There continues to be an appropriate emphasis on risks affecting the health and safety of the Group's customers and employees with Andrew John, Director of Legal Affairs & Company Secretary, taking responsibility for these matters on behalf of the Board.

Risk Management remains primarily the responsibility of the businesses affected, supported by expertise at Group level. As part of the long-term process, the risk profile of the Group is to be re-evaluated with risks categorised by discipline, territory and the effect on business strategy at all levels in the organisation.

Resources
In addition to restructuring the responsibility for managing risk, the Group Management Board has approved significant investment to increase the resources available – both in human terms and by introducing speciality IT tools. A Group Risk Manager was appointed in April 2004 and a commitment has been made to employ Risk Managers within each Sector who will be responsible for deploying Group-wide policies and procedures.

The Corporate Communications Team launched a Corporate Extranet during 2005 which has significantly enhanced the deployment of information around the Group and made the upgraded Crisis Communications Manual more widely available. Further IT-based support is currently in development and will be rolled out during 2006.

Strategic risk management
The Group Risk Management Policy is designed to provide a formal structure through which First Choice will:

- endeavour to reduce as far as possible the exposure of all its businesses to risk;
- seek to recognise and derive the maximum benefit from any opportunities identified through risk analysis;
- seek to achieve excellence in Corporate Governance through managing risk effectively throughout the organisation; and
- seek to provide entrepreneurial leadership within a framework of prudent and effective controls which enables risk to be assessed and managed.

In order to manage risk, we must be able to measure it. It is therefore our intention to further develop risk management practices that enable us to measure the impact of risk by reference to recognised, international standards. The Mainstream Holidays Sector is implementing an Environmental Management System (EMS) in line with the best practice standard ISO14001. In the longer term it is planned that we will also develop its Business Continuity Management (BCM) capabilities to PAS 56:2003 standards.

First Choice is currently setting appropriate metrics and KPIs by which it will be able to improve the measurement, in comparative terms, of risk levels and progress made in mitigating and managing risk. Supported by an IT solution to assist in the identification and quantification of risk, this will assist greatly in identifying any process interdependencies that merit further attention. It will also assist in the Group's consolidated business impact assessment.

Company law requires the Directors to prepare accounts for each financial year which give a true and fair view of the state of affairs of the Company and the Group and of the profit or loss for that period. In preparing those accounts, the Directors are required to:

> select suitable accounting policies and then apply them consistently;

> make judgements and estimates that are reasonable and prudent;

> state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the accounts; and

> prepare the accounts on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the accounts comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

We have audited the accounts on pages 28 to 56. We have also audited the information in the Directors' Remuneration Report that is described as having been audited.

This report is made solely to the Company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors
The Directors are responsible for preparing the Annual Report and the Directors' Remuneration Report. As described on page 77, this includes responsibility for preparing the accounts in accordance with applicable United Kingdom law and accounting standards. Our responsibilities, as independent auditors, are established in the United Kingdom by statute, the Auditing Practices Board, the Listing Rules of the Financial Services Authority and by our profession's ethical guidance.

We report to you our opinion as to whether the accounts and the part of the Directors' Remuneration Report to be audited give a true and fair view and have been properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the Directors' Report is not consistent with the accounts, if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and transactions with the Group is not disclosed.

We review whether the corporate governance statement on pages 71 to 74 reflects the Company's compliance with the nine provisions of the 2003 FRC Code specified for our review by the Listing Rules and we report if it does not. We are not required to consider whether the Board's statements on internal control cover all risks and controls, or form an opinion on the effectiveness of the Group's corporate governance procedures or its risk and control procedures.

We read the other information contained in the Annual Report, including the Corporate Governance Statement and the unaudited part of the Directors' Remuneration Report, and consider whether it is consistent with the audited accounts. We consider the implications for our report if we become aware of any apparent mis-statements or material inconsistencies with the accounts.

Basis of audit opinion
We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts and the part of the Directors' Remuneration Report to be audited. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the accounts, and of whether the accounting policies are appropriate to the Group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the accounts, and the part of the Directors' Remuneration Report to be audited, are free from material mis-statement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the accounts and the part of the Directors' Remuneration Report to be audited.

Opinion
In our opinion:

> the accounts give a true and fair view of the state of affairs of the Company and the Group as at 31 October 2005 and of the profit of the Group for the year then ended; and

> the accounts and the part of the Directors' Remuneration Report to be audited have been properly prepared in accordance with the Companies Act 1985.

→ Year-on-year increase in operating results in shipping and tourism totalling € 193 million in Q3 2007.

→ Successful implementation of merger with First Choice Holidays PLC and IPO of the new TUI Travel PLC.

→ Net debt of € 3 billion at stable level despite business expansion through merger with First Choice Holidays PLC.

Economic Situation in Q3 2007

General economic situation

The world economy continues to undergo a phase of rapid expansion. World production continued to grow, although the individual regions reported varying economic developments. In the last few weeks, economic activity in the US was curbed by the subprime woes in the real estate market. As a result, both housing investments but also private consumption dropped substantially. Economic activity in Japan was strong but lost some steam. In the Eurozone, too, production growth slowed slightly down. The developing countries and emerging markets, in contrast, continued to record rapid growth in economic activity.

Special events in the quarter under review

Update on the merger between TUI's tourism division and First Choice Holidays
At an extraordinary Annual General Meeting held on 25 July 2007, the shareholders of First Choice Holidays PLC approved of the merger between TUI's tourism division – excluding the hotel companies pooled under TUI Hotels & Resorts – and First Choice Holidays PLC by the required majority of three quarters of the votes. The listing and the first trading day for shares of TUI Travel PLC at the London Stock Exchange was on 3 September 2007. The new company is based in the UK. At 51 per cent, TUI AG holds the majority of shares in the company, while the shareholders of First Choice Holidays PLC hold 49 per cent. TUI Travel PLC is fully consolidated in TUI AG's consolidated financial statements.

The merger was approved subject to the condition that the TUI Group sell its Irish subsidiary Budget Travel. On 14 September 2007, the company was sold to the Icelandic travel company Primera Travel Group. The European anti-trust authorities granted their approval on 16 October 2007.

[1] September only

In the third quarter 2007, the turnover of the TUI Group's continuing operations – tourism, shipping and central operations – was 9.8% up year-on-year. Cumulated turnover for the first nine months of 2007 also rose by 2.8% year-on-year.

At € 5.8 billion, turnover by tourism grew by 12.2% year-on-year in the third quarter 2007. For the first nine months, the division also recorded growth of 6.3%. First Choice was fully consolidated for the first time in the third quarter with the month of September and contributed € 500 million to tourism turnover. Adjusted for the development of turnover by the Other tourism sector, which still comprised pro-rated turnover from the divested business travel operations in the first quarter 2006, and First Choice's proportion of turnover, turnover by tourism grew by 2.6% year-on-year in the third quarter and 2.5% in the first nine months of 2007.

In the shipping sector, turnover rose by 6.3% year-on-year to € 1.6 billion in the third quarter. Cumulated turnover for the first nine months of the year declined by 2.3% year-on-year to € 4.6 billion. The improvement in the turnover trend in the third quarter was attributable to the continuing positive development of transport volumes, which went hand in hand with a significant recovery in freight rate levels. In total, the development of turnover was burdened with the year-on-year weak US-dollar.

At € 3 million, turnover by central operations dropped by 95.7% year-on-year in the third quarter. In the first nine months, it was € 20 million or 88.2% down year-on-year. This was primarily due to the divestment of the majority interest in Wolf GmbH, a heating and air conditioning company, in October 2006 and the resulting decline in turnover.

In the 2007 financial year, the TUI Group no longer conducts any activities to be classified as discontinuing operations in accordance with IFRS regulations. In 2006, turnover of € 401 million had been generated in the trading sector in the first nine months.

At € 7.4 billion, total turnover by the TUI Group's divisions was 9.8% up year-on-year in the third quarter. In the first nine months, it rose by 0.3% to € 16.7 billion year-on-year.

Continuing operations

Earnings by the continuing operations tourism and shipping as well as central operations (before interest, taxes and amortisation of goodwill) rose by € 239 million to € 768 million year-on-year in the third quarter 2007. Cumulated earnings for the first nine months also rose by € 142 million to € 690 million. Both in 2007 and 2006, earnings were affected by a number of one-off effects. In order to ensure a transparent presentation of the development of earnings by the divisions, a reconciliation to underlying earnings (underlying EBITA by divisions) is provided in the section below.

Notwithstanding previous adjustment items, expenses incurred for purchase price allocations relating to acquisition transactions were included in the reconciliation to underlying earnings for the first time. The additional adjustment of the effects mentioned above is associated with the harmonisation of the presentation of operating earnings in the framework of the merger between First Choice Holidays PLC and the TUI Group's tourism entities. In order to ensure comparability with 2006 levels, underlying earnings were restated accordingly.

At € 631 million, earnings by tourism grew by 8.0% year-on-year in the third quarter. Cumulated earnings for the first nine months of 2007 dropped by € 246 million to € 407 million. Earnings for the third quarter 2007 included total one-off effects of € 50 million. Apart from minor restructuring expenses in individual source markets, one-off expenses incurred in connection with the completed merger of First Choice with the TUI Group's tourism entities were included. A material portion of € 15 million was associated with the additional expenses for the preliminary purchase price allocation of First Choice in the framework of the merger. In the 2006 reference period, one-off expenses of € 10 million had been included. Adjusted for the one-off effects, earnings rose by 14.6% year-on-year in the third quarter, while earnings for the first nine months declined by 4.0%. When deducting First Choice's profit contributions for September, which were not included in the previous year, underlying earnings also rose substantially by 8.8% in the third quarter 2007. However, earnings for the first nine months of 2007 declined by 10.7% year-on-year. The significant improvement in earnings in the third quarter 2007 was mainly driven by the recovery of the French activities and the high operating earnings contribution of the British business, achieved despite a difficult market environment. Moreover, hotel activities also achieved a substantial increase in earnings.

Underlying EBITA by division	115	9	n. m.	88	77	+ 14.3

At € 103 million, earnings by the shipping division rose by € 128 million year-on-year in the third quarter 2007. Cumulated earnings for the first nine months also rose year-on-year to € 257 million, up € 348 million. Earnings for the third quarter comprised lagging one-off income of € 8 million generated in connection with the divestment of Montreal Gateway Terminals, sold in the first quarter 2007, and expenses of € 20 million from the purchase price allocation of CP Ships. The 2006 reference period still comprised expenses for the integration of CP Ships and the purchase price allocation of CP Ships totalling € 34 million. Adjusted for the one-off effects, earnings in the third quarter 2007 stood at € 115 million, a significant increase in earnings of € 106 million. The improvement in operating results was driven by strong growth in transport volumes and a significant increase in freight rate levels in container shipping compared with the first half of 2007. There were also positive effects from the increase of efficiency, resulting from the integration of CP Ships. For the first nine months, underlying earnings stood at € 88 million, an increase of € 11 million. The significant increase in earnings in the third quarter 2007 thus more than offset the market-induced strains on earnings in the first half of 2007.

Underlying EBITA by division: Central operations

Underlying EBITA by division	34	- 30	n. m.	32	- 29	n. m.

In the third quarter 2007, earnings by central operations grew by € 64 million year-on-year to € 34 million. For the first nine months, earnings also increased by € 40 million to € 26 million. The increase in earnings in the third quarter 2007 was mainly driven by the positive earnings from the valuation of foreign exchange transactions to hedge future cash flows.

Discontinuing operations

In the 2007 financial year, the TUI Group no longer conducts any discontinuing operations. In 2006, earnings in the third quarter still comprised a gain on disposals of € 6 million, primarily resulting from the divestment of rail logistics in December 2005. In the first nine months of 2006, earnings totalled € 29 million.

Tourism turnover grew by 12.2% to € 5.8 billion in the third quarter and by 6.3% to € 12.0 billion in the first nine months of 2007. The Central Europe sector increased by 1.1% in the third quarter and by 4.4% in the first nine months of the year. This was due to the increase in customers both in package tours but also in the modular and seat-only business. The Northern Europe sector reported a slight increase in customers and a decline in turnover of 1.9% in the third quarter and 3.3% in the first nine months of the year. The Western Europe sector recorded an increase in turnover of 10.2% in the third quarter with cumulated turnover of 5.8% for the first nine months of the year, with an overall growth in customers. The incoming agencies recorded turnover increases of 6.4% in the third quarter and of 13.5% in the first nine months of the year. First Choice – consolidated fully for the first time in September 2007 – reported a turnover of € 500 million for that month. The Other tourism sector did not report any turnover due to the divestments in the 2006 financial year. In the TUI Hotels & Resorts sector, turnover increased by 28.9% and by 21.6% respectively, in the third quarter and in the first nine months of 2007. On a like-for-like basis, excluding Other tourism sector as well as First Choice, tourism turnover increased by 2.6% and 2.5%, respectively, for the third quarter and the first nine months of 2007.

Customer numbers tourism

'000	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %

Western Europe	1,731	1,619	+ 6.9	3,771	3,569	+ 5.7
Total	**8,386**	**7,761**	**+ 8.1**	**18,734**	**17,503**	**+ 7.0**

At € 631 million in the third quarter 2007, total earnings by the tourism division increased by 8.0%. In the first nine months of the year, total earnings by the tourism division decreased by € 246 million year-on-year. The main reason for the decline in earnings year-on-year in the first nine months was one-off income from the divestment of the business travel operations, which was included in the first quarter 2006 and the Dutch specialist tour operators totalling € 162 million. Adjusted for one-off effects, underlying earnings increased by € 87 million year-on-year in the third quarter 2007 but declined by € 21 million in the first nine months of the year.

Turnover and earnings

In the Central Europe sector (Germany, Switzerland and Austria and airline TUIfly.com), the number of customers rose by 11.6% in the third quarter 2007, with cumulative customers for the first nine months of 2007 up 10.1%. Turnover increased by 1.1% in the third quarter with varying trends observed in the individual source markets. In the first nine months of 2007, turnover increased by 4.4%. The German and Swiss source markets contributed to this year-on-year growth, whilst Austria's performance declined year-on-year.

Earnings for the Central Europe sector fell by 18.5% year-on-year to € 141 million in the third quarter 2007. Earnings for the first nine months of the year also declined by 38.7% to € 84 million. Earnings in the third quarter 2007 included one-off expenses of € 2 million for the re-branding of the new brand TUIfly.com in the framework of the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express. There were also restructuring costs of € 3 million concerning the reorganisation of Austrian Gulet Touristik GmbH & Co KG. In the third quarter 2006 earnings included restructuring expenses of € 2 million, relating to the efficiency enhancement programme for the German market. Adjusted for these one-off effects in the third quarter 2007, underlying earnings totalled € 146 million, down 16.6% year-on-year. Cumulated underlying earnings for the first nine months of the year amounted to € 100 million, a decline of 31.0%. The main reason for the reduction in earnings was the slight decline in the seat load factor in the airline sector as well as a difficult market environment in the German flight sector.

Customer numbers Central Europe

'000	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %
Germany	3,771	3,333	+ 13.1	8,462	7,632	+ 10.9

Central Europe	**4,224**	**3,784**	**+ 11.6**	**9,333**	**8,481**	**+ 10.1**

Germany

Customers by TUI tour operators and TUIfly.com, grew by 13.1% year-on-year in the third quarter 2007 and 10.9% for the first nine months of the year. As before, this was largely attributable to the TUI Deutschland tour operators – both in the package tour and modular segments – and the seat-only business of TUIfly.com. Demand for Egypt, Turkey and Spain as well as long-haul destinations was very strong, while bookings to Italy, Tunisia and Sri Lanka were more subdued.

Switzerland

The Swiss tour operator market continued to develop very satisfactorily in the third quarter 2007. TUI Suisse tour operators recorded an increase in customers of 13.5% in the third quarter and of 17.1% in the first nine months of 2007. This was largely attributable to the two brands TUI and FlexTravel, while Vögele bookings were on last year's level.

Austria

In Austria, the tour operator market continued to weaken in the third quarter 2007. TUI Austria reported a 3.8% reduction in customers year-on-year, with customer numbers declining by 2.3% year-on-year in the first nine months of 2007. However, both the TUI and Terra brands improved, whilst Gulet remained below expectations. Demand was particularly good for Egypt and Turkey. Bookings to Spain were less strong.

Flight operations Central Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q3 2007	Q3 2006	Var. abs.	Q3 2007	Q3 2006	Var. %	Q3 2007	Q3 2006	Var. %-points
TUIfly.com	55	51	+ 4	7.5	7.2	+ 4.8	88.1	88.5	- 0.4

TUIfly.com

The third quarter was furthermore characterised by the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express. Due to the new Boeing 737s, delivered in the second quarter, the number of operated aircraft increased by four aircraft year-on-year. There was no change in the number of operated aircraft compared with the second quarter 2007. The seat load factor was slightly down against last year's level. However, compared with the second quarter 2007, the airline managed to improve its seat load factor significantly by 11.6%-points.

Turnover and earnings

In the Northern Europe sector (UK, Ireland, Nordic countries and airlines Thomsonfly and TUIfly Nordic), the number of customers rose by 3.1% in the third quarter 2007 and 3.2% in the first nine months of the year in a continuing difficult market environment. This growth in customers was mainly driven by the increase in Thomsonfly's seat-only business. Turnover declined by 1.9% year-on-year in the third quarter and 3.3% in the first nine months of the year. Source market UK reported a decline in turnover both in the third quarter and in the first nine months of 2007 whilst source market Nordic countries managed to expand their business volume in the quarter as well as in the first nine months.

At € 239 million in the third quarter 2007, earnings for the Northern Europe sector were above last year's level. Earnings for the first nine months of the year reduced by € 102 million to € 84 million. Earnings in the third quarter included one-off expenses of € 3 million relating to changes to the air passenger duty in the UK which could not be passed on to customers as well as one-off expenses for the redemption of long-term bonus programmes and consultancy fees relating to the merger between First Choice and TUI's tourism division of € 15 million. No one-off effects were included in earnings for 2006. Adjusted for the one-off effects for the third quarter 2007, underlying earnings totalled € 257 million, an increase of € 22 million year-on-year. This increase in earnings was primarily attributable to the restructuring programme offset in the financial year 2006 taking effects now as well as first recovery trends in the UK travel market; however, the market environment remains difficult yet. The Nordic countries had again a strong third quarter and were able to increase earnings for the first nine months of 2007. For the first nine months of 2007, underlying earnings for the Northern Europe sector totalled € 130 million, a decline of € 56 million.

Customer numbers Northern Europe

'000	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %
UK	1,990	1,822	+ 9.2	4,496	4,239	+ 6.1
Ireland	50	157	- 68.3	180	299	- 39.8
Nordic countries	391	378	+ 3.3	954	915	+ 4.2
Northern Europe	**2,431**	**2,357**	**+ 3.1**	**5,630**	**5,453**	**+ 3.2**

UK

Market conditions in the UK remained difficult for the tour operators, leading to a reduction in customers; on the other hand, Thomsonfly recorded an increase in customers in the seat-only business. Total customers rose by 9.2% year-on-year in the third quarter 2007 and 6.1% year-on-year in the first nine months of 2007. In terms of short and medium-haul destinations, bookings to Portugal and France rose for the 2007 summer season, whilst bookings to Spanish destinations declined year-on-year.

Ireland

In the third quarter 2007, Ireland reported a 68.3% decline in customers. For the first nine months of the year, customers fell by 39.8% year-on-year. In the third quarter, the contract concerning the sale of the Irish tour operator Budget Travel to Primera Travel Group (Iceland) was closed. Thereby the requirements of the antitrust authorities in relation to the merger of TUI's tourism division and First Choice Holidays PLC were met.

Nordic countries

Tour operators in the Nordic countries met expectations in the third quarter 2007. The number of customers grew by a total of 3.3% in the third quarter, with cumulative customers for the first nine months of 2007 up 4.2%. Demand for Greece in particular was highly supported by higher demand for the Balearic Islands.

Flight operations Northern Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q3 2007	Q3 2006	Var. abs.	Q3 2007	Q3 2006	Var. %	Q3 2007	Q3 2006	Var. %-points
Thomsonfly	48	47	+ 1	8.1	8.7	- 6.5	90.7	85.5	+ 5.2
TUIfly Nordic	5	5	+/- 0	1.0	1.0	- 5.1	95.5	95.1	+ 0.4

Thomsonfly

Due to flight schedule adjustments Thomsonfly reduced the volume of seat kilometres offered both in the charter flight segment and the scheduled flight segment. As a result, the seat load factor increased year-on-year. The airline operated one more aircraft compared to the third quarter 2006.

TUIfly Nordic

Offered seat kilometres in the third quarter 2007 were reduced due to flight schedule adjustments. As a consequence the seat load factor in the third quarter increased year-on-year. The fleet size remained unchanged year-on-year.

Turnover and earnings

In the Western Europe sector (France, the Netherlands, Belgium and airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium), turnover increased in the third quarter 2007 by 10.2% against 2006 due to an increase in customers. Cumulative turnover for the first nine months of the year also grew by 5.8%. In the Netherlands, turnover increased for the third quarter as well as for the entire reporting period. In France, turnover grew year-on-year both in the third quarter and in the first nine months of the year with customer numbers on last year's level. Belgium reported a turnover above last year's level, while customer numbers increased.

Earnings by the division increased noticeably year-on-year to € 108 million in the third quarter 2007 and to cumulative € 51 million in the first nine months of the year. Earnings in the third quarter included restructuring expenses of € 2 million for reorganisation in the French and Dutch source markets. Earnings in the corresponding 2006 quarter included restructuring expenses as well as other one-off items from the fleet renewal of the Corsair Boeing 747 fleet and expenses from changes to the IT booking systems at Nouvelles Frontières totalling € 7 million. Adjusted for these one-off effects, underlying earnings increased by 48.6% year-on-year. This was due to the from now on noticeable positive effects of performed restructuring programmes in the French business. The Dutch and Belgian organisations also developed positively in the third quarter. Cumulative underlying earnings for the first nine months of the year increased by 78.8% to € 59 million.

Customer numbers Western Europe

'000	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %
France	521	513	+ 1.5	1,270	1,273	- 0.2

Western Europe	**1,731**	**1,619**	**+ 6.9**	**3,771**	**3,569**	**+ 5.7**

France

In France, the travel market experienced a slight recovery. In line with this, customers increased by 1.5% year-on-year in the third quarter. Cumulated customers for the first nine months were on last year's level. Bookings to North Africa and Guadeloupe in particular were up in the third quarter.

Netherlands

Whilst volumes in the Dutch travel market decreased in the third quarter, TUI's Dutch tour operators reported an overall increase of 10.0% in customers, with total growth in customers of 6.1% for the first nine months of 2007. Demand in the third quarter was very strong for the Caribbean, France and Egypt, whilst bookings to the Balearic Islands, Germany and Portugal declined slightly.

Belgium

In Belgium, the number of tour operator customers grew by 9.0% in the third quarter 2007 and 11.0% in the first nine months of the year. In terms of flight operations, demand for Turkey and Bulgaria was very strong in the medium-haul segment, while the Caribbean reported good booking levels in the long-haul segment. Bookings of self-drive tours matched 2006 levels, while city trips and short breaks recorded year-on-year growth in bookings.

Flight operations Western Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q3 2007	Q3 2006	Var. abs.	Q3 2007	Q3 2006	Var. %	Q3 2007	Q3 2006	Var. %-points
Corsair	8	8	+/- 0	4.3	4.3	+ 1.0	82.2	80.2	+ 2.0
TUI Airlines Nederland	4	3	+ 1	1.2	1.0	+ 23.7	89.9	90.1	- 0.2
TUI Airlines Belgium	10	8	+ 2	1.8	1.6	+ 8.6	93.5	92.5	+ 1.0

Corsair

In the third quarter 2007, Corsair slightly increased the seat kilometre volume on offer due to the rise in demand in the long-haul segment. The seat load factor also increased, whilst the number of aircraft did not change year-on-year.

TUI Airlines Nederland/Arkefly

In the third quarter 2007, TUI Airlines Nederland operated one additional aircraft compared with the same quarter 2006. The seat kilometre volume rose accordingly whilst the seat load factor decreased slightly year-on-year.

TUI Airlines Belgium/Jetairfly

In the third quarter 2007, TUI Airlines Belgium operated two additional aircraft compared with the corresponding period 2006 and increased seat kilometres offered. The seat load factor on the expanded flight capacity increased year-on-year due to the increase in demand for tour operator products.

Turnover and earnings

The incoming agencies sector reported a 6.4% increase in turnover year-on-year in the third quarter 2007. Cumulative turnover for the first nine months of the year increased by 13.5%.

Earnings for the division were stable, increasing by 10.3% to € 32 million in the third quarter 2007. At € 46 million in the first nine months of 2007, earnings were on last year's level. There were no one-off effects, neither in the third quarter 2007 nor 2006.

Business development

Incoming agencies reported a satisfactory business trend in the third quarter 2007 catering for 4.20 million guests, a 5.5% increase year-on-year. Agencies in the western Mediterranean reported different trends in guest numbers in the third quarter: TUI España recorded a slight fall in guests, primarily from source market UK. TUI Portugal however reported an increase in guests in all the Portuguese destinations and especially for the relatively new destination in the Cape Verde Islands. In the eastern Mediterranean, the TUI Hellas and TUI Türkiye agencies again recorded increases in terms of guest numbers; as did Tunisia. In Egypt guest numbers were at last year's level in the third quarter. In the long-haul segment the Dominican Republic suffered a strong decline in guests. Mexico saw also a decline in the number of guests, in particular from Germany and the UK.

In 2006, the Other tourism sector included the business travel operations and the IT services companies of TUI InfoTec. The divestment of the business travel operations to the Dutch BCD Holdings N.V. was closed on 31 March 2006. Resulting from this divestment a lagging expense of € 1 million incurred in the third quarter

2007. In September 2006, a 50.1% majority in TUI InfoTec was sold to the Indian software company Sonata Software Limited. The transaction was closed on 24 November 2006.

In September – the first month the company was fully consolidated – the tour operators of First Choice Holidays reported 0.5 million customers. The business operated a fleet of 33 aircraft and offered 2.1 billion seat kilometres with a seat load factor of 91.9%. First Choice contributed turnover of € 500 million and earnings of € 10 million for September. These earnings included expenses incurred in the framework of the merger (€ 10 million) as well as expenses for the purchase price allocation (€ 15 million), of which € 10 million are related to the amortisation of order backlog fair value. Adjusted for these one-off effects of € 25 million, First Choice achieved underlying earnings of € 35 million.

Turnover and earnings

The TUI Hotels & Resorts sector reported turnover growth of 28.9% for the third quarter and 21.6% for the first nine months of the year.

Earnings by the sector climbed by 21.7% to € 101 million in the third quarter 2007. In the first nine months, earnings grew by 20.0% to € 132 million. Earnings for the third quarter 2007 and the third quarter 2006 did not comprise any one-off effects. Earnings for the first nine months of 2007 did not comprise any one-off items, either. In the first nine months of 2006, earnings included an one-off expense for litigation in connection with a lease agreement for a holiday club facility of € 6 million. The increase in operating earnings was driven by the satisfactory development of the RIU Group and the stabilisation of earnings of Magic Life.

Business trend

With a slight increase in capacity, overall occupancy rates of the hotel companies in the TUI Hotels & Resorts sector were slightly up year-on-year in the third quarter. RIU Hotels slightly increased last year's occupancy rate level, whilst capacity increased. Hotels in Spain and Portugal, in particular, reported satisfying increases in occupancy rates. In the long-haul destinations, facilities recorded high occupancy rates, with the exception of facilities in Mexico which reported a decline due to hurricane Dean. Robinson Clubs increased their capacity as well as 2006 occupancy rate levels, with varying trends observed in the individual destinations. Magic Life considerably reduced its capacity and achieved an increase in occupancy rates year-on-year. Iberotel increased its occupancy rates considerably in Turkey as well as Egypt, where it expanded its capacity slightly. Grecotel and Grupotel maintained their capacity and reproduced the high occupancy rates achieved in 2006.

Development of the divisions: Shipping

The shipping division comprises the container and cruise businesses of the Hapag-Lloyd Group.

Shipping – Key figures

Due to a significant growth in transport volumes in container shipping and the recovery of freight rates, the shipping division achieved turnover growth of 6.3% in the third quarter, despite the persistent weakness of the US dollar. For the first nine months of 2007, turnover declined by 2.3% year-on-year. At € 1.6 billion in the third quarter 2007 and € 4.5 billion in the first nine months of 2007, the container business accounted for the bulk of turnover by the division; this corresponded to turnover of plus 5.5% and minus 2.8%, respectively. Hapag-Lloyd Kreuzfahrten generated turnover of € 52 million in the third quarter 2007 and € 138 million in the first nine months; turnover thus grew by 40.6% year-on-year for the third quarter and 13.1% for the first nine months.

Total earnings by the shipping division amounted to € 103 million (previous year: € - 25 million) in the third quarter 2007 and € 257 million (previous year: € - 91 million) in the first nine months of the year, a substantial increase year-on-year. Container shipping contributed € 95 million to these earnings in the third quarter, with cumulated earnings of € 247 million in the first nine months. Hapag-Lloyd Kreuzfahrten generated € 8 million in the third quarter and € 10 million in the first nine months. Adjusted for one-off income from divestments and one-off expenses for the purchase price allocation for CP Ships, earnings rose substantially by € 106 million to € 115 million in the third quarter 2007. Despite the weak performance in the first half of 2007, earnings for the first nine months rose by 14.3% to € 88 million year-on-year.

Reporting structure

In the framework of the operative integration of CP Ships, acquired in October 2005, into Hapag-Lloyd, the freight rates and transport volumes for Hapag-Lloyd and CP Ships have been jointly presented and broken down according to the geographical structure of the trade lanes since the third quarter 2006. Thereby, CP Ships' key figures were broken down accordingly for 2006 and determined statistically for the reference periods in order to create a basis for comparisons.

Turnover and earnings

Turnover by container shipping grew by 5.5% to € 1.6 billion in the third quarter 2007. For the first nine months, turnover of € 4.5 billion was achieved, a slight decrease of 2.8% year-on-year. The turnover growth in the third quarter resulted both from continued volume growth and the increase in average freight rates of 0.9%. On a cumulated basis, however, freight rates were still 4.2% short of the corresponding levels in 2006. The number of standard containers shipped rose by 12.4% to 1,394 thousand standard containers (TEU) in the third quarter, with cumulated year-on-year growth of 9.9% to a total of 4,091 thousand TEU in the first nine months.

At € 95 million, earnings by container shipping were € 127 million up on 2006 levels. At € 247 million, cumulated earnings for the first nine months of the year also exceeded 2006 levels by € 347 million. Earnings in the third quarter comprised one-off income of € 8 million in connection with the divestment of Montreal Gateway Terminals, sold in the first quarter 2007. Earnings for the quarter also comprised expenses related to the purchase price allocation for CP Ships of € 20 million. The 2006 reference period had comprised expenses of € 14 million for the integration of CP Ships and expenses of € 20 million for the purchase price allocation for CP Ships. Adjusted for the one-off effects, underlying earnings in the third quarter 2007 accounted for € 107 million, a substantial increase in earnings of € 105 million year-on-year. The improvement in the operating result was driven by the strong growth in transport volumes and a significant increase in freight rate levels in container shipping compared with the first half of 2007. There were also positive effects from the increase of efficiency, resulting from the integration of CP Ships. For the first nine months, underlying earnings also rose year-on-year to € 78 million. The considerable improvement in earnings in the third quarter 2007 thus more than offset the market-induced impact on earnings in the first half of 2007.

In the third quarter 2007, container shipping achieved transport volume growth of 12.4% year-on-year. For the first nine months, cumulated growth in transport volume was 9.9%, with virtually all trade lanes recording increases in transport volumes. Overall, the development of average freight rates improved significantly in the third quarter. For the first time this year, the freight rate level rose again year-on-year. However, cumulated freight rates for the first nine months were still 4.2% down year-on-year. The decline in freight rates, however, decreased steadily in the current financial year. In some cases the improvements were substantial, in particular in the Far East trade lane.

The Far East trade lane achieved another year-on-year increase in the number of standard containers shipped. The key driving force behind this trend was the strong Chinese export market, which resulted in further growth on the routes from Asia to Europe. The year-on-year increase in transport volumes amounted to 18.9% in the third quarter and 20.1% for the first three quarters. At 17.5%, the Far East trade lane posted the strongest growth in freight rates compared with the 2006 reference period. Higher rates were achieved in particular on the high-volume routes from Asia to Europe. Cumulated growth for the first nine months of 2007 amounted to 8.4% year-on-year.

The Trans-Pacific trade lane recorded year-on-year transport volume growth of 12.4% in the third quarter and 10.3% in the cumulated period under review. This growth was primarily due to the increase in shipping volumes on the routes from North America to Asia. In the third quarter 2007, the Trans-Pacific trade lane achieved an 0.2% increase in freight rates, in particular due to the increase in freight rates for transports from Asia to North America. On a cumulated basis, freight rates were still 4.9% down year-on-year, but the positive trend in the third quarter caused a significant decrease in the freight rate delta.

In the Atlantic trade lane, the transport volume grew by 6.5% year-on-year in the third quarter 2007 and 4.9% in the first three quarters. This was primarily attributable to an increase in transports from North America to Europe. Freight rates in

this trade lane continued to fall short of the 2006 levels. However, the decline in freight rates of 7.9% in the third quarter marked an improvement in comparison to the prior quarters of 2007. Cumulated freight rates for the first three quarters declined by 11.4% year-on-year. This was attributable to fierce competition, causing a drop in freight rates in the first half of 2007, in particular on the routes from Europe to North America.

In the Latin America trade lane, the transport volume grew in the double-digit range again in the third quarter 2007 at 18.3%. For the first three quarters, it grew by 13.0% year-on-year. Despite an increase in freight rates for exports from Latin America to Europe and North America, average freight rates in the third quarter were still 1.3% down year-on-year. For the first nine months, the year-on-year decline was 4.9%.

In the Australasia trade lane, the transport volume grew by 5.6% year-on-year in the third quarter 2007. This was mainly due to the increase in inner-Asian transports. Cumulated growth in container transports was still 1.6% down year-on-year. This trend was caused by aggressive competition. Freight rates could not yet recover more significantly due to the persistently high competitive pressure in intra-regional Asian transports and changes in the cargo mix of transports. Freight rate levels were down by 1.7% in the third quarter and 3.8% in the first three quarters year-on-year.

Hapag-Lloyd Kreuzfahrten

Turnover and earnings

In the third quarter 2007, Hapag-Lloyd Kreuzfahrten continued to record a significant positive business trend. Passenger numbers rose substantially year-on-year, causing a gratifying increase in the load factor of the ships. In the third quarter 2007, turnover totalled € 52 million, a substantial increase of 40.6% year-on-year. For the first nine months, turnover grew by 13.1% to € 138 million.

At € 8 million, earnings matched the previous year's level in the third quarter 2007. Cumulated earnings for the nine months also reproduced 2006 levels at € 10 million.

Business trend

In the third quarter 2007, Hapag-Lloyd Kreuzfahrten continued to record a positive bookings trend. Passenger numbers again grew substantially year-on-year, resulting in an increase in the load factor of the ships. A satisfactory increase both in booking volumes and the load factor was recorded in particular for 'Europa' and 'Hanseatic'.

Consolidated earnings

As of the interim financial statements as per 30 September 2007, the consolidated profit and loss statement will be structured according to the cost of sales format under which turnover is presented alongside the expenses required to generate it. The purpose of the cost of sales format is to enhance international comparability.

[1] EBITA represents earnings before interests, taxes on income and amortisation of goodwill.

Turnover and cost of sales

Turnover comprised the turnover of the tourism and shipping divisions and of central operations, which include the holding companies and the Group's real estate companies. In the third quarter 2007, turnover grew by 9.8% year-on-year to € 7.4 billion. For the first nine months, turnover rose by 2.8% to € 16.7 billion. The cost of sales was presented alongside turnover. In the third quarter, the cost of sales totalled € 6.3 billion, up 6.6%. In the first three quarters, the cost of sales amounted to € 15.5 billion and was thus 2.7% up year-on-year. A detailed breakdown of turnover and the turnover trend is presented in the section 'Consolidated turnover and earnings'.

Gross profit

Gross profit as the balance arising from turnover and cost of sales totalled € 1.1 billion (previous year: € 829 million) in the third quarter, an increase of 32.9%. For the first nine months, it stood at € 1.2 billion and thus matched 2006 levels.

Administrative expenses

Administrative expenses comprised expenses not directly allocable to the turnover transactions, such as expenses for general management functions. In the third quarter, they totalled € 389 million, up 15.9% year-on-year. In the cumulative nine-month period, they amounted to € 876 million, a 9.7% decrease year-on-year. The considerable drop in administrative costs year-on-year resulted from cost reductions due to divestments (TQ3, Wolf and TUI InfoTec) as well as integration and restructuring expenses in the shipping and tourism divisions comprised in 2006 figures.

Other income/other expenses

Other income and other expenses primarily comprised profits or losses from the sale of fixed assets. At € 27 million, other income/other expenses was 130.8% up year-on-year in the third quarter. In the first nine months, this item totalled € 276 million, up 4.7% year-on-year. This was mainly attributable to the income of Montreal Gateway Terminals in the shipping division.

Impairment of goodwill

Impairment of goodwill totalled € 33.6 million, both in the third quarter and the first nine months of 2007. The impairment concerned the impairment of goodwill of the Irish Budget Travel in the tourism sector.

Financial result

The financial result comprised the net interest result and the net result from marketable securities. At € - 78 million, the financial result fell short of the 2006 level in the third quarter and comprised financial income of € 62 million (previous year: € 42 million) and financial expenses of € 140 million (previous year: € 98 million). In the first nine months of 2007, the financial result also dropped by 24.0% to € - 194 million. It comprised financial income of € 148 million (previous year: € 140 million) and financial expenses of € 342 million (previous year: € 296 million).

Result from companies measured at equity

The result from companies measured at equity comprised the share in net profit for the year of the associated companies and joint ventures as well as impairments of goodwill of these companies. At € 30 million for the third quarter 2007 and € 51 million for the first nine months of 2007, it grew by 25.6% and 26.9%, respectively. It was mainly attributable to the positive development of earnings of the companies measured at equity operating in the incoming agencies and TUI Hotels & Resorts sectors.

Underlying earnings (EBITA)

Underlying earnings of the continuing operations totalled around € 830 million in the third quarter, up 44.7% year-on-year. Cumulated earnings for the first nine months accounted for around € 622 million, up 8.8% year-on-year. EBITA comprised gains on disposals of investments, restructuring expenses, expenses for purchase price allocations, one-off items and effects of the revaluation of conversion options. The adjustments are outlined in detail in the sections on 'Consolidated turnover and earnings' and 'Development of the divisions'.

Income taxes

Income taxes comprised taxes on the profits from ordinary business activities of the continuing operations. Income taxes totalled € 198 million in the third quarter 2007 (previous year: € 177 million) and € 42 million in the first nine months of 2007 (previous year: € 146 million).

Earnings from discontinuing operations

In the first three quarters 2007, the TUI Group no longer held any discontinuing operations so that no corresponding earnings were generated. In the third quarter 2006, earnings from discontinuing operations had accounted for € 3 million, with earnings of € 16 million for the first nine months of 2006. A detailed breakdown of the development of these earnings is provided in the section 'Result from discontinuing operations' in the notes.

Group profit

Group profit totalled € 460 million (previous year: € 300 million) in the third quarter 2007, up 53.3%. The increase resulted from the significantly improved earnings in the tourism and shipping divisions. For the first nine months of 2007, Group profit also rose by 70.0% to € 422 million (previous year: € 248 million).

Minority interests

Minority interests in Group profit totalled € 21 million for the third quarter 2007 and € 44 million for the first nine months of 2007.

Earnings per share

After deduction of minority interests, TUI AG shareholders accounted for € 439 million of Group profit in the third quarter 2007, up 60.4% year-on-year. As a result, basic earnings per share amounted to € + 1.72 (previous year: € + 1.09) in the third quarter. In the first nine months of 2007, TUI AG shareholders accounted for € 378 million after deduction of minority interests; this, too, was an improvement of 81.4%. Basic earnings per share in the first nine months of 2007 thus totalled € 1.43 (previous year: € 0.83).

[1] on property, plant and equipment, intangible assets, financial and other assets

Operating rental expenses

In the third quarter 2007, operating rental expenses of the continuing operations amounted to € 327 million (previous year: € 301 million). In the first three quarters, they stood at € 924 million (previous year: € 860 million).

Interest result

In the third quarter 2007, the interest result of the continuing operations totalled € - 76 million (previous year: € - 56 million). In the first three months, it amounted to € - 193 million (previous year: € - 171 million).

Net assets and financial position

The Group's balance sheet total rose by 34.9 % to € 17.6 billion as against the end of 2006. The changes in the consolidated balance sheet essentially resulted from

the business cycle in tourism. The Group's net assets and financial position were also affected by the acquisitions and divestments (see section 'Acquisitions – divestments' in the notes).

Assets and liabilities

€ million	30 Sep 2007	31 Dec 2006
Non-current assets	11,816.3	10,141.2
Current assets	5,738.5	2,872.8
Assets	**17,554.8**	**13,014.0**
Equity	3,314.7	2,995.1
Provisions	2,615.2	2,436.6
Financial liabilities	5,444.3	3,899.6
Other liabilities	6,180.6	3,682.7
Liabilities	**17,554.8**	**13,014.0**

Non-current assets

As at 30 September 2007, non-current assets accounted for 67.3% of total assets, compared with a share of 77.9% as at 31 December 2006. Non-current assets rose from € 10.1 billion to € 11.8 billion in the period under review. This increase was mainly attributable to the increase in other intangible assets and other property, plant and equipment.

Current assets

As at 30 September 2007, current assets accounted for 32.7% of total assets, up from 22.1% as at 31 December 2006. Current assets rose from € 2.9 billion as at 31 December 2006 to € 5.7 billion as at 30 September 2007. This change was primarily attributable to the increase in trade accounts receivable in the tourism business and the increase in cash and cash equivalents from advance payments received in tourism.

Equity

Equity totalled € 3.3 billion as at 30 September 2007. The equity ratio stood at 18.9%, compared with 23.0% at the end of the 2006 financial year. Detailed information on the changes is provided under 'Changes in equity' in the notes on this interim report.

Provisions

Provisions mainly comprised provisions for pension obligations, effective and deferred income tax provisions and provisions for typical operating risks. As at 30 September 2007, they totalled € 2.6 billion and were thus € 179 million or 7.3% up on their level as at 31 December 2006. This was mainly due to a significant increase in deferred income tax provisions.

Financial liabilities

As at 30 September 2007, financial liabilities comprised non-current financial liabilities of € 4.8 billion and current financial liabilities of € 0.6 billion. As at 31 December 2006, non-current assets stood at € 3.5 billion, with current financial liabilities of € 0.4 billion. At the end of the first nine months of the 2007 financial year, net debt totalled € 3.0 (down from € 3.2 billion at the end of the 2006 financial year). The decline in net debt was attributable to the typical seasonal business trend in tourism and the divestments (Montreal Gateway Terminals, Germanischer Lloyd) made in the first quarter 2007.

Other liabilities

As at 30 September 2007, other liabilities stood at € 6.2 billion, up € 2.5 billion or 67.8% as against 31 December 2006. This was mainly due to the increase in advance payments received in the tourism business.

Prospects

Growth of the world economy is still strong. The increase of gross domestic product in 2007 is expected to almost match the high level of 2006. Due to the real estate crisis and the slight decline in private consumption, economic expansion in the USA is expected to slow down. For the eurozone, experts expect the strong economic trend to continue in the reporting year. The emerging economies are expected to continue their strong production growth. The driving force behind further expansion in these countries is the economic development of the industrialised countries and the growth in foreign trade among the emerging economies themselves.

Against the background of an overall positive macroeconomic trend, the key source markets in tourism are expected to show persistent growth in demand for holiday tours. The growth momentum may vary in the individual source markets. Shipping is characterised by further increasing demand for container transport services caused by the worldwide increase in production and the associated growth in world trade. The recovery of freight rate levels is expected to continue, with the opportunities and risk profile in container shipping also hanging upon the further development of the external cost components.

Tourism

The TUI tourism sectors, which transferred into TUI Travel following the merger with First Choice, successfully concluded the 2007 summer season, which ended in October. Overall, booked turnover rose by 4% year-on-year, while customer numbers grew by 6%. The overall development of all source markets slightly slowed down due to the difficult market environment in source market UK. Bookings for the 2007/2008 winter season which started on 1 November started off well. Currently, booked turnover is 8% up year-on-year, with customer numbers up 6% year-on-year.

Including First Choice's mainstream activities there is an increase in booked turnover of 9% and in customer numbers of 6% for the current winter season.

Concerning the development of earnings (adjusted earnings before interest, taxes and amortisation of goodwill – underlying EBITA by division), the following trend for the 2007 financial year is emerging following the end of the third quarter of 2007:

Despite the overall gratifying bookings trend in the 2007 summer season, the Central Europe sector will not be able to match the high levels of 2006 due to the difficult market conditions in the German flight segment. In the Northern Europe sector, the current restructuring programmes and those completed in previous periods are showing their impact. Despite ongoing cost pressure in the British package tour market, earnings are expected to match 2006 levels. In the Western Europe sector, the restructuring activities launched for operations in France are showing an impact. Here, an overall considerable year-on-year increase in earnings is expected, not least due to the encouraging year-on-year increase in earnings in the Belgian market. In the destinations sector, incoming agencies are expected to generate stable earnings. The TUI Hotels & Resorts sector will be able to increase its earnings year-on-year, in particular due to the encouraging development of earnings by the RIU Group and an improvement in earnings by the club business. Overall, the tourism operations excluding First Choice, which has to be consolidated as of September 2007, are expected to match underlying earnings of 2006 (previous year: € 401 million).

Shipping

The current earnings situation in shipping in the third quarter of 2007 is characterised by a substantial recovery in freight rates compared with the first half of 2007. Outbound Asian transports in the Far East trade lane are already significantly up year-on-year. Moreover, container shipping is recording further increases in transport volumes. From today's perspective, a significant increase in earnings (underlying earnings before interest, taxes and amortisation of goodwill, adjusted EBITA by division) – supported also by efficiency benefits after the integration of CP Ships – is to be expected for the overall year 2007.

Central operations

From today's perspective, central operations will achieve year-on-year growth, taking account of the current positive effects of the valuation of foreign currency transactions.

Group

In the light of the expected positive development of tourism and shipping, the Group's two operative areas, in the third quarter of 2007, the Executive Board is confident for the overall year. For tourism, operating earnings are expected to meet the previous year's levels; it is to be assumed that no additional positive profit contribution will be generated in the period from September to December taking account of the profit contribution of First Choice due to saesonal reasons. The shipping division is expected to post a substantial increase in earnings year-on-year. Consolidated earnings are expected to grow significantly year-on-year in line with the expected developments in the operative areas.

Corporate Governance

In the course of the third quarter 2007, the composition of the Executive Board of TUI AG changed as follows:

On 11 July 2007, the Supervisory Board appointed Peter Long, CEO of First Choice Holidays PLC since 1999 and CEO of the TUI Travel PLC, an ordinary member of TUI AG's Executive Board. The appointment took effect upon the completion of the merger between TUI's tourism division and First Choice Holidays PLC into TUI Travel PLC on 3 September. Alongside Peter Rothwell, he will be in charge of tourism.

Christoph R. Mueller, the director in charge of airlines, switched to the Executive Board of TUI Travel PLC and therefore resigned from his office as a member of TUI AG's Executive Board as planned as per 3 September 2007.

The composition of the Supervisory Board did not change in the third quarter 2007.

The current, complete composition of the Executive Board and Supervisory Board is presented on the Company's website (www.tui-group.com), where it is permanently accessible to the public at large.

[1] Due to the finalisation of the purchase price allocation for the acquisition of the CP Ships Group in the 2006 financial year, the cost of sales declined by € 0.3 million to € 5,911.2 million in the third quarter (by € 1.0 million to € 15,042.5 million in the first nine months). Taking account of the tax effects, earnings from continuing operations rose by € 0.4 million (€ 1.2 million). The figures for 2006 were restated accordingly.

[2] EBITA is equivalent to earnings before interest, taxes on income and amortisation of goodwill.

[3] In calculating earnings per share in accordance with the rules of IAS 33.12, the after-tax amount of the dividend on the hybrid capital was deducted from Group profit attributable to shareholders of TUI AG since the hybrid capital represents equity but does not represent equity attributable to shareholders of TUI AG. The corresponding figure for 2006 was restated accordingly.

Notes

Accounting principles

The Group's interim financial statements as at 30 September 2007 were prepared in a condensed form compared with the consolidated annual financial statements in accordance with IAS 34 'Interim Financial Reporting'. The only deviation from the historical cost principle was the accounting method applied in measuring financial instruments.

As of the beginning of the 2007 financial year, the following statutory standards revised or newly issued by the IASB were applicable: IAS 1 'Presentation of Financial Statements' (amendment concerning capital disclosures) and IFRS 7 'Financial Investments: Disclosures'. These newly applicable standards comprise provisions on disclosures to be provided in the notes on consolidated annual financial statements. The application of these standards therefore did not have any effects on financial reporting in the framework of the interim financial statements for the 2007 financial year. In addition, the following Interpretations newly issued by the IFRIC – already applied to the interim financial statements as per 30 June 2007 – are compulsory: IFRIC 10 'Interim Financial Reporting and Impairment' and IFRIC 11 'Group and Treasury Share Transactions' according to IFRS 2. The application of these Interpretations did not have any effects on these interim financial statements.

The interim financial statements as at 30 September 2007 were prepared in accordance with the same accounting and measurement principles as those applied in the preceding consolidated financial statements as at 31 December 2006. A deviation was made concerning the measurement method applied to provisions for aircraft maintenance operations, which was changed in the current period under review. As at 31 December 2006, the corresponding provisions rose by a total of € 21.8 million. At the same time, the provisions for deferred income taxes decreased by € 6.6 million. The corresponding figures for 2006 were restated. In addition, in accordance with IAS 33.12, the after-tax amount of the dividend on the hybrid capital was deducted from Group profit attributable to TUI AG shareholders in calculating earnings per share since the hybrid capital represents equity but does not represent equity attributable to TUI AG shareholders. The corresponding figure for 2006 was restated accordingly.

Since the purchase price allocation for the acquisition of the CP Ships Group was finalised in the 2006 financial year, the cost of sales for the first nine months of the 2006 financial year declined by € 1.0 million. Taking account of the tax effect, earnings from continuing operations rose by € 1.2 million. The previous year's figures were restated accordingly. The restatements of the original purchase price allocations are outlined in detail in the notes on the consolidated financial statements as at 31 December 2006.

Since the integration of the business operations of the CP Ships Group into the Hapag-Lloyd Group has been completed, the primary currency characterising the joint transport routes and the customer base in container shipping is no longer the euro but the US dollar. The primary economic environment for container shipping operations, i.e. the key environment within which cash and cash equivalents are received and spent, therefore changed to the US dollar region. Since 1 January 2007, the US dollar has therefore had to be used as the functional currency of the operative container shipping companies in accordance with IAS 21.35.

Group of consolidated companies

The consolidated financial statements included all major subsidiaries in which TUI AG was able to directly or indirectly govern the financial or operating policies such that the Group obtained benefits from the activities of these companies.

The interim financial statements as at 30 September 2007 included a total of 47 domestic and 667 foreign subsidiaries, besides TUI AG.

Since 31 December 2006, 345 companies were newly included in the group of consolidated companies. Due to the acquisition of 51.0% of the shares in First Choice Holidays PLC as per 3 September 2007, 332 companies (including TUI Travel PLC) were newly added to the group of consolidated companies. A further six companies had to be consolidated for the first time due to acquisitions. Another five companies were added to consolidation due to an expansion of their business activities, and an additional two companies were newly formed and therefore consolidated for the first time. 344 of the companies newly added related to the tourism division, while one company related to the shipping division.

Since 31 December 2006, a total of 18 companies were removed from consolidation. Fifteen companies related to the shipping division. They were deconsolidated due to the liquidation of these companies. An additional three companies relating to the tourism division were removed from consolidation due to mergers (two companies) and the divestment of 50% of the corresponding shares (one company).

Acquisitions – divestments

With purchase contract dated 31 January 2007, the TUI Deutschland GmbH tour operator acquired the remaining 25%, in addition to the 75% already held, of the capital stock of E.V.S. Beteiligungsgesellschaft mbH, Rengsdorf, a company already included in the TUI Group's group of consolidated companies, at a purchase price of € 19.1 million.

With the purchase agreement dated 30 May 2007, TUI AG purchased a further 40.2% of the previous joint venture Holidays Services S.A. (Morocco) and thus its 95% share in a further tourism company; as a result, TUI AG now holds a total share of 90.2% of Holiday Services S.A. The purchase price including incidental acquisition costs totalled € 4.6 million. On the other hand, the prorated net assets acquired amounted to 9.0 million Moroccan dirham (€ 0.8 million). The resulting difference of € 3.8 million was initially carried as goodwill since the revaluation of assets and liabilities had yet not been completed. Since first-time consolidation turnover totalled 31.1 million MAD (€ 2.8 million) with earnings after income tax of 2.6 million MAD (€ 0.2 million). By the date of the transfer of shares, the company generated turnover of 99.4 million MAD (€ 8.9 million) and earnings after income tax of 15.5 million MAD (€ 1.4 million).

On 4 June 2007, the EU Commission approved of the merger agreed on 19 March 2007 between TUI's tourism division – excluding the hotel companies pooled under the sector TUI Hotels & Resorts – and the British travel group First Choice Holidays PLC into TUI Travel PLC. The approval was granted subject to the condition that TUI AG sells its Irish subsidiary Budget Travel. On 29 June 2007, TUI AG and First Choice Holidays PLC published the prospectus for TUI Travel PLC, the company formed through the merger, for trading at the London Stock Exchange. On 25 July 2007, the shareholders of First Choice Holidays PLC approved of the merger at an extraordinary general meeting.

The merger was effected on 3 September 2007 in the form of a stock swap via the newly formed company TUI Travel PLC (London) whose shares have since been traded in the London Stock Exchange. In the framework of this stock swap, TUI received 51.0% of the shares in TUI Travel PLC and a compensatory claim currently settled on a preliminary basis to produce the gearing of TUI's merged tourism division agreed in the Merger Agreement against transfer of all shares in the companies of TUI's tourism division held by the TUI Group. The swap of stocks in First Choice Holidays PLC was carried out by means of a scheme arrangement under which one share in First Choice Holidays PLC was swapped into one TUI Travel PLC share. TUI now holds 51.0%, i.e. the majority, of shares in the company while the former shareholders of First Choice Holidays PLC hold 49.0% of the shares in TUI Travel PLC.

According to IFRS 3, the transfer of TUI's tourism division has to be treated as a 'transaction under common control' and is therefore explicitly excluded from the scope of IRFS 3 with regard to TUI's tourism division.

Equity, determined on a preliminary basis in accordance with the International Reporting Standards, amounts to - 57.9 million GBP (€ - 85.7 million). The fair values of the acquired assets, liabilities and contingent liabilities as well as acquisition costs were only determined on a preliminary basis due to the short period of time remaining after the acquisition of the First Choice Group. The acquisition costs (including the incidental acquisition costs of € 6,0 million) and the prorated revalued equity (€ - 43.7 million) were netted and resulted in the capitalisation of goodwill of around € 1,228.8 million in the consolidated balance sheet.

	Carrying values as at acquisition date		Revaluation of assets and liabilities		Revalued carry values at date of first time consolidation

In September, First Choice Holidays PLC posted turnover of 338.2 million GBP (€ 500.1 million) and earnings before taxes of 1.7 million GBP (€ 2.5 Mio.). Taking into consideration the negative interest result of TUI Travel PLC the earning before taxes have to be reduced by 1.3 billion GBP (€ 1.9 million). Due to the short period of time passed since the acquisition, further disclosure according to IFRS 3 cannot yet be provided.

As at 1 September 2007, First Choice Holding, Inc. (Wilmington, USA) acquired 100% of the shares in Starquest Expeditions, Inc. (Seattle, USA), a provider of individually designed innovative luxury tours. The purchase price including incidental acquisition costs totalled 50.2 million USD, while net assets accounted for 0.1 million USD. The resulting difference of the equivalent of 24.6 million GBP or € 36.3 million was carried as provisional goodwill.

In addition, on 7 September 2007, First Choice Holding, Inc. (Wilmington, USA) acquired 100% of the shares in New Horizons Tour & Travel, Inc. (Jackson, USA), a specialist provider of study tours. The provisional goodwill carried as at the acquisition date (3.0 million GBP or € 4.4 million) resulted from the purchase price (including incidental acquisition costs) of 5.1 million USD and the negative net assets of 1.0 million USD.

As per 14 September 2007, First Choice Holding, Inc. (Wilmington, USA) acquired all shares in Travel Turf, Inc. (Allentown, USA), which organises study tours under the brand name "World Class Vacations". The purchase price including incidental acquisition costs was 9.1 million USD, while net assets accounted for 0.1 million USD. The resulting difference of 4.5 million GBP or € 6.5 million was carried as provisional goodwill.

With effect from 28 September 2007, Pacific World Singapore Pte. Ltd. (Singapore) acquired a 100% share in Asiarooms Pte. Ltd. (Singapore), a company operating in the hotel accommodation agency business. The goodwill (33.1 million GBP or

€ 47.4 million), capitalised on a preliminary basis as at the acquisition date, was determined on the basis of the purchase price including incidental acquisition costs of 49.0 million USD and negative net assets of 18.5 million USD.

Due to the short period of time between the acquisition of these four companies by the First Choice Group and the preparation of the present interim report of the TUI Group, it was not possible to complete a purchase price allocation to the individual assets and liabilities nor to make any further disclosures according to IFRS 3.

With effect from 5 January 2007, the minority share in 'Germanischer Lloyd AG', held by Hapag-Lloyd AG, was sold at a purchase price of € 15.1 million. As at the end of the 2006 financial year, this minority share had been classified as a non-current asset held for sale in accordance with IFRS 5. The corresponding asset was therefore shown in a separate balance sheet item as at 31 December 2006.

On 21 February 2007, CP Ships Limited concluded an agreement on the sale of the material assets and liabilities of Montreal Gateway Terminals to Montreal Gateway Terminals Limited Partnership, a company set up by Morgan Stanley Infrastructure Partner for this purpose. The agreements took effect as of 9 March 2007. Montreal Gateway Terminals were part of the business of CP Ships, the container shipping line acquired in 2005.

Until 9 March of the current financial year, Montreal Gateway Terminals generated turnover of € 17.1 million and earnings after taxes of € 1.4 million. In the first quarter 2006, turnover had totalled € 25.8 million with earnings of € 9.9 million.

The container terminal business was acquired by Montreal Gateway Terminals Limited Partnership at a price of € 324.6 million in the form of an asset deal. The purchase price was largely paid in cash, with the remainder paid in the form of a transfer of an interest of around 20% in the new company. This interest was included in the framework of at equity measurement by the TUI Group. After deduction of the selling expenses of € 4.3 million and the retroactive purchase price adjustment of around € 7.9 million in the third quarter 2007, the divestment generated overall positive earnings before taxes of € 185.6 million in the shipping division in the first nine months of the 2007 financial year.

Since the sales negotiations became increasingly specific, the material assets and liabilities of Montreal Gateway Terminals were classified as a disposal group in accordance with IFRS 5 as at the end of the 2006 financial year and were therefore shown in separate balance sheet items as at 31 December 2006.

Discontinuing operations

With the divestment of the US steel service companies of Preussag North America Inc. to financial investor Platinum Equity in May 2006 and the divestment of the majority interest in Wolf GmbH, a company in the heating and air conditioning sector, to Centrotec Sustainable AG in October 2006, the TUI Group sold its last remaining industrial interests.

As a result, the TUI Group now comprises the two core businesses tourism and shipping.

Currently, there are no discontinuing operations. The tables shown below provide an overview of the development of discontinuing operations in the 2006 reference period.

Result from discontinuing operations

Besides the operating income and expenses of these operations, the 2006 result from discontinuing operations also included effects of the deconsolidation of companies already divested in these sectors.

Notes on the consolidated profit and loss statement

Starting with the interim financial statements as per 30 September 2007, the consolidated profit and loss statement will be structured according to the cost of sales format. Under this format, turnover is presented alongside the expenses required to generate it. The purpose of using the cost of sales format to structure the consolidated profit and loss statements is to enhance the international comparability of reporting.

The change in the presentation format applies to all operating income and expenses with the exception of turnover. In order to ensure comparability according to IAS 8, the figures for the previous year were restated accordingly.

In order to further enhance international comparability, expenses and income from changes in the value of financial instruments resulting from hedges of bunker oil, aircraft fuel and future payment flows in foreign currencies are shown under cost of sales rather than financial result, as before. Due to this change, the financial result declined by € 5.4 million for the 2006 reference period and by € 20.0 million for the first nine months of 2006.

(1) Cost of sales and administrative expenses

The cost of sales and administrative expenses include the following items:

€ million	Q3 2007	Q3 2006	9M 2007	9M 2006
Rental, lease and leasing expenses	327.2	300.8	924.2	860.0

€ million	Q3 2007	Q3 2006	9M 2007	9M 2006
Personal costs	618.0	603.2	1 670.4	1 848.0

€ million	Q3 2007	Q3 2006	9M 2007	9M 2006
Depriciation and amortisation	173.4	159.2	490.3	495.5
Impairments of property, plant and equipment	0.9	2.8	1.0	19.7
Total	**174.3**	**162.0**	**491.3**	**515.2**

(2) Other income/ Other expenses

€ million	Q3 2007	Q3 2006	9M 2007	9M 2006
Other income	41.3	22.2	293.5	276.0
Other expenses	14.3	10.5	17.2	12.0
Total	**27.0**	**11.7**	**276.3**	**264.0**

Other income of the current financial year mainly resulted from the divestment of the Montreal Gateway Terminals (185.6 million €), outlined under 'Acquisitions – divestments'. The income shown in the 2006 reference period mainly resulted from the divestment of the TQ3 Group (€ 149.2 million) and the realisation of income from the sale of 'Schacht Konrad' (€ 40.8 million).

(3) Other one-off items according to divisions

In addition to the statements according to IFRS the consolidated Group profit and loss statement contains a reconciliation to underlying earnings. The following items are components of this reconciliation:

€ million	Q3 2007	Q3 2006	9M 2007	9M 2006
Tourism	29.6	5.2	69.6	22.4
Shipping	0.0	20.0	- 29.0	43.0
Total	**29.6**	**25.2**	**40.6**	**65.4**

The one-off expenses incurred in the third quarter 2007 mainly resulted from additional expenses arising on the merger between TUI's tourism division and First Choice Holidays PLC. In addition, the tourism division was impacted in particular by one-off expenses for the rebranding of the new TUIfly.com brand, one-off expenses for changes in the air passenger duty in the UK which could not be passed on to passengers and one-off expenses for the revaluation of maintenance provisions in the framework of the merger between First Choice and TUI's tourism division.

Earnings for the first nine months of the 2007 financial year included one-off income of € 32.0 million from the revaluation of a risk position formed at the acquisition date in the framework of the acquisition of CP Ships. On the other hand, a minor lagging expense for the integration of CP Ships of € 3.0 million was incurred.

The year-on-year development of the consolidated profit and loss statement was essentially characterised by changes in the group of consolidated companies. The main change characterising the current financial year was the first-time consolidation of earnings by First Choice Holidays PLC as of September 2007. In the 2006 reference period, the shareholding in Wolf GmbH (heating and air conditioning technology) was included completely in consolidation; the shareholding in the TUI Infotec (IT services), the business travel activities of the TQ3 Group and the specialist tour operator activities of TUI Nederland were included in consolidation, at least for part of the reference period. Moreover, the US steel service companies of the PNA Group were carried as discontinuing operations until 9 May 2006. These companies were sold in the course of the 2006 financial year. As of the third quarter of the 2006 financial year, the Explorers Travel Club Group was also included in consolidation of the TUI Group. As a result, a year-on-year comparison of the first nine months of the current financial year is of limited use only for the continuing operations.

In the course of the 2006 financial year, the operative business of the CP Ships Group, acquired in 2005, was fully integrated into the Hapag-Lloyd Group. In the 2006 reference period, restructuring expenses had totalled € 64.0 million. While no such expenses were incurred in the shipping division in the first nine months of the current financial year, book profits of € 200.7 million were generated in that period from the divestment of the minority interest in 'Germanischer Lloyd AG' and the key assets and liabilities of Montreal Gateway Terminals.

In the first nine months of the current financial year, earnings by the shipping division were significantly up year-on-year with an increase in transport volumes and improvements in freight rates. Adjusted in particular for one-off income from divestments, underlying earnings were also substantially higher than in 2006.

The development of earnings by the tourism division in the 2006 reference period was essentially determined by income of € 162.0 million from the divestments of the TQ3 Group (Other tourism sector) and the Dutch specialist tour operators.

Adjusted for the one-off items of the 2006 reference period, earnings by the tourism division fell short of 2006 levels, with an overall increase in turnover.

This was mainly attributable to the persistently difficult market environment in the Northern Europe sector. The Scandinavian source markets, in contrast, managed to increase their business volume year-on-year. In the UK, income of € 5.8 million was generated in the period under review from two aircraft sale-and-lease-back agreements. However, this sector was particularly strongly affected by the difficult market environment which caused a decline both in turnover and earnings. Earnings in the first nine months of the 2007 financial year were also impacted by one-off expenses, including expenses for changes in the air passenger duty in the UK which could not be passed on to passengers. One-off expenses also included an amount of € 19.9 million for the revaluation of aircraft maintenance provisions in the framework of the adoption of uniform accounting and measurement methods in

connection with the merger of material parts of TUI's tourism division and First Choice. In the framework of that merger, additional one-off expenses of € 16.6 million were incurred, primarily for the redemption of long-term bonus programmes.

Turnover rose considerably in the Central and Western Europe source markets. In the 2006 reference period, source market Central Europe was impacted by restructuring expenses of € 8.2 million. In the current reporting period, such expenses only totalled € 3.2 million. In addition, source market Central Europe posted income of € 10.8 million (previous year: € 25 million) from four aircraft sale-and-lease-back agreements in the first nine months of the financial year under review. On the other hand, expenses were incurred in connection with the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express for the establishment of the new uniform master brand TUIfly.com. Besides these one-off expenses, however, earnings were further impacted by the decline in the load factor in flight operations. In net terms, earnings in source market Central Europe thus fell short of 2006 levels.

Earnings in source market Western Europe were significantly up year-on-year. This was attributable to the marked recovery of source market France and positive effects of restructuring programmes. In the period under review, earnings comprised restructuring expenses and one-off expenses of € 3.9 million in source market Netherlands and of € 3.6 million in source market France. In the 2006 reference period, corresponding expenses of € 17.7 million were carried for the fleet renewal programme and IT changes in source market France. Even adjusted for one-off items, underlying earnings rose substantially. Moreover, income from an aircraft sale-and-lease-back agreement of € 4.4 million (previous year: € 5.0 million) was generated in the period under review.

Due to the positive operative trend the destinations sector achieved an increase in turnover year-on-year by maintaining the 2006 earnings level.

Earnings by tour operator First Choice Holidays were initially included in consolidation in September 2007.

The TUI Hotels & Resorts sector achieved substantial growth in turnover. Even adjusted for one-off expenses in the 2006 reference period, earnings were considerably up year-on-year, mainly due to the gratifying performance of the RIU Group.

Overall, the earnings situation was characterised by the seasonal nature of the tourism business. Due to the business saisons, profit contributions in the tourism division predominantly arise in the second and third quarter of any one year.

Earnings by the central operations in the 2006 reference period benefited from earnings of € 15.0 million from the fair value measurement of the conversion options of the convertible bond issued in October 2003. Since, with effect from 3 April 2006, TUI AG irrevocably waived its option, to be exercised unilaterally, of being able to deliver cash if a conversion option should be exercised, fair value measurement in profit or loss has no longer applied since 3 April 2006. In addition, earnings were impacted by one-off restructuring expenses of € 6.1 million, primarily for severance payments, in the current period under review. Earnings by the holding companies were substantially affected by the changes in the value of cash flow hedge transactions to be treated as income. Earnings in 2006 were additionally characterised by one-off income of € 40.8 million posted by the real estate com-

panies for the sale of 'Schacht Konrad'. Another factor to be taken into account was the fact that Wolf GmbH was no longer included in consolidation in the current reporting period.

Goodwill impairments exclusively related to goodwill for the Irish Budget Travel, which had to be fully written off upon conclusion of the agreement to sell all Budget Travel interests in September 2007.

The strong year-on-year decline in tax expenses resulted from the reorganisation of the German companies incorporated in TUI Travel PLC under company law and the effect of the newly issued 2007/2012 convertible bond.

In the first nine months of the 2007 financial year, no unusual expenses or income from the divestment of discontinuing operations had to be shown. In the 2006 reference period, net unusual expenses after tax of € 0.6 million were incurred. These expenses mainly resulted from the deconsolidation of the PNA Group totalling € 12.6 million as well as income of € 12.0 million mainly resulting from the payment of previously disputed dividend claims on a company of the Preussag Energie Group and income from the reimbursement of pension benefits in connection with the divestment of the special logistics operations.

Notes on the consolidated balance sheet

The changes in the consolidated balance sheet as against 31 December 2006 mainly resulted from the acquisition of 51.0% of the shares in First Choice Holidays PLC as at 3 September 2007 and the cycle of the tourism business. The considerable increase in other intangible assets and property, plant and equipment as well as trade accounts receivable and other receivables as well as the substantial increase in deferred income tax provisions, trade accounts payable and advance payments received shown under other liabilities resulted from the inclusion of the First Choice Holidays Group in consolidation. Trade accounts receivable and current operative liabilities as well as liquid funds in the tourism division rose due to the seasonal development of business in tourism.

Despite the addition of goodwill for the First Choice Holidays Group, goodwill declined slightly as against 31 December 2006. This was mainly due to the disposals of prorated goodwill for TUI's tourism division incorporated into TUI Travel PLC and the weakening of the British pound sterling against the euro.

The increase in financial liabilities as against 31 December 2006 mainly resulted from the uncollateralised non-subordinated convertible bond issued by TUI AG in May 2007 and the inclusion of the liabilities due to banks of the First Choice Holidays Group. Cash and cash equivalents also rose considerably against the background of the convertible bond issued and the liquidity of the First Choice Holidays Group.

Assets held for sale and related liabilities

€ million	30 Sept 2007	31 Dec 2006
Non-current assets	172.9	171.4
Assets held for sale	**172.9**	**171.4**
Liabilities related to non-current assets	27.0	2.1
Liabilities related to assets held for sale	**27.0**	**2.1**

Most of the items carried as assets held for sale as at 31 December 2006 and the related liabilities were settled by means of the divestment of the minority interest in 'Germanischer Lloyd AG' as at 5 January 2007 and the divestment of the material assets and liabilities of Montreal Gateway Terminals as at 9 March 2007. These transactions are outlined in detail in the section 'Acquisitions – divestments'.

On 4 June 2007, the EU Commission granted its approval to the merger of the material parts of TUI's tourism division and the British travel group First Choice Holidays PLC into TUI Travel PLC. The approval was granted subject to the condition that TUI sells its Irish subsidiary Budget Travel. The assets (€ 59.6 million) and liabilities (€ 27.0 million) allocated to the Irish Budget Travel Group therefore had to be carried as non-current assets and related liabilities held for sale in accordance with IFRS 5. The transfer of shares was effected in mid-October 2007 on the basis of the agreement concluded in September 2007 with the Primera Travel Group. In addition, aircraft (€ 57.6 million), ship containers (€ 46.1 million) and to a lesser extent real estate property and land as well as yachts of the First Choice Holidays Group were carried as assets held for sale in accordance with IFRS 5 as at 30 September 2007.

At the beginning of July 2007, TUI AG's Executive Board decided to sell the shares in the hotel holding company Tarajal Properties S.L. However, since the criteria of IFRS 5 were not fully met by 30 September 2007, the assets held for sale (€ 36.5 million) and the related liabilities (€ 9.4 million) were not yet carried under these items.

Changes in equity

Equity rose in particular due to the Group profit of € 421.7 million.

The TUI Group exercised the option offered by IAS 19 of offsetting actuarial gains and losses from pension commitments against equity outside profit or loss when they occur. In this context, actuarial losses offset against equity declined by € 207.8 million in the period under review, primarily due to the increase in the long-term interest rate level observed in the UK and the eurozone since the beginning of the year, despite the increase in life expectancy accounted for in TUI UK's commitments. Taking account of deferred taxes of € 68.1 million to be carried, equity rose accordingly by € 139.7 million outside profit or loss.

A further increase in equity of € 119.7 million resulted from the issuance of a conversion option.

Equity declined due to the weakness of the US dollar and the British pound sterling in the period under review. The Group's equity dropped since the negative capital resources attributable to the minority shareholders of TUI Travel PLC were offset as at the date of first-time consolidation.

Contingent liabilities

As at 30 September 2007, the TUI Group's contingent liabilities totalled around € 131 million (31 December 2006: around € 214 million). Contingent liabilities were carried at the level of potential availment as at the balance sheet date. They mainly related to remaining guarantees and warranties from the former plant engineering and shipbuilding activities, which serve to settle follow-up projects and were substantially reduced in the first nine months of the financial year.

Other financial liabilities

Financial liabilities from operating rental, lease and charter agreements rose at the end of the first nine months of the financial year under review to € 5.4 billion, up from € 4.5 billion as at 31 December 2006 mainly due to the inclusion of the First Choice Holidays Group. The fair value also increased from € 3.8 billion to € 4.4 billion.

The remaining other financial liabilities rose to € 6.3 billion as at the end of the first nine months of 2007, up from € 6.1 billion as at the end of the 2006 financial year. While order commitments for tourism services declined slightly to € 2.1 billion, order commitments for investments rose by € 0.6 billion to € 3.7 billion, in particular due to the inclusion of the First Choice Holidays Group in consolidation. The fair value of the remaining other financial liabilities increased from € 5.3 billion to € 5.4 billion.

Notes on the cash flow statement

In the period under review, cash and cash equivalents of the continuing operations rose by € 1,804.8 million to € 2,493.5 million.

The inflow of cash from operating activities grew considerably year-on-year by € 266.0 million to € 1,402.1 million. This was mainly attributable to the positive business trend in the shipping and tourism divisions.

The outflow of cash from investing activities totalled € 591.5 million in the current financial year. The cash outflow in the current financial year mainly resulted from payments made for capital expenditure on property, plant and equipment (basically for container ships, containers and hotel complexes) as well as investments (mainly for the acquisition of four tourism companies by the First Choice Holidays Group during the current quarter and the acquisition of the remaining shares in E.V.S. Beteiligungsgesellschaft mbH). On the other hand, cash inflows primarily resulted from the divestments of the material assets and liabilities of Montreal Gateway Terminals and the minority interest in 'Germanischer Lloyd AG'. In 2006, an inflow of cash from investing activities of € 170.6 million was reported. This inflow of cash was mainly attributable to the divestments of the TQ3 Group and the PNA Group in the 2006 financial year.

The inflow of cash from financing activities, which also included interest payments, totalled € 562.3 million, primarily resulting from the issuance of an uncollateralised non-subordinated convertible bond by TUI AG in May 2007. In 2006, an outflow of cash of € 415.1 million was recorded in the relevant period.

Cash and cash equivalents increased by a further € 478.3 million due to exchange rate fluctuations and changes in the group of consolidated companies, primarily the inclusion of the First Choice Holidays Group.

In the first nine months of the 2007 financial year, earnings before interest, taxes and amortisation of goodwill (EBITA) comprised the following results from the companies measured at equity: tourism € 42.5 million (previous year: € 35.2 million), shipping € 8.4 million (previous year € 4.9 million) and trading € 0.0 million (previous year: € 0.6 million).

Related parties

Apart from the subsidiaries included in the consolidated financial statements, TUI AG, in carrying out its ordinary business activities, maintained indirect or direct relationships with related parties. All transactions with related parties were carried out at arm's length on the basis of international comparable uncontrolled price methods in accordance with IAS 24, as before. The equity interest of RIU Hoteles S.A. shown in the notes on the consolidated financial statements as per 31 December 2006 continued to be held at the cutoff date of the interim financial statements. More detailed information on related parties is provided in the notes on the consolidated financial statements for 2006 under 'Other notes'.

At the end of July 2007, an agreement was concluded between the El Chiaty family and TUI AG. The agreement grants the right to the El Chiaty family of buying at least 15.0% and at most all shares in the hotel companies in Egypt and the United Arab Emirates jointly held by TUI and the El Chiaty family in the case of a change of control.

Reservation concerning future-related Statements

This interim report contains a number of statements related to the future development of TUI. These statements are based both on assumptions and estimates. Although we are convinced that these future-related statements are realistic, we cannot guarantee them, for our assumptions involve risks and uncertainties which may give rise to situations in which the actual results differ substantially from the expected ones. The potential reasons for such differences include market fluctuations, the development of world market commodity prices, the development of exchange rates or fundamental changes in the economic environment. TUI does not intend or assume any obligation to update any forward-looking statement to reflect events or circumstances after the date of these materials.

→ Strain on the operating performance in tourism and shipping in Q2.

→ Substantial improvement in earnings in both core businesses expected in the second half of 2007.

→ Net debt reduced to € 2.7 billion.

Economic Situation in Q2 2007

General economic situation

In the first half of 2007, the world economy showed a clearly positive trend. World production showed almost the same robust growth as before, although the individual regions reported varying trends. In the US, production growth continued to weaken, while Japan continued to record an economic upswing. Production growth in the European Union, in contrast, slowed down slightly against the backdrop of an increase in overall economic capacity utilisation. The economy in the industrialised countries was boosted by the strong growth in the developing countries and the emerging economies.

Special events in the quarter under review

Update on the merger between TUI's tourism division and First Choice Holidays
On 4 June 2007, the European Commission approved the merger between TUI's tourism division – excluding the hotel companies pooled under TUI Hotels & Resorts – and the British travel group First Choice Holidays PLC to form TUI Travel PLC, announced on 19 March 2007. The approval was granted subject to the condition that TUI AG sells its Irish subsidiary Budget Travel. On 29 June 2007, TUI AG and First Choice Holidays PLC published the prospectus for the planned merger for the listing on the London Stock Exchange. At an extraordinary annual general meeting held on 25 July 2007, the shareholders of First Choice Holidays PLC approved the merger by the required majority of three quarters of the votes.

The closing of the merger, the listing and the first trading day for the shares of TUI Travel PLC on the London Stock Exchange is expected for 3 September 2007. The new company will be based in the UK. At 51 per cent of the shares, TUI AG will hold the majority in the new company, while the shareholders of First Choice Holidays PLC will hold 49 per cent. TUI Travel PLC will be fully consolidated in TUI AG's consolidated financial statements.

Issuance of a convertible bond
In May 2007, TUI AG issued an uncollateralised, non-subordinated convertible bond which was exclusively offered to institutional investors outside the US. TUI responded to the unusually strong demand and directly increased the originally planned initial volume of € 550 million by € 82.5 million. In addition, the banks mandated to place the bond exercised the greenshoe option of € 61.5 million to cover surplus allocations. The total issuance volume of the convertible bond thus amounted to € 694 million. The issuing proceeds will be used both for general corporate purposes and the potential refinancing of part of TUI's existing debt.

Consolidated turnover and earnings

Against the background of almost constant turnover in tourism and a decline in turnover by container shipping caused by the development of the US dollar exchange rate and freight rates, the business trend in the second quarter of 2007 and thus also the first half of the year showed clearly negative tendencies compared with 2006.

Nevertheless, the Executive Board maintains its cautiously optimistic assessment of the development of the operative business in the overall year 2007.

In tourism, the UK will see significant earnings improvements on the second half of 2007 year-on-year due to the market trend and the cost cuts. The Western Europe sector is also expected to show a substantial improvement since strains incurred in France in the second half of 2006 will not recur. The destinations are also expected to show positive trends, primarily driven by capacity trends.

The Central Europe sector is characterised by earnings opportunities in the tour operator business, which is currently showing a very sound development, but also risks related to the seat load factor of the TUIfly fleet. The business trend over the next few weeks will be crucial to the earnings trend.

Further changes in earnings will result from the merger with First Choice expected for early September. Upon completion of the merger with First Choice, the reporting structure in tourism will change. In addition, the inclusion of First Choice will create one-off as well as sustainable earnings effects. At the current point in time, a final assessment of the implications of these effects is not possible yet.

In shipping, strong volume growth and a significant recovery in freight rates are observed in the substantial markets. This is also reflected by the development of freight rates between the first and the second quarter of 2007. The current development of the market environment is expected to enable shipping to generate positive operating earnings again in the near future and to create a sustainable market recovery.

Continuing operations	5,196.8	5,301.7	- 2.0	9,290.9	9,502.1	- 2.2
Trading	–	123.0	–	–	401.0	–
Discontinuing operations	–	123.0	–	–	401.0	–
Turnover by divisions	5,196.8	5,424.7	- 4.2	9,290.9	9,903.1	- 6.2

In the second quarter of 2007, the turnover of the TUI Group's continuing operations – tourism, shipping and central operations – was 2.0% down year-on-year. Accumulated turnover for the first half of 2007 also declined by 2.2% year-on-year.

At € 3.6 billion, turnover by tourism matched 2006 levels in the second quarter of 2007. For the first half of 2007, turnover rose slightly by 1.4%. Adjusted for the development of turnover by the Other tourism sector, which still comprised prorated turnover from the divested business travel operations in the first quarter of 2006, turnover grew by 2.5% in the first half of 2007. The increase in turnover was supported in particular by the Central Europe sector and the destinations sector, which recorded significant growth in turnover.

In the shipping sector, turnover declined by 4.2% to € 1.5 billion in the second quarter and by 6.4% to € 3.0 billion in the first half of 2007. This was due to the weakening of the US dollar against the euro and the year-on-year decline in freight rates in almost all trade lanes.

At € 13 million, turnover by central operations dropped by 75.7% year-on-year in the second quarter of 2007, and at € 18 million it declined by 83.3% year-on-year in the first half of the year. This was primarily due to the divestment of the majority interest in Wolf GmbH, a heating and air conditioning company, in October 2006 and the resulting decline in turnover.

In the 2007 financial year, the TUI Group no longer conducts any activities to be classified as discontinuing operations in accordance with IFRS regulations. In 2006, turnover of € 123 million was generated in the second quarter and accumulated turnover of € 401 million was generated in the first half of 2006 in the trading sector.

At € 5.2 billion, total turnover by the TUI Group's divisions was 4.2% down year-on-year in the second quarter of 2007. Accumulated turnover for the first half of 2007 totalled € 9.3 billion, down 6.2% year-on-year.

Continuing operations

Earnings by the continuing operations tourism and shipping as well as central operations (before interest, taxes and amortisation of goodwill) totalled € 5 million in the second quarter of 2007, € 84 million down year-on-year. Accumulated earn-

ings for the first half of 2007 also declined to € - 78 million, down € 97 million. Both in 2007 and in 2006, earnings were affected by a number of one-off effects. In order to ensure a transparent presentation of the development of earnings by the divisions, a reconciliation to underlying earnings (underlying EBITA by division) is provided in the section below.

Underlying EBITA by division: Tourism

€ million	Q2 2007	Q2 2006	Var. %	H1 2007	H1 2006	Var. %
EBITA by division	13	152	- 91.4	- 224	69	n. m.

Other one-off items	*+ 32*	*+ 6*		*+ 40*	*+ 17*	
Underlying EBITA by division	48	145	- 66.9	- 179	- 71	- 152.1

At € 13 million, earnings by tourism dropped by 91.4%, a significant decline year-on-year. Accumulated earnings for the first half of 2007 also dropped by € 293 million to € - 224 million. Earnings for the second quarter included restructuring expenses of € 3 million for the Dutch source market. They also included one-off items for the rebranding of the new TUIfly.com brand, one-off expenses for a conversion of the air passenger duty in the UK which could not be rolled over to passengers, one-off expenses for a revaluation of maintenance provisions in the wake of the planned merger between First Choice and TUI's tourism division as well as consultation fees in the framework of the planned merger totalling € 32 million. On the other hand, gains on disposals from the divestment of the specialist tour operator operations in the Netherlands and lagging income from the divestment of the business travel operations (TQ3), already effected in the first quarter of 2006, of € 19 million was generated in the second quarter 2006. In the second quarter of 2006, restructuring expenses for the reorganisation of source market Germany and a one-off expense in connection with litigation in the destinations sector totalling € 12 million had been incurred. Adjusted for the one-off effects, underlying earnings declined by 66.9% in the second quarter of 2007 and by 152.1% in the first half of 2007.

Underlying EBITA by division	- 15	5	n. m.	- 68	27	n. m.

At € 13 million in the second quarter of 2007, earnings by the shipping division rose by € 54 million year-on-year. Accumulated earnings for the first half of 2007 also increased year-on-year to € 154 million, up € 220 million. Earnings for the second quarter comprised one-off expense of € 3 million from a contractual settlement payment in connection with the divestment of Montreal Gateway Terminals, sold in the first quarter of 2007. Further one-off income of € 32 million from a revaluation of a risk position formed in the wake of the acquisition of CP Ships at the acquisition date had to be accounted for. On the other hand, a minor lagging expense of € 1 million was incurred in the framework of the integration of CP Ships. In net terms, one-off effects of € 31 million were generated. In the 2006 reference quarter, expenses of € 46 million had been incurred for the integration of CP Ships. Adjusted for the

one-off effects, underlying earnings in the second quarter of 2007 amounted to € - 15 million, down € 20 million year-on-year. Underlying earnings for the first half of 2007 declined by € 95 million year-on-year, in particular due to the operative result for the first quarter of 2007.

Underlying EBITA by division: Central operations

€ million	Q2 2007	Q2 2006	Var. %	H1 2007	H1 2006	Var. %

Underlying EBITA by division	- 15	- 22	+ 31.8	- 2	1	n. m.

In the second quarter of 2007, earnings by central operations grew by € 1 million year-on-year to € - 21 million. For the first half of 2007, earnings declined by € 24 million to € - 8 million. Earnings in the second quarter of 2007 included restructuring expenses of € 6 million, incurred in connection with the personnel adjustment measures taken by the TUI AG holding. In the 2006 reference period, no one-off effects had to be accounted for. Adjusted for the one-off effects, underlying earnings in the second quarter of 2007 rose by € 7 million to € - 15 million. At € - 2 million, underlying earnings for the first half of 2007 declined slightly year-on-year.

Discontinuing operations

In the 2007 financial year, the TUI Group no longer conducts any discontinuing operations. In the second quarter of 2006, earnings from current business activities had totalled € - 2 million. In the first half of 2006, earnings from current operations totalled € 23 million, including lagging income from the divestment of the energy sector of € 5 million in the first quarter of 2006 and a loss on disposal of € 12 million from the divestment of the US steel trading activities in the second quarter of 2006, resulting in a net one-off expense of € 7 million for the first half of 2006, to be included in the underlying EBITA.

Underlying EBITA by divisions: Group

At € 3.6 billion, turnover by tourism matched 2006 levels in the second quarter of 2007. For the first half of the year, turnover rose slightly by 1.4% year-on-year. The Central Europe sector grew by 6.3% in the second quarter and by 7.2% in the first half of the year; this was due to the increase in customer numbers both in package tours but also the modular and seat-only businesses. The Northern Europe sector reported a slight increase in customer numbers and a decline in turnover of 9.4% in the second quarter and 4.4% in the first half of the year. The Western Europe sector recorded a slight decrease in turnover of 0.5% in the second quarter and an increase in accumulated turnover of 1.9% for the first half of the year, with an overall growth in customer numbers. The destinations sector recorded turnover growth of 22.1% in the second quarter and 18.8% in the first half of the year. Other tourism sector contained no more turnover due to the divestments in the 2006 financial year.

Customer numbers tourism

'000	Q2 2007	Q2 2006	Var. %	H1 2007	H1 2006	Var. %

Total	**6,346**	**6,008**	**+ 5.6**	**10,348**	**9,742**	**+ 6.2**

At € 13 million in the second quarter of 2007 and € - 224 million in the first half of the year, total earnings by the tourism division dropped by € 139 million and € 293 million, respectively, year-on-year. One of the main reasons for the decline in earnings year-on-year in the first half of the year was the one-off income from the divestment of the business travel operations and the Dutch specialist tour operators totalling € 163 million, included in earnings for the first quarter of 2006. Adjusted for the one-off effects, underlying earnings declined by € 97 million year-on-year in the second quarter of 2007 and € 108 million in the first half of the year.

Central Europe

Central Europe – Key figures

Turnover and earnings

In the Central Europe sector (Germany, Austria, Switzerland and airline TUIfly.com), the number of customers rose by 7.1% in the second quarter of 2007, with accumulated customer numbers for the first half of 2007 up 8.8%. Turnover grew by 6.3% in the second quarter and 7.2% in the first half of 2007. All source markets achieved year-on-year growth.

At € 41 million, earnings by the Central Europe sector dropped by 37.9% year-on-year in the second quarter of 2007. Earnings for the first half of the year also declined by 58.3% to € - 57 million. Against the backdrop of an overall positive trend for travelling with TUI, the business trend in source market Germany was slightly curbed by additional expenses for the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express into the new brand TUIfly.com. The integration resulted in one-off rebranding expenses of € 6 million for the new TUIfly.com brand in the second quarter of 2007 and € 11 million for the first half of the year. Apart from the one-off expenses, another main reason for the drop in earnings was the decline in the seat load factor in the airline sector. Source markets Switzerland and Austria achieved a year-on-year increase in earnings. Adjusted for the one-off effects in the second quarter of 2007, underlying earnings totalled € 47 million, down 34.7% year-on-year. Accumulated underlying earnings for the first half of the year amounted to € - 46 million, a decline of 53.3%. Income of € 8 million (previous year: € 10 million) from sale-and-lease-back transactions for three aircraft was included in earnings for the second quarter.

Customer numbers Central Europe

'000	Q2 2007	Q2 2006	Var. %	H1 2007	H1 2006	Var. %
Germany	2,886	2,681	+ 7.6	4,692	4,299	+ 9.1
Switzerland	83	68	+ 20.8	129	106	+ 20.8
Austria	234	240	- 2.4	289	291	- 0.4
Central Europe	**3,203**	**2,989**	**+ 7.1**	**5,110**	**4,696**	**+ 8.8**

Germany

In the second quarter of 2007, the travel market in Germany showed different trends. Customer numbers of the TUI tour operators and TUIfly.com grew by 7.6% year-on-year in the second quarter of 2007 and 9.1% for the first half of the year. This was largely attributable to the tour operators of TUI Deutschland – both in the package tour but also modular segments – and the seat-only business of TUIfly.com. Demand for tours to Egypt, Turkey and mainland Spain as well as long-haul destinations was very strong, while bookings of tours to the Balearic Islands, Greece and Cyprus still showed some restraint.

Switzerland

The Swiss tour operator market continued to show a very gratifying trend in the second quarter of 2007. TUI Suisse tour operators recorded an increase in customer numbers of 20.8%, both in the second quarter and the first half of 2007. This was largely attributable to the two brands TUI and 1-2-Fly. The strong growth of the FlexTravel brand slowed down slightly. Vögele recorded a slight decrease in bookings.

Austria

In Austria, the tour operator market weakened again in the second quarter of 2007, following a relatively good first quarter. TUI Austria reported a 2.4% drop in customer numbers year-on-year, with customer numbers declining slightly by 0.4% year-on-year in the first half of 2007. The TUI and Terra brands showed a relatively gratifying trend, while Gulet did not report a satisfactory performance yet. Demand was particularly good for North African destinations and Turkey. Bookings of the Balearic Islands and Portugal were less strong.

Flight operations Central Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q2 2007	Q2 2006	Abs. var.	Q2 2007	Q2 2006	Var. %	Q2 2007	Q2 2006	Var. %-points
TUIfly.com	55	51	+ 4	6.8	6.3	+ 7.3	79.5	91.5	- 12.0

TUIfly.com

Following the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express in January 2007, the second quarter of 2007 was again characterised by the integration activities. In the framework of the fleet renewal programme, five new Boeing 737s were delivered in the course of the second quarter; so four more aircraft were operated year-on-year. The seat load factor declined significantly, partly due to the return of commitments.

Turnover and earnings

In the Northern Europe sector (UK, Ireland, Nordic countries and airlines Thomsonfly and TUIfly Nordic), the number of customers rose by 1.7% in the second quarter of 2007 and 3.3% in the first half of the year in a persistently difficult market environment. This growth in customer numbers was mainly driven by the increase in Thomsonfly's seat-only business. Turnover declined by 9.4% year-on-year in the second quarter and 4.4% in the first half of the year. Source market UK reported a decline in turnover, while the Nordic countries managed to expand their business volume.

In the second quarter of 2007, earnings by the Northern Europe sector declined by € 79 million year-on-year to € - 36 million. Earnings for the first half of the year dropped by € 106 million to € - 155 million. Earnings in the second quarter

included one-off expenses of € 4 million resulting from changes in the air passenger duty in the UK which could not be rolled over to customers and the revaluation of maintenance provisions in the framework of the merger between First Choice and TUI's tourism division of € 20 million. In addition, the Northern Europe sector had incurred consultancy fees of € 2 million in the framework of the merger mentioned above. In the 2006 reference period, no one-off effects had been included in earnings. Adjusted for the one-off effects, underlying earnings totalled € - 10 million, a decline of € 53 million year-on-year. The drop in earnings was primarily attributable to the difficult market environment and the strong price pressure in source market UK. However, following a very strong first quarter of 2007, the Nordic countries did not fully reproduce 2006 levels, either. For the first half of 2007, underlying earnings totalled € - 127 million, a decline of € 78 million. Earnings for the second quarter included income of € 2 million from a sale-and-lease-back transaction for one aircraft in source market UK.

Customer numbers Northern Europe

'000	Q2 2007	Q2 2006	Var. %	H1 2007	H1 2006	Var. %
UK	1,513	1,473	+ 2.8	2,506	2,417	+ 3.7
Ireland	105	117	- 10.6	130	142	- 8.4
Nordic countries	298	293	+ 1.5	563	537	+ 4.8
Northern Europe	**1,916**	**1,883**	**+ 1.7**	**3,199**	**3,096**	**+ 3.3**

UK

TUI UK's British tour operators operated in a persistently difficult market environment and reported a decline in customer numbers, while Thomsonfly recorded a substantial increase in customer numbers in the seat-only business. Total customer numbers rose by 2.8% year-on-year in the second quarter of 2007 and 3.7% year-on-year in the first half of 2007. In terms of medium-haul destinations, bookings of tours to France and Portugal rose for the 2007 summer season while bookings of Spanish destinations declined year-on-year. The long-haul segment reported sound demand for the new destinations Cape Verde Islands. The performance of the tour operators of the Specialist Holidays Group matched 2006 levels. While demand dropped for skiing tours as well as short- and long-haul trips, Al Fresco recorded an increase in bookings.

Ireland

In the second quarter of 2007, Ireland reported a 10.6% decline in customer numbers. For the first half of the year, customer numbers dropped by 8.4% year-on-year.

Nordic countries

The Nordic countries reported a satisfactory performance in the second quarter of 2007. The number of customers of TUI Nordic's tour operators grew by a total of 1.5% in the second quarter, with accumulated customer numbers for the first half of 2007 up 4.8%. Greece, Cyprus and Bulgaria recorded particularly good booking levels.

Flight operations Northern Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q2 2007	Q2 2006	Abs. var.	Q2 2007	Q2 2006	Var. %	Q2 2007	Q2 2006	Var. % points
Thomsonfly	49	47	+ 2	6.8	7.3	- 6.3	84.4	86.9	- 2.5
TUIfly Nordic	5	5	+/- 0	1.0	1.0	+ 4.0	89.3	90.2	- 0.9

Thomsonfly

By means of route mix variation, Thomsonfly reduced the volume of seat kilometres offered in the charter flight segment for which demand was less strong. Despite this measure, the seat load factor dropped year-on-year due to the difficult market environment in the UK. Due to the delivery of two aircraft, the aircraft fleet was expanded accordingly year-on-year.

TUIfly Nordic

The sound customer numbers of tour operators in the Nordic countries in the first quarter resulted in an expansion in the seat kilometre volume offered in the second quarter. Due to the decline in demand, the seat load factor dropped slightly year-on-year. The fleet size did not change year-on-year.

Western Europe

Turnover and earnings

In the Western Europe sector (France, the Netherlands, Belgium and airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium), turnover matched 2006 levels in the second quarter of 2007, with an increase in customer numbers. Accumulated turnover for the first half of the year grew slightly by 1.9%. In the Netherlands, turnover declined in the entire reporting period and fell short of 2006 levels. This was due to the omission of the turnover of the Dutch specialist tour operators divested in the second quarter of 2006. In France, turnover grew year-on-year both in the second quarter and the first half of the year despite a decline in customer numbers. Belgium, too, reported a rise in turnover, which resulted from an increase in customer numbers.

At € - 22 million in the second quarter of 2007 and an accumulated level of € - 57 million in the first half of the year, earnings by the division declined year-on-year. Earnings in the second quarter included one-off expenses of € 3 million for the restructuring of business in the Dutch source market. Earnings in the 2006 reference quarter comprised a gain on disposal of € 13 million from the divestment of the specialist operator business in the Netherlands. Adjusted for these one-off effects, underlying earnings dropped by 18.8% year-on-year. This was due to a temporary strain on earnings due to the expansion of capacity in flight operations in Belgium and slight restraint in the French travel market following a good performance in

the first quarter of 2007. The Dutch market showed a positive trend. Accumulated underlying earnings for the first half of the year declined by 24.4% to € - 51 million.

Customer numbers Western Europe

'000	Q2 2007	Q2 2006	Var. %	H1 2007	H1 2006	Var. %
France	391	392	- 0.3	749	760	- 1.4
Netherlands	353	314	+ 12.6	547	532	+ 2.8
Belgium	483	431	+ 12.3	744	658	+ 13.0
Western Europe	**1,227**	**1,136**	**+ 8.0**	**2,040**	**1,950**	**+ 4.6**

France

Following a gradual improvement in the situation on the French travel market in the first quarter of 2007, some French holidaymakers waited for the presidential and parliamentary elections in the second quarter before booking or starting their holidays. This trend impacted the business of Nouvelles Frontières to some extent, with customer numbers declining by 0.3% year-on-year. Accumulated customer numbers for the first half of the year also dropped by 1.4% year-on-year. Bookings of tours to Réunion recovered after the end of the chikengunya fever outbreak, and bookings of the new destination Mauritius were also very gratifying. Demand was also strong for tours to Turkey.

Netherlands

Despite a difficult travel market, TUI's Dutch tour operators reported a sound performance in the second quarter. Despite the difficult environment, they reported an increase of 12.6% in customer numbers, with total growth in customer numbers of 2.8% for the first half of 2007. Demand was very strong for France, Turkey and the Caribbean in the second quarter, while Portugal and the Balearic Islands showing the strongest declines in bookings.

Belgium

In Belgium, the number of tour operator customers grew by 12.3% in the second quarter of 2007 and 13.0% in the first half of the year. In terms of flight operations, demand for Egypt and Turkey was very strong in the medium-haul segment, while the Caribbean reported strong growth in the long-haul segment. Bookings of self-drive tours matched 2006 levels, while city trips and short breaks recorded year-on-year growth in bookings.

Flight operations Western Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q2 2007	Q2 2006	Abs. var.	Q2 2007	Q2 2006	Var. %	Q2 2007	Q2 2006	Var. %-Pkt.
Corsair	8	9	- 1	3.1	3.1	+ 0.7	83.7	80.1	+ 3.6
TUI Airlines Nederland	5	3	+ 2	0.9	0.8	+ 20.3	90.6	91.0	- 0.4
TUI Airlines Belgium	11	8	+ 3	1.5	1.4	+ 9.8	89.2	90.1	- 0.9

Corsair

In the second quarter of 2007, Corsair completed its fleet renewal programme with the decommissioning of the last Boeing 747-300. The number of aircraft operated by the company was thus one down year-on-year. The rise in the demand in the long-haul segment resulted in a slight increase in the seat kilometre volume on offer and the seat load factor increased.

TUI Airlines Nederland/Arkefly

In the second quarter of 2007, TUI Airlines Nederland operated two additional aircraft compared with the 2006 reference period. The seat kilometre volume rose accordingly with a slight decrease in the seat load factor.

TUI Airlines Belgium/Jetairfly

In the second quarter of 2007, TUI Airlines Belgium operated three additional aircraft compared with the 2006 reference period. Seat kilometres offered rose due to the substantial improvement in demand for tour operator products. The seat load factor for the expanded flight capacity was slightly down year-on-year.

Destinations

Destinations – Key figures

€ million	Q2 2007	Q2 2006	Var.%	H1 2007	H1 2006	Var.%

Turnover and earnings

The destinations sector (incoming agencies and hotel companies) generated 22.1% growth in turnover year-on-year in the second quarter of 2007. Accumulated turnover for the first half of the year also rose by 18.8%. Both incoming agencies and hotel companies achieved turnover growth year-on-year.

Earnings by the division dropped by 21.1% to € 30 million in the second quarter of 2007. In the first half of 2007, earnings grew slightly by 2.3% to € 45 million. There were no one-off effects to be adjusted in the second quarter of 2007. The relevant 2006 quarter included a one-off expense of € 6 million for litigation in connection with a lease agreement for holiday club facilities. Adjusted for this effect, underlying earnings for the second quarter of 2007 declined by 31.8%; however, the year-on-year decline only amounted to 10.0% for the first half of the year. The drop in earnings observed in the period under review was mainly attributable to expenses for the renovation of a Robinson Group club complex and the associated reduction in opening times in the current year 2007. Moreover, earnings in the second quarter of 2006 had included income from the divestment of a complex of the Robinson Group.

Incoming agencies

In the second quarter of 2007, incoming agencies reported a satisfactory business trend. The number of guests catered for in the second quarter of 2007 was 3.22 million, a 6.1% increase year-on-year. Agencies in the western Mediterranean reported a slight decrease in guest numbers in the second quarter. TUI España recorded a slight drop in guest numbers, which primarily resulted from source market UK. TUI Portugal also reported a decrease in guest numbers, with business in the Cape Verde Islands continuing to rise. In the eastern Mediterranean, the TUI Türkiye agency again recorded a positive trend in terms of guest numbers. In Greece, Bulgaria and Egypt also, guest numbers continued to rise in the second quarter. The long-haul segment reported a declining trend: The Dominican Republic suffered strong declines in guest numbers. Mexico saw a decline in the number of guests catered for, in particular from France and the UK.

Hotel companies

In the second quarter of 2007, overall occupancy rates in the hotel companies of the Hotels & Resorts segment exceeded 2006 levels, with a slight increase in capacity. For seasonal reasons, some complexes – of all hotel companies – opened only in

the course of the second quarter. RIU hotels reported a slight expansion in capacity year-on-year and reproduced 2006 occupancy rates. Hotels in Spain, in particular, reported gratifying growth in occupancy rates. The long-haul destinations recorded high occupancy rates, with the Dominican Republic being the only exception and reporting a decline. Robinson Clubs reduced their capacity slightly and achieved a slight increase in occupancy rates year-on-year. The number of clubs already opened, roughly reproduced 2006 levels. Magic Life reduced its capacity substantially and thus achieved an increase in occupancy rates year-on-year. In Turkey and Egypt, Iberotel minimally decreased its capacity and achieved an increase in occupancy rates year-on-year. Grecotel reduced its capacity slightly and achieved a slight year-on-year increase in occupancy rates. Grupotel hotels were impacted to some extent by the fact that the positive trend recorded by the Balearic Islands in the first quarter did not continue, reporting a slight decrease in occupancy rates with a minimal increase in capacity.

Other tourism

In 2006, the Other tourism sector still comprised the business travel operations and the IT services companies of TUI InfoTec. The divestment of the business travel operations to the Dutch BCD Holdings N.V. was closed on 31 March 2006. In September 2006, a 50.1% majority in TUI InfoTec was sold to the Indian software company Sonata Software Limited. The transaction was closed on 24 November 2006.

Development in the divisions: Shipping

The shipping division comprises the container shipping and cruise businesses of the Hapag-Lloyd Group.

Shipping – Key figures

€ million	Q2 2007	Q2 2006	Var. %	H1 2007	H1 2006	Var. %

Capital expenditure	185.8	26.7	n. m.	291.8	138.2	+ 111.1
Employees (30 June)	–	–	–	8,451	8,912	- 5.2

The year-on-year decline in freight rates in almost all trade lanes and the persistent weakness of the US dollar caused a reduction in turnover in the shipping division, amounting to 4.2% in the second quarter of 2007 and 6.4% in the first half of

2007. At € 1.5 billion in the second quarter of 2007 and € 3.0 billion in the first half of 2007, the container business accounted for the bulk of turnover by the division; this corresponded to minus 4.3% and minus 6.6%, respectively. Hapag-Lloyd Kreuzfahrten generated turnover of € 36 million in the second quarter of 2007 and € 86 million in the first half of the year; turnover thus declined by 1.4% year-on-year for the quarter and increased by 1.1% for the first half of the year.

Total earnings by the shipping division stood at € 13 million (previous year: € - 41 million) in the second quarter of 2007 and € 154 million (previous year: € - 66 million) in the first half of the year, a substantial increase year-on-year. Container shipping contributed € 14 million to these earnings in the second quarter, with accumulated earnings of € 152 million in the first half of the year. Hapag-Lloyd Kreuzfahrten generated € - 1 million in the second quarter and € 2 million in the first half of the year. Adjusted for the one-off income from the divestments and the one-off expenses for the integration of CP Ships, underlying earnings fell by € 20 million to € - 15 million in the second quarter of 2007; due to the weak performance in the first quarter of 2007, underlying earnings for the first half of the year declined by € 95 million to € - 68 million in the first half of the year.

Reporting structure

In the wake of the operative integration of CP Ships, acquired in October 2005, into Hapag-Lloyd, the freight rates and transport volumes for Hapag-Lloyd and CP Ships have been jointly presented and broken down according to the geographical structure of the trade lanes since the third quarter of 2006. To this end, CP Ships' key figures were broken down accordingly for 2006 and determined statistically for the reference periods in order to create a basis for comparisons.

Turnover and earnings

Turnover by container shipping declined by 4.3% to € 1.5 billion in the second quarter of 2007. For the first half of the year, turnover of € 3.0 billion was recorded, down 6.6% year-on-year. This resulted from the decline in the US dollar exchange rate against the euro and the year-on-year drop in freight rates (Q2 2007: - 5.6% on average; H1 2007: - 6.8% on average) in almost all trade lanes. The transport volume rose by 7.4% to a total of 1,382 thousand standard containers (TEU) year-on-year in the second quarter of 2007 and by 8.6% to a total of 2,697 thousand TEU in the first half of the year.

Earnings rose to € 14 million, up from € - 39 million in the 2006 reference quarter, with accumulated earnings for the first half of the year rising to € 152 million from € - 68 million. Earnings comprised one-off expenses of € 3 million for the divestment of Montreal Gateway Terminals. In addition, one-off income of € 32 million was generated from the revaluation of a risk position formed in the wake of the acquisition of CP Ships, entailing lagging expenses of € 1 million for the integration of

CP Ships. In net terms, one-off effects to be included in underlying EBITA totalled € 31 million. In the 2006 reference quarter, expenses of € 46 million had been incurred in the wake of the integration of CP Ships. For the first half of 2007, gains on disposal from the divestment of Montreal Gateway Terminals and the minority holding in Germanischer Lloyd AG of € 193 million were generated. On the other hand, integration expenses were incurred for CP Ships, while one-off income was generated from the revaluation of the above-mentioned risk position for CP Ships, resulting in an amount of € 29 million in net terms. Adjusted for the one-off effects, underlying earnings in container shipping totalled € - 14 million in the second quarter of 2007 and € - 70 million for the first half of the year. This corresponded to a decline in earnings of € 21 million year-on-year for the second quarter and of € 95 million for the first half of 2007.

Development of the trade lanes

In its new, integrated structure, Hapag-Lloyd generated growth in transport volume of 7.4% year-on-year in the second quarter of 2007. Accumulated transport volume growth stood at 8.6% for the first half of the year. With the exception of Australasia, all trade lanes reported growth. On the other hand, freight rates declined in almost all trade lanes, the sole exception again being the Far East trade lane. Average freight rates for all trade lanes declined by 5.6% in the second quarter of 2007 and 6.8% in the first half of 2007. Since the beginning of the second quarter of 2007, freight rates have picked up again slightly in almost all trade lanes so that the decline in freight rates slowed down over the previous quarter.

The Far East trade lane again benefited from the strong increase in export volumes from China on its routes from Asia to Europe. This trade lane recorded growth in transport volumes of 16.6% year-on-year in the second quarter and 20.7% in the first half of the year. The Far East trade lane was the only trade lane reporting an increase in freight rates, with growth of 4.5% in the second quarter and 3.6% in the first half of the year. This growth was due to the fact that freight rates could be successfully increased on the routes from Asia to Europe.

The Trans-Pacific trade lane recorded sound growth of 8.7% year-on-year. At 9.1%, the transport volume also grew year-on-year for the first half of the year. Growth slowed down slightly on the routes from Asia to North America; this trend, however, was more than offset by growth in transport volumes in the opposite direction. Competitive pressure intensified on the route from Asia to North America, resulting in a decline in average freight rates of 6.0% in the second quarter and 7.6% in the first half of the year.

In the Atlantic trade lane, the transport volume grew by 6.1% year-on-year in the second quarter of 2007 and 4.3% in the first half of the year. This was primarily attributable to transports from North America to Europe. Freigth rates in this trade lane dropped by 13.1% in the second quarter and 13.0% in the first half of the year. This decline was attributable to persistently strong competition in this trade lane, causing a drop in freight rates, in particular on the routes from Europe to North America.

In the Latin America trade lane, the transport volume grew by 11.8% year-on-year in the second quarter and by 10.5% in the first half of the year. Imports rose particularly strongly on the routes from Asia to North America. Freight rates declined by 6.4% in the second quarter and 6.6% in the first half of the year. This trend affected in particular transports from Europe to Latin America. However, rates picked up again towards the end of the second quarter, a trend that mitigated the year-on-year decline in freight rates to some extent.

In the Australasia trade lane, the transport volume dropped by 12.2% year-on-year in the second quarter and 5.7% in the first half of the year. Average freight rates declined by 2.0% year-on-year in the second quarter and 4.8% in the first half of the year. This decline was primarily attributable to a drop in freight rates in intra-regional transports in Asia already observed at the beginning of 2006.

Hapag-Lloyd Kreuzfahrten

Turnover and earnings

In the second quarter of 2007, Hapag-Lloyd Kreuzfahrten continued to record a positive business trend. Passenger numbers rose substantially year-on-year, causing a gratifying increase in the load factor of the ships. In the second quarter of 2007, turnover totalled € 36 million, slightly down 1.4% year-on-year. For the first half of the year, turnover grew by 1.1% to € 86 million.

Earnings in the second quarter of 2007 improved from € - 2 million to € - 1 million year-on-year. At € 2 million, accumulated earnings for the first half of the year matched the previous year's level.

Business trend

In the second quarter of 2007, Hapag-Lloyd Kreuzfahrten continued to record a positive bookings trend. Passenger numbers again grew substantially year-on-year, resulting in an increase in the load factor of the ships. Booking volumes and the load factor rose in a gratifying way in particular for 'Columbus' and 'Bremen'.

Turnover

Turnover comprised the turnover of the tourism and shipping divisions and of central operations, which include the holding companies and the Group's real estate companies. In the second quarter of 2007, turnover declined by 2.0% year-on-year to € 5.2 billion. For the first half of the year, turnover decreased by 2.2% to € 9.3 billion. A detailed breakdown of turnover and the turnover trend is presented in the section 'Consolidated turnover and earnings'.

Other income

Other income primarily comprised profits from the sale of fixed and current asset items, supplementary transactions, foreign exchange gains, income from cost reimbursements and income from letting and leasing contracts as well as license agreements. At € 140 million, other income decreased by 9.5% year-on-year in the second quarter of 2007, primarily due to the income from the divestment of the Dutch specialist tour operators in the second quarter of 2006. In the first half of the year, other income totalled € 466 million, reproducing 2006 levels.

Changes in inventories and other own work capitalised

Changes in inventories and other own work capitalised declined year-on-year to € 2 million for the second quarter of 2007 and € 5 million for the first half of 2007. This was primarily due to the industrial activities of Wolf GmbH, still included in the figures for 2006.

Cost of material and purchased services

The cost of material and purchased services comprised the cost of raw materials including fuel, supplies, purchased merchandise and services. In tourism, this item mainly related to the cost of third-party services such as rental and operating lease payments, hotel rental payments, the cost of flight and other transport services as

well as aircraft fuel. In the shipping division, the cost of purchased services primarily included the cost of third-party container transport, bunker costs, port and terminal costs as well as charter, rental and operating lease costs for ships and containers. The cost of material and purchased services rose slightly by 2.0% to € 4.1 billion in the second quarter of 2007 and by 2.3% to € 7.4 billion in the first half of the year, mainly due to an increase in shipping system costs in the shipping division.

Personnel costs

Personnel costs included expenses for wages and salaries, social security contributions as well as pension costs (excluding the interest portion) and benefits. They also included expenses for personnel adjustments in the framework of restructuring processes. Personnel costs declined by 18.6% to € 514 million in the second quarter of 2007 and by 15.5% to € 1.1 billion in the first half of the year. This was due to the achievement of savings effects in the wake of the ongoing restructuring programmes in tourism and shipping as well as the reduction in personnel expenses due to the divestments made in the 2006 financial year.

Depreciation and amortisation

Depreciation and amortisation comprised the amortisation of property, plant and equipment and other intangible assets. At € 160 million, it was 4.1% down year-on-year in the second quarter of 2007. In the first half of 2007, it stood at € 317 million, down 5.8% year-on-year. This was mainly due to the divestments (Wolf GmbH, TUI InfoTec, TQ3) made in the 2006 financial year and the associated reduction in depreciation and amortisation as well as adjustment measures for invested capital.

Other expenses

Other expenses included commissions for tourism services, distribution and advertising expenses, rental and lease expenses, administrative expenses including contributions, charges and fees, expenses for financial and monetary transactions as well as other taxes. Other expenses rose by 3.8% to € 565 million in the second quarter of 2007 and dropped by 4.1% to € 1.1 billion in the first half of the year.

Financial result

The financial result comprised the net interest result, the net result from investments and marketable securities and the result from changes in the fair value of derivative financial instruments, which are subject to strong fluctuations as at the measurement dates and may therefore cause strong fluctuations in financial income and expenses over time. At € - 60 million, the financial result was 16.0% down on the 2006 reference level in the second quarter of 2007 and comprised financial income of € 46 million (previous year: € 42 million) as well as financial expenses of € 106 million (previous year: € 94 million). For the first half of 2007, the financial result also declined by 7.5% to € - 93 million. It comprised financial income of € 109 million (previous year: € 112 million) and financial expenses of € 202 million (previous year: € 199 million).

Result from companies measured at equity

The result from companies measured at equity comprised the interest in net result for the year of the associated companies and joint ventures as well as necessary impairments of goodwill of these companies. At € 13 million for the second quarter of 2007 and € 21 million for the first half of the year, it grew by 22.9% and 28.9%, respectively. It mainly resulted from the development of earnings of the companies measured at equity operating in the destinations sector. Impairments of goodwill were not required.

Income taxes

Income taxes comprised taxes on the profits from ordinary business activities of the continuing operations. Income taxes totalled € - 123 million in the second quarter of 2007 (previous year: € - 11 million) and € - 157 million in the first half of 2007 (previous year: € - 31 million). The tax item in the second quarter of 2007 primarily benefited from the reorganisation of structures under German company law in the wake of preparing for the merger between TUI's tourism entities and First Choice.

Result from discontinuing operations

In the first half of 2007, the TUI Group no longer held any discontinuing operations so that no earnings were generated. In the second quarter of 2006, earnings from discontinuing operations had accounted for € 5 million, with earnings of € 13 million for the first half of 2006. A detailed breakdown of the development of these earnings is provided in the section 'Result from discontinuing operations' in the notes.

Group profit

Group profit totalled € 68 million (previous year: € 39 million) in the second quarter of 2007, up 73.0%. For the first half of 2007, Group profit also rose by 26.5% to € - 38 million (previous year: € - 52 million). The decline in earnings by continuing operations was more than offset by the above-mentioned positive tax effect from the reorganisation of the structure of tourism entities under company law.

Minority interests

Minority interests in Group profit totalled € 11 million for the second quarter of 2007 and € 23 million for the first half of 2007. They almost exclusively related to companies in the destinations sector.

Earnings per share

After deduction of minority shares, TUI AG shareholders accounted for € 56.4 million of Group profit in the second quarter of 2007, up 97.2% year-on-year. As a result, basic earnings per share amounted to € + 0.19 (previous year: € + 0.06) in the second quarter. In the first half of the year, TUI AG shareholders accounted for € - 60.8 million after deduction of minority shares, a further improvement of 6.6%. Basic earnings per share in the first half of 2007 thus totalled € - 0.29 (previous year: € - 0.31).

Operating rental expenses

Operating rental expenses of the continuing operations amounted to € 300 million (previous year: € 285 million) in the second quarter of 2007 and to € 597 million (previous year: € 559 million) in the first half of the year.

Interest result

The interest result of the continuing operations totalled € - 60 million (previous year: € - 56 million) in the second quarter of 2007 and € - 117 million (previous year: € - 115 million) in the first half of the year.

Net assets and financial position

The Group's balance sheet total rose by 16.9% to € 15.2 billion as against the end of 2006. The changes in the consolidated balance sheet essentially resulted from the tourism cycle. In addition, the Group's net assets and financial position were affected by the acquisitions and divestments (see section 'Acquisitions – divestments' in the notes).

Assets and liabilities

€ million	30 June 2007	31 Dec 2006
Non-current assets	10,317.9	10,141.2
Current assets	4,892.4	2,872.8
Assets	**15,210.3**	**13,014.0**
Equity	3,263.3	2,995.1
Provisions	2,137.7	2,436.6
Financial liabilities	4,603.2	3,899.6
Other liabilities	5,206.1	3,682.7
Liabilities	**15,210.3**	**13,014.0**

Non-current assets

As at 30 June 2007, non-current assets accounted for 67.8% of total assets, compared with a share of 77.9% as at 31 December 2006. Non-current assets rose from € 10.1 billion to € 10.3 billion in the period under review. This increase was mainly attributable to the increase in other receivables.

Current assets

As at 30 June 2007, current assets accounted for 32.2% of total assets, up from 22.1% as at 31 December 2006. Current assets rose from € 2.9 billion as at 31 December 2006 to € 4.9 billion as at 30 June 2007. This change was in particular attributable to the increase in trade accounts receivable in the tourism business and the increase in cash and cash equivalents from advance payments received in tourism.

Equity

Equity totalled € 3.3 billion as at 30 June 2007. The equity ratio stood at 21.5%, compared with 23.0% at the end of the 2006 financial year. Detailed information on the changes is provided under 'Changes in equity' in the notes on this interim report.

Provisions

Provisions mainly included provisions for pension obligations, effective and deferred income tax provisions and provisions for typical operating risks. As at 30 June 2007, they totalled € 2.1 billion and were thus € 299 million or 12.3% down on 31 December 2006. This was essentially due to a further increase in the long-term market interest rate as at the closing date, to be taken into account in the framework of the measurement of pension obligations. The effect mainly related to obligations in the UK to be recognised in the balance sheet.

Financial liabilities

As at 30 June 2007, financial liabilities comprised non-current financial liabilities of € 4.2 billion and current financial liabilities of € 0.4 billion. As at 31 December 2006, non-current assets stood at € 3.5 billion, with current financial liabilities of € 0.4 billion. The increase in non-current financial liabilities resulted from the convertible bond worth around € 0.7 billion issued in the second quarter of 2007. At the end of the first half of the 2007 financial year, net debt totalled € 2.7 billion (down from € 3.2 billion at the end of the 2006 financial year). The decline in net debt was attributable to the typical seasonal business trend in tourism and the divestments (Montreal Gateway Terminals, Germanischer Lloyd) made in the first quarter of 2007.

Other liabilities

As at 30 June 2007, other liabilities stood at € 5.2 billion, up € 1.5 billion or 41.4% as against 31 December 2006. This was mainly due to the increase in advance payments received in the tourism business.

Prospects

For 2007, economists expect the stable growth of the world economy to continue. In the US, business investments are beginning to rise. This trend is expected to boost growth in the US in the current second half of the year. Japan, too, is expected to record a continuation of its strong economic expansion. For the eurozone, experts expect business activity to pick up in the rest of the year and in 2008. Following further strong growth in real gross domestic product in the summer of 2007, the expansion trend is expected to slow down slightly. As in previous periods, the world economy will be boosted by the expected dynamic growth in the emerging economies, China and India.

The positive economic environment in the key source markets in tourism is expected to ensure sustained growth in demand in the travel market. The growth trend is reflected by the Group's current bookings situation for the 2007 summer season. The future growth momentum may vary in the different source markets. In shipping, a recovery of freight rate levels is emerging against the backdrop of a positive economic environment, a trend expected to be boosted by growth in world trade in the second half of 2007. The risk/reward profile of the shipping division will depend on the further development of the external cost components.

Tourism

Bookings for the 2006/2007 winter season, which ended in April, closed at growth of 8.5% in customer numbers and 4.9% in booked turnover at Group level. Bookings for the current 2007 summer season have shown an overall gratifying level. At Group level, bookings are currently up 7.9% year-on-year in terms of customer numbers and 3.5% in terms of booked turnover, with variations in the large source markets: The Central Europe sector with the large source market Germany reported a considerable year-on-year increase in booked turnover and customer numbers. The Northern Europe sector also achieved an overall increase in customer numbers; however, booked turnover in this sector decreased year-on-year. The turnover trend observed reflects in particular the currently difficult market environment in the British mass market. The Nordic countries, in contrast, have continued their positive trend. In the Western Europe sector, all sub-markets achieved growth in booked turnover. In France, customer numbers are still slightly down year-on-year.

Booking numbers

Year-on-year variation in %	Winter 2006/2007 Turnover	Winter 2006/2007 Customers	Summer 2007 Turnover	Summer 2007 Customers
Germany	+ 3.5	+ 7.8	+ 5.8	+ 11.7
Switzerland	+ 20.5	+ 20.1	+ 20.5	+ 12.9
Austria	+ 8.3	+ 2.3	- 1.0	- 3.4

Northern Europe	**+ 3.5**	**+ 10.0**	**- 3.4**	**+ 4.0**
France	+ 3.8	+ 6.1	+ 2.8	- 1.7
Netherlands	+ 12.2	+ 1.8	+ 15.8	+ 11.4
Belgium	+ 14.7	+ 14.1	+ 9.6	+ 9.3
Western Europe	**+ 8.1**	**+ 7.3**	**+ 8.8**	**+ 6.3**
Group	**+ 4.9**	**+ 8.5**	**+ 3.5**	**+ 7.9**

As at 27 April 2007 for the winter season, 27 July 2007 for the summer season

Concerning the development of earnings (underlying earnings before interest, taxes and amortisation of goodwill – underlying EBITA by division), an uneven trend is emerging. Based on the gratifying bookings situation for the 2007 summer season in the Central Europe sector, a positive trend is expected for the tour operator segment. This trend is contrasted by a temporary burden caused by a decline in the seat load factor in the flight segment. Overall, the Central Europe sector is expected to fall short of its good performance in 2006. The development of earnings by the Northern Europe sector was impacted by the difficult market environment in the British mass market in the first half of 2007. From today's perspective, the business trend is expected to pick up again in the second half of 2007. Earnings improvements will also result from the realisation of cost savings potentials from the ongoing restructuring programmes and those completed in previous periods. However, overall the Northern Europe sector is not expected to fully match the good performance achieved in 2006. In the framework of the recovery trends observed in the French market and the stable business trends in the Dutch and Belgian markets, overall earnings by the Western Europe sector are expected to rise considerably. Earnings by the destinations sector are expected to grow year-on-year due to the positive operating development of the hotel companies.

Shipping

In the shipping division, the development of earnings is primarily characterised by the year-on-year decline in freight rate levels. In the second quarter of 2007, freight rates started to recover on the previous quarter. This applies in particular to outbound Asian transports in the Far East trade lane. Against the background of the freight rate trend observed, positive operating profit contributions are expected for the second half of 2007.

Irrespective of the currently positive volume trend in container shipping, turnover is impacted by the current weakness of the US dollar and the decrease in average freight rates. The rise in freight rate levels which has begun to emerge, however, is expected to go hand in hand with corresponding turnover growth in the second half of 2007, with the US dollar expected to remain low.

Central operations

From today's perspective, central operations will fall slightly short of the previous year's level.

Overall, the Group's continuing operations are expected to show a stable turnover trend in 2007. Concerning the development of the operative business for the Group's existing structure, the Executive Board maintains its cautiously optimistic assessment since an improvement in operating earnings can be expected for the second half of 2007 based on the strong level of incoming bookings recorded in tourism over the previous weeks and the increase in freight rates in shipping. Due to the merger between the TUI Group's tourism entities and the British travel group First Choice Holidays PLC at the beginning of September and the associated earnings effects of the first-time consolidation of the sectors newly included in consolidation, a final assessment of the development of earnings by the end of 2007 is not possible yet at the current point in time.

Corporate Governance

In the course of the second quarter of 2007, the composition of the Executive Board and Supervisory Board of TUI AG did not change.

At the beginning of the third quarter, on 11 July 2007, the Supervisory Board appointed Peter Long, CEO of First Choice Holidays PLC since 1999 and CEO of the future TUI Travel PLC, an ordinary member of TUI AG's Executive Board. The appointment will take effect upon completion of the merger between TUI's tourism division and First Choice Holidays into TUI Travel PLC, probably as of 3 September. Alongside Peter Rothwell, Peter Long will be in charge of tourism.

Christoph R. Mueller, the director in charge of the airlines, will switch to the Executive Board of TUI Travel PLC and will resign from his office as a member of TUI AG's Executive Board due to this appointment, scheduled as of 3 September 2007.

The current, complete composition of the Executive Board and Supervisory Board is presented on the Company's website (www.tui-group.com), where it is permanently accessible to the general public.

Interim Financial Statements

Notes

Accounting principles

The Group's interim financial statements as at 30 June 2007 were prepared in a condensed form compared with the consolidated annual financial statements in accordance with IAS 34 'Interim Financial Reporting'. The only deviation from the historical cost principle was the accounting method applied in measuring financial instruments.

As of the beginning of the 2007 financial year, the following statutory standards revised or newly issued by the IASB were applicable: IAS 1 'Presentation of Financial Statements' (amendment concerning capital disclosures) and IFRS 7 'Financial Investments: Disclosures'. These newly applicable standards comprise provisions on disclosures to be provided in the notes on consolidated financial statements. The application of these standards therefore did not have any effects on financial reporting in the framework of the interim financial statements for the 2007 financial year. In addition, the following Interpretations newly issued by the IFRIC are compulsory for this interim report for the fist time: IFRIC 10 'Interim Financial Reporting and Impairment' and IFRIC 11 'Group and Treasury Share Transactions' according to IFRS 2. The application of these Interpretations did not have any effects on these interim financial statements.

As a matter of principal the interim financial statements as at 30 June 2007 were prepared in accordance with the same accounting and measurement principles as those applied in the preceding consolidated financial statements as at 31 December 2006. A deviation was made concerning the measurement method applied to provisions for aircraft maintenance operations, which was changed in the current period under review. As at 31 December 2006, the corresponding provisions herefrom rose by a total of € 21.8 million. At the same time, the provisions for deferred income taxes decreased by € 6.6 million. The corresponding figures for 2006 were restated. In addition, in accordance with IAS 33.12, the after-tax amount of the dividend on the hybrid capital was deducted from Group profit attributable to TUI AG shareholders in calculating earnings per share since the hybrid capital represents equity but does not represent equity attributable to TUI AG shareholders. The corresponding figure for 2006 was restated accordingly.

Since the purchase price allocation for the acquisition of the CP Ships Group was finalised in the 2006 financial year, depreciation and amortisation for the first half of 2006 declined by € 0.6 million. Taking account of the tax effect, earnings from continuing operations rose by € 0.8 million. The previous year's figures were restated accordingly. The restatements of the original purchase price allocations are outlined in detail in the notes on the consolidated financial statements as at 31 December 2006.

Since the integration of the business operations of the CP Ships Group into the Hapag-Lloyd Group has largely been completed, the primary currency characterising the joint transport routes and the customer base in container shipping is no longer the euro but the US dollar. The primary economic environment for container shipping operations, i.e. the key environment within which cash and cash equivalents are received and spent, therefore changed to the US dollar region. Since 1 January 2007, the US dollar has therefore had to be used as the functional currency of the operative container shipping companies in accordance with IAS 21.35.

Group of consolidated companies

The consolidated financial statements included all major subsidiaries in which TUI AG was able to directly or indirectly govern the financial or operating policies such that the Group obtained benefits from the activities of these companies.

The interim financial statements as at 30 June 2007 included a total of 41 domestic and 335 foreign subsidiaries, besides TUI AG.

Since 31 December 2006, four companies were newly included in the group of consolidated companies due to an expansion of their business activities. An additional two newly formed companies were consolidated for the first time. Four of the companies newly added related to the tourism division, while one company each related to the shipping division and central operations.

Since 31 December 2006, a total of 17 companies were removed from consolidation. Fifteen companies related to the shipping division. They were deconsolidated due to the liquidation of these companies. An additional two companies relating to the tourism division were removed from consolidation; one of them was deconsolidated due to the divestment of 50% of the corresponding shares, and the other one was removed from consolidation due to a merger.

Acquisitions – divestments

With purchase contract dated 31 January 2007, the TUI Deutschland GmbH tour operator acquired the remaining 25%, in addition to the 75% already held, of the capital stock of E.V.S. Beteiligungsgesellschaft mbH, Rengsdorf, a company already included in the TUI's group of consolidated companies, at a purchase price of € 19.1 million.

With effect from 5 January 2007, the minority share in Germanischer Lloyd AG held by Hapag-Lloyd was sold at a purchase price of € 15.1 million. As at the end of the 2006 financial year, this minority share was classified as a non-current asset held for sale in accordance with IFRS 5. The corresponding asset was therefore shown in a separate balance sheet item as at 31 December 2006.

On 21 February 2007, CP Ships Limited concluded an agreement on the sale of the material assets and liabilities of Montreal Gateway Terminals to Montreal Gateway Terminals Limited Partnership, a company set up by Morgan Stanley Infrastructure Partners for this purpose. The agreements took effect as of 9 March 2007. Montreal Gateway Terminals were part of the business of CP Ships, the container shipping line acquired in 2005.

Until 9 March of the current financial year, Montreal Gateway Terminals generated turnover of € 17.1 million and earnings after taxes of € 1.4 million. In the first quarter of 2006, turnover had totalled € 25.8 million with earnings of € 9.9 million.

The container terminal business was acquired by Montreal Gateway Terminals Limited Partnership at a price of € 324.6 million in the form of an asset deal. The purchase price was largely paid in cash, with the remainder paid in the form of a transfer of an interest of around 20% in the new company. This interest was included in the framework of at equity measurement by the TUI Group. After deduction of the selling expenses of € 4.3 million, the divestment generated overall positive earnings before taxes of € 177.7 million in the shipping division in the first six months of the 2007 financial year.

Since the sales negotiations became increasingly specific, the material assets and liabilities of Montreal Gateway Terminals were classified as a disposal group in accordance with IFRS 5 as at the end of the 2006 financial year and were therefore shown in separate balance sheet items as at 31 December 2006.

Discontinuing operations

With the divestment of the US steel service companies of Preussag North America Inc. to financial investor Platinum Equity in May 2006 and the divestment of the majority interest in Wolf GmbH, a company in the heating and air conditioning sector, to Centrotec Sustainable AG in October 2006, the TUI Group sold its last remaining industrial interests.

As a result, the TUI Group now comprises the two core businesses tourism and shipping.

Currently, there are no discontinuing operations. The tables shown below provide an overview of the development of discontinuing operations in the 2006 reference period.

Result from discontinuing operations

Besides the operating income and expenses of these operations, the 2006 result from discontinuing operations also included effects of the deconsolidation of companies already divested in these sectors.

Result from discontinuing operations (after income tax)

Notes on the consolidated profit and loss statement

The year-on-year development of the consolidated profit and loss statement was essentially characterised by changes in the group of consolidated companies. In the first half of 2006, the interests in Wolf GmbH (heating and air conditioning technology) and the TUI InfoTec Group (IT services) were fully included in consolidation. In addition, the business travel operations of the TQ3 Group and the specialist travel activities of TUI Nederland were included in consolidation for most of the 2006 reporting period. Moreover, the US steel service companies of the PNA Group were carried as a discontinuing operation until 9 May 2006. These companies were divested in the course of the 2006 financial year and were therefore not fully consolidated in the current period under review. Moreover, the Explorers Travel Club Group was only included in the TUI Group's group of consolidated companies as of the third quarter of the 2006 financial year. As a result, a year-on-year comparison of the first six months of the current financial year with the respective comparative period in 2006 is of limited use only for the continuing operations.

In the course of the 2006 financial year, the operative business of the CP Ships Group, acquired in 2005, was almost fully integrated into the Hapag-Lloyd Group. In the 2006 reference period, restructuring expenses had totalled around € 70 million. While the shipping division did not incur any such expenses in the first half of the current financial year, it posted book profits totalling € 192.8 million from the divestment of its minority interest in Germanischer Lloyd AG and the material assets and liabilities of Montreal Gateway Terminals.

Overall, turnover by the shipping division dropped, primarily due to the decline in freight rates in almost all trade lanes and the persistent weakness of the US dollar. Adjusted for one-off income from divestments and one-off expenses for the inte-

gration of CP Ships, earnings in the first half of the year therefore fell below 2006 levels, primarily due to the weak performance in the first quarter of 2007.

The development of earnings by the tourism division in the 2006 reference period was mainly determined by income of € 162.5 million from the divestment of the TQ3 Group (Other tourism sector) and the Dutch specialist tour operators.

Even adjusted for the special one-off effects of the 2006 reference period, earnings by the tourism division declined year-on-year, with an overall increase in turnover.

This was in particular attributable to the persistently difficult market environment in the Northern Europe sector. The Scandinavian source markets continued to increase their business volume year-on-year. In the UK, income of € 5.8 million (previous year: € 0 million) was generated from two aircraft sale-and-lease-back agreements. Here, however, the difficult market environment caused a decline both in turnover and earnings. In addition, earnings in the first half of the 2007 financial year were also impacted by one-off effects. So expenses incurred for the conversion of the air passenger duty in the UK which could not be rolled over to passengers and the revaluation of maintenance provisions for aircraft in the framework of the adoption of uniform accounting and measurement methods in connection with the merger of material parts of TUI's tourism division and First Choice of around € 20 million had to be considered. In the 2006 reference period, earnings were not impacted by such expenses.

On the other hand, turnover rose to some extent substantially in the Central and Western Europe sectors. In the 2006 reference period, the Central Europe sector was impacted by restructuring expenses of € 6.2 million. Such expenses were not incurred in the current period under review. In addition, the Central Europe sector posted income of € 10.8 million (previous year: around € 17 million) from four aircraft sale-and-lease-back agreements in the first half of the financial year under review. On the other hand, expenses were incurred in connection with the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express for the establishment of the new master brand TUIfly.com. Besides these one-off expenses, however, earnings were further impacted by the decline in the seat load factor in the flight sector. In net terms, earnings in the Central Europe sector thus fell short of 2006 levels.

Earnings in the Western Europe sector also fell slightly short of 2006 levels, with regional variations. The decline in earnings in the first half of the year was partly attributable to one-off expenses due to restructuring costs of € 2.6 million in source market Netherlands and of € 1.6 million in source market France. In the 2006 reference period, no such expenses were incurred. In addition, income from aircraft sale-and-lease-back agreements worth around € 5 million was generated in 2006.

The destinations sector achieved a substantial increase in its turnover year-on-year, due to the positive operative development of hotel companies and incoming agencies. Adjusted for one-off expenses and one-off income incurred in the 2006 reference period, earnings dropped slightly below 2006 levels.

In 2006, earnings by other operative companies were affected by one-off income of € 40.8 million by the real estate companies from the divestment of 'Schacht Konrad'. Another factor to be taken into account was the fact that Wolf GmbH was no longer included in consolidation in the period under review.

Earnings by the holding companies in the 2006 reference period benefited from earnings of € 15.0 million from the fair value measurement of the conversion options of the convertible bond issued in October 2003. Since, with effect from 3 April 2006, TUI AG irrevocably waived its option, to be exercised unilaterally, of being able to deliver cash if a conversion option should be exercised, fair value measurement in profit or loss has no longer applied since 3 April 2006. In addition, earnings by the holding companies were impacted by one-off restructuring expenses, primarily for severance payments, of € 6.1 million (previous year: € 0 million) in the current period under review. The strong year-on-year increase in tax income resulted from the implications of known tax effects of the planned reorganisation of the corporate structure of the German tourism entities in connection with the establishment of TUI Travel PLC and the effects of the first-time recognition of the newly issued 2007/2012 convertible bond on deferred taxes in the balance sheet.

Overall, the earnings situation was characterised by the seasonal nature of the tourism business. Due to the business cycles, profit contributions in the tourism division predominantly arise in the second and third quarter of any one year.

In the first half of the 2007 financial year, no unusual expenses or income from the divestment of discontinuing operations had to be reported. In the 2006 reference period, unusual expenses after tax of around € 7 million were incurred. These expenses resulted from the deconsolidation of the PNA Group totalling € 12.1 million and income of € 5.3 million resulting from the payment of previously disputed dividend claims on a company of the Preussag Energie Group.

Notes on the consolidated balance sheet

The changes in the consolidated balance sheet as against 31 December 2006 mainly resulted from the cycle of the tourism business. Both inventories, trade accounts receivable and the corresponding trade accounts payable in the tourism division rose due to the seasonal development in tourism. Due to the increase in advance payments in tourism, other liabilities as well as liquid funds also rose within that period.

Goodwill declined as against 31 December 2006. This was mainly due to the reclassification of assets held for sale in accordance with IFRS 5, outlined in the section below.

The increase in financial liabilities compared with the level as at 31 December 2006 mainly resulted from the uncollateralised non-subordinated convertible bond issued by TUI AG in May 2007. This was one of the reasons for the increase in liquid funds.

Assets held for sale and related liabilities

€ million	30 June 2007	31 Dec 2006
Non-current assets	156.4	171.4
Assets held for sale	**156.4**	**171.4**
Liabilities related to non-current assets	63.2	2.1
Liabilities from assets held for sale	**63.2**	**2.1**

Most of the items carried as assets held for sale as at 31 December 2006 and the related liabilities were settled by means of the divestment of the minority interest in Germanischer Lloyd AG as at 5 January 2007 and the divestment of the material assets and liabilities of Montreal Gateway Terminals as at 9 March 2007. These transactions are outlined in detail in the section 'Acquisitions - divestments'.

On the other hand, the assets (€ 95.9 million) and liabilities (€ 63.2 million) of the Irish Budget Travel Group were carried as non-current assets and related liabilities held for sale as of 4 June 2007 in accordance with IFRS 5. As of that date, the EU Commission approved the planned merger of the material parts of TUI's tourism division with the British travel group First Choice Holidays PLC into TUI Travel PLC. The approval was granted subject to the condition that TUI sells its Irish subsidiary Budget Travel. In addition, an aircraft operated in the sectors Northern Europe and Central Europe (€ 59.3 million) and to a minor extent some real estate property and land were carried as non-current assets held for sale in accordance with IFRS 5 as at 30 June 2007.

At the beginning of July 2007, TUI AG's Executive Board decided to sell the shares in the hotel holding company Tarajal Properties S.L. Since the criteria of IFRS 5 were therefore not yet fully met by 30 June 2007, the assets held for sale (€ 36.6 million) and the related liabilities (€ 9.7 million) were not yet carried under these items.

Changes in equity

The TUI Group exercised the option offered by IAS 19 of offsetting actuarial gains and losses against equity outside profit or loss when they occur. In this context, provisions for pensions were reduced by € 284.6 million in the period under review, primarily due to the increase in the long-term interest rate level observed in the UK (from 5.0% at 31 December 2006 to 5.82% at 30 June 2007) since the beginning of the year. Taking account of deferred taxes of € 94.0 million to be carried, equity rose accordingly by € 190.6 million outside profit or loss.

A further increase in equity resulted from the issuance of a convertible bond and changes in the value of financial instruments used to hedge against exposure to cash flow risks, carried outside profit or loss.

On the other hand, Group equity dropped due to the negative consolidated earnings of € 38.0 million.

Equity was further reduced due to changes in the currency translation of financial statements prepared by foreign subsidiaries.

Contingent liabilities

As at 30 June 2007, the TUI Group's contingent liabilities totalled around € 145 million (31 December 2006: around € 214 million). Contingent liabilities were carried at the level of potential availment as at the balance sheet date. They mainly related to remaining guarantees and warranties from the former plant engineering and ship-building activities, which serve to settle follow-up projects and were substantially reduced in the first half of the financial year.

Other financial liabilities

Financial liabilities from operating rental, lease and charter agreements rose slightly at the end of the first half to € 4.6 billion, up from € 4.5 billion as at 31 December 2006. Due to the increase in the long-term interest rate level, the fair value, however, decreased from € 3.8 billion to € 3.7 billion.

The remaining other financial liabilities dropped to € 5.7 billion as at the end of the first half of 2007, down from € 6.1 billion as at the end of the 2006 financial year. At € 4.9 billion, the fair value declined year-on-year from € 5.3 billion.

While order commitments for tourism services declined by € 0.4 billion to € 1.9 billion, order commitments for investments totalled € 3.1 billion, matching the level carried at the end of the 2006 financial year.

Notes on the cash flow statement

In the period under review, cash and cash equivalents of the continuing operations rose by € 1,215.5 million to € 1,904.2 million.

The inflow of cash from operating activities dropped by € 91.7 million to € 817.4 million year-on-year. This was mainly attributable to the earnings situation in the shipping and tourism divisions.

The outflow of cash from investing activities totalled € 220.1 million in the current financial year. In 2006, an inflow of cash from investing activities of € 259.1 million was reported. This inflow of cash was mainly attributable to the divestment of the TQ3 Group and the PNA Group in the 2006 financial year. The cash outflow in the current financial year mainly resulted from payments made for capital expenditure in property, plant and equipment as well as investments, mainly for container ships and hotel complexes as well as the acquisition of the remaining shares in E.V.S. Beteiligungsgesellschaft mbH. On the other hand, cash inflow primarily resulted from the divestment of the material assets and liabilities of Montreal Gateway Terminals and the minority shareholding in Germanischer Lloyd AG.

The inflow of cash from financing activities totalled € 658.7 million, primarily resulting from the issuance of an uncollateralised non-subordinated convertible bond by TUI AG in May 2007. In 2006, an outflow of cash of € 364.0 million was recorded in the relevant period.

Cash and cash equivalents increased by € 3.4 million due to exchange rate fluctuations and changes in the group of consolidated companies.

In the first half of the 2007 financial year, earnings before interest, taxes and amortisation of goodwill (EBITA) comprised the following results from the companies measured at equity: tourism € 15.5 million (previous year: € 12.8 million), shipping € 5.0 million (previous year € 3.1 million) and trading € 0.0 million (previous year: € 0.6 million).

Related parties

Apart from the subsidiaries included in the consolidated financial statements, TUI AG, in carrying out its ordinary business activities, maintained indirect or direct relationships with related parties. All transactions with related parties were carried out at arm's length on the basis of international comparable uncontrolled price methods as they are common with third parties in accordance with IAS 24, as before. The equity interest in RIU Hoteles S.A. mentioned in the notes on the consolidated financial statements as at 31 December 2006 was held unchanged at the closing date of the interim financial statements. More detailed information on related parties is provided in the notes on the consolidated financial statements for 2006 under 'Other notes'.

Responsibility Statement by Management

To the best of our knowledge, and in accordance with the applicable reporting principles for interim financial reporting, the interim consolidated financial statements give a true and fair view of the assets, liabilities, financial position and profit or loss of the group, and the interim management report of the group includes a fair review of the development and performance of the business and the position of the group, together with a description of the principal opportunities and risks associated with the expected development of the group for the remaining months of the financial year.

Review Report

To the TUI AG, Berlin and Hanover

We have reviewed the condensed consolidated interim financial statements – comprising the condensed balance sheet, condensed income statement, condensed cash flow statement, condensed statement of changes in equity and selected explanatory notes – and the interim group management report of the TUI AG, Berlin and Hanover, for the period from 1 January 2007 to 30 June 2007 which are part of the half-year financial report pursuant to § (Article) 37w WpHG ('Wertpapierhandelsgesetz': German Securities Trading Act). The preparation of the condensed consolidated interim financial statements in accordance with the IFRS applicable to interim financial reporting as adopted by the EU and of the interim group management report in accordance with the provisions of the German Securities Trading Act applicable to interim group management reports is the responsibility of the parent Company's Board of Managing Directors. Our responsibility is to issue a review report on the condensed consolidated interim financial statements and on the interim group management report based on our review.

We conducted our review of the condensed consolidated interim financial statements and the interim group management report in accordance with German generally accepted standards for the review of financial statements promulgated by the Institut der Wirtschaftsprüfer (Institute of Public Auditors in Germany) (IDW) and additionally observed the International Standard on Review Engagements 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' (ISRE 2410). Those standards require that we plan and perform the review so that we can preclude through critical evaluation, with moderate assurance, that the condensed consolidated interim financial statements have not been prepared, in all material respects, in accordance with the IFRS applicable to interim financial reporting as adopted by the EU and that the interim group management report has not been prepared, in all material respects, in accordance with the provisions of the German Securities Trading Act applicable to interim group management reports. A review is limited primarily to inquiries of company personnel and analytical procedures and therefore does not provide the assurance attainable in a financial statement audit. Since, in accordance with our engagement, we have not performed a financial statement audit, we cannot express an audit opinion.

Based on our review, no matters have come to our attention that cause us to presume that the condensed consolidated interim financial statements have not been prepared, in all material respects, in accordance with the IFRS applicable to interim financial reporting as adopted by the EU nor that the interim group management report has not been prepared, in all material respects, in accordance with the provisions of the German Securities Trading Act applicable to interim group management reports.

Reservation concerning future-related statements

This interim report contains a number of statements related to the future development of TUI. These statements are based both on assumptions and estimates. Although we are convinced that these future-related statements are realistic, we cannot guarantee them, for our assumptions involve risks and uncertainties which may give rise to situations in which the actual results differ substantially from the expected ones. The potential reasons for such differences include market fluctuations, the development of world market commodity prices, the development of exchange rates or fundamental changes in the economic environment. TUI does not intend or assume any obligation to update any forward-looking statement to reflect events or circumstances after the date of these materials.

→ Trend in tourism affected by seasonality of business.

→ Bookings for summer season have started off well.

→ Operating result in shipping affected by strong growth in transport volume and burdened with low freight rates' level.

Economic Situation in Q1 2007

General economic situation

In the first quarter of 2007, the world economy showed a positive trend. Its upward phase continued, although the pace of expansion slowed down slightly year-on-year, in particular due to the slowdown in production growth in the US. In contrast, the economic upswing persisted in the European Union and Japan. The developing countries and the emerging economies continued to show strong momentum, with many countries benefiting from higher export revenues due to the increase in commodity prices.

Special events in the quarter under review

On 19 March 2007, TUI AG announced the merger of its tourism division – excluding the hotel companies jointly operating under TUI Hotels & Resorts – with the British travel group First Choice Holidays PLC. This transaction will create one of the world's largest travel groups. The new company is planned to be headquartered in the UK and listed on the London stock exchange. TUI AG will hold a majority shareholding of 51 per cent, with the shareholders of First Choice Holidays PLC holding 49 per cent. TUI Travel PLC will be fully consolidated in TUI AG's consolidated financial statements. The transaction is subject to approval by the competent anti-trust authorities and by the shareholders of First Choice Holidays PLC, required under British law.

Discontinuing operations	**–**	**278.0**	**–**
Turnover by divisions	**4,094.1**	**4,478.4**	**- 8.6**

In the first quarter of 2007, the turnover of the TUI Group's continuing operations – tourism, shipping and central operations – was 2.5% down year-on-year.

At € 2.6 billion, turnover by tourism was 3.1% up year-on-year in the first quarter of 2007. Adjusted for the development of turnover by the Other tourism sector, which still comprised turnover from the divested business travel operations in the first quarter of 2006 on a pro rata basis, turnover grew by 5.8%. The increase in turnover was supported by all tourism segments, with source market Central Europe and the destinations sector, in particular, recording significant growth in turnover.

In the shipping division, turnover declined by 8.5% to € 1.5 billion. This was attributable to the year-on-year weakening of the US dollar against the euro and the decline in freight rates in almost all trade lanes.

At € 4 million, turnover by central operations dropped by 91.4% year-on-year in the first quarter of 2007. This was primarily due to the divestment of the majority interest in Wolf GmbH, a heating and air conditioning company, in October 2006 and the resulting decline in earnings.

In the 2007 financial year, the TUI Group no longer conducts any activities to be classified as discontinuing operations in accordance with IFRS regulations. In the 2006 reference quarter, turnover of € 278 million had been generated in the trading sector.

At € 4.1 billion, total turnover by the TUI Group's divisions was 8.6% down year-on-year in the first quarter of 2007.

Continuing operations

Earnings by the continuing operations tourism and shipping as well as central operations (before interest, taxes and amortisation of goodwill) totalled € - 83 million in the first quarter of 2007, € 13 million down year-on-year. Both in the first quarter of 2007 and in the 2006 reference period, earnings were affected by a number of special factors. In order to ensure a transparent presentation of the development of earnings by the divisions, a reconciliation to adjusted earnings (underlying EBITA by division) is provided in the section below.

Underlying EBITA by division: Tourism

€ million	Q1 2007	Q1 2006	Var. %
EBITA by division	**- 237**	**- 83**	**- 185.5**
Gains on disposals	*–*	*- 144*	
Restructuring expenses	*+ 2*	*–*	
Other one-off items	*+ 8*	*+ 11*	
Underlying EBITA by division	**- 227**	**- 216**	**- 5.1**

At € - 237 million, earnings by tourism dropped by 185.5%, a significant decline year-on-year. They included minor one-off expenses for the restructuring of business and a lagging charge in connection with the renewal of the fleet of Boeing 747s in Corsair, one-off re-branding and marketing expenses for the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express under the new brand TUIfly.com as well as a readjustment of air passenger duties which could not be passed on to customers totalling € 10 million. In the first quarter of 2006, earnings had included one-off income from the divestment of the business travel operations in Other tourism of € 144 million and one-off expenses for planned personnel measures in Nouvelles Frontières as well as expenses for the fleet renewal programme implemented by Corsair of a total of € 11 million. Adjusted for these special effects, earnings declined by 5.1% in the first quarter of 2007.

Underlying EBITA by division: Shipping

€ million	Q1 2007	Q1 2006	Var. %
EBITA by division	**141**	**- 25**	**n. m.**
Gains on disposals	*- 196*	*–*	
Restructuring expenses	*–*	*+ 40*	
Other one-off items	*+ 2*	*+ 7*	
Underlying EBITA by division	**- 53**	**22**	**n. m.**

At € 141 million, earnings by the shipping division rose substantially from their 2006 level of € - 25 million. Earnings comprised one-off income from the divestment of the majority in Montreal Gateway Terminals of € 181 million and the divestment of the minority interest of Hapag-Lloyd AG in Germanischer Lloyd AG of € 15 million. On the other hand, a minor expense of € 2 million was incurred for the integration of CP Ships. In the first quarter of 2006, significant one-off expenses totalling € 47 million had been incurred in connection with the integration of CP Ships. Adjusted for the special one-off effects, earnings in the first quarter of 2007 totalled € - 53 million for shipping, a decline in earnings of € 75 million compared with the 2006 reference quarter.

Underlying EBITA by division: Central operations

€ million	Q1 2007	Q1 2006	Var. %
EBITA by division	**13**	**38**	**- 65.8**
Gains on disposals	*–*	*–*	
Restructuring expenses	*–*	*–*	
Other one-off items	*–*	*–*	
Revaluation of convertible options	*–*	*- 15*	
Underlying EBITA by division	**13**	**23**	**- 43.5**

Earnings of central operations showed a 65.8% decline to € 13 million year-on-year. In the first quarter of 2006, a positive effect of € 15 million from the measurement of conversion options from the convertible bond issued in 2003 had been included. Adjusted for this special one-off effect, earnings declined by 43.5% or € 10 million year-on-year. This was mainly due to the divestment of Wolf GmbH in the fourth quarter of 2006 and the resulting drop in earnings, as well as the income from a divestment transaction in the real estate area (Schacht Konrad) included in earnings for the first quarter of 2006. On the other hand, in the first quarter 2007, there were increased profit contributions from the measurement of derivatives. So positive earnings were achieved in central operations.

In the 2007 financial year, the TUI Group no longer comprises any discontinuing operations. In the previous year's relevant quarter, there were earnings of € 20 million from current business activities and lagging income of € 5 million from divestments made in previous years.

Underlying EBITA by divisions: Group

€ million	Q1 2007	Q1 2006	Var. %
EBITA by divisions	**- 83**	**- 45**	**- 84.4**
Gains on disposals	*- 196*	*- 149*	
Restructuring expenses	*+ 2*	*+ 40*	
Other one-off items	*+ 10*	*+ 18*	
Revaluation of conversion options	*–*	*- 15*	
Underlying EBITA by divisions	**- 267**	**- 151**	**- 76.8**

In the first quarter of 2007, total earnings by the TUI Group declined by 84.4% to € - 83 million (previous year: € - 45 million). Adjusted for one-off special effects, earnings totalled € - 267 million (previous year: € - 151 million).

Development of the divisions: Tourism

Tourism – Key figures

€ million	Q1 2007	Q1 2006	Var. %
Turnover	2,589.5	2,510.6	+ 3.1
EBITA by division	**- 237**	**- 83**	**- 185.5**
Gains on disposals	*–*	*- 144*	
Restructuring expenses	*+ 2*	*–*	
Other one-off items	*+ 8*	*+ 11*	
Underlying EBITA by division	**- 227**	**- 216**	**- 5.1**
Capital expenditure	88.8	196.2	- 54.7
Employees (31 March)	46,994	51,902	- 9.5

At € 2.6 billion, turnover by tourism was 3.1% up year-on-year. The Central Europe sector rose by 8.8%; this was due to the increase in customers. This growth was largely attributable to the seat-only business of TUIfly.com. The Northern Europe sector reported turnover growth of 2.4% and an increase in customer numbers, resulting primarily from the seat-only business of the Thomsonfly airline. The Western Europe sector recorded a 5.2% increase in turnover with stagnating customer numbers. The destinations sector recorded turnover growth of 14.4% in the period under review, while Other tourism reported no more turnover, in particular due to the divestment of the business travel operations in the first quarter of 2006.

Customer numbers Tourism

'000	Q1 2007	Q1 2006	Var. %
Central Europe	1,907	1,707	+ 11.7
Northern Europe	1,283	1,213	+ 5.8
Western Europe	813	814	- 0.1
Total	**4,002**	**3,734**	**+ 7.2**

At € - 237 million, total earnings by the tourism division dropped by 185.5% on the previous year's level. The main reason for the decline in earnings was the one-off income from the divestment of the business travel operations of € 144 million, included in earnings for the first quarter of 2006. Adjusted for the special one-off effects, earnings declined by 5.1% year-on-year.

Central Europe

Central Europe – Key figures

€ million	Q1 2007	Q1 2006	Var. %

Underlying EBITA by division	**- 93**	**- 102**	**+ 8.8**
Capital expenditure	7.5	114.9	- 93.5
Employees (31 March)	9,637	9,722	- 0.9

Turnover and earnings

In the Central Europe sector (Germany, Austria, Switzerland and airline TUIfly.com), the number of customers rose by 11.7% in the first quarter of 2007. Turnover grew by 8.8%. All source markets reported sound growth.

At € - 98 million, earnings by the Central Europe sector rose slightly by 3.9% year-on-year. The overall positive business trend in source market Germany was slightly curbed by additional re-branding and marketing expenses in the course of the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express into the new brand TUIfly.com. The integration resulted in one-off expenses of € 5 million in the first quarter of 2007. Source market Switzerland achieved an increase in earnings in a positive market environment; source market Austria also reported a slight increase in earnings. Adjusted for the one-off expenses incurred in the first quarter 2007, earnings totalled € - 93 million, a 8.8% increase year-on-year.
In the period under review, earnings included income of € 3 million (previous year: € 7 million) from an aircraft sale-and-lease-back transaction.

Customer numbers Central Europe

'000	Q1 2007	Q1 2006	Var. %
Germany	1,806	1,618	+ 11.6
Switzerland	46	38	+ 20.7
Austria	55	51	+ 8.7
Central Europe	**1,907**	**1,707**	**+ 11.7**

Germany

In the first quarter of 2007, the market and competitive environment in Germany showed a positive trend. In total, customer numbers increased by 11.6% year-on-year. This was attributable both to the tour operators of TUI Deutschland and the

seat-only business of TUIfly.com. Demand for long-haul destinations and mainland Spain was very good, while bookings of tours to the Balearic Islands still showed some restraint.

Switzerland

The Swiss tour operator market showed a gratifying trend in the first quarter of 2007. The TUI Suisse tour operators managed to achieve a 20.7% growth in customer numbers. This was largely attributable to the two brands TUI and FlexTravel. 1-2-Fly also managed to continue the positive trend observed in 2006. Vögele was the only company lagging behind to the same extent.

Austria

In Austria, the tour operator market increasingly picked up in the first quarter of 2007. TUI Austria reported 8.7% growth in customer numbers year-on-year. The individual brands contributed to varying extents to this growth, depending on the respective booking season. However, all brands reported overall growth in incoming bookings year-on-year.

Flight operations Central Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q1 2007	Q1 2006	Var. abs.	Q1 2007	Q1 2006	Var. %	Q1 2007	Q1 2006	Var. % points
TUIfly.com	50	49	+ 1	4.2	3.9	+ 6.9	86.1	83.4	+ 2.7

TUIfly.com

The first quarter of 2007 was characterised by the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express. They were integrated into the TUIfly.com brand in January 2007 and have since been operated under a joint flight schedule. For the 2007 summer season, 25 new connections were added to the flight schedule. In the framework of the fleet renewal programme, two new Boeing 737s were operated and one aircraft was decommissioned from the existing fleet so that in net terms one additional aircraft was operated compared with 2006 numbers.

Northern Europe

Employees (31 March)	14,571	16,118	-9.6

Turnover and earnings

In the Northern Europe sector (UK, Ireland, Nordic countries and airlines Thomsonfly [charter and scheduled flights] and TUIfly Nordic), the number of customers rose by 5.8% in the first quarter of 2007 in a difficult market environment. This growth in customer numbers was mainly driven by the increase in Thomsonfly's seat-only business. Turnover grew by 2.4% year-on-year. Source market UK reported a decline in turnover, while in particular the Nordic countries managed to further expand their business volume.

In the first quarter of 2007, earnings by the Northern Europe sector declined by 29.3% year-on-year to € - 119 million. Earnings comprised a one-off expense of € 2 million for a readjustment of air passenger duties which could not be passed on to customers. Adjusted for this effect, earnings declined by 27.2% year-on-year. The British source market failed to meet last year's earnings level due to the difficult market environment; source market Ireland matched 2006 levels. The Nordic countries continued the gratifying trend of 2006 and again increased their profit contribution. In the period under review, earnings included income of € 4 million from an aircraft sale-and-lease-back transaction in the source market UK.

Customer numbers Northern Europe

'000	Q1 2007	Q1 2006	Var. %
UK	992	944	+ 5.1
Ireland	25	25	+ 1.7
Nordic countries	265	244	+ 8.8
Northern Europe	**1,283**	**1,213**	**+ 5.8**

UK

TUI UK's British tour operators operated in a persistently difficult market environment and reported a decline in customer numbers, while Thomsonfly recorded a substantial increase in customer numbers in the seat-only business. Total customer numbers rose by 5.1% year-on-year in the first quarter of 2007. In terms of medium-haul destinations, bookings for the summer season for Greece and Egypt rose while bookings of destinations in Spain declined year-on-year. In the last winter season demand rose for long-haul destinations and picked up again in particular for the destinations affected by hurricane 'Wilma' in 2005. Also, the Cape Verde Islands, a new destination, reported sound demand. The tour operators of the Specialist Holidays Group recorded declines. Skiing tours, for instance, were affected by the warm winter weather and the resulting lack of snow in the winter season.

Ireland

In the first quarter of 2007, Ireland reported a 1.7% increase in customer numbers. The tour operator market was characterised by the persistently difficult market environment. In terms of destinations, Egypt recorded growth in bookings.

Nordic countries

The Nordic countries reported a gratifying performance in the winter season and started off well into the summer season. The number of customers of TUI Nordic's tour operators grew by a total of 8.8% in the first quarter. In the winter season, Thailand recorded particularly good booking levels, while Greece and Cyprus were among the destinations reporting the strongest bookings in the summer season. Spain, in contrast, reported declines in bookings.

Flight operations Northern Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q1 2007	Q1 2006	Var. abs.	Q1 2007	Q1 2006	Var. %	Q1 2007	Q1 2006	Var. % points
Thomsonfly	46	42	+ 4	5.3	5.2	+ 0.9	86.5	85.2	+ 1.3
TUIfly Nordic	6	6	+/- 0	1.7	1.1	+ 50.0	98.4	97.9	+ 0.5

Thomsonfly

In total, Thomsonfly succeeded in increasing their seat load factor year-on-year while at the same time offered seat kilometres increased also. The increase in offer took place in the low-cost scheduled flight segment. The fleet grew by four aircraft.

TUIfly Nordic

The sound customer numbers of tour operators in the Nordic countries and in particular the strong demand for tours to Thailand also affected the number of seat kilometres offered, which rose by 50.0%. The fleet size did not change year-on-year.

Western Europe

Capital expenditure	6.9	28.9	- 76.1
Employees (31 March)	6,779	7,090	- 4.4

Turnover and earnings

In the Western Europe sector (France, the Netherlands, Belgium and airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium), turnover rose by 5.2% with almost unchanged customer numbers. In the Netherlands turnover declined year-on-year. This was attributable to the divestment of the specialist tour operators which was only effected in the second quarter of 2006 so that these operations were still included in the results for the first quarter. In France, turnover grew year-on-year despite a decline in customer numbers. Belgium, too, reported a rise in turnover, which resulted from an increase in customer numbers.

At € - 35 million, earnings by the division matched 2006 levels. They included minor one-off expenses for the restructuring of business in the Corsair airline and an expense related to the renewal of the fleet of Boeing 747s. Earnings in the first quarter of 2006 had included a minor one-off expense for planned personnel measures, incurred by Nouvelles Frontières as well as expenses for Corsair's fleet renewal programme of a total of € 11 million. Adjusted for these one-off effects, operating earnings fell slightly year-on-year by 28.0%.

Customer numbers Western Europe

'000	Q1 2007	Q1 2006	Var. %
France	359	368	- 2.5
Netherlands	193	218	- 11.2
Belgium	260	228	+ 14.3
Western Europe	**813**	**814**	**- 0.1**

France

France recorded a gradual improvement in the situation on the travel market in the first quarter of 2007. Nouvelles Frontières also reported a recovery of its business, although customer numbers were still 2.5% down year-on-year in the first quarter. Bookings of tours to Mauritius, a new destination, were gratifying.

Netherlands

The Dutch travel market was difficult, and the performance of TUI's tour operators matched the market trend in the Netherlands. Customer numbers declined by 11.2% in the first quarter of 2007. Adjusted for the number of customers reported by the specialist tour operators sold in the second quarter of 2006, the decline amounted to 5.9%. Turkey and the Benelux countries reported the strongest declines in bookings, while demand for Egypt and the American continent showed a gratifying trend.

Belgium

In Belgium, the number of tour operator customers grew by 14.3% in the first quarter of 2007. In terms of flight operations, demand for Egypt showed a gratifying trend in the medium-haul segment, while the Caribbean reported strong growth in the long-haul segment. Bookings of self-drive tours and city trips were still somewhat restrained.

Flight operations Western Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q1 2007	Q1 2006	Var. abs.	Q1 2007	Q1 2006	Var. %	Q1 2007	Q1 2006	Var. % points
Corsair	8	9	- 1	4.1	3.8	+ 10.5	85.6	83.9	+ 1.7
TUI Airlines Nederland	3	3	+/- 0	1.0	0.7	+ 41.5	93.0	91.0	+ 2.0
TUI Airlines Belgium	9	7	+ 2	0.9	0.8	+ 6.0	91.0	89.5	+ 1.5

Corsair

Corsair adjusted its fleet size to demand in the French airline market. Although the fleet size was reduced by one aircraft, seat kilometres on offer rose. This was due to the increase in demand for long-haul destinations.

TUI Airlines Nederland/Arkefly

In the period under review, TUI Airlines Nederland operated the same number of aircraft as in the 2006 reference period. Thereby additional capacity for the medium-haul segment was chartered in the first quarter of 2007. This led to an increase in offered seat kilometres.

TUI Airlines Belgium/Jetairfly

TUI Airlines Belgium operated two additional aircraft compared with the 2006 reference period. The seat load factor for the expanded fleet rose slightly year-on-year.

Turnover and earnings

The destinations sector (incoming agencies and hotel companies) generated 14.4% growth in turnover year-on-year in the first quarter of 2007. Incoming agencies matched the previous year's level, while hotel companies generated turnover growth year-on-year.

Earnings by the division rose by 150.0% to € 15 million in the first quarter of 2007. The significant increase in earnings was fully driven by the hotel companies. The RIU Group, in particular, achieved a substantial increase in its profit contribution year-on-year. Earnings by the incoming agencies matched the previous year's level.

Incoming agencies

In the first quarter of 2007, incoming agencies reported a stable business trend. The number of guests catered for was 1.70 million, a 7.2% increase year-on-year. Agencies in the western Mediterranean reported sound guest numbers. TUI España matched 2006 guest numbers; TUI Portugal reported a significant increase in guest numbers, in particular due to activities for guests travelling to the Cape Verde Islands. In the eastern Mediterranean, the TUI Türkiye agency again recorded an increase in guest numbers. In Greece, Bulgaria and Egypt, guest numbers also showed a positive trend in the quarter under review. The long-haul segment showed varying trends. While the Dominican Republic suffered declines in guest numbers, Mexico reported a year-on-year increase.

Hotel companies

Overall occupancy rates in the hotel companies of the Hotels & Resorts segment increased 2006 levels with a slight increase in capacity. In the first quarter, all companies still kept some of their complexes closed for seasonal reasons. RIU hotels reported a slight expansion in capacity and an increase in occupancy rates year-on-year. Hotels in mainland Spain and the Canary Islands, in particular, reported gratifying growth in occupancy rates. Robinson Clubs reduced their capacity minimally and achieved a slight increase in occupancy rates year-on-year. While the Canary Islands recorded declines, the clubs in Turkey and Egypt saw an increase in occupancy rates. Magic Life reduced its capacity substantially and thus achieved an increase in occupancy rates year-on-year. In Egypt, Iberotel slightly increased its capacity and reproduced 2006 occupancy rates. The complexes in Turkey were closed in the first quarter, as were all Grecotel hotels. Grupotel hotels that had been opened reported good bookings and an increase in capacity.

In 2006, the Other tourism sector still comprised the business travel operations and the IT services companies of TUI InfoTec. The divestment of the business travel operations to the Dutch BCD Holdings N.V. was closed on 31 March 2006. In September 2006, a 50.1% majority in TUI InfoTec was sold to the Indian software company Sonata Software Limited. The transaction was completed as at 24 November 2006.

Development of the divisions: Shipping

In the first quarter of 2007, the shipping division comprised the container shipping and cruise businesses of the Hapag-Lloyd Group.

Shipping – Key figures

€ million	Q1 2007	Q1 2006	Var. %
Turnover	1,500.3	1,639.6	- 8.5

Capital expenditure	106.0	111.5	- 4.9
Employees (31 March)	8,484	9,030	- 6.0

The significant weakening of the US dollar against the euro and the decline in freight rates in almost all trade lanes in container shipping caused a drop in turnover of 8.5% in the shipping division in the first quarter of 2007. At around € 1.5 billion and minus 8.8%, the container business accounted for the bulk of turnover by the division. Hapag-Lloyd Kreuzfahrten generated turnover of € 50 million, up 2.9% year-on-year.

Total earnings by the shipping division stood at € 141 million (previous year: € - 25 million), a substantial rise year-on-year. Container shipping contributed € 138 million to these earnings, with Hapag-Lloyd Kreuzfahrten accounting for € 3 million. Adjusted for the one-off income from the divestments made in the first quarter of 2007 and the one-off expenses for the integration of CP Ships, earnings amounted to € - 53 million, the equivalent of a decline in earnings of € 75 million on a like-for-like basis.

Other one-off items	*+ 2*	*+ 7*	
Underlying EBITA by division	**- 56**	**18**	**n. m.**

Functional currency

The operative integration of CP Ships into Hapag-Lloyd caused a strong change in the primary economic environment of the companies in the shipping division. The functional currency was therefore changed from euro to US dollar. In the new integrated Hapag-Lloyd Group, the customer base and the joint transport routes are characterised largely by the US dollar. As of 1 January 2007, the financial statements of the container shipping companies operating in the shipping division were prepared in US dollars.

Reporting structure

In the wake of the operative integration of CP Ships, acquired in October 2005, into Hapag-Lloyd, the freight rates and transport volumes for Hapag-Lloyd and CP Ships have been jointly presented and broken down according to the geographical

structure of the trade lanes since the third quarter of 2006. To this end, CP Ships' key figures were broken down accordingly for 2006 and determined statistically for the reference periods in order to create a basis for comparisons.

Turnover and earnings

Turnover by container shipping declined significantly by 8.8% to around € 1.5 billion in the first quarter of 2007. This was primarily attributable to the weakening of the US dollar against the euro and the drop in freight rates (- 8.2% on average) in almost all trade lanes. The transport volume rose by 9.9% to a total of 1,315 thousand standard containers (TEU) year-on-year.

Earnings rose to € 138 million, up from € - 29 million in the 2006 reference quarter. Earnings comprised the gains on disposal from the divestment of Montreal Gateway Terminals of € 181 million and the divestment of the minority share of Hapag-Lloyd AG in 'Germanischer Lloyd AG' of € 15 million. On the other hand, one-off expenses of € 2 million were incurred for the integration of CP Ships. In the first quarter of 2006, substantial one-off expenses of a total of € 47 million had been incurred in the wake of the integration of CP Ships. Adjusted for special effects, earnings in container shipping totalled € - 56 million in the first quarter of 2007. This corresponded to a decline in earnings of € 74 million year-on-year.

Development of the trade lanes

Transport volumes Hapag-Lloyd (incl. CP Ships)

'000 TEU	Q1 2007	Q1 2006	Var. %
Far East	335	268	+ 25.1
Trans-Pacific	243	222	+ 9.8
Atlantic	370	361	+ 2.4
Latin America	214	196	+ 9.5
Australasia	152	150	+ 1.8
Total	**1,315**	**1,196**	**+ 9.9**

Freight rates Hapag-Lloyd (incl. CP Ships)

US dollar/TEU	Q1 2007	Q1 2006	Var. %
Far East	1,234	1,205	+ 2.4
Trans-Pacific	1,381	1,522	- 9.3
Atlantic	1,466	1,685	- 13.0
Latin America	1,392	1,495	- 6.9
Australasia	1,179	1,282	- 8.0
Ø for all trade lanes	**1,346**	**1,466**	**- 8.2**

In its new integrated structure, Hapag-Lloyd generated growth in transport volume of 9.9% year-on-year in the first quarter. All trade lanes reported growth, although growth rates showed variations. On the other hand, freight rates declined in almost all trade lanes, the sole exception being the Far East trade lane. Average freight rates for all trade lanes declined by 8.2%.

