Debentures; provided, that, (A) the principal amount of such Indebtedness is not greater than Cdn. \$60,000,000 in the aggregate or such other amount as is consented to in writing by the Administrative Agent, which consent shall not be unreasonably withheld, (B) not less than \$37,000,000 of the proceeds of such Indebtedness Incurred in connection with the issuance of the Convertible Debentures is used to repay Indebtedness outstanding under the Acquisition Term Loan Credit Facility within five (5) Business Days of its Incurrence, (C) the proceeds of any such Indebtedness are used solely in connection with (1) the payment of any fees, costs or other expenses in connection with the consummation of the issuance of the Convertible Debentures and any other IPSs issued by the Parent Guarantor pursuant to the 2006 IPS Prospectus, (2) the redemption of the Existing Investor Interests (as defined in the Subordinated Note Indenture), (3) the repayment of Indebtedness outstanding under the Acquisition Term Loan Facility or (4) such other purposes as may be consented to in writing by the Administrative Agent, which consent shall not be unreasonably withheld, (D) such Indebtedness and any Liens on any Collateral or other Property of a Loan Party securing such Indebtedness is subordinated to the Secured Obligations and is otherwise subject to the terms and conditions of the Collateral Agency and Intercreditor Agreement and the Deposit and Disbursement Agreement, and (E) the terms and conditions of the Convertible Note Indenture, any supplements or amendments thereto and any guarantee thereof by the Borrower or a Guarantor, or any related Refinancing Indebtedness thereof, are otherwise acceptable to the Administrative Agent in its reasonable discretion.”

2.12 Section 7.04(c)(B) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(B) the Subordinated Note Indenture, the Convertible Note Indenture or the Acquisition Term Loan Facility;”

2.13 Exhibit G to the Credit Agreement is hereby amended and restated in its entirety by replacing it with a new Exhibit G attached as Exhibit A hereto.

2.14 Exhibit H to the Credit Agreement is hereby amended and restated in its entirety by replacing it with a new Exhibit H attached as Exhibit B hereto.

2.15 Exhibit I to the Credit Agreement is hereby amended and restated in its entirety by replacing it with a new Exhibit I attached as Exhibit C hereto.

2.16 Exhibit J to the Credit Agreement is hereby amended and restated in its entirety by replacing it with a new Exhibit J attached as Exhibit D hereto.

3. REPRESENTATIONS AND WARRANTIES. In order to induce the Required Lenders and the Administrative Agent to enter into this Amendment, the Borrower hereby reaffirms, as of the date hereof, its representations and warranties contained in Article V of the Credit Agreement (as amended by this Amendment), except to the extent any such representation and warranty relates solely to an earlier date, and additionally represents and warrants as follows:

3.1 Existence and Standing. The Borrower is a limited liability company, duly organized, validly existing and in good standing under the laws of its jurisdiction of organization, and has all requisite authority to conduct its business and is duly qualified or licensed to transact business as a foreign limited liability company and in good standing under the laws of each

jurisdiction in which the conduct of its operations or the ownership or leasing of its properties requires such qualification or licensing, except where failure to be so qualified or licensed could not reasonably be expected to have a Material Adverse Effect.

3.2 No Conflict; Government Consent. No order, consent, adjudication, approval, license, authorization, or validation of, or filing, recording or registration with, or exemption by, or other action in respect of any governmental or public body or authority, or any subdivision thereof, which has not been obtained by the Issuer, the Borrower or any of its Subsidiaries, is required to be obtained in connection with the execution, delivery or performance of this Amendment or the Convertible Note Indenture, the 2006 IPS Prospectus or any other agreement or document delivered in connection with the 2006 IPS Transaction (collectively, the "2006 IPS Transaction Documents"), or the legality, validity, binding effect or enforceability of any of the Loan Documents, except, in each case, to the extent that the failure to obtain such order, consent, adjudication, approval, license, authorization, validation, exemption or other action or to make such filing, recording or registration could not reasonably be expected to have a Material Adverse Effect.

3.3 Due Authorization, Non-Contravention, etc. The execution, delivery and performance by the Borrower of this Amendment and the 2006 IPS Transaction Documents and the consummation of the transactions contemplated hereby and by the Credit Agreement as so amended, and by the 2006 IPS Transaction are within the Borrower's organizational powers, have been duly authorized by all necessary organizational action, and do not (a) contravene the Borrower's organizational documents, including, without limitation, its articles or certificate of incorporation, partnership agreement, certificate of partnership, articles or certificate of organization, by-laws, operating or other management agreement or other similar Organization Documents (except as such, in the aggregate could not reasonably be expected to have a Material Adverse Effect), (b) contravene any contractual restriction, law or governmental regulation or court decree or order binding on or affecting the Borrower (except as such, in the aggregate could not reasonably be expected to have a Material Adverse Effect), (c) result in, or require the creation or imposition of, any Lien (other than Permitted Liens) on any Properties (each as defined in the Credit Agreement as amended by this Amendment) of the Borrower or any Subsidiaries (except as such, in the aggregate, could not reasonably be expected to have a Material Adverse Effect), or (d) contravene, result in or cause a breach of, or a default under, any material contract, promissory note, indenture or other similar agreement or instrument to which the Parent, the Borrower or any other Loan Party is a party or an obligor, including without limitation the Subordinated Note Indenture and the Subordinated Notes (except as such, in the aggregate could not reasonably be expected to have a Material Adverse Effect).

3.4 Validity, etc. This Amendment and the Credit Agreement as amended hereby constitute the legal, valid and binding obligations of the Borrower enforceable against the Borrower in accordance with their respective terms except as such enforceability is subject to the effect of (i) any applicable bankruptcy, insolvency, reorganization or similar law relating to or affecting creditors' rights generally and (ii) general principles of equity (regardless of whether such enforceability is considered in a proceeding in equity or at law), including concepts of materiality, reasonableness, good faith and fair dealing.

4. CONDITIONS PRECEDENT TO EFFECTIVENESS. This Amendment shall become effective (the "Effective Date") upon the satisfaction of the following conditions precedent:

4.1 the Administrative Agent shall have received counterparts of this Amendment executed and delivered on behalf of the Borrower, Administrative Agent and the Required Lenders;

4.2 the Administrative Agent, for the benefit of the Administrative Agent and the Lenders, shall have received an opinion of counsel to the Borrower in form and substance reasonably acceptable to the Administrative Agent;

4.3 the Administrative Agent shall have received counterparts of (a) the Amended and Restated Collateral Agency and Intercreditor Agreement (as defined in the Credit Agreement as amended by this Amendment), (b) the Amended and Restated Deposit and Disbursement Agreement (as defined in the Credit Agreement as amended by this Amendment), and (c) each other Security Document reasonably requested by the Administrative Agent, each of which shall have been executed and delivered on behalf of the each of the parties thereto.

4.4 a certificate of the Borrower, dated as of the date hereof, has been executed and delivered to the Administrative Agent certifying, *inter alia*, (a) true and correct copies of resolutions adopted by the board of managers or other appropriate body of the Borrower authorizing the negotiation, execution and delivery of this Amendment and the performance of the Credit Agreement as amended hereby and the negotiation, execution, delivery and performance of each of the applicable Security Documents and 2006 IPS Transaction Documents to which it is a party, (b) true and correct copies of the Organization Documents of the Borrower or a certification that there has been no change to the Organization Documents of the Borrower since September 15, 2006, (c) that the Cash Flow Coverage Ratio of the Parent Guarantor after giving *pro forma* effect to the 2006 IPS Transaction and Indebtedness of the Borrower and the applicable Subsidiaries as guarantors of the Convertible Note Indenture is at least 1.5 to 1.0, (d) that no Default or Event of Default exists on the date hereof, (e) that since the Closing Date no event or events have occurred that, in the aggregate, could reasonably be expected to have a Material Adverse Effect and (f) that immediately prior to and after giving effect to the 2006 IPS Transaction, the Borrower and each Guarantor shall be Solvent;

4.5 a certificate of each Guarantor, dated as of the date hereof, has been executed and delivered to the Administrative Agent certifying, *inter alia*, (a) true and correct copies of resolutions adopted by the general partner, managing member or other appropriate body of such Guarantor authorizing the negotiation, execution, delivery and performance of each of the applicable Security Documents and 2006 IPS Transaction Documents to which it is a party and (b) true and correct copies of the Organization Documents of such Guarantor or a certification that there has been no change to the Organization Documents of such Guarantor since September 15, 2006;

4.6 a certificate of the Parent Guarantor, dated as of the date hereof, has been executed and delivered to the Administrative Agent certifying, *inter alia*, (a) that each of the 2006 IPS Issuance and the Convertible Note Issuance have been, or upon the effectiveness of this

Amendment will be, consummated (b) that the Convertible Note Indenture and each of the other 2006 IPS Transaction Documents are, or upon the effectiveness of this Amendment will be, in full force and effect, (c) that the Cash Flow Coverage Ratio of the Parent Guarantor after giving *pro forma* effect to the 2006 IPS Transaction and Indebtedness of the Borrower and the applicable Subsidiaries as guarantors of the Convertible Note Indenture is at least 1.5 to 1.0; (d) that the Acquisition Term Loan Agent shall have received or, within five (5) Business Days of the consummation of the IPS Transaction, shall receive not less than \$37,000,000 for the account of the Acquisition Term Loan Lenders as a prepayment of Indebtedness outstanding under the Acquisition Term Loan Facility, (e) that the proceeds of the 2006 IPS Transaction that have not been applied to the repayment of Indebtedness outstanding under the Acquisition Term Loan Facility have been, or upon the effectiveness of this Amendment shall be, applied (i) to the redemption by the Borrower of any Existing Investor Interests (as defined in the Subordinated Note Indenture) or (ii) to the payment of any fees, costs or other expenses incurred in connection with the consummation of the 2006 IPS Transaction; (f) true and correct copies of the final Convertible Note Indenture (which shall be in form and substance reasonably satisfactory to the Administrative Agent); (g) true and correct copies of the final 2006 IPS Prospectus (which shall be in form and substance reasonably satisfactory to the Administrative Agent); and (h) true and correct copies of the Guaranty, dated as of October 11, 2006 and delivered by each of the Guarantors party thereto in connection with the Convertible Note Indenture (which shall be in form and substance reasonably satisfactory to the Administrative Agent);

4.7 any fees required to be paid on or before the date hereof shall have been paid; and

4.8 unless waived by the Administrative Agent, the Borrower shall have paid all Attorney Costs of the Administrative Agent to the extent invoiced prior to or on the Effective Date, plus such additional amounts of Attorney Costs as shall constitute its reasonable estimate of Attorney Costs incurred or to be incurred by it through the closing proceedings (provided that such estimate shall not thereafter preclude a final settling of accounts between the Borrower and the Administrative Agent).

5. EFFECT OF AMENDMENT. This Amendment shall be deemed to be an amendment to the Credit Agreement, and the Credit Agreement, as amended hereby, is hereby ratified, approved and confirmed in each and every respect. All references to the Credit Agreement in any other document, instrument, agreement or writing shall hereafter be deemed to refer to the Credit Agreement as amended hereby.

6. GOVERNING LAW, SEVERABILITY, ETC. **THIS AMENDMENT SHALL BE DEEMED TO BE A CONTRACT MADE UNDER, GOVERNED BY, AND INTERPRETED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK AND THE LAWS OF THE UNITED STATES OF AMERICA, WITHOUT REGARD TO PRINCIPLES OF THE CONFLICTS OF LAW.** Whenever possible each provision of this Amendment shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Amendment shall be prohibited by or invalid under applicable law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Amendment.

**THIS WRITTEN AMENDMENT AND THE CREDIT AGREEMENT AS AMENDED BY THIS AMENDMENT REPRESENT THE FINAL AGREEMENT AMONG THE PARTIES AND MAY NOT BE CONTRADICTED BY PRIOR, CONTEMPORANEOUS OR SUBSEQUENT ORAL AGREEMENTS OF THE PARTIES. THERE ARE NO UNWRITTEN ORAL AGREEMENTS BETWEEN THE PARTIES.**

7. MISCELLANEOUS.

7.1 Successors and Assigns. This Amendment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

7.2 Counterparts. This Amendment may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

7.3 NO ORAL AGREEMENTS. THIS AMENDMENT REPRESENTS THE FINAL AGREEMENT BETWEEN THE PARTIES AND MAY NOT BE CONTRADICTED BY EVIDENCE OF PRIOR, CONTEMPORANEOUS, OR SUBSEQUENT ORAL AGREEMENTS OF THE PARTIES.

THERE ARE NO UNWRITTEN ORAL AGREEMENTS BETWEEN THE PARTIES.

FIRST AMENDMENT TO TERM LOAN CREDIT AGREEMENT

THIS FIRST AMENDMENT TO TERM LOAN CREDIT AGREEMENT, dated as of October 11, 2006 (the "Amendment"), among Atlantic Power Holdings, LLC, a Delaware limited liability company (the "Borrower"), the Lenders signatory hereto and Bank of Montreal, in its capacity as administrative agent ("Administrative Agent") under the Credit Agreement described below.

WITNESSETH

WHEREAS, the Borrower, the Administrative Agent, and the lenders from time to time party thereto (each a "Lender"), are parties to that certain Term Loan Credit Agreement, dated as of September 15, 2006 (the "Credit Agreement"); and

WHEREAS, Atlantic Power Corporation, a corporation continued under the laws of British Columbia, Canada ("Atlantic Power Corporation"), has filed a certain Final Prospectus dated as of October 11, 2006 (the "2006 IPS Prospectus"), pursuant to which Atlantic Power Corporation will issue certain income participating securities as described therein (the "2006 IPS Issuance"); and

WHEREAS, Atlantic Power Corporation is entering into that certain Trust Indenture, dated as of October 11, 2006 (the "Convertible Note Indenture") among Atlantic Power Corporation and Computershare Trust Company of Canada as Debenture Trustee, pursuant to which Atlantic Power Corporation will issue Cdn. \$60,000,000 of "6.25% Convertible Secured Debentures" as described therein (the "Convertible Note Issuance" and collectively with the 2006 IPS Issuance, the "2006 IPS Transaction"); and

WHEREAS, the Borrower and the other Guarantors intend to guarantee the obligations of Atlantic Power Corporation pursuant to the Convertible Note Issuance; and

WHEREAS, the Borrower, the Administrative Agent and the Required Lenders desire to amend certain provisions of the Credit Agreement.

NOW, THEREFORE, the parties hereto hereby agree as follows:

1. DEFINITIONS. Unless otherwise defined herein or the context otherwise requires, terms used in this Amendment, including its preamble and recitals, shall have the meanings provided in the Credit Agreement, as hereby amended.

2. AMENDMENTS TO CREDIT AGREEMENT

2.1 Section 1.01 is hereby amended as follows:

(a) Amended Definitions. The following definitions are hereby amended and restated as follows:

(i) The definition of "Collateral Agency and Intercreditor Agreement" is hereby amended and restated in its entirety as follows:

“Collateral Agency and Intercreditor Agreement” means the Second Amended and Restated Collateral Agency and Intercreditor Agreement, dated as of October 11, 2006, by and among the Lenders, the Administrative Agent, the Revolving Lenders, the Revolving Agent, the Subordinated Trustee, the Convertible Trustee and the Collateral Agent and substantially in the form of Exhibit I attached hereto (as the same may be amended, restated, supplemented or otherwise modified from time to time).

(ii) The definition of “Deposit and Disbursement Agreement” is hereby amended and restated in its entirety as follows:

“Deposit and Disbursement Agreement” means the Second Amended and Restated Deposit and Disbursement Agreement, dated as of October 11, 2006, by and among the Loan Parties party thereto, the Collateral Agent, the Subordinated Trustee, the Convertible Trustee and Harris Bank as the depositary bank and substantially in the form of Exhibit H attached hereto (as the same may be amended, restated, supplemented or otherwise modified from time to time).

(iii) The definition of “IPSS” is hereby amended and restated in its entirety as follows:

“IPSS” means, as the context may require, the Income Participating Securities as defined in and contemplated by the IPS Prospectus or the 2006 IPS Prospectus.

(iv) The definition of “Issuer” is hereby amended and restated in its entirety as follows:

“Issuer” means Atlantic Power Corporation, a corporation continued under the laws of the Province of British Columbia, Canada, in its capacity as the issuer of any of the IPSS, the Subordinated Notes or the Convertible Debentures, as applicable.

(v) Clause (vi) of the definition of “Permitted Liens” is hereby amended and restated in its entirety as follows:

“(vi) subject to any restrictions or limitations set forth in Sections 7.01 and 7.02 hereof, Liens securing Indebtedness permitted to be incurred pursuant to this Agreement, including without limitation, Liens incurred with respect to the Subordinated Note Indenture, the Convertible Note Indenture or the Existing Revolver, in each case, subject to the Collateral Agency and Intercreditor Agreement and the Deposit and Disbursement Agreement;”

(vi) The definition of “Pledge Agreements” is hereby amended and restated in its entirety as follows:

“Pledge Agreements” means each Second Amended and Restated Pledge and Security Agreement made by the applicable Loan Party in favor of the Bank of Montreal in its capacity as “Collateral Agent” pursuant to the Collateral Agency and Intercreditor Agreement on behalf of the Lenders or such other secured party as directed by the Administrative Agent on behalf of the Lenders, as may be required by the Administrative

Agent from time to time and substantially in the form of Exhibit G, as amended and in effect from time to time.

(vii) The definition of "Projects" is hereby amended and restated in its entirety as follows:

"Projects" means the projects described in the IPS Prospectus and the 2006 IPS Prospectus.

(viii) The definition of "Security Agreement" is hereby amended and restated in its entirety as follows:

"Security Agreement" means each Second Amended and Restated Security Agreement made by the applicable Loan Party in favor of Bank of Montreal in its capacity as "Collateral Agent" pursuant to the Collateral Agency and Intercreditor Agreement on behalf of the Lenders or such other secured party as directed by the Administrative Agent, as may be required by the Administrative Agent from time to time and substantially in the form of Exhibit J, as amended and in effect from time to time.

(ix) The definition of "Subordinated Note Indenture" is hereby amended and restated in its entirety as follows:

"Subordinated Note Indenture" means that certain 11% Subordinated Notes Indenture dated November 18, 2004 among the Issuer, the guarantors a party thereto and Computershare Trust Company of Canada, in its capacity as trustee to the 11% Subordinated Notes Indenture.

(x) The definition of "Subordinated Notes" is hereby amended and restated in its entirety as follows:

"Subordinated Notes" means the 11% Subordinated Notes of the Issuer issued pursuant to the Subordinated Note Indenture.

(xi) The definition of "Trustee" is hereby deleted in its entirety.

(b) New Definitions. The following new definitions are hereby inserted into the Credit Agreement in the appropriate locations.

(i) "2006 IPS Prospectus" means that certain Final Prospectus, dated as of October 11, 2006 filed by the Issuer.

(ii) "Convertible Debentures" means the "Initial Debentures" (as defined in the Convertible Note Indenture) issued pursuant to the Convertible Note Indenture.

(iii) "Convertible Note Indenture" means that certain Trust Indenture providing for the issue of Convertible Secured Debentures dated October 11, 2006 among

the Issuer, the guarantors a party thereto and Computershare Trust Company of Canada, in its capacity as trustee thereunder.

(iv) "Convertible Trustee" means the "Debenture Trustee" as defined in the Convertible Note Indenture.

(v) "First Amendment Effective Date" means the "Effective Date" as set forth in the First Amendment to Term Loan Credit Agreement, among the Borrower, the Lenders party thereto and the Administrative Agent, dated as of October 11, 2006.

(vi) "Permitted Additional Debentures" means "Debentures" (as defined in the Convertible Note Indenture) issued by the Issuer pursuant to the Convertible Indenture other than the Convertible Debentures and permitted pursuant to the terms and conditions of Section 7.02(b)(xv).

(vii) "Subordinated Trustee" means the "Trustee" as defined in the Subordinated Note Indenture.

2.2 Section 5.15 of the Credit Agreement is hereby amended by inserting the words "the 2006 IPS Prospectus" immediately following each instance of the words "Intercompany Loan Document" therein.

2.3 Section 5.19 of the Credit Agreement is hereby amended and restated in its entirety as follows:

**"5.19 Subordinated Note Documents and Convertible Note Documents.** As of the Closing Date, before and after giving effect to the initial Credit Extension, all representations and warranties of the Borrower or any Guarantor contained in the Subordinated Note Indenture and any documents delivered pursuant thereto are true and correct in all material respects (except to the extent such representations or warranties relate or refer to a specified, earlier date). As of the First Amendment Effective Date, all representations and warranties of the Borrower or any Guarantor contained in the Convertible Note Indenture and any documents delivered pursuant thereto or the Subordinated Note Indenture and any documents delivered pursuant thereto are true and correct in all material respects (except to the extent such representations or warranties relate or refer to a specified, earlier date). Before and after giving effect to the initial Credit Extension contemplated hereunder, there is no event of default or event or condition that could become an event of default with notice or lapse of time or both, under the Subordinated Note Indenture and any documents related thereto and the Subordinated Note Indenture, the Subordinated Notes and any other legally binding documents executed by the Loan Parties in connection therewith are in full force and effect. Before and after giving effect to the First Amendment Effective Date, there is no event of default or event or condition that could become an event of default with notice or lapse of time or both, under either the Subordinated Note Indenture and any documents related thereto or the Convertible Note Indenture or any document related thereto and the Subordinated Note Indenture, the Subordinated Notes, the Convertible Note Indenture, the Convertible Debentures and any other legally binding documents executed by the Loan Parties in connection with any thereof are each in full force and effect."

2.4 Section 6.01(c)(i)(D) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“and (D) the projected distributions and interest payments from the Parent Guarantor to the holders of the IPS’s and the holders of the Convertible Debentures;”

2.5 Section 7.02(b) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(b) The limitations set out in Section 7.02(a) will not apply to any Indebtedness permitted pursuant to Section 7.02 of the Existing Revolver as of the Closing Date, nor to any of the following, provided that, except with respect to any Indebtedness Incurred with respect to the guaranty of Additional Securities (as defined in the Subordinated Note Indenture) issued in connection with the conversion of Convertible Debentures or Permitted Additional Debentures permitted pursuant to Section 7.02(b)(iii)(B)(4), at the time any such Indebtedness is Incurred or any Disqualified Stock or Preferred Stock is issued, the Cash Flow Coverage Ratio of the Parent Guarantor for the previous four-quarter period is 1.5 to 1.0 on a *pro forma* basis, after giving effect to the Incurrence of such Indebtedness or the issuance of such Disqualified Stock or Preferred Stock and the application of the proceeds therefrom:”

2.6 Section 7.02(b)(iii) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(iii) the Incurrence by the Borrower and the Guarantors of (A) Indebtedness Incurred in connection with the guarantee of the Parent Guarantor’s obligations with respect to the Subordinated Notes in an amount not to exceed the amount of Indebtedness outstanding under the Subordinated Note Indenture on November 18, 2004 and (B) Indebtedness Incurred in connection with the guarantee of the Parent Guarantor’s obligations with respect to any Additional Securities (as defined in the Subordinated Note Indenture) forming part of the IPSs or issued concurrently therewith, issued by the Parent Guarantor (1) to finance the redemption by Borrower of any Existing Investor Interests (as defined in the Subordinated Note Indenture) and related issuance of Class A preferred membership interests of Borrower in connection with such issuance, (2) used to prepay Indebtedness under this Agreement pursuant to Section 2.06(b), (3) used to finance the payment of interest on the Convertible Debentures pursuant to Article 11 of the Convertible Note Indenture, (4) in connection with the conversion of any of the Convertible Debentures or Permitted Additional Debentures pursuant to the Convertible Indenture, or (5) as otherwise consented to in writing by the Administrative Agent, which consent shall not be unreasonably withheld.”

2.7 The introductory clause of Section 7.02(b)(ix) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(ix) the Incurrence by the Borrower or any of its Subsidiaries or Unrestricted Subsidiaries of Indebtedness which serves to refund or refinance any Indebtedness Incurred as permitted under this Section 7.02 and clauses (i), (ii), (v) or (vi), above, or (xiii) or (xiv) below, or any Indebtedness issued to so refund or refinance such Indebtedness (subject to the following proviso, “**Refinancing Indebtedness**”) prior to its respective maturity; provided, however, that such Refinancing Indebtedness:”

2.8 Section 7.02(b) of the Credit Agreement is hereby amended by adding the following new clause (xiv) in the applicable location:

“(xiv) the Incurrence by the Borrower and the Guarantors of Indebtedness Incurred in connection with the guarantee of the Parent Guarantor’s obligations under the Convertible Note Indenture with respect to the issuance of Convertible Debentures or Permitted Additional Debentures; provided, that, (A) the principal amount of such Indebtedness is not greater than Cdn. \$60,000,000 in the aggregate or such other amount as is consented to in writing by the Administrative Agent, which consent shall not be unreasonably withheld, (B) not less than \$37,000,000 of the proceeds of such Indebtedness Incurred in connection with the issuance of the Convertible Debentures is used to prepay Indebtedness outstanding under this Agreement in accordance with Section 2.06(b) within five (5) Business Days of its Incurrence, (C) the proceeds of any such Indebtedness are used solely in connection with (1) the payment of any fees, costs or other expenses in connection with the consummation of the issuance of the Convertible Debentures and any other IPSs issued by the Parent Guarantor pursuant to the 2006 IPS Prospectus, (2) the redemption of the Existing Investor Interests (as defined in the Subordinated Note Indenture), (3) the prepayment of Indebtedness outstanding under this Agreement in accordance with Section 2.06, or (4) such other purposes as may be consented to in writing by the Administrative Agent, which consent shall not be unreasonably withheld, (D) such Indebtedness and any Liens on any Collateral or other Property of a Loan Party securing such Indebtedness is subordinated to the Obligations and is otherwise subject to the terms and conditions of the Collateral Agency and Intercreditor Agreement and the Deposit and Disbursement Agreement, and (E) the terms and conditions of the Convertible Note Indenture, any supplements or amendments thereto and any guarantee thereof by the Borrower or a Guarantor, or any related Refinancing Indebtedness thereof, are otherwise acceptable to the Administrative Agent in its reasonable discretion.”

2.9 Section 7.04(c)(B) of the Credit Agreement is hereby amended and restated in its entirety as follows:

“(B) the Subordinated Note Indenture, the Convertible Note Indenture or the Existing Revolver;”

2.10 Exhibit G to the Credit Agreement is hereby amended and restated in its entirety by replacing it with a new Exhibit G attached as Exhibit A hereto.

2.11 Exhibit H to the Credit Agreement is hereby amended and restated in its entirety by replacing it with a new Exhibit H attached as Exhibit B hereto.

2.12 Exhibit I to the Credit Agreement is hereby amended and restated in its entirety by replacing it with a new Exhibit I attached as Exhibit C hereto.

2.13 Exhibit J to the Credit Agreement is hereby amended and restated in its entirety by replacing it with a new Exhibit J attached as Exhibit D hereto.

3. REPRESENTATIONS AND WARRANTIES. In order to induce the Required Lenders and the Administrative Agent to enter into this Amendment, the Borrower hereby reaffirms, as of the date hereof, its representations and warranties contained in Article V of the

Credit Agreement (as amended by this Amendment), except to the extent any such representation and warranty relates solely to an earlier date, and additionally represents and warrants as follows:

3.1 Existence and Standing. The Borrower is a limited liability company, duly organized, validly existing and in good standing under the laws of its jurisdiction of organization, and has all requisite authority to conduct its business and is duly qualified or licensed to transact business as a foreign limited liability company and in good standing under the laws of each jurisdiction in which the conduct of its operations or the ownership or leasing of its properties requires such qualification or licensing, except where failure to be so qualified or licensed could not reasonably be expected to have a Material Adverse Effect.

3.2 No Conflict; Government Consent. No order, consent, adjudication, approval, license, authorization, or validation of, or filing, recording or registration with, or exemption by, or other action in respect of any governmental or public body or authority, or any subdivision thereof, which has not been obtained by the Issuer, the Borrower or any of its Subsidiaries, is required to be obtained in connection with the execution, delivery or performance of this Amendment or the Convertible Note Indenture, the 2006 IPS Prospectus or any other agreement or document delivered in connection with the 2006 IPS Transaction (collectively, the "2006 IPS Transaction Documents"), or the legality, validity, binding effect or enforceability of any of the Loan Documents, except, in each case, to the extent that the failure to obtain such order, consent, adjudication, approval, license, authorization, validation, exemption or other action or to make such filing, recording or registration could not reasonably be expected to have a Material Adverse Effect.

3.3 Due Authorization, Non-Contravention, etc. The execution, delivery and performance by the Borrower of this Amendment and the 2006 IPS Transaction Documents and the consummation of the transactions contemplated hereby and by the Credit Agreement as so amended, and by the 2006 IPS Transaction are within the Borrower's organizational powers, have been duly authorized by all necessary organizational action, and do not (a) contravene the Borrower's organizational documents, including, without limitation, its articles or certificate of incorporation, partnership agreement, certificate of partnership, articles or certificate of organization, by-laws, operating or other management agreement or other similar Organization Documents (except as such, in the aggregate could not reasonably be expected to have a Material Adverse Effect), (b) contravene any contractual restriction, law or governmental regulation or court decree or order binding on or affecting the Borrower (except as such, in the aggregate could not reasonably be expected to have a Material Adverse Effect), (c) result in, or require the creation or imposition of, any Lien (other than Permitted Liens) on any Properties (each as defined in the Credit Agreement as amended by this Amendment) of the Borrower or any Subsidiaries (except as such, in the aggregate, could not reasonably be expected to have a Material Adverse Effect), or (d) contravene, result in or cause a breach of, or a default under, any material contract, promissory note, indenture or other similar agreement or instrument to which the Parent, the Borrower or any other Loan Party is a party or an obligor, including without limitation the Subordinated Note Indenture and the Subordinated Notes (except as such, in the aggregate could not reasonably be expected to have a Material Adverse Effect).

3.4 Validity, etc. This Amendment and the Credit Agreement as amended hereby constitute the legal, valid and binding obligations of the Borrower enforceable against the

Borrower in accordance with their respective terms except as such enforceability is subject to the effect of (i) any applicable bankruptcy, insolvency, reorganization or similar law relating to or affecting creditors' rights generally and (ii) general principles of equity (regardless of whether such enforceability is considered in a proceeding in equity or at law), including concepts of materiality, reasonableness, good faith and fair dealing.

4. CONDITIONS PRECEDENT TO EFFECTIVENESS. This Amendment shall become effective (the "Effective Date") upon the satisfaction of the following conditions precedent:

4.1 the Administrative Agent shall have received counterparts of this Amendment executed and delivered on behalf of the Borrower, Administrative Agent and the Required Lenders;

4.2 the Administrative Agent, for the benefit of the Administrative Agent and the Lenders, shall have received an opinion of counsel to the Borrower in form and substance reasonably acceptable to the Administrative Agent;

4.3 the Administrative Agent shall have received counterparts of (a) the Amended and Restated Collateral Agency and Intercreditor Agreement (as defined in the Credit Agreement as amended by this Amendment), (b) the Amended and Restated Deposit and Disbursement Agreement (as defined in the Credit Agreement as amended by this Amendment), and (c) each other Security Document reasonably requested by the Administrative Agent, each of which shall have been executed and delivered on behalf of the each of the parties thereto.

4.4 a certificate of the Borrower, dated as of the date hereof, has been executed and delivered to the Administrative Agent certifying, *inter alia*, (a) true and correct copies of resolutions adopted by the board of managers or other appropriate body of the Borrower authorizing the negotiation, execution and delivery of this Amendment and the performance of the Credit Agreement as amended hereby and the negotiation, execution, delivery and performance of each of the applicable Security Documents and 2006 IPS Transaction Documents to which it is a party, (b) true and correct copies of the Organization Documents of the Borrower or a certification that there has been no change to the Organization Documents of the Borrower since September 15, 2006, (c) that the Cash Flow Coverage Ratio of the Parent Guarantor after giving *pro forma* effect to the 2006 IPS Transaction and Indebtedness of the Borrower and the applicable Subsidiaries as guarantors of the Convertible Note Indenture is at least 1.5 to 1.0, (d) that no Default or Event of Default exists on the date hereof, (e) that since the Closing Date no event or events have occurred that, in the aggregate, could reasonably be expected to have a Material Adverse Effect and (f) that immediately prior to and after giving effect to the 2006 IPS Transaction, the Borrower and each Guarantor shall be Solvent;

4.5 a certificate of each Guarantor, dated as of the date hereof, has been executed and delivered to the Administrative Agent certifying, *inter alia*, (a) true and correct copies of resolutions adopted by the general partner, managing member or other appropriate body of such Guarantor authorizing the negotiation, execution, delivery and performance of each of the applicable Security Documents and 2006 IPS Transaction Documents to which it is a party and (b) true and correct copies of the Organization Documents of such Guarantor or a certification

that there has been no change to the Organization Documents of such Guarantor since September 15, 2006;

4.6 a certificate of the Parent Guarantor, dated as of the date hereof, has been executed and delivered to the Administrative Agent certifying, *inter alia*, (a) that each of the 2006 IPS Issuance and the Convertible Note Issuance have been, or upon the effectiveness of this Amendment will be, consummated (b) that the Convertible Note Indenture and each of the other 2006 IPS Transaction Documents are, or upon the effectiveness of this Amendment will be, in full force and effect, (c) that the Cash Flow Coverage Ratio of the Parent Guarantor after giving *pro forma* effect to the 2006 IPS Transaction and Indebtedness of the Borrower and the applicable Subsidiaries as guarantors of the Convertible Note Indenture is at least 1.5 to 1.0; (d) that the Administrative Agent shall have received or, within five (5) Business Days of the consummation of the IPS Transaction, shall receive not less than \$37,000,000 for the account of the Lenders as a prepayment of Indebtedness outstanding under the Credit Agreement, (e) that the proceeds of the 2006 IPS Transaction that have not been applied to the repayment of Indebtedness outstanding under the Credit Agreement have been, or upon the effectiveness of this Amendment shall be, applied (i) to the redemption by the Borrower of any Existing Investor Interests (as defined in the Subordinated Note Indenture) or (ii) to the payment of any fees, costs or other expenses incurred in connection with the consummation of the 2006 IPS Transaction; (f) true and correct copies of the final Convertible Note Indenture (which shall be in form and substance reasonably satisfactory to the Administrative Agent); (g) true and correct copies of the final 2006 IPS Prospectus (which shall be in form and substance reasonably satisfactory to the Administrative Agent); and (h) true and correct copies of the Guaranty, dated as of October 11, 2006 and delivered by each of the Guarantors party thereto in connection with the Convertible Note Indenture (which shall be in form and substance reasonably satisfactory to the Administrative Agent);

4.7 any fees required to be paid on or before the date hereof shall have been paid; and

4.8 unless waived by the Administrative Agent, the Borrower shall have paid all Attorney Costs of the Administrative Agent to the extent invoiced prior to or on the Effective Date, plus such additional amounts of Attorney Costs as shall constitute its reasonable estimate of Attorney Costs incurred or to be incurred by it through the closing proceedings (provided that such estimate shall not thereafter preclude a final settling of accounts between the Borrower and the Administrative Agent).

5. EFFECT OF AMENDMENT. This Amendment shall be deemed to be an amendment to the Credit Agreement, and the Credit Agreement, as amended hereby, is hereby ratified, approved and confirmed in each and every respect. All references to the Credit Agreement in any other document, instrument, agreement or writing shall hereafter be deemed to refer to the Credit Agreement as amended hereby.

6. GOVERNING LAW, SEVERABILITY, ETC. **THIS AMENDMENT SHALL BE DEEMED TO BE A CONTRACT MADE UNDER, GOVERNED BY, AND INTERPRETED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK AND THE LAWS OF THE UNITED STATES OF AMERICA, WITHOUT REGARD TO PRINCIPLES OF THE CONFLICTS OF LAW.** Whenever possible each

provision of this Amendment shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Amendment shall be prohibited by or invalid under applicable law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Amendment.

**THIS WRITTEN AMENDMENT AND THE CREDIT AGREEMENT AS AMENDED BY THIS AMENDMENT REPRESENT THE FINAL AGREEMENT AMONG THE PARTIES AND MAY NOT BE CONTRADICTED BY PRIOR, CONTEMPORANEOUS OR SUBSEQUENT ORAL AGREEMENTS OF THE PARTIES. THERE ARE NO UNWRITTEN ORAL AGREEMENTS BETWEEN THE PARTIES.**

7. MISCELLANEOUS.

7.1 Successors and Assigns. This Amendment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

7.2 Counterparts. This Amendment may be executed in one or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

7.3 NO ORAL AGREEMENTS. THIS AMENDMENT REPRESENTS THE FINAL AGREEMENT BETWEEN THE PARTIES AND MAY NOT BE CONTRADICTED BY EVIDENCE OF PRIOR, CONTEMPORANEOUS, OR SUBSEQUENT ORAL AGREEMENTS OF THE PARTIES.

THERE ARE NO UNWRITTEN ORAL AGREEMENTS BETWEEN THE PARTIES.

NEWS RELEASE TRANSMITTED BY CCMATTHEWS

FOR: **ATLANTIC POWER CORPORATION**

TSX SYMBOL: **ATP.UN**

October 16, 2006

**Atlantic Power Corporation Announces October 2006 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of October 2006. A distribution of \$0.0884 per Income Participating Security (“IPS”) will be payable on November 30, 2006 to holders of record at the close of business on October 31, 2006.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0884 reflects a cash dividend per common share of \$0.0355 and an interest payment of \$0.0529 for the month of October 2006.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

NEWS RELEASE

FOR: **ATLANTIC POWER CORPORATION**

TSX SYMBOL: **ATP.UN**

**Atlantic Power Announces Closing of \$150 Million Bought Deal Financing**

BOSTON, MASSACHUSETTS – (CCNMatthews – October 11, 2006)

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES. ANY FAILURE TO COMPLY WITH THIS RESTRICTION MAY CONSTITUTE A VIOLATION OF U.S. SECURITIES LAW.

Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power”) today announced the successful closing of its previously announced sale of income participating securities (“IPSs”) and 6.25% convertible secured debentures (“Debentures”) for gross proceeds of Cdn\$150 million. The offering consisted of 8,531,000 IPSs sold at a price of Cdn\$10.55 per IPS for gross proceeds of Cdn\$90 million and Cdn\$60 million aggregate principal amount of Debentures. The IPSs and Debentures were sold on a bought deal basis to a syndicate of underwriters led by BMO Capital Markets that included National Bank Financial Inc., RBC Capital Markets, Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation.

The first distribution which purchasers of IPSs under the offering are eligible to receive will be payable on or about November 30, 2006 to holders of record on October 31, 2006.

The Debentures pay interest semi-annually on April 30 and October 31 each year, commencing on April 30, 2007. The Debentures mature on October 31, 2011 and are convertible into approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS. The Debentures are listed on the Toronto Stock Exchange under the symbol ATP.DB.

As previously reported, the net proceeds of the offering will be used by Atlantic Power to: (i) partially repay approximately US\$37 million of the credit facility arranged in connection with an acquisition of an interest in the Path 15 Project, and (ii) provide proceeds to Atlantic Power Holdings, LLC (“Holdings”) that Holdings will use to redeem a portion of the ownership interests in Holdings held by subsidiaries of ArcLight Energy Partners Funds I and II and another investor. In connection with the closing of the offering, Atlantic Power increased its ownership in Holdings from 70.1% to approximately 86%.

The securities offered have not been registered under the *United States Securities Act of 1933*, as amended (the "U.S. Securities Act"), and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons. This news release does not constitute an offer to sell or a solicitation of an offer to buy securities in any jurisdiction.

When used in this news release, the words "will be", "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the bought deal financing, the use of proceeds thereof and the amount and timing of the payment of distributions by Atlantic Power. Such statements are subject to certain risks, uncertainties and assumptions which may cause the actual results, performance or achievements of Atlantic Power to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such forward-looking statements are based on a number of assumptions which may prove to be incorrect. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements contained in this news release represent our expectations as of October 11, 2006 and, accordingly, are subject to change after such date. Except as required by applicable law, we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

## SHORT FORM PROSPECTUS

New Issue

October 2, 2006

**Atlantic Power  
Corporation**

**Atlantic Power Corporation**

**Cdn\$90,002,050**

**8,531,000 Income Participating Securities™**

and

**Cdn\$60,000,000**

**6.25% Convertible Secured Debentures due October 31, 2011**

RECEIVED  
2007 OCT 14 P 3:07  
OFFICE OF INFORMATION  
CORPORATE FINANCE

This short form prospectus qualifies the distribution of 8,531,000 income participating securities™ ("IPSS") and Cdn\$60,000,000 aggregate principal amount of 6.25% convertible secured debentures (the "Debentures", and collectively with the IPSS, the "Securities") of Atlantic Power Corporation (the "Company"). Each IPS represents: (a) one common share (each, a "Common Share") of the Company, and (b) Cdn\$5,767 principal amount of 11.0% subordinated notes ("Subordinated Notes") of the Company. The Debentures are due October 31, 2011 (the "Maturity Date"), will bear interest at an annual rate of 6.25%, and will be distributed in increments of Cdn\$1,000. Investors will have the option of subscribing for Debentures, IPSS or a combination thereof at their discretion. After giving effect to the issuance of the Securities pursuant to this offering (the "Offering") and the transactions contemplated hereby, the Company will own an approximate 86% common membership interest in Atlantic Power Holdings, LLC ("Atlantic Holdings") and the Existing Investors (as defined herein) will own an approximate 14% common membership interest in Atlantic Holdings.

Holders of IPSS have the right to separate the IPSS into Common Shares and Subordinated Notes at any time. Separation of the IPSS will occur automatically upon a repurchase, redemption or maturity of the Subordinated Notes. Similarly, any holder of Common Shares and Subordinated Notes may, at any time, combine the applicable number of Common Shares and principal amount of Subordinated Notes to form IPSS. See "Description of IPSS".

The Subordinated Notes will mature on November 18, 2016. On or after November 18, 2009, the Company will have the option to redeem the Subordinated Notes in whole or in part at any time, for cash, at a redemption price equal to the principal amount of the Subordinated Notes plus a specified premium, which premium decreases over time. See "Description of Subordinated Notes".

The Debentures will be dated the date of the closing of the Offering and will bear interest at an annual rate of 6.25%, payable semi-annually in arrears on April 30 and October 31 in each year (or the immediately following business day if any interest payment date would not otherwise be a business day) commencing on April 30, 2007. The April 30, 2007 interest payment will represent accrued interest for the period from the closing date of the Offering up to, but excluding April 30, 2007. See "Description of Debentures".

### Conversion Privilege

Each Debenture will be convertible into IPSS at the option of the holder at any time prior to the close of business on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures, at a conversion price of Cdn\$12.40 per IPS (the "Conversion Price"), being a ratio of approximately 80.6452 IPSS per Cdn\$1,000 principal amount of Debentures, subject to adjustment in accordance with the trust indenture governing the terms of the Debentures. Holders converting their Debentures will receive accrued and unpaid interest thereon for the period from the last interest payment date on their Debentures to, but not including, the date of conversion. Further particulars concerning the conversion privilege, including provisions for the adjustment of the Conversion Price in certain events, are set out under "Description of Debentures — Conversion Privilege". A holder of Debentures will not be entitled to deferred tax treatment on the conversion into IPSS, redemption or repayment at maturity of such Debentures. See "Certain Canadian Federal Income Tax Considerations".

The Debentures may not be redeemed by the Company on or before October 31, 2009 (except in the case of a change of control). Thereafter, but prior to the Maturity Date, the Debentures may be redeemed by the Company, in whole or in part from time to time, on not more than 60 days' and not less than 30 days' prior notice, at a redemption price equal to the principal amount thereof plus accrued and unpaid interest, provided that the weighted-average trading price of the IPSS on the Toronto Stock Exchange (the "TSX") for the 20 consecutive trading days ending five trading days preceding the date on which notice of redemption is given is at least 125% of the Conversion Price. Further particulars of the interest, redemption, repurchase and maturity provisions of the Debentures are set out under "Description of Debentures".

™ "Income Participating Securities" and "IPS" are trademarks of BMO Nesbitt Burns Corporation Limited.

(continued on next page)

(continued from cover)

The Company will allocate the price paid for each IPS offered hereunder on the basis of Cdn\$4.90 to the Common Share and Cdn\$5.65 to the Subordinated Notes and by purchasing an IPS, the holder is deemed to agree to such allocation and agrees to not take a contrary position for any purpose. The Canadian and U.S. tax consequences of acquiring, holding and disposing of the Common Shares and Subordinated Notes represented by IPSs may, in part, depend on the Canada Revenue Agency (the "CRA") and United States Internal Revenue Service (the "IRS") agreeing with this allocation. See "Certain Canadian Federal Income Tax Considerations" and "Certain U.S. Federal Income Tax Considerations". Distributions on the IPSs consist of interest payments on the Subordinated Notes and dividend payments on the Common Shares represented thereby. Unless a non-U.S. holder provides appropriate documentation establishing entitlement to a reduction or elimination of United States withholding tax, a 30% United States withholding tax will be assessed on interest payments paid on the Subordinated Notes and Debentures to that non-U.S. holder. See "Certain U.S. Federal Income Tax Considerations".

The earnings coverage ratio in respect of the Company's indebtedness for the 12 months ended December 31, 2005 and June 30, 2006 would have been less than one-to-one after giving effect to the additional debt incurred in this Offering and other debt incurred since June 30, 2006. See "Earnings Coverage Ratios".

The issued and outstanding IPSs are listed on the TSX. There is currently no market through which the Debentures may be sold and purchasers may not be able to resell the Debentures purchased under this short form prospectus. This may affect the pricing of the Debentures in the secondary market, the transparency and availability of trading prices, the liquidity of the Debentures, and the extent of issuer regulation. See "Risk Factors". The TSX has conditionally approved the listing of the IPSs (and the Common Shares forming part of such IPSs), the Debentures and the IPSs issuable upon conversion of the Debentures (and the Common Shares forming part of such IPSs) qualified by this short form prospectus. Listing is subject to the Company fulfilling all of the listing requirements of the TSX on or before December 21, 2006. On September 19, 2006, the last trading day prior to the public announcement of the Offering, the closing price of the IPSs on the TSX was Cdn\$10.73 per IPS.

**Price: Cdn\$10.55 per IPS**  
**Price: Cdn\$1,000 per Debenture**

	Price to the Public <sup>(1)</sup>	Underwriters' Fee	Net Proceeds <sup>(2)</sup>
Per IPS .....	Cdn\$10.55	Cdn\$0.5275	Cdn\$10.0225
Total IPS Offering .....	Cdn\$90,002,050	Cdn\$4,500,103	Cdn\$85,501,948
Per Debenture .....	Cdn\$1,000	Cdn\$40	Cdn\$960

(1) The offering price of the Securities has been determined through negotiation between the Company and the Underwriters (as defined herein).

(2) Before deducting the expenses of the Offering which are estimated to be approximately Cdn\$2.0 million. A portion of the expenses of the Offering will be allocated to the Existing Investors.

An investment in the IPSs is subject to a number of risks that should be considered by a prospective investor. A return on your investment in IPSs is not comparable to the return on an investment in a fixed income security. The recovery of an initial investment in IPSs is at risk, and the anticipated return on an investor's investment in IPSs is based on many performance assumptions. Although the Company intends to make monthly distributions of its available cash to holders of IPSs, these cash distributions are not assured and may be reduced or suspended. The actual amount distributed by the Company on the Common Shares and its ability to pay interest on the Subordinated Notes and Debentures will depend on numerous factors, including Atlantic Holdings' financial performance, debt covenants and obligations, working capital requirements, future capital requirements, and the deductibility for U.S. federal income tax purposes of interest payments on the Subordinated Notes and the Debentures, all of which are susceptible to a number of risks. The market value of the IPSs may deteriorate if the Company is unable to make scheduled interest payments on the Subordinated Notes or otherwise meet its cash distribution targets in the future, and any such deterioration may be material. Investing in the IPSs and Debentures involves risks that should be considered by a prospective investor. See "Risk Factors".

Dominion Bond Rating Service Limited ("DBRS") has confirmed, as of September 22, 2006, a stability rating of STA-3 (low) with respect to the IPSs. Similar to units of income funds rated STA-3, IPSs rated STA-3 are considered by DBRS to have good stability and sustainability of distributions per IPS. See "Description of IPSs".

It is important for an investor to consider the particular risk factors that may affect the stability of the distributions paid by the Company on IPSs. See, for example, "Revenue May be Reduced Upon Expiration or Termination of PPFS", "Predicting Project Cash Flows Over the Long Term Is Difficult", "Financing Arrangements Could Impact the Business of the Company" and "Sufficient Capital May Not be Available to Fund Acquisitions, Investments, Expansions or Capital Expenditures" under the heading "Risk Factors" in the AIF (as defined herein) incorporated by reference herein.

BMO Nesbitt Burns Inc., National Bank Financial Inc., RBC Dominion Securities Inc., Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation (collectively, the "Underwriters"), as principals, conditionally offer the Securities, subject to prior sale, if, as and when issued by the Company and accepted by the Underwriters in accordance with the conditions contained in the Underwriting Agreement referred to under "Plan of Distribution" and subject to approval of certain legal matters on behalf of the Company by Goodmans LLP and Goodwin Procter LLP and on behalf of the Underwriters by Blake, Cassels & Graydon LLP.

Affiliates of BMO Nesbitt Burns Inc. are lenders to a subsidiary of the Company under an existing credit facility and the Acquisition Credit Facility (as defined herein). The Company intends to use a portion of the proceeds from the Offering to repay a portion of its indebtedness under the Acquisition Credit Facility. Consequently, the Company may be considered a "connected issuer" of BMO Nesbitt Burns Inc. under applicable securities laws. See "Use of Proceeds" and "Plan of Distribution".

Subscriptions for the IPSs and the Debentures will be received subject to rejection or allotment, in whole or in part, and the right is reserved to close the subscription books at any time without notice. Book-entry only certificates representing the IPSs and/or the Debentures will be issued in registered form to The Canadian Depository for Securities Limited ("CDS") or its nominee as registered global securities and will be deposited with CDS on the date of issue of the IPSs and/or the Debentures, which is expected to occur on or about October 11, 2006 or such later date as the Underwriters and the Company may agree, but in any event no later than October 31, 2006. Holders of IPSs and/or Debentures will not be entitled to receive physical certificates representing their Securities. See "Plan of Distribution", "Description of IPSs" and "Description of Debentures".

Subscribers under the Offering will be eligible to receive the distribution in the amount of Cdn\$0.0884 per IPS anticipated to be paid by the Company on or about November 30, 2006 to IPS holders of record on October 31, 2006.

The Guarantors (as defined herein) are incorporated, continued or otherwise organized under the laws of a foreign jurisdiction or reside outside of Canada. Although the Guarantors have appointed the Company, Suite 1900, 355 Burrard Street, Vancouver, British Columbia, Canada, V6C 2G8 as their agent for service of process in Canada, it may not be possible for investors to collect from the Guarantors judgments obtained in Canadian courts predicated on civil liability provisions of securities legislation.

### DOCUMENTS INCORPORATED BY REFERENCE

**Information has been incorporated by reference in this short form prospectus from documents filed with securities commissions or similar authorities in Canada.** Copies of the documents incorporated herein by reference may be obtained on request without charge from the Corporate Secretary of Atlantic Power Management, LLC, (the "Manager") the manager of the Company, at 200 Clarendon Street, 55<sup>th</sup> Floor, Boston, Massachusetts, U.S.A., 02117, telephone 617.531.6379. For the purpose of the Province of Québec, this simplified short form prospectus contains information to be completed by consulting the permanent information

record. A copy of the permanent information record may be obtained from the Corporate Secretary of the Manager at the above-mentioned address and telephone number. In addition, copies of the documents incorporated by reference herein may be obtained from the securities commissions or similar authorities in Canada through the Internet at [www.sedar.com](http://www.sedar.com).

The following documents, filed with the securities commissions or similar authorities in the provinces and territories of Canada, are specifically incorporated by reference into and form an integral part of this short form prospectus:

- (a) the annual information form of the Company dated March 30, 2006 (the "AIF"), including the business acquisition report of the Company dated November 21, 2005 filed in connection with the Company's acquisition of Epsilon Power Partners, LLC (which is incorporated by reference in the AIF), excluding the references contained therein that provide that the interim unaudited consolidated financial statements of Epsilon Power Partners, LLC for the three and six month periods ended June 30, 2005 were not reviewed by the auditors of Epsilon Power Partners, LLC;
- (b) the management information circular of the Company dated May 10, 2006 distributed in connection with the annual meeting of shareholders held on June 7, 2006;
- (c) the consolidated financial statements of the Company for the year ended December 31, 2005 and the period from November 18, 2004 to December 31, 2004, together with the notes thereto and the auditors' report thereon;
- (d) management's discussion and analysis of financial condition and results of operations of the Company for the year ended December 31, 2005;
- (e) the unaudited consolidated interim financial statements of the Company for the three and six months ended June 30, 2006 and 2005, together with the notes thereto;
- (f) management's discussion and analysis of financial condition and results of operations of the Company for the three and six months ended June 30, 2006;
- (g) the material change report of the Company dated September 21, 2006 filed in connection with the increase in annual per IPS cash distributions and the Acquisition; and
- (h) the material change report of the Company dated September 21, 2006 filed in connection with the Offering.

Any material change reports (excluding confidential reports), business acquisition reports, interim financial statements, annual financial statements and the auditors' report thereon, management's discussion and analysis of financial condition and results of operations in respect of the periods covered by such interim or annual financial statements, annual information forms and management information circulars filed by the Company with the securities commissions or similar authorities in the provinces and territories of Canada subsequent to the date of this short form prospectus and prior to the termination of this distribution shall be deemed to be incorporated by reference in this short form prospectus.

**Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purposes of this short form prospectus to the extent that a statement contained herein or in any other subsequently filed document which also is, or is deemed to be, incorporated by reference herein modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document that it modifies or supersedes. The making of a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that was required to be stated or that was necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this short form prospectus.**

## MEANING OF CERTAIN REFERENCES

Throughout this short form prospectus, unless otherwise indicated, all references to “GAAP” or “Canadian GAAP” are to accounting principles generally accepted in Canada. The financial statements of the Company contained in this short form prospectus have been prepared in accordance with GAAP. The historical financial statements of Trans-Elect NTD Holdings Path 15, LLC (“Path 15 Holdco”) included in this short form prospectus have been prepared in accordance with accounting principles generally accepted in the United States (“US GAAP”) which conforms in all significant respects with Canadian GAAP.

## CURRENCY AND EXCHANGE RATE INFORMATION

In this short form prospectus, references to “Cdn\$” and “Canadian dollars” are to the lawful currency of Canada and references to “\$”, “US\$” and “U.S. dollars” are to the lawful currency of the United States. All dollar amounts herein are in U.S. dollars, unless otherwise stated.

The business of the Projects (as defined below) and Path 15 Holdco is conducted primarily in the United States and their revenues and expenses are denominated, earned and incurred primarily in U.S. dollars. Accordingly, the *pro forma* consolidated financial statements of the Company and the historical financial statements of Path 15 Holdco included in this short form prospectus are presented in U.S. dollars. The following table sets forth, for each period indicated, the high and low exchange rates for one U.S. dollar, expressed in Canadian dollars, the average of such exchange rates on the last day of each month during such period and the exchange rate at the end of such period, based on the noon rate in Canadian dollars as quoted by the Bank of Canada (the “Noon Buying Rate”). On September 29, 2006, the Noon Buying Rate was US\$1.00 = Cdn\$1.1153.

	Six Months Ended June 30,		12 Months Ended December 31,	
	2006	2005	2005	2004
High . . . . .	\$1.1726	\$1.2704	\$1.2704	\$1.3968

## FORWARD-LOOKING STATEMENTS

Certain statements in this short form prospectus are “forward-looking statements”, which reflect the expectations of the Manager regarding future growth, results of operations, performance and business prospects and opportunities of the Company, Atlantic Holdings, the Projects and Path 15 Holdco. Such forward-looking statements reflect current expectations regarding future events and operating performance and speak only as of the date of this short form prospectus. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by which such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under “Risk Factors”. Although the forward-looking statements contained in this short form prospectus are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this short form prospectus and the Company assumes no obligation to update or revise them to reflect new events or circumstances.

## PROSPECTUS SUMMARY

*The following is a summary of certain information contained in this short form prospectus and should be read together with the more detailed information and financial data and statements contained elsewhere or incorporated by reference in this short form prospectus. Reference is made to the "Glossary of Terms" for definitions of certain terms used in this short form prospectus.*

### **Atlantic Power Corporation**

The Company is a corporation continued under the laws of the Province of British Columbia on July 8, 2005. The Company, through Atlantic Holdings, owns interests in a diversified portfolio of 15 power generation projects and one electric transmission project (collectively, the "Projects", and individually, a "Project") located predominantly in major markets in the United States. Fifteen of the Projects are located in nine states in the U.S. and one Project is located in Jamaica. The power generation Projects have an aggregate gross electric generation capacity of approximately 2,160 MW, and Atlantic Holdings' net economic interest in the electric generation capacity of the Projects is approximately 860 MW.

### **Background to the Offering and Use of Proceeds**

On September 15, 2006, the Company, through a subsidiary of Atlantic Holdings, completed the indirect acquisition (the "Acquisition") of 100% of the equity interests in Path 15 Holdco. Path 15 Holdco (indirectly through Trans-Elect NTD Path 15, LLC ("Path 15 Opco")) owns approximately 72% of the transmission system rights ("TSRs") in the transmission line upgrade along the Path 15 transmission corridor located in central California (the "Path 15 Project"). The purchase price for Path 15 Holdco was partially financed through borrowings under a term loan credit facility (the "Acquisition Credit Facility") in the amount of \$88 million, which was drawn on the closing of the Acquisition. Approximately Cdn\$42 million of the net proceeds of the Offering will be used to repay a portion of the amount outstanding under the Acquisition Credit Facility. See "Path 15 Project — Acquisition Credit Facility" and "Use of Proceeds".

The remaining portion of the net proceeds of the Offering (approximately Cdn\$99 million) will be used by the Company to indirectly redeem equity interests of Atlantic Holdings held by subsidiaries of ArcLight Energy Partners Fund I, L.P. ("Fund I"), ArcLight Energy Partners Fund II, L.P. ("Fund II") and another investor (collectively, the "Existing Investors") pursuant to the liquidity rights granted to the Existing Investors at the time of the Company's initial public offering. On September 12, 2006, the Existing Investors delivered a liquidity notice to Atlantic Holdings requesting Atlantic Holdings to purchase, for cancellation, a portion of their common membership interests and Class B preferred membership interests in Atlantic Holdings.

Following closing of the Offering and the transactions contemplated hereby, the Company will have increased its ownership in Atlantic Holdings from 70.1% to an approximate 86% common membership interest in Atlantic Holdings. The Existing Investors will hold an approximate 14% common membership interest in Atlantic Holdings.

## THE OFFERING

<b>Offering:</b>	8,531,000 IPSs and Cdn\$60,000,000 aggregate principal amount of Debentures.
<b>Price:</b>	Cdn\$10.55 per IPS and Cdn\$1,000 per Debenture.
<b>Gross Proceeds of the Offering:</b>	Cdn\$150,002,050.
<b>Expected Closing Date of the Offering:</b>	On or about October 11, 2006.
<b>IPS Attributes:</b>	
<i>IPS Components:</i>	Each IPS represents: (a) one Common Share; and (b) Cdn\$5.767 aggregate principal amount of Subordinated Notes.  The ratio of Common Shares to principal amount of Subordinated Notes represented by an IPS is subject to change in the event of a share split, consolidation or reclassification, or upon a partial redemption or repurchase of the Subordinated Notes.
<i>Separation and Recombination:</i>	Holder of IPSs have the right to separate the IPSs into Common Shares and Subordinated Notes at any time. Separation of the IPSs will occur automatically upon a repurchase, redemption or maturity of the Subordinated Notes. Similarly, holders of Common Shares and Subordinated Notes may, at any time, combine the applicable number of Common Shares and principal amount of Subordinated Notes to form IPSs. See "Description of IPSs".
<i>Rating:</i>	DBRS has confirmed, as of September 22, 2006, a stability rating of STA-3 (low) with respect to the IPSs. Similar to units of income funds rated STA-3, IPSs rated STA-3 are considered by DBRS to have good stability and sustainability of distributions per IPS. See "Description of IPSs".
<b>Debenture Attributes:</b>	
<i>Debentures Outstanding:</i>	Cdn\$60,000,000 aggregate principal amount of Debentures will be outstanding following the completion of the Offering.
<i>Market:</i>	The TSX has conditionally approved the listing of the Debentures. Listing is subject to the Company fulfilling all of the requirements of the TSX on or before December 21, 2006.
<i>Interest Rate:</i>	6.25% per annum.
<i>Payment Dates:</i>	Interest will be payable semi-annually in arrears on April 30 and October 31 in each year (or the immediately following business day if any interest payment date would not otherwise be a business day) commencing on April 30, 2007. The April 30, 2007 interest payment will represent accrued interest for the period from the closing date of the Offering up to, but excluding April 30, 2007. See "Description of Debentures — General".
<i>Maturity Date:</i>	The Debentures will mature on October 31, 2011.
<i>Conversion:</i>	Each Debenture will be convertible into IPSs at the option of the holder at any time prior to the close of business on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures, at a conversion price of Cdn\$12.40 per IPS, being a ratio of approximately 80.6452 IPSs per

Cdn\$1,000 principal amount of Debentures, subject to adjustment in accordance with the trust indenture governing the terms of the Debentures. See "Description of Debentures — Conversion Privilege".

*Redemption:*

The Debentures may not be redeemed by the Company on or before October 31, 2009 (except in the case of a change of control). Thereafter, but prior to the Maturity Date, the Debentures may be redeemed by the Company, in whole or in part from time to time, at the option of the Company, on not more than 60 days' and not less than 30 days' prior notice, at a redemption price equal to the principal amount thereof plus accrued and unpaid interest, provided that the weighted-average trading price of the IPSs on the TSX for the 20 consecutive trading days ending five trading days preceding the date on which notice of redemption is given is at least 125% of the Conversion Price. See "Description of Debentures — Redemption and Purchase".

*Payment Upon Redemption or Maturity:*

On redemption or on the Maturity Date, the Company will repay the indebtedness represented by the Debentures by paying to the Debenture Trustee (as defined herein) in lawful money of Canada an amount equal to the principal amount of the outstanding Debentures, together with accrued and unpaid interest thereon. See "Description of Debentures — Payment Upon Redemption or Maturity".

*Put Right Upon a Change of Control:*

Upon the occurrence of certain change of control events involving the Company or Atlantic Holdings, each holder of Debentures may require the Company to purchase, on the date which is within 30 days following the giving of notice of the Change of Control (the "Put Date"), all or any part of such holder's Debentures at a price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, up to, but excluding, the Put Date. See "Description of Debentures — Put Right Upon a Change of Control".

*Security and Guarantees:*

The Debentures will be secured by a pledge of the Company's membership interests in Atlantic Holdings and will be guaranteed by Atlantic Holdings and certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries at the time of the closing of the Offering. The guarantee of Atlantic Holdings will be secured by a pledge of the membership interests of Teton Power Funding, LLC and Epsilon Power Funding, LLC (the "Project Holding Entities") and the guarantees of certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries will be secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases. See "Description of Debentures — Security and Guarantees".

*Ranking:*

The Debentures will be secured indebtedness of the Company, will rank senior to Subordinated Indebtedness including the Subordinated Notes, but will rank junior to Senior Secured Indebtedness including indebtedness outstanding under the Company's amended credit facility (the "Amended Credit Facility") and the Acquisition Credit Facility. Additionally, the Debentures will rank senior to any unsecured indebtedness of the Company (including trade payables) to the extent of the security therefor. See "Description of Debentures — Ranking".

*Risk Factors:*

Prospective purchasers should carefully review and evaluate certain risk factors relating to an investment in the Debentures, including:

- repayment of the Debentures;
- trading market for Debentures;
- prior ranking indebtedness;
- absence of covenant protection;
- redemption prior to maturity;
- inability of the Company to purchase Debentures; and
- conversion following certain transactions.

See “Risk Factors — Risks Related to the Debentures”.

## THE COMPANY, ATLANTIC HOLDINGS, THE MANAGER AND ARCLIGHT

### The Company

The Company is a corporation continued under the laws of the Province of British Columbia on July 8, 2005. The registered office of the Company is located at 355 Burrard Street, Suite 1900, Vancouver, British Columbia, V6C 2G8 and the head office of the Company is located at 200 Clarendon Street, 55<sup>th</sup> Floor, Boston, Massachusetts, USA 02117. The Company, through Atlantic Holdings, owns interests in the Projects, which are located predominantly in major markets in the United States. Fifteen of the Projects are located in nine states in the U.S. and one Project is located in Jamaica. The power generation Projects have an aggregate gross electric generation capacity of approximately 2,160 MW, and Atlantic Holdings' net economic interest in the electric generation capacity of the Projects is approximately 860 MW.

The Company currently holds 70.1% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Holdings. The Existing Investors hold 29.9% of the common membership interests and all of the Class B preferred membership interests in Atlantic Holdings. Following completion of the Offering and the transactions contemplated hereby, the Company will hold approximately 86% of the common membership interests all of the Class A preferred membership interests and all of the senior membership interests in Atlantic Holdings and the Existing Investors will hold approximately 14% of the common membership interests and all of the Class B preferred membership interests in Atlantic Holdings. The senior membership interests will be issued by Atlantic Holdings to the Company in exchange for the net proceeds of the sale of the Debentures under the Offering.

### Atlantic Holdings

Atlantic Holdings is a Delaware limited liability company. The registered office of Atlantic Holdings is located at 2711 Centerville Road, Suite 400, Wilmington, Delaware, USA 19808 c/o Corporation Service Company and the head office of Atlantic Holdings is located at 200 Clarendon Street, 55<sup>th</sup> Floor, Boston, Massachusetts, USA 02117. In connection with the Offering, the limited liability company agreement (the "LLC Agreement") governing Atlantic Holdings will be amended to create a new class of senior membership interests that will be issued to the Company in exchange for the net proceeds of the sale of the Debentures under the Offering. In addition, as a result of the redemption of membership interests of Atlantic Holdings held by the Existing Investors using a portion of the proceeds of the Offering, the ownership interest in Atlantic Holdings held by the Existing Investors will fall below 20% and, pursuant to the terms of the LLC Agreement, the Existing Investors will only be entitled to appoint one manager to the board of managers of Atlantic Holdings. Consequently, effective on Closing, Robb Turner will resign as a manager of Atlantic Holdings. In order to maintain the size of the board of managers of Atlantic Holdings following Mr. Turner's resignation (which, under the current terms of the LLC Agreement, would decrease to six managers), the amendments to the LLC Agreement will provide that the size of the board of managers will remain at seven managers. The board of managers has approved the appointment of Patrick Welch, the chief financial officer of the Manager, to fill the vacant position on the board of managers.

### The Manager

The Manager is a Delaware limited liability company owned by investment funds managed by ArcLight Capital Partners, LLC ("ArcLight"). The Manager provides management and administrative services to the Company and its subsidiaries pursuant to the terms of a management agreement dated as of November 10, 2004. The Manager manages the business with the primary objective of providing holders of IPSs with stable and sustainable cash distributions in the form of interest payments on the Subordinated Notes and dividends on the Common Shares. The Manager is also focused on identifying additional acquisitions and investments for the Company, including acquisitions of, or investments in, power, energy, utility and infrastructure assets primarily in Canada and the U.S.

### ArcLight

ArcLight was founded in 2001 and is a leading specialized private equity firm exclusively focused on the energy industry. Through its three private equity funds, ArcLight manages over \$4.6 billion of private equity

capital, of which nearly \$2.5 billion has already been committed or invested in over 60 transactions. ArcLight has substantial investments in power generation, gas storage, gas distribution, coal mining, distributed generation, cogeneration and other combined heat and power facilities, electric power transmission and oil and gas production assets.

### **Recent Developments**

The following is a summary of the significant developments in the operations and affairs of the Company which have occurred since December 31, 2005.

#### *Acquisition of Path 15 Holdco*

On September 15, 2006, the Company, through a subsidiary of Atlantic Holdings, completed the acquisition of 100% of the equity interests in Path 15 Holdco from New Transmission Development Company, United States Power Fund, L.P., Cardinal Power Funding, LLC (an affiliate of ArcLight) and KB TransValley LLC (collectively, the "Vendors"). Path 15 Holdco (indirectly through Path 15 Opco) owns approximately 72% of the TSRs in the transmission line upgrade along the Path 15 transmission corridor located in central California. The purchase price for the equity interests in Path 15 Holdco was approximately \$85.5 million. In connection with this transaction, the Company, through Atlantic Holdings, entered into the Acquisition Credit Facility in the amount of \$88 million, which was drawn on the closing of the Acquisition. For further details on the Acquisition see "Path 15 Project".

#### *Increase in the Company's Distributions*

On September 15, 2006, the Company announced an increase in its monthly distribution on the IPSs by Cdn\$0.0025 per IPS per month (Cdn\$0.03 annually). The first distribution at the increased rate will be paid on or about October 31, 2006 to IPS holders of record on September 29, 2006.

## **PATH 15 PROJECT**

### **Overview**

The Path 15 Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in central California to help alleviate what has been a chronic north-south transmission congestion point. The Path 15 Project, along with two other previously existing transmission lines in the corridor, are the only significant connection points between the electrical grids of northern and southern California. Commencing commercial operations in December 2004, the Path 15 Project increased transmission capacity from southern to northern California by approximately 1,500 MW to 5,400 MW (approximately enough electricity to power 1.5 million households), and increased transmission capacity from northern to southern California by approximately 1,100 MW. This transmission line facilitates the movement of power from the Pacific Northwest to southern California in the summer months and from generators in southern California to northern California in the winter months.

The Western Area Power Administration (the "WAPA"), a federal power marketing entity that was active in the development and construction of the Path 15 Project, owns the transmission line and real estate rights associated with the Path 15 Project, while Path 15 Opco owns 72% of the TSRs associated with the Path 15 Project. The WAPA is also responsible for the operation and maintenance of the Path 15 Project at the expense of Path 15 Opco. The TSRs entitle Path 15 Opco to receive revenues that are regulated and approved by the United States Federal Energy Regulatory Commission (the "FERC"), currently being collected and remitted to owners of TSRs by the California Independent System Operator (the "CAISO"). The revenue received by Path 15 Opco bears minimal operation risk since rates are based on a FERC-determined revenue requirement. As such, in the event the Path 15 Project experiences a temporary lapse in service, Path 15 Opco would continue to receive monthly tariff payments from the CAISO.

The CAISO is a not-for-profit corporation that acts as a clearinghouse to settle third-party transactions involving the purchase and sale of power in California. In order for transmission facilities to become part of the transmission grid in California, owners of transmission assets must place their assets under the operational

control of the CAISO by entering into a standard transmission control agreement with the CAISO. The CAISO-operated grid encompasses approximately 75% of California for which the CAISO is responsible for matching net generation and loads. In general, the CAISO coordinates the dispatch of power generation, and manages the reliability of, and provides open access to, the transmission grid. The CAISO is responsible for charging transmission users for service through a transmission access charge ("TAC") and remits the TAC payments to the owners of the transmission assets.

Path 15 Opco has entered into a transmission control agreement with CAISO pursuant to which Path 15 Opco assigned its TSRs to the CAISO. In return for this assignment, Path 15 Opco receives compensation in the form of FERC-approved tariff rates remitted by the CAISO. The amount of tariffs paid to Path 15 Opco are not dependent upon the amount of capacity represented by the TSRs, the usage of the transmission capacity represented thereby or the availability of such transmission capacity. Rather, the amounts paid to Path 15 Opco are based upon permitted rates of return determined by FERC using a "cost of service" methodology. Based upon the rates of return established by the FERC, the CAISO sets system-wide TACs (which are collected from utilities and other service providers) at levels that are expected to produce the specific revenue targets established for transmission owners.

### **Acquisition Rationale**

The Manager believes that the Acquisition is consistent with the Company's objective to make accretive investments that sustain and grow its cash distributions per IPS and is in the best interests of the Company. The Acquisition provides the following benefits to the Company:

#### ***Long-Term Source of Regulated Cash Flow***

The revenue stream associated with the Path 15 Project represents a stable revenue stream, based on tariff rates regulated and approved by the FERC. It is anticipated that these revenues will decline modestly over time on a 30-year straight-line basis. Path 15 Opco receives payments from the CAISO based on approved revenue requirements. As a result, this revenue stream is not exposed to the risks that may arise from volatility in the volume of power generation and usage of the transmission system. In the event of a temporary lapse in service, Path 15 Opco would continue to receive monthly tariff payments.

The Path 15 Project is owned and operated by the WAPA, an experienced operator of transmission lines that operates and maintains approximately 17,000 miles of transmission lines, providing its customers with economical and reliable energy transmission. The operations of the Path 15 Project consist entirely of the transmission of electric power, which is not subject to the volatility that may arise from changes in the price of electricity or fuel.

#### ***Further Diversification***

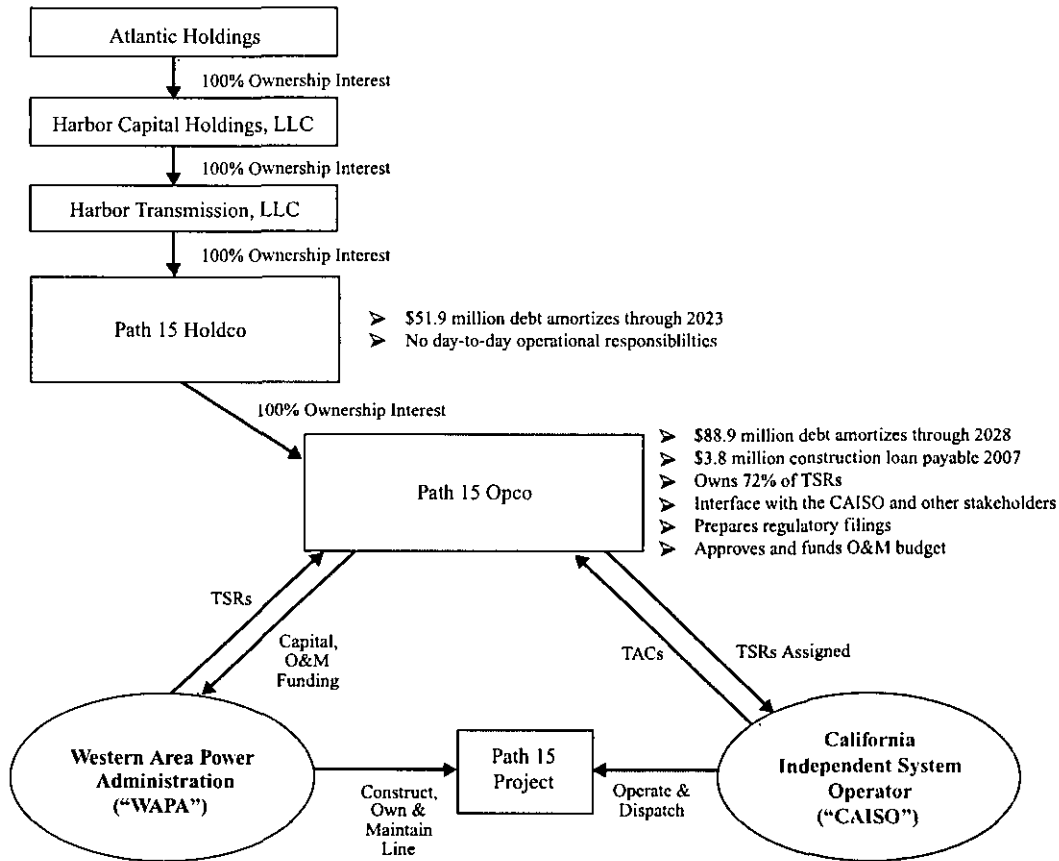

The Acquisition further diversifies the Company's portfolio of projects and expands the number of different operators that the Company relies on for its operation of the Projects.

#### ***Greater Scale and Liquidity***

If the Acquisition and the Offering had been completed on January 1, 2005, on a *pro forma* basis the Company would have generated revenue of approximately \$221 million for the 12 months ended December 31, 2005, an increase of approximately 19% over the amount of revenue that was generated. In addition, the book value of the Company's total assets, as at June 30, 2006, would have increased by approximately 34% as a result of the Acquisition. The issuance of additional IPSs to finance the Acquisition will increase the number of outstanding IPSs and the Manager expects that this will increase the volume of trading of the IPSs.

## Structure of Path 15 Holdco

The following chart illustrates the structure of Path 15 Holdco and the Company's indirect interest in the Path 15 Project.

## Regulation

The FERC's cost-of-service approach in setting rates allows the owner of transmission assets to receive annual revenues that provides the owner with the recovery of any prudently incurred operating costs, depreciation, income taxes and a return on capital. As of the date hereof, the FERC is in the final stages of approving the revenue requirement for 2005 to 2007. The revenue requirement approved for the Path 15 Project is subject to re-approval once every three years commencing in 2008. The Manager expects the FERC to continue to apply the cost-of-service methodology in its revenue requirement determinations.

The major components of the annual revenue requirement are:

- **Operating Expense:** Includes prudently incurred operations, maintenance, taxes (other than income taxes), administrative and general expenses incurred by the WAPA and Path 15 Opco.
- **Income Tax:** An allowance that provides for the recovery of deemed income taxes associated with the transmission business, which is calculated based on Path 15 Opco's taxable income.
- **Depreciation:** An allowance for a return of capital that provides for the depreciation of the regulated asset base, as approved by the FERC. This amount is based on the total cost of the asset.
- **Return on Investment:** A fair return on the capital invested or rate base taking into account the debt and common equity of the transmission business, a capital structure consisting of 50% debt and 50% equity.

The actual rate base used in calculating the return on investment component of the revenue requirement is intended to include all costs prudently incurred in the development, financing and construction of the Path 15 Project. For any given year, the rate base is comprised of:

- Net Plant in Service: Project regulatory book value, net of accumulated depreciation. The initial book value will be set at or near the original capital cost of the Path 15 Project, based on the approval of construction costs.
- Path 15 Opco's working capital.
- The balance of Path 15 Opco's prepaid accounts and reserves.
- A reduction based on Path 15 Opco's deferred taxes.

Certain specific amounts initially allowed in the rate base for Path 15 Opco for these categories are currently the subject of a review by the FERC. In addition, an initial FERC order permitting Path 15 Opco to include a tax allowance in its rates has been challenged in the United States Court of Appeals for the District of Columbia Circuit. As of the date hereof, these proceedings are still pending. An adverse finding in these proceedings could result in Path 15 Opco being required to refund a portion of the amounts collected since December 2004, and/or reduce the return on investment portion of rates. A portion of the purchase price for the interests in Path 15 Holdco was placed in escrow pending final resolution of the ratemaking issues being considered by the FERC, the details of which are described below under "— Purchase and Sale Agreement". See "Risk Factors — Risks Relating to the Path 15 Project — Unresolved Ratemaking Issues Under FERC Review Could Adversely Affect Cash Flows" and "— Income Tax Allowances Included by Path 15 Opco in its Rates have been Challenged by Certain Parties and Path 15 Opco may be Subject to a Refund Liability".

The return on investment component of the annual revenue requirement is determined based on an approved weighted average cost of capital ("WACC") applied to the current rate base. Each utility's WACC is approved by the FERC in ratemaking proceedings. For a discussion on pending ratemaking proceedings, please see "Risk Factors — Risks Related to the Path 15 Project — Unresolved Ratemaking Issues Under FERC Review Could Adversely Affect Cash Flows".

#### **FERC-Approved Ratemaking Inputs**

In June 2002, prior to the construction of the Path 15 Project, the FERC approved the following ratemaking inputs to apply specifically to the Path 15 Project:

- Depreciation: 30-year straight-line return on investment and any additional capex.
- Income Tax: Standard gross-up of equity return on investment for income tax.
- Return on Investment: Level revenue requirement for the first three years of the operation of the Path 15 Project based on an assumed capital structure comprised of 50% debt and 50% equity for the purpose of determining Path 15 Opco's WACC and a 13.5% after-tax return on equity.

Applying the principles described above, in October 2004 (just prior to the completion of construction of the Path 15 Project), Path 15 Opco established its current revenue requirement, totalling \$36.0 million annually.

#### **Project-Level Financing**

As of the date hereof, there is fixed rate, amortizing debt outstanding at both Path 15 Opco (\$88.9 million) and Path 15 Holdco (\$51.9 million). In addition, Path 15 Opco has outstanding a short-term loan due in 2007. This indebtedness is non-recourse to the Company and Atlantic Holdings.

#### **Purchase and Sale Agreement**

Pursuant to a purchase and sale agreement dated as of June 28, 2006 (the "Purchase and Sale Agreement"), a subsidiary of Atlantic Holdings agreed to purchase all of the equity interests in Path 15 Holdco, for a purchase price of approximately \$85.5 million. In addition, non-recourse debt at Path 15 Opco and Path 15 Holdco combined of approximately \$144.4 million remains in place. The Acquisition was completed on September 15,

2006 following receipt of FERC approval and in accordance with the Purchase and Sale Agreement. \$24.1 million of the purchase price was placed in escrow pending final resolution of two ratemaking issues being considered by the FERC. If the FERC's resolution of the outstanding rate issues is favourable to Path 15 Opco, a portion or all of the amount held in escrow will be released to the Vendors in accordance with a formula set forth in the Purchase and Sale Agreement. If the FERC's resolution of the outstanding rate issues is not favourable to Path 15 Opco, the purchase price for the Acquisition will be reduced in accordance with a formula set forth in the Purchase and Sale Agreement and a portion or all of the amount held in escrow will be returned to Atlantic Holdings. The Purchase and Sale Agreement includes representations and warranties that are customary for a transaction of this nature, including representations and warranties relating to certain fundamental matters of corporate existence, capacity and authorization, as well as operational and business matters relating to Path 15 Holdco and Path 15 Opco. The representations and warranties relating to certain fundamental matters survive until the expiry of applicable limitation periods, while those regarding operational and business matters relating to Path 15 Holdco and Path 15 Opco survive for a period of six months following closing. Atlantic Holdings has also agreed to waive and hold the Vendors harmless against any claims with respect to environmental matters.

### **Acquisition Credit Facility**

Atlantic Holdings arranged the Acquisition Credit Facility to provide for a term loan of up to \$100 million to assist in financing the Acquisition. The Acquisition Credit Facility was drawn in the amount of \$88 million upon the closing of the Acquisition. Loans under the Acquisition Credit Facility bear interest at a rate equal to a Eurodollar Rate or a U.S. Base Rate, plus an applicable margin to those rates. The Acquisition Credit Facility matures on September 14, 2007 unless repaid earlier in accordance with its terms. Amounts drawn under the Acquisition Credit Facility are secured by a guarantee by the Company and a pledge of the Company's membership interests in Atlantic Holdings and are guaranteed by certain of its direct and indirect, wholly-owned subsidiaries. The obligations of Atlantic Holdings are secured by a pledge of its membership interests in the Project Holding Entities and the guarantees of certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries are secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases. The Company intends to use approximately Cdn\$42 million of the net proceeds of the Offering to repay a portion of the outstanding balance under the Acquisition Credit Facility. The remainder of the outstanding balance under the Acquisition Credit Facility is expected to be repaid with the proceeds of a long-term loan which is anticipated to be put in place during the fourth quarter of 2006. See "Use of Proceeds".

The Acquisition Credit Facility contains customary representations, warranties, covenants (including restrictions on incurring additional indebtedness), conditions to funding and events of default.

The Acquisition Credit Facility is a direct obligation of Atlantic Holdings and is guaranteed by certain of the entities from which the Company receives its cash distributions and as a result, the amounts owing under the Acquisition Credit Facility and any interest thereon will be payable in priority to any cash distributions to holders of IPSs.

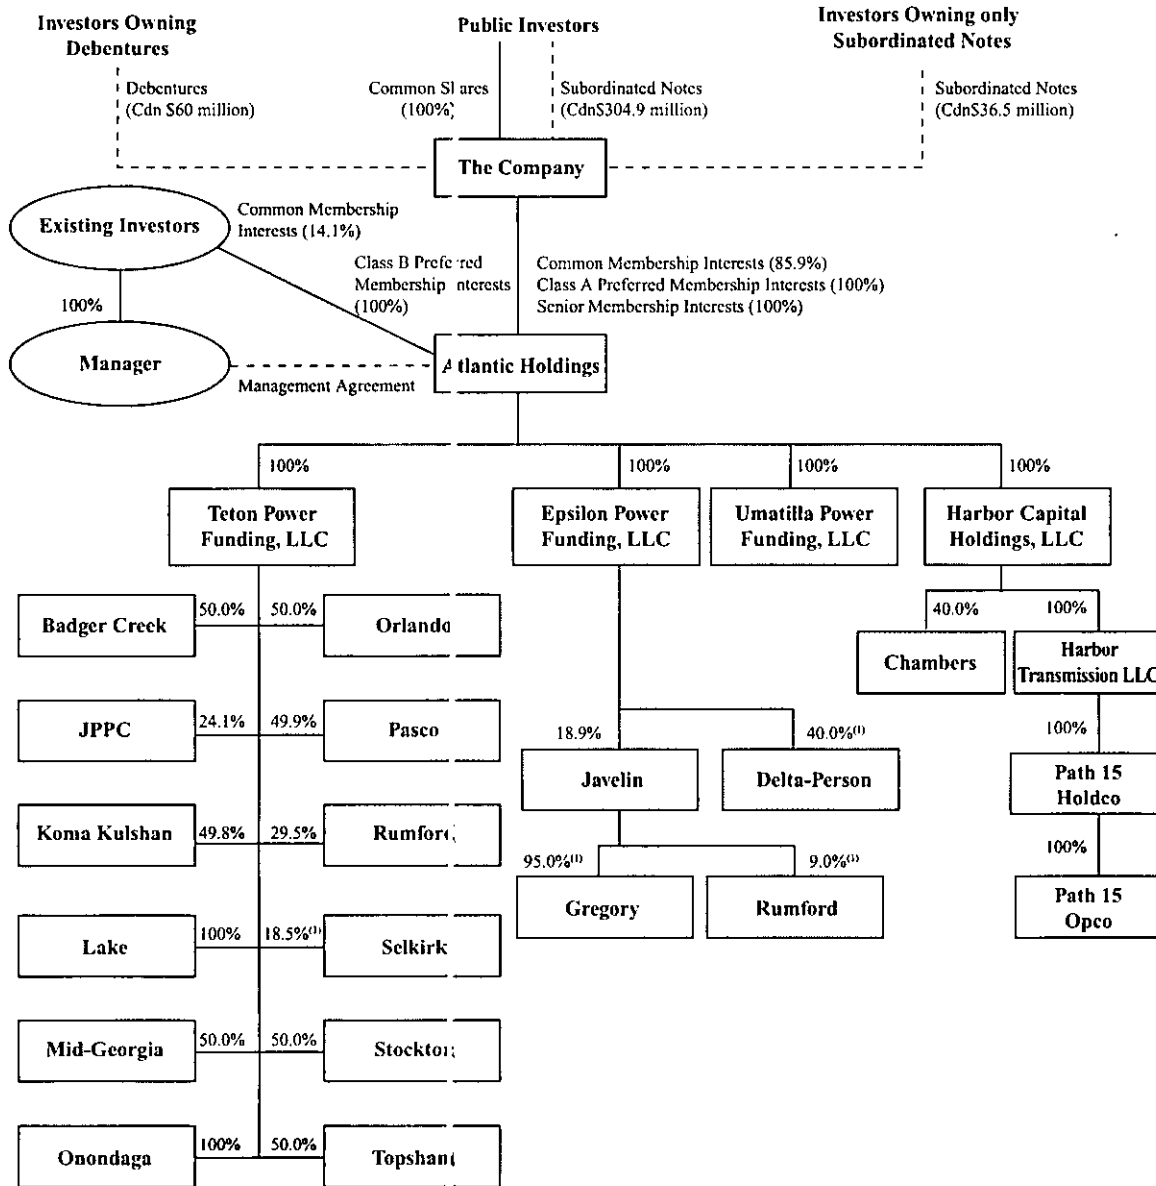

### **Amended Credit Facility**

The Company has amended its existing revolving credit facility to facilitate the completion of the Acquisition as well as to make certain other related changes, including to provide for a cross-default to the Acquisition Credit Facility.

At or prior to the closing of the Offering, it is anticipated that the revolving credit facility and the Acquisition Credit Facility will be further amended to provide for the Debentures and related security. It is anticipated that the amended revolving credit facility and Acquisition Credit Facility will also include cross-default provisions under which certain defaults and breaches under the Debentures will constitute an event of default under such credit facilities.

## STRUCTURE OF THE COMPANY

The following chart illustrates the principal structural and legal relationships through which the Company's operations will be conducted immediately after giving effect to the Offering, the use of proceeds and the Acquisition. Certain holding entities through which Teton Power Funding, LLC, Epsilon Power Funding, LLC and Harbor Capital Holdings, LLC indirectly hold interests in the Projects are omitted from this chart.

(1) Represents Atlantic Holdings' estimate of its share of the cash flow from the Project.

## USE OF PROCEEDS

The net proceeds to the Company of the Offering of approximately Cdn\$141 million will be used by the Company, directly or indirectly, for the following purposes: (i) approximately Cdn\$99 million to redeem equity interests of Atlantic Holdings held by the Existing Investors; and (ii) approximately Cdn\$42 million to partially repay the Acquisition Credit Facility.

After giving effect to the issuance of Securities pursuant to the Offering and the transactions contemplated hereby, the Company will own an approximate 86% common membership interest in Atlantic Holdings and the Existing Investors will own an approximate 14% common membership interest in Atlantic Holdings.

### CONSOLIDATED CAPITALIZATION OF THE COMPANY

The table below sets out the consolidated capitalization of the Company. The historical amounts at December 31, 2005 and at June 30, 2006 were derived from the consolidated balance sheets of the Company as at December 31, 2005 and June 30, 2006, which are incorporated by reference in this short form prospectus. The *pro forma* amounts at June 30, 2006 give effect to the Acquisition, the Offering and the use of proceeds, as described herein.

	At December 31, 2005 Historical	At June 30, 2006 Historical	At June 30, 2006 Pro Forma
	(000's)	(000's)	(000's)
<b>Indebtedness:</b>			
Revolving credit facility . . . . .	\$ 10,000	\$ —	\$ —
Long-Term Debt, including current portion <sup>(1)</sup> . . .	246,040	234,801	450,457
Debentures <sup>(2)</sup> . . . . .	—	—	53,144
Subordinated Notes and Separate Subordinated Notes <sup>(3)</sup> . . . . .	<u>251,844</u>	<u>262,352</u>	<u>305,078</u>
	<u>\$507,884</u>	<u>\$497,153</u>	<u>\$808,679</u>
<b>Shareholders' Equity:</b>			
Common Stock <sup>(3)</sup> . . . . .	\$148,025	\$148,025	\$184,364 <sup>(4)</sup>
Common Shares (Authorized — Unlimited) . . . .	44,339.5	44,339.5	52,870.5

(1) Excludes the Subordinated Notes and Separate Subordinated Notes. Total long-term liabilities, including the Subordinated Notes and Separate Subordinated Notes, was \$719,085 at December 31, 2005 and \$688,269 at June 30, 2006.

(2) Converted to U.S. dollars at the Bank of Canada's closing rate on September 20, 2006 of U.S.\$1.00 equals Cdn\$1.129.

(3) Historical amounts converted to U.S. dollars at the Bank of Canada's closing rate on the applicable balance sheet date. Adjustments to give effect to the Acquisition and the Offering converted at the Bank of Canada's closing rate on September 20, 2006 of U.S.\$1.00 equals Cdn\$1.129.

(4) Includes proceeds of the offering of IPSs of approximately \$36,339 net of commissions and transaction costs attributable to the Common Shares.

### EARNINGS COVERAGE RATIOS

The *pro forma* earnings coverage ratio set forth below has been prepared using *pro forma* financial information which has been prepared in accordance with Canadian GAAP. The *pro forma* earnings assume that there are no additional earnings derived from indebtedness incurred since June 30, 2006. Earnings coverage is equal to net income before interest expense on all long-term debt and income taxes, divided by interest expense on long-term debt (after giving effect to the Offering and the Acquisition and the repayment of a portion of the Acquisition Credit Facility as described herein).

In accordance with the presentation and measurement requirements of Canadian GAAP and after giving effect to the Offering, the Acquisition and the repayment of a portion of the Acquisition Credit Facility, the Company's *pro forma* interest requirements for all long-term debt, including the current portion, would have amounted to approximately \$46.0 million and approximately \$51.0 million for the 12 months ended December 31, 2005 and June 30, 2006, respectively. The Company's earnings before interest and income tax for the 12 months ended December 31, 2005 and June 30, 2006, respectively, was approximately \$31.4 million and approximately \$39.8 million which is 0.68 and 0.78 times the Company's *pro forma* interest requirements for the period. The additional earnings required to achieve an earnings coverage ratio of 1.0 would have been approximately \$14.6 million and approximately \$11.1 million for the 12 months ended December 31, 2005 and June 30, 2006, respectively.

The Company's *pro forma* earnings before interest and taxes after giving effect to the earnings of Path 15 Holdco for the year ended December 31, 2005 would have been approximately \$60.7 million resulting in a *pro forma* earnings coverage ratio of 1.32.

The Company has determined that the fair value of the holder option embedded in the Debentures will be nominal at the time of issue and as a result the entire amount of the Debentures has been classified as a liability.

### RECORD OF CASH DISTRIBUTIONS

The following table sets forth the relevant period, date of payment and the per IPS amount of the distributions paid by the Company on the IPSs from inception (in Canadian dollars):

<u>Period</u>	<u>Payment Date</u>	<u>Per IPS Amount (Cdn\$)</u>
November 2004	January 31, 2005	0.0361 <sup>(1)</sup>
December 2004	January 31, 2005	0.0834

May 2005	June 30, 2005	0.0834
June 2005	July 29, 2005	0.0834
July 2005	August 31, 2005	0.0834
August 2005	September 30, 2005	0.0834
September 2005	October 31, 2005	0.0859
October 2005	November 30, 2005	0.0859
November 2005	December 30, 2005	0.0859
December 2005	January 31, 2006	0.0859
January 2006	February 28, 2006	0.0859
February 2006	March 31, 2006	0.0859
March 2006	April 28, 2006	0.0859
April 2006	May 31, 2006	0.0859
May 2006	June 30, 2006	0.0859
June 2006	July 31, 2006	0.0859
July 2006	August 31, 2006	0.0859
August 2006	September 29, 2006	0.0859

(1) Includes distributions for the period from November 18, 2004, the date of completion of the IPO, to November 30, 2004.

The Company intends to continue to make distributions per IPS on a monthly basis in arrears on the last business day of each month to holders of record on the last business day of the preceding month. Subscribers who purchase IPSs pursuant to this Offering will be eligible to receive the distribution anticipated to be paid on or about November 30, 2006 to IPS holders of record on October 31, 2006.

On September 15, 2006, the Company announced an increase in its monthly distribution by Cdn\$0.0025 per IPS per month (Cdn\$0.03 annually). The first distribution at the increased rate will be paid on or about October 31, 2006 to IPS holders of record on September 29, 2006.

## DESCRIPTION OF IPSs

The Company is offering 8,531,000 IPSs in this Offering. Each IPS represents:

- one Common Share; and
- Cdn\$5.767 aggregate principal amount of Subordinated Notes.

The ratio of Common Shares to principal amount of Subordinated Notes represented by an IPS is subject to change in the event of a stock split, recombination or reclassification, or upon a partial redemption or repurchase of the Subordinated Notes.

DBRS confirmed, as of September 22, 2006, a stability rating of STA-3 (low) with respect to the IPSs. The stability rating is based on a rating scale developed by DBRS that provides an indication of both the stability and sustainability of an issuer's distributable income. Ratings categories range from STA-1 to STA-7, with STA-1 being the highest. DBRS further separates the ratings into high, middle and low to indicate where they fall within the ratings category. Ratings take into consideration the seven main factors of: (i) operating and industry characteristics; (ii) asset quality; (iii) financial profile; (iv) diversification; (v) size and market position; (vi) sponsorship/governance; and (vii) growth. Issuers rated at STA-3 are considered by DBRS to have good stability and sustainability of distributions per IPS, but performance may be more sensitive to economic factors, have greater cyclical tendencies, and may not be as well diversified as an issuer with a STA-2 rating, resulting in some potential for distributions per unit to fluctuate. Such issuers will not be above average in all areas of consideration, but will tend to outperform in many areas.

A stability rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by DBRS.

For additional information respecting the IPSs, including voluntary separation and recombination and automatic separation of the IPSs, see "Description of IPSs" at pages 36 to 39 of the AIF.

## DESCRIPTION OF SUBORDINATED NOTES

Following completion of the Offering, there will be approximately Cdn\$341 million aggregate principal amount of Subordinated Notes outstanding, including approximately Cdn\$49 million aggregate principal amount of Subordinated Notes to be issued pursuant to the Offering. The Subordinated Notes will be issued under the Subordinated Note Indenture, among the Company, Atlantic Holdings, Computershare Trust Company of Canada, as trustee and certain others.

For additional information respecting the Subordinated Notes, including security and guarantees, optional redemption and restrictive covenants, see "Description of Subordinated Notes" at pages 39 to 44 of the AIF. The summary of certain provisions of the Subordinated Note Indenture in the AIF is subject to, and is qualified in its entirety by reference to, all the provisions of the Subordinated Note Indenture, a copy of which is available at [www.sedar.com](http://www.sedar.com).

## INFORMATION REGARDING GUARANTORS

The Subordinated Notes and the Debentures are secured by a pledge of the Company's membership interests in Atlantic Holdings and are guaranteed by Atlantic Holdings and Teton Power Funding, LLC, Epsilon Power Funding, LLC, MP Power LLC, Teton East Coast Generation LLC, Teton Fuels Mid-Georgia LLC, Teton Selkirk LLC, Badger Power Generation I LLC, Badger Power Generation II LLC, Baker Lake Hydro LLC, Dade Investment, L.P., Geddes II Company LLC, Geddes Cogeneration Company LLC, MEP Rumford, LLC, NCP Dade Power LLC, NCP Houston Power LLC, NCP Pasco LLC, NCP Perry LLC, Olympia Hydro LLC, Onondaga Cogeneration Limited Partnership, Orlando Power Generation I LLC, Orlando Power Generation II LLC, Stockton Cogen (II) LLC, Teton Operating Services, LLC and Teton New Lake, LLC (the "Guarantors"). The guarantee of Atlantic Holdings is secured by a pledge of its membership interests in Teton Power Funding, LLC and Epsilon Power Funding, LLC and the guarantees of certain of the Guarantors are secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases.

The consolidated financial statements of the Company include the consolidated financial results of the Company and its Guarantor and non-Guarantor subsidiaries. Summary consolidating financial information of the Company, the Guarantors and the non-Guarantor subsidiaries of the Company as at and for the six month period ended June 30, 2006 and the year ended December 31, 2005 is presented in the table below. The selected financial information for the Company and for the Guarantors includes certain investments in subsidiaries accounted for on a cost basis and is therefore not presented in accordance with GAAP.

**Exemptions Granted**

The Company has received from the securities regulatory authorities in all of the provinces and territories of Canada an exemption from the requirements of Item 12 of Form 44-101F1 to provide certain additional disclosure in this short form prospectus for each of the Guarantors.

## DESCRIPTION OF DEBENTURES

The Debentures will be issued under and pursuant to the provisions of a trust indenture to be dated the date of the closing of the Offering (the "Indenture") between the Company and Computershare Trust Company of Canada (the "Debenture Trustee"). The Debenture Trustee also acts as trustee for the Subordinated Notes issued pursuant to the terms of the Subordinated Note Indenture. See "Description of Subordinated Notes".

The following description of the Debentures is a brief summary of their material attributes and characteristics, which does not purport to be complete and is qualified in its entirety by reference to the Indenture. The following summary uses words and terms which will be defined in the Indenture. For full particulars, reference is made to the Indenture.

### General

The aggregate principal amount of debentures authorized to be issued under the Indenture is unlimited. The Company may, from time to time, without the consent of the holders of the Debentures, issue additional debentures in addition to the Debentures offered hereby. The Debentures will be issuable only in denominations of Cdn\$1,000 and integral multiples thereof. At the closing of the Offering, the Debentures will be available for delivery in book-entry form only through the facilities of CDS. Holders of beneficial interests in the Debentures will not have the right to receive physical certificates evidencing their ownership of Debentures except under certain circumstances described under "— Book Entry, Delivery and Form". No fractional Debentures will be issued.

The Debentures will bear interest from the date of issue at a rate of 6.25% per annum payable semi-annually in arrears on April 30 and October 31 in each year, commencing on April 30, 2007 (each, an "Interest Payment Date"). The first interest payment will include accrued and unpaid interest for the period from the date of the closing of the Offering up to, but excluding April 30, 2007. Interest will be payable based on a 365-day year. The interest on the Debentures will be payable in lawful money of Canada as specified in the Indenture. At the option of the Company, subject to regulatory approval, the Company may deliver IPSs to its agent who shall sell such IPSs on behalf of the Company in order to raise funds to satisfy all or any part of the Company's obligations to pay interest on the Debentures, but in any event, the holders of Debentures shall be entitled to receive cash payments equal to the interest payable on the Debentures. See "— IPS Interest Payment Election". Any amounts paid or deemed to be paid as interest in respect of the Debentures will be subject to withholding tax as may be applicable.

The principal amount on the Debentures will be payable in lawful money of Canada as further described under "— Payment upon Redemption or Maturity" and "— Redemption and Purchase" and "— Put Right Upon a Change of Control" below.

The Debentures will be direct obligations of the Company and will be secured and will rank senior to the Company's obligations with respect to all existing and future Subordinated Indebtedness including the Subordinated Notes, but will rank junior to all existing and future Senior Secured Indebtedness including the Amended Credit Facility and the Acquisition Credit Facility as further described under "— Ranking" below. The Indenture will not restrict the Company from incurring additional indebtedness for borrowed money or otherwise from mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing.

### Conversion Privilege

The Debentures will be convertible at the holder's option into fully-paid, non-assessable and freely-tradeable IPSs at any time prior to 5:00 p.m. (Toronto time) on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures, at a conversion price of Cdn\$12.40 per IPS (the "Conversion Price"), being a ratio of approximately 80.6452 IPSs for each Cdn\$1,000 principal amount of Debentures. No adjustment will be made to the record date for distributions on IPSs issuable upon conversion or for interest accrued on Debentures surrendered for conversion; however, holders converting their Debentures shall be entitled to receive, in addition to the applicable number of IPSs, accrued and unpaid interest in respect thereof for the period from the date of

the latest Interest Payment Date to the date of conversion. Pursuant to the Indenture, a Debenture shall be deemed to be surrendered for conversion on the date on which it is so surrendered in accordance with the provisions of the Indenture and, in the case of a Debenture so surrendered by post or other means of transmission, on the date on which it is received in proper form by the Debenture Trustee at its principal offices in Toronto, provided that if a Debenture is surrendered for conversion on a day on which the register of IPSs is closed, the holder of the Debentures entitled to receive IPSs shall become the holder of record of such IPSs as at the date on which such register is next reopened. Notwithstanding the foregoing, no Debentures may be converted on any Interest Payment Date and during the five business days preceding April 30 and October 31 in each year, as the registers of the Debenture Trustee will be closed during such periods.

Subject to the provisions thereof, the Indenture will provide for the adjustment of the Conversion Price in certain events including: (a) the subdivision or consolidation of the outstanding IPSs; (b) the distribution of IPSs (or securities convertible into or exchangeable for IPSs) to all or substantially all holders of IPSs by way of dividend or distribution or otherwise; (c) the issuance of options, rights or warrants to holders of all or substantially all IPSs entitling them for a period of not more than 45 days to acquire IPSs or other securities convertible into or exchangeable for IPSs at less than 95% of the then Current Market Price of the IPSs; and (d) the distribution by the Company to all or substantially all holders of outstanding IPSs of (i) securities of any class other than IPSs, (ii) rights, options or warrants (excluding rights, options or warrants entitling the holders thereof for a period of not more than 45 days to subscribe for or purchase IPSs or securities convertible into IPSs), (iii) evidences of its indebtedness, or (iv) assets (excluding dividends or distributions paid (including payments on the Subordinated Notes) in the ordinary course). There will be no adjustment of the Conversion Price in respect of any event described in (a), (b), (c) or (d) above if, subject to prior regulatory approval, the holders of the Debentures are allowed to participate as though they had converted their Debentures prior to the applicable record date or effective date. The Company will not be required to make adjustments in the Conversion Price unless the cumulative effect of such adjustments would change the Conversion Price by at least 1%.

In the case of any reclassification or change (other than a change resulting only from consolidation or subdivision) of the IPSs (or either of the Common Shares or Subordinated Notes comprising the IPSs) or in case of any amalgamation, consolidation or merger of the Company with or into any other entity, or in the case of any sale, transfer or other disposition of the properties and assets of the Company as, or substantially as, an entirety to any other entity, or the liquidation, dissolution or winding-up of the Company, the terms of the conversion privilege shall be adjusted so that each Debenture shall, after such reclassification, change, amalgamation, consolidation, merger sale or conveyance or liquidation, dissolution or winding-up or other similar transactions, be exercisable for the kind and amount of securities or property of the Company, or such continuing, successor or purchaser entity, as the case may be, which the holder thereof would have been entitled to receive as a result of such reclassification, change, amalgamation, consolidation, merger or sale if on the effective date thereof it had been the holder of the number of IPSs into which the Debenture was convertible prior to the effective date of such reclassification, change, amalgamation, consolidation, merger or sale or conveyance or liquidation, dissolution or winding-up or other similar transactions.

Upon the conversion of Debentures into IPSs pursuant to the conversion privilege, the Company will allocate the fair market value of such Debentures between the Common Shares and Subordinated Notes represented by IPSs acquired on the conversion on a reasonable basis. Such determinations will be disclosed in the continuous disclosure documentation of the Company as filed with the applicable securities regulators from time to time and by purchasing a Debenture, the holder is deemed to agree to such allocation and agrees not to take a contrary position for any purpose.

No fractional IPSs will be issued on any conversion of the Debentures, but in lieu thereof the Company shall satisfy such fractional interest by a cash payment equal to the Current Market Price of such fractional interest.

## **Redemption and Purchase**

The Debentures may not be redeemed by the Company on or prior to October 31, 2009 (except in the case of a change of control). Thereafter, but prior to the Maturity Date, the Debentures may be redeemed in whole or in part from time to time at the option of the Company on not more than 60 days' and not less than 30 days' prior notice, at a redemption price equal to the principal amount thereof plus accrued and unpaid interest, provided that the weighted-average trading price of the IPSs on the TSX for the 20 consecutive trading days ending on the fifth trading day preceding the date on which notice of redemption is given (or, if IPSs are not listed on the TSX or any other market, the fair market value of the securities comprising an IPS as determined by an independent financial advisor retained by the Company) is at least 125% of the Conversion Price.

The Company or any of its affiliates will have the right to purchase Debentures in the market, by tender or by private contract subject to regulatory requirements, provided however, that if an event of default under the Indenture has occurred and is continuing, the Company or any of its affiliates will not have the right to purchase the Debentures.

In the case of redemption of less than all of the Debentures, the Debentures to be redeemed will be selected by the Debenture Trustee on a *pro rata* basis or in such other manner as the Debenture Trustee deems equitable, subject to the consent of the TSX.

The Indenture will contain a covenant that so long as Debentures are outstanding the Company will not redeem the Subordinated Notes unless it concurrently redeems the Debentures.

## **Payment Upon Redemption or Maturity**

On redemption or on the Maturity Date, the Company will repay the indebtedness represented by the Debentures by paying to the Debenture Trustee in lawful money of Canada an amount equal to the principal amount of the outstanding Debentures, together with accrued and unpaid interest thereon.

## **IPS Interest Payment Election**

Unless an event of default (as defined in the Indenture) has occurred and is continuing, the Company may elect, from time to time, subject to applicable regulatory approval, to issue and deliver freely-tradeable IPSs to its agent for sale in order to raise funds to satisfy the Company's obligations to pay interest on the Debentures in accordance with the Indenture (the "IPS Interest Payment Election") in which event holders of the Debentures will be entitled to receive a cash payment equal to the interest payable from the proceeds of the sale of such IPSs by the agent. The Indenture will provide that, upon such election, the agent shall (i) accept delivery of IPSs from the Company; (ii) accept bids with respect to, and consummate sales of, such IPSs, each as the Company shall direct in its absolute discretion; (iii) invest the proceeds of such sales in short-term Canadian government obligations which mature prior to the applicable Interest Payment Date and deliver proceeds to holders of Debentures sufficient to satisfy the Company's interest payment obligations; and (iv) perform any other action necessarily incidental thereto. The amount received by a holder in respect of interest will not be affected by whether or not the Company elects to utilize the IPS Interest Payment Election.

Neither the Company's making of the IPS Interest Payment Election nor the consummation of sales of IPSs pursuant thereto will (i) result in the holders of Debentures not being entitled to receive on the applicable Interest Payment Date cash in an aggregate amount equal to the interest payable on such Interest Payment Date; or (ii) entitle or require such holders to receive any IPSs in satisfaction of the interest payable on the applicable Interest Payment Date.

## **Cancellation**

All Debentures converted, redeemed or purchased as aforesaid will be cancelled and may not be reissued or resold.

## Security and Guarantees

The Debentures will be secured by a pledge of the Company's membership interests in Atlantic Holdings and will be guaranteed by Atlantic Holdings and certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries at the time of the closing of the Offering. The Guarantee of Atlantic Holdings will be secured by a pledge of the membership interests of the Project Holding Entities and the Guarantees of certain Guarantors will be secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases.

Onondaga Cogeneration Limited Partnership's Guarantee will be secured by a pledge of certain of the Onondaga Project assets. None of the other Project Operating Entities are providing a Guarantee and none of the other Project assets will be pledged to secure a guarantee of, or indebtedness under, the Debentures. As a result, in the event of a bankruptcy, liquidation or reorganization of any Project Operating Entity other than Onondaga Cogeneration Limited Partnership, such Project Operating Entity will be required to pay the holders of its debt and its trade creditors before any monies or assets would be available to distribute to its equity holders.

## Ranking

The Debentures will be secured indebtedness of the Company, will rank senior to Subordinated Indebtedness, but will rank junior to Senior Secured Indebtedness. Additionally, the Debentures will rank senior to any unsecured indebtedness of the Company (including trade payables) to the extent of the security therefor.

The indebtedness evidenced by each secured Guarantee will be secured indebtedness of each such Guarantor, and will be subordinated in right of payment, as set forth in the Guarantee, to all existing and future Senior Secured Indebtedness of such Guarantor, including guarantees of the Senior Secured Indebtedness under the Amended Credit Facility and the Acquisition Credit Facility but will rank senior to guarantees of the Subordinated Notes and any unsecured indebtedness of each such Guarantor (including trade payables) to the extent of the security therefor.

The indebtedness evidenced by each unsecured Guarantee will be unsecured subordinated indebtedness of each such Guarantor and will be subordinated in right of payment, as set forth in the Guarantee, to all existing and future secured indebtedness of such Guarantor, including guarantees of the Senior Secured Indebtedness under the Amended Credit Facility and the Acquisition Credit Facility, and will rank *pari passu* in right of payment with all existing and future unsecured indebtedness of each such Guarantor (including trade payables) (unless stated otherwise in the instrument creating such Indebtedness).

The Indenture will not restrict the Company from incurring additional indebtedness for borrowed money or otherwise mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing.

## Put Right Upon a Change of Control

Upon the occurrence of a Change of Control of the Company, each holder of Debentures may require the Company to purchase, on the Put Date as set out below, the whole or any part of such holder's Debentures at a price equal to 101% of the principal amount thereof (the "Put Price") plus accrued and unpaid interest up to, but excluding, the Put Date.

If 90% or more of the aggregate principal amount of the Debentures outstanding on the date of the giving of notice of the Change of Control have been tendered for purchase on the Put Date, the Company will have the right to redeem all the remaining Debentures on such date at the Put Price, together with accrued and unpaid interest up to, but excluding, such date. Notice of such redemption must be given to the Debenture Trustee prior to the Put Date and as soon as possible thereafter, by the Debenture Trustee to the holders of the Debentures not tendered for purchase. The principal on the Debentures will be payable in lawful money of Canada.

The Indenture will contain notification provisions to the effect that:

- (a) the Company will promptly give written notice to the Debenture Trustee of the occurrence of a Change of Control and the Debenture Trustee will thereafter give to the holders of Debentures a notice of the Change of Control, the repayment right of the holders of Debentures and the right of the Company to redeem untendered Debentures under certain circumstances; and
- (b) a holder of Debentures, to exercise the right to require the Company to purchase its Debentures, must deliver to the Debenture Trustee, not less than five business days prior to the Put Date, written notice of the holder's exercise of such right, together with a duly endorsed form of transfer.

The Company will comply with the requirements of Canadian securities laws and regulations to the extent such laws and regulations are applicable in connection with the repurchase of the Debentures in the event of a Change of Control.

### **Modification**

The rights of the holders of the Debentures as well as any other series of debentures that may be issued under the Indenture may be modified in accordance with the terms of the Indenture. For that purpose, among others, the Indenture will contain certain provisions which will make binding on all holders of Debentures resolutions passed at meetings of the holders of Debentures by votes cast thereat by holders of not less than 25% of the principal amount of the then outstanding Debentures present at the meeting or represented by proxy, or rendered by instruments in writing signed by the holders of not less than 66 $\frac{2}{3}$ % of the principal amount of the then outstanding Debentures. In certain cases, the modification will, instead of or in addition to the foregoing, require assent by the holders of the required percentage of Debentures of each particularly affected series. Under the Indenture, the Debenture Trustee will have the right to make certain amendments to the Indenture in its discretion, without the consent of the holders of Debentures.

### **Events of Default**

The Indenture will provide that an event of default in respect of the Debentures will occur if certain events described in the Indenture occur, including if any one or more of the following described events has occurred and is continuing with respect to the Debentures: (i) failure for 30 days to pay interest on the Debentures when due; (ii) failure to pay principal or premium, if any, on the Debentures, whether at maturity, upon redemption, by declaration or otherwise; (iii) certain events of bankruptcy, insolvency or reorganization of the Company under bankruptcy or insolvency laws; (iv) failure to make any payment when due in respect of any indebtedness having an aggregate principal amount of more than \$10,000,000; or (v) default in the observance or performance of any material covenant or condition of the Indenture and the continuance of such default for a period of 30 days after notice in writing has been given by the Debenture Trustee to the Company specifying the default and requiring the Company to rectify same. If an event of default has occurred and is continuing, the Debenture Trustee may, in its discretion, and shall, upon the request of holders of not less than 25% in principal amount of the then outstanding Debentures, declare the principal of (and premium, if any) and interest on all outstanding Debentures to be immediately due and payable. Generally, the Indenture provides that the Company will not make any payments when an event of default has occurred and is continuing under the Senior Secured Indebtedness.

### **Offers for Debentures**

The Indenture will contain provisions to the effect that if an offer is made for the Debentures then outstanding and not less than 90% of the principal amount of the Debentures then outstanding (other than Debentures held at the date of the offer by or on behalf of the offeror or associates or affiliates of the offeror) are taken up and paid for by the offeror, the offeror will be entitled to acquire the Debentures held by holders of Debentures who did not accept the offer on the terms offered by the offeror, provided that the holders of Debentures will have the right to elect to be paid the fair value of their Debentures by providing notice to the offeror and following the other procedures set forth in the Indenture.

## **Ownership Restrictions**

There are ownership restrictions on the Debentures. The ownership restrictions that apply to the IPSs will apply equally to the holders of the Debentures. For a discussion of these ownership restrictions, please see “The Company—Limitations on ERISA Plan Ownership”, “The Company—Limitation on U.S. Resident Ownership” and “The Company—Limitations on Ownership by Electric Utilities and Others” on pages 41 to 43 of the AIF, which discussion is incorporated by reference herein.

## **Book Entry, Delivery and Form**

Debentures will be issued in the form of fully registered global Debentures (the “Global Debentures”) held by, or on behalf of, CDS or its successor (the “Depository”) as custodian for its participants.

All Debentures will be represented in the form of Global Debentures registered in the name of the Depository or its nominee. Purchasers of Debentures represented by Global Debentures will not receive Debentures in definitive form except in certain circumstances described in the Indenture. Rather, the Debentures will be represented only in “book-entry only” form (unless the Company, in its sole discretion, elects to prepare and deliver definitive Debentures in fully-registered form). Beneficial interests in Global Debentures, constituting ownership of the Debentures, will be represented through book-entry accounts of institutions (including the Underwriters) acting on behalf of beneficial owners, as direct and indirect participants of the Depository (the “participants”). Each purchaser of a Debenture represented by a Global Debenture will receive a customer confirmation of purchase from the Underwriter or Underwriters from whom the Debenture is purchased in accordance with the practices and procedures of the selling Underwriter or Underwriters. The practices of the Underwriters may vary but generally customer confirmations are issued promptly after execution of a customer order. The Depository will be responsible for establishing and maintaining book-entry accounts for its participants having interests in Global Debentures.

If the Depository notifies the Company that it is unwilling or unable to continue as depository in connection with the Global Debentures, or if at any time the Depository ceases to be a clearing agency or otherwise ceases to be eligible to be a depository and the Company has not appointed a successor, or if the Company elects, in its sole discretion, to terminate the book-entry system, or if under certain circumstances described in the Indenture, an event of default has occurred, Global Debentures may be transferred by the registered holder thereof and accordingly definitive certificates shall be issued to beneficial holders of Debentures (the “Definitive Debentures”).

## **Transfer and Conversion of Debentures**

Transfers of interests in Debentures represented by Global Debentures will be effected through records maintained by the Depository for such Global Debentures or its nominees (with respect to interests of participants) and on the records of participants (with respect to interests of persons other than participants). Unless the Company elects, in its sole discretion, to prepare and deliver Definitive Debentures, beneficial owners who are not participants in the Depository’s book-entry system, but who desire to purchase, sell or otherwise transfer ownership of or other interests in Global Debentures, may do so only through participants in the Depository’s book-entry system. The ability of a beneficial owner of an interest in a Debenture represented by a Global Debenture to pledge the Debenture or otherwise take action with respect to such owner’s interest in a Debenture represented by a Global Debenture (other than through a participant) may be limited due to the lack of a physical certificate.

Registered holders of Definitive Debentures may transfer such Debentures upon payment of taxes, duties or other charges incidental thereto, if any, by executing and delivering a form of transfer together with the Debentures to the Debenture Trustee at its principal offices in Toronto, Ontario, or such other city or cities as may from time to time be designated by the Company, whereupon new Debentures will be issued in authorized denominations in the same aggregate principal amount as the Debentures so transferred, registered in the names of the transferees. No transfer or conversion of a Debenture will be registered during the period beginning five business days before the day of the mailing of a notice of redemption of the Debentures and

ending on the close of business on the day of such mailing or on any Interest Payment Date or during the period from the fifth business day preceding the Interest Payment Date.

### **Payments**

Payments of interest and principal on each Global Debenture will be made to the Depository or its nominee, as the case may be, as the registered holder of the Global Debenture. As long as the Depository or its nominee is the registered owner of a Global Debenture, such Depository or its nominee, as the case may be, will be considered the sole legal owner of the Global Debenture for the purposes of receiving payments of interest and principal on the Debentures and for all other purposes under the Indenture and the Debentures. The record date for the payment of interest will be that day which is the fifth business day preceding the applicable Interest Payment Date. Interest payments on Global Debentures will be made by electronic funds transfer or such other means as may be agreed to by the Debenture Trustee on the day interest is payable and delivered to the Depository or its nominee, as the case may be.

The Company understands that the Depository or its nominee, upon receipt of any payment of interest or principal in respect of a Global Debenture, will credit participants' accounts, on the date interest or principal is payable, with payments in amounts proportionate to their respective beneficial interest in the principal amount of such Global Debenture as shown on the records of the Depository or its nominee. The Company also understands that payments of interest and principal by participants to the owners of beneficial interests in such Global Debenture held through such participants will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name" and will be the responsibility of such participants. The responsibility and liability of the Company in respect of payments on Debentures represented by the Global Debenture is limited solely and exclusively, while the Debentures are registered in Global Debenture form, to making payment of any interest and principal due on such Global Debenture to the Depository or its nominee.

If Definitive Debentures are issued instead of or in place of Global Debentures, payments of interest on each Definitive Debenture will be made by electronic funds transfer, if agreed to by the holder of the Definitive Debenture, or by cheque dated the Interest Payment Date and mailed to the address of the holder appearing in the register maintained by the registrar for the Debentures as soon as practicable following the applicable Interest Payment Date. Payment of principal at maturity will be made at the principal office of the paying agent in the City of Toronto (or in such other city or cities as may from time to time be designated by the Company) against surrender of the Definitive Debentures, if any.

### **Reports to Holders**

The Company shall file with the Debenture Trustee, within 15 days after the filing thereof with the securities commission or securities regulatory authority in the provinces in which the Company is a reporting issuer (the "Securities Commissions"), copies of the Company's annual report and the information, documents and other reports that the Company is required to file with the Securities Commissions and deliver to holders of IPSs. Notwithstanding that the Company may not be required to remain subject to the reporting requirements of the Securities Commissions, the Company shall provide to the Debenture Trustee (a) within 90 days after the end of each fiscal year, the annual financial statements of the Company, and (b) within 45 days after the end of each of the first three fiscal quarters of each fiscal year, interim financial statements of the Company which in each case shall, at a minimum, contain such information as is required to be provided in financial statements under the laws of Canada or any province thereof to security holders of a company with securities listed on the TSX, whether or not the Company has any of its securities so listed. Each of such reports will be prepared in accordance with Canadian disclosure requirements and accounting principles generally accepted in Canada. The Company will provide copies of such information, documents and reports to holders of Debentures upon request.

## Governing Law

Each of the Indenture and the Debentures are governed by, and construed in accordance with, the laws of the Province of Ontario and the federal laws of Canada applicable therein applicable to contracts executed and to be performed entirely in such Province.

## PLAN OF DISTRIBUTION

Pursuant to an underwriting agreement dated September 22, 2006 between the Company, Atlantic Holdings and the Underwriters (the "Underwriting Agreement"), the Company has agreed to issue and sell and the Underwriters have agreed to purchase on the closing date, being October 11, 2006 or such other date as may be agreed upon by the Company and the Underwriters, but in any event not later than October 31, 2006, subject to the conditions stipulated in the Underwriting Agreement, all but not less than all of the 8,531,000 IPSs offered hereby at a price of Cdn\$10.55 per IPS for total consideration of Cdn\$90,002,050 and Cdn\$60,000,000 aggregate principal amount of the Debentures, payable against delivery by the Company of certificates evidencing the Securities. The Securities are being offered to the public in all of the provinces and territories of Canada. The Offering price of the Securities was determined by negotiation between the Company and the Underwriters. The Underwriting Agreement provides that the Company will pay the Underwriters' fee of Cdn\$0.5275 per IPS and Cdn\$40.00 per Debenture, for an aggregate fee payable by the Company of Cdn\$6,900,103, in consideration for their services in connection with the Offering.

The TSX has conditionally approved the listing of the IPSs (and the Common Shares forming part of such IPSs), the Debentures and the IPSs issuable upon conversion of the Debentures (and the Common Shares forming part of such IPSs) qualified by this short form prospectus. Listing is subject to the Company fulfilling all of the listing requirements of the TSX on or before December 21, 2006.

The obligations of the Underwriters under the Underwriting Agreement are several and may be terminated at their discretion upon the occurrence of certain stated events. If an Underwriter fails to purchase the Securities which it has agreed to purchase, the other Underwriters may, but are not obligated to, purchase such Securities. The Underwriters are, however, obligated to take up and pay for all Securities if any Securities are purchased under the Underwriting Agreement.

Certain of the Underwriters and their affiliates have in the past provided and may from time to time in the future provide certain commercial banking, financial advisory, investment banking and other services to the Company for which they will be entitled to receive separate fees. Affiliates of BMO Nesbitt Burns Inc. are lenders to a subsidiary of the Company under the Amended Credit Facility and the Acquisition Credit Facility. Accordingly, the Company may be considered a "connected issuer" of BMO Nesbitt Burns Inc. under applicable securities laws in certain Canadian provinces and territories. As at September 22, 2006, outstanding borrowings under the Acquisition Credit Facility totalled \$88 million and no amounts were drawn under the Amended Credit Facility. The Company intends to use approximately Cdn\$42 million of the net proceeds from the Offering to partially repay its outstanding borrowings under the Acquisition Credit Facility all of which will be received by an affiliate of BMO Nesbitt Burns Inc. The Company is in compliance with the terms of the Acquisition Credit Facility and the Amended Credit Facility. Since the execution of the Acquisition Credit Facility and the Amended Credit Facility, respectively, the lenders have not waived a breach, on the part of the Company, of the Acquisition Credit Facility or the Amended Credit Facility. Other than as a result of the Acquisition, the financial position of the Company has not changed in any material manner since such indebtedness was incurred. For further details on the Acquisition Credit Facility, see "Path 15 Project — Acquisition Credit Facility". The decision to issue the Securities and the determination of the terms of the distribution were made through negotiations between the Company and the Underwriters. The lender of which BMO Nesbitt Burns Inc. is an affiliate did not have any involvement in such decision or determination. Other than as described above, none of the Underwriters or their affiliates will receive any benefit from the Offering except for the Underwriters' respective portions of the underwriting commissions payable by the Company.

Pursuant to policy statements of certain securities regulators, the Underwriters may not, throughout the period of distribution, bid for or purchase IPSs or Debentures. The foregoing restriction is subject to exceptions, on the condition that the bid or purchase is not engaged in for the purpose of creating actual or apparent active

trading in, or raising the price of, the IPSs or Debentures (as the case may be). These exceptions include bids or purchases permitted under the Universal Market Integrity Rules for Canadian Marketplaces of Market Regulation Services Inc. relating to market stabilization and passive market making activities and bids or purchases made for and on behalf of a customer where the order was not solicited during the period of distribution. Under the first mentioned exception, in connection with this Offering, the Underwriters may effect transactions that stabilize or maintain the market price of the IPSs or Debentures (as the case may be) at levels other than those which might otherwise prevail in the open market. Those transactions, if commenced, may be interrupted or discontinued at any time.

The Company has agreed with the Underwriters not to issue, offer, sell, contract to sell or otherwise dispose of any IPSs, Debentures, Common Shares or Subordinated Notes of the Company or any securities convertible into or exercisable or exchangeable for any IPSs, Debentures, Common Shares or Subordinated Notes of the Company or financial instruments convertible into or exercisable or exchangeable for IPSs, Debentures, Common Shares or Subordinated Notes of the Company, or announce any intention to effect any of the foregoing, other than pursuant to a private sale for purposes of satisfying an exercise by the Existing Investors of their liquidity rights with respect to membership interests in Atlantic Holdings, for a period of 90 days from the date of Closing without the prior written consent of BMO Nesbitt Burns Inc., on behalf of the Underwriters, which consent may not be unreasonably withheld.

Subscribers under the Offering will be eligible to receive the distribution in the amount of Cdn\$0.0884 per IPS anticipated to be paid by the Company on or about November 30, 2006 to IPS holders of record on October 31, 2006.

The Securities have not been and will not be registered under the U.S. Securities Act, or any state securities laws, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the U.S. Securities Act).

The Securities are issued in "book-entry only" form and must be purchased or transferred through a CDS Participant. At closing, the Company will cause a global certificate or certificates representing the Securities to be delivered to, and registered in the name of, CDS or its nominee. All rights of holders of Securities must be exercised through, and all payments or other property to which such holder is entitled will be made or delivered by, CDS or the CDS Participant through which the holder of Securities holds such Securities. Each person who acquires Securities will receive only a customer confirmation of purchase from the Underwriter or registered dealer from or through which the Securities are acquired in accordance with the practices and procedures of that Underwriter or registered dealer. The practices of registered dealers may vary, but generally customer confirmations are issued promptly after execution of a customer order. CDS is responsible for establishing and maintaining book-entry accounts for its CDS Participants having interests in the Securities. See "Description of IPSs" and "Description of Debentures".

#### INTEREST OF EXPERTS

Each of Goodmans LLP, Blake, Cassels & Graydon LLP, Goodwin Procter LLP, KPMG LLP and PricewaterhouseCoopers LLP is considered to be an expert for the purposes of this short form prospectus and the documents incorporated by reference herein.

None of Goodmans LLP, Blake, Cassels & Graydon LLP, Goodwin Procter LLP, KPMG LLP and PricewaterhouseCoopers LLP or any partner, employee or consultant thereof holds or is entitled to receive any direct or indirect interest in any property of the Company or any of its associates or affiliates. As at the date hereof, the partners and associates of each of Goodmans LLP, Blake, Cassels & Graydon LLP, Goodwin Procter LLP, KPMG LLP and PricewaterhouseCoopers LLP, beneficially own, directly or indirectly, less than 1% of the outstanding securities of the Company.

## CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Goodmans LLP, Canadian counsel to the Company and Blake, Cassels & Graydon LLP, counsel to the Underwriters, the following is, as of the date of this short form prospectus, a summary of the principal Canadian federal income tax considerations generally applicable under the *Income Tax Act* (Canada) and the regulations thereunder (the "Tax Act") to a holder who acquires Common Shares and Subordinated Notes as represented by the IPSs or the Debentures pursuant to this Offering and who, for purposes of the Tax Act and at all relevant times, is resident or is deemed to be resident in Canada, holds the Common Shares and Subordinated Notes represented by the IPSs and the Debentures as capital property and deals at arm's length and is not affiliated with the Company (a "Holder" for the purposes of this section only). Generally, the Common Shares and Subordinated Notes represented by the IPSs and the Debentures will be considered to be capital property to a Holder provided that the Holder does not hold such securities in the course of carrying on a business of buying and selling securities and has not acquired them in one or more transactions considered to be an adventure in the nature of trade. Certain Holders who might not otherwise be considered to hold their Common Shares and Subordinated Notes represented by IPSs or Debentures as capital property may, in certain circumstances, be entitled to have them treated as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act.

This summary is not applicable to a Holder that is a "financial institution" (as defined in the Tax Act for purposes of the mark-to-market rules), a "specified financial institution" or a Holder an interest in which is a "tax shelter investment" (all as defined in the Tax Act).

This summary is based upon the facts set out in this short form prospectus, the provisions of the Tax Act in force on the date of this short form prospectus, counsels' understanding of the current published administrative policies and assessing practices of the CRA and certificates from the Company as to certain factual matters. This summary takes into account all specific proposals to amend the Tax Act which have been publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date of this short form prospectus. There can be no assurance that any such tax proposals will be implemented in their current form or at all. This summary does not otherwise take into account or anticipate any changes in law, whether by legislative, governmental or judicial decision or action, or administrative policies or assessing practices, and does not take into account any provincial, territorial or foreign tax legislation or considerations which may differ significantly from those discussed in this short form prospectus.

**This summary is of a general nature only and is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in Common Shares and Subordinated Notes represented by IPSs or Debentures. Moreover, the income or other tax consequences of acquiring, holding or disposing of Common Shares and Subordinated Notes represented by IPSs or Debentures will vary depending on the Holder's particular circumstances, including the province or territory or provinces or territories in which the Holder resides or carries on business. Accordingly, this summary is of a general nature only and is not intended to be legal or tax advice to any prospective purchaser of Common Shares and Subordinated Notes represented by IPSs or Debentures. Investors should consult their own tax advisors for advice with respect to the tax consequences of an investment in Common Shares and Subordinated Notes represented by the IPSs and the Debentures based on their particular circumstances.**

### **Nature of IPSs**

In acquiring an IPS, a Holder will be acquiring ownership of the Common Share and Subordinated Notes represented by such IPS. The Common Share and Subordinated Notes represented by an IPS are separate properties and, accordingly, the price paid by a Holder for an IPS must be allocated on a reasonable basis between the Common Share and Subordinated Notes represented by the IPS in order to determine their respective cost to the Holder for purposes of the Tax Act. The Company proposes to allocate the price paid for each IPS on the basis of Cdn\$4.90 to the Common Share and Cdn\$5.65 to the Subordinated Notes and, by purchasing an IPS, a Holder is deemed to agree to such allocation. Although the Company believes this allocation to be reasonable, such allocation is not binding on the CRA. The cost to the Holder of the Common Shares and Subordinated Notes represented by IPSs acquired pursuant to the Offering must be averaged with the adjusted cost base of all other Common Shares and Subordinated Notes, respectively, held as capital

property by the Holder at that time for purposes of calculating adjusted cost base of the Common Shares and Subordinated Notes represented by IPSs so acquired.

In disposing of an IPS, a Holder will be disposing of the Common Share and Subordinated Notes represented by such IPS. Any proceeds from the disposition (or deemed disposition) of an IPS must be allocated on a reasonable basis between the Common Share and Subordinated Notes represented by such IPS.

The separation by a Holder of an IPS into the Common Share and Subordinated Notes represented by such IPS will not be a disposition for purposes of the Tax Act, and, as such, the Holder will not realize a gain or loss upon such separation of the IPS into a Common Share and Subordinated Notes. The Holder's adjusted cost base of the Common Share and Subordinated Notes represented by an IPS will not be affected by such separation of an IPS into a Common Share and Subordinated Notes. Similarly, the combination by a Holder of a Common Share and Subordinated Notes into an IPS representing such Common Share and Subordinated Notes will not be a disposition for purposes of the Tax Act, and, as such, the Holder will not realize a gain or loss upon such delivery of the Common Share and Subordinated Notes in return for an IPS representing such Common Share and Subordinated Notes. The Holder's adjusted cost base of the Common Share and Subordinated Notes will not be affected by such delivery of the Common Share and Subordinated Notes in return for an IPS representing such Common Share and Subordinated Notes.

### **Taxation of the Company**

The Company will be taxable on its income determined under the Tax Act for each taxation year. The Company has advised counsel that it expects that all or substantially all of the actual revenues of the Company will continue to consist of distributions from Atlantic Holdings. Atlantic Holdings is considered to be a corporation for Canadian income tax purposes and is a "foreign affiliate" and a "controlled foreign affiliate" of the Company for Canadian income tax purposes. Dividends paid by Atlantic Holdings to the Company will be included in computing the income of the Company. However, to the extent that such dividends are considered to have been paid out of the "exempt surplus" of Atlantic Holdings with respect to the Company, the amount of such dividends is deductible in computing the taxable income of the Company. Furthermore, to the extent dividends are considered to have been paid out of the "pre-acquisition surplus" of Atlantic Holdings with respect to the Company, the amount of such dividends are also deductible in computing the taxable income of the Company. However, the adjusted cost base to the Company of its membership interest in Atlantic Holdings is reduced to the extent that such dividends are considered to have been paid out of the "pre-acquisition surplus" of Atlantic Holdings with respect to the Company. If the adjusted cost base to the Company of its membership interest in Atlantic Holdings becomes a negative amount, the Company will be deemed to realize a capital gain equal to such amount for that year. To the extent that Atlantic Holdings or any other controlled foreign affiliate of the Company earns income that qualifies as "foreign accrual property income" ("FAPI"), the FAPI allocable to the Company must be included in computing the income of the Company for Canadian income tax purposes, whether or not the Company actually receives a distribution of FAPI. Any amount so included in the income of the Company increases the adjusted cost base to the Company of its membership interest in Atlantic Holdings. At such time as the Company receives a dividend of this type of income that was previously treated as FAPI ("previously included FAPI"), that dividend will effectively not be taxable to the Company and there will be a corresponding reduction in the adjusted cost base to the Company of its membership interest in Atlantic Holdings. FAPI earned by a non-controlled foreign affiliate of the Company will be treated as "taxable surplus" which will only be taxed when distributed to the Company. The Company has advised counsel that it reasonably expects that dividends to be paid by Atlantic Holdings to the Company will be considered to be paid substantially out of the "exempt surplus" and "pre-acquisition surplus" of Atlantic Holdings with respect to the Company and, to a much lesser extent, out of "previously included FAPI" or "taxable surplus". The Company has advised counsel that it reasonably expects that the total of (i) the amount of FAPI allocable to the Company, (ii) the amount of dividends considered to have been paid by Atlantic Holdings to the Company out of the "taxable surplus" of Atlantic Holdings with respect to the Company (other than those paid out of "previously included FAPI"), (iii) the amount of taxable capital gains arising from the receipt of dividends out of the "pre-acquisition surplus" of Atlantic Holdings with respect to the Company, and (iv) other taxable income of the Company, if any, in respect of a period will continue to be less than the amount of interest payable on the Subordinated Notes in respect of the period.

To the extent that the proceeds from the issuance of the Subordinated Notes and the Debentures are used for the purpose of earning income, the Company will generally be entitled to deduct the interest paid by it on the Subordinated Notes and the Debentures in computing its income. To the extent that the deduction for interest on the Subordinated Notes and the Debentures and other deductible expenses of the Company creates a loss in a taxation year of the Company that loss will be a non-capital loss which may be carried back for three taxation years and forward for twenty taxation years and applied against the income of the Company (including taxable capital gains) for such years subject to the detailed rules in the Tax Act in that regard.

On October 31, 2003, the Department of Finance (Canada) released, for public comment, proposed amendments to the Tax Act that relate to the deductibility of interest and other expenses for income tax purposes for taxation years commencing after 2004. In general, these proposed amendments may deny the realization of losses by a taxpayer in respect of a business or property in a year if there is no reasonable expectation in that year that the business or property will produce a cumulative profit over the period that the business can reasonably be expected to be carried on or that the property can reasonably be expected to be held by the taxpayer. On February 23, 2005, the Minister of Finance (Canada) announced that an alternative proposal will be released for comment at an early opportunity that will address concerns that had been expressed during the consultation process on the "reasonable expectation of profit" test and the potential limitation on deductibility of ordinary commercial expenses.

### **Taxation of Dividends, Interest and Capital Gains**

Since a Holder who holds an IPS will own the Common Share and Subordinated Notes represented by such IPS, the income tax consequences under the Tax Act of owning and disposing of an IPS (including the taxation of dividends and interest on the Common Share and Subordinated Notes, respectively, and the tax treatment of disposing of the Common Share and Subordinated Notes upon the disposition of an IPS representing such securities) will not differ from those associated with owning and disposing of those securities as is described below.

#### ***Interest on the Subordinated Notes and Debentures***

A Holder that is a corporation, partnership, unit trust or a trust of which a corporation or partnership is a beneficiary will be required to include in computing its income for a taxation year all interest that accrues to such Holder on the Subordinated Notes or Debentures to the end of that year or that becomes receivable or is received by the Holder before the end of that year, except to the extent that such interest was included in computing the Holder's income for a preceding taxation year. Any other Holder, including an individual, will be required to include in computing its income for a taxation year all interest on the Subordinated Notes or Debentures that is received or receivable by such Holder in that year (depending on the method regularly followed by the Holder in computing income) to the extent that such interest was not included in computing the Holder's income for a preceding taxation year. In addition, a Holder may be required to include in computing its income for a taxation year any interest that accrues to the Holder on the Subordinated Notes or Debentures up to any "anniversary day" (as defined in the Tax Act) of the Subordinated Notes or Debentures, respectively, in the year to the extent that such amount was not otherwise included in the Holder's income for that or a preceding taxation year. If interest on the Subordinated Notes or Debentures is deferred, a Holder may be required to include such amount in computing its income in accordance with the foregoing even though the Holder has not received a cash interest payment.

A Holder that is a "Canadian controlled private corporation" (as defined in the Tax Act) may be liable to pay a refundable tax of 6% on investment income, including interest income on the Subordinated Notes or Debentures.

The amount of interest on the Subordinated Notes or Debentures to be included in a Holder's income as described above will include United States withholding tax, if any, imposed in respect of the interest. To the extent that United States withholding tax is imposed in respect of interest on the Subordinated Notes or Debentures, the amount of such tax generally may be eligible for foreign tax credit or deduction treatment where applicable, subject to the detailed rules and limitations under the Tax Act, including the requirement for the credit that the Holder have sufficient United States source income (which would not include interest on the

Subordinate Notes or Debentures). Holders are advised to consult their own tax advisors with respect to the availability of a credit or deduction to them having regard to their particular circumstances.

#### *Exercise of the Conversion Privilege for Debentures*

A Holder of Debentures who exercises the conversion privilege and receives Common Shares and Subordinated Notes represented by IPSs will be considered to have disposed of the Debentures for proceeds of disposition equal to the aggregate of the fair market value of the Common Shares and Subordinated Notes represented by IPSs so acquired at that time and the amount of any cash received in lieu of fractional IPSs. The Holder may realize a capital gain or capital loss computed as described below under “— Capital Gains and Losses”. The cost to the Holder of the Common Shares and Subordinated Notes represented by IPSs acquired on a conversion of Debentures will be equal to their respective fair market value at that time based on a reasonable allocation of the fair market value of the Debentures so converted. As described above under “Description of Debentures — Conversion Privilege” the Company will allocate the fair market value of Debentures which are converted between the Common Shares and Subordinated Notes represented by IPSs acquired on the conversion on a reasonable basis and will disclose the basis for such determinations in its continuous disclosure documentation. By purchasing a Debenture, a Holder is deemed to agree to such allocation. Although the Company believes that the basis it will use for the allocation will be reasonable, such allocation will not be binding on the CRA. Such cost must be averaged with the adjusted cost base of all other Common Shares and Subordinated Notes, respectively, held as capital property by the Holder at that time for purposes of calculating the adjusted cost base of the Common Shares and Subordinated Notes represented by IPSs so acquired.

#### *Disposition of Subordinated Notes or Debentures*

On a disposition or a deemed disposition of Subordinated Notes or Debentures, including a redemption, repayment at maturity, or a conversion in the case of the Debentures, a Holder will generally be required to include in computing its income for the taxation year in which the disposition occurs the amount of interest accrued on the Subordinated Notes or Debentures from the date of the last interest payment to the date of disposition, except to the extent that such interest has otherwise been included in computing the Holder’s income for that year or a preceding taxation year.

Any amount paid by the Company as a penalty or bonus because of early repayment of all or part of the principal amount of the Subordinated Notes or Debentures will be deemed to be received by the Holder as interest on the Subordinated Notes or Debentures, respectively, and included in computing the Holder’s income as described above, to the extent such amount can reasonably be considered to relate to, and does not exceed the value at the time of payment of, interest that would otherwise have been payable on the Subordinated Notes or Debentures, respectively, for periods ending after the payment of such amount.

In general, a disposition or a deemed disposition of a Subordinated Note or Debenture by a Holder will give rise to a capital gain (or a capital loss) equal to the amount by which the proceeds of disposition, net of any amount included in computing the Holder’s income as interest and any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of the Subordinated Note or Debenture, respectively, to the Holder immediately before the disposition (which will reflect any discount on the issuance of such Subordinated Note or Debenture). A Holder who receives Common Shares and Subordinated Notes represented by IPSs on the exercise of the conversion privilege in respect of the Debentures will be deemed to have disposed of such Debentures for proceeds of disposition equal to the fair market value at that time of the Common Shares and Subordinated Notes represented by IPSs so acquired. See “— Capital Gains and Losses” below.

#### *Dividends on the Common Shares*

Dividends received or deemed to be received by a Holder on the Common Shares will be required to be included in computing the Holder’s income for purposes of the Tax Act. Dividends received or deemed to be received by a Holder who is an individual will be subject to the gross-up and dividend tax credit rules generally applicable to taxable dividends received by an individual from taxable Canadian corporations. The Notice of Ways and Means Motion that accompanied the May 2, 2006 Federal Budget proposes to enhance the dividend

gross-up and tax credit mechanism applicable to certain eligible dividends payable by corporations resident in Canada after 2005. Draft legislation relating to these proposed amendments was released on June 29, 2006. Under the draft legislation, a dividend will be eligible for the enhanced gross-up and dividend tax credit if the dividend recipient receives written notice from the paying corporation designating the dividend as an “eligible dividend”. There may be limitations on the ability of a corporation to designate dividends as “eligible dividends”. There can be no assurance that this proposal will be enacted. A Holder that is a corporation generally will be entitled to deduct the amount of the dividend received or deemed to be received in computing its taxable income. A Holder that is a “private corporation” or “subject corporation” (as such terms are defined in the Tax Act) will generally be liable under Part IV of the Tax Act to pay a refundable tax of 33 $\frac{1}{3}$ % of the dividends received or deemed to be received on the Common Shares to the extent that such dividends are deductible in computing the Holder’s taxable income.

#### *Disposition of the Common Shares*

A disposition or deemed disposition of Common Shares by a Holder will generally give rise to a capital gain (or capital loss) to the extent that the proceeds of disposition, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base to the Holder of the Common Shares immediately before the disposition. See “— Capital Gains and Losses” below.

#### *Capital Gains and Losses*

One-half of the amount of any capital gain (a “taxable capital gain”) realized by a Holder in a taxation year must be included in computing such Holder’s income for that year, and one-half of any capital loss (an “allowable capital loss”) realized by a Holder in a taxation year may be deducted from any taxable capital gains realized by the Holder in the year. Allowable capital losses in excess of taxable capital gains realized in a taxation year may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any following taxation year against taxable capital gains realized in such years, subject to and in accordance with the provisions of the Tax Act. A capital loss realized by certain Holders in respect of the disposition or deemed disposition of Common Shares may be reduced in certain circumstances by the amount of any dividends, including deemed dividends, that have been received by such Holders on the Common Shares to the extent and in the manner provided for in the Tax Act.

A holder that is a Canadian controlled private corporation (as defined in the Tax Act) may be liable to pay an additional refundable tax of 6 $\frac{2}{3}$ % on investment income, including taxable capital gains.

#### *Alternative Minimum Tax*

Individuals, including certain trusts, are subject to an alternative minimum tax. Dividends received or deemed to be received on the Common Shares and capital gains realized on a disposition or deemed disposition of Common Shares or Subordinated Notes represented by IPSs or Debentures may increase a Holder’s liability for alternative minimum tax. Holders should consult their own advisors with respect to alternative minimum tax.

### **CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS**

In the opinion of Goodwin Procter LLP, U.S. tax counsel to the Company (“U.S. Tax Counsel”), the following summary describes, as of the date of this short form prospectus, the material U.S. federal income tax considerations applicable to Non-U.S. Holders with respect to the purchase, ownership and disposition of IPSs, Debentures, Subordinated Notes or Common Shares. This summary is directed only to prospective purchasers of IPSs or Debentures in the Offering who are not U.S. persons under the Code. In addition to this summary, see “Risk Factors — Risks Related to the Structure of the Issuer and the Offering — U.S. Federal Income Tax Risks” in the AIF.

**To ensure compliance with IRS Circular 230, purchasers of IPSs or Debentures are hereby notified that: (a) any discussion of federal tax issues in this short form prospectus is not intended or written by U.S. Tax Counsel to be relied upon, and cannot be relied upon by such purchasers, for the purpose of avoiding U.S. Federal Tax penalties that may be imposed under the Code; (b) such discussion is written to support the promotion or**

marketing of the transactions addressed herein; and (c) each prospective purchaser of an IPS or Debenture should seek based on his, her or its particular circumstances from an independent tax advisor.

Prospective purchasers of IPSs or Debentures should note that no rulings have been or will be sought from the IRS with respect to any of the U.S. federal income tax issues discussed in this summary. No statutory, administrative or judicial authority directly addresses the treatment of IPSs or instruments similar to IPSs or Debentures for U.S. federal income tax purposes. As a result, there can be no assurance that the IRS will not successfully challenge the conclusions reached in this summary. U.S. federal income tax treatment that is different from the conclusions reached in this summary could result in reduced payments to Non-U.S. Holders.

This summary does not address all aspects of U.S. federal income taxation that may be relevant to Non-U.S. Holders in light of their personal circumstances. This summary does not address the U.S. federal income taxation of Non-U.S. Holders whose income from the ownership or disposition of IPSs, Debentures, Subordinated Notes or Common Shares is effectively connected with the conduct of a trade or business within the United States under the Code, nor does this summary address the U.S. federal income taxation of Non-U.S. Holders subject to special treatment under U.S. federal income tax laws, such as financial institutions, broker dealers, life insurance companies and tax-exempt organizations. This summary does not address the tax considerations applicable to persons who hold IPSs, Debentures, Subordinated Notes or Common Shares through a partnership. The U.S. federal income tax rules covering partnerships are complex. Persons that hold IPSs, Debentures, Subordinated Notes or Common Shares through one or more partnerships should consult their own tax advisors regarding the application of the U.S. federal income tax considerations discussed in this summary. This summary does not address the U.S. state or local tax considerations applicable to Non-U.S. Holders, nor does it address any tax consequences applicable to U.S. Holders.

This summary is not exhaustive of all possible U.S. federal income tax considerations applicable to an investment in IPSs or Debentures. This summary is of a general nature only and is not intended to be legal or tax advice to any prospective purchaser of IPSs or Debentures. Prospective purchasers should consult their own tax advisors in determining the application to them of the U.S. federal income tax consequences set forth below and any other U.S. federal, state, local, foreign or other tax consequences to them of the purchase, ownership and disposition of IPSs, Debentures, Subordinated Notes or Common Shares.

This summary is based on the Code, Treasury Regulations, IRS rulings and official pronouncements, judicial decisions and the Canadian Treaty, all as in effect on the date of this short form prospectus and all of which are subject to change, possibly with retroactive effect, or different interpretations, which could affect the accuracy of the statements and conclusions set forth below and the U.S. federal income tax consequences to Non-U.S. Holders. This summary is also based on certain certifications and determinations made by the Company and an independent financial advisor.

For purposes of this summary, a "Non-U.S. Holder" means a Holder that is not: (i) a citizen or individual resident in the United States for U.S. federal income tax purposes; (ii) a corporation or other entity taxable as a corporation created or organized under the laws of the United States or a political subdivision thereof; (iii) an estate, the income of which is subject to U.S. federal income tax regardless of the source; or (iv) a trust, if (A) a court within the United States is able to exercise primary supervision over the trust's administration and one or more United States persons have the authority to control all of its substantial decisions, or (B) the trust was in existence on August 20, 1996 and has properly elected under applicable Treasury Regulations to continue to be treated as a United States person. A "U.S. Holder" means any Holder that is not a Non-U.S. Holder.

## **Taxation of Non-U.S. Holders**

### ***Allocation of Purchase Price of IPSs***

Ownership of IPSs should be treated for U.S. federal income tax purposes as direct ownership of the Subordinated Notes or Common Shares constituting the IPSs. The Company intends to treat the IPSs in this manner for all purposes and, by purchasing IPSs, the Non-U.S. Holder agrees to such treatment. If the treatment of the IPSs as ownership of the two underlying securities is not respected, then the IPSs could be treated as only a single security, which likely would be treated as equity of the Company rather than debt from a U.S. tax perspective. The remainder of this discussion assumes that the Company's intended treatment of

ownership of an IPS as direct ownership of two separate securities will be respected for U.S. federal income tax purposes.

For U.S. federal income tax purposes the purchase price of an IPS should be allocated between its constituent Common Share and Subordinated Notes in proportion to the respective fair market values of each at the time of purchase. For each IPS in this Offering, the Company will report the initial fair market value of the constituent Common Share as Cdn\$4.90 and the initial fair market value of the constituent Subordinated Notes as equal to Cdn\$5.65 and, by purchasing IPSs in this Offering, the Non-U.S. Holder agrees to such allocation and agrees to not take a contrary position for any purpose. This allocation should result in the discount on the Subordinated Notes falling under a "de minimis" exception to the original issue discount ("OID") rules. This allocation, however, is not binding on the IRS or the courts, and the IRS may challenge this allocation. If this allocation is not respected, it is possible that the Subordinated Notes will be treated as having been issued with OID that is not de minimis. Assuming a Non-U.S. Holder satisfies the Portfolio Interest Exemption requirements described below under "Interest Received on Subordinated Notes", such Non-U.S. Holder would not be subject to withholding with respect to any such OID. If a Non-U.S. Holder failed to satisfy those requirements and any OID was determined to exceed the de minimis threshold, OID on the Subordinated Notes would be subject to a 30% U.S. withholding tax, unless such Non-U.S. Holder otherwise establishes an exemption from or reduced rate of withholding under a tax treaty and satisfies certain documentation requirements. In general, under the Canadian Treaty, Canadian residents would be entitled to a 10% withholding tax rate. The remainder of this discussion assumes that the Company's allocation of the Offering purchase price will be respected for U.S. federal income tax purposes.

#### *Interest Received on Subordinated Notes and Debentures*

Provided that the Subordinated Notes and the Debentures are respected as debt for U.S. federal income tax purposes (see "Taxation of the Company -- Classification of Subordinated Notes and Debentures as Debt" below), since more than 80% of the assets of the Company are U.S. assets, interest paid on the Subordinated Notes and the Debentures will be "branch interest" under Code section 884 and will be treated as if paid by a U.S. corporation. As such, interest paid on the Subordinated Notes to Non-U.S. Holders should qualify for the "Portfolio Interest Exemption" from U.S. federal income tax, provided:

- (a) the Non-U.S. Holder is not a Disqualified Recipient, and
- (b) either: (i) the Non-U.S. Holder certifies to the Company or its agent on IRS Form W-8BEN (or a suitable substitute or successor form) under penalties of perjury that such Non-U.S. Holder is not a "United States person" (as defined in the Code) and provides its name and address; (ii) a "qualified intermediary" (as defined in applicable Treasury Regulations) receives documentation upon which it can rely to treat the Non-U.S. Holder as not a United States person and provides the Company with an IRS Form W-8IMY (or a suitable substitute or successor form); or (iii) certain other documentation requirements are met.

If a Non-U.S. Holder does not satisfy these requirements, interest paid on the Subordinated Notes to such Non-U.S. Holder will be subject to a 30% U.S. withholding tax, unless such Non-U.S. Holder otherwise establishes an exemption from or reduced rate of withholding under a tax treaty and satisfies certain documentation requirements. In general, under the Canadian Treaty, Canadian residents are entitled to the reduced U.S. withholding tax rate of 10% on U.S. source interest.

#### *Distributions with Respect to Common Shares*

Provided a Non-U.S. Holder satisfies certain documentation requirements (generally as described in paragraph (b) under "— Interest Received on Subordinated Notes and Debentures" above), distributions paid with respect to the Common Shares to such Non-U.S. Holder should not be subject to U.S. withholding tax. If such documentation requirements are not satisfied, the Non-U.S. Holder may be subject to backup withholding. See "Information Reporting and Backup Withholding" below.

### *Disposition, Separation and Recombination of IPSs; Disposition of Debentures*

A Non-U.S. Holder should not be subject to U.S. federal income tax on any gain realized on the sale, exchange, or other disposition of IPSs, Debentures, Subordinated Notes or Common Shares unless: (i) the Non-U.S. Holder is an individual who is present in the U.S. for a period or periods aggregating 183 or more days in the taxable year of the disposition and certain other conditions are met; or (ii) the Non-U.S. Holder is subject to tax pursuant to the provisions of U.S. tax law applicable to certain U.S. expatriates.

If a Non-U.S. Holder separates an IPS into its constituent Common Share and Subordinated Notes or recombines a Common Share with Subordinated Notes to form an IPS, the Non-U.S. Holder should not recognize gain or loss for U.S. federal income tax purposes upon such separation or recombination. The U.S. federal income tax consequences described in this summary should not be affected by a separation or recombination.

### *Conversion of Debentures into IPSs*

A Non-U.S. Holder should not be subject to U.S. federal income tax upon conversion of the Debentures into IPSs. For U.S. federal income tax purposes, a Non-U.S. Holder must allocate its adjusted tax basis it had in any Debentures among the Subordinated Notes and Common Share components of the IPSs received upon conversion based upon the relative fair market values of the Subordinated Notes and Common Share at that time.

Assuming that the Subordinated Notes forming part of the IPSs issued upon conversion are treated as debt for U.S. federal income tax purposes, as discussed below, Non-U.S. Holders of such Subordinated Notes generally would be treated for U.S. federal income tax purposes in the same manner as described above with respect to Non-U.S. Holders of IPSs. However, any such Non-U.S. Holder that is a Disqualified Recipient should consult its U.S. tax advisor regarding the possibility that any Subordinated Notes issued upon conversion of Debentures could be treated as issued with OID for U.S. federal income tax purposes. In the event that any Subordinated Notes forming part of IPSs issued upon conversion are treated as equity rather than debt for U.S. federal income tax purposes, then distributions with respect to such Subordinated Notes will generally be treated for U.S. federal income tax purposes as described above under “— Distributions with Respect to Common Shares” rather than as interest.

### *Information Reporting and Backup Withholding*

The Company will, where required, report to the IRS the amount of any interest paid on the Subordinated Notes and Debentures and dividends paid on its Common Shares and the amounts, if any, of federal income tax withheld with respect to such payments. Backup withholding tax, currently at a rate of 28%, may apply to amounts paid by the Company with respect to Common Shares held by a Non-U.S. Holder if the Non-U.S. Holder fails to satisfy certain documentation requirements (generally as described in paragraph (b) under “Interest Received on Subordinated Notes” above). Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded, provided certain required information is provided to the IRS.

In the event that any Subordinated Notes, including both Subordinated Notes issued as part of IPSs in the Offering or upon conversion of any Debentures into IPSs (assuming such Subordinated Notes constitute debt), are treated as issued with OID (in excess of the de minimis threshold) for U.S. federal income tax purposes, the Company may not be able to properly identify which holders of Subordinated Notes own the Subordinated Notes issued with OID. As a result, the Company may not be able to properly report OID to holders of the Subordinated Notes and to the IRS pursuant to the information reporting requirements, if applicable. This could result in penalties being imposed on the Company by the IRS.

## **Taxation of the Company**

### *Generally*

For U.S. federal income tax purposes, the Company’s distributive share of Atlantic Holdings’ income arising from the Projects’ business operations in the U.S. will generally be treated as effectively connected with a

U.S. trade or business ("ECI"), and all or a portion of the Company's other income, including the Company's distributive share of other income of Atlantic Holdings, could be treated as ECI. The Company will generally be subject to a 35% U.S. federal income tax on its net taxable income which is ECI or, if applicable, the "alternative minimum tax" of 20% on "alternative minimum taxable income" which is ECI. In computing its U.S. taxable income, however, subject to the discussion under "Classification of Subordinated Notes and Debentures as Debt" and "Earnings Stripping Rules — Section 163(j)" below, the Company should be able to deduct interest paid on the Subordinated Notes and Debentures or other deductible expenses incurred by the Company, including the Company's distributive share of expenses of Atlantic Holdings, in each case to the extent that any such deductions are allocable to the Company's income which is ECI. In addition to the U.S. federal income tax on taxable income which is ECI, the Company will be liable for a 5% branch profits tax on its after-tax earnings attributable to ECI. See "Branch Profits Tax" below.

The Company may also be subject to a 30% U.S. withholding tax on certain types of income which are not ECI, but are derived by the Company from U.S. sources (whether directly or indirectly through one or more partnerships it owns), unless the Company otherwise establishes an exemption from, or reduced rate of, withholding under the Canadian Treaty. These types of income generally include dividends, rents, royalties, compensation, certain interest and other "fixed or determinable annual or periodic" income (collectively referred to as "FDAP"). Unless an exception applies, the Company will be subject to withholding tax on the gross amount of any FDAP income, and will not be entitled to a U.S. tax deduction for any expenses, including interest on the Subordinated Notes, to the extent allocable to FDAP income. However, the Company may elect to treat rents from real property situated in the U.S. and certain other income that would otherwise be FDAP as ECI, in which case the income and its allocable expenses would be taxable as described in the preceding paragraph.

#### *Company Taxed on Distributive Share of Projects' Income*

The Projects will be treated as owned by partnerships for U.S. federal income tax purposes (the "Project partnerships"), except to the extent that they are directly or indirectly wholly owned by Atlantic Holdings, in which case they will be treated as owned directly by Atlantic Holdings. Atlantic Holdings will also be treated as a partnership for U.S. federal income tax purposes for any period during which it has more than one owner, and as a disregarded branch of its owner (e.g., the Company) if at any time it has only one owner for U.S. federal income tax purposes. As such, the Project partnerships and Atlantic Holdings will not themselves be subject to U.S. federal income tax. Rather, each Project partnership will compute its income, gains, losses, deductions and credits under U.S. tax rules and will allocate such items to its partners, including Atlantic Holdings, generally in accordance with their percentage interests. Similarly, Atlantic Holdings will compute its distributive share of income, gains, losses, deductions and credits from the Project partnerships, as well as any items it realizes directly or through disregarded entities, and will allocate such items to its partners, including the Company. However, assuming that a Code section 754 election is in effect for each partnership for the taxable year of the Offering, the Company's taxable income from Atlantic Holdings (including its indirect income from each Project partnership) should be reduced by depreciation and amortization deductions in amounts generally determined in a manner similar to what they would have been if the Company had purchased a rateable portion of the assets of Atlantic Holdings and each Project partnership for an aggregate amount equal to the amount paid for its interest in Atlantic Holdings, increased by the Company's portion of any debt of the Project partnership.

Atlantic Holdings will be subject to the withholding tax rules of Code section 1446. Therefore, Atlantic Holdings will generally be required to deduct and withhold, on a quarterly basis, 35% of the taxable income realized by it (whether directly or through a Project partnership) that is effectively connected with a U.S. trade or business and is allocable to the Company. Any amounts so withheld will be treated for all purposes as distributed to the Company. The amount withheld will be calculated using only income, gains, losses, deductions and credits realized by Atlantic Holdings, whether directly or through a Property partnership (including depreciation and amortization deductions allocated to the Company), and only to the extent that such income, gains, losses, deductions and credits are effectively connected with a U.S. trade or business. Other deductions, including deductions attributable to income of Atlantic Holdings which is not ECI and deductions for any expenses incurred directly by the Company, including interest paid on the Subordinated Notes, will not reduce the amount withheld. However, the Code section 1446 withholding tax is not an additional tax and will be

credited against the U.S. tax liability of the Company. Thus, if the amount withheld by Atlantic Holdings under Section 1446 for a taxable year exceeds the Company's actual U.S. federal income tax liability attributable to its net income which is ECI, such excess will be refundable. Provided that the Subordinated Notes and Debentures are respected as debt for U.S. federal income tax purposes (see "Classification of Subordinated Notes and Debentures as Debt" below), in determining its net income which is ECI, the Company should be able to deduct interest payments on the Subordinated Notes and Debentures as discussed above, and accordingly expects a significant portion of such withheld amount to be refundable for periods during which the Subordinated Notes and Debentures are outstanding.

#### *Classification of Subordinated Notes and Debentures as Debt*

U.S. Tax Counsel has advised the Company and the Underwriters, as applicable, that the Subordinated Notes and Debentures should be treated as debt for U.S. federal income tax purposes. Such advice is based in part on facts described in this short form prospectus and on various other opinions, assumptions, customary representations and determinations discussed in more detail in the following paragraphs. Any alteration or incorrectness of such facts, opinions, assumptions, representations or determinations could adversely affect such advice, and such advice is not binding on the IRS or the courts, which could disagree. The Company intends, and by acquiring Subordinated Notes (directly or as part of an IPS) or Debentures each holder of Subordinated Notes or Debentures agrees, to treat the Subordinated Notes and Debentures as debt of the Company for all purposes.

The determination of whether the Subordinated Notes and Debentures are debt or equity for U.S. federal income tax purposes is based on an analysis of the facts and circumstances. Generally, the IRS will not issue a ruling on whether an advance is to be treated as debt or equity. There is no clear statutory definition of debt and its characterization is governed by principles developed in case law, which analyzes numerous factors that are intended to identify the economic substance of the investor's interest in the corporation. U.S. Tax Counsel's determination that the Subordinated Notes and Debentures should be treated as debt for U.S. federal income tax purposes relies upon certain customary representations and determinations by the Company and an independent financial advisor, including, among others, representations and determinations substantially to the effect that:

- The principal amount, interest rate, issue price, term, security and other material provisions of the Subordinated Notes, when taken together and considered as a whole, are commercially reasonable and are substantially similar to those terms to which an unrelated third party lender, not owning equity in the Company and bargaining at arm's length with the Company, would reasonably agree, where such lender would ordinarily be considered by knowledgeable corporate finance experts to be a lender in the corporate bond market or other market for corporate debt and not primarily an investor in equity.
- The ratio of the aggregate amount of indebtedness of the Company to its aggregate capital and the Company's Cash Flow Coverage Ratio (as defined in the Indenture) are commercially reasonable under the circumstances.
- The Company expects to be able to pay the interest and principal due on the Subordinated Notes and Debentures in full in accordance with their terms.
- After the completion of the Offering, the ratio of the sum of all debt of the Company (including the Subordinated Notes and Debentures but excluding debt of the Company's subsidiaries) to the fair market value of the Common Shares will not exceed two to one.

In light of the representations and determinations described above and their relevance to several of the factors analyzed in case law, and taking into account the facts and circumstances relating to the issuance of the Subordinated Notes and Debentures, in the opinion of U.S. Tax Counsel the Subordinated Notes and Debentures should be treated as debt for U.S. federal income tax purposes. However, there is no authority that directly addresses the tax treatment of securities similar to the Subordinated Notes which are offered in circumstances similar to this Offering (i.e., as part of a unit that includes common shares of the issuer) or of the Debentures. In light of this absence of direct authority, U.S. Tax Counsel cannot conclude with certainty that the Subordinated Notes and Debentures will be treated as debt for U.S. federal income tax purposes, and, although

the Company intends to take the position that the Subordinated Notes and Debentures are debt for U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, interest payments on the Subordinated Notes and Debentures would be recharacterized as non-deductible distributions with respect to the Company's equity, and the Company's net taxable income which is ECI and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after-tax cash flow would be reduced and the Company's ability to make interest payments on Subordinated Notes and Debentures and distributions with respect to Common Shares could be materially and adversely impacted. In addition, if such challenge were sustained, interest payments on the Subordinated Notes and Debentures would be treated for U.S. federal income tax in the same manner as distributions with respect to Common Shares, as could all or a portion of any repayment of principal on the Subordinated Notes and Debentures. See "Taxation of Non-U.S. Holders — Distributions with Respect to Common Shares" above.

Even if the IRS accepts the characterization of the Subordinated Notes as debt, there can be no assurance that the IRS will not claim that the interest rate on the Subordinated Notes is in excess of an arm's length rate, or that Non-U.S. Holders paid more for the Subordinated Notes than their face amount. If any such challenge were sustained, the Company would not be able to deduct all of the interest paid on the Subordinated Notes and the Company's taxable income and U.S. federal income tax liability could be materially increased. As a result, the Company's after-tax cash flow could be reduced and the Company's ability to make interest payments on Subordinated Notes and Debentures and/or distributions with respect to Common Shares could be materially and adversely impacted.

#### *Earnings Stripping Rules — Section 163(j)*

Code section 163(j) is another potential limiting factor on the Company's ability to deduct interest paid on the Subordinated Notes. In general, Code section 163(j) limits a corporation's deductions for interest paid to related foreign persons exempt from U.S. tax in years that: (i) the debt-to-equity ratio of the U.S. corporate taxpayer exceeds 1.5 to 1 (based on the tax basis of assets), and (ii) the corporation's net interest expense (i.e., the excess of interest expense over interest income) exceeds 50% of "adjusted taxable income". Adjusted taxable income is generally defined as the corporation's taxable income before net interest expense, depreciation, and amortization. For purposes of Code section 163(j), a corporation and a creditor of the corporation will generally be "related" if the creditor owns, directly or by attribution, more than 50% of the corporation by vote or value. Under current law, assuming no Non-U.S. Holder owns more than 50%, directly or by attribution, of the Common Shares, Code Section 163(j) should not apply to limit the Company's ability to deduct interest paid on the Subordinated Notes.

