior Secured Indebtedness**

The holders of the Senior Secured Indebtedness have the right to extend, renew, increase, modify or amend the terms of the Senior Secured Indebtedness (including increasing the principal amount of the Senior Secured Indebtedness) or the Senior Security and to release, sell or exchange the Senior Security and otherwise to deal freely with each of the Company, Atlantic Holdings and the Company's other Significant Entities, all without notice to or consent of the Debentureholders or the Debenture Trustee and without affecting the liabilities and obligations of the parties to this Indenture or the Debentureholders or the Debenture Trustee.

**6.12 Additional Indebtedness**

This Indenture does not restrict the Company from incurring additional indebtedness for borrowed money or otherwise or mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing.

**6.13 Right of Debentureholder to Convert Not Impaired**

The subordination of the Debentures to the Senior Secured Indebtedness and the provisions of this Article 6 do not impair in any way the right of a Debentureholder to convert its Debentures pursuant to Article 7.

**6.14 Invalidated Payments**

In the event that any of the Senior Secured Indebtedness shall be paid in full and any related commitments shall be terminated and any letters of credit or other similar instruments issued in connection therewith shall have been terminated or otherwise expired and subsequently, for whatever reason, such formerly paid or satisfied Senior Secured Indebtedness becomes unpaid or unsatisfied, such commitments are reinstated or such letters of credit or other instruments become effective and are outstanding, the terms and conditions of this Article 6 shall be reinstated and the provisions of this Article shall again be operative until all Senior Secured Indebtedness is repaid in full and any related commitments shall be terminated and any letters of credit or other similar instruments issued in connection therewith shall have been terminated or otherwise expired, provided that such reinstatement shall not give the Senior Creditors any rights or recourses against the Debenture Trustee or the Debentureholders for amounts paid to the Debentureholders subsequent to such payment or satisfaction in full and prior to such reinstatement.

**6.15 Contesting Security**

The Debenture Trustee, for itself and on behalf of the Debentureholders, agrees that it shall not contest or bring into question the validity, perfection or enforceability of any of the Senior Security or Senior Secured Indebtedness, or the relative priority of the Senior Security or Senior Secured Indebtedness including, without limitation, pursuant to this Indenture, any Debentures or any Guarantee.

**6.16 Obligations Created by Article 6**

The Company and the Debenture Trustee, in its capacity as trustee hereunder and not in its corporate personal capacity, agree, and each holder by its acceptance of a Debenture likewise agrees, that:

- (a) the provisions of this Article 6 and/or Article 4 of the Guarantee are an inducement and consideration to each holder of Senior Secured Indebtedness to give or continue credit to the Company, Atlantic Holdings, the Company's other Significant Entities or others or to acquire Senior Secured Indebtedness;
- (b) each holder of Senior Secured Indebtedness may accept the benefit of this Article 6 and/or Article 4 of the Guarantee on the terms and conditions set forth in this Article 6 and/or Article 4 of the Guarantee, by giving or continuing credit to the Company, Atlantic Holdings, the Company's other Significant Entities or others or by acquiring or having outstanding as of the date hereof Senior Secured Indebtedness, in each case without notice to the Debenture Trustee and without establishing actual reliance on this Article 6 and/or Article 4 of the Guarantee; and
- (c) each obligation created by this Article 6 and/or Article 4 of the Guarantee is created for the benefit of the holders of Senior Secured Indebtedness and is hereby declared to be created in trust for those holders by the Company, the Debenture Trustee and each holder of a Debenture and shall be binding on the Company, the Debenture Trustee and each holder of a Debenture whether or not any confirmation described in Section 6.7 or in Article 4 of the Guarantee is requested, executed or delivered.

**6.17 No Set-Off**

Each of the Company and the Debenture Trustee agrees, and each holder of a Debenture, by his acceptance thereof, likewise agrees, that it shall have no rights of set-off or counterclaim with respect to the principal of, premium, if any, and interest on the Debentures at any time when any payment of, or in respect of, such amounts to the Debenture Trustee or the holder of a Debenture is prohibited by this Article 6 or is otherwise required to be paid to the holders of Senior Secured Indebtedness or their representative or to the trustee under any indenture under which any instruments evidencing any of such Senior Secured Indebtedness may have been issued, as their respective interests may appear.

**6.18 Amendments to Article 6**

Each of the Company and the Debenture Trustee (relying on the opinion of Counsel) agrees, and each holder of a Debenture, by his acceptance thereof, likewise agrees, not to make any changes to this Indenture or the Debentures, including this Article 6 or Article 4 of the Guarantee or the definition of Senior Secured Indebtedness, which prejudice the rights of the holders of Senior Secured Indebtedness under this Article 6 or Article 4 of the Guarantee without the consent of the holders of Senior Secured Indebtedness, including the Senior Creditors under either or both of the Senior Credit Agreements, or their representative or the trustee under any indenture under which any instruments evidencing any of such Senior Secured Indebtedness may have been issued.

**ARTICLE 7  
CONVERSION OF DEBENTURES**

**7.1 Applicability of Article**

Any Debentures issued hereunder of any series which by their terms are convertible (subject, however, to any applicable restriction of the conversion of Debentures of such series) will be convertible into Freely Tradeable IPSs or other securities, at such exchange rate or rates, and on such date or dates and in accordance with such other provisions as shall have been determined at the time of issue of such Debentures and shall have been expressed in this Indenture, in such Debentures, in a Certificate of the Manager, or in a supplemental indenture authorizing or providing for the issue thereof.

Such right of conversion shall extend only to the maximum number of whole IPSs into which the aggregate principal amount of the Debenture or Debentures surrendered for conversion at any one time by the holder thereof may be converted. Fractional interests in IPSs shall be adjusted for in the manner provided in Section 7.6.

**7.2 Notice of Expiry of Conversion Privilege**

Notice of the expiry of the conversion privileges of the Debentures shall be given by or on behalf of the Company, not more than 60 days and not less than 30 days prior to the date fixed for the Time of Expiry, in the manner provided in Section 15.2.

**7.3 Revival of Right to Convert**

If the redemption of any Debenture called for redemption by the Company is not made or the payment of the purchase price of any Debenture which has been tendered pursuant to the Put Right or in acceptance of any offer by the Company to purchase Debentures for cancellation is not made, in the case of a redemption upon due surrender of such Debenture or in the case of a purchase on the date on which such purchase is required to be made, as the case may be, then, the right to convert such Debenture shall revive and continue as if such Debenture had not been called for redemption or tendered in acceptance of the Company's offer, respectively.

**7.4 Manner of Exercise of Right to Convert**

- (a) The holder of a Debenture desiring to convert such Debenture in whole or in part into IPSs shall surrender such Debenture to the Debenture Trustee at its principal offices in Toronto together with the conversion form attached hereto as Schedule D duly executed by the holder or his or her executors or administrators or other legal representatives or his, her or their attorney duly appointed by an instrument in writing in form and executed in a manner satisfactory to the Debenture Trustee, exercising his or her right to convert such Debenture in accordance with the provisions of this Article 7; provided that with respect to a Global Debenture, the obligation to surrender a Debenture to the Debenture Trustee shall be satisfied if the Debenture Trustee makes notation on the Global Debenture of the principal amount thereof so converted and the Debenture Trustee is provided with all other documentation which it may request. Thereupon, subject to payment of all applicable stamp or security transfer, income, withholding or other taxes or other governmental charges and

compliance with all reasonable requirements of the Debenture Trustee (including, for greater certainty, the withholding obligation of the Debenture Trustee pursuant to Section 16.20 hereof), the Conversion Price shall have been paid and such Debentureholder or his or her nominee(s) or assignee(s) shall be entitled to be entered in the books of the Company on the Business Day immediately after the Date of Conversion (or such later date as is specified in Section 7.4(b)), as the holder of the number of IPSs into which such Debenture is convertible, net of applicable withholding taxes, if any, in accordance with the provisions of this Article and, as soon as practicable thereafter, the Company shall deliver a certificate or certificates for such IPSs and the Company shall (i) deliver or cause to be delivered to the Debentureholder, or subject as aforesaid, his or her nominee(s) or assignee(s) such certificate or certificates for such IPSs; and (ii) make or cause to be made any payment of interest to which such holder is entitled in accordance with Section 7.4(e) hereof or in respect of fractional IPSs as provided in Section 7.6.

- (b) For the purposes of this Article, a Debenture shall be deemed to be surrendered for conversion on the date on which it is so surrendered in proper form when the register of the Debenture Trustee is open and in accordance with the provisions of this Article or, in the case of a Global Debenture, on the date on which the Debenture Trustee received notice of and all necessary documentation in respect of the exercise of the conversion rights and, in the case of a Debenture so surrendered by post or other means of transmission, on the date on which it is received in proper form by the Debenture Trustee at its office specified in Section 7.4(a); provided that if a Debenture is surrendered for conversion on a day on which the register of IPSs is closed, the Person or Persons entitled to receive IPSs shall become the holder or holders of record of such IPSs as at the date on which such registers are next reopened (in each case the "Date of Conversion").
- (c) Any part, being \$1,000 (in the currency of the applicable Debenture) or an integral multiple thereof, of a Debenture in a denomination in excess of \$1,000 (in the currency of the applicable Debenture) may be converted as provided in this Article 7 and all references in this Indenture to conversion of Debentures shall be deemed to include conversion of such parts.
- (d) The holder of any Debenture of which only a part is converted shall, upon the exercise of his or her right of conversion, surrender such Debenture to the Debenture Trustee, and the Debenture Trustee shall cancel the same and shall without charge forthwith certify and deliver to the holder a new Debenture or Debentures in an aggregate principal amount equal to the unconverted part of the principal amount of the Debenture so surrendered or, with respect to a Global Debenture, the Depository shall make notations on the Global Debentures of the principal amount thereof so converted.
- (e) The holder of a Debenture surrendered for conversion in accordance with this Section 7.4 shall be entitled (subject to any applicable restriction on the right to receive interest on conversion of Debentures of any series) to receive accrued and unpaid interest in respect thereof from and including the most recent Interest Payment Date to which interest has been paid to, but not including, the Date of Conversion of such Debenture (less applicable withholding taxes, if any) and the IPSs issued upon such

conversion shall be entitled to distributions or dividends declared in favour of holders of IPSs of record on and after the Date of Conversion or such later date as such holder shall become the holder of record of such IPSs pursuant to Section 7.4(b), from which applicable date they will for all purposes be and be deemed to be issued and outstanding as fully paid and non-assessable Common Shares and fully-paid Subordinated Notes.

- (f) The security granted in respect of the Debentures pursuant to Article 18 shall terminate as of the Date of Conversion in respect of each Debenture converted in accordance with this Article 7 with no further formality.
- (g) The Subordinated Notes forming part of the IPSs issued to a Debentureholder upon conversion of a Debenture pursuant to this Article 7 shall be secured pursuant to the Subordinated Note Indenture and ancillary security documentation.

#### **7.5 Adjustment of Conversion Price**

The Conversion Price in effect at any date shall be subject to adjustment from time to time as set forth below.

- (a) If and whenever at any time prior to the Time of Expiry the Company shall (i) subdivide or redivide the outstanding IPSs into a greater number of IPSs, (ii) reduce, combine or consolidate the outstanding IPSs into a smaller number of IPSs, or (iii) issue IPSs (or securities convertible into or exchangeable for IPSs) to the holders of all or substantially all of the outstanding IPSs by way of a dividend or distribution or otherwise, the Conversion Price in effect on the effective date of such subdivision, redivision, reduction, combination or consolidation or on the record date for such issue of IPSs by way of a dividend or distribution, as the case may be, shall in the case of any of the events referred to in (i) and (iii) above be decreased in proportion to the number of outstanding IPSs resulting from such subdivision, redivision or dividend or distribution, or shall, in the case of any of the events referred to in (ii) above, be increased in proportion to the number of outstanding IPSs resulting from such reduction, combination or consolidation. Such adjustment shall be made successively whenever any event referred to in this Section 7.5(a) shall occur. Any such issue of IPSs by way of a dividend or distribution shall be deemed to have been made on the record date for the dividend or distribution for the purpose of calculating the number of outstanding IPSs under subsections (b) and (c) of this Section 7.5. Upon any adjustment to the Conversion Price as set out in this Section 7.5(a), the number of IPSs to be issued upon conversion shall in the case of any of the events referred to in (i) or (iii) above be increased in proportion to the number of outstanding IPSs resulting from such subdivision, redivision, dividend or distribution, or shall in the case of any of the events referred to in (ii) above, be decreased in proportion to the number of outstanding IPSs resulting from such reduction, combination or consolidation.
- (b) If and whenever at any time prior to the Time of Expiry, the Company shall fix a record date for the issuance of options, rights or warrants to all or substantially all the holders of its outstanding IPSs entitling them, for a period expiring not more than 45 days after such record date, to subscribe for or purchase IPSs (or securities

convertible into or exchangeable for IPSs) at a price per IPS (or having a conversion price per IPS) less than 95% of the Current Market Price of the IPSs on such record date, the Conversion Price shall be adjusted immediately after such record date so that it shall equal the price determined by multiplying the Conversion Price in effect on such record date by a fraction, of which the numerator shall be the total number of IPSs outstanding on such record date plus a number of IPSs equal to the number arrived at by dividing the aggregate price of the total number of additional IPSs offered for subscription or purchase (or the aggregate conversion price of the convertible or exchangeable securities so offered) by such Current Market Price per IPS, and of which the denominator shall be the total number of IPSs outstanding on such record date plus the total number of additional IPSs offered for subscription or purchase (or into which the convertible or exchangeable securities so offered are convertible or exchangeable). Such adjustment shall be made successively whenever such a record date is fixed. To the extent that any such options, rights or warrants are not so issued or any such options, rights or warrants are not exercised prior to the expiration thereof, the Conversion Price shall be re-adjusted to the Conversion Price which would then be in effect if such record date had not been fixed or to the Conversion Price which would then be in effect based upon the number of IPSs (or securities convertible into or exchangeable for IPSs) actually issued upon the exercise of such options, rights or warrants, as the case may be.

- (c) If and whenever at any time prior to the Time of Expiry, the Company shall fix a record date for the making of a distribution to all or substantially all the holders of its outstanding IPSs of (i) securities of any class other than IPSs, (ii) rights, options or warrants (excluding rights, options or warrants entitling the holders thereof for a period of not more than 45 days to subscribe for or purchase IPSs or securities convertible into or exchangeable for IPSs), (iii) evidences of its indebtedness, or (iv) assets (excluding dividends or distributions paid (including payments on the Subordinated Notes) in the ordinary course) then, in each such case, the Conversion Price shall be adjusted immediately after such record date so that it shall equal the price determined by multiplying the Conversion Price in effect on such record date by a fraction, of which the numerator shall be the total number of IPSs outstanding on such record date multiplied by the Current Market Price per IPS on such record date, less the fair market value (as determined by the Directors, which determination shall be conclusive) of such IPSs, securities other than IPSs, or rights, options or warrants or evidences of indebtedness or assets so distributed, and of which the denominator shall be the total number of IPSs outstanding on such record date multiplied by such Current Market Price per IPS. Such adjustment shall be made successively whenever such a record date is fixed. To the extent that such distribution is not so made, the Conversion Price shall be re-adjusted to the Conversion Price which would then be in effect if such record date had not been fixed or to the Conversion Price which would then be in effect based upon such IPSs, securities other than IPSs, or rights, options or warrants or evidences of indebtedness or assets actually distributed, as the case may be. In clause (iv) of this Section 7.5(c) the term "dividends or distributions paid in the ordinary course" shall include the value of any securities or other property or assets distributed in lieu of cash dividends or distributions paid in the ordinary course at the option of holders of IPSs.

- (d) If and whenever at any time prior to the Time of Expiry, there is a reclassification of the IPSs (or either of the Common Shares or Subordinated Notes comprising the IPSs) or a capital reorganization of the Company other than as described in Section 7.5(a) or a consolidation, amalgamation, arrangement or merger of the Company with or into any other Person or other entity, or a sale or conveyance of the property and assets of the Company as an entirety or substantially as an entirety to any other Person or other entity or a liquidation, dissolution or winding-up of the Company, any holder of a Debenture who has not exercised its right of conversion prior to the effective date of such reclassification, capital reorganization, consolidation, amalgamation, arrangement or merger, sale or conveyance or liquidation, dissolution or winding-up or other similar transaction, upon the exercise of such right thereafter, shall be entitled to receive and shall accept, in lieu of the number of IPSs then sought to be acquired by it, the kind and amount of securities or property of the Company or of the Person or other entity resulting from such merger, amalgamation or consolidation or other similar transaction, or to which such sale or conveyance may be made or which holders of IPSs receive pursuant to such liquidation, dissolution or winding-up, as the case may be, that such holder of a Debenture would have been entitled to receive on such reclassification, capital reorganization, consolidation, amalgamation, arrangement or merger, sale or conveyance or liquidation, dissolution or winding-up or other similar transaction, if, on the record date or the effective date thereof, as the case may be, the holder had been the registered holder of the number of IPSs sought to be acquired by it and to which it was entitled to acquire upon the exercise of the conversion right prior to the effective date of such reclassification, capital reorganization, consolidation, amalgamation, arrangement or merger, sale or conveyance or liquidation, dissolution or winding-up or other similar transaction. If determined appropriate by the Directors, to give effect to or to evidence the provisions of this Section 7.5(d), the Company, its successor, or such purchasing Person or other entity, as the case may be, shall, prior to or contemporaneously with any such reclassification, capital reorganization, consolidation, amalgamation, arrangement, merger, sale or conveyance or liquidation, dissolution or winding-up or other similar transaction, enter into an indenture which shall provide, to the extent possible, for the application of the provisions set forth in this Indenture with respect to the rights and interests thereafter of the holder of Debentures to the end that the provisions set forth in this Indenture shall thereafter correspondingly be made applicable, as nearly as may reasonably be, with respect to the kind and amount of securities or property of the Company or other securities or property to which a holder of Debentures is entitled on the exercise of its acquisition rights thereafter. Any indenture entered into between the Company and the Debenture Trustee pursuant to the provisions of this Section 7.5(d) shall be a supplemental indenture entered into pursuant to the provisions of Article 17. Any indenture entered into between the Company, any successor to the Company or such purchasing Person or other entity, the Company and the Debenture Trustee shall provide for adjustments which shall be as nearly equivalent as may be practicable to the adjustments provided in this Section 7.5(d) and which shall apply to successive reclassifications, capital reorganizations, amalgamations, consolidations, mergers, sales or conveyances or other similar transactions.
- (e) In any case in which this Section 7.5 shall require that an adjustment shall become effective immediately after a record date for an event referred to herein, the Company

may defer, until the occurrence of such event, issuing to the holder of any Debenture converted after such record date and before the occurrence of such event the additional IPSs or other securities or property issuable upon such conversion by reason of the adjustment required by such event before giving effect to such adjustment; provided, however, that the Company shall deliver to such holder an appropriate instrument evidencing such holder's right to receive such additional IPSs or other securities or property upon the occurrence of the event requiring such adjustment and the right to receive any distributions made on such additional IPSs or other securities or property declared in favour of holders of record of IPSs on and after the Date of Conversion or such later date as such holder would, but for the provisions of this Section 7.5(e), have become the holder of record of such additional IPSs pursuant to Section 7.4(b).

- (f) The adjustments provided for in this Section 7.5 are cumulative and shall apply to successive subdivisions, redivisions, reductions, combinations, consolidations, distributions, issues or other events resulting in any adjustment under the provisions of this Section, provided that, notwithstanding any other provision of this Section, no adjustment of the Conversion Price shall be required unless such adjustment would require an increase or decrease of at least 1% in the Conversion Price then in effect; provided however, that any adjustments which by reason of this Section 7.5(f) are not required to be made shall be carried forward and taken into account in any subsequent adjustment.
- (g) In the event of any question arising with respect to the adjustments provided in this Section 7.5, such question shall be conclusively determined by a firm of chartered accountants appointed by the Company and acceptable to the Debenture Trustee (who may be the auditors of the Company); such accountants shall have access to all necessary records of the Company and such determination shall be binding upon the Company, the Debenture Trustee, and the Debentureholders.
- (h) In case the Company shall take any action, or any event shall occur, affecting the IPSs other than action described in this Section 7.5, which in the opinion of the Directors, would materially affect the rights of Debentureholders, the Conversion Price and the IPSs, Common Shares, Subordinated Notes or other securities or property issuable or deliverable upon a conversion of Debentures, as applicable, shall be adjusted in such manner and at such time, by action of the Directors, subject to, as required, the prior written consent of the TSX (or, if the Debentures are not listed thereon, such other exchange on which the Debentures are then listed), as the Directors, in their sole discretion may determine to be equitable in the circumstances. Failure of the Directors to make such an adjustment shall be conclusive evidence that they have determined that it is equitable to make no adjustment in the circumstances.
- (i) Subject to, as required, the prior written consent of the TSX (or, if the Debentures are not listed thereon, such other exchange on which the Debentures are then listed), no adjustment in the Conversion Price shall be made in respect of any event described in Sections 7.5(a), 7.5(b) or 7.5(c) other than the events described in 7.5(a)(i) or 7.5(a)(ii) if the holders of the Debentures are entitled to participate in such event on the same terms *mutatis mutandis* as though and with the same effect as if they had

converted their Debentures prior to the effective date or record date, as the case may be, of such event.

- (j) Except as stated above in this Section 7.5, no adjustment will be made in the Conversion Price for any Debentures as a result of the issuance of IPSs at less than the Current Market Price for such IPSs on the date of issuance.

#### **7.6 No Requirement to Issue Fractional IPSs**

The Company shall not be required to cause the issuance of fractional IPSs upon the conversion of Debentures pursuant to this Article. If more than one Debenture shall be surrendered for conversion at one time by the same holder, the number of whole IPSs issuable upon conversion thereof shall be computed on the basis of the aggregate principal amount of such Debentures to be converted. If any fractional interest in an IPS would, except for the provisions of this Section, be deliverable upon the conversion of any principal amount of Debentures, the Company shall, in lieu of delivering, or causing the delivery of, any certificate representing such fractional interest, make a cash payment to the holder of such Debenture of an amount equal to the Current Market Price of such fractional interest.

#### **7.7 Company to Reserve IPSs**

The Company covenants with the Debenture Trustee that it will at all times reserve and keep available out of its authorized IPSs (if the number thereof is or becomes limited), solely for the purpose of issuing such IPSs in connection with a conversion of Debentures, such number of IPSs as shall then be deliverable by the Company upon the conversion of all outstanding Debentures at that time, to enable and permit the Company to perform its obligation hereunder to deliver the requisite number of IPSs to Debentureholders who exercise their conversion rights hereunder. The Company covenants with the Debenture Trustee that all IPSs, which shall be so issuable, shall be duly and validly issued as fully-paid and non-assessable upon receipt by the Company of the Conversion Price. The Company further covenants with the Debenture Trustee that it shall take all actions and do all things necessary or desirable to enable and permit the Company, in accordance with applicable law, to perform all of its obligations hereunder.

#### **7.8 Cancellation of Converted Debentures**

All Debentures converted in whole or in part under the provisions of this Article shall be forthwith delivered to and cancelled by the Debenture Trustee and, subject to the provisions of Section 7.4 as to Debentures converted in part, no Debenture shall be issued in substitution therefor.

#### **7.9 Certificate as to Adjustment**

The Company shall from time to time immediately after it has acquired actual knowledge of the occurrence of any event which requires an adjustment or readjustment as provided in Section 7.5, deliver a Certificate of the Manager to the Debenture Trustee specifying the nature of the event requiring the same and the amount of the adjustment necessitated thereby and setting forth in reasonable detail the method of calculation and the facts upon which such calculation is based, which certificate and the amount of the adjustment specified therein may be relied upon by the Debenture Trustee and shall be verified by an opinion of a nationally recognized firm of chartered accountants appointed by the Company and acceptable to the Debenture Trustee (who may be the

auditors of the Company) and shall be conclusive and binding on all parties in interest. When so approved, the Company shall, except in respect of any subdivision, redivision, reduction, combination or consolidation of IPSs, forthwith give notice to the Debentureholders in the manner provided in Section 15.2 specifying the event requiring such adjustment or readjustment and the results thereof, including the resulting Conversion Price.

#### **7.10 Notice of Special Matters**

The Company covenants with the Debenture Trustee that so long as any Debenture remains outstanding, it will give written notice to the Debenture Trustee, and to the Debentureholders in the manner provided in Section 15.2, of its intention to fix a record date for any event referred to in Section 7.5(a), (b) or (c) or (d) (other than the subdivision, redivision, reduction, combination or consolidation of its IPSs) which may give rise to an adjustment in the Conversion Price, and, in each case, such notice shall specify the particulars of such event and the record date and the effective date for such event; provided that the Company shall only be required to specify in such notice such particulars of such event as shall have been fixed and determined on the date on which such notice is given. Such notice shall be given not less than fourteen (14) days in each case prior to such applicable record date.

#### **7.11 Protection of Debenture Trustee**

Subject to Section 16.3, the Debenture Trustee:

- (a) shall not at any time be under any duty or responsibility to any Debentureholder to determine whether any facts exist which may require any adjustment in the Conversion Price, or with respect to the nature or extent of any such adjustment when made, or with respect to the method employed in making the same;
- (b) shall not be accountable with respect to the validity or value (or the kind or amount) of any IPSs or other securities or property which may at any time be issued or delivered upon the conversion of any Debenture; and
- (c) shall not be responsible for any failure of the Company to make any cash payment or to issue, transfer or deliver IPSs upon the surrender of any Debenture for the purpose of conversion, or to comply with any of the covenants contained in this Article.

#### **7.12 Allocation of IPSs**

Upon the conversion of Debentures into IPSs pursuant to this Article 7, the Company will allocate the fair market value of such Debentures between the Common Shares and Subordinated Notes represented by IPSs acquired on the conversion on a reasonable basis. Such determinations will be disclosed in the continuous disclosure documentation of the Company as filed with the applicable securities regulators from time to time. By purchasing a Debenture, the holder (i) is deemed to agree to such allocation, which shall be incorporated into this Indenture by reference and binding upon the parties hereto and all holders, and (ii) agrees not to take a contrary position for any purpose.

## **ARTICLE 8 COVENANTS OF THE COMPANY**

The Company hereby covenants and agrees with the Debenture Trustee for the benefit of the Debenture Trustee and the Debentureholders, that so long as any Debentures remain outstanding:

### **8.1 To Pay Principal and Interest**

Subject at all times to the provisions of Article 6 hereof, the Company will duly and punctually pay or cause to be paid to every Debentureholder the principal of and interest accrued on the Debentures of which it is the holder on the dates, at the places and in the manner mentioned herein and in the Debentures.

### **8.2 To Pay Debenture Trustee's Remuneration**

The Company will pay the Debenture Trustee reasonable remuneration for its services as Debenture Trustee hereunder and will repay to the Debenture Trustee on demand all monies which shall have been paid by the Debenture Trustee in connection with the execution of the trusts hereby created and such monies including the Debenture Trustee's remuneration, shall be payable out of any funds coming into the possession of the Debenture Trustee in priority to any of the Debentures or interest thereon. Any amount due under this Section and unpaid thirty days after written request for such payment shall bear interest from the expiration of such thirty days at a rate per annum equal to the then rate charged by the Debenture Trustee under similar indentures from time to time, payable on demand. Such remuneration shall continue to be payable until the trusts hereof be finally wound up and whether or not the trusts of this Indenture shall be in the course of administration by or under the direction of a court of competent jurisdiction.

### **8.3 To Give Notice of Default**

The Company shall notify the Debenture Trustee in writing immediately upon obtaining knowledge of any Event of Default hereunder.

### **8.4 Preservation of Existence, etc.**

Subject to Article 12 hereof, the Company shall, and shall cause each Significant Entity in which it directly or indirectly owns more than 50% of the total voting or equity interests and (to the extent that the Company has any direct or indirect contractual or other approval rights over the actions of such Significant Entity) any of its other Significant Entities, to preserve, renew and maintain in full force and effect its legal existence and good standing under the laws of the jurisdiction of its organization; and, except where failure to do so would not have a Material Adverse Effect, take all reasonable action to maintain all rights, privileges, permits, licenses and franchises necessary or desirable in the normal conduct of its business.

### **8.5 Keeping of Books**

The Company will keep or cause to be kept proper books of record and account, in which full and correct entries shall be made of all financial transactions and the assets and business of the Company in accordance with generally accepted accounting principles.

**8.6 Reporting Requirements**

In the event that the Company has Global Debentures outstanding, the Company will provide the Depository with copies of continuous disclosure documents furnished to holders of its IPSs under Applicable Securities Legislation.

**8.7 Performance of Covenants by Debenture Trustee**

If the Company shall fail to perform any of its covenants contained in this Indenture, the Debenture Trustee may notify the Debentureholders of such failure on the part of the Company or may itself perform any of the covenants capable of being performed by it, but (subject to Sections 9.2 and 16.3) shall be under no obligation to do so or to notify the Debentureholders. All sums so expended or advanced by the Debenture Trustee shall be repayable as provided in Section 8.2. No such performance, expenditure or advance by the Debenture Trustee shall be deemed to relieve the Company of any default hereunder or from its continuing indebtedness.

**8.8 Listing**

The Company shall use commercially reasonable efforts to ensure that the IPSs and the Debentures, respectively, are listed and posted for trading on the TSX (and the Common Shares forming part of IPSs are listed on the TSX), and shall maintain such listing and posting for trading of the IPSs and the Debentures, respectively, and the Common Shares, on the TSX, and to maintain the Company's status as a "reporting issuer" not in default of Applicable Securities Legislation.

**8.9 Regarding Redemption**

The Company shall not exercise its redemption rights under Article 3 of the Subordinated Note Indenture until such time as there are no longer any Debentures outstanding unless the Company redeems the Debentures concurrently with the Subordinated Notes.

**8.10 Regarding Covenants**

Notwithstanding anything to the contrary contained herein, none of the covenants listed herein shall operate as being more restrictive than the analogous covenants in the Subordinated Note Indenture and Senior Credit Agreements.

**ARTICLE 9  
DEFAULT**

**9.1 Events of Default**

Each of the following events constitutes, and is herein sometimes referred to as, an "Event of Default":

- (a) failure for 30 days to pay interest on the Debentures when due;

- (b) failure to pay principal or premium, if any, on the Debentures when due whether at maturity, upon redemption, by declaration or otherwise;
- (c) the Company fails to comply with Article 12 hereof;
- (d) the Company or any Major Significant Entity of the Company pursuant to or within the meaning of any Bankruptcy Law:
  - (i) commences a voluntary case or proceeding;
  - (ii) consents to the entry of an order for relief against it in an involuntary case or proceeding;
  - (iii) consents to the appointment of a custodian of it or for any substantial part of its property; or
  - (iv) makes a general assignment for the benefit of its creditors;or takes any comparable action under any foreign laws relating to insolvency;
- (e) a court of competent jurisdiction enters an order or decree under any Bankruptcy Law that:
  - (i) is for relief against the Company or any Major Significant Entity of the Company in an involuntary case;
  - (ii) appoints a custodian of the Company or any Major Significant Entity of the Company or for any substantial part of the property of the Company or any Major Significant Entity of the Company; or
  - (iii) orders the winding up or liquidation of the Company or any Major Significant Entity of the Company;or any similar relief is granted under any foreign laws and the order or decree remains unstayed and in effect for 90 days;
- (f) if a resolution is passed for the winding-up or liquidation of the Company except in the course of carrying out or pursuant to a transaction in respect of which the conditions of Section 12.1 are duly observed and performed;
- (g) if, after the date of this Indenture, any proceedings with respect to the Company are taken with respect to a compromise or arrangement, with respect to creditors of the Company generally, under the applicable legislation of any jurisdiction;
- (h) default in the observance or performance of any material covenant or condition of this Indenture by the Company for a period of 30 days after notice in writing has been given by the Debenture Trustee to the Company, as applicable, specifying such default and requiring the Company, as applicable, to remedy such default; or

- (i) failure by the Company or any Significant Entity of the Company to make any payment when due (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise) inclusive of any grace, extension, forbearance or similar period, in respect of any Indebtedness having an aggregate principal amount (including undrawn or unavailable amounts and including amounts owing to all creditors under any combined or syndicated credit arrangement) of more than U.S. \$10,000,000 or failure to observe or perform any other agreement or condition relating to any Indebtedness or contained in any instrument or agreement evidencing, securing or relating thereto, or any other event occurs for a period beyond the applicable grace, cure, extension, forbearance or other similar period the effect of which default or other event is to cause, or to permit the holder or holders of such indebtedness (or a trustee or agent on behalf of such holder or holders) to cause, with the giving of notice if required, such Indebtedness to be demanded or to become due or to be repurchased or redeemed (automatically or otherwise) prior to its stated maturity.

In each and every such event the Debenture Trustee may, in its discretion, and shall, upon receipt of a request in writing signed by the holders of not less than 25% in principal amount of the Debentures then outstanding, and upon being indemnified to its reasonable satisfaction against all fees, costs, expenses and liabilities to be incurred, subject to the provisions of Section 9.3, by notice in writing to the Company declare the principal of (and premium, if any) and interest on all Debentures then outstanding and all other monies outstanding hereunder to be due and payable and the same shall forthwith become immediately due and payable to the Debenture Trustee, and the Company shall subject to Article 6 forthwith pay to the Debenture Trustee for the benefit of the Debentureholders such principal, premium, if any, accrued and unpaid interest and interest on amounts in default on such Debenture and all other monies outstanding hereunder, together with subsequent interest at the rate borne by the Debentures on such principal, interest and such other monies from the date of such declaration until payment is received by the Debenture Trustee, such subsequent interest to be payable at the times and places and in the monies mentioned in and according to the tenor of the Debentures. Such payment when made shall be deemed to have been made in discharge of the Company's obligations hereunder and any monies so received by the Debenture Trustee shall be applied in the manner provided in Section 9.6. For greater certainty, for the purposes of this Section 9.1, a series of Debentures shall be in default in respect of an Event of Default if such Event of Default relates to a default in the payment of principal, premium, if any, or interest on the Debentures of such series in which case references to Debentures in this Section 9.1 refer to Debentures of that particular series. For purposes of this Article 9, where the Event of Default refers to an Event of Default with respect to a particular series of Debentures as described in this Section 9.1, then this Article 9 shall apply *mutatis mutandis* to the Debentures of such series and references in this Article 9 to the Debentures shall mean Debentures of the particular series and references to the Debentureholders shall refer to the Debentureholders of the particular series, as applicable.

## **9.2 Notice of Events of Default**

If an Event of Default shall occur and be continuing the Debenture Trustee shall, within 30 days after it receives written notice of the occurrence of such Event of Default, give notice of such Event of Default: (i) to the Debentureholders in the manner provided in Section 15.1; and (ii) relying upon contact information provided by the Company from time to time, to the agent(s) under the Senior Credit Agreements, provided that the Debenture Trustee shall be entitled to rely on such notice and shall not be subject to any liability as a result of its inadvertent failure to provide such

notice. Notwithstanding the foregoing, unless the Debenture Trustee shall have been requested to do so by the holders of at least 25% of the principal amount of the Debentures then outstanding, the Debenture Trustee shall not be required to give such notice if the Debenture Trustee in good faith shall have determined that the withholding of such notice is in the best interests of the Debentureholders and shall have so advised the Company in writing.

When notice of the occurrence of an Event of Default has been given and the Event of Default is thereafter cured, notice that the Event of Default is no longer continuing shall be given by the Debenture Trustee to the Debentureholders within 15 days after the Debenture Trustee receives written notice that the Event of Default has been cured.

### **9.3 Waiver of Default**

Upon the happening of any Event of Default hereunder:

- (a) the holders of the Debentures shall have the power (in addition to the powers exercisable by Extraordinary Resolution as hereinafter provided) by requisition in writing by the holders of a majority of the principal amount of Debentures then outstanding or by Ordinary Resolution of Debentureholders at a meeting held in accordance with Article 14 hereof, to instruct the Debenture Trustee to waive any Event of Default and to cancel any declaration made by the Debenture Trustee pursuant to Section 9.1 and the Debenture Trustee shall thereupon waive the Event of Default and cancel such declaration, or either, upon such terms and conditions as shall be prescribed in such requisition; provided that notwithstanding the foregoing, if the Event of Default has occurred by reason of the non-observance or non-performance by the Company of any covenant applicable only to one or more series of Debentures, then the holders of a majority of the principal amount of the outstanding Debentures of that series shall be entitled to exercise the foregoing power and the Debenture Trustee shall so act and it shall not be necessary to obtain a waiver from the holders of any other series of Debentures; and
- (b) the Debenture Trustee, so long as it has not become bound to declare the principal and interest on the Debentures then outstanding to be due and payable, or to obtain or enforce payment of the same, shall have power to waive any Event of Default if, in the Debenture Trustee's opinion, relying on the opinion of Counsel, the same shall have been cured or adequate satisfaction made therefor, and in such event to cancel any such declaration theretofore made by the Debenture Trustee in the exercise of its discretion, upon such terms and conditions as the Debenture Trustee may deem advisable.

No such act or omission either of the Debenture Trustee or of the Debentureholders shall extend to or be taken in any manner whatsoever to affect any subsequent Event of Default or the rights resulting therefrom.

### **9.4 Enforcement by the Debenture Trustee**

Subject to the provisions of Section 9.3 and to the provisions of any Extraordinary Resolution that may be passed by the Debentureholders, if the Company shall fail to pay to the Debenture Trustee, forthwith after the same shall have been declared to be due and payable under

Section 9.1, the principal of and premium (if any) and interest on all Debentures then outstanding, together with any other amounts due hereunder, the Debenture Trustee may in its discretion and shall upon receipt of a request in writing signed by the holders of not less than 25% in principal amount of the Debentures then outstanding and upon being funded and indemnified to its reasonable satisfaction against all costs, expenses and liabilities to be incurred, proceed in its name as trustee hereunder to obtain or enforce payment of such principal of and premium (if any) and interest on all the Debentures then outstanding together with any other amounts due hereunder by such proceedings authorized by this Indenture or by law or equity as the Debenture Trustee in such request shall have been directed to take, or if such request contains no such direction, or if the Debenture Trustee shall act without such request, then by such proceedings authorized by this Indenture or by suit at law or in equity as the Debenture Trustee shall deem expedient.

The Debenture Trustee shall be entitled and empowered, either in its own name or as trustee of an express trust, or as attorney-in-fact for the holders of the Debentures, or in any one or more of such capacities, to file such proof of debt, amendment of proof of debt, claim, petition or other document as may be necessary or advisable in order to have the claims of the Debenture Trustee and of the holders of the Debentures allowed in any insolvency, bankruptcy, liquidation or other judicial proceedings relative to the Company or its creditors or relative to or affecting its property. The Debenture Trustee is hereby irrevocably appointed (and the successive respective holders of the Debentures by taking and holding the same shall be conclusively deemed to have so appointed the Debenture Trustee) the true and lawful attorney-in-fact of the respective holders of the Debentures with authority to make and file in the respective names of the holders of the Debentures or on behalf of the holders of the Debentures as a class, subject to deduction from any such claims of the amounts of any claims filed by any of the holders of the Debentures themselves, any proof of debt, amendment of proof of debt, claim, petition or other document in any such proceedings and to receive payment of any sums becoming distributable on account thereof, and to execute any such other papers and documents and to do and perform any and all such acts and things for and on behalf of such holders of the Debentures, as may be necessary or advisable in the opinion of the Debenture Trustee, in order to have the respective claims of the Debenture Trustee and of the holders of the Debentures against the Company or its property allowed in any such proceeding, and to receive payment of or on account of such claims; provided, however, that subject to Section 9.3, nothing contained in this Indenture shall be deemed to give to the Debenture Trustee, unless so authorized by Extraordinary Resolution, any right to accept or consent to any plan of reorganization or otherwise by action of any character in such proceeding to waive or change in any way any right of any Debentureholder.

The Debenture Trustee shall also have the power at any time and from time to time to institute and to maintain such suits and proceedings as it may be advised shall be necessary or advisable to preserve and protect its interests and the interests of the Debentureholders.

All rights of action hereunder may be enforced by the Debenture Trustee without the possession of any of the Debentures or the production thereof at the trial or other proceedings relating thereto. Any such suit or proceeding instituted by the Debenture Trustee shall be brought in the name of the Debenture Trustee as trustee of an express trust, and any recovery of judgment shall be for the rateable benefit of the holders of the Debentures subject to the provisions of this Indenture. In any proceeding brought by the Debenture Trustee (and also any proceeding in which a declaratory judgment of a court may be sought as to the interpretation or construction of any provision of this Indenture, to which the Debenture Trustee shall be a party) the Debenture Trustee shall be held to

represent all the holders of the Debentures, and it shall not be necessary to make any holders of the Debentures parties to any such proceeding.

#### **9.5 No Suits by Debentureholders**

No holder of any Debenture shall have any right to institute any action, suit or proceeding at law or in equity for the purpose of enforcing payment of the principal of or premium (if any) or interest on the Debentures or for the execution of any trust or power hereunder or for the appointment of a liquidator or receiver or for a receiving order under the *Bankruptcy and Insolvency Act* (Canada) or any other bankruptcy, insolvency or analogous laws, or to have the Company wound up or to file or prove a claim in any liquidation or bankruptcy proceeding or for any other remedy hereunder, unless: (a) such holder shall previously have given to the Debenture Trustee written notice of the happening of an Event of Default hereunder; and (b) the Debentureholders by Extraordinary Resolution or by written instrument signed by the holders of at least 25% in principal amount of the Debentures then outstanding shall have made a request to the Debenture Trustee and the Debenture Trustee shall have been afforded reasonable opportunity either itself to proceed to exercise the powers hereinbefore granted or to institute an action, suit or proceeding in its name for such purpose; and (c) the Debentureholders or any of them shall have furnished to the Debenture Trustee, when so requested by the Debenture Trustee, sufficient funds and security and indemnity satisfactory to it against the costs, expenses and liabilities to be incurred therein or thereby; and (d) the Debenture Trustee shall have failed to act within a reasonable time after such notification, request and offer of indemnity and such notification, request and offer of indemnity are hereby declared in every such case, at the option of the Debenture Trustee, to be conditions precedent to any such proceeding or for any other remedy hereunder by or on behalf of the holder of any Debentures.

#### **9.6 Application of Monies by Debenture Trustee**

- (a) Except as herein otherwise expressly provided, any monies received by the Debenture Trustee from the Company pursuant to the foregoing provisions of this Article 9, or as a result of legal or other proceedings or from any trustee in bankruptcy or liquidator of the Company, shall be applied, together with any other monies in the hands of the Debenture Trustee available for such purpose, as follows:
  - (i) first, in payment or in reimbursement to the Debenture Trustee of its compensation, costs, charges, expenses, borrowings, advances or other monies furnished or provided by or at the instance of the Debenture Trustee in or about the execution of its trusts under, or otherwise in relation to, this Indenture, with interest thereon as herein provided;
  - (ii) second, but subject as hereinafter in this Section 9.6 provided, in payment, rateably and proportionately to (and in the case of applicable withholding taxes, if any, on behalf of) the holders of Debentures, of the principal of and premium (if any) and accrued and unpaid interest and interest on amounts in default on the Debentures which shall then be outstanding in the priority of principal first and then premium and then accrued and unpaid interest and interest on amounts in default unless otherwise directed by Extraordinary Resolution and in that case in such order or priority as between principal, premium (if any) and interest as may be directed by such resolution; and

- (iii) third, in payment of the surplus, if any, of such monies to the Company or its assigns; provided, however, that no payment shall be made pursuant to clause (ii) above in respect of the principal, premium or interest on any Debenture held, directly or indirectly, by or for the benefit of the Company or any of its Significant Entities (other than any Debenture pledged for value and in good faith to a person other than the Company or any of its Significant Entities but only to the extent of such person's interest therein) except subject to the prior payment in full of the principal, premium (if any) and interest (if any) on all Debentures which are not so held.
- (b) The Debenture Trustee shall not be bound to apply or make any partial or interim payment of any monies coming into its hands if the amount so received by it, after reserving thereout such amount as the Debenture Trustee may think necessary to provide for the payments mentioned in Section 9.6(a), is insufficient to make a distribution of at least 2% of the aggregate principal amount of the outstanding Debentures, but it may retain the money so received by it and invest or deposit the same as provided in Section 16.9 until the money or the investments representing the same, with the income derived therefrom, together with any other monies for the time being under its control shall be sufficient for the said purpose or until it shall consider it advisable to apply the same in the manner hereinbefore set forth. The foregoing shall, however, not apply to a final payment or distribution hereunder.