The Far East trade lane recorded a strong increase in transport volumes of 25.1% year-on-year in the first quarter. Transports from Asia to Europe benefited from the strong rise in export volumes from China. The Far East trade lane was the only trade lane reporting an increase in freight rates. Due to successful market stabilisation measures, freight rates rose slightly by 2.4%.

The Trans-Pacific trade lane also recorded sound growth of 9.8% year-on-year. This was also attributable to economic growth in China and the resulting growth in

transport volumes on the routes from Asia to North America. On the other hand, competitive pressure intensified on this route, resulting in a decline in average freight rates of 9.3% in the Trans-Pacific trade lane.

In the Atlantic trade lane, the transport volume grew by 2.4% year-on-year. This was primarily attributable to transports from North America to Europe. Persistent competition in this trade lane caused a further drop in freight rates. Transports from Europe to North America, in particular, saw a decline of 13.0% in freight rates.

In the Latin America trade lane, the transport volume grew by 9.5% year-on-year since transport volumes rose substantially on the routes from Asia to Latin America in the first quarter. Freight rates dropped by 6.9% year-on-year and declined particularly strongly on outbound routes from Europe to Latin America.

In the Australasia trade lane, volume growth slowed down slightly to 1.8% since inner-Asian transports grew more slowly. Average freight rates declined by 8.0% year-on-year. This decline was also attributable to a drop in freight rates in intra-regional transports.

Hapag-Lloyd Kreuzfahrten

Hapag-Lloyd Kreuzfahrten – Key figures

€ million	Q1 2007	Q1 2006	Var. %
Turnover	49.9	48.5	+ 2.9
EBITA by division	**3**	**4**	**- 25.0**
Gains on disposals	–	–	
Restructuring expenses	–	–	
Other one-off items	–	–	
Underlying EBITA by division	**3**	**4**	**- 25.0**

Turnover and earnings

In the first quarter of 2007, Hapag-Lloyd Kreuzfahrten reported an overall positive business trend. New customer groups were gained and the number of customers rose accordingly. Due to the high quality of the product portfolio, average turnover per day continued to rise year-on-year. Total turnover amounted to € 50 million, up 2.9% year-on-year.

Earnings were impacted by a significant increase in oil price-induced operating costs, causing an overall slight decline in earnings.

Business trend

In the first quarter of 2007, Hapag-Lloyd Kreuzfahrten continued to record a positive bookings trend. Passenger numbers rose substantially year-on-year, resulting in a gratifying increase in the load factor on the ships. Booking volumes rose in particular for 'Europa' and 'Hanseatic'. 'Columbus' also achieved an improvement in its load factor and the rates generated.

Consolidated earnings

Turnover

Turnover comprised the turnover of the tourism and shipping divisions and of central operations, which include the holding companies and the Group's real estate companies. In the first quarter of 2007, turnover declined by 2.5% year-on-year to € 4.1 billion. A detailed breakdown of turnover and the turnover trend is presented in the section 'Turnover and earnings'.

Other income

Other income primarily comprised profits from the sale of fixed and current asset items, supplementary transactions, foreign exchange gains, income from cost reimbursements and income from letting and leasing contracts as well as license agreements. At € 326 million, other income increased by 5.9% year-on-year in the first quarter of 2007.

Changes in inventories and other own work capitalised

Changes in inventories and other own work capitalised declined year-on-year to € 2 million for the first quarter of 2007, primarily due to the real estate companies operating in other operating areas.

Cost of material and purchased services

The cost of material and purchased services comprised the cost of raw materials including fuel, supplies, purchased merchandise and services. In tourism, this item mainly related to the cost of third-party services such as rental and operating lease payments, hotel rental payments, the cost of flight and other transport services as well as aircraft fuel. In the shipping division, the cost of purchased services primarily included the cost of third-party container transport, bunker costs, port and terminal costs as well as charter, rental and operating lease costs for ships and containers. The cost of material and purchased services rose slightly by 2.6% to € 3.3 billion, mainly due to an increase in shipping system costs in the shipping division.

Personnel costs

Personnel costs included expenses for wages and salaries, social security contributions as well as pension costs (excluding the interest portion) and benefits. They also included expenses for personnel adjustments in the framework of restructuring processes. Personnel costs declined by 12.2% to € 539 million. This was primarily attributable to the first savings effects achieved in the wake of the ongoing restructuring programmes in tourism and shipping as well as the reduction in personnel costs due to the divestments made in the 2006 financial year.

Depreciation and amortisation

Depreciation and amortisation comprised the depreciation of property, plant and equipment and amortisation of other intangible assets. At € 157 million, it was 7.4% down year-on-year in the first quarter of 2007. This was mainly due to the divestments (Wolf GmbH, TUI InfoTec, TQ3) made in the 2006 financial year, which resulted in a corresponding reduction in depreciation and amortisation.

Other expenses

Other expenses included commissions for tourism services, distribution and advertising expenses, rental and lease expenses, administrative expenses including contributions, charges and fees, expenses for financial and monetary transactions as well as other taxes. Other expenses dropped by 11.0% to € 560 million in the first quarter of 2007.

Financial result

The financial result comprised the net interest result, the net result from investments and marketable securities and the result from changes in the fair value of derivative financial instruments, which are subject to strong fluctuations as at the measurement dates and may therefore cause strong fluctuations in financial income and expenses over time. At € - 33 million, the financial result matched the previous year's level in the first quarter of 2007 and comprised financial income of € 63 million (previous year: € 70 million) as well as financial expenses of € 96 million (previous year: € 105 million).

Result from companies measured at equity

The result from companies measured at equity comprised the proportion of net profit for the year of the associated companies and joint ventures as well as any impairments of goodwill for these companies. At € 7 million for the first quarter of 2007, it grew by 42.0%. It mainly resulted from the development of earnings in the destinations sector. Impairments of goodwill were not required.

Income taxes

Income taxes comprised taxes on the profits from ordinary business activities of the continuing operations and totalled € - 34 million in the first quarter of 2007 (previous year: € - 20 million).

Result from discontinuing operations

In the first quarter of 2007, the TUI Group no longer conducted any activities to be classified as any discontinuing operations and therefore did not generate any earnings from discontinuing operations. In the 2006 reference period, earnings from discontinuing operations had accounted for € 18 million. A detailed breakdown of the development of these earnings is provided in the section 'Result from discontinuing operations' in the notes.

Group profit

Group profit totalled € - 106 million (previous year: € - 91 million) in the first quarter of 2007, down 16.4%. This decline was mainly due to the absence of profit contributions by discontinuing operations.

Minority interests

Minority interests in Group profit totalled € 11 million for the first quarter of 2007. They exclusively related to companies in the destinations sector.

Earnings per share

After deduction of minority shares, TUI AG shareholders accounted for € - 117.2 million of Group profit in the first quarter of 2007, a decline of 25.1% year-on-year. As a result, basic earnings per share declined to € - 0.47 (previous year: € - 0.38) in the first quarter.

[1] on property, plant and equipment as well as intangible assets, financial and other assets

Operating rental expenses

In the first quarter of 2007, operating lease expenses of the continuing operations amounted to € 297 million (previous year: € 274 million).

Interest result

In the first quarter of 2007, the interest result of the continuing operations totalled € - 57 million (previous year: € - 59 million).

Net assets and financial position

The Group's balance sheet total rose by 4.3% to € 13.6 billion as against the end of 2006. The changes in the consolidated balance sheet essentially resulted from the tourism cycle. The Group's net assets and financial position were additionally affected by the acquisitions and divestments (see section 'Acquisitions – divestments' in the notes).

Assets and liabilities

€ million	31 Mar 2007	31 Dec 2006
Non-current assets	10,046.9	10,141.2
Current assets	3,530.0	2,872.8
Assets	**13,576.9**	**13,014.0**
Equity	3,032.0	3,010.3
Provisions	2,241.9	2,421.4
Financial liabilities	3,992.1	3,899.6
Other liabilities	4,310.9	3,682.7
Liabilities	**13,576.9**	**13,014.0**

Non-current assets

As at 31 March 2007, non-current assets accounted for 74.0% of total assets, compared with a proportion of 77.9% as at 31 December 2006. Non-current assets declined from € 10.1 billion to € 10.0 billion in the period under review. The decline was mainly attributable to the drop in deferred income tax assets.

Current assets

As at 31 March 2007, current assets accounted for 26.0% of total assets, up from 22.1% as at 31 December 2006. Current assets rose from € 2.9 billion as at 31 December 2006 to € 3.5 billion as at 31 March 2007. This change primarily resulted from the increase in trade accounts receivable in the tourism business and the increase in cash and cash equivalents.

Equity

Equity totalled € 3.0 billion as at 31 March 2007. The equity ratio stood at 22.3%, compared with 23.1% at the end of the 2006 financial year. Detailed information on the changes is provided under 'Changes in equity' in the notes on this interim report.

Provisions

Provisions mainly included provisions for pension obligations, effective and deferred income tax provisions and provisions for typical operating risks. As at 31 March 2007, they totalled € 2.2 billion and were thus € 180 million or 7.4% down on 31 December 2006. This was essentially due to a reduction in pension provisions, resulting from a change in the UK discount rate for pension provisions caused by the substantial rise in the long-term market interest rate as at the closing date.

Financial liabilities

As at 31 March 2007, financial liabilities comprised non-current financial liabilities of € 3.5 billion and current financial liabilities of € 0.5 billion. As at 31 December 2006, non-current financial liabilities stood at € 3.5 billion, with current financial liabilities of € 0.4 billion. Since non-current financing schemes were hedged, the allocation of assets according to maturity did not result in any major changes. At the end of the first quarter of the 2007 financial year, net debt amounted to € 3.0 billion (down from € 3.2 billion at the end of the 2006 financial year).

Other liabilities

As at 31 March 2007, other liabilities totalled € 4.3 billion, up € 628 million or 17.1% as against 31 December 2006. This was mainly due to the increase in advance payments received in the tourism business.

Prospects

For the 2007 financial year, economists expect a convergence of economic momentum in the industrialised countries. In the eurozone, the economic up-swing will show a moderate pace, while the expansion will gradually lose steam in Japan. In the US, in contrast, it is expected to slowly gather steam again as of mid-2007. The world economy will again be boosted by the strong growth momentum in the emerging economies and the high-growth regions of China and India.

Against the backdrop of the macroeconomic development, overall growth in demand on the travel market is expected to persist, with growth showing varying levels of momentum in individual source markets. In individual trade lanes in shipping, a temporary imbalance of supply and demand currently still has an adverse effect on the development of freight rates. In the framework of the stable growth in world trade, a recovery of freight rates is expected for the second half of 2007.

Tourism

Bookings for the 2006/2007 winter season, which ended in April, closed at growth of 8.5% in customer numbers and 4.9% in booked turnover at Group level. Overall, bookings for the 2007 summer season have started off well. At Group level, bookings are currently up 6.9% year-on-year in terms of customer numbers and 3.6% in terms of booked turnover, with variations in the individual sectors: The Central Europe sector with the large source market Germany recorded a significant increase in bookings. The Western Europe sector, too, reported growth in booked turnover and customer numbers. The first recovery trends are emerging for source market France, which went through a difficult financial year 2006. In the Northern Europe sector, the current bookings situation reflects the difficult market environment in source markets UK and Ireland. Booked turnover falls short of the relevant comparative figures for 2006. The Nordic countries, in contrast, report a positive trend.

Booking numbers

Year-on-year variation in %	Winter 2006/2007 Turnover	Winter 2006/2007 Customers	Summer 2007 Turnover	Summer 2007 Customers
Germany	+ 3.5	+ 7.8	+ 5.6	+ 10.1
Switzerland	+ 20.5	+ 20.1	+ 20.7	+ 13.3
Austria	+ 8.3	+ 2.3	+ 5.3	+ 2.5
Eastern Europe	+ 15.0	+ 9.3	+ 33.2	+ 28.1
Central Europe	+ 4.7	+ 7.9	+ 6.7	+ 9.8
UK	- 3.2	+ 10.7	- 6.8	+ 1.9
Ireland	+ 4.8	- 2.0	- 5.1	- 8.4
Nordic countries	+ 24.4	+ 8.4	+ 9.0	+ 6.5
Northern Europe	+ 3.5	+ 10.0	- 4.2	+ 2.0
France	+ 3.8	+ 6.1	+ 4.6	+ 1.4
Netherlands	+ 12.2	+ 1.8	+ 17.8	+ 13.3
Belgium	+ 14.7	+ 14.1	+ 8.5	+ 7.3
Western Europe	+ 8.1	+ 7.3	+ 9.8	+ 7.1
Group	+ 4.9	+ 8.5	+ 3.6	+ 6.9

As at 27 April 2007

Concerning the development of earnings (adjusted earnings before interest, taxes and amortisation of goodwill – underlying EBITA by division), an uneven trend is emerging in the 2007 financial year: The development of earnings in the Central Europe sector is positive in the tour operator segment. Earnings are affected by start-up expenses incurred in the wake of the realignment of flight operations under the new brand TUIfly.com. Earnings by the Northern Europe sector will be impacted by the difficult market environment in the UK and Ireland in comparison

with 2006. The Nordic countries, however, will see a continuation of the positive trend of 2006. Overall, the Northern Europe sector will fall slightly short of the previous year's very good performance. In the framework of the visible recovery of the French market, earnings by the Western Europe sector are expected to show overall improvements. Earnings by the destinations sector are expected to rise, largely due to the hotel companies.

Shipping

In the shipping division, the current development of earnings is primarily characterised by the year-on-year decline in freight rate levels in almost all trade lanes. For the overall assessment of the container shipping market, the first quarter of 2007 is expected to represent the bottom of the industry cycle. Initial recovery trends are expected for the second quarter of 2007. As a result, positive operating profit contributions are expected for the second half of 2007. The overall development of the shipping division will depend on the further development of the external cost components for land-based transport and shipping bunker costs.

Despite the currently positive volume trend in container shipping, turnover is impacted by the low freight rate level. The expected recovery of freight rate levels in the course of the year is expected to go hand in hand with a corresponding increase in turnover.

Central operations

From today's perspective, central operations will fall slightly short of the previous year's level due to the income from the real estate sector included in 2006 earnings.

Group

Overall, the TUI Group's continuing operations (tourism, shipping and central operations) are expected to show a slight increase in turnover. From today's perspective, a final assessment of the development of consolidated earnings is not possible, partly due to the planned merger of TUI AG's tourism division – excluding the hotel companies operating under TUI Hotels & Resorts – with the British travel group First Choice Holidays PLC.

Corporate Governance

The composition of the Executive Board and Supervisory Board of TUI AG did not change in the course of the first quarter of 2007.

The current, complete composition of the Executive Board and Supervisory Board is presented on the Company's website (www.tui-group.com), where it is accessible to the general public.

Notes

Accounting principles

The Group's interim financial statements as at 31 March 2007 were prepared in a condensed form compared with the consolidated annual financial statements in accordance with IAS 34 'Interim Financial Reporting'. The only deviation from the historical cost principle was the accounting method applied in measuring financial instruments.

As of the beginning of the 2007 financial year, the following statutory standards revised or newly issued by the IASB were applicable: IAS 1 – Presentation of Financial Statements (amendment concerning capital disclosures) and IFRS 7 – Financial Investments: Disclosures. These newly applicable standards comprise provisions on disclosures to be provided in the notes on consolidated financial statements. The application of these standards therefore did not have any effects on financial reporting in the framework of the interim financial statements for the 2007 financial year.

The interim financial statements as at 31 March 2007 were prepared in accordance with the same accounting and measurement principles as those applied in the preceding consolidated financial statements as at 31 December 2006.

Since the purchase price allocation for the acquisition of the CP Ships Group was finalised in the 2006 financial year, depreciation and amortisation for the first quarter of 2006 declined by € 0.3 million. Taking account of the tax effect, earnings from continuing operations rose by € 0.4 million. The previous year's figures were restated accordingly. The restatements of the original purchase price allocations are outlined in detail in the notes on the consolidated financial statements as at 31 December 2006.

Since the integration of the business operations of the CP Ships Group into the Hapag-Lloyd Group has largely been completed, the joint transport routes and the customer base in container shipping are no longer primarily characterised by the euro but by US dollars. The primary economic environment for container shipping operations, i.e. the key environment within which cash and cash equivalents are received and spent, therefore changed to the US dollar region. As of 1 January 2007, the US dollar therefore had to be used as the functional currency of the operative container shipping companies in accordance with IAS 21.35.

Group of consolidated companies

The consolidated financial statements included all major subsidiaries in which TUI AG was able to directly or indirectly govern the financial or operating policies such that the Group obtained benefits from the activities of these companies.

The interim financial statements as at 31 March 2007 included a total of 39 domestic and 333 foreign subsidiaries, besides TUI AG.

Since 31 December 2006, two companies were newly included in the group of consolidated companies due to an expansion of their business activities. One of the companies newly added related to the tourism division, while the other one related to the shipping division.

Since 31 December 2006, a total of 17 companies were removed from consolidation. Sixteen companies related to the shipping division, with most of them deconsolidated due to the liquidation of these companies (15 companies). One company was deconsolidated due to the divestment of 50% of the corresponding shares by the shipping division. One company related to the tourism division; it was removed from consolidation due to a merger.

Acquisitions – Divestments

With purchase contract dated 31 January 2007, the TUI Deutschland GmbH tour operator acquired the remaining 25%, in addition to the 75% already held, of the capital stock of E.V.S. Beteiligungsgesellschaft mbH, Rengsdorf, a company already included in the TUI Group's group of consolidated companies, at a purchase price of € 19.1 million.

With effect from 5 January 2007, the minority share in Germanischer Lloyd AG held by Hapag-Lloyd AG was sold at a purchase price of € 15.1 million. As at the end of the 2006 financial year, this minority share was classified as a non-current asset held for sale in accordance with IFRS 5. The corresponding asset was therefore shown in a separate balance sheet item as at 31 December 2006.

On 21 February 2007, CP Ships Limited concluded an agreement on the sale of the material assets and liabilities of Montreal Gateway Terminals to Montreal Gateway Terminals Limited Partnership, a company set up by Morgan Stanley Infrastructures Partners for this purpose. The agreements took effect as of 9 March 2007. Montreal Gateway Terminals were part of the business of CP Ships, the container shipping line acquired in 2005.

Until 9 March of the current financial year, Montreal Gateway Terminals generated turnover of € 17.1 million and earnings after taxes of € 1.4 million. In the first quarter of 2006, turnover had totalled € 25.8 million with earnings of € 9.9 million.

The container terminal business was acquired by Montreal Gateway Terminals Limited Partnership at a price of € 324,6 million in the form of an asset deal. The purchase price was largely paid in cash, with the remainder paid in the form of a transfer of an interest of around 20% in the new company. This interest was included in the framework of at equity measurement by the TUI Group. After deduction of the selling expenses of € 1.3 million, the divestment generated overall positive earnings before taxes of € 180.7 million in the shipping division in the first quarter of the 2007 financial year.

Since the sales negotiations became increasingly specific, the material assets and liabilities of Montreal Gateway Terminals were classified as a disposal group in accordance with IFRS 5 as at the end of the 2006 financial year and were therefore shown in separate balance sheet items as at 31 December 2006.

Discontinuing operations

With the divestment of the US steel service companies of Preussag North America Inc. to financial investor Platinum Equity in May 2006 and the divestment of the majority interest in Wolf GmbH, a company in the heating and air conditioning sector, to Centrotec Sustainable AG, the TUI Group sold its last remaining industrial interests.

As a result, the TUI Group now comprises the two core businesses tourism and shipping.

Currently, there are no discontinuing operations. The tables shown below provide an overview of the development of discontinuing operations in the 2006 reference period.

Result from discontinuing operations

Besides the operating income and expenses of these operations, the 2006 result from discontinuing operations also included effects of the deconsolidation of companies already divested in these sectors.

Notes on the consolidated profit and loss statement

The year-on-year development of the consolidated profit and loss statement was essentially characterised by changes in the group of consolidated companies. In the first quarter of 2006, the business travel operations of the TQ3 Group, the US steel service companies of the PNA Group, the specialist travel activities of TUI Nederland, the shareholding in Wolf GmbH (heating and air conditioning technology) as well as TUI InfoTec Group (IT services) were fully included in consolidation. These companies were divested in the course of the 2006 financial year and were therefore not fully consolidated in the current period under review. Moreover, the Explorers Travel Club Group was only to be included in the TUI Group's group of consolidated companies as of the third quarter of the 2006 financial year. As a result, a year-on-year comparison of the first quarter of the current financial year with the comparative period in 2006 is of limited use only.

In the course of the 2006 financial year, the operative business of the CP Ships Group, acquired in 2005, was almost fully integrated into the Hapag-Lloyd Group. In the first quarter of 2006, restructuring expenses had totalled around € 40 million, while in the first quarter 2007 the shipping division generated total book profits of € 195.8 million from the divestment of its minority interest in Germanischer Lloyd AG and the material assets and liabilities of Montreal Gateway Terminals.

Overall, operating earnings in the shipping division declined mainly due to the drop in freight rates in almost all trade lanes.

The development of earnings by the tourism division in the first quarter of 2006 was mainly determined by income of € 143.9 million generated from the divestment of the TQ3 Group (Other tourism sector).

Even adjusted for the special one-off effects of the 2006 reference period, earnings by the tourism division declined year-on-year, with an overall increase in turnover.

This was in particular attributable to the persistently difficult market environment in the Northern Europe sector. The Scandinavian source markets increased both their turnover and earnings year-on-year. The UK posted income of € 3.5 million from an aircraft sale-and-lease-back agreement. However, this sector was particularly strongly affected by the difficult market environment, reflected by a decline both in turnover and earnings.

On the other hand, turnover rose substantially in some of the Central and Western Europe source markets. In addition, income of € 3.4 million from an aircraft sale-and-lease-back agreement was generated in source market Central Europe in the first quarter of 2007. On the other hand, expenses were incurred in connection with the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express to create the new master brand TUIfly.com. However, net earnings in source market Central Europe rose slightly year-on-year. Earnings by source market Western Europe matched 2006 levels but showed regional variations.

The destinations sector achieved a substantial increase in its earnings year-on-year, mainly due to the positive operative development of the hotel companies.

In 2006, earnings of other operative companies were characterised by one-off income of € 40.8 million by the real estate companies from the divestment of

'Schacht Konrad'. Another factor to be taken into account was the fact that Wolf GmbH was no longer included in consolidation in the period under review.

Earnings by the holding companies in 2006 benefited from earnings of € 15.0 million from the fair value measurement of the conversion options of the convertible bond issued in October 2003. Since, with effect from 3 April 2006, TUI AG irrevocably waived its option, to be exercised unilaterally, of being able to deliver cash if a conversion option should be exercised, fair value measurement with an effect on results has no longer applied since 3 April 2006.

Overall, the earnings situation was characterised by the seasonal nature of the tourism business. Due to the business cycles, profit contributions in the tourism division predominantly arise in the second and third quarter of any one year.

In the first quarter of the 2007 financial year, no unusual expenses or income from the divestment of discontinuing operations had to be reported. In the 2006 reference period, unusual income after tax of € 5.3 million had resulted from the payment of previously disputed dividend claims on a company of the Preussag Energie Group.

Notes on the consolidated balance sheet

The changes in the consolidated balance sheet as against 31 December 2006 mainly resulted from the cycle of the tourism business. Both inventories, trade accounts receivable and the corresponding trade accounts payable in the tourism division rose due to the development of the tourism season. Due to the increase in advance payments in tourism, other liabilities as well as liquid funds also rose within that period.

Goodwill rose slightly as against 31 December 2006. This was mainly due to the change in exchange rate parities – in particular against British pounds sterling – of the goodwill carried in the functional currency of the respective subsidiaries.

Assets held for sale and related liabilities

€ million	31 Mar 2007	31 Dec 2006
Non-current assets	4.7	171.4
Assets held for sale	**4.7**	**171.4**
Liabilities related to non-current assets	–	2.1
Liabilities from assets held for sale	**–**	**2.1**

The reduction in assets held for sale and the related liabilities mainly resulted from the divestment of the minority interest in Germanischer Lloyd AG as at 5 January 2007 and the divestment of the material assets and liabilities of Montreal Gateway Terminals as at 9 March 2007. These transactions are outlined in detail in the section 'Acquisitions – divestments'.

As at 31 March 2007, real estate assets and land were carried as non-current assets held for sale in accordance with IFRS 5.

Changes in equity

The TUI Group exercised the option offered by IAS 19 of offsetting actuarial gains and losses against equity with no effect on results when they occur. In this context, provisions for pensions were reduced by € 149.9 million in the period under review, primarily due to the increase in the long-term interest rate level observed

in the UK since the beginning of the year. Taking account of deferred taxes of € 45.8 million to be carried, equity rose accordingly by € 104.1 million with no effect on results.

A further increase in equity resulted from changes in the value of financial instruments used to hedge against exposure to payment flow risks, carried with no effect on results.

On the other hand, Group equity dropped due to the negative consolidated earnings of € 105.8 million.

Equity was further reduced due to changes in the currency translation of financial statements prepared by foreign subsidiaries.

Contingent liabilities

As at 31 March 2007, the TUI Group's contingent liabilities totalled around € 152 million (31 December 2006: around € 214 million). Contingent liabilities were carried at the level of potential availment as at the balance sheet date. They mainly related to remaining guarantees and warranties from the former plant engineering and shipbuilding activities, which serve to settle follow-up projects and were substantially reduced in the first three months of the financial year.

Other financial liabilities

Financial liabilities from operating rental, lease and charter agreements fell slightly at the end of the first quarter to € 4.3 billion from € 4.5 billion as at 31 December 2006. The fair value decreased accordingly from € 3.8 billion to € 3.7 billion.

The remaining other financial liabilities dropped to € 5.6 billion as at the end of the first quarter of 2007, down from € 6.1 billion as at the end of the 2006 financial year. At € 4.9 billion, the fair value declined year-on-year from € 5.3 billion. While order commitments for tourism services declined slightly by € 0.1 billion to € 2.2 billion, order commitments for investments fell by € 0.3 billion to € 2.8 billion.

Notes on the cash flow statement

In the period under review, cash and cash equivalents rose by € 254.1 million to € 942.8 million.

At € 204.0 million, the inflow of cash from operating activities dropped slightly by € 32.6 million year-on-year. This was mainly attributable to the earnings situation in the shipping division.

The inflow of cash from investing activities totalled € 18.9 million (previous year: inflow of € 26.1 million) in the current financial year. The inflow of cash in the current financial year was mainly attributable to the divestment of the material assets and liabilities of Montreal Gateway Terminals and the minority interest in Germanischer Lloyd AG. On the other hand, payments were made for capital expenditure in property, plant and equipment as well as investments – mainly for one container ship and hotel complexes as well as the acquisition of the remaining shares in E.V.S. Beteiligungsgesellschaft mbH.

The inflow of cash from financing activities totalled € 24.6 million, compared with an outflow of cash from financing activities of € 20.4 million in the 2006 reference period.

Cash and cash equivalents increased by € 6.6 million due to changes in exchange rates and changes in the group of consolidated companies.

Statements of changes in equity

Summary statement of changes in equity from 1 January to 31 March 2007

TUI
Aktiengesellschaft

Brief profile.

TUI is a group operating internationally, which since 2005 has focused on the two growth segments of tourism and shipping. In both segments TUI holds a leading market position: the TUI Group is Europe's number one tourism company and ranks among the world's largest container shipping lines. It is positioned to benefit from both

Consequently, TUI is well placed to benefit from the substantial worldwide growth potential that exists in both the tourism and container shipping markets. In determining its objectives, the Group is guided strongly by the requirements of people and groups in a position to influence the key markets in which it operates. These include not only customers, but also investors, business partners, employees and the general public.

→

Tourism

TUI is a one-stop shop for holiday tours and has established itself as Europe's market leader in the high-growth tourism sector. Whether for modular web-based bookings or package tours, the Group's tourism division covers the entire travel chain – from bookings over organisation to flight and accommodation – in more than 70 holiday countries.

Its portfolio comprises around 3,200 Group-owned travel agencies, 70 tour operation brands, 120 aircraft, 35 agencies and 279 hotels with a capacity of around 165,000 beds in the destinations.

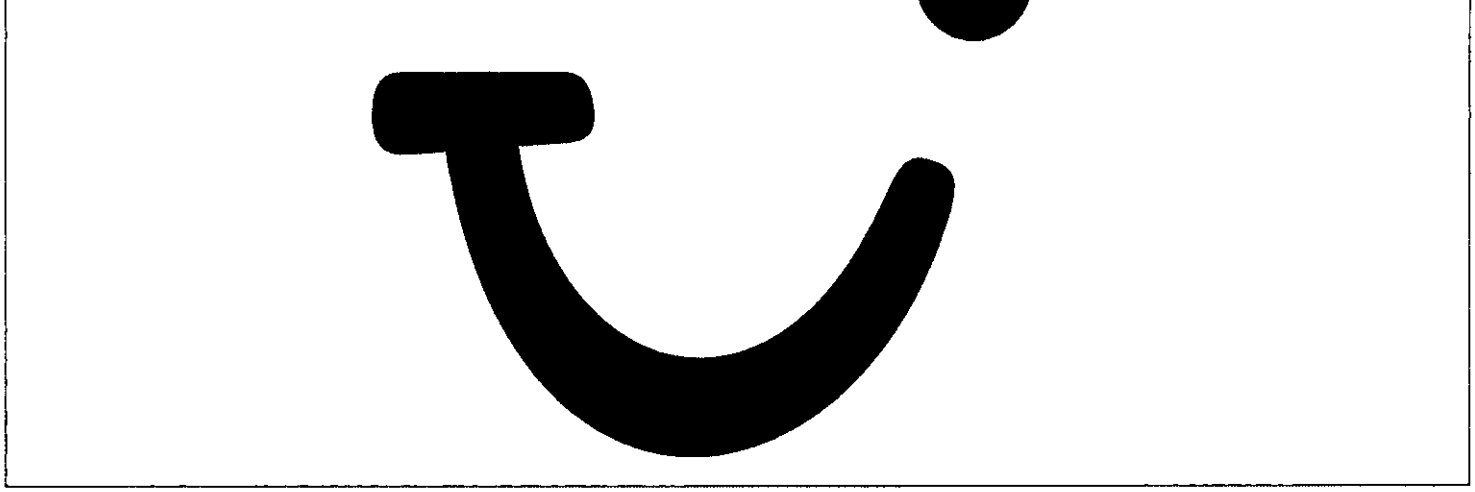
✈ Corsair, TUI Airlines Nederland, TUI Airlines Belgium
Destinations: Incoming agencies, Hotel companies
Other Tourism: Business travel, IT Services

Shipping

TUI's shipping operations are pooled in Hapag-Lloyd. With 138 container ships and comprehensive logistics services, Hapag-Lloyd is one of the world's top five container lines in the growth market of container shipping. Besides the Far East, the Trans-Pacific and the Atlantic, this globally operating container line also operates in trade lanes Latin America and Australasia.



The second pillar of the shipping division is the premium and luxury cruise segment focusing on lifestyle and expedition cruises on all the world's seas. With cruise vessels such as 'Europa' Hapag-Lloyd has established itself as a leading provider in German-speaking countries.

Letter to our Shareholders

Dear Shareholders,

in the 2006 financial year, the tourism division was able to increase its operating earnings in spite of difficult conditions in some markets. However, cost increases and changes in market structures prevented us from meeting our targets for the tourism division, so that some goodwill items were revalued. In container shipping, earnings were impacted by capacity growth and cost increases, accompanied by high one-off costs for the integration of CP Ships. This resulted in a negative group result for the 2006 financial year. The overall result is totally unsatisfactory and does not permit payment of a dividend.

Nevertheless TUI has set out on the right path. The accumulation of negative factors in the 2006 financial year was a unique phenomenon, and we expect to see significant growth in earnings and resume dividend payments again in 2007.

In the tourism division, we continue to be Europe's number one, both in turnover and customer volume terms but also in terms of absolute earnings generated. We hold this leadership position because we are early movers, quickly responding to market trends and adopting a pro-active approach with our own innovative products. Accordingly, as in the three previous years, our earnings growth from tourism operations again outperformed turnover growth in 2006.

We expect this trend to continue in the future. A major step in this direction has been taken with the launch of TUIfly.com. In combining the operations of our previous two German airlines, we are pooling our forces, enlarging our product portfolio and optimising our structures. Moreover, we will expand TUIfly.com into a European distribution platform which may be used to book other travel modules, as well as a comprehensive range of flight connections. This will enhance our presence and relevance for customers in two tourism segments characterised by particularly dynamic growth: low-cost flight operations and modular tours.

Our cruise business is also characterised by strong growth. TUI successfully participates in this trend with clearly positioned products for the German and British markets. In order to achieve a further expansion of our product portfolio, we are buying into the German activities of world market leader Carnival Cruise Corporation, the 'Aida'. We will develop an independent TUI product to attract new customers in the high-volume premium market.

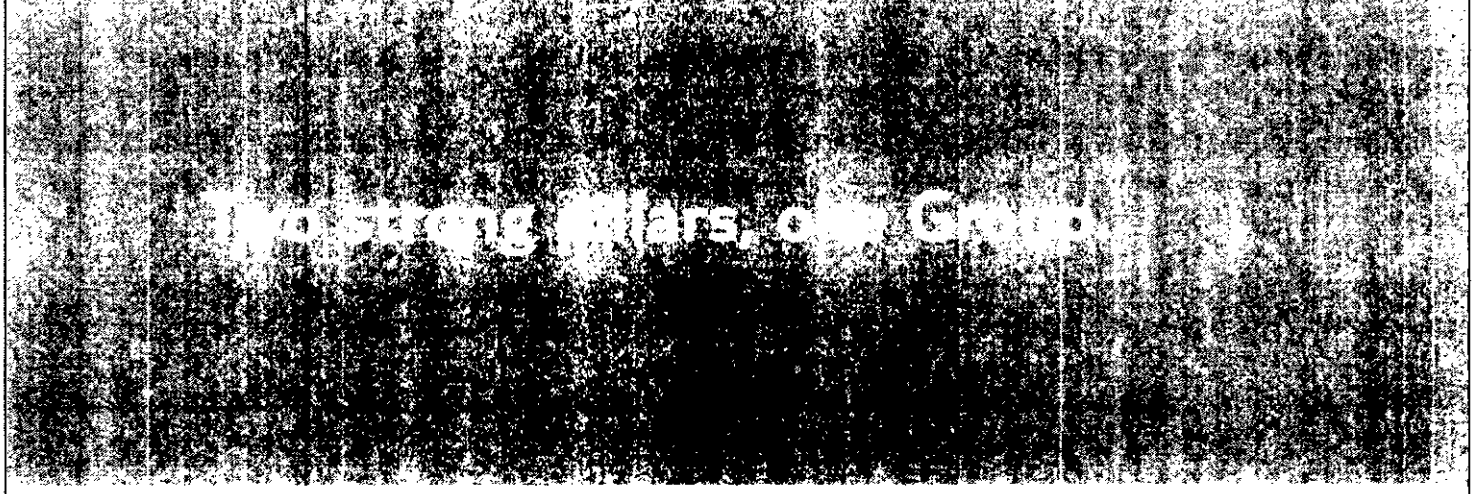
Besides selective activities in the new growth segments, we are also expanding our core business. Organised tours offered by tour operators form the core of our tourism business. Product innovation and product quality secure our competitive edge. Strict control and reduction of production costs ensure the profitability and viability of our products. This is another area in which we took decisions in 2006 and where some of these have already been implemented. Overall, our costs will be reduced by € 250 million by 2008.

Two key factors strongly characterised the business trend in shipping in 2006: cost increases and declining freight rates in the market, and high one-off costs for the integration of the operations of CP Ships into Hapag-Lloyd's organisation. Earnings came under substantial pressure due to the combination of these two factors.

However, the integration process marked an enormous achievement. What is more, it was already completed in 2006, i.e. earlier than originally planned. Our material expectations were also surpassed. Full synergies of € 220 million will be achieved as of 2008: € 40 million more than planned. The one-off integration costs of around € 114 million in 2006 will not recur in 2007. Our position as one of the world's five biggest container lines, together with having the leading productivity per employee in the industry, form the healthy basis for a fast and sustainable improvement of our earnings position in the shipping division.

The Group also achieved structural improvements in 2006, which will have a positive effect in subsequent years. Net debt was reduced by around € 600 million year-on-year.

Overall, the TUI Group forged ahead to boost its earnings power. We will consistently follow this path in 2007. We expect to generate substantial earnings growth thanks to the implementation of our decisions and the absence of one-off costs. This will be required in order to achieve an appropriate return on capital employed. And an appropriate return is imperative for our Group's long-term success, our top-priority.



In order to further enhance our return on invested capital, we will increase our earnings and reduce our invested capital. To this end, we have identified assets of around one billion euros which will be released. We will reduce our invested capital by this amount and thus not only boost our profitability but also further reduce our debt.

In 2006, our employees were highly committed and produced an excellent performance in a difficult environment. We would like to extend a vote of thanks to our employees for their dedication. We are convinced, that we will achieve our future objectives given our strongly motivated workforce.

TUI plays a prominent role in two global growth markets – tourism and shipping. With marketable products, optimised cost structures and employees who are service-oriented and highly committed, we are well positioned to face the challenges of the future. We have set out on the right path with our programmes and initiatives to enhance our profitability. Given this constellation, we are a good choice offering positive prospects to our customers and shareholders alike.

Yours sincerely,

- **Growing**
- **Expanding leadership positions.**
- **Convincing quality.**
- **Steadily increasing efficiency and earnings.**

Challenging tasks.

2006 was an eventful year – and not an easy one for the TUI Group. TUI's strategic goal is to achieve a sustainable increase in corporate value. Although the Group has not yet fully reached this goal, we remain confident in the future, since we can look back on a well positioned, international group of today's large growth markets. TUI is among the leaders. With its strong brands, TUI can exploit the potential available on the markets and customers in general for business.

In **tourism**, we have identified clear growth segments and appropriate strategic initiatives. These will help us to bring change to the tourism market environment while further developing the existing strengths inherent in our business model.

- **Medium-term integration of the TUI Group's European flight operations** under the new brand and ticket code name TUIfly.com as a means of further expanding the low-cost and modular growth markets.
- **Expansion of web-based tour sales** and development of the airline brand TUIfly.com into an online travel platform.
- **Entry into the high-growth premium volume business in the German cruise market** by means of a partnership envisaged with world market leader Carnival Cruises.
- **Further selective expansion of the hotel segment** as an essential step in the tourism value chain, both for the classical package tour market but also the high-growth modular markets.

clear goals.

optimising cost structures

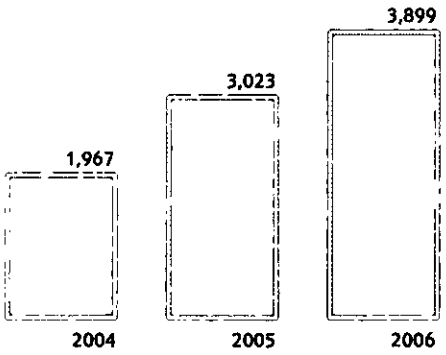
shipping

optimisation of assets

reducing capital tie-up

cost containment programme

improve the efficiency

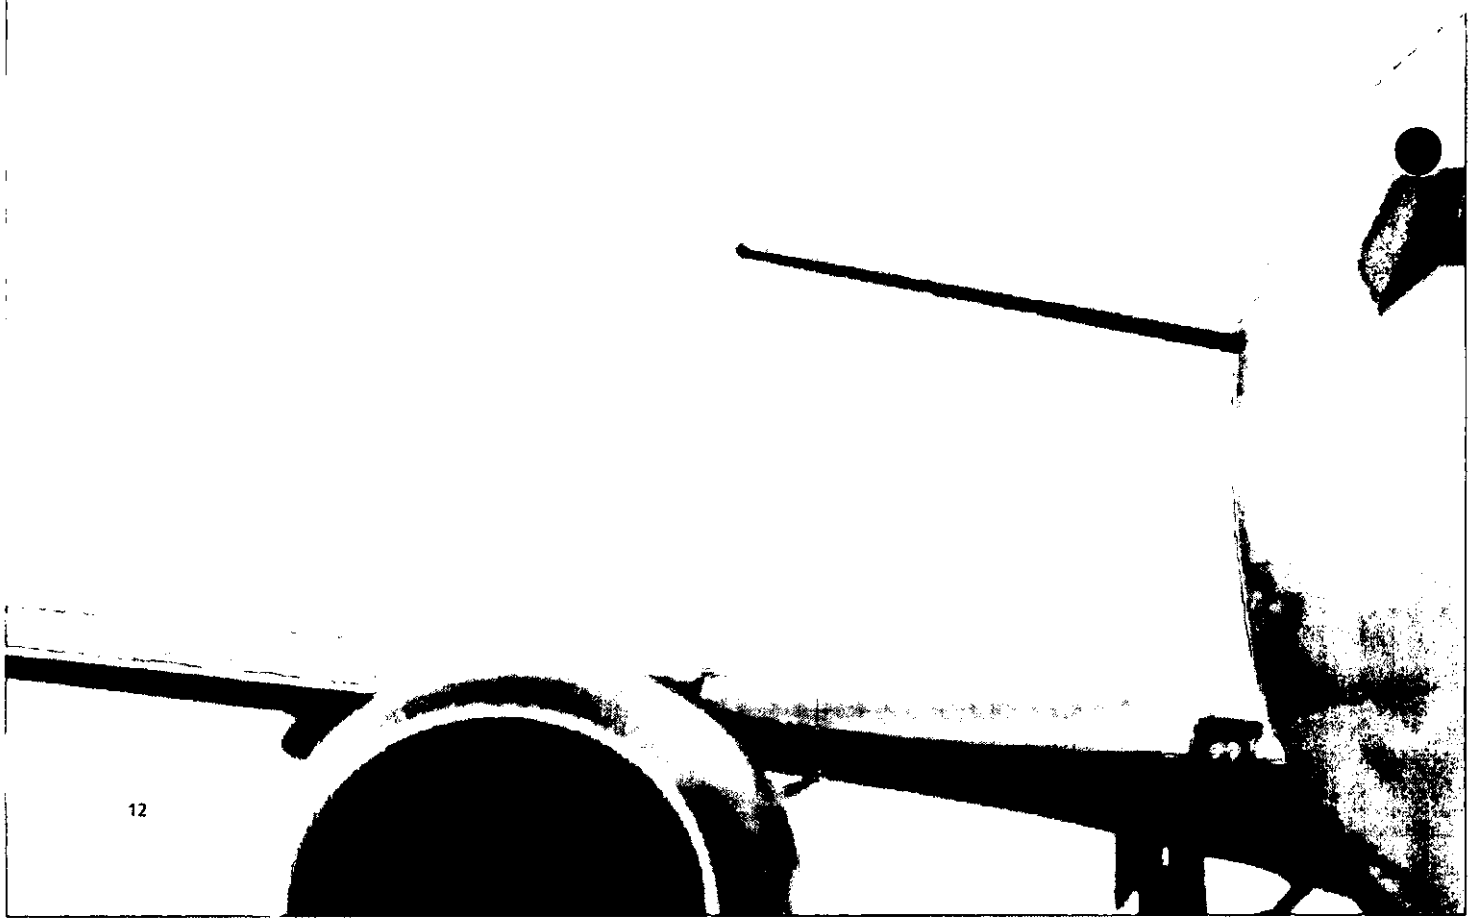


1 access

\+ 9 source markets

= 20 million offerings

The internet is continuing to gain importance as a state-of-the-art sales platform for holiday tours. A new segment with strong growth has emerged – a segment that is modular, speedy, low-cost and accessible 24 hours a day. Today's customers search the web for individual travel modules and combine them at will – a trend that TUI has already successfully utilised over the past few years. Online turnover has increased more than fivefold in the last five years. In Germany the Group is already the no. one online travel company, and in Europe it is number two. Looking to the future, TUI has a clear objective: over the next three years, in all source markets we want to achieve an average growth rate of around 50 per cent in our online business.



*) million

11.1 million passengers

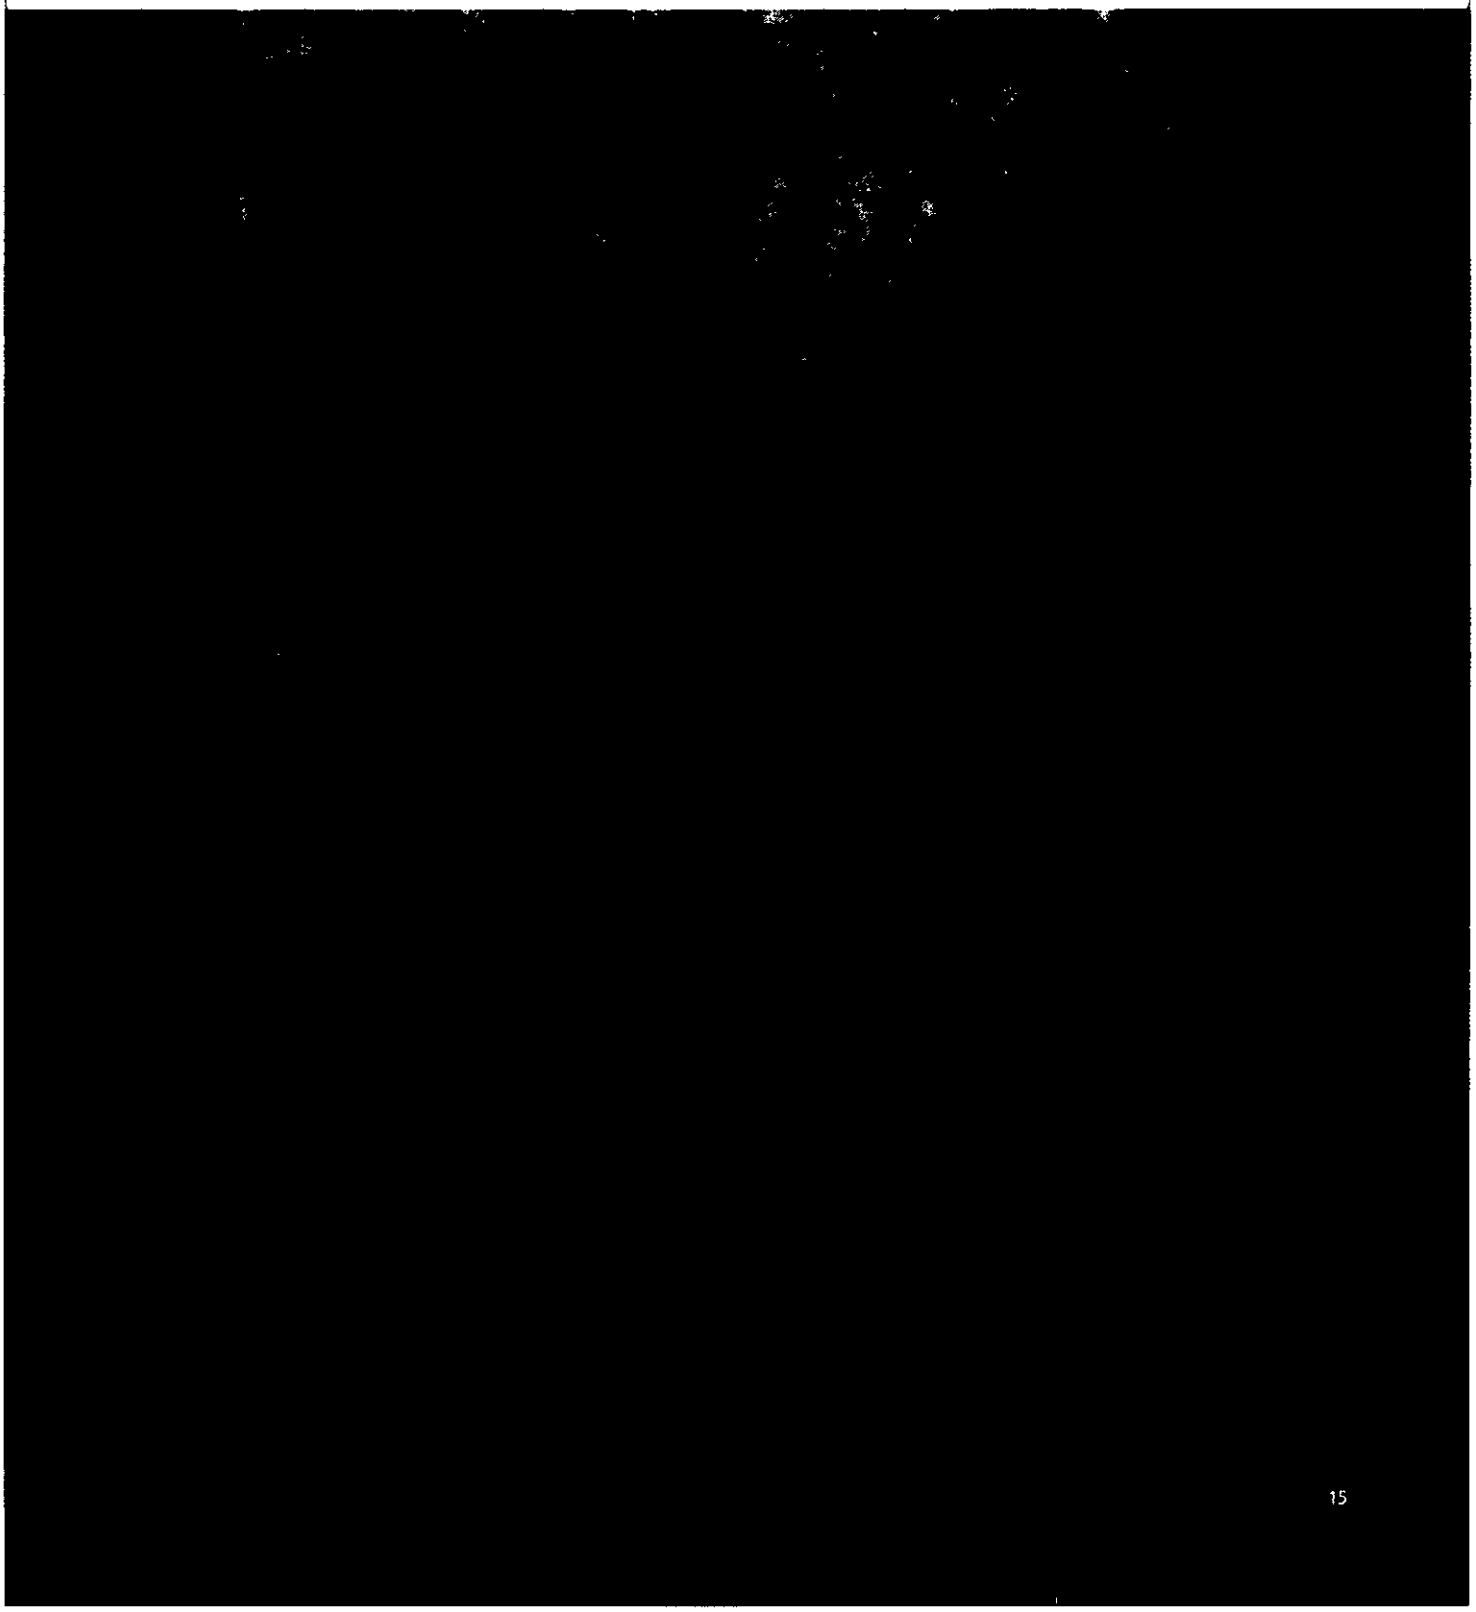
\+ 2,200 employees

\+ 50 aircraft

= 1 airline

A large proportion of the growth in the modular travel market is generated on airline websites. Customers begin their holiday planning by booking their flights. Flights are therefore one of the keys to customer contact for TUI. With its strong presence on the web, TUIfly.com opens the door to TUI's wide range of tourism services. TUIfly.com combines the German TUI airlines under a single brand and in the future will integrate all the other TUI airlines into a joint European network. This concentration offers a large number of efficiency benefits.

279 hotels

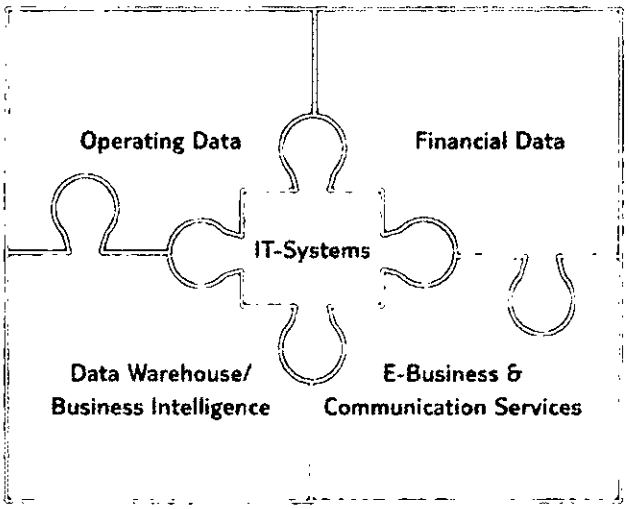


\+ 600 swimming pools

\+ 165,000 beds

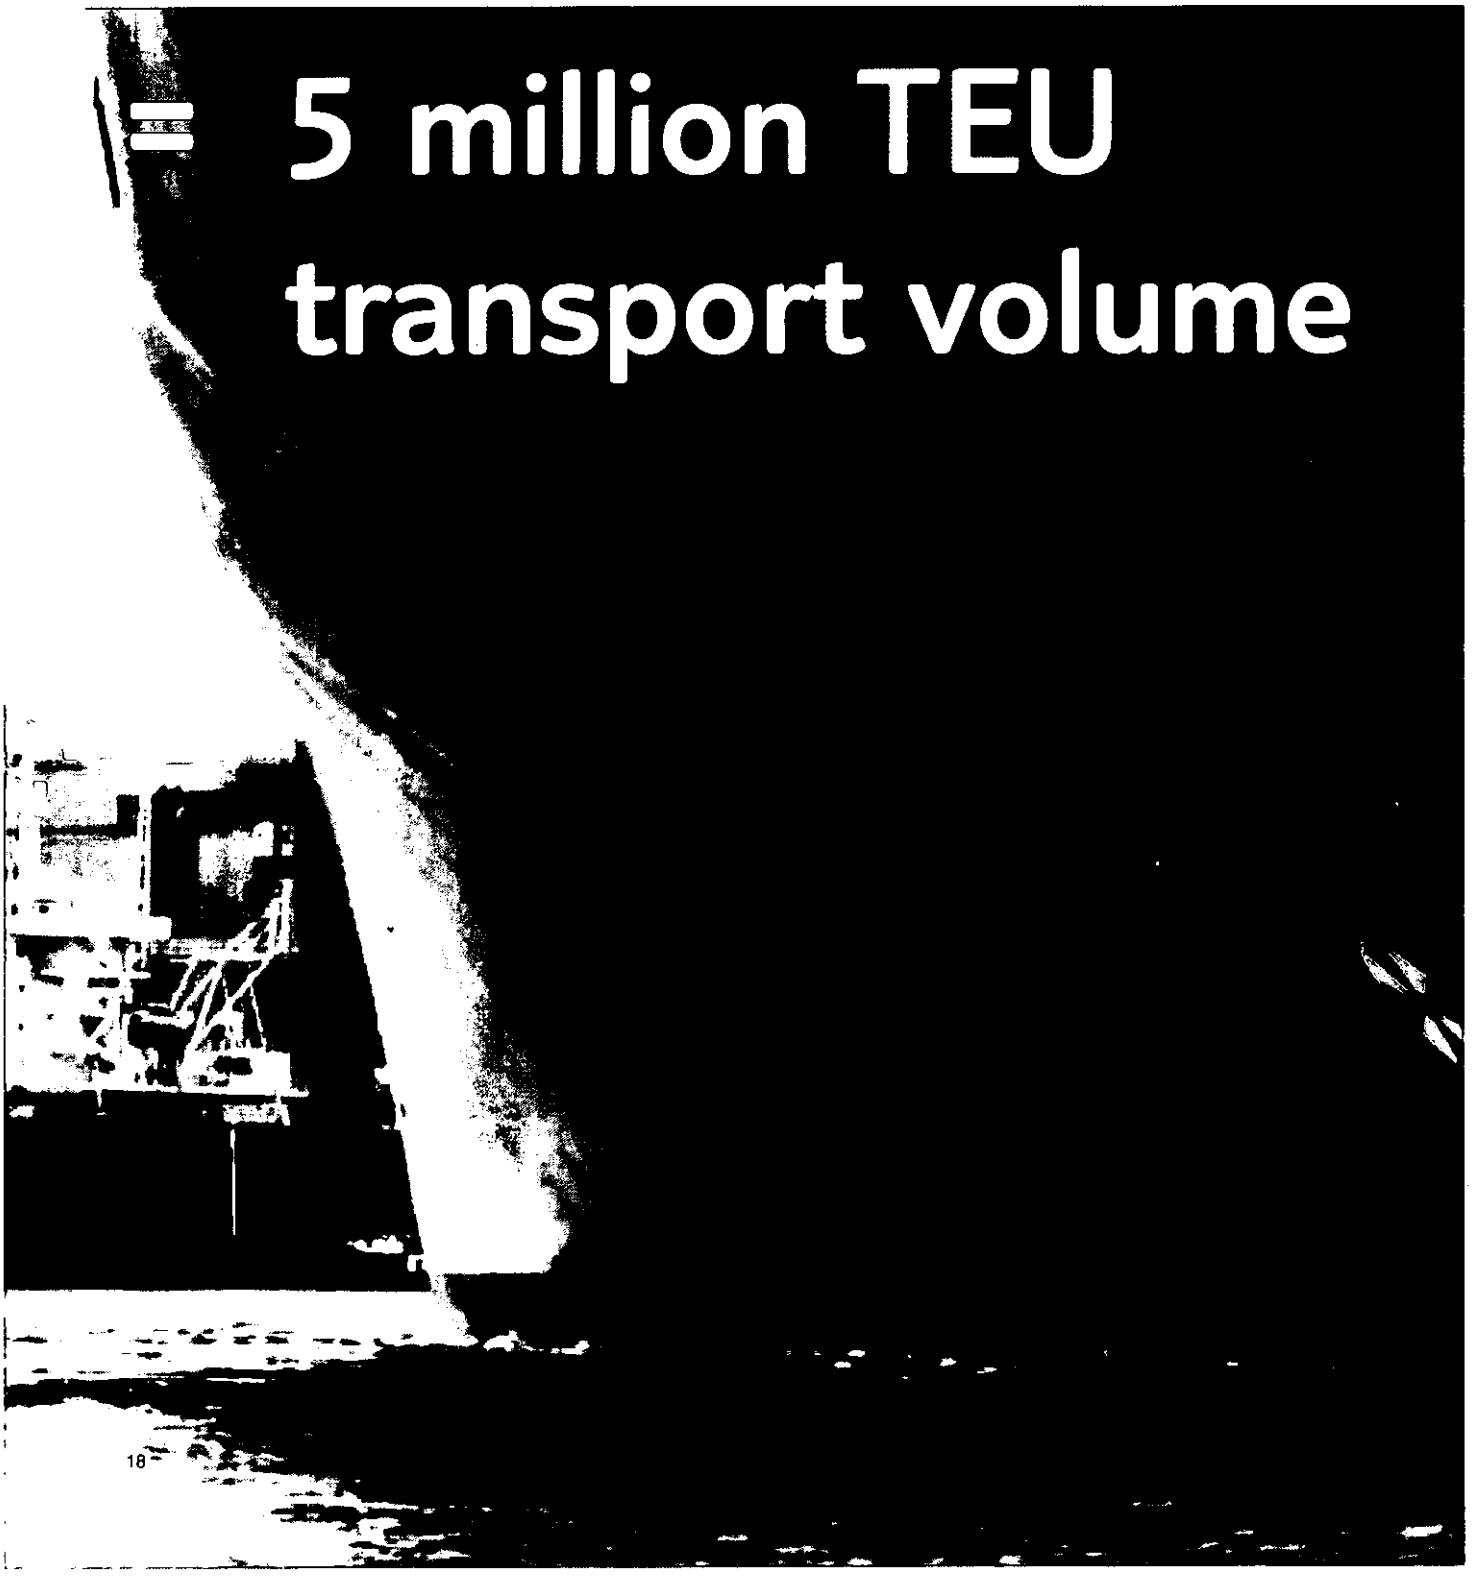
= 36 million accomodations

Classic package tours will continue to be a mainstay of TUI's business. Tours with all-inclusive services from flight, hotel and transfer to tour reps and car rental at destination continue to be an attractive option for those wishing to 'play it safe' for the most precious days of the year. In this regard, TUI offers a broad range of high-quality holiday tours in a total of over 70 countries of the world. Good hotels play a crucial part in ensuring customer satisfaction and loyalty. TUI's market position will be further reinforced with the expansion of the hotel segment by 2008.



5 continents
+ 100 countries
+ 331 distribution agencies

= 1 IT system



With 138 container ships and 331 distribution agencies in more than 100 countries, Hapag-Lloyd links continents, countries and cultures. As one of the leading providers of worldwide door-to-door container transport, the company offers complex logistics services throughout the transport chain and a comprehensive package of freight transport services, taking as its motto 'One partner, One system'.
To enable it to guarantee the same high quality anywhere in the world within the complex worldwide logistics process, Hapag-Lloyd has developed a special IT system, setting standards within the sector.
All transport-related data for the global order processing platform is stored in a central system.
This means that information relating to all services is available simultaneously anywhere in the world.

Hapag-Lloyd sets service and productivity standards.

+ 138 container ships
+ 467,000 TEU capacity

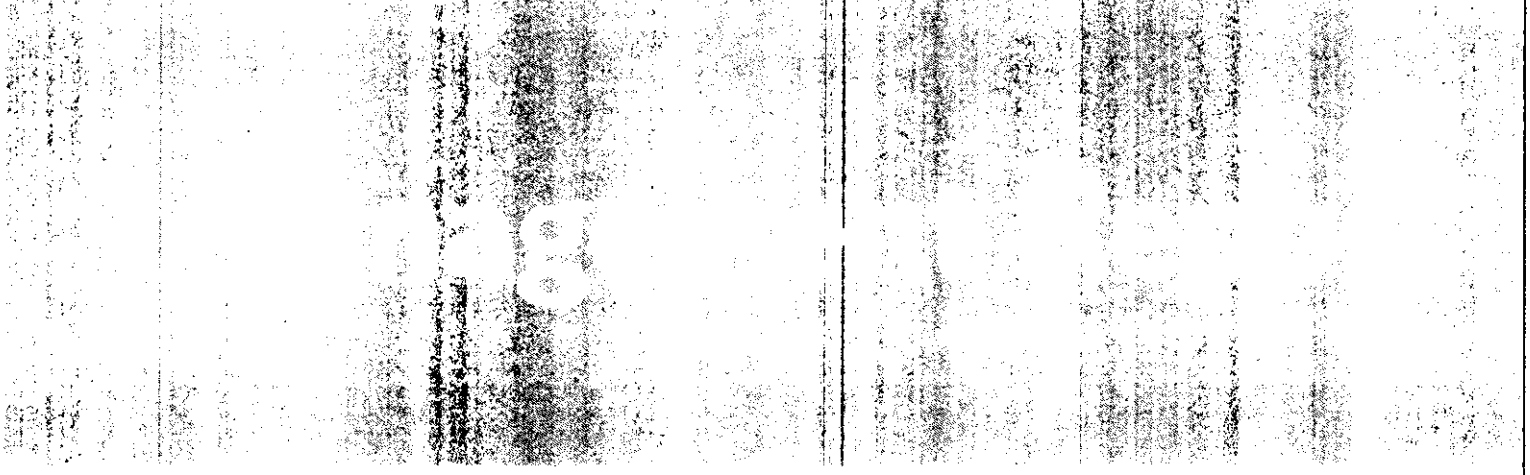
= 5 million TEU transport volume

Hapag-Lloyd occupies leading position in worldwide container transport.

Today, Hapag-Lloyd is one of the world's five largest shipping companies. The successful integration of CP Ships, taken over in 2005, has further enhanced its competitive position. The balanced fleet portfolio operates in the world's key regions with all common vessel types. This allows for more efficient capacity planning and thus a flexible response to diverse customer requirements.

2 x quality

\+ 2 x strong brand



\+ 2 x size

= Security & prospects

TUI focuses on the two high-growth sectors of tourism and shipping. In both sectors the clear objective is to achieve optimum increases in both efficiency and earnings on the basis of the TUI's size and market positioning. Group activities focus on tapping and expanding high-growth business segments. These include the establishment of a European airline web portal, expansion of the hotel business and the consequent utilisation of the market growth due to the increased container shipping and the launch of the high-volume premium cruise segment.

2006 – A challenging year. Uneven trends in core businesses. Group earnings impacted by one-off effects. Considerable reduction in net debt.

2006 – at a glance

Uneven trends in core businesses
The TUI Group's performance in the 2006 financial year was characterised by uneven trends in tourism and shipping, its two core businesses. Earnings in both divisions were impacted by special effects of current restructuring operations, offset by one-off income from divestments of shareholdings.

Turnover and earnings in core businesses

At € 14.1 billion, turnover in the tourism division matched 2005 levels. On the other hand, earnings adjusted for one-off effects (underlying EBITA by division) rose by 9.5% to € 401 million. The shipping division increased its turnover by 63.1% to € 6.3 billion due to the first-time inclusion of CP Ships for a full financial year. The operative integration of CP Ships, effected in the 2006 financial year, caused high one-off restructuring expenses. Adjusted for the one-off expenses from the integration process, earnings by the shipping division were slightly positive by € 8 million despite the difficult worldwide market conditions in 2006.

Turnover and earnings by divisions

At € 20.9 billion, turnover by the divisions, comprising the core businesses tourism and shipping but also central operations and discontinuing operations, grew 6.6% year-on-year. Earnings adjusted for one-off effects (underlying EBITA by divisions) totalled € 369 million, down 47.9% year-on-year.

Group earnings impacted by one-off effects
In the 2006 financial year, Group earnings totalled € - 847 million, falling considerably short of 2005 levels. Earnings were impacted by the restructuring expenses, the market-induced weak performance in shipping and impairments of goodwill required in tourism. These impairments related in particular to goodwill in the UK, Ireland and France. Due to the development in these markets, the expected future cash flow had to be reduced so that the earnings target for the entire tourism division was adjusted accordingly. Total impairments of goodwill required amounted to € 710 million.

Substantial reduction in net debt
In the 2006 financial year, the TUI Group's net debt decreased by € 0.6 billion to € 3.2 billion as at the balance sheet date. The reduction in debt was largely attributable to the successful completion of the divestment of the remaining industrial shareholdings (US steel service companies and Wolf GmbH) as well as the divestment of the business travel activities in the tourism division. In addition, the first of the measures, announced in

December 2006, to bring net debt further down could be realised: Seven container ships and a container pool previously owned by CP Ships were sold.

Successful integration of CP Ships
The operative integration of the container shipping company CP Ships, acquired in October 2005, in Hapag-Lloyd was fully completed – significantly faster than expected – in the 2006 financial year. The centrepiece of integration activities was the expansion of Hapag Lloyd's organisational structure and information technology to include the new sites. As early as at the end of the third quarter of 2006, all former CP Ships services had been integrated into Hapag-Lloyd's structure and are now operated under the brand name Hapag-Lloyd.

Completion of Group realignment
With the divestment of the US steel service companies of Preussag North America, Inc. (PNA) to financial investor Platinum Equity in May 2006 and the divestment of the majority shareholding in Wolf GmbH, a heating and air ventilation company, to Centrotec Sustainable AG in October 2006, the TUI Group sold its last remaining industrial shareholdings.

Group structure and business operations

Today, the TUI Group comprises two core businesses, tourism and shipping. This is the result of a realignment process effected over the last years, in which the Group's portfolio of shareholdings was transformed from an industrial conglomerate to a pure services company.

The core businesses, tourism and shipping, will account for around 70% and 30%, respectively, of Group turnover. In accordance with the IFRS definition, the two businesses form the continuing operations. Due to the divestment of the US steel service operations in May 2006, the TUI Group no longer held any discontinuing operations according to the IFRS definition as at the balance sheet date.

Tourism
The tourism division comprises the five sectors Central Europe, Northern Europe, Western Europe, Destinations and Other tourism. The first three of these sectors cover regional source markets, one of the sectors represents the activities in the destinations and the last one of the sectors at the balance sheet date the remaining tourism business.

Central Europe

The Central Europe sector comprises the distribution and tour operator business in Germany, Switzerland, Austria and the Eastern European markets. As at the balance sheet date, the sector also comprised the airlines Hapag-Lloyd Flug and Hapag-Lloyd Express, which were pooled under the TUIfly.com brand in January 2007 in the framework of the Group's new airline strategy. Apart from the airlines, the main operative Group companies in this sector are TUI Deutschland GmbH, TUI Suisse AG and in Austria Gulet Touristik GmbH & Co. KG.

Northern Europe

The Northern Europe sector comprises the distribution and tour operator business in the UK, Ireland and the Nordic countries as well as airlines Thomsonfly (charter and scheduled flights) and TUIfly Nordic. The main

Group companies operating in the distribution and tour operator industry are TUI UK Ltd. and Budget Travel Ltd. in Ireland. In the Nordic countries, TUI Nordic Holding AB covers the distribution and tour operator activities.

Western Europe

The Western Europe sector comprises the distribution and tour operator business in France, the Netherlands and Belgium as well as the airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium. The main companies operating in the distribution and tour operator business, either directly or via shareholdings, are Groupe Nouvelles Frontières S.A.S., TUI Nederland N.V. and TUI Belgium N.V.

Airlines

The TUI Group's airlines currently operate from the individual source markets and are each thus allocated to the three sectors Central Europe, Northern Europe and Western Europe. At the end of the 2006 financial year, TUI airlines operated a total of 120 aircraft. The Group had two additional aircraft which it had leased out to third parties. In the 2006 summer season, a total of 123 aircraft were used. The seasonal increase in aircraft capacity was covered by correspondingly flexible leasings of third party airline capacity.

TUI aircraft fleet

Airline	Number of operated aircraft	Average age	Departure from
Hapag-Lloyd Flug	32	5.8	Germany
Hapag-Lloyd Express	16	10.5	Germany
Thomsonfly	46	11.5	UK
TUIfly Nordic	6	9.7	Sweden
Corsair	9	13.4	France
TUI Airlines Nederland	3	16.4	Netherlands
TUI Airlines Belgium	8	12.8	Belgium
Total	**120**	**10.1**	

As at 31 December 2006

Destinations

The destinations sector covers TUI's incoming agencies and the Group's hotel companies pooled under TUI Hotels & Resorts.

Incoming agencies

At the end of the 2006 financial year, TUI held shareholdings in 35 agencies in 36 key destinations. TUI held direct or indirect majority interests in some of these companies, while others were operated in the framework of joint ventures or on the basis of minority interests. TUI's main incoming agencies are TUI España, operating in Spain and the Dominican Republic, TUI Portugal, TUI Hellas in Greece, TUI Türkiye and TUI Bulgaria as well as associated agencies in Cyprus, Tunisia and Morocco.

Hotels

TUI Hotels & Resorts operated a total of 279 hotels. 44% of these hotels were owned by the respective hotel company, 11% were leased and 45% were operated in the framework of management or franchise agreements. TUI either had a direct or indirect majority interest in the hotel companies, or they were operated as joint ventures; in addition, TUI also held minority interests to a limited extent.

As at 2006

Other tourism

With the divestment of the business travel operations (TQ3 Travel Solutions) in the first quarter of 2006 and the majority in IT services companies of TUI InfoTec in the fourth quarter of 2006, the main components of the Other tourism sector were sold in the completed financial year. The remaining activities will be indicated in the source markets in future.

Business model

TUI is an integrated travel provider operating on all stages of the tourism value chain. The value chain comprises distribution, tour operators, airlines, incoming agencies and hotels. Distribution is comprised of travel agencies and direct sales channels such as the internet and call centres. Tour operators offer both package tours and modular travel products. Aircraft seats are offered both as elements of a package tour but also in the form of the seat-only business. Incoming agencies organise hotel transfers and day trips in the holiday destinations. The existing hotel portfolio covers a broad range of products from exclusive hotel accommodation to high-quality family club holidays.

The presence on all stages of the tourism value chain secures the quality of the product portfolio. Combining all stages of the value chain is aimed to achieve a constant high level of utilisation of Group capacity in flight operations and hotels. Capacity in these areas therefore only covers part of the business volume. All additional capacity requested is flexibly provided via third-party services purchased externally. The integrated business model has developed in line with the structural changes in the travel market. The focus is in particular on the separate marketing of individual travel components such as flights and overnight stays via direct selling channels.

Market & competition

The three large european source markets in population figure for the tourism business are Germany with approx. 82 million inhabitants, France with almost 63 million inhabitants and the UK with a population of around 60 million. The favourite holiday destination for German package tour customers is Spain, followed by Germany and Greece. In Europe's second largest package tour market, the UK, the preferred destinations are Spain, Greece and Cyprus. In the French source market, package tours are less popular. French customers prefer land-based tours to French destinations. Concerning air tours, French customers prefer long-haul destinations in the French overseas departments and former colonies in the Indian Ocean and the Caribbean.

At a turnover volume of around € 14 billion in the tourism division in 2006, TUI is Europe's largest integrated tourism group. In terms of reported turnover for 2005, the Thomas Cook Group was the second largest company in Europe, followed by MyTravel in the UK, the German REWE Group, the British First Choice and Kuoni in Switzerland. In terms of turnover, TUI is the market leader by turnover in 2005 in Germany, the UK and France. It is among the three leading tour operators in another eight European countries. In addition, TUI occupies key market positions in the emerging Eastern European tourism markets.

The current consolidation trends in the tourism market are expected to cause shifts in the competitive position. With the announced merger of Thomas Cook and MyTravel, the new company Thomas Cook Group plc. would expand its market position as Europe's number two. In the British market Thomas Cook Group plc. would be then the biggest supplier in terms of turnover.

Strategy

The tourism market is currently undergoing a phase of structural change, strongly characterised by the growing demand for modular travel products. The basis of this trend is the dynamic expansion of the internet as a platform for information and bookings as well as the sustained growth of the low-cost airlines.

The structural market changes create the need for a development of business models – in particular in the tour operator and airlines sector – in order to fully exploit the current market growth. TUI anticipated this change at an early point in time and actively helped to shape it. In order to generate further profitable growth, clear strategic approaches have been defined:

- In the framework of the airline strategy, a first step was to combine the two German airlines Hapag-Lloyd Flug and Hapag-Lloyd Express into the new brand TUIfly.com. A uniform online portal was created under this brand name in January 2007. A further strategic goal is the integration of all European airline activities of the TUI Group into the new brand and distribution platform TUIfly.com. This strategy forms the basis for sustainable participation in the growth segments of low-cost and modular tours.
- In the framework of the distribution strategy, a further expansion of web-based journey distribution has been planned, aiming to achieve average growth in the next three years of 50% in the respective source markets. Alongside this strategy, the new TUIfly.com brand will be expanded into an international travel platform.
- In addition, cruise activities will be expanded by means of entry into the fast-growing German premium volume market segment.
- The Group's hotel strategy is aimed at achieving a further selective expansion of the existing portfolio. The planned growth in this stage of the value chain is to be based both on an expansion of the hotel portfolio for the classic package tour market and the fast-growing modular travel market.

Besides the expansion of the growth areas, the structural market changes require the further development of existing production structures. In order to decrease specific production costs, a set of measures was launched to achieve further cost savings of € 250 million by 2008.

Shipping

The shipping division breaks down into the two sectors of container shipping and cruises with the respective key operative Group companies Hapag-Lloyd AG and Hapag-Lloyd Kreuzfahrten GmbH.

Container shipping

In 2006, the focus in container shipping was above all on the integration of the Canadian shipping company CP Ships, acquired in October 2005. The centrepiece of integration activities was the expansion of Hapag-Lloyd's organisational structure according to the 'blueprint model' pattern as well as the expansion of Hapag-Lloyd's IT systems to cover the new sites. By the end of the third quarter of 2006, all operative business elements of CP Ships, in particular the vessel and container fleets and liner services, were an integral element of Hapag-Lloyd and are now operated under the Hapag-Lloyd brand.

In the framework of the integration of CP Ships, the legal structures of the shipping division were reorganised. The former lead company Hapag-Lloyd AG with its two subsidiaries Hapag-Lloyd Container Linie GmbH and Hapag-Lloyd Kreuzfahrten GmbH, in turn, was a direct subsidiary of TUI AG. In the wake of the legal restructuring of the division, Hapag Lloyd AG was merged with TUI AG in two steps. The business operations of the former lead company Hapag-Lloyd AG were transferred in the course of a business transfer to Hapag-Lloyd Container Linie GmbH. In the framework of this transaction, Hapag-Lloyd Container Linie GmbH was converted into a stock corporation and has since then been operating under the name Hapag-Lloyd AG. As a result, the new Hapag-Lloyd AG and Hapag-Lloyd Kreuzfahrten GmbH are direct subsidiaries of the Group holding TUI AG.

Trade lanes

The operative business in container shipping is broken down into trade lanes, with each trade lane comprising a number of individual routes. With the integration of CP Ships, the Hapag-Lloyd reporting structure was expanded from four to five trade lanes. The new geographical structure comprises the trade lanes Far East, Trans-Pacific, Atlantic, Latin America and Australasia.

Capacities

As at the end of the 2006 financial year, Hapag-Lloyd operated a total of 138 vessels including CP Ships' fleet, fully integrated in 2006. Of the total fleet, 56 vessels were owned by the company, 40 were subject to long-term charter or leasing contracts and 42 vessels were subject to short-term charter agreements. The average age of the fleet was 8.2 years. In the course of the extension of shipping capacity seven vessels were delivered in the completed financial year; one with a capacity of 8,750 standard containers (TEU), six with 4,250 TEU. By 2008, another five vessels with a capacity of 8,750 TEU and two with a capacity of 4,250 TEU are to be delivered. Besides the vessels, the division held containers with a total capacity of around 1,015,000 TEU, most of which were owned.

The table below lists the number of container ships operated at the end of the 2006 financial year, broken down according to size categories, average age and capacity.

Container_vessel_fleet

	Total number	Average age	Capacity in TEU
Under 2,300	46	13.0	75,936
2,300 – 4,000	39	12.3	114,335
4,000 – 6,000	40	6.5	176,878
Over 6,000	13	2.7	100,071
Total	**138**	**8.2**	**467,220**

As at 31 December 2006

Cruises

Alongside container shipping, the shipping division comprises Hapag-Lloyd Kreuzfahrten GmbH. With its four cruise ships in the luxury and premium segments, this company focuses in particular on the lifestyle and expedition cruise business in the German market.

Business model

Like most large container shipping companies, Hapag-Lloyd AG primarily offers world wide door-to-door container transports. However, in addition it also offers pure sea transports of containers. With comprehensive logistics services, also carried out by subcontractors, Hapag-Lloyd covers all stages of the transport chain, from the shipment of cargo in containers from the consignor to a seaport, shipment to the port of destination and shipment to the final destination by rail, truck or inland waterway vessel. Concerning the overall transport handling, Hapag-Lloyd is the customer's main contractor for door-to-door transactions.

Hapag-Lloyd operates on a worldwide scale. With more than 330 branches and offices in more than 100 countries it has a presence on all five continents. Hapag-Lloyd deploys its vessels mainly on the high-volume East-West routes; in particular the routes between Europe and North America and between Asia and Europe respectively North America. Key elements of its business model are the blueprint model and the fully integrated IT network. The blueprint model comprises a world wide uniform office organisation and process standards for a smooth course of business. It is based on an IT network linking up all sites worldwide in real-time. This organisational structure facilitates optimum control of container flows in terms of costs and yields as well as tailored solutions both for customer's individual transport needs and for the handling of the constantly growing information requirements of customers, port and customs authorities.

Market & competition

Container shipping is a global business. The number of shipped containers has more than doubled over the past ten years and stood at around 100 million TEU in 2006 (source: Global Insight, November 2006). Within that period, the transport volume rose on average by 9.4% annually, thus growing faster than world trade and world gross national product. According to forecasts by research institutes, the volumes shipped in container shipping will continue to rise disproportionately. This is attributable to the increase in world trade and the increasing relocation of production from West to East. Further on, container transports of goods and raw materials currently still shipped in conventional ways is growing.

Worldwide container shipping is broken down into several large trade lanes, each of which comprises a number of routes. Each route links up different ports and can have different frequencies. In 2006, inner-Asian transport was the highest-volume trade lane with 22 million TEU, followed by Trans-Pacific with 20 million TEU, Europe/Far East with 18 million TEU and Atlantic with 7 million TEU as well as Latin America with 3 million TEU.

Some of the Top 20 companies in container shipping are members of one of the international alliances. Within these consortia all transport capacity is jointly used and departure times are coordinated. This allows the members to offer their customers a larger number of routes with higher frequencies as those they would be able to offer on their own. Hapag-Lloyd is a founding member of Grand Alliance, one of the world's largest container shipping consortia.

In terms of shipping capacity, the Danish shipping company Maersk is the largest container shipping company. Following the takeover of P&O Nedlloyd, Maersk has a capacity of around 1.7 million TEU and is almost twice as large as the number two, the Swiss Mediterranean Shipping Co. (MSC). The players ranking next are the French CMA/CGM and the Taiwanese Evergreen Line. With CP Ships, acquired in 2005, TUI's shipping division has a capacity of 467 thousand TEU and thus ranks fifth.

Strategy

For the shipping division, TUI pursues a growth strategy aimed at achieving minimum growth of 9% annually and thus matching the expected average volume growth of the industry. TUI's fundamental growth orientation is supported by the following strategies:

- Selective capacity growth of 8% to 15% depending on the geographical markets
- Efficient investment management to channel capital into large categories of ships
- Consistent use of the synergies leveraged by the integration of CP Ships, completed in the 2006 financial year
- Flexible capacity management by means of a balanced fleet financing mix of ownership/long-term charter and short-term charter

TUI AG

Group parent company

TUI AG is the Group's parent company, headquartered in Hanover. It holds interests – usually 100% stakes – in the key Group companies operating the Group's operative business in the individual countries, either directly or indirectly. These companies, in turn, hold shares, too. At the balance sheet date, TUI AG's group of consolidated companies comprised 387 direct or indirect subsidiaries, including 39 German companies and 348 companies headquartered abroad. In addition, 22 associated companies and 32 joint ventures were included in TUI AG's consolidated financial statements measured at equity.

Organisation and management

TUI AG is a stock corporation under German law, whose basic principle is dual management by two boards, the Executive and the Supervisory Board. The Executive and Supervisory Board cooperate closely on a basis of trust in controlling and monitoring the Company. The Executive Board is responsible for the overall management of the Company.

Appointments and dismissals of Executive Board members are effected in accordance with sections 84 f. of the German Stock Corporation Act in combination with section 31 of the German Co-Determination Act. Amendments to the Articles of Association are effected in accordance with the rules of sections 179 ff. of the German Stock Corporation Act in combination with section 24 of TUI's Articles of Association.

Executive Board and Executive Committee

As at the balance sheet date, the Executive Board of TUI AG comprised six members: the Chairman and five other Board members in charge of Finance, Human Resources/Legal, Controlling, Tourism and Shipping. An Executive Committee was set up in order to manage the Group's operative business. At the balance sheet date, it comprised the members of TUI AG's Executive Board and a total of five divisional directors in charge of Central Europe, Northern Europe, Western Europe and Hotels & Resorts in the tourism division as well as shipping.

Economic framework

General development

In 2006, the world economy continued to grow overall. The International Monetary Fund (IMF) forecasts an increase in world gross domestic product of 5.1% (IMF, September 2006). Growth thus roughly matched 2005 levels and was slightly up on the medium-term average. In the course of the year, world economic growth decelerated. This was due to a slowdown in economic momentum in the US and to a lesser extent also in Japan. This was not full offset by expansion in the eurozone, which accelerated in the course of the year. In the wake of global economic growth, world trade picked up significantly, as in 2005. For 2006, the IMF expects world trade to grow by 8.9% and thus outperform the world economy.

Development in the regions

Americas and Asia

In the course of the year, the individual economic regions showed considerable differences in economic trends. Economic growth in the US slowed down noticeable in the course of 2006. It was curbed by weaker demand by private households and very high residential property portfolios, which cooled the real estate market. For the overall year, economic growth matched 2005 levels. Japan's economy continued to grow at the same rate as in 2005, with economic activity slowing down substantially in the second half of the year due to a restrictive public investment policy. In Asia, China and India again recorded high growth rates. The remaining emerging economies of South East Asia recorded robust economic growth but did not reproduce the high growth levels achieved in 2005 in each individual case. Latin America reported a slight year-on-year increase in growth rates thanks to strong domestic demand.

Eurozone

In the eurozone, the economy recorded a substantial upturn. The recovery of economic growth was primarily based on the upswing in Germany, France and Italy. Economic momentum was driven by an increase in domestic demand in combination with a substantial expansion of capital investment. Private consumption picked up slightly.

Development of the divisions

Tourism

In the tourism division, the development of worldwide markets fell only slightly short of the forecast made at the beginning of the year. The World

Tourism Organization (UNWTO) expected growth to continue at a rate of 4 to 5% in 2006, following a decline in 2003. At 4.5%, growth in 2006 fell only slightly short of the forecast of 4.6% for 2006, based on international tourism arrivals (UNWTO World Tourism Barometer, January 2007). However, this growth was above all supported by the strong economic development in certain countries. Several Asian countries, such as South Korea, China and India, but also Brazil and Poland reported double-digit growth rates in departures. Growth in the two large European markets Germany and UK, in contrast, was significantly below average. Bookings in these countries declined due to the good weather and above all the Soccer World Cup as well as the fear of terrorist attacks. Bookings in Belgium, the Netherlands and Italy, in contrast, picked up considerably in recent months compared with booking levels at the beginning of the year.

Shipping

In 2006, worldwide, a total of 100 million standard containers (TEU) were shipped on overseas routes, an increase of 8.8% year-on-year (Global Insight, November 2006). The global containerised transport volume thus grew virtually in line with the forecast expansion of world trade. The increase in demand for container transport was based on the solid growth of the world economy and the increase in the interdependence of economic areas in the framework of globalisation. Besides the pronounced global division of labour, the situation is characterised by the continual relocation of production processes from the industrialised countries to the Asian emerging markets. As a result, the highest growth rates were again achieved on the routes from Asia to Europe and in the Pacific region. However, the positive volume trend in container shipping went hand in hand with adverse framework parameters in the 2006 financial year: high average bunker costs throughout the year, strongly increased terminal and canal costs, declining freight rates in important trade lanes and an increase in structural imbalances of cargo flows. The number of no-load containers having to be transferred from regions with container overhangs to regions with container deficits rose increasingly.

Assessment of economic framework

The economic trend in the 2006 financial year largely met the expectations of the Executive Board and thus matched the macroeconomic framework assumed as the basis for the budget. Both core businesses were impacted by the high average aircraft fuel and bunker costs in 2006. In tourism, several exogenous events such as the avian flu, the caricature controversy at the beginning of the year and the conflict in the Middle East temporarily affected customers' booking behaviour in the markets. For the shipping division a declining business situation due to increasing shipping capacity beside positive volume growth for the entire year was expected. Strong cost increases and declining freight rates – triggered by hard competition – overall in the branch resulted in considerably stronger adverse effects on Group earnings than expected.

Group Turnover and Earnings Earnings growth in tourism. Market-induced year-on-year decline in shipping.

2006 was a challenging year for the TUI Group. Both core businesses – tourism and shipping – were impacted by one-off effects concerning ongoing restructuring programmes according to IAS 37 and other one-off items. Against this gains on disposals were generated from divestments of shareholdings. In order to ensure a transparent presentation of the development of earnings by divisions, the comments presented below comprise a reconciliation to underlying earnings (underlying EBITA by divisions).

Due to the short period between the completion of the acquisition of CP Ships in October 2005 and the preparation of the consolidated financial statements for 2005, a preliminary revaluation of the acquired assets and liabilities (purchase price allocation) was effected as at 31 December 2005. The final purchase price allocation in October 2006 had minor effects on the Group's profit and loss statement. In order to enhance the comparability of figures, the figures for the 2005 financial year were restated. A corresponding explanation and reconciliation is provided in the section on 'Accounting principles' in the notes on the consolidated financial statements.

Turnover and earnings by divisions

Assessment of the earnings situation

In the completed financial year, tourism and shipping, the Group's core businesses, recorded uneven business trends. Both divisions were characterised by restructuring expenses and the impact from other one-off items while tourism also reported gains on disposals from the divestment of shareholdings. Adjusted for these effects, tourism increased its earnings level year-on-year. The overall positive trend was curbed by the poor performance of the French market and the increasingly difficult competitive conditions in the British and Irish markets. The development of earnings of the shipping division was characterised by the development of freight rates in the cyclical container shipping. Earnings were determined by the high average bunker costs and the intensification of competition, which went hand in hand with a decline in freight rates. Moreover, high integration costs associated with the integration of CP Ships, acquired in October 2005, were incurred in the completed financial year. Adjusted for these effects, shipping achieved a slightly positive result and confirmed its high productivity level in comparison with its competitors. Overall, earnings by tourism did not match the expectations of the Executive Board while the market-induced earnings level posted by the shipping division fell considerably short of expectations.

Development of turnover by the divisions

Turnover_by_divisions

€ million	2006	2005	Var. %
Tourism	14,083.9	14,096.5	- 0.1
Central Europe	5,803.1	5,749.6	+ 0.9
Northern Europe	4,794.4	4,809.2	- 0.3
Western Europe	2,815.2	2,753.7	+ 2.2
Destinations	599.0	532.5	+ 12.5
Other tourism	72.2	251.5	- 71.3
Shipping	6,254.0	3,834.2	+ 63.1
Central operations	176.7	269.6	- 34.5
Continuing operations	**20,514.6**	**18,200.3**	**+ 12.7**
Trading	401.0	1,002.9	- 60.0
Special logistics	–	415.4	–
Discontinuing operations	**401.0**	**1,418.3**	**- 71.7**
Turnover by divisions	**20,915.6**	**19,618.6**	**+ 6.6**

Continuing operations

Turnover by the continuing operations comprised the core businesses tourism and shipping as well as central operations.

At € 14.1 billion, turnover in the tourism division was on previous year's level despite the divestments of the business travel activities as well as the majority interest in TUI InfoTec both shown in the Other tourism sector. Adjusted for the development of turnover in Other tourism, turnover grew by 1.2%. Significant year-on-year turnover growth was achieved in the Western Europe sector in source markets Netherlands and Belgium. The destinations sector also managed to increase its turnover both in the agency and hotel business.

The shipping division increased its turnover by 63.1% to € 6.3 billion. Growth was mainly driven by the additional turnover volume of CP Ships, the container shipping line acquired in October 2005.

At € 177 million, central operations posted a 34.5% year-on-year decline in turnover in the 2006 financial year. This was due to a decrease in turnover by the real estate companies due to the divestment of parts of the property portfolio already effected at the end of the 2005 financial year. Another reason for the decline in turnover was the divestment of the majority interest in Wolf GmbH, a heating and air conditioning company, in October 2006.

Discontinuing operations

The discontinuing operations reported turnover of € 401 million, down by 71.7% year-on-year. In the 2006 financial year, discontinuing operations only comprised the trading sector. The divestment of the trading activities in May 2006 and of the special logistics operations in the 2005 financial year caused a corresponding year-on-year reduction in turnover.

Turnover by divisions

At € 20.9 billion, total turnover of the TUI Group's divisions in the 2006 financial year climbed by 6.6% year-on-year. Since the shipping division posted a consolidation-related increase in turnover, it accounted for a higher proportion of turnover at 29.9% (previous year: 19.5%). Tourism accounted for 67.3% of turnover (previous year: 71.9%). The proportion

of turnover of central operations and discontinuing operations declined to 2.8% (previous year: 8.6%) due to the divestments.

Development of earnings by the divisions

Earnings by divisions (EBITA)

€ million	2006	2005	Var. %
Tourism	393.7	365.2	+ 7.8
Central Europe	89.5	65.9	+ 35.8
Northern Europe	81.0	102.9	- 21.3
Western Europe	- 53.7	- 2.6	n. m.
Destinations	136.1	185.2	- 26.5
Other tourism	140.8	13.8	n. m.
Shipping	- 106.2	319.3	n. m.
Central operations	- 84.7	- 94.0	+ 9.9
Continuing operations	**202.8**	**590.5**	**- 65.7**
Trading	17.1	67.3	- 74.6
Special logistics	5.3	158.6	- 96.7
Divestments	7.2	34.0	- 78.8
Discontinuing operations	**29.6**	**259.9**	**- 88.6**
Earnings by divisions (EBITA)	**232.4**	**850.4**	**- 72.7**

Continuing operations

Earnings by the continuing operations tourism and shipping as well as central operations (before interest, taxes and amortisation of goodwill) declined by 65.7% to € 203 million in the 2006 financial year. Earnings were affected by one-off effects, above all the restructuring expenses and other one-off items in tourism and shipping as well as gains on disposals in connection with the divestments.

Underlying EBITA by division: Tourism

€ million	2006	2005	Var. %
EBITA by division	**393.7**	**365.2**	**+ 7.8**
Gains on disposals	*- 153.3*	*- 13.1*	
Restructuring expenses	*+ 100.6*	*+ 18.3*	
Other one-off items	*+ 59.5*	*- 4.6*	
Underlying EBITA by division	**400.5**	**365.8**	**+ 9.5**

At € 394 million, earnings by tourism climbed 7.8% year-on-year. Earnings comprised gains on disposals of € 153 million which arose in the Other tourism sector due to the divestment of the business travel activities (€ 151 million) and the share in TUI InfoTec (€ - 11 million) and the Western Europe sector due to the divestment of the Dutch specialist tour operators (€ 13 million). On the other hand, restructuring expenses of € 101 million were incurred, mainly implemented in the Central, Northern and Western Europe sectors. Furthermore other one-off items of € 60 million had to be considered. These comprised in particular impairments on hotel resorts in the Turkey destination (€ 30 million), one-off effects from a litigation in connection with a leasing contract for a holiday club resort (€ 6 million), expenses for the Boing 747-fleet renewal programme at Corsair (€ 12 million) and further one-off effects from restructuring in the Northern and Western Europe sector (€ 12 million). The financial year 2005 included restructuring expenses in the Northern Europe sector and income from divestments of smaller shareholdings and a small income from other one-off items. In total, underlying earnings rose by 9.5% to € 401 million year-on-year.

Underlying EBITA by division: Shipping

€ million	2006	2005	Var. %
EBITA by division	**- 106.2**	**319.3**	**n. m.**
Gains on disposals	–	–	
Restructuring expenses	*+ 66.4*	–	
Other one-off items	*+ 47.4*	*+ 3.2*	
Underlying EBITA by division	**7.6**	**322.5**	**- 97.6**

The shipping division posted earnings of € - 106 million, a considerable decline on 2005 earnings of € 319 million. The negative earnings trend was attributable to the difficult market environment in the container shipping industry in the 2006 financial year. Earnings were impacted by the decline in freight rates in almost all trade lanes in the course of the year, accompanied by high fuel costs. In addition, considerable one-off restructuring expenses (€ 66 million) and the impact from IT system changes and the closure of agencies (€ 47 million) were incurred in connection with the integration of CP Ships. Overall integration costs amounted to € 114 million in 2006. Adjusted for the one-off effects earnings for the shipping division were slightly positive.

Underlying EBITA by division: Central operations

€ million	2006	2005	Var. %
Earnings by the holdings	- 179.7	- 154.6	- 16.2
Cost of corporate centre functions of TUI AG and the interim holdings	- 104.2	- 109.7	+ 5.0
Other expenses and income	75.5	- 44.9	- 68.2
Other operating areas	95.0	60.6	+ 56.8
EBITA by division	**- 84.7**	**- 94.0**	**+ 9.9**
Gains on disposals	*- 34.7*	–	
Restructuring expenses	–	–	
Other one-off items	*+ 65.0*	–	
Revaluation of conversion rights	*- 15.0*	*+ 2.2*	
Underlying EBITA by division	**- 69.4**	**- 91.8**	**+ 24.4**

Earnings by central operations comprised TUI AG's corporate centre functions and the interim holdings and other expenses and income as well as other operating areas comprising the Group's real estate companies and the remaining industrial operations.

Earnings by central operations totalled € - 85 million, an increase of 9.9% year-on-year. The cost of TUI AG's corporate centre functions and the interim holdings declined by 5.0% to € - 104 million as the consultation costs for the acquisitions and financing measures included in 2005 earnings were no longer incurred. The amount of other expenses and income, which primarily comprised the valuation of assets and liabilities, stood at € - 76 million (previous year: € - 45 million). This was due to a non liquidity effective foreign currency exchange loss caused by capital adjustments at subsidiaries (€ 65 million). Furthermore they included earnings from the revaluation of the conversion options from the 2003 convertible bond of € 15 million (previous year: € - 2 million). Earnings by the other operating areas grew by 56.8% to € 95 million. They comprised income from a divestment in the real estate sector (Schacht Konrad) and the gain on the disposal from the divestment of the interest in Wolf GmbH

in the fourth quarter of 2006 (€ 35 million), the Group's last remaining industrial activity. Adjusted for the net result of disposals, foreign currency exchange loss due to capital adjustments and earning effects from the revaluation of the conversion options included in earnings, earnings by central operations increased by 24.4% to € - 69 million.

Discontinuing operations

Earnings by discontinuing operations declined to € 30 million (previous year: € 260 million). This earnings trend was due to the divestment of the steel trading activities in May 2006 and the divestments of the special logistics operations in the 2005 financial year. Earnings comprised the net result of disposals from the divestment of steel trading operations as well as subsequent income from divestments already effected in the previous years. These effects almost balanced each other out.

Underlying EBITA by division: Group

Earnings by divisions Group

Overall, the TUI Group reported earnings by divisions (before taxes and amortisation of goodwill) of € 232 million in the 2006 financial year, a decline of 72.7% year-on-year. Adjusted for one-off effects, earnings totalled € 369 million.

Value-oriented Group management

The business mission pursued by TUI AG as a capital market-oriented lead company is to secure a sustainable increase in the value of the TUI Group. In order to implement value-oriented management of the Group as a whole and its individual business sectors, a standardised management system has been installed, forming an integral part of uniform Group-wide controlling and planning processes.

Key management variables in connection with regular value analysis are ROIC (Return on Invested Capital) and absolute value added. In the framework of the regular performance measurement, ROIC is compared with the division-specific cost of capital.

Cost of capital

The cost of capital is calculated as the weighted average cost of capital (WACC). The cost of equity included in WACC reflects investors' yield expectations when investing in TUI shares. The cost of loan capital is based on the average financing terms and conditions of the TUI Group. In order to account for the different return/risk profiles of the two core businesses tourism and shipping, corresponding division-specific costs of capital before income taxes are determined. The cost of capital was 8.8% in the tourism division and 7.9% in the shipping division. For the Group as a whole, the variable stood at 8.5%.

ROIC and value added

ROIC is calculated as the ratio of underlying earnings before interest, taxes and amortisation of goodwill (underlying EBITA by division) and the tied-up interest-bearing capital (invested capital) of the segment. In line with its definition, this performance indicator does not reflect any tax or financial effects and is adjusted for one-off effects. From a Group perspective, invested capital comprises equity (including minority interests) and the balance of interest-bearing liabilities and interest-bearing assets. Besides the relative performance indicator ROIC, value added is used as an absolute value-oriented performance indicator. Value added is calculated as the product of ROIC less associated capital costs and invested capital.

Value-oriented key figures

€ million	Tourism 2006	Tourism 2005	Shipping 2006	Shipping 2005	Group 2006	Group 2005

[1] Average value based on position at the beginning and year-end position

Tourism

ROIC in tourism rose by 1.1 percentage points to 7.9%. The year-on-year increase was attributable to the rise in earnings by the division and a reduction in invested capital. The decline in invested capital was driven by the impairment of goodwill in the 2006 financial year. ROIC before impairments was 7.4%. ROIC of the tourism division fell short of the division-specific cost of capital, as in 2005. This resulted in a negative value added of € 44 million for the 2006 financial year.

Shipping

Due to the market-related decrease in earnings, the shipping division reported a decline in ROIC to 0.3%, following the high ROIC level achieved in 2005. Invested capital rose due to the full inclusion of the increased equity base in the framework of the acquisition of CP Ships effected in 2006. A negative value added of € 217 million was generated based on the division-specific cost of capital.

Group

In the 2006 financial year, Group ROIC amounted to 4.7% falling short of the cost of capital of 8.5%. This was due in particular to the declining trend in returns from shipping. Following positive value added of € 53 million in 2005, negative value added of € 300 million arose for 2006.

Tourism

TUI has a clear objective: growth.

Tourism Increased earnings. Difficult market environment in the UK and France.

For the tourism division, 2006 was a year characterised by varying trends in individual source markets. The 2006 financial year saw off to a slow start. Business picked up in the second quarter, partly due to the Easter holiday that fell into that period. The business trend smoothed out at 2005 levels in the third quarter. Several source markets recorded slight declines in bookings due to the good weather and above all the Soccer World Cup. In the fourth quarter, the summer season ended with a just satisfactory performance. The first two months of the 2006/2007 winter season were very promising, with the exception of the UK and France.

Turnover and earnings in tourism

Tourism – Key figures

€ million	2006	2005	Var. %
Turnover	**14,083.9**	**14,096.5**	**- 0.1**

Investments	542.7	566.5	- 4.2
Headcount (31 Dec)	44,409	50,498	- 12.1

In 2006, turnover by the tourism division matched the previous year's level by € 14.1 billion. The Central Europe sector grew slightly by 0.9% due to an increase in tour operator customers. This growth was largely attributable to Hapag-Lloyd Express, operating in the low-cost segment. The Northern Europe sector recorded a slight decline in turnover of 0.3% with an increase in customer figures. In the Western Europe sector, turnover increased slightly by 2.2% with stagnating customer numbers. The destinations sector recorded turnover growth of 12.5% in the period under review, while Other tourism reported a decline, in particular due to the divestment of business travel activities.

Customer numbers Tourism

'000	2006	2005	Var. %
Central Europe	10,542	10,284	+ 2.5
Northern Europe	6,999	6,858	+ 2.1
Western Europe	4,389	4,430	- 0.9
Total	**21,930**	**21,572**	**+ 1.7**

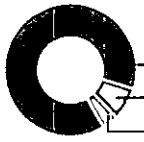
In the tourism division, the cost of materials rose by 3.0% to € 10,056 million, primarily due to the increase in the cost of aircraft fuel in flight operations. As a result, the cost of materials ratio rose to 71.4% (previous year: 69.3%).

Personnel costs declined by 3.8% to € 1,827 million although they comprised cost increases caused by the launch of the restructuring programmes for the Central, Northern and Western Europe sectors.

At the balance other income and expenses rose by 15.5% year-on-year. They included one-off income and expenses from divestments of € 153 million.

The result from companies measured at equity rose by 22.9% to € 43 million, in particular due to the gratifying development of earnings by hotel companies.

At € 387 million, depreciation and amortisation increased by 5.0% year-on-year.



At € 394 million, total earnings by the tourism division were 7.8% up year-on-year. Adjusted for the one-off effects of the initiated restructuring programmes and expenses from other one-off items and the gains on disposals, earnings rose by 9.5% to € 401 million.

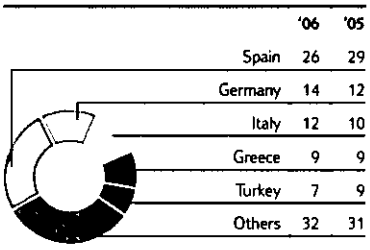
Turnover and earnings



In the Central Europe sector (Germany, Austria, Switzerland as well as airlines Hapag-Lloyd Flug and Hapag-Lloyd Express), the number of customers rose by 2.5% in the 2006 financial year. Turnover grew slightly by 0.9%. While turnover matched 2005 levels in the German and Austrian market, the Swiss market reported slight increases.

On the other hand, earnings rose by 35.8% to € 90 million. Earnings comprised one-off restructuring expenses of € 26 million, incurred in the framework of the efficiency enhancement programme for the German market. Adjusted for these one-off expenses, underlying earnings rose significantly by 74.7%. This was caused in 2006 by improvements in operating airline earnings comprising income from sale-and-lease-back agreements for four aircraft (€ 24 million; previous year: € 18 million). Earnings in Austria were impacted by the unfavourable bookings situation in Turkey and Egypt, while Switzerland reported increases in earnings.

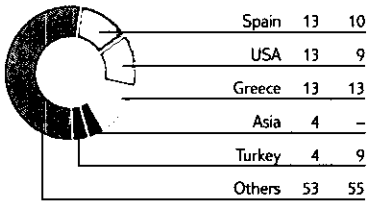
Summer season

Germany

Germany saw a positive trend in the travel market. Overall demand rose slightly, but continued to focus in particular on products with attractive price/performance ratios. German customers increasingly demanded modular products and seat- and accommodation-only offerings. The portfolio offered by the tour operators of TUI Deutschland comprehensively covered the different market segments. Overall, 9.56 million customers (previous year: 9.29 million) booked TUI travel products, an increase of 2.9% year-on-year. Against the background of the strong price-consciousness in the market, a restrictive capacity policy was initiated in the summer season, deliberately accepting a decline of 2.7% to 5.24 million customers (previous year: 5.39 million) for TUI's brands, which have also included 1-2-Fly and airtours since the summer of 2006. Thanks to an optimisation of capacity and the renewed increase in the number of early bookers, prices were increased in the markets year-on-year.



Specialist tour operators

On a like-for-like basis, a total of 4.31 million customers (previous year: 3.90 million) travelled with German specialist tour operators, an increase of 10.6% year-on-year. Wolters, the tour operator offering holiday homes and adventure tours, recorded increases in bookings, in particular in the adventure travel segment. L'tur, market leader in the last-minute segment, suffered from a decline in last-minute capacity caused by the capacity optimisation efforts of classical tour operators. Berge & Meer continued to grow in the direct selling segment.

Distribution

The travel agency activities grouped together in TUI Leisure Travel declined slightly. Around 43% of travel agency turnover was accounted for by Group tour operators. The organisation covered 1,419 travel agencies, 411 of which were Group-owned, with the remainder being franchise partners or agencies under distribution cooperation schemes. In addition, there were 156 L'tur agencies. Besides travel agencies, customers increasingly used the internet.

Summer season

Distribution

Switzerland

The Swiss tour operator market stagnated in 2006. Against this backdrop, TUI Suisse tour operators managed to increase their customer numbers by 1.9%. The Imholz brand, which was rebranded TUI in November 2006, reported a substantial increase in demand, as did 1-2-Fly. FlexTravel maintained its performance constant, both in terms of the number of customers and its 30% share in the overall volume. Direct distribution via the Vögele brand declined again, with margins coming under pressure.

TUI Suisse comprised 67 Group-owned travel agencies, recording a stable performance in a favourable market environment. At 60%, products of Group-owned tour operators accounted for the same proportion of business as in 2005. The proportion of internet-based sales continued to grow.

Austria

In Austria, the economic situation remained difficult. Customers in the travel market thus continued to be very price-conscious, and the market volume stagnated. The tour operators of TUI Austria recorded an overall satisfactory performance in the financial year under review. The number of customers totalled 702 thousand, declining by 2.0% year-on-year. The positive trend already emerging in 2005 continued, with larger numbers of early bookers. The individual brands showed uneven volume trends, with average prices rising year-on-year in most cases. The TUI brands in the upper price segment and Terra, tour operator for land-based travel, recorded an increase in customer numbers. In contrast, 1-2-Fly, operating in the low-cost segment, and Gulet, specialist tour operator for the eastern Mediterranean, as well as the Magic Life club brand suffered from their strong focus on Turkey and reported year-on-year declines in bookings.

TUI Austria's agency distribution recorded a sound performance. The turnover generated for Group-owned tour operators rose year-on-year, accounting for more than 70% of the total business volume in 2006. The Group-owned distribution network included 91 travel agencies, 47% of which were franchise operations. Cooperation under the TUI TravelStar brand covered another 266 travel agencies. Distribution via new media continued to play a minor role in Austria, but web-based bookings of Austrian tour operators grew from a low level.

Eastern European markets

The eastern European markets showed uneven trends. In Poland, demand in the travel market grew again thanks to strong economic growth. TUI Poland sold more tours than in 2005 and consolidated its market position. The Hungarian travel market also showed a gratifying performance. TUI Hungary grew strongly, particularly in the summer season, and again achieved year-on-year growth in the number of tours sold. TUI Slovenia and TUI Slovakia, of which were both launched in 2004, suffered from overcapacity and price competition in the market and suffered declines as a consequence.

Flight operations Central Europe – Key figures

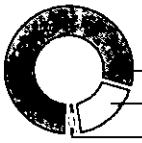
* Summer season

Hapag-Lloyd Flug/Hapagfly

The German charter flight market maintained a constant level in the 2006 financial year. Hapag-Lloyd Flug (Hapagfly) benefited above all from the selective channelling of TUI tour operator customers to Group-owned flight capacity. At the same time, the Group changed its fleet structure, reducing its passenger capacity. This resulted in a decline in the number of seat kilometres on offer. The capacity management and customer channelling measures ensured constantly high seat load factors whereby higher average prices could be achieved. The proportion of tour operator customers among passengers was kept almost constant at more than 84%. Hapagfly operated a total of 33 aircraft in the summer season: 32 Boeing 737-800s and one Airbus A 310-300, departing from 18 departure to 42 destination airports.

Hapag-Lloyd Express/HLX

The German market for low-cost airlines again showed very dynamic growth in 2006. This resulted in significant capacity expansions. Hapag-Lloyd Express (HLX) also benefited from this environment and expanded its market position. In the 2006 summer season, HLX operated 18 aircraft: five Boeing 737-500s, eight Boeing 737-700s, three Boeing 737-800s and two Fokker 100s. HLX served eight departure and 14 destination airports in 2006.



In 2006, the Group decided to integrate the two German airlines Hapag-Lloyd Flug and Hapag-Lloyd Express. They were pooled under the new brand TUIfly.com in January 2007 and will operate under a joint flight schedule in future.

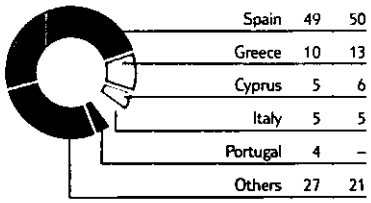
Turnover and earnings

In the Northern Europe sector (UK, Ireland, Nordic countries as well as airlines Thomsonfly [charter and scheduled flights] and TUIfly Nordic), customer numbers grew by 2.1% in a difficult market environment in the 2006 financial year. This trend was not reflected by turnover, which dropped

slightly by - 0.3% year-on-year. While the UK and Ireland reported declines in turnover, the Nordic countries continued to expand their business volumes.



Earnings by the Northern Europe sector decreased by 21.3% year-on-year in the 2006 financial year. Both in the completed financial year and in 2005, these earnings comprised restructuring expenses of € 50 million for 2006 and € 18 million for 2005. Furthermore there was a one-off effect from the change of IT-Services at Thomsonfly (€ 5 million). Adjusted for these one-off expenses, underlying earnings totalled € 135 million for the 2006 financial year, an increase in earnings of 19.1% year-on-year. Due to the difficult market conditions, the markets in the UK and Ireland could not match the earnings expectations despite the restructuring measures taken in 2005, which further improved cost structures by means of commission cuts in third-party distribution and process optimisations. The Nordic countries continued the gratifying trend observed in 2005 and again increased their profit contribution.

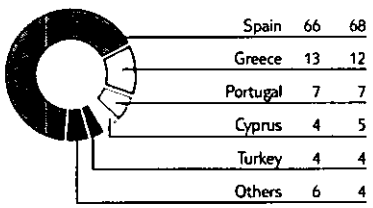
Summer season



In the UK, the travel market showed an unfavourable trend in the course of the year. The unusually good weather and the Soccer World Cup caused restraints in bookings. This also affected TUI UK tour operators. Although the number of customers rose slightly 2.6% year-on-year. The intensification of Group-owned distribution and the expansion of the Thomson website, offering package tours but also modular and seat-only products and hotel accommodation since the second quarter of 2006, had positive effects on the Group's business. Specialist tour operators were particularly successful in marketing skiing tours and the mobile homes offered by Thomson Al Fresco.

Distribution

TUI UK's agency distribution comprised 708 travel agencies. At 73%, the proportion of products by Group-owned tour operators remained constant year-on-year. The share of web-based bookings in total bookings doubled at the expense of bookings through travel agencies and call centres.

Summer season

In Ireland, the travel market environment deteriorated in the course of the year, with late bookings showing the same trend as in 2005. TUI Ireland's tour operators did not succeed in further expanding their market position. At 325 thousand customers, the number of customers travelling with TUI Ireland tour operators declined by 1.0% year-on-year.

Agency distribution in Ireland covered 46 travel agencies, 32 of which were Group-owned and 14 were franchise operations. 87% of tours sold were offerings of Group-owned tour operators. Internet bookings rose significantly.

Summer season

Nordic countries

Demand in the Nordic travel market was relatively restrained at the beginning of the year but picked up substantially in the course of the year. This also applied to TUI Nordic's tour operators, keeping their market positions at a constant level. The slight decline in bookings was attributable, inter alia, to the unusually good weather in Northern Europe and the cartoon controversy. Customer numbers grew by 0.5%, virtually matching 2005 levels. At the same time, however, TUI Nordic benefited from a substantial increase in average prices of tours sold so that earnings showed a positive trend.

Distribution

Agency distribution in the Nordic countries comprised 26 travel agencies exclusively selling tours of Group-owned tour operators. The proportion of bookings via new distribution channels, in particular the internet, continued to rise and accounted for more than 50%.

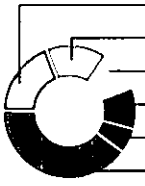
Western Europe turnover and earnings

In the Western Europe sector (France, the Netherlands, Belgium and airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium), the number of customers travelling with tour operators of the sector declined by 0.9% year-on-year. Turnover grew by 2.2% in 2006. In France, turnover declined for market-related reasons, dropping below 2005 levels. In the Netherlands, turnover matched the previous year's level, although the specialist tour operator business was sold in the second quarter. Adjusted for this turnover portion, turnover grew year-on-year due, inter alia, to improvements in the product mix and an expansion of flight operations. In Belgium, turnover rose due to an increase in customer numbers.



Earnings by the sector of € - 54 million fell € 51 million short of 2005 levels. Earnings comprised income from the divestment of the Dutch specialist tour operators (€ 13 million) as well as restructuring expenses (€ 23 million). Furthermore other one-off items from the fleet renewal of the Boeing 747 fleet at Corsair (€ 12 million) and expenses from planned headcount reduction and changes of IT booking systems at Nouvelles Frontières (€ 6 million) had to be considered. In the previous year, earnings had included income from the disposal of the Dutch canal boat business (€ 6 million) as well as one-off costs in connection with the renewal of Corsair's fleet of Boeing 747s (€ 7 million). Adjusted for the one-off effects, underlying earnings in the 2006 financial year were € 25 million down year-on-year. The decline in earnings in 2006 exclusively resulted from the French market. Surplus capacity in flight operations caused margin losses. In addition, oil price-induced increases in the price of aircraft fuel could not be fully rolled over to customers. Nouvelles Frontières and Corsair saw their business additionally curbed by restrained demand. Earnings in the Netherlands grew year-on-year in 2006, even adjusted for the gain on disposal from the divestment of the specialist tour operators. Earnings in Belgium, which comprised income from sale-and-lease-back agreements for two aircraft (5 million €), also rose year-on-year in the financial year under review.

Summer season

France

Throughout the year, the French travel market suffered from a persistent weakness in demand. French customers showed little interest in travelling due to the Chikungunya fever in Reunion and the good performance of the French national team at the Soccer World Cup but also the poor overall consumer climate. Given these circumstances, customers continued to be very price-conscious. Although Nouvelles Frontières could manage to defend its market position. The substantial declines in bookings for the important long-haul destination Reunion were only partly offset by bookings of the alternative destinations Guadeloupe and Morocco. A total of 1.58 million customers booked their tours with tour operators of the Nouvelles Frontières Group, down 6.3% year-on-year.

Distribution

Agency distribution in France included 218 travel agencies, of which 142 were Group-owned and 76 were franchise operations. They exclusively sold tours offered by tour operator Nouvelles Frontières. TUI brand products were exclusively sold through third-party agencies and agencies of Havas Voyages, which was only acquired in 2005. At 79% of tours sold, travel agencies were the key distribution channel for French tour operators, although the portion of new media was continually rising.

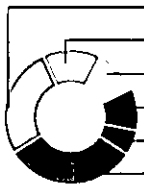
Turkey	9	14
Benelux	8	8
Others	39	39

Summer season

The Dutch travel market showed stagnation whereof direct distribution and internet-based sales grew steadily. In terms of destinations, a shift of trends was observed: bookings of long- and medium-haul destinations declined slightly, while short-haul destinations and above all city trips were very well booked. In this difficult market environment, the tour operators of TUI Nederland recorded uneven trends year-on-year. Thanks to new long-haul destinations, Arke and Holland International grew against the market trend. In the direct selling segment, Kras reported slight declines with constant market shares. The total number of customers of TUI Nederland declined by 2.6% to 1.22 million.



Distribution

Agency distribution by TUI Nederland covered 239 travel agencies, including 125 Group-owned and 114 associated or franchise operations. The decline in the number of Group-owned agencies was attributable to the integration of the Kras agencies into Arke's distribution network. Distribution via the internet and call centres grew once again.

Summer season

The Belgian travel market saw off to a slow start. However, demand for tours picked up in all segments in the course of the year. The tour operators of TUI Belgium expanded their market position in this market environment. Jetair, TUI Belgium's main brand, recorded the strongest growth in the city trip and self-drive tour segments. Growth was also achieved in the air tours segment, primarily due to the Jetairfly.com brand which mainly focused on the flight-only business. This was also the market segment showing the highest growth rates by the Sunjets brand in direct distribution which was very successful in 2006. At a total of 1.59 million customers, TUI Belgium's tour operator business climbed by 6.6%.

Distribution

TUI Belgium's agency distribution system included 127 travel agencies, 73 of which were Group-owned and 54 were franchise operations. Web bookings and direct selling matched the still relatively low levels achieved in the Belgian market in 2005.

* Summer season

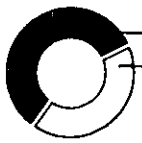
Corsair/Corsairfly

In flight operations, Corsair was faced with strong competition and was additionally impacted by the demand behaviour in the French aviation market. This was partly offset by means of the implementation of ad hoc flights and the leasing out of aircraft. Nevertheless, airline key figures for 2006 declined year-on-year. In 2006, Corsair commissioned two Boeing 747-400s and decommissioned two Boeing 737-400s in the framework of its fleet renewal programme and therefore operated nine aircraft in the course of the summer season, flying to 78 destinations from 11 airports in France.

TUI Airlines Nederland/Arkefly

TUI Airlines Nederland, which had started operation in April 2005 under the Arkefly brand, operated three Boeing 767-300s in the 2006 summer season. In order to meet the rise in demand in the Netherlands in the summer season, additional capacity was chartered.

TUI Airlines Belgium/Jetairfly



TUI Airlines Belgium, operating under the Jetairfly brand, operated a total of eight aircraft in the 2006 summer season: four Boeing 737-400s, two Boeing 737-800s, one Boeing 767-300 and one Fokker 100.

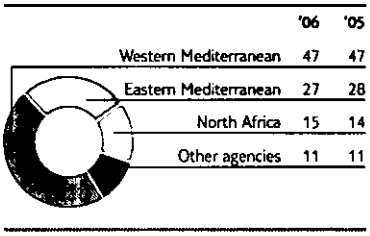
Turnover by destinations (in %)

	'06	'05
Hotels	58	58
Incoming agencies	42	42



Destinations turnover and earnings

The destinations sector (incoming agencies and hotel companies) generated a 12.5% increase in turnover year-on-year in the 2006 financial year. Both incoming agencies and hotel companies increased their turnover year-on-year.

Earnings by the sector declined by 26.5% to € 136 million in the 2006 financial year. This was attributable to the relatively higher level of earnings in 2005, which had benefited from the first-time consolidation (€ 12 million) of the Toufag Group (three Spanish Robinson Clubs) and one-off expenses due to an impairment on hotel resorts in the Turkey destination (€ 30 million) in 2006, and due to a litigation in the context of a leasing contract for a holiday club resort (€ 6 million). Adjusted for these one-off effects, underlying earnings for the 2006 financial year stood at € 173 million. The weaker performance of the Magic Life Group and considerable restraints in hotel bookings of destinations in Turkey and Egypt adversely affected the earnings. On the other hand, the RIU Group recorded a substantial increase in earnings, nearly offsetting the decline in the performance of Magic Life. Overall earnings by the incoming destinations rose slightly. Although increases in e.g. the cost of fuel and admission tickets

and the VAT rate increase were only partly transferred to customers, the gratifying earnings trend of previous years was continued.

Guests by incoming agencies (in %)

	'06	'05
Western Mediterranean	47	47
Eastern Mediterranean	27	28
North Africa	15	14
Other agencies	11	11

Incoming agencies

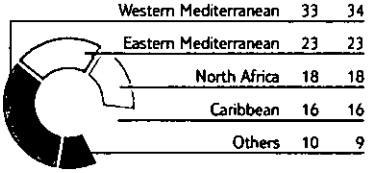
TUI's consolidated and associated incoming agencies catered for a total of 10.55 million guests in 36 countries. Their tourism services mainly comprised transfers and excursions but also the handling of cruise ships as well as group and incentive programmes. Business trends varied from one holiday region and time of the season to another but in most cases were restrained year-on-year. In particular, all agencies in eastern Mediterranean countries reported year-on-year declines in customer numbers. The portfolio was further expanded by means of acquisitions in Thailand and Israel as well as the foundation of a new agency in Oman.

Western Mediterranean

In the western Mediterranean, agencies reported uneven customer trends. At 4.33 million guests, TUI España recorded slight declines in guest numbers in all Spanish destinations; its performance in the Caribbean also declined year-on-year. The total number of guests catered for by TUI España Group was 4.56 million, down 3.5% year-on-year. TUI Portugal benefited from the new destination, Cape Verde Islands, and reported 12.7% growth year-on-year to 0.38 million guests.

Eastern Mediterranean

In the eastern Mediterranean, guest numbers declined slightly overall following an excellent performance in 2005. In Greece, TUI Hellas catered for 1.31 million guests, a decline of 5.5% year-on-year. The Turkish agency TUI Türkiye was impacted by the terrorist attacks in Turkey and the resulting decline in guest numbers. At 0.88 million, guest numbers declined by 4.7% year-on-year. Aeolos, the agency in Cyprus, also reported a decline in guest numbers to 0.39 million, down 4.9% year-on-year. TUI Bulgaria catered for 0.27 million guests, a decline of 2.4%.



North Africa

In Egypt, the Travco agency managed to increase its guest volume and catered for 0.94 million guests, up 7.1% year-on-year. Tunisie Voyages, operating in Tunisia and Djerba, did not match the high level achieved in 2005 and, at 0.46 million guests, recorded a 6.2% decline year-on-year. In Morocco, Holiday Services again stagnated and catered for 0.17 million guests, down 1.1% year-on-year.

Other agencies

The agencies in the remaining destinations recorded slight increases year-on-year, albeit with regional variations. A total of 1.19 million guests used their services, a year-on-year rise of 2.6%. This growth was partly attributable to the new Asian agency Turismo Asia.

Controlled hotel beds per region (in %)

	'06	'05
Western Mediterranean	33	34
Eastern Mediterranean	23	23
North Africa	18	18
Caribbean	16	16
Others	10	9

Hotel companies

The Group's hotel portfolio was grouped together under TUI Hotels & Resorts. It comprises hotel companies in which the Group holds a majority shareholding, joint ventures with local partners, companies in which shareholdings are held and hotels operated under management agreements. In 2006, this portfolio comprised a total of 279 hotels with a capacity of almost 165,000 beds.

TUI Hotels & Resorts recorded a total of 35.7 million overnight stays, 4.6% up year-on-year. At approx. 80%, bed occupancy matched 2005 levels, with individual hotel groups performing differently.

Robinson

Robinson, market leader in the premium segment for club holidays, operated 21 club complexes in nine countries. Overall occupancy was slightly up year-on-year with constant capacity. Declines were reported by individual clubs in Turkey and Austria, while clubs in Kos and Italy reported very good booking levels. The remaining clubs recorded occupancy rates that exceeded the previous year's good levels.

Magic Life

Magic Life, the all-inclusive club brand, operated 17 clubs, all of which were located in the eastern Mediterranean. They defended their positions in Turkey and Egypt in a difficult environment and achieved good occupancy rates on the Greek islands. Given a considerable reduction in capacity, occupancy rates matched 2005 levels.

Dorfhotel

In 2006, Dorfhotel operated two complexes in Austria and one in Germany. Its occupancy rate rose slightly year-on-year while capacity was reduced to some extent.

RIU

In 2006, RIU, the second largest hotel chain in Spain, continued its successful business performance of 2005. Its hotel portfolio comprised 109 hotels, including 29 hotels in long-haul destinations Mexico, the Caribbean and the US. Demand for hotels in the Bahamas and Cape Verde Islands developed particularly well. Occupancy rates also rose in the hotels in Spain, while demand for Madeira was also very good. Overall, RIU hotels recorded a slight rise in capacity and an increase in occupancy rates year-on-year.

Grupotel

Grupotel, another Spanish hotel company, had 33 hotels. Twenty-two of these hotels were located on Majorca, seven on Menorca and four on Ibiza. With a slight reduction in capacity, Grupotel recorded a sound increase in its occupancy rate year-on-year.

Grecotel

Grecotel, the leading hotel company in Greece, operated a portfolio of 21 hotels. Seven of these hotels were located in mainland Greece and 14 in Greek islands. Except Korfu occupancy was slightly down year-on-year, with a considerable increase in capacity.

Iberotel

Iberotel operated 23 hotels. Seventeen of these hotels were located in Egypt, four in Turkey, one in Dubai and one in Sicily respectively. While hotel capacity was considerably increased, occupancy rates fell slightly year-on-year overall. The occupancy rates of Iberotels in Turkey were adversely affected by the terrorist attacks in 2005.

Other hotel companies

The Nordotel, Atlantica, Gran Resort and Sol y Mar hotel chains, whose facilities were mainly marketed in the UK and Scandinavia, operated a total of 34 hotels in the Mediterranean and two hotels in Austria. Hotels on Cyprus and mainland Spain showed good and steady levels of demand, while hotels on the Spanish islands recorded slight decreases from a high level.

The Other Tourism sector comprised the business travel segment and TUI InfoTec's IT services companies. In January 2006, the business travel activities pooled under TQ3 Travel Solutions Management Holding GmbH were sold to the Dutch BCD Holdings N.V. The transaction was closed on 31 March 2006. In September 2006, a majority of 50.1% in TUI InfoTec was sold to the Indian software company Sonata Software Limited. The transaction was completed on 24 November 2006.

Turnover by the sector fell substantially short of 2005 levels since the profit contribution by the business travel operations was no longer generated. Earnings rose considerably to € 141 million. They comprised restructuring expenses of € 3 million and the gain on disposal from the divestment of the business travel activities of a total of € 151 million, generated in the first half of 2006. The divestment of business shares in TUI InfoTec resulted in a loss on disposal of € 11 million.

Shipping

Last year, TUI successfully completed the operative integration of CP Ships, acquired at the end of 2005, into the Hapag-Lloyd organisation.

Shipping Decline in container shipping. Integration of CP Ships successfully completed.

In the 2006 financial year, the shipping division comprised the container shipping and cruise business of the Hapag-Lloyd Group. Overall, the business trend in the 2006 financial year did not continue the extraordinarily good performance of previous years. Container shipping was characterised by a worldwide cyclical low in 2006 triggered by a strongly competitive market environment. In contrast, the cruise market in the German-speaking region showed a positive trend.

Turnover and earnings in shipping

A year-on-year comparison of figures for the shipping division is of limited use. This is due to the acquisition of CP Ships in the fall of 2005, which was only included in consolidated financial statements for 2005 for the period from 25 October 2005 until 31 December 2005.

Shipping – Key figures

€ million	2006	2005	Var. %
Turnover	**6,254.0**	**3,834.2**	**+ 63.1**

Other one-off items	*+ 47.4*	*+ 3.2*	
Underlying EBITA by division	**7.6**	**322.5**	**- 97.6**
Investments	190.3	508.6	- 62.6
Headcount (31 Dec)	8,571	9,077	- 5.6

Due to the integration of CP Ships into Hapag-Lloyd and the associated growth in transport volumes, turnover in the shipping division rose substantially by 63.1% in the 2006 financial year. At € 6.1 billion and an increase of 65.3%, container shipping accounted for the largest portion of turnover by the division. Hapag-Lloyd Kreuzfahrten generated turnover of € 0.2 billion, up 8.5% year-on-year.

In the shipping division, the cost of materials rose by 79.2% to € 5,317 million. This cost increase was primarily driven by the first-time inclusion of CP Ships for a full year as well as the increase in bunker oil costs and land-based logistics costs. As a result, the cost of materials ratio also rose by 7.6 percentage points to 85.0% year-on-year. The considerable increase

in personnel costs of 84.2% to € 480 million reflected a cost increase attributable to changes in consolidation as well as restructuring expenses for the CP Ships integration process.

The balance of other income and expenses fell by 60.6% to € - 252 million. On the other hand, the result from companies measured at equity rose by 82.9% to € 8 million.

Depreciation and amortisation rose by 136.6% to € 318 million due to the expansion of the Group-owned ship and container fleet caused by the acquisition of CP Ships.

Earnings by the shipping division totalled to € - 106 million (previous year: € 319 million), a considerable decline year-on-year. Container shipping contributed € - 114 million to these earnings, with Hapag-Lloyd Kreuzfahrten accounting for € 8 million. Adjusted for the expenses for the integration of CP Ships slighty positive earnings of € 8 million could be achieved.

Integration process

The integration of CP Ships, the container shipping company acquired in October 2005, into Hapag-Lloyd proceeded faster than originally planned. One year after the acquisition, the operative business of CP Ships was fully integrated into Hapag-Lloyd. The centrepiece was the expansion of Hapag-Lloyd's organisational structure and information technology to cover CP Ships' business. The operative integration of CP Ships' services was implemented in two stages. The first stage related to all Trans-Atlantic services, accounting for around half the entire cargo volume of CP Ships. The second stage covered all other services. At the end of the third quarter, all former CP Ships' services were fully integrated into Hapag-Lloyd and have since been operated under the Hapag-Lloyd brand name. In addition, all ships and containers of CP Ships were integrated into Hapag-Lloyd's fleet. The optimisation of the services network, which was substantially expanded due to the acquisition of CP Ships, was also completed according to schedule in the third quarter.

New reporting structure

Since the third quarter of 2006, freight rates and transport volumes have been jointly reported for Hapag-Lloyd and CP Ships, broken down according to the geographical structure of the trade lanes. To that end, CP Ships' key figures for 2006 were calculated accordingly and the relevant key

figures for the 2005 reference periods were statistically determined in order to obtain a basis for comparisons.

Turnover and earnings

In the 2006 financial year, turnover by container shipping rose substantially by 65.3% to € 6.1 billion. This primarily resulted from the integration of CP Ships into Hapag-Lloyd. In addition, the transport volume grew by 2.6% year-on-year on a like-for-like basis to 5,004 standard containers (TEU). However, freight rates in 2006 declined by 2.7% on average in all trade lanes year-on-year.

Earnings did not develop in line with turnover growth. The decline in earnings to € - 114 million reflected the development of freight rates and additionally charges due to cost increases. In the financial year under review, oil price-dependent bunker costs remained at a high level. High charter rates due to capacity shortages in certain vessel sizes and increased costs of landside logistic were also impacting. Freight rates showed declining trends on most routes. In the first half of the year, Hapag-Lloyd reported growth in transport volumes, but as of the third quarter growth came to a halt. Earnings comprised one-off integration costs consisting of restructuring expenses (€ 66 million: lumpsum compensations and vacancy risks) and current integration costs (€ 48 million: closure of agencies and IT restructuring). For the 2006 financial year, expenses totalling € 114 million impacted earnings. Adjusted for the expenses for the above-mentioned integration costs, earnings were almost in balance.

Development in the trade lanes

Due to the acquisition of CP Ships in 2005, Hapag-Lloyd is one of the world's five largest container lines in capacity terms. Hapag-Lloyd defended this position even in the difficult 2006 financial year, characterised by an adverse market environment and integration costs. As at 31 December 2006, Hapag-Lloyd had a fleet of 138 container ships with a joint slot capacity of 467,000 TEU. As a founding member of the Grand Alliance, it was incorporated into the route network of one of the world's leading consortia in international liner shipping. Following the acquisition of CP Ships and the exit of a competitor due to progressive market consolidation, Hapag-Lloyd accounted for the largest portion of the capacity jointly used at a tonnage share of 37% in 2006.

The volumes shipped by Hapag-Lloyd showed different trends in the five trade lanes in the 2006 financial year. Overall, however, transport volumes rose by 2.6% to 5.0 million TEU year-on-year. Nevertheless, this growth did not match the 8.8% growth in the overall market for container transportation (source: Global Insight, November 2006). Positive volume growth effects were caused by the integration of CP Ships' services and the expansion of transport capacity due to the commissioning of seven newly built vessels with a slot capacity of 8,750 TEU for one vessel and 4,250 TEU for six vessels.

* Under comprehension of CP Ships for the entire financial year 2005

Far East

At almost 24%, transport between Europe and Asia accounted for the second largest proportion of Hapag-Lloyd's business. The market volume in this trade lane grew by 12.6% in 2006. The volume of transports from Asia to Europe rose more than twice as strongly as in the opposite direction. This was mainly due to the persistently high export volume in China, which had a positive effect on transports from Asia to Europe, and the ongoing relocation of European production sites to Asian countries. The imbalance of transports rose due to the differences in growth rates in the individual routes, with Hapag-Lloyd managing to limit the number of no-load transports by optimising the rotation of the container fleet.

At 15.0%, the transport volume of Hapag-Lloyd grew faster than the market and rose to 1,183,000 TEU in this trade lane. However, strong competition resulted in declines in freight rates of 7.7%, in particular on the routes from Asia to Europe.

Trans-Pacific

The transport volume in the Trans-Pacific trade lane grew by 10.7% in 2006. Transport growth on the routes from Asia to North America exceeded transport growth in the opposite direction. Overall growth as well as volume growth in one direction was attributable to economic growth in China and the associated exports of low-price consumer goods due to the increase in demand for imports in the US.

In the Trans-Pacific trade lane, Hapag-Lloyd's business growth outperformed the market. The transport volume grew by 15.8% to 948,000 TEU. The imbalance of transports remained relatively stable due to the almost identical growth rates of transports between the two continents. The intensification of competition in the container transport market caused a decline in freight rates of 5.5%.

Atlantic

At 28% of total business, the Atlantic trade lane is Hapag-Lloyd's highest-volume trade lane. It links North America and Europe. In the 2006 financial

year, the market volume in this trade lane grew by 4.8%. This was primarily supported by the high level of demand for European products in North America. Transports from Europe to North America rose slightly more than those in the opposite direction. As of mid-2006, the trade lane was affected by significant restructurings. These included new services which intensified the competitive pressure and therefore impacted the previously positive development of rates and volumes.

At a transport volume of 1,391,000 TEU, Hapag-Lloyd recorded a decline of 11.2%. This decrease was caused by the expected volume losses due to the integration of CP Ships. However, competitive pressure also rose due to the availability of additional container transport capacity in the market. Average freight rates benefited from increases in rates in the first half of 2006, in particular on the routes between northern Europe and North America, and rose by 7.4% year-on-year in the financial year under review. Rate increases were particularly achieved in the first half of the year.

Latin America

In the Latin America trade lane, primarily linking South America with North America and Europe, the market grew by 7.0%. Transports from Europe to Latin America grew almost twice as strongly as those in the opposite direction – unlike the previous year. This was linked with a reduction of the imbalance of transports in 2006.

Hapag-Lloyd's transport volume in the Latin America trade lane totalled 791,000 TEU, down 4.5% year-on-year. This decline was caused by the decrease in transport volumes from Latin America to Europe. Freight rates dropped 5.3% below 2005 levels.

Australasia

The Australasia trade lane covered the inner-Asian services and the services linking the Far East and the Indian subcontinent with Australia and New Zealand. Transport volumes in this market rose by 8.5% in 2006. This was largely attributable to strong growth in inner-Asian container transports.

In the Australasia trade lane, Hapag-Lloyd generated sound growth of 8.9% to 690,000 TEU, with volume growth in the second half of the year far exceeding growth in the first half. Freight rates declined by 6.2%. The decrease mainly resulted from the increase in the proportion of inner-Asian transports, characterised by shorter routes and thus lower average freight rates.

Hapag-Lloyd Kreuzfahrten

Hapag-Lloyd Kreuzfahrten – Key figures

€ million	2006	2005	Var. %
Turnover	160.3	147.7	+ 8.5
EBITA by division	**7.9**	**4.0**	**+ 97.5**
Gains on disposals	–	–	
Restructuring expenses	–	–	
Other one-off items	–	–	
Underlying EBITA by division	**7.9**	**4.0**	**+ 97.5**
Utilisation (in %)	73.5	68.3	+ 7.6

Turnover and earnings

In the 2006 financial year, Hapag-Lloyd Kreuzfahrten again recorded a positive trend, winning new customer groups and thus increasing the number of customers. The average length of cruises also rose. Due to the premium portfolio, average turnover per day also continued to rise year-on-year. At € 160 million, total turnover was 8.5% up year-on-year.

Hapag-Lloyd Kreuzfahrten increased its earnings by 97.5% year-on-year to € 8 million. Earnings were impacted by the increase in fuel costs and an unscheduled dock period of 'Bremen'.

Business trend

The positive trend of the German cruise market continued in 2006, primarily in the volume segment of the 3- and 4-star categories. In 2006, no new vessels in the luxury segment were launched in the Geman market.

Hapag-Lloyd Kreuzfahrten has established itself in the German market in the premium and luxury segments in particular as a provider of lifestyle and expedition tours. In the 2006 financial year, its fleet consisted of four cruise ships, two of which were owned and two chartered. The flagship was the 5-star-plus vessel 'Europa'. It was awarded this category by the Berlitz Cruise Guide for the seventh time in succession and is mainly operated on world tours. The 'Columbus', a four-star vessel, also cruises the world's seven seas and, moreover, is the only ocean-going cruise liner capable of cruising the Great Lakes in North America. The 'Hanseatic' is used for cruises to the Arctic and Antarctic. It is the world's only 5-star expedition vessel with the highest Arctic class. The 'Bremen', a four-star vessel also awarded the highest Arctic class, travels to similar destinations.

In the 2006 financial year, utilisation of three of the vessels rose year-on-year. Since the 'Bremen' had an unscheduled time in a dock its utilisation fell slightly short of 2005 levels. Utilisation of all ships was 73.5%, 5.2 percentage points up year-on-year.

Discontinuing Operations Divestment of discontinuing operations completed.

Due to the intention to sell special logistics and trading, these activities had to be classified as discontinuing operations according to IFRS 5. The remaining activities in the two sectors were already divested in the 2005 financial year and at the beginning of 2006, respectively. Therefore the TUI Group no longer holds any discontinuing operations.

Special logistics

In the course of the concentration of the former logistics division on shipping, the special logistics operations were divested in several steps in the 2004 and 2005 financial years. This process was finalised with the completion of the divestment of VTG AG's rail and tank container logistics business in December 2005. These operations were bought by the Luxembourg-based Compagnie Européenne de Wagons, a shareholding of the US investment company WL Ross & Co. LLC. The rail and tank container logistics business was included in consolidation until 14 December 2005. Earnings of € 5 million mainly resulted from subsequent income.

Special logistics – Key figures

Investments	–	33.0	–
Headcount (31 Dec)	–	–	–

Trading

The trading sector comprised the US steel service companies of the PNA Group. On 14 February 2006, TUI AG sold its indirect 100% interest in the US steel service companies of the PNA Group. With the closing of this transaction on 9 May 2006, which was part of the divestment programme, the concentration of the TUI Group on the two core business areas of tourism and shipping was completed according to schedule. Including the financial liabilities of the companies, taken over by the buyer, the transaction was worth around € 0.3 billion. The trading sector was included in consolidated financial statements until 9 May 2006.

Earnings Group earnings impacted by impairments of goodwill.

The development of the consolidated profit and loss statement was determined by the business trend in tourism and shipping, the Group's core businesses, and the first-time consolidation of CP Ships for a full financial year. Group earnings were additionally impacted by the impairments of goodwill effected in 2006 for the activities in the British, Irish and French markets as well as the hotel company Magic Life.

Development of Group earnings

The preliminary purchase price allocation in the 2005 consolidated financial statements – due to the acquisition of CP Ships – was finalised in October 2006, resulting in minor effects on the Group's profit and loss statement. In order to enhance the comparability of figures, the figures for 2005 were restated accordingly. A corresponding explanation and reconciliation is provided in the section on 'Accounting principles' in the notes on the consolidated financial statements.

Consolidated profit and loss statement

Turnover

Turnover comprised the turnover generated by the tourism and shipping divisions and central operations, covering the Group's real estate companies and the remaining industrial activities besides TUI AG. At € 20.5 billion, Group turnover rose by 12.7% year-on-year. A breakdown of turnover and the development of turnover is presented in the section 'Group turnover and earnings'.

Other income

Other income primarily comprised gains on the disposal of fixed and current assets, income from supplementary transactions, foreign exchange gains, income from cost reimbursements and income from rental and leasing contracts as well as license agreements.

At € 749 million, Other income increased by 24.0% year-on-year. It included the gains on disposals from the divestment of the business travel activities effected in the 2006 financial year (€ 151 million), TUI Nederland's specialist tour operators (€ 12 million) and the divestment of the majority interest in Wolf GmbH (€ 35 million). Additional income was generated from sale-and-lease-back contracts for a total of six aircraft, the sale of an administrative building in the Netherlands and income in the real estate segment from the sales contract for 'Schacht Konrad' concluded back in the 1980s.

Change in inventories and other own work capitalised

The change in inventories and other own work capitalised of € 11 million mainly resulted from a relatively constant inventory in work in progress and finished products accompanied by a concurrent positive development of other own work capitalised.

Cost of materials and purchased services

The cost of materials and purchased services encompassed the cost of raw materials including fuel and supplies, purchased goods and services. In tourism, these costs mainly related to the cost of third-party services such as rental and lease expenses for hotels and the cost of flight and other transport services. In the shipping division, the cost of purchased services primarily related to the cost of third-party container transport, port and terminal costs as well as charter, rental and operating lease expenses for ships and containers.

The cost of materials and purchased services rose considerably by 20.1% to € 15,496 million. This increase resulted from the first-time inclusion of CP Ships business volume in the consolidated financial statements for a full financial year. In tourism and shipping, another major reason for the cost increase was the high average energy costs for aircraft fuel and bunker oil, causing a corresponding cost increase. As a result, the cost of materials ratio stood at 75.5%, an increase of 4.6 percentage points.

Personnel costs

Personnel costs include expenses for wages and salaries, social security contributions as well as pension costs and benefits. They rose by 5.7% to € 2,435 million year-on-year. Besides the effect from the full-year inclusion of CP Ships, both the tourism and the shipping division recorded an adverse effect due to expenses for personnel adjustment measures in the framework of the restructuring programmes.

Depreciation and amortisation

Depreciation and amortisation included the depreciation of property, plant and equipment and the amortisation of other intangible assets as well as write-downs of investment property. At € 667 million, it rose 32.2% on the previous year. This was essentially due to the expansion in shipping.

Impairments

Impairments comprised impairments of goodwill and of other intangible assets, property, plant and equipment and investment property. In the 2006 financial year, impairments totalled € 764 million.

At € 710 million, the largest proportion related to impairments of goodwill in the tourism division. More specifically, impairments of € 480 million were required for the Northern Europe sector in the British and Irish markets, € 210 million in the Western Europe sector for the French market and € 20 million in the destinations sector for the investment in Magic Life.

In addition, impairments of € 54 million were required for intangible assets and property, plant and equipment. In particular, they related to Magic Life and Iberotel hotel complexes in Turkey by € 30 million.

Other expenses

The main items subsumed under Other expenses were: commissions for tourism services, selling and advertising expenses, rental and lease expenses, administrative expenses including contributions, charges and fees, expenses for financial and monetary transactions and other taxes.

Other expenses increased by 1.1% to € 2,517 million. Expenses included an amount of € 11 million for a loss from the sale of the majority interest in TUI InfoTec and a foreign currency exchange loss due to capital adjustments at subsidiaries of € 65 million.

Financial income and financial expenses

Financial income of € 227 million and financial expenses of € 408 million arose in the 2006 financial year. The net financial result was € - 181 million. The financial result included the interest result, net income from investments and marketable securities and the result from the change in the market value of derivative financial instruments.

At € - 226 million, the interest result dropped by 11.1% year-on-year. The decline in the interest result was attributable to the first-time inclusion of the bonds issued in 2005 – for financing the acquisition of CP Ships – for a full financial year and the increase in the average base interest level. Overall the financial result increased year-on-year due to a positive development in value of the non-hedged derivative instruments.

Result from companies measured at equity

The result from companies measured at equity comprised the pro-rated net profit for the year of the associated companies and joint ventures as well as any impairment of goodwill of these companies, if required. At € 51 million, it rose by 29.2% on the previous year due to an increase in the earnings of the companies in the destinations sector measured at equity.

Taxes on income

Income taxes included taxes on profits from ordinary business activities of the continuing operations. They totalled € 128 million, comprising effective income taxes of € 114 million and deferred income taxes of € 14 million. The disproportionate increase in the tax rate resulted from the changed relationship between the profit contributions by tourism and shipping, the Group's core businesses. Due to the tonnage tax unrelated to earnings charged in the shipping division, the reduction in the tax burden of previous years turned into an additional burden due to the negative earnings posted by shipping in 2006.

Result from discontinuing operations

The result from discontinuing operations as defined by IFRS 5 amounted to € 17 million and comprised income tax expenses of € 12 million. It totalled € 29 million before income tax. Earnings comprised an amount of € 6 million from the trading sector sold in the second quarter as well

as subsequent income from the rail logistics and energy sectors sold in previous years.

Group profit for the year

At € - 847 million, Group earnings were clearly negative, primarily due to the impairments of goodwill. Disregarding this factor, earnings still showed a negative variance which resulted from the cyclical impact in the shipping division and the decline in earnings from discontinuing operations, while the tourism division recorded a slight increase in earnings.

Minority interests

Minority interests in Group profit for the year totalled € 47 million and almost exclusively related to companies in the tourism division. The year-on-year increase resulted from the sound business performance of the RIU Group, which accounted for the largest proportion of earnings.

Earnings per share

The interest in Group profit for the year attributable to TUI AG shareholders (after deduction of minority interests and dividends on the hybrid capital) declined to € - 919 million. In relation to the weighted average number of shares of 250,742,835 units, basic earnings per share amounted to € - 3.66 (previous year: € 2.29). Due to the negative Group profit for the convertible bond issued in November 2003, there was no dilution effect to consider. In the previous year, the diluted earnings per share stood at € 2.17.

Development of TUI AG earnings

The annual financial statements of TUI AG for the 2006 financial year were prepared in accordance with the provisions of the German Commercial Code and audited by the auditors, PricewaterhouseCoopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover. They were published in the Federal Gazette and deposited at the commercial registers of the district courts of Berlin-Charlottenburg, HRB 321, and Hanover, HRB 6580. They have been made permanently available on the internet at www.tui-group.com and may be requested in print from TUI AG.

Profit and loss statement of TUI AG

€ million	2006	2005	Var. %

Write-down of investments	2,549.0	1,708.4	+ 49.2
Interest result	- 183.2	- 192.8	+ 5.0
Profit on ordinary activities	**107.6**	**380.6**	**- 71.7**
Taxes	4.0	- 9.7	n. m.
Net profit for the year	**103.6**	**390.3**	**- 73.5**

The earnings situation of TUI AG, the Group's parent company, is mainly determined by the development of earnings of its Group companies, either directly associated with it via profit and loss transfer agreements or distributing their profits to it based on corresponding resolutions. The development of the items of TUI AG's profit and loss statement was also strongly affected by the restructuring of the shipping division implemented in 2006 in the wake of the integration of CP Ships.

Turnover and other operating income

In the 2006 financial year, TUI AG's turnover rose by 82.1% to € 304 million. This turnover almost exclusively related to income from leasing aircraft, container ships and containers to Group companies. Other operating income rose by 33.1% to € 972 million. It mainly included book profits from the disposal of financial assets and property, plant and equipment, foreign exchange gains from currency transactions and earnings from the reversal of provisions and value adjustments.

Expenses

As far as expenses are concerned, the cost of materials rose by 40.6% to € 155 million. This was caused by an increase in expenses for the leasing of aircraft and first-time maintenance costs for the dry dock period of container ships. In the light of a reduction in pension expenses, personnel costs declined by 37.6% to € 76 million. Depreciation and amortisation rose significantly. At € 320 million, it was 226.5% up year-on-year. The rise in the depreciation level was partly attributable to the internal transfer of the Group-owned container ship fleet and container pool to TUI AG implemented in 2006. Other operating expenses rose by 116.8% to € 1,557 million. They included the cost of financial and monetary transactions, fees, charges and other administrative costs arising from TUI AG's corporate centre functions as well as expenses from the measurement of financial instruments and provisioning for investment risks. The increase was primarily attributable to the earnings to be paid into an interim holding in connection with the change in the legal structure of the shipping division in 2006.

Investments

At € 3,672 million, net income from investments was substantially up on the previous year's level. It comprised income from investments as well as profits and losses from profit and loss transfer agreements with associated operative companies of € 115 million. At € 3,426 million, it mostly comprised income transferred from an interim holding and resulting from a restructuring of investments in shipping. Since TUI AG's investment income primarily resulted from relations with consolidated Group companies, it only affected Group earnings to a minor extent.

Write-down of financial investments

At € 2,549 million, write-downs of financial investments rose significantly year-on-year. They comprised write-downs of shareholdings in affiliated companies in the tourism division which had to be impaired to the lower fair value in accordance with commercial law provisions. This primarily affected investments in the UK, Ireland and France. In addition, write-downs of financial investments largely related to value adjustments in the shipping division, which had arisen in connection with the restructuring of the division in the 2006 financial year.

Interest result

At € - 183 million, the interest result was 5.0% up year-on-year due to an increase in interest income from the internal financing of associated companies.

Profit for the year

For the 2006 financial year, TUI AG posted a net profit for the year of € 104 million. The 73.5% year-on-year decline was mainly attributable to the decline in income from investments of operative companies, in particular due to the business trend in shipping. Taking account of an amount of € 2 million profit carried forward and the donation of revenue reserve of € 52 million, profit available for distribution amounted to € 54 million, which should be carried forward to new account.

Net Assets Decrease in balance sheet total. Equity plus non-current financial liabilities covered 68% of fixed assets.

In the 2006 financial year, assets declined considerably due to divestments and the revaluation of goodwill. These changes, representing structural changes of the Group affected both the balance sheet total and the asset and capital structure of the Group and TUI AG.

Asset situation of the Group

The Group's balance sheet total dropped by 15.4% to € 13,014 million. This decline was mainly attributable to changes in the group of consolidated companies and impairments of goodwill. The changes in consolidation were largely caused by the disposals in connection with the divestment of steel trading in the US, business travel activities, Wolf GmbH and TUI InfoTec GmbH.

In the course of the final purchase price allocation in October 2006 – in the context with the acquisition of CP Ships in the fall 2005 – minor effects on the Group's balance sheet items arose. In order to enhance the comparability of figures, the figures for the 2005 financial year were restated. A corresponding explanation and reconciliation is provided in the section on 'Accounting principles' in the notes on the consolidated financial statements.

Development of the Group's asset structure

€ million	31 Dec 2006	31 Dec 2005	Var. %
Fixed assets	9,506.1	11,167.7	- 14.9

Structural ratios

Vertical structures

Non-current assets accounted for 77.9% of total assets, compared with 77.3% in the previous year. Fixed assets totalled 93.7% of non-current assets; they declined by 14.9% to € 9,506 million, above all due to the impairment of goodwill. The capitalisation ratio (ratio of fixed assets to total assets) rose slightly to 73.0%, following 72.6% in 2005.

Current assets accounted for 22.1% of total assets, compared with 22.7% in 2005. The Group's liquid funds were managed with a view to securing the Group's current financial requirements and optimising its interest structures. At the balance sheet date, they totalled € 689 million and were 14.9% up year-on-year. Liquid funds accounted for 5.3% of total assets, compared with 3.9% in 2005.

Horizontal structures

At the balance sheet date, the ratio of equity to non-current assets was 29.7%, compared with 36.7% in 2005. The ratio of equity to fixed assets was 31.7%, following 39.1% in the previous year. The ratio of equity plus non-current financial liabilities to fixed assets was 68.2%, compared with 67.9% in 2005.

Structure of the Group's non-current assets

€ million	31 Dec 2006	31 Dec 2005	Var. %
Goodwill	3,134.8	3,836.2	- 18.3
Other intangible assets	604.9	863.5	- 29.9
Investment property	95.7	90.2	+ 6.1
Property, plant and equipment	5,145.7	5,882.2	- 12.5
Companies measured at equity	407.7	372.7	+ 9.4
Financial assets available for sale	117.3	122.9	- 4.6
Fixed assets	9,506.1	11,167.7	- 14.9
Other receivables and assets	359.5	416.0	- 13.6
Deferred income tax claims	275.6	299.4	- 7.9
Non-current receivables	635.1	715.4	- 11.2
Non-current assets	**10,141.2**	**11,883.1**	**- 14.7**

Development of the Group's non-current assets

Goodwill

At € 3,135 million, goodwill declined by 18.3% due to the impairments of € 710 million required in the framework of the annual impairment test.

Impairments comprised an amount of € 480 million related to the Northern Europe sector, € 210 million related to the Western Europe sector and € 20 million related to the destinations sector.

At € 3,028 million, goodwill after impairments at the balance sheet date largely related to companies in the tourism division: at 50.4% the Northern Europe sector accounted for the largest proportion, followed by the Central Europe sector at 21.1% and the Western Europe sector at 8.9%. The destinations accounted for 19.6%. Goodwill related to companies in the shipping division totalled € 107 million. Goodwill of € 105 million arose on the acquisition of CP Ships after the purchase price was allocated to the acquired assets and liabilities in line with their market value, according to the rules of IFRS 3, in the framework of the final purchase price allocation in October 2006. No goodwill arose on any of the Group's other sectors. At the balance sheet date, goodwill accounted for 24.1% of total assets and 104.1% of equity.

Property, plant and equipment

At € 5,146 million, property, plant and equipment represented the largest item. They declined by 12.5%, with most disposals relating to ships and containers. Property, plant and equipment also comprised leased assets in which Group companies carried the economic ownership of the assets.

At the balance sheet date, these finance leases had a carrying amount of € 344 million, a change of - 22.5% year-on-year.

Development of property, plant and equipment

€ million	31 Dec 2006	31 Dec 2005	Var. %
Real estate with hotels	861.0	869.6	- 1.0
Other land	364.6	400.4	- 8.9
Aircraft	1,343.3	1,317.6	+ 2.0
Ships	1,523.4	2,064.1	- 26.2
Containers	395.9	473.1	- 16.3
Machinery and fixtures	454.5	537.6	- 15.5
Assets under construction, payments on account	203.0	219.8	- 7.6
Total	**5,145.7**	**5,882.2**	**- 12.5**

Companies measured at equity

A total of 54 companies were measured at equity, an increase of two year-on-year. This figure included 22 associated companies and 32 joint ventures. At € 408 million, their value was 9.4% up year-on-year at the balance sheet date, primarily due to additions from pro-rated profits for the year.

Financial assets available for sale

Financial assets available for sale decreased by 4.6% to € 117 million. They comprised shares in non-consolidated subsidiaries, investments and other securities.

Structure of the Group's current assets

€ million	31 Dec 2006	31 Dec 2005	Var. %
Inventories	129.3	150.4	- 14.0
Trade accounts receivable and other receivables[1)]	1,860.0	2,011.4	- 7.5
Current income tax claims	23.4	15.6	+ 50.0
Current receivables	1,883.4	2,027.0	- 7.1
Cash and cash equivalents	688.7	599.2	+ 14.9
Assets held for sale	171.4	714.7	- 76.0
Current assets	**2,872.8**	**3,491.3**	**- 17.7**

[1)] incl. receivables from derivative financial instruments

Development of the Group's current assets

Inventories

At € 129 million inventories decreased by 14% year-on-year. This decrease was mainly due to divestments, in particular the Wolf GmbH.

Current receivables

Current receivables comprise trade accounts receivable and other receivables, current income tax claims and receivables from derivative financial instruments. At € 1,883 million current receivables declined by 7.1% year-on-year. Here also the divestments were the determining factor for the declining development.

Cash and cash equivalents

Cash and cash equivalents rose by 14.9% to € 689 million. They mainly related to subsidiaries and companies not included in the Group's clearing of cash and cash equivalents.

Assets held for sale

Assets held for sale dropped by € 543 million. They comprised assets, in particular the container terminal in Montreal that was taken over in course of the acquisition of CP Ships and real estate, for which the Group was committed to a specific plan to sell.

Off-balance-sheet arrangements

For their business operations, Group companies used assets of which they were not the economic owner in accordance with the IASB rules. Most of these assets were aircraft, hotel complexes or ships for which operating leases, i.e. rental, lease or charter contracts, were concluded at the terms and conditions customary in the sector.

Operating rental, lease and charter contracts

€ million	31 Dec 2006	31 Dec 2005	Var. %
Travel agencies	418.6	401.8	+ 4.2
Hotel complexes	433.6	418.7	+ 3.6
Aircraft	882.4	615.1	+ 43.5
Ships and container	2,219.2	2,224.5	- 0.2
Administrative buildings	350.9	456.5	- 23.1
Other	153.8	290.9	- 47.1
Total	**4,458.5**	**4,407.5**	**+ 1.2**
Fair value	**3,827.1**	**3,847.0**	**- 0.5**

The financial liabilities from operating rental, lease and charter contracts rose by 1.2% to € 4,459 million. At 49.8%, ships and container accounted for the largest share, with aircraft accounting for 19.8% and hotel complexes for 9.7%. The increase mainly resulted from the conclusion of new operating leases in the framework of the renewal of the aircraft fleet.

Further explanations as well as the structure of the remaining terms of the financial liabilities from operating rental, lease and charter contracts are provided in the section 'Other financial liabilities' in the notes on the consolidated financial statements.

Net assets of TUI AG

The asset situation and balance sheet structures of TUI AG are characterised by its function as the TUI Group's holding company. The balance sheet total increased only slightly by 0.8% to € 10.5 billion.

Development of fixed assets

At the balance sheet date, fixed assets accounted for 93.8% of total assets, of which 70.9% were covered by equity and non-current cash and cash equivalents. 77.4% of TUI AG's fixed assets consisted of investments, mainly due to additions of € 933 million in shares in associated companies from the reorganisation of the participation structure in shipping. In terms of intangible assets and property, plant and equipment, the increase was primarily attributable to investments in ships of € 1,273 million and containers with € 334 million.

Development of current assets

The significant decline in the provision of cash and cash equivalents for associated companies also led to a reduction in receivables of € 2,446 million, so that its proportion of overall assets declined to 5.6%. The decrease in receivables from Group companies, of relevance in this connection, was primarily attributable to the realignment of the shipping division.

Abbreviated balance sheet of TUI AG (according to HGB)

€ million	31 Dec 2006	31 Dec 2005	Var. %
Intangible assets/property, plant and equipment	2,236.8	563.2	+ 297.2

Special non-taxed item	42.6	43.8	- 2.7
Provisions	730.2	947.9	- 23.0
Liabilities	6,137.6	5,754.3	+ 6.7
Deferred income	12.6	7.1	+ 77.5
Liabilities	**10,539.5**	**10,455.9**	**+ 0.8**

Financial Position Liquidity safeguarded by long-term financing. Further reduction in financial debt.

The divestments made in the 2006 financial year – in particular the divestment of business travel and trading activities – as well as a further optimisation of property, plant and equipment resulted in a reduction in net debt. Gross financial debt was further reduced through the scheduled redemption of a corporate bond of € 750 million. The issuance of private placements worth € 400 million helped to further safeguard liquidity in the framework of general corporate financing.

The Group's financial position

Principles and objectives of financial management

Principles

The TUI Group's central financial management is in principle run by TUI AG, which acts as the Group's internal bank. Financial management covers all Group companies in which TUI AG directly or indirectly holds a share of more than 50%. It is defined by guidelines covering all cash flow-oriented aspects of the Group's business activities and all transactions that may or will initiate future payment obligations for the Group.

Objectives

The objectives of TUI's financial management are securing permanent and sustainable supplies of sufficient liquidity and capital for TUI AG and its subsidiaries and limiting financial risks from foreign currencies, interest rates and commodity prices. All transactions are oriented to the objective of achieving the financial indicators required to enhance the current credit rating.

Liquidity management

The Group ensures its liquidity in two ways:

- Intra-Group financial clearing: The cash surpluses of individual Group companies are used to finance the cash requirements of other Group companies.
- Syndicated credit facilities and bilateral bank loans: These are used by TUI AG to secure sufficient liquidity reserves. Planning and operations with the banks are based on a monthly rolling liquidity planning system.

Limiting financial risks

The Group companies operate on a worldwide scale and obtain liquidity and capital in the international money and capital markets. This gives rise to financial risks for the TUI Group, mainly arising from changes in exchange rates, interest rates and commodity prices. The key currencies in which Group companies settle their business transactions are euros, US dollars and British pounds sterling. Other currencies of relevance are Swiss francs and Swedish krona. The Group has entered into hedges in more than 20 foreign currencies in order to limit risks from changes in

exchange rates for the underlying transactions. Risks occur due to changes in interest rates arise on liquidity procurement in the international money and capital markets. In order to minimise these risks, the Group uses derivative interest hedges on a case-by-case basis in the framework of its risk management system. Changes in commodity prices affect the TUI Group in particular in terms of the procurement of fuels such as aircraft fuel and bunker oil. Most price risks from fuel procurement are hedged both in tourism and shipping, if price increases cannot be passed on to customers based on contractual agreements.

More detailed information on hedging strategies and risk management as well as financial transactions and the scope of such transactions at the balance sheet date is provided in the section 'Risk Report' in the management report and the section 'Financial instruments' in the notes on the consolidated financial statements.

Development of the Group's capital structure

Group's capital structure

€ million	31 Dec 2006	31 Dec 2005	Var. %
Non-current assets	10,141.2	11,883.1	- 14.7
Current assets	2,872.8	3,491.3	- 17.7
Assets	**13,014.0**	**15,374.4**	**- 15.4**
Subscribed capital	641.7	641.0	+ 0.1
Reserves including net profit available for distribution	1,798.3	3,168.8	- 43.2
Hybrid capital	294.8	294.8	–
Minority interests	275.5	262.2	+ 5.1
Equity	3,010.3	4,366.8	- 31.1
Non-current provisions	1,728.7	2,002.5	- 13.7
Current provisions	692.7	653.6	+ 6.0
Provisions	2,421.4	2,656.1	- 8.8
Non-current financial liabilities	3,477.6	3,213.9	+ 8.2
Current financial liabilities	422.0	1,144.3	- 63.1
Financial liabilities	3,899.6	4,358.2	- 10.5
Other non-current liabilities	55.3	71.5	- 22.7
Other current liabilities	3,627.4	3,921.8	- 7.5
Other liabilities	3,682.7	3,993.3	- 7.8
Liabilities	**13,014.0**	**15,374.4**	**- 15.4**

Capital structures

The impairments of goodwill effected in the financial year under review impacted the TUI Group's capital structures. Overall, non-current capital declined in absolute terms by 14.3% to € 8,272 million but rose in relation to the balance sheet total by 0.8 percentage points to 63.6%. The equity ratio declined to 23.1%, down from 28.4% in 2005. Equity and non-current financial liabilities accounted for 49.9% of the balance sheet total at the balance sheet date, following 49.3% in 2005. The gearing, i.e. the ratio of financial liabilities to equity, declined to 129.5%, having accounted for 99.8% in 2005.

Equity

Due to the issue of 287,280 employee shares in November 2006, the subscribed capital rose by around € 1 million to € 642 million. As a result, the capital reserve, which only comprised transfers from premiums, rose by € 11 million to € 2,396 million. Revenue reserves dropped by € 1,382 million to € - 598 million due to the impairments effected. Equity com-

prised the hybrid bond of € 295 million issued in December 2005. Minority interests accounted for € 276 million or 9.2% of equity.

Provisions

Provisions mainly comprised provisions for pension obligations, current and deferred income tax provisions and provisions for typical operating risks classified as current or non-current, depending on expected occurrence. At the balance sheet date, they accounted for a total of € 2,421 million and were thus € 235 million or 8.8% down on the previous year. This was due to a decrease in provisions for pension obligations caused by the divestments made in the course of the 2006 financial year.

Financial liabilities

Financial liabilities declined by a total of € 459 million to € 3,900 million. They were composed of bonds totalling € 2,353 million, liabilities to banks of € 1,042 million, liabilities from finance leases of € 291 million and other financial liabilities of € 213 million. The classification into current vs. non-current financial liabilities was based on maturities. The decrease of the financial liabilities shown as current debt down to € 422 million was due to the repayment of the corporate bond of € 750 million in October 2006. In particular due to the private placements of over € 400 million, the non-current financial liabilities rose to € 3,478 million. More detailed information, in particular on the remaining terms, is provided under 'Financial liabilities' in the notes on the consolidated financial statements.

Other liabilities

At € 3,683 million, other liabilities dropped by € 311 million or 7.8% year-on-year. This was mainly attributable to the decrease in current trade accounts payable, which had risen significantly in 2005 due to the acquisition of CP Ships.

Ratings by Standard & Poor's and Moody's

In the 2006 financial year, the rating agencies Standard & Poor's and Moody's adjusted their credit ratings of TUI AG. The corporate rating assigned by Standard & Poor's was adjusted to 'BB (negative outlook)', with Moody's changing their rating to 'Ba3 (review for possible downgrade)'. The senior notes of around € 2 billion issued in 2004 and 2005 were assigned a 'BB- (negative outlook)' rating by Standard & Poor's and a 'Ba3 (review for possible downgrade)' rating by Moody's. The hybrid bond issued in December 2005 was partly treated as equity as it was subordinated to other liabilities and did not have a fixed maturity; it was therefore rated 'B (negative outlook)' by Standard & Poor's and 'B2 (review for possible downgrade)' by Moody's. Due to the difficult market environment in 2006, Moody's again changed their corporate and bond ratings at the beginning of 2007 to 'B1 (stable outlook)' and 'B3 (stable outlook)', respectively, for the hybrid bond.

Key financing measures

The 2006 financial year was determined by the planned redemption of a corporate bond, contributing to a further reduction in gross financial debt, and the issue of private placements to take up outside capital as an additional liquidity safeguard in the framework of general corporate financing.

Redemption of a corporate bond

In October 2006, the corporate bond issued in 1999 was fully repaid at its nominal volume of € 750 million at the end of its maturity of seven years.

Private placements

In October and November 2006, private placements were issued with a maturity of around three years and a total volume of € 400 million. The private placements were loan notes worth € 217 million and bonds worth € 183 million, equipped with fixed and variable interest coupons in several tranches.

Bonding facility

TUI Northern Europe's syndicated bonding facility signed in March 2005 was extended by one year until 31 March 2009 in the framework of the first extension option. Under this facility, TUI Northern Europe or its subsidiaries can furnish bank guarantees as security to supervisory authorities as required for the tourism business in the UK, Ireland and Scandinavia. As at 31 December 2006, an amount of around GBP 263 million of the bonding facility had been taken up. In January 2007, the bonding facility was reduced by GBP 30 million to GBP 280 million and the second extension option was exercised, extending its maturity until 31 March 2010.

Interest rates and terms and conditions

Interest rates

In the 2006 financial year, the interest effects of the bonds of € 1.0 billion issued in December 2005 were reported for a full financial year for the first time. The average interest rate rose slightly due to this increase in the weighting of interest rates fixed in relation to the capital market and the increase in interest levels within this period. Both interest rates and maturities of the financial liabilities are detailed under the item 'Liabilities' (financial liabilities and liabilities to banks) in the notes on the consolidated financial statements.

Financing environment

In the course of the 2006 financial year, the environment for financing schemes in the money and capital markets deteriorated slightly for the TUI Group, in particular due to the downgrading of the ratings by Standard & Poor's and Moody's.

Issued bonds

Capital measure	Maturity	Volume € million	Interest rate %
Corporate bond October 1999	October 2006	750.00	5.875
Convertible bond November 2003	December 2008	384.55	4.000
Senior floating rate notes June 2004	August 2009	400.00	3-month-EURIBOR plus 2.10
Senior floating rate notes December 2005	December 2010	550.00	3-month-EURIBOR plus 1.55
Senior fixed rate notes May 2004	May 2011	625.00	6.625
Senior fixed rate notes December 2005	December 2012	450.00	5.125
Hybrid bond December 2005	No fixed maturity	300.00	8.625

Off-balance sheet financing instruments

Operating leases

In the 2006 financial year, off-balance sheet financing instruments (operating leases) were used both in the tourism and shipping divisions in order to further optimise property, plant and equipment. In connection

with the ongoing renewal of the aircraft fleet in tourism in 2006 a total of ten aircraft were delivered. For eight aircraft, operating lease agreements were concluded for the first time; including four aircraft in the course of sale-and-lease-back transactions. Furthermore, for two more aircraft – owned by TUI AG up to now – corresponding sale-and-lease-back agreements were concluded. In shipping, an operating lease was concluded to lease a newly commissioned container ship of 8,750 TEU. Six newly commissioned 4,250 TEU ships were chartered on the basis of long-term charter contracts. Two container ships previously operated under finance leases were converted to operating leases. In addition, seven smaller container ships previously operated as part of CP Ships' fleet, some of which were not used for Group operations, were sold and leased back on the basis of a long-term contract.

The development of the operating rental, leasing and charter contracts is presented in the section 'Net assets' in the management report. More detailed explanations and information on the structure of the remaining terms of the associated financial liabilities are provided in the section 'Other financial liabilities' in the notes on the consolidated financial statements. There were no contingent liabilities related to special-purpose companies.

Liquidity analysis

Liquidity reserve

In the 2006 financial year, the TUI Group's solvency was secured any time by means of cash inflows from operating activities as well as bilateral and syndicated credit agreements with banks.

In December 2005, TUI AG concluded an agreement on a syndicated credit line (multicurrency revolving credit facility) totalling € 1.75 billion. It had an original maturity of three years and two optional extensions for one year each. In October 2006, the first extension option was exercised. In the course of the new programme to reduce tied-up capital, the first measures (divestment of Montreal Gateway Terminals and of vessels and containers) are implemented. Therefore the syndicated credit-line could be reduced to € 1.0 billion in January 2007. In addition, the Group had bilateral credit lines with banks totalling € 0.7 billion. At the balance sheet date, a total of € 0.1 billion of the credit lines was utilised. In addition, cash and cash equivalents of € 0.7 billion were held at the balance sheet date. The TUI Group's cash reserve thus totalled € 2.3 billion.

No restrictions on the transfer of liquid funds

At the balance sheet date, there were no restrictions on the transfer of liquid funds within the Group that might have significantly impacted the Group's liquidity such as restrictions on capital movements or restrictions due to credit agreements concluded.

Change of control

TUI AG's listed bonds – the private placements issued in 2006, two bilateral credit line agreements as well as the syndicated credit line and bonding facility – comprised change of control clauses. A change of control occurs in particular if a third party directly or indirectly acquires more than 50% of the voting shares in TUI AG.