Various proposals have been introduced in the U.S. Congress to amend Code section 163(j). Prospects for the enactment of such legislation are uncertain. Although U.S. Tax Counsel believes that none of the current proposals to amend Code section 163(j) would affect the deductibility of interest paid by the Company on the Subordinated Notes, the ultimate form of legislation amending Code section 163(j), if any is enacted, is uncertain.

#### *Conversion of Debentures into IPSs; Classification of Subordinated Notes Issued Upon Conversion*

The conversion of Debentures into IPSs generally will not give rise to any tax deduction for the Company. Whether any Subordinated Notes issued as part of IPSs upon conversion of a Debenture will be treated as debt or equity for U.S. federal income tax purposes will be determined at the time of conversion based on the facts and circumstances at that time. As a result, even if the Debentures and Subordinated Notes issued in the Offering are properly treated as debt, there can be no assurance that any Subordinated Notes issued upon conversion of any Debentures will be so treated. However, assuming that the facts, circumstances, and tax rules applicable at the time of conversion are similar to those existing today, including but not limited to the representations and determinations described above continuing to be true, the Company would expect that any such Subordinated Notes should also be treated as debt for U.S. federal income tax purposes. Even if any such Subordinated Notes are treated as debt, the Company may not be able to deduct the full amount of interest payable in the Subordinated Notes if and to the extent that any such Subordinated Notes are treated as issued at a premium to their principal amount for U.S. federal income tax purposes.

### ***Branch Profits Tax***

Under the “branch profits tax” rules of Code section 884 (as modified by the Canadian Treaty), distributions from the Atlantic Holdings to the Company, to the extent such distributions are not in excess of the Company’s earnings and profits attributable to ECI, will be subject to a 5% tax. If deductions for interest paid on the Subordinated Notes and/or Debentures are denied or limited (as discussed above) the Company’s earnings and profits and hence its liability for branch profits tax could increase substantially. As a result, the Company’s after-tax cash flow could be reduced and/or the Company’s ability to make interest payments on Subordinated Notes and Debentures and distributions with respect to Common Shares could be materially and adversely impacted.

## **RECENT ACCOUNTING PRONOUNCEMENTS**

### **Financial Instruments — Recognition and Measurement**

In January 2005, the CICA released new Handbook Section 3855, “Financial Instruments — Recognition and Measurement,” effective for annual and interim periods beginning on or after October 1, 2006. This new section establishes standards for the recognition and measurement of all financial instruments, provides a characteristics-based definition of a derivative financial instrument, provides criteria to be used to determine when a financial instrument should be recognized, and provides criteria to be used when a financial instrument is to be extinguished. The Company has not yet determined the effect that these new standards will have on its consolidated financial position and results of operations.

### **Comprehensive Income and Equity**

In January 2005, the CICA released new Handbook Section 1530, “Comprehensive Income,” and Section 3251, “Equity,” effective for annual and interim periods beginning on or after October 1, 2006. Section 1530 establishes standards for reporting comprehensive income. These standards require that an enterprise present comprehensive income and its components in a separate financial statement that is displayed with the same prominence as other financial statements. Section 3251 establishes standards for the presentation of equity and changes in equity during the reporting period in addition to the requirements in Section 1530. The Company has not yet determined the effect these new standards will have on its consolidated financial position and results of operations.

### **Hedges**

In January 2005, the CICA released new Handbook Section 3865, “Hedges,” effective for annual and interim periods beginning on or after October 1, 2006. This new section establishes standards for when and how hedge accounting may be applied. Hedge accounting is optional. The Company has not yet determined the effect these new standards will have on its consolidated financial position and results of operations.

## **RISK FACTORS**

An investment in the IPSs or the Debentures and the Common Shares and Subordinated Notes represented by IPSs, involves a number of risks in addition to those described under “Forward-Looking Statements”. In addition to other information contained or incorporated by reference in this short form prospectus, prospective investors should give careful consideration, in light of their own financial circumstances, to the factors set out under “Risk Factors” in the AIF and the following factors. Any of the matters highlighted in the risk factors could have a material adverse effect on the Company’s results of operations, business prospects or financial condition, the cash available to the Company for distribution to holders of IPSs, Debentures, Common Shares and Subordinated Notes or on the market price or value of IPSs, Debentures, Common Shares or Subordinated Notes.

## **Risks Related to the Path 15 Project**

### ***Unresolved Ratemaking Issues Under FERC Review Could Adversely Affect Cash Flows***

There are currently two material ratemaking issues related to the Path 15 Project under FERC review that could affect the revenue earned by Path 15 Opco. These issues are expected to be determined by the FERC commissioners by the end of the fourth quarter of 2006. Given the potential impact of the ruling on Path 15 Opco's cash flows, the Company negotiated certain purchase price adjustments in the Purchase and Sale Agreement in the event of an adverse outcome. Specifically, \$24.1 million of the purchase price is being held in escrow pending the FERC's final determination of two ratemaking issues. If the FERC's resolution of the outstanding rate issues is favourable to Path 15 Opco, a portion or all of the amount held in escrow will be released to the Vendors in accordance with a formula set forth in the Purchase and Sale Agreement. If the FERC's resolution of the outstanding rate issues is not favourable to Path 15 Opco, the purchase price for the Acquisition will be reduced in accordance with a formula set forth in the Purchase and Sale Agreement and all or a portion of the amount held in escrow will be returned to Atlantic Holdings. Management believes that the escrow provisions in the Purchase and Sale Agreement allow the Company to maintain virtually the same economic outcome from the Acquisition regardless of the outcome of the issues that remain subject to a FERC ruling. It is also possible that the FERC's decision could be appealed to the circuit courts. The FERC's ruling would take effect throughout the duration of any appeal and neither party would have an obligation to return amounts released from escrow in the event of a reversal on appeal. However, the Company has been advised by its legal counsel in connection with the FERC matters that a successful appeal of a FERC decision on these issues is unlikely.

In December 2004, the FERC ordered that rates for Path 15 Opco be established consistent with the filed revenue requirement, subject to refund. A number of parties intervened in the case, raising objections to certain elements of the filing. Testimony was submitted by various parties and a hearing was held before the FERC Administrative Law Judge in September 2005. The major issues raised by interveners in the setting of Path 15 Opco's rates included:

- Inclusion of prepaid expenses for financing-related reserve obligations as rate base items;
- Proper methodology for calculating Path 15 Opco's allowance for working capital and the proper amount for this allowance;
- Proper methodology for calculating Path 15 Opco's allowance for funds used during construction and the proper amount for this allowance; and
- The recovery of costs associated with the WAPA's capacity allocation.

In December 2005, the FERC Administrative Law Judge issued an initial decision that reduced the amount of working capital included in the rate base and excluded various debt service and liquidity reserves from the rate base. The FERC Administrative Law Judge upheld Path 15 Opco's calculation of the allowance for funds used during construction and removed the issue of the WAPA's cost recovery from the current proceeding. The net impact of excluding the working capital and various reserves from the rate base would be a reduction in the return on investment portion of rates, totalling approximately \$2.3 million a year for the period 2005 to 2007.

Path 15 Opco filed exceptions to the FERC Administrative Law Judge's proposed findings and expects a final order to be issued by the FERC by the end of the fourth quarter of 2006. If the FERC Administrative Law Judge's decision is upheld, a refund obligation of approximately \$6.5 million would be generated to account for the approximately \$2.3 million of over collection per year since the beginning of the Path 15 Project's commercial operations in December 2004. Management believes that this refund obligation could be paid directly from the funds placed in escrow, in accordance with the Purchase and Sale Agreement, to the CAISO without affecting the cash flow coverage covenants at Path 15 Opco or Path 15 Holdco.

### ***Future FERC Rate Determinations Could Negatively Impact Cash Flows***

The stability of Path 15 Opco's cash flows will continue to be subject to the risk related to the FERC's authority to adjust the expected formulation of revenues upon its rate review every three years. The cost-of-service methodology currently applied by the FERC is well established and transparent, however certain

inputs in the FERC's determination of rates are subject to its discretion, which include return on equity and the recovery of certain extraordinary expenses. Unfavourable decisions on these matters could adversely affect the cash flow, financial position and results of operations of Path 15 Opco and Path 15 Holdco, and the Company, and could adversely affect the cash available for distribution by the Company.

***Significant Adverse Changes in Debt Markets and/or Interest Rates May Prevent the Company from Repaying the Acquisition Credit Facility on the Expected Timeline***

The Manager intends to use a portion of the net proceeds of the Offering and a long-term non-recourse loan at Harbor Transmission, LLC to pay down the Acquisition Credit Facility. In the event of a significant adverse change in debt markets and/or interest rates, it is possible that the Company may be unable to repay the Acquisition Credit Facility on the expected timeline. However, the Company currently has sufficient funds available under the Amended Credit Facility to repay the outstanding balance on the Acquisition Credit Facility following the Offering should such events occur.

***Counterparty Credit***

The CAISO operates as a clearinghouse for the settlement of third-party transactions involving purchases and sales of power in California. The CAISO does not purchase or sell power for its own account, but relies on payments owed to it by investor-owned utilities and other users of the California transmission grid. The CAISO transmission system users are required to have an approved short-term credit rating (A1 — S&P, F1 — Fitch IBCA, P1 — Moody's). If these rating standards are not attained, the transmission system user must provide an acceptable letter of credit, an acceptable surety bond, a guarantee of a company with an approved credit rating, a cash deposit, a certificate of deposit or a payment bond certificate. Despite these mitigating factors, it is possible that a payment problem could reduce revenues received by Path 15 Opco and the Company.

***Tax Risks Associated with the Depreciation of TSRs***

The current owners of Path 15 Opco have been depreciating their ownership of TSRs as a transmission asset for tax purposes. The Company expects that it will depreciate its investment on the same basis. However, there can be no assurance that the IRS will not challenge the tax treatment related to the depreciation of TSRs in a manner which adversely affects the Company by, for example, determining that TSRs are undepreciable intangible property. If such a challenge were sustained, depreciation on TSRs could be recharacterized as non-deductible and the taxable income and tax liability associated with the Path 15 Project could be materially increased. If taxes increase at Path 15 Opco, Path 15 Opco can submit to the FERC for a prospective recovery of these increases.

***Income Tax Allowances Included by Path 15 Opco in its Rates have been Challenged by Certain Parties and Path 15 Opco may be Subject to a Refund Liability***

On October 4, 2004, Path 15 Opco filed a Revenue Requirement and Transmission Owner Tariff with the FERC to recover investment costs related to the Path 15 Project. On November 17, 2005, the FERC issued an order related to Path 15 Opco's proposed income tax allowance in rates, determining that the owners of Path 15 Opco have an actual or potential income tax liability with respect to the income from Path 15 Opco. Pursuant to the FERC's income tax policies, the FERC order permitted Path 15 Opco to include a tax allowance in its rates. On April 13, 2006, a request filed by certain third parties for a rehearing of the FERC's order was denied.

On June 1, 2006, the Transmission Agency of Northern California (the "TANC") petitioned the United States Court of Appeals for the District of Columbia Circuit for review of the FERC's order permitting Path 15 Opco to include an income tax allowance in its rates. As of the date hereof, the appeal is still pending. In the event the appeal is successful and the FERC's order granting Path 15 Opco an income tax allowance in rates is overturned, it is possible that the determination will result in Path 15 Opco incurring a refund liability equal to the amount of the tax allowance included in the rates and collected from customers. Furthermore, such an outcome may also preclude Path 15 Opco from including an income tax allowance in future rates. Given the general deference of the courts to regulatory agency decisions, their reluctance to overturn longstanding FERC precedent and the extensive process followed by the FERC in the formulation of its policy statement issued in

connection with the tax issue raised by the TANC, the Manager believes that it is unlikely that the TANC will succeed in its appeal.

***Restrictive Covenants in Existing Debt Agreements Could Impact Distributions by the Company***

The debt covenants of Path 15 Opco and Path 15 Holdco restrict the payment of dividends to Path 15 Holdco and ultimately to the Company based on the maintenance of various cash coverage ratios. While the Manager's projections do not anticipate any violation of these covenants, an unanticipated event that results in a temporary cash shortage could prevent the distribution of certain available cash to Harbor Transmission, LLC. As discussed above, an adverse FERC ruling on working capital and debt service reserve issues or an adverse decision of the United States Court of Appeals for the District of Columbia Circuit on the income tax issue could result in a refund liability to Path 15 Opco that would be netted out of rates. Any refund liability would require a lump sum payment for the over collection during the interim rate period. The excluded amounts would also be removed from rates prospectively.

***It is Possible that Future Administration and Management Expenses Exceed Historical Costs and May Not be Approved in the Rates***

Trans-Elect will continue to provide administrative and management services to Path 15 Opco for a transitional period extending through December 31, 2006. These services include participation in the coordination with the WAPA and Pacific Gas and Electric Company of the operation and maintenance, accounting and reporting requirements with existing lenders to Path 15 Opco and Path 15 Holdco and the management of rate proceedings with the FERC. Following the transition period, the Company and/or one of its subsidiaries or affiliates will assume the administration and management of Path 15 Opco. Following the transition period, there is a risk that the Company will incur higher expenses in the administration and management of Path 15 Opco than historically experienced by Trans-Elect. It is possible that any increased costs incurred by the Company will not be approved in the rates.

***Outstanding Condemnation Proceedings Related to Portions of the Rights of Way for the Path 15 Project May Result in Adverse Judgments***

There are three condemnation proceedings related to portions of the rights of way for the Path 15 Project that are being defended by the U.S. Department of Justice on behalf of the WAPA:

**Wood Harris** — This matter is scheduled to begin trial at the district court level in January 2007. The landowner is claiming a value of \$11.4 million and the government's appraisal is \$100,000.

**Campion** — This matter went to trial earlier in 2006. The landowner claimed a value of \$16 million and the government's appraisal was approximately \$100,000. At the conclusion of the matter, the jury awarded approximately \$2.1 million, including interest, which was paid into court pending the plaintiff's appeal. A hearing has not yet been scheduled.

**Stone** — In this matter, the plaintiff challenged the WAPA's right to condemn the plaintiff's property. The district court granted summary judgment *sua sponte* to the government, but the plaintiff has appealed. A hearing has not yet been scheduled.

As discussed above under "Path 15 Project — Regulation", the Path 15 Project may add to its ratebase all prudently incurred costs. In the event that an unfavourable result on a condemnation proceeding resulted in an increased cost to Path 15 Opco, Path 15 Opco could request that the FERC approve the addition of such costs to its ratebase which, if approved, would generate incremental returns for Path 15 Opco. The Manager believes any amounts payable would be available under the Company's credit facilities and the result of having increased capital earning the applicable FERC-approved rates of return would not have a material adverse effect.

## **Risks Related to the Debentures**

### ***Repayment of the Debentures***

The Debentures mature on October 31, 2011. The Company may not be able to refinance the principal amount of the Debentures in order to repay the principal outstanding or may not have generated enough cash from operations to meet this obligation. There is no guarantee that the Company will be able to repay the outstanding principal amount upon maturity of the Debentures.

As a result of the subordinated nature of the guarantees of the Debentures, upon any distribution to creditors of Atlantic Holdings in a bankruptcy, liquidation or reorganization or similar proceeding relating to Atlantic Holdings or its property or assets, the holders of Atlantic Holdings' senior indebtedness will be entitled to be paid in full in cash before any payment may be made with respect to the Debentures under the guarantee provided by Atlantic Holdings. In the event of a bankruptcy, liquidation or reorganization or similar proceeding relating to any of the Project Operating Entities or the Projects (other than the Onondaga Project), the holders of the Debentures will not have a claim against the assets of such Projects.

### ***Trading Market for Debentures***

The Debentures constitute a new issue of securities of the Company for which there is currently no public market. If the Debentures are traded after their initial issuance, they may trade at a discount from their offering price depending on prevailing interest rates, the market for similar securities, the performance of the Company and other factors. No assurance can be given as to whether an active trading market will develop or be maintained for the Debentures. To the extent that an active trading market for the Debentures does not develop, the liquidity and trading prices for the Debentures may be adversely affected.

### ***Prior Ranking Indebtedness***

The Debentures will rank junior to all existing and future Senior Secured Indebtedness, including the Amended Credit Facility and the Acquisition Credit Facility. See "Description of Debentures — Ranking".

### ***Absence of Covenant Protection***

The Indenture will not restrict the ability of the Company or any of its subsidiaries from incurring additional indebtedness for borrowed money or otherwise from mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing. The Indenture will not contain any provisions specifically intended to protect holders of the Debentures in the event of a future leveraged transaction involving the Company or any of its subsidiaries.

### ***Redemption Prior to Maturity***

The Debentures may be redeemed, at the option of the Company, after October 31, 2009 and prior to the Maturity Date in whole or in part, at a redemption price equal to the principal amount thereof, together with any accrued and unpaid interest subject to certain conditions described under "Description of Debentures — Redemption and Purchase". Holders of Debentures should assume that this redemption option will be exercised if the Company is able to refinance at a lower interest rate or it is otherwise in the interest of the Company to redeem the Debentures.

### ***Inability of the Company to Purchase Debentures***

The Company will be required to offer to purchase all outstanding Debentures upon the occurrence of a Change of Control. However, it is possible that following a Change of Control, the Company will not have sufficient funds at that time to make the required purchase of outstanding Debentures or that restrictions contained in other indebtedness will restrict those purchases. See "Description of Debentures — Put Right Upon a Change of Control".

### *Conversion Following Certain Transactions*

In the event of certain transactions, pursuant to the terms of the Indenture, each Debenture will become convertible into securities, cash or property receivable by a holder of IPSs in the kind and amount of securities, cash or property as if such holder had converted the Debentures into IPSs prior to completion of the transaction. This change could substantially reduce or eliminate any potential future value of the conversion privilege associated with the Debentures. For example, if the Company were acquired in a cash merger, each Debenture would become convertible solely into cash that would no longer be convertible into securities whose value would vary depending on the Company's future prospects and other factors. See "Description of Debentures — Conversion Privilege".

### *U.S. Federal Income Tax Risks*

There can be no assurance that U.S. federal income tax laws and IRS administrative policies respecting the U.S. federal income tax consequences generally applicable to a holder of Debentures or Common Shares and Subordinated Notes, as represented by IPSs, will not be changed in a manner which adversely affects Non-U.S. Holders.

There is no authority that directly addresses the tax treatment of securities similar to the Debentures. In light of this absence of direct authority, it cannot be concluded with certainty that the Debentures will be treated as debt for U.S. federal income tax purposes, and, although the Company intends to take the position that the Debentures are debt for U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, interest payments on the Debentures would be recharacterized as non-deductible distributions with respect to the Company's equity, and the Company's net taxable income which is effectively connected income and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after-tax cash flow would be reduced and the Company's ability to make interest payments on the Debentures and Subordinated Notes and distributions with respect to Common Shares could be materially adversely impacted.

### **ELIGIBILITY FOR INVESTMENT**

In the opinion of Goodmans LLP, counsel to the Company and of Blake, Cassels & Graydon LLP, counsel to the Underwriters, on the date of this short form prospectus, the Common Shares represented by the IPSs, the Subordinated Notes represented by the IPSs, the Debentures and the Common Shares and Subordinated Notes issuable upon conversion of the Debentures, if issued on the date hereof, would be qualified investments under the Tax Act for trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans (except that the Subordinated Notes and Debentures will not be qualified investments for trusts governed by a deferred profit sharing plan to which contribution payments are made by the Company or a person with whom the Company does not deal at arm's length within the meaning of the Tax Act) and registered education savings plan (collectively, the "plans") at that time.

### **MATERIAL CONTRACTS**

The only material contracts, other than contracts entered into in the ordinary course of business, to which the Company or Atlantic Holdings will become a party prior to or at the closing of the Offering are as follows:

- (a) the Underwriting Agreement referred to under "Plan of Distribution";
- (b) the Acquisition Credit Facility referred to under "Path 15 Project — Acquisition Credit Facility";
- (c) the Amended Credit Facility referred to under "Path 15 Project — Amended Credit Facility"; and
- (d) the Indenture referred to under "Description of Debentures".

Copies of these agreements will be available at [www.sedar.com](http://www.sedar.com) or may be examined at the registered office of the Company, at 355 Burrard Street, Suite 1900, Vancouver, British Columbia, V6C 2G8, during normal business hours until the expiry of the 30-day period following the date of the final short form prospectus.

## **AUDITORS, TRANSFER AGENT AND REGISTRAR AND DEBENTURE TRUSTEE**

The auditors of the Company are KPMG LLP, Chartered Accountants.

The transfer agent and registrar for the IPSs and the Common Shares is Computershare Investor Services Inc. at its principal office in Toronto, Ontario. The trustee of the Debentures is Computershare Trust Company of Canada.

## **STATUTORY RIGHTS OF RESCISSION AND WITHDRAWAL**

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right generally may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of these rights or consult with a legal advisor.

## GLOSSARY OF TERMS

In this short form prospectus, the following terms will have the meanings set forth below, unless otherwise indicated. Words importing the singular include the plural and vice versa and words importing any gender include all genders:

**"Acquisition"** means the indirect acquisition by the Company of the equity interests of Path 15 Holdco whose principal asset is Path 15 Opco, owner of 72% of the TSRs relating to the Path 15 Project, pursuant to a Purchase and Sale Agreement dated as of June 28, 2006.

**"Acquisition Credit Facility"** means the term loan credit facility extended to the Company for the purpose of assisting in the financing of the Acquisition.

**"affiliate"** has the meaning ascribed thereto in the *Securities Act* (Ontario).

**"AIF"** means the annual information form of the Company dated March 30, 2006.

**"Amended Credit Facility"** means the amended credit agreement dated as of November 18, 2004 (as may be amended from time to time) as amended through the third amendment dated as of September 15, 2006 entered into among Atlantic Holdings and a syndicate of financial institutions.

**"ArcLight"** means ArcLight Capital Partners, LLC.

**"Atlantic Holdings"** means Atlantic Power Holdings, LLC, a limited liability company formed under the laws of Delaware.

**"business day"** means a day other than a Saturday, Sunday or other day on which banking institutions in the Province of Ontario are authorized or required by law to close.

**"CAISO"** means the California Independent System Operator.

**"Canadian GAAP"** means the accounting principles generally accepted in Canada.

**"Canadian Treaty"** means the Canada United States Income Tax Convention, as amended.

**"Capital Stock"** means: (i) in the case of a corporation, corporate stock or equity interests, including, without limitation, corporate stock represented by IPSs and corporate stock outstanding upon the separation of IPSs into the securities represented thereby; (ii) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock; (iii) in the case of a partnership or limited liability company, partnership or membership interests (whether general or limited); and (iv) any other interest or participation that confers on a person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing person.

**"CDS"** means The Canadian Depository for Securities Limited.

**"Change of Control"** means the occurrence of any of the following events:

- (i) the sale, lease or transfer to any person or group, in one or a series of related transactions, of the Company's or Atlantic Holdings' assets generating more than 66⅔% of Company Cash Flow for the 12-month period ended on the last day of the most recent fiscal quarter to any person or group;
- (ii) the adoption of a plan relating to the liquidation or dissolution of the Company or Atlantic Holdings;
- (iii) the acquisition by any person or group of a direct or indirect interest in more than 50% of: (A) the Common Shares of the Company or the common membership interests of Atlantic Holdings; or (B) the voting power of the Company or Atlantic Holdings; by way of purchase, merger or consolidation or otherwise (other than a creation of a holding company that does not involve a change in the beneficial ownership of the Company as a result of such transaction); or
- (iv) the merger or consolidation of the Company or Atlantic Holdings with or into another person or the merger of another person into the Company or Atlantic Holdings with the effect that immediately after such transaction the shareholders of the Company or the holders of common membership interests of Atlantic Holdings immediately prior to such transaction hold, directly or indirectly, less than 50% of

the voting control over the person surviving such merger or consolidation, in each case other than the creation of a holding company that does not involve a change in the beneficial ownership of the Company or Atlantic Holdings as a result of such transaction.

“**Closing**” means the closing of the Offering.

“**Code**” means the *United States Internal Revenue Code of 1986*, as amended.

“**Common Shares**” means the common shares in the capital of the Company.

“**Company**” means Atlantic Power Corporation.

“**Company Cash Flow**” means, for any period, the difference of (i) the aggregate amount of all cash distributions received or receivable in respect of such period, by the Company from Atlantic Holdings or any other source during such period plus the Company’s *pro rata* share (based on its common membership ownership interest in Atlantic Holdings) of any cash distributions received by Atlantic Holdings in respect of such period and retained by Atlantic Holdings, in each such case exclusive of any distribution attributable to any net proceeds realized by the Company, a Significant Entity of the Company or a project upon the sale or disposition of plant, property and equipment, which is not disposed of in the ordinary course of business and any other extraordinary items, minus (ii) any amounts paid by the Company in respect of expenses (other than interest expenses), including taxes determined on a *pro forma*, annual basis for a full tax year.

“**Conversion Price**” means the price of Cdn\$12.40 per IPS, being a ratio of approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, subject to adjustment in certain events in accordance with the Indenture, at which price each Debenture will be convertible into IPSs at the option of the holder at any time prior to the close of business on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures.

“**CRA**” means the Canada Revenue Agency.

“**Current Market Price**” means the weighted average trading price of the IPSs for the 20 consecutive trading days ending on the fifth trading day preceding the date of the applicable event on the TSX (or, if not listed thereon, on such stock exchange on which the IPSs are listed or, if the IPSs are not listed on any stock exchange, then on the over-the-counter market) or, if there is no market, fair value as determined by an independent financial advisor.

“**DBRS**” means Dominion Bond Rating Service Limited.

“**Debenture Trustee**” means Computershare Trust Company of Canada.

“**Debentures**” means the 6.25% convertible secured debentures of the Company issued pursuant to the Indenture as of the date of closing of the Offering, and “**Debenture**” means one of them.

“**Depository**” means CDS or its successor.

“**Disqualified Recipient**” means (i) any person that owns, directly or indirectly (through ownership of IPSs or otherwise) and after application of the constructive ownership rules of Code section 871(h)(3), 10% or more of the total combined voting power of all classes of equity of the Company entitled to vote, (ii) a controlled foreign corporation related to the Company within the meaning of Code section 881(c)(3)(C), or (iii) a bank described in Code section 881(c)(3)(A) with respect to the Subordinated Notes.

“**Existing Investors**” means Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC.

“**FAPI**” means foreign accrual property income as defined in the Tax Act.

“**FERC**” means the United States Federal Energy Regulatory Commission, an independent regulatory agency within the United States Department of Energy that, among other things, oversees regulatory matters relating to electricity projects.

“**Fund I**” means ArcLight Energy Partners Fund I, L.P.

“**Fund II**” means ArcLight Energy Partners Fund II, L.P.

**“Global Debentures”** means Debentures issued in the form of fully registered global Debentures.

**“guarantee”** means a guarantee (other than by endorsement of negotiable instruments for collection in the ordinary course of business) direct or indirect, in any manner (including letters of credit and reimbursement agreements in respect thereof), of all or any part of any indebtedness or other obligations.

**“Guarantee”** means any guarantee of the obligations of the Company under the Indenture and the Debentures by any Person in accordance with the provisions of the Indenture.

**“Guarantors”** means Atlantic Holdings, Teton Power Funding, LLC, Epsilon Power Funding, LLC, MP Power LLC, Teton East Coast Generation LLC, Teton Fuels Mid-Georgia LLC, Teton Selkirk LLC, Badger Power Generation I LLC, Badger Power Generation II LLC, Baker Lake Hydro LLC, Dade Investment, L.P., Geddes II Company LLC, Geddes Cogeneration Company LLC, MEP Rumford, LLC, NCP Dade Power LLC, NCP Houston Power LLC, NCP Pasco LLC, NCP Perry LLC, Olympia Hydro LLC, Onondaga Cogeneration Limited Partnership, Orlando Power Generation I LLC, Orlando Power Generation II LLC, Stockton Cogen (II) LLC, Teton Operating Services, LLC and Teton New Lake, LLC, and **“Guarantor”** means any one of them.

**“Holder”** means a holder of IPSs, Debentures, Subordinated Notes or Common Shares, as applicable.

**“Indenture”** means the trust indenture to be entered into at the Closing between the Company and the Debenture Trustee, governing the terms of the Debentures.

**“Interest Payment Date”** means the date that interest will be paid on the Debentures, namely semi-annually on April 30 and October 31 in each year, commencing on April 30, 2007.

**“IPO”** means the initial public offering of IPSs completed on November 18, 2004.

**“IPS Interest Payment Election”** has the meaning set forth under “Description of Debentures — IPS Interest Payment Election”.

**“IRS”** means the United States Internal Revenue Service.

**“kilowatt”** means 1,000 watts of energy.

**“LLC Agreement”** means the amended and restated limited liability company agreement of Atlantic Holdings dated November 17, 2004, as amended.

**“Manager”** means Atlantic Power Management, LLC.

**“Maturity Date”** means October 31, 2011, the maturity date of the Debentures.

**“MW”** means 1,000 kilowatts of energy.

**“Non-U.S. Holder”** means a Holder that is not: (i) a citizen or individual resident in the U.S. for U.S. federal tax purposes; (ii) a corporation or other entity taxable as a corporation created or organized under the laws of the U.S. or a political subdivision thereof; (iii) an estate, the income of which is subject to U.S. federal income tax regardless of the source; or (iv) a trust, if (A) a court within the U.S. is able to exercise primary supervision over the trust’s administration and one or more U.S. persons have the authority to control all of its substantial decisions, or (B) the trust was in existence on August 20, 1996 and has properly elected under applicable Treasury Regulations to continue to be treated as a United States person.

**“Offering”** means the offering of the Securities pursuant to this short form prospectus.

**“Path 15 Holdco”** means Trans-Elect NTD Holdings Path 15, LLC.

**“Path 15 Opco”** means Trans-Elect NTD Path 15, LLC.

**“Path 15 Project”** means the transmission line upgrade along the Path 15 transmission corridor located in central California.

**“person”** includes an individual, corporation, the Company, partnership, joint venture, association, trust, trustee, unincorporated organization or government or any agency or political subdivision thereof.

“**plans**” means registered retirement savings plans, registered retirement income funds, defined profit sharing plans and registered education savings plans.

“**Project Holding Entities**” means Teton Power Funding, LLC and Epsilon Power Funding, LLC.

“**Project Operating Entities**” means the limited partnerships, corporations or other entities that directly own the Projects.

“**Projects**” means the 15 power generation projects as described under “Description of the Business — Summary Table of the Projects” and “Project Descriptions” in the AIF and the Path 15 Project as described herein under “Path 15 Project”, and “Project” means any one of them.

“**Purchase and Sale Agreement**” means the purchase and sale agreement dated as of June 28, 2006 pursuant to which a subsidiary of Atlantic Holdings acquired all of the equity interests in Path 15 Holdco.

“**Put Date**” means the date which is 30 days following the date the Company gives notice to a holder of Debentures of a Change of Control.

“**Put Price**” means 101% of the principal amount of the Debentures.

“**ROE**” means return on equity.

“**S&P**” means Standard and Poor’s, a division of The McGraw-Hill Companies, Inc.

“**Securities**” means, collectively, the IPSs and Debentures offered pursuant to this short form prospectus.

“**Securities Commissions**” means the securities commissions or securities regulatory authority in the provinces and territories of Canada in which the Company is a reporting issuer (or equivalent).

“**Senior Secured Indebtedness**” means the principal of and the interest and premium (or any other amounts payable thereunder), if any, on:

- (i) all secured indebtedness, liabilities and obligations of the Company and any Guarantor, whether outstanding on the date of the Indenture or thereafter created, incurred, assumed or guaranteed in connection with the acquisition by the Company or any Guarantor of any businesses, properties or other assets or for monies borrowed or raised by whatever means (including, without limitation, by means of commercial paper, bankers’ acceptances, letters of credit, debt instruments, bank debt and financial leases, and any other secured liability evidenced by bonds, debentures, notes or similar instruments) or in connection with the acquisition of any businesses, properties or other assets or for monies borrowed or raised by whatever means (including, without limitation, by means of commercial paper, bankers’ acceptances, letters of credit, debt instruments, bank debt and financial leases, and any other secured liability evidenced by bonds, debentures, notes or similar instruments) by others including, without limitation, any Significant Entity of the Company or any Guarantor, for payment of which the Company or Guarantor is responsible or liable, whether absolutely or contingently;
- (ii) all secured obligations of the Company, any Guarantor or any Significant Entity under (A) currency exchange, interest rate or commodity swap agreements, currency exchange, interest rate or commodity cap agreements and currency exchange, interest rate or commodity collar agreements, and (B) other agreements or arrangements designed to manage or hedge fluctuations in currency exchange, interest rates or commodity prices;
- (iii) all indebtedness, liabilities and obligations under the guarantee(s) now or at any time hereafter granted by the Company, any Guarantor or any of their Significant Entities in respect of the obligations, liabilities and indebtedness under the credit agreements in connection with the Amended Credit Facility and the Acquisition Credit Facility; and
- (iv) renewals, extensions, restructurings, refinancings and refundings of any such indebtedness, liabilities or obligations,

unless in each case it is provided by the terms of the instrument creating or evidencing such secured indebtedness, liabilities or obligations that such secured indebtedness, liabilities or obligations are not superior in right of payment to Debentures which by their terms are subordinated, which for greater certainty includes

the initial debentures; and "Senior Secured Indebtedness" shall, in all events, exclude the Subordinated Notes but include all of the obligations of the borrower, issuer and/or guarantor under the Amended Credit Facility and the Acquisition Credit Facility.

"**Separate Subordinated Notes**" means the approximately Cdn\$36.5 million principal amount of Subordinated Notes issued and sold separately from the IPOs by the Company in November 2004.

"**Subordinated Indebtedness**" means, with respect to the Company, any Guarantor or any Significant Entity, (i) all indebtedness which is not senior indebtedness or *pari passu* indebtedness, (ii) the Subordinated Notes, (iii) all unsecured indebtedness or obligations of the Company, any Guarantor or any Significant Entity, and (iv) any indebtedness of the Company, any Guarantor or any Significant Entity that is subordinated pursuant to the terms of the instrument creating or evidencing such indebtedness.

"**Subordinated Note Indenture**" means the trust indenture governing the Subordinated Notes between the Company and Computershare Trust Company of Canada entered into on November 18, 2004.

"**Subordinated Notes**" means the 11.0% subordinated notes of the Company issued in accordance with the Subordinated Note Indenture.

"**Significant Entity**" means, with respect to any person, (i) any corporation, association or other business entity (other than a partnership, joint venture or limited liability company) of which 40% or more of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time of determination owned or controlled, directly or indirectly, by such person or one or more of the other Significant Entities of that person or a combination thereof and (ii) any partnership, joint venture or limited liability company of which 40% or more of the capital accounts, distribution rights, total equity and voting interests or general and limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such person or one or more of the other Significant Entities of that person or a combination thereof, whether in the form of membership, general, special or limited partnership interests or otherwise and such person owns or controls, directly or indirectly, 40% or more of the total equity and voting rights of the general partner of such entity.

"**TAC**" means transmission access charges.

"**TANC**" means the Transmission Agency of Northern California.

"**Tax Act**" means the *Income Tax Act* (Canada) and the regulations thereunder, in each case in effect on the date hereof.

"**Trans-Elect**" means Trans-Elect, Inc.

"**Treasury Regulations**" means the U.S. Treasury regulations (including final, temporary and proposed regulations) promulgated under the Code.

"**Trustee**" means Computershare Trust Company of Canada.

"**TSR**" means transmission system right.

"**TSX**" means the Toronto Stock Exchange.

"**Underwriters**" means BMO Nesbitt Burns Inc., National Bank Financial Inc., RBC Dominion Securities Inc., Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation.

"**Underwriting Agreement**" means the underwriting agreement among the Company, Atlantic Holdings and the Underwriters dated September 22, 2006.

"**U.S. GAAP**" means the accounting principles generally accepted in the United States.

"**U.S. Holder**" means any Holder that is not a Non-U.S. Holder.

"**U.S. Securities Act**" means the *United States Securities Act of 1933*, as amended.

"**U.S. Tax Counsel**" means Goodwin Procter LLP.

“**Vendors**” means New Transmission Development Company, United States Power Fund, L.P., Cardinal Power Funding, LLC (an affiliate of ArcLight) and TransValley Transmission LLC.

“**WACC**” means weighted average cost of capital.

“**WAPA**” means Western Area Power Administration.

## AUDITORS' CONSENT

The Board of Directors of Atlantic Power Corporation

We have read the short form prospectus dated October 2, 2006 relating to the sale and issue of 8,531,000 Income Participating Securities and Cdn\$60,000,000 6.25% Convertible Secured Debentures due October 31, 2011 of Atlantic Power Corporation (the "Company"). We have complied with Canadian generally accepted standards for an auditor's involvement with offering documents.

We consent to the incorporation by reference in the above-mentioned short form prospectus of our report to the shareholders of the Company on the consolidated balance sheets of the Company as at December 31, 2005 and 2004 and the consolidated statements of operations and deficit and cash flows for the year ended December 31, 2005 and the period from November 18, 2004 to December 31, 2004. Our report is dated March 31, 2006.

## COMPILATION REPORT ON PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

The Board of Directors of Atlantic Power Corporation

We have read the unaudited pro forma consolidated balance sheet of Atlantic Power Corporation as at June 30, 2006 and the unaudited pro forma consolidated statements of income for the six months ended June 30, 2006 and for the year ended December 31, 2005, and have performed the following procedures:

1. Compared the figures in the columns captioned "Atlantic Power" to the unaudited consolidated balance sheet of Atlantic Power Corporation as at June 30, 2006 and to the unaudited consolidated statement of income and deficit for the six months ended June 30, 2006 and to the audited consolidated statement of operations and deficit for the year ended December 31, 2005, respectively, and found them to be in agreement.
2. Compared the figures in the column captioned "Path 15 Holdco" to the unaudited consolidated balance sheet of Trans-Elect NTD Holdings Path 15, LLC ("Path 15 Holdco") as at June 30, 2006, and to the unaudited consolidated statement of income for the six months ended June 30, 2006 and to the audited consolidated statement of operations for the year ended December 31, 2005, respectively, and found them to be in agreement.
3. Made enquiries of certain officials of Atlantic Power Corporation who have responsibility for financial and accounting matters about:
  - (a) The basis for determination of the pro forma adjustments; and
  - (b) Whether the pro forma financial statements comply as to form in all material respects with the published requirements of Canadian securities legislation.

The officials:

- (a) described to us the basis for determination of the pro forma adjustments; and
  - (b) stated that the pro forma financial statements comply as to form in all material respects with in all material respects with the published requirements of Canadian securities legislation.
4. Read the notes to the pro forma financial statements, and found them to be consistent with the basis described to us for determination of the pro forma adjustments.
  5. Recalculated the application of the pro forma adjustments to the aggregate of the amounts in the columns captioned "Atlantic Power" and "Path 15 Holdco" as at June 30, 2006 and for the six months then ended, and for the year ended December 31, 2005, and found the amounts in the column captioned "Pro forma Consolidated" to be arithmetically correct.

A pro forma financial statement is based on management assumptions and adjustments which are inherently subjective. The foregoing procedures are substantially less than either an audit or a review, the objective of which is the expression of assurance with respect to management's assumptions, the pro forma adjustments, and the application of the adjustments to the historical financial information. Accordingly, we express no such assurance. The foregoing procedures would not necessarily reveal matters of significance to the pro forma financial statements, and we therefore make no representation about the sufficiency of the procedures for the purposes of a reader of such statements.

**ATLANTIC POWER CORPORATION**  
**NOTES TO PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS**  
**(In thousands of U.S. dollars)**  
**Six months ended June 30, 2006 and year ended December 31, 2005**  
**(Unaudited)**

**1. BASIS OF PREPARATION**

The accompanying unaudited *pro forma* consolidated balance sheet and the unaudited *pro forma* consolidated statements of income of Atlantic Power Corporation (the "Company") have been prepared by the Company in accordance with Canadian generally accepted accounting principles ("Canadian GAAP"). The *pro forma* consolidated financial statements have been derived from the following sources:

- Unaudited consolidated balance sheet and unaudited consolidated statement of income and deficit of the Company as of and for the six-month period ended June 30, 2006;
- Unaudited consolidated balance sheet and unaudited consolidated statement of operations of Trans-Elect NTD Holdings Path 15, LLC ("Path 15 Holdco") as of and for the six-month period ended June 30, 2006;
- Audited consolidated statement of operations and deficit of the Company for the year ended December 31, 2005; and
- Audited consolidated statement of operations of Path 15 Holdco for the year ended December 31, 2005.

The unaudited and audited financial statements of Path 15 Holdco described above have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). As disclosed in Note 2 to the Path 15 Holdco financial statements described above and included elsewhere in this short form prospectus, there are no significant differences between US GAAP and Canadian GAAP that affect the accompanying unaudited *pro forma* consolidated financial statements.

The unaudited *pro forma* consolidated balance sheet gives effect to the adjustments in Note 2 as if they had occurred on June 30, 2006. The unaudited *pro forma* consolidated statements of income for the periods presented give effect to the adjustments in Note 2 as if the transactions occurred on January 1, 2005.

The unaudited *pro forma* consolidated financial statements may not be indicative of the financial position and results of operations that would have resulted if the proposed transactions and the acquisition of Path 15 Holdco had occurred on the dates indicated or of the operating results which may be obtained in the future. The unaudited *pro forma* consolidated financial statements should be read in conjunction with the historical financial statements of the Company, incorporated by reference in this prospectus, and the historical financial statements of Path 15 Holdco located elsewhere in this prospectus.

**2. PRO FORMA ADJUSTMENTS**

The accompanying unaudited *pro forma* consolidated financial statements of the Company have been prepared to reflect the following transactions:

**(a) Acquisition of Path 15 Holdco**

On June 29, 2006, Atlantic Power Holdings, LLC ("Atlantic Holdings"), a subsidiary of the Company, agreed to indirectly acquire Path 15 Holdco, which owns approximately 72% of the transmission system rights ("TSRs") in the Path 15 transmission project located in California.

The acquisition of Path 15 Holdco closed on September 15, 2006, and was financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. Loans under the Acquisition Credit Facility bear interest at a rate equal to a Eurodollar Rate or a U.S. Base Rate, plus an applicable margin to those rates. As of September 22, 2006, the applicable rate, including margin, is 6.83% on the Eurodollar loan outstanding on the Acquisition Credit Facility. The Acquisition Credit Facility matures on September 14, 2007. The fees associated with the Acquisition Credit Facility in the amount of \$225 have been recorded as deferred financing costs in the consolidated *pro forma* balance sheet.

**ATLANTIC POWER CORPORATION**  
**NOTES TO PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
(In thousands of U.S. dollars)

**Six months ended June 30, 2006 and year ended December 31, 2005**  
(Unaudited)

**2. PRO FORMA ADJUSTMENTS (Continued)**

The cash payment for the acquisition in the amount of \$88,000, including acquisition costs of approximately \$2,500, has been allocated to the net assets acquired, based on management's preliminary estimate of the fair value at June 30, 2006, as follows:

Working capital, including acquired cash . . . . .	\$ 9,347
Transmission system rights . . . . .	264,001
Other long-term assets . . . . .	799
Deferred tax liability . . . . .	(29,228)
Long-term debt (excluding current portion) . . . . .	<u>(156,919)</u>
Total cash paid . . . . .	<u>\$ 88,000</u>

The purchase price allocation is based upon management's best estimate of the relative fair values of the identifiable assets acquired and liabilities assumed. Because the Company has only recently acquired Path 15 Holdco, it is not practicable to definitely allocate the purchase price. Once this matter has been resolved, the Company will reassess its initial allocation. The effect may be to decrease the purchase price by up to \$24,100 if pending matters regarding regulated revenues are resolved in a manner that reduces future revenues. Please see "Risks Related to the Path 15 Project — Unresolved Ratemaking Issues Under FERC Review Could Adversely Affect Cash Flows" for additional disclosure related to this matter. The amount, if any, is not presently determinable.

**(b) Issuance of Income Participating Securities ("IPSs")**

The Company will issue 8,531,000 IPSs for gross proceeds of Cdn\$90,002. Each IPS consists of one common share of the Company and Cdn\$5.767 aggregate principal amount of 11.0% subordinated notes of the Company. The portion of the gross proceeds allocated to common stock is \$36,992.

**(c) Issuance of Convertible Debentures**

The Company will issue convertible debentures in the aggregate principal amount of Cdn\$60,000. The convertible debentures will bear interest at an annual rate of 6.25% and mature on October 31, 2011.

**(d) Redemption of Existing Investors**

The Existing Investors have the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest for a two-year period from the initial public offering of the Company on November 18, 2004.

A portion of the proceeds of this offering will be used to increase the Company's ownership in Atlantic Holdings from 70.1% to 85.9%. Atlantic Holdings will in turn redeem a portion of its ownership held indirectly by the Existing Investors, which will decrease the Existing Investors' ownership of Atlantic Holdings from 29.9% to 14.1%. Subsequent to this redemption of the Existing Investors, 8,908,621 IPSs would be required to be issued to purchase the remaining interest of the Existing Investors.

The amount paid to the Existing Investors, before deducting the Existing Investors' share of offering costs, for the partial redemption described above was \$87,890. The difference between the amount paid and the carrying value of Other liabilities, non-controlling interests, as of June 30, 2006 would have resulted in a *pro forma* adjustment to decrease the accumulated deficit by \$1,508.

Costs incurred by Atlantic Holdings and the Company for the purpose of issuing securities to repurchase the Existing Investors' interests are paid by the Existing Investors. The aggregate costs of this offering consist of underwriters fees related to the sale of IPSs and convertible debentures in the amounts of \$3,985 and \$2,126, respectively, and approximately \$1,800 in other costs, primarily legal and audit costs.

The total offering costs have been allocated based on the net proceeds received by the Company and by the Existing Investors. This allocation results in the total offering costs of \$7,911 being allocated to the Existing Investors and the Company in the amounts of \$5,565 and \$2,346, respectively. The aggregate offering costs incurred by the Company were allocated to deferred financing costs and common stock in the amounts of \$1,693 and \$653, respectively.

**ATLANTIC POWER CORPORATION**  
**NOTES TO PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(In thousands of U.S. dollars)**  
**Six months ended June 30, 2006 and year ended December 31, 2005**  
**(Unaudited)**

**2. PRO FORMA ADJUSTMENTS (Continued)**

*(e) Partial Repayment of Acquisition Credit Facility*

The Company will use a portion of the proceeds of this offering to repay \$37,061 of the outstanding balance on the Acquisition Credit Facility described in Note 2(a) above. In addition, \$95 of the financing costs related to the Acquisition Credit Facility have been expensed to reflect the portion of the Acquisition Credit Facility to be repaid with proceeds from this offering.

*(f) Non-controlling Interest*

As a result of the redemption of a portion of the Existing Investors' interest as described in Note 2(d) above, the *pro forma* consolidated statements of income for the year ended December 31, 2005 and the six-month period ended June 30, 2006 are adjusted to reflect a proportionately lower amount of distribution, non controlling interest, change in fair value of non-controlling interest and foreign exchange loss. Interest expense has also been adjusted to reflect interest expense on the subordinated notes that would have been issued to redeem a portion of the Existing Investors' interest. In addition, the *pro forma* consolidated balance sheet as of June 30, 2006 reflects proportionate changes in other liabilities, non-controlling interests, distribution payable, non-controlling interest and dividends payable.

*(g) Interest Expense*

The *pro forma* consolidated statements of operations for the year ended December 31, 2005 and the six-month period ended June 30, 2006 are adjusted to reflect increased interest expense related to the issuance of the convertible debentures with a principal amount of Cdn\$60,000 and an annual interest rate of 6.25% and the additional subordinated notes with a principal amount of Cdn\$49,198 and an annual interest rate of 11%. In addition, interest expense related to the portion of the Acquisition Credit Facility not repaid with offering proceeds at an assumed rate of 6.9% has been recorded.

*(h) Amortization*

The *pro forma* consolidated statements of income for the year ended December 31, 2005 and the six-month period ended June 30, 2006 have been adjusted to reflect the incremental straight-line amortization, based on a 30-year life, of the amounts allocated to the Path 15 Holdco intangible asset in excess of the book value of net assets acquired. In addition, deferred financing costs have been adjusted to reflect amortization of the *pro forma* deferred financing costs described in 2(d) above.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Six months ended June 30, 2006 and 2005**  
**(Unaudited)**

**1. GENERAL**

These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes as of and for the period ended December 31, 2005 as previously reported by Trans-Elect NTD Holdings Path 15, LLC ("Holdings Path 15").

The accompanying consolidated financial statements have been prepared using accounting principles generally accepted in the United States of America, or GAAP. These accounting principles require us to use estimates and assumptions that impact the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. Actual results may differ from our estimates.

The consolidated financial statements are unaudited, but in our opinion include all adjustments (consisting of normal recurring adjustments) necessary for a fair statement of the results for the interim period. The interim financial results are not necessarily indicative of results that may be expected for any other interim period or the fiscal year.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The consolidated financial statements reflect the application of certain accounting policies described in this note. These policies are prepared in accordance with accounting principles generally accepted in the United States of America. US GAAP differs in certain respects from generally accepted accounting principles in Canada ("Canadian GAAP"). There are no significant measurement differences between US GAAP and Canadian GAAP affecting net income (loss) for the three and six months ended June 30, 2006.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated.

**Intercompany Balances**

The consolidated financial statements include the financial statements of Holdings Path 15 and its wholly owned subsidiary. All significant intercompany balances and transactions have been eliminated in consolidation.

**Regulatory Accounting**

Trans-Elect NTD Path 15, LLC ("TE Path 15") accounts for certain income and expense items in accordance with Statement of Financial Accounting Standards No. 71 "Accounting for the Effects of Certain Types of Regulation" ("SFAS No. 71"). Pursuant to SFAS No. 71, certain costs are deferred, which would otherwise be charged to expense, as regulatory assets based on TE Path 15's ability to recover these costs in future rates.

**Revenue Recognition**

TE Path 15's electric transmission operations recognize revenues as transmission services are provided. TE Path 15 records unbilled revenue based on estimates at each month-end and then adjusts to actual billed revenues when actual data becomes available. Cash received from the California Independent System subtracted from the revenue requirement for the following year. Operator's ("CAISO") auctions of firm transmission rights is recorded as deferred revenue until the month it is earned. Any revenue in excess of TE Path 15's annual revenue requirement is deferred until the overcollection is subtracted from the revenue requirement for the following year.

**Cash and Temporary Cash Investments**

Holdings Path 15 considers investments with a maturity of three months or less at the time of purchase to be cash equivalents. Those instruments are primarily money market funds.

**Restricted Cash**

Restricted cash reflects amounts held as deposits for self-insured property losses and for the debt service reserve.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Six months ended June 30, 2006 and 2005**  
**(Unaudited)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Path 15 Project Intangible Assets**

Intangible assets held represent amounts contributed by TE Path 15 to the Western Area Power Administration ("Western") for the construction and development of the Path 15 transmission line. TE Path 15 owns long-term transmission system rights for approximately seventy-two percent of the capacity of the completed transmission line. The intangible assets owned by TE Path 15 are being amortized over 30 years, the depreciable life of the Path 15 Upgrade approved by FERC, and will be tested for impairment at least annually by comparing the fair values of those assets with their recorded amounts consistent with Statement of Financial Accounting Standards No. 142 "Goodwill and Other Intangible Assets" ("SFAS No. 142"). The total amount of project intangible assets was \$152.7 million as of June 30, 2006 and December 31, 2005, respectively. The annual expense to amortize the intangible assets over 30 years is approximately \$5.1 million.

**Deferred Debt Issuance Costs**

Other assets include deferred debt issuance costs, which are being amortized over the remaining maturity period of the outstanding debt.

**Income Taxes**

Holdings Path 15 is organized as a limited liability company and has elected to be taxed as a partnership. It is therefore exempt from paying federal income taxes. As a result, Holdings Path 15 has not recorded a provision for federal income taxes in its statement of operations or recorded amounts for deferred income tax assets or liabilities on its balance sheet. For FERC reporting purposes (non-GAAP), TE Path 15 computes, after the commencement of commercial operation, estimated federal income taxes as well as the associated deferred income taxes. TE Path 15 anticipates paying dividends to Holdings Path 15 in amounts at least sufficient for its members to satisfy their federal and state income tax obligations.

**Other Comprehensive Income**

As of June 30, 2006 and December 31, 2005, there were no components of other comprehensive income (defined as the change in equity of a business enterprise during a period from sources other than those resulting from investments by owners and distributions to owner).

**3. REGULATORY MATTERS**

**Rate Case**

TE Path 15 established its current annual revenue requirement in a filing submitted to the FERC in October 2004 (Docket No. ER05-17-000). In December 2004, FERC ordered that rates be established consistent with the filed revenue requirement, subject to refund. A number of parties intervened in the case, six of whom protested elements of the filing. Testimony was provided by various parties and a hearing was held before a FERC Administrative Law Judge ("ALJ") on September 19 and 20, 2005. On December 21, 2005 the ALJ issued an Initial Decision (Docket No. ER05-17-002).

The revenue requirement filed by TE Path 15 is used to determine the tariff amounts that serve as the basis for the revenues realized by TE Path 15. The revenue requirement comprises two components. The first component provides for the recovery of operating expenses forecasted to be incurred by TE Path 15 during calendar year 2005. These operating expenses include estimated operation and maintenance expenses incurred by Western on behalf of the project to be billed to TE Path 15. The expenses also include operation and maintenance expenses billed to TE Path 15 by other parties, including TE, for managerial and administrative services provided to TE Path 15. The remainder of the operating expenses include depreciation and amortization, insurance, a provision for federal and state income taxes, other non-income taxes and the amortization of rate case-related expenses.

Second, it provides for a return on the net investment associated with the project. The net investment includes the gross value of TE Path 15's intangible assets, including Allowance for Funds Used During Construction ("AFUDC"), forecasted for calendar year 2005 reduced by one half of the depreciation expense expected to be recorded during 2005. The remainder of the net investment includes a provision for working capital and prepayments (including debt service and liquidity reserve accounts). The rate of return on the investment is determined by applying the capital structure and equity returns authorized by the FERC in Docket No. ER02-1672-000 and forecasted debt costs for 2005 to the total investment base. In this docket the FERC authorized a 50% debt/50% equity capital structure and 13.5% equity return. The annual revenue requirement requested by TE Path 15 for the years 2005 through 2007 was approximately \$36.7 million.

**(Unaudited)**

**3. REGULATORY MATTERS (Continued)**

During the rate case TE Path 15 agreed to changes in its filed revenue requirement, resulting in an annual revenue requirement of approximately \$36.0 million for 2005 - 2007 and has recognized this lower amount in operating revenue for the three months and six months ended June 30, 2006 and 2005. Overcollections resulting from the use of the higher filed revenue requirement will be refunded to transmission customers through the Transmission Revenue Balancing Account ("TRBA") mechanism in the CAISO tariff.

One area of controversy raised by intervenors in the rate case relates to TE Path 15's recovery of the costs associated with the portion of the capacity in the project granted to Western. Western has proposed in Docket No. ER04-1198 that it be able to recover approximately \$1.3 million in Path 15 study costs, along with receiving all Firm Transmission Rights auction, wheeling and scheduling revenues associated with its 10% capacity entitlement when it chooses to schedule power over the Path 15 upgrade for use in serving its customer needs in Northern California during periods of congestion. At all other times, Western will credit these revenues back to the CAISO. Certain intervening parties took the position that Western's unwillingness to credit all of these additional revenues to the CAISO, coupled with TE Path 15's proposed revenue requirement, will lead to an overcharge for the CAISO's customers. The ALJ concluded that this issue was not properly before him in this case due to previous FERC rulings. On May 16, 2006 the FERC issued two orders in cases Docket numbers ER05-17 and ER04-1198 relating to this issue. The FERC granted TE Path 15's motion for summary disposition of this matter and approved Western's proposed rate treatments with respect to Western's participation in the Path 15 upgrade project. With no party having sought rehearing, these orders became final and no longer subject to review as of June 15, 2006.

In the Initial Decision the ALJ reached the following conclusions:

- TE Path 15 has not shown inclusion of its debt and liquidity reserve account balances as rate base items to be just and reasonable; therefore, \$10,773,091 should be removed from the rate base used to calculate its revenue requirement.
- With regard to working capital allowance, TE Path 15 should adopt the FERC's 45-day convention and include in its calculation only O&M expenses, minus fuel and purchased power resulting in a working capital allowance component of rate base of \$300,812 vs. the requested \$7,257,095.
- TE Path 15's utilization of monthly compounding with regard to calculating AFUDC was affirmed.

If the FERC adopts the ALJ's Initial Decision, TE Path 15's annual revenue requirement would be approximately \$2.3 million lower for the years 2005 - 2007. TE Path 15 filed exceptions to the ALJ's Initial Decision on January 20, 2006 and responded to exceptions filed by other parties on February 9, 2006. The FERC commissioners will rule on TE Path 15's revenue requirement after considering the ALJ's Initial Decision as well as the filings made by TE Path 15 and intervenors. As of September 11, 2006 the FERC has not issued an order in this case. While no deadline for FERC action exists, TE Path 15 expects a FERC order in 2006. TE Path 15 believes that the incurrence of the costs associated with its reserves and working capital requirements were both prudent and necessary to successfully finance and complete the Path 15 Upgrade. TE Path 15 further believes that inclusion of these types of reserves in rate base is consistent with the FERC's current rate making practices and its objectives in promoting transmission development by independent companies. Consequently, management believes that it is probable that the FERC will approve an annual revenue requirement of approximately \$36.0 million.

**Income Tax Allowance**

In the rate case proceeding the FERC has also addressed the issue of whether a limited liability company ("LLC"), such as TE Path 15, is entitled to include a provision for federal and state income taxes in its revenue requirement if the regulated entity itself is not subject to the payment of income taxes. This issue arose out of a June 2004 decision by the Federal Circuit Court of Appeals of the District of Columbia in the case of BP West Coast Products, LLC vs. FERC. In that case, the Court decided that the SFPP Limited Partnership, a regulated oil products pipeline, was not entitled to include an income tax allowance in its revenue requirement since it did not itself actually pay income taxes. This finding was contrary to established FERC policy that an inclusion of a tax allowance was appropriate provided that income taxes were ultimately paid by a corporate investor in a limited partnership or LLC.

In light of the Court decision, TE Path 15 requested that the FERC make a specific finding that the Company be allowed to include an income tax allowance in its revenue requirement. The FERC ruled that TE Path 15 would be allowed to recover the taxes in its rates and that the issue would not be a part of the hearing process in Docket No. ER05-17-000. FERC further ordered, however, that the issue of the inclusion of income taxes in rates for limited partnerships or LLCs should be examined in a separate proceeding and that the income tax component of TE Path 15's revenue requirement would be subject to refund pending the findings of that separate proceeding. To that end, the FERC established a policy proceeding, Docket No. PL05-5-000, to examine the issue for all companies whose rates are regulated by FERC. In May 2005 the FERC issued an order in that policy proceeding concluding that a LLC would be entitled to include an allowance for income taxes in its rates as if it were a tax paying entity if the ultimate owners of the LLC have either an actual or potential tax liability associated with their investment in the regulated company.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Six months ended June 30, 2006 and 2005**  
**(Unaudited)**

**3. REGULATORY MATTERS (Continued)**

Accordingly, the FERC has permitted TE Path 15 to include an allowance for state and federal income taxes in its revenue requirement even though TE Path 15 is not a tax paying entity. This decision has been appealed by one party, the Transmission Agency of Northern California ("TANC") to the U. S. Court of Appeals for the District of Columbia. In March 2006 the Court of Appeals dismissed TANC's appeal on the grounds that it was not timely to consider the matter. TANC will have the opportunity to refile an appeal at a later date. On June 1, 2006 TANC refiled a petition for review of the FERC's orders approving the inclusion of an income tax allowance in TE Path 15's revenue requirement and TE Path 15 intervened in this case on June 23, 2006. Management expects the case to be argued sometime in the second or third quarter of 2007.

Management believes it is unlikely that the FERC's decision in this matter will be overturned. If it is ultimately determined that the Company is not allowed to include a provision for income taxes in its rates, the result would likely be a reduction in annual revenues. In such a case, the Company anticipates undertaking measures to reduce the potential negative impact on cash flows.

**Regulatory Assets**

As of June 30, 2006 and December 31, 2005, TE Path 15 had incurred \$1.7 million and \$1.6 million of costs to prepare and file its tariff with the FERC for a three year period of calendar years 2005 through 2007. The Company also incurred \$0.1 million of transition costs during the year ended December 31, 2004 that were associated with organizing TE Path 15 to begin operations. The rate case and transition costs are being amortized and recovered in rates over the three year period of its rate filing.

**TRBA**

The CAISO tariff provides for a true-up mechanism in which the CAISO calculates any over- or under-collection of transmission revenues relative to the authorized annual revenue requirement and either credits or charges that difference to transmission customers in the subsequent year. This is done through a TRBA account. In 2006, 2005 and 2004 TE Path 15 received payments from the CAISO in excess of its filed revenue requirement. As of June 30, 2006 and December 31, 2005, TE Path 15 had recorded deferred revenue of \$7.6 million and \$6.1 million, respectively. Approximately \$1.8 million and \$0.3 million of these amounts were auction proceeds for future time periods. The other \$5.8 million as of June 30, 2006 is a regulatory liability for collections in excess of the annual revenue requirement.

**4. SALE OF PATH 15**

In February 2006 the owners of Holdings Path 15 began a process to evaluate the potential sale of their Path 15-related interests. Bids from prospective purchasers of those interests were received and evaluated by the owners. On June 28, 2006 the owners of Holdings Path 15 signed an agreement with Atlantic Power Holdings, LLC ("Atlantic") to indirectly sell 100% of TE Path 15 for a total of approximately \$85 million, subject to certain adjustments related to regulatory events, plus the assumption of approximately \$145 million of debt.

The transactions contemplated by the agreement with Atlantic are subject to regulatory approval by the FERC. The transaction is expected to close in the second half of 2006.

## REPORT OF INDEPENDENT AUDITORS

To the Members of Trans-Elect NTD Holdings Path 15, LLC:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, of members' capital and of cash flows present fairly, in all material respects, the financial position of Trans-Elect NTD Holdings Path 15, LLC at December 31, 2005 and 2004, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**1. ORGANIZATION AND BUSINESS**

Trans-Elect NTD Holdings Path 15, LLC, ("Holdings Path 15" or the "Company") is a limited liability company with four preferred members and a single common member. The preferred members of Holdings Path 15 are EIF Path 15 Funding LLC, Cardinal Power Funding, LLC, KB Transmission LLC, and New Transmission Development Company ("NTD"). NTD is a subsidiary of Trans-Elect, Inc. ("TE") and the common member of Holdings Path 15. Holdings Path 15 owns Trans-Elect NTD Path 15, LLC ("TE Path 15"), a Delaware limited liability company. Holdings Path 15 was formed October 16, 2002 and was a developmental stage enterprise until TE Path 15 began commercial operations on December 22, 2004. As such, revenues were recognized only for the last 10 days of 2004.

TE is a corporation organized under the laws of the State of Michigan and is an independent, for-profit transmission holding company that focuses on the acquisition of transmission systems from investor-owned utilities and other transmission owners and the development of new independent transmission lines. The Federal Energy Regulatory Commission ("FERC") regulates all revenues associated with transmission systems owned by TE and the Company in the United States.

TE, along with the Western Area Power Administration ("Western") and the Pacific Gas and Electric Company, ("PG&E") signed an agreement in 2002 to jointly construct a regulated transmission line and make related substation modifications along Path 15 in Central California. The then existing Path 15 transmission corridor encompassed two high voltage transmission lines that extend from southern California to northern California, facilitating the movement of power from the Pacific Northwest to southern California in the summer and from generators in southern California to northern California in the winter. The new transmission line consists of an additional eighty-three mile, 500-kilovolt transmission line along Path 15 (the "Path 15 Upgrade") which, with associated modifications to existing substations by PG&E, increases capacity to the north by an estimated 1,500 megawatts, while also boosting southbound deliveries.

Construction of the Path 15 Upgrade commenced in the third quarter of 2003, and commercial operation began on December 22, 2004. Western owns the completed transmission line and PG&E owns the substations into which the line connects. In return for financing the construction of the Path 15 Upgrade, TE Path 15 has received transmission system rights on the Path 15 Upgrade, but does not own any interest in the physical assets. TE Path 15 has assigned these rights to the California Independent System Operator ("CAISO") in return for payments designed to recover the FERC-approved revenue requirement. The transmission rights represent an intangible asset held by TE Path 15.

TE Path 15 established its annual revenue requirement of approximately \$36.7 million in a filing submitted to the FERC in October 2004 (Docket No. ER05-17-000). In December 2004, FERC ordered that rates be established consistent with the filed revenue requirement, subject to refund. During the rate case, TE Path 15 agreed to changes in its filed revenue requirement, resulting in a proposed annual revenue requirement of approximately \$36.0 million for 2005 - 2007 and has recognized this lower amount in operating revenue for the year ended December 31, 2005.

A hearing on the TE Path 15's rate filing was held before an Administrative Law Judge ("ALJ") in September 2005, who issued an Initial Decision in December 2005. In the Initial Decision, the ALJ recommended the disallowance of certain cash reserves that TE Path 15 included in its rate base for purposes of calculating its revenue requirement. TE Path 15 filed exceptions to the ALJ's Initial Decision on January 20, 2006 and responded to exceptions filed by other parties on February 9, 2006. The FERC commissioners will rule on TE Path 15's revenue requirement after considering the ALJ's Initial Decision as well as the filings made by TE Path 15 and intervenors. No deadline for FERC action exists, though TE Path 15 expects a FERC order in the 2nd or 3rd quarter of 2006. TE Path 15 believes that the incurrence of the costs associated with its reserves and working capital requirements were both prudent and necessary to successfully finance and complete the Path 15 Upgrade. TE Path 15 further believes that inclusion of these types of reserves in rate base is consistent with the FERC's current rate making practices and its objectives in promoting transmission development by independent companies. Consequently, management believes that it is probable that the FERC will approve an annual revenue requirement of approximately \$36.0 million. Refer to Note 7 for additional information.

Western maintains the Path 15 Upgrade line and draws advance funding from TE Path 15 to pay for the expenses.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The consolidated financial statements reflect the application of certain accounting policies described in this note. These policies are prepared in accordance with accounting principles generally accepted in the United States of America. US GAAP differs in certain respects from generally accepted accounting principles in Canada ("Canadian GAAP"). There are no significant measurement differences between US GAAP and Canadian GAAP affecting net income (loss) for the year ended December 31, 2005.

**TRANS-ELECT HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated.

**Intercompany Balances**

The consolidated financial statements include the financial statements of Holdings Path 15 and its wholly owned subsidiary. All significant intercompany balances and transactions have been eliminated in consolidation.

**Regulatory Accounting**

TE Path 15 accounts for certain income and expense items in accordance with Statement of Financial Accounting Standards No. 71 "Accounting for the Effects of Certain Types of Regulation" ("SFAS No. 71"). Pursuant to SFAS No. 71, certain costs are deferred, which would otherwise be charged to expense, as regulatory assets based on TE Path 15's ability to recover these costs in future rates.

**Revenue Recognition**

TE Path 15's electric transmission operations recognize revenues as transmission services are provided. TE Path 15 records unbilled revenue based on estimates at each month end and then adjusts to actual billed revenues when actual data becomes available. Cash received from auctions of firm transmission rights is recorded as deferred revenue until the month it is earned. Any revenue in excess of TE Path 15's annual revenue requirement is deferred until the overcollection is subtracted from the revenue requirement for the following year.

**Cash and Temporary Cash Investments**

Holdings Path 15 considers investments with a remaining maturity of three months or less at the time of purchase to be cash equivalents. Those instruments are primarily money market funds.

**Restricted Cash**

Restricted cash reflects amounts held as deposits for self-insured property losses and for the debt service reserve.

**Path 15 Project Intangible Assets**

Intangible assets held represent amounts contributed by TE Path 15 to Western for the construction and development of the Path 15 transmission line. TE Path 15 owns long-term transmission system rights for approximately seventy-two percent of the capacity of the completed transmission line. The intangible assets owned by TE Path 15 will be amortized over 30 years, the depreciable life of the Path 15 Upgrade approved by FERC, and will be tested for impairment at least annually by comparing the fair values of those assets with their recorded amounts consistent with Statement of Financial Accounting Standards No. 142 "Goodwill and Other Intangible Assets" ("SFAS No. 142"). The total amount of project intangible assets was \$152.7 million as of December 31, 2005 and 2004, respectively. The annual expense to amortize the intangible assets over 30 years is approximately \$5.1 million.

**Allowance for Funds Used During Construction ("AFUDC")**

AFUDC, a non-cash item, represents the cost of capital used to finance utility construction activity. AFUDC is computed by applying a composite rate to qualified construction work in progress. The amount of AFUDC capitalized as a construction cost is credited to other income and deductions (for equity capital) and interest charges (for debt capital). AFUDC amounts capitalized are included in the Path 15 project intangible assets, and ultimately the rate base, used in establishing transmission service rates. TE Path 15 calculated AFUDC based on the amounts incurred related to the development and construction of Path 15.

**Income Taxes**

Holdings Path 15 is organized as a limited liability company and has elected to be taxed as a partnership. It is therefore exempt from paying federal income taxes. As a result, Holdings Path 15 has not recorded a provision for federal income taxes in its statement of operations or recorded amounts for deferred income tax assets or liabilities on its balance sheet. For FERC reporting purposes (non-GAAP), TE Path 15 computes, after the commencement of commercial operation, estimated federal income taxes as well as the associated deferred income taxes. TE Path 15 anticipates paying dividends to Holdings Path 15 in amounts at least sufficient for its members to satisfy their federal and state income tax obligations.

**Other Comprehensive Income**

As of December 31, 2005 and 2004, there were no components of other comprehensive income (defined as the change in equity of a business enterprise during a period from sources other than those resulting from investments by owners and distributions to owner).

**3. CONSTRUCTION LOAN**

On September 12, 2003, TE Path 15 entered into a Construction and Contingent Loan Credit Agreement (the "Credit Agreement") with DZ Bank AG Deutsche Zentral-Genossenschaftsbank, Frankfurt Am Main, New York Branch as Administrative Agent for \$19.5 million in loan commitments. The purpose of the loan was to provide funds for construction contingencies and construction cost overruns. On December 8, 2004, the then outstanding loan balance of \$12.0 million was reduced to \$4.128 million pursuant to the terms of the Credit Agreement. The loan is collateralized by the assets of TE Path 15. Interest paid pursuant to the Credit Agreement in 2005 and 2004 was \$0.2 million and \$0.4 million, respectively. As of December 31, 2005 the outstanding balance under the Credit Agreement was \$3.9 million. TE Path 15 expects to pay off the outstanding loan balance on or prior to its scheduled termination date of December 8, 2007.

**4. SENIOR BONDS**

**Holdings Path 15**

On September 12, 2003, the Company and TE Path 15 closed the financing necessary to fund the construction and operation of the transmission line and repay an outstanding development loan.

The Company entered into a Bond Purchase Agreement with several lenders for \$56.0 million of Senior Bonds maturing in 2023. The interest rate for the bonds was set at 8.96%. The bonds are collateralized by the assets of the Company. Interest payments are scheduled to be paid over the term of the bonds. Principal repayments began in 2005 and are scheduled to be paid over the remaining term of the bonds.

**TRANS-ELECTRIC HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**4. SENIOR BONDS (Continued)**

Holdings Path 15 is subject to various debt covenants under the Bond Purchase Agreement. The covenants include restrictions on payment of distributions to the common and preferred members. Management believes that Holdings Path 15 was in compliance with all debt covenants as of December 31, 2005 and 2004.

The net proceeds from the bond issue were contributed to TE Path 15 to fund construction costs. TE Path 15 will return cash to the Company through dividend declarations as necessary to make required semi-annual principal and interest payments, and declared and paid dividends of \$7.7 million and \$5.0 million during the years ended December 31, 2005 and 2004 to meet the required semi-annual principal and interest payments.

Long-term maturities for the period 2006 through 2010 are as follows:

2006	\$ 2,828,000
2007	3,052,000
2008	2,660,000
2009	2,688,000
2010	2,660,000
Thereafter	39,396,000
Total	<u>\$53,284,000</u>

**TE Path 15**

On September 12, 2003, TE Path 15 closed on a portion of the financing necessary to fund the construction and operation of the transmission line and repay an outstanding development loan. TE Path 15 entered into a Bond Purchase Agreement with several lenders for \$95.5 million of Senior Bonds maturing on December 15, 2028. The Bond Purchase Agreement provided for the bonds to be drawn as separate series on the following dates: September 12, 2003 — \$47.5 million; October 10, 2003 — \$14.0 million; January 12, 2004 — \$11.0 million; March 10, 2004 — \$15.0 million; and June 10, 2004 — \$8.0 million. On June 15, 2004, the five series of bonds were exchanged for a single issue for the aggregate amount was issued with an interest rate of 8.00%. The bonds are collateralized by the assets of TE Path 15. Principal and interest payments are scheduled to be paid over the remaining 23-year term of the bonds.

Long-term debt maturities for the period 2006 through 2010 are as follows:

2006	\$ 4,440,792
2007	4,775,000
2008	4,058,792
2009	3,820,000
2010	3,820,000
Thereafter	70,192,416
Total	<u>\$91,107,000</u>

TE Path 15 is subject to various debt covenants under the Bond Purchase Agreement. The covenants include restrictions on payment of distributions to Holdings Path 15, limitations on issuing additional debt and the total amount of capital expenditures that can be made by the Company. Management believes that TE Path 15 was in compliance with all debt covenants as of December 31, 2005 and 2004.

Cash paid for bond interest by Holdings Path 15 and TE Path 15 during the years ended December 31, 2005 and 2004 was approximately \$12.5 million and \$12.0 million, respectively.

**5. PREFERRED MEMBER CAPITAL CONTRIBUTIONS**

On December 8, 2004, the date of construction completion, three Preferred Members contributed \$38.9 million of equity to the Company. These equity funds were contributed by Holdings Path 15 to TE Path 15 to establish cash reserves, pay down the Construction Loan, and pay other project costs. The individual amounts contributed by the Preferred Members were \$14.1 million each from EIF Path 15 Funding LLC and Cardinal Power Funding, LLC and \$10.6 million from KB Transmission LLC.

**(Audited)**

**6. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES**

As of December 31, 2005 and 2004, the carrying amount of cash and cash equivalents approximates fair market value due to the short maturity of those investments. The estimated fair value of Holdings Path 15's long-term debt outstanding is based on the quoted market prices as of December 31, 2005 and 2004. The fair value of the short term loans outstanding as of December 31, 2005 and 2004 approximates the carrying value as a result of the short-term nature of the obligation. The estimated fair market values of Holdings Path 15's and TE Path 15's financial instruments are as follows:

	December 31, 2005		December 31, 2004	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
<b>Assets</b>				
Cash and cash equivalents . . . . .	\$17,162,086	\$ 17,162,086	\$27,337,296	\$ 27,337,296
<b>Liabilities</b>				
Construction Loan . . . . .	3,905,418	3,905,418	4,128,000	4,128,000
Holdings Path 15 Bonds . . . . .	53,284,000	58,700,000	56,000,000	60,000,000
TE Path 15 Series F Senior Bonds . . . . .	91,107,000	102,200,000	95,500,000	103,500,000

**7. REGULATORY MATTERS**

**Rate Case**

TE Path 15 established its current annual revenue requirement in a filing submitted to the FERC in October 2004 (Docket No. ER05-17-000). In December 2004, FERC ordered that rates be established consistent with the filed revenue requirement, subject to refund. A number of parties intervened in the case, six of whom protested elements of the filing. Testimony was provided by various parties and a hearing was held before a FERC Administrative Law Judge ("ALJ") on September 19 and 20, 2005. On December 21, 2005 the ALJ issued an Initial Decision (Docket No. ER05-17-002).

The revenue requirement filed by TE Path 15 is used to determine the tariff amounts that serve as the basis for the revenues realized by TE Path 15. The revenue requirement comprises two components. The first component provides for the recovery of operating expenses forecasted to be incurred by TE Path 15 during calendar year 2005. These operating expenses include estimated operation and maintenance expenses incurred by Western on behalf of the project to be billed to TE Path 15. The expenses also include operation and maintenance expenses billed to TE Path 15 by other parties, including TE, for managerial and administrative services provided to TE Path 15. The remainder of the operating expenses include depreciation and amortization, insurance, a provision for federal and state income taxes, other non-income taxes and the amortization of rate case-related expenses.

Second, it provides for a return on the net investment associated with the project. The net investment includes the gross value of TE Path 15's intangible assets, including Allowance for Funds Used During Construction ("AFUDC"), forecasted for calendar year 2005 reduced by one half of the depreciation expense expected to be recorded during 2005. The remainder of the net investment includes a provision for working capital and prepayments (including debt service and liquidity reserve accounts). The rate of return on the investment is determined by applying the capital structure and equity returns authorized by the FERC in Docket No. ER02-1672-000 and forecasted debt costs for 2005 to the total investment base. In this docket the FERC authorized a 50% debt/50% equity capital structure and 13.5% equity return. The annual revenue requirement requested by TE Path 15 for the years 2005 through 2007 was approximately \$36.7 million.

During the rate case TE Path 15 agreed to changes in its filed revenue requirement, resulting in an annual revenue requirement of approximately \$36.0 million for 2005 - 2007 and has recognized this lower amount in operating revenue for the year 2005. Overcollections resulting from the use of the higher filed revenue requirement will be refunded to transmission customers through the Transmission Revenue Balancing Account ("TRBA") mechanism in the CAISO tariff.

One area of controversy raised by intervenors in the rate case relates to TE Path 15's recovery of the costs associated with the portion of the capacity in the project granted to Western. Western has proposed in Docket No. ER04-1198 that it be able to recover approximately \$1.3 million in Path 15 study costs, along with receiving all Firm Transmission Rights auction, wheeling and scheduling revenues associated with its 10% capacity entitlement when it chooses to schedule power over the Path 15 upgrade for use in serving its customer needs in Northern California during periods of congestion. At all other times, Western will credit these revenues back to the CAISO. Certain intervening parties have taken the position that Western's unwillingness to credit all of these additional revenues to the CAISO, coupled with TE Path 15's proposed revenue requirement, will lead to an overcharge for the CAISO's customers. TE Path 15 will credit

**TRANS-ELECTRIC NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**7. REGULATORY MATTERS (Continued)**

its share of these additional revenues to customers as a revenue credit through the TRBA process. Because Western has not proposed to do likewise, these parties claim that customers will pay in excess of the project revenue requirement for the capacity. In their protests, they propose either that TE Path 15 reduce its revenue requirement by the ratio of 10/82 to reflect the share of TE Path 15's costs that should be Western's responsibility or that TE Path 15 reimburse the CAISO for any auction, wheeling and scheduling revenues that Western will retain for itself.

In the Initial Decision the ALJ reached the following conclusions:

- TE Path 15 has not shown inclusion of its debt and liquidity reserve account balances as rate base items to be just and reasonable; therefore, \$10,773,091 should be removed from the rate base used to calculate its revenue requirement
- With regard to working capital allowance, TE Path 15 should adopt the FERC's 45-day convention and include in its calculation only O&M expenses, minus fuel and purchased power, resulting in a working capital allowance component of rate base of \$300,812 vs. the requested \$7,257,095
- TE Path 15's utilization of monthly compounding with regard to calculating AFUDC was affirmed
- The Commission's orders did not place the Western allocation issue into the hearing of the Path 15 rate case and, therefore, protestors are not permitted to pursue the issue in the proceeding.

If the FERC adopts the ALJ's Initial Decision, TE Path 15's annual revenue requirement would be approximately \$2.3 million lower for the years 2005 - 2007. TE Path 15 filed exceptions to the ALJ's Initial Decision on January 20, 2006 and responded to exceptions filed by other parties on February 9, 2006. The FERC commissioners will rule on TE Path 15's revenue requirement after considering the ALJ's Initial Decision as well as the filings made by TE Path 15 and intervenors. No deadline for FERC action exists, though TE Path 15 expects a FERC order in the 2nd or 3rd quarter of 2006. TE Path 15 believes that the incurrence of the costs associated with its reserves and working capital requirements were both prudent and necessary to successfully finance and complete the Path 15 Upgrade. TE Path 15 further believes that inclusion of these types of reserves in rate base is consistent with the FERC's current rate making practices and its objectives in promoting transmission development by independent companies. Consequently, management believes that it is probable that the FERC will approve an annual revenue requirement of approximately \$36.0 million.

**Income Tax Allowance**

In the rate case proceeding the FERC has also addressed the issue of whether a limited liability company ("LLC"), such as TE Path 15, is entitled to include a provision for federal and state income taxes in its revenue requirement if the regulated entity itself is not subject to the payment of income taxes. This issue arose out of a June 2004 decision by the Federal Circuit Court of Appeals of the District of Columbia in the case of BP West Coast Products, LLC vs. FERC. In that case, the Court decided that the SFPP Limited Partnership, a regulated oil products pipeline, was not entitled to include an income tax allowance in its revenue requirement since it did not itself actually pay income taxes. This finding was contrary to established FERC policy that an inclusion of a tax allowance was appropriate provided that income taxes were ultimately paid by a corporate investor in a limited partnership or LLC.

In light of the Court decision, TE Path 15 requested that the FERC make a specific finding that the Company be allowed to include an income tax allowance in its revenue requirement. The FERC ruled that TE Path 15 would be allowed to recover the taxes in its rates and that the issue would not be a part of the hearing process in Docket No. ER05-17-000. FERC further ordered, however, that the issue of the inclusion of income taxes in rates for limited partnerships or LLCs should be examined in a separate proceeding and that the income tax component of TE Path 15's revenue requirement would be subject to refund pending the findings of that separate proceeding. To that end, the FERC established a policy proceeding, Docket No. PL05-5-000, to examine the issue for all companies whose rates are regulated by FERC. In May 2005 the FERC issued an order in that policy proceeding concluding that a LLC would be entitled to include an allowance for income taxes in its rates as if it were a tax paying entity if the ultimate owners of the LLC have either an actual or potential tax liability associated with their investment in the regulated company.

Accordingly, the FERC has permitted TE Path 15 to include an allowance for state and federal income taxes in its revenue requirement even though TE Path 15 is not a tax paying entity. This decision has been appealed by one party, the Transmission Agency of Northern California ("TANC") to the U.S. Court of Appeals for the District of Columbia. In March 2006 the Court of Appeals dismissed TANC's appeal on the grounds that it was not timely to consider the matter. TANC will have the opportunity to refile an appeal at a later date.

Management believes it is unlikely that the FERC's decision in this matter will be overturned. If it is ultimately determined that the Company is not allowed to include a provision for income taxes in its rates, the result would likely be a reduction in annual revenues. In such a case, the Company anticipates undertaking measures to reduce the potential negative impact on cash flows.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**7. REGULATORY MATTERS (Continued)**

**Regulatory Assets**

As of December 31, 2005 and 2004, TE Path 15 had incurred \$1.6 million and \$1.0 million of costs to prepare and file its tariff with the FERC for a three year period of calendar years 2005 through 2007. The Company also incurred \$0.1 million of transition costs during the year ended December 31, 2004 that were associated with organizing TE Path 15 to begin operations. The rate case and transition costs will be amortized and recovered in rates over the three year period of its rate filing.

**TRBA**

The CAISO tariff provides for a true-up mechanism in which the CAISO calculates any over- or under-collection of transmission revenues relative to the authorized annual revenue requirement and either credits or charges that difference to transmission customers in the subsequent year. This is done through a TRBA account. In 2005 and 2004 TE Path 15 received payments from the CAISO in excess of its filed revenue requirement. As of December 31, 2005 and 2004, TE Path 15 had recorded deferred revenue of \$6.1 million and \$1.2 million, respectively. Approximately \$0.3 million and \$1.2 million of these amounts were auction proceeds for future time periods. The other \$5.8 million as of December 31, 2005 is a regulatory liability for collections in excess of the annual revenue requirement.

**8. INCOME ALLOCATIONS AND DISTRIBUTIONS**

Income allocations and distributions among members are determined under provisions of the Amended and Restated Limited Liability Company Operating Agreement of Trans-Elect NTD Holdings Path 15, LLC ("Operating Agreement") dated as of September 12, 2003. During the year ended December 31, 2005 Holdings Path 15 made \$20.4 million of distributions to common and preferred members. No distributions were made during the year ended December 31, 2004.

**9. RELATED PARTY TRANSACTIONS**

**TE**

TE provides support services to TE Path 15 under a Management Services Agreement signed on September 12, 2003. This agreement calls for TE Path 15 to pay TE \$200,000 at completion of construction and an annual fee of \$250,000 plus personnel and third party costs for services provided under the Agreement. The annual fee is adjusted each year beginning January 2006 based on changes to the Producer Price Index. In addition, TE Path 15 made a \$200,000 management fee payment and a \$950,000 development fee payment to TE on December 8, 2004, the date of construction completion pursuant to the agreement.

As of December 31, 2005 and 2004, TE Path 15 had \$129,483 and \$100,370 in payables due to TE. These payables represent amounts due to TE under the Management Services Agreement for support services and reimbursements of third party vendor payments made on behalf of TE Path 15. In addition, during the years ended December 31, 2005 and 2004, TE Path 15 reimbursed TE a total of \$0.6 million and \$2.9 million related to costs incurred by TE related to TE Path 15. The cash amounts paid to TE included \$0.3 million and \$0.7 million for support services provided to TE Path 15, \$0.1 million and \$1.1 million in third party vendor payments and \$0.2 million and \$1.15 million in management and development fees.

During 2005 TE received \$3,074,210 of distributions from Holdings Path 15 arising from NTD's preferred and common member interests in Holdings Path 15.

**Wright and Talisman, P.C.**

Alan Statman, who was an officer of TE until April 18, 2005, is a managing shareholder of the law firm Wright and Talisman, P.C. ("Wright & Talisman"). During the years ended December 31, 2005 and 2004, TE Path 15 paid Wright and Talisman a total of \$462,000 and \$0 and there was \$39,210 and \$0 due to Wright and Talisman as of December 31, 2005 and 2004, respectively. In addition, during the years ended December 31, 2005 and 2004, TE paid Wright and Talisman \$106,000 and \$584,000 for work associated with TE Path 15, which amounts were fully reimbursed to TE by TE Path 15.

**EIF Path 15 Funding LLC**

Equity commitment fees of \$1.7 million were paid to EIF Path 15 Funding LLC on December 8, 2004 after EIF made its \$14.1 million equity contribution to Holdings Path 15. In addition, EIF was reimbursed for LC fees in the amount of \$0.1 million during 2004. During 2005 EIF received \$6,299,660 of distributions from Holdings Path 15.

OFFICE OF INTERNATIONAL  
CORPORATE FINANCE

September 22, 2006

Atlantic Power Corporation  
Atlantic Power Holdings, LLC

Dear Sirs/Mesdames:

BMO Nesbitt Burns Inc. ("**BMONB**"), National Bank Financial Inc., RBC Dominion Securities Inc., Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation (collectively with BMONB, the "**Underwriters**" and each, an "**Underwriter**") understand that Atlantic Power Corporation, a corporation continued under the *Business Corporations Act* (British Columbia) (the "**Corporation**"), proposes, subject to the terms and conditions contained herein, to: (i) sell to the Underwriters, an aggregate of 8,531,000 Income Participating Securities (the "**Offered IPSs**"), representing an aggregate of 8,531,000 common shares in the capital of the Corporation and Cdn\$49,198,277 aggregate principal amount of the Corporation's 11% subordinated notes due 2016; and (ii) sell to the Underwriters 6.25% convertible secured debentures of the Corporation (the "**Debentures**") due October 31, 2011 (the "**Maturity Date**") with a face value of Cdn\$1,000 principal amount per Debenture, in an aggregate principal amount of Cdn\$60,000,000. The Offered IPSs and the Debentures to be issued hereunder are collectively referred to herein as the "**Offered Securities**". Each IPS represents one Common Share and Subordinated Notes with an aggregate principal amount of Cdn\$5.767. References herein to the "**Component Securities**" shall mean the Common Shares and the Subordinated Notes represented by the IPSs issued or issuable hereunder, and references to the "**Securities**" shall mean the Offered Securities and the Component Securities.

The Underwriters understand that the Subordinated Notes will be issued pursuant to the indenture dated as of November 18, 2004 between the Corporation and Computershare Trust Company of Canada, as trustee. The Subordinated Notes and the Debentures will be guaranteed (certain of such guarantees on a secured basis) by Atlantic Holdings and each of Atlantic Holdings' other direct and indirect Subsidiaries that are listed on Schedule I hereto (collectively, with Atlantic Holdings, the "**Guarantors**").

The Underwriters further understand that the Debentures will be issued pursuant to an indenture to be dated as of the Closing Date (as hereinafter defined) between the Corporation and Computershare Trust Company of Canada, as debenture trustee, and shall be convertible at the option of the holder into IPSs at a conversion price of Cdn\$12.40 per IPS (the "**Conversion Price**") at any time prior to the earlier of the close of business on the Maturity Date and the business day immediately preceding the date specified by the Corporation for redemption of the Debentures, subject to adjustment in certain circumstances.

Based upon the foregoing, and upon and subject to the terms and conditions set out below, the Underwriters severally, and not jointly and severally, offer to purchase from the Corporation at the Closing Time, and the Corporation hereby agrees to sell to the Underwriters, all but not less than all of the Offered IPSs at a price of Cdn\$10.55 per IPS, being an aggregate purchase price of Cdn\$90,002,050, and all but not less than all of the Debentures at a price of Cdn\$1,000 per Debenture, being an aggregate purchase price of Cdn\$60 million. The aggregate purchase price for the Offered Securities is Cdn\$150,002,050.

## TERMS AND CONDITIONS

### 1. Definitions and Interpretation

1.1 Where used in this Agreement the following terms will have the following meanings, respectively:

- (a) “**Acquisition**” means the indirect acquisition by Atlantic Holdings of all of the equity interests of Path 15 Holdco pursuant to a Purchase Agreement dated as of June 28, 2006, as amended by a First Amendment to Purchase Agreement dated September 14, 2006, and completed on September 15, 2006;
- (b) “**Acquisition Credit Facility**” means the term loan facility of up to \$100 million extended to Atlantic Holdings for the purpose of financing the Acquisition;
- (c) “**affiliate**” or “**associate**” when used to indicate a relationship with a Person, has the same meaning as set forth in the *Securities Act* (Ontario);
- (d) “**Atlantic Holdings**” means Atlantic Power Holdings, LLC, a limited liability company formed under the laws of Delaware;
- (e) “**BCSC**” means the British Columbia Securities Commission;
- (f) “**BMONB**” has the meaning ascribed to it in the first recital paragraph of this Agreement;
- (g) “**business day**” means a day other than a Saturday, a Sunday or a day on which chartered banks are not open for business in Toronto, Ontario;
- (h) “**Closing Date**” means October 11, 2006 or any earlier or later date as may be agreed to in writing by the Corporation and the Underwriters, each acting reasonably, but will in any event not be later than October 31, 2006;
- (i) “**Closing Time**” means 8:00 a.m. (Toronto time) on the Closing Date, or any other time on the Closing Date as may be agreed to by the Corporation and the Underwriters;
- (j) “**Common Shares**” means common shares in the capital of the Corporation;
- (k) “**Component Securities**” means the Common Shares and the Subordinated Notes represented by the IPSs issued or issuable hereunder;
- (l) “**Conversion Price**” has the meaning ascribed to it in the third recital paragraph of this Agreement;
- (m) “**Corporation**” means Atlantic Power Corporation, a corporation continued under the *Business Corporations Act* (British Columbia);
- (n) “**Credit Facility**” means the senior credit facility provided by an affiliate of BMO Nesbitt Burns Inc. to Atlantic Holdings pursuant to a credit agreement dated November 18, 2004, as amended by a first amendment dated April 29, 2005, a second amendment dated November 18, 2005 and a third amendment dated September 15, 2006, currently in an aggregate amount of \$75 million;

- (o) “**Debenture Trustee**” means Computershare Trust Company of Canada, in its capacity as trustee under the Indenture;
- (p) “**Debentures**” has the meaning ascribed to it in the first recital paragraph of this Agreement;
- (q) “**Directors**” means, in the case of the Corporation, the directors of the Corporation, and in the case of a limited liability corporation, the members of the board of managers of such corporation;
- (r) “**distribution**” means distribution or distribution to the public, as the case may be, for the purposes of the Securities Laws or any of them;
- (s) “**Equity Holders**” means, (i) in respect of a corporation, its shareholders, (ii) in respect of a limited liability corporation, its members, and (iii) in respect of any other Person, all Persons holding a direct or indirect beneficial interest in such Person;
- (t) “**Existing Investor Interests**” means the common membership interests and Class B membership interests in Atlantic Holdings held by the Existing Investors;
- (u) “**Existing Investors**” means Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC and “**Existing Investor**” means each individually;
- (v) “**Final MRRS Decision Document**” means a receipt for the Final Prospectus issued in accordance with the MRRS;
- (w) “**Final Prospectus**” means the final short form prospectus of the Corporation (in both the English and French languages), including the documents incorporated by reference therein, to be approved, signed and certified in accordance with the Securities Laws in the Qualifying Jurisdictions relating to the qualification for distribution of the Offered Securities under applicable Securities Laws in the Qualifying Jurisdictions;
- (x) “**Financial Information**” has the meaning ascribed thereto in Section 8.2;
- (y) “**Governmental Entity**” means any: (i) multinational, federal, provincial, state, municipal, local or other governmental or public department, regulatory or administrative authority, central bank, court, commission, board, bureau, agency or instrumentality, domestic or foreign; (ii) any subdivision or authority of any of the foregoing; (iii) any quasi-governmental, self-regulatory organization or private body exercising any regulatory, expropriation or taxing authority under or for the account of its members or any of the above; or (iv) any arbitrator exercising jurisdiction over the affairs of the applicable Person, asset, obligation or other matter;
- (z) “**Guarantee and Pledge Documents**” means the guarantees, pledges, security and inter-creditor documentation relating to the guarantees of the Subordinated Notes and the Debentures by the Guarantors and related pledges, security and inter-creditor arrangements (including arrangements with the bank lenders under the Credit Facility and the Acquisition Credit Facility);
- (aa) “**Guarantors**” means Atlantic Holdings and each of Atlantic Holdings’ other direct and indirect Subsidiaries that has guaranteed or will guarantee the Subordinated Notes and the Debentures, as listed on Schedule I hereto;
- (bb) “ **Holders**” means the holders of IPSs, Common Shares or Subordinated Notes;

- (cc) “**Indenture**” means the indenture providing for the issuance of the Debentures to be entered into at or prior to the Closing Time between the Corporation and the Debenture Trustee;
- (dd) “**IPs**” means the Income Participating Securities of the Corporation;
- (ee) “**KPMG**” means KPMG LLP, auditors of the Corporation;
- (ff) “**Lien**” means any mortgage, pledge, lien, security interest, easement, encumbrance or other adverse claim;
- (gg) “**LTIP**” means the long term incentive plan of the Corporation adopted May 10, 2006 and approved by shareholders at the Corporation’s annual meeting held on June 7, 2006;
- (hh) “**Manager**” means Atlantic Power Management, LLC a limited liability company formed under the laws of Delaware which has been appointed and serves as the manager of the Corporation and Atlantic Holdings pursuant to the Management Agreement;
- (ii) “**Management Agreement**” means the management agreement dated as of November 18, 2004 between the Manager, the Corporation and Atlantic Holdings;
- (jj) “**Material Agreements**” means collectively, this Agreement, the Indenture, the Guarantee and Pledge Documents and the Operating Agreement Amendment;
- (kk) “**material change**” means a material change for the purpose of Securities Laws;
- (ll) “**material fact**” means a material fact for the purpose of Securities Laws;
- (mm) “**Maturity Date**” has the meaning ascribed to it in the first recital paragraph of this Agreement;
- (nn) “**Minority Holding Entities**” means all entities in which Atlantic Holdings owns an equity interest that are not Project Holding Group Entities or Project Operating Entities;
- (oo) “**misrepresentation**” means a misrepresentation for the purpose of Securities Laws;
- (pp) “**MRRS**” means the mutual reliance review system procedures provided for under National Policy 43-201, Mutual Reliance Review System for Prospectuses and Annual Information Forms;
- (qq) “**NI 44-101**” means National Instrument 44-101, Short Form Prospectus Distributions;
- (rr) “**Non-Operated POE**” means the Project Operating Entities other than the Operated POEs;
- (ss) “**Offered IPs**” has the meaning ascribed to it in the first recital paragraph of this Agreement;
- (tt) “**Offered Securities**” means, collectively the Offered IPs and the Debentures to be issued hereunder;
- (uu) “**Offering**” means the distribution of the Offered Securities as contemplated in the Preliminary Prospectus and the Final Prospectus;
- (vv) “**Offering Documents**” means, collectively, the Preliminary Prospectus, the Final Prospectus and any Supplemental Material;

- (ww) **“Operated POE”** means each of Lake Cogen Ltd., Mid-Georgia Cogen L.P., Onondaga Cogeneration Limited Partnership, Pasco Cogen, Ltd. and Path 15 Opco;
- (xx) **“Operating Agreement”** means the amended and restated limited liability company agreement in respect of Atlantic Holdings dated as of November 17, 2004 among the Corporation, Atlantic Holdings and the Existing Investors;
- (yy) **“Operating Agreement Amendment”** means the amendment to the Operating Agreement to be entered into at or prior to the Closing Time to (i) create and provide for a new class of membership interests, to be known as senior membership interests, in connection with the creation and issuance of the Debentures, and (ii) amend the provisions of Section 4.1 to provide that following the resignation of a manager, the remaining managers may designate a replacement manager;
- (zz) **“Path 15 Holdco”** means Trans-Elect NTD Holdings Path 15, LLC;
- (aaa) **“Path 15 Opco”** means Trans-Elect NTD Path 15, LLC;
- (bbb) **“Path 15 Project”** means the transmission line upgrade along the Path 15 transmission corridor located in central California;
- (ccc) **“Person”** means any individual, partnership, limited partnership, limited liability partnership, limited liability corporation, joint venture, syndicate, sole proprietorship, company or corporation with or without share capital, unincorporated association, trust, trustee, executor, administrator or other legal personal representative, regulatory body or agency, government or governmental agency, authority or entity however designated or constituted;
- (ddd) **“Preliminary MRRS Decision Document”** means a receipt for the Preliminary Prospectus issued in accordance with the MRRS;
- (eee) **“Preliminary Prospectus”** means the preliminary short form prospectus of the Corporation (in both the English and French languages) dated the date hereof, including the documents incorporated by reference therein, relating to the qualification for distribution of the Offered Securities under applicable Securities Laws in the Qualifying Jurisdictions;
- (fff) **“Projects”** means the 15 power generation projects described in the AIF, and the Path 15 Project, in which the Corporation has indirect interests or investments;
- (ggg) **“Project Holding Group Entities”** means, collectively, Atlantic Holdings and its Subsidiaries, provided that no Project Operating Entity shall be considered to be a Project Holding Group Entity;
- (hhh) **“Project Operating Entities”** means (i) the partnerships, corporations or other entities that directly own or operate the Projects, and (ii) Path 15 Opco;
- (iii) **“Public Disclosure Documents”** means, collectively,
  - (i) the annual information form of the Corporation dated March 30, 2006 (the “AIF”);
  - (ii) the management information circular of the Corporation dated May 10, 2006 distributed in connection with the annual meeting of shareholders held on June 7, 2006;

- (iii) the consolidated financial statements of the Corporation for the year ended December 31, 2005 and the period from November 18, 2004 to December 31, 2004, together with the notes thereto and the auditors' report thereon;
  - (iv) management's discussion and analysis of financial condition and results of operations of the Corporation for the year ended December 31, 2005 and the period from November 18, 2004 to December 31, 2004;
  - (v) the unaudited consolidated financial statements of the Corporation for the three and six months ended June 30, 2006, together with the notes thereto;
  - (vi) management's discussion and analysis of financial condition and results of operations of the Corporation for the three and six months ended June 30, 2006;
  - (vii) the material change report of the Corporation dated September 21, 2006 filed in connection with the Acquisition;
  - (viii) the material change report of the Corporation dated September 21, 2006 filed in connection with the Offering; and
  - (ix) the Preliminary Prospectus and, when filed, the Final Prospectus and any Supplemental Material;
- (jjj) "**PwC**" means PricewaterhouseCoopers LLP, auditors of Path 15 Holdco and Epsilon Power Partners, LLC;
  - (kkk) "**Qualifying Jurisdictions**" means all of the provinces and territories of Canada and "**Qualifying Jurisdiction**" means any one province or territory of Canada;
  - (lll) "**Securities**" means the Offered Securities and the Component Securities;
  - (mmm) "**Securities Commission**;" means the applicable securities commission or securities regulatory authority in each of the Qualifying Jurisdictions;
  - (nnn) "**Securities Laws**" means, collectively, the applicable securities laws of each of the Qualifying Jurisdictions and the respective regulations and rules made under those securities laws together with all applicable policy statements, blanket orders and rulings of the Securities Commissions and all discretionary orders or rulings, if any, of the Securities Commissions made in connection with the transactions contemplated by this Agreement and the securities legislation and policies of each other relevant jurisdiction;
  - (ooo) "**SEDAR**" means the computer system for the transmission, receipt, acceptance, review and dissemination of documents filed in electronic format known as the System for Electronic Document Analysis and Retrieval established pursuant to National Instrument 13-101, System for Electronic Document Analysis and Retrieval (SEDAR);
  - (ppp) "**Selling Firm**" has the meaning ascribed thereto in Section 10.1;
  - (qqq) "**Standard Listing Conditions**" has the meaning ascribed thereto in Section 4.3;
  - (rrr) "**Subordinated Note Trustee**" means Computershare Trust Company of Canada, in its capacity as trustee under the Subordinated Note Indenture;

- (sss) “**Subordinated Note Indenture**” means the indenture providing for the issuance of Subordinated Notes dated as of November 18, 2004 between the Corporation and the Subordinated Note Trustee;
  - (ttt) “**Subordinated Notes**” means the 11% subordinated notes of the Corporation due 2016;
  - (uuu) “**Subsidiary**” means, with respect to any Person, any corporation, limited liability company, partnership, association or other business entity of which (i) if a corporation, a majority of the total voting power of shares of stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time owned or controlled, directly or indirectly, by that Person or one or more of the other Subsidiaries of that Person or a combination thereof or (ii) if a limited liability company, partnership, association or other business entity (other than a corporation), a majority of the partnership or other similar ownership interest thereof is at the time owned or controlled, directly or indirectly, by that Person or one or more Subsidiaries of that Person or a combination thereof and for this purpose, a Person or Persons owns a majority ownership in such a business entity (other than a corporation) if such Person or Persons shall be allocated a majority of such business entity’s gains or losses or shall be or control any managing director or general partner of such business entity (other than a corporation);
  - (vvv) “**Supplemental Material**” means, collectively, any amendment to the Preliminary Prospectus or Final Prospectus, any amendment or supplemental prospectus or ancillary materials (in the English language and, where applicable, French language) that may be filed by or on behalf of the Corporation under applicable Securities Laws relating to the distribution of the Offered Securities;
  - (www) “**Tax Act**” means the *Income Tax Act* (Canada);
  - (xxx) “**Transfer Agent**” means Computershare Investor Services Inc.;
  - (yyy) “**TSX**” means the Toronto Stock Exchange;
  - (zzz) “**Underwriters**” has the meaning ascribed to it in the first recital paragraph of this Agreement; and
  - (aaa) “**U.S. Tax Code**” means the *Internal Revenue Code of 1986* (United States of America) and the regulations thereunder.
- 1.2 The division of this Agreement into Articles, Sections, Clauses and Paragraphs and the headings appearing in this Agreement are for convenience of reference only and will not affect the construction or interpretation of this Agreement.
- 1.3 In this Agreement, unless the context otherwise requires:
- (a) words importing the singular include the plural and vice versa;
  - (b) words importing gender include all genders;
  - (c) words importing persons include individuals, partnerships, limited partnerships, joint ventures, syndicates, sole proprietorships, companies or corporations with or without share capital, unincorporated associations, societies, trusts, trustees, executors, administrators or other legal personal representatives, governmental authorities, regulatory authorities, and self-regulating organizations, bodies or entities however designated or constituted;

- (d) the word “or” is not exclusive;
- (e) the word “including” is not limiting, whether or not non-limiting language (such as “without limitation” or “but not limited to” or words of similar import) is used with reference thereto; and
- (f) the word “knowledge” when used in relation to any Person, refers to the actual knowledge of the officers of that Person (or, in the case of the Corporation and Atlantic Holdings, of the Manager) charged with responsibility for the particular function, after reasonable inquiry by them of those parties whom they believe, in good faith, to be the Persons responsible for the subject matter of the inquiry.

1.4 If any action is required to be taken under this Agreement on a day that is not a business day, such action will be required to be taken on the next succeeding day which is a business day.

1.5 Whenever reference is made in this Agreement to a calculation to be made or financial statements or documents to be prepared in accordance with “generally accepted accounting principles”, such reference will be deemed to be to the generally accepted accounting principles from time to time approved by the relevant body in the applicable jurisdiction, applicable as at the date on which such calculation is made or required to be made or such financial statements or documents are prepared or required to be prepared in accordance with generally accepted accounting principles, with such variations therefrom as are specified or required by the Securities Laws.

1.6 Unless otherwise specified herein, all dollar amounts referred to in this Agreement are expressed in lawful money of the United States.

1.7 Unless otherwise specified herein, a reference in this Agreement to a statute includes all regulations or rules made thereunder, all amendments to the statute or the regulations or rules made thereunder, any statutes, regulations or rules that supplement or supersede such statute, regulation or rule and, with respect to the Securities Laws, includes any orders made thereunder and the applicable policy statements, instruments and notices issued or otherwise promulgated by the Securities Commissions or the Canadian Securities Administrators.

## 2. Attributes of the Offered Securities

2.1 The Offered IPSs to be issued and sold under this Agreement by the Corporation will, upon receipt of payment therefor by the Corporation, be duly and validly created and issued, as applicable, by the Corporation and will have the attributes described in the Preliminary Prospectus and the Final Prospectus.

2.2 The Debentures to be issued and sold under this Agreement by the Corporation will, upon receipt of payment therefor by the Corporation, be duly and validly created and issued by the Corporation and the Debentures will, among other things, be:

- (a) convertible at the option of the holder into IPSs at any time prior to the earlier of the close of business on the Maturity Date and the business day immediately preceding the date specified by the Corporation for redemption of the Debentures at the Conversion Price;
- (b) redeemable by the Corporation, in whole or in part, after October 31, 2009 and prior to the Maturity Date at a price equal to their principal amount plus accrued and unpaid interest, provided that the weighted average trading price of the IPSs on the TSX for the 20 consecutive trading days ending five trading days preceding the date of notice of redemption

(or, if IPSs are not listed on the TSX or any other market, the fair market value of the Component Securities as determined by an independent financial advisor retained by the Corporation) is not less than 125% of the Conversion Price; and

- (c) rank senior to all existing and future "Subordinated Indebtedness" and subordinate to all existing and future "Senior Secured Indebtedness" (in each case as defined in the Offering Documents),

and will otherwise have the attributes described in the Preliminary Prospectus and the Final Prospectus, subject to those modifications or changes (if any) prior to the Closing Date as may be agreed to in writing by the Corporation and the Underwriters.

### 3. **Qualification**

3.1 The Corporation shall file the Preliminary Prospectus in each of the Qualifying Jurisdictions and obtain a Preliminary MRRS Decision Document issued by the BCSC, in its capacity as principal regulator pursuant to the MRRS, at or prior to 5:00 p.m. (Toronto time) on September 26, 2006. The Corporation shall satisfy all regulatory deficiencies and comments of Securities Commissions with respect to the Preliminary Prospectus on a basis acceptable to the Underwriters, acting reasonably. In any event, the Corporation shall file the Final Prospectus in each of the Qualifying Jurisdictions and obtain a Final MRRS Decision Document issued by the BCSC, in its capacity as principal regulator pursuant to the MRRS, at or prior to 5:00 p.m. (Toronto time) on October 3, 2006 (or such other time and/or later date as the Corporation and the Underwriters may agree) on behalf of each of the Qualifying Jurisdictions in respect of the Final Prospectus.

3.2 Until the date on which the distribution of the Offered Securities is completed, the Corporation:

- (a) will promptly take, or cause to be taken, all steps and proceedings that may from time to time be required under the Securities Laws to continue to qualify the distribution of the Offered Securities or, in the event that the Offered Securities have, for any reason, ceased so to qualify, to so qualify again the Offered Securities for distribution; and
- (b) will allow the Underwriters to participate fully in the preparation of the Offering Documents.

### 4. **Delivery of Preliminary Prospectus, Final Prospectus and Other Documents**

4.1 The Corporation shall deliver to each of the Underwriters and the Underwriters' counsel, at or prior to the time each of the Preliminary Prospectus and the Final Prospectus is presented to the Underwriters for signing, copies of the Preliminary Prospectus and the Final Prospectus, as the case may be, in the English language and in the French language, each signed by the Corporation and each Guarantor in the manner required by the Securities Laws of each of the Qualifying Jurisdictions.

4.2 The Corporation shall deliver to each of the Underwriters and the Underwriters' counsel, at or prior to the filing of each of the Preliminary Prospectus and the Final Prospectus with the Securities Commissions, a copy of any other document required to be filed by the Corporation with or prior to filing the Preliminary Prospectus and the Final Prospectus, as the case may be, under the MRRS or the Securities Laws or requested by the Underwriters and the Underwriters' counsel, including the documents incorporated by reference in the Preliminary Prospectus and the Final Prospectus, as the case may be.

- 4.3 The Corporation shall deliver to the Underwriters and the Underwriters' counsel, prior to the filing of the Final Prospectus with the Securities Commissions, evidence satisfactory to the Underwriters of the approval of the listing and posting for trading on the TSX of the Offered Securities and the Common Shares forming part of the Offered Securities, and the approval of the listing on the TSX of the IPSs issuable upon conversion of the Debentures and the Common Shares forming part of such IPSs, subject only to satisfaction by the Corporation of customary post-closing conditions imposed by the TSX in similar circumstances (the "Standard Listing Conditions").
- 4.4 The Corporation shall promptly and, in any event within all applicable time limitation periods, prepare and file with the Securities Commissions any Supplemental Material required to be filed under the Securities Laws. The Corporation shall allow the Underwriters and their counsel to participate fully in the preparation of any Supplemental Material and to conduct all due diligence investigations which the Underwriters may reasonably require in order to fulfil their obligations as underwriters and in order to enable the Underwriters to execute responsibly any certificate required to be executed by them in any Supplemental Material. Such Supplemental Material shall be in form and substance satisfactory to the Underwriters and prior to the filing of such Supplemental Material with any Securities Commission, the Corporation and the Manager shall deliver to the Underwriters:
- (a) a copy of such Supplemental Material signed on behalf of the Corporation and, if required, each Guarantor in the manner required by the Securities Laws;
  - (b) a copy of any other document required to be filed by the Corporation with or prior to filing of the Supplemental Material under the MRRS or the Securities Laws; and
  - (c) such reports, comfort letters or opinions as may reasonably be requested by the Underwriters.
- 4.5 Each delivery of the Offering Documents to the Underwriters shall constitute the consent of the Corporation and the Guarantors to the use thereof by the Underwriters and Selling Firms of those documents in connection with the distribution of the Offered Securities in all of the Qualifying Jurisdictions, subject to the Securities Laws.

## 5. **Commercial Copies**

The Corporation shall, as soon as possible but in any event not later than 12:00 noon (Toronto time) on the first business day after the issuance of the Preliminary MRRS Decision Document and the Final MRRS Decision Document, respectively, and within two business days after the filing of any Supplemental Material, cause to be delivered to the Underwriters without charge, commercial copies of the Preliminary Prospectus and the Final Prospectus in the English language and French language and any Supplemental Material, as the case may be, in such numbers and to such Canadian cities as the Underwriters may reasonably request by instructions given by the Underwriters to the printer of the Preliminary Prospectus and the Final Prospectus or any Supplemental Material, as the case may be. The commercial copies of the Preliminary Prospectus and the Final Prospectus and any Supplemental Material shall be identical in content to the electronically transmitted versions thereof filed with the Securities Commissions pursuant to SEDAR.

## 6. **Due Diligence**

The Corporation shall at all times until distribution of the Offered Securities is completed allow the Underwriters and their advisors and representatives to conduct all reasonable due diligence investigations and examinations which the Underwriters may reasonably require (including access to documentation, directors, officers and management personnel and the auditors of any financial statements included or incorporated by reference in the Offering Documents) in order to fulfill their obligations as

underwriters, in order to avail themselves of a defence to any claim for misrepresentation in the Offering Documents and in order to enable the Underwriters to responsibly execute any certificate in the Offering Documents required to be executed by the Underwriters. It shall be a condition precedent to the Underwriters' execution of any certificate in any Offering Document that the Underwriters be satisfied as to the form and content of the document.

7. **Auditors' Comfort Letters**

7.1 The Corporation shall deliver to each of the Underwriters and the Underwriters' counsel, at the time the Underwriters sign the Final Prospectus, a comfort letter signed by KPMG and dated the date of the Final Prospectus, in form and substance satisfactory to the Underwriters, acting reasonably, addressed to the Underwriters and the Directors of the Corporation with respect to the statistical and financial information contained and incorporated by reference in the Final Prospectus which letter shall be based on a review by KPMG within a cut-off date of not more than two business days prior to the date of the letter, and which letter shall be in addition to the auditors' reports and opinions of KPMG contained in the Final Prospectus and the auditors' consent and comfort letters (if any) of KPMG addressed to the Securities Commissions.

7.2 The Corporation shall deliver to each of the Underwriters and the Underwriters' counsel, at the time the Underwriters sign the Final Prospectus, one or more comfort letters signed by PwC and dated the date of the Final Prospectus, in form and substance satisfactory to the Underwriters, acting reasonably, addressed to the Underwriters and the Directors of the Corporation with respect to the statistical and financial information contained and incorporated by reference in the Final Prospectus in relation to each of Path 15 Holdco, which letter or letters shall be based on a review by PwC within a cut-off date of not more than two business days prior to the date of the letter, and which letter or letters shall be in addition to the auditors' reports and opinions of PwC contained in the Final Prospectus and the auditors' consent and comfort letters (if any) of PwC addressed to the Securities Commissions.

7.3 If any statistical, financial or accounting information is contained or incorporated by reference in any Supplemental Material which is required to be executed by the Underwriters, the Corporation shall deliver or cause to be delivered to the Underwriters at the time of execution thereof by the Underwriters a letter signed by KPMG and/or PwC or such other applicable auditors, as applicable, and dated the date of delivery thereof, in form and substance satisfactory to the Underwriters, acting reasonably, with respect to the statistical, financial and accounting information contained or incorporated by reference in the Supplemental Material and with respect to any material changes thereto, which letter shall be based on a review by the applicable auditors, within a cut-off date of not more than two business days of the date of such letter and which letter shall be in addition to any auditors' report contained in the Supplemental Material and the auditors' consent and comfort letters addressed to the Securities Commissions.

8. **Translation Opinions**

8.1 The Corporation shall deliver to the Underwriters, prior to the time that each of the Preliminary Prospectus and the Final Prospectus in the French language is filed with the Securities Commissions and printed, opinions of counsel in the Province of Quebec dated the date of the Preliminary Prospectus and Final Prospectus, as applicable, in form and substance satisfactory to the Underwriters, acting reasonably, addressed to the Underwriters and Underwriters' counsel, to the effect that the Preliminary Prospectus and Final Prospectus, as applicable, in the French language (other than the financial information opined upon pursuant to Section 8.2 hereof) is in all material respects a complete and proper translation of the

Preliminary Prospectus and Final Prospectus, as applicable, in the English language and is not susceptible to any materially different interpretation with respect to any material matter contained therein.

- 8.2 The Corporation shall also deliver to the Underwriters contemporaneously with the opinions referred to in Section 8.1:
- (a) an opinion of KPMG, dated the date of the Preliminary Prospectus and Final Prospectus, as applicable, in form and substance satisfactory to the Underwriters, acting reasonably, addressed to the Underwriters and Underwriters' counsel, to the effect that the financial statements of the Corporation (including, for greater certainty, the pro forma financial statements of the Corporation) and management's discussion and analysis related thereto, and the sections entitled "Meaning of Certain References", "Consolidated Capitalization of the Company", "Earnings Coverage Ratios", "Information Regarding Guarantors", "Selected Financial Information", "Index to Financial Statements" and "Auditors' Consent", included or incorporated by reference in the Preliminary Prospectus and the Final Prospectus, as applicable, (collectively, the "**Financial Information**") in the French language and contained in the Preliminary Prospectus and Final Prospectus, as applicable, is in all material respects a complete and proper translation of the English language version thereof; and
  - (b) an opinion of PwC, dated the date of the Preliminary Prospectus and Final Prospectus, as applicable, in form and substance satisfactory to the Underwriters, acting reasonably, addressed to the Underwriters and Underwriters' counsel, to the effect that the financial statements of Path 15 Holdco included or incorporated by reference in the Preliminary Prospectus and the Final Prospectus, as applicable, (collectively, the "**Financial Information**") in the French language and contained in the Preliminary Prospectus and Final Prospectus, as applicable, is in all material respects a complete and proper translation of the English language version thereof.

## 9. Regulatory Approvals

- 9.1 The Corporation will file or cause to be filed with the TSX all necessary documents and will take or cause to be taken all necessary steps to ensure that the Offered Securities and the Common Shares forming part of the Offered Securities have been approved for listing and posting for trading on the TSX and the IPSs issuable upon conversion of the Debentures and the Common Shares forming part of such IPSs have been approved for listing on the TSX, prior to the filing of the Final Prospectus with the Securities Commissions, subject only to satisfaction by the Corporation of the Standard Listing Conditions.
- 9.2 The Corporation will make all necessary filings, obtain all necessary regulatory consents and approvals (if any) and pay all filing fees required to be paid in connection with the transactions contemplated in this Agreement.

## 10. Distribution and Certain Obligations of Underwriters

- 10.1 During the course of the distribution of the Offered Securities to the public by or through the Underwriters, the Underwriters will, directly and through other investment dealers or brokers (other than the Underwriters) (each, a "**Selling Firm**") upon the terms and conditions set out in the Final Prospectus and this Agreement, offer and sell the Offered Securities to the public in the Qualifying Jurisdictions where they may be lawfully offered for sale or sold. The Underwriters will comply with, and will require any Selling Firm to agree to comply with, applicable Securities Law in connection with the offer to sell or distribution of the Offered Securities.

- 10.2 The Underwriters shall use reasonable commercial efforts to complete and to cause the Selling Firms to complete the distribution of the Offered Securities as soon as possible after the Closing Time.
- 10.3 The Underwriters will notify the Corporation when, in the Underwriters' opinion, the Underwriters and the Selling Firms have ceased distribution of the Offered Securities and, promptly after completion of the distribution, will provide the Corporation, in writing, with a breakdown of the number of Offered Securities distributed in each of the Qualifying Jurisdictions where that breakdown is required by the Securities Commission of that jurisdiction for the purpose of calculating fees payable to that Securities Commission.
- 10.4 For the purposes of this Article 10, the Underwriters shall be entitled to assume that the Offered Securities are qualified for distribution in any Qualifying Jurisdiction where a receipt or similar document for the Final Prospectus shall have been obtained from the applicable Securities Commission (including a decision document for the Final Prospectus issued under the MRRS) following the filing of the Final Prospectus unless otherwise notified in writing.
- 10.5 Notwithstanding the foregoing provisions of this Article 10, no Underwriter will be liable to the Corporation or Atlantic Holdings under this Agreement with respect to a default by any of the other Underwriters or Selling Firms, as the case may be.

11. **Representations and Warranties**

- 11.1 The Corporation and Atlantic Holdings jointly and severally represent and warrant to the Underwriters that upon the delivery by the Corporation to the Underwriters of any Offering Document, and as of the Closing Time:
- (a) all information and statements (except information and statements furnished by and relating solely to the Underwriters) contained in such Offering Document are, at the respective dates of delivery thereof to the Underwriters, and as of the Closing Time, true and correct in all material respects, contain no misrepresentations and constitute full, true and plain disclosure of all material facts relating to the Corporation and the Offered Securities;
  - (b) no material fact or information has been omitted therefrom (except facts or information relating solely to any of the Underwriters) which is required to be stated or is necessary to make the statements or information contained therein not misleading in light of the circumstances in which they were made;
  - (c) all financial statements that are required by NI 44-101 have been included or incorporated by reference in the Offering Documents; and
  - (d) such Offering Document complies fully with the requirements of the Securities Laws.
- 11.2 In addition to the representations and warranties contained in Section 11.1, the Corporation and Atlantic Holdings jointly and severally represent and warrant to the Underwriters as follows:

*Incorporation and Organization*

- (a) the Corporation:

- (i) is a corporation incorporated and organized and validly existing under the laws of its jurisdiction of incorporation, and is up to date with respect to all of its corporate filings under those laws; and
  - (ii) has all necessary corporate power, authority and capacity to own or lease its property and assets and to carry on its business as presently conducted and as described in the Public Disclosure Documents and to execute, deliver and to perform its obligations under each of the Material Agreements to which it is a party;
- (b) Atlantic Holdings:
- (i) is a limited liability company duly formed and validly existing under the laws of its jurisdiction of formation, and is up to date with respect to all of its company filings under those laws; and
  - (ii) has all necessary power, authority and capacity to own or lease its property and assets and to carry on its business as presently conducted and as described in the Public Disclosure Documents and to execute, deliver and to perform its obligations under each of the Material Agreements to which it is a party;
- (c) the Manager:
- (i) is a limited liability company duly formed and validly existing under the laws of its jurisdiction of formation, and is up to date with respect to all of its company filings under those laws; and
  - (ii) has all necessary power, authority and capacity to own or lease its property and assets and to carry on its business as presently conducted and as described in the Public Disclosure Documents;
- (d) each of the Project Holding Group Entities and Operated POEs and, to the knowledge of the Corporation and Atlantic Holdings, each of the Minority Holding Entities and Non-Operated POEs:
- (i) is incorporated, formed or organized and validly subsisting under the laws of its jurisdiction of incorporation, formation or organization, and is up to date with respect to all of its filings under those laws; and
  - (ii) has all necessary power, authority and capacity to own or lease its property and assets and to carry on its business as presently conducted and, in the case of the Guarantors, to execute, deliver and to perform its obligations under each of the Material Agreements to which it is a party;
- (e) the Management Agreement has been executed and delivered by the parties thereto and is in full force and effect, unamended;

*Capital of the Corporation and Atlantic Holdings*

- (f) the authorized capital of the Corporation consists of an unlimited number of Common Shares of which 44,339,500 Common Shares are issued and outstanding as a fully paid and non-assessable Common Shares of the Corporation, all of which are held in the form of IPSS;

- (g) pursuant to the Subordinated Note Indenture the Corporation is authorized to issue an unlimited principal amount of Subordinated Notes of which approximately Cdn\$292.2 million aggregate principal amount of Subordinated Notes are issued and outstanding, approximately Cdn\$255.7 million of which are held as part of IPSs and approximately Cdn\$36.5 million of which are held as separate Subordinated Notes;
- (h) except as disclosed in the Public Disclosure Documents, no person has any right to demand filing of a prospectus or registration statement or similar document by the Corporation in any jurisdiction or registration of any security of the Corporation in any jurisdiction, and no person will have any such right immediately following the Closing;
- (i) no securities exchangeable or convertible into IPSs, Common Shares or Subordinated Notes are issued and outstanding, and no such securities will be issued and outstanding immediately following the Closing Time, other than (i) IPSs issuable pursuant to the LTIP, and (ii) the Debentures issuable hereunder, and no Person has any agreement or option, or right or privilege (whether pre-emptive or contractual) capable of becoming an agreement or option, for the purchase of any securities of the Corporation;
- (j) the authorized capital of Atlantic Holdings consists of an unlimited number of common membership interests, an unlimited number of Class A membership interests and an unlimited number of Class B membership interests, of which 44,339,500 common membership interests and 50,668,787 Class A membership interests are issued and outstanding as fully paid membership interests owned by the Corporation; and 18,952,365 common membership interests and 18,952,365 Class B preferred membership interests are issued and outstanding as fully paid membership interests owned by the Existing Investors;
- (k) no securities exchangeable or convertible into membership interests of Atlantic Holdings are issued and outstanding and, other than as set out in the Operating Agreement, no Person has any agreement or option, or right or privilege (whether pre-emptive or contractual) capable of becoming an agreement or option, for the purchase of any membership interests of Atlantic Holdings;
- (l) the attributes of the IPSs, Common Shares and Subordinated Notes and the membership interests of Atlantic Holdings conform in all material respects with the descriptions thereof in the Public Disclosure Documents and, upon their issuance, the attributes of the Debentures will conform in all material respects with the descriptions thereof in the Offering Documents;
- (m) upon issue of the Offered Securities by the Corporation in accordance with this Agreement:
  - (i) the Common Shares represented by the IPSs issuable hereunder will be validly issued and will be outstanding as fully paid and non-assessable Common Shares;
  - (ii) the Subordinated Notes represented by the IPSs issuable hereunder will be validly issued and will be outstanding as fully paid Subordinated Notes;
  - (iii) the Debentures issuable hereunder will be validly issued and will be outstanding as fully paid Debentures; and
  - (iv) the Common Shares and Subordinated Notes represented by the IPSs issuable upon conversion of the Debentures will be validly authorized and reserved by the Corporation and upon conversion, such Common Shares and Subordinated Notes will be validly issued and will be outstanding as fully paid and non-assessable Common Shares and fully paid Subordinated Notes, respectively;

- (n) the form and terms of the certificates for the Common Shares have been approved and adopted by the Directors of the Corporation and comply with the requirements of the *Business Corporations Act* (British Columbia) and the TSX;
- (o) the form and terms of the certificates for the Subordinated Notes have been approved and adopted by the Directors of the Corporation and comply with the requirements of the Subordinated Note Indenture;
- (p) the form and terms of the certificates for the IPSs have been approved and adopted by the Directors of the Corporation and comply with the requirements of the TSX;
- (q) as at the Closing Time, the form and terms of the certificates for the Debentures will be approved and adopted by the Directors of the Corporation and will comply with the requirements of the TSX, if applicable;
- (r) the Transfer Agent, at its principal office in Toronto, has been duly appointed as transfer agent and registrar for the IPSs and Common Shares;
- (s) the Subordinated Note Trustee, at its principal office in Toronto, has been duly appointed as trustee in respect of the Subordinated Notes;
- (t) the Debenture Trustee, at its principal office in Toronto, will have been, at the Closing Time, duly appointed as trustee in respect of the Debentures;

*The Prospectus and Related Matters*

- (u) each of the Preliminary Prospectus and the Final Prospectus, in both the French and English languages, and the execution and filing of each of the Preliminary Prospectus and the Final Prospectus, in both the French and English languages, with the Securities Commissions have been duly approved and authorized by all necessary action by the Corporation and each Guarantor, and each of the Preliminary Prospectus and the Final Prospectus, in both the French and English languages, prior to filing will be duly executed by and on behalf of the Corporation and each Guarantor;
- (v) the IPSs (and the Common Shares represented by the IPSs) are listed and posted for trading on the TSX;
- (w) except as provided herein, there is no Person that is entitled to any brokerage or finder's fee in connection with the Material Agreements or any of the transactions contemplated thereunder;
- (x) the Corporation is a reporting issuer or the equivalent thereof in each Qualifying Jurisdiction where such concept exists and is not in default under the Securities Laws of any Qualifying Jurisdiction;
- (y) the Corporation is in compliance with its timely disclosure obligations under Securities Laws of each of the Qualifying Jurisdictions, and, without limiting the generality of the foregoing, there has not occurred any material change in the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis since December 31, 2005, which has not been publicly disclosed in a filing made in accordance with Securities Laws;
- (z) the Corporation is eligible to file the Preliminary Prospectus and the Final Prospectus under NI 44-101 in each of the Qualifying Jurisdictions, the Corporation has fulfilled all

requirements to be fulfilled by the Corporation, including the filing of the documents and all other continuous disclosure materials required to be filed pursuant to applicable Securities Laws, but excluding the preparation and filing of the Preliminary Prospectus and the Final Prospectus, to enable the Offered Securities to be offered for sale and sold to the public in all Qualifying Jurisdictions through registrants who have complied with the relevant provisions of applicable Securities Laws;

- (aa) the Corporation and its Subsidiaries maintain a system of internal accounting controls sufficient to provide reasonable assurance that:
  - (i) transactions will be executed in accordance with the general or specific authorization of the board of directors of the Corporation; and
  - (ii) transactions will be recorded as necessary to permit preparation of financial statements in conformity with Canadian generally accepted accounting principles and to maintain accountability for assets;
- (bb) no order, ruling or determination ceasing or suspending trading in the securities of the Corporation, prohibiting the sale of such securities or preventing or suspending the use of the Preliminary Prospectus or the Final Prospectus has been issued and, to the knowledge of the Corporation and Atlantic Holdings, no investigations or proceedings for such purposes are pending or threatened;
- (cc) the financial statements of the Corporation included or incorporated by reference in the Offering Documents are complete and correct and present fairly, in all material respects, the financial position and results of operations of the Corporation in accordance with Canadian generally accepted accounting principles;
- (dd) to the knowledge of the Corporation and Atlantic Holdings, the financial statements of Path 15 Holdco included in the Offering Documents are complete and correct and present fairly, in all material respects, the financial position and results of operations of Path 15 Holdco in accordance with U.S. generally accepted accounting principles;
- (ee) the financial statements of Epsilon Power Partners, LLC included in the Offering Documents are complete and correct and present fairly, in all material respects, the financial position and results of operations of Epsilon Power Partners, LLC in accordance with U.S. generally accepted accounting principles;
- (ff) the pro forma financial statements of the Corporation contained in the Final Prospectus are complete and correct in all material respects and have been prepared in accordance with Canadian generally accepted accounting principles consistently applied and applicable Securities Laws, and the Corporation is not aware of any fact or circumstance presently existing which would render such pro forma Financial Statements materially incorrect;
- (gg) the Acquisition did not and does not require the Corporation to obtain a formal valuation pursuant to Ontario Securities Commission Rule 61-501 – Insider Bids, Issuer Bids, Business Combinations and Related Party Transactions;

*Material Agreements*

- (hh) the execution and delivery by the Corporation and Atlantic Holdings of this Agreement and each of the other Material Agreements to which it is a party, and the performance by the Corporation and Atlantic Holdings of their obligations hereunder and thereunder and the

consummation by the Corporation and Atlantic Holdings of the transactions contemplated herein and therein, including the issuance, sale and delivery of the Offered Securities, has been or, as the case may be, will be at the Closing Time duly authorized, executed and delivered by the Corporation and Atlantic Holdings and is, or will at the Closing Time be, a legal, valid and binding obligation of each of them, enforceable against each of them in accordance with its terms, subject to exceptions as to applicable bankruptcy, insolvency and similar laws and the availability of equitable remedies;

- (ii) except for consents, approvals, authorizations or orders, or filings, registrations or recordings with any Governmental Entity that have been obtained or will be obtained prior to the Closing Time, no consent, approval, authorization or order of, and no filing, registration or recording with, any Governmental Entity is required in connection with the execution and delivery by the Corporation and Atlantic Holdings of this Agreement and each of the other Material Agreements to which it is a party, or the performance by the Corporation and Atlantic Holdings of their obligations hereunder and thereunder and the consummation by the Corporation and Atlantic Holdings of the transactions contemplated herein and therein, including the issuance, sale and delivery of the Offered Securities;
- (jj) neither the execution and the delivery of this Agreement and each of the other Material Agreements to which the Corporation and/or Atlantic Holdings is a party, nor the consummation of the transactions contemplated hereby and thereby, will (i) violate any statute, regulation, rule, injunction, judgment, order, decree, ruling or other restriction of any Governmental Entity to which either is subject, or any provision of the Corporation's or Atlantic Holdings' organizational documents, (ii) conflict with, result in a breach of, constitute a default under, result in the acceleration of, create in any party the right to accelerate, terminate, modify or cancel, or require any notice under any agreement, contract, lease, license, instrument or other arrangement to which Corporation and/or Atlantic Holdings is a party or by which either is bound or to which any of their respective assets is subject (except such conflicts, breaches, defaults, accelerations, modifications, cancellations or notices as would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis) or (iii) result in the imposition or creation of any Lien upon or with respect to the membership interests in a Project Holding Group Entity or Project Operating Entity;
- (kk) the execution and delivery by the Guarantors of the Guarantee and Pledge Documents, and the performance by the Guarantors of their obligations thereunder, has been or, as the case may be, will be at the Closing Time duly authorized, executed and delivered by the Guarantors and is, or will at the Closing Time be, a legal, valid and binding obligation of each of them, enforceable against each of them in accordance with its terms, subject to exceptions as to applicable bankruptcy, insolvency and similar laws and the availability of equitable remedies;
- (ll) except for consents, approvals, authorizations or orders, or filings, registrations or recordings with any Governmental Entity that have been obtained or will be obtained prior to the Closing Time, no consent, approval, authorization or order of, and no filing, registration or recording with, any Governmental Entity is required in connection with the execution and delivery by the Guarantors of Guarantee and Pledge Documents, or the performance by the Guarantors of their obligations hereunder and thereunder;
- (mm) neither the execution and the delivery by the Guarantors of the Guarantee and Pledge Documents, nor the performance of the obligations thereunder, will (i) violate any statute, regulation, rule, injunction, judgment, order, decree, ruling or other restriction of any

Governmental Entity to which a Guarantor is subject, or any provision of the Guarantor's organizational documents, or (ii) conflict with, result in a breach of, constitute a default under, result in the acceleration of, create in any party the right to accelerate, terminate, modify or cancel, or require any notice under any agreement, contract, lease, license, instrument or other arrangement to which a Guarantor is a party or by which it is bound or to which any of its assets is subject (except such conflicts, breaches, defaults, accelerations, modifications, cancellations or notices as would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow, or condition (financial or otherwise) of the Guarantor);

*General Matters*

- (nn) all of the outstanding membership or other equity interests of each Project Holding Group Entity (other than Atlantic Holdings) are legally and beneficially owned, directly or indirectly, by Atlantic Holdings or another Project Holding Group Entity, free and clear of all liens, mortgages, charges, pledges, encumbrances or other security interests other than security interests disclosed in the Preliminary Prospectus and the Final Prospectus or security interests the existence of which would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis, and have been duly authorized and validly issued and no Person has any agreement or option, or right or privilege (whether pre-emptive or contractual) capable of becoming an agreement or option, for the purchase of any such membership or other equity interests;
- (oo) one or more Project Holding Group Entities or Minority Holding Entities, together, owns the percentage of membership or other equity interests or is entitled to the share of cash flow in or from the Project Operating Entities set forth in the Preliminary Prospectus and Final Prospectus free and clear of all liens, mortgages, charges, pledges, encumbrances or other security interests other than security interests disclosed in the Preliminary Prospectus and the Final Prospectus or security interests the existence of which would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis, and such membership or other equity interests have been duly authorized and validly issued and no Person has any agreement or option, or right or privilege (whether pre-emptive or contractual) capable of becoming an agreement or option, for the purchase of any such membership or other equity interests;
- (pp) except as disclosed in the Preliminary Prospectus and the Final Prospectus, none of the Corporation, any Project Holding Group Entity or any Operated POE, or to the knowledge of the Corporation or Atlantic Holdings any Minority Holding Entity or Non-Operated POE, has entered into any agreement of any nature to acquire, directly or indirectly, any securities, or other equity or proprietary interest in, any Person;
- (qq) except as disclosed in the Preliminary Prospectus and the Final Prospectus, there is no agreement in force or effect which in any manner affects or will affect the voting or control of any of the issued and outstanding securities of the Corporation or Atlantic Holdings;
- (rr) except as disclosed in the Preliminary Prospectus and the Final Prospectus, to the knowledge of the Corporation or Atlantic Holdings none of the Directors or officers of any of the Corporation, Atlantic Holdings, any Person who owns, directly or indirectly, more than 10% of any class of securities of the Corporation or securities of any Person exchangeable for more than 10% of any class of securities of the Corporation, or any associate or affiliate of the foregoing, respectively, has, or to the knowledge of the Corporation or Atlantic Holdings

intends to have, any interest, direct or indirect, in any transaction or any proposed transaction with the Corporation which materially affects, is material to or will materially affect the Corporation or a Subsidiary of the Corporation or a Project Holding Group Entity or a Project Operating Entity;

- (ss) except as disclosed in the Preliminary Prospectus and the Final Prospectus, there are no actions, suits, proceedings or investigations, whether on behalf of or against the Corporation or Atlantic Holdings or any other Person pending, or, to the knowledge of the Corporation or Atlantic Holdings, threatened against or affecting the Corporation, Atlantic Holdings, any Project Holding Group Entity or any Operated POE or, to the knowledge of the Corporation or Atlantic Holdings, any Minority Holding Entity or Non-Operated POE, at law or in equity, before any court, arbitrator or any federal, provincial, state, municipal, county or other governmental department, commission, board, bureau, agency or instrumentality, domestic or foreign, which may in any way, individually or in the aggregate, have a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis, or which questions the validity of the issuance, sale and delivery of the Offered Securities or any action taken or to be taken by the Corporation or Atlantic Holdings pursuant to or in connection with this Agreement or any of the Material Agreements;
- (tt) except as disclosed in the Preliminary Prospectus and the Final Prospectus, no default exists under and no event has occurred or, to the knowledge of the Corporation or Atlantic Holdings has been threatened, which after notice or lapse of time or both, or otherwise, would constitute a default under or breach of, by the Corporation or Atlantic Holdings, or to the knowledge of the Corporation or Atlantic Holdings, any other Person, any obligation, agreement, covenant or condition contained in any material contract, indenture, trust, deed, mortgage, loan agreement, note, lease, licence or other material agreement or instrument (including, without limitation, the Subordinated Note Indenture, the Credit Facility, the Acquisition Credit Facility and any Material Agreement) to which the Corporation, any Project Holding Group Entity, any Operated POE or, to the knowledge of the Corporation or Atlantic Holdings, any Minority Holding Entity or Non-Operated POE, is, or will, at the Closing Time be, a party or by which any of them or any of their respective properties may be bound except such defaults or breaches which would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis;
- (uu) each of the Corporation and each Project Holding Group Entity and, to the knowledge of the Corporation and Atlantic Holdings, each Minority Holding Entity, has conducted and is conducting its activities in compliance with all applicable laws (including without limitation the *Public Utility Holding Company Act* of 2005 and the *Federal Power Act* and related regulations and orders), except where the failure to comply would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis;
- (vv) the Corporation and each of the Project Holding Group Entities and each Operated POE and, to the knowledge of the Corporation and Atlantic Holdings, each of the Minority Holding Entities and Non-Operated POEs has filed all federal, state, local and foreign tax returns that are required to be filed by it, and has paid all taxes required to be paid by it and any other assessment, fine or penalty levied against it, to the extent that any of the foregoing is due and payable, except for any such assessment, fine or penalty that is currently being contested in good faith (except where the failure so to file or pay would not have, individually or in the

aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis);

- (ww) the Corporation and each of the Project Holding Group Entities and each Operated POE and, to the knowledge of the Corporation and Atlantic Holdings, each of the Minority Holding Entities and Non-Operated POEs, has established on its books and records reserves that are adequate for the payment of all taxes not yet due and payable and there are no Liens for taxes on the assets or properties of any of the foregoing entities, except for taxes not yet due and except for Liens that would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis, and, to the knowledge of the Corporation and Atlantic Holdings, there are no audits pending of the tax returns of the Corporation or any of the Project Holding Group Entities, Minority Holding Entities or Project Operating Entities, and there are no claims which have been or may be asserted relating to any such tax returns, which audits and claims, if determined adversely, would reasonably be expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis;
- (xx) neither the Canada Revenue Agency, the U.S. Internal Revenue Service nor any other taxation authority, foreign or domestic, has asserted or threatened to assert any assessment, claim or liability for taxes due or to become due in connection with any review or examination of the tax returns of the Corporation or any of the Project Holding Group Entities or any Operated POE or, to the knowledge of the Corporation and Atlantic Holdings, any of the Minority Holding Entities or Non-Operated POEs (including, without limitation, any predecessor entities);
- (yy) neither the Corporation nor Atlantic Holdings is, and neither will be as a result of the execution and the delivery of this Agreement and each of the other Material Agreements to which the Corporation and/or Atlantic Holdings is a party, and the consummation of the transactions contemplated hereby and thereby, an "Investment Company" as defined in the *Investment Company Act of 1940* of the United States;
- (zz) the indirect Acquisition by Atlantic Holdings of its interest in Path 15 Holdco was completed on September 15, 2006 in accordance with the terms and conditions of the Purchase Agreement dated as of June 28, 2006, as amended, and without waiver or modification of any conditions therein contained;

#### *Operations of the Projects*

- (aaa) each Operated POE and, to the knowledge of the Corporation and Atlantic Holdings, each Non-Operated POE owns, leases or otherwise has the right to use all real property, including all fixtures and improvements situated thereon, and owns, leases or otherwise has the right to use all equipment and personal property, tangible and intangible, in each case which is used in the day to day operations of the business of such Project Operating Entity and which is necessary to conduct the business of the related Project in the manner in which it is presently conducted except where the failure to so own, lease or have the right to use would not have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis;
- (bbb) each Operated POE and, to the knowledge of the Corporation and Atlantic Holdings, each Non-Operated POE possesses or has the right to use all assets, permits, licenses, trademarks,

patents, franchises and other rights necessary to conduct its business as currently conducted except where the failure to so possess or have the right to use would not have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis;

- (ccc) each material agreement relating to an Operated POE or the related Project or, to the knowledge of the Corporation and Atlantic Holdings, a Non-Operated POE or the related Project, (i) constitutes a legal, valid and binding obligation of the applicable Project Operating Entity and, to the knowledge of the Corporation and Atlantic Holdings, each other party thereto, and (ii) is in full force and effect. Except as disclosed in the Offering Documents, there is no default or event which, with notice or lapse of time or both, would constitute a default under a material agreement relating to an Operated POE or the related Project or, to the knowledge of the Corporation and Atlantic Holdings, a Non-Operated POE or the related Project, on the part of the applicable Project Operating Entity or, to the knowledge of the Corporation and Atlantic Holdings, on the part of the other parties thereto other than such defaults or events which would not have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis. Except as disclosed in the Offering Documents, no party to any material agreement of an Operated POE or the related Project or, to the knowledge of the Corporation and Atlantic Holdings, a Non-Operated POE or the related Project, has delivered any notice to a Project Operating Entity alleging that such Project Operating Entity is in default under any agreement;
- (ddd) the Projects operated by Operated POEs and, to the knowledge of the Corporation and Atlantic Holdings, the Projects operated by Non-Operated POEs, maintain insurance covering customary risks and in prudent amounts in relation to their operations, and each of such insurance policies related to a Project is in full force and effect and no notice of termination or cancellation of any such policy has been received by the applicable Project Operating Entity;
- (eee) each Operated POE and, to the knowledge of the Corporation and Atlantic Holdings, each Non-Operated POE has all governmental permits, licenses, certifications and authorizations (including permits, licenses, certifications and authorizations of the United States Federal Energy Regulatory Commission) necessary for the conduct of its business in all material respects as presently conducted and as disclosed in the Public Disclosure Documents and is in compliance with the terms of each such permit, license, certification or authorization, except to the extent that any such non-compliance would not have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis;
- (fff) except as disclosed in the Offering Documents, there is no action, suit or proceeding pending or, to knowledge of the Corporation, threatened, against any Operated POE or the related Project or, to the knowledge of the Corporation and Atlantic Holdings, any Non-Operated POE or the related Project, or properties or rights of any Operated POE or the related Project or, to the knowledge of the Corporation and Atlantic Holdings, any Non-Operated POE or the related Project, the adverse determination of which could reasonably be expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis;
- (ggg) except as disclosed in the Offering Documents, no material event of force majeure (as defined in the applicable contract or agreement) has occurred and is continuing under any agreement

to which an Operated POE is a party or, to the knowledge of the Corporation and Atlantic Holdings, a Non-Operated POE is a party;

- (hhh) each Operated POE and, to the knowledge of the Corporation and Atlantic Holdings, each Non-Operated POE, is in compliance with environmental, health and safety laws, except for such non-compliance as would not be reasonably likely to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis. No Operated POE or, to the knowledge of the Corporation and Atlantic Holdings, Non-Operated POE has received any written notice, report or other information regarding any actual or alleged violation of environmental, health and safety laws, or any liabilities or potential liabilities (whether accrued, absolute, contingent, unliquidated or otherwise), including any investigatory, remedial or corrective obligations, relating to the Projects, the subject of which would be reasonably likely to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis. No Operated POE or, to the knowledge of the Corporation and Atlantic Holdings, Non-Operated POE has any liability in connection with the presence, use, production, generation, handling, transportation, treatment, storage, disposal, distribution, labeling, testing, processing, discharge, emission, release, threatened release, control or clean-up of any hazardous materials, except for such liabilities as would not be reasonably likely to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis;
- (iii) except as disclosed in the Offering Documents, (i) each Operated POE and, to the knowledge of the Corporation and Atlantic Holdings, each Non-Operated POE is in compliance in all material respects with all laws respecting employment and employment practices, terms and conditions of employment and wages and hours, (ii) no labor strike, slow down or stoppage is actually pending or threatened by any representative of any union or other representation of employees against or affecting an Operated POE or related Projects or, to the knowledge of the Corporation and Atlantic Holdings, a Non-Operated POE or related Projects, (iii) no Operated POE or, to the knowledge of the Corporation and Atlantic Holdings, Non-Operated POE has experienced any work stoppage since November 18, 2004, and (iv) each Operated POE and, to the knowledge of the Corporation and Atlantic Holdings, each Non-Operated POE is in compliance in all material respects with the terms and all applicable laws relating any employee benefit plans maintained by such party;
- (ijj) each Operated POE and, to the knowledge of the Corporation and Atlantic Holdings, each Non-Operated POE has conducted and is conducting its activities in compliance with all applicable laws (including without limitation the *Public Utility Holding Company Act* of 2005 and the *Federal Power Act* and related regulations and orders), except where the failure to comply would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation on a consolidated basis.

12. **Material Change**

12.1 The Corporation will promptly inform the Underwriters in writing during the period prior to the completion of the distribution of the Offered Securities of the full particulars of:

- (a) any change (actual, anticipated, contemplated or threatened) in the assets, liabilities (contingent or otherwise), business, affairs, operations or capital of the Corporation, Atlantic Holdings or any of the Project Holding Group Entities or Project Operating Entities; or

- (b) any change in any matter referred to in any Offering Document (other than any matter relating solely to any of the Underwriters); or
- (c) any other fact, event or circumstance,

which would have been required to have been stated in the Preliminary Prospectus, the Final Prospectus or any Supplemental Material had that fact or change arisen or been discovered on, or prior to, the date of any of the Preliminary Prospectus, the Final Prospectus or any Supplemental Material or which is, or may be, of such a nature as to render any of the Offering Documents or any statement therein untrue or misleading in any material respect or which would result in any of the Offering Documents containing a misrepresentation or which would result in any of the Offering Documents not complying with any of the Securities Laws or which would reasonably be expected to have a significant effect on the market price or value of the Offered Securities.

12.2 The Corporation will promptly comply with all applicable filing and other requirements under the Securities Laws arising as a result of any change, fact, event or circumstance referred to in Section 12.1 and the Corporation will prepare and the Corporation will file under all applicable Securities Laws, as promptly as possible, and in any event within any time limit prescribed under applicable Securities Laws, any Supplemental Material as may be required under applicable Securities Laws or which, in the opinion of both the Underwriters and the Corporation, acting reasonably, may be advisable; provided that the Corporation shall allow the Underwriters and their counsel to participate fully in the preparation of any Supplemental Material and to conduct all due diligence investigations which the Underwriters may reasonably require in order to fulfil their obligations as underwriters and in order to enable the Underwriters to execute responsibly any certificate required to be executed by them in any Supplemental Material and the Underwriters shall have approved the form of any Supplemental Material, such approval not to be unreasonably withheld and to be provided in a timely manner, and the Corporation will otherwise comply with all legal requirements necessary to continue to qualify the Offered Securities for distribution in each of the Qualifying Jurisdictions.

12.3 In addition to the provisions of Sections 12.1 and 12.2, the Corporation will, in good faith, discuss with the Underwriters any fact, change, event or circumstance (actual, anticipated, contemplated or threatened) which is of such a nature that there is or could be reasonable doubt as to whether notice should be given to the Underwriters under Section 12.1 and will consult with the Underwriters with respect to the form and content of any Supplemental Material proposed to be filed by the Corporation.

### 13. **Covenants of the Corporation and the Manager**

13.1 The Corporation covenants and agrees with the Underwriters that it:

- (a) will advise the Underwriters, promptly after receiving notice thereof, of the time when the Preliminary Prospectus, the Final Prospectus and any Supplemental Material has been filed and receipts have been obtained and will provide evidence satisfactory to the Underwriters of each filing and the issuance of receipts;
- (b) will advise the Underwriters, promptly after receiving notice or obtaining knowledge of: (i) the issuance by any Securities Commission, the TSX or any other competent authority of any order suspending or preventing the use of any of the Offering Documents or trading of any securities of the Corporation; (ii) the suspension of the qualification of the Offered Securities for offering or sale in any of the Qualifying Jurisdictions; and (iii) the institution, threatening

or contemplation of any proceeding for any of those purposes; and will use its reasonable commercial efforts to prevent the issuance of any such order and, if any such order is issued, to obtain the withdrawal of the order promptly;

- (c) will advise the Underwriters, promptly after receiving notice of or obtaining knowledge of any request made by any Securities Commission to amend or supplement the Preliminary Prospectus, the Final Prospectus or any Supplemental Material or provide any additional information;
- (d) will apply the net proceeds from the issue and sale of the Offered Securities in accordance with the disclosure set out under the heading "Use of Proceeds" in the Preliminary Prospectus and the Final Prospectus;
- (e) will not, without prior consultation with BMONB on behalf of the Underwriters, during the period commencing on the date hereof and expiring on the completion of the distribution to the public of the Offered Securities, issue any press release;
- (f) will make available management personnel of the Corporation and the Manager to provide such assistance in marketing the Offering as the Underwriters may reasonably request; and
- (g) will not, prior to the Closing Time, declare or pay or establish a record date for any distributions (other than the distribution of Cdn\$0.0884 payable on October 31, 2006 to IPS holders of record on September 29, 2006) for which the record date is prior to the Closing Date; and will ensure that the holders of the Offered IPSs are entitled to receive the same distribution, on a per-IPS basis, in respect of the month in which the Closing Date occurs as the holders of IPSs that were issued and outstanding prior to the Closing Date.

14. **Conditions of Closing**

14.1 The Underwriters' obligations under this Agreement shall be subject to the following conditions being fulfilled which are for the exclusive benefit of the Underwriters, any of which may be waived, in whole or in part, by the Underwriters, in their sole discretion, pursuant to Section 15.2 hereof:

- (a) the Underwriters and their counsel shall have received a legal opinion, subject to customary limitations, assumptions and qualifications, dated as of the Closing Date addressed to the Underwriters from the Corporation's, Atlantic Holdings' and the Manager's Canadian and U.S. counsel in form and content to the reasonable satisfaction of the Underwriters' counsel with respect to such matters as the Underwriters may reasonably request, including the following:
  - (i) the Corporation:
    - (a) is a corporation incorporated and organized and validly existing under the laws of its jurisdiction of incorporation, and is up to date with respect to all of its corporate filings under those laws; and
    - (b) has all necessary corporate power, authority and capacity to own or lease its property and assets and to carry on its business as described in the Public Disclosure Documents and to execute, deliver and to perform its obligations under each of the Material Agreements to which it is a party;
  - (ii) Atlantic Holdings:

- (a) is a limited liability company duly formed and validly existing under the laws of its jurisdiction of incorporation, and is up to date with respect to all of its company filings under those laws; and
  - (b) has all necessary power, authority and capacity to own or lease its property and assets and to carry on its business as described in the Public Disclosure Documents and to execute, deliver and to perform its obligations under each of the Material Agreements to which it is a party;
- (iii) the Manager:
- (a) is a limited liability company duly formed and validly existing under the laws of its jurisdiction of incorporation, and is up to date with respect to all of its company filings under those laws; and
  - (b) has all necessary power, authority and capacity to own or lease its property and assets and to carry on its business as described in the Public Disclosure Documents;
- (iv) each Guarantor:
- (a) is a limited liability company or limited partnership incorporated or formed and organized and validly subsisting under the laws of its jurisdiction of incorporation or formation, and is up to date with respect to all of its filings under those laws; and
  - (b) has all necessary power, authority and capacity to execute, deliver and to perform its obligations under each of the Material Agreements to which it is named a party;
- (v) the Corporation is authorized to issue an unlimited number of Common Shares, and pursuant to the Subordinated Note Indenture is authorized to issue an unlimited principal amount of Subordinated Notes, of which, as at the Closing Time, such numbers of IPSs and Common Shares as noted in the Preliminary Prospectus and the Final Prospectus will be validly issued and outstanding as fully paid and non-assessable securities of the Corporation and such aggregate principal amount of Subordinated Notes as noted in the Preliminary Prospectus and Final Prospectus will be outstanding;
- (vi) the Corporation pursuant to the Indenture is authorized to issue an unlimited principal amount of Debentures, of which, as at the Closing Time, such aggregate principal amount of Debentures as noted in the Preliminary Prospectus and the Final Prospectus will be outstanding, and upon conversion of the Debentures, the Common Shares and Subordinated Notes represented by the IPSs issuable upon conversion of the Debentures will be validly issued and outstanding as fully paid and non-assessable Common Shares and fully paid Subordinated Notes;
- (vii) Atlantic Holdings is authorized to issue an unlimited number of common membership interests, Class A preferred membership interests, Class B preferred membership interests and senior membership interests, and as to the issued membership interests of Atlantic Holdings as at the Closing Time;

- (viii) to its knowledge, as of the Closing Time, no securities exchangeable or convertible into IPSs, Common Shares or Subordinated Notes will be issued and outstanding, other than the Debentures;
- (ix) all necessary action has been taken by the Corporation to validly create, issue, sell and deliver the Offered Securities to the Underwriters, and to reserve for issuance the IPSs issuable upon conversion of the Debentures;
- (x) all necessary action has been taken to authorize the execution and delivery by the Corporation of this Agreement and the other Material Agreements to which it is a party and the performance of its obligations under those agreements, and this Agreement and the other Material Agreements to which the Corporation is a party have been duly executed and delivered by the Corporation, and constitute legal, valid and binding obligations of the Corporation enforceable against it in accordance with their terms, provided that enforcement may be limited by bankruptcy, insolvency and other similar laws of general application affecting the enforcement of creditors' rights generally, specific performance, injunctive relief and other equitable remedies may be granted only in the discretion of a court of competent jurisdiction and that rights of indemnity and/or contribution set out in this Agreement may be limited by applicable law;
- (xi) all necessary action has been taken to authorize the execution and delivery by Atlantic Holdings of this Agreement and the Material Agreements to which it is a party and the performance of its obligations under those agreements, and this Agreement and the other Material Agreements to which Atlantic Holdings is a party have been duly executed and delivered by Atlantic Holdings and constitute legal, valid and binding obligations of Atlantic Holdings, enforceable against it in accordance with their terms, provided that enforcement may be limited by bankruptcy, insolvency and other similar laws of general application affecting the enforcement of creditors' rights generally, specific performance, injunctive relief and other equitable remedies may be granted only in the discretion of a court of competent jurisdiction and that rights of indemnity and/or contribution set out in this Agreement may be limited by applicable law;
- (xii) all necessary action has been taken to authorize the execution and delivery by each of the Guarantors of the Guarantee and Pledge Documents to which each is a party and the performance by each of them of their respective obligations under those agreements, and such Guarantee and Pledge Documents have been duly executed and delivered by the Guarantors and constitute legal, valid and binding obligations of the Guarantors, enforceable against each of them in accordance with their terms, provided that enforcement may be limited by bankruptcy, insolvency and other similar laws of general application affecting the enforcement of creditors' rights generally, specific performance, injunctive relief and other equitable remedies may be granted only in the discretion of a court of competent jurisdiction;
- (xiii) no consent, approval, authorization or order of, and no filing, registration or recording with, any Governmental Entity is required in connection with the execution and delivery by the Corporation and Atlantic Holdings of this Agreement and each of the other Material Agreements to which it is a party, or the performance by the Corporation and Atlantic Holdings of their obligations hereunder and thereunder and the consummation by the Corporation and Atlantic Holdings of the transactions contemplated herein and therein, including the issuance, sale and delivery of the Offered Securities and the issuance and delivery of IPSs upon conversion of the

- Debentures, except for consents, approvals, authorizations or orders, or filings, registrations or recordings with any Governmental Entity that have been obtained;
- (xiv) no consent, approval, authorization or order of, and no filing, registration or recording with, any Governmental Entity is required in connection with the execution and delivery by the Guarantors of the Guarantee and Pledge Documents to which each is a party, or the performance by the Guarantors of their obligations thereunder, except for consents, approvals, authorizations or orders, or filings, registrations or recordings with any Governmental Entity that have been obtained;
  - (xv) the execution and the delivery of this Agreement and each of the other Material Agreements to which the Corporation and/or Atlantic Holdings is a party, and the consummation of the transactions contemplated hereby and thereby, will not:
    - (a) conflict with or result in or will result in a breach of or default under any of the terms, conditions or provisions of the constituting or organizational documents of the Corporation or Atlantic Holdings or the resolutions of their respective Directors or Equity Holders or any committee thereof, as the case may be;
    - (b) conflict with or result in a breach of or default under, or give rise to the acceleration of or the maturity of any debt under, any of the Material Agreements or, to the knowledge of such counsel, any other material agreement or instrument to which the Corporation or Atlantic Holdings is a party; or
    - (c) conflict with or result in a breach of or default under any applicable law, or any judgment, order or decree of any Governmental Entity having jurisdiction over the Corporation or Atlantic Holdings or any of their respective assets or properties;
  - (xvi) the execution and the delivery by the Guarantors of the Guarantee and Pledge Documents to which they are a party, and the performance by the Guarantors of their respective obligations thereunder, will not:
    - (a) conflict with or result in or will result in a breach of or default under any of the terms, conditions or provisions of the constituting or organizational documents of the Guarantors or the resolutions of their respective Directors or Equity Holders or any committee thereof, as the case may be;
    - (b) conflict with or result in a breach of or default under, or give rise to the acceleration of or the maturity of any debt under, any of the Material Agreements or, to the knowledge of such counsel, any other material agreement or instrument to which the Guarantor is a party; or
    - (c) conflict with or result in a breach of or default under any applicable law, or any judgment, order or decree of any Governmental Entity having jurisdiction over the Guarantor or any of its respective assets or properties;
  - (xvii) as to the registration, filing or perfection of pledges and security under the Guarantee and Pledge Documents relating to the Debentures and Subordinated Notes;

- (xviii) each of the Preliminary Prospectus and the Final Prospectus, in both the French and English languages, and the execution and filing of each of the Preliminary Prospectus and the Final Prospectus, in both the French and English languages, with the Securities Commissions have been duly approved and authorized by all necessary action by the Corporation and the Guarantors, and each of the Preliminary Prospectus and the Final Prospectus, in both the French and English languages, have been duly executed by and on behalf of the Corporation and the Guarantors;
- (xix) the distribution of the Offered Securities complies, in all material respects, with all laws in the Province of Quebec relating to the use of the French language in connection therewith;
- (xx) the Corporation is a reporting issuer or the equivalent thereof in each Qualifying Jurisdiction where such concept exists and is not in default under the Securities Laws of any Qualifying Jurisdiction;
- (xxi) all necessary documents have been filed, all requisite proceedings have been taken and all other legal requirements have been fulfilled under the laws of each of the Qualifying Jurisdictions in order to qualify the issuance, distribution and sale of the Offered Securities to the public in each of the Qualifying Jurisdictions through investment dealers or brokers who are registered under applicable legislation of the Qualifying Jurisdictions and who have complied with the relevant provisions of such applicable legislation;
- (xxii) the form and terms of the certificates for the Common Shares have been approved and adopted by the directors of the Corporation and comply with the requirements of the *Business Corporations Act* (British Columbia) and the TSX;
- (xxiii) the form and terms of the certificates for the Subordinated Notes have been approved and adopted by the directors of the Corporation and comply with the requirements of the Subordinated Note Indenture;
- (xxiv) the form and terms of the certificates for the IPSs have been approved and adopted by the directors of the Corporation and comply with the requirements of the TSX, if applicable;
- (xxv) the form and terms of the certificates for the Debentures have been approved and adopted by the Directors of the Corporation and comply with the requirements of the Indenture, the *Business Corporations Act* (British Columbia) and the TSX;
- (xxvi) as to compliance by the Corporation with the trust indenture requirements of the *Business Corporations Act* (British Columbia);
- (xxvii) the TSX has conditionally approved the listing and posting for trading of the Offered Securities and the listing of the Common Shares forming part of the Offered Securities and the listing of the IPSs issuable upon conversion of the Debentures and the Common Shares forming part of such IPSs, subject to fulfilling the Standard Listing Conditions;
- (xxviii) the attributes of the IPSs, Common Shares, the Subordinated Notes, the Debentures and the membership interests of Atlantic Holdings conform in all material respects with the descriptions thereof in the Preliminary Prospectus and the Final Prospectus;

- (xxix) the Offered Securities will be qualified investments under the Tax Act for trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans (except that the Subordinated Notes will not be qualified investments for trusts governed by a deferred profit sharing plan to which contribution payments are made by the Corporation or a Person with whom the Corporation does not deal at arm's length within the meaning of the Tax Act) and registered education savings plans (collectively, the "plans");
- (xxx) subject to the qualifications, assumptions, limitations and understandings set out therein, the statements as to matters of the laws of Canada set out in the Preliminary Prospectus and the Final Prospectus under the heading "Certain Canadian Federal Income Tax Considerations" fairly describe the principal Canadian federal income tax considerations as at the date hereof generally applicable under the Tax Act to a holder of IPSs who acquires Common Shares and Subordinated Notes as represented by IPSs pursuant to the Offering and to a holder of Debentures and, in each case, who, for purposes of the Tax Act and at all relevant times, is resident or is deemed to be resident in Canada, holds the Common Shares and Subordinated Notes represented by IPSs and the Debentures as capital property and deals at arm's length and is not affiliated with the Corporation, as well as certain material Canadian federal income tax considerations generally applicable to the Corporation, all as of the date of such opinion;
- (xxxi) the Transfer Agent, at its principal offices in Toronto, has been duly appointed as the transfer agent and registrar for the IPSs, the Common Shares and the Debentures;
- (xxxii) the Debenture Trustee, at its principal office in Toronto, has been duly appointed as trustee in respect of the Debentures;
- (xxxiii) the Subordinated Note Trustee, at its principal office in Toronto, has been duly appointed as trustee in respect of the Subordinated Notes;
- (xxxiv) the issuance of the Common Shares and Subordinated Notes represented by IPSs issuable upon the conversion of the Debentures in accordance with the terms and conditions of the Debentures to the holders of such securities will be exempt from the prospectus and registration requirements of Securities Laws and no filing, proceeding, approval, consent, or authorization will be required to be made, taken or obtained pursuant to the Securities Laws in connection with such distribution;
- (xxxv) the first trade of the Common Shares and Subordinated Notes represented by IPSs issuable upon the conversion of the Debentures by holders of such securities in the Qualifying Jurisdictions will not be subject to the prospectus requirements of Securities Laws and no filing, proceeding, approval, consent, or authorization will be required to be made, taken or obtained under Securities Laws to permit such trade or distribution, through a person registered under an appropriate category under Securities Laws or pursuant to an exemption from the registration requirements under Securities Laws, provided that:
  - (a) such trade does not constitute a "control distribution", as that term is defined in National Instrument 45-102; and
  - (b) the Corporation is a "reporting issuer" in the Qualifying Jurisdiction at the time of the trade;

- (b) the Underwriters shall have received a legal opinion or opinions dated as of the Closing Date addressed to the Underwriters from Goodwin Procter LLP, or other U.S. counsel acceptable to the Underwriters, acting reasonably, in form and content to the reasonable satisfaction of the Underwriters with respect to all such matters as the Underwriters may reasonably request, including:
  - (i) that subject to the qualifications, assumptions, limitations and understandings set out in such opinion, the statements as to matters of the laws of the United States set out in the Preliminary Prospectus and the Final Prospectus under the heading "Certain U.S. Federal Income Tax Considerations" fairly summarize the material U.S. federal income tax considerations generally applicable to a Non-U.S. Holder (as defined in the Preliminary Prospectus and the Final Prospectus) with respect to the purchase, ownership and disposition of IPSs, Subordinated Notes, Common Shares or Debentures, and the conversion of Debentures, as well as certain material U.S. federal income tax considerations generally applicable to the Corporation, all as of the date of such opinion.
- (c) the Underwriters shall have received a legal opinion, dated as of the Closing Date and addressed to the Underwriters, from Blake, Cassels & Graydon LLP, Canadian counsel to the Underwriters, in form and content to the reasonable satisfaction of the Underwriters with respect to such matters as the Underwriters may reasonably request;
- (d) the Underwriters will have received certificates dated the Closing Date, signed by those senior officers of the Manager on behalf of the Corporation and Atlantic Holdings as may be acceptable to the Underwriters, acting reasonably, in form and content satisfactory to the Underwriters, acting reasonably, with respect to all such matters as the Underwriters may reasonably request, including the following:
  - (i) the constating documents of each such entity;
  - (ii) the resolutions of the Directors of the Corporation and of the Directors of Atlantic Holdings and the Guarantors relevant to the approval of the Preliminary Prospectus and Final Prospectus and the signing and filing thereof, the allotment, issue and sale of the Offered Securities and the authorization of this Agreement and the other agreements and transactions contemplated by this Agreement and each of the Material Agreements; and
  - (iii) the incumbency and signatures of signing officers of the Corporation, Atlantic Holdings, the Manager and the Guarantors, as the case may be;
- (e) the Underwriters shall have received at the Closing Time, (A) a certificate dated the Closing Date addressed to the Underwriters and signed by two senior officers of the Manager on behalf of the Corporation, certifying for and on behalf of the Corporation, and (B) a certificate dated the Closing Date, addressed to the Underwriters and signed by two senior officers of the Manager on behalf of Atlantic Holdings certifying for and on behalf of Atlantic Holdings, in each case, after having made due inquiry, to those matters as the Underwriters may reasonably request, including to the effect that:
  - (i) subsequent to the respective dates as at which information is given in the Final Prospectus or any Supplemental Material there has been no material change (actual, anticipated, contemplated or threatened, whether financial or otherwise) to the business, operations, assets, liabilities, capital, cash flow or condition (financial or otherwise) of the Corporation or any Project Holding Group Entity or Operated POE

- or, to the knowledge of the Corporation and Atlantic Holdings, any Minority Holding Entity or Non-Operated POE, and none of the Corporation, any Project Holding Group Entity or Operated POE or, to the knowledge of the Corporation and Atlantic Holdings, any Minority Holding Entity or Non-Operated POE, has entered into any transaction out of the ordinary course of business which is material to the Corporation other than as disclosed in the Preliminary Prospectus, the Final Prospectus or any Supplemental Material;
- (ii) there are no actions, suits, proceedings or inquiries pending or to the knowledge of the Corporation or Atlantic Holdings, threatened against or affecting the Corporation, any Project Holding Group Entity or Operated POE or, to the knowledge of the Corporation and Atlantic Holdings, any Minority Holding Entity or Non-Operated POE at law or in equity or before or by any federal, provincial, state, municipal, county or other governmental department, commission, board, bureau, agency or instrumentality, domestic or foreign, which may in any way materially adversely affect the Corporation or Atlantic Holdings or any of the transactions contemplated by this Agreement and the other Material Agreements;
  - (iii) no order, ruling or determination having the effect of ceasing or suspending trading in the Offered Securities or any other securities of the Corporation or prohibiting the sale of the Offered Securities has been issued, no proceedings for such purpose have been instituted and, to the best of its knowledge, information and belief, no proceedings for such purpose are pending or threatened;
  - (iv) each of the Corporation and Atlantic Holdings has complied with all covenants and satisfied all terms and conditions of this Agreement on its part to be complied with or satisfied up to the Closing Time; and
  - (v) the representations and warranties of the Corporation and Atlantic Holdings contained in this Agreement are true and correct as of the Closing Time with the same force and effect as if made at and as of the Closing Time (except in respect of any representations and warranties that are made as of a specified date, in which case they will be true and correct only as at that date) after giving effect to the transactions contemplated by this Agreement.
- (f) the Underwriters shall have received at the Closing Time a comfort letter dated as of the Closing Date addressed to the Underwriters from KPMG substantially in the form requested by the Underwriters, acting reasonably, updating the comfort letter or letters to be delivered to the Underwriters pursuant to Article 7, provided that such letter may be based on a review by KPMG having a cut-off date not more than two business days prior to the Closing Date;
  - (g) the Underwriters shall have received at the Closing Time one or more comfort letters dated as of the Closing Date addressed to the Underwriters from PwC substantially in the form requested by the Underwriters, acting reasonably, updating the comfort letter or letters to be delivered to the Underwriters pursuant to Article 7, provided that such letter may be based on a review by PwC having a cut-off date not more than two business days prior to the Closing Date;
  - (h) the Guarantee and Pledge Documents, the amendments to the Acquisition Credit Facility and the Credit Facility, and related guarantee, pledge, security and inter-creditor documentation required to provide for the guarantees, pledges, security and ranking of the Debentures, all as contemplated in the Final Prospectus, shall have been duly executed and delivered in form and substance satisfactory to the Underwriters;

- (i) each of the Material Agreements shall have been duly executed and delivered and the form and terms of each of the Material Agreements shall be satisfactory to the Underwriters acting reasonably, and consistent with the Preliminary Prospectus and the Final Prospectus and none of such Material Agreements shall have been amended, supplemented or modified in any way and no condition or provision in any such Material Agreement shall have been waived by any party without the prior written consent of the Underwriters, acting reasonably, and each of the parties thereto shall have performed such of their obligations thereunder which are to be performed or completed at or prior to the Closing Time to the satisfaction of the Underwriters, acting reasonably;
- (j) all actions required to be taken by or on behalf of the Corporation, Atlantic Holdings and the Guarantors including the passing of all requisite resolutions of the Directors of the Corporation, Atlantic Holdings and the Guarantors and all requisite filings with governmental authorities, Securities Commissions or courts will have occurred at or prior to the Closing Time, so as to validly authorize the execution and filing of the Preliminary Prospectus, the Final Prospectus and any Supplemental Material and to create and issue the Offered IPSs, the Debentures and the IPSs issuable upon conversion of the Debentures, in each case having the attributes contemplated by the Preliminary Prospectus and the Final Prospectus;
- (k) the representations and warranties of the Corporation and Atlantic Holdings contained herein shall be true and correct as of the Closing Time, with the same force and effect as if made at and as of the Closing Time (except in respect of representations and warranties that are made as of a specified date, in which case they will be true and correct only as at that date), after giving effect to the transactions contemplated hereby;
- (l) each of the Corporation and Atlantic Holdings shall have complied with all covenants contained herein and satisfied all terms and conditions contained herein to be complied with and satisfied by it at or prior to the Closing Time;
- (m) the Offered Securities and the Common Shares forming part of the Offered Securities will have been approved for listing and posting for trading on the TSX and the IPSs issuable upon conversion of the Debentures and the Common Shares forming part of such IPSs will have been approved for listing on the TSX, subject only to the Standard Listing Conditions; and
- (n) the Underwriters will have received such other certificates, opinions, agreements, materials or documents, in form and substance satisfactory to the Underwriters, as the Underwriters may reasonably request.