#### **9.7 Notice of Payment by Debenture Trustee**

Not less than 15 days notice shall be given in the manner provided in Section 15.2 by the Debenture Trustee to the Debentureholders of any payment to be made under this Article 9. Such notice shall state the time when and place where such payment is to be made and also the liability under this Indenture to which it is to be applied. After the day so fixed, unless payment shall have been duly demanded and have been refused, the Debentureholders will be entitled to interest only on the balance (if any) of the principal monies, premium (if any) and interest due (if any) to them, respectively, on the Debentures, after deduction of the respective amounts payable in respect thereof on the day so fixed.

#### **9.8 Debenture Trustee May Demand Production of Debentures**

The Debenture Trustee shall have the right to demand production of the Debentures in respect of which any payment of principal, interest or premium required by this Article 9 is made and may cause to be endorsed on the same a memorandum of the amount so paid and the date of payment, but the Debenture Trustee may, in its discretion, dispense with such production and endorsement, upon such indemnity being given to it and to the Company as the Debenture Trustee shall deem sufficient.

#### **9.9 Remedies Cumulative**

No remedy herein conferred upon or reserved to the Debenture Trustee, or upon or to the holders of Debentures is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now existing or hereafter to exist by law or by statute.

**9.10 Judgment Against the Company**

The Company covenants and agrees with the Debenture Trustee that, in case of any judicial or other proceedings to enforce the rights of the Debentureholders, judgment may be rendered against it in favour of the Debentureholders or in favour of the Debenture Trustee, as trustee for the Debentureholders, for any amount which may remain due in respect of the Debentures and premium (if any) and the interest thereon and any other monies owing hereunder.

**9.11 Subordination**

This Article 9 and the powers, rights and authority granted to the Debenture Trustee hereunder, are subject to the terms and provisions of Article 6 and Article 4 of the Guarantee.

**ARTICLE 10  
SATISFACTION AND DISCHARGE**

**10.1 Cancellation and Destruction**

Subject to applicable retention requirements, all Debentures shall forthwith after payment thereof be delivered to the Debenture Trustee and cancelled by it. All Debentures cancelled or required to be cancelled under this or any other provision of this Indenture shall be destroyed by the Debenture Trustee and, if required by the Company, the Debenture Trustee shall furnish to it a destruction certificate setting out the designating numbers of the Debentures so destroyed.

**10.2 Non-Presentation of Debentures**

In case the holder of any Debenture shall fail to present the same for payment on the date on which the principal, premium (if any) or the interest thereon or represented thereby becomes payable either at maturity or otherwise or shall not accept payment on account thereof and give such receipt therefor, if any, as the Debenture Trustee may require:

- (a) the Company shall be entitled to pay or deliver to the Debenture Trustee and direct the Debenture Trustee to set aside; or
- (b) in respect of monies in the hands of the Debenture Trustee which may or should be applied to the payment of the Debentures, the Company shall be entitled to direct the Debenture Trustee to set aside.

the principal, premium (if any) or the interest, as the case may be (after deduction of any applicable withholding taxes), in trust to be paid or delivered to the holder of such Debenture upon due presentation or surrender thereof in accordance with the provisions of this Indenture; and thereupon the principal, premium (if any) or the interest payable on or represented by each Debenture in respect whereof such monies have been set aside shall be deemed to have been paid and the holder thereof shall thereafter have no right in respect thereof except that of receiving delivery and payment of the monies (less applicable withholding taxes, if any), so set aside by the Debenture Trustee upon due presentation and surrender thereof, subject always to Section 10.4.

### **10.3 Repayment of Unclaimed Monies**

Subject to applicable law, any monies set aside under Section 10.2 and not claimed by and paid to holders of Debentures as provided in Section 10.2 within ten years after the date of such setting aside shall be repaid and delivered to the Company by the Debenture Trustee and thereupon the Debenture Trustee shall be released from all further liability with respect to such monies and thereafter the holders of the Debentures in respect of which such monies were so repaid to the Company shall have no rights in respect thereof except to obtain payment and delivery of the monies from the Company subject to any limitation provided by the laws of the Province of Ontario.

### **10.4 Discharge**

The Debenture Trustee shall at the written request of the Company release and discharge this Indenture and execute and deliver such instruments as it shall be advised by Counsel are requisite for that purpose and to release the Company from its covenants herein contained (other than the provisions relating to the indemnification of the Debenture Trustee), upon proof being given to the reasonable satisfaction of the Debenture Trustee that the principal and premium (if any) of and interest (including interest on amounts in default, if any), on all the Debentures and all other monies payable hereunder have been paid or satisfied or that all the Debentures having matured or having been duly called for redemption, payment of the principal of and interest (including interest on amounts in default, if any) on such Debentures and of all other monies payable hereunder has been duly and effectually provided for in accordance with the provisions hereof.

### **10.5 Satisfaction**

- (a) The Company shall be deemed to have fully paid, satisfied and discharged all of the outstanding Debentures of any series and the Debenture Trustee, at the expense of the Company, shall execute and deliver proper instruments acknowledging the full payment, satisfaction and discharge of such Debentures, when, with respect to all of the outstanding Debentures or all of the outstanding Debentures of any series, as applicable, either:
  - (i) the Company has deposited or caused to be deposited with the Debenture Trustee as trust funds or property in trust for the purpose of making payment on such Debentures, an amount in money sufficient to pay, satisfy and discharge the entire amount of principal, premium, if any, and interest, if any, to maturity or any repayment date or Redemption Dates, as the case may be, of such Debentures; or
  - (ii) the Company has deposited or caused to be deposited with the Debenture Trustee as trust property in trust for the purpose of making payment on such Debentures:
    - (A) if the Debentures are issued in Canadian dollars, such amount in Canadian dollars of direct obligations of, or obligations the principal and interest of which are guaranteed by, the Government of Canada; or
    - (B) if the Debentures are issued in a currency other than Canadian Dollars, cash in the currency in which the Debentures are payable and/or such amount in such currency of direct obligations of, or

obligations the principal and interest of which are guaranteed by, the Government of Canada or the government that issued the currency in which the Debentures are payable,

as will, together with the income to accrue thereon and reinvestment thereof, be sufficient to pay and discharge the entire amount of principal and accrued and unpaid interest to maturity or any repayment date, as the case may be, of all such Debentures, provided that, for the purposes of Section 10.5(a)(ii)(B), the Debenture Trustee will be entitled to rely on an opinion of Counsel or such other advisor satisfactory to it in making such a determination;

and in either event:

- (iii) the Company has paid, caused to be paid or made provisions to the satisfaction of the Debenture Trustee for the payment of all other sums payable with respect to all of such Debentures (together with all applicable expenses of the Debenture Trustee in connection with the payment of such Debentures); and
- (iv) the Company has delivered to the Debenture Trustee a Certificate of the Manager stating that all conditions precedent herein provided relating to the payment, satisfaction and discharge of all such Debentures have been complied with.

Any deposits with the Debenture Trustee referred to in this Section 10.5 shall be irrevocable, subject to Section 10.6, and shall be made under the terms of an escrow and/or trust agreement in form and substance satisfactory to the Debenture Trustee and the Company and which provides for the due and punctual payment of the principal of, and interest and premium, if any, on the Debentures being satisfied. In the event that the Debenture Trustee enters into any such agreement contemplated by this Section 10.5(a), the Debenture Trustee shall be deemed to have completely and satisfactorily discharged its duties and obligations under this indenture with respect to the Debentures being satisfied and all future duties and obligations of the Debenture Trustee with respect to the satisfied Debentures shall be governed solely pursuant to the terms of the new escrow and/or trust agreement, as applicable.

- (b) Notwithstanding anything to the contrary in Section 10.5(a), the Debenture Trustee shall not be obligated to accept holdings of any nature or kind which it does not hold for its clients in the ordinary course of business.
- (c) Upon the satisfaction of the conditions set forth in this Section 10.5 with respect to all the outstanding Debentures, or all the outstanding Debentures of any series, as applicable, the terms and conditions of the Debentures, including the terms and conditions with respect thereto set forth in this Indenture (other than those contained in Article 2, Article 5, Section 16.18 and the other provisions of this Indenture pertaining to the foregoing provisions) shall no longer be binding upon or applicable to the Company.
- (d) Any funds or obligations deposited with the Debenture Trustee pursuant to this Section 10.5 shall be denominated in the currency or denomination of the Debentures in respect of which such deposit is made.

- (e) If the Debenture Trustee is unable to apply any money or securities in accordance with this Section 10.5 by reason of any legal proceeding or any order or judgment of any court or governmental authority enjoining, restraining or otherwise prohibiting such application, the Company's obligations under this Indenture and the affected Debentures shall be revived and reinstated as though no money or securities had been deposited pursuant to this Section 10.5 until such time as the Debenture Trustee is permitted to apply all such money or securities in accordance with this Section 10.5, provided that if the Company has made any payment in respect of principal, premium or interest on Debentures or, as applicable, other amounts because of the reinstatement of its obligations, the Company shall be subrogated to the rights of the holders of such Debentures to receive such payment from the money or securities held by the Debenture Trustee.

#### **10.6 Continuance of Rights, Duties and Obligations**

Where trust funds or trust property have been deposited pursuant to Section 10.5, the holders of Debentures and the Company shall continue to have and be subject to their respective rights, duties and obligations under Article 2, Article 5, Section 16.18 and the other provisions of this Indenture pertaining to the foregoing provisions.

### **ARTICLE 11 IPS INTEREST PAYMENT ELECTION**

#### **11.1 IPS Interest Payment Election**

- (a) Provided that no Event of Default has occurred and is continuing and that all necessary regulatory approvals have been obtained (including any required approval of any stock exchange on which the Debentures or IPSs are then listed), the Company shall have the right, at any time and from time to time, to make an IPS Interest Payment Election in respect of any Interest Obligation, in whole or in part, by delivering an IPS Interest Payment Election Notice to the Debenture Trustee no later than the earlier of: (i) the date required by applicable law or the rules of any stock exchange on which the Debentures or IPSs are then listed, and (ii) the day which is 15 Business Days prior to the Interest Payment Date to which the IPS Interest Payment Election relates.
- (b) Upon receipt of an IPS Interest Payment Election Notice, the Debenture Trustee shall, as directed in writing by the Company, as agent of the Company, in accordance with this Article 11 and such IPS Interest Payment Election Notice: (i) deliver IPS Bid Requests to the investment banks, brokers or dealers (each, a "**Broker**") identified by the Company, in its absolute discretion, in the IPS Interest Payment Election Notice, or (ii) agree to the Company establishing an account or accounts (in the name of the Debenture Trustee, if necessary) with a Broker identified by the Company, in its absolute discretion, in the IPS Interest Payment Election Notice for the purpose of such Broker selling Freely Tradeable IPSs on behalf of the Company in accordance with the terms hereof (which Broker shall notify the Company and the Debenture Trustee as such IPSs are sold and the settlement rules prescribed by securities regulatory policies shall apply in respect of the payment for such IPSs). The Broker shall send copies of the monthly statements and transaction slips in respect of all

sales of IPSs to the Company (with a duplicate copy to the Debenture Trustee, or as it may otherwise in writing direct), as soon as reasonably practicable after preparation thereof. All fees payable in respect of such accounts shall be paid by the Company; provided, however, that it shall be a condition precedent to the Company establishing such an account with one or more Brokers that all necessary legal, regulatory and other requirements have been satisfied by the Company and the Debenture Trustee, if applicable, and the Company shall assume, to the maximum extent permitted herein and at law, all responsibility for administering such account(s). In connection with the IPS Interest Payment Election, the Debenture Trustee shall have the power to: (i) accept delivery of the IPSs from the Company and process the IPSs in accordance with the IPS Interest Payment Election Notice, (ii) accept bids with respect to, and consummate sales of, such IPSs, each as the Company shall direct in its absolute discretion through the Broker identified by the Company in the IPS Interest Payment Election Notice, (iii) invest the proceeds of such sales in Canadian Government Obligations which mature prior to the applicable Interest Payment Date, (iv) deliver proceeds to holders of Debentures to satisfy all or a portion of the Company's Interest Obligations, as directed by the Company in the IPS Interest Payment Election Notice, and (v) perform any other action necessarily incidental thereto as directed by the Company in its absolute discretion. The IPS Interest Payment Election Notice shall, where the Debenture Trustee delivers IPS Bid Requests, direct the Debenture Trustee to solicit and accept only, and each IPS Bid Request shall provide that the acceptance of any bid is conditional on the acceptance of, sufficient bids to result in aggregate net proceeds from such issue and sale of IPSs which, together with the cash payments to be made by the Company, if any, equal the Interest Obligation on the IPS Delivery Date.

- (c) The IPS Interest Payment Election Notice shall provide confirmation from the Company that all necessary regulatory approvals have been obtained and shall also provide for, and all bids, if any, shall be subject to, the right of the Company, by delivering written notice to the Debenture Trustee at any time prior to the consummation of such delivery and sale of the IPSs on the IPS Delivery Date, to withdraw the IPS Interest Payment Election (which shall have the effect of withdrawing each related IPS Bid Request), whereupon the Company shall be obliged to pay in cash the Interest Obligation in respect of which the IPS Interest Payment Election Notice has been delivered.
- (d) Any sale of IPSs pursuant to this Article 11 may be made to one or more Persons whose bids are solicited.
- (e) The amount receivable in cash by a holder of a Debenture in respect of the Interest Obligation or the entitlement thereto will not be affected by whether or not the Company elects to satisfy the Interest Obligation pursuant to an IPS Interest Payment Election.
- (f) The Debenture Trustee shall inform the Company promptly following receipt of any bid or bids for IPSs solicited pursuant to the IPS Bid Requests. The Debenture Trustee shall accept such bid or bids as the Company, in its absolute discretion, shall direct by Written Direction of the Manager, provided that the aggregate net proceeds of all sales of IPSs through the facilities of a registered broker/dealer resulting from

the acceptance of such bids, together with the amount of any cash payment by the Company, on the IPS Delivery Date, must be equal to the related IPS Interest Payment Election Amount in connection with any bids so accepted. The Company, the Debenture Trustee (if required by the Company in its absolute discretion) and the applicable bidders shall, not later than the IPS Delivery Date, enter into IPS Purchase Agreements in a form satisfactory to the Debenture Trustee and shall comply with all Applicable Securities Legislation, including the securities rules and regulations of any stock exchange on which the Debentures or IPSs are then listed. The Company shall pay all fees and expenses in connection with the IPS Purchase Agreements including the fees and commissions charged by the investment banks, brokers and dealers and the fees of the Debenture Trustee.

- (g) Provided that (i) all conditions specified in each IPS Purchase Agreement to the closing of all sales thereunder have been satisfied, other than the delivery of the IPSs to be sold thereunder against payment of the purchase price thereof, and (ii) the purchasers under each IPS Purchase Agreement shall be ready, willing and able to perform thereunder, in each case on the IPS Delivery Date, the Company shall, on the IPS Delivery Date, deliver to the Debenture Trustee the IPSs to be sold on such date through the facilities of a registered broker/dealer, an amount in cash equal to the value of any fractional IPSs and a Certificate of the Manager to the effect that all conditions precedent to such sales, including those set forth in this Indenture and in each IPS Purchase Agreement, have been satisfied. Upon such deliveries, the Debenture Trustee shall consummate such sales through the facilities of a registered broker/dealer on such IPS Delivery Date by the delivery of the IPSs to such purchasers against payment to the Debenture Trustee in immediately available funds of the purchase price therefor.
- (h) The Debenture Trustee shall, on the IPS Delivery Date, use the sale proceeds of the IPSs (together with any cash received from the Company) to purchase, on the direction of the Company in writing, Canadian Government Obligations which mature prior to the applicable Interest Payment Date and which the Debenture Trustee is required to hold until maturity (the “**IPS Proceeds Investment**”) and shall, on such date, deposit the balance, if any, of such sale proceeds in the Property Account for such Debentures. The Debenture Trustee shall hold such IPS Proceeds Investment (but not income earned thereon) under its exclusive control in an irrevocable trust for the benefit of the holders of the Debentures. At least one Business Day prior to the Interest Payment Date, the Debenture Trustee shall deposit amounts from the proceeds of the IPS Proceeds Investment in the Property Account to bring the balance of the Property Account to the IPS Interest Payment Election Amount. On the Interest Payment Date, the Debenture Trustee shall pay the amount held in the Property Account to the holders of record of the Debentures on the record date of such Interest Payment Date (less any tax required to be withheld, if any) and, provided that there is no Event of Default, shall remit amounts, if any, in respect of income earned on the IPS Proceeds Investment or otherwise in excess of the IPS Interest Payment Election Amount to the Company.
- (i) Neither the making of an IPS Payment Election nor the consummation of sales of IPSs on an IPS Delivery Date shall (i) result in the holders of the Debentures not being entitled to receive on the applicable Interest Payment Date cash in an aggregate

amount equal to the Interest Obligation payable on such date or (ii) entitle or require such holders to receive any Freely Tradeable IPSs in satisfaction of such Interest Obligation.

## **ARTICLE 12 SUCCESSORS**

### **12.1 Restrictions on Amalgamation, Merger and Sale of Certain Assets, etc.**

- (a) The Company will not consolidate or merge with or into or wind up into (whether or not the Company is the surviving corporation) or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets in one or more related transactions, to any Person unless:
  - (i) the Company is the surviving corporation or the Person formed by or surviving any such consolidation or merger (if other than the Company) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation, partnership or limited liability company organized or existing under the laws of Canada or any province or territory thereof (the Company or such Person, as the case may be, being herein called the “**Successor Company**”);
  - (ii) the Successor Company (if other than the Company) expressly assumes all the obligations of the Company under this Indenture, the Debentures and any related security pursuant to a supplemental indenture or other documents or instruments in form reasonably satisfactory to the Debenture Trustee;
  - (iii) all of the Guarantees of the Debentures, Security Documents, and related security, remain in full force and effect or replacement guarantees and security reasonably satisfactory to the Debenture Trustee are provided;
  - (iv) immediately after giving effect to such transaction (and treating any indebtedness which becomes an obligation of the Successor Company or any of its Significant Entities as a result of such transaction as having been incurred by the Successor Company or such Significant Entity at the time of such transaction) no Default or Event of Default shall have occurred and be continuing;
  - (v) immediately after giving pro forma effect to such transaction, as if such transaction had occurred at the beginning of the applicable four-quarter period the Cash Flow Coverage Ratio for the Successor Company and its Significant Entities would be greater than or equal to such ratio for the Company and its Significant Entities immediately prior to such transaction;
  - (vi) each party to the Debentures and Security Documents, unless they are the other party to the transactions described above, will have by supplemental securities and guarantees confirmed that such securities and guarantees will apply to such Person’s obligations under the Debentures and Security Documents (or, such parties will have entered into guarantees of the

Debentures in form and substance substantially the same as the Security Documents); and

- (vii) the Company will have delivered to the Debenture Trustee a Certificate of the Manager and an opinion of Counsel stating that such consolidation, merger or transfer and such supplemental debentures, security documents and indenture (if any) (or guarantees of the Debentures) comply with this Indenture.

The Successor Company shall succeed to, and be substituted for, the Company under this Indenture and the Debentures. Notwithstanding the foregoing Sections 12.1(a)(iii) and 12.1(a)(iv), (a) any Significant Entity of the Company may consolidate with, merge into or transfer all or part of its properties and assets to the Company or to another Significant Entity of the Company, and (b) the Company may merge with an Affiliate incorporated solely for the purpose of reincorporating the Company in another province or territory of Canada so long as the amount of indebtedness of the Company and its Significant Entities is not increased thereby.

- (b) Subject to the provisions of a Guarantee governing the release of the Guarantee upon the sale or disposition of a Guarantor that is a Significant Entity of the Company, each Guarantor shall not, and the Company shall not permit a Guarantor to, consolidate or merge with or into or wind up into (whether or not such Guarantor is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets in one or more related transactions to, any Person unless:
  - (i) such Guarantor is the surviving corporation or the Person formed by or surviving any such consolidation or merger (if other than such Guarantor) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation, partnership or limited liability company organized or existing under the laws of Canada or the United States or any province or territory of Canada or state of the United States (such Guarantor or such Person, as the case may be, being herein called the "Successor Guarantor");
  - (ii) the Successor Guarantor (if other than such Guarantor) expressly assumes all the obligations of such Guarantor under this Indenture and such Guarantor's Guarantee and related security pursuant to a supplemental indenture or other documents or instruments in form reasonably satisfactory to the Trustee;
  - (iii) immediately after giving effect to such transaction (and treating any indebtedness which becomes an obligation of the Successor Guarantor or any of its Significant Entities as a result of such transaction as having been incurred by the Successor Guarantor or such Significant Entity at the time of such transaction) no Default or Event of Default shall have occurred and be continuing; and
  - (iv) the Guarantor shall have delivered or caused to be delivered to the Trustee a Certificate of the Manager and an opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indenture (if any) comply with this Indenture.

Subject to the provisions of a Guarantee governing the release of the Guarantee, the Successor Guarantor shall succeed to, and be substituted for, such Guarantor under this Indenture and such Guarantor's Guarantee. Notwithstanding the foregoing Section 12.1(b)(iii), a Guarantor may merge with an Affiliate incorporated solely for the purpose of reincorporating such Guarantor in another state of the United States or province or territory of Canada so long as the amount of indebtedness of the Guarantor is not increased thereby.

## 12.2 Vesting of Powers in Successor

Notwithstanding Section 12.1, whenever the conditions of Section 12.1 shall have been duly observed and performed, any Successor formed by or resulting from such transaction shall succeed to, and be substituted for, and may exercise every right and power of the Company under this Indenture with the same effect as though the Successor had been named as the Company herein and thereafter, except in the case of a lease or other similar disposition of property to the Successor or the disposition of less than all of the Company's undertaking, property and assets to the Successor, the Company shall be relieved of all obligations and covenants under this Indenture and the Debentures forthwith upon the Company delivering to the Debenture Trustee an opinion of Counsel to the effect that the transaction shall not result in any material adverse tax consequences to the Company or the Successor. The Debenture Trustee will, at the expense of the Successor, execute any documents which it may be advised by Counsel are necessary or advisable for effecting or evidencing such release and discharge.

## ARTICLE 13 COMPULSORY ACQUISITION

### 13.1 Definitions

In this Article:

- (a) **"Affiliate"** and **"Associate"** shall have their respective meanings set forth in the *Securities Act* (Ontario);
- (b) **"Dissenting Debentureholders"** means a Debentureholder who does not accept an Offer referred to in Section 13.2 and includes any assignee of the Debenture of a Debentureholder to whom such an Offer is made, whether or not such assignee is recognized under this Indenture;
- (c) **"Offer"** means an offer to acquire outstanding Debentures where, as of the date of the offer to acquire, the Debentures that are subject to the offer to acquire, together with the Offeror's Debentures, constitute in the aggregate 20% or more of the outstanding principal amount of the Debentures;
- (d) **"offer to acquire"** includes an offer to purchase, or a satisfaction of an offer to sell, an acceptance of an offer to sell whether or not such offer to sell has been solicited or any combination thereof and the Person accepting an offer to sell shall be deemed to be making an offer to acquire to the Person that made the offer to sell;
- (e) **"Offeror"** means a Person, or two or more Persons acting jointly or in concert, who make an Offer to acquire Debentures;

- (f) **“Offeror’s Debentures”** means Debentures beneficially owned, or over which control or direction is exercised, on the date of an Offer by the Offeror, any Affiliate or Associate of the Offeror or any person or the Company acting jointly or in concert with the Offeror; and
- (g) **“Offeror’s Notice”** means the notice described in Section 13.3.

### **13.2 Offer for Debentures**

If an Offer for outstanding Debentures of a series (other than Debentures held by or on behalf of the Offeror or an Affiliate or Associate of the Offeror) is made and:

- (a) within at least 35 days but not more than 4 months after the date the Offer is made, the Offer is accepted by Debentureholders representing at least 90% of the outstanding principal amount of the Debentures, other than the Offeror’s Debentures;
- (b) the Offeror is bound to take up and pay for, or has taken up and paid for the Debentures of the Debentureholders who accepted the Offer; and
- (c) the Offeror complies with Sections 13.3 and 13.5;

the Offeror is entitled to acquire, and the Dissenting Debentureholders are required to sell to the Offeror, the Debentures held by the Dissenting Debentureholder for the same consideration per Debenture payable or paid, as the case may be, under the Offer.

### **13.3 Offeror’s Notice to Dissenting Debentureholders**

Where an Offeror is entitled to acquire Debentures held by Dissenting Debentureholders pursuant to Section 13.2 and the Offeror wishes to exercise such right, the Offeror shall send by registered mail within 30 days after the date of termination of the Offer a notice (the **“Offeror’s Notice”**) to each Dissenting Debentureholder stating that:

- (a) Debentureholders holding at least 90% of the principal amount of all outstanding Debentures, other than Offeror’s Debentures, have accepted the Offer;
- (b) the Offeror is bound to take up and pay for, or has taken up and paid for, the Debentures of the Debentureholders who accepted the Offer;
- (c) Dissenting Debentureholders must elect to:
  - (i) transfer their respective Debentures to the Offeror on the terms on which the Offeror acquired the Debentures of the Debentureholders who accepted the Offer within 21 days after the date of the sending of the Offeror’s Notice; or
  - (ii) demand payment of fair value for their Debentures pursuant to Section 13.8 hereof by notifying the Offeror within 21 days after the date of receiving the Offeror’s Notice; and
- (d) any Dissenting Debentureholders who fails to notify the Offeror of its election as described under Section 13.3(c) will be deemed to have elected to transfer his or her

Debentures to the Offeror on the same terms on which the Offeror acquired Debentures from Debentureholders who accepted the Offer.

**13.4 Delivery of Debenture Certificates**

A Dissenting Debentureholder to whom an Offeror's Notice is sent pursuant to Section 13.3 shall, within 21 days after the date of receiving the Offeror's Notice with respect to the election in Section 13.3(c), in the case of Fully Registered Debentures, send his or her Debenture certificate(s) to the Debenture Trustee duly endorsed for transfer.

**13.5 Payment of Consideration to Debenture Trustee**

Within 21 days after the Offeror sends an Offeror's Notice pursuant to Section 13.3, the Offeror shall pay or transfer to the Debenture Trustee, or to such other person as the Debenture Trustee may direct, the cash or other consideration that would be payable if all Dissenting Debentureholders elected to accept the Offer in accordance with Section 13.3. The acquisition by the Offeror of all Debentures held by all Dissenting Debentureholders shall be effective as of the time of such payment or transfer.

**13.6 Consideration to be held in Trust**

The Debenture Trustee, or the person directed by the Debenture Trustee, shall hold in trust for the Dissenting Debentureholders the cash or other consideration they or it receives under Section 13.5. The Debenture Trustee, or such person, shall deposit cash in a separate account in a Canadian chartered bank, or other body corporate, which may include an Affiliate of the Debenture Trustee, any of whose deposits are insured by the Canada Deposit Insurance Corporation, and shall place other consideration in the custody of a Canadian chartered bank or such other body corporate.

**13.7 Completion of Transfer of Debentures to Offeror**

Within 30 days after the date of the sending of an Offeror's Notice pursuant to Section 13.3, the Debenture Trustee, if the Offeror has complied with Section 13.5, shall:

- (a) do all acts and things and execute and cause to be executed all instruments as in the Debenture Trustee's opinion may be necessary or desirable to cause the transfer of the Debentures of the Dissenting Debentureholders to the Offeror;
- (b) send to each Dissenting Debentureholder who has made or deemed to have made an election and, if applicable has complied with Section 13.4, the consideration to which such Dissenting Debentureholder is entitled under this Article 13 net of applicable withholding taxes, if applicable; and
- (c) send to each Dissenting Debentureholder a notice stating that:
  - (i) his or her Debentures have been transferred to the Offeror;
  - (ii) the Debenture Trustee or some other Person designated in such notice are holding in trust the consideration to which the Dissenting Debentureholder is entitled to receive for such Debentures if the Debentureholder elected to receive the consideration payable or paid under the Offer; and

- (iii) the Debenture Trustee, or such other Person, will send the consideration to such Dissenting Debentureholder as soon as possible after receiving such Dissenting Debentureholder's Debenture certificate(s) or such other documents as the Debenture Trustee or such other Person may require in lieu thereof,

and the Debenture Trustee is hereby appointed the agent and attorney, and is granted power of attorney with respect to the Debentures, of the Dissenting Debentureholders for the purposes of giving effect to the foregoing provisions, including, without limitation, the power and authority to execute such transfers as may be necessary or desirable in respect of the book-entry only registration system of the Depository.

**13.8 Demand for Payment of Fair Value**

- (a) If a Dissenting Debentureholder has elected to demand payment of the fair value for his or her Debentures pursuant to Section 13.3, the Offeror may, within 21 days after it has paid the cash or transferred the other consideration to the Debenture Trustee under Section 13.5, apply to a court to fix the fair value of the Debentures of that Dissenting Debentureholder.
- (b) If the Offeror fails to apply to a court under Section 13.8(a), a Dissenting Debentureholder may apply to a court for the same purpose within a further period of 21 days.
- (c) Where no application is made to a court under Section 13.8(b) within the period set out in that Section, a Dissenting Debentureholder is deemed to have elected to transfer his or her Debentures to the Offeror on the same terms on which the Offeror acquired Debentures of the applicable series from Debentureholders who accepted the Offer.
- (d) An application under Section 13.8(a), or 13.8(b), shall be made to a court having jurisdiction in the Province of Ontario.
- (e) A Dissenting Debentureholder is not required to give security for costs in an application made under Section 13.8(a) or 13.8(b).
- (f) On an application under Section 13.8(a) or 13.8(b):
  - (i) all Dissenting Debentureholders that have elected pursuant to Section 13.3 shall be joined as parties and are bound by the decision of the court; and
  - (ii) the Offeror shall notify each affected Dissenting Debentureholder of the date, place and consequences of the application and of their right to appear and be heard in person or by legal counsel.
- (g) On an application to a court under Section 13.8(a) or 13.8(b) the court may determine whether any other Person is a Dissenting Debentureholder who should be joined as a party, and the court shall then fix a fair value for each series of Debentures held by the Dissenting Debentureholders.

- (h) A court may in its discretion appoint one or more appraisers to assist the court in fixing a fair value for each series of Debentures of a Dissenting Debentureholder.
- (i) The final order of the court shall be made against the Offeror in favour of each Dissenting Debentureholder in the amount for each series of Debentures as fixed by the court.
- (j) In connection with proceedings under this Section 13.8, a court may make any order it thinks fit and, without limiting the generality of the foregoing, it may:
  - (i) fix the amount of money or other consideration that is required to be held in trust under Section 13.6;
  - (ii) order that money or other consideration be held in trust by a Person other than the Debenture Trustee; and
  - (iii) allow a reasonable rate of interest on the amount payable to each Dissenting Debentureholder from the date they send or deliver notice to the Offeror under Section 13.4 until the date of payment.

### **13.9 Communication of Offer to the Company**

An Offeror cannot make an Offer for Debentures unless, concurrent with the communication of the Offer to any Debentureholder, a copy of the Offer is provided to the Company.

## **ARTICLE 14 MEETINGS OF DEBENTUREHOLDERS**

### **14.1 Right to Convene Meeting**

The Debenture Trustee or the Company may at any time and from time to time, and the Debenture Trustee shall, on receipt of a written request of the Company or a written request signed by the holders of not less than 25% of the principal amount of the Debentures then outstanding and upon receiving funding and being indemnified to its reasonable satisfaction by the Company or by the Debentureholders signing such request against the costs which may be incurred in connection with the calling and holding of such meeting, convene a meeting of the Debentureholders. In the event of the Debenture Trustee failing, within 30 days after receipt of any such request and such funding and indemnification, to give notice convening a meeting, the Company or such Debentureholders, as the case may be, may convene such meeting. Every such meeting shall be held in the City of Toronto or at such other place as may be approved or determined by the Debenture Trustee.

### **14.2 Notice of Meetings**

- (a) At least 21 days notice of any meeting shall be given to the Debentureholders in the manner provided in Section 15.2 and a copy of such notice shall be sent by post to the Debenture Trustee, unless the meeting has been called by it. Such notice shall state the time when and the place where the meeting is to be held and shall state briefly the general nature of the business to be transacted thereat and it shall not be necessary for

any such notice to set out the terms of any resolution to be proposed or any of the provisions of this Article. The accidental omission to give notice of a meeting to any holder of Debentures shall not invalidate any resolution passed at any such meeting. A holder may waive notice of a meeting either before or after the meeting.

- (b) If the business to be transacted at any meeting by Extraordinary Resolution or otherwise, or any action to be taken or power exercised by instrument in writing under Section 14.15, especially affects the rights of holders of Debentures of one or more series in a manner or to an extent differing in any material way from that in or to which the rights of holders of Debentures of any other series are affected (determined as provided in Sections 14.2(c) and (d)), then:
  - (i) a reference to such fact, indicating each series of Debentures in the opinion of the Debenture Trustee, as advised by counsel, so especially affected (hereinafter referred to as the “**especially affected series**”) shall be made in the notice of such meeting, and in any such case the meeting shall be and be deemed to be and is herein referred to as a “**Serial Meeting**”; and
  - (ii) the holders of Debentures of an especially affected series shall not be bound by any action taken at a Serial Meeting or by instrument in writing under Section 14.15 unless in addition to compliance with the other provisions of this Article 14:
    - (A) at such Serial Meeting: (I) there are Debentureholders present in person or by proxy and representing at least 25% in principal amount of the Debentures then outstanding of such series, subject to the provisions of this Article 14 as to quorum at adjourned meetings; and (II) the resolution is passed by the affirmative vote of the holders of more than 50% (or in the case of an Extraordinary Resolution not less than 66 2/3%) of the principal amount of the Debentures of such series then outstanding voted on the resolution; or
    - (B) in the case of action taken or power exercised by instrument in writing under Section 14.15, such instrument is signed in one or more counterparts by the holders of not less than 66 2/3% in principal amount of the Debentures of such series then outstanding.
- (c) Subject to Section 14.2(d), the determination as to whether any business to be transacted at a meeting of Debentureholders, or any action to be taken or power to be exercised by instrument in writing under Section 14.15, especially affects the rights of the Debentureholders of one or more series in a manner or to an extent differing in any material way from that in or to which it affects the rights of Debentureholders of any other series (and is therefore an especially affected series) shall be determined by an opinion of Counsel, which shall be binding on all Debentureholders, the Debenture Trustee and the Company for all purposes hereof.
- (d) A proposal:
  - (i) to extend the maturity of Debentures of any particular series or to reduce the principal amount thereof, the rate of interest or any redemption premium thereon or to impair any conversion right thereof;

- (ii) to modify or terminate any covenant or agreement which by its terms is effective only so long as Debentures of a particular series are outstanding; or
- (iii) to reduce with respect to Debentureholders of any particular series any percentage stated in this Section 14.2 or Sections 14.4, 14.12 and 14.15,

shall be deemed to especially affect the rights of the Debentureholders of such series in a manner differing in a material way from that in which it affects the rights of holders of Debentures of any other series, whether or not a similar extension, reduction, modification or termination is proposed with respect to Debentures of any or all other series.

#### **14.3 Chairman**

Some person, who need not be a Debentureholder, nominated in writing by the Company (in case it convenes the meeting) or the Debenture Trustee (in any other case) shall be chairman of the meeting and if no person is so nominated, or if the person so nominated is not present within 15 minutes from the time fixed for the holding of the meeting, a majority of the Debentureholders present in person or by proxy shall choose some person present to be chairman.

#### **14.4 Quorum**

Subject to the provisions of Section 14.12, at any meeting of the Debentureholders a quorum shall consist of not less than two Debentureholders present in person or by proxy and representing at least 25% in principal amount of the outstanding Debentures and, if the meeting is a Serial Meeting, at least 25% of the Debentures then outstanding of each especially affected series. If a quorum of the Debentureholders shall not be present within 30 minutes from the time fixed for holding any meeting, the meeting, if summoned by the Debentureholders or pursuant to a request of the Debentureholders, shall be dissolved, but in any other case the meeting shall be adjourned to the same day in the next week (unless such day is not a Business Day in which case it shall be adjourned to the next following Business Day thereafter) at the same time and place, to the extent possible, and no notice shall be required to be given in respect of such adjourned meeting. At the adjourned meeting, the Debentureholders present in person or by proxy shall, subject to the provisions of Section 14.12, constitute a quorum and may transact the business for which the meeting was originally convened notwithstanding that they may not represent 25% of the principal amount of the outstanding Debentures or of the Debentures then outstanding of each especially affected series. Any business may be brought before or dealt with at an adjourned meeting which might have been brought before or dealt with at the original meeting in accordance with the notice calling the same. No business shall be transacted at any meeting unless the required quorum be present at the commencement of business.

#### **14.5 Power to Adjourn**

The chairman of any meeting at which a quorum of the Debentureholders is present may, with the consent of the holders of a majority in principal amount of the Debentures represented thereat, adjourn any such meeting and no notice of such adjournment need be given except such notice, if any, as the meeting may prescribe.

#### **14.6 Show of Hands**

Every question submitted to a meeting shall, subject to Section 14.7, be decided in the first place by a majority of the votes given on a show of hands except that votes on Extraordinary Resolutions shall be given in the manner hereinafter provided. At any such meeting, unless a poll is duly demanded as herein provided, a declaration by the chairman that a resolution has been carried or carried unanimously or by a particular majority or lost or not carried by a particular majority shall be conclusive evidence of the fact. The chairman of any meeting shall be entitled, both on a show of hands and on a poll, to vote in respect of the Debentures, if any, held by him.

#### **14.7 Poll**

On every Extraordinary Resolution, and on any other question submitted to a meeting when demanded by the chairman or by one or more Debentureholders or proxies for Debentureholders, a poll shall be taken in such manner and either at once or after an adjournment as the chairman shall direct. Questions other than Extraordinary Resolutions shall, if a poll be taken, be decided by the votes of the holders of a majority in principal amount of the Debentures and of each especially affected series, if applicable, represented at the meeting and voted on the poll.

#### **14.8 Voting**

On a show of hands every person who is present and entitled to vote, whether as a Debentureholder or as proxy for one or more Debentureholders or both, shall have one vote. On a poll each Debentureholder present in person or represented by a proxy duly appointed by an instrument in writing shall be entitled to one vote in respect of each \$1,000 principal amount of Debentures of which he or she shall then be the holder. A proxyholder need not be a Debentureholder. In the case of joint holders of a Debenture, any one of them present in person or by proxy at the meeting may vote in the absence of the other or others but in case more than one of them be present in person or by proxy, they shall vote together in respect of the Debentures of which they are joint holders.

#### **14.9 Proxies**

A Debentureholder may be present and vote at any meeting of Debentureholders by an authorized representative. The Company (in case it convenes the meeting) or the Debenture Trustee (in any other case) for the purpose of enabling the Debentureholders to be present and vote at any meeting without producing their Debentures, and of enabling them to be present and vote at any such meeting by proxy and of lodging instruments appointing such proxies at some place other than the place where the meeting is to be held, may from time to time make and vary such regulations as it shall think fit providing for and governing any or all of the following matters:

- (a) the form of the instrument appointing a proxy, which shall be in writing, and the manner in which the same shall be executed and the production of the authority of any person signing on behalf of a Debentureholder;
- (b) the deposit of instruments appointing proxies at such place as the Debenture Trustee, the Company or the Debentureholder convening the meeting, as the case may be, may, in the notice convening the meeting, direct and the time, if any, before the

holding of the meeting or any adjournment thereof by which the same must be deposited; and

- (c) the deposit of instruments appointing proxies at some approved place or places other than the place at which the meeting is to be held and enabling particulars of such instruments appointing proxies to be mailed, faxed or sent by other electronic means before the meeting to the Company or to the Debenture Trustee at the place where the same is to be held and for the voting of proxies so deposited as though the instruments themselves were produced at the meeting.

Any regulations so made shall be binding and effective and the votes given in accordance therewith shall be valid and shall be counted. Save as such regulations may provide, the only persons who shall be recognized at any meeting as the holders of any Debentures, or as entitled to vote or be present at the meeting in respect thereof, shall be Debentureholders and persons whom Debentureholders have by instrument in writing duly appointed as their proxies.

#### **14.10 Persons Entitled to Attend Meetings**

The Company, the Manager and the Debenture Trustee, by their respective officers, directors, employees and agents (as applicable), the Auditors of the Company and the legal advisers of the Company, the Debenture Trustee or any Debentureholder may attend any meeting of the Debentureholders, but shall have no vote as such.

#### **14.11 Powers Exercisable by Extraordinary Resolution**

In addition to the powers conferred upon them by any other provisions of this Indenture or by applicable law, a meeting of the Debentureholders shall have the following powers exercisable from time to time by Extraordinary Resolution, subject in the case of the matters in paragraphs (a), (b), (c), (d) and (l) to receipt of the prior approval of the TSX or such other exchange on which the Debentures are then listed:

- (a) power to authorize the Debenture Trustee to grant extensions of time for payment of any principal, premium or interest on the Debentures, whether or not the principal, premium, or interest, the payment of which is extended, is at the time due or overdue;
- (b) power to sanction any modification, abrogation, alteration, compromise or arrangement of the rights of the Debentureholders or the Debenture Trustee against the Company, or against its property, whether such rights arise under this Indenture or the Debentures or otherwise;
- (c) power to assent to any modification of or change in or addition to or omission from the provisions contained in this Indenture or any Debenture which shall be agreed to by the Company and to authorize the Debenture Trustee to concur in and execute any indenture supplemental hereto embodying any modification, change, addition or omission;
- (d) power to sanction any scheme for the reconstruction, reorganization or recapitalization of the Company or for the consolidation, amalgamation or merger of the Company with any other Person or for the sale, leasing, transfer or other

disposition of all or substantially all of the undertaking, property and assets of the Company or any part thereof, provided that no such sanction shall be necessary in respect of any such transaction if the provisions of Section 12.1 shall have been complied with;

- (e) power to direct or authorize the Debenture Trustee to exercise any power, right, remedy or authority given to it by this Indenture in any manner specified in any such Extraordinary Resolution or to refrain from exercising any such power, right, remedy or authority;
- (f) power to waive, and direct the Debenture Trustee to waive, any default hereunder and/or cancel any declaration made by the Debenture Trustee pursuant to Section 9.1 either unconditionally or upon any condition specified in such Extraordinary Resolution;
- (g) power to restrain any Debentureholder from taking or instituting any suit, action or proceeding for the purpose of enforcing payment of the principal, premium or interest on the Debentures, or for the execution of any trust or power hereunder;
- (h) power to direct any Debentureholder who, as such, has brought any action, suit or proceeding to stay or discontinue or otherwise deal with the same upon payment, if the taking of such suit, action or proceeding shall have been permitted by Section 9.5, of the costs, charges and expenses reasonably and properly incurred by such Debentureholder in connection therewith;
- (i) power to assent to any compromise or arrangement with any creditor or creditors or any class or classes of creditors, whether secured or otherwise, and with holders of any IPSs or other securities of the Company;
- (j) power to appoint a committee with power and authority (subject to such limitations, if any, as may be prescribed in the resolution) to exercise, and to direct the Debenture Trustee to exercise, on behalf of the Debentureholders, such of the powers of the Debentureholders as are exercisable by Extraordinary Resolution or other resolution as shall be included in the resolution appointing the committee. The resolution making such appointment may provide for payment of the expenses and disbursements of and compensation to such committee. Such committee shall consist of such number of persons as shall be prescribed in the resolution appointing it and the members need not be themselves Debentureholders. Every such committee may elect its chairman and may make regulations respecting its quorum, the calling of its meetings, the filling of vacancies occurring in its number and its procedure generally. Such regulations may provide that the committee may act at a meeting at which a quorum is present or may act by minutes signed by the number of members thereof necessary to constitute a quorum. All acts of any such committee within the authority delegated to it shall be binding upon all Debentureholders. Neither the committee nor any member thereof shall be liable for any loss arising from or in connection with any action taken or omitted to be taken by them in good faith;
- (k) power to remove the Debenture Trustee from office and to appoint a new Debenture Trustee or Debenture Trustees provided that no such removal shall be effective unless

and until a new Debenture Trustee or Debenture Trustees shall have become bound by this Indenture;

- (l) power to sanction the conversion of the Debentures for or the conversion thereof into IPSs, bonds, debentures or other securities or obligations of the Company or of any other Person formed or to be formed;
- (m) power to authorize the distribution *in specie* of any securities received pursuant to a transaction authorized under the provisions of Section 14.11(l); and
- (n) power to amend, alter or repeal any Extraordinary Resolution previously passed or sanctioned by the Debentureholders or by any committee appointed pursuant to Section 14.11(j).