In the event of a change of control, the bond holder must be offered buyback of the corresponding bond. This provision applies to all listed bonds with the exception of the hybrid bond and the convertible bond. For the hybrid bond, an interest step-up has been agreed to take effect in the event of a change of control should the rating be downgraded. For the convertible bond, a right of termination or reduction of the conversion price have been agreed.

Concerning the syndicated credit line, the bonding facility, the private placements and two bilateral credit line agreements, the lenders are entitled to terminate the agreements in the event of a change of control.

The total volume of financing instruments and credit lines with corresponding change of control clauses amounts to around € 4.6 billion at present. In addition, there are no provisions in guarantee, leasing, option or other financial agreements that might produce comprehensive early redemption obligations that would be of significant relevance for the Group's liquidity.

Besides the financial instruments mentioned above, a framework agreement between the Riu family and TUI AG comprised a change of control clause. A change of control occurs if a group of shareholders holds a majority at the Annual General Meeting respectively one third of the members of the shareholders in the Supervisory Board is to be accounted for one group of shareholders. In the event of a change of control, the Riu family is entitled to purchase a minimum of 20% and a maximum of all shares in RIU II S.A. held by TUI.

Summary cash flow statement

€ million	2006	2005	Var. %
Net cash inflow from operating activities	+ 466.5	+ 964.6	- 51.6
Net cash inflow/outflow from investing activities	+ 638.6	- 2,152.8	n. m.
Net cash inflow/outflow from financing activities	- 1,052.7	+ 1,306.5	n. m.
Change in cash and cash equivalents	**+ 52.4**	**+ 118.3**	**- 55.7**

Net cash inflow from operating activities

The net cash inflow from operating activities of € 467 million resulted from Group earnings, which totalled € - 599 million, adjusted for depreciation and amortisation, interest expenses and gains on the disposal of fixed assets. The major contribution came from the operating result in the tourism business.

Net cash inflow from investing activities

The net cash inflow from investing activities totalled € 639 million. Cash outflows of € 746 million primarily resulted from the investment volume in tourism and shipping. Cash inflows mainly resulted from the disposal of property, plant and equipment totalling € 610 million and of consolidated companies and financial assets totalling € 775 million, in particular the divestment of the business travel activities and the remaining industry shareholdings.

Net cash outflow from financing activities

The net cash outflow from financing activities amounted to € 1,053 million. Major items were the cash inflow from the private placements issued in October and November 2006 totalling € 400 million. Interest payments caused a total cash outflow of € 240 million, down 24.2% on the previous

year. The redemption of bonds and financial debt resulted in payments of € 1,223 million, down 23.3% on the previous year.

Development of cash and cash equivalents

€ million	2006	2005	Var. %
Cash and cash equivalents at the beginning of the period	**607.5**	**481.1**	**+ 26.3**
Changes due to changes in consolidation	+ 25.7	- 2.0	n. m.
Changes due to changes in exchange rates	+ 3.1	+ 10.1	+ 69.3
Cash changes	+ 52.4	+ 118.3	- 55.7
Cash and cash equivalents at the end of the period	**688.7**	**607.5**	**+ 13.4**

The detailed cash flow statement and more detailed information on the cash flow statement are provided in the consolidated financial statements and the section 'Notes on the cash flow statements' in the notes on the consolidated financial statements.

Analysis of investments

The development of fixed assets including property, plant and equipment and intangible assets as well as shareholdings and other investments is presented in the section 'Net assets' in the management report; additional explanatory information is provided in the notes on the consolidated financial statements.

Additions to fixed assets

€ million	31 Dec 2006	31 Dec 2005	Var. %
Goodwill	9.1	136.1	- 93.3
Other intangible assets	45.9	43.8	+ 4.8
Investment property	7.5	16.5	- 54.5
Property, plant and equipment	685.4	901.9	- 24.0
Companies measured at equity	65.1	96.4	- 32.5
Financial assets available for sale	35.4	15.8	+ 124.1
Total	**848.4**	**1,210.5**	**- 29.9**

Additions to property, plant and equipment by divisions

At € 685 million or 80.8%, property, plant and equipment accounted for the largest portion of additions to fixed assets. This item included mainly additions of € 496 million or 72.4% in the tourism division, while shipping accounted for € 184 million or 26.8% of additions. At € 6 million, only 0.8% of the additions to property, plant and equipment related to central operations.

Investments in property, plant and equipment by divisions

€ million	2006	2005	Var. %
Tourism	495.9	511.8	- 3.1
Shipping	183.9	383.8	- 52.1
Central operations	5.6	6.3	- 11.1
Continuing operations	685.4	901.9	- 24.0
Discontinuing operations	–	–	–
Total	**685.4**	**901.9**	**- 24.0**

Tourism

In the tourism division, investments focused on flight operations which, accounting for € 230 million of investments. The largest portion was used for the fleet renewal programme. A volume of almost € 184 million was invested in the hotel sector.

Shipping

In the shipping division, investments accounted for almost € 184 million, including an amount of around € 38 million invested in container equipment. Besides investments associated with the integration of CP Ships, additions rose by a further € 23 million due to the capitalisation of dry dock costs.

Depreciation of property, plant and equipment by divisions

€ million	2006	2005	Var. %
Tourism	334.2	303.7	+ 10.0
Shipping	255.3	126.6	+ 101.7
Central operations	7.5	12.3	- 39.0
Continuing operations	597.0	442.6	+ 34.9
Discontinuing operations	–	–	–
Total	**597.0**	**442.6**	**+ 34.9**

Depreciation of property, plant and equipment totalled € 597 million, covering 87.1% of additions. This indicator stood at 67.4% in tourism and 138.8% in shipping.

Investment obligations

Order commitments

Due to agreements concluded in the 2006 financial year or in previous years, order commitments for investments totalled € 3,140 million at the balance sheet date, € 700 million of which were related to scheduled deliveries in the 2007 financial year. More detailed information is provided in the section 'Other financial obligations' in the notes on the consolidated financial statements.

Tourism

In tourism, order commitments for investments mainly related to the aircraft fleet renewal programme. The programme in France was completed with the addition of two additional Boeing 747-400s. In Germany, the renewal of older Boeing 737s will be started on schedule. In this connection, TUI had concluded a purchasing agreement with Boeing on the purchase of ten 737-800s in December 2004. Six of these aircraft were delivered in the first half of 2006, while the remaining four aircraft are to follow in the first half of 2007. Besides this purchasing agreement, options for the purchase of a further 61 aircraft to be delivered by 2013 were exercised. In addition, 25 delivery options for the period 2007 to 2011 were transferred to a third party.

Shipping

In the shipping division, Hapag-Lloyd had ordered a total of five container ships with a capacity of 8,750 TEU each at the balance sheet date, to be delivered by 2008, with three ships already to be delivered in the 2007 financial year. Two ships were directly ordered, with long-term leases with purchase options concluded for three ships, including two purchase options already exercised in 2006. In 2003, CP Ships had concluded long-term charter contracts for nine container ships with a capacity of 4,250 TEU each in order to extend its fleet. Six of these ships were delivered in the 2006 financial year, and two ships will follow by mid-2007.

Financial position of TUI AG

The financial position of TUI AG was mainly determined by its function as the TUI Group's parent company and central financing entity. The changes in equity outlined for the TUI Group, in particular changes in the capital stock and reserves as well as bonds, were also reflected in TUI AG's balance sheet.

Abbreviated balance sheet of TUI AG (according to German Commercial Code)

€ million	31 Dec 2006	31 Dec 2005	Var. %
Fixed assets	9,888.4	7,405.4	+ 33.5
Current assets	602.2	3,043.2	- 80.2
Prepaid expenses	49.0	7.3	+ 571.2
Assets	**10,539.5**	**10,455.9**	**+ 0.8**
Equity	3,616.5	3,702.8	- 2.3
Special item with an equity portion	42.6	43.8	- 2.7
Provisions	730.3	947.9	- 23.0
Bonds	2,709.5	3,459.6	- 21.7
Financial liabilities	641.4	402.9	+ 59.2
Other liabilities	2,786.6	1,891.8	+ 47.3
Liabilities	6,137.5	5,754.3	+ 6.7
Deferred income	12.6	7.1	+ 77.5
Liabilities	**10,539.5**	**10,455.9**	**+ 0.8**

Development of TUI AG's capital structure

Equity

At € 3,617 million, TUI AG's equity declined slightly by 2.3%. The subscribed capital of TUI AG consisted of no-par value shares, each representing an identical share in the capital stock. The proportionate share in the capital stock per no-par value share was around € 2.56. In July 2005, the previous bearer shares were converted to registered shares. The issue of 287,280 employee shares in November 2006 hardly impacted the amount of subscribed capital. It rose by € 1 million to € 642 million. Therefore, the subscribed capital was represented by 251,019,855 shares at the end of year under review, the capital reserves stayed nearly constant at € 2,398 million, whereas the revenue reserves increased by 11.0% to € 523 million. At € 54 million, net profit available for distribution was € 141 million down year-on-year. The equity ratio declined by 1.1 percentage points to 34.3%, down from 35.4% in 2005.

The special item with an equity portion remained almost unchanged. As in 2005, it continued to comprise tax value adjustments on fixed assets.

Provisions

Provisions declined by 23.0% to € 730 million. They comprised provisions for pensions of € 224 million (previous year: € 216 million) and other provisions of € 506 million (previous year: € 732 million).

Liabilities

TUI AG's liabilities totalled € 6,138 million and thus rose by € 383 million or 6.7% year-on-year. This was attributable to a substantial increase in other liabilities.

Authorisation of the Executive Board for purchasing and issuing shares

The Annual General Meeting of 10 May 2006 authorised the Executive Board of TUI AG to purchase own shares of up to 10% of the subscribed

capital. The authorisation will expire on 9 November 2007 and replaces the authorisation granted by the Annual General Meeting of 11 May 2005. To date, the possibility of acquiring own shares has not been used.

On the basis of a resolution by the Annual General Meeting of 10 May 2006, conditional capital of € 100.0 million was available at the balance sheet date. According to the resolution, bonds with conversion options or warrants as well as profit participation rights and income bonds with a total par value of up to € 1.0 billion may be issued by 9 May 2011.

In addition, the Group had unused authorised capital of € 317.0 million, including authorised capital of € 7.0 million for the issue of employee shares. The Executive Board of TUI AG has been authorised to use this capital by 17 May 2009. In addition to the authorised capital for the issuance of employee shares, the Annual General Meeting of 10 May 2006 resolved to create authorised capital for the issuance of new shares against cash or non-cash contribution totalling € 310.0 million. The issue of new shares against non-cash contribution was limited to € 128.0 million. The Executive Board of TUI AG has been authorised to use this capital by 9 May 2011.

Report on Subsequent Events

After the completion of the 2006 financial year, there was an event of special relevance to the TUI Group.

Transaction

On 22 February 2007, CP Ships Limited made a disposal agreement about the essential assets of Montreal Gateway Terminals to Montreal Gateway Terminals Limited Partnership, a company specifically founded by Morgan Stanley Infrastructure Partners for this purpose. Montreal Gateway Terminals had been part of the business of CP Ships, acquired in 2005. Montreal Gateway Terminals is the second largest container terminal in Canada and the third largest terminal on the eastern coast of North America. This divestment was effected in the framework of the reduction in tied-up capital announced by TUI AG.

Montreal Gateway Terminals Limited Partnership acquired the container terminal business by means of an asset deal. TUI continues to hold a 20% interest in the new Montreal Gateway Terminals Limited Partnership via CP Ships Limited. The purchase price for the transaction was € 300 million. Hapag-Lloyd remains an important customer with a long-term terminal contract.

Economic effects

In the 2006 financial year, Montreal Gateway Terminals contributed € 92 million to Group turnover. This amount was shown under Shipping in the segment report. Earnings before interest, taxes and amortisation of goodwill (EBITA) totalled € 15 million.

Risk Report Proven systems for control and management of risks.

The TUI Group operates on a worldwide scale in its two core businesses, tourism and shipping. Due to the nature of these operations, they are exposed to various risks, depending on the type of business. These risks may arise from the Group's own entrepreneurial action or external factors. In order to identify and actively control these risks, the Group has introduced Group-wide risk management systems.

Risk policy

TUI's risk policy is aimed at steadily and persistently enhancing the Group's corporate value, achieving its medium-term financial goals and securing the Company's ongoing existence in the long term. It is thus an integral element of the Group's corporate policies.

In both core businesses, the TUI Group subsidiaries operate in markets that showed above-average growth in recent years and will continue to grow in future. TUI is the European market leader in the tourism business in terms of turnover, and one of the world's five largest container shipping lines in terms of capacity. In order to be able to benefit from the market opportunities and tap the associated potential for success, risks must be borne to an appropriate extent. The aim and object of the risk management system is to identify any risks early on, assess them and limit them to such an extent that the economic benefit outweighs the risks.

Risk management

In order to meet its overall responsibility within the Group, TUI AG's Executive Board has set out guidelines incorporating the essential elements of the risk management system. They are applicable to all Group companies. The Board has also installed monitoring and controlling systems to regularly measure, assess and control the development of business and the related risks. Responsibility for the early identification, reporting and handling of business risks lies with the management of the respective companies, with the control functions resting with the relevant higher management level.

The Executive Board and the operational management employ multi-stage integrated reporting systems for risk management purposes. On the basis of the planning and control system, deviations of actual from projected business developments are analysed on a monthly basis so that risks jeopardising the Company's performance are timely recognised.

In addition, special independently organised reporting systems have been introduced for the early identification of risks threatening the existence

of the Company. Reporting of such risks is based on a separate system, organised on its own alongside operative risk management. The aim of early risk identification is to provide reports, both on a regular and case-by-case basis, identify potential risks within the Group companies, assess these risks on the basis of uniform parameters and summarise them in an overall Group-wide system. The risk management measures to be taken are implemented within the operative entities and mapped and supported by means of operative systems. Nevertheless, early risk identification (German Act on Control and Transparency, KonTraG) is interrelated with operative risk management.

The Supervisory Board was involved by means of regular reports and, where required, ad hoc reports provided by the Executive Board in the form of interim reports or reports presented at its meetings.

Risk management is supported by the Group-wide auditing departments, which examine transactions and operational processes both regularly and on a case-by-case basis, checking that they function properly and are safe and efficient.

The methods and systems used in risk management and the frequency of controls are tailored to the respective types of risks and are continually checked, modified and adjusted to changing business environments. The systems for early identification of risks threatening the Group's existence were audited by our auditors in the course of the audit of the 2006 annual financial statements.

The regular risk reporting system did not identify any specific risks threatening the continued existence of individual Group companies or the entire Group, neither during the 2006 financial year nor at year-end.

Risk transfer

Risk management also encompasses the transfer of risks to third parties. Damages and liability risks from day-to-day business operations are covered by insurance policies as far as possible. The Group has concluded, inter alia, liability and property insurance policies customary in the industry, as well as policies for its flight and maritime operations. The extent of the insurance cover is regularly reviewed and adjusted where necessary.

Risks related to the future development

Economic and industry risks

The TUI Group's activities in the tourism and shipping divisions are exposed to macroeconomic and industry-specific risks. A detailed assessment of the overall economic development in the near future is provided under 'Report of expected developments'. Specific risks may arise in both divisions from the development of commodity prices, in particular oil products, as well as currency exchange and interest rates. These developments may, inter alia, result in situations in which economic growth in countries of relevance to the TUI Group's business may be weaker than expected. This may have an adverse effect on demand for services both in tourism and shipping and entail cost increases in the procurement of purchased materials and services or products necessary for operations.

Risks from acquisitions and divestments
The acquisition of CP Ships was an essential element of TUI's growth strategy in container shipping. The integration of CP Ships into Hapag-Lloyd AG is expected to create significant synergy effects intended to create a positive impact on the TUI Group's profitability and cash flow. Although the integration processes were carefully planned and prepared and the potential earnings effects were assessed on a conservative basis, there is nevertheless a risk of the synergy effects proving to be lower than expected.

The acquisitions effected in the course of the realignment of the TUI Group have given rise to goodwill. A negative economic trend causing a decline in expected future cash flows gives rise to impairments (for instance amortisation of goodwill) impacting consolidated earnings.

Risks from information technology
Business processes in tourism and shipping are based on comprehensive information technology systems to a large extent. In tourism, for instance, booking systems, yield management and all administrative areas are based on IT systems. Moreover, the internet is growing in importance, not only as a distribution channel but also as basic technology for the automation of business processes between business partners. IT systems are also used in the shipping division for the worldwide booking and implementation of transport services as well as capacity and yield management.

In order to guarantee the security and efficiency of business processes, IT systems are continually reviewed and further developed. This also applies to existing measures to ensure data safety aimed at controlling system access and limiting default risks. This is exemplified by the implementation of firewalls, virus scanners and the complete mirroring of all application-critical systems, websites and infrastructure components in two physically separate computer centres.

Business risks in tourism

In the tourism division, customers' consumer and thus booking behaviour is essentially affected by the general economic environment and social factors. Political events, natural disasters, epidemics or terrorist attacks may affect customers' decisions and impair the development of business in individual countries. Market risks increase with fiercer competition and the emergence of new market participants operating new business models, such as web-based distribution or low-cost airlines which may adversely impact sales, including agency distribution, by Group-owned companies.

A substantial business risk in tourism relates to the seasonal planning of flight and hotel capacity. In order to plan ahead, tour operators must forecast demand and anticipate trends in holiday types and destinations. TUI's business model is well suited to countering the ensuing occupancy risks:

- The Group's own airline and hotel capacity is considerably lower than the number of holidaymakers handled by its tour operators. This enables the Group to keep its product portfolio flexible by procuring third-party flight capacity and hotel beds and concluding corresponding contractual agreements.

- The Group's presence in all major European markets allows it to limit the impact of regional fluctuations in demand on capacity utilisation in the destinations.
- Additional opportunities are offered by multi-channel distribution and direct and modular marketing of capacity via new media such as the internet.

Business risks in shipping

The material risks concerning the development of business in container shipping arise from external factors. If world trade and investment cycles in the shipping sector show an adverse trend, this may result in shipping capacity overhangs and thus adversely affect marine freight rates. In the individual trade lanes, cyclical fluctuations in regional economic activity may influence imbalances in transport volumes. This risk typical of the industry is countered by means of an efficient capacity control system. Other essential factors contributing to limiting the business risks are:

- activity in the East-West routes, i.e. trade lanes with long-term attractiveness,
- expansion of operations in the North Atlantic and routes to and from the Americas by means of the acquisition of CP Ships,
- membership of the Grand Alliance, one of world's leading liner shipping consortium.

Financial risks

The TUI Group operates a central finance management that executes all essential transactions with the financial markets. TUI AG acts as the Group's internal bank: it organises intra-Group financial settlement, ensures the Group companies' liquidity and is in charge of the Group's financial risk management. The trading, settlement and controlling functions are segregated.

The individual financing categories, rules, competences and workflows as well as the limits for transactions and risk positions are defined by guidelines. As a matter of principle, all hedges entered into by the Group must be supported by underlying recognised or future business transactions. Compliance with the guidelines and limits is constantly monitored. Recognised standard software is used for monitoring, evaluating and reporting on the hedges.

Financial instruments

In the TUI Group, financial risks mainly arise from payment transactions in foreign currencies and from the need for fuel (aviation fuel and bunker oil) as well as financing through the money and capital markets. In order to limit risks arising on changes in exchange rates, market prices and interest rates for the underlying business transactions, TUI uses derivative financial instruments not traded on exchanges, primarily fixed-price transactions (e.g. forward transactions and swaps) and, to a lesser extent, options. These transactions are concluded at arm's length with first-rate companies operating in the financial sector. Currency translation risks from the consolidation of Group companies not reporting in euros are not hedged.

Detailed information about hedging strategies, risk management and the scope of financial transactions at the balance sheet date is provided in the section on 'Financial instruments' in the notes on the consolidated financial statements.

Liquidity management

In the course of the annual Group planning process, TUI prepares a multi-annual finance budget. In addition, TUI operates a monthly rolling liquidity plan covering a period of one year. The liquidity plan covers all centrally controlled financing categories of the Group.

Both money and capital market instruments as well as bilateral bank loans and syndicated credit facilities are used to meet the Group's financing requirements. At the balance sheet date, TUI AG had bilateral credit facilities of € 0.7 billion available, of which € 0.1 billion were drawn. In addition, the Company had a syndicated credit facility of € 1.75 billion. In the framework of the new programme to reduce tied-up capital and the completion of the implementation of the first few measures, TUI reduced its syndicated credit facility to € 1.0 billion in January 2007. The maturity of this credit facility is two years for the amount of € 1.0 billion and one further year for an amount of € 0.8 billion. In addition, the Group has an extension option for one further year. At the balance sheet date, this syndicated credit facility was not used. Due to the bilateral credit facilities and syndicated credit facility, TUI always has a sufficient liquidity reserve.

In order to meet its long-term financing requirements, TUI had taken up a total of € 2.71 billion in the capital market as at the balance sheet date, comprising a total of six bonds with different structures and maturities. Future repayment or refinancing risks were limited by means of an optimisation of the maturities and volumes of these bonds.

In order to meet the regulatory requirements (in particular by the Civil Aviation Authority) placed on TUI Northern Europe as a provider of services in tourism in the UK, Ireland and Scandinavia, TUI Northern Europe Limited has concluded a syndicated bank facility (bonding facility in the form of credits by way of bank guarantees) of 0.3 billion GBP. The bonding facility will mature on 31 March 2009 for a volume of 0.3 billion GBP with the possibility of an extension for one further year upon the exercise of the extension option in February 2007 for a volume reduced to 0.2 billion GBP.

The syndicated credit facility, the syndicated bonding facility and the financial liabilities taken up via the capital market comprise a number of obligations: Concerning e.g. the syndicated credit facility and the syndicated bonding facility, the obligations comprise the duty to comply with financial covenants covering (a) compliance with a fixed-charge cover ratio, i.e. the relative charge on the Group from the interest result and the lease and rental expenditure; and (b) compliance with a leverage ratio, e.g. the relative charge on the Group from financial liabilities and off-balance sheet debt (fair value of financial liabilities from operating lease, rental and charter agreements). The covenants also restrict TUI's scope for encumbering or selling assets, acquiring other companies or shareholdings and

effecting mergers. The capital market instruments as well as the syndicated credit facility and bonding facility comprise additional contractual clauses typical of financing instruments of this type. Non-compliance with these obligations awards the lender the right to call in the facilities or terminate the capital market instruments. TUI's business transactions and the expected business trend are continually checked for compliance with contractual provisions.

More detailed information on financing and financial debt is provided under 'Financial position' in the management report and 'Liabilities' in the notes on the consolidated financial statements.

Risks from pension obligations

Pension funds have been set up to fund pension obligations, in particular in the UK. These funds are managed by independent fund managers who invest part of the fund assets in securities. The performance of these funds may thus be unfavourably affected by the development on financial markets and may have an adverse effect on earnings.

The TUI Group's fully or partly funded pension obligations totalled € 1.93 billion, while the fair value of external pension plan assets amounted to € 1.40 billion. At the balance sheet date, the funded pension obligations thus exceeded pension plan assets by € 0.53 billion. Combined with the fair value of pension obligations not covered by funds of € 0.54 billion, this results in a net fair value of pension obligations of € 1.07 billion, fully covered by pension provisions. More detailed information about the development of pension obligations is provided under the item 'Provisions for pensions and similar obligations' in the notes on the consolidated financial statements.

Other financial liabilities

At the balance sheet date, the TUI Group had other financial liabilities of € 6.1 billion (previous year: € 4.2 billion). These liabilities mainly related to order commitments for investments and tourism services. Around 28% of the total amount had a remaining term of up to one year.

At the balance sheet date, financial liabilities from operating lease, rental and charter agreements amounted to € 4.5 billion (previous year: € 4.4 billion). At € 2.2 billion, ships and container accounted for the largest proportion of financial liabilities from operating lease, rental and charter agreements, with € 0.9 billion relating to aircraft, € 0.4 billion to hotels and € 1.0 billion to other buildings and Other. Around 27% of the total amount had a maturity of up to one year.

Detailed information on other financial liabilites is provided in the corresponding section in the notes on the consolidated financial statements.

Environmental risks

The present companies of the TUI Group as well as companies already divested are or were involved in the utilisation, processing, extraction, storage or transport of materials classified as damaging to the environment or human health. TUI takes preventive measures to counter envi-

ronmental risks arising from current business transactions and has taken out insurance policies for certain environmental risks. Where environmental risks have not passed to the buyers in divestment transactions, TUI has formed appropriate provisions in the balance sheet in order to cover potential claims.

Contingent liabilities and litigation

Contingent liabilities are potential liabilities not recognised in the balance sheet. At the balance sheet date, they amounted to € 214 million (previous year: € 306 million) and mainly related to warranties and guarantees to settle ongoing transactions from former plant engineering and shipbuilding activities. Due to the reduction in warranties and guarantees, this amount continued to decline steadily in the 2007 financial year.

Neither TUI AG nor any of its subsidiaries are involved in pending or foreseeable court or arbitration proceedings which might have a significant impact on the Group's economic position. This also applies to actions claiming warranty, repayment or any other compensation brought forward in connection with the divestment of subsidiaries implemented over the last few years. As in previous years, the respective Group companies formed appropriate provisions to cover potential financial charges from court or arbitration proceedings.

Information about contingent liabilities and litigation is also provided in the corresponding sections in the notes on the consolidated financial statements.

Remuneration Report

Upon the suggestion of the Presiding Committee, the Supervisory Board regularly discusses and reviews the structure of the remuneration system for the Executive Board. The remuneration of the Executive Board members is fixed by the Presiding Committee, which orients its decision to the size and global operations of the Company, its economic situation and the level and structure of the remuneration of Executive Board members in comparable companies. Other criteria taken into consideration are the responsibilities held and contribution made by each individual Board member.

Remuneration of the Executive Board

The remuneration of TUI AG's Executive Board members comprises both fixed and variable components. The variable components are a management bonus and a bonus with a long-term incentive effect (long-term incentive programme). The level of the bonus depends on the Group profit for the year and on earnings by the divisions in the completed financial year (in the previous year on the payment of the dividend) and personal assessment factors. The compensation is calculated on the basis of the respective earnings before interest, taxes and amortisation of goodwill (EBITA). In addition, Executive Board members were entitled to a company car with chauffeur as well as special travel discount rates.

In the framework of the long-term incentive programme, the Board members were granted a bonus for the 2006 financial year, translated into phantom shares in TUI AG on the basis of an average stock price. The calculation for granting phantom shares was based on Group earnings before taxes and amortisation of goodwill (EBTA). The translation into phantom shares is based on the average stock price of TUI shares at the 20 trading days following the Supervisory Board meeting at which the annual financial statements is approved. Thus, the number of phantom shares granted in a financial year is not determined until the subsequent year. Following a lock-up period of two years, the individual Executive Board members are free to exercise their right to cash payment from this bonus within previously determined periods of time. By resigning from the Executive Board the blocking period is not applicable. The level of the cash payment is based on TUI AG's average stock price over a period of 20 trading days after the exercise date. There are no absolute or relative return or share price targets. A cap is provided for exceptional unforeseen developments.

Development of the number of phantom shares

	Number
Balance as at 31 December 2005	**430,151**
Phantom stocks granted for the 2005 financial year	123,036
Phantom stocks exercised	- 75,525[1]
Increase/decrease of phantom stocks	+ 25,849
Balance as at 31 December 2006	**503,511**

[1] at Mr Ebel's resignation

As in 2005, former Executive Board members held no phantom shares as at 31 December 2006.

Provisions of € 8,481 thousand (previous year: € 9,421 thousand) were formed for the entitlements from the long-term incentive programmes including the issue of phantom shares for the 2006 financial year.

In the 2006 financial year, the Executive Board members recorded a loss of € 1,107.1 thousand (previous year: € - 250.6 thousand) from the measurement of the phantom shares.

As in the 2006 financial year, no advances or loans were granted to the Executive Board members.

Compensation in the event of a termination of employment

a) Pension entitlements

Pension payments were made to former Executive Board members who had either reached the legal retirement age or were permanently incapa-

citated. The pension was calculated on the basis of a pensionable pay oriented to the fixed compensation of an Executive Board member. The pension level was determined as a percentage of pensionable pay. This percentage was 50% for the first employment contract period. Depending on the number of employment contract periods or due to individual arrangements, this percentage may rise up to 80%. A special provision applies to one foreign Executive Board member, whose pension accounts for two thirds of pensionable pay. Pension entitlements are vested rights after the expiration of the first period of office.

Under certain circumstances, widows of Executive Board members obtain a widow's pension of 60% of the pension for their lifetime or until remarriage. Children of Executive Board members obtain an orphan's pension of 20% of the pension if they have lost one parent and 25% of the pension if they have lost both parents at maximum until they reach the age of 27.

Pension entitlements/transfers to pension provisions or funds

€ '000	Annual pension	Transfers to pension provisions or funds
Dr. Michael Frenzel (Chairman)	720.0	678.9

Sebastian Ebel[1]	200.0	–
Dr. Peter Engelen	240.0	178.3
Rainer Feuerhake	424.0	346.2
Christoph R. Mueller	200.0	83.3
Peter Rothwell	444.0	29.6

[1] Employment terminated on 31 August 2006.

b) Transitional compensation

Executive Board members retiring upon the expiry of their term of office either for lack of reappointment or renewal of their term of office or because the Company terminates their contract of employment are entitled to transitional compensation until the date at which the pension payments fall due. For contracts of employment effective before 1 September 2006, the transitional compensation corresponds to the pension entitlement. For contracts effective after 1 September 2006, the transitional compensation accounts for 50% of the pension entitlement. Any income received by the beneficiary from self-employment or employment, from pension or transitional payments by other companies or insurance benefits is deducted from the transitional compensation entitlement. The special provision applicable to a foreign Executive Board member does not include an entitlement to transitional compensation payments.

c) Change of control

In the event of a change of control – i.e. if one or several shareholders acquire the majority of voting rights in TUI AG – every Executive Board member is entitled to settlement of the financial claims for the remaining term of the contract of employment as a Board member if the member loses his office due to a change of control or exercises the right, specifically accorded for this case, to withdraw from office and give notice to quit his contract of employment as Board member. The performance-related compensation and the allotment of phantom shares for the remaining term of the contract of employment is based on the average remuneration received over the last three financial years. The same principle applies to the compensation for Supervisory Board memberships received from Group companies to date.

The employment contracts for Executive Board members do not comprise an explicit compensation provision for the event of a premature termination of the employment relationship. However, a compensation may be paid under an individual termination agreement.

At the balance sheet date, pension commitments for active Board members amounted to € 20,663 thousand (previous year: € 18,675 thousand). Pension commitments for former members of the Executive Board or their surviving dependants totalled € 47,811 thousand (previous year: € 46,671 thousand) at the balance sheet date.

The pension commitments for German beneficiaries were funded via pledged reinsurance policies. Since the reinsurance policies fully covered the commitments for the pension obligations for former and active Board members, they were deducted from pension commitments as an asset. The pension commitment for one former Board member was covered by a fund. Transfers to pension provisions for active Board members totalled € 1,988 thousand (previous year: € 6,020 thousand) in 2006.

Total compensation for former Executive Board members and their surviving dependants amounted to € 5,652 thousand including one-off termination payments of € 2,000 thousand paid to a retired Board member (previous year: € 3,679 thousand) in the 2006 financial year. In addition, provisions of € 3,250 thousand (previous year: € 0 thousand) were formed for the settlement of non-competition clauses and potential transitional payment entitlements.

Remuneration of the Supervisory Board

The remuneration of the Supervisory Board members comprises a fixed and variable components. These are calculated on the basis of section 18 of TUI AG's articles of association, permanently accessible to the public on the internet. Accordingly, the members of the Supervisory Board receive a fixed compensation of € 40,000, payable upon the end of the financial year, besides the reimbursement of their expenses. The Chairman receives three times this amount, while his Deputy and other members of the Presiding Committee receive one and a half time this amount. Membership and the chairmanship in committees are separately compensated.

In addition, the Supervisory Board members receive a compensation oriented to the Company's short-term success of € 100 per € 0.01 of the earnings per share carried for the completed financial year. Since no earnings per share were generated in the 2006 financial year, no short-term variable compensation was paid for the completed financial year.

In addition, the Supervisory Board members obtain a compensation related to the Company's long-term performance. The long-term variable component comprises a basic amount of € 20,000 per year. This basic amount is paid upon completion of the third year following the entitlement and increases or decreases in line with the percentage change in earnings per share within this period.

Remuneration of the Supervisory Board

€ '000	2006	2005
Fixed compensation	973.5	116.5
Short-term variable compensation	–	1,658.3
Long-term variable compensation	486.4	–
Compensation for committee membership	160.0	133.7
Compensation for TUI AG Supervisory Board membership	**1,619.9**	**1,908.5**
Compensation for Group Supervisory Board memberships	319.3	200.7
Total	**1,939.2**	**2,109.2**

Moreover, travel expenses and other expenses totalling € 74 thousand (previous year: € 64 thousand) were reimbursed. Accordingly, total compensation for the Supervisory Board members amounted to € 2,013 thousand (previous year: € 2,173 thousand).

Apart from the work performed by the employee representatives in the framework of their employment contracts, the members of the Supervisory Board did not provide any personal services such as e.g. consultation or agency services for TUI AG and its subsidiaries in the 2006 financial year.

Research and Development Innovation in tourism and shipping.

One of the key entrepreneurial tasks of the TUI Group is the continuous development of the services offered to our customers. Innovative, marketable products and services that set trends and secure the TUI Group's competitiveness therefore form the basis for sustained growth.

Innovation-driven activities in tourism and shipping, our two core businesses, related to product and service portfolios, new media and information management. The associated expenses were primarily incurred in marketing.

Some of the key factors required in order to be successful in the market in both core businesses are the forward-looking development of attractive products and services as well as the expansion of strong brands. In addition, the operating processes are constantly optimised and networked by use of modern IT technology both in tourism and shipping in order to enhance their efficiency.

Innovation in tourism

TUI innovation campaign

Under the motto „Let your idea win", TUI AG initiated an innovation campaign across all business sectors in tourism in 2006. Almost 3,500 innovation suggestions concerning categories such as „new business fields" or „processes & efficiency" were submitted for the entire division. The best ideas were selected, and business plans were developed for these suggestions. In cooperation with the local managers, TUI AG's Executive Board then decided on how to implement the best suggestions.

Central Europe

In Central Europe, the brochure world for the 2007 summer season was divided into three segments. Separate brochures were thus offered for TUI Schöne Ferien (classic seaside holidays), TUI Weltentdecker (city breaks and circular trips) and TUI Premium. This measure helped to further enhance communication with specific target groups.

Northern Europe

In the Northern Europe sector, the successful booking website was further developed. Customers are now able to directly watch more than 2,000 videos showing destinations and accommodation and download satellite pictures of the destination and the relevant sights on the website.

Western Europe

In the Western Europe sector, the new reservation system Contour was launched for the third-party travel agencies in September. This platform now offers a more cost-efficient and technically more reliable system to operate a last-minute search engine and offer dynamic packaging functions, i.e. enabling customers to individually combine holiday modules. It is planned – as the next step – to initiate the system also for the own retail.

Flight operations

In flight operations, TUI Airline Management created a platform for marketing and retail issues in 2006 in order to contribute to the harmonisation of distribution systems and platforms and establishment of a joint distribution strategy and structure for all TUI airlines. In addition, the definition of standard processes for cockpit behaviour in individual types of aircraft was started. This will make it easier in future for the airlines to exchange aircraft and to train cockpit crews.

Destinations

The agency portal developed in cooperation with the incoming agencies was further expanded. The offerings placed on the portal such as island trips or guided museum tours may be incorporated into the websites of individual Group companies as microsites.

Web domains

A major competitive factor are the TUI Group's brands, internationally protected through protective rights, even in growth markets such as India or China. With the strong growth in web-based distribution, the number of web-sites registered for TUI has risen accordingly. Overall, the Group holds several thousand domains. A large number of similar URLs is linked with main URLs such as tui.com or thomson.co.uk.

Innovation in shipping

Electronic data interchange

As before, development activities within Hapag-Lloyd focused in particular on information technology in 2006. The main focus was on the further expansion of our e-business. Activities centred to a large extent of the further development of electronic data interchange (EDI). The EDI system automates direct data interchange between a customer's internal IT system and Hapag-Lloyd's system. This offers substantial potential for efficiency enhancements on both sides.

Communication systems

In the 2006 financial year, major communication modules were improved and expanded. A web-based conferencing system – eMeeting – was used in order to implement project meetings, presentations or training sessions via the web in a time- and cost-saving way. In order to facilitate safe, flexible and fast exchanges of information, both within the Hapag-Lloyd Group and between Hapag-Lloyd and external partners and customers, the intranet was complemented by teamsites. This enables global teams to share and manage documents, tasks, dates and deadlines.

Customer relationships

With the new analysis tool 'Web Focus', Hapag-Lloyd offers final users the possibility of rapidly preparing, analysing and distributing data concerning specific issues such as Hapag Lloyd customers' sales and marketing activities for large user groups.

Human Resources Changes in headcount and personnel structure due to divestments and integration of CP Ships.

In the 2006 financial year, the TUI Group's headcount declined to 53,930. This decrease was primarily attributable to the divestments made and restructurings in course of the integration of CP Ships.

Changes in headcount and personnel structure

At the balance sheet date, the TUI Group's worldwide headcount totalled 53,930 employees, down 14.3% year-on-year. The structure of the Group's personnel changed due to the divestments made. The tourism division continued to employ the largest proportion of personnel at 82.3%, up from 80.2% in 2005. The shipping division accounted for 15.9% of employees, compared with 14.4% in the previous year. The proportion of employees working for central operations changed substantially due to the divestment of Wolf GmbH, dropping from 3.5% in 2005 to now only 1.8% of the overall headcount.

Personnel by divisions

	31 Dec 2006	31 Dec 2005	Var. %
Tourism	44,409	50,498	- 12.1
Central Europe	9,411	9,691	- 2.9
Northern Europe	14,711	16,254	- 9.5
Western Europe	6,504	6,904	- 5.8

Discontinuing operations	**–**	**1,189**	**–**
Total	**53,930**	**62,947**	**- 14.3**

Tourism

In the tourism division, the number of employees totalled 44,409 at the end of the financial year, down 12.1% year-on-year. The individual sectors showed varying headcount trends. The Central Europe sector recorded a 2.9% decline in employees to 9,411, in particular due to a decrease in employment in airlines. The Northern Europe sector reported a 9.5% decline to 14,711, since some of the restructuring measures initiated in 2005 only became fully effective in 2006. In the Western Europe sector, the headcount dropped by 5.8% to 6,504. This decline was mainly attributable to the divestment of the specialist tour operator and incoming businesses in the Netherlands and the closure of travel agencies in France. On the other hand, the Belgian airline increased its headcount due to capacity expansion. The destinations sector reported a 7.1% increase in headcount to 13,783.

Shipping

In the shipping division, the headcount declined by 5.6% year-on-year to 8,571 due to the integration of CP Ships, which was completed in the course of 2006.

Central operations

The central operations sector recorded a decline in headcount by 56.5% to 950 due to the divestment of Wolf GmbH (thereof Corporate Centre 465).

Seasonal trends

The development of headcount in the course of the year is strongly characterised by the seasonal fluctuations in employment in tourism, in particular in the hotel companies and incoming agencies. The temporary employment of seasonal staff resulted in an average headcount of 20,802 in the destinations sector in the summer months from June to August, compared with 13,783 employees at year-end. In the tourism division as a whole, the average number of employees in the 2006 financial year totalled 49,499, dropping by 11.9% to 44,409 at year-end.

International headcount

At 86%, Group employment continued to focus on Europe. 21% of Group employees worked in Germany, 24% in the UK, 13% in France and the Benelux countries, 14% in Spain and 3% in the Nordic countries. Group companies outside Europe accounted for 14% of the overall workforce, with most of these employees working for Hapag-Lloyd in America and Asia.

Personnel by regions

	31 Dec 2006	31 Dec 2005	Var. %
Germany	11,112	15,750	- 29.4
UK/Ireland	12,975	15,165	- 14.4
Nordic countries	1,599	1,623	- 1.5
France/Benelux countries	7,202	8,552	- 15.8
Spain	7,656	7,369	+ 3.9
Other Europe	5,729	4,843	+ 18.3
America	4,149	5,737	- 27.7
Rest of world	3,508	3,908	- 10.2
Total	**53,930**	**62,947**	**- 14.3**

Personnel costs

Personnel costs rose by 5.7% to € 2,435 million, due to the consolidation of CP Ships for the entire year and due to restructuring expenses in the tourism and shipping division. Explanatory information on the development of the individual items is provided in the notes on the consolidated financial statements.

Personnel costs

€ million	2006	2005	Var. %
Wages and salaries	1,968	1,842	+ 6.8
Social security contributions	467	462	+ 1.1
Total	**2,435**	**2,304**	**+ 5.7**

Environmental Protection Group environmental performance indicators. Continuous improvement in environmental quality by means of certification. Partnership and cooperation.

Nature conservation and an intact environment, climate protection and the protection of seas and oceans are key prerequisites for sustainable activities in the tourism and shipping divisions. TUI's sustainable environmental management therefore is integral part of the Group's management quality concerning ecological governance, compliance and risk prevention.

Group environmental performance indicators

Environmental monitoring

Due to the differentiated consideration of international reporting standards such as the G3 Guidelines of the Global Reporting Initiative (GRI) the transparency of the environmental performance across the entire Group could be enhanced in the 2006 financial year. In 2006, environmental indicators concerning energy efficiency and climate-related emissions were determined in particular for the Group's airlines and hotels as well as its shipping division. These indicators facilitated a relevant determination of its environmental impact. This improved transparency was reflected by TUI AG's admission to the Dow Jones Sustainability Index (DJSI) World.

Energy consumption

The highest part of the energy consumption by the Group primarily relates to the use of fossil fuels in airline and shipping operations. Due to the integration of CP Ships the energy consumption is not comparable year-on-year. Total energy consumption amounted to 232,426 Tera Joule (TJ). Fuel consumption by the airlines rose 3.4% due to the expansion of the fleet. TUI's airlines recorded a specific fuel consumption of 3.08 litres of aircraft fuel per 100 passenger kilometres in 2006 and were thus among the most efficient airlines. The increase in specific energy consumption per TEU and nautical mile in the container shipping to 2.41 Mega Joule per TEU and per nautical mile was caused by the increase in the number of smaller container ships. A decrease of about 12% to 3,65 mega joule per passenger and 100 nautical miles could be achieved in case of the cruise ships.

Carbon dioxide emissions

One of the key environmental indicators for the TUI Group is the emission of carbon dioxide (CO_2) caused by the airlines and shipping operations. In the 2006 financial year the overall emission of CO_2 stood at 15.99 million tons. At 7.9 kilogram, the emission of CO_2 per 100 passenger kilometre was slightly – about 2% – higher year-on-year for all airlines. The emission of CO_2 of the container ship fleet stood at 174.16 g per TEU and nautical mile in the 2006 financial year. In the cruise sector a reduction of the specific emission of about 12% to around 283 g CO_2 per passenger and 100 nautical miles was achieved.

Hotels newly certified according to ISO 14001:
Magic Life: *Club Africana Imperial (Tunisia)*
Iberotel: *Gran Sharm, Makadi Beach, Makadi Oasis, Makadi Saraya, Palace and Lamaya (Egypt)*
Sol y Mar: *Makadi Sun, Makadi Star & Spa, Belvedere and Solaya (Egypt)*
Grupotels: *Valparaiso Palace, Parc Natural, Gran Vista, Los Principes, Macarella, Aguait, Picafort Beach, Amapola and Grupotel Club Turquesa Mar (Spain/Balearic Islands)*
Nordotel: *Cinco Plazas, Jardin del Sol, Orquidea and Révoli (Spain/Canaries)*

Complete list:
www.tui-umwelt.com

Continuous quality improvement by means of certification
In order to achieve a continuous improvement in the quality of products under environmental aspects, the environmental management systems of the individual Group companies were continually adjusted to the requirements of international environmental standards. A permanent focus of systematic environmental improvements is directed towards the hotel companies. In 2006, 23 hotels were newly certified under ISO 14001. At year-end, the environmental management systems of a total of eleven Robinson Clubs, two Magic Life Clubs, seven Iberotels, four Nordotels, nine Grupotels, one Dorfhotel and four hotels of the Sol y Mar Group were thus certified according to ISO 14001.

Strategic partnership and cooperation schemes
In tourism, the companies supported ecological sustainability by means of their involvement in numerous bodies both in the source markets and destinations and participation in a multi-stakeholder dialogue. In shipping, the environmental protection activities for marine transports and cruises were systematically continued in international partnership schemes.

In the framework of the Sustainability Leadership Forum, initiated by B.A.U.M. (German Environmental Management Association) and the Centre for Sustainability Management at Lüneburg University, the Group continued its active cooperation with renowned pioneers in sustainable corporate development in 2006. The aim of the Forum is to secure and expand the leading position of the participating companies in this area.

In 2006, active partnership with EUROPARC Federation, the umbrella organisation of Europe's protected areas, focused on the structural, systematic implementation of the newly formulated Charter Principles. Through its active membership in the EUROPARC European Charter Evaluation Committee, TUI was directly involved in the development of cooperative nature protection measures. TUI therefore primarily supported the specific evaluation and verification processes used by independent technical experts in assessing applications for European nature reserves as 'Charter Parks'.

As before, TUI's environmental activities focused in particular on activities in the framework of TUI's biodiversity strategy in the 2006 financial year. At the eighth Conference of the Parties (COP 8) of the Convention on Preservation of Biological Diversity in Curitiba/Brazil, TUI presented a comprehensive global case study under the title 'Wildlife Watching and Tourism' in cooperation with the Secretariat of the Convention on Migratory Species (Bonn Convention).

Hapag-Lloyd was involved in the Clean Cargo Group to promote more sustainability in international transportation. In order to support protection of the oceans, in particular the Arctic and Antarctic seas, Hapag-Lloyd Kreuzfahrten cooperated with several international organisations, e.g. in the framework of the WWF Arctic Programme.

Report on Expected Developments Action programme in tourism is being implemented. Shipping benefits through synergies.

Economic environment

Macroeconomic situation

General development

Overall, the global economic growth observed in 2006 will continue in 2007 and 2008. However, economists expect the growth momentum to slow down slightly. The International Monetary Fund (IMF) expects global gross domestic product to account for 4.9% in 2007, a decline of 0.2 percentage points on 2006 (IMF, September 2006). High average crude oil prices and potentially increasing inflation trends in the industrialised countries as well as an associated increase in interest rate levels will remain some of the key risks for the development of the world economy. Although global economic growth will reduce slightly, the forthcoming periods are expected to show robust growth compared with the growth trend of the past few years.

Development of the regions

According to the experts' assessments, a differentiated picture emerges for the individual economic regions. Economic activity in the industrialised countries is expected to slow slightly in 2007. In the US, growth is expected to slow down in 2007, in particular due to the weakening of the residential property market and the associated burden on the formation of wealth and the propensity to consume shown by private households. A slight recovery trend is expected for 2008. For the eurozone, economic growth is expected to continue, although economic momentum will weaken slightly. A temporary slowdown in economic activity is expected for Germany, in particular, due to a decline in the propensity to consume in the wake of the restrictive fiscal policy. According to recent studies, however, the downturn is expected to be less marked and gross domestic product is expected to increase in 2007, which means that GDP will fall only slightly short of the previous year's level. This trend is expected to show only a minor dip in 2008. Strong growth is expected to continue in the Asian countries. Due to a persistently expansive investment policy, China is expected to retain high growth rates in the forthcoming periods. However, the other emerging economies in eastern Asia and India are also expected to continue the dynamic trend shown by their economies.

Expected development of gross domestic product

Variation in %	2006	2007
World	5.1	4.9
Eurozone	2.4	2.0
Germany	2.0	1.3
UK	2.7	2.7
France	2.4	2.3
US	3.4	2.9
Japan	2.7	2.1
China	10.0	10.0
India	8.3	7.3
Emerging eastern Asian economies	5.0	5.6

Source: International Monetary Fund, World Economic Outlook, September 2006

Market trend in the divisions

Tourism

The World Tourism Organization (UNWTO) forecasts growth of around 5% for the worldwide travel market for 2006. The market for holiday tours again grew more strongly than the business travel market. This trend was boosted by the increasing availability of low-cost products in the flight sector and a significant increase in the growth-driven modular market. The future development of the travel market will be influenced by a variety of factors, including economic growth and consumer sentiment, the development of crude oil prices and political stability in the destinations. Taking account of the different demand trends in the European source markets, TUI expects the European tourism market to grow by around 3% in 2007. The source market-specific package tour market will show a stable trend, while modular tours are expected to grow by up to 5%.

Shipping

The International Monetary Fund expects world trade to grow by around 8% in 2007, falling slightly short of the forecast growth level of 9% for 2006. The ongoing strong growth of world trade thus continues to provide a sound basis for dynamic growth in the shipping division. The increase in worldwide trade will benefit container shipping disproportionately since the containerisation of cargo transports is expected to continue to grow. Against this background, Global Insight expects an increase in international container transports of almost 9% to around 109 million standard containers (TEU) in 2007. This trend is not expected to weaken in 2008.

Development of results of operations

Tourism

Business trend

In the 2006 financial year, the Group recorded an increase in travel bookings, with the classical package tour market showing a stable trend. The consistent expansion of the growth segment of modular tours, in the framework of the launch of the airline and distribution platform TUIfly.com, is expected to generate a substantial increase in customers in the 2007 financial year, in particular for the German market. Due to the difficult market environment, the Northern and Western Europe sectors are expected to grow in line with the overall market. Growth drivers, in particular in the high-volume markets, will be modular bookings of tour operator products and direct bookings with the providers in the flight and hotel sector.

Turnover

The ongoing enlargement of the range of innovative products in the package tour market and the expansion of the modular tour segment are expected to generate volume growth, which in turn will create turnover growth in the tourism division. Based on turnover of around € 14 billion in the 2006 financial year, turnover growth to up to € 15 billion is targeted for the 2007 financial year. Here, too, the Central Europe sector is expected to grow above average, while the Northern Europe sector in particular will grow less strongly, in line with its volume growth.

Earnings

The earnings trend (adjusted earnings before interest, taxes and amortisation of goodwill, adjusted EBITA) for 2007 differs between the individual sectors of the tourism division. Earnings in the Central Europe sector are expected to benefit from the strong expansion of the new business segments and thus match the good 2006 level. The Northern Europe sector will see, in a changed competitive environment, a stabilization of earnings due to the restructuring measures launched in the UK and Ireland in the previous year. In the Nordic countries, the positive earnings trend is expected to continue. The Western Europe sector anticipates a positive overall profit contribution. Its earnings will only slightly be impacted by the difficult market environment in France. In the destinations sector, earnings are expected to rise, primarily due to the profitable growth in the hotel portfolio.

Earnings target for 2008

The strategic initiatives launched in the framework of the structural market changes in tourism aim to achieve a sustainable increase in earnings by the tourism division. The action programme comprises five key initiatives:

- **Flight operations:** Medium-term pooling of the TUI Group's European flight operations under the new brand and distribution platform TUIfly.com.
- **Distribution:** Expansion of web-based sales of tours and development of the TUIfly.com airline brand into an international travel platform
- **Cruise:** Entry into the growth-driven high-volume premium business of the German cruise market
- **Hotel companies:** Profitable growth through ongoing selective expansion of the Group's hotel portfolio
- **Cost structures:** Sustainable improvement in cost structures by means of a reduction in the cost of materials and personnel costs in tourism of € 250 million

Taking account of a margin risk due to the intensification of competition and the increase in crude oil prices – in particular the development of aircraft fuel prices – TUI has established an earnings target range of € 450 to 550 million for 2008.

Shipping

Business trend

Against the background of the global economic scenario, TUI expects its container shipping operations to generate growth of 8% to 9% in transport volumes for 2007 an 2008, in line with the market trend. Due to the worldwide ship capacity to be commissioned in the near future, supply and demand are not expected to balance out in all trade lanes in 2007 and 2008. Freight rates are therefore also expected to show regional

variations. Overall, TUI expects freight rates to stabilise in the second half of 2007 and pick up increasingly in 2008 in its shipping division.

Turnover

Against the background of the expected development of transport volumes and the stabilisation of average freight rates, the shipping division will achieve an increase in turnover. Based on turnover in the 2006 financial year of € 6.3 billion, an increase to just under € 7 billion will be possible in the 2007 financial year.

Earnings

Following the difficult year 2006 for worldwide container shipping operations, TUI expects to be able to generate a significantly positive earnings contribution (adjusted earnings before interest, taxes and amortisation of goodwill, adjusted EBITA by divisions) in the shipping division. The development of earnings – before special effects from the integration of CP Ships in 2006 – was primarily driven by the realisation of synergies from the completion of the operating integration process. Most of these synergies related to cost synergies, so that a significantly positive profit contribution is expected even if the weak market conditions of 2006 should continue.

Earnings target for 2008

By leveraging in 2008 the full synergy potential of € 220 million from the integration of CP Ships and through achieving the expected volume growth and the recovery of freight rates levels, TUI has an earnings target range of € 400 to 500 million for the year 2008.

TUI Group

Based on the expected increase in turnover in tourism and shipping consolidated turnover will rise from € 20 billion, the turnover generated in 2005, to just under € 22 billion.

TUI AG

Against the background of the forecast development of business and earnings of the TUI Group, TUI AG, the Group's holding company, is expected to receive sufficient inflows of earnings from its investments and from divestments already agreed for 2007 to resume payment of a dividend after the dividend in 2007 was not paid for the 2006 financial year.

Development of the financial situation

Financing

The TUI Group currently has undrawn credit lines of € 1.6 billion. These credit lines mainly serve to hold a liquidity reserve of around € 1 billion. Due to the Group's current long-term financing structure, barring the possible repayment of the convertible bond (volume: € 385 million) in December 2008, the Group does not have any further liquidity requirements in the 2007 and 2008 financial years in order to refinance short-term financing instruments. The TUI Group's net debt totalled € 3.2 billion at the balance sheet date. It will be reduced by a further € 0.3 billion at the beginning of the 2007 financial year following the agreed divestment of the Montreal Gateway Terminals. The action programme announced in December 2006 to reduce Group debt has thus been partly implemented and already generated € 0.6 billion worth of net debt reduction of a total of € 1.0 billion. In December 2006, € 0.3 billion had been generated by selling seven container ships and containers from the former portfolio of

CP Ships. The implementation of the other initiatives already announced will generate a further reduction in debt.

Investments

Due to the investment decisions already taken and planned projects, TUI expects a financial requirement of € 850 million in the 2007 financial year. These funds will almost exclusively be used for investments in property, plant and equipment. The plan requirements can be divided evenly between tourism and shipping. In the tourism division, the largest portion will be used for the expansion of the hotel sector, followed by the fleet renewal programme in flight operations. In shipping, the expansion of the container ship fleet will require most of the cash and cash equivalents. Other projects or acquisitions will only be considered and implemented if any attractive opportunities were to arise or if this will be required in the light of the business development. The planned investments will be financed from the cash flow.

Expected overall development

Overall, the macroeconomic environment is favourable for the TUI Group's activities in the 2007 financial year. This will create opportunities for further growth and potential to increase earnings. The consistent implementation of our action programme in tourism and the realisation of synergies from the integration of CP Chips into the shipping divisions with at the same time a reduction in central costs, will create a considerable improvement in consolidated earnings. The measures to reduce our capital employed already implemented or planned for the future will further enhance the Group's solid financing structure.

Corporate Governance

TUI is with its corporate strategy and business model, based on the two pillars of tourism and shipping well positioned. In the future we will continue to value strong management and consistent development and implementation of the necessary business measures. The sustained enhancement of corporate value and efficiency are TUI's key strategic objectives.

Corporate Governance Report Recommendations of the German Corporate Governance Code fully implemented.

The actions of TUI AG's management and control bodies are determined by the principles of good and responsible corporate governance. The following corporate governance report is provided by the Executive Board and at the same time on behalf of the Supervisory Board pursuant to sub-section 3.10 of the German Corporate Governance Code.

TUI has consistently based its corporate governance on the recommendations and suggestions of the German Corporate Governance Code. The Executive Board and the Supervisory Board discussed corporate governance issues several times in 2006 and jointly submitted an updated declaration of compliance for 2006 on 14 December 2006, pursuant to section 161 of the German Stock Corporation Act. The declaration was made permanently available to the general public on the Company's website.

Declaration of compliance

The current and all previous declarations of compliance have been made permanently available on the internet at www.tui-group.com

The declaration of compliance reads as follows:

'In accordance with section 161 of the German Stock Corporate Act, the Executive Board and Supervisory Board of TUI AG hereby declare:

The recommendations of the Government Commission on the German Corporate Governance Code in the version of 2 June 2005, as published by the Federal Ministry of Justice in the official section of the electronic Federal Gazette on 21 July 2005, have been and are fully complied with.

TUI AG will additionally fully comply with the recommendations in the currently valid version of 12 June 2006, as published by the Federal Ministry of Justice on 24 July 2006.

In addition, TUI AG also complies with the suggestions set out in the Code, the only exceptions being the formation of further committees and the introduction of varying periods of office for the shareholders' representatives in the Supervisory Board, for which no plan exists at present.'

We consider maintenance of uniform periods of office to be useful in order to guarantee the continuity of the work of the Supervisory Board. To date, the formation of further committees has not been necessary.

Cooperation between the Executive Board and Supervisory Board

TUI AG is a company under German law, which also forms the basis of the German Corporate Governance Code. One of the fundamental principles of

German stock corporation law is the dual management system involving two bodies, the Executive Board and the Supervisory Board, each of which are endowed with independent competences. TUI AG's Executive Board and Supervisory Board cooperate closely and in a spirit of trust to manage and control the company.

TUI AG's Executive Board currently comprises six members. They manage the company's operations and are jointly accountable for the management of the company. The allocation of duties and responsibilities to the individual Board members is presented separately in this chapter.

The Supervisory Board advises and supervises the Executive Board in the management of the company. It is involved in strategic and planning decisions and all decisions of fundamental importance to the company. In accordance with the terms of reference, decisions taken by the Executive Board on major transactions such as the annual budget, major acquisitions or divestments require the approval of the Supervisory Board. The chairman of the Supervisory Board coordinates the work in the Supervisory Board, chairs its meetings and externally represents the concerns of the body.

The Executive Board provides the Supervisory Board with comprehensive up-to-date information at regular meetings and in writing about the development of business and the situation of the Group, including risk management. An extraordinary Supervisory Board meeting may be convened if required when events of particular relevance occur. The Supervisory Board has adopted terms of reference governing its work. In the run-up to the Supervisory Board meetings, the representatives of shareholders and employees meet separately, when necessary.

In accordance with the German Co-determination Act and the Articles of Association, TUI AG's Supervisory Board comprises twenty members, with ten representatives elected by the shareholders and ten by the employees for an identical period of office. There is no plan at present to introduce different periods of office for the shareholders' representatives. In accordance with the new recommendations of the German Corporate Governance Code, the shareholders' representatives were elected individually in the last elections to the Supervisory Board at the Annual General Meeting on 10 May 2006. The Supervisory Board does not comprise any former Executive Board members. The body comprises a sufficient number of independent members not maintaining any personal or business relationship with the company or its Executive Board. The Supervisory Board has been elected for a period of five years that will expire at the end of the 2011 ordinary Annual General Meeting.

The Supervisory Board has established two committees from among its members: the Presiding Committee and the Audit Committee, which prepare and complement its work. The Presiding and Audit Committee have six members each, with an equal number of shareholder and employee representatives. Based on his practical professional experience, the chairman of the Audit Committee has special knowledge and experience in the application of accounting principles and internal control methods. There is no plan at present to set up any further committees.

The Executive and Supervisory Board members are obliged to act in TUI AG's best interests. In the completed financial year there were no conflicts of interest requiring immediate disclosure to the Supervisory Board. None of the Executive Board members of TUI AG sat on more than five Supervisory Boards on listed non-Group companies.

Remuneration Report: Have a look at the Management Report, page 90

TUI AG complies with the recommendations of the German Corporate Governance Code to provide details of the remuneration of each individual member of the Executive Board and Supervisory Board. The principles of the remuneration systems and remuneration amounts are outlined in the remuneration report which is part of the management report.

Shareholders and Annual General Meeting

TUI AG shareholders exercise their co-determination and control rights at the ordinary Annual General Meeting. The AGM takes decisions on all statutory matters that are binding on all shareholders and the Company. For voting on resolutions, each share confers one vote.

All shareholders registering in due time are entitled to participate in the AGM. Shareholders who are not able to attend the AGM in person are entitled to have their voting rights exercised by a proxy of their own choosing or by a representative provided by TUI AG and acting on their behalf in accordance with their instructions. Since the 2006 Annual General Meeting, shareholders have also had the opportunity of voting per internet in the run-up to the AGM or authorising the representatives provided by the Company via the web.

The invitation to the AGM and the reports and documents required for voting are published in accordance with the provisions of the German Stock Corporation Act and provided in German and English on TUI AG's website. During the AGM the presentations given by the Chairman of the Supervisory Board and the Executive Board are transmitted live over the internet.

Risk management

Good corporate governance entails the responsible handling of commercial risks. The Executive Board of TUI AG and the management of the TUI Group use comprehensive general and company-specific reporting and monitoring systems to identify, assess and manage these risks. These systems are continually developed, adjusted to match changes in overall conditions and reviewed by the auditors. More detailed information about risk management in the TUI Group is presented in the relevant chapter of the management report.

Transparency

TUI provides immediate, regular and up-to-date information about the Group's economic situation and new developments to capital market participants and the interested public. The annual report and the interim reports are published within the applicable time-frames. The company publishes press releases and ad hoc releases, if required, on topical events and any new developments. In addition, shareholders and interested parties may subscribe to a newsletter providing up-to-date information

about the Group. All information is published simultaneously in German and English and is available in print as well as by appropriate electronic media such as e-mail or the internet. Moreover, the company website at www.tui-group.com provides comprehensive information on the TUI Group and the TUI share.

The scheduled dates for the main regular events and publications – such as AGM, annual report and interim reports – are set out in a financial calendar. They are published well in advance and made permanently accessible to the public on TUI AG's website.

Directors' dealings

The Company was not informed of any notifiable purchase or sale transactions of TUI AG shares or related financial instruments by any Board members in 2006.

At the end of the 2006 financial year, the number of shares in TUI AG directly or indirectly held by members of the Executive Board and Supervisory Board exceeded 1%, the limit fixed for individually notifiable share ownership, for two Supervisory Board members. Executive Board members held a total of 2,038 shares, Supervisory Board members held 18,780,820 shares. Of these shares, Ms Carmen Riu Güell held 12,768,000 shares (indirectly), Mr Abel Matutes Juan held 6,006,000 shares (indirectly) and the remaining Supervisory Board members held 6,820 shares.

Accounting and auditing

TUI AG prepares its consolidated financial statements in accordance with the provisions of the International Accounting Standards Board (IASB) and regularly publishes interim reports, also in accordance with the relevant provisions of the IASB. The annual financial statements of TUI AG are prepared in accordance with the German Commercial Code (HGB).

The consolidated financial statements and the financial statements of TUI AG were audited by PricewaterhouseCoopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover, the auditor elected by the 2006 AGM. The audit was based on German auditing rules, taking account of the generally accepted auditing standards issued by the German Auditors' Institute as well as the International Standards on Auditing. It also covered risk management and compliance with reporting requirements concerning corporate governance pursuant to section 161 of the German Stock Corporation Act. In addition, a contractual agreement was concluded with the auditors to the effect that the auditors will immediately inform the Supervisory Board of any reasons for disqualification or partiality occurring during the audit as well as of all findings or events of importance arising during the performance of the audit. In the course of the audit for the 2006 financial year there was no reason to provide such information.

Report of the Supervisory Board

In the following, the Supervisory Board reports about its activities in the 2006 financial year, in particular the plenary discussions, the work done by the committees, the compliance with the German Corporate Governance Code, the audit of the financial statements of TUI AG and the Group as well as changes in the membership of the Boards of the Company.

Cooperation between Supervisory Board and Executive Board
In the 2006 financial year, the Supervisory Board performed its duties in accordance with the law and the Articles of Association. It monitored the work of the Executive Board and regularly advised the Board on the management of the Company.

In written and verbal reports, the Executive Board provided regular, timely and comprehensive information to the Supervisory Board, encompassing all relevant information on the development of business and the position of the Group, including the risk situation and risk management. Deviations from the approved plans for the development of business were presented, explained and discussed. The Executive Board discussed the strategic orientation of the Group and all key transactions of relevance to the Company – in particular the further development of the Group – with the Supervisory Board. The Supervisory Board was involved in all key decisions affecting the Company.

Transactions requiring the approval of the Supervisory Board and decisions of fundamental importance were discussed in depth in the committees of the Supervisory Board with the Executive Board prior to a decision being taken. The Supervisory Board was fully informed about specific and particularly urgent plans and projects arising between the regular meetings and, where necessary, submitted its vote in writing. In addition, the chairman of the Supervisory Board was regularly informed about current business developments and key transactions in the Company in between Supervisory Board meetings.

Supervisory Board and committees
The Supervisory Board has set up two committees to support its work: the Presiding Committee and the Audit Committee. The Presiding Committee prepares the resolutions and issues to be dealt with by the Supervisory Board. It also fixes the terms and condition, including the remuneration, of the contracts of employment for Executive Board members. The chairman of the Supervisory Board has regularly informed the plenary meetings about the discussions and resolutions taken by the Presiding Committee.

The Supervisory Board held five regular meetings and one constituent meeting in the 2006 financial year. The Presiding Committee also met five times, and the Audit Committee four times.

Prior to regular Supervisory Board meetings the shareholders' representatives met four times and the employees' representatives nine times in separate meetings. Seven Supervisory Board members were newly elected or appointed in 2006 and therefore attended fewer than half of the Supervisory Board meetings in the 2006 financial year. Two further Supervisory Board members also participated in fewer than half of the meetings: Dr. Ekkehard D. Schulz, who resigned from the Supervisory Board as at the end of the 2006 Annual General Meeting and therefore only attended two meetings, and Ms Marina Schmidt, who was no longer employed by a company forming part of the TUI Group after the divestment of the TQ3 Group and retired from the Supervisory Board on conclusion of 30 March 2006.

Work of the Presiding Committee
At its meeting on 25 January 2006, the Presiding Committee dealt mainly with issues relating to the Executive Board. At its meeting on 21 March 2006, convened to adopt the annual financial statements, deliberations focused on the annual and consolidated financial statements for 2005, including the Audit Committee's report on this issue, the comparison between budgeted figures and actual performance for 2005 and various amendments to the Articles of Association. On 8 May 2006 and 24 August 2006, the meetings again focused on Executive Board matters. On 14 December 2006 deliberations focused on issues relating to the Executive Board and the updated declaration on the German Corporate Governance Code.

Work of the Audit Committee
At its meeting on 17 March 2006, the Audit Committee focused its deliberations on the annual financial statements of TUI AG and the consolidated financial statements for 2005. Other issues covered included the recommendation to the Supervisory Board on the election of the auditors for the 2006 financial year as well as insurance coverage of the companies and Boards.

At its meeting on 8 May 2006, the Audit Committee mainly dealt with the interim financial statements to 31 March 2006.

One of the key items discussed at the meeting on 9 August 2006 were the interim financial statements for the end of the first half of 2006. In addition, the Audit Committee discussed the main areas to be audited in the annual audit for the 2006 financial year.

The meeting on 8 November 2006 mainly focused on the interim financial statements to 30 September 2006. The agenda also covered other issues including the internal control system, in particular Group Internal Auditing activities in the 2006 financial year and the audit plan for 2007. Auditor representatives attended all four meetings of the Audit Committee and presented reports on their activities.

Deliberations in the Supervisory Board

The Executive Board's reports and the discussions at Supervisory Board meetings regularly focused on the development of turnover, earnings and employment of the Group and the individual divisions as well as the financial situation and structural development of the Group.

At its meeting on 25 January 2006 the Supervisory Board approved the budget for 2006 for the Group and took note of the 2007/2008 forecast accounts. A further item on the agenda was the appointment of Messrs Adolf Adrion (shipping), Christoph R. Mueller (airlines) and Karl J. Pojer (hotels & resorts) as divisional directors by the Supervisory Board. The Supervisory Board also discussed the divestment of the interest in TQ3 Travel Solutions Management Holding GmbH and dealt with shareholding issues and editorial amendments of TUI AG's Articles of Association.

The Supervisory Board meeting on 21 March 2006 focused on the reports and deliberations on the annual financial statements as per 31 December 2005, a comparison between budgeted and actual figures for 2005 and the personnel and social reports for 2005. The discussions on the annual financial statements were also attended by representatives of the auditors who were available to answer questions. Other items on the agenda for this meeting were the resolution concerning the issue of employee shares and the extension of the authorisation to acquire own shares as well as various amendments to the Articles of Association. The Supervisory Board also dealt with shareholding issues.

At the meeting on 10 May 2006, Messrs Michael Behrendt (shipping) and Peter Rothwell (tourism) were appointed TUI AG Executive Board members by the Supervisory Board, additionally this meeting served to prepare for the forthcoming ordinary Annual General Meeting. After the Annual General Meeting on 10 May 2006, the constituent meeting of the newly elected Supervisory Board was convened. The chairman and the vice-chairman of the Supervisory Board and the members and chairmen of the Presiding Committee and Audit Committee were elected at that meeting.

On 30 and 31 August 2006 the Supervisory Board met for its annual strategy meeting. The presentations and deliberations focused on the initiatives developed by the Executive Board in order to achieve a substantial and sustainable increase in the profitability of the tourism and shipping divisions. In order to secure the performance targets, a comprehensive programme for further efficiency enhancements in all sectors of the Group was adopted. In this connection, decisions were taken concerning changes in the composition of the Executive Board and divisional directors and changes in the allocation of responsibilities of Executive Board members, outlined in greater detail in the sections 'Supervisory Board' and 'Executive Board' in this chapter. Furthermore, measures were prepared in order to reduce invested capital and central costs. Following comprehensive deliberations on the strategic positioning of TUI AG as a two-pillar group, the Supervisory Board and Executive Board agreed that the publicly discussed option of a spin-off of container shipping would jeopardise consolidated assets and would not be in the interest of TUI share-

holders and employees. The meeting closed with presentations and discussions concerning the financial framework for the Group's future development and the Group's personnel and social policies.

On 25 September 2006, the Supervisory Board agreed to the divestment of the interest in Wolf GmbH – effective from 5 October 2006 – in the written circular procedure.

The meeting on 14 December 2006 focused on the measures to be taken in order to achieve the strategic goals and thus the budget for 2007 and the 2008/2009 forecast accounts. In addition, shareholding issues and investment projects had to be dealt with. Moreover, the Supervisory Board adopted the declaration of compliance with the German Corporate Governance Code.

Corporate Governance
At the meeting of 14 December 2006, the Executive and Supervisory Board discussed an update of the declaration of compliance with the German Corporate Governance Code and issued the joint declaration of compliance pursuant to section 161 of the German Stock Corporation Act. It was made permanently accessible to the public on TUI's website. Accordingly, TUI AG complies with all recommendations of the German Corporate Governance Code in its currently applicable version dated 12 June 2006. In accordance with section 3.10 of the Code and also on behalf of the Supervisory Board, the Executive Board reports about corporate governance in a separate sector (Corporate Governance Report) of this chapter.

At their meetings, both the Audit Committee and the Supervisory Board dealt with corporate governance issues within the company several times. Due to the Supervisory Board elections held in the 2006 financial year and the resulting short duration of the term of office of the new members, the Boards did not have the efficiency of their own actions examined. The next efficiency review will be carried out in 2007.

Audit of the annual financial statements of TUI AG and the Group
PricewaterhouseCoopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover, were appointed as the auditors by the Annual General Meeting held on 10 May 2006 and were commissioned by the Supervisory Board. The audit covered the annual financial statements of TUI AG as at 31 December 2006, submitted by the Executive Board and prepared in accordance with the provisions of the German Commercial Code (HGB), and the joint management report for TUI AG and the TUI Group and the consdidated financial statements for the 2006 financial year, the provisions of the International Accounting Standards Board (IASB) and complemented by the commercial-law provisions additionally required pursuant to section 315a sub-section 1. The auditors issued their unqualified audit certificate for the annual financial statements of TUI AG and the consolidated financial statements.

The financial statements, the management report and the auditors' reports were submitted to all members of the Supervisory Board. They were

discussed at the Audit Committee meeting of 17 March 2007 and the Supervisory Board meeting on 18 March 2007, at which representatives of the auditors were present and were available to answer questions.

On the basis of its own audit of the annual financial statements of TUI AG and the TUI Group, the joint management report as at 31 December 2006 and the results of the audit, the Supervisory Board approved the annual financial statements prepared by TUI AG, which were thereby adopted, the consolidated financial statements and the Group management report. The Supervisory Board also examined and approved the proposal for the appropriation of the profits for the 2006 financial year submitted by the Executive Board.

Supervisory Board and committee membership
Ms Marina Schmidt resigned from the Supervisory Board on conclusion of 30 March 2006 since she was no longer a TUI Group employee as of that date due to the divestment of the TQ3 Group. The Supervisory Board thanks her for her cooperation based on trust.

With effect from the end of the Annual General Meeting on 10 May 2006, Messrs Fritz Kollorz, Dr. Klaus Liesen, Hans-Dieter Rüster, Hartmut Schulz and Dr. Ekkehard D. Schulz resigned from the Supervisory Board. The Supervisory Board thanks the gentlemen for their commitment over many years and acknowledges their achievements.

The employees' representatives to the Supervisory Board were elected on 5 April 2006. The shareholders' representatives were elected to the Supervisory Board at the AGM on 10 May. In these elections, Messrs Jean Claude Baumgarten, Andreas Barczewski, Sepp Dieter Heckmann, Alfred Linzmeier, Roland Schneider and Henry Sieb were newly elected to the Supervisory Board. The other members of the Supervisory Board were reelected. The current term of office will expire in 2011. The constituent meeting of the new Supervisory Board took place on 10 May 2006.

At its constituent meeting on 10 May 2006, the Supervisory Board elected Dr. Jürgen Krumnow chairman and Jan Kahmann vice-chairman of the Supervisory Board. These two gentlemen therefore automatically sit on the Presiding Committee. In addition, Ms Petra Oechtering and Ms Carmen Riu Güell as well as Messrs Uwe Klein and Dr. Franz Vranitzky were elected to the Presiding Committee. Ms Ilona Schulz-Müller and Messrs Uwe Klein, Dr. Jürgen Krumnow, Dr. Dietmar Kuhnt (chairman), Dr. Manfred Schneider and Olaf Seifert were elected members of the Audit Committee.

On 5 October 2006, Mr Alfred Linzmeier resigned from the Supervisory Board after five months since he was no longer employed by a company forming part of the TUI Group after the divestment of Wolf GmbH. By resolution of the district court of Hanover of 2 November 2006, Mr Dieter Lübkemann was appointed to the Supervisory Board.

Executive Board and Executive Committee membership
At its meeting on 25 January 2006, the Supervisory Board appointed Messrs Adolf Adrion (shipping), Christoph R. Mueller (airlines) and Karl J. Pojer (hotels & resorts) divisional directors with immediate effect.

With effect from 10 May 2006, the Supervisory Board appointed Messrs Michael Behrendt (shipping) and Peter Rothwell (tourism) as ordinary Executive Board members in addition to the four previous members. In addition to his new function as an Executive Board member of TUI AG Mr Michael Behrendt will continue to be the Chairman of Hapag-Lloyd AG. In addition to his new Board function, Peter Rothwell will continue to be in charge of Northern Europe.

With effect from 1 September 2006, the Supervisory Board appointed Mr Christoph R. Mueller a member of the Executive Board of TUI AG, responsible for the controlling department. He will temporarily also be in charge of the management of the two German airlines Hapagfly and Hapag-Lloyd Express. Mr Sebastian Ebel, previously responsible for the controlling and tourism platforms departments, resigned from TUI AG's Executive Board as per 31 August 2006 and left the Group. The Supervisory Board thanks Mr Ebel for his work as Board member of TUI AG and in leading positions within the Group.

With effect from 1 September 2006, the Supervisory Board appointed Mr Brackx the new divisional director for the Western Europe sector. Mr Eric Debry, previously in charge of this sector, resigned from his office as divisional director of TUI AG as per 31 August 2006 and left the Group. The Supervisory Board thanks Mr Debry for his work as divisional director of TUI AG and in leading positions within the Group.

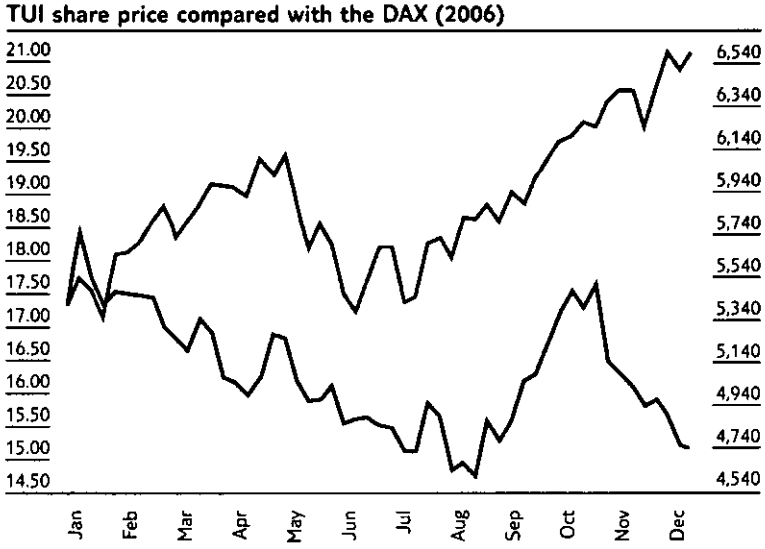
TUI share 2006 – Share price affected by difficult market environment in shipping.

The 2006 stock exchange year was characterised by a good start, temporarily followed by fear of a slowdown in world economic activity emerging towards mid-2006. In the second half of the year, good performance figures of the companies, declining fear of recession in the US and positive economic forecasts for 2007 caused stock price indices to move higher across the board.



Against this backdrop, the German Share Index (DAX) initially rose by more than 10% until May. Following a short period of weakness triggered by inflation jitters in mid-2006, however, the DAX then again gathered momentum. From a closing rate of 5,408 points at the end of 2005, it grew by 22.0% and closed the year 2006 at 6,597 points. It thus only slightly missed its highest level since February 2001.

TUI share – development of share price in 2006

Fluctuations in share price

The TUI share price declined in the course of 2006. Compared with the DAX, the TUI share showed a weaker performance. From a 2005 closing rate of € 17.30, the share price reached its annual high of € 18.40 in early January. In the course of the year, the price was notably impacted by the adjustments of the profit forecasts, due in particular to the difficult market environment in shipping. Following its low of € 14.51 in mid-August, the share price recovered to € 15.14 at the end of the year, down 12.5% year-on-year.

TUI share price compared with the DAX (2006)

Long-term development of TUI share price

€	2002	2003	2004	2005	2006
Highest share price	33.12	16.02	19.04	20.47	18.40
Lowest share price	13.02	7.22	12.05	16.10	14.51
Year-end share price	15.05	15.39	16.22	17.30	15.14

Quotations, indices and trading

The TUI share is officially traded on all German trading floor systems and in the Xetra electronic trading system. No companies with similar operations in tourism and shipping are listed in the German stock market. Several European competitors in the tourism sector such as MyTravel, First Choice, Club Méditerranée and Kuoni are traded on stock markets in the UK, France and Switzerland. In the shipping sector, listed international competitors include AP Møller-Maersk in Denmark, Evergreen Marine in Taiwan, Cosco Shipping in China and NYK Lines in Japan.

TUI share in the DAX30 and prime standard

The TUI share has been included in the DAX 30 – the German Stock Index – since 1990. When the composition of the index was reviewed in December 2006, it ranked 25th in terms of turnover in TUI shares and 34th in terms of market capitalisation. At that point in time, the TUI share had a weighting of 0.50% in the DAX. Since its introduction in January 2003, TUI has been a member of the prime standard of Deutsche Börse and therefore meets the high international transparency standards of this segment over and above legal requirements.

The TUI share is included in several industry indices in the German stock market and at European level: these include the European sub-indices Dow Jones Travel & Leisure Titans 30 and Dow Jones Euro Stoxx Travel & Leisure. Its year-end weightings were 1.24% and 7.13%, respectively. Moreover, the TUI share is listed in the FTSE Eurotops 300 index. In terms of sustainability indices, the TUI share is listed in FTSE4Good, ASPI (Advanced Sustainable Performance Indices) and ESI (Ethibel Sustainability Index) and was newly admitted to the Dow Jones Sustainability World Index in 2006. In the German stock market, it is, inter alia, included in the calculation of the DAXplus Export Strategy.

Trading in TUI shares up on the previous year

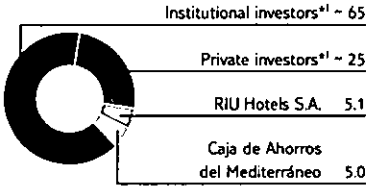
In 2006, trading in TUI shares again rose substantially. On average, 3,588,023 no-par value shares were traded per day, an increase of more than 60% year-on-year. The total trading volume amounted to 914.6 million no-par value shares. The number of option contracts on TUI shares traded on the European futures and options exchange EUREX rose by 165% to 15,582 contracts per day, i.e. a total of 3,973,370 contracts.

Capital stock and number of shares

Employee shares

In December 2006, TUI AG's capital stock rose by a further € 734,420 due to the issuance of 287,280 employee shares. At the balance sheet date, it therefore totalled € 641,722,069, comprised of 251,019,855 no-par value shares, certificated by a global certificate. The pro-rated share capital attributable to each individual share was approx. € 2.56. Apart from subscribed capital, there was both authorised and conditional capital, outlined in the notes on the consolidated financial statements.

2003/2008 convertible bond



In 2006, no bonds were converted from the 2003/2008 convertible bond. Investors therefore held conversion rights for a total of 19,385,784 TUI shares at the balance sheet date.

Resolutions of the 2006 Annual General Meeting

The 2006 Annual General Meeting was held in Hanover on 10 May 2006. Approx. 3,200 shareholders and shareholder representatives, representing 37.7% of the capital stock for voting purposes, participated in the AGM. Besides the formal ratification of the acts of the Executive and Supervisory Boards and the adoption of a resolution on the appropriation of profits from the 2005 financial year, the agenda also included the election of shareholder representatives to the Supervisory Board, the renewal of the conditional and authorised capital and the acquisition of own shares in accordance with section 71 sub-section 1 no. 8 of the German Stock Corporation Act (AktG). In the 2006 financial year, the authorisation to purchase own shares was not used.

Shareholder structure

Shareholder Structure (in %)

As of December 2006

*) free float

As in 2005, around 90% of the TUI shares floated freely in 2006. Around 25% of these shares were held by private shareholders while the majority, around 65%, were held by institutional investors. According to an evaluation of the shareholders' ledger, these were mainly investors from Germany and other EU countries.

According to the notifications pursuant to section 26 sub-section 1 of the German Securities Trading Act (WpHG), around 10% of TUI shares were held by shareholders owning more than 5% of all shares. One of them was the RIU family via its stake in the Spanish RIU Hotels S.A., which held 5.1% of TUI shares. The other one was another Spanish investor, Inversiones Cotizadas del Mediterráneo, S.L., a shareholding of Caja de Ahorras del Mediterráneo, which held 5.0% of the shares in TUI.

Dividend and yield ratios

Dividend

TUI AG reported net profit for the year of € 104 million and retained profit brought forward of € 2 million. Following the transfer of € 52 million to revenue reserves, profit available for distribution amounted to € 54 million. Against the background of the deterioration of the earnings situation in 2006, in particular in shipping, a proposal will be submitted to the Annual General Meeting to carry the profit available for distribution forward on new account. For the 2007 financial year, a significant rise in earnings is expected so that the dividend payment is expected to be resumed in 2007.

Development of earnings and dividends of the TUI share

€	2002	2003	2004	2005	2006
Earnings per share	0.18	1.54	2.96	2.28	- 3.66
Dividend	0.77	0.77	0.77	0.77	0.00

Stock yield

As before, the TUI share was an attractive investment for yield-oriented investors in 2006 despite the unsatisfactory share price trend. A TUI shareholder who purchased shares at the beginning of the year generated a dividend yield of 4.5%. Shareholders with longer-term exposure who, for instance, invested the equivalent of € 500 in then Preussag shares in 1990, exercised their subscription rights and reinvested their dividend yields, held a TUI share portfolio worth € 916 at the balance sheet date. Their average annual return was almost 4.0%.

Rating

Rating

As before, the international rating agencies Standard & Poor's and Moody's again rated TUI's financial strength in 2006 and early 2007. The currently difficult market environment, in particular in shipping, caused an adjustment of the long-term credit rating, which currently stands as follows:

Rating agency	Corporate rating	Outlook
Standard & Poor's	BB	negative
Moody's	B1	stable

The respective ratings and additional detailed information on the six bonds traded in the capital market is provided in the section 'Financial position'.

Investor Relations

In 2006, the activities of the Investor Relations team focused on up-to-date information and open communication with shareholders, analysts, institutional investors and lenders. Debates with these stakeholder groups centred on Group strategy and business trends in the individual sectors in order to enable them to make a realistic assessment of TUI's future development. The Executive Board met analysts and investors at regular roadshows in Europe and America, at one-on-one meetings and at the analysts' meeting on the occasion of the presentation of the annual financial statements for 2005 in March 2006 as well as the announcement of the strategic decisions in December 2006. Conference calls were implemented and met with a high level of interest every time an interim report was submitted. Another forum for ample discussion with the shareholders was the 2006 Annual General Meeting.

In addition, the Investor Relations website was expanded so as to include a new internet tool which shareholders may now use on the Investor Relations website to register for the Annual General Meeting, order a guest card and instruct one of the proxies provided by the Company. This service was well received, with approx. 20% of shareholders ordering their admission tickets via the new internet tool.

Sustainable Development Social responsibility for employees. Environmental quality management and climate protection by means of energy efficiency. Corporate citizenship.

For TUI, sustainable development means continuously balancing economic, ecological and social concerns. This secures the Group's competitiveness, promotes the potential of its employees, strengthens cooperation with social stakeholder groups and ensures lasting enhancements of the efficient use of natural resources at the corporate sites and in the holiday destinations.

TUI's convincing sustainability performance in 2006 was confirmed by international rating agencies and sustainability analysts: TUI AG was the world's only tourism company in the travel & tourism sub-sector admitted to the Dow Jones Sustainability Index (DJSI) World. TUI also defended its position in other international ethics indices. In addition, TUI joined the 'European Alliance for Corporate Social Responsibility' in order to bundle the specific sustainability potential of companies and industry at a European level and promote the international development towards sustainability.

Employees

Highly committed and motivated employees who are well qualified for their work are the key to success of a company. Promoting employees is one of the main areas of the Group's HR activities.

Junior staff development and training

Initial, ongoing and further training

Junior staff development and good internal training are indispensable elements in order to ensure the competitiveness of a company. In Germany, the companies of the TUI Group newly filled 257 initial training placements. A total of 718 young employees participated in training schemes in 2006. At around 6.5%, the proportion of staff in training was thus kept at the previous year's high level. TUI continued to participate in the 'Fit for a job application' project in 2006. In the framework of this project, TUI HR managers supported young people in compiling their job application documents and preparing for job interviews.

Development of senior and executive staff

One of the key tasks of central HR development is the development and long-term retention of technical and executive staff at all management levels. The range of programmes offered was expanded again in 2006. An international procedure for personal skills assessment was offered to lower management functions, while a systematic process of selective development measures based on a capability analysis was initiated for Germany's top management functions. Next year, this process will also be applied on a worldwide scale. The international trainee programme and the promotion programmes for middle management functions were expanded, focusing on the participants' personal development.

Social responsibility

Pension schemes

The companies of the TUI Group offer their employees many different ways of participating in company-based and private pension schemes. Individual national conditions and the economic situation are taken into account in the design of the models. Schemes offered to employees in Germany included pension fund contracts, direct insurance schemes and private pension insurance funds qualifying for state co-sponsorship (Riester pension). In addition, deferred-compensation models were offered, under which employees were able to choose their pension scheme according to their individual preferences. Demand for these schemes rose in 2006.

Part-time early retirement

In German Group companies, approx. 400 employees worked under part-time early retirement contracts in the 2006 financial year. The resulting entitlements of these employees were hedged against insolvency of the employer, irrespective of the effective date of the part-time early retirement contract. TUI thus went substantially beyond the minimum standard required under the amended German part-time early retirement legislation, adopted in 2004, for the benefit of its employees. TUI provided approx. € 13.5 million in the 2006 financial year for this purpose.

Health promotion

In 2006, TUI signed the Luxemburg Declaration on Workplace Health Promotion in the European Union. Like the Group's own guidelines, this declaration aims to promote health at the workplace. All health-related issues are discussed at Group level via TUI's health network. In addition, the Group has a national work-health-environment committee as well as local health and safety committees, for which employer and employee representatives meet several times a year. In addition, TUI has joined the German Network for Company-Level Health Promotion.

Under the heading 'Fit with TUI', a health programme was put together for Group employees. The companies of the TUI Group offered their employees various initiatives concerning different issues such as target group-specific health seminars, programmes for the prevention of addictive behaviour, cancer prevention or cardiovascular check-ups.

Company health insurance fund

BKK TUI, whose administrative costs only amounted to around 3% of total expenses in 2006 (national average: around 6%) had a substantial number of new members in the financial year under review. Given its very good price/performance ratio and a contribution rate of 12.6%, undercutting the national average, its membership rose from around 10,800 to more than 12,000 in the course of the year. The BKK offered highly attractive products such as BKK FamilyPlus, which supports health activities within families by means of a contribution bonus.

Health and safety

The Group companies again implemented a large number of health and safety activities. These activities included the preparation of hazard analyses, workplace visits and participation in the preparation of escape and emergency schemes but also the organisation of driver safety training schemes in order to minimise accidents on the way to work.

Work-life balance

In terms of external activities, TUI is one of the founding members of the national network 'Success factor family'. All companies of the TUI Group

offer a large variety of programmes in order to actively support a work-life balance. TUI offers for instance flexitime, part-time and telework schemes for all employees. At Group level, part-timers account for around 21% of the workforce. In addition, German employees are free to extend their statutory parental leave by one extra year or go on unpaid leave in order to take care of a family member in need of care.

Female employees account for around 65% of the Group's workforce. During pregnancy and parental leave, employees are offered personal consultation concerning any questions related to their return to working life any time. Access to internal information sources such as the intranet and use of voluntary social benefits such as special rates for holiday tours is to be taken for granted, as is the possibility of participating in further training schemes. In addition, employees on parental leave are offered the opportunity to fill in as substitutes so as to remain involved in current corporate activities. Reapplications by employees who have not immediately returned to their jobs following the end of their parental leave are given priority over external applications if qualifications are equal. At the Hanover site, a company-run full-time day crèche was opened in 2006. This represented a major step towards encouraging employees to rapidly return to their jobs.

Employee representation within the Group

In the TUI Group, both national and international workers' representative schemes existed within individual Group companies and at Group level. In cooperation with the Executive Board and the management of the companies, solutions were found for strategic, organisational and operational decisions that also entailed headcount reductions, taking account of the interests of employees and management in a fair and balanced way.

TUI European Forum

The TUI European Forum, established in 1995 in addition to the statutory employee representative bodies required under national legislation, currently comprises 52 workers' representatives from 17 European countries. Group management regularly briefs the Select Committee of the TUI European Forum and discusses the current economic and HR situation within the Group with it. The TUI European Forum meets once a year and renders a significant contribution at international level to the transparency of major entrepreneurial decisions and the integration of different nationalities within the TUI Group.

Environmental management

Further information on environmental protection:
- ***www.tui-umwelt.com***
- ***'Environment' section in the management report***

The TUI Group's overall entrepreneurial action is largely determined by environmental aspects and the incorporation of environmental quality standards into business processes.

In the Good Company Ranking 2006, published by 'manager magazin' at the beginning of 2007 and covering the 120 largest European groups, TUI came out as the best company in the environmental category. The criteria applied in the environmental category included the company's overall ecological performance, the consideration of environmental aspects along the value chain, ecological innovation as well as dialogue and cooperation with public stakeholder groups.

Climate protection through energy efficiency

Through the detailed monitoring of aircraft, ships and hotels, the Group obtained fundamental information on fuel efficiency and associated emissions again in 2006. Particularly energy-efficient processes were applied to the entire aircraft fleet by means of a standardisation of flight processes and procedures. Due to the ongoing aircraft renewal programme the average aircraft age amounted to 10.1 years; this helped to stabilise the fuel consumption. Through joint fuel efficiency workshops, TUI began to develop more ways of promoting fuel efficiency and thus reduce specific greenhouse gas emissions.

In addition, TUI participated intensely in the debates concerning the integration of air transportation into the European emissions trading scheme (EU-ETS), conducted within the aviation and industry associations. Moreover, TUI participated in the 'Carbon Disclosure Project 4', which compiled detailed information about TUI's climate policy and the climate effects of its operations. Thomsonfly closely cooperated with the 'Sustainable Aviation' initiative in the UK which jointly prepares strategies for sustainable aviation in cooperation with other leading aviation companies in the UK.

In shipping, emission-efficient drive systems were used for newly commissioned vessels, resulting in a reduction in fuel consumption per TEU and nautical mile. In addition, alternative underwater coatings were tested and monitored for their effects on the resistance of floating vessels.

Preservation of biodiversity

Partnership with UNEP = United Nations Environment Programme

TUI carried out a large number of activities to promote protection of marine turtles in TUI destinations in the UNEP Year of the Turtle 2006. For 2007, the Year of the Dolphin, an integrated protection and information campaign was developed and presented to the international public at the UN campus in Bonn. The aim of these projects is to preserve and protect marine mammals with the support of local inhabitants and tourists.

In the UK, TUI again supported various activities for the preservation of biodiversity and the protection of endangered species. For many years, Thomsonfly has sponsored the UNEP project 'Great Apes Survival Project' by the 'Bornfree Initiative'. In the destinations TUI participated in reafforestation and population determination measures such as those conducted by the incoming agency Pollman's in the Tsavo National Park in Kenya or by TUI Nordic on the Canary Islands.

Specific activities in the destinations

Environmental quality in TUI hotel

Worldwide, TUI Deutschland encourages the competition for successful environmental management among its hotel partners by means of TUI Environmental Champion awards. Participation in the competition is conditional on participation in TUI's environmental monitoring scheme for hotels and compliance with TUI's minimum standards for environmental quality. As before, the most successful hotel chain in 2006 was Robinson with 20 clubs receiving an award. In the scoring category for individual hotels, Iberotel Sarigerme Park in Turkey won the award for the tenth time in succession. Thomson (TUI UK) introduced the 'Green Medals' as an environmental quality competition in its brochures and awarded medals to fifteen outstanding hotels in 2006.

Environmental quality label 'EcoResort'

In cooperation with Group environmental management, TUI Hotels & Resorts awarded the environmental quality label 'EcoResort' for Group-owned hotel chains for the first time in the 2006 financial year, following a review by external environmental experts. In order for a hotel chain to be awarded the label, it has to meet a number of criteria including high health and quality standards, sustainable development activities, a high level of eco-efficiency and a certified environmental management system. Fifteen Group-owned hotel and club facilities were awarded the 'EcoResort' label for the 2006/2007 winter brochures. The aim of the quality label is beside ecological quality assurance to promote sustainable development in the holiday regions.

Social responsibility

TUI AG and its subsidiaries attach great importance to being good corporate citizens at their worldwide sites and in the holiday destinations. As before, Group activities in 2006 focused on support for disadvantaged children and young people, and on the promotion of education, research, culture and sports.

Reconstruction aid in the Tsunami-stricken areas

The projects launched in Sri Lanka in 2005, implemented in cooperation with the incoming agency Aitken Spence and the DRV association 'Aid without frontiers', were successfully completed. Around 100 families obtained new homes and a basis for their future livelihood. The new village built for 200 families in cooperation with Plan International Deutschland was officially opened in October 2006 (www.tui-aid.com). In Sri Lanka, Nouvelles Frontières supported the organisation 'Réconstruire et vivre' in building 40 bungalows and two kindergartens. TUI Nordic supported the Takuapa Senanuku School in Kao Lak in Thailand, sponsoring books and teaching materials.

Support for disadvantaged children and young people

Sponsorships

TUI UK employees continued their sponsorship, initiated in 2005, for the Macmillan Cancer Relief aid organisation which takes care of children with cancer and their relatives. At the Hanover site, the sponsorship scheme run by employees of TUI companies for many years now benefited the children's relief organisation 'Hilfe für hungernde Kinder' in 2006.

Promotion of non-profit organisations

More than 300 TUI Leisure Travel travel agencies collected around € 20,000 for the '6 villages for 2006' project of 'SOS Kinderdörfer', contributing to the establishment of new children's villages in Brazil, Mexico, Nigeria, South Africa, Ukraine and Vietnam. For the fourth time in succession, TUI Austria and TUI AG supported the international adventure and education network 'Kids for Freedom' (K4F). Around 60 deprived children from seven nations were offered a sailing trip in Turkey with trained youth workers. As before, the RTL sponsorship marathon was actively supported by the Group in 2006. Hapagfly staff collected around € 140,000 with air passengers for various child aid projects. Several group companies in the tourism division also continued their worldwide activities to protect children against sexual abuse, e.g. by supporting the ECPAT organisation. Hapag-Lloyd continued its long-standing sponsorship schemes for children in China in cooperation with the aid organisation Plan International.

The monthly contributions are used to finance community projects, schools, wells and basic health care in the children's villages.

Projects and initiatives in the destinations

All tourism companies of the TUI Group particularly focused on activities in the destinations. Hapagfly carried around 17 tonnes of medical aid goods to Sudan for the German Red Cross (DRK). In addition, the airline collected around € 50,000 on its flights, also benefiting DRK projects. RIU and TUI Deutschland supported the modernisation and expansion of the primary school Kim Barosa in the Cape Verde islands. In Kenya, TUI sponsored two youth clubs which inform young people, among others, about AIDS. TUI Dominicana supported the Patria Foundation, which is establishing an internet library for children and adults in Puerto Plata. Another project sponsored in the Dominican Republic was a project to fight poverty, launched by TUI Nordic in cooperation with the Cordaid organisation. In cooperation with Tourism for Development (TFD), Nouvelles Frontières supported various projects in Kenya, Tanzania, Morocco, Brazil, Cambodia and the Dominican Republic.

Activities by the Foundations

TUI Foundation

Sponsorship of the scientific research activities accompanying the project 'Prevention by means of early promotion' for children from highest-risk families by the Criminological Research Institute of Lower Saxony was intensified. Thanks to sponsorship of the 2006 training campaign, ten additional vocational training placements were created for disadvantaged young people. In addition, the TUI Foundation supported the START project run by the non-profit Hertie Foundation, promoting particularly talented pupils with a migration background. In terms of the sponsorship of scientific projects, the Rudolf Schoen Award was awarded for the nineteenth time in 2006 to honour the best scientific publication at the Medical University of Hanover.

More information
- ***www.tui-stiftung.de***

Hapag-Lloyd Foundation

Cooperation with selected partners at the Hamburg site was continued in 2006. The promotion of young artists and talents played an essential role. Outstanding projects included sponsorship of 'Junges Schauspielhaus' in Hamburg, the St. Pauli Theatre, the Young Music Theatre Forum and the restoration training placement for Hamburg-based museums.

Scientific cooperation schemes

More information
- ***www.tui-campus.de***

TUI attaches particular importance to the promotion of innovation in the tourism sector and close cooperation with universities and research institutions. In 2006, the Group founded TUI Campus, a scientific network initiative. In the framework of this project, symposia will be organised twice a year to bring experts and practitioners together for an exchange of information and views concerning issues related to tourism and communication science.

Notes Principles and Methods underlying the Consolidated Financial Statements

General

TUI AG, based in Hanover, Karl-Wiechert-Allee 4, is the TUI Group's parent company and a listed stock corporation under German law. The Company has been registered in the commercial registers of the district courts of Berlin-Charlottenburg (HRB 321) and Hanover (HRB 6580).

TUI operates in two core businesses, tourism and shipping. TUI is Europe's largest integrated tourism group and, in terms of published turnover in 2005, market leader in Germany, the UK and France as well as one of the leading tourism companies in nine other European countries. Following the successful integration of CP Ships into Hapag-Lloyd, TUI operates one of the world's five leading container lines. TUI's shipping division also comprises a passenger shipping company.

The members of the Executive Board and the Supervisory Board, as well as other board memberships held by them, are listed separately in an annex to the section 'Corporate Governance' in the annual report.

The Executive Board and the Supervisory Board have submitted the declaration of compliance concerning the German Corporate Governance Code required pursuant to section 161 of the German Stock Corporation Act (AktG) and made it permanently accessible to the general public on the Company's website (www.tui-group.com).

The financial year of TUI AG and its main subsidiaries corresponds to the calendar year. The consolidated financial statements were prepared in euro. Unless stated otherwise, all amounts are indicated in million euros (€ million).

Accounting principles

The legal duty for TUI AG to prepare consolidated financial statements in accordance with the rules of the International Accounting Standards Board (IASB), the International Financial Reporting Standards (IFRS), is derived from section 315a sub-section 1 of the German Commercial Code (HGB) in combination with the Regulation EEC No. 1606/2002 of the European Union.

The IFRS are applied in the form in which they have been transposed into national legislation in the framework of the endorsement process by the European Commission. In addition, the commercial-law provisions stipulated by section 315a subsection 1 HGB are complied with. All requirements of each of the compulsory standards applicable as per the balance sheet date were completely fulfilled. As of the beginning of the 2006 financial year, the following standards, revised or newly published by the IASB, were applicable: IAS 21 The Effects of Changes in Foreign Exchange Rates (amendment for net investment in a foreign operation), IAS 39 Financial Instruments: Recognition and Measurement (amendment for cash flow

hedges of forecast intragroup transactions), IAS 39 Financial Instruments: Recognition and Measurement (amendment for fair value option), IAS 39 Financial Instruments: Recognition and Measurement (amendment for financial guarantee contracts), IFRS 4 Insurance Contracts (amendment for financial guarantee contracts), IFRS 6 Exploration for and Evaluation of Mineral Assets, IFRIC 4 Determining Whether an Arrangement Contains a Lease, IFRIC 5 Rights to Interests Arising from Decommissioning, Restoration and Environmental Rehabilitation Funds, IFRIC 6 Liabilities Arising from Participating in a Specific Market – Waste Electrical and Electronic Equipment. The application of these standards did not result in any significant changes in the TUI Group's accounting and measurement methods.

In addition, the revised IAS 19 Employee Benefits has been effective since 1 January 2006. This standard has already been applied voluntarily since 1 January 2005, and the option offered under this standard to offset actuarial gains or losses against equity at the date they occur outside profit and loss was exercised.

The following amendments to published, revised or newly adopted standards, already adopted by the IASB, were not yet applied in the 2006 financial year:
- IAS 1 Presentation of Financial Statements (Amendement re. Capital Disclosures),
- IFRS 7 Financial Instruments: Disclosures,
- IFRS 8 Operating Segments,
- IFRIC 7 Applying the Restatement Approach under IAS 29 Financial Reporting in Hyperinflationary Economies,
- IFRIC 8 Scope of IFRS 2,
- IFRIC 9 Reassessment of Embedded Derivatives,
- IFRIC 10 Interim Financial Reporting and Impairment,
- IFRIC 11 Group and Treasury Share Transactions according to IFRS 2,
- IFRIC 12 Service Concession Arrangements.

These amendments are only effective as of the 2007 financial year or later. The effects of the application of these standards on TUI AG's consolidated financial statements are not yet known or cannot be reliably assessed at the current point in time.

Due to the short period between the acquisition of the CP Ships Group and the preparation of the consolidated financial statements, the fair values of the acquired assets and contingent liabilities as well as the acquisition costs were only determined on a preliminary basis in the 2005 financial year. Final determination was effected in the last quarter of the completed financial year within the twelve-month period after the acquisition date stipulated by IFRS 3.62. In accordance with IFRS 3, comparative disclosures for periods prior to the completion of the first time accounting of the acquisition transaction must be presented retrospectively as if the purchase price allocation had already been completed at the date of the acquisition. In order to enhance the comparability of figures, the restated figures for 2005 are therefore provided alongside the originally published figures for 2005, both for the profit and loss statement and the balance sheet. The table shown below provides an overview of the retrospective changes in the purchase price allocation.

	Original carrying amounts at date of first time consolidation		Adjustment of the purchase price allocation		Carrying amounts at date of first time consolidation after adjustment	
	$ million	€ million	$ million	€ million	$ million	€ million

Equity	**2,011.8**	**1,679.3**	**- 107.3**	**- 89.5**	**1,904.5**	**1,589.8**

The goodwill arising in the consolidated balance sheet from netting the purchase price for the acquisition of around 89.0% of the shares in October 2005 and the revalued interst in equity rose by USD 95.4 million (€ 79.6 million) due to the changes in the purchase price allocation. The retrospective reduction in the incidental acquisition costs, which were only determined on a preliminary basis in 2005 since some invoices had not yet been received, of USD 0.9 million (€ 0.8 million) resulted in a reduction in the originally capitalised goodwill of the same amount. Final goodwill thus amounted to USD 144.9 million (€ 121.0 million) at the date of first time consolidation. To a large extent, goodwill was part of the expected synergy potential. The negative goodwill which arose in the framework of the acquisition of a minority share in December 2005 rose by USD 11.6 million (€ 9.8 million) to USD 15.6 million (€ 13.1 million). The negative goodwill was directly offset against other revenue reserves. The Group's profit for the year in 2005 rose by USD 1.9 million (€ 1.5 million), with USD 0.2 million (€ 0.2 million) relating to minority shares.

Furthermore, the structure of some assets in the consolidated balance sheet was adjusted in comparison with 2005. In particular, the shares in non-consolidated Group companies, shares in investment companies and securities, shown as investments in 2005, were now carried as financial assets available for sale. Loans, which were included in financial investments in 2005, were summarised under 'Advances and loans' with advances and payments on account. This item was one of the items of trade accounts receivable and other receivables shown in the consolidated balance sheet. 2005 loans of € 27.7 million, classified as non-current financial investments, were classified as current assets due to the adjustment of the structure of the consolidated balance sheet.

Principles and methods of consolidation

Principles

The consolidated financial statements included all major companies in which TUI AG was able, directly or indirectly, to determine the financial and operating policies so as to obtain benefits from the activity of these companies (subsidiaries). As a rule, the control was exercised by means of a majority of voting rights. The RIUSA II Group was included on the basis of equal equity interests and voting rights for TUI AG and its co-shareholder due to de facto control. In the light of overall circumstances, TUI AG was able to determine the financial and operating policies so as to obtain benefits from the activity of this hotel group. In assessing whether the Company was able to control these companies, the existence and effects of potential voting rights which the Company had a right to exercise or convert were taken into account. These companies were included in the consolidated financial statements as of the date at which the TUI Group gained control. When the TUI Group ceased to control these companies, they were removed from consolidation.

The consolidated financial statements were prepared on the basis of the audited individual or consolidated annual financial statements of TUI AG and its subsidiaries, prepared on the basis of uniform accounting, measurement and consolidation methods.

Shareholdings in companies in which the Group was able to exert significant influence over the financial and operating decisions within these companies (associated companies, shareholding of 20% to less than 50%) were measured at equity. Companies managed jointly with one or several partners (joint ventures, shareholding of 50%) were also measured at equity. The principles applied in determining the dates as of which associated companies and joint ventures were included in or removed from the group of companies measured at equity corresponded to those applying to subsidiaries. Equity measurement in each case was based on the last annual or consolidated financial statements.

Group of consolidated companies

In the 2006 financial year, the consolidated financial statements included a total of 39 domestic and 348 foreign subsidiaries, besides TUI AG.

60 domestic and 111 foreign subsidiaries were not included in the consolidated financial statements. Even when taken together, these companies were not significant for the presentation of a true and fair view of the financial position and performance of the Group.

After 31 December 2005, 26 companies were newly included in consolidation. Five companies had to be included for the first time due to acquisitions. Another 16 companies were included for the first time due to an expansion of their business operations, with five companies included in consolidation for the first time since they were newly established. 21 of the companies included in consolidation for the first time related to the tourism division, three companies to the shipping division and two companies to the holding companies sector.

Since 31 December 2005, a total of 82 companies were removed from consolidation. Of these deconsolidated companies, 47 companies were related to the tourism division, 18 companies to the shipping division, 15 companies to the trading sector

and two companies to other operating sectors. The group of consolidated companies declined by 35 companies due to the divestment of the TQ3 Group (twelve companies), the US steel service group (15 companies), the TUI InfoTec Group (two companies), Wolf GmbH and five further companies. Another 47 companies were deconsolidated due to liquidation, reduction of their business operations and mergers.

As at 31 March 2006, TUI AG completed the divestment of its business travel activities, pooled under the TQ3 Travel Solutions Management Holding GmbH, to the Dutch company BCD Holdings N.V. Until 31 March 2006, the TQ3 Group generated turnover of € 62.3 million and earnings after taxes of € - 3.1 million. In 2005, its turnover had totalled € 254.1 million with earnings of € - 7.6 million. The divestment of a total of twelve subsidiaries was effected at a selling price of € 232.9 million. After deduction of the selling expenses and the realisation of exchange differences with an effect on results of € 16.1 million, the divestment generated total positive earnings before taxes of € 151.1 million for the 'Other tourism' sector. In the framework of the divestment, liabilities to TUI AG of around € 98 million were offset. In the financial year under review, the divestment resulted in a total cash inflow of € 283.0 million.

€ million	31 March 2006	31 Dec 2005
Goodwill	104.7	104.9
Other intangible assets	2.9	2.5
Property, plant and equipment	15.9	23.0

Cash and cash equivalents	30.6	7.3
Pension provisions	14.2	13.7
Income tax provisions	2.5	1.8
Other provisions	16.1	14.6
Financial liabilities	5.5	6.2
Trade accounts payable	60.6	39.7
Other liabilities	143.5	118.5
Equity	**65.7**	**73.4**
of which minority interests	**–**	**–**

Since the sales negotiations became increasingly specific, the business travel activities were already classified as a disposal group in accordance with IFRS 5 as at 20 December 2005. The assets and liabilities of the TQ3 Group therefore already had to be summarised in separate balance sheet items in the consolidated financial statements for 2005.

As at 9 May 2006, TUI AG sold its indirect wholly-owned subsidiary PNA Group Inc. to US financial investor Platinum Equity. Until the divestment date, the US steel service companies generated turnover of € 401.0 million with earnings after taxes of € 19.8 million. In 2005, turnover had totalled € 1,002.9 million, with earnings of € 33.3 million. The 15 subsidiaries were sold at a selling price of € 210.8 million. After deduction of the expenses and the realisation of foreign currency exchange differences of a total of € 7.0 million associated with the divestment, the trading sector posted overall negative earnings before taxes of € 12.7 million relating to the divestment. In the financial year under review, the divestment resulted in a total cash inflow of € 267.3 million.

€ million	9 May 2006	31 Dec 2005
Property, plant and equipment	59.6	63.7
Companies measured at equity	7.0	6.8
Trade accounts receivable and other receivables	364.7	316.0
Deferred income tax claims	10.2	4.2
Cash and cash equivalents	0.8	1.7

Other liabilities	3.7	5.8
Equity	**219.1**	**217.9**
of which minority interests	**2.6**	**2.4**

With the application of IFRS 5 as at 1 January 2005, the US steel service companies had been classified as discontinuing operations. The assets and liabilities of the PNA Group already had to be summarised in separate balance sheet items in the consolidated financial statements for 2005.

As at the end of the first half of 2006, the specialist travel operations of TUI Nederland were sold in the framework of a management buy-out. TUI Nederland N.V. sold all assets and liabilities of the specialist tour operators at a selling price of € 17.5 million to De Reisspezialisten Groep B.V. The divestment resulted in positive earnings before taxes of € 12.8 million. The turnover and earnings contribution of the sold group of specialist tour operators in relation to the turnover and earnings of the TUI Group was insignificant.

With effect from 5 October 2006, TUI AG sold its 80% interest in Wolf GmbH at a selling price of € 61.8 million to CENTROTEC Sustainable AG. Until it was sold, Wolf GmbH generated turnover of € 154.1 million and earnings after taxes of € 3.6 million. In 2005, its turnover had totalled € 192.0 million with earnings of € 3.0 million. Due to the forthcoming divestment, the business operations of Wolf GmbH were classified as a disposal group in accordance with IFRS 5 as per 12 September 2006. The divestment resulted in earnings before taxes of € 34.7 million. In the financial year under review, the divestment resulted in a total cash inflow of € 75.8 million.

€ million	5 Oct 2006	31 Dec 2005

of which minority interests	**6.8**	**7.1**

On 27 September 2006, TUI AG sold 50.1% of its shares in TUI InfoTec GmbH and a further subsidiary to Sonata Software Limited, Bangalore, at a selling price of € 18.0 million. The shares were transferred upon the occurrence of several suspensive conditions on 24 November 2006. Until the share transfer date, the TUI InfoTec Group generated turnover of € 98.4 million and earnings before income taxes of € 2.4 million. In 2005, its turnover had totalled € 132.2 million with earnings of € - 10.9 million. Due to the divestment, the business operations of the TUI InfoTec Group were classified as a disposal group in accordance with IFRS 5 as at 23 August 2006. The disposal resulted in earnings before taxes of € -10.6 million, taking account of the cost to sell of € 7.3 million and the additional disposal of goodwill from a Group perspective of € 4.1 million. In the financial year under review, the divestment resulted in a total cash inflow of € 13.2 million.

As at 24 August 2006, TUI UK Limited, London acquired 100% of the shares in Explorers Travel Club Ltd., Camberley (UK), a provider of individual and organised diving tours, and four other subsidiaries. The purchase price including incidental acquisition costs totalled around GBP 8.9 million (€ 13.1 million), while net assets acquired totalled GBP 2.3 million (€ 3.5 million). Due to the purchase price allocation to individual assets and liabilities, equity rose by GBP 2.1 million (€ 3.0 million). The excess of the total acquisition cost over the revalued equity of GBP 4.5 million (€ 6.7 million) was carried as goodwill. Since the date of first time consolidation, the group generated earnings after taxes of GBP - 0.4 million (€ - 0.5 million) with turnover of GBP 3.2 million (€ 4.7 million). Since the group's financial year did not correspond to the calendar year, financial statements for the entire year 2006 were not available. It was therefore impossible to determine the disclosures of turnover and earnings generated in 2006.

	Carrying amounts at acquisition date		Revaluation of assets and liabilities		Carrying amounts at date of first time consolidation	
	GBP million	€ million	GBP million	€ million	GBP million	€ million

The effects of the changes in the group of consolidated companies in the 2006 financial year on the periods under review are outlined below. While the balance sheet items of companies removed from consolidation in the 2006 financial year are only shown as at the closing date for the previous period, the items of the profit and loss statement are also shown for the completed financial year on a prorated basis.

Effects of additions to and removals from consolidation

Balance sheet € million	Additions 31 Dec 2006	Disposals 31 Dec 2005
Non-current assets	77.6	124.0
Current assets	38.2	735.3
Non-current provisions	32.6	55.4
Current provisions	3.4	17.9
Non-current financial liabilities	0.3	3.4
Current financial liabilities	1.1	2.4
Non-current other liabilities	37.0	2.3
Current other liabilities	17.9	420.4

Effects of additions and removals from consolidation

Group profit/loss for the year	**2.3**	**183.7**	**51.9**

22 associated companies and 32 joint ventures were measured at equity. The group of companies measured at equity rose by two companies on the previous year. The additions primarily resulted from expansions of the business activities of the companies. In addition one company was included in the group of companies measured at equity for the first time due to a share purchase and two previously consolidated companies have been measured at equity due to the disposal of shares. On the other hand, five companies were removed from the group of companies measured

at equity because of divestments of shareholdings. While two companies were reclassified from associated companies to joint ventures following the acquisition of further shares, one of the previous joint ventures now had to be carried as an associated company due to the sale of shares.

[1] excl. TUI AG

The major indirect and direct subsidiaries, associated companies and joint ventures of TUI AG are listed on page 216. A complete list of shareholdings has been deposited with the district courts of Berlin-Charlottenburg and Hanover.

Currency translation

Foreign currency transactions were translated into the functional currency at the exchange rate applicable at the date of the transaction. Gains and losses from the implementation of such transactions and the translation of assets and liabilities carried in foreign currencies at the closing rate are carried in the profit and loss statement. Profits and losses that have to be carried in equity as qualified cash flow hedges are excepted.

The financial statements of companies have to be prepared in the functional currency of the company. The respective functional currency corresponds to the currency of the economic environment in which the company primarily operates. As a matter of principle, the functional currency of all subsidiaries was the national currency of the country in which the respective subsidiary was based, with the exception of a sub-sector in container shipping and two companies in the tourism division. Where subsidiaries prepared their financial statements in currencies other than the euro, the Group's functional currency, the assets, liabilities and balance sheet notes associated with the subsidiaries were translated at the middle rate applicable at the balance sheet date (closing rate). Goodwill allocated to these companies and adjustments of the fair value arising from the acquisition of a foreign company were treated as assets and liabilities of the foreign company and were also translated at the closing rate applicable at the balance sheet date. The items of the profit and loss statement and hence the profit for the year shown in the profit and loss statement were translated at the annual average rate. For consolidated currency differences arising from the translation of net investments in economically independent foreign sub-entities, financial liabilities and other currency instruments classified as hedges of such investments were carried in equity with no effect on results.

Translation differences for non-monetary items whose changes in fair value are offset with an effect on results (e.g. equity instruments measured at fair value with an

effect on results) had to be shown as profits or losses from fair value measurement in the profit and loss statement. In contrast, translation differences for non-monetary items whose changes in fair value affected equity (e.g. for equity instruments classified as available for sale) had to be carried in the revaluation reserve for financial instruments as part of revenue reserves.

In subsidiaries operating in hyperinflationary economies, the translation of the index-linked income and expense items, including the profit for the year, was effected at the respective closing rate. The carrying amounts of the non-monetary balance sheet items of these companies were adjusted to changes in prices on the basis of purchasing power indices and subsequently translated also at the closing rate at the closing date. The purchasing power gains or losses resulting from the indexation were carried as interest income or expenses with an effect on results. However, since the beginning of 2006, none of the economies in which the TUI Group's subsidiaries operate their businesses has been classified as a hyperinflationary economy.

The translation of the financial statements of foreign companies measured at equity followed the same principles for adjusting equity and translating goodwill as those used for consolidated subsidiaries.

Differences resulting from the translation of the financial statements of foreign subsidiaries were carried with no effect on results and separately shown as differences from currency translation in the statement of changes in equity. If a foreign company or operation is sold, the differences from currency translation previously carried in equity with no effect on results were carried in the profit and loss statement as part of the gain or loss on disposal with an effect on results. Where net investment in a foreign company or foreign operation was reduced, the exchange differences were realised with an effect on results in line with the reduced proportion.

Exchange rates of relevant currencies

	Closing rate		Average rate	
each €	31 Dec 2006	31 Dec 2005	2006	2005

Swedish kronas	9.04	9.39	9.25	9.28

Consolidation methods

Accounting of net assets of acquired subsidiaries was based on the purchase method of accounting. Accordingly, irrespective of existing minority shares, all identifiable assets, liabilities and contingent liabilities were measured at their fair values at the acquisition date. Subsequently, the acquisition costs plus the costs directly allocable to the acquisition were eliminated against the acquiree's revalued equity. Any excess of acquisition costs over net assets acquired was recognised as goodwill for all companies purchased since 1 October 1995 and recognised as an asset for the acquired subsidiary in accordance with the provisions of IAS 21. Any goodwill arising before that date continued to be eliminated against other revenue reserves. Any negative goodwill was immediately reversed with an effect on results, with the reversal effect shown as 'Other income'.

Due to the application of IRFS 3, goodwill was no longer amortised. Goodwill was regularly tested for impairment at least annually, following the completion of the annual planning process. Additional impairment tests were implemented if there

were any events or indications suggesting a potential impairment of goodwill. Transactions with minorities were treated as transactions with equity holders of the Group. Goodwill, i. e. the difference between the acquisition costs and the interest in the carrying amount of the net assets of the subsidiary, arising in the framework of the acquisition of minority interests was directly eliminated against other revenue reserves. If minority interests were sold, the difference between the gain on the disposal and the interest in the carrying amount was also offset against other revenue reserves.

In the event of step acquisitions, a complete fair value measurement of the assets and liabilities of the acquired company was effected as at the date of each acquisition transaction. The goodwill to be recognised arose from the elimination of the acquisition cost against the acquiree's revalued equity attributable to the acquired share at the respective acquisition date. Any changes in the fair values of assets and liabilities arising in between the acquisition dates were taken to equity in the consolidated balance sheet in line with the amount of holding which did not yet result in a consolidation of the company and carried as a revaluation reserve with no effect on results. In the framework of the removal of a company from consolidation, this revaluation reserve was eliminated against other revenue reserves.

The difference between the income from the disposal of the subsidiary and proportionate Group equity, including differences from currency translation carried with no effect on results, differences from the revaluation reserve, the revaluation reserve for financial assets as well as intercompany profits, was carried as a profit or loss from the disposal of the subsidiary in the consolidated profit and loss statement as at the disposal date. This provision did not apply to actuarial gains or losses carried in Group equity with no effect on results in accordance with IAS 19 in the framework of the recognition of pension provisions. In the disposal transaction, the goodwill allocable to the subsidiaries was taken into account in determining the gains or losses on disposal.

The main associated companies and joint ventures of the Group were measured at equity and, at the acquisition date, carried at their acquisition costs. The Group's share in associated companies and joint ventures included the goodwill arising from the acquisition.

The Group's share in the profits and losses of associated companies and joint ventures was carried in the profit and loss statement (result of companies measured at equity) as of the acquisition date. The share in changes in reserves was carried in Group revenue reserves. Cumulative post-acquisition changes were eliminated against the carrying amount of the shareholding. Where the share in the loss of an associated company or joint venture matched or exceeded the Group's interest in this company, including other unsecured receivables, as a matter of principles no more losses are carried. Further losses were only carried if commitments had been entered into for the associated company or joint venture, or if payments had been made for the company.

Intra-group receivables and liabilities or provisions were eliminated. Where the conditions for a consolidation of third-party liabilities were met, this consolidation method was applied. Intercompany profit from transactions between subsidiaries and companies measured at equity were eliminated in line with the Group's interest in the company. Intercompany losses were also eliminated where the transaction did not indicate an impairment of the assets transferred. Where the accounting and

measurement methods applied by associated companies and joint ventures differed from the Group-wide accounting standards and these deviations were accessible, adjustments were made.

Intercompany turnover and other income as well as the corresponding expenses were eliminated. Intercompany profits and losses from intra-group deliveries or services were eliminated with an effect on results, with deferred income taxes taken into account. However, intercompany losses were taken as an indicator for the need to implement an impairment test for the asset transferred. Intra-group deliveries and services were usually provided in conformity with the arm's length principle. Intercompany profits from deliveries to and from companies measured at equity were eliminated on the basis of the same principles when the corresponding facts were known.

Accounting and measurement

The financial statements of the companies included in the TUI Group were prepared in accordance with uniform accounting and measurement principles. The amounts stated in the consolidated financial statements were not determined by tax regulations but solely by the commercial presentation of the net worth and financial position as set out in the rules of the IASB.

Realisation of income

Turnover comprised the fair value of the consideration received or to be received for the sale of products and services in the framework of ordinary business activities. Turnover was carried excluding value-added tax, returns, discounts and price rebates and after elimination of intra-Group sales.

As a matter of principle, turnover and other income was carried upon rendering of the service or delivery of the assets and hence upon transfer of the risk.

The commission income from package tours sold by the travel agencies was recognised upon payment by the customers, but at the latest upon departure. The services of tour operators mainly consisted in the organisation and coordination of package tours. Turnover from the organisation of tours was therefore fully recognised upon the start of the tour. Turnover from individual travel modules directly booked with airlines, hotel companies and incoming agencies by the customers was realised when the customers used the corresponding service.

Income from non-completed shipping tours was recognised according to the percentage of completion at the balance sheet date. In container shipping, the percentage of completion corresponded to the relationship between the expenses already incurred and the expected overall expense for the shipping tour. The realisation of income was based on the determined and constantly reviewed profit margins for the individual trade lanes. In the cruise sector, the percentage of completion was determined as the ratio between travel days completed by the balance sheet date and overall travel days.

Interest income and expenses were reported on an accrual basis according to the effective interest method. Dividends were reported when the legal claim had arisen.

Goodwill and other intangible assets

Acquired intangible assets were carried at cost. Self-generated intangible assets, primarily software used by the Group itself, were capitalised at cost where an inflow of future economic benefits for the Group was probable and could be reliably

measured. The cost of production comprised direct costs and directly allocable overheads. Intangible assets with a limited service life were amortised over the expected useful life. Concessions and industrial property rights and similar rights and values were amortised over a period of up to 20 years. Software amortisation usually covered a period of up to three years, in exceptional cases of up to ten years. Intangible assets with an indefinite useful life were not amortised but had to be tested for impairment at least annually. Additional impairment tests had to be conducted when there were any events or indications suggesting a potential impairment. Impairments were charged when the future recoverable amount from the asset was below its carrying amount. The recoverable amount of an asset was the fair value less cost to sell or the present value of future cash flows expected to arise from the asset (value in use), if higher. The Group's intangible assets with an indefinite useful life exclusively consisted of goodwill.

Impairment tests for goodwill were conducted on the basis of cash-generating units. According to the IASB rules, a cash-generating unit is the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets. In the tourism segment, cash-generating units were established for the individual source markets, i.e. for specific countries, on the one hand and for individual subsidiaries in the tourist destinations on the other. The shipping segment was defined as one single cash-generating unit in its entirety.

In the framework of the impairment tests, the carrying amounts of the tested entities plus the allocated goodwill were compared with their value in use less expected costs to sell. The value in use less expected costs to sell is the amount that could be generated for the cash-generating unit between knowledgeable, willing, independent business partners after deduction of costs to sell. Details concerning the implemented impairment tests are outlined in note 7.

Where the original causes for impairments charged in previous years no longer applied, the impairment was written back to other income. In accordance with IAS 36, write-backs of goodwill were not admissible.

Property, plant and equipment

Property, plant and equipment were recognised at amortised cost. The cost of purchase comprised all costs incurred to purchase an asset and bring it to working condition. The cost of production was determined on the basis of direct costs and directly allocable overheads and depreciation. The cost of finance for the acquisition or the period of production was not capitalised.

Use-related depreciation and amortisation was based on the following useful lives:

Useful lives

	Useful lives
Hotel buildings	30 to 40 years
Other buildings	up to 50 years
Container ships	25 years
Classification costs	depending on intervals, up to 5 years
Cruise ships	30 years
Classification costs	depending on intervals, up to 2 years
Aircraft	
Fuselages	18 years
Engines	18 years
Engine overhaul	depending on intervals, up to 5 years
Major overhaul	depending on intervals, up to 5 years
Spare parts	12 years
Containers and semi-trailers	up to 12 years
Other machinery and fixtures	up to 40 years
Operating and business equipment	up to 10 years

Moreover, the level of depreciation was determined by the residual amounts recoverable at the end of the useful life of an asset. While the residual value of a container ship corresponded to its scrap value, the residual value assumed for cruise ships and their hotel complexes in first time recognition amounted to 30% of the acquisition costs. The depreciation of aircraft fuselages, aircraft engines and spare parts in first time recognition was determined on the basis of a residual value of 20% of the cost of acquisition.

Both the useful lives and assumed residual values were reviewed on an annual basis in the framework of the preparation of the annual financial statements. Residual values were reviewed on the basis of comparable assets having reached the end of their useful lives. Any adjustments required were presented as corrections of scheduled depreciation over the remaining useful life of the asset. The restatement of depreciation was effected retrospectively for the entire financial year in which the review took place. Where the review resulted in an increase in the recoverable residual value so that it exceeded the remaining net carrying amount of the asset, depreciation was suspended. In this case, the amounts were not written back.

Any losses in value expected to be permanent and going beyond wear-and-tear depreciation were taken into account by means of the recognition of impairment losses. If there were any events or indications suggesting an impairment, the carrying value of an asset was compared with the recoverable amount in the framework of the impairment test required in that case. The recoverable amount is the higher of an asset's fair value less costs to sell and the present value of future cash flows attributable to the asset (value in use).

Investment grants received were shown as reductions in cost where these grants were directly allocable to individual property, plant or equipment items. Where a direct allocation of grants was not possible, the grants and subsidies received were carried as deferred income under other liabilities and reversed in accordance with the useful life of the investment project.

Finance leases

In accordance with IAS 17, leased property, plant and equipment in which the TUI Group carried all essential risks and rewards incident to ownership of the assets

were capitalised. The capitalisation was based on the fair value of the asset or the present value of the minimum lease payments, if lower. Scheduled depreciation was charged over the economic life or the lease term, if shorter, on the basis of the depreciation method applicable to comparable purchased or manufactured assets. The payment obligations arising from future lease payments were carried as liabilities, with future interest expenses not taken into account. Every lease payment was broken down into an interest and a redemption portion so that the liability from the lease yielded constant interest. The interest portion was carried in the profit and loss statement with an effect on results.

Where companies of the TUI Group acted as lessors in finance leases, receivables equivalent to the net investment value of the leases were carried. The periodical distribution of the income from finance leases resulted in constant interest payments on the outstanding net investment volume of the leases over the course of time. Rental income from operating leases was recognised on a straight-line basis over the term of the corresponding contracts.

Investment property

Property not occupied for use by subsidiaries and exclusively held to generate rental income and capital gains was recognised at amortised cost. This property was depreciated over a period of up to 50 years.

Financial assets

Loans and receivables are non-derivative financial assets with fixed or fixable payments not listed in an active market. Loans and receivables are shown under 'Trade accounts receivable and other receivables' in the balance sheet.

Financial assets measured at fair value with an effect on results were only held by the Group in the form of derivative financial instruments exclusively held for trading.

Financial assets available for sale are non-derivative financial assets either allocated to this category or could not be allocated to any other category of financial assets. They have to be allocated to non-current assets if the management does not intend to sell them within twelve months after the balance sheet date. The financial assets allocated to this category were shares and securities held.

Financial assets were recognised at the trade date, on which the Group committed to buy or sell the asset. Loans and receivables as well as financial assets available for sale were at the beginning carried at fair value plus transaction costs. The assets are derecognised as at the date on which the rights for payments from the asset cease or are transferred and therefore as at the date essentially all risks and rewards are transferred associated with ownership are transferred. Financial assets available for sale were measured at their fair value after their first time recognition. Changes in the fair value were carried in equity with no effect on results until the disposal of the asset. A permanent reduction in fair value gave rise to impairments with an effect on results. In the event of subsequent reversal of the impairment, the impairment carried with an effect on results was not reversed for equity instruments but eliminated against equity with no effect on results. Where a listed market price in an active market was not available for shares held and other methods to determine the objective market value were not applicable, the shares were measured at amortised cost. Loans and receivables were recognised at amortised cost based on the effective interest method.

Derivative financial instruments and hedging

In the framework of initial measurement, derivative financial instruments were measured at the fair value attributable to them on the day of the conclusion of the agreement. The follow-up measurement was also effected at the fair value applicable at the respective balance sheet date. The method applied in recording profits and losses depended on whether the derivative financial instrument was classified as a hedge, and on the type of hedged item. As a matter of principle, the Group classifies derivative financial instruments either as fair value hedges to hedge exposure to changes in the fair value of assets or liabilities or as cash flow hedges to hedge exposure to risks of varying cash flows from higly probable future transactions.

Upon conclusion of the transaction, the Group documents the hedging relationship between the hedge and the underlying item, the risk management goal and the strategy pursued in entering into the hedges. In addition, an assessment is made both at the beginning of the hedge relationship and on a continual basis as to whether the derivatives used for the hedge compensate for the changes in the fair values or cash flows of the underlying transactions in a highly effective manner. Derivative financial instruments held for trading were carried as current assets or liabilities.

The changes in the fair value of derivatives designated to hedge exposure to changes in the fair value and qualify the hedge as a fair value hedge were carried in the profit and loss statement together with the changes in the fair value of the hedged assets or liabilities allocable to the hedged risk. If the conditions for hedge accounting were no longer met and the previously designated underlying item was measured by means of the effective interest method, the necessary adjustment of the carrying amount of the underlying transaction had to be effected over its remaining term.

The effective part of changes in the fair value of derivatives drawn to hedge the cash flow and qualify as cash flow hedges was recognised in equity. The ineffective part of such changes in the fair value, in contrast, was taken directly to the profit and loss statement with an effect on results. Amounts taken to equity were reclassified into the profit and loss statement and carried as income or expenses in the period in which the underlying transaction had an effect on results. Where a hedged future transaction resulted in the recognition of a non-financial asset or a non-financial liability, the profits or losses previously carried in equity were included in the first time measurement of the cost of the asset or liability.

If a hedge expired, was sold or no longer met the criteria for hedge accounting, the profit or loss previously in equity by then remained in equity and was only carried in the profit and loss statement with an effect on results if the originally hedged future transaction occurred. If the future transaction was no longer expected to occur, the cumulative profits or losses recognised in equity immediately had to be reclassified with an effect on results.

Changes in the fair values of derivative financial instruments not achieving the criteria for hedge accounting were directly carried in the profit and loss statement with an effect on results.

Trade accounts receivable

Trade accounts receivable were at the beginning initially carried at their fair value and subsequently measured at amortised cost on the basis of the effective interest method and the deduction of impairments. An impairment of trade accounts receivable was carried if objective indications suggested that the amounts receivable

and due were not fully matched. The impaired amount was carried under 'Other expenses' with an effect on results.

Inventories

Inventories were measured at the lower of cost or net realisable value. Net realisable value was the estimated selling price less the estimated cost incurred until the sale and the estimated variable costs required to sell. All inventories were written down individually where the net realisable value of inventories was lower than their carrying amounts. Where the original causes of inventory write-downs no longer applied, the write-downs were reversed. The measurement method applied to similar inventory items was the weighted average cost formula.

Cash and cash equivalents

Cash and cash equivalents comprised cash, sight deposits, other current highly liquid financial assets with an original term of a maximum three months and current accounts. Used credits in current accounts were shown as liabilities to banks under current financial liabilities.

Hybrid capital

In accordance with IAS 32, the bond terms of the hybrid capital issued as at the end of the 2005 financial year resulted in recognition as an equity component for the Group. Accordingly, the tax-deductible interest payments were not shown under interest expenses but were treated in analogy to dividend obligations to the shareholders. The costs of equity raising were directly deducted from the hybrid capital, taking account of deferred income taxes.

Provisions

Provisions were formed where the Group had a current legal or constructive obligation resulting from a past event and where in addition it was probable that the payment of the obligation would impact assets and the level of the provision could be reliably determined. Provisions for restructurings comprised payments for the premature termination of rental agreements and severance payments to employees. No provisions were carried for future operating losses.

Where a large number of similar obligations existed – such as in the event of legal guarantees and warranties – the probability of a burden on assets was determined on the basis of this group of obligations. A provision was also carried under liabilities if the probability of a burden on assets was low in relation to a single obligation contained in this group.

Provisions were measured at the net present value of the expected expenses with an interest rate before taxes taking account of current market expectations concerning the interest effect and the specific risks related to the obligation. The increase in the provisions due to the passage of time were carried as interest expenses with an effect on results.

The pension provision recognised for defined benefit plans corresponded to the net present value of the defined benefit obligations (DBOs) at the balance sheet date less the fair value of the plan assets. Actuarial gains and losses arising from the regular adjustment of actuarial parameters were eliminated against equity when they occurred with no effect on results. The DBOs are calculated on an annual basis by independent actuarial experts on the basis of the projected unit credit method. The net present value of the DBO is calculated by discounting the expected future outflows of cash with the interest rate of high-quality corporate bonds.

Past service cost was immediately recognised with an effect on results if the changes in the pension plan did not depend on the employee remaining in the company for a defined period of time (period until non-forfeitability). In this case, the past service cost was recognised with an effect on results on a straight line basis over the period until the commencement of non-forfeitability.

For defined contribution plans, the Group pays contributions to public, contractual or private pension insurance plans on the basis of a statutory or contractual obligation or on a voluntary basis. The Group does not have any further payment obligations beyond the payment of the contributions. The contributions were carried under personnel costs when they fell due.

Share-based payments

All share-based payment schemes existing in the Group were payment schemes paid in cash. At the date of the performance by the beneficiary, the resulting liability for the Group was carried at its fair value. Until the liability was paid, the fair value of the liability was remeasured at every reporting date and all changes in the fair value were carried with an effect on results.

Liabilities

As a matter of principle, liabilities were carried at the date on which they arose at the fair value less the costs of borrowing and transaction costs. Over the course of time, liabilities were measured at amortised cost based on the effective interest method.

When issuing bonds comprising both a pure dept component but also a second component in the form of conversion options or warrants, the funds ob-tained for the respective components were recognised in accordance with their character. At the issuing date, the dept component was carried as a bond at a value that would have been generated for the issue of this dept instrument without corresponding conversion options or warrants on the basis of existing market terms. Where the conversion options or warrants had to be classified as equity instruments, the difference compared with the issuing proceeds generated was transferred to the capital reserve with deferred taxes taken into account. With effect from 3 April 2006, TUI AG irrevocably waived its unilateral option of paying cash in the event of an exercise of the conversion options from the convertible bond issued in October 2003, and therefore the conversion options have been treated as equity instruments since the waiver date.

Currency differences resulting from the translation of trade accounts receivable were reported as a correction of the cost of purchased services and materials. Currency differences from the translation of liabilities not resulting from normal performance processes were carried under other income and expenses.

Deferred income taxes

Deferred taxes were carried for all temporary differences between the tax base of the assets/liabilities and their carrying amounts in the Group's statements (liability method). However, if a transaction is shown as something other than a business acquisition a deferred tax arises from the first time recognition of an asset or a liability which does not have an effect on profit of loss in the balance sheet or the tax balance sheet at the transaction date, tax deferral was not effected. Deferred taxes were measured on the basis of the tax rates (and tax provisions) which were applicable at the balance sheet date or had been adopted as law expected to be applicable at the realisation date of the deferred tax claim or the payment of the deferred tax liability.

Deferred tax claims were carried to the extent to which it was probable that taxable profit would be available against which the temporary difference could be used.

Deferred tax liabilities arising from temporary differences in connection with participations in associated companies, joint ventures and subsidiaries were carried unless the date of the reversal of the temporary differences could be determined by the Group and it was probable that the temporary differences would therefore not reverse in the foreseeable future.

Income tax provisions were offset against the corresponding tax refund claims where they existed in the same fiscal territory and had the same nature and maturity.

Essential assumptions and estimates

All estimates and judgments were constantly revalued and were based on past experience and other factors, including expectations concerning future events.

Goodwill was tested for impairment as at the balance sheet date. Details concerning the implementation of goodwill impairments tests are provided in note 7.

The determination of the present value of pension obligations largely depends on the selection of the discount rate, determined at the end of each year. The discount rate used was the interest rate of high-quality corporate bonds that were denominated in the currency in which the benefits will be paid, and that had terms to maturity approximating the terms of the related pension liability. Detailed information is provided in the explanations on recognised pension provisions in note 34.

The Group was liable to pay income taxes in numerous countries. Significant assumptions were required in determining the worldwide provision for income taxes. There were transactions and calculations for which the ultimate tax determination was uncertain during the ordinary course of business. The level of provisions for anticipated tax audits was based on estimates of whether and to what extent additional income taxes will be due. In the period in which the final tax determination was made, the estimates were corrected, if required.

Other essential assumptions and estimates related to the determination of useful lives and recoverable residual values of property, plant and equipment. The determined useful lives and residual values were reviewed at least annually. Details on useful lives and residual values of property, plant and equipment are provided in the section on 'Property, plant and equipment' in the chapter on 'Accounting and measurement methods'.

In accounting for business combinations, the identifiable assets acquired and liabilities and contingent liabilities assumed were measured initially at their fair values. In this process, cash flow-based methods were regularly used, which may produce different results based on the underlying assumptions. In particular, the assessment of the useful lives of intangible assets and the determination of fair values of contingent liabilities entailed an element of uncertainty since assumptions needed to be made.

Segment reporting

Notes on the segments

In primary segment reporting, the individual companies of the TUI Group were attributed to the business segments, with tourism and shipping representing the Group's core businesses. Following the divestment of Wolf GmbH, the segment 'Other operating sectors' exclusively consisted of the Group's real estate companies. TUI AG assumes both cross-divisional tasks such as finance, tax and legal, but also operating tasks for the tourism division. In this connection, TUI AG in particular acquired ownership in aircraft and container ships, passed on to the Group's airlines and shipping companies in the framework of operating leases. For the purposes of segment reporting, economic ownership was allocated to the operating companies so that the aircraft and ships represented assets of the tourism and shipping segments. Corresponding expenses and income were also allocated to the segments. The remaining operations of TUI AG and other holding companies not unambiguously allocable to other segments were pooled as non-allocable business operations (holdings).

Group segmentation was based on internal corporate control. The individual companies were allocated to the divisions and sectors based on economic criteria alone, irrespective of their participation structure under company law.

The tourism division covered all tourism companies of the Group with the exception of Hapag-Lloyd Kreuzfahrten, covered by the shipping division as its entrepreneurial management was effected by Hapag-Lloyd AG. The further classification of the tourism segment into the five sectors Central Europe, Northern Europe, Western Europe, Destinations and Other tourism activities mainly followed geographical aspects and the respective functions within the value chain.

The Central Europe sector comprised the distribution and tour operator activities in Germany, Switzerland, Austria and Poland as well as airlines Hapag-Lloyd Flug-gesellschaft mbH and Hapag-Lloyd Express GmbH. The Northern Europe sector covered the travel agencies and tour operators in the UK and Ireland, the Nordic countries Sweden, Denmark, Norway and Finland as well as the airlines Thomsonfly Limited, TUIfly Nordic AB and Budget Air Ltd. The Western Europe sector comprised the distribution and tour operator activities in France, the Netherlands and Belgium as well as the airlines Corsair S.A., TUI Airlines Nederland B.V. and TUI Airlines Belgium N.V. The destinations sector included the Group's incoming agencies and hotel companies. The 'Other tourism' sector primarily comprised the business travel activities, only included on a pro rata temporis basis due to the divestment, and companies providing central services for the division until the date of disposal of these companies.

The shipping division covered both container shipping and cruise activities. In the container shipping sector, Hapag-Lloyd and CP Ships did not only offer pure container shipping operations but in particular also door-to-door container transport services. Using subcontractors, they thus offered services at all stages of the transport chain.

The Group's discontinuing operations remaining at the end of the 2005 financial year, the US steel service companies, were sold in May of 2006. Rail and tank container logistics were already sold in the 2005 financial year.

In secondary segment reporting, the Group's business activities were broken down according to geographical criteria.

Notes on the segment data
As a rule, inter-segment turnover was generated in line with the arm's length principle, applied in transactions with third parties.

The operating segment assets and liabilities comprised the assets or liabilities, excluding financial assets, financial liabilities and pension provisions as well as income taxes. Goodwill was also shown as segment assets.

Investments were additions of property, plant and equipment as well as intangible assets. Depreciation was related to segment assets and also included impairments on goodwill.

Depreciation was not taken into account in the determination of non-cash expenses.

Earnings form the divestment of subsidiaries were allocated to the individual segment earnings. The realisation of differences from currency translation with an effect on results, effected in connection with capital reductions, was assessed as related to the holding activities and therefore allocated to the holding companies in the segment report.

Financial assets as well as cash and cash equivalents were used to generate the financial result. Financial liabilities including pension provisions were carried as interest-bearing liabilities and were used to finance the operating and investing activities.

The reconciliation of segment assets and liabilities to the Group's assets or liabilities resulted from the consideration of the income tax claims or income tax provisions and liabilities not taken into account in accordance with IAS 14.

Segment reporting disclosed earnings indicators such as EBT, EBIT, EBITA, EBITDA and EBITDAR since these ratios were also used as the control basis for value-driven corporate management. In determining the ratios of the discontinuing operations, the result from discontinuing operations was reallocated to the original positions of income and expenses.

Notes on the Consolidated Profit and Loss Statement

(1) Turnover

Group turnover by business activity

€ million	2006	2005
Tourism services	14,147.3	14,153.0
Transport services	6,093.7	3,687.1
Production of goods and other services	213.3	233.4
Trading in merchandise	25.4	37.9
Letting and leasing	34.9	89.9
Total	**20,514.6**	**18,201.3**

The year-on-year development of turnover by the Group's continuing operations was mainly characterised by changes in the group of consolidated companies. Although the TQ3 Group and the TUI InfoTec Group were sold and therefore only included in consolidation on a pro rata temporis basis, the tourism division generated turnover of € 14.1 billion and thus matched 2005 levels. Adjusted for the effect of these divestments, turnover rose by 1.2% year-on-year. Turnover by the shipping division grew by € 2.4 billion or 63.1% to € 6.3 billion, in particular due to the first time inclusion of the CP Ships Group for a full financial year after the first time consolidation of the Group had only been effected in the last quarter in 2005. However, even adjusted for this effect the shipping division achieved substantial turnover growth.

(2) Other income

Other income

€ million	2006	2005
Book profits from the sale and measurement of assets incl. the disposal of subsidiaries	351.5	110.8
Reversal of negative goodwill with an effect on result	–	12.3
Rebilling, cost refunds and advertising cost subsidies	154.6	143.3
Foreign exchange gains	116.2	162.0
Income from the reduction in value adjustments of receivables and from write-offs of liabilities	11.6	25.1
Income from sideline operations	58.6	76.0
Income from letting and leasing contracts	16.6	16.3
Other income	39.9	58.0
Total	**749.0**	**603.8**

Book profits from the sale of fixed assets covered in particular the following transactions:

The Other tourism sector realised income of € 151 million from the divestment of the TQ3 Group. The Western Europe sector generated total income of € 24 million from the divestment of the specialist travel activities of TUI Nederland, the sale of an administrative building and the conclusion of sale-and-lease-back agreements for two aircraft. The Central Europe sector also generated income from sale-and-lease-back agreements for four aircraft, totalling € 24 million.

The shipping division recorded an income of € 3 million from sale-and-lease-back agreements for around 10,000 containers.

In the completed financial year, the Group's real estate companies generated one-off income of € 41 million when suspensive conditions from the selling agreement for 'Schacht Konrad', concluded at the end of the 1980s, were met.

The divestment of the 80% interest in Wolf GmbH generated earnings of € 35 million, carried in the other operative division.

In accordance with the rules of IFRS 5, the book profits from the discontinuance of operations had to be allocated to the relevant discontinuing operations and were therefore recognised under 'Result from discontinuing operations' in the profit and loss statement.

Income from sideline operations was income which from the Company's perspective did not represent typical operating income, e.g. income from the sale of materials or the wet lease of aircraft. Rebilling related, inter alia, to rebilling to hotels and travel agencies for brochure costs, advertising materials and costs incurred for TUI's health insurance company (BKK).

Income from the reversal of provisions was carried under the profit and loss statement item which had shown the expenses for the formation of the corresponding provisions in previous years.

(3) Change in inventories and other own work capitalised

Change in inventories and other own work capitalised

€ million	2006	2005
Change in stocks of finished goods and work in progress	0.6	- 23.4
Other own work capitalised	10.1	20.2
Total	**10.7**	**- 3.2**

(4) Cost of material and purchased services

Cost of material and purchased services

€ million	2006	2005
Cost of raw materials, supplies and purchased merchandise	2,143.1	1,511.9
Cost of purchased services	12,409.1	10,754.5
Rental and lease expenses	943.3	633.9
Total	**15,495.5**	**12,900.3**

The cost of raw materials and supplies mainly comprised the fuel costs incurred by the airlines and shipping companies. The cost of purchased services mainly related to third-party tourism services such as hotel expenses and cost of aviation and other transportation services.

Rental and lease expenses from operating lease contracts were shown under the item 'Cost of materials and purchased services' where these expenses were directly related to the turnover generated. The increase in rental and lease expenses on the previous year mainly related to the shipping division and primarily resulted from the first time consolidation of CP Ships for a full financial year.

The cost of materials ratio (ratio of cost of materials and purchased services to turnover) rose from 69.4% in 2005 to 71.5% in the tourism division. It also rose in the shipping division, which recorded an increase from 77.4% to 85.0%, primarily due to the increase in short-term charter rates and in the cost of bunker oil.

(5) Personnel costs

Personnel costs

€ million	2006	2005
Wages and salaries	1,968.4	1,841.8
Social security contributions, pension costs and benefits	467.0	462.4
Total	**2,435.4**	**2,304.2**

Pension costs included expenses for defined benefit pension obligations. The interest portion of the measurement of pension obligations was carried under financial expenses due to its financing character. The expected income from the related fund assets was carried under financial income. A detailed presentation of the pension obligations is provided under note 34.

The cost of wages and salaries rose by 6.9% year-on-year. This increase was mainly attributable to the first time inclusion of the CP Ships Group for a full financial year and the creation of provisions for social plans in tourism and shipping.

Disregarding the discontinuing operations, the average headcount declined by 1,353 employees to now 60,206 employees (excluding apprentices). In the shipping division, the average headcount rose from 5,179 to 8,545 in the 2006 financial year. The tourism division recorded a substantial decrease in the average headcount from 54,117 to 49,499.

Average annual headcount (excl. apprentices)

	2006	2005
Wage earners	1,454	1,490
Salaried employees	58,752	60,069
Total	**60,206**	**61,559**

(6) Depreciation and amortisation

Depreciation and amortisation included the amortisation of other intangible assets, depreciation of property, plant and equipment as well as of investment property. Depreciation and amortisation was based on the uniform useful lives out-lined in the explanations on accounting and measurement.

Depreciation and amortisation rose from € 504.9 million to € 667.4 million year-on-year. The increase was primarily attributable to the first time inclusion of the CP Ships Group for a full financial year, following the first time consolidation of the group in the fourth quarter of 2005.

(7) Impairments

Impairments

€ million	2006	2005
Impairment of goodwill	709.5	–
Impairment of other intangible assets, property, plant and equipment and investment property	54.3	18.3
Total	**763.8**	**18.3**

Goodwill had to be tested for impairment at the level of cash-generating units at least once a year. In accordance with the rules of the IASB, cash-generating units are the smallest identifiable groups of assets that generate cash inflows from continuing use that are largely independent of the cash inflows from other assets. In the tourism segment, cash-generating units were established for individual source

markets on a country-specific basis and in the destinations sector for individual subsidiaries. The shipping segment was defined as one single cash-generating unit in its entirety.

In the framework of the impairment tests, the carrying amounts of the tested entities plus the relevant goodwill allocated to the entities were compared with their recoverable amounts. The recoverable amount is the fair value less cost to sell or the value in use, if higher. If the carrying amounts exceeded the recoverable amount, impairment losses were recognised. Since the fair value less cost to sell regularly exceeds the value in use, the only value determined in the framework of the impairment tests is the fair value less cost to sell.

The fair value less cost to sell is the amount for which for the cash-generating unit could be exchanged between knowledgeable, willing parties in an arm's length transaction after deduction of the cost to sell. Since a fair value on an active market was not available for the entities to be tested for impairment, the fair value was determined by means of discounting the expected operating net cashflows.

Discounting was based on the medium-term planning for the entity under review, prepared as at the end of the 2006 financial year, after deduction of income tax payments. The assumptions underlying the planning are detailed in the forecast report included in the management report. The discounting was based on a weighted average cost of capital rate after taxes of 6.44% p.a. for the tourism division and 7.94% p.a. for the shipping division for the detailed planning period 2007 to 2009 and 5.44% p.a. resp. 6.94% p.a. for the period thereafter, taking account of a 1% growth deduction. The determined fair values have been validated using multiples customary in the market. The cost to sell to be included was based on experience from past transactions.

In the 2006 financial year, impairments of goodwill totalling € 709.5 million arose from the impairment tests in the tourism division. The impairments were particularly caused by the increasingly difficult market environment in the UK, Ireland and France. They were broken down as follows:

Impairments of goodwill

€ million	Impairment charged	Reduced growth rate (0.5%)	Increased interest rate (0.5%)
Northern Europe			
Source market UK	390.2	453.8	465.9
Source market Ireland	89.5	91.5	91.8
Western Europe			
Source market France/aviation	140.2	158.0	160.2
Source market France/tour operator	70.1	70.9	71.5
Destinations			
Magic Life Group	19.5	33.4	34.9

If the growth rate had been 0.5% lower, the impairments of goodwill in the sectors listed above would have been € 98.1 million higher in total. If the weighted average cost of capital rate after taxes applied to the detailed planning period 2007 to 2009 for the tourism division had been 0.5% p.a. higher and would thus have been 6.94% and 5.94% for the period thereafter, taking account of a growth deduction of 1.0% p.a., the impairments of goodwill required for the sectors mentioned above

would have been € 114.8 higher. No further impairments would have been required on top of that, neither from the increase in the weighted average cost of capital rate nor from the reduction in the growth rate.

In the completed financial year, a total of € 54.3 million of impairments of other intangible assets, property, plant and equipment and investment property were required. Of this total, € 30.4 million related to hotel buildings. Impairments had to be charged in particular for four Turkish hotel complexes due to the decline in bookings and the resulting reduction in the market value of the hotels. Further impairments of € 6.9 million were charged due to a reduction in the market value of a vacant office building. The other impairments were charged when the values in use or the expected net gains on disposal were lower than the respective carrying amounts. In 2005, impairments of € 18.3 million were charged for property, plant and equipment, primarily in tourism.

(8) Other expenses

Other expenses

€ million	2006	2005
Commissions for tourism services and other distribution costs	811.3	943.2
Advertising expenses	420.2	388.8
Rental and lease expenses	227.9	200.9
Administrative expenses	378.9	330.2
Contributions, charges, fees and consultancy expenses	130.7	104.3
Expenses for insurance premiums	39.6	34.8
Exchange rate losses	164.8	70.9
Other expenses for financial and monetary transactions	49.8	90.5
External services and cost of non-operating materials	137.0	105.5
Losses from the disposal of assets and subsidiaries	54.8	25.3
Expenses for write-offs of receivables and value adjustments	27.4	23.7
Other taxes	33.2	41.1
Other operating expenses	41.8	130.3
Total	**2,517.4**	**2,489.5**

The item 'Commissions for tourism services and other distribution costs' mainly comprised travel agency commissions and commissions passed on from insurance policies covering travel contract cancellation costs.

In the framework of a sale-and-lease-back transaction, the shipping division sold seven container ships which were part of the CP Ships Group acquired in 2005. This transaction resulted in a book loss of € 16.6 million, in particular due to changes in exchange rates.

The divestment of the interest in the InfoTec Group created expenses of € 10.6 million in the 2006 financial year.

In accordance with IAS 21, the reduction of investments in foreign subsidiaries through capital reduction or dividends received from profits prior to the acquisition of the company caused a one-off realisation with an effect on results of exchange differences of € 65.0 million previously carried in equity with no effect on results.

Due to the application of IFRS 5, book losses from discontinuing operations were allocated to the respective discontinued operation and were therefore shown under 'Result from discontinuing operations' in the profit and loss statement.

(9) Financial income

Financial income

€ million	2006	2005
Income from non-consolidated Group companies	2.0	1.0
Income from other investments	2.1	2.3
Income from profit transfer agreements with non-consolidated Group companies	3.7	8.1
Income from investments	**7.8**	**11.4**
Other income from securities and long-term loans	7.1	10.6
Interest and similar income from non-consolidated Group companies	0.6	3.1
Interest income from fund assets for the financing of pension obligations	86.9	74.3
Other interest and similar income	69.3	72.8
Interest income	**163.9**	**160.8**
Income from the measurement of interest hedges	0.3	12.8
Income from the measurement of other financial instruments	54.7	–
Total	**226.7**	**185.0**

In 2005, the indexing of the financial statements of foreign subsidiaries based in hyper-inflationary economies led to the realisation of purchasing power gains totalling € 8.4 million from the change in purchasing power parities in these countries, carried under interest income and expenses. The purchasing power gains were primarily attributable to the financial requirements of Turkish hotel companies. Since the beginning of 2006, none of the economies in which the TUI Group subsidiaries operate their businesses has been classified as hyper-inflationary.

The income and expenses from the development of the value of derivative financial instruments comprised results from the measurement of hedges not meeting the strict criteria of IAS 39, in particular structured forms of hedges used in order to hedge aircraft fuel prices. In addition, the conversion options of the convertible bond issued in October 2003 had to be carried as a derivative liability and measured with an effect on results. On 3 April 2006, TUI AG irrevocably waived its right to be able to deliver cash in the event of a conversion. As a result, the conversion options were again classified as equity instruments. Until the waiver, measurement income of € 15.0 million was generated in the 2006 financial year, following an expense of € 2.2 million in 2005.

(10) Financial expenses

Financial expenses

€ million	2006	2005
Expenses relating to losses taken over from non-consolidated Group companies	**2.8**	**3.5**
Write-downs of available-for-sale financial instruments and loans	**14.9**	**12.5**
Interest and similar expenses to non-consolidated Group companies	1.4	2.9
Interest expenses from the measurement of pension obligations	119.4	105.5
Other interest and similar expenses	269.6	268.7
Interest expenses	**390.4**	**377.1**
Expenses relating to the measurement of other financial instruments	–	28.8
Total	**408.1**	**421.9**

The write-downs of available-for-sale financial instruments and loans comprised € 14.9 million of impairments (previous year: € 9.8 million).

(11) Result from companies measured at equity

Result from companies measured at equity

€ million	2006	2005
Result from associated companies measured at equity	10.2	13.1
Result from joint ventures measured at equity	40.3	26.0
Total	**50.5**	**39.1**

The result from companies measured at equity comprised the prorated net result for the year of the associated companies and joint ventures as well as impairments of companies measured at equity. In the completed financial year, the result from companies measured at equity comprised impairments of € 3.3 million (previous year: no impairments). In the 2006 financial year, prorated losses of € 2.8 million of associated companies and joint ventures were not realised since the losses exceeded the value of the shareholdings. Accumulated losses not yet realised in the framework of at equity measurement totalled € 7.6 million.

(12) Income taxes

Breakdown of income tax expenses

€ million	2006	2005
Current income taxes		
in Germany	49.9	- 12.1
abroad	64.2	57.5
Deferred tax expenses	13.5	41.4
Total	**127.6**	**86.8**

The year-on-year increase in income tax expenses primarily related to domestic income tax expenses, attributable to a revaluation of tax risks. The reduction in deferred income tax expenses resulted from an increase in the valuation of deferred income taxes on tax loss carryforwards and a high value adjustment of capitalised tax loss carryforwards in 2005.

The German companies of the TUI Group had to pay an average trade income tax of approx. 18% (previous year: 17%) on trade earnings, which was deductible in the computation of the corporation tax. The increase in the average trade income tax rate was attributable to changes in the group of integrated companies for tax purposes as well as an increase in municipal factors. As in 2005, the corporation tax rate was 25.0%, plus a 5.5% solidarity surcharge on corporation tax. Deferred tax items were measured at a tax rate of 40.0% (previous year: 39.0%).

The calculation of foreign income tax was based on the laws and regulations applicable in the respective countries. The income tax rates applied to foreign companies varied from 10.0% to 42.1%.

In accordance with the rules of IAS 12, deferred taxes were determined in accordance with the liability method. Accordingly, tax decreases and increases considered as realisable in future were reported for temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and their tax base. Where the temporary differences between the financial balance sheet and the tax balance sheet related to items taken directly to equity, the deferred taxes relating to these differences were also directly offset against equity. Due to the elimination of deferred taxes with no effect on results, equity rose by € 64.7 million in the 2006 financial year (previous year: € 23.5 million). Deferred taxes with no effect on results mainly resulted from the treatment of actuarial gains and losses in connection with the recognition of pension obligations and the measurement of derivatives used to hedge exposure to cash flow risks.

Expected tax savings from the use of loss carryforwards assessed as recoverable in the future were capitalised. In measuring capitalised assets for future tax savings, the probability of recovering the expected tax benefit was taken into account.

Individual items of deferred tax assets and liabilities recognised in the balance sheet

	31 Dec 2006		31 Dec 2005	
€ million	Assets	Liabilities	Assets	Liabilities
Finance lease transactions	28.1	–	28.9	–
Recognition and measurement differences for property, plant and equipment and other non-current assets	85.2	371.5	79.0	403.0
Recognition differences for receivables and other assets	66.8	46.9	87.8	17.9
Fair values of financial instruments	104.6	87.0	36.6	72.0
(of which with no effect on results)	(91.3)	(15.5)	(16.9)	(62.2)
Measurement of pension provisions	193.3	21.6	253.8	16.1
(of which with no effect on results)	(166.0)	(0.2)	(220.3)	(0.2)
Recognition and measurement differences for other provisions	96.4	72.1	127.8	49.9
Other transactions	87.6	36.2	64.8	98.6
Capitalised tax savings from recoverable loss carryforwards	188.8	–	133.8	–
Netting of deferred tax assets and liabilities	- 575.2	- 575.2	- 513.1	- 513.1
Balance sheet amount	**275.6**	**60.1**	**299.4**	**144.4**

Deferred tax liabilities of € 3.4 million arose for temporary differences in connection with shares in associated companies and joint ventures. Deferred tax liabilities were not carried for temporary differences of € 104.0 million between net assets and the tax-related carrying amount of subsidiaries since these temporary differences were not expected to be reversed in the near future.

Capitalised loss carryforwards and time limits for non-capitalised loss carryforwards

€ million	31 Dec 2006	31 Dec 2005
Capitalised loss carryforwards	**807.1**	**596.8**
Non-capitalised loss carryforwards	**4,234.4**	**4,233.6**
of which loss carryforwards forfeitable within one year	21.8	9.4
of which loss carryforwards forfeitable within 2 to 5 years	96.3	87.3
of which loss carryforwards forfeitable within more than 5 years (excluding non-forfeitable loss carryforwards)	2.1	18.6
Non-forfeitable loss carryforwards	4,114.2	4,118.3
Total unused loss carryforwards	**5,041.5**	**4,830.4**

The loss carryforwards arose in companies in various countries, each with different income tax rates. For Germany, the loss carryforwards comprised a cumulative amount consisting of loss carryforwards for trade income taxes and corporate taxes. Potential tax savings of € 841.4 million (previous year: € 815.6 million) were not capitalised since the benefit of the underlying loss carryforwards was unlikely to be realised within the planning period.

Although there was no time limit for German loss carryforwards, as before, the annual use of such carryforwards was restricted due to the minimum taxation. Foreign loss carryforwards frequently had to be used within a specified country-specific time limit and were subject to restrictions concerning the use of these loss carryforwards for profits on ordinary activities, which were taken into account accordingly in the measurement.

In the 2006 financial year, tax reductions of € 1.6 million (previous year: € 0.1 million) resulted from the use of loss carryforwards previously assessed as non-realisable and for which therefore no assets had been recognised in previous years for the resulting potential tax savings. No tax reductions were realised from loss carrybacks in the 2006 financial year (previous year: € 0.7 million).

Development of capitalised tax savings from realisable loss carryforwards

€ million	2006	2005
Capitalised tax savings at the beginning of the financial year	**133.8**	**130.3**
Changes in consolidation and currency adjustment	- 0.9	+ 5.5
Use of loss carryforwards	- 10.3	- 18.6
Write-downs of tax savings from loss carryforwards capitalised in previous years	- 13.9	- 69.0
Capitalisation of tax savings from loss carryforwards	+ 80.1	+ 85.6
Capitalised tax savings at financial year-end	**188.8**	**133.8**

Capitalised tax savings from realisable loss carryforwards rose by € 55.0 million year-on-year. In 2005, capitalised tax savings had declined due to write-downs, in particular related to source market France.

The total income tax expense of € 127.6 million (previous year: € 86.8 million) in the period under review was derived as follows from an 'expected' income tax expense that would result from applying the statutory income tax rate of TUI AG as the parent company (aggregate income tax rate) to earnings before tax:

Reconciliation from expected to actual income tax expense

€ million	2006	2005
Earnings before taxes by continuing operations	- 736.1	386.9
Expected income tax expense (tax rate: 40%, previous year: 39%)	**- 294.4**	**150.9**
Variation from the difference between actual and expected tax rates	73.6	- 217.2
Income with no tax effect	- 96.2	- 20.4
Expenses with no tax effect	370.9	121.3
Temporary differences and losses for which no deferred taxes were recognised	46.8	61.7
Effective tax expenses and income relating to other periods	35.8	- 19.2
Other differences	- 8.9	9.7
Actual income tax expense	**127.6**	**86.8**

The difference between actual income tax expenses and expected income tax expenses was primarily due to non-tax-deductible impairments of goodwill. In addition, earnings by foreign subsidiaries were subject to a lower tax rate, while container shipping was affected by a tonnage tax unrelated to earnings.

(13) Result from discontinuing operations

Result from discontinuing operation

€ million	Earnings before income tax from current business operations	Taxes on income from current business operations	Earnings before income tax from the divestment and impairments	Taxes on income from the divestment and from impairments	Total
Special logistics	–	–	5.3	0.1	5.2
Trading	28.8	9.0	- 12.7	1.1	6.0
Other divestments	–	–	7.2	1.3	5.9
Total 2006	**28.8**	**9.0**	**- 0.2**	**2.5**	**17.1**
Special logistics	42.4	26.3	108.1	13.2	111.0
Trading	55.5	22.2	7.3	- 11.3	51.9
Other divestments	–	–	34.0	0.7	33.3
Total 2005	**97.9**	**48.5**	**149.4**	**2.6**	**196.2**

The result from discontinuing operations comprised both earnings after income taxes generated by the companies and impairments due to the measurement of disposal groups at fair value less cost to sell. Moreover, income and expenses from the divestment and the related income tax effects were shown in the result from discontinuing operations and allocated to the relevant segment of the discontinuing operation.

With the divestment of the US steel service companies, which had been allocated to the trading sector, in May of 2006, the Group sold its last remaining discontinuing operation. It was sold to US financial investor Platinum Equity at a selling price of the equivalent of € 210.8 million. After deduction of the cost to sell and the realisation of foreign currency exchange differences of a total of € 7.0 million, the divestment resulted in negative earnings of € 12.7 million.

The reimbursement of pension payments related to the divestment of the special logistics operations resulted in earnings before income taxes of € 5.3 million in the completed financial year.

Other divestments resulted in earnings before income taxes of € 7.2 million, primarily earnings from the recovery of previously disputed entitlements to dividend payments from a former company of the Preussag Energie Group.

(14) Share of TUI AG shareholders in Group profit for the year

The share in Group profit for the year attributable to TUI AG shareholders declined from € 458.0 million in 2005 to a negative result of € 893.3 million in the 2006 financial year.

(15) Minority interests in Group profit for the year

Minority interests in Group profit for the year

€ million	2006	2005
Profit attributable to minority interests	47.7	40.9
Loss attributable to minority interests	1.0	2.6
Total	**46.7**	**38.3**

Profit for the year attributable to minority interests mainly related to consolidated subsidiaries in the tourism division, in particular the companies of the RIU Group. Minority interests were also held in several incoming agencies.

(16) Earnings per share

In accordance with IAS 33, basic earnings per share were calculated by dividing the Group's net profit for the year attributable to TUI AG shareholders by the weighted average number of no-par value bearer shares outstanding during the financial year under review. The average number of shares resulted from the total of shares at the beginning of the financial year (250,732,575 shares) and the employee shares issued (287,280 shares, 13 days), included on a pro rata temporis basis.

A dilution of earnings per share occurs when the average number of shares is increased by adding the issue of potential shares from the warrants and conversion options. Diluting effects exclusively arose from the convertible bond issued in October 2003. Conversion has been possible since 2 January 2004. Calculation of the diluting effect is based on the assumption of complete conversion and the corresponding issue of shares at the beginning of the respective financial year. However, no diluting effect arises in the event of negative basic earnings per share.

In accordance with IAS 33.12, the dividend on the hybrid capital was deducted from the share in Group profit attributable to TUI AG shareholders at its after-tax amount, since the hybrid capital was carried as equity but did not represent an interest by TUI AG shareholders. For the hybrid capital, € 27.4 million of accrued dividend obligations were comprised in financial liabilities and were paid out in January 2007.

[1] of which disposals due to changes in consolidation of € 6.6 million and € 0.0 million, respectively (previous year: no disposals)

Due to the first time application of IFRS 5, assets of the discontinuing operations and other non-current assets held for sale were summarised as a disposal group in the balance sheet in 2005. Reclassifications comprised reclassifications of goodwill classified as held for sale in the course of the financial year under review.

Following the completion of the planning process, capitalised goodwill was tested for impairment at the level of cash-generating units in the framework of the annual financial statements. In the 2006 financial year impairments of € 709.5 million were required. Detailed information on the implementation of the impairment tests is provided under note 7.

In accordance with the rules of IAS 21, goodwill allocated to individual segments and sectors was recognised in the functional currency of the subsidiaries and subsequently translated in the framework of the preparation of the consolidated financial statements. In analogy to the treatment of other differences from the translation of annual financial statements of foreign subsidiaries, differences due to exchange rate fluctuations between the exchange rate at the date of acquisition of

the subsidiary and the exchange rate at the balance sheet date were taken directly to and recognised separately under equity. In the 2006 financial year, the carrying amount of goodwill rose by € 21.7 million (previous year: € 60.6 million) due to exchange differences. In addition, goodwill of GBP 4.5 million (€ 6.7 million) arose from the acquisition of Explorers Travel Club Ltd., Camberly (UK). The divestment of subsidiaries in the financial year under review resulted in a disposal of goodwill of € 18.4 million.

A substantial portion of the goodwill recognised related to the source markets UK (€ 1,169.4 million), Germany (€ 338.9 million) and the Nordic countries (€ 321.0 million). In the hotel companies sector, goodwill of € 356.8 million was carried for the RIU Group. Goodwill of € 107.3 million related to the shipping segment.

The goodwill of € 0.9 million (previous year: € 19.9 million) from the acquisition of minority interests in the financial year under review was directly offset against other revenue reserves.

[2] of which disposals due to changes in consolidation of € 200.0 million and € 159.7 million, respectively

Self-generated software related to computer programmes for tourism applications exclusively used internally by the Group.

The other intangible assets acquired in the wake of the acquisition of the CP Ships Group, relating in particular to advantageous leasing and transport agreements and the customer base, were amortised annually in line with the utilisation of the economic benefit on the basis of the benefit determining the corresponding asset. The leasing and transport agreements were amortised over the corresponding remaining terms of the agreements, i.e. over periods of three to 36 years, while the customer base was amortised over a period of 20 years in container shipping.

Impairments of € 8.3 million were charged in the completed financial year. Impairments broke down into € 3.5 million of impairments of concessions, industrial property rights and similar rights and values as well as € 4.7 million of impairments of self-generated software. As in the previous year, no write-backs to other intangible assets were effected in the year under review. Reclassifications mainly comprised reclassifications of the assets held for sale of € 90.8 million and € 6.4 million, respectively. As in 2005, there were no material restraints on ownership or disposal.

As a matter of principle, real estate owned by the Group was occupied for use in the framework of the Group's ordinary business activities. In addition, the Group owned commercial property and apartments which met the definition of investment property under IAS 40. The carrying amount of this investment property reported in fixed assets totalled € 95.7 million (previous year: € 90.2 million). The fair values totalling € 104.3 million (previous year: € 108.2 million) were calculated by the Group's own real estate companies, without consulting an external expert, on the basis of comparable market rents. The fair value of property for which purchase contracts had already been concluded was the selling price. Investment property generated total income of € 41.3 million (previous year: € 88.6 million). The generation of this income was associated with expenses of € 38.7 million (previous year: € 70.3 million) in the 2006 financial year. Impairments of € 7.4 million were charged for investment property.

Reclassifications of € 103.7 million resp. € 63.5 million related in particular to the reclassification of assets held for sale. In the 2006 financial year, these assets primarily comprised the assets of Montreal Gateway Terminals and a hotel.