14.2 In giving the opinions contemplated in Section 14.1, counsel may rely:

- (a) as to matters of fact, to the extent appropriate in the circumstances, on certificates of the Corporation and/or Atlantic Holdings, and the Manager on their behalf, and the Guarantors executed on their respective behalf by a senior officer, and on certificates or opinions of other Persons, in each case acceptable to the Underwriters, acting reasonably;
- (b) on the opinions of local counsel acceptable to the Underwriters' counsel, acting reasonably, as to the qualification of the Offered Securities for sale to the public and as to other relevant matters in the Qualifying Jurisdictions and all other relevant jurisdictions; and
- (c) in the case of counsel to the Underwriters and to the extent necessary, on the opinion of the Corporation's counsel or local counsel.

15. **Termination by Underwriters in Certain Events**

- 15.1 Each Underwriter will be entitled to terminate its obligation to purchase the Offered Securities by written notice to that effect given to the Corporation at or prior to the Closing Time if:
- (a) any inquiry, action, suit, investigation or other proceeding (whether formal or informal) is commenced, announced or threatened or any order is issued under or pursuant to any relevant statute or by any federal provincial, state, municipal or other governmental department, commission, board, bureau, agency or instrumentality or any third party, including, without limitation, the TSX or any securities regulatory authority (other than any such inquiry, action, suit, investigation or other proceeding or order relating solely to any of the Underwriters) or there is any change of law (including without limitation the Tax Act or U.S. Tax Code or any other tax laws), or interpretation or administration thereof, which, in the reasonable opinion of that Underwriter, acting in good faith, (i) operates to prevent or restrict the trading in, or adversely impacts the distribution or the marketability of the IPSs or the Debentures, or materially and adversely affects or will materially and adversely affect the market price or value of the IPSs or the Debentures, or (ii) operates to prevent, suspend, hinder, delay, restrict or otherwise materially adversely affect the transactions contemplated by the Preliminary Prospectus, Final Prospectus or the Material Agreements or any of them;
  - (b) there occurs any material change (actual, imminent or reasonably expected) in the business, affairs, operations, assets, liabilities (contingent or otherwise), capital or ownership of the Corporation, Atlantic Holdings or any of the Project Holding Group Entities or Project Operating Entities, however caused, or there should be discovered any previously undisclosed material fact (other than a material fact related solely to any of the Underwriters) or there should occur a change (other than a change related solely to any of the Underwriters) in a material fact contained in the Preliminary Prospectus or the Final Prospectus, in each case which, in the opinion of that Underwriter, could reasonably be expected to result in the purchasers of a material number of the Offered Securities exercising their right under Securities Laws to withdraw from or rescind their purchase thereof or sue for damages in respect thereof or which has or could reasonably be expected to have a significant adverse effect on the market price or value of the IPSs or the Debentures;
  - (c) there should develop, occur or come into effect or existence any event, action, state, condition or major financial occurrence of national or international consequence, including any act of terrorism, war or like event, or any governmental action, law, regulation, inquiry or other occurrence of any nature which, in the reasonable opinion of such Underwriter, materially adversely affects or may materially affect the financial markets in Canada or the United States or the business, operations or affairs of the Corporation, Atlantic Holdings, any of the Project Holding Group Entities and/or any of the Project Operating Entities.
- 15.2 All terms and conditions in this Agreement shall be construed as conditions, and any breach of or failure to comply with any such terms or conditions which in the reasonable opinion of any of the Underwriters adversely affects the sale or distribution by it of the Offered IPSs or the Debentures shall entitle each Underwriter at any time prior to the Closing Time to terminate its obligations under this Agreement forthwith by written notice to that effect given to the Corporation. It is understood that the Underwriters or any of them may waive, in whole or in part, or extend the time for compliance with, any of such terms and conditions without prejudice to the rights of the Underwriters or any of them in respect of any such terms and conditions or any other or subsequent breach or non-compliance, provided that to be binding on the Underwriters any such waiver or extension must be in writing.

15.3 In the event of any termination of the Underwriters' obligations under this Agreement by one of the Underwriters, the other Underwriters shall be deemed contemporaneously to have terminated their obligations under this Agreement unless the other Underwriters or any of them shall, within 24 hours after notice of termination is given, notify the Corporation that they are assuming the obligations of the Underwriter terminating its obligations. Any termination by any of the Underwriters pursuant to the provisions of this Agreement shall be effected by notice delivered to the Corporation. The rights of termination contained in this Article 15 are in addition to any other rights or remedies the Underwriters may have in respect of any default, misrepresentation, act or failure to act of the Corporation or Atlantic Holdings in respect of any matters contemplated by this Agreement. In the event of any such termination, there shall be no further liability on the part of the Corporation or Atlantic Holdings or the Underwriters except for any liability provided for in Article 16 and Section 17.2.

16. **Indemnification**

16.1 Subject to the terms of this Article 16, the Corporation and Atlantic Holdings will, jointly and severally, protect, hold harmless and indemnify each of the Underwriters and their respective affiliates and their respective directors, officers, employees, shareholders and agents (collectively, the "**Indemnified Parties**" and individually an "**Indemnified Party**") from and against all losses (other than losses of profit in connection with the distribution of the Offered Securities), claims, actions, damages, liabilities, costs and expenses, including, without limitation, all amounts paid to settle actions, suits, proceedings, investigations or claims or satisfy judgments or awards and all reasonable costs, charges and expenses, as incurred, which any of them may pay or incur with respect to and/or defending any action, suit, proceeding, investigation or claim that may be made or threatened against any Indemnified Party or in enforcing this indemnity (collectively, a "**Claim**"), including the fees and expenses of legal counsel on a solicitor and own client basis, to which any Indemnified Party may become subject or otherwise involved, in any capacity insofar as Claims relate to, are caused by, result from, arise out of or are based upon, directly or indirectly, the transactions contemplated in this Agreement including, without limitation:

- (a) any breach of or default under any representation, warranty, covenant or agreement of the Corporation or Atlantic Holdings in this Agreement or any other document to be delivered pursuant hereto or the failure of the Corporation or Atlantic Holdings to comply with any of its obligations hereunder;
- (b) any Offering Document, or any information or statement (except any information or statement relating solely to the Underwriters, or any of them, provided by the Underwriters) contained in any of the Offering Documents being or being alleged to contain or be a misrepresentation or untrue or any omission or alleged omission to state in those documents any material fact (except facts relating solely to the Underwriters or any of them, provided by the Underwriters) required to be stated in those documents or necessary to make any of the statements therein not misleading in light of the circumstances in which they were made;
- (c) any order made or any inquiry, investigation or proceeding instituted, threatened or announced by any court, securities regulatory authority or stock exchange or by any other competent authority, based upon any untrue statement, omission or misrepresentation or alleged untrue statement, omission or misrepresentation (except a statement, omission or misrepresentation relating to the Underwriters, or any of them, provided by the Underwriters) contained in any of the Offering Documents; or

- (d) the Corporation or Atlantic Holdings not complying with any requirement of any applicable securities laws relating to the Offering or the transactions contemplated hereby.

16.2 This indemnity will be in addition to any liability which the Corporation or Atlantic Holdings may otherwise have.

16.3 If any Claim contemplated by this Article 16 is asserted against any of the Indemnified Parties, or if any potential Claim contemplated by this Article 16 comes to the knowledge of any of the Indemnified Parties, the Indemnified Party concerned will notify in writing the Corporation or Atlantic Holdings, as applicable, as soon as reasonably practicable, of the nature of the Claim (provided that any failure to so notify in respect of any potential Claim will not affect the liability of the indemnifying parties under this Article 16 (the "**Indemnifying Parties**") except to the extent that any failure to so notify in respect of any actual Claim materially increases the liability of the Indemnifying Parties under this Article 16).

16.4 The Indemnifying Parties will, subject to the following, be entitled (but not required) to assume the defence on behalf of the Indemnified Party of any suit brought to enforce a Claim; provided that the defence will be through legal counsel selected by the Indemnifying Party and acceptable to the Indemnified Party, acting reasonably, and no admission of liability will be made by the Indemnifying Party or the Indemnified Party without, in each case, the prior written consent of all the Indemnified Parties affected and the Indemnifying Party, in each case, which consent will not be unreasonably withheld. An Indemnified Party will have the right to employ separate counsel in any such suit and participate in the defence thereof but the fees and expenses of that counsel will be at the expense of the Indemnified Party unless:

- (a) the Indemnifying Parties fail to assume the defence of the suit on behalf of the Indemnified Party within ten days of receiving notice of the suit;
- (b) the employment of that counsel has been authorized by an Indemnifying Party; or
- (c) the named parties to the suit (including any added or third parties) include the Indemnified Party and one or more Indemnifying Parties, and the Indemnified Party has been advised in writing by counsel that there are legal defences available to the Indemnified Parties that are different or in addition to those available to the Indemnifying Parties or that representation of the Indemnified Party by counsel for the Indemnifying Parties is inappropriate as a result of the potential or actual conflicting interests of those represented;

(in each of the cases set out in Sections 16.4(a), (b) or (c) the Indemnifying Party will not have the right to assume the defence of the suit on behalf of the Indemnified Party, but the Indemnifying Parties will be liable to pay the reasonable fees and expenses of separate counsel for all Indemnified Parties and, in addition, of local counsel in each applicable jurisdiction on a solicitor and own client basis). Notwithstanding the foregoing, no settlement may be made by an Indemnified Party without the prior written consent of the Indemnifying Parties, which consent will not be unreasonably withheld.

16.5 The rights of indemnity contained in this Article 16 will not inure to the benefit of the Underwriters if the Corporation has complied with the provisions of Articles 4, 5 and 12 and the Person asserting any Claim contemplated by this Article 16 was not provided with a copy of any Final Prospectus or Supplemental Material which corrects any untrue statement or information, misrepresentation (for the purposes of Securities Laws or any of them) or omission which is the basis of the Claim and which is required under Securities Laws to be

delivered to that Person by the Underwriters or members of their banking or selling group (if any).

- 16.6 The Indemnifying Parties hereby acknowledge and agree that, with respect to this Article 16, the Underwriters are contracting on their own behalf and as agents for their affiliates, directors, officers, employees and agents and their respective affiliates, directors, officers, employees and agents (collectively, the “Beneficiaries”). In this regard, each of the Underwriters will act as trustee for the Beneficiaries of the covenants of the Indemnifying Parties under this Article 16 with respect to the Beneficiaries and accepts these trusts and will hold and enforce those covenants on behalf of the Beneficiaries.
- 16.7 Neither the Corporation nor Atlantic Holdings nor any Underwriter will, without each of the other’s prior written consent, settle, compromise, consent to the entry of any judgement in or otherwise seek to terminate any action, suit, proceeding, investigation or claim in respect of which indemnification may be sought hereunder (whether or not any Indemnified Party is a party thereto) unless such settlement, compromise, consent or termination includes a release of each Indemnified Party from any liabilities arising out of such action, suit, proceeding, investigation or claim.
- 16.8 In order to provide for just and equitable contribution in circumstances in which an indemnity provided in this Article 16 in respect of a Claim would otherwise be available in accordance with its terms but is, for any reason not solely attributable to any one or more of the Indemnified Parties, held to be unavailable to or unenforceable by the Indemnified Parties or enforceable otherwise than in accordance with its terms, or is insufficient to hold any Indemnified Party harmless, an Indemnifying Party will contribute to the amount paid or payable by the Indemnified Parties as a result of such Claim in such proportion as is appropriate to reflect not only the relative benefits received by the Indemnifying Party, on the one hand, and the Indemnified Party, on the other hand, but also the relative fault of the Indemnifying Party and the Indemnified Party as well as any relevant equitable considerations; provided that in no event will an Indemnified Party be liable to pay or contribute an amount in excess of the aggregate amount of the fees actually received by the Indemnified Party under this Agreement.
- 16.9 In the event and to the extent that a court of competent jurisdiction, in a final judgement from which no appeal can be made, shall determine that a Claim resulted from the fraud, fraudulent misrepresentation, gross negligence or wilful misconduct of the Indemnified Party, such Indemnified Party shall not be entitled to claim indemnification under this Article 16 or contribution under Section 16.8 for such Claim from any Person that has not engaged in such fraud, fraudulent misrepresentation, gross negligence or wilful misconduct.
- 16.10 For greater certainty, the Indemnifying Parties will not have any obligation to contribute pursuant to Section 16.8 in respect of any Claim except to the extent the indemnity given by it in this Article 16 would have been applicable to that Claim in accordance with its terms, had that indemnity been found to be enforceable and available to the Indemnified Parties.
- 16.11 The rights to contribution provided in this article will be in addition to and not in derogation of any other right to contribution which the Indemnified Parties may have by statute or otherwise at law provided that Sections 16.8 and 16.10 will apply, *mutatis mutandis*, in respect of that other right.
- 16.12 If any Claim is brought in connection with the transactions contemplated by this Agreement and any of the Underwriters is required to testify in connection therewith or is required to respond to procedures designed to discover information relating thereto, it will have the right,

acting reasonably, to employ its own counsel in connection therewith, and the fees and disbursements of such counsel in connection therewith as well as its reasonable fees at the normal per diem rate for its directors, officers, employees and agents involved in preparation for and attendance at such proceedings or in so responding and any other reasonable costs and out-of-pocket expenses incurred by it in connection therewith will be paid by the Corporation as they are incurred.

- 16.13 The obligations under this Article 16 shall apply whether or not the transactions contemplated by this Agreement are completed and shall survive the completion of the transactions contemplated under this Agreement and the termination of this Agreement.

17. **Fees and Expenses**

- 17.1 In consideration of the agreement of the Underwriters to purchase the Offered Securities and to offer them to the public, and to provide the services rendered and to be rendered by the Underwriters in connection with the foregoing, the Corporation agrees to pay to the Underwriters at the Closing Time, an aggregate fee of Cdn\$6,900,102.50, being a fee equal to an aggregate of (i) 5% of the aggregate purchase price for the Offered IPSs (or Cdn\$0.5275 per Offered IPS), and (ii) 4% of the aggregate principal amount of the Debentures (or Cdn\$40 per \$1,000 principal amount of Debentures).

- 17.2 Whether or not the purchase and sale of the Offered IPSs or the Debentures is completed, all expenses of or incidental to the creation, issuance and delivery of the Offered Securities and of or incidental to all matters in connection with the transactions set out in this Agreement will be borne by the Corporation, including Canadian federal goods and services tax and provincial sales tax exigible in respect of any of the foregoing. Notwithstanding the preceding sentence, the fees and disbursements of legal counsel for the Underwriters and the Underwriters' out-of-pocket expenses will be borne by the Underwriters except that all such fees, disbursements and expenses will be borne by the Corporation if the sale of the Offered IPSs and the Debentures is not completed due to any failure of the Corporation to comply with any of the terms of this Agreement.

18. **Closing**

- 18.1 The closing of the purchase and sale of the Offered Securities will be completed at the Closing Time at the offices of Goodmans LLP, 250 Yonge Street, Suite 2400, Toronto, Ontario, M5B 2M6, or at any other place determined in writing by the Corporation and the Underwriters. At the Closing Time, the Corporation will duly and validly deliver to BMONB, on behalf of the Underwriters:

- (a) one or more global certificates representing the Offered IPSs registered in the name of "CDS & Co." and the Component Securities in the name of Computershare Investor Services Inc., in trust for The Canadian Depository for Securities Limited or in such other name or names as the Underwriters may notify the Corporation in writing not less than 48 hours prior to the Closing Time;
- (b) one or more global certificates representing the Debentures registered in the name of "CDS & Co." or in such other name or names as the Underwriters may notify the Corporation in writing not less than 48 hours prior to the Closing Time; and
- (c) all further documentation as may be contemplated in this Agreement or as counsel to the Underwriters may reasonably require;

against payment by the Underwriters to or to the direction of the Corporation, by wire transfer or bank transfer in immediately available funds, of the purchase price for the Offered Securities being issued and sold by the Underwriters under this Agreement less the underwriting fee respecting the Offered Securities as described in Section 17.1.

19. **Restrictions on Further Issues or Sales**

- 19.1 During the period commencing the date of this Agreement and ending on the day which is 90 days following the Closing Date, the Corporation will not, directly or indirectly, without the prior written consent of BMONB (which consent will not be unreasonably withheld), issue, offer, sell, contract to sell, grant any option to purchase, transfer, assign or otherwise dispose of any IPSs, Common Shares or Subordinated Notes or any other securities of the Corporation (including financial instruments convertible or exercisable into IPSs, Common Shares or Subordinated Notes) or announce any intention to effect the foregoing, other than pursuant to a private sale for purposes of satisfying an exercise by the Existing Investors of their liquidity rights with respect to the Existing Investor Interests.

20. **Obligations of the Underwriters to Purchase the Offered Securities**

- 20.1 Subject to the terms and conditions of this Agreement, the obligation of the Underwriters to purchase the Offered Securities will be several and not joint. The percentage of the Offered Securities to be severally purchased and paid for by each of the Underwriters will be as follows:

BMO Nesbitt Burns Inc.	30%
National Bank Financial Inc.	15%
RBC Dominion Securities Inc.	15%
Scotia Capital Inc.	15%
CIBC World Markets Inc.	12.5%
TD Securities Inc.	10%
Dundee Securities Corporation	2.5%

If an Underwriter (a “**Refusing Underwriter**”) does not complete the purchase and sale of the Offered Securities, which that Underwriter has agreed to purchase under this Agreement (other than in accordance with Article 15) (the “**Defaulted Securities**”), BMONB may delay the Closing Date for not more than five days and the remaining Underwriters (the “**Continuing Underwriters**”) will be entitled, at their option, to purchase all but not less than all of the Defaulted Securities pro rata according to the number of Offered Securities to have been acquired by the Continuing Underwriters under this Agreement or in any proportion agreed upon, in writing, by the Continuing Underwriters. If no such arrangement has been made, and the number of Defaulted Securities to be purchased by the Refusing Underwriter(s) does not exceed 10% of the Offered Securities the Continuing Underwriters will be obligated to purchase the Defaulted Securities on the terms set out in this Agreement in proportion to their obligations under this Agreement or in any other proportion agreed upon by the Continuing Underwriters. If the number of Defaulted Securities to be purchased by the Refusing Underwriters exceeds 10% of the Offered Securities, the Continuing Underwriters will not be obliged to purchase the Defaulted Securities and, if the Continuing Underwriters do not elect to purchase the Defaulted Securities:

- (a) the Continuing Underwriters will not be obliged to purchase any of the Offered Securities;
- (b) the Corporation will not be obliged to sell less than all of the Offered Securities; and

- (c) the parties to this Agreement other than the Underwriters will be entitled to terminate their obligations under this Agreement arising from their acceptance of this offer, in which event there will be no further liability on the part of the parties to this Agreement other than the Underwriters, or the Continuing Underwriters, except pursuant to the provisions of Articles 16 and 17.

21. **Stabilization**

- 21.1 In connection with the distribution of the Offered Securities, the Underwriters and any Selling Firm may effect transactions which stabilize or maintain the market price of the IPSs, Common Shares, Subordinated Notes or Debentures at levels above those which might otherwise prevail in the open market in compliance with Securities Laws. Such transactions, if any, may be discontinued at any time.

22. **Notice**

Any notice or other communication required or permitted to be given under this Agreement will be in writing and will be delivered to:

- (a) in the case of the Corporation or Atlantic Holdings:

Corporation

The parties may change their respective addresses for notices by notice given in the manner set out above. Any notice or other communication will be in writing, and unless delivered personally to the addressee or to a responsible officer of the addressee, as applicable, will be given by telecopy and will be deemed to have been given when (i) in the case of a notice delivered personally to a responsible officer of the addressee, when so delivered; and (ii) in the case of a notice delivered or given by telecopy, on the first business day following the day on which it is sent.

23. **Representative of Underwriters**

Except with respect to Articles 15 and 16 and the entitlement of Continuing Underwriters to purchase Defaulted Securities under Section 20.1 all transactions, waivers, orders and notices on behalf of the Underwriters under this Agreement or contemplated by this Agreement may be carried out or given on behalf of the Underwriters by BMONB.

24. **Time of Essence**

Time will be of the essence of this Agreement and, following any waiver or indulgence by any party, time will again be of the essence of this Agreement.

25. **Representations, Warranties and Agreements Surviving Closing**

All representations, warranties, covenants and agreements of the Corporation and Atlantic Holdings herein contained or contained in any certificate of the Corporation or Atlantic Holdings delivered pursuant to this Agreement shall survive the purchase and sale of the Offered Securities and completion of the transactions provided for herein and shall continue in full force and effect for the benefit of the Underwriters for a period of 36 months from the completion of Distribution of the Offered Securities regardless of any subsequent disposition of the Offered Securities or any investigation by or on behalf of the Underwriters with respect thereto.

26. **Miscellaneous**

- 26.1 This Agreement will be governed by and interpreted in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable therein.
- 26.2 Each of the parties to this Agreement will be entitled to rely on delivery of a facsimile or electronic copy of this Agreement and acceptance by each party of any such facsimile or electronic copy will be legally effective to create a valid and binding agreement between the parties to this Agreement in accordance with the terms of this Agreement.
- 26.3 This Agreement may be executed in any number of counterparts, each of which when so executed will be deemed to be an original and all of which, when taken together, will constitute one and the same agreement.
- 26.4 To the extent permitted by applicable law, the invalidity or unenforceability of any particular provision of this Agreement will not affect or limit the validity or enforceability of the remaining provisions of this Agreement.
- 26.5 This Agreement and the other documents referred to in this Agreement constitute the entire agreement between the parties hereto relating to the subject matter of this Agreement and supersede all prior agreements between those parties with respect to their respective rights and obligations in respect of the transactions contemplated under this Agreement.
- 26.6 The terms and provisions of this Agreement will be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns; provided that, except as otherwise provided in this Agreement, this Agreement will not be assignable by any party without the written consent of the others and any purported assignment without that consent will be invalid and of no force and effect.
- 26.7 In the event that any party to this Agreement commences any litigation, proceeding or other legal action in connection with or relating to this Agreement or any matters contemplated hereby or thereby, each party to this Agreement hereby (a) agrees that any such litigation, proceeding or other legal action may be brought in a court of competent jurisdiction located within Toronto, Ontario, Canada, (b) agrees that in connection with any such litigation, proceeding or action, such party will consent and submit to personal jurisdiction in any such court described in clause (a) of this Section 26.7 and to service of process upon it in accordance with the rules and statutes governing service of process, (c) agrees to waive to the full extent permitted by applicable law any objection that it may now or hereafter have to the venue of any such litigation, proceeding or action in any such court or that any such litigation, proceeding or action was brought in an inconvenient forum, (d) agrees as an alternative method of service to service of process in any such litigation, proceeding or action by mailing of copies thereof to such party at its address set forth in Article 22, (e) agrees that any service made as provided herein shall be effective and binding service in every respect, and (f) agrees that nothing herein shall affect the rights of any party to effect service of process in any other manner permitted by applicable law.

If this letter accurately reflects the terms of the transactions which we are to enter into and are agreed to by you, please communicate your acceptance by executing the enclosed copies of this letter where indicated and returning them to us.

## PRELIMINARY SHORT FORM PROSPECTUS

New Issue

September 22, 2006

**Atlantic Power  
Corporation**

**Atlantic Power Corporation**

**Cdn\$90,002,050**

**8,531,000 Income Participating Securities™**

and

**Cdn\$60,000,000**

**6.25% Convertible Secured Debentures due October 31, 2011**

RECEIVED  
2006 OCT 14 P 3:51  
OFFICE OF THE REGISTRAR  
CORPORATE FINANCE

This short form prospectus qualifies the distribution of 8,531,000 income participating securities™ ("IPs"™) and Cdn\$60,000,000 aggregate principal amount of 6.25% convertible secured debentures (the "Debentures", and collectively with the IPs, the "Securities") of Atlantic Power Corporation (the "Company"). Each IPS represents: (a) one common share (each, a "Common Share") of the Company, and (b) Cdn\$5.767 principal amount of 11.0% subordinated notes ("Subordinated Notes") of the Company. The Debentures are due October 31, 2011 (the "Maturity Date"), will bear interest at an annual rate of 6.25%, and will be distributed in increments of Cdn\$1,000. Investors will have the option of subscribing for Debentures, IPs or a combination thereof at their discretion. After giving effect to the issuance of the Securities pursuant to this offering (the "Offering") and the transactions contemplated hereby, the Company will own an approximate 85% common membership interest in Atlantic Power Holdings, LLC ("Atlantic Holdings") and the Existing Investors (as defined herein) will own an approximate 15% common membership interest in Atlantic Holdings.

Holders of IPs have the right to separate the IPs into Common Shares and Subordinated Notes at any time. Separation of the IPs will occur automatically upon a repurchase, redemption or maturity of the Subordinated Notes. Similarly, any holder of Common Shares and Subordinated Notes may, at any time, combine the applicable number of Common Shares and principal amount of Subordinated Notes to form IPs. See "Description of IPs".

The Subordinated Notes will mature on November 18, 2016. On or after November 18, 2009, the Company will have the option to redeem the Subordinated Notes in whole or in part at any time, for cash, at a redemption price equal to the principal amount of the Subordinated Notes plus a specified premium, which premium decreases over time. See "Description of Subordinated Notes".

The Debentures will be dated the date of the closing of the Offering and will bear interest at an annual rate of 6.25%, payable semi-annually in arrears on April 30 and October 31 in each year (or the immediately following business day if any interest payment date would not otherwise be a business day) commencing on April 30, 2007. The April 30, 2007 interest payment will represent accrued interest for the period from the closing date of the Offering up to, but excluding April 30, 2007. See "Description of Debentures".

### Conversion Privilege

Each Debenture will be convertible into IPs at the option of the holder at any time prior to the close of business on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures, at a conversion price of Cdn\$12.40 per IPS (the "Conversion Price"), being a ratio of approximately 80.6452 IPs per Cdn\$1,000 principal amount of Debentures, subject to adjustment in accordance with the trust indenture governing the terms of the Debentures. Holders converting their Debentures will receive accrued and unpaid interest thereon for the period from the last interest payment date on their Debentures to the date of conversion. Further particulars concerning the conversion privilege, including provisions for the adjustment of the Conversion Price in certain events, are set out under "Description of Debentures — Conversion Privilege". A holder of Debentures will not be entitled to deferred tax treatment on the conversion into IPs, redemption or repayment at maturity of such Debentures. See "Certain Canadian Federal Income Tax Considerations".

The Debentures may not be redeemed by the Company on or before October 31, 2009 (except in the case of a change of control). Thereafter, but prior to the Maturity Date, the Debentures may be redeemed by the Company, in whole or in part from time to time, on not more than 60 days'

(continued on next page)

(continued from cover)

and not less than 30 days' prior notice, at a redemption price equal to the principal amount thereof plus accrued and unpaid interest, provided that the weighted-average trading price of the IPSs on the Toronto Stock Exchange (the "TSX") for the 20 consecutive trading days ending five trading days preceding the date on which notice of redemption is given is at least 125% of the Conversion Price. Further particulars of the interest, redemption, repurchase and maturity provisions of the Debentures are set out under "Description of Debentures".

The Company will allocate the price paid for each IPS on the basis of Cdn\$4.90 to the Common Share and Cdn\$5.65 to the Subordinated Notes and by purchasing an IPS, the holder is deemed to agree to such allocation and agrees to not take a contrary position for any purpose. The Canadian and U.S. tax consequences of acquiring, holding and disposing of the Common Shares and Subordinated Notes represented by IPSs may, in part, depend on the Canada Revenue Agency (the "CRA") and United States Internal Revenue Service (the "IRS") agreeing with this allocation. See "Certain Canadian Federal Income Tax Considerations" and "Certain U.S. Federal Income Tax Considerations". Distributions on the IPSs consist of interest payments on the Subordinated Notes and dividend payments on the Common Shares represented thereby. Unless a non-U.S. holder provides appropriate documentation establishing entitlement to a reduction or elimination of United States withholding tax, a 30% United States withholding tax will be assessed on interest payments paid on the Subordinated Notes and Debentures to that non-U.S. holder. See "Certain U.S. Federal Income Tax Considerations".

The earnings coverage ratio in respect of the Company's indebtedness for the 12 months ended December 31, 2005 and June 30, 2006 would have been less than one-to-one after giving effect to the additional debt incurred in this Offering and other debt incurred since June 30, 2006. See "Earnings Coverage".

The issued and outstanding IPSs are listed on the TSX. There is currently no market through which the Debentures may be sold and purchasers may not be able to resell the Debentures. The Company has applied to list the IPSs (and the Common Shares forming part of such IPSs), the Debentures and the IPSs issuable upon conversion of the Debentures (and the Common Shares forming part of such IPSs) on the TSX. Listing will be subject to the Company fulfilling all of the listing requirements of the TSX. On September 19, 2006, the last trading day prior to the public announcement of the Offering, the closing price of the IPSs on the TSX was Cdn\$10.73 per IPS.

**Price: Cdn\$10.55 per IPS**  
**Price: Cdn\$1,000 per Debenture**

	Price to the Public <sup>(1)</sup>	Underwriters' Fee	Net Proceeds <sup>(2)</sup>
Per IPS . . . . .	Cdn\$10.55	Cdn\$0.5275	Cdn\$10.0225
Total IPS Offering . . . . .	Cdn\$90,002,050	Cdn\$4,500,103	Cdn\$85,501,948
Per Debenture . . . . .	Cdn\$1,000	Cdn\$40	Cdn\$960
Total Debenture Offering . . . . .	Cdn\$60,000,000	Cdn\$2,400,000	Cdn\$57,600,000
Total Offering . . . . .	Cdn\$150,002,050	Cdn\$6,900,103	Cdn\$143,101,947

- (1) The offering price of the Securities has been determined through negotiation between the Company and the Underwriters (as defined herein).
- (2) Before deducting the expenses of the Offering which are estimated to be approximately Cdn\$1.1 million. A portion of the expenses of the Offering will be allocated to the Existing Investors.

An investment in the IPSs is subject to a number of risks that should be considered by a prospective investor. A return on your investment in IPSs is not comparable to the return on an investment in a fixed income security. The recovery of an initial investment in IPSs is at risk, and the anticipated return on an investor's investment in IPSs is based on many performance assumptions. Although the Company intends to make monthly distributions of its available cash to holders of IPSs, these cash distributions are not assured and may be reduced or suspended. The actual amount distributed by the Company on the Common Shares and its ability to pay interest on the Subordinated Notes and Debentures will depend on numerous factors, including Atlantic Holdings' financial performance, debt covenants and obligations, working capital requirements, future capital requirements, and the deductibility for U.S. federal income tax purposes of interest payments on the Subordinated Notes and the Debentures, all of which are susceptible to a number of risks. The market value of the IPSs may deteriorate if the Company is unable to make scheduled interest payments on the Subordinated Notes or otherwise meet its cash distribution targets in the future, and any such deterioration may be material. Investing in the IPSs and Debentures involves risks that should be considered by a prospective investor. See "Risk Factors".

Dominion Bond Rating Service Limited ("DBRS") has confirmed, as of September 22, 2006, a stability rating of STA-3 (low) with respect to the IPSs. Similar to units of income funds rated STA-3, IPSs rated STA-3 are considered by DBRS to have good stability and sustainability of distributions per IPS. See "Description of IPSs".

It is important for an investor to consider the particular risk factors that may affect the stability of the distributions paid by the Company on IPSs. See, for example, "Revenue May be Reduced Upon Expiration or Termination of PPAs", "Predicting Project Cash Flows Over the Long Term Is Difficult", "Financing Arrangements Could Impact the Business of the Company" and "Sufficient Capital May Not be Available to Fund Acquisitions, Investments, Expansions or Capital Expenditures" under the heading "Risk Factors" in the AIF (as defined herein) incorporated by reference herein.

BMO Nesbitt Burns Inc., National Bank Financial Inc. RBC Dominion Securities Inc., Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation (collectively, the "Underwriters"), as principals, conditionally offer the Securities, subject to prior sale, if, as and when issued by the Company and accepted by the Underwriters in accordance with the conditions contained in the Underwriting Agreement referred to under "Plan of Distribution" and subject to approval of certain legal matters on behalf of the Company by Goodmans LLP and Goodwin Procter LLP and on behalf of the Underwriters by Blake, Cassels & Graydon LLP.

Affiliates of BMO Nesbitt Burns Inc. are lenders to a subsidiary of the Company under an existing credit facility and the Acquisition Credit Facility (as defined herein). The Company intends to use a portion of the proceeds from the Offering to repay a portion of its indebtedness under the Acquisition Credit Facility. Consequently, the Company may be considered a "connected issuer" of BMO Nesbitt Burns Inc. under applicable securities laws. See "Use of Proceeds" and "Plan of Distribution".

Subscriptions for the IPSs and the Debentures will be received subject to rejection or allotment, in whole or in part, and the right is reserved to close the subscription books at any time without notice. Book-entry only certificates representing the IPSs and/or the Debentures will be issued in registered form to The Canadian Depository for Securities Limited ("CDS") or its nominee as registered global securities and will be deposited with CDS on the date of issue of the IPSs and/or the Debentures, which is expected to occur on or about October 11, 2006 or such later date as the Underwriters and the Company may agree, but in any event no later than October 31, 2006. Holders of IPSs and/or Debentures will not be entitled to receive physical certificates representing the Securities. See "Plan of Distribution", "Description of IPSs" and "Description of Debentures".

Subscribers under the Offering will be entitled to receive the distribution in the amount of Cdn\$0.0884 per IPS to be paid by the Company on or about November 30, 2006 to IPS holders of record on October 31, 2006.

### DOCUMENTS INCORPORATED BY REFERENCE

Information has been incorporated by reference in this short form prospectus from documents filed with securities commissions or similar authorities in Canada. Copies of the documents incorporated herein by reference may be obtained on request without charge from the Corporate Secretary of the Manager, at 200 Clarendon Street, 55<sup>th</sup> Floor, Boston, Massachusetts, U.S.A., 02117, telephone 617.531.6379. For the purpose of the Province of Québec, this simplified short form prospectus contains information to be completed by consulting the permanent information record. A copy of the permanent information record may be obtained

from the Corporate Secretary of the Manager at the above-mentioned address and telephone number. In addition, copies of the documents incorporated by reference herein may be obtained from the securities commissions or similar authorities in Canada through the Internet at [www.sedar.com](http://www.sedar.com).

The following documents, filed with the securities commissions or similar authorities in the provinces and territories of Canada, are specifically incorporated by reference into and form an integral part of this short form prospectus:

- (a) the annual information form of the Company dated March 30, 2006 (the "AIF"), excluding the following financial statements included in the Company's business acquisition report dated November 21, 2005 (which is incorporated by reference in the AIF): (i) the compilation report on pro forma financial statements and the unaudited pro forma consolidated statement of income of the Company for the six weeks ended December 31, 2004 and the nine months ended September 30, 2005; and (ii) the unaudited consolidated balance sheet of Epsilon Power Partners, LLC as at June 30, 2005 and the unaudited consolidated statements of income and deficit and cash flows for the three and six months ended June 30, 2005 and 2004;
- (b) the management information circular of the Company dated May 10, 2006 distributed in connection with the annual meeting of shareholders held on June 7, 2006;
- (c) the consolidated financial statements of the Company for the year ended December 31, 2005 and the period from November 18, 2004 to December 31, 2004, together with the notes thereto and the auditors' report thereon;
- (d) management's discussion and analysis of financial condition and results of operations of the Company for the year ended December 31, 2005;
- (e) the unaudited consolidated interim financial statements of the Company for the three and six months ended June 30, 2006 and 2005, together with the notes thereto;
- (f) management's discussion and analysis of financial condition and results of operations of the Company for the three and six months ended June 30, 2006;
- (g) the material change report of the Company dated September 21, 2006 filed in connection with the Acquisition; and
- (h) the material change report of the Company dated September 21, 2006 filed in connection with the Offering.

Any material change reports (excluding confidential reports), business acquisition reports, interim financial statements, annual financial statements and the auditors' report thereon, management's discussion and analysis of financial condition and results of operations in respect of the periods covered by such interim or annual financial statements, and management information circulars filed by the Company with the securities commissions or similar authorities in the provinces and territories of Canada subsequent to the date of this short form prospectus and prior to the termination of this distribution shall be deemed to be incorporated by reference in this short form prospectus.

**Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purposes of this short form prospectus to the extent that a statement contained herein or in any other subsequently filed document which also is, or is deemed to be, incorporated by reference herein modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document that it modifies or supersedes. The making of a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that was required to be stated or that was necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this short form prospectus.**

## MEANING OF CERTAIN REFERENCES

Throughout this short form prospectus, unless otherwise indicated, all references to “GAAP” or “Canadian GAAP” are to accounting principles generally accepted in Canada. The financial statements of the Company contained in this short form prospectus have been prepared in accordance with GAAP. The historical financial statements of Trans-Elect NTD Holdings Path 15, LLC (“Path 15 Holdco”) included in this short form prospectus have been prepared in accordance with accounting principles generally accepted in the United States (“US GAAP”) which conforms in all significant respects with Canadian GAAP.

## CURRENCY AND EXCHANGE RATE INFORMATION

In this short form prospectus, references to “Cdn\$” and “Canadian dollars” are to the lawful currency of Canada and references to “\$”, “US\$” and “U.S. dollars” are to the lawful currency of the United States. All dollar amounts herein are in U.S. dollars, unless otherwise stated.

The business of the Projects (as defined below) and Path 15 Holdco is conducted primarily in the United States and their revenues and expenses are denominated, earned and incurred primarily in U.S. dollars. Accordingly, the *pro forma* consolidated financial statements of the Company and the historical financial statements of Path 15 Holdco included in this short form prospectus are presented in U.S. dollars. The following table sets forth, for each period indicated, the high and low exchange rates for one U.S. dollar, expressed in Canadian dollars, the average of such exchange rates on the last day of each month during such period and the exchange rate at the end of such period, based on the noon rate in Canadian dollars as quoted by the Bank of Canada (the “Noon Buying Rate”). On September 21, 2006, the Noon Buying Rate was US\$1.00 = Cdn\$1.1195.

	Six Months Ended June 30,		12 Months Ended December 31,	
	2006	2005	2005	2004
High . . . . .	\$1.1726	\$1.2704	\$1.2704	\$1.3968
Low . . . . .	\$1.0990	\$1.1987	\$1.1507	\$1.1774
Average . . . . .	\$1.1384	\$1.2352	\$1.2116	\$1.3015
Period End . . . . .	\$1.1150	\$1.2256	\$1.1659	\$1.2036

## FORWARD-LOOKING STATEMENTS

Certain statements in this short form prospectus are “forward-looking statements”, which reflect the expectations of the Manager regarding future growth, results of operations, performance and business prospects and opportunities of the Company, Atlantic Holdings, the Projects and Path 15 Holdco. Such forward-looking statements reflect current expectations regarding future events and operating performance and speak only as of the date of this short form prospectus. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by which such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under “Risk Factors”. Although the forward-looking statements contained in this short form prospectus are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this short form prospectus and the Company assumes no obligation to update or revise them to reflect new events or circumstances.

## PROSPECTUS SUMMARY

*The following is a summary of certain information contained in this short form prospectus and should be read together with the more detailed information and financial data and statements contained elsewhere or incorporated by reference in this short form prospectus. Reference is made to the "Glossary of Terms" for definitions of certain terms used in this short form prospectus.*

### **Atlantic Power Corporation**

The Company is a corporation continued under the laws of the Province of British Columbia on July 8, 2005. The Company, through Atlantic Holdings, owns interests in a diversified portfolio of 15 power generation projects and one electric transmission project (collectively, the "Projects", and individually, a "Project") located predominantly in major markets in the United States. Fifteen of the Projects are located in nine states in the U.S. and one Project is located in Jamaica. The power generation Projects have an aggregate gross electric generation capacity of approximately 2,160 MW, and Atlantic Holdings' net economic interest in the electric generation capacity of the Projects is approximately 860 MW.

### **Background to the Offering and Use of Proceeds**

On September 15, 2006, the Company, through a subsidiary of Atlantic Holdings, completed the indirect acquisition (the "Acquisition") of 100% of the equity interests in Path 15 Holdco. Path 15 Holdco (indirectly through Trans-Elect NTD Path 15, LLC ("Path 15 Opco")) owns approximately 72% of the transmission system rights ("TSRs") in the transmission line upgrade along the Path 15 transmission corridor located in central California (the "Path 15 Project"). The purchase price for Path 15 Holdco was partially financed through borrowings under a term loan credit facility (the "Acquisition Credit Facility") in the amount of \$88 million, which was drawn on the closing of the Acquisition. Approximately Cdn\$41 million of the net proceeds of the Offering will be used to repay a portion of the amount outstanding under the Acquisition Credit Facility. See "Path 15 Project — Acquisition Credit Facility" and "Use of Proceeds".

The remaining portion of the net proceeds of the Offering (approximately Cdn\$94 million) will be used by the Company to indirectly redeem equity interests of Atlantic Holdings held by subsidiaries of ArcLight Energy Partners Fund I, L.P. ("Fund I"), ArcLight Energy Partners Fund II, L.P. ("Fund II") and another investor (collectively, the "Existing Investors") pursuant to the liquidity rights granted to the Existing Investors at the time of the Company's initial public offering. On September 12, 2006, the Existing Investors delivered a liquidity notice to Atlantic Holdings requesting Atlantic Holdings to purchase, for cancellation, a portion of their common membership interests and Class B preferred membership interests in Atlantic Holdings.

Following closing of the Offering and the transactions contemplated hereby, the Company will have increased its ownership in Atlantic Holdings from 70.1% to an approximate 85% common membership interest in Atlantic Holdings. The Existing Investors will hold an approximate 15% common membership interest in Atlantic Holdings.

## THE OFFERING

<b>Offering:</b>	8,531,000 IPSs and Cdn\$60,000,000 aggregate principal amount of Debentures.
<b>Price:</b>	Cdn\$10.55 per IPS and Cdn\$1,000 per Debenture.
<b>Gross Proceeds of the Offering:</b>	Cdn\$150,002,050.
<b>Expected Closing Date of the Offering:</b>	On or about October 11, 2006.
<b>IPS Attributes:</b>	
<i>IPS Components:</i>	Each IPS represents: (a) one Common Share; and (b) Cdn\$5.767 aggregate principal amount of Subordinated Notes.  The ratio of Common Shares to principal amount of Subordinated Notes represented by an IPS is subject to change in the event of a share split, consolidation or reclassification, or upon a partial redemption or repurchase of the Subordinated Notes.
<i>Separation and Recombination:</i>	Holder of IPSs have the right to separate the IPSs into Common Shares and Subordinated Notes at any time. Separation of the IPSs will occur automatically upon a repurchase, redemption or maturity of the Subordinated Notes. Similarly, holders of Common Shares and Subordinated Notes may, at any time, combine the applicable number of Common Shares and principal amount of Subordinated Notes to form IPSs. See "Description of IPSs".
<i>Rating:</i>	DBRS has confirmed, as of September 22, 2006, a stability rating of STA-3 (low) with respect to the IPSs. Similar to units of income funds rated STA-3, IPSs rated STA-3 are considered by DBRS to have good stability and sustainability of distributions per IPS. See "Description of IPSs".
<b>Debenture Attributes:</b>	
<i>Debentures Outstanding:</i>	Cdn\$60,000,000 aggregate principal amount of Debentures will be outstanding following the completion of the Offering.
<i>Market:</i>	The Company has applied to list the Debentures on the TSX. Listing will be subject to the Company fulfilling all of the requirements of the TSX.
<i>Interest Rate:</i>	6.25% per annum.
<i>Payment Dates:</i>	Interest will be payable semi-annually in arrears on April 30 and October 31 in each year (or the immediately following business day if any interest payment date would not otherwise be a business day) commencing on April 30, 2007. The April 30, 2007 interest payment will represent accrued interest for the period from the closing date of the Offering up to, but excluding April 30, 2007. See "Description of Debentures — General".
<i>Maturity Date:</i>	The Debentures will mature on October 31, 2011.
<i>Conversion:</i>	Each Debenture will be convertible into IPSs at the option of the holder at any time prior to the close of business on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures, at a conversion price of Cdn\$12.40 per IPS, being a ratio of approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, subject to adjustment in

accordance with the trust indenture governing the terms of the Debentures. See "Description of Debentures — Conversion Privilege".

*Redemption:*

The Debentures may not be redeemed by the Company on or before October 31, 2009 (except in the case of a change of control). Thereafter, but prior to the Maturity Date, the Debentures may be redeemed by the Company, in whole or in part from time to time, at the option of the Company, on not more than 60 days' and not less than 30 days' prior notice, at a redemption price equal to the principal amount thereof plus accrued and unpaid interest, provided that the weighted-average trading price of the IPSs on the TSX for the 20 consecutive trading days ending five trading days preceding the date on which notice of redemption is given is at least 125% of the Conversion Price. See "Description of Debentures — Redemption and Purchase".

*Payment Upon Redemption or Maturity:*

On redemption or on the Maturity Date, the Company will repay the indebtedness represented by the Debentures by paying to the Debenture Trustee (as defined herein) in lawful money of Canada an amount equal to the principal amount of the outstanding Debentures, together with accrued and unpaid interest thereon. See "Description of Debentures — Payment Upon Redemption or Maturity".

*Put Right Upon a Change of Control:*

Upon the occurrence of certain change of control events involving the Company or Atlantic Holdings, each holder of Debentures may require the Company to purchase, on the date which is within 30 days following the giving of notice of the Change of Control (the "Put Date"), all or any part of such holder's Debentures at a price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, up to, but excluding, the Put Date. See "Description of Debentures — Put Right Upon a Change of Control".

*Security and Guarantees:*

The Debentures will be secured by a pledge of the Company's membership interests in Atlantic Holdings and will be guaranteed by Atlantic Holdings and certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries at the time of the closing of the Offering. The guarantee of Atlantic Holdings will be secured by a pledge of the membership interests of Teton Power Funding, LLC and Epsilon Power Funding, LLC (the "Project Holding Entities") and the guarantees of certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries will be secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases. See "Description of Debentures — Security and Guarantees".

*Ranking:*

The Debentures will be secured indebtedness of the Company, will rank senior to Subordinated Indebtedness including the Subordinated Notes, but will rank junior to Senior Secured Indebtedness including indebtedness outstanding under the Company's amended credit facility (the "Amended Credit Facility") and the Acquisition Credit Facility. Additionally, the Debentures will rank senior to any unsecured indebtedness of the Company (including trade payables) to the extent of the security therefor. See "Description of Debentures — Ranking".

*Risk Factors:*

Prospective purchasers should carefully review and evaluate certain risk factors relating to an investment in the Debentures, including:

- trading market for Debentures;
- prior ranking indebtedness;
- absence of covenant protection;
- redemption prior to maturity;
- inability of the Company to purchase Debentures; and
- conversion following certain transactions.

See “Risk Factors — Risks Related to the Debentures”.

## THE COMPANY, ATLANTIC HOLDINGS, THE MANAGER AND ARCLIGHT

### The Company

The Company is a corporation continued under the laws of the Province of British Columbia on July 8, 2005. The registered office of the Company is located at 355 Burrard Street, Suite 1900, Vancouver, British Columbia, V6C 2G8 and the head office of the Company is located at 200 Clarendon Street, 55<sup>th</sup> Floor, Boston, Massachusetts, USA 02117. The Company, through Atlantic Holdings, owns interests in the Projects, which are located predominantly in major markets in the United States. Fifteen of the Projects are located in nine states in the U.S. and one Project is located in Jamaica. The power generation Projects have an aggregate gross electric generation capacity of approximately 2,160 MW, and Atlantic Holdings' net economic interest in the electric generation capacity of the Projects is approximately 860 MW.

The Company currently holds 70.1% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Holdings. The Existing Investors hold 29.9% of the common membership interests and all of the Class B preferred membership interests in Atlantic Holdings. Following completion of the Offering and the transactions completed hereby, the Company will hold approximately 85% of the common membership interests, all of the Class A preferred membership interests and all of the senior membership interests in Atlantic Holdings and the Existing Investors will hold approximately 15% of the common membership interests and all of the Class B preferred membership interests in Atlantic Holdings. The senior membership interests will be issued by Atlantic Holdings to the Company in exchange for the net proceeds of the sale of the Debentures under the Offering.

### Atlantic Holdings

Atlantic Holdings is a Delaware limited liability company with its registered and head office located at 2711 Centerville Road, Suite 400, Wilmington, Delaware 19808 c/o Corporation Service Company. In connection with the Offering, the limited liability company agreement (the "LLC Agreement") governing Atlantic Holdings will be amended to create a new class of senior membership interests that will be issued to the Company in exchange for the net proceeds of the sale of the Debentures under the Offering. In addition, as a result of the redemption of membership interests of Atlantic Holdings held by the Existing Investors' using the proceeds of the Offering, the ownership interest in Atlantic Holdings of the Existing Investors will fall below 20% and, pursuant to the terms of the LLC Agreement, the Existing Investors will only be entitled to appoint one manager to the board of managers of Atlantic Holdings. Consequently, effective on Closing, Robb Turner will resign as a manager of Atlantic Holdings. In order to maintain the size of the board of managers of Atlantic Holdings following Mr. Turner's resignation (which, under the current terms of the LLC Agreement, would decrease to six managers), the amendments to the LLC Agreement will provide that the size of the board of managers will remain at seven managers. The board of managers has approved the appointment of Patrick Welch, the chief financial officer of the Manager, to fill the vacant position on the board of managers.

### The Manager

The Manager is a Delaware limited liability company owned by investment funds managed by ArcLight Capital Partners, LLC ("ArcLight"). The Manager provides management and administrative services to the Company and its subsidiaries pursuant to the terms of a management agreement dated as of November 10, 2004. The Manager manages the business with the primary objective of providing holders of IPSs with stable and sustainable cash distributions in the form of interest payments on the Subordinated Notes and dividends on the Common Shares. The Manager is also focused on identifying additional acquisitions and investments for the Company, including acquisitions of, or investments in, power, energy, utility and infrastructure assets primarily in Canada and the U.S.

### ArcLight

ArcLight was founded in 2001 and is a leading specialized private equity firm exclusively focused on the energy industry. Through its three private equity funds, ArcLight manages over \$4.6 billion of private equity capital, of which nearly \$2.5 billion has already been committed or invested in over 60 transactions. ArcLight has substantial investments in power generation, gas storage, gas distribution, coal mining, distributed generation,

cogeneration and other combined heat and power facilities, electric power transmission and oil and gas production assets.

### **Recent Developments**

The following is a summary of the significant developments in the operations and affairs of the Company which have occurred since December 31, 2005 and which have not been described elsewhere in this short form prospectus or in the documents incorporated by reference herein.

#### *Acquisition of Path 15 Holdco*

On September 15, 2006, the Company, through a subsidiary of Atlantic Holdings, completed the acquisition of 100% of the equity interests in Path 15 Holdco from New Transmission Development Company, United States Power Fund, L.P., Cardinal Power Funding, LLC (an affiliate of ArcLight) and KB TransValley LLC (collectively, the "Vendors"). Path 15 Holdco (indirectly through Path 15 Opco) owns approximately 72% of the TSRs in the transmission line upgrade along the Path 15 transmission corridor located in central California. The purchase price for the equity interests in Path 15 Holdco was approximately \$85.5 million. In connection with this transaction, the Company, through Atlantic Holdings, entered into the Acquisition Credit Facility in the amount of \$88 million, which was drawn on the closing of the Acquisition. For further details on the Acquisition, see "Path 15 Project".

#### *Increase in the Company's Distributions*

On September 15, 2006, the Company announced an increase in its monthly distribution on the IPSs by Cdn\$0.0025 per IPS per month (Cdn\$0.03 annually). The first distribution at the increased rate will be paid on or about October 31, 2006 to IPS holders of record on September 29, 2006.

## **PATH 15 PROJECT**

### **Overview**

The Path 15 Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in central California to help alleviate what has been a chronic north-south transmission congestion point. The Path 15 Project, along with two other previously existing transmission lines in the corridor, are the only significant connection points between the electrical grids of northern and southern California. Commencing commercial operations in December 2004, the Path 15 Project increased transmission capacity from southern to northern California by approximately 1,500 MW to 5,400 MW (approximately enough electricity to power 1.5 million households), and increased transmission capacity from northern to southern California by approximately 1,100 MW. This transmission line facilitates the movement of power from the Pacific Northwest to southern California in the summer months and from generators in southern California to northern California in the winter months.

Path 15 Opco is structured such that the Western Area Power Administration (the "WAPA"), a federal power marketing entity that was active in the development and construction of the Path 15 Project, owns the transmission line and real estate rights associated with the Path 15 Project, while Path 15 Opco owns 72% of the TSRs associated with the Path 15 Project. The WAPA is also responsible for the operation and maintenance of the Path 15 Project at the expense of Path 15 Opco. The TSRs entitle Path 15 Opco to receive revenues that are regulated and approved by the United States Federal Energy Regulatory Commission (the "FERC"), currently being collected and remitted to owners of TSRs by the California Independent System Operator (the "CAISO"). The revenue received by Path 15 Opco bears minimal operation risk since rates are based on a FERC-determined revenue requirement. As such, in the event the Path 15 Project experiences a temporary lapse in service, Path 15 Opco would continue to receive monthly tariff payments from the CAISO.

The CAISO is a not-for-profit corporation that acts as a clearinghouse to settle third-party transactions involving the purchase and sale of power in California. In order for transmission facilities to become part of the transmission grid in California, owners of transmission assets must place their assets under the operational control of the CAISO by entering into a standard transmission control agreement with the CAISO. The CAISO-

operated grid encompasses approximately 75% of California for which the CAISO is responsible for matching net generation and loads. In general, the CAISO coordinates the dispatch of power generation, and manages the reliability of, and provides open access to, the transmission grid. The CAISO is responsible for charging transmission users for service through a transmission access charge ("TAC") and remits the TAC payments to the owners of the transmission assets.

Path 15 Opco has entered into a transmission control agreement with CAISO pursuant to which Path 15 Opco assigned its TSRs to the CAISO. In return for this assignment, Path 15 Opco receives compensation in the form of FERC-approved tariff rates remitted by the CAISO. The amount of tariffs paid to Path 15 Opco are not dependent upon the amount of capacity represented by the TSRs, the usage of the transmission capacity represented thereby or the availability of such transmission capacity. Rather, the amounts paid to Path 15 Opco are based upon permitted rates of return determined by FERC using a "cost of service" methodology. Based upon the rates of return established by the FERC, the CAISO sets system-wide TACs (which are collected from utilities and other service providers) at levels that are expected to produce the specific revenue targets established for transmission owners.

### **Acquisition Rationale**

The Manager believes that the Acquisition is consistent with the Company's objective to make accretive investments that sustain and grow its cash distributions per IPS and is in the best interests of the Company. The Acquisition provides the following benefits to the Company:

#### ***Long-Term Source of Regulated Cash Flow***

The revenue stream associated with the Path 15 Project represents a stable revenue stream, based on tariff rates regulated and approved by the FERC. These revenues decline modestly over time on a 30-year straight-line basis. The Path 15 Project generates TAC revenue for Path 15 Opco, a source of revenue that is determined on the basis of the power consumed over a transmission system taken as a whole. As a result, this revenue stream is not exposed to the risks that may arise from volatility in the volume of power generation and usage of the transmission system. In the event of a temporary lapse in service, Path 15 Opco would continue to receive monthly tariff payments.

The Path 15 Project is owned and operated by the WAPA, an experienced operator of transmission lines that operates and maintains approximately 17,000 miles of transmission lines, providing its customers with economical and reliable energy transmission. The operations of the Path 15 Project consist entirely of the transmission of electric power, which is not subject to the volatility that may arise from changes in the price of electricity or fuel.

#### ***Further Diversification***

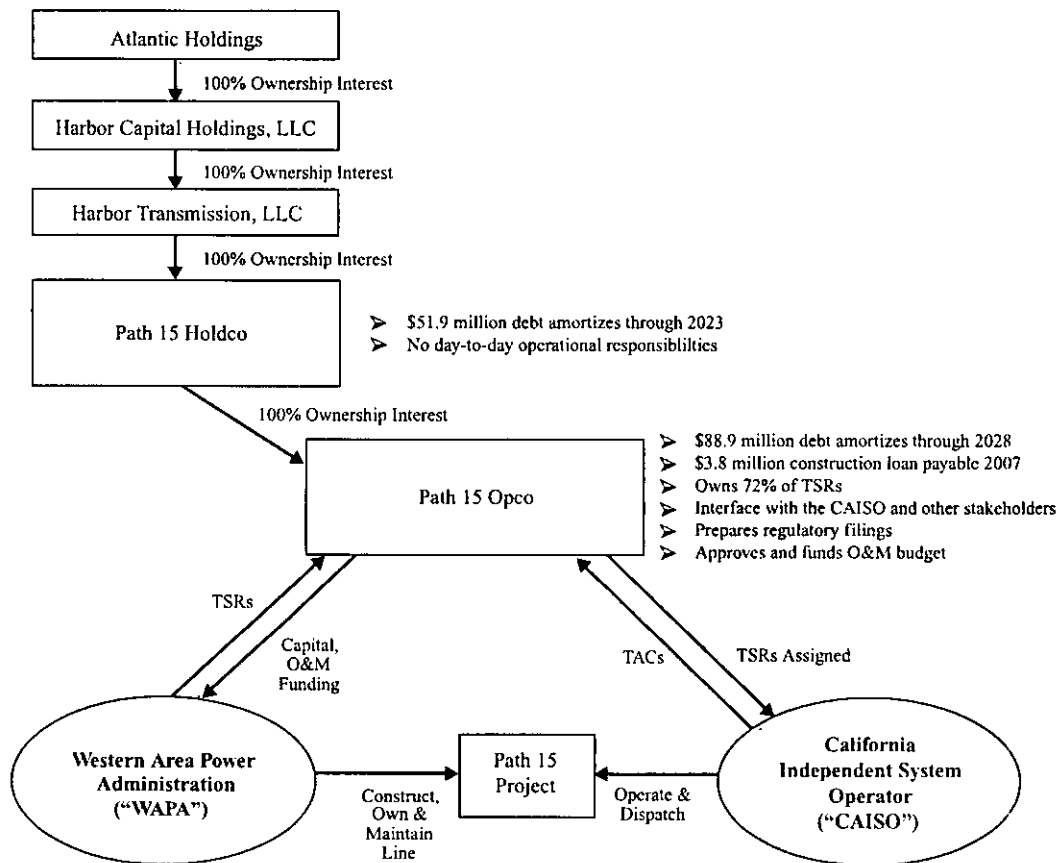

The Acquisition further diversifies the Company's portfolio of projects and expands the number of different operators that the Company relies on for its operation of the Projects.

#### ***Greater Scale and Liquidity***

If the Acquisition and the Offering had been completed on January 1, 2005, on a *pro forma* basis the Company would have generated revenue of approximately \$220 million for the 12 months ended December 31, 2005, an increase of approximately 19% over the amount of revenue that would have been generated if the Acquisition and the Offering had not been completed on January 1, 2005. In addition, the book value of the Company's total assets, as at June 30, 2006, would have increased by approximately 34% as a result of the Acquisition. The issuance of additional IPSs to finance the Acquisition will increase the number of outstanding IPSs and the Manager expects that this will increase the volume of trading of the IPSs.

## Structure of Path 15 Holdco

The following chart illustrates the structure of Path 15 Holdco and the Company's indirect interest in the Path 15 Project.

## Regulation

The FERC's cost-of-service approach in setting rates allows the owner of transmission assets to receive annual revenues that provides the owner with the recovery of any prudently incurred operating costs, depreciation, income taxes and a return on capital. As of the date hereof, the FERC is in the final stages of approving the revenue requirement for 2005 to 2007. The revenue requirement approved for the Path 15 Project is subject to re-approval once every three years commencing in 2008. The Manager expects the FERC to continue to apply the cost-of-service methodology in its revenue requirement determinations.

The major components of the annual revenue requirement are:

- **Operating Expense:** Includes prudently incurred operations, maintenance, taxes (other than income taxes), administrative and general expenses incurred by the WAPA and Path 15 Opco.
- **Income Tax:** An allowance that provides for the recovery of deemed income taxes associated with the transmission business, which is calculated based on Path 15 Opco's taxable income.
- **Depreciation:** An allowance for a return of capital that provides for the depreciation of the regulated asset base, as approved by the FERC. This amount is based on the total cost of the asset.
- **Return on Investment:** A fair return on the capital invested or rate base taking into account the debt and common equity of the transmission business, a capital structure consisting of 50% debt and 50% equity.

The actual rate base used in calculating the return on investment component of the revenue requirement is intended to include all costs prudently incurred in the development, financing and construction of the Path 15 Project. For any given year, the rate base is comprised of:

- Net Plant in Service: Project regulatory book value, net of accumulated depreciation. The initial book value will be set at or near the original capital cost of the Path 15 Project, based on the approval of construction costs.
- Path 15 Opco's working capital.
- The balance of Path 15 Opco's prepaid accounts and reserves.
- A reduction based on Path 15 Opco's deferred taxes.

Certain specific amounts initially allowed in the rate base for Path 15 Opco for these categories are currently the subject of a review by the FERC. In addition, an initial FERC order permitting Path 15 Opco to include a tax allowance in its rates has been challenged in the United States Court of Appeals for the District of Columbia Circuit. As of the date hereof, these proceedings are still pending. An adverse finding in these proceedings could result in Path 15 Opco being required to refund a portion of the amounts collected since December 2004, and/or reduce the return on investment portion of rates. A portion of the purchase price for the interests in Path 15 Holdco was placed in escrow pending final resolution of the ratemaking issues being considered by the FERC, the details of which are described below under "— Purchase and Sale Agreement". See "Risk Factors — Risks Relating to the Path 15 Project — Unresolved Ratemaking Issues Under FERC Review Could Adversely Affect Cash Flows" and "— Income Tax Allowances Included by Path 15 Opco in its Rates have been Challenged by Certain Parties and Path 15 Opco may be Subject to a Refund Liability".

The return on investment component of the annual revenue requirement is determined based on an approved weighted average cost of capital ("WACC") applied to the current rate base. Each utility's WACC is approved by the FERC in ratemaking proceedings. For a discussion on pending ratemaking proceedings, please see "Risk Factors — Risks Related to the Path 15 Project — Unresolved Ratemaking Issues Under FERC Review Could Adversely Affect Cash Flows".

#### **FERC-Approved Ratemaking Inputs**

In June 2002, prior to the construction of the Path 15 Project, the FERC approved the following ratemaking inputs to apply specifically to the Path 15 Project:

- Depreciation: 30-year straight-line return on investment and any additional capex.
- Income Tax: Standard gross-up of equity return on investment for income tax.
- Return on Investment: Level revenue requirement for the first three years of the operation of the Path 15 Project based on an assumed capital structure comprised of 50% debt and 50% equity for the purpose of determining Path 15 Opco's WACC and a 13.5% after-tax return on equity.

Applying the principles described above, in October 2004 (just prior to the completion of construction of the Path 15 Project), Path 15 Opco established its current revenue requirement, totalling \$36.0 million annually.

#### **Project-Level Financing**

As of the date hereof, there is fixed rate, amortizing debt outstanding at both Path 15 Opco (\$88.9 million) and Path 15 Holdco (\$51.9 million). In addition, Path 15 Opco has outstanding a short-term loan due in 2007. This indebtedness is non-recourse to the Company and Atlantic Holdings.

#### **Purchase and Sale Agreement**

Pursuant to a purchase and sale agreement dated as of June 28, 2006 (the "Purchase and Sale Agreement"), a subsidiary of Atlantic Holdings agreed to purchase all of the equity interests in Path 15 Holdco, for a purchase price of approximately \$85.5 million. In addition, non-recourse debt at Path 15 Opco and Path 15 Holdco combined of approximately \$144.4 million remains in place. The Acquisition was completed on September 15,

2006 following receipt of FERC approval and in accordance with the Purchase and Sale Agreement. \$24.1 million of the purchase price was placed in escrow pending final resolution of two ratemaking issues being considered by the FERC. If the FERC's resolution of the outstanding rate issues is favourable to Path 15 Opco, a portion or all of the amount held in escrow will be released to the Vendors in accordance with a formula set forth in the Purchase and Sale Agreement. If the FERC's resolution of the outstanding rate issues is not favourable to Path 15 Opco, the purchase price for the Acquisition will be reduced in accordance with a formula set forth in the Purchase and Sale Agreement and a portion or all of the amount held in escrow will be returned to Atlantic Holdings. The Purchase and Sale Agreement includes representations and warranties that are customary for a transaction of this nature, including representations and warranties relating to certain fundamental matters of corporate existence, capacity and authorization, as well as operational and business matters relating to Path 15 Holdco and Path 15 Opco. The representations and warranties relating to certain fundamental matters survive until the expiry of applicable limitation periods, while those regarding operational and business matters relating to Path 15 Holdco and Path 15 Opco survive for a period of six months following closing. Atlantic Holdings has also agreed to waive and hold the Vendors harmless against any claims with respect to environmental matters.

### **Acquisition Credit Facility**

Atlantic Holdings arranged the Acquisition Credit Facility to provide for a term loan of up to \$100 million to assist in financing the Acquisition. The Acquisition Credit Facility was drawn in the amount of \$88 million upon the closing of the Acquisition. Loans under the Acquisition Credit Facility bear interest at a rate equal to a Eurodollar Rate or a U.S. Base Rate, plus an applicable margin to those rates. The Acquisition Credit Facility matures on September 14, 2007 unless repaid earlier in accordance with its terms. Amounts drawn under the Acquisition Credit Facility are secured by a guarantee by the Company and a pledge of the Company's membership interests in Atlantic Holdings and are guaranteed by certain of its direct and indirect, wholly-owned subsidiaries. The obligations of Atlantic Holdings are secured by a pledge of its membership interests in the Project Holding Entities and the guarantees of certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries are secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases. The Company intends to use approximately Cdn\$41 million of the net proceeds of the Offering to repay a portion of the outstanding balance under the Acquisition Credit Facility. The remainder of the outstanding balance under the Acquisition Credit Facility is expected to be repaid with the proceeds of a long-term loan which is anticipated to be put in place during the fourth quarter of 2006. See "Use of Proceeds".

The Acquisition Credit Facility contains customary representations, warranties, covenants (including restrictions on incurring additional indebtedness), conditions to funding and events of default.

The Acquisition Credit Facility is a direct obligation of Atlantic Holdings and is guaranteed by certain of the entities from which the Company receives its cash distributions and as a result, the amounts owing under the Acquisition Credit Facility and any interest thereon will be payable in priority to any cash distributions to holders of IPSs.

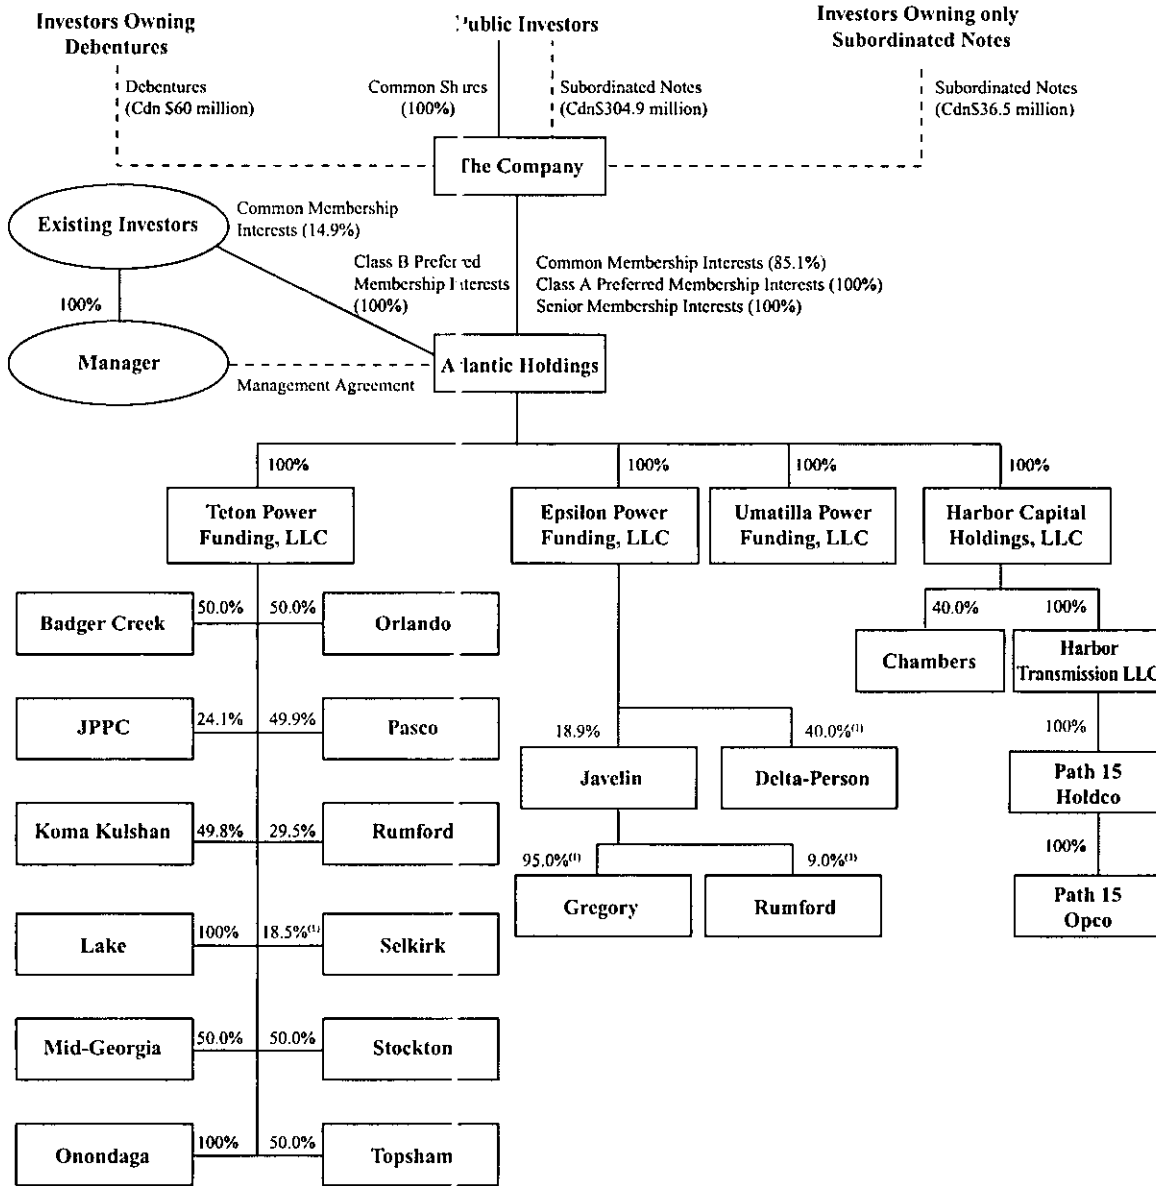

### **Amended Credit Facility**

The Company has amended its existing revolving credit facility to facilitate the completion of the Acquisition as well as to make certain other related changes, including to provide for a cross-default to the Acquisition Credit Facility.

At or prior to the closing of the Offering, it is anticipated that the revolving credit facility and the Acquisition Credit Facility will be further amended to provide for the Debentures and related security. It is anticipated that the amended revolving credit facility and Acquisition Credit Facility will also include cross-default provisions under which certain defaults and breaches under the Debentures will constitute an event of default under such credit facilities.

## STRUCTURE OF THE COMPANY

The following chart illustrates the structure of the Company immediately after giving effect to the Offering, the use of proceeds and the Acquisition.

(1) Represents Atlantic Holdings' estimate of its share of the cash flow from the Project.

## USE OF PROCEEDS

The net proceeds to the Company of the Offering of approximately Cdn\$142 million will be used by the Company, directly or indirectly, for the following purposes: (i) approximately Cdn\$101 million to redeem equity interests of Atlantic Holdings held by the Existing Investors; and (ii) approximately Cdn\$41 million to partially repay the Acquisition Credit Facility.

After giving effect to the issuance of Securities pursuant to the Offering and the transactions contemplated hereby, the Company will own an approximate 85% common membership interest in Atlantic Holdings and the Existing Investors will own an approximate 15% common membership interest in Atlantic Holdings.

## CONSOLIDATED CAPITALIZATION OF THE COMPANY

The table below sets out the consolidated capitalization of the Company. The historical amounts at December 31, 2005 and at June 30, 2006 were derived from the consolidated balance sheets of the Company as at December 31, 2005 and June 30, 2006, which are incorporated by reference in this short form prospectus. The *pro forma* amounts at June 30, 2006 give effect to the Acquisition, the Offering and the use of proceeds, as described herein.

<u>Designation (Authorized)</u>	<u>At December 31, 2005</u> <u>Historical</u> (000's)	<u>At June 30, 2006</u> <u>Historical</u> (000's)	<u>At June 30, 2006</u> <u>Pro Forma</u> (000's)
<b>Indebtedness:</b>			
Revolving credit facility . . . . .	\$ 10,000	\$ —	\$ —
Long-Term Debt, including current portion <sup>(1)</sup> . . .	246,040	234,801	450,457
Debentures <sup>(2)</sup> . . . . .	—	—	53,144
Subordinated Notes and Separate Subordinated Notes <sup>(3)</sup> . . . . .	<u>251,844</u>	<u>262,352</u>	<u>305,078</u>
<b>Total Indebtedness</b> . . . . .	<u><u>\$507,884</u></u>	<u><u>\$497,153</u></u>	<u><u>\$808,679</u></u>
<b>Shareholders' Equity:</b>			
Common Stock <sup>(3)</sup> . . . . .	\$148,025	\$148,025	\$184,434 <sup>(4)</sup>
Common Shares (Authorized — Unlimited) . . . .	44,339.5	44,339.5	52,870.5

(1) Excludes the Subordinated Notes and Separate Subordinated Notes.

(2) Converted to U.S. dollars at the Bank of Canada's closing rate on September 20, 2006 of U.S.\$1.00 equals Cdn\$1.129.

(3) Historical amounts converted to U.S. dollars at the Bank of Canada's closing rate on the applicable balance sheet date. Adjustments to give effect to the Acquisition and the Offering converted at the Bank of Canada's closing rate on September 20, 2006 of U.S.\$1.00 equals Cdn\$1.129.

(4) Includes proceeds of the offering of IPSs of approximately \$35,571 net of commissions and transaction costs attributable to the Common Shares.

## EARNINGS COVERAGE RATIOS

The *pro forma* earnings coverage ratio set forth below has been prepared using *pro forma* financial information which has been prepared in accordance with Canadian GAAP. The *pro forma* earnings assume that there are no additional earnings derived from the net proceeds of the sale of the Debentures. Earnings coverage is equal to net income before interest expense on all long-term debt and income taxes, divided by interest expense on long-term debt (after giving effect to the Offering and the Acquisition and the repayment of a portion of the Acquisition Credit Facility as described herein).

In accordance with the presentation and measurement requirements of Canadian GAAP and after giving effect to the Offering, the Acquisition and the repayment of a portion of the Acquisition Credit Facility, the Company's *pro forma* interest requirements for all long-term debt, including the current portion, would have amounted to approximately \$46.0 million and approximately \$47.2 million for the 12 months ended December 31, 2005 and June 30, 2006, respectively. The Company's earnings before interest and income tax for the 12 months ended December 31, 2005 and June 30, 2006, respectively, was approximately \$31.4 million and approximately \$34.9 million which is 0.68 and 0.74 times the Company's *pro forma* interest requirements for the period. The additional earnings required to achieve an earnings coverage ratio of 1.0 would have been approximately \$14.6 million and approximately \$12.4 million for the 12 months ended December 31, 2005 and June 30, 2006, respectively.

The Company's *pro forma* earnings before interest and taxes after giving effect to the earnings of Path 15 Holdco for the year ended December 31, 2005 would have been approximately \$60.8 million resulting in a *pro forma* earnings coverage ratio of 1.32.

The Company has determined that the fair value of the holder option embedded in the Debentures will be nominal at the time of issue and as a result the entire amount of the Debentures has been classified as a liability.

### RECORD OF CASH DISTRIBUTIONS

The following table sets forth the relevant period, date of payment and the per IPS amount of the distributions paid by the Company on the IPSs from inception (in Canadian dollars):

<u>Period</u>	<u>Payment Date</u>	<u>Per IPS Amount (Cdn\$)</u>
November 2004 .....	January 31, 2005	0.0361 <sup>(1)</sup>
December 2004 .....	January 31, 2005	0.0834
January 2005 .....	February 28, 2005	0.0834
February 2005 .....	March 31, 2005	0.0834
March 2005 .....	April 29, 2005	0.0834
April 2005 .....	May 31, 2005	0.0834
May 2005 .....	June 30, 2005	0.0834
June 2005 .....	July 29, 2005	0.0834
July 2005 .....	August 31, 2005	0.0834
August 2005 .....	September 30, 2005	0.0834
September 2005 .....	October 31, 2005	0.0859
October 2005 .....	November 30, 2005	0.0859
November 2005 .....	December 30, 2005	0.0859
December 2005 .....	January 31, 2006	0.0859
January 2006 .....	February 28, 2006	0.0859
February 2006 .....	March 31, 2006	0.0859
March 2006 .....	April 28, 2006	0.0859
April 2006 .....	May 31, 2006	0.0859
May 2006 .....	June 30, 2006	0.0859
June 2006 .....	July 31, 2006	0.0859
July 2006 .....	August 31, 2006	0.0859
August 2006 .....	September 29, 2006	0.0859

(1) Includes distributions for the period from November 18, 2004, the date of completion of the IPO, to November 30, 2004.

The Company intends to continue to make distributions per IPS on a monthly basis in arrears on the last business day of each month to holders of record on the last business day of the preceding month. Subscribers who purchase IPSs pursuant to this Offering will be eligible to receive the distribution, anticipated to be paid on or about November 30, 2006, to IPS holders of record on October 31, 2006.

On September 15, 2006, the Company announced an increase in its monthly distribution by Cdn\$0.0025 per IPS per month (Cdn\$0.03 annually). The first distribution at the increased rate will be paid on or about October 31, 2006 to IPS holders of record on September 29, 2006.

## DESCRIPTION OF IPSs

The Company is offering 8,531,000 IPSs in this Offering. Each IPS represents:

- one Common Share; and
- Cdn\$5.767 aggregate principal amount of Subordinated Notes.

The ratio of Common Shares to principal amount of Subordinated Notes represented by an IPS is subject to change in the event of a stock split, recombination or reclassification, or upon a partial redemption or repurchase of the Subordinated Notes.

DBRS confirmed, as of September 22, 2006, a stability rating of STA-3 (low) with respect to the IPSs. The stability rating is based on a rating scale developed by DBRS that provides an indication of both the stability and sustainability of an issuer's distributable income. Ratings categories range from STA-1 to STA-7, with STA-1 being the highest. DBRS further separates the ratings into high, middle and low to indicate where they fall within the ratings category. Ratings take into consideration the seven main factors of: (i) operating and industry characteristics; (ii) asset quality; (iii) financial profile; (iv) diversification; (v) size and market position; (vi) sponsorship/governance; and (vii) growth. Issuers rated at STA-3 are considered by DBRS to have good distributions per IPS stability and sustainability, but performance may be more sensitive to economic factors, have greater cyclical tendencies, and may not be as well diversified as an issuer with a STA-2 rating, resulting in some potential for distributions per unit to fluctuate. Such issuers will not be above average in all areas of consideration, but will tend to outperform in many areas.

A stability rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by DBRS.

For additional information respecting the IPSs, including voluntary separation and recombination and automatic separation of the IPSs, see "Description of IPSs" at pages 36 to 39 of the AIF.

## DESCRIPTION OF SUBORDINATED NOTES

Following completion of the Offering, there will be approximately Cdn\$341 million aggregate principal amount of Subordinated Notes outstanding, including approximately Cdn\$49 million aggregate principal amount of Subordinated Notes to be issued pursuant to the Offering. The Subordinated Notes will be issued under the Subordinated Note Indenture, among the Company, Atlantic Holdings, Computershare Trust Company of Canada, as trustee (the "Trustee") and certain others.

For additional information respecting the Subordinated Notes, including security and guarantees, optional redemption and restrictive covenants, see "Description of Subordinated Notes" at pages 39 to 44 of the AIF. The summary of certain provisions of the Subordinated Note Indenture in the AIF is subject to, and is qualified in its entirety by reference to, all the provisions of the Subordinated Note Indenture, a copy of which is available at [www.sedar.com](http://www.sedar.com).

## INFORMATION REGARDING GUARANTORS

The Subordinated Notes and the Debentures are secured by a pledge of the Company's membership interests in Atlantic Holdings and are guaranteed by Atlantic Holdings and certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries. The guarantee of Atlantic Holdings is secured by a pledge of its membership interests in Teton Power Funding, LLC and Epsilon Power Funding, LLC and the guarantees of certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries is secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases.

The consolidated financial statements of the Company include the consolidated financial results of the Company and its guarantor and non-guarantor subsidiaries. Summary consolidating financial information of the Company, the combined guarantor subsidiaries of the Company and the combined non-guarantor subsidiaries of

the Company as at and for the six month period ended June 30, 2006 and the year ended December 31, 2005 is as follows:

**SELECTED FINANCIAL INFORMATION**  
(000s)

	The Company		Guarantor Subsidiaries of the Company		Non-Guarantor Subsidiaries of the Company		Consolidation Adjustments		Consolidated

**DESCRIPTION OF DEBENTURES**

The Debentures will be issued under and pursuant to the provisions of a trust indenture to be dated the date of the closing of the Offering (the "Indenture") between the Company and Computershare Trust Company of Canada (the "Debenture Trustee"). The Debenture Trustee also acts as trustee for the Subordinated Notes issued pursuant to the terms of the Subordinated Note Indenture. See "Description of Subordinated Notes".

The following description of the Debentures is a brief summary of their material attributes and characteristics, which does not purport to be complete and is qualified in its entirety by reference to the Indenture. The following summary uses words and terms which will be defined in the Indenture. For full particulars, reference is made to the Indenture.

**General**

The aggregate principal amount of debentures authorized to be issued under the Indenture is unlimited. The Company may, from time to time, without the consent of the holders of the Debentures, issue additional

debentures in addition to the Debentures offered hereby. The Debentures will be issuable only in denominations of Cdn\$1,000 and integral multiples thereof. At the closing of the Offering, the Debentures will be available for delivery in book-entry form only through the facilities of CDS. Holders of beneficial interests in the Debentures will not have the right to receive physical certificates evidencing their ownership of Debentures except under certain circumstances described under “— Book Entry, Delivery and Form”. No fractional Debentures will be issued.

The Debentures will bear interest from the date of issue at a rate of 6.25% per annum payable semi-annually in arrears on April 30 and October 31 in each year, commencing on April 30, 2007 (each, an “Interest Payment Date”). The first interest payment will include accrued and unpaid interest for the period from the date of the closing of the Offering up to, but excluding April 30, 2007. Interest will be payable based on a 365-day year. The interest on the Debentures will be payable in lawful money of Canada as specified in the Indenture. At the option of the Company, subject to regulatory approval, the Company may deliver IPSs to its agent who shall sell such IPSs on behalf of the Company in order to raise funds to satisfy all or any part of the Company’s obligations to pay interest on the Debentures, but in any event, the holders of Debentures shall be entitled to receive cash payments equal to the interest payable on the Debentures. See “— IPS Interest Payment Election”. Any amounts paid or deemed to be paid as interest in respect of the Debentures will be subject to withholding tax as may be applicable.

The principal amount on the Debentures will be payable in lawful money of Canada as further described under “— Payment upon Redemption or Maturity” and “— Redemption and Purchase” and “— Put Right Upon a Change of Control” below.

The Debentures will be direct obligations of the Company and will be secured and will rank senior to the Company’s obligations with respect to all existing and future Subordinated Indebtedness including the Subordinated Notes, but will rank junior to all existing and future Senior Secured Indebtedness including the Amended Credit Facility and the Acquisition Credit Facility as further described under “— Ranking” below. The Indenture will not restrict the Company from incurring additional indebtedness for borrowed money or otherwise from mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing.

The Debentures will be transferable, and may be presented for conversion, at the principal offices of the Debenture Trustee in Toronto, Ontario.

### **Conversion Privilege**

The Debentures will be convertible at the holder’s option into fully-paid, non-assessable and freely-tradeable IPSs at any time prior to 5:00 p.m. (Toronto time) on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures, at a conversion price of Cdn\$12.40 per IPS (the “Conversion Price”), being a ratio of approximately 80.6452 IPSs for each Cdn\$1,000 principal amount of Debentures. No adjustment will be made to the record date for distributions on IPSs issuable upon conversion or for interest accrued on Debentures surrendered for conversion; however, holders converting their Debentures shall be entitled to receive, in addition to the applicable number of IPSs, accrued and unpaid interest in respect thereof for the period from the date of the latest Interest Payment Date to the date of conversion. Pursuant to the Indenture, a Debenture shall be deemed to be surrendered for conversion on the date on which it is so surrendered in accordance with the provisions of the Indenture and, in the case of a Debenture so surrendered by post or other means of transmission, on the date on which it is received in proper form by the Debenture Trustee at its principal offices in Toronto, provided that if a Debenture is surrendered for conversion on a day on which the register of IPSs is closed, the holder of the Debentures entitled to receive IPSs shall become the holder of record of such IPSs as at the date on which such register is next reopened. Notwithstanding the foregoing, no Debentures may be converted on any Interest Payment Date and during the five business days preceding April 30 and October 31 in each year, as the registers of the Debenture Trustee will be closed during such periods.

Subject to the provisions thereof, the Indenture will provide for the adjustment of the Conversion Price in certain events including: (a) the subdivision or consolidation of the outstanding IPSs; (b) the distribution of IPSs (or securities convertible into or exchangeable for IPSs) to all or substantially all holders of IPSs by way of

dividend or distribution or otherwise other than an issue of IPSs to holders of all or substantially all IPSs who have elected to receive dividends or distributions in the form of IPSs in lieu of receiving cash dividends or cash distributions paid in the ordinary course on the IPSs; (c) the issuance of options, rights or warrants to holders of IPSs entitling them to acquire IPSs or other securities convertible into or exchangeable for IPSs at less than 95% of the then Current Market Price of the IPSs; and (d) the distribution by the Company to all or substantially all holders of outstanding IPSs of (i) securities of any class other than IPSs, (ii) rights, options or warrants (excluding rights, options or warrants entitling the holders thereof for a period of not more than 45 days to subscribe for or purchase IPSs or securities convertible into IPSs), (iii) evidences of its indebtedness, or (iv) assets (excluding dividends or distributions paid (including payments on the Subordinated Notes) in the ordinary course). There will be no adjustment of the Conversion Price in respect of any event described in (a), (b), (c) or (d) above if, subject to prior regulatory approval, the holders of the Debentures are allowed to participate as though they had converted their Debentures prior to the applicable record date or effective date. The Company will not be required to make adjustments in the Conversion Price unless the cumulative effect of such adjustments would change the Conversion Price by at least 1%.

In the case of any reclassification or change (other than a change resulting only from consolidation or subdivision) of the IPSs (or either of the Common Shares or Subordinated Notes comprising the IPSs) or in case of any amalgamation, consolidation or merger of the Company with or into any other entity, or in the case of any sale, transfer or other disposition of the properties and assets of the Company as, or substantially as, an entirety to any other entity, or the liquidation, dissolution or winding-up of the Company, the terms of the conversion privilege shall be adjusted so that each Debenture shall, after such reclassification, change, amalgamation, consolidation, merger sale or conveyance or liquidation, dissolution or winding-up or other similar transactions, be exercisable for the kind and amount of securities or property of the Company, or such continuing, successor or purchaser entity, as the case may be, which the holder thereof would have been entitled to receive as a result of such reclassification, change, amalgamation, consolidation, merger or sale if on the effective date thereof it had been the holder of the number of IPSs into which the Debenture was convertible prior to the effective date of such reclassification, change, amalgamation, consolidation, merger or sale or conveyance or liquidation, dissolution or winding-up or other similar transactions.

Upon the conversion of Debentures into IPSs pursuant to the conversion privilege, the Company will allocate the fair market value of such Debentures between the Common Shares and Subordinated Notes represented by IPSs acquired on the conversion on a reasonable basis. Such determinations will be disclosed in the continuous disclosure documentation of the Company as filed with the applicable securities regulators from time to time and by purchasing a Debenture, the holder is deemed to agree to such allocation and agrees not to take a contrary position for any purpose.

No fractional IPSs will be issued on any conversion of the Debentures, but in lieu thereof the Company shall satisfy such fractional interest by a cash payment equal to the Current Market Price of such fractional interest.

### **Redemption and Purchase**

The Debentures may not be redeemed by the Company on or prior to October 31, 2009 (except in the case of a change of control). Thereafter, but prior to the Maturity Date, the Debentures may be redeemed in whole or in part from time to time at the option of the Company on not more than 60 days' and not less than 30 days' prior notice, at a redemption price equal to the principal amount thereof plus accrued and unpaid interest, provided that the weighted-average trading price of the IPSs on the TSX for the 20 consecutive trading days ending on the fifth trading day preceding the date on which notice of redemption is given (or, if IPSs are not listed on the TSX or any other market, the fair market value of the securities comprising an IPS as determined by an independent financial advisor retained by the Company) is at least 125% of the Conversion Price.

The Company or any of its affiliates will have the right to purchase Debentures in the market, by tender or by private contract subject to regulatory requirements, provided however, that if an event of default under the Indenture has occurred and is continuing, the Company or any of its affiliates will not have the right to purchase the Debentures.

In the case of redemption of less than all of the Debentures, the Debentures to be redeemed will be selected by the Debenture Trustee on a *pro rata* basis or in such other manner as the Debenture Trustee deems equitable, subject to the consent of the TSX.

The Indenture will contain a covenant that so long as Debentures are outstanding the Company will not redeem the Subordinated Notes unless it concurrently redeems the Debentures.

#### **Payment Upon Redemption or Maturity**

On redemption or on the Maturity Date, the Company will repay the indebtedness represented by the Debentures by paying to the Debenture Trustee in lawful money of Canada an amount equal to the principal amount of the outstanding Debentures, together with accrued and unpaid interest thereon.

#### **IPS Interest Payment Election**

Unless an event of default (as defined in the Indenture) has occurred and is continuing, the Company may elect, from time to time, subject to applicable regulatory approval, to issue and deliver freely-tradeable IPSs to its agent for sale in order to raise funds to satisfy the Company's obligations to pay interest on the Debentures in accordance with the Indenture (the "IPS Interest Payment Election") in which event holders of the Debentures will be entitled to receive a cash payment equal to the interest payable from the proceeds of the sale of such IPSs by the agent. The Indenture will provide that, upon such election, the agent shall (i) accept delivery of IPSs from the Company; (ii) accept bids with respect to, and consummate sales of, such IPSs, each as the Company shall direct in its absolute discretion; (iii) invest the proceeds of such sales in short-term Canadian government obligations which mature prior to the applicable Interest Payment Date and deliver proceeds to holders of Debentures sufficient to satisfy the Company's interest payment obligations; and (iv) perform any other action necessarily incidental thereto. The amount received by a holder in respect of interest will not be affected by whether or not the Company elects to utilize the IPS Interest Payment Election.

Neither the Company's making of the IPS Interest Payment Election nor the consummation of sales of IPSs pursuant thereto will (i) result in the holders of Debentures not being entitled to receive on the applicable Interest Payment Date cash in an aggregate amount equal to the interest payable on such Interest Payment Date; or (ii) entitle or require such holders to receive any IPSs in satisfaction of the interest payable on the applicable Interest Payment Date.

#### **Cancellation**

All Debentures converted, redeemed or purchased as aforesaid will be cancelled and may not be reissued or resold.

#### **Security and Guarantees**

The Debentures will be secured by a pledge of the Company's membership interests in Atlantic Holdings and will be guaranteed by Atlantic Holdings and certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries at the time of the closing of the Offering. The Guarantee of Atlantic Holdings will be secured by a pledge of the membership interests of the Project Holding Entities and the Guarantees of certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries will be secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases.

Onondaga Cogeneration Limited Partnership's Guarantee will be secured by a pledge of certain of the Onondaga Project assets. None of the other Project Operating Entities are providing a Guarantee and none of the other Project assets will be pledged to secure a guarantee of, or indebtedness under, the Debentures. As a result, in the event of a bankruptcy, liquidation or reorganization of any Project Operating Entity other than Onondaga Cogeneration Limited Partnership, such Project Operating Entity will be required to pay the holders of its debt and its trade creditors before any monies or assets would be available to distribute to its equity holders.

## **Ranking**

The Debentures will be secured indebtedness of the Company, will rank senior to Subordinated Indebtedness, but will rank junior to Senior Secured Indebtedness. Additionally, the Debentures will rank senior to any unsecured indebtedness of the Company (including trade payables) to the extent of the security therefor.

The indebtedness evidenced by each secured Guarantee will be secured indebtedness of each such Guarantor, and will be subordinated in right of payment, as set forth in the Indenture, to all existing and future Senior Secured Indebtedness of such Guarantor, including the Senior Secured Indebtedness under the Amended Credit Facility and the Acquisition Credit Facility but will rank senior to the Subordinated Notes and any unsecured indebtedness of each such Guarantor (including trade payables) to the extent of the security therefor.

The indebtedness evidenced by each unsecured Guarantee will be unsecured subordinated indebtedness of each such Guarantor and will be subordinated in right of payment, as set forth in the Indenture, to all existing and future secured indebtedness of such Guarantor, including the Senior Secured Indebtedness under the Amended Credit Facility and the Acquisition Credit Facility, and will rank *pari passu* in right of payment with all existing and future unsecured indebtedness of each such Guarantor (including trade payables) (unless stated otherwise in the instrument creating such Indebtedness).

The Indenture will not restrict the Company from incurring additional indebtedness for borrowed money or otherwise mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing.

## **Put Right Upon a Change of Control**

Upon the occurrence of a Change of Control of the Company, each holder of Debentures may require the Company to purchase, on the Put Date as set out below, the whole or any part of such holder's Debentures at a price equal to 101% of the principal amount thereof (the "Put Price") plus accrued and unpaid interest up to, but excluding, the Put Date.

If 90% or more of the aggregate principal amount of the Debentures outstanding on the date of the giving of notice of the Change of Control have been tendered for purchase on the Put Date, the Company will have the right to redeem all the remaining Debentures on such date at the Put Price, together with accrued and unpaid interest up to, but excluding, such date. Notice of such redemption must be given to the Debenture Trustee prior to the Put Date and as soon as possible thereafter, by the Debenture Trustee to the holders of the Debentures not tendered for purchase. The principal on the Debentures will be payable in lawful money of Canada.

The Indenture will contain notification provisions to the effect that:

- (a) the Company will promptly give written notice to the Debenture Trustee of the occurrence of a Change of Control and the Debenture Trustee will thereafter give to the holders of Debentures a notice of the Change of Control, the repayment right of the holders of Debentures and the right of the Company to redeem untendered Debentures under certain circumstances; and
- (b) a holder of Debentures, to exercise the right to require the Company to purchase its Debentures, must deliver to the Debenture Trustee, not less than five business days prior to the Put Date, written notice of the holder's exercise of such right, together with a duly endorsed form of transfer.

The Company will comply with the requirements of Canadian securities laws and regulations to the extent such laws and regulations are applicable in connection with the repurchase of the Debentures in the event of a Change of Control.

## **Modification**

The rights of the holders of the Debentures as well as any other series of debentures that may be issued under the Indenture may be modified in accordance with the terms of the Indenture. For that purpose, among others, the Indenture will contain certain provisions which will make binding on all holders of Debentures resolutions passed at meetings of the holders of Debentures by votes cast thereat by holders of not less than 25%

of the principal amount of the then outstanding Debentures present at the meeting or represented by proxy, or rendered by instruments in writing signed by the holders of not less than 66 $\frac{2}{3}$ % of the principal amount of the then outstanding Debentures. In certain cases, the modification will, instead of or in addition to the foregoing, require assent by the holders of the required percentage of Debentures of each particularly affected series. Under the Indenture, the Debenture Trustee will have the right to make certain amendments to the Indenture in its discretion, without the consent of the holders of Debentures.

### **Events of Default**

The Indenture will provide that an event of default in respect of the Debentures will occur if certain events described in the Indenture occur, including if any one or more of the following described events has occurred and is continuing with respect to the Debentures: (i) failure for 30 days to pay interest on the Debentures when due; (ii) failure to pay principal or premium, if any, on the Debentures, whether at maturity, upon redemption, by declaration or otherwise; (iii) certain events of bankruptcy, insolvency or reorganization of the Company under bankruptcy or insolvency laws; (iv) failure to make any payment when due in respect of any indebtedness having an aggregate principal amount of more than \$10,000,000; or (v) default in the observance or performance of any material covenant or condition of the Indenture and the continuance of such default for a period of 30 days after notice in writing has been given by the Debenture Trustee to the Company specifying the default and requiring the Company to rectify same. If an event of default has occurred and is continuing, the Debenture Trustee may, in its discretion, and shall, upon the request of holders of not less than 25% in principal amount of the then outstanding Debentures, declare the principal of (and premium, if any) and interest on all outstanding Debentures to be immediately due and payable.

### **Offers for Debentures**

The Indenture will contain provisions to the effect that if an offer is made for the Debentures then outstanding and not less than 90% of the principal amount of the Debentures then outstanding (other than Debentures held at the date of the take-over bid by or on behalf of the offeror or associates or affiliates of the offeror) are taken up and paid for by the offeror, the offeror will be entitled to acquire the Debentures held by holders of Debentures who did not accept the offer on the terms offered by the offeror, provided that the holders of Debentures will have the right to elect to be paid the fair value of their Debentures by providing notice to the offeror and following the other procedures set forth in the Indenture.

### **Ownership Restrictions**

There are ownership restrictions on the Debentures. The ownership restrictions that apply to the IPSs will apply equally to the holders of the Debentures. For a discussion of these ownership restrictions, please see “The Company — Limitations on ERISA Plan Ownership”, “The Company — Limitation on U.S. Resident Ownership” and “The Company — Limitations on Ownership by Electric Utilities and Others” on pages 41 to 43 of the AIF, which discussion is incorporated by reference herein.

### **Book Entry, Delivery and Form**

Debentures will be issued in the form of fully registered global Debentures (the “Global Debentures”) held by, or on behalf of, CDS or its successor (the “Depository”) as custodian for its participants.

All Debentures will be represented in the form of Global Debentures registered in the name of the Depository or its nominee. Purchasers of Debentures represented by Global Debentures will not receive Debentures in definitive form except in certain circumstances described in the Indenture. Rather, the Debentures will be represented only in “book-entry only” form (unless the Company, in its sole discretion, elects to prepare and deliver definitive Debentures in fully-registered form). Beneficial interests in Global Debentures, constituting ownership of the Debentures, will be represented through book-entry accounts of institutions (including the Underwriters) acting on behalf of beneficial owners, as direct and indirect participants of the Depository (the “participants”). Each purchaser of a Debenture represented by a Global Debenture will receive a customer confirmation of purchase from the Underwriter or Underwriters from whom the Debenture is purchased in accordance with the practices and procedures of the selling Underwriter or Underwriters. The

practices of the Underwriters may vary but generally customer confirmations are issued promptly after execution of a customer order. The Depository will be responsible for establishing and maintaining book-entry accounts for its participants having interests in Global Debentures.

If the Depository notifies the Company that it is unwilling or unable to continue as depository in connection with the Global Debentures, or if at any time the Depository ceases to be a clearing agency or otherwise ceases to be eligible to be a depository and the Company and the Debenture Trustee are unable to locate a qualified successor, or if the Company elects, in its sole discretion, to terminate the book-entry system, with the consent of the Debenture Trustee, or if under certain circumstances described in the Indenture, an event of default has occurred, beneficial owners of Debentures represented by Global Debentures at such time will receive Debentures in registered and definitive form (the "Definitive Debentures").

### **Transfer and Conversion of Debentures**

Transfers of interests in Debentures represented by Global Debentures will be effected through records maintained by the Depository for such Global Debentures or its nominees (with respect to interests of participants) and on the records of participants (with respect to interests of persons other than participants). Unless the Company elects, in its sole discretion, to prepare and deliver Definitive Debentures, beneficial owners who are not participants in the Depository's book-entry system, but who desire to purchase, sell or otherwise transfer ownership of or other interests in Global Debentures, may do so only through participants in the Depository's book-entry system. The ability of a beneficial owner of an interest in a Debenture represented by a Global Debenture to pledge the Debenture or otherwise take action with respect to such owner's interest in a Debenture represented by a Global Debenture (other than through a participant) may be limited due to the lack of a physical certificate.

Registered holders of Definitive Debentures may transfer such Debentures upon payment of taxes, duties or other charges incidental thereto, if any, by executing and delivering a form of transfer together with the Debentures to the Debenture Trustee at its principal offices in Toronto, Ontario, or such other city or cities as may from time to time be designated by the Company, whereupon new Debentures will be issued in authorized denominations in the same aggregate principal amount as the Debentures so transferred, registered in the names of the transferees. No transfer or conversion of a Debenture will be registered during the period beginning five business days before the day of the mailing of a notice of redemption of the Debentures and ending on the close of business on the day of such mailing or on any Interest Payment Date or during the period from the fifth business day preceding the Interest Payment Date.

### **Payments**

Payments of interest and principal on each Global Debenture will be made to the Depository or its nominee, as the case may be, as the registered holder of the Global Debenture. As long as the Depository or its nominee is the registered owner of a Global Debenture, such Depository or its nominee, as the case may be, will be considered the sole legal owner of the Global Debenture for the purposes of receiving payments of interest and principal on the Debentures and for all other purposes under the Indenture and the Debentures. The record date for the payment of interest will be that day which is the fifth business day preceding the applicable Interest Payment Date. Interest payments on Global Debentures will be made by electronic funds transfer or such other means as may be agreed to by the Debenture Trustee on the day interest is payable and delivered to the Depository or its nominee, as the case may be.

The Company understands that the Depository or its nominee, upon receipt of any payment of interest or principal in respect of a Global Debenture, will credit participants' accounts, on the date interest or principal is payable, with payments in amounts proportionate to their respective beneficial interest in the principal amount of such Global Debenture as shown on the records of the Depository or its nominee. The Company also understands that payments of interest and principal by participants to the owners of beneficial interests in such Global Debenture held through such participants will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name" and will be the responsibility of such participants. The responsibility and liability of the Company in respect of payments on Debentures represented by the Global Debenture is limited solely and exclusively, while

the Debentures are registered in Global Debenture form, to making payment of any interest and principal due on such Global Debenture to the Depository or its nominee.

If Definitive Debentures are issued instead of or in place of Global Debentures, payments of interest on each Definitive Debenture will be made by electronic funds transfer, if agreed to by the holder of the Definitive Debenture, or by cheque dated the Interest Payment Date and mailed to the address of the holder appearing in the register maintained by the registrar for the Debentures as soon as practicable following the applicable Interest Payment Date. Payment of principal at maturity will be made at the principal office of the paying agent in the City of Toronto (or in such other city or cities as may from time to time be designated by the Company) against surrender of the Definitive Debentures, if any.

### **Reports to Holders**

The Company shall file with the Debenture Trustee, within 15 days after the filing thereof with the securities commission or securities regulatory authority in the provinces in which the Company is a reporting issuer (the "Securities Commissions"), copies of the Company's annual report and the information, documents and other reports that the Company is required to file with the Securities Commissions and deliver to holders of IPSs. Notwithstanding that the Company may not be required to remain subject to the reporting requirements of the Securities Commissions, the Company shall provide to the Debenture Trustee (a) within 90 days after the end of each fiscal year, the annual financial statements of the Company, and (b) within 45 days after the end of each of the first three fiscal quarters of each fiscal year, interim financial statements of the Company which in each case shall, at a minimum, contain such information as is required to be provided in financial statements under the laws of Canada or any province thereof to security holders of a company with securities listed on the TSX, whether or not the Company has any of its securities so listed. Each of such reports will be prepared in accordance with Canadian disclosure requirements and accounting principles generally accepted in Canada. The Company will provide copies of such information, documents and reports to holders of Debentures upon request.

### **Governing Law**

Each of the Indenture and the Debentures are governed by, and construed in accordance with, the laws of the Province of Ontario and the federal laws of Canada applicable therein applicable to contracts executed and to be performed entirely in such Province.

### **PLAN OF DISTRIBUTION**

Pursuant to an underwriting agreement dated September 22, 2006 between the Company, Atlantic Holdings and the Underwriters (the "Underwriting Agreement"), the Company has agreed to issue and sell and the Underwriters have agreed to purchase on the closing date, being October 11, 2006 or such other date as may be agreed upon by the Company and the Underwriters, but in any event not later than October 31, 2006, subject to the conditions stipulated in the Underwriting Agreement, all but not less than all of the 8,531,000 IPSs offered hereby at a price of Cdn\$10.55 per IPS for total consideration of Cdn\$90,002,050 and Cdn\$60,000,000 aggregate principal amount of the Debentures, payable against delivery by the Company of certificates evidencing the Securities. The Securities are being offered to the public in all of the provinces and territories of Canada. The Offering price of the Securities was determined by negotiation between the Company and the Underwriters. The Underwriting Agreement provides that the Company will pay the Underwriters' fee of Cdn\$0.5275 per IPS and Cdn\$40.00 per Debenture, for an aggregate fee payable by the Company of Cdn\$6,900,103, in consideration for their services in connection with the Offering.

The Company has applied to list the IPSs (and the Common Shares forming part of such IPSs), the Debentures and the IPSs issuable upon conversion of the Debentures (and the Common Shares forming part of such IPSs) on the TSX. Listing will be subject to the Company fulfilling all of the listing requirements of the TSX.

The obligations of the Underwriters under the Underwriting Agreement are several and may be terminated at their discretion upon the occurrence of certain stated events. If an Underwriter fails to purchase the Securities which it has agreed to purchase, the other Underwriters may, but are not obligated to, purchase such Securities.

The Underwriters are, however, obligated to take up and pay for all Securities if any Securities are purchased under the Underwriting Agreement.

Certain of the Underwriters and their affiliates have in the past provided and may from time to time in the future provide certain commercial banking, financial advisory, investment banking and other services to the Company for which they will be entitled to receive separate fees. Affiliates of BMO Nesbitt Burns Inc. are lenders to a subsidiary of the Company under the Amended Credit Facility and the Acquisition Credit Facility. Accordingly, the Company may be considered a "connected issuer" of BMO Nesbitt Burns Inc. under applicable securities laws in certain Canadian provinces and territories. As at September 22, 2006, outstanding borrowings under the Acquisition Credit Facility totalled \$88 million and no amounts were drawn under the Amended Credit Facility. The Company intends to use approximately Cdn\$41 million of the net proceeds from the Offering to partially repay its outstanding borrowings under the Acquisition Credit Facility. The Company is in compliance with the terms of the Acquisition Credit Facility and the Amended Credit Facility. Since the execution of the Acquisition Credit Facility and the Amended Credit Facility, respectively, the lenders have not waived a breach, on the part of the Company, of the Acquisition Credit Facility or the Amended Credit Facility. Other than as a result of the Acquisition, the financial position of the Company has not changed in any material manner since such indebtedness was incurred. For further details on the Acquisition Credit Facility, see "Path 15 Project — Acquisition Credit Facility". The decision to issue the Securities and the determination of the terms of the distribution were made through negotiations between the Company and the Underwriters. The lender of which BMO Nesbitt Burns Inc. is an affiliate did not have any involvement in such decision or determination. Other than as described above, none of the Underwriters or their affiliates will receive any benefit from the Offering except for the Underwriters' respective portions of the underwriting commissions payable by the Company.

Pursuant to policy statements of certain securities regulators, Underwriters may not, throughout the period of distribution, bid for or purchase IPSs or Debentures. The foregoing restriction is subject to exceptions, on the condition that the bid or purchase is not engaged in for the purpose of creating actual or apparent active trading in, or raising the price of, the IPSs or Debentures (as the case may be). These exceptions include bids or purchases permitted under the Universal Market Integrity Rules for Canadian Marketplaces of Market Regulation Services Inc. relating to market stabilization and passive market making activities and bids or purchases made for and on behalf of a customer where the order was not solicited during the period of distribution. Under the first mentioned exception, in connection with this Offering, the Underwriters may over-allot or effect transactions that stabilize or maintain the market price of the IPSs or Debentures (as the case may be) at levels other than those which might otherwise prevail in the open market. Those transactions, if commenced, may be interrupted or discontinued at any time.

The Company has agreed with the Underwriters not to issue, offer, sell, contract to sell or otherwise dispose of any IPSs, Debentures, Common Shares or Subordinated Notes of the Company or any securities convertible into or exercisable or exchangeable for any IPSs, Debentures, Common Shares or Subordinated Notes of the Company or financial instruments convertible into or exercisable or exchangeable for IPSs, Debentures, Common Shares or Subordinated Notes of the Company, or announce any intention to effect any of the foregoing, other than pursuant to a private sale for purposes of satisfying an exercise by the Existing Investors of their liquidity rights with respect to membership interests in Atlantic Holdings, for a period of 90 days from the date of Closing without the prior written consent of BMO Nesbitt Burns Inc., on behalf of the Underwriters, which consent may not be unreasonably withheld.

Subscribers under the Offering will be eligible to receive the distribution in the amount of Cdn\$0.0884 per IPS to be paid by the Company on or about November 30, 2006 to IPS holders of record on October 31, 2006.

The Securities have not been and will not be registered under the U.S. Securities Act, or any state securities laws, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the U.S. Securities Act).

The Securities are issued in "book-entry only" form and must be purchased or transferred through a CDS Participant. At closing, the Company will cause a global certificate or certificates representing the Securities to be delivered to, and registered in the name of, CDS or its nominee. All rights of holders of Securities must be exercised through, and all payments or other property to which such holder is entitled will be made or delivered

by, CDS or the CDS Participant through which the holder of Securities holds such Securities. Each person who acquires Securities will receive only a customer confirmation of purchase from the Underwriter or registered dealer from or through which the Securities are acquired in accordance with the practices and procedures of that Underwriter or registered dealer. The practices of registered dealers may vary, but generally customer confirmations are issued promptly after execution of a customer order. CDS is responsible for establishing and maintaining book-entry accounts for its CDS Participants having interests in the Securities. See "Description of IPSs" and "Description of Debentures".

#### INTEREST OF EXPERTS

The matters referred to under "Eligibility for Investment" and "Certain Canadian Federal Income Tax Considerations" and certain other Canadian legal matters relating to the Securities offered by this short form prospectus will be passed upon at the date of the closing of the Offering on behalf of the Company by Goodmans LLP and on behalf of the Underwriters by Blake, Cassels & Graydon LLP. The matters referred to under "Certain U.S. Federal Income Tax Considerations" and certain other U.S. legal matters relating to the Securities offered by this short form prospectus will be passed upon at the date of the closing of the Offering on behalf of the Company by Goodwin Procter LLP.

As at the date hereof, the partners and associates of each of Goodmans LLP, Blake, Cassels & Graydon LLP and Goodwin Procter LLP, beneficially own, directly or indirectly, less than 1% of the outstanding securities of the Company.

#### CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Goodmans LLP, Canadian counsel to the Company and Blake, Cassels & Graydon LLP, counsel to the Underwriters, the following is, as of the date of this short form prospectus, a summary of the principal Canadian federal income tax considerations generally applicable under the *Income Tax Act* (Canada) and the regulations thereunder (the "Tax Act") to a holder who acquires Common Shares and Subordinated Notes as represented by the IPSs or the Debentures pursuant to this Offering and who, for purposes of the Tax Act and at all relevant times, is resident or is deemed to be resident in Canada, holds the Common Shares and Subordinated Notes represented by the IPSs and the Debentures as capital property and deals at arm's length and is not affiliated with the Company (a "Holder" for the purposes of this section only). Generally, the Common Shares and Subordinated Notes represented by the IPSs and the Debentures will be considered to be capital property to a Holder provided that the Holder does not hold such securities in the course of carrying on a business of buying and selling securities and has not acquired them in one or more transactions considered to be an adventure in the nature of trade. Certain Holders who might not otherwise be considered to hold their Common Shares and Subordinated Notes represented by IPSs or Debentures as capital property may, in certain circumstances, be entitled to have them treated as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act.

This summary is not applicable to a Holder that is a "financial institution" (as defined in the Tax Act for purposes of the mark-to-market rules), a "specified financial institution" or a Holder an interest in which is a "tax shelter investment" (all as defined in the Tax Act).

This summary is based upon the facts set out in this short form prospectus, the provisions of the Tax Act in force on the date of this short form prospectus, counsels' understanding of the current published administrative policies and assessing practices of the CRA and certificates from the Company as to certain factual matters. This summary takes into account all specific proposals to amend the Tax Act which have been publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date of this short form prospectus. There can be no assurance that any such tax proposals will be implemented in their current form or at all. This summary does not otherwise take into account or anticipate any changes in law, whether by legislative, governmental or judicial decision or action, or administrative policies or assessing practices, and does not take into account any provincial, territorial or foreign tax legislation or considerations which may differ significantly from those discussed in this short form prospectus.

**This summary is of a general nature only and is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in Common Shares and Subordinated Notes represented by IPSs or**

**Debentures.** Moreover, the income or other tax consequences of acquiring, holding or disposing of Common Shares and Subordinated Notes represented by IPSs or Debentures will vary depending on the Holder's particular circumstances, including the province or territory or provinces or territories in which the Holder resides or carries on business. Accordingly, this summary is of a general nature only and is not intended to be legal or tax advice to any prospective purchaser of Common Shares and Subordinated Notes represented by IPSs or Debentures. Investors should consult their own tax advisors for advice with respect to the tax consequences of an investment in Common Shares and Subordinated Notes represented by the IPSs and the Debentures based on their particular circumstances.

#### **Nature of IPSs**

In acquiring an IPS, a Holder will be acquiring ownership of the Common Share and Subordinated Notes represented by such IPS. The Common Share and Subordinated Notes represented by an IPS are separate properties and, accordingly, the price paid by a Holder for an IPS must be allocated on a reasonable basis between the Common Share and Subordinated Notes represented by the IPS in order to determine their respective cost to the Holder for purposes of the Tax Act. The Company proposes to allocate the price paid for each IPS on the basis of Cdn\$4.90 to the Common Share and Cdn\$5.65 to the Subordinated Notes and, by purchasing an IPS, a Holder is deemed to agree to such allocation. Although the Company believes this allocation to be reasonable, such allocation is not binding on the CRA. The cost to the Holder of the Common Shares and Subordinated Notes represented by IPSs acquired pursuant to the Offering must be averaged with the adjusted cost base of all other Common Shares and Subordinated Notes, respectively, held as capital property by the Holder at that time for purposes of calculating adjusted cost base of the Common Shares and Subordinated Notes represented by IPSs so acquired.

In disposing of an IPS, a Holder will be disposing of the Common Share and Subordinated Notes represented by such IPS. Any proceeds from the disposition (or deemed disposition) of an IPS must be allocated on a reasonable basis between the Common Share and Subordinated Notes represented by such IPS.

The separation by a Holder of an IPS into the Common Share and Subordinated Notes represented by such IPS will not be a disposition for purposes of the Tax Act, and, as such, the Holder will not realize a gain or loss upon such separation of the IPS into a Common Share and Subordinated Notes. The Holder's adjusted cost base of the Common Share and Subordinated Notes represented by an IPS will not be affected by such separation of an IPS into a Common Share and Subordinated Notes. Similarly, the combination by a Holder of a Common Share and Subordinated Notes into an IPS representing such Common Share and Subordinated Notes will not be a disposition for purposes of the Tax Act, and, as such, the Holder will not realize a gain or loss upon such delivery of the Common Share and Subordinated Notes in return for an IPS representing such Common Share and Subordinated Notes. The Holder's adjusted cost base of the Common Share and Subordinated Notes will not be affected by such delivery of the Common Share and Subordinated Notes in return for an IPS representing such Common Share and Subordinated Notes.

#### **Taxation of the Company**

The Company will be taxable on its income determined under the Tax Act for each taxation year. The Company has advised counsel that it expects that all or substantially all of the actual revenues of the Company will continue to consist of distributions from Atlantic Holdings. Atlantic Holdings is considered to be a corporation for Canadian income tax purposes and is a "foreign affiliate" and a "controlled foreign affiliate" of the Company for Canadian income tax purposes. Dividends paid by Atlantic Holdings to the Company will be included in computing the income of the Company. However, to the extent that such dividends are considered to have been paid out of the "exempt surplus" of Atlantic Holdings with respect to the Company, the amount of such dividends is deductible in computing the taxable income of the Company. Furthermore, to the extent dividends are considered to have been paid out of the "pre-acquisition surplus" of Atlantic Holdings with respect to the Company, the amount of such dividends are also deductible in computing the taxable income of the Company. However, the adjusted cost base to the Company of its membership interest in Atlantic Holdings is reduced to the extent that such dividends are considered to have been paid out of the "pre-acquisition surplus" of Atlantic Holdings with respect to the Company. If the adjusted cost base to the Company of its membership interest in Atlantic Holdings becomes a negative amount, the Company will be deemed to realize a capital gain equal to such amount for that year. To the extent that Atlantic Holdings or any other controlled

foreign affiliate of the Company earns income that qualifies as “foreign accrual property income” (“FAPI”), the FAPI allocable to the Company must be included in computing the income of the Company for Canadian income tax purposes, whether or not the Company actually receives a distribution of FAPI. Any amount so included in the income of the Company increases the adjusted cost base to the Company of its membership interest in Atlantic Holdings. At such time as the Company receives a dividend of this type of income that was previously treated as FAPI (“previously included FAPI”), that dividend will effectively not be taxable to the Company and there will be a corresponding reduction in the adjusted cost base to the Company of its membership interest in Atlantic Holdings. FAPI earned by a non-controlled foreign affiliate of the Company will be treated as “taxable surplus” which will only be taxed when distributed to the Company. The Company has advised counsel that it reasonably expects that dividends to be paid by Atlantic Holdings to the Company will be considered to be paid substantially out of the “exempt surplus” and “pre-acquisition surplus” of Atlantic Holdings with respect to the Company and, to a much lesser extent, out of “previously included FAPI” or “taxable surplus”. The Company has advised counsel that it reasonably expects that the total of (i) the amount of FAPI allocable to the Company, (ii) the amount of dividends considered to have been paid by Atlantic Holdings to the Company out of the “taxable surplus” of Atlantic Holdings with respect to the Company (other than those paid out of “previously included FAPI”), (iii) the amount of taxable capital gains arising from the receipt of dividends out of the “pre-acquisition surplus” of Atlantic Holdings with respect to the Company, and (iv) other taxable income of the Company, if any, in respect of a period will continue to be less than the amount of interest payable on the Subordinated Notes in respect of the period.

To the extent that the proceeds from the issuance of the Subordinated Notes and the Debentures are used for the purpose of earning income, the Company will generally be entitled to deduct the interest paid by it on the Subordinated Notes and the Debentures in computing its income. To the extent that the deduction for interest on the Subordinated Notes and the Debentures and other deductible expenses of the Company creates a loss in a taxation year of the Company that loss will be a non-capital loss which may be carried back for three taxation years and forward for twenty taxation years and applied against the income of the Company (including taxable capital gains) for such years subject to the detailed rules in the Tax Act in that regard.

On October 31, 2003, the Department of Finance (Canada) released, for public comment, proposed amendments to the Tax Act that relate to the deductibility of interest and other expenses for income tax purposes for taxation years commencing after 2004. In general, these proposed amendments may deny the realization of losses by a taxpayer in respect of a business or property in a year if there is no reasonable expectation in that year that the business or property will produce a cumulative profit over the period that the business can reasonably be expected to be carried on or that the property can reasonably be expected to be held by the taxpayer. On February 23, 2005, the Minister of Finance (Canada) announced that an alternative proposal will be released for comment at an early opportunity that will address concerns that had been expressed during the consultation process on the “reasonable expectation of profit” test and the potential limitation on deductibility of ordinary commercial expenses.

#### **Taxation of Dividends, Interest and Capital Gains**

Since a Holder who holds an IPS will own the Common Share and Subordinated Notes represented by such IPS, the income tax consequences under the Tax Act of owning and disposing of an IPS (including the taxation of dividends and interest on the Common Share and Subordinated Notes, respectively, and the tax treatment of disposing of the Common Share and Subordinated Notes upon the disposition of an IPS representing such securities) will not differ from those associated with owning and disposing of those securities as is described below.

### *Interest on the Subordinated Notes and Debentures*

A Holder that is a corporation, partnership, unit trust or a trust of which a corporation or partnership is a beneficiary will be required to include in computing its income for a taxation year all interest that accrues to such Holder on the Subordinated Notes or Debentures to the end of that year or that becomes receivable or is received by the Holder before the end of that year, except to the extent that such interest was included in computing the Holder's income for a preceding taxation year. Any other Holder, including an individual, will be required to include in computing its income for a taxation year all interest on the Subordinated Notes or Debentures that is received or receivable by such Holder in that year (depending on the method regularly followed by the Holder in computing income) to the extent that such interest was not included in computing the Holder's income for a preceding taxation year. In addition, a Holder may be required to include in computing its income for a taxation year any interest that accrues to the Holder on the Subordinated Notes or Debentures up to any "anniversary day" (as defined in the Tax Act) of the Subordinated Notes or Debentures, respectively, in the year to the extent that such amount was not otherwise included in the Holder's income for that or a preceding taxation year. If interest on the Subordinated Notes or Debentures is deferred, a Holder may be required to include such amount in computing its income in accordance with the foregoing even though the Holder has not received a cash interest payment.

A Holder that is a "Canadian controlled private corporation" (as defined in the Tax Act) may be liable to pay a refundable tax of 6½% on investment income, including interest income on the Subordinated Notes or Debentures.

The amount of interest on the Subordinated Notes or Debentures to be included in a Holder's income as described above will include United States withholding tax, if any, imposed in respect of the interest. To the extent that United States withholding tax is imposed in respect of interest on the Subordinated Notes or Debentures, the amount of such tax generally may be eligible for foreign tax credit or deduction treatment where applicable, subject to the detailed rules and limitations under the Tax Act, including the requirement for the credit that the Holder have sufficient United States source income (which would not include interest on the Subordinate Notes or Debentures). Holders are advised to consult their own tax advisors with respect to the availability of a credit or deduction to them having regard to their particular circumstances.

### *Exercise of the Conversion Privilege for Debentures*

A Holder of Debentures who exercises the conversion privilege and receives Common Shares and Subordinated Notes represented by IPSs will be considered to have disposed of the Debentures for proceeds of disposition equal to the aggregate of the fair market value of the Common Shares and Subordinated Notes represented by IPSs so acquired at that time and the amount of any cash received in lieu of fractional IPSs. The Holder may realize a capital gain or capital loss computed as described below under "— Capital Gains and Losses". The cost to the Holder of the Common Shares and Subordinated Notes represented by IPSs acquired on a conversion of Debentures will be equal to their respective fair market value at that time based on a reasonable allocation of the fair market value of the Debentures so converted. As described above under "Description of Debentures — Conversion Privilege" the Company will allocate the fair market value of Debentures which are converted between the Common Shares and Subordinated Notes represented by IPSs acquired on the conversion on a reasonable basis and will disclose the basis for such determinations in its continuous disclosure documentation. By purchasing a Debenture, a Holder is deemed to agree to such allocation. Although the Company believes that the basis it will use for the allocation will be reasonable, such allocation will not be binding on the CRA. Such cost must be averaged with the adjusted cost base of all other Common Shares and Subordinated Notes, respectively, held as capital property by the Holder at that time for purposes of calculating the adjusted cost base of the Common Shares and Subordinated Notes represented by IPSs so acquired.

### *Disposition of Subordinated Notes or Debentures*

On a disposition or a deemed disposition of Subordinated Notes or Debentures, including a redemption, repayment at maturity, or a conversion in the case of the Debentures, a Holder will generally be required to include in computing its income for the taxation year in which the disposition occurs the amount of interest

accrued on the Subordinated Notes or Debentures from the date of the last interest payment to the date of disposition, except to the extent that such interest has otherwise been included in computing the Holder's income for that year or a preceding taxation year.

Any amount paid by the Company as a penalty or bonus because of early repayment of all or part of the principal amount of the Subordinated Notes or Debentures will be deemed to be received by the Holder as interest on the Subordinated Notes or Debentures, respectively, and included in computing the Holder's income as described above, to the extent such amount can reasonably be considered to relate to, and does not exceed the value at the time of payment of, interest that would otherwise have been payable on the Subordinated Notes or Debentures, respectively, for periods ending after the payment of such amount.

In general, a disposition or a deemed disposition of a Subordinated Note or Debenture by a Holder will give rise to a capital gain (or a capital loss) equal to the amount by which the proceeds of disposition, net of any amount included in computing the Holder's income as interest and any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of the Subordinated Note or Debenture, respectively, to the Holder immediately before the disposition (which will reflect any discount on the issuance of such Subordinated Note or Debenture). A Holder who receives Common Shares and Subordinated Notes represented by IPSs on the exercise of the conversion privilege in respect of the Debentures will be deemed to have disposed of such Debentures for proceeds of disposition equal to the fair market value at that time of the Common Shares and Subordinated Notes represented by IPSs so acquired. See "— Capital Gains and Losses" below.

#### *Dividends on the Common Shares*

Dividends received or deemed to be received by a Holder on the Common Shares will be required to be included in computing the Holder's income for purposes of the Tax Act. Dividends received or deemed to be received by a Holder who is an individual will be subject to the gross-up and dividend tax credit rules generally applicable to taxable dividends received by an individual from taxable Canadian corporations. The Notice of Ways and Means Motion that accompanied the May 2, 2006 Federal Budget proposes to enhance the dividend gross-up and tax credit mechanism applicable to certain eligible dividends payable by corporations resident in Canada after 2005. Draft legislation relating to these proposed amendments was released on June 29, 2006. Under the draft legislation, a dividend will be eligible for the enhanced gross-up and dividend tax credit if the dividend recipient receives written notice from the paying corporation designating the dividend as an "eligible dividend". There may be limitations on the ability of a corporation to designate dividends as "eligible dividends". There can be no assurance that this proposal will be enacted. A Holder that is a corporation generally will be entitled to deduct the amount of the dividend received or deemed to be received in computing its taxable income. A Holder that is a "private corporation" or "subject corporation" (as such terms are defined in the Tax Act) will generally be liable under Part IV of the Tax Act to pay a refundable tax of 33 $\frac{1}{3}$ % of the dividends received or deemed to be received on the Common Shares to the extent that such dividends are deductible in computing the Holder's taxable income.

#### *Disposition of the Common Shares*

A disposition or deemed disposition of Common Shares by a Holder will generally give rise to a capital gain (or capital loss) to the extent that the proceeds of disposition, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base to the Holder of the Common Shares immediately before the disposition. See "— Capital Gains and Losses" below.

#### *Capital Gains and Losses*

One-half of the amount of any capital gain (a "taxable capital gain") realized by a Holder in a taxation year must be included in computing such Holder's income for that year, and one-half of any capital loss (an "allowable capital loss") realized by a Holder in a taxation year may be deducted from any taxable capital gains realized by the Holder in the year. Allowable capital losses in excess of taxable capital gains realized in a taxation year may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any following taxation year against taxable capital gains realized in such years, subject to and in accordance with the provisions of the Tax Act. A capital loss realized by certain Holders in respect of the

disposition or deemed disposition of Common Shares may be reduced in certain circumstances by the amount of any dividends, including deemed dividends, that have been received by such Holders on the Common Shares to the extent and in the manner provided for in the Tax Act.

A holder that is a Canadian controlled private corporation (as defined in the Tax Act) may be liable to pay an additional refundable tax of 6 $\frac{2}{3}$ % on investment income, including taxable capital gains.

#### *Alternative Minimum Tax*

Individuals, including certain trusts, are subject to an alternative minimum tax. Dividends received or deemed to be received on the Common Shares and capital gains realized on a disposition or deemed disposition of Common Shares or Subordinated Notes represented by IPSs or Debentures may increase a Holder's liability for alternative minimum tax. Holders should consult their own advisors with respect to alternative minimum tax.

### **CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS**

In the opinion of Goodwin Procter LLP, U.S. tax counsel to the Company ("U.S. Tax Counsel"), the following summary describes, as of the date of this short form prospectus, the material U.S. federal income tax considerations applicable to Non-U.S. Holders with respect to the purchase, ownership and disposition of IPSs, Debentures, Subordinated Notes or Common Shares. This summary is directed only to prospective purchasers of IPSs or Debentures in the Offering who are not U.S. persons under the Code. In addition to this summary, see "Risk Factors — Risks Related to the Structure of the Issuer and the Offering — U.S. Federal Income Tax Risks" in the AIF.

**To ensure compliance with IRS Circular 230, purchasers of IPSs or Debentures are hereby notified that: (a) any discussion of federal tax issues in this short form prospectus is not intended or written by U.S. Tax Counsel to be relied upon, and cannot be relied upon by such purchasers, for the purpose of avoiding U.S. Federal Tax penalties that may be imposed under the Code; (b) such discussion is written to support the promotion or marketing of the transactions addressed herein; and (c) each prospective purchaser of an IPS or Debenture should seek based on his, her or its particular circumstances from an independent tax advisor.**

Prospective purchasers of IPSs or Debentures should note that no rulings have been or will be sought from the IRS with respect to any of the U.S. federal income tax issues discussed in this summary. No statutory, administrative or judicial authority directly addresses the treatment of IPSs or instruments similar to IPSs or Debentures for U.S. federal income tax purposes. As a result, there can be no assurance that the IRS will not successfully challenge the conclusions reached in this summary. U.S. federal income tax treatment that is different from the conclusions reached in this summary could result in reduced payments to Non-U.S. Holders.

This summary does not address all aspects of U.S. federal income taxation that may be relevant to Non-U.S. Holders in light of their personal circumstances. This summary does not address the U.S. federal income taxation of Non-U.S. Holders whose income from the ownership or disposition of IPSs, Debentures, Subordinated Notes or Common Shares is effectively connected with the conduct of a trade or business within the United States under the Code, nor does this summary address the U.S. federal income taxation of Non-U.S. Holders subject to special treatment under U.S. federal income tax laws, such as financial institutions, broker dealers, life insurance companies and tax-exempt organizations. This summary does not address the tax considerations applicable to persons who hold IPSs, Debentures, Subordinated Notes or Common Shares through a partnership. The U.S. federal income tax rules covering partnerships are complex. Persons that hold IPSs, Debentures, Subordinated Notes or Common Shares through one or more partnerships should consult their own tax advisors regarding the application of the U.S. federal income tax considerations discussed in this summary. This summary does not address the U.S. state or local tax considerations applicable to Non-U.S. Holders, nor does it address any tax consequences applicable to U.S. Holders.

This summary is not exhaustive of all possible U.S. federal income tax considerations applicable to an investment in IPSs or Debentures. This summary is of a general nature only and is not intended to be legal or tax advice to any prospective purchaser of IPSs or Debentures. Prospective purchasers should consult their own tax advisors in determining the application to them of the U.S. federal income tax consequences set forth below and

any other U.S. federal, state, local, foreign or other tax consequences to them of the purchase, ownership and disposition of IPSs, Debentures, Subordinated Notes or Common Shares.

This summary is based on the Code, Treasury Regulations, IRS rulings and official pronouncements, judicial decisions and the Canadian Treaty, all as in effect on the date of this short form prospectus and all of which are subject to change, possibly with retroactive effect, or different interpretations, which could affect the accuracy of the statements and conclusions set forth below and the U.S. federal income tax consequences to Non-U.S. Holders. This summary is also based on certain certifications and determinations made by the Company and an independent financial advisor.

For purposes of this summary, a "Non-U.S. Holder" means a Holder that is not: (i) a citizen or individual resident in the United States for U.S. federal income tax purposes; (ii) a corporation or other entity taxable as a corporation created or organized under the laws of the United States or a political subdivision thereof; (iii) an estate, the income of which is subject to U.S. federal income tax regardless of the source; or (iv) a trust, if (A) a court within the United States is able to exercise primary supervision over the trust's administration and one or more United States persons have the authority to control all of its substantial decisions, or (B) the trust was in existence on August 20, 1996 and has properly elected under applicable Treasury Regulations to continue to be treated as a United States person. A "U.S. Holder" means any Holder that is not a Non-U.S. Holder.

## **Taxation of Non-U.S. Holders**

### *Allocation of Purchase Price of IPSs*

Ownership of IPSs should be treated for U.S. federal income tax purposes as direct ownership of the Subordinated Notes or Common Shares constituting the IPSs. The Company intends to treat the IPSs in this manner for all purposes and, by purchasing IPSs, the Non-U.S. Holder agrees to such treatment. If the treatment of the IPSs as ownership of the two underlying securities is not respected, then the IPSs could be treated as only a single security, which likely would be treated as equity of the Company rather than debt from a U.S. tax perspective. The remainder of this discussion assumes that the Company's intended treatment of ownership of an IPS as direct ownership of two separate securities will be respected for U.S. federal income tax purposes.

For U.S. federal income tax purposes, the purchase price of an IPS should be allocated between its constituent Common Share and Subordinated Notes in proportion to the respective fair market values of each at the time of purchase. For each IPS in this Offering, the Company will report the initial fair market value of the constituent Common Share as Cdn\$4.90 and the initial fair market value of the constituent Subordinated Notes as equal to Cdn\$5.65 and, by purchasing IPSs in this Offering, the Non-U.S. Holder agrees to such allocation and agrees to not take a contrary position for any purpose. This allocation should result in the discount on the Subordinated Notes falling under a "de minimis" exception to the original issue discount ("OID") rules. This allocation, however, is not binding on the IRS or the courts, and the IRS may challenge this allocation. If this allocation is not respected, it is possible that the Subordinated Notes will be treated as having been issued with OID that is not de minimis. Assuming a Non-U.S. Holder satisfies the Portfolio Interest Exemption requirements described below under "Interest Received on Subordinated Notes", such Non-U.S. Holder would not be subject to withholding with respect to any such OID. If a Non-U.S. Holder failed to satisfy those requirements and any OID was determined to exceed the de minimis threshold, OID on the Subordinated Notes would be subject to a 30% U.S. withholding tax, unless such Non-U.S. Holder otherwise establishes an exemption from or reduced rate of withholding under a tax treaty and satisfies certain documentation requirements. In general, under the Canadian Treaty, Canadian residents would be entitled to a 10% withholding tax rate. The remainder of this discussion assumes that the Company's allocation of the Offering purchase price will be respected for U.S. federal income tax purposes.

### *Interest Received on Subordinated Notes and Debentures*

Provided that the Subordinated Notes and the Debentures are respected as debt for U.S. federal income tax purposes (see "Taxation of the Company — Classification of Subordinated Notes and Debentures as Debt" below), since more than 80% of the assets of the Company are U.S. assets, interest paid on the Subordinated Notes and the Debentures will be "branch interest" under Code section 884 and will be treated as if paid by a

U.S. corporation. As such, interest paid on the Subordinated Notes to Non-U.S. Holders should qualify for the "Portfolio Interest Exemption" from U.S. federal income tax, provided:

- (a) the Non-U.S. Holder is not a Disqualified Recipient, and
- (b) either: (i) the Non-U.S. Holder certifies to the Company or its agent on IRS Form W-8BEN (or a suitable substitute or successor form) under penalties of perjury that such Non-U.S. Holder is not a "United States person" (as defined in the Code) and provides its name and address; (ii) a "qualified intermediary" (as defined in applicable Treasury Regulations) receives documentation upon which it can rely to treat the Non-U.S. Holder as not a United States person and provides the Company with an IRS Form W-8IMY (or a suitable substitute or successor form); or (iii) certain other documentation requirements are met.

If a Non-U.S. Holder does not satisfy these requirements, interest paid on the Subordinated Notes to such Non-U.S. Holder will be subject to a 30% U.S. withholding tax, unless such Non-U.S. Holder otherwise establishes an exemption from or reduced rate of withholding under a tax treaty and satisfies certain documentation requirements. In general, under the Canadian Treaty, Canadian residents are entitled to the reduced U.S. withholding tax rate of 10% on U.S. source interest.

#### *Distributions with Respect to Common Shares*

Provided a Non-U.S. Holder satisfies certain documentation requirements (generally as described in paragraph (b) under "— Interest Received on Subordinated Notes and Debentures" above), distributions paid with respect to the Common Shares to such Non-U.S. Holder should not be subject to U.S. withholding tax. If such documentation requirements are not satisfied, the Non-U.S. Holder may be subject to backup withholding. See "Information Reporting and Backup Withholding" below.

#### *Disposition, Separation and Recombination of IPSs; Disposition of Debentures*

A Non-U.S. Holder should not be subject to U.S. federal income tax on any gain realized on the sale, exchange, or other disposition of IPSs, Debentures, Subordinated Notes or Common Shares unless: (i) the Non-U.S. Holder is an individual who is present in the U.S. for a period or periods aggregating 183 or more days in the taxable year of the disposition and certain other conditions are met; or (ii) the Non-U.S. Holder is subject to tax pursuant to the provisions of U.S. tax law applicable to certain U.S. expatriates.

If a Non-U.S. Holder separates an IPS into its constituent Common Share and Subordinated Notes or recombines a Common Share with Subordinated Notes to form an IPS, the Non-U.S. Holder should not recognize gain or loss for U.S. federal income tax purposes upon such separation or recombination. The U.S. federal income tax consequences described in this summary should not be affected by a separation or recombination.

#### *Conversion of Debentures into IPSs*

A Non-U.S. Holder should not be subject to U.S. federal income tax upon conversion of the Debentures into IPSs. For U.S. federal income tax purposes, a Non-U.S. Holder must allocate its adjusted tax basis it had in any Debentures among the Subordinated Notes and Common Share components of the IPSs received upon conversion based upon the relative fair market values of the Subordinated Notes and Common Share at that time.

Assuming that the Subordinated Notes forming part of the IPSs issued upon conversion are treated as debt for U.S. federal income tax purposes, as discussed below, Non-U.S. Holders of such Subordinated Notes generally would be treated for U.S. federal income tax purposes in the same manner as described above with respect to Non-U.S. Holders of IPSs. However, any such Non-U.S. Holder that is a Disqualified Recipient should consult its U.S. tax advisor regarding the possibility that any Subordinated Notes issued upon conversion of Debentures could be treated as issued with OID for U.S. federal income tax purposes. In the event that any Subordinated Notes forming part of IPSs issued upon conversion are treated as equity rather than debt for U.S. federal income tax purposes, then distributions with respect to such Subordinated Notes will generally be

treated for U.S. federal income tax purposes as described above under “— Distributions with Respect to Common Shares” rather than as interest.

#### ***Information Reporting and Backup Withholding***

The Company will, where required, report to the IRS the amount of any interest paid on the Subordinated Notes and Debentures and dividends paid on its Common Shares and the amounts, if any, of federal income tax withheld with respect to such payments. Backup withholding tax, currently at a rate of 28%, may apply to amounts paid by the Company with respect to Common Shares held by a Non-U.S. Holder if the Non-U.S. Holder fails to satisfy certain documentation requirements (generally as described in paragraph (b) under “Interest Received on Subordinated Notes” above). Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded, provided certain required information is provided to the IRS.

In the event that any Subordinated Notes, including both Subordinated Notes issued as part of IPSs in the Offering or upon conversion of any Debentures into IPSs (assuming such Subordinated Notes constitute debt), are treated as issued with OID (in excess of the de minimis threshold) for U.S. federal income tax purposes, the Company may not be able to properly identify which holders of Subordinated Notes own the Subordinated Notes issued with OID. As a result, the Company may not be able to properly report OID to holders of the Subordinated Notes and to the IRS pursuant to the information reporting requirements, if applicable. This could result in penalties being imposed on the Company by the IRS.

#### **Taxation of the Company**

##### ***Generally***

For U.S. federal income tax purposes, the Company’s distributive share of Atlantic Holdings’ income arising from the Projects’ business operations in the U.S. will generally be treated as effectively connected with a U.S. trade or business (“ECI”), and all or a portion of the Company’s other income, including the Company’s distributive share of other income of Atlantic Holdings, could be treated as ECI. The Company will generally be subject to a 35% U.S. federal income tax on its net taxable income which is ECI or, if applicable, the “alternative minimum tax” of 20% on “alternative minimum taxable income” which is ECI. In computing its U.S. taxable income, however, subject to the discussion under “Classification of Subordinated Notes and Debentures as Debt” and “Earnings Stripping Rules — Section 163(j)” below, the Company should be able to deduct interest paid on the Subordinated Notes and Debentures or other deductible expenses incurred by the Company, including the Company’s distributive share of expenses of Atlantic Holdings, in each case to the extent that any such deductions are allocable to the Company’s income which is ECI. In addition to the U.S. federal income tax on taxable income which is ECI, the Company will be liable for a 5% branch profits tax on its after-tax earnings attributable to ECI. See “Branch Profits Tax” below.

The Company may also be subject to a 30% U.S. withholding tax on certain types of income which are not ECI, but are derived by the Company from U.S. sources (whether directly or indirectly through one or more partnerships it owns), unless the Company otherwise establishes an exemption from, or reduced rate of, withholding under the Canadian Treaty. These types of income generally include dividends, rents, royalties, compensation, certain interest and other “fixed or determinable annual or periodic” income (collectively referred to as “FDAP”). Unless an exception applies, the Company will be subject to withholding tax on the gross amount of any FDAP income, and will not be entitled to a U.S. tax deduction for any expenses, including interest on the Subordinated Notes, to the extent allocable to FDAP income. However, the Company may elect to treat rents from real property situated in the U.S. and certain other income that would otherwise be FDAP as ECI, in which case the income and its allocable expenses would be taxable as described in the preceding paragraph.

##### ***Company Taxed on Distributive Share of Projects’ Income***

The Projects will be treated as owned by partnerships for U.S. federal income tax purposes (the “Project partnerships”), except to the extent that they are directly or indirectly wholly owned by Atlantic Holdings, in which case they will be treated as owned directly by Atlantic Holdings. Atlantic Holdings will also be treated as a

partnership for U.S. federal income tax purposes for any period during which it has more than one owner, and as a disregarded branch of its owner (e.g., the Company) if at any time it has only one owner for U.S. federal income tax purposes. As such, the Project partnerships and Atlantic Holdings will not themselves be subject to U.S. federal income tax. Rather, each Project partnership will compute its income, gains, losses, deductions and credits under U.S. tax rules and will allocate such items to its partners, including Atlantic Holdings, generally in accordance with their percentage interests. Similarly, Atlantic Holdings will compute its distributive share of income, gains, losses, deductions and credits from the Project partnerships, as well as any items it realizes directly or through disregarded entities, and will allocate such items to its partners, including the Company. However, assuming that a Code section 754 election is in effect for each partnership for the taxable year of the Offering, the Company's taxable income from Atlantic Holdings (including its indirect income from each Project partnership) should be reduced by depreciation and amortization deductions in amounts generally determined in a manner similar to what they would have been if the Company had purchased a rateable portion of the assets of Atlantic Holdings and each Project partnership for an aggregate amount equal to the amount paid for its interest in Atlantic Holdings, increased by the Company's portion of any debt of the Project partnership.

Atlantic Holdings will be subject to the withholding tax rules of Code section 1446. Therefore, Atlantic Holdings will generally be required to deduct and withhold, on a quarterly basis, 35% of the taxable income realized by it (whether directly or through a Project partnership) that is effectively connected with a U.S. trade or business and is allocable to the Company. Any amounts so withheld will be treated for all purposes as distributed to the Company. The amounts withheld will be calculated using only income, gains, losses, deductions and credits realized by Atlantic Holdings, whether directly or through a Property partnership (including depreciation and amortization deductions allocated to the Company), and only to the extent that such income, gains, losses, deductions and credits are effectively connected with a U.S. trade or business. Other deductions, including deductions attributable to income of Atlantic Holdings which is not ECI and deductions for any expenses incurred directly by the Company, including interest paid on the Subordinated Notes, will not reduce the amount withheld. However, the Code section 1446 withholding tax is not an additional tax and will be credited against the U.S. tax liability of the Company. Thus, if the amount withheld by Atlantic Holdings under Section 1446 for a taxable year exceeds the Company's actual U.S. federal income tax liability attributable to its net income which is ECI, such excess will be refundable. Provided that the Subordinated Notes and Debentures are respected as debt for U.S. federal income tax purposes (see "Classification of Subordinated Notes and Debentures as Debt" below), in determining its net income which is ECI, the Company should be able to deduct interest payments on the Subordinated Notes and Debentures as discussed above, and accordingly expects a significant portion of such withheld amount to be refundable for periods during which the Subordinated Notes and Debentures are outstanding.

#### *Classification of Subordinated Notes and Debentures as Debt*

U.S. Tax Counsel has advised the Company and the Underwriters, as applicable, that the Subordinated Notes and Debentures should be treated as debt for U.S. federal income tax purposes. Such advice is based in part on facts described in this short form prospectus and on various other opinions, assumptions, customary representations and determinations discussed in more detail in the following paragraphs. Any alteration or incorrectness of such facts, opinions, assumptions, representations or determinations could adversely affect such advice, and such advice is not binding on the IRS or the courts, which could disagree. The Company intends, and by acquiring Subordinated Notes (directly or as part of an IPS) or Debentures each holder of Subordinated Notes or Debentures agrees, to treat the Subordinated Notes and Debentures as debt of the Company for all purposes.

The determination of whether the Subordinated Notes and Debentures are debt or equity for U.S. federal income tax purposes is based on an analysis of the facts and circumstances. Generally, the IRS will not issue a ruling on whether an advance is to be treated as debt or equity. There is no clear statutory definition of debt and its characterization is governed by principles developed in case law, which analyzes numerous factors that are intended to identify the economic substance of the investor's interest in the corporation. U.S. Tax Counsel's determination that the Subordinated Notes and Debentures should be treated as debt for U.S. federal income tax purposes relies upon certain customary representations and determinations by the Company and an

independent financial advisor, including, among others, representations and determinations substantially to the effect that:

- The principal amount, interest rate, issue price, term, security and other material provisions of the Subordinated Notes, when taken together and considered as a whole, are commercially reasonable and are substantially similar to those terms to which an unrelated third party lender, not owning equity in the Company and bargaining at arm's length with the Company, would reasonably agree, where such lender would ordinarily be considered by knowledgeable corporate finance experts to be a lender in the corporate bond market or other market for corporate debt and not primarily an investor in equity.
- The ratio of the aggregate amount of indebtedness of the Company to its aggregate capital and the Company's Cash Flow Coverage Ratio (as defined in the Indenture) are commercially reasonable under the circumstances.
- The Company expects to be able to pay the interest and principal due on the Subordinated Notes and Debentures in full in accordance with their terms.
- After the completion of the Offering, the ratio of the sum of all debt of the Company (including the Subordinated Notes and Debentures but excluding debt of the Company's subsidiaries) to the fair market value of the Common Shares will be approximately 3.1 to one.

In light of the representations and determinations described above and their relevance to several of the factors analyzed in case law, and taking into account the facts and circumstances relating to the issuance of the Subordinated Notes and Debentures, in the opinion of U.S. Tax Counsel the Subordinated Notes and Debentures should be treated as debt for U.S. federal income tax purposes. However, there is no authority that directly addresses the tax treatment of securities similar to the Subordinated Notes which are offered in circumstances similar to this Offering (i.e., as part of a unit that includes common shares of the issuer) or of the Debentures. In light of this absence of direct authority, U.S. Tax Counsel cannot conclude with certainty that the Subordinated Notes and Debentures will be treated as debt for U.S. federal income tax purposes, and, although the Company intends to take the position that the Subordinated Notes and Debentures are debt for U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, interest payments on the Subordinated Notes and Debentures would be recharacterized as non-deductible distributions with respect to the Company's equity, and the Company's net taxable income which is ECI and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after-tax cash flow would be reduced and the Company's ability to make interest payments on Subordinated Notes and Debentures and distributions with respect to Common Shares could be materially and adversely impacted. In addition, if such challenge were sustained, interest payments on the Subordinated Notes and Debentures would be treated for U.S. federal income tax in the same manner as distributions with respect to Common Shares, as could all or a portion of any repayment of principal on the Subordinated Notes and Debentures. See "Taxation of Non-U.S. Holders — Distributions with Respect to Common Shares" above.

Even if the IRS accepts the characterization of the Subordinated Notes as debt, there can be no assurance that the IRS will not claim that the interest rate on the Subordinated Notes is in excess of an arm's length rate, or that Non-U.S. Holders paid more for the Subordinated Notes than their face amount. If any such challenge were sustained, the Company would not be able to deduct all of the interest paid on the Subordinated Notes and the Company's taxable income and U.S. federal income tax liability could be materially increased. As a result, the Company's after-tax cash flow could be reduced and the Company's ability to make interest payments on Subordinated Notes and Debentures and/or distributions with respect to Common Shares could be materially and adversely impacted.

#### ***Earnings Stripping Rules — Section 163(j)***

Code section 163(j) is another potentially limiting factor on the Company's ability to deduct interest paid on the Subordinated Notes. In general, Code section 163(j) limits a corporation's deductions for interest paid to related foreign persons exempt from U.S. tax in years that: (i) the debt-to-equity ratio of the U.S. corporate taxpayer exceeds 1.5 to 1 (based on the tax basis of assets), and (ii) the corporation's net interest expense (i.e., the excess of interest expense over interest income) exceeds 50% of "adjusted taxable income". Adjusted

taxable income is generally defined as the corporation's taxable income before net interest expense, depreciation, and amortization. For purposes of Code section 163(j), a corporation and a creditor of the corporation will generally be "related" if the creditor owns, directly or by attribution, more than 50% of the corporation by vote or value. Under current law, assuming no Non-U.S. Holder owns more than 50%, directly or by attribution, of the Common Shares, Code Section 163(j) should not apply to limit the Company's ability to deduct interest paid on the Subordinated Notes.

Various proposals have been introduced in the U.S. Congress to amend Code section 163(j). Prospects for the enactment of such legislation are uncertain. Although U.S. Tax Counsel believes that none of the current proposals to amend Code section 163(j) would affect the deductibility of interest paid by the Company on the Subordinated Notes, the ultimate form of legislation amending Code section 163(j), if any is enacted, is uncertain.

#### *Conversion of Debentures into IPSs; Classification of Subordinated Notes Issued Upon Conversion*

The conversion of Debentures into IPSs generally will not give rise to any tax deduction for the Company. Whether any Subordinated Notes issued as part of IPSs upon conversion of a Debenture will be treated as debt or equity for U.S. federal income tax purposes will be determined at the time of conversion based on the facts and circumstances at that time. As a result, even if the Debentures and Subordinated Notes issued in the Offering are properly treated as debt, there can be no assurance that any Subordinated Notes issued upon conversion of any Debentures will be so treated. However, assuming that the facts, circumstances, and tax rules applicable at the time of conversion are similar to those existing today, including but not limited to the representations and determinations described above continuing to be true, the Company would expect that any such Subordinated Notes should also be treated as debt for U.S. federal income tax purposes. Even if any such Subordinated Notes are treated as debt, the Company may not be able to deduct the full amount of interest payable in the Subordinated Notes if and to the extent that any such Subordinated Notes are treated as issued at a premium to their principal amount for U.S. federal income tax purposes.

#### *Branch Profits Tax*

Under the "branch profits tax" rules of Code section 884 (as modified by the Canadian Treaty), distributions from the Atlantic Holdings to the Company, to the extent such distributions are not in excess of the Company's earnings and profits attributable to ECI, will be subject to a 5% tax. If deductions for interest paid on the Subordinated Notes and/or Debentures are denied or limited (as discussed above) the Company's earnings and profits and hence its liability for branch profits tax could increase substantially. As a result, the Company's after-tax cash flow could be reduced and/or the Company's ability to make interest payments on Subordinated Notes and Debentures and distributions with respect to Common Shares could be materially and adversely impacted.

## **RECENT ACCOUNTING PRONOUNCEMENTS**

### **Financial Instruments — Recognition and Measurement**

In January 2005, the CICA released new Handbook Section 3855, "Financial Instruments — Recognition and Measurement," effective for annual and interim periods beginning on or after October 1, 2006. This new section establishes standards for the recognition and measurement of all financial instruments, provides a characteristics-based definition of a derivative financial instrument, provides criteria to be used to determine when a financial instrument should be recognized, and provides criteria to be used when a financial instrument is to be extinguished. The Company has not yet determined the effect that these new standards will have on its consolidated financial position and results of operations.

### **Comprehensive Income and Equity**

In January 2005, the CICA released new Handbook Section 1530, "Comprehensive Income," and Section 3251, "Equity," effective for annual and interim periods beginning on or after October 1, 2006. Section 1530 establishes standards for reporting comprehensive income. These standards require that an enterprise present comprehensive income and its components in a separate financial statement that is displayed

with the same prominence as other financial statements. Section 3251 establishes standards for the presentation of equity and changes in equity during the reporting period in addition to the requirements in Section 1530. The Company has not yet determined the effect these new standards will have on its consolidated financial position and results of operations.

### **Hedges**

In January 2005, the CICA released new Handbook Section 3865, "Hedges," effective for annual and interim periods beginning on or after October 1, 2006. This new section establishes standards for when and how hedge accounting may be applied. Hedge accounting is optional. The Company has not yet determined the effect these new standards will have on its consolidated financial position and results of operations.

## **RISK FACTORS**

An investment in the IPSs or the Debentures and the Common Shares and Subordinated Notes represented by IPSs, involves a number of risks in addition to those described under "Forward-Looking Statements". In addition to other information contained or incorporated by reference in this short form prospectus, prospective investors should give careful consideration, in light of their own financial circumstances, to the factors set out under "Risk Factors" in the AIF and the following factors. Any of the matters highlighted in the risk factors could have a material adverse effect on the Company's results of operations, business prospects or financial condition, the cash available to the Company for distribution to holders of IPSs, Debentures, Common Shares and Subordinated Notes or on the market price or value of IPSs, Debentures, Common Shares or Subordinated Notes.

### **Risks Related to the Path 15 Project**

#### *Unresolved Ratemaking Issues Under FERC Review Could Adversely Affect Cash Flows*

There are currently two material ratemaking issues related to the Path 15 Project under FERC review that could affect the revenue earned by Path 15 Opco. These issues are expected to be determined by the FERC commissioners by the end of the fourth quarter of 2006. Given the potential impact of the ruling on Path 15 Opco's cash flows, the Company negotiated certain purchase price adjustments in the Purchase and Sale Agreement in the event of an adverse outcome. Specifically, \$24.1 million of the purchase price is being held in escrow pending the FERC's final determination of two ratemaking issues. If the FERC's resolution of the outstanding rate issues is favourable to Path 15 Opco, a portion or all of the amount held in escrow will be released to the Vendors in accordance with a formula set forth in the Purchase and Sale Agreement. If the FERC's resolution of the outstanding rate issues is not favourable to Path 15 Opco, the purchase price for the Acquisition will be reduced in accordance with a formula set forth in the Purchase and Sale Agreement and all or a portion of the amount held in escrow will be returned to Atlantic Holdings. It is also possible that the FERC's decision could be appealed to the circuit courts. The FERC's ruling would take effect throughout the duration of any appeal. The Company has been advised by its legal counsel in connection with the FERC matters that a successful appeal of a FERC decision on these issues is unlikely.

In December 2004, the FERC ordered that rates for Path 15 Opco be established consistent with the filed revenue requirement, subject to refund. A number of parties intervened in the case, raising objections to certain elements of the filing. Testimony was submitted by various parties and a hearing was held before the FERC Administrative Law Judge in September 2005. The major issues raised by interveners in the setting of Path 15 Opco's rates included:

- Inclusion of prepaid expenses for financing-related reserve obligations as rate base items;
- Proper methodology for calculating Path 15 Opco's allowance for working capital and the proper amount for this allowance;
- Proper methodology for calculating Path 15 Opco's allowance for funds used during construction and the proper amount for this allowance; and
- The recovery of costs associated with the WAPA's capacity allocation.

In December 2005, the FERC Administrative Law Judge issued an initial decision that reduced the amount of working capital included in the rate base and excluded various debt service and liquidity reserves from the rate base. The FERC Administrative Law Judge upheld Path 15 Opco's calculation of the allowance for funds used during construction and removed the issue of the WAPA's cost recovery from the current proceeding. The net impact of excluding the working capital and various reserves from the rate base would be a reduction in the return on investment portion of rates, totalling approximately \$2.3 million a year for the period 2005 to 2007.

Path 15 Opco filed exceptions to the FERC Administrative Law Judge's proposed findings and expects a final order to be issued by the FERC by the end of the fourth quarter of 2006. If the FERC Administrative Law Judge's decision is upheld, a refund obligation of approximately \$6.5 million would be generated to account for the approximately \$2.3 million of over collection per year since the beginning of the Path 15 Project's commercial operations in December 2004. This refund obligation would be netted out of rates in 2007 and would be expected to trigger the withholding of cash at Path 15 Opco preventing the payment of distributions to the equity owners until mid-2008.

#### *Future FERC Rate Determinations Could Negatively Impact Cash Flows*

The stability of Path 15 Opco's cash flows will continue to be subject to the risk related to the FERC's authority to adjust the expected formulation of revenues upon its rate review every three years. The cost-of-service methodology currently applied by the FERC is well established and transparent, however certain inputs in the FERC's determination of rates are subject to its discretion, which include return on equity and the recovery of certain extraordinary expenses. Unfavourable decisions on these matters could adversely affect the cash flow, financial position and results of operations of Path 15 Opco and Path 15 Holdco, and the Company, and could adversely affect the cash available for distribution by the Company.

#### *Significant Adverse Changes in Debt Markets and/or Interest Rates May Prevent the Company from Repaying the Acquisition Credit Facility on the Expected Timeline*

The Manager intends to use a portion of the net proceeds of the Offering and a long-term non-recourse loan at Harbor Transmission, LLC to pay down the Acquisition Credit Facility. In the event of a significant adverse change in debt markets and/or interest rates, it is possible that the Company may be unable to repay the Acquisition Credit Facility on the expected timeline. However, the Company currently has sufficient funds available under the Amended Credit Facility to repay the outstanding balance on the Acquisition Credit Facility following the Offering should such events occur.

#### *Counterparty Credit*

The CAISO operates as a clearinghouse for the settlement of third-party transactions involving purchases and sales of power in California. The CAISO does not purchase or sell power for its own account, but relies on payments owed to it by investor-owned utilities and other users of the California transmission grid. The CAISO transmission system users are required to have an approved short-term credit rating (A1 — S&P, F1 — Fitch IBCA, P1 — Moody's). If these rating standards are not attained, the transmission system user must provide an acceptable letter of credit, an acceptable surety bond, a guarantee of a company with an approved credit rating, a cash deposit, a certificate of deposit or a payment bond certificate. Despite these mitigating factors, it is possible that a payment problem could reduce revenues received by Path 15 Opco and the Company.

#### *Tax Risks Associated with the Depreciation of TSRs*

The current owners of Path 15 Opco have been depreciating their ownership of TSRs as a transmission asset for tax purposes. The Company expects that it will depreciate its investment on the same basis. However, there can be no assurance that the IRS will not challenge the tax treatment related to the depreciation of TSRs in a manner which adversely affects the Company by, for example, determining that TSRs are undepreciable intangible property. If such a challenge were sustained, depreciation on TSRs could be recharacterized as non-deductible and the taxable income and tax liability associated with the Path 15 Project could be materially increased. If taxes increase at Path 15 Opco, Path 15 Opco can submit to the FERC for a prospective recovery of these increases.

***Income Tax Allowances Included by Path 15 Opco in its Rates have been Challenged by Certain Parties and Path 15 Opco may be Subject to a Refund Liability***

On October 4, 2004, Path 15 Opco filed a Revenue Requirement and Transmission Owner Tariff with the FERC to recover investment costs related to the Path 15 Project. On November 17, 2005, the FERC issued an order related to Path 15 Opco's proposed income tax allowance in rates, determining that the owners of Path 15 Opco have an actual or potential income tax liability with respect to the income from Path 15 Opco. Pursuant to the FERC's income tax policies, the FERC order permitted Path 15 Opco to include a tax allowance in its rates. On April 13, 2006, a request filed by certain third parties for a rehearing of the FERC's order was denied.

On June 1, 2006, the Transmission Agency of Northern California (the "TANC") petitioned the United States Court of Appeals for the District of Columbia Circuit for review of the FERC's order permitting Path 15 Opco to include an income tax allowance in its rates. As of the date hereof, the appeal is still pending. In the event the appeal is successful and the FERC's order granting Path 15 Opco an income tax allowance in rates is overturned, it is possible that the determination will result in Path 15 Opco incurring a refund liability equal to the amount of the tax allowance included in the rates and collected from customers. Furthermore, such an outcome may also preclude Path 15 Opco from including an income tax allowance in future rates. Given the general deference of the courts to regulatory agency decisions, their reluctance to overturn longstanding FERC precedent and the extensive process followed by the FERC in the formulation of its policy statement issued in connection with the tax issue raise by the TANC, the Manager believes that it is unlikely that the TANC will succeed in its appeal.

***Restrictive Covenants in Existing Debt Agreements Could Impact Distributions by the Company***

The debt covenants of Path 15 Opco and Path 15 Holdco restrict the payment of dividends to Path 15 Holdco and ultimately to the Company based on the maintenance of various cash coverage ratios. While the Manager's projections do not anticipate any violation of these covenants (except as described above in relation to FERC ratemaking proceedings), an unanticipated event that results in a temporary cash shortage could prevent the distribution of certain available cash to Harbor Transmission, LLC. As discussed above, an adverse FERC ruling on working capital and debt service reserve issues or an adverse decision of the United States Court of Appeals for the District of Columbia Circuit on the income tax issue could result in a refund liability to Path 15 Opco that would be netted out of rates. Any refund liability would require a lump sum payment for the over collection during the interim rate period. The excluded amounts would also be removed from rates prospectively.

***It is Possible that Future Administration and Management Expenses Exceed Historical Costs and May Not be Approved in the Rates***

Trans-Elect will continue to provide administrative and management services to Path 15 Opco for a transitional period extending through December 31, 2006. These services include participation in the coordination with the WAPA and Pacific Gas and Electric Company of the operation and maintenance, accounting and reporting requirements with existing lenders to Path 15 Opco and Path 15 Holdco and the management of rate proceedings with the FERC. Following the transition period, the Company and/or one of its subsidiaries or affiliates will assume the administration and management of Path 15 Opco. Following the transition period, there is a risk that the Company will incur higher expenses in the administration and management of Path 15 Opco than historically experienced by Trans-Elect. It is possible that any increased costs incurred by the Company will not be approved in the rates.

***Outstanding Condemnation Proceedings Related to Portions of the Rights of Way for the Path 15 Project May Result in Adverse Judgments***

There are three condemnation proceedings related to portions of the rights of way for the Path 15 Project that are being defended by the U.S. Department of Justice on behalf of the WAPA:

**Wood Harris** — This matter is scheduled to begin trial at the district court level in January 2007. The landowner is claiming a value of \$11.4 million and the government's appraisal is \$100,000.

**Campion** — This matter went to trial earlier in 2006. The landowner claimed a value of \$16 million and the government's appraisal was approximately \$100,000. At the conclusion of the matter, the jury awarded approximately \$2.1 million, including interest, which was paid into court pending the plaintiff's appeal. A hearing has not yet been scheduled.

**Stone** — In this matter, the plaintiff challenged the WAPA's right to condemn the plaintiff's property. The district court granted summary judgment *sua sponte* to the government, but the plaintiff has appealed. A hearing has not yet been scheduled.