Notwithstanding the foregoing provisions of this Section 14.11, none of such provisions shall in any manner allow or permit any amendment, modification, abrogation or addition to the provisions of Article 6 which could reasonably be expected to detrimentally affect the rights, remedies or recourse of the priority of the Senior Creditors.

#### **14.12 Meaning of "Extraordinary Resolution"**

- (a) The expression "**Extraordinary Resolution**" when used in this Indenture means, subject as hereinafter in this Article provided, a resolution proposed to be passed as an Extraordinary Resolution at a meeting of Debentureholders (including an adjourned meeting) duly convened for the purpose and held in accordance with the provisions of this Article at which the holders of not less than 25% of the principal amount of the Debentures then outstanding, and if the meeting is a Serial Meeting, at which holders of not less than 25% of the principal amount of the Debentures then outstanding of each especially affected series, are present in person or by proxy and passed by the favourable votes of the holders of not less than 66 $\frac{2}{3}$ % of the principal amount of the Debentures, and if the meeting is a Serial Meeting by the affirmative vote of the holders of not less than 66 $\frac{2}{3}$ % of each especially affected series, in each case present or represented by proxy at the meeting and voted upon on a poll on such resolution.
- (b) If, at any such meeting, the holders of not less than 25% of the principal amount of the Debentures then outstanding and, if the meeting is a Serial Meeting, 25% of the principal amount of the Debentures then outstanding of each especially affected series, in each case are not present in person or by proxy within 30 minutes after the time appointed for the meeting, then the meeting, if convened by or on the requisition of Debentureholders, shall be dissolved but in any other case it shall stand adjourned to such date, being not less than 14 nor more than 60 days later, and to such place and time as may be appointed by the chairman. Not less than 10 days notice shall be given of the time and place of such adjourned meeting in the manner provided in Section 15.2. Such notice shall state that at the adjourned meeting the Debentureholders present in person or by proxy shall form a quorum. At the adjourned meeting the Debentureholders present in person or by proxy shall form a quorum and may transact the business for which the meeting was originally convened and a resolution proposed at such adjourned meeting and passed thereat by the

affirmative vote of holders of not less than 66⅔% of the principal amount of the Debentures and, if the meeting is a Serial Meeting, by the affirmative vote of the holders of not less than 66⅔% of the principal amount of the Debentures of each especially affected series, in each case present or represented by proxy at the meeting voted upon on a poll shall be an Extraordinary Resolution within the meaning of this Indenture, notwithstanding that the holders of not less than 25% in principal amount of the Debentures then outstanding, and if the meeting is a Serial Meeting, at which holders of not less than 25% of the principal amount of the Debentures then outstanding of each especially affected series, are not present in person or by proxy at such adjourned meeting.

- (c) Votes on an Extraordinary Resolution shall always be given on a poll and no demand for a poll on an Extraordinary Resolution shall be necessary.

#### **14.13 Powers Cumulative**

Any one or more of the powers in this Indenture stated to be exercisable by the Debentureholders by Extraordinary Resolution or otherwise may be exercised from time to time and the exercise of any one or more of such powers from time to time shall not be deemed to exhaust the rights of the Debentureholders to exercise the same or any other such power or powers thereafter from time to time.

#### **14.14 Minutes**

Minutes of all resolutions and proceedings at every meeting as aforesaid shall be made and duly entered in books to be from time to time provided for that purpose by the Debenture Trustee at the expense of the Company, and any such minutes as aforesaid, if signed by the chairman of the meeting at which such resolutions were passed or proceedings had, or by the chairman of the next succeeding meeting of the Debentureholders, shall be *prima facie* evidence of the matters therein stated and, until the contrary is proved, every such meeting, in respect of the proceedings of which minutes shall have been made, shall be deemed to have been duly held and convened, and all resolutions passed thereat or proceedings taken thereat to have been duly passed and taken.

#### **14.15 Instruments in Writing**

All actions which may be taken and all powers that may be exercised by the Debentureholders at a meeting held as hereinbefore in this Article provided may also be taken and exercised by the holders of 66⅔% of the principal amount of all the outstanding Debentures and, if the meeting at which such actions might be taken would be a Serial Meeting, by the holders of 66⅔% of the principal amount of the Debentures then outstanding of each especially affected series, by an instrument in writing signed in one or more counterparts and the expression "Extraordinary Resolution" when used in this Indenture shall include an instrument so signed.

#### **14.16 Binding Effect of Resolutions**

Every resolution and every Extraordinary Resolution passed in accordance with the provisions of this Article at a meeting of Debentureholders shall be binding upon all the Debentureholders, whether present at or absent from such meeting, and every instrument in writing signed by Debentureholders in accordance with Section 14.15 shall be binding upon all the

Debentureholders, whether signatories thereto or not, and each and every Debentureholder and the Debenture Trustee (subject to the provisions for its indemnity herein contained) shall be bound to give effect accordingly to every such resolution, Extraordinary Resolution and instrument in writing.

**14.17 Evidence of Rights Of Debentureholders**

- (a) Any request, direction, notice, consent or other instrument which this Indenture may require or permit to be signed or executed by the Debentureholders may be in any number of concurrent instruments of similar tenor signed or executed by such Debentureholders.
- (b) The Debenture Trustee may, in its discretion, require proof of execution in cases where it deems proof desirable and may accept such proof as it shall consider proper.

**14.18 Concerning Serial Meetings**

If in the opinion of Counsel any business to be transacted at any meeting, or any action to be taken or power to be exercised by instrument in writing under Section 14.15, does not adversely affect the rights of the holders of Debentures of one or more series, the provisions of this Article 14 shall apply as if the Debentures of such series were not outstanding and no notice of any such meeting need be given to the holders of Debentures of such series. Without limiting the generality of the foregoing, a proposal to modify or terminate any covenant or agreement which is effective only so long as Debentures of a particular series are outstanding shall be deemed not to adversely affect the rights of the holders of Debentures of any other series.

**ARTICLE 15  
NOTICES**

**15.1 Notice to the Company**

Any notice to the Company or any Guarantor or to the Debenture Trustee (on its own account or on behalf of the Debentureholders) under the provisions of this Indenture shall be valid and effective if delivered to the Company at 355 Burrard Street, Suite 1900, Vancouver, BC, V6C 2G8, Attention: Chief Executive Officer, Fax (604) 682-7131, with a copy delivered to the Manager at: 200 Clarendon Street, 55<sup>th</sup> Floor, Boston, MA, 02117, Attention: Chief Executive Officer, Fax: (617) 531-6370 a copy delivered to Goodmans LLP, 250 Yonge Street, Suite 2400, Toronto, Ontario, M5B 2M6, Attention: Bill Gorman, Fax: (416) 979-1234 and a copy delivered to the Debenture Trustee at 100 University Avenue, 9<sup>th</sup> Floor, Toronto, Ontario, M5J 2Y1, Attention: Manager, Corporate Trust, Fax: (416) 981-9777 or if given by registered letter, postage prepaid, or facsimile transmission to such offices and so addressed and if mailed, shall be deemed to have been effectively given three days following the mailing thereof or if sent by facsimile transmission on the first Business Day after confirmed transmission. The Company may from time to time notify the Debenture Trustee in writing of a change of address which thereafter, until changed by like notice, shall be the address of the Company for all purposes of this Indenture.

**15.2 Notice to Debentureholders**

All notices to be given hereunder with respect to the Debentures shall be deemed to be validly given to the holders thereof if sent by first class mail, postage prepaid, by letter or circular

addressed to such holders at their post office addresses appearing in any of the registers hereinbefore mentioned and shall be deemed to have been effectively given three days following the day of mailing. Any notice to be given hereunder with respect to the Debentures delivered or served by telecopier or courier shall be deemed to have been given or served on the day upon which it is delivered. Accidental error or omission in giving notice or accidental failure to mail or otherwise deliver notice to any Debentureholder or the inability of the Company to give or mail or otherwise deliver any notice due to any event beyond the reasonable control of the Company shall not invalidate any action or proceeding founded thereon.

If any notice given in accordance with the foregoing paragraph would be unlikely to reach the Debentureholders to whom it is addressed in the ordinary course of post by reason of an interruption in mail service, whether at the place of dispatch or receipt or both, the Company shall give such notice by publication at least once in the City of Toronto, Ontario (or in such of those cities as, in the opinion of the Debenture Trustee, is sufficient in the particular circumstances), such publication to be made in a daily newspaper of general circulation in the designated city.

Any notice given to Debentureholders by publication shall be deemed to have been given on the day on which publication shall have been effected at least once in the newspaper in which publication was required.

All notices with respect to any Debenture may be given to whichever one of the holders thereof (if more than one) is named first in the registers hereinbefore mentioned, and any notice so given shall be sufficient notice to all holders having an interest in such Debenture.

#### **15.3 Notice to Debenture Trustee**

Any notice to the Debenture Trustee under the provisions of this Indenture shall be valid and effective if delivered to the Debenture Trustee at its principal office in the City of Toronto, 100 University Avenue, 9<sup>th</sup> Floor, Toronto, Ontario M5J 2Y1, Attention: Director, Corporate Trust Department or if given by registered letter, postage prepaid, to such office and so addressed and, if mailed, shall be deemed to have been effectively given three days following the mailing thereof. The Debenture Trustee may from time to time notify the Company in writing of a change of address which thereafter, until by like notice shall be the address of the Debenture Trustee to receive notices from the Company.

#### **15.4 Mail Service Interruption**

If by reason of any interruption of mail service, actual or threatened, any notice to be given to the Debenture Trustee would reasonably be unlikely to reach its destination by the time notice by mail is deemed to have been given pursuant to Section 15.3, such notice shall be valid and effective only if delivered at the appropriate address in accordance with Section 15.3.

### **ARTICLE 16 CONCERNING THE DEBENTURE TRUSTEE**

#### **16.1 No Conflict of Interest**

The Company acknowledges that the Debenture Trustee is acting as indenture trustee with respect to the Subordinated Notes. Accordingly, the Debenture Trustee may have or appear to

have a conflict of interest. The Company hereby agrees and consents to the appointment of the Debenture Trustee pursuant to this indenture.

Other than as disclosed above in this Section 16.1, the Debenture Trustee represents to the Company that at the date of execution and delivery by it of this Indenture there exists no material conflict of interest in the role of the Debenture Trustee as a fiduciary hereunder but if, notwithstanding the provisions of this Section 16.1, such a material conflict of interest exists, or hereafter arises, the validity and enforceability of this Indenture, and the Debentures issued hereunder, shall not be affected in any manner whatsoever by reason only that such material conflict of interest exists or arises but the Debenture Trustee shall, within 30 days after ascertaining that it has a material conflict of interest, either eliminate such material conflict of interest or resign in the manner and with the effect specified in Section 16.2.

## **16.2 Replacement of Debenture Trustee**

The Debenture Trustee may resign its trust and be discharged from all further duties and liabilities hereunder by giving to the Company 30 days' notice in writing or such shorter notice as the Company may accept as sufficient. If at any time a material conflict of interest exists in the Debenture Trustee's role as a fiduciary hereunder the Debenture Trustee shall, within 30 days after ascertaining that such a material conflict of interest exists, either eliminate such material conflict of interest or resign in the manner and with the effect specified in this Section 16.2. The validity and enforceability of this Indenture and of the Debentures issued hereunder shall not be affected in any manner whatsoever by reason only that such a material conflict of interest exists. In the event of the Debenture Trustee resigning or being removed or being dissolved, becoming bankrupt, going into liquidation or otherwise becoming incapable of acting hereunder, the Company shall forthwith appoint a new Debenture Trustee unless a new Debenture Trustee has already been appointed by the Debentureholders. Failing such appointment by the Company, the retiring Debenture Trustee or any Debentureholder may apply to a Judge of the Ontario Superior Court of Justice, on such notice as such Judge may direct at the Company's expense, for the appointment of a new Debenture Trustee but any new Debenture Trustee so appointed by the Company or by the Court shall be subject to removal as aforesaid by the Debentureholders and the appointment of such new Debenture Trustee shall be effective only upon such new Debenture Trustee becoming bound by this Indenture. Any new Debenture Trustee appointed under any provision of this Section 16.2 shall be a corporation authorized to carry on the business of a trust company in all of the provinces and territories of Canada. On any new appointment the new Debenture Trustee shall be vested with the same powers, rights, duties and responsibilities as if it had been originally named herein as Debenture Trustee.

Any company into which the Debenture Trustee may be merged or, with or to which it may be consolidated, amalgamated or sold, or any company resulting from any merger, consolidation, sale or amalgamation to which the Debenture Trustee shall be a party, or any company succeeding to the corporate trust business of the Debenture Trustee shall be the successor trustee under this Indenture without the execution of any instrument or any further act. Nevertheless, upon the written request of the successor Debenture Trustee or of the Company, the Debenture Trustee ceasing to act shall execute and deliver an instrument assigning and transferring to such successor Debenture Trustee, upon the trusts herein expressed, all the rights, powers and trusts of the Debenture Trustee so ceasing to act, and shall duly assign, transfer and deliver all property and money held by such Debenture Trustee to the successor Debenture Trustee so appointed in its place. Should any deed, conveyance or instrument in writing from the Company be required by any new Debenture Trustee for more fully and certainly vesting in and confirming to it such estates,

properties, rights, powers and trusts, then any and all such deeds, conveyances and instruments in writing shall on request of said new Debenture Trustee, be made, executed, acknowledged and delivered by the Company.

### **16.3 Duties of Debenture Trustee**

In the exercise of the rights, duties and obligations prescribed or conferred by the terms of this Indenture, the Debenture Trustee shall act honestly and in good faith and exercise that degree of care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances.

### **16.4 Reliance Upon Declarations, Opinions, etc.**

In the exercise of its rights, duties and obligations hereunder the Debenture Trustee may, if acting in good faith, act and rely, as to the truth of the statements and accuracy of the opinions expressed therein, upon statutory declarations, opinions, reports or certificates furnished pursuant to any covenant, condition or requirement of this Indenture or required by the Debenture Trustee to be furnished to it in the exercise of its rights and duties hereunder, if the Debenture Trustee examines such statutory declarations, opinions, reports or certificates and determines that they comply with Section 16.5, if applicable, and with any other applicable requirements of this Indenture. The Debenture Trustee may nevertheless, in its discretion, require further proof in cases where it deems further proof desirable. Without restricting the foregoing, the Debenture Trustee may act and rely on an opinion of Counsel satisfactory to the Debenture Trustee notwithstanding that it is delivered by a solicitor or firm which acts as solicitors for the Company.

### **16.5 Evidence and Authority to Debenture Trustee, Opinions, etc.**

The Company shall furnish to the Debenture Trustee evidence of compliance with the conditions precedent provided for in this Indenture relating to any action or step required or permitted to be taken by the Company or the Debenture Trustee under this Indenture or as a result of any obligation imposed under this Indenture, including without limitation, the certification and delivery of Debentures hereunder, the satisfaction and discharge of this Indenture and the taking of any other action to be taken by the Debenture Trustee at the request of or on the application of the Company, forthwith if and when (a) such evidence is required by any other Section of this Indenture to be furnished to the Debenture Trustee in accordance with the terms of this Section 16.5, or (b) the Debenture Trustee, in the exercise of its rights and duties under this Indenture, gives the Company written notice requiring it to furnish such evidence in relation to any particular action or obligation specified in such notice.

Such evidence shall consist of:

- (a) a Certificate of the Manager, stating that any such condition precedent has been complied with in accordance with the terms of this Indenture;
- (b) in the case of a condition precedent compliance with which is, by the terms of this Indenture, made subject to review or examination by a solicitor, an opinion of Counsel that such condition precedent has been complied with in accordance with the terms of this Indenture; and

- (c) in the case of any such condition precedent compliance with which is subject to review or examination by auditors or accountants, an opinion or report of the Auditors of the Company whom the Debenture Trustee for such purposes hereby approves, that such condition precedent has been complied with in accordance with the terms of this Indenture.

Whenever such evidence relates to a matter other than the certificates and delivery of Debentures and the satisfaction and discharge of this Indenture, and except as otherwise specifically provided herein, such evidence may consist of a report or opinion of any solicitor, auditor, accountant, engineer or appraiser or any other person whose qualifications give authority to a statement made by him, provided that if such report or opinion is furnished by a trustee, officer or employee of the Company it shall be in the form of a statutory declaration. Such evidence shall be, so far as appropriate, in accordance with the immediately preceding paragraph of this Section.

Each statutory declaration, certificate, opinion or report with respect to compliance with a condition precedent provided for in the Indenture shall include (a) a statement by the person giving the evidence that he has read and is familiar with those provisions of this Indenture relating to the condition precedent in question, (b) a brief statement of the nature and scope of the examination or investigation upon which the statements or opinions contained in such evidence are based, (c) a statement that, in the belief of the person giving such evidence, he has made such examination or investigation as is necessary to enable him to make the statements or give the opinions contained or expressed therein, and (d) a statement whether in the opinion of such person the conditions precedent in question have been complied with or satisfied.

The Company shall furnish to the Debenture Trustee at any time if the Debenture Trustee reasonably so requires, a Certificate of the Manager affirming compliance with all covenants, conditions or other requirements contained in this Indenture, the non-compliance with which would, with the giving of notice or the lapse of time, or both, or otherwise, constitute an Event of Default, or if such is not the case, specifying the covenant, condition or other requirement which has not been complied with and giving particulars of such non-compliance. The Company shall, whenever the Debenture Trustee so requires, furnish the Debenture Trustee with evidence by way of statutory declaration, opinion, report or certificate as specified by the Debenture Trustee as to any action or step required or permitted to be taken by the Company or as a result of any obligation imposed by this Indenture.

#### **16.6 Debenture Trustee May Rely on Certificate of the Manager**

Except as otherwise specifically provided or prescribed by this Indenture, whenever in the administration of the provisions of this Indenture the Debenture Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or omitting any action hereunder, the Debenture Trustee, if acting in good faith, may act and rely upon a Certificate of the Manager.

#### **16.7 Experts, Advisers and Agents**

The Debenture Trustee may:

- (a) employ or retain and act and rely on the opinion or advice of or information obtained from any solicitor, auditor, valuator, engineer, surveyor, appraiser or other expert or

advisor, whether obtained by the Debenture Trustee or by the Company, or otherwise, and shall not be liable for acting, or refusing to act, in good faith on any such opinion or advice and may pay proper and reasonable compensation for all such legal and other advice or assistance as aforesaid; and

- (b) employ such agents and other assistants as it may reasonably require for the proper discharge of its duties hereunder, and may pay reasonable remuneration for all services performed for it (and shall be entitled to receive reasonable remuneration for all services performed by it) in the discharge of the trusts hereof and compensation for all disbursements, costs and expenses made or incurred by it in the discharge of its duties hereunder and in the management of the trusts hereof, and any solicitors employed or consulted by the Debenture Trustee may, but need not be, solicitors for the Company.

#### **16.8 Debenture Trustee May Deal in Debentures**

Subject to Sections 16.1 and 16.3, the Debenture Trustee may, in its personal or other capacity, buy, sell, lend upon and deal in the Debentures and generally contract and enter into financial transactions with the Company or otherwise, without being liable to account for any profits made thereby.

#### **16.9 Investment of Monies Held by Debenture Trustee**

Upon receipt of a Written Direction of the Manager, the Debenture Trustee shall invest the funds in Government Obligations in its name in accordance with such direction. Any direction from the Manager to the Debenture Trustee shall be in writing and shall be provided to the Debenture Trustee no later than 9:00 a.m. on the day on which the investment is to be made. Any such direction received by Debenture Trustee after 9:00 a.m. or received on a non-Business Day, shall be deemed to have been given prior to 9:00 a.m. the next Business Day. For the purpose of this Section, "**Business Day**" shall not include any day on which banks are not open for business in Toronto, Ontario.

In addition to any Written Direction of the Manager to invest cash in Government Obligations, the Debenture Trustee may hold cash balances constituting part or all of the funds and may, but need not, invest same in its deposit department or the deposit department of one of its Affiliates; provided that the Debenture Trustee and its Affiliates shall not be liable to account for any profit to any parties to this Indenture or to any other person or entity other than at a rate, if any, established from time to time by the Debenture Trustee or one of its Affiliates. For the purpose of this Section, "**Affiliate**" means affiliated companies within the meaning of the *Business Corporations Act* (Ontario) ("**OBCA**"); and includes Computershare Investor Services Inc. and each of their affiliates within the meaning of the OBCA.

The Debenture Trustee shall not be held liable for any losses incurred in the investment of any funds in Government Obligations.

#### **16.10 Debenture Trustee will Disburse Only Monies Deposited**

The Debenture Trustee will disburse monies according to this Indenture only to the extent that monies have been deposited with it.

**16.11 Debenture Trustee Not Ordinarily Bound**

Except as provided in Section 9.2 and as otherwise specifically provided herein, the Debenture Trustee shall not, subject to Section 16.3, be bound to give notice to any person of the execution hereof, nor to do, observe or perform or see to the observance or performance by the Company of any of the obligations herein imposed upon the Company or of the covenants on the part of the Company herein contained, nor in any way to supervise or interfere with the conduct of the Company's business, unless the Debenture Trustee shall have been required to do so in writing by the holders of not less than 25% of the aggregate principal amount of the Debentures then outstanding or by any Extraordinary Resolution of the Debentureholders passed in accordance with the provisions contained in Article 14, and then only after it shall have been funded and indemnified to its satisfaction against all actions, proceedings, claims and demands to which it may render itself liable and all costs, charges, damages and expenses which it may incur by so doing.

**16.12 Debenture Trustee Not Required to Give Security**

The Debenture Trustee shall not be required to give any bond or security in respect of the execution of the trusts and powers of this Indenture or otherwise in respect of the premises.

**16.13 Debenture Trustee Not Bound to Act on the Company's Request**

Except as in this Indenture otherwise specifically provided, the Debenture Trustee shall not be bound to act in accordance with any direction or request of the Company or of the Directors until a duly authenticated copy of the instrument or resolution containing such direction or request shall have been delivered to the Debenture Trustee, and the Debenture Trustee shall be empowered to act upon any such copy purporting to be authenticated and believed by the Debenture Trustee to be genuine.

**16.14 Debenture Trustee Not Bound to Act**

The Debenture Trustee shall retain the right not to act and shall not be liable for refusing to act if, due to a lack of information or for any other reason whatsoever, the Debenture Trustee, in its sole judgment and acting reasonably, determines that such act might cause it to be in non-compliance with any applicable anti-money laundering or anti-terrorist legislation, regulation or guideline. Further, should the Debenture Trustee, in its sole judgment and acting reasonably, determine at any time that its acting under this Indenture has resulted in its being in non-compliance with any applicable anti-money laundering or anti-terrorist legislation, regulation or guideline, then it shall have the right to resign on 30 days' written notice to the Company or any shorter period of time as agreed to by the Company, notwithstanding the provisions of Section 16.2 of this Indenture, provided that:

- (a) the Debenture Trustee's written notice shall describe, if permissible by applicable legislation, the circumstances of such non-compliance; and
- (b) if such circumstances are rectified to the Debenture Trustee's satisfaction within such 30 day period, then such resignation shall not be effective.

**16.15 Debenture Trustee Protected in Acting**

The Debenture Trustee may act and rely, and shall be protected in acting and relying absolutely, upon any resolution, Certificate of the Manager, statement, instrument, opinion, report, notice, request, consent, order, letter, facsimile transmission, directions or other paper document believed in good faith by it to be genuine and to have been signed, sent or presented by or on behalf of the proper party or parties. The Debenture Trustee shall be protected in acting and relying upon any written notice, request, waiver, consent, certificate, receipt, statutory declaration, affidavit or other paper or document furnished to it, not only as to its due execution and the validity and the effectiveness of its provisions but also as to the truth and acceptability of any information therein contained which it in good faith believes to be genuine and what it purports to be.

**16.16 Conditions Precedent to Debenture Trustee's Obligations to Act Hereunder**

The obligation of the Debenture Trustee to commence or continue any act, action or proceeding for the purpose of enforcing the rights of the Debenture Trustee and of the Debentureholders hereunder shall be conditional upon the Debentureholders furnishing when required by notice in writing by the Debenture Trustee, sufficient funds to commence or continue such act, action or proceeding and indemnity reasonably satisfactory to the Debenture Trustee to protect and hold harmless the Debenture Trustee against the costs, charges and expenses and liabilities to be incurred thereby and any loss and damage it may suffer by reason thereof.

None of the provisions contained in this Indenture shall require the Debenture Trustee to expend or risk its own funds or otherwise incur financial liability in the performance of any of its duties or in the exercise of any of its rights or powers.

The Debenture Trustee may, before commencing or at any time during the continuance of any such act, action or proceeding require the Debentureholders at whose instance it is acting to deposit with the Debenture Trustee the Debentures held by them for which Debentures the Debenture Trustee shall issue receipts.

**16.17 Authority to Carry on Business**

The Debenture Trustee represents to the Company that at the date of execution and delivery by it of this Indenture it is authorized to carry on the business of a trust company in all of the provinces and territories of Canada but if, notwithstanding the provisions of this Section 16.13, it ceases to be so authorized to carry on business, the validity and enforceability of this Indenture and the securities issued hereunder shall not be affected in any manner whatsoever by reason only of such event but the Debenture Trustee shall, within 90 days after ceasing to be authorized to carry on the business of a trust company in any of the provinces or territories of Canada either become so authorized or resign in the manner and with the effect specified in Section 16.2.

**16.18 Compensation and Indemnity**

- (a) The Company shall pay to the Debenture Trustee from time to time compensation for its services hereunder as agreed separately by the Company and the Debenture Trustee, and shall pay and reimburse the Debenture Trustee upon its request for all reasonable expenses, disbursements and advances incurred or made by the Debenture Trustee in the administration or execution of its duties under this Indenture (including

the reasonable and documented compensation and disbursements of its Counsel and all other advisers and assistants not regularly in its employ), both before any default hereunder and thereafter until all duties of the Debenture Trustee under this Indenture shall be finally and fully performed. The Debenture Trustee's compensation shall not be limited by any law on compensation of a trustee of an express trust.

- (b) The Company hereby indemnifies and saves harmless the Debenture Trustee and its directors, officers and employees and agents (collectively, the "**Indemnified Parties**" and each an "**Indemnified Party**") from and against any and all loss, damages, charges, expenses, claims, demands, actions or liability whatsoever which may be brought against an Indemnified Party or which it may suffer or incur as a result of or arising out of the performance of its duties and obligations hereunder save only in the event of the negligent failure to act, or the wilful misconduct or bad faith of an Indemnified Party. This indemnity will survive the termination or discharge of this Indenture and the resignation or removal of the Debenture Trustee. An Indemnified Party shall notify the Company promptly of any claim for which it may seek indemnity. The Company shall defend the claim and the Indemnified Party shall cooperate in the defence. An Indemnified Party may have separate counsel and the Company shall pay the reasonable fees and expenses of such Counsel. The Company need not pay for any settlement made without its consent, which consent must not be unreasonably withheld. This indemnity shall survive the resignation or removal of the Debenture Trustee or the discharge of this Indenture.
- (c) The Company need not reimburse any expense or indemnify against any loss or liability incurred by any Indemnified Party through any of such party's negligence, wilful misconduct or bad faith.

#### **16.19 Acceptance of Trust**

The Debenture Trustee hereby accepts the trusts in this Indenture declared and provided for and agrees to perform the same upon the terms and conditions herein set forth and to hold all rights, privileges and benefits conferred hereby and by law in trust for the various persons who shall from time to time be Debentureholders, subject to all the terms and conditions herein set forth.

#### **16.20 Withholding Obligation**

- (a) For greater certainty, the Debenture Trustee shall, as directed by the Company, withhold, from any payment made to a holder of a Debenture pursuant to the terms of this Indenture, whether of interest or other amounts, and including with respect to delivery of IPSs or other securities or property upon conversion of Debentures, the amount of any applicable withholding taxes required or permitted to be withheld in respect of such payment, and the Debenture Trustee shall remit such withheld amounts to the appropriate governmental authority, as and when required.
- (b) In connection with the Debenture Trustee's obligation to withhold pursuant to Section 16.20(a) above, to the extent any payment to be made to a holder of a Debenture pursuant to the terms of this Indenture is to be satisfied by the Company delivering, or causing the delivery of, IPSs or other securities or property to the

Debentureholder (including, without limitation, the delivery of IPSs or other securities or property upon a conversion of Debentures pursuant to Article 7), the Debenture Trustee shall, subject to Applicable Laws, upon the written direction of the Company but for the account of the Debentureholder, sell, through the investment banks, registered brokers or registered dealers or other Persons selected by the Company, out of the IPSs or other securities or property issued on conversion pursuant to Article 7 or otherwise, such number of IPSs or other securities that is sufficient to yield net proceeds (after payment of all costs) to cover the amount of applicable withholding taxes required to be withheld, and the Debenture Trustee shall withhold such net proceeds and remit such amounts to the appropriate governmental authority, as and when required. Any amounts of net proceeds (after payment of all costs) in excess of the amount required to cover applicable withholding taxes will be remitted to the Debentureholder.

- (c) For the purposes of determining the appropriate withholdings to be made from any payment to be made to a holder of a Debenture, the Company and the Debenture Trustee agree to co-operate and to provide each other with any relevant information they have with respect to the holders of the Debentures. For greater certainty, the parties acknowledge and agree that the withholding tax obligations with respect to a conversion of Debentures may be different than those in connection with interest or other payments on the Debentures.

## **ARTICLE 17 SUPPLEMENTAL INDENTURES**

### **17.1 Supplemental Indentures**

From time to time the Debenture Trustee and, when authorized by a resolution of the Directors, the Company, may, and shall when required by this Indenture, subject to the prior written approval of the TSX, as required, execute, acknowledge and deliver by its proper officers, deeds or indentures supplemental hereto which hereafter shall form part hereof, for any one or more of the following purposes:

- (a) providing for the issuance of Additional Debentures under this Indenture;
- (b) adding to the covenants of the Company herein contained for the protection of the Debentureholders, or of the Debentures of any series, or providing for events of default, in addition to those herein specified;
- (c) making such provisions not inconsistent with this Indenture as may be necessary or desirable with respect to matters or questions arising hereunder, including the making of any modifications in the form of the Debentures which do not affect the substance thereof and which in the opinion of the Debenture Trustee (relying on an opinion of Counsel), will not be prejudicial to the interests of the Debentureholders;
- (d) evidencing the succession, or successive successions, of others to the Company and the covenants of and obligations assumed by any such successor in accordance with the provisions of this Indenture;

- (e) giving effect to any Extraordinary Resolution passed as provided in Article 14;
- (f) approving amendments to this Indenture which, in the opinion of the Debenture Trustee relying on the advice of Counsel, are necessary or desirable to prevent the assets of the Company from being treated for any purpose of ERISA or Section 4975 of the U.S. Tax Code as assets of any “**employee benefit plan**”, as defined in Section 3 of ERISA, that is subject to Title I of ERISA, or of any “**plan**” as defined in, and subject to, Section 4975 of the U.S. Tax Code or to prevent the Company or any Affiliate of the Company from engaging in a “**prohibited transaction**” described in Section 406 of ERISA or as defined in Section 4975(c) of the U.S. Tax Code; and
- (g) for any other purpose not inconsistent with the terms of this Indenture, provided that, in the opinion of the Debenture Trustee (relying on an opinion of Counsel), the rights of the Debentureholders are in no way prejudiced thereby.

Unless the supplemental indenture requires the consent or concurrence of Debentureholders or the holders of a particular series of Debentures, as the case may be, by Extraordinary Resolution, the consent or concurrence of Debentureholders or the holders of a particular series of Debentures, as the case may be, shall not be required in connection with the execution, acknowledgement or delivery of a supplemental indenture. The Company and the Debenture Trustee (relying on the opinion of Counsel) may amend any of the provisions of this Indenture related to matters of United States law or the issuance of Debentures into the United States in order to ensure that such issuances can be properly done in accordance with applicable law in the United States without the consent or approval of the Debentureholders. Further, the Company and the Debenture Trustee may without the consent or concurrence of the Debentureholders or the holders of a particular series of Debentures, as the case may be, by supplemental indenture or otherwise, make any changes or corrections in this Indenture which it shall have been advised by Counsel are required for the purpose of curing or correcting any ambiguity or defective or inconsistent provisions or clerical omissions or mistakes or manifest errors contained herein or in any indenture supplemental hereto or any Written Direction of the Company provided for the issue of Debentures, providing that in the opinion of the Debenture Trustee (relying upon an opinion of Counsel) the rights of the Debentureholders and the Senior Creditors are in no way prejudiced thereby.

## **ARTICLE 18 SECURITY**

### **18.1 Security Documents**

The Company hereby agrees to, and agrees to cause the Guarantors to, execute and deliver the Security Documents, to the extent not already delivered, in form and substance satisfactory to the Collateral Agent acting reasonably, as continuing collateral security for the due, prompt and complete payment, performance and satisfaction by the Company and the Guarantors of all of their indebtedness, liabilities and obligations of every nature whatsoever (whether present or future, direct or indirect, absolute or contingent, matured or unmatured, at any time due or accruing due, wheresoever and howsoever incurred, including any ultimate unpaid balance thereof, in any currency, and whether incurred prior to, at the time of or subsequent to the execution of this Indenture) to the Debenture Trustee, the Collateral Agent and the Securityholders, in connection with this Indenture and the Security Documents.

**ARTICLE 19  
EXECUTION AND FORMAL DATE**

**19.1 Execution**

This Indenture may be simultaneously executed in several counterparts, each of which when so executed shall be deemed to be an original and such counterparts together shall constitute one and the same instrument.

**19.2 Formal Date**

For the purpose of convenience this Indenture may be referred to as bearing the formal date of October 11, 2006 irrespective of the actual date of execution hereof.

IN WITNESS whereof the parties hereto have executed these presents by the hands of their proper officers.

SCHEDULE "A" TO THE TRUST INDENTURE

Form of Debenture

## SCHEDULE "A"

This Debenture is a Global Debenture within the meaning of the Indenture hereinafter referred to and is registered in the name of a Depository or a nominee thereof. This Debenture may not be transferred to or exchanged for Debentures registered in the name of any person other than the Depository or a nominee thereof and no such transfer may be registered except in the limited circumstances described in the Indenture. Every Debenture authenticated and delivered upon registration of, transfer of, or in exchange for, or in lieu of, this Debenture shall be a Global Debenture subject to the foregoing, except in such limited circumstances described in the Indenture.

Unless this certificate is presented by an authorized representative of The Canadian Depository for Securities Limited ("CDS") to the Company or its transfer agent for registration of transfer, exchange or payment, and any certificate issued in respect thereof is registered in the name of CDS & CO., or in such other name as is requested by an authorized representative of CDS, (and any payment is made to CDS & Co. or to such other entity as is requested by an authorized representative of CDS) ANY TRANSFER, PLEDGE OR OTHER USE HEREOF FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL since as the registered holder hereof, CDS & CO. has an interest herein.

Certificate No. 1

CUSIP No. 04878QAH6

CDN\$60,000,000

### ATLANTIC POWER CORPORATION

(A corporation continued under and governed by the laws of the Province of British Columbia)

### 6.25% CONVERTIBLE SECURED DEBENTURE DUE October 31, 2011

ATLANTIC POWER CORPORATION ("the Company") for value received hereby acknowledges itself indebted and, subject to the provisions of the trust indenture (the "**Indenture**") dated as of October 11, 2006 between the Company and Computershare Trust Company of Canada (the "**Debenture Trustee**"), promises to pay to the registered holder hereof on October 31, 2011 (the "**Maturity Date**") or on such earlier date as the principal amount hereof may become due in accordance with the provisions of the Indenture the principal sum of sixty million dollars (CDN\$60,000,000) in lawful money of Canada (CDN\$60,000,000) on presentation and surrender of this Initial Debenture at the principal offices of the Debenture Trustee in Toronto, Ontario in accordance with the terms of the Indenture and, subject as hereinafter provided, to pay interest on the principal amount hereof from the date hereof, or from the last Interest Payment Date to which interest shall have been paid or made available for payment hereon, whichever is later, at the rate of 6.25% per annum, in like money, in arrears semi-annually (less any withholding tax required or permitted by law to be deducted) on April 30 and October 31 in each year commencing on April 30, 2007 and the last payment (representing interest payable from the last Interest Payment Date to, but excluding, the Maturity Date or the earlier date of redemption) to fall due on the Maturity Date and, should the Company at any time make default in the payment of any principal, premium or interest, to pay interest on the amount in default at the same rate, in like money and on the same dates. For certainty,

the first interest payment will include interest accrued from October 11, 2006 to, but excluding, April 30, 2007, which will be equal to CDN\$34.42 for each CDN\$1,000 principal amount of the Initial Debentures.

Interest hereon shall be payable by electronic transfer of funds to the registered holder hereof or such other means provided in the Indenture and, subject to the provisions of the Indenture, the sending of such electronic transfer of funds shall, to the extent of the sum represented thereby (plus the amount of any tax withheld), satisfy and discharge all liability for interest on this Initial Debenture.

This Initial Debenture is one of the Debentures of the Company issued or issuable in one or more series under the provisions of the Indenture. The Initial Debentures authorized for issue immediately are limited to an aggregate principal amount of CDN\$60,000,000 in lawful money of Canada. Reference is hereby expressly made to the Indenture for a description of the terms and conditions upon which the Initial Debentures are or are to be issued and held and the rights and remedies of the holders of the Initial Debentures and of the Company and of the Debenture Trustee, all to the same effect as if the provisions of the Indenture were herein set forth, and to all of which provisions the holder of this Initial Debenture by acceptance hereof assents.

The Initial Debentures are issuable only in denominations of CDN\$1,000 and integral multiples thereof. Upon compliance with the provisions of the Indenture, Debentures of any denomination may be exchanged for an equal aggregate principal amount of Debentures in any other authorized denomination or denominations.

Any part, being CDN\$1,000 or an integral multiple thereof, of the principal of this Initial Debenture, provided that the principal amount of this Initial Debenture is in a denomination in excess of CDN\$1,000, is convertible, at the option of the holder hereof, upon surrender of this Initial Debenture at the principal offices of the Debenture Trustee in the City of Toronto, Ontario, at any time prior to the close of business on the Maturity Date or, if this Initial Debenture is called for redemption on or prior to such date, then up to but not after the close of business on the last Business Day immediately preceding the date specified for redemption of this Initial Debenture, into IPSs (without adjustment for interest accrued hereon or for dividends, distributions or interest payments on the IPSs issuable upon conversion) at a conversion price of CDN\$12.40 per IPS (the "**Conversion Price**"), being a conversion ratio of approximately 80.6452 for each CDN\$1,000 principal amount of Debentures so converted, all subject to the terms and conditions and in the manner set forth in the Indenture. The Indenture makes provision for the adjustment of the Conversion Price in the events therein specified. No fractional IPSs will be issued on any conversion but in lieu thereof, the Company will satisfy such fractional interest by a cash payment equal to the market price of such fractional interest determined in accordance with the Indenture. No adjustment in the number of IPSs to be issued upon conversion will be made for distributions, dividends or interest payments on IPSs issuable upon conversion or for interest accrued on Initial Debentures surrendered for conversion. Holders converting their Initial Debentures will receive interest which has accrued and is unpaid in respect thereof from the most recent Interest Payment Date to which interest has been paid to, but not including, the Date of Conversion.

This Initial Debenture may be redeemed at the option of the Company on the terms and conditions set out in the Indenture at the Redemption Price therein and herein set out provided that this Initial Debenture is not redeemable prior to or on October 31, 2009. After October 31, 2009 and prior to the Maturity Date, this Initial Debenture is redeemable at the Redemption Price at the option of the Company provided that the Company files with the Debenture Trustee on the day

preceding the day on which notice of redemption of this Initial Debenture is first given, a Certificate of the Manager certifying that the weighted average price of the IPSs on the Toronto Stock Exchange (or elsewhere in accordance with the Indenture) for 20 consecutive trading days, ending on the fifth trading day preceding the day prior to the date on which such notice is given, is at least 125% of the Conversion Price then in effect.

Upon the occurrence of a Change of Control, each holder of Initial Debentures may subject to the terms and provisions of Section 2.4(h) and Article 6 of the Indenture require the Company to purchase the whole or any part of such holder's Initial Debentures at a price equal to 101% of the principal amount of such Initial Debentures plus accrued and unpaid interest up to, but excluding, the date the Initial Debentures are so repurchased (the "Put Right"). The Company shall satisfy such purchase price by payment in cash. If 90% or more of the principal amount of all Initial Debentures outstanding on the date the Company provides notice of a Change of Control to the Debenture Trustee have been tendered for purchase pursuant to the Put Right, the Company has the right to redeem all the remaining outstanding Initial Debentures on the same date and at the same price.

If an Offer for outstanding Debentures of a series (other than Debentures held by or on behalf of the Offeror, Associates or Affiliates of the Offeror or anyone acting jointly or in concert with the Offeror) is made and 90% or more of the outstanding principal amount of the Debentures is taken up and paid for by the Offeror, the Offeror will be entitled to acquire the Debentures of those holders who did not accept the offer on the same terms as the Offeror acquired the first 90% of the principal amount of the Debentures.

The indebtedness evidenced by this Initial Debenture, and by all other Initial Debentures now or hereafter certified and delivered under the Indenture, is a direct secured obligation of the Company, and is subordinated in right of payment, to the extent and in the manner provided in the Indenture, to the prior payment of all Senior Secured Indebtedness, whether outstanding at the date of the Indenture or thereafter created, incurred, assumed or guaranteed.

The principal hereof may become or be declared due and payable before the stated maturity in the events, in the manner, with the effect and at the times provided in the Indenture.

Any payment of money to any holder of Debentures will be reduced by the amount of applicable withholding taxes, if any. The Indenture contains provisions making binding upon all holders of Debentures outstanding thereunder (or in certain circumstances specific series of Debentures) resolutions passed at meetings of such holders held in accordance with such provisions and instruments signed by the holders of a specified majority of Debentures outstanding (or specific series), which resolutions or instruments may have the effect of amending the terms of this Initial Debenture or the Indenture.

This Initial Debenture may only be transferred, upon compliance with the conditions prescribed in the Indenture, in one of the registers to be kept at the principal offices of the Debenture Trustee in Toronto and in such other place or places and/or by such other registrars (if any) as the Company with the approval of the Debenture Trustee may designate. No transfer of this Initial Debenture shall be valid unless made on the register by the registered holder hereof and upon compliance with such reasonable requirements as the Debenture Trustee and/or other registrar may prescribe and upon surrender of this Initial Debenture for cancellation. Thereupon a new Initial Debenture or Initial Debentures in the same aggregate principal amount shall be issued to the transferee in exchange hereof.

The following ownership restrictions apply to this Debenture (as well as to the IPSs of the Company) and are set out in Article 3 of the Indenture: "Prohibition Against Ownership by Certain United States Retirement Plans"; "Limitation on United States Resident Ownership"; and "Limitation on Ownership by Electric Utilities and Others".

This Initial Debenture shall not become obligatory for any purpose until it shall have been certified by the Debenture Trustee under the Indenture.

The Indenture and this Debenture shall be governed by, and construed in accordance with, the laws of the Province of Ontario and the federal laws of Canada applicable therein.

Capitalized words or expressions used in this Initial Debenture shall, unless otherwise defined herein, have the meaning ascribed thereto in the Indenture. **In the event that the terms and conditions stated in this Debenture conflict, or are inconsistent, with the terms and conditions of the Indenture, the Indenture shall prevail and take priority.**

**[remainder of page intentionally left blank]**

IN WITNESS WHEREOF ATLANTIC POWER CORPORATION has caused this Debenture to be signed by its authorized signatories as of the 11<sup>th</sup> day of October, 2006.

## TERM LOAN CREDIT AGREEMENT

THIS TERM LOAN CREDIT AGREEMENT (this "Agreement") dated as of September 15, 2006 is made and entered into by and among ATLANTIC POWER HOLDINGS, LLC, a Delaware limited liability company (the "Borrower"), each lender from time to time party hereto (collectively, the "Lenders" and individually, a "Lender"), and BANK OF MONTREAL as Administrative Agent for the Lenders.