Property, plant and equipment comprised all leased assets in which consolidated subsidiaries carried all the risks and rewards incident to ownership of the assets.

[1] no disposals due to changes in consolidation

[2] of which disposals due to changes in consolidation of € 7.8 million and € 6.2 million, respectively

The reclassifications of the development of leased assets in particular comprised acquisitions of ownership of leased assets.

The payment obligations resulting from future lease payments were carried as liabilities, without taking account of future interest expenses. Payments due in the future under finance leases totalled € 346.7 million (previous year: € 464.9 million). The decline in the total carrying amount of leased property, plant and equipment and future lease payments resulted above all from the conversion of two container ships into operating leases. Group companies accepted guarantees for the residual values of the leased assets totalling € 135.1 million (previous year: € 135.1 million).

Reconciliation of future lease payments to liabilities from finance leases

€ million	Remaining terms up to 1 year	more than 1-5 years	more than 5 years	31 Dec 2006 Total	31 Dec 2005 Total
Total future lease payments	41.9	268.4	36.4	346.7	464.9
Interest portion	13.8	39.7	2.1	55.6	70.5
Liabilities from finance leases	28.1	228.7	34.3	290.8	394.4

However, Group companies were not only lessees but also lessors under finance leases. To a small extent, the Group leased out Group-owned aircraft to non-Group third parties on the basis of finance leases.

Reconciliation of future lease payments to be received to receivables from finance leases

€ million	Remaining terms up to 1 year	more than 1-5 years	more than 5 years	31 Dec 2006 Total	31 Dec 2005 Total
Total future lease payments to be received	2.8	7.3	–	10.1	14.3
Interest portion	0.4	0.1	–	0.5	1.2
Receivables from finance leases	2.4	7.2	–	9.6	13.1

In the framework of ordinary business activities, Group companies generated turnover of € 34.9 million (previous year: € 160.1 million) from leasing and renting out investment property on the basis of short-term contracts. At € 107.8 million, the turnover generated in 2005 was primarily generated by the rail logistics sector of VTG (UB I), sold in December 2005.

Non-current provisions and liabilities	61.0	61.1
Current provisions and liabilities	44.3	44.7
Associated companies measured at equity	**65.6**	**61.8**

(22) Financial assets available for sale

Financial assets available for sale

€ million	31 Dec 2006	31 Dec 2005
Shares in non-consolidated Group companies	49.5	64.5
Shares in affiliated companies	45.5	38.7
Other securities	28.1	25.5
Total	**123.1**	**128.7**

Where a listed market price in an active market was not available for interests held and other methods to determine an objective market value did not produce any reliable results, the interests were measured at amortised cost. The securities shown included an amount of € 5.8 million (previous year: € 5.8 million) of current securities.

Due to the selling agreement which was concluded in the financial year under review and was still subject to suspensive conditions, Hapag-Lloyd's minority interest in Germanischer Lloyd AG was reclassified to assets held for sale.

(23) Trade accounts receivable and other receivables

Prepaid expenses	2.1	305.8	281.6	0.2
Total	**66.4**	**652.8**	**708.5**	**57.1**

Prepaid expenses mainly comprised accrued expenses for return flights taking place after the balance sheet date and accrued rental costs.

(24) Derivative financial instruments

Derivative financial instruments

€ million	31 Dec 2006 Remaining term of more than 1 year	31 Dec 2006 Total	31 Dec 2005 Total	31 Dec 2005 Remaining term of more than 1 year
Receivables from derivative financial instruments	7.8	84.0	200.2	51.1

Derivative financial instruments, primarily serving to hedge the future operative business, are detailed in the explanations on financial instruments.

(25) Current and deferred income tax claims

Income tax claims

€ million	31 Dec 2006	31 Dec 2005
Deferred income tax claims	275.6	299.4
Current income tax claims	23.4	15.6
Total	**299.0**	**315.0**

Assets from future income tax benefits comprised deferred tax assets from temporary differences between the carrying amounts in the consolidated balance sheet and the tax bases as well as the tax savings from loss carryforwards assessed as recoverable in the future. Deferred tax assets are outlined in detail under note 12. Deferred income tax assets included an amount of € 200.2 million (previous year: € 279.0 million) to be realised in more than twelve months. This item also included current income tax claims.

(26) Inventories

Inventories

€ million	31 Dec 2006	31 Dec 2005
Raw materials and supplies	102.1	110.7
Work in progress	3.5	9.8
Finished goods and merchandise	23.7	29.9
Total	**129.3**	**150.4**

As in the previous year, no inventories had to be carried at lower net realisable value in the 2006 financial year. No reversals of write-downs of inventories were effected in 2005 and 2006.

(27) Cash and cash equivalents

Cash and cash equivalents

€ million	31 Dec 2006	31 Dec 2005
Bank deposits	667.5	584.1
Cash in hand and cheques	21.2	15.1
Total	**688.7**	**599.2**

As in the previous year, cash and cash equivalents were not subject to any significant restraints on disposal.

(28) Assets held for sale

Assets held for sale

€ million	31 Dec 2006	31 Dec 2005
Trading	–	392.4
TQ3 Group	–	263.9
Other non-current assets	171.4	58.4
Total	**171.4**	**714.7**

Due to the first time application of IFRS 5 in the 2005 financial year, the assets of the discontinuing operations and the non-current assets subject to a specific plan to sell were combined into a disposal group in a single balance sheet item. In the course of the 2006 financial year, both the US steel trading activities and the TQ3 Group were sold. Apart from real estate assets and land, the material assets of Montreal Gateway Terminals were classified as a disposal group at the end of the 2006 financial year. The port terminals were part of the business of CP Ships, the container shipping line acquired in 2005. A selling agreement was concluded in February 2007. Details concerning the transaction are provided in the report on events after the balance sheet date in the management report. In addition, Hapag-Lloyd's minority share in Germanischer Lloyd AG worth € 15.1 million was classified as 'held for sale' due to the selling agreement concluded at the end of the completed financial year which was still subject to suspensive conditions at the balance sheet date. The suspensive conditions were met on 5 January 2007. The divestment of a hotel of the RIU Group, classified as held for sale, is expected for the 2007 financial year. In connection with the assets held for sale and the associated liabilities,

(29) Subscribed capital

The subscribed capital of TUI AG consisted of no-par value shares, each representing an identical share in the capital stock. The proportionate share in the capital stock per no-par value share was around € 2.56. In July 2005, the previous bearer shares were converted to registered shares.

The subscribed capital of TUI AG, registered in the commercial registers of the district courts of Berlin-Charlottenburg and Hanover, rose by € 0.7 million to a total of € 641.7 million due to the issuance of 287,280 employee shares. Subscribed capital thus comprised 251,019,855 shares (previous year: 250,732,575 shares) at the end of the financial year.

The Annual General meeting of 10 May 2006 authorised the Executive Board of TUI AG to purchase own shares of up to 10% of the subscribed capital. The authorisation will expire on 9 November 2007 and replaces the authorisation granted by the Annual General Meeting of 11 May 2005. To date, the possibility of acquiring own shares has not been used.

Conditional capital

The Annual General Meeting of 18 June 2003 adopted a resolution creating conditional capital of € 90.0 million. The conditional capital was intended to service conversion options and warrants from the issue of one or several bonds with a total par value of up to € 1.0 billion by 17 June 2008. Convertible bonds totalling around € 384.6 million were issued in October 2003. The conversion options entitled the holders to convert each convertible bond of a par value of € 50,000.00 into

2,520 shares in TUI AG. This far, the holders of the convertible bonds have not yet exercised any conversion rights.

In order to retain the possibility of issuing bonds, the Annual General Meeting of 10 May 2006 adopted a resolution creating further conditional capital of € 100.0 million. Accordingly, bonds with conversion options and warrants as well as profit-sharing rights and income bonds with a total par value of up to € 1.0 billion (with and without fixed terms) may be issued by 9 May 2011. The corresponding resolution by the Annual General Meeting of 18 May 2004 on the creation of conditional capital of € 70.0 million was cancelled.

Authorised capital

At the end of the 2005 financial year, the authorised capital of € 10.0 million created at the Annual General Meeting of 18 May 2004 for the issuance of employee shares stood at € 8.1 million. The authorised capital was partly used in the 2006 financial year to issue 287,280 employee shares (previous year: 473,420 shares). The remaining authorised capital for the issuance of employee shares thus stood at € 7.3 million at the end of the 2006 financial year. The Executive Board of TUI AG has been authorised to use this capital by 17 May 2009.

In addition to the authorised capital for the issuance of employee shares, the Annual General Meeting of 10 May 2006 resolved to create authorised capital for the issuance of new shares against cash or non-cash contribution totalling € 310.0 million. The issue of new shares against non-cash contribution was limited to € 128.0 million. The Executive Board of TUI AG has been authorised to use the authorised capital by 9 May 2011. Of the authorised capital of € 215.6 million, created by a resolution of the Annual General Meeting of 18 May 2004, an amount of € 182.8 million was used for the issue of 71,502,616 shares against cash contribution in the 2005 financial year. The authorised capital remaining at the end of 2005 of € 32.8 million was cancelled.

Including the remaining authorised capital for the issuance of employee shares, total unused authorised capital amounted to € 317.3 million.

(30) Capital reserves

The capital reserves mainly comprised transfers of premiums from the issue of shares and amounts generated by issuing bonds for conversion options and warrants to purchase shares in TUI AG where the conversion options and warrants had to be classified as equity instruments in accordance with IAS 32. Premiums from the issue of shares due to the exercise of conversion options and warrants were also transferred to the capital reserves. The funding costs for the issue of conversion options and warrants and for the capital increase by means of the issue of new shares against cash contribution were eliminated against the transfers to the capital reserves resulting from these transactions.

In accordance with the revised IAS 32 in combination with IAS 39, the conversion right of the convertible bond issued in October 2003 had to be classified as a derivative liability. Since on 3 April 2006 TUI AG irrevocably waived its right to be able to deliver cash in the event of a conversion, the conversion option had to be classified as an equity instrument. As a result, the capital reserves rose by € 7.2 million. In the financial year under review, the capital reserves rose by € 4.1 million (previous year: € 6.6 million) due to the issuance of employee shares. In 2005, the capital reserves had risen by € 812.1 million due to the issue of new shares against cash contribution.

(31) Revenue reserves

Other revenue reserves comprised transfers from the results of the current or previous financial years as well as eliminations of goodwill from capital consolidation and at equity measurement of subsidiaries purchased until 30 September 1995.

Furthermore, adjustments with no effect on results from the first time application of new or revised accounting standards and effects of changes in accounting and measurement methods were transferred to or eliminated against other revenue reserves.

In accordance with section 58 subsection 2 of the German Stock Corporation Act, dividend payments to TUI AG shareholders were based on net profit available for distribution of the commercial-law financial statements of TUI AG. A proposal will be submitted to the Annual General Meeting by the Executive and the Supervisory Board to carry the profit of € 54.3 million available for distribution forward on new account.

In the 2006 financial year, the option writer position from an option on minority interests resulted in a reduction in other revenue reserves outside profit and loss of € 45.1 million.

Differences arising from currency translation comprised differences from the currency translation of the financial statements of foreign subsidiaries as well as differences from the translation of goodwill denominated in a foreign currency.

The revaluation reserve was formed in the framework of step acquisitions of companies. At the date of first time consolidation, the changes in the fair values of the assets and liabilities of the acquired company arising in between the individual acquisition dates were recognised in the revaluation reserve with no effect on results based on the interest held prior to first time consolidation. In the framework of deconsolidation, the revaluation reserves were eliminated against other revenue reserves.

The revaluation reserve for financial assets comprised the portion of gains and losses from hedges which was determined as an effective hedge of future cash flows. The revaluation reserve for financial assets was released with an effect on results in the same period in which the hedged transaction had an effect on results or was no longer assessed as probable.

The reserve according to IAS 19 comprised profits and losses from changes in actuarial parameters in connection with the measurement of pension obligations and the associated fund assets, recognised with no effect on results.

In the 2006 financial year, the increase in the long-term interest rate level in the UK was the main reason for a reduction in pension obligations and the related increase in the reserve according to IAS 19. The reserve stood at € -374.4 million (previous year: € -510.3 million) at the end of the financial year under review.

(32) Hybrid capital

In accordance with IAS 32, the subordinated hybrid capital issued by TUI AG in December 2005 with a nominal volume of € 300.0 million represented Group equity. The capital procurement costs of € 8.5 million were deducted from the hybrid capital with no effect on results, taking account of deferred income taxes. Dividend

entitlements of hybrid capital investors were deferred as other financial liabilities until the payment date.

(33) Minority interests

Minority interests mainly related to companies of the tourism division, in particular the RIU Group and a number of incoming agencies.

(34) Pension provisions and similar obligations

A number of pension schemes based on defined contribution plans or defined benefit plans were provided for Group employees. Pension obligations varied according to the legal, fiscal and economic circumstances of the country concerned and usually depended on employees' length of service and pay levels. While all defined contribution plans were funded by means of the payment of premiums to external insurance companies or funds, systems existed for defined benefit plans entailing the formation of provisions within the Company or investments in funds outside the Company.

German employees enjoyed benefits from a statutory defined contribution plan paying pensions as a function of employees' income and the contributions paid in. Several other industry pension organisations existed for companies of the TUI Group. Once the contributions to the state and private pension insurance institutions had been paid, the Company had no further obligations. Current contribution payments were recognised as an expense for the respective period. In the 2006 financial year, the pension costs for all defined contribution plans for the TUI Group totalled € 77.9 million (previous year: € 83.2 million). The pension costs for defined benefit pension commitments totalled € 80.3 million (previous year: € 90.0 million).

Pension costs for defined benefit obligations

€ million	2006	2005
Current service cost for employee service in the financial year	62.4	54.6
Interest cost	118.9	105.5
Expected return on external plan assets	86.5	74.3
Past service cost due to plan changes	- 12.7	4.7
Effects of curtailment or settlement of pension obligations	- 1.8	- 0.5
Total	**80.3**	**90.0**

The increase in the current service cost for employee service in the financial year, interest cost and expected return on external plan assets in the 2006 financial year mainly resulted from changes in the TUI Northern Europe sector. While the change in the applicable mortality tables in Thomsonfly UK in the 2005 financial year was the main reason for an increase in the current service cost, the increase in the interest cost in the 2006 financial year resulted primarily from the considerable year-on-year increase in the opening balance of the pension obligations in the TUI Northern Europe sector. The increase in the expected return on external plan assets resulted from a year-on-year increase in the market value of fund assets.

An amendment of a British law which entered into force in April 2006 allows British pensioners to have substantially larger parts of their pension paid out as a tax-free lump sum than before. The Group's pension schemes in the UK were adjusted accordingly. These improvements indeed resulted in an increase in amounts paid out and a reduction in the corresponding pension obligations. The effects of the increase in the payout ratio before the amendment of the law were carried as an actuarial gain (€ 15.2 million) outside profit or loss. The increase in the assumption on future payout ratios caused by the amendment and the associated reduction in pension

obligations were immediately recognised with an effect on results (€ 13.2 million) as 'past service cost' for vested entitlements. The income from past service cost shown under pension costs was mainly attributable to this development.

Provisions for pension obligations were established for benefits payable in the form of retirement, invalidity and surviving dependants' benefits. Provisions were exclusively formed for defined benefit schemes under which the Company guarantees employees a specific pension level. Provisions for similar obligations covered in particular early retirement and temporary assistance benefits.

Development of provisions for pensions and similar obligations

€ million	Balance as at 31 Dec 2005	Changes in consolidation[1]	Changes with no effect on results	Utilisation	Reversal	Addition	Balance as at 31 Dec 2006
Provisions for pensions	1,285.5	- 7.1	- 186.3	44.4	13.7	44.8	1,078.8
Similar obligations	8.1	0.1	–	2.0	–	0.1	6.3
Total	**1,293.6**	**- 7.0**	**- 186.3**	**46.4**	**13.7**	**44.9**	**1,085.1**

[1] as well as transfers and exchange differences

The actuarial gains and losses arisen in the 2006 financial year were eliminated against equity with no effect on results, causing the indicated change in pension provisions with no effect on results.

Where the defined benefit pension obligations were not financed by provisions, they were funded externally. This type of funding of pension obligations prevailed to a considerable extent in the Northern Europe sector in TUI UK and Thomsonfly UK. Furthermore, funded pension obligation systems were operated by foreign container shipping companies and by companies in Switzerland and in the Netherlands.

While the fund assets were determined on the basis of the fair values of invested funds as at 31 December 2006, pension obligations were measured on the basis of actuarial calculations and assumptions. The obligations under defined benefit plans were calculated on the basis of the internationally accepted projected unit credit method, taking account of expected future increases in salaries and pensions.

Actuarial parameters for German companies

Percentage p.a.	2006	2005
Discount rate	4.5	4.25
Projected future salary increases	2.0 – 2.5	1.5 – 2.0
Projected future pension increases	1.5 – 1.83	1.0 – 1.5
Projected employee turnover rate	2.0	2.0

Actuarial calculations for companies abroad were based on specific parameters for each country concerned.

Actuarial assumptions for foreign companies

Percentage p.a.	2006 Discount rate	2006 Projected return on plan assets	2006 Projected future salary increases	2005 Discount rate	2005 Projected return on plan assets	2005 Projected future salary increases
Eurozone	4.5	4.25 – 6.0	0.0 – 4.5	4.25	5.0 – 6.0	0.0 – 4.4
UK	5.0 – 5.2	4.55 – 7.4	3.4 – 4.6	4.75 – 4.8	4.5 – 7.47	3.8 – 4.5
Rest of Europe	3.25	4.0	1.5 – 2.0	3.25 – 3.75	2.5 – 4.0	0.2 – 2.5
North America	4.75 – 5.75	5.0 – 6.0	3.5 – 5.0	5.0 – 6.0	6.0	5.0
South America	9.0	9.0	5.0	9.0	9.0	5.0
Asia	2.3 – 3.75	1.5 – 2.75	1.5 – 3.0	2.0 – 3.75	1.5 – 2.75	1.5 – 3.0

Development of the net present value of actual pension obligations

€ million	2006	2005
Net present value of actual pension obligations at beginning of year	**2,503.9**	**2,003.8**
First time application of IFRS 5	–	- 55.7
Additions to consolidation	24.3	58.9
Disposals from consolidation	31.6	4.7
Current pension obligations	62.4	54.6
Interest cost	118.9	105.5
Pensions paid	- 105.5	- 68.6
Contributions paid by pension beneficiaries	11.6	12.5
Actuarial gains (-) and losses (+)	- 148.3	403.3
Past service benefits	- 10.9	5.0
Exchange differences	35.4	36.3
Other	10.0	- 47.0
Net present value of actual pension obligations at year-end	**2,470.2**	**2,503.9**

In many companies, the development of the actuarial gains and losses was mainly determined by a higher discount rate applicable in accordance with the IFRS rules in the completed financial year. In 2005, in contrast, lower interest rates had to be applied for a large number of obligations compared with the 2004 financial year. The development of the actuarial loss in 2005 was also strongly driven by the application of new mortality tables in Thomsonfly UK.

While the disposal of business travel activities was carried under 'Other changes' in 2005, no such disposals were recorded in the current financial year. The increase in pension obligations carried in 'Other' changes mainly resulted from the arrangements in the framework of the sales negotiations concerning the Dutch business travel operations, which have meanwhile been removed from consolidation. In line with the agreement, the TUI Group assumed the relevant obligations to the beneficiaries who already obtained benefits at the date of the divestment.

The exchange differences shown for the 2006 financial year mainly resulted from the translation of British pounds sterling into euros.

Development of the fair value of fund assets

€ million	2006	2005
Fair value of fund assets at beginning of year	**1,218.5**	**972.5**
First time application of IFRS 5	–	- 9.7
Additions to consolidation	–	39.0
Disposals from consolidation	–	–
Expected return on external plan assets (-)	- 86.5	- 74.3
Actuarial gains (-) / losses (+) of the current year	- 38.0	- 109.9
Exchange differences	23.1	23.2
Employer's contributions paid in	74.8	60.9
Contributions paid by the beneficiary of the plan	11.6	12.5
Pensions paid	- 70.0	- 35.7
Other	15.9	- 28.4
Fair value of fund assets at year-end	**1,398.4**	**1,218.5**
of which dividend-carrying securities	944.9	953.3
of which bonds	323.5	207.9
of which property, plant and equipment	1.1	–
of which cash	75.0	16.6
of which other	53.9	40.7

As in 2005, the development of the actuarial gains showed that the pension funds were invested in recovering capital markets. Given an expected return of € 86.5 million (previous year: € 74.3 million), the funds generated an actual return of € 124.5 million (previous year: € 184.2 million). The year-on-year increase in pension payments was primarily attributable to the amendment of the British law already outlined in the explanations on the defined benefit pension costs. While the disposal of the business travel operations was carried under 'Other' changes in 2005, no corresponding disposals were recorded in the financial year under review. The increase in pension obligations carried in 'Other' changes mainly resulted from the arrangements in the framework of the sales negotiations concerning the Dutch business travel operations, which have meanwhile been removed from consolidation. In line with the agreement, the TUI Group assumed the relevant obligations to the beneficiaries who already obtained benefits at the date of the divestment and took over the corresponding fund assets.

The assumptions used in determining the expected return on external fund assets were based on the actual fund structure and were oriented to the future long-term returns for the individual fund categories. Further factors taken into account were the current interest level and the inflation trend. The TUI Group's calculation of the pension costs was based on conservative forecasts in determining the expected return on the fund assets. This was reflected by the fact that both in 2005 but in the financial year under review the funds in particular not just generated the expected returns but managed to generate amounts on top of these returns.

The companies of the TUI Group are expected to contribute around € 62.3 million to pension funds in the 2007 financial year.

Reconciliation of the present value of pension obligations to pension liability recognised in the balance sheet

€ million	31 Dec 2006 Plans with obligation in excess of assets	31 Dec 2006 Plans with assets in excess of obligations	31 Dec 2006 Total	31 Dec 2005 Plans with obligation in excess of assets	31 Dec 2005 Plans with assets in excess of obligations	31 Dec 2005 Total
Actual present value of fully or partly funded pension obligations	1,809.9	123.9	1,933.8	1,953.0	8.1	1,961.1
Fair value of external plan assets	1,265.7	132.7	1,398.4	1,210.3	8.2	1,218.5
Deficit respectively surplus	**544.2**	**- 8.8**	**535.4**	**742.7**	**- 0.1**	**742.6**

Net present value of pension obligations			**1,071.8**			**1,285.4**
Adjustment for past service cost			- 1.8			–
Net recognised liability			**1,070.0**			**1,285.4**
of which provisions for pensions for non-funded obligations			534.6			542.8
of which provisions for pensionf for funded obligations			544.2			742.7
of which capitalised assets			- 8.8			- 0.1

Since the TUI Group used the option of immediately offsetting the actuarial gains and losses against equity in the year in which they arose, the TUI Group's total pension obligations were fully shown in the balance sheet, netted against existing fund assets. There was only an adjustment of € 1.8 million due to past service cost that was not yet recognised in the balance sheet. The off-balance adjustment will be charged to expenses and successively amortised in the next financial years.

Where plan assets exceeded obligations with regard to funded pension obligations, taking account of an adjustment due to past service cost, and where at the same time there was an entitlement to reimbursement or reduction of future contribution payments to the fund, the excess was capitalised in conformity with the upper limit defined by IAS 19.

On the basis of a year-on-year comparison, the key amounts related to pension obligations were as follows:

€ million	2006	2005	2004
Net present value of pension obligations at year-end	2,470.2	2,503.9	2,003.8
Fund assets at year-end	1,398.4	1,218.5	972.5
Surplus respectively deficit at year-end	535.4	742.6	478.7
Actuarial gains (-) / losses (+) of the current year from the obligations	- 148.3	403.3	51.8
Actuarial gains (-) / losses (+) of the current year from the fund assets	- 38.0	- 109.9	- 23.6

As at 31 December 2006, the actuarial gains and losses before deferred income taxes recorded by then and eliminated against equity with no effect on results totalled € - 540.2 million (previous year: € - 735.5 million).

(35) Income tax provisions and other provisions

Development of provisions in the 2006 financial year

[1] as well as transfers and exchange differences

Income tax provisions

Income tax provisions comprised provisions for current and deferred income taxes, outlined in note 12. The net change in deferred tax provisions between the balance sheet dates was fully shown as an addition in the above table.

Other provisions

Other provisions comprised provisions for personnel costs, typical operating risks, risks from pending transactions, guarantee and liability risks, provisions for other taxes and miscellaneous provisions.

Provisions for personnel costs comprised provisions for vacation, unpaid bonus payments, severance compensation and jubilee benefits.

In addition, the provisions for personnel costs also comprised provisions for share-based payment schemes with cash compensation according to IFRS 2.

In the framework of a long-term incentive programme, the Executive Board members and other key management in the Group were granted bonuses which were translated into phantom shares in TUI AG on the basis of an average share price. The phantom shares were calculated on the basis of Group earnings before taxes and amortisation of goodwill (EBTA). The translation into phantom shares was based on the average stock price of the TUI share on the 20 trading days following the Supervisory Board meeting at which the annual financial statements were approved. The number of phantom stocks granted in a financial year is therefore only determined in the subsequent year. Following a lock-up period of two years, the right to cash payment from this bonus within predetermined timeframes can be exercised individually. The lock-up period did not apply to members leaving the Group. The payment level depended on the average stock price of the TUI share over a period of 20 trading days after the exercise date. There were no absolute or relative return or stock price targets. A cap was agreed for exceptional, unforeseen developments. Since the strike price was € 0 and the incentive programme did not entail a vesting period, the fair value corresponded to the intrinsic value and hence the market price at the balance sheet date. Accordingly, the fair value of the obligation was determined by multiplying the number of phantom shares with the stock price at the respective reporting date.

Development of phantom shares

	Number	Present value in € million
31 Dec 2004	**683,555**	**11.1**
Phantom shares granted	209,224	3.8
Phantom shares exercised	182,772	- 3.6
Measurement results		1.0
31 Dec 2005	**710,007**	**12.3**
Phantom shares granted	239,638	4.4
Phantom shares exercised	185,116	- 2.9
Measurement results		- 2.2
31 Dec 2006	**764,529**	**11.6**

In the Northern Europe sector, there were different share-based payment schemes with cash compensation in conformity with IFRS 2, each with a term to maturity of three years. Senior executive staff are granted a contractually agreed maximum number of phantom shares under these compensation schemes. The number of phantom shares actually granted at the end of the term of the respective compensation scheme depends on the extent of target achievement with regard to predetermined indicators and, depending on the actual design of the compensation scheme, to some extent on the relative price share development of TUI AG compared with DAX 30. If an employee leaves the Company before the end of the compensation scheme, these phantom shares may expire. For each individual year, the number of phantom shares granted is measured on the basis of target achievement with regard to the pre-defined parameters, and to some extent on the basis of the relative share price development of TUI AG compared with other DAX 30 members. Where future periods are involved, corresponding estimates are made. The fair value was determined on the basis of the parameters mentioned above by means of Monte Carlo methods as at the balance sheet date. Deductions were made in order to account for expected employee turnover. The level of the provision for the compensation schemes formed as at the respective balance sheet date was based on the degree of target achievement, taking account of pro rata temporis accumulation over the vesting period.

	Number	Pro rata temporis present value in € million
31 Dec 2004	**1,314,212**	**6.4**

In order to reduce production costs in tourism, the Group's Executive Board adopted a cost-cutting containment programme aimed at reducing tourism costs by € 250 million by 2008. The cost-cutting programme comprises savings of € 100 million in terms of personnel costs and € 150 million in terms of related cost of materials. Where the individual measures were sufficiently specific and a factual obligation for

restructuring existed, corresponding provisions were formed. These were primarily provisions for personnel costs related to planned personnel reductions and other provisions due to the early termination of rental and lease agreements. Personnel measures focused on source markets Germany and France, but in particular on source market UK. These restructuring measures resulted in total expenses of € 100.6 million in the tourism division in the 2006 financial year. At the end of the financial year, total provisions amounted to € 95.8 million. The provisions formed for personnel measures will probably be utilised in 2007.

Due to the acquisition of the CP Ships Group in 2005, restructuring measures were initiated and partly implemented in the shipping division in the completed financial year. Like those launched in the tourism division, these measures also comprised personnel reductions and the related early termination of rental and leasing contracts for office facilities. Total restructuring costs of € 66.4 million arose in the financial year under review. The provisions of € 34.8 million at the end of the completed financial year will probably almost fully be utilised in the 2007 financial year.

Provisions for typical operating risks of € 171.1 million comprised provisions for maintenance operations for leased aircraft of € 114.5 million and provisions for stabilising and restoration measures for the former mining activities (approx. € 38.0 million). These provisions included an amount of € 30.5 million (previous year: € 31.5 million) for necessary environmental protection measures.

The provision for risks from onerous contracts was primarily formed for hotel and flight capacity already contracted but not expected to be fully utilised.

The provision formed in previous years due to the insolvency of Babcock Borsig AG for risks from the anticipated availment of guarantees and warranties granted in previous years for the former plant engineering activities was partly utilised and reduced accordingly in the year under review. In addition, provisions for guarantee, warranty and liability risks in the shipping division mainly comprised maintenance obligations in connection with leased containers and obligations to pay for uninsured damage to cargo.

Other provisions comprised provisions formed in connection with the settlement of selling agreements in the framework of the completed restructuring of the Group. Total provisions of € 75 million were made. They related to divestment transactions from the former energy, trading and special logistics sectors. In addition, preliminary measures were taken for the settlement of purchase contracts in the real estate and IT services areas.

Where the difference between the present value and the settlement value of a provision was material for the measurement of a non-current provision as at the balance sheet date, the provision had to be recognised at its present value in accordance with IAS 37. The discount rate to be applied should take account of the specific risks of the provision and of future price increases. This criterion applied to some items contained in the TUI Group's other provisions. Transfers to other provisions comprised an interest portion of € 4.2 million (previous year: € 2.2 million), recognised as interest costs. The largest portion related to transfers to provisions for typical operating risks.

Terms to maturity of income tax provisions and other provisions

€ million	31 Dec 2006 Remaining term of more than 1 year	31 Dec 2006 Total	31 Dec 2005 Total	31 Dec 2005 Remaining term of more than 1 year
Provisions for current taxes on income	177.0	264.8	215.2	195.4
Provisions for deferred taxes	49.5	60.1	144.4	108.2
Income tax provisions	**226.5**	**324.9**	**359.6**	**303.6**
Personnel costs	96.2	308.7	286.4	82.3
Typical operating risks	105.6	171.1	145.3	99.6
Risks from pending transactions	18.4	54.5	49.4	23.7
Guarantee and liability risks	52.4	90.8	89.8	55.2
Provisions for other taxes	19.8	48.5	66.0	16.4

Convertible bonds only comprised the convertible bond of € 384.6 million issued by TUI AG in November 2003. The bond, maturing on 1 December 2008, entailed an interest coupon of 4.0% p.a. Each convertible bond of a par value of € 50,000.00 entitles the holder to convert it into 2,520 shares at a conversion price of around € 19.84 per share any time between 2 January 2004 and 17 November 2008.

The debt component of the convertible bond was carried at the issue date at its present value based on an interest rate in line with market conditions and was increased by the interest portion of the period as at the balance sheet date in accordance with the internationally accepted effective interest method.

Other bonds comprised bonds with a total nominal volume of € 2,025.0 million.

The bearer bond with a nominal volume of € 750.0 million, issued in October 1999 by TUI AG, was redeemed on schedule in October 2006 when due. It was a fixed-interest instrument with a coupon of 5.875%. The bearer bond had a denomination of € 1,000.00.

In the 2004 financial year, two bonds totalling € 1,025.0 million were issued in the framework of the long-term refinancing of the Group. The bond with a nominal volume of € 625.0 million, issued in May 2004 and maturing in May 2011, carried a nominal fixed-interest coupon of 6.625%. The bond with a nominal volume of € 400.0 million issued in June 2004 entailed a floating interest rate (EURIBOR + 2.10%). This instrument will mature in August 2009. Both bonds had denominations of € 1,000.00.

In order to finance the acquisition of CP Ships, two further bonds with an aggregate volume of € 1,000.0 million were issued by TUI AG in December 2005. The fixed-interest bond of € 450.0 million, carrying a nominal interest rate of 5.125%, will mature in December 2012. The remaining bond volume of € 550.0 million was a floating-rate bond (3-month-EURIBOR + 1.55%) maturing in December 2010. The bonds, issued in the 2005 financial year, had denominations of € 50,000.00 (thereafter multiples of thousands).

Liabilities to banks broke down as follows:

	Total	**1,042.4**	**251.3**	**659.3**	**131.8**	**799.1**	**505.3**

At € 560.8 million, the fair values of the main fixed-interest liabilities to banks exceeded the carrying amounts of € 540.3 million by € 20.5 million. For floating-interest liabilities, the carrying amounts corresponded to the fair values.

In the 2006 financial year, the Group renewed many of its bilateral short-term credit lines. In October 2006, TUI AG exercised the first of two extension options for the syndicated credit line of € 1.75 billion of December 2005, extending its maturity until 2009. At the beginning of 2007, TUI AG reduced the syndicated credit line which had not been used as at the balance sheet date to € 1.0 billion. These credit lines were almost exclusively based on floating-interest rates based on EURIBOR. In addition, € 400 million were raised through private placements with maturities of around three years in the framework of general corporate financing. Of the amount raised through the private placements, € 162 million were based on a floating-interest rate based on EURIBOR, with € 238 million based on a fixed-interest agreement.

The total of other liabilities mainly comprised liabilities from current accounts and liabilities which neither an interest rate nor a maturity date could be unambiguously allocated to.

Liabilities from finance leases were recognised without taking account of future interest costs.

Liabilities secured by mortgages, assignment as security or similar rights

€ million	31 Dec 2006	31 Dec 2005
To banks	49.5	137.2
To non-banks	3.9	3.9

(40) Liabilities relating to assets held for sale

Liabilities relating to assets held for sale

€ million	31 Dec 2006	31 Dec 2005
Trading	–	171.7
TQ3 Group	–	114.4
Other liabilities	2.1	2.4
Total	**2.1**	**288.5**

This balance sheet item comprised liabilities and provisions of discontinuing operations and other disposal groups. In addition, it comprised liabilities related to assets held for sale. In 2005, liabilities of € 55.9 million representing financial liabilities of the Group were recognised in this balance sheet item. A breakdown of liabilities and provisions of discontinuing operations is shown in note 13.

TQ3 Group

€ million	31 Dec 2005
Current provisions	12.0
Non-current provisions	18.1
Current financial liabilities	2.5
Non-current financial liabilities	3.7
Current other liabilities	77.2
Non-current other liabilities	0.9

(41) Contingent liabilities

Contingent liabilities

€ million	31 Dec 2006	31 Dec 2005
Liabilities under guarantees, bill and cheque guarantees due to non-consolidated Group companies	15.8	19.0
Other liabilities under guarantees, bill and cheque guarantees	196.1	266.2
Other liabilities under warranties	1.6	15.2
Contingent liabilities related to the provision of collateral for third-party liabilities	0.1	5.2
Total	**213.6**	**305.6**

Contingent liabilities were carried at the level of estimated completion amount as at the balance sheet date.

Liabilities under warranties were all contractual liabilities to third parties not to be classified as guarantees and going beyond the typical scope of the business and the industry.

In connection with the insolvency of Babcock Borsig AG, provisions were formed in previous years to fully cover the guarantees and warranties related to activities in the former plant engineering and ship building sectors which were likely to be called in. All remaining guarantees and warranties from former plant engineering and ship-building activities served the settlement of ongoing business transactions and were shown at their respective amounts at the balance sheet date. The reduction in guarantees and warranties led to a reduction in the relevant amount in the year under review.

TUI Group companies were jointly and severally liable for participations in civil-law partnerships for which profit and loss transfer agreements with subsidiaries existed, for participations in joint ventures and participations in partnerships as general partner.

(42) Litigation

Neither TUI AG nor any of its subsidiaries were involved in pending or foreseeable court or arbitration proceedings which might have a significant impact on its economic position or had such an impact in the past two years, nor were any such proceedings foreseeable. This also applied to actions claiming warranty, repayment or any other compensation brought forward in connection with the divestment of subsidiaries and sectors implemented over the past few years. The provision formed for the financial charge from the declaratory action submitted by the insolvency trustee of Babcock Borsig AG (in insolvency) at the district court of Duisburg in 2004 and meanwhile pending at the regional court of Frankfurt/Main only amounted to the level of the anticipated non-refundable cost of proceedings since the action was expected to be dismissed.

In 1999, the operator of the container terminal in Zeebrugge in Belgium brought an action for damages against CP Ships Ltd. and several of its subsidiaries due to an alleged breach of agreement in connection with the change of the Belgian port of call from Zeebrugge to Antwerp. Furthermore, seven shareholder class actions were brought against CP Ships in the US and a further three in Canada due to alleged irregularities in the reporting by the CP Ships Group in connection with the adjustments of the financial statements in 2004, resulting in particular in the reduction in profits for the first quarter of 2004 and for the preceding years 2002 and 2003. Based on the findings and assessments currently available, the prerequisites for the recognition of obligations are not met in either of the two pending cases. In the framework of the purchase price allocation as at 25 October 2005, these two actions were carried and recognised as contingent liabilities of USD 58.8 million. Offsetting refund claims under insurance policies and other agreements were not recognised since they were not assessed as highly probable.

As in previous years, the respective Group companies had formed provisions or expected adequate insurance benefits to cover any potential financial charges from other court or arbitration proceedings. Overall, the future financial position is therefore unlikely to be substantially affected by such charges.

(43) Other financial commitments

Nominal values of other financial commitments

€ million	31 Dec 2006 Remaining terms up to 1 year	more than 1-5 years	more than 5-10 years	Total	31 Dec 2005 Total	Remaining term more than 1 year
Order commitments in respect of capital expenditure	**700.2**	**1,889.5**	**550.2**	**3,139.9**	**1,069.8**	**801.6**
Order commitments in respect of tourism services	**808.6**	**1,035.8**	**408.8**	**2,253.2**	**3,001.5**	**2,078.9**
Accommodation services	341.2	656.8	318.0	1,316.0	1,633.2	1,231.1
Flight services	454.2	379.0	90.8	924.0	1,357.6	847.8
Other services	13.2	–	–	13.2	10.7	–
Other financial commitments	**225.6**	**474.2**	**13.9**	**713.7**	**155.0**	**36.2**
Total	**1,734.4**	**3,399.5**	**972.9**	**6,106.8**	**4,226.3**	**2,916.7**
Fair value	**1,659.7**	**2,979.0**	**684.1**	**5,322.8**	**3,707.3**	**2,451.1**

The fair value of other financial commitments was determined by means of discounting future expenses on the basis of a comparable market interest rate of 4.5% p.a. (previous year: 4.25%). If the previous year's interest rate of 4.25% p.a. had been used as the discount rate, the fair value would have been € 38.8 million higher.

In 2005, the trading sector – a discontinuing operation – comprised commitments of € 57.7 million at a fair value of € 55.3 million.

The increase of € 2,070.1 million in nominal order commitments in respect of capital expenditure was mainly attributable to the planned acquisition of new aircraft to replace parts of the currently operated fleet.

Order commitments in respect of tourism services related to contractual commitments to purchase accomodation and transport services from non-Group suppliers and associated companies as well as joint ventures.

The reduction in order commitments for accommodation services mainly related to the tour operators of source market Northern Europe. The decline in order commitments in respect of flight services primarily resulted from the use of the flight services purchased in 2005 by TUI Deutschland GmbH.

Other financial commitments mainly comprised amounts for commitments from orders already placed, land clean-up and renovation obligations, payment obligations and liabilities in connection with shareholdings. They also included other financial commitments from contractual agreements to purchase shares. The increase in other financial commitments primarily resulted from commitments to purchase IT services from TUI InfoTec GmbH.

Financial commitments from operating lease, rental and charter contracts

€ million	31 Dec 2006 Remaining terms up to 1 year	more than 1-5 years	more than 5-10 years	more than 10 years	Total	31 Dec 2005 Total	Remaining term more than 1 year
Hotel complexes	91.9	290.7	49.7	1.3	433.6	418.7	324.7
Travel agencies	71.7	201.4	101.9	43.5	418.5	401.8	337.1
Administrative buildings	56.5	174.4	92.5	27.5	350.9	456.5	386.8
Aircraft	246.3	567.4	68.7	–	882.4	615.1	400.9
Ships and container	663.0	1,027.5	416.2	112.5	2,219.2	2,224.5	1,391.3
Other	59.0	59.8	27.0	8.0	153.8	290.9	190.9
Total	**1,188.4**	**2,321.2**	**756.0**	**192.9**	**4,458.5**	**4,407.5**	**3,031.7**
Fair value	**1,137.2**	**2,034.1**	**531.6**	**124.2**	**3,827.1**	**3,847.0**	**2,527.3**

The fair value of financial commitments from lease, rental and charter contracts was determined by means of discounting future expenses on the basis of an interest rate of 4.5% p.a., which was in conformity with the market rate. If the previous year's interest rate of 4.25% p.a. had been used as the discount rate, the fair value would have been € 30.7 million higher.

The trading sector, a discontinuing operation, comprised commitments of € 15.1 million at a fair value of € 12.8 million in the 2005 financial year.

The commitments from lease, rental and leasing contracts exclusively related to leases that did not transfer all the risks and rewards incident to ownership of the assets to the companies of the TUI Group in accordance with IASB rules (operating leases). The test carried out to check whether the risks and rewards incident to ownership had passed to the TUI Group was effected in particular in consideration of existing options to purchase the assets or extend the terms of the contracts.

On a regular basis, operating leases for aircraft did not contain a purchase option nor an extension option at the end of the basic term. Current lease payments also comprised maintenance costs to a minor extent. The basic term regularly covered a period of between two and eight years.

Due to the acquisition of the business of CP Ships, leases with different terms and conditions existed for container ships. New leasing agreements regularly contain a purchase option.

The increase in rental and lease commitments for aircraft mainly resulted from the conclusion of sale-and-lease-back agreements. The reduction in other commitments from lease and rental contracts mainly resulted from a decline in follow-up obligations for expired leases.

Financial instruments

Financial instruments represent contractual rights or obligations that will lead to an outflow or inflow of financial assets or the issue of equity rights. They also comprise derivative claims or obligations derived from other financial instruments. The fair value (market value) of a financial instrument is the amount for which an asset could be exchanged, sold or purchased, or a liability settled, between knowledgeable and willing parties in an arm's length transaction. Financial instruments were exposed to certain financial risk factors which the Group eliminated or limited by means of appropriate risk strategies and hedging methods.

Hedging strategy and risk management

In accordance with the Group's corporate financial goal, financial risks had to be limited. In order to implement this goal, the Group operated central risk management activities in the framework of which TUI AG acted as the Group's bank. As a matter of principle, it was responsible for all financial transactions for the Group companies and Group-wide financial risk management, based on guidelines and rules fixing binding decision bases, competencies and responsibilities for all financial transactions.

Derivative financial instruments were only used in the framework of internally fixed limits and other regulations. The instruments used had to be controllable with the Group's own resources (human resources, organisational resources, systems). The hedges used were exclusively non-listed derivatives, primarily fixed-price transactions (e.g. futures and swaps) as well as options. The transactions were concluded at arm's length with top-rated contracting counterparties in the financial sector. As a matter of principle, all hedging transactions of the Group were based on appropriately recognised or future underlying items.

There was a strict organisational separation between the functional areas of trading, settlement and control. Compliance with the set limits and guidelines was regularly monitored. Recognised standard software was used for the assessment, monitoring and reporting of the hedges entered into and the underlying items. The processes, the methods applied and the organisation of risk management were reviewed for compliance with the relevant regulations at least annually by the internal audit department and external auditors. In this context, the Group also performed a benchmarking against general industry standards.

The hedging transactions by the Group companies were based on the risk profile and hedge schedule of the respective company. The Group companies submitted monthly reports on their current and planned foreign currency and fuel requirements (or surpluses) to TUI AG. Based on the risk profile, the hedge schedule and the monthly reports submitted by the companies, each company defined its specific hedging strategy, on the basis of which TUI AG established its hedge portfolio.

TUI AG concluded appropriate hedge transactions with external counterparties, using potential netting effects (netting of income and expenses in the same currency and with equivalent terms).

Hedges of currency transactions in the tourism division covered between 95% and 100% of the planned foreign currency requirements in the respective tourism season after the calculated brochure prices had been fixed. The hedged volumes were adjusted to changes in planning requirements based on the monthly reports by the subsidiaries.

Currency transactions of the companies in the shipping division were also hedged in accordance with the planned exposures listed in the monthly reports submitted by the companies. Between 80% and 100% of the reported exposures were hedged in this division.

Hedges of price risks related to aircraft fuel were based on the hedging model used by the tourism companies. When calculations for the respective season were made, at least 95% of the exposures were hedged, taking account of possibilities of levying fuel price surcharges.

The fuel price risks for companies in the shipping division were hedged by means of financial derivatives, taking account of the applicable specific price escalator clauses (bunker adjustment factors). Hedges of the relevant exposures covered at least 80%.

Risk factors

The value of a financial instrument may change due to changes in exchange rates (currency risk), level of interest rates (interest rate risk) and changes in market and stock exchange prices (market risk).

Currency risk

The operative business of the TUI Group's companies generated payments denominated in foreign currencies, which were not always matched by congruent payments with equivalent terms in the same currency. To this extent the Group companies were exposed to currency risks. Within the TUI Group, risks from exchange rate fluctuations of more than 20 currencies were hedged, with the largest hedging volumes relating to US dollars, euros and British pounds sterling.

The largest hedging volume in the operative business related to US dollars. In the tourism business, payments in US dollars primarily related to the procurement of services in non-European destinations and purchases of aircraft fuel and aircraft. In the shipping division major procurement and sales transactions were denominated in US dollars. Due to the structure of the respective business, the tourism division had a substantial short position in US dollars while the shipping division had a long position in US dollars as a matter of principle.

The Eurozone limited the currency risk from transactions in the key tourist destinations to Group companies whose functional currency was not the euro. The tourism division and primarily the Northern Europe sector was mainly affected by changes in the value of the British pound sterling and the Swedish krona.

Interest rate risk (market value risk)

An interest rate risk, i.e. exposure to potential fluctuations in the value of a financial instrument resulting from changes in market interest rates (market value risk), arose primarily from medium- and long-term fixed-interest receivables and liabilities. Concerning long-term, fixed-interest financial liabilities, in particular the bonds issued, the fair values deviated from recognised carrying amounts. In accordance with IAS 32, the subordinated hybrid capital with no fixed maturity issued in December 2005 was not shown as a bond but as a separate component of Group equity.

Fair values and carrying amounts of the bonds issued (31 Dec 2006)

€ million	Volume	Interest rate % p.a.	Fair value of debt component	Fair value conversion options	Fair value Total	Carrying amount
2003/08 convertible bond	384.6	4.000	380.4	9.9	390.3	362.1
2004/09 bond	400.0	3M EURIBOR plus 2.100	404.4	–	404.4	396.4
2005/10 bond	550.0	3M EURIBOR plus 1.550	539.2	–	539.2	540.6
2004/11 bond	625.0	6.625	637.5	–	637.5	612.7
2005/12 bond	450.0	5.125	426.4	–	426.4	441.4
2005/-- hybrid capital	300.0	until January 2013 8.625 subsequently 3M EURIBOR plus 7.300	302.1	–	302.1	294.6

Market risk

Market risk arises from the fact that the value of a financial instrument may change due to fluctuating market prices. In accordance with the rules of IAS 39, marketable securities were recognised at their fair values. Marketable available-for-sale securities mainly comprised listed shares and funds which were subject to normal price fluctuations on the capital markets. The market price risk of these investments was not hedged. As a matter of principle, changes in the market value of available-for-sale securities were taken directly to the revaluation reserve for financial instruments. Where any substantial impairments of available-for-sale securities occurred, the cumulative net loss previously shown in equity was recognised as an impairment in the result for the period.

Credit risk

The credit risk in non-derivative financial instruments results from the risk of non-performance of contractual payment obligations by counterparties.

Maximum credit risk exposure was mainly reported as the total of the fair values of the non-derivative financial assets, taking account of legally enforceable possibilities of netting financial assets and liabilities but not considering existing collateral. Since the TUI Group operated in many different business areas and regions in a diversified manner, significant credit risk concentrations from receivables from and loans to specific debtors or groups of debtors were not to be expected; a significant concentration of credit risks related to specific countries was not to be expected either. The Group covered the identifiable credit risk of individual receivables and the general credit risk by means of corresponding specific bad debt allowances. In addition, bad debt allowances based on empirical values were made on a portfolio basis.

For derivative financial instruments entered into, the maximum credit risk was the total of all positive market values of these instruments, since in the event of non-performance by the counterparties asset losses would be incurred only up to this amount. Since derivative financial instruments were concluded with a variety of top-rated debtors, no credit risk exposure was to be expected.

Liquidity risk

The Group's liquidity requirements were determined by means of its liquidity planning and covered by committed credit lines so that the Group's liquidity was guaranteed at any time.

Cash flow risk

The cash flow risk results from uncertainty about the levels and timing of cash inflows or outflows from future transactions. The Group's floating-rate financial liabilities in particular entailed the risk of fluctuations in future cash flows due to changes in interest rates level. In order to minimise this risk, interest rate hedges were concluded where necessary to limit the potential cost of borrowing funds. The effective portion of the changes in the market values of these financial instruments, classified as cash flow hedges in accordance with the rules of IAS 39, was taken directly to equity.

The cash flow risks resulting from future cash flows in foreign currencies were hedged through derivative financial instruments. To this end, the foreign currency requirements of the tourism division attributable to expected bookings for future tourism seasons were hedged by means of corresponding forward exchange or option contracts. The foreign currency risks from planned future payment flows in the shipping division were also hedged by corresponding forward exchange or option contracts.

Price risk

Price hedging instruments were used in order to hedge exposure to external price risks for commodities. These hedges were used by the Group's airlines and container shipping companies to hedge aircraft fuel required in the future. The price hedges were based on corresponding plans and generally qualified as cash flow hedges according to IAS 39. The effective portion of cumulative changes in market values was taken directly to equity until the hedged transaction occurred.

Upon settlement of the hedged item, the cumulative results were taken to the income or expense item covering the associated hedged transaction with an effect on results.

Nominal amounts of derivative financial instruments used

	31 Dec 2006			31 Dec 2005	
	Remaining terms				Remaining term
€ million	up to 1 year	more than 1 year	Total	Total	more than 1 year
Interest rate hedges					
Swaps	1.9	110.7	112.6	65.0	65.0
Caps and floors	–	–	–	15.2	–
Currency hedges					
Forwards	4,040.3	1,944.9	5,985.2	3,610.3	259.0
Options	2,313.4	7.8	2,321.2	1,253.9	18.1
Collars	476.6	15.5	492.1	184.8	68.3
Swaps and other currency hedges	–	101.4	101.4	211.0	211.0
Commodity hedges					
Swaps	569.0	148.2	717.2	647.9	89.1
Options	118.0	–	118.0	119.4	69.9
Collars	233.2	9.2	242.4	44.2	–
Structured transactions	–	–	–	187.2	23.9

The nominal amounts corresponded to the total of all purchase or sale amounts or the respective contract values of the transactions. Cross currency interest rate swaps not unambiguously to be allocated to currency or interest rate hedges were shown under currency hedges.

As a matter of principle, the fair values of derivative financial instruments corresponded to the market values. The fair value of over-the-counter financial derivatives was determined by means of appropriate discounting methods, e.g. by discounting the expected future cash flows. The calculation of the fair values of options was based on the Black & Scholes models. The fair values determined on the basis of the Group's own systems were regularly compared with fair value confirmations of external counterparties.

Positive and negative fair values of the derivative financial instruments shown as receivables or liabilities

	31 Dec 2006		31 Dec 2005	
€ million	Receivables	Liabilities	Receivables	Liabilities
Fair value hedges to hedge exposure to				
currency risks	–	–	6.0	–
Cash flow hedges to hedge exposure to				
currency risks	44.8	60.0	146.2	13.8
market risks	14.6	69.8	29.7	23.8
Hedges	**59.4**	**129.8**	**181.9**	**37.6**
Other derivative financial instruments	**24.7**	**13.4**	**18.3**	**35.5**
Total	**84.1**	**143.2**	**200.2**	**73.1**

Financial instruments which were used in order to hedge a risk position according to operational criteria but did not meet the strict criteria of IAS 39 to qualify as hedges were shown as other derivative financial instruments. They included in particular structured hedges to hedge exposure to market risks in order to hedge the additional fuel volumes required in future by the airlines.

Notes on the Cash Flow Statement

Notes on the cash flow statement

The cash flow statement showed the flow of cash and cash equivalents on the basis of a separate presentation of cash inflows and outflows from operating, investing and financing activities. The effects of changes in the group of consolidated companies were eliminated. The assets and liabilities grouped together as disposal groups in accordance with IFRS 5 were reallocated to the original balance sheet items for the purposes of the cash flow statement. The cash flow statement for 2005 thus deviates from the consolidated balance sheet, in particular with regard to cash and cash equivalents carried.

(45) Cash inflow/outflow from operating activities

The cash inflow from operating activities included interest received. Compared with the previous financial year, the cash flow from operating activities was mainly affected by a decline in the cash inflow from shipping operations due to the drop in earnings in the shipping sector in the financial year under review. The key factors influencing this trend were the increase in bunker costs and the integration costs incurred. The cash flow from operating activities was also affected by the development of the steel trading activities. While the steel service companies contributed € 121.5 million to the cash flow from operating activities in 2005, they caused a cash outflow of € 17.4 million in the completed financial year. In 2005, the cash flow had also benefited from the cash inflow of € 67.6 million from special logistics activities. In the year under review, interest payments received totalled € 64.5 million (previous year: € 58.6 million). In the 2006 financial year, income tax payments resulted in a cash outflow of € 62.1 million (previous year: € 116.2 million).

(46) Cash inflow/outflow from investing activities

The cash payments for investments in property, plant and equipment and intangible assets or the cash receipts from corresponding disposals did not match the additions or disposals shown under the development of fixed assets, which included non-cash investments and disposals. The cash outflow from investing activities comprised the payments for the acquisition of interests in companies to be included in consolidation, offset against the amount of cash and cash equivalents acquired. The consolidated balance sheet comprised additions of goodwill, assets and liabilities due to the acquisition of interests in subsidiaries included in consolidation. In the completed financial year, dividend payments received including dividends received by the companies measured at equity generated cash inflows of € 22.9 million (previous year: € 32.5 million).

Overall, payments of around € 43.9 million (previous year: around € 2,099.7 million) were made in the 2006 financial year for acquisitions of interests in subsidiaries and participations. The amount of cash and cash equivalents acquired with these acquisitions totalled around € 1.1 million. The high cash outflow in 2005 mainly resulted from the acquisition of CP Ships in the fourth quarter. In the 2005 financial year, the divestment of the US steel service companies, the TQ3 Group, Wolf GmbH,

the TUI InfoTec Group and further divestments resulted in a total cash inflow of € 719.7 million. The amount of cash and cash equivalents sold due to these divestments totalled around € 32.1 million in the 2006 financial year.

Non-cash investments in the shipping and tourism divisions were primarily effected by means of finance leases. Lease agreements resulted in total investments of € 76.9 million (previous year: € 124.5 million).

(47) Cash inflow/outflow from financing activities

In the 2006 financial year, the cash flow from financing activities was substantially characterised by the redemption of the bearer bond of € 750.0 million which matured in October 2006. The redemption was primarily effected with cash inflows from divestments of subsidiaries. In addition, € 400 million were raised through private placements with maturities of around three years in the framework of general corporate refinancing. In the previous year the capital increase and the issue of two bonds resulted in a cash inflow of € 2.0 billion. The hybrid capital carried as equity generated an additional cash inflow of € 0.3 billion. Cash flows from financing activities included cash flows due to financial liabilities taken up or redeemed and interest paid in the financial year under review.

(48) Development of cash and cash equivalents

Cash and cash equivalents comprised all liquid funds, i.e. cash in hand, bank balances and cheques. The impact of changes in cash and cash equivalents due to exchange rate fluctuations is shown separately. Also outlined separately are the changes in cash and cash equivalents attributable to changes in consolidation which did not result from the acquisition or divestment of companies. As in 2005, cash and cash equivalents were not subject to any restraints on disposal as at 31 December 2006.

Other Notes

Significant events after the balance sheet date

The integration of CP Ships into Hapag-Lloyd changed the primary economic environment of the companies operating in the shipping division to such an extent that the functional currency was changed from the euro to the US dollar. The assessment of the functional currency was based on freight rates, cash inflow and cost structures. As of 1 January 2007, the companies operating in the container shipping division will therefore prepare their financial statements in US dollars.

On 22 February 2007, CP Ships Limited concluded a contract on the sale of the material assets of Montreal Gateway Terminals to Montreal Gateway Terminals Limited Partnership, a company specifically established by Morgan Stanley Infrastructure Partners for this purpose. Montreal Gateway Terminals was a constituent of the business of the container shipping line CP Ships acquired in 2005 by TUI AG. Montreal Gateway Terminals is the second largest container terminal in Canada and the third largest on the eastern coast of North America. This sale was effected in the framework of the reduction in invested capital, announced by TUI AG.

Montreal Gateway Terminals Limited Partnership acquired the container terminal business on the basis of an asset deal. TUI continues to hold a 20% interest in the new Montreal Gateway Terminals Limited Partnership through CP Ships Limited. The purchase price of the transaction totalled around € 300 million. As a key account, Hapag-Lloyd continues its relationship with the terminal on the basis of a long-term contract.

Apart from this transaction, no further material transactions were resolved, initiated or implemented in the period between the balance sheet date and the day on which the audit certificate was granted by the auditors (5 March 2007).

Services of the auditors of the consolidated financial statements

In the 2006 financial year, total expenses of € 4.8 million were carried for the professional services provided by the auditors of the consolidated financial statements, PricewaterhouseCoopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft. Of this total, € 2.5 million were related to audits, € 2.2 million to other attestation or measurement services, and € 0.1 million to other services provided for TUI AG or its subsidiaries.

Remuneration of the Executive and Supervisory Board members

In the financial year under review, remuneration paid to Board members totalled € 7,368.0 thousand (previous year: € 9,130.3 thousand).

In the framework of the long-term incentive programme, the Board members received a compensation of € 17.0 thousand (previous year: € 2,005.5 thousand) for the financial year under review. The amount paid in the previous year was

translated into 123,036 phantom shares in TUI AG in March 2006. The compensation granted for 2006 will be translated into phantom shares at the Supervisory Board meeting in March 2007.

The pension provisions for active Executive Board members totalled to € 20,663 thousand as at 31 December 2006 (previous year: € 18,675 thousand).

Total remuneration of the Supervisory Board members amounted to € 2,013 thousand (previous year: € 2,173 thousand) in the financial year under review.

Remuneration for former Executive Board members or their surviving dependants totalled € 5,652 thousand (previous year: € 3,679 thousand) in the financial year under review. Pension obligations for former Executive Board members or their surviving dependants amounted to € 47,811 thousand (previous year: € 46,671 thousand) in the financial year under review.

Disclosures of the relevant amounts for individual Board members and further details on the remuneration systems are provided in the compensation report included in the management report.

Related parties

Apart from the subsidiaries included in the consolidated financial statements, TUI AG, in carrying out its ordinary business activities, maintained indirect or direct relationships with related parties. Related parties controlled by the TUI Group or over which the TUI Group was able to exercise a significant influence are listed in the list of shareholdings deposited in the commercial registers of the district courts of Berlin-Charlottenburg and Hanover. Apart from pure equity investments, related parties also included companies that supplied goods or provided services for TUI Group companies.

Transactions with related parties (excl. key management)

€ million	2006	2005
Services provided by the Group		
Management and consultancy services	30.1	26.0
Sales of tourism services	5.4	4.0
Distribution services	8.2	7.7
Other services	–	5.2
Total	**43.7**	**42.9**
Services received by the Group		
in the framework of lease, rental and leasing agreements	30.6	25.7
Purchase of hotel services	119.2	139.4
Incoming services	160.7	92.3
Distribution services	4.2	4.2
Container handling and terminal services	43.4	31.1
Other services	12.0	10.0
Total	**370.1**	**302.7**

Transactions with related parties (excl. key management)

€ million	2006	2005
Services provided by the Group to		
non-consolidated Group companies	9.8	9.6
joint ventures	17.9	16.5
associated companies	3.6	0.2
other shareholdings	–	5.2
natural persons	12.4	11.4
Total	**43.7**	**42.9**
Services received by the Group from		
non-consolidated Group companies	24.8	36.2
joint ventures	178.6	177.1
associated companies	102.2	81.2
other shareholdings	57.9	–
natural persons	6.6	8.2
Total	**370.1**	**302.7**

Transactions with associated companies and joint ventures were primarily effected in the tourism division. They related in particular the tourism services of the incoming agencies and hotel companies used by the Group's tour operators.

All transactions with related parties were executed on an arm's length basis, based on international comparable uncontrolled price methods in accordance with IAS 24.

As in 2005, liabilities to related parties did not comprise any liabilities from finance leases. Receivables and liabilities existing as at the balance sheet date were comprised in receivables from and liabilities to non-consolidated Group companies and associated companies.

The income and expenses resulting from equity investments and financing were carried under the financial result for all consolidated companies and presented in the segment report for the individual divisions, together with a separate presentation of the results of companies measured at equity by divisions.

At the balance sheet date, the joint venture RIU Hoteles S.A. held 5.1% of the shares in TUI AG. Ms Carmen Riu Güell and Mr Abel Matutes Juan are members of TUI's Supervisory Board and indirectly hold 5.1% and 2.4%, respectively, of the shares in TUI AG.

In accordance with IAS 24, key management functions within the Group, the Executive Board and the Supervisory Board, are related parties whose remuneration has to be listed separately.

€ million	2006	2005
Short-term employee benefits	8.8	9.2
Post-employment benefits	2.0	0.8
Other long-term employee benefits	0.5	–
Termination benefits	5.3	–
Share-based payment	–	1.8
Total	**16.1**	**11.8**

The termination benefits were expensed additions to pension provisions for active Board members in the respective financial year. In accordance with the Corporate Governance Code, these expenses do not represent remuneration of the Executive and Supervisory Board. Termination benefits included an amount of € 3.3 million for the additions to provision.

Auditor's Report

'We have audited the consolidated financial statements prepared by the TUI AG, Berlin and Hanover, comprising the balance sheet, the income statement, statement of recognised income and expense, cash flow statement and the notes to the consolidated financial statements, together with the group management report, which is combined with the management report of the TUI AG for the business year from January 1 to December 31, 2006. The preparation of the consolidated financial statements and the combined management report in accordance with the IFRSs, as adopted by the EU, and the additional requirements of German commercial law pursuant to § (Article) 315a Abs. (paragraph) 1 HGB ("Handelsgesetzbuch": German Commercial Code) are the responsibility of the parent Company's Board of Managing Directors. Our responsibility is to express an opinion on the consolidated financial statements and the combined management report based on our audit.

We conducted our audit of the consolidated financial statements in accordance with § 317 HGB and German generally accepted standards for the audit of financial statements promulgated by the Institut der Wirtschaftsprüfer (Institute of Public Auditors in Germany) (IDW) and additionally observed the International Standards on Auditing (ISA). Those standards require that we plan and perform the audit such that misstatements materially affecting the presentation of the net assets, financial position and results of operations in the consolidated financial statements in accordance with the applicable financial reporting framework and in the combined management report are detected with reasonable assurance. Knowledge of the business activities and the economic and legal environment of the Group and expectations as to possible misstatements are taken into account in the determination of audit procedures. The effectiveness of the accounting-related internal control system and the evidence supporting the disclosures in the consolidated financial statements and the combined management report are examined primarily on a test basis within the framework of the audit. The audit includes assessing the annual financial statements of those entities included in consolidation, the determination of the entities to be included in consolidation, the accounting and consolidation principles used and significant estimates made by the Company's Board of Managing Directors, as well as evaluating the overall presentation of the consolidated financial statements and the combined management report. We believe that our audit provides a reasonable basis for our opinion.

Our audit has not led to any reservations.

In our opinion based on the findings of our audit the consolidated financial statements comply with the IFRSs as adopted by the EU, the additional requirements of German commercial law pursuant to § 315a Abs. 1 HGB and give a true and fair view of the net assets, financial position and results of operations of the Group in accordance with these provisions. The combined management report is consistent with the consolidated financial statements and as a whole provides a suitable view of the Group's position and suitably presents the opportunities and risks of future development.'

Forward-looking Statements

The annual report, in particular the report on expected developments included in the management report, includes various forecasts and expectations as well as statements relating to the future development of the TUI Group and TUI AG. These statements are based on assumptions and estimates and may entail known and unknown risks and uncertainties. Actual development and results as well as the financial and asset situation may therefore differ substantially from the expectations and assumptions made. This may be due to market fluctuations, the development of world market prices for commodities, of financial markets and exchange rates, amendments to national and international legislation and provisions or fundamental changes in the economic and political environment. TUI does not intend to and does not undertake an obligation to update or revise any forward-looking statements to adapt them to events or developments after the publication of this annual report.

Letter to our Shareholders

Dear Shareholders,

in the 2006 financial year, the tourism division was able to increase its operating earnings in spite of difficult conditions in some markets. However, cost increases and changes in market structures prevented us from meeting our targets for the tourism division, so that some goodwill items were revalued. In container shipping, earnings were impacted by capacity growth and cost increases, accompanied by high one-off costs for the integration of CP Ships. This resulted in a negative group result for the 2006 financial year. The overall result is totally unsatisfactory and does not permit payment of a dividend.

Nevertheless TUI has set out on the right path. The accumulation of negative factors in the 2006 financial year was a unique phenomenon, and we expect to see significant growth in earnings and resume dividend payments again in 2007.

In the tourism division, we continue to be Europe's number one, both in turnover and customer volume terms but also in terms of absolute earnings generated. We hold this leadership position because we are early movers, quickly responding to market trends and adopting a pro-active approach with our own innovative products. Accordingly, as in the three previous years, our earnings growth from tourism operations again outperformed turnover growth in 2006.

We expect this trend to continue in the future. A major step in this direction has been taken with the launch of TUIfly.com. In combining the operations of our previous two German airlines, we are pooling our forces, enlarging our product portfolio and optimising our structures. Moreover, we will expand TUIfly.com into a European distribution platform which may be used to book other travel modules, as well as a comprehensive range of flight connections. This will enhance our presence and relevance for customers in two tourism segments characterised by particularly dynamic growth: low-cost flight operations and modular tours.

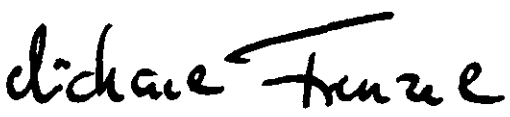
Our cruise business is also characterised by strong growth. TUI successfully participates in this trend with clearly positioned products for the German and British markets. In order to achieve a further expansion of our product portfolio, we are buying into the German activities of world market leader Carnival Cruise Corporation, the 'Aida'. We will develop an independent TUI product to attract new customers in the high-volume premium market.

Besides selective activities in the new growth segments, we are also expanding our core business. Organised tours offered by tour operators form the core of our tourism business. Product innovation and product quality secure our competitive edge. Strict control and reduction of production costs ensure the profitability and viability of our products. This is another area in which we took decisions in 2006 and where some of these have already been implemented. Overall, our costs will be reduced by € 250 million by 2008.

Two key factors strongly characterised the business trend in shipping in 2006: cost increases and declining freight rates in the market, and high one-off costs for the integration of the operations of CP Ships into Hapag-Lloyd's organisation. Earnings came under substantial pressure due to the combination of these two factors.

However, the integration process marked an enormous achievement. What is more, it was already completed in 2006, i.e. earlier than originally planned. Our material expectations were also surpassed. Full synergies of € 220 million will be achieved as of 2008: € 40 million more than planned. The one-off integration costs of around € 114 million in 2006 will not recur in 2007. Our position as one of the world's five biggest container lines, together with having the leading productivity per employee in the industry, form the healthy basis for a fast and sustainable improvement of our earnings position in the shipping division.

The Group also achieved structural improvements in 2006, which will have a positive effect in subsequent years. Net debt was reduced by around € 600 million year-on-year.



Overall, the TUI Group forged ahead to boost its earnings power. We will consistently follow this path in 2007. We expect to generate substantial earnings growth thanks to the implementation of our decisions and the absence of one-off costs. This will be required in order to achieve an appropriate return on capital employed. And an appropriate return is imperative for our Group's long-term success, our top-priority.

In order to further enhance our return on invested capital, we will increase our earnings and reduce our invested capital. To this end, we have identified assets of around one billion euros which will be released. We will reduce our invested capital by this amount and thus not only boost our profitability but also further reduce our debt.

In 2006, our employees were highly committed and produced an excellent performance in a difficult environment. We would like to extend a vote of thanks to our employees for their dedication. We are convinced, that we will achieve our future objectives given our strongly motivated workforce.

TUI plays a prominent role in two global growth markets – tourism and shipping. With marketable products, optimised cost structures and employees who are service-oriented and highly committed, we are well positioned to face the challenges of the future. We have set out on the right path with our programmes and initiatives to enhance our profitability. Given this constellation, we are a good choice offering positive prospects to our customers and shareholders alike.

Yours sincerely,

http://www.tui-group.com/en/ir/agm/agm_2007/agenda.html

Agenda of TUI AG's 2007 Annual General Meeting on 16 May 2007

Agenda

1. Presentation of the adopted annual financial statements as per 31 December 2006, the management report, and the approved consolidated financial statements, group management report and the report of the Supervisory Board
2. Resolution on the appropriation of the balance-sheet profit for the financial year 2006
3. Resolution on formal approval of the activities of the Executive Board in the financial year 2006
4. Resolution on formal approval of the activities of the Supervisory Board in the financial year 2006
5. Election of the auditor for the financial year 2007
6. Resolution to add to Section 18 Para 1 (c) of the Charter 'long-term variable remuneration for the Supervisory Board' (Amendment of the Charter)
7. Resolution to add a new Para 6 'Electronic transmission of information to shareholders' to Section 21 (Amendment of the Charter)
8. Resolution for a new authorization to acquire and use own shares under Section 71 Para 1 No. 8 AktG, and to exclude the subscription right

1. Presentation of the adopted annual financial statements as per 31 December 2006, the management report, and the approved consolidated financial statements, group management report and the report of the Supervisory Board

2. Resolution on the appropriation of the balance-sheet profit for the financial year 2006
The profit for the financial year 2006 in the amount of € 103,564,082.75 results in a balance-sheet profit of € 54,300,000, taking account of the profit carried forward from the previous year in the amount of € 2,435,917.25 and of a transfer of € 51,700,000 to the other profit reserves. The Executive Board and the Supervisory Board propose that the disclosed balance-sheet profit of € 54,300,000 be carried forward on new account.

3. Resolution on formal approval of the activities of the Executive Board in the financial year 2006
The Supervisory Board and the Executive Board propose that the activities be formally approved.

4. Resolution on formal approval of the activities of the Supervisory Board in the financial year 2006
The Executive Board and the Supervisory Board propose that

Coopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover, be elected auditors for the financial year 2007 and be instructed to audit and review the semi-annual financial report for the first half year 2007.

6. Resolution to add to Section 18 Para 1 (c) of the Charter 'long-term variable remuneration for the Supervisory Board' (Amendment of the Charter)

The Executive Board and the Supervisory Board propose that section 18 para 1(c) of the Charter be amended, that the new sentences 4 and 5 be added, and to newly word the provision as follows:

'(c) a remuneration reflecting the long-term success of the Company (long-term variable remuneration). Long-term variable remuneration shall comprise a base amount of € 20,000 per year and shall be granted for the current fiscal year – starting from fiscal year 2006. This base amount shall be due at the end of the third fiscal year following the granting and shall either be increased or reduced to the extent that the profit per share in the third fiscal year following the granting changes compared with the fiscal year for which the amount was granted. Any change of the profit per share by € 0.01 results in an increase or a reduction of the base amount by € 100. The amount to be paid out shall, however, in no case exceed 250% of the base amount.

Should a member of the Supervisory Board depart prior to expiry of the assessment period, the profit per share in the fiscal year of departure shall be the determining factor when calculating the long-term variable remuneration.'

The addition of the new sentence 4 is necessary to clarify the method of calculation for the determination of the amount to be paid. The new sentence 5 sets a limit for the amount to be paid out in the event of an extraordinary unforeseen development.

7. Resolution to add a new Para 6 'Electronic transmission of information to shareholders' to Section 21 (Amendment of the Charter)

Since the entry into force of the Transparency Directive Implementation Act ('TUG') in January 2007, the electronic transmission of information to shareholders pursuant to section 30b para 3 WpHG (Securities Trading Act) has been admissible only if the General Meeting agrees to this.

The inclusion of this authorization in the Charter of TUI AG secures the right in the future to pass on information to the shareholders by email. The amendment of the Charter changes nothing about the fact that the shareholders themselves must consent to this mode of transmission.

The Executive Board and the Supervisory Board propose that a new para 6 be added to section 21 of the Charter, worded as follows:

'(6) The Company may transmit information to shareholders by way of remote data transmission pursuant to section 30b para 3 no. 1 WpHG.'

8. Resolution for a new authorization to acquire and use own shares under Section 71 Para 1 No. 8 AktG, and to exclude the subscription right

To acquire its own shares, the Company needs special authorization from the General Meeting, unless the acquisition is expressly allowed by law. As the authorization given by the General Meeting on 10 May 2006 will expire on 9 November 2007, it is to be proposed to the General Meeting that the Company be again authorized to acquire its own shares.

of up to 10% of its current capital stock. The shares being acquired must at no time represent more than 10% of the capital stock together with the other own shares held by the Company or attributable to it pursuant to sections 71a et seq. AktG. The authorization must not be used for the purpose of trading in its own shares.

b) The authorization can be made use of entirely or partly, once or several times, in pursuit of one or several purposes by the Company, or by third parties for the account of the Company. The authorization shall be effective until 15 November 2008. This authorization replaces the authorization to acquire own shares granted by the General Meeting of TUI AG on 10 May 2006.

c) The acquisition is effective at the option of the Executive Board through the stock exchange or by means of a public offer to buy or by means of a public invitation to the shareholders to submit a sales offer.

- If the shares are acquired through the stock exchange, the consideration paid by the Company for the share (without ancillary acquisition costs) must not by more than 5% exceed or fall short of the price determined in the XETRA trading system (or a functionally comparable successor system) through the opening auction on the trading day.

- If the acquisition is made through a public purchase offer or a public invitation to submit a sales offer, the purchase price which is offered or the minimum and maximum amounts of the purchase price range per share (without ancillary acquisition costs) must not by more than 10% exceed or fall short of the average closing prices in the XETRA trading system (or a functionally comparable successor system) on the three trading days preceding the day of the publication of the offer or of the public invitation to submit a sales offer. If, after the publication of a public purchase offer or after the public invitation to submit a sales offer, significant deviations from the relevant price arise, the purchase offer or, as the case may be, the invitation to submit a sales offer can be adjusted. In this case, the average price on the three trading days before the public announcement of such an adjustment shall be relevant. The purchase offer or the invitation to submit a sales offer can be subject to further conditions. If the purchase offer is oversubscribed or, in the case of an invitation to submit a sales offer, not all offers among several equivalent offers can be accepted, the shares are to be allocated or the offers accepted on a pro rata basis. The terms of the purchase offer or of the invitation to submit a sales offer may provide for the preferential acceptance of a small number of up to 100 shares offered for sale per shareholder.

d) The Executive Board is authorized to use the shares of the Company acquired on the basis of this authorization for all purposes allowed by law, especially also for the following purposes:

aa) The shares can be called in, with the approval of the Supervisory Board, without any further resolutions being required by a General Meeting. They can also be called in through the simplified procedure without any capital reduction by means of an adjustment of the proportionate arithmetic amount of the other shares in the capital stock of the Company. The decision to call in the shares can be limited to a part of the acquired shares. If the shares are called in through the simplified proceedings, the Executive Board is authorized to adjust the number of the shares in the Charter.

bb) The shares can also be sold in other ways than through the stock exchange or through a public offering to all shareholders, if these shares are sold for cash payment at a

authorizations to increase the capital with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG or on the basis of a conditional capital pursuant to sections 221 para 4, 186 para 3 sentence 4 AktG for bonds with conversion or option rights or, as the case may be, conversion duties issued during the term of this authorization until it is made use of, must not exceed 10% in total of the capital stock at the time of this authorization or at the time at which it is made use of.

cc) The shares can, with the approval of the Supervisory Board, be sold for non-cash contributions, especially also in connection with the acquisition of undertakings, parts of undertakings, participations, or other assets, and in connection with mergers and acquisitions.

dd) The shares can also be used to fulfil conversion or option rights or for conversion obligations from convertible or warrant-linked bonds issued by the Company or its group member companies (or special dividend rights or dividend bonds with conversion rights, option rights or conversion obligations).

e) The authorization in d), bb) to dd) also comprises the use of shares in the Company which were acquired on the basis of section 71 d sentence 5 AktG.

f) The authorizations in d) can be made use of once or several times, partly or entirely, individually or jointly, the authorizations in d), bb) to dd) also through dependent undertakings or undertakings majority owned by the Company or by third parties acting for their account or for the account of the Company.

g) The shareholders' subscription right to these own shares is excluded insofar as these shares are used in accordance with the authorization in d), bb) to dd) above.

Report on Item 8 of the Agenda (Authorization to acquire and to use own shares)

The proposal in Item 8 of the Agenda provides for an authorization to acquire own shares pursuant to section 71 para 1 no. 8 AktG in the amount of up to 10% of the capital stock, limited to a period of 18 months.

TUI AG adopted a resolution at the Annual General Meeting of 10 May 2006 for an authorization to acquire own shares, limited to the time up to 9 November 2007. Because of the expiry of this authorization in the current financial year, this resolution including the authorization is to be annulled with effect from the entry into force of the new authorization to be granted at this Annual General Meeting.

In addition to an acquisition through the stock exchange, the Company is to be given the possibility to acquire own shares through a public purchase offer to be addressed to the shareholders of the Company or through the public invitation to the shareholders to submit an offer for the purchase of shares. The principle of equal treatment set out in the Stock Corporation Act must be observed. In the case of a public invitation to submit a sales offer, the addressees of the invitation can decide how many shares and – if a price range is fixed – at what price they wish to offer them to the Company. If a public purchase offer is oversubscribed or, in the case of an invitation to submit an offer for the purchase of shares, not all offers among several equivalent offers can be accepted, the shares are to be allocated on a pro-rata basis. However, it is to be possible to provide for the preferential acceptance of a small number or of small parts of offers up to a maximum of 100 shares. This possibility serves to avoid fractions in determining the quotas to be acquired as

must not by more than 10% exceed or fall short of the average closing price in XETRA trading (or a comparable follow-up system) on the three trading days preceding the day of the public announcement of the offer or, as the case may be, the public invitation to submit a sales offer. If a substantial deviation from the relevant price arises after the publication of a public purchase offer or after the public invitation to submit a sales offer. The purchase offer, or, as the case may be, the invitation to submit a sales offer can be adjusted. In this case the average price on the three trading days preceding the public announcement of a possible adjustment can be used. The purchase offer or, as the case may be, the invitation to submit a sales offer can provide for further terms to be applicable.

The own shares which are acquired may be used for all purposes admissible by law, in particular also the following:

The proposed resolution contains the authorization to sell the previously acquired own shares outside the stock exchange for cash payment with an exclusion of the subscription right. A precondition for this is that the shares are sold at a price which does not fall far short of the stock exchange price of shares in the Company with the same features at the time of the sale. This authorization makes use of the possibility to simplify the exclusion of subscription rights allowed under section 71 para 1 no. 8 AktG and, analogously, section 186 para 3 sentence 4 AktG. The shareholders' interest in dilution protection is taken account of through the prohibition of selling the shares for a price which falls far short of the relevant stock exchange price. The final determination of the sales price for the own shares is made just before the sale. The Executive Board will keep a possible mark-down from the stock exchange price as low as possible in accordance with the market conditions prevailing at the time of the placement. The mark-down from the stock exchange price at the time at which the authorization is made use of will in no case exceed 5% of the then current stock exchange price. The authorization applies subject to the proviso that the shares sold with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG must not exceed – in total – 10% of the capital stock, neither at the time of the entry into force of this authorization nor at the time of its exercise. This authorization is to be made use of only in such a way that the limit of 10% of the capital stock fixed in section 186 para 3 sentence 4 AktG must be observed in total, i.e. by inclusion of the possible exercise of the authorizations in section 4 para 7 and section 4 para 5 of the Charter. The shareholders in principle have the possibility to maintain their participation quota by purchasing TUI shares through the stock exchange. The authorization is in the interests of the Company because it provides a greater degree of flexibility. It makes it possible in particular to issue shares specifically to cooperation partners.

The sale of own shares can, with the approval of the Supervisory Board, also be made for contributions in kind with an exclusion of the shareholders' subscription right. The Company is thereby enabled to offer own shares directly or indirectly as valuable consideration in connection with mergers or in connection with the acquisition of companies, parts of companies, participations or other assets (e.g. hotels, ships or aeroplanes). International competition and the globalization of the economy frequently require valuable consideration to be paid in such transactions in the form of shares. The authorization proposed here is intended to give the Company the necessary flexibility to quickly and flexibly benefit both nationally and internationally from opportunities which arise to acquire companies, parts of companies, participations or other assets. For this, the proposed exclusion of the subscription right is necessary. In determining the pricing ratios, the Executive Board will take

orientation by a stock exchange price is intended, especially in order not to jeopardize negotiation results which have been achieved through fluctuations of the stock exchange price.

The authorization also provides for the own shares to be used, with an exclusion of the shareholders' subscription right, to fulfil conversion or subscription rights of holders of warrant-linked bonds or convertible bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion right, option right or conversion duty) issued by the Company or by its group members companies. It may be expedient to entirely or partly use own shares to fulfil the conversion rights instead of new shares from an increase in capital.

All of the above possible applications can be used not only with respect to shares acquired on the basis of this authorization. In contrast, the authorization also comprises shares which were acquired pursuant to section 71d sentence 5 AktG. It is advantageous and provides further flexibility to be able to utilize these own shares in the same way as the shares acquired on the basis of this authorization.

The own shares acquired on the basis of this authorization can, with the approval of the Supervisory Board, be called in by the Company without a new resolution of the General Meeting. In accordance with section 237 para 3 no. 3 AktG, the General Meeting of the Company can resolve upon the redemption of its fully paid-in no-par shares without requiring a reduction of the capital stock of the Company. The proposed authorization expressly provides for this alternative in addition to a redemption with a capital reduction. If own shares are redeemed without a capital reduction, the arithmetic share of the other no-par shares in the capital stock of the Company automatically increases. The Executive Board is therefore also to be authorized to make any necessary amendments of the Charter with respect to the number of no-par shares which may change through a redemption.

If the authorization is made use of, the Executive Board will report to the next General Meeting.

Agenda of TUI AG's 2007 Annual General Meeting on 16 May 2007

1. Presentation of the adopted annual financial statements as per 31 December 2006, the management report, and the approved consolidated financial statements, group management report and the report of the Supervisory Board
2. Resolution on the appropriation of the balance-sheet profit for the financial year 2006
3. Resolution on formal approval of the activities of the Executive Board in the financial year 2006
4. Resolution on formal approval of the activities of the Supervisory Board in the financial year 2006
5. Election of the auditor for the financial year 2007
6. Resolution to add to Section 18 Para 1 (c) of the Charter 'long-term variable remuneration for the Supervisory Board' (Amendment of the Charter)
7. Resolution to add a new Para 6 'Electronic transmission of information to shareholders' to Section 21 (Amendment of the Charter)
8. Resolution for a new authorization to acquire and use own shares under Section 71 Para 1 No. 8 AktG, and to exclude the subscription right

Agenda

I. Agenda

1. Presentation of the adopted annual financial statements as per 31 December 2006, the management report, and the approved consolidated financial statements, group management report and the report of the Supervisory Board

2. Resolution on the appropriation of the balance-sheet profit for the financial year 2006

The profit for the financial year 2006 in the amount of € 103,564,082.75 results in a balance-sheet profit of € 54,300,000, taking account of the profit carried forward from the previous year in the amount of € 2,435,917.25 and of a transfer of € 51,700,000 to the other profit reserves. The Executive Board and the Supervisory Board propose that the disclosed balance-sheet profit of € 54,300,000 be carried forward on new account.

3. Resolution on formal approval of the activities of the Executive Board in the financial year 2006

The Supervisory Board and the Executive Board propose that the activities be formally approved.

4. Resolution on formal approval of the activities of the Supervisory Board in the financial year 2006

The Executive Board and the Supervisory Board propose that the activities be formally approved.

5. Election of the auditor for the financial year 2007

The Supervisory Board proposes that Pricewaterhouse-Coopers Aktiengesellschaft Wirtschaftsprüfungsgesell-schaft, Hanover, be elected auditors for the financial year 2007 and be instructed to audit and review the semi-annual financial report for the first half year 2007.

6. Resolution to add to Section 18 Para 1 (c) of the Charter 'long-term variable remuneration for the Supervisory Board' (Amendment of the Charter)

The Executive Board and the Supervisory Board propose that section 18 para 1(c) of the Charter be amended, that the new sentences 4 and 5 be added, and to newly word the provision as follows:

'(c) a remuneration reflecting the long-term success of the Company (long-term variable remuneration). Long-term variable remuneration shall comprise a base amount of € 20,000 per year and shall be granted for the current fiscal year – starting from fiscal year 2006. This base amount shall be due at the end of the third fiscal year following the granting and shall either be increased or reduced to the extent that the profit per share in the third fiscal year following the granting changes compared with the fiscal year for which the amount was granted. Any change of the profit per share by € 0.01 results in an increase or a reduction of the base amount by € 100. The amount to be paid out shall, however, in no case exceed 250% of the base amount.

Should a member of the Supervisory Board depart prior to expiry of the assessment period, the profit per share in the fiscal year of departure shall be the determining factor when calculating the long-term variable remuneration.'

The addition of the new sentence 4 is necessary to clarify the method of calculation for the determination of the amount to be paid. The new sentence 5 sets a limit for the amount to be paid out in the event of an extraordinary unforeseen development.

7. Resolution to add a new Para 6 'Electronic transmission of information to shareholders' to Section 21 (Amendment of the Charter)

Since the entry into force of the Transparency Directive Implementation Act ('TUG') in January 2007, the electronic transmission of information to shareholders pursuant to section 30b para 3 WpHG (Securities Trading Act) has been admissible only if the General Meeting agrees to this.

The inclusion of this authorization in the Charter of TUI AG secures the right in the future to pass on information to the shareholders by email. The amendment of the Charter changes nothing about the fact that the shareholders themselves must consent to this mode of transmission.

The Executive Board and the Supervisory Board propose that a new para 6 be added to section 21 of the Charter, worded as follows:

'(6) The Company may transmit information to shareholders by way of remote data transmission pursuant to section 30b para 3 no. 1 WpHG.'

8. Resolution for a new authorization to acquire and use own shares under Section 71 Para 1 No. 8 AktG, and to exclude the subscription right

To acquire its own shares, the Company needs special authorization from the General Meeting, unless the acquisition is expressly allowed by law. As the authorization given by the General Meeting on 10 May 2006 will expire on 9 November 2007, it is to be proposed to the General Meeting that the Company be again authorized to acquire its own shares.

The Executive Board and the Supervisory Board therefore propose that the following resolution be adopted:

a) TUI AG is authorized to acquire own shares with a volume of up to 10% of its current capital stock. The shares being acquired must at no time represent more than 10% of the capital stock together with the other own shares held by the Company or attributable to it pursuant to sections 71a et seq. AktG. The authorization must not be used for the purpose of trading in its own shares.

b) The authorization can be made use of entirely or partly, once or several times, in pursuit of one or several purposes by the Company, or by third parties for the account of the Company. The authorization shall be effective until 15 November 2008. This authorization replaces the authorization to acquire own shares granted by the General Meeting of TUI AG on 10 May 2006.

c) The acquisition is effective at the option of the Executive Board through the stock exchange or by means of a public offer to buy or by means of a public invitation to the shareholders to submit a sales offer.

- If the shares are acquired through the stock exchange, the consideration paid by the Company for the share (without ancillary acquisition costs) must not by more than 5% exceed or fall short of the price determined in the XETRA trading system (or a functionally comparable successor system) through the opening auction on the trading day.

- If the acquisition is made through a public purchase offer or a public invitation to submit a sales offer, the purchase price which is offered or the minimum and maximum amounts of the purchase price range per share (without ancillary acquisition costs) must not by more than 10% exceed or fall short of the average closing prices in the XETRA trading system (or a functionally comparable successor system) on the three trading days preceding the day of the publication of the offer or of the public invitation to submit a sales offer. If, after the publication of a public purchase offer or after the public invitation to submit a sales offer, significant deviations from the relevant price arise, the purchase offer or, as the case may be, the invitation to submit a sales offer can be adjusted. In this case, the average price on the three trading days before the public announcement of such an adjustment shall be relevant. The purchase offer or the invitation to submit a sales offer can be subject to further conditions. If the purchase offer is oversubscribed or, in the case of an invitation to submit a sales offer, not all offers among several equivalent offers can be accepted, the shares are to be allocated or the offers accepted on a pro rata basis. The terms of the purchase offer or of the invitation to submit a sales offer may provide for the preferential acceptance of a small number of up to 100 shares offered for sale per shareholder.

d) The Executive Board is authorized to use the shares of the Company acquired on the basis of this authorization for all purposes allowed by law, especially also for the following purposes:

aa) The shares can be called in, with the approval of the Supervisory Board, without any further resolutions being required by a General Meeting. They can also be called in through the simplified procedure without any capital reduction by means of an adjustment of the proportionate arithmetic amount of the other shares in the capital stock of the Company. The decision to call in the shares can be limited to a part of the acquired shares. If the shares are called in through the simplified proceedings, the Executive Board is authorized to adjust the number of the shares in the Charter.

bb) The shares can also be sold in other ways than through the stock exchange or through a public offering to all shareholders, if these shares are sold for cash payment at a price which does not fall far short of the stock exchange price of shares in the Company with identical features at the time of the sale. In this case, the number of shares to be sold together with the new shares that are issued on the basis of authorizations to increase the capital with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG or on the basis of a conditional capital pursuant to sections 221 para 4, 186 para 3 sentence 4 AktG for bonds with conversion or option rights or, as the case may be, conversion duties issued during the term of this authorization until it is made use of, must not exceed 10% in total of the capital stock at the time of this authorization or at the time at which it is made use of.

cc) The shares can, with the approval of the Supervisory Board, be sold for non-cash contributions, especially also in connection with the acquisition of undertakings, parts of undertakings, participations, or other assets, and in connection with mergers and acquisitions.

dd) The shares can also be used to fulfil conversion or option rights or for conversion obligations from convertible or warrant-linked bonds issued by the Company or its group member companies (or special dividend rights or dividend bonds with conversion rights, option rights or conversion obligations).

e) The authorization in d), bb) to dd) also comprises the use of shares in the Company which were acquired on the basis of section 71 d sentence 5 AktG.

f) The authorizations in d) can be made use of once or several times, partly or entirely, individually or jointly, the authorizations in d), bb) to dd) also through dependent undertakings or undertakings majority owned by the Company or by third parties acting for their account or for the account of the Company.

g) The shareholders' subscription right to these own shares is excluded insofar as these shares are used in accordance with the authorization in d), bb) to dd) above.

Report on Item 8 of the Agenda (Authorization to acquire and to use own shares)

The proposal in Item 8 of the Agenda provides for an authorization to acquire own shares pursuant to section 71 para 1 no. 8 AktG in the amount of up to 10% of the capital stock, limited to a period of 18 months.

TUI AG adopted a resolution at the Annual General Meeting of 10 May 2006 for an authorization to acquire own shares, limited to the time up to 9 November 2007. Because of the expiry of this authorization in the current financial year, this resolution including the authorization is to be annulled with effect from the entry into force of the new authorization to be granted at this Annual General Meeting.

In addition to an acquisition through the stock exchange, the Company is to be given the possibility to acquire own shares through a public purchase offer to be addressed to the shareholders of the Company or through the public invitation to the shareholders to submit an offer for the purchase of shares. The principle of equal treatment set out in the Stock Corporation Act must be observed. In the case of a public invitation to submit a sales offer, the addressees of the invitation can decide how many shares and – if a price range is fixed – at what price they wish to offer them to the Company. If a public purchase offer is oversubscribed or, in the case of an invitation to submit an offer for the purchase of shares, not all offers among several equivalent offers can be accepted, the shares are to be allocated on a pro-rata basis. However, it is to be possible to provide for the preferential acceptance of a small number or of small parts of offers up to a maximum of 100 shares. This possibility serves to avoid fractions in determining the quotas to be acquired as well as small remaining shareholdings, and thus to facilitate the technical handling. The purchase price which is offered or the minimum and maximum value of the purchase price range offered per share (without ancillary acquisition costs) must not by more than 10% exceed or fall short of the average closing price in XETRA trading (or a comparable follow-up system) on the three trading days preceding the day of the public announcement of the offer or, as the case may be, the public invitation to submit a sales offer. If a substantial deviation from the relevant price arises after the publication of a public purchase offer or after the public invitation to submit a sales offer, the purchase offer, or, as the case may be, the invitation to submit a sales offer can be adjusted. In this case the average price on the three trading days preceding the public announcement of a possible adjustment can be used. The purchase offer or, as the case may be, the invitation to submit a sales offer can provide for further terms to be applicable.

The own shares which are acquired may be used for all purposes admissible by law, in particular also the following:

The proposed resolution contains the authorization to sell the previously acquired own shares outside the stock exchange for cash payment with an exclusion of the subscription right. A precondition for this is that the shares are sold at a price which does not fall far short of the stock exchange price of shares in the Company with the same features at the time of the sale. This authorization makes use of the possibility to simplify the exclusion of subscription rights allowed under section 71 para 1 no. 8 AktG and, analogously, section 186 para 3 sentence 4 AktG. The shareholders' interest in dilution protection is taken account of through the prohibition of selling the shares for a price which falls far short of the relevant stock exchange price. The final determination of the sales price for the own shares is made just before the sale. The Executive Board will keep a possible mark-down from the stock exchange price as low as possible in accordance with the market conditions prevailing at the time of the placement. The mark-down from the stock exchange price at the time at which the authorization is made use of will in no case exceed 5% of the then current stock exchange price. The authorization applies subject to the proviso that the shares sold with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG must not exceed – in total – 10% of the capital stock, neither at the time of the entry into force of this authorization nor at the time of its exercise. This authorization is to be made use of only in such a way that the limit of 10% of the capital stock fixed in section 186 para 3 sentence 4 AktG must be observed in total, i.e. by inclusion of the possible exercise of the authorizations in section 4 para 7 and section 4 para 5 of the Charter. The shareholders in principle have the possibility to maintain their participation quota by purchasing TUI shares through the stock exchange. The authorization is in the interests of the Company because it provides a greater degree of flexibility. It makes it possible in particular to issue shares specifically to cooperation partners.

The sale of own shares can, with the approval of the Supervisory Board, also be made for contributions in kind with an exclusion of the shareholders' subscription

right. The Company is thereby enabled to offer own shares directly or indirectly as valuable consideration in connection with mergers or in connection with the acquisition of companies, parts of companies, participations or other assets (e.g. hotels, ships or aeroplanes). International competition and the globalization of the economy frequently require valuable consideration to be paid in such transactions in the form of shares. The authorization proposed here is intended to give the Company the necessary flexibility to quickly and flexibly benefit both nationally and internationally from opportunities which arise to acquire companies, parts of companies, participations or other assets. For this, the proposed exclusion of the subscription right is necessary. In determining the pricing ratios, the Executive Board will take care that the shareholders' interests are reasonably preserved. The Executive Board will, in determining the value of the shares granted as valuable consideration, orient itself by the stock exchange price for the TUI share. No formalistic orientation by a stock exchange price is intended, especially in order not to jeopardize negotiation results which have been achieved through fluctuations of the stock exchange price.

The authorization also provides for the own shares to be used, with an exclusion of the shareholders' subscription right, to fulfil conversion or subscription rights of holders of warrant-linked bonds or convertible bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion right, option right or conversion duty) issued by the Company or by its group members companies. It may be expedient to entirely or partly use own shares to fulfil the conversion rights instead of new shares from an increase in capital.

All of the above possible applications can be used not only with respect to shares acquired on the basis of this authorization. In contrast, the authorization also comprises shares which were acquired pursuant to section 71d sentence 5 AktG. It is advantageous and provides further flexibility to be able to utilize these own shares in the same way as the shares acquired on the basis of this authorization.

The own shares acquired on the basis of this authorization can, with the approval of the Supervisory Board, be called in by the Company without a new resolution of the General Meeting. In accordance with section 237 para 3 no. 3 AktG, the General Meeting of the Company can resolve upon the redemption of its fully paid-in no-par shares without requiring a reduction of the capital stock of the Company. The proposed authorization expressly provides for this alternative in addition to a redemption with a capital reduction. If own shares are redeemed without a capital reduction, the arithmetic share of the other no-par shares in the capital stock of the Company automatically increases. The Executive Board is therefore also to be authorized to make any necessary amendments of the Charter with respect to the number of no-par shares which may change through a redemption.

If the authorization is made use of, the Executive Board will report to the next General Meeting.

Participation

II. Participation in the General Meeting

According to section 21 of the Charter, the shareholders of the Company who, on the day of the General Meeting, are entered into the share register of the Company, and who register with their shares for the purpose of attending the General Meeting by the end of the registration period (9 May 2007, midnight (CEST)), have the right to participate in the General Meeting and to exercise the right to vote at the General Meeting.

Shareholders who are entered into the share register will receive a written invitation from us and can then register:

- **in writing at the following address**
  TUI Aktiengesellschaft
  Hauptversammlung 2007
  Aktionärsservice
  D-69975 Mannheim
  Germany

- **per telefax under number**
  +49 (0) 180 500 18 53

- **or electronically at the internet address**
  (from 16 April 2007)
  www.tui-group.com
  link 'Annual General Meeting 2007'

Shareholders of TUI AG or their representatives will have again the possibility this year to register electronically through the internet and to order accordingly entry tickets for the General Meeting or to grant power of attorney and give instructions to the voting trustees of the Company. This service will be available from 16 April 2007 under www.tui-group.com, link 'Annual General Meeting 2007'. The shareholder number and the individual access number necessary to access the personal internet service are indicated on the back of the above-mentioned personal letter.

Shareholders whose registration is received by the Company before

midnight (CEST), 9 May 2007

can grant power of attorney and give instructions to the voting trustees of the Company arriving at the address referred above up to

midnight (CEST), 15 May 2007,

and change the instructions or revoke the power of attorney. This applies also to powers of attorney and instructions given to the voting trustees of the Company before midnight (CEST), 9 May 2007.

Entry tickets can be ordered exclusively in the time up to

midnight (CEST), 9 May 2007.

Advice on Voting by Proxy

Shareholders who are entered into the share register and have registered their shares on time have the possibility to have their right to vote at the General Meeting exercised by a credit institution, a shareholders' association, the voting trustees chosen by the Company or – with written power of attorney – any other person of their choice.

If a credit institution is entered into the share register, it may exercise the right to vote for shares not belonging to it only on the basis of authority granted for this by a shareholder.

The shareholders of TUI AG are offered the possibility to have their voting rights exercised at the General Meeting by employees of the Company bound by instructions. The power of attorney and instructions for the voting trustees of the Company can be given in writing by means of the answer form, which is a part of this correspondence, per telefax as well as per internet by using the above referred addresses/ telefax numbers.

The voting trustees are obliged to vote in accordance with instructions given. Without any instructions, the power of attorney is invalid and the voting right will not be exercised. If instructions are not unmistakable, the voting trustees will abstain from voting on the items of the agenda concerned. The same applies in the event of unforeseen motions.

Details and forms for granting power of attorney and given instructions are available to our shareholders with sending this invitation.

Advice on Counter-Motions Pursuant to Section 126 Para 1 AktG

Counter-motions regarding proposals by the Executive Board and the Supervisory Board on a particular item on the agenda and nominations for the election of the auditor can be addressed to:

TUI Aktiengesellschaft
Gesamtvorstandssekretariat
Karl-Wiechert-Allee 4
D-30625 Hanover
Germany

Telefax: +49 (0) 511 5 66 - 19 96
E-Mail: gegenantraege.hv@tui.com

Motions and nominations for election addressed otherwise will not be taken into consideration for being made accessible pursuant to sections 126, 127 AktG. Motions and nominations for elections made by shareholders that are received by us no later than

midnight (CEST), Wednesday, 2 May 2007,

and that have to be made accessible will be published, including the shareholder's name, reasons, and a statement by management, if any, under the internet address

www.tui-group.com
link 'Annual General Meeting 2007'.

Berlin/Hanover, April 2007

2006 – A challenging year. Uneven trends in core businesses. Group earnings impacted by one-off effects. Considerable reduction in net debt.

2006 – at a glance

24
See Annual Report 2006 page 24

Uneven trends in core businesses

The TUI Group's performance in the 2006 financial year was characterised by uneven trends in tourism and shipping, its two core businesses. Earnings in both divisions were impacted by special effects of current restructuring operations, offset by one-off income from divestments of shareholdings.

Turnover and earnings in core businesses

At € 14.1 billion, turnover in the tourism division matched 2005 levels. On the other hand, earnings adjusted for one-off effects (underlying EBITA by division) rose by 9.5% to € 401 million. The shipping division increased its turnover by 63.1% to € 6.3 billion due to the first-time inclusion of CP Ships for a full financial year. The operative integration of CP Ships, effected in the 2006 financial year, caused high one-off restructuring expenses. Adjusted for the one-off expenses from the integration process, earnings by the shipping division were slightly positive by € 8 million despite the difficult worldwide market conditions in 2006.

Turnover and earnings by divisions

At € 20.9 billion, turnover by the divisions, comprising the core businesses tourism and shipping but also central operations and discontinuing operations, grew 6.6% year-on-year. Earnings adjusted for one-off effects (underlying EBITA by divisions) totalled € 369 million, down 47.9% year-on-year.

Group earnings impacted by one-off effects

In the 2006 financial year, Group earnings totalled € - 847 million, falling considerably short of 2005 levels. Earnings were impacted by the restructuring expenses, the market-induced weak performance in shipping and impairments of goodwill required in tourism. These impairments related in particular to goodwill in the UK, Ireland and France. Due to the development in these markets, the expected future cash flow had to be reduced so that the earnings target for the entire tourism division was adjusted accordingly. Total impairments of goodwill required amounted to € 710 million.

Substantial reduction in net debt

In the 2006 financial year, the TUI Group's net debt decreased by € 0.6 billion to € 3.2 billion as at the balance sheet date. The reduction in debt was largely attributable to the successful completion of the divestment of the remaining industrial shareholdings (US steel service companies and Wolf GmbH) as well as the divestment of the business travel activities in the tourism division. In addition, the first of the measures, announced in

December 2006, to bring net debt further down could be realised: Seven container ships and a container pool previously owned by CP Ships were sold.

Successful integration of CP Ships
The operative integration of the container shipping company CP Ships, acquired in October 2005, in Hapag-Lloyd was fully completed – significantly faster than expected – in the 2006 financial year. The centrepiece of integration activities was the expansion of Hapag Lloyd's organisational structure and information technology to include the new sites. As early as at the end of the third quarter of 2006, all former CP Ships services had been integrated into Hapag-Lloyd's structure and are now operated under the brand name Hapag-Lloyd.

Completion of Group realignment
With the divestment of the US steel service companies of Preussag North America, Inc. (PNA) to financial investor Platinum Equity in May 2006 and the divestment of the majority shareholding in Wolf GmbH, a heating and air ventilation company, to Centrotec Sustainable AG in October 2006, the TUI Group sold its last remaining industrial shareholdings.

Turnover and earnings by divisions

34
See Annual Report 2006 page 34

2006 was a challenging year for the TUI Group. Both core businesses – tourism and shipping – were impacted by one-off effects concerning ongoing restructuring programmes according to IAS 37 and other one-off items. Against this gains on disposals were generated from divestments of shareholdings. In order to ensure a transparent presentation of the development of earnings by divisions, the comments presented below comprise a reconciliation to underlying earnings (underlying EBITA by divisions).

Adjusted for these effects, tourism increased its earnings level year-on-year. The overall positive trend was curbed by the poor performance of the French market and the increasingly difficult competitive conditions in the British and Irish markets.

The development of earnings of the shipping division was characterised by the development of freight rates in the cyclical container shipping. Earnings were determined by the high average bunker costs and the intensification of competition, which went hand in hand with a decline in freight rates.

Moreover, high integration costs associated with the integration of CP Ships, acquired in October 2005, were incurred in the completed financial year. Adjusted for these effects, shipping achieved a slightly positive result and confirmed its high productivity level in comparison with its competitors.

Overall, earnings by tourism did not match the expectations of the Executive Board while the market-induced earnings level posted by the shipping division fell considerably short of expectations.

Development of turnover by the divisions

Turnover by divisions

€ million	2006	2005	Var. %
Tourism	14,083.9	14,096.5	- 0.1
Central Europe	5,803.1	5,749.6	+ 0.9
Northern Europe	4,794.4	4,809.2	- 0.3
Western Europe	2,815.2	2,753.7	+ 2.2
Destinations	599.0	532.5	+ 12.5
Other tourism	72.2	251.5	- 71.3
Shipping	6,254.0	3,834.2	+ 63.1
Central operations	176.7	269.6	- 34.5
Continuing operations	**20,514.6**	**18,200.3**	**+ 12.7**
Trading	401.0	1,002.9	- 60.0
Special logistics	–	415.4	–
Discontinuing operations	**401.0**	**1,418.3**	**- 71.7**
Turnover by divisions	**20,915.6**	**19,618.6**	**+ 6.6**

Continuing operations

Turnover by the continuing operations comprised the core businesses tourism and shipping as well as central operations.

At € 14.1 billion, turnover in the tourism division was on previous year's level despite the divestments of the business travel activities as well as the majority interest in TUI InfoTec both shown in the Other tourism sector. Adjusted for the development of turnover in Other tourism, turnover grew by 1.2%. Significant year-on-year turnover growth was achieved in the Western Europe sector in source markets Netherlands and Belgium. The destinations sector also managed to increase its turnover both in the agency and hotel business.

The shipping division increased its turnover by 63.1% to € 6.3 billion. Growth was mainly driven by the additional turnover volume of CP Ships, the container shipping line acquired in October 2005.

At € 177 million, central operations posted a 34.5% year-on-year decline in turnover in the 2006 financial year. This was due to a decrease in turnover by the real estate companies due to the divestment of parts of the property portfolio already effected at the end of the 2005 financial year. Another reason for the decline in turnover was the divestment of the majority interest in Wolf GmbH, a heating and air conditioning company, in October 2006.

Discontinuing operations

The discontinuing operations reported turnover of € 401 million, down by 71.7% year-on-year. In the 2006 financial year, discontinuing operations only comprised the trading sector. The divestment of the trading activities in May 2006 and of the special logistics operations in the 2005 financial year caused a corresponding year-on-year reduction in turnover.

Turnover by divisions

At € 20.9 billion, total turnover of the TUI Group's divisions in the 2006 financial year climbed by 6.6% year-on-year. Since the shipping division posted a consolidation-related increase in turnover, it accounted for a higher proportion of turnover at 29.9% (previous year: 19.5%). Tourism accounted for 67.3% of turnover (previous year: 71.9%). The proportion

of turnover of central operations and discontinuing operations declined to 2.8% (previous year: 8.6%) due to the divestments.

Development of earnings by the divisions

Earnings by divisions (EBITA)

€ million	2006	2005	Var. %
Tourism	393.7	365.2	+ 7.8
Central Europe	89.5	65.9	+ 35.8
Northern Europe	81.0	102.9	- 21.3
Western Europe	- 53.7	- 2.6	n. m.
Destinations	136.1	185.2	- 26.5
Other tourism	140.8	13.8	n. m.
Shipping	- 106.2	319.3	n. m.
Central operations	- 84.7	- 94.0	+ 9.9
Continuing operations	**202.8**	**590.5**	**- 65.7**
Trading	17.1	67.3	- 74.6
Special logistics	5.3	158.6	- 96.7
Divestments	7.2	34.0	- 78.8
Discontinuing operations	**29.6**	**259.9**	**- 88.6**
Earnings by divisions (EBITA)	**232.4**	**850.4**	**- 72.7**

Continuing operations

Earnings by the continuing operations tourism and shipping as well as central operations (before interest, taxes and amortisation of goodwill) declined by 65.7% to € 203 million in the 2006 financial year. Earnings were affected by one-off effects, above all the restructuring expenses and other one-off items in tourism and shipping as well as gains on disposals in connection with the divestments.

Underlying EBITA by division: Tourism

€ million	2006	2005	Var. %
EBITA by division	**393.7**	**365.2**	**+ 7.8**
Gains on disposals	*- 153.3*	*- 13.1*	
Restructuring expenses	*+ 100.6*	*+ 18.3*	
Other one-off items	*+ 59.5*	*- 4.6*	
Underlying EBITA by division	**400.5**	**365.8**	**+ 9.5**

At € 394 million, earnings by tourism climbed 7.8% year-on-year. Earnings comprised gains on disposals of € 153 million which arose in the Other tourism sector due to the divestment of the business travel activities (€ 151 million) and the share in TUI InfoTec (€ - 11 million) and the Western Europe sector due to the divestment of the Dutch specialist tour operators (€ 13 million). On the other hand, restructuring expenses of € 101 million were incurred, mainly implemented in the Central, Northern and Western Europe sectors. Furthermore other one-off items of € 60 million had to be considered. These comprised in particular impairments on hotel resorts in the Turkey destination (€ 30 million), one-off effects from a litigation in connection with a leasing contract for a holiday club resort (€ 6 million), expenses for the Boing 747-fleet renewal programme at Corsair (€ 12 million) and further one-off effects from restructuring in the Northern and Western Europe sector (€ 12 million). The financial year 2005 included restructuring expenses in the Northern Europe sector and income from divestments of smaller shareholdings and a small income from other one-off items. In total, underlying earnings rose by 9.5% to € 401 million year-on-year.

Underlying EBITA by division: Shipping

€ million	2006	2005	Var. %
EBITA by division	**- 106.2**	**319.3**	**n. m.**
Gains on disposals	*-*	*-*	
Restructuring expenses	*+ 66.4*	*-*	
Other one-off items	*+ 47.4*	*+ 3.2*	
Underlying EBITA by division	**7.6**	**322.5**	**- 97.6**

The shipping division posted earnings of € - 106 million, a considerable decline on 2005 earnings of € 319 million. The negative earnings trend was attributable to the difficult market environment in the container shipping industry in the 2006 financial year. Earnings were impacted by the decline in freight rates in almost all trade lanes in the course of the year, accompanied by high fuel costs. In addition, considerable one-off restructuring expenses (€ 66 million) and the impact from IT system changes and the closure of agencies (€ 47 million) were incurred in connection with the integration of CP Ships. Overall integration costs amounted to € 114 million in 2006. Adjusted for the one-off effects earnings for the shipping division were slightly positive.

Underlying EBITA by division: Central operations

€ million	2006	2005	Var. %
Earnings by the holdings	- 179.7	- 154.6	- 16.2
Cost of corporate centre functions of TUI AG and the interim holdings	+ 104.2	- 109.7	+ 5.0
Other expenses and income	75.5	- 44.9	- 68.2
Other operating areas	95.0	60.6	+ 56.8

Revaluation of conversion rights	*- 15.0*	*+ 2.2*	
Underlying EBITA by division	**- 69.4**	**- 91.8**	**+ 24.4**

Earnings by central operations comprised TUI AG's corporate centre functions and the interim holdings and other expenses and income as well as other operating areas comprising the Group's real estate companies and the remaining industrial operations.

Earnings by central operations totalled € - 85 million, an increase of 9.9% year-on-year. The cost of TUI AG's corporate centre functions and the interim holdings declined by 5.0% to € - 104 million as the consultation costs for the acquisitions and financing measures included in 2005 earnings were no longer incurred. The amount of other expenses and income, which primarily comprised the valuation of assets and liabilities, stood at € - 76 million (previous year: € - 45 million). This was due to a non liquidity effective foreign currency exchange loss caused by capital adjustments at subsidiaries (€ 65 million). Furthermore they included earnings from the revaluation of the conversion options from the 2003 convertible bond of € 15 million (previous year: € - 2 million).

Earnings by the other operating areas grew by 56.8% to € 95 million. They comprised income from a divestment in the real estate sector (Schacht Konrad) and the gain on the disposal from the divestment of the interest in Wolf GmbH in the fourth quarter of 2006 (€ 35 million), the Group's last remaining industrial activity.

Adjusted for the net result of disposals, foreign currency exchange loss due to capital adjustments and earning effects from the revaluation of the conversion options included in earnings, earnings by central operations increased by 24.4% to € - 69 million.

Discontinuing operations

Earnings by discontinuing operations declined to € 30 million (previous year: € 260 million). This earnings trend was due to the divestment of the steel trading activities in May 2006 and the divestments of the special logistics operations in the 2005 financial year. Earnings comprised the net result of disposals from the divestment of steel trading operations as well as subsequent income from divestments already effected in the previous years. These effects almost balanced each other out.

Underlying EBITA by division: Group

€ million	2006	2005	Var. %

Underlying EBITA by divisions	**368.5**	**707.1**	**- 47.9**

Earnings by divisions Group

Overall, the TUI Group reported earnings by divisions (before taxes and amortisation of goodwill) of € 232 million in the 2006 financial year, a decline of 72.7% year-on-year. Adjusted for one-off effects, earnings totalled € 369 million.

62

See Annual Report 2006 page 62

Development of Group earnings

The development of the consolidated profit and loss statement was determined by the business trend in tourism and shipping, the Group's core businesses, and the first-time consolidation of CP Ships for a full financial year. Group earnings were additionally impacted by the impairments of goodwill effected in 2006 for the activities in the British, Irish and French markets as well as the hotel company Magic Life.

The preliminary purchase price allocation in the 2005 consolidated financial statements – due to the acquisition of CP Ships – was finalised in October 2006, resulting in minor effects on the Group's profit and loss statement. In order to enhance the comparability of figures, the figures for 2005 were restated accordingly. A corresponding explanation and reconciliation is provided in the section on 'Accounting principles' in the notes on the consolidated financial statements.

Consolidated profit and loss statement

€ million	2006	2005	Var. %
Turnover	20,514.6	18,201.3	+ 12.7
Other income	749.0	603.8	+ 24.0
Change in inventories and other own work capitalised	+ 10.7	- 3.2	n. m.

Earnings before taxes	**- 736.1**	**386.9**	**n. m.**
Income taxes	127.6	86.8	+ 47.0
Result from continuing operations	**- 863.7**	**300.1**	**n. m.**
Result from discontinuing operations	17.1	196.2	- 91.3
Group profit for the year	**- 846.6**	**496.3**	**n. m.**
- attributable to shareholders of TUI AG	- 893.3	458.0	n. m.
- minority interests	46.7	38.3	+ 21.9

Group profit for the year

At € - 847 million, Group earnings were clearly negative, primarily due to the impairments of goodwill. Disregarding this factor, earnings still showed a negative variance which resulted from the cyclical impact in the shipping division and the decline in earnings from discontinuing operations, while the tourism division recorded a slight increase in earnings.

Earnings per share

The interest in Group profit for the year attributable to TUI AG shareholders (after deduction of minority interests and dividends on the hybrid capital) declined to € - 919 million. In relation to the weighted average number of shares of 250,742,835 units, basic earnings per share amounted to € - 3.66 (previous year: € 2.29). Due to the negative Group profit for the convertible bond issued in November 2003, there was no dilution effect to consider. In the previous year, the diluted earnings per share stood at € 2.17.

67
See Annual Report 2006 page 67

Asset situation of the Group

The Group's balance sheet total dropped by 15.4% to € 13,014 million. This decline was mainly attributable to changes in the group of consolidated companies and impairments of goodwill. The changes in consolidation were largely caused by the disposals in connection with the divestment of steel trading in the US, business travel activities, Wolf GmbH and TUI InfoTec GmbH.

In the course of the final purchase price allocation in October 2006 – in the context with the acquisition of CP Ships in the fall 2005 – minor effects on the Group's balance sheet items arose. In order to enhance the comparability of figures, the figures for the 2005 financial year were restated. A corresponding explanation and reconciliation is provided in the section on 'Accounting principles' in the notes on the consolidated financial statements.

Development of the Group's asset structure

€ million	31 Dec 2006	31 Dec 2005	Var. %
Fixed assets	9,506.1	11,167.7	- 14.9
Non-current receivables	635.1	715.4	- 11.2
Non-current assets	10,141.2	11,883.1	- 14.7
Inventories	129.3	150.4	- 14.0
Current receivables	1,883.4	2,027.0	- 7.1
Cash and cash equivalents	688.7	599.2	+ 14.9
Assets held for sale	171.4	714.7	- 76.0
Current assets	2,872.8	3,491.3	- 17.7
Assets	13,014.0	15,374.4	- 15.4
Equity	3,010.3	4,366.8	- 31.1
Liabilities	10,003.7	11,007.6	- 9.1
Equity and liabilities	13,014.0	15,374.4	- 15.4

Structural ratios

Vertical structures

Non-current assets accounted for 77.9% of total assets, compared with 77.3% in the previous year. Fixed assets totalled 93.7% of non-current assets; they declined by 14.9% to € 9,506 million, above all due to the impairment of goodwill. The capitalisation ratio (ratio of fixed assets to total assets) rose slightly to 73.0%, following 72.6% in 2005.

Current assets accounted for 22.1% of total assets, compared with 22.7% in 2005. The Group's liquid funds were managed with a view to securing the Group's current financial requirements and optimising its interest structures. At the balance sheet date, they totalled € 689 million and were 14.9% up year-on-year. Liquid funds accounted for 5.3% of total assets, compared with 3.9% in 2005.

Horizontal structures

At the balance sheet date, the ratio of equity to non-current assets was 29.7%, compared with 36.7% in 2005. The ratio of equity to fixed assets was 31.7%, following 39.1% in the previous year. The ratio of equity plus non-current financial liabilities to fixed assets was 68.2%, compared with 67.9% in 2005.

The Group's financial position

Development of the Group's capital structure

72

Group's capital structure

€ million	31 Dec 2006	31 Dec 2005	Var. %
Non-current assets	10,141.2	11,883.1	- 14.7
Current assets	2,872.8	3,491.3	- 17.7
Assets	13,014.0	15,374.4	- 15.4
Subscribed capital	641.7	641.0	+ 0.1
Reserves including net profit available for distribution	1,798.3	3,168.8	- 43.2
Hybrid capital	294.8	294.8	–
Minority interests	275.5	262.2	+ 5.1
Equity	3,010.3	4,366.8	- 31.1
Non-current provisions	1,728.7	2,002.5	- 13.7
Current provisions	692.7	653.6	+ 6.0
Provisions	2,421.4	2,656.1	- 8.8
Non-current financial liabilities	3,477.6	3,213.9	+ 8.2
Current financial liabilities	422.0	1,144.3	- 63.1
Financial liabilities	3,899.6	4,358.2	- 10.5
Other non-current liabilities	55.3	71.5	- 22.7
Other current liabilities	3,627.4	3,921.8	- 7.5
Other liabilities	3,682.7	3,993.3	- 7.8
Liabilities	13,014.0	15,374.4	- 15.4

The impairments of goodwill effected in the financial year under review impacted the TUI Group's capital structures. Overall, non-current capital declined in absolute terms by 14.3% to € 8,272 million but rose in relation to the balance sheet total by 0.8 percentage points to 63.6%. The equity ratio declined to 23.1%, down from 28.4% in 2005. Equity and non-current financial liabilities accounted for 49.9% of the balance sheet total at the balance sheet date, following 49.3% in 2005. The gearing, i.e. the ratio of financial liabilities to equity, declined to 129.5%, having accounted for 99.8% in 2005.

Liquidity analysis

Liquidity reserve

In the 2006 financial year, the TUI Group's solvency was secured any time by means of cash inflows from operating activities as well as bilateral and syndicated credit agreements with banks.

In December 2005, TUI AG concluded an agreement on a syndicated credit line (multicurrency revolving credit facility) totalling € 1.75 billion. It had an original maturity of three years and two optional extensions for one year each. In October 2006, the first extension option was exercised. In the course of the new programme to reduce tied-up capital, the first measures (divestment of Montreal Gateway Terminals and of vessels and containers) are implemented. Therefore the syndicated credit-line could be reduced to € 1.0 billion in January 2007. In addition, the Group had bilateral credit lines with banks totalling € 0.7 billion. At the balance sheet date, a total of € 0.1 billion of the credit lines was utilised. In addition, cash and cash equivalents of € 0.7 billion were held at the balance sheet date. The TUI Group's cash reserve thus totalled € 2.3 billion.

Summary cash flow statement

€ million	2006	2005	Var. %
Net cash inflow from operating activities	+ 466.5	+ 964.6	- 51.6
Net cash inflow/outflow from investing activities	+ 639.6	- 2,152.8	n. m.
Net cash inflow/outflow from financing activities	- 1,052.7	+ 1,306.5	n. m.
Change in cash and cash equivalents	+ 52.4	+ 118.3	- 55.7

Net cash inflow from operating activities

The net cash inflow from operating activities of € 467 million resulted from Group earnings, which totalled € - 599 million, adjusted for depreciation and amortisation, interest expenses and gains on the disposal of fixed assets. The major contribution came from the operating result in the tourism business.

Net cash inflow from investing activities

The net cash inflow from investing activities totalled € 639 million. Cash outflows of € 746 million primarily resulted from the investment volume in tourism and shipping. Cash inflows mainly resulted from the disposal of property, plant and equipment totalling € 610 million and of consolidated companies and financial assets totalling € 775 million, in particular the divestment of the business travel activities and the remaining industry shareholdings.

Net cash outflow from financing activities

The net cash outflow from financing activities amounted to € 1,053 million. Major items were the cash inflow from the private placements issued in October and November 2006 totalling € 400 million. Interest payments caused a total cash outflow of € 240 million, down 24.2% on the previous year. The redemption of bonds and financial debt resulted in payments of € 1,223 million, down 23.3% on the previous year.

Development of cash and cash equivalents

€ million	2006	2005	Var. %
Cash and cash equivalents at the beginning of the period	607.5	481.1	+ 26.3
Changes due to changes in consolidation	+ 25.7	- 2.0	n. m.
Changes due to changes in exchange rates	+ 3.1	+ 10.1	+ 69.3
Cash changes	+ 52.4	+ 118.3	- 55.7
Cash and cash equivalents at the end of the period	688.7	607.5	+ 13.4

Financial position of TUI AG (abbreviated)

The annual financial statements of TUI AG for the 2006 financial year were prepared in accordance with the provisions of the German Commercial Code and audited by the auditors, PricewaterhouseCoopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover. They were published in the Federal Gazette and deposited at the commercial registers of the district courts of Berlin-Charlottenburg, HRB 321, and Hanover, HRB 6580. They have been made permanently available on the internet at www.tui-group.com and may be requested in print from TUI AG.

Abbreviated balance sheet of TUI AG (according to HGB)

€ million	31 Dec 2006	31 Dec 2005	Var. %

Write-down of investments	2,549.0	1,706.4	+ 49.2
Interest result	- 183.2	- 197.8	+ 5.0
Profit on ordinary activities	**107.6**	**380.6**	**- 71.7**
Taxes	4.0	- 9.7	n. m.
Net profit for the year	**103.6**	**390.3**	**- 73.5**

Profit for the year

For the 2006 financial year, TUI AG posted a net profit for the year of € 104 million. The 73.5% year-on-year decline was mainly attributable to the decline in income from investments of operative companies, in particular due to the business trend in shipping. Taking account of an amount of € 2 million profit carried forward and the donation of revenue reserve of € 52 million, profit available for distribution amounted to € 54 million, which should be carried forward to new account.

82
See Annual Report 2006 page 82

Report on Subsequent Events

After the completion of the 2006 financial year, there was an event of special relevance to the TUI Group.

Transaction

On 22 February 2007, CP Ships Limited made a disposal agreement about the essential assets of Montreal Gateway Terminals to Montreal Gateway Terminals Limited Partnership, a company specifically founded by Morgan Stanley Infrastructure Partners for this purpose. Montreal Gateway Terminals had been part of the business of CP Ships, acquired in 2005. Montreal Gateway Terminals is the second largest container terminal in Canada and the third largest terminal on the eastern coast of North America. This divestment was effected in the framework of the reduction in tied-up capital announced by TUI AG.

Montreal Gateway Terminals Limited Partnership acquired the container terminal business by means of an asset deal. TUI continues to hold a 20% interest in the new Montreal Gateway Terminals Limited Partnership via CP Ships Limited. The purchase price for the transaction was € 300 million. Hapag-Lloyd remains an important customer with a long-term terminal contract.

Economic effects

In the 2006 financial year, Montreal Gateway Terminals contributed € 92 million to Group turnover. This amount was shown under Shipping in the segment report. Earnings before interest, taxes and amortisation of goodwill (EBITA) totalled € 15 million.

101
See Annual Report 2006 page 101

Report on Expected Developments

Macroeconomic situation

Overall, the global economic growth observed in 2006 will continue in 2007 and 2008. However, economists expect the growth momentum to slow down slightly. The International Monetary Fund (IMF) expects global gross domestic product to account for 4.9% in 2007, a decline of 0.2 percentage points on 2006 (IMF, September 2006). High average crude oil prices and potentially increasing inflation trends in the industrialised countries as well as an associated increase in interest rate levels will remain some of the key risks for the development of the world economy. Although global economic growth will reduce slightly, the forthcoming periods are expected to show robust growth compared with the growth trend of the past few years.

Tourism

Turnover

The ongoing enlargement of the range of innovative products in the package tour market and the expansion of the modular tour segment are expected to generate volume growth, which in turn will create turnover growth in the tourism division. Based on turnover of around € 14 billion in the 2006 financial year, turnover growth to up to € 15 billion is targeted for the 2007 financial year. Here, too, the Central Europe sector is expected to grow above average, while the Northern Europe sector in particular will grow less strongly, in line with its volume growth.

Earnings

The earnings trend (adjusted earnings before interest, taxes and amortisation of goodwill, adjusted EBITA) for 2007 differs between the individual sectors of the tourism division. Earnings in the Central Europe sector are expected to benefit from the strong expansion of the new business segments and thus match the good 2006 level. The Northern Europe sector will see, in a changed competitive environment, a stabilization of earnings due to the restructuring measures launched in the UK and Ireland in the previous year. In the Nordic countries, the positive earnings trend is expected to continue. The Western Europe sector anticipates a positive overall profit contribution. Its earnings will only slightly be impacted by the difficult market environment in France. In the destinations sector, earnings are expected to rise, primarily due to the profitable growth in the hotel portfolio.

Earnings target for 2008

The strategic initiatives launched in the framework of the structural market changes in tourism aim to achieve a sustainable increase in earnings by the tourism division. The action programme comprises five key initiatives:

- **Flight operations:** Medium-term pooling of the TUI Group's European flight operations under the new brand and distribution platform TUIfly.com.
- **Distribution:** Expansion of web-based sales of tours and development of the TUIfly.com airline brand into an international travel platform
- **Cruise:** Entry into the growth-driven high-volume premium business of the German cruise market

- **Hotel companies:** Profitable growth through ongoing selective expansion of the Group's hotel portfolio
- **Cost structures:** Sustainable improvement in cost structures by means of a reduction in the cost of materials and personnel costs in tourism of € 250 million

Taking account of a margin risk due to the intensification of competition and the increase in crude oil prices – in particular the development of aircraft fuel prices – TUI has established an earnings target range of € 450 to 550 million for 2008.

Shipping

Turnover

Against the background of the expected development of transport volumes and the stabilisation of average freight rates, the shipping division will achieve an increase in turnover. Based on turnover in the 2006 financial year of € 6.3 billion, an increase to just under € 7 billion will be possible in the 2007 financial year.

Earnings

Following the difficult year 2006 for worldwide container shipping operations, TUI expects to be able to generate a significantly positive earnings contribution (adjusted earnings before interest, taxes and amortisation of goodwill, adjusted EBITA by divisions) in the shipping division. The development of earnings – before special effects from the integration of CP Ships in 2006 – was primarily driven by the realisation of synergies from the completion of the operating integration process. Most of these synergies related to cost synergies, so that a significantly positive profit contribution is expected even if the weak market conditions of 2006 should continue.

Earnings target for 2008

By leveraging in 2008 the full synergy potential of € 220 million from the integration of CP Ships and through achieving the expected volume growth and the recovery of freight rates levels, TUI has an earnings target range of € 400 to 500 million for the year 2008.

TUI Group

Based on the expected increase in turnover in tourism and shipping consolidated turnover will rise from € 20 billion, the turnover generated in 2005, to just under € 22 billion.

Expected overall development

Overall, the macroeconomic environment is favourable for the TUI Group's activities in the 2007 financial year. This will create opportunities for further growth and potential to increase earnings. The consistent implementation of our action programme in tourism and the realisation of synergies from the integration of CP Chips into the shipping divisions with at the same time a reduction in central costs, will create a considerable improvement in consolidated earnings. The measures to reduce our capital employed already implemented or planned for the future will further enhance the Group's solid financing structure.

Forward-looking statements

The annual report, in particular the report on expected developments included in the management report, includes various forecasts and expectations as well as statements relating to the future development of the TUI Group and TUI AG. These statements are based on assumptions and estimates and may entail known and unknown risks and uncertainties. Actual development and results as well as the financial and asset situation may therefore differ substantially from the expectations and assumptions made. This may be due to market fluctuations, the development of world market prices for commodities, of financial markets and exchange rates, amendments to national and international legislation and provisions or fundamental changes in the economic and political environment. TUI does not intend to and does not undertake an obligation to update or revise any forward-looking statements to adapt them to events or developments after the publication of this annual report.

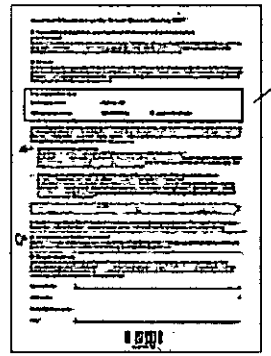
40 Guidelines for the AGM



On the following pages you will find tips for registration and voting per internet. Additionally we compiled detailed maps showing you how to get to the venue by car or public transport as well as the local facilities. Our guidelines for the Annual General Meeting will also answer many questions you may have in the run-up to the event.

Annual General Meeting online All information on the AGM at one internet site

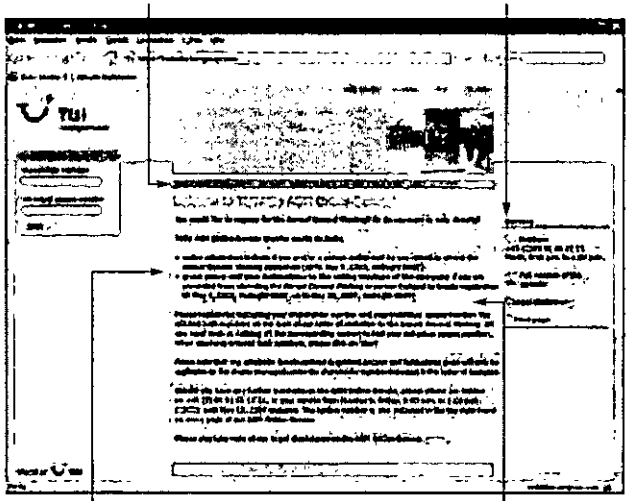
Would you like to check out the agenda online, order documents from TUI AG, print out the directions or use our AGM Online-Service for registration or order of admission tickets per internet or use one of the many other options available – you can do all this on our homepage: www.tui-group.com. Just follow the instructions below:

Visit our homepage at
www.tui-group.com
Full details on the Annual General Meeting you will find under 'Annual General Meeting 2007'.

You will find all the information you need to log in on the internet on the **back of your letter of invitation:**

- your **shareholder number** and
- your individual secret **access number**, which you can see upon rubbing off the relevant section.

AGM Online-Service Ordering admission tickets, grant proxy and give instructions



Your registration data

Shareholder number: xxxxxxxxx

Individual access number: ◀ please rub off here!

Our **guide** – so that you always know exactly where you are.

Our **service offer**: The hotline number always at hand, if you need help; print function on all sites.

Ordering admission tickets

- If you want to attend in person.
- If you want to bring someone along.
- If you want to send a representative.

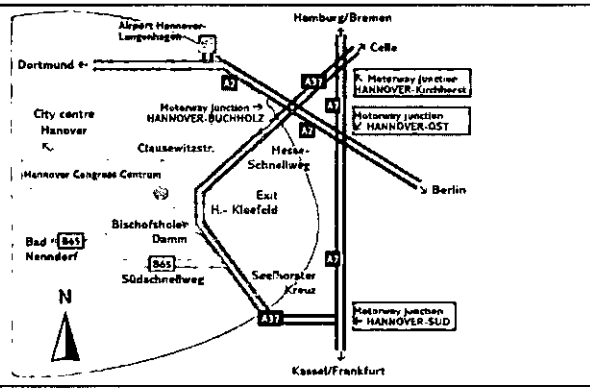
Grant proxy and give instructions

You can authorise one of the voting trustees of the Company, who will vote in your place according to your instructions.

Directions How to get to the Venue

By car

From the north



Exit the motorway A7 at junction Hannover-Kirchhorst, follow the motorway A37/Messeschnellweg. Turn right at the exit Hannover-Kleefeld, turn right again at the first traffic lights into Clausewitzstraße.
To the car park: Schackstraße

From the south

Follow the motorway A7 to Hannover-Süd. Exit the A7 and follow the A37/Messeschnellweg. Turn left at the exit Hannover-Kleefeld, turn right at the first traffic lights into Clausewitzstraße.
To the car park: Schackstraße.

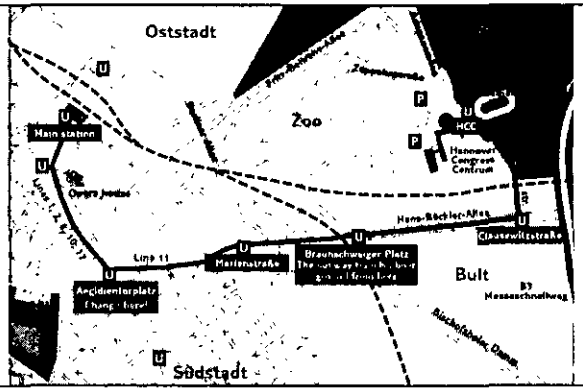
Hanover and its surrounding areas

Hannover Congress Centrum
Theodor-Heuss-Platz 1-3
30175 Hanover
Germany

From the east

Follow the motorway A2 right across junction Hannover-Ost up to junction Hannover-Buchholz. Exit the A2 and follow the motorway A37/Messeschnellweg. Turn right at the exit Hannover-Kleefeld, turn right again at the first traffic lights into Clausewitzstraße.
To the car park: Schackstraße.

From the west



Follow the motorway A2 to the junction Hannover-Buchholz. Exit the A2 and follow the motorway A37/Messeschnellweg. Turn right at the exit Hannover-Kleefeld, turn right again at the first traffic lights into Clausewitzstraße.
To the car park: Schackstraße.

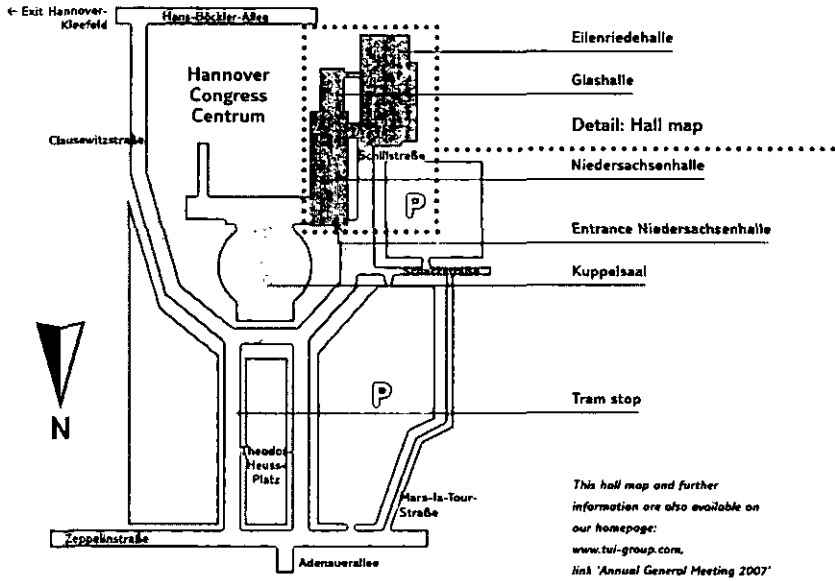
By public transport

GVH

If you have ordered an admission ticket, you will receive a special ticket with your mail which entitles you to use the public transport in Hanover (in the area of the GVH) free of charge.

Hanover city

From Hanover main station
take the bus lines 128 or 134 towards Peiner Straße directly to Hannover Congress Centrum. The trip will take approx. 10 minutes



Or: by the tram lines
1 (direction Laatzen/Sarstedt)
2 (direction Rethen)
8 (direction Messe/Nord)
10 or 17 (both direction Aegidientorplatz) to Aegidientorplatz. Change for line 11 (direction Zoo) to Hannover Congress Centrum. The trip will take approx. 14 minutes.

From Hanover airport
take the S-Bahn S5 to Hauptbahnhof, there the public transport as described adjoining directly to Hannover Congress Centrum. The trip will take approx. 34 minutes.

Schedules are available at www.efa.de

Map of Meeting Halls

Guidelines for the AGM

Accompanying person
If you intend to register a person accompanying you and share the voting rights out evenly across the admission tickets ordered, you may complete item 1 'Ordering admission tickets' on the enclosed sheet or use our AGM Online-Service on the internet. (For more detailed information please go to pages 34/35 in this brochure or go to www.tui-group.com, link 'Annual General Meeting 2007').

Admission
The AGM will start at 10:30 a.m. (CEST). The doors of the Hannover Congress Centrum will be opened at 9:00 a.m. We would recommend you to arrive as early as possible to avoid waiting times at the registration desks.

Annual Report
You will receive a copy of the Annual Report 2006 in the glass corridor right in front of the assembly hall (cf. hall map on page 39).

Catering
Snacks are available at any time. The lunch buffet will open at noon.

Cloakroom
You may leave your coat and any personal belongings or luggage at the cloakroom free of charge.

Information stall
If you have any questions concerning the meeting, please contact the information desk in the lobby (cf. hall map on page 39).

Internet access
Several terminals have been installed in the lobby.

Investor Relations staff
The Investor Relations staff will be glad to deal with any questions you may have concerning the share at a separate desk (cf. hall map on page 39).

Laptops
No power grid connections are available at the seats in the assembly hall. However, you may use your laptop if you want to take notes during the meeting.

Leaving the meeting
In order to be able to keep the attendance figures updated until the final vote, we would request shareholders or shareholder proxies wishing to leave the assembly hall prior to the end of the meeting to either submit their voting card block to the control staff at the exit or prepare and hand in a proxy to a shareholder, shareholder representative or voting trustees of the company present at the meeting by means of a proxy.

Mobile phones
You are free to bring your mobile phone. However, the chairman of the AGM will ask participants to switch their mobiles off at the opening of the AGM.

Participation certificate
Please use the back envelope of the voting card block as a confirmation of your participation in the AGM.

Picture and sound recording devices
It is forbidden to take photographs or make video or sound recordings at the AGM. Participants will therefore be checked for picture/video and sound recording devices which will have to be deposited for the duration of the AGM.

Proxy
If you are prevented from attending the AGM, you may have your voting rights exercised by means of a proxy: by your custodian bank if it offers this service, by a shareholders' association, by a voting trustee of the company or a person of your own choice. You can use any of these options by completing the enclosed sheet or – if you want to be represented by a proxy representative provided by the Company or a person of your own choosing – using our AGM Online-Service on the internet. (www.tui-group.com, link 'Annual General Meeting 2007')

Registration
Registration desks have been set up in the lobby. Upon presentation of your admission ticket, you will receive a voting card block which entitles you to raise questions at the AGM and take part in the votes.

Requests for the floor
The speaker registration desk is positioned directly in front of the panel for the members of the Executive Board and Supervisory Board. Sheets to request the floor are available at this desk which may be filled in, preferably before the beginning of the AGM. Once the presentations are concluded and discussion of the individual items of the agenda begins, the names of the speakers will be called out and you can proceed to the rostrum to present your question or comment.

Rostrum
A rostrum with a microphone has been installed next to the panel to make sure that all participants can hear the speakers' presentations.

Vote
At registration you will receive a voting card block. You will find full details on the voting procedure in a separate flyer with the voting card block.

Wheelchair users
Please use the main entrance. All rooms are level with the ground. Stairs are bridged with ramps. The car park also meets the needs of people with handicaps.

RECEIVED

Agenda of TUI AG's 2007 Annual General Meeting on 16 May 2007

Agenda

1. Presentation of the adopted annual financial statements as per 31 December 2006, the management report, and the approved consolidated financial statements, group management report and the report of the Supervisory Board
2. Resolution on the appropriation of the balance-sheet profit for the financial year 2006
3. Resolution on formal approval of the activities of the Executive Board in the financial year 2006
4. Resolution on formal approval of the activities of the Supervisory Board in the financial year 2006
5. Election of the auditor for the financial year 2007
6. Resolution to add to Section 18 Para 1 (c) of the Charter 'long-term variable remuneration for the Supervisory Board' (Amendment of the Charter)
7. Resolution to add a new Para 6 'Electronic transmission of information to shareholders' to Section 21 (Amendment of the Charter)
8. Resolution for a new authorization to acquire and use own shares under Section 71 Para 1 No. 8 AktG, and to exclude the subscription right

1. Presentation of the adopted annual financial statements as per 31 December 2006, the management report, and the approved consolidated financial statements, group management report and the report of the Supervisory Board

2. Resolution on the appropriation of the balance-sheet profit for the financial year 2006
The profit for the financial year 2006 in the amount of € 103,564,082.75 results in a balance-sheet profit of € 54,300,000, taking account of the profit carried forward from the previous year in the amount of € 2,435,917.25 and of a transfer of € 51,700,000 to the other profit reserves. The Executive Board and the Supervisory Board propose that the disclosed balance-sheet profit of € 54,300,000 be carried forward on new account.

3. Resolution on formal approval of the activities of the Executive Board in the financial year 2006
The Supervisory Board and the Executive Board propose that the activities be formally approved.

4. Resolution on formal approval of the activities of the Supervisory Board in the financial year 2006
The Executive Board and the Supervisory Board propose that

Coopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover, be elected auditors for the financial year 2007 and be instructed to audit and review the semi-annual financial report for the first half year 2007.

6. Resolution to add to Section 18 Para 1 (c) of the Charter 'long-term variable remuneration for the Supervisory Board' (Amendment of the Charter)

The Executive Board and the Supervisory Board propose that section 18 para 1(c) of the Charter be amended, that the new sentences 4 and 5 be added, and to newly word the provision as follows:

'(c) a remuneration reflecting the long-term success of the Company (long-term variable remuneration). Long-term variable remuneration shall comprise a base amount of € 20,000 per year and shall be granted for the current fiscal year – starting from fiscal year 2006. This base amount shall be due at the end of the third fiscal year following the granting and shall either be increased or reduced to the extent that the profit per share in the third fiscal year following the granting changes compared with the fiscal year for which the amount was granted. Any change of the profit per share by € 0.01 results in an increase or a reduction of the base amount by € 100. The amount to be paid out shall, however, in no case exceed 250% of the base amount.

Should a member of the Supervisory Board depart prior to expiry of the assessment period, the profit per share in the fiscal year of departure shall be the determining factor when calculating the long-term variable remuneration.'

The addition of the new sentence 4 is necessary to clarify the method of calculation for the determination of the amount to be paid. The new sentence 5 sets a limit for the amount to be paid out in the event of an extraordinary unforeseen development.

7. Resolution to add a new Para 6 'Electronic transmission of information to shareholders' to Section 21 (Amendment of the Charter)

Since the entry into force of the Transparency Directive Implementation Act ('TUG') in January 2007, the electronic transmission of information to shareholders pursuant to section 30b para 3 WpHG (Securities Trading Act) has been admissible only if the General Meeting agrees to this.

The inclusion of this authorization in the Charter of TUI AG secures the right in the future to pass on information to the shareholders by email. The amendment of the Charter changes nothing about the fact that the shareholders themselves must consent to this mode of transmission.

The Executive Board and the Supervisory Board propose that a new para 6 be added to section 21 of the Charter, worded as follows:

'(6) The Company may transmit information to shareholders by way of remote data transmission pursuant to section 30b para 3 no. 1 WpHG.'

8. Resolution for a new authorization to acquire and use own shares under Section 71 Para 1 No. 8 AktG, and to exclude the subscription right

To acquire its own shares, the Company needs special authorization from the General Meeting, unless the acquisition is expressly allowed by law. As the authorization given by the General Meeting on 10 May 2006 will expire on 9 November 2007, it is to be proposed to the General Meeting that the Company be again authorized to acquire its own shares.

of up to 10% of its current capital stock. The shares being acquired must at no time represent more than 10% of the capital stock together with the other own shares held by the Company or attributable to it pursuant to sections 71a et seq. AktG. The authorization must not be used for the purpose of trading in its own shares.

b) The authorization can be made use of entirely or partly, once or several times, in pursuit of one or several purposes by the Company, or by third parties for the account of the Company. The authorization shall be effective until 15 November 2008. This authorization replaces the authorization to acquire own shares granted by the General Meeting of TUI AG on 10 May 2006.

c) The acquisition is effective at the option of the Executive Board through the stock exchange or by means of a public offer to buy or by means of a public invitation to the shareholders to submit a sales offer.

- If the shares are acquired through the stock exchange, the consideration paid by the Company for the share (without ancillary acquisition costs) must not by more than 5% exceed or fall short of the price determined in the XETRA trading system (or a functionally comparable successor system) through the opening auction on the trading day.

- If the acquisition is made through a public purchase offer or a public invitation to submit a sales offer, the purchase price which is offered or the minimum and maximum amounts of the purchase price range per share (without ancillary acquisition costs) must not by more than 10% exceed or fall short of the average closing prices in the XETRA trading system (or a functionally comparable successor system) on the three trading days preceding the day of the publication of the offer or of the public invitation to submit a sales offer. If, after the publication of a public purchase offer or after the public invitation to submit a sales offer, significant deviations from the relevant price arise, the purchase offer or, as the case may be, the invitation to submit a sales offer can be adjusted. In this case, the average price on the three trading days before the public announcement of such an adjustment shall be relevant. The purchase offer or the invitation to submit a sales offer can be subject to further conditions. If the purchase offer is oversubscribed or, in the case of an invitation to submit a sales offer, not all offers among several equivalent offers can be accepted, the shares are to be allocated or the offers accepted on a pro rata basis. The terms of the purchase offer or of the invitation to submit a sales offer may provide for the preferential acceptance of a small number of up to 100 shares offered for sale per shareholder.

d) The Executive Board is authorized to use the shares of the Company acquired on the basis of this authorization for all purposes allowed by law, especially also for the following purposes:

aa) The shares can be called in, with the approval of the Supervisory Board, without any further resolutions being required by a General Meeting. They can also be called in through the simplified procedure without any capital reduction by means of an adjustment of the proportionate arithmetic amount of the other shares in the capital stock of the Company. The decision to call in the shares can be limited to a part of the acquired shares. If the shares are called in through the simplified proceedings, the Executive Board is authorized to adjust the number of the shares in the Charter.

bb) The shares can also be sold in other ways than through the stock exchange or through a public offering to all shareholders, if these shares are sold for cash payment at a

authorizations to increase the capital with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG or on the basis of a conditional capital pursuant to sections 221 para 4, 186 para 3 sentence 4 AktG for bonds with conversion or option rights or, as the case may be, conversion duties issued during the term of this authorization until it is made use of, must not exceed 10% in total of the capital stock at the time of this authorization or at the time at which it is made use of.

cc) The shares can, with the approval of the Supervisory Board, be sold for non-cash contributions, especially also in connection with the acquisition of undertakings, parts of undertakings, participations, or other assets, and in connection with mergers and acquisitions.

dd) The shares can also be used to fulfil conversion or option rights or for conversion obligations from convertible or warrant-linked bonds issued by the Company or its group member companies (or special dividend rights or dividend bonds with conversion rights, option rights or conversion obligations).

e) The authorization in d), bb) to dd) also comprises the use of shares in the Company which were acquired on the basis of section 71 d sentence 5 AktG.

f) The authorizations in d) can be made use of once or several times, partly or entirely, individually or jointly, the authorizations in d), bb) to dd) also through dependent undertakings or undertakings majority owned by the Company or by third parties acting for their account or for the account of the Company.

g) The shareholders' subscription right to these own shares is excluded insofar as these shares are used in accordance with the authorization in d), bb) to dd) above.

Report on Item 8 of the Agenda (Authorization to acquire and to use own shares)

The proposal in Item 8 of the Agenda provides for an authorization to acquire own shares pursuant to section 71 para 1 no. 8 AktG in the amount of up to 10% of the capital stock, limited to a period of 18 months.

TUI AG adopted a resolution at the Annual General Meeting of 10 May 2006 for an authorization to acquire own shares, limited to the time up to 9 November 2007. Because of the expiry of this authorization in the current financial year, this resolution including the authorization is to be annulled with effect from the entry into force of the new authorization to be granted at this Annual General Meeting.

In addition to an acquisition through the stock exchange, the Company is to be given the possibility to acquire own shares through a public purchase offer to be addressed to the shareholders of the Company or through the public invitation to the shareholders to submit an offer for the purchase of shares. The principle of equal treatment set out in the Stock Corporation Act must be observed. In the case of a public invitation to submit a sales offer, the addressees of the invitation can decide how many shares and – if a price range is fixed – at what price they wish to offer them to the Company. If a public purchase offer is oversubscribed or, in the case of an invitation to submit an offer for the purchase of shares, not all offers among several equivalent offers can be accepted, the shares are to be allocated on a pro-rata basis. However, it is to be possible to provide for the preferential acceptance of a small number or of small parts of offers up to a maximum of 100 shares. This possibility serves to avoid fractions in determining the quotas to be acquired as

must not by more than 10% exceed or fall short of the average closing price in XETRA trading (or a comparable follow-up system) on the three trading days preceding the day of the public announcement of the offer or, as the case may be, the public invitation to submit a sales offer. If a substantial deviation from the relevant price arises after the publication of a public purchase offer or after the public invitation to submit a sales offer. The purchase offer, or, as the case may be, the invitation to submit a sales offer can be adjusted. In this case the average price on the three trading days preceding the public announcement of a possible adjustment can be used. The purchase offer or, as the case may be, the invitation to submit a sales offer can provide for further terms to be applicable.

The own shares which are acquired may be used for all purposes admissible by law, in particular also the following:

The proposed resolution contains the authorization to sell the previously acquired own shares outside the stock exchange for cash payment with an exclusion of the subscription right. A precondition for this is that the shares are sold at a price which does not fall far short of the stock exchange price of shares in the Company with the same features at the time of the sale. This authorization makes use of the possibility to simplify the exclusion of subscription rights allowed under section 71 para 1 no. 8 AktG and, analogously, section 186 para 3 sentence 4 AktG. The shareholders' interest in dilution protection is taken account of through the prohibition of selling the shares for a price which falls far short of the relevant stock exchange price. The final determination of the sales price for the own shares is made just before the sale. The Executive Board will keep a possible mark-down from the stock exchange price as low as possible in accordance with the market conditions prevailing at the time of the placement. The mark-down from the stock exchange price at the time at which the authorization is made use of will in no case exceed 5% of the then current stock exchange price. The authorization applies subject to the proviso that the shares sold with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG must not exceed – in total – 10% of the capital stock, neither at the time of the entry into force of this authorization nor at the time of its exercise. This authorization is to be made use of only in such a way that the limit of 10% of the capital stock fixed in section 186 para 3 sentence 4 AktG must be observed in total, i.e. by inclusion of the possible exercise of the authorizations in section 4 para 7 and section 4 para 5 of the Charter. The shareholders in principle have the possibility to maintain their participation quota by purchasing TUI shares through the stock exchange. The authorization is in the interests of the Company because it provides a greater degree of flexibility. It makes it possible in particular to issue shares specifically to cooperation partners.

The sale of own shares can, with the approval of the Supervisory Board, also be made for contributions in kind with an exclusion of the shareholders' subscription right. The Company is thereby enabled to offer own shares directly or indirectly as valuable consideration in connection with mergers or in connection with the acquisition of companies, parts of companies, participations or other assets (e.g. hotels, ships or aeroplanes). International competition and the globalization of the economy frequently require valuable consideration to be paid in such transactions in the form of shares. The authorization proposed here is intended to give the Company the necessary flexibility to quickly and flexibly benefit both nationally and internationally from opportunities which arise to acquire companies, parts of companies, participations or other assets. For this, the proposed exclusion of the subscription right is necessary. In determining the pricing ratios, the Executive Board will take

orientation by a stock exchange price is intended, especially in order not to jeopardize negotiation results which have been achieved through fluctuations of the stock exchange price.

The authorization also provides for the own shares to be used, with an exclusion of the shareholders' subscription right, to fulfil conversion or subscription rights of holders of warrant-linked bonds or convertible bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion right, option right or conversion duty) issued by the Company or by its group members companies. It may be expedient to entirely or partly use own shares to fulfil the conversion rights instead of new shares from an increase in capital.

All of the above possible applications can be used not only with respect to shares acquired on the basis of this authorization. In contrast, the authorization also comprises shares which were acquired pursuant to section 71d sentence 5 AktG. It is advantageous and provides further flexibility to be able to utilize these own shares in the same way as the shares acquired on the basis of this authorization.

The own shares acquired on the basis of this authorization can, with the approval of the Supervisory Board, be called in by the Company without a new resolution of the General Meeting. In accordance with section 237 para 3 no. 3 AktG, the General Meeting of the Company can resolve upon the redemption of its fully paid-in no-par shares without requiring a reduction of the capital stock of the Company. The proposed authorization expressly provides for this alternative in addition to a redemption with a capital reduction. If own shares are redeemed without a capital reduction, the arithmetic share of the other no-par shares in the capital stock of the Company automatically increases. The Executive Board is therefore also to be authorized to make any necessary amendments of the Charter with respect to the number of no-par shares which may change through a redemption.

If the authorization is made use of, the Executive Board will report to the next General Meeting.

Counter-motions

Regarding our general meeting on 16 May 2007, Hanover,one shareholder has so far submitted counter-motions to topics 3 and 4 of the agenda which are to be made available by the company. The motions are listed in the same order as the agenda topics.

Counter-motion to agenda topic 3

Counter-motion to agenda topic 4

Counter-motion to agenda topic 6

Mr **Ulli Zedler,** Berlin

Regarding topic 3 of the agenda:

Text of the resolution:

Be it resolved, that the activities of the Executive Board in the 2006 financial year are not formally approved.

Statement of Reasons:

The disastrous misassessment of the macroeconomic situation by the Executive Board and the resultant buying into CP Ships at an inappropriately high price, financed by means of a capital increase causing a strong dilution in the company's capital stock, has given rise to a substantial reduction in the net income of our stock company (AG), otherwise operating in a relatively successful manner. Even divestments in other sectors only resulted in an immaterial cushioning of the disaster.
In real terms, capital was destroyed at large quantities. We are faced with negative consolidated earnings of just over three quarters of a billion euro, i.e. the equivalent of EUR 3.66 of net value destruction per share.
The Executive Board tried to create an understanding for the above-mentioned value destruction at the last Annual General Meeting by means of slogans such as „It's better to walk on two feet", without, however, furnishing evidence of a negative correlation between margins in package tours and freight rates. In addition, having deliberately shattered the balance sheet for 2006 in this way, the same Executive Board now has the audacity to suggest under item 2 of the agenda that the earnings generated by the AG, which have been strongly reduced due to the CP Ships venture, be fully retained within the company and that the shareholders be left empty-handed.
Moreover, this suggestion starkly contrasts with the fact that the Executive Board continues to have itself paid pretty substantial compensation amounts in relation to the work performed.

that creates value.

All shareholders, including and in particular the large institutional investors, are called upon to set a clear example against mismanagement, an inappropriate investment policy and the inability of this Board to make forecasts. They should not just abstain but take a clear position as proposed by the present counter-motion.

Berlin, 20 April 2007
Signed by: Ulli Zedler

Mr **Ulli Zedler,** Hamburg

Regarding topic 4 of the agenda:

Text of the resolution:

Be it resolved, that the activities of the Supervisory Board in the 2006 financial year are not formally approved.

Statement of Reasons:

The Supervisory Board has been largely inactive, simply watching the activities of the Group management and in the final analysis approving of the misdirected investment, seemingly without critically questioning this investment.
Given the lack of expertise in international freight shipping to be assumed for the otherwise certainly highly qualified experts such as Dr Krumnow, Dr Schneider, Dr Liesen and Dr Vranitzky, this is not surprising. However, the Supervisory Board has failed to consult independent external experts in these important decisions of major relevance to the shareholders' assets.
No shareholder will demand that an oversight body be smarter than the market in this respect, but every Supervisory Board member is required to obtain the expertise required for such a decision unless they have the relevant expertise themselves. If they fail to do so, they do not perform their duties.
The impression created here is that old personal relationships and ill-fated multiple mandates, still to some extent recalling the old "Germany Inc.", have an inhibiting effect and thus promote behaviour representing a violation of duties. Given the fact that individual members of the Supervisory Board are members in up to 11 other supervisory bodies, they seem to be unable, not least for simple lack of time, to sufficiently devote themselves to overseeing our company.
Moreover, the impression is created that the Supervisory Board, knowing that tacit agreement on the acquisition of CP Ships and the participation of our large Spanish shareholders in the required capital increase was reached with these shareholders in the run-up to the transaction, only showed insufficient and far too superficial commitment in engaging in a neutral, objective analysis of whether this transaction made sense in view of the interests of the remaining shareholders. Every independent consultant with a certain amount of experience in the international freight business would easily have been able to outline the substantial risks entailed in acquiring an interest - at a top price - in a sector that overheated in 2006.
The Supervisory Board would thus have been able to guide and in particular moderate the Executive Board that had obviously lost sight of the appropriate economic measure in this transaction. Admittedly, the Executive Board and the Supervisory Board have broad scope for forecasts in any forward-looking decision and therefore in any entrepreneurial investment. However, approving of an investment entailing high risks without raising any criticism and being aware of - or even ignoring - these risks which are not offset by any appropriate opportunities is by no means behaviour deserving

the formal approval of its activities must be refused as a precautionary measure.

Berlin, 20 April 2007
Signed b: Ulli Zedler

Mr **Walter Habich,** Osnabrück

Regarding topic 6 of the agenda:

Version currently applicable:
"(c) a remuneration reflecting the long-term success of the Company (long-term variable remuneration). Long-term variable remuneration shall comprise a base amount of € 20,000 per year and shall be granted for the current fiscal year – starting from fiscal year 2006. This base amount shall be due at the end of the third fiscal year following the granting and shall either be increased or reduced to the extent that the profit per share in the third fiscal year following the granting changes compared with the fiscal year for which the amount was granted.
Should a member of the Supervisory Board depart prior to expiry of the assessment period, the profit per share in the fiscal year of departure shall be the determining factor when calculating the long-term variable remuneration."

New version:
"(c) a remuneration reflecting the long-term success of the Company (long-term variable remuneration). Long-term variable remuneration shall comprise a base amount of € 20,000 per year and shall be granted for the current fiscal year – starting from fiscal year 2006. This base amount shall be due at the end of the third fiscal year following the granting and shall either be increased or reduced to the extent that the TUI share develops against the DAX.
To this end, the annual average of the TUI share price in the base year and the annual average of the TUI share price for the third fiscal year following the granting must be determined, with all dividends paid in the interim period having to be added to the share price as of the date of payment. Annual averages must also be determined for the DAX for the same periods. The performance of the TUI share and the DAX shall be determined by means of relating the respective annual average for the third fiscal year following the granting to the annual averages in the base year. The assessment is effected by means of relating the performance of the TUI share to the performance of the DAX. For every percentage point of performance gains of the TUI share against the DAX, the base amount must be increased by EUR 4,000.00. For every percentage point of performance losses of the TUI share against the DAX, the base amount must be reduced by EUR 4,000.00. If the performance loss against the DAX exceeds 5%, the variable remuneration will not be paid for the base year.
Should a member of the Supervisory Board depart prior to expiry of the assessment period, the comparison of the performance in the fiscal year of departure shall be the determining factor in calculating the long-term variable remuneration."

Statement of reasons:
The amended version meets the shareholders' interest in a sustainable value creation and does not require a limitation of the type shown in the current version.

The proposal by the Executive Board and Supervisory Board creates an unambiguous mathematical method to determine the amount of long-term variable remuneration paid to the members of TUI AG's Supervisory Board. The level of the long-term variable remuneration exclusively depends on the long-term development of TUI AG's earnings per share. The amount paid out is limited to 250% of the basic amount; this is a useful limitation for the event of an extraordinary unforeseen development. The members of the Supervisory Board are provided with a clear incentive to ensure a sustainable increase in earnings per share. This is in the interest of shareholders.

Mr Habich's proposal links the long-term variable remuneration to the development of the TUI share in relation to the development of the stock exchange prices of the companies listed in the DAX 30. From the management's perspective, this does not create an unambiguous incentive for the members of TUI AG's Supervisory Board since a comparison of the stock price of the TUI share with an average price of the companies listed in the DAX 30 is of no relevance as a corporate control function."

Management note:

"**Letter A** has been assigned to the above counter-motion on the instruction sheet. Hence, if you wish to have your voting right exercised by a proxy and you support the above counter-motion, you must tick the field in the NO column under item 6 of the agenda and, additionally, tick the field above letter A."

Agenda

I. Agenda

1. **Presentation of the Adopted Annual Financial Statements as per 31 December 2005, the Management Report, and the Approved Consolidated Financial Statements, Group Management Report and the Report of the Supervisory Board**

2. **Resolution on the Appropriation of the Balance Sheet Profit for the Financial Year 2005**

The Executive Board and the Supervisory Board propose that the amount of € 193,064,082.75 out of the balance sheet profit totalling € 195,500,000.00 be used to pay a dividend of € 0.77 per no-par value share on the capital stock of € 640,987,649.75 existing as per 31 December 2005. The remaining amount of € 2,435,917.25 will be carried forward on new account.

3. **Resolution on Formal Approval of the Activities of the Executive Board in the Financial Year 2005**

The Supervisory Board and the Executive Board propose that the activities of the Executive Board be formally approved.

4. **Resolution on Formal Approval of the Activities of the Supervisory Board in the Financial Year 2005**

The Executive Board and the Supervisory Board propose that the activities of the Supervisory Board be formally approved.

5. **Appointment of the Auditor for the Financial Year 2006**

The Supervisory Board proposes that Pricewaterhouse-Coopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover, be appointed as Auditors for the financial year 2006.

6. **New Elections for the Supervisory Board**

The term of office of all members of the Supervisory Board will end upon the end of the General Meeting on 10 May 2006, and at the same time the new term of office will begin. It will expire at the end of the fifth Annual General Meeting following the election – i.e. in the year 2011.

According to section 11 of the Charter of TUI AG in conjunction with sections 96 para 1, 101 para 1 AktG and section 7 para 1 of the Act on the Codetermination of Employees of 4 May 1976, the Supervisory Board consists of ten members of the Supervisory Board each from the shareholders and from the employees. The shareholders' representatives are elected by the General Meeting. In accordance with the Corporate Governance Code, Clause 5.4.3 (as amended on 2 June 2005), it is intended that a separate election for each candidate will be held. The General Meeting is not bound by nominations in electing the shareholders' representatives.

The elections for the ten Supervisory Board members representing the employees will be held on 5 April 2006.

The Supervisory Board proposes that the following shareholders' representatives be elected to the Supervisory Board for the new term of office:

Jean-Claude Baumgarten, London, Great Britain
President of the World Travel & Tourism Council

Jella Susanne Benner-Heinacher, Meerbusch
Solicitor, Managing Director of Deutsche Schutzvereinigung für Wertpapierbesitz e. V.

Sepp Dieter Heckmann, Hanover
Chairman of the Executive Board of Deutsche Messe AG

Dr. Jürgen Krumnow, Königstein
ex. Member of the Executive Board of Deutsche Bank AG

Dr. Dietmar Kuhnt, Essen
ex. Chairman of the Executive Board of RWE AG

Roberto López Abad, Alicante, Spain
Chief Executive of Caja de Ahorros del Mediterráneo

Dr. h.c. Abel Matutes Juan, Ibiza, Spain
Chairman of Fiesta Hotels & Resorts

Carmen Riu Güell, Playa de Palma, Spain
Entrepreneur

Dr. Manfred Schneider, Leverkusen
Chairman of the Supervisory Board of Bayer AG

Dr. Franz Vranitzky, Vienna, Austria
Chancellor (retrd.) of the Republic of Austria

7. Resolution to Change the Objects of the Company (Amendment of the Charter)

In view of the sale of participations already completed or to be completed shortly, the definition of the objects of the Company in section 3 of the Charter must be changed. In addition, the new text is intended to take account of the greater significance of shipping, here especially container shipping, for the Group as a whole.

In section 3 para 1 of the Charter, the references to the processing and trading of commodities and to the production of industrial components and systems will be deleted. Shipping will be named as a major pillar of the Group, with the same weight as the tourism business, and container shipping will be mentioned separately.

The Executive Board and the Supervisory Board propose that section 3 para 1 of the Charter be newly worded as follows:

'The objects of the Company are to engage on a commercial basis in the tourism and the shipping business (including all associated services and project developments), the acquisition of interests in enterprises active in tour operating, commercial air transportation and passenger shipping as well as goods shipping (especially container shipping) and container transport industry, the hotel industry, the leisure business and travel agents as well as other services, namely in its own facilities or in facilities of affiliated companies, as well as the coordination of affiliated companies under a centralized management.'

8. Authorization of the Executive Board to Increase the Capital Stock (Authorized Capital) of the Company with the Possibility of an Exclusion of Subscription Rights, e.g. if Non-Cash Contributions Are Used (Amendment of the Charter)

The Executive Board was authorized by shareholders' meeting of 18 May 2004, item 9 on the Agenda, to increase the capital stock of the Company with the approval of the Supervisory Board by issuing registered shares with a possibility of the exclusion of subscription rights for non-cash contributions (authorized capital in the amount of € 170,000,000.00).

This authorization was fully made use of through the capital increase in September 2005.

It is therefore proposed to pass a resolution for a new authorized capital in order to continue to provide a reliable planning basis to the Executive Board as well as the possibility to adjust the equity position of the Company to the business requirements also in the future.

The Executive Board and the Supervisory Board propose that the following resolution be adopted:

a) The Executive Board is authorized to increase the capital stock of the Company in time up to 9 May 2011 with the approval of the Supervisory Board by issuing, once or several times, new registered shares for cash or non-cash contributions, but in total by a maximum of € 246,000,000.00. The shareholders are in principle to be granted a subscription right. The shares could also be acquired by one or several financial institutions together with the obligation to offer these shares to the shareholders for subscription. However, the Executive Board is authorized to exclude the shareholders' subscription right with the approval of the Supervisory Board to the extent necessary to grant a subscription right to the holders of convertible or option rights issued or still to be issued by TUI AG or by its subsidiaries, as they would be entitled to after the exercise of the conversion or option right or the fulfillment of the conversion obligation. Furthermore, fractions can be exempted from the shareholders' subscription right. In addition, the Executive Board can exclude the shareholders' subscription right with the approval of the Supervisory Board to the extent that the increase in capital is made for non-cash contributions for the purpose of acquiring undertakings, parts of undertakings, participations in undertakings, or other assets. However, in this case, the Executive Board will only make use of an amount of up to max. 20% of the capital stock existing at the time of the entry into force of the authorization or, if this value is lower, at the time at which the authorization is made use of. The increase in capital for non-cash contributions is thus limited to a maximum of € 128,000,000.00. The Executive Board is also authorized to determine the further details of the increase in capital and its implementation with the approval of the Supervisory Board.

b) A new authorized capital is created in the amount of € 246,000,000.00. For this, a new para 8 is inserted into section 4 of the Charter:

'The Executive Board is authorized to increase the capital stock of the Company in time up to 9 May 2011 with the approval of the Supervisory Board by issuing, once or several times, new registered shares for cash or non-cash contributions, but in total by a maximum of € 246,000,000.00 (in words: two hundred and forty-six million euros). The shareholders are in principle to be granted a subscription right. The shares could also be acquired by one or several financial institutions together with the obligation to offer these shares to the shareholders for subscription. However, the Executive Board is authorized to exclude the shareholders' subscription right with the approval of the Supervisory Board to the extent necessary to grant a subscription right to the holders of convertible or option rights issued or still to be issued by TUI AG or by its subsidiaries, as they would be entitled to after the exercise of the conversion or option right or the fulfillment of the conversion obligation. Furthermore, fractions can be exempted from the shareholders' subscription right. In addition, the Executive Board may exclude the shareholders' subscription right with the approval of the Supervisory Board to the extent that the increase in capital for non-cash contributions is made for the purpose of acquiring undertakings, parts of undertakings, participations in undertakings, or other assets. However, in this case, the Executive Board may only make use of an amount of up to max. 20% of the capital stock existing at the time of the entry into force of the authorization or, if this value is lower, at the time at which the authorization is made use of. The increase in capital for non-cash contributions is thus limited to a maximum of € 128,000,000.00. The Executive Board is also authorized to determine the further details of the increase in capital and its implementation with the approval of the Supervisory Board.'

9. Annulment of the Authorized Capital Pursuant to Section 4 Para 5 of the Charter of TUI AG; Authorization of the Executive Board to Increase the Capital Stock (Authorized Capital) with the Possibility of an Exclusion of Subscription Rights Pursuant to Section 186 Para 3 Sentence 4 AktG (Amendment of the Charter)

The Executive Board was authorized by resolution of the General Meeting of 18 May 2004, item 10 of the Agenda, to increase the capital stock of the Company with the approval of the Supervisory Board by issuing registered shares with the possibility of an exclusion of subscription rights pursuant to section 186 para 3 sentence 4 AktG. This authorization was partly made use of through the increase in capital in September 2005.

It is therefore proposed to annul the remaining authorized capital and to pass a resolution for a new authorization for a higher authorized capital to continue to provide the necessary instruments for raising capital to the Executive Board and to enable the Executive Board to also adjust the equity position of the Company to the business requirements in the future.