As discussed above under "Path 15 Project — Regulation", the Path 15 Project may add to its ratebase all prudently incurred costs. In the event that an unfavourable result on a condemnation proceeding resulted in an increased cost to Path 15 Opco, Path 15 Opco could request that the FERC approve the addition of such costs to its ratebase which, if approved, would generate incremental returns for Path 15 Opco. The Manager believes any amounts payable would be available under the Company's credit facilities and the result of having increased capital earning the applicable FERC-approved rates of return would not have a material adverse effect.

## **Risks Related to the Debentures**

### ***Trading Market for Debentures***

The Debentures constitute a new issue of securities of the Company for which there is currently no public market. If the Debentures are traded after their initial issuance, they may trade at a discount from their offering price depending on prevailing interest rates, the market for similar securities, the performance of the Company and other factors. No assurance can be given as to whether an active trading market will develop or be maintained for the Debentures. To the extent that an active trading market for the Debentures does not develop, the liquidity and trading prices for the Debentures may be adversely affected.

### ***Prior Ranking Indebtedness***

The Debentures will rank junior to all existing and future Senior Secured Indebtedness, including the Amended Credit Facility and the Acquisition Credit Facility. See "Description of Debentures — Ranking".

### ***Absence of Covenant Protection***

The Indenture will not restrict the ability of the Company or any of its subsidiaries from incurring additional indebtedness for borrowed money or otherwise from mortgaging, pledging or charging its real or personal property or properties to secure any indebtedness or other financing. The Indenture will not contain any provisions specifically intended to protect holders of the Debentures in the event of a future leveraged transaction involving the Company or any of its subsidiaries.

### ***Redemption Prior to Maturity***

The Debentures may be redeemed, at the option of the Company, after October 31, 2009 and prior to the Maturity Date in whole or in part, at a redemption price equal to the principal amount thereof, together with any accrued and unpaid interest subject to certain conditions described under "Description of Debentures — Redemption and Purchase". Holders of Debentures should assume that this redemption option will be exercised if the Company is able to refinance at a lower interest rate or it is otherwise in the interest of the Company to redeem the Debentures.

### ***Inability of the Company to Purchase Debentures***

The Company will be required to offer to purchase all outstanding Debentures upon the occurrence of a Change of Control. However, it is possible that following a Change of Control, the Company will not have sufficient funds at that time to make the required purchase of outstanding Debentures or that restrictions contained in other indebtedness will restrict those purchases. See "Description of Debentures — Put Right Upon a Change of Control".

### *Conversion Following Certain Transactions*

In the event of certain transactions, pursuant to the terms of the Indenture, each Debenture will become convertible into securities, cash or property receivable by a holder of IPSs in the kind and amount of securities, cash or property as if such holder had converted the Debentures into IPSs prior to completion of the transaction. This change could substantially reduce or eliminate any potential future value of the conversion privilege associated with the Debentures. For example, if the Company were acquired in a cash merger, each Debenture would become convertible solely into cash that would no longer be convertible into securities whose value would vary depending on the Company's future prospects and other factors. See "Description of Debentures — Conversion Privilege".

### *U.S. Federal Income Tax Risks*

There can be no assurance that U.S. federal income tax laws and IRS administrative policies respecting the U.S. federal income tax consequences generally applicable to a holder of Debentures or Common Shares and Subordinated Notes, as represented by IPSs, will not be changed in a manner which adversely affects Non-U.S. Holders.

There is no authority that directly addresses the tax treatment of securities similar to the Debentures. In light of this absence of direct authority, it cannot be concluded with certainty that the Debentures will be treated as debt for U.S. federal income tax purposes, and, although the Company intends to take the position that the Debentures are debt for U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, interest payments on the Debentures would be recharacterized as non-deductible distributions with respect to the Company's equity, and the Company's net taxable income which is effectively connected income and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after-tax cash flow would be reduced and the Company's ability to make interest payments on the Debentures and Subordinated Notes and distributions with respect to Common Shares could be materially adversely impacted.

### **ELIGIBILITY FOR INVESTMENT**

In the opinion of Goodmans LLP, counsel to the Company and Atlantic Holdings and of Blake, Cassels & Graydon LLP, counsel to the Underwriters, on the date of this short form prospectus, the Common Shares represented by the IPSs, the Subordinated Notes represented by the IPSs, the Debentures and the Common Shares and Subordinated Notes issuable upon conversion of the Debentures, if issued on the date hereof, would be qualified investments under the Tax Act for trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans (except that the Subordinated Notes and Debentures will not be qualified investments for trusts governed by a deferred profit sharing plan to which contribution payments are made by the Company or a person with whom the Company does not deal at arm's length within the meaning of the Tax Act) and registered education savings plan (collectively, the "plans") at that time.

### **MATERIAL CONTRACTS**

The only material contracts, other than contracts entered into in the ordinary course of business, to which the Company or Atlantic Holdings will become a party prior to or at the closing of the Offering are as follows:

- (a) the Underwriting Agreement referred to under "Plan of Distribution";
- (b) the Acquisition Credit Facility referred to under "Path 15 Project — Acquisition Credit Facility";
- (c) the Amended Credit Facility referred to under "Path 15 Project — Amended Credit Facility"; and
- (d) the Indenture referred to under "Description of Debentures".

Copies of these agreements will be available at [www.sedar.com](http://www.sedar.com) or may be examined at the registered office of the Company, at 355 Burrard Street, Suite 1900, Vancouver, British Columbia, V6C 2G8, during normal business hours until the expiry of the 30-day period following the date of the final short form prospectus.

## **AUDITORS, TRANSFER AGENT AND REGISTRAR AND DEBENTURE TRUSTEE**

The auditors of the Company are KPM/G LLP, Chartered Accountants.

The transfer agent and registrar for the IPSs and the Common Shares is Computershare Investor Services Inc. at its principal office in Toronto, Ontario. The trustee of the Debentures is Computershare Trust Company of Canada.

## **STATUTORY RIGHTS OF RESCISSION AND WITHDRAWAL**

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right generally may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for the particulars of these rights or consult with a legal advisor.

## GLOSSARY OF TERMS

In this short form prospectus, the following terms will have the meanings set forth below, unless otherwise indicated. Words importing the singular include the plural and vice versa and words importing any gender include all genders:

“**Acquisition**” means the indirect acquisition by the Company of the equity interests of Path 15 Holdco whose principal asset is Path 15 Opco, owner of the TSRs relating to the Path 15 Project, pursuant to a Purchase and Sale Agreement dated as of June 28, 2006.

“**Acquisition Credit Facility**” means the term loan credit facility extended to the Company for the purpose of assisting in the financing of the Acquisition.

“**affiliate**” has the meaning ascribed thereto in the *Securities Act* (Ontario).

“**AIF**” means the annual information form of the Company dated March 30, 2006.

“**Amended Credit Facility**” means the amended credit agreement dated as of November 18, 2004 (as may be amended from time to time) as amended through the third amendment dated as of September 15, 2006 entered into among Atlantic Holdings and a syndicate of financial institutions.

“**ArcLight**” means ArcLight Capital Partners, LLC.

“**Atlantic Holdings**” means Atlantic Power Holdings, LLC, a limited liability company formed under the laws of Delaware.

“**business day**” means a day other than a Saturday, Sunday or other day on which banking institutions in the Province of Ontario are authorized or required by law to close.

“**CAISO**” means the California Independent System Operator.

“**Canadian GAAP**” means the accounting principles generally accepted in Canada.

“**Canadian Treaty**” means the Canada United States Income Tax Convention, as amended.

“**Capital Stock**” means: (i) in the case of a corporation, corporate stock or equity interests, including, without limitation, corporate stock represented by IPSs and corporate stock outstanding upon the separation of IPSs into the securities represented thereby; (ii) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock; (iii) in the case of a partnership or limited liability company, partnership or membership interests (whether general or limited); and (iv) any other interest or participation that confers on a person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing person.

“**CDS**” means The Canadian Depository for Securities Limited.

“**Change of Control**” means the occurrence of any of the following events:

- (i) the sale, lease or transfer to any person or group, in one or a series of related transactions, of the Company’s or Atlantic Holdings’ assets generating more than 66⅔% of Company Cash Flow for the 12-month period ended on the last day of the most recent fiscal quarter to any person or group;
- (ii) the adoption of a plan relating to the liquidation or dissolution of the Company or Atlantic Holdings;
- (iii) the acquisition by any person or group of a direct or indirect interest in more than 50% of: (A) the Common Shares of the Company or the common membership interests of Atlantic Holdings; or (B) the voting power of the Company or Atlantic Holdings; by way of purchase, merger or consolidation or otherwise (other than a creation of a holding company that does not involve a change in the beneficial ownership of the Company as a result of such transaction); or
- (iv) the merger or consolidation of the Company or Atlantic Holdings with or into another person or the merger of another person into the Company or Atlantic Holdings with the effect that immediately after such transaction the shareholders of the Company or the holders of common membership interests of

Atlantic Holdings immediately prior to such transaction hold, directly or indirectly, less than 50% of the voting control over the person surviving such merger or consolidation, in each case other than the creation of a holding company that does not involve a change in the beneficial ownership of the Company or Atlantic Holdings as a result of such transaction.

“**Closing**” means the closing of the Offering.

“**Code**” means the *United States Internal Revenue Code of 1986*, as amended.

“**Common Shares**” means the common shares in the capital of the Company.

“**Company**” means Atlantic Power Corporation.

“**Company Cash Flow**” means, for any period, the difference of (i) the aggregate amount of all cash distributions received or receivable in respect of such period, by the Company from Atlantic Holdings or any other source during such period plus the Company’s *pro rata* share (based on its common membership ownership interest in Atlantic Holdings) of any cash distributions received by Atlantic Holdings in respect of such period and retained by Atlantic Holdings, in each such case exclusive of any distribution attributable to any net proceeds realized by the Company, a Subsidiary of the Company or a project upon the sale or disposition of plant, property and equipment, which is not disposed of in the ordinary course of business and any other extraordinary items, minus (ii) any amounts paid by the Company in respect of expenses (other than interest expenses), including taxes determined on a *pro forma*, annual basis for a full tax year.

“**Conversion Price**” means the price of Cdn\$12.40 per IPS, being a ratio of approximately 80.6452 IPSs per Cdn\$1,000 principal amount of Debentures, subject to adjustment in certain events in accordance with the Indenture, at which price each Debenture will be convertible into IPSs at the option of the holder at any time prior to the close of business on the earlier of the Maturity Date and the business day immediately preceding the date specified by the Company for redemption of the Debentures.

“**CRA**” means the Canada Revenue Agency.

“**Current Market Price**” means the weighted average trading price of the IPSs on the TSX for the 20 consecutive trading days ending on the fifth trading day preceding the date of the applicable event.

“**DBRS**” means Dominion Bond Rating Service Limited.

“**Debenture Trustee**” means Computershare Trust Company of Canada.

“**Debentures**” means the 6.25% convertible secured debentures of the Company issued pursuant to the Indenture as of the date of closing of the Offering, and “**Debenture**” means one of them.

“**Depository**” means CDS or its successor.

“**Disqualified Recipient**” means (i) any person that owns, directly or indirectly (through ownership of IPSs or otherwise) and after application of the constructive ownership rules of Code section 871(h)(3), 10% or more of the total combined voting power of all classes of equity of the Company entitled to vote, (ii) a controlled foreign corporation related to the Company within the meaning of Code section 881(c)(3)(C), or (iii) a bank described in Code section 881(c)(3)(A) with respect to the Subordinated Notes.

“**Existing Investors**” means Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC.

“**FAPI**” means foreign accrual property income as defined in the Tax Act.

“**FERC**” means the United States Federal Energy Regulatory Commission, an independent regulatory agency within the United States Department of Energy that, among other things, oversees regulatory matters relating to electricity projects.

“**Fund I**” means ArcLight Energy Partners Fund I, L.P.

“**Fund II**” means ArcLight Energy Partners Fund II, L.P.

“**Global Debentures**” means Debentures issued in the form of fully registered global Debentures.

“**guarantee**” means a guarantee (other than by endorsement of negotiable instruments for collection in the ordinary course of business) direct or indirect, in any manner (including letters of credit and reimbursement agreements in respect thereof), of all or any part of any indebtedness or other obligations.

“**Guarantee**” means any guarantee of the obligations of the Company under the Indenture and the Debentures by any Person in accordance with the provisions of the Indenture.

“**Guarantor**” means any Person that incurs a Guarantee; provided that upon the release or discharge of such Person from its Guarantee in accordance with the Indenture, such Person ceases to be a Guarantor.

“**Holder**” means a holder of IPSs, Debentures, Subordinated Notes or Common Shares, as applicable.

“**Indenture**” means the trust indenture to be entered into at the Closing between the Company and the Debenture Trustee, governing the terms of the Debentures.

“**Interest Payment Date**” means the date that interest will be paid on the Debentures, namely semi-annually on April 30 and October 31 in each year, commencing on April 30, 2007.

“**IPO**” means the initial public offering of IPSs completed on November 18, 2004.

“**IPS Interest Payment Election**” has the meaning set forth under “Description of Debentures — IPS Interest Payment Election”.

“**IRS**” means the United States Internal Revenue Service.

“**kilowatt**” means 1,000 watts of energy.

“**LLC Agreement**” means the amended and restated limited liability company agreement of Atlantic Holdings dated November 17, 2004, as amended.

“**Manager**” means Atlantic Power Management, LLC.

“**Maturity Date**” means October 31, 2011, the maturity date of the Debentures.

“**MW**” means 1,000 kilowatts of energy.

“**Non-U.S. Holder**” means a Holder that is not: (i) a citizen or individual resident in the U.S. for U.S. federal tax purposes; (ii) a corporation or other entity taxable as a corporation created or organized under the laws of the U.S. or a political subdivision thereof; (iii) an estate, the income of which is subject to U.S. federal income tax regardless of the source; or (iv) a trust, if (A) a court within the U.S. is able to exercise primary supervision over the trust’s administration and one or more U.S. persons have the authority to control all of its substantial decisions, or (B) the trust was in existence on August 20, 1996 and has properly elected under applicable Treasury Regulations to continue to be treated as a United States person.

“**Offering**” means the offering of the Securities pursuant to this short form prospectus.

“**Path 15 Holdco**” means Trans-Elect NTD Holdings Path 15, LLC.

“**Path 15 Opco**” means Trans-Elect NTD Path 15, LLC.

“**Path 15 Project**” means the transmission line upgrade along the Path 15 transmission corridor located in central California.

“**person**” includes an individual, corporation, the Company, partnership, joint venture, association, trust, trustee, unincorporated organization or government or any agency or political subdivision thereof.

“**plans**” means registered retirement savings plans, registered retirement income funds, defined profit sharing plans and registered education savings plans.

“**Project Holding Entities**” means Teton Power Funding, LLC and Epsilon Power Funding, LLC.

**“Project Operating Entities”** means the limited partnerships, corporations or other entities that directly own the Projects.

**“Projects”** means the 15 power generation projects as described under “Description of the Business— Summary Table of the Projects” and “Project Descriptions” in the AIF and the Path 15 Project as described herein under “Path 15 Project”, and “Project” means any one of them.

**“Purchase and Sale Agreement”** means the purchase and sale agreement dated as of June 28, 2006 pursuant to which a subsidiary of Atlantic Holdings acquired all of the equity interests in Path 15 Holdco.

**“Put Date”** means the date which is 30 days following the date the Company gives notice to a holder of Debentures of a Change of Control.

**“Put Price”** means 101% of the principal amount of the Debentures.

**“ROE”** means return on equity.

**“S&P”** means Standard and Poor’s, a division of The McGraw-Hill Companies, Inc.

**“Securities”** means, collectively, the IPSs and Debentures offered pursuant to this short form prospectus.

**“Securities Commissions”** means the securities commissions or securities regulatory authority in the provinces and territories of Canada in which the Company is a reporting issuer (or equivalent).

**“Senior Secured Indebtedness”** means the principal of and the interest and premium (or any other amounts payable thereunder), if any, on:

- (i) all secured indebtedness, liabilities and obligations of the Company and any Guarantor, whether outstanding on the date of the Incenture or thereafter created, incurred, assumed or guaranteed in connection with the acquisition by the Company or any Guarantor of any businesses, properties or other assets or for monies borrowed or raised by whatever means (including, without limitation, by means of commercial paper, bankers’ acceptances, letters of credit, debt instruments, bank debt and financial leases, and any other secured liability evidenced by bonds, debentures, notes or similar instruments) or in connection with the acquisition of any businesses, properties or other assets or for monies borrowed or raised by whatever means (including, without limitation, by means of commercial paper, bankers’ acceptances, letters of credit, debt instruments, bank debt and financial leases, and any other secured liability evidenced by bonds, debentures, notes or similar instruments) by others including, without limitation, any Subsidiary of the Company or any Guarantor, for payment of which the Company or Guarantor is responsible or liable, whether absolutely or contingently;
- (ii) all secured obligations of the Company, any Guarantor or any Subsidiary under (A) currency exchange, interest rate or commodity swap agreements, currency exchange, interest rate or commodity cap agreements and currency exchange, interest rate or commodity collar agreements, and (B) other agreements or arrangements designed to manage or hedge fluctuations in currency exchange, interest rates or commodity prices;
- (iii) all indebtedness, liabilities and obligations under the guarantee(s) now or at any time hereafter granted by the Company, any Guarantor or any of their Subsidiaries in respect of the obligations, liabilities and indebtedness under the credit agreements in connection with the Amended Credit Facility and the Acquisition Credit Facility; and
- (iv) renewals, extensions, restructurings, refinancings and refundings of any such indebtedness, liabilities or obligations,

unless in each case it is provided by the terms of the instrument creating or evidencing such secured indebtedness, liabilities or obligations that such secured indebtedness, liabilities or obligations are not superior in right of payment to Debentures which by their terms are subordinated, which for greater certainty includes the initial debentures; and “Senior Secured Indebtedness” shall, in all events, exclude the Subordinated Notes but include all of the obligations of the borrower, issuer and/or guarantor under the Amended Credit Facility and the Acquisition Credit Facility.

“**Separate Subordinated Notes**” means the approximately Cdn\$36.5 million principal amount of Subordinated Notes issued and sold separately from the IPSs by the Company in November 2004.

“**Subordinated Indebtedness**” means, with respect to the Company, any Guarantor or any Subsidiary, (i) all indebtedness which is not senior indebtedness or *pari passu* indebtedness, (ii) the Subordinated Notes, (iii) all unsecured indebtedness or obligations of the Company, any Guarantor or any Subsidiary, and (iv) any indebtedness of the Company, any Guarantor or any Subsidiary that is subordinated pursuant to the terms of the instrument creating or evidencing such indebtedness.

“**Subordinated Note Indenture**” means the trust indenture governing the Subordinated Notes between the Company and Computershare Trust Company of Canada entered into on November 18, 2004.

“**Subordinated Notes**” means the 11.0% subordinated notes of the Company issued in accordance with the Subordinated Note Indenture.

“**Subsidiary**” means, with respect to any person, (i) any corporation, association or other business entity (other than a partnership, joint venture or limited liability company) of which 40% or more of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time of determination owned or controlled, directly or indirectly, by such person or one or more of the other Subsidiaries of that person or a combination thereof and (ii) any partnership, joint venture or limited liability company of which 40% or more of the capital accounts, distribution rights, total equity and voting interests or general and limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such person or one or more of the other Subsidiaries of that person or a combination thereof, whether in the form of membership, general, special or limited partnership interests or otherwise and such person owns or controls, directly or indirectly, 40% or more of the total equity and voting rights of the general partner of such entity.

“**TAC**” means transmission access charges.

“**TANC**” means the Transmission Agency of Northern California.

“**Tax Act**” means the *Income Tax Act* (Canada) and the regulations thereunder, in each case in effect on the date hereof.

“**Trans-Elect**” means Trans-Elect, Inc.

“**Treasury Regulations**” means the U.S. Treasury regulations (including final, temporary and proposed regulations) promulgated under the Code.

“**Trustee**” means Computershare Trust Company of Canada.

“**TSR**” means transmission system right.

“**TSX**” means the Toronto Stock Exchange.

“**Underwriters**” means BMO Nesbitt Burns Inc., National Bank Financial Inc., RBC Dominion Securities Inc., Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation.

“**Underwriting Agreement**” means the underwriting agreement among the Company and the Underwriters dated September 22, 2006.

“**U.S. GAAP**” means the accounting principles generally accepted in the United States.

“**U.S. Holder**” means any Holder that is not a Non-U.S. Holder.

“**U.S. Securities Act**” means the *United States Securities Act of 1933*, as amended.

“**U.S. Tax Counsel**” means Goodwin Procter LLP.

“**Vendors**” means New Transmission Development Company, United States Power Fund, L.P., Cardinal Power Funding, LLC (an affiliate of ArcLight) and TransValley Transmission LLC.

“**WACC**” means weighted average cost of capital.

“**WAPA**” means Western Area Power Administration.

## AUDITORS' CONSENT

The Board of Directors of Atlantic Power Corporation

We have read the preliminary short form prospectus dated September 22, 2006 relating to the sale and issue of 8,531,000 Income Participating Securities and Cdn\$60,000,000 6.25% Convertible Secured Debentures due October 31, 2011 of Atlantic Power Corporation (the "Company"). We have complied with Canadian generally accepted standards for an auditor's involvement with offering documents.

We consent to the incorporation by reference in the above-mentioned preliminary short form prospectus of our report to the shareholders of the Company on the consolidated balance sheets of the Company as at December 31, 2005 and 2004 and the consolidated statements of operations and deficit and cash flows for the year ended December 31, 2005 and the period from November 18, 2004 to December 31, 2004. Our report is dated March 31, 2006.

## COMPILATION REPORT ON PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

The Board of Directors of Atlantic Power Corporation

We have read the unaudited pro forma consolidated balance sheet of Atlantic Power Corporation as at June 30, 2006 and the unaudited pro forma consolidated statements of income for the six months ended June 30, 2006 and for the year ended December 31, 2005, and have performed the following procedures:

1. Compared the figures in the columns captioned "Atlantic Power" to the unaudited consolidated balance sheet of Atlantic Power Corporation as at June 30, 2006 and to the unaudited consolidated statement of income and deficit for the six months ended June 30, 2006 and to the audited consolidated statement of operations and deficit for the year ended December 31, 2005, respectively, and found them to be in agreement.
2. Compared the figures in the column captioned "Path 15 Holdco" to the unaudited consolidated balance sheet of Trans-Elect NTD Holdings Path 15, LLC ("Path 15 Holdco") as at June 30, 2006, and to the unaudited consolidated statement of income for the six months ended June 30, 2006 and to the audited consolidated statement of operations for the year ended December 31, 2005, respectively, and found them to be in agreement.
3. Made enquiries of certain officials of Atlantic Power Corporation who have responsibility for financial and accounting matters about:
  - (a) The basis for determination of the pro forma adjustments; and
  - (b) Whether the pro forma financial statements comply as to form in all material respects with the published requirements of Canadian securities legislation.

The officials:

- (a) described to us the basis for determination of the pro forma adjustments; and
  - (b) stated that the pro forma financial statements comply as to form in all material respects with in all material respects with the published requirements of Canadian securities legislation.
4. Read the notes to the pro forma financial statements, and found them to be consistent with the basis described to us for determination of the pro forma adjustments.
  5. Recalculated the application of the pro forma adjustments to the aggregate of the amounts in the columns captioned "Atlantic Power" and "Path 15 Holdco" as at June 30, 2006 and for the six months then ended, and for the year ended December 31, 2005, and found the amounts in the column captioned "Pro forma Consolidated" to be arithmetically correct.

A pro forma financial statement is based on management assumptions and adjustments which are inherently subjective. The foregoing procedures are substantially less than either an audit or a review, the objective of which is the expression of assurance with respect to management's assumptions, the pro forma adjustments, and the application of the adjustments to the historical financial information. Accordingly, we express no such assurance. The foregoing procedures would not necessarily reveal matters of significance to the pro forma financial statements, and we therefore make no representation about the sufficiency of the procedures for the purposes of a reader of such statements.

**ATLANTIC POWER CORPORATION**  
**NOTES TO PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS**  
**(In thousands of U.S. dollars)**  
**Six months ended June 30, 2006 and year ended December 31, 2005**  
**(Unaudited)**

**1. BASIS OF PREPARATION**

The accompanying unaudited *pro forma* consolidated balance sheet and the unaudited *pro forma* consolidated statements of income of Atlantic Power Corporation (the "Company") have been prepared by the Company in accordance with Canadian generally accepted accounting principles ("Canadian GAAP"). The *pro forma* consolidated financial statements have been derived from the following sources:

- Unaudited consolidated balance sheet and unaudited consolidated statement of income and deficit of the Company as of and for the six-month period ended June 30, 2006;
- Unaudited consolidated balance sheet and unaudited consolidated statement of operations of Trans-Elect NTD Holdings Path 15, LLC ("Path 15 Holdco") as of and for the six-month period ended June 30, 2006;
- Audited consolidated statement of operations and deficit of the Company for the year ended December 31, 2005; and
- Audited consolidated statement of operations of Path 15 Holdco for the year ended December 31, 2005.

The unaudited and audited financial statements of Path 15 Holdco described above have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). As disclosed in Note 2 to the Path 15 Holdco financial statements described above and included elsewhere in this short form prospectus, there are no significant differences between US GAAP and Canadian GAAP that affect the accompanying unaudited *pro forma* consolidated financial statements.

The unaudited *pro forma* consolidated balance sheet gives effect to the adjustments in Note 2 as if they had occurred on June 30, 2006. The unaudited *pro forma* consolidated statements of income for the periods presented give effect to the adjustments in Note 2 as if the transactions occurred on January 1, 2005.

The unaudited *pro forma* consolidated financial statements may not be indicative of the financial position and results of operations that would have resulted if the proposed transactions and the acquisition of Path 15 Holdco had occurred on the dates indicated or of the operating results which may be obtained in the future. The unaudited *pro forma* consolidated financial statements should be read in conjunction with the historical financial statements of the Company, incorporated by reference in this prospectus, and the historical financial statements of Path 15 Holdco located elsewhere in this prospectus.

**2. PRO FORMA ADJUSTMENTS**

The accompanying unaudited *pro forma* consolidated financial statements of the Company have been prepared to reflect the following transactions:

**(a) Acquisition of Path 15 Holdco**

On June 29, 2006, Atlantic Power Holdings, LLC ("Atlantic Holdings"), a subsidiary of the Company, agreed to indirectly acquire Path 15 Holdco, which owns approximately 72% of the transmission system rights ("TSRs") in the Path 15 transmission project located in California.

The acquisition of Path 15 Holdco closed on September 15, 2006, and was financed with an acquisition credit facility in the amount of \$88,000 (the "Acquisition Credit Facility") at Atlantic Holdings. Loans under the Acquisition Credit Facility bear interest at a rate equal to a Eurodollar Rate or a U.S. Base Rate, plus an applicable margin to those rates. As of September 22, 2006, the applicable rate, including margin, is 6.83% on the Eurodollar loan outstanding on the Acquisition Credit Facility. The Acquisition Credit Facility matures on September 14, 2007. The fees associated with the Acquisition Credit Facility in the amount of \$225 have been recorded as deferred financing costs in the consolidated *pro forma* balance sheet.

**ATLANTIC POWER CORPORATION**  
**NOTES TO PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
(In thousands of U.S. dollars)

**Six months ended June 30, 2006 and year ended December 31, 2005**  
**(Unaudited)**

**2. PRO FORMA ADJUSTMENTS (Continued)**

The cash payment for the acquisition in the amount of \$88,000, including acquisition costs of approximately \$2,500, has been allocated to the net assets acquired, based on management's preliminary estimate of the fair value at June 30, 2006, as follows:

Working capital, including acquired cash . . . . .	\$ 9,347
Transmission system rights . . . . .	264,001
Other long-term assets . . . . .	799
Deferred tax liability . . . . .	(29,228)
Long-term debt (excluding current portion) . . . . .	(156,919)
Total cash paid . . . . .	<u>\$ 88,000</u>

The purchase price allocation is based upon management's best estimate of the relative fair values of the identifiable assets acquired and liabilities assumed. Because the Company has only recently acquired Path 15 Holdco, it is not practicable to definitely allocate the purchase price. Once this matter has been resolved, the Company will reassess its initial allocation. The effect may be to decrease the purchase price by up to \$24,000 if pending matters regarding regulated revenues are resolved in a manner that reduces future revenues. Please see "Risks Related to the Path 15 Project — Unresolved Ratemaking Issues Under FERC Review Could Adversely Affect Cash Flows" for additional disclosure related to this matter. The amount, if any, is not presently determinable.

**(b) Issuance of Income Participating Securities ("IPSs")**

The Company will issue 8,531,000 IPSs for gross proceeds of Cdn\$90,002. Each IPS consists of one common share of the Company and Cdn\$5.767 aggregate principal amount of 11.0% subordinated notes of the Company. The portion of the gross proceeds allocated to common stock is \$36,993.

**(c) Issuance of Convertible Debentures**

The Company will issue convertible debentures in the aggregate principal amount of Cdn\$60,000. The convertible debentures will bear interest at an annual rate of 6.25% and mature on October 31, 2011.

**(d) Redemption of Existing Investors**

The Existing Investors have the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest for a two-year period from the initial public offering of the Company on November 18, 2004.

A portion of the proceeds of this offering will be used to increase the Company's ownership in Atlantic Holdings from 70.1% to 85.1%. Atlantic Holdings will in turn redeem a portion of its ownership held indirectly by the Existing Investors, which will decrease the Existing Investors' ownership of Atlantic Holdings from 29.9% to 14.9%. Subsequent to this redemption of the Existing Investors, 9,461,268 IPSs would be required to be issued to purchase the remaining interest of the Existing Investors.

The amount paid to the Existing Investors, before deducting the Existing Investors' share of offering costs, for the partial redemption described above was \$88,690. The difference between the amount paid and the carrying value of Other liabilities, non-controlling interests, as of June 30, 2006 would have resulted in a *pro forma* adjustment to accumulated deficit of \$7,061.

Costs incurred by Atlantic Holdings and the Company for the purpose of issuing securities to repurchase the Existing Investors' interests are paid by the Existing Investors. The aggregate costs of this offering consist of underwriters fees related to the sale of IPSs and convertible debentures in the amounts of \$3,986 and \$2,126, respectively, and approximately \$1,000 in other costs, primarily legal and audit costs.

The total offering costs have been allocated based on the net proceeds received by the Company and by the Existing Investors. This allocation results in the total offering costs of \$7,112 being allocated to the Existing Investors and the Company in the amounts of \$5,016 and \$2,096, respectively. The aggregate offering costs incurred by the Company were allocated to deferred financing costs and common stock in the amounts of \$1,512 and \$584, respectively.

**ATLANTIC POWER CORPORATION**  
**NOTES TO PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(In thousands of U.S. dollars)**  
**Six months ended June 30, 2006 and year ended December 31, 2005**  
**(Unaudited)**

2. *PRO FORMA ADJUSTMENTS (Continued)*

*(e) Partial Repayment of Acquisition Credit Facility*

The Company will use a portion of the proceeds of this offering to repay \$37,061 of the outstanding balance on the Acquisition Credit Facility described in Note 2(a) above. In addition, \$95 of the financing costs related to the Acquisition Credit Facility have been expensed to reflect the portion of the Acquisition Credit Facility to be repaid with proceeds from this offering.

*(f) Non-controlling Interest*

As a result of the redemption of a portion of the Existing Investors' interest as described in Note 2(d) above, the *pro forma* consolidated statements of income for the year ended December 31, 2005 and the six-month period ended June 30, 2006 are adjusted to reflect a proportionately lower amount of distribution, non controlling interest, change in fair value of non-controlling interest and foreign exchange loss. Interest expense has also been adjusted to reflect interest expense on the subordinated notes that would have been issued to redeem a portion of the Existing Investors' interest. In addition, the *pro forma* consolidated balance sheet as of June 30, 2006 reflects proportionate changes in other liabilities, non-controlling interests, distribution payable, non-controlling interest and dividends payable.

*(g) Interest Expense*

The *pro forma* consolidated statements of operations for the year ended December 31, 2005 and the six-month period ended June 30, 2006 are adjusted to reflect increased interest expense related to the issuance of the convertible debentures with a principal amount of Cdn\$60,000 and an annual interest rate of 6.25% and the additional subordinated notes with a principal amount of Cdn\$49,198 and an annual interest rate of 11%. In addition, interest expense related to the portion of the Acquisition Credit Facility not repaid with offering proceeds at an assumed rate of 6.9% has been recorded.

*(h) Amortization*

The *pro forma* consolidated statements of income for the year ended December 31, 2005 and the six-month period ended June 30, 2006 have been adjusted to reflect the incremental straight-line amortization, based on a 30-year life, of the amounts allocated to the Path 15 Holdco intangible asset in excess of the book value of net assets acquired. In addition, deferred financing costs have been adjusted to reflect amortization of the *pro forma* deferred financing costs described in 2(d) above.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Six months ended June 30, 2006 and 2005**  
**(Unaudited)**

**1. GENERAL**

These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes as of and for the period ended December 31, 2005 as previously reported by Trans-Elect NTD Holdings Path 15, LLC ("Holdings Path 15").

The accompanying consolidated financial statements have been prepared using accounting principles generally accepted in the United States of America, or GAAP. These accounting principles require us to use estimates and assumptions that impact the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. Actual results may differ from our estimates.

The consolidated financial statements are unaudited, but in our opinion include all adjustments (consisting of normal recurring adjustments) necessary for a fair statement of the results for the interim period. The interim financial results are not necessarily indicative of results that may be expected for any other interim period or the fiscal year.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The consolidated financial statements reflect the application of certain accounting policies described in this note. These policies are prepared in accordance with accounting principles generally accepted in the United States of America. In addition, these policies are also consistent with those accounting principles generally accepted in Canada.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated.

**Intercompany Balances**

The consolidated financial statements include the financial statements of Holdings Path 15 and its wholly owned subsidiary. All significant intercompany balances and transactions have been eliminated in consolidation.

**Regulatory Accounting**

Trans-Elect NTD Path 15, LLC ("TE Path 15") accounts for certain income and expense items in accordance with Statement of Financial Accounting Standards No. 71 "Accounting for the Effects of Certain Types of Regulation" ("SFAS No. 71"). Pursuant to SFAS No. 71, certain costs are deferred, which would otherwise be charged to expense, as regulatory assets based on TE Path 15's ability to recover these costs in future rates.

**Revenue Recognition**

TE Path 15's electric transmission operations recognize revenues as transmission services are provided. TE Path 15 records unbilled revenue based on estimates at each month-end and then adjusts to actual billed revenues when actual data becomes available. Cash received from the California Independent System subtracted from the revenue requirement for the following year. Operator's ("CAISO") auctions of firm transmission rights is recorded as deferred revenue until the month it is earned. Any revenue in excess of TE Path 15's annual revenue requirement is deferred until the overcollection is subtracted from the revenue requirement for the following year.

**Cash and Temporary Cash Investments**

Holdings Path 15 considers investments with a maturity of three months or less at the time of purchase to be cash equivalents. Those instruments are primarily money market funds.

**Restricted Cash**

Restricted cash reflects amounts held as deposits for self-insured property losses and for the debt service reserve.

**Six months ended June 30, 2006 and 2005**  
**(Unaudited)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Path 15 Project Intangible Assets**

Intangible assets held represent amounts contributed by TE Path 15 to the Western Area Power Administration ("Western") for the construction and development of the Path 15 transmission line. TE Path 15 owns long-term transmission system rights for approximately seventy-two percent of the capacity of the completed transmission line. The intangible assets owned by TE Path 15 are being amortized over 30 years, the depreciable life of the Path 15 Upgrade approved by FERC, and will be tested for impairment at least annually by comparing the fair values of those assets with their recorded amounts consistent with Statement of Financial Accounting Standards No. 142 "Goodwill and Other Intangible Assets" ("SFAS No. 142"). The total amount of project intangible assets was \$152.7 million as of June 30, 2006 and December 31, 2005, respectively. The annual expense to amortize the intangible assets over 30 years is approximately \$5.1 million.

**Deferred Debt Issuance Costs**

Other assets include deferred debt issuance costs, which are being amortized over the remaining maturity period of the outstanding debt.

**Income Taxes**

Holdings Path 15 is organized as a limited liability company and has elected to be taxed as a partnership. It is therefore exempt from paying federal income taxes. As a result, Holdings Path 15 has not recorded a provision for federal income taxes in its statement of operations or recorded amounts for deferred income tax assets or liabilities on its balance sheet. For FERC reporting purposes (non-GAAP), TE Path 15 computes, after the commencement of commercial operation, estimated federal income taxes as well as the associated deferred income taxes. TE Path 15 anticipates paying dividends to Holdings Path 15 in amounts at least sufficient for its members to satisfy their federal and state income tax obligations.

**Other Comprehensive Income**

As of June 30, 2006 and December 31, 2005, there were no components of other comprehensive income (defined as the change in equity of a business enterprise during a period from sources other than those resulting from investments by owners and distributions to owner).

**3. REGULATORY MATTERS**

**Rate Case**

TE Path 15 established its current annual revenue requirement in a filing submitted to the FERC in October 2004 (Docket No. ER05-17-000). In December 2004, FERC ordered that rates be established consistent with the filed revenue requirement, subject to refund. A number of parties intervened in the case, six of whom protested elements of the filing. Testimony was provided by various parties and a hearing was held before a FERC Administrative Law Judge ("ALJ") on September 19 and 20, 2005. On December 21, 2005 the ALJ issued an Initial Decision (Docket No. ER05-17-002).

The revenue requirement filed by TE Path 15 is used to determine the tariff amounts that serve as the basis for the revenues realized by TE Path 15. The revenue requirement comprises two components. The first component provides for the recovery of operating expenses forecasted to be incurred by TE Path 15 during calendar year 2005. These operating expenses include estimated operation and maintenance expenses incurred by Western on behalf of the project to be billed to TE Path 15. The expenses also include operation and maintenance expenses billed to TE Path 15 by other parties, including TE, for managerial and administrative services provided to TE Path 15. The remainder of the operating expenses include depreciation and amortization, insurance, a provision for federal and state income taxes, other non-income taxes and the amortization of rate case-related expenses.

Second, it provides for a return on the net investment associated with the project. The net investment includes the gross value of TE Path 15's intangible assets, including Allowance for Funds Used During Construction ("AFUDC"), forecasted for calendar year 2005 reduced by one half of the depreciation expense expected to be recorded during 2005. The remainder of the net investment includes a provision for working capital and prepayments (including debt service and liquidity reserve accounts). The rate of return on the investment is determined by applying the capital structure and equity returns authorized by the FERC in Docket No. ER02-1672-000 and forecasted debt costs for 2005 to the total investment base. In this docket the FERC authorized a 50% debt/50% equity capital structure and 13.5% equity return. The annual revenue requirement requested by TE Path 15 for the years 2005 through 2007 was approximately \$36.7 million.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Six months ended June 30, 2006 and 2005**  
**(Unaudited)**

**3. REGULATORY MATTERS (Continued)**

During the rate case TE Path 15 agreed to changes in its filed revenue requirement, resulting in an annual revenue requirement of approximately \$36.0 million for 2005 - 2007 and has recognized this lower amount in operating revenue for the three months and six months ended June 30, 2006 and 2005. Overcollections resulting from the use of the higher filed revenue requirement will be refunded to transmission customers through the Transmission Revenue Balancing Account ("TRBA") mechanism in the CAISO tariff.

One area of controversy raised by intervenors in the rate case relates to TE Path 15's recovery of the costs associated with the portion of the capacity in the project granted to Western. Western has proposed in Docket No. ER04-1198 that it be able to recover approximately \$1.3 million in Path 15 study costs, along with receiving all Firm Transmission Rights auction, wheeling and scheduling revenues associated with its 10% capacity entitlement when it chooses to schedule power over the Path 15 upgrade for use in serving its customer needs in Northern California during periods of congestion. At all other times, Western will credit these revenues back to the CAISO. Certain intervening parties took the position that Western's unwillingness to credit all of these additional revenues to the CAISO, coupled with TE Path 15's proposed revenue requirement, will lead to an overcharge for the CAISO's customers. The ALJ concluded that this issue was not properly before him in this case due to previous FERC rulings. On May 16, 2006 the FERC issued two orders in cases Docket numbers ER05-17 and ER04-1198 relating to this issue. The FERC granted TE Path 15's motion for summary disposition of this matter and approved Western's proposed rate treatments with respect to Western's participation in the Path 15 upgrade project. With no party having sought rehearing, these orders became final and no longer subject to review as of June 15, 2006.

In the Initial Decision the ALJ reached the following conclusions:

- TE Path 15 has not shown inclusion of its debt and liquidity reserve account balances as rate base items to be just and reasonable; therefore, \$10,773,091 should be removed from the rate base used to calculate its revenue requirement.
- With regard to working capital allowance, TE Path 15 should adopt the FERC's 45-day convention and include in its calculation only O&M expenses, minus fuel and purchased power, resulting in a working capital allowance component of rate base of \$300,812 vs. the requested \$7,257,095.
- TE Path 15's utilization of monthly compounding with regard to calculating AFUDC was affirmed.

If the FERC adopts the ALJ's Initial Decision, TE Path 15's annual revenue requirement would be approximately \$2.3 million lower for the years 2005 - 2007. TE Path 15 filed exceptions to the ALJ's Initial Decision on January 20, 2006 and responded to exceptions filed by other parties on February 9, 2006. The FERC commissioners will rule on TE Path 15's revenue requirement after considering the ALJ's Initial Decision as well as the filings made by TE Path 15 and intervenors. As of September 11, 2006 the FERC has not issued an order in this case. While no deadline for FERC action exists, TE Path 15 expects a FERC order in 2006. TE Path 15 believes that the incurrence of the costs associated with its reserve and working capital requirements were both prudent and necessary to successfully finance and complete the Path 15 Upgrade. TE Path 15 further believes that inclusion of these types of reserves in rate base is consistent with the FERC's current rate making practices and its objectives in promoting transmission development by independent companies. Consequently, management believes that it is probable that the FERC will approve an annual revenue requirement of approximately \$36.0 million.

**Income Tax Allowance**

In the rate case proceeding the FERC has also addressed the issue of whether a limited liability company ("LLC"), such as TE Path 15, is entitled to include a provision for federal and state income taxes in its revenue requirement if the regulated entity itself is not subject to the payment of income taxes. This issue arose out of a June 2004 decision by the Federal Circuit Court of Appeals of the District of Columbia in the case of BP West Coast Products, LLC vs. FERC. In that case, the Court decided that the SFPP Limited Partnership, a regulated oil products pipeline, was not entitled to include an income tax allowance in its revenue requirement since it did not itself actually pay income taxes. This finding was contrary to established FERC policy that an inclusion of a tax allowance was appropriate provided that income taxes were ultimately paid by a corporate investor in a limited partnership or LLC.

In light of the Court decision, TE Path 15 requested that the FERC make a specific finding that the Company be allowed to include an income tax allowance in its revenue requirement. The FERC ruled that TE Path 15 would be allowed to recover the taxes in its rates and that the issue would not be a part of the hearing process in Docket No. ER05-17-000. FERC further ordered, however, that the issue of the inclusion of income taxes in rates for limited partnerships or LLCs should be examined in a separate proceeding and that the income tax component of TE Path 15's revenue requirement would be subject to refund pending the findings of that separate proceeding. To that end, the FERC established a policy proceeding, Docket No. PL05-5-000, to examine the issue for all companies whose rates are regulated by FERC. In May 2005 the FERC issued an order in that policy proceeding concluding that a LLC would be entitled to include an allowance for income taxes in its rates as if it were a tax paying entity if the ultimate owners of the LLC have either an actual or potential tax liability associated with their investment in the regulated company.

**Six months ended June 30, 2006 and 2005**  
**(Unaudited)**

**3. REGULATORY MATTERS (Continued)**

Accordingly, the FERC has permitted TE Path 15 to include an allowance for state and federal income taxes in its revenue requirement even though TE Path 15 is not a tax paying entity. This decision has been appealed by one party, the Transmission Agency of Northern California ("TANC") to the U. S. Court of Appeals for the District of Columbia. In March 2006 the Court of Appeals dismissed TANC's appeal on the grounds that it was not timely to consider the matter. TANC will have the opportunity to refile an appeal at a later date. On June 1, 2006 TANC refiled a petition for review of the FERC's orders approving the inclusion of an income tax allowance in TE Path 15's revenue requirement and TE Path 15 intervened in this case on June 23, 2006. Management expects the case to be argued sometime in the second or third quarter of 2007.

Management believes it is unlikely that the FERC's decision in this matter will be overturned. If it is ultimately determined that the Company is not allowed to include a provision for income taxes in its rates, the result would likely be a reduction in annual revenues. In such a case, the Company anticipates undertaking measures to reduce the potential negative impact on cash flows.

**Regulatory Assets**

As of June 30, 2006 and December 31, 2005, TE Path 15 had incurred \$1.7 million and \$1.6 million of costs to prepare and file its tariff with the FERC for a three year period of calendar years 2005 through 2007. The Company also incurred \$0.1 million of transition costs during the year ended December 31, 2004 that were associated with organizing TE Path 15 to begin operations. The rate case and transition costs are being amortized and recovered in rates over the three year period of its rate filing.

**TRBA**

The CAISO tariff provides for a true-up mechanism in which the CAISO calculates any over- or under-collection of transmission revenues relative to the authorized annual revenue requirement and either credits or charges that difference to transmission customers in the subsequent year. This is done through a TRBA account. In 2006, 2005 and 2004 TE Path 15 received payments from the CAISO in excess of its filed revenue requirement. As of June 30, 2006 and December 31, 2005, TE Path 15 had recorded deferred revenue of \$7.6 million and \$6.1 million, respectively. Approximately \$1.8 million and \$0.3 million of these amounts were auction proceeds for future time periods. The other \$5.8 million as of June 30, 2006 is a regulatory liability for collections in excess of the annual revenue requirement.

**4. SALE OF PATH 15**

In February 2006 the owners of Holdings Path 15 began a process to evaluate the potential sale of their Path 15-related interests. Bids from prospective purchasers of those interests were received and evaluated by the owners. On June 28, 2006 the owners of Holdings Path 15 signed an agreement with Atlantic Power Holdings, LLC ("Atlantic") to indirectly sell 100% of TE Path 15 for a total of approximately \$85 million, subject to certain adjustments related to regulatory events, plus the assumption of approximately \$145 million of debt.

The transactions contemplated by the agreement with Atlantic are subject to regulatory approval by the FERC. The transaction is expected to close in the second half of 2006.

## REPORT OF INDEPENDENT AUDITORS

To the Members of Trans-Elect NTD Holdings Path 15, LLC:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, of members' capital and of cash flows present fairly, in all material respects, the financial position of Trans-Elect NTD Holdings Path 15, LLC at December 31, 2005 and 2004, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**1. ORGANIZATION AND BUSINESS**

Trans-Elect NTD Holdings Path 15, LLC, ("Holdings Path 15" or the "Company") is a limited liability company with four preferred members and a single common member. The preferred members of Holdings Path 15 are EIF Path 15 Funding LLC, Cardinal Power Funding, LLC, KB Transmission LLC, and New Transmission Development Company ("NTD"). NTD is a subsidiary of Trans-Elect, Inc. ("TE") and the common member of Holdings Path 15. Holdings Path 15 owns Trans-Elect NTD Path 15, LLC ("TE Path 15"), a Delaware limited liability company. Holdings Path 15 was formed October 16, 2002 and was a developmental stage enterprise until TE Path 15 began commercial operations on December 22, 2004. As such, revenues were recognized only for the last 10 days of 2004.

TE is a corporation organized under the laws of the State of Michigan and is an independent, for-profit transmission holding company that focuses on the acquisition of transmission systems from investor-owned utilities and other transmission owners and the development of new independent transmission lines. The Federal Energy Regulatory Commission ("FERC") regulates all revenues associated with transmission systems owned by TE and the Company in the United States.

TE, along with the Western Area Power Administration ("Western") and the Pacific Gas and Electric Company, ("PG&E") signed an agreement in 2002 to jointly construct a regulated transmission line and make related substation modifications along Path 15 in Central California. The then existing Path 15 transmission corridor encompassed two high voltage transmission lines that extend from southern California to northern California, facilitating the movement of power from the Pacific Northwest to southern California in the summer and from generators in southern California to northern California in the winter. The new transmission line consists of an additional eighty-three mile, 500-kilovolt transmission line along Path 15 (the "Path 15 Upgrade") which, with associated modifications to existing substations by PG&E, increases capacity to the north by an estimated 1,500 megawatts, while also boosting southbound deliveries.

Construction of the Path 15 Upgrade commenced in the third quarter of 2003, and commercial operation began on December 22, 2004. Western owns the completed transmission line and PG&E owns the substations into which the line connects. In return for financing the construction of the Path 15 Upgrade, TE Path 15 has received transmission system rights on the Path 15 Upgrade, but does not own any interest in the physical assets. TE Path 15 has assigned these rights to the California Independent System Operator ("CAISO") in return for payments designed to recover the FERC-approved revenue requirement. The transmission rights represent an intangible asset held by TE Path 15.

TE Path 15 established its annual revenue requirement of approximately \$36.7 million in a filing submitted to the FERC in October 2004 (Docket No. ER05-17-000). In December 2004, FERC ordered that rates be established consistent with the filed revenue requirement, subject to refund. During the rate case, TE Path 15 agreed to changes in its filed revenue requirement, resulting in a proposed annual revenue requirement of approximately \$36.0 million for 2005 - 2007 and has recognized this lower amount in operating revenue for the year ended December 31, 2005.

A hearing on the TE Path 15's rate filing was held before an Administrative Law Judge ("ALJ") in September 2005, who issued an Initial Decision in December 2005. In the Initial Decision, the ALJ recommended the disallowance of certain cash reserves that TE Path 15 included in its rate base for purposes of calculating its revenue requirement. TE Path 15 filed exceptions to the ALJ's Initial Decision on January 20, 2006 and responded to exceptions filed by other parties on February 9, 2006. The FERC commissioners will rule on TE Path 15's revenue requirement after considering the ALJ's Initial Decision as well as the filings made by TE Path 15 and intervenors. No deadline for FERC action exists, though TE Path 15 expects a FERC order in the 2nd or 3rd quarter of 2006. TE Path 15 believes that the incurrence of the costs associated with its reserves and working capital requirements were both prudent and necessary to successfully finance and complete the Path 15 Upgrade. TE Path 15 further believes that inclusion of these types of reserves in rate base is consistent with the FERC's current rate making practices and its objectives in promoting transmission development by independent companies. Consequently, management believes that it is probable that the FERC will approve an annual revenue requirement of approximately \$36.0 million. Refer to Note 7 for additional information.

Western maintains the Path 15 Upgrade line and draws advance funding from TE Path 15 to pay for the expenses.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The consolidated financial statements reflect the application of certain accounting policies described in this note. These policies are prepared in accordance with accounting principles generally accepted in the United States of America. In addition, these policies are also consistent with those accounting principles generally accepted in Canada.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated.

**Intercompany Balances**

The consolidated financial statements include the financial statements of Holdings Path 15 and its wholly owned subsidiary. All significant intercompany balances and transactions have been eliminated in consolidation.

**Regulatory Accounting**

TE Path 15 accounts for certain income and expense items in accordance with Statement of Financial Accounting Standards No. 71 "Accounting for the Effects of Certain Types of Regulation" ("SFAS No. 71"). Pursuant to SFAS No. 71, certain costs are deferred, which would otherwise be charged to expense, as regulatory assets based on TE Path 15's ability to recover these costs in future rates.

**Revenue Recognition**

TE Path 15's electric transmission operations recognize revenues as transmission services are provided. TE Path 15 records unbilled revenue based on estimates at each month end and then adjusts to actual billed revenues when actual data becomes available. Cash received from auctions of firm transmission rights is recorded as deferred revenue until the month it is earned. Any revenue in excess of TE Path 15's annual revenue requirement is deferred until the overcollection is subtracted from the revenue requirement for the following year.

**Cash and Temporary Cash Investments**

Holdings Path 15 considers investments with a remaining maturity of three months or less at the time of purchase to be cash equivalents. Those instruments are primarily money market funds.

**Restricted Cash**

Restricted cash reflects amounts held as deposits for self-insured property losses and for the debt service reserve.

**Path 15 Project Intangible Assets**

Intangible assets held represent amounts contributed by TE Path 15 to Western for the construction and development of the Path 15 transmission line. TE Path 15 owns long-term transmission system rights for approximately seventy-two percent of the capacity of the completed transmission line. The intangible assets owned by TE Path 15 will be amortized over 30 years, the depreciable life of the Path 15 Upgrade approved by FERC, and will be tested for impairment at least annually by comparing the fair values of those assets with their recorded amounts consistent with Statement of Financial Accounting Standards No. 142 "Goodwill and Other Intangible Assets" ("SFAS No. 142"). The total amount of project intangible assets was \$152.7 million as of December 31, 2005 and 2004, respectively. The annual expense to amortize the intangible assets over 30 years is approximately \$5.1 million.

**Allowance for Funds Used During Construction ("AFUDC")**

AFUDC, a non-cash item, represents the cost of capital used to finance utility construction activity. AFUDC is computed by applying a composite rate to qualified construction work in progress. The amount of AFUDC capitalized as a construction cost is credited to other income and deductions (for equity capital) and interest charges (for debt capital). AFUDC amounts capitalized are included in the Path 15 project intangible assets, and ultimately the rate base, used in establishing transmission service rates. TE Path 15 calculated AFUDC based on the amounts incurred related to the development and construction of Path 15.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Deferred Debt Issuance Costs**

Other assets include deferred debt issuance costs, which are being amortized over the remaining maturity period of the outstanding debt. The Company's deferred debt issuance costs as of December 31, 2005 and 2004 were as follows:

	<u>Debt Issuance Costs</u>	<u>Accumulated Amortization</u>	<u>Net, Debt Issuance Costs</u>
Construction loan . . . . .	\$ 1,283,233	(1,283,233)	\$ —
TE Path 15 Senior Bonds . . . . .	5,413,199	(273,441)	5,139,758
Holdings Path 15 Senior Bonds . . . . .	2,219,901	(144,447)	2,075,454
Holdings Path 15 Equity Bridge Loan . . . . .	3,098,938	(3,098,938)	—
<b>Balance December 31, 2004 . . . . .</b>	<u>\$12,015,271</u>	<u>(4,800,059)</u>	<u>\$7,215,212</u>
Construction loan . . . . .	\$ 1,283,233	(1,283,233)	\$ —
TE Path 15 Senior Bonds . . . . .	5,413,199	(489,969)	4,923,230
Holdings Path 15 Senior Bonds . . . . .	2,219,901	(255,446)	1,964,455
Holdings Path 15 Equity Bridge Loan . . . . .	3,098,938	(3,098,938)	—
<b>Balance December 31, 2005 . . . . .</b>	<u>\$12,015,271</u>	<u>(5,127,586)</u>	<u>\$6,887,685</u>

**Income Taxes**

Holdings Path 15 is organized as a limited liability company and has elected to be taxed as a partnership. It is therefore exempt from paying federal income taxes. As a result, Holdings Path 15 has not recorded a provision for federal income taxes in its statement of operations or recorded amounts for deferred income tax assets or liabilities on its balance sheet. For FERC reporting purposes (non-GAAP), TE Path 15 computes, after the commencement of commercial operation, estimated federal income taxes as well as the associated deferred income taxes. TE Path 15 anticipates paying dividends to Holdings Path 15 in amounts at least sufficient for its members to satisfy their federal and state income tax obligations.

**Other Comprehensive Income**

As of December 31, 2005 and 2004, there were no components of other comprehensive income (defined as the change in equity of a business enterprise during a period from sources other than those resulting from investments by owners and distributions to owner).

**3. CONSTRUCTION LOAN**

On September 12, 2003, TE Path 15 entered into a Construction and Contingent Loan Credit Agreement (the "Credit Agreement") with DZ Bank AG Deutsche Zentral-Genossenschaftsbank, Frankfurt Am Main, New York Branch as Administrative Agent for \$19.5 million in loan commitments. The purpose of the loan was to provide funds for construction contingencies and construction cost overruns. On December 8, 2004, the then outstanding loan balance of \$12.0 million was reduced to \$4.128 million pursuant to the terms of the Credit Agreement. The loan is collateralized by the assets of TE Path 15. Interest paid pursuant to the Credit Agreement in 2005 and 2004 was \$0.2 million and \$0.4 million, respectively. As of December 31, 2005 the outstanding balance under the Credit Agreement was \$3.9 million. TE Path 15 expects to pay off the outstanding loan balance on or prior to its scheduled termination date of December 8, 2007.

**4. SENIOR BONDS**

**Holdings Path 15**

On September 12, 2003, the Company and TE Path 15 closed the financing necessary to fund the construction and operation of the transmission line and repay an outstanding development loan.

The Company entered into a Bond Purchase Agreement with several lenders for \$56.0 million of Senior Bonds maturing in 2023. The interest rate for the bonds was set at 8.96%. The bonds are collateralized by the assets of the Company. Interest payments are scheduled to be paid over the term of the bonds. Principal repayments began in 2005 and are scheduled to be paid over the remaining term of the bonds.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**4. SENIOR BONDS (Continued)**

Holdings Path 15 is subject to various debt covenants under the Bond Purchase Agreement. The covenants include restrictions on payment of distributions to the common and preferred members. Management believes that Holdings Path 15 was in compliance with all debt covenants as of December 31, 2005 and 2004.

The net proceeds from the bond issue were contributed to TE Path 15 to fund construction costs. TE Path 15 will return cash to the Company through dividend declarations as necessary to make required semi-annual principal and interest payments, and declared and paid dividends of \$7.7 million and \$5.0 million during the years ended December 31, 2005 and 2004 to meet the required semi-annual principal and interest payments.

Long-term maturities for the period 2006 through 2010 are as follows:

2006	\$ 2,828,000
2007	3,052,000
2008	2,660,000
2009	2,688,000
2010	2,660,000
Thereafter	39,396,000
Total	<u>\$53,284,000</u>

**TE Path 15**

On September 12, 2003, TE Path 15 closed on a portion of the financing necessary to fund the construction and operation of the transmission line and repay an outstanding development loan. TE Path 15 entered into a Bond Purchase Agreement with several lenders for \$95.5 million of Senior Bonds maturing on December 15, 2028. The Bond Purchase Agreement provided for the bonds to be drawn as separate series on the following dates: September 12, 2003 — \$47.5 million; October 10, 2003 — \$14.0 million; January 12, 2004 — \$11.0 million; March 10, 2004 — \$15.0 million; and June 10, 2004 — \$8.0 million. On June 15, 2004, the five series of bonds were exchanged for a single issue for the aggregate amount was issued with an interest rate of 8.00%. The bonds are collateralized by the assets of TE Path 15. Principal and interest payments are scheduled to be paid over the remaining 23-year term of the bonds.

Long-term debt maturities for the period 2006 through 2010 are as follows:

2006	\$ 4,440,792
2007	4,775,000
2008	4,058,792
2009	3,820,000
2010	3,820,000
Thereafter	70,192,416
Total	<u>\$91,107,000</u>

TE Path 15 is subject to various debt covenants under the Bond Purchase Agreement. The covenants include restrictions on payment of distributions to Holdings Path 15, limitations on issuing additional debt and the total amount of capital expenditures that can be made by the Company. Management believes that TE Path 15 was in compliance with all debt covenants as of December 31, 2005 and 2004.

Cash paid for bond interest by Holdings Path 15 and TE Path 15 during the years ended December 31, 2005 and 2004 was approximately \$12.5 million and \$12.0 million, respectively.

**5. PREFERRED MEMBER CAPITAL CONTRIBUTIONS**

On December 8, 2004, the date of construction completion, three Preferred Members contributed \$38.9 million of equity to the Company. These equity funds were contributed by Holdings Path 15 to TE Path 15 to establish cash reserves, pay down the Construction Loan, and pay other project costs. The individual amounts contributed by the Preferred Members were \$14.1 million each from EIF Path 15 Funding LLC and Cardinal Power Funding, LLC and \$10.6 million from KB Transmission LLC.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**6. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES**

As of December 31, 2005 and 2004, the carrying amount of cash and cash equivalents approximates fair market value due to the short maturity of those investments. The estimated fair value of Holdings Path 15's long-term debt outstanding is based on the quoted market prices as of December 31, 2005 and 2004. The fair value of the short term loans outstanding as of December 31, 2005 and 2004 approximates the carrying value as a result of the short-term nature of the obligation. The estimated fair market values of Holdings Path 15's and TE Path 15's financial instruments are as follows:

	December 31, 2005		December 31, 2004	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
<b>Assets</b>				
Cash and cash equivalents . . . . .	\$17,162,086	\$ 17,162,086	\$27,337,296	\$ 27,337,296
<b>Liabilities</b>				
Construction Loan . . . . .	3,905,418	3,905,418	4,128,000	4,128,000
Holdings Path 15 Bonds . . . . .	53,284,000	58,700,000	56,000,000	60,000,000
TE Path 15 Series F Senior Bonds . . . . .	91,107,000	102,200,000	95,500,000	103,500,000

**7. REGULATORY MATTERS**

**Rate Case**

TE Path 15 established its current annual revenue requirement in a filing submitted to the FERC in October 2004 (Docket No. ER05-17-000). In December 2004, FERC ordered that rates be established consistent with the filed revenue requirement, subject to refund. A number of parties intervened in the case, six of whom protested elements of the filing. Testimony was provided by various parties and a hearing was held before a FERC Administrative Law Judge ("ALJ") on September 19 and 20, 2005. On December 21, 2005 the ALJ issued an Initial Decision (Docket No. ER05-17-002).

The revenue requirement filed by TE Path 15 is used to determine the tariff amounts that serve as the basis for the revenues realized by TE Path 15. The revenue requirement comprises two components. The first component provides for the recovery of operating expenses forecasted to be incurred by TE Path 15 during calendar year 2005. These operating expenses include estimated operation and maintenance expenses incurred by Western on behalf of the project to be billed to TE Path 15. The expenses also include operation and maintenance expenses billed to TE Path 15 by other parties, including TE, for managerial and administrative services provided to TE Path 15. The remainder of the operating expenses include depreciation and amortization, insurance, a provision for federal and state income taxes, other non-income taxes and the amortization of rate case-related expenses.

Second, it provides for a return on the net investment associated with the project. The net investment includes the gross value of TE Path 15's intangible assets, including Allowance for Funds Used During Construction ("AFUDC"), forecasted for calendar year 2005 reduced by one half of the depreciation expense expected to be recorded during 2005. The remainder of the net investment includes a provision for working capital and prepayments (including debt service and liquidity reserve accounts). The rate of return on the investment is determined by applying the capital structure and equity returns authorized by the FERC in Docket No. ER02-1672-000 and forecasted debt costs for 2005 to the total investment base. In this docket the FERC authorized a 50% debt/50% equity capital structure and 13.5% equity return. The annual revenue requirement requested by TE Path 15 for the years 2005 through 2007 was approximately \$36.7 million.

During the rate case TE Path 15 agreed to changes in its filed revenue requirement, resulting in an annual revenue requirement of approximately \$36.0 million for 2005 - 2007 and has recognized this lower amount in operating revenue for the year 2005. Overcollections resulting from the use of the higher filed revenue requirement will be refunded to transmission customers through the Transmission Revenue Balancing Account ("TRBA") mechanism in the CAISO tariff.

One area of controversy raised by intervenors in the rate case relates to TE Path 15's recovery of the costs associated with the portion of the capacity in the project granted to Western. Western has proposed in Docket No. ER04-1198 that it be able to recover approximately \$1.3 million in Path 15 study costs, along with receiving all Firm Transmission Rights auction, wheeling and scheduling revenues associated with its 10% capacity entitlement when it chooses to schedule power over the Path 15 upgrade for use in serving its customer needs in Northern California during periods of congestion. At all other times, Western will credit these revenues back to the CAISO. Certain intervening parties have taken the position that Western's unwillingness to credit all of these additional revenues to the CAISO, coupled with TE Path 15's proposed revenue requirement, will lead to an overcharge for the CAISO's customers. TE Path 15 will credit

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**7. REGULATORY MATTERS (Continued)**

its share of these additional revenues to customers as a revenue credit through the TRBA process. Because Western has not proposed to do likewise, these parties claim that customers will pay in excess of the project revenue requirement for the capacity. In their protests, they propose either that TE Path 15 reduce its revenue requirement by the ratio of 10/82 to reflect the share of TE Path 15's costs that should be Western's responsibility or that TE Path 15 reimburse the CAISO for any auction, wheeling and scheduling revenues that Western will retain for itself.

In the Initial Decision the ALJ reached the following conclusions:

- TE Path 15 has not shown inclusion of its debt and liquidity reserve account balances as rate base items to be just and reasonable; therefore, \$10,773,091 should be removed from the rate base used to calculate its revenue requirement
- With regard to working capital allowance, TE Path 15 should adopt the FERC's 45-day convention and include in its calculation only O&M expenses, minus fuel and purchased power, resulting in a working capital allowance component of rate base of \$300,812 vs. the requested \$7,257,095
- TE Path 15's utilization of monthly compounding with regard to calculating AFUDC was affirmed
- The Commission's orders did not place the Western allocation issue into the hearing of the Path 15 rate case and, therefore, protestors are not permitted to pursue the issue in the proceeding.

If the FERC adopts the ALJ's Initial Decision, TE Path 15's annual revenue requirement would be approximately \$2.3 million lower for the years 2005 - 2007. TE Path 15 filed exceptions to the ALJ's Initial Decision on January 20, 2006 and responded to exceptions filed by other parties on February 9, 2006. The FERC commissioners will rule on TE Path 15's revenue requirement after considering the ALJ's Initial Decision as well as the filings made by TE Path 15 and intervenors. No deadline for FERC action exists, though TE Path 15 expects a FERC order in the 2nd or 3rd quarter of 2006. TE Path 15 believes that the incurrence of the costs associated with its reserves and working capital requirements were both prudent and necessary to successfully finance and complete the Path 15 Upgrade. TE Path 15 further believes that inclusion of these types of reserves in rate base is consistent with the FERC's current rate making practices and its objectives in promoting transmission development by independent companies. Consequently, management believes that it is probable that the FERC will approve an annual revenue requirement of approximately \$36.0 million.

**Income Tax Allowance**

In the rate case proceeding the FERC has also addressed the issue of whether a limited liability company ("LLC"), such as TE Path 15, is entitled to include a provision for federal and state income taxes in its revenue requirement if the regulated entity itself is not subject to the payment of income taxes. This issue arose out of a June 2004 decision by the Federal Circuit Court of Appeals of the District of Columbia in the case of BP West Coast Products, LLC vs. FERC. In that case, the Court decided that the SFPP Limited Partnership, a regulated oil products pipeline, was not entitled to include an income tax allowance in its revenue requirement since it did not itself actually pay income taxes. This finding was contrary to established FERC policy that an inclusion of a tax allowance was appropriate provided that income taxes were ultimately paid by a corporate investor in a limited partnership or LLC.

In light of the Court decision, TE Path 15 requested that the FERC make a specific finding that the Company be allowed to include an income tax allowance in its revenue requirement. The FERC ruled that TE Path 15 would be allowed to recover the taxes in its rates and that the issue would not be a part of the hearing process in Docket No. ER05-17-000. FERC further ordered, however, that the issue of the inclusion of income taxes in rates for limited partnerships or LLCs should be examined in a separate proceeding and that the income tax component of TE Path 15's revenue requirement would be subject to refund pending the findings of that separate proceeding. To that end, the FERC established a policy proceeding, Docket No. PL05-5-000, to examine the issue for all companies whose rates are regulated by FERC. In May 2005 the FERC issued an order in that policy proceeding concluding that a LLC would be entitled to include an allowance for income taxes in its rates as if it were a tax paying entity if the ultimate owners of the LLC have either an actual or potential tax liability associated with their investment in the regulated company.

Accordingly, the FERC has permitted TE Path 15 to include an allowance for state and federal income taxes in its revenue requirement even though TE Path 15 is not a tax paying entity. This decision has been appealed by one party, the Transmission Agency of Northern California ("TANC") to the U.S. Court of Appeals for the District of Columbia. In March 2006 the Court of Appeals dismissed TANC's appeal on the grounds that it was not timely to consider the matter. TANC will have the opportunity to refile an appeal at a later date.

Management believes it is unlikely that the FERC's decision in this matter will be overturned. If it is ultimately determined that the Company is not allowed to include a provision for income taxes in its rates, the result would likely be a reduction in annual revenues. In such a case, the Company anticipates undertaking measures to reduce the potential negative impact on cash flows.

**TRANS-ELECT NTD HOLDINGS PATH 15, LLC**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**Years ended December 31, 2005 and 2004**  
**(Audited)**

**7. REGULATORY MATTERS (Continued)**

**Regulatory Assets**

As of December 31, 2005 and 2004, TE Path 15 had incurred \$1.6 million and \$1.0 million of costs to prepare and file its tariff with the FERC for a three year period of calendar years 2005 through 2007. The Company also incurred \$0.1 million of transition costs during the year ended December 31, 2004 that were associated with organizing TE Path 15 to begin operations. The rate case and transition costs will be amortized and recovered in rates over the three year period of its rate filing.

**TRBA**

The CAISO tariff provides for a true-up mechanism in which the CAISO calculates any over- or under-collection of transmission revenues relative to the authorized annual revenue requirement and either credits or charges that difference to transmission customers in the subsequent year. This is done through a TRBA account. In 2005 and 2004 TE Path 15 received payments from the CAISO in excess of its filed revenue requirement. As of December 31, 2005 and 2004, TE Path 15 had recorded deferred revenue of \$6.1 million and \$1.2 million, respectively. Approximately \$0.3 million and \$1.2 million of these amounts were auction proceeds for future time periods. The other \$5.8 million as of December 31, 2005 is a regulatory liability for collections in excess of the annual revenue requirement.

**8. INCOME ALLOCATIONS AND DISTRIBUTIONS**

Income allocations and distributions among members are determined under provisions of the Amended and Restated Limited Liability Company Operating Agreement of Trans-Elect NTD Holdings Path 15, LLC ("Operating Agreement") dated as of September 12, 2003. During the year ended December 31, 2005 Holdings Path 15 made \$20.4 million of distributions to common and preferred members. No distributions were made during the year ended December 31, 2004.

**9. RELATED PARTY TRANSACTIONS**

**TE**

TE provides support services to TE Path 15 under a Management Services Agreement signed on September 12, 2003. This agreement calls for TE Path 15 to pay TE \$200,000 at completion of construction and an annual fee of \$250,000 plus personnel and third party costs for services provided under the Agreement. The annual fee is adjusted each year beginning January 2006 based on changes to the Producer Price Index. In addition, TE Path 15 made a \$200,000 management fee payment and a \$950,000 development fee payment to TE on December 8, 2004, the date of construction completion pursuant to the agreement.

As of December 31, 2005 and 2004, TE Path 15 had \$129,483 and \$100,370 in payables due to TE. These payables represent amounts due to TE under the Management Services Agreement for support services and reimbursements of third party vendor payments made on behalf of TE Path 15. In addition, during the years ended December 31, 2005 and 2004, TE Path 15 reimbursed TE a total of \$0.6 million and \$2.9 million related to costs incurred by TE related to TE Path 15. The cash amounts paid to TE included \$0.3 million and \$0.7 million for support services provided to TE Path 15, \$0.1 million and \$1.1 million in third party vendor payments and \$0.2 million and \$1.15 million in management and development fees.

During 2005 TE received \$3,074,210 of distributions from Holdings Path 15 arising from NTD's preferred and common member interests in Holdings Path 15.

**Wright and Talisman, P.C.**

Alan Statman, who was an officer of TE until April 18, 2005, is a managing shareholder of the law firm Wright and Talisman, P.C. ("Wright & Talisman"). During the years ended December 31, 2005 and 2004, TE Path 15 paid Wright and Talisman a total of \$462,000 and \$0 and there was \$39,210 and \$0 due to Wright and Talisman as of December 31, 2005 and 2004, respectively. In addition, during the years ended December 31, 2005 and 2004, TE paid Wright and Talisman \$106,000 and \$584,000 for work associated with TE Path 15, which amounts were fully reimbursed to TE by TE Path 15.

**EIF Path 15 Funding LLC**

Equity commitment fees of \$1.7 million were paid to EIF Path 15 Funding LLC on December 8, 2004 after EIF made its \$14.1 million equity contribution to Holdings Path 15. In addition, EIF was reimbursed for LC fees in the amount of \$0.1 million during 2004. During 2005 EIF received \$6,299,660 of distributions from Holdings Path 15.

**Atlantic Power Announces Cdn\$150 Million Bought Deal Financing**

**Proceeds to be Used to Increase Ownership in Atlantic Holdings and to Partially Repay  
Credit Facility Arranged in Connection with the Acquisition of  
Trans-Elect NTD Holdings Path 15, LLC**

BOSTON, MASSACHUSETTS – (CNNMatthews – Sept. 20, 2006)

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES. ANY FAILURE TO COMPLY WITH THIS RESTRICTION MAY CONSTITUTE A VIOLATION OF U.S. SECURITIES LAW.

Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power”) announced today that it has entered into an agreement to sell to a syndicate of underwriters, on a bought deal basis, Income Participating Securities (“IPSs”) at Cdn\$10.55 per IPS for gross proceeds of Cdn\$90 million and Cdn\$60 million aggregate principal amount of 6.25% convertible secured debentures (the “Debentures”) due October 31, 2011 to raise gross proceeds of Cdn\$150 million. The underwriting syndicate is led by BMO Capital Markets and includes National Bank Financial Inc., RBC Capital Markets, Scotia Capital Inc., CIBC World Markets Inc., TD Securities Inc. and Dundee Securities Corporation.

The issue of IPSs and Debentures will be offered in all provinces and territories of Canada by means of a short form prospectus. Closing of the offerings are expected to occur on or about October 11, 2006, subject to regulatory approval. The first distribution which purchasers under this offering will be eligible to receive will be payable on or about November 30, 2006 to holders of record on October 31, 2006.

The Debentures will pay interest semi-annually on April 30 and October 31 each year, commencing on April 30, 2007. The Debentures will mature on October 31, 2011 and will be convertible into approximately 80.6452 IPSs per Cdn\$1,000 face amount of Debentures, at any time, at the option of the holder, representing a conversion price of Cdn\$12.40 per IPS.

The net proceeds from the financing will be used by Atlantic Power to: (i) partially repay approximately US\$37 million of the credit facility arranged in connection with the acquisition of Path 15 Project, and (ii) provide proceeds to Atlantic Power Holdings, LLC (“Holdings”) to be used by Holdings to redeem a portion of the ownership interests in Holdings held by subsidiaries of ArcLight Energy Partners Funds I and II and another investor. In connection with the closing of the offering, Atlantic Power will increase its ownership in Holdings from 70.1% to

approximately 85%. Holdings indirectly owns interests in 15 power plants and one electric transmission project predominantly located in the United States.

The securities being offered have not been, and will not be, registered under the *United States Securities Act of 1933*, as amended (the "U.S. Securities Act"), and will not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons. This release does not constitute an offer for sale of or solicitation of an offer to buy securities in any jurisdiction.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the bought deal financing and the use of proceeds thereof. Such statements are subject to certain risks, uncertainties and assumptions which may cause the actual results, performance or achievements of Atlantic Power to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such forward-looking statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to the completion of the financing, which is subject to standard approvals, and the purchase of the securities by the Underwriters, which is subject to customary termination provisions. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements contained in this news release represent our expectations as of September 20, 2006 and, accordingly, are subject to change after such date. Except as required by applicable law, we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

**About Atlantic Power Corporation:**

Atlantic Power Corporation owns interests in a diversified portfolio of fifteen power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

## MATERIAL CHANGE REPORT

1. *Name and Address of the Company:*

Atlantic Power Corporation ("Atlantic")  
250 Yonge Street, Suite 2400  
Toronto, Ontario M5B 2M6

2. *Date of Material Change:*

September 15, 2006

3. *News Release:*

Attached as Schedule "A" is a copy of the press release relating to the material change issued on September 15, 2006 at Boston, Massachusetts and disseminated in Canada through CCN Matthews.

4. *Summary of Material Change:*

On September 15, 2006 Atlantic announced that Atlantic Power Holdings, LLC ("Atlantic Holdings") had indirectly acquired 100% of Trans-Elect NTD Path 15, LLC ("Path 15 Opco"), which owns approximately 72% of the transmission system rights in the Path 15 transmission project (the "Project" or "Path 15") located in California.

Additionally, Atlantic announced that it will increase its cash distribution to shareholders by an annual rate of Cdn\$0.03 per Income Participating Security ("IPS") commencing with the September distribution. Since its Initial Public Offering ("IPO") in November 2004 Atlantic has increased annualized cash distributions per IPS by 6%.

5. *Full Description of Material Change:*

***Indirect Acquisition of Path 15 Opco***

On September 15, 2006, Atlantic announced that Atlantic Holdings had indirectly acquired 100% of Path 15 Opco (the "Acquisition"), which owns approximately 72% of the transmission system rights in the Project located in California. Atlantic paid \$85.5 million in cash for Path 15 Opco, which has approximately \$145 million in non-recourse project-level debt.

The Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point in the state's north-south capacity. The Project went into service in December 2004.

The Project's revenue stream is regulated by the Federal Energy Regulatory Commission (the "FERC") on a cost-of-service rate base methodology, which insulates cash flows from any impacts of power prices or actual line usage. The approved rate base includes all costs of the Project and earns an allowed rate of return that is reviewed by the FERC every three years, and the rate base is depreciated over 30 years. All prudently incurred operating and maintenance costs and capital expenditures may be collected in rates charged. California's Independent System Operator ("CAL-ISO") collects transmission access charges being paid predominantly by the state's investor-owned utilities and passes them to transmission owners, such as Path 15 Opco.

### ***Transaction Approvals***

The Acquisition was recommended to Atlantic Holdings by Atlantic Power Management, LLC (the "Manager"), the manager of Atlantic. Because an affiliate of ArcLight Capital Partners, LLC ("ArcLight"), Atlantic's sponsor, owned a 30% indirect interest in Path 15 Opco, the transaction was reviewed and approved by the members of the Board of Managers of Atlantic Holdings who are independent of ArcLight and subsidiaries of ArcLight Energy Partners Funds I and II and certain other investors. The independent members of the Board of Managers unanimously determined, based on a review of the Acquisition and an opinion from an independent financial advisor, that the Acquisition was fair and reasonable to, and in the best interests of, the holders of IPSs and unanimously approved the Acquisition.

The Acquisition may be considered a "related party transaction" within the meaning of Ontario Securities Commission Rule 61-501 — *Insider Bids, Issuer Bids, Business Combination and Related Party Transactions* ("Rule 61-501") and under Policy Statement No. Q-27 ("Q-27") of the Québec Autorité des marchés financiers. Rule 61-501 and Q-27 provide that, unless exempted, an issuer proposing to undertake a related party transaction is required to prepare a formal valuation of the subject matter of the proposed transaction and to provide holders of the class of affected securities a summary of such valuation. Rule 61-501 and Q-27 would also require that, unless exempted, the issuer seek approval of the transaction by a majority of the votes cast by the "minority" holders of the affected securities.

Atlantic has relied on an exemption available pursuant to Rule 61-501 and Q-27 from the formal valuation and minority approval requirements. Rule 61-501 and Q-27 provide that if, at the time the transaction is agreed to, neither the fair market value of the subject matter of, nor the fair market value of the consideration for, the transaction, insofar as it involves interested parties, exceeds 25% of the issuer's market capitalization, the formal valuation and minority approval requirements do not apply to such transaction. The Acquisition is exempt from the formal valuation and minority approval requirements of Rule 61-501 and Q-27 because, at the time the Acquisition was agreed to, neither the fair market value of the vendor's assets nor the fair market value of the consideration paid by Atlantic Holdings for the vendor's equity securities, insofar as it involved an affiliate of ArcLight, exceeded 25% of Atlantic's market capitalization calculated in accordance with Rule 61-501 and Q-27.

### ***Increase in Atlantic's Distributions***

Atlantic also announced that it will increase its cash distribution to shareholders by an annual rate of Cdn\$0.03 per IPS commencing with the September distribution. Since its IPO in November 2004 Atlantic has increased annualized cash distributions per IPS by 6%.

6. *Reliance on subsection 7.1(2) or (3) of National Instrument 51-102:*

Not applicable.

7. *Omitted Information:*

Not Applicable.

8. *Executive Officer:*

For further information, please contact:

Barry Welch  
Chief Executive Officer  
Atlantic Power Management, LLC, manager  
of Atlantic Power Corporation  
Telephone: (617) 531-6369

9. *Date of Report:*

NEWS RELEASE

FOR: **ATLANTIC POWER CORPORATION**

TSX SYMBOL: **ATP.UN**

### **Atlantic Power Announces Closing of Path 15 Acquisition and Distribution Increase**

BOSTON, MASSACHUSETTS--(CCNMatthews - Sept. 15, 2006) - Atlantic Power Corporation (TSX:ATP.UN) ("Atlantic Power" or the "Company") announced today that Atlantic Power Holdings, LLC had indirectly acquired 100% of Trans-Elect NTD Path 15, LLC, which owns approximately 72% of the transmission system rights in the Path 15 transmission project (the "Project" or "Path 15") located in California. The Company paid \$85.5 million in cash for the Project, which has approximately \$14.5 million in non-recourse project-level debt.

The Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point in the state's north-south capacity. The Project went into service in December 2004.

The Project's revenue stream is regulated by the Federal Energy Regulatory Commission (the "FERC") on a cost-of-service rate base methodology, which insulates cash flows from any impacts of power prices or actual line usage. The approved rate base includes all costs of the Project and earns an allowed rate of return that is reviewed by the FERC every three years, and the rate base is depreciated over 30 years. All prudently incurred operating and maintenance costs and capital expenditures may be collected in rates charged. California's Independent System Operator ("CAL-ISO") collects Transmission Access Charges being paid predominantly by the state's investor-owned utilities and passes them to transmission owners, such as Path 15.

"We are very pleased to be completing the Path 15 acquisition, further strengthening our ability to generate stable, sustainable and predictable cash flows while enhancing the diversity of our project portfolio," commented Barry Welch, President and CEO.

The Company also announced today that it will increase its cash distribution to shareholders by an annual rate of Cdn\$ 0.03 per Income Participating Security ("IPS") commencing with the September distribution. Since its Initial Public Offering ("IPO") in November 2004 the Company has increased annualized cash distributions per IPS by 6%.

"This increase in cash distributions, the second since our IPO, is another significant milestone and the direct result of our successful strategies to support and grow distributable cash over the long term," commented Barry Welch.

Atlantic Power Corporation owns interests in a diversified portfolio of fifteen power generation projects and one transmission line located primarily in major markets in the United States. The

Company's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the acquisition of the Project and the anticipated financial and operational performance of the Project. Such statements are subject to certain risks, uncertainties and assumptions which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such forward-looking statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to the anticipated financial and operating performance of the Project. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements contained in this news release represent our expectations as of September 15, 2006 and, accordingly, are subject to change after such date. Except as required by applicable law, we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

## APPENDIX "B"

### ATLANTIC POWER CORPORATION

Atlantic Power Corporation (the "Company") has as its articles the following articles.

Adopted by Special Resolution of the shareholders on June 8, 2005.

*Incorporation number: NR9547350*

### PART 1 - INTERPRETATION

#### 1.1 Definitions

Without limiting Article 1.2 in these Articles, unless the context otherwise requires:

- (1) "board of directors", "directors" and "board" mean the directors or sole director of the Company for the time being;
- (2) "*Business Corporations Act*" means the *Business Corporations Act* (British Columbia) from time to time in force and all amendments thereto and includes all regulations and amendments thereto made pursuant to that Act;
- (3) "legal personal representative" means the personal or other legal representative of the shareholder;
- (4) "OBCA" means the *Business Corporations Act* (Ontario) and all amendments thereto in force from time to time and any statute or code of the Province of Ontario that supercedes such Act;
- (5) "registered address" of a shareholder means the shareholder's address as recorded in the central securities register; and
- (6) "seal" means the seal of the Company, if any.

#### 1.2 *Business Corporations Act and Interpretation Act Definitions Applicable*

The definitions in the *Business Corporations Act* and the definitions and rules of construction in the *Interpretation Act*, with the necessary changes, so far as applicable, and unless the context requires otherwise, apply to these Articles as if they were an enactment. If there is a conflict between a definition in the *Business Corporations Act* and a definition or rule in the *Interpretation Act* relating to a term used in these Articles, the definition in the *Business Corporations Act* will prevail in relation to the use of the term in these Articles. If there is a conflict between these Articles and the *Business Corporations Act*, the *Business Corporations Act* will prevail.

### PART 2 - SHARES AND SHARE CERTIFICATES

#### 2.1 Authorized Share Structure

The authorized share structure of the Company consists of shares of the class or classes and series, if any, described in the Notice of Articles of the Company.

#### 2.2 Form of Share Certificate

Each share certificate issued by the Company must comply with, and be signed as required by, the *Business Corporations Act*.

### **2.3 Shareholder Entitled to Certificate or Acknowledgment**

Each shareholder is entitled, without charge, to (a) one share certificate representing the shares of each class or series of shares registered in the shareholder's name; or (b) a non-transferable written acknowledgment of the shareholder's right to obtain such a share certificate, provided that in respect of a share held jointly by several persons, the Company is not bound to issue more than one share certificate and delivery of a share certificate for a share to one of several joint shareholders or to one of the shareholders' duly authorized agents will be sufficient delivery to all.

### **2.4 Delivery by Mail**

Any share certificate or non-transferable written acknowledgment of a shareholder's right to obtain a share certificate may be sent to the shareholder by mail at the shareholder's registered address and neither the Company nor any director, officer or agent of the Company is liable for any loss to the shareholder because the share certificate or acknowledgment is lost in the mail or stolen.

### **2.5 Replacement of Worn Out or Defaced Certificate or Acknowledgment**

If the directors are satisfied that a share certificate or a non-transferable written acknowledgment of the shareholder's right to obtain a share certificate is worn out or defaced, they must, on production to them of the share certificate or acknowledgment, as the case may be, and on such other terms, if any, as they think fit:

- (1) order the share certificate or acknowledgment, as the case may be, to be cancelled; and
- (2) issue a replacement share certificate or acknowledgment, as the case may be.

### **2.6 Replacement of Lost, Stolen or Destroyed Certificate or Acknowledgment**

If a share certificate or a non-transferable written acknowledgment of a shareholder's right to obtain a share certificate is lost, stolen or destroyed, a replacement share certificate or acknowledgment, as the case may be, must be issued to the person entitled to that share certificate or acknowledgment, as the case may be, if the directors receive:

- (1) proof satisfactory to them that the share certificate or acknowledgment is lost, stolen or destroyed; and
- (2) any indemnity the directors consider adequate.

### **2.7 Splitting Share Certificates**

If a shareholder surrenders a share certificate to the Company with a written request that the Company issue in the shareholder's name two or more share certificates, each representing a specified number of shares and in the aggregate representing the same number of shares as the share certificate so surrendered, the Company must cancel the surrendered share certificate and issue replacement share certificates in accordance with that request.

### **2.8 Certificate Fee**

There must be paid to the Company, in relation to the issue of any share certificate under Articles 2.5, 2.6 or 2.7, the amount, if any and which must not exceed the amount prescribed under the *Business Corporations Act*, determined by the directors.

### **2.9 Recognition of Trusts**

Except as required by law or statute or these Articles, no person will be recognized by the Company as holding any share upon any trust, and the Company is not bound by or compelled in any way to recognize (even when having notice thereof) any equitable, contingent, future or partial interest in any share or fraction of a share or

(except as by law or statute or these Articles provided or as ordered by a court of competent jurisdiction) any other rights in respect of any share except an absolute right to the entirety thereof in the shareholder.

#### **2.10 Lien on Shares**

The Company has a lien on any share or shares registered in the name of a shareholder or his legal representative for any debt of that shareholder to the Company.

#### **2.11 Enforcement of Lien**

The lien referred to in Article 2.10 may be enforced by any means permitted by law and:

- (a) where the share or shares are redeemable pursuant to the articles of the Company by redeeming such share or shares and applying the redemption price to the debt;
- (b) subject to the *Business Corporations Act*, by purchasing the share or shares for cancellation for a price equal to the book value of such share or shares and applying the proceeds to the debt;
- (c) by selling the share or shares to any third party whether or not such party is at arm's length to the Company, and including, without limitation, any officer or director of the Company, for the best price which the directors consider to be obtainable for such share or shares; or
- (d) by refusing to register a transfer of such share or shares until the debt is paid.

### **PART 3 - ISSUE OF SHARES**

#### **3.1 Directors Authorized**

Subject to the *Business Corporations Act* and the rights of the holders of issued shares of the Company, the Company may issue, allot, sell or otherwise dispose of the unissued shares, and issued shares held by the Company, at the times, to the persons, including directors, in the manner, on the terms and conditions and for the issue prices (including any premium at which shares with par value may be issued) that the directors may determine. The issue price for a share with par value must be equal to or greater than the par value of the share.

#### **3.2 Commissions and Discounts**

The Company may at any time, pay a reasonable commission or allow a reasonable discount to any person in consideration of that person purchasing or agreeing to purchase shares of the Company from the Company or any other person or procuring or agreeing to procure purchasers for shares of the Company.

#### **3.3 Brokerage**

The Company may pay such brokerage fee or other consideration as may be lawful for or in connection with the sale or placement of its securities.

#### **3.4 Conditions of Issue**

Except as provided for by the *Business Corporations Act*, no share may be issued until it is fully paid. A share is fully paid when:

- (1) consideration is provided to the Company for the issue of the share by one or more of the following:
  - (a) past services performed for the Company;
  - (b) property;

- (c) money; and
- (2) the value of the consideration received by the Company equals or exceeds the issue price set for the share under Article 3.1.

### **3.5 Share Purchase Warrants and Rights**

Subject to the *Business Corporations Act*, the Company may issue share purchase warrants, options and rights upon such terms and conditions as the directors determine, which share purchase warrants, options and rights may be issued alone or in conjunction with debentures, debenture stock, bonds, shares or any other securities issued or created by the Company from time to time.

### **3.6 Fractional Shares**

The Company may issue fractional shares, and the holders of fractional shares of the Company shall be entitled to exercise the rights of a shareholder for such fractional share in proportion to the fraction of the share held.

## **PART 4 - SHARE REGISTERS**

### **4.1 Central Securities Register**

As required by and subject to the *Business Corporations Act*, the Company must maintain in British Columbia a central securities register. The directors may, subject to the *Business Corporations Act*, appoint an agent to maintain the central securities register. The directors may also appoint one or more agents, including the agent which keeps the central securities register, as transfer agent for its shares or any class or series of its shares, as the case may be, and the same or another agent as registrar for its shares or such class or series of its shares, as the case may be. The directors may terminate such appointment of any agent at any time and may appoint another agent in its place.

## **PART 5 - SHARE TRANSFERS**

### **5.1 Registering Transfers**

A transfer of a share of the Company must not be registered unless:

- (1) a duly signed instrument of transfer in respect of the share has been received by the Company;
- (2) if a share certificate has been issued by the Company in respect of the share to be transferred, that share certificate has been surrendered to the Company;
- (3) such additional requirements as may be imposed from time to time in accordance with Part 25 of these articles have been complied with; and
- (4) if a non-transferable written acknowledgment of the shareholder's right to obtain a share certificate has been issued by the Company in respect of the share to be transferred, that acknowledgment has been surrendered to the Company.

### **5.2 Form of Instrument of Transfer**

The instrument of transfer in respect of any share of the Company must be either in the form, if any, on the back of the Company's share certificates or in any other form that may be approved by the directors from time to time.

### **5.3 Transferor Remains Shareholder**

Except to the extent that the *Business Corporations Act* otherwise provides, the transferor of shares is deemed to remain the holder of the shares until the name of the transferee is entered in a securities register of the Company in respect of the transfer.

### **5.4 Signing of Instrument of Transfer**

If a shareholder, or his or her duly authorized attorney, signs an instrument of transfer in respect of shares registered in the name of the shareholder, the signed instrument of transfer constitutes a complete and sufficient authority to the Company and its directors, officers and agents to register the number of shares specified in the instrument of transfer or specified in any other manner, or, if no number is specified, all the shares represented by the share certificates or set out in the written acknowledgments deposited with the instrument of transfer:

- (1) in the name of the person named as transferee in that instrument of transfer; or
- (2) if no person is named as transferee in that instrument of transfer, in the name of the person on whose behalf the instrument is deposited for the purpose of having the transfer registered.

### **5.5 Enquiry as to Title Not Required**

Neither the Company nor any director, officer or agent of the Company is bound to inquire into the title of the person named in the instrument of transfer as transferee or, if no person is named as transferee in the instrument of transfer, of the person on whose behalf the instrument is deposited for the purpose of having the transfer registered or is liable for any claim related to registering the transfer by the shareholder or by any intermediate owner or holder of the shares, of any interest in the shares, of any share certificate representing such shares or of any written acknowledgment of a right to obtain a share certificate for such shares.

### **5.6 Transfer Fee**

There must be paid to the Company, in relation to the registration of any transfer, the amount, if any, determined by the directors.

## **PART 6 - TRANSMISSION OF SHARES**

### **6.1 Legal Personal Representative Recognized on Death**

In case of the death of a shareholder, the legal personal representative, or if the shareholder was a joint holder, the surviving joint holder, will be the only person recognized by the Company as having any title to the shareholder's interest in the shares. Before recognizing a person as a legal personal representative, the directors may require proof of appointment by a court of competent jurisdiction, a grant of letters probate, letters of administration or such other evidence or documents as the directors consider appropriate.

### **6.2 Rights of Legal Personal Representative**

The legal personal representative has the same rights, privileges and obligations that attach to the shares held by the shareholder, including the right to transfer the shares in accordance with these Articles, provided the documents required by the *Business Corporations Act* and the directors have been deposited with the Company.

## **PART 7 - PURCHASE OF SHARES**

### **7.1 Company Authorized to Purchase Shares**

Subject to Article 7.2 and 7.3, the special rights and restrictions attached to the shares of any class or series and the *Business Corporations Act*, the Company may, if authorized by the directors, purchase or otherwise acquire any of its shares at the price and upon the terms specified in such resolution.

## **7.2 Purchase When Insolvent**

The Company must not make a payment or provide any other consideration to purchase or otherwise acquire any of its shares if there are reasonable grounds for believing that:

- (1) the Company is insolvent; or
- (2) making the payment or providing the consideration would render the Company insolvent.

## **7.3 Restriction on Intercorporate ownership of Own Shares**

The Company shall not hold shares in itself or in its holding corporation and shall not permit any of its subsidiaries to hold shares of the Company unless such holding would be permitted under the OBCA.

## **7.4 Sale and Voting of Purchased Shares**

If the Company retains a share redeemed, purchased or otherwise acquired by it, the Company may sell, gift or otherwise dispose of the share, but, while such share is held by the Company, it:

- (1) is not entitled to vote the share at a meeting of its shareholders;
- (2) must not pay a dividend in respect of the share; and
- (3) must not make any other distribution in respect of the share.

## **PART 8 - BORROWING POWERS**

The Company, if authorized by the directors, may:

- (1) borrow money in the manner and amount, on the security, from the sources and on the terms and conditions that they consider appropriate;
- (2) issue bonds, debentures and other debt obligations either outright or as security for any liability or obligation of the Company or any other person and at such discounts or premiums and on such other terms as they consider appropriate;
- (3) guarantee the repayment of money by any other person or the performance of any obligation of any other person; and
- (4) mortgage, charge, whether by way of specific or floating charge, grant a security interest in, or give other security on, the whole or any part of the present and future assets and undertaking of the Company.

## **PART 9 - ALTERATIONS**

### **9.1 Alteration of Authorized Share Structure**

Subject to Article 9.2 and the *Business Corporations Act*, the Company may by special resolution:

- (1) create one or more classes or series of shares or, if none of the shares of a class or series of shares are allotted or issued, eliminate that class or series of shares;
- (2) increase, reduce or eliminate the maximum number of shares that the Company is authorized to issue out of any class or series of shares or establish a maximum number of shares that the Company is authorized to issue out of any class or series of shares for which no maximum is established;

- (3) subdivide or consolidate all or any of its unissued, or fully-paid issued, shares;
- (4) if the Company is authorized to issue shares of a class of shares with par value:
  - (a) decrease the par value of those shares; or
  - (b) if none of the shares of that class of shares are allotted or issued, increase the par value of those shares;
- (5) change all or any of its unissued, or fully paid issued, shares with par value into shares without par value or any of its unissued shares without par value into shares with par value;
- (6) alter the identifying name of any of its shares; or
- (7) otherwise alter its shares or authorized share structure when required or permitted to do so by the *Business Corporations Act*.

## 9.2 Special Rights and Restrictions

Subject to the *Business Corporations Act*, the Company may by special resolution:

- (1) create special rights or restrictions for, and attach those special rights or restrictions to, the shares of any class or series of shares, whether or not any or all of those shares have been issued; or
- (2) vary or delete any special rights or restrictions attached to the shares of any class or series of shares, whether or not any or all of those shares have been issued.

## 9.3 Change of Name

The Company may by special resolution authorize an alteration of its Notice of Articles in order to change its name.

## 9.4 Other Alterations

If the *Business Corporations Act* does not specify the type of resolution and these Articles do not specify another type of resolution, the Company may by special resolution alter these Articles.

# PART 10 - MEETINGS OF SHAREHOLDERS

## 10.1 Annual General Meetings

Unless an annual general meeting is deferred or waived in accordance with the *Business Corporations Act*, the Company must hold its first annual general meeting within 18 months after the date on which it was incorporated or otherwise recognized, and after that must hold an annual general meeting at least once in each calendar year and not more than 15 months after the last annual reference date at such time and place as may be determined by the directors.

## 10.2 Resolution Instead of Annual General Meeting

If all the shareholders who are entitled to vote at an annual general meeting consent by a unanimous resolution under the *Business Corporations Act* to all of the business that is required to be transacted at that annual general meeting, the annual general meeting is deemed to have been held on the date of the unanimous resolution. The shareholders must, in any unanimous resolution passed under this Article 10.2, select as the Company's annual reference date a date that would be appropriate for the holding of the applicable annual general meeting.

### **10.3 Place of Meetings**

Meetings of the shareholders shall be held at the place where the registered office of the Company is situated or, if the board shall so determine, at some other place within or outside British Columbia.

### **10.4 Calling of Meetings of Shareholders**

The directors may, whenever and wherever they think fit, call a meeting of shareholders. The Company can hold its general meetings at a specified location outside of British Columbia if so authorized by a resolution of its directors.

### **10.5 Notice for Meetings of Shareholders**

The Company must send notice of the date, time and location of any meeting of shareholders, in the manner provided in these Articles, or in such other manner, if any, as may be prescribed by ordinary resolution (whether previous notice of the resolution has been given or not), to each shareholder entitled to attend the meeting, to each director and to the auditor of the Company, unless these Articles otherwise provide, at least the following number of days before the meeting:

- (1) if and for so long as the Company is a public company, 21 days;
- (2) otherwise, 10 days.

### **10.6 Record Date for Notice**

The directors may set a date as the record date for the purpose of determining shareholders entitled to notice of any meeting of shareholders. The record date must not precede the date on which the meeting is to be held by more than two months or, in the case of a general meeting requisitioned by shareholders under the *Business Corporations Act*, by more than four months. The record date must not precede the date on which the meeting is held by fewer than:

- (1) if and for so long as the Company is a public company, 21 days;
- (2) otherwise, 10 days.

If no record date is set, the record date is 5 p.m. (Toronto time) on the day immediately preceding the first date on which the notice is sent or, if no notice is sent, the beginning of the meeting.

### **10.7 Record Date for Voting**

The directors may set a date as the record date for the purpose of determining shareholders entitled to vote at any meeting of shareholders. The record date must not precede the date on which the meeting is to be held by more than two months or, in the case of a general meeting requisitioned by shareholders under the *Business Corporations Act*, by more than four months. If no record date is set, the record date is 5 p.m. on the day immediately preceding the first date on which the notice is sent or, if no notice is sent, the beginning of the meeting.

### **10.8 Failure to Give Notice and Waiver of Notice**

The accidental omission to send notice of any meeting to, or the non-receipt of any notice by, any of the persons entitled to notice does not invalidate any proceedings at that meeting. Any person entitled to notice of a meeting of shareholders may, in writing or otherwise, waive or reduce the period of notice of such meeting.

### **10.9 Notice of Special Business at Meetings of Shareholders**

If a meeting of shareholders is to consider special business within the meaning of Article 11.1, the notice of meeting must:

- (1) state the general nature of the special business; and
- (2) if the special business includes considering, approving, ratifying, adopting or authorizing any document or the signing of or giving of effect to any document, have attached to it a copy of the document or state that a copy of the document will be available for inspection by shareholders:
  - (a) at the Company's records office, or at such other reasonably accessible location in British Columbia as is specified in the notice; and
  - (b) during statutory business hours on any one or more specified days before the day set for the holding of the meeting.

#### **10.10 Meetings by Telephone, Electronic or Other Communications Facility**

Any person entitled to attend a meeting of shareholders may participate in the meeting, to the extent and in the manner permitted under the *Business Corporations Act*, by means of a telephonic, electronic or other communication facility that permits all participants to communicate adequately with each other during the meeting, if the Company makes available such a communication facility. A person participating in a meeting by such means is deemed for the purposes of the Act to be present at the meeting. The directors or the shareholders of the Company who call a meeting of shareholders pursuant to the Act may determine that the meeting shall be held, to the extent and in the manner permitted by law, entirely by means of a telephonic, electronic or other communication facility that permits all participants to communicate adequately with each other during the meeting.

### **PART 11 - PROCEEDINGS AT MEETINGS OF SHAREHOLDERS**

#### **11.1 Special Business**

At a meeting of shareholders, the following business is special business:

- (1) at a meeting of shareholders that is not an annual general meeting, all business is special business except business relating to the conduct of or voting at the meeting;
- (2) at an annual general meeting, all business is special business except for the following:
  - (a) business relating to the conduct of or voting at the meeting;
  - (b) consideration of any financial statements of the Company presented to the meeting;
  - (c) consideration of any reports of the directors or auditor;
  - (d) the setting or changing of the number of directors;
  - (e) the election or appointment of directors;
  - (f) the appointment of an auditor;
  - (g) the setting of the remuneration of an auditor;
  - (h) business arising out of a report of the directors not requiring the passing of a special resolution or an exceptional resolution;
  - (i) any other business which, under these Articles or the *Business Corporations Act*, may be transacted at a meeting of shareholders without prior notice of the business being given to the shareholders.

## 11.2 Special Majority

The majority of votes required for the Company to pass a special resolution at a meeting of shareholders is two-thirds of the votes cast on the resolution.

## 11.3 Quorum

Subject to the special rights and restrictions attached to the shares of any class or series of shares, the quorum for the transaction of business at a meeting of shareholders is two persons, present in person, each being a shareholder entitled to vote thereat or a duly appointed proxy for a shareholder so entitled.

## 11.4 One Shareholder May Constitute Quorum

If there is only one shareholder entitled to vote at a meeting of shareholders:

- (1) the quorum is one person who is, or who represents by proxy, that shareholder, and
- (2) that shareholder, present in person or by proxy, may constitute the meeting.

## 11.5 Other Persons May Attend

The directors, the president (if any), the secretary (if any), the auditor of the Company, such other persons entitled to attend under the *Business Corporations Act* and any other persons invited by the chair of the meeting or with the consent of the meeting are entitled to attend any meeting of shareholders, but if any of those persons does attend a meeting of shareholders, that person is not to be counted in the quorum and is not entitled to vote at the meeting unless that person is a shareholder or proxy holder entitled to vote at the meeting.

## 11.6 Requirement of Quorum

No business, other than the election of a chair of the meeting and the adjournment of the meeting, may be transacted at any meeting of shareholders unless a quorum of shareholders entitled to vote is present at the commencement of the meeting, but such quorum need not be present throughout the meeting.

## 11.7 Lack of Quorum

If, within one-half hour from the time set for the holding of a meeting of shareholders, a quorum is not present:

- (1) in the case of a general meeting requisitioned by shareholders, the meeting is dissolved, and
- (2) in the case of any other meeting of shareholders, the meeting stands adjourned to the same day in the next week at the same time and place.

## 11.8 Lack of Quorum at Succeeding Meeting

If, at the meeting to which the meeting referred to in Article 11.7(2) was adjourned, a quorum is not present within one-half hour from the time set for the holding of the meeting, the person or persons present and being, or representing by proxy, one or more shareholders entitled to attend and vote at the meeting constitute a quorum.

## 11.9 Chair

The following individual is entitled to preside as chair at a meeting of shareholders:

- (1) the chair of the board, if any; or
- (2) if the chair of the board is absent or unwilling to act as chair of the meeting, the president, if any.

#### **11.10 Selection of Alternate Chair**

If, at any meeting of shareholders, there is no chair of the board or president present within 15 minutes after the time set for holding the meeting, or if the chair of the board and the president are unwilling to act as chair of the meeting, or if the chair of the board and the president have advised the secretary, if any, or any director present at the meeting, that they will not be present at the meeting, the directors present must choose one of their number to be chair of the meeting or if all of the directors present decline to take the chair or fail to so choose or if no director is present, the shareholders entitled to vote at the meeting who are present in person or by proxy may choose any person present at the meeting to chair the meeting.

#### **11.11 Adjournments**

The chair of a meeting of shareholders may, and if so directed by the meeting must, adjourn the meeting from time to time and from place to place, but no business may be transacted at any meeting reconvened after an adjournment other than the business left unfinished at the meeting from which the adjournment took place.

#### **11.12 Notice of Adjourned Meeting**

It is not necessary to give any notice of an adjourned meeting or of the business to be transacted at an adjourned meeting of shareholders except that, when a meeting is adjourned for 30 days or more, notice of the adjourned meeting must be given as in the case of the original meeting.

#### **11.13 Decisions by Show of Hands or Poll**

Subject to the *Business Corporations Act*, every motion put to a vote at a meeting of shareholders will be decided on a show of hands unless a poll, before or on the declaration of the result of the vote by show of hands, is directed by the chair or demanded by at least one shareholder entitled to vote who is present in person or by proxy, by electronic means or otherwise.

#### **11.14 Declaration of Result**

The chair of a meeting of shareholders must declare to the meeting the decision on every question in accordance with the result of the show of hands or the poll, as the case may be, and that decision must be entered in the minutes of the meeting. A declaration of the chair that a resolution is carried by the necessary majority or is defeated is, unless a poll is directed by the chair or demanded under Article 11.13, conclusive evidence without proof of the number or proportion of the votes recorded in favour of or against the resolution.

#### **11.15 Motion Need Not be Seconded**

No motion proposed at a meeting of shareholders need be seconded unless the chair of the meeting rules otherwise, and the chair of any meeting of shareholders is entitled to propose or second a motion.

#### **11.16 Casting Vote**

In case of an equality of votes, the chair of a meeting of shareholders does not, either on a show of hands or on a poll, have a second or casting vote in addition to the vote or votes to which the chair may be entitled as a shareholder.

#### **11.17 Manner of Taking Poll**

Subject to Article 11.18, if a poll is duly demanded at a meeting of shareholders:

- (1) the poll must be taken:
  - (a) at the meeting, or within seven days after the date of the meeting, as the chair of the meeting directs; and

- (b) in the manner, at the time and at the place that the chair of the meeting directs, provided that every shareholder or proxyholder participating in the meeting electronically must be permitted to vote their shares on the poll;
- (2) the result of the poll is deemed to be the decision of the meeting at which the poll is demanded; and
- (3) the demand for the poll may be withdrawn by the person who demanded it.

#### **11.18 Demand for Poll on Adjournment**

A poll demanded at a meeting of shareholders on a question of adjournment must be taken immediately at the meeting.

#### **11.19 Chair Must Resolve Dispute**

In the case of any dispute as to the admission or rejection of a vote given on a poll, the chair of the meeting must determine the dispute, and his or her determination made in good faith is final and conclusive.

#### **11.20 Casting of Votes**

- (1) On a poll, a shareholder entitled to more than one vote need not cast all the votes in the same way; and
- (2) any shareholder or proxyholder participating in a meeting of shareholders by electronic means and entitled to vote at that meeting; may vote, to the extent and in the manner permitted by law, partly or entirely by means of the telephonic, electronic or other communication facility that the Company has made available for that purpose.

#### **11.21 Demand for Poll Not to Prevent Continuance of Meeting**

The demand for a poll at a meeting of shareholders does not, unless the chair of the meeting so rules, prevent the continuation of a meeting for the transaction of any business other than the question on which a poll has been demanded.

#### **11.22 Retention of Ballots and Proxies**

The Company must, for at least three months after a meeting of shareholders, keep each ballot cast on a poll and each proxy voted at the meeting, and, during that period, make them available for inspection during normal business hours by any shareholder or proxyholder entitled to vote at the meeting. At the end of such three month period, the Company may destroy such ballots and proxies.

## **PART 12 - VOTES OF SHAREHOLDERS**

### **12.1 Number of Votes by Shareholder or by Shares**

Subject to any special rights or restrictions attached to any shares and to the restrictions imposed on joint shareholders under Article 12.3:

- (1) on a vote by show of hands, every person present who is a shareholder or proxy holder and entitled to vote on the matter has one vote; and
- (2) on a poll, every shareholder entitled to vote on the matter has one vote in respect of each share entitled to be voted on the matter and held by that shareholder and may exercise that vote either in person or by proxy.

## **12.2 Votes of Persons in Representative Capacity**

A person who is not a shareholder may vote at a meeting of shareholders, whether on a show of hands or on a poll, and may appoint a proxy holder to act at the meeting, if, before doing so, the person satisfies the chair of the meeting, or the directors, that the person is a legal personal representative or a trustee in bankruptcy for a shareholder who is entitled to vote at the meeting.

## **12.3 Votes by Joint Holders**

If there are joint shareholders registered in respect of any share:

- (1) any one of the joint shareholders may vote at any meeting, either personally or by proxy, in respect of the share as if that joint shareholder were solely entitled to it; or
- (2) if more than one of the joint shareholders is present at any meeting, personally or by proxy, and more than one of them votes in respect of that share, then only the vote of the joint shareholder present whose name stands first on the central securities register in respect of the share will be counted.

## **12.4 Legal Personal Representatives as Joint Shareholders**

Two or more legal personal representatives of a shareholder in whose sole name any share is registered are, for the purposes of Article 12.3, deemed to be joint shareholders.

## **12.5 Representative of a Corporate Shareholder**

If a corporation, that is not a subsidiary of the Company, is a shareholder, that corporation may appoint a person to act as its representative at any meeting of shareholders of the Company, and:

- (1) for that purpose, the instrument appointing a representative must:
  - (a) be received at the registered office of the Company or at any other place specified, in the notice calling the meeting, for the receipt of proxies, at least the number of business days specified in the notice for the receipt of proxies, or if no number of days is specified, two business days before the day set for the holding of the meeting; or
  - (b) be provided, at the meeting, to the chair of the meeting or to a person designated by the chair of the meeting;
- (2) if a representative is appointed under this Article 12.5:
  - (a) the representative is entitled to exercise in respect of and at that meeting the same rights on behalf of the corporation that the representative represents as that corporation could exercise if it were a shareholder who is an individual, including, without limitation, the right to appoint a proxy holder; and
  - (b) the representative, if present at the meeting, is to be counted for the purpose of forming a quorum and is deemed to be a shareholder present in person at the meeting.

Evidence of the appointment of any such representative may be sent to the Company by written instrument, fax or any other method of transmitting legibly recorded messages.

## **12.6 Proxy Provisions Do Not Apply to All Companies**

Articles 12.7 to 12.15 do not apply to the Company if and for so long as it is a public company or a pre-existing reporting company which has the Statutory Reporting Company Provisions as part of its Articles or to which the Statutory Reporting Company Provisions apply.

#### **12.7 Appointment of Proxy Holders**

Every shareholder of the Company, including a corporation that is a shareholder but not a subsidiary of the Company, entitled to vote at a meeting of shareholders of the Company may, by proxy, appoint one or more (but not more than five) proxy holders to attend and act at the meeting in the manner, to the extent and with the powers conferred by the proxy.

#### **12.8 Alternate Proxy Holders**

A shareholder may appoint one or more alternate proxy holders to act in the place of an absent proxy holder.

#### **12.9 When Proxy Holder Need Not Be Shareholder**

A person must not be appointed as a proxy holder unless the person is a shareholder, although a person who is not a shareholder may be appointed as a proxy holder if:

- (1) the person appointing the proxy holder is a corporation or a representative of a corporation appointed under Article 12.5;
- (2) the Company has at the time of the meeting for which the proxy holder is to be appointed only one shareholder entitled to vote at the meeting; or
- (3) the shareholders present in person or by proxy at and entitled to vote at the meeting for which the proxy holder is to be appointed, by a resolution on which the proxy holder is not entitled to vote but in respect of which the proxy holder is to be counted in the quorum, permit the proxy holder to attend and vote at the meeting.

#### **12.10 Deposit of Proxy**

A proxy for a meeting of shareholders must:

- (1) be received at the registered office of the Company or at any other place specified, in the notice calling the meeting, for the receipt of proxies, at least the number of business days specified in the notice, or if no number of days is specified, two business days before the day set for the holding of the meeting; or
- (2) unless the notice provides otherwise, be provided, at the meeting, to the chair of the meeting or to a person designated by the chair of the meeting.

A proxy may be sent to the Company by written instrument, fax or any other method of transmitting legibly recorded messages.

#### **12.11 Validity of Proxy Vote**

A vote given in accordance with the terms of a proxy is valid notwithstanding the death or incapacity of the shareholder giving the proxy and despite the revocation of the proxy or the revocation of the authority under which the proxy is given, unless notice in writing of that death, incapacity or revocation is received:

- (1) at the registered office of the Company, at any time up to and including the last business day before the day set for the holding of the meeting at which the proxy is to be used; or
- (2) by the chair of the meeting, before the vote is taken.

**12.12 Form of Proxy**

A proxy, whether for a specified meeting or otherwise, must be either in the following form or in any other form approved by the directors or the chair of the meeting:

*[name of company]*  
(the "Company")

The undersigned, being a shareholder of the Company, hereby appoints *[name]* or, failing that person, *[name]*, as proxy holder for the undersigned to attend, act and vote for and on behalf of the undersigned at the meeting of shareholders of the Company to be held on *[month, day, year]* and at any adjournment of that meeting.

Number of shares in respect of which this proxy is given (if no number is specified, then this proxy is given in respect of all shares registered in the name of the shareholder):

Signed *[month, day, year]*

\_\_\_\_\_

*[Signature of shareholder]*

\_\_\_\_\_

*[Name of shareholder—printed]*

**12.13 Revocation of Proxy**

Subject to Article 12.14, every proxy may be revoked by an instrument in writing that is:

- (1) received at the registered office of the Company at any time up to and including the last business day before the day set for the holding of the meeting at which the proxy is to be used; or
- (2) provided, at the meeting, to the chair of the meeting.

**12.14 Revocation of Proxy Must Be Signed**

An instrument referred to in Article 12.13 must be signed as follows:

- (1) if the shareholder for whom the proxy holder is appointed is an individual, the instrument must be signed by the shareholder or his or her legal personal representative or trustee in bankruptcy;
- (2) if the shareholder for whom the proxy holder is appointed is a corporation, the instrument must be signed by the corporation or by a representative appointed for the corporation under Article 12.5.

**12.15 Production of Evidence of Authority to Vote**

The chair of any meeting of shareholders may, but need not, inquire into the authority of any person to vote at the meeting and may, but need not, demand from that person production of evidence as to the existence of the authority to vote.

## PART 13 - DIRECTORS

### 13.1 First Directors; Number of Directors

The first directors are the persons designated as directors of the Company in the Notice of Articles that applies to the Company when it is recognized under the *Business Corporations Act*. The number of directors, excluding additional directors appointed under Article 14.8, is set at:

- (1) subject to paragraphs (2) and (3), the number of directors that is equal to the number of the Company's first directors;
- (2) if the Company is a public company, the greater of three and the most recently set of:
  - (a) the number of directors set by ordinary resolution (whether or not previous notice of the resolution was given) and
  - (b) the number of directors set under Article 14.4;
- (3) if the Company is not a public company, the most recently set of:
  - (a) the number of directors set by ordinary resolution (whether or not previous notice of the resolution was given) and
  - (b) the number of directors set under Article 14.4.

### 13.2 Residency of Directors

A majority of the directors shall be resident Canadians provided that if the number of directors is fewer than three, at least one shall be a resident Canadian.

### 13.3 Change in Number of Directors

If the number of directors is set under Articles 13.1(2)(a) or 13.1(3)(a):

- (1) the shareholders may elect or appoint the directors needed to fill any vacancies in the board of directors up to that number;
- (2) if the shareholders do not elect or appoint the directors needed to fill any vacancies in the board of directors up to that number contemporaneously with the setting of that number, then the directors may appoint, or the shareholders may elect or appoint, directors to fill those vacancies.

### 13.4 Directors' Acts Valid Despite Vacancy

An act or proceeding of the directors is not invalid merely because fewer than the number of directors set or otherwise required under these Articles is in office.

### 13.5 Qualifications of Directors

A director is not required to hold a share in the capital of the Company as qualification for his or her office but must be qualified as required by the *Business Corporations Act* to become, act or continue to act as a director.

### 13.6 Remuneration of Directors

The directors are entitled to the remuneration for acting as directors, if any, as the directors may from time to time determine. If the directors so decide, the remuneration of the directors, if any, will be determined by the shareholders. That remuneration may be in addition to any salary or other remuneration paid to any officer or employee of the Company as such, who is also a director.

### **13.7 Reimbursement of Expenses of Directors**

The Company must reimburse each director for the reasonable expenses that he or she may incur in and about the business of the Company.

### **13.8 Special Remuneration for Directors**

If any director who is not an employee or officer performs any professional or other services for the Company that in the opinion of the directors are outside the ordinary duties of a director who is not an employee or officer, or if any director who is not an employee or officer is otherwise specially occupied in or about the Company's business, he or she may be paid remuneration fixed by the directors, or, at the option of that director who is not an employee or officer, fixed by ordinary resolution, and such remuneration may be either in addition to, or in substitution for, any other remuneration that he or she may be entitled to receive.

### **13.9 Gratuity, Pension or Allowance on Retirement of Director**

Unless otherwise determined by ordinary resolution, the directors on behalf of the Company may pay a gratuity or pension or allowance on retirement to any director who has held any salaried office or place of profit with the Company or to his or her spouse or dependants and may make contributions to any fund and pay premiums for the purchase or provision of any such gratuity, pension or allowance.

## **PART 14 - ELECTION AND REMOVAL OF DIRECTORS**

### **14.1 Election at Annual General Meeting**

At every annual general meeting and in every unanimous resolution in lieu of an annual general meeting as contemplated by Article 10.2:

- (1) the shareholders entitled to vote at the annual general meeting for the election of directors must elect, or in the unanimous resolution appoint, a board of directors consisting of the number of directors for the time being set under these Articles; and
- (2) all the directors cease to hold office immediately before the election or appointment of directors under paragraph (1), but are eligible for re-election or re-appointment.

### **14.2 Consent to be a Director**

No election, appointment or designation of an individual as a director is valid unless:

- (1) that individual consents to be a director in the manner provided for in the *Business Corporations Act*;
- (2) that individual is elected or appointed at a meeting at which the individual is present and the individual does not refuse, at the meeting, to be a director; or
- (3) with respect to first directors, the designation is otherwise valid under the *Business Corporations Act*.

### **14.3 Failure to Elect or Appoint Directors**

If:

- (1) the Company fails to hold an annual general meeting, and all the shareholders who are entitled to vote at an annual general meeting fail to pass the unanimous resolution contemplated by Article 10.2, on or before the date by which the annual general meeting is required to be held under the *Business Corporations Act*; or

- (2) the shareholders fail, at the annual general meeting or in the unanimous resolution contemplated by Article 10.2, to elect or appoint any directors;

then each director then in office continues to hold office until the earlier of:

- (3) the date on which his or her successor is elected or appointed; and
- (4) the date on which he or she otherwise ceases to hold office under the *Business Corporations Act* or these Articles

#### **14.4 Places of Retiring Directors Not Filled**

If, at any meeting of shareholders at which there should be an election of directors, the places of any of the retiring directors are not filled by that election, those retiring directors who are not re-elected and who are asked by the newly elected directors to continue in office will, if willing to do so, continue in office to complete the number of directors for the time being set pursuant to these Articles until further new directors are elected at a meeting of shareholders convened for that purpose. If any such election or continuance of directors does not result in the election or continuance of the number of directors for the time being set pursuant to these Articles, the number of directors of the Company is deemed to be set at the number of directors actually elected or continued in office.

#### **14.5 Directors May Fill Casual Vacancies**

Any casual vacancy occurring in the board of directors may be filled by the directors.

#### **14.6 Remaining Directors Power to Act**

The directors may act notwithstanding any vacancy in the board of directors, but if the Company has fewer directors in office than the number set pursuant to these Articles as the quorum of directors, the directors may only act for the purpose of appointing directors up to that number or of summoning a meeting of shareholders for the purpose of filling any vacancies on the board of directors or, subject to the *Business Corporations Act*, for any other purpose.

#### **14.7 Shareholders May Fill Vacancies**

If the Company has no directors or fewer directors in office than the number set pursuant to these Articles as the quorum of directors, the shareholders may elect or appoint directors to fill any vacancies on the board of directors.

#### **14.8 Additional Directors**

Notwithstanding Articles 13.1 and 13.2, between annual general meetings or unanimous resolutions contemplated by Article 14.2, the directors may appoint one or more additional directors, but the number of additional directors appointed under this Article 14.8 must not at any time exceed:

- (1) one-third of the number of first directors, if, at the time of the appointments, one or more of the first directors have not yet completed their first term of office; or
- (2) in any other case, one-third of the number of the current directors who were elected or appointed as directors other than under this Article 14.8.

Any director so appointed ceases to hold office immediately before the next election or appointment of directors under Article 14.1(1), but is eligible for re-election or re-appointment.

#### **14.9 Ceasing to be a Director**

A director ceases to be a director when:

- (1) the term of office of the director expires;
- (2) the director dies;
- (3) the director resigns as a director by notice in writing provided to the Company or a lawyer for the Company; or
- (4) the director is removed from office pursuant to Articles 14.10.

#### **14.10 Removal of Director by Shareholders**

The Company may remove any director before the expiration of his or her term of office by ordinary resolution. In that event, the shareholders may elect, or appoint by ordinary resolution, a director to fill the resulting vacancy. If the shareholders do not elect or appoint a director to fill the resulting vacancy contemporaneously with the removal, then the directors may appoint or the shareholders may elect, or appoint by ordinary resolution, a director to fill that vacancy.

### **PART 15 - POWERS AND DUTIES OF DIRECTORS**

#### **15.1 Powers of Management**

The directors must, subject to the *Business Corporations Act* and these Articles, manage or supervise the management of the business and affairs of the Company and have the authority to exercise all such powers of the Company as are not, by the *Business Corporations Act* or by these Articles, required to be exercised by the shareholders of the Company.

#### **15.2 Appointment of Attorney of Company**

The directors may from time to time, by power of attorney or other instrument, under seal if so required by law, appoint any person to be the attorney of the Company for such purposes, and with such powers, authorities and discretions (not exceeding those vested in or exercisable by the directors under these Articles and excepting the power to fill vacancies in the board of directors, to remove a director, to change the membership of, or fill vacancies in, any committee of the directors, to appoint or remove officers appointed by the directors and to declare dividends) and for such period, and with such remuneration and subject to such conditions as the directors may think fit. Any such power of attorney may contain such provisions for the protection or convenience of persons dealing with such attorney as the directors think fit. Any such attorney may be authorized by the directors to sub-delegate all or any of the powers, authorities and discretions for the time being vested in him or her.

### **PART 16 - DISCLOSURE OF INTEREST OF DIRECTORS**

#### **16.1 Obligation to Account for Profits**

A director or senior officer who holds a disclosable interest (as that term is used in the *Business Corporations Act*) in a contract or transaction into which the Company has entered or proposes to enter is liable to account to the Company for any profit that accrues to the director or senior officer under or as a result of the contract or transaction only if and to the extent provided in the *Business Corporations Act* or the OBCA.

#### **16.2 Restrictions on Voting by Reason of Interest**

A director who holds a disclosable interest in a contract or transaction into which the Company has entered or proposes to enter is not entitled to vote on any directors' resolution to approve that contract or transaction, unless

all the directors have a disclosable interest in that contract or transaction, in which case any or all of those directors may vote on such resolution.

#### **16.3 Interested Director Counted in Quorum**

A director who holds a disclosable interest in a contract or transaction into which the Company has entered or proposes to enter and who is present at the meeting of directors at which the contract or transaction is considered for approval may be counted in the quorum at the meeting whether or not the director votes on any or all of the resolutions considered at the meeting.

#### **16.4 Disclosure of Conflict of Interest or Property**

A director or senior officer who holds any office or possesses any property, right or interest that could result, directly or indirectly, in the creation of a duty or interest that materially conflicts with that individual's duty or interest as a director or senior officer, must disclose the nature and extent of the conflict as required by the *Business Corporations Act*.

#### **16.5 Director Holding Other Office in the Company**

A director may hold any office or place of profit with the Company, other than the office of auditor of the Company, in addition to his or her office of director for the period and on the terms (as to remuneration or otherwise) that the directors may determine.

#### **16.6 No Disqualification**

Subject to any restrictions under the OBCA, no director or intended director is disqualified by his or her office from contracting with the Company either with regard to the holding of any office or place of profit the director holds with the Company or as vendor, purchaser or otherwise, and no contract or transaction entered into by or on behalf of the Company in which a director is in any way interested is liable to be voided for that reason.

#### **16.7 Professional Services by Director or Officer**

Subject to the *Business Corporations Act* and the OBCA, a director or officer, or any person in which a director or officer has an interest, may act in a professional capacity for the Company, except as auditor of the Company, and the director or officer or such person is entitled to remuneration for professional services as if that director or officer were not a director or officer.

#### **16.8 Director or Officer in Other Corporations**

A director or officer may be or become a director, officer or employee of, or otherwise interested in, any person in which the Company may be interested as a shareholder or otherwise, and, subject to the *Business Corporations Act* and the OBCA, the director or officer is not accountable to the Company for any remuneration or other benefits received by him or her as director, officer or employee of, or from his or her interest in, such other person.

### **PART 17 - PROCEEDINGS OF DIRECTORS**

#### **17.1 Meetings of Directors**

The directors may meet together for the conduct of business, adjourn and otherwise regulate their meetings as they think fit, and meetings of the directors held at regular intervals may be held at the place, at the time and on the notice, if any, as the directors may from time to time determine.

#### **17.2 Voting at Meetings**

Questions arising at any meeting of directors are to be decided by a majority of votes and, in the case of an equality of votes, the chair of the meeting does not have a second or casting vote.

#### **17.3 Chair of Meetings**

The following individual is entitled to preside as chair at a meeting of directors:

- (1) the chair of the board, if any;
- (2) in the absence of the chair of the board, the president, if any, if the president is a director; or
- (3) any other director chosen by the directors if:
  - (a) neither the chair of the board nor the president, if a director, is present at the meeting within 15 minutes after the time set for holding the meeting;
  - (b) neither the chair of the board nor the president, if a director, is willing to chair the meeting; or
  - (c) the chair of the board and the president, if a director, have advised the secretary, if any, or any other director, that they will not be present at the meeting.

#### **17.4 Meetings by Telephone or Other Communications Medium**

A director may participate in a meeting of the directors or of any committee of the directors in person or by telephone if all directors participating in the meeting, whether in person or by telephone or other communications medium, are able to communicate with each other. A director may participate in a meeting of the directors or of any committee of the directors by a communications medium other than telephone if all directors participating in the meeting, whether in person or by telephone or other communications medium, are able to communicate with each other and if all directors who wish to participate in the meeting agree to such participation. A director who participates in a meeting in a manner contemplated by this Article 17.4 is deemed for all purposes of the *Business Corporations Act* and these Articles to be present at the meeting and to have agreed to participate in that manner.

#### **17.5 Calling of Meetings**

A director may, and the secretary or an assistant secretary of the Company, if any, on the request of a director must, call a meeting of the directors at any time.

#### **17.6 Notice of Meetings**

Other than for meetings held at regular intervals as determined by the directors pursuant to Article 17.1, reasonable notice of each meeting of the directors, specifying the place, day and time of that meeting must be given to each of the directors by any method set out in Article 23.1 or orally or by telephone.

#### **17.7 When Notice Not Required**

It is not necessary to give notice of a meeting of the directors to a director if:

- (1) the meeting is to be held immediately following a meeting of shareholders at which that director was elected or appointed, or is the meeting of the directors at which that director is appointed; or
- (2) the director has waived notice of the meeting.

#### **17.8 Meeting Valid Despite Failure to Give Notice**

The accidental omission to give notice of any meeting of directors to, or the non-receipt of any notice by, any director, does not invalidate any proceedings at that meeting.

#### **17.9 Waiver of Notice of Meetings**

Any director may send to the Company a document signed by him or her waiving notice of any past, present or future meeting or meetings of the directors and may at any time withdraw that waiver with respect to meetings held after that withdrawal. After sending a waiver with respect to all future meetings and until that waiver is withdrawn, no notice of any meeting of the directors need be given to that director and, unless the director otherwise requires by notice in writing to the Company, all meetings of the directors so held are deemed not to be improperly called or constituted by reason of notice not having been given to such director.

#### **17.10 Quorum**

The quorum necessary for the transaction of the business of the directors may be set by the directors and, if not so set, is deemed to be a majority of the number directors, provided that where the number of directors of the Company is two directors, both directors must be present to constitute a meeting.

#### **17.11 Validity of Acts Where Appointment Defective**

Subject to the *Business Corporations Act*, an act of a director or officer is not invalid merely because of an irregularity in the election or appointment or a defect in the qualification of that director or officer.

#### **17.12 Consent Resolutions in Writing**

A resolution of the directors or of any committee of the directors consented to in writing by all of the directors entitled to vote on it, whether by signed document, fax, email or any other method of transmitting legibly recorded messages, is as valid and effective as if it had been passed at a meeting of the directors or of the committee of the directors duly called and held. Such resolution may be in two or more counterparts which together are deemed to constitute one resolution in writing. A resolution passed in that manner is effective on the date stated in the resolution or on the latest date stated on any counterpart. A resolution of the directors or of any committee of the directors passed in accordance with this Article 17.12 is deemed to be a proceeding at a meeting of directors or of the committee of the directors and to be as valid and effective as if it had been passed at a meeting of the directors or of the committee of the directors that satisfies all the requirements of the *Business Corporations Act* and all the requirements of these Articles relating to meetings of the directors or of a committee of the directors.

### **PART 18 - EXECUTIVE AND OTHER COMMITTEES**

#### **18.1 Appointment and Powers of Executive Committee**

The directors may, by resolution, appoint an executive committee consisting of the director or directors that they consider appropriate, and this committee has, during the intervals between meetings of the board of directors, all of the directors' powers, except:

- (1) the power to fill vacancies in the board of directors;
- (2) the power to remove a director;
- (3) the power to change the membership of, or fill vacancies in, any committee of the directors; and
- (4) such other powers, if any, as may be set out in the resolution or any subsequent directors' resolution.

## **18.2 Appointment and Powers of Other Committees**

The directors may, by resolution:

- (1) appoint one or more committees (other than the executive committee) consisting of the director or directors that they consider appropriate;
- (2) delegate to a committee appointed under paragraph (1) any of the directors' powers, except:
  - (a) the power to fill vacancies in the board of directors;
  - (b) the power to remove a director;
  - (c) the power to change the membership of, or fill vacancies in, any committee of the directors; and
  - (d) the power to appoint or remove officers appointed by the directors; and
- (3) make any delegation referred to in paragraph (2) subject to the conditions set out in the resolution or any subsequent directors' resolution.

## **18.3 Obligations of Committees**

Any committee appointed under Articles 18.1, 18.2 and 18.6, in the exercise of the powers delegated to it, must:

- (1) conform to any rules that may from time to time be imposed on it by the directors; and
- (2) report every act or thing done in exercise of those powers at such times as the directors may require.

## **18.4 Powers of Board**

The directors may, at any time, with respect to a committee appointed under Articles 18.1, 18.2 and 18.6:

- (1) revoke or alter the authority given to the committee, or override a decision made by the committee, except as to acts done before such revocation, alteration or overriding;
- (2) terminate the appointment of, or change the membership of, the committee; and
- (3) fill vacancies in the committee.

## **18.5 Committee Meetings**

Subject to Article 18.3(1) and unless the directors otherwise provide in the resolution appointing the committee or in any subsequent resolution, with respect to a committee appointed under Articles 18.1, 18.2 and 18.6:

- (1) the committee may meet and adjourn as it thinks proper;
- (2) the committee may elect a chair of its meetings but, if no chair of a meeting is elected, or if at a meeting the chair of the meeting is not present within 15 minutes after the time set for holding the meeting, the directors present who are members of the committee may choose one of their number to chair the meeting;
- (3) a majority of the members of the committee constitutes a quorum of the committee; and

- (4) questions arising at any meeting of the committee are determined by a majority of votes of the members present, and in case of an equality of votes, the chair of the meeting does not have a second or casting vote.

#### **18.6 Audit Committee**

If the Company is a public company the directors shall, and otherwise the directors may, constitute an audit committee composed of not fewer than three directors, a majority of whom are not officers or employees of the Company or any of its affiliates, and who shall hold office until the next annual meeting of shareholders. Notwithstanding anything provided in this Part 18, the audit committee shall have the powers and duties provided in the *Business Corporations Act*.

### **PART 19 - OFFICERS**

#### **19.1 Directors May Appoint Officers**

The directors may, from time to time, appoint such officers, if any, as the directors determine and the directors may, at any time, terminate any such appointment.

#### **19.2 Functions, Duties and Powers of Officers**

The directors may, for each officer:

- (1) determine the functions and duties of the officer;
- (2) entrust to and confer on the officer any of the powers exercisable by the directors on such terms and conditions and with such restrictions as the directors think fit; and
- (3) revoke, withdraw, alter or vary all or any of the functions, duties and powers of the officer.

#### **19.3 Qualifications**

No officer may be appointed unless that officer is qualified in accordance with the *Business Corporations Act*. One person may hold more than one position as an officer of the Company. Any person appointed as the chair of the board or as the managing director must be a director. Any other officer need not be a director.

#### **19.4 Remuneration and Terms of Appointment**

All appointments of officers are to be made on the terms and conditions and at the remuneration (whether by way of salary, fee, commission, participation in profits or otherwise) that the directors think fit and are subject to termination at the pleasure of the directors, and an officer may in addition to such remuneration be entitled to receive, after he or she ceases to hold such office or leaves the employment of the Company, a pension or gratuity.

### **PART 20 - INDEMNIFICATION**

#### **20.1 Definitions**

In this Article 20:

- (1) "eligible penalty" means a judgment, penalty or fine awarded or imposed in, or an amount paid in settlement of, an eligible proceeding;
- (2) "eligible proceeding" means a legal proceeding or investigative action, whether current, threatened, pending or completed, in which a director or a former director of the Company (an "eligible party") or any of the heirs and legal personal representatives of the eligible party, by reason of the eligible party being or having been a director of the Company:

- (a) is or may be joined as a party; or
  - (b) is or may be liable for or in respect of a judgment, penalty or fine in, or expenses related to, the proceeding;
- (3) "expenses" has the meaning set out in the *Business Corporations Act*.

#### **20.2 Mandatory Indemnification of Directors and Former Directors**

Subject to the *Business Corporations Act*, the Company must indemnify a director or former director of the Company and his or her heirs and legal personal representatives against all eligible penalties to which such person is or may be liable, and the Company must, after the final disposition of an eligible proceeding, pay the expenses actually and reasonably incurred by such person in respect of that proceeding. Each director is deemed to have contracted with the Company on the terms of the indemnity contained in this Article 20.2.

#### **20.3 Indemnification of Other Persons**

Subject to any restrictions in the *Business Corporations Act*, the Company may indemnify any person.

#### **20.4 Non-Compliance with *Business Corporations Act***

The failure of a director or officer of the Company to comply with the *Business Corporations Act* or these Articles does not invalidate any indemnity to which he or she is entitled under this Part.

#### **20.5 Company May Purchase Insurance**

The Company may purchase and maintain insurance for the benefit of any person (or his or her heirs or legal personal representatives) who:

- (1) is or was a director, officer, employee or agent of the Company;
- (2) is or was a director, officer, employee or agent of a corporation at a time when the corporation is or was an affiliate of the Company;
- (3) at the request of the Company, is or was a director, officer, employee or agent of a corporation or of a partnership, trust, joint venture or other unincorporated entity;
- (4) at the request of the Company, holds or held a position equivalent to that of a director or officer of a partnership, trust, joint venture or other unincorporated entity;

against any liability incurred by him or her as such director, officer, employee or agent or person who holds or held such equivalent position.

### **PART 21 - DIVIDENDS**

#### **21.1 Payment of Dividends Subject to Special Rights**

The provisions of this Article 21 are subject to the rights, if any, of shareholders holding shares with special rights as to dividends.

#### **21.2 Declaration of Dividends**

Subject to the *Business Corporations Act*, the directors may from time to time declare and authorize payment of such dividends as they may deem advisable.

### **21.3 No Notice Required**

The directors need not give notice to any shareholder of any declaration under Article 21.2.

### **21.4 Record Date**

The directors may set a date as the record date for the purpose of determining shareholders entitled to receive payment of a dividend. The record date must not precede the date on which the dividend is to be paid by more than two months. If no record date is set, the record date is 5 p.m. (Toronto time) on the date on which the directors pass the resolution declaring the dividend.

### **21.5 Manner of Paying Dividend**

A resolution declaring a dividend may direct payment of the dividend wholly or partly by the distribution of cash or cash equivalents, specific assets or of fully paid shares or of bonds, debentures or other securities of the Company, or in any one or more of those ways.

### **21.6 Settlement of Difficulties**

If any difficulty arises in regard to a distribution under Article 21.5, the directors may settle the difficulty as they deem advisable, and, in particular, may:

- (1) set the value for distribution of specific assets;
- (2) determine that cash payments in substitution for all or any part of the specific assets to which any shareholders are entitled may be made to any shareholders on the basis of the value so fixed in order to adjust the rights of all parties; and
- (3) vest any such specific assets in trustees for the persons entitled to the dividend.

### **21.7 When Dividend Payable**

Any dividend may be made payable on such date as is fixed by the directors.

### **21.8 Dividends to be Paid in Accordance with Number of Shares**

All dividends on shares of any class or series of shares must be declared and paid according to the number of such shares held.

### **21.9 Receipt by Joint Shareholders**

If several persons are joint shareholders of any share, any one of them may give an effective receipt for any dividend, bonus or other money payable in respect of the share.

### **21.10 Dividend Bears No Interest**

No dividend bears interest against the Company.

### **21.11 Fractional Dividends**

If a dividend to which a shareholder is entitled includes a fraction of the smallest monetary unit of the currency of the dividend, that fraction may be disregarded in making payment of the dividend and that payment represents full payment of the dividend.

#### **21.12 Payment of Dividends**

Any dividend or other distribution payable in cash in respect of shares may be paid by cheque, made payable to the order of the person to whom it is sent, and mailed to the address of the shareholder, or in the case of joint shareholders, to the address of the joint shareholder who is first named on the central securities register, or to the person and to the address the shareholder or joint shareholders may direct in writing. The mailing of such cheque will, to the extent of the sum represented by the cheque (plus the amount of the tax required by law to be deducted), discharge all liability for the dividend unless such cheque is not paid on presentation or the amount of tax so deducted is not paid to the appropriate taxing authority.

#### **21.13 Capitalization of Surplus**

Notwithstanding anything contained in these Articles, the directors may from time to time capitalize any surplus of the Company and may from time to time issue, as fully paid, shares or any bonds, debentures or other securities of the Company as a dividend representing the surplus or any part of the surplus.

#### **21.14 Unclaimed Dividend**

Any dividend that is unclaimed after six years from the date on which it was declared payable shall be forfeited and shall revert to the Company.

### **PART 22 - DOCUMENTS, RECORDS AND REPORTS**

#### **22.1 Recording of Financial Affairs**

The directors must cause adequate accounting records to be kept to record properly the financial affairs and condition of the Company and to comply with the *Business Corporations Act*.

#### **22.2 Inspection of Accounting Records**

Unless the directors determine otherwise, or unless otherwise determined by ordinary resolution, no shareholder of the Company is entitled to inspect or obtain a copy of any accounting records of the Company.

### **PART 23 - NOTICES**

#### **23.1 Method of Giving Notice**

Unless the *Business Corporations Act* or these Articles provides otherwise, a notice, statement, report or other record required or permitted by the *Business Corporations Act* or these Articles to be sent by or to a person may be sent by any one of the following methods:

- (1) mail addressed to the person at the applicable address for that person as follows:
  - (a) for a record mailed to a shareholder, the shareholder's registered address;
  - (b) for a record mailed to a director or officer, the prescribed address for mailing shown for the director or officer in the records kept by the Company or the mailing address provided by the recipient for the sending of that record or records of that class;
  - (c) in any other case, the mailing address of the intended recipient;
- (2) delivery at the applicable address for that person as follows, addressed to the person:
  - (a) for a record delivered to a shareholder, the shareholder's registered address;

- (b) for a record delivered to a director or officer, the prescribed address for delivery shown for the director or officer in the records kept by the Company or the delivery address provided by the recipient for the sending of that record or records of that class;
  - (c) in any other case, the delivery address of the intended recipient;
- (3) sending the record by fax to the fax number provided by the intended recipient for the sending of that record or records of that class;
  - (4) sending the record by email to the email address provided by the intended recipient for the sending of that record or records of that class;
  - (5) physical delivery to the intended recipient.

### **23.2 Deemed Receipt**

A record that is mailed to a person by ordinary mail to the applicable address for that person referred to in Article 23.1 is deemed to be received by the person to whom it was mailed on the day, Saturdays, Sundays and holidays excepted, following the date of mailing. Notices sent by any means of transmitted or recorded communication or provided as an electronic document shall be deemed to have been received on the business day on which such notices were sent, or on the next business day following, if sent on a day other than a business day.

### **23.3 Electronic Signatures**

A requirement under the *Business Corporations Act* or these Articles for a signature or for a document to be executed, is satisfied by a signature or execution in electronic form if such is permitted by law and all requirements prescribed by law are met.

### **23.4 Certificate of Sending**

A certificate signed by the secretary, if any, or other officer of the Company or of any other corporation acting in that behalf for the Company stating that a notice, statement, report or other record was addressed as required by Article 23.1, prepaid and mailed or otherwise sent as permitted by Article 23.1 is conclusive evidence of that fact.

### **23.5 Notice to Joint Shareholders**

A notice, statement, report or other record may be provided by the Company to the joint shareholders of a share by providing the notice to the joint shareholder first named in the central securities register in respect of the share.

### **23.6 Notice to Trustees**

A notice, statement, report or other record may be provided by the Company to the persons entitled to a share in consequence of the death, bankruptcy or incapacity of a shareholder by:

- (1) mailing the record, addressed to them:
  - (a) by name, by the title of the legal personal representative of the deceased or incapacitated shareholder, by the title of trustee of the bankrupt shareholder or by any similar description; and
  - (b) at the address, if any, supplied to the Company for that purpose by the persons claiming to be so entitled; or

- (2) if an address referred to in paragraph (1)(b) has not been supplied to the Company, by giving the notice in a manner in which it might have been given if the death, bankruptcy or incapacity had not occurred.

## PART 24 - SEAL

### 24.1 Who May Attest Seal

The Company's seal, if any, must not be impressed on any record except when that impression is attested by the signatures of any one or more duly authorized directors or officers or other persons as may be determined by the directors from time to time.

### 24.2 Sealing Copies

For the purpose of certifying under seal a certificate of incumbency of the directors or officers of the Company or a true copy of any resolution or other document, despite Article 24.1, the impression of the seal may be attested by the signature of any director or officer.

### 24.3 Mechanical Reproduction of Seal

The directors may authorize the seal to be impressed by third parties on share certificates or bonds, debentures or other securities of the Company as they may determine appropriate from time to time. To enable the seal to be impressed on any share certificates or bonds, debentures or other securities of the Company, whether in definitive or interim form, on which facsimiles of any of the signatures of the directors or officers of the Company are, in accordance with the *Business Corporations Act* or these Articles, printed or otherwise mechanically reproduced, there may be delivered to the person employed to engrave, lithograph or print such definitive or interim share certificates or bonds, debentures or other securities one or more unmounted dies reproducing the seal and the chair of the board or any senior officer together with the secretary, treasurer, secretary-treasurer, an assistant secretary, an assistant treasurer or an assistant secretary-treasurer may in writing authorize such person to cause the seal to be impressed on such definitive or interim share certificates or bonds, debentures or other securities by the use of such dies. Share certificates or bonds, debentures or other securities to which the seal has been so impressed are for all purposes deemed to be under and to bear the seal impressed on them.

## PART 25 – SPECIAL RIGHTS AND RESTRICTIONS

### 25.1 Definitions

In this Article 25:

- (1) "designated security" means:
  - (a) a voting security of the Company;
  - (b) a security of the Company that is not a debt security and that carries a residual right to participate in the earnings of the Company or, on the liquidation or winding up of the Company, in its assets; or
  - (c) a security of the Company convertible, directly or indirectly, into a security described in paragraph (a) or (b);
- (2) "security" has the meaning assigned in the *Securities Act* (British Columbia);
- (3) "voting security" means a security of the Company that:
  - (a) is not a debt security, and

- (b) carries a voting right either under all circumstances or under some circumstances that have occurred and are continuing.

## 25.2 Application

Article 25.3 does not apply to the Company if and for so long as it is a public company or a pre-existing reporting company which has the Statutory Reporting Company Provisions as part of its Articles or to which the Statutory Reporting Company Provisions apply.

## 25.3 Consent Required for Transfer of Shares or Designated Securities

No share or designated security may be sold, transferred or otherwise disposed of without the consent of the directors and the directors are not required to give any reason for refusing to consent to any such sale, transfer or other disposition.

## 25.4 Restriction On Ownership By ERISA Plans

- (a) At no time may any securities of the Company be purchased by, transferred to or beneficially held by any employee benefit plan that is subject to the fiduciary and prohibited transaction provisions of the *United States Employee Retirement Income Security Act of 1974*, as amended ("ERISA"), and/or any plan that is subject to section 4975 of the *United States Internal Revenue Code of 1986*, as amended, any trust holding assets of such a plan and any entity that is deemed to hold the assets of such a plan pursuant to 29 C.F.R. Section 2510.3-101, issued by the United States Department of Labor (an "ERISA Plan").
- (b) Any purported sale, disposition or other transfer of any of the Company's securities (whether or not the result of a transaction entered into through the facilities of the Toronto Stock Exchange (the "TSX") (or any other national securities exchange or automated quotation system) that, if effective, would result in any ERISA Plan beneficially owning any securities of the Company (a "Transfer") shall be void *ab initio*, and the intended transferee shall acquire no rights in such securities. Each transferee of beneficial ownership of the Company's securities shall be deemed to represent to the Company that such transferee is not an ERISA Plan.
- (c) Each person who is a beneficial owner of the Company's securities and each person (including the securityholder of record) who is holding securities for a beneficial owner shall, within 30 days of receiving a written request from the Company therefor, provide to the Company a written statement of affidavit stating such information as the Company may request in order to determine whether such person is an ERISA Plan or not.
- (d) Notwithstanding any provision contained in these articles of amendment to the contrary, nothing herein shall preclude the settlement of any transaction entered into through the facilities of the TSX or any other national securities exchange or any other automated quotation system.
- (e) If, notwithstanding paragraph (b) above, a purported Transfer or any other event pursuant to which any ERISA Plan would beneficially own any of the Company's securities (a "Non-Transfer Event") is purported to occur, then:
  - (i) the purported transferee shall be deemed to be a person who is prevented from becoming or remaining the owner of record title to securities of the Company pursuant to paragraph (b) above and shall acquire no right or interest or, in the case of a Non-Transfer Event, the person holding record title to the securities beneficially owned by such beneficial owner shall cease to own any right or interest in the securities (a "Prohibited Owner"),
  - (ii) such securities shall automatically be transferred to a correction trust in accordance with paragraph (h) below,

- (iii) the Prohibited Owner shall submit the certificates representing such securities to the Company, accompanied by all requisite and duly executed assignments of transfer thereof, for registration in the name of the trustee of the correction trust (the "Trustee") and such Prohibited Owner shall take any and all actions reasonably requested by the Company to complete the transfer of such securities to the correction trust,
  - (iv) such securities shall be sold by the Trustee in accordance with paragraph (i) below, and
  - (v) such transfer to a correction trust shall be effective as of the close of trading on the trading day prior to the date of the purported Transfer or Non-Transfer Event, as the case may be.
- (f) If the Company, or its designees, shall at any time determine in good faith that a Transfer has taken place in violation of paragraph (b) above or that an ERISA Plan intends to acquire or has attempted to acquire beneficial ownership of any of the Company's securities, the Company shall take such action as it deems advisable to refuse to give effect to or to prevent such Transfer or acquisition, including, but not limited to, refusing to give effect to such Transfer on the transfer books of the Company or instituting proceedings to enjoin such Transfer or acquisition, but the failure to take any such action shall not affect the transfer to a correction trust in accordance with paragraph (e) above.
- (g) Any ERISA Plan that acquires or attempts to acquire securities in violation of paragraph (b) above, or any ERISA Plan that owns securities that were transferred to a correction trust pursuant to paragraph (e) above, shall immediately give written notice to the Company of such event and shall provide to the Company such other information as the Company may request in order to determine the effect, if any, of such Transfer or Non-Transfer Event, as the case may be, on the Company.
- (h) Upon any purported Transfer in violation of paragraph (b) or Non-Transfer Event, (i) the Company shall create, or cause to be created, a correction trust, and shall designate a Trustee of such correction trust and a beneficiary of such correction trust (which beneficiary shall be the Company), and (ii) the securities purported to be transferred to an ERISA Plan (or held by an ERISA Plan as a result of a Non-Transfer Event) shall be automatically transferred to such correction trust to be held for the benefit of the Company. Any transfer to a correction trust shall be effective as of the close of trading on the trading day prior to the date of the purported Transfer or Non-Transfer Event that results in the transfer to the correction trust. The sole obligation of the correction trust and the Trustee to the ERISA Plan that purported to be the beneficial owner of the securities that are transferred to the correction trust shall be to pay to such ERISA Plan the net proceeds of the sale of such securities, as described in paragraph (i) below. In particular, such ERISA Plan shall not be deemed to be a beneficiary of the correction trust and the Trustee shall have no fiduciary duties with respect to such ERISA Plan (or its participants or beneficiaries), it being understood that the Trustee is to act solely in the interest of the Company to correct a purported Transfer or non-Transfer Event that has occurred in violation of paragraph (b). The Trustee shall be appointed by the Company, and the Company shall use reasonable efforts not to appoint as Trustee a person who is a "party in interest" with respect to such ERISA Plan, within the meaning of Section 3(14) of ERISA, based on such information (if any) as may be provided to the Company by such ERISA Plan.
- (i) Upon the transfer to the correction trust of the securities in accordance with paragraph (h) above, the Trustee shall sell such securities on the TSX (or any other national securities exchange or automated quotation system the securities are then traded) (or, if the securities are not so traded, in any commercially reasonable sale) and, in the interim, shall suspend the voting and distribution rights attached to such securities. The ERISA Plan's sole right with respect to the securities and the correction trust shall be to receive the net proceeds of sale following surrender of the certificates representing such securities.

## 25.5 Limitation on United States Resident Ownership

- (a) At no time may more than 100 United States persons (using the principles of counting for purposes of Section 3(c)(1) of the *Investment Companies Act of 1940* (the "1940 Act")) collectively be the beneficial owners of the securities of the Company, nor may any United States person be the beneficial owner of more than 10% of any class of securities of the Company.
- (b) The Company may require declarations as to the jurisdictions in which beneficial owners of its securities are resident.
- (c) If the Company becomes aware that either of the foregoing limitations may be contravened, the Company (or its transfer agent and registrar) will make a public announcement and will not accept a subscription for securities from or issue or register a transfer of securities to a person unless the person provides a declaration that the person is not a United States person.
- (d) If, notwithstanding the foregoing, the Company determines that more than 100 United States persons are beneficial owners of its securities (on either a non-diluted or fully-diluted basis), the Company may send a notice to such United States beneficial owners, as applicable, chosen in inverse order to the order of acquisition or registration or in any manner as the Company may consider equitable and practicable, requiring them to sell their securities or a portion thereof within a specified period of not less than 10 days. If after such period, the beneficial owners receiving the notice have not sold the specified number of securities, as applicable, or provide the Company with satisfactory evidence that they are not United States persons, the Company may, on behalf of those beneficial owners, sell those securities, as applicable, and, in the interim, will suspend the voting and distribution rights attached to those securities. Upon such sale, the affected beneficial owners will cease to be beneficial owners, as applicable, and their rights will be limited to receiving the net proceeds of the sale.
- (e) The board of directors of the Company will have no liability for the amount received upon a sale described in this section, provided that they act in good faith.

## 25.6 Limitation on Ownership by United States Entities

If any U.S. entity intends to hold more than 5% but less than 10% of the income participating securities ("IPSS") or common shares ("Common Shares") of the Company, such entity agrees to cooperate with the Company and provide information necessary to make any filings with the United States Federal Energy Regulatory Commission ("FERC") that may be required pursuant to the *United States Federal Power Act*, as amended (the "FPA").

## 25.7 Limitation on Ownership By Public Utilities

- (a) At no time may any person own IPSSs or Common Shares if such person: (i) is engaged primarily in the electric or gas business; (ii) is otherwise affiliated with any franchised electric utility; (iii) has controlling ownership interests in any electric generating, transmission, or distribution facilities; (iv) is affiliated with any power marketers; (v) is an "electric utility" as such term is defined in section 3(22) of the FPA; (vi) is a "public-utility company" or a "holding company" or an "associate company", "affiliate", or "subsidiary company" of a "holding company" as each term is defined in section 2(a) of the *Public Utility Holding Company Act of 1935*, as amended ("PUHCA"); (vii) is subject to regulation under PUHCA; (viii) is subject to regulation as a "public utility" under the FPA; or (ix) is subject to regulation with respect to rates or to financial or organizational matters as an electric utility, public utility, or public service company or corporation under the laws of any state unless such person satisfies the Company that the ownership of the IPSSs or Common Shares by such person will not adversely affect the qualification of any of the power generation projects in which the Company holds an indirect interest (the "Projects") as a qualifying facility under FERC's rules implementing the *Public Utility Regulatory Policies Act of 1978*, the order issued under the FPA with respect to certain Projects, or the Projects' qualification for market-based rates under the FPA.

- (b) Determination of a potential adverse effect described in paragraph (a) above is at the sole discretion of the Company and the Company may elect to strictly enforce any or all of the restrictions set forth above against such entity.
- (c) If the Company becomes aware that any of the restrictions set out in this section may be contravened, the Company (or the transfer agent and registrar of the Company) will make a public announcement and will not accept a subscription for IPSs or Common Shares from, or issue or register a transfer of IPSs or Common Shares to, a person unless the person provides a declaration that the person is not an entity described above.
- (d) If, notwithstanding the foregoing, the Company determines that a beneficial owner of IPSs or Common Shares violates the foregoing restrictions, the Company may send a notice to such owners of IPSs or Common Shares requiring it to provide specified information to the Company such that the Company can determine whether such person's beneficial ownership may have an adverse effect upon the Company. Upon such determination, the Company may send a further notice requiring such beneficial owner to sell its IPSs or Common Shares of the Company within a specified period of not less than 10 days. If the beneficial owner of IPSs or Common Shares receiving the notice has not sold the IPSs or Common Shares, as applicable, or provided the Company with satisfactory evidence that it does not contravene the foregoing restrictions, the Company may, on behalf of that beneficial owner of IPSs or Common Shares, sell those IPSs or Common Shares, and, in the interim, will suspend the voting and distribution rights attached to those IPSs or Common Shares. Upon that sale, the affected beneficial owner will cease to be a beneficial owner of the IPSs or the Common Shares, as applicable, and its rights will be limited to receiving the net proceeds of the sale.
- (e) The board of directors of the Company will have no liability for the amount received upon a sale described in this section, provided that they act in good faith

**Atlantic Power Corporation Announces September 2006 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of September 2006. A distribution of \$0.0884 per Income Participating Security (“IPS”) will be payable on October 31, 2006 to holders of record at the close of business on September 29, 2006.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0884 reflects a cash dividend per common share of \$0.0355 and an interest payment of \$0.0529 for the month of September 2006.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects and one transmission line located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

**Atlantic Power Announces Closing of Path 15 Acquisition and Distribution Increase**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power” or the “Company”) announced today that Atlantic Power Holdings, LLC had indirectly acquired 100% of Trans-Elect NTD Path 15, LLC, which owns approximately 72% of the transmission system rights in the Path 15 transmission project (the “Project” or “Path 15”) located in California. The Company paid \$85.5 million in cash for the Project, which has approximately \$145 million in non-recourse project-level debt.

The Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point in the state’s north-south capacity. The Project went into service in December 2004.

The Project’s revenue stream is regulated by the Federal Energy Regulatory Commission (the “FERC”) on a cost-of-service rate base methodology, which insulates cash flows from any impacts of power prices or actual line usage. The approved rate base includes all costs of the Project and earns an allowed rate of return that is reviewed by the FERC every three years, and the rate base is depreciated over 30 years. All prudently incurred operating and maintenance costs and capital expenditures may be collected in rates charged. California’s Independent System Operator (“CAL-ISO”) collects Transmission Access Charges being paid predominantly by the state’s investor-owned utilities and passes them to transmission owners, such as Path 15.

“We are very pleased to be completing the Path 15 acquisition, further strengthening our ability to generate stable, sustainable and predictable cash flows while enhancing the diversity of our project portfolio,” commented Barry Welch, President and CEO.

The Company also announced today that it will increase its cash distribution to shareholders by an annual rate of Cdn\$ 0.03 per Income Participating Security (“IPS”) commencing with the September distribution. Since its Initial Public Offering (“IPO”) in November 2004 the Company has increased annualized cash distributions per IPS by 6%.

“This increase in cash distributions, the second since our IPO, is another significant milestone and the direct result of our successful strategies to support and grow distributable cash over the long term,” commented Barry Welch.

Atlantic Power Corporation owns interests in a diversified portfolio of fifteen power generation projects and one transmission line located primarily in major markets in the United States. The Company’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the acquisition of the Project and the anticipated financial and operational performance of the Project. Such statements are subject to certain risks, uncertainties and assumptions which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such forward-looking statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to the anticipated financial and operating performance of the Project. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements contained in this news release represent our expectations as of September 15, 2006 and, accordingly, are subject to change after such date. Except as required by applicable law, we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

August 10, 2006

### **Atlantic Power Corporation Announces Second Quarter 2006 Results**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (the “Company”) today announced its results for the three and six months ended June 30, 2006. All amounts are in US dollars unless otherwise indicated.

#### **Highlights:**

- **Increase in cash available for distribution of 83% from Q2 2005**
- **Aggregate power generation up 29% for the quarter and 20% for year-to-date**
- **Acquisition of California transmission line adds regulated 30-year cash flow**
- **Lower payout ratio: 49% for the second quarter and 65% for year-to-date**
- **\$10 million revolver balance from Chambers acquisition repaid**

“We continue to post strong cash flow in 2006 as we maintain our focus on maximizing returns on our assets while we achieve growth through solid acquisitions,” commented Barry Welch, President and CEO.

For the three months ended June 30, 2006 Cash Flow Available for Distribution was \$21.1 million (Cdn \$0.54 per IPS) compared to \$11.6 million (Cdn \$0.38 per IPS) last year. Distributions declared in the quarter were \$10.3 million (Cdn \$0.26 per IPS), resulting in a payout ratio of 49%, versus 64% in last year’s second quarter. The \$10 million borrowing on the Company’s revolver from the Chambers acquisition last year was repaid during the second quarter. The Company reported project income of \$16.8 million in the second quarter of 2006. Net income for the three months ended June 30, 2006 was \$4.7 million or \$0.11 (Cdn \$0.12) per IPS.

For the six months ended June 30, 2006, Cash Flow Available for Distribution was \$31.4 million (Cdn \$0.81 per IPS) compared to \$18.9 million (Cdn \$0.62 per IPS) last year. Distributions declared in the first six months of 2006 were \$20.2 million (Cdn \$0.52 per IPS), and the payout ratio improved to 65%, as compared to 79% last year. The Company generated project revenue of \$113.1 million and project income of \$29.0 million in the first six months of 2006. Net income for the six months ended June 30, 2006 was \$8.0 million or \$0.18 (Cdn \$0.21) per IPS.

EBITDA at the Projects increased 28% in the second quarter of 2006 compared to the prior year period. For the six months ended June 30, 2006, EBITDA at the Projects was up 15% compared

to the same period in 2005. The increases were driven by the contribution in 2006 from Chambers ownership, improved operating margin at the Lake Project, and a return to normal operations at the Orlando Project following completion of its turbine upgrades during the second quarter of 2005. These positive factors were partially offset by the absence of Masspower results following its sale in the fourth quarter of 2005 and lower results from Rumford as it transitioned from the previous power purchase agreement to a market-based interim agreement.

The calculation of Cash Flow Available for Distribution and a breakdown of unaudited EBITDA by individual project for the three and six-month periods ended June 30, 2006 is attached to this news release.

“We are very pleased with our project portfolio’s performance this year. Aggregate generation for the quarter was up over 29% in the period, primarily due to the contribution from the Chambers Project, and plant availability increased 3.1%,” Mr. Welch commented.

#### Path 15 Acquisition

On June 29, 2006 the Company announced that Atlantic Power Holdings, LLC (“Holdings”) had agreed to indirectly acquire 100% of Trans-Elect NTD Path 15, LLC, which owns approximately 72% of the transmission system rights in the Path 15 transmission project (the “Project” or “Path 15”) located in California. Path 15 is a critical 84-mile, 500-kilovolt transmission line with strong federal and state support. It generates highly stable 30-year regulated cash flows that are independent of power prices or line utilization. The Project has very low operating risk with proven technology and a solid operating history. It will be accretive to cash flow and further enhances the diversity of the Company’s project portfolio

The equity purchase price for the Project will be approximately \$85.5 million and will be financed with an acquisition credit facility. There are agreed upon price adjustments in the purchase agreement to keep the Company neutral to the outcome of the two final issues still pending in the project’s initial rate case with the Federal Energy Regulatory Commission (FERC). Existing debt at the Project’s operating and holding companies will be assumed in the transaction but will be non-recourse to both the Company and Holdings. The acquisition is subject to approval by the FERC, which is expected in the third quarter of 2006.

“We are very pleased to be acquiring this important asset,” commented Barry Welch, President and CEO. “The Project strengthens our ability to generate stable, sustainable and predictable cash flows over the long term, while enhancing the diversity and reducing the risk of our project portfolio.”

The Company’s financial statements for the period and management’s discussion and analysis for the six months ended June 30, 2006 are available on the Company’s web site at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com) or on SEDAR [www.sedar.com](http://www.sedar.com).

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects located primarily in major markets in the United States. The Company’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the projects and the anticipated financial results of the Company. Such statements are subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions.

Cash Flow Available for Distribution is not a measure recognized under Canadian generally accepted accounting principles ("GAAP") and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities to Cash Flow Available for Distributions is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

EBITDA, earnings before interest, taxes, depreciation and amortization, is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

## Certification of Interim Filings

### Form 52-109F2

I, Barry E. Welch, Chief Executive Officer of Atlantic Power Management, LLC, Manager of Atlantic Power Corporation, certify that:

1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Atlantic Power Corporation (the issuer) for the interim period ending June 30, 2006.;
2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings; and
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure control and procedures for the issuer, and we have designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following management's discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the unaudited financial statements of Atlantic Power Corporation ("Atlantic Power" or the "Company") for the three and six month periods ended June 30, 2006. All amounts described in the MD&A are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP"). This MD&A also contains forward looking statements, which are subject to a variety of factors. When used in this MD&A, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the Projects (as defined below). Such statements are subject to a variety of risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements. Some of the factors that could cause results or events to differ from current expectations include, but are not limited to, the factors described under "Risk Factors". Information contained in this MD&A is based on information available to management as of August 10, 2006.

Copies of financial data and other publicly filed documents are available through the internet on SEDAR at [www.sedar.com](http://www.sedar.com) under Atlantic Power Corporation.

**OVERVIEW**

The Company currently has 44,339,500 income participating securities ("IPSs") outstanding and owns 70.1% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Power Holdings, LLC ("Holdings"). Holdings was formed initially to acquire indirect interests in a diversified portfolio of power generating facilities (the "Projects") located primarily in major markets in the United States from ArcLight Energy Partners Funds I and II (the "ArcLight Funds") and Caithness Energy (together, the "Existing Investors"). Each IPS represents one common share of the Company ("Common Shares") and Cdn. \$5.767 aggregate principal amount of 11% subordinated notes of the Company ("Subordinated Notes").

As of June 30, 2006, Holdings owned interests in fourteen Projects in the United States and one in Jamaica with a combined total power generating capacity of 2,156 megawatts ("MW"). Holdings' interest in the Projects represented approximately 860 MW of power generating capacity as of June 30, 2006. Most of the Projects sell their power under long term power purchase agreements ("PPAs") to investment grade utilities. These agreements are typically structured to stabilize cash flows by: 1) providing significant steady capacity payments generally designed to provide a return of and on capital and fixed costs regardless of how much electricity it is called upon to produce, provided that the plant meets an availability requirement, and 2) passing through most of the Projects' fuel costs to the utilities. As a result, effects on the

portfolio's cash flow based on changes in the amount of power generated, spot market electricity prices and fuel price changes are significantly mitigated.

The Company's objectives are to maintain the stability and sustainability of cash distributions to holders of IPSs in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares. To achieve these objectives, Company management, working directly with project managers, focuses on enhancing the operation of the existing Projects by improving facility performance, increasing output, optimizing contracts and hedging cash flows when practicable. In addition, the Company has a focused growth strategy that includes the consolidation of interests in Projects that it currently owns and making accretive acquisitions with a primary focus on the electric power industry in the United States.

#### **NON-GAAP FINANCIAL MEASURES**

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities from the Company's financial statements to Cash Flow Available for Distribution is set out under "Calculation of Cash Flow Available for Distribution" in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate unaudited EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

#### **RESULTS OF OPERATIONS FOR THE THREE AND SIX-MONTH PERIODS ENDED JUNE 30, 2006**

The financial results for the three and six month periods ended June 30, 2006 include contributions from Holdings' 40% indirect interest in the Chambers project, acquired on September 8, 2005, while the comparative financial results for the same periods in 2005 included contributions from the Masspower project, which was sold in the fourth quarter of 2005. As of June 30, 2006, the Company had PPAs with 16 customers. Details on several aspects of the PPAs for each Project are presented in the "Project Portfolio" section in this MD&A.

Project Income is the primary determinant of the Company's operating results and is discussed in the "Project Performance: Three and Six-Month Periods Ended June 30, 2006" section below. Within Administrative and Other Expenses, cash outflows, including management fees and administration, net interest (principally interest on Subordinated Notes and revolving credit facility) and distributions to the non-controlling interest (29.9% of Holdings owned by Existing Investors at June 30, 2006, 41.9% at June 30, 2005) are expected to be consistent with the

growth of the Company. Significant non-cash items, which are subject to potentially significant fluctuations, include: 1) the change in fair value of the non-controlling investors, which is based on the change in the price of IPSs from period to period, 2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S equivalent of the Company's Canadian dollar denominated debt and the mark-to-market value of currency forward contracts, and 3) the non-cash portion of interest rate swaps that have been executed to fix the interest rate paid on project-level debt.