WHEREAS, pursuant to a Purchase Agreement, dated as of June 28, 2006 (as amended, supplemented, amended and restated or otherwise modified from time to time as permitted hereunder, the "Acquisition Purchase Agreement"), among New Transmission Development Company, United States Power Fund, L.P., Cardinal Power Funding, LLC and KB TransValley LLC, as sellers (collectively, the "Sellers"), and the Borrower as buyer, which agreement shall be assigned to Acquisition Holdco prior to the Closing Date, Acquisition Holdco intends to acquire (the "Acquisition") from the Sellers, all of the Capital Stock of the Acquisition Intermediary Holdco Subsidiaries, the Acquired Subsidiary and the Acquisition Operating Subsidiary, and any other "Asset Seller Interests" as defined in the Acquisition Purchase Agreement, for aggregate consideration estimated to be approximately \$88,000,000 plus fees and expenses;

WHEREAS, in order to consummate the Acquisition by Acquisition Holdco, the Borrower will enter into the Intercompany Loan Documents with Acquisition Holdco;

WHEREAS, the Borrower has requested that the Lenders provide a term loan credit facility to facilitate the consummation of the Acquisition, and the Lenders are willing to do so on the terms and conditions set forth herein.

WHEREAS, in consideration of the mutual covenants and agreements herein contained, the parties hereto covenant and agree as follows:

### ARTICLE I. DEFINITIONS AND ACCOUNTING TERMS

**1.01 Defined Terms.** As used in this Agreement, the following terms shall have the meanings set forth below:

"Acceptable Security Interest" in any Property means a Lien which (a) exists in favor of the Administrative Agent for the benefit of any of the Administrative Agent, the Lenders or any of their respective Affiliates, (b) is superior to all Liens or rights of any other Person (other than Liens specifically permitted under Section 7.01) in the Property or Collateral encumbered thereby (c) secures the Secured Obligations, and (d) is perfected and enforceable.

"Acquired Subsidiary" means Trans-Elect NTD Holdings Path 15, LLC, a Delaware limited liability company.

"Acquisition" has the meaning set forth in the first recital.

“Acquisition Documents” means the Acquisition Purchase Agreement and the documents and agreements executed and delivered in connection therewith.

“Acquisition Entities” means Harbor Capital, Acquisition Holdco, the Acquisition Intermediary Holdco Subsidiaries, the Acquired Subsidiary, the Acquisition Operating Subsidiary and any other direct or indirect Subsidiary of the Borrower formed in connection with the consummation of the Acquisition or the operation of the assets, interests and other related businesses acquired pursuant to the Acquisition.

“Acquisition Holdco” means Harbor Transmission, LLC, a Delaware limited liability company, and a Wholly-Owned Subsidiary of Harbor Capital and an Unrestricted Subsidiary.

“Acquisition Intermediary Holdco Subsidiaries” means (i) TransValley LLC, a Delaware limited liability company (“TransValley”), and a Wholly-Owned Subsidiary of Acquisition Holdco; (ii) KB Transmission LLC, a Delaware limited liability company, and a Wholly-Owned Subsidiary of TransValley; and (iii) EIF Path 15 Funding, LLC, a Delaware limited liability company, and a Wholly-Owned Subsidiary of Acquisition Holdco.

“Acquisition Purchase Agreement” has the meaning set forth in the first recital.

“Acquisition Operating Subsidiary” means, Trans-Elect NTD Path 15, LLC, a Delaware limited liability company and a Wholly-Owned Subsidiary of the Acquired Subsidiary.

“Additional Securities” has the meaning set forth in the Subordinated Note Indenture.

“Administrative Agent” means Bank of Montreal in its capacity as administrative agent under any of the Loan Documents, or any successor administrative agent.

“Administrative Agent’s Office” means the Administrative Agent’s address and, as appropriate, account as set forth on Schedule 10.02, or such other address or account as the Administrative Agent may from time to time notify to the Borrower and the Lenders.

“Affiliate” of any specified Person means any other Person directly or indirectly controlling or controlled by or under direct or indirect common control with such specified Person. For purposes of this definition, “control” (including, with correlative meanings, the terms “controlling”, “controlled by” and “under common control with”), as used with respect to any Person, means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of such Person, whether through the ownership of voting securities, by agreement or otherwise.

“Agent/Arranger Fee Letter” has the meaning set forth in Section 2.10(c).

“Agent-Related Persons” means the Administrative Agent (including any successor administrative agent permitted hereby), together with its Affiliates (including, in the case of Bank of Montreal in its capacity as the Administrative Agent, the Arranger), and the officers, directors, employees, agents and attorneys-in-fact of such Persons and Affiliates.

“Aggregate Commitments” means at any time the sum of the Commitments of all the Lenders under this Agreement.

“Agreement” means this Term Loan Credit Agreement.

“Annual Budget” has the meaning set forth in Section 6.01(c)(ii).

“Annual Distributable Cash Forecast” has the meaning set forth in Section 6.01(c)(i).

“Applicable Margin” means the following amounts per annum for the following periods:

(a) Base Rate Loans: 0.0 basis points during the three month period beginning on the Closing Date (the “First Period”); 50.0 basis points during the three month period beginning immediately after the First Period (the “Second Period”); 100.0 basis points during the three month period beginning immediately after the Second Period (the “Third Period”); and 150.0 basis points during the period beginning immediately after the Third Period and ending on the Maturity Date (the “Final Period”);

and

(b) Eurodollar Rate Loans: 150.0 basis points during the First Period; 200.0 basis points during the Second Period; 250.0 basis points during the Third Period; and 300.0 basis points during the Final Period.

“Approved Fund” means any Fund that is administered or managed by (a) a Lender or (b) an Affiliate of a Lender or (c) an entity or an Affiliate of an entity that administers or manages a Lender.

“Arranger” means BMO Capital Markets Corp. formerly known as Harris Nesbitt Corp., in its capacity as arranger.

“Asset Sale” means: (i) the sale, conveyance, transfer or other disposition (whether in a single transaction or a series of related transactions) of Property or assets (including by way of a Sale/Leaseback Transaction) of the Borrower or any Subsidiary or Unrestricted Subsidiary of the Borrower (each referred to in this definition as a “**disposition**”) or (ii) the issuance or sale of Equity Interests of any Subsidiary or Unrestricted Subsidiary of the Borrower (other than to the Borrower or another Subsidiary or Unrestricted Subsidiary of the Borrower) (whether in a single transaction or a series of related transactions), in each case other than: (a) a disposition of Cash Equivalents or Investment Grade Securities or obsolete or worn out equipment in the ordinary course of business; (b) the disposition of all or substantially all of the assets of the Borrower in a manner permitted pursuant to Section 7.04 or any disposition that constitutes a Change of Control; (c) any Restricted Payment or Permitted Investment that is permitted to be made, and is made, under Section 7.03; (d) any disposition of Property or assets by a Subsidiary or Unrestricted Subsidiary of the Borrower to the Borrower or by the Borrower or a Subsidiary or Unrestricted Subsidiary of the Borrower to a Subsidiary or Unrestricted Subsidiary of the Borrower; (e) any exchange of like Property for use in a Similar Business; (f) sales of assets received by the Borrower upon the foreclosure on a Lien; and (g) sales of inventory in the

ordinary course of business consistent with past practices and sales of equipment upon termination of a contract with a client entered into in the ordinary course of business pursuant to the terms of such contract.

“Assignee Conditions” means, in relation to any Person described in clause (c) of the defined term “Eligible Assignee”, the conditions as follow: (i) if a Lender assigns to such an Eligible Assignee less than all of its Loans at the time owing to it, any right of such assigning Lender and such assignee to vote as a Lender, or any other direct claim or right against the Borrower or any Guarantor in relation to this Agreement, shall be uniformly exercised or pursued by such assigning Lender and such assignee; and (ii) such assignee shall not be entitled to payment from any Loan Party under Article III of amounts in excess of those payable to such Lender assignor under such Article (determined without regard to such assignment or transfer).

“Assignment and Acceptance” means an Assignment and Acceptance substantially in the form of Exhibit D.

“Attorney Costs” means and includes all reasonable fees and disbursements of any law firm or other external counsel and expressly includes the allocated reasonable costs of internal legal services and disbursements of internal counsel.

“Audited Financial Statements” means (a) with respect to the Borrower the audited consolidated balance sheet of the Parent Guarantor and each of its consolidated Subsidiaries, for the fiscal year ended December 31, 2005, and (b) with respect to the Acquired Subsidiary, the audited consolidated balance sheet of the Acquired Subsidiary and each of its consolidated Subsidiaries, for the fiscal year ended December 31, 2005, and in each case the related consolidated statements of income and cash flows for such fiscal year of such Persons.

“Base Rate” means for any day a fluctuating rate per annum equal to the higher of (a) the Federal Funds Rate plus 1/2 of 1% and (b) the rate of interest as publicly announced from time to time by Bank of Montreal as its “reference rate.” Such reference rate is a rate set by Bank of Montreal based upon various factors; including Bank of Montreal’s costs and desired return, general economic conditions and other factors, and is used as a reference point for pricing some loans, which may be priced at, above, or below such announced reference rate. Any change in such reference rate announced by Bank of Montreal shall take effect at the opening of business on the day specified in the public announcement of such change.

“Base Rate Loan” means a Loan that bears interest based on the Base Rate.

“Board” means the Board of Governors of the Federal Reserve System of the United States of America.

“Borrower” has the meaning set forth in the introductory paragraph hereto and with respect to such Person, includes its successors and assigns permitted hereby, if any.

“Borrowing” means a borrowing consisting of simultaneous Loans of the same Type and having the same Interest Period made by each of the Lenders pursuant to Section 2.01.

“Business Day” means any day other than a Saturday, Sunday, or other day on which commercial banks are authorized to close under the Laws of, or are in fact closed in, each of (a) the state where the Administrative Agent’s Office is located and (b) the City of Toronto, Ontario, Canada, and if such day relates to any Eurodollar Rate Loan, it must also be a day on which dealings in Dollar deposits are conducted by and between banks in the applicable offshore Dollar interbank market.

“Capitalized Lease Obligations” means, at the time any determination thereof is to be made, the amount of the liability in respect of a capital lease that would at such time be required to be capitalized and reflected as a liability on a balance sheet (excluding the footnotes thereto) in accordance with GAAP.

“Capital Stock” means: (i) in the case of a corporation, corporate stock or equity interests, including, without limitation, corporate stock represented by IPSs and corporate stock outstanding upon the separation of IPSs into the securities represented thereby; (ii) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock; (iii) in the case of a partnership or limited liability company, partnership or membership interests (whether general or limited); and (iv) any other interest or participation that confers on a Person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing Person.

“Cash” means U.S. Dollars or Cdn. Dollars.

“Cash Equivalents” means (i) (A) Cdn. Dollars and foreign currency exchanged into Cdn. Dollars within 180 days or (B) U.S. Dollars and foreign currency exchanged into U.S. Dollars within 180 days; (ii) securities issued or directly and fully guaranteed or insured by the U.S. or Canadian government or any agency or instrumentality thereof; (iii) certificates of deposit, time deposits and eurodollar time deposits with maturities of one year or less from the date of acquisition, bankers’ acceptances with maturities not exceeding one year and overnight bank deposits, in each case with any commercial bank having capital and surplus in excess of U.S.\$200,000,000 and whose long-term debt is rated “A” or the equivalent thereof by Moody’s or S&P; (iv) repurchase obligations for underlying securities of the types described in clauses (ii) and or by DBRS (iii) above entered into with any financial institution meeting the qualifications specified in clause (iii) above; (v) commercial paper issued by a corporation (other than an Affiliate of the Borrower or an Affiliate of a Subsidiary of the Borrower) rated at least “A (low)” or higher by DBRS or “A3” or higher by Moody’s or “A-” or higher by S&P and in each case maturing within one year after the date of acquisition; (vi) investment funds investing at least 95% of their assets in securities of the types described in clauses (i) through (v) above; (vii) readily marketable direct obligations issued by or guaranteed by the Government of the United States or Canada, any state of the United States of America or any political subdivision thereof having one of the two highest rating categories obtainable from DBRS, Moody’s or S&P; and (viii) Indebtedness or preferred stock issued by Persons with a rating of P-2 or higher by DBRS, “A” or higher from S&P or “A-2” or higher from Moody’s.

“Cash Flow” means, for any period, the difference of (i) the aggregate amount of all cash distributions received or receivable in respect of such period, by the Parent Guarantor from the Borrower, any Subsidiary or Unrestricted Subsidiary of the Borrower or any other source during

such period plus the Parent Guarantor's *pro rata* share (based on its common membership ownership interest in the Borrower) of any cash distributions received by the Borrower in respect of such period and retained by the Borrower, in each such case exclusive of any distribution attributable to any net proceeds realized by the Parent Guarantor or any Subsidiary of the Parent Guarantor, including without limitation, the Borrower, any Subsidiary of the Borrower and any Unrestricted Subsidiary of the Borrower upon the sale or disposition of plant property and equipment, which is not disposed of in the ordinary course of business and any other extraordinary items, minus (ii) any amounts paid by the Parent Guarantor in respect of expenses (other than Interest Expense), including taxes determined on a *pro forma*, annual basis for a full tax year.

"Cash Flow Coverage Ratio" means for the most recently ended four fiscal quarters of the Parent Guarantor for which financial statements are available, the ratio of Cash Flow for such period to the total Interest Expense of the Parent Guarantor plus any mandatory principal repayments on outstanding Indebtedness of the Parent Guarantor for such period.

"Cdn. Dollars" and "Cdn.\$" means lawful money of Canada.

"Cdn. GAAP" means generally accepted accounting principles from time to time approved by the Canadian Institute of Chartered Accountants.

"Change of Control" means the occurrence of any of the following events:

(i) the sale, lease or transfer to any Person or group, in one or a series of related transactions, of the Parent Guarantor's or the Borrowers' assets generating more than 66 2/3% of the Parent Guarantor's Cash Flow for the 12-month period ended on the last day of the most recent fiscal quarter to any Person or group;

(ii) the adoption of a plan relating to the liquidation or dissolution of the Borrower or the Parent Guarantor;

(iii) the acquisition by any Person or group of a direct or indirect interest in more than 50% of: (A) the Common Shares of the Borrower or the common membership interests of the Parent Guarantor; or (B) the voting power or Voting Stock of the Borrower or the Parent Guarantor; by way of purchase, merger or consolidation or otherwise (other than a creation of a holding company that does not involve a change in the beneficial ownership of the Borrower as a result of such transaction); or

(iv) the merger or consolidation of the Borrower or the Parent Guarantor with or into another Person or the merger of another Person into the Borrower or the Parent Guarantor with the effect that immediately after such transaction the shareholders of the Borrower or the holders of common membership interests of the Borrower immediately prior to such transaction hold, directly or indirectly, less than 50% of the total Voting Stock of the Person surviving such merger or consolidation, in each case other than the creation of a holding company that does not involve a change in the beneficial ownership of the Borrower or the Parent Guarantor as a result of such transaction.

“Closing Date” means the first date all the conditions precedent in Section 4.01 are satisfied or waived in accordance with Section 4.01 (or, in the case of Section 4.01(b), waived by the Person entitled to receive the applicable payment).

“Code” means the *United States Internal Revenue Code of 1986*, as amended, and any rules and regulations issued pursuant thereto.

“Collateral” means the Property of any Loan Party upon which Liens in favor of the Lenders have been granted or have been purported to have been granted by the terms of the applicable Security Documents.

“Collateral Agent” means Bank of Montreal, in its capacity as collateral agent under any of the Loan Documents, or any other successor collateral agent.

“Collateral Agency and Intercreditor Agreement” means the Amended and Restated Collateral Agency and Intercreditor Agreement, dated as of September 15, 2006, by and among the Lenders, the Administrative Agent, the Revolving Lenders, the Revolving Agent, the Trustee and the Collateral Agent and substantially in the form of Exhibit I attached hereto (as the same may be amended, restated, supplemented or otherwise modified from time to time).

“Commitment” means, as to each Lender, its obligation to make Loans to the Borrower pursuant to Section 2.01 in an aggregate principal amount not to exceed the amount set forth opposite such Lender’s name on Schedule 2.01 (the aggregate Commitments of all the Lenders, collectively, the “Commitments”).

“Common Shares” means the common shares in the capital of the Borrower.

“Compliance Certificate” means a certificate substantially in the form of Exhibit C.

“Contractual Obligation” means, as to any Person, any provision of any security issued by such Person or of any contract, agreement, instrument or other undertaking to which such Person is a party or by which it or any of its Property is bound pursuant to which such Person is obligated to perform an agreement or other undertaking.

“Credit Extension” means a Borrowing.

“DBRS” means Dominion Bond Rating Service Limited or any successor to the rating agency business thereof, or if no such successor, any other debt rating agency selected by the Borrower and approved by the Required Lenders.

“Debtor Relief Laws” means the Bankruptcy Code of the United States of America, and all other liquidation, conservatorship, bankruptcy, assignment for the benefit of creditors, moratorium, rearrangement, receivership, insolvency, reorganization, or similar debtor relief Laws of the United States of America or other applicable jurisdictions from time to time in effect and affecting the rights of creditors generally.

“Default” means any event that, with the giving of any notice, the passage of time, or both, would be an Event of Default.

“Default Rate” means an interest rate equal to (a) the Base Rate plus (b) the Applicable Margin, if any, applicable to Base Rate Loans plus (c) 2% per annum; provided, however, that with respect to a Eurodollar Rate Loan, the Default Rate shall be an interest rate equal to the interest rate (including any Applicable Margin) otherwise applicable to such Loan plus 2% per annum, in each case to the fullest extent permitted by applicable Laws.

“Deposit and Disbursement Agreement” means the Amended and Restated Deposit and Disbursement Agreement, dated as of September 15, 2006, by and among the Loan Parties party thereto, the Collateral Agent, the Trustee and Harris Bank as the depository bank and substantially in the form of Exhibit F attached hereto (as the same may be amended, restated, supplemented or otherwise modified from time to time).

“Designated Non-Cash Consideration” means the Fair Market Value of non-cash consideration received by the Borrower or one of its Subsidiaries in connection with an Asset Sale that is so designated as Designated Non-Cash Consideration pursuant to an Officers’ Certificate, setting forth the basis of such valuation, less the amount of Cash Equivalents received in connection with a subsequent sale of such Designated Non-Cash Consideration.

“Disqualified Stock” means, with respect to any Person, any Capital Stock of such Person which, by its terms (or by the terms of any security into which it is convertible or for which it is redeemable or exchangeable), or upon the happening of any event: (i) matures or is mandatorily redeemable, pursuant to a sinking fund obligation or otherwise; (ii) is convertible or exchangeable for Indebtedness or Disqualified Stock; or (iii) is redeemable at the option of the holder thereof, in whole or in part, in each case prior to the first anniversary of the Stated Maturity of the Securities; provided, however, that only the portion of Capital Stock which so matures or is mandatorily redeemable, is so convertible or exchangeable or is so redeemable at the option of the holder thereof prior to such first anniversary shall be deemed to be Disqualified Stock; provided further, however, that if such Capital Stock is issued to any director, manager, officer, employee or to any plan for the benefit of such parties of the Borrower or its Subsidiaries or by any such plan to such parties, such Capital Stock shall not constitute Disqualified Stock solely because it may be required to be repurchased by the Borrower in order to satisfy applicable statutory or regulatory obligations or as a result of such parties’ termination, death or disability.

“Distribution” for any Person means, with respect to any shares of any capital stock, any units, any partnership interests or other equity securities or ownership interests issued by such Person, (a) the retirement, redemption, purchase, or other acquisition for value of any such securities, (b) the declaration or payment of any dividend on or with respect to any such securities, and (c) any other payment by such Person with respect to such securities.

“Eligible Assignee” means (i) a Lender; (b) an Affiliate of a Lender that is financially capable of performing the obligations of a Lender under this Agreement; (c) an Approved Fund that is financially capable of performing the obligations of such Lender under this Agreement; and (d) any other Person (other than a natural Person) approved by the Administrative Agent and, unless an Event of Default has occurred and is continuing, the Borrower (each such approval not to be unreasonably withheld or delayed).

“Environmental Laws” means all Laws relating to environmental, health, safety and land use matters applicable to any property.

“Equity Interests” means Capital Stock and all warrants, options or other rights to acquire Capital Stock (but excluding any debt security that is convertible into, or exchangeable for, Capital Stock).

“ERISA” means the Employee Retirement Income Security Act of 1974, as amended, and any rules and regulations issued pursuant thereto.

“ERISA Affiliate” means any trade or business (whether or not incorporated) under common control with the Borrower within the meaning of Section 414(b) or (c) of the Code.

“ERISA Event” means (a) a Reportable Event with respect to a Pension Plan; (b) the incurrence by the Borrower of liability with respect to a withdrawal by the Borrower or any ERISA Affiliate from a Pension Plan subject to Section 4063 of ERISA during a plan year in which it was a substantial employer (as defined in Section 4001(a)(2) of ERISA) or a cessation of operations that is treated as such a withdrawal under Section 4062(e) of ERISA; (c) the incurrence by the Borrower of liability with respect to a complete or partial withdrawal by the Borrower or any ERISA Affiliate from a Multiemployer Plan or notification that a Multiemployer Plan is in reorganization; (d) the incurrence by the Borrower of liability with respect to the filing of a notice of intent to terminate, the treatment of a Plan amendment as a termination under Sections 4041 or 4041A of ERISA, or the commencement of proceedings by the PBGC to terminate a Pension Plan or Multiemployer Plan; (e) the incurrence by the Borrower of liability with respect to an event or condition which could reasonably be expected to constitute grounds under Section 4042 of ERISA for the termination of, or the appointment of a trustee to administer, any Pension Plan or Multiemployer Plan; or (f) the imposition of any liability under Title IV of ERISA, other than PBGC premiums due but not delinquent under Section 4007 of ERISA, upon the Borrower or any ERISA Affiliate; and with respect to each of the occurrences described in the preceding clauses (a) through (f), which could reasonably be expected to have a Material Adverse Effect.

“Eurodollar Rate” means for any Interest Period with respect to any Eurodollar Rate Loan:

(a) the rate per annum equal to the rate determined by the Administrative Agent to be the offered rate that appears on the page of the Telerate screen (or any successor thereto) that displays an average British Bankers Association Interest Settlement Rate for deposits in Dollars (for delivery on the first day of such Interest Period) with a term equivalent to such Interest Period, determined as of approximately 11:00 a.m. (London time) two Business Days prior to the first day of such Interest Period, or

(b) if the rate referenced in the preceding subsection (a) does not appear on such page or service or such page or service shall cease to be available, the rate per annum equal to the rate determined by the Administrative Agent to be the offered rate on such other page or other service that displays an average British Bankers Association Interest Settlement Rate for deposits in Dollars (for delivery on the first day of such Interest Period) with a term equivalent to such

Interest Period, determined as of approximately 11:00 a.m. (London time) two Business Days prior to the first day of such Interest Period, or

(c) if the rates referenced in the preceding subsections (a) and (b) are not available, the rate per annum determined by the Administrative Agent as the rate of interest (rounded upward to the next 1/100th of 1%) at which deposits in Dollars for delivery on the first day of such Interest Period in same day funds in the approximate amount of the Eurodollar Rate Loan being made, continued or converted by Bank of Montreal and with a term equivalent to such Interest Period would be offered by Bank of Montreal's London Branch to major banks in the offshore Dollar market at their request at approximately 11:00 a.m. (London time) two Business Days prior to the first day of such Interest Period.

"Eurodollar Rate Loan" means: a Loan that bears interest at a rate based on the Eurodollar Rate.

"Event of Default" means any of the events or circumstances specified in Article VIII.

"Excluded Contributions" means the net cash proceeds received by the Borrower after the Closing Date from (i) contributions to its common equity capital and (ii) the sale (other than to a Subsidiary of the Borrower or to the Borrower or Subsidiary management equity plan or stock option plan or any other management or employee benefit plan or agreement) of Capital Stock (other than Disqualified Stock and Designated Preferred Stock(as defined in the Subordinated Note Indenture)) of the Borrower, in each case designated as Excluded Contributions pursuant to an Officers' Certificate executed by an Officer of the Borrower.

"Existing Acquisition Indebtedness" means all indebtedness incurred by the Acquisition Operating Subsidiary and the Acquired Subsidiary pursuant to (i) that certain Bond Purchase Agreement dated as of September 12, 2003, between the Acquired Subsidiary and the bondholders party thereto, (ii) that certain Bond Purchase Agreement dated as of September 12, 2003 between the Acquisition Operating Subsidiary and the bondholders party thereto, (iii) that certain Construction and Contingent Loan Credit Agreement dated as of September 12, 2003 among Acquisition Operating Subsidiary, DZ Bank AG Deutsche Zentral-Genossenschaftsbank, Frankfurt am Main, New York Branch, as administrative agent, the financial institutions from time to time parties thereto, and each of the other agents and arrangers listed on the signature pages thereto, and (iv) each of the documents and agreements executed in connection with the agreements listed in (i) - (iii) above.

"Existing Revolver" means that certain Credit Agreement, dated as of November 18, 2004 among Atlantic Power Holdings, LLC as borrower, the Revolving Agent and the Revolving Lenders from time to time party thereto, as amended by that certain First Amendment to Credit Agreement, dated as of April 29, 2005, as further amended by that certain Second Amendment to Credit Agreement, dated as of November 18, 2005, as further amended by that certain Third Amendment to Credit Agreement, dated as of the date of this Agreement (as the same may be further amended, restated, supplemented or otherwise modified from time to time).

"Fair Market Value" means, with respect to any asset or Property, the price which could be negotiated in an arm's-length, free market transaction, for cash, between a willing seller and a

willing and able buyer, neither of who is under undue pressure or compulsion to complete the transaction.

"Federal Funds Rate" means, for any day, the rate per annum (rounded upwards to the nearest 1/100 of 1%) equal to the weighted average of the rates on overnight Federal funds transactions with members of the Federal Reserve System arranged by Federal funds brokers on such day, as published by the Federal Reserve Bank of New York on the Business Day next succeeding such day; provided that (a) if such day is not a Business Day, the Federal Funds Rate for such day shall be such rate on such transactions on the next preceding Business Day as so published on the next succeeding Business Day, and (b) if no such rate is so published on such next succeeding Business Day, the Federal Funds Rate for such day shall be the average rate charged to Bank of Montreal on such day on such transactions as determined by the Administrative Agent.

"Foreign Lender" has the meaning set forth in Section 10.15.

"Fund" means any Person (other than a natural Person) that is (or will be) engaged in making, purchasing, holding or otherwise investing in commercial loans and similar extensions of credit in the ordinary course of its business.

"GAAP" means either Cdn. GAAP or U.S. GAAP, as the context may require.

"Government Obligations" means direct obligations (or certificates representing an ownership interest in such obligations) of Canada or the United States of America (including any agency or instrumentality thereof) for the payment of which the full faith and credit of Canada or of the United States of America is pledged and which are not callable or redeemable at the Borrower's option.

"Governmental Authority" means any nation or government, any state or other political subdivision thereof, any agency, authority, instrumentality, regulatory body, court, administrative tribunal, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government, and any corporation or other entity owned or controlled, through stock or capital ownership or otherwise, by any of the foregoing.

"Guarantee" means each Guarantee made by the Guarantors in favor of the Administrative Agent on behalf of the Lenders, substantially in the form of Exhibit E, as amended and in effect from time to time.

"Guarantee Obligation" means, as to any Person, (a) any obligation, contingent or otherwise, of such Person guarantying or having the economic effect of guarantying any Indebtedness or other obligation payable or performable by another Person (the "primary obligor") in any manner, whether directly or indirectly, and including any obligation of such Person, direct or indirect, (i) to purchase or pay (or advance or supply funds for the purchase or payment of) such Indebtedness or other obligation, (ii) to purchase or lease Property, securities or services for the purpose of assuring the obligee in respect of such Indebtedness or other obligation of the payment or performance of such Indebtedness or other obligation, (iii) to

maintain working capital, equity capital or any other financial statement condition or liquidity of the primary obligor so as to enable the primary obligor to pay such Indebtedness or other obligation, or (iv) entered into for the purpose of assuring in any other manner the obligees in respect of such Indebtedness or other obligation of the payment or performance thereof or to protect such obligees against loss in respect thereof (in whole or in part), or (b) any Lien on any assets of such Person securing any Indebtedness or other obligation of any other Person, whether or not such Indebtedness or other obligation is assumed by such Person; provided, however, that the term "Guarantee Obligation" shall not include endorsements of instruments for deposit or collection in the ordinary course of business. The amount of any Guarantee Obligation shall be deemed to be an amount equal to the stated or determinable amount of the related primary obligation, or portion thereof, in respect of which such Guarantee Obligation is made or, if not stated or determinable, the maximum reasonably anticipated liability in respect thereof as determined by the guarantying Person in good faith.

"Guarantors" means, collectively, the Parent Guarantor and each Subsidiary that executes and delivers to the Administrative Agent a Guarantee, so long as such Guarantee shall not have been expressly terminated by the Administrative Agent and the Lenders or shall not have been terminated in accordance with its express terms, in each case with respect to such Person.

“Security Documents” means each Guarantee, the Deposit and Disbursement Agreement, the Collateral Agency and Intercreditor Agreement, each Pledge Agreement, the Security Agreement and any and all other agreements, deeds of trust, mortgages, chattel mortgages, security agreements, pledges, control agreements, guaranties, depositary agreements, assignments of production or proceeds of production, assignments of income, assignments of contract rights, assignments of equity interests, assignments of royalty interests, assignments of performance, completion or surety bonds, standby agreements, subordination agreements, undertakings and other instruments and financing statements now or hereafter executed and delivered by any Person (other than solely by any Administrative Agent or any Lenders and/or any other creditor participating in the Loans or any collateral or security therefor) in connection with, or as security for any Secured Obligation of a Loan Party (each as they may be amended or modified from time to time).

“Sellers” has the meaning set forth in the first recital.

“Senior Indebtedness” with respect to the Borrower or any Subsidiary of the Borrower means all Secured Indebtedness of the Borrower or any such Subsidiary including interest thereon (including interest accruing on or after the filing of any petition in bankruptcy or for reorganization relating to the Borrower or any Subsidiary of the Borrower whether or not a claim for post-filing interest is allowed in such proceeding) and other amounts (including make-whole, fees, expenses, reimbursement obligations under letters of credit and indemnities) owing in respect thereof, whether outstanding on the Closing Date or thereafter Incurred, unless in the instrument creating or evidencing the same or pursuant to which the same is outstanding it is provided that such obligations are not superior in right of payment to the obligations hereunder or such Subsidiary’s Guarantee, as applicable; provided, however, that Senior Indebtedness shall not include, as applicable, (i) any obligation of the Borrower to any Subsidiary or Unrestricted Subsidiary of the Borrower, or of such Subsidiary or Unrestricted Subsidiary to the Borrower or any other Subsidiary or Unrestricted Subsidiary of the Borrower, (ii) any liability for federal, state, provincial, local or other taxes owed or owing by the Borrower or such Subsidiary, (iii) any accounts payable or other liability to trade creditors arising in the ordinary course of business (including guarantees thereof or instruments evidencing such liabilities), (iv) any Indebtedness or obligation of the Borrower or such Subsidiary which is *Pari Passu* Indebtedness (as defined in the Subordinated Note Indenture) under the Subordinated Note Indenture, or (v) any obligations with respect to any Capital Stock.

“Similar Business” means a business, the majority of whose revenues are derived from the generation or transmission of electric power, or the activities of the Borrower and its Subsidiaries (including the Acquisition Entities) as of the Closing Date or any business or activity that is reasonably similar thereto or a reasonable extension, development or expansion thereof or ancillary thereto, including investing in power generation facilities.

“Solvent” means, with respect to any Person at any time, a condition under which (a) the fair saleable value of such Person’s assets is, on the date of determination, greater than the total amount of such Person’s liabilities (including contingent and unliquidated liabilities) at such time; and (b) such Person is able to pay all of its liabilities as such liabilities mature. For purposes of this definition (i) the amount of a Person’s contingent or unliquidated liabilities at any time shall be that amount which, in light of all the facts and circumstances then existing, represents the amount which can reasonably be expected to become an actual or matured liability, (ii) the “fair saleable value” of an asset shall be the amount which may be realized within a reasonable time either through collection or sale of such asset at its regular market value, and (iii) the “regular market value” of an asset shall be the amount which a capable and diligent business person could obtain for such asset from an interested buyer who is willing to purchase such asset under ordinary selling conditions.

“Stated Maturity” means, with respect to any security, the date specified in such security as the fixed date on which the final payment of principal of such security is due and payable, including pursuant to any mandatory redemption provision (but excluding any provision providing for the repurchase of such security at the option of the holder thereof upon the happening of any contingency beyond the control of the Borrower unless such contingency has occurred).

“Subordinated Indebtedness” means, with respect to the Borrower or any Subsidiary, all Indebtedness of the Borrower or any Subsidiary which is not Senior Indebtedness.

“Subordinated Note Indenture” means that certain 11% Subordinated Notes Indenture dated November 18, 2004 among the Issuer, the guarantors a party thereto and Computershare Trust Company of Canada, in its capacity as trustee to the Indenture.

“Subordinated Notes” means the Subordinated Notes issued pursuant to the Subordinated Note Indenture and as defined in and contemplated by the IPS Prospectus.

“Subsidiary” means, with respect to any Person, (i) any corporation, association or other business entity (other than a partnership, joint venture or limited liability company) of which 40% or more of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time of determination owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof and (ii) any partnership, joint venture or limited liability company of which (x) 40% or more of the capital accounts, distribution rights, total equity and voting interests or general and limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof, whether in the form of membership, general, special or limited partnership interests or otherwise and (y) such Person owns or controls, directly or indirectly, 40% or more of the total equity and voting rights of the general partner of such entity; for greater certainty, the Subsidiaries of the Borrower will include all entities listed on Schedule 5.13. Notwithstanding the foregoing or anything contained or referred to in any Loan Document to the contrary, no Unrestricted Subsidiary shall be deemed a Subsidiary of the Borrower for any purpose under any Loan Document.

“Swap Contract” means (a) any and all rate swap transactions, basis swaps, credit derivative transactions, forward rate transactions, commodity swaps, commodity options, forward commodity contracts, equity or equity index swaps or options, bond or bond price or bond index swaps or options or forward bond or forward bond price or forward bond index transactions, interest rate options, forward foreign exchange transactions, cap transactions, floor transactions, collar transactions, currency swap transactions, cross-currency rate swap transactions, currency options, spot contracts, or any other similar transactions or any combination of any of the foregoing (including any options to enter into any of the foregoing), whether or not any such transaction is governed by or subject to any master agreement, and (b) any and all transactions of any kind, and the related confirmations, which are subject to the terms and conditions of, or governed by, any form of master agreement published by the International Swaps and Derivatives Association, Inc., any International Foreign Exchange Master Agreement, or any other master agreement (any such master agreement, together with any related schedules, a “Master Agreement”), including any such obligations or liabilities under any Master Agreement.

“Swap Termination Value” means, in respect of any one or more Swap Contracts, after taking into account the effect of any legally enforceable netting agreement relating to such Swap Contracts, (a) for any date on or after the date such Swap Contracts have been closed out and termination value(s) determined in accordance therewith, such termination value(s), and (b) for any date prior to the date referenced in clause (a) the amount(s) determined as the mark-to-market value(s) for such Swap Contracts, as determined based upon one or more mid-market or other readily available quotations provided by any recognized dealer in such Swap Contracts (which may include any Lender).

“Taxes” means U.S. Taxes as defined in Section 3.01.

“Threshold Amount” means U.S.\$25,000,000.

“Treasury Regulations” means the U.S. Treasury regulations (including final, temporary and proposed regulations) promulgated under the Code.

“Trustee” has the meaning set forth in the Subordinated Note Indenture.

“Type” means with respect to a Loan, its character as a Base Rate Loan or a Eurodollar Rate Loan.

“Unfunded Pension Liability” means the excess of a Pension Plan’s benefit liabilities under Section 4001(a)(16) of ERISA, over the current value of that Pension Plan’s assets, determined in accordance with the assumptions used for funding the Pension Plan pursuant to Section 412 of the Code for the applicable plan year.

“Unreimbursed Amount” has the meaning set forth in Section 2.04(c)(i).

“Unrestricted Subsidiary” means any Subsidiary of the Borrower that is designated as such pursuant to the terms hereof or, after the date hereof, to the Administrative Agent pursuant to Section 6.14, including without limitation the Acquisition Entities; provided, however, that no

Guarantor, Project Holding Entity, or other Subsidiary of the Borrower as of the Closing Date shall be designated as an Unrestricted Subsidiary without the prior written consent of the Administrative Agent and the Required Lenders, such consent to be granted in the sole discretion of the Administrative Agent and the Required Lenders.

“U.S. Dollar” and “U.S.\$” mean lawful money of the United States of America.

“U.S. Dollar Equivalent” of Cdn. Dollars with respect to any amount of U.S. Dollars at any date shall mean the equivalent in Cdn. Dollars of U.S. Dollars calculated on the basis of the arithmetical mean of the buy and sell spot price rates of exchange of the Administrative Agent for Cdn. Dollars at 11:00 a.m. New York time, on the date on or as of which such amount is to be determined.

“U.S. GAAP” means United States of America generally accepted accounting principles set forth in the opinions and pronouncements of the Accounting Principles Board and the American Institute of Certified Public Accountants and statements and pronouncements of the Financial Accounting Standards Board or such other principles as may be approved by a significant segment of the accounting profession, that are generally accepted in the United States of America and applicable to the circumstances as of the date of determination, consistently applied.

“Voting Percentage” means, as to any Lender, the percentage (carried out to the ninth decimal place) which is (i) the Outstanding Amount of such Lender’s Loans, divided by (ii) the Outstanding Amount of all Loans; provided, however, that if any Lender has failed to fund any portion of the Loans required to be funded by it hereunder, such Lender’s Voting Percentage shall be deemed to be zero percent (0%), and the respective Pro Rata Shares and Voting Percentages of the other Lenders shall be recomputed for purposes of this definition and the definition of “Required Lenders” without regard to such Lender’s Commitment or the Outstanding Amount of its Loans.

“Voting Stock” of any Person as of any date means the Capital Stock of such Person that is at the time entitled to vote in the election of the board of directors, managers or trustees, as the case may be, of such Person.

“Weighted Average Life to Maturity” means, when applied to any Indebtedness or Disqualified Stock, as the case may be, at any date, the quotient obtained by dividing (i) the sum of the products of the number of years from the date of determination to the date of each successive scheduled principal payment of such Indebtedness or redemption or similar payment with respect to such Disqualified Stock multiplied by the amount of such payment, by (ii) the sum of all such payments.

“Wholly-Owned Subsidiary” of any Person means a Subsidiary of such Person 100% of the outstanding Capital Stock or other ownership interests of which will at the time be owned by such Person or by one or more Wholly-Owned Subsidiaries of such Person.

## **1.02 Other Interpretive Provisions.**

(a) The meanings of defined terms are equally applicable to the singular and plural forms of the defined terms.

(b) (i) The words "herein" and "hereunder" and words of similar import when used in any Loan Document shall refer to such Loan Document as a whole and not to any particular provision thereof.

(ii) Unless otherwise specified herein, Article, Section, Exhibit and Schedule references are to this Agreement.

(iii) The term "including" is by way of example and not limitation.

(iv) The term "documents" includes any and all instruments, documents, agreements, certificates, notices, reports, financial statements and other writings, however evidenced.

(v) The verb "continue", and its usage in correlative forms, with reference to a Default or an Event of Default, shall mean that such Default or Event of Default has occurred and continues and, if applicable, after the passage of the applicable notice or cure period continues uncured, unwaived or otherwise unremedied, or with respect to the event or circumstance giving rise thereto, and after the passage of the applicable notice or cure period, continues uncured, unwaived or otherwise unremedied.

(vi) all "dollars" are in U.S. dollars, unless otherwise stated;

(vii) a term has the meaning assigned to it;

(viii) "or" is not exclusive;

(ix) the principal amount of any non-interest bearing or other discount security at any date shall be the principal amount thereof that would be shown on a balance sheet of the issuer dated such date prepared in accordance with GAAP;

(x) the principal amount of any Preferred Stock shall be (i) the maximum liquidation value of such Preferred Stock or (ii) the maximum mandatory redemption or mandatory repurchase price with respect to such Preferred Stock, whichever is greater;

(xi) for the purposes of calculating a financial ratio all dollar amounts will be converted into the appropriate currency in accordance with GAAP or as otherwise provided herein; and

(xii) the financial provisions and information set forth in the IPS Prospectus shall be deemed to (i) satisfy any condition precedent set forth in Section 4.01 or Section 4.02 relating to the provision of any financial statements, balance sheets or other financial information, and (ii) constitute the basis for any comparisons of any financial statements, balance sheets or other financial information through December 31, 2005.

(c) In the computation of periods of time from a specified date to a later specified date, the word "from" means "from and including;" the words "to" and "until" each mean "to but excluding;" and the word "through" means "to and including."

(d) Section headings herein and the other Loan Documents are included for convenience of reference only and shall not affect the interpretation of this Agreement or any other Loan Document.

**1.03 Accounting Terms.** All accounting terms not specifically or completely defined herein shall be construed in conformity with, and all financial data required to be submitted pursuant to this Agreement shall be prepared in conformity with, GAAP applied on a consistent basis, as in effect from time to time, applied in a manner consistent with that used in preparing the Audited Financial Statements, except as otherwise specifically prescribed herein.

**1.04 Rounding.** Any financial ratios required to be maintained by the Borrower pursuant to this Agreement shall be calculated by dividing the appropriate component by the other component, carrying the result to one place more than the number of places by which such ratio is expressed herein and rounding the result up or down to the nearest number (with a rounding-up if there is no nearest number).

**1.05 References to Agreements and Laws.** Unless otherwise expressly provided herein, (a) references to documents (including the Loan Documents) shall be deemed to include all subsequent amendments, restatements, extensions, supplements and other modifications thereto, but only to the extent that such amendments, restatements, extensions, supplements and other modifications are not prohibited by any Loan Document, and (b) references to any Law shall include all statutory and regulatory provisions consolidating, amending, replacing, supplementing or interpreting such Law.

## ARTICLE II. THE COMMITMENTS AND CREDIT EXTENSIONS

**2.01 Loans.** Subject to the terms and conditions set forth herein and the satisfaction of the terms and conditions set forth in Article IV, each Lender agrees on the Closing Date to make a borrowing of loans (each such loan, a "Loan") in U.S. Dollars to the Borrower in an aggregate principal amount not to exceed such Lender's Commitment. The Commitments are not revolving and amounts repaid or prepaid may not be re-borrowed under any circumstance. Any portion of the Commitments not utilized by the Borrower on or before 3:00 p.m. New York City time on the Closing Date shall be permanently cancelled.

### **2.02 Borrowings, Conversions and Continuation of Loans.**

(a) Each Loan shall be made on the Closing Date by the Lenders ratably in accordance with their respective Commitments. The failure of any Lender to fund its Loan shall not relieve any other Lender of its obligations hereunder; provided, however, that the Commitments are several and no Lender shall be responsible for any other Lender's failure to fund its Loan as required. Each Borrowing, each conversion of Loans from one Type to the other, and each continuation of Loans as the same Type shall be made upon the Borrower's

irrevocable notice to the Administrative Agent. Subject to Section 3.03, the Loans shall be comprised entirely of Base Rate Loans or Eurodollar Rate Loans, as the Borrower may request in accordance herewith. Each Lender at its option may fund any Eurodollar Rate Loans by causing any domestic or foreign branch or Affiliate of such Lender to fund such Loan; provided, however, that any exercise of such option shall not affect the obligation of the Borrower to repay such Lender's Loan in accordance with the terms of this Agreement. Each notice must be received by the Administrative Agent not later than 12:00 p.m., New York time, (i) three Business Days prior to the Closing Date for Eurodollar Rate Loans and three Business Days prior to the requested date for the continuation of Eurodollar Rate Loans as Eurodollar Rate Loans or any conversion of Eurodollar Rate Loans to Base Rate Loans, and (ii) on or prior to the Closing Date of any Borrowing of Base Rate Loans. Each Borrowing of, conversion to or continuation of Eurodollar Rate Loans shall be in a principal amount of U.S.\$1,000,000 or a whole multiple of U.S.\$1,000,000 in excess thereof. Each Borrowing of or conversion to Base Rate Loans shall be in a principal amount of U.S.\$500,000 or a whole multiple of U.S.\$100,000 in excess thereof. The initial Loan Notice shall specify (x) the principal amount of Loans to be borrowed, (y) the Type of Loans to be borrowed, and (z) if applicable, the duration of the Interest Period with respect thereto. Each other Loan Notice shall specify (i) whether the Borrower is requesting a conversion of Loans from one Type to the other, or a continuation of Loans as the same Type, (ii) the requested date of the conversion or continuation, as the case may be (which shall be a Business Day), (iii) the principal amount of Loans to be converted or continued, (iv) the Type of Loans to which existing Loans are to be converted, and (v) if applicable, the duration of the Interest Period with respect thereto. If the Borrower fails to specify a Type of Loan in a Loan Notice or if the Borrower fails to give a timely notice requesting a conversion or continuation, then the applicable Loans shall be made or continued as, or converted to, Base Rate Loans. Any such automatic conversion to Base Rate Loans shall be effective as of the last day of the Interest Period then in effect with respect to the applicable Eurodollar Rate Loans. If the Borrower requests a Borrowing of, conversion to, or continuation of Eurodollar Rate Loans in any such Loan Notice, but fails to specify an Interest Period, it will be deemed to have specified an Interest Period of one month.