The Executive Board and the Supervisory Board propose that the following resolution be adopted.

a) The authorization of the Executive Board pursuant to section 4 para 5 of the Charter of TUI AG to increase the capital stock in the time up to 17 May 2009 by up to € 32,806,465 (rounded off) (authorized capital) is revoked.

b) The Executive Board is authorized to increase the capital stock of the Company in the time up to 9 May 2011 with the approval of the Supervisory Board by issuing new registered shares for cash contributions, once or several times, in total by up to € 64,000,000.00. The shareholders are in principle to be granted a subscription right. The shares could also be acquired by one or several financial institutions together with the obligation to offer these shares to the shareholders for subscription. The Executive Board can with the approval of the Supervisory Board exclude the shareholders' subscription right if the issue amount of the new shares is insignificantly lower than the market price for the new shares with the same terms of issue which have already been issued. The number of new shares must not, together with the shares issued or sold on the basis of an authorization to sell pursuant to secs. 71 para 1 no. 8 sentence 5, 186 para 3 sentence 4 AktG during the term of this authorization up to the time at which it is exercised, exceed the limit of 10% of the capital stock set out in section 186 para 3 sentence 4 AktG. For the purpose of this limitation, shares are to be taken into account which were issued or are to be issued on the basis of bonds with conversion or option rights or conversion obligations issued pursuant to section 186 para 3 sentence 4 AktG during the

time in which this authorization is effective up to the time at which it is made use of. The Executive Board may also exclude the shareholders' subscription right in respect of fractional amounts with the approval of the Supervisory Board. The Executive Board is furthermore authorized to determine the further details of the increase in capital and its implementation with the approval of the Supervisory Board.

c) A new authorized capital in the amount of € 64,000,000.00 is created. For this, section 4 para 5 of the Charter is newly worded as follows:

'The Executive Board is authorized to increase the capital stock of the Company in the time up to 9 May 2011 with the approval of the Supervisory Board by issuing new registered shares for cash contributions, once or several times, in total by up to € 64,000,000.00 (in words: sixty-four million euros). The shareholders are in principle to be granted a subscription right. The shares could also be acquired by one or several financial institutions together with the obligation to offer these shares to the shareholders for subscription. The Executive Board can with the approval of the Supervisory Board exclude the shareholders' subscription right if the issue amount of the new shares is insignificantly lower than the market price for the new shares with the same terms of issue which have already been issued. The number of new shares must not, together with the shares issued or sold on the basis of an authorization to sell pursuant to secs. 71 para 1 no. 8 sentence 5, 186 para 3 sentence 4 AktG during the term of this authorization up to the time at which it is exercised, exceed the limit of 10% of the capital stock set out in section 186 para 3 sentence 4 AktG. For the purpose of this limitation, shares are to be taken into account which were issued or are to be issued on the basis of bonds with conversion or option rights or conversion obligations issued pursuant to section 186 para 3 sentence 4 AktG during the time in which this authorization is effective up to the time at which it is made use of. The Executive Board may also exclude the shareholders' subscription right in respect of fractional amounts with the approval of the Supervisory Board. The Executive Board is authorized to determine the further details of the increase in capital and its implementation with the approval of the Supervisory Board.'

10. Annulment of the Existing Authorization to Issue Bonds with Conversion Rights and/or Warrants and Annulment of the Conditional Capital Pursuant to Section 4 Para 7 of the Charter of TUI AG; New Authorization to Issue Bonds with Conversion Rights, Warrants, Special Dividend Rights and/or Dividend Bonds (or Combinations of these Instruments) with the Possibility of an Exclusion of Subscription Rights Pursuant to Section 186 Para 3 Sentence 4 AktG et al. and Creation of a New Conditional Capital (Amendment of the Charter)

The Executive Board was authorized by resolution of the General Meeting of 18 May 2004, item 11 of the Agenda, to issue, with the approval of the Supervisory Board, bonds with conversion and/or option rights with a maximum maturity of 30 years. To make the possibility to issue convertible bonds and/or warrant-linked bonds more flexible and to adjust to the capital stock as increased by the rights issue in the year 2005 and to create the possibility to issue instruments with a profit-related return on the capital invested, it is proposed to the General Meeting that a new authorization be granted to issue convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds (or any combination of these instruments), and to create a new conditional capital which is to serve to service the convertible bonds and/or warrant-linked bonds or to perform conversion obligations arising from this new authorization. It is to be possible also to issue finance instruments without any maximum maturity. The current authorized limit of € 1,000,000,000.00 is to remain in force. To ensure that the authorized amount can be fully used also in view of later convertible bond or warrant-linked bond price adjustments, the conditional capital which serves to service convertible bonds and warrant-linked bonds is to be increased to € 100,000,000.00.

Upon the entry into force of this resolution, the current authorization and the conditional capital existing for this purpose will be annulled.

The Executive Board and the Supervisory Board propose that the following resolution be adopted:

a) Annulment of the authorization of 18 May 2004

The authorization to issue convertible bonds and/or warrant-linked bonds granted by resolution of the

General Meeting of 18 May 2004 as well as the conditional capital in the amount of € 70,000,000.00 are annulled.

The annulment of the authorization and of the conditional capital shall become effective as soon as the authorization proposed under b) and the new conditional capital in accordance with the resolution to be adopted in accordance with c) has become effective.

b) Authorization to issue convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds

aa) Nominal amount, duration of the authorization, number of shares, maturity

The Executive Board is authorized to issue, with the approval of the Supervisory Board, convertible bearer or registered bonds, warrant-linked bonds, special dividend rights or dividend bonds (or combination of these instruments) (together "bonds"), once or several times in the time up to 9 May 2011, with or without a limitation of maturity, with a total amount of up to € 1,000,000,000.00, and to grant the holders of bonds convertible or option rights to shares of the Company with a pro rata amount of the capital stock of up to € 100,000,000.00 pursuant to the bond terms. The bonds can also be issued for non-cash contributions.

The bonds may be denominated in euros or in the legal tender of any other OECD member state, limited to the equivalent euro amount. The bonds may also be issued by undertakings wholly owned or indirectly owned by the Company; in this case the Executive Board is authorized with the consent of the Supervisory Board to assume for the Company a guarantee for the bonds and to grant the holders of such bonds conversion or option rights for new shares in the Company.

bb) Grant of the subscription right, exclusion of subscription right

In principle the shareholders have a subscription right for the bonds. The bonds can also be taken by one or several credit institutions with the obligation to offer to the shareholders for subscription. However, the Executive Board is authorized to exclude, with the approval of the Supervisory Board, the shareholders' subscription right for the bonds:

- for fractional amounts;

- to the extent necessary to grant the holders of conversion or option rights for shares of the Company or the holders of convertible bonds with a conversion obligation, a subscription right as they would be entitled to after the exercise of these rights or, as the case may be, the performance of the conversion obligations;

- if convertible or warrant-linked bonds (or special dividend rights or dividend bonds with a conversion right, option right or conversion obligation) are issued for cash payment, and the issuing price does not fall far short of the theoretical market value of the bond as determined according to generally accepted methods of the mathematics of finance. This authorization to exclude the subscription right applies only to bonds with rights (or, as the case may be, conversion obligations) for shares with a pro rata amount totaling up to no more than 10% of the capital stock either at the time of the entry into force or of the exercise of this authorization. The sale of own shares shall count for the purposes of this limitation provided the sale takes place during the term of this authorization up to the time at which it is made use of with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG. Furthermore, the shares issued during the term of this authorization up to the time until it is made use of with the authorized capital, excluding the subscription right pursuant to section 186 para 3 sentence 4 AktG, shall count for the purposes of this limitation;

- if bonds are issued for non-cash contributions, provided the value of the non-cash contributions is reasonable in proportion to the market value of the bonds to be determined in accordance with the preceding provision.

If special dividend rights or dividend bonds without a conversion right, option right or conversion obligation are issued, the Executive Board is authorized, with the approval of the Supervisory Board, to exclude the shareholders' subscription right altogether, if these special dividend rights or dividend bonds are issued as debenture-like securities, i.e. no membership rights in the Company are granted, no right to participate in the liquidation proceeds is acquired, and the amount of the yield is not calculated on the basis of the amount of the annual profit, the balance-sheet profit or the dividends. Moreover, in this case, the yield and the issue amount of the special dividend rights or the dividend bonds must be in line with the current market conditions for comparable fund-raising at the time of the issue.

cc) Conversion right, conversion duty

If bonds are issued with a conversion right, the creditors can convert their bonds into shares in the Company in accordance with the bond terms. The proportionate amount of the capital stock attributable to the shares to be issued in the event of conversion must not exceed the nominal value of the bond or a lower issuing price. The conversion ratio is determined by the nominal amount of a bond divided by the fixed conversion price for a new share in the Company. The conversion ratio can also be determined by dividing the issue amount of a bond (which is below the nominal amount) by the fixed conversion price for a new share in the Company. The conversion ratio may be rounded up or down to a whole number. Moreover, an additional cash payment may be fixed. Furthermore, it may be provided that fractions be combined and/or compensated for in cash. The bond terms can also provide for a variable conversion ratio.

The bond terms may also provide for a conversion obligation. In this case, the Company can be given the right in the bond terms to entirely or partly compensate in cash for any difference between the nominal amount of the convertible bonds and the stock exchange price for the shares to be fixed in the bond terms, at the time of the compulsory conversion, but at least 80% of the stock exchange price for the shares determining the minimum conversion price pursuant to ee), multiplied by the conversion ratio. The above provisions shall apply analogously if the conversion right or the conversion obligation relates to a special dividend right or to a dividend bond.

dd) Option right

If warrant-linked bonds are issued, one or several warrants are to be attached to each bond, entitling the holder to subscribe to shares in the Company in accordance with the warrant terms to be fixed by the Executive Board. The conversion ratio can be rounded up or down to an option ratio with a whole number. It may be provided that fractions be combined and/or compensated for in cash. The proportionate amount of the capital stock attributable to the shares to be issued per bond must not exceed the nominal amount of the warrant-linked bond. The same shall apply if warrants are attached to a special dividend right or to a dividend bond.

ee) Conversion/option price, dilution protection

The conversion or option price to be fixed per share must amount either to at least 80% of the average stock exchange price for the shares in the Company – closing rate in XETRA (or any comparable follow-up system) – on the ten trading days preceding the day of the adoption of the resolution by the Executive Board to issue the convertible or warrant-linked bonds, or at least 80% of the average stock exchange price for the shares of the Company – closing rate in XETRA trading (or any comparable follow-up system) – during the days on which the subscription rights are traded on the Frankfurt stock exchange, with the exception of the last two trading days for the subscription rights.

Without prejudice to section 9 para 1 AktG, the bond terms which grant or stipulate a conversion right, a conversion obligation and/or an option right, can include dilution protection provisions in case, during the conversion or option period and granting a subscription right to its shareholders, the Company increases its capital stock or issues further convertible or warrant-linked bonds or grants or guarantees other convertible or option rights or constitutes conversion obligations, without granting the holders of convertible or option rights respectively the holders of bonds with conversion obligations a subscription right to the same extent as they would be entitled to after exercising the conversion or option rights or, as the case may be, after the fulfilment of a conversion obligation. The bond terms may also provide for value-preserving adjustments of the conversion or option rights, in particular in the event of a capital reduction, a share split or a special dividend or other measures which can dilute the value of the conversion or option rights.

ff) Further possible terms

The bond terms for bonds which grant or stipulate a conversion right, a conversion obligation and/or an option right can stipulate in each case that, in the event of the conversion or the exercise of the option, the own shares of the Company can be granted. Furthermore, the terms may provide for the Company to pay the value in cash to the holders of the conversion or option rights or to the holders who are obliged to convert instead of granting shares in the Company. Moreover, the bond terms can provide for the numbers of shares to be subscribed to in the event of the exer-

cise of the conversion or option rights or after conversion obligations are fulfilled, or as the case may be, a conversion right in this respect to be variable and/or that the conversion or option price can be changed during the term within a range to be fixed by the Executive Board, depending on the development of the share price or in consequence of dilution protection provisions.

gg) Authorization to fix further bond terms

The Executive Board is authorized to fix, with the approval of the Supervisory Board, the further details of the issuance and features of the bonds, especially the interest rate, the nature of the yield, the issuing price, maturity, the denomination, the conversion or option price, and the conversion or option period. In the event of an issue by group member companies, the Executive Board is additionally required to agree with the organs of the group member companies issuing the convertible and/or warrant-linked bonds.

c) Conditional Capital Increase

The capital stock is conditionally increased by up to € 100,000,000.00 through the issue of up to 39,116,600 registered no-par value shares carrying dividend rights from the beginning of the financial year in which they are issued. The conditional increase in capital serves to grant shares to the holders of convertible and/or option rights respectively to the holders who are obliged to convert from bonds issued in accordance with the above authorization, as soon as they are issued for payment in cash.

The new shares will be issued for the conversion or option price to be fixed in accordance with the above authorization. The conditional increase in capital is to be carried out only insofar as conversion or option rights under bonds issued for payment in cash are exercised, or conversion obligations under such bonds are fulfilled, and insofar as no other forms of performance are used to service the bonds.

The Executive Board is authorized, with the approval of the Supervisory Board, to fix the further details of the conditional increase in capital.

d) Amendment of the Charter

Section 4 para 7 of the Charter (conditional capital in the amount of € 70,000,000.00) is repealed and replaced by the following new para 7:

'The capital stock is conditionally increased by up to € 100,000,000.00 (in words: one hundred million euros) through the issue of up to 39,116,600 registered no-par shares carrying a dividend right from the beginning of the financial year in which they are issued. The conditional increase in capital shall be put into effect only insofar as the holders of conversion or option rights respectively the holders who are obliged to convert under conversion and/or warrant-linked bonds, dividend bonds and/or special dividend rights (or combinations of these instruments) issued by the Company or by undertakings directly or indirectly controlled by it on the basis of the resolution granted the authorization adopted at the General Meeting of 10 May 2006 for cash payment in the time up to 9 May 2011 exercise their conversion or option rights or insofar as conversion obligations under such bonds are fulfilled, provided no other forms of performance are used to service the bonds. The Executive Board is authorized to fix, with the approval of the Supervisory Board, the further details of the conditional increase in capital.'

e) Commercial Register Application

To ensure that the annulment of the current conditional capital of € 70,000,000.00 will not become effective without being replaced by the new conditional capital in accordance with the above resolution, the Executive Board is instructed to make an application to the commercial register for an entry to be made showing the annulment of the conditional capital in the amount of € 70,000,000.00 only if an entry is made at the same time for the new conditional capital in the amount of € 100,000,000.00.

11. Resolution Regarding the Voting Procedure for the Supervisory Board (Amendment of the Charter)

The Supervisory Board and its committees are to be allowed to adopt resolutions not only when all members are present at a meeting, but also in writing, by telephone or telegraph and per fax or email, provided this is ordered by the chairman of the Supervisory Board.

Since the entry into force of the Act on Registered Shares and to Facilitate the Exercise of Voting Rights (NaStraG) in January 2001, section 108 para 4 AktG has granted companies the right to issue rules of procedure for the Supervisory Board allowing resolutions to be adopted in other ways than by way of voting by members personally present at a meeting, without any separate approval of the members of the Supervisory Board being required. The Executive Board and the Supervisory Board hope that such a flexibilization of the voting procedure will shorten the reaction time of the Supervisory Board and thus give the Company more options for action in situation requiring speedy decisions.

The Executive Board and the Supervisory Board propose that section 16 para 1 of the Charter be newly worded as follows:

'The Supervisory Board can adopt resolutions also in writing, by telegraph, telephone or by fax or email if this is ordered by the chairman of the Supervisory Board.'

12. Resolution on the New Structure of the Remuneration for Supervisory Board Members from the Financial Year 2006 (Amendment of the Charter)

The Executive Board and the Supervisory Board propose that section 18 of the Charter be newly worded as follows:

'**(1)** In addition to the reimbursement of the expenses, which shall also include the value added tax on their remuneration, the members of the Supervisory Board shall receive

(a) fixed remuneration in the amount of € 40,000 to be paid after the end of the financial year;

(b) remuneration oriented by the short-term profit of the Company (short-term variable remuneration) in the amount of € 100 per € 0.01 of the profit per share shown in the consolidated financial statements for the last financial year (profit per share); the profit per share will be calculated as the quotient of the annual Group net profit to which the shareholders of TUI AG are entitled and the amount of shares with dividend entitlements at the end of the financial year;

(c) remuneration related to the long-term success of the Company (long-term variable remuneration). The long-term variable remuneration shall consist of a base amount of € 20,000 per year and will be granted for the current financial year for the first time beginning with the financial year 2006. This base amount shall be paid after the end of the third financial year following the grant and shall increase or decrease to the extent that the profit per share for the third financial year following the grant changes, expressed in percent, compared to the financial year for which the amount was granted.

If a member ceases to belong to the Supervisory Board before the end of the assessment period, the profit per share in the financial year in which the member ceases to belong to the Supervisory Board shall determine the long-term variable remuneration.

(d) The remuneration pursuant to 1 (b) and (c) shall be payable after the end of the General Meeting which decides on formal approval of the actions of the members of the Supervisory Board in the last financial year.

(2) The chairman shall receive the triple amount, his deputy and the other members of the Presiding Committee one and a half times the amount of the remuneration pursuant to 1(a) to (c).

(3) The members of the Audit Committee shall for their services receive a further remuneration, in addition to the remuneration pursuant to 1(a) to (c), payable after the end of the financial year in the amount of € 20,000, the chairman of the Audit Committee shall receive the triple amount.

(4) The remuneration relates in each case to a full financial year. For parts of a financial year or a shortened financial year, the remuneration shall be paid pro rata temporis. In case of a shortened financial year the comparability must be ensured by the calculation of values adjusted accordingly.

(5) The members of the Supervisory Board shall be included in a pecuniary damage liability insurance for bodies and certain management members (so called D&O insurance) maintained by the Company in its own interests in a reasonable amount, if such insurance is maintained. The premiums for this shall be paid by the Company.'

In accordance with the recommendations of the German Corporate Governance Code (as amended on 2 June 2005), the remuneration for the members of the Supervisory Board is to contain a profit-oriented element in addition to the fixed remuneration. The profit-oriented remuneration is to contain elements relating to the long-term success of the Company.

The proposed remuneration structure for the members of the Supervisory Board of TUI AG consists of a fixed element which represents half of the remuneration, and a variable element which represents the other half; one half of the variable remuneration is a short-term component and the other half a long-term component.

The fixed remuneration is intended as reasonable compensation for the supervisory and advisory work of a member of the Supervisory Board, and to provide an incentive to win sufficiently qualified personalities for the responsible position of a Supervisory Board member.

The short-term variable remuneration depends on the profit per share shown in the consolidated annual accounts for the preceding business year (profit per share). This is a deviation from the previous practise where the variable remuneration was tied to the dividend, as on the one hand the dividends do not always reflect the success of the Company and, on the other hand, the Supervisory Board has the power to take decisions on the amount of the dividends and to thereby possibly influence its own remuneration.

Finally, the long-term variable remuneration is to be oriented by the development of the profit per share, and thus by the interests of the shareholders for whom an increase in the profit per share will generally also mean an increase in the value of the shares held by them.

The remuneration for the chairman of the Supervisory Board and the chairman of the Audit Committee is increased to the triple amount of the remuneration for a member according to para 1 (a) to (c) as consideration for the chairman's greater workload.

13. Resolution on a Change of the Notice Period for Calling the General Meeting (Amendment of the Charter)

The notice period for calling the General Meeting was changed from at least one month to at least 30 days by the Act on the Integrity of Undertakings and to Modernize the Right of Avoidance ('UMAG') (section 123 para 1 AktG). The corresponding provision in the Charter of TUI AG in section 20 is to reflect the amendment of the law and to be newly worded.

The Executive Board and the Supervisory Board propose that section 20 para 1 of the Charter be newly worded as follows:

'The General Meeting must be called at least 30 days before the day by the end of which the shareholders must register as far as a shorter term is legally not allowed.'

14. Resolution on the Authorization of the Chairman of the Meeting to Reasonably Limit the Shareholders' Speaking Time and Time to Ask Questions (Amendment of the Charter)

By amending section 131 para 2 AktG, the UMAG intended to create a possibility to prevent abuses of the right to demand information and the right to speak at the General Meeting, and to improve the quality of the deliberations at the General Meeting. By bringing the General Meeting to an end within a reasonable and acceptable time, the attractivity of the General Meeting for seriously interested shareholders is to be increased. The chairman of the meeting is to have the right to reasonably limit the time for questions and the speaking time of each shareholder.

The Executive Board and the Supervisory Board propose that a new sentence 2 be inserted into section 22 para 2 of the Charter, as follows:

'He can reasonably limit the time for questions and the speaking time of a shareholder and shall in particular have the right, at the beginning of the General Meeting or during its course, to set a reasonable time limit for the entire General Meeting, for each item on the agenda, or for individual speakers and questions.'

15. Resolution on the New Authorization to Acquire and Use own Shares under Section 71 Para 1 Number 8 AktG, and on the Exclusion of the Subscription Right

To acquire its own shares, the Company requires specific authorization for this by the General Meeting, unless expressly authorized by law. As the authorization resolved by the General Meeting on 11 May 2005 will expire on 10 November 2006, a resolution is to be proposed to the General Meeting to again authorize the Company to acquire own shares.

The Executive Board and the Supervisory Board therefore propose that the following resolution be adopted:

a) TUI AG is authorized to acquire own shares with a volume of up 10% of its current capital stock. Together with other own shares held by the Company or attributable to it pursuant to secs. 71a et seq. AktG, the acquired shares must at no time account for more than 10% of the capital stock. The authorization must not be used for the purpose of trading in its own shares.

b) The authorization can be made use of entirely or partly, once or several times, pursuing one or several purposes, by the Company or by third parties for the account of the Company. The authorization will be effective until 9 November 2007. This authorization replaces the authorization for the acquisition of own shares granted by the General Meeting of TUI AG on 11 May 2005.

c) The acquisition is made at the option of the Executive Board through the stock exchange or by means of a public purchase offer or by means of a public invitation to the shareholders to submit a sales offer.

- If the acquisition of the shares takes place through the stock exchange, the amount per share paid by the Company (without ancillary acquisition costs) must not exceed or fall short of the rate in XETRA trading (or a comparable follow-up system) determined through the opening auction on the trading day by more than 5%.

- If the acquisition is made through a public purchase offer or a public invitation to submit a sales offer, the purchase price being offered or the maximum and minimum value of the purchase price range per share (without ancillary acquisition costs) must not exceed or fall short of the average of the closing rate in XETRA trading (or a comparable follow-up system) on the three trading days before the day of the public announcement of the offer or, as the case may be, the public invitation to submit a sales offer, by more than 10%. If, after the publication of a public purchase offer or the public invitation to submit a sales offer, substantial deviations from the relevant rate arise, the purchase offer or, as the case may be, the invitation to submit such a sales offer can be adjusted. In this case, the average rate on the three trading days prior to the public announcement will determine any adjustment. The purchase offer or, as the case may be, the invitation to submit such a sales offer can set out further conditions. If the purchase offer is oversubscribed or, in the case of an invitation to submit a sales offer, not all offers among several equivalent offers are accepted, the shares are to be allocated on a pro rata basis. The terms of the offer may provide for the preferential acceptance of a small number of up to a maximum of 100 shares per shareholder.

d) The Executive Board is authorized to use shares in the Company acquired on the basis of this authorization

for all purposes allowed by law, in particular also for the following purposes:

aa) The shares can be called in, with the approval of the Supervisory Board, without any further resolutions being required by a General Meeting. They can also be called in through the simplified procedure without any capital reduction by means of an adjustment of the proportionate arithmetic amount of the other shares in the capital stock of the Company. The decision to call in the shares can be limited to a part of the acquired shares. If the shares are called in through the simplified proceedings, the Executive Board is authorized to adjust the number of the shares in the Charter.

bb) The shares can also be sold in other ways than through the stock exchange or through a public offering to all shareholders, if these shares are sold for cash payment at a price which does not fall far short of the stock exchange price of shares in the Company with identical features at the time of the sale. In this case, the number of shares to be sold together with the new shares issued on the basis of authorizations to increase the capital with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG or on the basis of a conditional capital pursuant to sections 221 para 4, 186 para 3 sentence 4 AktG for bonds issued during the term of this authorization or in the time until it is made use of with conversion or option rights or, as the case may be, conversion duties must not exceed 10% in total of the capital stock at the time of this authorization or at the time at which it is made use of.

cc) The shares can, with the approval of the Supervisory Board, be sold for non-cash contributions, especially also in connection with the acquisition of undertakings, parts of undertakings, participations, or other assets, and in connection with mergers and acquisitions.

dd) The shares can also be used to fulfil conversion or option rights or for conversion obligations from convertible or warrant-linked bonds issued by the Company or its group member companies (or special dividend rights or dividend bonds with conversion rights, option rights or conversion obligations).

e) The authorization in d), bb) to dd) also comprises the use of shares in the Company which were acquired on the basis of section 71 d sentence 5 AktG.

f) The authorization in d) can be made use of once or several times, partly or entirely, individually or jointly, the authorizations in d), bb) to dd) also through dependent undertakings or undertakings majority owned by the Company or by third parties acting for their account or for the account of the Company.

g) The shareholders' subscription right to these own shares is excluded insofar as these shares are used in accordance with the authorization in d), bb) to dd) above.

Report of the Executive Board to the Annual General Meeting Pursuant to Sections 203 Para 2 Sentence 2, 186 Para 4 Sentence 2 AktG on Item 8 of the Agenda (Authorized Capital of € 246,000,000.00)

The Executive Board made use, with the approval of the Supervisory Board, of the authorization to increase the capital stock of the Company by issuing registered shares (authorized capital of € 170,000,000.00 according to the resolution adopted by the General Meeting on 18 May 2004 under Item 9 of the Agenda), and fully made use of it through the increase in capital in September 2005.

The new authorized capital in the amount of € 246,000,000.00 is proposed as TUI must also be able in the future to adjust its equity at any time to the business requirements. The Executive Board therefore considers it to be its duty to ensure that the Company will always be able to use the necessary instruments for raising capital, regardless of any concrete plans to do so. As decisions to cover capital requirements must generally be taken speedily, it is important for the Company not to depend in this on the rhythm of the Annual General Meeting. The law takes account of these requirements through the instrument of the 'authorized capital'. The most common occasions on which an authorized capital is used is the need to strengthen the equity basis and to finance the acquisition of participations.

Whenever the authorized capital is used through a cash capital increase, the shareholders in principle have a subscription right.

However, it is to be possible to exclude the subscription right to the extent necessary to be able to grant the holders of warrant-linked or convertible bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion right, option right or conversion obligation) which already exist or are to be issued in the future a subscription right to new shares, if the bond terms provide for this. Such bonds generally provide for dilution protection in that a subscription right to new shares can be granted to the bond holders in any subsequent issue of shares with a subscription right for the shareholders, instead of a reduction of the option or conversion price. The holders of the bonds are thus put into the same position which they would be in if they had already exercised their option or conversion right or, as the case may be, if a conversion obligation had been fulfilled. The advantage is that the Company – as opposed to dilution protection through a reduction of the option or conversion price – can achieve a higher issuing price for the shares to be issued upon conversion or the exercise of the option.

Furthermore, the Executive Board with approval of the Supervisory Board can exempt fractions from the shareholders' subscription right. This makes it possible to make use of the authorization through round amounts, facilitating an issue. These shares, exempt from the subscription right as the so-called 'free peak', are used in a beneficial manner for the Company.

The shareholders' subscription right can also be excluded with the approval of the Supervisory Board in the event of an increase in capital for non-cash contributions. In this case, the Executive Board will make use of the authorization to exclude the shareholders' subscription right only up to an amount of no more than 20% of the capital stock existing at the time of the entry into force of the authorization or, if this value is lower, at the time at which the authorization is made use of. The increase in capital for non-cash contributions is thus limited to a maximum of € 128,000,000.00. This enables the Executive Board to use shares of the Company in suitable individual cases to acquire companies, parts of companies, participations or other assets (e.g. hotels, ships or planes). In some cases, shares rather than money are demanded as valuable consideration for a takeover. The possibility to be able to offer shares in the Company as valuable consideration thus provides an advantage in competition for interesting acquisition targets, as well as the necessary flexibility to benefit from opportunities which arise for the acquisition of companies, parts of companies, participations or other assets without affecting its liquidity situation. The use of shares for such purposes can also be advantageous in the light of an optimal financing structure. The Company suffers no disadvantage from this, as the issue of shares for non-cash contributions requires the value of the non-cash contribution to be reasonable in relation to the value of the share.

The Executive Board is also authorized to use this authorized capital in cases where the Company initially undertook to pay money, e.g. as payment for an acquisition target, to subsequently issue shares instead of paying money to grant shares in the Company to the holders of such (certificated or non-certificated) monetary claims against the Company, with hindsight either entirely or partly instead of payment of money. This gives the Company additional flexibility.

Furthermore, it is to be possible to use this authorized capital, with an exclusion of the subscription right, to service bonds with conversion or option rights respectively to grant conversion obligations for which the subscribers did not make any cash contribution, but a non-cash contribution. This also makes it possible to use convertible and warrant-linked bonds as an acquisition currency in connection with the acquisition of companies, parts of companies, participations or other assets, which additionally increases the chances of prevailing in competition for an interesting acquisition opportunity.

The Executive Board will carefully consider in each case whether to make use of the authorization to increase the capital with an exclusion of the shareholders' subscription right. The Executive Board will do so only if the Executive Board and the Supervisory Board deem this to be in the interests of the Company and thus of its shareholders.

The Executive Board will report to the General Meeting on each concrete case in which the proposed authorization is made use of.

Report of the Executive Board to the Annual General Meeting on the Exclusions of the Subscription Right Provided for in Items 9, 10 and 15 of the Agenda Pursuant to Section 186 Para 4 Sentence 2, 203 Para 2 Sentence 2 and Section 71 Para 1 Number 8 Sentence 5 AktG

The authorizations in Items 9, 10 and 15 of the Agenda each provide for the possibility, on the basis of the provisions in section 186 para 3 sentence 4 AktG, to increase the capital, to issue convertible or warrant-linked bonds or to sell own shares which were acquired, excluding the shareholders' subscription right provided the statutory limit of 10% of the capital stock applicable in such cases is not – in total – exceeded.

The Executive Board will make use of any such authorization only in such a way that the limit of 10% of the capital stock in total, set out in section 186 para 3 sentence 4 AktG, is not exceeded. Regardless of whether the authorizations are made use of with the possibility of the exclusion of the subscription right individually or cumulatively, the limit of 10% of the capital stock for an exclusion of the subscription right pursuant to the provisions in section 186 para 3 sentence 4 AktG is not to be exceeded in total. The different proposed authorizations with the possibility to exclude the subscription right pursuant to section 186 para 3 sentence 4 AktG exclusively serve the purpose of giving the Executive Board the possibility to use the best suitable instrument in each concrete situation, observing the interests of the shareholders and of the Company, but not to repeatedly make use of the various possibilities to exclude the subscription right under these authorizations in order to exclude the shareholders' subscription right to an extent going beyond the limit of 10% of the capital stock set out in section 186 para 3 sentence 4 AktG.

Report on Item 9 of the Agenda (Authorized Capital of € 64,000,000.00)

The Executive Board made use of the authorization, with the approval of the Supervisory Board, to increase the capital stock of the Company by issuing registered shares (authorized capital in the amount of € 45,600,000.00 in accordance with the resolution adopted at the General Meeting of 18 May 2004, Item 10 of the Agenda), and partly made use thereof through the capital increase in September 2005. For this reason, a new authorized capital in the amount of € 64,000,000.00 is proposed.

If this authorized capital is used, it is to be possible to exclude the subscription right with the approval of the Supervisory Board if the new shares are issued in the event of a cash capital increase pursuant to section 186 para 3 sentence 4 AktG for an amount which does not fall far short of the stock exchange price. This authorization enables the Company to quickly and flexibly react to market opportunities in its various fields of business and if need be to also very quickly cover capital requirements which may arise. The exclusion of the subscription right makes it possible not only to react more speedily but also to place the shares for a price as close as possible to the then current market price, i.e. without the mark-down which is generally necessary in a rights issue. This results in greater issue proceeds for the benefit of the Company. In addition, such a placement can help to win new shareholder groups. When making use of the authorization, the Executive Board will fix the mark-down as

low as possible under the market conditions prevailing at the time of the placement. The mark-down from the stock exchange price at the time of the use of this authorized capital will in no case exceed 5% of the stock exchange price at that time. The shares issued with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG must not exceed – in total – 10% of the capital stock, neither at the time of the entry into force of the authorization nor at the time at which it is made use of. Own shares which are sold count for the purposes of this limitation provided they are sold during the term of this authorization up to the time at which it is made use of with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG. Furthermore, shares issued or to be issued to service bonds with conversion or option rights or a conversion obligation count for the purposes of this limitation, provided the bonds are issued during the term of this authorization up to the time at which it is made use of with an exclusion of the subscription right by analogous application of section 186 para 3 sentence 4 AktG.

This requirement takes account of the shareholders' need for dilution protection for their shareholdings in compliance with the statutory provisions. The limitation of the scope of the increase in capital without a subscription right gives every shareholder in principle the possibility to acquire the shares necessary to maintain his participation quota through the stock exchange subject to similar conditions. It is thus ensured that, in line with the statutory weighing of interests in section 186 para 3 sentence 4 AktG, the financial and voting interests are reasonably preserved whenever this authorized capital is used with an exclusion of this subscription right, while at the same time opening up further room for manoeuvre by the Company in the interests of all shareholders.

The possibility for the Executive Board to exclude the subscription right with the approval of the Supervisory Board in respect of fractions facilitates the handling of a rights issue if fractions arise because of the issue volume or to present a practicable subscription ratio.

Report on Item 10 of the Agenda (Authorization to Issue Convertible Bonds, Warrant-Linked Bonds, Special Dividend Rights and/or Dividend Bonds)

The Executive Board is currently authorized, by resolution adopted at the Annual General Meeting of 18 May 2004, Item 11 of the Agenda, to issue bonds with conversion or option rights to registered shares in the Company, with the approval of the Supervisory Board once or several times in the time up to 17 May 2009 with a maturity of up to 30 years. The Executive Board has so far not made use of this authorization.

In addition to the classic possibilities of procurement of outside capital and of equity capital, the issue of convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds (or combinations of these instruments) (together 'bonds') provides the possibility for TUI AG to use attracting financing alternatives on the capital market, depending on the market situation. In particular, the authorization to issue profit-related or profit-oriented instruments such as special dividend rights and dividend bonds extends the existing possibilities of TUI AG to strengthen its financial resources through the issue of so-called hybrid financing instruments and to thereby create the preconditions for the future business development. For this reason, it is proposed to the General Meeting to grant a new authorization to issue convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds (or combinations of these instruments). The proposed new authorization is intended to achieve both an adjustment to the current market practises and a further flexibilization. On the whole, it is to be possible to issue bonds up to a total nominal amount of € 1,000,000,000.00, granting a subscription right to up to 39,116,600 registered no-par shares in TUI AG.

The issue of convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds (or combinations of these instruments) makes it possible to raise outside capital on attractive terms. Depending on the bond terms, this capital can be classified both for rating purposes and for balance-sheet purposes as equity or as near-equity resources. The conversion or option premiums which are obtained as well as the equity classification enhance the capital basis of the Company and thus enable it to use attractive financing possibilities. The further possibilities which are envisaged in addition to granting convertible and/or option rights, namely to impose conversion obligations or to combine convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds, extend the range of possibilities regarding the details of these financing instruments. As financing forms have become common the area of the so-called hybrid financing instruments

which have an unlimited term, the authorization sets aside the current limitation of maturity for bonds with conversion or option rights respectively conversion obligations. The authorization gives the Company also the necessary flexibility to place the bonds itself or through participation companies in which it directly or indirectly holds a majority. Bonds can be denominated in euros or in the legal tender of any OECD member state.

To be able to adequately use the spectrum of the possible capital market instruments which represent conversion or option rights respectively conversion obligations, it appears appropriate to maintain the admissible issue volume in the new authorization in the amount of € 1,000,000,000.00 and to fix the conditional capital which serves to fulfil the conversion and option rights at € 100,000,000.00. This ensures that this authorization can be fully made use of. The number of shares which are needed to fulfil conversion and option rights respectively conversion obligations under a bond with a particular issue volume generally depends on the stock exchange price for the TUI share at the time of the issue of the bond. If a sufficient amount of conditional capital is available, the possibility to completely make use of the authorization to issue conversion or option bonds is secured.

In principle, a subscription right must be granted to the shareholders when convertible or warrant-linked bonds, special dividend rights and dividend bonds are issued. If convertible and/or warrant-linked bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion or option right) are to be issued, the Executive Board is to be authorized, by analogous application of section 186 para 3 sentence 4 AktG, to exclude this subscription right with the approval of the Supervisory Board if the issuing price does not fall far short of the market value of the bonds. This can help to enable the Company to benefit on short notice from favourable stock market conditions and to quickly and flexibly place a bond on attractive terms. The stock markets have become far more volatile. Whether the best possible issue result can be achieved will therefore increasingly depend on whether the Company can react quickly to market developments. Favourable and competitive conditions can generally be fixed only if the Company is not bound for an excessively long offering period. To ensure the attractiveness of the conditions and thus the chances of success for the issue during the entire offering period, a significant security mark-down will generally have to be made for a rights issue. Although section 186 para 2 AktG now allows the subscription price to be published (and thus the bond terms for bonds with conversion or option rights) up to the third last day of the subscription period, the volatility of the stock markets even then represents a market risk for several days, resulting in security mark-downs in determining the bond terms, and thus in non-competitive terms. Because of the uncertainty regarding the exercise of a subscription right, an alternative placement with third parties is more difficult or involves greater expense. Finally, if the Company grants a subscription right, the duration of the subscription period prevents it from reacting on short notice to a change of the market situation, which can result to unfavourable conditions for the procurement of capital by the Company.

The shareholders' interests are preserved in that the bonds must not be issued essentially below market value. The market value is to be determined in accordance with the recognized principles of the mathematics of finance. For this, the Executive Board will generally obtain an expert opinion from an experienced investment bank or Audit Company. In fixing the price, the Executive Board will take account of the capital market situation in each case and keep the mark-down from the market value as small as possible. The arithmetic value of a subscription right will thus be practicably zero so that the shareholders cannot sustain any financial disadvantage worth mentioning from the exclusion of the subscription right. Moreover, the shareholders have the possibility to maintain their share of the capital stock of the Company through an acquisition to the stock exchange subject to almost identical terms. Their financial interests are thus preserved in a fair and reasonable manner.

The authorization to exclude the subscription right pursuant to section 186 para 3 sentence 4 AktG applies only to bonds with rights to shares which represent no more than 10% of the capital stock, neither at the time of the entry into force of the authorization nor at the time of its exercise. Own shares sold during the term of this authorization up to the time at which it is made use of with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG count for the purposes of this limitations. Furthermore, shares issued during the term of this authorization up to the time at which it is made use of from the authorized capital with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG also count for the purposes of this limitation.

This attributability is intended to protect the shareholders' interests in the smallest possible dilution of their participation.

If special dividend rights or dividend bonds without a conversion right, option right or conversion obligation are issued, the Executive Board is authorized, with the approval of the Supervisory Board, to entirely exclude the shareholders' subscription right, if these special dividend rights or dividend bonds are debenture-like securities, i.e. no membership rights are granted in the Company, no participation in the liquidation proceeds is granted, and the amount of the yield is not calculated on the basis of the annual profit, the balance-sheet profit or the dividend. In addition, it is necessary for the yield and the issue amount of the special dividend rights or the dividend bonds to be in line with the market conditions for comparable fund raising at the time of the issue. If these preconditions are fulfilled, no disadvantages arise for the shareholders from the exclusion of the subscription right, as the special dividend rights or the dividend bonds grant no membership rights and also no participation in the liquidation proceeds or in the profit of the Company. Although it is possible to provide for the yield to depend on the existence of an annual profit, a balance-sheet profit or a dividend, it would be inadmissible to provide for a higher annual profit, a higher balance-sheet profit or a higher dividend to result in a higher yield. Thus, the issue of the special dividend rights or dividend bonds neither changes nor dilutes the voting right or the shareholders' participation in the Company or its profits. In addition, because of the terms of issue in line with the market situation, which is required by mandatory law in the event of such an exclusion of the subscription right, the subscription right has no value worth mentioning.

Both of the above possibilities to exclude the subscription right give the Company the flexibility to quickly react to favourable market situations, and enable it to flexibly use a low interest level or a favourable demand situation on short notice for an issue. The crucial aspect here is that, as opposed to an issue of bonds with a subscription right, the issuing price can be fixed only directly prior to the placement, avoiding an increase risk of a price change for the duration of a subscription period, and maximizing the issue proceeds in the interests of all shareholders. Moreover, the elimination of the run-up period involved in the subscription right provides further benefits both in respect of the costs for raising the funds and in respect of the placement risk. A placement without a subscription right can reduce the safety margin which is otherwise necessary, likewise the placement risk, and the raising of funds is possible at a lower price for the benefit of the Company and its shareholders.

The Executive Board is also authorized to exempt fractions from the subscription right with the approval of the Supervisory Board. Such fractions can arise from the amount of the issue volume and to present a practicable subscription ratio. In this case, the exclusion of the subscription right facilitates the handling of the capital measure.

Furthermore, the Executive Board is to have the possibility, with the approval of the Supervisory Board, to exclude the shareholders' subscription right in order to grant the holders of conversion or option rights or of bonds involving conversion obligations a subscription right to the extent that they would have such a right after exercising their conversion or option rights or, as the case may be, after the fulfilment of a conversion obligation. This offers the possibility, instead of reducing the option or conversion price, to grant the holders of option or conversion rights already existing at that time a subscription right as dilution protection. It is in line with the market standard to issue bonds with such dilution protection.

Bonds can also be issued for non-cash contributions, provided that is in the interests of the Company. In this case, the Executive Board is authorized, with the approval of the Supervisory Board, to exclude the shareholders' subscription right, provided the value of the non-cash contributions is fair and reasonable in relation to the theoretic market value of the bond to be determined in accordance with the recognized principles of the mathematics of finance. This opens up the possibility to use the bonds in suitable cases also as an acquisition currency, for example in connection with the acquisition of companies, parts of companies, participations or other assets (e.g. hotels, ships or planes). For example, the need may well arise in negotiations to offer valuable consideration not by payment of money, but in some other form. The possibility to offer bonds as valuable consideration thus represents an advantage in competition for interesting acquisition targets, and creates the necessary freedom of action to benefit from opportunities to acquire companies, parts of companies, participations or other assets while preserving the available liquidity. This can also make sense in the light of an optimal financing structure.

The Executive Board will in each case carefully examine whether to make use of the authorization to issue convertible bonds and/or warrant-linked bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion right, option right or conversion obligation) for non-cash contributions with an exclusion of the subscription right. The Executive Board will do so only if this is in the interests of the Company and thus of the shareholders.

The proposed conditional capital serves to service the conversion or option rights issued with the convertible or warrant-linked bonds or special dividend rights or dividend bonds or to fulfil conversion obligations for shares of the Company, provided the bonds were issued for cash contributions. Instead, other forms of performance can also be used.

Conversion or option rights respectively conversion obligations arising from bonds issued for non-cash contributions can on the other hand not be serviced out of the conditional capital. For this, it is necessary either to use own shares or to make an increase in capital for non-cash contributions. For an increase in capital for non-cash contributions, the authorized capital according to the resolution to be adopted under Item 8 of the Agenda is available. As a non-cash contribution, the claim arising from the bond is to be brought in, the determination of its value extending to the question whether the claim is valuable and whether the non-cash contribution was equivalent to the issuing price.

Report on Item 15 of the Agenda (Authorization to Acquire and Use own Shares)

The proposal in Item 15 of the Agenda provides for an authorization to acquire own shares pursuant to section 71 para 1 no. 8 AktG in the amount of up to 10% of the capital stock, limited to a period of 18 months.

TUI AG adopted a resolution at the Annual General Meeting of 11 May 2005 for an authorization to acquire own shares, limited to the time up to 9 November 2006. Because of the expiry of this authorization in the current financial year, this resolution including the authorization is to be annulled with effect from the entry into force of the new authorization to be granted at this Annual General Meeting.

In addition to an acquisition through the stock exchange, the Company is to be given the possibility to acquire own shares through a public purchase offer to be addressed to the shareholders of the Company or through the public invitation to the shareholders to submit an offer for the purchase of shares. The principle of equal treatment set out in the Stock Corporation Act must be observed. In the case of a public invitation to submit an offer, the addressees of the invitation can decide how many shares and – if a price range is fixed – at what price they wish to offer them to the Company. If a public purchase offer is oversubscribed or, in the case of an invitation to submit an offer for the purchase of shares, not all offers among several equivalent offers can be accepted, the shares are to be allocated on a pro rata basis. However, it is to be possible to provide for the preferential acceptance of a small number or of small parts of offers up to a maximum of 100 shares. This possibility serves to avoid fractions in determining the quotas to be acquired as well as small remaining shareholdings, and thus to facilitate the technical handling. The purchase price which is offered or the minimum and maximum value of the purchase price range offered per share (without ancillary acquisition costs) must not exceed or fall short of by more than 10% the average closing price in XETRA trading (or a comparable follow-up system) on the three trading days preceding the day of the public announcement of the offer or, as the case may be, the public invitation to submit a sales offer. If a substantial deviation from the relevant price arises after the publication of a public purchase offer or after the public invitation to submit a sales offer, the average price on the three trading days preceding the public announcement or offer can instead be used. The purchase offer or, as the case may be, the invitation to submit a sales offer can provide for further terms to be applicable.

The own shares which are acquired may be used for all purposes admissible by law, in particular also the following:

The proposed resolution contains the authorization to sell the previously acquired own shares outside the stock exchange for cash payment with an exclusion of the subscription right. A precondition for this is that the shares are sold at a price which does not fall far short of the stock exchange price of shares in the Company with the same features at the time of the

sale. This authorization makes use of the possibility to simplify the exclusion of subscription rights allowed under section 71 para 1 no. 8 AktG and, analogously, section 186 para 3 sentence 4 AktG. The shareholders' interest in dilution protection is taken account of the prohibition of selling the shares for a price which falls far short of the relevant stock exchange price. The final determination of the sales price for the own shares is made just before the sale. The Executive Board will keep a possible mark-down from the stock exchange price as low as possible in accordance with the market conditions prevailing at the time of the placement. The mark-down form the stock exchange price at the time at which the authorization is made use of will in no case exceed 5% of the then current stock exchange price. The authorization applies subject to the proviso that the shares sold with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG must not exceed – in total – 10% of the capital stock, neither at the time of the entry into force of this authorization nor at the time of its exercise. The exercise of this authorization shall only occur in the way that the border of 10% of the capital stock which is determined by section 186 para 3 sentence 4 AktG must be adhered in total, i.e. by inclusion of the possible exercise of the proposed authorizations under item 9 and 10. The shareholders in principles have the possibility to maintain their participation quota by purchasing TUI shares through the stock exchange. The authorization is in the interests of the Company because it provides a greater degree of flexibility. It makes it possible in particular to issue shares specifically to co-operation partners.

The sale of own shares can, with the approval of the Supervisory Board, also be made for non-cash contributions with an exclusion of the shareholders' subscription right. The Company is thereby enabled to offer own shares directly or indirectly as valuable consideration in connection with mergers or in connection with the acquisition of companies, parts of companies, participations or other assets (e.g. hotels, ships or planes). International competition and the globalization of the economy frequently require valuable consideration to be paid in such transactions in the form of shares. The authorization proposed here is intended to give the Company the necessary flexibility to quickly and flexibly benefit both nationally and internationally from opportunities which arise to acquire companies, parts of companies, participations or other assets. For this, the proposed exclusion of the subscription right is necessary. In determining the pricing ratios, the Executive Board will take care that the shareholders' interests are reasonably preserved. The Executive Board will, in determining the value of the shares granted as valuable consideration, orient itself by the stock exchange price for the TUI share. No formalistic orientation by a stock exchange price is intended, especially in order not to jeopardize negotiation results which have been achieved through fluctuations of the stock exchange price.

The authorization also provides for the own shares to be used, with an exclusion of the shareholders' subscription right, to fulfill conversion or subscription rights of holders of warrant-linked bonds or convertible bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion right, option right or conversion duty) issued by the Company or by its group members companies. It may be expedient to entirely or partly use own shares to fulfill the conversion rights instead of new shares from an increase in capital.

The above possibilities can be used not only with respect to shares acquired on the basis of this authorization. Instead, the authorization also comprises shares which were acquired pursuant to section 71d sentence 5 AktG. It is advantageous and provides further flexibility to be able to utilize these own shares in the same way as the shares acquired on the basis of this authorization.

The own shares acquired on the basis of this authorization can, with the approval of the Supervisory Board, be called in by the Company without a new resolution of the General Meeting. In accordance with section 237 para 3 no. 3 AktG, the General Meeting of the Company can resolve upon the redemption of its fully paid-in no-par shares without requiring a reduction of the capital stock of the Company. The proposed authorization expressly provides for this alternative in addition to a redemption with a capital reduction. If own shares are redeemed in without a capital reduction, the arithmetic share of the other no-par shares in the capital stock of the Company automatically increases. The Executive Board is therefore also to be authorized to make any necessary amendments of the Charter with respect to the number of no-par shares which may change through a redemption.

If the authorization is made use of, the Executive Board will report to the next General Meeting.

Participation

II. Participation in the General Meeting

According to section 21 of the Charter, the shareholders of the Company who, on the day of the General Meeting, are entered into the share register of the Company, and who register with their shares for the purpose of attending the General Meeting by the end of the registration period (3 May 2006, midnight), have the right to participate in the General Meeting and to exercise the right to vote at the General Meeting.

Shareholders who are entered into the share register will receive a written invitation from us and can then register

- **in writing at the following address**
  TUI Aktiengesellschaft
  Hauptversammlung 2006
  Aktionärsservice
  69975 Mannheim
- **per telefax under number**
  +49 (0) 180 500 18 52
- **or electronically at the internet address**
  (from 12 April 2006)
  http://www.tui-group.com
  link: 'Annual General Meeting'

Shareholders of TUI AG or their representatives will this year for the first time have the possibility to register electronically through the internet and to order accordingly entry tickets for the General Meeting or to grant power of attorney and give instructions to the voting trustees of the Company. This service will be available from 12 April 2006 under http://www.tui-group.com, item: 'Annual General Meeting'. The shareholder number and the individual access number necessary to access the personal internet service are indicated on the back of the above-mentioned personal letter.

Shareholders whose registration is received by the Company before the end of

3 May 2006

can grant power of attorney and give instructions to the voting trustees of the Company arriving at the address referred above up to

midnight, 9 May 2006,

and change the instructions or revoke the power of attorney. This applies also to powers of attorney and instructions given to the voting trustees of the Company before the end of 3 May 2006.

Entry tickets can be ordered exclusively in the time up to the end of

3 May 2006.

Advice on Voting by Proxy

Shareholders who are entered into the share register and have registered their shares on time have the possibility to have their right to vote at the General Meeting exercised by a credit institution, a shareholders' association, the voting trustees chosen by the Company or – with written power of attorney – any other person of their choice.

If a credit institution is entered into the share register, it can exercise the right to vote for shares not belonging to it only on the basis of authority granted for this by a shareholder.

The shareholders of TUI AG are offered the possibility to have their voting rights exercised at the General Meeting by employees of the Company bound by instructions. The power of attorney and instructions for the voting trustees of the Company can be given in writing by means of the answer form, which is a part of the above mentioned letter, per telefax as well as per Internet by using the above referred addresses/telefax numbers.

The voting trustees are obliged to vote in accordance with instructions given. Without any instructions, the power of attorney is invalid and the voting right will not be exercised. If instructions are not unmistakable, the voting trustees will abstain from voting on the items of the agenda concerned. The same applies in the event of unforeseen motions.

Details and forms for granting power of attorney and given instructions will be made available to our shareholders with sending the invitation.

Advice on Counter-Motions Pursuant to Section 126 Para 1 AktG

Counter-motions regarding proposals by the Executive Board and the Supervisory Board on a particular item on the agenda and nominations for the election of the auditor or the election of a member of the Supervisory Board can be addressed to:

TUI Aktiengesellschaft
Gesamtvorstandssekretariat
Karl-Wiechert-Allee 4
30625 Hanover
Germany

Telefax: +49 (0) 511 5 66-19 96
Email: gegenantraege.hv@tui.com

Motions and nominations for election addressed otherwise will not be taken into consideration for being made accessible pursuant to sections 126, 127 AktG. Motions and nominations for elections made by shareholders which are received by us and have to be made accessible will be published, including the shareholder's name, reasons, and a statement by management, if any, under the internet address

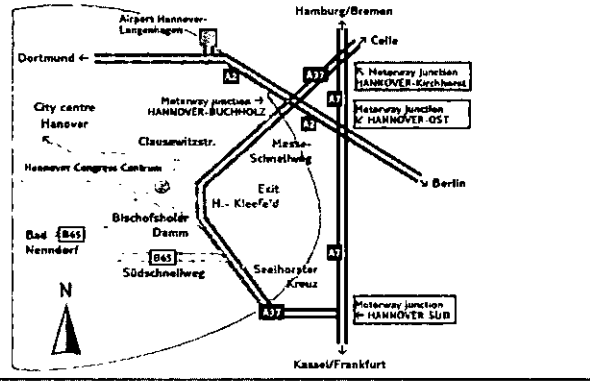
Our service for you On the following pages you will find detailed maps showing you how to get to the venue by car or public transport as well as the local facilities. Our guidelines for the Annual General Meeting will also answer many questions you may have in the run-up to the event. Also you will find tips for registration and voting per internet.



Directions How to get to the venue

By car

From the north
Exit the motorway A7 at junction Hannover-Kirchhorst, follow the motorway A37/Messeschnellweg. Turn right at the exit Hannover-Kleefeld, turn right again at the first traffic lights into Clausewitzstraße.
To the car park: Schackstraße.

From the south
Follow the motorway A7 to Hannover-Süd. Exit the A7 and follow the A37/Messeschnellweg. Turn left at the exit Hannover-Kleefeld, turn right at the first traffic lights into Clausewitzstraße. To the car park: Schackstraße.

Hanover and its surrounding areas

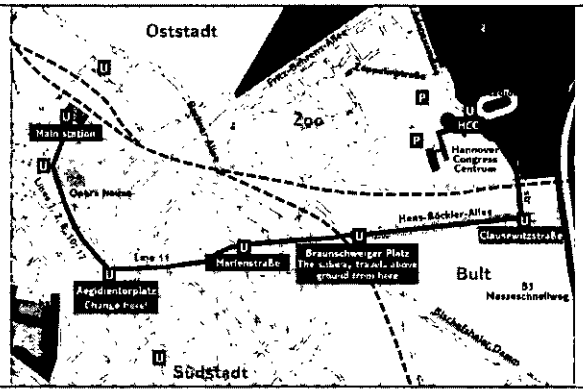
Hannover Congress Centrum
Theodor-Heuss-Platz 1-3
30175 Hanover
Germany

From the east
Follow the motorway A2 right across junction Hannover-Ost up to junction Hannover-Buchholz. Exit the A2 and follow the motorway A37/Messeschnellweg. Turn right at the exit Hannover-Kleefeld, turn right again at the first traffic lights into Clausewitzstraße.
To the car park: Schackstraße.

From the west
Follow the motorway A2 to the junction Hannover-Buchholz. Exit the A2 and follow the motorway A37/Messeschnellweg. Turn right at the exit Hannover-Kleefeld, turn right at the first traffic lights into Clausewitzstraße.
To the car park: Schackstraße

By public transport

From Hanover main station
take the **bus lines 128 or 134** towards Peiner Straße **directly to Hannover Congress Centrum.** The trip will take approx 10 minutes.



Or: With the **tram lines**
1 (direction Laatzen)
2 (direction Rethen)
8 (direction Messe/Nord)
10 or **17** (both direction Aegidientorplatz) **to Aegidientorplatz.** Then further on with **line 11** (direction Zoo) **to Hannover Congress Centrum.** The trip will take approx. 13 minutes.

From Hanover airport
take the **S-Bahn S5** to **Hauptbahnhof**, there the **bus lines 128 or 134** towards Peiner Straße **directly to Hannover Congress Centrum.** The trip will take approx. 35 minutes.

If you have any further questions please refer to the directional signs for our **information counter at Hanover main station.**

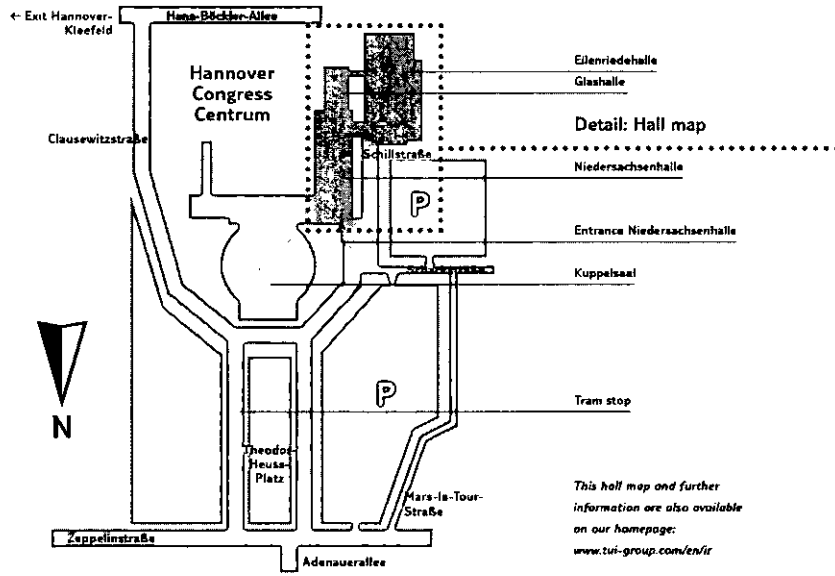
Schedules are available at www.efa.de

Hanover city

Die Bahn DB

GVH

Deutsche Bahn (DB) has made the following special offers for TUI AG shareholders travelling to the Annual General Meeting by rail: a second-class return ticket to Hanover for only EUR 69 (first-class: EUR 99) for distances up to 300 km and EUR 109 (first-class: EUR 159) for distances over 300 km. This special offer applies to all DB services, including ICEs. The tickets will be valid from 8 to 12 May 2006.



You can book this special offer now by phoning the hotline + 49 (0)1805 - 31 11 53* (reference. TUI Hauptversammlung).

* The DB-hotline is open from 8.00 a.m. to 9.00 p.m (CEST) every day except Sundays. Charge per call: 12 ct/ mn on Deutsche Telekom's fixed network.

If you have ordered an admission ticket, you will receive a special ticket with your mail which entitles you to use the **buses and trams in Hanover** free of charge.

Map of Meeting Halls

Guidelines for the AGM

Accompanying person	Shareholders are entitled to be accompanied by one additional person even if this person does not have an admission ticket. The accompanying persons will receive a guest card which, however, does not entitle them to put questions or take part in the votes at the AGM.
Admission	The AGM starts at 10.30 a.m. The doors of the Hannover Congress Centrum will be opened at 9.00 a.m. We would recommend you to arrive as early as possible to avoid waiting times at the registration desks.
Annual report	You will receive a copy of the Annual Report 2005 in the glass corridor right in front of the assembly hall (cf. hall map on page 31).
Catering	Snacks are available at any time. The lunch buffet will open at noon. This year it will feature hot and cold specialties from TUI's leading holiday destinations.
Cloakroom	You may leave your coat and any personal belongings or luggage at the cloakroom free of charge.
Information stall	If you have any questions concerning the meeting, please contact the information desk in the lobby (cf. hall map on page 31).
Internet access	Several terminals have been installed in the lobby.
Investor Relations stall	The Investor Relations staff will be glad to deal with any questions you may have concerning the share at a separate desk (cf. hall map on page 31).
Laptops	No power grid connections are available at the seats in the assembly hall. However, you may use your laptop if you want to take notes during the meeting.
Leaving the meeting	In order to be able to keep the attendance figures updated until the final vote, we would request shareholders or shareholder proxies wishing to leave the assembly hall prior to the end of the meeting to either submit their voting card block to the control staff at the exit or prepare and hand in a proxy to a shareholder, shareholder representative or voting trustees of the company present at the meeting by means of a proxy.

Mobile phones

You are free to bring your mobile phone. However, the chairman of the AGM will ask participants to switch their mobiles off at the opening of the AGM.

Participation certificate

Please use the sheet enclosed in the envelope of your voting card block as a confirmation of your participation in the AGM.

Picture and sound recording devices

It is forbidden to take photographs or make video or sound recordings at the AGM. Participants will therefore be checked for picture/video and sound recording devices which will have to be deposited for the duration of the AGM.

Proxy

If you are prevented from attending the AGM, you may have your voting rights exercised by means of a proxy: by your custodian bank if it offers this service, by a voting trustee of the company or a person of your own choice.

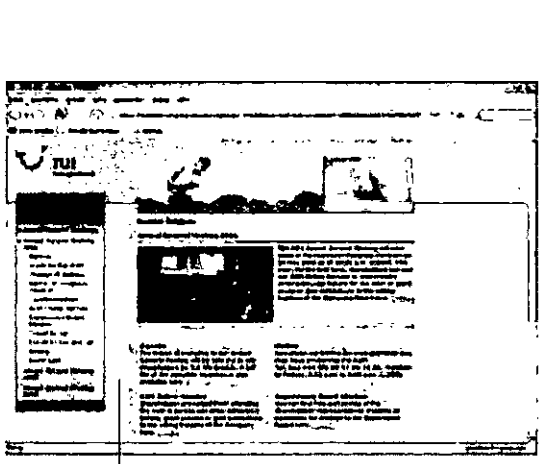
Registration

Registration desks have been set up in the lobby. Upon presentation of your admission ticket, you will receive a voting card block which entitles you to raise questions at the AGM and take part in the votes.

Requests for the floor

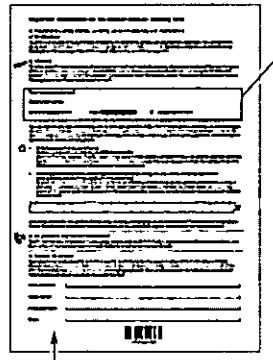
The speaker registration desk is positioned directly in front of the panel for the members of the Executive Board and Supervisory Board. Sheets to request the floor are available at this desk which may be filled in, preferably before the beginning of the AGM. Once the presentations are concluded and discussion of the individual items of the agenda begins, the names of the speakers will be called out and you can proceed to the rostrum to present your question or comment.

Rostrum



A rostrum with a microphone has been installed next to the panel to make sure that all participants can hear the speakers' presentations.

Vote



At registration you will receive a voting card block. You will find full details on the voting procedure in a separate flyer with the voting card block.

Annual General Meeting online All information on the AGM at one internet site

Would you like to check out the agenda online, order documents from TUI AG, print out the directions or try out a completely new feature: registration or order of admission tickets per internet or use one of the many other options available – you can now do all this on our homepage: www.tui-group.com. Just follow the instructions below:

Visit our homepage at **http://www.tui-group.com/en/ir/agm/agm_2006/sitemap.html** for full details on the Annual General Meeting, including supplementary information not included in our printed invitation, e.g. brief biographies of all the shareholders' representatives nominated for election to the Supervisory Board.

You will find all the information you need to log in on the internet on the **back of your letter of invitation:**

- your **shareholder number** and
- your individual secret **access number**, which you can see upon rubbing off the relevant section.

Management Report → An eventful year. → Growth in core businesses. → Improved earnings in tourism. → Shipping on high level of previous year. → Capital increase successfully issued. → Credit ratings by Standard & Poor's and Moody's assigned.

2005 – An eventful year. Growth in core businesses. Expansion of shipping through acquisition of CP Ships. Capital increase successfully issued.

For the TUI Group, 2005 was a year characterised by growth in its core businesses tourism and shipping, the expansion of its shipping division through the acquisition of CP Ships and the strengthening of its financial position by means of the successful issue of a capital increase and three bonds. This will fundamentally shape the Group's future development.

2005 at a glance

Growth in core businesses
For the TUI Group, 2005 was an overall successful year. The growth in the two core businesses tourism and shipping, which continued the previous year's trend and achieved a further increase in turnover was essential for this assessment. However, in particular in tourism and central operations, earnings did not develop in line with turnover growth due to exceptional factors.

Turnover and earnings in the core businesses

At € 14.1 billion, turnover in the tourism division exceeded the previous year's level by 5.8%, while earnings in the tourism division (EBTA) rose by 2.0% year-on-year to € 360 million. The shipping division generated turnover growth of 42.7% to € 3.8 billion; adjusted for the consolidated turnover of CP Ships, it rose by 19.9% to € 3.2 billion. At € 279 million, earnings in shipping (EBTA) almost matched the previous year's record levels. Both divisions thus outperformed the turnover budgets set up by the Executive Board for the 2005 financial year. This also applied to earnings by shipping, while earnings in tourism fell short of expectations for a number of exceptional factors.

Turnover and earnings by divisions

At € 19.6 billion turnover by divisions, which comprised the core businesses tourism and shipping but also central operations and the discontinuing operations exceeded the previous year's level by 8.7%. Earnings by divisions (EBTA) totalled € 633 million, a decline of 6.9% year-on-year due to exceptional factors.

Successful takeover bid for CP Ships
The decision to expand the shipping division by the acquisition of the Canadian shipping company CP Ships was an important step for the future development of the TUI Group. Following intense preparations, TUI AG announced on 21 August 2005 its intention to take over CP Ships Ltd. by means of a cash offer to the shareholders. The offer price was US dollar 21.50 per share and valued CP Ships' shares at a total amount of € 1.7 billion (US dollar 2.0 billion). It comprised a premium of 24.9% on the weighted average closing price of CP Ships' shares of the last three months prior to the submission of the bid and a premium of 9.7% on the closing

price of 19 August 2005, the last trading day before the offer was announced. In accordance with a support agreement between the two companies, the Board of Directors of CP Ships unanimously recommended acceptance of TUI's bid to the shareholders of its company.

The offer documents were sent to the shareholders on 1 September 2005 and the term for acceptance was extended to 18 October 2005 on 7 October 2005 for reasons related to regulatory approvals. When the acceptance period expired, shareholders holding a total of 89.1% of the outstanding CP Ships shares had accepted the offer. 83,972,849 shares or 89.0% had been deposited in line with legal requirements and were taken up on 20 October 2005. In a further step, the CP Ships' shareholders meeting of 14 December 2005 approved the merger of CP Ships with Ship Acquisition Inc., an indirect wholly-owned subsidiary of TUI AG founded for the acquisition. Upon satisfaction of all necessary legal requirements for the merger on 20 December 2005, TUI completed the total takeover of CP Ships.

Capital increase successfully issued
The acquisition of CP Ships was partly financed by a rights offering, published on 1 September 2005 and offering TUI shareholders 71,502,616 new shares at a rate of five-for-two. For every five old shares held, shareholders were entitled to subscribe to two new shares with dividend entitlement for the entire 2005 financial year. The subscription price was € 14.20 per share. Following the expiry of the two-week subscription period, around 99.5% of the subscription rights had been exercised; the non-exercised subscription rights were placed in the market in due course by a banking consortium that had undertaken to completely underwrite the capital increase. TUI AG thus generated proceeds from the issue before deduction of costs of around € 1 billion.

Ratings by Standard & Poor's and Moody's assigned
At the end of October 2005, the rating agencies Standard & Poor's and Moody's, commissioned by TUI, published their ratings for TUI AG and the bonds issued by TUI AG in 2004. Standard & Poor's long-term corporate rating was 'BB+, outlook positive', while that of Moody's was 'Ba2, outlook stable'. TUI AG's bonds were rated 'BB' by Standard & Poor's and 'Ba2' by Moody's. Due to the assignment of the ratings, an increase in the coupons for the 2004 bonds was avoided and a solid foundation for the issue of the 2005 bonds was laid.

€ 1.3 billion refinanced by means of three bonds
Following a roadshow in Europe and Asia, TUI AG successfully issued three bonds totalling € 1.3 billion in the capital market. TUI met the extraordinarily strong demand by increasing the originally planned bond volume by € 0.3 billion. The bonds were Senior Fixed Rate Notes of € 450 million, Senior Floating Rate Notes of € 550 million and a subordinated hybrid bond of € 300 million. The proceeds were used in order to refinance a bridge financing facility taken up in connection with the acquisition of CP Ships, redeem liabilities of CP Ships and refinance Group liabilities with new, longer-term maturities.

Results of operations

Several revised or newly issued financial reporting standards of the IASB were applicable as binding standards in preparing the consolidated financial statements for 2005 (cf. notes: Accounting principles). This mainly impacted the structure of the profit and loss statement and the balance sheet as well as the recognition or measurement of individual items in the profit and loss statement and the balance sheet.

For comments on the development of turnover and earnings by divisions, the segments were structured into continuing and discontinuing operations; the operational results from divestments were adjusted respectively and also presented under discontinuing operations. Due to changes in the internal reporting structure, the airlines Hapag-Lloyd Express (HLX) and Thomsonfly, previously shown under central operations, were allocated to the tourism division.

In order to ensure the comparability of the reported figures, the previous year's figures were restated accordingly, as far as required by IFRS, explanatory information on the changes was provided wherever necessary in order to enhance understanding, and a reconciliation table was drawn up for the profit and loss statement.

Assessment of the results of operations

Turnover and earnings by divisions

The business development in the core businesses tourism and shipping was positive overall. Tourism benefited from the sustained recovery of travel markets in Europe; however, its contribution to Group earnings only rose by 2.0%, due to exceptional effects in France. Shipping (excluding CP Ships) managed to slightly exceed the previous year's high level of earnings. Due to the short consolidation period and effects arising on first-time consolidation, the amount contributed to earnings by CP Ships was only minor. Being part of the discontinuing operations, the trading sector, as expected, could not repeat its exceptionally high result of the previous year, which had been boosted by special economic development in the US steel trade. As far as the business development is concerned, the 2005 financial year was a successful year for the Group's core businesses. In shipping, earnings met expectations of the Executive Board, whilst in tourism they were behind expectations due to exceptional factors.

Turnover by divisions

€ million	2005	2004	Var. %
Tourism	14,096.5	13,318.9	+ 5.8
Central Europe	5,749.6	5,384.5	+ 6.8
Northern Europe	4,809.2	4,674.6	+ 2.9
Western Europe	2,753.7	2,505.2	+ 9.9
Destinations	532.5	508.2	+ 4.8

Shipping	3,834.2	2,686.7	+ 42.7
Hapag-Lloyd	3,222.2	2,686.7	+ 19.9
CP Ships	612.0	–	n. m.
Central operations	269.6	283.6	- 4.9
Continuing operations	**18,200.3**	**16,289.2**	**+ 11.7**
Trading	1,002.9	971.5	+ 3.2
Special logistics	415.4	785.5	- 47.1
Discontinuing operations	**1,418.3**	**1,757.0**	**- 19.3**
Turnover by divisions	**19,618.6**	**18,046.2**	**+ 8.7**

Continuing operations

In accordance with IFRS 5, Group turnover comprised the turnover of the TUI Group's continuing operations, tourism, shipping and central operations, and also includes turnover with discontinuing operations. Turnover of continuing operations with third parties in the 2005 financial year rose by 11.7% to € 18.2 billion. Adjusted for the turnover generated by CP Ships, included in the consolidated financial statements for the period from 25 October 2005, the date of acquisition, until 31 December 2005, turnover of the continuing operations totalled € 17.6 billion, up 8.0% year-on-year.

At € 14.1 billion, turnover in the tourism division increased by 5.8%. Turnover achieved in Germany and the UK was considerably higher than in the previous year, with the Netherlands also reporting relatively strong growth. Turnover in shipping was up 42.7% to € 3.8 billion; this was attributable to the growth in turnover of Hapag-Lloyd Container Linie by 19.9% to € 3.2 billion and to CP Ships, included in consolidation for the first time, accounting for € 0.6 billion.

Discontinuing operations

The discontinuing operations trading and special logistics reported total turnover of € 1.4 billion in the 2005 financial year, 19.3% less than in the previous year. While turnover in the trading sector rose by 3.2% to € 1.0 billion, special logistics reported a substantial decline, mainly resulting from the divestments made in this sector in the previous year.

Turnover by divisions

Total turnover of the TUI Group's divisions with third parties in the 2005 financial year stood at € 19.6 billion, up 8.7% year-on-year. Growth in the continuing operations more than offset the declines in the discontinuing operations. Tourism accounted for 71.9% of turnover by divisions, with shipping accounting for 19.5% and central operations for 1.4%. The discontinuing operations trading and special logistics contributed 7.2%.

Earnings by divisions

€ million	2005	2004	Var. %
Tourism	360.0	352.9	+ 2.0
Central Europe	82.5	61.9	+ 33.3
Northern Europe	109.2	77.8	+ 40.4
Western Europe	- 9.6	39.5	n. m.
Destinations	169.3	143.6	+ 17.9
Other tourism	8.6	30.1	- 71.4
Shipping	278.5	279.6	- 0.4
Hapag-Lloyd	281.0	279.6	+ 0.5
CP Ships	- 2.5	–	–
Central operations	- 253.0	- 211.9	- 19.4
Continuing operations	**385.5**	**420.6**	**- 8.3**
Trading	62.8	81.2	- 22.7
Special logistics	150.5	156.7	- 4.0
Divestments	34.0	21.5	+ 58.1
Discontinuing operations	**247.3**	**259.4**	**- 4.7**
Earnings by divisions (EBTA)	**632.8**	**680.0**	**- 6.9**

Continuing operations

Earnings by the continuing operations tourism and shipping as well as central operations (before income taxes and amortisation of goodwill) decreased by 8.3% to € 386 million in the 2005 financial year. At € 360 million, tourism accounted for the largest proportion, increasing its earnings by 2.0% year-on-year. Shipping contributed a total of € 279 million to earnings by continuing operations. At € 281 million, earnings of Hapag-Lloyd were up 0.5% on the previous year's figure. Earnings contribution of CP Ships was € - 2 million. A negative impact on earnings by continuing operations was caused by the development of earnings in central operations closing at € - 253 million, which was down by 19.4% year-on-year.

Discontinuing operations

In the 2005 financial year, earnings by the discontinuing operations trading and special logistics as well as divestments (before income taxes and amortisation of goodwill) dropped to a total of € 247 million. One reason was the earnings contribution of the trading sector, which was reduced by 22.7% to € 63 million. Trading business continued to perform well but could not repeat the high earnings of the previous year which had been boosted by extraordinary market conditions. Another reason was the high income from divestments in special logistics achieved in the previous year. In this year, the key items apart from the profit from ordinary activities of the special logistics sector were the unusual income from the divestment of rail logistics and subsequent income from the settlement of the divestment of the former energy sector of which the aggregate amount was slightly higher than in the previous year.

Earnings by divisions (EBTA)

Overall, the TUI Group reported earnings by divisions (before taxes on income and amortisation of goodwill) of € 633 million in the 2005 financial year, a decrease of 6.9% year-on-year.

Adjusted earnings

Earnings by divisions for the 2005 financial year, adjusted for unusual expenses and income from discontinuing operations as well as the effects from revaluation of conversion rights under the convertible bond issued in 2003, required in accordance with IAS 39 in combination with IAS 32, was € 486 million, down by 8.7% on the previous year.

In the 2005 financial year, unusual income was generated from the divestment of rail logistics, totalling € + 108 million. A further € + 34 million had to be recognised as unusual income, which resulted from the settlement of the divestment of the former energy sector. Income of € 7 million was adjusted in connection with the divestment of the US steel service companies. The revaluation of conversion rights created expenses of € 2 million, which was also included in the adjustment.

Adjusted earnings by divisions

€ million	2005	2004	Var. %
Earnings by divisions (EBTA)	632.8	680.0	- 6.9
Unusual expenses and income	149.3	132.3	+ 12.8
Revaluation of conversion rights	- 7.2	+ 15.9	n. m.
Adjusted EBTA	485.7	531.8	- 8.7

Development of Group earnings

Impact of newly adopted IFRS standards

The first-time application of the newly adopted accounting standard IFRS 5 had a significant impact on the structure and contents of the items of the consolidated profit and loss statement. The main new feature is that operating income and expenses after income tax from activities to be defined as discontinuing operations according to the standard have been summarised into one item, i.e. 'Result from discontinuing operations'. This item also includes the effects of the removal of companies from consolidation and of measurement at fair value less disposal costs. The effects of accounting standards applicable for the first time are outlined in detail in the section 'Accounting principles' in the notes on the consolidated financial statements. The previous year's figures were restated in line with the new regulations, if required by IFRS.

The development of the items of the consolidated profit and loss statement and of earnings before taxes on income was primarily determined by the business development in the core businesses tourism and shipping. Other factors impacting the development were changes due to the first-time consolidation of CP Ships and the financing measures initiated in the course of the acquisition of CP Ships as well as the refinancing of financial liabilities.

Consolidated profit and loss statement

€ million	2005	2004	Var. %
Turnover	18,201.3	16,293.3	+ 11.7
Other income	602.5	655.0	- 8.0

- Attributable to shareholders of TUI AG	456.7	528.2	- 13.5
- Minority interests	38.1	43.8	- 13.0

Net assets of the Group

The Group's balance sheet total grew by 23.9% to € 15.3 billion. This was mainly due to the changes in the group of consolidated companies. 84 companies were added to consolidation, with the additions due to the acquisition of CP Ships having the strongest impact on net assets. 43 companies were removed from consolidation, mainly in connection with the divestment of VTG's rail and tank container business and the restructuring of the business in UK. The acquisitions and the divestment also impacted the off-balance-sheet arrangements carried under other financial liabilities.

Development of the Group's asset structure

€ million	31 Dec 2005	31 Dec 2004	Var. %
Fixed assets	11,321.5	9,317.2	+ 21.5
Non-current receivables	543.3	554.0	- 1.9
Non-current assets	11,864.8	9,871.2	+ 20.2
Inventories	150.4	357.1	- 57.9
Current receivables	1,999.3	1,661.0	+ 20.4
Cash and cash equivalents	599.2	481.1	+ 24.5
Assets held for sale	714.7	–	–
Current assets	3,463.6	2,499.2	+ 38.6
Assets	**15,328.4**	**12,370.4**	**+ 23.9**
Equity	4,375.2	2,659.8	+ 64.5
Liabilities	10,953.2	9,710.6	+ 12.8
Total liabilities	**15,328.4**	**12,370.4**	**+ 23.9**

Structural ratios

Vertical structures

Non-current assets accounted for 77.4% of total assets, compared with 79.8% in the previous year. Fixed assets totalled 79.8% of non-current assets; amongst others they rose due to the acquisition of CP Ships by 21.5% to € 11,322 million. Since current assets also rose, the capitalisation ratio (ratio of fixed assets to total assets) stood at 73.9% and thus hardly changed on the previous year's level of 75.3%.

Current assets accounted for 22.6% of total assets, compared with 20.2% in the previous year. The Group's liquid funds were managed with a view to matching current financial requirements and optimising interest structures. At the balance sheet date, they totalled € 599 million and were thus 24.5% up year-on-year. Liquid funds accounted for 3.9% of total assets, the same as last year. Apart from the liquid funds, TUI had a cash reserve of € 2.5 billion, comprised of a syndicated credit line of a banking consortium and bilateral credit lines with banks.

Horizontal structures

At the balance sheet date, 36.9% of non-current assets were covered by equity, compared with 26.9% in 2004. 38.6% of fixed assets were covered by equity, following 28.5% in the previous year. Equity plus non-current financial liabilities covered 67.0% of fixed assets, compared with 64.3% in 2004.

Financial position of the Group

Development of the Group's capital structure

€ million	31 Dec 2005	31 Dec 2004	Var. %
Non-current assets	11,864.8	9,871.2	+ 20.2
Current assets	3,463.6	2,499.2	+ 38.6
Assets	**15,328.4**	**12,370.4**	**+ 23.9**
Subscribed capital	641.0	457.0	+ 40.3
Reserves	3,177.2	1,966.4	+ 61.6
Hybrid capital	294.8	–	–
Minority interests	262.2	237.4	+ 10.9
Equity	4,375.2	2,659.8	+ 64.5
Non-current provisions	1,956.1	1,674.0	+ 16.9
Current provisions	620.6	658.6	- 5.8
Provisions	2,576.7	2,332.6	+ 10.5
Non-current financial liabilities	3,213.9	3,328.8	- 3.5
Current financial liabilities	1,144.3	402.9	+ 184.0
Financial liabilities	4,358.2	3,731.7	+ 16.8
Non-current other liabilities	71.5	150.1	- 52.4
Current other liabilities	3,946.8	3,496.2	+ 12.9
Other liabilities	4,018.3	3,646.3	+ 10.2
Liabilities	**15,328.4**	**12,370.4**	**+ 23.9**

Capital structures

The acquisition of CP Ships and the associated capital measures also had an impact on the TUI Group's capital structures. Overall, non-current capital rose in absolute terms by 23.1% to € 9,617 million, in relation to the balance sheet total it declined by 0.5 percentage points to 62.7%. The equity ratio rose to 28.5%, up from 21.5% in 2004. Equity and non-current financial liabilities accounted for 49.5% of the balance sheet total at the balance sheet date. The gearing, i.e. the ratio of financial liabilities to equity, improved to 99.6%, following 140.3% in the previous year.

Liquidity analysis

In the 2005 financial year, the TUI Group's solvency was secured at any time by cash inflows from operating activities, bilateral and syndicated credit arrangements with banks and a bridge loan facility with a consortium of banks arranged in connection with the takeover bid for CP Ships.

Capital resources

In December 2005, TUI AG concluded an agreement on a syndicated credit line (multicurrency revolving credit facility) totalling € 1.75 billion. It had a maturity of three years with the option of two extensions for one year each. In addition, the Group had bilateral credit lines with banks totalling € 1.2 billion. At the balance sheet date, a total of € 0.5 billion of the credit lines had been taken up. The capital resources of TUI thus totalled € 2.5 billion. In addition cash and cash equivalents of € 0.6 billion were available at the balance sheet date.

Summary cash flow statement

€ million	2005	2004	Var. %
Net cash inflow from operating activities	+ 964.6	+ 963.5	+ 0.1
Net cash outflow from investing activities	- 2,152.8	- 16.1	n. m.
Net cash inflow/outflow from financing activities	+ 1,306.5	- 813.0	n. m.
Change in cash and cash equivalents	**+ 118.3**	**+ 134.4**	**- 12.0**

Net cash inflow from operating activities

The net cash inflow from operating activities of € 965 million resulted from Group earnings, which reached € 1,121 million, adjusted for depreciation and amortisation, interest expenses and gains on the disposal of fixed assets. The major contribution came from the operating results in the core businesses tourism and shipping. A further positive effect was attributable to the reduction of inventories in the US steel service companies and the increase in provisions.

Net cash outflow from investing activities

The net cash outflow from investing activities totalled € 2,153 million. Cash outflows of € 2,994 million primarily resulted from the acquisition of CP Ships and the year-on-year increase in the investment volume in tourism and shipping, including advance payments made for the purchase of aircraft. Cash inflows mainly resulted from the disposal of property, plant and equipment totalling € 345 million and of consolidated companies and financial assets totalling € 496 million, in particular the divestment of VTG's rail logistics activities.

Net cash inflow from financing activities

The net cash inflow from financing activities amounted to € 1,306 million. Major items were the cash inflow from the capital increase in September 2005 totalling € 1,281 million, the issue of three bonds in December 2005 and the increase of financial liabilities totalling € 2,087 million. Dividend and interest payments caused a total cash outflow of € 467 million, up 23.8% on the previous year. The redemption of bonds and financial debt resulted in payments of € 1,595 million, down 31.7% on the previous year.

Development of cash and cash equivalents

€ million	2005	2004	Var. %
Cash and cash equivalents at the beginning of the period	**481.1**	**348.5**	**+ 38.0**
Changes due to changes in consolidation	- 2.0	+ 3.5	n. m.

Net profit for the year	390.3	137.6	+ 183.6

Net profit for the year and profit appropriation

For the 2005 financial year, TUI AG posted a net profit for the year of € 390.3 million. Taking account of the profit brought forward of € 0.3 million and the transfer of € 195.1 million to revenue reserves, net profit available for distribution amounted to € 195.5 million. This is available for distribution of a dividend of € 0.77 cents per no-par value share. At 250,732,575 shares entitled for dividend, distribution will amount to € 193.1 million, with € 2.4 million remaining to be carried forward.

Report on subsequent events

Business travel activities

On 3 January 2006, TUI AG sold its business travel activities, pooled under the wholly-owned subsidiary TQ3 Travel Solutions Management Holding GmbH, to the Dutch BCD Holdings N.V. The business travel market is currently undergoing a global consolidation process. Against this background, TUI seized the opportunity to sell its business travel operations, which is not part of its core business in tourism, to a specialist provider operating on a worldwide scale. The transaction volume was around € 0.3 billion, including TQ3's financial liabilities taken over by the buyer.

In the 2005 financial year, the business travel activities contributed € 0.3 billion to Group turnover. This amount was shown under Other tourism in the segment report. Earnings before taxes on income and amortisation of goodwill (EBTA) totalled € 6 million.

US steel service companies

On 14 February 2006 TUI AG divested its indirect 100% stake in the US steel service companies of the PNA Group. The divestment was part of the divestment programme and completed the scheduled concentration of the TUI Group on the two core businesses tourism and shipping. Including the companies' financial liabilities, taken over by the buyer, the transaction volume was around € 0.3 billion.

The US steel service companies, being part of the trading sector, were classified as discontinuing operations in line with IFRS 5. In the 2005 financial year, their turnover of € 1.0 billion was therefore not included in Group turnover. It was only shown separately in the segment report, as were earnings before taxes on income and amortisation of goodwill (EBTA) which totalled € 63 million. Earnings after tax of the US steel service companies totalling € 33 million were included in the consolidated profit and loss statement and shown under 'Result from the discontinuance of operations'.

Report on expected developments

Macroeconomic situation

General development

In 2005, the world economy continued to grow despite an increase in energy and commodity prices. Following a slow start, the economy gained momentum in the second half of the year. For 2006 and 2007, economists expect the growth of the world economy to continue at virtually the same pace. The experts expect the crude oil price to stabilise at the average level of 2004, resulting in a reduction of the adverse effects caused by its strong increase. The exchange rate of the US dollar against the euro is expected to only fluctuate within a narrow bandwidth around the average rate of 2004. Monetary stimuli for the economy will weaken; nevertheless a restrictive monetary policy is not expected despite further increases in interest rates. Overall, the preconditions for sustained economic expansion over the next two years are assessed as favourable.

Tourism

Turnover

Based on the expected volume growth, turnover in the tourism division will also rise. Innovative products in the package tour market and the expansion of offerings of higher-quality specialist tours are to contribute to an increase in average prices and an improvement in margins. Based on turnover in the 2005 financial year, of about € 14 billion, turnover growth of up to € 15 billion is targeted for the 2006 financial year. Here, too, the Central Europe sector is expected to grow above average, while the Northern and Western Europe sectors will not grow as strongly, according to their volume growth.

Earnings

The earnings (earnings before interest, taxes on income and amortisation of goodwill (EBITA)) of the individual sectors of the tourism division will develop differently. In the Central Europe sector, measures to improve production workflows and product innovation will be reflected by a significant improvement in earnings. In the Northern Europe sector, the restructuring programmes implemented in 2004 will have a positive impact on earnings. In the Nordic countries it is possible that 2004 earnings will not be reproduced due to the high fuel costs. The Western Europe sectors is planning a positive profit contribution, in particular by means of improved performance in France. The destinations sector is also expected to achieve an increase in earnings attributable to the incoming agencies as well as the hotel companies.

Shipping

Turnover

Against the background of the expected development of transport volumes and average freight rates, but in particular due to the integration of CP Ships, the shipping division will achieve a substantial increase in turnover. Based on turnover in the 2005 financial year of € 3.8 billion, an increase to more than € 7 billion will be possible in the 2006 financial year.

Earnings

The earnings of the shipping division in the 2006 financial year (earnings before interest, taxes on income and amortisation of goodwill (EBITA)) will be significantly impacted by the integration of CP Ships into Hapag-Lloyd Container Linie, which is expected to be completed by 2007. Earnings from current business activities will be positively affected due to the first-time consolidation of CP Ships for a full year, although Hapag-Lloyd Container Linie and CP Ships individually will probably not be able to repeat their high earnings levels posted in 2004. This assumption is based on the persistently high level of bunker costs and short-term charter rates. The integration process will entail costs expected to total around € 100 million which will predominantly arise in the 2006 financial year. In the course of the integration process, synergy effects are expected to be realised, above all from efficiency increases and cost reductions. These effects are expected to have a significant positive impact on earnings as early as in 2007 and to result in earnings improvements of around € 180 million after the completion of the integration process in 2008.

Extracts of the Annual Report 2005

TUI Group

Consolidated turnover will rise based on the expected increase in turnover in tourism and shipping from about € 18 billion to approximately € 22 billion. In the 2006 financial year, Group profit for the year is expected to be lower than in the previous year because interest expenses will rise due to the longer-term maturities of financial liabilities and the loss of the operating result of the discontinuing operations.

Expected overall development

Overall, the macroeconomic environment is considered to be favourable for the TUI Group's activities in the 2006 financial year. This will create opportunities for further growth and potential to increase earnings. Both in tourism but also in container shipping, TUI offers its customers attractive products and services and occupies leading market positions. The financing of the TUI Group is appropriate, entailing a solid cash reserve. Taken together, this forms a healthy basis for taking advantage of the growth and earnings potential in the 2006 financial year and beyond.

Forward-looking statements

The annual report, in particular the report on expected developments included in the management report, includes various forecasts and expectations as well as statements relating to the future development of the TUI Group and TUI AG. These statements are based on assumptions and estimates and may entail known and unknown risks and uncertainties. Actual development and results as well as the financial and asset situation may therefore differ substantially from the expectations and assumptions made. This may be due to market fluctuations, the development of world market prices for commodities, of financial markets and exchange rates, amendments to national and international legislation and provisions or fundamental changes in the economic and political environment. TUI does not intend to and does not undertake an obligation to update or revise any forward-looking statements to adapt them to events or developments after the publication of this annual report.

Notes

Invitation Agenda of TUI AG's 2006 Annual General Meeting on 10 May 2006

Agenda

1. Presentation of the Adopted Annual Financial Statements as per 31 December 2005, the Management Report, and the Approved Consolidated Financial Statements, Group Management Report and the Report of the Supervisory Board
2. Resolution on the Appropriation of the Balance Sheet Profit for the Financial Year 2005
3. Resolution on Formal Approval of the Activities of the Executive Board in the Financial Year 2005
4. Resolution on Formal Approval of the Activities of the Supervisory Board in the Financial Year 2005
5. Appointment of the Auditor for the Financial Year 2006
6. New Elections for the Supervisory Board
7. Resolution to Change the Objects of the Company (Amendment of the Charter)
8. Authorization of the Executive Board to Increase the Capital Stock (Authorized Capital) of the Company with the Possibility of an Exclusion of Subscription Rights, e.g. if Non-Cash Contributions Are Used (Amendment of the Charter)
9. Annulment of the Authorized Capital Pursuant to Section 4 Para 5 of the Charter of TUI AG; Authorization of the Executive Board to Increase the Capital Stock (Authorized Capital) with the Possibility of an Exclusion of Subscription Rights Pursuant to Section 186 Para 3 Sentence 4 AktG (Amendment of the Charter)
10. Annulment of the Existing Authorization to Issue Bonds with Conversion Rights and/or Warrants and Annulment of the Conditional Capital Pursuant to Section 4 Para 7 of the Charter of TUI AG; New Authorization to Issue Bonds with Conversion Rights, Warrants, Special Dividend Rights and/or Dividend Bonds (or Combinations of these Instruments) with the Possibility of an Exclusion of Subscription Rights Pursuant to Section 186 Para 3 Sentence 4 AktG et al. and Creation of a New Conditional Capital (Amendment of the Charter)
11. Resolution Regarding the Voting Procedure for the Supervisory Board (Amendment of the Charter)
12. Resolution on the New Structure of the Remuneration for Supervisory Board Members from the Financial Year 2006 (Amendment of the Charter)
13. Resolution on a Change of the Notice Period for Calling the General Meeting (Amendment of the Charter)

(Amendment of the Charter)

15. Resolution on the New Authorization to Acquire and Use own Shares under Section 71 Para 1 Number 8 AktG, and on the Exclusion of the Subscription Right

1. Presentation of the Adopted Annual Financial Statements as per 31 December 2005, the Management Report, and the Approved Consolidated Financial Statements, Group Management Report and the Report of the Supervisory Board

2. Resolution on the Appropriation of the Balance Sheet Profit for the Financial Year 2005
The Executive Board and the Supervisory Board propose that the amount of € 193,064,082.75 out of the balance sheet profit totalling € 195,500,000.00 be used to pay a dividend of € 0.77 per no-par value share on the capital stock of € 640,987,649.75 existing as per 31 December 2005. The remaining amount of € 2,435,917.25 will be carried forward on new account.

3. Resolution on Formal Approval of the Activities of the Executive Board in the Financial Year 2005
The Supervisory Board and the Executive Board propose that the activities of the Executive Board be formally approved.

4. Resolution on Formal Approval of the Activities of the Supervisory Board in the Financial Year 2005
The Executive Board and the Supervisory Board propose that the activities of the Supervisory Board be formally approved.

5. Appointment of the Auditor for the Financial Year 2006
The Supervisory Board proposes that PricewaterhouseCoopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover, be appointed as Auditors for the financial year 2006.

6. New Elections for the Supervisory Board
The term of office of all members of the Supervisory Board will end upon the end of the General Meeting on 10 May 2006, and at the same time the new term of office will begin. It will expire at the end of the fifth Annual General Meeting following the election – i.e. in the year 2011.

According to section 11 of the Charter of TUI AG in conjunction with sections 96 para 1, 101 para 1 AktG and section 7 para 1 of the Act on the Codetermination of Employees of 4 May 1976, the Supervisory Board consists of ten members of the Supervisory Board each from the shareholders and from the employees. The shareholders' representatives are elected by the General Meeting. In accordance with the Corporate Governance Code, Clause 5.4.3 (as amended on 2 June 2005), it is intended that a separate election for each candidate will be held. The General Meeting is not bound by nominations in electing the shareholders' representatives.

The elections for the ten Supervisory Board members representing the employees will be held on 5 April 2006.

The Supervisory Board proposes that the following shareholders' representatives be elected to the Supervisory Board for the new term of office:

Jean Claude Baumgarten, London, Great Britain
President of World Travel & Tourism Council
more...

Wertpapierbesitz e. V.
more...

Sepp Dieter Heckmann, Hanover
Chairman of the Executive Board of Deutsche Messe AG

Dr. Franz Vranitzky	b) Magic Life der Club International Hotelbetriebs GmbH[1)] Magna International Corp.

* Information refers to 31 December 2005 or date of resignation from the Supervisory Board of TUI AG in 2005
1) Chairman
2) Deputy Chairman
a) Membership in Supervisory Boards required by law
b) Membership in comparable Boards of domestic and foreign companies

Further information about the shareholders' representatives nominated for election to the Supervisory Board are available here.

7. Resolution to Change the Objects of the Company (Amendment of the Charter)
In view of the sale of participations already completed or to be completed shortly, the definition of the objects of the Company in section 3 of the Charter must be changed. In addition, the new text is intended to take account of the greater significance of shipping, here especially container shipping, for the Group as a whole.

In section 3 para 1 of the Charter, the references to the processing and trading of commodities and to the production of industrial components and systems will be deleted. Shipping will be named as a major pillar of the Group, with the same weight as the tourism business, and container shipping will be mentioned separately.

The Executive Board and the Supervisory Board propose that section 3 para 1 of the Charter be newly worded as follows:

'The objects of the Company are to engage on a commercial basis in the tourism and the shipping business (including all associated services and project developments), the acquisition of interests in enterprises active in tour operating, commercial air transportation and passenger shipping as well as goods shipping (especially container shipping) and container transport industry, the hotel industry, the leisure business and travel agents as well as other services, namely in its own facilities or in facilities of affiliated companies, as well as the coordination of affiliated companies under a centralized management.'

8. Authorization of the Executive Board to Increase the Capital Stock (Authorized Capital) of the Company with the Possibility of an Exclusion of Subscription Rights, e.g. if Non-Cash Contributions Are Used (Amendment

Supervisory Board by issuing registered shares with a possibility of the exclusion of subscription rights for non-cash contributions (authorized capital in the amount of € 170,000,000.00).

This authorization was fully made use of through the capital increase in September 2005.

It is therefore proposed to pass a resolution for a new authorized capital in order to continue to provide a reliable planning basis to the Executive Board as well as the possibility to adjust the equity position of the Company to the business requirements also in the future.

The Executive Board and the Supervisory Board propose that the following resolution be adopted:

a) The Executive Board is authorized to increase the capital stock of the Company in time up to 9 May 2011 with the approval of the Supervisory Board by issuing, once or several times, new registered shares for cash or non-cash contributions, but in total by a maximum of € 246,000,000.00. The shareholders are in principle to be granted a subscription right. The shares could also be acquired by one or several financial institutions together with the obligation to offer these shares to the shareholders for subscription. However, the Executive Board is authorized to exclude the shareholders' subscription right with the approval of the Supervisory Board to the extent necessary to grant a subscription right to the holders of convertible or option rights issued or still to be issued by TUI AG or by its subsidiaries, as they would be entitled to after the exercise of the conversion or option right or the fulfillment of the conversion obligation. Furthermore, fractions can be exempted from the shareholders' subscription right. In addition, the Executive Board can exclude the shareholders' subscription right with the approval of the Supervisory Board to the extent that the increase in capital is made for non-cash contributions for the purpose of acquiring undertakings, parts of undertakings, participations in undertakings, or other assets. However, in this case, the Executive Board will only make use of an amount of up to max. 20% of the capital stock existing at the time of the entry into force of the authorization or, if this value is lower, at the time at which the authorization is made use of. The increase in capital for non-cash contributions is thus limited to a maximum of € 128,000,000.00. The Executive Board is also authorized to determine the further details of the increase in capital and its implementation with the approval of the Supervisory Board.

b) A new authorized capital is created in the amount of € 246,000,000.00. For this, a new para 8 is inserted into section 4 of the Charter:

'The Executive Board is authorized to increase the capital stock of the Company in time up to 9 May 2011 with the approval of the Supervisory Board by issuing, once or several times, new registered shares for cash or non-cash contributions, but in total by a maximum of € 246,000,000.00 (in words: two hundred and forty-six million euros). The shareholders are in principle to be granted a subscription right. The shares could also be acquired by one or several financial institutions together with the obligation to offer these shares to the shareholders for subscription. However, the Executive Board is authorized to exclude the shareholders' subscription right with the approval of the Supervisory Board to the extent necessary to grant a subscription right to the holders of convertible or option rights issued or still to be issued by TUI AG or by its subsidiaries, as they would be entitled to after the exercise of the conversion or option right or the fulfillment of the conversion obligation. Furthermore, fractions can be

contributions is made for the purpose of acquiring undertakings, parts of undertakings, participations in undertakings, or other assets. However, in this case, the Executive Board may only make use of an amount of up to max. 20% of the capital stock existing at the time of the entry into force of the authorization or, if this value is lower, at the time at which the authorization is made use of. The increase in capital for non-cash contributions is thus limited to a maximum of € 128,000,000.00. The Executive Board is also authorized to determine the further details of the increase in capital and its implementation with the approval of the Supervisory Board.'

9. Annulment of the Authorized Capital Pursuant to Section 4 Para 5 of the Charter of TUI AG; Authorization of the Executive Board to Increase the Capital Stock (Authorized Capital) with the Possibility of an Exclusion of Subscription Rights Pursuant to Section 186 Para 3 Sentence 4 AktG (Amendment of the Charter)

The Executive Board was authorized by resolution of the General Meeting of 18 May 2004, item 10 of the Agenda, to increase the capital stock of the Company with the approval of the Supervisory Board by issuing registered shares with the possibility of an exclusion of subscription rights pursuant to section 186 para 3 sentence 4 AktG. This authorization was partly made use of through the increase in capital in September 2005.

It is therefore proposed to annul the remaining authorized capital and to pass a resolution for a new authorization for a higher authorized capital to continue to provide the necessary instruments for raising capital to the Executive Board and to enable the Executive Board to also adjust the equity position of the Company to the business requirements in the future.

The Executive Board and the Supervisory Board propose that the following resolution be adopted.

a) The authorization of the Executive Board pursuant to section 4 para 5 of the Charter of TUI AG to increase the capital stock in the time up to 17 May 2009 by up to € 32,806,465 (rounded off) (authorized capital) is revoked.

b) The Executive Board is authorized to increase the capital stock of the Company in the time up to 9 May 2011 with the approval of the Supervisory Board by issuing new registered shares for cash contributions, once or several times, in total by up to € 64,000,000.00. The shareholders are in principle to be granted a subscription right. The shares could also be acquired by one or several financial institutions together with the obligation to offer these shares to the shareholders for subscription. The Executive Board can with the approval of the Supervisory Board exclude the shareholders' subscription right if the issue amount of the new shares is insignificantly lower than the market price for the new shares with the same terms of issue which have already been issued. The number of new shares must not, together with the shares issued or sold on the basis of an authorization to sell pursuant to secs. 71 para 1 no. 8 sentence 5, 186 para 3 sentence 4 AktG during the term of this authorization up to the time at which it is exercised, exceed the limit of 10% of the capital stock set out in section 186 para 3 sentence 4 AktG. For the purpose of this limitation, shares are to be taken into account which were issued or are to be issued on the basis of bonds with conversion or option rights or conversion obligations issued pursuant to section 186 para 3 sentence 4 AktG during the time in which this authorization is effective up to the time at which it is made use of. The Executive Board may also exclude the shareholders' subscription right in respect of fractional amounts with the approval of the Supervisory Board. The Executive Board is furthermore authorized to determine the further details of the increase in capital and its

Charter is newly worded as follows:

'The Executive Board is authorized to increase the capital stock of the Company in the time up to 9 May 2011 with the approval of the Supervisory Board by issuing new registered shares for cash contributions, once or several times, in total by up to € 64,000,000.00 (in words: sixty-four million euros). The shareholders are in principle to be granted a subscription right. The shares could also be acquired by one or several financial institutions together with the obligation to offer these shares to the shareholders for subscription. The Executive Board can with the approval of the Supervisory Board exclude the shareholders' subscription right if the issue amount of the new shares is insignificantly lower than the market price for the new shares with the same terms of issue which have already been issued. The number of new shares must not, together with the shares issued or sold on the basis of an authorization to sell pursuant to secs. 71 para 1 no. 8 sentence 5, 186 para 3 sentence 4 AktG during the term of this authorization up to the time at which it is exercised, exceed the limit of 10% of the capital stock set out in section 186 para 3 sentence 4 AktG. For the purpose of this limitation, shares are to be taken into account which were issued or are to be issued on the basis of bonds with conversion or option rights or conversion obligations issued pursuant to section 186 para 3 sentence 4 AktG during the time in which this authorization is effective up to the time at which it is made use of. The Executive Board may also exclude the shareholders' subscription right in respect of fractional amounts with the approval of the Supervisory Board. The Executive Board is authorized to determine the further details of the increase in capital and its implementation with the approval of the Supervisory Board.'

10. Annulment of the Existing Authorization to Issue Bonds with Conversion Rights and/or Warrants and Annulment of the Conditional Capital Pursuant to Section 4 Para 7 of the Charter of TUI AG; New Authorization to Issue Bonds with Conversion Rights, Warrants, Special Dividend Rights and/or Dividend Bonds (or Combinations of these Instruments) with the Possibility of an Exclusion of Subscription Rights Pursuant to Section 186 Para 3 Sentence 4 AktG et al. and Creation of a New Conditional Capital (Amendment of the Charter)

The Executive Board was authorized by resolution of the General Meeting of 18 May 2004, item 11 of the Agenda, to issue, with the approval of the Supervisory Board, bonds with conversion and/or option rights with a maximum maturity of 30 years. To make the possibility to issue convertible bonds and/or warrant-linked bonds more flexible and to adjust to the capital stock as increased by the rights issue in the year 2005 and to create the possibility to issue instruments with a profit-related return on the capital invested, it is proposed to the General Meeting that a new authorization be granted to issue convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds (or any combination of these instruments), and to create a new conditional capital which is to serve to service the convertible bonds and/or warrant-linked bonds or to perform conversion obligations arising from this new authorization. It is to be possible also to issue finance instruments without any maximum maturity. The current authorized limit of € 1,000,000,000.00 is to remain in force. To ensure that the authorized amount can be fully used also in view of later convertible bond or warrant-linked bond price adjustments, the conditional capital which serves to service convertible bonds and warrant-linked bonds is to be increased to € 100,000,000.00.

Upon the entry into force of this resolution, the current authorization and the conditional capital existing for this purpose will be annulled.

The authorization to issue convertible bonds and/or warrant-linked bonds granted by resolution of the General Meeting of 18 May 2004 as well as the conditional capital in the amount of € 70,000,000.00 are annulled.

The annulment of the authorization and of the conditional capital shall become effective as soon as the authorization proposed under b) and the new conditional capital in accordance with the resolution to be adopted in accordance with c) has become effective.

b) Authorization to issue convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds

aa) Nominal amount, duration of the authorization, number of shares, maturity

The Executive Board is authorized to issue, with the approval of the Supervisory Board, convertible bearer or registered bonds, warrant-linked bonds, special dividend rights or dividend bonds (or combination of these instruments) (together 'bonds'), once or several times in the time up to 9 May 2011, with or without a limitation of maturity, with a total amount of up to € 1,000,000,000.00, and to grant the holders of bonds convertible or option rights to shares of the Company with a pro rata amount of the capital stock of up to € 100,000,000.00 pursuant to the bond terms. The bonds can also be issued for non-cash contributions.

The bonds may be denominated in euros or in the legal tender of any other OECD member state, limited to the equivalent euro amount. The bonds may also be issued by undertakings wholly owned or indirectly owned by the Company; in this case the Executive Board is authorized with the consent of the Supervisory Board to assume for the Company a guarantee for the bonds and to grant the holders of such bonds conversion or option rights for new shares in the Company.

bb) Grant of the subscription right, exclusion of subscription right

In principle the shareholders have a subscription right for the bonds. The bonds can also be taken by one or several credit institutions with the obligation to offer to the shareholders for subscription. However, the Executive Board is authorized to exclude, with the approval of the Supervisory Board, the shareholders' subscription right for the bonds:

- for fractional amounts;

- to the extent necessary to grant the holders of conversion or option rights for shares of the Company or the holders of convertible bonds with a conversion obligation, a subscription right as they would be entitled to after the exercise of these rights or, as the case may be, the performance of the conversion obligations;

- if convertible or warrant-linked bonds (or special dividend rights or dividend bonds with a conversion right, option right or conversion obligation) are issued for cash payment, and the issuing price does not fall far short of the theoretical market value of the bond as determined according to generally accepted methods of the mathematics of finance. This authorization to exclude the subscription right applies only to bonds with rights (or, as the case may be, conversion obligations) for shares with a pro rata amount totaling up to no more than 10% of the capital stock either at the time of the entry into force or of the exercise of this authorization. The sale of own shares shall count for the purposes of this limitation provided the sale takes place during the term of

during the term of this authorization up to the time until it is made use of with the authorized capital, excluding the subscription right pursuant to section 186 para 3 sentence 4 AktG, shall count for the purposes of this limitation;

- If bonds are issued for non-cash contributions, provided the value of the non-cash contributions is reasonable in proportion to the market value of the bonds to be determined in accordance with the preceding provision.

If special dividend rights or dividend bonds without a conversion right, option right or conversion obligation are issued, the Executive Board is authorized, with the approval of the Supervisory Board, to exclude the shareholders' subscription right altogether, if these special dividend rights or dividend bonds are issued as debenture-like securities, i.e. no membership rights in the Company are granted, no right to participate in the liquidation proceeds is acquired, and the amount of the yield is not calculated on the basis of the amount of the annual profit, the balance-sheet profit or the dividends. Moreover, in this case, the yield and the issue amount of the special dividend rights or the dividend bonds must be in line with the current market conditions for comparable fund-raising at the time of the issue.

cc) Conversion right, conversion duty

If bonds are issued with a conversion right, the creditors can convert their bonds into shares in the Company in accordance with the bond terms. The proportionate amount of the capital stock attributable to the shares to be issued in the event of conversion must not exceed the nominal value of the bond or a lower issuing price. The conversion ratio is determined by the nominal amount of a bond divided by the fixed conversion price for a new share in the Company. The conversion ratio can also be determined by dividing the issue amount of a bond (which is below the nominal amount) by the fixed conversion price for a new share in the Company. The conversion ratio may be rounded up or down to a whole number. Moreover, an additional cash payment may be fixed. Furthermore, it may be provided that fractions be combined and/or compensated for in cash. The bond terms can also provide for a variable conversion ratio.

The bond terms may also provide for a conversion obligation. In this case, the Company can be given the right in the bond terms to entirely or partly compensate in cash for any difference between the nominal amount of the convertible bonds and the stock exchange price for the shares to be fixed in the bond terms, at the time of the compulsory conversion, but at least 80% of the stock exchange price for the shares determining the minimum conversion price pursuant to ee), multiplied by the conversion ratio. The above provisions shall apply analogously if the conversion right or the conversion obligation relates to a special dividend right or to a dividend bond.

dd) Option right

If warrant-linked bonds are issued, one or several warrants are to be attached to each bond, entitling the holder to subscribe to shares in the Company in accordance with the warrant terms to be fixed by the Executive Board. The conversion ratio can be rounded up or down to an option ratio with a whole number. It may be provided that fractions be combined and/or compensated for in cash. The proportionate amount of the capital stock attributable to the shares to be issued per bond must not exceed the nominal amount of the warrant-linked bond. The same shall apply if warrants are attached to a special dividend right or to a dividend bond.

ee) Conversion/option price, dilution protection

days preceding the day of the adoption of the resolution by the Executive Board to issue the convertible or warrant-linked bonds, or at least 80% of the average stock exchange price for the shares of the Company – closing rate in XETRA trading (or any comparable follow-up system) – during the days on which the subscription rights are traded on the Frankfurt stock exchange, with the exception of the last two trading days for the subscription rights.

Without prejudice to section 9 para 1 AktG, the bond terms which grant or stipulate a conversion right, a conversion obligation and/or an option right, can include dilution protection provisions in case, during the conversion or option period and granting a subscription right to its shareholders, the Company increases its capital stock or issues further convertible or warrant-linked bonds or grants or guarantees other convertible or option rights or constitutes conversion obligations, without granting the holders of convertible or option rights respectively the holders of bonds with conversion obligations a subscription right to the same extent as they would be entitled to after exercising the conversion or option rights or, as the case may be, after the fulfillment of a conversion obligation. The bond terms may also provide for value-preserving adjustments of the conversion or option rights, in particular in the event of a capital reduction, a share split or a special dividend or other measures which can dilute the value of the conversion or option rights.

ff) Further possible terms

The bond terms for bonds which grant or stipulate a conversion right, a conversion obligation and/or an option right can stipulate in each case that, in the event of the conversion or the exercise of the option, the own shares of the Company can be granted. Furthermore, the terms may provide for the Company to pay the value in cash to the holders of the conversion or option rights or to the holders who are obliged to convert instead of granting shares in the Company. Moreover, the bond terms can provide for the numbers of shares to be subscribed to in the event of the exercise of the conversion or option rights or after conversion obligations are fulfilled, or as the case may be, a conversion right in this respect to be variable and/or that the conversion or option price can be changed during the term within a range to be fixed by the Executive Board, depending on the development of the share price or in consequence of dilution protection provisions.

gg) Authorization to fix further bond terms

The Executive Board is authorized to fix, with the approval of the Supervisory Board, the further details of the issuance and features of the bonds, especially the interest rate, the nature of the yield, the issuing price, maturity, the denomination, the conversion or option price, and the conversion or option period. In the event of an issue by group member companies, the Executive Board is additionally required to agree with the organs of the group member companies issuing the convertible and/or warrant-linked bonds.

c) Conditional Capital Increase

The capital stock is conditionally increased by up to € 100,000,000.00 through the issue of up to 39,116,600 registered no-par value shares carrying dividend rights from the beginning of the financial year in which they are issued. The conditional increase in capital serves to grant shares to the holders of convertible and/or option rights respectively to the holders who are obliged to convert from bonds issued in accordance with the above authorization, as soon as they are issued for payment in cash.

payment in cash are exercised, or conversion obligations under such bonds are fulfilled, and insofar as no other forms of performance are used to service the bonds.

The Executive Board is authorized, with the approval of the Supervisory Board, to fix the further details of the conditional increase in capital.

d) Amendment of the Charter

Section 4 para 7 of the Charter (conditional capital in the amount of € 70,000,000.00) is repealed and replaced by the following new para 7:

'The capital stock is conditionally increased by up to € 100,000,000.00 (in words: one hundred million euros) through the issue of up to 39,116,600 registered no-par shares carrying a dividend right from the beginning of the financial year in which they are issued. The conditional increase in capital shall be put into effect only insofar as the holders of conversion or option rights respectively the holders who are obliged to convert under conversion and/or warrant-linked bonds, dividend bonds and/or special dividend rights (or combinations of these instruments) issued by the Company or by undertakings directly or indirectly controlled by it on the basis of the resolution granted the authorization adopted at the General Meeting of 10 May 2006 for cash payment in the time up to 9 May 2011 exercise their conversion or option rights or insofar as conversion obligations under such bonds are fulfilled, provided no other forms of performance are used to service the bonds. The Executive Board is authorized to fix, with the approval of the Supervisory Board, the further details of the conditional increase in capital.'

e) Commercial Register Application

To ensure that the annulment of the current conditional capital of € 70,000,000.00 will not become effective without being replaced by the new conditional capital in accordance with the above resolution, the Executive Board is instructed to make an application to the commercial register for an entry to be made showing the annulment of the conditional capital in the amount of € 70,000,000.00 only if an entry is made at the same time for the new conditional capital in the amount of € 100,000,000.00.

11. Resolution Regarding the Voting Procedure for the Supervisory Board (Amendment of the Charter)

The Supervisory Board and its committees are to be allowed to adopt resolutions not only when all members are present at a meeting, but also in writing, by telephone or telegraph and per fax or email, provided this is ordered by the chairman of the Supervisory Board.

Since the entry into force of the Act on Registered Shares and to Facilitate the Exercise of Voting Rights (NaStraG) in January 2001, section 108 para 4 AktG has granted companies the right to issue rules of procedure for the Supervisory Board allowing resolutions to be adopted in other ways than by way of voting by members personally present at a meeting, without any separate approval of the members of the Supervisory Board being required. The Executive Board and the Supervisory Board hope that such a flexibilization of the voting procedure will shorten the reaction time of the Supervisory Board and thus give the Company more options for action in situation requiring speedy decisions.

The Executive Board and the Supervisory Board propose that section 16 para 1 of the Charter be newly worded as follows:

'The Supervisory Board can adopt resolutions also in writing,

12. Resolution on the New Structure of the Remuneration for Supervisory Board Members from the Financial Year 2006 (Amendment of the Charter)
The Executive Board and the Supervisory Board propose that section 18 of the Charter be newly worded as follows:

„**(1)** In addition to the reimbursement of the expenses, which shall also include the value added tax on their remuneration, the members of the Supervisory Board shall receive

(a) fixed remuneration in the amount of € 40,000 to be paid after the end of the financial year;

(b) remuneration oriented by the short-term profit of the Company (short-term variable remuneration) in the amount of € 100 per € 0.01 of the profit per share shown in the consolidated financial statements for the last financial year (profit per share); the profit per share will be calculated as the quotient of the annual Group net profit to which the shareholders of TUI AG are entitled and the amount of shares with dividend entitlements at the end of the financial year;

(c) remuneration related to the long-term success of the Company (long-term variable remuneration). The long-term variable remuneration shall consist of a base amount of € 20,000 per year and will be granted for the current financial year for the first time beginning with the financial year 2006. This base amount shall be paid after the end of the third financial year following the grant and shall increase or decrease to the extent that the profit per share for the third financial year following the grant changes, expressed in percent, compared to the financial year for which the amount was granted.

If a member ceases to belong to the Supervisory Board before the end of the assessment period, the profit per share in the financial year in which the member ceases to belong to the Supervisory Board shall determine the long-term variable remuneration.

(d) The remuneration pursuant to 1 (b) and (c) shall be payable after the end of the General Meeting which decides on formal approval of the actions of the members of the Supervisory Board in the last financial year.

(2) The chairman shall receive the triple amount, his deputy and the other members of the Presiding Committee one and a half times the amount of the remuneration pursuant to 1(a) to (c).

(3) The members of the Audit Committee shall for their services receive a further remuneration, in addition to the remuneration pursuant to 1(a) to (c), payable after the end of the financial year in the amount of € 20,000, the chairman of the Audit Committee shall receive the triple amount.

(4) The remuneration relates in each case to a full financial year. For parts of a financial year or a shortened financial year, the remuneration shall be paid pro rata temporis. In case of a shortened financial year the comparability must be ensured by the calculation of values adjusted accordingly.

(5) The members of the Supervisory Board shall be included in a pecuniary damage liability insurance for bodies and certain management members (so called D&O insurance) maintained by the Company in its own interests in a reasonable amount, if such insurance is maintained. The premiums for this shall be paid by the Company.'

In accordance with the recommendations of the German Corporate Governance Code (as amended on 2 June 2005), the remuneration for the members of the Supervisory Board is to contain a profit-oriented element in addition to the fixed

Supervisory Board of TUI AG consists of a fixed element which represents half of the remuneration, and a variable element which represents the other half; one half of the variable remuneration is a short-term component and the other half a long-term component.

The fixed remuneration is intended as reasonable compensation for the supervisory and advisory work of a member of the Supervisory Board, and to provide an incentive to win sufficiently qualified personalities for the responsible position of a Supervisory Board member.

The short-term variable remuneration depends on the profit per share shown in the consolidated annual accounts for the preceding business year (profit per share). This is a deviation from the previous practise where the variable remuneration was tied to the dividend, as on the one hand the dividends do not always reflect the success of the Company and, on the other hand, the Supervisory Board has the power to take decisions on the amount of the dividends and to thereby possibly influence its own remuneration.

Finally, the long-term variable remuneration is to be oriented by the development of the profit per share, and thus by the interests of the shareholders for whom an increase in the profit per share will generally also mean an increase in the value of the shares held by them.

The remuneration for the chairman of the Supervisory Board and the chairman of the Audit Committee is increased to the triple amount of the remuneration for a member according to para 1 (a) to (c) as consideration for the chairman's greater workload.

13. Resolution on a Change of the Notice Period for Calling the General Meeting (Amendment of the Charter)

The notice period for calling the General Meeting was changed from at least one month to at least 30 days by the Act on the Integrity of Undertakings and to Modernize the Right of Avoidance ('UMAG') (section 123 para 1 AktG). The corresponding provision in the Charter of TUI AG in section 20 is to reflect the amendment of the law and to be newly worded.

The Executive Board and the Supervisory Board propose that section 20 para 1 of the Charter be newly worded as follows:

'The General Meeting must be called at least 30 days before the day by the end of which the shareholders must register as far as a shorter term is legally not allowed.'

14. Resolution on the Authorization of the Chairman of the Meeting to Reasonably Limit the Shareholders' Speaking Time and Time to Ask Questions (Amendment of the Charter)

By amending section 131 para 2 AktG, the UMAG intended to create a possibility to prevent abuses of the right to demand information and the right to speak at the General Meeting, and to improve the quality of the deliberations at the General Meeting. By bringing the General Meeting to an end within a reasonable and acceptable time, the attractivity of the General Meeting for seriously interested shareholders is to be increased. The chairman of the meeting is to have the right to reasonably limit the time for questions and the speaking time of each shareholder.

The Executive Board and the Supervisory Board propose that a new sentence 2 be inserted into section 22 para 2 of the Charter, as follows:

'He can reasonably limit the time for questions and the

individual speakers and questions.'

15. Resolution on the New Authorization to Acquire and Use own Shares under Section 71 Para 1 Number 8 AktG, and on the Exclusion of the Subscription Right
To acquire its own shares, the Company requires specific authorization for this by the General Meeting, unless expressly authorized by law. As the authorization resolved by the General Meeting on 11 May 2005 will expire on 10 November 2006, a resolution is to be proposed to the General Meeting to again authorize the Company to acquire own shares.

The Executive Board and the Supervisory Board therefore propose that the following resolution be adopted:

a) TUI AG is authorized to acquire own shares with a volume of up 10% of its current capital stock. Together with other own shares held by the Company or attributable to it pursuant to secs. 71a et seq. AktG, the acquired shares must at no time account for more than 10% of the capital stock. The authorization must not be used for the purpose of trading in its own shares.

b) The authorization can be made use of entirely or partly, once or several times, pursuing one or several purposes, by the Company or by third parties for the account of the Company. The authorization will be effective until 9 November 2007. This authorization replaces the authorization for the acquisition of own shares granted by the General Meeting of TUI AG on 11 May 2005.

c) The acquisition is made at the option of the Executive Board through the stock exchange or by means of a public purchase offer or by means of a public invitation to the shareholders to submit a sales offer.

- If the acquisition of the shares takes place through the stock exchange, the amount per share paid by the Company (without ancillary acquisition costs) must not exceed or fall short of the rate in XETRA trading (or a comparable follow-up system) determined through the opening auction on the trading day by more than 5%.

- If the acquisition is made through a public purchase offer or a public invitation to submit a sales offer, the purchase price being offered or the maximum and minimum value of the purchase price range per share (without ancillary acquisition costs) must not exceed or fall short of the average of the closing rate in XETRA trading (or a comparable follow-up system) on the three trading days before the day of the public announcement of the offer or, as the case may be, the public invitation to submit a sales offer, by more than 10%. If, after the publication of a public purchase offer or the public invitation to submit a sales offer, substantial deviations from the relevant rate arise, the purchase offer or, as the case may be, the invitation to submit such a sales offer can be adjusted. In this case, the average rate on the three trading days prior to the public announcement will determine any adjustment. The purchase offer or, as the case may be, the invitation to submit such a sales offer can set out further conditions. If the purchase offer is oversubscribed or, in the case of an invitation to submit a sales offer, not all offers among several equivalent offers are accepted, the shares are to be allocated on a pro rata basis. The terms of the offer may provide for the preferential acceptance of a small number of up to a maximum of 100 shares per shareholder.

d) The Executive Board is authorized to use shares in the Company acquired on the basis of this authorization for all purposes allowed by law, in particular also for the following purposes:

through the simplified procedure without any capital reduction by means of an adjustment of the proportionate arithmetic amount of the other shares in the capital stock of the Company. The decision to call in the shares can be limited to a part of the acquired shares. If the shares are called in through the simplified proceedings, the Executive Board is authorized to adjust the number of the shares in the Charter.

bb) The shares can also be sold in other ways than through the stock exchange or through a public offering to all shareholders, if these shares are sold for cash payment at a price which does not fall far short of the stock exchange price of shares in the Company with identical features at the time of the sale. In this case, the number of shares to be sold together with the new shares issued on the basis of authorizations to increase the capital with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG or on the basis of a conditional capital pursuant to sections 221 para 4, 186 para 3 sentence 4 AktG for bonds issued during the term of this authorization or in the time until it is made use of with conversion or option rights or, as the case may be, conversion duties must not exceed 10% in total of the capital stock at the time of this authorization or at the time at which it is made use of.

cc) The shares can, with the approval of the Supervisory Board, be sold for non-cash contributions, especially also in connection with the acquisition of undertakings, parts of undertakings, participations, or other assets, and in connection with mergers and acquisitions.

dd) The shares can also be used to fulfil conversion or option rights or for conversion obligations from convertible or warrant-linked bonds issued by the Company or its group member companies (or special dividend rights or dividend bonds with conversion rights, option rights or conversion obligations).

e) The authorization in d), bb) to dd) also comprises the use of shares in the Company which were acquired on the basis of section 71 d sentence 5 AktG.

f) The authorization in d) can be made use of once or several times, partly or entirely, individually or jointly, the authorizations in d), bb) to dd) also through dependent undertakings or undertakings majority owned by the Company or by third parties acting for their account or for the account of the Company.

g) The shareholders' subscription right to these own shares is excluded insofar as these shares are used in accordance with the authorization in d), bb) to dd) above.

Report of the Executive Board to the Annual General Meeting Pursuant to Sections 203 Para 2 Sentence 2, 186 Para 4 Sentence 2 AktG on Item 8 of the Agenda (Authorized Capital of € 246,000,000.00)

The Executive Board made use, with the approval of the Supervisory Board, of the authorization to increase the capital stock of the Company by issuing registered shares (authorized capital of € 170,000,000.00 according to the resolution adopted by the General Meeting on 18 May 2004 under Item 9 of the Agenda), and fully made use of it through the increase in capital in September 2005.

The new authorized capital in the amount of € 246,000,000.00 is proposed as TUI must also be able in the future to adjust its equity at any time to the business requirements. The Executive Board therefore considers it to be its duty to ensure that the Company will always be able to use the necessary instruments for raising capital, regardless of any concrete plans to do so. As decisions to cover capital

'authorized capital'. The most common occasions on which an authorized capital is used is the need to strengthen the equity basis and to finance the acquisition of participations.

Whenever the authorized capital is used through a cash capital increase, the shareholders in principle have a subscription right.

However, it is to be possible to exclude the subscription right to the extent necessary to be able to grant the holders of warrant-linked or convertible bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion right, option right or conversion obligation) which already exist or are to be issued in the future a subscription right to new shares, if the bond terms provide for this. Such bonds generally provide for dilution protection in that a subscription right to new shares can be granted to the bond holders in any subsequent issue of shares with a subscription right for the shareholders, instead of a reduction of the option or conversion price. The holders of the bonds are thus put into the same position which they would be in if they had already exercised their option or conversion right or, as the case may be, if a conversion obligation had been fulfilled. The advantage is that the Company – as opposed to dilution protection through a reduction of the option or conversion price – can achieve a higher issuing price for the shares to be issued upon conversion or the exercise of the option.

Furthermore, the Executive Board with approval of the Supervisory Board can exempt fractions from the shareholders' subscription right. This makes it possible to make use of the authorization through round amounts, facilitating an issue. These shares, exempt from the subscription right as the so-called 'free peak', are used in a beneficial manner for the Company.

The shareholders' subscription right can also be excluded with the approval of the Supervisory Board in the event of an increase in capital for non-cash contributions. In this case, the Executive Board will make use of the authorization to exclude the shareholders' subscription right only up to an amount of no more than 20% of the capital stock existing at the time of the entry into force of the authorization or, if this value is lower, at the time at which the authorization is made use of. The increase in capital for non-cash contributions is thus limited to a maximum of € 128,000,000.00. This enables the Executive Board to use shares of the Company in suitable individual cases to acquire companies, parts of companies, participations or other assets (e.g. hotels, ships or planes). In some cases, shares rather than money are demanded as valuable consideration for a takeover. The possibility to be able to offer shares in the Company as valuable consideration thus provides an advantage in competition for interesting acquisition targets, as well as the necessary flexibility to benefit from opportunities which arise for the acquisition of companies, parts of companies, participations or other assets without affecting its liquidity situation. The use of shares for such purposes can also be advantageous in the light of an optimal financing structure. The Company suffers no disadvantage from this, as the issue of shares for non-cash contributions requires the value of the non-cash contribution to be reasonable in relation to the value of the share.

The Executive Board is also authorized to use this authorized capital in cases where the Company initially undertook to pay money, e.g. as payment for an acquisition target, to subsequently issue shares instead of paying money to grant shares in the Company to the holders of such (certificated or non-certificated) monetary claims against the Company, with hindsight either entirely or partly instead of payment of money. This gives the Company additional flexibility.

conversion obligations for which the subscribers did not make any cash contribution, but a non-cash contribution. This also makes it possible to use convertible and warrant-linked bonds as an acquisition currency in connection with the acquisition of companies, parts of companies, participations or other assets, which additionally increases the chances of prevailing in competition for an interesting acquisition opportunity.

The Executive Board will carefully consider in each case whether to make use of the authorization to increase the capital with an exclusion of the shareholders' subscription right. The Executive Board will do so only if the Executive Board and the Supervisory Board deem this to be in the interests of the Company and thus of its shareholders.

The Executive Board will report to the General Meeting on each concrete case in which the proposed authorization is made use of.

Report of the Executive Board to the Annual General Meeting on the Exclusions of the Subscription Right Provided for in Items 9, 10 and 15 of the Agenda Pursuant to Section 186 Para 4 Sentence 2, 203 Para 2 Sentence 2 and Section 71 Para 1 Number 8 Sentence 5 AktG

The authorizations in Items 9, 10 and 15 of the Agenda each provide for the possibility, on the basis of the provisions in section 186 para 3 sentence 4 AktG, to increase the capital, to issue convertible or warrant-linked bonds or to sell own shares which were acquired, excluding the shareholders' subscription right provided the statutory limit of 10% of the capital stock applicable in such cases is not – in total – exceeded.

The Executive Board will make use of any such authorization only in such a way that the limit of 10% of the capital stock in total, set out in section 186 para 3 sentence 4 AktG, is not exceeded. Regardless of whether the authorizations are made use of with the possibility of the exclusion of the subscription right individually or cumulatively, the limit of 10% of the capital stock for an exclusion of the subscription right pursuant to the provisions in section 186 para 3 sentence 4 AktG is not to be exceeded in total. The different proposed authorizations with the possibility to exclude the subscription right pursuant to section 186 para 3 sentence 4 AktG exclusively serve the purpose of giving the Executive Board the possibility to use the best suitable instrument in each concrete situation, observing the interests of the shareholders and of the Company, but not to repeatedly make use of the various possibilities to exclude the subscription right under these authorizations in order to exclude the shareholders' subscription right to an extent going beyond the limit of 10% of the capital stock set out in section 186 para 3 sentence 4 AktG.

Report on Item 9 of the Agenda (Authorized Capital of € 64,000,000.00)

The Executive Board made use of the authorization, with the approval of the Supervisory Board, to increase the capital stock of the Company by issuing registered shares (authorized capital in the amount of € 45,600,000.00 in accordance with the resolution adopted at the General Meeting of 18 May 2004, Item 10 of the Agenda), and partly made use thereof through the capital increase in September 2005. For this reason, a new authorized capital in the amount of € 64,000,000.00 is proposed.

If this authorized capital is used, it is to be possible to exclude the subscription right with the approval of the Supervisory Board if the new shares are issued in the event of a cash capital increase pursuant to section 186 para 3 sentence 4 AktG for an amount which does not fall far short of the stock exchange price. This authorization enables the Company to quickly and flexibly react to market opportunities

to react more speedily but also to place the shares for a price as close as possible to the then current market price, i.e. without the mark-down which is generally necessary in a rights issue. This results in greater issue proceeds for the benefit of the Company. In addition, such a placement can help to win new shareholder groups. When making use of the authorization, the Executive Board will fix the mark-down as low as possible under the market conditions prevailing at the time of the placement. The mark-down from the stock exchange price at the time of the use of this authorized capital will in no case exceed 5% of the stock exchange price at that time. The shares issued with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG must not exceed – in total – 10% of the capital stock, neither at the time of the entry into force of the authorization nor at the time at which it is made use of. Own shares which are sold count for the purposes of this limitation provided they are sold during the term of this authorization up to the time at which it is made use of with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG. Furthermore, shares issued or to be issued to service bonds with conversion or option rights or a conversion obligation count for the purposes of this limitation, provided the bonds are issued during the term of this authorization up to the time at which it is made use of with an exclusion of the subscription right by analogous application of section 186 para 3 sentence 4 AktG. This requirement takes account of the shareholders' need for dilution protection for their shareholdings in compliance with the statutory provisions. The limitation of the scope of the increase in capital without a subscription right gives every shareholder in principle the possibility to acquire the shares necessary to maintain his participation quota through the stock exchange subject to similar conditions. It is thus ensured that, in line with the statutory weighing of interests in section 186 para 3 sentence 4 AktG, the financial and voting interests are reasonably preserved whenever this authorized capital is used with an exclusion of this subscription right, while at the same time opening up further room for manoeuvre by the Company in the interests of all shareholders.

The possibility for the Executive Board to exclude the subscription right with the approval of the Supervisory Board in respect of fractions facilitates the handling of a rights issue if fractions arise because of the issue volume or to present a practicable subscription ratio.

Report on Item 10 of the Agenda (Authorization to Issue Convertible Bonds, Warrant-Linked Bonds, Special Dividend Rights and/or Dividend Bonds)
The Executive Board is currently authorized, by resolution adopted at the Annual General Meeting of 18 May 2004, Item 11 of the Agenda, to issue bonds with conversion or option rights to registered shares in the Company, with the approval of the Supervisory Board once or several times in the time up to 17 May 2009 with a maturity of up to 30 years. The Executive Board has so far not made use of this authorization.

In addition to the classic possibilities of procurement of outside capital and of equity capital, the issue of convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds (or combinations of these instruments) (together 'bonds') provides the possibility for TUI AG to use attracting financing alternatives on the capital market, depending on the market situation. In particular, the authorization to issue profit-related or profit-oriented instruments such as special dividend rights and dividend bonds extends the existing possibilities of TUI AG to strengthen its financial resources through the issue of so-called hybrid financing instruments and to thereby create the preconditions for the future business development. For this reason, it is proposed to the General Meeting to grant a new

the current market practises and a further flexibilization. On the whole, it is to be possible to issue bonds up to a total nominal amount of € 1,000,000,000.00, granting a subscription right to up to 39,116,600 registered no-par shares in TUI AG.

The issue of convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds (or combinations of these instruments) makes it possible to raise outside capital on attractive terms. Depending on the bond terms, this capital can be classified both for rating purposes and for balance-sheet purposes as equity or as near-equity resources. The conversion or option premiums which are obtained as well as the equity classification enhance the capital basis of the Company and thus enable it to use attractive financing possibilities. The further possibilities which are envisaged in addition to granting convertible and/or option rights, namely to impose conversion obligations or to combine convertible bonds, warrant-linked bonds, special dividend rights and/or dividend bonds, extend the range of possibilities regarding the details of these financing instruments. As financing forms have become common the area of the so-called hybrid financing instruments which have an unlimited term, the authorization sets aside the current limitation of maturity for bonds with conversion or option rights respectively conversion obligations. The authorization gives the Company also the necessary flexibility to place the bonds itself or through participation companies in which it directly or indirectly holds a majority. Bonds can be denominated in euros or in the legal tender of any OECD member state.

To be able to adequately use the spectrum of the possible capital market instruments which represent conversion or option rights respectively conversion obligations, it appears appropriate to maintain the admissible issue volume in the new authorization in the amount of € 1,000,000,000.00 and to fix the conditional capital which serves to fulfil the conversion and option rights at € 100,000,000.00. This ensures that this authorization can be fully made use of. The number of shares which are needed to fulfil conversion and option rights respectively conversion obligations under a bond with a particular issue volume generally depends on the stock exchange price for the TUI share at the time of the issue of the bond. If a sufficient amount of conditional capital is available, the possibility to completely make use of the authorization to issue conversion or option bonds is secured.

In principle, a subscription right must be granted to the shareholders when convertible or warrant-linked bonds, special dividend rights and dividend bonds are issued. If convertible and/or warrant-linked bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion or option right) are to be issued, the Executive Board is to be authorized, by analogous application of section 186 para 3 sentence 4 AktG, to exclude this subscription right with the approval of the Supervisory Board if the issuing price does not fall far short of the market value of the bonds. This can help to enable the Company to benefit on short notice from favourable stock market conditions and to quickly and flexibly place a bond on attractive terms. The stock markets have become far more volatile. Whether the best possible issue result can be achieved will therefore increasingly depend on whether the Company can react quickly to market developments. Favourable and competitive conditions can generally be fixed only if the Company is not bound for an excessively long offering period. To ensure the attractiveness of the conditions and thus the chances of success for the issue during the entire offering period, a significant security mark-down will generally have to be made for a rights issue. Although section 186 para 2 AktG now allows the subscription price to be published (and thus the bond terms for bonds with

thus in non-competitive terms. Because of the uncertainty regarding the exercise of a subscription right, an alternative placement with third parties is more difficult or involves greater expense. Finally, if the Company grants a subscription right, the duration of the subscription period prevents it from reacting on short notice to a change of the market situation, which can result to unfavourable conditions for the procurement of capital by the Company.

The shareholders' interests are preserved in that the bonds must not be issued essentially below market value. The market value is to be determined in accordance with the recognized principles of the mathematics of finance. For this, the Executive Board will generally obtain an expert opinion from an experienced investment bank or Audit Company. In fixing the price, the Executive Board will take account of the capital market situation in each case and keep the mark-down from the market value as small as possible. The arithmetic value of a subscription right will thus be practicably zero so that the shareholders cannot sustain any financial disadvantage worth mentioning from the exclusion of the subscription right. Moreover, the shareholders have the possibility to maintain their share of the capital stock of the Company through an acquisition to the stock exchange subject to almost identical terms. Their financial interests are thus preserved in a fair and reasonable manner.

The authorization to exclude the subscription right pursuant to section 186 para 3 sentence 4 AktG applies only to bonds with rights to shares which represent no more than 10% of the capital stock, neither at the time of the entry into force of the authorization nor at the time of its exercise. Own shares sold during the term of this authorization up to the time at which it is made use of with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG count for the purposes of this limitations. Furthermore, shares issued during the term of this authorization up to the time at which it is made use of from the authorized capital with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG also count for the purposes of this limitation.

This attributability is intended to protect the shareholders' interests in the smallest possible dilution of their participation.

If special dividend rights or dividend bonds without a conversion right, option right or conversion obligation are issued, the Executive Board is authorized, with the approval of the Supervisory Board, to entirely exclude the shareholders' subscription right, if these special dividend rights or dividend bonds are debenture-like securities, i.e. no membership rights are granted in the Company, no participation in the liquidation proceeds is granted, and the amount of the yield is not calculated on the basis of the annual profit, the balance-sheet profit or the dividend. In addition, it is necessary for the yield and the issue amount of the special dividend rights or the dividend bonds to be in line with the market conditions for comparable fund raising at the time of the issue. If these preconditions are fulfilled, no disadvantages arise for the shareholders from the exclusion of the subscription right, as the special dividend rights or the dividend bonds grant no membership rights and also no participation in the liquidation proceeds or in the profit of the Company. Although it is possible to provide for the yield to depend on the existence of an annual profit, a balance-sheet profit or a dividend, it would be inadmissible to provide for a higher annual profit, a higher balance-sheet profit or a higher dividend to result in a higher yield. Thus, the issue of the special dividend rights or dividend bonds neither changes nor dilutes the voting right or the shareholders' participation in the Company or its profits. In addition, because of the terms

Both of the above possibilities to exclude the subscription right give the Company the flexibility to quickly react to favourable market situations, and enable it to flexibly use a low interest level or a favourable demand situation on short notice for an issue. The crucial aspect here is that, as opposed to an issue of bonds with a subscription right, the issuing price can be fixed only directly prior to the placement, avoiding an increase risk of a price change for the duration of a subscription period, and maximizing the issue proceeds in the interests of all shareholders. Moreover, the elimination of the run-up period involved in the subscription right provides further benefits both in respect of the costs for raising the funds and in respect of the placement risk. A placement without a subscription right can reduce the safety margin which is otherwise necessary, likewise the placement risk, and the raising of funds is possible at a lower price for the benefit of the Company and its shareholders.

The Executive Board is also authorized to exempt fractions from the subscription right with the approval of the Supervisory Board. Such fractions can arise from the amount of the issue volume and to present a practicable subscription ratio. In this case, the exclusion of the subscription right facilitates the handling of the capital measure.

Furthermore, the Executive Board is to have the possibility, with the approval of the Supervisory Board, to exclude the shareholders' subscription right in order to grant the holders of conversion or option rights or of bonds involving conversion obligations a subscription right to the extent that they would have such a right after exercising their conversion or option rights or, as the case may be, after the fulfilment of a conversion obligation. This offers the possibility, instead of reducing the option or conversion price, to grant the holders of option or conversion rights already existing at that time a subscription right as dilution protection. It is in line with the market standard to issue bonds with such dilution protection.

Bonds can also be issued for non-cash contributions, provided that is in the interests of the Company. In this case, the Executive Board is authorized, with the approval of the Supervisory Board, to exclude the shareholders' subscription right, provided the value of the non-cash contributions is fair and reasonable in relation to the theoretic market value of the bond to be determined in accordance with the recognized principles of the mathematics of finance. This opens up the possibility to use the bonds in suitable cases also as an acquisition currency, for example in connection with the acquisition of companies, parts of companies, participations or other assets (e.g. hotels, ships or planes). For example, the need may well arise in negotiations to offer valuable consideration not by payment of money, but in some other form. The possibility to offer bonds as valuable consideration thus represents an advantage in competition for interesting acquisition targets, and creates the necessary freedom of action to benefit from opportunities to acquire companies, parts of companies, participations or other assets while preserving the available liquidity. This can also make sense in the light of an optimal financing structure.

The Executive Board will in each case carefully examine whether to make use of the authorization to issue convertible bonds and/or warrant-linked bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion right, option right or conversion obligation) for non-cash contributions with an exclusion of the subscription right. The Executive Board will do so only if this is in the interests of the Company and thus of the shareholders.

The proposed conditional capital serves to service the conversion or option rights issued with the convertible or

be used.

Conversion or option rights respectively conversion obligations arising from bonds issued for non-cash contributions can on the other hand not be serviced out of the conditional capital. For this, it is necessary either to use own shares or to make an increase in capital for non-cash contributions. For an increase in capital for non-cash contributions, the authorized capital according to the resolution to be adopted under Item 8 of the Agenda is available. As a non-cash contribution, the claim arising from the bond is to be brought in, the determination of its value extending to the question whether the claim is valuable and whether the non-cash contribution was equivalent to the issuing price.

Report on Item 15 of the Agenda (Authorization to Acquire and Use own Shares)

The proposal in Item 15 of the Agenda provides for an authorization to acquire own shares pursuant to section 71 para 1 no. 8 AktG in the amount of up to 10% of the capital stock, limited to a period of 18 months.

TUI AG adopted a resolution at the Annual General Meeting of 11 May 2005 for an authorization to acquire own shares, limited to the time up to 9 November 2006. Because of the expiry of this authorization in the current financial year, this resolution including the authorization is to be annulled with effect from the entry into force of the new authorization to be granted at this Annual General Meeting.

In addition to an acquisition through the stock exchange, the Company is to be given the possibility to acquire own shares through a public purchase offer to be addressed to the shareholders of the Company or through the public invitation to the shareholders to submit an offer for the purchase of shares. The principle of equal treatment set out in the Stock Corporation Act must be observed. In the case of a public invitation to submit an offer, the addressees of the invitation can decide how many shares and – if a price range is fixed – at what price they wish to offer them to the Company. If a public purchase offer is oversubscribed or, in the case of an invitation to submit an offer for the purchase of shares, not all offers among several equivalent offers can be accepted, the shares are to be allocated on a pro rata basis. However, it is to be possible to provide for the preferential acceptance of a small member or of small parts of offers up to a maximum of 100 shares. This possibility serves to avoid fractions in determining the quotas to be acquired as well as small remaining shareholdings, and thus to facilitate the technical handling. The purchase price which is offered or the minimum and maximum value of the purchase price range offered per share (without ancillary acquisition costs) must not exceed or fall short of by more than 10% the average closing price in XETRA trading (or a comparable follow-up system) on the three trading days preceding the day of the public announcement of the offer or, as the case may be, the public invitation to submit a sales offer. If a substantial deviation from the relevant price arises after the publication of a public purchase offer or after the public invitation to submit a sales offer, the average price on the three trading days preceding the public announcement or offer can instead be used. The purchase offer or, as the case may be, the invitation to submit a sales offer can provide for further terms to be applicable.

The own shares which are acquired may be used for all purposes admissible by law, in particular also the following:

The proposed resolution contains the authorization to sell the previously acquired own shares outside the stock exchange for cash payment with an exclusion of the subscription right.

simplify the exclusion of subscription rights allowed under section 71 para 1 no. 8 AktG and, analogously, section 186 para 3 sentence 4 AktG. The shareholders' interest in dilution protection is taken account of the prohibition of selling the shares for a price which falls far short of the relevant stock exchange price. The final determination of the sales price for the own shares is made just before the sale. The Executive Board will keep a possible mark-down from the stock exchange price as low as possible in accordance with the market conditions prevailing at the time of the placement. The mark-down form the stock exchange price at the time at which the authorization is made use of will in no case exceed 5% of the then current stock exchange price. The authorization applies subject to the proviso that the shares sold with an exclusion of the subscription right pursuant to section 186 para 3 sentence 4 AktG must not exceed – in total – 10% of the capital stock, neither at the time of the entry into force of this authorization nor at the time of its exercise. The exercise of this authorization shall only occur in the way that the border of 10% of the capital stock which is determined by section 186 para 3 sentence 4 AktG must be adhered in total, i.e. by inclusion of the possible exercise of the proposed authorizations under item 9 and 10. The shareholders in principles have the possibility to maintain their participation quota by purchasing TUI shares through the stock exchange. The authorization is in the interests of the Company because it provides a greater degree of flexibility. It makes it possible in particular to issue shares specifically to cooperation partners.

The sale of own shares can, with the approval of the Supervisory Board, also be made for non-cash contributions with an exclusion of the shareholders' subscription right. The Company is thereby enabled to offer own shares directly or indirectly as valuable consideration in connection with mergers or in connection with the acquisition of companies, parts of companies, participations or other assets (e.g. hotels, ships or planes). International competition and the globalization of the economy frequently require valuable consideration to be paid in such transactions in the form of shares. The authorization proposed here is intended to give the Company the necessary flexibility to quickly and flexibly benefit both nationally and internationally from opportunities which arise to acquire companies, parts of companies, participations or other assets. For this, the proposed exclusion of the subscription right is necessary. In determining the pricing ratios, the Executive Board will take care that the shareholders' interests are reasonably preserved. The Executive Board will, in determining the value of the shares granted as valuable consideration, orient itself by the stock exchange price for the TUI share. No formalistic orientation by a stock exchange price is intended, especially in order not to jeopardize negotiation results which have been achieved through fluctuations of the stock exchange price.

The authorization also provides for the own shares to be used, with an exclusion of the shareholders' subscription right, to fulfill conversion or subscription rights of holders of warrant-linked bonds or convertible bonds (or, as the case may be, special dividend rights or dividend bonds with a conversion right, option right or conversion duty) issued by the Company or by its group members companies. It may be expedient to entirely or partly use own shares to fulfill the conversion rights instead of new shares from an increase in capital.

The above possibilities can be used not only with respect to shares acquired on the basis of this authorization. Instead, the authorization also comprises shares which were acquired pursuant to section 71d sentence 5 AktG. It is advantageous and provides further flexibility to be able to utilize these own shares in the same way as the shares acquired on the basis

by the Company without a new resolution of the General Meeting. In accordance with section 237 para 3 no. 3 AktG, the General Meeting of the Company can resolve upon the redemption of its fully paid-in no-par shares without requiring a reduction of the capital stock of the Company. The proposed authorization expressly provides for this alternative in addition to a redemption with a capital reduction. If own shares are redeemed in without a capital reduction, the arithmetic share of the other no-par shares in the capital stock of the Company automatically increases. The Executive Board is therefore also to be authorized to make any necessary amendments of the Charter with respect to the number of no-par shares which may change through a redemption.

If the authorization is made use of, the Executive Board will report to the next General Meeting.

The German version of the notice of the Annual General Meeting and the agenda is binding. The English translation is for convenience only.

Counter Motions for TUI AG's Annual General Meeting on 10 May 2006, Hanover

Regarding our general meeting on 10 May 2006, Hanover, two shareholders have submitted counter-motions to topics 3 and 12 of the agenda which are to be made available by the company. The motions are listed in the same order as the agenda topics.

Counter-motion to agenda topic 3
Statement of the Executive Board
Counter-motion to agenda topic 12
Statement of the Executive Board

Mr **Michael Hohenester,** Munich

Regarding topic 3 of the agenda:

„I request that the management board should not be discharged.

Substantiation:
By its policy, the Executive Board does not act in the interest of its shareholders.

A particular example here was an incident in the last business year, which was representative of a whole series of transactions which in my opinion were not advantageous for the shareholders.

The purchase of CP Ships was made with a clear mark-up on what in my opinion was the justifiable amount, which was primarily based on comparative market prices and earnings figures.

The purchase occurred at a time in which container shipping was in a cyclical boom, due to high freight rates. In the years 2006 and 2007, considerable numbers of new ships will come on the market, which will most probably put the freight rates under great pressure.

Financing via a capital increase, which from a strategic point of view was unwisely carried out at low share prices, constitutes in this dimension an unacceptable dilution of the dividends of existing shareholders, and, to a considerable extent, takes away their ability to participate in the future development of the company.

The concept of the integrated tourism group is out of date in my opinion and – due to high fixed costs – deprives our company of the necessary flexibility required in order to react appropriately to crises. Furthermore a commitment by our firm in the extraordinarily competitive air transport industry is no longer acceptable. Our company does not have the means to grow with container shipping while concurrently being profitable in air transportation and also financing necessary investments in the group's own hotels.

I refer the shareholders to my appeal in the shareholders' forum of the electronic German Federal Gazette

The Executive Board was guided by the interests of the company and of its shareholders both when purchasing CP Ships and when carrying out the capital increase and the additional financing measures that were taken in order to finance the acquisition. The effected steps strengthen the profitability of the (TUI) group and create new growth opportunities. The Executive Board will comment on this at the shareholders' meeting.

Mr **Klaus Koch,** Hamburg

Regarding topic 12 of the agenda:

„The proposal of the Executive Board and of the Supervisory Board is rejected; the proposed paragraph 5 of Section 18 of the Charter is deleted without substitution.

Substantiation:
In my opinion there are no objections against the amount of the intended remuneration of the members of the Supervisory Board or the breakdown of such amount in fixed and variable elements.

However, the conclusion of a damage liability insurance for the benefit of the members of the Supervisory Board at the expense of the company and thus of its shareholders is unacceptable. A damage liability of the members of the Supervisory Board is only taken into consideration in case of a liable, either negligent or deliberate breach of duty of the Supervisory Board. Considering the declared professional competence of the members of the Supervisory Board, who have been elected by the shareholders, no event leading to a liability for damages can occur if the Supervisory Board diligently performs its incumbent duties. Given the remuneration amount of all members of the Supervisory Board, an adequate diligence is expected. Should a member of the Supervisory Board have so little self-confidence with respect to the proper performance of its duties that he wishes to be insured against mistakes, he is free to conclude an insurance at its own expense."

Statement of the Executive Board:

The Charter clause rejected by the shareholder (so-called D&O damage liability insurance for supervisory boards) is already a part of the Charter of TUI AG. Merely the numbering of the Section changes (Section 18 para. 4 becomes Section 18 para. 5).

DE 000 TUA G00 0	TUA G00
DE 000 TUA G2B 8	TUA G2B
DE 000 TUA G4B 4	TUA G4B

On 10 May 2006, upon the proposal of the Executive Board and the Supervisory Board, the annual general meeting of TUI AG resolved to use an amount of 193,064,082.75 € out of the balance-sheet profit of the financial year 2005 of 195,500,000.00 € to pay a dividend of 0.77 € on the capital stock of 640,987,649.75 € and to carry forward on new account the remaining amount of 2,435,917.25 €.

The payment of the dividend will be effected as of 11 May 2006 by the depositary banks, with a deduction of 20% capital gains tax as well as 5.5% solidarity surcharge on the capital gains tax (in total 21.1%).

The capital gains tax and the solidarity surcharge are creditable against the tax due by domestic shareholders who are not exempted from tax. The capital gains tax and the solidarity surcharge will not be deducted in cases where a domestic shareholder submits an exemption order for capital gains to the domestic bank keeping its shares or provides a certificate of non-assessment from the fiscal authorities.

TUI AG

CONTINUATION SHEET 1

This Continuation Sheet 1 is in respect of a Form 395, submitted on 12 November 2007 on behalf of RBS Aerospace plc regarding a Security Assignment granted by TUI Travel plc in favour of RBS Aerospace plc and dated 2 November 2007.

AMOUNT SECURED BY THE MORTGAGE OR CHARGE

All moneys, liabilities and obligations which are now or at any time hereafter may be due, owing or payable by the Assignor in any currency, actually or contingently, solely or jointly and/or severally with another or others, as principal or surety, on any account whatsoever pursuant to the Lease and the Security Assignment, or as a consequence of any breach, non-performance, disclaimer or repudiation by the Assignor (or by any liquidator, receiver, administrative receiver, administrator or any similar officer of the Assignor) of any of its obligations under the Lease and the Security Assignment, and (i) (except as expressly otherwise provided) references to the Secured Obligations include references to any of them, and (ii) any amount expressed to be payable under the Lease shall be deemed to form part of the Secured Obligations notwithstanding that the liability of or recourse to the Assignor or its respective assets in respect thereof is limited by any provision of the Lease (the ***Secured Obligations***)

T + 10

Capitalised terms used but not defined in this Continuation Sheet 1 are defined in Continuation Sheet 3 attached hereto

CONTINUATION SHEET 2

This Continuation Sheet 2 is in respect of a Form 395, submitted on 12 November 2007 on behalf of RBS Aerospace plc regarding a Security Assignment granted by TUI Travel plc in favour of RBS Aerospace plc and dated 2 November 2007.

SHORT PARTICULARS OF ALL THE PROPERTY MORTGAGED OR CHARGED

All of the right, title and interest, present and future, of the Assignor in, to and under

(a) the Sub-Lease, including without limitation the Sub-Lease Payments,

(b) all proceeds in respect of any of the foregoing,

together with

(i) all claims, rights and remedies of the Assignor arising out of or in connection with a breach of or default under or in connection with the Sub-Lease (including, without limitation, all damages and other compensation payable for or in respect thereof), and

(ii) all rights of the Assignor to require, enforce and compel performance of all of the provisions of the Sub-Lease, and otherwise to exercise all claims, rights and remedies thereunder, including without limitation all rights to terminate the leasing of the Aircraft under or pursuant to the Sub-Lease or in connection therewith, and all rights to give and receive notices, reports, requests and consents, to make demands, to exercise discretions, options and elections thereunder and to take all other action thereunder, pursuant thereto or in connection therewith,

(the ***Assigned Property***)

Capitalised terms used but not defined in this Continuation Sheet 2 are defined in Continuation Sheet 3 attached hereto

This Continuation Sheet 3 is in respect of a Form 395, submitted on 12 November 2007 on behalf of RBS Aerospace plc regarding a Security Assignment granted by TUI Travel plc in favour of RBS Aerospace plc and dated 2 November 2007.

