15.11.2007 12:43:07 Marked=OB Utsteder=Tomra Systems ASA **REDEMPTION OF OPTIONS GRANTED TO EMPLOYEES AND MANAGERS** meldepliktig handel

The Tomra Systems ASA Board has in accordance with proxies given at the Extraordinary General Meeting 19 December 2006, redeemed 19,799 vested options under the Group's option programs for management and employees.

The redemption is executed with the use of the company's own treasury shares, which has been sold at Oslo Stock Exchange on the employees behalf at a price of NOK37.02 per share. After the transaction, Tomra Systems ASA holds 7,681,415 treasury shares.

**Management program 2005-2007**

Out of 111,000 vested, not exercised options at a strike price of NOK27.73, 8,000 are today redeemed.

**Employee program 2005-2010**

Out of 253,075 vested, not exercised options at a strike price of NOK33.30, 11,799 are today redeemed.

The redemption will not have any P/L-impact, as the Group accounts for the option programs in accordance with IFRS 2, where the calculated market value for the options is expensed over the vesting period.

08.11.2007 13:02:17 Marked=OB Utsteder=Tomra Systems ASA ORDER FROM WASTE MANAGEMENT avtaler

TOMRA has today entered into an agreement with an affiliate of Waste Management, Inc. (WMI) for delivery and service of 15 of TOMRA's Automated Recycling Centers (ARC). WMI is North America's leading provider of waste and environmental services to the municipal, commercial, industrial and residential sectors.

Waste Management will use the ARCs in a pilot program in non-deposit markets in North America to test consumers' response to incentive-based recycling. The pilot program represents the introduction of the revolutionary ARC technology in the North American market. Under the agreement the 15 recycling centers will be installed in three test markets during first half of 2008, and the pilot is expected to run until mid 2009.

Says Amund Skarholt, TOMRA's President and CEO: "Combining TOMRA's unique ARC technology with the operational skills and recycling capabilities of Waste Management creates a strong platform for effective and efficient recycling of rigid packaging in non-deposit markets in North America. The agreement represents a commitment by the two companies to test ARCs as a vehicle to increase recycling in North America and to explore the opportunity for further deployment of this technology outside the initial test markets if the pilot is successful".

For further comments, please contact Amund Skarholt (+47 97 55 94 25) or Trond K. Johannessen (+47 91 59 66 88).