(b) Following receipt of a Loan Notice, the Administrative Agent shall promptly notify each Lender of its Pro Rata Share of the applicable Loans, and if no timely notice of a conversion or continuation is provided by the Borrower, the Administrative Agent shall notify each Lender of the details of any automatic conversion to Base Rate Loans described in the preceding subsection. In the case of a Borrowing, each Lender shall make the amount of its Loan available to the Administrative Agent in immediately available funds at the Administrative Agent's Office not later than 1:00 p.m., New York time, on the Closing Date. Upon satisfaction of the applicable conditions set forth in Section 4.01, the Administrative Agent shall make all funds so received available to the Borrower in like funds as received by the Administrative Agent by wire transfer of such funds in accordance with instructions provided to the Administrative Agent by the Borrower.

(c) Except as otherwise provided herein, a Eurodollar Rate Loan may be continued or converted only on the last day of the Interest Period for such Eurodollar Rate Loan. During the existence of a Default or Event of Default, no Loans may be requested as, converted to or continued as Eurodollar Rate Loans without the consent of the Required Lenders, and the

Required Lenders may demand among other things, that any or all of the then outstanding Eurodollar Rate Loans be converted to Base Rate Loans at the end of the respective Interest Periods therefor, if at the end of such periods, a Default or an Event of Default is then in existence.

(d) The Administrative Agent shall promptly notify the Borrower and the Lenders of the interest rate applicable to any Eurodollar Rate Loan upon determination of such interest rate. The determination of the Eurodollar Rate by the Administrative Agent shall be conclusive in the absence of manifest error. The Administrative Agent shall notify the Borrower and the Lenders of any change in Bank of Montreal's reference rate used in determining the Base Rate promptly following the public announcement of such change.

(e) After giving effect to all Borrowings, all conversions of Loans from one Type to the other, and all continuations of Loans as the same Type, there shall not be more than ten (10) Interest Periods in effect with respect to Loans.

**2.03 Intentionally Blank.**

**2.04 Intentionally Blank .**

**2.05 Intentionally Blank.**

**2.06 Prepayments.**

(a) Voluntary Prepayments. The Borrower may, upon notice to the Administrative Agent, at any time or from time to time voluntarily prepay Loans in whole or in part without premium or penalty; provided that (i) such notice must be received by the Administrative Agent not later than 11:00 a.m., New York time, (A) three Business Days prior to any date of prepayment of Eurodollar Rate Loans, and (B) one Business Day prior to any date of prepayment of Base Rate Loans; (ii) any prepayment of Eurodollar Rate Loans shall be in a principal amount of U.S.\$1,000,000 or a whole multiple of U.S.\$500,000 in excess thereof; and (iii) any prepayment of Base Rate Loans shall be in a principal amount of U.S.\$500,000 or a whole multiple of U.S.\$100,000 in excess thereof. Each such notice shall specify the date and amount of such prepayment and the Type(s) of Loans to be prepaid. The Administrative Agent will promptly notify each Lender of its receipt of each such notice, and of such Lender's Pro Rata Share of such prepayment. If such notice is given by the Borrower, the Borrower shall make such prepayment and the payment amount specified in such notice shall be due and payable on the date specified therein.

(b) Mandatory Prepayments. The Borrower shall make the following mandatory prepayments:

(i) Following an Asset Sale permitted pursuant to Section 7.05(a) that involves a sale of any Collateral or other Property of a Subsidiary or the Borrower pledged to the Administrative Agent in connection with this Agreement and any other Security Document, if the Borrower or such Subsidiary does not reinvest the Net Proceeds received in connection with such Asset Sale pursuant to Section 7.05(b)(i)(B) or

(C), the Borrower shall make, or shall cause such Subsidiary to make on behalf of the Borrower, a mandatory prepayment in an amount equal to the Net Proceeds received by the applicable Person with respect to such Asset Sale; provided, that for the avoidance of doubt, any such sale or disposition shall satisfy and be made in accordance with the terms and conditions of Sections 7.01 and 7.05;

(ii) Upon any issuance or offering of any Capital Stock or other equity interests by the Parent Guarantor, including any Additional Securities or IPSs, or the issuance, offering or placement of any debt obligations of any Loan Party, the Borrower shall, or shall cause such Loan Party to, make a mandatory prepayment in an amount equal to twenty five percent (25%) of the net cash proceeds received by the applicable Loan Party with respect to such issuance, offering or placement; provided that the Borrower shall not be obligated to make, or cause to be made, any such prepayments under this Section 2.06(b)(ii) after the aggregate amount of all such prepayments made by, or on behalf of, the Borrower is equal to or exceeds \$35,000,000; provided, further, that for the avoidance of doubt, any such issuance, offering or placement shall satisfy and be made in accordance with the terms and conditions of Sections 7.02 and 7.03;

(iii) Upon the receipt of any distributions or dividends or other cash amounts by Acquisition Holdco, the Borrower shall cause Acquisition Holdco to make a payment to the Administrative Agent in an amount equal to such amount received as a prepayment of the Indebtedness evidenced by the Intercompany Loan Documents. All such amounts shall be credited to the account of the Borrower with respect to its prepayment obligations pursuant to Section 2.06(b)(iv) below; and

(iv) In the event the Borrower receives a payment from Acquisition Holdco or any other Acquisition Entity with respect to the Intercompany Loan Documents, the Borrower shall make a mandatory prepayment in an amount equal to payment received by the Borrower.

Each prepayment of any Loans made pursuant to this Section 2.06 shall be accompanied by all interest then accrued and unpaid on the principal so prepaid and any prepayment of a Eurodollar Rate Loan shall be accompanied by all accrued interest thereon, together with any additional amounts required pursuant to Section 3.05. Each such prepayment shall be applied to the Loans of the Lenders in accordance with their respective Pro Rata Shares.

**2.07 Termination of Commitments.** The Commitments shall terminate at 3:00 p.m, New York, New York time on the Closing Date.

**2.08 Repayment of Loans.** The Borrower shall repay to the Lenders on the Maturity Date the aggregate principal amount of Loans outstanding on such date which were made to it.

**2.09 Interest.**

(a) Subject to the provisions of subsection (b) below, (i) each Eurodollar Rate Loan shall bear interest on the outstanding principal amount thereof for each Interest Period at a rate per annum equal to the Eurodollar Rate for such Interest Period plus the Applicable Margin; and

(ii) each Base Rate Loan shall bear interest on the outstanding principal amount thereof from the applicable borrowing date at a rate per annum equal to the Base Rate plus the Applicable Margin.

(b) In the event any amount due hereunder or under any other Loan Document (including, without limitation, any interest payment) is not paid when due (whether by acceleration or otherwise), the Borrower shall pay interest on such unpaid amount (including, without limitation, interest on interest) at a fluctuating interest rate per annum equal to the Default Rate for Base Rate Loans to the fullest extent permitted by applicable Law. Accrued and unpaid interest on past due amounts (including interest on past due interest) shall be due and payable upon demand.

(c) Interest on each Loan shall be due and payable in arrears on each Interest Payment Date applicable thereto and at such other times as may be specified herein. Interest hereunder shall be due and payable in accordance with the terms hereof before and after judgment, and before and after the commencement of any proceeding under any Debtor Relief Law.

**2.10 Fees.** The Borrower agrees to pay to the Administrative Agent and the Arranger, for their own respective accounts, the applicable fees heretofore agreed in writing pursuant to the fee letter dated as of May 16, 2006 (the "Agent/Arranger Fee Letter"), between the Borrower and the Administrative Agent and the Arranger.

**2.11 Computation of Interest and Fees.** Computation of interest on Base Rate Loans shall be calculated on the basis of a year of 365 or 366 days, as the case may be, and the actual number of days elapsed. Computation of all other types of interest and all fees shall be calculated on the basis of a year of 360 days and the actual number of days elapsed, which results in a higher yield to the payee thereof than a method based on a year of 365 or 366 days. Interest shall accrue on each Loan for the day on which the Loan is made, and shall not accrue on a Loan, or any portion thereof, for the day on which the Loan or such portion is paid, provided that any Loan that is repaid on the same day on which it is made shall bear interest for one day.

**2.12 Evidence of Debt.** The Credit Extensions made by each Lender shall be evidenced by one or more accounts or records maintained by such Lender and by the Administrative Agent in the ordinary course of business. The accounts or records maintained by the Administrative Agent and each Lender shall be conclusive absent manifest error of the amount of the Credit Extensions made by the Lenders to the Borrower and the interest and payments thereon. Any failure so to record or any error in doing so shall not, however, limit or otherwise affect the obligation of the Borrower hereunder to pay any amount owing with respect to the Loans. In the event of any conflict between the accounts and records maintained by any Lender and the accounts and records of the Administrative Agent in respect of such matters, the accounts and records of the Administrative Agent shall be presumed to be prima facie evidence of such matters absent manifest error. Upon the request of any Lender made through the Administrative Agent, such Lender's Loans may be evidenced by a Note, in addition to such accounts or records. Each Lender may attach schedules to its Note(s) and endorse thereon the date, Type (if applicable), amount and maturity of the applicable Loans and payments with respect thereto.

## 2.13 Payments Generally.

(a) All payments to be made by the Borrower shall be made without condition or deduction for any counterclaim, defense, recoupment or setoff. Except as otherwise expressly provided herein, all payments by the Borrower hereunder shall be made to the Administrative Agent, for the account of the respective Lenders to which such payment is owed, at the Administrative Agent's Office in Dollars and in immediately available funds not later than 12:00 noon, New York time, on the date specified herein. The Administrative Agent will promptly distribute to each Lender its Pro Rata share (or other applicable share as provided herein) of such payment in like funds as received by wire transfer to such Lender's Lending Office. All payments received by the Administrative Agent after 12:00 noon, New York time, shall be deemed received on the next succeeding Business Day and any applicable interest or fee shall continue to accrue.

(b) Subject to the definition of "Interest Period," if any payment to be made by the Borrower shall come due on a day other than a Business Day, payment shall be made on the next following Business Day, and such extension of time shall be reflected in computing interest or fees, as the case may be.

(c) If at any time insufficient funds are received by and available to the Administrative Agent to pay fully all amounts of principal, interest and fees then due hereunder, such funds shall be applied (i) first, toward costs and expenses (including Attorney Costs and amounts payable under Article III) incurred by the Administrative Agent and each Lender, (ii) second, toward repayment of interest and fees then due hereunder, ratably among the parties entitled thereto in accordance with the amounts of interest and fees then due to such parties, and (iii) third, toward repayment of principal then due hereunder, ratably among the parties entitled thereto in accordance with the amounts of principal then due to such parties.

(d) Unless the Borrower or any Lender has notified the Administrative Agent prior to the date any payment is required to be made by it to the Administrative Agent hereunder, that the Borrower or such Lender, as the case may be, will not make such payment, the Administrative Agent may assume that the Borrower or such Lender, as the case may be, has timely made such payment and may (but shall not be so required to), in reliance thereon, make available a corresponding amount to the Person entitled thereto. If and to the extent that such payment was not in fact made to the Administrative Agent in immediately available funds, then:

(i) if the Borrower failed to make such payment, each Lender shall forthwith on demand repay to the Administrative Agent the portion of such assumed payment that was made available to such Lender in immediately available funds, together with interest thereon in respect of each day from and including the date such amount was made available by the Administrative Agent to such Lender to the date such amount is repaid to the Administrative Agent in immediately available funds, at the Federal Funds Rate from time to time in effect; and

(ii) if any Lender failed to make such payment, such Lender shall forthwith on demand pay to the Administrative Agent the amount thereof in immediately available funds, together with interest thereon for the period from the date such amount was made

available by the Administrative Agent to the Borrower to the date such amount is recovered by the Administrative Agent (the "Compensation Period") at a rate per annum equal to the Federal Funds Rate from time to time in effect. If such Lender pays such amount to the Administrative Agent, then such amount shall constitute such Lender's Loan included in the applicable Borrowing. If such Lender does not pay such amount forthwith upon the Administrative Agent's demand therefor, the Administrative Agent may make a demand therefor upon the Borrower, and the Borrower shall pay (subject to its recoupment rights from and remedies against such defaulting Lender of any breakage costs paid by the Borrower when repaying such amount) such amount to the Administrative Agent, together with interest thereon for the Compensation Period at a rate per annum equal to the rate of interest applicable to the applicable Borrowing. Nothing herein shall be deemed to relieve any Lender from its obligation to fulfill its Commitment or to prejudice any rights which the Administrative Agent or the Borrower may have against any Lender as a result of any default by such Lender hereunder.

A notice of the Administrative Agent to any Lender with respect to any amount owing under this subsection (d) shall be conclusive, absent manifest error.

(e) If any Lender makes available to the Administrative Agent funds for any Loan to be made by such Lender as provided in the foregoing provisions of this Article II, and the conditions to the applicable Credit Extension set forth in Article IV are not satisfied or waived in accordance with the terms hereof, the Administrative Agent shall return such funds (in like funds as received from such Lender) to such Lender, without interest.

(f) The obligations of the Lenders hereunder to make Loans are several and not joint. The failure of any Lender to make any Loan on any date required hereunder shall not relieve any other Lender of its corresponding obligation to do so on such date, and no Lender shall be responsible for the failure of any other Lender to so make its Loan.

(g) Nothing herein shall be deemed to obligate any Lender to obtain the funds for any Loan in any particular place or manner or to constitute a representation by any Lender that it has obtained or will obtain the funds for any Loan in any particular place or manner.

**2.14 Sharing of Payments.** If, other than as expressly provided elsewhere herein, any Lender shall obtain on account of the Loans made by it, any payment (whether voluntary, involuntary, through the exercise of any right of set-off, litigation or otherwise) in excess of its Pro Rata Share (or other share contemplated hereunder) thereof, such Lender shall immediately (a) notify the Administrative Agent of such fact, and (b) purchase from the other Lenders such participations in the Loans made by them as shall be necessary to cause such purchasing Lender to share the excess payment in respect of such Loan pro rata with each of them; provided, however, that if all or any portion of such excess payment is thereafter recovered from the purchasing Lender, such purchase shall to that extent be rescinded and each other Lender shall repay to the purchasing Lender the purchase price paid therefor, together with an amount equal to such paying Lender's ratable share (according to the proportion of (i) the amount of such paying Lender's required repayment to (ii) the total amount so recovered from the purchasing Lender) of any interest or other amount paid or payable by the purchasing Lender in respect of the total amount so recovered. The Borrower agrees that any Lender so purchasing a

participation from another Lender may, to the fullest extent permitted by law, exercise all its rights of payment (including the right of set-off, but subject to Section 10.09) with respect to such participation as fully as if such Lender were the direct creditor of the Borrower in the amount of such participation. The Administrative Agent will keep records (which shall be conclusive and binding in the absence of manifest error) of participations purchased under this Section and will in each case notify the Lenders following any such purchases or repayments. Each Lender that purchases a participation pursuant to this Section shall from and after such purchase have the right to give all notices, requests, demands, directions and other communications under this Agreement with respect to the portion of the Obligations purchased to the same extent as though the purchasing Lender were the original owner of the Obligations purchased.

### ARTICLE III. TAXES, YIELD PROTECTION AND ILLEGALITY

#### 3.01 Taxes.

(a) Any and all payments by the Borrower to or for the account of the Administrative Agent or any Lender under any Loan Document shall be made free and clear of and without deduction for any and all present or future taxes, duties, levies, imposts, deductions, assessments, fees, withholdings or similar charges, and all liabilities with respect thereto, excluding, in the case of the Administrative Agent and each Lender, taxes imposed on or measured by its net income, and franchise taxes imposed on it (in lieu of net income taxes), by the jurisdiction (or any political subdivision thereof) under the Laws of which the Administrative Agent or such Lender, as the case may be, is organized or maintains a lending office (all such non-excluded taxes, duties, levies, imposts, deductions, assessments, fees, withholdings or similar charges, and liabilities being hereinafter referred to as "Taxes"). If the Borrower shall be required by any Laws to deduct any Taxes from or in respect of any sum payable under any Loan Document to the Administrative Agent or any Lender, (i) the sum payable shall be increased as necessary so that after making all required deductions (including deductions applicable to additional sums payable under this Section), the Administrative Agent and such Lender each receives an amount equal to the sum it would have received had no such deductions been made, (ii) the Borrower shall make such deductions, (iii) the Borrower shall pay the full amount deducted to the relevant taxation authority or other authority in accordance with applicable Laws, and (iv) within 30 days after the date of such payment, the Borrower shall furnish to the Administrative Agent (which shall forward the same to such Lender) the original or a certified copy of a receipt evidencing payment thereof.

(b) In addition, the Borrower agrees to pay any and all present or future stamp, court or documentary taxes and any other excise or property taxes or charges or similar levies which arise from any payment made by it under any Loan Document or from its execution, delivery, performance, enforcement or registration of, or otherwise with respect to, any Loan Document to which it is a party (hereinafter referred to as "Other Taxes").

(c) If the Borrower shall be required to deduct or pay any Taxes or Other Taxes from or in respect of any sum payable under any Loan Document to the Administrative Agent or any Lender, the Borrower shall also pay to the Administrative Agent (for the account of such Lender)

or to such Lender, at the time interest is paid, such additional amount that such Lender specifies as necessary to preserve the after-tax yield (after factoring in all taxes, including taxes imposed on or measured by net income) such Lender would have received if such Taxes or Other Taxes had not been imposed.

(d) In respect to related Obligations owed by it, the Borrower agrees to indemnify the Administrative Agent and each Lender for (i) the full amount of Taxes and Other Taxes (including any Taxes or Other Taxes imposed or asserted by any jurisdiction on amounts payable under this Section) paid by the Administrative Agent and such Lender, (ii) amounts payable under Section 3.01(c) and (iii) any liability (including penalties, interest and expenses) arising therefrom or with respect thereto, in each case whether or not such Taxes or Other Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. Payment under this subsection (d) shall be made within 30 days after the date the Lender or the Administrative Agent makes a demand therefor which demand shall be accompanied by a certificate setting forth in reasonable detail the amounts demanded, the basis therefor and the calculations in respect thereto.

(e) Each Lender that is not organized under the laws of the United States of America or a state thereof agrees that such Lender will deliver to the Borrower and the Administrative Agent two (2) duly completed copies of United States Internal Revenue Service Form W-8 BEN or W-8 ECI or successor forms (or if such forms are no longer required, a representation by such Lender) certifying in either case that such Lender is entitled to receive payments from the Loan Parties under the Loan Documents without deduction or withholding of any United States federal income taxes. Each Lender that so delivers a Form W-8 BEN or W-8 ECI further undertakes to deliver to the Borrower and the Administrative Agent two (2) additional copies of such form (or a successor form) on or before such form expires or becomes obsolete or after the occurrence of any event requiring a change in the most recent form so delivered by it and such amendments thereto or extensions or renewals thereof as may be reasonably requested by the Borrower or the Administrative Agent, in each case, certifying that such Lender is entitled to receive payments from the Borrower under the Loan Documents without deduction or withholding of any United States federal income taxes, unless (i) an event (including without limitation any change in treaty, law or regulation) has occurred prior to the date on which any such delivery would otherwise be required which renders all such forms inapplicable or which would prevent such Lender from duly completing and delivering any such form with respect to it and (ii) such Lender advises the Borrower and the Administrative Agent that it is not capable of receiving such payments without any deduction or withholding of United States federal income tax.

(f) If the Borrower at any time pays an amount under Section 3.01(a), (b) or (c) to any Lender or the Administrative Agent, and such payee receives a refund of or credit for any part of any Taxes or Other Taxes which such payee determines in its reasonable judgment is made with respect to such amount paid by the Borrower, such Lender or the Administrative Agent, as the case may be, shall pay to the Borrower the amount of such refund or credit promptly, and in any event within 60 days, following the receipt of such refund or credit by such payee.

**3.02 Illegality.** If any Lender determines that any Law enacted, construed or announced after the Closing Date has made it unlawful, or that any Governmental Authority has asserted that it is unlawful, for any Lender or its applicable Lending Office to make, maintain or fund Eurodollar Rate Loans, or materially restricts the authority of such Lender to purchase or sell, or to take deposits of, Dollars in the applicable offshore Dollar market, or to determine or charge interest rates based upon the Eurodollar Rate, then, on notice thereof by such Lender to the Borrower through the Administrative Agent, any obligation of such Lender to make or continue Eurodollar Rate Loans or to convert Base Rate Loans to Eurodollar Rate Loans shall be suspended until such Lender notifies the Administrative Agent and the Borrower that the circumstances giving rise to such determination no longer exist. Upon receipt of such notice, the Borrower shall, upon demand from such Lender (with a copy to the Administrative Agent), prepay or, if applicable, convert all Eurodollar Rate Loans of such Lender to Base Rate Loans, either on the last day of the Interest Period thereof, if such Lender may lawfully continue to maintain such Eurodollar Rate Loans to such day, or immediately, if such Lender may not lawfully continue to maintain such Eurodollar Rate Loans. Upon any such prepayment or conversion, the Borrower shall also pay interest on the amount so prepaid or converted. If any such Law, or change therein, shall only affect a portion of such Lender's obligations under this Agreement which is, in the opinion of such Lender and the Administrative Agent, severable from the remainder of this Agreement so that the remainder of this Agreement may be continued in full force and effect without otherwise affecting any of the obligations of the Administrative Agent, the other Lenders or the Borrower, such Lender shall only declare its obligations under that portion so terminated. Each Lender agrees to designate a different Lending Office if such designation will avoid the need for such notice and will not, in the good faith judgment of such Lender, otherwise be disadvantageous to such Lender.

**3.03 Inability to Determine Rates.** If the Administrative Agent determines in connection with any request for a Eurodollar Rate Loan or a conversion to or continuation thereof that (a) Dollar deposits are not being offered to banks in the applicable offshore Dollar market for the applicable amount and Interest Period of such Eurodollar Rate Loan, (b) adequate and reasonable means do not exist for determining the Eurodollar Rate for such Eurodollar Rate Loan, or (c) the Eurodollar Rate for such Eurodollar Rate Loan does not adequately and fairly reflect the cost to the Lenders of funding such Eurodollar Rate Loan, the Administrative Agent will promptly notify the Borrower and all Lenders. Thereafter, the obligation of the Lenders to make Eurodollar Rate Loans or maintain Eurodollar Rate Loans past the Interest Period in effect on the date of such determination shall be suspended until the Administrative Agent revokes such notice. Upon receipt of such notice, the Borrower may, without liability for any attendant breakage costs, revoke any pending request for a Borrowing, conversion or continuation of Eurodollar Rate Loans or, failing that, will be deemed to have converted such request into a request for a Borrowing of Base Rate Loans in the amount specified therein.

**3.04 Increased Cost and Reduced Return; Capital Adequacy; Reserves on Eurodollar Rate Loans.**

(a) If any Lender determines that as a result of the introduction of, or any change in, or in the interpretation of, any Law, in each case on or after the Closing Date, or such Lender's compliance therewith, there shall be any increase in the cost to such Lender of agreeing to make

or making, funding or maintaining Eurodollar Rate Loans, or a reduction in the amount received or receivable by such Lender in connection with any of the foregoing (excluding for purposes of this subsection (a) any such increased costs or reduction in amount resulting from (i) Taxes or Other Taxes (as to which Section 3.01 shall govern), (ii) changes in the basis of taxation of overall net income or overall gross income by the United States or any foreign jurisdiction or any political subdivision of either thereof under the Laws of which such Lender is organized or has its Lending Office, and (iii) reserve requirements contemplated by Section 3.04(c)), then from time to time upon demand of such Lender (with a copy of such demand to the Administrative Agent), the Borrower shall pay to such Lender such additional amounts as will compensate such Lender for such increased cost or reduction; provided, that Borrower shall not be required to compensate a Lender pursuant to this Section 3.04(a) for any increased costs or reductions incurred more than 180 days prior to the date that such Lender notifies Borrower of the introduction of, change in or interpretation of any Law giving rise to such increased costs or reductions and of such Lender's intention to claim compensation thereof.

(b) If any Lender determines that the introduction of any Law regarding capital adequacy or any change therein or in the interpretation thereof, or compliance by such Lender (or its Lending Office) therewith, has the effect of reducing the rate of return on the capital of such Lender or any corporation controlling such Lender as a consequence of such Lender's obligations hereunder (taking into consideration its policies with respect to capital adequacy and such Lender's desired return on capital), then from time to time upon demand of such Lender (with a copy of such demand to the Administrative Agent), the Borrower shall pay to such Lender such additional amounts as will compensate such Lender for such reduction.

(c) The Borrower shall pay to each Lender, as long as such Lender shall be required under regulations of the Board to maintain reserves with respect to liabilities or assets consisting of or including Eurocurrency funds or deposits (currently known as "Eurocurrency liabilities"), additional costs on the unpaid principal amount of each Eurodollar Rate Loan equal to the actual costs of such reserves allocated to such Loan by such Lender (as determined by such Lender in good faith, which determination shall be conclusive), which shall be due and payable on each date on which interest is payable on such Loan, provided the Borrower shall have received at least 15 days' prior notice (with a copy to the Administrative Agent) of such additional interest from such Lender. If a Lender fails to give notice 15 days prior to the relevant Interest Payment Date, such additional interest shall be due and payable 15 days from receipt of such notice.

(d) Each Lender agrees that it will not claim, and that it shall not be entitled to claim, from any Loan Party the payment of any of the amounts referred to in this Section 3.04 (i) if it is not generally claiming similar compensation from its other similar customers in similar circumstances and (ii) unless the relevant introduction or change affects all banks and other financial institutions substantially similar to such Lender having regard to the size, business activities and regulatory capital of such banks and other financial institutions, but excluding differences based solely on the residency of Persons controlling such banks or other financial institutions. In addition, each Lender shall use its reasonable efforts to reduce the amount it requests pursuant to Section 3.04, including using its reasonable efforts to not assign or transfer any Loan to any Person if such assignment or transfer would or would be likely to increase the amount of such amounts payable; provided, however, such Lender shall have no obligation to

take or omit to take any action that such Lender in its good faith judgment believes would be disadvantageous to it. Each amount required to be paid to any Lender pursuant to this Section 3.04 shall be accompanied by a certificate of the requisite Lender setting forth in reasonable detail the amount owed, the basis therefor and the calculations in respect thereto.

**3.05 Funding Losses.** Upon demand of any Lender (with a copy to the Administrative Agent) from time to time (which demand shall be accompanied by a certificate of such demanding Lender setting forth in reasonable detail the amount demanded, the bases therefor and the calculations in respect thereto), the Borrower shall promptly compensate such Lender for and hold such Lender harmless from any loss, cost or expense incurred by it as a result of:

(a) any continuation, conversion, payment or prepayment of any Loan made to the Borrower other than a Base Rate Loan on a day other than the last day of the Interest Period for such Loan (whether voluntary, mandatory, automatic, by reason of acceleration, or otherwise);

(b) any failure by the Borrower (for a reason other than the failure of such Lender to make a Loan) to prepay, borrow, continue or convert any Loan made to the Borrower other than a Base Rate Loan on the date or in the amount notified by the Borrower; or

(c) any assignment of a Eurodollar Rate Loan on a day other than the last day of the Interest Period as a result of a request by the Borrower pursuant to Section 10.16;

including any loss or expense arising from the liquidation or reemployment of funds obtained by it to maintain such Loan or from fees payable to terminate the deposits from which such funds were obtained. The Borrower shall also pay any customary administrative fees charged by such Lender in connection with the foregoing.

For purposes of calculating amounts payable by the Borrower to the Lenders under this Section 3.05, each Lender shall be deemed to have funded each Eurodollar Rate Loan made by it at the Eurodollar Rate for such Loan by a matching deposit or other borrowing in the applicable offshore Dollar interbank market for a comparable amount and for a comparable period, whether or not such Eurodollar Rate Loan was in fact so funded.

**3.06 Matters Applicable to all Requests for Compensation.**

(a) A certificate of the Administrative Agent or any Lender claiming compensation under this Article III and setting forth in reasonable detail the additional amount or amounts to be paid to it hereunder and such other information as otherwise specified in this Article III shall be conclusive in the absence of manifest error. In determining such amount, the Administrative Agent or such Lender may use any reasonable averaging and attribution methods customarily used by it in comparable circumstances.

(b) Upon any Lender's making a claim for compensation under Section 3.01 or 3.04 the Borrower may remove or replace such Lender in accordance with Section 10.16.

**3.07 Survival.** All of the Borrower's obligations under this Article III shall survive termination of the Commitments and payment in full of all the other Obligations.

**ARTICLE IV.**  
**CONDITIONS PRECEDENT TO CREDIT EXTENSIONS**

**4.01 Conditions of Initial Credit Extension.** The obligation of each Lender to make its Loans hereunder shall not become effective until the date on which each of the following conditions precedent is satisfied:

(a) Unless waived by all the Lenders, the Administrative Agent's receipt of the following, each of which shall be originals or facsimiles (followed promptly by originals) unless otherwise specified, each properly executed by a Responsible Officer or Responsible Officers, as the case may be, of the signing Loan Party, each dated the Closing Date (or, in the case of certificates of governmental officials, a recent date before the Closing Date) and each in form and substance reasonably satisfactory to the Administrative Agent:

(i) executed counterparts of this Agreement and each Guarantee, sufficient in number for distribution to the Administrative Agent, each Lender and the Borrower;

(ii) Notes executed by the Borrower in favor of each Lender requesting such a Note, each in a principal amount equal to such Lender's Commitment;

(iii) an Officers' Certificate certified by Responsible Officers of the Borrower certifying, *inter alia*, (1) true and correct copies of resolutions adopted by the board of managers or other appropriate body of the Borrower (A) authorizing the execution, delivery and performance by the Borrower of the Loan Documents to which it is or will be a party and the consummation of the transactions contemplated thereby, (B) authorizing the Responsible Officers of the Borrower to negotiate the Loan Documents on behalf of the Borrower, (C) authorizing the Responsible Officers of the Borrower to execute and deliver the Loan Documents and any related documents, including, without limitation, any Security Document or other pledge agreement, security agreement or other document contemplated by this Agreement, (D) authorizing the execution of the Acquisition Purchase Agreement and the assignment of its interests therein to Acquisition Holdco and the consummation of the Acquisition pursuant to the Acquisition Documents, and (E) authorizing the execution delivery and performance by the Borrower of the Intercompany Loan Documents to which it is a party and the consummation of the transactions contemplated thereby; (2) the incumbency and, if such Responsible Officer is an individual, specimen signatures of the Responsible Officers of the Borrower executing any Loan Documents to which it is a party, upon which Officer's Certificate the Administrative Agent and the Lenders shall be entitled to rely until informed of any change in writing by the Borrower; and (3) such evidence as the Administrative Agent may reasonably require to verify that the Borrower is duly organized or formed, validly existing, in good standing and qualified to engage in business in each jurisdiction in which it is required to be qualified to engage in business, including any required approvals of any applicable Government Authority, certified copies of the Borrower's Organization Documents, certificates of organization, good standing and/or qualification to engage in business;

(iv) an Officer's Certificate certified by Responsible Officers of each Guarantor certifying, *inter alia*, (1) true and correct copies of resolutions adopted by the board of directors, board of managers, general partner or other appropriate body of such Guarantor (A) authorizing the execution, delivery and performance by such Guarantor of any Loan Documents to which it is or will be a party and the consummation of the transactions contemplated thereby, (B) authorizing the Responsible Officers of such Guarantor to negotiate the Loan Documents to which such Guarantor is or will be a party on behalf of such Guarantor, and (C) authorizing the Responsible Officers of such Guarantor to execute and deliver the Loan Documents and any related documents, including, without limitation, any pledge agreement, security agreement or other document contemplated by this Agreement to which such Guarantor is or will be a party; (2) the incumbency and, if such Responsible Officer is an individual, specimen signatures of the Responsible Officers of such Guarantor executing any Loan Documents to which such Guarantor is or will be a party, upon which Officer's Certificate the Administrative Agent and the Lenders shall be entitled to rely until informed of any change in writing by such Guarantor; and (3) such evidence as the Administrative Agent may reasonably require to verify that each such Guarantor is duly organized or formed, validly existing, in good standing and qualified to engage in business in each jurisdiction in which it is required to be qualified to engage in business, including any required approvals of any applicable Government Authority, certified copies of each such Guarantor's Organization Documents, certificates of organization, good standing and/or qualification to engage in business;

(v) (1) executed counterparts of each of the Security Documents the Administrative Agent may reasonably require, sufficient in number for distribution to the Administrative Agent, each Lender and the Borrower, (2) all appropriate evidence required by the Administrative Agent in its sole discretion necessary to determine that the Administrative Agent (for its benefit and the benefit of the Lenders) shall have an Acceptable Security Interest in the Collateral, including, without limitation, physical delivery of any certificated securities or other Collateral for which possession is the required means for perfection under the Uniform Commercial Code as in effect on the date hereof in the State of New York, along with any related stock powers or other similar grants in favor of the Administrative Agent, (3) delivery of any control agreements or other similar agreements related to any accounts or other Collateral for which control is the required means for perfection under the Uniform Commercial Code as in effect on the date hereof in the State of New York, and (4) the Agent shall be satisfied that the Liens granted to it under the Security Documents are Acceptable Security Interests and that all actions or filings necessary to protect, preserve and validly perfect such Liens have been made, taken or obtained, as the case may be, and are in full force and effect;

(vi) an Officers' Certificate signed by Responsible Officers of the Borrower certifying that:

(A) the representations and warranties of the Borrower contained in Article V, or which are contained in any Loan Document furnished by the

Borrower in connection herewith, shall be true and correct on and as of the Closing Date, except to the extent that such representations and warranties specifically refer to a different date, in which case they shall be true and correct as of such date;

(B) (i) no Default or Event of Default shall exist, or would result from the Credit Extension on the Closing Date and (ii) no "Event of Default" (as defined in the Subordinated Note Indenture), or event or condition that with the giving of notice or the lapse of time would become an "Event of Default" (as defined in the Subordinated Note Indenture), shall exist under the Existing Revolver or the Subordinated Note Indenture, or in each case, would result from such Credit Extension;

(C) as of the Closing Date, no event or events, change or condition shall have occurred since December 31, 2005 that individually or in the aggregate has, or could reasonably be expected to have, (1) a Material Adverse Effect with respect to the Borrower and its consolidated Subsidiaries, or (2) a material adverse effect on the business, assets, liabilities, operations, condition (financial or otherwise) or operating results of the Acquired Subsidiary and the other Acquisition Entities taken as a whole; and

(D) after giving effect to the Acquisition and the execution, delivery and performance of the Loan Documents and the Intercompany Loan Documents and each of the transactions contemplated thereby, in each case on a *pro forma* basis, the Cash Flow Coverage Ratio of the Parent Guarantor shall be at least 1.5 to 1.0 and each of the Borrower and the Parent Guarantor shall otherwise be in compliance with the covenants applicable to it under the Subordinated Note Indenture and the Existing Revolver as evidenced by a schedule demonstrating such *pro forma* compliance with each such financial covenant attached to such Officers' Certificate.

(E) the Properties of the Acquisition Entities and the Loan Parties are insured with financially sound and reputable insurance companies in such amounts, with such deductibles and covering such risks as are customarily carried by companies engaged in similar businesses and owning similar properties in localities where the Acquisition Entities and such Loan Parties operate, and

(F) immediately prior to and after giving effect to each of the transactions contemplated by the Loan Documents, the Existing Revolver, the Acquisition (including the Incurrence of the Existing Acquisition Indebtedness) and the Intercompany Loan Documents, the Borrower, each Loan Party and each Acquisition Entity shall be Solvent;

(vii) an opinion of counsel to each Loan Party each substantially in the form of Exhibit F;

(viii) copies of duly executed UCC-1 financing statements and all other requisite filing documents necessary to perfect the Liens granted pursuant to the Security Documents and duly executed releases or assignments of Liens and UCC-3 financing statements in recordable form, covering all of the Collateral, as may be necessary to reflect that the Liens granted to the Administrative Agent for the benefit of the Lenders are first and prior Liens, except for the Liens permitted under Section 7.01;

(ix) copies of all environmental surveys or reports relating to the real Property owned or leased by each Loan Party as deemed necessary or prudent by the Administrative Agent in scope and results acceptable to the Administrative Agent;

(x) all legal matters incident to the transaction herein contemplated shall be reasonably satisfactory to counsel for the Administrative Agent and the Lenders;

(xi) copies of (1) Audited Financial Statements covering each of the Borrower and the Acquired Subsidiary for the fiscal years ended December 31, 2003, 2004 and 2005, (2) unaudited interim consolidated financial statements of the Borrower and the Acquired Subsidiary and their respective consolidated Subsidiaries, for the fiscal quarters ending March 31, 2006 and June 30, 2006 including, without limitation any management discussion and analysis related thereto, (3) financial projections of the Borrower and the Acquisition Entities, in form and substance reasonably acceptable to the Administrative Agent, prepared on a *pro forma* basis after giving effect to the Acquisition, and (4) a proposed budget for the Borrower and a proposed budget of the Acquisition Entities, each in form and substance reasonably acceptable to the Administrative Agent; and

(xii) such other assurances, certificates, documents, consents or opinions as the Administrative Agent or the Required Lenders reasonably may require; and.

(b) Any fees required to be paid on or before the Closing Date shall have been paid.

(c) Unless waived by the Administrative Agent, the Borrower shall have paid all Attorney Costs of the Administrative Agent to the extent invoiced prior to or on the Closing Date, plus such additional amounts of Attorney Costs as shall constitute its reasonable estimate of Attorney Costs incurred or to be incurred by it through the closing proceedings (provided that such estimate shall not thereafter preclude a final settling of accounts between the Borrower and the Administrative Agent).

(d) The Administrative Agent shall have received satisfactory evidence that all actions necessary to consummate the Acquisition shall have been taken in accordance with all applicable law and in accordance with the terms of each applicable Acquisition Document, without amendment or waiver of any material provision thereof from the forms of the Acquisition Documents provided to and reviewed by the Administrative Agent (except as consented to by the Administrative Agent, which consent shall not be unreasonably withheld or delayed) and that each of the Acquisition and the effectiveness of the Third Amendment to the Existing Revolver, has occurred or will occur concurrently with the closing and effectiveness of this Agreement. In addition to, and not in limitation of, the foregoing, the Administrative Agent

shall be reasonably satisfied with the final structure of the Acquisition and the status of any and all approvals related thereto.

(e) The Administrative Agent shall have received copies of the duly executed Intercompany Loan Documents, in form and substance satisfactory to the Administrative Agent.

(f) The Administrative Agent shall have received a Request for Credit Extension in accordance with the requirements hereof.

## **ARTICLE V. REPRESENTATIONS AND WARRANTIES**

The Borrower represents and warrants as set forth below:

### **5.01 Existence, Qualification and Power; Compliance with Laws.**

(a) **Intentionally Blank.**

(b) The Borrower is duly organized, validly existing and in good standing under the laws of the jurisdiction of its organization and is duly qualified and in good standing as a foreign Person in each jurisdiction where its ownership, lease or operation of Property or the conduct of its business requires such qualification and in which the failure to so qualify could not reasonably be expected to have a Material Adverse Effect. As of the Closing Date, the Parent Guarantor owns 70.1% of the common membership interests and 100% of the Class A Preferred Membership interests in the Borrower. As of the Closing Date, the Borrower does not have any Subsidiaries or Unrestricted Subsidiaries or own any equity interests in any Person other than those Subsidiaries and Unrestricted Subsidiaries and equity interests of the type listed in Schedule 5.13 hereto.

(c) **Intentionally Blank.**

(d) Each Loan Party has all requisite power and authority and all requisite governmental licenses, authorizations, consents and approvals to own its assets, carry on its business and to execute, deliver, and perform its obligations under the Loan Documents to which it is a party (except for the absence of which could not reasonably be expected to have a Material Adverse Effect).

(e) **Intentionally Blank.**

(f) Each Loan Party is in compliance with all Laws, except in each case referred to in clause (d) or this clause (f), to the extent that failure to do so could not reasonably be expected to have a Material Adverse Effect.

**5.02 Authorization; No Contravention.** The execution, delivery and performance by each Loan Party of each Loan Document to which such Person is a party and by the Borrower and each Acquisition Entity of each Acquisition Document to which such Person is a party, have been duly authorized by all necessary corporate or other organizational action, and do not and will not (a) violate the terms of any of such Person's Organization Documents (except as such, in

the aggregate, could not reasonably be expected to have a Material Adverse Effect), (b) violate or result in any breach or contravention of, constitute a default under, or creation of any Lien on the properties of such Loan Party under, any Contractual Obligation to which such Person is a party or any order, injunction, writ or decree of any Governmental Authority to which such Person or its Property is subject (except as such, in the aggregate, could not reasonably be expected to have a Material Adverse Effect), or (c) violate any Law (except as such, in the aggregate, could not reasonably be expected to have a Material Adverse Effect).

**5.03 Governmental Authorization; Consents.** No approval, consent, exemption, authorization, or other action by, or notice to, or filing with, any Governmental Authority or any other Person or entity (including, without limitation, any creditor or equity holder of the Borrower or any Guarantor) (other than those already obtained or the absence of which could not reasonably be expected to have a Material Adverse Effect) is necessary or required to be obtained or made by any Loan Party as a condition to the execution, delivery or performance by, or enforcement against, any Loan Party or any Acquisition Entity of any Loan Document, any Intercompany Loan Document or any Acquisition Document or the consummation of the Acquisition.

**5.04 Binding Effect.** This Agreement has been, and each other Loan Document, Intercompany Loan Document and Acquisition Document when delivered, will have been, duly executed and delivered by each Loan Party or Acquisition Entity that is a party thereto. This Agreement constitutes, and each other Loan Document, Intercompany Loan Document and Acquisition Document when so delivered will constitute, a legal, valid and binding obligation of such Loan Party or Acquisition Entity, enforceable against such Loan Party or Acquisition Entity that is a party thereto in accordance with its terms, subject as to enforcement to bankruptcy, insolvency, reorganization, moratorium and similar laws of general applicability relating to or affecting creditors' rights and to general equity principles. Upon making the initial Credit Extensions and recording the necessary Security Documents, the Liens created by the Security Documents will be Acceptable Security Interests, constituting valid and perfected first and prior Liens on any Property described therein subject to no other Liens other than those Liens specifically permitted by Section 7.01

**5.05 Financial Statements; No Material Adverse Effect.**

(a) The Audited Financial Statements and other financial statements, balance sheets, statements of income and of cash flow and all other financial information delivered to the Administrative Agent pursuant to Section 4.01(a)(xi) (i) were prepared in accordance with Cdn. GAAP or U.S. GAAP, as applicable, consistently applied throughout the period covered thereby, except as otherwise expressly noted therein; (ii) fairly present the financial condition of each of the Parent Guarantor and its consolidated Subsidiaries or, to the best knowledge of the Borrower, the Acquired Subsidiary and its consolidated Subsidiaries, as applicable, as of the date thereof and their results of operations for the period covered thereby on a pro forma basis in accordance with Cdn. GAAP or U.S. GAAP, as applicable, consistently applied throughout the period covered thereby, except as otherwise expressly noted therein; and (iii) reflect all material indebtedness and other liabilities, direct or contingent, of each of the Parent Guarantor and its consolidated Subsidiaries or the Acquired Subsidiary and its consolidated Subsidiaries, as

applicable, as of the date thereof, including liabilities for taxes, material commitments and Indebtedness on a pro forma basis in accordance with Cdn. GAAP or U.S. GAAP, as applicable, consistently applied throughout the period covered thereby.