Capitalised terms used in this Form 395 (and not otherwise defined herein) have the following meanings

Aircraft means a Boeing 737-800 with manufacturer's serial number 35100 (which term includes where the context admits a separate reference to all Engines, Parts and Aircraft Documents),

Aircraft Documents means the documents, data, records aircraft manuals and technical records relating to the Aircraft at the time of Delivery and any other documents and records referred to in clause 12 2 and Schedule 11 of the Lease and all additions, renewals, revisions and replacements from time to time made thereto in accordance with the Lease,

Delivery means delivery of the Aircraft on lease by Assignee to Assignor under the Lease,

Delivery Date means the date on which Delivery occurs,

Engine means, whether or not for the time being installed on the Aircraft

(a) either and each of CFM International CFM56-7B 26 engines with manufacturer's serial numbers 894981 and 895982, or

(b) any engine which has replaced either of those engines, title to which has, or should have, passed to the Assignee in accordance with the Lease,

and in each case includes all modules and Parts from time to time belonging to or installed in those engines but excludes any properly replaced engine title to which has, or should have, passed to the Assignor pursuant to the Lease,

Lease means the lease agreement dated 16 February 2007 between the Assignee as lessee and TUI A G as lessor, in relation to the Aircraft, as novated pursuant to the Novation Agreement and as amended, supplemented or novated from time to time,

Novation Agreement means the novation agreement dated 2 November 2007 between the Assignor, as new lessee, Assignee, as lessor, and TUI A G , as existing lessee, in relation to the Aircraft

Part means, whether or not for the time being installed on the Aircraft

(a) any component, furnishing or equipment (other than a complete Engine) furnished with the Aircraft on the Delivery Date, and

(b) any other component, furnishing or equipment (other than a complete Engine) title to which has, or should have, passed to the Assignee pursuant to the Lease,

but excludes any such items title to which has, or should have, passed to the Assignor pursuant to the Lease,

Security Assignment means the security assignment in respect of the Sub-Lease, dated 2 November 2007, between the Assignee and the Assignor

Sub-Lease means the sub-lease agreement dated 25 October 2007 between the Sub-Lessee and the Assignor in relation to the Aircraft (as novated from time to time)

Sub-Lease Payments means any and all payments payable by the Sub-Lessee to the Assignor pursuant to the Sub-Lease, including, without limitation, all rent

Sub-Lessee means TUI Airlines Nederland B V

Directors' report
for the period ended 31 July 2007

The Directors present their report and the audited financial statements for the period ended 31 July 2007

Principal activity

The Company was incorporated on 29 January 2007 as Coppereagle PLC By virtue of a special resolution dated 19 June 2007, the Company changed its name to TUI Travel PLC on 21 June 2007

Financial information for the period ended 31 May 2007 was produced in a Prospectus for the purposes of the proposed issue of up to 1,118,034,839 new ordinary shares in the Company These shares are to be issued in connection with the proposed merger of TUI Tourism, being the travel and tourism division of TUI AG, excluding certain hotel assets, and First Choice Holidays PLC ("the Merger") The Merger is expected to complete on 3 September 2007, at the same time as admission of the Company's ordinary shares to the Official List and to trading on the London Stock Exchange's main market for listed securities, ("Admission"), is expected to become effective

Other than the incorporation and the subsequent issue of the Prospectus associated with the proposed merger the Company has had no activity during the period

Costs related to the proposed merger are being dealt with by companies in the TUI AG and First Choice Holidays PLC groups and will be charged to the Company in the event that the Merger completes and Admission takes place Accordingly no profit and loss account is presented

Statement of Directors' responsibilities in respect of the Report and the financial statements

The Directors are responsible for preparing the Report and the financial statements in accordance with applicable law and regulations

Company law requires the Directors to prepare financial statements for each financial year Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) The financial statements are required by law to give a true and fair review of the state of affairs of the Company and of the profit or loss of the Company for that period

In preparing those financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business, in which case there should be supporting assumptions or qualifications as necessary

The Directors confirm that they have complied with the above requirements in preparing the financial statements

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 1985 They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities

Directors' report
for the period ended 31 July 2007 (continued)

Statement of disclosure of information to auditors

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware, and

The Directors have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any relevant information and to establish that the Company's auditors are aware of that information

This report has been prepared in accordance with the special provisions of Part VII of the Companies Act 1985 relating to small companies

By order of the Board

Andrew John
Company Secretary

Dated 17 August 2007

Independent auditors' report to the members of TUI Travel PLC

We have audited the financial statements of TUI Travel PLC for the period ended 31 July 2007 which comprise the Balance Sheet, the Cash Flow Statement and the related notes These financial statements have been prepared under the accounting policies set out therein

Respective responsibilities of Directors and auditors

The Directors' responsibilities for preparing the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice) are set out in the Statement of Directors' Responsibilities

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland) This report, including the opinion, has been prepared for and only for the Company's members as a body in accordance with Section 235 of the Companies Act 1985 and for no other purpose We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985 We also report to you if, in our opinion, the Directors' Report is consistent with the financial statements

In addition we report to you if, in our opinion, the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and other transactions is not disclosed

We read the Directors' report and consider the implications for our report if we become aware of any apparent misstatements within it

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board An audit includes examination, on a test basis of evidence relevant to the amounts and disclosures in the financial statements It also includes an assessment of the significant estimates and judgments made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements

Opinion

In our opinion

- the financial statements give a true and fair view, in accordance with United Kingdom Generally Accepted Accounting Practice, of the state of the Company's affairs as at 31 July 2007 and of its cash flows for the period then ended,
- the financial statements have been properly prepared in accordance with the Companies Act 1985, and
- the information given in the Directors' Report is consistent with the financial statements

Issue of ordinary and redeemable preference shares	4	50,000
Increase in cash and cash equivalents	6	50,000

Notes to the financial statements for the period ended 31 July 2007

1 Accounting policies

The principal accounting policies applied in the preparation of the financial statements are set out below

Basis of preparation

The financial statements have been prepared on a going concern basis in accordance with the Companies Act (1985) and applicable accounting standards in the United Kingdom

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits as well as other current highly liquid financial assets with an original term of a maximum of three months

Dividends

Dividend distributions to the Company's shareholders are recognised as a liability in the financial statements in the period in which the dividends are appropriately authorised and approved for payment and are no longer at the discretion of the Company Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements

2 Auditors' remuneration

As mentioned in the Director's Report, costs are being borne by other companies in the TUI AG and First Choice Holidays PLC groups The auditors' remuneration in respect of audit services for the period, borne by another company, was £1,000

3 Directors' emoluments and employee costs

There were no employees during the period and no Director received any remuneration

4 Share capital

The Company was incorporated with an authorised share capital of £100,000 divided into 100,000 shares of £1 each On incorporation, the Company had an issued share capital of two ordinary shares of £1 each The following alterations to the authorised and issued share capital of the Company have taken place since its incorporation

- on 19 June 2007, a written shareholders' resolution was passed re-designating and converting 49,998 authorised but unissued ordinary shares into Redeemable Preference Shares of £1 each which will be redeemed automatically upon Admission, subject to the availability of sufficient distributable reserves The Redeemable Preference Shares have the rights and restrictions described below,
- on 19 June 2007, 49,998 Redeemable Preference Shares were issued at par for cash,
- on 28 June 2007, each issued and unissued ordinary share of £1 each was sub-divided into ten ordinary shares of ten pence each, and
- on 28 June 2007, the authonsed share capital was increased from £100,000 to £200,000,000 by the creation of 1,999,000,000 ordinary shares of ten pence each

On 31 July 2007, Andrew Lloyd John, as nominee, and TUI AG each held ten ordinary shares of ten pence

	At 31 July 2007		
	Number	Nominal amount per share	Total value £
Authonsed ordinary share capital	1,999,500,020	10p	199,950,002
Authonsed redeemable preference share capital	49,998	£1	49,998
Issued and fully paid ordinary shares	20	10p	2
Issued and fully paid redeemable preference shares	49,998	£1	49,998

Redeemable Preference Shares

The following is a summary of the rights and provisions in the Articles relating to the non-voting, non-dividend bearing Redeemable Preference Shares

(i) Income the holders of the Redeemable Preference Shares shall not be entitled to receive a dividend,

(ii) Capital on a return of capital £1 per share,

(iii) Voting no right to vote at any general meeting of the Company unless (a) the meeting is to consider any resolution approving the purchase by the Company of its own shares, a reduction in the capital of, or the winding up of the Company, or (b) the meeting is to consider any resolution which abrogates or varies the rights attaching to the Redeemable Preference Shares,

(iv) Redemption subject to the provisions of the Companies Acts, the Redeemable Preference Shares shall be redeemed automatically upon Admission

5 Reconciliation of movements in shareholders' funds

	Share capital	Total
	£	£
At incorporation	2	2
Issue of shares	49,998	49,998
Shareholders' funds at 31 July 2007	50,000	50,000

6 Reconciliation in net cash

	At incorporation	Cash flow	At 31 July 2007
	£	£	£
Cash in hand and at bank	2	49,998	50,000

7 Commitments

Since incorporation the Company has entered into the following agreements

Merger Agreement

On 19 March 2007, TUI AG, First Choice Holidays PLC and the Company entered into the Merger Agreement in connection with the Merger The Merger Agreement sets out the terms on which the Company will acquire each of First Choice Holidays PLC and TUI Tourism, being the travel and tourism division, excluding certain hotel assets, of TUI AG

Under the Merger Agreement, the Merger will be effected by the acquisition by the Company of TUI Tourism and by the acquisition of First Choice Holidays PLC by means of a scheme of arrangement The Company will acquire TUI Tourism in consideration for the issue to TUI AG of ordinary shares constituting 51 per cent of the issued ordinary share capital of the Company immediately after completion (on a fully diluted basis) and will acquire First Choice Holidays PLC in consideration for the issue to First Choice Holidays PLC Shareholders of ordinary shares constituting 49 per cent of the issued ordinary share capital of the Company immediately after completion (on a fully diluted basis)

The Merger Agreement may be terminated by TUI AG or First Choice Holidays PLC in certain circumstances If the Scheme and the reduction of capital have not become effective by 31 October 2007, the Merger Agreement shall automatically terminate

Relationship Agreement

Following completion, TUI AG will hold 51 per cent of the Company's shares on a fully diluted basis The Relationship Agreement was entered into on 29 June 2007 to take effect conditional upon completion and records the understanding between TUI AG and the Company regarding the relationship between them and the governance of the Company

The Relationship Agreement sets out certain conditions such as those in relation to the composition of the Board, in relation to transactions by TUI AG in respect of the Company's shares and approval of certain of the Company's transactions

The Relationship Agreement remains in force until the shares of the Company are no longer admitted to listing on the Official List and to trading on the London Stock Exchange or TUI AG holds less than ten per cent of the rights to vote at general meetings of the Company

Sponsors' Agreement

The Company, First Choice Holidays PLC, certain companies within the TUI Tourism Group and each of Deutsche Bank AG, Lazard & Co , Limited and Morgan Stanley & Co Limited (the "Joint Sponsors") entered into the Sponsors' Agreement on 29 June 2007 Under the terms of the Sponsors' Agreement, the Company appointed each of the Joint Sponsors to act as the Company's sponsor in connection with Admission The Company has undertaken to pay certain costs, charges, fees and expenses and to reimburse the Joint Sponsors for certain costs incurred in connection with Admission Pursuant to the terms of the agreement, the Company has also given certain representations, warranties, indemnities and undertakings to the Joint Sponsors in connection with the Merger and Admission The Sponsors' Agreement may be terminated by the Joint Sponsors prior to Admission in certain circumstances

Notes to the financial statements for the year ended 31 July 2007 (continued)

7 Commitments (continued)

The Shareholder Loan Agreement

On 29 June 2007 the Company entered into the Shareholder Loan Agreement with TUI AG under the terms of which TUI AG will lend a maximum amount of €2 billion (£1 4 billion) to the Company for general corporate purposes The facility will be available in its entirety from completion of the Merger until three years after the Company is no longer restricted from raising external finance under the terms of the Relationship Agreement The loan is available to be drawn down only on completion Any amounts repaid under the facility cannot be redrawn

Hotel Framework Agreement

TUI AG and the Company entered into an agreement on 26 June 2007 which gives the Company continued access to the hotel operations retained by TUI AG on completion of the Merger The agreement expires on 31 October 2011

Credit Facility Agreement

The Company entered into a five year credit facility agreement on 29 June 2007 with Barclays Capital, The Royal Bank of Scotland plc and Société Générale Corporate & Investment Banking which provides a £600 million credit facility Interest is payable based upon LIBOR (or EURIBOR) plus a 0 75 per cent margin On 3 August 2007 this facility was increased by a further £170 million to a total of £770 million

Bonding Facility Agreement

On 29 June 2007 the Company entered into a £400 million bonding facility agreement with Barclays Capital, The Royal Bank of Scotland and Société Générale Corporate & Investment Banking The final maturity date of the facility is 31 March 2008, unless notice is given to extend the bonding facility, in which case the final maturity date will be 31 March 2009 On 3 August 2007 this facility was increased by a further £30 million to a total of £430 million

8 Contingent liabilities

In the event of successful completion of the merger of TUI Tourism and First Choice Holidays PLC and listing of the Company's shares, the Company will be charged transaction and other costs currently being dealt with by companies in the TUI AG and First Choice Holidays PLC groups These costs are estimated at £27 million As at 31 July 2007, the payment of such fees by the Company remains contingent, as in the event that the Merger does not complete, costs will remain with those companies Therefore, no liabilities have been recognised in these financial statements On successful completion any costs arising will form part of the cost of investments

THE COMPANIES ACTS 1985 to 1989

PUBLIC COMPANY LIMITED BY SHARES

MEMORANDUM OF ASSOCIATION

of

TUI TRAVEL PLC

Incorporated on 29 January 2007

1 The Company's name is "TUI TRAVEL PLC"[1]

2 The Company is to be a public company

3 The Company's registered office is to be situated in England and Wales

4 The objects for which the Company is established are [2]

(A) To carry on the business of a holding company in all its branches, and to acquire by purchase, lease, concession, grant, licence or otherwise deal in such businesses, options, rights, privileges, lands, buildings, leases, underleases, stocks, shares, debentures, bonds, obligations, securities, reversionary interests, annuities, policies of assurance and other property and rights of interest in property as the Company shall deem fit, and generally to hold, manage, develop, lease, sell or dispose of the same, and to vary any of the investments of the Company, and to enter into, assist or participate in financial, commercial, mercantile, industrial, and other transactions, undertakings, and businesses of every description

(B) To carry on business as a general commercial company

(C) To carry on business as carriers of passengers, goods and other articles by air, sea and land, and as proprietors, agents, consultants, charterers and hirers of aeroplanes, sea-planes and aircraft generally, ships, yachts, boats, motor cars, coaches and omnibuses and mechanically propelled vehicles of every description

(D) To carry on business as owners, managers, proprietors and operators of holiday accommodation throughout the world, including villas, cottages, chalets, houses, apartment blocks, hotels and guest houses, to carry on business as travel agents and operators and to establish and carry on travel bureaux, touring agencies, custom's clearing agencies, to organise and conduct trips, holidays and excursions of all kinds in any part of the world, to provide hotel and lodging accommodation and to act as agents for railways, shippers, carriers and as sellers and dealers in

[1] The name of the Company was changed from Coppereagle plc to TUI Travel PLC on 21 June 2007 pursuant to a written resolution passed on 19 June 2007

[2] Amended by written resolution passed on 28 June 2007

any tickets issued by them, and to provide any other accommodation, assistance or services to travellers and tourists

(E) To construct, build, improve, maintain, work, manage, carry out or control any roads, ways, tramways, railways, branches or sidings, reservoirs, water courses, wharves, manufactories, warehouses, shops, stores, buildings, and conveniences, which may seem calculated directly or indirectly to advance the Company's interests, and contribute to, subsidise, or otherwise assist or take part in the construction, improvements, maintenance, working, management, carrying out, or control thereof

(F) To acquire and undertake the whole or any part of the business, property, and liabilities of any person or company carrying on any business which this Company is authorised to carry on, or possessed of property suitable for the purposes of the Company

(G) To enter into any arrangement for sharing profits, union of interests, co-operation, joint adventure, reciprocal concession or otherwise, with any person or company carrying on or engaged in, or about to carry on or engage in any business or transaction which this Company is authorised to carry on or engage in, or any business or transaction capable of being conducted so as directly or indirectly to benefit this Company, and to take or otherwise acquire shares and securities of any such company, and to sell, hold, re-issue, with or without guarantee, or otherwise deal with the same

(H) To sell the undertaking of the Company, or any part thereof, for such consideration as the Company may think fit, and in particular for shares, debentures, or securities of any other Company having objects, altogether or in parts, similar to those of this Company

(I) To invest and deal with the moneys of the Company not immediately required, upon such securities, and in such manner as may from time to time be determined

(J) To lend money to such persons, and on such terms, as may seem expedient, and in particular to customers and others having dealings with the Company, and to guarantee the performance of contracts by any such persons

(K) To borrow or raise money in such manner as the Company shall think fit, and in particular by the issue of debentures, or debenture stock, perpetual or otherwise, charged upon all or any of the Company's property, both present and future, including its uncalled capital

(L) To give indemnity for, or to guarantee, support, secure the performance of all or any of the obligations of any person or company with or without consideration and whether or not the Company obtains any benefit therefrom whether by personal covenant or by mortgage, charge or lien on the whole or any part of the undertaking, property and assets of the Company both present and future, including its uncalled capital, or by all or any of such methods or in any other manner, and in particular, but without limiting the generality of the foregoing to give indemnity for, or to guarantee, support or secure with or without consideration and whether or not the Company obtains any benefit therefrom whether by personal covenant or by any such mortgage, charge or lien, or by all or any of such methods the performance of all or any of the obligations (including the repayment or

payment of the principal and premium of, and interest on, any securities) of any company which is for the time being a subsidiary or a holding company of the Company or another subsidiary of a holding company of the Company or otherwise associated with the Company

(M) To provide any guarantee or indemnity in respect of the performance or discharge of any obligation or liability by, or otherwise for the benefit of, any person

(N) To purchase and maintain insurance for the benefit of any director or other officer or auditor of the Company against any liability which may attach to him or loss or expenditure which he may incur in relation to anything done or omitted to be done or alleged to have been done or to be done as a director, or auditor

(O) To make, endorse, execute, and issue promissory notes, bills of exchange, debentures, and other negotiable or transferable instruments

(P) To sell, improve, manage, develop, lease, mortgage, dispose of, turn to account, or otherwise deal with all or any of the property of the Company

(Q) To establish and maintain, or procure the establishment and maintenance of, any pension or superannuation funds (whether contributory or otherwise) for the benefit of, and give or procure the giving of pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit to any persons who are or were at any time in the employment or service of the Company, or of any company which is a subsidiary of the Company or is allied to or associated with the Company or any such subsidiary or of any of the predecessors in business of the Company or any such other company as aforesaid, or may be or have been directors or officers of the Company or of any such other companies as aforesaid, and the wives, widows, families and dependants of any such persons, and also establish, subsidise and subscribe to any institutions, associations, societies, clubs or funds calculated to be for the benefit of, or to advance the interests and well-being of, the Company or of any such other company as aforesaid or any such persons as aforesaid, and make payments for or towards the insurance of any such person as aforesaid and subscribe or guarantee money for charitable or benevolent objects, or for any exhibition of any public, general or useful object, and do any of the matters aforesaid either alone or in conjunction with any such other company as aforesaid Subject to particulars with respect to the proposed payment being disclosed to the members of the Company and to the proposal being approved by the Company by ordinary resolution, if the Act shall so require, any director who holds or has held any such executive position or agreement for services shall be entitled to participate in and retain for his own benefit any such pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation

(R) To apply for, register, purchase, or by other means acquire and protect, prolong and renew, whether in the United Kingdom or elsewhere, any trade marks, patents, copyrights, trade secrets, or other intellectual property rights, licences, secret processes, designs, protections and concessions and to disclaim, alter, modify, use and turn to account and to manufacture under or grant licences or privileges in

respect of the same, and to expend money in experimenting upon, testing and improving any patents, inventions or rights which the Company may acquire or propose to acquire

(S) To apply for, promote, and obtain any Act of Parliament, order, or licence of the Department of Trade or other authority for enabling the Company to carry any of its objects into effect, or for effecting any modification of the Company's constitution, or for any other purpose which may seem calculated directly or indirectly to promote the Company's interests, and to oppose any proceedings or applications which may seem calculated directly or indirectly to prejudice the Company's interests

(T) To enter into any arrangements with any government or authority (supreme, municipal, local, or otherwise) that may seem conducive to the attainment of the Company's objects or any of them, and to obtain from any such government or authority any charters, decrees, rights, privileges or concessions which the Company may think desirable and to carry out, exercise, and comply with any such charters, decrees, rights, privileges, and concessions

(U) To subscribe for, take, purchase, or otherwise acquire, hold, sell, deal with and dispose of, place and underwrite shares, stocks, debentures, debenture stocks, bonds, obligations or securities issued or guaranteed by any other company constituted or carrying on business in any part of the world, and debentures, debenture stocks, bonds, obligations or securities issued or guaranteed by any government or authority, municipal, local or otherwise, in any part of the world

(V) To control, manage, finance, subsidise, co-ordinate or otherwise assist any company or companies in which the Company has a direct or indirect financial interest, to provide secretarial, administrative, technical, commercial and other services and facilities of all kinds for any such company or companies and to make payments by way of subvention or otherwise and any other arrangements which may seem desirable with respect to any business or operations of or generally with respect to any such company or companies

(W) To promote any other company for the purpose of acquiring the whole or any part of the business or property or undertaking or any of the liabilities of the Company, or of undertaking any business or operations which may appear likely to assist or benefit the Company or to enhance the value of any property or business of the Company, and to place or guarantee the placing of, underwrite, subscribe for, or otherwise acquire all or any part of the shares or securities of any such company as aforesaid

(X) To sell or otherwise dispose of the whole or any part of the business or property of the Company, either together or in portions, for such consideration as the Company may think fit, and in particular for shares, debentures, or securities of any company purchasing the same

(Y) To act as agents or brokers and as trustees for any person, firm or company, and to undertake and perform sub-contracts

(Z) To remunerate any person, firm or company rendering services to the Company either by cash payment or by the allotment of shares or other securities of the

Company credited as paid up in full or in part or otherwise as may be thought expedient

(AA) To distribute among the members of the Company in kind any property of the Company of whatever nature

(BB) To pay all or any expenses incurred in connection with the promotion, formation and incorporation of the Company, or to contract with any person, firm or company to pay the same, and to pay commissions to brokers and others for underwriting, placing, selling, or guaranteeing the subscription of any shares or other securities of the Company

(CC) To procure the Company to be registered or recognised in any part of the world

(DD) To do all or any of the above things in any part of the world, as principals, agents, contractors, trustees, or otherwise, and by or through trustees, agents, or otherwise, and either alone or in conjunction with others, and the doing of all such other things as are incidental or conducive to the attainment of the above objects

5 The liability of the members is limited

6 The Company's share capital is £100,000 divided into 100,000 shares of £1 each[•]

[•]

(A) By a written resolution passed on 19 June 2007 the authorised share capital of the Company was converted from £100,000 divided into 100,000 ordinary shares of £1 each to £100,000 divided into 50,002 ordinary shares of £1 each and 49,998 redeemable preference shares of £1 each

(B) By a written resolution passed on 28 June 2007 the authorised share capital of the Company was increased from £100,000 divided into 50,002 ordinary shares of £1 and 49,998 redeemable preference shares of £1 each to £200,000,000 divided into 1,999,500,020 ordinary shares of 10 pence each and 49,998 redeemable preference shares of £1 each

TUI TRAVEL PLC ('THE COMPANY')

(Company No. 6072876)

WRITTEN RESOLUTION OF THE MEMBERS OF THE COMPANY IN LIEU OF A GENERAL MEETING PASSED PURSUANT TO REGULATION 53 OF TABLE A WHICH FORMS PART OF THE COMPANY'S ARTICLES OF ASSOCIATION

We, the undersigned, being all the members of the Company entitled to attend and vote at a general meeting of the Company hereby **RESOLVE THAT**

1 each of the issued and unissued ordinary shares of £1 each be sub-divided into 10 ordinary shares of 10 pence each,

2 the authorised share capital of the Company be increased from £100,000 to £200,000,000 by the creation of 1,999,000,000 ordinary shares of 10 pence each,

3 the directors of the Company be and are hereby generally and unconditionally authorised in accordance with section 80 of the Companies Act 1985 (the "**Act**") to exercise all the powers of the Company to allot relevant securities (within the meaning of section 80(2) of the Act) up to an aggregate nominal amount of £200,000,000 to such persons at such times and on such terms as the directors may think fit, such authority to be in substitution for any and all existing authorities provided that such authority shall expire immediately following admission of the Company's ordinary share capital to the official list of the Financial Services Authority and to trading on the London Stock Exchange's market for listed securities ("**Admission**"),

4 the directors of the Company be and are hereby generally empowered pursuant to section 95 of the Act to allot equity securities (within the meaning of section 94(2) of the Act) for cash pursuant to the general authority described in resolution 3 as if section 89(1) of the Act did not apply to the allotment, provided that such power shall expire upon the expiry of the authority described in resolution 3 above,

5 the directors of the Company be and are hereby generally and unconditionally authorised with effect from the expiry of the authority specified in resolution 3 above, pursuant to section 80 of the Act, to exercise all of the powers of the Company to allot relevant securities (within the meaning of section 80(2) of the Act) up to an aggregate nominal amount of £38,000,000 (or such lesser amount as shall equal one-third of the nominal value of the issued ordinary share capital of the Company immediately following Admission) for a period expiring (unless previously renewed, varied or revoked by the Company in a general meeting) 5 years after the date of the passing of such resolution, but so that the Company may make offers or agreements which would or might require relevant securities to be allotted after the expiry of such authority and the directors of the Company may allot

TUESDAY

COMPANIES HOUSE

relevant securities in pursuance of such offers or agreements as if the authority had not expired,

6 the directors of the Company be and are hereby generally empowered with effect from the expiry of the authority specified in resolution 4 above pursuant to section 95 of the Act, to allot equity securities (within the meaning of section 94(2) of the Act) for cash pursuant to the authority conferred by resolution 5 above or by way of a sale of treasury shares as if section 89(1) of the Act did not apply to such allotment (such power, unless previously revoked, to expire 5 years after the date of the passing of this resolution, save that the Company may make offers or agreements which would or might require equity securities to be allotted after the expiry of such power and the directors of the Company may allot equity securities in pursuance of such offers or agreements as if such power had not expired), such power being limited to

(a) the allotment of equity securities in connection with a rights issue, open offer or other offer of securities in favour of equity shareholders where the equity securities respectively attributable to the interests of the equity shareholders are proportionate (as near as may be) to the respective number of equity shares held by them, subject to such exclusions or other arrangements as the Directors may deem necessary or expedient to deal with treasury shares, fractional entitlements or legal or practical problems arising under the laws of any overseas territory or the requirements of any regulatory body or any stock exchange or any other matter whatsoever, and

(b) the allotment of equity securities, otherwise than pursuant to paragraph (a) above, up to an aggregate nominal amount equal to 5 per cent of the nominal value of the issued ordinary share capital of the Company immediately following Admission,

7 subject to and conditional upon Admission, the Company be generally and unconditionally authorised to make market purchases (within the meaning of section 163(3) of the Act) of ordinary shares of 10 pence each of the Company provided that

(a) the maximum number of ordinary shares of 10 pence each hereby authorised to be acquired is an amount equal to 10 per cent of the ordinary share capital of the Company immediately following Admission,

(b) the minimum price which may be paid for any such ordinary share is the nominal value of such ordinary share being 10 pence,

(c) the maximum price which may be paid for any such ordinary share is an amount equal to 105 per cent of the average of the middle market quotations for an ordinary share in the Company as derived from The London Stock Exchange Daily Official List for the five business days immediately preceding the day on which such share is contracted to be purchased,

(d) the authority hereby conferred shall expire at the conclusion of the next annual general meeting of the Company,

(e) the Company may make a contract to purchase its ordinary shares under the authority hereby conferred prior to the expiry of such authority, which contract will or may be executed wholly or partly after the expiry of such authority, and may purchase its ordinary shares in pursuance of any such contract

8 that the Memorandum of Association of the Company be amended by the deletion of the existing clause 4 and the substitution of the following therefore

"The objects for which the Company is established are -

(A) To carry on the business of a holding company in all its branches, and to acquire by purchase, lease, concession, grant, licence or otherwise deal in such businesses, options, rights, privileges, lands, buildings, leases, underleases, stocks, shares, debentures, bonds, obligations, securities, reversionary interests, annuities, policies of assurance and other property and rights of interest in property as the Company shall deem fit, and generally to hold, manage, develop, lease, sell or dispose of the same, and to vary any of the investments of the Company, and to enter into, assist or participate in financial, commercial, mercantile, industrial, and other transactions, undertakings, and businesses of every description

(B) To carry on business as a general commercial company

(C) To carry on business as carriers of passengers, goods and other articles by air, sea and land, and as proprietors, agents, consultants, charterers and hirers of aeroplanes, sea-planes and aircraft generally, ships, yachts, boats, motor cars, coaches and omnibuses and mechanically propelled vehicles of every description

(D) To carry on business as owners, managers, proprietors and operators of holiday accommodation throughout the world, including villas, cottages, chalets, houses, apartment blocks, hotels and guest houses, to carry on business as travel agents and operators and to establish and carry on travel bureaux, touring agencies, custom's clearing agencies, to organise and conduct trips, holidays and excursions of all kinds in any part of the world, to provide hotel and lodging accommodation and to act as agents for railways, shippers, carriers and as sellers and dealers in any tickets issued by them, and to provide any other accommodation, assistance or services to travellers and tourists

(E) To construct, build, improve, maintain, work, manage, carry out or control any roads, ways, tramways, railways, branches or sidings, reservoirs, water courses, wharves, manufactories, warehouses, shops, stores, buildings, and conveniences, which may seem calculated directly or indirectly to advance the Company's interests, and contribute to, subsidise, or otherwise assist or take part in the construction, improvements, maintenance, working, management, carrying out, or control thereof

(F) To acquire and undertake the whole or any part of the business, property, and liabilities of any person or company carrying on any business which this Company is authorised to carry on, or possessed of property suitable for the purposes of the Company

(G) To enter into any arrangement for sharing profits, union of interests, co-operation, joint adventure, reciprocal concession or otherwise, with any person or company carrying on or engaged in, or about to carry on or engage in any business or transaction which this Company is authorised to carry on or engage in, or any business or transaction capable of being conducted so as directly or indirectly to benefit this Company, and to take or otherwise acquire shares and securities of

any such company, and to sell, hold, re-issue, with or without guarantee, or otherwise deal with the same

(H) To sell the undertaking of the Company, or any part thereof, for such consideration as the Company may think fit, and in particular for shares, debentures, or securities of any other Company having objects, altogether or in parts, similar to those of this Company

(I) To invest and deal with the moneys of the Company not immediately required, upon such securities, and in such manner as may from time to time be determined

(J) To lend money to such persons, and on such terms, as may seem expedient, and in particular to customers and others having dealings with the Company, and to guarantee the performance of contracts by any such persons

(K) To borrow or raise money in such manner as the Company shall think fit, and in particular by the issue of debentures, or debenture stock, perpetual or otherwise, charged upon all or any of the Company's property, both present and future, including its uncalled capital

(L) To give indemnity for, or to guarantee, support, secure the performance of all or any of the obligations of any person or company with or without consideration and whether or not the Company obtains any benefit therefrom whether by personal covenant or by mortgage, charge or lien on the whole or any part of the undertaking, property and assets of the Company both present and future, including its uncalled capital, or by all or any of such methods or in any other manner, and in particular, but without limiting the generality of the foregoing to give indemnity for, or to guarantee, support or secure with or without consideration and whether or not the Company obtains any benefit therefrom whether by personal covenant or by any such mortgage, charge or lien, or by all or any of such methods the performance of all or any of the obligations (including the repayment or payment of the principal and premium of, and interest on, any securities) of any company which is for the time being a subsidiary or a holding company of the Company or another subsidiary of a holding company of the Company or otherwise associated with the Company

(M) To provide any guarantee or indemnity in respect of the performance or discharge of any obligation or liability by, or otherwise for the benefit of, any person

(N) To purchase and maintain insurance for the benefit of any director or other officer or auditor of the Company against any liability which may attach to him or loss or expenditure which he may incur in relation to anything done or omitted to be done or alleged to have been done or to be done as a director, or auditor

(O) To make, endorse, execute, and issue promissory notes, bills of exchange, debentures, and other negotiable or transferable instruments

(P) To sell, improve, manage, develop, lease, mortgage, dispose of, turn to account, or otherwise deal with all or any of the property of the Company

(Q) To establish and maintain, or procure the establishment and maintenance of, any pension or superannuation funds (whether contributory or otherwise) for the benefit of, and give or procure the giving of pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit to any persons who are or were at any time in the employment or service of the Company, or of any company which is a subsidiary of the Company or is allied to or associated with the Company or any such subsidiary or of any of the predecessors in business of the Company or any such other company as aforesaid, or may be or have been directors or officers of the Company or of any such other companies as aforesaid, and the wives, widows, families and dependants of any such persons, and also establish, subsidise and subscribe to any institutions, associations, societies, clubs or funds calculated to be for the benefit of, or to advance the interests and well-being of, the Company or of any such other company as aforesaid or any such persons as aforesaid, and make payments for or towards the insurance of any such person as aforesaid and subscribe or guarantee money for charitable or benevolent objects, or for any exhibition of any public, general or useful object, and do any of the matters aforesaid either alone or in conjunction with any such other company as aforesaid Subject to particulars with respect to the proposed payment being disclosed to the members of the Company and to the proposal being approved by the Company by ordinary resolution, if the Act shall so require, any director who holds or has held any such executive position or agreement for services shall be entitled to participate in and retain for his own benefit any such pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation

(R) To apply for, register, purchase, or by other means acquire and protect, prolong and renew, whether in the United Kingdom or elsewhere, any trade marks, patents, copyrights, trade secrets, or other intellectual property rights, licences, secret processes, designs, protections and concessions and to disclaim, alter, modify, use and turn to account and to manufacture under or grant licences or privileges in respect of the same, and to expend money in experimenting upon, testing and improving any patents, inventions or rights which the Company may acquire or propose to acquire

(S) To apply for, promote, and obtain any Act of Parliament, order, or licence of the Department of Trade or other authority for enabling the Company to carry any of its objects into effect, or for effecting any modification of the Company's constitution, or for any other purpose which may seem calculated directly or indirectly to promote the Company's interests, and to oppose any proceedings or applications which may seem calculated directly or indirectly to prejudice the Company's interests

(T) To enter into any arrangements with any government or authority (supreme, municipal, local, or otherwise) that may seem conducive to the attainment of the Company's objects or any of them, and to obtain from any such government or authority any charters, decrees, rights, privileges or concessions which the Company may think desirable and to carry out, exercise, and comply with any such charters, decrees, rights, privileges, and concessions

(U) To subscribe for, take, purchase, or otherwise acquire, hold, sell, deal with and dispose of, place and underwrite shares, stocks, debentures, debenture stocks, bonds, obligations or securities issued or guaranteed by any other company constituted or carrying on business in any part of the world, and debentures, debenture stocks, bonds, obligations or securities issued or guaranteed by any government or authority, municipal, local or otherwise, in any part of the world

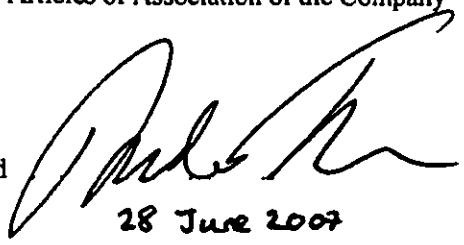
(V) To control, manage, finance, subsidise, co-ordinate or otherwise assist any company or companies in which the Company has a direct or indirect financial interest, to provide secretarial, administrative, technical, commercial and other services and facilities of all kinds for any such company or companies and to make payments by way of subvention or otherwise and any other arrangements which may seem desirable with respect to any business or operations of or generally with respect to any such company or companies

(W) To promote any other company for the purpose of acquiring the whole or any part of the business or property or undertaking or any of the liabilities of the Company, or of undertaking any business or operations which may appear likely to assist or benefit the Company or to enhance the value of any property or business of the Company, and to place or guarantee the placing of, underwrite, subscribe for, or otherwise acquire all or any part of the shares or securities of any such company as aforesaid

(X) To sell or otherwise dispose of the whole or any part of the business or property of the Company, either together or in portions, for such consideration as the Company may think fit, and in particular for shares, debentures, or securities of any company purchasing the same

(Y) To act as agents or brokers and as trustees for any person, firm or company, and to undertake and perform sub-contracts

(Z) To remunerate any person, firm or company rendering services to the Company either by cash payment or by the allotment of shares or other securities of the Company credited as paid up in full or in part or otherwise as may be thought expedient



(AA) To distribute among the members of the Company in kind any property of the Company of whatever nature

(BB) To pay all or any expenses incurred in connection with the promotion, formation and incorporation of the Company, or to contract with any person, firm or company to pay the same, and to pay commissions to brokers and others for underwriting, placing, selling, or guaranteeing the subscription of any shares or other securities of the Company

(CC) To procure the Company to be registered or recognised in any part of the world

(DD) To do all or any of the above things in any part of the world, as principals, agents, contractors, trustees, or otherwise, and by or through trustees, agents, or otherwise, and either alone or in conjunction with others, and the doing of all such other things as are incidental or conducive to the attainment of the above objects "

9 the regulations contained in the printed document annexed hereto and initialled for the purpose of identification be and the same are hereby approved and adopted as the Articles of Association of the Company in substitution for and to the exclusion of the existing Articles of Association of the Company

ARTICLES OF ASSOCIATION

of

TUI TRAVEL PLC

(adopted by special resolution passed on 2007)

PRELIMINARY

1 (1) In these articles the following words bear the following meanings-

"the 1985 Act" means the Companies Act 1985 to the extent in force from time to time,

"the 2006 Act" means the Companies Act 2006 to the extent in force from time to time,

"the Acts" means the 1985 Act and the 2006 Act,

"electronic address" means any number or address used for the purposes of sending or receiving notices, documents or information by electronic means,

"these articles" means the articles of the Company,

"clear days" means in relation to the period of a notice, that period excluding the day when the notice is given or deemed to be given and the day for which it is given or on which it is to take effect,

"electronic form" has the same meaning as in the 2006 Act,

"electronic means" has the same meaning as in the 2006 Act,

"executed" means any mode of execution,

"holder" means in relation to shares, the member whose name is entered in the register of members as the holder of the shares,

"the Stock Exchange" means the London Stock Exchange PLC,

"Office" means the registered office of the Company,

"the seal" means the common seal (if any) of the Company and an official seal (if any) kept by the Company by virtue of section 40 of the 1985 Act, or either of them as the case may require,

"secretary" means the secretary of the Company or any other person appointed to perform the duties of the secretary of the Company, including a joint, assistant or deputy secretary, and

"the Uncertificated Securities Regulations" means the Uncertificated Securities Regulations 2001

(2) In these articles, references to a share being in uncertificated form are references to that share being an uncertificated unit of a security and references to a share being in certificated form are references to that share being a certificated unit of a

security, provided that any reference to a share in uncertificated form applies only to a share of a class which is, for the time being, a participating security, and only for so long as it remains a participating security

(3) Save as aforesaid and unless the context otherwise requires, words or expressions contained in these articles have the same meaning as in the Acts or the Uncertificated Securities Regulations (as the case may be)

(4) Except where otherwise expressly stated, a reference in these articles to any primary or delegated legislation or legislative provision includes a reference to any modification or re-enactment of it for the time being in force

(5) In these articles, unless the context otherwise requires

(a) words in the singular include the plural, and vice versa,

(b) words importing any gender include all genders, and

(c) a reference to a person includes a reference to a body corporate and to an unincorporated body of persons

(6) In these articles

(a) references to writing include references to typewriting, printing, lithography, photography and any other modes of representing or reproducing words in a legible and non-transitory form and documents and information sent or supplied in electronic form or made available on a website are "in writing" for the purposes of these articles,

(b) the eiusdem generis rule does not apply Accordingly, specific words indicating a type, class or category of thing do not restrict the meaning of general words following such specific words, such as general words introduced by the word "other" or a similar expression Similarly, general words followed by specific words shall not be restricted in meaning to the type, class or category of thing indicated by such specific words,

(c) references to a power are to a power of any kind, whether administrative, discretionary or otherwise, and

(d) references to a committee of the directors are to a committee established in accordance with these articles, whether or not comprised wholly of directors

(7) The headings are inserted for convenience only and do not affect the construction of these articles

2 The regulations contained in Table A in the Companies (Tables A to F) Regulations 1985 do not apply to the Company

SHARE CAPITAL

3 (1) The share capital of the Company is £200,000,000 divided into £1,999,500,020 ordinary shares of 10 pence each and 49,998 non-voting, non-dividend bearing redeemable preference shares of £1 each ("Redeemable Preference Shares")

(2) The holders of the Redeemable Preference Shares shall not be entitled to receive a dividend

(3) On a distribution of assets of the Company among its members on a winding up or other return of capital (other than a redemption or purchase by the Company of

its own shares), the holders of the Redeemable Preference Shares shall be entitled, in priority to any holder of any other class of shares, to receive an amount equal to the aggregate of the capital paid up on each Redeemable Preference Share

(4) Subject to article 3(3), the holders of the Redeemable Preference Shares shall not be entitled to participate in the profits or assets of the Company

(5) A holder of Redeemable Preference Shares shall be entitled to receive notice of and to attend any general meeting of the Company but shall not have the right to vote in respect of its holding of Redeemable Preference Shares unless

(i) it is proposed at the meeting to consider any resolution approving the purchase by the Company of its own shares, a reduction in the capital of, or the winding up of the Company, in which case holders of the Redeemable Preference Shares shall be entitled to attend such a meeting and to speak and vote only on such resolution or any motion for adjournment of the meeting before such resolution is voted on, or

(ii) it is proposed at the meeting to consider any resolution which abrogates or varies the rights and privileges attaching to the Redeemable Preference Shares, in which case holders of Redeemable Preference Shares shall have the right to attend such a meeting and to speak and vote only on such resolution or any motion for adjournment of the meeting before such resolution is voted on

(6) If entitled to vote at a general meeting of the Company, every holder of Redeemable Preference Shares present in person or by proxy (or, being a corporation, by a duly authorised representative) shall have one vote for every Redeemable Preference Share held by such member

(7) Notwithstanding the rights of the holders of Redeemable Preference Shares under article 3(5), the written consent of the holders of three-quarters in nominal value of the issued Redeemable Preference Shares or the sanction of an extraordinary resolution passed at a separate general meeting of the holders of Redeemable Preference Shares is required if the rights and privileges attaching to the Redeemable Preference Shares are to be varied or abrogated in any way

(8) All the provisions of the articles relating to general meetings of the Company shall apply, with any necessary changes, to every general meeting of the holders of Redeemable Preference Shares

(9) Subject to the Acts and without prejudice to article 3(10), the Redeemable Preference Shares shall be redeemed automatically upon admission of any of the Company's ordinary share capital to the Official List of the UK Listing Authority upon which the redemption money in respect of such Redeemable Preference Shares shall be paid by the Company to the registered holders of the Redeemable Preference Shares

(10) Subject to the Acts, the Company shall have the right at any time, with or without prior notice to the holders of Redeemable Preference Shares, to redeem any Redeemable Preference Shares (provided that they are fully paid and that they represent the total number of Redeemable Preference Shares held by that member)

(11) No Redeemable Preference Shares redeemed by the Company shall be capable of being reissued

(12) In the event of any inconsistency between articles 3(1) to 3(11) and any other provision of these articles, the provisions of articles 3(1) to 3(11) shall prevail

4 Subject to the provisions of the Acts and without prejudice to any rights attached to any existing shares, any share may be issued with such rights or restrictions as the Company may by ordinary resolution determine (or, if the Company has not so determined, as the directors may determine)

5 Subject to the provisions of the Acts, any share may be issued which is or is to be liable to be redeemed at the option of the Company or the holder on such terms and in such manner as may be provided by these articles

6 Subject to the provisions of the Acts and these articles, the unissued shares in the Company shall be at the disposal of the directors, who may offer, allot, grant options over or otherwise dispose of them to such persons and on such terms as the directors think fit

7 The Company may exercise the powers of paying commissions conferred by the Acts Subject to the provisions of the Acts, any such commission may be satisfied by the payment of cash or by the allotment of fully or partly paid shares or partly in one way and partly in the other

8 Except as required by law, no person shall be recognised by the Company as holding any share upon any trust and (except as otherwise provided by these articles or by law) the Company shall not be bound by or recognise any interest in any share except an absolute right to the entirety of it in the holder

9 Without prejudice to any powers which the Company or the directors may have to issue, allot, dispose of, convert, or otherwise deal with or make arrangements in relation to shares and other securities in any form

(a) the holding of shares in uncertificated form and the transfer of title to such shares by means of a relevant system shall be permitted, and

(b) the Company may issue shares in uncertificated form and may convert shares from certificated form to uncertificated form and vice versa

If and to the extent that any provision of these articles is inconsistent with such holding or transfer as is referred to in paragraph 9(a) above or with any provision of the Uncertificated Securities Regulations, it shall not apply to any share in uncertificated form

10 Notwithstanding anything else contained in these articles, where any class of shares is, for the time being, a participating security, unless the directors otherwise determine, shares of any such class held by the same holder or joint holder in certificated form and uncertificated form shall be treated as separate holdings

VARIATION OF RIGHTS

11 Subject to the provisions of the Acts, if at any time the capital of the Company is divided into different classes of shares, the rights attached to any class may be varied, either while the Company is a going concern or during or in contemplation of a winding up

(a) in such manner (if any) as may be provided by those rights, or

(b) in the absence of any such provision, with the consent in writing of the holders of three-quarters in nominal value of the issued shares of that class (excluding any shares of that class held as treasury shares), or with the sanction of an extraordinary resolution passed at a separate meeting of the holders of the shares of that class,

but not otherwise To every such separate meeting the provisions of these articles relating to general meetings shall apply, except that the necessary quorum at any such meeting other than an adjourned meeting shall be two persons together holding or representing by proxy at least one-third in nominal value of the issued shares of the class in question (excluding any shares of that class held as treasury shares) and at an adjourned meeting shall be one person holding shares of the class in question (other than treasury shares) or his proxy

12 Unless otherwise expressly provided by the rights attached to any class of shares, those rights shall be deemed not to be varied by the purchase by the Company of any of its own shares or the holding of such shares as treasury shares

SHARE CERTIFICATES

13 (1) Subject to paragraph (2) of this article, every holder of shares (other than a financial institution in respect of whom the Company is not required by law to complete and have ready a certificate) shall be entitled without payment to one certificate for all the shares of each class held by him (and, upon transferring a part of his holding of such shares of any class, to a certificate for the balance of that holding) or, upon payment for every certificate after the first of such reasonable sum as the directors may determine, to several certificates each for one or more of his shares Every certificate shall be issued under the seal or under such other form of authentication as the directors may determine (which may include manual or facsimile signatures by one or more directors), and shall specify the number, class and distinguishing numbers (if any) of the shares to which it relates and the amount or respective amounts paid up on them The Company shall not be bound to issue more than one certificate for shares held jointly by several persons and delivery of a certificate to one joint holder shall be a sufficient delivery to all of them

(2) Paragraph (1) of this article shall not apply in relation to shares in uncertificated form

(3) If a share certificate is defaced, worn-out, lost or destroyed, it may be renewed on such terms (if any) as to evidence and indemnity and payment of any exceptional expenses incurred by the Company in investigating evidence as the directors may determine but otherwise free of charge, and (in the case of defacement or wearing-out) on delivery up of the old certificate

LIEN

14 The Company shall have a first and paramount lien on every share (not being a fully paid share) for all amounts (whether presently payable or not) payable at a fixed time or called in respect of that share The directors may declare any share to be wholly or in part exempt from the provisions of this article The Company's lien on a share shall extend to all amounts payable in respect of it

15 The Company may sell, in such manner as the directors determine, any share on which the Company has a lien if an amount in respect of which the lien exists is presently payable and is not paid within fourteen clear days after notice has been given to the holder of the share, or the person entitled to it in consequence of the death or bankruptcy of the holder, demanding payment and stating that if the notice is not complied with the shares may be sold

16 To give effect to the sale the directors may, in the case of a share in certificated form, authorise any person to execute an instrument of transfer of the share sold to, or in accordance with the directions of, the purchaser, and, in the case of a share in uncertificated form, the directors may, to enable the Company to deal with the share in accordance with the provisions of this article, require the Operator of a relevant system to

convert the share into certificated form and after such conversion may authorise any person to execute an instrument of transfer and/or take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer The title of the transferee to the share shall not be affected by any irregularity in or invalidity of the proceedings in reference to the sale

17 The net proceeds of the sale, after payment of the costs, shall be applied in payment of so much of the amount for which the lien exists as is presently payable, and any residue shall (upon surrender to the Company for cancellation of the certificate for the share sold, in the case of a share in certificated form, and subject to a like lien for any amount not presently payable as existed upon the share before the sale) be paid to the person entitled to the share at the date of the sale

CALLS ON SHARES AND FORFEITURE

18 Subject to the terms of allotment, the directors may make calls upon the members in respect of any amounts unpaid on their shares (whether in respect of nominal value or premium) and each member shall (subject to receiving at least fourteen clear days' notice specifying when and where payment is to be made) pay to the Company as required by the notice the amount called on his shares A call may be required to be paid by instalments A call may, before receipt by the Company of an amount due under it, be revoked in whole or in part and payment of a call may be postponed in whole or part A person upon whom a call is made shall remain liable for calls made upon him notwithstanding the subsequent transfer of the shares in respect of which the call was made

19 A call shall be deemed to have been made at the time when the resolution of the directors authorising the call was passed

20 The joint holders of a share shall be jointly and severally liable to pay all calls in respect of it

21 If a call or an instalment of a call remains unpaid after it has become due and payable the person from whom it is due shall pay interest on the amount unpaid, from the day it became due and payable until it is paid at the rate fixed by the terms of allotment of the shares in question or in the notice of the call or, if no rate is fixed, at the appropriate rate (as defined by the Acts) but the directors may waive payment of the interest wholly or in part

22 An amount payable in respect of a share on allotment or at any fixed date, whether in respect of nominal value or premium or as an instalment of a call, shall be deemed to be a call and if it is not paid these articles shall apply as if that sum had become due and payable by virtue of a call

23 Subject to the terms of allotment, the directors may differentiate between the holders in the amounts and times of payment of calls on their shares

24 The directors may receive from any member willing to advance it all or any part of the amount unpaid on the shares held by him (beyond the sums actually called up) as a payment in advance of calls, and such payment shall, to the extent of it, extinguish the liability on the shares in respect of which it is advanced The Company may pay interest on the amount so received, or so much of it as exceeds the sums called up on the shares in respect of which it has been received, at such rate (if any) as the member and the directors agree

25 If a call or an instalment of a call remains unpaid after it has become due and payable the directors may give to the person from whom it is due not less than fourteen clear days' notice requiring payment of the amount unpaid together with any interest which may have accrued The notice shall name the place where payment is to be made and shall state that if the notice is not complied with the shares in respect of which the call was made will

be liable to be forfeited If the notice is not complied with, any shares in respect of which it was given may, before the payment required by the notice has been made, be forfeited by a resolution of the directors and the forfeiture shall include all dividends and other amounts payable in respect of the forfeited shares and not paid before the forfeiture

26 Subject to the provisions of the Acts, a forfeited share may be sold, re-allotted or otherwise disposed of on such terms and in such manner as the directors determine either to the person who was before the forfeiture the holder or to any other person and, at any time before the disposition, the forfeiture may be cancelled on such terms as the directors determine Where for the purposes of its disposal a forfeited share is to be transferred to any person, the directors may, in the case of a share in certificated form, authorise any person to execute an instrument of transfer and, in the case of a share in uncertificated form, the directors may, to enable the Company to deal with the share in accordance with the provisions of this article, require the Operator of a relevant system to convert the share into certificated form and after such conversion may authorise any person to execute an instrument of transfer and/or take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer of the share to that person

27 A person whose shares have been forfeited shall cease to be a member in respect of the shares forfeited and shall surrender to the Company for cancellation any certificate for the shares forfeited but shall remain liable to the Company for all amounts which at the date of forfeiture were presently payable by him to the Company in respect of those shares with interest at the rate at which interest was payable on those amounts before the forfeiture or, if no interest was so payable, at the appropriate rate (as defined in the Acts) from the date of forfeiture until payment, but the directors may waive payment wholly or in part or enforce payment without any allowance for the value of the shares at the time of forfeiture or for any consideration received on their disposal

28 A statutory declaration by a director or the secretary that a share has been forfeited on a specified date shall be conclusive evidence of the facts stated in it as against all persons claiming to be entitled to the share and the declaration shall (subject to the execution of an instrument of transfer if necessary, in the case of a share in certificated form) constitute a good title to the share and the person to whom the share is disposed of shall not be bound to see to the application of the consideration, if any, nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings relating to the forfeiture or disposal of the share

TRANSFER OF SHARES

29 The instrument of transfer of a share in certificated form may be in any usual form or in any other form which the directors approve and shall be executed by or on behalf of the transferor and, where the share is not fully paid, by or on behalf of the transferee

30 Where any class of shares is, for the time being, a participating security, title to shares of that class which are recorded on an Operator register of members as being held in uncertificated form may be transferred by means of the relevant system concerned The transfer may not be in favour of more than four transferees

31 (1) The directors shall not register any person as a holder of any share in the Company (other than an allottee under an issue of shares by way of capitalisation of profits or reserves made pursuant to the terms of these articles or a Depositary (as defined in article 38)) unless

(a) in the case of shares held in certificated form, such person has furnished to the directors a declaration (in such form as the directors may from time to time prescribe) signed by him or on his behalf (or, in the case of corporation, sealed by the corporation or signed on its behalf by an attorney or a duly authorised officer of the corporation), together with

such evidence as the directors may require of the authority of any signatory on behalf of such person, stating (i) the name and nationality of any person who has an Interest in any such share and (if such declaration or the directors so require) the nature and extent of the Interest of each such person, and/or (ii) such other information as the directors may from time to time determine,

(b) in the case of shares held in uncertificated form, the directors receive such information relating to nationality as the directors may from time to time determine through a relevant system

(2) The directors shall, in any case where they may consider it appropriate, require such person or the Operator to provide such evidence or give such information as to the matters referred to in the declaration as they think fit (acting reasonably) The directors shall decline to register any person as a holder of a share held in certificated form if such further evidence or information is not provided or given The directors shall, so long as they act reasonably and in good faith, be under no liability to the Company or to any other person if they register any person as a holder of a share on the basis of a declaration or other evidence or information provided pursuant to this article, which declaration, evidence or information appears on its face to be correct Nothing in this article shall in any way restrict the exercise by the directors of their powers pursuant to article 38(8)

(3) For the purpose of this article, the expression "Interest" shall have the meaning set out in article 38(2)

32 (1) The directors may, in their absolute discretion and without giving any reason, refuse to register the transfer of a share in certificated form which is not fully paid provided that if the share is listed on the Official List of the UK Listing Authority such refusal does not prevent dealings in the shares from taking place on an open and proper basis They may also refuse to register a transfer of a share in certificated form unless the instrument of transfer

(a) is lodged, duly stamped, at the Office or at such other place as the directors may appoint and (except in the case of a transfer by a financial institution where a certificate has not been issued in respect of the share) is accompanied by the certificate for the share to which it relates and such other evidence as the directors may reasonably require to show the right of the transferor to make the transfer,

(b) is in respect of only one class of share, and

(c) is in favour of not more than four transferees

(2) The directors may refuse to register a transfer of a share in uncertificated form to a person who is to hold it thereafter in certificated form in any case where the Company is entitled to refuse (or is excepted from the requirement) under the Uncertificated Securities Regulations to register the transfer

33 If the directors refuse to register a transfer of a share, they shall within two months after the date on which the transfer was lodged with the Company (in the case of a transfer of a share in certificated form) or the date on which the Operator-instruction was received by the Company (in the case of a transfer of a share in uncertificated form to a person who is to hold it thereafter in certificated form) send to the transferee notice of the refusal

34 Subject to the Uncertificated Securities Regulations, the registration of transfers of shares or of any class of shares may be suspended at such times and for such periods (not exceeding thirty days in any year) as the directors may determine

35 No fee shall be charged for the registration of any instrument of transfer or other document or instruction relating to or affecting the title to any share

36 The Company shall be entitled to retain any instrument of transfer which is registered, but any instrument of transfer which the directors refuse to register shall (except in the case of fraud) be returned to the person lodging it when notice of the refusal is given

37 Nothing in these articles (other than article 38(8)) shall preclude the directors from recognising a renunciation of the allotment of any share by the allottee in favour of some other person

LIMITATION ON SHARE OWNERSHIP

38 (1) The purpose of this article is to ensure that so long as and to the extent that the holding or enjoyment by the Company or any subsidiary of the Company of any Operating Right is conditional on the Company being to any degree owned and/or controlled by EEA Nationals, the Company is so owned and controlled

(2) In this article -

"Affected Share" means any share which shall be treated as such pursuant to sub-paragraph (b) of paragraph (4) of this article,

"Affected Share Disposal" means a disposal or disposals of or of interests in an Affected Share such that the Share ceases to be an Affected Share,

"Affected Share Notice" means a notice in writing served in accordance with the provisions of paragraph (5) of this article,

"business day" means a day upon which dealings in domestic securities may take place on and with the authority of the Stock Exchange,

"Depositary" means a custodian or other person approved by the directors appointed under contractual arrangements with the Company (or a nominee for such custodian or other person) whereby such custodian or other person holds or is interested in Depositary Shares and issues securities evidencing the right to receive such Shares,

"Depositary Receipts" means receipts or similar documents of title issued by or on behalf of a Depositary

"Depositary Shares" means the Shares held by a Depositary or in which such Depositary is interested in its capacity as a Depositary,

"EC Regulation" means Council Regulation (EEC) No 2407/92 of 23 July 1992 (as amended or readopted) on licensing of air carriers,

"EEA National" means any national of a Member State,

"Exempted Share" means, subject to paragraph (10) of this article, any Share which is at the relevant time held by (or by a nominee or custodian trustee for)

(a) any charity which is registered under the provisions of the Charities Act 1960, or

(c) any exempt charity within the meaning of that Act,

In this article 38, a person shall be deemed to have an "Interest" in relation to shares, if

(a) such person has an interest which would (subject as provided below) be taken into account, or which he would be taken as having, in determining for the purposes of Part 22 of the 2006 Act whether a person has a notifiable interest, or

(b) he has any such interest as is referred to in Part 22 of the 2006 Act,

but shall not be deemed to have an interest in any shares in which his spouse or civil partner or any infant child or stepchild of his is interested by virtue of his relationship with the spouse, civil partner, infant child or stepchild or any shares which he holds as a bare or custodian trustee under the laws of England or as a simple trustee under the laws of Scotland, and "interested" shall be construed accordingly,

"Intervening Act" means the refusal, withholding, suspension or revocation of any Operating Right applied for, granted to or enjoyed by the Company or any subsidiary of the Company, or the imposition of any conditions or limitations upon any such Operating Right which materially inhibit the exercise thereof, in either case by any state, regulatory authority or person in reliance upon any provision or by reason of any matter or circumstance relating to the nationality of persons owning or controlling (however described) the Company,

"Member State" means

(a) any state that from time to time is a Member State for the purposes of the EC Regulation, and

(b) any state to which the provisions of the EC Regulation apply by virtue of an agreement between the European Community and that state,

"Operating Right" means all or any part of any authority, permission, licence or privilege which enables an air service to be operated, howsoever granted,

"Permitted Maximum" means, if at any time the directors have specified a maximum under sub-paragraph (b)(iii) of paragraph (4) of this article, that aggregate number of Shares which they have so specified as the maximum aggregate permitted number of Relevant Shares,

"Relevant Person" means

(a) any individual who is not an EEA National,

(b) any body corporate other than a body corporate which is incorporated under the laws of any part of, and which has its principal place of business and central management and control in, a Member State,

(c) a government or governmental department, agency or body, otherwise than of a Member State or any part thereof,

(d) any municipal, local, statutory or other authority or any undertaking or body formed or established in any country other than a Member State, and/or

(e) any person who (i) falls within any of the foregoing paragraphs of this definition and (ii) would be taken to be interested in any Shares pursuant to the provisions of Part 22 of the 2006 Act if a body corporate were interested in those Shares,

"Relevant Share" means any Share, other than an Exempted Share or a Share particulars of which are removed by the directors from the Separate Register pursuant to paragraph (3)(e) of this article, in which a Relevant Person has an interest or which is declared by the directors to be a Relevant Share pursuant to paragraph (3)(d) of this article,

"Separate Register" means the register to be maintained in accordance with paragraph (3)(a) of this article,

"Share" means any ordinary share in the share capital of the Company, and

"Stock Exchange Nominee" means a recognised clearing house or a nominee of a recognised clearing house or of a recognised investment exchange (being a person designated for the purposes of Section 185 of the Act in the rules of the recognised investment exchange in question)

(3) (a) The directors shall maintain, in addition to or, if the register of members is maintained in a non-documentary form, in a fashion such that it is distinct from, the register of members, a Separate Register, in which shall be entered particulars of any Share which

(i) has been acknowledged by the holder (or by any one of joint holders) or the Operator, whether pursuant to a declaration made in accordance with article 31 or sub-paragraph (c) below or otherwise, to be a Relevant Share, or

(ii) has been declared to be a Relevant Share pursuant to sub-paragraph (d) below,

and in either case which has not ceased to be a Relevant Share

(b) The particulars entered on the Separate Register in respect of any Share shall comprise, in addition to the identity of the holder or joint holders, such information as has been requested by and supplied to the directors (regarding where appropriate, the name and nationality of any person having an interest in such Share and the nature and extent of the interest of each such person) pursuant to a declaration made in accordance with article 31 or sub-paragraph (c) below or otherwise or, if no such information has been supplied, such information as the directors consider appropriate The directors may from time to time (if they so determine) cause to be entered in the Separate Register particulars of any Share in respect of which the holder or any joint holder or the Operator has not made a declaration as to whether or not the Share is a Relevant Share and all or some specified number of the Depositary Shares in respect of which Depositary Receipts have been issued by a Depositary (and any number so specified may from time to time be varied by the directors)

(c) Each registered holder of a Share which has not been acknowledged to be a Relevant Share who becomes aware that such Share is or has become a Relevant Share shall forthwith notify the Company accordingly

(d) Whether or not a notice under section 793 of the 2006 Act has been given, the directors may, and if at any time it appears to the directors that a Share, particulars of which have not been entered in the Separate Register, is likely to be a Relevant Share shall, give notice in writing to the registered holder thereof or to any other person who appears to them to be interested in that Share or to the Operator, requiring such person to show to their reasonable satisfaction that such a share is not a Relevant Share Any person on whom such notice has been served and any other

person who is interested in such Share and the Operator may within twenty-one days thereafter (or such longer period as the directors may consider reasonable) make representations to the directors as to why such Share should not be treated as a Relevant Share but if after considering such representations and such other information as seems to them relevant, the directors are not so satisfied, the directors shall declare such Share to be a Relevant Share and it shall thereupon be treated as such

(e) Any holder of a Share which is acknowledged to be a Relevant Share, including for the avoidance of doubt any Affected Share, who becomes aware that such Share is not or has ceased to be a Relevant Share, shall forthwith notify the Company accordingly

(f) The directors shall remove from the Separate Register particulars of any Relevant Share if there has been furnished to them a declaration (in such form as the directors may from time to time prescribe) by the holder of such Relevant Share or the Operator, together with such other evidence as the directors may require, which satisfies the directors either that such Share is no longer a Relevant Share or that, by reason of the fact that an Interest in such Share is held by a person who is not a Relevant Person or the nature of the Interest of the Relevant Person, such Share should not be treated as a Relevant Share

(4) (a) The provisions of sub-paragraph (b) below shall apply where the directors determine that it is necessary or desirable to take steps in order to protect any Operating Right of the Company or any subsidiary of the Company by reason of the fact that

(i) an Intervening Act has taken place,

(ii) an Intervening Act is contemplated, threatened or intended,

(iii) the aggregate number of Relevant Shares particulars of which are entered in the Separate Register is such that an Intervening Act may occur, or

(iv) the ownership or control of the Company is otherwise such that an Intervening Act may occur,

in the case of each of (iii) and (iv) above, taking into account (inter alia) the likelihood of further increases in the aggregate number of Relevant Shares and/or other changes in the ownership or control of the Company

(b) Where a determination has been made under sub-paragraph (a) of this paragraph, the chairman (or any director duly acting in place of the chairman) or the directors, as the case may be, shall take such of the following steps, either immediately upon such determination being made or at any time or times thereafter, as seems to him or them necessary or desirable to overcome, prevent or avoid an Intervening Act or the risk of an Intervening Act

(i) the chairman (or any director duly acting in place of the chairman) may remove any director before the expiration of his term of office,

(ii) the directors may resolve to seek to identify, in accordance with paragraph (7) below, those Shares or Relevant Shares the interests in which gave rise or contributed to the determination, or

would in their sole opinion, if details thereof had been entered on the Separate Register at the relevant time, have given rise to a determination, and to deal with such Shares as Affected Shares, and/or

(iii) the directors may specify a Permitted Maximum of Relevant Shares or vary any Permitted Maximum previously specified, provided that at no time shall the Permitted Maximum be less than 40 per cent of the aggregate number of Shares and, at any time when the aggregate number of Relevant Shares of which particulars are entered in the Separate Register exceeds the Permitted Maximum applying for the time being, the directors may deal with such of the Relevant Shares as they decide are in excess of such Permitted Maximum as Affected Shares

(c) Notwithstanding the provisions of sub-paragraphs (a) and (b) of this paragraph (4), the directors may take the following action if there is a change in any applicable law or the Company or any subsidiary of the Company receives any direction, notice or requirement from any state or regulatory authority or person which, in either case, necessitates such action in order to overcome, prevent or avoid an Intervening Act

(i) the directors may specify that the Permitted Maximum shall be set at such level below 40 per cent as they consider to be the minimum decrease necessary to overcome, prevent or avoid such Intervening Act, and

(ii) the directors may resolve that such number of Relevant Shares as the directors consider to be the minimum number necessary in order to prevent or avoid such Intervening Act shall be treated as Affected Shares for the purposes of this article 38

(5) The directors shall give an Affected Share Notice to the registered holder of any Share which they determine to deal with as an Affected Share and to any other person who appears to them to be interested in that Share and to the Operator (in the case of a Share held in uncertificated form) and shall state which of the provisions of paragraph (6) of this article (all of which shall be set out in the Affected Share Notice) are to be applied forthwith in respect of such Affected Share The directors shall be entitled from time to time to serve further Affected Share Notices in respect of any Affected Share applying further provisions of paragraph (6) of this article The registered holder of a Share in respect of which an Affected Share Notice has been served or any other person on whom an Affected Share Notice in respect of that Share has been served (including the Operator) may make representations to the directors as to why such Share should not be treated as an Affected Share and if, after considering such representations and such other information as seems to them relevant, the directors (acting reasonably) consider that the Share should not be treated as an Affected Share they shall forthwith withdraw the Affected Share Notice served in respect of such Share and the provisions of paragraph (6) shall no longer apply to it For the avoidance of doubt any Share which the directors determine to deal with as an Affected Share shall continue to be an Affected Share unless and until the directors withdraw the Affected Share Notice relating thereto

(6) (a) A registered holder of an Affected Share upon whom an Affected Share Notice has been served shall not (if such Affected Share Notice specifies that the provisions of this sub-paragraph (a) are to apply thereto) be entitled, in respect of such Share, to attend or to speak at any general meeting of the Company or any meeting of the holders of any class of

Shares or to vote at any such meeting and the rights to attend (whether in person or by proxy), to speak and to demand and vote on a poll which, but for the provisions of this sub-paragraph (a), would have attached to the Affected Share shall vest in the chairman of such meeting The manner in which the chairman exercises or refrains from exercising any such rights shall be entirely at his discretion The chairman of any such meeting as aforesaid shall be informed by the directors of any Share becoming or being deemed to be an Affected Share

(b) (i) The persons on whom an Affected Share Notice has been served shall (if such Affected Share Notice specifies that the provisions of this sub-paragraph (b) are to apply thereto), within ten (10) business days of receiving such Affected Share Notice (or such longer period as may in such Notice be prescribed by the directors), make an Affected Share Disposal so that no Relevant Person has an Interest in that Share and, upon such Affected Share Disposal being made to the reasonable satisfaction of the directors, such Affected Share shall cease to be a Relevant Share The provisions of paragraph (8) of this article shall apply to any transfer in connection with an Affected Share Disposal under this sub-paragraph if as a consequence of the transfer such Share would continue or be capable of continuing to be an Affected Share

(ii) If after ten (10) business days from the date of service on the registered holder of an Affected Share of an Affected Share Notice specifying that the provisions of this sub-paragraph (b) are to apply (or such longer period as the directors may have prescribed), the directors are not reasonably satisfied that an Affected Share Disposal has been made of, or in relation to, the Affected Share the subject thereof, the directors may arrange for the sale of the Affected Share on behalf of the registered holder so that it ceases to be or to be capable of being treated as an Affected Share at the best price reasonably obtainable at the relevant time The manner, timing and terms of any such Affected Share Disposal made or sought to be made by the directors (including but not limited to the price or prices at which the same is made) shall be such as the directors determine, based upon advice from any bankers, brokers or other appropriate persons consulted by them for the purpose, to be reasonably practicable having regard to all the circumstances (including but not limited to the number of Shares to be disposed of) and the directors shall not be liable to any person for any of the consequences of reliance on such advice

(c) For so long as an Affected Share is held in uncertificated form, in circumstances where the directors are obliged, pursuant to sub-paragraph (b)(ii) of this paragraph (6), to arrange for the sale of the Affected Share, the directors may make such arrangements on behalf of the registered holder of the Affected Share as they may think fit either

(a) to transfer title to that Affected Share through a relevant system, or

(b) to convert that Affected Share from uncertificated to certificated form

(7) In deciding which Shares are to be dealt with as Affected Shares the directors shall, where applicable, be entitled to have regard to the Interests in Relevant Shares which in their sole opinion have directly or indirectly caused or contributed to the determination under sub-paragraph (a) of paragraph (4) but subject thereto shall, so far as practicable, have regard to the chronological order in which particulars of Relevant Shares have been, or are to be, entered in the Separate Register (and accordingly treat as Affected Shares those Relevant Shares which have been acquired, or details of which have been entered in the Separate Register, most recently) save in circumstances where the application of such criterion would in the sole opinion of the directors be inequitable or would in the sole opinion of the directors be likely to result for any reason in the exercise of the directors' powers under this article 38 being illegal or unenforceable, in which event the directors shall apply such other criterion or criteria as they may, in their absolute discretion, consider appropriate

(8) The transfer of any Share shall be subject to the approval of the directors if, in the reasonable opinion of the directors, such Share would upon transfer become, or would be capable of being treated as, or would continue to be or would continue to be capable of being treated as, an Affected Share and the directors may refuse to register the transfer of any such Share, provided that, in the case of a Share held in uncertificated form, the directors may only exercise their discretion not to register a transfer if permitted to do so by the Uncertificated Securities Regulations, but provided further that the directors may make such arrangements as they may think fit to convert the relevant Share from uncertificated to certificated form if such conversion might enable the directors to exercise their discretion under this article 38(8)

(9) For the purpose of a sale under paragraph (6)(b)(ii) of this article of a Share held in certificated form, the directors may appoint any person to execute as transferor an instrument of transfer in favour of the transferee and may enter the name of the transferee in respect of the transferred Share in the register of members notwithstanding the absence of any share certificate and such instrument of transfer shall be as effective as if it had been executed by the registered holder and title of the transferee shall not be affected by any irregularity or invalidity in the proceedings relating thereto The net proceeds of sale of an Affected Share shall be received by the Company (whose receipt shall be a good discharge for the purchase money), shall be converted into sterling (if necessary) and shall be held on trust for and paid (together with interest at such rate as the directors deem appropriate) to the former registered holder (or, in the case of joint holders, the first-named joint holder thereof in the register of members) upon surrender by him or on his behalf of any certificate in respect of the Affected Shares sold and formerly held by him When an Affected Share has been sold as aforesaid the directors shall notify the former registered holder of the Share and inform him that the net proceeds of sale of the Share will be paid to him upon surrender by him or on his behalf of any certificate in respect of the Share

(10) Subject to the provisions of this article

(a) the directors shall, unless any director has reason to believe otherwise, be entitled to assume without enquiry that all Shares are neither Relevant Shares (other than those Shares particulars of which are entered in the Separate Register) nor Shares which would be or be capable of being treated as Affected Shares if a determination under sub-paragraph (4)(a) were to be made, and

(b) the directors shall, in their discretion, be entitled to assume that all or some specified number of the Shares (as they may reasonably determine) are Relevant Shares if they (or Interests in them) are held by

a Depositary unless and for so long as, in respect of any such Shares, it is established to their reasonable satisfaction that such Shares are not Relevant Shares

(11) (a) The directors shall not be obliged to serve any notice required under this article upon any person if they do not know either his identity or address The absence of service in such circumstances as aforesaid and any accidental error in or failure to give any notice to any person upon whom notice is required to be served under this article shall not prevent the implementation of or invalidate any procedure under this article

(b) The provisions of articles 132 to 141 shall apply, with any necessary changes, to the service of notices upon any member pursuant to this article Any notice required by this article to be served upon a person who is not a member or to a person who is a member but to whom article 133(4) applies shall be deemed validly served if it is sent through the post in a pre-paid envelope addressed to that person at the address (or if more than one, at one of the addresses), if any, at which the directors believe him to be resident or carrying on business Service shall in such a case be deemed to be effected at the expiration of twenty-four hours (or, where second class mail is employed, forty-eight hours) after the time when the envelope containing the same is posted and in proving such service it shall be sufficient to prove that such envelope was properly addressed, pre-paid and posted

(12) Any resolution or determination of, or any decision or the exercise of any discretion or power by, the directors or any one of them or by the chairman of the Company (including any other director duly acting in place of the chairman) under this article shall save in the case of manifest error be final and conclusive and neither he nor they shall be obliged to give any reasons therefore Any disposal or transfer made, or other thing done, by or on behalf, or on the authority, of the directors or any of them pursuant to the foregoing provisions of this article shall be conclusive and binding on all persons concerned and shall not be open to challenge on any ground whatsoever For the avoidance of doubt any powers, rights or duties conferred by this article on the directors can be exercised by a duly authorised committee of the directors

(13) At any time when the directors have resolved to specify a Permitted Maximum or deal with any Shares as Affected Shares (other than on the first occasion when they resolve to specify a Permitted Maximum following the adoption of these articles), they shall publish notice of the determination under sub-paragraph (4)(a) and of any Permitted Maximum which has been specified, together with a statement of the provisions of this article which can apply to Affected Shares and the name of the person or persons who will answer enquiries relating to Affected Shares on behalf of the Company, in such manner as is prescribed for the making of announcements under the rules and regulations of each stock exchange on which Shares or securities evidencing the right to receive Shares are, at the instigation of the Company, listed, quoted or dealt in as at the date of making of such determination At other times the directors shall from time to time so publish information as to the number of Shares particulars of which have been entered in the Separate Register

(14) The directors shall not be required to make the Separate Register available for inspection by any person but shall provide persons who make enquiries which the directors determine in their sole discretion to be bona fide with information as to the aggregate number of Shares of which particulars are from time to time entered in the Separate Register

(15) If, at any time when a determination under sub-paragraph (a) of paragraph (4) has been made and not withdrawn, any person enquires of the directors whether the aggregate number of Relevant Shares exceeds any Permitted Maximum applying for the time being, or whether any Shares in the Company which such person proposes to purchase or in which such person proposes to acquire an Interest would in the opinion of the directors upon such purchase or acquisition become or be capable of becoming or being treated as Affected Shares, whether by reason of the Permitted Maximum being exceeded or otherwise, the directors shall, on sufficient information being given to them to enable them to answer the enquiry, notify the enquirer whether in their opinion the Shares would become or be capable of becoming Affected Shares if he were to purchase them or acquire an Interest in them Notwithstanding the foregoing, any such notification shall not be binding on the directors or the Company and shall not prevent such Shares being subsequently identified as Affected Shares, and the directors and the Company shall not (in the absence of fraud) be liable in any way if such Shares subsequently become Affected Shares

(16) (a) The provisions of sub-paragraph (b) of paragraph (4) of this article shall apply until such time as the directors have resolved that grounds for the making of a determination under sub-paragraph (a) of paragraph (4) have ceased to exist and the directors shall thereupon withdraw such determination

(b) On withdrawal of the determination under sub-paragraph (a) of paragraph (4), the directors shall cease to act pursuant to such determination and shall remove any Permitted Maximum that they may have specified and shall inform every person on whom an Affected Share Notice has been served in respect of an Affected Share which has not yet been transferred or sold by the Company in accordance with paragraph (6) of this article that the provisions of paragraph (6) of this article no longer apply in respect of such Share (which on such withdrawal shall cease to be an Affected Share) However, the withdrawal of such a determination shall not affect the validity of any action taken by the chairman (or any director duly acting as such) or the directors, as the case may be, under this article whilst that determination remained in effect and such actions shall not be open to challenge on any ground whatsoever The directors shall publicise the withdrawal of any determination the existence of which has been publicised under paragraph (13) of this article in the same manner as they are required to publicise its existence under such paragraph (13)

(c) The chairman and the directors shall, so long as they act reasonably and in good faith, be under no liability to the Company or to any other person for failing to treat any Share as an Affected Share or any person as a Relevant Person in accordance with the provisions of this article and neither shall the chairman nor any director be liable to the Company or any other person if, having acted reasonably and in good faith they determine erroneously that any Share is an Affected Share, or that any person is a Relevant Person, or on the basis of such determination or any other determination or resolution, they perform or exercise (or purport to perform or exercise) their duties, powers, rights or discretions under this article in relation to such Share or person

(17) For the purposes of this article

(i) a person who has an Interest in Shares by virtue of having an Interest in Depositary Receipts shall be deemed to have an Interest in the number of Shares represented by such Depositary Receipts and not (in the

absence of any other reason why he should be so treated) in the remainder of the Depositary Shares held by the relevant Depositary, and

(ii) a person who has an Interest in Shares the registered holder of which is a Stock Exchange Nominee (other than an Interest arising solely as a result of a Stock Exchange Nominee being the registered holder of such Shares) shall not (in the absence of any other reason why he should be so treated) be deemed to have an Interest in the remainder of the Shares held by such Stock Exchange Nominee

TRANSMISSION OF SHARES

39 If a member dies the survivor or survivors where he was a joint holder, or his personal representatives where he was a sole holder or the only survivor of joint holders, shall be the only persons recognised by the Company as having any title to his interest, but nothing in this article shall release the estate of a deceased member from any liability in respect of any share which had been jointly held by him

40 A person becoming entitled to a share in consequence of the death or bankruptcy of a member may, upon such evidence being produced as the directors may properly require, elect either to become the holder of the share or to have some person nominated by him registered as the transferee If he elects to become the holder he shall give notice to the Company to that effect If he elects to have another person registered he shall transfer title to the share to that person All the provisions of these articles relating to the transfer of shares shall apply to the notice or instrument of transfer (if any) as if it were an instrument of transfer signed by the member and the death or bankruptcy of the member had not occurred

41 A person becoming entitled to a share by reason of the death or bankruptcy of a member shall have the rights to which he would be entitled if he were the holder of the share, except that he shall not, before being registered as the holder of the share, be entitled in respect of it to attend or vote at any general meeting or at any separate meeting of the holders of any class of shares

DISCLOSURE OF INTERESTS

42 (1) If a member, or any other person appearing to be interested in shares held by that member, has been given a notice under section 793 of the 2006 Act, and has failed in relation to any shares (the "default shares") to give the Company the information thereby required within fourteen days from the date of giving the notice, the following sanctions shall apply, unless the directors otherwise determine

(a) the member shall not be entitled in respect of the default shares to be present or to vote (either in person or by representative or proxy) at any general meeting or at any separate meeting of the holders of any class of shares or on any poll, and

(b) where the default shares represent at least 0 25 per cent of their class (calculated exclusive of treasury shares)

(i) any dividend payable in respect of the shares shall be withheld by the Company, which shall not have any obligation to pay interest on it, and the member shall not be entitled to elect, pursuant to these articles, to receive shares instead of that dividend, and

(ii) no transfer, other than an excepted transfer, of any shares held by the member in certificated form shall be registered unless

(A) the member is not himself in default as regards supplying the information required, and

(B) the member proves to the satisfaction of the directors that no person in default as regards supplying such information is interested in any of the shares the subject of the transfer,

(iii) for the purposes of sub-paragraph (1)(b)(ii) of this article, in the case of shares held by the member in uncertificated form, the directors may, to enable the Company to deal with the shares in accordance with the provisions of this article, require the Operator of a relevant system to convert the shares into certificated form

(2) Where the sanctions under paragraph (1) of this article apply in relation to any shares, they shall cease to have effect at the end of the period of seven days (or such shorter period as the directors may determine) following the earlier of

(a) receipt by the Company of the information required by the notice mentioned in that paragraph, and

(b) receipt by the Company of notice that the shares have been transferred by means of an excepted transfer,

and the directors may suspend or cancel any of the sanctions at any time in relation to any shares

(3) Any new shares in the Company issued in right of default shares shall be subject to the same sanctions as apply to the default shares, and the directors may make any right to an allotment of the new shares subject to sanctions corresponding to those which will apply to those shares on issue, provided that

(a) any sanctions applying to, or to a right to, new shares by virtue of this paragraph shall cease to have effect when the sanctions applying to the related default shares cease to have effect (and shall be suspended or cancelled if and to the extent that the sanctions applying to the related default shares are suspended or cancelled), and

(b) paragraph (1) of this article shall apply to the exclusion of this paragraph (3) if the Company gives a separate notice under section 793 of the 2006 Act in relation to the new shares

(4) Where, on the basis of information obtained from a member in respect of any share held by him, the Company gives a notice under section 793 of the 2006 Act to any other person, it shall at the same time send a copy of the notice to the member, but the accidental omission to do so, or the non-receipt by the member of the copy, shall not invalidate or otherwise affect the application of paragraph (1) of this article

(5) For the purposes of this article

(a) a person, other than the member holding a share, shall be treated as appearing to be interested in that share if the member has informed the Company that the person is, or may be, so interested, or if the Company (after taking account of any information obtained from the member or, pursuant to a notice under section 793 of the 2006 Act, from anyone else) knows or has reasonable cause to believe that the person is, or may be, so interested,

(b) "interested" shall be construed as it is for the purpose of section 793 of the 2006 Act,

(c) reference to a person having failed to give the Company the information required by a notice, or being in default as regards supplying such information, includes (i) reference to his having failed or refused to give all or any part of it and (ii) reference to his having given information which he knows to be false in a material particular or having recklessly given information which is false in a material particular,

(d) an "excepted transfer" means, in relation to any shares held by a member

(i) a transfer pursuant to acceptance of a takeover bid (within the meaning of Part 28 of the 2006 Act) in respect of shares in the Company, or

(ii) a transfer in consequence of a sale made through a recognised investment exchange (as defined in the Financial Services and Markets Act 2000) or any other stock exchange outside the United Kingdom on which the Company's shares are normally traded, or

(iii) a transfer which is shown to the satisfaction of the directors to be made in consequence of a sale of the whole of the beneficial interest in the shares to a person who is unconnected with the member and with any other person appearing to be interested in the shares

(6) Nothing in this article shall limit the powers of the Company under section 794 of the 2006 Act or any other powers of the Company whatsoever

UNTRACED MEMBERS

43 (1) The Company shall be entitled to sell at the best price reasonably obtainable any share held by a member, or any share to which a person is entitled by transmission, if

(a) for a period of twelve years no cheque or warrant or other method of payment for amounts payable in respect of the share sent and payable in a manner authorised by these articles has been cashed or been successful and no communication has been received by the Company from the member or person concerned,

(b) during that period at least three dividends in respect of the share have become payable,

(c) the Company has, after the expiration of that period, by advertisement in a national newspaper published in the United Kingdom and in a newspaper circulating in the area of the registered address or last known address of the member or person concerned, given notice of its intention to sell such share, and

(d) the Company has not during the further period of three months after the date of the advertisement and prior to the sale of the share received any communication from the member or person concerned

(2) The Company shall also be entitled to sell at the best price reasonably obtainable any additional share issued during the said period of twelve years in right of any

share to which paragraph (1) of this article applies (or in right of any share so issued), if the criteria in sub-paragraphs (a), (c) and (d) of that paragraph are satisfied in relation to the additional share (but as if the words "for a period of twelve years" were omitted from sub-paragraph (a) and the words ", after the expiration of that period," were omitted from sub-paragraph (c))

(3) To give effect to the sale of any share pursuant to this article the directors may, in the case of a share in certificated form, authorise any person to execute an instrument of transfer of the share sold to, or in accordance with the directions of the purchaser, and in the case of a share in uncertificated form, the directors may, to enable the Company to deal with the share in accordance with the provisions of this article, require the Operator of a relevant system to convert the share into certificated form and after such conversion may authorise any person to execute an instrument of transfer and/or take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as it thinks fit to effect the transfer The purchaser shall not be bound to see to the application of the proceeds of sale, nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings relating to the sale The Company shall be indebted to the member or other person entitled to the share for an amount equal to the net proceeds of the sale, but no trust or duty to account shall arise and no interest shall be payable in respect of the proceeds of sale

ALTERATION OF CAPITAL

44 The Company may by ordinary resolution

(a) increase its share capital by new shares of such amount as the resolution prescribes,

(b) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares,

(c) subject to the provisions of the Acts, sub-divide its shares, or any of them, into shares of smaller amount than is fixed by the memorandum,

(d) determine that, as between the shares resulting from such a sub-division, any of them may have any preference or advantage as compared with the others, and

(e) cancel shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person, and diminish the amount of its share capital by the amount of the shares so cancelled

45 Subject to compliance with the terms of any resolution referred to in article 44, where any difficulty arises in regard to any consolidation or division, the Board may settle such difficulty as it sees fit In particular, without limitation, the directors may sell to any person (including, subject to the provisions of the Acts, the Company) the shares representing the fractions for the best price reasonably obtainable and distribute the net proceeds of sale in due proportion among those members or retain such net proceeds for the benefit of the Company, and the directors may, in the case of shares in certificated form, authorise any person to execute an instrument of transfer of the shares to or in accordance with the directions of the purchaser, and, in the case of shares in uncertificated form, the directors may, to enable the Company to deal with the share in accordance with the provisions of this article, require the Operator of a relevant system to convert the share into certificated form and after such conversion may authorise any person to execute an instrument of transfer and/or take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer The transferee shall not be bound to see to the application of the purchase money nor shall his

title to the shares be affected by any irregularity in or invalidity of the proceedings in reference to the sale

46 Subject to the provisions of the Acts, the Company may by special resolution reduce its share capital, any capital redemption reserve and any share premium account, in any way

PURCHASE OF OWN SHARES

47 Subject to the provisions of the Acts, the Company may purchase its own shares, (including redeemable shares) and may hold such shares as treasury shares or cancel them

GENERAL MEETINGS

48 All general meetings other than annual general meetings shall be called extraordinary general meetings

49 The directors may call general meetings If there are not within the United Kingdom sufficient directors to call a general meeting, any director may call a general meeting If there is no director, any member of the Company may call a general meeting

NOTICE OF GENERAL MEETINGS

50 Subject to the provisions of the Acts, an annual general meeting and an extraordinary general meeting called for the passing of a special resolution shall be called by at least twenty-one clear days' notice, and all other extraordinary general meetings shall be called by at least fourteen clear days' notice The notice shall specify the place, the day and the time of meeting and the general nature of the business to be transacted, and in the case of an annual general meeting shall specify the meeting as such Where the Company has given an electronic address in any notice of meeting, any document or information relating to proceedings at the meeting may be sent by electronic means to that address, subject to any conditions or limitations specified in the relevant notice of meeting Subject to the provisions of these articles and to any rights or restrictions attached to any shares, notices shall be given to all members, to all persons entitled to a share in consequence of the death or bankruptcy of a member and to the directors and auditors of the Company

51 The accidental omission to give notice of a meeting to, or the failure to give notice due to circumstances beyond the Company's control to, or the non-receipt of notice of a meeting by, any person entitled to receive notice shall not invalidate the proceedings at that meeting

PROCEEDINGS AT GENERAL MEETINGS

52 No business shall be transacted at any meeting unless a quorum is present Two persons entitled to vote upon the business to be transacted, each being a member or a proxy for a member or a duly authorised representative of a corporation which is a member, shall be a quorum

53 If a quorum is not present within half an hour after the time appointed for holding the meeting, or if during a meeting a quorum ceases to be present, the meeting shall stand adjourned to the same day in the next week at the same time and place, or to such day, time and place as the directors may determine If at the adjourned meeting a quorum is not present within fifteen minutes after the time appointed for holding the meeting, the meeting shall be dissolved

54 The chairman (if any) of the board of directors, or in his absence the deputy chairman, or in the absence of both of them some other director nominated by the directors, shall preside as chairman of the meeting, but if neither the chairman nor the deputy chairman nor such other director (if any) is present within fifteen minutes after the time appointed for holding the meeting and willing to act, the directors present shall elect one of their number present

to be chairman and, if there is only one director present and willing to act, he shall be chairman

55 If no director is willing to act as chairman, or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present and entitled to vote shall choose one of their number to be chairman

56 The directors or the chairman of the meeting may direct that any person wishing to attend any general meeting should submit to such searches or other security arrangements (including without limitation, requiring evidence of identity to be produced before entering the meeting and placing restrictions on the items of personal property which may be taken into the meeting) as they or he consider appropriate in the circumstances The directors or the chairman of the meeting may in their or his absolute discretion refuse entry to, or eject from, any general meeting any person who refuses to submit to a search or otherwise comply with such security arrangements

57 The directors or the chairman of the meeting may take such action, give such direction or put in place such arrangements as they or he consider appropriate to secure the safety of the people attending the meeting and to promote the orderly conduct of the business of the meeting Any decision of the chairman of the meeting on matters of procedure or matters arising incidentally from the business of the meeting, and any determination by the chairman of the meeting as to whether a matter is of such a nature, shall be final

58 A director shall, notwithstanding that he is not a member, be entitled to attend and speak at any general meeting and at any separate meeting of the holders of any class of shares

59 In the case of any general meeting, the directors may, notwithstanding the specification in the notice convening the general meeting of the place at which the chairman of the meeting shall preside (the "Principal Place"), make arrangements for simultaneous attendance and participation (including by way of video link) at satellite meeting places The arrangements for simultaneous attendance and participation may include arrangements for controlling or regulating the level of attendance at any particular venue (including without limitation the issue of tickets or the use of a random method of selection) provided that such arrangements shall operate so that all members and proxies wishing to attend the meeting are able to attend at one or other of the venues

60 The members or proxies at the satellite meeting places shall be counted in the quorum for, and be entitled to vote at, the general meeting in question, and that meeting shall be duly constituted and its proceedings valid if the chairman of the meeting is satisfied that adequate facilities are available throughout the meeting to ensure that the members or proxies attending at the satellite meeting places are able to

(a) participate in the business for which the meeting has been convened,

(b) see and hear all persons who speak (whether through the use of microphones, loud speakers, audiovisual communication equipment or otherwise) in the Principal Place and any other satellite meeting place, and

(c) be heard and seen by all other persons attending at the Principal Place and any other satellite meeting place

For the purposes of all other provisions of these articles (unless the context requires otherwise), the members shall be treated as meeting at the Principal Place

If it appears to the chairman of the meeting that the facilities at the Principal Place or any satellite meeting place have become inadequate for the purposes set out in sub-paragraphs (a) to (c) above, the chairman may, without the consent of the meeting, interrupt or adjourn the general meeting All business conducted at the general meeting up

to the point of the adjournment shall be valid The provisions of article 61 shall apply to that adjournment

61 Without prejudice to any other power of adjournment he may have under these articles or at common law

(a) the chairman may, with the consent of a meeting at which a quorum is present (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place, but no business shall be transacted at an adjourned meeting other than business which might properly have been transacted at the meeting had the adjournment not taken place, and

(b) the chairman of the meeting may, without the consent of the meeting, adjourn the meeting before or after it has commenced, to another date, time or place which the chairman may decide, if the chairman considers that

(i) there is not enough room for the number of members and proxies who wish to attend the meeting,

(ii) the behaviour of anyone present prevents, or is likely to prevent, the orderly conduct of the business of the meeting, or

(iii) an adjournment is otherwise necessary in order for the business of the meeting to be properly carried out

When a meeting is adjourned for fourteen days or more, at least seven clear days' notice shall be given specifying the time and place of the adjourned meeting and the general nature of the business to be transacted Otherwise it shall not be necessary to give notice of an adjourned meeting

62 No amendment to a resolution duly proposed as a special or extraordinary resolution may be considered or voted on unless the amendment is only to correct a clear error No amendment to a resolution duly proposed as an ordinary resolution may be considered or voted on unless

(a) the amendment is only to correct a clear error, or

(b) written notice of the terms of the proposed amendment and of the intention to move the amendment have been deposited at the Office at least 48 hours before the time for holding the meeting or the adjourned meeting at which the ordinary resolution in question is proposed, or

(c) the chairman of the meeting, in his absolute discretion, decides that the proposed amendment may be considered or voted on

63 With the consent of the chairman, an amendment may be withdrawn by its proposer before it is voted on If an amendment proposed to any resolution under consideration is ruled out of order by the chairman, the proceedings on the resolution shall not be invalidated by any error in the ruling

64 A resolution put to the vote of a meeting shall be decided on a show of hands unless before or on the declaration of the result of the show of hands, a poll is duly demanded Subject to the provisions of the Acts, a poll may be demanded

(a) by the chairman, or

(b) by not less than five members having the right to vote at the meeting, or

(c) by a member or members representing not less than one-tenth of the total voting rights of all the members having the right to vote at the meeting (excluding any voting rights attached to any shares in the Company held as treasury shares), or

(d) by a member or members holding shares conferring a right to vote on the resolution on which an aggregate sum has been paid up equal to not less than one-tenth of the total sum paid up on all the shares conferring that right (excluding any shares in the Company conferring a right to vote at the meeting which are held as treasury shares)

65 Unless a poll is duly demanded, a declaration by the chairman that a resolution has been carried or carried unanimously, or by a particular majority, or lost, or not carried by a particular majority, and an entry to that effect in the minutes of the meeting, shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against the resolution

66 The demand for a poll may, before the poll is taken, be withdrawn but only with the consent of the chairman, and a demand so withdrawn shall not be taken to have invalidated the result of a show of hands declared before the demand was made

67 A poll shall be taken as the chairman directs, and he may appoint scrutineers (who need not be members) and fix a time and place for declaring the result of the poll The result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded

68 In the case of an equality of votes, whether on a show of hands or on a poll, the chairman shall be entitled to a casting vote in addition to any other vote he may have

69 A poll demanded on the election of a chairman or on a question of adjournment shall be taken forthwith A poll demanded on any other question shall be taken either forthwith or at such time and place as the chairman directs, not being more than thirty days after the poll is demanded The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll was demanded If a poll is demanded before the declaration of the result of a show of hands and the demand is duly withdrawn, the meeting shall continue as if the demand had not been made

70 No notice need be given of a poll not taken forthwith if the time and place at which it is to be taken are announced at the meeting in respect of which it is demanded In any other case, at least seven clear days' notice shall be given specifying the time and place at which the poll is to be taken

VOTES OF MEMBERS

71 Subject to any rights or restrictions attached to any shares (including any restrictions under paragraph 38(6)(a) in respect of Affected Shares) and to the provisions of the Acts, on a show of hands every member who (being an individual) is present in person or (being a corporation) is present by a duly authorised representative who is not himself a member entitled to vote, shall have one vote, and on a poll every member shall have one vote for every share of which he is the holder

72 In the case of joint holders the vote of the senior who tenders a vote shall be accepted to the exclusion of the votes of the other joint holders, and seniority shall be determined by the order in which the names of the holders stand in the register of members

73 A member in respect of whom an order has been made by any court having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder may vote, on a show of hands or on a poll, by any person authorised in that behalf by that court, who may on a poll vote by proxy Evidence to the satisfaction of the directors of the authority of the person claiming the right to vote shall be deposited at or sent to the Office,

or such other place as is specified in accordance with these articles for the deposit or receipt of appointments of proxy, not less than 48 hours before the time appointed for holding the meeting or adjourned meeting at which the right to vote is to be exercised, and in default the right to vote shall not be exercisable

74 No member shall have the right to vote at any general meeting or at any separate meeting of the holders of any class of shares, either in person or by representative or proxy, in respect of any share held by him unless all amounts presently payable by him in respect of that share have been paid

75 No objection shall be raised to the qualification of any voter or to the counting of, or failure to count, any vote, except at the meeting or adjourned meeting at which the vote objected to is tendered Subject to any objection made in due time, every vote counted and not disallowed at the meeting shall be valid and every vote disallowed or not counted shall be invalid Any objection made in due time shall be referred to the chairman whose decision shall be final and conclusive

76 On a poll votes may be given either personally or by proxy or (in the case of a corporate member) by a duly authorised representative A member entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses the same way A proxy need not be a member A member may appoint more than one proxy to attend on the same occasion Submitting an appointment of proxy shall not preclude a member from attending and voting at the meeting or at any adjournment of it

77 Subject to article 78 below, an appointment of proxy shall be in writing in any usual form or in any other form which the directors may approve and shall be executed by or on behalf of the appointor which in the case of a corporation may be either under its common seal or under the hand of a duly authorised officer

78 The directors may allow the appointment of a proxy to be sent or supplied in electronic form subject to any conditions or limitations as the directors may specify, and where the Company has given an electronic address in any instrument of proxy or invitation to appoint a proxy, any document or information relating to proxies for the meeting (including any document necessary to show the validity of, or otherwise relating to, the appointment of a proxy, or notice of the termination of the authority of a proxy) may be sent by electronic means to that address, subject to any conditions or limitations specified in the relevant notice of meeting

79 The appointment of a proxy and any authority under which it is executed or a copy of the authority certified notarially or in some other way approved by the directors may

(a) in the case of an appointment of proxy in hard copy form, be deposited at the Office or at such other place in the United Kingdom as is specified in the notice convening the meeting, or in any instrument of proxy or any invitation to appoint a proxy sent out or made available by the Company in relation to the meeting, not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the appointment of proxy proposes to vote, or

(b) in the case of an appointment of proxy in electronic form, be received at the electronic address specified in the notice convening the meeting, or in any instrument of proxy or any invitation to appoint a proxy sent out or made available by the Company in relation to the meeting, not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the appointment of proxy proposes to vote, or

(c) in the case of a poll taken more than 48 hours after it was demanded, be deposited or received as aforesaid after the poll has been demanded and not less than 24 hours before the time appointed for taking the poll, or

(d) where the poll is not taken forthwith but is taken not more than 48 hours after it was demanded, be delivered at the meeting to the chairman or to the secretary or any director

and an appointment of proxy which is not deposited, delivered or received in a manner so permitted shall be invalid

80 A vote given or poll demanded by proxy or by the duly authorised representative of a corporation shall be valid notwithstanding the previous determination of the authority of the person voting or demanding a poll, unless notice of the determination was received by the Company at the Office, or at such other place at which an appointment of proxy may be duly deposited or the address where an appointment in electronic form may be duly received, before the commencement of the meeting or adjourned meeting at which the vote is given or the poll demanded or (in the case of a poll not taken on the same day as the meeting or adjourned meeting) the time appointed for taking the poll

81 The appointment of a proxy to vote at a meeting shall be deemed also to confer authority to demand or join in demanding a poll and to speak at the meeting (and for the purposes of these articles a demand for a poll made by a person as proxy for a member or as the duly authorised representative of a corporate member shall be the same as a demand made by the member)

82 The directors may at the expense of the Company send or make available instruments of proxy or invitations to appoint a proxy to the members by post or by electronic means or otherwise (with or without provision for their return prepaid) for use at any general meeting or at any separate meeting of the holders of any class of shares, either in blank or nominating in the alternative any one or more of the directors or any other person If for the purpose of any meeting instruments of proxy or invitations to appoint as proxy a person or one of a number of persons specified in the invitations are issued at the Company's expense, they shall be issued to all (and not to some only) of the members entitled to be sent a notice of the meeting and to vote at it The accidental omission, or the failure due to circumstances beyond the Company's control, to send or make available such an instrument of proxy or give such an invitation to, or the non-receipt thereof by, any member entitled to attend and vote at a meeting shall not invalidate the proceedings at that meeting

83 Where two or more valid but differing appointments of proxy are received in respect of the same share for use at the same meeting the one which is last sent shall be treated as replacing and revoking the other or others If the Company is unable to determine which is last sent, the one which is last received shall be so treated If the Company is unable to determine either which is last sent or which is last received, none of them shall be treated as valid in respect of that share

CORPORATIONS ACTING BY REPRESENTATIVES

84 Any corporation (other than the Company itself) which is a member of the Company may, by resolution of its directors or other governing body, authorise such person as it thinks fit to act as its representative at any meeting of the Company, or at any separate meeting of the holders of any class of shares Except as otherwise provided in these articles, the person so authorised shall be entitled to exercise the same power on behalf of the corporation as the corporation could exercise if it were an individual member of the Company, and the corporation shall for the purposes of these articles be deemed to be present in person at any such meeting if a person so authorised is present at it

DIRECTORS

85 Unless otherwise determined by the Company by ordinary resolution the number of directors (other than alternate directors) shall not be less than two nor more than 17

86 A director shall not require a share qualification

87 (1) Until otherwise determined by the Company by ordinary resolution, there shall be paid to the directors (other than alternate directors) such fees for their services in the office of director as the directors may determine (not exceeding in the aggregate an annual sum of £1,500,000 or such larger amount as the Company may by ordinary resolution decide) divided between the directors as they may determine, or, failing such determination, equally The fees shall be deemed to accrue from day to day and shall be distinct from and additional to any remuneration or other benefits which may be paid or provided to any director pursuant to any other provision of these articles

(2) The directors may also be paid all travelling, hotel and other expenses properly incurred by them in connection with their attendance at meetings of the directors or of committees of the directors or general meetings or separate meetings of the holders of any class of shares or otherwise in connection with the discharge of their duties as directors

(3) Any director who performs, or undertakes to perform, services which the directors consider go beyond the ordinary duties of a director may be paid such special remuneration (whether by way of fixed sum, bonus, commission, participation in profits or otherwise) as the directors may determine

ALTERNATE DIRECTORS

88 Any director (other than an alternate director) may appoint any other director, or any other person approved by resolution of the directors and willing to act, to be an alternate director and may remove from office an alternate director appointed by him

89 An alternate director shall (unless he is absent from the United Kingdom) be entitled to receive notices of meetings of the directors and of committees of the directors of which his appointor is a member, to attend and vote at any such meeting at which the director appointing him is not present, and generally to perform all the functions of his appointor as a director in his absence, but shall not (unless the Company by ordinary resolution otherwise determines) be entitled to any fees for his services as an alternate director

90 An alternate director shall cease to be an alternate director if his appointor ceases to be a director, but, if a director retires by rotation or otherwise but is reappointed or deemed to have been re- appointed at the meeting at which he retires, any appointment of an alternate director made by him which was in force immediately prior to his retirement shall continue after his reappointment

91 An appointment or removal of an alternate director shall be by notice to the Company executed by the director making or revoking the appointment or in any other manner approved by the directors

92 Save as otherwise provided in these articles, an alternate director shall be deemed for all purposes to be a director and shall alone be responsible for his own acts and defaults, and he shall not be deemed to be the agent of the director appointing him

POWERS OF DIRECTORS

93 The business of the Company shall be managed by the directors who, subject to the provisions of the Acts, the memorandum and these articles and to any directions given by

special resolution, may exercise all the powers of the Company No alteration of the memorandum or these articles and no such direction shall invalidate any prior act of the directors which would have been valid if that alteration had not been made or that direction had not been given The powers given by this article shall not be limited by any special power given to the directors by these articles and a meeting of the directors at which a quorum is present may exercise all powers exercisable by the directors

DELEGATION OF DIRECTORS' POWERS

94 (1) The directors may delegate any of their powers

(a) to any managing director, any director holding any other executive office or any other director,

(b) to any committee consisting of one or more directors and (if thought fit) one or more other persons, and

(c) to any local board or agency for managing any of the affairs of the Company either in the United Kingdom or elsewhere

(2) Any such delegation (which may include authority to sub-delegate all or any of the powers delegated) may be subject to any conditions the directors impose and either collaterally with or to the exclusion of their own powers and may be revoked or varied The power to delegate under this article, being without limitation, includes power to delegate the determination of any fee, remuneration or other benefit which may be paid or provided to any director, and the scope of the power to delegate under sub-paragraph (a), (b) or (c) of paragraph (1) of this article shall not be restricted by reference to or inference from any other of those sub-paragraphs Subject as aforesaid, the proceedings of any committee, local board or agency with two or more members shall be governed by such of these articles as regulate the proceedings of directors so far as they are capable of applying

95 The directors may, by power of attorney or otherwise, appoint any person, whether nominated directly or indirectly by the directors, to be the agent of the Company for such purposes and subject to such conditions as they think fit, and may delegate any of their powers to such an agent The directors may revoke or vary any such appointment or delegation and may also authorise the agent to sub-delegate all or any of the powers vested in him

APPOINTMENT AND RETIREMENT OF DIRECTORS

96 (1) At the annual general meeting in every year one-third of the directors who are subject to retirement by rotation or, if their number is not three or a multiple of three, the number nearest to one-third, shall retire from office, but, if there is only one director who is subject to retirement by rotation, he shall retire

(2) Subject to the provisions of the Acts and to the following provisions of these articles, the directors to retire by rotation shall be those who have been longest in office since their last appointment or reappointment, but as between persons who become or were last reappointed directors on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot Notwithstanding the foregoing, each Director shall retire from office no later than the third annual general meeting following the annual general meeting of appointment or reappointment

(3) Any non-executive director (other than the chairman) who has held office as a non-executive director for nine years or more and who is not required to retire

under the preceding provisions of this article shall also retire from office and shall be eligible for reappointment

97 If the Company, at the meeting at which a director retires under any provision of these articles, does not fill the vacancy the retiring director shall, if willing to act, be deemed to have been reappointed unless at the meeting it is resolved not to fill the vacancy or a resolution for the reappointment of the director is put to the meeting and lost

98 No person other than a director retiring at the meeting shall be appointed or reappointed a director at any general meeting unless

(a) he is recommended by the directors, or

(b) not less than seven nor more than thirty-five days before the date appointed for holding the meeting, notice executed by a member qualified to vote on the appointment or reappointment has been given to the Company of the intention to propose that person for appointment or reappointment, stating the particulars which would, if he were appointed or reappointed, be required to be included in the Company's register of directors, together with notice executed by that person of his willingness to be appointed or reappointed

99 At a general meeting a motion for the appointment of two or more persons as directors by a single resolution shall not be made, unless a resolution that it shall be so made has been first agreed to by the meeting without any vote being given against it, and for the purposes of this article a motion for approving a person's appointment or for nominating a person for appointment shall be treated as a motion for his appointment

100 Subject as aforesaid, the Company may by ordinary resolution appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director

101 The directors may appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, provided that the appointment does not cause the number of directors to exceed any number fixed as the maximum number of directors A director so appointed shall retire at the next annual general meeting and shall then be eligible for reappointment, but shall not be taken into account in determining the directors who are to retire by rotation at the meeting

102 Subject as aforesaid, a director who retires at an annual general meeting may be reappointed If he is not reappointed or deemed to have been reappointed, he shall retain office until the meeting elects someone in his place or, if it does not do so, until the end of the meeting

DISQUALIFICATION AND REMOVAL OF DIRECTORS

103 Without prejudice to the provisions of the Acts, the Company may, by extraordinary resolution, remove a director before the expiration of his period of office (but such removal shall be without prejudice to any claim to damages for breach of any contract of service between the director and the Company) and, subject to these articles, may, by ordinary resolution, appoint another person instead of him A person so appointed shall be subject to retirement at the same time as if he had become a director on the day on which the director in whose place he is appointed was last appointed or reappointed a director

104 The office of a director shall be vacated if

(a) he ceases to be a director by virtue of any provision of the Acts or he becomes prohibited by law from being a director, or

(b) he becomes bankrupt or makes any arrangement or composition with his creditors generally, or

(c) he is, or may be, suffering from mental disorder and either

(i) he is admitted to hospital in pursuance of an application for admission for treatment under the Mental Health Act 1983 or, in Scotland, an application for admission under the Mental Health (Scotland) Act 1984, or

(ii) an order is made by a court having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder for his detention or for the appointment of any person to exercise powers with respect to his property or affairs, or

(d) he resigns his office by notice in writing to the Company, or

(e) in the case of a director who holds any executive office, his appointment as such is terminated or expires and the directors resolve that his office be vacated, or

(f) he is absent for more than six consecutive months without permission of the directors from meetings of the directors held during that period and the directors resolve that his office be vacated, or

(g) a notice in writing is served upon him personally or at the address registered with the Company in accordance with sections 288 to 290 of the 1985 Act or at his residential address provided to the Company, signed by all other directors for the time being to the effect that his office as director shall on receipt of such notice be vacated (and such notice may consist of several documents in the like form each executed by one or more directors)

DIRECTORS' APPOINTMENTS AND INTERESTS

105 The directors may appoint one or more of their number to the office of managing director or to any other executive office under the Company and, subject to the provisions of the Acts, any such appointment may be made for such term, at such remuneration and on such other conditions as the directors think fit Any appointment of a director to an executive office shall terminate if he ceases to be a director but without prejudice to any claim to damages for breach of the contract of service between the director and the Company

106 (1) Subject to the provisions of the Acts, and provided that he has disclosed to the directors the nature and extent of any material interest of his, a director notwithstanding his office

(a) may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is otherwise interested,

(b) may be a director or other officer of, or employed by, or a party to any transaction or arrangement with, or otherwise interested in, any body corporate promoted by the Company or in which the Company is otherwise interested, and

(c) shall not, by reason of his office, be accountable to the Company for any benefit which he derives from any such office or employment or from any such transaction or arrangement or from any interest in any such body corporate, and no such transaction or arrangement shall be liable to be avoided on the ground of any such interest or benefit

(2) For the purposes of this article

(a) a general notice given to the directors that a director is to be regarded as having an interest of the nature and extent specified in the notice in any

transaction or arrangement in which a specified person or class of persons is interested shall be deemed to be a disclosure that the director has an interest in any such transaction of the nature and extent so specified, and

(b) an interest of which a director has no knowledge and of which it is unreasonable to expect him to have knowledge shall not be treated as an interest of his

DIRECTORS' GRATUITIES AND PENSIONS

107 The directors may (by the establishment of, or maintenance of, schemes or otherwise) provide benefits, whether by the payment of gratuities or pensions, or by insurance or death or disability benefits or otherwise, for any director or any former director who holds or has held but no longer holds any executive office or employment with the Company or with any body corporate which is or has been a subsidiary of the Company or a predecessor in business of the Company or of any such subsidiary, and for any member of his family (including a spouse or civil partner and a former spouse and former civil partner) or any person who is or was dependent on him and may (both before and after he ceases to hold such office or employment) contribute to any fund and pay premiums for the purchase or provision of any such benefit

PROCEEDINGS OF DIRECTORS

108 (1) Subject to the provisions of these articles, the directors may regulate their proceedings as they think fit

(2) A director may, and the secretary at the request of a director shall, call a meeting of the directors Subject to paragraph (3) of this article, it shall not be necessary to give notice of a meeting to a director who is absent from the United Kingdom

(3) If a director gives notice to the Company of an address in the United Kingdom at which notice of meetings of the directors is to be given to him when he is absent from the United Kingdom, he shall, if so absent, be entitled to have notice given to him at that address, but the Company shall not be obliged by virtue of this paragraph to give any director a longer period of notice than he would have been entitled to had he been present in the United Kingdom at that address

(4) Questions arising at a meeting shall be decided by a majority of votes In case of an equality of votes, the chairman shall have a second or casting vote A director who is also an alternate director shall be entitled in the absence of his appointor to a separate vote on behalf of his appointor in addition to his own vote, and an alternate director who is appointed by two or more directors shall be entitled to a separate vote on behalf of each of his appointors in the appointor's absence

(5) A meeting of the directors may consist of a conference between directors some or all of whom are in different places provided that each director who participates in the meeting is able

(a) to hear each of the other participating directors addressing the meeting, and

(b) if he so wishes, to address each of the other participating directors simultaneously,

whether directly, by conference telephone or by any other form of communication equipment (whether in use when this article is adopted or developed subsequently) or by a combination of such methods A quorum shall be deemed to be present if those conditions are satisfied in respect of at least the number

and designation of directors required to form a quorum A meeting held in this way shall be deemed to take place at the place where the largest group of directors is assembled or, if no such group is readily identifiable, at the place from where the chairman of the meeting participates at the start of the meeting

109 No business shall be transacted at any meeting of the directors unless a quorum is present The quorum may be fixed by the directors and unless so fixed at any other number shall be two An alternate director who is not himself a director shall, if his appointor is not present, be counted in the quorum

110 The continuing directors or a sole continuing director may act notwithstanding any vacancies in their number, but, if the number of directors is less than the number fixed as the quorum, the continuing directors or director may act only for the purpose of filling vacancies or of calling a general meeting

111 The directors may elect from their number, and remove, a chairman and a deputy chairman of the board of directors The chairman, or in his absence the deputy chairman, shall preside at all meetings of the directors, but if there is no chairman or deputy chairman, or if at the meeting neither the chairman nor the deputy chairman is present within five minutes after the time appointed for the meeting, or if neither of them is willing to act as chairman, the directors present may choose one of their number to be chairman of the meeting

112 All acts done by a meeting of the directors, or of a committee of the directors, or by a person acting as a director, shall notwithstanding that it may afterwards be discovered that there was a defect in the appointment of any director or that any of them were disqualified from holding office, or had vacated office, or were not entitled to vote, be as valid as if every such person had been duly appointed and was qualified and had continued to be a director and had been entitled to vote

113 A resolution in writing executed by all the directors entitled to receive notice of a meeting of the directors or of a committee of the directors shall be as valid and effectual as if it had been passed at a meeting of the directors or (as the case may be) of that committee, duly convened and held, and may consist of several documents in the like form each executed by one or more directors, but a resolution executed by an alternate director need not also be executed by his appointor and, if it is executed by a director who has appointed an alternate director, it need not also be executed by the alternate director in that capacity

114 (1) Save as otherwise provided by these articles, a director shall not vote at a meeting of the directors on any resolution concerning a matter in which he has, directly or indirectly, a material interest (other than an interest in shares, debentures or other securities of, or otherwise in or through, the Company), unless his interest arises only because the case falls within one or more of the following sub-paragraphs

(a) the resolution relates to the giving to him of a guarantee, security, or indemnity in respect of money lent to, or an obligation incurred by him for the benefit of, the Company or any of its subsidiary undertakings,

(b) the resolution relates to the giving to a third party of a guarantee, security, or indemnity in respect of an obligation of the Company or any of its subsidiary undertakings for which the director has assumed responsibility in whole or part and whether alone or jointly with others under a guarantee or indemnity or by the giving of security,

(c) his interest arises by virtue of his being, or intending to become, a participant in the underwriting or sub-underwriting of an offer of any shares in or debentures or other securities of the Company for subscription, purchase or exchange,

(d) the resolution relates in any way to a retirement benefits scheme which has been approved, or is conditional upon approval, by the Commissioners for HM Revenue and Customs for taxation purposes,

(e) the resolution relates to an arrangement for the benefit of the employees of the Company or any of its subsidiary undertakings, including but without being limited to an employees' share scheme (within the meaning of section 743 of the 1985 Act), which does not accord to any director as such any privilege or advantage not generally accorded to the employees to whom the arrangement relates,

(f) the resolution relates to a transaction or arrangement with any other company in which he is interested, directly or indirectly, provided that he is not the holder of or beneficially interested in one per cent or more of any class of the equity share capital of that company (or of any other company through which his interest is derived) and not entitled to exercise one per cent or more of the voting rights available to members of the relevant company (and for the purpose of calculating the said percentage there shall be disregarded any shares held by the director as a bare or custodian trustee and in which he has no beneficial interest, and any shares comprised in any authorised unit trust scheme in which the director is interested only as a unit holder),

(g) the resolution relates to the purchase or maintenance for any director or directors of insurance against any liability

(2) For the purposes of paragraph (1) of this article, an interest of any person who is for any purpose of the 1985 Act (excluding any statutory modification thereof not in force when these articles became binding on the Company) connected with a director shall be taken to be the interest of that director and, in relation to an alternate director, an interest of his appointor shall be treated as an interest of the alternate director without prejudice to any interest which the alternate director has otherwise

(3) Where proposals are under consideration concerning the appointment (including the fixing or varying of terms of appointment) of two or more directors to offices or employments with the Company or any body corporate in which the Company is interested, the proposals may be divided and considered in relation to each director separately and (provided he is not by virtue of paragraph (1)(f) of this article, or otherwise under that paragraph, or for any other reason, precluded from voting) each of the directors concerned shall be entitled to vote and be counted in the quorum in respect of each resolution except that concerning his own appointment

115 A director shall not be counted in the quorum present at a meeting in relation to a resolution on which he is not entitled to vote

116 If a question arises at a meeting of the directors as to the right of a director to vote, the question may, before the conclusion of the meeting, be referred to the chairman of the meeting (or, if the director concerned is the chairman, to the other directors at the meeting), and his ruling in relation to any director other than himself (or, as the case may be, the ruling of the majority of the other directors in relation to the chairman) shall be final and conclusive

MINUTES

117 The directors shall cause minutes to be made in books kept for the purpose

(a) of all appointments of officers made by the directors, and

(b) of all proceedings at meetings of the Company, of the holders of any class of shares in the Company, and of the directors, and of committees of the directors, including the names of the directors present at each such meeting

SECRETARY

118 Subject to the provisions of the Acts, the secretary shall be appointed by the directors for such term, at such remuneration and on such other conditions as they think fit, and any secretary so appointed may be removed by them

THE SEAL

119 The seal shall be used only by the authority of a resolution of the directors or of a committee of the directors The directors may determine whether any instrument to which the seal is affixed, shall be signed and, if it is to be signed, who shall sign it Unless otherwise determined by the directors

(a) share certificates and, subject to the provisions of any instrument constituting the same, certificates issued under the seal in respect of any debentures or other securities, need not be signed and any signature may be applied to any such certificate by any mechanical or other means or may be printed on it, and

(b) every other instrument to which the seal is affixed shall be signed by one director and by the secretary or another director

120 Subject to the provisions of the Acts, the Company may have an official seal for use in any place abroad

DIVIDENDS

121 Subject to the provisions of the Acts, the Company may by ordinary resolution declare dividends in accordance with the respective rights of the members, but no dividend shall exceed the amount recommended by the directors

122 Subject to the provisions of the Acts, the directors may pay interim dividends if it appears to them that they are justified by the profits of the Company available for distribution If the share capital is divided into different classes, the directors may pay interim dividends on shares which confer deferred or non-preferred rights with regard to dividend as well as on shares which confer preferential rights with regard to dividend, but no interim dividend shall be paid on shares carrying deferred or non-preferred rights if, at the time of payment, any preferential dividend is in arrear The directors may also pay at intervals settled by them any dividend payable at a fixed rate if it appears to them that the profits available for distribution justify the payment If the directors act in good faith they shall not incur any liability to the holders of shares conferring preferred rights for any loss they may suffer by the lawful payment of an interim dividend on any shares having deferred or non-preferred rights

123 Subject to the provisions of the Acts and except as otherwise provided by these articles or the rights attached to shares, all dividends shall be declared and paid according to the amounts paid up on the shares on which the dividend is paid If any share is issued on terms that it ranks for dividend as from a particular date, it shall rank for dividend accordingly In any other case (and except as aforesaid), dividends shall be apportioned and paid proportionately to the amounts paid up on the shares during any portion or portions of the period in respect of which the dividend is paid For the purpose of this article, an amount paid up on a share in advance of a call shall be treated, in relation to any dividend declared after the payment but before the call, as not paid up on the share

124 A general meeting declaring a dividend may, upon the recommendation of the directors, direct that it shall be satisfied wholly or partly by the distribution of assets and, where any

difficulty arises in regard to the distribution, the directors may settle the same as they think fit and in particular (but without limitation) may issue fractional certificates or other fractional entitlements (or ignore fractions) and fix the value for distribution of any assets, and may determine that cash shall be paid to any member upon the footing of the value so fixed in order to adjust the rights of members, and may vest any assets in trustees

125 (1) Any dividend or other money payable in respect of a share may be paid by cheque or warrant sent by post to the registered address of the person entitled or, if two or more persons are the holders of the share or are jointly entitled to it by reason of the death or bankruptcy of the holder, to the registered address of that one of those persons who is first named in the register of members or to such person and to such address as the person or persons entitled may by notice direct Any such dividend or other money may also be paid by any other method (including direct debit or credit and bank transfer or, in respect of shares in uncertificated form, where the Company is authorised to do so by or on behalf of the holder or joint holders in such manner as the Company may from time to time consider sufficient, by means of a relevant system) which the directors consider appropriate Any joint holder or other person jointly entitled to a share as aforesaid may give receipts for any dividend or other money payable in respect of the share Every cheque or warrant shall be made payable to the order of or to the person or persons entitled or to such other person as the person or persons entitled may by notice direct Payment of such cheque, warrant or order, the collection of funds from or transfer of funds by a bank in accordance with such direct debit or bank transfer or, in respect of shares in uncertificated form, the making of payment by means of a relevant system, shall be a good discharge to the Company

(2) The Company may cease to send any cheque or warrant (or to use any other method of payment) for any dividend payable in respect of a share if -

(a) in respect of at least two consecutive dividends payable on that share the cheque or warrant has been returned undelivered or remains uncashed (or that other method of payment has failed), or

(b) following one such occasion, reasonable enquiries have failed to establish any new address of the holder,

but, subject to the provisions of these articles, may recommence sending cheques or warrants (or using another method of payment) for dividends payable on that share if the person or persons entitled so request

126 No dividend or other money payable in respect of a share shall bear interest against the Company, unless otherwise provided by the rights attached to the share

127 Any dividend which has remained unclaimed for twelve years from the date when it became due for payment shall, if the directors so resolve, be forfeited and cease to remain owing by the Company

128 The directors may, with the authority of an ordinary resolution of the Company, offer any holders of ordinary shares the right to elect to receive ordinary shares, credited as fully paid, instead of cash in respect of the whole (or some part, to be determined by the directors) of any dividend specified by the ordinary resolution The following provisions shall apply

(a) The said resolution may specify a particular dividend (whether or not declared), or may specify all or any dividends declared or payable within a specified period, but such period may not end later than the beginning of the fifth annual general meeting next following the date of the meeting at which the ordinary resolution is passed

(b) The entitlement of each holder of ordinary shares to new ordinary shares shall be such that the relevant value of the entitlement shall be as nearly as possible equal to (but not greater than) the cash amount (disregarding any tax credit) that such holder would have received by way of dividend For this purpose "relevant value" shall be calculated by reference to the average of the middle market quotations for the Company's ordinary shares on the Stock Exchange as derived from the Daily Official List, for the day on which the ordinary shares are first quoted "ex" the relevant dividend and the four subsequent dealing days, or in such other manner as may be determined by or in accordance with the ordinary resolution A certificate or report by the auditors as to the amount of the relevant value in respect of any dividend shall be conclusive evidence of that amount

(c) No fraction of a share shall be allotted and the directors may deal with any fractions which arise as they think fit

(d) The directors shall, after determining the basis of allotment, notify the holders of ordinary shares of the right of election offered to them, and specify the procedure to be followed and place at which, and the latest time by which, elections must be lodged in order to be effective

(e) The directors may exclude from any offer any holders of ordinary shares where the directors believe that the making of the offer to them would or might involve the contravention of the laws of any territory or that for any other reason the offer should not be made to them

(f) The dividend (or that part of the dividend in respect of which a right of election has been given) shall not be payable on ordinary shares in respect of which an election has been duly made ("the elected ordinary shares") and instead additional ordinary shares shall be allotted to the holders of the elected ordinary shares on the basis of allotment determined as aforesaid For such purpose the directors shall capitalise out of any amount for the time being standing to the credit of any reserve or fund (including any share premium account or capital redemption reserve) or any of the profits which could otherwise have been applied in paying dividends in cash, as the directors may determine, a sum equal to the aggregate nominal amount of the additional ordinary shares to be allotted on that basis and apply it in paying up in full the appropriate number of unissued ordinary shares for allotment and distribution to the holders of the elected ordinary shares on that basis

(g) The directors shall not proceed with any election unless the Company has sufficient unissued shares authorised for issue and sufficient reserves or funds that may be capitalised to give effect to it after the basis of allotment is determined

(h) The additional ordinary shares when allotted shall rank pari passu in all respects with the fully paid ordinary shares then in issue except that they will not be entitled to participation in the dividend in lieu of which they were allotted

(i) The directors may do all acts and things which they consider necessary or expedient to give effect to any such capitalisation, and may authorise any person to enter on behalf of all the members interested into an agreement with the Company providing for such capitalisation and incidental matters and any agreement so made shall be binding on all concerned

CAPITALISATION OF PROFITS

129 (1) The directors may with the authority of an ordinary resolution of the Company

(a) subject as hereinafter provided, resolve to capitalise any undivided profits of the Company not required for paying any preferential dividend (whether or not they are available for distribution) or any sum standing to the credit of any reserve or fund of the Company (including any share premium account or capital redemption reserve),

(b) appropriate the sum resolved to be capitalised to the members in proportion to the nominal amounts of the shares (whether or not fully paid) held by them respectively which would (or in the case of treasury shares, which would if such shares were not held as treasury shares) entitle them to participate in a distribution of that sum if the shares were fully paid and the sum were then distributable and were distributed by way of dividend and apply such sum on their behalf either in or towards paying up the amounts, if any, for the time being unpaid on any shares held by them respectively, or in paying up in full unissued shares or debentures of the Company of a nominal amount equal to that sum, and allot the shares or debentures credited as fully paid to those members or as they may direct, in those proportions, or partly in one way and partly in the other, but the share premium account, the capital redemption reserve, and any profits which are not available for distribution may, for the purposes of this article, only be applied in paying up unissued shares to be allotted to members credited as fully paid,

(c) resolve that any shares so allotted to any member in respect of a holding by him of any partly paid shares shall so long as such shares remain partly paid rank for dividend only to the extent that the latter shares rank for dividend,

(d) make such provision by the issue of fractional certificates or other fractional entitlements (or by ignoring fractions) or by payment in cash or otherwise as they think fit in the case of shares or debentures becoming distributable in fractions (including provision whereby the benefit of fractional entitlements accrue to the Company rather than to the members concerned),

(e) authorise any person to enter on behalf of all the members concerned into an agreement with the Company providing for the allotment to them respectively, credited as fully paid, of any further shares to which they are entitled upon such capitalisation, any agreement made under such authority being binding on all such members, and

(f) generally do all acts and things required to give effect to such resolution as aforesaid

(2) Where, pursuant to an employees' share scheme (within the meaning of section 743 of the 1985 Act) the Company has granted options to subscribe for shares on terms which provide (inter alia) for adjustments to the subscription price payable on the exercise of such options or to the number of shares to be allotted upon such exercise in the event of any increase or reduction in or other reorganisation of the Company's issued share capital and an otherwise appropriate adjustment would result in the subscription price for any share being less than its nominal value, then, subject to the provisions of the Acts, the directors may, on the exercise of any of the options concerned and payment of the subscription price which would have applied had such adjustment been made, capitalise any such

profits or other sum as is mentioned in paragraph (1)(a) above to the extent necessary to pay up the unpaid balance of the nominal value of the shares which fall to be allotted on the exercise of such options and apply such amount in paying up such balance and allot shares fully paid accordingly The provisions of paragraph (1)(a) to (f) above shall apply, with any necessary changes, to this paragraph (but as if the authority of an ordinary resolution of the Company were not required)

RECORD DATES

130 Notwithstanding any other provision of these articles, but without prejudice to the rights attached to any shares, the Company or the directors may fix a date as the record date by reference to which a dividend will be declared or paid or a distribution, allotment or issue made, and that date may be before, on or after the date on which the dividend, distribution, allotment or issue is declared, paid or made Where such a record date is fixed, references in these articles to a holder of shares or member to whom a dividend is to be paid or a distribution, allotment or issue is to be made shall be construed accordingly

ACCOUNTS

131 No member (other than a director) shall have any right of inspecting any accounting record or other document of the Company, unless he is authorised to do so by statute, by order of the court, by the directors or by ordinary resolution of the Company

NOTICES

132 Any notice to be given to or by any person pursuant to these articles shall be in writing other than a notice calling a meeting of the directors which need not be in writing

133 (1) Any notice, document or information may (without prejudice to articles 138 and 139) be given, sent or supplied by the Company to any member either

(a) personally, or

(b) by sending it by post in a prepaid envelope addressed to the member at his registered address or postal address given pursuant to article 133(4), or by leaving it at that address, or

(c) by sending it in electronic form to a person who has agreed (generally or specifically) that the notice, document or information may be sent or supplied in that form (and has not revoked that agreement), or

(d) subject to the provisions of the Acts, by making it available on a website, provided that the requirements in article 133(2) are satisfied

(2) The requirements referred to in article 133(1)(d) are that

(a) the member has agreed (generally or specifically) that the notice, document or information may be sent or supplied to him by being made available on a website (and has not revoked that agreement), or the member has been asked by the Company to agree that the Company may send or supply notices, documents and information generally, or the notice, document or information in question, to him by making it available on a website and the Company has not received a response within the period of 28 days beginning on the date on which the Company's request was sent and the member is therefore taken to have so agreed (and has not revoked that agreement),

(b) the member is sent a notification of the presence of the notice, document or information on a website, the address of that website, the place on that website where it may be accessed, and how it may be accessed ("notification of availability"),

(c) in the case of a notice of meeting, the notification of availability states that it concerns a notice of a company meeting, specifies the place, time and date of the meeting, and states whether it will be an annual general meeting, and

(d) the notice, document or information continues to be published on that website, in the case of a notice of meeting, throughout the period beginning with the date of the notification of availability and ending with the conclusion of the meeting and in all other cases throughout the period specified by any applicable provision of the Acts, or, if no such period is specified, throughout the period of 28 days beginning with the date on which the notification of availability is sent to the member, save that if the notice, document or information is made available for part only of that period then failure to make it available throughout that period shall be disregarded where such failure is wholly attributable to circumstances which it would not be reasonable to have expected the Company to prevent or avoid

(3) In the case of joint holders of a share

(a) it shall be sufficient for all notices, documents and other information to be given, sent or supplied to the joint holder whose name stands first in the register of members in respect of the joint holding (the "first named holder") only, and

(b) the agreement of the first named holder that notices, documents and information may be given, sent or supplied in electronic form or by being made available on a website shall be binding on all the joint holders

(4) A member whose registered address is not within the United Kingdom shall not be entitled to receive any notice, document or information from the Company unless he gives to the Company an address (not being an electronic address) within the United Kingdom at which notices, documents or information may be given to him

(5) For the avoidance of doubt, the provisions of this article 133 are subject to article 51

(6) The Company may at any time and at its sole discretion choose to give, send or supply notices, documents and information only in hard copy form to some or all members

134 A member present either in person or by proxy, or in the case of a corporate member by a duly authorised representative, at any meeting of the Company or of the holders of any class of shares shall be deemed to have received notice of the meeting and, where requisite, of the purposes for which it was called

135 (1) Any notice to be given to a member may be given by reference to the register of members as it stands at any time within the period of twenty-one days before the notice is given, and no change in the register after that time shall invalidate the giving of the notice

(2) Every person who becomes entitled to a share shall be bound by any notice in respect of that share which, before his name is entered in the register of

members, has been given to the person from whom he derives his title, but this paragraph does not apply to a notice given under section 793 of the 2006 Act

136 Subject to the Acts, where, by reason of the suspension or curtailment of postal services within the United Kingdom, the Company is unable effectively to give notice of a general meeting, the general meeting may be convened by a notice advertised in two national daily newspapers published in the United Kingdom The Company shall send a copy of the notice to members in the same manner as it sends notices under article 133 if at least seven clear days before the meeting the posting of notices to addresses throughout the United Kingdom again becomes practicable

137 Subject to the Acts, any notice, document or information to be given, sent or supplied by the Company to the members or any of them, not being a notice to which article 135 applies, shall be sufficiently given, sent or supplied if given by advertisement in at least one national daily newspaper published in the United Kingdom

138 Any notice, document or information given, sent or supplied by the Company to the members or any of them

(a) by post, shall be deemed to have been received 24 hours after the time at which the envelope containing the notice, document or information was posted unless it was sent by second class post or there is only one class of post in which case it shall be deemed to have been received 48 hours after it was posted Proof that the envelope was properly addressed, prepaid and posted shall be conclusive evidence that the notice, document or information was sent,

(b) by advertisement, shall be deemed to have been received on the day on which the advertisement appears,

(c) by electronic means, shall be deemed to have been received 24 hours after it was sent Proof that a notice, document or information in electronic form was sent in accordance with the Institute of Chartered Secretaries and Administrators' Guidance (in issue at the time the relevant notice, document or information was sent) shall be conclusive evidence that the notice, document or information was sent, and

(d) by making it available on a website, shall be deemed to have been received on the date on which notification of availability on the website is deemed to have been received in accordance with this article or, if later, the date on which it is first made available on the website

139 Any notice, document or information may be given, sent or supplied by the Company to the person entitled to a share in consequence of the death or bankruptcy of a member by sending or delivering it in any manner authorised by these articles for the giving of notice to a member addressed to that person by name, or by the title of representative of the deceased or trustee of the bankrupt or by any like description, at the address, if any, within the United Kingdom supplied for that purpose by the person claiming to be so entitled Until such an address has been supplied, a notice may be given in any manner in which it might have been given if the death or bankruptcy had not occurred

140 If on three consecutive occasions notices, documents or information sent or supplied to a member have been returned undelivered, the member shall not be entitled to receive any subsequent notice, document or information until he has supplied to the Company (or its agent) a new registered address, or a postal address within the United Kingdom, or (without prejudice to article 133(4)) shall have informed the Company, in such manner as may be specified by the Company, of an electronic address For the purposes of this article, references to notices, documents or information include references to a cheque or

other instrument of payment, but nothing in this article shall entitle the Company to cease sending any cheque or other instrument of payment for any dividend, unless it is otherwise so entitled under these articles

141 Where a document is required under these articles to be signed by a member or any other person, if the document is in electronic form, then in order to be valid the document must either

(a) incorporate the electronic signature, or personal identification details (which may be details previously allocated by the Company), of that member or other person, in such form by the directors may approve, or

(b) be accompanied by such other evidence as the directors may require in order to be satisfied that the document is genuine

The Company may designate mechanisms for validating any such document and a document not validated by the use any such mechanisms shall be deemed as having not been received by the Company In the case of any document or information relating to a meeting, an instrument of proxy or invitation to appoint a proxy, any validation requirements shall be specified in the relevant notice of meeting in accordance with articles 48 and 76

DESTRUCTION OF DOCUMENTS

142 (1) The Company may destroy

(a) any instrument of transfer, after six years from the date on which it is registered,

(b) any dividend mandate or notification of change of name or address, after two years from the date on which it is recorded,

(c) any share certificate, after one year from the date on which it is cancelled, and

(d) any other document on the basis of which an entry in the register of members is made, after six years from the date on which it is made

(2) Any document referred to in paragraph (1) of this article may be destroyed earlier than the relevant date authorised by that paragraph, provided that a copy of the document (whether made electronically, by microfilm, by digital imaging or by any other means) has been made which is not destroyed before that date

(3) It shall be conclusively presumed in favour of the Company that every entry in the register of members purporting to have been made on the basis of a document destroyed in accordance with this article was duly and properly made, that every instrument of transfer so destroyed was duly registered, that every share certificate so destroyed was duly cancelled, and that every other document so destroyed was valid and effective in accordance with the particulars in the records of the Company, provided that

(a) this article shall apply only to the destruction of a document in good faith and without notice of any claim (regardless of the parties to it) to which the document might be relevant,

(b) nothing in this article shall be construed as imposing upon the Company any liability in respect of the destruction of any such document otherwise than in accordance with this article which would not attach to the Company in the absence of this article, and

(c) references in this article to the destruction of any document include references to the disposal of it in any manner

WINDING UP

143 If the Company is wound up, the liquidator may, with the sanction of an extraordinary resolution and any other sanction required by law, subject to the provisions of the Acts, divide among the members in specie the whole or any part of the assets of the Company and may, for that purpose, value any assets and determine how the division shall be carried out as between the members or different classes of members The liquidator may, with the like sanction, vest the whole or any part of the assets in trustees upon such trusts for the benefit of the members as he may with the like sanction determine, but no member shall be compelled to accept any assets upon which there is a liability

INDEMNITY

144 Subject to the provisions of the Acts, the Company may

(a) indemnify any person who is or was a director, directly or indirectly (including by funding any expenditure incurred or to be incurred by him), against any loss or liability, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company, and/or

(b) purchase and maintain insurance for any person who is or was a director against any loss or liability or any expenditure he may incur, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company

For the purposes of this article, "associated company" has the same meaning as in section 309A of the 1985 Act

NOTES

Show the full forenames, NOT INITIALS If the director or secretary is a corporation or Scottish firm, show the name on surname line and registered or principal office on the usual residential line

Give previous forenames or surname(s) except
- for a married woman, the name by which she was known before marriage need not be given
- for names not used since the age of 18 or for at least 20 years

A peer or individual known by a title may state the title instead of or in addition to the forenames and surname and need not give the name by which that person was known before he or she adopted the title or succeeded to it

Other directorships

Give the name of every company incorporated in Great Britain of which the person concerned is a director or has been a director at any time in the past five years

You may exclude a company which either is, or at all times during the past five years when the person concerned was a director, was
- dormant
- a parent company which wholly owned the company making the return, or
- another wholly owned subsidiary of the same parent company

THE COMPANIES ACT 1985 TO 1989

PRIVATE COMPANY LIMITED BY SHARES

MEMORANDUM OF ASSOCIATION OF COPPEREAGLE LIMITED

1 The Company's name is Coppereagle Limited

2 The Company's registered office is to be situated in England and Wales

3 The Company's objects are

(a) To carry on the business of a general commercial company

(b) To acquire by purchase, lease, exchange, hire or otherwise and take options over any property whatever, and any rights or privileges of any kind over or in respect of any property of any kind necessary or convenient for the purpose of or in connection with the Company's business

(c) To acquire by purchase, application, registration or otherwise and protect, prolong and renew, whether in the United Kingdom or elsewhere any patents, patent rights, licences, secret processes, trade marks, designs, protections and concessions or any other intellectual property rights and to disclaim, alter, modify, use and turn to account and to manufacture under or grant licences or privileges in respect of the same

(d) To acquire or undertake the whole or any part of the business, goodwill, and assets of any person, firm, or company carrying on or proposing to carry on any of the businesses which the Company is authorised to carry on and undertake all or any of the liabilities of such person, firm or company as part of the consideration for such acquisition, or to acquire an interest in, amalgamate with, or enter into partnership or into any arrangement for sharing profits, or for co-operation, or for mutual assistance with any such person, firm or company, or for subsidising or otherwise assisting any such person, firm or company, and to give or accept, by way of consideration for any of the acts or things aforesaid or property acquired, any shares, debentures, debenture stock or securities that may be agreed upon, and to hold and retain, or sell, mortgage and deal with any shares, debentures, debenture stock or securities so received

(e) To improve, manage, construct, repair, develop, exchange, let on lease or otherwise, mortgage, charge, sell, dispose of, turn to account, grant licences, options, rights and privileges in respect of, or otherwise deal with all or any part of the property and rights of the Company

(f) To invest and deal with the monies of the Company not immediately required and to hold or otherwise deal with any investments made in such manner as the Company may from time to time determine

(g) To lend and advance money or give credit on any terms and with or without security to any person, firm or company (including without prejudice to the generality of the foregoing any holding company, subsidiary or fellow subsidiary of, or any other company associated in any way with, the Company), to enter into guarantees, contracts of indemnity and suretyships of all kinds, to receive money on deposit or loan upon any terms, and to secure or guarantee in any manner and upon and terms the payment of any sum of money or the performance of any obligation by any person, firm or company (including without prejudice to the generality

of the foregoing any such holding company, subsidiary, fellow subsidiary or associated company as aforesaid)

(h) To borrow and raise money in any manner and to secure the repayment of any money borrowed, raised or owing by mortgage, charge, standard security, lien or other security upon the whole or any part of the Company's property or assets (whether present or future), including its uncalled capital, and also by a similar mortgage, charge, standard security, lien or security to secure and guarantee the performance by the Company of any obligation or liability it may undertake or which may become binding on it

(i) To draw, make, accept, endorse, discount, negotiate, execute and issue cheques, bills of exchange, promissory notes, warrants, debentures and other negotiable or transferable instruments

(j) To oppose any proceedings or applications which may seem calculated directly or indirectly to prejudice the Company's interests

(k) To acquire by subscription or otherwise, hold, sell, deal with and dispose of, place and underwrite shares, stocks, debentures, debenture stocks, or any other securities issued or guaranteed by any company constituted or carrying on business in any part of the world, and any such securities issued or guaranteed by any government or authority, municipal, local or otherwise, in any part of the world

(l) To control, manage, finance, subsidise, co-ordinate or otherwise assist any company or companies in which the Company has a direct or indirect financial interest

(m) To promote any other company for the purpose of acquiring the whole or any part of the business or property of undertaking or any of the liabilities of the Company, or of undertaking any business or operations which may appear likely to assist or benefit the Company or to enhance the value of any property or business of the Company, and to place or guarantee the placing of, underwrite, subscribe for, or otherwise acquire all or any part of the shares or securities of any such company as aforesaid

(n) To sell or otherwise dispose of the whole or any part of the business or property of the Company for such consideration as the Company may think fit

(o) To purchase and maintain insurance for or for the benefit of any persons who are or were at any time directors, officers or employees of the Company, or of any other company which is its holding company or any of the predecessors of the Company or of such holding company has any interest whether direct or indirect or which is in any way allied to or associated with the Company, or of any subsidiary undertaking of the Company or of any such other company, or who are or were at any time trustees of any pension fund in which any employees of the Company or of any such other company or subsidiary undertaking are interested, including (without prejudice to the generality of the foregoing) insurance against any liability incurred by such persons in respect of any act or omission in the actual or purported execution and/or discharge of their duties and/or in the exercise or purported exercise of their powers and/or otherwise in relation to their duties, powers or offices in relation to the Company or any such other company, subsidiary undertaking or pension fund

(p) To act as agents or brokers and as trustees for any person, firm or company, and to undertake and perform subcontracts

(q) To remunerate any person, firm or company rendering services to the Company either by cash payment or otherwise

(r) To distribute among the Members of the Company in kind any property of the Company properly distributable amongst the members

(s) To pay or procure the payment of all or any expenses incurred in connection with the promotion, formation and incorporation of the Company

(t) To give or award pensions, annuities, gratuities and superannuation or other allowances or benefits or charitable aid and generally to provide advantages, facilities and services for any persons who are or have been Directors or employees of the Company, or any company which is a subsidiary of the Company or the holding company of the Company or a fellow subsidiary of the Company or the predecessors in business of the Company or of any such subsidiary, holding or fellow subsidiary company and to the wives, widows, children and other relatives and dependants of such persons, to make payments towards insurance including insurance for any Director, officer or Auditor against any liability incurred by such persons in respect of any act or omission by them in relation to the carrying out of their obligations and duties in relation to the Company

(u) Subject to and in accordance with a due compliance with the provisions of section 155 to 158 (inclusive) of the Act (if and so far as such provisions shall be applicable), to give, whether directly or indirectly, any kind of financial assistance (as defined in section 152(1)(a) of the Act) for any such purpose as is specified in section 151(1) and/or section 151(2) of the Act

(v) To procure the Company to be registered or recognised in any part of the world

(w) To do all or any of the things authorised in any part of the world and either as principals, agents, contractors or otherwise, and by or through agents, brokers, subcontractors or otherwise and either alone or in conjunction with others

(x) To do all such other things as may be deemed incidental or conducive to the attainment of the Company's object or of any of the powers given to it by the Act or by this Clause

AND so that

(1) None of the provisions set forth in any subclause of this Clause shall be restrictively construed but the widest interpretation shall be given to each such provision, and none of such provisions shall, except where the context expressly so requires, be in any way limited or restricted by reference to or inference from any other provisions set forth in such subclause, or by reference to or inference from the terms of any other subclause of this Clause, or by reference to or inference from the name of the Company

(2) The word **Company** in this Clause, except where used in reference to the Company, shall be deemed to include any partnership or other body of persons, whether incorporated or unincorporated and whether domiciled in the United Kingdom or elsewhere

(3) In this Clause the expression **the Act** means the Companies Act 1985, but so that any reference in this Clause to any provision of the Act shall be deemed to include a reference to any statutory modification or re-enactment of that provision for the time being in force

4 The liability of the Members is limited

5 The Company's share capital is £100 divided into 100 shares of £1 each We, the subscribers to this Memorandum of Association, wish to be formed into a Company pursuant to this Memorandum

THE COMPANIES ACT 1985

COMPANY LIMITED BY SHARES

NEW

ARTICLES OF ASSOCIATION OF COPPEREAGLE LIMITED

PRELIMINARY

1 (a) The Regulations contained in Table A in the Schedule to the Companies (Tables A to F) Regulations 1985 as amended by the Companies (Tables A to F) (Amendment) Regulations 1985 (**Table A**) shall apply to the Company save insofar as they are varied or excluded by or are inconsistent with these Articles The Regulations in Table A numbered 2, 3, 24, 26, 40, 50, 64, 72 to 80 (inclusive), 81(e), 82, 83, 84, 87, 89, 90, 91 and 118 shall not apply, but, subject as aforesaid, and in addition to the remaining Regulations in Table A the following shall be the Articles of Association of the Company

(b) Where the context requires words importing the singular number shall include the plural and vice versa and words importing the masculine shall include the feminine

(c) Any reference in these Articles to any enactment shall be construed as a reference thereto as consolidated, amended, modified or re-enacted from time to time

PRIVATE COMPANY

2 The company is a private company

SHARE CAPITAL

3 The share capital of the Company at the date of the adoption of these Articles is £100 divided into 100 Ordinary Shares of £1 each (**Ordinary Shares**)

4 The Directors are generally and unconditionally authorised for the purposes of Section 80 of the Act, to exercise any power of the Company to allot and grant rights to subscribe for or convert securities into shares of the Company up to time (subject to Section 80 of the Companies Act) be renewed, revoked or varied by Ordinary Resolution of the Company in General Meeting

LIEN

5 Without prejudice to the lien conferred by Regulation 8 of Table A the Company shall have a first and paramount lien on all shares for all moneys presently payable by a member or his estate to the Company The liens conferred above and by Regulation 8 of Table A shall attach to fully paid shares and to all shares registered in the name of any person indebted or under liability to the Company whether he be the sole registered holder thereof or one of two or more joint holders

CALLS

6 The liability of any member in default in respect of a call shall be increased by the addition in Regulation 15 of Table A of the words "and all expenses that may have been incurred by the Company by reason of such non-payment" after the words "(as defined by the Act)" and the words "and expenses" after the words "of the interest" and also by the addition in Regulation 18 of Table A of the words "and all expenses that may have been incurred by the Company by reason of non-payment" after the words "together with any interest"

PRE-EMPTION

7 (a) (i) Any member (the **proposing transferor**) desiring to sell, transfer or otherwise dispose of any shares which he holds shall give notice in writing (the **transfer notice**) to the Company at its registered office specifying the shares held by him which he desires to dispose of (the **Shares**), the price (the **offer price**) (if any) at which the Shares are offered by him and the third party (if any) to whom he proposes to transfer the Shares if they are not purchased by a member pursuant to the following provisions of this Article A transfer notice shall only be revocable with the consent of all the members

(ii) The transfer notice shall constitute the Directors the agents of the proposing transferor for the sale of Shares and the Directors shall, within seven days of the transfer notice being given to the Company, offer the Shares in writing *pro rata* (as nearly as may be) to the holders of Ordinary Shares Such offer shall state

(A) the number of shares offered,

(B) the offer price, if any,

(C) the third party specified in the transfer notice (if any),

(D) that, if such offer is not accepted in writing within one calendar month, it will be deemed to be declined,

(E) that, if there be more than one member other than the proposing transferor and any such member to whom such notice is given desires an allotment of Shares in excess of his proportion, he should in his reply state how many excess Shares he desires to have, and

(F) if all such members do not claim their proportions, the unclaimed Shares shall be used in or towards satisfying the claims in excess in the proportions in which such claims are made If any Shares shall not be capable, without fractions, of being offered to such members in proportion to their existing holdings, the same shall (to the extent that fractions would arise) be offered to such members in such proportions or in such manner as may be determined by lots to be drawn under the direction of the Directors

(iii) Each member who accepts the offer made under paragraph (ii) of this Article may state in his reply that he accepts the offer price, if any If any member accepting the offer states in his reply that he does not accept the offer price or makes no reference to the offer price or if no offer price was stated by the proposing transferor, the Directors, forthwith upon all the members to whom the offer is made under such paragraph (ii) above replying or upon the termination (if earlier) of the period of one calendar month referred to in such paragraph (ii) above, shall instruct a firm of accountants agreed by the members (or in default of agreement appointed by the president for the time being of the Institute of Chartered Accountants of England and Wales) (the **Auditors**) to certify the fair price of the Shares (the **Price**) The fees and expenses of the Auditors shall be paid by all the members in proportion to the numbers of the Shares which they hold

(iv) The Price shall be determined by the Auditors, acting as experts and not as arbitrators without making any allowance or adjustment in respect of the percentage of the issued share capital of the Company represented by the Shares on the basis of

the fair value of the business of the Company as a going concern at the date on which the Auditors are instructed to determine the Price

(v) The proposing transferor shall be bound to transfer to each purchaser of the Shares the number of Shares being purchased by him upon payment by such purchaser to the proposing transferor of the offer price or the Price (as the case may be) which payment shall be made within fourteen days of the acceptance of the offer price or determination of the Price (as the case may be) Interest shall accrue to the transferor on any undue part of the Price to be paid by any purchaser at a rate of 4% over the base rate from time to time of Royal Bank of Scotland plc and at a rate of four per cent over the base rate from time to time of Royal Bank of Scotland plc on any due and unpaid part of the Price due from any purchaser

(vi) If in any case the proposing transferor, after having become bound as aforesaid makes default in transferring any Shares, the Directors may receive the purchase money which shall be paid into a separate bank account and the Directors shall within a reasonable period nominate some person to execute an instrument or instruments of transfer of the relevant Shares in the name and on behalf of the proposing transferor and thereafter, when such instrument or instruments have been duly stamped, the Directors shall cause the name of the relevant purchasing member or members to be entered in the Register as the holder or holders of the relevant shares and shall hold the purchase money in trust for the proposing transferor The receipt of the Directors for the purchase money shall be a good discharge to the relevant purchasing member or members and after his or their names have been entered in the Register in purported exercise of the aforesaid power the validity of the proceedings shall not be questioned by any person

(vii) If the Directors shall not find a member or members willing to purchase all the Shares under the foregoing provisions the proposing transferor shall at any time within 90 days afterwards be at liberty to sell and transfer the Shares or so many of them as the Company shall not have found a purchaser or purchasers for as aforesaid, to the third party named in the transfer notice for a cash price payable prior to transfer and being not less than the offer price (if any) or the Price (if higher) determined in accordance with the foregoing provisions

(viii) The holders of Ordinary Shares may, if they all think fit, agree in writing to waive the provisions of this Article in any particular case

(b) The Directors shall refuse to register any proposed transfer of a share other than a transfer of a share other than a transfer made pursuant to or permitted by paragraphs (a) or (d) of this Article

(c) The Directors may decline to register the transfer of a share on which the Company has a lien

(d) Except as aforesaid, the instrument of transfer of a share shall be signed by or on behalf of the transferor (and in the case of a transfer of a partly paid share also by the transferee) and the transferor shall be deemed to remain the holder of the share until the name of the transferee is entered in the Register in respect thereof All instruments of transfer when registered, shall be retained by the Company

(e) No interest in any share or shares shall be disposed of or created by any means without a transfer of an equivalent number of shares being presented for registration save in

circumstances where a transfer of the share or shares concerned would be permitted under the provisions of paragraph (a) of this Article without the member giving a transfer notice

(f) If at any time or date the holders of 75% of the issued share capital conferring the right to vote at a General Meeting of the Company have agreed to sell their shares to any other person or persons and who are independent purchasers in good faith (the **Buyer**), the Buyer shall have the right at the Buyer's option to purchase the remaining voting shares in the Company on the same terms and conditions (*mutatis mutandis*) as those of the agreed sale and the members hereby waive all of their pre-emption rights whether in the Articles or otherwise in respect of the shares in the Company to be sold to the Buyer pursuant to this Article

TRANSMISSION OF SHARES

8 If a member dies, he shall be deemed to have served a Transfer Notice on such date pursuant to Article 7(a)(i) without specifying any third party

NOTICES OF MEETINGS

9 Every notice calling a general meeting shall comply with the provisions of Section 372(3) of the Act as to giving information to members in regard to their right to appoint proxies

10 In Regulation 32 of Table A the words "ordinary resolution" shall be deemed to be replaced by the words "special resolution"

PROCEEDINGS AT GENERAL MEETINGS

11 All business at a general meeting shall be deemed to be special business and shall be notified in the notice convening the meeting

12 No business shall be transacted at any general meeting (whether or not it shall be adjourned) unless a quorum of members is present at the time the meeting proceeds to business The quorum shall be two

13 A poll may be demanded by any member present in person or by proxy and Regulation 46 of Table A shall be deemed to be modified accordingly

DIRECTORS

14 Unless and until otherwise determined by a special resolution of the Company in general meeting the number of the Directors shall be not more than ten

15 The Directors may be paid all travelling, hotel and other expenses wholly exclusively and necessarily incurred by them in attending and returning from meetings of the Directors or any committee of the Directors or general meetings of the Company or in connection with the business of the Company

16 A Director need not hold any shares of the Company to qualify him as a Director but he shall be entitled to receive notice of and attend and speak at all general meetings of the Company

17 The Directors may, subject to the provisions of Article 18 hereof, exercise all the powers of the Company to borrow and raise money and to mortgage and charge its undertaking, property and uncalled capital or any part thereof, and subject to Section 80 of the Act, to issue debentures,

debenture stock and other securities whether outright or as security for any debt, liability or obligation of the Company or of any third party

18 Except with the prior sanction of the holders of more than 75% of the issued share capital of the Company from time to time the Directors shall procure that the Company shall not and shall use all powers of control exercisable by the Company in relation to its subsidiaries to procure that each of its subsidiaries shall not

(a) sell, transfer or otherwise dispose of the whole of its undertaking, property or (save in the ordinary course of trading) assets or a part thereof being substantial in relation to its total undertaking property and assets,

(b) issue shares, loan stock, debentures or any other form of security of the Company including for this purpose any issue of redeemable shares,

(c) purchase any of its own shares,

(d) incur or agree to incur any capital commitments in excess of £100,000,000 for any one time or in any one calendar year in excess of £100,000,000 in aggregate,

(e) engage or dismiss any person as Director,

(f) engage any person as employee or consultant or agent for a remuneration of more than £10,000,000 per annum or increase or agree to increase by more than £10,000,000 per annum the remuneration payable to any of its Directors, officers, employees, consultants or agents,

(g) dismiss any employee,

(h) establish any profit-sharing bonus or incentive scheme or arrangement nor make any material variation to any such scheme or arrangement as is or may in the future be in force,

(i) enter into any contract or other agreement or arrangements with or in respect of any of its Directors,

(j) purchase or sell, take or let on lease or tenancy or otherwise acquire or dispose of any real or leasehold property for any estate or interest,

(k) institute any litigation save in respect of the debts owing to it in the ordinary course of business,

(l) acquire or dispose or any shares, debentures, debenture stock or other securities in any other company,

(m) mortgage or charge the whole or part of its undertaking assets property or uncalled capital, and

(n) allow the aggregate of the amounts borrowed and raised by the Company and its subsidiaries to exceed £1,000,000,000

19 In Regulation 81(a) of Table A the words "he ceases to be a director by virtue of any provision of the Act or" shall be deemed to be deleted

20 A Director who pursuant to Regulations 85 and 86 of Table A has declared at a meeting of the Directors the nature of his interest in a contract, proposed contract or arrangements with the

Company shall be entitled to vote in respect of that contract, proposed contract, or arrangements, or upon any matter arising thereout and if he shall do so his vote shall be counted, and he may be taken into account in ascertaining whether or not a quorum is present at the meeting of the Directors or the committee at which the vote is taken

21 (a) The quorum necessary for the transaction of the business of the Directors shall be one Director

(b) The Directors shall have power to appoint a committee for such period and for such purposes and on such terms as they shall decide Subject thereto a committee may meet and adjourn as it thinks proper

22 In Regulation 88 of Table A the words "It shall not be necessary to give notice of a meeting to a director who is absent from the United Kingdom" shall be deemed to be deleted

23 The Chairman of a meeting of the Directors or of a committee of the Directors shall be elected by all the Directors (and/or their alternates) present at the meeting

24 Not less than fourteen days' notice of meetings of the Directors shall be given to each of the Directors at their address in the United Kingdom whether present in the United Kingdom or not and Regulation 88 of Table A shall be deemed to be modified accordingly

25 Notice of a meeting of the Directors shall include an agenda specifying in reasonable detail the matters to be discussed at the meeting No business which is not within the direct scope of the agenda shall be put to the vote at such meeting unless all the Directors present otherwise agree

26 No person shall be or become incapable of being appointed a Director by reason of his having attained the age of seventy or any other age nor shall any special notice be required in connection with the appointment or the approval of the appointment of such person, and no Director shall vacate his office at any time by reason of the fact that he has attained the age of seventy or any other age

27 The Directors may grant retirement pensions or annuities or other allowances including allowances on death, to any person or to the widow or widower or dependants of any person, in respect of services rendered by him to the Company as Director or in any other executive office or employment under the Company or indirectly as an executive officer or employee of any subsidiary company of the Company or of its holding company (if any) notwithstanding that he may be or may have been a Director of the Company and may make payments towards insurances or trusts for such purposes in respect of such persons and may include rights in respect of such pensions, annuities and allowances in the terms of engagement of any such person

28 (a) The Directors may from time to time appoint one or more of their body to hold any executive office in the management of the business of the Company including the office of Managing Director, for such fixed term or without limitation as to period and on such terms as they think fit and (subject to the provisions of any agreement entered into any particular case and without prejudice to any claim for damages he may have for breach of any such agreement) may remove or dismiss him or them from such office and appoint another or others in his or their place or places A person so appointed shall (subject to the provisions of Article 31(b) and without prejudice to any claim for damages for breach of any agreement between him and the Company) be subject to the same provisions as to removal and as to vacation of office as the other Directors of the Company and if he ceases to hold the office of Director from any cause he shall (without prejudice as aforesaid) *ipso facto* and immediately cease to hold such executive office

(b) A Director holding such executive office for a fixed period shall not be entitled to resign as a Director of the Company during that period and Regulation 81(d) of Table A shall be deemed to be modified accordingly

NOTICES

29 The third sentence of Regulation 112 of Table A shall be deemed to be deleted

INDEMNITY

30 (a) Every Director or other officer of the Company shall be indemnified out of the assets of the Company against all losses or liabilities which in such capacity he may sustain or incur in or about the execution of the duties of his office or otherwise in relation thereto, including any liability incurred by him in defending any proceedings, whether civil or criminal, in which judgment is given in his favour or in which he is acquitted or in connection with any application under Section 727 of the Act, in which relief is granted to him by the Court, and no Director or other officer shall be liable for any loss, damage or misfortune which may happen to or be incurred by the Company in the execution of the duties of his office or in relation thereto Provided that this Article shall only have effect in so far as its provisions are not avoided by Section 310 of the Act

(b) The Directors shall have power to purchase and maintain for any Director, officer or auditor insurance against any such liability as is referred to in Section 310(1) of the Act

WINDING UP

31 In a winding up the liquidator may, with the sanction of an extraordinary resolution, distribute all or any of the assets *in specie* among the holders in such proportions and manner as may be determined by such resolution, provided always that if any such distribution is proposed to be made otherwise than in accordance with the existing rights of the members, every member shall have the same right of dissent and other ancillary rights as if such resolution were a special resolution passed pursuant to Section 582 of the Act

THE COMPANIES ACTS 1985 to 1989

PUBLIC COMPANY LIMITED BY SHARES

ARTICLES OF ASSOCIATION

OF

COPPEREAGLE PUBLIC LIMITED COMPANY

1. PRELIMINARY

1 1 The regulations contained in Table A in the Schedule to the Companies (Tables A to F) Regulations 1985 (SI 1985 No 805) as amended by the Companies (Tables A to F) (Amendment) Regulations 1985 (SI 1985 No 1052) and as further amended by The Companies Act 1985 (Electronic Communications) Order 2000 (SI 2000 No 3373) (such Table being hereinafter called "Table A") shall apply to the Company save in so far as they are excluded or varied hereby and such regulations (save as so excluded or varied) and the Articles hereinafter contained shall be the Articles of Association of the Company

1 2 In these Articles the following expressions bear the following meanings -

"Act" means the Companies Act 1985, but so that any reference in these Articles to any provision of the Act shall be deemed to include a reference to any statutory modification or re-enactment of that provision for the time being in force, and

"holder" means in relation to shares the member whose name is entered in the register of members as the holder of the shares

2. SHARE CAPITAL

2 1 The share capital of the Company is £100,000 divided into 50,002 ordinary shares of £1 each and 49,998 non-voting, non-dividend bearing redeemable preference shares of £1 each (**"Redeemable Preference Shares"**)

2 2 The holders of the Redeemable Preference Shares shall not be entitled to receive a dividend.

2 3 On a distribution of assets of the Company among its members on a winding up or other return of capital (other than a redemption or purchase by the Company of its own shares), the holders of the Redeemable Preference Shares shall be entitled, in priority to any holder

of any other class of shares, to receive an amount equal to the aggregate of the capital paid up on each Redeemable Preference Share

2 4 Subject to Article 2 3, the holders of the Redeemable Preference Shares shall not be entitled to participate in the profits or assets of the Company

2 5 A holder of Redeemable Preference Shares shall be entitled to receive notice of and to attend any general meeting of the Company but shall not have the right to vote in respect of its holding of Redeemable Preference Shares unless

2 5 1 it is proposed at the meeting to consider any resolution approving the purchase by the Company of its own shares, a reduction in the capital of, or the winding up of the Company, in which case holders of the Redeemable Preference Shares shall be entitled to attend such a meeting and to speak and vote only on such resolution or any motion for adjournment of the meeting before such resolution is voted on, or

2 5 2 it is proposed at the meeting to consider any resolution which abrogates or varies the rights and privileges attaching to the Redeemable Preference Shares, in which case holders of Redeemable Preference Shares shall have the right to attend such a meeting and to speak and vote only on such resolution or any motion for adjournment of the meeting before such resolution is voted on

2 6 If entitled to vote at a general meeting of the Company, every holder of Redeemable Preference Shares present in person or by proxy (or, being a corporation, by a duly authorised representative) shall have one vote for every Redeemable Preference Share held by such member

2 7 Notwithstanding the rights of the holders of Redeemable Preference Shares under Article 2 5, the written consent of the holders of three-quarters in nominal value of the issued Redeemable Preference Shares or the sanction of an extraordinary resolution passed at a separate general meeting of the holders of the Redeemable Preference Shares is required if the rights and privileges attaching to the Redeemable Preference Shares are to be varied or abrogated in any way

2 8 All the provisions of the Articles relating to general meetings of the Company shall apply mutatis mutandis to every general meeting of the holders of the Redeemable Preference Shares

2 9 Subject to the Act and without prejudice to Article 2 10, the Redeemable Preference Shares shall be redeemed automatically upon admission of any of the Company's ordinary share capital to the Official List of the UK Listing Authority and the redemption money in respect of such Redeemable Preference Shares shall be paid by the Company to the registered holders of the Redeemable Preference Shares

2 10 Subject to the Act, the Company shall have the right at any time, with or without prior notice to the holders of the Redeemable Preference Shares, to redeem any Redeemable Preference Shares (provided that they are fully paid and that they represent the total number of Redeemable Preference Shares held by that member)

2 11 No Redeemable Preference Shares redeemed by the Company shall be capable of being reissued

2 12 In the event of any inconsistency between Articles 2 1 to 2.11 and any other provision of these Articles, the provisions of Articles 2 1 to 2 11 shall prevail

3. ALLOTMENT OF SHARES

3 1 Shares which are comprised in the authorised but unissued share capital of the Company shall be under the control of the directors who may (subject to sections 80 and 89 of the Act and to articles 3 2 and 3 3 below) allot, grant options over or otherwise dispose of the same, to such persons, on such terms and in such manner as they think fit

3 2 The directors are generally and unconditionally authorised for the purposes of section 80 of the Act to exercise any power of the Company to allot and grant rights to subscribe for or convert securities into shares of the Company up to the amount of the authorised share capital with which the Company is incorporated at any time or times during the period of five years from the date of incorporation and the directors may, after that period, allot any shares or grant any such rights under this authority in pursuance of an offer or agreement so to do made by the Company within that period The authority hereby given may at any time (subject to the said section 80) be renewed, revoked or varied by ordinary resolution

3 3 The directors are empowered to allot and grant rights to subscribe for or convert securities into shares of the Company pursuant to the authority conferred under article 3 2 above as if section 89(1) of the Act did not apply This power shall enable the directors so to allot and grant rights to subscribe for or convert securities into shares of the Company after its expiry in pursuance of an offer or agreement so to do made by the Company before its expiry

3 4 Save as authorised by the Act, the Company shall not give, whether directly or indirectly, any financial assistance for the acquisition of shares or other securities of the Company or of its holding company (as defined by section 736 of the Act)

3 5 Save as permitted by section 101(2) of the Act, no shares of the Company shall be allotted except as paid up at least as to one quarter of their nominal value and the whole of any premium

4. SHARES

The liability of any member in default in respect of a call shall be increased by the addition at the end of the first sentence of regulation 18 in Table A of the words "and all expenses that may have been incurred by the Company by reason of such non-payment"

5. GENERAL MEETINGS AND RESOLUTIONS

5 1 Every notice convening a general meeting shall comply with the provisions of section 372(3) of the Act as to giving information to members in regard to their right to appoint proxies, and notices of and other communications relating to any general meeting which any member is entitled to receive shall be sent to the directors and to the auditors for the time being of the Company

5 2 If a quorum is not present within half an hour from the time appointed for a general meeting the general meeting shall stand adjourned to the same day in the next week at the same time and place or to such other day and at such other time and place as the directors

may determine; and if at the adjourned general meeting a quorum is not present within half an hour from the time appointed therefor such adjourned general meeting shall be dissolved

5 3 Regulation 41 in Table A shall not apply to the Company

5 4 Resolutions under section 303 of the Act for the removal of a director before the expiration of his period of office and under section 391 of the Act for the removal of an auditor before the expiration of his period of office shall only be considered by the Company in general meeting Regulation 53 in Table A shall be read and construed accordingly

5 5 A member present at a meeting by proxy shall be entitled to speak at the meeting and shall be entitled to one vote on a show of hands In any case where the same person is appointed proxy for more than one member he shall on a show of hands have as many votes as the number of members for whom he is proxy Regulation 54 in Table A shall be modified accordingly

5 6 Unless resolved by ordinary resolution that regulation 62 in Table A shall apply without modification, the appointment of a proxy and any authority under which the proxy is appointed or a copy of such authority certified notarially or in some other way approved by the directors may be deposited or received at the place specified in regulation 62 in Table A up to the commencement of the meeting or (in any case where a poll is taken otherwise than at the meeting) of the taking of the poll or may be handed to the chairman of the meeting prior to the commencement of the business of the meeting

6. APPOINTMENT OF DIRECTORS

6 1 Regulation 64 in Table A shall not apply to the Company

6 2 The maximum number and minimum number respectively of the directors may be determined from time to time by ordinary resolution Subject to and in default of any such determination there shall be no maximum number of directors and the minimum number of directors shall be two

6 3 The directors shall not be required to retire by rotation and regulations 73 to 80 (inclusive) in Table A shall not apply to the Company

6 4 No person shall be appointed a director at any general meeting unless either

6 4 1 he is recommended by the directors, or

6 4 2 not less than 14 nor more than 35 clear days before the date appointed for the general meeting, notice signed by a member qualified to vote at the general meeting has been given to the Company of the intention to propose that person for appointment, together with notice signed by that person of his willingness to be appointed

6 5 Subject to article 6 4 above, the Company may by ordinary resolution appoint any person who is willing to act to be a director, either to fill a vacancy or as an additional director

6 6 The directors may appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, provided that the appointment does not cause the number of directors to exceed any number determined in accordance with article 6 2 above as the maximum number of directors and for the time being in force

7. BORROWING POWERS

The directors may exercise all the powers of the Company to borrow money without limit as to amount and upon such terms and in such manner as they think fit, and subject (in the case of any security convertible into shares) to section 80 of the Act to grant any mortgage, charge or standard security over its undertaking, property and uncalled capital, or any part thereof, and to issue debentures, debenture stock, and other securities whether outright or as security for any debt, liability or obligation of the Company or of any third party

8. ALTERNATE DIRECTORS

8 1 Unless otherwise determined by the Company in general meeting by ordinary resolution an alternate director shall not be entitled as such to receive any remuneration from the Company, save that he may be paid by the Company such part (if any) of the remuneration otherwise payable to his appointor as such appointor may by notice in writing to the Company from time to time direct, and the first sentence of regulation 66 in Table A shall be modified accordingly

8 2 A director, or any such other person as is mentioned in regulation 65 in Table A, may act as an alternate director to represent more than one director, and an alternate director shall be entitled at any meeting of the directors or of any committee of the directors to one vote for every director whom he represents in addition to his own vote (if any) as a director, but he shall count as only one for the purpose of determining whether a quorum is present

9. GRATUITIES AND PENSIONS

9 1 The directors may exercise the powers of the Company conferred by its Memorandum of Association in relation to the payment of pensions, gratuities and other benefits and shall be entitled to retain any benefits received by them or any of them by reason of the exercise of any such powers

9 2 Regulation 87 in Table A shall not apply to the Company

10. PROCEEDINGS OF DIRECTORS

10 1 A director may vote, at any meeting of the directors or of any committee of the directors, on any resolution, notwithstanding that it in any way concerns or relates to a matter in which he has, directly or indirectly, any kind of interest whatsoever, and if he shall vote on any such resolution his vote shall be counted, and in relation to any such resolution as aforesaid he shall (whether or not he shall vote on the same) be taken into account in calculating the quorum present at the meeting

10 2 Each director shall comply with his obligations to disclose his interest in contracts under section 317 of the Act

10 3 Regulations 94 to 97 (inclusive) in Table A shall not apply to the Company

11. THE SEAL

11 1 If the Company has a seal it shall only be used with the authority of the directors or of a committee of directors The directors may determine who shall sign any instrument to which the seal is affixed and unless otherwise so determined it shall be signed by a director

and by the secretary or second director The obligation under regulation 6 in Table A relating to the sealing of share certificates shall apply only if the Company has a seal Regulation 101 in Table A shall not apply to the Company

11 2 The Company may exercise the powers conferred by section 39 of the Act with regard to having an official seal for use abroad, and such powers shall be vested in the directors

12. PROTECTION FROM LIABILITY

For the purposes of this article a "Liability" is any liability incurred by a person in connection with any negligence, default, breach of duty or breach of trust by him in relation to the Company or otherwise in connection with his duties, powers or office and "Associated Company" shall bear the meaning referred to in section 309A(6) of the Act Subject to the provisions of the Act and without prejudice to any protection from liability which may otherwise apply

12 1 the directors shall have power to purchase and maintain for any director of the Company, any director of an Associated Company, any auditor of the Company and any officer of the Company (not being a director or auditor of the Company), insurance against any Liability,

12 2 every director or auditor of the Company and every officer of the Company (not being a director or auditor of the Company) shall be indemnified out of the assets of the Company against any loss or liability incurred by him in defending any proceedings in which judgment is given in his favour or in which he is acquitted or in connection with any application in which relief is granted to him by the court from any Liability, and

12 3 regulation 118 in Table A shall not apply to the Company

THE COMPANIES ACTS 1985 to 1989

PUBLIC COMPANY LIMITED BY SHARES

ARTICLES OF ASSOCIATION

OF

COPPEREAGLE PUBLIC LIMITED COMPANY

1. PRELIMINARY

1 1 The regulations contained in Table A in the Schedule to the Companies (Tables A to F) Regulations 1985 (SI 1985 No 805) as amended by the Companies (Tables A to F) (Amendment) Regulations 1985 (SI 1985 No 1052) and as further amended by The Companies Act 1985 (Electronic Communications) Order 2000 (SI 2000 No 3373) (such Table being hereinafter called "Table A") shall apply to the Company save in so far as they are excluded or varied hereby and such regulations (save as so excluded or varied) and the Articles hereinafter contained shall be the Articles of Association of the Company

1 2 In these Articles the following expressions bear the following meanings -

"Act" means the Companies Act 1985, but so that any reference in these Articles to any provision of the Act shall be deemed to include a reference to any statutory modification or re-enactment of that provision for the time being in force, and

"holder" means in relation to shares the member whose name is entered in the register of members as the holder of the shares

2. SHARE CAPITAL

2 1 The share capital of the Company is £100,000 divided into 50,002 ordinary shares of £1 each and 49,998 non-voting, non-dividend bearing redeemable preference shares of £1 each (**"Redeemable Preference Shares"**)

2 2 The holders of the Redeemable Preference Shares shall not be entitled to receive a dividend

2 3 On a distribution of assets of the Company among its members on a winding up or other return of capital (other than a redemption or purchase by the Company of its own shares), the holders of the Redeemable Preference Shares shall be entitled, in priority to any holder

of any other class of shares, to receive an amount equal to the aggregate of the capital paid up on each Redeemable Preference Share

2 4 Subject to Article 2 3, the holders of the Redeemable Preference Shares shall not be entitled to participate in the profits or assets of the Company

2 5 A holder of Redeemable Preference Shares shall be entitled to receive notice of and to attend any general meeting of the Company but shall not have the right to vote in respect of its holding of Redeemable Preference Shares unless

2 5 1 it is proposed at the meeting to consider any resolution approving the purchase by the Company of its own shares, a reduction in the capital of, or the winding up of the Company, in which case holders of the Redeemable Preference Shares shall be entitled to attend such a meeting and to speak and vote only on such resolution or any motion for adjournment of the meeting before such resolution is voted on, or

2 5 2 it is proposed at the meeting to consider any resolution which abrogates or varies the rights and privileges attaching to the Redeemable Preference Shares, in which case holders of Redeemable Preference Shares shall have the right to attend such a meeting and to speak and vote only on such resolution or any motion for adjournment of the meeting before such resolution is voted on

2 6 If entitled to vote at a general meeting of the Company, every holder of Redeemable Preference Shares present in person or by proxy (or, being a corporation, by a duly authorised representative) shall have one vote for every Redeemable Preference Share held by such member

2 7 Notwithstanding the rights of the holders of Redeemable Preference Shares under Article 2 5, the written consent of the holders of three-quarters in nominal value of the issued Redeemable Preference Shares or the sanction of an extraordinary resolution passed at a separate general meeting of the holders of the Redeemable Preference Shares is required if the rights and privileges attaching to the Redeemable Preference Shares are to be varied or abrogated in any way

2 8 All the provisions of the Articles relating to general meetings of the Company shall apply mutatis mutandis to every general meeting of the holders of the Redeemable Preference Shares

2 9 Subject to the Act and without prejudice to Article 2 10, the Redeemable Preference Shares shall be redeemed automatically upon admission of any of the Company's ordinary share capital to the Official List of the UK Listing Authority and the redemption money in respect of such Redeemable Preference Shares shall be paid by the Company to the registered holders of the Redeemable Preference Shares

2 10 Subject to the Act, the Company shall have the right at any time, with or without prior notice to the holders of the Redeemable Preference Shares, to redeem any Redeemable Preference Shares (provided that they are fully paid and that they represent the total number of Redeemable Preference Shares held by that member)

2 11 No Redeemable Preference Shares redeemed by the Company shall be capable of being reissued

2 12 In the event of any inconsistency between Articles 2 1 to 2 11 and any other provision of these Articles, the provisions of Articles 2 1 to 2 11 shall prevail

3. ALLOTMENT OF SHARES

3 1 Shares which are comprised in the authorised but unissued share capital of the Company shall be under the control of the directors who may (subject to sections 80 and 89 of the Act and to articles 3 2 and 3 3 below) allot, grant options over or otherwise dispose of the same, to such persons, on such terms and in such manner as they think fit

3 2 The directors are generally and unconditionally authorised for the purposes of section 80 of the Act to exercise any power of the Company to allot and grant rights to subscribe for or convert securities into shares of the Company up to the amount of the authorised share capital with which the Company is incorporated at any time or times during the period of five years from the date of incorporation and the directors may, after that period, allot any shares or grant any such rights under this authority in pursuance of an offer or agreement so to do made by the Company within that period The authority hereby given may at any time (subject to the said section 80) be renewed, revoked or varied by ordinary resolution

3 3 The directors are empowered to allot and grant rights to subscribe for or convert securities into shares of the Company pursuant to the authority conferred under article 3 2 above as if section 89(1) of the Act did not apply This power shall enable the directors so to allot and grant rights to subscribe for or convert securities into shares of the Company after its expiry in pursuance of an offer or agreement so to do made by the Company before its expiry

3 4 Save as authorised by the Act, the Company shall not give, whether directly or indirectly, any financial assistance for the acquisition of shares or other securities of the Company or of its holding company (as defined by section 736 of the Act)

3 5 Save as permitted by section 101(2) of the Act, no shares of the Company shall be allotted except as paid up at least as to one quarter of their nominal value and the whole of any premium

4. SHARES

The liability of any member in default in respect of a call shall be increased by the addition at the end of the first sentence of regulation 18 in Table A of the words "and all expenses that may have been incurred by the Company by reason of such non-payment"

5. GENERAL MEETINGS AND RESOLUTIONS

5 1 Every notice convening a general meeting shall comply with the provisions of section 372(3) of the Act as to giving information to members in regard to their right to appoint proxies, and notices of and other communications relating to any general meeting which any member is entitled to receive shall be sent to the directors and to the auditors for the time being of the Company

5 2 If a quorum is not present within half an hour from the time appointed for a general meeting the general meeting shall stand adjourned to the same day in the next week at the same time and place or to such other day and at such other time and place as the directors

may determine, and if at the adjourned general meeting a quorum is not present within half an hour from the time appointed therefor such adjourned general meeting shall be dissolved

5 3 Regulation 41 in Table A shall not apply to the Company

5 4 Resolutions under section 303 of the Act for the removal of a director before the expiration of his period of office and under section 391 of the Act for the removal of an auditor before the expiration of his period of office shall only be considered by the Company in general meeting Regulation 53 in Table A shall be read and construed accordingly

5 5 A member present at a meeting by proxy shall be entitled to speak at the meeting and shall be entitled to one vote on a show of hands In any case where the same person is appointed proxy for more than one member he shall on a show of hands have as many votes as the number of members for whom he is proxy Regulation 54 in Table A shall be modified accordingly

5 6 Unless resolved by ordinary resolution that regulation 62 in Table A shall apply without modification, the appointment of a proxy and any authority under which the proxy is appointed or a copy of such authority certified notarially or in some other way approved by the directors may be deposited or received at the place specified in regulation 62 in Table A up to the commencement of the meeting or (in any case where a poll is taken otherwise than at the meeting) of the taking of the poll or may be handed to the chairman of the meeting prior to the commencement of the business of the meeting

6. APPOINTMENT OF DIRECTORS

6 1 Regulation 64 in Table A shall not apply to the Company

6 2 The maximum number and minimum number respectively of the directors may be determined from time to time by ordinary resolution Subject to and in default of any such determination there shall be no maximum number of directors and the minimum number of directors shall be two

6 3 The directors shall not be required to retire by rotation and regulations 73 to 80 (inclusive) in Table A shall not apply to the Company

6 4 No person shall be appointed a director at any general meeting unless either

6 4 1 he is recommended by the directors, or

6 4 2 not less than 14 nor more than 35 clear days before the date appointed for the general meeting, notice signed by a member qualified to vote at the general meeting has been given to the Company of the intention to propose that person for appointment, together with notice signed by that person of his willingness to be appointed

6 5 Subject to article 6 4 above, the Company may by ordinary resolution appoint any person who is willing to act to be a director, either to fill a vacancy or as an additional director

6 6 The directors may appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, provided that the appointment does not cause the number of directors to exceed any number determined in accordance with article 6 2 above as the maximum number of directors and for the time being in force

7. BORROWING POWERS

The directors may exercise all the powers of the Company to borrow money without limit as to amount and upon such terms and in such manner as they think fit, and subject (in the case of any security convertible into shares) to section 80 of the Act to grant any mortgage, charge or standard security over its undertaking, property and uncalled capital, or any part thereof, and to issue debentures, debenture stock, and other securities whether outright or as security for any debt, liability or obligation of the Company or of any third party

8. ALTERNATE DIRECTORS

8 1 Unless otherwise determined by the Company in general meeting by ordinary resolution an alternate director shall not be entitled as such to receive any remuneration from the Company, save that he may be paid by the Company such part (if any) of the remuneration otherwise payable to his appointor as such appointor may by notice in writing to the Company from time to time direct, and the first sentence of regulation 66 in Table A shall be modified accordingly

8 2 A director, or any such other person as is mentioned in regulation 65 in Table A, may act as an alternate director to represent more than one director, and an alternate director shall be entitled at any meeting of the directors or of any committee of the directors to one vote for every director whom he represents in addition to his own vote (if any) as a director, but he shall count as only one for the purpose of determining whether a quorum is present

9. GRATUITIES AND PENSIONS

9 1 The directors may exercise the powers of the Company conferred by its Memorandum of Association in relation to the payment of pensions, gratuities and other benefits and shall be entitled to retain any benefits received by them or any of them by reason of the exercise of any such powers

9 2 Regulation 87 in Table A shall not apply to the Company

10. PROCEEDINGS OF DIRECTORS

10 1 A director may vote, at any meeting of the directors or of any committee of the directors, on any resolution, notwithstanding that it in any way concerns or relates to a matter in which he has, directly or indirectly, any kind of interest whatsoever, and if he shall vote on any such resolution his vote shall be counted, and in relation to any such resolution as aforesaid he shall (whether or not he shall vote on the same) be taken into account in calculating the quorum present at the meeting

10 2 Each director shall comply with his obligations to disclose his interest in contracts under section 317 of the Act

10 3 Regulations 94 to 97 (inclusive) in Table A shall not apply to the Company

11. THE SEAL

11 1 If the Company has a seal it shall only be used with the authority of the directors or of a committee of directors The directors may determine who shall sign any instrument to which the seal is affixed and unless otherwise so determined it shall be signed by a director

and by the secretary or second director The obligation under regulation 6 in Table A relating to the sealing of share certificates shall apply only if the Company has a seal Regulation 101 in Table A shall not apply to the Company

11 2 The Company may exercise the powers conferred by section 39 of the Act with regard to having an official seal for use abroad, and such powers shall be vested in the directors

12. PROTECTION FROM LIABILITY

For the purposes of this article a "Liability" is any liability incurred by a person in connection with any negligence, default, breach of duty or breach of trust by him in relation to the Company or otherwise in connection with his duties, powers or office and "Associated Company" shall bear the meaning referred to in section 309A(6) of the Act Subject to the provisions of the Act and without prejudice to any protection from liability which may otherwise apply

12 1 the directors shall have power to purchase and maintain for any director of the Company, any director of an Associated Company, any auditor of the Company and any officer of the Company (not being a director or auditor of the Company), insurance against any Liability;

12 2 every director or auditor of the Company and every officer of the Company (not being a director or auditor of the Company) shall be indemnified out of the assets of the Company against any loss or liability incurred by him in defending any proceedings in which judgment is given in his favour or in which he is acquitted or in connection with any application in which relief is granted to him by the court from any Liability, and

12 3 regulation 118 in Table A shall not apply to the Company

† Other directorships please see continuation sheet 1-5

NOTES

Show the full forenames, NOT INITIALS. If the director or secretary is a corporation or Scottish firm, show the name on surname line and registered or principal office on the usual residential line.

Give previous forenames or surname(s) except:
- for a married woman, the name by which she was known before marriage need not be given.
- for names not used since the age of 18 or for at least 20 years

A peer or individual known by a title may state the title instead of or in addition to the forenames and surname and need not give the name by which that person was known before he or she adopted the title or succeeded to it.

Other directorships.

Give the name of every company incorporated in Great Britain of which the person concerned is a director or has been a director at any time in the past five years.

You may exclude a company which either is, or at all times during the past five years when the person concerned was a director, was
- dormant
- a parent company which wholly owned the company making the return, or
- another wholly owned subsidiary of the same parent company.

PUBLIC COMPANY LIMITED BY SHARES

MEMORANDUM OF ASSOCIATION OF

COPPEREAGLE PUBLIC LIMITED COMPANY

1. The Company's name is "COPPEREAGLE PUBLIC LIMITED COMPANY".

2. The Company is to be a public company.

3. The Company's registered office is to be situated in England and Wales.

4.1 The object of the Company is to carry on business as a general commercial company.

4.2 Without prejudice to the generality of the object and the powers of the Company derived from section 3A of the Act the Company has power to do all or any of the following things:-

4.2.1 To purchase or by any other means acquire and take options over any property whatever, and any rights or privileges of any kind over or in respect of any property.

4.2.2 To apply for, register, purchase, or by other means acquire and protect, prolong and renew, whether in the United Kingdom or elsewhere, any trade marks, patents, copyrights, trade secrets, or other intellectual property rights, licences, secret processes, designs, protections and concessions and to disclaim, alter, modify, use and turn to account and to manufacture under or grant licences or privileges in respect of the same, and to expend money in experimenting upon, testing and improving any patents, inventions or rights which the Company may acquire or propose to acquire.

4.2.3 To acquire or undertake the whole or any part of the business, goodwill, and assets of any person, firm, or company carrying on or proposing to carry on any of the businesses which the Company is authorised to carry on and as part of the consideration for such acquisition to undertake all or any of the liabilities of such person, firm or company, or to acquire an interest in, amalgamate with, or enter into partnership or into any arrangement for sharing profits, or for co-operation, or for mutual assistance with any such person, firm or company, or for subsidising or otherwise assisting any such person, firm or company, and to give or accept, by way of consideration for any of the acts or things aforesaid or property acquired, any shares, debentures, debenture stock or securities that may be agreed upon, and to hold and retain, or sell, mortgage and deal with any shares, debentures, debenture stock or securities so received.

4.2.4 To improve, manage, construct, repair, develop, exchange, let on lease or otherwise, mortgage, charge, sell, dispose of, turn to account, grant licences, options, rights and privileges in respect of, or otherwise deal with all or any part of the property and rights of the Company.

4.2.5 To invest and deal with the moneys of the Company not immediately required in such manner as may from time to time be determined and to hold or otherwise deal with any investments made.

4.2.6 To lend and advance money or give credit on any terms and with or without security to any person, firm or company (including without prejudice to the generality of the foregoing any holding company, subsidiary or fellow subsidiary of, or any other company associated in any way with, the Company), to enter into guarantees, contracts of indemnity and suretyships of all kinds, to receive money on deposit or loan upon any terms, and to secure or guarantee in any manner and upon any terms the payment of any sum of money or the performance of any obligation by any person, firm or company (including without prejudice to the generality of the foregoing any such holding company, subsidiary, fellow subsidiary or associated company as aforesaid).

4.2.7 To borrow and raise money in any manner and to secure the repayment of any money borrowed, raised or owing by mortgage, charge, standard security, lien or other security upon the whole or any part of the Company's property or assets (whether present or future), including its uncalled capital, and also by a similar mortgage, charge, standard security, lien or security to secure and guarantee the performance by the Company of any obligation or liability it may undertake or which may become binding on it.

4.2.8 To draw, make, accept, endorse, discount, negotiate, execute and issue cheques, bills of exchange, promissory notes, bills of lading, warrants, debentures, and other negotiable or transferable instruments.

4.2.9 To apply for, promote, and obtain any Act of Parliament, order, or licence of the Department of Trade or other authority for enabling the Company to carry any of its objects into effect, or for effecting any modification of the Company's constitution, or for any other purpose which may seem calculated directly or indirectly to promote the Company's interests, and to oppose any proceedings or applications which may seem calculated directly or indirectly to prejudice the Company's interests.

4.2.10 To enter into any arrangements with any government or authority (supreme, municipal, local, or otherwise) that may seem conducive to the attainment of the Company's objects or any of them, and to obtain from any such government or authority any charters, decrees, rights, privileges or concessions which the Company may think desirable and to carry out, exercise, and comply with any such charters, decrees, rights, privileges, and concessions.

4.2.11 To subscribe for, take, purchase, or otherwise acquire, hold, sell, deal with and dispose of, place and underwrite shares, stocks, debentures, debenture stocks, bonds, obligations or securities issued or guaranteed by any other company constituted or carrying on business in any part of the world, and debentures, debenture stocks, bonds, obligations or securities issued or guaranteed by any government or authority, municipal, local or otherwise, in any part of the world.

4.2.12 To control, manage, finance, subsidise, co-ordinate or otherwise assist any company or companies in which the Company has a direct or indirect financial interest, to provide secretarial, administrative, technical, commercial and other services and facilities of all kinds for any such company or companies and to make payments by way of subvention or otherwise and any other arrangements which may seem desirable with respect to any business or operations of or generally with respect to any such company or companies.