Net income for the three months ended June 30, 2006 was \$4,656, compared to a net loss of \$5,326 in the second quarter of 2005. The loss in the prior year quarter was primarily attributable to a change in the fair value of the liability that reflects the non-controlling interest, which was positive in the three months ended June 30, 2006. In addition, Project Income was higher in the current year quarter, partially offset by increased interest expense and a foreign exchange loss. For the six months ended June 30, 2006 Net Income increased to \$7,977 from \$4,616 in the comparable prior year period due to the same factors.

#### **SUPPLEMENTARY FINANCIAL INFORMATION**

Appended to this MD&A are tables containing the following unaudited non-GAAP supplementary information:

- summary of EBITDA summary by Project;
- reconciliation of Project distributions to EBITDA by Project; and
- consolidated balance sheet and income statement data.

#### **PROJECT PERFORMANCE: THREE AND SIX-MONTH PERIODS ENDED JUNE 30, 2006**

Aggregate EBITDA at the Projects, including earnings from equity investments increased 28% during the second quarter 2006 compared to the prior year period. The second quarter 2006 results included a contribution from the Chambers project, which was acquired in September 2005, and stronger EBITDA at Orlando as compared to the prior year period when the project was upgrading its gas turbines.

Partially offsetting these positive contributions was the absence of any contribution from Masspower, which was sold in late 2005 and the decline in EBITDA at Rumford due to its transition to a market-based interim PPA from its prior PPA which expired in December 2005.

Aggregate power generation increased 29% while plant availability was up 3% at the Projects during the second quarter 2006 compared to the same period in 2005. The comparative increase in generation in the second quarter 2006 was driven by a full quarter of production at Chambers and increased production achieved at Orlando, partially offset by the reduction in generation resulting from the sale of Masspower and planned maintenance outages at several Projects with the exception of the unplanned outage at Pasco. Facilities in the Project portfolio achieved a 95.9% availability level for the second quarter 2006 representing an increase from 92.8% for same period in 2005.

EBITDA for the six-month period ended June 30, 2006 increased 15% over the level achieved for the same period in 2005. The first six months of 2006 included the contribution from Chambers, improved margins at Lake and stronger EBITDA at Orlando, as the project was upgrading its gas turbines in the prior year period. Partially offsetting these positive contributions was the absence of any contribution from Masspower, Rumford's reduced EBITDA due to its transition to a market-based interim PPA, a first quarter unplanned turbine outage at Pasco, which included voluntarily accelerated major maintenance and an upgrade of the turbine's output and efficiency and reduced margin at Selkirk due primarily to lower gas resale margins.

Aggregate generation for the six-month period ended June 30, 2006 was 20% higher than the prior year period and availability declined 0.7%. The comparative increase in generation in 2006 was driven by the production contributed by Chambers and increased margins at Lake and Orlando, partially offset by generation absent due to the Masspower sale and planned outages at several projects.

## SUMMARY OF FINANCIAL INFORMATION

(In thousands on U.S. dollars)

(Unaudited)

	Three months ended June 30,		Six months ended June 30,

<i>Per IPS, CAD</i>	<i>\$0.26</i>	<i>\$0.25</i>	<i>\$0.52</i>	<i>\$0.50</i>

(1) Project revenue and project expenses of Holdings' interests in 10 projects, including two wholly-owned projects which are consolidated, and eight proportionately consolidated projects with interests ranging from 40% to 50% (see "Accounting Treatment" column in the "Project Portfolio" section in this MD&A.).

(2) Includes equity in earnings from partnerships of \$1,989 and \$3,824 for the three and six months ended June 30, 2006 from five projects in which Holdings owns interests of between 17.1% and 40%, accounted for on an equity basis.

(3) Distributions declared to Existing Investors.

(4) As of December 31, 2004, Existing Investors owned a 41.9% non-controlling interest in Holdings with certain Liquidity Rights to request that the Company use best efforts to issue equity securities (including IPSs) to raise proceeds that would indirectly be used to redeem portions of the Existing Investors' interest. On October 3, 2005, the Existing Investors reduced their common membership interests in Holdings to 29.9%. Until November 18, 2006, the Existing Investors must

maintain a minimum 10% aggregate ownership interest in Holdings. This amount represents the mark-to-market change during the reporting period in the potential obligation of the Company to issue securities to redeem the *entire* Existing Investors' interests in Holdings based on the change in market price per IPS for the period using prices of Cdn. \$10.75 and \$10.40 at December 31, 2004 and 2005 respectively, Cdn. \$ 0.50 and \$10.25 at March 31, 2005 and 2006, respectively, and Cdn. \$10.80 and \$9.60 at June 30, 2005 and 2006, respectively.

- (5) Net impact of foreign exchange on the US dollar equivalent of Canadian dollar denominated debt, the mark-to-market value of currency forward contracts and realized foreign exchange gains and losses for the period.
- (6) Distributions declared during the reporting period.

## **CASH FLOW FROM OPERATIONS AND RESERVE FUND**

The Company's cash flow from the Projects will vary from year-to-year based on, among other things, changes in rates under the PPAs, fuel supply and transportation agreements, steam sales agreements and other project contracts, compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the operating performance of the Projects. Project cash flows themselves may have some seasonality and the pattern and frequency of distributions from the Projects to Holdings during the year can also vary.

The Company's cash flow from operations ("CFFO") was \$15,978 for the three-month period ending June 30, 2006 compared to \$8,098 for the prior year period. For the six-month period ending June 30, 2006, CFFO was \$24,005, up from \$12,655 in the first six months of 2005. The increase in both periods is primarily attributable to improved EBITDA at the Projects as described above.

In order to provide holders of IPSs with stable and sustainable cash distributions, the Company established a Reserve Fund at the closing of its IPO and will deposit funds in the Reserve Account from time to time to stabilize future cash distributions and fund acquisitions and other growth opportunities that have the same ultimate effect. The Reserve Fund held \$10,737 as of June 30, 2006.

## **CASH FLOW AVAILABLE FOR DISTRIBUTION**

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. The Company currently distributes Cdn. \$1.03 per IPS annually. For the three month period ended June 30, 2006, aggregate distributions of \$9,951 were declared (Cdn. \$0.26 per IPS comprised of interest payments of Cdn. \$0.16 on the Subordinated Note portion of the IPS, plus Cdn. \$0.10 Common Share dividend per IPS)

The Company evaluates its level of distributions with its Board of Directors by analyzing payout ratios and long-term cash flow projections, as well as the accretion to cash flow provided by acquisitions.

The table below presents the calculation of Cash Available for Distribution for the three and six month periods ended June 30, 2006 and 2005.

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

(Unaudited)

	Three months ended		Six months ended

<b>Total distribution per IPS, CAD</b>	<b>\$0.26</b>	<b>\$0.25</b>	<b>\$0.52</b>	<b>\$0.50</b>

## SUMMARY OF QUARTERLY RESULTS

Variations in quarterly results are driven by the following factors:

- There is some seasonality of Project Revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the PPA payments and relatively small amounts of uncontracted output, and the typical scheduling of major facility maintenance in the spring and fall.
- Variations in cash flow are also driven by the timing of project debt payments (i.e., most are quarterly and some semi-annual), as distributions from the Projects to the Company must occur in conjunction with passing certain tests at those payment dates.
- Non-cash charges, principally: 1) the change in fair value of the non-controlling investors, which is based on the change in the price of IPSs from period to period, 2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange fluctuations from period to period on the U.S equivalent of the Company's

Canadian dollar denominated debt and the mark-to-market value of currency forward contracts, and 3) the non-cash portion of interest rate swaps that have been executed to fix the interest rate paid on project-level debt.

- Net Income for the three-month and six-month periods ended June 30, 2006 increased 49% and 21%, respectively, compared with the same periods in 2005 based on improved Project Income partially offset by increases to net interest, foreign exchange loss and the market value of the liability that reflects the non-controlling interest.

## SELECTED QUARTERLY CONSOLIDATED FINANCIAL DATA

(In thousands of U.S. dollars)

(Unaudited)

	2004	2005				2006	
	Nov 18-Dec 31	Q1	Q2	Q3	Q4	Q1	Q2

Distributions, CAD	0.12	0.25	0.25	0.25	0.26	0.26	0.26

## LIQUIDITY AND CAPITAL RESOURCES

The Company has liquidity from several sources in addition to cash flow from operations. The Reserve Fund held \$10,737 as of June 30, 2006. In the future, as the Reserve Fund increases, a portion of it will be available to fund acquisitions and other growth opportunities, enhancing the long-term stability of distributions.

Holdings has a revolving credit facility of \$75,000, \$13,465 of which was allocated, but not drawn, as of June 30, 2006 to support letters of credit for contingent liabilities at several of the Projects. In the second quarter 2006, \$10,000 previously drawn on the facility was repaid, leaving \$61,535 available to the Company under the facility as of June 30, 2006. In addition, the Projects themselves generally have their own reserve accounts to support payments for major maintenance costs and project-level debt service. For Projects that are consolidated or proportionately consolidated with Atlantic Power, these amounts or Atlantic Power's portion of these amounts respectively, are reflected as Restricted Cash on Atlantic Power's balance sheet, which was \$21,807 as of June 30, 2006.

All project-level debt is non-recourse to the Company or Holdings and is fully amortized over the life of the projects' PPAs.

## **CAPITAL EXPENDITURES**

Capital expenditures for the Projects are made at the project level using project cash flows and project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the projects. Generally, capital expenditures are not significant because most major expenditures are for repairs and maintenance and therefore are expensed. For the three- and six-month periods ended June 30, 2006 property, plant and equipment increased by \$1,814 and \$2,236, respectively.

## PROJECT PORTFOLIO

The following table outlines the Company's portfolio of power generating assets as of June 30, 2006, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any one region.

Project Name	Location (State)	Fuel Type	Total MW	Ownership Interest <sup>(1)</sup>	Accounting Treatment <sup>(2)</sup>	Net MW <sup>(3)</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating

						49	Consolidated Edison	2014	A
Stockton	California	Coal	55	50.00%	P	24	Pacific Gas & Electric	2008	BBB
						3	Corn Products Int'l	2008	BBB-
Topsham <sup>(6)</sup>	Maine	Hydro	14	50.00%	P	7	Central Maine Power	2011	BBB+

- (1) Represents the percentage ownership interest in the project held indirectly by Atlantic Holdings (except as otherwise noted).  
(2) Accounting Treatment: (see to Note 1 to the audited consolidated financial statements for the year ended December 31, 2005).  
C = Consolidated  
P = Proportionate Consolidation  
E = Equity Method  
(3) Represents the interest of Holdings in each project's electric generation capacity based on Holdings' economic interest in each project.  
(4) Represents Holdings' estimate of its economic interest in the project's cash flow.  
(5) A swap agreement with Niagara Mohawk Power Corporation replaced the Onondaga PPA.  
(6) Holdings owns a lessor interest in this Project.  
(7) The merchant output of the facility is sold by Atlantic City Electric in the PJM regional spot market through a profit sharing arrangement with Chambers.

## CONTRACTUAL OBLIGATIONS

As of June 30, 2006

(In thousands of U.S. dollars)

(Unaudited)

	Payment due by period				
	Total	2006 (after June 30)	2007 to 2009	2010 to 2011	2012 and thereafter
Subordinated notes	262,352				262,352
Long-term debt (1)	234,801	10,319	63,777	31,925	128,780
Total contractual obligations	497,153	10,319	63,777	31,925	391,132

- (1) Long term debt represents the Company's consolidated and proportionately consolidated share of Project long term debt. Project debt is non-recourse to the Company and fully amortizes during the term of the respective PPAs.
- (2) The interest rate on the subordinated notes is 11% and the range of interest rates on long-term debt at June 30, 2006 was 3.74% to 9.125%.

### (a) Project Contracts

Each project typically has a set of contracts that include the following obligations of the project partnerships, all of which are non-recourse to the Company. Therefore, specific contracts for individual projects are not discussed in detail in the MD&A.

- PPAs generally allow Projects to pass through their fuel costs. See the table under the "Project Portfolio" section in this MD&A for off-takers and durations.
- Fuel supply agreements may have minimum volume requirements.
- Fuel transportation agreements incorporate capacity reservation/demand payments for natural gas, or shipping cost per ton of coal.
- Steam sales agreements track PPA lengths and are designed to meet regulatory requirements for thermal load/efficiency at fossil fuel plants.
- O&M agreements contract for operations and maintenance services provided by third parties or owners.
- Long-term service agreements may be in place for gas or steam turbine inspections and overhauls.
- Site lease agreements grant use of project land where Projects do not own the site.

Further information about the Projects' agreements is contained in the Company's Annual Information Form dated March 30, 2006, which is available on SEDAR at [www.sedar.com](http://www.sedar.com).

- (b) **Financial Instrument Contracts**— see the "Financial and Other Instruments" section in this MD&A.

**(c) Credit Facility**

Holdings has a \$75,000 revolving credit facility, \$13,465 of which was allocated, but not drawn as of June 30, 2006, to support letters of credit for contingent liabilities at several of the Projects. No amount was drawn under the revolving term credit facility as of June 30, 2006.

**(d) Office Operating Lease Obligations**

Atlantic Power Management, LLC (the "Manager") the manager of the Company subleases its office space from ArcLight Capital Partners, LP, under an agreement that expires in 2014. The obligations under this sublease are \$1.0 per year in 2006-2007 and a total of \$933 for the period 2008-2014.

**(e) Management and Incentive Fees**

The Company pays a management fee under the Management Agreement that is subject to adjustment for acquisitions as agreed to by the Company and Holdings' Independent Managers, plus incentives, inflation adjustment and expenses. The Company paid the Manager \$1,886 in management and incentive fees during the six-month period ended June 30, 2006.

**(f) Subordinated Notes**

As of June 30, 2006, the Company had \$262,352 outstanding of Subordinated Notes due 2016. The notes pay only interest until their maturity.

**RELATED PARTY TRANSACTIONS**

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid (i) an annual management fee, (ii) reimbursement of costs, and (iii) an incentive fee equal to 25% of the excess in distributions paid to IPS holders and Existing Investors during the year above Cdn. \$1.00 per IPS. The Management Agreement has an initial term of 20 years from the Company's IPO completed in November 2004. The Manager is owned by The ArcLight Funds. Subsidiaries of The ArcLight Funds along with a subsidiary of Caithness Energy owned 41.9% of Holdings' common membership interests after the IPO, but reduced their interest to 29.9% in October 2005.

The seven-person Board of Managers of Holdings includes two members from the ArcLight Capital Partners, LP who were appointed by the Existing Investors, and the President and Chief Executive Officer of the Manager. These three individuals may not vote on any proposed acquisitions by Holdings of projects in which The ArcLight Funds has an ownership interest.

The Manager receives administrative and office support services from ArcLight Capital Partners, LP under a Management Support Agreement. This agreement also requires The ArcLight Funds and its affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Holdings, investment opportunities that do not fit within the investment guidelines for The ArcLight Funds or other investment funds managed by ArcLight Capital Partners, LP or its affiliates.

At the time of the IPO, Holdings was granted a right of first offer ("ROFO") on a number of power producing projects owned by The ArcLight Funds. As of June 30, 2006, a 90 MW project located in Florida remains subject to the ROFO agreement.

As discussed in the “Contractual Obligations” section above, the Manager subleases its office space from ArcLight Capital Partners, LP under an agreement that expires in 2014.

Caithness Energy has an indirect ownership interest in one of the Existing Investors. Subsidiaries of Caithness Energy provide operations, maintenance and accounting at four of the Projects and administrative and project management functions for an additional eight Projects under agreements which are in effect until February 2007 and renewable thereafter. During the three- and six-month periods ended June 30, 2006, Holdings incurred fees and expenses of \$687 and \$1,375, respectively for these services provided by Caithness Energy.

## FINANCIAL AND OTHER INSTRUMENTS

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates as the Company earns its income principally in the United States and has the obligation to make distributions predominantly in Canadian dollars. Since its inception, the Company has established a hedging strategy for the purpose of reinforcing the long-term sustainability of its distributions. The Company has executed this strategy by entering into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn.\$1.03 per IPS to all holders including the Existing Investors, as well as interest payments on the Subordinated Notes issued separately at the time of the Company’s IPO. It is the Company’s intention to extend the length of these forward contracts by one additional year periodically. Changes in the fair market value of the Company’s forward contracts partially offset set exchange gains or losses on the U.S. dollar equivalent of the Company’s Canadian dollar obligations. The following table summarizes the Company’s forward foreign currency contracts as of June 30, 2006:

<b><u>NOTIONAL MONTHLY AMOUNTS</u></b>			
<b><u>Period</u></b>	<b><u>Sell U.S. Dollars</u></b>	<b><u>Buy Canadian Dollars</u></b>	<b><u>Average Rate</u></b>
Current - 2009	4,811	5,800	1.2055
2010	5,167	5,800	1.1225
2011	5,494	5,800	1.0557

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark-to-market adjustments of the foreign currency forward contracts are reflected in foreign exchange gains and losses. The foreign exchange contracts are classified as other assets.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects to cash flow of changing natural gas prices, which is a major component of project expenses. Some of these contracts have been designated as hedges for accounting purposes. In addition, other projects have entered into

natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

The Company has an Indexed Swap under which the Company receives monthly payments based upon the differential between an indexed contract price and a market reference price for electricity through June 2008. In order to lock in favorable gas, power, and capacity pricing under the Indexed Swap, the Company has entered into an Indexed Swap Hedge. Refer to Note 8 of the Company's unaudited consolidated financial statements for the six months ended June 30, 2006.

## **ACCOUNTING ESTIMATES**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the periods presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property, plant and equipment and PPAs, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives.

The Company has acquired the majority of its long-term assets through acquisitions. In applying the purchase method of accounting, the Company is required to estimate the fair value of the assets acquired including the property, plant and equipment and intangible assets. The determination of these fair values is complex and involves significant judgments.

Revenue recognition is based on monthly invoices by the Projects to electricity and steam buyers and in one case with fluctuating rates over time, the average rate over the term of the PPA is used for revenue with the difference between cash received and revenue recognized as deferred revenue. Fixed asset valuations of power plants are based on depreciated replacement cost. Valuations of PPAs and fuel supply agreements are based on the incremental net present value of cash flows provided by the agreements as compared to the merchant value of the plant. The Company typically uses outside consultants to determine the merchant value of a facility. On an on-going basis, the Company monitors the performance of the facilities to determine if any recoverability issues exist or if any change in the useful life of the facility is required.

The future tax asset valuation allowance has been determined pursuant to the provisions of CICA 3465, Income Taxes, including the Company's estimation of future taxable income, where necessary, and is adequate to reduce the total future tax asset to an amount that will more likely than not be realized. The Company incurred taxable losses for the six-month period ended June 30, 2005 and taxable income for the six-month period ended June 30, 2006. The Company has limited operating history. It is not considered to be reasonably certain that future tax assets will be realized over the next few years. Accordingly, the Company has provided a valuation allowance equivalent to the Company's net future tax assets.

The fair value of financial instruments and derivatives such as the forward foreign currency contracts, interest rate swaps and natural gas swaps are typically based on market quotes. The Company also has an Indexed Swap and related hedge agreement, discussed in Note 8 to the Company's unaudited consolidated financial statements for the six months ended June 30, 2006.

The fair value of these agreements are based on estimated future cash flows taking into account certain assumptions, including forecasts or future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair values of these agreements.

For additional information regarding accounting policies and estimates refer to Note 1 of the consolidated financial statements for the year ended December 31, 2005.

## **COMMITMENTS AND CONTINGENCIES**

There have been no significant changes in the status of litigation matters reported in the Company's consolidated financial statements and management's discussion and analysis for the year ended December 31, 2005. For a comprehensive discussion on litigation matters involving the Company, see the "Litigation" section in its management's discussion and analysis for the three-month period ended March 31, 2006. Management believes that the outcome of the litigation matters previously disclosed will not have a material impact on the Company.

The 2005 financial statements of one of the Company's proportionately consolidated joint ventures contains a going concern qualification in the auditor's report based on the assessment that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, could need to renegotiate with its lenders in or around the year 2010. Management is currently evaluating its strategic alternatives with respect to this investment.

## **PATH 15 ACQUISITION ANNOUNCEMENT**

On June 29, 2006, Holdings agreed to indirectly acquire 100% of Trans-Elect NTD Path 15, LLC, which owns approximately 72% of the transmission system rights in the Path 15 transmission project ("Path 15") located in California. Management believes that Path 15 will provide long-term, low-volatility cash flows and will increase the diversity of the Company's portfolio.

The project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point. Path 15 went into service in December 2004 and facilitates the movement of power from the Pacific Northwest to Southern California in the summer and from generators in Southern California to Northern California in the winter.

The equity purchase price for Path 15 will be approximately \$85.5 million and will be financed with an acquisition credit facility at Holdings. Existing debt at Path 15's operating and holding companies will be assumed in the transaction but will be non-recourse to Atlantic Power and Holdings.

The sellers include affiliates of Trans-Elect, Inc which is a GFI Energy Ventures, LLC portfolio company, United States Power Fund, LP managed by Energy Investors Funds Group, ArcLight Energy Partners Fund I, L.P. which is an affiliate of Atlantic Power's sponsor, and other private investors.

The 30-year revenue stream of Path 1.5 is regulated by the Federal Energy Regulatory Commission (the "FERC") on a cost-of-service ratebase methodology, which insulates cash flows from any impacts of changes in power prices or actual line usage. All prudently incurred operating, maintenance and capex costs are reflected in rates charged.

Certain aspects of the initial rates being charged are still the subject of an ongoing FERC proceeding, but the purchase agreement provides for adjustments designed to neutralize the economic impact to Holdings of any reduction in rates due to those pending issues. The acquisition is subject to approval by the FERC, which is expected in the third quarter of 2006.

## **OUTSTANDING SHARE DATA**

The Company had 44,339,500 IPSs outstanding at June 30, 2006 and at August 10, 2006.

## **OUTLOOK**

In order to maintain stable distributions and provide long term growth, the Company will continue to focus on enhancing the financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

PPAs in the portfolio have various expiration dates as listed in the "Project Portfolio" table in this MD&A, and, in each case, the project's partners plan for that occurrence by evaluating various options in the market in order to continue maximizing project cash flows. For example, projects with PPA expirations in the 2008-2009 timeframe have already been preparing for potential new or extended power purchase arrangements. The new arrangements may involve responses to utility solicitations for capacity, direct negotiations with the original purchasing utility for PPA extensions, or arrangements with creditworthy marketers for tolling agreements, full service PPAs or the use of derivatives to lock in value. Management has not assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations.

## **RISK FACTORS**

Atlantic Power's future performance and its ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs and the Common Shares and Subordinated Notes represented thereby involve a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares or Subordinated Notes or on the market price or value of IPSs, Common Shares or Subordinated Notes. A discussion of these risks and uncertainties can be found in the Company's management's discussion and analysis for the year ended December 31, 2005 and Annual Information Form dated March 30, 2006.

## **ADDITIONAL INFORMATION**

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or on SEDAR's website at [www.sedar.com](http://www.sedar.com).

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and six months ended June 30, 2006

(Unaudited)

---

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004 and continued to the Province of British Columbia on July 8, 2005. The Company issued income-participating securities ("IPS") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

## 1. Basis of presentation:

These interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2005, as set out in the 2005 Annual Report since they do not contain all the disclosures that are required by Canadian generally accepted accounting principles for annual financial statements. These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, using the same accounting policies and methods of computation as were used for the audited consolidated financial statements for the year ended December 31, 2005.

There is some seasonality of the Company's revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the power purchase agreement payments and relatively small amounts of uncontracted output, and the typical scheduling of major facility maintenance in the spring and fall.

## 2. Acquisitions:

### (a) Path 15 acquisition announcement:

On June 29, 2006, Atlantic Holdings agreed to indirectly acquire 100% of Trans-Elect NTD Path 15, LLC, which owns approximately 72% of the transmission system rights in the Path 15 transmission project ("Path 15") located in California.

The equity purchase price for Path 15 will be approximately \$85.5 million and will be financed with an acquisition credit facility at Atlantic Holdings. Existing debt at Path 15's operating and holding companies will be assumed in the transaction but will be non-recourse to the Company and to Atlantic Holdings.

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and six months ended June 30, 2006

(Unaudited)

---

## 2. Acquisitions (continued):

### (b) Epsilon Power Partners, LLC acquisition:

On September 8, 2005, the Company acquired Epsilon Power Partners, LLC ("Epsilon") for cash consideration of \$65,008, including acquisition costs of \$564. Epsilon owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of a 262 megawatts pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's Chambers Works complex in southwestern New Jersey. The preliminary purchase price, as at December 31, 2005, has been allocated as follows:

---

Working capital	\$ 9,541
Property, plant and equipment	142,817
Power purchase and other contracts	87,258
Other liabilities	(7,766)
Long-term debt	(166,842)
<hr/>	
Total purchase price	65,008
Less cash acquired	1,617
<hr/>	
Cash paid, net of cash acquired	\$ 63,391

The property, plant and equipment will be amortized over its remaining life estimated as 23 years. The power purchase and other contracts will be amortized over periods ranging from 18 years to 23 years.

The Company remains in the process of finalizing its purchase price allocation and the tax basis of the assets acquired.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and six months ended June 30, 2006  
(Unaudited)

### 3. Intangible assets:

Intangible assets include power purchase contracts, fuel supply agreement and license and rights.

	June 30, 2006	December 31, 2005
Power purchase agreements	\$ 14,832	\$ 14,832
Fuel supply agreements	110,403	110,403
Licenses and rights	70,538	70,538
	195,773	195,773
Less accumulated amortization	32,002	21,096
	\$ 163,771	\$ 174,677

Amortization expense of \$5,453 (December 31, 2005 - \$3,722) was expensed during the quarter.

### 4. Other liabilities, non-controlling interest:

As of June 30, 2006, the Existing Investors have a 29.9% common membership interest in Atlantic Holdings (December 31, 2005 - 29.9%) and also have the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest to November 18, 2006. The repurchase of the Existing Investors' interests is conditional upon Atlantic Holdings being able, after utilizing its best efforts, to complete or cause the completion of an equity financing on terms acceptable to the managers of Atlantic Holdings who are independent of the Existing Investors and their affiliates, acting reasonably, to secure the necessary funds to enable it to purchase the Existing Investors' interests. Atlantic Holdings may only finance repurchases of Existing Investors' interests pursuant to the exercise of the rights by issuing additional equity securities. This may occur through the sale of equity interests to the Company, the purchase of which may be financed by a sale of IPS or other equity securities of the Company. These interests are treated as a liability of the Company and are recorded at fair value on the consolidated balance sheet. At June 30, 2006, to purchase the remaining 29.9% interest, 18,952,365 IPS would be required to be issued.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and six months ended June 30, 2006

(Unaudited)

---

#### 4. Other liabilities, non-controlling interest (continued):

The change in fair value of the non-controlling interest, resulting from changes in the fair market value of the Company's IPS, is recognized in the consolidated statement of income and deficit as change in fair value of non-controlling interest. For the three months and six months ended June 30, 2006, a decrease of \$10,786 and \$13,225, respectively (three months and six months ended June 30, 2005, an increase of \$6,528 and \$1,035, respectively) is reflected in the consolidated statement of income and deficit.

The change in fair value of the non-controlling interest, resulting from foreign exchange, is recognized in the consolidated statement of income and deficit within foreign exchange loss (gain). For the three months and six months ended June 30, 2006, the foreign exchange loss related to the non-controlling interest was \$7,468 and \$6,748, respectively (three months and six months ended June 30, 2005, gain of \$3,007 and \$4,479, respectively).

On October 3, 2005, the Company issued 7,539,000 IPS at a rate of Cdn. \$10.00 per IPS to Caisse de dépôt et placement du Québec and officers of the Company in a secondary private placement. Gross proceeds were Cdn. \$75,390.

The net proceeds from the private placement were used by the Company to increase its common membership ownership in Atlantic Holdings from 58.1% to 70.1%. Atlantic Holdings concurrently redeemed membership interests held indirectly by the Existing Investors reducing the Existing Investors' common membership ownership from 41.9% to 29.9%.

#### 5. Related party transactions:

During the three months and six months ended June 30, 2006, in accordance with the Management Agreement, the Company paid management and incentive fees of \$1,015 and \$1,886, respectively (three months and six months ended June 30, 2005 - \$380 and \$1,210, respectively) to Atlantic Power Management, LLC, the Manager.

In addition, during the three months and six months ended June 30, 2006, the Company incurred expenses of \$687 and \$1,375, respectively (three months and six months ended June 30, 2005 - \$687 and \$1,375, respectively) for operations and maintenance services provided by Caithness Energy, a company which holds an indirect interest in one of the Existing Investors. Caithness Energy provides operations and maintenance services to 12 of the Company's projects.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and six months ended June 30, 2006

(Unaudited)

## 6. Basic income (loss) per share:

Basic income (loss) per share has been calculated using the weighted average number of units outstanding during the three months and six months ended June 30, 2006 of 44,339,500 (three months and six months ended June 30, 2005 - 36,800,000).

## 7. Commitments and contingencies:

(a) There have been no significant changes in the status of litigation matters reported in the Company's consolidated financial statements and management's discussion and analysis for the year ended December 31, 2005. Management believes that the outcome of the litigation matters previously disclosed will not have a material impact on the Company.

(b) The 2005 financial statements of one of the Company's proportionately consolidated joint ventures contains a going concern qualification in the auditors' report based on the assessment that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, could need to renegotiate with its lenders in or around the year 2010. Management is currently evaluating its strategic alternatives with respect to this investment.

(c) The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates as the Company earns its income principally in the United States and has the obligations to make distributions predominantly in Canadian dollars. The Company has entered into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2011 at the current annual distribution level of Cdn. \$1.03 per IPS to all holders including the Existing Investors, as well as interest payments on the separate subordinated notes. It is the Company's intention to extend the length of these forward contracts out to five years at or near the end of each year. Changes in the fair market value of the Company's forward contracts partially offset set exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations. The following table summarizes the Company's forward foreign currency contracts as of June 30, 2006:

Period	Notional monthly amounts		Average rate
	Sell U.S. dollars	Buy Canadian dollars	
Current - 2009	\$ 4,811	\$ 5,800	1.2055
2010	5,167	5,800	1.1224
2011	5,494	5,800	1.0557

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and six months ended June 30, 2006  
(Unaudited)

## 7. Commitments and contingencies (continued):

The foreign exchange loss of \$9,104 and \$7,551 (three months and six months ended June 30, 2005 - gain of \$2,630 and \$6,288, respectively) during the three months and six months ended June 30, 2006, primarily reflects unrealized foreign exchange gains on the U.S. dollar equivalent of the Company's Canadian dollar denominated obligation to non-controlling interests and subordinated notes, unrealized foreign exchange losses on the changes in the fair market value of the Company's forward contracts and realized foreign exchange gains on forward contract settlements during the period. Foreign exchange gains (losses) are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
Subordinated notes	\$ (11,610)	\$ 2,651	\$ (10,535)	\$ 3,951
Non-controlling interest	(7,468)	3,007	(6,748)	4,479
Forward contracts	8,932	(2,666)	7,948	(1,599)
Unrealized foreign exchange gains (losses)	(10,146)	2,992	(9,335)	6,831
Realized foreign exchange gains (losses) on forward contract settlements	1,042	(362)	1,784	(543)
	\$ (9,104)	\$ 2,630	\$ (7,551)	\$ 6,288

## 8. Indexed swap:

A swap agreement (the "Indexed Swap") between the power utility and Onondaga Cogeneration Limited Partnership ("Onondaga") has replaced the Project's original power purchase contract. The Indexed Swap expires on June 30, 2008. The Indexed Swap is a financial instrument under which the utility company makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full term of the Indexed Swap.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and six months ended June 30, 2006

(Unaudited)

## 8. Indexed swap (continued):

In May 2004, Onondaga contributed the Indexed Swap to a newly formed wholly owned special purpose subsidiary, Onondaga Power Swap Holdings, LLC ("OPSH"). Onondaga has guaranteed OPSH's obligations to the utility company under the Indexed Swap. Also in May 2004, OPSH entered into commodity hedges (the "Indexed Swap Hedge"), in order to lock in favourable gas, power and capacity pricing under the Indexed Swap. The hedges extend through June 30, 2008 and remove almost all commodity exposure from the Indexed Swap through its term.

Changes related to the Indexed Swap are summarized below:

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
Fair value, beginning of period	\$ 86,750	\$ 99,099	\$ 107,914	\$ 99,591
Increase (decrease) in fair value during the period	(4,248)	5,487	(16,873)	12,404
Settlements received	(7,722)	(8,399)	(16,261)	(15,808)
<b>Fair value, end of period</b>	<b>\$ 74,780</b>	<b>\$ 96,187</b>	<b>\$ 74,780</b>	<b>\$ 96,187</b>

Changes related to the Indexed Swap Hedge:

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
Fair value, beginning of period	\$ 42,186	\$ 37,981	\$ 58,547	\$ 30,293
Increase (decrease) in fair value during the period	(5,732)	2,216	(19,700)	8,924
Settlements paid	(2,617)	(2,143)	(5,010)	(1,163)
<b>Fair value, end of period</b>	<b>\$ 33,837</b>	<b>\$ 38,054</b>	<b>\$ 33,837</b>	<b>\$ 38,054</b>

NEWS RELEASE TRANSMITTED BY CCMATTHEWS

FOR: ATLANTIC POWER CORPORATION

TSX SYMBOL: ATP.UN

June 29, 2006

**Atlantic Power Agrees to Acquire 72% Interest in Path 15 Transmission Line in California**

BOSTON MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power” or the “Company”) announced today that Atlantic Power Holdings, LLC (“Holdings”) has agreed to indirectly acquire 100% of Trans-Elect NTD Path 15, LLC, which owns approximately 72% of the transmission system rights in the Path 15 transmission project (the “Project” or “Path 15”) located in California.

**HIGHLIGHTS:**

- **Critical transmission asset with strong federal and state support**
- **Highly stable 30-year cash flows**
- **Federally regulated revenue stream that is independent of power prices or line utilization**
- **Low operating risk with proven technology, solid operating history**
- **Minimal ongoing capital expenditure requirements**
- **Accretive to cash flow**
- **Enhances diversity of Atlantic Power’s portfolio**

The Project is an 84-mile, 500-kilovolt transmission line built along an existing transmission corridor in California to help alleviate what had been a chronic transmission congestion point. The Project went into service in December 2004 and increased transmission capacity from Southern to Northern California by approximately 1,500 MW to 5,400 MW, and southward transmission capacity by approximately 1,100 MW. This transmission line facilitates the movement of power from the Pacific Northwest to Southern California in the summer and from generators in Southern California to Northern California in the winter.

The equity purchase price for the Project will be approximately \$85.5 million and will be financed with an acquisition credit facility provided by BMO Capital Markets. Existing debt at the Project’s operating and holding companies will be assumed in the transaction but will be non-recourse to Atlantic Power and Holdings.

The sellers include affiliates of Trans-Elect, Inc which is a GFI Energy Ventures, LLC portfolio company, United States Power Fund, LP managed by Energy Investors Funds Group, ArcLight Energy Partners Fund I, L.P. which is an affiliate of Atlantic Power’s sponsor, and other private investors. The sellers were advised by Morgan Stanley as exclusive financial advisor and

Dickstein Shapiro Morin & Oshinsky LLP as legal counsel. Atlantic was represented by Leonard, Street and Deinard Professional Association as legal counsel.

The Project's revenue stream is regulated by the Federal Energy Regulatory Commission (the "FERC") on a cost-of-service ratebase methodology, which insulates cash flows from any impacts of actual line usage. All prudently incurred operating, maintenance and capex costs are reflected in rates charged. California's Independent System Operator, known as CAL-ISO, collects Transmission Access Charges being paid predominantly by the state's investor-owned utilities and passes them to transmission owners, such as Path 15.

"We are very pleased to be acquiring this important asset," commented Barry Welch, President and CEO. "The Project strengthens our ability to generate stable, sustainable and predictable cash flows over the long term, while also enhancing the diversity of our project portfolio."

The acquisition is subject to approval by the FERC. It is anticipated that an application for approval will be filed in the next two weeks, with a FERC ruling expected in the third quarter of 2006.

Atlantic Power Corporation owns interests in a diversified portfolio of fifteen power generation projects located primarily in major markets in the United States. The Company's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the acquisition of the Project and the anticipated financial and operational performance of the Project. Such statements are subject to certain risks, uncertainties and assumptions which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such forward-looking statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to the ability of the Company to obtain necessary financing to complete the acquisition of the Project, the ability of the Company to satisfy conditions under the purchase agreement and the anticipated financial and operating performance of the Project. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements contained in this news release represent our expectations as of June 29, 2006 and, accordingly, are subject to change after such date. Except as required by applicable law, we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

## PROXY FOR REGISTERED HOLDERS OF COMMON SHARES

This proxy is being solicited by Atlantic Power Management, LLC (the "Manager") the Manager of Atlantic Power Corporation (the "Issuer") from holders of common shares of the Issuer ("Shareholders") for use in connection with the annual and special meeting (the "Meeting") of Shareholders to be held on June 7, 2006 at the Ontario Club, 5<sup>th</sup> Floor, Commerce Court South, 30 Wellington Street West, Toronto, Ontario at 10:00 a.m. (Toronto time). Reference is made to the accompanying management information circular of the Issuer dated May 10, 2006 (the "Circular") for further information.

The undersigned Shareholder of the Issuer hereby appoints IRVING GERSTEIN or, failing him, JOHN McNEIL (or instead of either of them .. ), as proxy of the undersigned to attend and vote at the Meeting and at any adjournment thereof, with full power of substitution and with all the powers which the undersigned could exercise if personally present and with authority to vote at the said proxyholder's discretion unless herein otherwise specified. The said proxyholder is hereby specifically directed to:

1. **VOTE FOR  or WITHHOLD FROM VOTING ON**  the election of Irving Gerstein, Ken Hartwick and John McNeil as members of the Issuer's board of directors;
2. **VOTE FOR  or WITHHOLD FROM VOTING ON**  the re-appointment of KPMG LLP as the auditors of the Issuer and the authorization of the Issuer's board of directors to fix such auditors' remuneration; and
3. **VOTE FOR  or VOTE AGAINST**  the approval of the resolution in the form attached as Schedule "A" to the Circular approving a Long-Term Incentive Plan to be implemented by Atlantic Power Holdings, LLC, as described in the Circular.

DATED this \_\_\_\_\_ day of \_\_\_\_\_, 2006.

\_\_\_\_\_  
Name of Shareholder

\_\_\_\_\_  
Signature of Shareholder

### NOTE:

1. The shares represented by this proxy will be voted or withheld from voting in accordance with the instructions noted hereon on any ballot that may be called for. **In the absence of instructions to the contrary, the shares will be voted "FOR" the above-mentioned items.** The Manager presently knows of no matters to come before the Meeting other than the matters identified in the notice of the Meeting. If any matters that are not known should properly come before the Meeting, the shares will be voted on such matters in accordance with the best judgment of the said proxyholder.
2. To vote this proxy, the Shareholder must sign in the space provided on this form. Please sign exactly as the name appears hereon and in which the shares are registered. If the Shareholder is a corporation, the proxy should be executed by duly authorized officers and its corporate seal must be affixed. **If this proxy is not dated in the space provided, the proxy shall be deemed to bear the date on which it was mailed by the Issuer.**
4. **The Shareholder has the right to appoint a person, other than the persons designated, to attend, vote and act for the Shareholder and on the Shareholder's behalf at the Meeting.** Such right may be exercised by striking out the names of the specified persons and inserting the name of such other person in the space provided.
5. This proxy revokes all prior proxies given by the Shareholder represented by this proxy and may be revoked at any time before it has been exercised.
6. Reference should be made to the Circular, which accompanies the notice of Meeting, for a full explanation of the rights of Shareholders regarding completion and use of this proxy and other information pertaining to the Meeting.

## NOTICE OF ANNUAL AND SPECIAL MEETING OF SHAREHOLDERS

**NOTICE IS HEREBY GIVEN** that an annual and special meeting (the "**Meeting**") of the shareholders of Atlantic Power Corporation (the "**Corporation**") will be held at the Ontario Club, 5<sup>th</sup> Floor, Commerce Court South, 30 Wellington Street West, Toronto, Ontario on Wednesday, the 7<sup>th</sup> day of June, 2006 at the hour of 10:00 a.m. (Toronto time) for the following purposes:

1. **TO RECEIVE** the financial statements of the Corporation for the year ended December 31, 2005, together with the report of the auditors thereon;
2. **TO RE-ELECT** the current three members of the board of directors of the Corporation;
3. **TO RE-APPOINT** auditors and authorize the board of directors of the Corporation to fix the remuneration of the auditors;
4. **TO CONSIDER**, and if thought advisable, to pass a resolution in the form set forth in Schedule A to the accompanying management information circular approving a Long Term Incentive Plan to be implemented by Atlantic Power Holdings, LLC, as described in the management information circular; and
5. **TO TRANSACT** such further or other business as may properly come before the Meeting or any adjournment or adjournments thereof.

The accompanying management information circular provides additional information relating to the matters to be dealt with at the Meeting and forms part of this notice.

**DATED** at Toronto, Ontario this 10<sup>th</sup> day of May, 2006.

Atlantic Power Corporation

# ATLANTIC POWER CORPORATION

## INFORMATION CIRCULAR

This information circular (the "**Information Circular**") is furnished in connection with the solicitation of proxies by or on behalf of Atlantic Power Management, LLC (the "**Manager**"), as manager of Atlantic Power Corporation (the "**Corporation**"), for use at the annual meeting (the "**Meeting**") of shareholders (the "**Shareholders**") of the Corporation to be held on June 7, 2006 at the Ontario Club, 5<sup>th</sup> Floor, Commerce Court South, 30 Wellington Street West, Toronto, Ontario commencing at 10:00 a.m. (Toronto time), and at all postponements or adjournments thereof, for the purposes set forth in the accompanying notice of the annual meeting of Shareholders (the "**Notice of Meeting**").

### PROXY SOLICITATION AND VOTING

#### Solicitation of Proxies

The solicitation of proxies for the Meeting will be made primarily by mail, but proxies may also be solicited personally, in writing or by telephone by employees of the Manager, at nominal cost. The Corporation will bear the cost in respect of the solicitation of proxies for the Meeting and will bear the legal, printing and other costs associated with the preparation of the Information Circular.

The information contained herein is given as at May 10, 2006, except where otherwise noted.

#### Appointment and Revocation of Proxies

Together with the Information Circular, the Shareholders will also be sent a form of proxy (a "**Form of Proxy**"). The persons named in such proxy are directors of the Corporation. **A Shareholder who wishes to appoint some other person to represent him, her or it at the Meeting may do so by crossing out the persons named in the enclosed proxy and inserting such person's name in the blank space provided in the form of proxy or by completing another proper form of proxy. Such other person need not be a Shareholder of the Corporation.**

Computershare Trust Company of Canada (the "**Agent**") holds the common shares ("**Common Shares**") of the Corporation represented by income participating securities ("**IPSs**") in trust for the benefit of holders of IPSs ("**IPS Holders**") and has the right to vote such Common Shares at the Meeting. The Agent is required to submit proxies (as a Shareholder) for voting rights attached to such Common Shares in accordance with the instructions provided by IPS Holders. Upon submission by an IPS Holder (or his, her or its designee) whose name appears on a list of beneficial IPS Holders prepared in connection with the Meeting, of identification satisfactory to the Agent's representative, an IPS Holder may require the Agent to sign and deliver to such holder (or his, her or its designee) a proxy to exercise personally the voting rights attaching to Common Shares underlying such IPS Holder's IPSs, if such holder either (i) has not previously given the Agent voting instructions in respect of the Meeting or (ii) submits to such representative written revocation of any such previous instructions. At the Meeting, the IPS Holder (or his, her or its designee) exercising voting rights under a proxy granted by the Agent, has the right to speak at the Meeting in respect of any matter, question, proposal or proposition, to vote by way of ballot at the Meeting in respect of any matter, question, proposal or proposition, and to vote at the Meeting by way of a show of hands in respect of any matter, question or proposition. Together with the Information Circular, IPS Holders will also be sent an instruction form addressed to the Agent which may be completed and returned to the Agent setting out the IPS Holder's voting instructions.

To be valid, proxies or instructions to the Agent must be deposited at the offices of the Agent, 9<sup>th</sup> Floor, North Tower, 100 University Avenue, Toronto, Ontario, M5J 2Y1, so as not to arrive later than 5:00 p.m. (Toronto time) on June 6, 2006, or be deposited with the chair of the Meeting (the "**Chair of the Meeting**") prior to the commencement of the Meeting. If the Meeting is adjourned, proxies or instructions to the Agent must be deposited 48 hours (excluding Saturdays, Sundays and holidays), before the time set for any reconvened meeting at which the proxy or instructions are to be used, or be deposited with the Chair of the Meeting prior to the commencement of the Meeting or any reconvened meeting.

The document appointing a proxy must be in writing and completed and signed by a Shareholder or his or her attorney authorized in writing or, if the Shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Instructions provided to the Agent by an IPS Holder must be in writing and completed and signed by the IPS Holder or his or her attorney authorized in writing or, if the IPS Holder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Persons signing as officers, attorneys, executors, administrators, and trustees or similarly otherwise, should so indicate and provide satisfactory evidence of such authority.

A Shareholder that has given a proxy may revoke the proxy: (a) by completing and signing a proxy bearing a later date and depositing it as aforesaid; (b) by depositing an instrument in writing executed by the Shareholder or by his or her attorney authorized in writing: (i) at the registered office of the Corporation at any time up to and including the last business day preceding the day of the applicable Meeting, or any adjournment thereof, at which the proxy is to be used, or (ii) with the Chair of the Meeting prior to the commencement of such Meeting on the day of such Meeting or any adjournment thereof; or (c) in any other manner permitted by law. An IPS Holder that has given instructions to the Agent with respect to the voting of the Common Shares underlying its IPSs may revoke the instructions: (a) by completing and signing instructions bearing a later date and depositing it as aforesaid; (b) by depositing an instrument in writing executed by the IPS Holder or by his or her attorney authorized in writing: (i) at the registered office of the Agent at any time up to and including the last business day preceding the day of the applicable Meeting, or any adjournment thereof, at which the instructions are to be relied on, or (ii) with the Chair of the Meeting prior to the commencement of such Meeting on the day of such Meeting or any adjournment thereof; or (c) in any other manner permitted by law.

#### **Voting of Proxies**

The persons named in the accompanying Form of Proxy will vote Common Shares in respect of which they are appointed, on any ballot that may be called for, in accordance with the instructions of the Shareholder as indicated on the proxy. The Agent will vote Common Shares underlying IPSs in respect of which they are instructed, on any ballot that may be called for, in accordance with the instructions of the IPS Holder. **In the absence of such specification, such Common Shares will be voted at the Meeting as follows:**

- **FOR the election of the three nominees to the board of directors, those nominees being the current three directors, and**
- **FOR the re-appointment of KPMG LLP as auditors of the Corporation and to authorize the board of directors to fix the auditor's remuneration.**
- **FOR the approval of a resolution in the form set forth in Schedule A hereto approving a Long Term Incentive Plan ("LTIP") to be implemented by Atlantic Power Holdings, LLC, as described herein.**

For more information on these issues, please see the section entitled "MATTERS TO BE CONSIDERED AT THE MEETING" beginning on page C-4 of this Information Circular.

The persons appointed under the Form of Proxy are conferred with discretionary authority with respect to amendments to or variations of matters identified in the Form of Proxy and the Notice of Meeting and with respect to other matters, which may properly come before the Meeting. In the event that amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting, it is the intention of the persons designated in the enclosed Form of Proxy to vote in accordance with their best judgment on such matter or business. At the time of printing the Information Circular, the directors of the Corporation (referred to as either the "Directors", the "Board" or the "Board of Directors") know of no such amendments, variations or other matters.

#### **INFORMATION FOR BENEFICIAL HOLDERS OF SECURITIES**

**Information set forth in this section is very important to persons who hold Common Shares or IPSs otherwise than in their own names.** A non-registered securityholder of the Corporation (a "Beneficial Holder") who beneficially owns Common Shares or IPSs, but such Common Shares or IPSs are registered in the name of an intermediary (such as a securities broker, financial institution, trustee, custodian or other nominee who holds securities on behalf of the Beneficial Holder or in the name of a clearing agency in which the intermediary is a

participant) should note that only proxies or instructions deposited by securityholders whose names are on the records of the Corporation as the registered holders of Common Shares or IPSs can be recognized and acted upon at the Meeting.

Common Shares or IPSs that are listed in an account statement provided to a Beneficial Holder by a broker are likely not registered in the Beneficial Holder's own name on the records of the Corporation and such Common Shares or IPSs are more likely registered in the name of the Beneficial Holder's broker or an agent of the Beneficial Holder's broker.

Applicable regulatory policy in Canada requires brokers and other intermediaries to seek voting instructions from Beneficial Holders in advance of securityholders' meetings. Every broker or other intermediary has its own mailing procedures and provides its own return instructions, which should be carefully followed by Beneficial Holders in order to ensure that their Common Shares are voted at the Meeting. Often, the form of proxy supplied to a Beneficial Holder by its broker is identical to that provided to registered securityholders. However, its purpose is limited to instructing the registered securityholder how to vote on behalf of the Beneficial Holder. Most brokers now delegate responsibility for obtaining instructions from clients to ADP Investor Communications ("ADP"). ADP typically prepares a machine-readable voting instruction form, mails those forms to the Beneficial Holders and asks Beneficial Holders to return the proxy forms to ADP. ADP then tabulates the results of all instructions received and provides appropriate instructions representing the voting of the securities to be represented at the Meeting. A Beneficial Holder receiving an ADP voting instruction form cannot use that voting instruction form to vote Common Shares directly at the Meeting. The voting instruction form must be returned to ADP well in advance of the Meeting in order to have the Common Shares voted.

Although Beneficial Holders may not be recognized directly at the Meeting for the purposes of voting Common Shares registered in the name of their broker or other intermediary, a Beneficial Holder may attend at the Meeting as proxyholder for the registered holder and vote their Common Shares in that capacity. Beneficial Holders who wish to attend the Meeting and indirectly vote their own Common Shares as proxyholder for the registered holder should enter their own names in the blank space on the Form of Proxy or voting instruction form provided to them and return the same to their broker or other intermediary (or the agent of such broker or other intermediary) in accordance with the instructions provided by such broker, intermediary or agent well in advance of the Meeting.

#### VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

The Corporation is authorized to issue an unlimited number of Common Shares. As of the date of this Information Circular, there were 44,339,500 Common Shares and IPSs outstanding on a basic and fully diluted basis. All of the outstanding Common Shares are registered in the name of the Agent and are held by the Agent in trust for the IPS Holders.

At the Meeting, each Shareholder of record at the close of business on May 10, 2006, the record date established for the Notice of Meeting (the "**Record Date**"), will be entitled to one vote for each Common Share held on all matters proposed to come before the Meeting, except to the extent such Shareholder has transferred any such Common Shares after the record date and the transferee of such Common Shares establishes ownership thereof and makes a written demand to the Corporate Secretary of the Manager, not later than 10 days before the date of the Meeting, to be included in the list of Shareholders entitled to vote at the Meeting, in which case the transferee will be entitled to vote such Common Shares.

To the knowledge of the Directors, the following persons beneficially own or exercise control or direction over Common Shares carrying approximately 10% or more of the votes attached to the issued and outstanding Common Shares:

Name	Number of Common Shares beneficially owned or over which control or direction is exercised	Percentage of Total Common Shares
CAISSE DE DÉPÔT ET PLACEMENT DU QUÉBEC	7,500,000	16.92%

(1) Based on publicly available filings.

## MATTERS TO BE CONSIDERED AT THE MEETING

### Election of Directors

The number of directors to be elected at the Meeting has been fixed at three. The persons named in the enclosed Form of Proxy, if not expressly directed to the contrary in such Form of Proxy, intend to vote for the election, as directors, of the proposed nominees whose names are set out below. It is not contemplated that any of the proposed nominees will be unable to serve as a director but, if that should occur for any reason prior to the Meeting, the persons named in the enclosed Form of Proxy reserve the right to vote for another nominee at their discretion. Each nominee elected as a director will hold office until the next annual meeting of the Shareholders or until his successor is elected or appointed. Each Director will also serve on the board of managers of the Corporation's subsidiary, Atlantic Power Holdings, LLC ("Atlantic Holdings").

The following table sets forth the names of, and certain information for, the individuals proposed to be nominated for election as directors. Biographies for each nominee, which include a summary of each nominee's principal occupation and employment within the five preceding years, are set out at pages 63 and 64 of the Corporation's annual information form dated March 30, 2006 (the "AIF") and such information is incorporated by reference herein. The AIF can be found under the Corporation's profile at [www.sedar.com](http://www.sedar.com). Upon request, the Manager will promptly provide a copy of the AIF free of charge to a securityholder of the Corporation.

Name & Province of Residence	Principal Occupation	Date Appointed as a Director	Ownership or Control over IPSs <sup>(2)</sup>
IRVING GERSTEIN <sup>(1)(3)</sup> Ontario, Canada	Corporate Director	October 4, 2004	2,000
KEN HARTWICK <sup>(1)(4)</sup> Ontario, Canada	President of Ontario Energy Savings Corp.	October 4, 2004	2,000
JOHN MCNEIL <sup>(1)</sup> Ontario, Canada	President, Barker, Dunn & Rossi (Canada) Inc.	October 4, 2004	2,000

- (1) Each director is also a member of the audit committee of the Corporation. Further information regarding the audit committee of the Corporation and auditors' fees can be found at pages 70 and 71 of the AIF.
- (2) The information as to IPSs beneficially owned, directly or indirectly, including by associates or affiliates, not being within the knowledge of the Corporation, has been furnished by the respective nominees individually.
- (3) Chair of the Board.
- (4) Chair of the Audit Committee.

### Appointment of Auditors

The audit committee of the Corporation (the "Audit Committee") recommends to the Shareholders that KPMG LLP, Chartered Accountants, be re-appointed as the independent auditor of the Corporation, to hold office until the next annual meeting of the Shareholders or until their successor is appointed, and that the Directors be authorized to fix the remuneration of the auditors.

KPMG LLP has been the auditor of the Corporation since its inception. **The persons named in the enclosed Form of Proxy, if not expressly directed to the contrary in such Form of Proxy, will vote such proxies in favour of a resolution to re-appoint KPMG LLP as auditors of the Corporation and authorize the Directors to fix their remuneration.**

### Financial Statements

The annual report, the financial statements of the Corporation for the year ended December 31, 2005 and the auditors' report thereon accompanying this Information Circular will be placed before the Shareholders at the Meeting. No formal action will be taken at the Meeting to approve the financial statements. If any Shareholder has questions regarding such financial statements, such questions may be brought forward at the Meeting.

## Special Business – Approval of Long Term Incentive Plan

### Long Term Incentive Plan

During the year ended December 31, 2005, a compensation consultant was retained to assist the Board in reviewing compensation for the executive officers of the Manager. The consultant is Mercer Human Resource Consulting. The mandate for the consultant was to: (i) perform a benchmarking review and assessment of the compensation of the employees of the Manager as it compares to that of similar positions within relevant industry segments; (ii) assess the appropriateness and desirability of implementing an LTIP to further align the interests of employees of the Manager with those of the Corporation and IPS Holders, and to adequately assist with attracting and retaining qualified employees in the relevant U.S. executive labour pool; and (iii) if the LTIP is deemed appropriate, to make recommendations for its design, as well as any other recommendations regarding other elements of the LTIP. Based on the recommendations of the consultant, the Board approved the LTIP to be implemented by Atlantic Holdings.

The officers and other employees of the Manager (“**Eligible Persons**”) will be eligible to participate in the LTIP as determined by the members of the board of managers of Atlantic Holdings that are not members of the management of the Manager (the “**Independent Managers**”). The purpose of the LTIP is to align the interests of Eligible Persons with those of IPS Holders and to assist in attracting, retaining and motivating key employees of the Manager by making a significant portion of the incentive compensation of key employees directly dependent upon the achievement of key strategic, financial and operational objectives that are critical to ongoing growth and profitability and that result in the Corporation exceeding its per IPS distribution targets.

Prior to the commencement of each performance period (being, generally, a period of one calendar year commencing on January 1 of each year, a “**Performance Period**”), the Independent Managers shall establish percentages (“**LTIP Award Percentages**”) that will determine the amount that an Eligible Person is entitled to receive under the LTIP if certain levels of target project cash flow (“**Target Project Cash Flow**”) established by the Independent Managers for the Performance Period are achieved during the applicable Performance Period. If certain levels of Target Project Cash Flow are achieved, the Eligible Person will be eligible to receive a number of notional units (including fractional units) to be calculated by dividing an incentive amount (based on the LTIP Award Percentages and the Eligible Person’s base salary) by the “market price per IPS”. The market price per IPS is defined in the LTIP as the weighted average closing price of IPSs on the Toronto Stock Exchange for the five days immediately preceding the applicable day. Any notional units granted to a participant in respect of a Performance Period will be credited to an account maintained by Atlantic Holdings for each participant (“**Notional Unit Account**”) on the determination date for such Performance Period.

For grants under the LTIP, one-third of the notional units in a participant’s Notional Unit Account for a Performance Period will vest on the thirteenth month following the determination date for such Performance Period, 50% of the notional units remaining in a participant’s Notional Unit Account for a Performance Period will vest on the second anniversary date of the determination date for such Performance Period, and all remaining notional units in a Participant’s Notional Unit Account for a Performance Period will vest on the third anniversary of the determination date for such Performance Period. Each notional unit will be entitled to receive distributions equal to the distributions on an IPS to be credited in the form of additional notional units immediately following any distribution on the IPSs. Participants may elect to defer the redemption of notional units for additional one-year periods to a maximum of three years from each vesting date provided that the participant provides written notice of such election in accordance with applicable U.S. law.

On the applicable vesting date for notional units held in a participant’s Notional Unit Account, Atlantic Holdings will redeem such notional units as follows: (i) one-third by lump sum cash payment (net of any applicable withholdings), and (ii) the remaining two-thirds by an exchange for IPSs. Notwithstanding the foregoing, a participant that may elect to redeem such notional units for 100% IPSs upon prior written notice of such election.

If the net cash flows (as determined by the Independent Managers) achieved in a Performance Period are less than 80% of the Target Project Cash Flow established by the Independent Managers for that Performance Period, all notional units having a vesting date in the next Performance Period will be cancelled, will no longer be redeemable for IPSs and the participant will forfeit all rights, title and interest with respect to such notional units.

The aggregate number of IPSs which may be issued from treasury under the LTIP is limited to 1,000,000, subject to increase or decrease by reason of amalgamation, rights offerings, reclassifications, consolidations or subdivisions, or as may otherwise be permitted by applicable law and the Toronto Stock Exchange.

The LTIP provides that the aggregate number of IPSs reserved for issuance from treasury under the LTIP and any other IPS compensation arrangement of the Corporation or its subsidiaries or the Manager ("IPS Compensation Arrangement") shall not exceed 10% of the IPSs then issued and outstanding on the date of grant. The number of IPSs that may be issuable at any time, pursuant to the LTIP and any other IPS Compensation Arrangement to insiders (as such term is defined in the *Securities Act* (Ontario)), together with such insider's associates (collectively, "Insider Participants") shall not exceed 10% of IPSs then issued and outstanding. Additionally, the number of IPSs that may be issued, within a one-year period, pursuant to the LTIP and any other IPS Compensation Arrangement to Insider Participants shall not exceed 10% of IPSs then issued and outstanding.

The Independent Managers may terminate, modify or amend the LTIP, without securityholder approval, at any time in such manner and to such extent as they deem advisable, subject to applicable corporate, securities and tax law requirements and the requirements of the Toronto Stock Exchange, provided that any such action may not adversely affect any rights already acquired under the LTIP to such date. The amendments that may be made by the Independent Managers to the LTIP include, without limitation, the vesting and redemption dates for notional units and the persons who may qualify as Eligible Persons under the LTIP provided that any change to the Eligible Persons does not have the potential of broadening or increasing insider participation. A participant may not assign or transfer any right or interest in the LTIP. All unvested notional units are forfeited by a participant on the date he or she ceases to be employed by the Manager or Atlantic Holdings, except in the case of death, disability, retirement or change of control (in certain circumstances, as described below). If the employment of a participant is terminated by death, retirement or upon a change of control (in the case of a change of control, where termination is by the participant for good reason or by the Manager or Atlantic Holdings without cause) prior to the applicable vesting date, all notional units credited to the participant's Notional Unit Account will vest or be deemed to have vested effective the date immediately prior to the date of such termination of the participant's employment. If the employment of a participant is terminated due to the disability of the participant prior to the applicable vesting date, all notional units credited to the participant's Notional Unit Account will vest on the vesting date as if the participant continued to be actively employed until the applicable vesting date.

**The Board recommends that shareholders vote FOR the approval of the resolution in the form set forth in Schedule A to this Information Circular.** In order to be effective, the resolutions set forth at Schedule A must be passed by a majority of the votes passed at the Meeting (whether presented in person or by proxy).

#### MANAGEMENT AND ADMINISTRATION OF ATLANTIC HOLDINGS AND THE CORPORATION

The Manager is a Delaware limited liability company formed by ArcLight Capital Partners, LLC ("ArcLight") and ArcLight Energy Partners Fund I, L.P. ("Fund I") and ArcLight Energy Partners Fund II, L.P. ("Fund II"). The Manager's principal place of business is located at 200 Clarendon Street, 55<sup>th</sup> Floor, Boston, Massachusetts, 02117. The names, municipalities of residence, positions with the Manager and principal occupations of the officers of the Manager are set out below. In addition to the officers listed below, the Manager contracts with ArcLight to obtain certain back-office and support services and for the secondment of ArcLight employees from time to time as appropriate to assist the Manager in fulfilling its responsibilities under the Management Agreement (as defined below). The Manager is owned by Atlantic Power Management Holdings, LLC ("APM"), an entity managed by ArcLight and owned by Fund I and Fund II. APM's officers are Dan Revers (President), Carter Ward (Vice-President) and John Tisdale (Secretary). Each of the officers is a resident of the State of Massachusetts, U.S.A.

Name and State of Residence	Position(s) with the Manager	Principal Occupation
BARRY WELCH ..... Massachusetts, U.S.A.	President and Chief Executive Officer	President and Chief Executive Officer of the Manager
MARK BYSKOV <sup>(1)</sup> ..... Massachusetts, U.S.A.	Chief Financial Officer and Corporate Secretary	Chief Financial Officer and Corporate Secretary of the Manager
STEVEN CHWIEKO..... Massachusetts, U.S.A.	Managing Director, Asset Management & Acquisitions	Managing Director, Asset Management & Acquisitions of the Manager

<sup>(1)</sup> Mark Byskov has informed the Corporation that for personal reasons he will be resigning. A new Chief Financial Officer, Patrick Welch (unrelated to Barry Welch) will commence his duties on May 31, 2006. Mr. Byskov has committed to remain in his position through June 30, 2006 to help affect an orderly transition.

The Manager provides management and administrative services to the Corporation and Atlantic Holdings pursuant to the terms of a management agreement entered into between the Manager, Atlantic Holdings and the Corporation in connection with the closing of the Corporation's initial public offering (the "Management Agreement"). The Management Agreement has an initial 20-year term (to November 10, 2024) and will be automatically renewed for additional five-year terms unless, at least six months prior to the expiration of the then-current term, a majority of the managers of Atlantic Holdings and the Directors independent of the owners of the retained interest in Atlantic Holdings (the "Existing Investors") and the Manager determine that the Management Agreement will not be renewed and notify the Manager accordingly.

Under the terms of the Management Agreement, the Manager provides the following services to Atlantic Holdings: (i) representing Atlantic Holdings' interests in Teton Power Funding, LLC, Epsilon Power Funding, LLC and Umatilla Power Funding, LLC (together, the "Project Holding Entities") and their subsidiaries and overseeing the operation of the projects in which the Corporation holds an interest (the "Projects"); (ii) assisting in the development, implementation and monitoring of strategic plans; (iii) assisting in developing an annual budget and an annual distributable cash forecast; (iv) assisting with treasury, legal and compliance, financing and risk assessment activities; (v) reviewing the budgets and schedules for major maintenance proposed for the Projects; (vi) assisting in the preparation of financial reports in respect of the Projects and any future projects; (vii) assisting in the negotiation of material agreements; (viii) monitoring compliance with the annual budget and distributable cash forecast; (ix) assisting in and supervising the analysis of potential acquisitions, investments and dispositions; (x) carrying out or supervising the making of acquisitions, dispositions or investments; (xi) retaining accountants, lawyers, consultants, investment bankers and other such professional advisers; and (xii) assisting in the preparation, planning and coordination of meetings of the board of managers of Atlantic Holdings and holders of membership interests in Atlantic Holdings.

Under the Management Agreement, the Manager, if requested by the Corporation, will also provide certain administrative services to the Corporation including: (i) assisting the Corporation in complying with its continuous disclosure obligations under applicable securities legislation; (ii) providing or causing to be provided to holders of securities of the Corporation, all information to which they are entitled under the constating documents of the Corporation and the subordinated note indenture dated November 18, 2004 among the Corporation, certain guarantors and Computershare Trust Company of Canada (the "Indenture") and applicable laws; (iii) monitoring compliance of the Corporation with applicable tax laws; (iv) advising on and negotiating any financings by the Corporation; (v) providing for the calculation and distribution of interest payments and other distributions to holders of securities of the Corporation; and (vi) assisting in the preparation, planning and coordination of meetings of the Board of Directors and holders of Common Shares of the Corporation.

Pursuant to the Management Agreement, a number of material actions may not be authorized by the Manager without first obtaining the approval of the managers of Atlantic Holdings or the Board of Directors, as applicable, including: (i) adopting, amending or materially deviating from annual business plans; (ii) taking any action by or on behalf of a Project Holding Entity, any subsidiary of a Project Holding Entity or any limited partnership, corporation or other entity that directly owns the Projects that may have a material impact on the annual distributable cash forecast; (iii) disposing of any material assets; and (iv) raising capital by way of an issuance of securities of Atlantic Holdings or the Corporation. Without the approval of a majority of the managers of Atlantic Holdings who are independent of the Manager and its affiliates, the Manager, on behalf of Atlantic Holdings or the Corporation or a subsidiary or affiliate of Atlantic Holdings or the Corporation, may not (i) enter into any material transaction with the Manager or an affiliate of the Manager; or (ii) amend any existing material terms of the Management Agreement or fees payable thereunder.

In consideration for providing the management and administrative services under the Management Agreement, the Manager receives: (i) an annual management fee; (ii) payments representing cost reimbursement; and (iii) an incentive fee. The annual management fee for 2006 will be US\$330,000 (a portion of which is paid by the Corporation), subject to adjustment for any future acquisitions or investments on the basis that the annual fee will increase by an amount agreed between the Manager and Atlantic Holdings, as approved by the managers of Atlantic Holdings who are independent of the Existing Investors and the Manager, taking into consideration the increased service levels required and the resource requirements imposed as a result of or created by such acquisition or investment. The annual fee is subject to adjustment for inflation and is payable monthly in advance. The Manager is entitled to be reimbursed for all out-of-pocket costs and expenses reasonably incurred by the Manager or its affiliates in carrying out the management and administrative services including reasonable allocations for charges incurred by the Manager for services provided by ArcLight pursuant to the Management Support Agreement (as defined below) and for any other services provided by affiliates of the Manager (which charges will be reimbursed on a cost recovery basis). The allocations for such charges are subject to the approval by the managers of Atlantic Holdings who are independent of the Existing Investors and the Manager, by way of either annual budget approval or specific authorization. For the year ended December 31, 2005, Atlantic Holdings and the Corporation paid to the Manager a total of approximately US\$2,852,000 which included the annual management fee, cost reimbursement for expenses incurred by the Manager and its other reasonable out-of-pocket costs and expenses incurred in connection with its duties under the Management Agreement (including amounts paid to ArcLight for services provided to the Manager by employees of ArcLight).

The Manager is also entitled to an annual incentive fee equal to 25% of the product obtained by multiplying (i) the excess of the actual cash distributions per IPS (or, following the redemption, repurchase or maturity of all of the 11% subordinated notes of the Corporation issued in accordance with the Indenture or separation of all of the IPSs, per Common Share) in each calendar year over C\$1.00 per IPS (or C\$0.3657 per Common Share, as applicable), by (ii) the weighted average number of IPSs, Common Shares not represented by IPSs and membership interests held by the Existing Investors outstanding for the relevant calendar year or part thereof, subject to customary anti-dilution provisions. For the fiscal period ended December 31, 2005, an incentive fee of \$136,000 was paid to the Manager.

Atlantic Holdings and the Corporation have the right to terminate the Management Agreement in circumstances of: (i) bankruptcy, insolvency or receivership of the Manager; (ii) fraud, wilful default or gross negligence committed by the Manager; or (iii) default by the Manager in the performance of a material obligation under the Management Agreement, if (1) such default is not caused by a *force majeure* event, and (2) such default is not cured within 60 days of written notice being given by Atlantic Holdings to the Manager of the default or if such default is not reasonably capable of being cured within 60 days, the Manager has not taken all reasonable steps to cure such default as soon as possible thereafter but in any event within 120 days. The Manager will have the right to terminate the Management Agreement earlier (i) in the event of (1) the bankruptcy, insolvency or receivership of Atlantic Holdings or the Corporation, or (2) a default by Atlantic Holdings or the Corporation in the performance of a material obligation under the Management Agreement (other than as a result of the occurrence of a *force majeure* event) which is not remedied within 60 days after notice thereof has been delivered, or if such default is not reasonably capable of being cured within 60 days, or Atlantic Holdings or the Corporation has not taken all reasonable steps to cure such default as soon as possible thereafter but in any event within 120 days; or (ii) upon 90 days' prior written notice to Atlantic Holdings or the Corporation.

Atlantic Holdings or the Corporation may terminate the Management Agreement upon 90 days' prior written notice if: (i) while APM owns the Manager, ArcLight should cease to be the manager of the members of APM; or (ii) APM sells the Manager and ArcLight ceases to have a significant influence over the operation of the Manager, without, in either case, the prior written consent of the managers of Atlantic Holdings and the Directors who are independent of the Existing Investors and the Manager, which consents shall not be unreasonably withheld.

The Manager may delegate certain aspects of its responsibilities under the Management Agreement, but no such delegation will relieve the Manager of its obligations thereunder. The Manager may, with the approval of the Directors and the managers of Atlantic Holdings who are independent of the Existing Investors and the Manager, contract with affiliates to provide services to the Corporation and Atlantic Holdings not otherwise provided for in the Management Agreement, such as advisory and investment banking services.

The Manager and any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager shall be indemnified and saved harmless by Atlantic Holdings and the Corporation from and against all losses, claims, damages, liabilities, obligations, costs and expenses (including

judgments, fines, penalties, amounts paid in settlement and counsel and accountants' fees) of whatsoever kind or nature incurred by, borne by or asserted against the Manager and any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager, in any way arising from or related in any manner to the Management Agreement, unless such claims arise from the fraud, willful default or gross negligence of the Manager or any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager. The Manager and its affiliates and associates may rely on information provided by Atlantic Holdings, the Corporation or any employee or agent thereof unless it has actual notice that such information is inaccurate.

On the closing of the Corporation's initial public offering, the Manager and ArcLight entered into a management support agreement (the "**Management Support Agreement**") which provides that certain ArcLight employees will be available to provide administrative and office support services to the Manager and that ArcLight employees may be seconded to the Manager from time to time as appropriate to enable the Manager to fulfill its responsibilities under the Management Agreement. Services and resources provided by ArcLight under the Management Support Agreement will be provided to the Manager on a cost recovery basis. The Management Support Agreement requires ArcLight and its affiliates to give the Manager the opportunity to pursue, on behalf of the Corporation and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for Fund I, Fund II or other investment funds managed by ArcLight or its affiliates or that do fit within such investment guidelines but which such investment funds determine not to pursue.

### EXECUTIVE COMPENSATION

Under applicable securities legislation, the Corporation is required to disclose certain financial and other information relating to the compensation of its Chief Executive Officer, Chief Financial Officer and the Corporation's three most highly compensated executive officers (other than the Chief Executive Officer and Chief Financial Officer). The Corporation, however, does not have executive officers; rather the executive officers of the Manager are responsible for the management of the business of the Corporation. The following table sets forth a summary of salary and other annual compensation earned by the individuals who were, during the year ended December 31, 2005, the Chief Executive Officer, Chief Financial Officer and the three most highly compensated executive officers of the Manager (the "**Named Executive Officers**") during the periods ended December 31, 2005 and December 31, 2004.

Name and Principal Position	Fiscal Year Ended December 31,	Annual Compensation	
		Salary (US\$)	Bonus (US\$)
BARRY WELCH President and Chief Executive Officer, Atlantic Power Management, LLC	2005	500,000	300,000
	2004 <sup>(1)</sup>	142,308	-
MARK BYSKOV Chief Financial Officer and Corporate Secretary, Atlantic Power Management, LLC	2005	224,167	130,000
	2004 <sup>(2)</sup>	12,552	20,000
STEVEN CHWIECKO Managing Director, Asset Management & Acquisitions, Atlantic Power Management, LLC	2005 <sup>(3)</sup>	126,878	115,000

(1) Mr. Welch commenced his duties as President and CEO on September 20, 2004.

(2) Mr. Byskov commenced his duties as CFO on December 13, 2004.

(3) Mr. Chwiecko commenced his duties as Managing Director, Management & Acquisitions on May 19, 2005.

## IPS PERFORMANCE GRAPH

The following graph compares the total cumulative return to IPS Holders for \$100 invested in IPSs (assuming the reinvestment of distributions) with the total cumulative return of the S&P/TSX Composite Index for the period from the closing of the Corporation's initial public offering on November 18, 2004, when the IPSs were listed for trading on the Toronto Stock Exchange, to December 31, 2005.

## COMPENSATION OF DIRECTORS

Each Director is entitled to receive an annual retainer of US\$20,000 and US\$1,500 per meeting attended in person or US\$500 per meeting attended by phone. The Chairman of the Board and Audit Committee receive an additional \$10,000 per year. Directors are reimbursed for out-of-pocket expenses for attending meetings. The Directors also participate in the insurance and indemnification arrangements described below.

### DIRECTORS' AND OFFICERS' INSURANCE AND INDEMNIFICATION

The Corporation has obtained a directors' and officers' policy of insurance for directors and officers of the Corporation and the managers of Atlantic Holdings that provides an aggregate limit of liability to the insured directors, officers and managers of US\$30 million.

The by-laws of the Corporation and the operating agreement for Atlantic Holdings also provide for the indemnification of their respective Directors, managers and officers (if any) from and against liability and costs in respect of any action or suit against them in connection with the execution of their duties of office, subject to certain limitations.

## INDEBTEDNESS OF DIRECTORS AND OFFICERS

For the year ended December 31, 2005, there was no indebtedness of any current or former officers or directors of the Corporation, or the Manager or any of their subsidiaries entered into in connection with a purchase of securities of the Corporation or its subsidiaries or for any other purpose.

## INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

To the knowledge of the Directors, other than the acquisition by Holdings of Epsilon Power Partners, LLC, which owns a 40% interest in Chambers Cogeneration LP, from Fund I as disclosed in the sections entitled "Acquisitions & Dispositions" and "Related Party Transactions" beginning on pages nine and 13, respectively, of the Corporation's management's discussion and analysis ("MD&A") for the year ended December 31, 2005, which sections are incorporated by reference in this Information Circular, no insider, Director or proposed nominee for election as a Director, or any associate or affiliate of any such persons, had any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any material transaction with the Corporation since the commencement of the Corporation's last financial period. A copy of the MD&A may be found on SEDAR at [www.sedar.com](http://www.sedar.com).

## CORPORATE GOVERNANCE DISCLOSURE

While the business and affairs of the Corporation are managed by the Board of Directors, the Corporation has delegated responsibility for managerial and executive oversight and certain administrative services to Atlantic Holdings. Atlantic Holdings and the Corporation have entered into the Management Agreement with the Manager to fulfill these responsibilities. For further discussion, please see "Management and Administration of Atlantic Holdings and the Corporation".

All members of the Board also serve on the board of directors of the Manager (the "Manager Board"). The Board maintains an audit committee.

National Policy 58-201 *Corporate Governance Guidelines* and National Instrument 58-101 *Disclosure of Corporate Governance Practices* set out requirements and best practice standards for effective corporate governance. These rules require all reporting issuers in Canada to disclose their corporate governance practices.

The following describes the Corporation's governance practices with reference to the disclosure requirements set out in the new rules. The corporate governance guidelines replace the previous guidelines of the Toronto Stock Exchange Committee on Corporate Governance in Canada. We are pleased to make the following disclosure regarding our governance practices:

### Board of Directors

- (a) The independent members of the Board, representing all members of the Board, are Irving Gerstein, Ken Hartwick and John McNeil.
- (b) One of the Directors also serves as director on the boards of other reporting issuers (or the equivalent). Mr. Gerstein serves as a director on the boards of Medical Facilities Corporation, Student Transportation of America Ltd. and Economic Investment Trust Limited.
- (c) The Board and the Audit Committee, each of the members of which are independent, meet regularly without management present. In the year ended December 31, 2005, the Board and the Audit Committee held five of such meetings. The Audit Committee meets quarterly with the external auditors without management present to discuss matters affecting the conduct of their audit and other corporate matters.
- (d) The Chair of the Board, Mr. Gerstein, is an independent director. Mr. Gerstein's responsibilities include establishing, in consultation with the CEO, the Directors and appropriate members of management, the agendas for each meeting of the Board. The agenda for each committee meeting

will be established by the Chair of that committee in consultation with appropriate members of the committee and management.

- (e) The following table sets forth the number of Board and committee meetings held and attendance by Directors for the year ended December 31, 2005:

**Attendance of Directors**

<i>Director</i>	<i>Board of Directors and Audit Committee Meetings of the Corporation Attended (in person or by telephone)</i>
Irving Gerstein	19 of 19
Ken Hartwick	19 of 19
John McNeil	19 of 19

It is expected that the Board will meet at least four times each year: three meetings to review quarterly results, and prior to the issuance of the annual audited financial results of the Corporation (and more frequently, if required). The Audit Committee will meet as required by its charter.

**Board Mandate**

The mandate of the Board of Directors is included as Schedule B to the Information Circular.

**Position Descriptions**

Position descriptions for the Chair of the Board, the Chair of the Audit Committee and the Chief Executive Officer of the Manager are as follows:

**I. Responsibilities of the Board of Directors Chair:**

- (a) the Chair shall be expected to attend and chair meetings of the Board of Directors and securityholders of the Corporation;
- (b) the Chair shall be an independent director;
- (c) the Chair shall not be expected to and shall not perform policy-making functions other than in his or her capacity as a Director. The Chair shall not have the right or entitlement to bind the Corporation in his or her capacity as Chair;
- (d) the Chair shall provide direction with respect to the dates and frequencies of Board meetings and related committee meetings and the Chair shall liaise with the Chief Executive Officer of the Manager to prepare Board meeting agendas;
- (e) the Chair shall ensure that the Board understands the boundaries between the Board and management responsibilities; and
- (f) the Chair shall ensure that the Board of Directors carries out its responsibilities effectively, which will involve the Board meeting on a regular basis without management present and may involve assigning responsibility for administering the Board's relationship with management to a committee of the Board.

## II. Responsibilities of the Audit Committee Chair:

- (a) the Chair will provide leadership to the Audit Committee in discharging its mandate as set out in the written charter of the Audit Committee (the “Charter”), including by:
  - (i) promoting a thorough understanding by members of the Audit Committee, management and the Corporation’s external auditor of:
    - (A) the duties and responsibilities of the Audit Committee; and
    - (B) the relationship between the Audit Committee and each of the Corporation’s:
      - 1. management, and
      - 2. external auditor; and
  - (ii) promoting cohesiveness among members of the Audit Committee.
- (b) the Chair shall be the liaison between the Audit Committee and the Corporation’s management and external auditor, promoting open and constructive discussions between members of the Audit Committee and each of these parties.
- (c) the Chair shall promote the proper flow of information to the Audit Committee to keep the Audit Committee fully apprised of all matters which are material to the Corporation at all times.
- (d) in connection with meetings of the Audit Committee, the Chair shall be responsible for:
  - (i) scheduling meetings of the Audit Committee;
  - (ii) organizing and presenting the agenda for Audit Committee meetings such that:
    - (A) all of the responsibilities assigned to the Audit Committee under the terms of the Charter are discharged on a timely and diligent basis, and
    - (B) members of the Audit Committee have input into the agendas;
  - (iii) monitoring the adequacy of materials provided to the Audit Committee by management in connection with the Audit Committee’s deliberations;
  - (iv) ensuring that members of the Audit Committee have sufficient time to review the materials provided to them and to fully discuss the business that comes before the Audit Committee;
  - (v) presiding over meetings of the Audit Committee; and
  - (vi) presiding over *in camera* meetings of the Audit Committee.
- (e) the Chair shall report to the Board of Directors on the activities of the Audit Committee as contemplated in the Charter.
- (f) on an annual basis, the Chair shall lead the Audit Committee in the process established by the Board for reviewing the performance of the Audit Committee.

- (g) under the direction of the Chair, the Audit Committee shall review and assess the adequacy of the Charter of the Audit Committee annually and recommend to the Board any changes it deems appropriate.
- (h) the Chair shall perform such other functions:
  - (i) as may be ancillary to the duties and responsibilities described above; and
  - (ii) as may be delegated to the Chair by the Audit Committee or the Board from time to time.

### **III. Responsibilities of the Chief Executive Officer of the Manager:**

- (a) the Chief Executive Officer of the Manager shall have responsibility for the day-to-day operation of the business of the Corporation in accordance with the Corporation's strategic plan and operating and capital expenditure budgets as previously approved by the Board.
- (b) specific responsibilities:
  - (i) to initiate the strategic planning process for the Corporation and to recommend to the Board goals for the Corporation's business and, when approved by the Board, to implement the corresponding strategic, operational and profit plans;
  - (ii) to report to, and meet regularly and as required with, the Board and all formally appointed committees of the Board to review Board and committee issues and provide to the Board or the relevant committee all information and access to management necessary to permit the Board or the relevant committee to fulfil its statutory and other legal obligations on a timely basis;
  - (iii) to direct and monitor the activities of the Corporation to achieve agreed-upon targets;
  - (iv) to develop and implement risk management policies to safeguard the assets of the Corporation;
  - (v) to develop and implement operations policies to guide the Corporation;
  - (vi) to develop and recommend top level organizational structure and staffing to the Board and to direct the implementation of the Board's decisions in this regard;
  - (vii) to assist in the development of Board policies regarding the Corporation's public disclosures, and to manage and oversee the Corporation's communications with holders of IPSs, the investment community, media, governments and their agencies, employees and the general public;
  - (viii) to develop and seek the Board's concurrence for plans for management development and succession in all key positions and then to implement such plans;
  - (ix) to review the financial reporting and public disclosure of the Corporation, to satisfy himself concerning the processes followed in their preparation and to provide the certifications required under applicable securities laws concerning such reporting and disclosure;
  - (x) to encourage and promote a culture of ethical business conduct;

- (xi) to perform other duties as are regularly and customarily performed by a chief executive officer of a reporting issuer; and
  - (xii) to assume such other appropriate responsibilities as are delegated to him or her by the Board.
- (c) the Chief Executive Officer will ensure the delivery of information to Directors on a timely basis to keep the Directors fully apprised of all matters that are material to Directors at all times.
- (d) the Chief Executive Officer will coordinate with the Chair of the Board to ensure that information requested by any Director is provided and meets the needs of that Director.

### **Orientation and Continuing Education**

The Manager, working with the Directors will provide orientation opportunities for new directors to familiarize them with the Corporation and its business. All new Directors will participate in an active orientation operational program soon after the date on which a new director first joins the Board. To date, all of the Directors have visited power projects of the Corporation to obtain an understanding of the operations of the Corporation. All of the Directors have also attended the Corporation's headquarters in Boston for a visit with staff and a tour of that office's operations. In addition to operational orientation, management has scheduled periodic presentations for the Board to ensure they are aware of major business trends and industry practices as and when required.

### **Ethical Business Conduct**

The Board has adopted a written code of business conduct and ethics for the Corporation (the "Code"), which sets out basic principles to guide all directors, managers, officers and employees of the Corporation and of the Manager and their subsidiaries. The issues the Code addresses include, among other things, the following:

- (a) compliance with laws, rules and regulations;
- (b) conflicts of interest;
- (c) confidentiality;
- (d) corporate opportunities;
- (e) protection and proper use of Atlantic Power Entity (as defined in the Code) assets;
- (f) competition and fair dealing;
- (g) gifts and entertainment; and
- (h) reporting of any illegal or unethical behaviour.

To ensure the Directors exercise independent judgement, in considering transactions, agreements or decisions in respect of which a Director, a director of Atlantic Holdings or officer has declared a material personal interest (in accordance with relevant corporate law requirements), the Board follows a practice whereby any such individual must not cast a vote on any such matter.

The senior officers of the Manager are responsible for monitoring compliance with the Code and report to the Board on any issues that have arisen under the Code. The Corporation's Whistleblower Policy is administered by the Chair of the Audit Committee. Any person may report complaints or concerns directly to the Chair of the Audit Committee. The Whistleblower Policy requires that such complaints or concerns will be kept confidential to the fullest extent possible.

Under the Code, any waivers from the requirements in the Code that are to be granted for the benefit of the Directors, or senior officers of the Manager are to be granted by the Directors only (or a committee of the Board to whom that authority has been delegated) and will be promptly disclosed as required by law or stock exchange regulation.

At least annually, the Board reviews the adequacy of the Code.

The Code is available on the Corporation's website at *atlanticpowercorporation.com*.

### **Nomination of Directors**

In lieu of corporate governance and nominating committees, the Board of Directors is responsible for identifying and nominating individuals qualified to become members of the Board and the board of directors/managers of the Corporation's subsidiaries and their various committees in the context of the Corporation's needs and any formal criteria established by the Board. The Board has the authority to retain and compensate any outside advisor that it determines to be necessary to permit it to carry out its business. On an annual basis, the Board:

- assesses the independence and qualifications of the various members of the Board and the boards of directors/managers of the Corporation's subsidiaries and their various committees;
- assesses the effectiveness of the Board and the boards of directors/managers of the Corporation's subsidiaries and their committees and the contribution of each director and manager; and
- reviews the competencies, skills and personal qualities required of Directors in light of relevant factors, including the objective of adding value to the Corporation in light of the opportunities and risks facing the Corporation and its proposed strategies.

The Board of Directors is responsible for selecting the nominees for election to the Board of Directors and for appointing directors to fill vacancies. The Board of Directors makes determinations as to whether a nominee or appointee would be independent.

### **Compensation**

During the year ended December 31, 2005, a compensation consultant was retained to assist the Board in reviewing compensation for the executive officers of the Manager. The consultant is Mercer Human Resource Consulting. The mandate for the consultant was to: (i) perform a benchmarking review and assessment of the compensation of the employees of the Manager as it compares to that of similar positions within relevant industry segments; (ii) assess the appropriateness and desirability of implementing an LTIP to further align the interests of employees of the Manager with those of the Corporation and holders of IPSs, and to adequately assist with attracting and retaining qualified employees in the relevant U.S. executive labour pool; and (iii) if the LTIP is deemed appropriate, to make recommendations for its design, as well as any other recommendations regarding other elements of compensation.

The Board has no other committees other than the Audit Committee.

### **Assessments**

In lieu of corporate governance and nominating committees, the Board of Directors conducts, at least annually, a self-evaluation of its powers, mandate, performance and membership that will be discussed with the Board of Directors after the end of each fiscal year. This evaluation focuses on the contribution of the Board of Directors to the Corporation and specifically focuses on areas in which directors and management believe that the contribution of the Board of Directors could be improved. Each committee of the Board is also reviewed by the Board, at least annually.

## **OTHER BUSINESS**

The Directors are not aware of any matters intended to come before the Meeting other than those items of business set forth in the attached Notice of Meeting accompanying this Information Circular. If any other matters properly

come before the Meeting, it is the intention of the persons named in the Form of Proxy to vote in respect of those matters in accordance with their judgment.

#### **ADDITIONAL INFORMATION**

Financial information is provided in the Corporation's comparative financial statements and management's discussion and analysis of the Corporation's financial condition and results of operations ("MD&A") for the year ended December 31, 2005. Copies of the Corporation's financial statements for the year ended December 31, 2005, together with the auditors' report thereon and MD&A, AIF (together with any document incorporated therein by reference) and this Information Circular are available upon written request from the Corporate Secretary of the Manager, 200 Clarendon Street, 55<sup>th</sup> Floor, Boston, Massachusetts, 02117. The Corporation may require payment of a reasonable charge if the request is made by a person who is not a Shareholder. These documents and additional information relating to the Corporation may also be found at [www.sedar.com](http://www.sedar.com) and on the Corporation's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com).

#### **APPROVAL OF DIRECTORS**

The contents and the sending of this Information Circular to the Shareholders have been approved by the Board of Directors.

By Order of the Board of Directors

Dated: May 10, 2006

*"Irving Gerstein"*

Chair of the Board of Directors  
Atlantic Power Corporation

**SCHEDULE A**

**RESOLUTION OF THE SHAREHOLDERS OF ATLANTIC POWER CORPORATION**

**BE IT RESOLVED:**

As an ordinary resolution of Shareholders, that:

1. a Long Term Incentive Plan to be implemented by Atlantic Power Holdings, LLC, as described in the Corporation's management information circular and approved by the Board, is hereby authorized and approved;
2. notwithstanding that this resolution has been passed, the Board may, without further notice to or approval of Shareholders, revoke this resolution at any time prior to the adoption of the long term incentive plan by the Corporation; and
3. any director or officer of the Manager is hereby authorized and direct to do and perform such acts and things and execute, deliver and file all such documents; as they determine necessary, convenient or proper to carry out the purpose or intent of the foregoing resolution, such determination to be conclusively evidence by the doing of such acts or things and delivery, filing or execution of such document.

## SCHEDULE B

### MANDATE OF THE BOARD OF DIRECTORS

The purpose of this mandate is to set out the mandate and responsibilities of the board of directors of Atlantic Power Corporation (the “**Issuer**”).

#### Composition

The board of directors shall be constituted with a majority of individuals who qualify as “independent directors” as defined in Multilateral Instrument 52-110 – Audit Committees.<sup>1</sup>

#### Responsibilities of the Board of Directors

The board of directors is responsible for the stewardship of the Issuer and in that regard shall be specifically responsible for:

- (i) adopting a strategic planning process and approving, on at least an annual basis, a budget, and evaluating and discussing a strategic plan for the upcoming year which takes into account, among other things, the opportunities and risks of the Issuer’s business and investments;
- (ii) to the extent feasible, satisfying itself as to the integrity of the Chief Executive Officer and senior officers of Atlantic Power Management, LLC (the “**Manager**”) and that such officers create a culture of integrity throughout the organization;
- (iii) the identification of the principal risks of the Issuer’s business and ensuring the implementation of appropriate systems to manage these risks;
- (iv) ensuring that the Issuer complies with all applicable laws and legal requirements;
- (v) succession planning;
- (vi) adopting a communication policy which enables the Issuer to communicate effectively and addresses how the Issuer interacts with all of its stakeholders, including analysts and the public, contains measures for the Issuer to avoid selective disclosure and is reviewed at such intervals or times as the board deems appropriate;
- (vii) ensuring the integrity of the Issuer’s internal control and management information systems;
- (viii) establishing and maintaining a standing audit committee of the board of directors (the “**Audit Committee**”);
- (ix) reviewing and reassessing the adequacy of the terms of reference of the Audit Committee at such intervals or times as the board deems appropriate;
- (x) receiving recommendations of the Audit Committee respecting, and reviewing and approving, the audited, interim and any other publicly announced financial information of the Issuer;
- (xi) developing the Issuer’s approach to governance, including developing a set of governance principles and guidelines that are specifically applicable to the Issuer;<sup>2</sup>

---

<sup>1</sup> See Appendix C.

<sup>2</sup> See Appendix B.

- (xii) implementing a process for assessing the effectiveness of the board as a whole, the committees of the board and the contribution of individual directors;
- (xiii) implementing a process for examining the size of the board of directors and undertaking, where appropriate, a program to establish a board size which facilitates effective decision-making;
- (xiv) implementing a process for reviewing the adequacy and form of compensation of directors and ensuring that compensation realistically reflects the responsibilities and risk involved in being a director;
- (xv) meeting regularly with management to receive reports respecting the performance of the Issuer, new and proposed initiatives, the Issuer's business and investments, management concerns and any areas of concern involving the Issuer; and
- (xvi) meeting regularly without management.

While the board of directors is called upon to "manage" the business and affairs of the Issuer, the Issuer has delegated responsibility for managerial and executive oversight and certain administrative services to Atlantic Power Holdings, LLC ("Atlantic Holdings"). Atlantic Holdings and the Issuer have entered into a management agreement with the Manager to fulfil these responsibilities. The board of directors is responsible for the on-going strategic planning process of the Issuer, approves the goals of the business and the strategies and policies within which it is managed, and then steps back and evaluates the Manager's performance. Reciprocally, the Manager keeps the board of directors fully informed of the progress of the Issuer and its subsidiaries towards the achievement of their established goals and of all material deviations from the goals or objectives and policies established by the board of directors in a timely and candid manner.

It is recognized that every director in exercising powers and discharging duties must act honestly and in good faith with a view to the best interest of the Issuer. Directors must exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. In this regard, they will comply with their duties of honesty, loyalty, care, diligence, skill and prudence.

In addition, directors are expected to carry out their duties in accordance with policies adopted by the board of directors from time to time, the current policy being annexed hereto as Appendix A.

It is expected that the Manager will co-operate in all ways to facilitate compliance by the board of directors with its legal duties by causing the Issuer and its subsidiaries to take such actions as may be necessary in that regard and by promptly reporting any data or information to the board of directors that may affect such compliance.

#### **Responsibilities of Chair**

The role and responsibilities of the Chair of the board of directors are set out below:

- (i) the Chair shall be expected to attend and chair meetings of the board of directors of the Issuer and securityholders of the Issuer;
- (ii) the Chair shall be an independent director;
- (iii) the Chair shall not be expected to and shall not perform policy-making functions other than in his or her capacity as a director of the Issuer. The Chair shall not have the right or entitlement to bind the Issuer in his or her capacity as Chair;
- (iv) the Chair shall provide direction with respect to the dates and frequencies of board meetings and related committee meeting; and the Chair shall liaise with the Chief Executive Officer of the Manager to prepare board meeting agendas;
- (v) the Chair shall ensure that the board understands the boundaries between board and management responsibilities; and

- (vi) the Chair shall ensure that the board of directors carries out its responsibilities effectively, which will involve the board meeting on a regular basis without management present and may involve assigning responsibility for administering the board's relationship with management to a committee of the board.

#### **Decisions Requiring Prior Approval of the Board of Directors**

Approval of the board of directors shall be required for:

- (i) dividends;
- (ii) significant acquisitions/dispositions;
- (iii) related party transactions;
- (iv) the annual budget for the Manager;
- (v) the public dissemination of any financial information;
- (vi) the issuance or repurchase of securities of the Issuer;
- (vii) the terms of reference of committees of the board; and
- (viii) any other matter that would give rise to a "material change" to the Issuer.

In considering related party transactions, when appropriate, the board of directors will review a report of an independent financial advisor in making their decision. The foregoing list is intended to specify particular matters requiring board approval and is not intended to be an exhaustive list.

#### **Measures for Receiving Shareholder Feedback**

All publicly disseminated materials of the Issuer shall provide for a mechanism for feedback of securityholders. Persons designated to receive such information shall be required to provide a summary of the feedback to the directors on a semi-annual basis or at such other more frequent intervals as they see fit.

#### **Meetings**

The board of directors will meet not less than four times per year: three meetings to review quarterly results; and one prior to the issuance of the annual financial results of the Issuer. A quorum for the meetings shall be a majority of the directors then holding office.

From time to time directors may be asked to participate in board retreats, which may last one to three days.

#### **Meeting Guidelines**

Directors will be expected to have read and considered the materials sent to them in advance of each meeting, and to be prepared to discuss the matters contained in such materials at the meeting. Administrative matters (eg., bank signing resolutions, etc.), which require a vote, will be batched for voting purposes. Directors will be expected to ask questions relating to batched items in advance of the meeting. The notice of meeting will highlight significant matters to be dealt with at each meeting so that directors can focus on reviewing the related materials. The Manager will be made accessible to directors at board meetings and committee meetings to fulfill their obligations.

#### **Remuneration**

Remuneration shall be at a level, which will attract and motivate professional and competent members.

### **Telephone Board Meetings**

A director may participate in a meeting of the directors or in a committee meeting by means of telephone, electronic or such other communications facilities as permit all persons participating in the meeting to communicate with each other and a director participating in such a meeting by such means is deemed to be present at the meeting.

While it is the intent of the board of directors to follow an agreed meeting schedule as closely as possible, it is felt that, from time to time, with respect to time sensitive matters telephone board meetings may be required to be called in order for directors to be in a position to better fulfill their legal obligations. Alternatively, management may request the directors to approve certain matters by unanimous consent.

### **Expectations of Management**

The Manager shall be required to report to the board of directors at the request of the board on the performance of the Issuer, new and proposed initiatives, the Issuer's business and investments, management concerns and any other matter the board or its Chair may deem appropriate. In addition, the board expects the Manager to promptly report to the Chair of the board any significant developments, changes, transactions or proposals respecting the Issuer or its subsidiaries.

## APPENDIX A

### POLICY OF PRACTICES FOR DIRECTORS

#### Attendance at Meetings

Each director is expected to have a very high record of attendance at meetings of the board of directors, and at meetings of each committee on which the director sits. A director is expected to:

- (i) advise the Chair as to planned attendance at board and committee meetings shortly after meeting schedules have been distributed;
- (ii) advise the Chair as soon as possible after becoming aware that he or she will not be able to attend a meeting; and
- (iii) attend a meeting by conference telephone if unable to attend in person.

#### Preparation for Meetings

Directors are expected to carefully review and consider the materials distributed in advance of a meeting of the board of directors or a committee of the board of directors. Directors are also encouraged to contact the Chair, the Chief Executive Officer of the Manager and any other appropriate officers to ask questions and discuss agenda items prior to meetings.

#### Conduct at Meetings

Directors are expected to ask questions and participate in discussions at meetings, and to contribute relevant insights and experience. In discussions at meetings, a director should:

- (i) be candid and forthright;
- (ii) not be reluctant to express views contrary to those of the majority;
- (iii) be concise and, in most circumstances, respect the time constraints of a meeting; and
- (iv) be courteous to and respectful of other directors and guests in attendance.

#### Knowledge of the Issuer's Business

Directors are expected to be knowledgeable with respect to the various fields and divisions of business of the Issuer. Although the Manager has a duty to keep the board of directors informed about developments in the Issuer's business, directors have a primary duty of care and diligence, which includes a duty of inquiry. Directors should:

- ask questions of the Manager and other directors/managers, at meetings and otherwise, to increase their knowledge of the business of the Issuer;
- familiarize themselves with the risks and challenges facing the business of the Issuer;
- read all internal memoranda and other documents circulated to the directors, and all reports and other documents issued by the Issuer for external purposes;
- insist on receiving adequate information from the Manager with respect to a proposal before board approval is requested;

- familiarize themselves with the Issuer's competitors by, among other things, reading relevant news, magazine and trade journal articles; and
- familiarize themselves with the legal and regulatory framework within which the Issuer carries on its business.

### **Personal Conduct**

Directors are expected to:

- (i) exhibit high standards of personal integrity, honesty and loyalty to the Issuer;
- (ii) project a positive image of the Issuer to news media, the financial community, governments and their agencies, securityholders and employees;
- (iii) be willing to contribute extra efforts, from time to time as may be necessary including, among other things, being willing to serve on committees of the board; and
- (iv) disclose any potential conflict of interest that may arise with the business or affairs of the Issuer and, generally, avoid entering into situations where such conflicts could arise or could reasonably be perceived to arise.

### **Independent Advice**

In discharging its mandate the board shall have the authority to retain (and authorize the payment by the Issuer of) and receive advice from, special legal, accounting or other advisors and outside consultants if appropriate.

## **APPENDIX B**

### **CORPORATE GOVERNANCE AND NOMINATING RESPONSIBILITIES**

The Proposed Policy recommends the appointment of corporate governance and nominating committees. In lieu of such committees, the board of directors will directly assume responsibility for corporate governance and the nomination of directors and in that regard shall have the responsibilities set forth below.

#### **Governance Responsibilities:**

- To assess the independence and qualifications of the various members of the board of directors and the boards of directors/managers of the Issuer's subsidiaries and their various committees.
- To ensure that programs relating to succession planning and performance evaluation are effectively integrated with the Issuer's strategy.
- To review the composition of the various committees of the board of directors and the boards of directors/managers of the Issuer's subsidiaries.
- To monitor the quality of the relationship between the Manager and the board of directors and applicable boards of directors/managers of the Issuer's subsidiaries and to recommend improvements.
- To review and respond to requests by individual directors or managers to engage outside advisors.
- To assess the need, and to coordinate a program, for continuing education for members of the board.
- To assess the effectiveness of the board of directors and the boards of directors/managers of the Issuer's subsidiaries and their committees and the contribution of each director and manager.
- To annually review organizational structure and succession planning matters.
- To report on governance as required by public disclosure requirements.
- To review and ensure compliance of the Issuer with its internal governance guidelines.
- To review from time to time the governance practices of the Issuer and its subsidiaries, and their respective boards and committees, to determine compliance with rules and policies of regulatory authorities governing the Issuer.
- At least annually, to review the adequacy of the corporate governance guidelines of the Issuer and its subsidiaries.
- To determine and monitor the Issuer's and its subsidiaries' categorical standards for director and manager independence.
- At least annually, to audit the practices of the board of directors (including separate meetings of non-management directors) to ensure compliance with the governance guidelines of the Issuer.
- At least annually, to review the powers, mandates and performance, and the membership of the various committees of the board of directors and the boards of directors/managers of the Issuer's subsidiaries.
- To undertake such other initiatives as are needed to help the board of directors and the boards of directors/managers of the Issuer's subsidiaries deliver exemplary governance.

### **Nominating Responsibilities**

- To review annually the competencies, skills and personal qualities required of board members in light of relevant factors, including: the objective of adding value to the Issuer in light of the opportunities and risks facing the Issuer and the Issuer's proposed strategies; the need to ensure, to the greatest extent possible, that a majority of the board is comprised of individuals who meet the independence requirements of the applicable stock exchange rules, legislation or other guidelines; and the policies of the board with respect to board member tenure, retirement and succession and board member commitments.
- To establish and oversee an appropriate orientation and education program for new board members in order to familiarize them with the Issuer and the nature and operation of the Issuer's business (including the Issuer's reporting structure, strategic plans, significant financial, accounting and risk issues, compliance programs and policies, management and the external auditors), the role of the board and its committees, as well as the contribution individual directors are expected to make.
- To actively seek individuals qualified (in context of the Issuer's needs and any formal criteria established by the board) to become members of the board.
- To review the membership and allocation of board members to the various committees of the board.
- To establish procedures for the receipt of comments from all board members to be included in an annual assessment of the board's performance, including individual contributions.
- To appoint and, if appropriate, terminate any search firm to be used to identify board candidates.

## APPENDIX C

### DEFINITIONS

“**independent director**” means a director who has no direct or indirect material relationship with the Issuer.<sup>3</sup>

“**material relationship**” means a relationship, which could, in the view of the board of directors of the Issuer, be reasonably expected to interfere with the exercise of a member’s independent judgement. Without limiting the generality of the foregoing, the following individuals are considered to have a material relationship with the Issuer:<sup>4</sup>

- (a) an individual who is, or has been within the last three years, an employee or executive officer<sup>5</sup> of the Issuer;
- (b) an individual whose immediate family member is, or has been within the last three years, an executive officer of the Issuer;
- (c) an individual who:
  - (i) is a partner<sup>6</sup> of a firm that is the Issuer’s internal or external auditor,
  - (ii) is an employee of that firm, or
  - (iii) was within the last three years a partner or employee of that firm and personally worked on the Issuer’s audit within that time;
- (d) an individual whose spouse, minor child or stepchild, or child or stepchild who shares a home with the individual:
  - (i) is a partner of a firm that is the Issuer’s internal or external auditor,
  - (ii) is an employee of that firm and participates in its audit, assurance or tax compliance (but not tax planning) practice, or
  - (iii) was within the last three years a partner or employee of that firm and personally worked on the Issuer’s audit within that time;

---

<sup>3</sup> For the purpose of the definitions of “independent director” and “material relationship” in this Appendix, “Issuer” includes a subsidiary entity of the Issuer and a parent of the Issuer, as applicable. This definition is based on proposed amendments to the Audit Committee Rule (the “Proposed Amendments”). Comments on the Proposed Amendments have been requested by January 27, 2005. We do not anticipate that the final amendments to the Audit Committee Rule will be any more rigorous than the Proposed Amendments.

<sup>4</sup> An individual will not be considered to have a material relationship with the Issuer solely because he or she had a relationship identified in this definition if that relationship ended before March 30, 2004. An individual will not be considered to have a material relationship with the Issuer solely because the individual or his or her immediate family member has previously acted as an interim chief executive officer of the Issuer or acts, or has previously acted, as a chair or vice-chair of the board of directors or of any board committee of the Issuer on a part-time basis.

<sup>5</sup> An “executive officer” includes any individual who performs a policy-making function in respect of the entity.

<sup>6</sup> A partner does not include a fixed income partner whose interest in the firm that is the internal or external auditor is limited to the receipt of fixed amounts of compensation (including deferred compensation) for prior service with that firm if the compensation is not contingent in any way on continued service.

- (e) an individual who, or whose immediate family member, is or has been within the last three years, an executive officer of an entity if any of the Issuer's current executive officers serves or served at that same time on the entity's compensation committee; and
- (f) an individual who received, or whose immediate family member who is employed as an executive officer of the Issuer received, more than \$75,000 in direct compensation<sup>7</sup> from the Issuer during any 12 month period within the last three years.<sup>8</sup>

---

<sup>7</sup> Direct compensation does not include: (a) remuneration for acting as a member of the board of directors or of any board committee of the Issuer; and (b) the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with the Issuer if the compensation is not contingent in any way on continued service.

<sup>8</sup> An individual who: (a) has a relationship with the Issuer pursuant to which the individual may accept, directly or indirectly, any consulting, advisory or other compensatory fee from the Issuer or any subsidiary entity of the Issuer, other than as remuneration for acting in his or her capacity as a member of the board of directors or any board committee, or as a part-time chair or vice-chair of the board or any board committee; or (b) is an affiliated entity of the Issuer or any of its subsidiary entities, is considered to have a material relationship with the Issuer. The indirect acceptance by an individual of any consulting, advisory or other compensatory fee includes acceptance of a fee by: (a) an individual's spouse, minor child or stepchild, or a child or stepchild who shares the individual's home; or (b) an entity in which such individual is a partner, member, an officer such as a managing director occupying a comparable position or executive officer, or occupies a similar position (except limited partners, non-managing members and those occupying similar positions who, in each case, have no active role in providing services to the entity) and which provides accounting, consulting, legal, investment banking or financial advisory services to the Issuer or any subsidiary entity of the Issuer. Compensatory fees do not include the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with the Issuer if the compensation is not contingent in any way on continued service.

**Atlantic Power Corporation Announces May 2006 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of May 2006. A distribution of \$0.0859 per Income Participating Security (“IPS”) will be payable on June 30, 2006 to holders of record at the close of business on May 31, 2006.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0859 reflects a cash dividend per common share of \$0.0330 and an interest payment of \$0.0529 for the month of May 2006.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

## Atlantic Power Corporation

NEWS RELEASE TRANSMITTED BY CCNMATTHEWS

FOR: ATLANTIC POWER CORPORATION

TSX SYMBOL: ATP.UN

May 11, 2006

### **Atlantic Power Corporation Announces First Quarter 2006 Results Also Announces Appointment of New Chief Financial Officer**

BOSTON MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (the “Company”) today announced its results for the three months ended March 31, 2006. All amounts are in US dollars unless otherwise indicated.

#### **Q1 2006 Highlights:**

- **Cash available for distributions increased 34%**
- **Enhanced operating performance and cash flow at existing facilities**

“Following a very strong 2005, progress continued into the first quarter of the new year as we maintained our focus on maximizing returns from our assets,” commented Barry Welch, President and CEO.

For the three months ended March 31, 2006 Cash Flow Available for Distribution was \$10.2 million (Cdn \$0.27 per IPS) compared to \$7.4 million (Cdn\$0.24 per IPS) last year. Distributions declared in the quarter were \$10.0 million (Cdn \$0.26 per IPS), and the payout ratio improved to 97.1%, versus 102% in last year’s first quarter. The Company generated project revenue of \$55.1 million and project income of \$12.2 million in the first quarter of 2006. Net income for the three months ended March 31, 2006 was \$3.3 million or \$0.07 (Cdn \$0.09) per IPS.

Aggregate EBITDA at the Projects, including those that are equity accounted for, increased 3% during the first quarter of 2006 compared to the prior year period. The increase is primarily due to improved operating margin at the Lake project and ownership in the Chambers project, partially offset by a full quarter without Masspower results following its sale last quarter, lower EBITDA from Pasco due to an outage this quarter, anticipated lower results from Rumford based on its transition from the previous contract to its current interim agreement, and the negative effect of volatile natural gas and oil prices on Selkirk. The Calculation of Cash Flow Available for Distribution and a breakdown of unaudited EBITDA by individual project for the three months ended March 31, 2006 is attached.

“We were pleased with our performance in the first quarter. Aggregate generation was up over 20% in the period mostly due to Chambers and plant availability was up modestly at 97.8%, with a 3% increase in EBITDA at the project level,” Mr. Welch concluded.

Atlantic Power also announced today that Mr. Patrick Welch will be joining the Company as Chief Financial Officer effective May 31, 2006. Mr. Welch, who is not related to Barry Welch, has an extensive background in the energy and independent power industries obtained through his most recent positions with Duke Energy Field Services, LP and DCP Midstream Partners, LP headquartered in Denver, Colorado and previously with Dynegy Inc. and PricewaterhouseCoopers LLP in Houston, Texas.

The Company's financial statements for the period and Management's Discussion and Analysis, are available on the Company's web site at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com) or [www.sedar.com](http://www.sedar.com).

Atlantic Power Corporation owns interests in a diversified portfolio of fifteen power generation projects located primarily in major markets in the United States. The Company's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the projects and the anticipated financial results of the Company. Such statements are subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions.

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities to Cash Flow Available for Distributions is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

EBITDA, earnings before interest, taxes, depreciation and amortization, is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

**Form 52-109F2 - Certification of Interim Filings**

I, Barry Welch, Chief Executive Officer of Atlantic Power Corporation, certify that:

1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Atlantic Power Corporation for the interim period ending March 31, 2006;
2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings; and
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures for the issuer, and we have designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RECEIVED

2006.10.10 A 11:27

The following management discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the unaudited financial statements of Atlantic Power Corporation ("Atlantic Power" or the "Company") for the three month period ended March 31, 2006. All amounts described in the management discussion and analysis of financial condition and results of operations are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP"). This management discussion and analysis of financial condition and results of operation also contains forward looking statements, which are subject to a variety of factors. When used in this MD&A, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the projects. Such statements are subject to a variety of risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements. Some of the factors that could cause results or events to differ from current expectations include, but are not limited to, the factors described under "Risk Factors". Information contained in this management discussion and analysis is based on information available to management as of May 11, 2006.

Copies of financial data and other publicly filed documents are available through the internet on SEDAR at [www.sedar.com](http://www.sedar.com) under Atlantic Power Corporation.

### OVERVIEW

The Company currently has 44,339,500 income participating securities ("IPSs") outstanding and owns 70.1% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Power Holdings, LLC ("Holdings"). Holdings was formed initially to acquire indirect interests in a diversified portfolio of power generating facilities (the "Projects") located primarily in major markets in the United States from ArcLight Energy Partners Funds I and II (the "ArcLight Funds") and Caithness Energy (together, the "Existing Investors"). Each IPS represents one common share of the Company ("Common Shares") and Cdn. \$5.767 aggregate principal amount of 11% subordinated notes of the Company ("Subordinated Notes").

As of March 31, 2006, Holdings owned interests in fourteen projects in the United States and one in Jamaica with a combined total power generating capacity of 2,156 megawatts ("MW"). Holdings' interest in the Projects represented approximately 860 MW of power generating capacity as of March 31, 2006. Most of the Projects sell their power under long term power purchase agreements ("PPAs") to investment grade utilities. These agreements are typically structured to stabilize cash flows by 1) providing significant steady capacity payments generally designed to provide a return of and on capital and fixed costs regardless of how much electricity it is called upon to produce, provided that the plant meets an availability requirement and 2) passing through most of the Projects' fuel costs to the utilities. As a result, effects on the portfolio's cash flow based on changes in the amount of power generated, spot market electricity prices and fuel price changes are significantly mitigated.

The Company's objectives are to maintain the stability and sustainability of cash distributions to holders of IPSs in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares. To achieve these objectives, Company management, working directly with project managers, focuses on enhancing the operation of

the existing Projects by improving facility performance, increasing output, optimizing contracts and hedging cash flows when practicable. In addition, the Company has a focused growth strategy that includes the consolidation of interests in Projects that it currently owns and making accretive acquisitions with a primary focus on power generating facilities in the United States.

#### **NON-GAAP FINANCIAL MEASURES**

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities from the Company's financial statements to Cash Flow Available for Distribution is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate unaudited EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

#### **RESULTS OF OPERATIONS FOR THE THREE MONTH PERIOD ENDED MARCH 31, 2006**

The Company commenced operations on November 18, 2004 upon completion of its IPO and the acquisition of interests in fifteen non-utility power projects. The financial results for the three months ended March 31, 2006 include the contribution from the 40% interest in the Chambers project, acquired on September 8, 2005, while the comparative financial results for the period ended March 31, 2005 included the operating contribution from Masspower. As of March 31, 2006, the Company had PPAs with 16 customers. Details on several elements of the PPAs for each Project are presented in the table in the Project Portfolio section below.

Project Income is the primary determinant of the Company's operating results and is discussed in the Project Performance sections below. Within Administrative and Other Expenses, the cash items are expected to be relatively steady, including management fees and administration, net interest (principally interest on Subordinated Notes and revolving credit facility) and distributions to the non-controlling interest (29.9% of Holdings owned by Existing Investors at March 31, 2006, 41.9% at March 31, 2005). Significant non-cash items subject to potentially significant fluctuations include the change in fair value of the non-controlling investors, which is based on the change in price in the Company's IPSs from period to period, and the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange changes from period to period on the U.S equivalent of the Company's Canadian dollar denominated debt and the mark-to-market value of currency forward contracts.

Net Income for the three months ended March 31, 2006 was negatively impacted by increased amortization and positively impacted by the inclusion of Chambers for the full quarter.

## **SUPPLEMENTARY FINANCIAL INFORMATION**

Appended to this MD&A is an unaudited non-GAAP supplementary information of the first quarter 2006 summary income statement and balance sheet information into the categories of 1) Consolidated and proportionately consolidated, 2) Proportionate share of equity investments, and 3) Corporate. In addition, there is a reconciliation of Project EBITDA to project distributions, showing project interest and principal payments, capital expenditures and changes in working capital and other items.

### **PROJECT PERFORMANCE: THREE MONTH PERIOD ENDING MARCH 31, 2006**

Aggregate EBITDA at the Projects, including those that are equity accounted for, increased 3% during the first quarter of 2006 compared to the prior year period. Lake and Pasco operating margins benefited from increasing coal prices, which enhances the projects' revenues more than the increase in their fuel expenses, and the first quarter 2006 also included a full quarter of Chambers ownership, which was acquired in September 2005.

Offsetting these positive contributions was Pasco's increased maintenance costs to repair one of the facility's turbines combined with an accelerated overhaul and upgrade of the same unit. The sale of Masspower in late 2005 removed its contribution to EBITDA from 2006 and Selkirk was negatively impacted by high volatility in gas and power prices in the first quarter of 2006. Rumford also created less EBITDA in the first quarter 2006 than 2005, due to its transition from the prior PPA which expired in December 2005 to a market-based interim PPA.

Aggregate generation was up 23% while plant availability was up slightly at the Projects during the first quarter of 2006 compared to the same period in 2005. The comparative increase in generation in the first quarter 2006 was driven by a full quarter of Chambers production offset in part by reduced generation due to outages at several projects, all planned except at Pasco. In general, the facilities in the Atlantic portfolio maintain a high level of availability at 97.8% for the first quarter of 2006 as compared to 97.3% for same period in 2005. Generation can be higher while plant availability remains relatively constant based on the degree to which the plants are called upon to run, or dispatched, during their available hours.

## SUMMARY OF FINANCIAL RESULTS

(In thousands of U.S. dollars)

	Three months ended March 31,	
	2006	2005
	(Unaudited)	
Project revenue <sup>(1)</sup>	55,107	37,863
Project expenses <sup>(1)</sup>	43,665	29,755
Project other income (expense) <sup>(2)</sup>	747	4,580
<b>Project Income</b>	<b>12,189</b>	<b>12,688</b>
Administrative and other expenses		
Management fees and administration	1,131	1,257
Amortization of deferred financing cost:	248	248
Interest, net	7,040	5,589
Distribution, non-controlling interest <sup>(3)</sup>	4,281	5,335
Change in fair value of non-controlling interest <sup>(4)</sup>	(2,439)	(5,493)
Foreign exchange gain (loss) <sup>(5)</sup>	(1,553)	(3,658)
<b>Total administrative and other expenses</b>	<b>8,708</b>	<b>3,278</b>
Income before income taxes	3,481	9,410
Income taxes expense (recovery)	160	(532)
<b>Net income (loss)</b>	<b>3,321</b>	<b>9,942</b>
<i>Per IPS, USD</i>	<i>0.07</i>	<i>0.27</i>
<i>Per IPS, Cdn.</i>	<i>0.09</i>	<i>0.33</i>
Total assets	895,976	746,181
Total long-term liabilities	698,082	574,836
Cash flows from operating activities	8,027	4,557
Distributions <sup>(6)</sup>	9,951	7,495
<i>Per IPS, USD</i>	<i>0.22</i>	<i>0.20</i>
<i>Per IPS, Cdn.</i>	<i>0.26</i>	<i>0.25</i>

(1) Project revenue and project expenses of Holdings' interests in ten projects, including two wholly owned projects which are consolidated, and eight proportionately consolidated projects with interests ranging from 40% to 50%. (Refer to Accounting Treatment presented in the table in the Project Portfolio section later.)

(2) Includes equity in earnings from partnerships of \$1,835 for the three-month period from five projects in which Holdings owns interests of between 17.1% and 40%, accounted for on an equity basis.

(3) Distributions declared to Existing Investors.

(4) As of December 31, 2004, Existing Investors owned a 41.9% non-controlling interest in Holdings with certain Liquidity Rights to request that the Company use best efforts to issue equity securities (including IPSs) to raise proceeds that would indirectly be used to redeem portions of the Existing Investors' interest. On October 3, 2005, the Existing Investors reduced their common membership interests in Holdings to 29.9%. Until November 18, 2006, the Existing Investors must maintain a minimum 10% aggregate ownership interest in Holdings. This amount represents the mark-to-market change during the reporting period in the potential obligation of the Company to issue securities to redeem the *entire* Existing Investors' interests in Holdings based on the change in market price per IPS from Cdn. \$10.75 and \$10.40 at December 31, 2004 and 2005 respectively to Cdn. \$10.50 and \$10.25 at March 31, 2005 and 2006 respectively.

- (5) Net impact of foreign exchange on the US dollar equivalent of Canadian dollar denominated debt, the mark-to-market value of currency forward contracts and realized foreign exchange gains and losses for the period.
- (6) Distributions declared during the reporting period.

### **CASH FLOW FROM OPERATIONS AND RESERVE FUND**

The Company's cash flow from the Projects will vary from year to year based on, among other things, changes in rates under the PPAs, fuel supply and transportation agreements, steam sales agreements and other project contracts, compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the operating performance of the Projects. Project cash flows themselves may have some seasonality and the pattern and frequency of distributions from Projects to Holdings during the year can also vary.

The Company's cash flow from operations was \$8,027 for the three-month period ending March 31, 2006 compared to \$4,557 for the prior year period. This was in line with expectations and the increase from last year is due primarily to the Chambers acquisition.

In order to provide holders of IPSs with stable and sustainable cash distributions, the Company established a Reserve Fund at the closing of its IPO and will deposit funds in the Reserve Account from time to time to stabilize future cash distributions and fund acquisitions and other growth opportunities that have the same ultimate effect. The Reserve Fund held \$48,412 as of March 31, 2005, which included an increase of \$35,857 during March 2005 due largely to the Masspower PPA termination payments. A decrease of \$25,000 in September 2005 was due to partial funding of the Chambers acquisition and as of March 31, 2006, the Reserve Account held \$10,613 which is more representative of the ongoing balance to be maintained in that account.

### **CASH FLOW AVAILABLE FOR DISTRIBUTION**

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. The Company currently distributes Cdn \$1.03 per IPS annually. For the three month period ended March 31, 2006, aggregate distributions of \$ 9,951 were declared (Cdn \$0.26 per IPS comprised of interest payments of Cdn \$0.16 on the 11% subordinated note portion of the IPS, plus Cdn \$0.10 common share dividend per IPS)

The table below presents the calculation of Cash Available for Distribution beginning with cash flow from operating activities for the three month periods ending March 31, 2006 and 2005.

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

(In thousands of U.S. dollars)

	Three months ended	
	March 31,	
	2006	2005
	(Unaudited)	
Cash flows from operating activities	8,027	4,557
Project level debt repayment	(4,037)	(1,496)
Interest IPS portion of subordinated notes	6,127	4,753
Income tax installments recoverable	548	-
Purchase of property, plant and equipment	(422)	(464)
Cash flow available for distribution, USD	10,243	7,350
<b>Cash flow available for distribution, CAD</b>	<b>11,938</b>	<b>8,863</b>
Interest on IPS subordinated notes	6,127	4,753
Dividends on IPS common shares	3,824	2,742
Total IPS distributions, USD	9,951	7,495
<b>Total IPS distributions, CAD</b>	<b>11,421</b>	<b>9,203</b>
<b>Cash flow available for distribution per IPS, CAD</b>	<b>0.27</b>	<b>0.24</b>
<b>Total distribution per IPS, CAD</b>	<b>0.26</b>	<b>0.25</b>

## SUMMARY OF QUARTERLY RESULTS

Variations in quarterly results are driven by the following factors:

- There is some seasonality of Project Revenues created by seasonal variances in demand for electric power, in some cases varied seasonal pricing for portions of the PPA payments and the typical scheduling of major facility maintenance in the spring and fall.
- Variations in cash flow are also driven by the timing of project debt payments (i.e., some are quarterly and some semi-annual), as distributions from the Projects to the Company must occur in conjunction with passing certain tests at those payment dates.
- Non-cash charges, principally 1) the change in fair value of the non-controlling investors, which is based on the change in price in the Company's IPSs from period to period, and 2) the non-cash portion of the foreign exchange gain or loss, reflecting the impact of foreign exchange changes from period to period or the value of the Company's Canadian dollar denominated debt and the mark-to-market value of currency hedges.
- Net Income for the three months ended March 31, 2006 was negatively impacted versus the prior year period by increased amortization.

## SELECTED QUARTERLY CONSOLIDATED FINANCIAL DATA

(In thousands of U.S. dollars)

(Unaudited)

	2004	2005				2006
	Nov 18-Dec 31	Q1	Q2	Q3	Q4	Q1

Distributions, CAD	0.12	0.25	0.25	0.25	0.26	0.26

## LIQUIDITY AND CAPITAL RESOURCES

The Company has adequate liquidity from several sources in addition to cash flow from operations. The Reserve Fund held \$10,613 as of March 31, 2006. In the future, as the Reserve Fund builds, a portion of it will be available to fund acquisitions and other growth opportunities, enhancing the long-term stability of distributions.

Holdings recently increased the capacity of its revolving credit facility from \$50,000 to \$75,000, \$15,061 of which was allocated, but not drawn, as of March 31, 2006 to support letters of credit for contingent liabilities at several projects. In addition, \$10,000 was drawn on the facility leaving \$49,939 available to the Company under the facility as of March 31, 2006. In addition, the Projects themselves generally have their own reserve accounts to support payments for major maintenance costs and project-level debt service. For Projects that are consolidated or proportionately consolidated with Atlantic, these amounts or Atlantic's portion of these amounts respectively, are reflected as Restricted Cash on Atlantic's balance sheet, which was \$27,656 as of March 31, 2006.

All project-level debt and the Epsilon debt assumed in the Chambers acquisition is non-recourse to the Company or Holdings and is fully amortized over the life of the projects' PPAs.

## CAPITAL EXPENDITURES

Capital expenditures for the Projects are made at the project level using project cash flows and project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the projects. Generally, capital expenditures are not significant since most major expenditures are for repairs and maintenance and therefore are expensed.

## PROJECT PORTFOLIO

The following table outlines the Company's portfolio of power generating assets as of March 31, 2006, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any one region.

Project Name	Location (State)	Fuel Type	Total MW	Ownership Interest <sup>(1)</sup>	Accounting Treatment <sup>(2)</sup>	Net MW <sup>(3)</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating

- (1) Represents the percentage ownership interest in the project held indirectly by Atlantic Holdings (except as otherwise noted).
- (2) Accounting Treatment: (refer to Note 1 of Consolidated Financial Statements).  
C = Consolidated  
P = Proportionate Consolidation  
E = Equity Method
- (3) Represents the interest of Holdings in each project's electric generation capacity based on Holdings' economic interest in each project.
- (4) Represents Holdings' estimate of its economic interest in the project's cash flow.
- (5) New PPA with Constellation Energy through 2008.
- (6) A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.
- (7) Former PPA with Central Maine Power expired December 31, 2005. New interim PPA with the former Mead/Westvaco paper mill (now owned by NewPage).
- (8) Holdings owns a lessor interest in this Project.
- (9) The merchant output of the facility is sold by Atlantic City Electric in the PJM regional spot market through a profit sharing arrangement with Chambers.

## CONTRACTUAL OBLIGATIONS

(In thousands of U.S. dollars)

(Unaudited)

	Payment due by period				2012 and thereafter
	Total	2006 (after March 31)	2007 to 2009	2010 to 2011	
Subordinated notes	250,755				250,755
Long term debt (1)	242,003	17,521	63,777	31,925	128,780
Total contractual obligations	492,758	17,521	63,777	31,925	379,535

(1) Long term debt represents the Company's consolidated and proportionately consolidated share of Project long term debt. Project debt is non-recourse to the Company and fully amortizes during the term of the respective PPAs.

### (a) Project Contracts

Each project typically has a set of contracts that include the following obligations of the project partnerships, all of which are non-recourse to the Company. Therefore, specific contracts for individual projects are not discussed in detail in the MD&A.

- PPAs generally allow projects to pass through their fuel costs. See the earlier Project Portfolio table for off-takers and durations.
- Fuel supply agreements may have minimum volume requirements.
- Fuel transportation agreements incorporate capacity reservation/demand payments for natural gas, or shipping cost per ton of coal.
- Steam sales agreements track PPA lengths and are designed to meet regulatory requirements for thermal load/efficiency at fossil fuel plants.
- O & M agreements contract for operations and maintenance services by third parties or owners.
- Long-term service agreements may be in place for gas or steam turbine inspections and overhauls.
- Site lease agreements grant use of project land where Projects do not own the site.

A detailed description of the Projects' agreements at the time of the IPO is contained in the Technical Reviews performed by Stone and Webster in conjunction with the Company's IPO and in connection with the Chambers acquisition and updated project information contained in the Company's Annual Information Form dated March 31, 2006. All documents are available on SEDAR.

(b) **Financial Instrument Contracts**— see Financial and Other Instruments section below

### (c) Credit Facility

Holdings has a \$75,000 revolving credit facility, \$15,061 of which was allocated, but not drawn as of March 31, 2006, to support letters of credit for contingent liabilities at several projects. \$10,000 was drawn under the revolving term credit facility as of March 31, 2006.

### (d) Office Operating Lease Obligations

The Manager subleases its office space from ArcLight, under an agreement through 2014. The obligations under this sublease are \$130 per year in 2006-2007 and a total of \$933 for the period 2008-2014.

**(e) Management and Incentive Fees**

The Company pays a management fee under the Management Agreement that is subject to adjustment for acquisitions as agreed to by the Company and Holdings' Independent Managers, plus incentives, inflation adjustment and expenses. The Company paid the Manager \$871 in management and incentive fees during the period ended March 31, 2006.

**(f) Subordinated Notes**

As of March 31, 2006, the Company had \$250,755 outstanding of 11% subordinated notes due 2016. The notes pay interest only until their maturity.

**RELATED PARTY TRANSACTIONS**

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid (i) an annual management fee, (ii) reimbursement of costs, and (iii) an incentive fee equal to 25% of the excess in distributions paid to IPS holders and Existing Investors during the year above Cdn \$1.00 per IPS. The Management Agreement has an initial term of 20 years from the Company's November 2004 IPO. The Manager is owned by ArcLight Funds. Subsidiaries of the ArcLight Funds along with a subsidiary of Caithness Energy owned 41.9% of Holdings' common membership interests after the IPO, but reduced their interest to 29.9% in October 2005.

The seven-person Board of Managers of Holdings includes two members from the manager of the ArcLight Funds who were appointed by the Existing Investors, and the President/CEO of the Manager. These three individuals may not vote on any proposed acquisitions by Holdings of projects from the ArcLight Funds.

The Manager receives administrative and office support services from the manager of the ArcLight Funds under a Management Support Agreement. This agreement also requires ArcLight and its affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for ArcLight Fund I and Fund II or other investment funds managed by ArcLight or its affiliates.

At the time of the IPO, Holdings was granted a right of first offer ("ROFO") on a number of power producing projects owned by the ArcLight Energy Partners Fund. As of March 31, 2006, the 90 MW Auburndale project located in Florida remains subject to the ROFO agreement.

As discussed under Contractual Obligations above, the Manager subleases its office space from ArcLight, under an agreement that runs through 2014.

Caithness Energy has an indirect ownership interest in one of the Existing Investors. Subsidiaries of Caithness Energy provide operations, maintenance and accounting at four of the Projects and administrative and project management functions for an additional eight Projects under agreements which are in effect through 2007 and renewable thereafter. During the year ended March 31, 2006, Holdings incurred fees and expenses of \$687 for these services provided by Caithness Energy.

**FINANCIAL AND OTHER INSTRUMENTS**

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates as the Company earns its income principally in the United States and has the obligations to make distributions predominantly in Canadian dollars. The Company has entered into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2010 at the current annual distribution level of Cdn. \$1.03 per IPS to

all holders including the Existing Investors, as well as interest payments on the separate Subordinated Notes. It is the Company's intention to extend the length of these forward contracts out to five years at or near the end of each year. As planned, changes in the fair market value of the Company's forward contracts partially offset set exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations.

For the period ended March 31, 2006, the Company has forward contracts to sell U.S. \$4,811 and receive Cdn. \$5,800 monthly through December 2009. The Company also has forward contracts to sell U.S. \$5,236 and receive Cdn. \$5,877 monthly during 2010. The average rate during the period to December 2009 is \$1.2055 and \$1.1225 during 2010.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark to market adjustments of the foreign currency forward contracts are reflected in foreign exchange gains and losses. The foreign exchange contracts are classified as other assets.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects to cash flow of changing natural gas prices, which is a major component of project expenses. Some of these contracts have been designated as hedges for accounting purposes. In addition, other projects have entered into natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

The Company has an Indexed Swap under which the company receives monthly payments based upon the differential between an indexed contract price and a market reference price for electricity through June 2008. In order to lock in favourable gas, power, and capacity pricing under the Indexed Swap, the Company has entered into an Indexed Swap Hedge. Refer to Note 8 of the unaudited consolidated financial statements

## **ACCOUNTING ESTIMATES**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the period presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property plant and equipment and power purchase contracts, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives.

The Company has acquired the majority of its long-term assets through acquisitions. In applying the purchase method of accounting, the Company is required to fair value the assets acquired including the property plant and equipment and intangible assets. The determination of these fair values is complex and involves significant judgments.

Revenue recognition is based on monthly invoices by Projects to electricity and steam buyers and in one case with fluctuating rates over time, the average rate over the term of the PPA is used for revenue with the difference between cash received and revenue recognized as deferred revenue. Fixed asset valuations of power plants are based on depreciated replacement cost. Valuations of PPAs and fuel supply agreements are based on the incremental net present value of cash flows provided by the agreement as compared to the merchant value of the plant. The Company typically uses outside consultants to determine the merchant value of a facility. On an on-going basis, the Company

monitors the performance of the facilities to determine if any recoverability issues exist or if any change in the useful life of the facility is required.

The future tax asset valuation allowance has been determined pursuant to the provisions of CICA 3465, Income Taxes, including the Company's estimation of future taxable income, where necessary, and is adequate to reduce the total future tax asset to an amount that will more likely than not be realized. It incurred taxable losses for the period ended March 31, 2005 and taxable income for the period ended March 31, 2006. The Company has limited operating history. It is not considered to be reasonably certain that future tax assets will be realized over the next few years. Accordingly, the Company has provided a valuation allowance equivalent to the Company's net future tax assets.

The fair value of financial instruments and derivatives such as the forward foreign currency contracts, interest rate swaps and natural gas swaps are typically based on market quotes. The Company also has an Indexed Swap and related hedge agreement, discussed in Note 8 to the unaudited consolidated financial statements. The fair value of these agreements are based on estimated on future cash flows taking into account certain assumptions, including forecasts of future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair values of these agreements.

For additional information regarding accounting policies and estimates refer to Note 1 of the consolidated financial statements for the year ended December 31, 2005.

## LITIGATION

One of Holdings' subsidiaries was previously a partner of Masspower. In July 2005, Masspower and its former partners were named as defendants in a suit filed by the Massachusetts Municipal Wholesale Electric Company ("MMWEC"), which holds a power purchase agreement entitling it to 7.86% of the capacity and energy of the facility. MMWEC alleges that Masspower has, among other things, breached the agreement by restructuring its natural gas contracts without MMWEC's approval. The Masspower partners filed an answer to the suit denying its material allegations. On December 28, 2005, the Masspower partners sold their interest in the facility to a third party. Under the terms of the purchase and sale agreement, the sellers are indemnified by the buyer with respect to any successful claim against Masspower Partners that may result from the resolution of the suit, which indemnity is secured by the plant. In addition, the buyer may use a portion of the sale price that was placed in escrow pending the outcome of the litigation process toward defense costs and potential claims. The Company has not recognized in income the \$437 portion of the sale proceeds placed in escrow. Management believes that the settlement of this dispute will have no material impact to the Company.

The Chambers partnership, in which Holdings owns a 40% indirect interest, has filed suit against its coal supplier, Consol Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things, (1) a declaratory judgment regarding the terms of the agreement, (2) damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defenses and counterclaims in its answer and the parties have completed the discovery process. Although the outcome of the matter is not certain, Management believes the coal supplier's affirmative defenses and counterclaims are without merit and the litigation is at too early a stage to estimate exposure.

Mid-Georgia Cogen ("MGC") buys its gas from the Municipal gas Authority of Georgia ("MGAG"). MGAG filed a complaint seeking \$575 plus interest and seeking declaratory relief regarding how to interpret certain pricing provisions in the Natural Gas Supply Contract (the "Contract") among other issues. MGC has negotiated a standstill of the lawsuit that is in effect until May 25, 2006. During the

duration of the standstill MGC is investigating the option of changing gas suppliers as a resolution of MGAG's concerns. Management believes that MGAG's complaint is without merit.

The Rumford cogeneration facility purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague are disputing terms and compensation for certain terminal services provided by Sprague and Massey asserts that Rumford also has failed to pay certain amounts due under the coal supply agreement. The amounts in dispute are not material and management has not yet formed an expectation regarding the potential outcome of this suit. Massey continues to supply coal to the plant on a timely basis.

The annual audit for 2005 at one of the projects contains a going concern qualification in the Auditor's Letter based on the assessment that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, could require the Project to renegotiate the terms of its long term debt with its lenders in or around the year 2010. The Company is not expecting to receive any distributions from the project until after the debt is retired, as scheduled in 2018. In accordance with GAAP, a review of the recorded value of the project's assets indicated that no economic impairment has occurred as of March 31, 2006. There is a risk that conditions contributing to this assessment could further deteriorate and management will continue to monitor the project closely.

#### **OUTSTANDING SHARE DATA**

The Company had 44,339,500 IPSs outstanding at March 31, 2006.

#### **OUTLOOK**

In order to maintain stable distributions and provide long term growth, the Company will continue to focus on enhancing the financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

PPAs in the portfolio have various expirations and, in each case, the project's partners plan for that occurrence by evaluating various options in the market in order to continue maximizing project cash flows. For example, projects with PPA expirations in the 2008-2009 timeframe have already begun to prepare for potential new or extended power purchase arrangements. The new arrangements may involve responses to utility solicitations for capacity, direct negotiations with the original purchasing utility for PPA extensions, or arrangements with creditworthy marketers for tolling agreements, full service PPAs or the use of derivatives to lock in value. Neither Stone & Webster in its Technical Review nor Management assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations.

## **RISK FACTORS**

Atlantic Power's future performance and ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs and the Common Shares and Subordinated Notes represented thereby involves a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares, or Subordinated Notes or on the market price or value of IPSs, Common Shares or Subordinated Notes. A discussion of these risks and uncertainties can be found in the Company's Annual MD&A and Annual Information Form dated March 31, 2006.

## **ADDITIONAL INFORMATION**

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or at [www.sedar.com](http://www.sedar.com).

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2006 and 2005

(Unaudited)

---

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004 and continued to the Province of British Columbia on July 8, 2005. The Company issued income-participating securities ("IPS") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

**1. Basis of presentation:**

These interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2005, as set out in the 2005 Annual Report since they do not contain all the disclosures that are required by Canadian generally accepted accounting principles for annual financial statements. These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, using the same accounting policies and methods of computation as were used for the audited consolidated financial statements for the year ended December 31, 2005.

**2. Acquisitions:**

(a) 2004 acquisition:

The Company formed Atlantic Power Holdings, LLC ("Atlantic Holdings"), a Delaware limited liability company, for the purpose of acquiring indirect interests in 15 projects from Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC (the "Existing Investors") and acquired the interests of the Existing Investors in the projects that were held by their wholly owned subsidiaries.

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2003 and 2005

(Unaudited)

## 2. Acquisitions (continued):

On November 18, 2004, Atlantic Holdings acquired for total consideration of \$522,638 (including \$1,014 in acquisition costs) an indirect interest in 15 projects located primarily in the United States of America. The purchase price allocation is as follows:

Working capital	\$ 47,790
Equity investments	143,244
Property, plant and equipment	302,134
Power purchase and other contracts	108,515
Indexed swap and hedge, net	71,902
Other liabilities	(3,233)
Long-term debt	(103,286)
Gas transportation contract commitment	(38,008)
Future tax liability	(6,420)
Total purchase price	522,638
Less repayment of assumed debt	167,831
	354,807
Less cash acquired	12,000
	\$ 342,807
Consideration represented by:	
Cash paid, net of cash acquired	\$ 83,725
Non-controlling interest liability (note 4)	259,082
	\$ 342,807

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2006 and 2005

(Unaudited)

---

## 2. Acquisitions (continued):

### (b) Epsilon Power Partners, LLC acquisition:

On September 8, 2005, the Company acquired Epsilon Power Partners, LLC ("Epsilon") for cash consideration of \$65,008, including acquisition costs of \$564. Epsilon owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of a 262 megawatts pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's Chambers Works complex in southwestern New Jersey. The preliminary purchase price, as at December 31, 2005, has been allocated as follows:

---

Working capital	\$	9,541
Property, plant and equipment		142,817
Power purchase and other contracts		87,258
Other liabilities		(7,766)
Long-term debt		(166,842)
<hr/>		
Total purchase price		65,008
Less cash acquired		1,617
<hr/>		
Cash paid, net of cash acquired	\$	63,391

The property, plant and equipment will be amortized over its remaining life estimated as 23 years. The power purchase and other contracts will be amortized over periods ranging from 18 years to 23 years.

The Company remains in the process of finalizing its purchase price allocation and the tax basis of the assets acquired.

### (c) Project acquisition:

During the year ended December 31, 2005, Atlantic Holdings increased its interest in one of its existing projects. The fair value of the interest acquired by the Company was \$1,074 and was financed by cash consideration at the project level.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2006 and 2005  
(Unaudited)

### 3. Intangible assets:

Intangible assets include power purchase contracts, fuel supply agreement and license and rights.

	March 31, 2006	December 31, 2005
Power purchase agreements	\$ 14,832	\$ 14,832
Fuel supply agreements	110,403	110,403
Licenses and rights	70,538	70,538
	195,773	195,773
Less accumulated amortization	26,549	21,096
	\$ 169,224	\$ 174,677

Amortization expense of \$5,453 (2005 - \$3,722) was expensed during the quarter.

### 4. Other liabilities, non-controlling interest:

As of March 31, 2006, the Existing Investors have a 29.9% common membership interest in Atlantic Holdings (December 31, 2005 - 29.9%) and also have the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest to November 18, 2006. The repurchase of the Existing Investors' interests is conditional upon Atlantic Holdings being able, after utilizing its best efforts, to complete or cause the completion of an equity financing on terms acceptable to the managers of Atlantic Holdings who are independent of the Existing Investors and their affiliates, acting reasonably, to secure the necessary funds to enable it to purchase the Existing Investors' interests. Atlantic Holdings may only finance repurchases of Existing Investors' interests pursuant to the exercise of the rights by issuing additional equity securities. This may occur through the sale of equity interests to the Company, the purchase of which may be financed by a sale of IPS or other equity securities of the Company. These interests are treated as a liability of the Company and are recorded at fair value on the consolidated balance sheet. At March 31, 2006, to purchase the remaining 29.9% interest, 18,952,365 IPS would be required to be issued.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

Three months ended March 31, 2006 and 2005  
(Unaudited)

---

## 4. Other liabilities, non-controlling interest (continued):

The change in fair value of the non-controlling interest, resulting from changes in the fair market value of the Company's IPS, is recognized in the consolidated statement of income and deficit as change in fair value of non-controlling interest. For the three months ended March 31, 2006, a decrease of \$2,439 (2005 - \$5,493) is reflected in the consolidated statement of income and deficit.

The change in fair value of the non-controlling interest, resulting from foreign exchange, is recognized in the consolidated statement of income and deficit within foreign exchange gain. For the three months ended March 31, 2006, the foreign exchange gain related to the non-controlling interest was \$720 (2005 - \$1,471).

On October 3, 2005, the Company issued 7,539,000 IPS at a rate of Cdn. \$10.00 per IPS to Caisse de depot et placement du Quebec and officers of the Company in a secondary private placement. Gross proceeds were Cdn. \$75,390.

The net proceeds from the private placement were used by the Company to increase its common membership ownership in Atlantic Holdings from 58.1% to 70.1%. Atlantic Holdings concurrently redeemed membership interests held indirectly by the Existing Investors reducing the Existing Investors' common membership ownership from 41.9% to 29.9%.

## 5. Related party transactions:

During the three months ended March 31, 2006, in accordance with the Management Agreement, the Company paid management and incentive fees of \$871 (2005 - \$830) to Atlantic Power Management, LLC, the Manager.

In addition, the Company incurred expenses of \$687 (2005 - \$687) for operations and maintenance services provided by Caithness Energy, a company which holds an indirect interest in one of the Existing Investors. Caithness Energy provides operations and maintenance services to 12 of the Company's projects.

## 6. Basic income per share:

Basic income per share has been calculated using the weighted average number of units outstanding during the period of 44,339,500 (2005 - 36,800,000).

Three months ended March 31, 2006 and 2005

(Unaudited)

---

## 7. Commitments and contingencies:

- (a) Chambers, in which the Company owns a 40% indirect interest, has filed suit against its coal supplier, Consol Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things, (1) a declaratory judgement regarding the terms of the agreement, (2) damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defences and counterclaims in its answer, including claims of unjust enrichment and fraud, and the parties are currently in the discovery process. Although the outcome of the matter is not certain, management of the Company believe the coal supplier's affirmative defences and counterclaims are without merit and the situation is at too early a stage to estimate exposure.
- (b) In July 2005, Masspower and its former partners, including a subsidiary of the Company, were named as defendants in a suit filed by the Massachusetts Municipal Wholesale Electric Company ("MMWEC"), which holds a power purchase agreement entitling it to 7.86% of the capacity and energy of the facility. MMWEC alleges that Masspower has, among other things, breached the agreement by restructuring its natural gas contracts without MMWEC's approval. The Masspower partners filed an answer to the suit denying its material allegations. On December 28, 2005, the Masspower partners sold their interest in the facility to a third party. Under the terms of the purchase and sale agreement, the sellers are indemnified by the buyer with respect to any successful claim against the Masspower partners that may result from the resolution of the suit, which indemnity is secured by the plant. In addition, the buyer may use a portion of the sale price that was placed in escrow pending the outcome of the litigation process toward defence costs and potential claims. The Company has not recognized in income the portion of the sales proceeds placed in escrow on the sale of Masspower of \$437. Management believes that the settlement of this dispute will have no material impact to the Company.
- (c) Mid-Georgia Cogen ("MGC") buys its gas from the Municipal Gas Authority of Georgia ("MGAG"). MGAG filed a complaint seeking \$575 plus interest and seeking declaratory relief regarding how to interpret certain pricing provisions in the Natural Gas Supply Contract (the "Contract") among other issues. MGC has negotiated a standstill of the lawsuit that is in effect until May 25, 2006. During the pendency of the standstill, MGC is investigating the efficacy of changing gas suppliers as a resolution of MGAG's concerns. While MGC prefers to settle the issue by means other than litigation, management believes that MGAG's complaint is without merit.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2006 and 2005

(Unaudited)

## 7. Commitments and contingencies (continued):

- (d) The Rumford cogeneration facility purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague are disputing terms and compensation for certain terminal services provided by Sprague. Massey asserts that Rumford also has failed to pay certain amounts due under the coal supply agreement. The amounts in dispute are not material and management has not yet formed an expectation regarding the potential outcome of this suit. Massey continues to supply coal to the plant on a timely basis.
- (e) The 2005 financial statements of one of the Company's proportionately consolidated joint ventures contains a going concern qualification in the auditors' report based on the assessment that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, could need to renegotiate with its lenders in or around the year 2010.
- (f) The Company has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,608 monthly through December 2009. The Company also has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,209 monthly during 2010. The average rate during the period to December 2009 is \$1.2055 and \$1.1225 during 2010.

The foreign exchange gain of \$1,553 (2005 - \$3,658) during the three months ended March 31, 2006, primarily reflects unrealized foreign exchange gains on the U.S. dollar equivalent of the Company's Canadian dollar denominated obligation to non-controlling interests and subordinated notes, unrealized foreign exchange losses on the changes in the fair market value of the Company's forward contracts and realized foreign exchange gains on forward contract settlements during the period.

	Three months ended March 31,	
	2006	2005
Subordinated notes	\$ 1,076	\$ 1,300
Non-controlling interest	720	1,471
Forward contracts	(985)	1,068
Unrealized foreign exchange gains	811	3,839
Realized foreign exchange gains (losses) on forward contract settlements	742	(181)
	\$ 1,553	\$ 3,658

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months ended March 31, 2006 and 2005

(Unaudited)

## 8. Indexed swap:

A swap agreement (the "Indexed Swap") between the power utility and Onondaga Cogeneration Limited Partnership ("Onondaga") has replaced the Project's original power purchase contract. The Indexed Swap expires on June 30, 2008. The Indexed Swap is a financial instrument under which the utility company makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full term of the Indexed Swap.

In May 2004, Onondaga contributed the Indexed Swap to a newly formed wholly owned special purpose subsidiary, Onondaga Power Swap Holdings, LLC ("OPSH"). Onondaga has guaranteed OPSH's obligations to the utility company under the Indexed Swap. Also in May 2004, OPSH entered into commodity hedges (the "Indexed Swap Hedge"), in order to lock in favourable gas, power and capacity pricing under the Indexed Swap. The hedges extend through June 30, 2008 and remove almost all commodity exposure from the Indexed Swap through its term.

Changes related to the Indexed Swap are summarized below:

	Three months ended March 31,	
	2006	2005
Fair value, beginning of period	\$ 107,914	\$ 99,591
Increase (decrease) in fair value during the period	(12,625)	6,915
Settlements paid	(8,539)	(7,407)
Fair value, end of period	\$ 86,750	\$ 99,099

Changes related to the Indexed Swap Hedge:

	Three months ended March 31,	
	2006	2005
Fair value, beginning of period	\$ 58,547	\$ 30,293
Increase (decrease) in fair value during the period	(13,968)	6,707
Settlements received (paid)	(2,393)	981
Fair value, end of period	\$ 42,186	\$ 37,981

**Atlantic Power Corporation Announces April 2006 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of April 2006. A distribution of \$0.0859 per Income Participating Security (“IPS”) will be payable on May 31, 2006 to holders of record at the close of business on April 28, 2006.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0859 reflects a cash dividend per common share of \$0.0330 and an interest payment of \$0.0529 for the month of April 2006.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

## **Atlantic Power Corporation Announces Strong Fourth Quarter and Year-End 2005 Results**

### **2005 Highlights:**

- **Completed accretive acquisition of 40% interest in Chambers project**
- **Sold MASSPOWER asset and contracts for significant contribution to cash flow**
- **Increased ownership at Gregory project**
- **Executed accretive new Power Purchase Agreements at two existing projects**
- **Enhanced operating performance and cash flow at existing facilities**
- **Increased annual cash distributions by CDN \$0.03 per IPS to CDN \$1.03 per IPS**
- **Increased ownership in Holdings to 70.1% through private placement of 7.5mm IPSs**
- **Conservative annual 66.7% payout ratio**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (the "Company") today announced its results for the three months and year ended December 31, 2005. All amounts are in US dollars unless otherwise indicated.

"We were very pleased with our operating and financial results in 2005 as we delivered on all of our stated growth strategies and objectives," commented Barry Welch, President and CEO. "With this strong performance, we implemented our first increase in monthly cash distributions during the year."

### **Chambers Acquisition**

In September the Company completed the acquisition of a 40% interest in a 262 MW coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's Chambers Works complex in southwestern New Jersey. The cash purchase price of approximately \$65.0 million was funded by cash on hand and a draw on the revolving credit facility. The acquisition diversified the portfolio's fuel mix, increased its off taker diversity, lengthened the weighted average term of its power purchase portfolio and increased the Company's aggregate net interests of power generating capacity. The acquisition was also immediately accretive to the Company's cash flow.

With the completion of the Chambers acquisition, the Company increased annualized cash distributions by Cdn \$0.03 per Income Participating Security ("IPS") to Cdn \$1.03 per year effective with the September 2005 payment.

### **Masspower Disposition**

On December 28, 2005 the Company sold its 17.5% interest in the 267 MW Masspower project following the buyout of three of the project's four power purchase agreements ("PPAs") and subsequent disposition of its fuel contracts during 2005. The Company's share of the total distributions generated from operations, PPA restructuring, fuel contract disposals and sale of the facility in 2005 totaled approximately \$62.2 million. The disposition proceeds of approximately \$59.4 million exceeded the net present value of future cash flows

projected at the time of the IPO by over \$20 million, and were successfully redeployed to complete the accretive Chambers acquisition.

### **Improved Operating Margins and PPA Extensions**

During 2005, the Company generated improved operating margins at a number of facilities, and increased its indirect ownership interest at the Gregory project to 17.1% from 9.4%.

During 2005 new power purchase agreements (PPAs) were executed at the Gregory and Rumford projects. Earlier projections had anticipated no distributions in 2006 and beyond for the Rumford project, the Company now expects approximately \$4 to 6 million in 2006 and is working with the project's other partners to lock in profits over a longer period. At the Gregory facility a new PPA with a better credit quality customer was negotiated through 2008 to replace a contract that expired in 2005. As a result, the previously anticipated economics of the project through 2008 will be significantly improved.

"These transactions are excellent examples of how we are proactively managing our PPA expirations and adding incremental cash flow by leveraging our solid asset base and significant experience in the industry for the benefit of our investors," Mr. Welch added.

### **Strong Performance in 2005**

Cash Flow Available for Distribution for the year ended December 31, 2005 was \$46.7 million or Cdn \$1.46 per IPS. Distributions declared for the year were \$32.5 million or Cdn \$1.01 per IPS. The payout ratio was 66.7% in 2005.

The Company generated project revenue of \$184.7 million and project income of \$48.3 million for the year. The net loss for the twelve months ended December 31, 2005 was \$0.5 million or \$0.01 (Cdn \$0.01) per IPS.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") at the Company's power producing projects increased 20% in 2005 compared to the prior year, excluding MASSPOWER and the deferred revenue adjustment at Mid-Georgia. The increase in EBITDA is primarily due to favorable impacts from improved operating margins at the Lake, Orlando, and Pasco projects, increased ownership in the Gregory project combined with its new PPA that benefits from high gas costs, and almost four months of ownership in Chambers, offset by higher fuel costs at Selkirk slightly above the amount that can be passed through to the customer, and as expected, lower-scheduled swap settlement payments received at Onondaga.

A breakdown of unaudited EBITDA by individual project for the three months and year ended December 31, 2005 is provided in the attached Appendix

### **Solid Fourth Quarter Results**

For the three months ended December 31, 2005, Cash Flow Available for Distribution was \$20.6 million (Cdn \$0.54 per IPS). Distributions declared in the quarter were \$9.8 million (Cdn \$0.26 per IPS), resulting in a payout ratio of 47.3%. The Company generated project revenue of \$58.0 million and project income of \$7.7 million in the fourth quarter of 2005. The net loss for the three months ended December 31, 2005 was \$2.7 million or \$0.06 (Cdn \$0.07) per IPS.

The fourth quarter calculation of cash flow available for distribution benefited from adding back the \$5,519 finalized estimate of tax payable on the MASSPOWER disposal, which was not added back in the calculation for prior interim periods of 2005.

EBITDA at the Projects increased 24% in the quarter compared to the year earlier period, excluding MASSPOWER and the deferred revenue adjustment at Mid-Georgia. The increase is primarily due to improved operating margins at the Lake, Orlando and Pasco projects, the increased ownership in the Gregory project combined with its new PPA, and a full quarter of ownership in the Chambers project, partially offset by lower scheduled swap settlements at Onondaga and the effect of fuel cost pass through limitations at Selkirk as

discussed above. "We were pleased with our results in 2005, and anticipate continuing solid and stable performance going forward," Mr. Welch concluded.

Mark Byskov, Atlantic's CFO, has informed the Company that for personal reasons he will be leaving his CFO position. The Company has hired an executive recruiting firm to retain a CFO. Mr. Byskov has committed to remain in the position through June 30, 2006 to help affect an orderly transition. "Mark has done a tremendous job of building our financial reporting infrastructure and I respect his decision to rejoin his family in Toronto", said Mr. Welch

The Company's financial statements for the period and Management's Discussion and Analysis, are available on the Company's web site at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com) or [www.sedar.com](http://www.sedar.com).

Atlantic Power Corporation owns interests in a diversified portfolio of sixteen power generation projects located primarily in major markets in the United States. The Company's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the projects and the anticipated financial results of the Company. Such statements are subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions.

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities to Cash Flow Available for Distributions is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

EBITDA, earnings before interest, taxes, depreciation and amortization, is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

Periods Ended (Unaudited)	December 31, 2005	December 31, 2005
	(3 months)	(12 months)
<b>Cash Flow Available For Distributions</b>		
Cash flows from operating activities <sup>(1)</sup>	19,473	38,370
Project level debt repayment	(10,052)	(20,679)
Interest on IPS portion of subordinated notes	6,009	20,346
Income tax withholding installments recoverable <sup>(2)</sup>	768	7,682
Income tax payable on disposal of equity investment <sup>(3)</sup>	5,519	5,519
Addition to property, plant and equipment	(1,068)	(2,558)
Cash flow available for distribution, USD	20,649	48,680
<b>Cash flow available for distribution, Cdn.</b>	<b>24,013</b>	<b>58,981</b>
<b>Distributions</b>		
Interest on IPS subordinated notes	6,009	20,346
Dividend on IPS common shares	3,751	12,102
Total IPS distributions, USD	9,760	32,448
<b>Total IPS distributions, Cdn.</b>	<b>11,421</b>	<b>39,124</b>
<b>Cash flow available for distribution per IPS, Cdn.</b>	<b>0.54</b>	<b>1.46</b>
<b>Total distribution per IPS, Cdn</b>	<b>0.26</b>	<b>1.01</b>

- 1) In previous quarters, MASSPOWER's distributions in respect of disposal proceeds were included in Cash flows from operating activities and separately netted out of Cash flow available for distribution. Those proceeds now appear as a disposal in the financing activities section of the statement of cash flows.
- 2) Represents the portion of income tax withholding installments paid during the quarter related to operating activities which are anticipated to be recoverable by the Company.
- 3) In the second and third quarters estimated tax payments of \$5,281 on MASSPOWER disposals were not added back in the calculation of cash flow available for distribution. This fourth quarter calculation benefits from adding back the entire \$5,519 finalized estimate of tax payable on the MASSPOWER disposal.

## **Atlantic Power Corporation Announces Strong Fourth Quarter and Year-End 2005 Results**

### **2005 Highlights:**

- **Completed accretive acquisition of 40% interest in Chambers project**
- **Sold MASSPOWER asset and contracts for significant contribution to cash flow**
- **Increased ownership at Gregory project**
- **Executed accretive new Power Purchase Agreements at two existing projects**
- **Enhanced operating performance and cash flow at existing facilities**
- **Increased annual cash distributions by CDN \$0.03 per IPS to CDN \$1.03 per IPS**
- **Increased ownership in Holdings to 70.1% through private placement of 7.5mm IPSs**
- **Conservative annual 66.7% payout ratio**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (the “Company”) today announced its results for the three months and year ended December 31, 2005. All amounts are in US dollars unless otherwise indicated.

“We were very pleased with our operating and financial results in 2005 as we delivered on all of our stated growth strategies and objectives,” commented Barry Welch, President and CEO. “With this strong performance, we implemented our first increase in monthly cash distributions during the year.”

### **Chambers Acquisition**

In September the Company completed the acquisition of a 40% interest in a 262 MW coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company’s Chambers Works complex in southwestern New Jersey. The cash purchase price of approximately \$65.0 million was funded by cash on hand and a draw on the revolving credit facility. The acquisition diversified the portfolio’s fuel mix, increased its off taker diversity, lengthened the weighted average term of its power purchase portfolio and increased the Company’s aggregate net interests of power generating capacity. The acquisition was also immediately accretive to the Company’s cash flow.

With the completion of the Chambers acquisition, the Company increased annualized cash distributions by Cdn \$0.03 per Income Participating Security (“IPS”) to Cdn \$1.03 per year effective with the September 2005 payment.

### **Masspower Disposition**

On December 28, 2005 the Company sold its 17.5% interest in the 267 MW Masspower project following the buyout of three of the project’s four power purchase agreements (“PPAs”) and subsequent disposition of its fuel contracts during 2005. The Company’s share of the total distributions generated from operations, PPA restructuring, fuel contract disposals and sale of the facility in 2005 totaled approximately \$62.2 million. The disposition proceeds of approximately \$59.4 million exceeded the net present value of future cash flows

projected at the time of the IPO by over \$20 million, and were successfully redeployed to complete the accretive Chambers acquisition.

### **Improved Operating Margins and PPA Extensions**

During 2005, the Company generated improved operating margins at a number of facilities, and increased its indirect ownership interest at the Gregory project to 17.1% from 9.4%.

During 2005 new power purchase agreements (PPAs) were executed at the Gregory and Rumford projects. Earlier projections had anticipated no distributions in 2006 and beyond for the Rumford project, the Company now expects approximately \$4 to 6 million in 2006 and is working with the project's other partners to lock in profits over a longer period. At the Gregory facility a new PPA with a better credit quality customer was negotiated through 2008 to replace a contract that expired in 2005. As a result, the previously anticipated economics of the project through 2008 will be significantly improved.

"These transactions are excellent examples of how we are proactively managing our PPA expirations and adding incremental cash flow by leveraging our solid asset base and significant experience in the industry for the benefit of our investors," Mr. Welch added.

### **Strong Performance in 2005**

Cash Flow Available for Distribution for the year ended December 31, 2005 was \$46.7 million or Cdn \$1.46 per IPS. Distributions declared for the year were \$32.5 million or Cdn \$1.01 per IPS. The payout ratio was 66.7% in 2005.

The Company generated project revenue of \$184.7 million and project income of \$48.3 million for the year. The net loss for the twelve months ended December 31, 2005 was \$0.5 million or \$0.01 (Cdn \$0.01) per IPS.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") at the Company's power producing projects increased 20% in 2005 compared to the prior year, excluding MASSPOWER and the deferred revenue adjustment at Mid-Georgia. The increase in EBITDA is primarily due to favorable impacts from improved operating margins at the Lake, Orlando, and Pasco projects, increased ownership in the Gregory project combined with its new PPA that benefits from high gas costs, and almost four months of ownership in Chambers, offset by higher fuel costs at Selkirk slightly above the amount that can be passed through to the customer, and as expected, lower-scheduled swap settlement payments received at Onondaga.

A breakdown of unaudited EBITDA by individual project for the three months and year ended December 31, 2005 is provided in the attached Appendix

### **Solid Fourth Quarter Results**

For the three months ended December 31, 2005, Cash Flow Available for Distribution was \$20.6 million (Cdn \$0.54 per IPS). Distributions declared in the quarter were \$9.8 million (Cdn \$0.26 per IPS), resulting in a payout ratio of 47.3%. The Company generated project revenue of \$58.0 million and project income of \$7.7 million in the fourth quarter of 2005. The net loss for the three months ended December 31, 2005 was \$2.7 million or \$0.06 (Cdn \$0.07) per IPS.

The fourth quarter calculation of cash flow available for distribution benefited from adding back the \$5,519 finalized estimate of tax payable on the MASSPOWER disposal, which was not added back in the calculation for prior interim periods of 2005.

EBITDA at the Projects increased 24% in the quarter compared to the year earlier period, excluding MASSPOWER and the deferred revenue adjustment at Mid-Georgia. The increase is primarily due to improved operating margins at the Lake, Orlando and Pasco projects, the increased ownership in the Gregory project combined with its new PPA, and a full quarter of ownership in the Chambers project, partially offset by lower scheduled swap settlements at Onondaga and the effect of fuel cost pass through limitations at Selkirk as

discussed above. "We were pleased with our results in 2005, and anticipate continuing solid and stable performance going forward," Mr. Welch concluded.

Mark Byskov, Atlantic's CFO, has informed the Company that for personal reasons he will be leaving his CFO position. The Company has hired an executive recruiting firm to retain a CFO. Mr. Byskov has committed to remain in the position through June 30, 2006 to help affect an orderly transition. "Mark has done a tremendous job of building our financial reporting infrastructure and I respect his decision to rejoin his family in Toronto", said Mr. Welch

The Company's financial statements for the period and Management's Discussion and Analysis, are available on the Company's web site at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com) or [www.sedar.com](http://www.sedar.com).

Atlantic Power Corporation owns interests in a diversified portfolio of sixteen power generation projects located primarily in major markets in the United States. The Company's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the projects and the anticipated financial results of the Company. Such statements are subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions.

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities to Cash Flow Available for Distributions is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

EBITDA, earnings before interest, taxes, depreciation and amortization, is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the audited financial statements of Atlantic Power Corporation ("Atlantic Power" or the "Company") for the year ended December 31, 2005. All amounts described in the management discussion and analysis of financial condition and results of operations are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP"). This management discussion and analysis of financial condition and results of operation also contains forward looking statements, which are subject to a variety of factors. When used in this MD&A, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the projects. Such statements are subject to a variety of risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather, economic conditions and other factors that could cause actual results to differ materially from those contemplated by these statements. Some of the factors that could cause results or events to differ from current expectations include, but are not limited to, the factors described under "Risk Factors". Information contained in this management discussion and analysis is based on information available to management as of March 31, 2006.

Copies of financial data and other publicly filed documents are available through the internet on SEDAR at [www.sedar.com](http://www.sedar.com) under Atlantic Power Corporation.

### OVERVIEW

The Company completed its Initial Public Offering ("IPO") on November 18, 2004 and after the exercise of the underwriter's over-allotment on December 6, 2004, it owned 58.1% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Power Holdings, LLC ("Holdings"). Holdings was formed initially to acquire indirect interests in a diversified portfolio of power generating facilities (the "Projects") located primarily in major markets in the United States from ArcLight Energy Partners Funds I and II (the "ArcLight Funds") and Caithness Energy (such entities, together, the "Existing Investors"). The Company currently has 44,339,500 Income Participating Securities ("IPSs") outstanding and owns 70.1% of Holdings. Each IPS represents one common share of the Company ("Common Shares") and Cdn. \$5.767 aggregate principal amount of 11% subordinated notes of the Company ("Subordinated Notes").

As of December 31, 2005 Holdings owned interests in fourteen projects in the United States and one in Jamaica with a combined total power generating capacity of 2,156 megawatts ("MW"). Holdings' interests in the Projects represented approximately 860 MW of power generating capacity as of December 31, 2005. Most of the Projects sell their power under long term power purchase agreements ("PPAs") to investment grade utilities. These agreements are typically structured to stabilize cash flows by 1) providing a significant revenue component of steady capacity payments generally designed to provide a return of and on capital plus cover most fixed operating costs regardless of how much electricity it is called to produce, provided that the plant meets an availability requirement and 2) passing through most of the Projects' fuel costs to the utilities. As a result, effects on the portfolio's cash flow changes in the amount of power generated, spot market electricity prices and fuel price changes are significantly mitigated.

The Company's objectives are to maintain the stability and sustainability of cash distributions to holders of IPSs in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares. To achieve these objectives, Company management, working directly with project managers, focuses on enhancing the operation of the existing Projects by improving facility performance, increasing output, optimizing contracts and hedging cash flows when practicable. In addition, the Company has a focused growth strategy that includes the consolidation of interests in Projects that it currently owns and making accretive acquisitions with a primary focus on power generating facilities in the United States.

## **SUMMARY OF SIGNIFICANT EVENTS**

On January 12, 2005, Holdings increased its indirect interest in the Gregory project from 9.4% to 17.1% or 68 net MW. The interest was acquired indirectly via Holding's interest in Javelin and was accomplished using cash available at the project level, discussed further in Acquisitions and Dispositions.

On September 8, 2005, Holdings acquired an indirect 40% interest in Chambers Cogeneration, LP, which owns and operates a 262 MW coal-fired cogeneration plant in southwestern New Jersey, discussed further in Acquisitions and Dispositions. On the same day, the Company also announced a Cdn \$0.03 increase in its annual distribution per IPS to Cdn\$1.03 per year, commencing with the September distribution.

On October 3, 2005, the Company issued 7.5 million Income Participating Securities ("IPSs") to Caisse de dépôt et placement du Québec ("the Caisse") at a price of Cdn\$ 10.00 per IPS in a private placement. Net proceeds, along with proceeds from the issuance of 39,500 IPSs to certain officers of the Company, were used to increase the Company's common membership interest in Holdings to 70.1%. The remaining 29.9% of the common membership interests and all of the outstanding Class B preferred membership interests in Holdings are owned by the Existing Investors.