(b) Since the date of the Audited Financial Statements no event or events have occurred which in the aggregate have, or could reasonably be expected to have, a Material Adverse Effect.

**5.06 Litigation.** Except as specifically disclosed in Schedule 5.06, there are no actions, suits, proceedings, claims or disputes pending or, to the knowledge of the Borrower after reasonable investigation, threatened or contemplated, at law, in equity, in arbitration or before any Governmental Authority, by or against any Loan Party or any of the Borrower's Subsidiaries or Unrestricted Subsidiaries or against any of their properties or revenues that (A) purport to adversely affect any Loan Document, Intercompany Loan Document or as of the Closing Date any Acquisition Document, or the Existing Acquisition Indebtedness, or enjoin any of the transactions contemplated hereby or thereby, or (B) if determined adversely, could have a Material Adverse Effect.

**5.07 No Default.** No Loan Party is in default under or with respect to any Contractual Obligations that could be reasonably expected to have a Material Adverse Effect. No Default or Event of Default has occurred and is continuing or would result from the consummation of the transactions contemplated by this Agreement or any other Loan Document, Intercompany Loan Document or Acquisition Document (including the Incurrence of the Existing Acquisition Indebtedness).

**5.08 Ownership of Property; Liens.** Each Loan Party has good record and marketable title in fee simple to, or valid leasehold interests in, all material Property necessary or used in the ordinary conduct of its business, except for such defects in title as would not, individually or in the aggregate, have a Material Adverse Effect. There is no Lien on any Property of any Loan Party, other than Liens permitted by Section 7.01.

**5.09 Environmental Compliance.** (i) To the best knowledge of the Company, (ii) to the best knowledge of the other Loan Parties, and (iii) based on a review conducted by the Loan Parties prior to the Closing Date of the effect of the then existing Environmental Laws and any claims alleging potential liability or responsibility for violation of any Environmental Law on their respective businesses, operations and properties, except as specifically disclosed in Schedule 5.09, the Loan Parties have concluded that: (a) with respect to the Property of any Loan Party or the operations conducted thereon, the Loan Parties are in compliance with all applicable Environmental Laws, except to the extent that any non-compliance would not reasonably be expected to have a Material Adverse Effect; (b) the Loan Parties are not subject to any judicial, administrative, government, regulatory or arbitration proceeding alleging the violation of any applicable Environmental Laws or to the best of their knowledge that may lead to claim for cleanup costs, contribution, remedial work, reclamation, conservation, natural resources damages or personal injury or to the issuance of a stop-work order, suspension order, control order, prevention order or clean-up order, except to the extent that any such proceeding would not reasonably be expected to have a Material Adverse Effect; (c) the Loan Parties are not subject to any federal, state, local or foreign review, audit or investigation which may lead to a

proceeding referred to in (b) above; (d) the Loan Parties have no knowledge that any of their predecessors in title to any of their Property and assets are the subject of any currently pending federal, state, local or foreign review, audit or investigation which may lead to a proceeding referred to in (b) above; (e) the Loan Parties have not filed any notice under any applicable Environmental Laws indicating past or present treatment, storage or disposal of, or reporting a release of Hazardous Materials into the environment where the circumstances surrounding such notice would reasonably be expected to have a Material Adverse Effect; and (f) the Loan Parties possess, and are in compliance with, all approvals, licenses, permits, consents and other authorizations which are necessary under any applicable Environmental Laws to conduct their business, except to the extent that the failure to possess, or be in compliance with, such authorizations would not reasonably be expected to have a Material Adverse Effect.

**5.10 Insurance.** The properties of the Borrower and its respective Subsidiaries are insured with financially sound and reputable insurance companies that are not Affiliates of the Borrower, in such amounts, with such deductibles and covering such risks as are customarily carried by companies engaged in similar businesses and owning similar properties in localities where the Borrower or its respective Subsidiaries operate.

**5.11 Taxes.** To the best knowledge of the Borrower, each of the Parent Guarantor and the Borrower and its Subsidiaries and Unrestricted Subsidiaries have filed all Federal, state and other material tax returns and reports required to be filed, and have paid all Federal, state and other material taxes, assessments, fees and other governmental charges levied or imposed upon any of the Parent Guarantor, the Borrower or its Subsidiaries or Unrestricted Subsidiaries or their properties, income or assets otherwise due and payable, except those which are being contested in good faith by appropriate proceedings and for which adequate reserves have been provided in accordance with GAAP. There is no proposed tax assessment against any of the Parent Guarantor, or the Borrower or any Subsidiary or Unrestricted Subsidiary that would, if made, have a Material Adverse Effect.

**5.12 ERISA Compliance.**

(a) Except as could not reasonably be expected to result in a material Adverse Effect, each Plan is in compliance with the applicable provisions of ERISA, the Code and other Federal or state Laws. Each Plan that is intended to qualify under Section 401(a) of the Code has received a favorable determination letter from the IRS or an application for such a letter is currently being processed by the IRS with respect thereto and, to the best knowledge of the Borrower, nothing has occurred which would prevent, or cause the loss of, such qualification under circumstances as could reasonably be expected to result in a Material Adverse Effect. The Borrower and each ERISA Affiliate of the Borrower have made all required contributions to each Plan subject to Section 412 of the Code, and no application for a funding waiver or an extension of any amortization period pursuant to Section 412 of the Code has been made with respect to any Plan

(b) There are no pending, or, to the best knowledge of the Borrower, threatened claims, actions or lawsuits, or action by any Governmental Authority, with respect to any Plan that could be reasonably be expected to have a Material Adverse Effect. There has been no

prohibited transaction or violation of the fiduciary responsibility rules with respect to any Plan that has resulted or could be reasonably expected to result in a Material Adverse Effect.

(c) No ERISA Event has occurred or is reasonably expected to occur; (ii) no Pension Plan has any Unfunded Pension Liability in such amount as could reasonably be expected to Result in a Material Adverse Effect; (iii) neither the Borrower nor any ERISA Affiliate of the Borrower has incurred, or reasonably expects to incur, any liability under Title IV of ERISA with respect to any Pension Plan (other than premiums due and not delinquent under Section 4007 of ERISA in such amount as could reasonably be expected to Result in a Material Adverse Effect); (iv) neither the Borrower nor any ERISA Affiliate of the Borrower has incurred, or reasonably expects to incur, any liability (and no event has occurred which, with the giving of notice under Section 4219 of ERISA, would result in such liability) under Sections 4201 or 4243 of ERISA with respect to a Multiemployer Plan in such amount as could reasonably be expected to Result in a Material Adverse Effect; and (v) neither the Borrower nor any ERISA Affiliate of the Borrower has engaged in a transaction that could reasonably be expected to be subject to Sections 4069 or 4212(c) of ERISA.

### **5.13 Subsidiaries.**

(a) As of the Closing Date, the Borrower has no Subsidiaries or Unrestricted Subsidiaries other than those specifically disclosed in Part (a) of Schedule 5.13. All Subsidiaries and Unrestricted Subsidiaries of the Borrower are duly organized, validly existing and in good standing under the laws of their respective jurisdictions of organization and are duly qualified to do business in each jurisdiction where failure to so qualify would have an Material Adverse Effect. All outstanding shares of stock or other similar equity interests of each class of each Subsidiary or Unrestricted Subsidiary of Borrower have been and will be validly issued and are and will be fully paid and nonassessable and are and will be owned, beneficially and of record, by the Borrower or a Wholly-Owned Subsidiary of the Borrower free and clear of any Liens (other than Liens permitted by Section 7.01).

(b) As of the Closing Date, part (b) of Schedule 5.13 sets forth each of the Subsidiaries of the Borrower that shall have delivered a Guaranty on the Closing Date. Each such Guarantor is and will remain a Wholly-Owned Subsidiary of the Borrower.

(c) As of the Closing Date, the Borrower has no Equity Interests in any other corporation or entity other than those specifically disclosed in Part (c) of Schedule 5.13.

### **5.14 Margin Regulations; Investment Company Act; Public Utility Holding Company Act.**

(a) The Borrower is not engaged and will not be engaged principally or as one of its important activities, in the business of purchasing or carrying margin stock (within the meaning of Regulation U issued by the Board), or extending credit for the purpose of purchasing or carrying margin stock.

(b) None of the Loan Parties, any Person directly or indirectly controlling any of the Loan Parties or any Subsidiary or Unrestricted Subsidiary is or is required to be registered as an "investment company" under the Investment Company Act of 1940.

**5.15 Disclosure.** No statement, information, report, representation, or warranty (other than projections) made by any Loan Party in any Loan Document, Intercompany Loan Document or Acquisition Document, when so made (or if dated or otherwise specified therein, as of such date), or furnished to the Administrative Agent, or any Lender by or at the direction of any Loan Party in connection with any Loan Document, Intercompany Loan Document or Acquisition Document, when so furnished (or if dated or otherwise specified therein, as of such date), contains any untrue statement of a material fact or omits any material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading. There is no fact known to the Borrower which has caused, or which likely would in the future in the reasonable judgment of the Borrower cause, a Material Adverse Effect (except for any economic conditions which affect generally the industry in which the Borrower and its Subsidiaries conduct business), that has not been set forth in this Agreement or in the other documents, certificates, statements, reports and other information furnished in writing to the Lenders by or on behalf of the Borrower or any other Loan Party in connection with the transactions contemplated hereby.

**5.16 Intellectual Property; Licenses, Etc.** The Borrower and its Subsidiaries and Unrestricted Subsidiaries own, or possess the right to use, all of the trademarks, service marks, trade names, copyrights, patents, patent rights, franchises, licenses and other rights that are reasonably necessary for the operation of their respective businesses, without conflict with the rights of any other Person. To the best knowledge of the Borrower, no slogan or other advertising device, product, process, method, substance, part or other material now employed, or now contemplated to be employed, by the Borrower or any Subsidiary or Unrestricted Subsidiary infringes upon any rights held by any other Person. No claim or litigation regarding any of the foregoing is pending or, to the best knowledge of the Borrower, threatened, and no patent, invention, device, application, principle or any statute, law, rule, regulation, standard or code is pending or, to the knowledge of the Borrower, proposed, which, in any case described in this Section 5.16, could reasonably be expected to have a Material Adverse Effect.

**5.17 Direct Benefit.** The Loans hereunder and the Indebtedness evidenced by the Intercompany Loan Documents are for the direct benefit of the Borrower or one or more of the Guarantors or the Acquisition Entities. The Borrower, the Guarantors and the other Subsidiaries and Unrestricted Subsidiaries are engaged as an integrated group in the business of energy production, transmission and distribution and related fields, and any benefits to the Borrower or any Guarantor is a benefit to all of them, both directly or indirectly, inasmuch as the successful operation and condition of the Borrower and the Guarantors is dependent upon the continued successful performance of the functions of the integrated group as a whole.

**5.18 Solvency.** The Borrower, each individual Guarantor and the Loan Parties on a consolidated basis are Solvent.

**5.19 Subordinated Note Documents.** As of the Closing Date, before and after giving effect to the initial Credit Extension, all representations and warranties of the Borrower or any

Guarantor contained in the Subordinated Note Indenture and any documents delivered pursuant thereto are true and correct in all material respects (except to the extent such representations or warranties relate or refer to a specified, earlier date). Before and after giving effect to the initial Credit Extension contemplated hereunder, there is no event of default or event or condition that could become an event of default with notice or lapse of time or both, under the Subordinated Note Indenture and any documents related thereto and the Subordinated Note Indenture, the Subordinated Notes and any other legally binding documents executed by the Loan Parties in connection therewith are in full force and effect.

**5.20 Labor Relations.** Neither the Borrower nor any Subsidiary or Unrestricted Subsidiary is engaged in any unfair labor practice that could reasonably be expected to have a Material Adverse Effect. There is (i) no unfair labor practice complaint pending against the Borrower or any Subsidiary or Unrestricted Subsidiary or threatened against any of them, before the National Labor Relations Board, and no grievance or arbitration proceeding arising out of or under any collective bargaining agreement is so pending against the Borrower or any Subsidiary or Unrestricted Subsidiary or, to the best of the Borrower's knowledge, threatened against any of them, (ii) no strike, labor dispute, slowdown or stoppage pending against the Borrower or any Subsidiary or Unrestricted Subsidiary or, to the Borrower's knowledge, threatened in writing against the Borrower or any Subsidiary or Unrestricted Subsidiary and (iii) no union representation petition existing with respect to the employees of the Borrower or any Subsidiary or Unrestricted Subsidiary and no union organizing activities are taking place, except with respect to any matter specified in clause (i), (ii) or (iii) above, either individually or in the aggregate, such as could not reasonably be expected to have a Material Adverse Effect.

**5.21 Undisclosed Liabilities; Absence of Burdensome Obligations.** Neither the Borrower nor any Subsidiary of the Borrower (i) is a party to any material agreement or arrangement, or subject to any order, judgment, writ or decree, which either restricts or purports to restrict its ability to grant Liens to the Administrative Agent and the Lenders on or in respect of their Properties to secure the Indebtedness and the Security Documents or (ii) has any material Indebtedness, contingent liabilities, off balance sheet liabilities, liabilities for taxes, long term commitments or unrealized or anticipated losses from any unfavorable commitments, except as reflected in the financial statements referred to in Section 5.05.

## ARTICLE VI. AFFIRMATIVE COVENANTS

So long as any Loan or other Obligation shall remain unpaid or any other Secured Obligation shall remain outstanding, the Borrower shall, and shall (except in the case of the covenants set forth in Sections 6.01, 6.02 and 6.03) cause each Loan Party and each Subsidiary in which it directly or indirectly owns more than 50% of the total voting or equity interests and (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary) any of its other Subsidiaries to:

**6.01 Financial Statements.** Deliver to the Administrative Agent and each Lender, in form and detail reasonably satisfactory to the Administrative Agent and the Required Lenders:

(a) (i) as soon as available, but in any event within 90 days after the end of the fiscal year of the Parent Guarantor, an audited consolidated balance sheet of the Parent Guarantor and its consolidated Subsidiaries, as at the end of such fiscal year, and the related consolidated statements of income and cash flows for such fiscal year, setting forth in comparative form the figures for the previous fiscal year, all in reasonable detail, as audited and accompanied by a report and opinion of an independent certified public accountant of nationally recognized standing selected by the Borrower and reasonably acceptable to the Required Lenders, which report and opinion shall be prepared in accordance with Cdn. GAAP and shall not be subject to any qualifications or exceptions as to the scope of the audit nor to any qualifications and exceptions not reasonably acceptable to the Required Lenders,

(ii) within 90 days after the end of the fiscal year of the Borrower, an unaudited consolidated balance sheet of the Borrower and its consolidated Subsidiaries as at the end of such fiscal year, and the related consolidated statements of income and cash flows for such fiscal year, setting forth in each case in comparative form the figures for the previous fiscal year, all in reasonable detail and certified by a Responsible Officer of the Borrower as fairly presenting the financial condition, results of operations and cash flows of the Borrower and its Subsidiaries and Unrestricted Subsidiaries in accordance with Cdn. GAAP subject only to normal year-end audit adjustments and the absence of footnotes, and

(iii) promptly following receipt thereof, any unaudited balance sheets and/or related consolidated statements of income and cash flows it receives from a Project Operating Entity or a Project Holding Entity for any fiscal year; and

(b) (i) as soon as available, but in any event within (A) 45 days after the end of each of the first three fiscal quarters of each fiscal year of the Parent Guarantor a consolidated balance sheet of the Parent Guarantor and its consolidated Subsidiaries and (B) 75 days after the end of each of the first three fiscal quarters of each fiscal year of the Borrower, a consolidated balance sheet of the Borrower and its consolidated Subsidiaries and Unrestricted Subsidiaries, in each case, as at the end of such fiscal quarter, and the related consolidated statements of income and cash flows for such fiscal quarter and for the portion of the Parent Guarantor and the Borrower's fiscal year then ended, as applicable, setting forth in each case in comparative form the figures for the corresponding fiscal quarter of the previous applicable fiscal year and the corresponding portion of the previous applicable fiscal year, all in reasonable detail and certified by a Responsible Officer of the Borrower and the Parent Guarantor, as applicable, as fairly presenting the financial condition, results of operations and cash flows of the Borrower and its Subsidiaries and Unrestricted Subsidiaries in accordance with Cdn. GAAP for each of the balance sheets referred to in clauses (A) and (B) above, subject only to normal year-end audit adjustments and the absence of footnotes, and

(ii) as soon as available, but in any event within 45 days after the end of each fiscal quarter of the Borrower an unaudited statement of distributable cash of each of the Project Operating Entities and the Projects setting forth in reasonable detail the amounts paid, received, or actually incurred by the Borrower, Parent Guarantor, the Project Operating Entities or Projects, as applicable, during such fiscal quarter with respect to clauses (A), (B), (C) and (D) of Section 6.01(c)(i) and clauses (A), (E), (C), (D) of Section 6.01(c)(ii) and an updated calculation

of the Cash Flow Coverage Ratio of the Borrower for such fiscal quarter, each as certified by a Responsible Officer of the Borrower stating that such quarterly statements are true and complete copies thereof as presented to the board of managers of the Borrower for such quarter; and

(c) (i) at least 15 days prior to the commencement of each fiscal year of the Borrower, a forecast for the Parent Guarantor's and the Borrower's distributable cash (the "Annual Distributable Cash Forecast") prepared by the Manager for such fiscal year, broken down on a monthly basis and setting forth in reasonable detail: (A) the projected cash distributions from each Project or Project Operating Entity to the Borrower or to an intermediary holding Subsidiary or Unrestricted Subsidiary of the Borrower; (B) the projected payments of fees and expenses of the Borrower and the Parent Guarantor, including fees and expenses payable pursuant to this Agreement; (C) all projected Restricted Payments; and (D) the projected distributions from the Parent Guarantor to the holders of the IPS's; (ii) at least 15 days prior to the commencement of each fiscal year of the Borrower, an annual budget of the Borrower for such fiscal year (the "Annual Budget") setting forth in reasonable detail: (A) the projected cash distributions from each Project and Project Operating Entity to the Borrower or to an intermediary holding Subsidiary or Unrestricted Subsidiary of the Borrower; (B) the Indebtedness, if any, of each Project Operating Entity, Project Holding Entity or Project and, if applicable, a comparison of the amortization schedule to the expiration of the applicable power purchase agreement associated with such Project; (C) the management and administration expenses of the Manager, the Borrower and the Parent Guarantor; (D) the projected monthly cash flow for Borrower and Parent Guarantor (which shall incorporate (ii)(A) through (ii)(C)); (iii) at least 15 days prior to the commencement of each fiscal year of the Borrower, a schedule setting forth the Cash Flow Coverage Ratio and related calculations; (iv) at least 15 days prior to the commencement of each fiscal year of the Borrower a certificate of a Responsible Officer stating that the Annual Distributable Cash Forecast and the Annual Budget attached to such certificate are true and complete copies thereof as presented to the board of managers of the Borrower for such fiscal year; and (v) upon the earlier to occur of (A) 5 Business Days after the approval of the Annual Distributable Cash Forecast and the Annual Budget by the board of managers of the Borrower or (B) the last Business Day of January, a certificate of a Responsible Officer of the Borrower stating that the Annual Distributable Cash Forecast and the Annual Budget attached to such certificate are true and complete copies thereof as approved by the board of managers of the Borrower for such fiscal year; and

(d) the Borrower shall deliver to the Administrative Agent each of the following documents, if available, promptly following the receipt of such by the Borrower: any and all audited annual financial statements, unaudited annual financial statements, management reports, or other similar reports or financial information prepared pursuant to (i) the Organization Documents of any Project Level Subsidiary of the Borrower or (ii) any other agreement regarding preparation and delivery of such reports between the Parent Guarantor or the Borrower and any Project Level Subsidiary of the Borrower.

**6.02 Certificates; Other Information.** Deliver to the Administrative Agent and each Lender, in form and detail reasonably satisfactory to the Administrative Agent and the Required Lenders:

(a) concurrently with the delivery of the financial statements referred to in Section 6.01(a)(i), a certificate of its independent certified public accountants certifying such financial statements have been prepared in accordance with GAAP and fairly present the financial condition of the Parent Guarantor or the Borrower and its Subsidiaries and Unrestricted Subsidiaries, as applicable, as of the date thereof;

(b) concurrently with the delivery of the financial statements referred to in Sections 6.01(a) and (b), a duly completed Compliance Certificate signed by Responsible Officers of the Parent Guarantor or the Borrower, as applicable;

(c) promptly after the same are available, copies of each annual report, proxy or financial statement or other report or communication sent to the shareholders of the Parent Guarantor or the unit holders of the Borrower, and copies of all annual, regular, periodic and special reports and registration statements (if any) which the Parent Guarantor or the Borrower has filed with the Securities and Exchange Commission under Section 13 or 15(d) of the Securities Exchange Act of 1934, and not otherwise required to be delivered to the Administrative Agent pursuant hereto, in each case, (i) which are not confidential in nature, as permitted by applicable Laws, as required by contractual restrictions not entered into in contemplation of this Section 6.02(c), as permitted by recognized principles of privilege or as otherwise determined in good faith by the Borrower, and (ii) which are not publicly available on the United States Securities and Exchange Commission's Electronic Data Gathering, Analysis and Retrieval System (or "EDGAR"), the Canadian Securities Administrators System for Electronic Document Analysis and Retrieval (or "SEDAR") or other similar publicly accessible sources of which the Parent Guarantor or the Borrower provides written notice to the Administrative Agent and the Lenders; and

(d) promptly after the same are available, copies of quarterly and annual management reports setting forth the respective cash flows of each Project;

(e) promptly, such additional information regarding the business, financial or organizational affairs of the Parent Guarantor or the Borrower or any Subsidiary or Unrestricted Subsidiary as the Administrative Agent, at the request of any Lender, may from time to time reasonably request.

**6.03 Notices.** Promptly notify the Administrative Agent and each Lender within 5 Business Days after actual knowledge thereof by any Responsible Officer of the Borrower:

(a) of the occurrence of any Default or Event of Default;

(b) of any matter that has resulted or could reasonably be expected to result in a Material Adverse Effect, including without limitation (i) breach or non-performance of, or any default under, a Contractual Obligation of the Parent Guarantor or the Borrower or any Subsidiary; (ii) any dispute, litigation, investigation, proceeding or suspension between the Borrower or any Subsidiary and any Governmental Authority; or (iii) the commencement of, or any material development in, any litigation or proceeding affecting the Parent Guarantor or the Borrower or any Subsidiary, including pursuant to any applicable Environmental Laws;

(c) of any litigation, investigation or proceeding affecting any Loan Party which if determined adversely, to any Loan Party, could reasonably be expected to result in liability to one or more Loan Parties in at an amount that exceeds, in the aggregate for all such matters, after giving effect to applicable in-force insurance and related third-party indemnity and similar agreements, U.S.\$5,000,000, or in which injunctive relief or similar relief is sought, which relief, if granted, could be reasonably expected to have a Material Adverse Effect;

(d) of the occurrence of any ERISA Event; and

(e) of any announcement by Moody's or S&P of any change in a debt rating or by DBRS of any change to the stability rating of the Parent Guarantor.

Each notice pursuant to this Section shall be accompanied by a statement of a Responsible Officer of the Borrower setting forth details of the occurrence referred to therein and stating what action the relevant Loan Party or Subsidiary has taken and proposes to take with respect thereto. Each notice pursuant to Section 6.03(a) shall describe with particularity any and all provisions of this Agreement or other Loan Document that have been breached.

**6.04 Payment of Obligations.** Pay and discharge as the same shall become due and payable, all its obligations and liabilities, that if not paid could reasonably be expected to result in a Material Adverse Effect, including: (a) all tax liabilities, assessments and governmental charges or levies upon it or its properties or assets, unless the same are being contested in good faith by appropriate proceedings and adequate reserves in accordance with U.S. GAAP are being maintained by the relevant Loan Party or such Subsidiary; (b) all material lawful claims which, if unpaid, would by law become a Lien upon its Property; and (c) all Indebtedness, as and when due and payable, but subject to any subordination provisions contained in any instrument or agreement evidencing such Indebtedness.

**6.05 Continuation of Business, Etc.** Except in a transaction permitted by Section 7.05 or pursuant to statutory conversions to another form of entity as permitted by applicable Law, preserve, renew and maintain in full force and effect its legal existence and good standing under the Laws of the jurisdiction of its organization; and except where it will not have a Material Adverse Effect, take all reasonable action to maintain all rights, privileges, permits, licenses and franchises necessary or desirable in the normal conduct of its business and preserve or renew all of its registered patents, trademarks, trade names and service marks.

**6.06 Maintenance of Properties.** Except where it will not have a Material Adverse Effect, (a) maintain, preserve and protect all of its material properties and equipment necessary in the operation of its business in good working order and condition, ordinary wear and tear excepted, (b) make all necessary repairs thereto and renewals and replacements thereof and (c) use the standard of care typical in the industry in the operation and maintenance of its facilities.

**6.07 Maintenance of Insurance.** Maintain with financially sound and reputable insurance companies (which are not Affiliates of the Parent Guarantor or the Borrower), insurance with respect to its properties and business against loss or damage of the kinds customarily insured against by Persons engaged in the same or similar business, of such types

and in such amounts as are customarily carried under similar circumstances by such other Persons.

**6.08 Compliance with Laws.** Comply in all material respects with the requirements of all Laws applicable to it or to its business or Property, except in such instances in which (i) such requirement of Law is being contested in good faith or a bona fide dispute exists with respect thereto or (ii) the failure to comply therewith could not be reasonably expected to have a Material Adverse Effect.

**6.09 Books and Records.** Maintain proper books of record and account necessary to prepare the financial statements required to be delivered pursuant to Section 6.01 in accordance with U.S. GAAP.

**6.10 Inspection Rights.** Permit representatives and independent contractors of the Administrative Agent and each Lender, at their respective expense, to visit and inspect any of its properties, to examine its corporate, financial and operating records, and make copies thereof or abstracts therefrom, and to discuss its affairs, finances and accounts with its directors, officers, and independent public accountants, in each case, all at such reasonable times during normal business hours and as reasonably often as may be necessary, upon reasonable advance notice to the Borrower and subject to compliance with applicable safety standards, with contractual or attorney-client privilege (as applicable) and non-disclosure agreements; provided, however, that during an Event of Default, the Administrative Agent or any Lender (or any of their respective representatives or independent contractors) may, without duplication of the efforts of the others, do any of the foregoing at the reasonable expense of the Borrower at any time during normal business hours.

**6.11 Compliance with Contractual Obligations.** Comply with all Contractual Obligations, except in such instances in which (i) such non-compliance is being contested in good faith or a bona fide dispute exists with respect thereto or (ii) the failure to comply therewith could not be reasonably expected to have a Material Adverse Effect.

**6.12 Use of Proceeds.** Use the proceeds of the Credit Extensions solely in connection with the consummation of the Acquisition.

**6.13 Guaranties.** Cause each Subsidiary which has not previously executed and delivered to the Administrative Agent a Guarantee and other related collateral documents to execute and deliver to the Administrative Agent promptly, and in any event within five (5) Business Days following such Subsidiary's becoming a Subsidiary, (i) a Guarantee and collateral documents in form and substance satisfactory to the Administrative Agent, together with a resolution of its board of directors or other similar governing body authorizing such Guarantee and collateral documents, (ii) a favorable opinion of counsel to such Guarantor in form and substance satisfactory to the Administrative Agent regarding the valid existence and good standing of such Subsidiary in its jurisdiction of incorporation and its good standing in any jurisdiction in which it is qualified to do business, and to the effect that the execution and delivery of the Guarantee and any collateral documents by such Subsidiary has been duly authorized by all necessary corporate or equivalent action and that the Guarantee and such collateral documents constitute the valid, legal and binding obligation of such Subsidiary, and

that such collateral documents create a perfected lien on such Collateral, in each case, subject to related normal and customary qualifications and exceptions, which opinion may be rendered by counsel who is an employee of the Borrower and (iii) documentation of the type described in clauses (iv), (v), and (viii) of Section 4.01(a). Notwithstanding anything to the contrary and for the avoidance of doubt, any Subsidiary designated as an Unrestricted Subsidiary pursuant to Section 6.14 hereto shall not be subject to the requirements of this Section 6.13.

**6.14 Unrestricted Subsidiaries.** Following the Closing Date and subject to the restrictions and limitations of this Agreement and the Existing Revolver, if the Borrower, or a Subsidiary or an Unrestricted Subsidiary of the Borrower, is permitted to create, purchase or otherwise acquire an entity that would otherwise qualify as a Subsidiary of the Borrower, the Borrower shall be permitted to designate such Subsidiary as an Unrestricted Subsidiary by providing the Administrative Agent with written notice 10 Business Days prior to such designation; provided that notwithstanding anything in this Agreement to the contrary, no Subsidiary of the Borrower in existence as of the Closing Date shall be designated as an Unrestricted Subsidiary without the prior written consent of the Administrative Agent and the Required Lenders acting in their sole and absolute discretion.

## ARTICLE VII. NEGATIVE COVENANTS

So long as any Loan or other Obligation shall remain unpaid or any other Secured Obligation shall remain outstanding, the Borrower shall not, nor shall it permit any Loan Party or Subsidiary to, directly or indirectly:

**7.01 Liens.** The Borrower will not, and will not permit any Subsidiaries in which it directly or indirectly owns more than 50% of the total voting or equity interests and will not permit (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary) any of its other Subsidiaries to, directly or indirectly, create, Incur or suffer to exist any Lien (other than Permitted Liens) on any asset or Property of the Borrower or such Subsidiary, or any income or profits therefrom, or assign or convey any right to receive income therefrom, that secures any Obligations of the Borrower or any of its Subsidiaries or any other Person. The Borrower will not permit any Unrestricted Subsidiary to directly or indirectly, create, Incur or suffer to exist any Lien (other than Permitted Liens) on any asset or Property of the Borrower or any Subsidiary, or any income or profits therefrom, or assign or convey any right to receive income therefrom; provided, that, notwithstanding the foregoing, the Borrower will not, and will not permit any of its Subsidiaries or Unrestricted Subsidiaries in which it directly or indirectly owns more than 50% of the total voting or equity interests and will not permit (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary) any of its other Subsidiaries or Unrestricted Subsidiaries to, directly or indirectly, create, Incur or suffer to exist any Lien on any asset or Property of Onondaga Cogeneration Limited Partnership except for Permitted Liens and Liens reasonably Incurred by Onondaga Cogeneration Limited Partnership in the ordinary course of its business and in accordance with its commercially reasonable past business practices and otherwise permitted under this Agreement.

**7.02 Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock.**

(a) The Borrower will not, and will not permit any Subsidiary or Unrestricted Subsidiary in which it directly or indirectly owns more than 50% of the total voting or equity interests, and shall not permit (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary or Unrestricted Subsidiary) any of its other Subsidiaries or Unrestricted Subsidiaries to, directly or indirectly, incur or suffer to exist any Indebtedness or issue any shares of Disqualified Stock or Preferred Stock;

(b) The limitations set out in Section 7.02(a) will not apply to any Indebtedness permitted pursuant to Section 7.02 of the Existing Revolver as of the Closing Date nor to any of the following, provided, that at the time any such Indebtedness is incurred or any Disqualified Stock or Preferred Stock is issued, the Cash Flow Coverage Ratio of the Parent Guarantor for the previous four-quarter period is 1.5 to 1.0 on a *pro forma* basis, after giving effect to the incurrence of such Indebtedness or the issuance of such Disqualified Stock or Preferred Stock and the application of the proceeds therefrom:

(i) the incurrence by the Borrower and its Subsidiaries of Indebtedness represented by this Agreement, the Guarantees and the other Loan Documents;

(ii) Indebtedness, Disqualified Stock or Preferred Stock of the Borrower or any Subsidiary or Unrestricted Subsidiary existing on the Closing Date as detailed in Schedule 7.02(b)(ii);

(iii) Indebtedness to be issued in the form of Additional Securities forming part of the IPSs, issued by the Parent Guarantor (A) to finance the redemption by Borrower of any Existing Investor Interests (as defined in the Subordinated Note Indenture) and related issuance of Class A preferred membership interests of Borrower in connection with such issuance or (B) used to prepay the Indebtedness represented by the this Agreement, the Notes, the Guarantees and the other Loan Documents;

(iv) Indebtedness arising from agreements of the Borrower or a Subsidiary or Unrestricted Subsidiary of the Borrower providing for indemnification, adjustment of purchase price or similar obligations, in each case, incurred in connection with the acquisition or disposition of any business, assets or a Subsidiary or Unrestricted Subsidiary of the Borrower in accordance with the terms of this Agreement, other than guarantees of Indebtedness incurred by any Person acquiring all or any portion of such business, assets or Subsidiary for the purpose of financing such acquisition;

(v) Indebtedness of the Borrower to the Issuer or a Subsidiary of the Borrower; provided that any such Indebtedness is expressly subordinated in right of payment to the Obligations and the other Secured Obligations, in form and substance reasonably satisfactory to the Administrative Agent and the Required Lenders; provided, further that any subsequent issuance or transfer of any Capital Stock or any other event which results in any such Subsidiary ceasing to be a Subsidiary of the Borrower or any

other subsequent transfer of any such Indebtedness (except to the Borrower or another Subsidiary of the Borrower) will be deemed, in each case, to be an Incurrence of such Indebtedness;

(vi) Indebtedness of a Subsidiary of the Borrower to the Issuer, the Borrower or another Subsidiary of the Borrower; provided that (x) any such Indebtedness is made pursuant to an intercompany note subordinated in right of payment to the Obligations and the other Secured Obligations, in form and substance reasonably satisfactory to the Administrative Agent and the Required Lenders and (y) if a Guarantor Incurs such Indebtedness to a Subsidiary of the Borrower that is not a Guarantor, such Indebtedness is subordinated in form and substance satisfactory to the Administrative Agent and the Required Lenders in right of payment to the Guarantee of such Guarantor; provided, further that any subsequent issuance or transfer of any Capital Stock or any other event which results in any Subsidiary of the Borrower lending such Indebtedness ceasing to be a Subsidiary of the Borrower or any other subsequent transfer of any such Indebtedness (except to the Borrower or another Subsidiary of the Borrower) will be deemed, in each case, to be an Incurrence of such Indebtedness;

(vii) Hedging Obligations that are incurred in the ordinary course of business (1) for the purpose of fixing or hedging interest rate risk with respect to any Indebtedness that is permitted by the terms of this Agreement to be outstanding, (2) for the purpose of fixing or hedging currency exchange rate risk with respect to any currency exchanges or (3) for the purpose of fixing or hedging commodity price risk with respect to any commodity purchases;

(viii) any guarantee by the Borrower or a Subsidiary of the Borrower of other obligations of the Borrower or any of its Subsidiaries so long as the Incurrence of such Indebtedness by the Borrower or such Subsidiary is permitted under the terms of this Agreement; provided that if such Indebtedness is by its express terms subordinated in right of payment to the Obligations and the other Secured Obligations or the Guarantee of such Subsidiary, as applicable, any such guarantee of such Subsidiary with respect to such Indebtedness shall be subordinated in right of payment to such Subsidiary's Guarantee with respect to the Obligations and the other Secured Obligations substantially to the same extent as such Indebtedness is subordinated to the Securities or the Guarantee of such Subsidiary, as applicable;

(ix) the Incurrence by the Borrower or any of its Subsidiaries or Unrestricted Subsidiaries of Indebtedness which serves to refund or refinance any Indebtedness Incurred as permitted under this Section 7.02 and clauses (i), (ii), (v) and (vi), above, and (xiii) below, or any Indebtedness issued to so refund or refinance such Indebtedness (subject to the following proviso, "**Refinancing Indebtedness**") prior to its respective maturity; provided, however, that such Refinancing Indebtedness:

(A) has a Weighted Average Life to Maturity at the time such Refinancing Indebtedness is Incurred which is not less than the remaining Weighted Average Life to Maturity of the Indebtedness being refunded or refinanced;

(B) has a Stated Maturity which is no earlier than the Stated Maturity of the Indebtedness being refunded or refinanced;

(C) to the extent such Refinancing Indebtedness refinances Indebtedness *pari passu* with the Obligations and the other Secured Obligations of the Subsidiaries that are Guarantors, is *pari passu* with or subordinated to the Obligations and the other Secured Obligations of such Subsidiaries under such guarantee, as applicable; and

(D) is Incurred in an aggregate amount (or if issued with original issue discount, an aggregate issue price) that is equal to or less than the aggregate principal amount (or if issued with original issue discount, the aggregate accreted value) then outstanding; of the Indebtedness being refinanced plus premium and fees Incurred in connection with such refinancing;

(x) Indebtedness of Persons that are acquired by the Borrower or any of its Subsidiaries or merged into a Subsidiary in accordance with the terms of this Agreement; provided, however, that such Indebtedness is not Incurred in contemplation of such acquisition or to provide all or a portion of the funds or credit support required to consummate such acquisition or merger; provided, further, however, that the Cash Flow Coverage Ratio of the Parent Guarantor for the previous four-quarter period is 1.5 to 1.0 on a *pro forma* basis, after giving effect to such acquisition and the Incurrence of such Indebtedness, would be greater than the actual Cash Flow Coverage Ratio for such period without giving effect to such acquisition;

(xi) the Incurrence by the Borrower or any of its Subsidiaries or Unrestricted Subsidiaries of Indebtedness which serves to finance in whole or in part the making of capital improvements required to maintain compliance with applicable Laws or Project Documents, provided, however, that the principal amount of all such Indebtedness does not exceed an aggregate of U.S.\$20,000,000 and an independent engineer confirms in writing to the Administrative Agent that such capital improvements are required to maintain compliance with applicable Laws or Project Documents;

(xii) the Incurrence by the Borrower or any of its Subsidiaries or Unrestricted Subsidiaries of Indebtedness in connection with performance, surety or similar bonds, letters of credit or performance guarantees or other similar obligations in the ordinary course of business, provided, however, the principal amount of all such Indebtedness does not exceed an aggregate of U.S.\$15,000,000; and

(xiii) (A) the Incurrence of Indebtedness by any Subsidiary that is (1) a Subsidiary on the Closing Date and (2) as of the Closing Date does not have any outstanding obligations with respect to any material Indebtedness; provided, however that (X) any Indebtedness Incurred by such Subsidiary shall be on commercially reasonable terms and (Y) prior to Incurring such Indebtedness, such Subsidiary shall have received the written consent of the Administrative Agent, such consent not to be unreasonably withheld.

(c) The Project Level Subsidiaries and Unrestricted Subsidiaries may incur Indebtedness and issue Disqualified Stock or Preferred Stock as follows; provided that at the time any such Indebtedness is Incurred or any such Disqualified Stock or Preferred Stock is issued, the Cash Flow Coverage Ratio of the Parent Guarantor for the previous four-quarter period is 1.5 to 1.0 on a *pro forma* basis, after giving effect to the Incurrence of such Indebtedness or the issuance of such Disqualified Stock or Preferred Stock and the application of the proceeds therefrom;

(i) Indebtedness of any Unrestricted Subsidiary or the issuance of any shares of Disqualified Stock or Preferred Stock by an Unrestricted Subsidiary; provided, that neither (A) such Indebtedness or the Incurrence thereof, nor (B) the issuance of such shares of Disqualified Stock or Preferred Stock, shall (1) encumber, restrict or in any other way affect or provide recourse to or against any asset or Property of the Borrower or any Subsidiary, or any income or profits therefrom (other than with respect to Liens on Property directly owned by such Unrestricted Subsidiary), or (2) assign or convey any right to receive income therefrom (other than with respect to Liens on Property directly owned by such Unrestricted Subsidiary).

(ii) Indebtedness of any Project Level Subsidiary; provided, that (X) such Indebtedness is non-recourse to the Borrower and non-recourse to any Project Holding Entity and (Y) such Indebtedness or the Incurrence thereof, shall not encumber, restrict or in any other way affect any asset or Property of the Borrower or any Subsidiary, or any income or profits therefrom, or assign or convey any right to receive income therefrom;

provided, that notwithstanding anything to the contrary in this Section 7.02, the Borrower will not, and will not permit any of its Subsidiaries or Unrestricted Subsidiaries in which it directly or indirectly owns more than 50% of the total voting or equity interests and will not permit (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary or Unrestricted Subsidiary) any of its other Subsidiaries or Unrestricted Subsidiaries to, directly or indirectly, Incur or suffer to exist any Indebtedness of or by Onondaga Cogeneration Limited Partnership or issue any shares of Disqualified Stock or Preferred Stock with respect to Onondaga Cogeneration Limited Partnership, except for Indebtedness Incurred with respect to the Onondaga Swap and Indebtedness reasonably Incurred by Onondaga Cogeneration Limited Partnership in the ordinary course of its business and in accordance with its commercially reasonable past business practices and otherwise permitted under this Agreement.

For purposes of determining compliance with this Section 7.02, in the event that an item of Indebtedness meets the criteria of more than one of the categories of permitted Indebtedness described in clauses above or is entitled to be Incurred pursuant to Section 7.02(a), the Borrower will, in its sole discretion, classify or reclassify such item of Indebtedness in any manner that complies with this covenant and such item of Indebtedness will be treated as having been Incurred pursuant to only one of such clauses of Section 7.02. Accrual of interest and the accretion of accreted value will not be deemed to be an Incurrence of Indebtedness for purposes of this Section.

### **7.03 Limitation on Restricted Payments.**

(a) The Borrower will not, and will not permit any Subsidiaries in which it directly or indirectly owns more than 50% of the total voting or equity interest, and shall not permit (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary) any of its other Subsidiaries, to directly or indirectly:

(i) declare or pay any dividend or make any distribution on account of the Borrower's or any of its Subsidiaries' Equity Interests, including any payment made in connection with any merger or consolidation involving the Borrower (other than (A) dividends or distributions by the Borrower payable solely in Equity Interests (other than Disqualified Stock) of the Borrower or (B) dividends or distributions by a Subsidiary so long as, in the case of any dividend or distribution payable on or in respect of any class or series of securities issued by a Subsidiary other than a Wholly-Owned Subsidiary, the Borrower or a Subsidiary receives at least its *pro rata* share of such dividend or distribution in accordance with the terms of such Equity Interests);

(ii) purchase, redeem or otherwise acquire or retire for value any Equity Interests of the Borrower or any Subsidiary other than repurchases of Existing Investor Interests (as defined in the Subordinated Note Indenture) by the Borrower pursuant to the exercise by the Existing Investors (as defined in the Subordinated Note Indenture) of the Liquidity Right (as defined in the Subordinated Note Indenture) to the extent that such repurchase is funded through the issuance of equity securities by the Borrower;

(iii) make a Restricted Investment;

(all such payments and other actions set forth in clauses (i), (ii) and (iii) above being collectively referred to as "**Restricted Payments**");

unless, at the time of such Restricted Payment:

(A) no Default or Event of Default will have occurred and be continuing or would occur as a consequence thereof;

(B) the Cash Flow Coverage Ratio of the Parent Guarantor for the previous four-quarter period is 1.5 to 1.0 on a *pro forma* basis, after giving effect to the making of such Restricted Payment; and

(C) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Borrower and its Subsidiaries after the Closing Date (including Restricted Payments permitted by clauses (i), (iii) and (v) of Section 7.03(b), but not including all other Restricted Payments permitted by Section 7.03(b)), is less than the sum of, without duplication:

(1) 100% of the Borrower's Cash Flow less Interest Expense and any required principal repayments on outstanding Indebtedness of the Borrower for the period (taken as one accounting period) from the first date of the fiscal quarter in which the Closing Date occurs to the end of the

Borrower's most recently-ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment, plus

- (2) 100% of the aggregate net proceeds, including cash and the Fair Market Value (as determined below) of Property other than cash, received by the Borrower after the Closing Date from the issue or sale of Equity Interests of the Borrower excluding Refunding Capital Stock (as defined herein), Disqualified Stock and Excluded Contributions, including Equity Interests issued upon conversion of Indebtedness or upon exercise of warrants or options (other than an issuance or sale to a Subsidiary or Unrestricted Subsidiary of the Borrower), plus
- (3) 100% of the aggregate amount of contributions to the capital of the Borrower received in cash and the Fair Market Value (as determined below) of Property other than cash received by the Borrower as a contribution to capital since the Closing Date excluding Refunding Capital Stock (as defined herein), Disqualified Stock and Excluded Contributions, plus
- (4) 100% of the aggregate amount received in cash and the Fair Market Value (as determined below) of Property other than cash received since the Closing Date from (X) the sale or other disposition (other than to the Borrower or a Subsidiary or Unrestricted Subsidiary of the Borrower) of Restricted Investments made by the Borrower and its Subsidiaries or Unrestricted Subsidiaries and from repurchases and redemptions of such Restricted Investments from the Borrower and its Subsidiaries or Unrestricted Subsidiaries by any Person (other than the Borrower or any of its Subsidiaries or Unrestricted Subsidiaries) and from repayments of loans or advances which constituted Restricted Investments, and/or (Y) the sale (other than to the Borrower or a Subsidiary or Unrestricted Subsidiary) of the Capital Stock of a Subsidiary or Unrestricted Subsidiary.