4.2.13 To promote any other company for the purpose of acquiring the whole or any part of the business or property or undertaking or any of the liabilities of the Company, or of undertaking any business or operations which may appear likely to assist or benefit the Company or to enhance the value of any property or business of the Company, and to place or guarantee the placing of, underwrite, subscribe for, or otherwise acquire all or any part of the shares or securities of any such company as aforesaid.

4.2.14 To sell or otherwise dispose of the whole or any part of the business or property of the Company, either together or in portions, for such consideration as the Company may think fit, and in particular for shares, debentures, or securities of any company purchasing the same.

4.2.15 To act as agents or brokers and as trustees for any person, firm or company, and to undertake and perform sub-contracts.

4.2.16 To remunerate any person, firm or company rendering services to the Company either by cash payment or by the allotment of shares or other securities of the Company credited as paid up in full or in part or otherwise as may be thought expedient.

4.2.17 To distribute among the members of the Company in kind any property of the Company of whatever nature.

4.2.18 To pay all or any expenses incurred in connection with the promotion, formation and incorporation of the Company, or to contract with any person, firm or company to pay the same, and to pay commissions to brokers and others for underwriting, placing, selling, or guaranteeing the subscription of any shares or other securities of the Company.

4.2.19 To support and subscribe to any charitable or public object and to support and subscribe to any institution, society, or club which may be for the benefit of the Company or its directors or employees, or may be connected with any town or place where the Company carries on business; to give or award pensions, annuities, gratuities, and superannuation or other allowances or benefits or charitable aid and generally to provide advantages, facilities and services for any persons who are or have been directors of, or who are or have been employed by, or who are serving or have served the Company, or any company which is a subsidiary of the Company or the holding company of the Company or a fellow subsidiary of the Company or the predecessors in business of the Company or of any such subsidiary, holding or fellow subsidiary company and to the wives, widows, children and other relatives and dependants of such persons; to make payments towards insurance including insurance for any director, officer or auditor against any liability in respect of any negligence, default, breach of duty or breach of trust (so far as permitted by law); and to set up, establish, support and maintain superannuation and other funds or schemes (whether contributory or non-contributory) for the benefit of any of such persons and of their wives, widows, children and other relatives and dependants; and to set up, establish, support and maintain profit sharing or share purchase schemes for the benefit of any of the employees of the Company or of any such subsidiary, holding or fellow subsidiary company and to lend money to any such employees or to trustees on their behalf to enable any such schemes to be established or maintained.

4.2.20 Subject to and in accordance with the provisions of the Act (if and so far as such provisions shall be applicable) to give, directly or indirectly, financial assistance for the acquisition of shares or other securities of the Company or of any other company or for the reduction or discharge of any liability incurred in respect of such acquisition.

4.2.21 To procure the Company to be registered or recognised in any part of the world.

4.2.22 To do all or any of the things or matters aforesaid in any part of the world and either as principals, agents, contractors or otherwise, and by or through agents, brokers, sub-contractors or otherwise and either alone or in conjunction with others.

4.2.23 To do all such other things as may be deemed incidental or conducive to the attainment of the Company's objects or any of them.

4.2.24 AND so that:-

4.2.24.1 None of the provisions set forth in any sub-clause of this clause shall be restrictively construed but the widest interpretation shall be given to each such provision, and none of such provisions shall, except where the context expressly so requires, be in any way limited or restricted by reference to or inference from any other provision set forth in such sub-clause, or by reference to or inference from the terms of any other sub-clause of this clause, or by reference to or inference from the name of the Company.

4.2.24.2 The word "company" in this clause, except where used in reference to the Company, shall be deemed to include any partnership or other body of persons, whether incorporated or unincorporated and whether domiciled in the United Kingdom or elsewhere.

4.2.24.3 In this clause the expression "the Act" means the Companies Act 1985, but so that any reference in this clause to any provision of the Act shall be deemed to include a reference to any statutory modification or re-enactment of that provision for the time being in force.

5. The liability of the members is limited.

6. The Company's share capital is £100,000 divided into 100,000 shares of £1 each.

We, the subscribers to this Memorandum of Association, wish to be formed into a Company pursuant to this Memorandum; and we agree to take the number of shares shown opposite our respective names.

THE COMPANIES ACTS 1985 to 1989

PUBLIC COMPANY LIMITED BY SHARES

ARTICLES OF ASSOCIATION OF

COPPEREAGLE PUBLIC LIMITED COMPANY

1. PRELIMINARY

1.1 The regulations contained in Table A in the Schedule to the Companies (Tables A to F) Regulations 1985 (SI 1985 No. 805) as amended by the Companies (Tables A to F) (Amendment) Regulations 1985 (SI 1985 No. 1052) and as further amended by The Companies Act 1985 (Electronic Communications) Order 2000 (SI 2000 No. 3373) (such Table being hereinafter called "Table A") shall apply to the Company save in so far as they are excluded or varied hereby and such regulations (save as so excluded or varied) and the Articles hereinafter contained shall be the Articles of Association of the Company.

1.2 In these Articles the expression "the Act" means the Companies Act 1985, but so that any reference in these Articles to any provision of the Act shall be deemed to include a reference to any statutory modification or re-enactment of that provision for the time being in force.

2. ALLOTMENT OF SHARES

2.1 Shares which are comprised in the authorised but unissued share capital of the Company shall be under the control of the directors who may (subject to sections 80 and 89 of the Act and to articles 2.2 and 2.3 below) allot, grant options over or otherwise dispose of the same, to such persons, on such terms and in such manner as they think fit.

2.2 The directors are generally and unconditionally authorised for the purposes of section 80 of the Act to exercise any power of the Company to allot and grant rights to subscribe for or convert securities into shares of the Company up to the amount of the authorised share capital with which the Company is incorporated at any time or times during the period of five years from the date of incorporation and the directors may, after that period, allot any shares or grant any such rights under this authority in pursuance of an offer or agreement so to do made by the Company within that period. The authority hereby given may at any time (subject to the said section 80) be renewed, revoked or varied by ordinary resolution.

2.3 The directors are empowered to allot and grant rights to subscribe for or convert securities into shares of the Company pursuant to the authority conferred under article 2.2 above as if section 89(1) of the Act did not apply. This power shall enable the directors so to allot and grant rights to subscribe for or convert securities into shares of the Company after its expiry in pursuance of an offer or agreement so to do made by the Company before its expiry.

2.4 Save as authorised by the Act, the Company shall not give, whether directly or indirectly, any financial assistance for the acquisition of shares or other securities of the Company or of its holding company (as defined by section 736 of the Act).

2.5 Save as permitted by section 101(2) of the Act, no shares of the Company shall be allotted except as paid up at least as to one quarter of their nominal value and the whole of any premium.

3. SHARES

3.1 The liability of any member in default in respect of a call shall be increased by the addition at the end of the first sentence of regulation 18 in Table A of the words "and all expenses that may have been incurred by the Company by reason of such non-payment".

4. GENERAL MEETINGS AND RESOLUTIONS

4.1 Every notice convening a general meeting shall comply with the provisions of section 372(3) of the Act as to giving information to members in regard to their right to appoint proxies; and notices of and other communications relating to any general meeting which any member is entitled to receive shall be sent to the directors and to the auditors for the time being of the Company.

4.2.1 If a quorum is not present within half an hour from the time appointed for a general meeting the general meeting shall stand adjourned to the same day in the next week at the same time and place or to such other day and at such other time and place as the directors may determine; and if at the adjourned general meeting a quorum is not present within half an hour from the time appointed therefor such adjourned general meeting shall be dissolved.

4.2.2 Regulation 41 in Table A shall not apply to the Company.

4.3 Resolutions under section 303 of the Act for the removal of a director before the expiration of his period of office and under section 391 of the Act for the removal of an auditor before the expiration of his period of office shall only be considered by the Company in general meeting. Regulation 53 in Table A shall be read and construed accordingly.

4.4 A member present at a meeting by proxy shall be entitled to speak at the meeting and shall be entitled to one vote on a show of hands. In any case where the same person is appointed proxy for more than one member he shall on a show of hands have as many votes as the number of members for whom he is proxy. Regulation 54 in Table A shall be modified accordingly.

4.5 Unless resolved by ordinary resolution that regulation 62 in Table A shall apply without modification, the appointment of a proxy and any authority under which the proxy is appointed or a copy of such authority certified notarially or in some other way approved by the directors may be deposited or received at the place specified in regulation 62 in Table A up to the commencement of the meeting or (in any case where a poll is taken otherwise than at the meeting) of the taking of the poll or may be handed to the chairman of the meeting prior to the commencement of the business of the meeting.

5. APPOINTMENT OF DIRECTORS

5.1.1 Regulation 64 in Table A shall not apply to the Company.

5.1.2 The maximum number and minimum number respectively of the directors may be determined from time to time by ordinary resolution. Subject to and in default of any such determination there shall be no maximum number of directors and the minimum number of directors shall be two.

5.2 The directors shall not be required to retire by rotation and regulations 73 to 80 (inclusive) in Table A shall not apply to the Company.

5.3 No person shall be appointed a director at any general meeting unless either:-

(a) he is recommended by the directors; or

(b) not less than 14 nor more than 35 clear days before the date appointed for the general meeting, notice signed by a member qualified to vote at the general meeting has been given to the Company of the intention to propose that person for appointment, together with notice signed by that person of his willingness to be appointed.

5.4.1 Subject to article 5.3 above, the Company may by ordinary resolution appoint any person who is willing to act to be a director, either to fill a vacancy or as an additional director.

5.4.2 The directors may appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, provided that the appointment does not cause the number of directors to exceed any number determined in accordance with article 5.1.2 above as the maximum number of directors and for the time being in force.

6. BORROWING POWERS

6.1 The directors may exercise all the powers of the Company to borrow money without limit as to amount and upon such terms and in such manner as they think fit, and subject (in the case of any security convertible into shares) to section 80 of the Act to grant any mortgage, charge or standard security over its undertaking, property and uncalled capital, or any part thereof, and to issue debentures, debenture stock, and other securities whether outright or as security for any debt, liability or obligation of the Company or of any third party.

7. ALTERNATE DIRECTORS

7.1 Unless otherwise determined by the Company in general meeting by ordinary resolution an alternate director shall not be entitled as such to receive any remuneration from the Company, save that he may be paid by the Company such part (if any) of the remuneration otherwise payable to his appointor as such appointor may by notice in writing to the Company from time to time direct, and the first sentence of regulation 66 in Table A shall be modified accordingly.

7.2 A director, or any such other person as is mentioned in regulation 65 in Table A, may act as an alternate director to represent more than one director, and an alternate director shall be entitled at any meeting of the directors or of any committee of the directors to one vote for every director whom he represents in addition to his own vote (if any) as a director, but he shall count as only one for the purpose of determining whether a quorum is present.

8. GRATUITIES AND PENSIONS

8.1.1 The directors may exercise the powers of the Company conferred by its Memorandum of Association in relation to the payment of pensions, gratuities and other benefits and shall be entitled to retain any benefits received by them or any of them by reason of the exercise of any such powers.

8.1.2 Regulation 87 in Table A shall not apply to the Company.

9. PROCEEDINGS OF DIRECTORS

9.1.1 A director may vote, at any meeting of the directors or of any committee of the directors, on any resolution, notwithstanding that it in any way concerns or relates to a matter in which he has, directly or indirectly, any kind of interest whatsoever, and if he shall vote on any such resolution his vote shall be counted; and in relation to any such resolution as aforesaid he shall (whether or not he shall vote on the same) be taken into account in calculating the quorum present at the meeting.

9.1.2 Each director shall comply with his obligations to disclose his interest in contracts under section 317 of the Act.

9.1.3 Regulations 94 to 97 (inclusive) in Table A shall not apply to the Company.

10. THE SEAL

10.1 If the Company has a seal it shall only be used with the authority of the directors or of a committee of directors. The directors may determine who shall sign any instrument to which the seal is affixed and unless otherwise so determined it shall be signed by a director and by the secretary or second director. The obligation under regulation 6 in Table A relating to the sealing of share certificates shall apply only if the Company has a seal. Regulation 101 in Table A shall not apply to the Company.

10.2 The Company may exercise the powers conferred by section 39 of the Act with regard to having an official seal for use abroad, and such powers shall be vested in the directors.

11. PROTECTION FROM LIABILITY

For the purposes of this article a "Liability" is any liability incurred by a person in connection with any negligence, default, breach of duty or breach of trust by him in relation to the Company or otherwise in connection with his duties, powers or office and "Associated Company" shall bear the meaning referred to in section 309A(6) of the Act. Subject to the provisions of the Act and without prejudice to any protection from liability which may otherwise apply:

11.1 the directors shall have power to purchase and maintain for any director of the Company, any director of an Associated Company, any auditor of the Company and any officer of the Company (not being a director or auditor of the Company), insurance against any Liability.

11.2 every director or auditor of the Company and every officer of the Company (not being a director or auditor of the Company) shall be indemnified out of the assets of the Company against any loss or liability incurred by him in defending any proceedings in which judgment is given in his favour or in which he is acquitted or in connection with any application in which relief is granted to him by the court from any Liability.

11.3 regulation 118 in Table A shall not apply to the Company.

First Choice Holidays plc

RECEIVED

MONDAY

No. 4493 of 2007

IN THE HIGH COURT OF JUSTICE

CHANCERY DIVISION

COMPANIES COURT

MR JUSTICE KITCHIN

IN THE MATTER OF FIRST CHOICE HOLIDAYS PLC

- and -

IN THE MATTER OF THE COMPANIES ACT 1985

ORDER

UPON THE PETITION of the above named First Choice Holidays PLC (registered number 48967) (the "**Company**") whose registered office is situated at First Choice House, London Road, Crawley, West Sussex RH10 9GX presented to this Court on 3 August 2007

AND UPON HEARING Counsel for the Company

AND UPON READING the said Petition and the evidence

AND UPON TUI Travel PLC by Counsel for the Company (being its Counsel for the purpose) undertaking to be bound by the Scheme of Arrangement and to execute and do and procure to be executed and done all such documents, acts and things as may be necessary or desirable to be executed or done by it or upon its behalf for the purpose of giving effect to the Scheme of Arrangement

THIS COURT HEREBY sanctions the Scheme of Arrangement as set out in the Schedule hereto

AND IT IS ORDERED that this Order be produced by the Company to the Registrar of Companies and that it deliver an office copy to him

DATED 29 August 2007

Part III

Scheme of Arrangement

IN THE HIGH COURT OF JUSTICE
CHANCERY DIVISION
COMPANIES COURT

No 4493 of 2007

IN THE MATTER OF FIRST CHOICE HOLIDAYS PLC

and

IN THE MATTER OF THE COMPANIES ACT 1985

SCHEME OF ARRANGEMENT

(under Section 425 of the Companies Act 1985)

between

FIRST CHOICE HOLIDAYS PLC

and

THE HOLDERS OF SCHEME SHARES

(as hereinafter defined)

PRELIMINARY

(A) In the Scheme, unless inconsistent with the subject or context, the following expressions shall have the following meanings

"Act"	means the Companies Act 1985, as amended,
"Business Day"	means any day (excluding Saturday, Sunday or public holidays in England or Wales) on which banks are open for general banking business in the City of London,
"certificated" or "certificated form"	means, in relation to a share or other security, a share or other security which is not in uncertificated form (that is, not in CREST);
"Court"	means Her Majesty's High Court of Justice in England and Wales or the Court of Appeal in England and Wales, as the case may be,
"Court Meeting"	means the meeting of the holders of First Choice Shares convened by order of the Court pursuant to Section 425 of the Act to consider and, if thought fit, approve the Scheme (with or without amendment), and any adjournment of that meeting,
"CREST"	means the system for the paperless settlement of trades in securities and the holding of uncertificated securities operated by CRESTCo in accordance with the Uncertificated Securities Regulations 2001 (SI No 2001/3755),
"CRESTCo"	means CRESTCo Limited,
"Encumbrances"	means all mortgages, pledges, liens, charges, options, encumbrances, equitable rights, rights of pre-emption, assignments, hypothecations or any other third party rights of any nature whatsoever,

"First Choice"	means First Choice Holidays PLC, registered in England and Wales with number 48967,
"First Choice Share Schemes"	means the First Choice Holidays Senior Executive Plan, the First Choice Holidays PLC Restricted Share Plan, the First Choice Holidays Deferred Annual Bonus Scheme, the First Choice Holidays Performance Share Plan and the First Choice Holidays Share Incentive Plan,
"First Choice Shares"	means ordinary shares of 3 pence each in the capital of First Choice,
"holder"	means a registered holder of shares and includes any person(s) entitled by transmission,
"Member"	means a member of First Choice on the register of members at any relevant date,
"Merger"	means the proposed combination of First Choice and TUI Tourism pursuant to the terms of and subject to the Merger Agreement (as defined in the Scheme Document),
"Merger Agreement"	means the merger agreement entered into between First Choice, TUI AG and TUI Travel and dated 19 March 2007,
"nominee"	means a person acting solely and exclusively as nominee and bare trustee of another person,
"Reduction Court Order"	means the order of the Court confirming the Reduction of Capital;
"Reduction of Capital"	means the reduction of First Choice's share capital involving the cancellation of the Scheme Shares provided for by this Scheme under section 137 of the Act,
"Relevant Holders"	means the holders of Scheme Shares whose names appear in the register of members of First Choice at the Scheme Record Time,
"Scheme"	means the scheme of arrangement in its present form or with or subject to any modification, addition or condition approved or imposed by the Court and agreed by First Choice and TUI Travel,
"Scheme Court Order"	means the order of the Court sanctioning the Scheme under section 425 of the Act;
"Scheme Document"	means the circular dated 29 June 2007 addressed to the holders of First Choice Shares containing the Scheme and an explanatory statement in compliance with section 426 of the Act,
"Scheme Effective Date"	means the date on which the Scheme becomes effective in accordance with its terms and **"Scheme Effective Time"** means the time on such date at which the Scheme becomes effective,
"Scheme Record Time"	means 6.00 p.m. (London time) on the Business Day immediately preceding the Scheme Effective Date,
"Scheme Shares"	means (i) any First Choice Shares in issue at the date of this document;

(i) any First Choice Shares issued after the date of this document and prior to the Voting Record Time, and

(ii) any First Choice Shares issued at or after the Voting Record Time and prior to 6 00 p m on the Business Day immediately preceding the date of the Reduction Court Order on terms that the holder thereof shall be bound by the Scheme, or in respect of which the original or any subsequent holder thereof agrees in writing to be bound by the Scheme,

but excluding in each case any First Choice Shares held by TUI Travel at the Scheme Record Time,

"Takeover Panel" means the Panel on Takeovers and Mergers,

"TUI AG" means TUI AG, a company incorporated in Germany whose registered office is at Karl-Wiechert-Allee 4, 30625 Hanover;

"TUI Tourism" the travel and tourism division of TUI AG, excluding certain hotel assets which is constituted by the TUI Tourism Group,

"TUI Tourism Group" the companies constituting TUI Tourism which are to be transferred to TUI Travel on completion of the Merger,

"TUI Travel" means TUI Travel PLC, registered in England and Wales with number 6072876,

"TUI Travel Shares" means ordinary shares of 10 pence each in the capital of TUI Travel to be issued to the holders of Scheme Shares under clause 2 of the Scheme,

"UK Listing Authority" means the Financial Services Authority acting in its capacity as the competent authority for the purposes of Part VI of the Financial Services and Markets Act 2000,

"uncertificated" or "uncertificated form" means in relation to a share or other security, a share or other security which is recorded on the relevant register of the share or security concerned as being held in uncertificated form in CREST and title to which may be transferred by means of CREST, and

"Voting Record Time" means 6 00 p m (London Time) on the day prior to the day immediately before the Court Meeting or any adjournment thereof (as the case may be)

(B) The authorised share capital of First Choice at the date of the Scheme is £223,500,000 divided into 199,500,000 convertible cumulative redeemable preference shares of £1 each (none of which is in issue) and 800,000,000 First Choice Shares of which 530,577,303 First Choice Shares have been issued and are credited as fully paid The remaining First Choice Shares are unissued, but there are subsisting rights to subscribe for up to 17,259,768 First Choice Shares under the First Choice Share Schemes

(C) TUI Travel was incorporated and registered in England and Wales on 29 January 2007 under the Act as a public limited company with registered number 6972876 and the name Coppereagle Public Limited Company By virtue of a special resolution dated 19 June 2007 Coppereagle Public Limited Company changed its name to TUI Travel PLC

(D) The authorised share capital of TUI Travel at the date of this Scheme is 200,000,000 divided into 1,999,500,020 ordinary shares of 10 pence nominal value each and 49,998 redeemable preference shares of £1 nominal value each, of which twenty ordinary shares and 49,998 redeemable are in issue and are held as follows

Andrew John	10 ordinary shares of 10 pence
TUI AG	10 ordinary shares of 10 pence
TUI AG	49,998 redeemable preference shares of £1

(E) TUI Travel has agreed to appear by counsel on the hearing of the petition to sanction the Scheme and the hearing confirming the Reduction of Capital, to consent to the Scheme and to undertake to the Court to be bound by the provisions of this Scheme and to execute and do, or procure to be executed and done, all such documents, acts and things as may be necessary or desirable to be executed or done by it for the purposes of giving effect to the Scheme

The Scheme

1. Cancellation of Scheme Shares

(a) The share capital of First Choice shall be reduced by cancelling and extinguishing the Scheme Shares

(b) Forthwith and contingently upon the reduction of capital referred to in sub-clause 1(a) of the Scheme taking effect.

(i) the authorised share capital of First Choice shall be increased to its former amount by the creation of such number of new ordinary shares of 3 pence each as shall be equal to the number of Scheme Shares cancelled pursuant to sub-clause 1(a) of this Scheme, and

(ii) First Choice shall apply the reserve arising in its books of account as a result of such reduction of capital in paying up in full at par the new ordinary shares created pursuant to sub-clause 1(b)(i) of this Scheme which shall be allotted and issued free from Encumbrances as fully paid to TUI Travel

2. Consideration for the cancellation of the Scheme Shares

Subject to, and in consideration for, the cancellation of the Scheme Shares and the allotment and issue of the new ordinary shares in First Choice as provided in sub-clause 1(b)(ii) of this Scheme, TUI Travel shall allot and issue to or for the account of each holder of Scheme Shares (as appearing in the register of members of First Choice at the Scheme Record Time) free from Encumbrances and credited as fully paid, subject as hereinafter provided, TUI Travel Shares on the following basis

for each Scheme Share appearing on the register of First Choice at the Scheme Record Time	**one TUI Travel Share**

3. Scheme Shares – Share Certificates and cancellation of CREST entitlements

(a) With effect from and on the Scheme Effective Time, each existing certificate representing a holding of Scheme Shares shall cease to be valid in respect of such holding and each holder of Scheme Shares shall be bound at the request of First Choice to deliver up the same to First Choice or to any person appointed by First Choice to receive the same for cancellation or destroy such share certificate

(b) With effect from and on the Scheme Effective Time, in respect of those holders of Scheme Shares held in uncertificated form, CRESTCo shall be instructed to cancel such holders' entitlement to such Scheme Shares and appropriate entries will be made in the register of members of First Choice with effect from the Scheme Effective Date to reflect their cancellation

4. Allotment and issue of TUI Travel Shares

(a) The TUI Travel Shares to be issued pursuant to clause 2 of this Scheme shall be issued free from Encumbrances, credited as fully paid and shall rank *pari passu* with all other TUI Travel Shares in issue at the Scheme Effective Time and shall have the right to receive all dividends, distributions and other entitlements made or paid or declared on the TUI Travel Shares after the Scheme Effective Time

(b) As soon as practicable (and in any event not later than seven days) after the Scheme Effective Date, TUI Travel shall make all such allotments of and shall issue such TUI Travel Shares as are required to be issued by it to give effect to the Scheme to the persons respectively entitled thereto, such consideration to be settled as set out in sub-clause 4(c) but subject to sub-clause 4(d) of the Scheme

(c) Settlement of the consideration shall be effected as follows

(i) where, at the Scheme Record Time, a Member holds Scheme Shares in uncertificated form in CREST the TUI Travel Shares to which such person is entitled shall be issued to such person in uncertificated form through CREST TUI Travel shall procure that CRESTCo is instructed to credit the appropriate stock account in CREST of such Member with such person's entitlement to the TUI Travel Shares at the commencement of dealings in the TUI Travel Shares

As from the Scheme Record Time, each holding of Scheme Shares credited to any stock account in CREST shall be disabled and all Scheme Shares will be removed from CREST in due course thereafter

TUI Travel reserves the right to issue the TUI Travel Shares to all or any Member(s) who hold Scheme Shares in uncertificated form in CREST at the Scheme Record Time in the manner referred to in sub-clause 4(c)(ii) below if, for reasons outside its reasonable control, it is not able to effect settlement in uncertificated form in accordance with this sub-clause 4(c)(i), and

(ii) where, at the Scheme Record Time, a Member holds Scheme Shares in certificated form the TUI Travel Shares to which such person is entitled shall be issued in certificated form. Definitive certificates shall be issued as soon as practicable, in any event not later than fourteen days after the Scheme Effective Date

(d) The provisions of this clause 4 of this Scheme shall be subject to any prohibition or condition imposed by law Without prejudice to the generality of the foregoing, if, in respect of any holder of Scheme Shares with a registered address in a jurisdiction outside the United Kingdom, TUI Travel is advised that the allotment and/or issue of TUI Travel Shares pursuant to this clause 4 directly to such holder would or might infringe the laws of such jurisdiction or would or may require TUI Travel to observe any governmental or other consent or any registration, filing or other formality, with which TUI Travel is unable to comply or which TUI Travel regards as unduly onerous to comply with, TUI Travel may, in its sole discretion, either

(i) determine that TUI Travel Shares shall not be allotted and issued to such holder under the Scheme but shall instead be allotted and issued to a nominee appointed by TUI Travel as trustee for such holder on terms that the nominee shall, as soon as practicable following the Scheme Effective Time, sell the TUI Travel Shares so allotted and issued at the best price which can reasonably be obtained at the time of sale and shall account for the net proceeds of such sale (after the deduction of all expenses and commissions, including any value added tax payable thereon) by sending a cheque for the net proceeds (denominated in sterling currency) to such holder or creating an assured payment obligation in accordance with the provisions of sub-clause 4(e) below In the absence of bad faith or wilful default, none of First Choice, TUI Travel, their respective nominees or their respective directors and officers, shall have any liability for any loss or damage arising as a result of the timing or terms of such sale, or

(ii) determine that such TUI Travel Shares shall be sold, in which event the TUI Travel Shares shall be issued to such holder and TUI Travel shall appoint a person to act pursuant to this

sub-clause 4(d)(ii) and such person shall be authorised on behalf of such holder to procure that any shares in respect of which TUI Travel has made such a determination shall, subject to sub-clause 4(b), as soon as practicable following the Scheme Effective Time, be sold at the best price which can reasonably be obtained at the time of sale and the net proceeds of such sale (after the deductions of all expenses and commissions, including any value added tax payable thereon) shall be paid to such holder by sending a cheque for the net proceeds (denominated in sterling currency) to such holder To give effect to any such sale, the person so appointed shall be authorised on behalf of such holder to execute and deliver a form of transfer and to give such instructions and to do all other things which he may consider expedient in connection with such sale In the absence of bad faith or wilful default, none of First Choice, TUI Travel or their respective directors and officers or the person so appointed, shall have any liability for any loss or damage arising as a result of the timing or terms of such sale

(e) (i) In the case of Scheme Shares to be sold in accordance with sub-clause 4(d)(i) which are in uncertificated form at the Scheme Record Time, TUI Travel shall, on behalf of the nominee appointed pursuant to sub-clause 4(d)(i) make any cash payment pursuant to sub-clause 4(d)(i) by arranging for the creation of an assured payment obligation in favour of the payment bank of the Relevant Holders of such Scheme Shares in accordance with CREST assured payment arrangements (as set out in the CREST Manual) provided that TUI Travel may (if, for any reason, it wishes to do so) determine that all or part of such consideration shall be paid by cheque in sterling drawn on a UK clearing bank despatched by post and in such case sub-clause 4(e)(ii) shall apply, to the extent it is appropriate, or

(ii) in the case of Scheme Shares to be sold in accordance with sub-clause 4(d)(i) which are in uncertificated form at the Scheme Record Time, TUI Travel shall on behalf of the nominee appointed pursuant to sub-clause 4(d)(i) make any cash payment pursuant to sub-clause 4(d)(i) by delivering to the persons respectively entitled thereto, or as they may direct, cheques in sterling drawn on a UK clearing bank by post by the fourteenth day following the Effective Date

(f) All deliveries of certificates and cheques required to be made pursuant to the Scheme shall be effected by posting the same by first class post, airmail if overseas, (or such other method as may be approved by the Takeover Panel and the UK Listing Authority) to the address appearing in the register of members of First Choice at the Scheme Record Time (or, in the case of joint holders, to the address of that one of the joint holders whose name appears first in the register of members of First Choice in respect of such joint holding) or in accordance with any applicable special instructions received by Lloyds TSB Registrars regarding communications prior to the Scheme Record Time

(g) None of TUI Travel, First Choice or any nominee referred to in sub-clause 4(d)(i) nor the person appointed by TUI Travel pursuant to sub-clause 4(d)(ii) shall be responsible for any loss or delay in the delivery of any certificates or cheques posted in accordance with sub-paragraphs (c), (d), (e) and (f) of this clause 4, which shall be posted at the risk of the persons entitled thereto

(h) All cheques and warrants shall be in sterling drawn on a UK clearing bank and made payable to the holder or, in the case of joint holders, to the first named of such holders of the Scheme Shares concerned and the encashment of any such cheque shall be a complete discharge to TUI Travel, the nominee referred to in sub-clause 4(d)(i) and the person appointed by TUI Travel pursuant to sub-clause 4(d)(ii) for the moneys represented thereby

(i) Prior to the issue of new share certificates in respect of TUI Travel Shares to Relevant Holders pursuant to sub-clause 4(c)(ii), transfers of the TUI Travel Shares issued to them pursuant to this Scheme shall be certified against the register of members of TUI Travel Existing certificate(s) for Scheme Shares shall, on and from the Effective Date, cease to have effect as documents of title to the Scheme Shares comprised therein In respect of those Relevant Holders holding their TUI Travel Shares in uncertificated form, CRESTCo shall be instructed to cancel such Relevant Holder's entitlement to TUI Travel Shares on and from the Effective Date

5. Declarations and information relating to the nationality of First Choice Shareholders

Each declaration made in the case of Scheme Shares held in certificated form and each item of information relating to nationality provided through a relevant system (as defined in the Uncertificated Securities Regulations 2001 (SI 201/3755)) in the case of Scheme Shares held in uncertificated form for the purposes of article 31 of the articles of association of TUI Travel shall, unless and until amended or revoked, be deemed as from the Effective Date to be an effective declaration or provision of information (as the case may be) for the purposes of article 31 of the articles of association of TUI Travel

6. The Scheme Effective Time

(a) The Scheme shall become effective as soon as office copies of the Scheme Court Order and the Reduction Court Order shall have been delivered to the Registrar of Companies in England and Wales for registration and, in the case of the Reduction Court Order, have been registered by him

(b) Unless the Scheme shall have become effective on or before the close of business on 31 October 2007 (London time), or such later date (if any) as First Choice and TUI Travel may agree and the Court may approve, the Scheme shall never become effective

7. Modification

First Choice and TUI Travel may jointly consent on behalf of all persons concerned to any modification of or addition to the Scheme or to any condition which the Court may think fit to approve or impose

8. Costs

First Choice is authorised to and permitted to pay all its costs and expenses relating to the negotiation, preparation and implementation of the Scheme

No. 4493 of 2007

IN THE HIGH COURT OF JUSTICE

CHANCERY DIVISION

COMPANIES COURT

MR JUSTICE KITCHIN

DATED: FRIDAY THE 31ST DAY OF AUGUST 2007

IN THE MATTER OF FIRST CHOICE HOLIDAYS PLC

- and -

IN THE MATTER OF THE COMPANIES ACT 1985

SUPREME COURT OF JUDICATURE 31 AUG 07 ENTERED COMPANIES

ORDER

UPON THE PETITION of the above named First Choice Holidays PLC (registered number 48967) (the "**Company**") whose registered office is situated at First Choice House, London Road, Crawley, West Sussex RH10 9GX presented to this Court on 3 August 2007

AND UPON HEARING Counsel for the Company

AND UPON READING the said Petition and the evidence

THIS COURT HEREBY confirms, in accordance with the provisions of the above mentioned Act, the reduction of the capital in connection with the Scheme of Arrangement resolved on and effected by a Special Resolution passed at an extraordinary general meeting of the Company held on 25 July 2007.

AND THE COURT HEREBY APPROVES the Minute set out in the Schedule hereto

AND IT IS ORDERED THAT:

(a) this Order be produced by the Company to the Registrar of Companies and that it deliver an office copy to him together with a copy of the said Minute, and

(b) notice of registration by the Registrar of Companies of this Order (so far as it confirms the reduction of capital of the Company) and of the said Minute be

published by the Company once in The Times newspaper within 21 days after such registration

AND THIS COURT DIRECTS pursuant to Section 139(2) of the said Act that the Registrar of Companies do register the said order confirming the said reduction of capital of the Company under Section 138(1) of the said Act notwithstanding that the said order has the effect of bringing the nominal value of the authorised share capital of the Company below the authorised minimum.

DATED 31 August 2007

SCHEDULE

MINUTE

The capital of First Choice Holidays PLC was by virtue of a special resolution and with the sanction of the Orders of the High Court of Justice dated 29 August 2007 and 31 August 2007 reduced from £223,500,000 divided into 800,000,000 ordinary shares of 3 pence each and 199,500,000 convertible cumulative redeemable preference shares of £1 each, of which 547,825,229 ordinary shares have been issued and are fully paid up and none of the remainder has been issued, to £207,065,243 16 divided into 252,174,722 ordinary shares of 3 pence and 199,500,000 convertible cumulative redeemable preference shares of £1 each. By virtue of such special resolution and the Scheme of Arrangement sanctioned by the said Orders the capital of the Company is increased upon such reduction of capital taking effect by the creation of 547,825,228 ordinary shares of 3 pence each. Accordingly, upon the registration of this Minute the capital of the Company is £223,500,000 divided into 800,000,000 ordinary shares of 3 pence each and 199,500,000 convertible cumulative redeemable preference shares of £1 each, of which 547,825,229 ordinary shares have been issued and are deemed to be fully paid up and none of the remainder has been issued.

PRELIMINARY

1 (1) In these articles the following words bear the following meanings -

"the Act"	subject to paragraph (4) of this article, the Companies Act 1985,
"these articles"	the articles of the Company,
"clear days"	in relation to the period of a notice, that period excluding the day when the notice is given or deemed to be given and the day for which it is given or on which it is to take effect,
"executed"	any mode of execution,
"holder"	in relation to shares, the member whose name is entered in the register of members as the holder of the shares,
"Office"	the registered office of the Company,
"recognised person"	a recognised clearing house or a nominee of a recognised clearing house or of a recognised investment exchange who is designated as mentioned in section 185(4) of the Act,
"the seal"	the common seal (if any) of the Company and an official seal (if any) kept by the Company by virtue of section 40 of the Act, or either of them as the case may require,
"secretary"	the secretary of the Company or any other person appointed to perform the duties of the secretary of the Company, including a joint, assistant or deputy secretary,
"the Stock Exchange"	the London Stock Exchange Limited,
"the Uncertificated Securities Regulations"	subject to paragraph (4) of this article, the Uncertificated Securities Regulations 1995,

"A" Convertible Preference Shares"	6 75 per cent (net) convertible cumulative redeemable preference shares of nominal value of £1 each arising upon the redesignation of convertible preference shares pursuant to Article 3(7)(c) and forming a separate class of shares from the convertible preference shares,
"Listing Rules"	the Listing Rules made by the UK Listing Authority under section 142 of the Financial Services Act 1986,
"London Stock Exchange"	London Stock Exchange PLC,
"LSE Admission Standards"	the rules issued by the London Stock Exchange in relation to the admission of trading of, and continuing requirements for, securities admitted to the Official List,
"Official List"	the list maintained by the UK Listing Authority pursuant to Part IV of the Financial Services Act 1986,
"Relevant Event"	means any of the following events (i) a takeover offer (as defined in section 428 of the Act) in respect of the ordinary share capital of the Company becoming unconditional in all respects, (ii) the acceptance by a Relevant Person of any offer or invitation to subscribe for new ordinary shares in the capital of the Company save where such offer or invitation is made to such person by reason of their being an existing holder of ordinary shares, such offer or invitation being made to all holders of ordinary shares at a specified date on an equivalent basis (or as near as is practicable thereto), which shall include, without prejudice to the generality of the foregoing, an offer or invitation by way of a rights issue or open offer as described in Chapter 4 of the Listing Rules, (iii) the acquisition by a Relevant Person of ordinary shares such that such person holds 30 per cent or more of the issued ordinary share capital of the Company at that date, (iv) issue of a petition seeking an administration order in relation to the Company or the appointment of a receiver over a material part of the Company's property, assets or undertaking, (v) the passing by the Company of a resolution for its winding up or the issue of a petition seeking an order for the winding up of the Company otherwise than, in each case, for the purposes of a solvent amalgamation or reconstruction, (vi) the entering into by the Company of a Strategic Relationship with a Relevant Person,
"Relevant Person"	an entity which owns, operates or controls cruise vessels with capacity in excess of 5,000 passenger berths together in each case with their respective subsidiary undertakings (as defined in section 258 of the Act) and associated undertakings (as defined in paragraph 20 of Schedule 4A of the Act and taking into

account the presumption in sub-paragraph (2) thereof),

"Strategic Relationship"	any of the following (i) any relationship between the Company and a Relevant Person which the Company has announced to be a strategic relationship, (ii) any acquisition by the Company of an interest in the share capital of a Relevant Person in connection with a commercial relationship, (iii) the establishment of a joint venture having the potential for profit sharing with a Relevant Person, (iv) conferring on a Relevant Person most favoured status in the retail operations of the Company and its subsidiary undertakings, or (v) a major distribution initiative for the exclusive benefit of a Relevant Person,
"UK Listing Authority"	the Financial Services Authority as the competent authority for listing in the United Kingdom,

(2) In relation to shares, the expressions "in uncertificated form" and "in certificated form" have the same meaning in these articles as in the Uncertificated Securities Regulations, provided that any reference to a share in uncertificated form does not include a reference to a share which is not a participating security, as defined in those regulations

(3) Save as aforesaid and unless the context otherwise requires, words or expressions contained in these articles bear the same meaning as in the Act or the Uncertificated Securities Regulations (as the case may be) For the purposes of these Articles, a dematerialised instruction is properly authenticated if it complies with the specifications referred to in paragraph 5(b) of Schedule 1 to the Uncertificated Securities Regulations

(4) Except where otherwise expressly stated, a reference in these articles to any primary or delegated legislation or legislative provision includes a reference to any modification or re-enactment or replacement of it for the time being in force

(5) In these articles, unless the context otherwise requires -

(a) words in the singular include the plural, and vice versa,

(b) words importing any gender include all genders, and

(c) a reference to a person includes a reference to a body corporate and to an unincorporated body of persons

(6) In these articles -

(a) references to writing include any method of presenting words in a visible form whether in a physical document or in an electronic communication or in any other way,

(b) references to "other" and "otherwise" shall not be construed ejusdem generis where a wider construction is possible,

(c) references to a power are to a power of any kind, whether administrative, discretionary or otherwise, and

(d) references to a committee of the directors are to a committee established in accordance with these articles, whether or not comprised wholly of directors

(7) The headings are inserted for convenience only and do not affect the construction of these articles

2 The regulations contained in Table A do not apply to the Company

SHARE CAPITAL

3 The share capital of the Company, at the date of adoption of this Article, is £223,500,000 divided into 800,000,000 ordinary shares of 3p each (**"ordinary shares"**) and 199,500,000 6 75 per cent (net) convertible cumulative redeemable preference shares of nominal value of £1 each (**"convertible preference shares"**)

(1) **Income**

(A) Out of the profits available for distribution the holders of the convertible preference shares shall be entitled, in priority to any payment of dividend to the holders of any other class of shares, to be paid a fixed cumulative preferential dividend (**"preferential dividend"**) at the rate of 6 75p per share per annum (exclusive of any associated tax credit) such dividend to accrue from day to day and to be paid quarterly on 31st December, 31st March, 30th June and 30th September (**"fixed dividend dates"**) (or in the event of any such date being a Saturday, Sunday or public holiday in England on the first business day following such date) in each year in respect of the quarters ending on those respective dates, save that the first such payment in respect of the convertible preference shares shall be made on 30th September 2000, in respect of the period from their date of issue to 30th September 2000 (both dates inclusive) Payments of preferential dividends shall be made to holders of the convertible preference shares on the register on the date 21 days prior to the relevant fixed dividend date The convertible preference shares shall not entitle the holders to any further right of participation in the profits of the Company provided that the entitlements of holders under this paragraph (1) shall be subject to valid elections made by holders of convertible preference shares pursuant to any offer of ordinary shares made in accordance with the provisions of Article 120

(B) If at any time and for so long as the aggregate preferential dividend payable on six successive fixed dividend dates has not been paid by the Company the holder or holders for the time being of a majority of the issued convertible preference shares shall be entitled to appoint up to two additional directors of the Company (and to remove and replace any directors so appointed) by a written direction to the Company signed by the holder or holders of a majority of the issued convertible preference shares Such direction shall take effect upon being delivered to the Office In such circumstances, if necessary, the maximum number of directors referred to in Article 73 shall be deemed to be increased to 17 As soon as all preferential dividends accrued in respect of previous fixed dividend dates have been paid in full any directors appointed pursuant to this paragraph shall forthwith cease to hold office and any deemed increase in the maximum number of directors referred to in Article 73 shall cease to apply

(2) **Capital**

Subject to sub-paragraph (7)(b) of this Article, on a return of capital (other than on conversion, redemption or purchase of shares in the Company) the assets of the Company available for distribution among the members shall be applied in priority to any payment to the holders of any other class of shares in repaying to the holders of the convertible preference shares a sum equal to the nominal capital paid up or credited as paid up thereon and all arrears and accruals (if any) of the preferential dividend whether such preferential dividend has been earned or declared or not, calculated to the date of the commencement of the winding-up (in the case of a winding-up) or the return of capital (in any other case) on the footing that it continues to accrue from day to day down to that date The provisions of this paragraph are without prejudice to the other provisions of these

articles (as from time to time amended) as to conversion, redemption and purchase of shares After the holders of the ordinary shares have received a sum equal to the nominal capital paid up or credited as paid up on the ordinary shares together with the sum of £1,000 per ordinary share held by them respectively the holders of convertible preference shares shall be entitled to participate with the holders of ordinary shares pro rata to the number of shares of each class held by them respectively in the surplus assets of the Company available for distribution The convertible preference shares shall not entitle the holders to any further right of participation in the assets of the Company

(3) **Voting at General Meetings**

(a) The convertible preference shares shall entitle the holder to receive notice of, to attend and to vote at any general meeting A holder of convertible preference shares shall be entitled to such number of votes, and the provisions of these Articles so far as they relate to votes of members at general meetings including, without prejudice to the generality, Articles 61 to 71 shall be applied, as if such holder of convertible preference shares had exercised in full immediately prior to the time for establishing the right to vote at the meeting at which such vote is to be taken the conversion rights attaching to the convertible preference shares held by such holder

(b) In the event that any convertible preference share is redesignated as an "A" Convertible Preference Share pursuant to paragraph (7)(c) below the holders of such redesignated "A" Convertible Preference Shares shall be entitled to receive notice of any General Meeting of the Company but shall not be entitled

(i) to vote upon any resolution (other than a resolution for winding-up the Company or a resolution varying, modifying, altering or abrogating any of the rights, privileges, limitations or restrictions attached to the convertible preference shares) unless, at the date of the notice convening the meeting at which the resolution is to be proposed, the preferential dividend or any part thereof shall be at least six months in arrears, whether or not there were sufficient profits available out of which the dividend could have been paid, or the Company shall have failed to redeem on any applicable date on which the convertible preference shares were due for redemption, and

(ii) to attend at any general meeting unless the business of the meeting includes a resolution upon which such holders are entitled to vote

and the provisions of sub-paragraph (3)(a) shall no longer apply to such redesignated "A" Convertible Preference Share

Where a holder is entitled to vote under this sub-paragraph (b) he shall be entitled to such number of votes as equals the number of ordinary shares which would result from the exercise in full, immediately prior to the time for establishing the right to vote at the meeting at which such vote is to be taken, of the conversion rights attaching to the convertible preference shares held by such holder

(4) **Conversion**

(a) Subject as hereinafter provided, each holder of convertible preference shares shall be entitled at the times and in the manner set out in this Article to convert all or any of his convertible preference shares into fully paid ordinary shares on the basis of 52 6316 ordinary shares for every £100 in nominal amount of convertible preference shares so converted, and so in proportion for any greater or lesser nominal amount of convertible preference shares (such rate as adjusted from time to time as provided in sub-paragraphs (6)(a), (c) or (d) or (4)(o)) of this article being herein called **"the Conversion Rate"**) provided that if a Conversion Notice (as defined in sub-paragraph (4)(c) below) is given in respect of part only of a holding of convertible preference shares so that there would remain following conversion five or fewer such shares in that

holding, all the convertible preference shares in the holding shall be converted notwithstanding the figure inserted in the Conversion Notice

(b) For the purposes of the provisions of this article a **"Conversion Date"** shall be a day on or after the date which is sixty days after the date of adoption of this Article, but prior to the tenth anniversary of the date of issue of the first convertible preference shares to be issued (being the last Conversion Date), being the day on which the Board shall allot (and in any case where such allotment is conditional, such day shall be the day on which such allotment becomes unconditional) the ordinary shares arising upon the conversion of the shares specified in a Conversion Notice

(c) Such right shall be exercisable on any day (other than a Saturday, Sunday or a day which is a public holiday in England) by completing the notice of conversion endorsed on the share certificate relating to the convertible preference shares to be converted or a notice in such other form as may from time to time be prescribed by the directors (a **"Conversion Notice"**) and delivering the same to the registrars for the time being of the Company together with, in any case where there is doubt or uncertainty over the title to the shares in question, such other evidence (if any) as the directors may reasonably require to prove the title of the person exercising such right to convert A Conversion Notice once given may not be withdrawn without the consent in writing of the Company

(d) Conversion of such convertible preference shares as may be specified in any Conversion Notice (the **"Relevant Shares"**) shall be effected in such manner as the directors shall from time to time determine in accordance with the following provisions of this Article or otherwise as may be authorised by law

(e) The directors may, subject as herein provided, determine to effect conversion by electing to redeem at par the Relevant Shares (or any of them) on any Conversion Date out of the profits of the Company which would otherwise be available for distribution to the holders of any class of shares The convertible preference shares shall confer upon the holders thereof the right and the obligation (in the event that the convertible preference shares held by them respectively become Relevant Shares and the directors determine to redeem the same at par out of profits as aforesaid) to subscribe for the appropriate number of ordinary shares at the applicable Conversion Rate at such premium (if any) as shall represent the amount by which the redemption monies in respect of the Relevant Shares exceed the nominal amount of the ordinary shares to which the holders are so entitled In any such case, the Conversion Notice given by a holder of Relevant Shares shall be deemed irrevocably to authorise and instruct the directors to apply the redemption monies payable to him in subscribing for such ordinary shares at such premium (if any) as aforesaid

(f) The directors may, subject as herein provided and if duly authorised to allot such ordinary shares in accordance with the provisions of the Act and these Articles, determine to effect conversion by electing to redeem at par the Relevant Shares (or any of them) on any Conversion Date out of the proceeds of a fresh issue of ordinary shares The convertible preference shares shall confer upon the holders thereof the right and the obligation (in the event that the convertible preference shares held by them respectively become Relevant Shares and the directors determine to redeem the same at par out of the proceeds of a fresh issue as aforesaid) to subscribe, and the holders shall be deemed irrevocably to authorise and instruct the secretary of the Company (or any other person appointed for the purpose by the directors) to subscribe as agent on the holder's behalf, for the appropriate number of ordinary shares (which authority shall include the right to borrow money) at the applicable Conversion Rate at such premium (if any) as shall represent the amount by which the redemption monies in respect of the Relevant Shares exceed the nominal amount of the ordinary shares to which the holders are so entitled In any such case, the Conversion Notice given by a holder of Relevant Shares shall be deemed irrevocably to authorise and instruct the directors following the allotment of such ordinary shares to apply the redemption monies payable to him in payment to his said agent who shall be entitled to retain the same for his own benefit without being accountable therefor to such holder

(g) The directors may, if duly authorised to allot such ordinary shares in accordance with the provisions of the Act and these articles, determine to effect conversion by electing to redeem at par the Relevant Shares (or any of them) on the Conversion Date (i) in part, up to an amount equal to any applicable stamp duty, transfer duty or stamp duty reserve tax in respect of the renunciation referred to below, out of profits of the Company which would otherwise be available for distribution, and (ii) in part, out of the proceeds of a fresh issue of the number of ordinary shares into which the relevant shares are required to be converted at the Conversion Rate, such issue to be at such premium (if any) as shall represent (i) the amount by which the redemption moneys in respect of the relevant shares exceed the nominal value of such ordinary shares less (ii) an amount equal to any applicable stamp duty, transfer duty or stamp duty reserve tax in respect of the renunciation referred to below In such event the directors shall arrange for the allotment of the appropriate number of ordinary shares to some person selected by them on terms that such person will subscribe and pay for such ordinary shares at such premium (if any) as aforesaid and renounce the allotment of such ordinary shares in favour of the holder of the relative Relevant Shares (and will also pay any applicable stamp duty, transfer duty or stamp duty reserve tax in respect of such renunciation) against payment to such subscriber by the Company of the redemption moneys in respect of such shares so redeemed (which redemption moneys shall be equal to the amount payable to the holder of the relative Relevant Shares as aforesaid) In any such case, the Conversion Notice given by a holder of Relevant Shares shall be deemed to have authorised and instructed the directors to pay the redemption moneys in respect of his Relevant Shares to the subscriber of the ordinary shares renounced in his favour

(h) The directors may determine to effect conversion by means of consolidation and sub-division In such case the requisite consolidation and sub-division shall be effected pursuant to the authority given by the passing in general meeting of the resolution creating the convertible preference shares, by consolidating into one share all the Relevant Shares at any one or more Conversion Dates held by any holder or joint holders and sub-dividing such consolidated share into shares of 3p each (or such other amount as may be appropriate as a result of any consolidation or sub-division, of the ordinary shares) of which 52 6316 shares for each £100 nominal amount of the consolidated share (or such other number of shares as may be appropriate as a result of any adjustment pursuant to the provisions of sub-paragraph (6)(a), (c) or (d) or (4)(o) of this Article) shall be ordinary shares (and so in proportion for any other nominal amount of the consolidated share), fractional entitlements being disregarded, and the balance of such shares (including any fractions) shall be non-voting deferred shares (**"Non-voting Deferred Shares"**) which shall have the following rights and be subject to the following restrictions

(i) on a return of capital on winding-up or otherwise, the Non-voting Deferred Shares shall entitle the holders thereof only to the repayment of the amounts paid up on such shares after payment in respect of each ordinary share of the capital paid up on such shares together with £100,000,

(ii) the Non-voting Deferred Shares shall not entitle the holders thereof to the payment of any dividend or other distribution,

(iii) the Non-voting Deferred Shares shall not entitle the holders thereof to receive notice of or attend or vote at any general meeting of the Company

Such conversion shall be deemed to confer irrevocable authority on the Company at any time thereafter to appoint any person to execute on behalf of the holders of such Non-voting Deferred Shares a transfer thereof (and/or an agreement to transfer the same) to such person as the Company may determine as custodian thereof and/or to purchase the same (in accordance with the provisions of the Act) in any such case for not more than 1p for all the Non-voting Deferred Shares without obtaining the sanction of the holder or holders thereof and pending such transfer and/or purchase to retain the certificate for such Non-voting Deferred Shares Subject to the provisions of the Act, the Company may at its option at any time after the creation of any Non-voting Deferred

Shares redeem all of the Non-voting Deferred Shares then in issue, at an aggregate price not exceeding 1p for all the Non-voting Deferred Shares redeemed, at any time upon giving the registered holders of such shares not less than 28 days' previous notice in writing of its intention so to do, fixing a time and place for the redemption and, at such time and place so fixed, such registered holders shall be bound to surrender to the Company the certificates for the Non-voting Deferred Shares in order that the same may be cancelled and the Company shall pay the redemption monies to one of such registered holders to be determined by lot

(i) In addition to the right to determine to effect conversion by means of consolidation and sub-division in accordance with the foregoing provisions of this paragraph (4), the Directors may consolidate into one share all the Relevant Shares at any one or more Conversion Dates held by any holder or joint holders and sub-divide such share into the appropriate number of ordinary shares, in which event such ordinary shares, notwithstanding that they may have a different nominal amount from other ordinary shares then in issue, shall form a uniform class with all such shares and shall notwithstanding any contrary provision herein for all purposes and in all respects (including without limitation entitlement to dividends or other distributions, participation in offers, voting rights, rights on liquidation or return of capital) rank pari passu with all other fully paid ordinary shares for which purpose the nominal amount of each ordinary share arising on such consolidation and sub-division shall be deemed to be 3p (or such other amount as may be appropriate as a result of any sub-division or consolidation of the ordinary shares) and the nominal amount of the ordinary shares into which the Relevant Shares shall convert shall (subject to adjustment as aforesaid) also be deemed to be 3p

(j) Any fractions of ordinary shares arising on conversion shall be aggregated and sold on behalf of such holders of Relevant Shares at the best price reasonably obtainable and the net proceeds of sale shall be distributed pro rata among such holders who would otherwise have been entitled unless in respect of any holding of the Relevant Shares the amount to be distributed would be less than £3 00 in which case such amount shall not be so distributed but shall be retained for the benefit of the Company For the purpose of implementing the provisions of this sub-paragraph (4)(i), the directors may appoint some person to execute transfers or renunciations on behalf of persons otherwise entitled to any such fractions and generally may make all arrangements which appear to them necessary or appropriate for the settlement and disposal of fractional entitlements

(k) Save in the circumstances specified below, the preferential dividend on any convertible preference shares converted (whatever the manner of conversion) shall cease to accrue with effect from the fixed dividend date last preceding the relevant Conversion Date In the event that conversion is effected at the rate and in the circumstances described in paragraph (o) below or follows immediately after service of a notice under sub-paragraph (5)(c) below, the preferential dividend shall cease to accrue with effect from the day immediately preceding the Conversion Date The ordinary shares arising on any conversion shall rank pari passu in all respects with the ordinary shares in issue on the Conversion Date, except that the ordinary shares so allotted will not rank for any dividend or other distribution which has been announced, declared, recommended or resolved upon prior to the Conversion Date by the directors or by the Company in general meeting to be paid or made, if the record date for such dividend or other distribution is prior to the Conversion Date and notice of the intended dividend or other distribution and of the record date has been given to the London Stock Exchange prior to such Conversion Date

(l) Subject to sub-paragraph (4)(n) of this Article below, allotments of ordinary shares arising from conversion (whatever the manner of conversion) shall be effected within 2 business days of the receipt of the relevant Conversion Notice and relevant entries made in the register of members immediately thereafter Within 14 days after the Conversion Date, the Company shall send to each holder of the Relevant Shares, by post at his own risk, free of charge, a definitive certificate for the appropriate number of fully-paid ordinary shares arising on conversion that are in certificated form and a new

certificate for any unconverted convertible preference shares comprised in the certificates surrendered by him together, where relevant, with a cheque in respect of any cash entitlement arising from the sale of fractions In the meantime transfers shall be certified against the Register In the case of ordinary shares that are in uncertificated form, the Company will procure that the Operator is instructed to credit the appropriate stock accounts, in the relevant system with the appropriate number of ordinary shares

(m) The Company shall use its best endeavours to procure that the ordinary shares arising on conversion are admitted to the Official List and admitted to trading on the London Stock Exchange

(n) The conversion rights of a holder of convertible preference shares are subject, as regards their exercise, to the approval of the UK Listing Authority in any case where such approval is required Where, in accordance with the Listing Rules, the allotment of ordinary shares arising on the exercise of conversion rights in respect of any convertible preference shares would require the preparation by the Company of listing particulars or a prospectus, the allotment of such ordinary shares shall be effected within 45 days of receipt of the relevant Conversion Notice and the other periods referred to in sub-paragraph (4)(l) of this Article shall be adjusted accordingly The Company shall use all reasonable endeavours to apply for listing and to publish listing particulars as soon as possible

(o) If the holder of convertible preference shares exercises the right to convert the whole but not part only of his holding of convertible preference shares by giving a Conversion Notice which is not more than 30 days after receipt by the holder of the notification of the occurrence of a Relevant Event then the Conversion Rate shall be, for every £100 in nominal amount of convertible preference shares so converted, on or prior to certain anniversaries of the date of first issue of any convertible preference shares (an **"Anniversary"**) the number of ordinary shares shown below and after that the Conversion Rate (as defined in sub-paragraph (4)(a) of this Article)

Date of Conversion Notice	**Conversion Rate**
On or before first Anniversary	55 5556
On or before second Anniversary	54 0541

(5) **Redemption and purchase**

(a) Where a holder of convertible preference shares has given a Conversion Notice in respect thereof, such convertible preference shares may be redeemed at the option of the Company at the price(s), in the manner and in the circumstances specified in sub-paragraphs (4)(e), (f) or (g) of this Article and in the case of any such redemption, the redemption monies shall become payable on redemption but shall be applied in accordance with those sub-paragraphs

(b) Except where a Conversion Notice has previously been given the Company shall, subject to the Act, redeem on the tenth anniversary of the date of first issue of any convertible preference shares, the whole of the convertible preference shares if any in issue on that date

(c) The Company may by giving the holders of the convertible preference shares not less than 15 and not more than 30 days notice in writing subject to the Act, redeem the whole (but not part only) of the convertible preference shares (if any) in issue

(i) at any time following the date upon which the aggregate nominal amount of shares remaining in issue as convertible preference shares shall be less than 10 per cent of the aggregate nominal amount of shares at any time issued as convertible preference shares,

(ii) on or at any time after the fifth anniversary of the date of issue of the first convertible preference shares to be issued, or

(iii) within 14 days of the occurrence of a Withholding Event (as defined in sub-paragraph (9)(c) of this Article)

provided always that the Company's right to redeem shall be subject to the holder not having given a Conversion Notice prior to the Redemption Date

(d) As soon as practicable following the occurrence of any Relevant Event, the Company shall give notice of that event to the holders of Convertible Preference Shares Following the occurrence of a Relevant Event, on any date which is not more than 30 days following the later of the occurrence of such Relevant Event or receipt of such notice, a holder of convertible preference shares may require the Company to redeem the whole (but not part only) of the convertible preference shares held by such holder In that event the Company shall redeem such convertible preference shares on the date which is 7 days, or, in the case of an event of the kind described in sub-paragraph (iii) of the definition of Relevant Event, 90 days (or in the event of such date being a Saturday, Sunday, or public holiday in England on the first business day following such date) after the earlier of

(i) receipt of the notice by the Company as referred to in this sub-paragraph, or

(ii) receipt by the Company of notice of redemption under this sub-paragraph

(e) The date upon which a convertible preference share is to be redeemed in accordance with the foregoing provisions of this paragraph 5 is hereinafter referred to as the **"Redemption Date"**

(f) There shall be paid on each convertible preference share so redeemed the nominal amount paid up or credited as paid up thereon together with a sum equal to all arrears of the preferential dividend thereon to be calculated down to and including the Redemption Date on the footing that it continues to accrue from day to day down to that date and to be payable irrespective of whether or not such preferential dividend has been declared or earned

(g) Upon the Redemption Date each of the holders of the convertible preference shares shall be bound to deliver to the Company at the Office the certificate(s) for the convertible preference shares held by him and upon such delivery the Company shall pay to such holder the amount due to him in respect of such redemption

(h) As from the Redemption Date the preferential dividend shall cease to accrue on the convertible preference shares except on any such convertible preference share in respect of which, upon due presentation of the certificate relating thereto, payment of the money due at such redemption shall be refused in which case the preferential dividend shall be deemed to have continued and shall continue to accrue from the relevant Redemption Date to the date of payment

(i) The receipt of the registered holder for the time being of any convertible preference shares or in the case of joint registered holders the receipt of any of them for the monies payable on redemption thereof shall constitute an absolute discharge to the Company in respect thereof

(j) Subject to the provisions of the Act and the Listing Rules, the Company may at any time purchase convertible preference shares by tender (available alike to all holders of convertible preference shares) or by private treaty, in each case at a price (exclusive of all costs of purchase) which shall not exceed 110 per cent of the nominal amount of a convertible preference share but not otherwise, and upon such other terms and conditions as it may think fit The Company may exercise its rights and powers of purchase as regards the convertible preference shares at its sole discretion and without obligation to maintain the ratio between the nominal amounts for the time being outstanding of any series No holder shall be obliged to sell any convertible preference shares held by it in such event

(k) Upon the redemption of all outstanding convertible preference shares the directors may pursuant to the authority given by the adoption of this article convert and sub-divide the authorised but unissued preference share capital created as a consequence of such redemption into shares of any other class of share capital into which the authorised share capital of the Company is or may at that time be divided of a like nominal amount (as nearly as may be) as the shares of such class then in issue or into unclassified shares of the same nominal amount as the convertible preference shares

(6) **Adjustments and Protections**

(a) If, whilst any convertible preference shares remain capable of being converted into ordinary shares, the Company shall make any issue of ordinary shares by way of capitalisation of profits or reserves (including any share premium account and capital redemption reserve) to holders of ordinary shares, then the number of ordinary shares to be issued on any subsequent conversion of convertible preference shares shall be increased pro rata to the increase in the aggregate number of ordinary shares in issue immediately prior to such issue No adjustments shall be made in the event of the issue of shares by way of capitalisation of profits or reserves in lieu of ordinary cash dividends

(b) If any offer or invitation by way of rights or otherwise (not being either an offer of shares by way of capitalisation of profits or reserves at the option of a holder of ordinary shares in lieu of ordinary cash dividends or an offer or invitation to which the provisions of sub-paragraph (7)(a)(ii) of this Article apply) is made to the holders of the ordinary share capital of the Company, the Company shall make or procure that there is made a like offer at the same time to each holder of convertible preference shares as if he held the number of ordinary shares which would result from the exercise in full immediately prior to the record date of such offer of the conversion rights attaching to the convertible preference shares held by such holder

In the case of any offer or invitation as aforesaid being made the entitlement of the holders of the convertible preference shares shall be to the exclusion of any other right or entitlement to which such holders might otherwise be entitled

(c) If whilst any convertible preference shares remain capable of being converted into ordinary shares, the ordinary shares shall be consolidated or sub-divided, the number of ordinary shares to be issued on any subsequent conversion of convertible preference shares shall be reduced or increased pro rata to the reduction or increase in the aggregate number of ordinary shares in issue immediately prior to such reduction or increase

(d) If whilst any convertible preference shares remain capable of being converted into ordinary shares, the Company shall make any capital distribution to the holders of ordinary shares, the number of ordinary shares to be issued on any subsequent conversion of the convertible preference shares shall be increased by an amount determined to be appropriate by the Board acting reasonably and in good faith For the purposes of this sub-paragraph (6)(d), "capital distribution" means

(i) any distribution of assets in specie,

(ii) any dividend or other distribution of capital profits (whether realised or not) or capital reserves, or profits or reserves arising after the date of the passing in general meeting of the resolution creating the convertible preference shares from a distribution of capital profits (whether realised or not) or capital reserves by a subsidiary, except in either case by means of a capitalisation issue not contravening sub-paragraph (7)(a)(i) of this Article For the purposes of this sub-paragraph (6)(d), insofar as the relevant audited accounts do not distinguish between capital and revenue profits or reserves, the Company shall be entitled to rely upon a determination by the Board (given in good faith and acting reasonably) as to the extent to which any part of any profit or reserve should be regarded as of a capital nature

(e) Except in the event that arrangements are or have been offered to the holders of the convertible preference shares which ensure that the rights of such holders would not be prejudiced, the Company will procure that no scheme of compromise or arrangement within the meaning of section 425 of the Act affecting the ordinary shares shall become effective unless the holders of convertible preference shares shall be parties to the scheme and unless the scheme shall be approved by such holders in the manner prescribed by the said section

(f) Except in pursuance of a scheme approved in accordance with sub-paragraph (6)(e) above or in accordance with sub-paragraph (6)(d), the Company shall not (prior to the day next following the final Conversion Date) give effect to any arrangement pursuant to which the Company is to make a distribution of the kind described in section 213 of the Income and Corporation Taxes Act 1988 whereby shares are to be issued or transferred to all or any of the ordinary shareholders unless it shall have given to the holders of convertible preference shares prior notice thereof, such notice to be given not less than 42 days prior to the proposed record date in respect of the entitlement of ordinary shareholders to receive the shares to be issued or transferred

(7) **Other Provisions**

(a) So long as any convertible preference shares remain capable of being converted into ordinary shares then, save with the consent or sanction on the part of the holders of three quarters in nominal value of the convertible preference shares

(i) no shares shall be allotted pursuant to a capitalisation of profits or reserves (including any share premium account or capital redemption reserve) except ordinary shares, credited as fully-paid, to the holders of ordinary shares and upon any allotment to the holders of ordinary shares the Conversion Rate shall be adjusted as appropriate under paragraph (6) of this Article,

(ii) no equity share capital (as defined by section 744 of the Act) shall be in issue which is not in all respects uniform with the ordinary shares of the Company in issue on the date of adoption of this Article, save

(a) as to the date from which such capital shall rank for dividend, or

(b) for equity share capital issued in connection with or pursuant to any scheme approved by the Company in general meeting to staff and/or employees (including directors of the Company or its subsidiaries holding executive positions) or any such group thereof, or

(c) for equity share capital which has attached thereto rights as to dividend, capital or voting, which in no respect are more favourable than those attached to the ordinary shares in issue at the date of adoption of this Article, or

(d) for the convertible preference shares (and provided that no authorised convertible preference share capital remaining after the conversion or redemption of any such share shall be available for re-issue),

(iii) no resolution shall be passed whereby the rights attaching to the ordinary shares shall be modified, varied or abrogated,

(iv) the Company shall not (except as authorised by sections 146(2), 159, 160 or 162 of the Act in respect of redeemable shares or of shares purchased by it as hereinbefore mentioned) reduce its ordinary share capital or any uncalled liability in respect thereof or (except as authorised by sections 130(2), 160(2) and 170(4) of the Act) any share premium account or capital redemption reserve and the Company shall not purchase any of its own shares otherwise than pursuant to paragraphs (4) or (5) of this Article,

(v) the Company shall procure that at all times up to the last Conversion Date there shall be sufficient authorised but unissued ordinary share capital available for the purposes of converting any convertible preference shares pursuant to paragraph (4) of this article and the Company shall seek always to maintain authorities under Sections 80 and 89 of the Act (for the longest period permissible thereunder) sufficient to permit such conversion,

(vi) the Company shall not do any act or thing resulting in an adjustment to the Conversion Rate if in consequence such rate would involve the issue of ordinary shares at a discount to their par value,

(vii) the convertible preference shares shall not be consolidated or sub-divided save pursuant to the authority contained in the resolution adopting this article for the purposes of enabling conversion to be effected by means of consolidation and sub-division,

(viii) the Company shall not do any act or thing such that the aggregate of

(A) the number of ordinary shares which would result from the exercise in full of conversion rights attaching to the number of convertible preference shares held at that date by a single holder thereof, and

(B) the number of ordinary shares held at that date by such holder and which resulted from any previous exercise of conversion rights attaching to convertible preference shares,

shall be greater than 19 9 per cent of the entire issued ordinary share capital of the Company at that time

(b) If a resolution is passed or an Order of Court is made for the Company to be wound up, the Company shall forthwith give notice thereof in writing to all holders of convertible preference shares Each holder of his convertible preference shares in respect of all or any of his convertible preference shares shall be entitled within six weeks after the date of the resolution to wind up the Company or (as the case may be) after the date of the Order of the Court for such winding-up (either of such dates being referred to in this sub-paragraph as the **"operative date"**) by notice in writing to the Company to elect to be treated as if his conversion rights had been exercised immediately before the operative date in accordance with paragraph (4) of this article but taking into account sub-paragraph 3(4)(o) of this Article as if such exercise took place within 30 days of the occurrence of a Relevant Event and in that event such holder shall be entitled to be paid in satisfaction of the amount due in respect of such of its convertible preference shares as are to be treated as if converted a sum equal to the amount to which such holder would have become entitled in such liquidation if it had been the holder of the ordinary shares to which such holder would have become entitled by virtue of such conversion (fractions being disregarded for this purpose)

(c) In the event that any convertible preference shares are transferred in consequence of a public offering to any party other than Royal Caribbean Cruises Ltd or one of its subsidiary undertakings, upon registration of such transfer any convertible preference share so transferred shall automatically be redesignated as an "A" Convertible Preference Share having all the rights and entitlements attached to a convertible preference share and ranking pari passu with the convertible preference shares save that

(i) the provisions of paragraphs (1)(B), (3)(a), (9)(b) and (9)(c)(ii) of this Article shall not apply and shall not attach to any "A" Convertible Preference Share,

(ii) the provisions of paragraph (3)(b) of this Article shall apply and attach to such "A" Convertible Preference Shares, and

(iii) the provisions of paragraphs (4)(o) and (5)(d) of this Article shall apply and attach to such "A" Convertible Preference Shares only where the Relevant Event

referred to therein shall be an event set out in one of sub-paragraphs (i), (iv) or (v) of the definition of "Relevant Event" in these Articles

(d) So long as any convertible preference shares remain capable of being converted into ordinary shares, if any offer is made to all (or as nearly as may be practicable all) ordinary shareholders (or all (or as nearly as may be practicable all) ordinary shareholders other than the offeror and/or any associates of the offeror (as defined in section 430E(4) of the Act)) to acquire all or a majority of the issued ordinary share capital of the Company, or if any person proposes a scheme with regard to such acquisition, the Company shall give notice of such offer or scheme to the holders of convertible preference shares at the same time as any notice thereof is sent to its ordinary shareholders (or as soon as practicable thereafter) and enclose the same information about the offer or scheme as it provides to the ordinary shareholders

(8) **Further issues of preference shares**

The Company may not, save with the consent or sanction of three quarters in nominal value of the holders of the convertible preference shares, create and issue further preference shares (herein called **"further preference shares"**) ranking as regards participation in the profits and assets of the Company either pari passu with or in priority to the convertible preference shares

(9) **Withholding Tax etc**

(a) The preferential dividend and any sums payable in respect of the redemption of convertible preference shares shall be paid without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the United Kingdom or any political subdivision thereof or any authority thereof or therein having power to levy the same unless such withholding or deduction is required by law In that event, the Company and the holders of the convertible preference shares shall comply with sub-paragraph (9)(b) of this Article and pending the taking of any such steps as are referred to therein, the Company shall pay by way of dividend such additional amounts as will result in the receipt by the holders of convertible preference shares of such net amounts as would have been received by them had no such withholding or deduction been required and provided that no such additional amounts will be payable where the holder is liable for such taxes, duties, assessments or governmental charges solely by reason of his having connection with the United Kingdom having nothing to do with the Company

(b) In the circumstances referred to in sub-paragraph (9)(a) of this Article, the Company shall use all reasonable endeavours to amend or propose amendments to the terms of the convertible preference shares or other steps or measures so as to remedy the requirement to withhold or make any deductions Following the giving of a notice by the Company to the holders of the convertible preference shares the Company and the holders of the convertible preference shares shall seek to identify and agree any steps the taking of which would mean that such withholding or deduction shall not be required In the event that such agreement is reached it shall be recorded in writing between the Company and the relevant shareholders and thereafter implemented in accordance with its terms within 60 days of such notice to such holders

(c) A Withholding Event (as referred to in sub-paragraph (5)(c)(iii)) shall occur in relation to a shareholder where -

(i) with respect to that shareholder the Company would be obliged to pay additional amounts as referred to in sub-paragraph (9)(a) of this Article such additional amounts being in aggregate not less than 30 per cent of the net amounts which would have been received by the holders of the convertible preference shares had no such withholding or deduction been required, and

(ii) within 90 days of a notice given by the Company under sub-paragraph (9)(b) of this Article, no such agreement has been recorded in writing or variation made as referred to in that paragraph,

but not earlier than 30 days prior to the earliest date on which the Company would be obliged to pay such additional amounts were a payment in respect of the convertible preference shares then due

(d) If

(i) the Company pays to a holder of convertible preference shares any additional amounts as referred to in sub-paragraph (9)(a) of this Article, and

(ii) such holder of convertible preference shares has received or been granted a credit against or relief or remission from or repayment of any tax in respect of or calculated by reference to the payment of such additional amount or to the deduction or withholding which has given rise to such additional payment,

such holder of convertible preference shares shall pay to the Company, promptly on obtaining the same, the amount of the credit against or relief or remission from or repayment of tax up to a maximum of such amount as such holder of convertible preference shares certifies will leave it (after such payment) in no worse after-tax position than it would have been in had the relevant withholding or deduction never been required This sub-paragraph shall not impose any obligation on a holder of convertible preference shares

(A) to manage its tax or other affairs in any particular manner, or

(B) to disclose any information concerning its tax affairs to the Company or to any other person

4 Subject to the provisions of the Act and without prejudice to any rights attached to any existing shares, any share may be issued with such rights or restrictions as the Company may by ordinary resolution determine (or, if the Company has not so determined, as the directors may determine)

5 Subject to the provisions of the Act, any share may be issued which is or is to be liable, to be redeemed at the option of the Company or a holder on such terms and in such manner as may be provided by these articles

6 Subject to the provisions of the Act and these articles, the unissued shares in the Company shall be at the disposal of the directors, who may offer, allot, grant options over or otherwise dispose of them to such persons and on such terms as the directors think fit

7 The Company may exercise the powers of paying commissions conferred by the Act Subject to the provisions of the Act, any such commission may be satisfied by the payment of cash or by the allotment of fully or partly paid shares or partly in one way and partly in the other

8 Except as required by law, no person shall be recognised by the Company as holding any share upon any trust and (except as otherwise provided by these articles or by law) the Company shall not be bound by or recognise any interest in any share except an absolute right to the entirety of it in the holder

VARIATION OF RIGHTS

9 Subject to the provisions of the Act, if at any time the capital of the Company is divided into different classes of shares, the rights attached to any class may be varied, either while the Company is a going concern or during or in contemplation of a winding up -

(a) in such manner (if any) as may be provided by those rights, or

(b) in the absence of any such provision, with the consent in writing of the holders of three-quarters in nominal value of the issued shares of that class (excluding any

shares of that class held as treasury shares), or with the sanction of an extraordinary resolution passed at a separate meeting of the holders of the shares of that class,

but not otherwise To every such separate meeting the provisions of these articles relating to general meetings shall apply, except that the necessary quorum at any such meeting other than an adjourned meeting shall be two persons together holding or representing by proxy at least one-third in nominal value of the issued shares of the class in question (excluding any shares of that class held as treasury shares) and at an adjourned meeting shall be one person holding shares of the class in question (other than treasury shares) or his proxy

10 Unless otherwise expressly provided by the rights attached to any shares, those rights -

(a) shall be deemed to be varied by the reduction of the capital paid up on those shares and by the creation or issue of further shares ranking in priority for payment of a dividend or in respect of capital or which confer on the holders voting rights more favourable than those conferred by the first-mentioned shares,

(b) shall otherwise be deemed not to be varied by the creation or issue of further shares ranking pari passu with or subsequent to the first-mentioned shares, and

(c) shall be deemed not to be varied by the purchase by the Company of any of its own shares or the holding of such shares as treasury shares

SHARE CERTIFICATES

11 (1) Subject to paragraph 2 of this article, every holder of shares (other than a recognised person in respect of whom the Company is not required by law to complete and have ready a certificate) shall be entitled without payment to one certificate for all the shares of each class held by him (and, upon transferring a part of his holding of shares of any class, to a certificate for the balance of that holding) or, upon payment for every certificate after the first of such reasonable sum as the directors may determine, to several certificates each for one or more of his shares Every certificate shall be issued under the seal, or bearing an imprint or representation of the seal of such other form of authentication as the directors may determine, and shall specify the number, class and distinguishing numbers (if any) of the shares to which it relates and the amount or respective amounts paid up on them The Company shall not be bound to issue more than one certificate for shares held jointly by several persons and delivery of a certificate to one joint holder shall be a sufficient delivery to all of them

(2) Paragraph (1) of this article shall not apply in relation to shares in uncertificated form

(3) If a share certificate is defaced, worn out, lost or destroyed, it may be renewed on such terms (if any) as to evidence and indemnity and payment of any exceptional expenses incurred by the Company in investigating evidence as the directors may determine but otherwise free of charge, and (in the case of defacement or wearing out) on delivery up of the old certificate

LIEN

12 The Company shall have a first and paramount lien on every share (not being a fully paid share) for all amounts (whether presently payable or not) payable at a fixed time or called in respect of that share The directors may declare any share to be wholly or in part exempt from the provisions of this article The Company's lien on a share shall extend to all amounts payable in respect of it

13 The Company may sell, in such manner as the directors determine, any share on which the Company has a lien if an amount in respect of which the lien exists is presently payable and is not paid within fourteen clear days after notice has been given to the holder of the share, or the person entitled to it in consequence of the death or bankruptcy of the holder, demanding payment and stating that if the notice is not complied with the shares may be sold

14 To give effect to the sale the directors may, in the case of a share in certificated form, authorise some person to execute an instrument of transfer of the share sold to, or in accordance with the directions of, the purchaser, and, in the case of a share in uncertificated form, the directors may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer The title of the transferee to the share shall not be affected by any irregularity in or invalidity of the proceedings in reference to the sale

15 The net proceeds of the sale, after payment of the costs, shall be applied in payment of so much of the amount for which the lien exists as is presently payable, and any residue shall (upon surrender to the Company for cancellation of the certificate for the share sold, in the case of a share in certificated form, and subject to a like lien for any amount not presently payable as existed upon the share before the sale) be paid to the person entitled to the share at the date of the sale

CALLS ON SHARES AND FORFEITURE

16 Subject to the terms of allotment, the directors may make calls upon the members in respect of any amounts unpaid on their shares (whether in respect of nominal value or premium) and each member shall (subject to receiving at least fourteen clear days' notice specifying when and where payment is to be made) pay to the Company as required by the notice the amount called on his shares A call may be required to be paid by instalments A call may, before receipt by the Company of an amount due under it, be revoked in whole or in part and payment of a call may be postponed in whole or part A person upon whom a call is made shall remain liable for calls made upon him notwithstanding the subsequent transfer of the shares in respect of which the call was made

17 A call shall be deemed to have been made at the time when the resolution of the directors authorising the call was passed

18 The joint holders of a share shall be jointly and severally liable to pay all calls in respect of it

19 If a call or an instalment of a call remains unpaid after it has become due and payable the person from whom it is due shall pay interest on the amount unpaid, from the day it became due and payable until it is paid at the rate fixed by the terms of allotment of the shares in question or in the notice of the call or, if no rate is fixed, at the appropriate rate (as defined by the Act) but the directors may waive payment of the interest wholly or in part

20 An amount payable in respect of a share on allotment or at any fixed date, whether in respect of nominal value or premium or as an instalment of a call, shall be deemed to be a call and if it is not paid these articles shall apply as if that sum had become due and payable by virtue of a call

21 Subject to the terms of allotment, the directors may differentiate between the holders in the amounts and times of payment of calls on their shares

22 The directors may receive from any member willing to advance it all or any part of the amount unpaid on the shares held by him (beyond the sums actually called up) as a payment in advance of calls, and such payment shall, to the extent of it, extinguish the liability on the shares in respect of which it is advanced The Company may pay interest on the amount so received, or so much of it as exceeds the sums called up on the shares in respect of which it has been received, at such rate (if any) as the member and the directors agree

23 If a call or an instalment of a call remains unpaid after it has become due and payable the directors may give to the person from whom it is due not less than fourteen clear days' notice requiring payment of the amount unpaid together with any interest which may have accrued The notice shall name the place where payment is to be made and shall state that if the notice is not complied with the shares in respect of which the call was made will be liable to be forfeited If the notice is not complied with, any shares in respect of which it was given may, before the payment required by the notice has been made, be forfeited by a resolution of the directors and the forfeiture shall include all dividends and other amounts payable in respect of the forfeited shares and not paid before the forfeiture

24 Subject to the provisions of the Act, a forfeited share may be sold, re-allotted or otherwise disposed of on such terms and in such manner as the directors determine either to the person who was before the forfeiture the holder or to any other person and, at any time before the disposition, the forfeiture may be cancelled on such terms as the directors determine Where for the purposes of its disposal a forfeited share is to be transferred to any person, the directors may, in the case of a share in certificated form, authorise someone to execute an instrument of transfer and, in the case of a share in uncertificated form, the directors may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer of the share to that person

25 A person any of whose shares have been forfeited shall cease to be a member in respect of them and shall surrender to the Company for cancellation any certificate for the shares forfeited but shall remain liable to the Company for all amounts which at the date of forfeiture were presently payable by him to the Company in respect of those shares with interest at the rate at which interest was payable on those amounts before the forfeiture or, if no interest was so payable, at the appropriate rate (as defined in the Act) from the date of forfeiture until payment, but the directors may waive payment wholly or in part or enforce payment without any allowance for the value of the shares at the time of forfeiture or for any consideration received on their disposal

26 A statutory declaration by a director or the secretary that a share has been forfeited on a specified date shall be conclusive evidence of the facts stated in it as against all persons claiming to be entitled to the share and the declaration shall (subject to the execution of an instrument of transfer if necessary, in the case of a share in certificated form) constitute a good title to the share and the person to whom the share is disposed of shall not be bound to see to the application of the consideration, if any, nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings relating to the forfeiture or disposal of the share

TRANSFER OF SHARES

27 The instrument of transfer of a share in certificated form may be in any usual form or in any other form which the directors approve and shall be executed by or on behalf of the transferor and, where the share is not fully paid, by or on behalf of the transferee

28 (1) The directors may, in their absolute discretion and without giving any reason, refuse to register the transfer of a share in certificated form which is not fully paid They may also refuse to register a transfer of a share in certificated form unless the instrument of transfer -

(a) is lodged, duly stamped, at the Office or at such other place as the directors may appoint and (except in the case of a transfer by a recognised person where a certificate has not been issued in respect of the share) is accompanied by the certificate for the share to which it relates and such other evidence as the directors may reasonably require to show the right of the transferor to make the transfer,

(b) is in respect of only one class of share, and

(c) is in favour of not more than four transferees

(2) The directors may refuse to register a transfer of a share in uncertificated form in any case where the Company is entitled to refuse (or is excepted from the requirement) under the Uncertificated Securities Regulations to register the transfer, and they may refuse to register any such transfer in favour of more than four transferees

29 If the directors refuse to register a transfer of a share, they shall within two months after the date on which the transfer was lodged with the Company (in the case of a share in certificated form) or the date on which the Operator - instruction was received by the Company (in the case of a share in uncertificated form) send to the transferee notice of the refusal

30 Subject to the Uncertificated Securities Regulations, the registration of transfers of shares or of any class of shares may be suspended at such times and for such periods (not exceeding thirty days in any year) as the directors may determine

31 No fee shall be charged for the registration of any instrument of transfer or other document or instruction relating to or affecting the title to any share

32 The Company shall be entitled to retain any instrument of transfer which is registered, but any instrument of transfer which the directors refuse to register shall (except in the case of fraud) be returned to the person lodging it when notice of the refusal is given

33 Nothing in these articles shall preclude the directors from recognising a renunciation of the allotment of any share by the allottee in favour of some other person

TRANSMISSION OF SHARES

34 If a member dies the survivor or survivors where he was a joint holder, or his personal representatives where he was a sole holder or the only survivor of joint holders, shall be the only persons recognised by the Company as having any title to his interest, but nothing in this article shall release the estate of a deceased member from any liability in respect of any share which had been jointly held by him

35 A person becoming entitled to a share in consequence of the death or bankruptcy of a member may, upon such evidence being produced as the directors may properly require, elect either to become the holder of the share or to have some person nominated by him registered as the transferee If he elects to become the holder he shall give notice to the Company to that effect If he elects to have another person registered he shall execute an instrument of transfer of the share to that person All the provisions of these articles relating to the transfer of shares shall apply to the notice or instrument of transfer as if it were an instrument of transfer signed by the member and the death or bankruptcy of the member had not occurred

36 A person becoming entitled to a share by reason of the death or bankruptcy of a member shall have the rights to which he would be entitled if he were the holder of the share, except that he shall not, before being registered as the holder of the share, be entitled in respect of it to attend or vote at any general meeting or at any separate meeting of the holders of any class of shares

DISCLOSURE OF INTERESTS

37 (1) If a member, or any other person appearing to be interested in shares held by that member, has been given a notice under section 212 of the Act and has failed in relation to any shares (the **"default shares"**) to give the Company the information thereby required within fourteen days from the date of giving the notice, the following sanctions shall apply, unless the directors otherwise determine -

(a) the member shall not be entitled in respect of the default shares to be present or to vote (either in person or by representative or proxy) at any general meeting or at any separate meeting of the holders of any class of shares or on any poll or to exercise any other right conferred by membership in relation to any such meeting or poll, and

(b) where the default shares represent at least 0 25 per cent of their class (calculated exclusive of treasury shares) -

(i) any dividend payable in respect of the shares shall be withheld by the Company, which shall not have any obligation to pay interest on it, and the member shall not be entitled to elect, pursuant to these articles, to receive shares instead of that dividend, and

(ii) no transfer, other than an excepted transfer, of any shares held by the member in certificated form shall be registered unless -

(A) the member is not himself in default as regards supplying the information required, and

(B) the member proves to the satisfaction of the directors that no person in default as regards supplying such information is interested in any of the shares the subject of the transfer

(2) Where the sanctions under paragraph (1) of this article apply in relation to any shares, they shall cease to have effect at the end of the period of seven days (or such shorter period as the directors may determine) following the earlier of

(a) receipt by the Company of the information required by the notice mentioned in that paragraph, and

(b) receipt by the Company of notice that the shares have been transferred by means of an excepted transfer,

and the directors may suspend or cancel any of the sanctions at any time in relation to any shares

(3) Any new shares in the Company issued in right of default shares shall be subject to the same sanctions as apply to the default shares, and the directors may make any right to an allotment of the new shares subject to sanctions corresponding to those which will apply to those shares on issue provided that any sanctions applying to, or to a right to, new shares by virtue of this paragraph shall cease to have effect when the sanctions applying to the related default shares cease to have effect (and shall be suspended or cancelled if and to the extent that the sanctions applying to the related default shares are suspended or cancelled), and provided further that paragraph (1) of this article shall apply to the exclusion of this paragraph if the Company gives a separate notice under section 212 of the Act in relation to the new shares

(4) Where, on the basis of information obtained from a member in respect of any share held by him, the Company gives a notice under section 212 of the Act to any other person, it shall at the same time send a copy of the notice to the member, but the accidental omission to do so, or the non-receipt by the member of the copy, shall not invalidate or otherwise affect the application of paragraph (1) of this article

(5) For the purposes of this article -

(a) a person, other than the member holding a share, shall be treated as appearing to be interested in that share if the member has informed the Company that the person is, or may be, so interested, or if the Company (after taking account of any information obtained from the member or, pursuant to a notice under section 212 of the Act, from anyone else) knows or has reasonable cause to believe that the person is, or may be, so interested,

(b) "interested" shall be construed as it is for the purpose of section 212 of the Act,

(c) reference to a person having failed to give the Company the information required by a notice, or being in default as regards supplying such information, includes (i) reference to his having failed or refused to give all or any part of it and (ii) reference to his having given information which he knows to be false in a material particular or having recklessly given information which is false in a material particular,

(d) an " excepted transfer" means, in relation to any shares held by a member -

(i) a transfer pursuant to acceptance of a take over offer (within the meaning in Part XIII A of the Act) in respect of shares in the Company),or

(ii) a transfer in consequence of a sale made through a recognised investment exchange (as defined in the Financial Services Act 1986) or any other stock exchange outside the United Kingdom on which the Company's shares are normally traded, or

(iii) a transfer which is shown to the satisfaction of the directors to be made in consequence of a sale of the whole of the beneficial interest in the shares to a person who is unconnected with the member and with any other person appearing to be interested in the shares

(6) Nothing in this article shall limit the powers of the Company under section 216 of the Act or any other powers of the Company whatsoever

UNTRACED MEMBERS

38 (1) The Company shall be entitled to sell at the best price reasonably obtainable any share held by a member, or any share to which a person is entitled by transmission, if -

(a) for a period of 12 years no cheque or warrant for amounts payable in respect of the share sent and payable in a manner authorised by these articles has been cashed and no communication has been received by the Company from the member or person concerned,

(b) during that period at least three dividends in respect of the share have become payable,

(c) the Company has, after the expiration of that period, by advertisement in a national newspaper published in the United Kingdom and in a newspaper circulating in the area of the registered address or last known address of the member or person concerned, given notice of its intention to sell such share, and has informed the Stock Exchange of that intention, and

(d) the Company has not during the further period of three months after the date of the advertisement and prior to the sale of the share received any communication from the member or person concerned

(2) The Company shall also be entitled to sell at the best price reasonably obtainable any additional share issued during the said period of twelve years in right of any share to which paragraph (1) of this article applies (or in right of any share so issued), if the criteria in sub-paragraphs (a), (c) and (d) of that paragraph are satisfied in relation to the additional share (but as if the words "for a period of twelve years" were omitted from sub-paragraph (a) and the words ", after the expiration of that period," were omitted from sub-paragraph (c))

(3) To give effect to the sale of any share pursuant to this article the Company may, in the case of a share in certificated form, authorise any person to execute an instrument of transfer of the share sold to, or in accordance with the directions of the purchaser, and in the case of a share in uncertificated form, the Company may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as it thinks fit to effect the transfer The purchaser shall not be bound to see to the application of the proceeds of sale, nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings relating to the sale The Company shall be indebted to the member or other person entitled to the share for an amount equal to the net proceeds of the sale, but no trust or duty to account shall arise and no interest shall be payable in respect of the proceeds of sale

ALTERATION OF CAPITAL

39 The Company may by ordinary resolution -

(a) increase its share capital by new shares of such amount as the resolution prescribes,

(b) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares,

(c) subject to the provisions of the Act, sub-divide its shares, or any of them, into shares of smaller amount that is fixed by the memorandum,

(d) determine that, as between the shares resulting from such a sub-division, any of them may have any preference or advantage as compared with the others, and

(e) cancel shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person, and diminish the amount of its share capital by the amount of the shares so cancelled

40 Whenever as a result of a consolidation of shares any members would become entitled to fractions of a share, the directors may on behalf of those members sell to any person (including, subject to the provisions of the Act, the Company) the shares representing the fractions for the best price reasonably obtainable and distribute the net proceeds of sale in due proportion among those members, and the directors may in, the case of shares in certificated form authorise some person to execute an instrument of transfer of the shares to or in accordance with the directions of the purchaser, and, in the case of shares in uncertificated form, the directors may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer The transferee shall not be bound to see to the application of the purchase money nor shall his title to the shares be affected by any irregularity in or invalidity of the proceedings in reference to the sale

41 Subject to the provisions of the Act, the Company may by special resolution reduce its share capital, any capital redemption reserve and any share premium account, in any way

PURCHASE OF OWN SHARES

42 Subject to the provisions of the Act, the Company may purchase its own shares, including redeemable shares, and may hold such shares as treasury shares or cancel them, but, subject to article 3, not unless the purchase has been sanctioned by an extraordinary resolution passed at a separate meeting of the holders of any class of convertible shares in the Company

GENERAL MEETINGS

43 All general meetings other than annual general meetings shall be called extraordinary general meetings

44 The directors may call general meetings If there are not within the United Kingdom sufficient directors to call a general meeting, any director or, if there is no director within the United Kingdom, any member of the Company may call a general meeting

NOTICE OF GENERAL MEETINGS

45 Subject to the provisions of the Act, an annual general meeting and an extraordinary general meeting called for the passing of a special resolution shall be called by at least twenty-one clear days' notice, and all other extraordinary general meetings shall be called by at least fourteen clear days' notice The notice shall specify the place, the day and the time of meeting and the general nature of the business to be transacted, and in the case of an annual general meeting shall specify the meeting as such Subject to the provisions of these articles and to any rights or restrictions attached to any shares, notices shall be given to all members, to all persons entitled to a share in consequence of the death or bankruptcy of a member and to the directors and auditors of the Company

46 The accidental omission to give notice of a meeting to, or the non-receipt of notice of a meeting by, any person entitled to receive notice shall not invalidate the proceedings at that meeting

PROCEEDINGS AT GENERAL MEETINGS

47 No business shall be transacted at any meeting unless a quorum is present Two persons entitled to vote upon the business to be transacted, each being a member or a proxy for a member or a duly authorised representative of a corporation which is a member, shall be a quorum

48 If a quorum is not present within half an hour after the time appointed for holding the meeting, or if during a meeting a quorum ceases to be present, the meeting shall stand adjourned to the same day in the next week at the same time and place, or to such day, time and place as the directors may determine If at the adjourned meeting a quorum is not present within fifteen minutes after the time appointed for holding the meeting, the meeting shall be dissolved

49 The chairman (if any) of the board of directors, or in his absence the deputy-chairman, or in the absence of both of them some other director nominated by the directors, shall preside as chairman of the meeting, but if neither the chairman nor the deputy-chairman nor such other director (if any) is present within fifteen minutes after the time appointed for holding the meeting and willing to act, the directors present shall elect one of their number present to be chairman and, if there is only one director present and willing to act, he shall be chairman

50 If no director is willing to act as chairman, or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present and entitled to vote shall choose one of their number to be chairman

51 A director shall, notwithstanding that he is not a member, be entitled to attend and speak at any general meeting and at any separate meeting of the holders of any class of shares

52 Without prejudice to any other power of adjournment he may have under these articles or at common law, the chairman may, with the consent of a meeting at which a quorum is present (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place, but no business shall be transacted at an adjourned meeting other than business which might properly have been transacted at the meeting had the adjournment not taken place When a meeting is adjourned for fourteen days or more, at least seven clear days' notice shall be given specifying the time and place of the adjourned meeting and the general nature of the business to be transacted Otherwise it shall not be necessary to give notice of an adjournment

53 If an amendment proposed to any resolution under consideration is ruled out of order by the chairman, the proceedings on the resolution shall not be invalidated by any error in the ruling

54 A resolution put to the vote of a meeting (excluding any voting rights attached to any shares in the Company held as treasury shares) shall be decided on a show of hands unless before, or on the declaration of the result of, the show of hands a poll is duly demanded Subject to the provisions of the Act, a poll may be demanded -

(a) by a chairman, or

(b) by not less than five members having the right to vote at the meeting, or

(c) by a member or members representing not less than one-tenth of the total voting rights of all the members having the right to vote at the meeting (excluding any voting rights attached to any shares in the Company held as treasury shares), or

(d) by a member or members holding shares conferring a right to vote on the resolution on which an aggregate sum has been paid up equal to not less than one-tenth of the total sum paid up on all the shares conferring that right (excluding any shares in the Company conferring a right to vote at the meeting which are held as treasury shares)

55 Unless a poll is duly demanded, a declaration by the chairman that a resolution has been carried or carried unanimously, or by a particular majority, or lost, or not carried by a particular majority, and an entry to that effect in the minutes of the meeting, shall be conclusive evidence

of the fact without proof of the number or proportion of the votes recorded in favour of or against the resolution

56 The demand for a poll may, before the poll is taken, be withdrawn but only with the consent of the chairman, and a demand so withdrawn shall not be taken to have invalidated the result of a show of hands declared before the demand was made

57 A poll shall be taken as the chairman directs, and he may appoint scrutineers (who need not be members) and fix a time and place for declaring the result of the poll The result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded

58 In the case of any equality of votes, whether on a show of hands or on a poll, the chairman shall be entitled to a casting vote in addition to any other vote he may have

59 A poll demanded on the election of a chairman or on a question of adjournment shall be taken forthwith A poll demanded on any other question shall be taken either forthwith or at such time and place as the chairman directs, not being more than thirty days after the poll is demanded The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll was demanded If a poll is demanded before the declaration of the result of a show of hands and the demand is duly withdrawn, the meeting shall continue as if the demand had not been made

60 No notice need be given of a poll not taken forthwith if the time and place at which it is to be taken are announced at the meeting in respect of which it is demanded In any other case, at least seven clear days' notice shall be given specifying the time and place at which the poll is to be taken

VOTES OF MEMBERS

61 Subject to any rights or restrictions attached to any shares and to the provisions of the Act, on a show of hands every member who (being an individual) is present in person or (being a corporation) is present by a duly authorised representative who is not himself a member entitled to vote, shall have one vote, and on a poll every member shall have one vote for every share of which he is the holder

62 In the case of joint holders the vote of the senior who tenders a vote shall be accepted to the exclusion of the votes of the other joint holders, and seniority shall be determined by the order in which the names of the holders stand in the register of members

63 A member in respect of whom an order has been made by any court having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder may vote, on a show of hands or on a poll, by any person authorised in that behalf by that court, who may on a poll vote by proxy Evidence to the satisfaction of the directors of the authority of the person claiming the right to vote shall be deposited at the Office, or at such other place as is specified in accordance with these articles for the deposit of instruments of proxy, not less than 48 hours before the time appointed for holding the meeting or adjourned meeting at which the right to vote is to be exercised, and in default the right to vote shall not be exercisable

64 No member shall have the right to vote at any general meeting or at any separate meeting of the holders of any class of shares, either in person or by representative or proxy, in respect of any share held by him unless all amounts presently payable by him in respect of that share have been paid

65 No objection shall be raised to the qualification of any voter or to the counting of, or failure to count, any vote, except at the meeting or adjourned meeting at which the vote objected to is tendered Subject to any objection made in due time, every vote counted and not disallowed at the meeting shall be valid and every vote disallowed or not counted shall be invalid Any objection made in due time shall be referred to the chairman whose decision shall be final and conclusive

66 On a poll votes may be given either personally or by proxy or (in the case of a corporate member) by a duly authorised representative A member entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses the same way A proxy need not be a member

67 An instrument appointing a proxy shall be in writing in any usual form or in any other form which the directors may approve and shall be executed by or on behalf of the appointor A corporation may execute a form of proxy either under its common seal or under the hand of a duly authorised officer A member may appoint more than one proxy to attend on the same occasion Deposit of an instrument of proxy shall not preclude a member from attending and voting at the meeting or at any adjournment of it

68 The instrument appointing a proxy and any authority under which it is executed or a copy of the authority certified notarially or in some other way approved by the directors may -

(a) be deposited at the Office or at such other place in the United Kingdom as is specified in the notice convening the meeting, or in any instrument of proxy sent out by the Company in relation to the meeting, not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote, or

(b) in the case of a poll taken more than 48 hours after it was demanded, be deposited as aforesaid after the poll has been demanded and not less than 24 hours before the time appointed for taking the poll, or

(c) where the poll is not taken forthwith but is taken not more than 48 hours after it was demanded, be delivered at the meeting to the chairman or to the secretary or to any director,

and an instrument of proxy which is not deposited or delivered in a manner so permitted shall be invalid

69 A vote given or poll demanded by proxy or by the duly authorised representative of a corporation shall be valid notwithstanding the previous determination of the authority of the person voting or demanding a poll, unless notice of the determination was received by the Company at the Office, or at such other place at which the instrument of proxy was duly deposited, before the commencement of the meeting or adjourned meeting at which the vote is given or the poll demanded or (in the case of a poll not taken on the same day as the meeting or adjourned meeting) the time appointed for taking the poll

70 The instrument appointing a proxy to vote at a meeting shall be deemed also to confer authority to demand or join in demanding a poll (and for the purposes of these articles a demand for a poll made by a person as proxy for a member or as the duly authorised representative of a corporate member shall be the same as a demand made by the member)

71 The directors may at the expense of the Company send instruments of proxy to the members by post or otherwise (with or without provision for their return prepaid) for use at any general meeting or at any separate meeting of the holders of any class of shares, either in blank or nominating in the alternative any one or more of the directors or any other person If for the purpose of any meeting invitations to appoint as proxy a person or one of a number of persons specified in the invitations are issued at the Company's expense, they shall be issued to all (and not to some only) of the members entitled to be sent a notice of the meeting and to vote at it The accidental omission to send such an instrument or give such an invitation to, or the non-receipt thereof by, any member entitled to attend and vote at a meeting shall not invalidate the proceedings of that meeting

CORPORATIONS ACTING BY REPRESENTATIVES

72 Any corporation which is a member of the Company may, by resolution of its directors or other governing body, authorise such person as it thinks fit to act as its representative at any meeting of the Company, or at any separate meeting of the holders of any class of shares Except as otherwise provided in these articles, the person so authorised shall be entitled to

exercise the same power on behalf of the corporation as the corporation could exercise if it were an individual member of the Company, and the corporation shall for the purposes of these articles be deemed to be present in person at any such meeting if a person so authorised is present at it

DIRECTORS

73 Unless otherwise determined by the Company by ordinary resolution the number of directors (other than alternate directors) shall not be less than two nor more than fifteen

74 A director shall not require a share qualification

75 (1) Until otherwise determined by the Company by ordinary resolution, there shall be paid to the directors (other than alternate directors) such fees for their services in the office of director as the directors may determine (not exceeding in the aggregate an annual sum of £650,000 or such larger amount as the Company may by ordinary resolution decide) divided between the directors as they may determine, or, failing such determination, equally The fees shall be deemed to accrue from day to day and shall be distinct from and additional to any remuneration or other benefits which may be paid or provided to any director pursuant to any other provision of these articles

(2) The directors may also be paid all travelling, hotel and other expenses properly incurred by them in connection with their attendance at meetings of the directors or of committees of the directors or general meetings or separate meetings of the holders of any class of shares or otherwise in connection with the discharge of their duties as directors

(3) Any director who performs, or undertakes to perform, services which the directors consider go beyond the ordinary duties of a director may be paid such special remuneration (whether by way of fixed sum, bonus, commission, participation in profits or otherwise) as the directors may determine

ALTERNATE DIRECTORS

76 Any director (other than an alternate director) may appoint any other director, or any other person approved by resolution of the directors and willing to act, to be an alternate director and may remove from office an alternate director appointed by him

77 An alternate director shall (unless he is absent from the United Kingdom) be entitled to receive notices of meetings of the directors and of committees of the directors of which his appointor is a member, to attend and vote at any such meeting at which the director appointing him is not present, and generally to perform all the functions of his appointor as a director in his absence, but shall not (unless the Company by ordinary resolution otherwise determines) be entitled to any fees for his services as an alternate director

78 An alternate director shall cease to be an alternate director if his appointor ceases to be a director, but, if a director retires by rotation or otherwise but is reappointed or deemed to have been re-appointed at the meeting at which he retires, any appointment of an alternate director made by him which was in force immediately prior to his retirement shall continue after his reappointment

79 An appointment or removal of an alternate director shall be by notice to the Company executed by the director making or revoking the appointment or in the other manner approved by the directors

80 Save as otherwise provided in these articles, an alternate director shall be deemed for all purposes to be a director and shall alone be responsible for his own acts and defaults, and he shall not be deemed to be the agent of the director appointing him

POWERS OF DIRECTORS

81 The business of the Company shall be managed by the directors who, subject to the provisions of the Act, the memorandum and these articles and to any directions given by special resolution, may exercise all the powers of the Company No alteration of the memorandum or these articles and no such direction shall invalidate any prior act of the directors which would have been valid if that alteration had not been made or that direction had not been given The powers given by this article shall not be limited by any special power given to the directors by these articles and a meeting of the directors at which a quorum is present may exercise all powers exercisable by the directors

82 (1) The directors shall restrict the borrowings of the Company and exercise all powers of control exercisable by the Company in relation to its subsidiary undertakings so as to secure (as regards subsidiary undertakings so far as by such exercise they can secure) that the aggregate principal amount (including any premium payable on final repayment) outstanding of all money borrowed by the Group (excluding amounts borrowed by any member of the Group from any other member of the Group, other than amounts to be taken into account under paragraph (3)(c) and (d) of this article) shall not at any time, save with the previous sanction of an ordinary resolution of the Company, exceed an amount equal to four times the aggregate of -

(a) the amount paid up on the share capital of the Company, and

(b) the total of the capital and revenue reserves of the Group, including any share premium account, capital redemption reserve and credit balance on the profit and loss account, but excluding sums set aside for taxation and amounts attributable to outside shareholders in subsidiary undertakings of the Company and deducting any debit balance on the profit and loss account, all as shown in the then latest audited consolidated balance sheet and profit and loss account of the Group, but adjusted as may be necessary in respect of any variation in the paid up share capital or share premium account of the Company since the date of that balance sheet and further adjusted as may be necessary to reflect any change since that date in the companies comprising the Group

(2) In this article -

(a) "the Group" means the Company and its subsidiary undertakings (if any), and

(b) "subsidiary undertaking" has the same meaning as in the Act

(3) For the purposes of this article, but without prejudice to the generality of the terms "borrowing" and "borrowed" -

(a) amounts borrowed for the purposes of repaying the whole or any part of any amounts previously borrowed and then outstanding (including any premium payable on final repayment) and to be applied for that purpose within six months of the borrowing shall not, pending such application, be taken into account as money borrowed,

(b) the principal amount (including any premium payable on final repayment) of any debentures issued in whole or in part for a consideration other than cash shall be taken into account as money borrowed by the member of the Group issuing them,

(c) money borrowed by a partly owned subsidiary undertaking and not owing to another member of the Group shall (notwithstanding sub-paragraph (b) of this paragraph) be taken into account subject to the exclusion of a proportion of it equal to the minority proportion, and money borrowed and owing to a partly owned subsidiary undertaking by another member of the Group shall (subject to sub-paragraph (d) of this paragraph) be taken into account to the extent of a proportion of it equal to the minority proportion (and for the purpose of this

sub-paragraph "minority proportion" means the proportion of the issued equity share capital of the partly owned subsidiary undertaking which is not attributable, directly or indirectly, to the Company), and

(d) in the case of money borrowed and owing to a partly owned subsidiary undertaking by another partly owned subsidiary undertaking the proportion which would otherwise be taken into account under sub-paragraph (c) of this paragraph shall be reduced by excluding such part of it as is equal to the proportion of the issued equity share capital of the borrowing subsidiary undertaking which is not attributable, directly or indirectly, to the Company

(4) In calculating the aggregate amount of borrowings for the purpose of this article, money borrowed by any member of the Group which is denominated or repayable in a currency other than sterling shall be treated as converted into sterling -

(a) at the rate of exchange used for the conversion of that currency in the latest audited balance sheet of that member, or

(b) if no rate was so used, at the middle market rate of exchange prevailing in London at the close of business on the date of that balance sheet, but if the amount in sterling resulting from conversion at that rate would be greater than that resulting from conversion at the middle market rate prevailing in London at the close of business on the business day immediately preceding the day on which the calculation falls to be made, the latter rate shall apply instead,

(5) No debt incurred or security given in respect of money borrowed or to be taken into account as money borrowed in excess of the above limit shall be invalid or ineffectual except in the case of express notice to the lender or the recipient of the security at the time when the debt was incurred or security given that the limit hereby imposed had been or was thereby exceeded, but no lender or other person dealing with the Company shall be concerned to see or enquire whether such limit is observed

(6) In this article references to a consolidated balance sheet and profit and loss account of the Group are to be taken -

(a) in a case where the Company had no subsidiary undertakings at the relevant time, as references to the balance sheet and profit and loss account of the Company,

(b) in a case where the Company had subsidiary undertakings at the relevant time but there are no consolidated accounts of the Group, as references to the respective balance sheets and profit and loss accounts of the companies comprising the Group, and

(c) in a case where the Company had subsidiary undertakings at the relevant time, one or more of which has, in accordance with the Act, been excluded from consolidation as references to the consolidated balance sheet and profit and loss account of the Company and those of its subsidiary undertakings included in the consolidation

DELEGATION OF DIRECTORS' POWERS

83 (1) The directors may delegate any of their powers -

(a) to any managing director, any director holding any other executive office or any other director,

(b) to any committee consisting of one or more directors and (if thought fit) one or more other persons, and

(c) to any local board or agency for managing any of the affairs of the Company either in the United Kingdom or elsewhere

(2) Any such delegation (which may include authority to sub-delegate all or any of the powers delegated) may be subject to any conditions the directors impose and either collaterally with or to the exclusion of their own powers and may be revoked or varied The power to delegate under this article, being without limitation, includes the power to delegate the determination of any fee, remuneration or other benefit which may be paid or provided to any director and the scope of the power to delegate under sub-paragraph (a), (b) or (c) of paragraph (1) of this article shall not be restricted by reference to or inference from any other of those sub-paragraphs Subject as aforesaid, the proceedings of any committee, local board or agency with two or more members shall be governed by such of these articles as regulate the proceedings of directors so far as they are capable of applying

84 The directors may, by power of attorney or otherwise, appoint any person, whether nominated directly or indirectly by the directors, to be the agent of the Company for such purposes and subject to such conditions as they think fit, and may delegate any of their powers to such an agent The directors may revoke or vary any such appointment or delegation and may also authorise the agent to sub-delegate all or any of the powers vested in him

APPOINTMENT AND RETIREMENT OF DIRECTORS

85 At the annual general meeting in every year one-third of the directors who are subject to retirement by rotation or, if their number is not three or a multiple of three, the number nearest to one-third, shall retire from office, but, if there is only one director who is subject to retirement by rotation, he shall retire

86 Subject to the provision of the Act and to the following provisions of these articles, the directors to retire by rotation shall be those who have been longest in office since their last appointment or reappointment, but as between persons who become or were last reappointed directors on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot Notwithstanding the foregoing, each Director shall retire from office no later than the third Annual General Meeting following the Annual General Meeting of appointment or reappointment

87 If the Company, at the meeting at which a director retires by rotation, does not fill the vacancy the retiring director shall, if willing to act, be deemed to have been reappointed unless at the meeting it is resolved not to fill the vacancy or a resolution for the reappointment of the director is put to the meeting and lost

88 No person other than a director retiring by rotation shall be appointed or re-appointed a director at any general meeting unless -

(a) he is recommended by the directors, or

(b) not less than seven nor more than thirty five days before the date appointed for holding the meeting, notice executed by a member qualified to vote on the appointment or reappointment has been given to the Company of the intention to propose that person for appointment or reappointment, stating the particulars which would, if he were appointed or reappointed, be required to be included in the Company's register of directors, together with notice executed by that person of his willingness to be appointed or reappointed

89 At a general meeting a motion for the appointment of two or more persons as directors by a single resolution shall not be made, unless a resolution that it shall be so made has been first agreed to by the meeting without any vote being given against it, and for the purposes of this article a motion for approving a person's appointment or for nominating a person for appointment shall be treated as a motion for his appointment

90 Subject as aforesaid, the Company may by ordinary resolution appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, and may also determine the rotation in which any additional directors are to retire

91 The directors may appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, provided that the appointment does not cause the number of directors to exceed any number fixed as the maximum number of directors A director so appointed shall retire at the next following annual general meeting and shall not be taken into account in determining the directors who are to retire by rotation at the meeting

92 Subject as aforesaid, a director who retires at an annual general meeting may be reappointed If he is not reappointed or deemed to have been reappointed, he shall retain office until the meeting appoints someone in his place or, if it does not do so, until the end of the meeting

DISQUALIFICATION AND REMOVAL OF DIRECTORS

93 Without prejudice to the provisions of the Act, the Company may, by ordinary resolution, remove a director before the expiration of his period of office (but such removal shall be without prejudice to any claim to damages for breach of any contract of service between the director and the Company) and, subject to these articles, may, by ordinary resolution, appoint another person instead of him A person so appointed shall be subject to retirement at the same time as if he had become a director on the day on which the director in whose place he is appointed was last appointed or reappointed a director

94 The office of a director shall be vacated if -

(a) he ceases to be a director by virtue of any provision of the Act or he becomes prohibited by law from being a director, or

(b) he becomes bankrupt or makes any arrangement or composition with his creditors generally, or

(c) he is, or may be, suffering from mental disorder and either -

(i) he is admitted to hospital in pursuance of an application for admission for treatment under the Mental Health Act 1983 or, in Scotland, an application for admission under the Mental Health (Scotland) Act 1984, or

(ii) an order is made by a court having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder for his detention or for the appointment of any person to exercise powers with respect to his property or affairs, or

(d) he resigns his office by notice in writing to the Company, or

(e) in the case of a director who holds any executive office, his appointment as such is terminated or expires and the directors resolve that his office be vacated, or

(f) he is absent for more than six consecutive months without permission of the directors from meetings of the directors held during that period and the directors resolve that his office be vacated, or

(g) he is requested in writing by all the other directors to resign

95 No person shall be disqualified from being appointed or reappointed as a director and no director shall be requested to vacate that office by reason of his attaining the age of seventy or any other age, nor shall it be necessary by reason of his age to give special notice under the Act of any resolution appointing, reappointing or approving the appointment of a director Where a general meeting is convened at which a director will be proposed for appointment or reappointment who, to the knowledge of the directors, will be seventy or more at the date of the meeting, the directors shall give notice of his age in the notice covering the meeting or in any document sent with it, but the accidental omission to do so shall not invalidate any proceedings at the meeting or any appointment or reappointment of the director concerned

DIRECTORS' APPOINTMENTS AND INTERESTS

96 The directors may appoint one or more of their number to the office of managing director or to any other executive office under the Company and, subject to the provisions of the Act, any such appointment may be made for such term, at such remuneration and on such other conditions as the directors think fit Any appointment of a director to an executive office shall terminate if he ceases to be a director but without prejudice to any claim to damages for breach of the contract of service between the director and the Company

97 (1) Subject to the provisions of the Act, and provided that he has disclosed to the directors the nature and extent of any material interest of his, a director notwithstanding his office -

(a) may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is otherwise interested,

(b) may be a director or other officer of, or employed by, or a party to any transaction or arrangement with, or otherwise interest in, any body corporate promoted by the Company or in which the Company is otherwise interested, and

(c) shall not, by reason of his office, be accountable to the Company for any benefit which he derives from any such office or employment or from any such transaction or arrangement or from any interest in any such body corporate,

and no such transaction or arrangement shall be liable to be avoided on the ground of any such interest or benefit

(2) For the purposes of this article -

(a) a general notice given to the directors that a director is to be regarded as having an interest of the nature and extent specified in the notice in any transaction or arrangement in which a specified person or class of persons is interested shall be deemed to be a disclosure that the director has an interest in any such transaction of the nature and extent so specified, and

(b) an interest of which a director has no knowledge and of which it is unreasonable to expect him to have knowledge shall not be treated as an interest of his

DIRECTORS' GRATUITIES AND PENSIONS

98 The directors may establish and maintain, or procure the establishment and maintenance of, any pension or superannuation funds (whether contributory or otherwise) for the benefit of, and give or procure the giving of pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit to, any persons who are or were at any time in the employment or service of the Company, or of any company which is a subsidiary of the Company or is allied to or associated with the Company or any such subsidiary or of any of the predecessors in business of the Company or any such other company as aforesaid, or who may be or have been directors or officers of the Company or of any such other companies as aforesaid and who hold or have held executive positions or agreements for service with the Company or any such other companies as aforesaid, and the spouses, former spouses, families and dependants of any such persons, and also establish, subsidise and subscribe to any institutions, associations, societies, clubs or funds calculated to be for the benefit of, or to advance the interests and well being of, the Company or of any such other company as aforesaid, or of any such persons as aforesaid, and make payments for or towards the insurance of any such person as aforesaid and subscribe or guarantee money for charitable or benevolent objects, or for any exhibition or for any public, general or useful object, and do any of the matters aforesaid either alone or in conjunction with any such other company as

aforesaid Subject to particulars with respect to the proposed payment being disclosed to the members of the Company and to the proposal being approved by the Company by ordinary resolution, if the Act shall so require, any director who holds or has held any such executive position or agreement for services shall be entitled to participate in and retain for his own benefit any such pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation

PROCEEDINGS OF DIRECTORS

99 (1) Subject to the provisions of these articles, the directors may regulate their proceedings as they think fit

(2) A director may, and the secretary at the request of a director shall, call a meeting of the directors Subject to paragraph (3) of this article, it shall not be necessary to give notice of a meeting to a director who is absent from the United Kingdom

(3) If a director notifies the Company in writing of an address in the United Kingdom at which notice of meetings of the directors is to be given to him when he is absent from the United Kingdom, he shall, if so absent, be entitled to have notice given to him at that address, but the Company shall not be obliged by virtue of this paragraph to give any director a longer period of notice than he would have been entitled to had he been present in the United Kingdom at that address

(4) Questions arising at a meeting shall be decided by a majority of votes In case of an equality of votes, the chairman shall have a second or casting vote A director who is also an alternate director shall be entitled in the absence of his appointor to a separate vote on behalf of his appointor in addition to his own vote, and an alternate director who is appointed by two or more directors shall be entitled to a separate vote on behalf of each of his appointors in the appointor's absence

100 No business shall be transacted at any meeting of the directors unless a quorum is present The quorum may be fixed by the directors and unless so fixed at any other number shall be two An alternate director who is not himself a director shall, if his appointor is not present, be counted in the quorum

101 The continuing directors or a sole continuing director may act notwithstanding any vacancies in their number, but, if the number of directors is less than the number fixed as the quorum, the continuing directors or director may act only for the purpose of filling vacancies or of calling a general meeting

102 The directors may elect from their number, and remove, a chairman and a deputy-chairman of the board of directors The chairman, or in his absence the deputy-chairman, shall preside at all meetings of the directors, but if there is no chairman or deputy-chairman or if at the meeting neither the chairman nor the deputy-chairman is present within five minutes after the time appointed for the meeting, or if neither of them is willing to act as chairman, the directors present may choose one of their number to be chairman of the meeting

103 All acts done by a meeting of the directors, or of a committee of the directors, or by a person acting as a director, shall notwithstanding that it may afterwards be discovered that there was a defect in the appointment of any director or that any of them were disqualified from holding office, or had vacated office, or were not entitled to vote, be as valid as if every such person had been duly appointed and was qualified and had continued to be a director and had been entitled to vote

104 A resolution in writing executed by all the directors entitled to receive notice of a meeting of the directors or of a committee of the directors shall be as valid and effectual as if it had been passed at a meeting of the directors or (as the case may be) of that committee, duly convened and held, and may consist of several documents in the like form each executed by one or more directors, but a resolution executed by an alternate director need not also be executed by his appointor and, if it is executed by a director who has appointed an alternate director, it need not also be executed by the alternate director in that capacity

105 A meeting of the board may consist of a conference between directors some or all of whom are in different places provided that each director who participates is able

(1) to hear each of the other participating directors addressing the meeting, and

(2) if he so wishes, to address each of the other participating directors simultaneously,

whether directly, by conference telephone or by any other form of communications equipment (whether in use when this Article 105 is adopted or developed subsequently) or by a combination of such methods A quorum shall be deemed to be present if those conditions are satisfied in respect of at least the number of directors required to form a quorum A meeting held in this way shall be deemed to take place at the place where the largest group of directors is assembled or, if no such group is readily identifiable, at the place from where the chairman of the meeting participates Any director may, by prior notice to the secretary, indicate that he wishes to participate in the meeting in such manner, in which event, the directors shall procure that an appropriate conference facility is arranged

106 (1) Save as otherwise provided by these articles, a director shall not vote at a meeting of the directors on any resolution concerning a matter in which he has, directly or indirectly, a material interest (other than an interest in shares, debentures or other securities of, or otherwise in or through, the Company), unless his interest arises only because the case falls within one or more of the following sub-paragraphs -

(a) the resolution relates to the giving to him of a guarantee, security, or indemnity in respect of money lent to, or an obligation incurred by him for the benefit of, the Company or any of its subsidiary undertakings,

(b) the resolution relates to the giving to a third party of a guarantee, security, or indemnity in respect of an obligation of the Company or any of its subsidiary undertakings for which the director has assumed responsibility in whole or part and whether alone or jointly with others under a guarantee or indemnity or by the giving of security,

(c) his interest arises by virtue of his being, or intending to become, a participant in the underwriting or sub-underwriting of an offer of any shares in or debentures or other securities of the Company for subscription, purchase or exchange,

(d) the resolution relates in any way to a retirement benefits scheme which has been approved, or is conditional upon approval, by the Board of Inland Revenue for taxation purposes,

(e) the resolution relates to an arrangement for the benefit of the employees of the Company or any of its subsidiary undertakings, including but without being limited to an employees' share scheme, which does not accord to any director as such any privilege or advantage not generally accorded to the employees to whom the arrangement relates,

(f) the resolution relates to a transaction or arrangement with any other company in which he is interested, directly or indirectly, provided that he is not the holder of or beneficially interested in one per cent or more of the equity share capital of that company (or of any other company through which his interest is derived) and not entitled to exercise one per cent or more of the voting rights available to members of the relevant company (and for the purpose of calculating the said percentage there shall be disregarded any shares held by the director as a bare or custodian trustee and in which he has no beneficial interest, and any shares comprised in any authorised unit trust scheme in which the director is interested only as a unit holder),

(g) the resolution relates to the purchase or maintenance for any director or directors of insurance against any liability

(2) For the purposes of paragraph (1) of this article, an interest of any person who is for any purpose of the Act (excluding any statutory modification thereof not in force when these articles become binding on the Company) connected with a director shall be taken to be the interest of that director and, in relation to an alternate director, an interest of his appointor shall be treated as an interest of the alternate director without prejudice to any interest which the alternate director has otherwise

(3) Where proposals are under consideration concerning the appointment (including the fixing or varying of terms of appointment) of two or more directors to offices or employments with the Company or any body corporate in which the Company is interested, the proposals may be divided and considered in relation to each director separately and (provided he is not by virtue of paragraph (1)(f) of this article, or otherwise under that paragraph, or for any other reason, precluded from voting) each of the directors concerned shall be entitled to vote and be counted in the quorum in respect of each resolution except that concerning his own appointment

107 A director shall not by counted on the quorum present at a meeting in relation to a resolution on which he is not entitled to vote

108 If a question arises at a meeting of the directors as to the right of a director to vote, the question may, before the conclusion of the meeting, be referred to the chairman of the meeting (or, if the director concerned is the chairman, to the other directors at the meeting), and his ruling in relation to any director other than himself (or, as the case may be, the ruling of the majority of the other directors in relation to the chairman) shall be final and conclusive

MINUTES

109 The directors shall cause minutes to be made in books kept for the purpose -

(a) of all appointments of officers made by the directors, and

(b) of all proceedings at meetings of the Company, of the holders of any class of shares in the Company, and of the directors, and of committees of the directors, including the names of the directors present at each such meeting

SECRETARY

110 Subject to the provisions of the Act, the secretary shall be appointed by the directors for such term, at such remuneration and on such other conditions as they think fit and any secretary so appointed may be removed by them

THE SEAL

111 The seal shall be used only by the authority of a resolution of the directors or of a committee of the directors The directors may determine whether any instrument to which the seal is affixed, shall be signed and, if it is to be signed, who shall sign it Unless otherwise determined by the directors -

(a) share certificates and, subject to the provisions of any instrument constituting the same, certificates issued under the seal in respect of any debentures or other securities need not be signed and any signature may be applied to any such certificate by any mechanical or other means or may be printed on it, and

(b) every other instrument to which the seal is affixed shall be signed by one director and by the secretary or another director

112 Subject to the provisions of the Act, the Company may have an official seal for use in any place abroad

DIVIDENDS

113 Subject to the provisions of the Act, the Company may by ordinary resolution declare dividends in accordance with the respective rights of the members, but no dividend shall exceed the amount recommended by the directors

114 Subject to the provisions of the Act, the directors may pay interim dividends if it appears to them that they are justified by the profits of the Company available for distribution If the share capital is divided into different classes, the directors may pay interim dividends on shares which confer deferred or non-preferred rights with regard to dividend as well as on shares which confer preferential rights with regard to dividend, but no interim dividend shall be paid on shares carrying deferred or non-preferred rights if, at the time of payment, any preferential dividend is in arrear The directors may also pay at intervals settled by them any dividend payable at a fixed rate if it appears to them that the profits available for distribution justify the payment If the directors act in good faith they shall not incur any liability to the holders of shares conferring preferred rights for any loss they may suffer by the lawful payment of an interim dividend on any shares having deferred or non-preferred rights

115 Subject to the provisions of the Act and except as otherwise provided by these articles or the rights attached to shares, all dividends shall be declared and paid according to the amounts paid up on the shares on which the dividend is paid If any share is issued on terms that it ranks for dividend as from a particular date, it shall rank for dividend accordingly In any other case, (and except as aforesaid) dividends shall be apportioned and paid proportionately to the amounts paid up on the shares during any portion or portions of the period in respect of which the dividend is paid For the purpose of this article, an amount paid up on a share in advance of a call shall be treated, in relation to any dividend declared after the payment but before the call, as not paid up on the share

116 A general meeting declaring a dividend may, upon the recommendation of the directors, direct that it shall be satisfied wholly or partly by the distribution of assets and, where any difficulty arises in regard to the distribution, the directors may settle the same as they think fit and in particular (but without limitation) may issue fractional certificates or other fractional entitlements (or ignore fractions) and fix the value for distribution of any assets, and may determine that cash shall be paid to any member upon the footing of the value so fixed in order to adjust the rights of members, and may vest any assets in trustees

117 (1) Any dividend or other money payable in respect of a share may be paid by cheque or warrant sent by post to the registered address of the person entitled or, if two or more persons are the holders of the share or are jointly entitled to it by reason of the death or bankruptcy of the holder, to the registered address of that one of those persons who is first named in the register of members or to such person and to such address as the person or persons entitled may in writing direct Every cheque or warrant shall be made payable to the order of the person or persons entitled or to such other person as the person or persons entitled may in writing direct and payment of the cheque or warrant shall be a good discharge to the Company Any such dividend or other money may also be paid by any other method (including direct debit or credit and bank transfer) which the directors consider appropriate Any joint holder or other person jointly entitled to a share as aforesaid may give receipts for any dividend or other money payable in respect of the share Every such cheque or warrant shall be sent at the risk of the person entitled to the monies represented thereby

(2) The Company may cease to send any cheque or warrant (or to use any other method of payment) for any dividend payable in respect of a share if

(a) in respect of at least two consecutive dividends payable on that share the cheque or warrant has been returned undelivered or remains uncashed (or that other method of payment has failed), or

(b) following one such occasion, reasonable enquiries have failed to establish any new address of the holder,

but, subject to the provisions of these articles, may recommence sending cheques or warrants (or using another method of payment) for dividends payable on that share if the person or persons entitled to those payments so request

118 No dividend or other money payable in respect of a share shall bear interest against the Company, unless otherwise provided by the rights attached to the share

119 Any dividend which has remained unclaimed for twelve years from the date when it became due for payment shall, if the directors so resolve be forfeited and cease to remain owing by the Company

120 The directors may, with the authority of an ordinary resolution of the above Company, offer any holders of ordinary shares and/or convertible preference shares the right to elect to receive ordinary shares, credited as fully paid, instead of cash in respect of the whole (or some part, to be determined by the directors) of any dividend (including a preferential dividend) specified by the ordinary resolution The following provisions shall apply

(a) the said resolution may specify a particular dividend (including a preferential dividend) (whether or not declared), or may specify all or any dividends or preferential dividends declared or payable within a specified period, but such period may not end later than the beginning of the fifth annual general meeting next following the date of the meeting at which the ordinary resolution is passed,

(b) the basis of allotment shall be determined by the directors so that, as nearly as may be considered convenient, the relevant value of the additional ordinary shares to be allotted in lieu of any amount of dividend shall be not less than an amount equal to the net cash amount that such holders would have otherwise received by way of a dividend and may not (unless authorised by a special resolution of the Company) exceed an amount equal to the sum of the net cash amount of such dividend together with the associated tax credit For such purpose the "relevant value" of an ordinary share shall be calculated either (1) by reference to the average of the middle market quotations (less the relevant dividend unless the ordinary shares are already quoted ex such dividend) on the London Stock Exchange (derived from the Daily Official List of the London Stock Exchange or any similar publication) on at least five consecutive dealing days selected by the directors, but commencing no earlier than the day upon which the proposed relevant dividend is announced by the directors, or (2) in such other manner as may be determined by the directors Furthermore, for such purposes the "associated tax credit" shall be the tax credit which would be available to the recipient of a dividend under section 231 of the Income and Corporation Taxes Act 1988 on the assumption that such recipient is an individual resident in the United Kingdom for United Kingdom taxation purposes,

(c) no fraction of a share shall be allotted and the directors may deal with any fractions which arise as they think fit,

(d) the directors shall, after determining the basis of allotment, notify the holders of ordinary shares and/or convertible preference shares, if applicable, in writing of the right of election offered to them, and specify the procedure to be followed and place at which, and the latest time by which, elections must be lodged in order to be effective,

(e) the directors may exclude from any offer any holders of ordinary shares and/or convertible preference shares, if applicable, where the directors believe that the making of the offer to them would or might involve the contravention of the laws of any territory or that for any other reason the offer should not be made to them,

(f) the dividend or preferential dividend (or that part of the dividend or preferential dividend in respect of which a right of election has been given) shall not be payable on ordinary shares and/or convertible preference shares in respect of which an election has been duly made (**"the elected shares"**) and instead additional ordinary shares shall be allotted to the holders of the elected ordinary shares on the basis of allotment determined as aforesaid For such purpose the directors shall capitalise out of any amount for the time being standing to the credit of any reserve or fund (including any

share premium account or capital redemption reserve) or any of the profits which could otherwise have been applied in paying dividends in cash, as the directors may determine, a sum equal to the aggregate nominal amount of the additional ordinary shares to be allotted on that basis and apply it in paying up in full the appropriate number of unissued ordinary shares for allotment and distribution to the holders of the elected shares on that basis,

(g) the directors shall not proceed with any election unless the Company has sufficient unissued shares authorised for issue and sufficient reserves or funds that may be capitalised to give effect to it after the basis of allotment is determined,

(h) the additional ordinary shares when allotted shall rank pari passu in all respects with the fully paid ordinary shares then in issue except that they will not be entitled to participation in the dividend in lieu of which they were allotted,

(i) the directors may do all acts and things which they consider necessary or expedient to give effect to any such capitalisation, and may authorise any person to enter on behalf of all the members interested into an agreement with the Company providing for such capitalisation and incidental matters and any agreement so made shall be binding on all concerned

CAPITALISATION OF PROFITS

121 (1) The directors may with the authority of an ordinary resolution of the Company -

(a) subject as hereinafter provided, resolve to capitalise any undivided profits of the Company not required for paying any preferential dividend (whether or not they are available for distribution) or any sum standing to the credit of any reserve or fund of the Company (including any share premium account or capital redemption reserve),

(b) appropriate the sum resolved to be capitalised to the members in proportion to the nominal amounts of the shares (whether or not fully paid) held by them respectively which would (or in the case of treasury shares, which would if such shares were not held as treasury shares) entitle them to participate in a distribution of that sum if the shares were fully paid and the sum were then distributable and were distributed by way of dividend and apply such sum on their behalf either in or towards paying up the amounts, if any, for the time being unpaid on any shares held by them respectively, or in paying up in full unissued shares or debentures of the Company of a nominal amount equal to that sum, and allot the shares or debentures credited as fully paid to those members or as they may direct, in those proportions, or partly in one way and partly in the other, but the share premium account, the capital redemption reserve, and any profits which are not available for distribution may, for the purposes of this article, only be applied in paying up unissued shares to be allotted to members credited as fully paid,

(c) resolve that any shares so allotted to any member in respect of a holding by him of any partly paid shares shall so long as such shares remain partly paid rank for dividend only to the extent that the latter shares rank for dividend,

(d) make such provision by the issue of fractional certificates or other fractional entitlements (or by ignoring fractions) or by payment in cash or otherwise as they determine in the case of shares or debentures becoming distributable in fractions (including provision whereby the benefit of fractional entitlements accrue to the Company rather than to the members concerned),

(e) authorise any person to enter on behalf of all the members concerned into an agreement with the Company providing for the allotment to them respectively, credited as fully paid, of any further shares to which they are entitled upon such capitalisation, any agreement made under such authority being binding on all such members, and

(f) generally do all acts and things required to give effect to such resolution as aforesaid

(2) Where, pursuant to an employees' share scheme (within the meaning of section 743 of the Act) the Company has granted options to subscribe for shares on terms which provide (inter alia) for adjustments to the subscription price payable on the exercise of such options or to the number of shares to be allotted upon such exercise in the event of any increase or reduction in or other reorganisation of the Company's issued share capital and an otherwise appropriate adjustment would result in the subscription price for any share being less than its nominal value, then, subject to the provisions of the Act, the directors may, on the exercise of any of the options concerned and payment of the subscription price which would have applied had such adjustment been made, capitalise any such profits or other sum as is mentioned in paragraph (1) (a) above to the extent necessary to pay up the unpaid balance of the nominal value of the shares which fall to be allotted on the exercise of such options and apply such amount in paying up such balance and allot shares fully paid accordingly The provisions of paragraphs (1)(a) to (f) of this article shall apply mutatis mutandis to this paragraph (but as if the authority of an ordinary resolution of the Company were not required)

RECORD DATES

122 Notwithstanding any other provision of these articles, but without prejudice to the rights attached to any shares, the Company or the directors may fix a date as the record date by reference to which a dividend will be declared or paid or a distribution, allotment or issue made, and that date may be before, on or after the date on which the dividend, distribution, allotment or issue is declared, paid or made Where such a record date has been fixed, references in these articles to a holder of shares or member to whom a dividend is to be paid or a distribution, allotment or issue is to be made shall be construed accordingly

ACCOUNTS

123 No member (other than a director) shall have any right of inspecting any accounting record or other document of the Company, unless he is authorised to do so by statute, by order of the court, by the directors or by ordinary resolution of the Company

NOTICES

124 Any notice to be given to or by any person pursuant to these articles shall be in writing, except that a notice calling a meeting of the directors need not be in writing

125 The Company may give any notice to a member either personally or by sending it by post in a prepaid envelope addressed to the member at his registered address or by leaving it at that address In the case of joint holders of a share, all notices shall be given to the joint holder whose name stands first in the register of members in respect of the joint holding and notice so given shall be sufficient notice to all the joint holders A member whose registered address is not within the United Kingdom and who gives to the Company an address within the United Kingdom at which notices may be given to him shall be entitled to have notices given to him at that address, but otherwise no such member shall be entitled to receive any notice from the Company

126 A member present either in person or by proxy, or in the case of a corporate member by a duly authorised representative, at any meeting of the Company or of the holders of any class of shares shall be deemed to have received notice of the meeting and, where requisite, of the purposes for which it was called

127 (1) Any notice to be given to a member may be given by reference to the register of members as it stands at any time within the period of fifteen days before the notice is given, and no change in the register after that time shall invalidate the giving of the notice

(2) Every person who becomes entitled to a share shall be bound by any notice in respect of that share which, before his name is entered into the register of members, has

been given to the person from whom he derives his title, but this paragraph does not apply to a notice given under section 212 of the Act

128 Where, by reason of the suspension or curtailment of postal services within the United Kingdom, the Company is unable effectively to convene a general meeting by notice sent by post, notice of the meeting shall be sufficiently given if given by advertisement in two leading national daily newspapers published in the United Kingdom The Company shall send a copy of the notice to members by post if at least seven clear days before the meeting the posting of notices to addresses throughout the United Kingdom again becomes practicable

129 Any notice to be given by the Company to the members or any of them, and not provided for by or pursuant to these articles, shall be sufficiently given if given by advertisement in at least one leading national daily newspaper published in the United Kingdom

130 A notice sent by post shall be deemed to have been given on the day following that on which the envelope containing the notice was posted unless it was sent by second class post or there is only one class of post in which case it shall be deemed to have been given on the day next but one after it was posted Proof that the envelope was properly addressed, prepaid and posted shall be conclusive evidence that notice was given A notice given by advertisement shall be deemed to have been served on the day on which the advertisement appears

131 A notice may be given by the Company to the person entitled to a share in consequence of the death or bankruptcy of a member by sending or delivering it in any manner authorised by these articles for the giving of notice to a member addressed to that person by name, or by the title of representative of the deceased or trustee of the bankrupt or by any like description, at the address, if any, within the United Kingdom supplied for that purpose by the person claiming to be so entitled Until such an address has been supplied, a notice may be given in any manner in which it might have been given if the death or bankruptcy had not occurred

132 Subject to the provisions of the Act, if on three consecutive occasions notices or other communications have been sent by post to a member at his registered address (or, in the case of a member whose registered address is not within the United Kingdom, any address given by him to the Company for the service of notices) but have been returned undelivered, the member shall not be entitled to receive any subsequent notice or other communication until he has given to the Company a new registered address (or, in the case of a member whose registered address is not within the United Kingdom, a new address for the service of notices) For the purposes of this article, references to a communication include references to any cheque or other instrument of payment, but nothing in this article shall entitle the Company to cease sending any cheque or other instrument of payment for any dividend, unless it is otherwise so entitled under these articles

ELECTRONIC COMMUNICATIONS

132A Notwithstanding anything to the contrary contained in these articles

(a) the directors may decide that any information, notice or document may be recorded, provided, delivered, produced or executed in electronic form provided that this is done in accordance with rules made by the directors and is done with the consent of the person entitled to receive it A document is deemed to have been delivered electronically if a notice has been delivered stating that the document is available and how it can be accessed electronically, and

(b) a document or notice may be sent to a facsimile number or to an electronic address notified to the Company for these purposes and will be deemed to have been properly delivered two hours after being sent, proof that the document or notice was properly sent shall be conclusive evidence of delivery

DESTRUCTION OF DOCUMENTS

133 (1) The Company may destroy -

(a) any instrument of transfer, after six years from the date on which it is registered,

(b) any dividend mandate or notification of change of name or address, after two years from the date on which it is recorded,

(c) any share certificate, after one year from the date on which it is cancelled,

(d) any other document on the basis of which an entry in the register of members is made, after six years from the date on which it is made

(2) Any document referred to in paragraph (1) of this article may be destroyed earlier than the relevant date authorised by that paragraph, provided that a permanent record of the document is made which is not destroyed before that date

(3) It shall be conclusively presumed in favour of the Company that every entry in the register of members purporting to have been made on the basis of a document destroyed in accordance with this article was duly and properly made, that every instrument of transfer so destroyed was duly registered, that every share certificate so destroyed was duly cancelled, and that every other document so destroyed was valid and effective in accordance with the particulars in the records of the Company, provided that -

(a) this article shall apply only to the destruction of a document in good faith and without notice of any claim (regardless of the parties to it) to which the document might be relevant,

(b) nothing in this article shall be construed as imposing upon the Company any liability in respect of the destruction of any such document otherwise than in accordance with this article which would not attach to the Company in the absence of this article, and

(c) references in this article to the destruction of any document include references to the disposal of it in any manner

WINDING UP

134 If the Company is wound up, the liquidator may, with the sanction of an extraordinary resolution and any other sanction required by law, subject to the provisions of the Act, divide among the members in specie the whole or any part of the assets of the Company and may, for that purpose, value any assets and determine how the division shall be carried out as between the members or different classes of members The liquidator may, with the like sanction, vest the whole or any part of the assets in trustees upon such trusts for the benefit of the members as he may with the like sanction determine, but no member shall be compelled to accept any assets upon which there is a liability

INDEMNITY

135 Subject to the provisions of the Act, the Company may

(a) indemnify any person who is or was a director, directly or indirectly (including by funding any expenditure incurred or to be incurred by him), against any loss or liability, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company, and/or

(b) purchase and maintain insurance for any person who is or was a director against any loss or liability or any expenditure he may incur, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company

For the purposes of this article, "associated company" has the same meaning as in section 309A of the Act

UNCERTIFICATED SHARES

136 (1) Without prejudice to any powers which the Company or the directors may have to issue, allot, dispose of, convert, or otherwise deal with or make arrangements in relation to, shares and other securities in any form

(a) the holding of shares in uncertificated form and the transfer of title to such shares by means of a relevant system (as defined in the Uncertificated Securities Regulations) shall be permitted, and

(b) the Company may issue shares in uncertificated form and may convert shares from certificated form to uncertificated form and vice versa

(2) If and to the extent that any provision of these articles is inconsistent with such holding or transfer as is referred to in paragraph (1)(a) above or with any provision of the Uncertificated Securities Regulations, it shall not apply to any share in uncertificated form

SCHEME OF ARRANGEMENT

137 (1) In this article, references to the **"Scheme"** are to the scheme of arrangement dated 29 June 2007 under Section 425 of the Act between the Company and the holders of the Scheme Shares (as defined in the Scheme), as it may be modified or amended in accordance with its terms, and expressions defined in the Scheme or (if not so defined in the Scheme) defined in the circular dated 29 June 2007 circulated with the Scheme containing the explanatory statement required pursuant to Section 426 of the Act, shall have the same meanings where used in this article except as otherwise expressly stated in this article 137

(2) Notwithstanding any other provision of these articles, if any ordinary shares are issued on or after the Voting Record Time (as defined in the Scheme) other than to TUI Travel PLC or any person identified by written notice to the Company as its nominee(s) but before Scheme Record Time (as defined in the Scheme), such ordinary shares shall be issued subject to the terms of the Scheme and the original or any subsequent holder or holders of such ordinary shares shall be bound by the Scheme accordingly

(3) Notwithstanding any other provision of these articles and as a matter separate from the Merger (as defined in the Scheme), if, at any time on or after 6 00 p m on the business day immediately preceding the date of the Reduction Court Order (as defined in the Scheme), any ordinary shares (**"Post-merger Shares"**), such Post-merger Shares to be deemed a separate class, are issued or are to be issued to any person (a **"New Member"**) other than TUI Travel PLC or any person identified by written notice to the Company by TUI Travel PLC as its nominee(s) and/or designated subsidiary, provided that the Scheme has become effective, such Post-merger Shares shall be transferred immediately after the time at which the Scheme becomes effective (**"Scheme Effective Time"**) or, if later, upon the issue of the Post-merger Shares, free of all encumbrances, to TUI Travel PLC (or as TUI Travel PLC may direct by notice in writing to the Company) in consideration for, and conditionally upon, the issue or transfer free from all encumbrances to the New Member (as soon as is practicable after the Scheme Effective Date or, if later, after the issue of the Shares) of one fully paid ordinary share in TUI Travel PLC for each one Post-merger Share transferred to TUI Travel PLC or its nominee (being the number of ordinary shares in TUI Travel PLC which the New Member would have been entitled to receive in aggregate if the Post-merger Shares transferred hereunder had been Scheme Shares and the New Member had been the holder thereof at the Scheme Record Time) being ordinary shares of TUI Travel PLC which rank *pari passu* with all other ordinary shares of TUI Travel PLC for the time being in issue subject to the memorandum and articles of association of TUI Travel PLC, and rank for any dividends or other distributions declared, made or paid thereon after the date of their issue or transfer

(4) The number of ordinary shares of TUI Travel PLC to be issued or transferred to the New Member under article 137(3) may be adjusted by the directors of TUI Travel PLC on any reorganisation of, or material alteration to, the share capital of the Company or TUI Travel PLC effected after the Scheme Effective Time in such manner as the auditors of the Company shall (in their absolute discretion) determine to reflect such reorganisation or alteration and the determination by the auditors or the Company, in the absence of manifest error, shall be final and binding on all concerned

(5) To give effect to any such transfer required by article 137(3), the Company may appoint any person to execute and deliver a form of transfer on behalf of the New Member in favour of TUI Travel PLC (as directed by TUI Travel PLC) and to agree for and on behalf of the New Member to become a member of TUI Travel PLC Pending the registration of TUI Travel PLC (or its designated subsidiary and/or nominee(s)) as the holder of any share to be transferred pursuant to this article 137, TUI Travel PLC shall be empowered to appoint a person nominated by the directors of TUI Travel PLC to act as attorney on behalf of the holder of such share in accordance with such directions as TUI Travel PLC may give in relation to any dealings with or disposal of such share (or any interest therein), exercising any rights attached thereto or receiving any distribution or other benefit accruing or payable in respect thereof and the registered holder of such share shall exercise all rights attaching thereto in accordance with the directions of TUI Travel PLC but not otherwise

(6) The issue and allotment of any ordinary shares of TUI Travel PLC in respect of any shares transferred pursuant to this article 137 shall be made within seven days of the date of transfer of such shares The ordinary shares of TUI Travel PLC to be issued and allotted pursuant to this 137 shall be issued in certificated or uncertificated form as TUI Travel PLC may determine in its absolute discretion In the case of TUI Travel PLC ordinary shares issued in certificated form TUI Travel PLC shall not less than 28 days after the date of transfer of the Post-merger Shares in respect of which the TUI Travel Shares are issued, sent without charge to such New Member or his nominee a certificate for the ordinary shares in TUI Travel PLC so issued by ordinary post at the risk of the New Member concerned

(7) If the Scheme shall not have become effective by 31 October 2007 (or such later date (if any) as First Choice and TUI AG may agree) and the Court may approve, this article 137 shall be of no effect

Apologies: Paul Bowtell
Dermot Blastland
Clare Chapman
Bill Dalton
Susan Hooper

TUESDAY

1. QUORUM

It was noted that a quorum was present

2. INTRODUCTION

2 1 It was noted that on 19 March 2007, the boards of the Company and TUI AG announced that they had agreed the terms of a recommended merger between the Company and the Tourism Division of TUI AG, excluding certain hotel assets It was further noted that it was proposed that the merger is effected by the acquisition, by a newly incorporated holding company called TUI Travel PLC, of the Company and the Tourism Division of TUI AG It was proposed that the acquisition of the Company by TUI Travel PLC take place by Scheme of Arrangement The Chairman noted that a circular dated 29 June 2007 had been posted to Shareholders on 2 July 2007 containing a Notice of the Extraordinary General Meeting

2 2 The Chairman noted that the purpose of the meeting was to ask Shareholders to pass a special resolution to give effect to the Scheme of Arrangement and an ordinary resolution to waive the obligation that would otherwise arise on TUI AG to make a general offer to the Shareholders of First Choice Holidays PLC under the City Code on Takeover and Mergers It was also proposed that Shareholders pass five ordinary resolutions to approve the operation of the TUI Travel Performance Share Plan, the TUI Travel Deferred Annual

Bonus Scheme, the TUI Travel Sharesave Scheme, the TUI Travel Share Incentive Plan and the TUI Travel Value Creation Synergy Plan

2 3 The Chairman explained that, in accordance with the requirements of the City Code and best practice, the voting at the meeting would be conducted by way of poll, rather than show of hands The Chairman explained the poll procedure

2 4 The meeting consented to the Notice of Meeting, dated 29 June 2007, being taken as read

3. QUESTIONS

3 1 The Chairman then asked for any questions from the floor A brief question and answer session then followed

4. DEMAND FOR A POLL

4 1 In accordance with Article 54 of the Company's Articles of Association, the Chairman demanded a poll on each of resolutions 1 to 7 as set out in the Notice of Meeting The Chairman appointed Lloyds TSB Registrars to act as scrutineers

5. RESOLUTION 1

5 1 On the motion of the Chairman the following special resolution was put to the Meeting and was duly passed on a poll

THAT

(A) the Scheme of Arrangement dated 29 June 2007 (the **"Scheme"**) proposed to be made between the Company and holders of Scheme Shares (as defined in the Scheme) in its original form in the circular sent to shareholders of the Company dated 29 June 2007 (the **"Circular"**) (a print of which has been produced to the meeting and signed by the chairman of the meeting for the purpose of identification), or with or subject to any modification, addition or condition (including, without limitation, any modification or addition which represents an improvement in the value and/or terms of the Merger to holders of Scheme Shares) approved or imposed by the Court, be and is hereby approved, and the directors of the Company be and are hereby authorised to take all such action on behalf of the Company as they consider necessary or desirable for carrying into effect the Scheme,

(B) for the purpose of giving effect to the Scheme in its original form, or with or subject to any modification, addition or condition approved or imposed by the Court

(i) the share capital of the Company be reduced by cancelling and extinguishing all the Scheme Shares (as defined in the Scheme),

(ii) forthwith and contingent upon such reduction of capital taking effect

(a) the share capital of the Company be increased to its former amount by the creation of such number of new ordinary shares of 3 pence each (**"New Shares"**) as shall be equal to the aggregate number of Scheme Shares so cancelled, and

(b) the reserve arising in the books of account of the Company as a result of the cancellation of the Scheme Shares be applied in paying up in full at par the New Shares created pursuant to paragraph 1(B)(ii)(a) above, which shall be allotted and issued, credited as fully paid, to TUI Travel PLC and/or any nominee(s) of it, and

(iii) conditionally upon the Scheme becoming effective, the directors of the Company be and are hereby authorised pursuant to and in accordance with Section 80 of the Companies Act 1985 to give effect to this special resolution and accordingly to effect the allotment of relevant securities (within the meaning of Section 80(2) of the Companies Act 1985) in the form of the New Shares, provided that (i) this authority shall expire on the fifth anniversary of the date on which it is passed (unless previously revoked, varied or renewed), (ii) the maximum aggregate nominal amount of relevant securities which may be allotted hereunder shall be £55,000,000, and (iii) this authority shall be without prejudice to any other authority under the said Section 80 previously granted and in force on the date on which this special resolution is passed, and

(C) forthwith upon the passing of this special resolution, the articles of association of the Company be amended by the adoption and inclusion of the following new article 137

SCHEME OF ARRANGEMENT

137 (1) In this article, references to the **"Scheme"** are to the scheme of arrangement dated 29 June 2007 under Section 425 of the Act between the Company and the holders of the Scheme Shares (as defined in the Scheme), as it may be modified or amended in accordance with its terms, and expressions defined in the Scheme or (if not so defined in the Scheme) defined in the circular dated 29 June 2007 circulated with the Scheme and containing the explanatory statement required pursuant to Section 426 of the Act, shall have the same meanings where used in this article except as otherwise expressly stated in this article 137

(2) Notwithstanding any other provision of these articles, if any ordinary shares are issued on or after the Voting Record Time (as defined in the Scheme) other than to TUI Travel PLC or any person identified by written notice to the Company as its nominee(s) but before the Scheme Record Time (as defined in the Scheme), such ordinary shares shall be issued subject to the terms of the Scheme and the original or any subsequent holder or holders of such ordinary shares shall be bound by the Scheme accordingly

(3) Notwithstanding any other provision of these articles and as a matter separate from the Merger (as defined in the Scheme), if, at any time on or after 6 00 p m on the business day immediately preceding the date of the Reduction Court Order (as defined in the Scheme), any ordinary shares (**"Post-merger Shares"**), such Post-merger Shares to be deemed a separate class, are issued or are to be issued to any person (a **"New Member"**) other than TUI Travel PLC or any person identified by written notice to the Company by TUI Travel PLC as its nominee(s) and/or designated subsidiary, provided that the Scheme has become effective, such Post-merger Shares shall be transferred immediately after the time at which the Scheme becomes effective (**"Scheme Effective Time"**) or, if later, upon the issue of the Post-merger Shares, free of all encumbrances, to TUI Travel PLC (or as TUI Travel PLC may direct by notice in writing to the

Company) in consideration for, and conditionally upon, the issue or transfer free from all encumbrances to the New Member (as soon as is practicable after the Scheme Effective Date or, if later, after the issue of the Shares) of one fully paid ordinary share in TUI Travel PLC for each one Post-merger Share transferred to TUI Travel PLC or its nominee (being the number of ordinary shares of TUI Travel PLC which the New Member would have been entitled to receive in aggregate if the Post-merger Shares transferred hereunder had been Scheme Shares and the New Member had been the holder thereof at the Scheme Record Time) being ordinary shares in TUI Travel PLC which rank *pari passu* with all other ordinary shares in TUI Travel PLC for the time being in issue subject to the memorandum and articles of association of TUI Travel PLC, and rank for any dividends or other distributions declared, made or paid thereon after the date of their issue or transfer

(4) The number of ordinary shares of TUI Travel PLC to be issued or transferred to the New Member under article 137(3) may be adjusted by the directors of TUI Travel PLC on any reorganisation of, or material alteration to, the share capital of the Company or TUI Travel PLC effected after the Scheme Effective Time in such manner as the auditors of the Company shall (in their absolute discretion) determine to reflect such reorganisation or alteration and the determination by the auditors or the Company, in the absence of manifest error, shall be final and binding on all concerned

(5) To give effect to any such transfer required by article 137(3), the Company may appoint any person to execute and deliver a form of transfer on behalf of the New Member in favour of TUI Travel PLC (as directed by TUI Travel PLC) and to agree for and on behalf of the New Member to become a member of TUI Travel PLC Pending the registration of TUI Travel PLC (or its designated subsidiary and/or nominee(s)) as the holder of any share to be transferred pursuant to this article 137, TUI Travel PLC shall be empowered to appoint a person nominated by the directors of TUI Travel PLC to act as attorney on behalf of the holder of such share in accordance with such directions as TUI Travel PLC may give in relation to any dealings with or disposal of such share (or any interest therein), exercising any rights attached thereto or receiving any distribution or other benefit accruing or payable in respect thereof and the registered holder of such share shall exercise all rights attaching thereto in accordance with the directions of TUI Travel PLC but not otherwise

(6) The issue and allotment of any ordinary shares of TUI Travel PLC in respect of any shares transferred pursuant to this article 137 shall be made within seven days of the date of transfer of such shares The ordinary shares of TUI Travel PLC to be issued and allotted pursuant to this 137 shall be issued in certificated or uncertificated form as TUI Travel PLC may determine in its absolute discretion In the case of TUI Travel PLC ordinary shares issued in certificated form TUI Travel PLC shall, not less than 28 days after the date of transfer of the Post-merger Shares in respect of which the TUI Travel Shares are issued, send without charge to such New Member or his nominee a certificate for the ordinary shares in TUI Travel PLC so issued by ordinary post at the risk of the New Member concerned

(7) If the Scheme shall not have become effective by 31 October 2007 (or such later date (if any) as First Choice and TUI AG may agree) and the Court may approve, this article 137 shall be of no effect

6. RESOLUTION 2

6 1 On the motion of the Chairman the following ordinary resolution was put to the Meeting and was duly passed on a poll

THAT

The waiver by the Takeover Panel described in the Circular of the obligation that would otherwise arise on TUI AG to make a general offer to the shareholders of the Company (all of whom as a result of the Scheme will become shareholders of TUI Travel PLC) pursuant to Rule 9 of the City Code on Takeovers and Mergers in connection with the remaining shares in TUI Travel PLC be and is hereby approved.

7. RESOLUTION 3

7 1 On the motion of the Chairman the following ordinary resolution was put to the Meeting and was duly passed on a poll

THAT

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Performance Share Plan, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved

8. RESOLUTION 4

8 1 On the motion of the Chairman the following ordinary resolution was put to the Meeting and was duly passed on a poll

THAT

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Deferred Annual Bonus Scheme, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved

9. RESOLUTION 5

9.1 On the motion of the Chairman the following ordinary resolution was put to the Meeting and was duly passed on a poll.

THAT

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Sharesave Scheme, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved

10. RESOLUTION 6

10 1 On the motion of the Chairman the following ordinary resolution was put to the Meeting and was duly passed on a poll

THAT

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Share Incentive Plan, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved

11. RESOLUTION 7

11 1 On the motion of the Chairman the following ordinary resolution was put to the Meeting and was duly passed on a poll

THAT

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Value Creation Synergy Plan, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved

12. ANY OTHER BUSINESS

There being no further business, the Chairman declared the meeting closed

FRIDAY

(adopted by special resolution
passed on 26 March 1997
and amended by special resolutions
passed on 17 March 1998, 10 July 2000
14 March 2001, 13 March 2002, 11 March 2003, 23 March 2006 and 7 March 2007)

PRELIMINARY

1. (1) In these articles the following words bear the following meanings:-

"the Act"	subject to paragraph (4) of this article, the Companies Act 1985;
"these articles"	the articles of the Company;
"clear days"	in relation to the period of a notice, that period excluding the day when the notice is given or deemed to be given and the day for which it is given or on which it is to take effect;
"executed"	any mode of execution;
"holder"	in relation to shares, the member whose name is entered in the register of members as the holder of the shares;
"Office"	the registered office of the Company;
"recognised person"	a recognised clearing house or a nominee of a recognised clearing house or of a recognised investment exchange who is designated as mentioned in section 185(4) of the Act;
"the seal"	the common seal (if any) of the Company and an official seal (if any) kept by the Company by virtue of section 40 of the Act, or either of them as the case may require;
"secretary"	the secretary of the Company or any other person appointed to perform the duties of the secretary of the Company, including a joint, assistant or deputy secretary;
"the Stock Exchange"	the London Stock Exchange Limited;
"the Uncertificated Securities Regulations"	subject to paragraph (4) of this article, the Uncertificated Securities Regulations 1995;

"A" Convertible Preference Shares"	6.75 per cent. (net) convertible cumulative redeemable preference shares of nominal value of £1 each arising upon the redesignation of convertible preference shares pursuant to Article 3(7)(c) and forming a separate class of shares from the convertible preference shares;
"Listing Rules"	the Listing Rules made by the UK Listing Authority under section 142 of the Financial Services Act 1986;
"London Stock Exchange"	London Stock Exchange PLC;
"LSE Admission Standards"	the rules issued by the London Stock Exchange in relation to the admission of trading of, and continuing requirements for, securities admitted to the Official List;
"Official List"	the list maintained by the UK Listing Authority pursuant to Part IV of the Financial Services Act 1986;
"Relevant Event"	means any of the following events: (i) a takeover offer (as defined in section 428 of the Act) in respect of the ordinary share capital of the Company becoming unconditional in all respects; (ii) the acceptance by a Relevant Person of any offer or invitation to subscribe for new ordinary shares in the capital of the Company save where such offer or invitation is made to such person by reason of their being an existing holder of ordinary shares, such offer or invitation being made to all holders of ordinary shares at a specified date on an equivalent basis (or as near as is practicable thereto), which shall include, without prejudice to the generality of the foregoing, an offer or invitation by way of a rights issue or open offer as described in Chapter 4 of the Listing Rules; (iii) the acquisition by a Relevant Person of ordinary shares such that such person holds 30 per cent. or more of the issued ordinary share capital of the Company at that date; (iv) issue of a petition seeking an administration order in relation to the Company or the appointment of a receiver over a material part of the Company's property, assets or undertaking; (v) the passing by the Company of a resolution for its winding up or the issue of a petition seeking an order for the winding up of the Company otherwise than, in each case, for the purposes of a solvent amalgamation or reconstruction; (vi) the entering into by the Company of a Strategic Relationship with a Relevant Person;
"Relevant Person"	an entity which owns, operates or controls cruise vessels with capacity in excess of 5,000 passenger berths together in each case with their respective subsidiary undertakings (as defined in section 258 of the Act) and associated undertakings (as defined in paragraph 20 of Schedule 4A of the Act and taking into

account the presumption in sub-paragraph (2) thereof);

"Strategic Relationship"	any of the following: (i) any relationship between the Company and a Relevant Person which the Company has *announced to be a strategic relationship;* (ii) any acquisition by the Company of an interest in the share capital of a Relevant Person in connection with a commercial relationship; (iii) the establishment of a joint venture having the potential for profit sharing with a Relevant Person; (iv) conferring on a Relevant Person most favoured status in the retail operations of the Company and its subsidiary undertakings; or (v) a major distribution initiative for the exclusive benefit of a Relevant Person;
"UK Listing Authority"	the Financial Services Authority as the competent authority for listing in the United Kingdom;

(2) In relation to shares, the expressions "in uncertificated form" and "in certificated form" have the same meaning in these articles as in the Uncertificated Securities Regulations, provided that any reference to a share in uncertificated form does not include a reference to a share which is not a participating security, as defined in those regulations.

(3) Save as aforesaid and unless the context otherwise requires, words or expressions contained in these articles bear the same meaning as in the Act or the Uncertificated Securities Regulations (as the case may be). For the purposes of these Articles, a dematerialised instruction is properly authenticated if it complies with the specifications referred to in paragraph 5(b) of Schedule 1 to the Uncertificated Securities Regulations.

(4) Except where otherwise expressly stated, a reference in these articles to any primary or delegated legislation or legislative provision includes a reference to any modification or re-enactment or replacement of it for the time being in force.

(5) *In these articles, unless the context otherwise requires -*

(a) words in the singular include the plural, and vice versa;

(b) words importing any gender include all genders; and

(c) a reference to a person includes a reference to a body corporate and to an unincorporated body of persons.

(6) In these articles -

(a) references to writing include any method of presenting words in a visible form whether in a physical document or in an electronic communication or in any other way;

(b) references to "other" and "otherwise" shall not be construed ejusdem generis where a wider construction is possible;

(c) references to a power are to a power of any kind, whether administrative, discretionary or otherwise; and

(d) references to a committee of the directors are to a committee established in accordance with these articles, whether or not comprised wholly of directors.

(7) The headings are inserted for convenience only and do not affect the construction of these articles.

2. The regulations contained in Table A do not apply to the Company.

SHARE CAPITAL

3. The share capital of the Company, at the date of adoption of this Article, is £223,500,000 divided into 800,000,000 ordinary shares of 3p each (**"ordinary shares"**) and 199,500,000 6.75 per cent. (net) convertible cumulative redeemable preference shares of nominal value of £1 each (**"convertible preference shares"**).

(1) **Income**

(A) Out of the profits available for distribution the holders of the convertible preference shares shall be entitled, in priority to any payment of dividend to the holders of any other class of shares, to be paid a fixed cumulative preferential dividend (**"preferential dividend"**) at the rate of 6.75p per share per annum (exclusive of any associated tax credit) such dividend to accrue from day to day and to be paid quarterly on 31st December, 31st March, 30th June and 30th September (**"fixed dividend dates"**) (or in the event of any such date being a Saturday, Sunday or public holiday in England on the first business day following such date) in each year in respect of the quarters ending on those respective dates, save that the first such payment in respect of the convertible preference shares shall be made on 30th September 2000, in respect of the period from their date of issue to 30th September 2000 (both dates inclusive). Payments of preferential dividends shall be made to holders of the convertible preference shares on the register on the date 21 days prior to the relevant fixed dividend date. The convertible preference shares shall not entitle the holders to any further right of participation in the profits of the Company provided that the entitlements of holders under this paragraph (1) shall be subject to valid elections made by holders of convertible preference shares pursuant to any offer of ordinary shares made in accordance with the provisions of Article 120.

(B) If at any time and for so long as the aggregate preferential dividend payable on six successive fixed dividend dates has not been paid by the Company the holder or holders for the time being of a majority of the issued convertible preference shares shall be entitled to appoint up to two additional directors of the Company (and to remove and replace any directors so appointed) by a written direction to the Company signed by the holder or holders of a majority of the issued convertible preference shares. Such direction shall take effect upon being delivered to the Office. In such circumstances, if necessary, the maximum number of directors referred to in Article 73 shall be deemed to be increased to 17. As soon as all preferential dividends accrued in respect of previous fixed dividend dates have been paid in full any directors appointed pursuant to this paragraph shall forthwith cease to hold office and any deemed increase in the maximum number of directors referred to in Article 73 shall cease to apply.

(2) **Capital**

Subject to sub-paragraph (7)(b) of this Article, on a return of capital (other than on conversion, redemption or purchase of shares in the Company) the assets of the Company available for distribution among the members shall be applied in priority to any payment to the holders of any other class of shares in repaying to the holders of the convertible preference shares a sum equal to the nominal capital paid up or credited as paid up thereon and all arrears and accruals (if any) of the preferential dividend whether such preferential dividend has been earned or declared or not, calculated to the date of the commencement of the winding-up (in the case of a winding-up) or the return of capital (in any other case) on the footing that it continues to accrue from day to day down to that date. The provisions of this paragraph are without prejudice to the other provisions of these

articles (as from time to time amended) as to conversion, redemption and purchase of shares. After the holders of the ordinary shares have received a sum equal to the nominal capital paid up or credited as paid up on the ordinary shares together with the sum of £1,000 per ordinary share held by them respectively the holders of convertible preference shares shall be entitled to participate with the holders of ordinary shares pro rata to the number of shares of each class held by them respectively in the surplus assets of the Company available for distribution. The convertible preference shares shall not entitle the holders to any further right of participation in the assets of the Company.

(3) **Voting at General Meetings**

(a) The convertible preference shares shall entitle the holder to receive notice of, to attend and to vote at any general meeting. A holder of convertible preference shares shall be entitled to such number of votes, and the provisions of these Articles so far as they relate to votes of members at general meetings including, without prejudice to the generality, Articles 61 to 71 shall be applied, as if such holder of convertible preference shares had exercised in full immediately prior to the time for establishing the right to vote at the meeting at which such vote is to be taken the conversion rights attaching to the convertible preference shares held by such holder.

(b) In the event that any convertible preference share is redesignated as an "A" Convertible Preference Share pursuant to paragraph (7)(c) below the holders of such redesignated "A" Convertible Preference Shares shall be entitled to receive notice of any General Meeting of the Company but shall not be entitled:

(i) to vote upon any resolution (other than a resolution for winding-up the Company or a resolution varying, modifying, altering or abrogating any of the rights, privileges, limitations or restrictions attached to the convertible preference shares) unless, at the date of the notice convening the meeting at which the resolution is to be proposed, the preferential dividend or any part thereof shall be at least six months in arrears, whether or not there were sufficient profits available out of which the dividend could have been paid, or the Company shall have failed to redeem on any applicable date on which the convertible preference shares were due for redemption; and

(ii) to attend at any general meeting unless the business of the meeting includes a resolution upon which such holders are entitled to vote

and the provisions of sub-paragraph (3)(a) shall no longer apply to such redesignated "A" Convertible Preference Share.

Where a holder is entitled to vote under this sub-paragraph (b) he shall be entitled to such number of votes as equals the number of ordinary shares which would result from the exercise in full, immediately prior to the time for establishing the right to vote at the meeting at which such vote is to be taken, of the conversion rights attaching to the convertible preference shares held by such holder.

(4) **Conversion**

(a) Subject as hereinafter provided, each holder of convertible preference shares shall be entitled at the times and in the manner set out in this Article to convert all or any of his convertible preference shares into fully paid ordinary shares on the basis of 52.6316 ordinary shares for every £100 in nominal amount of convertible preference shares so converted, and so in proportion for any greater or lesser nominal amount of convertible preference shares (such rate as adjusted from time to time as provided in sub-paragraphs (6)(a), (c) or (d) or (4)(o)) of this article being herein called **"the Conversion Rate"**) provided that if a Conversion Notice (as defined in sub-paragraph (4)(c) below) is given in respect of part only of a holding of convertible preference shares so that there would remain following conversion five or fewer such shares in that

holding, all the convertible preference shares in the holding shall be converted notwithstanding the figure inserted in the Conversion Notice.

(b) For the purposes of the provisions of this article a **"Conversion Date"** shall be a day on or after the date which is sixty days after the date of adoption of this Article, but prior to the tenth anniversary of the date of issue of the first convertible preference shares to be issued (being the last Conversion Date), being the day on which the Board shall allot (and in any case where such allotment is conditional, such day shall be the day on which such allotment becomes unconditional) the ordinary shares arising upon the conversion of the shares specified in a Conversion Notice.

(c) Such right shall be exercisable on any day (other than a Saturday, Sunday or a day which is a public holiday in England) by completing the notice of conversion endorsed on the share certificate relating to the convertible preference shares to be converted or a notice in such other form as may from time to time be prescribed by the directors (a **"Conversion Notice"**) and delivering the same to the registrars for the time being of the Company together with, in any case where there is doubt or uncertainty over the title to the shares in question, such other evidence (if any) as the directors may reasonably require to prove the title of the person exercising such right to convert. A Conversion Notice once given may not be withdrawn without the consent in writing of the Company.

(d) Conversion of such convertible preference shares as may be specified in any Conversion Notice (the **"Relevant Shares"**) shall be effected in such manner as the directors shall from time to time determine in accordance with the following provisions of this Article or otherwise as may be authorised by law.

(e) The directors may, subject as herein provided, determine to effect conversion by electing to redeem at par the Relevant Shares (or any of them) on any Conversion Date out of the profits of the Company which would otherwise be available for distribution to the holders of any class of shares. The convertible preference shares shall confer upon the holders thereof the right and the obligation (in the event that the convertible preference shares held by them respectively become Relevant Shares and the directors determine to redeem the same at par out of profits as aforesaid) to subscribe for the appropriate number of ordinary shares at the applicable Conversion Rate at such premium (if any) as shall represent the amount by which the redemption monies in respect of the Relevant Shares exceed the nominal amount of the ordinary shares to which the holders are so entitled. In any such case, the Conversion Notice given by a holder of Relevant Shares shall be deemed irrevocably to authorise and instruct the directors to apply the redemption monies payable to him in subscribing for such ordinary shares at such premium (if any) as aforesaid.

(f) The directors may, subject as herein provided and if duly authorised to allot such ordinary shares in accordance with the provisions of the Act and these Articles, determine to effect conversion by electing to redeem at par the Relevant Shares (or any of them) on any Conversion Date out of the proceeds of a fresh issue of ordinary shares. The convertible preference shares shall confer upon the holders thereof the right and the obligation (in the event that the convertible preference shares held by them respectively become Relevant Shares and the directors determine to redeem the same at par out of the proceeds of a fresh issue as aforesaid) to subscribe, and the holders shall be deemed irrevocably to authorise and instruct the secretary of the Company (or any other person appointed for the purpose by the directors) to subscribe as agent on the holder's behalf, for the appropriate number of ordinary shares (which authority shall include the right to borrow money) at the applicable Conversion Rate at such premium (if any) as shall represent the amount by which the redemption monies in respect of the Relevant Shares exceed the nominal amount of the ordinary shares to which the holders are so entitled. In any such case, the Conversion Notice given by a holder of Relevant Shares shall be deemed irrevocably to authorise and instruct the directors following the allotment of such ordinary shares to apply the redemption monies payable to him in payment to his said agent who shall be entitled to retain the same for his own benefit without being accountable therefor to such holder.

(g) The directors may, if duly authorised to allot such ordinary shares in accordance with the provisions of the Act and these articles, determine to effect conversion by electing to redeem at par the Relevant Shares (or any of them) on the Conversion Date: (i) in part, up to an amount equal to any applicable stamp duty, transfer duty or stamp duty reserve tax in respect of the renunciation referred to below, out of profits of the Company which would otherwise be available for distribution, and (ii) in part, out of the proceeds of a fresh issue of the number of ordinary shares into which the relevant shares are required to be converted at the Conversion Rate, such issue to be at such premium (if any) as shall represent: (i) the amount by which the redemption moneys in respect of the relevant shares exceed the nominal value of such ordinary shares less (ii) an amount equal to any applicable stamp duty, transfer duty or stamp duty reserve tax in respect of the renunciation referred to below. In such event the directors shall arrange for the allotment of the appropriate number of ordinary shares to some person selected by them on terms that such person will subscribe and pay for such ordinary shares at such premium (if any) as aforesaid and renounce the allotment of such ordinary shares in favour of the holder of the relative Relevant Shares (and will also pay any applicable stamp duty, transfer duty or stamp duty reserve tax in respect of such renunciation) against payment to such subscriber by the Company of the redemption moneys in respect of such shares so redeemed (which redemption moneys shall be equal to the amount payable to the holder of the relative Relevant Shares as aforesaid). In any such case, the Conversion Notice given by a holder of Relevant Shares shall be deemed to have authorised and instructed the directors to pay the redemption moneys in respect of his Relevant Shares to the subscriber of the ordinary shares renounced in his favour.