On December 28, 2005, Holdings sold its 17.5% interest in the 267 MW MASSPOWER project following the restructuring of the project's PPAs and subsequent disposition of its gas supply and transportation contracts, which is discussed further in Acquisitions and Dispositions.

## **NON-GAAP FINANCIAL MEASURES**

Cash Flow Available for Distribution is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distribution is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities from the Company's financial statements to Cash Flow Available for Distribution is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate unaudited EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance. A reconciliation of 2005 project EBITDA to project income Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

## **RESULTS OF OPERATIONS FOR THE THREE AND TWELVE MONTH PERIODS ENDED DECEMBER 31, 2005**

The Company commenced operations on November 18, 2004 on completion of its IPO and the acquisition of interests in fifteen non-utility power projects. The Company did not hold any material assets prior to November 18, 2004 and is considered to have begun operations on that date. The financial results for the year ended December 31, 2005 include the contribution from the 40% interest in the Chambers project, acquired on September 8, 2005 and the sale of the MASSPOWER project interest (see Acquisitions & Dispositions). Since the prior year period that ended on December 31, 2004 was only 6 weeks in length, no meaningful comparison of financial information is available. As of December 31, 2005, the Company had PPAs with 16 customers. Details on the length of the PPAs for each Project are presented in the table in the Project Portfolio section below.

Project Income is the primary determinant of the Company's operating results and is discussed in the Project Performance sections below. Within Administrative and Other Expenses, the cash items are expected to be relatively steady, including management fees and administration, net interest (principally interest on Subordinated Notes and revolving credit facility) and the distribution to non-controlling interest (29.9% of Holdings owned by Existing Investors at December 31, 2005, 41.9% at December 31, 2004). Significant non-cash items subject to potentially significant fluctuations include the change in fair value of the non-controlling investors, which is based on the change in price of the Company's IPSs from period to period, and the non-cash portion of the foreign exchange gain or loss, reflecting the impact of FX changes from period to period on the value of the Company's Canadian dollar denominated debt and the mark-to-market value of currency hedges.

Net Income for the three months ended December 31, 2005 was negatively impacted by increased amortization resulting from the finalization of the purchase price allocation with respect to projects acquired November 18, 2004 and positively impacted by the inclusion of Chambers for the full quarter.

### **BREAKDOWN OF SUMMARY FINANCIAL INFORMATION**

Appendix I to this MD&A provides an unaudited non-GAAP breakdown of the 2005 summary Income Statement and Balance Sheet information into the categories of 1) Consolidated and proportionately consolidated, 2) Proportionate share of Equity Investments, and 3) Corporate.

### **PROJECT PERFORMANCE: THREE MONTH PERIOD ENDING DECEMBER 31, 2005**

EBITDA at the Projects was up 24%, excluding the Masspower disposals and the deferred revenue adjustment at Mid-Georgia. Significant contributors to the increased EBITDA included 1) improved operating margins at the Lake, Orlando and Pasco projects, 2) increased ownership in the Gregory project combined with a new PPA, and 3) a full quarter of Chambers ownership. Offsetting the increase in part were expected lower scheduled swap settlements at Onondaga and the effect of fuel cost pass-through limitations at Selkirk as is more fully discussed in the following section.

While aggregate generation was up by 15%, plant availability declined by 3.9% at the Projects during the fourth quarter of 2005 compared to the fourth quarter of 2004. The comparative increase in generation in the fourth quarter 2005 is due to a modest increase in dispatch at Selkirk, increased ownership at Gregory and a full quarter of Chambers offset in part by reduced generation resulting from a major planned outage at Gregory in 2004. Availability decreases are primarily driven by an extension of the 2005 planned outage at Orlando and both planned and forced outages at Gregory. Generation can be higher while plant availability is lower based on the degree to which the plants are called upon, or dispatched, to run during their available hours.

## SUMMARY OF FINANCIAL RESULTS

Periods Ended	December 31,	December 31,
	2005	2005
	<u>(3 months)</u>	<u>(12 months)</u>

<b>Net income (loss)</b>	<b>2,738</b>	<b>(509)</b>
<i>Per IPS, USD</i>	<i>0.06</i>	<i>(0.01)</i>
<i>Per IPS, Cdn.</i>	<i>0.07</i>	<i>(0.02)</i>
Total assets	926,630	926,630
Long-term debt	224,482	224,482
Subordinated notes	251,844	251,844
Non-controlling interests	169,479	169,479
Index swap hedge	33,453	33,453
Other liabilities	39,827	39,827
Total long-term liabilities <sup>(6)</sup>	719,085	719,085
Cash flows from operating activities	19,473	38,730
Distributions <sup>(6)</sup>	9,760	32,448
<i>Per IPS, USD</i>	<i>0.22</i>	<i>0.83</i>
<i>Per IPS, Cdn.</i>	<i>0.26</i>	<i>1.01</i>

(1) Project revenue and project expenses of Holdings' interests in ten projects, including two wholly owned projects which are consolidated, and eight proportionately consolidated projects with interests ranging from 40% to 50%. (Refer to Accounting Treatment presented in the table in the Project Portfolio section later.)

- (2) Includes equity in earnings from partnerships of \$(7,928) for the three-month period and \$8,446 for the twelve-month period from five projects in which Holdings owns interests of between 17.1% and 40%, accounted for on an equity basis.
- (3) Distributions declared to Existing Investors.
- (4) As of December 31, 2004, Existing Investors owned a 41.9% non-controlling interest in Holdings with certain Liquidity Rights to request that the Company use best efforts to issue equity securities (including IPSs) to raise proceeds that would indirectly be used to redeem portions of the Existing Investors' interest. On October 3, 2005, the Existing Investors reduced their common membership interests in Holdings to 29.9%. Until November 18, 2006, the Existing Investors must maintain a minimum 10% aggregate ownership interest in Holdings. This amount represents the mark-to-market change during the reporting period in the potential obligation of the Company to issue securities to redeem the *entire* Existing Investors' interests in Holdings based on the change in market price per IPS from Cdn. \$10.75 at December 31, 2004 and September 30, 2005 to Cdn. \$10.40 at December 31, 2005.
- (5) Net impact of foreign exchange on the US dollar equivalent of Canadian dollar denominated debt, the mark-to-market value of currency hedges and realized foreign exchange gains and losses for the period.
- (6) Distributions declared during the reporting period.

### **PROJECT PERFORMANCE: YEAR ENDED DECEMBER 31, 2005**

Aggregate generation was up 5% and availability was down 1% at the Projects during 2005 compared to the prior full year operating history of the Projects. EBITDA at the Projects was up 20% for the year, excluding the Masspower disposals and a deferred revenue adjustment at Mid-Georgia. Significant factors in this EBITDA increase include 1) favorable impacts from improved operating margins at the Lake, Orlando, and Pasco projects, 2) increased ownership in the Gregory project combined with a new PPA at that project that benefits from high gas costs and 3) almost four months of Chambers ownership, offset by unfavorable impacts from 1) fuel costs under recently renewed fuel supply agreements at Selkirk that increased during the period to slightly above the formulaic amount that can be passed through to the utility under one of its PPAs and 2) lower-scheduled swap settlement payments received at Onondaga.

Among the Company's largest costs is the supply of natural gas, coal and other fuels. Fuel costs, particularly natural gas costs, were at historically high levels in the US throughout the reporting period. However, the majority of the PPAs provide for the pass-through or indexing of fuel costs to the off-takers. Therefore, EBITDA has not been significantly impacted by the higher prices. Some projects, like Gregory, show margin improvements at higher gas prices. Selkirk extended the term of three of its four gas purchase agreements towards the end of 2004 and replaced the fourth contract effective November 1, 2005. While most of the gas cost is passed through in the power purchase price under the Project's PPA with Consolidated Edison, there is a formulaic cap in the energy payment that may be slightly exceeded at some times by the project's fuel cost. During the year ended December 31, 2005 this cap was exceeded at times, resulting in slightly reduced margins at Selkirk.

### **CASH FLOW FROM OPERATIONS AND RESERVE ACCOUNT**

The Company's cash flow from the Projects will vary from year to year based on, among other things, changes in rates under the PPAs, fuel supply and transportation agreements, steam sales agreements and other project contracts, compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the operating performance of the Projects. Project cash flows themselves may have some seasonality and the pattern and frequency of distributions from Projects to Holdings during the year can also vary.

The Company's cash flow from operations was \$19,473 and \$38,370 for the three-month period and year ended December 31, 2005, respectively, and was in line with expectations for the year. The annual results include significant cash flow of \$59,365 from the disposal of the MASSPOWER PPAs, fuel supply agreements and the sale of the facility.

In order to provide holders of IPSs with stable and sustainable cash distributions, the Company established a Reserve Account at the closing of its IPO and will deposit funds in the Reserve Account from time to time to stabilize future cash distributions and fund acquisitions and other growth opportunities that have the same ultimate effect. The Reserve Account held \$12,509 as of December 31, 2004. It increased by \$35,857 in March based largely on the MASSPOWER PPA termination payments and reached a maximum of \$48,737 in July before dropping by \$38,500 in August in connection with the Chambers acquisition. As of December 31, 2005, the Reserve Account held \$10,508.

### **CASH FLOW AVAILABLE FOR DISTRIBUTION**

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. On September 8, 2005, the Company announced an increase to its annual dividend of Cdn \$0.03 per IPS commencing with the September distribution from Cdn \$1.00 to Cdn \$1.03 per IPS. For the three month period ended December 31, 2005, aggregate distributions of \$9.8 million were declared (Cdn \$0.26 per IPS comprised of interest payments of Cdn \$0.16 on the 11% subordinated note portion of the IPS, plus Cdn \$0.10 common share dividend per IPS).

The table below presents the calculation of Cash Available for Distribution beginning with cash flow from operating activities for the three month period and year ended December 31, 2005.

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

Periods Ended (Unaudited)	December 31, 2005	December 31, 2005
	(3 months)	(12 months)
<b>Cash Flow Available For Distributions</b>		
Cash flows from operating activities <sup>(1)</sup>	19,473	38,370
Project level debt repayment	(10,052)	(20,679)
Interest on IPS portion of subordinated notes	6,009	20,346
Income tax withholding installments recoverable <sup>(2)</sup>	768	7,682
Income tax payable on disposal of equity investment <sup>(3)</sup>	5,519	5,519
Addition to property, plant and equipment	(1,068)	(2,558)
Cash flow available for distribution, USD	20,649	48,680
<b>Cash flow available for distribution, Cdn.</b>	<b>24,013</b>	<b>58,981</b>
<b>Distributions</b>		
Interest on IPS subordinated notes	6,009	20,346
Dividend on IPS common shares	3,751	12,102
Total IPS distributions, USD	9,760	32,448
<b>Total IPS distributions, Cdn.</b>	<b>11,421</b>	<b>39,124</b>
<b>Cash flow available for distribution per IPS, Cdn.</b>	<b>0.54</b>	<b>1.46</b>
<b>Total distribution per IPS, Cdn</b>	<b>0.26</b>	<b>1.01</b>

- 1) In previous quarters, MASSPOWER's distributions in respect of disposal proceeds were included in Cash flows from operating activities and separately netted out of Cash flow available for distribution. Those proceeds now appear as a disposal in the financing activities section of the statement of cash flows.
- 2) Represents the portion of income tax withholding installments paid during the quarter related to operating activities which are anticipated to be recoverable by the Company.
- 3) In the second and third quarters estimated tax payments of \$5,281 on MASSPOWER disposals were not added back in the calculation of cash flow available for distribution. This fourth quarter calculation benefits from adding back the entire \$5,519 finalized estimate of tax payable on the MASSPOWER disposal.

## SUMMARY OF QUARTERLY RESULTS

Variations in quarterly results are driven by the following factors:

- There is some seasonality of Project Revenues based on some projects being paid higher rates during peak seasons, which tends to be summer in the US markets.
- Variations in quarterly cash flow and distributions from projects accounted for using the equity method are also driven by the timing of non-recourse debt payments at the projects (i.e., some

are made quarterly and some semi-annually), as distributions from the projects to the Company must occur in conjunction with the projects passing certain tests at those payment dates.

- Non-cash charges, principally 1) the change in fair value of the non-controlling investors, which is based on the change in price in the Company's IPSs from period to period, and 2) the non-cash portion (majority) of the foreign exchange gain or loss, reflecting the impact of FX changes from period to period on the value of the Company's Canadian dollar denominated debt and the mark-to-market value of currency hedges.
- Net Income for the three months ended December 31, 2005 was negatively impacted by increased amortization resulting from the finalization of the purchase price allocation with respect to projects acquired November 18, 2004.
- Cash flow from operations was higher in first and fourth quarters of 2005 due to the proceeds from MASSPOWER dispositions of three of its PPAs and the physical plant respectively.
- Calculation of cash flow available for distribution ("CFAD") during the first three quarters included a reduction of cash flow from operating activities ("CFFO") by the proceeds of MASSPOWER disposals. The disposal proceeds are now presented in the financing activities section of the statement of cash flows, so reduction of the proceeds from CFFO is not required.
- During the fourth quarter, the Company finalized the estimated tax on MASSPOWER disposals of \$5,519, which has been included in the above CFAD table as a separate line item. In the second and third quarters, estimated tax payments of \$5,281 on MASSPOWER disposals were not added back in the calculation of CFAD. The fourth quarter CFAD calculation benefits from adding back the entire \$5,519 finalized estimate of tax payable on the MASSPOWER disposal.

## ACQUISITIONS & DISPOSITIONS

**Chambers** - On September 8, 2005, Holdings closed the acquisition of Epsilon Power Partners, LLC ("Epsilon"), which owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of the 262 MW (net output) Carney's Point pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's ("DuPont") Chambers Works complex in southwestern New Jersey. The purchase price was approximately \$105 million and was funded through Holdings' cash on hand and a draw on Holdings revolving credit facility and the assumption of \$43 million of non-recourse debt at Epsilon debt. The facility acquired is one of the projects in which Holdings was granted a right of first offer by ArcLight Energy Partners Fund I, L.P. at the time of Atlantic's IPO. The former owners of Epsilon are subsidiaries of ArcLight Energy Fund I and Delta Power Company, LLC.

The project sells electricity through 2024 under a PPA with Atlantic City Electric Company (rated BBB+) and electricity and steam to DuPont (rated AA-) for use in its industrial operations, also through 2024. Carney's Point began commercial operations in 1994.

Plant operations are managed by a highly experienced firm and the Project has demonstrated an excellent operating history over the last ten years. The facility utilizes the best available environmental control technologies including scrubbers, a baghouse and selective catalytic reduction to reduce emissions and is considered one of the cleanest coal-fired power plants in the US.

On November 8, 2005, the Company filed on SEDAR an Independent Technical Review for Chambers. The report, prepared by Stone and Webster Management Consultants, Inc., concludes that the Project uses proven and appropriate technology, has operated successfully under the principal project agreements and permits since its commercial operation in 1994, has been well-maintained, and has an expected useful life exceeding the life of the PPA, which expires in 2024. The report also includes a cash flow projection for Chambers through 2024.

**MASSPOWER** - In March, 2005, the MASSPOWER project completed the restructuring and monetization of three of its four PPAs through a buy out of the contracts by Boston Edison and Commonwealth Electric. During the second and third quarters of the year, the project disposed of its long term fuel supply and transportation agreements. On December 28, 2005, Atlantic, along with the other partners of the MASSPOWER facility, sold its interest in the physical facility along with the remaining PPA. During 2005, the Company received distributions of \$61,469 generated from operations, PPA restructuring, fuel contract disposals and sale of the facility.

**Gregory** - On January 12, 2005, Holdings increased its indirect interest in the Gregory project from 9.4% to 17.1% or 68 net MW. The interest was acquired indirectly via Holdings' interest in Javelin and was accomplished using cash available at Javelin (\$1,074 was Atlantic's portion).

## NEW PROJECT POWER PURCHASE AGREEMENTS

On July 15, 2005, the Gregory Project's PPA with Dynegy expired as expected. Gregory is located in the ERCOT regional electricity market in Texas, which has been returning to supply-demand balance following a period of overbuilding new plants and, more recently, very substantial retirements of older utility plants. Effective September 1, 2005, Gregory entered into a PPA with Constellation Energy (S&P: BBB) that expires December 31, 2008. Consistent with information filed on SEDAR at the time of the IPO, Gregory is still not anticipated to be a significant contributor to near term cash flows, but under the new contract it is now expected to produce cumulative cash flows that are higher than management's previous expectations for the period September 1, 2005 through December 31, 2008.

Rumford's PPA with Central Maine Power expired as anticipated at the end of December 2005. While earlier projections at the time of the IPO showed no cash flow for 2006 and beyond from Rumford, the

project has entered into an interim agreement to sell all of its output for 2006 to the NewPage paper mill at New England power market prices. This agreement is anticipated to produce distributions of approximately \$4,000 to \$6,000 in 2006 and management also believes that there is an opportunity to produce cash flow beyond 2006 by extending the PPA with the NewPage paper mill, selling the output into the New England power market, or entering into a contract with a power marketing entity.

## LIQUIDITY AND CAPITAL RESOURCES

The Company has adequate liquidity from several sources in addition to cash flow from operations. For 2005, the Company's payout ratio of total distributions to cash available for distribution was 66.7%. The Reserve Account held \$10,508 as of December 31, 2005. In the future, as the Reserve Fund builds, a portion of it will be available to fund acquisitions and other growth opportunities, enhancing the long-term stability of distributions.

Holdings recently increased the capacity of its revolving credit facility from \$50,000 to \$75,000, \$15,061 of which was allocated, but not drawn as of December 31, 2005, to support letters of credit for contingent liabilities at several projects. On September 1, 2005, a draw of \$25,000 was made to partially fund the Chambers acquisition. After a paydown utilizing proceeds from the sale of MASSPOWER in December 2005, the drawn amount was reduced to \$10,000. Approximately 50,000 is available to the Company under the facility as of December 31, 2005. In addition, the Projects themselves generally have their own reserve accounts to support payments for major maintenance costs and project-level debt service. For Projects that are consolidated or proportionately consolidated with Atlantic, these amounts or Atlantic's portion of these amounts respectively, are reflected as Restricted Cash on Atlantic's balance sheet, which was \$26,758 as of December 31, 2005.

All project-level debt and the Epsilon debt assumed in the Chambers acquisition is non-recourse to the Company or Holdings and is fully amortized over the life of the projects' PPAs.

## CAPITAL EXPENDITURES

Capital expenditures for the Projects are made at the project level using project cash flows and project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the projects. Generally, capital expenditures are not significant since most major expenditures are for repairs and maintenance and therefore are expensed.

During the third quarter, an estimated \$2,000 capital project was completed at the Pasco project to construct a water distillation facility that will serve as the project's thermal load. Total capital expenditures ("capex") for 2005 were \$2,558. Estimated capex for 2006 is not more than \$2,500.

## CONTRACTUAL OBLIGATIONS

Contractual Obligations	Payment due by period				
	Total	2006	2007-9	2010-11	2012 and beyond
Long Term Debt					
- Subordinated Notes	251,844				251,844
- Non-recourse Project Debt *	246,040	21,558	63,777	31,925	128,780
<b>Total Contractual Obligations</b>	<b>497,884</b>	<b>21,558</b>	<b>63,777</b>	<b>31,925</b>	<b>380,624</b>

\* Project debt is non-recourse to the Company and fully amortizing during PPA terms.

## PROJECT PORTFOLIO

The following table outlines the Company's portfolio of power generating assets as of December 31, 2005, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any one region.

Project Name	Location (State)	Fuel Type	Total MW	Ownership Interest <sup>(1)</sup>	Accounting Treatment <sup>(2)</sup>	Net MW <sup>(3)</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating

(1) Represents the percentage ownership interest in the project held indirectly by Atlantic Holdings (except as otherwise noted).

(2) Accounting Treatment: (refer to Note 1 of Consolidated Financial Statements).

C = Consolidated

P = Proportionate Consolidation

E = Equity Method

(3) Represents the interest of Holdings in each project's electric generation capacity based on Holdings' economic interest in each project.

(4) Represents Holdings' estimate of its economic interest in the project's cash flow.

(5) New PPA with Constellation Energy through 2008. See discussion in the New Power Purchase Agreements Section.

- (6) A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.
- (7) PPA with Central Maine Power expired December 31, 2005. See discussion of the new interim PPA with the former Mead/Westvaco paper mill (now owned by NewPage) in the New Power Purchase Agreements Section.
- (8) Holdings owns a lessor interest in this Project.
- (9) The merchant output of the facility is sold by Atlantic City Electric in the PJM regional spot market through a profit sharing arrangement with Chambers.

## **CONTRACTUAL OBLIGATIONS (cont'd)**

### **(a) Project Contracts**

Each project typically has a set of contracts that include the following obligations of the project partnerships, all of which are non-recourse to the Company. Therefore, specific contracts for individual projects are not discussed in detail in the MD&A.

- PPAs generally allow projects to pass through their fuel costs. See the earlier Project Portfolio table for off-takers and durations.
- Fuel supply agreements may have minimum volume requirements.
- Fuel transportation agreements incorporate capacity reservation/demand payments for natural gas, or shipping cost per ton of coal.
- Steam sales agreements track PFA lengths and are designed to meet regulatory requirements for thermal load/efficiency at fossil fuel plants.
- O & M agreements contract for operations and maintenance services by third parties or owners.
- Long-term service agreements may be in place for gas or steam turbine inspections and overhauls.
- Site lease agreements grant use of project land where Projects do not own the site.

A detailed description of the Projects' agreements at the time of the IPO is contained in the Technical Review performed by Stone and Webster in conjunction with the Company's IPO, updated information contained in the Company's Annual Information Form dated March 30, 2006 and a detailed review of contracts at the newly acquired Chambers project in Stone and Webster's review. All documents are available on SEDAR.

**(b) Financial Instrument Contracts**— see Financial Instruments section below

### **(c) Credit Facility**

Holdings has a \$75,000 revolving credit facility, \$15,061 of which was allocated, but not drawn as of December 31, 2005, to support letters of credit for contingent liabilities at several projects. \$10,000 was drawn under the revolving term credit facility as of December 31, 2005.

### **(d) Office Operating Lease Obligations**

The Manager subleases its office space from ArcLight, under an agreement through 2014. The obligations under this sublease are \$130 per year in 2005-2007 and a total of \$933 for the period 2008-2014.

### **(e) Management and Incentive Fees**

The Company pays a management fee under the Management Agreement that is subject to adjustment for acquisitions as agreed to by the Company and Holdings' Independent Managers, plus incentives,

inflation adjustment and expenses. The Company paid the Manager \$2,990 in management and incentive fees during the year ended December 31, 2005.

**(f) Subordinated Notes**

As of December 31, 2005, the Company had \$251,844 outstanding of 11% subordinated notes due 2016. The notes pay interest only until their maturity.

**RELATED PARTY TRANSACTIONS**

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid (i) an annual management fee, (ii) reimbursement of costs, and (iii) an incentive fee equal to 25% of the excess in distributions paid to IPS holders and Existing Investors during the year above Cdn \$1.00 per IPS. The Management Agreement has an initial term of 20 years from the Company's November 2004 IPO. The Manager is owned by ArcLight Funds. Subsidiaries of the ArcLight Funds along with a subsidiary of Caithness Energy owned 41.9% of Holdings' common membership interests after the IPO, but reduced their interest to 29.9% in October 2005 in connection with the sale of 7,539,500 IPSs to the Caisse and certain officers of the Company as discussed earlier.

The seven-person Board of Managers of Holdings includes two members from the manager of the ArcLight Funds who were appointed by the Existing Investors, and the President/CEO of the Manager. These three individuals may not vote on any proposed acquisitions by Holdings of projects from the ArcLight Funds.

The Manager receives administrative and office support services from the manager of the ArcLight Funds under a Management Support Agreement. This agreement also requires ArcLight and its affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for ArcLight Fund I and Fund II or other investment funds managed by ArcLight or its affiliates.

At the time of the IPO, Holdings was granted a right of first offer ("ROFO") on a number of power producing projects owned by the ArcLight Energy Partners Fund. The right of first offer related to interests in 11 power generating projects representing approximately 706 net MW of total electric generation capacity. During the third quarter of 2005 Holdings completed the acquisition of Chambers, one of the ROFO projects, as described in the Acquisitions & Dispositions section above. During the second quarter of 2005, ArcLight Energy Partners Fund I ("Fund I") offered a package of 9 of the ROFO projects to Holdings for purchase. Holdings conducted an analysis of the price and terms offered by Fund I and notified Fund I that it was declining to purchase the projects on the terms offered. In late September, 2005 ArcLight Fund I entered a purchase and sale agreement with a third party and closed the sale of the projects to that company in December 2005.

As discussed under Contractual Obligations above, the Manager subleases its office space from ArcLight, under an agreement that runs through 2014.

Caithness Energy has an indirect ownership interest in one of the Existing Investors. Subsidiaries of Caithness Energy provide operations and maintenance at four of the Projects and accounting, tax and other administrative functions for 12 of the Projects under agreements which are in effect through 2007 and renewable thereafter. During the year ended December 31, 2005, Holdings incurred fees and expenses of \$2,750 for these services provided by Caithness Energy.

## FINANCIAL AND OTHER INSTRUMENTS

The Company uses forward foreign currency contracts to manage its exposure to changes in foreign exchange rates as the Company earns its income principally in the United States and has the obligations to make distributions predominantly in Canadian dollars. The Company has entered into forward contracts to purchase Canadian dollars at fixed rates of exchange sufficient to make monthly distributions through December 2010 at the current annual distribution level of Cdn. \$1.03 per IPS to all holders including the Existing Investors, as well as interest payments on the separate Subordinated Notes. It is the Company's intention to extend the length of these forward contracts out to five years at or near the end of each year. As planned, changes in the fair market value of the Company's forward contracts partially offset set exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations.

For the year ended December 31, 2005, the Company has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,608 monthly through December 2009. The Company also has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,200 monthly during 2010. The average rate during the period to December 2009 is \$1.2055 and \$1.1225 during 2010.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value. Mark to market adjustments of the foreign currency forward contracts are reflected in foreign exchange loss. The foreign exchange contracts are classified as other assets.

Certain of the Projects also use interest rate swaps to manage fluctuations in interest rates and natural gas forwards or swaps to minimize the effects to cash flow of changing natural gas prices, which is a major component of project expenses. Some of these contracts have been designated as hedges for accounting purposes. In addition, other projects have entered into natural gas contracts with pricing terms designed to minimize the impact of gas price volatility on operating margins.

## ACCOUNTING ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the period presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property plant and equipment and power purchase contracts, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives.

The Company has acquired the majority of its long-term assets through acquisitions. In applying the purchase method of accounting, the Company is required to fair value the assets acquired including the property plant and equipment and intangible assets. The determination of these fair values is complex and involves significant judgments. On an on-going basis, the Company monitors the performance of the facilities to determine if any recoverability issues exist or if any change in the useful life of the facility is required.

The annual audit for 2005 at one of the projects contains a going concern qualification in the Auditor's Letter based on the assessment that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, could need to renegotiate with its lenders in or around the year 2010. As disclosed at the time of the IPO, the Company is not expecting to receive any distributions from the project until after the debt is retired, as scheduled in

2018. In accordance with GAAP, a review of the recorded value of the project's assets indicated that no economic impairment has occurred as of December 31, 2005. There is a risk that conditions contributing to this assessment could further deteriorate and management will continue to monitor the project closely

The future tax asset valuation allowance has been determined pursuant to the provisions of CICA 3465, Income Taxes, including the Company's estimation of future taxable income, where necessary, and is adequate to reduce the total future tax asset to an amount that will more likely than not be realized. The Company has limited operating history. It incurred taxable losses for the taxation period ended December 31, 2004 and the taxable income for the year ended December 31, 2005. The Company does not anticipate generating significant taxable income over the next several years. It is not considered likely that future tax assets will be realized over the next few years. Accordingly, the Company has provided a valuation allowance equivalent to the Company's net future tax assets

The fair value of financial instruments and derivatives such as the forward foreign currency contracts, interest rate swaps and natural gas swaps are typically based on market quotes. The Company also has Indexed Swap and related hedge agreement as discussed in Note 14 to the consolidated financial statements. The fair value of these agreements are based on estimated on future cash flows taking into account certain assumptions, including forecasts or future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair values of these agreements.

Refer to Note 1 of the audited consolidated financial statements for the period ended December 31, 2005.

#### **ADOPTION OF ACCOUNTING POLICY**

The Company applies Accounting Guideline 15, "Consolidation of Variable Interest Entities". As a result of applying this guideline, the Company consolidated a variable interest entity for which it is determined to be the primary beneficiary.

#### **DISCLOSURE CONTROLS**

As of December 31, 2005, an evaluation was carried out, under the supervision of and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as defined under Multilateral Instrument 52-109. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective.

#### **LITIGATION**

One of Holdings' subsidiaries was previously a partner of MASSPOWER. In July 2005, MASSPOWER and its former partners were named as defendants in a suit filed by the Massachusetts Municipal Wholesale Electric Company ("MMWEC"), which holds a power purchase agreement entitling it to 7.86% of the capacity and energy of the facility. MMWEC alleges that MASSPOWER has, among other things, breached the agreement by restructuring its natural gas contracts without MMWEC's approval. The MASSPOWER partners filed an answer to the suit denying its material allegations. On December 28, 2005, the MASSPOWER partners sold their interest in the facility to a third party. Under the terms of the purchase and sale agreement, the sellers are indemnified by the buyer with respect to any successful claim against Masspower Partners that may result from the

resolution of the suit, which indemnity is secured by the plant. In addition, the buyer may use a portion of the sale price that was placed in escrow pending the outcome of the litigation process toward defense costs and potential claims. The Company has not recognized in income the \$437 portion of the sales proceeds placed in escrow. Management believes that the settlement of this dispute will have no material impact to the Company.

The Chambers partnership, in which Holdings owns a 40% indirect interest, has filed suit against its coal supplier, CONSOL Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things, (1) a declaratory judgment regarding the terms of the agreement, (2) damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defenses and counterclaims in its answer and the parties are currently in the discovery process. Although the outcome of the matter is not certain, Management believes the coal supplier's affirmative defenses and counterclaims are without merit and the litigation is at too early a stage to estimate exposure.

The Rumford cogeneration facility purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague are disputing terms and compensation for certain terminal services provided by Sprague and Massey asserts that Rumford also has failed to pay certain amounts due under the coal supply agreement. The amounts in dispute are not material and management has not yet formed an expectation regarding the potential outcome of this suit. Massey continues to supply coal to the plant on a timely basis.

## **OUTSTANDING SHARE DATA**

The Company had outstanding 44,339,500 IPSs at March 30, 2006.

## **OUTLOOK**

In order to maintain stable distributions and provide long term growth, the Company will continue to focus on enhancing the financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

PPAs in the portfolio have various expirations and, in each case, the project's partners plan for that occurrence by evaluating various options in the market in order to continue maximizing project cash flows. For example, projects with PPA expirations in the 2008-2009 timeframe have already begun to prepare for potential new or extended power purchase arrangements. The new arrangements may involve responses to utility solicitations for capacity, direct negotiations with the original purchasing utility for PPA extensions, or arrangements with creditworthy marketers for tolling agreements, full service PPAs or the use of derivatives to lock in value. Neither Stone & Webster in its Technical Review nor Management assumed that pricing under existing PPAs will necessarily be sustained after PPA expirations.

## **RISK FACTORS**

Atlantic Power's future performance and ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs involves a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares, or Subordinated Notes or on the market price or value of IPS's, Common Shares or

Subordinated Notes. The following is a list of the primary risks facing the Company, with further discussion of risk factors found in the Company's Annual Information Form dated March 31, 2006.

#### **Revenue May be Reduced Upon Expiration or Termination of PPAs**

Power generated by the Projects, in most cases, is sold under PPAs that expire at various times. In addition, these PPAs may be subject to termination in certain circumstances, including default by the Project owner or operator. When a PPA expires or is terminated, it is possible that the price received by the relevant Project for power under subsequent arrangements may be reduced significantly. It is possible that subsequent power purchase arrangements may not be available at prices that permit the operation of the Project on a profitable basis. If this occurs, the affected Project may temporarily or permanently cease operations.

#### **The Projects Depend on their Electricity and Thermal Energy Customers**

Each Project relies on one or more PPAs, steam sales agreements or other agreements with one or more utilities or other customers for a substantial portion of its revenue. The amount of cash available for distribution to holders of IPSs, Common Shares and Subordinated Notes is highly dependent upon customers under such agreements fulfilling their contractual obligations. There is no assurance that these customers will perform their obligations or make required payments to the Project Operating Entities.

#### **Certain Projects are Exposed to Fluctuations in the Price of Electricity**

While a majority of the off-takers of the Projects are contractually obligated to purchase electricity under long-term PPAs, those Projects with power purchase arrangements based on market pricing will be exposed to fluctuations in the wholesale price of electricity. In addition, should any of the long-term PPAs expire or terminate the Manager or the relevant Project operator will be required to either negotiate new PPAs or sell into the electricity wholesale market, in which case the prices for electricity will depend on market conditions at the time.

#### **Predicting Project Cash Flows Over the Long Term Is Difficult**

Due to the many uncertainties described in this risk factors section that could materially affect future revenues or expenses, it can be difficult to make long term projections of the Company's operating margins.

#### **Operations are Subject to the Provisions of Various Energy Laws and Regulations**

Generally, in the United States, the Company's projects are subject to regulation by the FERC regarding the terms and conditions of wholesale service and rates, as well as by state agencies regarding PPAs entered into by Qualify Facility ("QF") projects and the siting of the generation facilities. The majority of the Company's generation is sold by QF projects under PPAs that required approval by state authorities.

On August 8, 2005, EAct 2005 was enacted, which removed certain regulatory constraints on investment in utility power producers by repealing the Public Utility Holding Company Act of 1935 ("PUHCA 1935") and enacting the Public Utility Holding Company Act of 2005 ("PUHCA 2005"). EAct 2005 also limited the requirement that electric utilities buy electricity from QFs to certain markets that lack competitive characteristics. Finally, EAct 2005 amended and expanded the reach of FERC's corporate merger approval authority under section 203 of the Federal Power Act ("FPA").

Over the last several months, FERC has issued final rulemakings implementing these provisions of EPCRA 2005.

If any Project that is a QF were to lose its status as a QF, then such Project may no longer be entitled to exemption from provisions of EPCRA, 2005 or from provisions of the FPA and state law and regulations. Loss of QF status could trigger defaults under covenants to maintain QF status in the PPAs, steam sales agreements and Project-level debt agreements and result, if not cured within allowed cure periods in termination of agreements, penalties or acceleration of indebtedness under such agreements, plus interest.

The Projects would also have to file with FERC for market-based rates or file for acceptance for filing of the rates set forth in the applicable PPA and its rates would then be subject to initial and potentially subsequent reviews by FERC under the FPA, which could result in reductions to the rates.

The Company's projects require licenses, permits and approvals which can be in addition to any required environmental permits. No assurance can be provided that we will be able to obtain, comply with and renew as required all necessary licenses, permits and approvals for these facilities. If we cannot comply with and renew as required all applicable regulations, our business, results of operations and financial condition could be adversely affected.

EPCRA 2005 provides incentives for various forms of electric generation technologies, which may subsidize our competitors. In addition, EPCRA 2005 requires the FERC to select an industry self-regulatory organization which will impose mandatory reliability rules and standards. Among other things, FERC's rules implementing these provisions allow such reliability organizations to impose sanctions on generators that violate their new reliability rules.

We cannot provide assurance that the introductions of new laws, or other future regulatory developments, will not have a material adverse impact on our business, operations or financial condition.

#### **Projects are Subject to Significant Air Emissions Regulations**

Environmental laws and regulations have generally become more stringent over time, and this trend may continue. In particular, the U.S. Environmental Protection Agency, or EPA, has recently promulgated regulations requiring additional reductions in nitrogen oxides, or NOx and sulfur dioxide, or SO<sub>2</sub>, emissions, commencing in 2009 and 2010 respectively, and has also promulgated regulations requiring reductions in mercury emissions from coal-fired electric generating units, commencing in 2010 with more substantial reductions in 2018. Moreover, certain of the states in which we operate have promulgated air pollution control regulations which are more stringent than existing and proposed federal regulations. Specifically, there is a proposed multi-state carbon cap-and-trade program known as the Regional Greenhouse Gas Initiative, or RGGI, which would apply to the Company's fossil-fueled facilities in the Northeast. A model rule for implementation of RGGI is expected to be released within the next few months.

#### **The Projects Depend on Suppliers Under Fuel Supply Agreements and Increases in Fuel Costs may Adversely Affect the Profitability of the Projects**

Revenues in respect of the Projects may be affected by the availability, or lack of availability, of a stable supply of fuel at reasonable prices. To the extent possible, the Projects attempt to match fuel

costs to PPA energy payments. To the extent that fuel costs are not matched directly to PPA energy payments, increases in fuel costs may adversely affect the profitability of the Projects.

The amount of energy generated at the Projects is highly dependent on suppliers under certain fuel supply agreements fulfilling their contractual obligations. The loss of significant fuel supply agreements or an inability or failure by any supplier to meet its contractual commitments may adversely affect cash distributions by the Company.

Upon the expiry or termination of existing fuel supply agreements, the Manager or Project operators will have to renegotiate these agreements or may need to source fuel from other suppliers. There can be no assurance that the Manager or Project operators will be able to renegotiate these agreements or enter into new agreements on similar terms. Furthermore, there can be no assurance as to availability of the supply or pricing of fuel under new arrangements.

The amount of energy generated at the Projects is dependent upon the availability of natural gas, coal, oil or biomass. There can be no assurance of the long-term availability of such resources.

#### **U.S. Federal Income Tax Risks**

There can be no assurance that U.S. federal income tax laws and IRS administrative policies respecting the U.S. federal income tax consequences generally applicable to a holder of Common Shares and Subordinated Notes, as represented by IPSs, will not be changed in a manner which adversely affects Non-U.S. Holders.

There is no authority that directly addresses the tax treatment of securities similar to the Subordinated Notes as part of a unit that includes common shares of the Company. In light of this absence of direct authority, it cannot be concluded with certainty that the Subordinated Notes will be treated as debt for U.S. federal income tax purposes, and, although the Company intends to take the position that the Subordinated Notes are debt for U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, interest payments on the Subordinated Notes would be re-characterized as non-deductible distributions with respect to the Company's equity, and the Company's net taxable income and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after-tax cash flow would be reduced and the Company's ability to make interest payments on Subordinated Notes and distributions with respect to Common Shares could be materially and adversely impacted.

#### **ADDITIONAL INFORMATION**

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or at [www.sedar.com](http://www.sedar.com).

## Certification of Annual Filings

### FORM 52-109F1

I, Mark Byskov, Chief Financial Officer of Atlantic Power Management, LLC, the Manager of Atlantic Power Corporation, certify that:

1. I have reviewed the annual filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*) of Atlantic Power Corporation (the issuer) for the period ending on December 31, 2005;
2. Based on my knowledge, the annual filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the annual filings;
3. Based on my knowledge, the annual financial statements together with the other financial information included in the annual filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the annual filings; and
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures for the issuer, and we have:
  - a) designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the annual filings are being prepared; and
  - b) evaluated the effectiveness of the issuer's disclosure controls and procedures as of the end of the period covered by the annual filings and have caused the issuer to disclose in the annual MD&A our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by the annual filings based on such evaluations.

ATLANTIC POWER CORPORATION

**ATLANTIC POWER CORPORATION**  
**CODE OF BUSINESS CONDUCT AND ETHICS**

The following code of business ethics was adopted by the board of directors of Atlantic Power Corporation (the "Issuer") on December 13, 2004.

---

This Code of Business Conduct and Ethics covers a wide range of business practices and procedures. It does not cover every issue that may arise, but sets out basic principles to guide all directors, managers, officers and employees of the Issuer and of Atlantic Power Management, LLC (the "Manager") and their subsidiaries (collectively, "Atlantic Power Personnel"). All Atlantic Power Personnel must conduct themselves accordingly and seek to avoid even the appearance of improper behavior.

If a law conflicts with a policy in this Code, Atlantic Power Personnel must comply with the law. If a local custom or policy conflicts with this Code, Atlantic Power Personnel must comply with this Code. If you have any questions about these conflicts, you should ask a senior officer of the Manager how to handle the situation. **The Manager is responsible for administering this Code and Barry Welch, Chief Executive Officer of the Manager, is the contact person for any questions regarding the Code (phone (617) 531-6371).**

**Atlantic Power Personnel who violate the standards in this Code will be subject to disciplinary action, up to and including termination of their employment or other relationship with the Issuer or its subsidiaries (collectively, the "Atlantic Power Entities"). If you are in a situation that you believe may violate or lead to a violation of this Code, follow the guidelines described below under "Compliance Procedures".**

## THE CODE

### Compliance with Laws, Rules and Regulations

Obeying the law, both in letter and in spirit, is the foundation on which the Atlantic Power Entities' ethical standards are built and is critical to our reputation and continued success. All Atlantic Power Personnel must respect and obey the laws of the various jurisdictions in which the Atlantic Power Entities operate and avoid even the appearance of impropriety. Although not all Atlantic Power Personnel are expected to know the details of these laws, it is important to know enough to determine when to seek advice from executive members or other appropriate personnel. Barry Welch, Chief Executive Officer of the Manager, is available to assist Atlantic Power Personnel in determining applicable legal requirements and to seek the advice of legal counsel where appropriate.

### Conflicts of Interest

A "conflict of interest" exists when a person's private interests interfere in any way with the interests of the Atlantic Power Entities. A conflict of interest can arise when Atlantic Power Personnel take actions or have interests that may make it difficult for them to perform their work for an Atlantic Power Entity objectively and effectively. Conflicts of interest also may arise when Atlantic Power Personnel or members of their families receive improper personal benefits as a result of their positions with an Atlantic Power Entity.

Conflicts of interest are prohibited as a matter of policy, except as may be approved by the board of directors of the Issuer. Conflicts of interest may not always be clear-cut. If you have a question, you should consult with your supervisor or department head. Any Atlantic Power Personnel who become aware of a conflict or potential conflict should bring it to the attention of a supervisor or department head and consult the procedures described below under "Compliance Procedures".

### **Confidentiality**

Atlantic Power Personnel must maintain the confidentiality of confidential information entrusted to them by any Atlantic Power Entity and persons with whom the Atlantic Power Entities do business, except when disclosure is authorized under the Confidential Information Policy or required by laws or regulations. Confidential information includes all non-public information that might be of use to competitors or harmful to any Atlantic Power Entity or the person to whom it relates if disclosed. The obligation to preserve the confidentiality of confidential information continues even after Atlantic Power Personnel cease to have a relationship with the Atlantic Power Entities.

Atlantic Power Personnel who have access to confidential information are not permitted to use or share that information for trading purposes or for any other purpose except the conduct of the Atlantic Power Entities' business. All Atlantic Power Personnel should read and abide by the Issuer's Confidential Information Policy, Disclosure Policy and Insider Trading Policy.

### **Corporate Opportunities**

Atlantic Power Personnel are prohibited from taking for themselves personally opportunities that are discovered through the use of corporate property, information or positions without the consent of the board of directors and from using corporate property, information or positions for improper personal gain. No Atlantic Power Personnel may compete with any of the Atlantic Power Entities directly or indirectly. Atlantic Power Personnel owe a duty to each Atlantic Power Entity to advance its legitimate interests when the opportunity to do so arises.

### **Protection and Proper Use of Atlantic Power Entity Assets**

All Atlantic Power Personnel should endeavor to protect Atlantic Power Entity assets and ensure their efficient use. Theft, carelessness and waste have a direct impact on the profitability of the Atlantic Power Entities. Any suspected incident of fraud or theft should be reported immediately to your supervisor or department head for investigation.

The obligation of Atlantic Power Personnel to protect the assets of the Atlantic Power Entities includes the Atlantic Power Entities' proprietary information. Proprietary information includes any information that is not known generally to the public or would be helpful to competitors of any of the Atlantic Power Entities. Examples of proprietary information include intellectual property (such as trade secrets, patents, trademarks and copyrights), business, marketing and service plans, designs, databases, salary information and any unpublished financial data and reports. Unauthorized use or distribution of this information would violate Atlantic Power Entity policy and could be illegal and result in civil or criminal penalties. The obligation to preserve the confidentiality of proprietary information continues even after Atlantic Power Personnel cease to have a relationship with the Atlantic Power Entities.

Atlantic Power Entity assets may never be used for illegal purposes.

### **Competition and Fair Dealing**

The Atlantic Power Entities seek to excel and to outperform any competitors fairly and honestly through superior performance and not through unethical or illegal business practices. Taking proprietary information without the owner's consent, inducing disclosure of that information by past or present employees of other persons or using that information is prohibited. Atlantic Power Personnel should respect the rights of, and deal fairly with, the Atlantic Power Entities' competitors and persons with whom the Atlantic Power Entities have a business relationship. No Atlantic Power Personnel should take unfair advantage of anyone through illegal conduct, manipulation, concealment, abuse of proprietary information, misrepresentation of material facts or any other intentional unfair-dealing practice. Nor should any Atlantic Power Personnel act in a manner that may be anti-competitive under anti-trust laws. Barry Welch, Chief Executive Officer of the Manager, is available to assist Atlantic Power Personnel in determining the application of those laws and to seek the advice of legal counsel where appropriate.

### **Gifts and Entertainment**

Business gifts and entertainment are customary courtesies designed to build goodwill and constructive relationships among business partners. These courtesies may include such things as meals and beverages, tickets to sporting or

cultural events, discounts not available to the general public, accommodation and other merchandise or services. In some cultures, they play an important role in business relationships. However, a problem may arise when these courtesies compromise, or appear to compromise, an Atlantic Power Entity's ability to make fair and objective business decisions or to gain an unfair advantage.

Offering or receiving any gift, gratuity or entertainment that might be perceived to unfairly influence a business relationship should be avoided. These guidelines apply at all times and do not change during traditional gift-giving seasons.

No gift or entertainment should ever be offered, given, provided, authorized or accepted by any Atlantic Power Personnel or their family members unless it is not a cash gift, is consistent with customary business practices, is not excessive in value, cannot be construed as a bribe or payoff and does not violate any laws. Strict rules apply when an Atlantic Power Entity does business with governmental agencies and officials (as discussed in more detail below). Atlantic Power Personnel should discuss with their supervisor or department head any gifts or proposed gifts about which they have any questions.

#### **Payments to Government Personnel**

All Atlantic Power Personnel must comply with all laws prohibiting improper payments to domestic and foreign officials. Other governments have laws regarding business gifts that may be accepted by government personnel. The promise, offer or delivery to an official or employee of various governments of a gift, favour or other gratuity in violation of these laws would not only violate the Atlantic Power Entities' policies but could also be a criminal offence. Illegal payments should not be made to government officials of any country. Barry Welch, Chief Executive Officer of the Manager, can provide guidance to Atlantic Power Personnel in this area.

#### **Discrimination and Harassment**

The diversity of Atlantic Power Personnel is a tremendous asset. The Atlantic Power Entities are firmly committed to providing equal opportunity in all aspects of employment and will not tolerate any illegal discrimination or harassment of any kind. Examples include derogatory comments based on racial or ethnic characteristics and unwelcome sexual advances. Violence and threatening behavior are not permitted. Atlantic Power Personnel are encouraged to speak with Barry Welch, Chief Executive Officer of the Manager, when a co-worker's conduct makes them uncomfortable and to report harassment when it occurs.

#### **Health and Safety**

The Atlantic Power Entities strive to provide all Atlantic Power Personnel with a safe and healthy work environment. All Atlantic Power Personnel have responsibility for maintaining a safe and healthy workplace by following safety and health rules and practices and reporting accidents, injuries and unsafe equipment, practices or conditions to a supervisor or department head. Being under the influence, and the possession, of illegal drugs in the workplace will not be tolerated. Atlantic Power Personnel should report to work in condition to perform their duties, free from the influence of illegal drugs or alcohol.

#### **Accuracy of Records and Reporting**

The Atlantic Power Entities require honest and accurate recording and reporting of information to make responsible business decisions. Each Atlantic Power Entity's accounting records are relied upon to produce reports for management, directors, managers, securityholders, governmental agencies and persons with whom the applicable Atlantic Power Entity does business. All of each Atlantic Power Entity's financial statements and the books, records and accounts on which they are based must appropriately reflect such Atlantic Power Entity's activities and conform to applicable legal, accounting and auditing requirements and to the Atlantic Power Entity's system of internal controls. Unrecorded or "off the books" funds or assets should not be maintained unless required by applicable law or regulation.

All Atlantic Power Personnel have a responsibility, within the scope of their positions, to ensure that each Atlantic Power Entity's accounting records do not contain any false or intentionally misleading entries. The Atlantic Power Entities do not permit intentional misclassification of transactions as to accounts, departments or accounting records.

All transactions must be supported by accurate documentation in reasonable detail and recorded in the proper accounts and in the proper accounting period.

Many Atlantic Power Personnel use business expense accounts, which must be documented and recorded accurately. If Atlantic Power Personnel are not sure whether a certain expense is legitimate, a supervisor or department head can provide advice. General rules and guidelines are available from Barry Welch, Chief Executive Officer of the Manager.

Business records and communications often become public through legal or regulatory proceedings or the media. Atlantic Power Personnel should avoid exaggeration, derogatory remarks, guesswork or inappropriate characterizations that can be misunderstood. This requirement applies equally to communications of all kinds, including e-mail, informal notes, internal memos and formal reports.

#### WAIVERS OF THE CODE

Any waiver of this Code for directors, managers or executive officers may be made only by the directors (or a committee of the board of directors to whom that authority has been delegated) and will be promptly disclosed as required by law or stock exchange regulation.

#### REPORTING ANY ILLEGAL OR UNETHICAL BEHAVIOR

Each of the Atlantic Power Entities has a strong commitment to the conduct of its business in a lawful and ethical manner. Atlantic Power Personnel are encouraged to talk to supervisors, managers or other appropriate personnel about observed illegal or unethical behavior and when in doubt about the best course of action in a particular situation. It is the policy of the Atlantic Power Entities not to allow retaliation for reports of misconduct by others made in good faith. It is, at the same time, unacceptable to file a report knowing that it is false. All Atlantic Power Personnel are expected to cooperate in internal investigations of misconduct.

#### COMPLIANCE PROCEDURES

All Atlantic Power Personnel must work to ensure prompt and consistent action against violations of this Code. However, in some situations it is difficult to know right from wrong. Since we cannot anticipate every situation that will arise, it is important that the Atlantic Power Entities have a way to approach a new question or problem. These are the steps to keep in mind:

- Make sure you have all the facts. In order to reach the right solutions, we must be as fully informed as possible.
- Ask yourself: What specifically am I being asked to do? Does it seem unethical or improper? This will help you to focus on the specific question you are faced with and the alternatives you have. Use your judgement and common sense - if something seems like it might possibly be unethical or improper, it probably is.
- Clarify your responsibility and role. In most situations, there is shared responsibility. Are your colleagues informed? It may help to get others involved and discuss the problem.
- Discuss the problem with your manager. This is the basic guidance for all situations. In many cases, your manager will be more knowledgeable about the question and will appreciate being brought into the decision-making process. Remember that it is your manager's responsibility to help solve problems.
- Seek help from company resources. In the rare case where it may not be appropriate to discuss an issue with your manager, or where you do not feel comfortable approaching your manager with your question, discuss it locally with your "two-up". If that is not appropriate for any reason, contact Barry Welch, Chief Executive Officer of the Manager.

- You may report ethical violations in confidence and without fear of retaliation. If your situation requires that your identity be kept secret, your anonymity will be protected. The Atlantic Power Entities do not permit retaliation of any kind against employees for good faith reports of ethical violations.
- Always ask first, act later: If you are unsure of what to do in any situation, seek guidance before you act.

## AUDITORS' REPORT TO THE SHAREHOLDERS

We have audited the consolidated balance sheets of Atlantic Power Corporation as at December 31, 2005 and 2004 and the consolidated statements of operations and deficit and cash flows for the year December 31, 2005 and period from November 18, 2004 to December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2005 and 2004 and the results of its operations and its cash flows for the year December 31, 2005 and period from November 18, 2004 to December 31, 2004 in accordance with Canadian generally accepted accounting principles.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004 and continued to the Province of British Columbia on July 8, 2005. The Company issued income-participating securities ("IPSs") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

The Company has indirect interests in 15 power generation projects located primarily in the United States of America (collectively, the "Projects"). Two of the Projects are wholly owned subsidiaries of the Company, being Onondaga Cogeneration Limited Partnership ("Onondaga") and Lake Cogen Ltd. ("Lake").

The Projects are primarily "qualifying facilities" ("QFs") and "exempt wholesale generators" ("EWGs"), which have long-term contracts to sell power. QFs are small power producers or cogenerators (power producers that produce steam as a by-product of the electricity-generating process for use in a second industrial process) that meet certain operating, efficiency and fuel-use standards set forth by the United States' Federal Energy Regulatory Commission ("FERC").

## 1. Significant accounting policies:

### (a) Basis of consolidation:

The consolidated financial statements of the Company are prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP") and include the consolidated accounts of all of its subsidiaries. The Company uses equity accounting for investments in which it has significant influence but does not control. The Company proportionately consolidates investments in which it has joint control. The Company eliminates intercompany accounts and transactions.

In June 2003, The Canadian Institute of Chartered Accountants ("CICA") issued Accounting Guideline 15, Consolidation of Variable Interest Entities ("AcG-15"). AcG-15 addresses the application of consolidation principles to certain entities that are subject to control on a basis of control other than ownership of voting interests. AcG-15 addresses when an enterprise should include the assets, liabilities and results of activities of such an entity in its consolidated financial statements. The Company adopted AcG-15 on a retroactive basis. The adoption had no impact on opening deficit. The Company has one variable interest entity acquired during 2005 (note 2(b)).

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

## 1. Significant accounting policies (continued):

### (b) Cash and cash equivalents, reserve fund and restricted cash:

Cash and cash equivalents include cash deposited at banks and highly liquid investments with original maturities of three months or less.

The reserve fund represents short-term investments and cash that management has set aside to support future distributions and to use in part to make acquisitions.

Restricted cash represents cash and short-term investments maintained in accounts administered by a separate agent as required under certain Projects' debt agreements.

### (c) Property, plant and equipment:

Property, plant and equipment are stated at cost, net of accumulated amortization. Amortization is provided on a straight-line basis over the estimated useful life of the related asset. The amortization period for facilities ranges from 9 to 33 years. The weighted average period of amortization is 23 years.

### (d) Intangible assets:

Intangible assets include power purchase contracts, fuel supply agreements and licenses and rights.

Power purchase contracts are valued at the time of acquisition based on the rates received under the power purchase contracts relative to projected market rates. The balances are net of accumulated amortization. Amortization is provided on a straight-line basis over the remaining term of the contract. The amortization period ranges from 3 to 19 years. The weighted average period of amortization is 10 years.

Fuel supply agreements are valued at the time of acquisition based on the rates projected to be paid under the fuel supply agreement relative to projected market rates. The amortization period ranges from 4 to 18 years. The weighted average period of amortization is 10 years.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

## 1. Significant accounting policies (continued):

Licenses and rights are valued at the time of acquisition based on the estimated value. Amortization is provided on a straight-line basis over the remaining benefit period of the licenses and rights.

### (e) Revenue recognition:

Generally, the Company recognizes revenue when electricity and steam are delivered under the terms of the related contracts. If the power purchase contract has pricing that fluctuates over the term of the contract then the Company recognizes revenue based on the estimated average rate for the duration of the contract with the difference between cash received and revenue recognized reflected as deferred revenue.

Onondaga recognizes revenue as the swap agreements it has entered settle monthly, net of any change in fair value on these swap agreements (note 14).

### (f) Income taxes:

Income taxes are accounted for using the asset and liability method. Future tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in earnings in the year that includes the date of enactment or substantive enactment.

A valuation allowance is recorded against future tax assets to the extent that it is more likely than not that the future tax asset will not be realized.

### (g) Gas transportation contracts:

Onondaga has certain long-term commitments for the provision of natural gas transportation service to the Onondaga project through the year 2013. The contracts all provide for fixed monthly demand charges, in addition to variable commodity charges based on the quantity of gas transported. Obligations related to the long-term gas transportation agreements were recognized as liabilities in purchase accounting upon the acquisition of Onondaga by the Company. These obligations are being relieved over the remaining lives of the contracts.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

## 1. Significant accounting policies (continued):

All of the Company's other gas transportation costs are expensed as incurred.

### (h) Accounting for derivatives:

The Company uses financial derivative agreements in the form of interest rate swaps and foreign exchange forward contracts to manage its current and anticipated exposure to fluctuations in interest rates and foreign currency exchange rates. On occasion, the Company has also entered into natural gas supply contracts and natural gas forwards or swaps to minimize the effects of the price volatility of natural gas which is a major production cost. The Company does not enter into financial derivative agreements for trading or speculative purposes; however, not all derivatives qualify for hedge accounting.

The Company follows Accounting Guideline 13, Hedging Relationships ("AcG-13"), issued by CICA, which addresses the identification, designation, documentation and effectiveness of hedging relationships for the purpose of applying hedge accounting and provides guidance with respect to the discontinuance of hedge accounting. Derivative financial instruments not designated within an AcG-13 compliant hedging relationship are measured at fair value with changes in fair value recorded in the consolidated statements of operations and deficit. Derivative financial instruments not designated as hedges are the foreign currency forward contracts, the indexed swap and the indexed swap hedge agreements and certain interest rate swaps. Mark to market adjustments of the foreign currency forward contracts are reflected in foreign exchange loss, indexed swap and indexed swap hedge agreements are netted and reflected as indexed swap under project revenue and adjustments of interest rate swaps are reflected in project interest expense in the consolidated statements of operations.

Effectiveness tests are performed to evaluate hedge effectiveness at inception and on an ongoing basis, both retroactively and prospectively. Unrealized gains or losses on the interest rate swaps designated within a compliant AcG-13 relationship are not recognized.

Gains and losses on natural gas forward contracts and swaps which are designated as a hedge of fuel costs are recognized in income as actual fuel costs are recognized.

Natural gas supply contracts in the normal course of business in which the Company takes possession of the natural gas are treated as executory contracts.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

## 1. Significant accounting policies (continued):

### (i) Asset retirement obligations:

The fair value of estimated asset retirement obligations is recognized in the consolidated balance sheet when identified and a reasonable estimate of fair value can be made. The asset retirement cost, equal to the estimated fair value of the asset retirement obligation, is capitalized as part of the cost of the related long-lived asset. The asset retirement costs are amortized over the asset's estimated useful life and included in amortization expense on the consolidated statements of operations and deficit. Increases in the asset retirement obligation resulting from the passage of time are recorded as accretion of asset retirement obligation in the consolidated statements of operations and deficit. Actual expenditures incurred are charged against the accumulated obligation.

### (j) Long-lived assets:

Long-lived assets, such as property, plant and equipment and intangible assets subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset.

### (k) Deferred financing costs:

Deferred financing costs consist of loan fees and other costs of financing that are amortized over the term of the related financing using the straight-line method. The amortization period is the term of the debt.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

## 1. Significant accounting policies (continued):

### (l) Foreign currency translation:

The Company's functional currency and reporting currency is the United States dollar. The functional currency of the Company's subsidiaries and other investments is the United States dollar. Monetary assets and liabilities denominated in Canadian dollars are translated into United States dollars using the rate of exchange in effect at the end of the year. All transactions denominated in Canadian dollars are translated into United States dollars at the exchange rates in effect at the transaction date. Foreign currency translation gains and losses are reflected in the consolidated statements of operations and deficit.

### (m) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Actual results could differ from those estimates. During the periods presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property, plant and equipment and power purchase contracts, the recoverability of equity investments, the recoverability of future tax assets, and the fair value of financial instruments and derivatives. These estimates and valuation assumptions are based on present conditions and management's planned course of action, as well as assumptions about future business and economic conditions. Should the underlying valuation assumptions and estimates change, the recorded amounts could change by a material amount.

### (n) Comparative figures:

Certain comparative figures have been reclassified to conform with the financial statement presentation adopted in the current year.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

## 2. Acquisitions:

The Company formed Atlantic Power Holdings, LLC ("Atlantic Holdings"), a Delaware limited liability company, for the purpose of acquiring indirect interests in 15 Projects from Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC (the "Existing Investors") and acquired the interests of the Existing Investors in the Projects that were held by their wholly owned subsidiaries.

### (a) Adjustment of 2004 acquisition:

On November 18, 2004, the Company acquired for total consideration of \$522,638 (including \$1,014 in acquisition costs) an indirect interest in 15 projects located primarily in the United States of America. During the year ended December 31, 2005, the fair value of certain projects was finalized. The purchase price allocation has been adjusted as follows:

	Preliminary purchase equation	Adjustments	Revised purchase equation
Working capital	\$ 47,213	\$ 577	\$ 47,790

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

## 2. Acquisitions (continued):

### (b) Epsilon Power Partners, LLC acquisition:

On September 8, 2005, the Company acquired Epsilon Power Partners, LLC ("Epsilon") for cash consideration of \$65,008 including acquisition costs of \$564. Epsilon owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of a 262 megawatt pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's Chambers Works complex in south western New Jersey. The purchase price has been allocated as follows:

---

Working capital	\$ 9,541
Property, plant and equipment	142,817
Intangible assets	87,258
Other liabilities	(7,766)
Long-term debt	(166,842)
<hr/>	
Total purchase price	65,008
Less cash acquired	1,617
<hr/>	
Cash paid, net of cash acquired	\$ 63,391

The property, plant and equipment will be amortized over its remaining life estimated as 23 years. The intangible assets will be amortized over periods ranging from 18 years to 23 years.

The Company remains in the process of finalizing its purchase price allocation and the tax basis of the assets acquired.

### (c) Project acquisition:

During the year ended December 31, 2005, Atlantic Holdings increased its interest in one of its existing projects. The fair value of the interest acquired by the Company was \$1,074 and was financed by cash consideration at the project level.

## 4. Property, plant and equipment:

	2005	2004
Cost	\$ 447,595	\$ 296,141
Less accumulated amortization	19,116	2,153
	\$ 428,479	\$ 293,988

Amortization expense of \$16,886 (2004 - \$2,153) was expensed during the year.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

## 5. Equity investments:

The Company has an investment in five entities accounted for under the equity method. The entities are Delta-Person Limited Partnership, Gregory Power Partners LP, Jamaica Private Power Limited Company, Rumford Cogeneration Company LP and Selkirk Cogen Partners LP. The Company owns its interests in Gregory Power Partners LP and a portion of its interest in Rumford Cogeneration Company LP through Javelin Energy LLC. On December 28, 2005, the Company sold its interest in MASSPOWER for proceeds of \$59,365 realizing a gain on disposition of \$5,015. An analysis of the investments is presented below:

	2005	2004
Equity investments, beginning of period (note 2)	\$ 139,696	\$ 142,777
Adjustment to purchase price allocations (note 2)	467	-
Disposal of equity investment	(54,350)	-
Equity earnings, net	8,446	593
Distributions received	(15,924)	(3,674)
<b>Equity investments, end of period</b>	<b>\$ 78,335</b>	<b>\$ 139,696</b>

The fair value increment on acquisition of the investments has been allocated to property, plant and equipment and intangible assets.

## 6. Intangible assets:

Intangible assets include power purchase contracts, fuel supply agreement and license and rights.

	2005	2004
Power purchase agreements	\$ 14,832	\$ 107,340
Fuel supply agreements	110,403	-
Licenses and rights	70,538	-
	195,773	107,340
Less accumulated amortization	21,096	1,426
	<b>\$ 174,677</b>	<b>\$ 105,914</b>

Amortization expense of \$19,670 (2004 - \$1,426) was expensed during the year.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

## 7. Credit facility:

The Company has a \$75,000 revolving credit facility maturing November 18, 2007, which bears interest at a rate equal to LIBOR or U.S. Base Rate, plus an applicable margin to those rates. At December 31, 2005, \$10,000 was drawn and an additional \$15,061 (2004 - \$14,750) was allocated, but not drawn to support letters of credit. The Company has to meet certain financial covenants. The facility is secured by pledges of assets and interests in certain subsidiaries and Projects.

## 8. Long-term debt:

	2005	2004
Project debt of joint ventures, interest ranging from 3.25% to 9.125%, expiring between 2006 and 2018	\$ 246,040	\$ 99,066
Less current portion of project debt of joint ventures	21,558	13,764
	<u>\$ 224,482</u>	<u>\$ 85,302</u>

Principal payments due under the terms of non-recourse financing at the Projects in the next five years and thereafter are as follows:

2006	\$ 21,558
2007	24,022
2008	24,376
2009	15,379
2010	15,320
Thereafter	145,385
	<u>\$ 246,040</u>

The Project debt of joint ventures is secured by the respective facility and its contracts with no other recourse to the Company. The loans have certain financial covenants which must be met.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

## 9. Subordinated notes:

	2005	2004
Subordinated Notes (Cdn. \$292,207; 2004 - Cdn. \$248,727)	\$ 251,844	\$ 206,927

The Company issued \$176,560 of 11% Subordinated Notes in conjunction with its initial public offering of IPSs (note 10) and \$30,367 of 11% Subordinated Notes separately. In connection with the October 3, 2005 issuance of IPSs, the Company issued an additional \$37,730 of 11% Subordinated Notes. The proceeds of \$37,730 include a premium of \$605 which is being amortized over the term of the notes. The Subordinated Notes will mature in 2016 subject to redemption under specified conditions at the option of the Company, commencing on or after November 18, 2009. Interest is payable monthly in arrears and the principal repayment will occur at maturity. The Subordinated Notes are secured by a subordinated pledge of the Company's interest in Atlantic Holdings and contain certain restrictive covenants.

## 10. Other liabilities, non-controlling interest:

The net proceeds from the private placement were used by the Company to increase its common membership ownership in Atlantic Holdings from 58.1% to 70.1%. Atlantic Holdings concurrently redeemed membership interests held indirectly by the Existing Investors, reducing the Existing Investors' common membership ownership from 41.9% to 29.9%.

As of December 31, 2005, the Existing Investors have a 29.9% (2004 - 41.9%) interest in Atlantic Holdings and also have the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest for a two-year period from November 18, 2004. The repurchase of the Existing Investors' interests is conditional upon Atlantic Holdings being able, after utilizing its best efforts, to complete or cause the completion of an equity financing on terms acceptable to the managers of Atlantic Holdings who are independent of the Existing Investors and their affiliates, acting reasonably, to secure the necessary funds to enable it to purchase the Existing Investors' interests. Atlantic Holdings may only finance repurchases of Existing Investors' interests pursuant to the exercise of the rights by issuing additional equity securities. This may occur through the sale of equity interests to the Company, the purchase of which by the Company may be financed by a sale of IPSs or other equity securities of the Company. This liquidity right is treated as a liability of the Company and is recorded at fair value on the consolidated balance sheet. To purchase the remaining 29.9% interest, 22,233,721 IPSs would be required to be issued. Existing Investors must hold a minimum 10% interest in Atlantic Holdings until November 18, 2006.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

## 10. Other liabilities, non-controlling interest (continued):

Any change in fair value of the non-controlling interest is recognized in the consolidated statements of operations and deficit as a change in fair value of non-controlling interest. For the period ended December 31, 2005, a gain of \$6,404 (2004 - a cost of \$16,490) is reflected in the consolidated statements of operations and deficit.

## 11. Share capital:

	Number (000's)	Amount
Issuance of common stock, initial public offering	32,000	\$ 105,549
Issuance of common stock	4,800	15,832
Balance, December 31, 2004	36,800	121,381
Issuance of common stock	7,539	26,644
Balance, December 31, 2005	44,339	\$ 148,025

The Company issued 32,000,000 IPSs for cash pursuant to its initial public offering on November 18, 2004 and a further 4,800,000 IPSs on December 6, 2004. Each IPS was issued for Cdn. \$10.00. Each IPS consists of one common share of the Company and Cdn. \$5.767 of aggregate principal amount of 11% Subordinated Notes of the Company (note 9). Proceeds of \$121,381 (net of offering costs of \$7,593) were allocated to common stock.

On October 3, 2005, the Company issued 7,539,000 IPSs at a rate of Cdn. \$10.00 per IPS to Caisse de depot et placement du Quebec and certain officers of the Company in a secondary private placement. Proceeds of \$26,644 (net of offering costs of \$64) were allocated to common stock.

## 12. Income taxes:

	2005	2004
Current income tax expense	\$ 8,959	\$ -
Future income tax expense (recovery)	(6,420)	-
	<u>\$ 2,539</u>	<u>\$ -</u>

The following is a reconciliation of income taxes calculated at the Canadian enacted statutory rate (36.12%) to the provision for income taxes in the consolidated statements of operations and deficit.

	2005	2004
Computed income tax expense at Canadian statutory rate	\$ 733	\$ (7,186)
Increase (decrease) resulting from:		
Operating in countries with different income tax rates	58	(164)
	791	(7,350)
Valuation allowance	21,547	357
	<u>22,338</u>	<u>(6,993)</u>
Non-taxable foreign-source income	(904)	-
Canadian loss carryforwards	(12,996)	-
Branch profits tax	739	-
Prior year true-up	(6,420)	-
Other	(218)	6,993
	<u>(19,799)</u>	<u>6,993</u>
Income tax expense	<u>\$ 2,539</u>	<u>\$ -</u>

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

## 12. Income taxes (continued):

The tax effect of temporary differences that give rise to significant portions of the future tax assets and future tax liabilities at December 31, 2005 are presented below:

	2005	2004
Future tax assets:		
Intangible assets	\$ 8,849	\$ 8,629
Loss carryforwards	12,996	690
Gas transportation contract and other accrued liabilities	13,321	-
Unrealized foreign exchange loss on subordinated notes	3,427	-
Other	2,702	2,168
<b>Total future tax assets</b>	<b>41,295</b>	<b>11,487</b>
Valuation allowance	(21,904)	(357)
	19,391	11,130
Future tax liabilities:		
Property plant and equipment	15,682	10,336
IPS issuance costs	-	176
Unrealized foreign exchange gain	2,858	-
Other	851	618
<b>Total future tax liabilities</b>	<b>19,391</b>	<b>11,130</b>
<b>Net future tax asset (liability)</b>	<b>\$ -</b>	<b>\$ -</b>

As of December 31, 2005, the Company has the following net operating loss carryforwards that are scheduled to expire in the following years:

2014	\$ 5,504
2015	30,476
	<b>\$ 35,980</b>

These losses relate to the Canadian entity and may only be used to offset the future income of the Canadian entity for Canadian income tax purposes. A full valuation allowance was taken against the future tax assets set up in respect of the Canadian entity's loss carryforwards as the Company believes that it is not more likely than not that the Canadian entity would be able to use any of these loss carryforwards.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

## 13. Commitments and contingencies:

- (a) In the normal course of business, the Projects may be involved in litigation from time to time.
- (i) In July 2005, MASSPOWER and its former partners, including a subsidiary of the Company, were named as defendants in a suit filed by the Massachusetts Municipal Wholesale Electric Company ("MMWEC"), which holds a power purchase agreement entitling it to 7.86% of the capacity and energy of the facility. MMWEC alleges that MASSPOWER has, among other things, breached the agreement by restructuring its natural gas contracts without MMWEC's approval. The MASSPOWER partners filed an answer to the suit denying its material allegations. On December 28, 2005, the MASSPOWER partners sold their interest in the facility to a third party. Under the terms of the purchase and sale agreement, the sellers are indemnified by the buyer with respect to any successful claim against the MASSPOWER partners that may result from the resolution of the suit, which indemnity is secured by the plant. In addition, the buyer may use a portion of the sale price that was placed in escrow pending the outcome of the litigation process toward defence costs and potential claims. The Company has not recognized in income the portion of the sales proceeds placed in escrow on the sale of MASSPOWER of \$437. Management of the Company believes that the settlement of this dispute will have no material impact to the Company.
- (ii) Chambers, in which the Company owns a 40% indirect interest, has filed suit against its coal supplier, CONSOL Pennsylvania Coal Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things, (1) a declaratory judgement regarding the terms of the agreement, (2) damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defences and counterclaims in its answer, including claims of unjust enrichment and fraud, and the parties are currently in the discovery process. On December 1, 2005, Chambers moved to dismiss the claims of fraud and unjust enrichment, as well as making requests for punitive damages should the fraud claim be dismissed. An order on the Chambers motion is pending. Management of the Company believe the coal supplier's affirmative defences and counterclaims are without merit and the situation is at too early a stage to estimate exposure. The coal supplier is continuing to supply coal.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

## 13. Commitments and contingencies (continued):

- (iii) The Rumford cogeneration facility purchases its coal from Massey Coal Sales Company ("Massey"). Massey's coal is delivered through a Sprague Energy Corp. ("Sprague") marine terminal. Massey and Sprague are disputing terms and compensation for certain terminal services provided by Sprague. Massey asserts that Rumford also has failed to pay certain amounts due under the coal supply agreement. The amounts in dispute are not material and management has not yet formed an expectation regarding the potential outcome of this suit. Massey continues to supply coal to the plant on a timely basis.
- (b) Certain projects have long-term contracts for supply and transportation of fuel. The contracts may have minimum volumetric commitments of delivery, but these obligations are non-recourse to the Company.
- (c) One of Company's proportionately consolidated joint ventures contains a going concern qualification in the auditor's report based on the assessment that the project's debt reserves would likely be utilized over a period of years and, absent changes in the relevant power and electricity markets, could need to renegotiate with its lenders in or around the year 2010.
- (d) Certain projects provide letters of credit ("LOCs") to PPA buyers for contingent project obligations. The Company's aggregate share of these LOCs was \$15,061 at December 31, 2005 (2004 - \$14,750) supported by the Company's revolving credit facility.

## 14. Indexed swap:

A swap agreement (the "Indexed Swap") between the power utility and Onondaga has replaced the Project's original power purchase contract. The Indexed Swap expires on June 30, 2008. The Indexed Swap is a financial instrument under which the utility company makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full term of the Indexed Swap.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

## 14. Indexed swap (continued):

In May 2004, Onondaga contributed the Indexed Swap to a newly formed wholly owned special purpose subsidiary, Onondaga Power Swap Holdings, LLC ("OPSH"). Onondaga has guaranteed OPSH's obligations to the utility company under the Indexed Swap. Also in May 2004, OPSH entered into commodity hedges (the "Indexed Swap Hedge"), in order to lock in favourable gas, power and capacity pricing under the Indexed Swap. The hedges extend through June 30, 2008 and remove almost all commodity exposure from the Indexed Swap through its term.

Changes related to the Indexed Swap are summarized below:

	2005	2004
Fair value, as of December 31, 2004	\$ 99,591	\$ 101,468
Increase in fair value during the period	46,818	1,880
Settlements received	(38,495)	(3,757)
<b>Fair value, as of December 31, 2005</b>	<b>\$ 107,914</b>	<b>\$ 99,591</b>

Changes related to the Indexed Swap Hedge:

	2005	2004
Fair value, as of December 31, 2004	\$ (30,293)	\$ (29,566)
Increase in fair value during the period	(40,479)	(606)
Settlements received	12,225	(121)
<b>Fair value, as of December 31, 2005</b>	<b>\$ (58,547)</b>	<b>\$ (30,293)</b>

## 15. Related party transactions:

The Company has contracted with Atlantic Power Management, LLC (the "Manager"), a company owned by certain entities that form part of the non-controlling interest (note 10), for management services, including business planning, asset management, acquisitions, financial reporting and general management services. The Manager receives an annual management fee of \$300, cost reimbursements and an incentive fee equal to approximately 25% of cash distributions in excess of Cdn \$1.00 per IPS and also on existing investors' shares. In 2005, the Manager was paid \$2,989 (2004 - \$620).

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

---

## 15. Related party transactions (continued):

The Manager subleases its office space from an existing investor under an agreement through 2014. The obligation under this sublease is \$130 per year in 2006 and 2007 and a total of \$933 for the period 2008 through 2014.

The Company has engaged Caithness Energy, a company affiliated with the non-controlling interest to provide operations and maintenance at four of the Projects and accounting, taxes and other administrative functions for 12 of the Projects. In 2005, Caithness Energy was paid \$2,750 (2004 - \$687).

## 16. Fair values of financial instruments:

The fair values of cash and cash equivalents, cash reserve fund, restricted cash, accounts receivable, dividends payable and accounts payable and accrued liabilities approximate carrying values due to the short-term nature of these balances.

The Indexed Swap and Hedge agreements (note 14) are recorded at their estimated fair value based on estimated future cash flows taking into account certain assumptions, including forecasts of future energy prices, inflation rates, discount rates and credit risk. Energy prices can be volatile and other assumptions can change from period to period. These factors can create significant fluctuations in the estimated fair value of this agreement.

The non-controlling interests are carried at estimated fair value based on the quoted market value of the IPSs.

The foreign exchange forward contracts are carried at estimated fair value based on quoted market value.

The fair value of long-term debt approximates its carrying value based on discounting of cash flows at current market rates.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)  
(In thousands of U.S. dollars)

Year ended December 31, 2005 and period from November 18, 2004 to December 31, 2004

## 16. Fair values of financial instruments (continued):

The fair value of derivative financial instruments is as follows:

	Fair value		Carrying value	
	2005	2004	2005	2004
Indexed swap	\$ 107,914	\$ 99,591	\$ 107,914	\$ 99,591
Indexed swap hedge	(58,547)	(30,293)	(58,547)	(30,293)
Forward foreign currency contract <sup>(i)</sup>	10,212	10,212	1,827	1,827
Interest rate swap assets <sup>(i), (ii)</sup>	-	1,666	-	-
Interest rate swap liabilities <sup>(i), (ii)</sup>	(6,171)	(3,195)	(6,171)	-
Natural gas swap assets <sup>(i), (ii)</sup>	3,183	2,626	-	-

<sup>(i)</sup> represents the Company's proportionate share of joint venture investments.

<sup>(ii)</sup> included in other assets on the balance sheet.

<sup>(iii)</sup> included in other liabilities on the balance sheet.

For the year ended December 31, 2005, the Company has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,308 monthly through December 2009. The Company also has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,209 monthly during 2010. The average rate during the period to December 2009 is \$1.2055 and \$1.1225 during 2010.

## 17. Basic loss per share:

Basic loss per share has been calculated using the weighted average number of units outstanding during the year of 38,659,055 (2004 - 34,727,273).

## GLOSSARY OF TERMS

In this annual information form, the following terms will have the meanings set forth below, unless otherwise indicated. Words importing the singular include the plural and vice versa and words importing any gender include all genders:

“**affiliate**” has the meaning ascribed thereto in the *Securities Act* (Ontario).

“**Acquisition Agreements**” means, collectively, the agreements dated as of November 10, 2004 among the Company, Atlantic Holdings and each of the Existing Investors respecting, among other things, the acquisition by Atlantic Holdings of the Project Holding Entities from the Existing Investors.

“**ArcLight**” means ArcLight Capital Partners, LLC.

“**Atlantic Holdings**” means Atlantic Power Holdings, LLC.

“**avoided cost**” means the incremental expense that a utility would incur to either generate or purchase from an outside source electricity, capacity or both.

“**Btu**” means British thermal unit.

“**business day**” means a day other than a Saturday, Sunday or other day on which banking institutions in the Province of Ontario are authorized or required by law to close.

“**CDS**” means The Canadian Depository for Securities Limited.

“**Code**” means the United States Internal Revenue Code of 1986, as amended.

“**cogeneration**” means the simultaneous production of electricity and thermal energy in the form of heat or steam from a single fuel source.

“**Common Shares**” means the common shares in the capital of the Company.

“**Credit Facility**” means the credit facility provided by a syndicate of financial institutions to Atlantic Holdings on closing of the initial public offering of the Company in an aggregate amount of \$50 million.

“**DBRS**” means Dominion Bond Rating Service Limited.

“**Equivalent Amount**” on any given date in one currency (the “first currency”) of any amount denominated in another currency (the “second currency”) means the amount of the first currency which could be purchased with such amount of the second currency at the rate of exchange approximately equal to the noon rate of exchange quoted by the Bank of Canada on such day for the purchase of the first currency with the second currency.

“**ERISA**” means the United States Employee Retirement Income Security Act of 1974, as amended.

“**ERISA Plan**” shall mean any employee benefit plan that is subject to the fiduciary and prohibited transaction provisions of ERISA and/or any plan that is subject to Section 4975 of the Code, any trust holding assets of such a plan, and any entity that is deemed to hold the assets of such a plan pursuant to 29 C.F.R. Section 2510.3-101, issued by the United States Department of Labor.

“**EWG**” means an exempt wholesale generator as defined under PUHCA.

“**Existing Investor Interests**” means the common membership interests and Class B preferred membership interests in Atlantic Holdings held by the Existing Investors.

“**Existing Investors**” means Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC.

“**FERC**” means the United States Federal Energy Regulatory Commission, an independent regulatory agency within the United States Department of Energy that, among other things, oversees regulatory matters relating to electricity projects.

“**FPA**” means the United States Federal Power Act, as amended.

“**Fund I**” means ArcLight Energy Partners Fund I, L.P.

“**Fund II**” means ArcLight Energy Partners Fund II, L.P.

“**gigawatt**” or “**GW**” means 1,000 megawatts of energy.

“**GWh**” means an amount of energy equivalent to one gigawatt of energy delivered continuously for one hour.

“**Heat rate**” is a measure of a thermal power plant’s efficiency, usually measured in MMBtu’s.

“**Holder**” means a holder of IPSs, Subordinated Notes or Common Shares.

“**Indenture**” means the Subordinated Note Indenture dated as of November 18, 2004 between the Company, certain guarantors and Computershare Trust Company of Canada.

“**IPSs**” means the income participating securities of the Company.

“**IRS**” means the United States Internal Revenue Service.

“**Company**” means Atlantic Power Corporation.

“**kWh**” means an amount of energy equivalent to one kilowatt of energy delivered continuously for one hour.

“**kilowatt**” or “**kW**” means 1,000 watts of energy.

“**Manager**” means Atlantic Power Management, LLC.

“**Management Agreement**” means the management agreement dated as of November 10, 2004 between the Manager, the Company and Atlantic Holdings, as it may be amended, supplemented and restated from time to time.

“**MWh**” means an amount of energy equivalent to one megawatt of energy delivered continuously for one hour.

“**megawatt**” or “**MW**” means 1,000 kilowatts of energy.

“**MMBtu**” means one million Btu.

“**NERC**” means the North American Electric Reliability Council.

“**Non-U.S. Holder**” means a Holder that is not: (i) a citizen or individual resident in the U.S. for U.S. federal tax purposes; (ii) a corporation or other entity taxable as a corporation created or organized under the laws of the U.S. or a political subdivision thereof; (iii) an estate, the income of which is subject to U.S. federal income tax regardless of the source; or (iv) a trust, if (A) a court within the U.S. is able to

exercise primary supervision over the trust's administration and one or more U.S. persons have the authority to control all of its substantial decisions, or (B) the trust was in existence on August 20, 1996 and has properly elected under applicable Treasury Regulations to continue to be treated as a United States person.

**"Operating Agreement"** means the operating agreement in respect of Atlantic Holdings entered into among the Company, Atlantic Holdings and the Existing Investors on closing of the initial public offering of the Company.

**"PPA"** means power purchase agreement.

**"Projects"** means the 15 power generation projects described under "Description of the Business – Summary Table of the Projects" and "Project Descriptions".

**"Project Holding Entities"** means Teton Funding, Epsilon Power Partners, LLC, Harbor Capital Holdings, LLC, Epsilon Power Funding, LLC and Umatilla Power Funding, LLC.

**"Project Operating Entities"** means the limited partnerships, corporations or other entities that directly own the Projects.

**"PUHCA"** means Public Utility Holding Company Act of 1935, as amended.

**"PURPA"** means the Public Utility Regulatory Policies Act of 1978, as amended.

**"QF"** means a qualifying facility under the FPA, as amended by PURPA.

**"Reserve Account"** means the reserve account established by Atlantic Holdings to stabilize future cash distributions and fund acquisitions and other growth opportunities.

**"ROFO Projects"** means the 11 power generation projects described under "Description of the Business – Company's Objectives and Business Strategy – Opportunity to Purchase ArcLight Projects".

**"S&P"** means Standard and Poor's, a division of The McGraw-Hill Companies, Inc.

**"Separate Subordinated Notes"** means the Cdn\$36,501,000 principal amount of Subordinated Notes issued and sold separately at the time of closing of the initial public offering of the Company.

**"Subordinated Notes"** means the 11.0% subordinated notes of the Company issued in accordance with the Indenture.

**"Targeted Cash Distribution"** means Cdn\$1.00 per IPS and, following the maturity, redemption or repurchase of all the Subordinated Notes or the separation of all of the IPSs, means Cdn\$0.3657 per Common Share.

**"Tax Act"** means the Income Tax Act (Canada) and the regulations thereunder, in each case in effect on the date hereof.

**"Teton Funding"** means Teton Power Funding, LLC.

**"Treasury Regulations"** means the U.S. Treasury regulations (including final, temporary and proposed regulations) promulgated under the Code.

**"Trustee"** means Computershare Trust Company of Canada.

**"U.S. Holder"** means any Holder that is not a Non-U.S. Holder.

## GENERAL

The information in this annual information form is stated as at December 31, 2005, unless otherwise indicated.

Certain capitalized terms used in this annual information form have the meaning set out in the "Glossary of Terms". In this annual information form, references to "Cdn\$" and "Canadian dollars" are to the lawful currency of Canada and references to "\$", "US\$" and "U.S. dollars" are to the lawful currency of the United States. All dollar amounts herein are in U.S. dollars, unless otherwise indicated.

Certain statements in this annual information form may constitute "forward-looking statements", which reflect the expectations of Atlantic Power Management, LLC (the "Manager") regarding future growth, results of operations, performance and business prospects and opportunities of Atlantic Power Corporation (the "Company"), Atlantic Power Holdings, LLC ("Atlantic Holdings") and the Projects (as defined below). Such forward-looking statements reflect current expectations regarding future events and operating performance and speak only as of the date of this annual information form. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not or the times at or by which such performance or results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under "Risk Factors". Although the forward-looking statements contained in this annual information form are based upon what are believed to be reasonable assumptions, investors cannot be assured that actual results will be consistent with these forward-looking statements, and the differences may be material. These forward-looking statements are made as of the date of this annual information form and, except as expressly required by applicable law, the Company assumes no obligation to update or revise them to reflect new events or circumstances.

## ATLANTIC POWER CORPORATION

### The Company

The Company is a corporation continued under the laws of the Province of British Columbia on July 8, 2005. The registered and head office of the Company is located at 355 Burrard Street, Suite 1900, Vancouver, British Columbia, V6C 2G8. The Company holds 70.1% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Holdings, and Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC (the "Existing Investors") hold 29.1% of the common membership interests and all of the Class B preferred membership interests in Atlantic Holdings. The Company owns interests in a diversified portfolio of 15 power generation projects (collectively, the "Projects", and individually, a "Project") located primarily in major markets in the United States.

### Atlantic Holdings

Atlantic Holdings is a Delaware limited liability company with its registered and head office located at 2711 Centerville Road, Suite 400, Wilmington, Delaware 19808 c/o Corporation Service Company.

### The Manager

The Manager is a Delaware limited liability company formed by ArcLight Capital Partners, LLC ("ArcLight") and the Existing Investors to provide management and administrative services to the Company and its subsidiaries pursuant to the terms of the Management Agreement. The Manager manages the business with the objective of providing holders of IPSs with stable and sustainable cash

distributions in the form of interest payments on the Subordinated Notes and dividends on the Common Shares. The Manager is also focused on identifying additional acquisitions and investments for the Company, including acquisitions of, or investments in, power generation assets in Canada and the U.S. In addition to the substantial energy investing experience and industry relationships of its own employees, the Manager expects to benefit from ArcLight's experience, relationships and specialized knowledge to identify emerging trends and present the Company with accretive acquisition and investment opportunities within the power and energy sector.

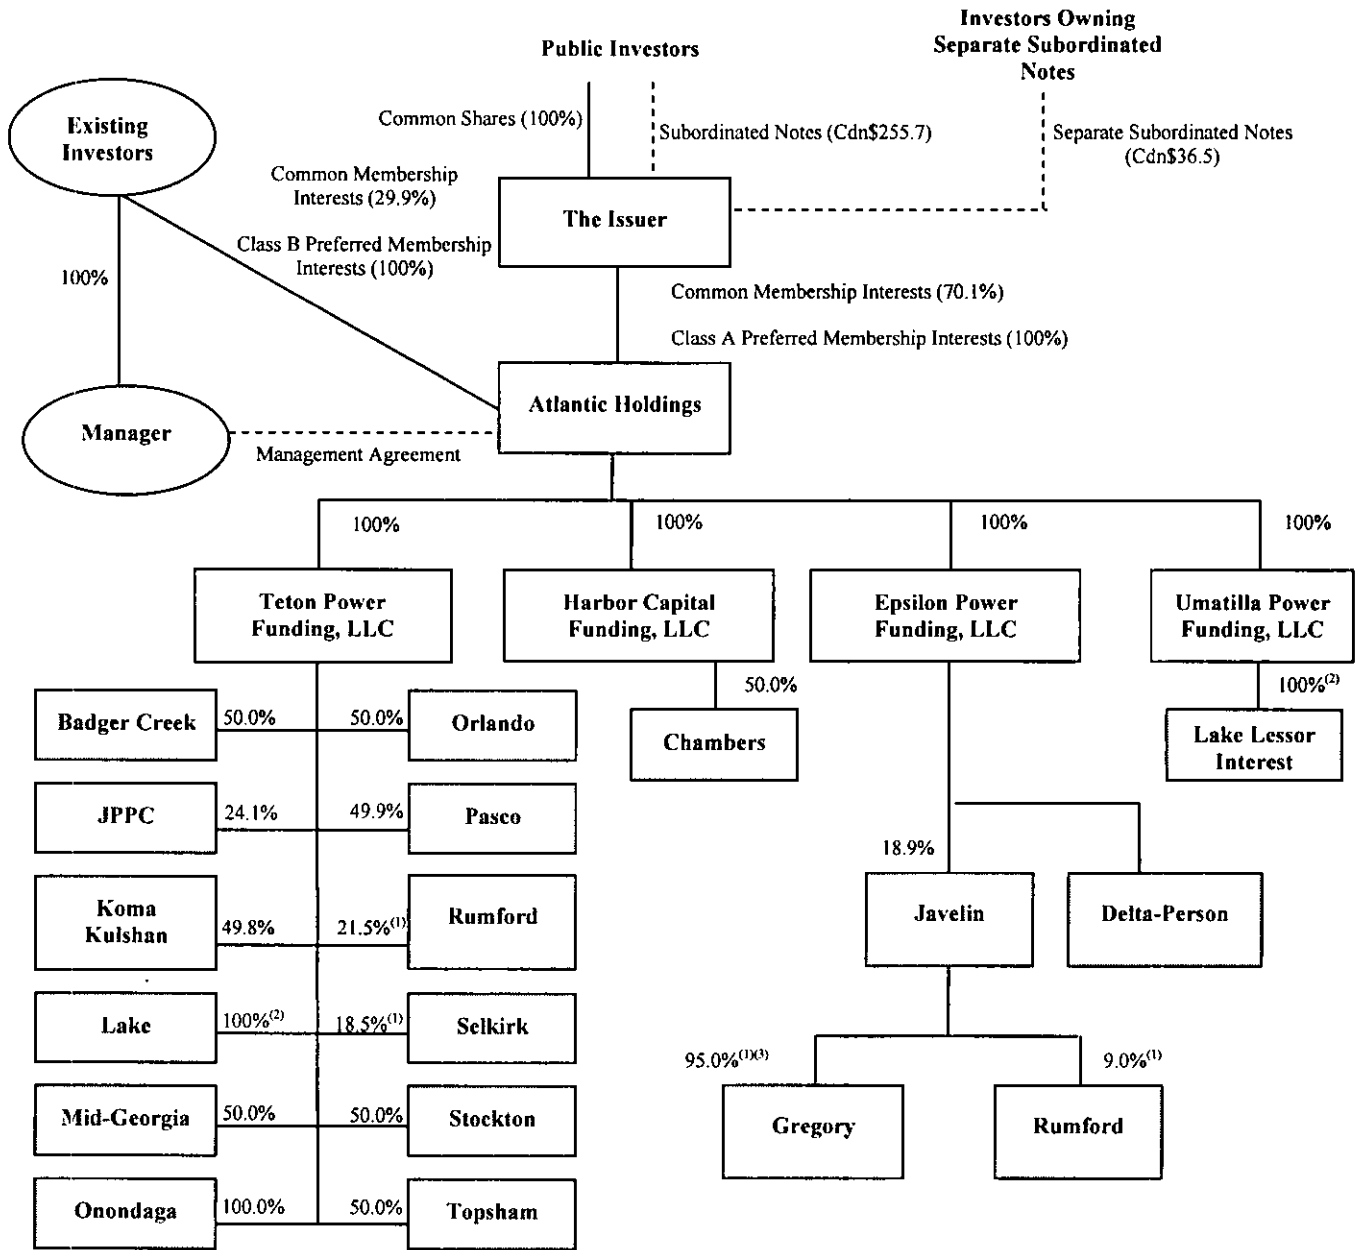

### **ArcLight**

ArcLight is one of the leading private investment firms focused exclusively on the electric power and energy sectors. Headquartered in Boston, Massachusetts with offices in New York City, the principals of ArcLight have spent the majority of their careers identifying, structuring, and managing investments and companies in the power and energy sectors.

In April 2001, ArcLight organized ArcLight Energy Partners Fund I, L.P. ("Fund I") to capitalize on attractive investment opportunities in the rapidly evolving power, utility and energy industry. Fund I closed with \$950 million in total capital commitments. Building on the success of Fund I, ArcLight initiated fundraising for ArcLight Energy Partners Fund II, L.P. ("Fund II") in October 2003 and by June 2004 had secured commitments from more than 75 investors. Almost all of ArcLight's Fund I investors, such as the Caisse de dépôt et placement du Québec and the University of Texas, participated in Fund II, as well as over 50 institutional investors that did not participate in Fund I, including Alberta Revenue, British Columbia Investment Management Corporation and the California Public Employees Retirement System (CalPERS). For Fund II, ArcLight is pursuing the same strategy it developed for Fund I, investing in assets in the power, utility and energy sectors. Fund II closed with \$1.6 billion in total capital commitments.

Prior to completion of the Company's initial public offering and the transactions contemplated by the Acquisition Agreements, Fund I, Fund II and Caithness Energy, LLC ("Caithness") were the indirect owners of Teton Power Funding, LLC ("Teton Funding") the owner of interests in 12 of the power projects in which the Company acquired an indirect interest on closing its initial public offering. Fund I was the indirect owner of Epsilon Power Funding, LLC, the owner of interests in four of the power projects in which the Company acquired an indirect interest on closing its initial public offering. Fund II was the indirect owner of Umatilla Power Funding, LLC, the owner of a lessor interest in one of the power projects in which the Company acquired an indirect interest on closing its initial public offering. Fund I and Fund II are also indirect owners of the Manager.

The following chart illustrates in simplified form the structure of the Company and its indirect ownership interests in the Projects.

<sup>(1)</sup> Represents Atlantic Holdings' estimate of its share of the cash flow from the Project.

<sup>(2)</sup> Teton Funding indirectly owns 100% of the partnership interests in Lake. Lake leases the Lake Project from a trust of which Umatilla Power Funding, LLC is the sole beneficiary. Atlantic Holdings is in the process of terminating this lease to simplify the Lake ownership structure.

<sup>(3)</sup> On January 12, 2005, Javelin increased its ownership in Gregory from 50% to 95% by purchasing a 45% interest from an affiliate of LG&E.

## GENERAL DEVELOPMENT OF THE BUSINESS

Upon completion of its initial public offering of 32,000,000 IPSs and private placement of \$30,221,000 (Cdn\$36,501,000) aggregate principal amount of Subordinated Notes on November 18, 2004, the Company subscribed for 32,000,000 common membership interests and 38,329,287 Class A preferred membership interests in Atlantic Holdings for total consideration of approximately \$276,695,000 (Cdn\$334,192,000). Atlantic Holdings used approximately \$94,711,000 (Cdn\$114,393,000) of this amount, together with 31,291,865 common membership interests and 31,291,865 Class B preferred membership interests issued by it, to acquire Teton Funding, Epsilon Power Funding, LLC and Umatilla Power Funding, LLC (the "Project Holding Entities") from the Existing Investors. The Project Holding Entities in turn collectively hold interests in the Projects. Atlantic Holdings also used approximately \$167,831,000 (Cdn\$202,707,000) of the proceeds from the subscription for membership interests by the Company to repay outstanding indebtedness of Teton Funding.

Upon the exercise on December 6, 2004 of an over-allotment option granted to the Underwriters, the Company subscribed for 4,800,000 common membership interests and 4,800,000 Class A preferred membership interests in Atlantic Holdings for total consideration of \$37,655,000 (Cdn\$45,480,000). Atlantic Holdings used this amount to redeem 4,800,000 common membership interests and 4,800,000 Class B preferred membership interests held by the Existing Investors.

Upon completion of the transactions described above, the Company owned 58.1% of the common membership interests in Atlantic Holdings and the Existing Investors owned 41.9% of the common membership interests in Atlantic Holdings.

On January 12, 2005, Holdings increased its indirect interest in the Gregory project from 9.4% to 17.1% or 68 net MW. The interest was acquired indirectly via Holding's interest in Javelin and was accomplished using cash available at the project level, discussed further in Acquisitions and Dispositions.

On May 19, 2005, the Company announced the appointment of Steven Chwiecko as Managing Director responsible for asset management and acquisitions. Mr. Chwiecko has extensive experience in finance, mergers & acquisitions, development and restructuring within the North American independent power business and was previously the Chairman of the Audit Committee of the board of directors of National Energy & Gas Transmission.

On August 11, 2005, the Company announced the acquisition, through Atlantic Holdings, of Epsilon Power Partners, LLC, which owns a 40% interest in Chamber Cogeneration LP ("Chambers"), the owner and operator of a net 262 MW pulverized coal-fired cogeneration facility located at E.I. Dupont de Nemours & Company's Chambers Works complex in southwestern New Jersey. For a full description of the acquisition, see the Company's business acquisition report filed at [www.sedar.com](http://www.sedar.com) on November 21, 2005, which report is incorporated by reference into this annual information form.

On September 8, 2005, the Company announced an increase in annual distributions per share of \$0.03 per share commencing with the September 2005 distribution.

On October 3, 2005, the Company sold 7,500,000 IPSs to Caisse de dépôt et placement du Québec and 39,500 IPSs to the Company's President and CEO, and Managing Director of the Manager in a private placement. Net proceeds were used to increase the Company's common membership interest in Atlantic Holdings to 70.1%. The remaining 29.9% of the common membership interests and all of the outstanding Class B preferred membership interests in Atlantic Holdings are owned the Existing Investors.

## POWER INDUSTRY OVERVIEW

### Independent Power Generation and North American Demand Outlook

Historically, the North American electricity industry was characterized by vertically integrated monopolies. During the late 1980s, several jurisdictions began a process of restructuring by moving away from vertically integrated monopolies towards more competitive market models. Rapid growth in electricity demand, environmental concerns, increasing electricity rates, technological advances and other concerns prompted government policies to encourage the supply of electricity from independent power producers.

In the independent power generation sector, electricity is generated from a number of sources, including water, natural gas, coal, waste products such as biomass (e.g., waste wood from forest products operations) and landfill gas, geothermal sources, such as heat or steam, the sun, and wind. According to a report published in September 2005 on the Long-Term Reliability Assessment of Bulk Electric Systems in North America by the North American Electric Reliability Council ("NERC"), the average annual peak demand growth rate for electricity for the past 10 years was 2.4% per annum in the U.S. (summer) and 1.0% per annum in Canada (winter). The NERC projects that average annual peak demand growth from 2004 to 2012 will be 2.0% in the U.S. and 0.9% in Canada.

### The Non-Utility Power Generation Industry

The Projects are non-utility electric generating facilities that operate primarily in the U.S. electric power generation industry. The electric power industry is one of the largest industries in the U.S., with 2004 sales of nearly \$270 billion based on information published by the Energy Information Administration of the U.S. Department of Energy ("EIA"). A growing portion of the power produced in the U.S. is generated by non-utility generators. According to the EIA, there were approximately 7,772 non-utility generators representing 460 GW of capacity and 1,089 GWh of total net electric generation in 2004 (equal to 46%, 44% and 37%, respectively, of electric generation industry totals). Non-utility generators sell the electricity that they generate to electric utilities and other load-serving entities (such as municipalities and electric cooperatives) through bilateral contracts or open power exchanges. The electric utilities and other load-serving entities, in turn, generally sell this electricity to industrial, commercial and residential customers. The power generated by the Projects is generally sold under long-term contracts.

The Manager believes that merger and acquisition activity in the power generation sector over the next several years will be characterized by continued divestiture activity and focused acquisitions aimed at restructuring portfolios.

### Industry Regulation

#### *United States*

In the United States, the trend towards restructuring the electric power industry and the introduction of competition in electricity generation commenced with the passage and implementation of the *Public Utility Regulatory Policies Act of 1978*, as amended ("PURPA"). Among other things, PURPA, as implemented by the United States Federal Energy Regulatory Commission ("FERC"), generally required vertically integrated electric utilities to purchase power from qualifying facilities ("QFs") at their avoided cost. FERC had defined avoided costs as incremental costs to a utility of energy or capacity which, but for the purchase from QFs, such utility would itself generate or purchase from another source.

A QF is a distinct type of energy producer that falls into one or both of two primary classes. The first class of QFs includes energy producers that generate power using specific energy sources such as

wind, solar, geothermal, hydro, biomass or waste fuels. The second class of QFs includes cogeneration facilities. With the exception of QFs, generation, transmission and distribution of electricity remained largely owned by vertically integrated electric utilities until the enactment of the *Energy Policy Act of 1992* (the "1992 Act") and subsequent orders in 1996, along with electric industry restructuring initiated at the state level. Among other things, the 1992 Act enhanced FERC's power to open access to power transmission systems, contributing to significant growth in the independent power generation industry.

## DESCRIPTION OF THE BUSINESS

### Business Strengths

#### *Diversified Portfolio of Power Generating Projects*

The Projects represent approximately 860 MW of net generating capacity and are diversified by geographic location, electricity and steam off-takers and project operators. Fourteen of the Projects are located across nine states in the U.S., representing most major U.S. power markets, and one Project is located in Jamaica. The Projects are diversified across most of the deregulated electricity markets in New England, New York, PJM, California and Texas or located in regions of high electricity demand growth such as Florida, Georgia, Texas and New Mexico. As a result, the Company's exposure to conditions (such as market, regulatory or environmental conditions) specific to any particular region is limited.

The Projects have contracts with 23 different electricity and steam off-takers. Progress Energy Florida, Inc. ("PEF"), Georgia Power Company ("Georgia Power") and Niagara Mohawk Power Corporation ("NIMO") are the largest off-takers of the Projects, purchasing approximately 24%, 18% and 12% of the Projects' net electric generation capacity, respectively. No other electricity off-taker purchases more than 9% of the Projects' net electric generation capacity.

The Projects rely on a number of different operators for their operation. Affiliates of Caithness, Delta Power Company and North American Energy Services operate Projects representing approximately 48%, 17% and 12% of the total electric generation capacity of the Projects, respectively. No other operator is responsible for the operation of Projects representing more than 7% of the Projects' total electric generation capacity.

#### *Predictable, Stable and Sustainable Cash Distributions*

Approximately 93% of the Projects' net electric generation capacity is sold to electricity off-takers having investment grade credit ratings from S&P. In addition, the Projects generally have long-term fuel supply arrangements that match the term of their respective PPAs. Each of the Projects has been operating for a minimum of five years.

The Company's cash flow from the Projects will vary from year to year based on, among other things, changes in rates under the PPAs, fuel supply agreements, steam sales agreements and other Project contracts, compliance with the terms of Project-level financing and other contractual arrangements including debt repayment schedules, the transition to market pricing following the expiry of PPAs and fuel supply and transportation contracts, working capital requirements and the performance generally of the Projects. In order to provide holders of IPSs with stable and sustainable cash distributions, as at March 20, 2006, Atlantic Holdings had deposited approximately \$10.5 million into the Reserve Account and plans to retain funds in the Reserve Account from time to time to stabilize future cash distributions and fund acquisitions and other growth opportunities.

#### *Sponsorship of ArcLight Capital Partners, LLC*

Fund I and Fund II are indirect owners of the Manager. ArcLight, as manager of Fund I and Fund II, has input related to the management of the Manager. ArcLight possesses a management team with substantial energy investing experience and industry relationships. ArcLight is one of the leading

private investment firms focused exclusively on the electric power and energy sectors with over \$2.5 billion under management. Collectively, the principals of ArcLight have invested over \$6 billion in more than 100 transactions with an aggregate acquisition value in excess of \$20 billion. The Manager believes that its relationship with ArcLight will help provide it with access to compelling investment opportunities.

#### ***Opportunities to Grow Distributable Cash***

The Manager expects that the significant dislocation in the U.S. power markets that has occurred over the past several years will continue, thereby providing the Company with opportunities for accretive acquisitions. The Manager believes that the experience and industry relationships of its own employees, together with its ongoing relationship with ArcLight, will allow it to provide the Company with unique access to such acquisition opportunities.

The Manager intends to enhance the operation of the Projects and increase cash distributions through the: (i) optimization of commercial arrangements such as PPAs, fuel supply and transport contracts, steam sales agreements and management and operation agreements; (ii) achievement of operating efficiencies; (iii) upgrade or enhancement of existing equipment or plant configurations; and (iv) expansion of existing Projects. The Manager believes that opportunities also exist to consolidate ownership positions in the Projects in which the Company owns partial interests on an accretive basis and that financial restructuring and recapitalization opportunities at the Projects may provide capital to the owners of the Projects to fund future growth opportunities.

#### **Company's Objectives and Business Strategy**

The Company's objectives are to maintain the stability and sustainability of its cash distributions to holders of IPSs (in the form of interest payments on the Subordinated Notes and dividends on the Common Shares) and increase, when prudent, cash distributions on the Common Shares. In order to achieve these objectives, the Company intends to focus on enhancing the financial performance of the Projects and pursuing additional acquisitions and investments with a focus on power generating facilities in Canada and the U.S.

#### ***Acquisition and Investment Strategy***

The Company intends to, where practical and economical, expand its operations by making additional investments and acquisitions with a focus on power generation facilities in Canada and the U.S., and such other business or activities as may be approved from time to time, including investments and other direct and indirect rights in other forms of energy-related projects, utility projects and infrastructure projects. The Company will make additional acquisitions or investments only if it believes that they will meet the Company's acquisition and investment guidelines. Such acquisitions or investments may be financed by the issuance of additional IPSs or other securities of the Company, from the cash flows of the Company, from amounts held in the Reserve Account, from the proceeds of the sale of assets or through additional indebtedness.

Despite the large number of generation assets built in North America over the past several years, certain regions of North America are expected to require new sources of electricity supply due to growth in electricity demand, transmission constraints or the obsolescence of, and environmental concerns associated with, older native generation. The Manager believes that new electricity generation projects will emerge throughout Canada and the U.S. over the next several years. As new projects are developed, the Manager expects to be able to present additional acquisition and investment opportunities to the Company. ArcLight is contractually obligated to give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that ArcLight has determined do not fit within the investment guidelines for Fund I, Fund II or other future investment funds managed by ArcLight or its affiliates or that do fit within such guidelines but which such investment funds determine not to pursue. The Manager believes that there will be many such opportunities.

### *Acquisition and Investment Guidelines*

The following guidelines will be used in the review and evaluation of possible acquisitions and other investments:

- each acquisition or investment will be made only if the Manager believes that the acquisition or investment will result in an increase in cash available for distribution to holders of IPSs;
- each acquisition or investment will be reviewed and approved by the board of managers of Atlantic Holdings;
- in the case of an acquisition of, or investment in, power generation facilities, facilities with long-term PPAs with major electrical utilities or industrial users will be preferred; and, for facilities without such agreements, free market electricity price assumptions used in acquisition or investment evaluations will be obtained from a recognized independent source;
- in the case of an acquisition of, or investment in, a power generation facility, the expected useful life of the facility and associated structures will, with regular maintenance and upkeep, be long enough for an investment therein to conform with the Company's objective of providing stable long-term cash distributions to holders of IPSs;
- in the case of acquisitions or investments involving ArcLight or its affiliates or investment funds managed by ArcLight or an affiliate of ArcLight, the acquisition or investment will be reviewed and approved by the independent members of the board of managers of Atlantic Holdings.

### *Opportunity to Purchase ArcLight Projects*

In connection with its initial public offering, Atlantic Holdings was granted a right of first offer on the ROFO Projects. In May 2005 Atlantic declined an offer to acquire nine of the projects under the ROFO process and those projects were eventually sold to a third party by ArcLight in December 2005. In September 2005 Atlantic purchased the Carney's Point facility (also known as "Chambers") from ArcLight through the ROFO process. As at December 31, 2005, one project (Auburndale) remained available as a potential acquisition under the ROFO agreement. The Auburndale project is a gas fired cogeneration project located in Florida. The net MW of power generating capacity of this project that is available under the ROFO arrangement is 107 MW.

Should Fund I desire to sell its interest in the Auburndale project, it must first offer such interest for sale to Atlantic Holdings at a specified price. If such first offer is not accepted by Atlantic Holdings within a 45-day period, Fund I may then, within the following 180 days, sell its interest in the project to any third party purchaser at a price and on terms no more favourable to the third party than those offered to Atlantic Holdings. If, within this 180-day period, Fund I receives an offer from a third party to purchase its interest in the Auburndale project that it is prepared to accept, but which is on terms more favourable to the third party than those offered to Atlantic Holdings, then, before it may accept the offer, Fund I must give Atlantic Holdings notice of the offer and Atlantic Holdings will have a 30-day period to match the offer. If, however, Fund I has not sold its interest in the Auburndale project during such 180-day period, the procedures described in this paragraph will again apply with respect to any potential future sale of its interest in the Auburndale project.

### Summary Table of the Projects

The following table lists the Projects, the economic interests in the Projects that are indirectly owned by Atlantic Holdings and certain key information about each Project.

Project Name	Location (State)	Fuel Type	Total MW	Economic Interest <sup>(1)</sup>	Accounting Treatment <sup>(2)</sup>	Net MW <sup>(3)</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating
Badger Creek	California	Natural Gas	46	50.00%	P	23	Pacific Gas & Electric	2011	BBB
Chambers (Carney's Point)	New Jersey	Coal	262	40.00%	P	74	Atlantic City Electric	2024	BBB+
						16	DuPont	2024	AA-
						15	Merchant <sup>(6)</sup>	N/A	N/A
Delta-Person	New Mexico	Natural Gas	132	40.00% <sup>(4)</sup>	E	53	Public Service of New Mexico	2020	BBB
Gregory	Texas	Natural Gas	400	17.10%	E	59	Constellation Energy <sup>(5)</sup>	2008	BBB
						9	Reynolds Metals	2020	NR
JPPC	Jamaica	Fuel Oil	60	24.10%	E	14	Jamaica Public Service	2018	B
Koma Kulshan	Washington	Hydro	13	49.80%	P	6	Puget Sound Energy	2037	BBB-
Lake	Florida	Natural Gas	110	100.00%	C	110	Progress Energy Florida	2013	BBB
Mid-Georgia	Georgia	Natural Gas	308	50.00%	P	154	Georgia Power	2028	A
Onondaga	New York	Natural Gas	91	100.00%	C	91	Niagara Mohawk	2008 <sup>(6)</sup>	A

						19	Reedy Creek Improvement District	2013	A-
Pasco	Florida	Natural Gas	109	49.90%	P	54	Progress Energy Florida	2008	BBB
Rumford	Maine	Coal/Biomass	85	23.50% <sup>(4)</sup>	E	20	NewPage <sup>(7)</sup>	2006	B
Selkirk	New York	Natural Gas	345	18.50% <sup>(4)</sup>	E	15	Niagara Mohawk	2008	A
						49	Consolidated Edison	2014	A
Stockton	California	Coal	55	50.00%	P	24	Pacific Gas & Electric	2008	BBB
						3	Corn Products Int'l	2008	BBB-
Topsham <sup>(8)</sup>	Maine	Hydro	14	50.00%	P	7	Central Maine Power	2011	BBB

(1) Holdings' economic interest represents the percentage ownership interest in the project held indirectly by Atlantic Holdings (except as otherwise noted).

(2) Accounting Treatment: (refer to Note 1 of Consolidated Financial Statements).

C = Consolidated

P = Proportionate Consolidation

E = Equity Method

(3) Represents the interest of Holdings in each project's electric generation capacity based on Holdings' economic interest in each project.

- (4) Represents Holdings' estimate of its share of the cash flow from the project.
- (5) New PPA with Constellation Energy through 2008. See discussion in the Outlook Section.
- (6) A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.
- (7) PPA with Central Maine Power expired December 31, 2005. See discussion of the new interim PPA with the former Mead/Westvaco paper mill (now owned by NewPage) in the Outlook Section.
- (8) Holdings owns its interest in this Project as a lessor.
- (9) The merchant output of the facility is sold by ACE in the PJM market through a profit sharing arrangement with Chambers.

## **Commercial Structure and Operation of the Projects**

Atlantic Holdings indirectly owns interests in each of the Projects as described in the above table. Fourteen of the Projects are located in nine states in the U.S. and one Project is located in Jamaica. The Projects have an aggregate gross electric generation capacity of approximately 2,156 MW, and Atlantic Holdings' net economic interest in the electric generation capacity of the Projects is approximately 860 MW. Twelve of the Projects are QFs and the three that are not QFs are exempt wholesale generators ("EWGs") under PUHCA.

The discussion below describes certain general characteristics of the commercial structure and operations of the Projects.

### ***Ownership and Project Financing***

The Projects are typically owned by the Project Operating Entities, in which the owners of the Projects hold limited partnership, general partnership or other equity interests. Atlantic Holdings' interests in each of Projects are held, directly or indirectly, through a Project Holding Entity.

Typically, construction of the Projects was financed by non-recourse loan arrangements, certain of which remain outstanding. These loan arrangements are typically secured by the Project assets, including associated contracts, and contain extensive affirmative and negative covenants on the part of the Project Operating Entity that may restrict the Project Operating Entity's activities and, in some cases, limit or prevent distributions of cash. In addition, the partnership or other equity interests in Project Operating Entities with outstanding indebtedness, including those held indirectly by Atlantic Holdings, are in some cases pledged to the Project lenders to secure such indebtedness. In the event of a default that has not been cured, the lenders may foreclose on the equity interests of the Project Operating Entity, including those held indirectly by Atlantic Holdings.

### ***Energy, Capacity and Steam Sales***

The majority of the Projects have long-term PPAs for the sale of electricity to off-takers having investment grade credit ratings from S&P, with some of the Projects having more than one PPA. The expiry dates of the PPAs vary from 2006 to 2037. Generally, the Projects receive payments for electric energy sold under PPAs (known as energy payments) as well as for electric generation capacity (known as capacity payments). In addition, the majority of the Projects which are coal or natural gas-powered co-generation QFs sell steam under steam sales agreements to industrial purchasers.

### ***Fuel Supply Arrangements***

The coal and natural gas-powered Projects generally have long-term supply agreements for the fuel required to operate the Project. These purchase agreements may also be accompanied by fuel transportation arrangements. In many cases, the fuel supply arrangements have been designed to correspond to the term of the PPAs and most of the Projects' PPAs and steam sales agreements provide for the pass through or indexing of fuel costs to the off-takers.

### ***Operations and Maintenance***

The Projects are typically operated and maintained by third party operators under management or operations and maintenance contracts with the relevant Project Operating Entity. Some of these agreements are long-term, while others have shorter terms and provide generally for subsequent renewal terms. Teton Operating Services LLC, a subsidiary of Teton Funding, has assumed responsibility under operations and maintenance contracts for the Lake, Mid-Georgia, Onondaga and Pasco Projects. An affiliate of Caithness has been retained to perform the services to be provided by Teton Operating Services LLC under these contracts under operations and maintenance agreements (the "Caithness O&M Agreements") which either expire or can be terminated in March 2007 and which provide for successive three-year renewal options upon written agreement of the parties. Under the Caithness O&M Agreements, the operator is responsible for operations, maintenance and repair services.

### ***Asset Management Strategy***

The Manager's asset management strategy is to partner with recognized leaders in the independent power business. Atlantic Holdings' interests in the majority of the Projects are managed by Caithness, Cogentrix and Delta Power Company, LLC ("Delta Power"). On a case-by-case basis, Caithness, Cogentrix and Delta Power provide: (i) active project-level management, such as operations and maintenance and asset management; (ii) active partnership level management, such as acting as general partner; (iii) passive partnership level management, such as acting as limited partner; and (iv) management responsibility over the investment or pool of investments. In some cases these project managers will also subcontract with other leaders in project operations such as General Electric and North American Energy Services to provide for day-to-day plant operations. The Manager will be involved in all major decisions and drive value-creating transactions such as contract restructurings, asset-level refinancing, acquisitions and divestitures.

Caithness is one of the largest privately-held independent power producers in the United States and is actively engaged in the development, acquisition and management of power facilities for its own account as well as in ventured arrangements with other entities. During its 25 years in the independent power business, Caithness, through its subsidiaries, has assembled a domestic power generation portfolio comprised of economic interests in 35 operating power projects totalling approximately 2,472 MW of nameplate capacity. Caithness' portfolio of operating projects consists of approximately 1,434 MW of gas-fired projects, 347 MW of geothermal projects, 160 MW of solar projects, 443 MW of wind projects, 28 MW of hydroelectric projects and 60 MW of oil-fired projects. Fund I is an indirect minority owner of Caithness and has the right to elect one member of the board of directors of Caithness.

Cogentrix develops, owns, and operates independent power plants, located primarily in the US. The company has an operational generating capacity of 3,300 MW from its ownership in more than 25 coal and gas-fired facilities. The company also sells electricity wholesale to utilities and power marketers, primarily through long-term purchase or conversion contracts. New York-based investment firm Goldman Sachs Group acquired Cogentrix Energy in December 2003. Cogentrix manages operation of the 262 MW Carney's Point (Chambers) power plant in which Atlantic owns a 40% interest.

Delta Power owns and manages natural gas, hydroelectric and coal-fired power projects in the U.S. Formed in 1997, privately-owned Delta Power owns interests in and manages 28 operating power projects in the U.S. with gross capacity of over 2,700 MW. In addition to managing these assets, the company actively develops and acquires power projects in various stages of development, construction, or operation.

### *Site Leases*

The Projects are generally constructed on leased sites. Many of the sites are leased from a neighbouring electricity or steam off-taker. The site leases typically provide for terms longer than the term of the Project's PPA.

### *Regulation*

All of the Projects are QFs, EWGs or dually-certified, pursuant to regulation of FERC. The Projects with QF status are exempt from FERC rate-making. The Onondaga and Delta-Person Projects have EWG status but are not dually-certified as EWGs and QFs. Although these Projects are subject to FERC rate-making, FERC has granted these EWGs the authority to charge market-based rates based primarily on a finding that the seller of electricity lacks market power. The JPPC Project, which is also an EWG but not a QF, does not sell power in the U.S. market and therefore is not subject to FERC rate-making. The Projects are exempt from regulation under PUHCA and the Projects with QF status are exempt from state regulation respecting the rates of electric utilities and the financial or organizational regulation of electric utilities.

## **PROJECT DESCRIPTIONS**

### **Badger Creek Project**

#### *Description*

The Badger Creek Project is a 46 MW simple-cycle, cogeneration facility located near Bakersfield, California which commenced commercial operation in April 1991 as a QF. The Badger Creek Project is owned by Badger Creek Limited, L.P. ("Badger"), a Texas limited partnership in which Atlantic Holdings indirectly owns a 50% general partnership interest and Juniper Generation, LLC ("Juniper"), which is indirectly owned by affiliates of ArcLight and John Hancock Life Insurance Company ("John Hancock"), indirectly owns the other 50% limited partnership interest. Electrical output is sold to Pacific Gas & Electric Corporation ("PG&E") under a PPA that was amended and reaffirmed in December 2001. Steam is sold to OXY USA Inc. ("Occidental"), an affiliate of Occidental Petroleum Corporation under a 20-year steam energy agreement that expires in 2011. Badger leases the approximately 3.5 acre site for the Badger Creek Project from the Fano Realty Trust under a ground lease. The base lease term is 25 years commencing in 1990, which the parties may extend for up to 10 additional one-year periods.

In 1990, Badger entered into a non-recourse term loan due June 30, 2006 to finance the construction of the Project. In 2005 the partners of Badger elected to accelerate the repayment of the remaining principal and on December 6, 2005 the loan was repaid in full.

#### *Capacity and Energy Sales*

##### *Power Purchase Agreement*

Electric power generated by the Badger Creek Project is purchased by PG&E pursuant to a PPA expiring in 2011. The Badger Creek PPA provides for monthly capacity and energy payments, and Badger is entitled to receive a performance bonus if the average on-peak capacity factor, net of allowed forced outages and scheduled maintenance outages, exceeds 85%. The PPA also provides for an annual average energy price through July 15, 2006, subject to time of use adjustments. After July 15, 2006, the Manager believes the energy price will change to PG&E's short-run avoided cost calculated in accordance with a short-run avoided cost formula adopted by the California Public Utilities Commission (the "CPUC"), whose calculation of short-run avoided cost primarily takes into account spot natural gas prices. As of the date of this filing the regulatory proceedings to determine the future short-run avoided cost for California were still in process.

### *Steam Sales Agreement*

Process steam from the Badger Creek Project is sold to Occidental under a steam energy agreement which expires in 2011, but is terminable by Occidental in 2006 and thereafter upon one year's prior notice. The agreement provides for successive renewal terms of one year each unless either party gives advance notice of termination. Occidental utilizes the steam in its enhanced oil recovery operations to allow for more effective and efficient extraction of heavy crude oil. Subject to certain conditions, Occidental has an obligation to purchase steam under this agreement in an amount at least equal to the minimum requirements necessary to maintain the Project's status as a QF. Although Occidental is not currently purchasing any power from the Project, the steam energy agreement allows for up to 1 MW of electricity to be sold to Occidental.

### *Fuel Supply Arrangements*

Initially, natural gas was supplied to the Badger Creek Project under a supply and transportation agreement with PG&E. However, as restructuring of the natural gas industry proceeded, Badger, in partnership with certain other gas-fired facilities in the area, determined that construction of a private natural gas pipeline was a prudent way to minimize curtailment and pricing risk. A joint venture was entered into to construct, own and operate a natural gas pipeline connecting these facilities, including the Badger Creek Project, with the Kern River-Mojave Pipeline thereby enabling Badger to bypass PG&E but maintain access to PG&E as a source of back-up supply. Under the joint venture arrangement, each owner must contribute funds, and shares in profits and losses, in proportion to its ownership interest. Badger's interest is approximately 21%. WCAC Gas Services LLC, an affiliate of Juniper, operates the pipeline. In August 2001, Badger entered into a five-year swap agreement with El Paso Merchant Energy, L.P. ("El Paso Merchant Energy") to provide natural gas to the Project. It is expected that the short-run avoided cost formula for energy pricing under the Badger Creek PPA after July 15, 2006 will take into account spot natural gas prices. WCAC Gas Services LLC is in the process of procuring a new agreement to supply gas that will be effective concurrent with a final decision by the CPUC on a new short-run avoided cost formula.

### *Operations & Maintenance*

Operations and maintenance for the Badger Creek Project is performed by WCAC Operating Company California, LLC, an affiliate of Juniper, under a fixed price operations and maintenance agreement. The agreement has a term of 20 years expiring in 2011, but is terminable by either party upon six months' notice. The operator receives a base monthly fee, adjusted annually, based on changes in the GNP deflator and labour indices. In addition, the agreement provides for incentive fees and penalties based on the Project's availability.

In addition to the operations and maintenance agreement, Badger entered into a management services agreement with WCAC Operating Company California, LLC to provide all day-to-day management services required by the Project. The manager is paid a semi-annual fee for such management services based on a percentage of gross cash receipts of the Project.

### **Chambers (Carney's Point)**

#### *Description*

The Chambers Project, a 285 MW pulverized coal-fired cogeneration facility located at the E.I. du Pont de Nemours and Company ("DuPont") Chambers Works chemical complex near Carney's Point, New Jersey, commenced commercial operation in March 1994 as a QF. The Chambers Project is owned by Chambers Cogeneration, L.P. ("Chambers"), a Delaware limited partnership in which Atlantic Holdings indirectly owns a 40% limited partnership interest and Peregrine Power Corp. and Cogentrix/Carney's Point, Inc. (affiliates of Goldman Sachs) own the general partnership interest. The

Project is situated on a site owned by DuPont, pursuant to a ground lease with DuPont, which serves as the Project's steam off-taker. Pursuant to the terms of the ground lease, DuPont has a right to purchase the Project within 60 days of the expiration of the ground lease in 2024, or earlier termination of the ground lease, at fair market value. Pursuant to a lease agreement, Carney's Point Generating Company general partnership ("Carney's") has agreed to lease the facility and sublease the site from Chambers for a period of 24 years from the date of commencement. Carney's has also agreed to perform, discharge and assume all of the obligations of Chambers under certain assigned Project contracts and to operate, repair and maintain the Project. Payments to Chambers under the lease agreement are based upon revenues from the operation of the facility, after the payment of operating costs and payments due under the facility's financing arrangements.

Chambers financed the construction of the Project with a combination of term debt due March 31, 2014 and New Jersey Economic Development Authority bonds ("NJEDA Bonds") due July 1, 2021. As of December 31, 2005, approximately \$99.7 million and \$100 million in principal remained outstanding under the term loan and NJEDA Bonds, respectively. The term loan is expected to amortize over its remaining term, while the NJEDA Bonds are repayable at maturity.

### *Capacity and Energy Sales*

#### *Power Purchase Agreements*

The term of the PPA commenced on March 15, 1994, the date of commercial operation of the Chambers Project, and will expire in 2024. Atlantic City Electric has agreed to purchase 184 MW of capacity and has dispatch rights for energy of up to 187.6 MW during the summer season (May 1 to October 31) and 173.2 MW during the winter season (November 1 to April 30). Should the capacity of the Project be less than the amounts noted for the summer and winter season, respectively, deficiency payments to Atlantic City Electric must be made until the Project obtains 95% of the summer or winter capacity, as applicable. The net deliverable capacity of the Project is capped at a capacity level of 184 MW for purposes of the capacity payment. The energy payment under the Chambers PPA is divided between on-peak and off-peak periods and linked to the annual average cost of coal for New Jersey utilities relative to cost in 1992. Chambers is guaranteed a minimum energy payment equivalent to 3,500 hours of operation per contract year, whether or not dispatched, provided the Project is available for energy production for at least 3,500 hours during the course of such contract year.

DuPont purchases all its electrical needs for its Chambers Works chemical complex from the Chambers Project, subject to a peak requirement of 40 MW, under a long-term steam and electricity purchase agreement. The term of the agreement is for 30 years from the initial delivery date. The agreement will continue thereafter unless terminated by at least 36 months' prior written notice. Pricing is a fixed rate adjusted quarterly by the lesser of either: (i) the price of coal delivered to the facility; and (ii) the change in Atlantic City Electric's average retail rate.

Power generated at the Chambers Project in excess of amounts deliverable to Atlantic City Electric and DuPont is sold into the spot market and profits from such sales are shared between Atlantic City Electric and Chambers.

#### *Steam Sales Agreement*

Steam is sold to DuPont under a long-term steam and electricity purchase agreement. The term of the agreement is for 30 years from the initial delivery date. The agreement will continue in effect thereafter unless terminated by at least 36 months' prior written notice. The agreement requires steam to be provided to DuPont up to the peak steam requirement levels that vary throughout the year. DuPont may purchase steam in excess of the peak steam requirement from any third party, provided that DuPont has granted the Chambers Project a right of first refusal to provide steam at the same price. DuPont has the option after the 20<sup>th</sup> operating year, provided specific conditions are met, to construct and operate its

own steam generation facility. DuPont is required to purchase the quantity of steam necessary for the Chambers Project to maintain its status as a QF. The steam price is fixed subject to quarterly adjustments based on the price of coal delivered to the facility. DuPont has the option in certain circumstances to take over operation of the steam facility in the event of failure to deliver steam.

### ***Fuel Supply Arrangements***

Coal is supplied to the Chambers Project pursuant to a coal purchase agreement with Consol Energy Inc. dated December 10, 1990. The agreement governs the sale of coal (including transportation) to the Chambers Project and the disposal of related ash by the coal suppliers. Under the agreement, the coal supplier agrees to supply the entire coal requirements for the Project, which may include stockpiling. The coal purchase agreement is for a term of 20 years ending in 2014 and is subject to a five to 10-year renewal based on good faith negotiations. Due to the coal-based price escalator under the PPA with Atlantic City Electric, energy payments and coal costs are expected to be relatively well matched following expiry of the coal purchase agreement in 2014.

### ***Operations & Maintenance***

Operations and maintenance of the Chambers Project is performed pursuant to an agreement with U.S. Operating Services Company general partnership ("U.S. OSC"), a wholly-owned indirect subsidiary of Cogentrix, which expires in April 2009. Thereafter, the agreement will be automatically renewed for periods of five years until terminated by either party on six months notice. U.S. OSC is paid a base annual fee and a fee for services on a cost reimbursement basis. U.S. OSC is also paid fees based on facility net availability, efficiency and excess energy optimization, and is eligible for a management performance bonus.

Management services are provided to the Project under an agreement with a wholly-owned subsidiary of Cogentrix. The agreement provides for the manager to provide day-to-day management and administration services to the Chambers Project. The agreement continues until terminated by either party or upon expiration of the lease between Chambers and Carneys for the lease of the facility. The manager is paid a monthly fee and is reimbursed for wages and benefits for employees working on the business of the Project and other costs directly related to the Project.

## **Delta-Person Project**

### ***Description***

The Delta-Person Project, a 132 MW natural gas-fired peaking facility located near Albuquerque, New Mexico, is an EWG that commenced commercial operation in June 2000. The Project is owned by Delta Person Limited Partnership ("Person"), a Delaware limited partnership in which Atlantic Holdings indirectly owns a 40% partnership interest and Delta Power and John Hancock own the remaining partnership interests. The Delta-Person Project is situated on the Public Service of New Mexico's retired Delta Generating Station site pursuant to a lease agreement which expires on the expiry or earlier termination of the Project's PPA. Cash distributions from the Project are split among the partners based on after-tax return hurdles. The Delta-Person Project sells all of its electrical output to the Public Service of New Mexico under a long-term PPA that expires in 2020.

Construction of the Delta-Person Project was financed through a construction loan totalling \$59.7 million. The construction loan was converted to permanent project financing once commercial operation was achieved. The project financing was divided into two term loans: (i) Tranche A due March 31, 2017; and (ii) Tranche B due March 31, 2019, both of which are expected to amortize over their remaining terms. As at December 31, 2005, approximately \$41 million in aggregate of principal remained outstanding. The debt service reserve requirement is currently supported by a contribution obligation.

Atlantic Holdings guarantees its pro rata share (approximately \$1.3 million) of such contribution obligation.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreement***

Electrical power generated by the Delta-Person Project is purchased by the Public Service of New Mexico under a PPA that will expire in 2020. The Public Service of New Mexico has the unilateral right to extend the PPA for five years by giving written notice of such extension no later than two years prior to the end of the original term of the PPA. Subject to adjustments provided for in the PPA, the Public Service of New Mexico will purchase and accept from the Project the entire output of the plant when the Public Service of New Mexico calls upon the capacity. Payments will consist of: (i) the energy purchase price multiplied by the kWh delivered; (ii) the capacity purchase price multiplied by the dependable capacity; (iii) the Project's costs of purchasing electric service from the Public Service of New Mexico for the operations and maintenance of the facility; and (iv) any other applicable charges. In order to earn full capacity payments, the Project must maintain availability of at least 90%.

#### ***Fuel Supply Arrangements***

Person purchases fuel from PNM Gas Services, a division of the Public Service of New Mexico, with fuel costs passed through to the Public Service of New Mexico under the PPA. The Project has access to interruptible gas supply and transportation like other standard industrial customers on PNM Gas Services' system.

#### ***Operations & Maintenance***

As a simple cycle peaking facility, the Project operations do not require extensive staffing and technical resources. There are three employees on staff, who are employed directly by the Project. Delta Power provides asset management services, which include operational and contractual oversight of the facility, budget setting and environmental compliance.

### **Gregory Project**

#### ***Description***

The Gregory Project is a 400 MW natural gas-fired combined cycle cogeneration plant located near Corpus Christi, Texas that commenced commercial operation in July 2000 as a QF. The Gregory Project is owned by Gregory Power Partners, LP ("Gregory"), a Texas limited partnership. On January 12, 2005, Javelin Energy LLC ("Javelin"), in which Atlantic Holdings has an 18.9% interest, increased its ownership in Gregory from 50% to 95% by purchasing a 45% interest from an affiliate of LG&E Energy LLC ("LG&E"). As a result, Atlantic Holdings' economic interest in Gregory, determined based on ownership percentage and certain after-tax return hurdles, increased from approximately 9.45% to approximately 17.1%. The other members of Javelin are Delta Power and John Hancock. Gregory sells approximately 335 MW of its capacity to Dynegy Inc. ("Dynegy") and sells up to 33 MW of electric energy and capacity to Reynolds Metal Company ("Reynolds"), with the remainder sold in the spot market. The Project is located on a site adjacent to Reynolds' Sherwin alumina production facility, which serves as the Project's steam off-taker. Gregory leases the land on which the Gregory Project is located from Reynolds under an operating lease with a 35-year term which expires in August 2035.

The Project was initially financed by ING Capital Corporation and a consortium of lenders. The original amount of the loan was \$175 million. The loan has a 17-year term commencing at term conversion, which occurred in October 2000. Fifty percent of the principal amount of the term loan is hedged, whereby Gregory pays a fixed rate and receives a floating rate based on three-month LIBOR. Gregory has the discretion to pay interest anywhere from a monthly to semi-annual basis. As at

December 31, 2004, approximately \$145.2 million remained outstanding under the loan, which is expected to be amortized over its remaining term. Currently the terms of a coverage test under the loan are not being met and cash distributions to Gregory's owners will likely be blocked through 2007.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreements***

Gregory sold up to 335 MW of power to Dynegy pursuant to a five-year energy sales agreement that expired in July 2005. Under the terms of the agreement, Dynegy paid for energy based on a variable energy payment and fixed capacity payment, adjusted annually for GDP. Energy payments were calculated by multiplying the price of natural gas at Houston Ship Channel by a contract heat rate. Atlantic Holdings assumed a guarantee that supports a portion of certain letter of credit obligations under the Dynegy PPA in the amount of \$2.4 million. This guarantee expired in July 2005, coincident with the expiration of the Dynegy PPA.

Effective September 1, 2005, Gregory entered into a new PPA for 345 MW with Constellation Energy that will expire on December 31, 2008. Under the terms of the agreement, Constellation pays a fixed capacity and a payment for energy calculated by multiplying the price of natural gas at Houston Ship Channel by a contract heat rate. Credit support for the new PPA consists of a \$5 million letter of credit provided by ING and the withholding of certain payments for capacity otherwise due under the agreement. Project management has also completed a series of contracts for monthly forward sales of gas in 2006 with Sempra Energy Trading to lock in the advantage of high natural gas prices in the energy price formula described above.

#### ***Steam Sales Agreement***

Gregory sells steam to Reynolds under the steam and electricity purchase agreement described above. Under the terms of the agreement, Gregory is the exclusive source of steam to Reynolds' Sherwin alumina plant, up to a maximum of 1,500,000 lbs/hr. Other key aspects of the agreement include: (i) 10-year take-or-pay provision for a minimum quantity of steam (930,000 lbs/hr); (ii) steam pricing based on a fixed fee with a variable gas component; and (iii) delivery of gas by Reynolds in lieu of paying cash for steam (the quantity of gas supplied is based on steam conversion efficiency).

#### ***Fuel Supply Arrangements***

Gregory purchases natural gas under various short-term and long-term agreements. Gregory has the option of procuring 100% of its natural gas requirements from Kinder Morgan Tejas Pipeline, L.P., pursuant to a 10-year gas supply agreement that expires in 2010. Gregory has the option of terminating the agreement at the end of the fifth contract year.

#### ***Operations & Maintenance***

In connection with the indirect purchase by Javelin and DeltaPower of LG&E's 50% interest in Gregory that occurred in January 2005, all operations and maintenance obligations were transferred from an affiliate of LG&E to DPS Gregory, LLC, a wholly-owned subsidiary of Delta Power Services, LLC. The operations and maintenance agreement continues to extend to November 2008. DPS Gregory, LLC receives a management fee (subject to escalation) on a quarterly basis and reimbursement of certain costs.

#### ***Energy Management Services***

On March 1, 2004, Gregory and Dynegy extended an existing energy management services contract with Dynegy through December 2006. Services under the contract include selling and marketing excess power from the Gregory Project. In addition, Dynegy will optimize Gregory's assets in the ancillary services market of the Electric Reliability Council of Texas ("ERCOT"), purchase natural gas

for operations, provide scheduling services, provide back-office support (including the reconciliation of ERCOT and pipeline settlement and accounting issues and the preparation of invoices) and serve as Gregory's retail energy provider and qualified scheduling entity. The Dynegy contract continues in effect for capacity/energy not under contract to Constellation.

## **JPPC Project**

### *Description*

The JPPC Project, a 60 MW low-speed fuel oil EWG power plant located in Kingston, Jamaica, resulted from a request for proposal issued by the Government of Jamaica in 1992 as part of a national policy to privatize the generation of electric power. The project site is adjacent to Kingston Harbour, which is the plant's source for cooling water. The Project commenced commercial operation on January 7, 1998. The JPPC Project is owned by Jamaica Private Power Company Limited ("JPPC"), a limited liability company under the laws of Jamaica in which Atlantic Holdings indirectly owns a 24.1% economic interest and CMS Energy Corporation, Energy Investors Fund and Commonwealth Development Corporation own the remainder.

Construction of the JPPC Project was financed through a series of loans, all of which have been repaid except for a term loan from the National Investment Bank of Jamaica Limited which is due on October 20, 2011. As at December 31, 2005, approximately \$38.8 million in principal remained outstanding under the term loan, which is expected to be amortized over its remaining term.

### *Capacity and Energy Sales*

#### *Power Purchase Agreement*

The electrical output of the Project is sold to Jamaica Public Service Company Limited ("Jamaica Public Service") under a 20-year PPA expiring in 2018. Jamaica Public Service is a fully integrated utility and the sole provider of electricity on the island of Jamaica. The Government of Jamaica guarantees Jamaica Public Service's payment obligations under the PPA. The PPA allows Jamaica Public Service to dispatch the Project according to its requirements. Under the PPA, the Project receives a monthly energy payment for kWhs actually sold and a monthly capacity payment to cover the Project's fixed costs. Both the energy and capacity payments are indexed for inflation and are made in Jamaican currency, but are indexed, in part, to the U.S. dollar equivalent value. The energy payment component of the tariff reimburses the Project for its variable costs, including the purchase price of fuel, variable maintenance, lubricating oil, and fuel oil transportation. The capacity cost component of the tariff reimburses the Project for its hard currency and local fixed costs, and also provides for a return on investment. The reasonable cost of complying with material or unforeseeable changes in law or regulation is also passed through in the tariff.

### *Fuel Supply Arrangements*

JPPC purchases all of its heavy fuel oil from Petrojam Limited ("Petrojam"), a government-owned refinery located west of Kingston, Jamaica. The fuel supply agreement has a term of 20 years expiring in 2018. The price of the fuel oil and transportation of the fuel oil is set by Petrojam based on published reference prices as set out in the agreement. The cost of fuel and transportation is passed through in the tariff to Jamaica Public Service, subject to minimum efficiency standards for the Project. Petrojam must furnish, either from its own assets or by contract, all local transportation from the refinery storage facilities to the point of delivery at the Project.

### *Operations & Maintenance*

JPPC entered into an operations and maintenance agreement with Private Power Operators Limited, the initial term of which was for five years expiring on December 31, 2003. The agreement

automatically renews each January 1st adding a one-year period to the end of the unexpired portion of the existing term such that there is always a rolling five-year term remaining under the agreement unless either party gives notice of its intent to terminate the agreement at the end of the then-existing five-year term. Under this agreement, the operator is responsible for all operations, maintenance and repair services, as well as substantial administrative, treasury and contract administration services. In consideration for services performed, the operator is reimbursed for allowable direct costs, and receives a fixed overhead reimbursement, and, if earned, a performance bonus.

## **Koma Kulshan Project**

### *Description*

The Koma Kulshan Project is a 13.3 MW run-of-the-river hydro-electric generation facility located on the slopes of Mt. Baker, approximately 80 miles north of Seattle, Washington. The Koma Kulshan Project is owned by Koma Kulshan Associates ("Koma Kulshan"), a California limited partnership in which Atlantic Holdings indirectly owns a 49.75% economic interest, Mt. Baker Corporation indirectly owns a 0.25% economic interest and Covanta Energy Corporation ("Covanta") indirectly owns the remaining 50%. The Koma Kulshan Project is certified as a QF under PURPA and was issued a 50-year hydro licence from FERC which expires in 2037. The Project commenced commercial operation in October 1990 and its electrical output is sold to Puget Sound Energy, Inc. ("Puget Sound Energy") under a 50-year PPA expiring in 2037.

On December 1, 1989, Koma Kulshan entered into a credit agreement which provided for a \$22.5 million construction loan and an \$18 million term loan. The construction loan has been repaid, and the outstanding principal amount under the term loan matures on December 31, 2007. As at December 31, 2005, approximately \$3.8 million in principal remained outstanding which is expected to be amortized over the remaining term of the term loan. In addition, under a funding and option agreement, certain royalty payments are made to third parties in connection with the development of the Project.

### *Capacity and Energy Sales*

#### *Power Purchase Agreement*

The power generated by the Project is sold to Puget Sound Energy pursuant to a long-term PPA expiring in 2037. Power is sold at a per kWh rate that is adjusted annually. The energy rate equals the sum of a capital component (which provides for a return on investment) plus a variable component. The capital component is designed to cover capital expenditures to improve the Project. The variable component covers operating and maintenance, tax and insurance costs. The term of the PPA is coterminous with the FERC licence. Puget Sound Energy has the right to renew the PPA for a term equivalent to the term of any subsequent licence or annual licence granted by FERC for the Project.

### *Operations & Maintenance*

In August 2000, Covanta Hydro Operations West, Inc. ("Covanta Hydro"), a subsidiary of Covanta assumed operations and maintenance responsibilities for the Project pursuant to an operations and maintenance agreement which was extended through December 31, 2006. In addition to being reimbursed for actual costs incurred, Covanta Hydro receives an annual fee adjusted annually by the CPI – All Urban Consumers for Seattle – Tacoma – Bremerton, WA – All Urban Index.

In April 2002, Covanta and certain of its subsidiaries, including Covanta Hydro, filed voluntary petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code. On March 10, 2004, Covanta and 79 of its affiliates, comprising Covanta's energy and water businesses, were acquired by Danielson Holding Corporation. With the closing of this transaction, Covanta and these affiliates emerged from bankruptcy protection. The bankruptcy of Covanta and Covanta Hydro did not have a material effect on

the Koma Kulshan Project, and Covarta Hydro has continued to perform its obligations under the operations and maintenance agreement.

## **Lake Project**

### *Description*

The Lake Project, a 110 MW dual fuel (oil and natural gas), combined-cycle cogeneration plant located in Florida, commenced commercial operation in July 1993 as a QF. The Lake Project is owned by Lake Cogen Ltd. ("Lake"), a Florida limited partnership in which Atlantic Holdings indirectly owns a 100% interest. The Project is located on a 16 acre site at a citrus processing facility in Umatilla, Florida. Lake sells all of its capacity and electric energy to PEF under the terms of a PPA expiring in July 2013. Steam is sold to Citrus World, Inc. ("Citrus World") for use at its citrus processing facility and is also used to make distilled water in distillation units. Until December 2005, distillation equipment utilized by the Lake Project was owned by Lake's affiliate, Teton Lake Distillation Company LLC ("Teton Distillation"), and leased to Lake. Until December 2005, Teton Lake Land Company, LLC, an affiliate of Lake, owned certain land and the water well, with Lake owning the remainder of the land and having water rights under a consumptive use permit. Effective December 2005, Teton Distillation and Teton Lake Land Company were merged into Lake Cogen, with Lake Cogen as the surviving entity. In 1993 the Lake Project was leased from a financial institution as owner trustee for the benefit of one of its subsidiaries pursuant to a facility lease ("Facility Lease") agreement. In September 2004, Umatilla Power Funding, LLC acquired the lessor's position in the Facility Lease. On November 18, 2004, Umatilla Power Funding, LLC was acquired by Atlantic Holdings. Atlantic Holdings has terminated the Facility Lease to simplify the Lake Project ownership structure.

### *Capacity and Energy Sales*

#### *Power Purchase Agreement*

Electrical output is sold to PEF pursuant to a PPA that commenced in July 1993 and expires on July 1, 2013. Revenues from the sale of electricity consist of a payment for capacity and an energy payment generally comprised of a fuel component, a voltage adjustment and an hourly performance adjustment. Capacity payments are subject to the Project maintaining an on-peak capacity factor of at least 90% during on-peak hours (11 hours daily), on a 12-month rolling average basis. Lake is subject to reductions in its capacity payments should it not achieve the 90% on-peak capacity factor. PEF applies a performance adjustment when its avoided cost exceeds the Project's firm energy payments. During off-peak hours, payments are made in accordance with a prescribed formula based on the price of gas. Lake has agreed to use commercially reasonable efforts not to deliver electric energy during off-peak hours except as prescribed or as needed. Further, PEF has the option to request non-delivery during on-peak hours on Saturdays and Sundays on notice to Lake. Pursuant to the Facility Lease, Umatilla Power Funding, LLC has provided a \$6.0 million letter of credit in favour of PEF to support the Lake Project's obligations under the PPA.

#### *Steam Sales Agreement*

Citrus World purchases steam, but the amount is not sufficient to allow Lake to meet its QF requirements. During 2002, distillation equipment was installed with three distillation units using steam to make distilled water that is sold to unaffiliated third parties. The distillation business, owned by Teton Distillation, enables Lake to meet its QF requirements without the need to sell steam to Citrus World. Umatilla Power Funding, LLC has an option to purchase the distillation equipment and an option to purchase Lake's interest in Teton Distillation at certain specified times.

### ***Fuel Supply Arrangements***

Duke Energy Marketing America LLC ("Duke") is the primary natural gas supplier for the Project. The gas supply agreement terminates in July 2009. Duke provides natural gas at a price that is adjusted monthly to track the PPA's pricing factors, including energy and capacity-based components. Lake is required to make certain payments if at least 80% of the maximum daily quantity specified in the agreement is not purchased each month. Lake has not purchased the minimum quantity since 2000, however, to date, Duke has not assessed any penalties. Excess gas requirements above those supplied by Duke are to be supplied by TECO Gas Services Inc. ("TECO"). Gas purchased under this agreement is at the spot market price plus a commission. TECO also supplies certain gas management and supply services to Lake under a separate agreement. The gas for the Project is transported using firm capacity on the Florida Gas Transmission Company ("Florida Gas") system and interruptible capacity on the Peoples Gas System, a division of Tampa Electric Company, ("Peoples Gas") pipeline from the receipt points on the Florida Gas pipeline to the plant. The gas transportation agreements expire in July 2008 and 2013. Lake is permitted to operate each of its combustion turbines on fuel oil for up to 240 hours per rolling 12-month period under the terms of the Project's air permit. The Project includes a 170,000 gallon fuel oil storage tank.

In March 2006 the project consented to an assignment of the Duke Gas Purchase Agreement to PPM Energy, an indirect, wholly owned subsidiary of ScottishPower, plc.

### ***Operations & Maintenance***

An affiliate of Caithness is responsible for the operations and maintenance of the Project pursuant to one of the Caithness O&M Agreements.

## **MASSPOWER Project**

### ***Description***

The MASSPOWER Project, a 267 MW natural gas-fired combined-cycle cogeneration facility located in Springfield, Massachusetts, commenced commercial operation in September 1993 as a QF. The MASSPOWER Project is owned by MASSPOWER ("MASSPOWER"), a Massachusetts general partnership, in which Atlantic Holdings indirectly owned a 17.5% economic interest.

In 2000, MASSPOWER refinanced its existing debt with a \$169.8 million term loan due July 14, 2005. As at December 31, 2004, approximately \$117.5 million in principal of the term loan remained outstanding. In early March 2005, MASSPOWER prepaid the entire outstanding amount of this loan.

### ***Sale of the Project Assets***

In March 2005 the MASSPOWER project completed the restructuring and monetization of three of its four PPAs through a buy out of the contracts by Boston Edison and Commonwealth Electric. During the second and third quarters of the year the project liquidated its long term fuel commodity and transport agreements. On December 28, 2005, Atlantic, along with its co-owners of the MASSPOWER facility, sold its interest in the facility. The Company's share of the total distributions generated from the first quarter operations, PPA restructuring, fuel contract liquidation and sale of the facility in 2005 totalled \$61.5 million.

## **Mid-Georgia Project**

### ***Description***

The Mid-Georgia Project, a 308 MW dual-fuel, combined-cycle, cogeneration plant located approximately 100 miles south of Atlanta in Kathleen, Georgia, commenced commercial operation in

June 1998 as a QF. The Mid-Georgia Project is owned by Mid-Georgia Cogen L.P. ("Mid-Georgia"), a Delaware limited partnership in which Atlantic Holdings indirectly owns a 50% partnership interest and Northern Star indirectly owns a 50% partnership interest. Mid-Georgia sells its electrical output to Georgia Power, a subsidiary of the Southern Company, and its process steam to Frito-Lay, Inc. ("Frito-Lay"). The Project is located adjacent to Frito-Lay's food processing facility on a 9.3 acre site leased from the Houston County Development Authority.

Construction of the Mid-Georgia Project was financed through a series of loans totalling \$116.5 million, which mature in 2013 and 2018. As at December 31, 2005, approximately \$94 million in principal remained outstanding under the loans which are scheduled to be amortized over their remaining terms.

Distributions to partners are subject to the funding level of required reserve accounts and achieving certain quarterly debt service coverage ratios. The Manager does not currently anticipate that Mid-Georgia will exceed each of the quarterly debt service ratio tests under its financing agreements and as a result, no distributions are projected to be made by Mid-Georgia until retirement of the Project's debt in 2018. This is unchanged from the information provided at the time of the IPO.

In 2005 and projected in 2006, the Project has been dispatched for many fewer hours than historical levels. Consequently, it received full capacity payments, but very little energy payments causing cash flows to be constrained. While there is a total of approximately \$19.5 million aggregate restricted cash at the Project in various reserve accounts as of December 31 2005 relative to approximately \$94 million in outstanding non-recourse project debt, the Project's auditors will give it a going concern qualification in their letter for its 2005 annual audit.

#### *Capacity and Energy Sales*

##### *Power Purchase Agreements*

Electrical output is sold to Georgia Power under a 30-year PPA expiring in June 2028 that provides for payments for both capacity and energy. The price for energy is based on: (i) a fuel price, transportation and contract heat rate formula specified in the PPA; (ii) an SO<sub>2</sub> emissions component; (iii) an operations and maintenance component; and (iv) a start-up component. The Project may sell capacity and energy to third parties, subject to a right of first refusal by Georgia Power.

##### *Steam Sales Agreement*

Mid-Georgia sells process steam to Frito-Lay pursuant to a 22-year energy savings agreement which expires in June 2020. The agreement may be extended for two additional four-year terms at Frito-Lay's option. Under the agreement, Mid-Georgia is obligated to provide all of Frito-Lay's process steam requirements. As a back-up to its auxiliary boiler, Mid-Georgia leases additional boilers from Frito-Lay and is obligated to operate and maintain such boilers for the term of the lease agreement.

##### *Fuel Supply Arrangements*

Teton Fuels Mid-Georgia ("TFMG"), an indirect subsidiary of Atlantic Holdings, is responsible for arranging natural gas and fuel oil supply, gas transportation and balancing services (the reconciliation of gas usage versus gas delivered) for Mid-Georgia through agreements with local fuel oil suppliers, the Municipal Gas Authority of Georgia and the City of Warner Robins.

Pursuant to the PPA, Mid-Georgia maintains the ability to operate each of its combustion turbines on fuel oil instead of natural gas in the event natural gas is not available. To operate, the fuel oil must have an ultra low sulfur content (less than 0.05%). The Project includes a 500,000 gallon oil storage tank with high volume off-loading capability.

### ***Operations & Maintenance***

An affiliate of Caithness is responsible for the operations and maintenance of the Project pursuant to one of the Caithness O&M Agreements.

### **Onondaga Project**

#### ***Description***

The Onondaga Project, a 91 MW dual fuel, combined-cycle, cogeneration facility located in Geddes, New York, began commercial operation in December 1993 as a QF. The Onondaga Project is operated by Onondaga Cogeneration Limited Partnership ("Onondaga"), a New York limited partnership in which Atlantic Holdings indirectly owns a 100% economic interest. In 2000, the Project's steam supply obligations were terminated. The Project is no longer a QF, but is now an EWG and currently sells its electrical output into the New York Independent System Operator's ("NY ISO") Zone C capacity and energy markets. The Onondaga Project has no outstanding debt.

#### ***Capacity and Energy Sales***

##### ***Power Purchase Agreement***

The Project operates as a merchant generation facility unencumbered by any power or steam sales obligations. The Project is located in NY ISO Zone C and dispatches electricity when the day-ahead electricity price exceeds the Project's marginal operating cost. The Project also sells unforced capacity in the NY ISO through administered capacity auctions.

A swap agreement (the "Onondaga Swap") between Niagara Mohawk Power Corporation ("NIMO") and Onondaga has replaced the Project's original PPA. The Onondaga Swap expires on June 30, 2008. The Onondaga Swap is a financial instrument under which NIMO makes monthly payments to Onondaga based upon the differential between an indexed "contract price" and a market reference price for electricity. The indexed contract price fluctuates in relation to the market cost of natural gas and a prescribed index of inflation. The notional quantity of electricity for the purpose of these calculations is fixed for the full 10-year term of the Onondaga Swap.

In May 2004, Onondaga contributed the Onondaga Swap to a newly formed wholly-owned special purpose subsidiary, Onondaga Power Swap Holdings, LLC ("SwapCo"). Onondaga has guaranteed SwapCo's obligations to NIMO under the Onondaga Swap. Also in May 2004, SwapCo entered into commodity hedges with Constellation Energy Commodities Group, Inc. (formerly Constellation Power Source, Inc.), a subsidiary of Constellation Energy Group, Inc., in order to lock in favourable gas, power and capacity pricing under the Onondaga Swap. The hedges extend from June 1, 2004 through June 30, 2008 and remove almost all commodity exposure from the Onondaga Swap through its term.

##### ***Energy Conversion and Capacity Release Agreement***

Onondaga entered into an Energy Conversion Agreement with Coral Power, LLC ("Coral") from April 7, 2005 through March 31, 2006 ("Tolling Agreement"). Under the Tolling Agreement, Onondaga converted fuel into electrical energy and was paid a tolling payment and variable payment by Coral. In addition, Onondaga executed two letter agreements with Coral Energy Resources, L.P. on April 7, 2005 to define the temporary release of the ANR Pipeline Company ("ANR") and Dominion Transportation Inc. ("DTI") transportation capacity. The pipeline capacity was released via the ANR and DTI capacity release bulletin board systems on a pre-arranged, biddable basis for the period starting April 12, 2005 through March 31, 2006.

### ***Fuel Supply Arrangements***

Onondaga has entered into three gas transportation agreements to provide natural gas transportation service to the Project, firm arrangements with Dominion Transmission Inc. ("DTI") and ANR Pipeline Company ("ANR") and a limited interruptible arrangement with NIMO. The DTI and ANR contracts provide for fixed monthly demand charges in addition to variable commodity charges based upon the quantity of gas transported. The NIMO transport contract has an annual minimum payment obligation. Under the NIMO transport contract, Onondaga has issued a letter of credit in favour of NIMO in the amount of \$550,000. The letter of credit must be maintained during the term of the NIMO transport contract and is cash collateralized.

### ***Gas Supply and Transportation Optimization***

The Project entered into a Transaction Confirmation with Sequent Energy Management, LLC ("Sequent") from December 1, 2004 through March 31, 2005 ("Optimization Agreement"). Under the Optimization Agreement, Sequent provided Onondaga with a call on market-priced gas for NYISO dispatch requirements and pays Onondaga for the utilization of Onondaga's gas transportation contracts.

The Project engaged Sequent Energy Management, L.P. to provide fuel management services for the Project, including fuel purchasing, nominations, scheduling and balancing services. This is a short-term agreement effective April 1, 2006 through March 31, 2007 and will likely be renewed or replaced. Onondaga is permitted to operate each of its combustion turbines on fuel oil instead of natural gas for up to 1,752 hours per year under the terms of the Project's air permit. The Project includes a 380,000 gallon oil storage tank.

### ***Operations & Maintenance***

An affiliate of Caithness is responsible for the operations and maintenance of the Project pursuant to one of the Caithness O&M Agreements.

## **Orlando Project**

### ***Description***

The Orlando Project, a 126 MW natural gas-fired combined-cycle cogeneration facility located in an industrial park near Orlando in Orange County, Florida, commenced commercial operation in September 1993 as a QF. The Orlando Project is owned by Orlando CoGen Limited, L.P. ("Orlando"), a Delaware limited partnership in which Atlantic Holdings indirectly owns a 50% partnership interest and Northern Star indirectly owns a 50% partnership interest. The Project is situated on a four acre site located adjacent to an air separation facility owned by Air Products and Chemicals, Inc. ("APCI") which serves as the Project's steam off-taker. Orlando sells all of its electric output to PEF and Reedy Creek Improvement District ("RCID") pursuant to long-term PPAs and chilled water to APCI to improve the efficiency of its air separation unit.

In 1992, Orlando entered into an \$84.6 million non-recourse financing due October 2008 to finance the construction of the Project. As at December 31, 2005, approximately \$21.8 million in principal remained outstanding under the financing which is expected to be amortized over its remaining term.

## ***Capacity and Energy Sales***

### ***Power Purchase Agreements***

Orlando has entered into a 30-year contract to sell electrical capacity and energy to PEF which expires on December 31, 2023. Orlando is obligated to sell and deliver a committed capacity of 79.2 MW and has committed to a 93% on-peak capacity factor. Orlando receives a monthly capacity payment based on achieving the on-peak capacity factor and a monthly energy payment based on the total amount of electric energy actually delivered to PEF. The capacity payment is a fixed payment escalating at 5.1% annually and is reduced whenever the on-peak capacity factor is below 93%, calculated on a 12-month rolling average basis. Energy payments are based on the amount of energy delivered during the on-peak hours and off-peak hours during each month.

Orlando has entered into a 20-year contract to sell electrical capacity and energy to RCID, a municipal district serving the Walt Disney World complex, which expires in 2013. Orlando is obligated to sell and deliver 35 MW of electricity and has committed to a 93% average capacity factor. Orlando receives a monthly capacity payment based on the actual average capacity factor and a monthly energy payment based on the total amount of electric energy actually delivered to RCID. This PPA may be extended for an additional 10-year term upon the consent of both parties. The capacity payment is a fixed rate that escalates at 4.5% annually and is based upon achieving a 93% average capacity factor (calculated on a three-year rolling average basis). The agreement provides both incentive and penalty provisions for performance above and below a 93% average capacity factor, respectively. RCID reimburses Orlando for a portion of the Florida Gas reservation charges associated with the firm gas transportation agreement. On October 12, 2005, Orlando executed an enabling agreement with RCID for periodic sales of up to 15MW of non-firm available energy at firm rates.

### ***Steam Sales Agreement***

Orlando has entered into an agreement with Air Products Manufacturing Corporation ("APMC"), a wholly-owned subsidiary of APCI, to supply chilled water to its cryogenic air separation facility. Orlando has the right to deliver up to 35,000 lbs/hr of steam for use in the chiller and does not have any minimum steam delivery requirements beyond the thermal and efficiency requirements required to maintain QF status pursuant to PURPA. Orlando is required to purchase its nitrogen requirements from APMC, but does not have a minimum purchase requirement. Both the purchase price of nitrogen and the sales price of chilled water produced using steam from the Project are at fixed prices that escalate at the percentage increase/decrease in the producer price index.

### ***Fuel Supply Arrangements***

Orlando has entered into 20-year gas supply agreements with Orlando Power Holdings, LLC ("Orlando Power"), indirectly owned by Northern Star, expiring on December 31, 2013. Orlando Power has back-to-back agreements for the purchase and supply of natural gas from Vastar Gas Marketing, Inc. ("Vastar"), which is a wholly-owned subsidiary of BP Energy Company. Under the agreements, which expire on December 31, 2013, Vastar is obligated to provide Orlando Power with Orlando's entire daily natural gas requirement. Orlando's purchase price is tied to the coal-based and fixed escalators used for calculating the energy payments under the PPAs. Orlando also holds a gas supply agreement with TECO which is currently not utilized by the Project. Pursuant to this agreement, Orlando pays TECO for all gas consumed by the Project (whether or not supplied under the agreement with TECO). This agreement may be terminated by Orlando on July 31, 2010.

Orlando has entered into two 20-year gas transportation agreements expiring on July 31, 2010 with Peoples Gas for the delivery of natural gas to the Project. Peoples Gas has entered into 20-year back-

to-back agreements with Florida Gas for the delivery of natural gas to the Project. If requested by Orlando, Peoples Gas will use its best efforts to extend or renew its firm transportation agreement with Florida Gas and, if Peoples Gas secures such an extension or renewal, the terms of both gas transportation agreements will be similarly extended. Transportation costs under the agreements are determined by Florida Gas' rate schedule as filed with FERC. These agreements became effective on March 1, 1995 and provide for the transportation of up to 23,600 MMBtu per day to the Project.

### *Operations & Maintenance*

The Project is operated and maintained by an affiliate of Northern Star pursuant to a 30-year operations and administrative services agreement expiring on December 31, 2023. If the PEF PPA is extended beyond December 31, 2023, this agreement may be extended, at the operator's option until December 31, 2033. The operator is compensated on a cost-reimbursement basis plus a fixed general and administrative charge. In addition, the operator is entitled to receive an incentive fee equal to a percentage of the excess of Orlando's operating cash flow after deducting originally anticipated maintenance capital and anticipated debt service. In 1997, Orlando entered into a maintenance agreement (the "LTSA") with Alstom Power Inc. ("Alstom"), for the long-term supply of hot gas path gas turbine parts, pursuant to which Alstom receives a monthly fee from the partnership and additional fees in certain circumstances. The LTSA was amended and restated on April 22, 2005 to provide for three additional major inspections and overhauls of the gas turbine. As part of the Amended and Restated LTSA, the gas turbine was upgraded to an 11NM model in 2005.

The Orlando Project experienced a failure of its main generator step up transformer on June 16, 2004, resulting in a temporary shutdown of the facility. Northern Star has determined that the failure of a high voltage bushing was the cause of the problem. The Project returned to service in August 2004. The Project has been operating normally since its return to service. Insurance proceeds covered most of the repair cost. Northern Star has advised that it believes that this event falls within the definition of a force majeure event under the PEF PPA. Discussions are underway with PEF regarding the recovery of some or all of the capacity payments that PEF withheld following the transformer failure.

### **Pasco Project**

#### *Description*

The Pasco Project, a 109 MW dual fuel, combined-cycle, cogeneration plant located in Dade City, Florida, commenced commercial operations in July 1993 as a QF. The Pasco Project is owned by Pasco Cogen, Ltd. ("Pasco"), a Florida limited partnership in which Atlantic Holdings indirectly holds a 49.9% partnership interest, an affiliate of Dana Corp. holds direct and indirect partnership interests totalling 50.089% and an affiliate of TECO Energy Inc. holds a 0.011% indirect partnership interest. Pasco provides firm capacity and energy to PEF pursuant to a PPA that expires on December 31, 2008. Pasco has a thermal agreement which expires in December 2008 providing for the sale of steam to Pasco Beverage Company ("Pasco Beverage"). The Project is situated on a 2.7 acre site, adjacent to Pasco Beverage's fruit juice processing facility, approximately 45 miles north of Tampa, Florida. The Project site is owned by Pasco Cogen Realty, L.P., an affiliate of Pasco, and leased to Pasco pursuant to a site lease which expires in July 2013.

Construction on the Pasco Project was financed with two loans totalling approximately \$92.6 million, both due December 31, 2008. As at December 31, 2005, approximately \$34.0 million in principal of the term loans remained outstanding which are expected to be amortized over their remaining terms.

## ***Capacity and Energy Sales***

### ***Power Purchase Agreement***

Electrical output is sold to PEF pursuant to a PPA that commenced in July 1993 and expires on December 31, 2008. Revenues from the sale of electricity consist of a payment for capacity, an energy payment generally comprised of a fuel component, a voltage adjustment and an hourly performance adjustment in addition to a special monthly payment scheduled to end in 2006. Capacity payments are subject to the Project maintaining an on-peak capacity factor of at least 90% during on-peak hours (11 hours daily) on a 12-month rolling-average basis. The Project is subject to reductions in its capacity payments should it not achieve the 90% on-peak capacity factor. PEF applies a performance adjustment when its avoided cost exceeds the Project's firm energy payments. PEF also pays Pasco a special monthly payment scheduled to end in 2006 which is not subject to plant performance requirements.

### ***Steam Sales Agreement***

Project steam revenues are earned pursuant to an amended and restated thermal agreement (the "Thermal Agreement") with Pasco Beverage, which commenced on July 1, 1993 and expires in December 2008. Under the Thermal Agreement, Pasco supplies Pasco Beverage or other steam users with steam on an as-available basis. Since January 2005, there have been no steam sales to Pasco Beverage or other steam users.

On December 30, 2004, Pasco Cogen Realty, LP purchased the plant property from Pasco Beverage and associated easement from Cargill, Incorporated and JDR Properties with the easement conveyed to Pasco. Pursuant to a settlement agreement, Pasco Beverage was released from certain outstanding payables to Pasco.

On September 30, 2004, Pasco filed a petition seeking a temporary waiver of QF requirements for calendar year 2004 and 2005 with FERC because the steam demands from the current and new steam users were insufficient to reliably maintain QF status. The FERC granted the waiver to the Project for the 2004 and 2005 calendar years, allowing Pasco the time needed to complete the installation of water distillation equipment so it can sell distilled water to unaffiliated third parties and retain its QF status. The cost of the distillation system was \$2.0 million and was completed in 2005. Effective October, 2005, Pasco executed a letter agreement with an unaffiliated third party for the sale of distilled water. The Project filed for and received recertification of its QF status in late 2005.

### ***Fuel Supply Arrangements***

An affiliate of Duke is the primary natural gas supplier for Pasco pursuant to a gas supply agreement which terminates in June 2008. Duke provides natural gas at a price that is adjusted monthly to track the PPA's pricing factors, including energy and capacity based components. Pasco is required to make certain payments if at least 80% of the maximum daily quantity specified in the gas supply agreement is not purchased each month. Pasco has not taken the minimum quantity since 2000; however, to date, Duke has not assessed any penalties.

As of March 30, 2006, the project was in negotiations with Duke regarding an assignment of the Duke Gas Purchase Agreement to PPM Energy, an indirect, wholly owned subsidiary of ScottishPower, plc.

The gas for the Project is transported using firm capacity on the Florida Gas system and interruptible capacity on the Peoples Gas pipeline, from the receipt points on the Florida Gas pipeline to the plant. The gas transportation arrangements expire between 2008 and 2010.

### ***Operations & Maintenance***

An affiliate of Caithness is responsible for the operations and maintenance of the Project pursuant to one of the Caithness O&M Agreements.