The Fair Market Value of Property other than cash covered by clauses (2), (3) and (4) above will be determined in good faith by the Borrower and (X) in the case of Property with a Fair Market Value in excess of U.S.\$2,500,000, shall be set forth in an Officers' Certificate or (Y) in the case of Property with a Fair Market Value in excess of U.S.\$10,000,000, shall be set forth in a resolution approved by at least a majority of the board of directors or other similar governing body of the Borrower.

(b) The provisions of Section 7.03(a) shall not prohibit:

(i) the payment of any dividend or distribution within 60 days after the date of declaration thereof, if at the date of declaration such payment would have been permitted under the provisions of this Agreement;

(ii) (A) the repurchase, retirement or other acquisition of any Equity Interests ("**Retired Capital Stock**") or Subordinated Indebtedness of the Borrower in exchange for, or out of the proceeds of the substantially concurrent sale of, Equity Interests of the Borrower or contributions to the equity capital of the Borrower (other than any Disqualified Stock or any Equity Interests sold to a Subsidiary or Unrestricted Subsidiary of the Borrower or to an employee stock ownership plan or any trust established by the Borrower or any of its Subsidiaries or Unrestricted Subsidiaries) (collectively, including any such contributions, "**Refunding Capital Stock**") and (B) the declaration and payment of accrued dividends on the Retired Capital Stock out of the proceeds of the substantially concurrent sale (other than to a Subsidiary or Unrestricted Subsidiary of the Borrower or to an employee stock ownership plan or any trust established by the Borrower or any of its Subsidiaries or Unrestricted Subsidiaries) of Refunding Capital Stock;

(iii) the declaration and payment of dividends or distributions to holders of any class or series of Disqualified Stock of the Borrower or any of its Subsidiaries or Unrestricted Subsidiaries issued or incurred in accordance with Section 7.02(b) hereof;

(iv) the declaration and payment of dividends on the Class A member interests or Class B member interests of the Borrower in accordance with the terms of such member interests and this Agreement;

(v) the payment of dividends on the Common Shares of the Borrower up to an aggregate amount in any fiscal quarter not to exceed the Quarterly Base Dividend Level, provided that the Cash Flow Coverage Ratio of the Parent Guarantor is at least 1:25 to 1.0;

(vi) other Restricted Payments in an aggregate amount not to exceed U.S.\$5,000,000 from the Closing Date;

(vii) repurchases of Equity Interests deemed to occur upon exercise of stock options if such Equity Interests represent a portion of the exercise price of such options; and

(viii) the declaration and payment of dividends or distributions or other Restricted Payments made by an Unrestricted Subsidiary;

(ix) the making of any Restricted Payment otherwise permitted pursuant to Section 7.03 of the Existing Revolver as of the Closing Date;

provided, that at the time of and after giving effect to, any Restricted Payment permitted by clauses (i), (iii), (v), (vi), (vii) and (viii), no Default or Event of Default shall have occurred and be continuing or would occur as a consequence thereof; provided, further, that with respect to clause (viii), unless the Cash Flow Coverage Ratio of the Parent Guarantor for the previous four-quarter period is at least 1.25 to 1.0 on a *pro forma* basis, after giving effect to the making of such Restricted Payment (X) no Unrestricted Subsidiary shall be permitted to declare or pay dividends or distributions except for dividends and distributions made to such Unrestricted Subsidiary's immediate parent entity which entity is a Subsidiary of the Borrower and (Y) no Unrestricted Subsidiary shall be permitted to make any Restricted Investments; provided, further, that unless the Cash Flow Coverage Ratio of the Parent Guarantor for the previous four-quarter period is at least 1.25 to 1.0 on a *pro forma* basis after giving effect to the making of such Restricted Payment, any such Restricted Payment may be made only out of, and to the extent of funds in, the US Levelization Reserve Account (as defined in the Depositary Agreement) or the Canadian Levelization Reserve Account (as defined in the Depositary Agreement), and in accordance with the terms of the Depositary Agreement.

#### **7.04 Dividend and Other Payment Restrictions Affecting Subsidiaries.**

The Borrower will not, and will not permit any Subsidiary or Unrestricted Subsidiary in which it directly or indirectly owns more than 50% of the total voting or equity interests, and will not permit (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary) any of its other Subsidiaries or Unrestricted Subsidiaries, to directly or indirectly, create or otherwise cause or suffer to exist or become effective any consensual encumbrance or consensual restriction on the ability of any Subsidiary to:

- (a) (i) pay dividends or make any other distributions to the Borrower or any of its Subsidiaries (1) on its Capital Stock or (2) with respect to any other interest or participation in, or measured by, its profits, or (ii) pay any Indebtedness owed to the Borrower or any of its Subsidiaries;
- (b) make loans or advances to the Borrower or any of its Subsidiaries; or
- (c) sell, lease or transfer any of its properties or assets to the Borrower or any of its Subsidiaries;

except in each case for such encumbrances or restrictions existing under or by reason of:

- (A) contractual encumbrances or restrictions in effect on the Closing Date, including pursuant to this Agreement;
- (B) the Subordinated Note Indenture and the Existing Revolver;
- (C) applicable law or any applicable rule, regulation or order;

(D) any agreement or other instrument relating to Indebtedness of a Person acquired by the Borrower or any Subsidiary or Unrestricted Subsidiary which was in existence at the time of such acquisition (but not created in contemplation thereof or to provide all or any portion of the funds or credit support utilized to consummate such acquisition), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person, or the Property or assets of the Person, so acquired;

(E) any restriction with respect to a Subsidiary imposed pursuant to an agreement entered into for the sale or disposition of all or substantially all the Capital Stock or assets of such Subsidiary pending the closing of such sale or disposition;

(F) Secured Indebtedness or Liens otherwise permitted to be Incurred pursuant to Sections 7.01 and 7.02 hereof that limit the right of the debtor to dispose of the assets securing such Indebtedness;

(G) restrictions on cash or other deposits or net worth imposed by customers under Contracts entered into in the ordinary course of business that impose restrictions of the type described in Section 7.04(c) herein;

(H) customary provisions in joint venture agreements, limited partnership agreements and other similar agreements entered into in the ordinary course of business;

(I) customary provisions contained in leases and other similar agreements entered into in the ordinary course of business; or

(J) any encumbrances or restrictions of the type referred to in clauses (a), (b) and (c) above imposed by any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of the contracts, instruments or obligations referred to in clauses (A) through (I) above; provided that such amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings are, in the good faith judgment of the board of directors or other similar governing body of the Borrower, no more restrictive with respect to such dividend and other payment restrictions than those contained in the dividend or other payment restrictions prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing.

#### **7.05 Asset Sales.**

(a) The Borrower will not, and will not permit any Subsidiary or Unrestricted Subsidiary in which it owns more than 50% of the total voting or equity interests, and will not permit (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary or Unrestricted Subsidiary) any of its other Subsidiaries or Unrestricted Subsidiaries to, cause or make an Asset Sale, unless the Borrower or

its Subsidiaries or Unrestricted Subsidiary, as the case may be, receives consideration at the time of such Asset Sale at least equal to the Fair Market Value (as determined in good faith by the Borrower) of the assets sold or otherwise disposed of.

(b) The Borrower shall, at its option, apply the Net Proceeds of any Asset Sales permitted under Section 7.05(a) within 150 days after the Borrower's or any Subsidiary's receipt of the Net Proceeds of any such Asset Sale:

(A) to permanently reduce the Obligations of the Borrower under the this Agreement pursuant to Section 2.06(b)(i); and/or

(B) to make an investment in any one or more businesses, capital expenditures or acquisitions of other assets in each case used or useful in a Similar Business; provided that any such investment is made in or for the direct benefit of a Subsidiary; and/or

(C) to make an investment in properties or assets that replace the properties and assets that are the subject of such Asset Sale; provided that any such investment is made in or for the direct benefit of a Subsidiary.

provided, that if the Borrower does not apply the Net Proceeds of such Asset Sale in accordance with this Section 7.05(b) within 150 days, the Borrower shall be deemed to have elected to apply the Net Proceeds pursuant to Section 7.05(b)(A).

pending the final application of any Net Proceeds in accordance with Sections 7.05(b), the Borrower or such Subsidiary holding such Net Proceeds may temporarily reduce Indebtedness hereunder or otherwise invest such Net Proceeds in Cash Equivalents or Investment Grade Securities.

provided, that notwithstanding the foregoing Sections 7.05(a) and 7.05(b), the Borrower will not, and will not permit any of its Subsidiaries or Unrestricted Subsidiaries in which it directly or indirectly owns more than 50% of the total voting or equity interests and will not permit (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary or Unrestricted Subsidiary) any of its other Subsidiaries or Unrestricted Subsidiaries to, sell, transfer, lease or otherwise dispose of any of the Property of Onondaga Cogeneration Limited Partnership to any Person other than any reasonable sales, transfers, leases or other dispositions of any Property by Onondaga Cogeneration Limited Partnership in the ordinary course of its business and in accordance with its commercially reasonable past business practices and otherwise permitted under this Agreement.

#### **7.06 Transactions with Affiliates.**

(a) The Borrower will not, and will not permit any Subsidiaries in which it owns more than 50% of the total voting or equity interests and will not permit (to the extent that the Borrower has any direct or indirect contractual or other approval rights over the actions of such Subsidiary) any of its other Subsidiaries, to directly or indirectly, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any Property

or assets from, or enter into or make or amend any transaction or series of transactions, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Borrower (each of the foregoing, an “Affiliate Transaction”) unless:

(i) such Affiliate Transaction is on terms that are not materially less favourable to the Borrower or the relevant Subsidiary than those that could have been obtained in a comparable transaction by the Borrower or such Subsidiary with an unrelated Person;

(ii) with respect to any Affiliate Transaction with an Unrestricted Subsidiary or any other Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of U.S.\$5 million but less than or equal to U.S.\$10 million, the Borrower delivers to the Administrative Agent a resolution adopted by the majority of the board of directors or other similar governing body of the Borrower, approving such Affiliate Transaction and an Officers’ Certificate certifying that such Affiliate Transaction complies with clause (i) above; and

(iii) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of U.S.\$10 million, the Borrower delivers to the Administrative Agent a resolution adopted by the majority of the board of directors or other similar governing body of the Borrower, approving such Affiliate Transaction and a letter from an independent financial advisor of recognized standing stating that such transaction is fair to the Borrower or such Subsidiary from a financial point of view or meets the requirement of clause (i) above.

(b) The provisions of this Section 7.06 shall not apply to the following:

(i) Permitted Investments and Restricted Payments permitted by Section 7.04;

(ii) the payment of reasonable and customary fees paid to, and indemnity provided on behalf of, officers, directors, employees or consultants of the Borrower, or any Subsidiary or the Manager including, for greater certainty, any fees payable under the Management Agreement (as defined in the Subordinated Note Indenture);

(iii) an Affiliate Transaction between one or more Unrestricted Subsidiaries; provided that for the avoidance of doubt, any Affiliate Transaction involving a Subsidiary and an Unrestricted Subsidiary shall be subject to the provisions of Section 7.06, unless otherwise excluded pursuant to a provision of this clause (b) other than this Section 7.06(b)(iii);

(iv) **Intentionally Blank;**

(v) **Intentionally Blank;**

(vi) any agreement in effect as of the Closing Date or any amendment thereto (so long as any such amendment is not disadvantageous to the Lenders in any material respect) or any transaction contemplated thereby; and

(vii) the existence of, or the performance by the Borrower or any Subsidiary or Unrestricted Subsidiary of the Borrower of its obligations under the terms of, any shareholders agreement (including any registration rights agreement or purchase agreement related thereto) to which it is a party as of the Closing Date and any similar agreements (including any operating agreements or limited partnership agreements) which it may enter into thereafter; provided, however, that the existence of, or the performance by the Borrower or any of its Subsidiaries of its obligations under any future amendment to any such existing agreement or under any similar agreement entered into after the Closing Date shall only be permitted by this clause (vii) to the extent that the terms of any such amendment or new agreement are not otherwise disadvantageous to the Lenders in any material respect.

#### **7.07 Merger, Consolidation or Sale of All or Substantially All Assets.**

(a) The Borrower will not consolidate or merge with or into or wind up into (whether or not the Borrower is the surviving corporation) or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets in one or more related transactions, to any Person unless:

(i) the Borrower is the surviving corporation or the Person formed by or surviving any such consolidation or merger (if other than the Borrower) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation, partnership or limited liability company organized or existing under the laws of the United States (the Borrower or such Person, as the case may be, being herein called the "**Successor Borrower**")

(ii) the Successor Borrower (if other than the Borrower) expressly assumes all the obligations of the Borrower under this Agreement pursuant to a such documents or instruments in form reasonably satisfactory to the Administrative Agent;

(iii) all of the Guarantees of the Obligations and the other Secured Obligations, and related security, remain in full force and effect or replacement guarantees and security reasonably satisfactory to the Administrative Agent are provided;

(iv) immediately after giving effect to such transaction (and treating any Indebtedness which becomes an obligation of the Successor Borrower or any of its Subsidiaries as a result of such transaction as having been Incurred by the Successor Borrower or such Subsidiary at the time of such transaction) no Default or Event of Default shall have occurred and be continuing;

(v) Intentionally Blank;

(vi) each party to the Guarantees, unless they are the other party to the transactions described above, will have by supplemental Security Documents and guarantees confirmed that such securities and guarantees will apply to such Person's obligations under the Guarantees (or, such parties will have entered into guarantees in form and substance substantially the same as the Guarantees); and

(vii) the Borrower will have delivered to the Administrative Agent an Officers' Certificate and, following a request from the Administrative Agent, an opinion of counsel stating that such consolidation, merger or transfer and such supplemental guarantees (if any) and supplemental Security Documents comply with this Agreement and applicable requirements of Law.

The Successor Borrower shall succeed to, and be substituted for, the Borrower under this Agreement and such Security Documents. Notwithstanding the foregoing Section 7.07(a)(iii) any Subsidiary or Unrestricted Subsidiary of the Borrower may consolidate with, merge into or transfer all or part of its properties and assets to the Borrower or to another Subsidiary of the Borrower; provided, however that if an Unrestricted Subsidiary merges, transfers or otherwise consolidates all or part of its properties with or to the Borrower or any Subsidiary of the Borrower, such Unrestricted Subsidiary shall cease to be designated as an Unrestricted Subsidiary.

(b) The Borrower shall not permit any Subsidiary to consolidate or merge with or into or wind up into (whether or not such Subsidiary is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets in one or more related transactions to, any Person (including without limitation an Unrestricted Subsidiary) unless:

(i) such Subsidiary is the surviving corporation or the Person formed by or surviving any such consolidation or merger (if other than such Subsidiary) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation, partnership or limited liability company organized or existing under the laws of any state of the United States (such Subsidiary, being herein called the "Successor Guarantor");

(ii) the Successor Guarantor (if other than such Subsidiary) expressly assumes all the obligations of such Subsidiary under this Agreement and such Guarantor's Guarantee and related security pursuant to a supplemental Security Documents and other documents or instruments in form reasonably satisfactory to the Administrative Agent;

(iii) immediately after giving effect to such transaction (and treating any Indebtedness which becomes an obligation of the Successor Guarantor or any of its Subsidiaries as a result of such transaction as having been Incurred by the Successor Guarantor or such Subsidiary of the Successor Guarantor at the time of such transaction) no Default or Event of Default shall have occurred and be continuing; and

(iv) the Subsidiary shall have delivered or caused to be delivered to the Administrative Agent an Officers' Certificate and an following a request from the Administrative Agent, an opinion of counsel, each stating that such consolidation, merger or transfer and such supplemental Security Documents comply with this Agreement and applicable requirements of Law.

The Successor Guarantor shall succeed to, and be substituted for, such Guarantor under such Guarantor's Guarantee and Security Documents (if any).

**7.08 ERISA.** Except where no Material Adverse Effect could reasonably be expected to occur, the Borrower will not, and will not cause or permit any other Loan Party to, permit any of the events or circumstances described in Section 5.12 to exist or occur.

**7.09 Change in Nature of Business or Project Documents.** Engage in any material line of business substantially different from any Similar Business or those lines of business conducted by any of the Borrower or its Subsidiaries on the date hereof or, if substantially different therefrom, not permitted by the Borrower's Organizational Documents. Consent or agree to any material amendment or modification to any Project Document if such material amendment or modification could reasonably be expected to have a Material Adverse Effect.

**7.10 Use of Proceeds.** Use the proceeds of any Credit Extension, whether directly or indirectly, and whether immediately, incidentally or ultimately, to purchase or carry margin stock (within the meaning of Regulation U of the Board) or to extend credit to others for the purpose of purchasing or carrying margin stock or to refund indebtedness originally incurred for such purpose.

## **ARTICLE VIII. EVENTS OF DEFAULT AND REMEDIES**

**8.01 Events of Default.** Any of the following shall constitute an Event of Default:

(a) Non-Payment. The Borrower fails to pay (i) when and as required to be paid herein, any amount of principal of any Loan, or (ii) within five Business Days after the same becomes due, any interest on any Loan, or any facility, utilization or other fee due hereunder, or any other amount payable hereunder or under any other Loan Document; or

(b) Specific Covenants. The Borrower shall fail to comply with perform or observe any term, covenant or agreement contained in any of Section 6.03(a) or 6.12 or Article VII; or

(c) Other Defaults. Any Loan Party fails or refuses to perform or observe any other covenant or agreement (not specified in subsection (a) or (b) above) contained in any Loan Document on its part to be performed or observed, and such failure or refusal continues for 30 days after the earlier of (i) such Loan Party's obtaining knowledge of such failure or refusal and (ii) such Loan Party's being notified of such failure or refusal by the Administrative Agent or any Lender; or

(d) Representations and Warranties. Any representation or warranty made or deemed made by the Borrower or any other Loan Party herein, in any other Loan Document, or in any document delivered by it in connection herewith or therewith proves to have been incorrect in any material respect when made or deemed made; or

(e) Cross-Default. (i) The Borrower, any Guarantor, or any Subsidiary (A) fails to make any payment when due (whether by scheduled maturity, required prepayment, acceleration, demand, or otherwise), inclusive of any grace, extension, forbearance or similar period, in respect of any Indebtedness having an aggregate principal amount (including undrawn or available amounts and including amounts owing to all creditors under any combined or

syndicated credit arrangement) of more than U.S.\$5,000,000, or (B) fails to observe or perform any other agreement or condition relating to any such Indebtedness or contained in any instrument or agreement evidencing, securing or relating thereto, or any other event occurs, for a period beyond the applicable grace, cure, extension, forbearance or other similar period the effect of which default or other event is to cause, or to permit the holder or holders of such Indebtedness (or the beneficiary or beneficiaries of any applicable Guarantee Obligation (or a trustee or agent on behalf of such holder or holders or beneficiary or beneficiaries) to cause, with the giving of notice if required, such Indebtedness to be demanded or to become due or to be repurchased or redeemed (automatically or otherwise) prior to its stated maturity, or such Guarantee Obligation to become payable or cash collateral of more than U.S.\$5,000,000 in respect thereof to be demanded; or (ii) there occurs under any Swap Contract an Early Termination Date (as defined in such Swap Contract) resulting from (A) any event of default under such Swap Contract as to which the Borrower, any Guarantor, or any Subsidiary or Unrestricted Subsidiary is the Defaulting Party (as defined in such Swap Contract) or (B) any Termination Event (as so defined) under such Swap Contract as to which the Borrower, any Guarantor, or any Subsidiary or Unrestricted Subsidiary is an Affected Party (as so defined) and, in either event, the Swap Termination Value owed by the Borrower, such Guarantor, or such Subsidiary or Unrestricted Subsidiary as a result thereof is greater than U.S.\$ 5,000,000; or (iii) any Unrestricted Subsidiary (A) fails to make any payment when due (whether by scheduled maturity, required prepayment, acceleration, demand, or otherwise), inclusive of any grace, extension, forbearance or similar period, in respect of any Indebtedness having an aggregate principal amount (including undrawn or available amounts and including amounts owing to all creditors under any combined or syndicated credit arrangement) of more than U.S.\$5,000,000 and such failure results in recourse to the Borrower or any Subsidiary or any of their respective assets; or (B) fails to observe or perform any other agreement or condition relating to any such Indebtedness or contained in any instrument or agreement evidencing, securing or relating thereto, or any other event occurs, for a period beyond the applicable grace, cure, extension, forbearance or other similar period the effect of which default or other event is to cause, or to permit the holder or holders of such Indebtedness to cause, with the giving of notice if required, such Indebtedness to be demanded or to become due or to be repurchased or redeemed (automatically or otherwise) prior to its stated maturity and such failure results in recourse to the Borrower or any Subsidiary or any of their respective assets; or

(f) Insolvency Proceedings, Etc. Any Loan Party institutes or consents to the institution of any proceeding under any Debtor Relief Law with respect to itself, or makes an assignment for the benefit of creditors; or applies for or consents to the appointment of any receiver, trustee, custodian, conservator, liquidator, rehabilitator or similar officer for it or for all or any material part of its Property; or any receiver, trustee, custodian, conservator, liquidator, rehabilitator or similar officer is appointed without the application or consent of such Person and the appointment continues undischarged or unstayed for 60 calendar days; or any proceeding under any Debtor Relief Law relating to any such Person or to all or any part of its Property is instituted without the consent of such Person and continues undismissed or unstayed for 60 calendar days, or an order for relief is entered in any such proceeding; or

(g) Inability to Pay Debts. Any Loan Party becomes unable or admits in writing its inability or fails generally to pay its debts as they become due as provided in Title 11 of the United States Bankruptcy Code; or

(h) Judgments. There is entered against any Loan Party (i) a final judgment or order for the payment of money in an aggregate amount exceeding U.S.\$ 5,000,000 (to the extent not covered by independent third-party insurance as to which the insurer does not dispute coverage and third-party indemnity or similar agreements), and either such Loan Party fails (A) to have discharged, within 60 days after its commencement, any related attachment, sequestration or similar proceeding against its material assets or (B) to pay any money judgment against it within 10 days before the date on which any of its assets may be lawfully sold to satisfy that judgment; or

(i) ERISA. (i) An ERISA Event occurs with respect to a Pension Plan or Multiemployer Plan which has resulted or could reasonably be expected to result in liability of a Loan Party under Title IV of ERISA to the Pension Plan, Multiemployer Plan or the PBGC in an aggregate amount in excess of the Threshold Amount, or (ii) the Borrower or any ERISA Affiliate fails to pay when due, after the expiration of any applicable grace period, any installment payment with respect to its withdrawal liability under Section 4201 of ERISA under a Multiemployer Plan in an aggregate amount in excess of the Threshold Amount; or

(j) Invalidity of Loan Documents. Any Loan Document, at any time after its execution and delivery and for any reason other than the agreement of all the Lenders or satisfaction in full of all the Obligations, ceases to be in full force and effect, or is declared by a court of competent jurisdiction to be null and void, invalid or unenforceable in any respect; or any Loan Party denies that it has any or further liability or obligation under any Loan Document, or purports to revoke, terminate or rescind any Loan Document; or

(k) Change of Control. There occurs any Change of Control; or

(l) Default Under Project Document. The Borrower, any Guarantor or any of their Subsidiaries shall default under or breach any Project Document if such default or breach could have a Material Adverse Effect.

**8.02 Remedies Upon Event of Default.** If any Event of Default occurs and is then continuing, the Administrative Agent shall, at the request of, or may, with the consent of, the Required Lenders,

(a) **Intentionally Blank;**

(b) declare the unpaid principal amount of all outstanding Loans, all interest accrued and unpaid thereon, and all other amounts owing or payable hereunder or under any other Loan Document to be immediately due and payable, without presentment, demand, protest or other notice of any kind, all of which are hereby expressly waived by the Borrower;

(c) **Intentionally Blank; and**

(d) exercise on behalf of itself and the Lenders all rights and remedies available to it and the Lenders under the Loan Documents or applicable law;

provided, however, that upon the occurrence of any event specified in subsection (f) or (g) of Section 8.01 with respect to the Borrower, the unpaid principal amount of all outstanding Loans and all interest and other amounts as aforesaid shall automatically become due and payable without further act of the Administrative Agent or any Lender.

## ARTICLE IX. ADMINISTRATIVE AGENT

### **9.01 Appointment and Authorization of Administrative Agent.**

**9.02 Appointment and Authorization of Administrative Agent.** Each Lender hereby irrevocably (subject to Section 9.09) appoints, designates and authorizes the Administrative Agent to take such action on its behalf under the provisions of this Agreement and each other Loan Document and to exercise such powers and perform such duties as are expressly delegated to it by the terms of this Agreement or any other Loan Document, together with such powers as are reasonably incidental thereto. Notwithstanding any provision to the contrary contained elsewhere herein or in any other Loan Document, the Administrative Agent shall not have any duties or responsibilities, except those expressly set forth herein, nor shall the Administrative Agent have or be deemed to have any fiduciary relationship with any Lender or participant, and no implied covenants, functions, responsibilities, duties, obligations or liabilities shall be read into this Agreement or any other Loan Document or otherwise exist against the Administrative Agent. Without limiting the generality of the foregoing sentence, the use of the term "agent" herein and in the other Loan Documents with reference to the Administrative Agent is not intended to connote any fiduciary or other implied (or express) obligations arising under agency doctrine of any applicable law. Instead, such term is used merely as a matter of market custom, and is intended to create or reflect only an administrative relationship between independent contracting parties.

**9.03 Delegation of Duties.** The Administrative Agent may execute any of its duties under this Agreement or any other Loan Document by or through agents, employees or attorneys-in-fact and shall be entitled to advice of counsel and other consultants or experts concerning all matters pertaining to such duties. The Administrative Agent shall not be responsible for the negligence or misconduct of any agent or attorney-in-fact that it selects in the absence of gross negligence or willful misconduct.

**9.04 Liability of Administrative Agent.** No Agent-Related Person shall (a) be liable for any action taken or omitted to be taken by any of them under or in connection with this Agreement or any other Loan Document or the transactions contemplated hereby (except for its own gross negligence or willful misconduct in connection with its duties expressly set forth herein), or (b) be responsible in any manner to any Lender or participant for any recital, statement, representation or warranty made by any Loan Party or any officer thereof, contained herein or in any other Loan Document, or in any certificate, report, statement or other document referred to or provided for in, or received by the Administrative Agent under or in connection with, this Agreement or any other Loan Document, or the validity, effectiveness, genuineness,

enforceability or sufficiency of this Agreement or any other Loan Document, or for any failure of any Loan Party or any other party to any Loan Document to perform its obligations hereunder or thereunder. No Agent-Related Person shall be under any obligation to any Lender or participant to ascertain or to inquire as to the observance or performance of any of the agreements contained in, or conditions of, this Agreement or any other Loan Document, or to inspect the properties, books or records of any Loan Party or any Affiliate thereof.

#### **9.05 Reliance by Administrative Agent.**

(a) The Administrative Agent shall be entitled to rely, and shall be fully protected in relying, upon any writing, communication, signature, resolution, representation, notice, consent, certificate, affidavit, letter, telegram, facsimile or telex, statement or other document or conversation believed by it to be genuine and correct and to have been signed, sent or made by the proper Person or Persons, and upon advice and statements of legal counsel (including counsel to any Loan Party), independent accountants and other experts selected by the Administrative Agent. The Administrative Agent shall be fully justified in failing or refusing to take any action under any Loan Document unless it shall first receive such advice or concurrence of the Required Lenders as it deems appropriate and, if it so requests, it shall first be indemnified to its satisfaction by the Lenders against any and all liability and expense which may be incurred by it by reason of taking or continuing to take any such action. The Administrative Agent shall in all cases be fully protected in acting, or in refraining from acting, under this Agreement or any other Loan Document in accordance with a request or consent of the Required Lenders or all the Lenders, if required hereunder, and such request and any action taken or failure to act pursuant thereto shall be binding upon all the Lenders and participants. Where this Agreement expressly permits or prohibits an action unless the Required Lenders otherwise determine, the Administrative Agent shall, and in all other instances, the Administrative Agent may, but shall not be required to, initiate any solicitation for the consent or a vote of the Lenders.

(b) For purposes of determining compliance with the conditions specified in Section 4.01, each Lender that has signed this Agreement shall be deemed to have consented to, approved or accepted or to be satisfied with, each document or other matter either sent by the Administrative Agent to such Lender for consent, approval, acceptance or satisfaction, or required thereunder to be consented to or approved by or acceptable or satisfactory to a Lender.

**9.06 Notice of Default.** The Administrative Agent shall not be deemed to have knowledge or notice of the occurrence of any Default or Event of Default, except with respect to defaults in the payment of principal, interest and fees required to be paid to the Administrative Agent for the account of the Lenders, unless the Administrative Agent shall have received written notice from a Lender or the Borrower referring to this Agreement, describing such Default or Event of Default and stating that such notice is a "notice of default." The Administrative Agent will notify the Lenders of its receipt of any such notice. The Administrative Agent shall take such action with respect to such Default or Event of Default as may be directed by the Required Lenders in accordance with Article VIII; provided, however, that unless and until the Administrative Agent has received any such direction, the Administrative Agent may (but shall not be obligated to) take such action, or refrain from taking

such action, with respect to such Default or Event of Default as it shall deem advisable or in the best interest of the Lenders.

**9.07 Credit Decision; Disclosure of Information by Administrative Agent.** Each Lender acknowledges that no Agent-Related Person has made any representation or warranty to it, and that no act by the Administrative Agent hereinafter taken, including any consent to and acceptance of any assignment or review of the affairs of any Loan Party or any Affiliate thereof, shall be deemed to constitute any representation or warranty by any Agent-Related Person to any Lender as to any matter, including whether Agent-Related Persons have disclosed material information in their possession. Each Lender represents to the Administrative Agent that it has, independently and without reliance upon any Agent-Related Person and based on such documents and information as it has deemed appropriate, made its own appraisal of and investigation into the business, prospects, operations, Property, financial and other condition and creditworthiness of the Loan Parties and their respective Subsidiaries and all applicable bank or other regulatory Laws relating to the transactions contemplated hereby, and made its own decision to enter into this Agreement and to extend credit to the Borrower and the other Loan Parties hereunder. Each Lender also represents that it will, independently and without reliance upon any Agent-Related Person and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit analysis, appraisals and decisions in taking or not taking action under this Agreement and the other Loan Documents, and to make such investigations as it deems necessary to inform itself as to the business, prospects, operations, Property, financial and other condition and creditworthiness of the Borrower and the other Loan Parties. Except for notices, reports and other documents expressly required to be furnished to the Lenders by the Administrative Agent herein, the Administrative Agent shall not have any duty or responsibility to provide any Lender with any credit or other information concerning the business, prospects, operations, Property, financial and other condition or creditworthiness of any of the Loan Parties or any of their respective Affiliates which may come into the possession of any Agent-Related Person.

**9.08 Indemnification of Administrative Agent.** Whether or not the transactions contemplated hereby are consummated, the Lenders shall indemnify upon demand each Agent-Related Person (to the extent not reimbursed by or on behalf of any Loan Party and without limiting the obligation of any Loan Party to do so), pro rata, and hold harmless each Agent-Related Person from and against any and all Indemnified Liabilities incurred by it; provided, however, that no Lender shall be liable for the payment to any Agent-Related Person of any portion of such Indemnified Liabilities resulting from any such Person's gross negligence or willful misconduct; provided, however that no action taken in accordance with the directions of the Required Lenders shall be deemed to constitute gross negligence or willful misconduct for purposes of this Section. Without limitation of the foregoing, each Lender shall reimburse the Administrative Agent upon demand for its ratable share of any costs or out-of-pocket expenses (including Attorney Costs) incurred by the Administrative Agent in connection with the preparation, execution, delivery, administration, modification, amendment or enforcement (whether through negotiations, legal proceedings or otherwise) of, or legal advice in respect of rights or responsibilities under, this Agreement, any other Loan Document, or any document contemplated by or referred to herein, to the extent that the Administrative Agent is not reimbursed for such expenses by or on behalf of the Borrower. The undertaking in this Section

shall survive termination of the Commitments, the payment of all Obligations hereunder and the resignation or replacement of the Administrative Agent.

**9.09 Administrative Agent in its Individual Capacity.** Bank of Montreal and its Affiliates may make loans to, issue letters of credit for the account of, accept deposits from, acquire equity interests in and generally engage in any kind of banking, trust, financial advisory, underwriting or other business with each of the Loan Parties and their respective Affiliates as though Bank of Montreal were not the Administrative Agent hereunder and without notice to or consent of the Lenders. The Lenders acknowledge that, pursuant to such activities, Bank of Montreal or its Affiliates may receive information regarding any Loan Party or its Affiliates (including information that may be subject to confidentiality obligations in favor of such Loan Party or such Affiliate) and acknowledge that the Administrative Agent shall be under no obligation to provide such information to them. With respect to its Loans, Bank of Montreal shall have the same rights and powers under this Agreement as any other Lender and may exercise such rights and powers as though it were not the Administrative Agent.

**9.10 Successor Administrative Agent.** The Administrative Agent may resign as Administrative Agent upon 30 days' notice to the Lenders. If the Administrative Agent resigns under this Agreement, the Required Lenders shall appoint from among the Lenders a successor administrative agent for the Lenders which successor administrative agent shall be consented to by the Borrower at all times other than during the existence of an Event of Default (which consent of the Borrower shall not be unreasonably withheld or delayed). If no successor administrative agent is appointed prior to the effective date of the resignation of the Administrative Agent, the Administrative Agent may appoint, after consulting with the Lenders and the Borrower, a successor administrative agent from among the Lenders. Upon the acceptance of its appointment as successor administrative agent hereunder, such successor administrative agent shall succeed to all the rights, powers and duties of the retiring Administrative Agent and the term "Administrative Agent" shall mean such successor administrative agent and the retiring Administrative Agent's appointment, powers and duties as Administrative Agent shall be terminated. After any retiring Administrative Agent's resignation hereunder as Administrative Agent, the provisions of this Article IX and Sections 10.03 and 10.13 shall inure to its benefit as to any actions taken or omitted to be taken by it while it was Administrative Agent under this Agreement. If no successor administrative agent has accepted appointment as Administrative Agent by the date which is 30 days following a retiring Administrative Agent's notice of resignation, the retiring Administrative Agent's resignation shall nevertheless thereupon become effective and the Lenders shall perform all of the duties of the Administrative Agent hereunder until such time, if any, as the Required Lenders appoint a successor agent as provided for above.

**9.11 Other Agents; Arrangers, Etc.** None of the Lenders identified on the facing page or signature pages of this Agreement as a "syndication agent," "documentation agent," "collateral agent," "arranger," "lead arranger" or "book manager" shall have any right, power, obligation, liability, responsibility or duty under this Agreement other than those applicable to all Lenders as such. Without limiting the foregoing, none of the Lenders so identified shall have or be deemed to have any fiduciary relationship with any Lender. Each Lender acknowledges that

it has not relied, and will not rely, on any of the Lenders so identified in deciding to enter into this Agreement or in taking or not taking action hereunder.

## ARTICLE X. MISCELLANEOUS

**10.01 Amendments, Etc.** No amendment or waiver of any provision of this Agreement or any other Loan Document, and no consent to any departure by the Borrower or any other Loan Party therefrom, shall be effective unless in writing signed by the Required Lenders and the Borrower or the applicable Loan Party, as the case may be, and acknowledged by the Administrative Agent, and each such waiver or consent shall be effective only in the specific instance and for the specific purpose for which given; provided, however, that no such amendment, waiver or consent shall, unless in writing and signed by each of the Lenders directly affected thereby and by the Borrower, and acknowledged by the Administrative Agent, do any of the following:

- (a) **Intentionally Blank;**
- (b) postpone any date fixed by this Agreement or any other Loan Document for any payment of principal, interest, fees or other amounts due to the Lenders (or any of them) hereunder or under any other Loan Document;
- (c) reduce the principal of, or the rate of interest specified herein on any Loan, or (subject to clause (iii) of the proviso below) any fees or other amounts payable hereunder or under any other Loan Document;
- (d) change the percentage of the Commitments or of the aggregate unpaid principal amount of the Loans which is required for the Lenders or any of them to take any action hereunder;
- (e) change the Pro Rata Share or Voting Percentage of any Lender;
- (f) amend this Section, or Section 2.14, or any provision herein providing for consent or other action by all the Lenders;
- (g) release any Guarantor from its Guarantee except as expressly permitted pursuant to the terms of any Loan Document; or
- (h) except as expressly provided herein or in the applicable Security Document, release all or any part of the Collateral from the Liens of the Security Documents;

and, provided further, that (i) no amendment, waiver or consent shall, unless in writing and signed by the Administrative Agent in addition to the Required Lenders or all the Lenders, as the case may be, affect the rights or duties of the Administrative Agent under this Agreement or any other Loan Document; and (ii) the Agent/Arranger Fee Letter may be amended, or rights or privileges thereunder waived, in a writing executed only by the parties thereto. Notwithstanding anything to the contrary herein, any Lender that has failed to fund any portion of the Loans

required to be funded by it hereunder shall not have any right to approve or disapprove any amendment, waiver or consent hereunder, except that the Pro Rata Share of such Lender may not be increased without the consent of such Lender.

#### **10.02 Notices and Other Communications; Facsimile Copies.**

(a) General. Unless otherwise expressly provided herein, all notices and other communications provided for hereunder shall be in writing (including by facsimile transmission) and mailed, faxed or delivered, to the address, facsimile number or (subject to subsection (c) below) electronic mail address specified for notices on Schedule 10.02; or, in the case of the Borrower or the Administrative Agent, to such other address as shall be designated by such party in a notice to the other parties, and in the case of any other party, to such other address as shall be designated by such party in a notice to the Borrower and the Administrative Agent. All such notices and other communications shall be deemed to be given or made upon the earlier to occur of (i) actual receipt by the intended recipient and (ii) (A) if delivered by hand or by courier, when signed for by the intended recipient; (B) if delivered by mail, four Business Days after deposit in the mails, postage prepaid; (C) if delivered by facsimile, when sent and receipt has been confirmed by telephone; and (D) if delivered by electronic mail (which form of delivery is subject to the provisions of subsection (c) below), when delivered; provided, however, that notices and other communications to the Administrative Agent pursuant to Article II shall not be effective until actually received by such Person. Any notice or other communication permitted to be given, made or confirmed by telephone hereunder shall be given, made or confirmed by means of a telephone call to the intended recipient at the number specified on Schedule 10.02, it being understood and agreed that a voicemail message shall in no event be effective as a notice, communication or confirmation hereunder.

(b) Effectiveness of Facsimile Documents and Signatures. Loan Documents may be transmitted and/or signed by facsimile. The effectiveness of any such documents and signatures shall, subject to applicable Law, have the same force and effect as manually-signed originals and shall be binding on all Loan Parties, the Administrative Agent and the Lenders. The Administrative Agent may also require that any such documents and signatures be confirmed by a manually-signed original thereof; provided, however, that the failure to request or deliver the same shall not limit the effectiveness of any facsimile document or signature.

(c) Limited Use of Electronic Mail. Electronic mail and internet and intranet websites may be used only to distribute routine communications, such as financial statements and other information, and to distribute Loan Documents for execution by the parties thereto, and may not be used for any other purpose.

(d) Reliance by Administrative Agent and Lenders. The Administrative Agent and the Lenders shall be entitled to rely and act upon any notices (including telephonic Loan Notices if immediately followed by a corresponding Loan Notice in writing) purportedly given by or on behalf of the Borrower even if (i) such notices were not made in a manner specified herein, were incomplete or were not preceded or followed by any other form of notice specified herein, or (ii) the terms thereof, as understood by the recipient, varied from any confirmation thereof. The Borrower shall indemnify each Agent-Related Person and each Lender from all losses, costs,

expenses and liabilities resulting from the reliance by such Person on each notice purportedly given by or on behalf of the Borrower.

**10.03 No Waiver; Cumulative Remedies.** No failure by any Lender or the Administrative Agent to exercise, and no delay by any such Person in exercising, any right, remedy, power or privilege hereunder shall operate as a waiver thereof; nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege. The rights, remedies, powers and privileges herein or therein provided are cumulative and not exclusive of any rights, remedies, powers and privileges provided by law.

**10.04 Attorney Costs, Expenses and Taxes.** The Borrower agrees (a) to pay or reimburse the Administrative Agent for all costs and expenses incurred in connection with the development, preparation, syndication, negotiation and execution of this Agreement and the other Loan Documents and any amendment, waiver, consent or other modification of the provisions hereof and thereof (whether or not the transactions contemplated hereby or thereby are consummated), and the consummation and administration of the transactions contemplated hereby and thereby, including all Attorney Costs, and (b) to pay or reimburse the Administrative Agent and each Lender for all costs and expenses incurred in connection with the enforcement, attempted enforcement, or preservation of any rights or remedies or collection of any amounts due and owing by any Loan Party and not yet paid under this Agreement or the other Loan Documents (including all such costs and expenses incurred during any "workout" or restructuring in respect of the Obligations and during any legal proceeding, including any proceeding under any Debtor Relief Law), including all Attorney Costs. The foregoing costs and expenses shall include all search, filing, recording, title insurance and appraisal charges and fees and taxes related thereto, and other out-of-pocket expenses incurred by the Administrative Agent and the cost of independent public accountants and other outside experts retained by the Administrative Agent or any Lender. The agreements in this Section shall survive the termination of the Commitments and repayment of all the other Obligations.

**10.05 Indemnification by the Borrower.** Whether or not the transactions contemplated hereby are consummated, the Borrower agrees to indemnify, save and hold harmless each Agent-Related Person, each Lender and their respective Affiliates, directors, officers, employees, counsel, agents and attorneys-in-fact (collectively the "Indemnitees") from and against: (a) any and all claims, demands, actions or causes of action that are asserted against any Indemnitee by any Person (other than the Administrative Agent or any Lender) relating directly or indirectly to a claim, demand, action or cause of action that such Person asserts or may assert against any Loan Party, any Affiliate of any Loan Party or any of their respective officers or directors; (b) any and all claims, demands, actions or causes of action that may at any time (including at any time following repayment of the Obligations and the resignation or removal of the Administrative Agent or the replacement of any Lender) be asserted or imposed against any Indemnitee, arising out of or relating to, the Loan Documents, any predecessor loan documents, the Commitments, the use or contemplated use of the proceeds of any Credit Extension, or the relationship of any Loan Party, the Administrative Agent and the Lenders under this Agreement or any other Loan Document; (c) any administrative or investigative proceeding by any Governmental Authority arising out of or related to a claim, demand, action

or cause of action described in subsection (a) or (b) above; and (d) any and all liabilities (including liabilities under indemnities), losses, costs or expenses (including Attorney Costs) that any Indemnitee suffers or incurs as a result of the assertion of any foregoing claim, demand, action, cause of action or proceeding, or as a result of the preparation of any defense in connection with any foregoing claim, demand, action, cause of action or proceeding, in all cases, **whether or not arising out of the negligence of an Indemnitee**, and whether or not an Indemnitee is a party to such claim, demand, action, cause of action or proceeding (all the foregoing, collectively, the "Indemnified Liabilities"); provided that no Indemnitee shall be entitled to indemnification for any claim caused by its own gross negligence, violation of law, breach under any Loan Document or willful misconduct or for any loss asserted against it by another Indemnitee. The agreements in this Section shall survive the termination of the Commitments and repayment of all the other Obligations.