### **Rumford Project**

#### ***Description***

The Rumford Project, a 85 MW multi-fuel (coal, wood waste and tire-derived fuel) circulating fluidized bed boiler cogeneration facility located in the town of Rumford, Maine, commenced commercial operation in May 1990 as a QF. The Rumford Project is owned by Rumford Cogeneration Company Limited Partnership ("Rumford"), a Maine limited partnership in which Atlantic Holdings indirectly owns a 24.3% limited partnership interest (an estimated 21.8% economic interest) through its ownership of Teton Funding and an estimated 1.7% economic interest in Rumford through its indirect 18.9% ownership of Javelin, which indirectly owns a 10.2% limited partnership interest (an estimated 9% economic interest) in the Project. Other interests in Rumford are owned by: NewPage Corporation ("NewPage") indirectly through its 30% general partnership interest held by its affiliate, Rumford Cogeneration Inc. ("RCI"); Catamount Energy Corporation indirectly through its 15.1% limited partnership interest; Sojitz Corporation of America indirectly through its 10.2% limited partnership interest; and Dominion Resources, Inc. indirectly through its 10.2% limited partnership interest. Cash distributions from the Project are split among the partners based on after-tax return hurdles. The Project was constructed for the dual purpose of supplying steam and electricity to an adjacent paper mill owned by a subsidiary of NewPage and electricity to Central Maine Power Company ("CMP"). Rumford leases the site from NewPage and the Project is situated adjacent to the paper mill pursuant to a lease expiring on December 31, 2020. Rumford has no outstanding debt. RCI has an assignable option to purchase all of the limited partnership interests in Rumford at a pre-determined price so that upon completion of any exercise of this option, RCI or any assignee would own 100% of Rumford. This option may be exercised on December 31 of each year until December 31, 2014. The option price is four times the average of the net pre-debt service cash flow over the four years preceding the option exercise date (after removing the lowest figure of the four).

#### ***Capacity and Energy Sales***

##### ***Power Purchase Agreements***

Rumford had a 15-year PPA to sell electric energy to CMP that expired on December 31, 2005. CMP had the option to extend the term of the PPA for three successive five-year periods, but allowed the option to expire unexercised on July 1, 2004. During 2005, Rumford received an energy payment based on the sale of 75 MW of power at rates that increase in accordance with a fixed price schedule.

In December 2005, Rumford executed a one year interim agreement to sell all of its output to its NewPage at the New England hourly power market price.

##### ***Steam Sales Agreements***

Rumford has entered into a high-pressure steam purchase agreement with NewPage for the sale of steam through December 31, 2020. Under the agreement, Rumford is required to purchase all of the high-pressure steam generated by the "C" recovery boiler of the paper mill (net of NewPage's needs for 700 psig steam)

Rumford has entered into a low-pressure steam sales agreement with NewPage for the sale of low-pressure steam to NewPage through December 31, 2020. Under the agreement, NewPage is required to purchase all of the low-pressure steam generated by the Rumford Project (not to exceed NewPage's

needs for low-pressure steam). In any event, NewPage is obligated to purchase a sufficient quantity of steam to allow Rumford to maintain the Project's status as a QF.

Prior to 2003, the price of steam sold to NewPage pursuant to both the low-and high pressure steam sales agreements was a fixed price with an adjustment mechanism that responded to changes in the prices paid by Rumford for fuel, bed medium and ash disposal services. In December 2002, the steam price became fixed and will remain fixed for the remaining term of the agreement.

#### *Fuel Supply Arrangements*

Subsidiaries of NewPage have entered into a coal supply agreement with Massey Coal Sales Company, Inc. for all of the Project's coal supply requirements. This agreement was assigned to Rumford as of November 15, 2004. The price of coal pursuant to this agreement may be adjusted due to (i) changes in costs for both rail and ocean barge transportation rates; and (ii) a failure to meet certain quality specifications. Delivery of the coal takes place at the Merrills Marine Terminal in Portland, Maine and coal is transported via rail to the plant site pursuant to an agreement with Maine Central Railroad/Springfield Terminal Railway Company. This agreement has expired but the supplier is still supplying transport services and the parties are currently negotiating an extension.

Pursuant to a long-term agreement with NewPage and subject to certain quality specifications, Rumford purchases all chips, bark, dust and other forms of wood created by the operation of the mill that cannot be economically utilized in the operation of NewPage. In addition, Rumford purchases other forms of waste wood on a spot basis from third party suppliers.

Subsidiaries of NewPage have entered into a fixed-price agreement with Sprague Energy Corporation for the purchase of tire-derived fuel that expires in March 2006. Tire-derived fuel typically accounts for between 8.5% and 11.5% of the fuel utilized in the operation of the Project.

#### *Operations & Maintenance*

The Rumford Project is operated and managed by an affiliate of NewPage subject to the direction and control of the general partner. The management agreement expires on December 31, 2020. The operator receives an operating fee and is eligible for an incentive fee based on production under the PPA.

### **Selkirk Project**

#### *Description*

The Selkirk Project, a 345 MW dual-fuel, combined-cycle cogeneration plant located in the Town of Bethlehem in Albany County, New York, commenced commercial operation in 1994 as a QF. The Selkirk Project is owned by Selkirk Cogen Partners, L.P. ("Selkirk"), a Delaware limited partnership in which Atlantic Holdings estimates that it is entitled to an 18.5% economic interest in the cash flow and Cogentrix Energy, Inc., affiliates of The McNair Group and Fort Point Power LLC (an affiliate of Osaka Gas Energy America Corporation) own the remainder. Each of the Selkirk partners has an interest in cash distributions by Selkirk which changes when certain Selkirk partners achieve a specified return on their contributions to Selkirk. The cash distributions are divided into three levels: (i) distributions in fixed amounts payable to the Selkirk partners in proportion to their equity contributions during an initial period extending until such specified return is achieved (the "Selkirk Level I Distributions"); (ii) distributions of the Selkirk available cash remaining after payment of the Selkirk Level I Distributions; and (iii) distributions after the expiration of such initial period. The 15.7 acre project site is leased by Selkirk from GE and is situated adjacent to a GE plastics manufacturing plant. The Project includes two units: Unit I sells output to both NIMO and third parties; and Unit II sells output to Consolidated Edison, Inc. ("Con Ed"). Steam is sold to GE.

On December 12, 1994, Selkirk refinanced its existing debt with the issuance by Selkirk Cogen Funding Corporation, a wholly-owned subsidiary of Selkirk, of \$165 million of 8.65% First Mortgage Bonds due 2007 and \$227 million of 8.93% First Mortgage Bonds due 2012. As at December 31, 2005, approximately \$287 million in aggregate remained outstanding on the bonds, which is expected to be amortized over the remaining term of the respective bonds. Under Selkirk's financing agreements, Selkirk did not satisfy certain conditions with respect to the extension or replacement of its firm gas supply agreements by December 26, 2004, so cash otherwise available for distribution to Selkirk's partners was deposited into a separate account until the balance in the account is sufficient to fund all scheduled principal repayments on Selkirk's outstanding bonds from June 26, 2010 through June 26, 2012. Selkirk had successfully extended three of the four contracts and, in November 2005, the project successfully concluded negotiations on the fourth and final contract. Upon entering into the fourth contract the requirement to trap otherwise distributable cash was lifted and the cash held in the separate account was released and distributed to the partners in November and December 2005.

### *Capacity and Energy Sales*

#### *Power Purchase Agreements*

Selkirk has a PPA that expires on July 1, 2008 to sell electric capacity and energy from Unit I to Niagara Mohawk Power Corp. ("NIMO"). The Unit I PPA provides for a monthly contract payment which is comprised of four indexed pricing components: a capacity payment, an energy payment, a transportation payment and an operations and maintenance payment. The capacity payment, transportation payment, operations and maintenance payment and a fixed portion of the energy payment are payable regardless of whether Selkirk sells energy or capacity. The variable portion of the energy payment varies with the quantities of energy and capacity actually sold. Selkirk retains the right to sell Unit I energy and associated capacity at the prevailing market price which mitigates the impact of any payments that may be required to be made during periods of high market prices. NIMO has a right of first refusal to purchase energy and/or capacity up to the applicable monthly contract quantity during the term of the Unit I PPA at the market energy price and, if applicable, the market capacity price.

Selkirk also has a PPA to sell electric capacity and energy from Unit II to Con Ed. This PPA expires on September 1, 2014, subject to a 10-year extension at the option of Con Ed under certain conditions. The Unit II PPA provides for a capacity payment, a fuel payment, an operations and maintenance payment and a wheeling payment. The capacity payment, a portion of the fuel payment, a portion of the operations and maintenance payment and the wheeling payment are fixed charges to be paid on the basis of plant availability.

#### *Steam Sales Agreement*

Selkirk is obligated to sell up to 400,000 lbs/hr of thermal output of Units I and II for use as process steam at the GE plant located adjacent to the Project through September 1, 2014. Selkirk charges GE a nominal price for steam in an amount up to the annual equivalent of 160,000 lbs/hr during each hour in which the GE plant is in production. Steam sales in excess of this amount are priced at GE's avoided variable direct cost, subject to an annual "true-up" to ensure that GE receives the annual equivalent of the discounted quantity at nominal pricing. GE is required to purchase the minimum thermal output necessary for Selkirk to maintain its QF status.

#### *Fuel Supply Arrangements*

To supply natural gas for Unit I, Selkirk has entered into a gas supply agreement expiring on October 31, 2012 with Coral Energy Canada on a firm (variable quantity) 365-day per year basis. To supply natural gas for Unit II, Selkirk entered into gas supply agreements with Imperial Oil Resources Limited, EnCana Corporation and Canadian Forest Oil Ltd. (formerly Producers Marketing Ltd.). In the

fourth quarter of 2004, each of the Unit II gas supply agreements was restructured and extended through October 31, 2014.

Long-term contracts for the transportation of Units I and II natural gas volume on a firm 365-day per year basis have been executed with TransCanada Pipelines Limited, Iroquois Gas and Tennessee Gas. Each of the Unit I and II gas transportation contracts expire on November 1, 2012 and November 1, 2014, respectively.

Units I and II have the capability to operate on fuel oil and are able to switch fuel sources from natural gas to fuel oil and back without interrupting the generation of electricity. Selkirk's air permit allows the facility to burn oil for a maximum of 2,190 hours per year at full capacity. The Project has on-site storage for approximately 910,000 gallons of fuel oil, a supply sufficient to run all three combustion turbines for one and one half days at full capacity without refilling. The Project site is approximately five miles from the Port of Albany, New York, a major oil terminal area. Additionally, several major oil companies supply fuel oil in the Albany area through leased storage or throughput arrangements.

### ***Operations & Maintenance***

GE operates the Selkirk Project under an the Third Amended and Restated Operations and Maintenance Agreement expiring on December 31, 2012. The agreement provides for a fixed fee, capital parts discounts, a pass-through of management costs and a performance bonus. Management services for Selkirk are provided by JMCS I Management, Inc. ("JMCS"), an affiliate of Cogentrix, under an administrative services agreement. The term of the agreement is 20 years and expires in September 2014 unless terminated earlier in accordance with its terms. JMCS is entitled to compensation under the agreement which is subject to renegotiation every four years and provides for the full recovery of JMCS' actual costs and properly allocated overhead plus a reasonable fee which must be approved by all of the Selkirk partners.

## **Stockton Project**

### ***Description***

The Stockton Project is a 55 MW solid fuel-fired cogeneration facility located in Stockton, California that commenced commercial operation in March 1988 as a QF. The Stockton Project is owned by Stockton CoGen Company ("Stockton"), a California general partnership in which Atlantic Holdings indirectly holds a 50% partnership interest and Air Products ("APCI") holds a 50% partnership interest. The majority of the Project's electricity is sold under a 20-year PPA with PG&E that expires in February 2008. In addition, steam and electric energy are supplied to Corn Products International, Inc. ("CPI") under a 20-year energy supply contract expiring in February 2008. The Project is located adjacent to CPI's corn wet-milling plant on a 9.5 acre industrial site that is leased from CPI. A ground lease was executed in 1986 with a base lease term of 20 years, which runs the duration of the CPI energy supply contract. Stockton has the option of extending the site lease term for a period of five years at the maturity of the CPI energy supply contract term. The Stockton Project has no outstanding debt.

### ***Capacity and Energy Sales***

#### ***Power Purchase Agreements***

Stockton has two purchase agreements for electrical output from the Project: (i) the PG&E PPA, which is a 20-year energy and capacity PPA that expires in February 2008; and (ii) the CPI energy supply contract, which provides for the sale of both electricity and steam and is for a term of 20 years coinciding with the PG&E PPA.

Electric power generated by the Stockton Project is sold to PG&E pursuant to a PPA expiring in 2008. The PG&E PPA provides for monthly capacity and energy payments, and Stockton is entitled to

receive a performance bonus if the average on-peak capacity factor, net of allowed forced outages and scheduled maintenance outages, exceeds 85%. The PPA also provides for an annual average energy price through July 15, 2006, subject to time of use adjustments. After July 15, 2006, the Manager believes the energy price will change to PG&E's short-run avoided cost calculated in accordance with a short-run avoided cost formula adopted by the California Public Utilities Commission, whose calculation of short-run avoided cost primarily takes into account spot natural gas prices.

#### *Steam Sales Agreement*

Under the CPI energy supply contract, the Stockton Project supplies up to 130,000 lbs/hr of steam and 6,200 kW of electricity to the CPI facility. CPI pays Stockton a monthly base product charge. The CPI energy supply contract requires CPI to pay monthly energy charges for back-up steam and electric power, provided the Project has satisfied its minimum requirement for availability.

#### *Fuel Supply Arrangements*

The Project's boiler system is capable of burning several solid fuels, including coal, petroleum coke and tire-derived fuel. This diverse solid fuel mix provides opportunities to source fuel from several suppliers and provides cost advantages through controlled blending for optimal performance. Stockton has experienced success in blending fuels to minimize cost and maintain efficiency.

Stockton purchases coal from two coal supply contracts, one which expires in December 2006 and the other in September 2006 (with an option to extend to December 31, 2006). Stockton also blends petroleum coke with coal to reduce fuel costs and has one and two-year contracts with two major northern California suppliers of coke expiring on December 31, 2005 and March 31, 2006. Although petroleum coke does have a higher sulfur content than most coals, the Project can incorporate it up to 45% (by volume) into the overall fuel supply and still operate within its air quality permit emissions requirements.

The Project also utilizes tire-derived fuel for up to 10% of its fuel mixture. Tire-derived fuel has a high carbon content and provides an excellent source of lower-cost energy for the Project. Stockton purchases tire-derived fuel from Golden By-Products, Inc. under an agreement that expires on December 31, 2006. This contract has been in place since April 1999. It had an original term of three years and is renewable annually subject to mutual agreement on price and quantity of tire-derived fuel.

As an alternative to landfill disposal, Stockton has established programs with several local companies for the beneficial reuse of a majority of the ash produced by the Project. Stockton also maintains existing waste hauling and landfill disposal contracts for excess volumes of ash not utilized in beneficial reuse.

#### *Operations & Maintenance*

Air Products Energy Enterprises, L.P. ("APEE") a wholly-owned subsidiary of APCI, provides all operating, maintenance and administrative services for the Stockton Project. APEE receives an operating fee, adjusted annually based on inflation and labour indices, for a defined list of costs and expenses incurred. APEE can also earn an annual incentive fee based on Project cash flow which provides an incentive for APEE to control operating costs and maintain high project reliability.

### **Topsham Project**

#### *Description*

The Topsham Project is a 14 MW hydroelectric facility located on the Androscoggin River at the Pejepscot dam near Topsham, Maine and commenced commercial operation in 1987 as a QF. The Topsham Project is leased and operated by Topsham Hydro Partners Limited Partnership ("Topsham"), a Minnesota limited partnership. A 100% undivided interest in the Topsham Project and a 100% undivided

site interest in the Topsham Project site is owned by a financial institution, in its capacity as owner trustee for the benefit of a subsidiary of Atlantic Holdings (50%) and DaimlerChrysler Services North America LLC (50%) as owner participants. Electrical output is sold to CMP under a PPA that expires in 2011.

The following discussion deals only with the lease arrangements as they relate to the Atlantic Holdings indirect interest. Pursuant to a sale and lease back transaction, Topsham leases both the 50% Project and 50% site interest until November 17, 2011. At the end of the initial term, or any renewal term, as the case may be, of the Atlantic Holdings lease, Topsham has the option to renew the lease either for a period of two to 15 years at 50% of the average rate for the initial lease term or for a period of two years to as long as December 2070 at the market rate at time of renewal. Further, Topsham has the option to purchase both the Atlantic Holdings 50% Project and site interests on the last day of the initial term or any renewal term. Lease payments made by Topsham are based on certain Project operating cash flows. Certain of such payments are used to pre-pay amounts due under the note used to finance construction of the Project and are applied against a lease balloon payment due in November 2011.

A portion of the monies used to purchase the Project and site interests was borrowed from a financial institution and a secured note was issued representing this indebtedness. Indebtedness under this note is due November 17, 2011. As at December 31, 2004, approximately \$7.0 million remained outstanding under the note.

#### ***Capacity and Energy Sales***

##### ***Power Purchase Agreement***

Electrical output from the Topsham Project is sold to CMP pursuant to a PPA terminating on December 31, 2011. CMP has the option to terminate the PPA as of December 31, 2006 through 2010 if, as of December 31, 2005, 2006, 2007, 2008 or 2009, CMP does not have the sole right to provide electric service to customers in its now existing franchise territory who account for at least 50% of the total load being serviced on the applicable option date by all suppliers in the territory. If CMP exercises this termination option, CMP must make a termination payment to Topsham on the effective date of the termination.

CMP is required to pay for power generated by the Topsham Project based on a fixed-price schedule through December 2011.

#### ***Operations & Maintenance***

Topsham operates the Project and provides all general and administrative services for the Project pursuant to an operation agreement in effect until the earlier of December 31, 2027 or upon Topsham becoming the owner of 100% of the Project and the site, subject to renewal or earlier termination.

### **THE COMPANY**

The Company is a corporation continued under the *Business Corporations Act* (British Columbia).

#### **Description of IPSs**

##### ***General***

As at December 31, 2005, there were 44,339,500 IPSs issued and outstanding. Each IPS represents: (a) one Common Share; and (b) Cdn \$5.767 aggregate principal amount of Subordinated Notes.

The ratio of Common Shares to principal amount of Subordinated Notes represented by an IPS is subject to change in the event of a stock split, recombination or reclassification, or upon a partial redemption or repurchase of the Subordinated Notes.

#### ***Voluntary Separation and Recombination***

At any time after the 45<sup>th</sup> day following the date of closing of the initial public offering of the Company or upon the occurrence of a change of control of the Company, holders of IPSs may separate their IPSs into the Common Shares and Subordinated Notes represented thereby through their broker or other financial institution. Similarly, any holder of Common Shares and Subordinated Notes may, at any time, recombine the applicable number of Common Shares and principal amount of Subordinated Notes to form IPSs through their broker or other financial institution.

#### ***Automatic Separation***

Upon the occurrence of any of the following, the IPSs will be automatically separated into the Common Shares and Subordinated Notes represented thereby:

- with respect to any holder of IPSs, acceptance by such holder of the Company's offer to repurchase the Subordinated Notes represented by that holder's IPSs in connection with a change of control of the Company;
- exercise by the Company of its right to redeem all or a portion of the Subordinated Notes which may be represented by IPSs at the time of such redemption;
- the date on which the outstanding principal amount of the Subordinated Notes becomes due and payable, whether at the stated maturity date or upon acceleration thereof; or
- if CDS is unwilling or unable to continue as securities depository with respect to the IPSs and the Company is unable to find a successor depository.

#### ***Book-Entry Settlement and Clearance***

##### ***General***

CDS acts as securities depository for the IPSs, the Subordinated Notes and the Common Shares represented by the IPSs, which are referred to collectively as the "Securities". The IPSs and the Subordinated Notes and the Common Shares represented by the IPSs are represented by one or more global notes and global stock certificates. The global notes and global stock certificates are issued as fully-registered in book-entry only form in the name of CDS or its nominee, CDS & Co. If an investor intends to purchase IPSs, an investor must do so through direct and indirect CDS participants. The participant through which a purchase is made will receive a credit for the applicable number of IPSs on CDS's records. The ownership interest of each actual purchaser of the applicable security, referred to as a "beneficial owner", is to be recorded on the participant's records. Beneficial owners will not receive written confirmation from CDS of their purchases, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the CDS participant through which the beneficial owner entered into the transaction.

All interests in the Securities are subject to the operations and procedures of CDS. The following is a summary of those operations and is provided by the Company solely for convenience. The operations and procedures of each settlement system may be changed at any time. The Company is not responsible for those operations and procedures.

To facilitate subsequent transfers, all Securities deposited by direct CDS participants are registered in the name of CDS. The deposit of Securities with CDS and their registration in the name of CDS effect no change in beneficial ownership. CDS has no knowledge of the actual beneficial owners of

the Securities. CDS's records reflect only the identity of the direct CDS participants to whose accounts such Securities are credited, which may or may not be the beneficial owners. The CDS participants will remain responsible for keeping account of their holdings on behalf of their customers.

Transfers of ownership interests in the Securities are effected by entries made on the books of the CDS participants acting on behalf of beneficial owners. Beneficial owners of Securities will not receive certificates representing their ownership interests in the applicable Security except in the event that use of the book-entry only system for the Securities is discontinued.

Cross-market transfers between CDS participants, on the one hand, and the Depository Trust Company ("DTC") participants, on the other hand, will be effected within CDS through DTC. To deliver or receive an interest in Securities held in a DTC account, an investor must send transfer instructions to DTC under the rules and procedures of that system and within the established deadlines of that system. If the transaction meets its settlement requirements, DTC will send instructions to its CDS depository to take action to effect final settlement by delivering or receiving interests in the Securities in CDS and making or receiving payment under normal procedures for same-day funds settlement applicable to CDS. DTC participants may not deliver instructions directly to the CDS depository that is acting for DTC.

Conveyance of notices and other communications by CDS to direct participants, by direct participants to indirect CDS participants, and by CDS participants to beneficial owners is governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

The Company and the Trustee under the Indenture make any payments on the Common Shares and Subordinated Notes to CDS. CDS's practice is to credit direct CDS participants' accounts on the payment date in accordance with their respective holdings shown on CDS's records unless CDS has reason to believe that it will not receive payment on the payment date. Payments by CDS participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such participant and not of CDS, the Company or the Trustee, subject to any statutory or regulatory requirements as may be in effect from time to time.

The Company and the Trustee under the Indenture are responsible for the payment of all amounts to CDS. CDS is responsible for the disbursement of those payments to its participants, and the participants are responsible for disbursements of those payments to beneficial owners.

CDS may discontinue providing its service as securities depository with respect to the IPSs, the Common Shares or the Subordinated Notes at any time by giving reasonable notice to the Company and the Trustee under the Indenture. If CDS discontinues providing its service as securities depository with respect to the IPSs and the Company is unable to obtain a successor securities depository, the beneficial owners will automatically take a position in the Common Shares and Subordinated Notes represented by the IPSs and the Company will print and deliver certificates representing Common Shares and Subordinated Notes to the beneficial owners or their nominees. If CDS discontinues providing its service as securities depository with respect to the Common Shares or Subordinated Notes and the Company is unable to obtain a successor securities depository, the beneficial owners will automatically take a position in the securities and the Company will print and deliver certificates for the Common Shares and Subordinated Notes to the beneficial owners or their nominees.

The Company has the option of discontinuing the registration of any of the Securities through the book-entry only system at any time. In the event that the Company decides to discontinue use of the system of book-entry only system for any of the Securities, the Company will print and deliver certificates for the Common Shares and Subordinated Notes to the beneficial owners or their nominees.

The information in this section concerning CDS and CDS' book-entry only system has been obtained from sources that the Manager believes to be reliable, including CDS, but the Company takes no responsibility for its accuracy.

The Company will not have any responsibility or obligation to participants, or the persons for whom they act as nominees, with respect to:

- the accuracy of the records of CDS, its nominee, or any participant, as to any ownership interest in the Securities; or
- any payments to, or the providing of notice to, participants or beneficial owners.

#### *Separation and Recombination*

Any voluntary or automatic separation of IPSs, and any subsequent recombination of IPSs from Subordinated Notes and Common Shares, are to be accomplished by entries made by the CDS participants on behalf of beneficial owners. In any such case, the participant's account through which a separation or recombination is effected will be credited and debited for the applicable securities on CDS's records.

#### *Procedures Relating to Subsequent Issuances*

The Indenture and the agreements with CDS provide that, in the event there is a subsequent issuance of Subordinated Notes, the terms of the newly issued Subordinated Notes (including interest and maturity) will be identical in all material respects to the previously issued Subordinated Notes and all such Subordinated Notes will be traded under the same CUSIP number. Any such subsequently issued Subordinated Notes may be issued at a discount or premium to the stated principal amount.

### **Description of Share Capital**

The authorized share capital of the Company consists of an unlimited number of Common Shares. As at December 31, 2005, there were 44,339,500 Common Shares issued and outstanding, all of which were represented by IPSs sold pursuant to the Company's initial public offering and over-allotment option.

Holders of Common Shares are entitled to receive dividends as and when declared by the board of directors of the Company and are entitled to one vote per Common Share on all matters to be voted on at all meetings of shareholders. Upon the voluntary or involuntary liquidation, dissolution or winding-up of the Company, the holders of Common Shares are entitled to share rateably in the remaining assets available for distribution, after payment of liabilities.

### **Description of Subordinated Notes**

#### *General*

As at December 31, 2005, \$251,252,706 (Cdn \$292,205,897) aggregate principal amount of Subordinated Notes were outstanding. \$219,867,495 (Cdn \$255,705,897) of such Subordinated Notes were represented by IPSs and \$31,385,211 (Cdn \$36,501,000) of such Subordinated Notes were sold separately by private placement.

The Subordinated Notes were issued under the Indenture. The following is a brief summary of the terms of the Indenture and is subject to, and is qualified in its entirety by, all the provisions of the Indenture, which is specifically incorporated herein by reference. The Indenture can be found on SEDAR at [www.sedar.com](http://www.sedar.com).

***Market***

In certain circumstances, the Subordinated Notes and Common Shares represented by the IPSs will separate. There is no market through which such Subordinated Notes may be sold and purchasers may not be able to resell Subordinated Notes purchased by them.

***Interest Rate***

The interest rate on the Subordinated Notes is 11.0% per annum. Payments of interest, to the extent permitted by law, not made when due, will bear interest from the date such payment was due until paid at a default rate of 13.0% per annum.

***Record and Payment Dates***

Interest is paid monthly in arrears on the last business day of each month to holders of record on the last business day of the preceding month.

***Maturity Date***

The Subordinated Notes will mature on November 18, 2016.

***Principal Repayment***

The Subordinated Notes provide for the payment of interest only until the end of the term of the Subordinated Notes, at which time the principal balance will be payable by the Company.

***Optional Redemption***

On or after November 18, 2009, the Company may redeem the Subordinated Notes, at its option, at any time in whole and from time to time in part, upon not less than 30 nor more than 60 days' notice, for cash, at a redemption price equal to: (i) 105% of the principal amount of Subordinated Notes being redeemed where the redemption occurs on or after November 18, 2009 but before November 18, 2011; (ii) 104% of such amount where the redemption occurs on or after November 18, 2011 but before November 18, 2013; (iii) 103% of such amount where the redemption occurs on or after November 18, 2013 but before November 18, 2014; (iv) 102% of such amount where the redemption occurs on or after November 18, 2014 but before November 18, 2015; and (v) 101% of such amount where the redemption occurs on or after November 18, 2015 but before November 18, 2016, together with, in each case, accrued but unpaid interest to the date of redemption. Any exercise by the Company of its option to redeem Subordinated Notes, in whole or in part, will result in an automatic separation of the IPSs into Common Shares and Subordinated Notes.

***Change of Control***

Upon the occurrence of a change of control, the Company will be required to make an offer to each holder of Subordinated Notes to repurchase that holder's Subordinated Notes at a price equal to 101% of the principal amount of the Subordinated Notes being repurchased, plus any accrued but unpaid interest to the date of repurchase. However, a holder of IPSs will not be able to have its Subordinated Notes repurchased unless such holder surrenders the IPSs to the depository, and receives delivery of the Common Shares and Subordinated Notes represented thereby.

***Security and Guarantees***

The Subordinated Notes are secured by a pledge of the Company's membership interests in Atlantic Holdings and are guaranteed by Atlantic Holdings and certain of its direct and indirect, wholly-owned subsidiaries including, among others, Onondaga Cogeneration L.P. The guarantee of Atlantic

Holdings is secured by a pledge of its membership interests in the Project Holding Entities and the guarantees of certain of Atlantic Holdings' direct and indirect wholly-owned subsidiaries are secured by pledges of the membership interests or other securities they hold in subsidiary entities subject to the provisions of agreements governing or affecting interests in such subsidiaries which may restrict or prevent pledges in certain cases.

Onondaga Cogeneration L.P.'s guarantee of the Subordinated Notes is secured by a pledge of certain of the Onondaga Project assets. None of the other Project Operating Entities have provided a guarantee of the Subordinated Notes and none of the other Project assets are pledged to secure a guarantee of, or indebtedness under, the Subordinated Notes.

### ***Ranking***

The Subordinated Notes are secured subordinated indebtedness of the Company and are subordinated in right of payment, as set forth in the Indenture, to all existing and future secured senior indebtedness of the Company, including the Company's guarantee of Atlantic Holdings' obligations under the Credit Facility, but rank senior to all unsecured indebtedness of the Company (including trade payables).

The indebtedness evidenced by each secured guarantee of the Subordinated Notes is secured subordinated indebtedness of each guarantor, and is subordinated in right of payment, as set forth in the Indenture, to all existing and future senior indebtedness of each such guarantor, including the Credit Facility, but ranks senior to any unsecured indebtedness of each such guarantor (including trade payables).

Indebtedness evidenced by each unsecured guarantee of the Subordinated Notes is unsecured subordinated indebtedness of each such guarantor and is subordinated in right of payment, as set forth in the Indenture, to all existing and future secured indebtedness of such guarantor, including the Credit Facility, and ranks *pari passu* in right of payment with all existing and future unsecured indebtedness of each such guarantor (including trade payables).

### ***Restrictive Covenants***

The Indenture contains covenants with respect to the Company that restrict:

- the incurrence of additional indebtedness;
- the payment of dividends on, and repurchase of, Common Shares;
- a number of other types of payments, including investments;
- specified sales of assets;
- specified transactions with affiliates;
- the creation of a number of liens; and
- consolidations, mergers and transfers of all or substantially all of the Company's assets.

The limitations and prohibitions described above are subject to a number of important qualifications and exceptions described in the Indenture.

### **Limitations on ERISA Plan Ownership**

To avoid having the Company become subject to the fiduciary and prohibited transaction provisions of ERISA and Section 4975 of the Code, at no time may the IPSs, Subordinated Notes or Common Shares be beneficially owned by any "ERISA Plan" (which includes plans subject to such

statutory provisions and entities that, by regulation, are deemed to hold assets of such plans). Any transferee of beneficial ownership of IPSs, Subordinated Notes or Common Shares (whether by initial purchase or subsequent transfer) will be deemed to represent to the Company that it is not an ERISA Plan. Any purported transfer (whether or not the result of a transaction entered into through the facilities of the Toronto Stock Exchange) that, if effective, would result in any ERISA Plan beneficially owning any IPSs, Subordinated Notes or Common Shares will be void from the date of the purported transfer, and the ERISA Plan that pursuant thereto would purport to have beneficial ownership of the IPSs will not acquire any interest in the IPSs, Subordinated Notes or Common Shares. In the event of such a purported transfer, such IPSs, Subordinated Notes or Common Shares will be transferred to a trust created by the Company and sold. The ERISA Plan will not have any beneficial interest in the trust, and the ERISA Plan's sole right with respect to the IPSs, Subordinated Notes or Common Shares that were the subject of the purported transfer to the ERISA Plan will be to receive the net proceeds of sale of such IPSs, Subordinated Notes or Common Shares by the trust. The Company may require any person who attempts to acquire IPSs, Subordinated Notes or Common Shares or who otherwise is purported to beneficially own IPSs, Subordinated Notes or Common Shares, to provide a written statement or affidavit to the Company stating such information as the Company may request in order to determine whether such person is an ERISA Plan or not.

The Indenture contains substantively identical provisions concerning prohibitions on ERISA Plan ownership of the Subordinated Notes as described above, including the right to compel an ERISA Plan to dispose of the Subordinated Notes.

#### **Limitation on U.S. Resident Ownership**

The articles of incorporation of the Company provide that at no time may more than 100 U.S. persons (as determined by the Company) be the beneficial owners of the Company's securities, nor may any U.S. person be the beneficial owner of more than 10% of the IPSs, the Subordinated Notes or the Common Shares. The Company may require declarations as to the jurisdictions in which beneficial owners of the Company's securities are resident. If the Company becomes aware that either of the foregoing limitations may be contravened, the transfer agent and registrar of the Company will make a public announcement and will not accept a subscription for the Company's securities from or issue or register a transfer of the Company's securities to a person unless the person provides a declaration that the person is not a U.S. person. If, notwithstanding the foregoing, the Company determines that more than 100 U.S. persons are beneficial owners of any class of the Company's securities (on either a non-diluted or fully-diluted basis), the Company may send a notice to the U.S. holders of such securities, chosen in inverse order to the order of acquisition or registration or in any manner as the Company may consider equitable and practicable, requiring them to sell their securities or a portion of their securities within a specified period of not less than 10 days. If the holders of the Company's securities receiving the notice have not sold the specified number of securities, or provided the Company with satisfactory evidence that they are not U.S. persons within that period, the Company may, on behalf of those holders of the Company's securities, sell those securities, and, in the interim, will suspend the voting and distribution rights attached to those securities. Upon that sale, the affected holders will cease to be holders of the securities, and their rights will be limited to receiving the net proceeds of the sale.

#### **Limitation on Ownership by Electric Utilities and Others**

The United States Congress enacted the Energy Policy Act of 2005 (EPAAct 2005) on August 8, 2005. EPAAct 2005 removed certain regulatory constraints on investment in utility power producers by repealing the Public Utility Holding Company Act of 1935 and enacting the Public Utility Holding Company Act of 2005. EPAAct 2005 also limited the requirement that electric utilities buy electricity from QFs to certain markets that lack competitive characteristics and eliminated the electric utility ownership limitation for QFs. Finally, EPAAct 2005 amended and expanded the reach of FERC's corporate merger authority under section 203 of the Federal Power Act. Over the last several months, FERC has issued rulemakings implementing these provisions of EPAAct 2005.

While the new regulatory regime does mean some changes in terms of required filings and approvals, many of the regulatory issues related to the ownership Projects have not changed.

The Projects include QFs that qualify under FERC's rules implementing PURPA and EWGs under PUHCA with market-based rates on file with FERC pursuant to the Federal Power Act, as amended (the "FPA"). Ownership of the Company is restricted in order to ensure that the Projects with market-based rates on file with FERC comply with representations made to FERC, and continue to qualify for market-based rates. Such ownership restrictions generally relate to persons or companies having equity ownership or operation of certain utility assets in the U.S. or affiliation with an entity that owns or operates such assets. As a result, the articles of incorporation of the Company provide that no U.S. entity (other than entities that have made certain regulatory filings such as Teton Holdings) may hold more than 10% of the IPSs or Common Shares. In addition, should any entity wish to hold more than 5% but less than 10% of the IPSs or Common Shares, that entity must agree to cooperate with the Company and provide information necessary to make any filings with FERC that may be required pursuant to the FPA. Further, the articles of incorporation of the Company provide that no person may own IPSs or Common Shares if such person (i) is affiliated with any franchised electric utility; (ii) has controlling ownership interests in any electric generating, transmission, or distribution facilities; (iii) is affiliated with any power marketers; (iv) is subject to regulation as a "public utility" under the FPA; or (v) is subject to regulation with respect to rates or to financial or organizational matters as an electric utility, public utility, or public service company or corporation under the laws of any state unless such person satisfies the Company that the ownership of the IPSs or Common Shares by such person will not adversely affect the order issued under the FPA with respect to certain Projects, or the Projects' qualification for market-based rates under the FPA.

Determination of such potential adverse effect is at the sole discretion of the Company, and the Company may elect to strictly enforce any or all of the restrictions set forth above against such entity. If the Company becomes aware that any of the foregoing restrictions may be contravened, the transfer agent and registrar of the Company will make a public announcement and will not accept a subscription for IPSs or Common Shares from or issue or register a transfer of IPSs or Common Shares to a person unless the person provides a declaration that the person is not an entity described above. If, notwithstanding the foregoing, the Company determines that an owner of IPSs or Common Shares violates the foregoing restrictions, the Company may send a notice to such owner of IPSs or Common Shares requiring it to provide specified information to the Company such that Company can determine whether such person's ownership may have an adverse effect upon the Company. Upon such determination, the Company may send a further notice requiring such owner to sell its IPSs or Common Shares within a specified period of not less than 10 days. If the holder of IPSs or Common Shares receiving the notice has not sold the IPSs or Common Shares, as applicable, or provided the Company with satisfactory evidence that it does not contravene the foregoing restrictions, the Company may, on behalf of that holder of IPSs or Common Shares, sell those IPSs or Common Shares, and, in the interim, will suspend the voting and distribution rights attached to those IPSs or Common Shares. Upon that sale, the affected holder will cease to be a holder of the IPSs or the Common Shares, as applicable, and its rights will be limited to receiving the net proceeds of the sale.

#### **Interest Payments and Distribution Policy**

Distributions of the Company are paid in Canadian dollars unless a holder of IPSs, Common Shares or Subordinated Notes elects to receive distributions in U.S. dollars. Holders of IPSs, Common Shares or Subordinated Notes that elect to receive U.S. dollar distributions will receive the U.S. dollar Equivalent Amount of distributions by the Company. A holder of IPSs, Common Shares or Subordinated Notes may from time to time elect to change the currency of the distributions it receives on all or any part of the IPSs, Common Shares or Subordinated Notes it holds from Canadian dollars to U.S. dollars or vice versa upon notice to the securities broker through which the holder holds its IPSs, Common Shares or Subordinated Notes.

The Company pays interest on the Subordinated Notes and dividends on the Common Shares (if declared) on the last business day of each month to holders of record at the close of business on the last business day of the preceding month.

The Company intends to pay equal monthly dividends on the Common Shares at a stable and sustainable level, subject to applicable law and the covenants contained in the Credit Facility and the Indenture, after:

- satisfying its debt service obligations under any credit facilities or other agreements with third parties, if any;
- making interest payments at the rate of 11.0% per annum of the aggregate principal amount of the Subordinated Notes outstanding;
- satisfying its other expense obligations, including withholding and other applicable taxes; and
- retaining reasonable reserves for working capital and other expenses.

The Company may make additional distributions in excess of monthly dividends during the year, as the board of directors may determine in its sole discretion.

The Indenture and the Credit Facility contain restrictions on the ability of the Company to declare and pay dividends on the Common Shares. The board of directors of the Company may, in its discretion, modify or repeal the Company's dividend policy. No assurances can be made that the Company will pay dividends at the level contemplated in the future or at all.

For the year ended December 31, 2004, distributions of Cdn \$0.1195 per IPS were declared. For the year ended December 31, 2005, the company declared total distributions of Cdn \$1.0104 per IPS.

<u>Year ended:</u>	<u>December 31, 2004</u>	<u>December 31, 2005</u>
Dividend per Common Share	Cdn\$0.0437	Cdn\$0.3760
Interest Payment on Subordinated Note	Cdn\$0.0758	Cdn\$0.6344
<b>Total Distribution per IPS</b>	<b>Cdn\$0.1195</b>	<b>Cdn\$1.0104</b>

### **Administration**

The Company has no executive officers and engages the Manager to provide certain services pursuant to the Management Agreement. Under the Management Agreement, the Manager, if requested by the Company, has agreed to: (i) assist the Company in complying with its continuous disclosure obligations under applicable securities legislation; (ii) provide or cause to be provided to holders of securities of the Company, all information to which they are entitled under the constating documents of the Company and the Indenture and applicable laws; (iii) monitor compliance of the Company with applicable laws; (iv) provide for the calculation of interest payments and distributions to holders of IPSs and the Separate Subordinated Notes; and (v) assist in the preparation, planning and coordination of meetings of the board of directors of the Company and the holders of Common Shares of the Company. The Company may directly retain professionals and other service providers from time to time to provide advice and other administrative services directly to the Company.

### **ATLANTIC HOLDINGS**

Atlantic Holdings is a Delaware limited liability company.

## **Capital of Atlantic Holdings**

The authorized capital of Atlantic Holdings consists of an unlimited number of common membership interests, an unlimited number of Class A preferred membership interests and an unlimited number of Class B preferred membership interests. As at December 31, 2005, 44,339,500 common membership interests and 50,668,787 Class A preferred membership interests of Atlantic Holdings were owned by the Company and 18,952,365 common membership interests and 18,952,365 Class B preferred membership interests were owned by the Existing Investors.

### ***Class A Preferred Membership Interests***

The Class A preferred membership interests are non-voting membership interests. Each Class A preferred membership interest has a liquidation preference of Cdn\$5.767 and is entitled to a cumulative preferred return of 11 <sup>1</sup>/<sub>16</sub>%, plus an amount equal to all of the Company's ongoing expenses and costs. The Class A preferred membership interests are entitled to full payment of any unpaid preferred return prior to distributions being made to any other class of membership interests. The Class A preferred membership interests do not have any right to distributions from Atlantic Holdings in excess of their liquidation preference and preferred return.

The Class A preferred membership interests are redeemable at the option of the holder upon the maturity date of the Subordinated Note; or upon any redemption or prepayment of the Subordinated Notes being required under the Indenture, for a price equal to their liquidation preference plus any accumulated preferred return. The Class A preferred membership interests are redeemable at the option of Atlantic Holdings on or after November 18, 2009 at a redemption price equal to: (i) 105% of the liquidation preference of the Class A preferred membership interests being redeemed where the redemption occurs on or after November 18, 2009 but before November 18, 2011; (ii) 104% of such amount where the redemption occurs on or after November 18, 2011 but before November 18, 2013; (iii) 103% of such amount where the redemption occurs on or after November 18, 2013 but before November 18, 2014; (iv) 102% of such amount where the redemption occurs on or after November 18, 2014 but before November 18, 2015; and (v) 101% of such amount where the redemption occurs on or after November 18, 2015 but before November 18, 2016, together with, in each case, any accumulated preferred return to the date of redemption. The Class A preferred membership interests are redeemable at the option of the holder, at a redemption price equal to 100% of the liquidation preference of the Class A preferred membership interests plus any accumulated preferred return, during any period that for U.S. federal income tax purposes the Company: (i) is not, or would not be, in the opinion of nationally recognized tax counsel, permitted to deduct all or a substantial portion of the interest payable on the Subordinated Notes from its income; or (ii) is required to withhold or deduct any amount for or on account of taxes from any amounts paid or credited under or with respect to the Subordinated Notes and the Company is required to pay additional amounts. The Class A preferred membership interests are redeemable at the option of the holder for an amount equal to 101% of the liquidation preference of the Class A preferred membership interests plus any accumulated preferred return, in the event that a change of control occurs.

### ***Class B Preferred Membership Interests***

The Class B preferred membership interests are non-voting membership interests. Each Class B preferred membership interest has a liquidation preference of Cdn\$5.767 and is entitled to a cumulative preferred return of 11.0%. The Class B preferred membership interests are entitled to full payment of any unpaid preferred return prior to distributions being made on the common membership interests, but only after preferred returns are paid on the Class A preferred membership interests. The Class B preferred membership interests do not have any right to distributions from Atlantic Holdings in excess of their liquidation preference and preferred return.

In addition to the redemption rights of the Existing Investors pursuant to the Liquidity Right (as defined below), the Class B preferred membership interests are redeemable at the option of the holder at any time after redemption in full of the Class A preferred membership interests. Upon exercise by a holder of its redemption right with respect to the Class B preferred membership interests, all distributions of available cash (other than tax distributions) will be paid to the holders of the Class B preferred membership interests until they have received payment in full of their liquidation preference plus any accumulated preferred return.

### ***Common Membership Interests***

Each common membership interest carries one vote on all matters to be voted on at all meetings of members. Holders of common membership interests are entitled to receive distributions as and when declared by the board of managers after payment in full of all cumulative preferred returns on the Class A and Class B preferred membership interests. Upon the voluntary or involuntary liquidation, dissolution or winding-up of Atlantic Holdings, the holders of common membership interests are entitled to share rateably in the remaining assets available for distribution, after payment of liabilities and the liquidation preference to which the Class A and Class B preferred membership interests are entitled.

### **Distribution Policy**

Atlantic Holdings intends to pay equal monthly distributions on its common membership interests at a stable and sustainable level, subject to applicable law and the covenants contained in the Credit Facility and the Indenture, after:

- satisfying its debt service obligations under the Credit Facility or other agreements with third parties, if any;
- satisfying its other expense obligations, including management and administration expenses, and withholding and other applicable taxes;
- paying distributions on the outstanding Class A preferred membership interests;
- paying distributions on the outstanding Class B preferred membership interests;
- retaining reasonable reserves for working capital and other expenses; and
- making deposits into the Reserve Account to be used to stabilize distributions and fund acquisitions and other growth opportunities.

### **Reserve Account**

Upon completion of the Company's initial public offering and transactions contemplated by the Acquisition Agreements, \$12.5 million of the net proceeds of the offering was deposited into the Reserve Account. In addition, Atlantic Holdings intends to make additional deposits into the Reserve Account from time to time in accordance with its distribution policy. The funds in the Reserve Account will be available to: (a) stabilize future cash distributions; and (b) fund acquisitions and other growth opportunities to enhance the long-term stability of cash distributions. Any such acquisition or growth opportunity will be required to meet the acquisition and investment guidelines established by the Company. All acquisitions are subject to the approval of the members of the board of managers of Atlantic Holdings, and to the extent a conflict of interest exists with ArcLight or its affiliates, the approval of the independent members of the board of managers.

Amounts in the Reserve Account generally will be invested at the direction of the Manager in book-based securities, negotiable instruments or securities represented by instruments in bearer or registered form which evidence: (a) direct obligations of, and obligations fully guaranteed as to timely payment by, the Governments of Canada or the United States or any agency or instrumentality thereof the obligations of which are backed by the full faith and credit of the Governments of Canada or the United

States as the case may be, or (b) debt securities or debt instruments with a rating of A (low) or higher by DBRS or A3 or higher by Moody's Investors Service, Inc. or A- or higher by S&P, but excluding any debt securities or instruments constituting loans or advances among the Company and its subsidiaries.

In connection with the Reserve Account, the Manager will seek such advice and retain such experts as the Manager may deem prudent or as otherwise may be required by applicable laws. The investment parameters and objectives of the Reserve Account will also be periodically reviewed and approved by the independent members of the board of managers of Atlantic Holdings.

### **Operating Agreement**

The Company, Atlantic Holdings and the Existing Investors have entered into the Operating Agreement with respect to the operations and affairs of Atlantic Holdings. The following is a brief summary of certain provisions of the Operating Agreement and is subject to, and qualified in its entirety by, all the provisions of the Operating Agreement, which is specifically incorporated herein by reference. A copy of the Operating Agreement can be found on SEDAR at [www.sedar.com](http://www.sedar.com).

**Liquidity Rights of Existing Investors.** The terms of the Operating Agreement provide that a holder of Existing Investor Interests has the right (the "Liquidity Right"), exercisable at any time and from time to time and subject to the limits described below, to request Atlantic Holdings to purchase for cancellation, all or any portion of the Existing Investor Interests owned by such holder. Upon delivery of a notice by a holder of Existing Investor Interests (the "Liquidity Notice") to Atlantic Holdings requesting Atlantic Holdings to purchase, for cancellation, all or a portion of such holder's Existing Investor Interests (the "Subject Interests"), Atlantic Holdings is required to use its best efforts to secure the necessary funds through an equity financing to enable it to purchase such interests.

The repurchase of the Subject Interests will occur on such date as is specified by the holder of the Subject Interests (provided such date shall not be prior to the 30<sup>th</sup> day following receipt by Atlantic Holdings of the Liquidity Notice), unless Atlantic Holdings has been unable, after utilizing its best efforts, to complete or cause the completion of an equity financing on terms acceptable to the managers of Atlantic Holdings who are independent of the Existing Investors and their affiliates, acting reasonably, to secure the necessary funds to enable it to purchase the Subject Interests. Atlantic Holdings may only finance repurchases of Existing Investor Interests pursuant to the exercise of the Liquidity Right by issuing additional equity securities. It is expected that this will occur through the sale of common membership interests and Class A preferred membership interests to the Company, the purchase of which by the Company would be financed by a sale of IPSs or other equity securities of the Company. The Company is required to use its best efforts to effect an offering of IPSs or other equity securities on terms acceptable to the directors of the Company in order to provide equity funding to Atlantic Holdings for the repurchase of the Subject Interests.

The amount which shall be paid by Atlantic Holdings for the purchase of each Subject Interest will be equal to the fair market value of the Subject Interest at the time of the purchase, which shall be determined as follows: (i) in the event that all or a portion of the funds utilized by Atlantic Holdings for the purchase of the Subject Interests are funded through a sale of IPSs, the net proceeds received by the Company from the sale of each such IPS, or (ii) in the event that none of the funds utilized by Atlantic Holdings for the purchase of the Subject Interests are funded through a sale of IPSs, the net proceeds that would have been received by the Company per IPS if IPSs had been sold to fund the repurchase. The reasonable costs directly attributable to raising funds necessary to finance a purchase of Subject Interests will be borne by the holder of such Subject Interests.

For a period of two years from the date of closing of the Company's initial public offering, the Existing Investors may not exercise the Liquidity Right to the extent that the exercise of such right would result in the Existing Investors owning a number of common membership interests of Atlantic Holdings that is less than 10% of the common membership interests of Atlantic Holdings outstanding at the time of

closing. The Liquidity Right may not be exercised in respect of Subject Interests that would result in less than \$10 million of proceeds to the Existing Investors so long as the Existing Investors receiving proceeds from any exercise of the Liquidity Right would have been considered to form part of a control block of the Company (as defined in the Securities Act (Ontario)) if the Existing Investor Interests were considered to be IPSs. In the event that Atlantic Holdings determines to enter into an agreement to sell additional common membership interests and Class A preferred membership interests to the Company, other than pursuant to the exercise by the Existing Investors of the Liquidity Right, Atlantic Holdings is required to provide written notice to the Existing Investors as soon as practicable following any such determination. In such event, each Existing Investor shall be entitled to deliver a Liquidity Notice within five business days of the receipt of any such notice. However, notwithstanding the requirement that Atlantic Holdings use its best efforts to secure the necessary funds to repurchase the Subject Interests specified in such Liquidity Notice, treasury issuances in connection with the financing initially contemplated by Atlantic Holdings will take priority over treasury issuances necessary to satisfy the repurchase of Subject Interests specified in the Liquidity Notice. The repurchase of Subject Interests specified in such Liquidity Notice shall occur on the closing of the financing transaction.

The Operating Agreement also provides that, in the event that a person offers to purchase more than 20% of the membership interests in Atlantic Holdings held by the Company pursuant to an agreement with the Company, then it will be a condition of any such agreement that the person will offer to purchase a pro rata portion of the Existing Investor Interests on the same terms and subject to the same conditions as are applicable to the purchase of the membership interests of Atlantic Holdings held by the Company. In the event of an indirect change of control of Atlantic Holdings through any purchase of 20% or more of the Common Shares (including Common Shares forming part of IPSs) of the Company by any single purchaser and/or any other purchasers acting jointly or in concert with such purchaser, the Existing Investors shall be entitled to immediately exercise the Liquidity Right for the full amount of the Existing Investor Interests outstanding and Atlantic Holdings will be unconditionally obligated to purchase the Existing Investor Interests for an amount per Existing Investor Interest equal to the fair market value at the time of exercise (determined by reference to the event giving rise to the change of control).

**Managers.** The Operating Agreement provides for a board of managers of Atlantic Holdings consisting of seven managers. A majority of the managers must be U.S. residents. All representatives of the Existing Investors and the Manager must be U.S. residents. The Company is entitled to appoint a majority of the board of managers of Atlantic Holdings. The board of managers of Atlantic Holdings is comprised of a majority of managers unrelated to Atlantic Holdings and its subsidiaries, the Existing Investors and the Manager, as follows:

- four representatives of the Company (the three directors of the Company and one individual designated by the three directors of the Company);
- two representatives of the Existing Investors; and
- one representative of the Manager.

The board representation rights of the Existing Investors will be adjusted as their aggregate ownership of common membership interests in Atlantic Holdings is reduced. As the board representation rights of the Existing Investors are reduced, the size of the board of managers of Atlantic Holdings will be correspondingly reduced. The Existing Investors' board representation rights will be adjusted as follows:

<u>Ownership of Common Membership Interests of Atlantic Holdings</u>	<u>Board Representation Rights</u>
More than or equal to 20% .....	two representatives
Less than 20% but not less than 10% .....	one representative
Less than 10%.....	no representative

**Special Approvals.** In addition to majority approval of the board of managers of Atlantic Holdings, Atlantic Holdings may not, without the approval by at least 80% of the votes cast by holders of outstanding common membership interests: (i) other than in connection with an event of default under the Indenture, enter into a merger, consolidation, combination or other material transaction of a similar nature; (ii) other than in connection with an event of default under the Indenture, directly or indirectly sell or otherwise dispose of all or substantially all of its assets; (iii) redeem any of the outstanding Class A preferred membership interests where such redemption is made at its discretion; (iv) adopt any plan or proposal for the liquidating, dissolving, reorganizing or recapitalizing of Atlantic Holdings or to commence any action seeking relief under any laws relating to bankruptcy, insolvency, conservatorship or relief of debtors; (v) change its fiscal year (unless required or indicated for tax reasons) or make a material change in its accounting policies or procedures unless required under the applicable generally accepted accounting principles; (vi) change the size of the board of managers of Atlantic Holdings; (vii) take, or permit, any action which would prevent the business from continuing on an ongoing basis; or (viii) agree to do any of the preceding. The Operating Agreement also contains pre-emptive rights in favour of the Company and the Existing Investors, co-sale rights in favour of the Existing Investors and drag-along rights in favour of the Company.

**Executives.** Pursuant to the terms of the Management Agreement, the Manager has the exclusive authority to manage the business and affairs of Atlantic Holdings, to make all decisions regarding Atlantic Holdings and to bind Atlantic Holdings subject to approval, in certain circumstances, by the board of managers of Atlantic Holdings. The Manager has appointed a full-time chief executive officer and chief financial officer and corporate secretary and will appoint such other officers as are considered necessary to fulfil its obligations under the Management Agreement. Management intends to disclose 2005 compensation of its officers following guidance issued by the OSC in December 2005.

**Amendment.** The Operating Agreement provides that it can only be amended, modified or waived with the approval of the Company, Atlantic Holdings and the Existing Investors (for so long as they hold membership interests in Atlantic Holdings).

## **RISK FACTORS**

An investment in the IPSs and the Common Shares and Subordinated Notes represented thereby involves a number of risks. In addition to the other information contained in this annual information form, prospective investors should give careful consideration to the following factors. Any of the matters highlighted in these risk factors could have a material adverse effect on the Company's results of operations, business prospects or financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares and Subordinated Notes or on the market price or value of IPSs, Common Shares or Subordinated Notes.

### **Risks Related to the Business and the Projects**

#### ***Revenue May be Reduced Upon Expiration or Termination of PPAs***

Power generated by the Projects, in most cases, is sold under PPAs that expire at various times. In addition, these PPAs may be subject to termination in certain circumstances, including default by the Project owner or operator. When a PPA expires or is terminated, it is possible that the price received by

the relevant Project for power under subsequent arrangements may be reduced significantly. It is possible that subsequent power purchase arrangements may not be available at prices that permit the operation of the Project on a profitable basis. If this occurs, the affected Project may temporarily or permanently cease operations.

***The Projects Depend on their Electricity and Thermal Energy Customers***

Each Project relies on one or more PPAs, steam sales agreements or other agreements with one or more utilities or other customers for a substantial portion of its revenue. The amount of cash available for distribution to holders of IPSs, Common Shares and Subordinated Notes is highly dependent upon customers under such agreements fulfilling their contractual obligations. There is no assurance that these customers will perform their obligations or make required payments to the Project Operating Entities.

***Certain Projects are Exposed to Fluctuations in the Price of Electricity***

While a majority of the off-takers of the Projects are contractually obligated to purchase electricity under long-term PPAs, those Projects with power purchase arrangements based on market pricing will be exposed to fluctuations in the wholesale price of electricity. In addition, should any of the long-term PPAs expire or terminate, the Manager or the relevant Project operator will be required to either negotiate new PPAs or sell into the electricity wholesale market, in which case the prices for electricity will depend on market conditions at the time.

***Operations are Subject to the Provisions of Various Energy Laws and Regulations***

Generally, in the United States, the Company's projects are subject to regulation by the FERC regarding the terms and conditions of wholesale service and rates, as well as by state agencies regarding PPAs entered into by Qualify Facility ("QF") projects and the siting of the generation facilities. The majority of the Company's generation is sold by QF projects under PPAs that required approval by state authorities.

On August 8, 2005, EPAct 2005 was enacted, which removed certain regulatory constraints on investment in utility power producers by repealing the Public Utility Holding Company Act of 1935 ("PUHCA 1935") and enacting the Public Utility Holding Company Act of 2005 ("PUHCA 2005"). EPAct 2005 also limited the requirement that electric utilities buy electricity from QFs to certain markets that lack competitive characteristics. Finally, EPAct 2005 amended and expanded the reach of FERC's corporate merger approval authority under section 203 of the Federal Power Act ("FPA"). Over the last several months, FERC has issued final rulemakings implementing these provisions of EPAct 2005.

If any Project that is a QF were to lose its status as a QF, then such Project may no longer be entitled to exemption from provisions of PUHCA 2005 or from provisions of the FPA and state law and regulations. Loss of QF status could trigger defaults under covenants to maintain QF status in the PPAs, steam sales agreements and Project-level debt agreements and result, if not cured within allowed cure periods in termination of agreements, penalties or acceleration of indebtedness under such agreements, plus interest.

The Projects would also have to file with FERC for market-based rates or file for acceptance for filing of the rates set forth in the applicable PPA and its rates would then be subject to initial and potentially subsequent reviews by FERC under the FPA, which could result in reductions to the rates.

The Company's projects require licenses, permits and approvals which can be in addition to any required environmental permits. No assurance can be provided that we will be able to obtain, comply with and renew as required all necessary licenses, permits and approvals for these facilities. If we cannot comply with and renew as required all applicable regulations, our business, results of operations and financial condition could be adversely affected.

EPAct 2005 provides incentives for various forms of electric generation technologies, which may subsidize our competitors. In addition, EPAct 2005 requires the FERC to select an industry self-

regulatory organization which will impose mandatory reliability rules and standards. Among other things, FERC's rules implementing these provisions allow such reliability organizations to impose sanctions on generators that violate their new reliability rules.

We cannot provide assurance that the introductions of new laws, or other future regulatory developments, will not have a material adverse impact on our business, operations or financial condition.

#### ***Projects May Not Operate as Planned***

The revenue generated by the Projects is dependent, in whole or in part, on the amount of electric energy and steam generated by them. The ability of the Projects to generate the maximum amount of power to be sold to customers under the PPAs is the primary determinant in the amount of cash that will be distributed to the Company, and that will in turn be available for distribution to holders of IPSs, Common Shares and Subordinated Notes. With respect to each of the Projects, there is a risk of equipment failure due to wear and tear, latent defect, design error or operator error, among other things, which could adversely affect revenues and cash available for distribution. To the extent that the Projects' equipment requires longer than forecast down times for maintenance and repair, or suffers disruptions of power generation for other reasons, the amount of cash available for distribution may be adversely affected.

In general, the Projects transmit electric power to the transmission grid for purchase under the PPAs through a single, main step up transformer. As a result, the transformer represents a single point of vulnerability and may exhibit no abnormal behaviour in advance of a catastrophic failure that could cause a temporary shutdown of the facility until a spare transformer can be found or a replacement manufactured. In some cases, a spare transformer may be shared among several facilities. If the reason for a shutdown is outside of the control of the operator, the Projects may be able to make a force majeure claim under the Project contracts such as the PPA, fuel supply, steam sales agreement, loan agreements or insurance policies. If successful, such a claim may prevent a default or reduce monetary losses under such contracts. However, a force majeure claim may be challenged by the contract counterparty and, to the extent the challenge is successful, it may have a materially adverse effect on the Project.

#### ***Predicting Project Cash Flows Over the Long Term Is Difficult***

Due to the many uncertainties described in this risk factors section that could materially affect future revenues or expenses, it can be difficult to make long term projections of the Company's operating margins.

#### ***The Projects are Subject to Significant Environmental and Other Regulations***

The Projects are subject to numerous and significant federal, state and local laws, including statutes, regulations, by-laws, guidelines, policies, directives and other requirements governing or relating to, among other things: air emissions; discharges into water; the storage, handling, use, transportation and distribution of dangerous goods and hazardous and residual materials, such as chemicals; the prevention of releases of hazardous materials into the environment; the prevention, presence and remediation of hazardous materials in soil and groundwater, both on and off site; land use and zoning matters; and workers' health and safety matters. As such, the operation of the Projects carries an inherent risk of environmental, health and safety liabilities (including potential civil actions, compliance or remediation orders, fines and other penalties), and may result in the Projects being involved from time to time in administrative and judicial proceedings relating to such matters.

Environmental laws and regulations have generally become more stringent over time, and this trend may continue. In particular, the U.S. Environmental Protection Agency, or USEPA, has recently promulgated regulations requiring additional reductions in nitrogen oxides, or NOX and sulfur dioxide, or SO<sub>2</sub>, emissions, commencing in 2009 and 2010 respectively, and has also promulgated regulations requiring

reductions in mercury emissions from coal-fired electric generating units, commencing in 2010 with more substantial reductions in 2018. Moreover, certain of the states in which we operate have promulgated air pollution control regulations which are more stringent than existing and proposed federal regulations. Specifically, there is a proposed multi-state carbon cap-and-trade program known as the Regional Greenhouse Gas Initiative, or RGGI, which would apply to the Company's fossil-fueled facilities in the Northeast. A model rule for implementation of RGGI is expected to be released within the next few months.

Ongoing public concerns about emissions of carbon dioxide and other greenhouse gases from power plants have resulted in proposed laws and regulations at the federal, state and regional levels that, if they were to take effect substantially as proposed, would likely apply to Project operations. For example, the Projects could incur substantial costs pursuant to the proposed multi-state carbon dioxide cap-and-trade program known as the Regional Greenhouse Gas Initiative, or RGGI, which would apply to the facilities in our Northeast region. A model rule for implementation of RGGI is expected to be released within the next few months. Significant expenditures may be required for either capital expenditures or the purchase of allowances under the trading programs to keep our facilities compliant with environmental laws and regulations. If it is not economical to make those expenditures then it may be necessary to retire or mothball facilities, or restrict or modify our operations to comply with more stringent standards.

The Projects have obtained environmental permits and other approvals that are required for their operations. Compliance with applicable laws and future changes to them is material to the Company's businesses. Although the Manager believes the operations of the Projects are currently in material compliance with applicable environmental laws, licences, permits and other authorizations required for the operation of the Projects and although there are environmental monitoring and reporting systems in place with respect to all the Projects, there is no guarantee that more stringent laws will not be imposed, that there will not be more stringent enforcement of applicable laws or that such systems may not fail, which may result in material expenditures. Failure by the Projects to comply with any environmental, health or safety requirements, or increases in the cost of such compliance, including as a result of unanticipated liabilities or expenditures for investigation, assessment, remediation or prevention, could result in additional expense, capital expenditures, restrictions and delays in the Projects' activities, the extent of which cannot be predicted.

***The Projects Depend on Suppliers Under Fuel Supply Agreements and Increases in Fuel Costs may Adversely Affect the Profitability of the Projects***

Revenues in respect of the Projects may be affected by the availability, or lack of availability, of a stable supply of fuel at reasonable or predictable prices. To the extent possible, the Projects attempt to match fuel cost setting mechanisms in supply agreements to PPA energy payments formulas. To the extent that fuel costs are not matched well to PPA energy payments, increases in fuel costs may adversely affect the profitability of the Projects.

The amount of energy generated at the Projects is highly dependent on suppliers under certain fuel supply agreements fulfilling their contractual obligations. The loss of significant fuel supply agreements or an inability or failure by any supplier to meet its contractual commitments may adversely affect cash distributions by the Company.

Upon the expiry or termination of existing fuel supply agreements, the Manager or Project operators will have to renegotiate these agreements or may need to source fuel from other suppliers. There can be no assurance that the Manager or Project operators will be able to renegotiate these agreements or enter into new agreements on similar terms. Furthermore, there can be no assurance as to availability of the supply or pricing of fuel under new arrangements and it can be very difficult to accurately predict the future prices of fuel.

The amount of energy generated at the Projects is dependent upon the availability of natural gas, coal, oil or biomass. There can be no assurance that the long-term availability of such resources will remain unchanged.

***Increasing Competition Could Adversely Affect the Performance of the Company and the Projects***

The power generation industry is characterized by intense competition, and the Projects encounter competition from utilities, industrial companies and other independent power producers, in particular with respect to un-contracted output. In recent years, there has been increasing competition among generators in an effort to obtain power sales agreements, and this competition has contributed to a reduction in electricity prices in certain markets where supply has surpassed demand plus appropriate reserve margins. In addition, many states are implementing or considering regulatory initiatives designed to increase competition in the U.S. power industry.

***The Projects Depend on a Favourable Regulatory Regime***

The profitability of the Projects is in part dependent upon the continuation of a favourable regulatory climate with respect to the continuing operations and the future growth and development of the independent power industry. Should the regulatory regime in an applicable jurisdiction be modified in a manner which adversely affects the Projects, including increases in taxes and permit fees, cash available for distribution may be adversely affected. The failure to obtain all necessary licences or permits, including renewals thereof or modifications thereto, may also adversely affect cash available for distribution.

***ArcLight May Manage Entities that Compete with the Company and Atlantic Holdings***

The officers of the Manager are full-time employees of the Manager and devote their time and efforts exclusively to or for the benefit of the business of Atlantic Holdings and the Company. ArcLight and their affiliates and employees or agents may be engaged or invest directly or indirectly in a variety of other companies or other entities involved in owning, managing or advising on or otherwise engaged in the business of the generation, production, transmission, distribution, purchase and sale of electricity, other forms of energy-related projects, infrastructure projects, utility projects or other businesses.

Affiliates of ArcLight currently act, and may hereafter act, as managers to investment funds whose investment criteria encompass investments in power generation facilities in Canada and the U.S. In particular, an affiliate of ArcLight is the general partner of Fund I and Fund II, which invest in power generation, transmission and distribution assets as well as power-related fuel, services and equipment businesses, primarily in the United States. Existing and future agreements governing investment funds managed by affiliates of ArcLight, including the agreements governing Fund I and Fund II, require, and are expected to require in the case of future agreements, that suitable investments for such investment funds identified by ArcLight first be offered to the investment funds. The Management Support Agreement (as defined below) requires that ArcLight and its affiliates give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for Fund I, Fund II or other investment funds managed by ArcLight or its affiliates or that do fit within such investment guidelines but which such investment funds determine not to pursue. None of ArcLight or its affiliates are prohibited by the Management Agreement or any other agreement with Atlantic Holdings or the Company from competing with Atlantic Holdings or the Company, or from acquiring, investing in, or providing administrative or managerial services to, a competitor of Atlantic Holdings or the Company.

***The Company Has Limited Control Over the Operation of Certain Projects***

In most cases, the Projects are not wholly-owned by the Company, and in many cases the Company has limited control over the operation of the Projects. Third-party operators manage the operations of many of the Projects. As such, the Company must rely on the technical and management expertise of these third-party operators. To the extent that such third party operators do not fulfill their obligations to manage the operations of the Projects or are not effective in doing so, the amount of cash available for distribution may be adversely affected.

***Sufficient Capital May Not be Available to Fund Acquisitions, Investments, Expansions or Capital Expenditures***

Future acquisitions, investments, expansions and other capital expenditures by the Company and its subsidiaries will be financed out of cash generated from operations, sales of additional securities of the Company and borrowings. There can be no assurance that sufficient capital will be available on acceptable terms to fund acquisitions, investments, capital expenditures or expansion projects.

***The Company May Face Significant Competition for Acquisitions and May Not Successfully Integrate Acquisitions***

The Company's business plan includes growth through identifying suitable acquisition or investment opportunities, pursuing such opportunities, consummating acquisitions or investments and effectively integrating acquisitions or investments with the Company's business. There can be no assurance that the Manager will be able to identify attractive acquisition candidates in the power industry in the future, that the Company will be able to make acquisitions or investments on an accretive basis or that acquisitions or investments will be successfully integrated into the Company's existing operations. Although the U.S. power industry is continuing to undergo consolidation and may offer attractive acquisition and investment opportunities, the Manager believes that the Company is likely to confront significant competition for those opportunities and, due to the constriction in the availability of capital resources for acquisitions, investments and other expansion, to the extent that any opportunities are identified, the Company may be unable to effect acquisitions or investments.

Any acquisition or investment may involve potential risks, including an increase in indebtedness, the inability to successfully integrate operations, the potential disruption of the Company's ongoing business and the diversion of management's attention from other business concerns and the possibility that the Company pays more than the acquired company or interest is worth. There may also be liabilities that the Manager failed to discover or was unable to discover in its due diligence prior to the consummation of the acquisition or investment and the Company may not be indemnified for some or all these liabilities. In addition, the Company's funding requirements associated with acquisitions or investments and integration costs may reduce the funds available to the Company to make distributions.

***Operations are Subject to a Number of Natural and Inherent Risks***

The occurrence of a significant event which disrupts the ability of the Projects to produce or sell power for an extended period, including events which preclude existing customers from purchasing power, could have a material adverse effect on the amount of cash that will be available for distribution to holders of IPSs, Common Shares and Subordinated Notes. A certain portion of the events that might give rise to force majeure may, however, be mitigated by the Projects' insurance programs.

***Insurance May Not be Sufficient to Cover All Losses***

While the Manager believes that the Projects' insurance coverage addresses all material insurable risks, provides coverage that is similar to what would be maintained by a prudent owner/operator of similar facilities and are subject to deductibles, limits and exclusions which are customary or reasonable

given the cost of procuring insurance, current operating conditions and insurance market conditions, there can be no assurance that such insurance will continue to be offered on an economically feasible basis, nor that all events that could give rise to a loss or liability are insurable, nor that the amounts of insurance will at all times be sufficient to cover each and every loss or claim that may occur involving the assets or operations of the Projects or the Company.

***Financing Arrangements Could Impact the Business of the Company***

Current or future borrowings by the Company or its subsidiaries will increase the level of financial risk to the Company and, to the extent that the interest rates are not fixed or that borrowings are refinanced at different rates, will increase the sensitivity of cash available for distribution to interest rate variations. Contractual arrangements in respect of those borrowings may also adversely affect cash available for distribution. In addition, most of the Projects currently have term loan or other financing arrangements in place with various lenders. These financing arrangements are typically secured by all of the Project assets and contracts as well as the equity interests in the Project Operating Entities (including those owned by the Company). The terms of these financing arrangements generally impose many covenants and obligations on the part of the Project Operating Entity and other borrowers and guarantors. In many cases, a default by any party under other Project operating agreements (such as a PPA or a steam sales agreement) will also constitute a default under the Project's term loan or other financing arrangement. Failure to comply with the terms of these term loans or other financing arrangements, or events of default thereunder, may prevent cash distributions by the Project or the Project Operating Entity and may entitle the lenders to demand repayment and enforce their security against Project assets. In addition, if an event of default should occur, the lenders are entitled to take possession of the equity interests in Project Operating Entities held by the owners of the Project that have been pledged to such lenders.

The failure of the Company to refinance or repay any indebtedness ranking senior to the Subordinated Notes (including indebtedness outstanding under the Credit Facility) when due would constitute a default under such indebtedness. Under such circumstances, it is expected that distributions by the Company to holders of IPSs would not be permitted until such indebtedness was refinanced or repaid and the Company may be required to sell assets or take other actions, including the initiation of bankruptcy proceedings or the commencement of an out-of-court debt restructuring.

***Equity Interests in the Project Operating Entities are Typically Subject to Transfer Restrictions***

In addition to the pledges referred to above, the partnership or other agreements governing the Project Operating Entities typically limit a partner's ability to deal with its interest. Specifically, such agreements generally prohibit any sale, pledge, transfer, assignment or other conveyance of the interest in a Project Operating Entity without the consent of the other partners or shareholders. In some cases, other partners may have rights of first offer or rights of first refusal in the event of a proposed sale or transfer. Such restrictions may limit or prevent the Company from dealing with its interests in the Project Operating Entities in the manner it sees fit, and may have an adverse effect on the Company's ability to realize on its investments.

***The Projects' Operations are Subject to the Risk of Future Proceedings***

The Projects' operations are subject to all operating hazards and risks normally incidental to the generation of electricity. As a result, at any given time, the Projects, Project Operating Entities and other entities associated with the operation of the Projects may be defendants in various legal proceedings and litigation arising in the ordinary course of business. The Projects maintain insurance policies with insurers in amounts and with coverages and deductibles that the Manager believes to be reasonable and prudent. However, there can be no assurance that this insurance will be adequate to protect the Projects from all material expenses related to potential future claims for loss or damage or that these levels of insurance will be available in the future at economical prices. A significant judgment against any Project

or Project Operating Entity, the loss of a significant permit or other approval or the imposition of a significant fine or penalty could have a material adverse effect on the Company's business, financial condition and future prospects and could adversely affect cash distributions by the Company.

***The Project Operating Entities are Exposed to Risks Inherent in the Use of Derivative Instruments***

The Project Operating Entities may use derivative instruments, including futures, forwards, options and swaps, to manage their commodity and financial market risks. In addition, the Project Operating Entities purchase and sell commodity-based contracts in the natural gas, electricity and oil markets for trading purposes. In the future, the Project Operating Entities could recognize financial losses on these contracts as a result of volatility in the market values of the underlying commodities or if a counterparty fails to perform under a contract. In the absence of actively quoted market prices and pricing information from external sources, the valuation of these contracts involves judgement or use of estimates. As a result, changes in the underlying assumptions or use of alternative valuation methods could affect the reported fair value of these contracts.

**Risks Related to the Structure of the Company**

***The Company is Dependent on the Projects for virtually all Cash Available for Distributions***

The Company is dependent on the operations and assets of the Projects through its indirect ownership of interests in the Projects. The Company's ability to make payments on the Subordinated Notes and to make cash distributions to holders of IPSs and Common Shares is dependent on the ability of Atlantic Holdings to make distributions to the Company, which in turn is dependent on the ability of the Project Holding Entities and the partnerships and other entities in which they hold interests, directly or indirectly, to make distributions to Atlantic Holdings. The actual amount of cash available for payments to holders of Subordinated Notes and distribution to holders of IPSs and Common Shares depends upon numerous factors relating to each of the Projects, including profitability, changes in revenues, fluctuations in working capital, capital expenditure levels, applicable laws, compliance with contracts and contractual restrictions contained in the instruments governing any indebtedness. Any reduction in the amount of cash available for distribution, or actually distributed, by the Projects or Atlantic Holdings will reduce the amount of cash available for the Company to make payments to holders of Subordinated Notes and distributions to holders of IPSs and Common Shares. While the Company is contractually obligated to make interest payments on the Subordinated Notes, cash distributions by the Company on the Common Shares, including the Common Share component of an IPS, are not guaranteed and will fluctuate with the performance of the Projects. Generally, the interest in the Projects held indirectly by the Company is 50% or less. Accordingly, the Company's influence on the operations and assets of the Projects may be limited.

***Distribution of all Available Cash May Restrict Potential Growth of Atlantic Holdings and the Company***

The payout by the Company and Atlantic Holdings of substantially all of their operating cash flow will make additional capital and operating expenditures dependent on increased cash flow or additional financing in the future. Lack of these funds could limit the future growth of the Company and Atlantic Holdings and their cash flow. In addition, the Company may be precluded from pursuing otherwise attractive acquisitions or investments because they may not be accretive to the Company on a short-term basis.

***Future Distributions are not Guaranteed***

While the Company is contractually obligated to make interest payments on the Subordinated Notes, the Company's board of directors or Atlantic Holdings' board of managers may, in their respective

discretion, amend or repeal the existing distribution policy relating to equity distributions. Future equity distributions from these companies, if any, will depend on, among other things, the results of operations, cash requirements, financial condition, contractual restrictions, business opportunities, provisions of applicable law and other factors that the board of directors or managers may deem relevant. Either of these boards of directors or managers may decrease the level of equity distributions provided for in their existing distribution policies or entirely discontinue such distributions.

***Exchange Rate Fluctuations May Impact the Amount of Cash Available for Distribution by the Company***

A substantial portion of the Company's distributions to holders of IPSs, Common Shares and Subordinated Notes may be denominated in Canadian dollars. Conversely, all of the Projects' revenues and expenses, together with distributions received by Atlantic Holdings from the Projects, are denominated in U.S. dollars. As a result, the Company is exposed to currency exchange rate risks.

Although Atlantic Holdings has entered into hedging arrangements to mitigate this exchange rate risk, there can be no assurance that these arrangements will be sufficient to fully protect against this risk. If hedging transactions do not fully protect against this risk, changes in the currency exchange rate between U.S. and Canadian dollars could have a material adverse effect on the Company's results of operations and may adversely affect cash distributions by the Company. The costs associated with the conversion of U.S. dollars to Canadian dollars and these hedging arrangements is borne by Atlantic Holdings.

***Indebtedness Could Negatively Impact the Business of the Company and the Projects***

The degree to which the Company is leveraged on a consolidated basis could have important consequences to the holders of IPSs, Common Shares and Subordinated Notes, including:

- the Company's ability in the future to obtain additional financing for working capital, capital expenditures or other purposes may be limited;
- the Company may be unable to refinance indebtedness on terms acceptable to the Company or at all;
- defaults under Senior Indebtedness may prevent the Company from making payments on the Subordinated Notes;
- a significant portion of the Company's cash flow (on a consolidated basis) is likely to be dedicated to the payment of the principal of and interest on its indebtedness, including the Subordinated Notes, thereby reducing funds available for future operations, capital expenditures and/or dividends on its Common Shares; and
- the Company may be more vulnerable to economic downturns and be limited in its ability to withstand competitive pressures.

***The Company May Not be Able to Repurchase the Subordinated Notes Upon a Change of Control***

Upon the occurrence of certain specific kinds of change of control events, the Company will be required to offer to repurchase outstanding Subordinated Notes at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of repurchase. However, it is possible that the Company will not have sufficient funds at the time of the change of control to make any required repurchases. Failure to purchase tendered notes would constitute a default under the Indenture, which, in turn, would constitute a default under the Credit Facility.

***Changes in the Company's Creditworthiness May Affect the Value of the IPSs, Common Shares and Subordinated Notes***

The perceived creditworthiness of the Company, Atlantic Holdings and their respective subsidiaries that have guaranteed the Subordinated Notes, as well as changes in ratings of the IPSs, may affect the market price or value and the liquidity of the IPSs, Common Shares and Subordinated Notes. There is no assurance that a rating will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by a rating agency if in its judgement circumstances so warrant. The rating of the IPSs is not a recommendation to purchase, hold or sell such securities.

***Restrictive Covenants in Credit Facilities Could Impact the Business of the Company***

The Credit Facility contains restrictive covenants that limit the discretion of Atlantic Holdings with respect to certain matters. The ability of Atlantic Holdings to make distributions is subject to the restrictive covenants contained in the Credit Facility. If an event of default occurs under the Credit Facility or other senior indebtedness of Atlantic Holdings and the lender enforces a guarantee provided by the Company, the Company will be restricted or prevented from making distributions on its Common Shares and from making payments on the Subordinated Notes.

***Future Issuances of IPSs or Common Shares Could Result in Dilution***

The Company's articles of incorporation authorize the issuance of an unlimited number of Common Shares for such consideration and on such terms and conditions as are established by the board of directors without the approval of any shareholders. Additional IPSs or Common Shares may be issued by the Company in connection with a future financing or acquisition by the Company. The issuance of additional IPSs or Common Shares may dilute an investor's investment in the Company and reduce distributable cash per Common Share or per IPS.

***Investment Eligibility and Foreign Property***

There can be no assurance that the Common Shares and Subordinated Notes represented by the IPSs will continue to be qualified investments for trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans and registered education savings plans or that the Common Shares and Subordinated Notes represented by the IPSs will not be foreign property under the Tax Act. The Tax Act imposes penalties for the acquisition or holding of non-qualified or ineligible investments and on excess holdings of foreign property. In particular, if the Company ceases to have a "substantial Canadian presence" (as that term is understood for the purposes of the Tax Act), the Common Shares and Subordinated Notes represented by the IPSs may become foreign property. There can be no assurance that the Company will continue to have a substantial Canadian presence. On February 23, 2005, the Minister of Finance (Canada) proposed amendments to the Tax Act to eliminate the limit in respect of holding foreign property effective as of the beginning of 2005.

***U.S. Federal Income Tax Risks***

There can be no assurance that U.S. federal income tax laws and IRS administrative policies respecting the U.S. federal income tax consequences generally applicable to a holder of Common Shares and Subordinated Notes, as represented by IPSs, will not be changed in a manner which adversely affects Non-U.S. Holders.

There is no authority that directly addresses the tax treatment of securities similar to the Subordinated Notes which are offered in circumstances similar to the Offering (i.e., as part of a unit that includes common shares of the Company). In light of this absence of direct authority, it cannot be concluded with certainty that the Subordinated Notes will be treated as debt for U.S. federal income tax purposes, and, although the Company intends to take the position that the Subordinated Notes are debt for

U.S. federal income tax purposes, there can be no assurance that this position will not be challenged by the IRS. If such a challenge were sustained, interest payments on the Subordinated Notes would be recharacterized as non-deductible distributions with respect to the Company's equity, and the Company's net taxable income which is effectively connected income and thus its U.S. federal income tax liability would be materially increased. As a result, the Company's after-tax cash flow would be reduced and the Company's ability to make interest payments on Subordinated Notes and distributions with respect to Common Shares could be materially and adversely impacted.

***Certain U.S. Tax Considerations May Discourage Third Parties from Pursuing a Tender Offer or other Change of Control Transaction***

Under certain circumstances, Code Section 163(j) limits a corporation's deductions for interest paid to related foreign persons exempt from U.S. tax. For these purposes, a corporation and a creditor of the corporation will generally be "related" if the creditor owns, directly or by attribution, more than 50% of the corporation by vote or value. The purchase of an IPS should be treated for U.S. tax purposes as a purchase of both an equity interest and a creditor's interest in the Company. As a result, a purchase by any non-U.S. person of more than 50% of the IPSs could result in the Company's interest deductions being limited with respect to the Subordinated Notes forming part of those IPSs or otherwise owned by such person. Furthermore, if any non-U.S. person owns, directly or by attribution, 10% or more of the outstanding voting stock of the Company (including stock owned through IPSs), or certain other relationships exist, then the Company may be required to withhold U.S. tax at a rate of up to 30% on interest payable on any Subordinated Notes owned by that person (including Subordinated Notes owned through IPSs), unless an exemption or reduced rate of U.S. withholding tax applies. Either of these factors could discourage third parties from pursuing a tender offer or other change of control transaction with respect to the Company, which otherwise might have led to a premium being paid for IPSs.

***The Company May Not be Able to Make all Principal Payments on the Subordinated Notes***

The Subordinated Notes will mature on November 18, 2016. The Company may not be able to refinance the principal amount of the Subordinated Notes in order to repay the principal outstanding or may not have generated enough cash from operations to meet this obligation. There is no guarantee that the Company will be able to repay the outstanding principal amount upon maturity of the Subordinated Notes.

As a result of the subordinated nature of the guarantees of the Subordinated Notes, upon any distribution to creditors of Atlantic Holdings in a bankruptcy, liquidation or reorganization or similar proceeding relating to Atlantic Holdings or its property or assets, the holders of Atlantic Holdings' senior indebtedness will be entitled to be paid in full in cash before any payment may be made with respect to the Subordinated Notes under the guarantee provided by Atlantic Holdings. In the event of a bankruptcy, liquidation or reorganization or similar proceeding relating to any of the Project Operating Entities or the Projects (other than the Onondaga Project and the Lake Project), the holders of the Subordinated Notes will not have a claim against the assets of such Projects.

***Holders of IPSs, Common Shares and Subordinated Notes May Have Limited Liquidity***

Neither the IPSs nor the Common Shares have an extensive public market history. No assurance can be made that an active trading market for the IPSs will be sustained in the future, and the Company currently does not expect that an active trading market for the Common Shares will develop until the Subordinated Notes mature. The Common Shares will not be posted for trading on the Toronto Stock Exchange until there exists a sufficient public distribution (for the purposes of the listing requirements of the Toronto Stock Exchange) of Common Shares that are held separately from Subordinated Notes. There is no intention to list the Subordinated Notes on any stock exchange. BMO Nesbitt Burns Inc. has advised the Company that it currently intends to facilitate a secondary market in the Subordinated Notes and Common Shares subject to customary market practice and applicable legal and regulatory

requirements and limitations. However, BMO Nesbitt Burns Inc. is not obligated to do so and may discontinue any such activities, if commenced, at any time and without notice. Moreover, if and to the extent that BMO Nesbitt Burns Inc. facilitates a market for the Subordinated Notes and Common Shares, there can be no assurance that such market would provide sufficient liquidity for any holder of any such securities.

***Amounts in the Reserve Account may not be Sufficient to Stabilize Future Cash Distributions of the Company and Fund Acquisitions and Other Growth Opportunities***

The Reserve Account has been established to stabilize future cash distributions and to fund acquisitions and other growth opportunities with the objective of enhancing the long-term stability of cash distributions to holders of IPSs. There can be no assurance that amounts in the Reserve Account and the return on investment on such amounts will be sufficient to stabilize future cash distributions or fund growth opportunities. Investments held in the Reserve Account are subject to all risks applicable to such investments. Atlantic Holdings may lose all or part of the funds in the Reserve Account due to factors that are beyond the control of Atlantic Holdings. Although the Manager will seek professional investment advice in situations where it deems it necessary or prudent or in situations where it is otherwise required by law to do so, it is expected that investments in the Reserve Account will not provide a rate of return equal to the rate paid out by the Company to holders of IPSs.

***The Market Price for the IPSs, Common Shares or Subordinated Notes May be Volatile***

There has been limited public market for income participating securities. Factors such as variations in the Company's financial results, announcements by the Company, the Projects or others, developments affecting the business of the Company or the Projects, general interest rate levels, the market price of the Common Shares and general market volatility could cause the market price of the IPSs, the Common Shares or the Subordinated Notes to fluctuate significantly.

In addition, future sales or the availability for sale of substantial amounts of IPSs or Common Shares or a significant principal amount of Subordinated Notes in the public market could adversely affect the prevailing market price of the IPSs, the Common Shares and the Subordinated Notes and could impair the Company's ability to raise capital through future sales of its securities.

**RATING OF IPSs**

DBRS has adapted its income funds rating methodology in order to assign stability ratings to IPSs. In November 2005, DBRS reaffirmed its preliminary stability rating of STA-3 (low) to the IPSs of the Company. Similar to units of income funds rated STA-3, IPSs rated STA-3 are considered by DBRS to have good stability and sustainability of distributions per IPS. Ratings categories range from STA-1 to STA-7, with STA-1 being the highest. Ratings take into consideration the following seven main factors: (1) operating and industry characteristics, (2) asset quality, (3) financial flexibility, (4) diversification, (5) size and market position, (6) sponsorship/governance, and (7) growth. A rating is not a recommendation to buy, sell or hold any security and may be subject to revision or withdrawal at any time by DBRS. DBRS stability ratings do not take such factors as pricing or stock market risk into consideration.

## MARKET FOR SECURITIES

The IPSs of the Company are listed and posted for trading on the Toronto Stock Exchange under the symbol ATP.UN. The following table sets forth the price ranges and volume of trading of the outstanding IPSs as reported by the Toronto Stock Exchange for the periods indicated.

Period	High (Cdn\$)	Low (Cdn\$)	Volume
November 18–November 30, 2004	10.30	9.90	6,781,962
December 2004	11.19	10.15	6,110,714
January 2005	11.10	10.60	4,488,096
February 2005	11.50	11.06	5,592,313
March 2005	11.15	10.11	2,285,469
April 2005	10.75	10.15	615,243
May 2005	10.84	10.15	1,106,047
June 2005	11.23	10.65	1,280,242
July 2005	10.94	10.21	1,276,904
August 2005	10.65	9.60	2,452,934
September 2005	11.54	10.25	3,151,286
October 2005	10.75	9.60	2,259,117
November 2005	10.49	9.91	2,348,276
December 2005	10.51	9.84	1,500,237

## DIRECTORS, OFFICERS AND MANAGEMENT

### The Company

#### *Directors of the Company*

The Company's articles of incorporation provide for a minimum of one and a maximum of 20 directors, a majority of whom must be residents of Canada and must be unrelated to the Company and its subsidiaries, the Existing Investors and the Manager. The directors of the Company are Irving Gerstein, Ken Hartwick and John McNeil, all of whom are unrelated to the Company and its subsidiaries, the Existing Investors and the Manager. Directors will be elected at each annual meeting of shareholders of the Company. The term of office for each of the directors will expire at the time of the next annual meeting of shareholders of the Company. A director may be removed by a resolution passed by a majority of the shareholders or may resign. The vacancy created by the removal of a director must be filled at the shareholder meeting at which he or she was removed. A vacancy not so filled at a shareholder meeting, or created by the resignation of a director, may be filled by a quorum of the remaining directors. A quorum for meetings of directors is a majority of the directors, provided that a majority of directors present (or one director, where a quorum is two directors) must be residents of Canada. If there is no quorum of directors, a special shareholder meeting must be called to fill vacancies.

The directors supervise the activities and manage the affairs of the Company, including acting for, voting on behalf of and representing the Company as a holder of membership interests in Atlantic Holdings.

### ***Governance of the Company***

In lieu of a corporate governance and compensation committee, the directors are directly responsible for developing the Company's approach to governance issues, filling vacancies among the directors and periodically reviewing the composition and effectiveness of the directors and the contribution and compensation of individual directors.

The board of directors is also responsible for adopting and periodically reviewing and updating the written disclosure policy for the Company and its subsidiaries. This policy, among other things:

- articulates the legal obligations of the Company, its affiliates and their respective directors, managers, officers and employees with respect to confidential information;
- identifies spokespersons of the Company, who are the only persons authorized to communicate with third parties such as analysts, media and investors;
- provides guidelines on the disclosure of forward-looking information; and
- provides guidelines to prevent the selective disclosure of material information and to ensure that if selective disclosure of material information does occur, a news release is issued immediately.

### ***Remuneration of the Directors (Amounts in actual dollars)***

Initial compensation for directors of the Company is \$20,000 per year and \$1,500 per director for attending board or committee meetings in person. The Chairman of the board and the Chairman of the audit committee each receive an additional \$10,000 per year. Directors receive \$500 for attending meetings by phone. Directors are reimbursed for out-of-pocket expenses for attending board meetings. Directors participate in the insurance and indemnification arrangements described below.

### ***Management and Administration***

The Company has no executive officers and engages the Manager to provide certain services pursuant to the Management Agreement. The Company may directly retain professionals and other service providers from time to time to provide advice and other administrative services directly to the Company.

## **Atlantic Holdings**

### ***Board of Managers and Operating Agreement***

Atlantic Holdings is governed in accordance with its constating documents and the Operating Agreement. The board of managers of Atlantic Holdings is comprised of seven individuals, a majority of whom are unrelated to and independent from Atlantic Holdings and its subsidiaries, the Existing Investors and the Manager and a majority of whom must be U.S. residents. The Company is entitled to appoint a majority of the board of managers of Atlantic Holdings. The board of managers of Atlantic Holdings is comprised as follows:

- four representatives of the Company comprised of the three directors of the Company and one additional individual designated by the directors of the Company who is a U.S. resident and unrelated to and independent from Atlantic Holdings and its subsidiaries, the Existing Investors and the Manager;
- two representatives of the Existing Investors; and
- one representative of the Manager.

The Existing Investors' representation on the Atlantic Holdings' board of managers will be adjusted if their retained interest in Atlantic Holdings is reduced or diluted. The Existing Investors will be entitled to appoint two managers as long as they continue to own 20% or more of the outstanding common membership interests; one manager as long as they continue to own 10% or more but less than 20% of the outstanding common membership interests; and no managers if they own less than 10% of the outstanding common membership interests. The Manager will be entitled to appoint one manager for so long as it is the manager of Atlantic Holdings under the Management Agreement.

The board of managers of Atlantic Holdings has, subject to the provisions of the Operating Agreement and the Management Agreement, full power to manage the business and affairs of Atlantic Holdings, to make all decisions regarding Atlantic Holdings and to bind Atlantic Holdings. Certain fundamental transactions are subject to approval by at least 80% of votes cast by holders of Atlantic Holdings' common membership interest.

The following table sets out the name, province or state of residence, positions with the Company and Atlantic Holdings and principal occupation of the individuals who are directors of the Company and managers of Atlantic Holdings.

<u>Name and Province/State of Residence<sup>(1)</sup></u>	<u>Position(s)</u>	<u>Principal Occupation</u>
IRVING GERSTEIN <sup>(2)</sup> ..... Ontario, Canada	Chairman of the Board of Directors of the Company and Manager of Atlantic Holdings	Corporate Director
KEN HARTWICK <sup>(2)</sup> ..... Ontario, Canada	Chairman of the Audit Committee of the Company and Manager of Atlantic Holdings	President of Ontario Energy Savings Corp.
JOHN MCNEIL <sup>(2)</sup> ..... Ontario, Canada	Director of the Company and Manager of Atlantic Holdings	President, Barker, Dunn & Rossi (Canada)
BILL WHITMAN <sup>(2)</sup> ..... New Jersey, U.S.A.	Manager of Atlantic Holdings	Senior Vice President, NW Financial Holdings LLC
DANIEL REVERS <sup>(3)</sup> ..... Massachusetts, U.S.A.	Manager of Atlantic Holdings	Managing Partner of ArcLight
ROBB TURNER <sup>(3)</sup> ..... New Jersey, U.S.A.	Manager of Atlantic Holdings	Senior Partner of ArcLight
BARRY WELCH <sup>(4)</sup> ..... Massachusetts, U.S.A.	Manager of Atlantic Holdings	President and Chief Executive Officer of the Manager

(1) Each director of the Company is also a member of the audit committee of the Company.

(2) Representative of the Company on the board of managers of Atlantic Holdings.

(3) Representative of the Existing Investors on the board of managers of Atlantic Holdings.

(4) Representative of the Manager on the board of managers of Atlantic Holdings.

As at December 31, 2005, the directors of the Company and executive officers of the Manager, as a group, beneficially owned, directly or indirectly, or exercised control or direction over, 48,170 IPSs, representing approximately 0.1% of the outstanding IPSs of the Company.

### ***Biographies***

**Irving Gerstein, C.M., O.Ont:** Mr. Gerstein has been a director of the Company since October 4, 2004 and a manager of Atlantic Holdings since November 10, 2004. Mr. Gerstein is a retired executive and is currently a director of Medical Facilities Corporation, Student Transportation of America Ltd. and Economic Investment Trust Limited, and previously served as a director of other public Companies, including CTV Inc., Traders Group Limited, Guaranty Trust Company of Canada, Confederation Life Insurance Company and Scott's Hospitality Inc., and as an officer and director of Peoples Jewellers Limited. Mr. Gerstein is a Member of the Order of Canada and a Member of the Order of Ontario. He is

an honorary director of Mount Sinai Hospital (Toronto), having previously served as Chairman of the Board, Chairman Emeritus and a director over a period of twenty-five years, and is currently a member of its Research Committee. Mr. Gerstein received his BSc. in Economics from the University of Pennsylvania (Wharton School of Finance and Commerce). During Mr. Gerstein's service as a director of each of Peoples Jewellers Limited and Confederation Life Insurance Company, bankruptcy proceedings were initiated (and, in the case of Peoples Jewellers Limited, claims were made against senior executives of the company, including Mr. Gerstein); all of the creditor and other claims were settled. Mr. Gerstein also entered into a settlement of personal claims arising primarily from participation in a Peoples Jewellers Limited share incentive plan.

**Ken Hartwick, C.A.:** Mr. Hartwick has been a director of the Company since October 4, 2004 and a manager of Atlantic Holdings since November 10, 2004. Mr. Hartwick is currently the President of Ontario Energy Savings Corp. ("OESC"). OESC is a wholly-owned subsidiary of, and provides administrative services to, Energy Savings Income Fund ("Energy Savings"), an income trust traded on the Toronto Stock Exchange. Through its subsidiaries and affiliates, Energy Savings markets natural gas to residential customers and small to mid-sized commercial businesses in Manitoba Ontario, Illinois, New York and Alberta and solely to commercial customers in Québec and British Columbia. In addition, Energy Savings markets electricity to customers in New York, Ontario and Alberta. Energy Savings also markets electricity to mid-sized commercial and small industrial customers in Ontario. Mr. Hartwick serves on OESC's Management Committee and is involved in providing strategic direction. Prior to joining OESC, Mr. Hartwick served as Senior Vice President, Finance (October 2000 to September 2001) and Chief Financial Officer and Senior Vice President, Finance (October 2001 to April 2004) of Hydro One Inc., the largest electricity delivery company in Ontario and one of the largest in North America. Mr. Hartwick was a member of Hydro One Inc.'s Executive Committee. From May to October 2000, Mr. Hartwick was Vice President, Cap Gemini Ernst & Young and from 1994 to April 2000 Mr. Hartwick was a partner of Ernst & Young LLP. Mr. Hartwick received his B.A. (Honours) from Trent University in Peterborough, Ontario.

**John McNeil:** Mr. McNeil has been a director of the Company since October 4, 2004 and a manager of Atlantic Holdings since November 10, 2004. Mr. McNeil is President of Barker, Dunn & Rossi (Canada) Inc. ("BDR") based in Toronto. In May 2005, BDR was acquired by Gestalt, LLC. Headquartered in King of Prussia, PA, Gestalt is an information technology consulting firm specializing in the defense, energy and utility sectors. Prior to his appointment at BDR in 2000, Mr. McNeil was Managing Director Investment Banking with Scotia Capital Inc. from 1996 to 1999. Previously, he was a Senior Vice-President and Director of ScotiaMcLeod Inc. from 1991 to 1995. Mr. McNeil has extensive expertise in the areas of asset management models, capitalization, mergers and acquisitions, business and enterprise valuations, capital markets and market ratings and has worked extensively throughout North America and Europe. Mr. McNeil has been a member of the Electricity Task Force of The Toronto Board of Trade since 1996. Mr. McNeil specializes in the electric power sector and his major focus in recent years has been in the field of corporate and enterprise unbundling and reconstitution resulting from the restructuring of the electricity sector in North America. Mr. McNeil received a B.A. (Honours) from Queens University, a Bachelor of Laws from the University of Toronto and an M.B.A. from the University of British Columbia.

**Bill Whitman:** Mr. Whitman has been a manager of Atlantic Holdings since November 10, 2004. Mr. Whitman is currently the Senior Vice President of NW Financial Group, LLC ("NW"), an investment bank specializing in municipal finance. Mr. Whitman has over twenty years of experience in structuring and managing waste-to-energy projects. At NW, Mr. Whitman helps clients structure and finance projects, providing essential public services such as waste disposal and water treatment. From July 2003 to March 2004, Mr. Whitman was a contract employee of MSW Energy Holdings LLC ("MSW"), where he fulfilled the duties of Chief Financial Officer. MSW owns a 50% indirect membership interest in Ref-Fuel Holdings LLC, which is one of the largest owners and operators of waste-to-energy projects in the United States. Prior to joining MSW, Mr. Whitman played a leading role in the start-up and management of Covanta's (formerly Ogden Corporation) waste-to-energy business

from 1987 to 2002. At Covanta, Mr. Whitman directed financial operations, resolved contract and client issues and generally helped to manage day-to-day operations. He was also involved in the structuring and financing of several of the waste-to-energy projects and led the restructuring of distressed projects. Mr. Whitman served as Chief Financial Officer of Ogden Energy Group from 1990 to 2001 and Senior Vice-President of Covanta from 2001 to 2002. During Mr. Whitman's service as a senior officer of Covanta, Covanta filed voluntary petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code. On March 10, 2004, Covanta and 79 of its affiliates, comprising Covanta's energy and water businesses, were acquired by Danielson Holding Corporation. With the closing of this transaction, Covanta and these affiliates emerged from bankruptcy protection. Mr. Whitman received a Bachelor of Science degree in Environmental Engineering from Syracuse University and an M.B.A. from Carnegie Mellon University.

**Daniel Revers:** Mr. Revers has been a manager of Atlantic Holdings since November 10, 2004. Prior to forming ArcLight, Mr. Revers was a Managing Director of the Bond & Corporate Finance Group at John Hancock Financial Services, Inc. ("John Hancock") from 1995 to 2001. The Bond and Corporate Finance Group of John Hancock invests approximately \$10 billion annually in corporate bonds and private placement transactions and, as of March 30, 2004, had approximately \$50 billion in assets under management. The group is comprised of 125 employees, including more than 40 credit analysts with expertise in a wide range of industries worldwide. While at John Hancock, Mr. Revers was responsible for the origination, execution and management of a \$6 billion portfolio consisting of debt, equity and mezzanine investments in electric power, natural gas, water, transportation and other infrastructure projects and utilities. He originated over 100 investments in the sector with an aggregate investment value at the time of organization of over \$5 billion. Mr. Revers was involved in the development of many of the structured private equity securities currently being utilized in the power sector. Prior to joining John Hancock, Mr. Revers held various financial positions at Wheelabrator Technologies Inc. in Hampton, New Hampshire where he specialized in the development, acquisition and financing of domestic and international power generation, water and other environmental projects. Mr. Revers received a Bachelor of Arts in Economics from Lafayette College and an M.B.A. from the Amos Tuck School of Business Administration at Dartmouth College.

**Robb Turner:** Mr. Turner has been a manager of Atlantic Holdings since November 10, 2004. Prior to forming ArcLight, Mr. Turner was a Partner at the investment banking firm of Berenson Minella & Company ("BMC") from 1998 to 2001. Joining BMC in 1998, Mr. Turner founded and built BMC's energy advisory practice. From 1990 through 1998, Mr. Turner held senior positions at Smith Barney, Schroders, plc, Wasserstein Perella Group, Inc. and Kidder, Peabody & Co. During his over 15 years of energy finance, corporate finance and public and private equity investment experience, Mr. Turner was responsible for advising on buyouts, corporate finance structures, mergers and acquisitions. He developed extensive power industry and related relationships and advised on industry-related transactions representing over \$25 billion in value. His assignments included large domestic and cross-border power industry M&A transactions, power plant development, coal and telecom advisory assignments and raising capital for power technology companies. His clients included many leading private equity firms as well as corporate entities employing highly-leveraged capital structures. Mr. Turner is a graduate of the U.S. Military Academy at West Point and has an M.B.A. from Harvard Business School.

**Barry Welch:** Mr. Welch has been President and Chief Executive Officer of the Manager since October 1, 2004 and a manager of Atlantic Holdings since November 10, 2004. Prior to joining the Manager, Mr. Welch was the Senior Vice President and head or co-head of the Bond & Corporate Finance Group of John Hancock from 2000 to 2004. Mr. Welch served on several committees at John Hancock, including its Pension Investment Advisory Committee and Investment Operating Committee. Mr. Welch was Chairman of John Hancock's Bond Investment Committee and reported monthly on investment portfolio, strategy and activity to the Committee of Finance of John Hancock's board of directors. Mr. Welch also led the development and approval of Hancock's involvement with Fund I and served as a member of Fund I's Investment Committee. Previously at John Hancock, Mr. Welch headed the Bond and Corporate Finance Group's Power and Energy investment team. From 1986 to 2004, he was involved indirectly or oversaw \$25 billion of investments in over 1,000 utility, project finance and oil

& gas transactions. Prior to joining John Hancock, Mr. Welch spent over three years as a developer of power projects at Thermo Electron Corporation's Energy Systems Division (later known as Thermo Ecotek). There he was involved in greenfield development of natural gas, wood and waste-to-energy projects, as well as asset management roles for operating plants. Mr. Welch received a Bachelors of Science in Mechanical and Aerospace Engineering from Princeton University and an M.B.A. from Boston College. Mr. Welch serves on the board of Directors of the Walker Home and School in Needham, Massachusetts.

***Remuneration of Board of Managers of Atlantic Holdings***

Compensation for non-management managers of Atlantic Holdings (other than members of the board of managers who are also directors of the Company) is \$20,000 per year. Each non-management member of the board of managers of Atlantic Holdings receives \$1,500 per meeting for attending board or committee meetings in person and \$500 for attending meetings by phone. Managers are also reimbursed for out-of-pocket expenses for attending board and committee meetings. Managers participate in the insurance and indemnification arrangements described below.

***Management***

Atlantic Holdings has no executive officers. Management and administrative services are provided to Atlantic Holdings by the Manager pursuant to the Management Agreement.

**Insurance Coverage for Directors and Managers and Indemnification**

The Company has obtained a policy of insurance for the directors of the Company and for the managers of Atlantic Holdings. Under the policy, each of the Company and Atlantic Holdings has reimbursement coverage to the extent that it has indemnified the directors or managers. The policy includes securities claims coverage, insuring against any legal obligation to pay on account of any securities claims brought against the directors of the Company or the managers of Atlantic Holdings. The total limit of liability is shared among the directors of the Company and the managers of Atlantic Holdings so that the limit of liability will not be exclusive to any one of the respective directors or managers.

The by-laws of the Company and the Operating Agreement for Atlantic Holdings provide for the indemnification of their respective directors, managers and officers (if any) from and against liability and costs in respect of any action or suit brought against them in connection with the execution of their duties of office, subject to certain limitations.

**The Manager**

The Manager is a Delaware limited liability company formed by ArcLight and the Existing Investors. The names, states of residence, positions with the Manager and principal occupations of the officers of the Manager, together with brief biographies of those who are not members of the board of managers of Atlantic Holdings, are set out below. Barry Welch, the President and Chief Executive Officer of the Manager, and Mark Byskov, the Chief Financial Officer and Corporate Secretary of the Manager, are full-time employees of the Manager. In addition to the officers listed below, the Manager has contracted with ArcLight to obtain certain back-office and support services and for possible secondment of ArcLight employees from time to time as appropriate to assist the Manager in fulfilling its responsibilities under the Management Agreement.

<b><u>Name and State of Residence</u></b>	<b><u>Position(s) with the Manager</u></b>	<b><u>Principal Occupation</u></b>
BARRY WELCH ..... Massachusetts, U.S.A.	President and Chief Executive Officer	President and Chief Executive Officer of the Manager
MARK BYSKOV* .....	Chief Financial Officer and Corporate Secretary	Chief Financial Officer and Corporate

Massachusetts, U.S.A.

STEVEN CHWIECKO

Managing Director, Asset Management and  
Acquisitions

Secretary of the Manager

Managing Director of the Manager

### ***Biographies***

**Mark A. Byskov, C.A., C.P.A.** Mr. Byskov has been Chief Financial Officer and Corporate Secretary of the Manager since December 13, 2004. Prior to joining the Manager, Mr. Byskov served as Director of Corporate Planning for Atlas Cold Storage Trust ("Atlas"), the owner of the second largest temperature controlled distribution network in North America. At Atlas, Mr. Byskov managed the direction of the annual budget for the 54 facility network operated by the trust and was responsible for Canadian and U.S. tax planning. Prior to joining Atlas, Mr. Byskov was Corporate Controller of Radiant Energy Corporation, Orchard Park, NY ("Radiant"). At Radiant, Mr. Byskov was responsible for the preparation of U.S. SEC and Canadian exchange filings and was responsible for the complete financial reporting cycle, among other duties. From 1994 to 2000, Mr. Byskov served as Vice President of Finance and Chief Financial Officer of Marsh Engineering Limited, a multi-facility group of project-oriented industrial service companies, engaged in precision machining, manufacturing, heavy equipment repair, instrumentation distribution and repair in the marine, power generation and other industrial sectors. Mr. Byskov received a Bachelors of Commerce with Honors from Carleton University, Ottawa, Ontario. He is a Certified Public Accountant and has been a member of the American Institute of Public Accountants since 2002. He is also a Chartered Accountant and has been a member of the Canadian Institute of Chartered Accountants since 1994.

\* Mr. Byskov has informed the Company that for personal reasons, he will be leaving his CFO position. The Company has hired an executive recruiting firm to retain a CFO. Mr. Byskov has committed to remain in the position through June 30, 2006 to help affect an orderly transition.

**Steven P. Chwiecko:** Mr. Chwiecko has more than 20 years of energy industry experience in development, acquisitions, asset management, financial structuring, consulting and project restructuring. Immediately before joining the Atlantic Power team he managed his own consulting practice and served as Chairman of the Audit Committee of National Energy & Gas Transmission's Board of Directors. Previously, as a Senior VP with El Paso Merchant Energy, he originated the Newark Bay (Cedar Brakes) acquisition and restructuring and co-originated the Eagle Point (UCF) acquisition and restructuring. Prior to El Paso, while Senior VP and CFO at Adirondack Hydro Development Corporation, he represented the New York independent hydro industry in the Master Restructuring Agreement with Niagara Mohawk Power Corp. This was a \$5+ billion landmark restructuring in the late 1990s of substantially all of Niagara's obligations with plants owned by non-regulated independent power producers. Mr. Chwiecko has a Bachelor of Science degree in Geology from St. Lawrence University, an MBA from Rochester Institute of Technology and is a former Certified Public Accountant (CPA).

### **Management Agreement**

The Manager has been engaged to provide or cause to be provided management and administrative services to Atlantic Holdings and its subsidiaries pursuant to the terms of the Management Agreement. These management and administrative services include: (i) representing Atlantic Holdings' interests in the Project Holding Entities and their subsidiaries and overseeing the operation of the Projects; (ii) assisting in the development, implementation and monitoring of strategic plans; (iii) assisting in developing an annual budget and an annual distributable cash forecast; (iv) assisting with treasury, legal and compliance, financing and risk assessment activities; (v) reviewing the budgets and schedules for major maintenance proposed for the Projects; (vi) assisting in the preparation of financial

reports in respect of the Projects and any future projects; (vii) assisting in the negotiation of material agreements; (viii) monitoring compliance with the annual budget, applicable laws and distributable cash forecast; (ix) assisting in and supervising the analysis of potential acquisitions, investments and dispositions; (x) carrying out or supervising the making of acquisitions, dispositions or investments; (xi) retaining accountants, lawyers, consultants, investment bankers and other such professional advisers; and (xii) assisting in the preparation, planning and coordination of meetings of the board of managers of Atlantic Holdings and holders of membership interests in Atlantic Holdings.

Under the Management Agreement, the Manager, if requested by the Company, has also agreed to provide certain administrative services to the Company including: (i) assisting the Company in complying with its continuous disclosure obligations under applicable securities legislation; (ii) providing or causing to be provided to holders of securities of the Company, all information to which they are entitled under the constating documents of the Company and the Indenture and applicable laws; (iii) monitoring compliance of the Company with applicable laws; (iv) advising on and negotiating any financings by the Company; (v) providing for the calculation and distribution of interest payments and distributions to holders of IPSs and the Separate Subordinated Notes; and (vi) assisting in the preparation, planning and coordination of meetings of the board of directors of the Company and holders of Common Shares of the Company.

Pursuant to the Management Agreement, a number of material actions may not be authorized by the Manager without first obtaining the approval of the managers of Atlantic Holdings or the board of directors of the Company, as applicable, including: (i) adopting, amending or materially deviating from annual business plans; (ii) taking any action by or on behalf of a Project Holding Entity, any subsidiary of a Project Holding Entity or any Project Operating Entity that may have a material impact on the annual distributable cash forecast; (iii) disposing of any material assets; and (iv) raising capital by way of an issuance of securities of Atlantic Holdings or the Company. Without the approval of a majority of the Atlantic Holdings managers who are independent of the Manager and its affiliates, the Manager, on behalf of Atlantic Holdings or the Company or a subsidiary or affiliate of Atlantic Holdings or the Company, may not (i) enter into any material transaction with the Manager or an affiliate of the Manager; or (ii) amend any existing material terms of the Management Agreement or fees payable thereunder.

In consideration for providing the management and administrative services under the Management Agreement, the Manager receives: (i) an annual management fee; (ii) payments representing cost reimbursement; and (iii) an incentive fee. The annual management fee is an amount equal to \$340,366 (a portion of which is paid by the Company), subject to adjustment for any future acquisitions or investments on the basis that the annual fee will increase by an amount agreed between the Manager and Atlantic Holdings, as approved by the managers of Atlantic Holdings who are independent of the Existing Investors and the Manager, taking into consideration the increased service levels required and the resource requirements imposed as a result of or created by such acquisition or investment. The annual fee is subject to adjustment for inflation and is payable monthly in advance on the first business day of each month. The Manager is entitled to be reimbursed for all out-of-pocket costs and expenses reasonably incurred by the Manager or its affiliates in carrying out the management and administrative services including reasonable allocations for charges incurred by the Manager for services provided by ArcLight pursuant to the agreement described below and for any other services provided by affiliates of the Manager (which charges are reimbursed on a cost recovery basis). The allocations for such charges are subject to the approval by the managers of Atlantic Holdings who are independent of the Existing Investors and the Manager, by way of either annual budget approval or specific authorization.

The incentive fee is designed to enhance the profitability and cash flow of Atlantic Holdings and thus, that of the Company. The Manager is entitled to an annual incentive fee equal to 25% of the product obtained by multiplying (i) the excess of the cash distributed per IPS (or, following the redemption, repurchase or maturity of all of the Subordinated Notes or separation of all of the IPSs, per Common Share) in any fiscal year over the Targeted Cash Distribution by (ii) the weighted average number of IPSs, Common Shares not represented by IPSs and Existing Investor Interests outstanding for the relevant

calendar year or part thereof, subject to customary anti-dilution provisions. The incentive fee will be adjusted in any given fiscal year to account for any period less than a full year during which the Manager provides services under the Management Agreement. The incentive fee will also be adjusted in various other circumstances, including certain events which affect the capital of the Company.

The Management Agreement has an initial 20-year term and will be automatically renewed for additional five-year terms unless, at least six months prior to the expiration of the then current term, a majority of the managers of Atlantic Holdings and the directors of the Company independent of the Existing Investors and the Manager determine that the Management Agreement will not be renewed and notify the Manager accordingly. Atlantic Holdings and the Company have the right to terminate the Management Agreement earlier in circumstances of: (i) bankruptcy, insolvency or receivership of the Manager; (ii) fraud, wilful default or gross negligence committed by the Manager; or (iii) default by the Manager in the performance of a material obligation under the Management Agreement, if (1) such default is not caused by an event of force majeure, and (2) such default is not cured within 60 days of written notice being given by Atlantic Holdings to the Manager of the default or if such default is not reasonably capable of being cured within 60 days, the Manager has not taken all reasonable steps to cure such default as soon as possible thereafter but in any event within 120 days. The Manager has the right to terminate the Management Agreement earlier (i) in the event of (1) the bankruptcy, insolvency or receivership of Atlantic Holdings or the Company, or (2) a default by Atlantic Holdings or the Company in the performance of a material obligation under the Management Agreement (other than as a result of the occurrence of a force majeure event) which is not remedied within 60 days after notice thereof has been delivered, or if such default is not reasonably capable of being cured within 60 days, Atlantic Holdings or the Company has not taken all reasonable steps to cure such default as soon as possible thereafter but in any event within 120 days; or (ii) upon 90 days' prior written notice to Atlantic Holdings or the Company.

Atlantic Holdings or the Company may terminate the Management Agreement upon 90 days' prior written notice if: (i) while Atlantic Power Management Holdings, LLC ("APM") owns the Manager, ArcLight should cease to be the manager of the members of APM; or (ii) APM sells the Manager and ArcLight ceases to have a significant influence over the operation of the Manager, without, in either case, the prior written consent of the managers of Atlantic Holdings and the directors of the Company who are independent of the Existing Investors and the Manager, which consents shall not be unreasonably withheld.

No party shall sell or assign its rights or obligations under the Management Agreement to a third party without the prior written consent of the other parties, which consent may not be unreasonably withheld (unless the assignee is not a reputable and experienced manager), except (i) in the case of Atlantic Holdings or the Company, to a bona fide lender as security, including as security for any guarantee granted by Atlantic Holdings or the Company in respect of the obligations of its affiliates to any third party or parties providing bona fide financing to such affiliates; or (ii) in the case of the Manager, to a direct or indirect wholly-owned subsidiary of the Existing Investors or their affiliates.

The Manager may delegate certain aspects of its responsibilities under the Management Agreement, but no such delegation will relieve the Manager of its obligations thereunder. The Manager may, with the approval of the directors of the Company and the managers of Atlantic Holdings who are independent of the Existing Investors and the Manager, contract with affiliates to provide services to the Company and Atlantic Holdings not otherwise provided for in the Management Agreement, such as advisory and investment banking services.

The Manager and any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager shall be indemnified and saved harmless by Atlantic Holdings and the Company from and against all losses, claims, damages, liabilities, obligations, costs and expenses (including judgments, fines, penalties, amounts paid in settlement and counsel and accountants' fees) of whatsoever kind or nature incurred by, borne by or asserted against the Manager and

any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager, in any way arising from or related in any manner to the Management Agreement, unless such claims arise from the fraud, wilful default or gross negligence of the Manager or any person who is serving or shall have served as a director, manager, officer, employee, subcontractor, secondee or agent of the Manager. The Manager and its affiliates and associates may rely on information provided by Atlantic Holdings, the Company or any employee or agent thereof unless it has actual notice that such information is inaccurate.

The Manager and ArcLight have entered into an agreement (the "Management Support Agreement") which provides that certain ArcLight employees will be available to provide administrative and office support services to the Manager and that ArcLight employees may be seconded to the Manager from time to time as appropriate to enable the Manager to fulfill its responsibilities under the Management Agreement. Services and resources provided by ArcLight under the Management Support Agreement will be provided to the Manager on a cost recovery basis. The Management Support Agreement requires ArcLight and its affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for Fund I, Fund II or other investment funds managed by ArcLight or its affiliates or that do fit within such investment guidelines but which such investment funds determine not to pursue.

#### **Non-Exclusivity and Conflicts of Interest**

Barry Welch, the President and Chief Executive Officer of the Manager, Mark Byskov, the Chief Financial Officer and Corporate Secretary of the Manager, and Steven Chwiecko, the Managing Director – Asset Management and Acquisitions, are full-time employees of the Manager and devote their time and efforts exclusively to and for the benefit of the business of Atlantic Holdings and the Company. ArcLight and its affiliates and their employees or agents may be engaged or invest directly or indirectly in a variety of other companies or other entities involved in owning, managing or advising on or otherwise engaged in the business of the generation, production, transmission, distribution, purchase and sale of electricity, other forms of energy-related projects, infrastructure projects, utility projects or other businesses.

Affiliates of ArcLight currently act, and may hereafter act, as managers to investment funds whose investment criteria encompass investments in power generation facilities in Canada and the U.S. In particular, an affiliate of ArcLight is the general partner of Fund I and Fund II, which invest in power generation, transmission and distribution assets as well as power-related fuel, services and equipment businesses, primarily in the United States. Existing and future agreements governing investment funds managed by affiliates of ArcLight, including the agreements governing Fund I and Fund II, require, and are expected to require in the case of future agreements, that suitable investments for such investment funds identified by ArcLight first be offered to the investment funds. The Management Support Agreement requires that ArcLight and its affiliates give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for Fund I, Fund II or other investment funds managed by ArcLight or its affiliates or that do fit within such investment guidelines but which such investment funds determine not to pursue. None of ArcLight or its affiliates are prohibited by any agreement with Atlantic Holdings or the Company from competing with Atlantic Holdings or the Company, or from acquiring, investing in, or providing administrative or managerial services to, a competitor of Atlantic Holdings or the Company.

#### **AUDIT COMMITTEE**

The Company has established an audit committee comprised of three directors: Ken Hartwick (Chair), Irving Gerstein and John McNeil, each of whom is considered "independent" and "financially literate" within the meaning of Multilateral Instrument 52-110 – Audit Committees. The audit committee is responsible for the oversight and supervision of the accounting and financial reporting practices and procedures of the Company, the adequacy of internal accounting controls and procedures and the quality and integrity of financial statements of the Company. The independent auditors of the Company report

directly to the audit committee. In addition, the audit committee is responsible for directing the auditors' examination of specific areas and for recommending to the board of directors the selection of independent auditors of the Company. The charter of the audit committee is attached hereto as Appendix "A".

**Relevant Education and Experience of Audit Committee Members**

In addition to each member's general business experience, the education and experience of each audit committee member that is relevant to the performance of his responsibilities as an audit committee member is set forth in their respective biographies above under "Directors, Officers and Management".

**External Auditor Service Fees**

During the year ended December 31, 2005, the Company retained its principal accountant, KPMG LLP, to provide services in the categories and for the approximate amounts that follow:

	<u>2005</u>
Audit fees.....	Cdn \$840,200
• Atlantic Corporate	Cdn \$485,000
• Project Partnerships	355,200
Tax fees.....	171,700
Other.....	63,652

The nature of each category of fees is described below.

***Tax Fees***

Tax fees were paid for tax compliance services and tax advice and planning, including preparation of U.S. federal and state and Canadian federal and provincial tax returns and supporting schedules, as well as information forms.

***Other***

Other includes Cdn \$31,152 in connection with the October 2005 private placement of IPSs and Cdn \$32,500 in French translation services.

**Pre-Approval Policies and Procedures**

The Company's audit committee has adopted specific policies and procedures for the engagement of non-audit services. The policies and procedures for such engagement are set out in the audit committee's charter attached hereto as Appendix "A".

**Audit Committee Oversight**

At no time since the commencement of the Company's most recently completed financial year has a recommendation of the audit committee to nominate or compensate an external auditor not been adopted by the board of directors of the Company.

**PROMOTERS**

The Existing Investors are considered to be promoters of the Company by reason of their initiative in organizing the business and affairs of the Company. The Existing Investors own 26,491,865 common membership interests and 18,952,365 Class B preferred membership interests in Atlantic

Holdings, representing 29.9% of the common membership interests and all of the Class B preferred membership interests in Atlantic Holdings, respectively.

Upon completion of the initial public offering of IPSs and private placement of Separate Subordinated Notes on November 18, 2004, the Company, through Atlantic Holdings, completed the acquisition of all of the outstanding membership interests in the Project Holdings Entities from the Existing Investors. The Project Holding Entities in turn collectively hold interests in the Projects. See "General Development of the Business".

The Existing Investors are organized under the laws of a foreign jurisdiction and reside outside Canada. Although the promoters have appointed the Company, 355 Burrard Street, Suite 1900, Vancouver, British Columbia, V6C 2G8 as their agent for service of process in British Columbia, it may not be possible for investors to collect from the promoters judgments obtained in Canada predicated on the civil liability provisions of securities legislation of certain of the provinces and territories of Canada.

### **LEGAL PROCEEDINGS**

In the ordinary course of business, the Company and its subsidiaries and each Project Operating Entity may, from time to time, be subject to various pending and threatened lawsuits in which claims for monetary damages are asserted. To the knowledge of the Company, none of the Company or its subsidiaries or any Project Operating Entity is involved in any legal proceeding which is expected to have a material effect on the Company and no legal proceedings of a material nature are pending or to the knowledge of the Company threatened against the Company or its subsidiaries or any Project Operating Entity.

### **INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS**

To the knowledge of the Company, except as may be described elsewhere in this annual information form, no director, manager or executive officer of the Company or any of its subsidiaries, no executive officer of the Manager, no person or company that is the director or indirect beneficial owner of, or who exercises control or direction over, more than 10% of any class or series of the outstanding voting securities of the Company and no associate or affiliate of any of the foregoing persons or companies, has or has had any material interest, direct or indirect, in any transaction that has materially affected or will materially affect the Company since the closing of the Company's initial public offering on November 18, 2004.

### **TRANSFER AGENT AND REGISTRAR**

The transfer agent and registrar for the IPSs and the Common Shares is Computershare Investor Services Inc. at its principal office in Toronto, Ontario.

### **MATERIAL CONTRACTS**

The only material contracts, other than contracts entered into in the ordinary course of business, that were entered into within the financial year ended December 31, 2005, or prior to the year ended December 31, 2005 but which are still in effect, by the Company and/or Atlantic Holdings are as follows:

- the Acquisition Agreements;
- the Indenture;
- the Operating Agreement;
- the Management Agreement; and

- the Credit Facility.

See the "Glossary of Terms" for particulars of these contracts. These contracts can be found on SEDAR at [www.sedar.com](http://www.sedar.com). Copies of these agreements may also be examined at the head and principal office of the Company during normal business hours.

#### **INTERESTS OF EXPERTS**

KPMG LLP, the auditor of the Company, has been named as having prepared or certified a statement, report or valuation described or included in a filing, or referred to in a filing, made under National Instrument 51-102 – *Continuous Disclosure Obligations* by the Company during, or relating to, the Company's financial year ended December 31, 2005. To the knowledge of the Company, KPMG LLP holds no registered or beneficial interest, directly or indirectly, in any securities or other property of the Company or any of its associates or affiliates.

#### **ADDITIONAL INFORMATION**

Additional information relating to the Company may be found on SEDAR at [www.sedar.com](http://www.sedar.com).

Additional information, including principal holders of the Company's securities, is contained in the Company's information circular relating to the 2006 annual meeting of shareholders of the Company. Additional financial information is provided in the Company's financial statements and management's discussion and analysis for the year ended December 31, 2005.

## APPENDIX "A"

### ATLANTIC POWER CORPORATION

#### AUDIT COMMITTEE

#### CHARTER

The Audit Committee (the "Committee") of Atlantic Power Corporation (the "Company") is established in order to assist the board of directors of the Company in their oversight activities. The purpose of the Committee is to assist the board in its oversight and supervision of:

- the integrity of the Company's accounting and financial reporting practices and procedures,
- the adequacy of the Company's internal accounting controls and procedures,
- the quality and integrity of the Company's consolidated financial statements, and
- the independence and performance of the Company's independent auditor.

#### Composition:

- The board of directors of the Company shall elect annually from among its members a committee to be known as the Audit Committee to be composed of three directors who are "unrelated" directors (within the meaning of the Toronto Stock Exchange corporate governance guidelines), who qualify as "independent directors" within the meaning of Multilateral Instrument 52-110 – Audit Committees (the "Audit Committee Rule") and each of whom is "financially literate" (or will become so within a reasonable period of time following his or her appointment) within the meaning of the Audit Committee Rule.
- A member of the Committee who sits on the board of directors/managers of an affiliated entity is exempt from the requirement that he or she be independent if that member, except for being a director/manager (or member of a board committee) of the Company and the affiliated entity, is otherwise independent of the Company and the affiliated entity, provided that the boards have determined that appointing such member to the Committee will not materially adversely affect the ability of the Committee to act independently.
- If a member of the Committee ceases to be independent for reasons outside that member's reasonable control, that member is exempt from the requirement to be independent for a period ending on the later of:
  - (a) the next annual meeting of the Company; and
  - (b) the date that is six months from the occurrence of the event which caused the member to not be independent,provided that the board of directors has determined that appointing such member to the Committee will not materially adversely affect the ability of the Committee to act independently.
- Where the death, disability or resignation of a member of the Committee has resulted in a vacancy on the Committee that the boards are required to fill, a member appointed to fill such vacancy is exempt from the requirements to be independent and financially literate for a period ending on the later of:
  - (a) the next annual meeting of the Company; and
  - (b) the date that is six months from the day the vacancy was created,

provided that the board of directors has determined that appointing such member to the Committee will not materially adversely affect the ability of the Committee to act independently.

**Reports:**

The Committee shall report to the board of directors of the Company on a regular basis and, in any event, before the public disclosure by the Company of its quarterly and annual financial results. The reports of the Committee shall include any issues of which the Committee is aware with respect to the quality or integrity of the Company's consolidated financial statements, its compliance with legal or regulatory requirements, and the independence and performance of the Company's independent auditor.

**Responsibilities:**

Subject to the powers and duties of the board of directors of the Company, the board hereby delegates to the Committee the following powers and duties to be performed by the Committee on behalf of and for the board of directors of the Company:

**A. Financial Statements and Other Financial Information**

The Committee shall:

- (i) review the Company's consolidated annual audited financial statements and related documents prior to any public disclosure of such information;
- (ii) review the Company's consolidated interim unaudited financial statements and related documents prior to any public disclosure of such information;
- (iii) following a review with management and the independent auditor of such annual and interim consolidated financial statements and related documents, recommend to the board of directors of the Company the approval of such financial statements and related documents;
- (iv) review with management and/or the independent auditor all critical policies and practices used as well as significant management estimates and judgements and any changes in accounting policies or financial reporting requirements that may affect the Company's consolidated financial statements;
- (v) review with management and/or the independent auditor the treatment in the financial statements of any significant transactions and other potentially difficult matters;
- (vi) conduct an annual and semi-annual review of the expenses of the Manager and the Company;
- (vii) review a summary provided by the Company's legal counsel of the status of any material pending or threatened litigation, claims and assessments respecting the Company and its subsidiaries; and
- (viii) review the other annual financial reporting documents as well as management's discussion and analysis and earnings press releases of the Company prior to any disclosure to the public.

**B. Financial Reporting Control Systems**

The Committee shall:

- (i) require management to implement and maintain appropriate internal controls, and use reasonable efforts to satisfy itself as to the adequacy of the Company's policies for the management of risk and the preservation of assets and the fulfillment of legislative and regulatory requirements

- (ii) annually, in consultation with management, the independent auditor and, if applicable, the officer or employee responsible for the internal audit function, review, evaluate and assess the adequacy and integrity of the Company's consolidated financial reporting processes and internal controls, and discuss significant financial risk, exposures and the steps management has taken to monitor, control and report such exposures;
- (iii) if applicable, meet separately with the officer or employee responsible for the internal audit function to discuss any matters that the Committee or independent auditor believe should be discussed in private;
- (iv) submit to the board of directors of the Company and the boards of directors/managers of its subsidiaries any recommendations the Committee may have from time to time with respect to financial reporting, accounting procedures and policies and internal controls;
- (v) review reports from senior officers of the Company and its subsidiaries outlining any significant changes in financial risks facing the Company;
- (vi) review the management letter of the independent auditor and the responses to suggestions made;
- (vii) review any new appointments to senior positions of the Company, its subsidiaries and Atlantic Power Management, LLC with financial reporting responsibilities (such review may be carried out by the Chairman of the Committee);
- (viii) satisfy itself that adequate procedures are in place for the review of the Company's disclosure of the Company's financial information extracted or derived from the Company's consolidated financial statements (other than the financial statements, management's discussion and analysis and earnings press releases) and periodically assess the adequacy of those procedures;
- (ix) establish procedures for:
  - (a) the receipt, retention and treatment of complaints received by the Company or its subsidiaries regarding accounting, internal accounting controls or auditing matters; and
  - (b) the confidential, anonymous submission by employees of the Company or its subsidiaries of concerns regarding questionable accounting or auditing matters;
- (x) review and approve the Company's (and its respective subsidiaries') hiring policies regarding partners, employees and former partners and employees of the present and former independent auditors of the Company; and
- (xi) obtain assurance from the independent auditor regarding the overall control environment and the adequacy of accounting system controls.

### **C. Independent Auditor**

The Committee shall:

- (i) review the audit plan with the independent auditor;
- (ii) discuss in private with the independent auditor matters affecting the conduct of its audit and other corporate matters;
- (iii) review the performance and the remuneration of the Company's independent auditor;

- (iv) recommend to the board of directors of the Company each year the retention or replacement of the independent auditor to be nominated for the purpose of preparing or issuing an auditor's report or performing other audit, review or attest services for the Company and the remuneration of the independent auditor;
- (v) if there is a plan to change the independent auditor, review all issues related to the change and the steps planned for an orderly transition;
- (vi) annually review and recommend for approval to the shareholders the terms of engagement and the remuneration of the independent auditor;
- (vii) oversee the work of the independent auditor engaged for the purpose of preparing or issuing an auditor's report or performing other audit, review or attest services for the Company, including the resolution of disagreements between management and the independent auditor regarding financial reporting;
- (viii) discuss with the Company's independent auditor the quality and not just the acceptability of the Company's accounting principles;
- (ix) meet with the Company's independent auditor on a regular basis in the absence of management;
- (x) relay its expectations to the Company's independent auditor from time to time including its expectation that (i) any disagreements of a material nature with management be brought to the attention of the Committee, (ii) the independent auditor is accountable to the Committee and the board, each as representatives of the shareholders and must report directly to the Committee, (iii) any irregularities in the financial information be reported to the Committee, (iv) the independent auditor explains the process undertaken by it in auditing or reviewing the Company's financial disclosure, (v) the independent auditor discloses to the Committee any significant changes to accounting policies or treatment of the Company, (vi) the independent auditor discloses to the Committee any reservations it may have about the financial statements or its access to materials and/or persons in reviewing or auditing such statements, and (vii) the independent auditor discloses any conflict of interest that may arise in its engagement;
- (xi) review at least annually the non-audit services provided by the Company's independent auditor for the purposes of getting assurance that the performance of such services will not compromise the independence of the independent auditor; and
- (xii) pre-approve all non-audit services to be provided to the Company or its subsidiary entities by its independent auditor or the independent auditor of its subsidiary entities,<sup>1</sup> provided that the Committee may delegate to one or more independent members the authority to pre-approve non-audit services in satisfaction of this requirement. The pre-approval of non-audit services by any member to whom authority has been delegated must be presented to the full Committee at its first scheduled meeting following such pre-approval.

---

<sup>1</sup> The Committee may satisfy the pre-approval requirement if: (a) the aggregate amount of all the non-audit services that were not pre-approved is reasonably expected to constitute no more than five per cent of the total amount of fees paid by the Company and its subsidiary entities to the Company's independent auditor during the fiscal year in which the services are provided; (b) the services were not recognized by the Company or the subsidiary entity of the Company at the time of the engagement to be non-audit services; and (c) the services are promptly brought to the attention of the Committee and approved, prior to the completion of the audit, by the Committee or by one or more members of the Committee to whom authority to grant such approvals has been delegated by the Committee.

**Structure:**

- The Committee shall appoint one of its members to act as Chairman of the Committee. The Chairman will appoint a secretary who will keep minutes of all meetings (the “Secretary”). The Secretary does not have to be a member of the Committee or a director and can be changed by simple notice from the Chairman.
- The Committee will meet as many times as is necessary to carry out its responsibilities but in no event will the Committee meet less than once a year. Meetings will be at the call of the Chairman. Notwithstanding the foregoing, the independent auditor of the Company or any member of the Committee may call a meeting of the Committee on not less than 48 hours’ notice.
- No business may be transacted by the Committee except at a meeting of its members at which a quorum of the Committee is present or by a resolution in writing signed by all the members of the Committee. A majority of the members of the Committee shall constitute a quorum provided that if the number of members of the Committee is an even number one half of the number of members plus one shall constitute a quorum.
- Any member of the Committee may be removed or replaced at any time by the board of directors of the Company and shall cease to be a member of the Committee as soon as such member ceases to be a director. Subject to the foregoing, each member of the Committee shall hold such office until the next annual meeting of shareholders after his or her election as a member of the Committee.
- The independent auditor of the Company shall be entitled to receive notice of every meeting of the Committee and, at the expense of the Company, to attend and be heard thereat.
- The time at which and the place where the meetings of the Committee shall be held, the calling of meetings and the procedure in all respects of such meeting shall be determined by the Committee, or otherwise determined by resolution of the board of directors.
- The members of the Committee shall be entitled to receive such remuneration for acting as members of the Committee as the board of directors may from time to time determine.

**Independent Advice:**

In discharging its mandate the Committee shall have the authority to retain and receive advice from special legal, accounting or other advisors.

**Annual Evaluation:**

At least annually, the Committee shall, in a manner it determines to be appropriate:

- Perform a review and evaluation of the performance of the Committee and its members, including the compliance of the Committee with its terms of reference.
- Review and assess the adequacy of its terms of reference and recommend to the board of directors of the Company any improvements to its terms of reference that the Committee determines to be appropriate.

**Limitation:**

Nothing in this charter is intended to or shall have the effect of limiting or impairing the independent decision making authority or responsibility of any board of directors/managers of a subsidiary of the Company mandated by applicable law.

**Definitions:**

“**financially literate**” means the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Company’s consolidated financial statements.

“**independent director**” means a director who has no direct or indirect material relationship with the Company.<sup>2</sup>

“**material relationship**”<sup>3</sup> means a relationship which could, in the view of the board of directors of the Company, be reasonably expected to interfere with the exercise of a member’s independent judgement. Without limiting the generality of the foregoing, the following individuals are considered to have a material relationship with the Company:<sup>4</sup>

- (a) an individual who is, or has been within the last three years, an employee or executive officer<sup>5</sup> of the Company;
- (b) an individual whose immediate family member is, or has been within the last three years, an executive officer of the Company;
- (c) an individual who:
  - (i) is a partner<sup>6</sup> of a firm that is the Company’s internal or external auditor,
  - (ii) is an employee of that firm, or
  - (iii) was within the last three years a partner or employee of that firm and personally worked on the Company’s audit within that time;
- (d) an individual whose spouse, minor child or stepchild, or child or stepchild who shares a home with the individual:
  - (i) is a partner of a firm that is the Company’s internal or external auditor,
  - (ii) is an employee of that firm and participates in its audit, assurance or tax compliance (but not tax planning) practice, or
  - (iii) was within the last three years a partner or employee of that firm and personally worked on the Company’s audit within that time;

---

<sup>2</sup> For the purpose of the definitions of “independent director” and “material relationship” in this section, “Company” includes a subsidiary entity of the Company and a parent of the Company as applicable.

<sup>3</sup> This definition is based on proposed amendment to the Audit Committee Rule (the “**Proposed Amendments**”). Comments on the Proposed Amendments have been requested by January 27, 2005. We do not anticipate that the final amendments to the Audit Committee Rule will be any more rigorous than the Proposed Amendments.

<sup>4</sup> An individual will not be considered to have a material relationship with the Company solely because he or she had a relationship identified in this definition if that relationship ended before March 30, 2004. An individual will not be considered to have a material relationship with the Company solely because the individual or his or her immediate family member has previously acted as an interim chief executive officer of the Company or acts, or has previously acted, as a chair or vice-chair of the board of directors or of any board committee of the Company on a part-time basis.

<sup>5</sup> An “executive officer” includes any individual who performs a policy-making function in respect of the entity.

<sup>6</sup> A partner does not include a fixed income partner whose interest in the firm that is the internal or external auditor is limited to the receipt of fixed amounts of compensation (including deferred compensation) for prior service with that firm if the compensation is not contingent in any way on continued service.

- (e) an individual who, or whose immediate family member, is or has been within the last three years, an executive officer of an entity if any of the Company's current executive officers serves or served at that same time on the entity's compensation committee; and
- (f) an individual who received, or whose immediate family member who is employed as an executive officer of the Company received, more than \$75,000 in direct compensation<sup>7</sup> from the Company during any 12 month period within the last three years.<sup>8</sup>

**"unrelated director"** means a director who is independent of management and is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act with a view to the best interests of the Company, other than interests and relationships arising from holding securities.

---

<sup>7</sup> Direct compensation does not include: (a) remuneration for acting as a member of the board of directors or of any board committee of the Company; and (b) the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with the Company if the compensation is not contingent in any way on continued service.

<sup>8</sup> An individual who: (a) has a relationship with the Company pursuant to which the individual may accept, directly or indirectly, any consulting, advisory or other compensatory fee from the Company or any subsidiary entity of the Company, other than as remuneration for acting in his or her capacity as a member of the board of directors or any board committee, or as a part-time chair or vice-chair of the board or any board committee; or (b) is an affiliated entity of the Company or any of its subsidiary entities, is considered to have a material relationship with the Company. The indirect acceptance by an individual of any consulting, advisory or other compensatory fee includes acceptance of a fee by: (a) an individual's spouse, minor child or stepchild, or a child or stepchild who shares the individual's home; or (b) an entity in which such individual is a partner, member, an officer such as a managing director occupying a comparable position or executive officer, or occupies a similar position (except limited partners, non-managing members and those occupying similar positions who, in each case, have no active role in providing services to the entity) and which provides accounting, consulting, legal, investment banking or financial advisory services to the Company or any subsidiary entity of the Company. Compensatory fees do not include the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with the Company if the compensation is not contingent in any way on continued service.

NEWS RELEASE

FOR: **ATLANTIC POWER CORPORATION**

TSX SYMBOL: **ATP.UN**

January 3, 2006

**Atlantic Power Announces New Power Purchase Agreement at Rumford  
Cogeneration Facility**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power”) announced today that the Rumford Cogeneration Company Limited Partnership (the “Partnership”), the owner of the Rumford cogeneration facility (the “Project”), has executed a one-year interim electric energy sales agreement (the “New PPA”) with the Rumford Paper Company (the “Paper Company”). Atlantic Power Holdings, LLC (“Holdings”) owns an indirect 26% limited partnership interest (estimated 23.2% economic interest) in the Partnership.

The Rumford Project is a nominal 85 MW coal and waste wood-fired cogeneration facility located in Rumford, Maine. The Project previously sold all of its power output under a power purchase agreement (“PPA”) with Central Maine Power (“CMP”) which expired on December 31, 2005, and continues to sell its steam output to the adjacent Rumford Paper Company, which is owned by NewPage Corporation. Under the New PPA, the Partnership will also sell all of the Project’s power output to the Rumford Paper Company at spot market prices, while retaining any benefits that may be generated by sales of capacity or ancillary services, or environmental credits.

Revenue that might be generated by the New PPA can be estimated using the published NYMEX settlement prices for electricity at the New England hub adjusted based on the Project’s location. In late December, 2005, the average of 2006 monthly settlement prices adjusted this way was approximately US\$93 per MWh, though these prices have followed a decreasing trend through December. Based on a somewhat lower price assumption for 2006 electricity revenues than the most recently settled forward prices, along with current estimates of the Project’s 2006 operating, maintenance and administrative costs, the Partnership could distribute approximately US\$6 million to Holdings in 2006. This estimate is highly dependent upon, among other things, actual spot electricity prices in the region as discussed further below. At the time of Atlantic Power’s initial public offering, no distributions from Rumford to Holdings were expected in 2006 due to significantly lower power prices projected at that time.

“This new agreement is an excellent example of how we are managing PPA expirations and adding incremental cash flow by leveraging our solid asset base and significant

experience in the industry for the benefit of our investors. We are very pleased with the new agreement." stated Barry Welch, President and CEO.

When used in this news release, the words "anticipate", "expect", "estimate", "project", "believe", "management estimates", "forecast" and similar expressions identify forward-looking statements with regard to the expected impact of the New PPA. Such statements are subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions. In particular, the possible cash distributions from the Partnership for 2006 assume that the Rumford Project does not experience any operating difficulties during 2006, its operating and administrative costs remain as projected, and it is able to continue producing electricity at historical levels. In addition, the cash distributions from the Rumford Project will vary based on the New England spot market prices, which are primarily driven by natural gas prices that have been extremely volatile over the past year. Changes in the price of natural gas could have a material effect on the spot price of power in New England and therefore on the cash flows allocable to Atlantic Power from the Rumford Project. The forward-looking statements contained in this news release represent our expectations as of January 3, 2006 and, accordingly, are subject to change after such date. Except as required by applicable law, we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Atlantic Power Corporation owns interests in a diversified portfolio of sixteen power generation projects located primarily in major markets in the United States. Atlantic Power's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

#### **About Atlantic Power**

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects located primarily in major markets in the United States. **Atlantic Power Announces Sale of its indirect Interest in the MASSPOWER Facility**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power”) announced today that it has completed the sale of its indirect interest in the MASSPOWER facility.

MASSPOWER is a 240 MW natural gas-fired power plant located in the Springfield, MA area. The project formerly sold most of its output under four power purchase agreements (“PPAs”) to several regional utilities. The three largest PPAs were terminated in March 2005 in exchange for payments from the utilities. Since that time the plant has been operating largely as a merchant facility. Atlantic Power Holdings, LLC (“Holdings”) held an indirect 17.5% interest in MASSPOWER.

On December 28, 2005, the partners of MASSPOWER sold all of their interests in the facility to Silver Ship MP Partners, LLC. As a result of the closing of the sale, Holdings received final cash distributions from the project of approximately US\$14.5 million. Proceeds will be used to pay down Holdings’ revolving credit facility. The cash distributions were comprised of proceeds reserved from both the PPA termination payments in March and the subsequent sale of fuel supply and transport agreements associated with those PPAs, operating cash flow, and proceeds from the sale of the facility.

“We are very pleased with the results of the sale process,” commented Barry Welch, President and CEO. “The cash generated from this asset exceeded our expectations and was significantly higher than that anticipated at the time of our initial public offering.”

The former partners of MASSPOWER have formed Indian Orchard Holdings, LLC (“Indian Orchard”) to hold a portion of the sale proceeds beyond what was distributed. Holdings now owns a 17.5% interest in Indian Orchard. Holdings is indirectly indemnified by the buyer of the Project for any liability greater than its portion of Indian Orchard’s escrowed cash that might arise from a lawsuit previously filed by MASSPOWER’s remaining power purchaser and discussed in Atlantic Power’s MD&A for the nine-months ended September 30, 2005.

Atlantic Power Corporation owns interests in a diversified portfolio of fifteen power generation projects located primarily in major markets in the United States. The Company's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

#### **About Atlantic Power**

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects located primarily in major markets in the United States. Atlantic Power's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

**Atlantic Power Corporation Announces December 2005 Distribution**

TORONTO, ONTARIO – Atlantic Power Corporation (TSX:ATP.UN) (the “Company”) today announced its distribution for the month of December 2005. A distribution of \$0.0859 per Income Participating Security (“IPS”) will be payable on January 31, 2006 to holders of record at the close of business on December 30, 2005.

Each of the Company’s Income Participating Securities is comprised of one common share and \$5.767 aggregate principal amount of 11% subordinated notes. The total distribution of \$0.0859 reflects a cash dividend per common share of \$0.0330 and an interest payment of \$0.0529 for the month of December 2005.

Atlantic Power Corporation owns interests in a diversified portfolio of 16 power generation projects located primarily in major markets in the United States. Atlantic Power’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

**Atlantic Power  
Corporation**

RECEIVED  
OCT 18 AM 11:47  
ASST. SEC. OF STATE  
BUSINESS ACQUISITION

**Form 51-102F4  
Business Acquisition Report**

**ITEM 1 IDENTITY OF COMPANY**

**1.1 Name and Address of Company**

Atlantic Power Corporation or (the "Company")  
355 Burrard Street  
Suite 1900  
Vancouver  
British Columbia, V6C 2G8

**1.2 Executive Officer**

The name of the executive officer of Atlantic Power Management LLC, the Manager of the Company who is knowledgeable about the significant acquisition and this report is Barry E. Welch, President and Chief Executive Officer and his business telephone number is 617-531-6377.

**ITEM 2 DETAILS OF ACQUISITION**

**2.1 Nature of Business Acquired**

On September 8, 2005, Atlantic Power Holdings, LLC, ("Holdings") in which the Company had a 58.1% interest at the time of the acquisition, acquired Epsilon Power Partners, LLC ("Epsilon") for a total consideration of US\$105.75 million before closing adjustments (the "Acquisition").

Epsilon owns a 40% equity interest in Chambers Cogeneration, LP ("Chambers"), the owner and operator of a net 262 MW pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's ("DuPont") Chambers Works complex in southwestern New Jersey. The facility acquired is one of the projects in which Holdings was granted a right of first offer by ArcLight Energy Partners Fund I, L.P. ("ArcLight") at the time of the Company's initial public offering in November 2004. The partners of Epsilon were subsidiaries of ArcLight and Delta Power Company, LLC ("Delta").

Chambers produces electricity for sale to Atlantic City Electric Company (“ACE”) under a PPA through 2024, and electricity and steam to DuPont for use in its industrial operations, also through 2024. Chambers began commercial operations 1994.

The plant has demonstrated an excellent operating history over the last ten years and is managed by a highly experienced operator. Chambers utilizes best available environmental control technologies (“BACT”) to reduce emissions, including scrubbers for SO<sub>x</sub>, a baghouse for particulates, and selective catalytic reduction for NO<sub>x</sub>. The facility is a member of the U.S. EPA National Environmental Performance Track, a program that recognizes and rewards top environmental performers.

A more detailed description of the plant, its partners, contracts and financing is contained in Appendix A. Still more detailed information, including cash flow projections, is available on SEDAR in a report prepared by Stone & Webster.

## **2.2 Date of Acquisition**

September 8, 2005

## **2.3 Consideration**

The equity purchase price was approximately US\$62.75 million and was funded by cash on hand and a US\$25 million draw on Holdings’ revolving credit facility. At the time of the acquisition, Epsilon had approximately US\$43 million of debt outstanding that will be non-recourse to Holdings, making the total purchase price approximately US\$105.75 million.

## **2.4 Effect on Financial Position**

N/A

## **2.5 Prior Valuations**

Not applicable

## **2.6 Parties to Transaction**

Epsilon was acquired from subsidiaries of ArcLight and Delta. At the time of the acquisition, ArcLight was the indirect owner of a 58.1% interest in Holdings and therefore was an informed person of the Company under National Instrument -51-102 – continuous disclosure

**2.7 Date of Report**

November 21, 2005

**ITEM 3 FINANCIAL STATEMENTS**

The unaudited pro forma consolidated income statement of the Company for the six-week period ending December 31, 2004 and the nine month period ending September 30, 2005 are attached as Schedule A to this Report. The audited annual consolidated financial statements for the year ended December 31, 2004 of Epsilon are attached as Schedule B. The unaudited interim financial statements for the three and six month periods ended June 30, 2005 of Epsilon are attached as Schedule C.

## Appendix A

### CHAMBERS GENERAL PLANT DETAILS

#### OVERVIEW

Chambers is a 240 MW pulverized-coal cogeneration facility located on the Delaware River in Carneys Point Township, New Jersey. The plant is located within the grounds of the DuPont Chambers Works. The plant can contractually provide up to 187.6 MW to ACE and up to 40 MW to DuPont. It can also contractually supply up to one million pounds of steam per hour to DuPont. Excess power is sold to ACE under a separate short-term contract.

#### PROJECT OWNERSHIP

Peregrine Power Corporation (50% general partner interest), an affiliate of Goldman Sachs; Epsilon Power Partners, LLC, an affiliate of the Company (40% limited partner interest); and Cogentrix/Carney's Point, Inc. (10% general partner interest), an indirect wholly-owned subsidiary of Cogentrix Energy Inc. which is also an affiliate of Goldman Sachs, are partners in Chambers.

#### TECHNOLOGY

Chambers consists of two 1,200,000 pph, 1,800 psig pulverized coal-fired boilers; a single controlled extraction non-reheat steam turbine generator; lime spray dryer absorber for SO<sub>2</sub> control, fabric filter baghouse for particulate control, and a selective catalytic reduction system for NO<sub>x</sub> reduction.

#### ELECTRICITY SALES

##### Atlantic City Electric PPA

ACE entered into a 30-year PPA with Chambers (the "ACE PPA"). This contract expires in 2024. Under the ACE PPA, Chambers provides 187.6 MW of capacity to ACE during the summer (May through October) and 173.2 MW during the winter (November through April).

The monthly capacity payment is equal to net deliverable capacity multiplied by a fixed capacity price (not escalated) multiplied by the availability factor. The net deliverable capacity of the facility is capped at a capacity level of 184 MW for purposes of the capacity payment. Chambers is nominally rated at 262 MW.

The price for energy sold under the ACE PPA consists of a fixed rate component and an escalating rate component for both on-peak and off-peak energy. The base escalator for the escalating rate is the relative change in the average annual price of coal

delivered to New Jersey utilities, as reported on FERC Form 423. Chambers and ACE are current negotiating the implementation of a replacement index which should more closely track the index used under the project's coal purchase agreement.

ACE is obligated to purchase a minimum dispatch equivalent of at least 3,500 hours of full load operation per calendar year, with a minimum of 58% of those hours during on-peak hours, or to pay for an equivalent amount of energy reduced by variable operating costs.

#### DuPont PPA

Under a steam and electricity purchase contract, DuPont purchases its electric requirements of up to 40 MW from Chambers. The purchase price escalates by the lesser of quarterly changes in Chambers' coal price or quarterly changes in ACE's System Average Retail Rate. The contract expires in 2024.

#### EXCESS POWER SALES

Chambers sells an average of approximately 50 MW of excess capacity and energy to ACE under a short-term power sales agreement that will expire in August 2006, but which has been renewed in prior years. Chambers sells power under this agreement at the PJM locational marginal price subject to sharing a portion of the excess power sale revenues above \$21/MWh with ACE.

#### STEAM SALES

Under a 30-year Steam and Electricity Purchase Agreement, DuPont purchases up to 650,000 pph of steam during the month of June through September, 700,000 pph during the month of May and October and 1,000,000 pph of steam during the remainder of the year. As long as DuPont has not closed down or abandoned its plant located at the site, DuPont is obligated to purchase the minimum amount of steam, approximately 60,000 pph, required for Chambers to maintain its Qualifying Facility ("QF") status under PURPA regulations. This contract expires in 2024. The steam price is adjusted by changes in Chambers' average coal price.

#### FUEL SUPPLY

All of the coal supply, ash disposal, and coal and ash transportation requirements for Chambers are provided for under a coal purchase agreement with affiliates of CONSOL Energy, Inc. ("CONSOL"). The contract has a 20-year term with an option to extend for up to 10 years with renegotiated prices. The contract expires in 2014.

The coal price escalates quarterly by the change in the Eastern Utility Coal Index, defined as the weighted average delivered price (in cents per million Btu) of all medium sulfur coal delivered during a quarter to twenty-five defined utility plants located in nine mid-Atlantic states. In the third quarter of 2005, the project received notice from CONSOL stating that it believes the portion of coal deliveries fueling

Chamber's generation in excess of the base PPA capacity of 184MW is not covered by the terms of the existing fuel agreement and that such excess coal will no longer be provided at the same price under terms of the current agreement. The Chambers partnership has filed suit against CONSOL and related entities in regards to this disagreement involving the pricing and delivery of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things, (1) a declaratory judgment regarding the terms of the agreement, (2) cover damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defenses and counterclaims in its answer. Although the outcome of the matter is not certain, management believes the coal supplier's affirmative defenses and counterclaims are without merit.

Coal transport is handled by Norfolk Southern railway under subcontract from CONSOL, which delivers the coal to the DuPont rail handling system. CONSOL is responsible for rail deliveries and freight charges.

Ash disposal fees consist of a fixed rate plus an escalating rate indexed to inflation and the coal-pricing index. The ash disposal arrangements are on a minimum take or pay basis with the minimum being 130,000 tons/year.

#### OPERATION AND MAINTENANCE

Cogentrix Energy, an affiliate of Goldman Sachs, operates the plant under an operations and maintenance agreement (the "O&M Agreement"). The O&M Agreement expires in 2009. This is a typical arrangement in which the operator earns a base fee and may earn additional fees based upon safety and environmental performance, availability, facility efficiency and excess power sales optimization. In addition, the operator may pay liquidated damages based on steam interruptions to DuPont.

#### MANAGEMENT SERVICES AGREEMENT

Cogentrix Energy, manages the plant under a management services agreement (the "MSA"). The manager provides general management and administration for day-to-day activities including financial, billing, accounting, public relations, contract administration, reporting and budget support, and earns a base fee for services. The term of the MSA is 24 years and expires in 2018.

#### SITE LEASE

Chambers and DuPont entered into a ground lease agreement for the lease by DuPont to Chambers of the plant site. The rent is \$1.00 per year. This contract currently expires in 2024.

## FINANCING STRUCTURE

As of September 30, 2004, Chambers had an outstanding balance of US\$204.7 million of term loans maturing in 2014 and US\$100 million of tax-exempt bonds maturing in 2021. The tax-exempt bonds are backed by a bank letter of credit. In addition, a debt service letter of credit for US\$22.7 million has been issued for seven years expiring in June 2007, and a \$5 million working capital facility is available.

## REGULATORY STATUS

The FERC has certified Chambers as a QF.

NEWS RELEASE TRANSMITTED BY CCMATTHEWS

FOR: ATLANTIC POWER CORPORATION

TSX SYMBOL: ATP.UN

November 14, 2005

**Atlantic Power Corporation Announces Strong Third Quarter 2005 Results:**

- **Closed Chambers acquisition on September 8, 2005**
- **Increased annual distribution to Cdn \$1.03 effective as of September distribution**
- **Cash flow available for distribution of US \$9.1 million (Cdn \$0.30 per IPS)**
- **Payout ratio of 81% for nine months ending September 30, 2005**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (the "Company") today announced its results for the three and nine month periods ended September 30, 2005. All amounts are in US dollars unless otherwise indicated.

During the third quarter the Company completed the acquisition of a 40% interest in a 262 MW coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's Chambers Works complex in southwestern New Jersey. The total purchase price was approximately US \$64.9 million and was funded by cash on hand and a draw on the revolving credit facility. The acquisition diversified the Atlantic Power portfolio's fuel mix, increased its off taker diversity, lengthened the weighted average term of its power purchase portfolio and increased the Company's aggregate net interests to 899MW of generating capacity.

With the completion of the Chambers acquisition, the Company also announced during the quarter that, effective with the September 2005 payment, annualized cash distributions were increased by Cdn \$0.03 per Income Participating Security ("IPS") to Cdn \$1.03 per year.

"The acquisition of our interest in the Chambers project was immediately accretive to our cash flow, and, as a result, we were very pleased to have implemented our first increase in monthly cash

distributions,” commented Barry Welch, President and CEO. “We believe there are additional opportunities available in the US power generation sector that will add further accretive growth and stability to our cash flows going forward.”

Including the contribution from the Chambers facility commencing on September 8, 2005, cash available for distributions was \$9.1 million or Cdn \$0.30 per IPS in the third quarter. Distributions declared for the period were \$7.8 million or Cdn \$0.25 per IPS. For the nine months ended September 30, 2005 cash available for distributions was \$28.0 million or Cdn \$0.92 per IPS, while distributions declared were \$22.69 million or Cdn \$0.75 per IPS. The payout ratio was 86% in the third quarter and 81% through the first nine months of 2005.

The Company generated project and other revenue of \$50.8 million and income before administrative and other expenses of \$16.6 million in the third quarter. The net loss for the three months ended September 30, 2005 was \$7.9 million or \$0.21 (Cdn \$0.26) per IPS. For the nine months ended September 30, 2005, project and other revenue was \$126.7 million, generating income before administrative and other expenses of \$40.6 million. The net loss was \$3.2 million or \$0.09 (Cdn \$0.10) per IPS for the first nine months of 2005.

Earnings before interest, taxes, depreciation and amortization (“EBITDA”) at the Company’s power producing projects were down 1% in the third quarter versus the same period in 2004, but up 6% for the nine month period ending September 30, 2005 (excluding the contribution from the lessor interest in the Lake Project acquired in late 2004 and Mid-Georgia’s deferred revenue adjustment). The decrease for the quarter is primarily due to the loss of MASSPOWER revenues resulting from the successful buyout of three of its former PPAs, and lower swap settlements from Onondaga expected per its schedule, partially offset by improved operating margins at Lake and Pasco, increased ownership in the Gregory project and almost one month of Chambers ownership. The increase in nine months’ EBITDA is due primarily to improved operating margins at the Lake and Pasco projects, increased ownership in the Gregory project and almost a month of Chambers ownership, offset by unfavorable impacts from the MASSPOWER PPA buyouts and increased natural gas costs at Selkirk beyond what can be passed through under one of its PPAs.

A breakdown of contributions (EBITDA excluding other income) by individual project for the three and nine month periods ending September 30, 2005 is provided in the attached Appendix.

In July the Company received a distribution from the MASSPOWER project which included approximately \$3.3 million from a further release of net proceeds from dispositions of its power purchase and gas supply agreements. The project has repaid its outstanding debt and will continue to make available approximately 7.9% of its output under its remaining power purchase agreement through 2013 when it is dispatched, and will have the option to sell the remainder of its output into the wholesale spot market. The owners have entertained bids to buy the project company and recently entered into an exclusivity period with one of the bidders, which could conclude in negotiation of a purchase and sale agreement.

“We were pleased with our results in the quarter and first nine months of the year, and anticipate continuing solid and stable performance over the long term,” Mr. Welch concluded.

The full financial statements for the period, including Management’s Discussion and Analysis, are available on the Company’s web site at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com).

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

Periods Ending (Unaudited)	September 30, 2005	September 30, 2005
	(3 months)	(9 months)
<b>Cash Flow Available For Distributions</b>		
Cash flows from operating activities	9,533	61,269
Proceeds on disposal of MASSPOWER PPA's and other contracts <sup>(1)</sup>	(3,291)	(42,372)
Cash flows from operating activities net of proceeds on disposal	6,242	18,897
Project level debt repayment	(3,885)	(10,627)
Interest on IPS portion of subordinated notes	4,901	14,337
Income tax withholding installments recoverable <sup>(2)</sup>	2,180	6,914
Purchase of property, plant and equipment	(308)	(1,490)
Cash flow available for distribution, USD	9,130	28,031
<b>Cash flow available for distribution, Cdn.</b>	<b>10,902</b>	<b>33,828</b>
<b>Distributions</b>		
Interest on IPS subordinated notes	4,901	14,337
Dividend on IPS common shares	2,907	8,351
Total IPS distributions, USD	7,808	22,688
<b>Total IPS distributions, Cdn.</b>	<b>9,297</b>	<b>27,703</b>
<b>Cash flow available for distribution per IPS, Cdn.</b>	<b>0.30</b>	<b>0.92</b>
<b>Total distribution per IPS, Cdn.</b>	<b>0.25</b>	<b>0.75</b>

(1) MASSPOWER's aggregate distributions less their normalized operating cash flow (normalized EBITDA less principal repayments).

(2) Represents the portion of income tax withholding installments paid during the quarter related to operating activities exclusive of amounts associated with MASSPOWER PPA and other contract disposals.

Atlantic Power Corporation owns interests in a diversified portfolio of sixteen power generation projects located primarily in major markets in the United States. The Company's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the projects and potential acquisitions by the Company. Such statements are

subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions and, in the case of potential acquisitions, risks relating to sourcing, financing and completing acquisitions.

Cash Flow Available for Distributions is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities to Cash Flow Available for Distributions is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

EBITDA is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

RECEIVED

The following management discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the unaudited financial statements of Atlantic Power Corporation ("Atlantic Power" or "the Company") for the three month and nine month periods ended September 30, 2005. All amounts described in the management discussion and analysis of financial condition and results of operations are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP"). This management discussion and analysis of financial condition and results of operation also contains forward looking statements, which are subject to a variety of factors that could cause actual results to differ materially from those contemplated by these statements. Some of the factors that could cause results or events to differ from current expectations include, but are not limited to, the factors described under "Risk Factors". Information contained in this management's discussion and analysis is based on information available to management as of November 14, 2005.

**OVERVIEW**

The Company completed its Initial Public Offering ("IPO") on November 18, 2004 and after the exercise of the underwriter's over-allotment on December 6, 2004, it owned 58.1% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Power Holdings, LLC ("Holdings"). On September 8, 2005, the Company acquired an indirect 40% interest in Chambers Cogeneration, LP, which owns and operates a 262 MW coal-fired cogeneration plant in southwestern New Jersey, discussed further in Acquisitions and Dispositions. On the same day, the Company also announced a Cdn. \$0.03 increase in its annual distribution to Cdn. \$1.03 per year, commencing with the September distribution. On October 3, 2005, the Company sold 7.5 million Income Participating Securities ("IPSs") to Caisse de dépôt et placement du Québec and 39,500 IPSs to the Company's President and CEO, and Managing Director in a private placement. Net proceeds were used to increase the Company's common membership interest in Holdings to 70.1%. The remaining 29.9% of the common membership interests and all of the outstanding Class B preferred membership interests in Holdings are owned by subsidiaries of ArcLight Energy Partners Funds I and II (the "ArcLight Funds") and Caithness Energy (such subsidiaries, together, the "Existing Investors"). Holdings was formed to acquire indirect interests in a diversified portfolio of power generating facilities (the "Projects") located primarily in major markets in the United States from the Existing Investors. The Company currently has 44,339,500 IPSs outstanding. Each IPS represents one common share of the Company ("Common Shares") and Cdn. \$5.767 aggregate principal amount of 11% subordinated notes of the Company ("Subordinated Notes").

As of September 30, 2005 interests were owned in fifteen projects in the United States and one in Jamaica with a combined total power generating capacity of 2,423 megawatts ("MW"). Atlantic Power's interests in the Projects represented approximately 899MW of power generating capacity as of September 30, 2005. The Projects sell their power under long term power purchase agreements ("PPAs") predominantly to investment grade utilities. These agreements are typically structured to stabilize cash flows by 1) providing significant

steady capacity payments as a return of capital provided that the plant meets an availability requirement, regardless of how much electricity it is called to produce and 2) passing through most of the Projects' fuel cost changes to the utilities. As a result, the portfolio's net cash flow is generally less sensitive to the amount of power generated, spot market electricity prices or fuel prices.

Management and administrative services are provided to the Company by Atlantic Power Management, LLC, a Delaware limited liability company (the "Manager") formed by ArcLight Capital Partners, LLC ("ArcLight") and the ArcLight Funds. The Manager manages the business of the Company and Holdings and also focuses on identifying additional acquisitions and investments for the Company. The Manager's employees have substantial energy investing experience and industry relationships to help identify emerging trends and present the Company with accretive acquisition opportunities within the power and energy sector.

The Projects are typically operated and maintained by third party operators under contracts with the Project partnerships. Terms of these agreements vary in length and typically provide for subsequent renewals.

The Company's objectives are to maintain the stability and sustainability of cash distributions to holders of IPSs in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares.

To achieve these objectives the Company will focus on enhancing the operation of the existing Projects through:

- (i) optimization of commercial arrangements such as Power Purchase Agreements ("PPAs"), fuel supply and transport contracts, steam sales agreements, and management and operation agreements;
- (ii) achievement of operating efficiencies and cost reductions;
- (iii) upgrade or enhancement of existing equipment or plant configurations; and
- (iv) expansion of existing Projects.

The Company has a focused growth strategy with several key elements:

- (i) opportunities exist to consolidate, on an accretive basis, ownership positions in certain Projects where it currently owns partial interests;
- (ii) PPA restructuring opportunities and recapitalization at the Projects may provide relatively low cost capital to fund future growth opportunities; and
- (iii) management is evaluating additional accretive acquisitions and investments with a primary focus on power generating facilities in the United States.

Cash Flow Available for Distributions is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities to Cash Flow Available for Distributions is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

Earnings Before Interest, Taxes, Depreciation and Amortization (“EBITDA”) is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance.

## PROJECT PORTFOLIO

The following table outlines the Company’s portfolio of power generating assets as of September 30, 2005, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, or off-takers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any one region.

Project Name	Location	Fuel Type	Total MW	Economic Interest <sup>(1)</sup>	Accounting Treatment <sup>(2)</sup>	Net MW <sup>(3)</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating

(1) Holdings’ economic interest represents the percentage ownership interest in the project held indirectly by Atlantic Holdings (except as otherwise noted).

(2) Accounting Treatment: (refer to Note 1 of Consolidated Financial Statements).