**10.06 Payments Set Aside.** To the extent that the Borrower makes a payment to the Administrative Agent or any Lender, or the Administrative Agent or any Lender exercises its right of set-off, and such payment or the proceeds of such set-off or any part thereof is subsequently invalidated, declared to be fraudulent or preferential, set aside or required (including pursuant to any settlement entered into by the Administrative Agent or such Lender in its discretion) to be repaid to a trustee, receiver or any other party, in connection with any proceeding under any Debtor Relief Law or otherwise, then (a) to the extent of such recovery, the obligation or part thereof originally intended to be satisfied shall be revived and continued in full force and effect as if such payment had not been made or such set-off had not occurred, and (b) each Lender severally agrees to pay to the Administrative Agent upon demand its applicable share of any amount so recovered from or repaid by the Administrative Agent plus interest thereon from the date of such demand to the date such payment is made at a rate per annum equal to the Federal Funds Rate from time to time in effect.

**10.07 Successors and Assigns.**

(a) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby, except that the Borrower may not assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of each Lender (and any attempted assignment or transfer by the Borrower without such consent shall be null and void). Nothing in this Agreement, expressed or implied, shall be construed to confer upon any Person (other than the parties hereto, their respective successors and assigns permitted hereby and, to the extent expressly contemplated hereby, the Indemnitees) any legal or equitable right, remedy or claim under or by reason of this Agreement.

(b) Except in any case in which any assignment described in this Section 10.07(b) would result in a nonexempt prohibited transaction under Section 4975 of the Code or Section 406 of ERISA with respect to any Plan of the Borrower, any Lender may assign to one or more Eligible Assignees all or a portion of its rights and obligations under this Agreement (including all or a portion of its Loans at the time owing to it); provided that (i) with respect to each assignment made to any Person described at clause (c) in the defined term "Eligible Assignee", the Assignee Conditions shall be satisfied, (ii) except in the case of an assignment of the entire

remaining amount of the assigning Lender's Loans at the time owing to it or in the case of an assignment to a Lender or an Affiliate of a Lender or an Approved Fund with respect to a Lender, in each case which constitutes an Eligible Assignee, the aggregate amount of the Loans subject to each such assignment, determined as of the date the Assignment and Acceptance with respect to such assignment is delivered to the Administrative Agent, shall not be less than U.S.\$5,000,000 unless the Administrative Agent and, so long as no Event of Default has occurred and is continuing, the Borrower, otherwise consent (each such consent not to be unreasonably withheld or delayed), (i.i) each partial assignment shall be made as an assignment of a proportionate part of all the assigning Lender's rights and obligations under this Agreement with respect to the Loans assigned, and (iv) the parties to each assignment shall execute and deliver to the Administrative Agent an Assignment and Acceptance, together with a processing and recordation fee of U.S.\$3,500. Subject to acceptance and recording thereof by the Administrative Agent pursuant to subsection (c) of this Section and compliance with the Assignee Conditions, from and after the effective date specified in each Assignment and Acceptance, the Eligible Assignee thereunder shall be a party hereto and, to the extent of the interest assigned by such Assignment and Acceptance, have the rights and obligations of a Lender under this Agreement, and the assigning Lender thereunder shall, to the extent of the interest assigned by such Assignment and Acceptance, be released from its obligations under this Agreement (and, in the case of an Assignment and Acceptance covering all of the assigning Lender's rights and obligations under this Agreement, such Lender shall cease to be a party hereto but shall continue to be entitled to the benefits of Sections 3.07, 10.04 and 10.05). Upon request, the Borrower (at its expense) shall execute and deliver new or replacement Notes to the assigning Lender and the assignee Lender. Any assignment or transfer (other than any assignment as security to a Federal Reserve Bank) by a Lender of rights or obligations under this Agreement that does not comply with this subsection shall be treated for purposes of this Agreement as a sale by such Lender of a participation in such rights and obligations in accordance with subsection (d) of this Section.

(c) The Administrative Agent, acting solely for this purpose as an agent of the Borrower, shall maintain at the Administrative Agent's Office a copy of each Assignment and Acceptance delivered to it and a register for the recordation of the names and addresses of the Lenders and principal amount of the Loans owing to each Lender pursuant to the terms hereof from time to time (the "Register"). The entries in the Register shall be conclusive, and the Borrower, the Administrative Agent and the Lenders may treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement, notwithstanding notice to the contrary. The Register shall be available for inspection by the Borrower and any Lender, at any reasonable time and from time to time upon reasonable prior notice.

(d) Any Lender may, without the consent of, or prior notice to, the Borrower or the Administrative Agent, sell participations to one or more banks or other entities (a "Participant") in all or a portion of such Lender's rights and/or obligations under this Agreement (including all or a portion of its Commitment and/or the Loans; provided that (i) such Lender's obligations under this Agreement shall remain unchanged, (ii) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations, (iii) the Borrower, the Administrative Agent and the other Lenders shall continue to deal solely and directly with such

Lender in connection with such Lender's rights and obligations under this Agreement and (iv) such transaction does not result in a nonexempt prohibited transaction under Section 4975 of the Code or Section 406 of ERISA with respect to any plan of the Borrower. Any agreement or instrument pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to enforce this Agreement and to approve any amendment, modification or waiver of any provision of this Agreement; provided that such agreement or instrument may provide that such Lender will not, without the consent of the Participant, agree to any amendment, waiver or other modification that would (i) postpone any date upon which any payment of money is scheduled to be paid to such Participant, (ii) reduce the principal, interest, fees or other amounts payable to such Participant, or (iii) release any Guarantor from the Guarantee except as permitted pursuant to the terms of any Loan Document. Subject to subsection (e) of this Section, the Borrower agrees that each Participant shall be entitled to the benefits of Sections 3.01, 3.04 and 3.05 to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to subsection (b) of this Section. To the extent permitted by law, each Participant also shall be entitled to the benefits of Section 10.09 as though it were a Lender, provided such Participant agrees to be subject to Section 2.14 as though it were a Lender.

(e) A Participant shall not be entitled to receive any greater payment under Section 3.01, 3.04 or 3.05 than the applicable Lender would have been entitled to receive with respect to the participation sold to such Participant, unless the sale of the participation to such Participant is made with the Borrower's prior written consent. A Participant that would be a Foreign Lender if it were a Lender shall not be entitled to the benefits of Section 3.01 unless the Borrower is notified of the participation sold to such Participant and such Participant agrees, for the benefit of the Borrower, to comply with Section 10.15 as though it were a Lender.

(f) Any Lender may at any time assign, pledge or grant a security interest in all or any portion of its rights under this Agreement (including under its Notes, if any) to secure obligations of such Lender to a Federal Reserve Bank; provided that no such pledge or assignment shall release a Lender from any of its obligations hereunder or substitute any such pledgee or assignee for such Lender as a party hereto; and provided, further, all costs, fees and expenses related to, or in connection with, any such pledge or grant shall be for the sole account of such Lender.

**10.08 Confidentiality.** Each of the Administrative Agent and the Lenders (on behalf of itself and each of its Affiliates, and each of its and their directors, officers, agents, attorneys, employees and representatives) agrees to maintain the confidentiality of the Information (as defined below), except that Information may be disclosed (a) to its and its Affiliates' directors, officers, employees and agents, including accountants, legal counsel and other advisors (it being understood that the Persons to whom such disclosure is made will be informed of the confidential nature of such Information and instructed to (and will agree to) keep such Information confidential on the terms provided in this Section); (b) to the extent requested by any regulatory authority; (c) to the extent required by applicable laws or regulations or by any subpoena or similar legal process (and each such case, such Person shall endeavor to notify the Borrower of such occurrence as soon as reasonably possible following the service of any such process on such Person); (d) to any other party to this Agreement; (e) in connection with the

exercise of any remedies hereunder or any suit, action or proceeding relating to this Agreement or the enforcement of rights hereunder; (f) subject to an agreement containing provisions substantially the same as those of this Section, to (i) any Eligible Assignee of or Participant in, or any prospective Eligible Assignee of or Participant in, any of its rights or obligations under this Agreement or (ii) any direct or indirect contractual counterparty or prospective counterparty (or such contractual counterparty's or prospective counterparty's professional advisor) to any credit derivative transaction relating to obligations of the Borrower, in each case, provided that each such Person first agrees to hold, and cause to be held, such Information in confidence on the terms provided in this Section; (g) with the consent of the Borrower; (h) to the extent such Information (i) becomes publicly available other than as a result of a breach of this Section or (ii) becomes available to the Administrative Agent or any Lender on a nonconfidential basis from a source other than the Borrower; or (i) to the National Association of Insurance Commissioners or any other similar organization or any nationally recognized rating agency that requires access to information about a Lender's or its Affiliates' investment portfolio in connection with ratings issued with respect to such Lender or its Affiliates. For the purposes of this Section, "Information" means all information received from the Borrower relating to the Borrower or its business, other than any such information that is available to the Administrative Agent or any Lender on a nonconfidential basis prior to disclosure by the Borrower; provided that, in the case of information received from the Borrower after the date hereof, such information is clearly identified in writing at the time of delivery as confidential. Any Person required to maintain the confidentiality of Information as provided in this Section shall be considered to have complied with its obligation to do so if such Person has exercised the same degree of care to maintain the confidentiality of such Information as such Person would accord to its own confidential information.

**10.09 Set-off.** In addition to any rights and remedies of the Lenders provided by law, upon the occurrence and during the continuance of any Event of Default, each Lender is authorized at any time and from time to time, without prior notice to the Borrower or any other Loan Party, any such notice being waived by the Borrower (on its own behalf and on behalf of each Loan Party) to the fullest extent permitted by law, to set-off and apply any and all deposits (general or special, time or demand, provisional or final) at any time held by, and other indebtedness at any time owing by, such Lender to or for the credit or the account of the respective Loan Parties against any and all Obligations then due and owing to such Lender. Each Lender agrees promptly to notify the Borrower and the Administrative Agent after any such set-off and application made by such Lender; provided, however, that the failure to give such notice shall not affect the validity of such set-off and application.

**10.10 Interest Rate Limitation.** Notwithstanding anything to the contrary contained in any Loan Document, the interest paid or agreed to be paid under the Loan Documents shall not exceed the maximum amount, or be computed at a rate that exceeds the maximum rate, of non-usurious interest permitted by applicable Law (the "Maximum Rate"). If the Administrative Agent or any Lender shall contract for, charge, receive, reserve or take interest in an amount or at a rate that exceeds the Maximum Rate, the excess interest shall be applied to the principal of the Loans or, if it exceeds such unpaid principal, refunded to the applicable Loan Party or Loan Parties, and in no event shall any Loan Party or any other Person ever be liable for unearned interest or ever be required to pay interest in excess of the Maximum Rate. In determining

whether the interest contracted for, charged, received, reserved or taken by the Administrative Agent or a Lender exceeds the Maximum Rate, such Person may, to the extent permitted by applicable Law, (a) characterize any payment that is not principal as an expense, fee, or premium rather than interest, (b) exclude voluntary prepayments and the effects thereof, and (c) amortize, prorate, allocate, and spread in equal or unequal parts the total amount of interest throughout the contemplated term of the Obligations. If the Laws of the State of Texas are applicable for purposes of determining the “Maximum Rate”, then that term means the “indicated rate ceiling” from time to time in effect under Chapter 303 of the Texas Finance Code. The Borrower agrees that Chapter 346 of the Texas Finance Code does not apply to any Borrowing.

**10.11 Counterparts.** This Agreement may be executed in one or more counterparts and by the different parties hereto on separate counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

**10.12 Integration.** This Agreement, together with the other Loan Documents, comprises the complete and integrated agreement of the parties on the subject matter hereof and thereof and supersedes all prior agreements, written or oral, on such subject matter. In the event of any conflict between the provisions of this Agreement and those of any other Loan Document, the provisions of this Agreement shall control; provided that the inclusion of supplemental rights or remedies in favor of the Administrative Agent or the Lenders in any other Loan Document shall not be deemed a conflict with this Agreement. Each Loan Document was drafted with the joint participation of the respective parties thereto and shall be construed neither against nor in favor of any party, but rather in accordance with the fair meaning thereof.

**10.13 Survival of Representations and Warranties.** All representations and warranties made hereunder and in any other Loan Document or other document delivered pursuant hereto or thereto or in connection herewith or therewith shall survive the execution and delivery hereof and thereof. Such representations and warranties have been or will be relied upon by the Administrative Agent and each Lender, regardless of any investigation made by the Administrative Agent or any Lender or on their behalf and notwithstanding that the Administrative Agent or any Lender may have had notice or knowledge of any Default or Event of Default at the time of any Credit Extension.

**10.14 Severability.** Any provision of this Agreement and the other Loan Documents to which the Borrower is a party that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions thereof, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction.

**10.15 Foreign Lenders.** Each Lender that is a “foreign corporation, partnership or trust” within the meaning of the Code (a “Foreign Lender”) shall deliver to the Administrative Agent, prior to becoming a Lender herein, two duly signed completed copies of either IRS Form W-8BEN or any successor thereto (relating to such Person and entitling it to an exemption from, or reduction of, withholding tax on all payments to be made to such Person by the Borrower pursuant to this Agreement) or IRS Form W-8ECI or any successor thereto (relating to all payments to be made to such Person by the Borrower pursuant to this Agreement) or such other

evidence satisfactory to the Borrower and the Administrative Agent that such Person is entitled to an exemption from, or reduction of, U.S. withholding tax. Thereafter and from time to time, each such Person shall (a) promptly submit to the Administrative Agent such additional duly completed and signed copies of one of such forms (or such successor forms as shall be adopted from time to time by the relevant United States taxing authorities) as may then be available under then current United States laws and regulations to avoid, or such evidence as is satisfactory to the Borrower and the Administrative Agent of any available exemption from or reduction of, United States withholding taxes in respect of all payments to be made to such Person by the Borrower pursuant to this Agreement, (b) promptly notify the Agent of any change in circumstances which would modify or render invalid any claimed exemption or reduction, and (c) take such steps as shall not be materially disadvantageous to it, in the reasonable judgment of such Lender, and as may be reasonably necessary (including the re-designation of its Lending Office) to avoid any requirement of applicable Laws that the Borrower make any deduction or withholding for taxes from amounts payable to such Person. If such Person fails to deliver the above forms or other documentation, then the Administrative Agent may withhold from any interest payment to such Person an amount equivalent to the applicable withholding tax imposed by Sections 1441 and 1442 of the Code, without reduction. If any Governmental Authority asserts that the Administrative Agent did not properly withhold any tax or other amount from payments made in respect of such Person, such Person shall indemnify the Administrative Agent therefor, including all penalties and interest, any taxes imposed by any jurisdiction on the amounts payable to the Agent under this Section, and costs and expenses (including Attorney Costs) of the Administrative Agent. The obligation of the Lenders under this Section shall survive the payment of all Obligations and the resignation or replacement of the Administrative Agent.

#### **10.16 Removal and Replacement of Lenders.**

(a) Under any circumstances set forth herein providing that the Borrower shall have the right to remove or replace a Lender as a party to this Agreement, the Borrower may, upon notice to such Lender and the Administrative Agent, (i) remove such Lender by written request or (ii) replace such Lender by causing such Lender to assign its Loans (without payment of any assignment fee) pursuant to Section 10.07(b) to one or more other Lenders or Eligible Assignees procured by the Borrower; provided, however, that if the Borrower elects to exercise such right with respect to any Lender pursuant to Section 3.06(b), they shall be obligated to remove or replace, as the case may be, all Lenders that have made similar requests for compensation pursuant to Section 3.01 or 3.04. The Borrower shall (x) pay in full all principal, interest, fees and other amounts owing to such Lender through the date of termination or assignment (including any amounts payable pursuant to Section 3.05), and (y) release such Lender from its obligations under the Loan Documents. Any Lender being replaced shall execute and deliver an Assignment and Acceptance with respect to such Lender's outstanding Credit Extensions. The Administrative Agent shall distribute an amended Schedule 2.01, which shall be deemed incorporated into this Agreement, to reflect changes in the identities of the Lenders and adjustments of their respective Pro Rata Shares resulting from any such removal or replacement.

(b) In order to make all the Lenders' interests in any outstanding Credit Extensions ratable in accordance with any revised Pro Rata Shares after giving effect to the removal or replacement of a Lender, the Borrower shall pay or prepay, if necessary, on the effective date

thereof, that portion of the outstanding Loans of each Lender necessary to readjust the outstanding Loans to reflect the revised Pro Rata Shares, together with any amounts due under Section 3.05. The Borrower may net any payments required hereunder against any funds being provided by any Lender or Eligible Assignee replacing a terminating Lender. The effect for purposes of this Agreement shall be the same as if separate transfers of funds had been made with respect thereto.

(c) This section shall supersede any provision in Section 10.01 to the contrary.

#### **10.17 Governing Law.**

(a) THIS AGREEMENT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK APPLICABLE TO AGREEMENTS MADE AND TO BE PERFORMED ENTIRELY WITHIN SUCH STATE; PROVIDED THAT THE ADMINISTRATIVE AGENT AND EACH LENDER SHALL RETAIN ALL RIGHTS ARISING UNDER FEDERAL LAW.

(b) ANY LEGAL ACTION OR PROCEEDING WITH RESPECT TO THIS AGREEMENT OR ANY OTHER LOAN DOCUMENT MAY BE BROUGHT IN THE COURTS OF THE STATE OF NEW YORK SITTING IN MANHATTAN OR OF THE UNITED STATES FOR THE SOUTHERN DISTRICT OF SUCH STATE, AND BY EXECUTION AND DELIVERY OF THIS AGREEMENT, THE BORROWER, THE ADMINISTRATIVE AGENT AND EACH LENDER CONSENTS, FOR ITSELF AND IN RESPECT OF ITS PROPERTY, TO THE NON-EXCLUSIVE JURISDICTION OF THOSE COURTS. THE BORROWER, THE ADMINISTRATIVE AGENT AND EACH LENDER IRREVOCABLY WAIVES ANY OBJECTION, INCLUDING ANY OBJECTION TO THE LAYING OF VENUE OR BASED ON THE GROUNDS OF *FORUM NON CONVENIENS*, WHICH IT MAY NOW OR HEREAFTER HAVE TO THE BRINGING OF ANY ACTION OR PROCEEDING IN SUCH JURISDICTION IN RESPECT OF ANY LOAN DOCUMENT OR OTHER DOCUMENT RELATED THERETO. THE BORROWER, THE ADMINISTRATIVE AGENT AND EACH LENDER WAIVES PERSONAL SERVICE OF ANY SUMMONS, COMPLAINT OR OTHER PROCESS, WHICH MAY BE MADE BY ANY OTHER MEANS PERMITTED BY THE LAW OF SUCH STATE.

**10.18 Waiver of Right to Trial by Jury.** EACH PARTY TO THIS AGREEMENT HEREBY EXPRESSLY WAIVES ANY RIGHT TO TRIAL BY JURY OF ANY CLAIM, DEMAND, ACTION OR CAUSE OF ACTION ARISING UNDER ANY LOAN DOCUMENT OR IN ANY WAY CONNECTED WITH OR RELATED OR INCIDENTAL TO THE DEALINGS OF THE PARTIES HERETO OR ANY OF THEM WITH RESPECT TO ANY LOAN DOCUMENT, OR THE TRANSACTIONS RELATED THERETO, IN EACH CASE WHETHER NOW EXISTING OR HEREAFTER ARISING, AND WHETHER FOUNDED IN CONTRACT OR TORT OR OTHERWISE; AND EACH PARTY HEREBY AGREES AND CONSENTS THAT ANY SUCH CLAIM, DEMAND, ACTION OR CAUSE OF ACTION SHALL BE DECIDED BY COURT TRIAL WITHOUT A JURY, AND THAT ANY PARTY TO THIS AGREEMENT MAY FILE AN ORIGINAL COUNTERPART OR A COPY OF THIS SECTION WITH ANY COURT AS WRITTEN EVIDENCE OF THE CONSENT OF THE SIGNATORIES HERETO TO THE WAIVER OF THEIR RIGHT TO TRIAL BY JURY.

**10.19 ENTIRE AGREEMENT. THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS REPRESENT THE FINAL AGREEMENT BETWEEN THE PARTIES AND MAY NOT BE CONTRADICTED BY EVIDENCE OF PRIOR, CONTEMPORANEOUS, OR SUBSEQUENT ORAL AGREEMENTS OF THE PARTIES. THERE ARE NO UNWRITTEN ORAL AGREEMENTS BETWEEN THE PARTIES.**

*IN WITNESS WHEREOF*, the parties hereto have caused this Agreement to be duly executed as of the date first above written.

**FORM OF LOAN NOTICE**

Date: \_\_\_\_\_, \_\_\_\_\_

To: Bank of Montreal, as Administrative Agent

Ladies and Gentlemen:

Reference is made to that certain Term Loan Credit Agreement, dated as of September 15, 2006 (as amended, restated, extended, supplemented or otherwise modified in writing from time to time, the "Agreement," the terms defined therein being used herein as therein defined), among Atlantic Power Holdings, LLC (the "Borrower"), the Lenders from time to time party thereto, and Bank of Montreal, as Administrative Agent.

The undersigned hereby requests (select one):

A Borrowing of Loans<sup>1</sup>     A conversion or continuation of Loans

1. On \_\_\_\_\_ (a Business Day).
2. In the amount of \$\_\_\_\_\_.
3. Comprised of \_\_\_\_\_.  
Type of Loan requested
4. For Eurodollar Rate Loans: with an Interest Period of \_\_\_\_\_ months.

The Borrowing requested herein complies with the proviso to the first sentence of Section 2.01 of the Agreement.

**ATLANTIC POWER HOLDINGS, LLC,**  
a Delaware limited liability company

By: Atlantic Power Management, LLC,  
its Manager

By: \_\_\_\_\_  
Name: \_\_\_\_\_  
Title: \_\_\_\_\_

<sup>1</sup> Only Applicable for the initial Borrowing made on the Closing Date.

**FORM OF TERM LOAN NOTE**

\$	SEPTEMBER 15, 2006
----	--------------------

FOR VALUE RECEIVED, the undersigned (the "Borrower"), hereby promises to pay to the order of \_\_\_\_\_ (the "Lender"), on the Maturity Date (as defined in the Credit Agreement referred to below) the principal amount of \_\_\_\_\_ Dollars (\$ \_\_\_\_\_), or such lesser principal amount of Loans (as defined in such Credit Agreement) due and payable by the Borrower to the Lender on the Maturity Date under that certain Term Loan Credit Agreement, dated as of September 15, 2006 (as amended, restated, extended, supplemented or otherwise modified in writing from time to time, the "Credit Agreement;" the terms defined therein being used herein as therein defined), among the Borrower, the Lenders from time to time party thereto, and Bank of Montreal, as Administrative Agent.

The Borrower promises to pay interest on the unpaid principal amount of each Loan from the date of such Loan until such principal amount is paid in full, at such interest rates, and at such times as are specified in the Credit Agreement. All payments of principal and interest shall be made to the Administrative Agent for the account of the Lender in Dollars in immediately available funds at the Administrative Agent's Office. If any amount is not paid in full when due hereunder, such unpaid amount shall bear interest, to be paid upon demand, from the due date thereof until the date of actual payment (and before as well as after judgment) computed at the per annum rate set forth in the Credit Agreement.

This Note is one of the Notes referred to in the Credit Agreement, is entitled to the benefits thereof and is subject to optional prepayment in whole or in part as provided therein. **This Note is also entitled to the benefits of the Guarantees.** During the continuance of one or more of the Events of Default specified in the Credit Agreement, all amounts then remaining unpaid on this Note shall become, or may be declared to be, immediately due and payable all as provided in the Credit Agreement. Loans made by the Lender shall be evidenced by one or more loan accounts or records maintained by the Lender in the ordinary course of business. The Lender may also attach schedules to this Note and endorse thereon the date, amount and maturity of its Loans and payments with respect thereto.

The Borrower, for itself, its successors and assigns, hereby waives diligence, presentment, protest and demand and notice of protest, demand, dishonor and non-payment of this Note.

THIS NOTE SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK.

FORM OF BORROWER COMPLIANCE CERTIFICATE

Financial Statement Date: \_\_\_\_\_,

To: Bank of Montreal, as Administrative Agent

Ladies and Gentlemen:

Reference is made to that certain Term Loan Credit Agreement, dated as of September 15, 2006 (as amended, restated, extended, supplemented or otherwise modified in writing from time to time, the "Agreement," the terms defined therein being used herein as therein defined), among Atlantic Power Holdings, LLC (the "Borrower"), the Lenders from time to time party thereto, and Bank of Montreal, as Administrative Agent.

The undersigned Responsible Officer hereby certifies as of the date hereof that he/she is the \_\_\_\_\_ of the [Borrower] [Parent Guarantor], and that, as such, he/she is authorized to execute and deliver this Certificate to the Administrative Agent on the behalf of the [Borrower] [Parent Guarantor], and that:

*Use following for fiscal year-end financial statements*

1. Attached hereto as Schedule 1 are year-end financial statements for the [Borrower] [Parent Guarantor] and its Subsidiaries required by Section 6.01(a) which financial statements fairly present the financial conditions, results of operations and cash flows of the [Borrower] [Parent Guarantor] and its Subsidiaries in accordance with GAAP as at such date for such period, subject only to the absence of footnotes.

*Use following for fiscal quarter-end financial statements*

(a) Attached hereto as Schedule 1 are the unaudited financial statements required by Section 6.01(b) for the fiscal quarter of \_\_\_\_\_ ended as of the above date and attached hereto as Schedule 1a are the unaudited financial statements for the fiscal quarter of \_\_\_\_\_ ended as of the above date. Such financial statements fairly present the financial condition, results of

Exh C -- 1

Form of Compliance Certificate

operations and cash flows of the [Borrower and its Subsidiaries] [Parent Guarantor] in accordance with GAAP as at such date and for such period, subject only to normal year-end audit adjustments and the absence of footnotes.

(b) The undersigned has reviewed and is familiar with the terms of the Agreement and has made, or has caused to be made under his/her supervision, a reasonable review of the transactions and condition (financial or otherwise) of the Borrower and its Subsidiaries and Unrestricted Subsidiaries during the accounting period covered by the attached financial statements.

(c) A review of the activities of [the Borrower and its Subsidiaries] [each Loan Party] during such fiscal period has been made under the supervision of the undersigned with a view to determining whether during such fiscal period [the Borrower and its Subsidiaries] [each Loan Party] performed and observed all its Obligations under the Loan Documents, and to the best knowledge of the undersigned during such fiscal period, [the Borrower and its Subsidiaries] [each Loan Party] performed and observed each covenant and condition of the Loan Documents applicable to it.

(d) [The Cash Flow Coverage Ratio analysis set forth on Schedule 2 attached hereto is true and accurate on and as of the date of this Certificate.] [To be included in Certificate delivered by Parent Guarantor.]

*IN WITNESS WHEREOF*, the undersigned has executed this Certificate as  
of \_\_\_\_\_,

ANNEX I TO ASSIGNMENT AND ACCEPTANCE AGREEMENT

[ \_\_\_\_\_ ]<sup>7</sup>  
STANDARD TERMS AND CONDITIONS FOR ASSIGNMENT  
AND ACCEPTANCE AGREEMENT

(1) Representations and Warranties.

a. Assignor. The Assignor (a) represents and warrants that (i) it is the legal and beneficial owner of the Assigned Interest, (ii) the Assigned Interest is free and clear of any lien, encumbrance or other adverse claim and (iii) it has full power and authority, and has taken all action necessary, to execute and deliver this Assignment and to consummate the transactions contemplated hereby; and (b) assumes no responsibility with respect to (i) any statements, warranties or representations made in or in connection with any Credit Document, (ii) the execution, legality, validity, enforceability, genuineness, sufficiency or value of the Credit Agreement or any other instrument or document delivered pursuant thereto, other than this Assignment (herein collectively the 'Credit Documents'), or any collateral thereunder, (iii) the financial condition of the Borrower, any of its Subsidiaries or, as applicable, Affiliates or any other Person obligated in respect of any Credit Document or (iv) the performance or observance by the Borrower, any of its Subsidiaries or, as applicable, Affiliates or any other Person of any of their respective obligations under any Credit Document.

b. Assignee. The Assignee (a) represents and warrants that (i) it has full power and authority, and has taken all action necessary, to execute and deliver this Assignment and to consummate the transactions contemplated hereby and to become a Lender under the Credit Agreement, (ii) it meets all requirements of an Eligible Assignee under the Credit Agreement, (iii) from and after the Effective Date, it shall be bound by the provisions of the Credit Agreement and, to the extent of the Assigned Interest, shall have the obligations of a Lender thereunder, (iv) it has received a copy of the Credit Agreement, together with copies of the most recent financial statements delivered pursuant to Section 6.01 thereof, as applicable, and such other documents and information as it has deemed appropriate to make its own credit analysis and decision to enter into this Assignment and to purchase the Assigned Interest on the basis of which it has made such analysis and decision, and (v) if it is a Foreign Lender, attached hereto is any documentation required to be delivered by it pursuant to the terms of the Credit Agreement, duly completed and executed by the Assignee; and (b) agrees that (i) it will, independently and without reliance on the Administrative Agent, the Assignor or any other Lender, and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit decisions in taking or not taking action under the Credit Documents, and (ii) it will perform in accordance with their terms all of the obligations which by the terms of the Credit Documents are required to be performed by it as a Lender.

c. Assignee's Address for Notices, etc. Attached hereto as Schedule 1 is all contact information, address, account and other administrative information relating to the Assignee.

---

<sup>7</sup> Describe Credit Agreement at option of Administrative Agent.

(2) Payments. From and after the Effective Date, the Administrative Agent shall make all payments in respect of the Assigned interest (including payments of principal, interest, fees and other amounts) to the Assignee whether such amounts have accrued prior to or on or after the Effective Date. The Assignor and the Assignee shall make all appropriate adjustments in payments by the Administrative Agent for periods prior to the Effective Date or with respect to the making of this assignment directly between themselves.

(3) General Provisions. This Assignment shall be binding upon, and inure to the benefit of, the parties hereto and their respective successors and assigns. This Assignment may be executed in any number of counterparts, which together shall constitute one instrument. Delivery of an executed counterpart of a signature page of this Assignment by telecopy shall be effective as delivery of a manually executed counterpart of this Assignment. This Assignment shall be governed by, and construed in accordance with, the law of the State of New York.

FOURTH AMENDMENT TO CREDIT AGREEMENT

THIS FOURTH AMENDMENT TO CREDIT AGREEMENT, dated as of October 11, 2006 (the "Amendment"), among Atlantic Power Holdings, LLC, a Delaware limited liability company (the "Borrower"), the Lenders signatory hereto and Bank of Montreal, in its capacity as administrative agent ("Administrative Agent") under the Credit Agreement described below.

WITNESSETH

WHEREAS, the Borrower, the Administrative Agent, and the lenders from time to time party thereto (each a "Lender"), are parties to that certain Credit Agreement, dated as of November 18, 2004, as amended by that certain First Amendment to Credit Agreement, dated as of April 29, 2005, as further amended by that certain Second Amendment to Credit Agreement, dated as of November 18, 2005, as further amended by that certain Third Amendment to Credit Agreement, dated as of September 15, 2006 (as so amended, the "Credit Agreement"); and

WHEREAS, Atlantic Power Corporation, a corporation continued under the laws of British Columbia, Canada ("Atlantic Power Corporation"), has filed a certain Final Prospectus dated as of October 11, 2006 (the "2006 IPS Prospectus"), pursuant to which Atlantic Power Corporation will issue certain income participating securities as described therein (the "2006 IPS Issuance"); and

WHEREAS, Atlantic Power Corporation is entering into that certain Trust Indenture, dated as of October 11, 2006 (the "Convertible Note Indenture") among Atlantic Power Corporation and Computershare Trust Company of Canada as Debenture Trustee, pursuant to which Atlantic Power Corporation will issue Cdn. \$60,000,000 of "6.25% Convertible Secured Debentures" as described therein (the "Convertible Note Issuance" and collectively with the 2006 IPS Issuance, the "2006 IPS Transaction"); and

WHEREAS, the Borrower and the other Guarantors intend to guarantee the obligations of Atlantic Power Corporation pursuant to the Convertible Note Issuance; and

WHEREAS, the Borrower, the Administrative Agent and the Required Lenders desire to amend certain provisions of the Credit Agreement.

NOW, THEREFORE, the parties hereto hereby agree as follows:

1. DEFINITIONS. Unless otherwise defined herein or the context otherwise requires, terms used in this Amendment, including its preamble and recitals, shall have the meanings provided in the Credit Agreement, as hereby amended.

2. AMENDMENTS TO CREDIT AGREEMENT

2.1 Section 1.01 is hereby amended as follows:

(a) Amended Definitions. The following definitions are hereby amended and restated as follows:

(i) The definition of "Collateral Agency and Intercreditor Agreement" is hereby amended and restated in its entirety as follows:

"Collateral Agency and Intercreditor Agreement" means the Second Amended and Restated Collateral Agency and Intercreditor Agreement, dated as of October 11, 2006, by and among the Lenders, the Administrative Agent, the Acquisition Term Loan Lenders, the Acquisition Term Loan Agent, the Subordinated Trustee, the Convertible Trustee and the Collateral Agent (as the same may be amended, restated, supplemented or otherwise modified from time to time).

(ii) The definition of "Deposit and Disbursement Agreement" is hereby amended and restated in its entirety as follows:

"Deposit and Disbursement Agreement" means the Second Amended and Restated Deposit and Disbursement Agreement, dated as of October 11, 2006, by and among the Loan Parties party thereto, the Collateral Agent, the Subordinated Trustee, the Convertible Trustee and Harris Bank as the depository bank (as the same may be amended, restated, supplemented or otherwise modified from time to time).

(iii) The definition of "IPSS" is hereby amended and restated in its entirety as follows:

"IPSS" means, as the context may require, the Income Participating Securities as defined in and contemplated by the IPS Prospectus or the 2006 IPS Prospectus.

(iv) The definition of "Issuer" is hereby amended and restated in its entirety as follows:

"Issuer" means Atlantic Power Corporation, a corporation continued under the laws of the Province of British Columbia, Canada, in its capacity as the issuer of any of the IPSSs, the Subordinated Notes or the Convertible Debentures, as applicable.

(v) Clause (vi) of the definition of "Permitted Liens" is hereby amended and restated in its entirety as follows:

"(vi) subject to any restrictions or limitations set forth in Sections 7.01 and 7.02 hereof, Liens securing Indebtedness permitted to be incurred pursuant to this Agreement, including without limitation, Liens incurred with respect to the Subordinated Note Indenture, the Convertible Note Indenture or the Acquisition Term Loan Facility, in each case, subject to the Collateral Agency and Intercreditor Agreement and the Deposit and Disbursement Agreement;"

(vi) The definition of "Pledge Agreements" is hereby amended and restated in its entirety as follows:

"Pledge Agreements" means each Second Amended and Restated Pledge and Security Agreement made by the applicable Loan Party in favor of the Bank of Montreal in its capacity as "Collateral Agent" pursuant to the Collateral Agency and Intercreditor

Agreement on behalf of the Lenders or such other secured party as directed by the Administrative Agent on behalf of the Lenders, as may be required by the Administrative Agent from time to time and substantially in the form of Exhibit G, as amended and in effect from time to time.

(vii) The definition of "Projects" is hereby amended and restated in its entirety as follows:

"Projects" means the projects described in the IPS Prospectus and the 2006 IPS Prospectus.

(viii) The definition of "Security Agreement" is hereby amended and restated in its entirety as follows:

"Security Agreement" means each Second Amended and Restated Security Agreement made by the applicable Loan Party in favor of Bank of Montreal in its capacity as "Collateral Agent" pursuant to the Collateral Agency and Intercreditor Agreement on behalf of the Lenders or such other secured party as directed by the Administrative Agent, as may be required by the Administrative Agent from time to time and substantially in the form of Exhibit J, as amended and in effect from time to time.

(ix) The definition of "Subordinated Note Indenture" is hereby amended and restated in its entirety as follows:

"Subordinated Note Indenture" means that certain 11% Subordinated Notes Indenture dated November 18, 2004 among the Issuer, the guarantors a party thereto and Computershare Trust Company of Canada, in its capacity as trustee to the 11% Subordinated Notes Indenture.

(x) The definition of "Subordinated Notes" is hereby amended and restated in its entirety as follows:

"Subordinated Notes" means the 11% Subordinated Notes of the Issuer issued pursuant to the Subordinated Note Indenture.

(xi) The definition of "Trustee" is hereby deleted in its entirety.

(b) New Definitions. The following new definitions are hereby inserted into the Credit Agreement in the appropriate locations.

(i) "2006 IPS Prospectus" means that certain Final Prospectus, dated as of October 11, 2006 filed by the Issuer.

(ii) "Convertible Debentures" means the "Initial Debentures" (as defined in the Convertible Note Indenture) issued pursuant to the Convertible Note Indenture.

(iii) “Convertible Note Indenture” means that certain Trust Indenture providing for the issue of Convertible Secured Debentures dated October 11, 2006 among the Issuer, the guarantors a party thereto and Computershare Trust Company of Canada, in its capacity as trustee thereunder.

(iv) “Convertible Trustee” means the “Debenture Trustee” as defined in the Convertible Note Indenture.

(v) “Fourth Amendment Effective Date” means the “Effective Date” as set forth in the Fourth Amendment to Credit Agreement, among the Borrower, the Lenders party thereto and the Administrative Agent, dated as of October 11, 2006.

(vi) “Permitted Additional Debentures” means “Debentures” (as defined in the Convertible Note Indenture) issued by the Issuer pursuant to the Convertible Indenture other than the Convertible Debentures and permitted pursuant to the terms and conditions of Section 7.02(b)(xv).

(vii) “Subordinated Trustee” means the “Trustee” as defined in the Subordinated Note Indenture.

2.2 Section 4.02(a) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(a) (i) The representations and warranties of the Borrower contained in Article V, or which are contained in any Loan Document furnished by the Borrower at any time under or in connection herewith, shall be true and correct on and as of the date of such Credit Extension, except to the extent that such representations and warranties specifically refer to a different date, in which case they shall be true and correct as of such date; (ii) the representations and warranties of Borrower or any Guarantor a party thereto, contained in the Subordinated Note Indenture shall be true and correct on and as of the date of such Credit Extension, except to the extent that such representations and warranties specifically refer to a different date, in which case they shall be true and correct as of such date, and (iii) the representations and warranties of Borrower or any Guarantor a party thereto, contained in the Convertible Note Indenture shall be true and correct on and as of the date of such Credit Extension, except to the extent that such representations and warranties specifically refer to a different date, in which case they shall be true and correct as of such date.”

2.3 Section 4.02(b) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(b) (i) No Default or Event of Default shall exist, or would result from such proposed Credit Extension, (ii) no “Event of Default” (as defined in the Subordinated Note Indenture), or event or condition that with the giving of notice or the lapse of time would become an “Event of Default” (as defined in the Subordinated Note Indenture), shall exist under the Subordinated Note Indenture, or in each case, would result from such proposed Credit Extension, and (iii) no “Event of Default” (as defined in the Convertible Note Indenture), or event or condition that with the giving of notice or the lapse of time would become an “Event of Default” (as defined in the

Convertible Note Indenture), shall exist under the Convertible Note Indenture, or in each case, would result from such proposed Credit Extension.”

2.4 Section 5.15 of the Credit Agreement is hereby amended by inserting the words “or the 2006 IPS Prospectus” immediately following the words “IPS Prospectus” therein.

2.5 Section 5.19 of the Credit Agreement is hereby amended and restated in its entirety as follows:

**“5.19 Subordinated Note Documents and Convertible Note Documents.** As of the Closing Date, before and after giving effect to the initial Credit Extension, all representations and warranties of the Borrower or any Guarantor contained in the Subordinated Note Indenture and any documents delivered pursuant thereto are true and correct in all material respects (except to the extent such representations or warranties relate or refer to a specified, earlier date). As of the Fourth Amendment Effective Date, all representations and warranties of the Borrower or any Guarantor contained in the Convertible Note Indenture and any documents delivered pursuant thereto or the Subordinated Note Indenture and any documents delivered pursuant thereto are true and correct in all material respects (except to the extent such representations or warranties relate or refer to a specified, earlier date). Before and after giving effect to the initial Credit Extension contemplated hereunder, there is no event of default or event or condition that could become an event of default with notice or lapse of time or both, under the Subordinated Note Indenture and any documents related thereto and the Subordinated Note Indenture, the Subordinated Notes and any other legally binding documents executed by the Loan Parties in connection therewith are in full force and effect. Before and after giving effect to the Fourth Amendment Effective Date, there is no event of default or event or condition that could become an event of default with notice or lapse of time or both, under either the Subordinated Note Indenture and any documents related thereto or the Convertible Note Indenture or any document related thereto and the Subordinated Note Indenture, the Subordinated Notes, the Convertible Note Indenture, the Convertible Debentures and any other legally binding documents executed by the Loan Parties in connection with any thereof are each in full force and effect.”

2.6 Section 6.01(c)(i)(D) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“and (D) the projected distributions and interest payments from the Parent Guarantor to the holders of the IPS’s and the holders of the Convertible Debentures;”

2.7 Section 7.02(b) of the Credit Agreement is hereby amended and restated in its entirety as follows

“(b) The limitations set out in Section 7.02(a) will not apply to the following, provided that, except with respect to (x) any Refinancing Indebtedness Incurred in connection with the refinancing of Indebtedness permitted pursuant to Section 7.02(b)(xiv) and (y) any Indebtedness Incurred with respect to the guaranty of Additional Securities (as defined in the Subordinated Note Indenture) issued in connection with the conversion of Convertible Debentures or Permitted Additional Debentures permitted pursuant to Section 7.02(b)(iii)(B)(4), at the time any such Indebtedness is Incurred or any Disqualified Stock or Preferred Stock is issued, the Cash Flow Coverage Ratio of the Parent Guarantor for the previous four-quarter period is 1.5 to 1.0 on a *pro*

*forma* basis, after giving effect to the Incurrence of such Indebtedness or the issuance of such Disqualified Stock or Preferred Stock and the application of the proceeds therefrom.”

2.8 Section 7.02(b)(iii) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(iii) the Incurrence by the Borrower and the Guarantors of (A) Indebtedness Incurred on the Closing Date in connection with the guarantee of the Parent Guarantor’s obligations with respect to the Subordinated Notes in an amount not to exceed the amount of Indebtedness outstanding under the Subordinated Note Indenture on the Closing Date and (B) Indebtedness Incurred in connection with the guarantee of the Parent Guarantor’s obligations with respect to any Additional Securities (as defined in the Subordinated Note Indenture) forming part of the IPSs or issued concurrently therewith, issued by the Parent Guarantor (1) to finance the redemption by Borrower of any Existing Investor Interests (as defined in the Subordinated Note Indenture) and related issuance of Class A preferred membership interests of Borrower in connection with such issuance, (2) used to prepay the Indebtedness represented by the Acquisition Term Loan Facility, (3) used to finance the payment of interest on the Convertible Debentures pursuant to Article 11 of the Convertible Note Indenture, (4) in connection with the conversion of any of the Convertible Debentures or Permitted Additional Debentures pursuant to the Convertible Indenture, or (5) as otherwise consented to in writing by the Administrative Agent, which consent shall not be unreasonably withheld.”

2.9 The introductory clause of Section 7.02(b)(ix) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(ix) the Incurrence by the Borrower or any of its Subsidiaries or Unrestricted Subsidiaries of Indebtedness which serves to refund or refinance any Indebtedness Incurred as permitted under this Section 7.02 and clauses (i), (ii), (v) or (vi), above, or (xiii), (xiv) or (xv) below, or any Indebtedness issued to so refund or refinance such Indebtedness (subject to the following proviso, “**Refinancing Indebtedness**”) prior to its respective maturity; provided, however, that such Refinancing Indebtedness:”

2.10 Section 7.02(b)(ix)(E) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(E) to the extent such Refinancing Indebtedness refinances Indebtedness incurred pursuant to Section 7.02(b)(xiv), such refinancing Indebtedness shall not be incurred by the Borrower or a Subsidiary of the Borrower and such Refinancing Indebtedness shall not be secured by a Lien on the Collateral or any other Property of a Loan Party pledged to the Collateral Agent for the benefit of the Lenders, the Acquisition Term Loan Lenders, the holders of the Subordinated Notes or the holder of the Convertible Debentures;”

2.11 Section 7.02(b) of the Credit Agreement is hereby amended by adding the following new clause (xv) in the applicable location:

“(xv) the Incurrence by the Borrower and the Guarantors of Indebtedness Incurred in connection with the guarantee of the Parent Guarantor’s obligations under the Convertible Note Indenture with respect to the issuance of Convertible Debentures or Permitted Additional