C = Consolidated

P = Proportionate Consolidation

E = Equity Method

- (3) Represents the interest of Holdings in each project's total electric generation capacity based on Holdings' economic interest in each project.
- (4) Represents Holdings' estimate of its share of the cash flow from the project.
- (5) New PPA with Constellation Energy through 2008. See discussion in the Outlook Section.
- (6) On March 1, 2005 MASSPOWER concluded a termination agreement for its one PPA with Boston Edison and two PPAs with Commonwealth Electric and received a termination payment. Massachusetts Municipal Wholesale Electric Co. maintains a right to 7.9% of the project's output, if and when electricity is generated.
- (7) A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.
- (8) PPA with Central Maine Power expires in December 2005. See discussion in the Outlook Section.
- (9) Holdings owns its interest in this Project as a lessor.

## RESULTS OF OPERATIONS FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2005

(In thousands of US dollars, except per share amounts, unless otherwise stated.)

The Company commenced operations on November 18, 2004 on completion of its Initial Public Offering ("IPO") and the acquisition of interests in fifteen non-utility power projects. The Company did not hold any material assets prior to November 18, 2004 and is considered to have begun operations on November 18, 2004. The financial results for the third quarter of 2005 include the contribution from the 40% interest in the Chambers project, acquired on September 8, 2005 (see Acquisitions & Dispositions). The Company generates revenues by selling its electricity, steam and other by-products to various off-takers generally under long-term Power Purchase Agreements and Steam Purchase Agreements. As of September 30, 2005 the Company had PPAs with 17 customers. Details on the duration of the PPAs for each property are presented in the table above.

## SUMMARY OF FINANCIAL RESULTS

Periods Ending (Unaudited)	September 30,	September 30,
	2005	2005
	(3 months)	(9 months)
Project revenue <sup>(1)</sup>	50,848	126,677
Project expenses	37,144	97,881
Project other income (expense) <sup>(2)</sup>	2,888	11,801
Income before the under noted	16,592	40,597
Administrative and other expenses		
Management fees, administration and other	1,341	4,145
Interest, net	5,626	16,520
Distribution, non-controlling interest <sup>(3)</sup>	5,634	16,238
Change in fair value of non-controlling interest <sup>(4)</sup>	(1,035)	0
Foreign exchange gain (loss) <sup>(5)</sup>	10,869	4,581
Total administrative and other expenses	22,435	41,484
Income (loss) before income taxes	(5,843)	(887)
Income taxes expense (recovery)	2,020	2,360
Net income	(7,863)	(3,247)
Per share, USD	(\$0.21)	(\$0.09)
Per share, Cdn.	(\$0.26)	(\$0.10)
Total assets	980,444	980,444
Long-term debt	231,110	231,110
Non-controlling interests	244,936	244,936
Subordinated Notes	213,921	213,921
Other	82,337	82,337
Total long-term liabilities <sup>(6)</sup>	772,304	772,304
Cash flows from operating activities	9,533	61,269
Distributions <sup>(7)</sup>		
Per IPS, USD	0.21	0.62
Per IPS, Cdn.	0.25	0.75

(1) Project revenue and project expenses of Holdings' interests in ten projects, including two wholly owned projects which are consolidated, and eight proportionately consolidated projects with interests ranging from 40% to 50%. (Refer to Accounting Treatment presented in the preceding Project Portfolio table.)

(2) Includes equity in earnings from partnerships of \$4,536 for the three-month period and \$16,374 for the nine-month period from six projects in which Holdings owns interests of between 15.1% and 40%, accounted for on an equity basis.

(3) Distributions declared to Existing Investors.

(4) As of September 30, 2005, Existing Investors owned a 41.9% non-controlling interest in Holdings with certain Liquidity Rights to request that the Company issue equity securities (including IPSs) to raise proceeds that would indirectly be used to redeem portions of the Existing Investors' interest. On October 3, 2005, Existing Investors reduced their common membership interests in Holdings to 29.9%. During the two year period following the IPO, the Existing Investors must maintain a minimum 10% aggregate ownership interest in Holdings. This amount represents the mark-to-market change during the reporting period in the obligation of the Company to make such issuance to redeem the Existing Investors' interests in Holdings based on the change in market price per IPS from Cdn. \$10.75 at December 31, 2004 to \$10.80 at June 30, 2005, to Cdn. \$10.75 at September 30, 2005.

(5) Net impact of foreign exchange changes on the US dollar equivalent of Canadian dollar denominated debt, and the mark-to-market value of currency hedges and realized foreign exchange gains and losses for the period.

(6) Includes the increase in the USD equivalent of Cdn. denominated obligations.

(7) Distribution declared during the reporting period.

## **PROJECT PERFORMANCE: THREE MONTH PERIOD ENDED SEPTEMBER 30, 2005**

While aggregate generation and plant availability were up 34% and 3.9% respectively at the Projects during the third quarter of 2005 compared to the third quarter of 2004, EBITDA at the Projects was down 1%, excluding both the increase in EBITDA due to the acquisition in late 2004 of the lessor interest in the Lake Project and the deferred revenue adjustment at Mid-Georgia. Significant contributors to reduced EBITDA included the loss of MASSPOWER revenues due to the successful buyout of three of its former PPAs and lower scheduled swap settlements from Onondaga as expected. Partially offsetting EBITDA decreases were 1) improved operating margins at the Lake and Pasco projects, 2) increased ownership in the Gregory project, and 3) almost one month of Chambers ownership.

The comparative increase in generation in 2005 is due largely to increased dispatch at Mid-Georgia and Onondaga, increased ownership at Gregory, almost one month of Chambers and reduced generation in 2004 resulting from a transformer related outage at Orlando. Similarly, availability increases are primarily driven by lower availability in 2004 due to a forced outage at Orlando and a scheduled maintenance outage at Selkirk.

## **PROJECT PERFORMANCE: NINE MONTH PERIOD ENDING SEPTEMBER 30, 2005**

Aggregate generation was up 7% and availability was the same at the Projects during the first nine months of 2005 compared to the first nine months of 2004, and EBITDA at the Projects was up 6%, excluding the increase due to the acquisition in late 2004 of the lessor interest in the Lake Project and the deferred revenue adjustment at Mid-Georgia. Significant factors in this EBITDA increase include favorable impacts from improved operating margins at the Lake and Pasco projects, increased ownership in the Gregory project and almost one month of Chambers ownership, offset by unfavorable impacts from 1) the MASSPOWER PPA buyouts and 2) fuel costs under recently extended supply agreements at Selkirk that have increased during the period to slightly above the formulaic amount that can be passed through to the utility under one of its PPAs.

Among the Company's largest costs is the supply of natural gas, coal and other fuels required to operate the Projects. In general, the Projects have a long-term fuel supply agreement whose term matches the term of the corresponding PPA. Fuel costs, particularly natural gas costs, were at historically high levels in the US through the reporting period. However, the majority of the PPAs provide for the pass-through or indexing of fuel costs to the off-takers. Selkirk extended the term of three of its four gas purchase agreements towards the end of 2004 and recently executed the fourth replacement contract, effective November 1, 2005. Under the Project's PPA with Consolidated Edison, while most of the gas cost is passed through in the power purchase price, there is a gas price-based cap in the energy payment that may be slightly exceeded at some times by the project's fuel cost.

## **CASH FLOW FROM OPERATIONS AND RESERVE ACCOUNT**

The Company's cash flow from the Projects will vary from year to year based on, among other things, changes in rates under the PPAs, fuel supply agreements, steam sales agreements and other project contracts,

compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the general performance of the Projects. Project cashflows themselves may have some seasonality and the pattern and frequency of distributions from Projects to Holdings during the year can also vary.

In order to provide holders of IPSs with stable and sustainable cash distributions, the Company established a Reserve Account at the closing of its IPO and will deposit funds in the Reserve Account from time to time to stabilize future cash distributions and fund acquisitions and other growth opportunities. As of September 30, 2005, the Reserve Account held \$10,406.

The Company's cash flow from operations was \$9,533 and \$61,269, for the three and nine month periods ended September 30, 2005, respectively, and was in line with expectations for the period. The nine month results include significant non-recurring cash flow from disposal of MASSPOWER PPAs and other agreements.

#### **CASH FLOW AVAILABLE FOR DISTRIBUTION**

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. On September 8, 2005, the Company announced an increase to its annual distribution of Cdn. \$0.03 per IPS commencing with the September distribution from Cdn \$1.00 to Cdn \$1.03 per IPS. For the three month period ended September 30, 2005, aggregate distributions of \$7,808 were declared. (Cdn\$0.25 per IPS comprised of interest payments of Cdn\$0.16 on the 11% subordinated note portion of the IPS, plus Cdn\$0.09 common share dividend per IPS)

The following table shows the calculation of Cash Available for Distribution beginning with cash flow from operating activities for the three and nine month periods ended September 30, 2005.

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

Periods Ending (Unaudited)	September 30, 2005	September 30, 2005
	(3 months)	(9 months)
<b>Cash Flow Available for Distributions</b>		
Cash flows from operating activities	9,533	61,269
Proceeds on disposal of MASSPOWER PPA s and other contracts <sup>(1)</sup>	(3,291)	(42,372)
Cash flows from operating activities net of proceeds on disposal	6,242	18,897
Project level debt repayment	(3,885)	(10,627)
Interest on IPS portion of subordinated notes	4,901	14,337
Income tax withholding installments recoverable <sup>(2)</sup>	2,180	6,914
Purchase of property, plant and equipment	(308)	(1,490)
Cash flow available for distribution, USD	9,130	28,031
<b>Cash flow available for distribution, Cdn.</b>	<b>10,902</b>	<b>33,828</b>
<b>Distributions</b>		
Interest on IPS subordinated notes	4,901	14,337
Dividend on IPS common shares	2,907	8,351
Total IPS distributions, USD	7,808	22,688
<b>Total IPS distributions, Cdn.</b>	<b>9,297</b>	<b>27,703</b>
<b>Cash flow available for distribution per IPS, Cdn.</b>	<b>0.30</b>	<b>0.92</b>
<b>Total distribution per IPS, Cdn.</b>	<b>0.25</b>	<b>0.75</b>

(1) MASSPOWER's aggregate distributions in excess of their normalized operating cash flow (normalized EBITDA less principal repayments).

(2) Represents the portion of income tax withholding installments paid during the period related to operating activities exclusive of amounts associated with MASSPOWER PPA and other contract disposals, which are anticipated to be recoverable.

## LIQUIDITY AND CAPITAL RESOURCES

The Company has adequate liquidity from several sources in addition to cash flow from operations. The Reserve Account holds \$10,406 as of September 30, 2005. In the future, as the Reserve Fund builds, a portion of it will be available to fund acquisitions and other growth opportunities enhancing the long-term stability of distributions.

Holdings has a \$50,000 revolving credit facility, \$15,061 of which is allocated, but not drawn, to support letters of credit for contingent liabilities at several projects. On September 1, 2005, a draw of \$25,000 was made to partially fund the Chambers acquisition. \$9,939 is available to the Company under the revolving term credit

facility as of September 30, 2005. In addition, the Projects themselves generally have their own reserve accounts to support payments for major maintenance costs and project-level debt service.

All project-level debt is non-recourse to the Company or Holdings and is fully amortized over the life of the projects' PPAs.

## ACQUISITIONS & DISPOSITIONS

**Chambers** - On September 8, 2005 the Company closed its previously announced acquisition of Epsilon Power Partners, LLC ("Epsilon"), which owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of the 262 MW (net output) Carney's Point pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's ("DuPont") Chambers Works complex in southwestern New Jersey. The total purchase price was approximately \$64,896 and was funded by cash on hand and a draw on Holdings' revolving credit facility.

The facility acquired is one of the projects in which Holdings was granted a right of first offer by ArcLight Energy Partners Fund I, L.P. at the time of Atlantic's IPO. The former owners of Epsilon are subsidiaries of ArcLight Energy Fund I and Delta Power Company, LLC.

The project sells electricity through 2024 under a PPA with Atlantic City Electric Company (rated BBB+) and electricity and steam to DuPont (rated AA-) for use in its industrial operations, also through 2024. Carney's Point began commercial operations in 1994.

Plant operations are managed by a highly experienced firm and the Project has demonstrated an excellent operating history over the last ten years. The facility utilizes the best available environmental control technologies including scrubbers, a baghouse and selective catalytic reduction to reduce emissions and is considered one of the cleanest coal burning power plants in the US.

On November 8th, the Company filed on SEDAR an Independent Technical Review for Chambers. The report, prepared by Stone and Webster management Consultants, Inc. concludes that the Project uses proven and appropriate technology, has operated successfully under the principal project agreements and permits since its commercial operation in 1994, has been well-maintained, and has an expected useful life exceeding the life of the PPA which expires in 2024. The report also includes a cash flow projection for Chambers through 2024.

**MASSPOWER** - In July, Holdings received a distribution from the MASSPOWER project comprised of an approximately \$3,291 further release of net proceeds from the disposition of its power purchase and gas supply agreements and \$139 of operating cash flow. The project previously repaid its outstanding debt and will continue to make available approximately 7.9% of its output under its remaining power purchase agreement through 2013 when it is dispatched, and will have the option to sell the remainder of its output into the wholesale spot market. The partnership has entertained bids to buy the project company and recently entered into an exclusivity period with one of the bidders, which could conclude in the negotiation of a purchase and sale agreement.

## CAPITAL EXPENDITURES

Capital expenditures for the Projects are made at the project level using project cash flows and project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the projects. Generally, capital expenditures are not significant since most major expenditures are for repairs and maintenance and therefore are expensed.

During the third quarter, an estimated \$2,000 capital project was completed at the Pasco project to construct a water distillation facility that will serve as the project's thermal load.

## CONTRACTUAL OBLIGATIONS

(a) Each project typically has a set of contracts that include the following obligations of the project partnerships, all of which are non-recourse to the Company. Therefore, specific contracts for individual projects are not discussed in detail in the MD&A.

- PPAs generally allow projects to pass through their fuel costs. See the earlier Project Portfolio table for off-takers and durations.
- Fuel supply agreements have minimum volume requirements with terms typically similar to their respective PPA.
- Fuel transportation agreements incorporate capacity reservation/demand payments for natural gas, or shipping cost per ton of coal.
- Steam sales agreements track PPA lengths and are designed to meet regulatory requirements for thermal load/efficiency at fossil fuel plants.
- O&M agreements contract for operations and maintenance services by third parties or owners.
- Long-term service agreements may be in place for gas or steam turbine inspections and overhauls.
- Site lease agreements grant use of project land where Projects don't own the site.
- Project debt is non-recourse and fully amortizing during PPA terms.

A detailed description of the Projects' agreements at the time of the IPO is contained in the Technical Review performed by Stone and Webster in conjunction with the Company's IPO and updated information is contained in the Company's Annual Information Form dated March 31, 2005. Both documents are available on SEDAR.

(b) Swap Agreement – see foreign currency hedging arrangements below

(c) Credit Facility:

Holdings has a \$50,000 revolving credit facility, \$15,061 of which is allocated, but not drawn, to support letters of credit for contingent liabilities at several projects. On September 1, 2005 a draw of \$25,000 was made to partially fund the Chambers acquisition. \$9,939 is available to the Company under the revolving term credit facility as of September 30, 2005.

(d) Office Lease Obligations:

The Manager subleases its office space from ArcLight, under an agreement through 2014. The obligations under this sublease are \$130 per year in 2005-2007 and a total of \$933 for the period 2008-2014.

(e) The Company pays a management fee under the Management Agreement that is subject to adjustment for acquisitions as agreed to by the Company and Holdings' Independent Managers, plus incentives, inflation adjustment and expenses. The Company paid the Manager \$1,950 in management and incentive fees during the nine month period ended September 30, 2005.

(f) Subordinated Notes – As of September 30, 2005, the Company had \$213,922 outstanding of 11% subordinated notes due 2016. The notes are interest only until their maturity.

## RELATED PARTY TRANSACTIONS

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid (i) an annual management fee, (ii) reimbursement of costs, and (iii) an annual incentive fee equal to 25% of the excess in distributions paid to unit holders during the year above the initial targeted distributions at the IPO. The Management Agreement has an initial term of 20 years. The Manager is owned by the ArcLight Funds. Subsidiaries of the ArcLight Funds along with a subsidiary of Caithness Energy owned 41.9% of Holdings' common membership interests at September 30, 2005, but 29.9% currently.

The seven-person Board of Managers of Holdings includes two members from the manager of the ArcLight Funds who were appointed by the Existing Investors, and the President and CEO of the Manager. These three individuals may not vote on any proposed acquisitions by Holdings of projects from the ArcLight Funds.

The Manager receives administrative and office support services from the manager of the ArcLight Funds under a Management Support Agreement. This agreement also requires ArcLight and its affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings, investment opportunities that do not fit within the investment guidelines for ArcLight Fund I and Fund II or other investment funds managed by ArcLight or its affiliates.

At the time of the IPO, Holdings was granted a right of first offer ("ROFO") on a number of power producing projects currently owned by the ArcLight Energy Partners Fund. The right of first offer relates to interests in 11 power generating projects representing approximately 706 net MW of total electric generation capacity. During the third quarter of 2005 Holdings completed the acquisition of Chambers, one of the ROFO projects, as described in the Acquisitions & Dispositions section above. During the second quarter of 2005, Fund I offered a package of nine of the ROFO projects to Holdings for purchase. Holdings conducted an analysis of the price and terms offered by Fund I and notified Fund I that it was declining to purchase the projects on the terms offered. Under the terms of the right of first offer, Fund I has until November 23, 2005 to sell the projects at a price and on terms no less favorable to a third party than those declined by Holdings. If Fund I receives an offer to purchase the projects prior to November 23, 2005 on terms more favorable to the third party than those offered to Holdings, then, before Fund I may accept the offer, it must first provide Holding with the opportunity to match the offer. In late September ArcLight Fund I entered a Purchase and Sale Agreement with a third party,

which it indicates is likely to close by November 23<sup>rd</sup>. If Fund I has not sold its interest in the projects by November 23, 2005, the procedures set out in the right of first offer will apply again.

As discussed under Contractual Obligations above, the Manager subleases its office space from ArcLight, under an agreement through 2014.

Caithness Energy has an indirect ownership interest in one of the Existing Investors. Subsidiaries of Caithness Energy provide operations and maintenance at four of the Projects and accounting, tax and other administrative functions for 12 of the Projects under agreements which are in effect through 2007 and renewable thereafter. During the nine month period ended September 30, 2005, Holdings incurred project operator fees and expenses of \$2,063 for services provided by Caithness Energy.

#### **FOREIGN EXCHANGE HEDGING ARRANGEMENTS**

The Company has entered into forward contracts to purchase Canadian dollars sufficient to make 63 monthly distributions to December 2010 at the current annual distribution level of Cdn. \$1.03 to all holders including Existing Investors, as well as interest payments on the separate Subordinated Notes. The average rate during the period through December 2009 is \$1.2055 Cdn. and US\$1.1225 during 2010.

As planned, changes in the fair market value of the Company's forward contracts partially offset set exchange gains or losses on the U.S. dollar equivalent of the Company's Canadian dollar obligations.

#### **ACCOUNTING ESTIMATES**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. During the period presented, management has made a number of estimates and valuation assumptions, including the fair values of acquired assets, the useful lives and recoverability of property plant and equipment and power purchase contracts, the recoverability of equity investments, the recoverability of future tax assets and the fair value of financial instruments and derivatives. Refer to Note 1 of the audited consolidated financial statements for the period ended December 31, 2004.

#### **ADOPTION OF ACCOUNTING POLICY**

The Company applies Accounting Guideline 15, "Consolidation of Variable Interest Entities". As a result of applying this guideline, the Company consolidated variable interest entities for which it is determined to be the primary beneficiary.

## LITIGATION

One of Holdings' subsidiaries is a partner of MASSPOWER. The partners of MASSPOWER have been named as defendants in a suit filed by the Massachusetts Municipal Wholesale Electric Company ("MMWEC"), which holds a power purchase agreement entitling it to 7.86% of the capacity and energy of the facility. MMWEC alleges that MASSPOWER has, among other things, breached the agreement by restructuring its natural gas contracts without MMWEC's approval. The MASSPOWER partners have filed an answer to the suit denying its material allegations and intend to contest it vigorously. Although the result of the proceeding is not certain, management believes MMWEC's claims are without merit.

The Chambers partnership in which Holdings owns a 40% indirect interest has filed suit against its coal supplier, CONSOL Pennsylvania Cola Company and related entities, over a disagreement involving the pricing of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things (1) a declaratory judgment regarding the terms of the agreement, (2) cover damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defenses and counterclaims in its answer. Although the outcome of the matter is not certain, Management believes the coal supplier's affirmative defenses and counterclaims are without merit.

## SUBSEQUENT EVENTS

On October 3, 2005, the Company issued 7.5 million IPSs to Caisse de depot et placement du Québec and 39,500 IPSs to two members of the management team in a private placement. Net proceeds were used to increase the Company's common membership interest in Holdings to 70.1%.

## OUTLOOK

In order to maintain stable distributions and provide long term growth, the Company will continue to focus on enhancing the financial performance of the existing Projects and pursuing accretive acquisitions predominantly in the U.S. market.

On July 15, 2005, the Gregory Project's PPA with Dynegy expired as expected. Gregory is located in the ERCOT regional electricity market in Texas, which has been returning to supply-demand balance following a period of overbuilding new plants and, more recently, very substantial retirements of older utility plants. Effective September 1, 2005, Gregory entered into a longer term PPA with Constellation Energy (S&P BBB) that expires December 31, 2008. Consistent with information filed on SEDAR at the time of the IPO, Gregory is still not anticipated to be a significant contributor to near term cash flows under the new contract, but is now expected to produce cumulative cash flow over the term of the new PPA that are higher than cumulative cash flow projected by Stone and Webster at the time of the IPO for the period September 1, 2005 through December 31, 2008.

Rumford's PPA with Central Maine Power will expire as expected in December 2005. At that time, the project's PPA with the adjacent NewPage (formerly Mead) paper mill requires the mill to buy its output, and negotiations are underway to formalize the details of that arrangement. The Stone & Webster projections at the time of the IPO showed no cash flow for 2006 and beyond from Rumford, but Management believes that there is an opportunity to increase cash flow through the PPA with the paper mill by selling the output into the New England power market, or by entering into a contract with a power marketing entity.

Other PPAs in the portfolio have various expirations and, in each case, the project's partners plan for that occurrence by evaluating various options in the market in order to continue maximizing project cash flows. For example, projects with PPA expirations in the 2008-2009 timeframe have already begun to prepare and execute solicitations for potential new power purchase arrangements. While it is difficult to predict these outcomes with certainty, the Stone and Webster Technical Review mentioned above made individual power market and fuel price assessments in projecting possible economic outcomes. Neither Stone & Webster in its Technical Review nor Management has assumed that pricing under existing PPAs from earlier regimes will necessarily be sustained at pre-expiration levels.

## **RISK FACTORS**

Atlantic Power's future performance and ability to generate sufficient cash flow to meet its monthly cash distributions to holders of IPSs and the Common Shares and Subordinated Notes represented thereby involves a number of risks and uncertainties. Any of these risks and uncertainties could have a material adverse effect on the Company's results of operations, business prospects, financial condition, the cash available to the Company for distribution to holders of IPSs, Common Shares, or Subordinated Notes or on the market price or value of IPSs, Common Shares or Subordinated Notes. A discussion of these risks and uncertainties can be found in the Company's Annual MD&A and Annual Information Form dated March 31, 2005.

On September 8, 2005, the Department of Finance (Canada) released a consultation paper on tax and other issues related to publicly listed flow-through entities and invited interested parties to make submissions prior to December 31, 2005. The stated focus of the consultation paper is to assess the tax and economic efficiency implications of flow-through entities to determine if the current tax system is appropriate or should be modified. On September 19, 2005, the Minister of Finance (Canada) announced that he had requested that Canada Revenue Agency postpone providing advance rulings respecting flow-through entity structures pending these consultations, that the Department of Finance (Canada) is closely monitoring developments in the flow-through entity market with a view to proposing measures in response to the consultations and that consideration would be given to what, if any, transitional measures were appropriate. Further initiatives in this area, if any, including the possible initiatives referred to in the consultation paper, may be taken following the completion of such consultations. Accordingly, legislative changes in this area are possible. Such changes could result in income taxes being materially and possibly adversely different in certain respects and may adversely affect Atlantic's cash flow available for distribution and the market price and liquidity of the IPSs.

## ADDITIONAL INFORMATION

Additional information is available on the Company's website at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com), or at [www.sedar.com](http://www.sedar.com).

## COMPILATION REPORT ON PRO FORMA FINANCIAL STATEMENTS

The Board of Directors  
Atlantic Power Corporation

We have read the accompanying unaudited pro forma income statements for the nine months September 30, 2005 and for the period November 18, 2004 to December 31, 2004, and have performed the following procedures:

1. Compared the figures in the columns captioned "APC" to the unaudited interim financial statements of the Atlantic Power Corporation ("APC") for the nine months ended September 30, 2005, and the audited financial statements of the APC for the period November 18, 2004 to December 31, 2004, respectively, and found them to be in agreement.
2. Compared the figures in the column captioned "Epsilon" to the unaudited consolidated financial statements of Epsilon Power Partners, LLC ("Epsilon") for the nine months ended September 30, 2005 and found them to be in agreement. Compared the figures in the column captioned "Epsilon" to the audited financial statements of Epsilon for the year ended December 31, 2004 multiplied by 44/365, and found them to be in agreement.
3. Made enquiries of certain officials of APC who have responsibility for financial and accounting matters about:
  - (a) The basis for determination of the pro forma adjustments; and
  - (b) *Whether the pro forma financial statements comply as to form in all material respects with in all material respects with the published requirements of Canadian securities legislation.*

*The officials:*

  - (a) described to us the basis for determination of the pro forma adjustments, and
  - (b) *stated that the pro forma financial statements comply as to form in all material respects with in all material respects with the published requirements of Canadian securities legislation.*
4. *Read the notes to the pro forma financial statements, and found them to be consistent with the basis described to us for determination of the pro forma adjustments.*

5. Recalculated the application of the pro forma adjustments to the aggregate of the amounts in the columns captioned "APC" and "Epsilon" for the nine months ended September 30, 2005, and for the period November 18 to December 31, 2005, and found the amounts in the column captioned "Pro Forma APC" to be arithmetically correct.

A pro forma financial statement is based on management assumptions and adjustments which are inherently subjective. The foregoing procedures are substantially less than either an audit or a review, the objective of which is the expression of assurance with respect to management's assumptions, the pro forma adjustments, and the application of the adjustments to the historical financial information. Accordingly, we express no such assurance. The foregoing procedures would not necessarily reveal matters of significance to the pro forma financial statements, and we therefore make no representation about the sufficiency of the procedures for the purposes of a reader of such statements.

# ATLANTIC POWER CORPORATION

Notes to the Pro Forma Consolidated Statements  
(In thousands of U.S. dollars)

Nine months ended September 30, 2005  
(Unaudited)

---

## 1. Basis of presentation:

Atlantic Power Corporation ("APC" or the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004. The Company issued income-participating securities ("IPs") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive. The unaudited pro forma consolidated statements of income for the nine months ended September 30, 2005 and the six weeks ended December 31, 2004 (the "Pro Forma Financial Statements") have been prepared by management ("Management") of APC in accordance with Canadian generally accepted accounting principles ("GAAP"). The Pro Forma Financial Statements give effect to the completion of the acquisition of Epsilon Power Funding LLC ("Epsilon") using the purchase method of accounting. Epsilon's principal asset consists of Chambers Cogeneration LP ("Chambers") the owner and operator of a 262 MW pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's ("DuPont's") Chambers Works complex in southwestern New Jersey.

As the unaudited consolidated balance sheet of the Company as at September 30, 2005 reflects the acquisition of Epsilon using the purchase method of accounting, a pro forma balance sheet has not been included in this filing.

The unaudited pro forma consolidated statement of income for the six weeks ended December 31, 2004 has been prepared using the audited consolidated statement of operation and deficit of the Company for the period from November 18, 2004 to December 31, 2004 and audited consolidated statement of income and deficit of Epsilon for the year ended December 31, 2004. The audited consolidated statement of income of Epsilon, which were prepared in US GAAP and reconciled to Canadian GAAP as supplementary information in the audited Epsilon financial statements, have been pro-rated to reflect a six week period. The unaudited pro forma consolidated statement of income for the six weeks period ended December 31, 2004 gives effect to acquisition of Epsilon as if it had occurred on November 18, 2004.

The unaudited pro forma consolidated statement of income for the nine months ended September 30, 2005, has been prepared using the unaudited interim consolidated statement of income and deficit of the Company for the nine months ended September 30, 2005, and the unaudited interim consolidated statement of income and retained earnings of Epsilon for the nine months ended September 30, 2005. The unaudited pro forma consolidated statement of income for the nine months ended September 30, 2005 gives effect to acquisition of Epsilon as if it had occurred on January 1, 2005.

## 1. Basis of presentation (continued):

The unaudited pro forma consolidated financial statements may not be indicative of the results of operation that would occurred if the Epsilon acquisition had been in effect on the dates indicated or of the consolidated operating results, which may be obtained in the future.

The pro forma adjustments reflecting the acquisition of Epsilon are based on available financial information and certain estimates and assumptions. The actual adjustments to the consolidated financial statements of the Company will depend on a number of factors. Therefore, the actual adjustments will differ from the pro forma adjustments. Management believes that such assumptions provide a reasonable basis for presenting all of the significant effects of the Epsilon acquisition and that the pro forma adjustments give appropriate effect to those assumptions and are properly applied in the pro forma consolidated financial information.

These unaudited Pro Forma Financial Statements incorporate the principal accounting policies used to prepare the consolidated financial statements of Epsilon and Atlantic Power Corporation.

These Pro Forma Financial Statements should be read in conjunction with the consolidated financial statements of the Company and Epsilon, including the related notes thereto.

The Pro Forma Financial Statements are not intended to reflect the results of operations which would have actually resulted had the acquisitions and other pro forma adjustments been effected on the dates indicated. Further, the Pro Forma Financial Statements are not necessarily indicative of the results of operations that may be obtained by the Company in the future.

## 2. Pro Forma Assumptions and Adjustments:

The Pro Forma Financial Statements have been presented assuming that the following transactions had been completed and adjustments had been effected as of January 1, 2005 for the nine months ended September 30, 2005 and as of November 18, 2004 for the six week period ended December 31, 2004.

- (a) To eliminate the results of operations of Epsilon for the period of ownership from September 8 to September 30, 2005 included within APC's results of operations for the nine month period ended September 30, 2005.

# ATLANTIC POWER CORPORATION

Notes to the Pro Forma Consolidated Statements  
(In thousands of U.S. dollars)

Nine months ended September 30, 2005  
(Unaudited)

---

## 2. Pro Forma Assumptions and Adjustments (continued):

- (b) To reverse management fees and administrative expenses paid to and incurred by the previous owners of Epsilon in the amount of \$154 and \$24 for the nine months ended September 30, 2005 and the six week period ended December 31, 2004 as these agreements were terminated on acquisition of Epsilon.
- (c) Amortization has been increased by \$1,686 and \$275 for the nine months ended September 30, 2005 and the six week period ended December 31, 2004 to reflect the amortization of the fair value increment related to property, plant, and equipment, power purchase and other contracts.
- (d) To record amortization of deferred financing fees related to Epsilon's amendment of its credit agreement, over the debt's term to maturity. The amount of amortization recorded was \$13 for the nine months ended September 30, 2005 and \$2 for the six week period ended December 31, 2004.
- (e) To reverse interest expenses of Epsilon under its previous credit agreement and replace it with interest expense under the amended term of its credit agreement. The net interest expense decrease was \$122 for the nine months ended September 30, 2005 and \$20 for the six week period ended December 31, 2004.
- (f) To replace amortization of the Chambers interest rate swap recorded by Epsilon based on a previous acquisition with the amortization of the Chambers interest rate swap, based on the fair assumed on acquisition. The adjustment is a net decrease in amortization of \$195 and \$31 for the nine months ended September 30, 2005 and the six week period ended December 31, 2004, respectively.
- (g) To record interest expense of \$2,125 and \$341 for the nine months ended September 30, 2005 and the six week period ended December 31, 2004, respectively on the \$25,000 draw on Atlantic's revolving credit facility and to reduce interest income on the \$39,896 in cash and reserve funds applied to fund the acquisition of Epsilon. Interest expense under the revolving credit facility has been assumed at be 5.75%, being LIBOR plus an applicable margin. Interest income is assumed at a rate of 3% per annum.
- (h) Taxes have been increased by \$3,822 to reflect the impact of the above pro forma adjustments at an effective tax rate of 40%, plus 5% branch profit tax, including \$5,832 of taxes on other income (note 4).

# ATLANTIC POWER CORPORATION

Notes to the Pro Forma Consolidated Statements  
(In thousands of U.S. dollars)

Nine months ended September 30, 2005  
(Unaudited)

---

## 2. Pro Forma Assumptions and Adjustments (continued):

- (i) The basic earnings per share is based on the average number of common shares outstanding of 36,800,000 and 34,836,364 during the nine months ended September 30, 2005 and the six week period ended December 31, 2004, respectively.

## 3. Contingency:

Chambers has filed suit against its coal supplier, CONSOL Pennsylvania Coal Company and related entities, over a disagreement the pricing and delivery of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things: (1) a declaratory judgment regarding the terms of the agreement, (2) cover damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defenses and counterclaims in its answer. Although the outcome of the matter is not certain, Management believes the coal supplier's affirmative defenses and counterclaims are without merit.

## 4. Other income:

During the first quarter first quarter of 2005, ownership of the 60% interest in Chambers not owned by Epsilon changed. Epsilon received \$12,960 as compensation for consenting to the change in ownership of the interest.

## 5. Subsequent event:

On September 8, 2005 Epsilon was indirectly acquired by Atlantic Power Corporation for cash consideration of \$64,896, including acquisition costs.

**Report of Independent Auditors**

To the Members of Epsilon Power Partners, LLC:

In our opinion, the accompanying balance sheets and the related statements of operations, members' equity, and cash flows, present fairly, in all material respects, the financial position of Epsilon Power Partners, LLC at December 31, 2004 and 2003, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying notes are an integral part of these financial statements.

**Epsilon Power Partners, LLC**  
**Notes to Financial Statements**  
**December 31, 2004 and 2003**

---

**1. Organization and Business**

Epsilon Power Partners, LLC (Epsilon or Partnership) was organized in September 2002 as a Delaware limited partnership for the purpose of investing in cogeneration power plant facilities. Epsilon is owned by DPC Epsilon, LLC (15%), a wholly owned subsidiary of Delta Power Company, LLC (DPC), and Pelham Power Holdings, LLC (85%), a wholly owned subsidiary of ArcLight Energy Partners Fund I, L.P.

On September 18, 2002, Epsilon acquired the limited partnership interest of TIFD III-T, LLC's 40% interest in Chambers Cogeneration Limited Partnership (Chambers), a Delaware limited partnership. Chambers is a 262 MW coal-fired cogeneration plant at DuPont's Chambers Works chemical complex near Carney's Point, New Jersey. Chambers is designed to produce electricity for sale to Atlantic City Electric Company/Conectiv and electricity and process steam to E.I. DuPont de Nemours & Company for use in its industrial operations, under 30 year contracts that commenced in 1994, the year that the facility was placed into commercial operations.

**2. Summary of Significant Accounting Policies**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenue and expenses during the reporting period. Actual results could differ from these estimates.

**Restricted Cash**

Restricted cash is defined as cash subject to the provisions of the Partnership Agreement.

**Equity Investment in Limited Partnership**

Epsilon accounts for its investment in the Chambers limited partnership using the equity method of accounting as a result of its ability to influence both the operating and financial decisions of the investment. Under the equity method of accounting, the initial investment in the limited partnership is recorded at cost and adjusted periodically to recognize Epsilon's share of the earnings or losses of the limited partnership after the date of acquisition. The amount of the adjustment is included in the determination of net income by Epsilon, and such amount includes adjustments to eliminate intercompany gains and losses, and to amortize, if appropriate, any difference between Epsilon's cost and underlying equity in net assets of the limited partnership at the date of investment. The investment basis is also adjusted to reflect Epsilon's share of changes in the limited partnership's capital. Distributions received from the limited partnership reduce the carrying amount of the investment.

Intangible assets (the fair value of the power purchase agreements as of the Chambers acquisition date) represent the difference between Epsilon's cost and underlying equity in net assets of Chambers at the date of investment and deferred acquisition costs. Such intangibles are included in the partnership's investment in limited partnership. Epsilon has gross intangible assets of \$38,685,032 as of December 31, 2004 and 2003, and accumulated amortization of \$4,251,729 and \$2,409,044 as of December 31, 2004 and 2003, respectively. The gross intangible assets as of December 31, 2004 and 2003 include \$915,350 of deferred acquisition costs relating to the purchase of the Chambers partnership interest.

**Epsilon Power Partners, LLC**  
**Notes to Financial Statements**  
**December 31, 2004 and 2003**

---

Amortization expense of \$1,842,685 and \$1,881,249 for the years ended December 31, 2004 and 2003, respectively, was recorded as an operating expense in the Statement of Operations. Intangible assets are amortized over approximately 21 years (the estimated remaining life of the Chambers' power purchase agreements). Amortization expense for intangible assets is expected to be approximately \$1.9 million annually through 2023.

**Income Taxes**

The Partnership is a single member limited liability company that is treated as a disregarded entity for federal income tax purposes, and as such, is not subject to federal income taxes. The partnership's income, gains, losses and tax credits pass to the member who individually reports his share of such items on his income tax return. However, for purposes of financial reporting, the Partnership has accounted for income taxes as if it were a separate taxpayer in accordance with paragraph 40 of Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*.

Income taxes receivable represents the amount of New Jersey State Income taxes withheld from Chambers distributions and remitted to the State of New Jersey on behalf of the Epsilon partners. The Partnership has filed a claim for refund for such amounts, and as a result, has reflected amounts as Income Taxes Receivable on the Balance Sheet as of December 31, 2004 and 2003.

**Comprehensive Income**

Epsilon's comprehensive income consists of net income and other items recorded directly to the equity accounts. The objective is to report a measure of all changes in members' equity that result from transactions and other economic events of the period other than transactions with owners. Epsilon's other comprehensive income consists principally of changes in the fair value of interest rate swap contracts at Chambers that qualify for cash flow hedge treatment.

At December 31, 2004 and 2003, the balance of accumulated other comprehensive income was \$4,830,827 and \$2,420,610, respectively, and consisted of the changes in the fair value of Chamber's swap agreements from September 2002 to December 2004 and 2003, respectively.

**Derivative Instruments and Hedging Activities**

Derivatives are recorded at fair value as either assets or liabilities in the balance sheet of equity investees. For a derivative designated as, and meeting the specific criteria as a hedge, any change in fair value of the derivative against changes in future cash flows of the underlying hedged item may be deferred through other comprehensive income, a component of partner's capital, in the period of change. For a derivative not designated as, or not meeting specific criteria as a hedge, changes in fair value will be recognized in earnings in the period of change.

Chambers has certain derivative commodity contracts for the physical delivery of purchase and sale quantities transacted in the normal course of business. Since these activities qualify as normal purchase and normal sale activities, Chambers has not recorded the value of the related contracts on the balance sheet as permitted under relevant accounting standards.

Chambers has also entered into swap agreements to reduce the exposure to interest rate fluctuations on its debt. The agreements have been designated as cash flow hedging instruments. The amounts incurred by Chambers representing the effective difference between the fixed rate under the swap agreements and the variable rate on the underlying term of the loans are included in interest expense in Chambers Statement of Operations. In the event of an early termination of these

**Epsilon Power Partners, LLC**  
**Notes to Financial Statements**  
**December 31, 2004 and 2003**

---

agreements, any gains or losses would be amortized over the respective lives of the underlying debt or recognized immediately if the debt is terminated earlier than anticipated. The fair value of Chambers' derivatives is determined by reference to market valuation from various third party sources.

**Impairment and Disposal of Long-Lived Assets**

The Partnership adopted Statement of Financial Accounting Standard No. 144 ("SFAS 144"), *Accounting for the Impairment or Disposal of Long-Lived Assets* effective January 1, 2002. An impairment loss is recognized if the carrying amount of a long-lived asset is not recoverable from its undiscounted cash flows and measured as the difference between the carrying amount and fair value of the asset. The Partnership records impairment losses on long-lived assets when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows to be generated by those assets are less than the carrying amounts of those assets. There were no impairment losses in 2004 or 2003.

**Costs Associated with Exit or Disposal Activities**

The Partnership implemented Statement of Financial Accounting Standard No. 146 ("SFAS 146"), *Accounting for Costs Associated with Exit or Disposal Activities* effective January 1, 2003. This statement requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred and is effective for disposal activities initiated after December 31, 2002. The Partnership has not initiated any disposal activities nor is currently contemplating any disposal activities, and as such, the implementation of SFAS 146 did not have an impact on the financial statements.

**Concentration of Credit Risk**

Financial instruments, which potentially subject the Partnership to credit risk, consist primarily of restricted cash, accounts receivable and temporary investments. The Partnership maintains restricted cash with major financial institutions. Restricted cash and temporary investments include investments in money market securities and securities backed by the U.S. Government. At times such amounts may exceed the F.D.I.C limits. The Partnership believes that no significant concentration of credit risk exists with respect to cash investments.

**3. Partnership Agreement**

The Partnership Agreement provides for, among other things, the following:

**Allocation of Net Income and Loss**

Net income and loss are allocated 15% to DPC Epsilon, LLC and 85% to Pelham Power Holdings, LLC, in accordance with the Limited Liability Company Agreement.

**Cash Distributions**

Available cash is distributed at such times as the general partner may determine. Cash is distributed 15% to DPC Epsilon and 85% to Pelham Power Holdings, LLC, in accordance with the Limited Liability Company Agreement. In 2004 and 2003, total distributions were \$4,780,364 and \$4,172,783, respectively.

**Epsilon Power Partners, LLC**  
**Notes to Financial Statements**  
**December 31, 2004 and 2003**

---

**4. Long-Term Debt**

In September 2002, the Partnership borrowed \$53,000,000 from certain Lenders and General Electric Capital Corporation (GECC), as administrative agent and collateral agent. Principal and interest repayment amounts are due quarterly through January 2023. In accordance with the Credit Agreement and the Security Credit Agreement between the Partnership and GECC, as agent for the lenders, if Partnership distributions exceed the Annual Distribution Limit, as defined, principal prepayments are required in amounts determinable under the agreements. As of December 31, 2004 and 2003, total principal prepayments amounted to \$7,942,609 and \$3,983,490, respectively.

Interest is calculated quarterly based upon a Eurodollar Base Rate, as defined, plus an Applicable Margin, as defined. The interest rate at December 31, 2004 and 2003 was 5.63% and 4.66%, respectively. The Partnership was in compliance with all covenants at December 31, 2004 and 2003.

Future principal payments under the agreement are as follows:

2005	\$ 475,000
2006	518,750
2007	575,000
2008	406,250
2009	87,500
Thereafter	<u>41,357,390</u>
	<u>\$43,419,890</u>

For the year ended December 31, 2004 and 2003, Epsilon incurred \$2,340,749 and \$2,500,434, respectively, in interest expense under the GECC credit agreement, of which \$427,794 and \$381,118 was included in Interest payable at December 31, 2004 and 2003, respectively.

In accordance with the Credit Agreement, if the amount of Distributable Cash (as defined) exceeds the Annual Distribution Limit in effect (as defined), then an amount equal to 75% of the remainder of such funds must be applied as a prepayment of the long-term debt. For the years ended December 31, 2004 and 2003, such prepayments amounted to \$3,959,119 and \$3,983,490, respectively.

The Credit Agreement contains various affirmative and negative covenants involving compliance with laws, incurrence of additional debt, restricted payments (as defined) and debt acceleration clauses relative to events of default (as defined). The Partnership was in compliance with all covenants at December 31, 2004 and 2003.

**5. Equity Investments**

Summary financial information for Chambers as of and for the years ended December 31, 2004 and 2003 are presented in the following table:

**Epsilon Power Partners, LLC**  
**Notes to Financial Statements**  
**December 31, 2004 and 2003**

---

<i>(in thousands)</i>	<b>2004</b>	<b>2003</b>
Current assets	\$ 25,055	\$ 25,345
Property and equipment, net	410,868	423,487
Other assets	5,596	5,062
Current liabilities	35,942	46,474
Other liabilities	315,207	325,445
Partners' equity (deficit)	90,370	81,975
Revenues	139,194	132,749
Operating expenses	85,859	74,787
Net income	33,879	37,255
Epsilon's equity in net income	13,552	14,902

**6. Related Party Transactions**

DPC is paid an annual management fee in the amount of \$150,000, plus escalation, as defined in the Limited Liability Company Agreement. For the years ended December 31, 2004 and 2003, total management fees incurred were \$154,800 and \$151,880, respectively, of which \$39,643 and \$38,235 were included in Accounts payable-related parties at December 31, 2004 and 2003, respectively.

**7. Fair Value of Financial Instruments**

The carrying amount of restricted cash and accounts payable and accrued liabilities are a reasonable estimate of their fair values due to their short-term nature. The fair value of the debt is equal to the carrying amount as reported on the balance sheet.

**8. Commitments and Contingencies**

There are certain commitments and contingencies arising from the ordinary course of business to which Epsilon is a party. It is management's belief that the ultimate resolution of those commitments and contingencies will not have a material adverse impact on Epsilon's financial positions, results of operations or cash flows.

**9. Subsequent Events**

In September 2005, DPC Epsilon and Pelham Power Holdings, LLC sold their 100% partnership interests to Atlantic Power Holdings, LLC, a wholly owned subsidiary of Atlantic Power corporation (a listed company in Canada).

## **Supplementary Information**

## Canadian GAAP Reconciliation

These financial statements have been prepared in conformity with US GAAP, which in most respects conforms to Canadian GAAP. Significant differences between Canadian GAAP and US GAAP, as it relates to the Company, are as follows:

### Reconciliation of net income:

	2004	2003
Net income, US GAAP	9,176,975	10,246,801
Amortization of proportionate share of interest rate swap of equity method investee	(b) 1,084,752	(b) 1,084,752
Proportionate share of accounting for asset retirement obligation of equity method investee	(d) -	(c) 365,004

- (a) Under US GAAP, other comprehensive income, investment in partnership and accumulated other comprehensive income, included in equity method investees financial statements arise as a result of changes in fair value of interest rate swaps that qualify as cash flow hedges, for the portion of the fair value that is hedge effective.
- (b) Under US GAAP, the Company recognizes all derivatives as either assets or liabilities on the balance sheet and measures those assets at fair value. The investment in partnership and accumulated other comprehensive income, included in equity method investee's financial statements are adjusted for changes in fair value of interest rate swaps that qualify as cash flow hedges, for the portion of the fair value that is hedge effective. Under Canadian GAAP, Epsilon applies settlement accounting to derivative financial instruments. Under this method, the gains and losses on derivative financial instruments that qualify for hedge accounting are not recorded until they are realized. The notional amounts are not recorded in the financial statements as they do not represent amounts exchanged by the counterparties. The fair value of certain derivative financial obligations assumed on acquisition is amortized to interest expense over the term of the instrument.
- (c) Under US GAAP, Epsilon's equity method accounted investee, Chambers, adopted SFAS 143, Accounting for Asset Retirement Obligations, on January 1, 2003. The transitional provisions of SFAS 143 resulted in a cumulative catch up adjustment to net income in the year of adoption. Under Canadian GAAP, the Company adopted Canadian Institute of Chartered Accountants' ("CICA") Handbook standard 3110, Asset Retirement Obligations, on January 1, 2004. The Canadian GAAP standard is consistent with SFAS 143, with the exception of the transitional provisions, which under Canadian GAAP require retroactive adoption.
- (d) Under US GAAP, Epsilon accounts for its 40% joint venture investment in Chambers under the equity method as described in Note 2. Under Canadian GAAP, interests in a joint venture should be recognized in the financial statements of Epsilon using the proportionate consolidation method.

To the Security Holders:

Enclosed is Epsilon Power Partners, LLC (Epsilon) interim unaudited consolidated financial statements for the three and six months ended June 30, 2005. We are filing this balance sheet pursuant to the requirements of National Instrument 51-102 – *Continuous Disclosure Obligations*.

In accordance with the provisions of section 4.3(3) of NI 51-102, we advise that Epsilon's auditors, PWC LLP, have not reviewed the unaudited consolidated financial statements for the three and six months ended June 30, 2005.

Sincerely,

*"Signed"*

Mark Byskov  
Chief Financial Officer and  
Corporate Secretary of  
Atlantic Power Management, LLC

Notes to Consolidated Financial Statements  
(In thousands of U.S. dollars)

Three months and six months ended June 30, 2005  
(Unaudited)

---

Epsilon Power Partners, LLC ("Epsilon") was organized in September 2002 as a Delaware limited partnership for the purpose of investing in cogeneration power plant facilities. Epsilon is owned by DPC Epsilon, LLC (15%), a wholly owned subsidiary of Delta Power Company, LLC (DPC), and Pelham Power Holdings, LLC (85%), a wholly owned subsidiary of ArcLight Energy Partners Fund 1, L.P.

On September 18, 2002, Epsilon acquired the limited partnership interest of TIFD III-T, LLC's 40% interest in Chambers Cogeneration Limited Partnership ("Chambers"), a Delaware limited partnership. Chambers is a 262 MW coal-fired cogeneration plant at DuPont's Chambers Works chemical complex near Carney's Point, New Jersey. Chambers is designed to produce electricity for sale to Atlantic City Electric Company/Conectiv and electricity and process steam to E.I. Dupont de Nemours & Company for use in its industrial operations, under 30 year contracts that commenced in 1994, the year that the facility was placed into commercial operations.

## 1. Basis of presentation:

These interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the period ended December 31, 2004, as set out in the Atlantic Power Corporation's Business Acquisition Report since they do not contain all the disclosures that are in accordance with Canadian generally accepted accounting principles ("GAAP") for annual financial statements. These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles. The December 31, 2004 consolidated financial statements were prepared in accordance with U.S. GAAP with supplementary information to reconcile them to Canadian GAAP. The accounting policies and methods of computation applied in these interim consolidated financial statements are consistent with the supplementary information for the period ended December 31, 2004.

## 2. Related party transactions:

DPC is paid an annual management fee in the amount of \$150, plus escalation, as defined in the Limited Liability Company Agreement. For the six months ended June 30, 2005 and 2004 total management fees incurred were \$79 and \$77, respectively, of which \$40 and \$39 were included in accounts payable at June 30, 2005 and December 31, 2004, respectively.

Notes to Consolidated Financial Statements  
(In thousands of U.S. dollars)

Three months and six months ended June 30, 2005  
(Unaudited)

---

### 3. Other income:

During the first quarter first quarter of 2005, ownership of the 60% interest in Chambers not owned by Epsilon changed. Epsilon received \$12,960 as compensation for consenting to the change in ownership of the interest.

### 4. Contingency:

Chambers has filed suit against its coal supplier, CONSOL Pennsylvania Coal Company and related entities, over a disagreement the pricing and delivery of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things: (1) a declaratory judgment regarding the terms of the agreement, (2) cover damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal requested under the contract. The coal supplier has asserted affirmative defenses and counterclaims in its answer. Although the outcome of the matter is not certain, Management believes the coal supplier's affirmative defenses and counterclaims are without merit.

### 5. Subsequent event:

On September 8, 2005 Epsilon was indirectly acquired by Atlantic Power Corporation for cash consideration of \$64,896, including acquisition costs.

Three months and nine months ended September 30, 2005

(Unaudited)

---

Atlantic Power Corporation (the "Company") is a corporation established under the laws of the Province of Ontario on June 18, 2004. The Company issued income-participating securities ("IPS") for cash pursuant to an initial public offering on November 18, 2004. Prior to November 18, 2004, the Company was inactive.

## 1. Basis of presentation:

These interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the period ended December 31, 2004, as set out in the 2004 Annual Report since they do not contain all the disclosures that are required by Canadian generally accepted accounting principles for annual financial statements. These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles, using the same accounting policies and methods of computation as were used for the audited consolidated financial statements for the period ended December 31, 2004.

## 2. Adoption of accounting policy:

Variable interest entities:

The Company applies The Canadian Institute of Chartered Accountants' Accounting Guideline 15, "Consolidation of Variable Interest Entities". As a result of applying this guideline, the Company consolidated variable interest entities for which it is determined to be the primary beneficiary.

## 3. Acquisitions:

(a) Adjustment of 2004 acquisition:

The Company formed Atlantic Power Holdings, LLC ("Atlantic Holdings"), a Delaware limited liability company, for the purpose of acquiring indirect interests in 15 projects from Teton Power Holdings, LLC, Epsilon Power Holdings, LLC and Umatilla Power Holdings, LLC (the "Existing Investors") and acquired the interests of the Existing Investors in the projects that were held by their wholly owned subsidiaries.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2005

(Unaudited)

### 3. Acquisitions (continued):

On November 18, 2004, Atlantic Holdings acquired for total consideration of \$522,638 (including \$1,014 in acquisition costs) an indirect interest in 15 projects located primarily in the United States of America. During the nine months ended September 30, 2005, the fair value of certain projects was finalized. The purchase price allocation has been adjusted as follows:

	Preliminary purchase equation	Adjustments	Revised purchase equation
Working capital	\$ 47,213	\$ 689	\$ 47,902

The Company remains in the process of finalizing its purchase price allocation and the tax basis of the assets acquired.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2005

(Unaudited)

## 3. Acquisitions (continued):

### (b) Epsilon Power Partners, LLC acquisition:

On September 8, 2005, the Company acquired Epsilon Power Partners, LLC ("Epsilon") for cash consideration of \$64,896. Epsilon owns a 40% interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of a 262 megawatts pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's Chambers Works complex in southwestern New Jersey. The purchase price has been allocated as follows:

	Preliminary purchase equation
Working capital	\$ 9,541
Property, plant and equipment	142,817
Power purchase and other contracts	87,146
Other liabilities	(7,766)
Long-term debt	(166,842)
Total purchase price	64,896
Less cash acquired	1,617
Cash paid, net of cash acquired	\$ 63,279

The property, plant and equipment will be amortized over its remaining life estimated as 23 years. The power purchase and other contracts will be amortized over periods ranging from 18 years to 23 years.

The Company remains in the process of finalizing its purchase price allocation and the tax basis of the assets acquired.

### (c) Project acquisition:

During the nine months ended September 30, 2005, Atlantic Holdings increased its interest in one of its existing projects. The fair value of the interest acquired by the Company was \$1,115 and was financed by cash consideration at the project level.

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2005

(Unaudited)

---

## 4. Other liabilities, non-controlling interest:

As of September 30, 2005, the Existing Investors had a 41.9% common membership interest in Atlantic Holdings and also have the right to request, at any time, that Atlantic Holdings purchase for cancellation all or any portion of the Existing Investors' interests in Atlantic Holdings, subject to a minimum remaining 10% interest for a two-year period from November 18, 2004. The repurchase of the Existing Investors' interests is conditional upon Atlantic Holdings being able, after utilizing its best efforts, to complete or cause the completion of an equity financing on terms acceptable to the managers of Atlantic Holdings who are independent of the Existing Investors and their affiliates, acting reasonably, to secure the necessary funds to enable it to purchase the Existing Investors' interests. Atlantic Holdings may only finance repurchases of Existing Investors' interests pursuant to the exercise of the rights by issuing additional equity securities. This may occur through the sale of equity interests to the Company, the purchase of which may be financed by a sale of IPS or other equity securities of the Company. These interests are treated as a liability of the Company and are recorded at fair value on the consolidated balance sheet. At September 30, 2005, to purchase the remaining 41.9% interest, 26,491,865 IPS would be required to be issued.

Any change in fair value of the non-controlling interest is recognized in the consolidated statement of income and deficit as change in fair value of non-controlling interest. For the nine months ended September 30, 2005, a reduction of \$74 is reflected in the consolidated statement of income and deficit.

On October 3, 2005, the Existing Investors' common membership interest in Atlantic Holdings was reduced to 29.9% (note 8).

## 5. Related party transactions:

During the nine months ended September 30, 2005, in accordance with the Management Agreement, the Company paid management and incentive fees of \$1,950 to Atlantic Power Management, LLC, the Manager.

In addition, the Company incurred expenses of \$2,063 for operations and maintenance services provided by Caithness Energy, a company which holds an indirect interest in one of the Existing Investors. Caithness Energy provides operations and maintenance services to 12 of the Company's projects.

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2005

(Unaudited)

---

## 6. Basic loss per share:

Basic loss per share has been calculated using the weighted average number of units outstanding during the period of 36,800,000.

## 7. Commitments and contingencies:

- (a) One of the Company's subsidiaries is a partner of MASSPOWER. The partners of MASSPOWER have been named as defendants in a suit filed by the Massachusetts Municipal Wholesale Electric Company ("MMWEC"), which holds a power purchase agreement entitling it to 7.86% of the capacity and energy of the facility. MMWEC alleges that MASSPOWER has, among other things, breached the agreement by restructuring its natural gas contracts without MMWEC's approval. The MASSPOWER partners have filed an answer to the suit denying its material allegations and intend to contest it vigorously. Although the result of the proceeding is not certain, the Company believes MMWEC's claims are without merit.
- (b) The Chambers partnership in which the Company owns a 40% indirect interest has filed suit against its coal supplier, CONSOL Pennsylvania Coal Company and related entities, over a disagreement involving the pricing and delivery of a portion of the annual coal deliveries to the plant. Chambers seeks, among other things: (1) a declaratory judgement regarding the terms of the agreement, (2) coverage of damages for missed deliveries, and (3) injunctive relief to ensure delivery of all coal required under the contract. The coal supplier has asserted affirmative defences and counterclaims in its answer. Although the outcome of the matter is not certain, the Company believes the coal supplier's affirmative defenses and counterclaims are without merit.
- (c) For the nine months ended September 30, 2005, the Company has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,608 monthly through December 2009. The Company also has forward contracts to sell U.S. \$4,645 and receive Cdn. \$5,209 monthly during 2010. In October 2005, the Company entered additional forward contracts to sell U.S. \$166 and receive Cdn. \$192 monthly through December 2009 and contracts to sell U.S. \$591 and receive Cdn. \$668 monthly during 2010.

# ATLANTIC POWER CORPORATION

Notes to Consolidated Financial Statements (continued)

(In thousands of U.S. dollars, unless otherwise noted, and except per share amounts)

Three months and nine months ended September 30, 2005

(Unaudited)

---

## 7. Commitments and contingencies (continued):

As a result, the Company has entered into forward contracts sufficient to make 63 monthly distributions to December 2010 at a current distribution level of Cdn. \$1.03 to all IPS holders including the Existing Investors, as well as interest payments on the separate Subordinated Notes. The average rate during the period to December 2009 is 1.2055 and 1.1225 during 2010.

The foreign exchange loss of \$10,869 and \$4,581 during the three-and nine-month periods ended September 30, 2005, primarily reflects foreign exchange losses on the U.S. dollar equivalent of the Company's Canadian dollar denominated obligation to non-controlling interests and subordinated notes reduced by foreign exchange gains on the changes in the fair market value of the Company's forward contracts.

## 8. Subsequent events:

On October 3, 2005, the Company issued 7,539,000 IPS at a rate of Cdn. \$10.00 per IPS to Caisse de depot et placement du Quebec and officers of the Company in a secondary private placement. Gross proceeds were Cdn. \$75,390.

The net proceeds from the private placement were used by the Company to increase its common membership ownership in Atlantic Holdings from 58.1% to 70.1%. Atlantic Holdings concurrently redeemed membership interests held indirectly by the Existing Investors reducing the Existing Investors' common membership ownership from 41.9% to 29.9%.

## CARNEY'S POINT GENERATING PLANT

The Carney's Point Generating Plant (the "Plant or Facility") is a 285 megawatt (gross) pulverized coal fired cogeneration facility that is located on a site adjacent to the DuPont Chambers Works at Carneys Point, in southern New Jersey. The Facility is capable of providing electricity for sale to the local utility and steam and electricity to the adjacent DuPont Chambers Works facility. The Facility is owned by the Chambers Cogeneration Limited Partnership ("CCLP").

The Facility was designed to generate a net power output of 217.180 megawatts (MW) while delivering 550,000 lb/hr of turbine extraction steam flow to the DuPont's Chambers Works facility. The Facility supplies nominally 184 MW (187.6 MW summer and 173.2 MW winter) of dispatchable power to Atlantic City Electric Company ("ACE"), a wholly owned subsidiary of Conectiv, under an Agreement for Purchase of Electric Power ("Power Purchase Agreement" or "PPA"). It also supplies steam/electric power to the DuPont Chamber Works on a continuous basis under a Steam and Electric Purchase Agreement ("DuPont Contract"). Additionally, any available excess power is sold through a separate Power Sales Agreement ("PSA") with ACE.

The Facility is a Qualifying Facility ("QF") under PURPA and has maintained its QF status since initial Commercial Operation in 1994. At the time of Stone & Webster Consultants' site visit on May 28, 2004, the Facility was operating with the turbine valves wide open generating 235.8 MW to Conectiv along with 142,500 lb/hr of process steam and approximately 20 MW being supplied to the DuPont Chambers Works facility.

The two Foster Wheeler boilers are each capable of providing about 1,200,000 lb/hr of high pressure steam to an Alstom (formerly GEC Alsthom) steam turbine generator. The boilers utilize pulverized coal as the primary fuel (provided under the Coal Purchase Agreement) and No. 2 fuel oil as a startup and backup fuel to supply steam to the steam turbine to produce power and process steam. The auxiliary boiler is designed to burn No. 2 fuel oil and is used to supply auxiliary steam to only the Facility when both main boilers are not operating. Raw water for the Facility is provided by the DuPont Chambers Works. The wastewater from the Facility is sent to the DuPont Chambers Works for disposal.

Stone & Webster Consultants last toured the Facility and interviewed the Facility manager, engineering manager, operations manager, and environmental manager on May 28, 2004.

## 1.0 THE FACILITY

The Facility was operated and maintained by National Energy Power Company, LLC, a subsidiary of National Energy & Gas Transmission, Inc. ("NEGT"), the successor to PG&E National Energy Group in accordance with the Facility Operations and Maintenance Agreement. On February 1, 2005, the Operations and Maintenance Agreement was transferred from National Energy Power Company, LLC, Power Services to North American Energy Services (NAES). NAES is currently responsible for the operation and maintenance of the Facility.

### 1.1 SITE CONDITIONS

The site is located in an industrial area on land leased from DuPont which is part of the adjacent DuPont Chamber Works property. Road access to the Facility is via Interstate Route 295 to U.S. Route 130 and by rail via a Conrail siding.

The DuPont Chambers Works property is working under the New Jersey Department of Environmental Protection ("NJDEP") Industrial Site Recovery Act ("ISRA") program for site remediation; however, the Facility is not involved and is responsible only for proper control of operations to avoid additional soil or groundwater contamination. The site lease with DuPont provides the project an indemnity for pre-existing site conditions. Operating records indicate that in the period from July 1993 through February 1999, with the exception of one 50 gallon spill of caustic solution in April 1994, all oil, and chemical spills were less than 10 gallons. Management Reports in the period from January 2003 through August 2005 indicate no reportable spills at the Carney's Point plant.

Stone & Webster Consultants did not undertake an independent Environmental Site Assessment; however the observed general housekeeping condition of the Facility was excellent. A visual inspection of the Facility site during our May 2004 visit did not reveal any soil discoloration or other indications of material significance relative to potential site contamination. Except for underground fuel oil pipes serving the main and auxiliary boilers, there were no reported existing conditions that might result in material environmental liability to the Facility.

### 1.2 REVIEW OF TECHNOLOGY

The Facility uses two conventional pulverized coal fired boilers provided by Foster Wheeler Energy Corporation ("Foster Wheeler") included with low NO<sub>x</sub> burners and selective catalytic reduction ("SCR") systems for NO<sub>x</sub> emissions control. The coal that is burned in the boiler is a washed and blended 2% sulfur eastern bituminous coal. The boiler is also equipped with Babcock & Wilcox, (formerly Joy Environmental) spray dryers and fabric filters for control of SO<sub>2</sub> and particulate emissions. The spray dryer and baghouse arrangement is generally accepted to be proven and reliable technology. The use of two fifty percent boilers instead of one hundred percent boiler was required to support the reliability requirements for process steam supply to the DuPont Chambers Works.

The steam turbine is a single automatic extraction Alstom unit and is designed to accommodate a very high percentage (up to approximately 42%) of total steam to be potentially extracted as process steam. In practice, the historic process steam requirement varies over the range of

approximately 4 to 12 percent of total steam flow (10-30% of possible process steam flow). The turbine is also unusual due its use of the Alstom "Optiflow" combined intermediate pressure/low pressure ("IP/LP") module in a single casing consisting of a single central IP flow and two symmetrical and opposed LP flows located on either side of the IP section. The 759 mm (29.9 in.) last stage blade length is considered to be a proven Alstom design. The turbine has generally operated reliably except for multiple incidents of steam leaks in the crossover pipe expansion joint and a valve spindle failure. The valve spindle failure has not recurred and a reported final expansion joint solution was implemented during the fall 2004 outage.

The generator is an Alstom conventional hydrogen cooled with water cooled stator design. Many Alstom generators have been subject to vibration-related issues including the type of phase lead failure which occurred on this unit. The phase lead failure was repaired and is being monitored during the steam turbine outages.

### 1.3 FACILITY DESCRIPTION AND CONDITION ASSESSMENT

#### Boilers

Foster Wheeler supplied the drum-type steam generators (boilers) and related boiler auxiliary equipment. There are two 50 percent capacity boilers connected to a single steam turbine-generator. The total design steam capacity of the two boilers is 2.4 million lb/hr (1.2 million lb/hr each) at a temperature of 1,005°F and a pressure of 1,900 psig. DuPont Chamber Works process steam is supplied from either turbine extraction steam or conditioned boiler main steam when the turbine is not operational. The process steam design requirements range from 100,000 lb/hr to 1,000,000 lb/hr at 250 psia and 416°F at the Facility.

The boilers are inspected annually and general preventative maintenance performed as required, however beginning in 2004 the boiler inspections are scheduled every 18 months unless required more frequently. Since the boilers have only been operating about 11 years, the Facility operations have been performing non-destructive examinations to monitor tube wall thickness status on critical boiler components. Normal burner and auxiliary hardware maintenance issues are addressed during the periodic inspections with major boiler work being completed every two to three years based on the annual inspections. The operators have developed a 20 year outage forecast table, listing all the major pieces of equipment, that the Facility operations uses to track equipment maintenance and estimated maintenance cost. The two boilers have been operating as required and are being maintained to support the DuPont Chamber Works' requirement of 100 percent steam availability.

The boilers have periodically experienced slagging in the furnace area as a result of a lower ash fusion temperature coal. The operations group worked with the coal supplier to correct the low ash fusion temperature issue. The boilers are able to operate reliably with the lower ash fusion temperature coal, but require periodic load reductions and extra soot blowing cycles to control the slag buildup.

A visual inspection of the operating boilers during our site visit did not reveal any significant gas leaks, vibration, noises, hot casing spots, or buckstay distortions.

### Steam Turbine Generator

The steam turbine generator was supplied by Alstom (formerly GEC Alsthom). The turbine is a 20-stage tandem compound, two flow non-reheat design with a single IP flow located between two symmetrical and opposed LP flows within the same casing with 759 mm (29.9 inch) last stage blades of proven design. It has a nameplate rating of 285 MW with throttle steam conditions of 1,800 psig, 1,000°F at 3.25 in. Hg. exhaust pressure and a throttle steam flow of 2,400,000 lb/hr. The non-reheat design was utilized due to the high and variable process steam flow relative to the throttle steam flow and the required process steam pressure. There are a total of 6 extraction points including a single automatic extraction at the exhaust of the high pressure turbine that is capable of providing up to 1,000,000 lb/hr steam at controlled steam conditions for DuPont's process requirements. However, historic DuPont Chamber Works process steam demand varies between 100,000 lb/hr and 350,000 lb/hr with an average annual steam flow of about 200,000 lb/hr. Depending on the process steam demand, maximum electrical output will vary. The generator is a direct driven, synchronous 3600 rpm, water and hydrogen cooled machine with a nameplate rating of 335.3 MVA at 23 kV with a 0.85 power factor. The turbine generator is located indoors.

Major overhauls on the turbine are performed at 7-year intervals as dictated by condition with valves overhauled at 3 year intervals on a rotating basis. The first major turbine overhaul since initial commercial operation in 1994 was carried out in 2001 and included the HP turbine, IP/LP turbine, three of the eight turbine valves including actuators, turbine/generator alignment, and a steam path audit. A light coating of iron was observed along the steam path, prompting a glass bead blast cleaning which appears to have resulted in about a 4 MW restoration due to reduction in surface roughness. Major repairs included weld repair of moisture undercut damage to the welds attaching diaphragm blades to the carrier on the L1 and L2 stages and pad welding of water erosion damage on the last stage diaphragm diffuser on the turbine side flow. Fractured spill strips were observed on the IP turbine, most likely the result of an initial rub according to Alstom. The IP spill strips repair was deferred during the 2001 overhaul but it is intended that they be totally replaced and the diaphragm welds coated to control further erosion during the next major overhaul currently scheduled for 2009.

The upstream right side metal bellows expansion joint on the turbine crossover pipe was subject to seven incidents of steam leaks beginning between January 2000 and April 2002. Replacement joints to date have been of a 316L stainless steel rather than the original 18-10 material that is more resistant to the presumptive stress corrosion cracking failure mechanism. The April 2002 repair eliminated the excessive stress but the material retained the increased susceptibility to stress corrosion cracking. Although there have been no further failures to date, the Facility operator replaced both of the 316L right side expansion joints with joints constructed of Inconel material during the fall 2004 outage.

In addition, the turbine controls were upgraded to a new Siemens Westinghouse system during the fall 2004 outage because the current system is no longer being supported by the manufacturer. This will be an "island" system and not interfaced with the Facility's distributed control system.

In 1999, a generator phase lead loosened due to vibration, and shorted to ground. Carbon from the resulting arcing contaminated the generator stator, necessitating a lengthy outage to remove the rotor and clean the stator. As a result of the incident, Alstom recommended that a hammer test be performed on the phase leads at 18 month intervals in order to detect potential vibration problems and a partial discharge monitoring system (the Alstom "GOLD" system) was installed for on-line monitoring of generator deterioration. The Facility operator also performs thermographic preventative maintenance inspections on the exciter and changes out the brushes periodically as required.

During the 2001 major turbine overhaul, an inspection of the generator terminal box revealed some greasing at the clamping points. A bump test indicated that the amplitude was too high on one of the six phase leads and a 12 kg weight was added to "tune" and dampen the vibrations which could have been contributing to the insulation greasing.

The Facility experienced a generator ground fault trip in January 2003. The root cause was determined to be a faulty potential transformer that was replaced rather than a fault within the generator itself.

In general, the turbine generator and related auxiliary systems appear to be well maintained and in good condition. The generator is scheduled for a major overhaul in 2006.

### Flue Gas Desulfurization System

The flue gas desulfurization system removes SO<sub>2</sub> and particulates from the flue gas prior to discharge into the atmosphere. The Facility uses a dry scrubber which consists of a spray dryer that initiates SO<sub>2</sub> removal reactions. A baghouse located downstream from the dry scrubber removes particulates from the flue gas and completes the SO<sub>2</sub> removal reactions. Dry scrubbers have been used for many years and have performed reliably.

The dry scrubber system was designed with an emergency spray header that could be used in the event the main spray atomizer was removed for maintenance or repair when the boiler was in service. Since initial operation the emergency spray header was never able to maintain SO<sub>2</sub> removal efficiency to the level of the main spray atomizers. The operations group was able to work around this issue by going to three hours SO<sub>2</sub> averaging and by having a spare main spray atomizer available to install into the scrubber vessel. After 11 years of operation the operation's group has noted some thinning of the scrubber vessel wall. The necessary repairs were implemented to maintain the wall thickness and integrity during the subsequent major outage.

In our opinion the flue gas desulfurization system has demonstrated its ability for controlling SO<sub>2</sub> emissions within permitted levels.

### Selective Catalytic Reduction System

In order to satisfy New Jersey's NO<sub>x</sub> emissions regulations, low NO<sub>x</sub> burners with overfire air and SCR were selected for the Facility. The SCR system removes NO<sub>x</sub> from the flue gas by reacting ammonia with the NO<sub>x</sub> in the flue gas and passing it over a catalyst located between the

economizer and the air heater. The SCR system consists of three subsystems: 1) the SCR catalyst located in the flue gas stream, 2) the ammonia storage and preparation system, and 3) the manifold that injects the ammonia/air mixture into the flue gas immediately ahead of the catalyst bed.

The SCR system has operated successfully in removing NO<sub>x</sub> emissions in accordance with permit requirements. The SCR catalyst has operated as expected and the additional space for the third row of catalyst has been utilized. Plans are to clean and add new catalyst as required to maintain the SCR catalyst efficiency.

### Balance of Plant

The Facility has a single condensate and feedwater system including two 100% capacity motor driven condensate pumps, three low pressure feedwater heaters, a full-sized primary deaerator, a recently installed partial capacity standby deaerator, three 50% capacity motor driven feedwater pumps, and two high pressure feedwater heaters. The standby deaerator permits maintenance of the primary deaerator without requiring a Facility outage and is sufficient to support the turbine on minimum load while providing for the DuPont Chamber Works process steam demand. The primary deaerator was internally inspected and found to be in generally good condition with no issues with welds or corrosion. There was some washing out (erosion) observed where the recirculation line entered the deaerator and the nozzle entry direction was altered to discourage further erosion and a monitoring program initiated. The No. 6 feedwater heater was replaced with a new unit in 2000 in order to resolve a problem with flow-induced vibration. The single feedwater system with no bypass capability makes valve maintenance difficult without a Facility outage. The No. 1 boiler feedwater control valve was replaced with a more efficient design and the valve for No. 2 boiler was replaced during the fall 2004 outage. The operator repaired a leaking boiler feed pump discharge valve without having to install a line stop due to the lack of a bypass since there is no bypass piping installed.

The condenser is equipped with 90/10 Cu Ni (copper nickel) tubes, of which only approximately 1% have been plugged which is less than anticipated and less than the 3% margin that is normally installed. Eddy current testing has shown no significant tube wall loss and there are no signs of ammonia gouging in the air section tubes. However, there was evidence of a reduction in flow in the lower tubes which required tube cleaning during the fall 2004 outage. The No. 4 extraction expansion joint located within the condenser failed (exploded) in 2003 and was replaced with an improved design meeting today's stricter code. All other extraction expansion joints within the condenser are being surveyed in order to determine any further replacement needs.

The circulating water system for cooling the condenser includes two 50% capacity circulating water pumps and a Hamon forced draft wooden cooling tower with PVC fill. Eighty percent of the wood in the air section has been replaced with treated redwood, all hangers replaced with stainless steel, and the drift eliminators replaced with a high efficiency design in order to reduce detrimental water drift onto adjacent Plant structures. The fill is original and still serviceable however the operator is economically evaluating the addition of another half or full layer of fill in order to improve hot weather performance and restore an approximate loss of 3-4 MW in

summer peak temperature conditions. The cooling tower is equipped with a fire protection (sprinkler) system. Because of extensive corrosion of the original galvanized cooling tower fire protection piping, the cooling tower fire system piping was replaced in March and April of 2005 with 304 grade stainless steel piping. The fire piping was tested for leaks before returning it to service. The wooden top decking of the cooling tower was deteriorating and was replaced with fiberglass-reinforced plastic decking over the 2003-2004 time period.

Raw water for the Facility is received at approximately 5,500 gpm under contract from DuPont. The water is chlorinated, clarified, and filtered to be used for cooling tower make up and is further treated in three, 3-bed demineralizer trains for boiler feedwater makeup. The water treatment system design is based on providing 1,000,000 lb/hr steam to DuPont Chamber Works with no condensate return. Based on the current low process steam demand there is considerable excess water treatment system capacity. The DuPont Chamber Works primary source of the raw water is the Salem Canal (surface runoff water). During a 40-year drought in 2002, the canal dropped to level of 1 ft, compared to the normal 5 ft level. The drought plan that was in place showed that DuPont Chamber Works had backup water wells, and could draw from the Sportsman's Club pond and the Clemente gravel pit if required. Stone & Webster Consultants did not investigate the potential capacity of these backup water supplies but are reported to be reasonable.

The service water system includes two 100% capacity pumps taking suction from the cooling tower basin and discharging into the condenser circulating water return line.

The Facility is equipped with rotary screw service air and instrument air compressors. The operators did not report any operating problems with either of the compressed air systems.

The above balance of plant systems and equipment appear to be in generally good condition and are supporting the Facility's high reliability.

### Electrical Power System

Electrical power produced by the 335 MVA station generator is exported to two Conectiv 230 kV transmission lines via the Facility's 230 kV gas/air insulated switching station and to DuPont Chambers Works via seven 11.5 kV tie lines.

The two 230 kV transmission lines serving the Facility can be sectionalized within the Facility's switching station to ensure that loss of one transmission line will not impair the export or import of electrical power. Startup and emergency power will be provided to the Facility from Conectiv's 230 kV transmission line.

The main step-up transformer was manufactured by VA Tech and it converts the generator 23kV voltage to the 230 kV transmission voltage. The main step-up transformer is sized for the expected output to Conectiv, DuPont, and the station auxiliary loads plus some spare capacity for future growth.

Typical utility industry practice is to schedule transformer oil and gas analysis in one-month, to one-year intervals. Oil samples, taken from the Facility main transformer on March 22, 2004, were found to contain higher levels of dissolved gases than expected for the comparable analysis from the preceding annual test in 2003. The purpose of the transformer oil tests is to identify any abnormal constituents in the transformer oil that could indicate a potential problem. Each abnormal constituent has a unique signature linking the particular constituent to a specific potential problem. While the most recent combustible gas levels in the oil continue to rise, they remain less than the index used to monitor the flammability of the oil.

The Facility utilizes oil filled transformers with circulating pumps and fans, which are standard in the utility industry for main service transformers. While the cooling system is typically operated only in hot weather, the cooling system can be run at any time with little or no impact on station performance. On April 15, 2004, the operator started the main transformer oil circulating pump motors and cooling fans to provide some additional oil cooling to any hot spots within the transformer, and to dilute the dissolved gases in the transformer oil.

The operator took a station outage at the end of April 2004 to perform a limited internal inspection of the transformer. Acoustic monitoring testing prior to the outage had detected three areas of high acoustic activity. Two areas were near the bushing connections, and one near the center of one of the transformer cores. Acoustic monitoring is another diagnostic tool for monitoring power plant equipment. During the limited internal inspection of the transformer, the transformer oil level was lowered to a point not to uncover the main core coils, the access hatch was removed, and a technician inspected the transformer bushing connections. To the extent accessible, the bushings connections and insulation in the vicinity of the high levels of acoustic activity near the bushings were checked and no unusual conditions were found. The third area of high acoustic activity near the middle of the transformer core was not accessible for inspection. The transformer was refilled to the required oil level and the oil was filtered, and dried before restarting the station. The limited internal inspection did not identify the specific reason for the high transformer gas readings.

The operator has replaced the original transformer with a new unit which was delivered to the site in late October 2004 and installed during the December 2004 major outage. The original transformer is currently being stored on site and can be used as a spare.

Two station service transformers, served from the 230 kV station bus, have separate medium voltage windings to establish the revenue metering fee for the DuPont Chambers Works and the station auxiliaries. Each station service transformer has an 11.5 kV winding which is connected to two 3000 amp, 11.5 kV, 750 MVA busses, based on three phase symmetrical interrupting capability. Circuit breaker switching permits each winding to feed one or both busses. Each winding has adequate capacity to serve both busses with capacity for future growth. Each station service transformer also has a 13.8 kV winding which is connected to one 3000 amp, 13.8 kV, 750 MVA bus, based on three phase symmetrical interrupting capability. The two 13.8 kV busses can be connected together by a 2000 amp tie breaker so that both 13.8 kV busses may be served by either one of the station service transformers for operational flexibility. Each 13.8 kV winding has acceptable capacity to serve both busses with capacity for future growth.

Two uninterruptible power supplies are provided for critical loads such as the distributed digital control system at the burner management system and critical field instrumentation for which the loss of power would immediately affect unit operation.

A 125 volt DC battery distribution system is provided to supply critical equipment and protective devices, such as turbine generator bearing and shaft seal oil emergency pumps, circuit breaker controls, vital AC inverter, and various other control circuits for a minimum period of 2 hours following a complete loss of station normal AC power. Protective relaying is provided in accordance with industry standards.

Revenue metering is furnished and installed by Conectiv at each of the two points of delivery to Conectiv, to the main feeders from the Facility to the DuPont Chambers Works, and to the main feeders to the station auxiliary busses. Revenue quality metering is provided for generator gross output. Non-revenue metering for DuPont Chambers Works is provided on each of the seven 11.5 kV feeders.

The operations group recently enclosed the Facility motor control center and breakers in a control atmosphere room to prevent potential corrosion and moisture problems that were being identified with the electrical equipment. The equipment problems were addressed before the control atmosphere room was installed.

### Control Systems

Controls and instrumentation are provided to permit normal operation in a central control room with local controls for coal handling, ash unloading, lime handling and slurry preparations, baghouse controls, feedwater heater drains, and boiler feed pump recirculation. There are no major issues with the control system operations other than the obsolescence concerns and spare parts availability. Plans are being developed to upgrade the control and instrumentation systems as schedule dictates.

The turbine is controlled by a hydraulic governor system from the central control room, with startup controls from local panels adjacent to the turbine-generator. Generator and electrical system controls for synchronization, voltage regulation, switchgear operations, and large motor control is hardwired for control from the central control room.

Continuous stack emissions monitoring and recording are provided to measure oxygen, carbon monoxide, nitrogen dioxide, sulfur dioxide, opacity, and ammonia in accordance with U.S. Environmental Protection Agency ("EPA") and New Jersey requirements. These data also are shared by the distributed control system for Facility performance monitoring.

## 1.4 REMAINING USEFUL LIFE

There are only a few technical issues that can lead to an abrupt or unpredicted end of life of an electric generating station. In most cases, decisions to retire generating units are made for economic reasons, which may be the result of technical or environmental issues. The primary technical reasons that would cause units to be retired are likely to be the costly repair or

replacement of fatigue and creep damage to major components such as the boiler and turbine-generator that would exceed the net present value of the Facility.

The Facility has not accumulated sufficient operating hours and thermal cycles to begin to show damage from processes such as metal creep since it is only 11 years old. In addition the Facility dispatch is changing from a cycling mode to more of a base loaded mode. The relatively low pressure and temperature of the main steam further reduces possible component damage and loss of life. The Facility operator also initiated a continuing program of performing root cause analysis of failures which is expected to result in less repetitive failures and ultimately increased reliability and the potential for extended component life.

Given the current overall condition of the Facility and the continued application of continuous operation and maintenance combined with an appropriate level of capital expenditure as the Facility ages, the remaining useful life of the Facility is expected to exceed the term of the PPA.

### 1.5 PERMITS AND APPROVALS

Construction of the Carneys Point Generating Plant was complete and commercial operation commenced in March 1994. Construction was permitted under USEPA and New Jersey Department of Environmental Protection ("NJDEP") requirements for Prevention of Significant Deterioration, New Source Review, and Best Available Control Technology. The NJDEP initially issued a construction permit and subsequently issued and has periodically reissued Permits to Operate for the Facility and the various emissions sources.

Because the Facility is a certified QF, the Title IV Acid Rain regulations do not apply and a Title IV Acid Rain Permit is not required.

In 1995 an application was submitted with NJDEP for a Title V Operating Permit. On May 28, 2003 a draft Title V Permit was issued. However, in May and December 2003 the Facility requested minor modifications and a revision relating to a coal throughput limit and the magnetic gauge levels for compliance documentation for the small fabric filter systems. The Facility personnel now indicate that the permit modifications have been resolved and the permit revised. The Title V permit is next scheduled to expire in 2008 and should continue to be renewed in the normal course of business.

Because all industrial wastewater from the Facility is sent to the adjoining DuPont Chambers Works for treatment and discharge, no discharge permit is needed for boiler and cooling tower blowdown and wastewaters other than stormwater runoff. Stormwater is directed to five storage basins whose overflows are sampled under requirements of a NJDEP Surface Water Discharge Permit. In addition a Groundwater Protection Permit is required, which is in place.

The status of key permits is summarized in the following table.

**Status of Key Permits and Approvals  
Carneys Point Facility**

Permit	Permit Number	Permit Expiration	Issuing Authority
NJPDES/Discharge to Groundwater	NJ0128996	4/30/09	NJDEP
NJPDES/Discharge to Surface Water	NJ0073750	Administrative Revocation issued on 9/30/03 due to extended compliance on stormwater samples which are reported to no longer be required	NJDEP
Title V Permit  Modification Request (May 9, 2003) to increase annual throughput of selected coal conveyors. Plant staff reports issues resolved. ## 2.0 OPERATIONS

### 2.1 HISTORICAL PERFORMANCE

The past several years of operating history for the Facility are summarized in the following table. The data was taken from year-end and year-to-date operating reports for the Facility.

**Carney's Point Facility Operating History**

Year	Capacity Factor (%)	Overall Availability Factor (%)	Net Generation Sold (MWh)	Overall Heat Rate (Btu/KWh)	Steam Production Sold (Klbs)	Equivalent Forced Outage Rate (%)
2000	63.11	91.94	1,352,211	11,512	2,057,706	4.77
2001	70.03	87.58	1,496,360	11,059	1,740,629	0.55
2002	80.83	95.84	1,726,649	10,844	1,634,912	0.84
2003	80.13	87.26	1,721,728	11,212	1,726,218	7.63
2004	87.27	90.75	1,883,262	11,073	1,838,584	2.27
2005 YTD	90.89	93.67	1,301,783	10,932	1,206,645	2.95

Note: YTD 2005 is January through August

The average availability factor over the five year period 2000-2004 was 90.67%. This compares favorably to the industry average 87.49% for similar size and type plants over the period 1999-2003, based on North American Electric Reliability Council Generating Availability Data System data.

Based on the historical performance, the contractual payment and incentive provisions, and general observations of the Plant and O&M practices, we are of the opinion that the Facility should be capable of achieving the projected annual generation, availability factor, capacity factor, heat rate, steam production, and equivalent forced outage rates assumed in the Projected Operating Results.

### 2.2 OPERATIONS AND MAINTENANCE

#### Organization and Staffing

The Facility was previously operated and maintained by National Energy & Gas Transmission ("NEGT"), an entity reorganized from PG&E National Energy Group, under an Operation and Maintenance Agreement originally established between Chambers Cogeneration Limited Partnership (Owner) and PG&E Operating Services Company (Operator) in 1991. On February 1, 2005, the Operations and Maintenance Agreement was transferred from National Energy

Power Company, LLC, Power Services to North American Energy Services (NAES). NAES is responsible for the operation and maintenance of the Facility.

The Facility staff totals an equivalent 55 including 49 full time personnel plus personnel who are shared with the nearby Logan plant (but operated by Cogentrix) and is included in the total count as required. These positions include the O&M staff, as well as management, and administrative staff for the Facility. The staff includes 19 operators, 5 material handlers, 7 maintenance technicians, 2 electricians, 2 I&C technician, and a material specialist. There are 4 shift supervisors and a full time plant engineer, maintenance planner, and accountant. The Facility has a full time General Manager who is responsible for the overall management of the Facility including personnel, safety, public relations, environmental compliance, and plant performance. He is assisted by a full time maintenance manager, engineering manager, and operations manager. Other positions, including several of administrative nature, are filled by shared personnel.

The Facility is operated on four-12 hour shifts with one control room operator, three operators in the plant, and a roving shift supervisor.

O&M Expenses

Non-fuel operating expenses include labor, routine and planned maintenance, consumables, operator and management fees, taxes and insurance, and general operating expenses and are summarized in the following table.

**Carney's Point Non-fuel Operating Expenses (\$000)**

Year	2001	2002	2003	2004
<b>Non-fuel operating expense</b>	23,477	17,814	21,419	23,723

The total non-fuel operating expense averages \$21,608 over this four-year period. The 2004 forecast forms the basis for the 2005-2025 projections presented later.

Stone & Webster reviewed the actual and budgeted operating and maintenance costs for the years 2003, 2004 and year-to-date August 2005. The following presents a comparison of actual to budget for 2003 and 2004.

<b>Non-Fuel Operating and Maintenance Expenses (\$000)</b>					
Year	2003		2004		2005
	Budget	Actual	Budget	Actual	Budget
<b>O&amp;M</b>					
<b>Site Labor &amp; Supervision</b>					
Labor		5,335	5,309	5,106	5,610
Labor Related Expenses		158	304	570	316

Non-Fuel Operating and Maintenance Expenses (\$000)					
Year	2003		2004		2005
	Budget	Actual	Budget	Actual	Budget
<b>Maintenance</b>					
Routine		2,628	1,800	4,405	2,675
Planned		1,454	910	2,215	1,164
Standby Power		1,237	857	1,794	573
Consumables		252	178	187	178
Permitting & Compliance		-	-	-	2
Operator / Manager Fees		3,187	2,590	2,222	2,446
Property Taxes PILOT		1,634	2,000	1,984	2,100
Insurance		991	1,061	1,035	1,090
Professional Services		1,820	1,976	1,951	2,027
Other		2,723	2,666	2,254	2,723
<b>Total Non-Fuel O&amp;M</b>		<b>21,419</b>	<b>19,651</b>	<b>23,723</b>	<b>20,904</b>

The 2004 actual maintenance expenses are approximately \$4 million over the budget. This variance is mainly attributed to non-budgeted items for certain maintenance expenses. Routine maintenance was \$2,605,000 over budget due to non budgeted items such as the transformer, aux boiler duct, heat trace, roof purlins, flyash exhauster, SCAH safeties, and pumps. The Project was over budget on the overhaul of B hotwell pump, scaffolding, and tie boiler cables. Planned maintenance was \$1,306,000 over budget due to non budgeted items such as the FD and ID fan drives, and valve replacement. The Facility was over budget on the SDA vessel repair, valves, air preheater baskets (APH), and removal of soot blowers.

The 2004 actual operating expenses include several major maintenance activities:

- Replacement of generator step-up transformer
- Replacement of turbine controls system
- Overhaul six of eight turbine valves
- Replacement of air preheater baskets
- Replacement of ID fan inlet vanes and coating of impeller
- Refurbishment of SDA vessel
- Installed layer of SCR catalysis

Most of the noted over budget operating expenses, such as the generator start-up transformer, should be non-reoccurring expenses and not expected to continue or will be scheduled in future budgets based on their expected operating life.

The standby power is \$937,000 higher than budgeted due to rescheduling of an outage, non budgeted reactive demand charges and higher real time PJM pricing.

While a variance occurred in 2004, Stone & Webster Consultants finds the projected operating budgets to be sufficient to support proper maintenance of the plant and to be used as a basis for the financial projections.

**Planned Maintenance**

Maintenance is typically done on a preventative basis. The main steam turbine generator was overhauled in 2001 and an 8-year interval is expected to be approximated in the future, based on continuing condition assessments of the turbine. The generator overhaul is based on a 7 year interval. The generator overhaul is decoupled from the turbine overhaul due to limited laydown space. Typically the turbine and generator is fully inspected including NDT and visual inspection, diaphragms and blades are blast cleaned, touched up and repaired as necessary. Seals and bearings are repaired and replaced as necessary. Valves are overhauled on a more frequent basis including stem replacement and seat replacement as necessary. Boiler overhauls have historically been performed annually, which consists of a scheduled two week outage for each boiler on a rotating basis and generally include inspection and such procedures as tube thickness mapping, refractory repairs, etc. There are currently few incidences of boiler tube leaks although the boilers will be acid cleaned within the next two years. Repairs on pumps, water treatment equipment, circulating water system equipment and electrical items such as breakers and motors are done throughout the course of the year on an opportunity basis.

The following table presents the Facility's ten-year outage forecast.

Year	Equipment	Spring Days	Activity	Equipment	Fall Days	Activity
2005	Boiler 1	14	Annual boiler outage			
2006	Boiler 2	21	Annual boiler outage, SCR catalyst addition	Turbine, Generator, Boiler 1	45	Major overhaul, chemical cleaning, SCR catalyst, turbine, overhaul 8 turbine valves, generator overhaul
2007	-			Boiler 2	28	Major overhaul, chemical cleaning, mill overhaul
2008	Turbine, Boiler 1	21	Annual outage, SCR catalyst addition	-	-	
2009	Turbine, Valves, Boiler 2	45	Annual boiler outage, major turbine overhaul, overhaul 8 turbine valves	Boiler 1	14	Annual turbine outage

**OPERATIONS**

Year	Equipment	Spring Days	Activity	Equipment	Fall Days	Activity
2010	-	-		Turbine, Boiler 2	14	Annual boiler outage, SCR catalyst addition, turbine work, APH
2011	Boiler 1	14	Annual boiler outage, SCR catalyst addition, APH	-	-	
2012	Turbine, Valves, Boiler 2	14	Annual boiler outage, turbine work, overhaul 8 turbine valves, baghouse overhaul	Boiler 1	14	Annual boiler outage, baghouse overhaul
2013	-	-		Boiler	14	Annual boiler outage, turbine work,
2014	Boiler	14		-	-	

The following table presents the Facility's estimate for certain major maintenance activities.

Year	Turbine Overhaul (\$000)	Generator Inspection (\$000)	Turbine Valves (\$000)	Baghouse (\$000)	Boiler Overhaul (\$000)	SCR Catalyst Replacement (\$000)
2005						250
2006		642	572		1,847	
2007					1,520	
2008						
2009	2,094		643			
2010						1,238
2011						
2012			724	1,539		
2013						
2014						
2015		914	814			
2016						
2017						
2018	2,980		916			
2019					3,075	4,948
2020				2,107		

Year	Turbine Overhaul (\$000)	Generator Inspection (\$000)	Turbine Valves (\$000)	Baghouse (\$000)	Boiler Overhaul (\$000)	SCR Catalyst Replacement (\$000)
2021			1,600			
2022						
2023						
2024						

Stone & Webster Consultants finds that the estimate for the above major activities are sufficient to support the efforts and to be used in the Financial Model.

Current ongoing issues of significance with respect to the operation and maintenance of the Facility include the following:

1. The single feedwater system with no bypass capability complicates valve maintenance. The capital budget for 2005 includes funds for the installation of a bypass system. As of August 2005, the work is 60% complete.
2. The Burner Management System is anticipated to become obsolete within the next five years, which will require the replacement of the entire system. Replacement of the BMS on boiler 1 is planned for 2005. As of August 2005, the work is 75% complete.
3. The effect of plant aging continues to appear in the form of corrosion. Recent inspections have resulted in the need for repairs to the ID fan inlet ductwork, either by coating or plating. The CP Facility has committed to recoat critical vessels and structures that are being aggressively attacked by corrosive agents originating in the cooling tower drift/mist and flue gas path. Repairs are scheduled for 2005-2006. Repairs to boiler 1 are scheduled for 2005.
4. The Facility is expected to operate at high capacity factors. An effect of the high capacity factor has been an increase in the cumulative amount of ammonia that passes through the SCR catalyst and into the APH, resulting in more frequent APH washing. To mitigate this problem, the catalyst requires more frequent change out. A new top layer catalyst was installed in 2004 for Unit 2 SCR, Unit 1 is scheduled for 2005
5. The Facility labor force voted for representation by the International Brotherhood of Electrical Workers ("IBEW") Union on May 28, 2003 and negotiations over contract terms have continued since. North American Energy Service and IBEW met in August 2005 to continue labor negotiations. The employees have approved a one year union contract with NAES that is reflected in the budget.

Fuel

Coal costs currently represent about 70% of production costs and determine the price competitiveness of Facility into the regional market. The Facility has a 20 year contract from the date of commercial operation with CONSOL. The coal is sourced from mines in West Virginia and from southwestern Pennsylvania and delivered to the site by rail. The coal provided is a medium sulfur bituminous coal with a sulfur content of approximately 2 percent and a heating value of approximately 13,000 Btu/lb. The average sulfur value for August YTD is 1.84%.

Coal pile inventory the beginning of August was 51,805 tons (approximately 27 days of operation at full load) and 41,635 tons (approximately 21 days of operation at full load) the end of the month. There have been seven missed coal deliveries for 2005.

The price paid for coal includes a supply and transportation component. The base price as of January 1, 1990, was \$40.25/ton. This base price consisted of a supply price of \$27.25/ton and a transportation price of \$13/ton. The contract includes quarterly price adjustment provisions based on the net change in prices reported to FERC by twenty five mid-Atlantic utility power plants over a twelve month period ending six months before the quarterly adjustment date. Because the index inherently trails, it lags current market conditions. Consequently, any change in coal prices tends to take at least six months to be realized at the Facility. The Facility coal price is currently significantly below short term or spot market prices. The August YTD cost of coal is \$50.49/ton, which compares favorably to the budget of \$53.41/ton

An issue with the coal contract is the cost of coal delivered to produce power in excess of the 185 MW under the PSA. CONSOL argues that it should receive the market price instead of the contract price for this increment of coal supply. The spot market price is approximately \$20 per ton higher than the current contract price, but plant management believes that if necessary it could enter into a contract for the quantities at approx. \$10 per ton more than the current Consol agreement. The partnership strongly believes its interpretation of the contract will prevail in court and has filed suit against CONSOL to enforce its interpretation. The Facility does have a backup for market coal and its operations would not be affected.

Maintenance is typically done on a preventative basis. The main steam turbine generator was overhauled following its first seven years of operation and this interval is expected to be approximated at eight years in the future, based on continuing condition assessments of the turbine. Typically the turbine and generator is fully inspected including non-destructive testing and visual inspection, diaphragms and blades are blast cleaned, touched up, and repaired as necessary. Seals and bearings are repaired and replaced as necessary. Valves are overhauled on a more frequent basis including stem replacement and seat replacement as necessary. Boiler maintenance overhauls have historically been performed annually but beginning in 2004 will be scheduled every 18 months unless required more frequently. This will consist of a scheduled two week outage for each boiler on a rotating basis and generally include inspection and such procedures as tube thickness mapping, refractory repairs, etc. There are currently few incidences of boiler tube leaks although it is likely that the boilers will be acid cleaned within the next two years. Repairs on pumps, water treatment equipment, circulating water system equipment and electrical items such as breakers and motors are done throughout the course of the year on an opportunity basis.

### 2.3 REGULATORY COMPLIANCE

Emissions source testing is required by NJDEP to confirm compliance with NO<sub>x</sub>, CO, SO<sub>x</sub>, VOC, NH<sub>3</sub> and PM limits. A source test was conducted on January 19-29, 2004, which demonstrated compliance with permit requirements. In addition tests were run for HF, HCl, PCDF/TCDF, PAH and metals. Levels of these contaminants were found to be acceptable.

Emissions of NO<sub>x</sub>, CO, SO<sub>2</sub> and opacity are continuously monitored by the CEMS in accordance with the Operating Permit requirements. Monthly Management Reports for the period from January 2003 through March 2004 indicate that measured emissions are generally in compliance with emissions limits. On October 13 and again on December 28, 2003 NO<sub>x</sub> emissions from Unit 2 and then Unit 1 exceeded the three hour average limit by approximately 4%. On January 10, 2004 Unit 1 exceeded the three hour average SO<sub>2</sub> limit. Monthly Management Reports for the period from May through July 2005 indicate that no excess emission event occurred in the year through July 2005.

Intermittent, random exceedances of emission limits are not unusual for coal fired power plants. Periodically enforcement issues are initiated by the responsible, regulatory agency. The following table prepared by the Facility personnel summarizes the active enforcement issues and penalties initiated by NJDEP. No violation notices were received in 2001 and 2002.

**Active Emissions Enforcement Issues with NJDEP  
Carneys Point Plant**

Action	Date of Action	Status	Description
Excess Opacity Emission	June 7, 2005	Affirmative Defense Filed	On June 7, 2005, Unit 2 had an opacity excess emission for 4 minutes greater than 10%. An affirmative defense was submitted based on an equipment malfunction of the outlet poppit valves. There has been no Departmental action to date.
Administrative Order and Assessment of Civil Administrative Penalty	June 28, 2005	Open. Request for Adjudicatory Hearing was filed on July 15, 2005.	Carneys Point received an Administrative Order and Notice of Civil Administrative Penalty Assessment (AONOCAPA) for failure to conduct the initial stack test on Units 1 and 2 within 180 days of the Title V Operating Permit.

The above issues are primarily procedural. The emission issues related to performance are limited, and indicate no pattern of non-compliance amenable to significant upgrade or modification. Although it is likely that the Facility will continue to be assessed modest (<\$5000/year) penalties for procedural matters, Stone & Webster Consultants does not consider the intermittent emission excursions over this period indicative of a significant operating concern or emission issue predicating significant equipment upgrade.

The Facility has operated in compliance with ozone season NO<sub>x</sub> emission budget programs since 1999. Starting in 1999 it participated in NO<sub>x</sub> allowance trading under the Ozone Transport Commission program, and starting May 31, 2004 has been complying with the NJDEP administered NO<sub>x</sub> ozone season budget program. Although the Facility has been a modest consumer of allowances, the NJDEP provides excess allowances (available from the Growth

Fund) to cover the excess based on the Facility's compliance with energy efficiency provisions. As a result, there is currently no cost to the Facility for allowance purchases. The following table summarizes ozone season allowance activity for the Facility.

**Ozone Season NO<sub>x</sub> Emissions and Allocations  
Carneys Point 2003-2005**

Year	Emissions	Allocation	Growth Fund
2003	582	419	163
2004	731	455	276
2005	~700 (estimated)	545	~155 (estimated)

Under a new NJDEP regulation the Facility will be required to achieve 90% removal of mercury emissions by 2007. Because of the current system design of the emission control system and use of lime spray absorber with a fabric filter system, it appears that the Facility is capable of complying with this requirement. On May 21, 2003 mercury emissions testing on the boilers indicated that the mercury emissions are reduced by approximately 95%. Additional testing is to be performed annually to confirm and document compliance performance. The Facility reports that for the last emission test, mercury was found to be below detection. In 2007 the Facility is required to perform additional mercury compliance testing. Although not currently planned, enhanced future mercury control may involve additional adsorbent injection which is less costly than control measures needed for other plants and coals.

In addition to compliance with currently effective permits and regulations, the Facility may also be subject to future air pollution control requirements for multi-pollutant control and greenhouse gas management as would other facilities. No plans have been developed for future mercury, NO<sub>x</sub>, SO<sub>2</sub>, PM and greenhouse gas emission compliance beyond what has been defined by enacted regulations for the Facility. The Facility expects to meet the requirements of future regulations as they are promulgated.

Because the Facility discharges the wastewater to the DuPont Chambers Works POTW, there are no permitted wastewater discharge pollutant limits. The Facility is required to sample the effluent of the stormwater basins. The stormwater, coal pile runoff basins, and the coal pile are lined which protects the groundwater from contaminated leachate. The Facility has no requirements to perform groundwater monitoring and relies on the DuPont Chamber Works groundwater monitoring system.

Bottom ash and fly ash are sampled prior to disposal or delivery to ash purchasers for beneficial reuse to confirm that it is not a hazardous waste and is suitable for its intended use.

Hazardous Waste Activity notifications are required to be filed and ID numbers obtained from US EPA and NJDEP. Annual audits have been performed for toxic material practices at the Facility. Inspection results have indicated general compliance.

The Facility operates with a number of oil and chemical tanks including a 724K gal fuel oil tank, clean and used lube oil tanks (each 8.8K gal), 19.8K gal ammonia tank, and four acid and caustic tanks (2.7K to 15K gal). Under NJDEP Discharge Prevention, Containment and Countermeasure ("DPCC") Rules these tanks are inspected and tested for integrity every five years. A satisfactory inspection was reported in September 2003. The next test is scheduled for 2008.

Fuel oil for the boilers is piped underground from the oil storage tank into the Facility.

A DPCC spill prevention and control plan has been established and revised most recently in November 2003 for the Facility. It includes a spill event summary that indicates that in the period from July 1993 through February 1999, with the exception of one 50 gallon spill of caustic solution in April 1994, all oil and chemical spills were less than 10 gallons. Management Reports in the period from January 2003 through July 2005 indicate no reportable spills at the Facility.

Although early studies (pre-construction) of the site indicated the potential for soil and groundwater contamination, the Facility site is leased from the present owner, DuPont Chambers Works and DuPont provides indemnity for pre-existing conditions in the site lease. Further the Facility is built on a twenty foot mat of clean soil and has a Safe Dig policy protecting workers from hazardous material exposure for minor excavation activities at the Facility.

An Emergency Response Plan was revised in October 2003 and is scheduled to be revised once more in December 2005. The Plan was developed in accordance with applicable requirements associated with the storage and use of hazardous substances at the Facility.

The Facility has no other known environmental compliance issues, and has not received any notices of violation for water, hazardous materials, ash management or other issues. To our knowledge the Facility is not the subject of any private or governmental legal actions, or studies of environmental damage or impact.

### 3.0 PROJECTED OPERATING RESULTS

Stone & Webster Consultants reviewed the Financial Model which includes estimates and projections of the electrical capacity and electricity sales, steam generation capacity and steam sales, fuel consumption and operating costs for the CP Facility. Stone & Webster Consultants performed the market analysis, which is included in the Financial Model. Presented in Attachment 1 are the Projected Operating Results ("Projections") for each calendar year from 2005 through 2024.

Revenues for CCLP are derived from the sale of electricity energy and capacity under the PPA and PSA with ACE. Additional revenues are realized from the sale of steam and electricity to DuPont under the DuPont Contract. Expenses consist of fuel, non-fuel operating expenses, and debt service. The supply and transportation of coal is the largest fuel-related expense. Coal is provided under a long-term Coal Purchase Agreement with Consol. Epsilon Power Holding receives 40% of the cash available for distributions.

The terms of all the major contracts are through 2024 with the exception of the PSA and the Coal Purchase Agreement. The current PSA has a three-year term which runs through July 2006. The current PSA is similar in form to prior PSA's entered into with ACE. We have assumed a PSA similar to the current PSA will be in place through 2024. The Coal Purchase Agreement has an initial 20 year term (expires in 2014) with an initial extension of between 5 and 10 years. We have assumed that the Coal Purchase Agreement would be extended through 2024. The Projections are based on current contractual commitments through 2024, as described herein and have been prepared using assumptions and considerations set forth in the Report.

Stone & Webster has not reviewed the calculation of interest, principal and fee payments of project debt and confirmation that cash distributions to Epsilon Power Holding are consistent with ownership terms and provisions.

### 3.1 PERFORMANCE PROJECTIONS

The primary performance parameters are the electrical generating capacity, equivalent availability factor, capacity factor (electric generation), heat rate, and steam sales. In the Projections, the minimum and maximum capacity levels for the Facility are 46 MW and 233 MW for electric generation under the PPA and PSA. An additional 20 MW of capacity is provided to DuPont. Steam sales to DuPont are projected to average 196 klb/hr (approximately 1,700,000 klb/year).

A measure of the reliability of power generation facilities is the equivalent availability factor. This factor includes generation losses from forced outages, planned outages, and derates. The equivalent availability factor for the Facility is projected to vary based on the major maintenance outages. In addition, the forced outage rate is projected to slowly increase over time from 4% to 7%. The average availability over the forecast period is approximately 89%.

In order to develop a forecast of energy sales under the PPA and PSA, the 2003-August 2005 Facility performance and hourly PJM locational marginal prices for the Carney's Point facility were analyzed. Based on the locational marginal prices, the PPA contract on-peak and off-peak prices, the Facility's market initiatives, and the marginal cost for operating the Facility, a

baseline was developed for the energy sold under the PPA and PSA. For the Projections, this baseline was adjusted based on the generation in the Stone & Webster Consultants market forecast for the Facility. The average capacity factor for the Facility, which is a measure of the energy generation, averages 89% over the forecast period. Due to the high natural gas prices relative to coal prices for the forecasted period, the Facility is dispatched during both on and off-peak periods whenever it is available.

While most of the Facility energy is contracted, profitability is significantly affected by PJM energy prices. The PJM energy prices drive both the PPA and PSA dispatch. Further, the PSA revenues are a factor of market price. As part of its 2005 market initiatives, the Facility has established the goal to achieve 268 equivalent MW at least 88% of the time when the dispatch price is greater than \$35 per MW and 268 equivalent MW at least 91% of the time when the dispatch price is greater than \$50 per MW. The PJM market price has been substantial. The 2005 YTD average peak price is \$106.57/MWh, which is significantly greater than the 2005 budget \$60.25/MWh. The 2005 operating experience to date has a 90.9% capacity factor, which is consistent with the 89.3% budget capacity factor.

The average heat rate is projected to range between 10,662 Btu/kWh and 10,890 Btu/kWh at an average capacity factor of approximately 89%. A heat rate degradation of 0.08% per year is assumed to approximate the performance degradation due to normal wear and tear.

### 3.2 OPERATING REVENUES

Revenues for the Carney's Point Project are derived from electric power and capacity sales to Atlantic City Electric Company ("ACE") and DuPont and steam sales to DuPont. Stone & Webster Consultants performed the market analysis used for the revenue projections. Operating revenues for select years of the Projections are shown in the following table:

Year	Capacity	Energy			Steam	Total (\$000)
	PPA (\$000)	PPA (\$000)	PSA (\$000)	DuPont (\$000)	DuPont (\$000)	
Historical						
2001	58,137	23,125	14,448	12,398	6,717	114,825
2002	58,137	27,961	17,896	11,153	5,911	121,058
2003	58,137	31,653	22,676	12,217	7,889	132,572
2004	58,137	36,719	23,820	12,179	8,384	139,239
Projections						
2005	58,137	39,844	32,449	12,159	8,243	150,831
2006	58,137	35,298	29,123	12,280	8,820	143,658
2008	58,137	39,833	32,399	12,562	8,638	151,569
2009	58,137	36,275	29,164	12,653	8,515	144,742
2010	58,137	41,412	33,162	12,779	8,728	154,218

Year	Capacity	Energy			Steam	Total (\$000)
	PPA (\$000)	PPA (\$000)	PSA (\$000)	DuPont (\$000)	DuPont (\$000)	
2012	58,137	41,158	32,296	13,072	8,854	153,517
2015	58,137	41,541	30,747	13,431	8,841	152,697
2020	58,137	44,709	36,019	14,155	9,940	162,960

The prices for electric capacity and energy and steam sales are tied closely to the price of coal for the Facility. The coal prices have increased in the near term and this has increased the revenues. In addition, with the high gas prices in the region, the energy from the Facility, even with the higher coal prices, is very competitively priced. This has resulted in a substantial increase in generation during the off-peak hours, which has also increased the revenues. Specific terms and conditions for the contracted energy and capacity sales are described below.

Power Purchase Agreement

The Carney’s Point Project has a Power Purchase Agreement (“PPA”) with Atlantic City Electric Company (“ACE”). The PPA has a term of 30 years from the Commercial Operation Date. Commercial Operation was achieved in March 1994.

The PPA is for the sale of electric power and capacity from the Facility. The capacity obligation is 187.6 MW for the summer season and 173.2 MW for the winter season. Capacity payments are based on 184 MW. ACE makes a monthly payment for capacity based on 184 MW, a capacity price of \$26.33/kW-month, and an availability adjustment factor. Stone & Webster Consultants reviewed the actual capacity charges reported for 2000 through August 2005. The capacity charge in each year (2000–2004) was \$58.137 million (184 MW x 12 months x \$26.33/kW-month). Through August the capacity payment has been \$38,758 (184 MW x 8 x \$26.33/kW-month).

ACE’s energy purchase obligation is to purchase up to the net Facility output on a dispatchable basis. ACE can dispatch the Facility from a minimum load of 46 MW to the net Facility output. In consideration for the ability to dispatch the Facility, ACE has an obligation to pay for a minimum quantity of power. The minimum energy payment is based on 3,500 hours of operation at 182.2 MW multiplied by the energy price. A minimum of 58% of the operating hours are to be during on-peak periods. On-peak periods are defined as being from 9 AM to 11 PM, seven days per week. All other hours are off-peak hours. Under the PPA, if the Project is paid for power during periods it did not produce power, then the payments from ACE for these periods will be net of the fuel and variable operating costs.

The energy price under the PPA is separated into an on-peak and off-peak price. Both prices are based on a formula that includes a fixed and variable price. The variable price is adjusted annually by an index equal to the annual average coal cost to New Jersey utilities as reported on FERC Form 423. There is only one plant that is currently reporting under the index. Discussions are ongoing over a newly proposed index for 2006, similar to that of the Consol 25 plant index. The August Monthly Operating report indicates that the 423 Index increased the

indexed portion of the variable energy by 25% and has been confirmed but the 2006 period is still uncertain. The Financial Model did not assume the 25% run-up, instead the model incorporates a 15% increase from 2004 based on the mid-Atlantic index.

The recent on-peak and off-peak pricing is shown below:

Year	Index	On-Peak Price (\$/MWh)			Off-Peak Price (\$/MWh)		
		Fixed Price	Var. Price	Total Price	Fixed Price	Var. Price	Total Price
2000	81%	21.42	14.76	36.18	14.71	10.15	24.86
2001	78%	21.42	14.22	35.64	14.71	9.78	24.49
2002	85%	21.42	15.38	36.80	14.71	10.61	25.32
2003	112%	21.42	20.33	41.75	14.71	13.97	28.68
2004	103%	21.42	18.70	40.12	14.71	12.85	27.56
2005	115%	21.42	21.51	42.92	14.71	14.78	29.49

The CCLP is required to demonstrate annually that it can meet the summer and winter capacity requirements under the PPA. If the Project cannot meet at least 95% of the summer or winter capacity, then it must pay ACE the current PJM Capacity Deficiency Charge for each kW below 95% of the capacity requirements.

The CCLP must maintain Qualifying Facility ("QF") Status. If the Facility loses QF Status, the PPA remains in effect except that the payments to the Project are the lower of the contract price (capacity price plus energy price) and 99% of the hourly locational marginal price.

In the PPA, ACE acknowledges that the CCLP will provide electric energy and capacity to DuPont that is not part of the summer and winter capacity obligation to ACE. ACE further acknowledges that during periods when ACE dispatches the Facility below the summer and winter capacity, then the Project can sell the excess capacity and energy to DuPont.

Power Sales Agreement

The PSA between ACE and CCLP governs CCLP's sale of Excess Energy and Undispatched Energy and Excess Capacity from the Facility. The current PSA has a term from August 1, 2003 through July 31, 2006.

Excess Energy is defined as energy generated by the Facility when it operates above 187.6 MW during the summer and 173.2 MW during the winter. Undispatched Energy is the energy generated by the Facility above the amount dispatched by ACE but less than the summer and winter capacity levels of 187.6 MW and 173.2 MW. Excess Capacity is the capacity of the Facility, as tested, in excess of the summer and winter capacity levels of 187.6 MW and 173.2 MW.

The energy prices for Excess and Undispatched Energy is based on a threshold price of \$21/MWh with an adder based on either the day-ahead or real-time locational marginal price at the Chambers CCLP 230 kV bus ("LMP"). For Excess Energy, the energy price adder is the 75% of the difference between the LMP and \$21/MWh. For Undispatched Energy, the energy price adder is 60% of the difference between the LMP and \$21/MWh. When the LMP is below \$21/MWh, the price paid is the LMP. CCLP is to pay ACE a fixed annual administration fee of \$125,000. ACE also has title to all Excess Capacity from the Facility at no additional charge. The CP Facility reports that in renewing the PSA, it will be negotiating for an increase in the threshold price due to facility cost increases.

Stone & Webster Consultants has assumed that the PSA will be extended with similar conditions for the remainder of the Projections. The price projected for on-peak and off-peak Undispatched Power in 2005 is \$33.21/MWh and \$25.49/MWh, respectively. This price was determined based on the 2005 average contract price and cost of fuel when Undispatched Power was likely sold. The Undispatched Power prices are assumed to vary from year to year based on the change in the all hours market price forecasted for the Facility.

The price received for Excess Power is assumed to be the all-hours average market price forecasted for the Facility.

### Steam and Electricity Purchase Contract

The Project has a Steam and Electricity Purchase Contract with DuPont ("DuPont Contract"). DuPont operates a chemical facility in Deepwater, New Jersey known as the Chambers Works. The Chambers Works uses a substantial quantity of steam and electricity. The term of the DuPont Contract is 30 years from the initial reliable delivery of steam and electricity. Associated with the DuPont Contract is a Ground Lease for the Project site. The Project site is owned by DuPont and leased to the Project.

Under the DuPont Contract, the Project provides DuPont with all the steam and electricity required for the operation of the Chambers Works up to the maximum contract quantities. The maximum contract quantities or Peak Requirements for steam and electricity are as follows:

- 650,000 lb/hr of steam during the months of June through September
- 700,000 lb/hr of steam during the months of May and October
- 1,000,000 lb/hr of steam during the remainder of the year
- 40,000 kW of electricity

The Project may sell steam and electricity to DuPont in excess of the Peak Requirements but is not obligated to do so. DuPont must purchase a minimum quantity of steam from the Project to insure that the Project meets its QF requirements under the PPA. This minimum obligation, as defined in the DuPont Contract, is 525.6 million lb of steam per year.

The price for steam was originally set at \$3.75 per 1,000 lb of steam. The steam price is adjusted quarterly based on the change in the Project's coal price. The steam price in April 2004 was \$4.49 per 1,000 lb steam. The price for electricity sold to DuPont is the lower of 1)

\$67.45/MWh adjusted quarterly by the change in the Project's coal price and 2) \$64.5/MWh adjusted quarterly by the changes in the ACE average retail rate.

At the end of the 20<sup>th</sup> year, DuPont may elect to construct and operate its own steam generation facility to provide the steam requirements for the Chambers Works in excess of the minimum obligation to the Project. The ability of DuPont to develop its own steam generation facility is dependent on DuPont being able to demonstrate that it can provide steam more economically than the Project. The Project then has an option to provide the steam at an equivalent price as the steam generation facility proposed by DuPont.

Under the DuPont Contract, the Project agrees that steam sales to DuPont take priority over any obligation to provide electricity or sell steam to a third party. The Project will not sell steam from the Facility to a third party without the DuPont's prior consent.

### 3.3 OPERATING EXPENSES

The projected annual operating expenses consist of fuel, non-fuel operating expenses, and other operating expenses. The recent historical values and projections during select years for the operating expenses are shown as follows:

**Operating Expenses (\$000)**

Year	Fuel	Non-Fuel O&M	Fees	Total
Historical				
2001	32,567	20,312	3,165	56,044
2002	39,284	14,485	3,329	57,098
2003	41,900	18,232	3,187	63,319
2004	48,449	21,501	2,222	72,172
Projections				
2005	50,303	19,218	2,342	71,863
2006	45,881	22,646	2,381	70,908
2008	51,799	20,311	2,460	74,570
2009	49,284	24,216	2,501	76,001
2010	55,560	23,209	2,348	81,118
2012	57,073	25,473	2,432	84,978
2015	60,352	27,803	2,592	90,747
2020	67,563	31,253	2,910	101,726

The major operating expense is fuel. CCLP has contracted with Consol for the supply and transportation of coal for the Facility. The fuel expenses also include certain other cost items such as the purchase of limestone for the dry scrubber, the purchase of ammonia for the SCR, ash disposal costs, and the purchase of emission allowances (if needed).

Coal Purchase Agreement and Prices

Coal is purchased through a contract with Consol. The contract has an initial term of 20 years with options for an extension option for between 5 and 10 years. The coal is sourced from mines in West Virginia and from southwestern Pennsylvania and delivered to the site by rail. The coal provided is a medium sulfur bituminous coal with a sulfur content of approximately 2 percent and a heating value of approximately 13,000 Btu/lb. Stone & Webster Consultants has assumed that the Coal Purchase Agreement will be extended through 2024.

The price paid for coal includes a supply and transportation component. The base price as of January 1, 1990, was \$40.25/ton. This base price consisted of a supply price of \$27.25/ton and a transportation price of \$13/ton. The August YTD cost of coal is \$50.49/ton, which compares favorably with the budget of \$53.41/ton. The price is adjusted quarterly based on an Eastern Utility Coal Index. The Eastern Coal Utility Index is the weighted average price of coal delivered to a defined group of coal-fired power plants in the Eastern U.S. over a twelve month period ending six months before the quarterly adjustment date. Consequently, any change in coal prices tends to take at least six months to be realized at the Facility.

Eastern bituminous coal prices have recently risen dramatically from around \$30/ton to over \$50/ton at the mine. This increase is expected to be a short-term increase and the price is forecasted to fall back down to the previous levels. A review of the coal prices for some of the reference plants in the Eastern Coal Index showed that a substantial amount of coal was being purchased under multiple year contracts. Thus, short-term spikes in the coal prices will not pass completely through to the Eastern Coal Index. For modeling the commodity portion of the delivered contract coal price, Stone & Webster Consultants used the Facility's actual commodity cost of \$30/ton for coal delivered in 2004 as a starting point for the forecast. We escalated this value annually by the product of 1) the real escalation for Central Appalachian coal (medium sulfur) as reported in the EIA 2005 Annual Energy Outlook (Table 112, and 2) an inflation factor assumption of 2.5% per year. The final result was a coal commodity pricing assumption that reflected the existing coal commodity agreement's structure, with escalation that is reflective of detailed market forecasting.

The coal requirements for the Facility is based on the projected generation and an average heat rate of 10,770 Btu/kWh, that is between 10,662 Btu/kWh and 10,890 Btu/kWh, depending on the level of electrical generation (more generation results in a lower heat rate) and time-related degradation.

**3.4 DEBT SERVICE**

The existing debt, all of which is non-recourse to the Project Owners, consists of a term loan and tax-exempt bonds. The term loan is split into four tranches. The outstanding balance as of January 1, 2005 and principal repayment period for each tranche is provided below:

- Tranche 1 – Current balance of \$19.146 million. Principal repayments are complete by the 2<sup>nd</sup> quarter of 2006.
- Tranche 2 – Current balance of \$62.555 million. Principal repayments begin in 3<sup>rd</sup> quarter of 2006 and are complete by the 2<sup>nd</sup> quarter of 2009.

- Tranche 3 – Current balance of \$53.659 million. Principal repayments begin in 3<sup>rd</sup> quarter of 2009 and are complete by the 2<sup>nd</sup> quarter of 2011.
- Tranche 4 – Current balance of \$73.494 million. Principal repayments begin in 3<sup>rd</sup> quarter of 2011 and are complete by the 1<sup>st</sup> quarter of 2014.

The outstanding balance on the tax-exempt bonds is \$100 million. The tax-exempt bonds are repaid in 2022.

Besides the interest and principal payments on the term loan and the tax-exempt bonds, there are also fees incurred for letters of credit to support the credit rating of the tax-exempt bonds and to provide a debt service reserve fund. In addition, there is a working capital facility fee.

In addition to the project level debt, Epsilon Power Partners, LLC the wholly owned subsidiary of Atlantic Power Holdings, LLC which owns a 40% partnership interest in CCLP, has an outstanding \$43.3MM non-recourse loan balance as of the Atlantic acquisition date. Principal on this loan amortizes through 2019. The loan interest rate floats at LIBOR plus a 312.5 bps spread.

### 3.5 DISTRIBUTIONS TO COMPANY

Cash available for distribution, before income taxes, is equal to the operating income less debt service payments and certain adjustment. Epsilon Power Holding's distributions are equal to 40% of the cash available for distribution.

### 3.6 POWER MARKET ANALYSIS

The Chambers facility is located within the PJM Interconnection ("PJM") market area. PJM is a Regional Transmission Organization ("RTO") that coordinates the dispatch, operation, and delivery of wholesale electricity in all or parts of Delaware, Illinois, Maryland, New Jersey, Ohio, Pennsylvania, Virginia, West Virginia and the District of Columbia. PJM administers bid-based markets in which participants buy and sell spot market energy, capacity credits, fixed transmission rights, spinning reserves and regulation services. PJM administers real-time and day ahead energy markets and daily and monthly capacity credit markets. Real-time markets are liquid and bid-based, spot energy and capacity markets. Generator bids set the hourly market-clearing price for electric energy. The market for capacity is also established through a bid based system where generation owners bid capacity prices into a central market just as in the energy market.

The PJM market is a summer peaking system with a peak demand of approximately 57,700 MW in 2005, and currently maintains installed capacity in the amount of 68,300 MW, net of purchase and sales. PJM's peak demand is projected to grow at a rate of approximately 1,100 MW per year over the next several years. Based on PJM planning studies, there is approximately 5,000 MW of generation planned to enter commercial operation between 2005 and 2008. This includes mostly peaking resources. However, even if all of this planned generation were to reach commercial operation, the system is still projected to be in need of additional capacity by 2010, when its reserve margin falls below 15%.

Stone & Webster Consultants modeled the PJM control area and seven other, interconnected neighboring control areas. For this analysis Stone & Webster Consultants used PROSYM, an energy market simulation model. PROSYM is specifically designed to simulate operator bidding strategies and dispatch in bid-based energy markets, and provides results that are relevant for assessing generator dispatch, environmental performance, transmission line flows, and other useful parameters for this assessment. We modeled the operation of the system, and included first combustion turbines, and then a mix of combined cycles and coal resources for the expansion plan over the 20-year study period. This analysis provided the projected plant dispatch and operation information and the time differentiated energy market clearing prices data used for modeling spot energy sales to the PJM market. ACE is allocated all of the Facility's installed capacity (ICAP), therefore, no capacity is available to be sold in the wholesale market. Based on this, no ICAP revenue was modeled for the Facility. The following table represents the results of our analysis.

**Market Analysis Summary Table  
2005\$**

<b>PJM East Transmission Area</b>			
	<b>Peak</b>	<b>Off-Peak</b>	<b>Average</b>
	<b>(\$/MV/h)</b>	<b>(\$/MWh)</b>	<b>(\$/MWh)</b>
2005	100.57	45.05	71.48
2006	102.27	48.14	73.90
2007	93.74	49.96	70.80
2008	93.73	48.67	70.12
2009	87.61	48.28	67.00
2010	87.91	48.59	67.30
2011	79.65	47.61	62.86
2012	78.66	47.31	62.23
2013	74.86	45.73	59.60
2014	72.27	43.15	57.01
2015	67.80	39.66	53.05
2016	66.80	39.67	52.58
2017	67.75	39.93	53.17
2018	70.20	42.55	55.71
2019	72.19	44.98	57.94
2020	72.61	45.73	58.53
2021	73.28	47.63	59.84
2022	73.31	49.28	60.72
2023	74.31	49.36	61.24
2024	73.31	50.69	61.46
2025	72.71	51.01	61.34

#### 4.0 CONCLUSIONS

Set forth below are the principal findings and conclusions which Stone & Webster Consultants has reached regarding the Carney's Point Facility and CCLP. For a complete understanding of the estimates, assumptions, and calculations upon which these findings are based, this Report should be read in its entirety. Based on our analysis and review the Carney's Point Facility and the principal project agreements and the assumptions set forth in this Report, we are of the opinion that:

- The Facility uses proven and appropriate technology to generate electricity and steam for sale.
- The Facility has been operated successfully for 11 years during which it has met the obligations under the principal project agreement.
- Given the well maintained condition of the Facility and the continued application of continuous operation and maintenance combined with an appropriate level of capital expenditure as the Facility ages, the remaining useful life of the Facility is expected to exceed the term of the PPA.
- The Facility operates at a minimum output of 46 MW and a maximum output of 270 MW. For purposes of electric energy sales to ACE under the PPA and PSA, a maximum output of 233 MW is assumed, along with 196 klb/hr of steam sales and about 20 MW of electricity sales to DuPont.
- The Facility has operated reliably with low forced outage rates and high availability rates. The availability in the near term is projected to be approximately 88% due to the upcoming major maintenance outages in 2006 and 2009. The average availability over the projected period is approximately 89%
- The Facility is projected to operate with an average capacity factor of approximately 89%. Due to the market conditions, the facility has recently been operating at approximately 91% capacity factor. Provided the economics justify it, there is no technical reason that the Facility cannot meet this level of electrical production in the future.
- The average heat rate realized by the Facility is projected to be between 10,662 Btu/kWh to 10,890 Btu/kWh depending on the level of dispatch (i.e., capacity factor) and degradation of performance through normal wear and tear. This heat rate is not directly comparable to natural gas plant heat rates as it measures efficiency on a MMBtu/MWh basis, and the per MMBtu cost of fuel must also be considered when determining the all-in variable fuel cost. Currently, the project benefits from high natural gas prices relative to coal prices, making the project competitive on a variable cost basis vs. most gas fired plants in PJM.
- The Facility has been in compliance with its environmental permits with only intermittent emission excursions and minor violations, all of which have been addressed.
- The Facility is equipped with a dry scrubber for SO<sub>2</sub> control, low NO<sub>x</sub> burners and SCR for NO<sub>x</sub> control, and a baghouse for particulate control. The air pollution control technology employed has been effective and is compliant with all the permits required to operate the Facility. With the exception of the potential addition of sorbent injection for mercury control, which could potentially be required in the future if new mercury regulations are imposed on the Facility, no additional emissions control equipment is expected to be required during the term of the Projections.

## CONCLUSIONS

---

- The Projections are a reasonable forecast of the financial results for CCLP under the base case assumptions.
- For most of the forecast period, the capacity payment under the PPA with ACE covers in excess of 100% of the fixed operating costs (exclusive of debt service) for the Facility. Overall, the projected revenues from the sale of capacity and energy, as well as steam, are more than adequate to pay the fuel-related expenses, annual operating and maintenance expenses, major maintenance expenses, other operating expenses and fees, and debt service, based on Stone & Webster Consultants' analysis of the Facility and the assumptions set forth in this Report.

**Atlantic Power Announces Independent Review of Chambers Project Filed on  
SEDAR**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) ("Atlantic Power") announced today that Atlantic Power filed on SEDAR the Independent Technical Review for the Carney's Point Cogeneration Project ("Chambers" or the "Project"). The report, prepared by Stone and Webster Management Consultants, Inc. concludes that the Project uses proven and appropriate technology for steam and electricity generation, has operated successfully under the principal project agreements since its commercial operation in 1994, has been well maintained, and has an expected useful life exceeding the life of the PPA which expires in 2024. The report also includes a cash flow projection for Chambers through 2024. "The report demonstrates what a significant contribution the Chambers acquisition makes to our ongoing objectives to lengthen the PPA portfolio and reinforce the stability of future distributions through accretive growth," commented Barry Welch, President & CEO of Atlantic Power.

Additional information regarding Atlantic Power Holdings acquisition of Epsilon can be found in our quarterly financial statements for the period ended September 30, 2005 and MD&A and will be presented in the Business Acquisition Report to be filed on SEDAR.

**About Atlantic Power**

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects located primarily in major markets in the United States. Atlantic Power's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to pending and proposed projects. Such statements are subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions and, in the case of pending and proposed projects, risks relating to design and construction, regulatory processes, obtaining financing and performance of other parties, including partners, contractors and suppliers.

**Atlantic Power Announces Private Placement of 7.5 million IPSs to Caisse de dépôt et placement du Québec**

**Proceeds Used to Redeem Portion of Sponsors' Interest**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) ("Atlantic Power") announced today that it has sold 7.5 million Income Participating Securities (IPSs) to Caisse de dépôt et placement du Québec (the "Caisse") in a secondary private placement. Following the transaction, the Caisse will own 16.9% of the outstanding IPSs of Atlantic Power.

The net proceeds from the private placement were used by Atlantic Power to increase its ownership in Atlantic Power Holdings ("Holdings") from 58.1% to 70.1%. Holdings is the U.S. holding company that owns interests in 16 power plants predominantly in the United States. Holdings in turn redeemed, using the net proceeds of the sale, a portion of its ownership held indirectly by ArcLight Energy Partners Funds I and II and other investors (the "Existing Investors") from 41.9% down to 29.9%. The sale results in no dilution to public holders of IPSs, as the price per unit at which the ownership interests of the Existing investors were redeemed was the same as the new proceeds per IPS sold under the private placement.

At the time of Atlantic Power's Initial Public Offering ("IPO") the Existing Investors were given a Liquidity Right allowing them to request that Holdings redeem all or a portion of their interest in Holdings (subject to holding a minimum 10% interest during the first two years after the IPO). Following delivery of a Liquidity Notice from the Existing Investors, Holdings is obligated to use its best efforts to fund the redemption through the sale of additional equity securities to Atlantic Power, which in turn is obligated to use its best efforts to raise funds through the issuance of IPSs or other securities. The private placement to the Caisse is pursuant to the exercise of the Liquidity Right.

The price paid by the Caisse was \$10.00 per IPS. Satisfying the Liquidity Notice through this secondary private placement to the Caisse offered cost savings to the parties compared to raising funds through a secondary public issuance of IPSs due to significantly reduced legal, accounting and underwriting expenses.

“We are very pleased to have the Caisse as a significant owner as their long-term investment objectives are strongly aligned with Atlantic Power’s business strategy,” stated Barry Welch, President and CEO. “We also continue to benefit from the strong support of our Sponsor, Arclight Capital Partners, L.P., who will still retain a 30% interest following the transaction.” Two officers also participated as buyers in the private placement.

Regarding this investment, Caisse de dépôt et placement du Québec’s Senior Vice President of Investments in Infrastructure, Ghislain Gauthier, said: “This investment in Atlantic Power Corporation fits perfectly our infrastructure portfolio strategy of generating predictable current income and return.”

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to pending and proposed projects. Such statements are subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions and, in the case of pending and proposed projects, risks relating to design and construction, regulatory processes, obtaining financing and performance of other parties, including partners, contractors and suppliers.

**About Atlantic Power Corporation:**

Atlantic Power Corporation owns interests in a diversified portfolio of 16 power generation projects located primarily in major markets in the United States. The Company’s objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

**About the Caisse de dépôt et placement du Québec**

The Caisse de dépôt et placement du Québec is a financial institution that manages funds primarily for public and private pension and insurance plans. As at December 31, 2004, it held CA\$102.4 billion of net assets. The leading institutional fund manager in Canada, the Caisse invests in the main financial markets as well as in private equity and real estate.

September 8, 2005

**Atlantic Power Announces Cash Distribution Increase**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power”) announced today that it will increase its annual distribution to shareholders by Cdn\$ 0.03 per share commencing with the September 2005 distribution.

“We are very pleased to announce this increase in annual cash distributions, the first since our initial public offering in November 2004,” commented Barry Welch, President and CEO. “The increase is primarily due to our accretive acquisition of an interest in the Chambers power facility, demonstrating the ongoing execution of our strategy to support and grow distributions over time.”

Atlantic Power also announced today that it had completed the previously announced acquisition by Atlantic Power Holdings, LLC (“Holdings”) of Epsilon Power Partners, LLC (“Epsilon”). Epsilon owns a 40% equity interest in Chambers Cogeneration LP (“Chambers”), the owner and operator of a net 262 MW pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company’s Chambers Works complex in southwestern New Jersey. The equity purchase price was approximately US \$62.75 million and was funded by cash and a draw on Holdings’ revolving credit facility. Epsilon has approximately \$43 million of debt outstanding that is non-recourse to Holdings, making the total purchase price approximately \$105.75 million.

NEWS RELEASE

FOR: **ATLANTIC POWER CORPORATION**

TSX SYMBOL: **ATP.UN**

August 11, 2005

**Atlantic Power Agrees to Acquire Interest in New Jersey Power Facility**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) ("Atlantic Power") announced today that Atlantic Power Holdings, LLC ("Holdings") has agreed to acquire Epsilon Power Partners, LLC ("Epsilon"), which owns a 40% equity interest in Chambers Cogeneration LP ("Chambers"), the owner and operator of a net 262 MW pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company's ("DuPont's") Chambers Works complex in southwestern New Jersey. The equity purchase price will be approximately US \$65.5 million and will be funded by cash and a draw on Holdings' revolving credit facility. Closing of the acquisition is subject to customary closing conditions and is anticipated to occur in September 2005.

The facility being acquired is one of the projects in which Holdings was granted a right of first offer by ArcLight Energy Partners Fund I, L.P. ("ArcLight") at the time of Atlantic Power's initial public offering. The partners of Epsilon are subsidiaries of ArcLight and Delta Power Company, LLC. Epsilon has approximately \$43 million of debt outstanding that will be non-recourse to Holdings, making the total purchase price approximately \$108.5 million.

The acquisition brings a number of benefits to Atlantic Power's shareholders, as it:

- Is immediately accretive to cash flow;
- Adds two new high quality, investment grade electricity and steam off-takers;
- Enhances diversity of fuel sources;
- Extends the weighted average remaining term of Atlantic Power's power purchase agreement ("PPA") portfolio

The Chambers project produces electricity for sale to Atlantic City Electric Company/Connecticut (rated BBB+) under a PPA through 2024, and electricity and steam to DuPont (rated AA-) for use in its industrial operations, also through 2024. Chambers began commercial operations in 1994.

The plant has demonstrated an excellent operating history over the last ten years and is managed by a highly experienced operator. Chambers utilizes the best available environmental control technologies including scrubbers, a bag house, and selective catalytic reduction to reduce emissions. The facility is a member of the U.S. EPA National Environmental Performance Track, a program that recognizes and rewards top environmental performers.

**Atlantic Power Corporation Announces Strong Second Quarter 2005 Results**

- **Cash Available for Distribution: \$11.6 million (Cdn \$0.38 per IPS)**
- **Distributions Declared: \$ 7.4 million (Cdn \$0.25 per IPS)**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (the "Company") today announced its results for the three and six months ended June 30, 2005. All amounts are in US dollars unless otherwise indicated. Cash available for distributions to holders of the Company's listed Income Participating Securities ("IPSs") in the second quarter was \$11.6 million or \$0.31 (Cdn \$0.38) per IPS. Distributions declared for the period were \$7.4 million or \$0.20 (Cdn \$0.25). For the six months ended June 30, 2005 cash available for distributions was \$18.9 million or \$0.51 (Cdn \$0.62) per IPS, while distributions were declared of \$14.9 million or \$0.40 (Cdn \$0.50) per IPS in the period. The payout ratio was 64% in the second quarter and 79% through the first six months of 2005.

The Company generated project and other revenue of \$38.0 million and income before administrative and other expenses of \$11.3 million in the second quarter. Net loss for the three months ended June 30, 2005 was \$5.3 million or \$0.14 (Cdn \$0.17) per IPS. For the six months ended June 30, 2005, project and other revenue was \$75.8 million, generating income before administrative and other expenses of \$24.0 million. Net income was \$4.6 million or \$0.13 (Cdn \$0.16) per IPS for the first six months of 2005.

The project portfolio generated strong operating results during the second quarter. Earnings before interest, taxes, depreciation and amortization ("EBITDA") at the Company's power

producing projects was up 3% in the second quarter versus the same period in 2004, excluding the contribution from the lessor interest in the Lake Project acquired in late 2004. The increase is due primarily to higher operating margins, increased ownership in one project, and improved gas resale results at another.

“We were pleased with our performance in the second quarter, including an increase in EBITDA at the project level versus last year and positive results from the MASSPOWER dispositions,” commented Barry Welch, President and CEO.

The Company announced earlier today that it agreed to indirectly acquire a 40% interest in the owner and operator of a 262 MW coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company’s Chambers Works complex in southwestern New Jersey. The equity purchase price of approximately US \$65.5 million will be funded by cash and a draw on Holdings’ revolving credit facility. As of June 30, 2005 the Company’s Reserve Account amounted to approximately \$48.6 million. Non-recourse debt of approximately \$43 million will also be assumed, making the total purchase price approximately \$108.5 million. Closing of the acquisition is subject to customary closing conditions and is anticipated to occur in September 2005.

“This transaction brings a number of benefits to our shareholders,” Mr. Welch continued. “It adds two new high quality, investment grade electricity and steam off-takers to our base of customers, enhances the diversity of our fuel sources, and extends the weighted average remaining term of our power purchase agreements. Most importantly, the acquisition is immediately accretive to cash flow.”

The full financial statements for the period, including Management’s Discussion and Analysis, are available on the Company’s web site at [www.atlanticpowercorporation.com](http://www.atlanticpowercorporation.com).

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

Periods Ending (Unaudited)	June 2005	June 2005
	(3 months)	(6 months)
Cash flows from operating activities	13,006	51,736
Proceeds on disposal of MASSPOWER PPA's and other contracts <sup>(1)</sup>	(4,908)	(39,081)
Cash flows from operating activities net of proceeds on disposal	8,098	12,655
Project level debt repayment	(5,246)	(6,742)
Interest on IPS portion of subordinated notes	4,683	9,436
Income tax withholding installments recoverable <sup>(2)</sup>	4,734	4,734
Purchase of property, plant and equipment	(718)	(1,182)
<b>Cash flow available for distribution, USD</b>	<b>11,551</b>	<b>18,901</b>
Cash flow available for distribution, Cdn.	14,063	22,940
Interest on IPS subordinated notes	4,683	9,436
Dividend on IPS common shares	2,702	5,444
<b>Total IPS distributions, USD</b>	<b>7,385</b>	<b>14,880</b>
Total IPS distributions, Cdn.	9,203	18,406
<b>Cash flow available for distribution per IPS, Cdn.</b>	<b>0.38</b>	<b>0.62</b>
<b>Total distribution per IPS, Cdn.</b>	<b>0.25</b>	<b>0.50</b>

<sup>(1)</sup> MASSPOWER's aggregate distributions less their normalized operating cash flow (normalized EBITDA less principal repayments).

<sup>(2)</sup> Represents the portion of income tax withholding installments paid during the quarter related to operating activities exclusive of amounts associated with MASSPOWER PPA and other contract disposals.

The Company commenced operations on November 18, 2004 following completion of its Initial Public Offering (the "IPO") and the acquisition of interests in fifteen non-utility power projects (the "Projects"). The Company did not hold any material assets prior to November 18, 2004 and is considered to have begun operations on that day. As a result, no comparative financial information is available.

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects located primarily in major markets in the United States. The Company's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to the projects and potential acquisitions by the Company. Such statements are subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions and, in the case of potential acquisitions, risks relating to sourcing, financing and completing acquisitions.

Cash Flow Available for Distributions is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

EBITDA is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance.

NEWS RELEASE

FOR: ATLANTIC POWER CORPORATION

TSX SYMBOL: ATP.UN

August 10, 2005

**Atlantic Power Agrees to Acquire Interest in New Jersey Power Facility**

BOSTON, MASSACHUSETTS – Atlantic Power Corporation (TSX: ATP.UN) (“Atlantic Power”) announced today that Atlantic Power Holdings, LLC (“Holdings”) has agreed to acquire Epsilon Power Partners, LLC (“Epsilon”), which owns a 40% equity interest in Chambers Cogeneration LP (“Chambers”), the owner and operator of a net 262 MW pulverized coal-fired cogeneration facility located at E.I. DuPont de Nemours & Company’s (“DuPont’s”) Chambers Works complex in southwestern New Jersey. The equity purchase price will be approximately US \$65.5 million and will be funded by cash and a draw on Holdings’ revolving credit facility. Closing of the acquisition is subject to customary closing conditions and is anticipated to occur in September 2005.

The facility being acquired is one of the projects in which Holdings was granted a right of first offer by ArcLight Energy Partners Fund I, L.P. (“ArcLight”) at the time of Atlantic Power’s initial public offering. The partners of Epsilon are subsidiaries of ArcLight and Delta Power Company, LLC. Epsilon has approximately \$43 million of debt outstanding that will be non-recourse to Holdings, making the total purchase price approximately \$108.5 million.

The acquisition brings a number of benefits to Atlantic Power’s shareholders, as it:

- Is immediately accretive to cash flow;
- Adds two new high quality, investment grade electricity and steam off-takers;
- Enhances diversity of fuel sources;
- Extends the weighted average remaining term of Atlantic Power’s power purchase agreement (“PPA”) portfolio

The Chambers project produces electricity for sale to Atlantic City Electric Company/Conectiv (rated BBB+) under a PPA through 2024, and electricity and steam to DuPont (rated AA-) for use in its industrial operations, also through 2024. Chambers began commercial operations 1994.

The plant has demonstrated an excellent operating history over the last ten years and is managed by a highly experienced operator. Chambers utilizes the best available environmental control technologies including scrubbers, a bag house, and selective catalytic reduction to reduce emissions. The facility is a member of the U.S. EPA National Environmental Performance Track, a program that recognizes and rewards top environmental performers.

### **About Atlantic Power**

Atlantic Power Corporation owns interests in a diversified portfolio of 15 power generation projects located primarily in major markets in the United States. Atlantic Power's objectives are to sustain and grow its cash distributions over the long term by enhancing the performance of its existing assets and by making accretive acquisitions.

When used in this news release, the words "anticipate", "expect", "project", "believe", "estimate", "forecast" and similar expressions are intended to identify forward-looking statements, which include statements relating to pending and proposed projects. Such statements are subject to certain risks, uncertainties and assumptions pertaining to operating performance, regulatory parameters, weather and economic conditions and, in the case of pending and proposed projects, risks relating to design and construction, regulatory processes, obtaining financing and performance of other parties, including partners, contractors and suppliers.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

RECEIVED  
2005 OCT 18 AM 11:50  
ATLANTIC POWER

The following management discussion and analysis ("MD&A") of financial condition and results of operations should be read in conjunction with the unaudited financial statements of Atlantic Power Corporation ("Atlantic Power" or "the Company") for the three month and six month periods ended June 30, 2005. All amounts described in the management discussion and analysis of financial condition and results of operations are in thousands of U.S. dollars, unless otherwise stated. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles ("GAAP"). This management discussion and analysis of financial condition and results of operation also contains forward looking statements, which are subject to a variety of factors that could cause actual results to differ materially from those contemplated by these statements. Some of the factors that could cause results or events to differ from current expectations include, but are not limited to, the factors described under "Risk Factors". Information contained in this management's discussion and analysis is based on information available to management as of August 11, 2005.

**OVERVIEW**

The Company completed its Initial Public Offering ("IPO") on November 18, 2004 and after the exercise of the underwriter's over-allotment on December 6, 2004, it owns 58.1% of the common membership interests and all of the outstanding Class A preferred membership interests in Atlantic Power Holdings, LLC ("Holdings"). The remaining 41.9% of the common membership interests and all of the outstanding Class B preferred membership interests in Holdings are owned by subsidiaries of ArcLight Energy Partners Funds I and II (the "ArcLight Funds") and Caithness Energy (such subsidiaries, together, the "Existing Investors"). Holdings was formed to acquire indirect interests in a diversified portfolio of power generating facilities (the "Projects") located primarily in major markets in the United States from the Existing Investors. The Company currently has 36,800,000 Income Participating Securities ("IPs") outstanding. Each IP represents one common share of the Company ("Common Shares") and Cdn. \$5.767 aggregate principal amount of 11% subordinated notes of the Company ("Subordinated Notes").

As of June 30, 2005 interests were owned in fourteen projects in the United States and one in Jamaica with a combined total power generating capacity of 2,161 megawatts ("MW"). Atlantic Power's interests in the Projects represented approximately 795MW of power, generating capacity as of June 30, 2005. The Projects sell their power under long term power purchase agreements ("PPAs") predominantly to investment grade utilities. These agreements are typically structured to stabilize cash flows by 1) providing significant steady capacity payments as a return of capital provided that the plant meets an availability requirement, regardless of how much it is called to run and 2) passing through most of the Projects' fuel cost changes to the utilities. As a result, the portfolio's net cash flow is generally less sensitive to the amount of power generated, spot market electricity prices or fuel prices.

Management and administrative services are provided to the Company by Atlantic Power Management, LLC, a Delaware limited liability company (the "Manager") formed by ArcLight Capital Partners, LLC ("ArcLight") and the ArcLight Funds. The Manager manages the business of the Company and Holdings and also focuses on

identifying additional acquisitions and investments for the Company. The Manager's employees have substantial energy investing experience and industry relationships to help identify emerging trends and present the Company with accretive acquisition opportunities within the power and energy sector.

The Projects are typically operated and maintained by third party operators under contracts with the Project partnerships. Terms of these agreements vary in length and typically provide for subsequent renewals.

The Company's objectives are to maintain the stability and sustainability of cash distributions to holders of Income Participating Securities ("IPs") in the form of interest payments on Subordinated Notes and dividends on Common Shares, and to increase, when prudent, dividends on the Common Shares.

To achieve these objectives the Company will focus on enhancing the operation of the Projects through:

- (i) optimization of commercial arrangements such as PPAs, fuel supply and transport contracts, steam sales agreements, and management and operation agreements;
- (ii) achievement of operating efficiencies and cost reductions;
- (iii) upgrade or enhancement of existing equipment or plant configurations; and
- (iv) expansion of existing Projects.

The Company also believes that opportunities exist to consolidate, on an accretive basis, ownership positions in certain Projects where it owns partial interests. In addition, opportunities for PPA restructuring and recapitalization at the Projects may provide relatively low cost capital to fund future growth opportunities.

Cash Flow Available for Distributions is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management believes Cash Flow Available for Distributions is a relevant supplemental measure of the Company's ability to earn and distribute cash returns to investors. A reconciliation of net cash provided by operating activities to Cash Flow Available for Distributions is set out in this MD&A. Investors are cautioned that the Company may calculate this measure in a manner that is different from other companies.

EBITDA is not a measure recognized under GAAP and does not have a standardized meaning prescribed by GAAP. Management uses aggregate EBITDA at the Projects as a cash flow measure to provide aggregate annual comparative information about Project performance.

## THE NON-UTILITY POWER GENERATION INDUSTRY

The Projects are non-utility electric generating facilities that operate primarily in the U.S. electric power generation industry. The electric power industry is one of the largest industries in the U.S., with 2003 revenue of nearly \$260 billion based on information published by the Energy Information Administration ("EIA") of the U.S. Department of Energy. A growing portion of the power produced in the U.S. is generated by non-utility generators. According to the EIA, there were approximately 7,772 non-utility generators representing 448 gigawatts of capacity and 1,421 gigawatt-hours of total net electric generation in 2003 (equal to 46%, 48% and 37% respectively of industry totals including utilities.) Non-utility generators sell the electricity generated to

electric utilities, other load-serving entities (such as municipalities and electric cooperatives) and industrial consumers through bilateral contracts or wholesale power markets. Utility electricity buyers, in turn, generally sell this electricity to industrial, commercial and residential customers. The power generated by the Projects is generally sold under long-term contracts, referred to as Power Purchase Agreements ("PPAs").

## PROJECT PORTFOLIO

The following table outlines the Company's portfolio of power generating assets as of June 30, 2005, including its interest in each facility. Management believes the portfolio is well diversified based on electricity and steam buyers, or off-takers, regulatory jurisdictions and regional power pools, thereby mitigating exposure to market, regulatory or environmental conditions specific to any one region.

Project Name	Location	Fuel Type	Total MW	Economic Interest <sup>(1)</sup>	Accounting Treatment <sup>(2)</sup>	Net MW <sup>(3)</sup>	Electricity Off-Taker	PPA Expiry	Off-Taker S&P Credit Rating
Badger Creek	California	Natural Gas	46	50.0%	P	23	Pacific Gas & Electric	2011	BBB

(1) Holdings' economic interest represents the percentage ownership interest in the project held indirectly by Atlantic Holdings (except as otherwise noted).

(2) Accounting Treatment: (refer to Note 1 of Consolidated Financial Statements).

C = Consolidated

P = Proportionate Consolidation

E = Equity Method

(3) Represents the interest of Holdings in each project's total electric generation capacity based on Holdings' economic interest in each project.

- (4) Represents Holdings' estimate of its share of the cash flow from the project.
- (5) On March 1, 2005 MASSPOWER concluded a termination agreement for its one PPA with Boston Edison and two PPAs with Commonwealth Electric and received a termination payment. Massachusetts Municipal Wholesale Electric Co. maintains a right to 7.9% of the project's output, if and when electricity is generated.
- (6) A swap agreement with Niagara Mohawk Power Corporation has replaced the Onondaga PPA.
- (7) On January 12, 2005 Holdings increased its indirect interest in the Gregory Project to 15.1% or 60.4 net MW.
- (8) Holdings owns its interest in this Project as a lessor.
- (9) PPA with Dynegy expired as expected in June 2005. See discussion in the Outlook Section.
- (10) PPA with CMP expires in December 2005. See discussion in the Outlook Section.

## RESULTS OF OPERATIONS FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2005

(In thousands of US dollars, except per share amounts, unless otherwise stated.)

The Company commenced operations on November 18, 2004 on completion of its Initial Public Offering ("IPO") and the acquisition of interests in fifteen non-utility power projects. The Company did not hold any material assets prior to November 18, 2004 and is considered to have begun operations on November 18, 2004. The Company generates revenues by selling its electricity, steam and other by-products to various off-takers generally under long-term Power Purchase Agreements ("PPAs") and Steam Purchase Agreements. As of June 30, 2005 the Company had PPAs with 15 customers. Details on the duration of the PPAs for each property are presented in the table above.

## SUMMARY OF FINANCIAL RESULTS

Periods Ending (Unaudited)	<u>June 2005</u>	<u>June 2005</u>
	(3 months)	(6 months)
Project revenue <sup>(1)</sup>	37,966	75,829
Project expenses	30,982	60,737
Project other income (expense) <sup>(2)</sup>	4,333	8,913
Income before the under noted	<u>11,317</u>	<u>24,005</u>
Administrative and other expenses		
Distribution, non-controlling interest <sup>(3)</sup>	5,269	10,604
Change in fair value of non-controlling interest <sup>(4)</sup>	6,528	1,035
Foreign exchange gain (loss) <sup>(5)</sup>	(2,630)	(6,288)
Other	6,604	13,698
Total administrative and other expenses	<u>15,771</u>	<u>19,049</u>
Income (loss) before income taxes	(4,454)	4,956
Income taxes expense (recovery)	872	340
Net income	(5,326)	4,616
Per share, USD	(0.14)	0.13
Per share, Cdn..	(0.17)	0.16
Total assets	729,600	729,600
Total long-term liabilities <sup>(6)</sup>	576,320	576,320
Cash flows from operating activities	13,006	51,736
Distributions <sup>(7)</sup>		
Per IPS, USD	0.20	0.40
Per IPS, Cdn..	0.25	0.50

(1) Project revenue and project expenses of Holdings' interests in nine projects, including two wholly owned projects which are consolidated, and seven proportionately consolidated projects with interests ranging from 49.9% to 50%. (Refer to Accounting Treatment presented in the preceding Project Portfolio table.)

(2) Includes equity in earnings from partnerships of \$5,399 for the three-month period and \$11,838 for the six-month period from six projects in which Holdings owns interests of between 15.1% and 24.1%, accounted for on an equity basis.

(3) Distributions declared to holders of 41.9% non-controlling interest in Holdings.

(4) Existing Investors own a 41.9% non-controlling interest in Holdings with certain Liquidity Rights to request that the Company issue equity securities (including IPSs) to raise proceeds that would indirectly be used to redeem portions of the Existing Investors' interest, within the first two years from the IPO. During the two year period following the IPO, the Existing Investors must maintain a minimum 10% aggregate ownership interest in Holdings. This amount represents the mark-to-market change during the reporting period in the obligation of the Company to make such issuance to redeem the Existing Investors' interests in Holdings based on the change in market price per IPS from Cdn. \$10.75 at December 31, 2004 to \$10.50 at March 31, 2005, to Cdn. \$10.80 at June 30, 2005.

(5) Net impact of foreign exchange changes on the US dollar equivalent of Canadian dollar denominated debt, and the mark-to-market value of currency hedges and realized foreign exchange gains and losses for the period.

(6) Includes the increase in the USD equivalent of Cdn.. denominated obligations.

(7) Distribution declared during the reporting period.

#### **PROJECT PERFORMANCE: THREE MONTH PERIOD ENDED JUNE 30, 2005**

While aggregate generation and plant availability were down 6% and 1.6% respectively at the Projects during the second quarter of 2005 compared to the second quarter of 2004, EBITDA at the Projects was up 3%, excluding the \$4.4 million increase due to the acquisition in late 2004 of the lessor interest in the Lake Project. Two plants had scheduled major maintenance outages that caused a non-recurring decrease in generation. Significant factors in the EBITDA increase include favorable impacts from 1) improved operating margins at the Lake project, 2) increased ownership in the Gregory project, 3) improved gas resale results at Selkirk and 4) Pasco's enhanced control system that allows it to cycle on and off more easily based on available margin, as well as positive performance at several other Projects, offset by reduced capacity revenues at MASSPOWER versus the prior period due to the successful buyout of three PPAs in March 2005.

Changes in availability of the Projects do not necessarily translate directly to revenue or EBITDA changes since capacity payments are received as long as the relevant threshold performance is still being met under the PPAs. In addition, changes in generation do not necessarily translate directly to changes in revenue or EBITDA, since some projects may, at times, provide higher margin from resale of unused gas than from incremental electricity generation, or changes such as the one described above at Pasco to allow more selective generation based on profitability.

#### **PROJECT PERFORMANCE: SIX MONTH PERIOD ENDING JUNE 30, 2005**

While aggregate generation and plant availability were down 5% and 0.3% respectively at the Projects during the first half of 2005 compared to the first half of 2004, EBITDA at the Projects was up 11%, excluding the increase due to the acquisition in late 2004 of the lessor interest in the Lake Project. Significant factors in this EBITDA increase include favorable impacts from 1) improved operating margins at the Lake project, 2) increased ownership in the Gregory project, 3) improved gas resale results at Selkirk and 4) Pasco's enhanced control system that allows it to cycle on and off more easily based on available margin, as well as positive performance at several other Projects, offset by unfavorable impacts from 1) MASSPOWER PPA buyouts, which eliminated a substantial amount of capacity revenues, and 2) the impact from Onondaga's index hedge agreement, which did not exist for the entire prior year period.

Among the Company's largest costs is the supply of natural gas, coal and other fuels required to operate the Projects. Each of the Projects generally has a long-term fuel supply agreement whose term matches the term of the corresponding PPA. Fuel costs, particularly natural gas costs, were at historically high levels in the US through the reporting period. However, the majority of the PPAs provide for the pass-through or indexing of fuel costs to the off-takers. Selkirk extended the term of three of its four gas purchase agreements towards the end of 2004 and is currently in the process of replacing the fourth contract. Under the project's PPA with Consolidated Edison, while most of the gas cost is passed through, there is a gas price-based formulaic cap in the energy payment that may be slightly exceeded at some times by the project's fuel cost. However, in the 2005 periods discussed above, the project's EBITDA was improved versus the same periods in 2004 based on improved gas resale results.

## CASH FLOW FROM OPERATIONS AND RESERVE ACCOUNT

The Company's cash flow from the Projects will vary from year to year based on, among other things, changes in rates under the PPAs, fuel supply agreements, steam sales agreements and other project contracts, compliance with the terms of non-recourse project-level financing including debt repayment schedules, the transition to market pricing following the expiry of PPAs, fuel supply and transportation contracts, working capital requirements and the general performance of the Projects. Project cashflows themselves may have some seasonality and the pattern and frequency of distributions from Projects to Holdings during the year can also vary.

In order to provide holders of IPSs with stable and sustainable cash distributions, the Company deposited approximately \$12.5 million into a Reserve Account at the closing of its IPO and will deposit funds in the Reserve Account from time to time to stabilize future cash distributions and fund acquisitions and other growth opportunities. As of June 30, 2005, the Reserve Account held \$48,657 which includes the approximately \$35,900 that Holdings received related in March 2005 to the termination of three Power Purchase Agreements at the MASSPOWER project.

The Company's cash flow from operations was \$13,006 and \$51,736, for the three and six month periods ended June 30, 2005, respectively, and was in line with expectations for the period, taking into account the distributions from MASSPOWER, further described in the Acquisitions and Dispositions Section.

## CASH FLOW AVAILABLE FOR DISTRIBUTION

Holders of IPSs receive cash distributions in the form of interest payments on Subordinated Notes and dividends on Common Shares. For the three month period ended June 30, 2005 distributions of \$7,385 were declared. A total of Cdn. \$0.25 per IPS was declared and was comprised of interest payments of Cdn. \$0.16 on the 11% subordinated note portion of the IPS, plus Cdn. \$0.09 common share dividend per IPS.

The following table shows the calculation of Cash Available for Distribution starting with net cash provided by operating activities for the three months ended June 30, 2005 as well as the year-to-date.

## CALCULATION OF CASH FLOW AVAILABLE FOR DISTRIBUTION

Periods Ending (Unaudited)	June 2005	June 2005
	(3 months)	(6 months)
Cash flows from operating activities	13,006	51,736
Proceeds on disposal of MASSPOWER PPA's and other contracts <sup>(1)</sup>	(4,908)	(39,081)
Cash flows from operating activities net of proceeds on disposal	8,098	12,655
Project level debt repayment	(5,246)	(6,742)
Interest on IPS portion of subordinated notes	4,683	9,436
Income tax withholding installments recoverable <sup>(2)</sup>	4,734	4,734
Purchase of property, plant and equipment	(718)	(1,182)
<b>Cash flow available for distribution, USD</b>	<b>11,551</b>	<b>18,901</b>
Cash flow available for distribution, Cdn..	14,063	22,940
Interest on IPS subordinated notes	4,683	9,436
Dividend on IPS common shares	2,702	5,444
<b>Total IPS distributions, USD</b>	<b>7,385</b>	<b>14,880</b>
Total IPS distributions, Cdn..	9,203	18,406
<b>Cash flow available for distribution per IPS, Cdn..</b>	<b>0.38</b>	<b>0.62</b>
<b>Total distribution per IPS, Cdn..</b>	<b>0.25</b>	<b>0.50</b>

(1) MASSPOWER's aggregate distributions less their normalized operating cash flow (normalized EBITDA less principal repayments).

(2) Represents the portion of income tax withholding installments paid during the quarter related to operating activities exclusive of amounts associated with MASSPOWER PPA and other contract disposals.

## LIQUIDITY AND CAPITAL RESOURCES

The Company has adequate liquidity from several sources in addition to cash flow from operations. The Reserve Account held \$12,509 at December 31, 2004 and it currently holds \$48,657 as of June 30, 2005. A portion of the Reserve Fund is available to fund acquisitions and other growth opportunities enhancing the long-term stability of distributions.

Holdings has a \$50,000 revolving term credit facility, \$15,061 of which is allocated, but not drawn, to support letters of credit for contingent liabilities at several projects. There have been no draw downs on the facility since the IPO. In addition, the Projects themselves generally have their own reserve accounts to support payments for major maintenance costs and project-level debt service.

All project-level debt is non-recourse to the Company or Holdings and is fully amortizing over the life of the projects' PPAs.

## ACQUISITIONS & DISPOSITIONS

In April and June Holdings received aggregate distributions of approximately \$6,125 from the MASSPOWER project. The distributions were comprised of (i) a portion of the proceeds paid to the project from the sale of two of its gas purchase agreements and operating income. The MASSPOWER project has repaid its outstanding debt and will continue to make available approximately 7.9% of its output under its remaining power purchase agreement through 2013 when it is dispatched, and will have the option to sell the remainder of its output into the wholesale spot market.

## CAPITAL EXPENDITURES

Capital expenditures for the Projects are made at the project level using current project cash flow and project reserves. Therefore, the distributions that Holdings receives from the Projects are made net of capital expenditures needed at the projects. Generally, there is relatively little capital expenditure since repairs and most major maintenance expenditures are expensed.

An estimated \$2 million capital project is underway at the Pasco project to construct a water distillation facility that will serve as the project's thermal load. There is sufficient cash at the project to fund the construction and approximately \$730 was spent in the three-month period. Construction is substantially complete but is pending final acceptance.

A gas turbine upgrade project was completed this quarter at the Orlando project, which has already begun to show results through an increase in its output and efficiency characteristics. The upgrade took place during a previously scheduled major maintenance outage. The cost was financed via a new Long Term Service Agreement between the Project and the manufacturer which will expire in 2014.

## CONTRACTUAL OBLIGATIONS

(a) Each project typically has a set of contracts that includes the following, which are obligations of the project partnerships and non-recourse to the Company. Therefore, specific contracts for individual projects are not discussed in detail in the MD&A.

- PPAs generally allow projects to pass through their fuel costs. See the earlier Project Portfolio table for off-takers and durations.
- Fuel Supply agreements have minimum volume requirements with terms typically similar to their respective PPA.
- Fuel Transportation agreements incorporate capacity reservation/demand payments.

- Steam Sales agreements track PPA lengths and are designed to meet regulatory requirements for thermal load/efficiency at fossil fuel plants.
- O&M agreements contract for operations and maintenance services by third parties or owners.
- Long-term service agreements may be in place for gas or steam turbine inspections and overhauls.
- Site Lease agreements grant use of project land where projects don't own the site.
- Project Debt is non-recourse and fully amortizing during PPA terms.

A detailed description of the Projects' agreements at the time of the IPO is contained in the Technical Review performed by Stone and Webster in conjunction with the Company's IPO, with updated information in its Annual Information Form, dated March 31, 2005. Both documents are available on SEDAR.

(b) Swap Agreement – see foreign currency hedging arrangements below

(c) Office Lease Obligations:

The Manager subleases its office space from ArcLight, under an agreement through 2014. The obligations under this sublease are \$130 per year in 2005-2007 and a total of \$933 for the period 2008-2014.

(d) The Company pays a management fee under the Management Agreement, among the Company, Holdings and Manager. The management fee is subject to adjustment for future acquisitions as agreed to by the Company and Holdings' independent Managers, plus incentives and expenses. The Company paid the Manager \$1,210 during the six month period ended June 30, 2005.

(e) Subordinated Notes – As of June 30, 2005, the Company had \$205,627 outstanding of 11% subordinated notes due 2016. The notes are interest only until their maturity.

#### RELATED PARTY TRANSACTIONS

The Manager has been engaged under the Management Agreement to provide certain management and administrative services to the Company and Holdings, for which it is paid (i) an annual management fee, (ii) reimbursement of costs, and (iii) an annual incentive fee equal to 25% of the excess in distributions paid to unit holders during the year above the initial targeted distributions at the IPO. The Management Agreement has an initial term of 20 years. The Manager is owned by the ArcLight Funds. Subsidiaries of the ArcLight Funds along with a subsidiary of Caithness Energy own 41.9% of Holdings.

The seven-person Board of Managers of Holdings includes two members from the manager of the ArcLight Funds who were appointed by the Existing Investors, and the President and CEO of the Manager, but they may not vote on any proposed acquisitions by Holdings of projects from the ArcLight Funds.

The Manager receives administrative and office support services from the manager of the ArcLight Funds under a Management Support Agreement on a cost recovery basis. This agreement also requires ArcLight and its affiliates to give the Manager the opportunity to pursue, on behalf of the Company and Atlantic Holdings,

investment opportunities that do not fit within the investment guidelines for ArcLight Fund I and Fund II or other investment funds managed by ArcLight or its affiliates.

At the time of the IPO, Holdings was granted a right of first offer ("ROFO") on a number of power producing projects currently owned by the ArcLight Energy Partners Fund Is. The right of first offer relates to interests in 11 power generating projects representing approximately 706 net MW of total electric generation capacity. During the quarter, Fund I offered a package of nine of the ROFO projects to Holdings for purchase. Holdings conducted an analysis of the price and terms offered by Fund I and concluded to decline to purchase the projects and notified Fund I that it was declining to purchase the projects on the terms offered. Under the terms of the right of first offer, Fund I has until November 23, 2005 to sell the projects at a price and on terms no less favorable to a third party than those declined by Holdings. If Fund I receives an offer to purchase the projects prior to November 23, 2005 on terms more favorable to the third party than those offered to Holdings, then, before Fund I may accept the offer, it must first provide Holding with the opportunity to match the offer. If Fund I has not sold its interest in the projects by November 23, 2005, the procedures set out in the right of first offer will apply again. The Manager understands that Fund I is negotiating with a third party for the sale of its interest in the projects but that an agreement for the sale has not been reached.

As disclosed above, the Manager subleases its office space from ArcLight, under an agreement through 2014.