(h) The directors may determine to effect conversion by means of consolidation and sub-division. In such case the requisite consolidation and sub-division shall be effected pursuant to the authority given by the passing in general meeting of the resolution creating the convertible preference shares, by consolidating into one share all the Relevant Shares at any one or more Conversion Dates held by any holder or joint holders and sub-dividing such consolidated share into shares of 3p each (or such other amount as may be appropriate as a result of any consolidation or sub-division, of the ordinary shares) of which 52.6316 shares for each £100 nominal amount of the consolidated share (or such other number of shares as may be appropriate as a result of any adjustment pursuant to the provisions of sub-paragraph (6)(a), (c) or (d) or (4)(o) of this Article) shall be ordinary shares (and so in proportion for any other nominal amount of the consolidated share), fractional entitlements being disregarded, and the balance of such shares (including any fractions) shall be non-voting deferred shares (**"Non-voting Deferred Shares"**) which shall have the following rights and be subject to the following restrictions:

(i) on a return of capital on winding-up or otherwise, the Non-voting Deferred Shares shall entitle the holders thereof only to the repayment of the amounts paid up on such shares after payment in respect of each ordinary share of the capital paid up on such shares together with £100,000;

(ii) the Non-voting Deferred Shares shall not entitle the holders thereof to the payment of any dividend or other distribution;

(iii) the Non-voting Deferred Shares shall not entitle the holders thereof to receive notice of or attend or vote at any general meeting of the Company.

Such conversion shall be deemed to confer irrevocable authority on the Company at any time thereafter to appoint any person to execute on behalf of the holders of such Non-voting Deferred Shares a transfer thereof (and/or an agreement to transfer the same) to such person as the Company may determine as custodian thereof and/or to purchase the same (in accordance with the provisions of the Act) in any such case for not more than 1p for all the Non-voting Deferred Shares without obtaining the sanction of the holder or holders thereof and pending such transfer and/or purchase to retain the certificate for such Non-voting Deferred Shares. Subject to the provisions of the Act, the Company may at its option at any time after the creation of any Non-voting Deferred

Shares redeem all of the Non-voting Deferred Shares then in issue, at an aggregate price not exceeding 1p for all the Non-voting Deferred Shares redeemed, at any time upon giving the registered holders of such shares not less than 28 days' previous notice in writing of its intention so to do, fixing a time and place for the redemption and, at such time and place so fixed, such registered holders shall be bound to surrender to the Company the certificates for the Non-voting Deferred Shares in order that the same may be cancelled and the Company shall pay the redemption monies to one of such registered holders to be determined by lot.

(i) In addition to the right to determine to effect conversion by means of consolidation and sub-division in accordance with the foregoing provisions of this paragraph (4), the Directors may consolidate into one share all the Relevant Shares at any one or more Conversion Dates held by any holder or joint holders and sub-divide such share into the appropriate number of ordinary shares, in which event such ordinary shares, notwithstanding that they may have a different nominal amount from other ordinary shares then in issue, shall form a uniform class with all such shares and shall notwithstanding any contrary provision herein for all purposes and in all respects (including without limitation entitlement to dividends or other distributions, participation in offers, voting rights, rights on liquidation or return of capital) rank pari passu with all other fully paid ordinary shares for which purpose the nominal amount of each ordinary share arising on such consolidation and sub-division shall be deemed to be 3p (or such other amount as may be appropriate as a result of any sub-division or consolidation of the ordinary shares) and the nominal amount of the ordinary shares into which the Relevant Shares shall convert shall (subject to adjustment as aforesaid) also be deemed to be 3p.

(j) Any fractions of ordinary shares arising on conversion shall be aggregated and sold on behalf of such holders of Relevant Shares at the best price reasonably obtainable and the net proceeds of sale shall be distributed pro rata among such holders who would otherwise have been entitled unless in respect of any holding of the Relevant Shares the amount to be distributed would be less than £3.00 in which case such amount shall not be so distributed but shall be retained for the benefit of the Company. For the purpose of implementing the provisions of this sub-paragraph (4)(i), the directors may appoint some person to execute transfers or renunciations on behalf of persons otherwise entitled to any such fractions and generally may make all arrangements which appear to them necessary or appropriate for the settlement and disposal of fractional entitlements.

(k) Save in the circumstances specified below, the preferential dividend on any convertible preference shares converted (whatever the manner of conversion) shall cease to accrue with effect from the fixed dividend date last preceding the relevant Conversion Date. In the event that conversion is effected at the rate and in the circumstances described in paragraph (o) below or follows immediately after service of a notice under sub-paragraph (5)(c) below, the preferential dividend shall cease to accrue with effect from the day immediately preceding the Conversion Date. The ordinary shares arising on any conversion shall rank pari passu in all respects with the ordinary shares in issue on the Conversion Date, except that the ordinary shares so allotted will not rank for any dividend or other distribution which has been announced, declared, recommended or resolved upon prior to the Conversion Date by the directors or by the Company in general meeting to be paid or made, if the record date for such dividend or other distribution is prior to the Conversion Date and notice of the intended dividend or other distribution and of the record date has been given to the London Stock Exchange prior to such Conversion Date.

(l) Subject to sub-paragraph (4)(n) of this Article below, allotments of ordinary shares arising from conversion (whatever the manner of conversion) shall be effected within 2 business days of the receipt of the relevant Conversion Notice and relevant entries made in the register of members immediately thereafter. Within 14 days after the Conversion Date, the Company shall send to each holder of the Relevant Shares, by post at his own risk, free of charge, a definitive certificate for the appropriate number of fully-paid ordinary shares arising on conversion that are in certificated form and a new

certificate for any unconverted convertible preference shares comprised in the certificates surrendered by him together, where relevant, with a cheque in respect of any cash entitlement arising from the sale of fractions. In the meantime transfers shall be certified against the Register. In the case of ordinary shares that are in uncertificated form, the Company will procure that the Operator is instructed to credit the appropriate stock accounts, in the relevant system with the appropriate number of ordinary shares.

(m) The Company shall use its best endeavours to procure that the ordinary shares arising on conversion are admitted to the Official List and admitted to trading on the London Stock Exchange.

(n) The conversion rights of a holder of convertible preference shares are subject, as regards their exercise, to the approval of the UK Listing Authority in any case where such approval is required. Where, in accordance with the Listing Rules, the allotment of ordinary shares arising on the exercise of conversion rights in respect of any convertible preference shares would require the preparation by the Company of listing particulars or a prospectus, the allotment of such ordinary shares shall be effected within 45 days of receipt of the relevant Conversion Notice and the other periods referred to in sub-paragraph (4)(l) of this Article shall be adjusted accordingly. The Company shall use all reasonable endeavours to apply for listing and to publish listing particulars as soon as possible.

(o) If the holder of convertible preference shares exercises the right to convert the whole but not part only of his holding of convertible preference shares by giving a Conversion Notice which is not more than 30 days after receipt by the holder of the notification of the occurrence of a Relevant Event then the Conversion Rate shall be, for every £100 in nominal amount of convertible preference shares so converted, on or prior to certain anniversaries of the date of first issue of any convertible preference shares (an **"Anniversary"**) the number of ordinary shares shown below and after that the Conversion Rate (as defined in sub-paragraph (4)(a) of this Article):

Date of Conversion Notice	**Conversion Rate**
On or before first Anniversary	55.5556
On or before second Anniversary	54.0541

(5) **Redemption and purchase**

(a) Where a holder of convertible preference shares has given a Conversion Notice in respect thereof, such convertible preference shares may be redeemed at the option of the Company at the price(s), in the manner and in the circumstances specified in sub-paragraphs (4)(e), (f) or (g) of this Article and in the case of any such redemption, the redemption monies shall become payable on redemption but shall be applied in accordance with those sub-paragraphs.

(b) Except where a Conversion Notice has previously been given the Company shall, subject to the Act, redeem on the tenth anniversary of the date of first issue of any convertible preference shares, the whole of the convertible preference shares if any in issue on that date.

(c) The Company may by giving the holders of the convertible preference shares not less than 15 and not more than 30 days notice in writing subject to the Act, redeem the whole (but not part only) of the convertible preference shares (if any) in issue:

(i) at any time following the date upon which the aggregate nominal amount of shares remaining in issue as convertible preference shares shall be less than 10 per cent. of the aggregate nominal amount of shares at any time issued as convertible preference shares;

(ii) on or at any time after the fifth anniversary of the date of issue of the first convertible preference shares to be issued; or

(iii) within 14 days of the occurrence of a Withholding Event (as defined in sub-paragraph (9)(c) of this Article)

provided always that the Company's right to redeem shall be subject to the holder not having given a Conversion Notice prior to the Redemption Date.

(d) As soon as practicable following the occurrence of any Relevant Event, the Company shall give notice of that event to the holders of Convertible Preference Shares. Following the occurrence of a Relevant Event, on any date which is not more than 30 days following the later of the occurrence of such Relevant Event or receipt of such notice, a holder of convertible preference shares may require the Company to redeem the whole (but not part only) of the convertible preference shares held by such holder. In that event the Company shall redeem such convertible preference shares on the date which is 7 days, or, in the case of an event of the kind described in sub-paragraph (iii) of the definition of Relevant Event, 90 days (or in the event of such date being a Saturday, Sunday, or public holiday in England on the first business day following such date) after the earlier of:

(i) receipt of the notice by the Company as referred to in this sub-paragraph; or

(ii) receipt by the Company of notice of redemption under this sub-paragraph.

(e) The date upon which a convertible preference share is to be redeemed in accordance with the foregoing provisions of this paragraph 5 is hereinafter referred to as the **"Redemption Date"**.

(f) There shall be paid on each convertible preference share so redeemed the nominal amount paid up or credited as paid up thereon together with a sum equal to all arrears of the preferential dividend thereon to be calculated down to and including the Redemption Date on the footing that it continues to accrue from day to day down to that date and to be payable irrespective of whether or not such preferential dividend has been declared or earned.

(g) Upon the Redemption Date each of the holders of the convertible preference shares shall be bound to deliver to the Company at the Office the certificate(s) for the convertible preference shares held by him and upon such delivery the Company shall pay to such holder the amount due to him in respect of such redemption.

(h) As from the Redemption Date the preferential dividend shall cease to accrue on the convertible preference shares except on any such convertible preference share in respect of which, upon due presentation of the certificate relating thereto, payment of the money due at such redemption shall be refused in which case the preferential dividend shall be deemed to have continued and shall continue to accrue from the relevant Redemption Date to the date of payment.

(i) The receipt of the registered holder for the time being of any convertible preference shares or in the case of joint registered holders the receipt of any of them for the monies payable on redemption thereof shall constitute an absolute discharge to the Company in respect thereof.

(j) Subject to the provisions of the Act and the Listing Rules, the Company may at any time purchase convertible preference shares by tender (available alike to all holders of convertible preference shares) or by private treaty, in each case at a price (exclusive of all costs of purchase) which shall not exceed 110 per cent. of the nominal amount of a convertible preference share but not otherwise, and upon such other terms and conditions as it may think fit. The Company may exercise its rights and powers of purchase as regards the convertible preference shares at its sole discretion and without obligation to maintain the ratio between the nominal amounts for the time being outstanding of any series. No holder shall be obliged to sell any convertible preference shares held by it in such event.

(k) Upon the redemption of all outstanding convertible preference shares the directors may pursuant to the authority given by the adoption of this article convert and sub-divide the authorised but unissued preference share capital created as a consequence of such redemption into shares of any other class of share capital into which the authorised share capital of the Company is or may at that time be divided of a like nominal amount (as nearly as may be) as the shares of such class then in issue or into unclassified shares of the same nominal amount as the convertible preference shares.

(6) **Adjustments and Protections**

(a) If, whilst any convertible preference shares remain capable of being converted into ordinary shares, the Company shall make any issue of ordinary shares by way of capitalisation of profits or reserves (including any share premium account and capital redemption reserve) to holders of ordinary shares, then the number of ordinary shares to be issued on any subsequent conversion of convertible preference shares shall be increased pro rata to the increase in the aggregate number of ordinary shares in issue immediately prior to such issue. No adjustments shall be made in the event of the issue of shares by way of capitalisation of profits or reserves in lieu of ordinary cash dividends.

(b) If any offer or invitation by way of rights or otherwise (not being either an offer of shares by way of capitalisation of profits or reserves at the option of a holder of ordinary shares in lieu of ordinary cash dividends or an offer or invitation to which the provisions of sub-paragraph (7)(a)(ii) of this Article apply) is made to the holders of the ordinary share capital of the Company, the Company shall make or procure that there is made a like offer at the same time to each holder of convertible preference shares as if he held the number of ordinary shares which would result from the exercise in full immediately prior to the record date of such offer of the conversion rights attaching to the convertible preference shares held by such holder.

In the case of any offer or invitation as aforesaid being made the entitlement of the holders of the convertible preference shares shall be to the exclusion of any other right or entitlement to which such holders might otherwise be entitled.

(c) If whilst any convertible preference shares remain capable of being converted into ordinary shares, the ordinary shares shall be consolidated or sub-divided, the number of ordinary shares to be issued on any subsequent conversion of convertible preference shares shall be reduced or increased pro rata to the reduction or increase in the aggregate number of ordinary shares in issue immediately prior to such reduction or increase.

(d) If whilst any convertible preference shares remain capable of being converted into ordinary shares, the Company shall make any capital distribution to the holders of ordinary shares, the number of ordinary shares to be issued on any subsequent conversion of the convertible preference shares shall be increased by an amount determined to be appropriate by the Board acting reasonably and in good faith. For the purposes of this sub-paragraph (6)(d), "capital distribution" means:

(i) any distribution of assets in specie;

(ii) any dividend or other distribution of capital profits (whether realised or not) or capital reserves, or profits or reserves arising after the date of the passing in general meeting of the resolution creating the convertible preference shares from a distribution of capital profits (whether realised or not) or capital reserves by a subsidiary, except in either case by means of a capitalisation issue not contravening sub-paragraph (7)(a)(i) of this Article. For the purposes of this sub-paragraph (6)(d), insofar as the relevant audited accounts do not distinguish between capital and revenue profits or reserves, the Company shall be entitled to rely upon a determination by the Board (given in good faith and acting reasonably) as to the extent to which any part of any profit or reserve should be regarded as of a capital nature.

(e) Except in the event that arrangements are or have been offered to the holders of the convertible preference shares which ensure that the rights of such holders would not be prejudiced, the Company will procure that no scheme of compromise or arrangement within the meaning of section 425 of the Act affecting the ordinary shares shall become effective unless the holders of convertible preference shares shall be parties to the scheme and unless the scheme shall be approved by such holders in the manner prescribed by the said section.

(f) Except in pursuance of a scheme approved in accordance with sub-paragraph (6)(e) above or in accordance with sub-paragraph (6)(d), the Company shall not (prior to the day next following the final Conversion Date) give effect to any arrangement pursuant to which the Company is to make a distribution of the kind described in section 213 of the Income and Corporation Taxes Act 1988 whereby shares are to be issued or transferred to all or any of the ordinary shareholders unless it shall have given to the holders of convertible preference shares prior notice thereof, such notice to be given not less than 42 days prior to the proposed record date in respect of the entitlement of ordinary shareholders to receive the shares to be issued or transferred.

(7) **Other Provisions**

(a) So long as any convertible preference shares remain capable of being converted into ordinary shares then, save with the consent or sanction on the part of the holders of three quarters in nominal value of the convertible preference shares:

(i) no shares shall be allotted pursuant to a capitalisation of profits or reserves (including any share premium account or capital redemption reserve) except ordinary shares, credited as fully-paid, to the holders of ordinary shares and upon any allotment to the holders of ordinary shares the Conversion Rate shall be adjusted as appropriate under paragraph (6) of this Article;

(ii) no equity share capital (as defined by section 744 of the Act) shall be in issue which is not in all respects uniform with the ordinary shares of the Company in issue on the date of adoption of this Article, save:

(a) as to the date from which such capital shall rank for dividend; or

(b) for equity share capital issued in connection with or pursuant to any scheme approved by the Company in general meeting to staff and/or employees (including directors of the Company or its subsidiaries holding executive positions) or any such group thereof; or

(c) for equity share capital which has attached thereto rights as to dividend, capital or voting, which in no respect are more favourable than those attached to the ordinary shares in issue at the date of adoption of this Article; or

(d) for the convertible preference shares (and provided that no authorised convertible preference share capital remaining after the conversion or redemption of any such share shall be available for re-issue);

(iii) no resolution shall be passed whereby the rights attaching to the ordinary shares shall be modified, varied or abrogated;

(iv) the Company shall not (except as authorised by sections 146(2), 159, 160 or 162 of the Act in respect of redeemable shares or of shares purchased by it as hereinbefore mentioned) reduce its ordinary share capital or any uncalled liability in respect thereof or (except as authorised by sections 130(2), 160(2) and 170(4) of the Act) any share premium account or capital redemption reserve and the Company shall not purchase any of its own shares otherwise than pursuant to paragraphs (4) or (5) of this Article;

(v) the Company shall procure that at all times up to the last Conversion Date there shall be sufficient authorised but unissued ordinary share capital available for the purposes of converting any convertible preference shares pursuant to paragraph (4) of this article and the Company shall seek always to maintain authorities under Sections 80 and 89 of the Act (for the longest period permissible thereunder) sufficient to permit such conversion;

(vi) the Company shall not do any act or thing resulting in an adjustment to the Conversion Rate if in consequence such rate would involve the issue of ordinary shares at a discount to their par value;

(vii) the convertible preference shares shall not be consolidated or sub-divided save pursuant to the authority contained in the resolution adopting this article for the purposes of enabling conversion to be effected by means of consolidation and sub-division;

(viii) the Company shall not do any act or thing such that the aggregate of

(A) the number of ordinary shares which would result from the exercise in full of conversion rights attaching to the number of convertible preference shares held at that date by a single holder thereof; and

(B) the number of ordinary shares held at that date by such holder and which resulted from any previous exercise of conversion rights attaching to convertible preference shares;

shall be greater than 19.9 per cent. of the entire issued ordinary share capital of the Company at that time.

(b) If a resolution is passed or an Order of Court is made for the Company to be wound up, the Company shall forthwith give notice thereof in writing to all holders of convertible preference shares. Each holder of his convertible preference shares in respect of all or any of his convertible preference shares shall be entitled within six weeks after the date of the resolution to wind up the Company or (as the case may be) after the date of the Order of the Court for such winding-up (either of such dates being referred to in this sub-paragraph as the **"operative date"**) by notice in writing to the Company to elect to be treated as if his conversion rights had been exercised immediately before the operative date in accordance with paragraph (4) of this article but taking into account sub-paragraph 3(4)(o) of this Article as if such exercise took place within 30 days of the occurrence of a Relevant Event and in that event such holder shall be entitled to be paid in satisfaction of the amount due in respect of such of its convertible preference shares as are to be treated as if converted a sum equal to the amount to which such holder would have become entitled in such liquidation if it had been the holder of the ordinary shares to which such holder would have become entitled by virtue of such conversion (fractions being disregarded for this purpose).

(c) In the event that any convertible preference shares are transferred in consequence of a public offering to any party other than Royal Caribbean Cruises Ltd. or one of its subsidiary undertakings, upon registration of such transfer any convertible preference share so transferred shall automatically be redesignated as an "A" Convertible Preference Share having all the rights and entitlements attached to a convertible preference share and ranking pari passu with the convertible preference shares save that:

(i) the provisions of paragraphs (1)(B), (3)(a), (9)(b) and (9)(c)(ii) of this Article shall not apply and shall not attach to any "A" Convertible Preference Share;

(ii) the provisions of paragraph (3)(b) of this Article shall apply and attach to such "A" Convertible Preference Shares; and

(iii) the provisions of paragraphs (4)(o) and (5)(d) of this Article shall apply and attach to such "A" Convertible Preference Shares only where the Relevant Event

referred to therein shall be an event set out in one of sub-paragraphs (i), (iv) or (v) of the definition of "Relevant Event" in these Articles.

(d) So long as any convertible preference shares remain capable of being converted into ordinary shares, if any offer is made to all (or as nearly as may be practicable all) ordinary shareholders (or all (or as nearly as may be practicable all) ordinary shareholders other than the offeror and/or any associates of the offeror (as defined in section 430E(4) of the Act)) to acquire all or a majority of the issued ordinary share capital of the Company, or if any person proposes a scheme with regard to such acquisition, the Company shall give notice of such offer or scheme to the holders of convertible preference shares at the same time as any notice thereof is sent to its ordinary shareholders (or as soon as practicable thereafter) and enclose the same information about the offer or scheme as it provides to the ordinary shareholders.

(8) **Further issues of preference shares**

The Company may not, save with the consent or sanction of three quarters in nominal value of the holders of the convertible preference shares, create and issue further preference shares (herein called **"further preference shares"**) ranking as regards participation in the profits and assets of the Company either pari passu with or in priority to the convertible preference shares.

(9) **Withholding Tax etc**

(a) The preferential dividend and any sums payable in respect of the redemption of convertible preference shares shall be paid without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the United Kingdom or any political subdivision thereof or any authority thereof or therein having power to levy the same unless such withholding or deduction is required by law. In that event, the Company and the holders of the convertible preference shares shall comply with sub-paragraph (9)(b) of this Article and pending the taking of any such steps as are referred to therein, the Company shall pay by way of dividend such additional amounts as will result in the receipt by the holders of convertible preference shares of such net amounts as would have been received by them had no such withholding or deduction been required and provided that no such additional amounts will be payable where the holder is liable for such taxes, duties, assessments or governmental charges solely by reason of his having connection with the United Kingdom having nothing to do with the Company.

(b) In the circumstances referred to in sub-paragraph (9)(a) of this Article, the Company shall use all reasonable endeavours to amend or propose amendments to the terms of the convertible preference shares or other steps or measures so as to remedy the requirement to withhold or make any deductions. Following the giving of a notice by the Company to the holders of the convertible preference shares the Company and the holders of the convertible preference shares shall seek to identify and agree any steps the taking of which would mean that such withholding or deduction shall not be required. In the event that such agreement is reached it shall be recorded in writing between the Company and the relevant shareholders and thereafter implemented in accordance with its terms within 60 days of such notice to such holders.

(c) A Withholding Event (as referred to in sub-paragraph (5)(c)(iii)) shall occur in relation to a shareholder where:-

(i) with respect to that shareholder the Company would be obliged to pay additional amounts as referred to in sub-paragraph (9)(a) of this Article such additional amounts being in aggregate not less than 30 per cent. of the net amounts which would have been received by the holders of the convertible preference shares had no such withholding or deduction been required; and

(ii) within 90 days of a notice given by the Company under sub-paragraph (9)(b) of this Article, no such agreement has been recorded in writing or variation made as referred to in that paragraph;

but not earlier than 30 days prior to the earliest date on which the Company would be obliged to pay such additional amounts were a payment in respect of the convertible preference shares then due

(d) If:

(i) the Company pays to a holder of convertible preference shares any additional amounts as referred to in sub-paragraph (9)(a) of this Article; and

(ii) such holder of convertible preference shares has received or been granted a credit against or relief or remission from or repayment of any tax in respect of or calculated by reference to the payment of such additional amount or to the deduction or withholding which has given rise to such additional payment,

such holder of convertible preference shares shall pay to the Company, promptly on obtaining the same, the amount of the credit against or relief or remission from or repayment of tax up to a maximum of such amount as such holder of convertible preference shares certifies will leave it (after such payment) in no worse after-tax position than it would have been in had the relevant withholding or deduction never been required. This sub-paragraph shall not impose any obligation on a holder of convertible preference shares:

(A) to manage its tax or other affairs in any particular manner; or

(B) to disclose any information concerning its tax affairs to the Company or to any other person.

4. Subject to the provisions of the Act and without prejudice to any rights attached to any existing shares, any share may be issued with such rights or restrictions as the Company may by ordinary resolution determine (or, if the Company has not so determined, as the directors may determine).

5. Subject to the provisions of the Act, any share may be issued which is or is to be liable, to be redeemed at the option of the Company or a holder on such terms and in such manner as may be provided by these articles.

6. Subject to the provisions of the Act and these articles, the unissued shares in the Company shall be at the disposal of the directors, who may offer, allot, grant options over or otherwise dispose of them to such persons and on such terms as the directors think fit.

7. The Company may exercise the powers of paying commissions conferred by the Act. Subject to the provisions of the Act, any such commission may be satisfied by the payment of cash or by the allotment of fully or partly paid shares or partly in one way and partly in the other.

8. Except as required by law, no person shall be recognised by the Company as holding any share upon any trust and (except as otherwise provided by these articles or by law) the Company shall not be bound by or recognise any interest in any share except an absolute right to the entirety of it in the holder.

VARIATION OF RIGHTS

9. Subject to the provisions of the Act, if at any time the capital of the Company is divided into different classes of shares, the rights attached to any class may be varied, either while the Company is a going concern or during or in contemplation of a winding up:-

(a) in such manner (if any) as may be provided by those rights; or

(b) in the absence of any such provision, with the consent in writing of the holders of three-quarters in nominal value of the issued shares of that class (excluding any

shares of that class held as treasury shares), or with the sanction of an extraordinary resolution passed at a separate meeting of the holders of the shares of that class,

but not otherwise. To every such separate meeting the provisions of these articles relating to general meetings shall apply, except that the necessary quorum at any such meeting other than an adjourned meeting shall be two persons together holding or representing by proxy at least one-third in nominal value of the issued shares of the class in question (excluding any shares of that class held as treasury shares) and at an adjourned meeting shall be one person holding shares of the class in question (other than treasury shares) or his proxy.

10. Unless otherwise expressly provided by the rights attached to any shares, those rights:-

(a) shall be deemed to be varied by the reduction of the capital paid up on those shares and by the creation or issue of further shares ranking in priority for payment of a dividend or in respect of capital or which confer on the holders voting rights more favourable than those conferred by the first-mentioned shares;

(b) shall otherwise be deemed not to be varied by the creation or issue of further shares ranking pari passu with or subsequent to the first-mentioned shares; and

(c) shall be deemed not to be varied by the purchase by the Company of any of its own shares or the holding of such shares as treasury shares.

SHARE CERTIFICATES

11. (1) Subject to paragraph 2 of this article, every holder of shares (other than a recognised person in respect of whom the Company is not required by law to complete and have ready a certificate) shall be entitled without payment to one certificate for all the shares of each class held by him (and, upon transferring a part of his holding of shares of any class, to a certificate for the balance of that holding) or, upon payment for every certificate after the first of such reasonable sum as the directors may determine, to several certificates each for one or more of his shares. Every certificate shall be issued under the seal, or bearing an imprint or representation of the seal of such other form of authentication as the directors may determine, and shall specify the number, class and distinguishing numbers (if any) of the shares to which it relates and the amount or respective amounts paid up on them. The Company shall not be bound to issue more than one certificate for shares held jointly by several persons and delivery of a certificate to one joint holder shall be a sufficient delivery to all of them.

(2) Paragraph (1) of this article shall not apply in relation to shares in uncertificated form.

(3) If a share certificate is defaced, worn out, lost or destroyed, it may be renewed on such terms (if any) as to evidence and indemnity and payment of any exceptional expenses incurred by the Company in investigating evidence as the directors may determine but otherwise free of charge, and (in the case of defacement or wearing out) on delivery up of the old certificate.

LIEN

12. The Company shall have a first and paramount lien on every share (not being a fully paid share) for all amounts (whether presently payable or not) payable at a fixed time or called in respect of that share. The directors may declare any share to be wholly or in part exempt from the provisions of this article. The Company's lien on a share shall extend to all amounts payable in respect of it.

13. The Company may sell, in such manner as the directors determine, any share on which the Company has a lien if an amount in respect of which the lien exists is presently payable and is not paid within fourteen clear days after notice has been given to the holder of the share, or the person entitled to it in consequence of the death or bankruptcy of the holder, demanding payment and stating that if the notice is not complied with the shares may be sold.

14. To give effect to the sale the directors may, in the case of a share in certificated form, authorise some person to execute an instrument of transfer of the share sold to, or in accordance with the directions of, the purchaser; and, in the case of a share in uncertificated form, the directors may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer. The title of the transferee to the share shall not be affected by any irregularity in or invalidity of the proceedings in reference to the sale.

15. The net proceeds of the sale, after payment of the costs, shall be applied in payment of so much of the amount for which the lien exists as is presently payable, and any residue shall (upon surrender to the Company for cancellation of the certificate for the share sold, in the case of a share in certificated form, and subject to a like lien for any amount not presently payable as existed upon the share before the sale) be paid to the person entitled to the share at the date of the sale.

CALLS ON SHARES AND FORFEITURE

16. Subject to the terms of allotment, the directors may make calls upon the members in respect of any amounts unpaid on their shares (whether in respect of nominal value or premium) and each member shall (subject to receiving at least fourteen clear days' notice specifying when and where payment is to be made) pay to the Company as required by the notice the amount called on his shares. A call may be required to be paid by instalments. A call may, before receipt by the Company of an amount due under it, be revoked in whole or in part and payment of a call may be postponed in whole or part. A person upon whom a call is made shall remain liable for calls made upon him notwithstanding the subsequent transfer of the shares in respect of which the call was made.

17. A call shall be deemed to have been made at the time when the resolution of the directors authorising the call was passed.

18. The joint holders of a share shall be jointly and severally liable to pay all calls in respect of it.

19. If a call or an instalment of a call remains unpaid after it has become due and payable the person from whom it is due shall pay interest on the amount unpaid, from the day it became due and payable until it is paid at the rate fixed by the terms of allotment of the shares in question or in the notice of the call or, if no rate is fixed, at the appropriate rate (as defined by the Act) but the directors may waive payment of the interest wholly or in part.

20. An amount payable in respect of a share on allotment or at any fixed date, whether in respect of nominal value or premium or as an instalment of a call, shall be deemed to be a call and if it is not paid these articles shall apply as if that sum had become due and payable by virtue of a call.

21. Subject to the terms of allotment, the directors may differentiate between the holders in the amounts and times of payment of calls on their shares.

22. The directors may receive from any member willing to advance it all or any part of the amount unpaid on the shares held by him (beyond the sums actually called up) as a payment in advance of calls, and such payment shall, to the extent of it, extinguish the liability on the shares in respect of which it is advanced. The Company may pay interest on the amount so received, or so much of it as exceeds the sums called up on the shares in respect of which it has been received, at such rate (if any) as the member and the directors agree.

23. If a call or an instalment of a call remains unpaid after it has become due and payable the directors may give to the person from whom it is due not less than fourteen clear days' notice requiring payment of the amount unpaid together with any interest which may have accrued. The notice shall name the place where payment is to be made and shall state that if the notice is not complied with the shares in respect of which the call was made will be liable to be forfeited. If the notice is not complied with, any shares in respect of which it was given may, before the payment required by the notice has been made, be forfeited by a resolution of the directors and the forfeiture shall include all dividends and other amounts payable in respect of the forfeited shares and not paid before the forfeiture.

24. Subject to the provisions of the Act, a forfeited share may be sold, re-allotted or otherwise disposed of on such terms and in such manner as the directors determine either to the person who was before the forfeiture the holder or to any other person and, at any time before the disposition, the forfeiture may be cancelled on such terms as the directors determine. Where for the purposes of its disposal a forfeited share is to be transferred to any person, the directors may, in the case of a share in certificated form, authorise someone to execute an instrument of transfer and, in the case of a share in uncertificated form, the directors may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer of the share to that person.

25. A person any of whose shares have been forfeited shall cease to be a member in respect of them and shall surrender to the Company for cancellation any certificate for the shares forfeited but shall remain liable to the Company for all amounts which at the date of forfeiture were presently payable by him to the Company in respect of those shares with interest at the rate at which interest was payable on those amounts before the forfeiture or, if no interest was so payable, at the appropriate rate (as defined in the Act) from the date of forfeiture until payment, but the directors may waive payment wholly or in part or enforce payment without any allowance for the value of the shares at the time of forfeiture or for any consideration received on their disposal.

26. A statutory declaration by a director or the secretary that a share has been forfeited on a specified date shall be conclusive evidence of the facts stated in it as against all persons claiming to be entitled to the share and the declaration shall (subject to the execution of an instrument of transfer if necessary, in the case of a share in certificated form) constitute a good title to the share and the person to whom the share is disposed of shall not be bound to see to the application of the consideration, if any, nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings relating to the forfeiture or disposal of the share.

TRANSFER OF SHARES

27. The instrument of transfer of a share in certificated form may be in any usual form or in any other form which the directors approve and shall be executed by or on behalf of the transferor and, where the share is not fully paid, by or on behalf of the transferee.

28. (1) The directors may, in their absolute discretion and without giving any reason, refuse to register the transfer of a share in certificated form which is not fully paid. They may also refuse to register a transfer of a share in certificated form unless the instrument of transfer -

(a) is lodged, duly stamped, at the Office or at such other place as the directors may appoint and (except in the case of a transfer by a recognised person where a certificate has not been issued in respect of the share) is accompanied by the certificate for the share to which it relates and such other evidence as the directors may reasonably require to show the right of the transferor to make the transfer;

(b) is in respect of only one class of share; and

(c) is in favour of not more than four transferees.

(2) The directors may refuse to register a transfer of a share in uncertificated form in any case where the Company is entitled to refuse (or is excepted from the requirement) under the Uncertificated Securities Regulations to register the transfer; and they may refuse to register any such transfer in favour of more than four transferees.

29. If the directors refuse to register a transfer of a share, they shall within two months after the date on which the transfer was lodged with the Company (in the case of a share in certificated form) or the date on which the Operator - instruction was received by the Company (in the case of a share in uncertificated form) send to the transferee notice of the refusal.

30. Subject to the Uncertificated Securities Regulations, the registration of transfers of shares or of any class of shares may be suspended at such times and for such periods (not exceeding thirty days in any year) as the directors may determine.

31. No fee shall be charged for the registration of any instrument of transfer or other document or instruction relating to or affecting the title to any share.

32. The Company shall be entitled to retain any instrument of transfer which is registered, but any instrument of transfer which the directors refuse to register shall (except in the case of fraud) be returned to the person lodging it when notice of the refusal is given.

33. Nothing in these articles shall preclude the directors from recognising a renunciation of the allotment of any share by the allottee in favour of some other person.

TRANSMISSION OF SHARES

34. If a member dies the survivor or survivors where he was a joint holder, or his personal representatives where he was a sole holder or the only survivor of joint holders, shall be the only persons recognised by the Company as having any title to his interest; but nothing in this article shall release the estate of a deceased member from any liability in respect of any share which had been jointly held by him.

35. A person becoming entitled to a share in consequence of the death or bankruptcy of a member may, upon such evidence being produced as the directors may properly require, elect either to become the holder of the share or to have some person nominated by him registered as the transferee. If he elects to become the holder he shall give notice to the Company to that effect. If he elects to have another person registered he shall execute an instrument of transfer of the share to that person. All the provisions of these articles relating to the transfer of shares shall apply to the notice or instrument of transfer as if it were an instrument of transfer signed by the member and the death or bankruptcy of the member had not occurred.

36. A person becoming entitled to a share by reason of the death or bankruptcy of a member shall have the rights to which he would be entitled if he were the holder of the share, except that he shall not, before being registered as the holder of the share, be entitled in respect of it to attend or vote at any general meeting or at any separate meeting of the holders of any class of shares.

DISCLOSURE OF INTERESTS

37. (1) If a member, or any other person appearing to be interested in shares held by that member, has been given a notice under section 212 of the Act and has failed in relation to any shares (the **"default shares"**) to give the Company the information thereby required within fourteen days from the date of giving the notice, the following sanctions shall apply, unless the directors otherwise determine:-

(a) the member shall not be entitled in respect of the default shares to be present or to vote (either in person or by representative or proxy) at any general meeting or at any separate meeting of the holders of any class of shares or on any poll or to exercise any other right conferred by membership in relation to any such meeting or poll; and

(b) where the default shares represent at least 0.25 per cent of their class (calculated exclusive of treasury shares):-

(i) any dividend payable in respect of the shares shall be withheld by the Company, which shall not have any obligation to pay interest on it, and the member shall not be entitled to elect, pursuant to these articles, to receive shares instead of that dividend; and

(ii) no transfer, other than an excepted transfer, of any shares held by the member in certificated form shall be registered unless:-

(A) the member is not himself in default as regards supplying the information required; and

(B) the member proves to the satisfaction of the directors that no person in default as regards supplying such information is interested in any of the shares the subject of the transfer.

(2) Where the sanctions under paragraph (1) of this article apply in relation to any shares, they shall cease to have effect at the end of the period of seven days (or such shorter period as the directors may determine) following the earlier of:

(a) receipt by the Company of the information required by the notice mentioned in that paragraph; and

(b) receipt by the Company of notice that the shares have been transferred by means of an excepted transfer,

and the directors may suspend or cancel any of the sanctions at any time in relation to any shares.

(3) Any new shares in the Company issued in right of default shares shall be subject to the same sanctions as apply to the default shares, and the directors may make any right to an allotment of the new shares subject to sanctions corresponding to those which will apply to those shares on issue: provided that any sanctions applying to, or to a right to, new shares by virtue of this paragraph shall cease to have effect when the sanctions applying to the related default shares cease to have effect (and shall be suspended or cancelled if and to the extent that the sanctions applying to the related default shares are suspended or cancelled); and provided further that paragraph (1) of this article shall apply to the exclusion of this paragraph if the Company gives a separate notice under section 212 of the Act in relation to the new shares.

(4) Where, on the basis of information obtained from a member in respect of any share held by him, the Company gives a notice under section 212 of the Act to any other person, it shall at the same time send a copy of the notice to the member, but the accidental omission to do so, or the non-receipt by the member of the copy, shall not invalidate or otherwise affect the application of paragraph (1) of this article.

(5) For the purposes of this article:-

(a) a person, other than the member holding a share, shall be treated as appearing to be interested in that share if the member has informed the Company that the person is, or may be, so interested, or if the Company (after taking account of any information obtained from the member or, pursuant to a notice under section 212 of the Act, from anyone else) knows or has reasonable cause to believe that the person is, or may be, so interested;

(b) "interested" shall be construed as it is for the purpose of section 212 of the Act;

(c) reference to a person having failed to give the Company the information required by a notice, or being in default as regards supplying such information, includes (i) reference to his having failed or refused to give all or any part of it and (ii) reference to his having given information which he knows to be false in a material particular or having recklessly given information which is false in a material particular;

(d) an " excepted transfer" means, in relation to any shares held by a member:-

(i) a transfer pursuant to acceptance of a take over offer (within the meaning in Part XIII A of the Act) in respect of shares in the Company);or

(ii) a transfer in consequence of a sale made through a recognised investment exchange (as defined in the Financial Services Act 1986) or any other stock exchange outside the United Kingdom on which the Company's shares are normally traded; or

(iii) a transfer which is shown to the satisfaction of the directors to be made in consequence of a sale of the whole of the beneficial interest in the shares to a person who is unconnected with the member and with any other person appearing to be interested in the shares.

(6) Nothing in this article shall limit the powers of the Company under section 216 of the Act or any other powers of the Company whatsoever.

UNTRACED MEMBERS

38. (1) The Company shall be entitled to sell at the best price reasonably obtainable any share held by a member, or any share to which a person is entitled by transmission, if:-

(a) for a period of 12 years no cheque or warrant for amounts payable in respect of the share sent and payable in a manner authorised by these articles has been cashed and no communication has been received by the Company from the member or person concerned;

(b) during that period at least three dividends in respect of the share have become payable;

(c) the Company has, after the expiration of that period, by advertisement in a national newspaper published in the United Kingdom and in a newspaper circulating in the area of the registered address or last known address of the member or person concerned, given notice of its intention to sell such share, and has informed the Stock Exchange of that intention; and

(d) the Company has not during the further period of three months after the date of the advertisement and prior to the sale of the share received any communication from the member or person concerned.

(2) The Company shall also be entitled to sell at the best price reasonably obtainable any additional share issued during the said period of twelve years in right of any share to which paragraph (1) of this article applies (or in right of any share so issued), if the criteria in sub-paragraphs (a), (c) and (d) of that paragraph are satisfied in relation to the additional share (but as if the words "for a period of twelve years" were omitted from sub-paragraph (a) and the words ", after the expiration of that period," were omitted from sub-paragraph (c)).

(3) To give effect to the sale of any share pursuant to this article the Company may, in the case of a share in certificated form, authorise any person to execute an instrument of transfer of the share sold to, or in accordance with the directions of the purchaser; and in the case of a share in uncertificated form, the Company may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as it thinks fit to effect the transfer. The purchaser shall not be bound to see to the application of the proceeds of sale, nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings relating to the sale. The Company shall be indebted to the member or other person entitled to the share for an amount equal to the net proceeds of the sale, but no trust or duty to account shall arise and no interest shall be payable in respect of the proceeds of sale.

ALTERATION OF CAPITAL

39. The Company may by ordinary resolution:-

(a) increase its share capital by new shares of such amount as the resolution prescribes;

(b) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;

(c) subject to the provisions of the Act, sub-divide its shares, or any of them, into shares of smaller amount that is fixed by the memorandum;

(d) determine that, as between the shares resulting from such a sub-division, any of them may have any preference or advantage as compared with the others; and

(e) cancel shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person, and diminish the amount of its share capital by the amount of the shares so cancelled.

40. Whenever as a result of a consolidation of shares any members would become entitled to fractions of a share, the directors may on behalf of those members sell to any person (including, subject to the provisions of the Act, the Company) the shares representing the fractions for the best price reasonably obtainable and distribute the net proceeds of sale in due proportion among those members, and the directors may in, the case of shares in certificated form authorise some person to execute an instrument of transfer of the shares to or in accordance with the directions of the purchaser; and, in the case of shares in uncertificated form, the directors may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer. The transferee shall not be bound to see to the application of the purchase money nor shall his title to the shares be affected by any irregularity in or invalidity of the proceedings in reference to the sale.

41. Subject to the provisions of the Act, the Company may by special resolution reduce its share capital, any capital redemption reserve and any share premium account, in any way.

PURCHASE OF OWN SHARES

42. Subject to the provisions of the Act, the Company may purchase its own shares, including redeemable shares, and may hold such shares as treasury shares or cancel them, but, *subject to article 3, not unless the purchase has been sanctioned by an extraordinary* resolution passed at a separate meeting of the holders of any class of convertible shares in the Company.

GENERAL MEETINGS

43. All general meetings other than annual general meetings shall be called extraordinary general meetings.

44. The directors may call general meetings. If there are not within the United Kingdom sufficient directors to call a general meeting, any director or, if there is no director within the United Kingdom, any member of the Company may call a general meeting.

NOTICE OF GENERAL MEETINGS

45. Subject to the provisions of the Act, an annual general meeting and an extraordinary general meeting called for the passing of a special resolution shall be called by at least twenty-one clear days' notice, and all other extraordinary general meetings shall be called by at least fourteen clear days' notice. The notice shall specify the place, the day and the time of meeting and the general nature of the business to be transacted, and in the case of an annual general meeting shall specify the meeting as such. Subject to the provisions of these articles and to any rights or restrictions attached to any shares, notices shall be given to all members, to all persons entitled to a share in consequence of the death or bankruptcy of a member and to the directors and auditors of the Company.

46. The accidental omission to give notice of a meeting to, or the non-receipt of notice of a meeting by, any person entitled to receive notice shall not invalidate the proceedings at that meeting.

PROCEEDINGS AT GENERAL MEETINGS

47. No business shall be transacted at any meeting unless a quorum is present. Two persons entitled to vote upon the business to be transacted, each being a member or a proxy for a member or a duly authorised representative of a corporation which is a member, shall be a quorum.

48. If a quorum is not present within half an hour after the time appointed for holding the meeting, or if during a meeting a quorum ceases to be present, the meeting shall stand adjourned to the same day in the next week at the same time and place, or to such day, time and place as the directors may determine. If at the adjourned meeting a quorum is not present within fifteen minutes after the time appointed for holding the meeting, the meeting shall be dissolved.

49. The chairman (if any) of the board of directors, or in his absence the deputy-chairman, or in the absence of both of them some other director nominated by the directors, shall preside as chairman of the meeting, but if neither the chairman nor the deputy-chairman nor such other director (if any) is present within fifteen minutes after the time appointed for holding the meeting and willing to act, the directors present shall elect one of their number present to be chairman and, if there is only one director present and willing to act, he shall be chairman.

50. If no director is willing to act as chairman, or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present and entitled to vote shall choose one of their number to be chairman.

51. A director shall, notwithstanding that he is not a member, be entitled to attend and speak at any general meeting and at any separate meeting of the holders of any class of shares.

52. Without prejudice to any other power of adjournment he may have under these articles or at common law, the chairman may, with the consent of a meeting at which a quorum is present (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place, but no business shall be transacted at an adjourned meeting other than business which might properly have been transacted at the meeting had the adjournment not taken place. When a meeting is adjourned for fourteen days or more, at least seven clear days' notice shall be given specifying the time and place of the adjourned meeting and the general nature of the business to be transacted. Otherwise it shall not be necessary to give notice of an adjournment.

53. If an amendment proposed to any resolution under consideration is ruled out of order by the chairman, the proceedings on the resolution shall not be invalidated by any error in the ruling.

54. A resolution put to the vote of a meeting (excluding any voting rights attached to any shares in the Company held as treasury shares) shall be decided on a show of hands unless before, or on the declaration of the result of, the show of hands a poll is duly demanded. Subject to the provisions of the Act, a poll may be demanded:-

    (a) by a chairman; or

    (b) by not less than five members having the right to vote at the meeting; or

    (c) by a member or members representing not less than one-tenth of the total voting rights of all the members having the right to vote at the meeting (excluding any voting rights attached to any shares in the Company held as treasury shares); or

    (d) by a member or members holding shares conferring a right to vote on the resolution on which an aggregate sum has been paid up equal to not less than one-tenth of the total sum paid up on all the shares conferring that right (excluding any shares in the Company conferring a right to vote at the meeting which are held as treasury shares).

55. Unless a poll is duly demanded, a declaration by the chairman that a resolution has been carried or carried unanimously, or by a particular majority, or lost, or not carried by a particular majority, and an entry to that effect in the minutes of the meeting, shall be conclusive evidence

of the fact without proof of the number or proportion of the votes recorded in favour of or against the resolution.

56. The demand for a poll may, before the poll is taken, be withdrawn but only with the consent of the chairman, and a demand so withdrawn shall not be taken to have invalidated the result of a show of hands declared before the demand was made.

57. A poll shall be taken as the chairman directs, and he may appoint scrutineers (who need not be members) and fix a time and place for declaring the result of the poll. The result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded.

58. In the case of any equality of votes, whether on a show of hands or on a poll, the chairman shall be entitled to a casting vote in addition to any other vote he may have.

59. A poll demanded on the election of a chairman or on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken either forthwith or at such time and place as the chairman directs, not being more than thirty days after the poll is demanded. The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll was demanded. If a poll is demanded before the declaration of the result of a show of hands and the demand is duly withdrawn, the meeting shall continue as if the demand had not been made.

60. No notice need be given of a poll not taken forthwith if the time and place at which it is to be taken are announced at the meeting in respect of which it is demanded. In any other case, at least seven clear days' notice shall be given specifying the time and place at which the poll is to be taken.

VOTES OF MEMBERS

61. Subject to any rights or restrictions attached to any shares and to the provisions of the Act, on a show of hands every member who (being an individual) is present in person or (being a corporation) is present by a duly authorised representative who is not himself a member entitled to vote, shall have one vote, and on a poll every member shall have one vote for every share of which he is the holder.

62. In the case of joint holders the vote of the senior who tenders a vote shall be accepted to the exclusion of the votes of the other joint holders, and seniority shall be determined by the order in which the names of the holders stand in the register of members.

63. A member in respect of whom an order has been made by any court having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder may vote, on a show of hands or on a poll, by any person authorised in that behalf by that court, who may on a poll vote by proxy. Evidence to the satisfaction of the directors of the authority of the person claiming the right to vote shall be deposited at the Office, or at such other place as is specified in accordance with these articles for the deposit of instruments of proxy, not less than 48 hours before the time appointed for holding the meeting or adjourned meeting at which the right to vote is to be exercised, and in default the right to vote shall not be exercisable.

64. No member shall have the right to vote at any general meeting or at any separate meeting of the holders of any class of shares, either in person or by representative or proxy, in respect of any share held by him unless all amounts presently payable by him in respect of that share have been paid.

65. No objection shall be raised to the qualification of any voter or to the counting of, or failure to count, any vote, except at the meeting or adjourned meeting at which the vote objected to is tendered. Subject to any objection made in due time, every vote counted and not disallowed at the meeting shall be valid and every vote disallowed or not counted shall be invalid. Any objection made in due time shall be referred to the chairman whose decision shall be final and conclusive.

66. On a poll votes may be given either personally or by proxy or (in the case of a corporate member) by a duly authorised representative. A member entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses the same way. A proxy need not be a member.

67. An instrument appointing a proxy shall be in writing in any usual form or in any other form which the directors may approve and shall be executed by or on behalf of the appointor. A corporation may execute a form of proxy either under its common seal or under the hand of a duly authorised officer. A member may appoint more than one proxy to attend on the same occasion. Deposit of an instrument of proxy shall not preclude a member from attending and voting at the meeting or at any adjournment of it.

68. The instrument appointing a proxy and any authority under which it is executed or a copy of the authority certified notarially or in some other way approved by the directors may:-

(a) be deposited at the Office or at such other place in the United Kingdom as is specified in the notice convening the meeting, or in any instrument of proxy sent out by the Company in relation to the meeting, not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote; or

(b) in the case of a poll taken more than 48 hours after it was demanded, be deposited as aforesaid after the poll has been demanded and not less than 24 hours before the time appointed for taking the poll; or

(c) where the poll is not taken forthwith but is taken not more than 48 hours after it was demanded, be delivered at the meeting to the chairman or to the secretary or to any director;

and an instrument of proxy which is not deposited or delivered in a manner so permitted shall be invalid.

69. A vote given or poll demanded by proxy or by the duly authorised representative of a corporation shall be valid notwithstanding the previous determination of the authority of the person voting or demanding a poll, unless notice of the determination was received by the Company at the Office, or at such other place at which the instrument of proxy was duly deposited, before the commencement of the meeting or adjourned meeting at which the vote is given or the poll demanded or (in the case of a poll not taken on the same day as the meeting or adjourned meeting) the time appointed for taking the poll.

70. The instrument appointing a proxy to vote at a meeting shall be deemed also to confer authority to demand or join in demanding a poll (and for the purposes of these articles a demand for a poll made by a person as proxy for a member or as the duly authorised representative of a corporate member shall be the same as a demand made by the member).

71. The directors may at the expense of the Company send instruments of proxy to the members by post or otherwise (with or without provision for their return prepaid) for use at any general meeting or at any separate meeting of the holders of any class of shares, either in blank or nominating in the alternative any one or more of the directors or any other person. If for the purpose of any meeting invitations to appoint as proxy a person or one of a number of persons specified in the invitations are issued at the Company's expense, they shall be issued to all (and not to some only) of the members entitled to be sent a notice of the meeting and to vote at it. The accidental omission to send such an instrument or give such an invitation to, or the non-receipt thereof by, any member entitled to attend and vote at a meeting shall not invalidate the proceedings of that meeting.

CORPORATIONS ACTING BY REPRESENTATIVES

72. Any corporation which is a member of the Company may, by resolution of its directors or other governing body, authorise such person as it thinks fit to act as its representative at any meeting of the Company, or at any separate meeting of the holders of any class of shares. Except as otherwise provided in these articles, the person so authorised shall be entitled to

exercise the same power on behalf of the corporation as the corporation could exercise if it were an individual member of the Company, and the corporation shall for the purposes of these articles be deemed to be present in person at any such meeting if a person so authorised is present at it.

DIRECTORS

73. Unless otherwise determined by the Company by ordinary resolution the number of directors (other than alternate directors) shall not be less than two nor more than fifteen.

74. A director shall not require a share qualification.

75. (1) Until otherwise determined by the Company by ordinary resolution, there shall be paid to the directors (other than alternate directors) such fees for their services in the office of director as the directors may determine (not exceeding in the aggregate an annual sum of £650,000 or such larger amount as the Company may by ordinary resolution decide) divided between the directors as they may determine, or, failing such determination, equally. The fees shall be deemed to accrue from day to day and shall be distinct from and additional to any remuneration or other benefits which may be paid or provided to any director pursuant to any other provision of these articles.

(2) The directors may also be paid all travelling, hotel and other expenses properly incurred by them in connection with their attendance at meetings of the directors or of committees of the directors or general meetings or separate meetings of the holders of any class of shares or otherwise in connection with the discharge of their duties as directors.

(3) Any director who performs, or undertakes to perform, services which the directors consider go beyond the ordinary duties of a director may be paid such special remuneration (whether by way of fixed sum, bonus, commission, participation in profits or otherwise) as the directors may determine.

ALTERNATE DIRECTORS

76. Any director (other than an alternate director) may appoint any other director, or any other person approved by resolution of the directors and willing to act, to be an alternate director and may remove from office an alternate director appointed by him.

77. An alternate director shall (unless he is absent from the United Kingdom) be entitled to receive notices of meetings of the directors and of committees of the directors of which his appointor is a member, to attend and vote at any such meeting at which the director appointing him is not present, and generally to perform all the functions of his appointor as a director in his absence, but shall not (unless the Company by ordinary resolution otherwise determines) be entitled to any fees for his services as an alternate director.

78. An alternate director shall cease to be an alternate director if his appointor ceases to be a director; but, if a director retires by rotation or otherwise but is reappointed or deemed to have been re-appointed at the meeting at which he retires, any appointment of an alternate director made by him which was in force immediately prior to his retirement shall continue after his reappointment.

79. An appointment or removal of an alternate director shall be by notice to the Company executed by the director making or revoking the appointment or in the other manner approved by the directors.

80. Save as otherwise provided in these articles, an alternate director shall be deemed for all purposes to be a director and shall alone be responsible for his own acts and defaults, and he shall not be deemed to be the agent of the director appointing him.

POWERS OF DIRECTORS

81. The business of the Company shall be managed by the directors who, subject to the provisions of the Act, the memorandum and these articles and to any directions given by special resolution, may exercise all the powers of the Company. No alteration of the memorandum or these articles and no such direction shall invalidate any prior act of the directors which would have been valid if that alteration had not been made or that direction had not been given. The powers given by this article shall not be limited by any special power given to the directors by these articles and a meeting of the directors at which a quorum is present may exercise all powers exercisable by the directors.

82. (1) The directors shall restrict the borrowings of the Company and exercise all powers of control exercisable by the Company in relation to its subsidiary undertakings so as to secure (as regards subsidiary undertakings so far as by such exercise they can secure) that the aggregate principal amount (including any premium payable on final repayment) outstanding of all money borrowed by the Group (excluding amounts borrowed by any member of the Group from any other member of the Group, other than amounts to be taken into account under paragraph (3)(c) and (d) of this article) shall not at any time, save with the previous sanction of an ordinary resolution of the Company, exceed an amount equal to four times the aggregate of:-

(a) the amount paid up on the share capital of the Company; and

(b) the total of the capital and revenue reserves of the Group, including any share premium account, capital redemption reserve and credit balance on the profit and loss account, but excluding sums set aside for taxation and amounts attributable to outside shareholders in subsidiary undertakings of the Company and deducting any debit balance on the profit and loss account, all as shown in the then latest audited consolidated balance sheet and profit and loss account of the Group, but adjusted as may be necessary in respect of any variation in the paid up share capital or share premium account of the Company since the date of that balance sheet and further adjusted as may be necessary to reflect any change since that date in the companies comprising the Group.

(2) In this article:-

(a) "the Group" means the Company and its subsidiary undertakings (if any); and

(b) "subsidiary undertaking" has the same meaning as in the Act.

(3) For the purposes of this article, but without prejudice to the generality of the terms "borrowing" and "borrowed":-

(a) amounts borrowed for the purposes of repaying the whole or any part of any amounts previously borrowed and then outstanding (including any premium payable on final repayment) and to be applied for that purpose within six months of the borrowing shall not, pending such application, be taken into account as money borrowed;

(b) the principal amount (including any premium payable on final repayment) of any debentures issued in whole or in part for a consideration other than cash shall be taken into account as money borrowed by the member of the Group issuing them;

(c) money borrowed by a partly owned subsidiary undertaking and not owing to another member of the Group shall (notwithstanding sub-paragraph (b) of this paragraph) be taken into account subject to the exclusion of a proportion of it equal to the minority proportion, and money borrowed and owing to a partly owned subsidiary undertaking by another member of the Group shall (subject to sub-paragraph (d) of this paragraph) be taken into account to the extent of a proportion of it equal to the minority proportion (and for the purpose of this

sub-paragraph "minority proportion" means the proportion of the issued equity share capital of the partly owned subsidiary undertaking which is not attributable, directly or indirectly, to the Company); and

(d) in the case of money borrowed and owing to a partly owned subsidiary undertaking by another partly owned subsidiary undertaking the proportion which would otherwise be taken into account under sub-paragraph (c) of this paragraph shall be reduced by excluding such part of it as is equal to the proportion of the issued equity share capital of the borrowing subsidiary undertaking which is not attributable, directly or indirectly, to the Company.

(4) In calculating the aggregate amount of borrowings for the purpose of this article, money borrowed by any member of the Group which is denominated or repayable in a currency other than sterling shall be treated as converted into sterling:-

(a) at the rate of exchange used for the conversion of that currency in the latest audited balance sheet of that member; or

(b) if no rate was so used, at the middle market rate of exchange prevailing in London at the close of business on the date of that balance sheet, but if the amount in sterling resulting from conversion at that rate would be greater than that resulting from conversion at the middle market rate prevailing in London at the close of business on the business day immediately preceding the day on which the calculation falls to be made, the latter rate shall apply instead;

(5) No debt incurred or security given in respect of money borrowed or to be taken into account as money borrowed in excess of the above limit shall be invalid or ineffectual except in the case of express notice to the lender or the recipient of the security at the time when the debt was incurred or security given that the limit hereby imposed had been or was thereby exceeded, but no lender or other person dealing with the Company shall be concerned to see or enquire whether such limit is observed.

(6) In this article references to a consolidated balance sheet and profit and loss account of the Group are to be taken -

(a) in a case where the Company had no subsidiary undertakings at the relevant time, as references to the balance sheet and profit and loss account of the Company;

(b) in a case where the Company had subsidiary undertakings at the relevant time but there are no consolidated accounts of the Group, as references to the respective balance sheets and profit and loss accounts of the companies comprising the Group; and

(c) in a case where the Company had subsidiary undertakings at the relevant time, one or more of which has, in accordance with the Act, been excluded from consolidation as references to the consolidated balance sheet and profit and loss account of the Company and those of its subsidiary undertakings included in the consolidation.

DELEGATION OF DIRECTORS' POWERS

83. (1) The directors may delegate any of their powers:-

(a) to any managing director, any director holding any other executive office or any other director;

(b) to any committee consisting of one or more directors and (if thought fit) one or more other persons; and

(c) to any local board or agency for managing any of the affairs of the Company either in the United Kingdom or elsewhere.

(2) Any such delegation (which may include authority to sub-delegate all or any of the powers delegated) may be subject to any conditions the directors impose and either collaterally with or to the exclusion of their own powers and may be revoked or varied. The power to delegate under this article, being without limitation, includes the power to delegate the determination of any fee, remuneration or other benefit which may be paid or provided to any director and the scope of the power to delegate under sub-paragraph (a), (b) or (c) of paragraph (1) of this article shall not be restricted by reference to or inference from any other of those sub-paragraphs. Subject as aforesaid, the proceedings of any committee, local board or agency with two or more members shall be governed by such of these articles as regulate the proceedings of directors so far as they are capable of applying.

84. The directors may, by power of attorney or otherwise, appoint any person, whether nominated directly or indirectly by the directors, to be the agent of the Company for such purposes and subject to such conditions as they think fit, and may delegate any of their powers to such an agent. The directors may revoke or vary any such appointment or delegation and may also authorise the agent to sub-delegate all or any of the powers vested in him.

APPOINTMENT AND RETIREMENT OF DIRECTORS

85. At the annual general meeting in every year one-third of the directors who are subject to retirement by rotation or, if their number is not three or a multiple of three, the number nearest to one-third, shall retire from office; but, if there is only one director who is subject to retirement by rotation, he shall retire.

86. Subject to the provision of the Act and to the following provisions of these articles, the directors to retire by rotation shall be those who have been longest in office since their last appointment or reappointment, but as between persons who become or were last reappointed directors on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot. Notwithstanding the foregoing, each Director shall retire from office no later than the third Annual General Meeting following the Annual General Meeting of appointment or reappointment.

87. If the Company, at the meeting at which a director retires by rotation, does not fill the vacancy the retiring director shall, if willing to act, be deemed to have been reappointed unless at the meeting it is resolved not to fill the vacancy or a resolution for the reappointment of the director is put to the meeting and lost.

88. No person other than a director retiring by rotation shall be appointed or re-appointed a director at any general meeting unless:-

(a) he is recommended by the directors; or

(b) not less than seven nor more than thirty five days before the date appointed for holding the meeting, notice executed by a member qualified to vote on the appointment or reappointment has been given to the Company of the intention to propose that person for appointment or reappointment, stating the particulars which would, if he were appointed or reappointed, be required to be included in the Company's register of directors, together with notice executed by that person of his willingness to be appointed or reappointed.

89. At a general meeting a motion for the appointment of two or more persons as directors by a single resolution shall not be made, unless a resolution that it shall be so made has been first agreed to by the meeting without any vote being given against it, and for the purposes of this article a motion for approving a person's appointment or for nominating a person for appointment shall be treated as a motion for his appointment.

90. Subject as aforesaid, the Company may by ordinary resolution appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, and may also determine the rotation in which any additional directors are to retire.

91. The directors may appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, provided that the appointment does not cause the number of directors to exceed any number fixed as the maximum number of directors. A director so appointed shall retire at the next following annual general meeting and shall not be taken into account in determining the directors who are to retire by rotation at the meeting.

92. Subject as aforesaid, a director who retires at an annual general meeting may be reappointed. If he is not reappointed or deemed to have been reappointed, he shall retain office until the meeting appoints someone in his place or, if it does not do so, until the end of the meeting.

DISQUALIFICATION AND REMOVAL OF DIRECTORS

93. Without prejudice to the provisions of the Act, the Company may, by ordinary resolution, remove a director before the expiration of his period of office (but such removal shall be without prejudice to any claim to damages for breach of any contract of service between the director and the Company) and, subject to these articles, may, by ordinary resolution, appoint another person instead of him. A person so appointed shall be subject to retirement at the same time as if he had become a director on the day on which the director in whose place he is appointed was last appointed or reappointed a director.

94. The office of a director shall be vacated if:-

(a) he ceases to be a director by virtue of any provision of the Act or he becomes prohibited by law from being a director; or

(b) he becomes bankrupt or makes any arrangement or composition with his creditors generally; or

(c) he is, or may be, suffering from mental disorder and either:-

(i) he is admitted to hospital in pursuance of an application for admission for treatment under the Mental Health Act 1983 or, in Scotland, an application for admission under the Mental Health (Scotland) Act 1984; or

(ii) an order is made by a court having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder for his detention or for the appointment of any person to exercise powers with respect to his property or affairs; or

(d) he resigns his office by notice in writing to the Company; or

(e) in the case of a director who holds any executive office, his appointment as such is terminated or expires and the directors resolve that his office be vacated; or

(f) he is absent for more than six consecutive months without permission of the directors from meetings of the directors held during that period and the directors resolve that his office be vacated; or

(g) he is requested in writing by all the other directors to resign.

95. No person shall be disqualified from being appointed or reappointed as a director and no director shall be requested to vacate that office by reason of his attaining the age of seventy or any other age; nor shall it be necessary by reason of his age to give special notice under the Act of any resolution appointing, reappointing or approving the appointment of a director. Where a general meeting is convened at which a director will be proposed for appointment or reappointment who, to the knowledge of the directors, will be seventy or more at the date of the meeting, the directors shall give notice of his age in the notice covering the meeting or in any document sent with it; but the accidental omission to do so shall not invalidate any proceedings at the meeting or any appointment or reappointment of the director concerned.

DIRECTORS' APPOINTMENTS AND INTERESTS

96. The directors may appoint one or more of their number to the office of managing director or to any other executive office under the Company and, subject to the provisions of the Act, any such appointment may be made for such term, at such remuneration and on such other conditions as the directors think fit. Any appointment of a director to an executive office shall terminate if he ceases to be a director but without prejudice to any claim to damages for breach of the contract of service between the director and the Company.

97. (1) Subject to the provisions of the Act, and provided that he has disclosed to the directors the nature and extent of any material interest of his, a director notwithstanding his office:-

(a) may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is otherwise interested;

(b) may be a director or other officer of, or employed by, or a party to any transaction or arrangement with, or otherwise interest in, any body corporate promoted by the Company or in which the Company is otherwise interested; and

(c) shall not, by reason of his office, be accountable to the Company for any benefit which he derives from any such office or employment or from any such transaction or arrangement or from any interest in any such body corporate;

and no such transaction or arrangement shall be liable to be avoided on the ground of any such interest or benefit.

(2) For the purposes of this article:-

(a) a general notice given to the directors that a director is to be regarded as having an interest of the nature and extent specified in the notice in any transaction or arrangement in which a specified person or class of persons is interested shall be deemed to be a disclosure that the director has an interest in any such transaction of the nature and extent so specified; and

(b) an interest of which a director has no knowledge and of which it is unreasonable to expect him to have knowledge shall not be treated as an interest of his.

DIRECTORS' GRATUITIES AND PENSIONS

98. The directors may establish and maintain, or procure the establishment and maintenance of, any pension or superannuation funds (whether contributory or otherwise) for the benefit of, and give or procure the giving of pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit to, any persons who are or were at any time in the employment or service of the Company, or of any company which is a subsidiary of the Company or is allied to or associated with the Company or any such subsidiary or of any of the predecessors in business of the Company or any such other company as aforesaid, or who may be or have been directors or officers of the Company or of any such other companies as aforesaid and who hold or have held executive positions or agreements for service with the Company or any such other companies as aforesaid, and the spouses, former spouses, families and dependants of any such persons, and also establish, subsidise and subscribe to any institutions, associations, societies, clubs or funds calculated to be for the benefit of, or to advance the interests and well being of, the Company or of any such other company as aforesaid, or of any such persons as aforesaid, and make payments for or towards the insurance of any such person as aforesaid and subscribe or guarantee money for charitable or benevolent objects, or for any exhibition or for any public, general or useful object, and do any of the matters aforesaid either alone or in conjunction with any such other company as

aforesaid. Subject to particulars with respect to the proposed payment being disclosed to the members of the Company and to the proposal being approved by the Company by ordinary resolution, if the Act shall so require, any director who holds or has held any such executive position or agreement for services shall be entitled to participate in and retain for his own benefit any such pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation.

PROCEEDINGS OF DIRECTORS

99. (1) Subject to the provisions of these articles, the directors may regulate their proceedings as they think fit.

(2) A director may, and the secretary at the request of a director shall, call a meeting of the directors. Subject to paragraph (3) of this article, it shall not be necessary to give notice of a meeting to a director who is absent from the United Kingdom.

(3) If a director notifies the Company in writing of an address in the United Kingdom at which notice of meetings of the directors is to be given to him when he is absent from the United Kingdom, he shall, if so absent, be entitled to have notice given to him at that address; but the Company shall not be obliged by virtue of this paragraph to give any director a longer period of notice than he would have been entitled to had he been present in the United Kingdom at that address.

(4) Questions arising at a meeting shall be decided by a majority of votes. In case of an equality of votes, the chairman shall have a second or casting vote. A director who is also an alternate director shall be entitled in the absence of his appointor to a separate vote on behalf of his appointor in addition to his own vote; and an alternate director who is appointed by two or more directors shall be entitled to a separate vote on behalf of each of his appointors in the appointor's absence.

100. No business shall be transacted at any meeting of the directors unless a quorum is present. The quorum may be fixed by the directors and unless so fixed at any other number shall be two. An alternate director who is not himself a director shall, if his appointor is not present, be counted in the quorum.

101. The continuing directors or a sole continuing director may act notwithstanding any vacancies in their number, but, if the number of directors is less than the number fixed as the quorum, the continuing directors or director may act only for the purpose of filling vacancies or of calling a general meeting.

102. The directors may elect from their number, and remove, a chairman and a deputy-chairman of the board of directors. The chairman, or in his absence the deputy-chairman, shall preside at all meetings of the directors, but if there is no chairman or deputy-chairman or if at the meeting neither the chairman nor the deputy-chairman is present within five minutes after the time appointed for the meeting, or if neither of them is willing to act as chairman, the directors present may choose one of their number to be chairman of the meeting.

103. All acts done by a meeting of the directors, or of a committee of the directors, or by a person acting as a director, shall notwithstanding that it may afterwards be discovered that there was a defect in the appointment of any director or that any of them were disqualified from holding office, or had vacated office, or were not entitled to vote, be as valid as if every such person had been duly appointed and was qualified and had continued to be a director and had been entitled to vote.

104. A resolution in writing executed by all the directors entitled to receive notice of a meeting of the directors or of a committee of the directors shall be as valid and effectual as if it had been passed at a meeting of the directors or (as the case may be) of that committee, duly convened and held, and may consist of several documents in the like form each executed by one or more directors, but a resolution executed by an alternate director need not also be executed by his appointor and, if it is executed by a director who has appointed an alternate director, it need not also be executed by the alternate director in that capacity.

105. A meeting of the board may consist of a conference between directors some or all of whom are in different places provided that each director who participates is able:

(1) to hear each of the other participating directors addressing the meeting; and

(2) if he so wishes, to address each of the other participating directors simultaneously,

whether directly, by conference telephone or by any other form of communications equipment (whether in use when this Article 105 is adopted or developed subsequently) or by a combination of such methods. A quorum shall be deemed to be present if those conditions are satisfied in respect of at least the number of directors required to form a quorum. A meeting held in this way shall be deemed to take place at the place where the largest group of directors is assembled or, if no such group is readily identifiable, at the place from where the chairman of the meeting participates. Any director may, by prior notice to the secretary, indicate that he wishes to participate in the meeting in such manner, in which event, the directors shall procure that an appropriate conference facility is arranged.

106. (1) Save as otherwise provided by these articles, a director shall not vote at a meeting of the directors on any resolution concerning a matter in which he has, directly or indirectly, a material interest (other than an interest in shares, debentures or other securities of, or otherwise in or through, the Company), unless his interest arises only because the case falls within one or more of the following sub-paragraphs:-

(a) the resolution relates to the giving to him of a guarantee, security, or indemnity in respect of money lent to, or an obligation incurred by him for the benefit of, the Company or any of its subsidiary undertakings;

(b) the resolution relates to the giving to a third party of a guarantee, security, or indemnity in respect of an obligation of the Company or any of its subsidiary undertakings for which the director has assumed responsibility in whole or part and whether alone or jointly with others under a guarantee or indemnity or by the giving of security;

(c) his interest arises by virtue of his being, or intending to become, a participant in the underwriting or sub-underwriting of an offer of any shares in or debentures or other securities of the Company for subscription, purchase or exchange;

(d) the resolution relates in any way to a retirement benefits scheme which has been approved, or is conditional upon approval, by the Board of Inland Revenue for taxation purposes;

(e) the resolution relates to an arrangement for the benefit of the employees of the Company or any of its subsidiary undertakings, including but without being limited to an employees' share scheme, which does not accord to any director as such any privilege or advantage not generally accorded to the employees to whom the arrangement relates;

(f) the resolution relates to a transaction or arrangement with any other company in which he is interested, directly or indirectly, provided that he is not the holder of or beneficially interested in one per cent. or more of the equity share capital of that company (or of any other company through which his interest is derived) and not entitled to exercise one per cent. or more of the voting rights available to members of the relevant company (and for the purpose of calculating the said percentage there shall be disregarded any shares held by the director as a bare or custodian trustee and in which he has no beneficial interest, and any shares comprised in any authorised unit trust scheme in which the director is interested only as a unit holder);

(g) the resolution relates to the purchase or maintenance for any director or directors of insurance against any liability.

(2) For the purposes of paragraph (1) of this article, an interest of any person who is for any purpose of the Act (excluding any statutory modification thereof not in force when these articles become binding on the Company) connected with a director shall be taken to be the interest of that director and, in relation to an alternate director, an interest of his appointor shall be treated as an interest of the alternate director without prejudice to any interest which the alternate director has otherwise.

(3) Where proposals are under consideration concerning the appointment (including the fixing or varying of terms of appointment) of two or more directors to offices or employments with the Company or any body corporate in which the Company is interested, the proposals may be divided and considered in relation to each director separately and (provided he is not by virtue of paragraph (1)(f) of this article, or otherwise under that paragraph, or for any other reason, precluded from voting) each of the directors concerned shall be entitled to vote and be counted in the quorum in respect of each resolution except that concerning his own appointment.

107. A director shall not by counted on the quorum present at a meeting in relation to a resolution on which he is not entitled to vote.

108. If a question arises at a meeting of the directors as to the right of a director to vote, the question may, before the conclusion of the meeting, be referred to the chairman of the meeting (or, if the director concerned is the chairman, to the other directors at the meeting), and his ruling in relation to any director other than himself (or, as the case may be, the ruling of the majority of the other directors in relation to the chairman) shall be final and conclusive.

MINUTES

109. The directors shall cause minutes to be made in books kept for the purpose:-

(a) of all appointments of officers made by the directors; and

(b) of all proceedings at meetings of the Company, of the holders of any class of shares in the Company, and of the directors, and of committees of the directors, including the names of the directors present at each such meeting.

SECRETARY

110. Subject to the provisions of the Act, the secretary shall be appointed by the directors for such term, at such remuneration and on such other conditions as they think fit and any secretary so appointed may be removed by them.

THE SEAL

111. The seal shall be used only by the authority of a resolution of the directors or of a committee of the directors. The directors may determine whether any instrument to which the seal is affixed, shall be signed and, if it is to be signed, who shall sign it. Unless otherwise determined by the directors:-

(a) share certificates and, subject to the provisions of any instrument constituting the same, certificates issued under the seal in respect of any debentures or other securities need not be signed and any signature may be applied to any such certificate by any mechanical or other means or may be printed on it; and

(b) every other instrument to which the seal is affixed shall be signed by one director and by the secretary or another director.

112. Subject to the provisions of the Act, the Company may have an official seal for use in any place abroad.

DIVIDENDS

113. Subject to the provisions of the Act, the Company may by ordinary resolution declare dividends in accordance with the respective rights of the members, but no dividend shall exceed the amount recommended by the directors.

114. Subject to the provisions of the Act, the directors may pay interim dividends if it appears to them that they are justified by the profits of the Company available for distribution. If the share capital is divided into different classes, the directors may pay interim dividends on shares which confer deferred or non-preferred rights with regard to dividend as well as on shares which confer preferential rights with regard to dividend, but no interim dividend shall be paid on shares carrying deferred or non-preferred rights if, at the time of payment, any preferential dividend is in arrear. The directors may also pay at intervals settled by them any dividend payable at a fixed rate if it appears to them that the profits available for distribution justify the payment. If the directors act in good faith they shall not incur any liability to the holders of shares conferring preferred rights for any loss they may suffer by the lawful payment of an interim dividend on any shares having deferred or non-preferred rights.

115. Subject to the provisions of the Act and except as otherwise provided by these articles or the rights attached to shares, all dividends shall be declared and paid according to the amounts paid up on the shares on which the dividend is paid. If any share is issued on terms that it ranks for dividend as from a particular date, it shall rank for dividend accordingly. In any other case, (and except as aforesaid) dividends shall be apportioned and paid proportionately to the amounts paid up on the shares during any portion or portions of the period in respect of which the dividend is paid. For the purpose of this article, an amount paid up on a share in advance of a call shall be treated, in relation to any dividend declared after the payment but before the call, as not paid up on the share.

116. A general meeting declaring a dividend may, upon the recommendation of the directors, direct that it shall be satisfied wholly or partly by the distribution of assets and, where any difficulty arises in regard to the distribution, the directors may settle the same as they think fit and in particular (but without limitation) may issue fractional certificates or other fractional entitlements (or ignore fractions) and fix the value for distribution of any assets, and may determine that cash shall be paid to any member upon the footing of the value so fixed in order to adjust the rights of members, and may vest any assets in trustees.

117. (1) Any dividend or other money payable in respect of a share may be paid by cheque or warrant sent by post to the registered address of the person entitled or, if two or more persons are the holders of the share or are jointly entitled to it by reason of the death or bankruptcy of the holder, to the registered address of that one of those persons who is first named in the register of members or to such person and to such address as the person or persons entitled may in writing direct. Every cheque or warrant shall be made payable to the order of the person or persons entitled or to such other person as the person or persons entitled may in writing direct and payment of the cheque or warrant shall be a good discharge to the Company. Any such dividend or other money may also be paid by any other method (including direct debit or credit and bank transfer) which the directors consider appropriate. Any joint holder or other person jointly entitled to a share as aforesaid may give receipts for any dividend or other money payable in respect of the share. Every such cheque or warrant shall be sent at the risk of the person entitled to the monies represented thereby.

(2) The Company may cease to send any cheque or warrant (or to use any other method of payment) for any dividend payable in respect of a share if:

(a) in respect of at least two consecutive dividends payable on that share the cheque or warrant has been returned undelivered or remains uncashed (or that other method of payment has failed); or

(b) following one such occasion, reasonable enquiries have failed to establish any new address of the holder;

but, subject to the provisions of these articles, may recommence sending cheques or warrants (or using another method of payment) for dividends payable on that share if the person or persons entitled to those payments so request.

118. No dividend or other money payable in respect of a share shall bear interest against the Company, unless otherwise provided by the rights attached to the share.

119. Any dividend which has remained unclaimed for twelve years from the date when it became due for payment shall, if the directors so resolve be forfeited and cease to remain owing by the Company.

120. The directors may, with the authority of an ordinary resolution of the above Company, offer any holders of ordinary shares and/or convertible preference shares the right to elect to receive ordinary shares, credited as fully paid, instead of cash in respect of the whole (or some part, to be determined by the directors) of any dividend (including a preferential dividend) specified by the ordinary resolution. The following provisions shall apply:

(a) the said resolution may specify a particular dividend (including a preferential dividend) (whether or not declared), or may specify all or any dividends or preferential dividends declared or payable within a specified period, but such period may not end later than the beginning of the fifth annual general meeting next following the date of the meeting at which the ordinary resolution is passed;

(b) the basis of allotment shall be determined by the directors so that, as nearly as may be considered convenient, the relevant value of the additional ordinary shares to be allotted in lieu of any amount of dividend shall be not less than an amount equal to the net cash amount that such holders would have otherwise received by way of a dividend and may not (unless authorised by a special resolution of the Company) exceed an amount equal to the sum of the net cash amount of such dividend together with the associated tax credit. For such purpose the "relevant value" of an ordinary share shall be calculated either (1) by reference to the average of the middle market quotations (less the relevant dividend unless the ordinary shares are already quoted ex such dividend) on the London Stock Exchange (derived from the Daily Official List of the London Stock Exchange or any similar publication) on at least five consecutive dealing days selected by the directors, but commencing no earlier than the day upon which the proposed relevant dividend is announced by the directors, or (2) in such other manner as may be determined by the directors. Furthermore, for such purposes the "associated tax credit" shall be the tax credit which would be available to the recipient of a dividend under section 231 of the Income and Corporation Taxes Act 1988 on the assumption that such recipient is an individual resident in the United Kingdom for United Kingdom taxation purposes;

(c) no fraction of a share shall be allotted and the directors may deal with any fractions which arise as they think fit;

(d) the directors shall, after determining the basis of allotment, notify the holders of ordinary shares and/or convertible preference shares, if applicable, in writing of the right of election offered to them, and specify the procedure to be followed and place at which, and the latest time by which, elections must be lodged in order to be effective;

(e) the directors may exclude from any offer any holders of ordinary shares and/or convertible preference shares, if applicable, where the directors believe that the making of the offer to them would or might involve the contravention of the laws of any territory or that for any other reason the offer should not be made to them;

(f) the dividend or preferential dividend (or that part of the dividend or preferential dividend in respect of which a right of election has been given) shall not be payable on ordinary shares and/or convertible preference shares in respect of which an election has been duly made (**"the elected shares"**) and instead additional ordinary shares shall be allotted to the holders of the elected ordinary shares on the basis of allotment determined as aforesaid. For such purpose the directors shall capitalise out of any amount for the time being standing to the credit of any reserve or fund (including any

share premium account or capital redemption reserve) or any of the profits which could otherwise have been applied in paying dividends in cash, as the directors may determine, a sum equal to the aggregate nominal amount of the additional ordinary shares to be allotted on that basis and apply it in paying up in full the appropriate number of unissued ordinary shares for allotment and distribution to the holders of the elected shares on that basis;

(g) the directors shall not proceed with any election unless the Company has sufficient unissued shares authorised for issue and sufficient reserves or funds that may be capitalised to give effect to it after the basis of allotment is determined;

(h) the additional ordinary shares when allotted shall rank pari passu in all respects with the fully paid ordinary shares then in issue except that they will not be entitled to participation in the dividend in lieu of which they were allotted;

(i) the directors may do all acts and things which they consider necessary or expedient to give effect to any such capitalisation, and may authorise any person to enter on behalf of all the members interested into an agreement with the Company providing for such capitalisation and incidental matters and any agreement so made shall be binding on all concerned.

CAPITALISATION OF PROFITS

121. (1) The directors may with the authority of an ordinary resolution of the Company:-

(a) subject as hereinafter provided, resolve to capitalise any undivided profits of the Company not required for paying any preferential dividend (whether or not they are available for distribution) or any sum standing to the credit of any reserve or fund of the Company (including any share premium account or capital redemption reserve);

(b) appropriate the sum resolved to be capitalised to the members in proportion to the nominal amounts of the shares (whether or not fully paid) held by them respectively which would (or in the case of treasury shares, which would if such shares were not held as treasury shares) entitle them to participate in a distribution of that sum if the shares were fully paid and the sum were then distributable and were distributed by way of dividend and apply such sum on their behalf either in or towards paying up the amounts, if any, for the time being unpaid on any shares held by them respectively, or in paying up in full unissued shares or debentures of the Company of a nominal amount equal to that sum, and allot the shares or debentures credited as fully paid to those members or as they may direct, in those proportions, or partly in one way and partly in the other, but the share premium account, the capital redemption reserve, and any profits which are not available for distribution may, for the purposes of this article, only be applied in paying up unissued shares to be allotted to members credited as fully paid;

(c) resolve that any shares so allotted to any member in respect of a holding by him of any partly paid shares shall so long as such shares remain partly paid rank for dividend only to the extent that the latter shares rank for dividend;

(d) make such provision by the issue of fractional certificates or other fractional entitlements (or by ignoring fractions) or by payment in cash or otherwise as they determine in the case of shares or debentures becoming distributable in fractions (including provision whereby the benefit of fractional entitlements accrue to the Company rather than to the members concerned);

(e) authorise any person to enter on behalf of all the members concerned into an agreement with the Company providing for the allotment to them respectively, credited as fully paid, of any further shares to which they are entitled upon such capitalisation, any agreement made under such authority being binding on all such members; and

(f) generally do all acts and things required to give effect to such resolution as aforesaid.

(2) Where, pursuant to an employees' share scheme (within the meaning of section 743 of the Act) the Company has granted options to subscribe for shares on terms which provide (inter alia) for adjustments to the subscription price payable on the exercise of such options or to the number of shares to be allotted upon such exercise in the event of any increase or reduction in or other reorganisation of the Company's issued share capital and an otherwise appropriate adjustment would result in the subscription price for any share being less than its nominal value, then, subject to the provisions of the Act, the directors may, on the exercise of any of the options concerned and payment of the subscription price which would have applied had such adjustment been made, capitalise any such profits or other sum as is mentioned in paragraph (1) (a) above to the extent necessary to pay up the unpaid balance of the nominal value of the shares which fall to be allotted on the exercise of such options and apply such amount in paying up such balance and allot shares fully paid accordingly. The provisions of paragraphs (1)(a) to (f) of this article shall apply mutatis mutandis to this paragraph (but as if the authority of an ordinary resolution of the Company were not required).

RECORD DATES

122. Notwithstanding any other provision of these articles, but without prejudice to the rights attached to any shares, the Company or the directors may fix a date as the record date by reference to which a dividend will be declared or paid or a distribution, allotment or issue made, and that date may be before, on or after the date on which the dividend, distribution, allotment or issue is declared, paid or made. Where such a record date has been fixed, references in these articles to a holder of shares or member to whom a dividend is to be paid or a distribution, allotment or issue is to be made shall be construed accordingly.

ACCOUNTS

123. No member (other than a director) shall have any right of inspecting any accounting record or other document of the Company, unless he is authorised to do so by statute, by order of the court, by the directors or by ordinary resolution of the Company.

NOTICES

124. Any notice to be given to or by any person pursuant to these articles shall be in writing, except that a notice calling a meeting of the directors need not be in writing.

125. The Company may give any notice to a member either personally or by sending it by post in a prepaid envelope addressed to the member at his registered address or by leaving it at that address. In the case of joint holders of a share, all notices shall be given to the joint holder whose name stands first in the register of members in respect of the joint holding and notice so given shall be sufficient notice to all the joint holders. A member whose registered address is not within the United Kingdom and who gives to the Company an address within the United Kingdom at which notices may be given to him shall be entitled to have notices given to him at that address, but otherwise no such member shall be entitled to receive any notice from the Company.

126. A member present either in person or by proxy, or in the case of a corporate member by a duly authorised representative, at any meeting of the Company or of the holders of any class of shares shall be deemed to have received notice of the meeting and, where requisite, of the purposes for which it was called.

127. (1) Any notice to be given to a member may be given by reference to the register of members as it stands at any time within the period of fifteen days before the notice is given; and no change in the register after that time shall invalidate the giving of the notice.

(2) Every person who becomes entitled to a share shall be bound by any notice in respect of that share which, before his name is entered into the register of members, has

been given to the person from whom he derives his title; but this paragraph does not apply to a notice given under section 212 of the Act.

128. Where, by reason of the suspension or curtailment of postal services within the United Kingdom, the Company is unable effectively to convene a general meeting by notice sent by post, notice of the meeting shall be sufficiently given if given by advertisement in two leading national daily newspapers published in the United Kingdom. The Company shall send a copy of the notice to members by post if at least seven clear days before the meeting the posting of notices to addresses throughout the United Kingdom again becomes practicable.

129. Any notice to be given by the Company to the members or any of them, and not provided for by or pursuant to these articles, shall be sufficiently given if given by advertisement in at least one leading national daily newspaper published in the United Kingdom.

130. A notice sent by post shall be deemed to have been given on the day following that on which the envelope containing the notice was posted unless it was sent by second class post or there is only one class of post in which case it shall be deemed to have been given on the day next but one after it was posted. Proof that the envelope was properly addressed, prepaid and posted shall be conclusive evidence that notice was given. A notice given by advertisement shall be deemed to have been served on the day on which the advertisement appears.

131. A notice may be given by the Company to the person entitled to a share in consequence of the death or bankruptcy of a member by sending or delivering it in any manner authorised by these articles for the giving of notice to a member addressed to that person by name, or by the title of representative of the deceased or trustee of the bankrupt or by any like description, at the address, if any, within the United Kingdom supplied for that purpose by the person claiming to be so entitled. Until such an address has been supplied, a notice may be given in any manner in which it might have been given if the death or bankruptcy had not occurred.

132. Subject to the provisions of the Act, if on three consecutive occasions notices or other communications have been sent by post to a member at his registered address (or, in the case of a member whose registered address is not within the United Kingdom, any address given by him to the Company for the service of notices) but have been returned undelivered, the member shall not be entitled to receive any subsequent notice or other communication until he has given to the Company a new registered address (or, in the case of a member whose registered address is not within the United Kingdom, a new address for the service of notices). For the purposes of this article, references to a communication include references to any cheque or other instrument of payment; but nothing in this article shall entitle the Company to cease sending any cheque or other instrument of payment for any dividend, unless it is otherwise so entitled under these articles.

ELECTRONIC COMMUNICATIONS

132A. Notwithstanding anything to the contrary contained in these articles:

(a) the directors may decide that any information, notice or document may be recorded, provided, delivered, produced or executed in electronic form provided that this is done in accordance with rules made by the directors and is done with the consent of the person entitled to receive it. A document is deemed to have been delivered electronically if a notice has been delivered stating that the document is available and how it can be accessed electronically; and

(b) a document or notice may be sent to a facsimile number or to an electronic address notified to the Company for these purposes and will be deemed to have been properly delivered two hours after being sent; proof that the document or notice was properly sent shall be conclusive evidence of delivery.

DESTRUCTION OF DOCUMENTS

133. (1) The Company may destroy:-

(a) any instrument of transfer, after six years from the date on which it is registered;

(b) any dividend mandate or notification of change of name or address, after two years from the date on which it is recorded;

(c) any share certificate, after one year from the date on which it is cancelled;

(d) any other document on the basis of which an entry in the register of members is made, after six years from the date on which it is made.

(2) Any document referred to in paragraph (1) of this article may be destroyed earlier than the relevant date authorised by that paragraph, provided that a permanent record of the document is made which is not destroyed before that date.

(3) It shall be conclusively presumed in favour of the Company that every entry in the register of members purporting to have been made on the basis of a document destroyed in accordance with this article was duly and properly made, that every instrument of transfer so destroyed was duly registered, that every share certificate so destroyed was duly cancelled, and that every other document so destroyed was valid and effective in accordance with the particulars in the records of the Company; provided that:-

(a) this article shall apply only to the destruction of a document in good faith and without notice of any claim (regardless of the parties to it) to which the document might be relevant;

(b) nothing in this article shall be construed as imposing upon the Company any liability in respect of the destruction of any such document otherwise than in accordance with this article which would not attach to the Company in the absence of this article; and

(c) references in this article to the destruction of any document include references to the disposal of it in any manner.

WINDING UP

134. If the Company is wound up, the liquidator may, with the sanction of an extraordinary resolution and any other sanction required by law, subject to the provisions of the Act, divide among the members in specie the whole or any part of the assets of the Company and may, for that purpose, value any assets and determine how the division shall be carried out as between the members or different classes of members. The liquidator may, with the like sanction, vest the whole or any part of the assets in trustees upon such trusts for the benefit of the members as he may with the like sanction determine, but no member shall be compelled to accept any assets upon which there is a liability.

INDEMNITY

135. Subject to the provisions of the Act, the Company may:

(a) indemnify any person who is or was a director, directly or indirectly (including by funding any expenditure incurred or to be incurred by him), against any loss or liability, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company; and/or

(b) purchase and maintain insurance for any person who is or was a director against any loss or liability or any expenditure he may incur, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company.

For the purposes of this article, "associated company" has the same meaning as in section 309A of the Act.

UNCERTIFICATED SHARES

136. (1) Without prejudice to any powers which the Company or the directors may have to issue, allot, dispose of, convert, or otherwise deal with or make arrangements in relation to, shares and other securities in any form:

(a) the holding of shares in uncertificated form and the transfer of title to such shares by means of a relevant system (as defined in the Uncertificated Securities Regulations) shall be permitted; and

(b) the Company may issue shares in uncertificated form and may convert shares from certificated form to uncertificated form and vice versa.

(2) If and to the extent that any provision of these articles is inconsistent with such holding or transfer as is referred to in paragraph (1)(a) above or with any provision of the Uncertificated Securities Regulations, it shall not apply to any share in uncertificated form.

11 **AMENDMENT TO THE ARTICLES OF ASSOCIATION**

IT WAS RESOLVED that the following resolution be passed as a Special Resolution:

THAT the Articles of Association of the Company shall be amended as follows:

(a) by deleting the number "14" in the third sentence of paragraph 1(B) of Article 3 and inserting the number "17" in substitution therefore; and

(b) by deleting the word "twelve" in Article 73 and inserting the word "fifteen" in substitution therefor.

12 **AMENDMENT TO THE ARTICLES OF ASSOCIATION**

IT WAS RESOLVED that the following resolution be passed as a Special Resolution:

THAT the Articles of Association of the Company shall be amended by deleting the figure of "£500,000" in Article 75(1) and inserting the figure of "£650,000" in substitution therefor.

13 **AUTHORISATION FOR THE COMPANY TO MAKE MARKET PURCHASES**

IT WAS RESOLVED that the following resolution be passed as a Special Resolution:

THAT the Company be generally and unconditionally authorised to make market purchases (within the meaning of Section 163(3) of the Companies Act 1985) of ordinary shares of 3 pence each of the Company provided that:

(a) the maximum number of ordinary shares hereby authorised to be acquired is 53,057,730;

(b) the minimum price which may be paid for any such share is 3 pence;

(c) the maximum price which may be paid for any such share is an amount equal to 105% of the average of the middle market quotations for an ordinary share in the Company as derived from The London Stock Exchange Daily Official List for the five business days immediately preceding the day on which the share is contracted to be purchased;

(d) the authority hereby conferred shall expire on 7 March 2008; and

(e) the Company may make a contract to purchase its ordinary shares under the authority hereby conferred prior to the expiry of such authority, which contract will or may be executed wholly or partly after the expiry of such authority, and may purchase its ordinary shares in pursuance of any such contract.

FIRST CHOICE HOLIDAYS PLC

ARTICLES OF ASSOCIATION

Company No 48967

THE COMPANIES ACT 1985

PUBLIC LIMITED COMPANY

RESOLUTIONS OF

FIRST CHOICE HOLIDAYS PLC

Passed on

7th day of March 2006

FRIDAY

At the Annual General Meeting of the above named Company duly convened and held at the offices of Deutsche Bank, 1 Great Winchester Street, London EC2N 2DB on Wednesday 7 March 2007, the following resolutions were duly passed:

Ordinary Resolution

9 **THAT** the Directors be and they are hereby generally and unconditionally authorised pursuant to Section 80 of the Companies Act 1985 (the "Act") to exercise all the powers of the Company to allot relevant securities (within the meaning of Section 80(2) of the Act) up to an aggregate nominal amount of £5,305,773.03 provided that this authority shall expire on 7 March 2012, save that the Company may before such expiry make an offer or agreement which would or might require relevant securities to be allotted after such expiry and the Directors may allot relevant securities in pursuance of such offer or agreement as if the authority had not expired; and all unexercised authorities previously granted to the Directors to allot relevant securities be and are hereby revoked.

Special Resolutions

10 **THAT** the Directors be and they are hereby empowered pursuant to Section 95 of the Companies Act 1985 (the "Act") to allot equity securities (within the meaning of Section 94 of the Act) for cash pursuant to the authority conferred by Resolution 9 set out in the Notice convening the 2007 Annual General Meeting of the Company, or by way of a sale of treasury shares, as if Section 89(1) of the Act did not apply to any such allotment provided that:

(a) the power conferred hereby shall be limited:

(i) to the allotment of equity securities in connection with a rights issue, open offer or other offer of securities in favour of equity shareholders where the equity securities respectively attributable to the interests of the equity shareholders are proportionate (as nearly as may be) to the respective number of equity shares held by them, subject to such exclusions or other arrangements as the Directors may deem necessary or expedient to deal with treasury shares, fractional entitlements or legal or practical problems arising under the laws of any overseas territory or the requirements of any regulatory body or any stock exchange or any other matter whatsoever; and

(ii) to the allotment (otherwise than pursuant to paragraph 9(a)(i) above) of equity securities up to an aggregate nominal amount of £795,865.95; and

(b) the power conferred hereby shall (unless previously revoked or varied) expire on 7 March 2012 but so that this power shall allow the Company, before the expiry of this power, to make any offer or agreement which will or may require equity securities to be allotted after such expiry and so that the Directors shall be allowed to allot equity securities pursuant to any such offer or agreement as if the power conferred hereby had not expired.

The interim accounts were approved by the Board of Directors on 1 March 2007 and signed on its behalf by

Paul Bowtell
Director

Notes to the interim accounts for the period ended 20 February 2007

1 BASIS OF PREPARATION

The interim accounts for the period to 20 February 2007 have been prepared on the basis of the accounting policies set out in the 2006 Report and Accounts approved on 6 December 2006.

2 NET INTEREST RECEIVABLE AND SIMILAR ITEMS

	Period ended 20 February 2007 £m	Year ended 31 October 2006 £m
Interest receivable on loans to subsidiary undertakings	9.7	17.7
Interest payable on loans due after more than one year	(8.4)	(13.0)
	1.3	4.7

3 DIVIDENDS

	Period ended 20 February 2007 £m	Year ended 31 October 2006 £m
Dividends recognised as deductions from equity in the period were:		
Ordinary shares		
Interim dividend for 2006 of 2.25p per ordinary share (2006: interim dividend for 2005 of 1.95p)	11.8	10.1
Final dividend for 2005 of 4.65p paid	–	24.4
	11.8	34.5

Subject to approval by the shareholders, the final dividend for 2006 of 5.4p per ordinary share will be paid on 10 April 2007 to shareholders on the register at 9 March 2007.

4 INVESTMENTS

	Shares in subsidiaries £m	Investment in joint venture £m	Investment in associate £m
Cost			
At 1 November 2006 and 20 February 2007	590.2	35.9	2.9
Provision for diminution in value			
At 1 November 2006 and 20 February 2007	10.2	–	–
Net book value			
At 20 February 2007	580.0	35.9	2.9
At 31 October 2006	580.0	35.9	2.9

All subsidiaries have ordinary share capital and are 100% owned by the Company. The Directors consider the market values of investments to be not less than the carrying values shown above. Details of the Company's principal operating subsidiaries are set out in the Company's financial statements for the year ended 31 October 2006.

INVESTMENTS IN ASSOCIATE AND JOINT VENTURE

Name of company	Proportion held	Nature of business	Country of Registration/incorporation
Hays Travel Limited	37.75%	Travel agent	England & Wales
Sunshine Cruises Limited	50.00%	Cruise operator	England & Wales

All proportions held are in ordinary shares.

Sunshine Cruises Limited (trading as Island Cruises) was set up as a joint venture with Royal Caribbean Cruises Ltd. (RCCL) in July 2000. The share of profits recognised in respect of the joint venture represents the Group's share of the profit generated in the year.

There is a put option on the Group to acquire the remaining shareholding of the Group's associate, Hays Travel Limited. The value of this is dependent on the future profitability of Hays Travel Limited.

Notes to the interim accounts for the period ended 20 February 2007 (continued)

5 DEBTORS

TUESDAY

First Choice
Holidays PLC
Where leisure travels further

INTRODUCTION

FIRST CHOICE HOLIDAYS PLC IS A LEADING INTERNATIONAL LEISURE TRAVEL COMPANY. IT OPERATES FROM 17 MAJOR SOURCE MARKETS AND EMPLOYS OVER 15,000 PEOPLE ACROSS MORE THAN 80 BRANDS.

EACH OF ITS FOUR SECTORS OFFERS PARTICULAR TYPES OF LEISURE TRAVEL. IT COULD BE A TWO-WEEK HOLIDAY IN THE MEDITERRANEAN OR FLORIDA, ARCTIC EXPEDITION CRUISING, STUDENT EDUCATIONAL TRAVEL, SAILING IN THE CARIBBEAN, A CULTURAL JOURNEY THROUGH EGYPT, A ROUND THE WORLD PRIVATE JET TOUR OR BOOKING A HOTEL FOR A WEEKEND AWAY. FIRST CHOICE CAN SATISFY ALL THESE AND MANY MORE LEISURE TRAVEL NEEDS TO OVER 200 COUNTRIES.

A BALANCED BUSINESS
THE BUSINESS MODEL FOCUSES ON DIFFERENTIATION AND FLEXIBILITY ACROSS THE GROUP. OUR DIVERSE PRODUCT PORTFOLIO AND INTERNATIONAL DIMENSION GIVE BALANCE.

Strategy
Our strategy is to continue to transform ourselves into a leading international leisure travel company, comprising a differentiated UK Mainstream tour operating business and a portfolio of niche specialist businesses across the world, creating added value experiences for our customers. This will ensure long-term sustainable competitive advantage with premium margins and returns for our shareholders.

OPERATIONAL HIGHLIGHTS

Our diversified portfolio delivered strong performance in a difficult market-place.

The Mainstream Holidays Sector outperformed the market with our long-haul product proving very popular increasing revenues and bookings by 44% and 35% respectively.

The three specialist Sectors continue to offer life experiences in segments of the market where there is increasing demand.

Grand Expeditions and Intrav acquisitions integrated and performing well:
- creation of Escorted Tours division and First Choice Expedition Cruising.

£148.7m of niche, specialist acquisitions made during the year; strong pipeline going forward:
- first acquisition in Asia Pacific region.

CHAIRMAN'S STATEMENT

IN WHAT HAS BEEN A DIFFICULT YEAR FOR THE LEISURE TRAVEL MARKET, THE GROUP HAS DEMONSTRATED THAT ITS STRATEGY OF DIVERSIFYING RISK BY CREATING LEADERSHIP POSITIONS ACROSS A PORTFOLIO OF INTERNATIONAL LEISURE BUSINESSES CONTINUES TO DELIVER SUSTAINABLE GROWTH. THE PORTFOLIO, WHICH OFFERS CUSTOMERS IN 17 SOURCE MARKETS A WIDE VARIETY OF LEISURE EXPERIENCES TO OVER 200 DESTINATION COUNTRIES, MEANS THAT THE GROUP IS NEVER OVER-RELIANT ON ANY SINGLE DESTINATION OR SOURCE MARKET. OUR FINANCIAL PERFORMANCE IS TESTAMENT TO MANAGEMENT'S ABILITY TO ANTICIPATE AND EFFECTIVELY GUIDE THE GROUP THROUGH AN UNPRECEDENTED NUMBER OF GEO-POLITICAL EVENTS AND NATURAL DISASTERS.

Sir Michael Hodgkinson
Chairman

In the Mainstream Sector, we have outperformed the market and continue to do so due to a greater offering of exclusive differentiated product, a more flexible business model and a superior management team. In the Specialist Sectors, our portfolio of businesses continue to perform strongly as we benefit from the breadth of Specialist and Activity travel experiences available to our customers.

RESULTS

Consequently, I am very pleased to report that the Group achieved record underlying[1] profit before tax of £117.2m (2005: £115.0m), with underlying operating profit up 13% at £135.4m (2005: £120.2m), on revenue growth of 11% to £2,715m (2005: £2,442m). The resulting underlying earnings per share increased by 16% to 16.1p (2005: 13.9p). This represents the fourth consecutive year of underlying double-digit earnings growth and demonstrates the strength of the Group's strategy, which combines both organic and acquisition led growth. The Group's statutory profit before tax was £97.5m (2005: £112.2m) and statutory basic earnings per share was 13.7p (2005: 13.5p).

DIVIDENDS

The Board is recommending a final dividend of 5.40p per share (2005: 4.65p), an increase of 16% on the comparable period. The interim dividend was 2.25p (2005: 1.95p), giving a total dividend for the year of 7.65p per share (2005: 6.60p). The full year dividend increase of 16% per share represents the fourth consecutive year of double-digit dividend growth and reflects our continuing commitment to a progressive dividend policy and our confidence in the future.

[1] Underlying profit before tax and underlying operating profit exclude separately disclosed items, amortisation of business combination intangibles, impairment of goodwill and taxation on profits of the Group's joint venture and associate. Underlying earnings exclude the same items net of tax and minority interests.

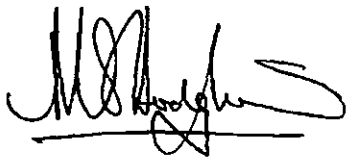
THE MARKET
We have recognised for some time that to remain successful in the mainstream tour operating segment of the market in the UK, we would need to reduce our exposure to the increasingly commoditised short-haul market and be able to offer our customers better quality differentiated product. We have, therefore, invested in exclusive product, such as Holiday Villages and our long-haul aircraft, which has given us competitive advantage and consequently enabled us to outperform the market. When we start to take delivery of our Boeing 787s in 2009 the differentiated experience will be even greater for our customers. The results we are achieving from the long-haul product has given us the confidence to order eight of these aircraft with an option to acquire a further four.

In our specialist Sectors we have identified niche growth segments in which we are investing and developing leading positions. These parts of the Group are truly international and offer exciting growth opportunities. Many of these segments are highly fragmented and building a significant presence through acquisition has allowed us to create substantial businesses in a relatively short period.

ACQUISITIONS
Acquisitions continue to be a key part of our strategy. This year we have made 13 acquisitions for a total consideration of £148.7m of which £129.3m has been paid during the year (2005: 12 acquisitions for consideration of £65.5m of which £53m had been paid).

The acquisition pipeline remains strong as we continue to identify opportunities which have excellent growth characteristics across a number of segments including adventure travel, student travel and specialist escorted tours.

BOARD
Giles Thorley joined the Board on 1 February 2006 and has proven to be a valuable and supportive Board member. As the Group has transformed itself from a purely mainstream holidays business in 1999 to an international leisure travel company today, we have similarly established a Board with a wide-ranging skill set, excellent business reputation and international experience.



COLLEAGUES
We are a people business, focused on giving our customers the most enjoyable leisure travel experience we can. The passion and commitment shown by our colleagues across all the businesses has been greatly appreciated and, on behalf of the Board, I would like to thank them all for their hard work and effort.

SUSTAINABLE DEVELOPMENT
First Choice is committed to sustainable development in both source market and in destination. We are a founder member of the Travel Foundation in the UK and encourage all of our businesses to behave responsibly and support communities on an ongoing basis. Our stand-alone (web based) Environment & People Report was updated in the Spring and includes key future commitments. We were admitted to the FTSE4Good Index last year and for the first time completed the full Business in the Community Corporate Responsibility Survey. All the FTSE100 and FTSE250 companies are invited to participate in the Survey and we were ranked 101 with an overall score of 72%.

OUTLOOK
First Choice Holidays PLC has once again delivered strong financial performance in a year when our flexible business model and strategy has been tested by challenging conditions in a number of source and destination markets, but has proven successful in delivering growth.

On 27 November 2006 we announced, following press speculation regarding the Mainstream business, that the Board of First Choice Holidays PLC has been reviewing how it might continue to maximise the potential of its market leading tour operating business. The Board is considering a range of alternatives in this market and discussions with a number of parties are at a preliminary stage. There can be no certainty that any transaction will be forthcoming. However, I remain confident, whatever the outcome, that our strategy and flexible business model will ensure that we are well placed to continue to outperform the market and deliver sustainable growth into 2007 and beyond.

Sir Michael Hodgkinson
Chairman
6 December 2006

BUSINESS AND FINANCIAL REVIEW

Peter Long
Chief Executive

Paul Bowtell
Group Finance Director

THE BUSINESS AND FINANCIAL REVIEW HAS BEEN PREPARED BY THE BOARD OF FIRST CHOICE HOLIDAYS PLC (THE COMPANY) SOLELY FOR THE MEMBERS OF FIRST CHOICE HOLIDAYS PLC. IT PROVIDES INFORMATION ON THE CORPORATE OBJECTIVES OF THE GROUP AND ITS BUSINESSES, TOGETHER WITH A REVIEW OF OUR PROGRESS DURING THE FINANCIAL YEAR ENDED 31 OCTOBER 2006 AND AN ASSESSMENT OF THE KEY RISKS AND UNCERTAINTIES THAT WE FACE.

CORPORATE OBJECTIVES AND STRATEGY

First Choice Holidays PLC is a leading international leisure travel company. It operates from 17 major source markets offering differentiated leisure travel experiences to more than eight million customers annually. Over the past five years, the Company has invested in increasing its international presence and has moved into niche segments which offer good long-term growth prospects, create additional shareholder value and allow us to build leadership positions. The Group operates with a flexible and efficient business model which allows it to increase or decrease capacity more easily than a number of its competitors. The new market segments it has chosen to enter have a highly fragmented supply base which provides us with good opportunities for further consolidation in those markets.

We aim to deliver long-term sustainable shareholder value through continued growth in profitability and we invest in current and newly acquired businesses to achieve this. The Board, however, also recognises that external factors beyond the Company's control can affect these objectives in the short-term but believes that the competitive advantage inherent in our chosen growth segments will provide more robust longer-term value for our shareholders.

Our strategy this year has remained unchanged. We continue to build our position as a leading international leisure travel company, comprising a differentiated UK mainstream tour operating business and a portfolio of niche specialist businesses across the world, creating added value experiences for our customers. This will ensure long-term sustainable competitive advantage with premium margins resulting in superior returns for our shareholders.

KEY STRENGTHS

First Choice Holidays PLC ensures that all its businesses across the Group operate with flexible and efficient business models thereby enabling them to anticipate trends more easily and react quickly to changes in the trading environment by ameliorating the adverse effects of unforeseen natural disasters, geo-political events and the like.

Operating from 17 major source markets gives the Company a good international spread of businesses and means we are not over reliant on any one source market from which to attract customers. We will continue to investigate new source markets that demonstrate good growth prospects such as Asia and Latin America.

By offering differentiated product across the Group, both specialist and mainstream, we are able to cater to a wide range of customers who are seeking the many and varied leisure travel experiences provided by us through our portfolio of businesses.

13%

Group underlying operating profit increase

30%

underlying operating profit increase of three specialist Sectors

The companies we acquire tend to be asset light with a high level of expertise within the business. Those Group businesses that do require higher levels of capital expenditure invest in assets (such as yachts, inland waterways cruisers, expedition cruise ships, licences to operate in the Galapagos or yacht berths), which provide greater competitive advantage and allows a premium to be charged.

GROUP PERFORMANCE

The Group has once again delivered strong operational performance and financial growth in a year that has tested the leisure travel industry. The year's financial results prove that the flexible business model we operate, combined with the range of differentiated leisure travel experiences the Group offers, is both robust and provides a platform for long-term sustained growth.

The Group has achieved underlying profit before tax of £117.2m (2005: £115.0m), with underlying operating profit up 13% to £135.4m (2005: £120.2m). The underlying profit before tax includes net financing expense of £18.2m which is £13.0m higher than in 2005, primarily as a result of refinancing the convertible preference shares in July 2005 (£9.0m) and a higher level of acquisitions (£4.0m). Group revenue for the year increased by 11% to £2,715m (2005: £2,442m). The resulting operating profit margin improved by 10 basis points to 5.0% this year. It should be noted that during the year we changed our accounting policy regarding ODS revenue recognition to bring it in line with accepted market practice, which resulted in a margin improvement. However, the 10 basis points margin improvement is after restating prior year revenue.

The Group's results, on both a statutory and underlying basis, are set out in the table below.

Year ended 31 October	2006	2005
Revenue	£2,715m	£2,442m
Underlying operating profit	£135.4m	£120.2m
Underlying profit before tax	£117.2m	£115.0m
Statutory operating profit	£115.7m	£117.4m
Statutory profit before tax	£97.5m	£112.2m
Underlying basic earnings per share	16.1p	13.9p
Statutory basic earnings per share	13.7p	13.5p

A reconciliation of underlying profit before tax to statutory profit before tax is as follows:

	2006 £m	2005 £m
Underlying profit before tax	117.2	115.0
Separately disclosed items	(5.8)	-
Impairment of goodwill on closure of business	(1.4)	-
Amortisation of business combination intangibles	(11.3)	(1.9)
Taxation on profits of joint venture and associate	(1.2)	(0.9)
Statutory profit before tax	**97.5**	**112.2**

Our acquisition strategy is clearly a key contributor to future growth and we continue to have a strong pipeline of potential acquisition opportunities. We are continuously exploring new geographical source markets and destinations to expand our portfolio of leisure travel businesses and diversify risk. In August 2006, we acquired the Pacific World group of seven companies. This marked our first significant entry into the Asia Pacific and Chinese markets. These markets represent a significant opportunity for high growth in travel and the fragmented nature of the accommodation supply base fits well with our Online Destination Services model. The integration of this business is progressing well.

We also entered the North American specialist escorted tours segment during the year. This is a fragmented market-place which focuses on the growing and affluent "boomer" demographic. We now have seven brands operating in this high margin segment. These include Country Walkers, International Expeditions, Park East, TRAVCOA, TCS Expeditions, all acquired as part of the acquisition of Grand Expeditions in December 2005. In addition, Intrav was acquired in January 2006 and Your Man Tours acquired in July 2006. All of these businesses have performed well during the year and provide significant growth opportunities.

- Mainstream Holidays Sector underlying operating profit was £53.7m (2005: £57.5m), down 7% year-on-year, primarily due to the delay in high season bookings as a direct result of the World Cup and extremely warm weather in July which led to pricing pressure in the lates market. Revenue grew by 1% to £1,272m (2005: £1,264m).

- Specialist Holidays Sector underlying operating profit was £36.6m (2005: £31.5m), up 16% year-on-year. This was on revenue of £928m (2005: £891m), up 4%. The increase in profit was driven by continued growth in Canada and strong performance in our UK Specialist Division and North American student businesses.

- Activity Holidays Sector underlying operating profit was £26.7m (2005: £17.0m), up 57% year-on-year. This was achieved on revenue of £377m (2005: £194m), up 94%. On a like-for-like basis revenue was up 13%. The result was driven by good performances by our Adventure businesses and by a contribution of £5.5m from acquisitions made in the year.

- Online Destination Services Sector underlying operating profit was £14.4m (2005: £11.4m), up 26% year-on-year, with continued strong growth in revenue up 49% to £138m (2005: £93m). This result reflects strong underlying growth in our online channels offset by further incremental investment in Hotelopia.

- The Group's joint venture with Royal Caribbean Cruises Ltd. increased underlying profit before tax by £1.5m to £5.0m (2005: £3.5m). The Group's share of the pre-tax profit amounted to £2.5m, compared to £1.8m in 2005.

As announced at the trading update in October, we constantly review our participation strategy and how we can remain cost competitive. As a result of a review of underperforming business units and restructuring actions across all our Sectors, but particularly the UK, the Group has incurred net separately disclosed items of £5.8m.

PARTNERING

As an international leisure travel company we have developed sound, long-term relationships across all our businesses. We believe in working together with the suppliers we use across the world and our strategic alliance partners. This way we are able to provide high levels of service and choice for our customers whatever leisure travel experience we are providing.

Online Destination Services
This Sector's relationships, with mainly independent hoteliers, now stretches from the Mediterranean to Asia Pacific via European cities and the USA.

32%

increase in long-haul Summer capacity

63%

controlled distribution in Mainstream

MAINSTREAM HOLIDAYS SECTOR

The Mainstream Holidays Sector consists of the UK and Ireland tour operating, retail and airline businesses. With a clear strategy, it is focused on the further development of differentiated, exclusive product such as the long-haul flight experience and Holiday Villages as it reduces capacity in the commoditised short-haul market. With a strong brand that is increasingly recognised as offering holidays of good value and quality, it is also benefiting from greater control of distribution.

Despite satisfactory revenue performance and a significant reduction in capacity across the Summer season there was a delay in high season bookings due to bird flu scares in the early booking period, the World Cup in June and unusually warm weather in July. This led to weaker selling prices in the market-place from August, the result of which was that incremental year-on-year fuel costs for the season of £50m were not fully recovered from the customer in the lates market. This, combined with additional costs we incurred in managing an unprecedented level of external events resulted in a 7% reduction in full year underlying operating profit to £53.7m (2005: £57.5m), and a 0.3 percentage point reduction in underlying margin to 4.2%.

The "It's a big sky" advertising campaign promoted the quality of comfort and service that our long-haul aircraft and crew provide.

The continued emphasis on product differentiation resulted in a 30% year-on-year revenue increase for the Premier programme. The popularity of our Holiday Village concept goes from strength to strength and, as a result, we have recently opened a new resort in the Dominican Republic, the sixth property of this type. Our long-haul product has been significantly expanded (capacity up 32% for Summer 2006) and we are now flying to six new long-haul destinations. During the Summer, we operated four re-configured Boeing 767s (Summer 2005: three) and have recently introduced a further two for Summer 2007.

We have made excellent progress in increasing our control of distribution, which has now reached 63% for the Summer (2005: 56%). We are well on target to achieve 75% of our sales through controlled channels by the end of the 2008 financial year and aim to exceed this target. Online sales have increased to 32% (2005: 25%), while sales from our retail outlets have also grown, with call centres remaining level. As we drive towards becoming a predominantly direct-sell business we need to continue to build and develop our distribution channel. We have, therefore, announced that we will expand the retail chain and continue to work with some of our long-term third-party retail partners. Accordingly, we recently announced plans to franchise First Choice shops and to date have signed two significant franchisees which will increase our store portfolio by 50. We will also be opening 45 of our own stores before the end of December in key geographical areas where we are currently not represented. Our mobile concession concept, "the travel pod", which has a footprint of less than 200 sq ft is currently on trial with Asda, Sainsbury's, Morrisons and Waterstones. This investment in retail has been primarily funded through reduced commission rates paid to third-party travel agents. Overall, the increase in direct sales has resulted in a distribution benefit of £5.9m in the year.

The First Choice brand and its products have traditionally appealed to families. The differentiated experience we have developed, particularly in Holiday Villages and the long-haul flight experience, where we have actively promoted the benefits of flying with First Choice Airways, has increased the brand appeal to both families and couples, as well as those who are normally considered the natural long-haul leisure customers of the scheduled airlines. The investment in the brand and long-haul product has cost an incremental £1.5m this year which has been expensed in 2006 but will benefit future seasons.

The Sector is fully committed to a wide-ranging Corporate Social Responsibility programme and in particular takes seriously its responsibility to manage its carbon footprint. Energy reduction measures are in place in our retail and office premises, the majority of which are on green tariffs. We operate a highly efficient airline, achieving industry-leading load factors in excess of 95%. First Choice Airways has recently been awarded the Best Charter Airline and Best Environmental Airline at the British Travel Awards. We have also embraced new, more efficient technology and are the UK launch customer for the Boeing 787, the most energy efficient plane in development.

SPECIALIST HOLIDAYS SECTOR

The Specialist Holidays Sector consists of the Continental European and UK Specialist businesses (which are grouped as European Specialist for reporting purposes), our Canadian tour operating and retail business, First Choice Student Travel in the US and Canada, and Europe Express (First Choice Independent Vacations), our independent travel business operating in the US. These businesses offer both destination-led and lifestyle holidays with differentiated and exclusive product.

The businesses in this Sector are not vertically integrated or capital intensive and their business models are extremely flexible and cost efficient. Despite a number of the businesses in this Sector experiencing challenging market conditions, it delivered strong growth in profitability with underlying operating profit of £36.6m (2005: £31.5m), up 16% year-on-year.

The businesses in Continental Europe experienced a number of external events, from bird flu scares in Turkey to terrorist incidents in North Africa and Eastern Mediterranean key destinations, that adversely impacted underlying performance. Consequently, profitability in a number of Continental European businesses was reduced. Several of our smaller Continental European businesses were loss-making in the year with total losses amounting to £4.2m. At the trading update in October, we announced that we had decided to scale back the loss making businesses in Continental Europe. The one-off costs of these actions have been reported within the net separately disclosed items of £5.8m.

Marmara remains France's number one tour operator in terms of profitability. It opened a new club in Marrakech, Morocco in April 2006 and increased overall volumes to this destination by 26% with an occupancy rate of more than 90% for the entire season. The Aqua Fantasy Hotel in Kusadasi, Turkey which is exclusive to First Choice Netherlands and the Mainstream Holidays Sector in the UK, successfully opened its second phase and a further extension to this property will be completed by Summer 2007. A number of the European businesses are entering a limited number of new destinations, such as Morocco, to offer alternatives to Egypt and Turkey as we continuously strive to diversify risk.

The restructuring and streamlining of the UK Specialist business model, combined with the growth in direct distribution, has resulted in a very successful year for this division. The product offering for Sovereign, Hayes & Jarvis, Citalia and Meon Villas, has been more clearly defined and this, together with careful capacity management, the introduction of a more flexible selling system and a focus on growing direct distribution channels has improved profitability substantially. Controlled distribution now stands at 59% (2005: 49%) in UK Specialist and will increase further in the coming year, with the business now achieving underlying margins of around 5% (2005: 4%).

North America

Our North American businesses improved profitability by £8.4m to £13.8m (2005: £5.4m). This was driven by our Canadian operation which improved its profit margin in a year that, for this market, was badly affected by the 2005 hurricane season and the North American student travel businesses.

These student travel businesses performed equally strongly, despite also being affected by the 2005 hurricane season. The flexibility in the business meant that we were able to move and significantly increase bookings to the West Coast of Mexico away from Cancun which was badly affected by Hurricane Wilma. We made a significant step into the highly-fragmented educational student travel market through the acquisitions of Jumpstreet, School Voyageurs and Educatours in Canada and Educational Tours in the US. Opportunities in the student travel market remain attractive and we have a strong pipeline of acquisitions that we are pursuing.

At Citalia we have a real passion for Italy. Our experience together with our personal touch makes us the leading Italian specialist.

LEADING

We are leaders in a number of segments in which we operate including Marine and Adventure. We have built these positions both organically and by acquisition and have identified a number of further niche areas where we are currently making rapid inroads. Offering good growth opportunities, we will actively pursue our leadership position in these segments.

First Choice Marine
The world leader in yachting. If it's sail or power our customers desire we have the experience to suit them.

FLEXIBLE

Operating with flexible business models across our companies is part of our strategy of ensuring that we are able to manage our businesses efficiently whatever the market conditions. Our product mix also helps us not to be over-dependent on any one part of our business or any one destination.

UK Specialist businesses
It's not only about flexibility in the business model, customers travelling on holiday with one of our UK Specialist companies can choose the length of their stay.

controlled distribution

ACTIVITY HOLIDAYS SECTOR

The Activity Holidays Sector consists of three divisions:

- The Marine division includes First Choice Marine, which operates the market leading yacht chartering brands of Sunsail and The Moorings, Sunsail Clubs and Inland Waterways (Crown Blue Line and Connoisseur).
- The Adventure division consists of a portfolio of 17 adventure travel businesses, including First Choice Expedition Cruising and our specialist and schools ski offering.
- The Escorted Tours division consists of seven brands that operate specialist escorted tours for the US source market.

The Sector is a high growth area with strong consumer demand for adventure and escorted products in particular. Its high margin businesses delivered underlying operating profit of £26.7m (2005: £17.0m) on revenue that increased by 94% to £377m (2005: £194m). Revenue increased 13% on a like-for-like basis with profitability flat, primarily as a result of a disappointing performance in Sunsail Clubs. During the year, we acquired a number of businesses in this Sector that were not expected to achieve full profitability until 2007. Consequently, this led to a dilution in underlying margin during the year of 1.7 percentage points.

ACTIVITY HOLIDAYS SECTOR

Marine

The Marine division delivered underlying operating profitability of £10.6m (2005: £9.7m) on revenue of £122m (2005: £90m). The result was impacted by difficult trading conditions for our Sunsail Clubs.

First Choice Marine, which comprises Sunsail Yachts and The Moorings, has focused on integrating the businesses since the acquisition of The Moorings in December 2005. The business is firmly on track to deliver anticipated cost synergy benefits of £5m in 2007.

Inland Waterways has focused on driving organic growth through direct channels with 44% of sales now direct (2005: 42%). Asset utilisation has continued to improve with occupancy increasing 5% year-on-year. Based on our research, we believe there could be strong demand for this product in a broader number of source markets, which we will actively pursue.

Sunsail Clubs had a challenging year with bookings affected adversely by the bird flu scare in Turkey. Despite this difficult trading environment, our new club, Club Phokaia, had a very successful season, proving that our customers appreciate the quality of our product.

Adventure

Our portfolio of Adventure businesses has grown both organically and by acquisition, with the division growing revenue by 81% to £189m (2005: £104m) and underlying operating profit to £13.3m (2005: £7.3m). Profitability grew by 5% on a like-for-like basis to £6.6m as the organic businesses continued to perform strongly in a segment which we expect to deliver strong growth in the future. The North American market continued to be a focus for this division and we have acquired Trek Holidays in Canada and Trip n Tours, a US West Coast dive business that complements our Caribbean dive expertise at Caradonna. In the Netherlands we acquired Sawadee (an adventure travel tour operator) and in the UK, we acquired TravelClass which operates two school brands; Skiclass and JCA. Skiclass complements our existing Skibound business while JCA is a summer-based schools activities business which has grown strongly and offers good growth potential as it expands the number of sites available to schools across the UK. Having achieved critical mass with these businesses, we are now pursuing the most effective ways to leverage the infrastructure we have established.

Following the acquisition of Intrav by the Group in January 2006, a new sub-division, First Choice Expedition Cruising, has been formed to manage and operate the two small ship expedition cruising brands, Peregrine Cruises and Clipper Cruise Line. This sub-division will be included within the Adventure division. Travel on small expedition ships is a niche adventure segment offering substantial growth opportunities. Combining the operations of these two brands will enable us to offer a complementary portfolio of small ship expedition product from 2008 and make this available through a worldwide distribution network.

Hotelopia's increase in transaction value

60%

increase in Bedsonline customer base

Escorted Tours
The Escorted Tours division has been formed out of certain businesses acquired in the Grand Expeditions transaction, Intrav and Your Man Tours.

Intrav was loss-making at acquisition and a number of steps have been taken to address this including the transfer of Clipper Cruise Lines into First Choice Expedition Cruising. This initiative has enabled Intrav to focus on escorted tours, its core expertise. As anticipated, these measures have resulted in the Intrav and Clipper Cruise Line businesses achieving break-even results.

The escorted tours businesses that had been part of Grand Expeditions and whose customer base is drawn primarily from the growing "boomer" demographic in the US market, had a successful year. The cultural and luxury escorted travel categories are growing as customers seek new destinations. Our businesses are averaging double-digit volume increases year-on-year. The tailor-made journeys market is also growing rapidly as wealthy travellers desire to individualise their travel experiences.

ONLINE DESTINATION SERVICES SECTOR
Our business approach in this Sector is based on a local presence at key travel destinations. Our extensive infrastructure includes 89 offices in 23 countries servicing over five million customers. We have established strong relationships with our suppliers, enabling us to offer our customers a breadth of content online that is not available through our competitors, plus customer service on the ground, rather than from a centralised base. The destinations in which we operate usually have a highly fragmented supply base, meaning the relationships with our suppliers are a critical success factor. The majority of our inventory comes from privately owned hotels.

We have continued to experience significant growth in all our online routes to market with total online transaction value growing to £306m, representing growth of 49%. Hotelbeds, the brand which services tour operators has experienced a 32% growth in transaction value. Bedsonline, our B2B operator servicing travel agents who are sourcing accommodation for the independent traveller, has significantly increased its customer base, now meeting the needs of more than 8,000 travel agents (2005: >5,000) and has grown transaction value by 79%. Hotelopia, our B2C accommodation business brand, has achieved an increase in transaction value of 48%.

Our strategy is to acquire established offline incoming agencies which have strong relationships in their destinations and then bring their inventory online. To this end, the Sector has expanded its geographical reach, opening an office in Brazil and acquiring a further business in Greece. In August, we acquired the Pacific World group of companies based in the Asia Pacific region. This was a significant strategic move for us and we are delighted that this well-respected and successful group is now part of this Sector.

Pacific World is a network of specialist companies providing meetings, incentives, conference and events (MICE) services as well as servicing cruise lines and foreign independent travel for tour operators. With 19 offices across the region, Pacific World has given us an immediate, established presence in key Asian markets.

Iguasu Falls, Brazil. The Online Destination Services Sector has recently opened an office in Brazil.

The Sector was affected by the 2005 hurricane season and the events in Turkey during the year. Hurricane Wilma caused extensive damage in Cancun, Mexico, which resulted in the destination being almost entirely closed for the peak season as hotels, resorts and infrastructure were repaired or rebuilt. The reduction in capacity to Turkey, which tour operators implemented, also affected the requirement for our services. We continue to seek new destination markets not only to grow our business, but to diversify and spread our risks.

PIONEERING

We have not been afraid to be at the forefront of leisure travel experiences that allow our customers to go to places and experience adventures that they would not readily be able to do on their own, across sectors that we have identified as delivering top-line growth and increasing demand.

Adventure Holidays
With Exodus, you can avoid the Everest Base Camp crowds, ascend the highest trekking peak in the Himalayas, Mera, and admire Everest to the north of you.

EXPERTS

Everywhere across the Group you will find expertise at all levels – entrepreneurial and instinctive tour operators combined with non-travel experts, each understanding their particular area and contributing to the growth and the success of the businesses they are involved in. This expertise allows us to differentiate our products further and offer life experiences to our customers.

Cultural and luxury escorted tours
Across the North American "boomer" market demand for small group tours with like-minded people to cultural, historical and natural sites accompanied by expert guides is growing.

84%

increase in passengers on Island Cruises

16%

growth in the Group's underlying basic EPS

The acquisition of Pacific World enables us to offer a global MICE business that we plan to build on to attract new customers and enhance our destination portfolio for our existing customers. It will also allow us to expand our Intercruises brand to provide accommodation services to cruise lines in South East Asia.

We have continued to invest in Information Technology throughout the Sector, outsourcing communications as well as our servers, giving greater scalability to our business. Our systems in the US are now completely online, giving this destination instant access to the entire customer base, an important development for us as we grow this market.

Hotelopia's growth has been achieved both through its own brand and through the strategic alliances it has formed with a number of substantial companies including BBVA, easyJet, Spanair, Martinair, bmi and bmibaby. We will continue to pursue meaningful strategic alliances both in the UK and overseas.

Pacific World is able to offer services in many South East Asian destinations including Vietnam.

Santorini, Greece, one port of call on an Island Cruises Mediterranean itinerary.

ISLAND CRUISES

Our joint venture with Royal Caribbean Cruises Ltd. now operates two ships in the Mediterranean in the Summer and off the coast of Brazil in the Winter. The second ship, the Island Star, went into service in December 2005 after an extensive refurbishment.

Total passengers carried increased by 84% to 167,000, with passengers from the UK increasing by 95% to 90,000. This was achieved against an overall growth in passenger numbers in the UK cruise market of 17%.

Profit before tax was up 40% with our share of the profit at £2.5m (2005: £1.8m). Revenue improved by 84% in what was a tough UK market, where the weakness in the price of land-based package holidays in the lates market affected cruise prices, while cost pressures, particularly on fuel, were also a factor.

Demand in both the Brazilian and UK markets is strong and forward bookings are significantly ahead of the previous year and we remain optimistic that this segment of the cruise market will continue to prosper.

TAXATION

Profit before tax (excluding joint venture and associate profits) was £94.7m (2005: £110.3m). The tax charge on these profits was £25.2m (2005: £31.9m), representing an effective tax rate of 26.6% (2005: 28.9%). The lower effective rate compared to the UK statutory rate of 30% is due to the use of historic losses against current year profits, net of current year losses not recognised and higher overseas tax rates.

The Group underlying profit before tax (excluding profit before tax of the joint venture and associate) was £113.2m (2005: £112.2m). The Group tax charge on this profit was £31.2m (2005: £32.4m), representing an effective underlying tax rate of 27.6% (2005: 28.9%). This rate is higher than the statutory 26.6% due to the tax credit on overseas business combination intangible amortisation being at a rate in excess of 30%.

Based on the current structure of the business, existing local taxation rates and legislation, it is expected that the underlying tax rate on ongoing activities (before intangible amortisation) will be at a level of around 28% going forward.

EARNINGS PER SHARE

Underlying basic earnings per ordinary share was 16.1p (2005: 13.9p), an increase of 16%. This performance represents the fourth year of double-digit growth.

DIVIDENDS

The Board recommends a final dividend per ordinary share of 5.40p (2005: 4.65p), an increase of 16%, making a total dividend relating to the year of 7.65p (2005: 6.60p), an increase of 16%. The Group will look to maintain underlying dividend cover at just over two times. The dividend will be paid on 10 April 2007 to all shareholders on the register as at 9 March 2007. The Company intends to continue to operate a dividend reinvestment plan as an alternative to the full cash dividend.

Total				**148.7**	**129.3**

For the last four years First Choice Holidays PLC has been investing in small to medium sized bolt-on acquisitions in specialist niche segments of the leisure travel market. This programme has been accelerated in the year ended 31 October 2006 with 13 businesses being acquired for a maximum total consideration of £148.7m. By way of comparison, in the year ended 31 October 2005, we made 12 acquisitions with a maximum aggregate consideration of £65.5m of which £53.4m was paid in 2005.

Acquisitions in the year are shown in the table above. Of the maximum consideration, £129.3m was paid during the year. A further £19.4m will be paid as deferred and contingent consideration. In addition, £4.5m of acquisition expenses were incurred bringing the total expected consideration to £153.2m.

	2006		2005	
	Max £m	Paid £m	Max £m	Paid £m
Acquisitions in the year				
Amounts paid in year	129.3	129.3	53.4	53.4
Deferred and contingent consideration arising	19.4	–	12.1	–
	148.7	129.3	65.5	53.4
Acquisitions expenses paid in the year	4.5	4.5	1.8	1.8
Total consideration	**153.2**	**133.8**	**67.3**	**55.2**
Cash acquired with acquisitions	–	(40.0)	–	(23.7)
Cash paid relating to prior year acquisitions	–	14.3	–	1.6
Net cash outflow in the year relating to acquisitions	–	**108.1**	–	**33.1**

The cash flow effect of these acquisitions includes the cash consideration paid in the year of £129.3m, deferred and contingent consideration of £14.3m relating to prior year acquisitions that was paid in the year, acquisition expenses of £4.5m and the cash acquired of £40.0m, resulting in a total net cash outflow for the year of £108.1m (2005: £33.1m).

The net assets of all the subsidiaries acquired during the year have been consolidated in the Group's balance sheet at 31 October 2006. The Group's consolidated profit and loss account reflects revenue of £148.2m and underlying operating profit of £8.4m from the results of the acquired companies since acquisition.

CASH AND LIQUIDITY

Throughout the year there has continued to be a strong focus on cash management with an emphasis on working capital management. However, there has been a working capital outflow in the year of £56.6m (2005: £3.7m). This was driven by a significant increase in accommodation prepayments to finance a number of new exclusive and differentiated properties, primarily within the European Specialist businesses, for which we are not currently taking bookings. As a result of acquiring and disposing of businesses part way through the trading cycle, working capital outflows of £18.0m have been incurred. In addition, special employer contributions of £6.0m were paid to reduce the pension deficit in the airline defined benefit schemes, while the Group also paid advance deposits on Boeing 787 options amounting to £2.8m.

The net debt position (cash and cash equivalents less loans, overdrafts and finance leases) at the year-end was £103.3m (2005: net cash £18.1m). This consisted of £177.5m of cash and £280.8m of debt. The £121.4m movement in net debt has primarily arisen due to the accelerated acquisition strategy. Fixed charges cover, which we believe to be the most useful measure of liquidity, was 2.3 times at the year-end (2005: 2.3 times).

During the year the Group issued a $100m Eurobond to Royal Caribbean Cruises Ltd. The Eurobond has a coupon of 6% and matures in March 2009. In addition, the Group negotiated bi-lateral bank facilities with Deutsche Bank (£30m due July 2010) and Société Générale (€18.3m due November 2009).

SHAREHOLDERS' FUNDS

Shareholders' funds have increased in the year to £281.1m (2005: £275.9m). There was a profit for the year of £72.3m (2005: £80.3m) which has been offset by dividends paid and hedge reserve movements.

The Group issued no ordinary shares (2005: nil) in respect of acquisitions.

REGULATIONS, BONDING AND BANKING

The Civil Aviation Authority (CAA), the Federation of Tour Operators (FTO) and the Association of British Travel Agents (ABTA) regulate the businesses based in the UK. Each of these bodies protects the rights of consumers by requiring the Group to lodge security bonds with them.

In the UK, the CAA has been active in lobbying Government to make legislative changes to the bonding regime to ensure that tour operators are not competitively disadvantaged as a result of the current legislation. First Choice Holidays PLC fully supports the CAA's proposal to replace the bonding regime with a small levy per passenger and looks forward to working with the CAA to pursue this change during 2007.

Where international businesses are regulated, the protection of consumers is achieved either by means of cash collateral or bond cover similar to the UK requirements.

TREASURY POLICIES

The Group faces significant financial risks mainly due to the substantial cross-border element of its trading. Currency exchange risk, which arises principally from the mismatch between the Group's UK businesses sterling revenue streams and foreign currency operating costs, is managed by the use of foreign exchange forward, swap and option contracts. Interest rate risk is split into two separate exposures, namely US dollar interest rates on variable rate aircraft leases and loans, and sterling rates on Group cash balances. Both exposures are managed using interest rate derivatives. Finally, the Group's exposure to jet fuel prices is managed using energy swaps and options.

During the year the governance of financial risk, was managed by the Financial Risk Management Committee (FRMC). The Committee, which was created in 2005, reports to the Board of Directors and the Audit Committee and is made up of the relevant senior business employees and technical experts within the Group. Incorporated within its terms of reference is the determination of all treasury policies and the monitoring of the effectiveness of those policies.

Group Treasury implements the agreed policies on a day-to-day basis. The procedures also stipulate the levels of authority applied to dealing and to approving the types of financial instrument, used to manage these exposures. Transactions are only undertaken to hedge underlying exposures. Financial instruments are not traded, nor are speculative positions taken. Regular reports are provided to the Board.

First Choice is leading the way in long-haul flying to destinations with some of the world's most amazing experiences.

Surrounded by a sparkling bay, our newest Sunsail Club, Phokaia is the perfect place to enjoy a variety of watersports.

CHANGE IN ACCOUNTING POLICIES

European and UK legislation requires the Group to adopt International Financial Reporting Standards as adopted for use in the EU (Adopted IFRSs) for the financial year ended 31 October 2006. Accordingly, the interim financial statements at 30 April 2006 and the full statements for the year ended 31 October 2006 have been prepared using the measurement and recognition principles of Adopted IFRSs as opposed to UK Generally Accepted Accounting Practice (UK GAAP). We have provided significant information on the transition to Adopted IFRSs and the impact on the Group's opening balance sheet in IFRS updates in October 2005 and March 2006. These announcements, and the accounting policies used in its preparation, can be found on the First Choice Holidays PLC website www.firstchoiceholidaysplc.com.

As stated in the press releases, while Adopted IFRSs result in certain changes to our financial reporting they have no impact on the underlying value drivers of our business. Our strategy, accordingly, is totally unaffected by these changes. The transition to Adopted IFRSs will not change how the Group is managed and significantly will have no impact on cash generation, which remains a key performance measure. It will also not affect the way that the Group assesses potential investments nor the ability of the Group to pay dividends from cash reserves.

Further details on the Group's accounting policies can be found in note 1 of the financial statements.

SUSTAINABLE DEVELOPMENT

Over the past year sustainable development has continued to be an important part of the business agenda for First Choice and we have undertaken a number of initiatives designed to ensure that our performance in this area continually improves.

Our French customers can travel to some of the world's most beautiful islands, including those of Polynesia, with Tourinter.

We support the Travel Foundation's projects protecting precious natural environments in Mexico.

The Group first published a sustainable development policy in January 2003 which was updated in 2004 and 2005 and signed by Dermot Blastland, Managing Director of the Mainstream Holidays Sector, who takes overall responsibility for sustainable development on behalf of the Board.

Group Sustainable Development Policy
As a leading leisure travel company, we recognise that the environment, the communities and cultures within which we operate, and our relationships with key groups and individuals, are vital to the success of our business. We therefore commit in the long-term to:

- Minimise the direct environmental impact of our operations and to be proactively involved in activities and projects which work to protect and restore the natural environment.
- Work with customers, employees, shareholders, suppliers, industry partners, local communities and other relevant interested parties, to understand and respect their needs and support them so as to deliver commitments.
- Use the collective influence of the First Choice Group responsibly to create momentum within the leisure travel industry for increasingly sustainable tourism.
- Be open, honest and realistic about our environmental and social impacts, targets and achievements in the context of our business objectives.

In support of the above we will work to:

- Engage First Choice employees and gain their commitment to action, by raising awareness of this Policy and increasing their understanding of sustainable development and the benefits of addressing it.
- Prevent pollution wherever possible and continually improve our environmental performance by setting and measuring objectives and targets which address our environmental impacts – principally aircraft noise and emissions, waste, procurement, use of energy, paper and water.
- Promote fair working conditions throughout our own business and our supply chain.
- Comply with all relevant legislation, acting in advance where possible and keep pace with best practice.
- Report current business practices and ensure plans are in place to embed the Company's sustainable development vision.
- Deliver long-term strategic benefit and shareholder value by maximising the synergies that sustainable development provides.

Management of sustainable development
In the past year Dermot Blastland has attended residential training at the Prince of Wales International Business Leaders' Forum and, in the coming year, three additional senior executives will attend Forum for the Future's Sustainability Masterclass with Jonathon Porritt (founder director of Forum for the Future). During the year management teams in each Sector have held sessions to discuss sustainable development, associated risks and

12%

increase in score in Environment section of BITC Corporate *Responsibility Survey*

100%

of Mainstream Board have at least one personal objective relating to sustainable development

opportunities, their effects in the relevant Sector and to set strategies for progressing action to mitigate these risks and capitalise on the opportunities.

For the first time each member of the Mainstream Sector Board has accepted at least one personal objective for the financial year relating to sustainable development. This will continue into 2006/07 and will be further rolled out across the Group.

Social, environmental and ethical risks are managed through the Group risk management approach. These risks are considered at Sector and Group Risk Management Committees which meet every six months. Each Sector has its own risk register to help manage non-financial risks and these feed into the central Group Risk Register which is reviewed by the Group Risk Management Committee. The Group Risk Management Committee reports through the Audit Committee to the Board. In addition, social and environmental issues are included in the Health, Safety and Environment monthly report made by the Director of Legal Affairs and Company Secretary to the Group Management Board (GMB).

Understanding the business case for sustainable development
We commissioned Forum for the Future to undertake research into the ways in which sustainable development issues impact on our business strategy. In addition to desk research, members of the GMB and their management teams were interviewed and the results were presented to the GMB in July. Climate change, protection of natural resources (such as water), relationships with destination communities and changing consumer trends were identified as key issues and these will be reflected in our sustainable development strategy for 2006/07.

Stakeholder engagement and reporting
We updated our first Environment & People Report in April – this can be found on our dedicated website www.fcenvironmentandpeople.com. This Report is now complete for the year 2004/05 and will be re-published in April 2007 to reflect the Company's performance for the year 2005/06. The Report includes a commitment to continue to develop a consistent approach to sustainable development across the Group, including a set of Group-wide key performance indicators (KPIs) – KPIs already exist for environmental and employee issues in the Mainstream Holidays Sector and performance against these is reported. We will continue to develop KPIs in line with the Global Reporting Initiative where relevant and possible. Forum for the Future reviews our Report and their statement can be found within the Report.

In January 2006 we held our first Stakeholder Forum attended by Dermot Blastland and representatives of our institutional investors, non-governmental organisations, suppliers, Government and employees. This was an opportunity to gather feedback on our performance to date and to identify KPIs of interest to our stakeholders. Throughout the year we have engaged in additional forums held by The Travel Foundation and The Tour Operators' Initiative – organisations which we actively continue to support.

Training in sustainable development
Sustainable development has been integrated into development initiatives for our future leaders. In addition, the Mainstream Holidays Sector has taken the lead in piloting sustainability employee training programmes specific to job functions – in partnership with The Travel Foundation – and these will be rolled out across other Group Sectors.

External benchmarking
During the year we completed the full Business in the Community Corporate Responsibility Survey for the first time and achieved an overall score of 71% – our score on the Environment section continued to rise year-on-year to 77% (2005: 69%). We also continue to be included in the FTSE4Good Index, the ethical investment index run by FTSE which is designed to measure the performance of companies which meet globally-recognised corporate responsibility standards.

Environmental management system
Our established environmental workstreams have continued to make improvements to the way in which we manage our significant environmental impacts in line with ISO 14001. Objectives, targets and performance data are published for two consecutive financial years on www.fcenvironmentandpeople.com. The data we submit to Business in the Environment Survey is independently audited and verified by Bureau Veritas.

Supplier sustainability strategy
We have been working closely with the Federation of Tour Operators to develop a sustainability handbook and checklist for suppliers, primarily accommodation suppliers. This is now complete and we have appointed a consultant to work with our in-house auditors to benchmark the 150 hotels most used by the First Choice Mainstream Sector. We will work with suppliers to encourage continual improvement in environmental and employee management and local community support.

PRINCIPAL RISKS AND UNCERTAINTIES
The Board of First Choice believes that there are a number of potential risks and uncertainties within the Group which could have an impact on the successful growth of the business. The process for identifying and managing risk is set out in more detail in the Corporate Governance and Risk Management sections. The key risks are identified below:

Geo-political events and natural disasters
The nature of our business means that we are at risk of geo-political events or natural disasters affecting our business. It is for this reason that we ensure all our businesses operate with a flexible and efficient business model and minimise the reliance on any one destination.

Commercial relationships
We have well established and close relationships with our suppliers across the Group. We spread our risk by not placing over-reliance on any one supplier in any particular area. However, if a relationship was lost or damaged with a major supplier this could have a detrimental effect on our business. The management teams across the Group meet regularly with our suppliers to maintain good working relationships.

Information technology
The Group is heavily reliant upon information technology with each Sector responsible for its own systems. Investment is being made to ensure that we have advanced and efficient systems across the Group but there is a risk to Sectors if there is a major failure particularly if it affects selling systems. Procedures are in place to minimise the time a selling system is unavailable in the event of such a failure.

Business continuity
The development of the Group, through acquisition, has meant that business continuity plans across the Group are not consistent. Work is currently being undertaken to ensure that these are in place.

Financial risk
Group Finance and Treasury are managed centrally supporting the operating activities of the Group and our exposure to changes in the price of fuel and foreign exchange movements. These departments identify, monitor and manage the financial risks to the business.

Environmental risk
As a tour operator we use aircraft to take people on holidays sometimes to countries where tourism is just developing. We do have an impact on the environment and take our corporate and social responsibilities very seriously at every level. We operate a modern efficient airline and work with the authorities and suppliers in the destinations we serve to ensure that any local environmental impact is minimised in the best interest of the indigenous population.

Acquisitions
As an acquisitive company, we are at risk of an acquisition not performing as anticipated. We have a dedicated corporate finance function and extensive due diligence is undertaken before acquisition. Once acquired, the acquisition target either becomes part of a Sector where it will benefit from being guided by specialists in its market niche or, if it is a large acquisition or in a segment new to the Group, it will report to the central team during an "incubator" phase prior to joining an existing, or forming a new, Sector.

KEY PERFORMANCE INDICATORS
The key performance indicators used by the Group and the Sectors are mentioned in the relevant sections of the Business and Financial Review on pages 4 to 21.

TRENDS
The Group is encouraged by the demand it sees across its businesses for differentiated, specialist leisure travel experiences. In adventure travel we are seeing more and more families wanting to go on holidays which just a few years ago would have been taken by adults only. For our North American customers, expeditions and escorted tours are extremely popular with those who are either time poor or want to visit interesting places without having to arrange anything themselves. Student travel and the traditional graduate Spring Break is an institution in North America but, just as their parents expect more from their vacations, so do the students and successful operators are offering more sophisticated breaks. Similarly, demand is driving an increase in the range and quality of educational tours. Independent travel is growing, particularly across Europe, and we will see an increased need for reliable, well managed online accommodation booking sites. In countries like China, travel outside the country, particularly to other areas of the Asia Pacific region, is becoming increasingly common.

We believe that in the UK, the short-haul mainstream tour operating market will continue to be adversely affected by the continued growth of low-cost airlines which will increasingly serve traditional holiday destinations particularly where they have become popular second home locations. The need for differentiated, exclusive product in this market is key.

Staff at our Holiday Village in Turkey have had training in protecting the nesting sites of turtles.

Spring Break is an institution in North America and our StudentCity representatives ensure our customers enjoy it to the full.

Medium-haul and long-haul destinations will continue to grow but just as customers expect a good value, quality product from short-haul operators, they expect the same in medium and long-haul destinations. Only the most operationally efficient companies will be able to increase margins in this market.

CURRENT TRADING

Winter 2006/07

In the Mainstream Holidays Sector, the UK market continues to remain challenging, as reported at the pre-close trading update on 25 October 2006. The October AC Nielsen Travel Track report identifies total market volumes for the Winter season cumulatively down by 11% and total sales cumulatively down by 9%. Despite the trading environment, Mainstream Holidays Sector volumes are down 1% with sales up 15% due to the continued successful re-mix to the long-haul. This reflects an improvement on Winter trading since the October trading update due to continued strong demand for our long-haul products with volumes up 26% and sales up 40% on capacity that is up around 25%. The AC Nielsen report clearly highlights continuing outperformance by Mainstream versus the competition, but we still expect the rate of sale to slow down as we move into the period in which the largest number of short-haul and medium-haul holidays are sold.

We anticipated that weaker market demand would continue into early Winter trading particularly in the short and medium-haul, and we have, therefore, reduced capacity in these segments by around 10% for Winter 2006/07, with overall capacity flat year-on-year. As disclosed in the October trading update, we expect the Sector to experience margin pressure in the first half of the year due to incremental fuel costs not being fully recovered in the Winter lates market and further investment in our long-haul programme with two additional 767s joining the fleet for operation in Summer 2007.

In the Specialist Holidays Sector, despite market conditions remaining challenging to a number of destinations, trading performance has improved since the October trading update with an improvement in bookings in the European markets as we enter the core booking period. Our North American businesses continue to trade well with revenue per passenger ahead of last year and margins ahead in Student Travel.

Our Activity Holidays Sector is performing strongly with sales 7% ahead. Like-for-like sales across our Adventure businesses are up 5%, while the Marine businesses continue to generate strong revenue growth of 7%.

Online Destination Services are trading well with strong volumes and prices across all routes to market.

Summer 2007

It remains very early in the booking cycle for Summer 2007 across all businesses within the Group, but we are encouraged by performance to date. In the Mainstream Holidays Sector, the market is still suffering from the events of the previous Summer, particularly the thwarted terrorist attacks in August and as a result the October AC Nielsen Travel Track report identifies total market volumes for the Summer season cumulatively down by 14% and revenue down by 11%. We continue to outperform the market and we are currently 13% down on customer volumes which has improved from 18% down six weeks ago and 5% down on sales. Demand for our long-haul product and exclusive differentiated properties continues to drive increases in both sales and volumes, up 17% and 10% respectively. We have reduced capacity for short-haul and medium-haul programmes in line with anticipated demand, with overall capacity remaining flat year-on-year. Our Activity Holidays Sector and Online Destination Services Sector continue to see strong volumes and prices for the Summer season. The Specialist Holidays Sector programme has yet to go on sale.

OUTLOOK

As we enter the key booking periods for both Winter and Summer 2007 holidays, it is clear that our portfolio of businesses continues to outperform the market.

Our business model is constantly evolving to ensure that we maintain flexibility and continue to offer our customers the range of differentiated and exclusive leisure travel experiences they desire.

We are confident that our combination of organic and acquisition led growth will continue to generate superior returns and enhance shareholder value, as the platform we have established delivers sustainable long-term growth.

The financial statements were approved by the Board of Directors on 6 December 2006 and were signed on its behalf by:

Peter Long
Chief Executive

Paul Bowtell
Group Finance Director

CONSOLIDATED STATEMENT OF CASH FLOWS
FOR THE YEAR ENDED 31 OCTOBER 2006

	Note	Year 31 October 2006 £m	Year 31 October 2005 £m
Profit for the year		72.3	80.3
Adjustment for:			
Depreciation and amortisation		56.2	43.2
Equity-settled share-based payment expenses		6.1	3.3
Gain on sale of property, plant and equipment		(0.9)	(0.4)
Income from joint venture and associate		(2.8)	(1.9)
Impairment of goodwill		1.4	–
Loss on foreign exchange		0.2	–
Financial income		(8.9)	(7.7)
Financial expense		27.1	12.9
Income tax expense		25.2	31.9
Operating profit before changes in working capital and provisions		175.9	161.6
Increase in trade and other receivables		(60.9)	(41.0)
Increase in trade and other payables		12.3	27.9
(Decrease)/increase in provisions and employee benefits		(8.0)	9.4
Cash flows from operations		119.3	157.9
Interest paid		(22.6)	(7.0)
Interest received		5.1	3.4
Income taxes paid		(14.4)	(32.5)
Cash flows from operating activities		87.4	121.8
Investing activities			
Proceeds from sale of property, plant and equipment		20.3	11.1
Proceeds from sale of investments		0.1	0.1
Dividends received from associate		0.5	0.3
Acquisition of subsidiaries, net of cash acquired	13(b)	(108.1)	(33.1)
Acquisition of property, plant and equipment		(59.6)	(65.8)
Cash flows from investing activities		(146.8)	(87.4)
Financing activities			
Proceeds from the issue of share capital		0.2	1.4
Proceeds from new loans		213.2	30.9
Repayment of borrowings		(26.8)	(7.9)
Payment of finance lease liabilities		(17.7)	(7.2)
Ordinary and minority interest dividends paid		(34.7)	(28.7)
Preference dividends paid		–	(11.0)
Redemption of preference shares		–	(199.5)
Cash flows from financing activities		134.2	(222.0)
Net increase/(decrease) in cash and cash equivalents		74.8	(187.6)
Cash and cash equivalents at start of year		105.4	292.2
Effect of foreign exchange on cash held		(2.7)	0.8
Cash and cash equivalents at end of year		177.5	105.4
Cash and cash equivalents for the cash flow statement comprise:			
Cash and cash equivalents shown on the balance sheet	17	177.5	125.3
Overdraft bank accounts shown in interest bearing liabilities		–	(19.9)
Cash and cash equivalents for the cash flow statement		177.5	105.4

CONSOLIDATED STATEMENT OF RECOGNISED INCOME AND EXPENSE
FOR THE YEAR ENDED 31 OCTOBER 2006

	Note	Year 31 October 2006 £m	Year 31 October 2005 £m
Foreign exchange translation		(3.7)	(2.1)
Actuarial gains/(losses) arising in respect of defined benefit pension schemes	5	4.0	(8.0)
Tax on items taken directly to equity	7	21.6	5.2
Cash flow hedges:			
– movement in fair value	25(j)	(55.1)	–
– amounts recycled to the income statement	25(j)	(5.1)	–
Net expense recognised directly in equity		(38.3)	(4.9)

First-time adoption of IAS 32 and 39	33		
Hedging reserve		4.4	
Retained earnings		(4.7)	
		(0.3)	

1. Accounting policies
First Choice Holidays PLC is a company incorporated in England and Wales. The Group financial statements consolidate those of the Company and its subsidiaries (together referred to as "the Group") and equity account the Group's interest in joint ventures and associates. The parent company financial statements present information about the Company as a separate entity and not about the Group.

(A) Basis of preparation
The consolidated financial statements have been prepared and approved by the Directors in accordance with International *Financial Reporting Standards as adopted by the European Union* (Adopted IFRSs). The Company has elected to prepare its parent company financial statements in accordance with UK GAAP. These are presented separately on pages 75 to 79. The financial statements are presented in the Group's functional currency of Sterling, rounded to the nearest hundred thousand.

The Group believes that underlying operating profit, underlying profit before tax and underlying earnings per share provide additional guidance to statutory measures on the underlying performance of the business during the financial year.

The term underlying is not defined under International Financial Reporting Standards. It is a measure that is used by management to assess the underlying performance of the business internally and is not intended to be a substitute measure for Adopted IFRSs GAAP measures.

The Group defines these underlying measures as follows:

- Underlying operating profit is profit before financial income and expense, taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill.
- Underlying profit before tax is profit before taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill.
- Underlying profit after tax is profit before separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill (all net of tax).
- Underlying earnings are underlying profit after tax less minority interests and preference dividends.
- *Underlying earnings per share is underlying earnings divided by* the weighted average number of ordinary shares in issue during the financial period, excluding those held by employee share ownership trusts.

It should be noted that the definitions of underlying items being used in these financial statements are those used by the Group and may not be comparable with the term "underlying" as defined by other companies within both the same sector or elsewhere.

The presentation of revenue and cost of sales has been revised to more accurately reflect the nature of the activities undertaken in the Online Destination Services Sector, where the Sector acts as an intermediary between service provider and end customer. This change has reduced the previously reported comparative ODS revenue and cost of sales figures by £137.0m each. Revenue in note 2 is presented on this revised basis. This basis has been used for the years ended 31 October 2006 and 2005. However the prior years 2002, 2003 and 2004 have not been restated.

(B) Transition to Adopted IFRSs
The Group is preparing its financial information in accordance with Adopted IFRSs for the first time and consequently has applied IFRS 1: "First-time adoption of International Financial Reporting Standards".

The preparation of the consolidated financial statements in accordance with Adopted IFRSs resulted in changes to the accounting policies as compared with the 2005 annual financial statements prepared under UK GAAP. With the exception of accounting policies in respect of financial instruments, the accounting policies set out below have been applied consistently *to all years presented in these consolidated financial statements.* They have also been applied in preparing an opening Adopted IFRSs balance sheet at 1 November 2004 for the purposes of the transition to IFRS, as required by IFRS 1. The impact of the transition from previous UK GAAP to Adopted IFRSs is explained in note 33.

The consolidated financial statements are prepared on the historical cost basis other than, from 1 November 2005, derivative financial instruments, financial instruments held for trading and financial instruments classified as available for sale, which are stated at their fair value. Non-current assets held for sale are stated at the lower of their carrying amount and fair value less costs to sell.

The Group has adopted the transitional rules of IFRS 1 and has therefore adopted IAS 32: Financial Instruments "Disclosures and Presentation" and IAS 39: Financial Instruments "Recognition and Measurement" and IFRS 7 "Financial Instruments" with effect from 1 November 2005. In the comparative financial year the previous UK GAAP accounting policy has been applied. A reconciliation *showing the impact of the adoption of these standards from* 1 November 2005 is provided in note 33 and further details of the change in accounting policy are provided in (E). The Group has early adopted IFRS 7 in the year ending 31 October 2006 which replaces the disclosure requirements of IAS 32.

In addition, IFRS 1 grants certain exemptions from the full requirements of other Adopted IFRSs on transition. The following exemptions permitted under IFRS 1 have been taken in these Group financial statements:

(i) Business combinations
Business combinations that took place prior to 1 November 2004 have not been restated.

(ii) Foreign exchange
Cumulative translation differences for all foreign operations have been set at zero at 1 November 2004.

(iii) Share-based payments
IFRS 2: "Share-based payments" has only been applied in respect of share options issued after 7 November 2002.

(C) Basis of consolidation
The consolidated financial statements of the Group comprise the Company and its subsidiaries (together referred to as the Group) and the Group's interest in associates and jointly controlled entities.

(i) Subsidiaries
Subsidiaries are entities controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial information from the date that control commences until the date that control ceases.

1. Accounting policies continued

(ii) Joint ventures and associates
Joint ventures are jointly controlled entities over whose activities the Group has the power to jointly control, established by contractual agreement.

Associates are those entities in which the Group has the ability to exercise significant influence, but not control, over the financial and operating policies.

The consolidated financial statements includes the Group's share of the total recognised income and expense of joint ventures and associates on an equity accounted basis, from the date that joint control or significant influence respectively commences until the date that it ceases. When the Group's share of losses exceeds the carrying amount of the joint venture or associate, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture or associate.

(iii) Transactions eliminated on consolidation
Intra-group balances and any unrealised gains or income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with associates and jointly controlled entities are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(D) Foreign currency
(i) Foreign currency transactions
Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Sterling at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to Sterling at foreign exchange rates ruling at the dates the fair values were determined.

(ii) Foreign operations
The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on consolidation, are translated to Sterling at the foreign exchange rates ruling at the balance sheet date.

The revenues and expenses of overseas operations are translated at rates approximating to the foreign exchange rates ruling at the dates of the transactions. Foreign exchange differences arising on retranslation are recognised directly in equity in a foreign exchange reserve.

(iii) Net investment in foreign operations
Exchange differences arising from the translation of the net investment in foreign operations and of related hedges are taken to the foreign exchange reserve. They are released into the income statement upon disposal.

(E) Derivative financial instruments
The Group uses derivative financial instruments to hedge its exposure to foreign exchange, interest rate and fuel price risks arising from operational, financing and investment activities.

In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments from 1 November 2005.

As set out in (B), the Group has adopted IAS 32 and IAS 39 only with effect from 1 November 2005:

(i) Accounting policy up to 1 November 2005
Instruments accounted for as hedges were designated as a hedge at the inception of the contracts. Gains and losses arising on foreign currency and fuel hedges were recognised on maturity of the underlying transaction. Interest differentials on derivative instruments and amounts receivable and payable on interest rate instruments were recognised as adjustments to interest over the period of the contracts. Gains and losses arising on hedging instruments which are cancelled due to the termination of the underlying exposure were taken to the profit and loss account immediately.

(ii) Accounting policy from 1 November 2005
Derivative financial instruments are stated at fair value. The gain or loss on re-measurement to fair value is recognised immediately in the income statement. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged (see accounting policy (F)).

The fair value of interest rate swaps is the estimated amount that the Group would receive or pay to terminate the swap at the balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparties. The fair value of forward exchange contracts and fuel price contracts is their quoted market price at the balance sheet date, being the present value of the quoted forward price.

(F) Hedge accounting
The following accounting policy has been applied with effect from 1 November 2005. Prior to this date, the accounting policy for the period up to 1 November 2005, set out in (E), was followed.

(i) Cash flow hedges
Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probably forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in the hedging reserve. Any ineffective portion of the hedge is recognised immediately in the income statement.

When the forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated cumulative gain or loss is removed from the hedging reserve and is included in the initial cost or other carrying amount of the non-financial asset or liability.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains and losses that were recognised directly in equity are reclassified into the income statement in the same period or periods during which the asset acquired or liability assumed affects profit or loss.

1. Accounting policies continued

For cash flow hedges, other than those covered by the preceding two policy statements, the associated cumulative gain or loss is removed from equity and recognised in the income statement in the same period or periods during which the hedged forecast transaction affects the income statement.

Prospective hedge effectiveness is performed at the commencement of hedge accounting through comparison of the critical terms of the hedged forecast transaction and the hedging instrument. Critical terms are the maturity, amount and currency of the cash flows relating to the hedging instrument and the forecast hedged transaction. Retrospective hedge effectiveness is performed at each reporting date principally using a dollar offset analysis, comparing the cumulative changes in the fair values of the forecast hedged transaction and the hedging instrument.

When a hedging instrument expires or is sold, terminated or exercised, or the entity revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity and is recognised in accordance with the above policy when the transaction occurs. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss recognised in equity is recognised in the income statement immediately.

(ii) Fair value hedges
Where a derivative financial instrument is designated as a hedge of the variability in fair value of a recognised asset or liability or an unrecognised firm commitment, all changes in the fair value of the derivative are recognised immediately in the income statement. The carrying value of the hedged item is adjusted by the change in fair value that is attributable to the risk being hedged (even if it is normally carried at cost or amortised cost) and any gains or losses on re-measurement are recognised immediately in the income statement (even if those gains would normally be recognised directly in reserves).

(G) Revenue
Revenue represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business. Revenue excludes intra-group transactions and is stated after the deduction of trade discounts and commissions.

(i) Goods sold and services rendered
Revenue from sale of goods is recognised in the income statement when the significant risks and rewards or ownership have been transferred to the buyer. Revenue in respect of in-house product is recognised on the date of departure. Travel agency commissions and other revenues received from the sale of third-party product are recognised when they are earned on receipt of final payment.

No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, associated costs or possible return of goods.

(ii) Client monies received in advance (deferred income)
Client monies received at the balance sheet date relating to holidays commencing and flights departing after the year end is deferred and included within trade and other payables.

(iii) Valuation of revenue
Where the Group acts as principal, revenue is stated at the contractual value of goods and services provided, net of variable distribution costs such as agents' commissions and "click costs".

Where the Group acts as agent and collects amounts on behalf of the principal provider of goods or services, revenue is stated at the value of the commissions earned and not the total transaction sales value.

Where the Group acts as intermediary between the service provider and the end customer, revenue is presented on a net basis as the difference between the sales price to the customer and the cost of the services purchased. Businesses are identified as intermediaries dependent on: the control exercised over the provision of service: inventory risk; and customer credit risk.

(H) Expenses
(i) Operating lease payments
Payments made under operating leases are recognised in the income statement on a straight-line basis over the term of the lease or on another systematic basis if this is more representative of the time pattern of the benefit from use of the leased asset. Lease incentives received are recognised in the income statement as an integral part of the total lease expense over the term of the lease.

(ii) Finance lease payments
Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

(iii) Marketing and other direct sales costs
Marketing, advertising and other promotional costs, including those related to the production of brochures, are expensed as incurred.

(I) Taxation
Income tax on profit or loss comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

(i) Current tax
Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

(ii) Deferred tax
Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax asset provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

1. Accounting policies continued

(iii) A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(J) Property, plant and equipment

(i) Owned assets

Items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Where significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

(ii) Leased assets

Leases in which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Leased assets acquired by way of a finance lease are stated at an amount equal to the lower of their fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Lease payments are accounted for as set out in (H) above.

(iii) Depreciation

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Freehold land is not depreciated. The useful economic lives are as follows:

Freehold properties	–	50 years
Short leasehold properties	–	Lease period or useful economic life if shorter
Finance lease aircraft and equipment	–	Lease period or useful economic life if shorter
Aircraft spares	–	12 years
Yachts	–	15 years
Motor boats	–	24 years
Retail computer equipment	–	5 years
Computer equipment	–	3 – 5 years
Retail fixtures and fittings	–	8 years
Other assets	–	4 years

The residual values and useful lives of all assets are re-assessed annually.

(K) Intangible assets

(i) Owned assets

All business combinations are accounted for by applying the purchase method.

Goodwill represents amounts arising on acquisition of subsidiaries, associates and jointly controlled entities. In respect of business acquisitions that have occurred since 1 November 2004, goodwill represents the difference between the fair value of consideration paid and the fair value of the net identifiable assets and contingent liabilities acquired. Identifiable intangibles are those which can be sold separately or which arise from legal rights regardless of whether those rights are separable. Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is not amortised but is tested annually for impairment. In respect of joint ventures and associates, the carrying amount of goodwill is included in the carrying amount of the investment in the associate.

In respect of acquisitions prior to 1 November 2004, goodwill is included at 1 November 2004 on the basis of its deemed cost, which represents the amount recorded under UK GAAP which was broadly comparable save that only separable intangibles were recognised and goodwill was amortised. Amortisation of goodwill ceased on 1 November 2004. This goodwill is tested annually for impairment.

Purchased goodwill in respect of acquisitions before 1 January 1998 was written off to reserves in the year of acquisition, in accordance with the accounting standard then in force.

Fair value adjustments are made in respect of acquisitions. If at the balance sheet date, the amounts of fair values of the acquiree's identifiable assets and liabilities can only be established provisionally, then these values are used. Any adjustments to these values are taken as adjustments to goodwill and must be recorded within 12 months of the acquisition.

Negative goodwill arising on an acquisition is recognised in the income statement.

(ii) Computer software

Computer software consists of all software that is not an integral part of the related computer hardware and is stated at cost less accumulated amortisation and impairment losses.

(iii) Other intangible assets

Other intangible assets that are acquired by the Group are stated at cost less accumulated amortisation and impairment losses.

(iv) Amortisation

Amortisation is charged to the income statement on a straight-line basis over the estimated useful economic life of each type of intangible asset as follows:

Computer software	–	3 – 5 years
Brands	–	10 years
Order book at date of acquisition	–	When travel occurs
Customer databases	–	Over the period to which value will be obtained by the Group (up to 3 years)

Goodwill is not amortised but is systematically tested for impairment at each balance sheet date.

(L) Investments

Trade investments are classified as available for sale assets and are included under non-current assets. They are recorded at market value with movements in value taken to equity. Any impairment to value is recorded in the income statement.

Short-term investments in debt and equity securities which are held for trading are classified as current assets and are stated at fair value, with any resultant gain or loss recognised in the income statement.

(M) Impairments

The carrying amount of the Group's assets, other than deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such an indication exists, the assets recoverable amount is estimated. For goodwill, the recoverable amount is estimated at each balance sheet date.

1. Accounting policies continued

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised separately in the income statement. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of goodwill allocated to cash-generating units and then to reduce the carrying amount of other assets in the unit on a pro rata basis. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. Goodwill was tested for impairment as at 1 November 2004, the date of transition to Adopted IFRSs, even though no indication of impairment existed.

The recoverable amount of the Group's receivables which are carried at amortised cost is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets). Receivables with a short duration are not discounted. The recoverable amount of other assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed when there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount.

(N) Cash and cash equivalents
Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose only of the statement of cash flows.

(O) Interest-bearing borrowings
Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any differences between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest rate basis.

(P) Provisions
A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

In respect of aircraft, due to the legal obligations placed upon the Group under the terms of certain operating leases, provision is made for the maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares. The provision is based on total anticipated costs over the useful economic life of the asset calculated by reference to costs experienced and published manufacturers data. The charge to the income statement is calculated by reference to the number of hours and cycles flown and by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised and depreciated over the period until the next scheduled major overhaul.

(Q) Other financial assets and other financial liabilities
Trade and other receivables are stated at their nominal amount (discounted if material) less impairments.

Trade and other payables are stated at cost.

(R) Dividends
Dividend distribution to the Company's shareholders is recognised as a liability in the Group's financial statements in the period in which the dividends are appropriately authorised and approved for payment and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

(S) Employee benefits
(i) Defined contribution plans
Obligations for contributions to defined contribution pension plans are recognised as an expense in the income statement as incurred.

(ii) Defined benefit plans
The Group's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The calculation is performed by a qualified actuary using the projected unit credit method.

When the benefits of a plan are improved, the portion of the increased benefit relating to past services by employees is recognised as an expense in the income statement on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the income statement.

All actuarial gains and losses at 1 November 2004, the date of transition to IFRS, were recognised. The Group has early adopted the amendments to IAS 19, "Employee Benefits". Consequently, all actuarial gains and losses since 1 November 2004 are recognised in the period they occur directly in equity through the statement of recognised income and expense.

Pension liabilities are funded by monthly or annual contributions.

1. Accounting policies continued

(iii) Share-based payment transactions
The Group's share option programmes allow Group employees to acquire shares of the ultimate parent company; these awards are granted by the ultimate parent. The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employee becomes entitled to the options.

The fair value of the options granted is measured using option valuation models, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest except where forfeiture is due only to market-based performance conditions not achieving the threshold for vesting.

This accounting policy relates only to share options issued post 7 November 2002, in line with the transitions rules of IFRS 2.

(iv) Own shares held by an ESOP trust
Transactions of the Group sponsored ESOP trust are included in the Group financial statements. In particular, the trust's purchase of shares in the Company are debited directly in equity to retained earnings.

(T) Non-current assets held for sale and discontinued operations
A non-current asset or a group of assets containing a non-current asset is classified as held for sale if its carrying amount will be recovered principally through sale rather than through continuing use, it is available for immediate sale and sale is highly probable within one year.

On initial classification as held for sale, non-current assets and disposal groups are measured at the lower of previous carrying amount and fair value less costs to sell with any adjustments taken to profit or loss. The same applies to gains and losses on subsequent re-measurement.

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations or is a subsidiary acquired exclusively with a view to resale, that has been disposed of, has been abandoned or that meets the criteria to be classified as held for sale.

(U) Related parties
For the purpose of these financial statements, parties are considered to be related to the Group if the Group has the ability directly or indirectly, to control the party or exercise significant influence over the party making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

(V) Segment reporting
A segment is a distinguishable component of the Group that is engaged either in providing services (business segment) or in providing services within a particular economic environment (geographic segment) which is subject to risks and rewards that are different from those of other segments.

(W) IFRS not yet adopted
The Company has not adopted amendments to IAS 39 and IFRS 4 in relation to financial guarantee contracts which will apply for periods commencing on or after 1 January 2006. Where the Company enters into financial guarantee contracts to guarantee the indebtedness of other companies within its group, the Company considers these to be insurance arrangements and accounts for them as such. In this respect, the Company treats the guarantee contract as a contingent liability until such time as it becomes probably that the Company will be required to make a payment under the guarantee. The Company does not expect the amendments to have any impact on the financial statements for the period commencing 1 November 2006.

IFRIC 4 "Determining whether an Arrangement contains a Lease" requires that an entity should base its assessment of whether an arrangement is, or contains, a lease on its substance rather than its legal form. IFRIC 4 will be effective for the Group for the first time in the year ended 31 October 2007. To date a preliminary assessment has been undertaken. The new guidance is likely to require additional disclosures for arrangements that are, in substance, similar to leases, including certain yacht investor schemes. However, the basis of measurement of these schemes is not expected to change and no affect is expected in the income statement or balance sheet.

2. Segmental Information

Segmental information is presented in the primary format by the Group's business sectors and, in the secondary format, analysed by geography. Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items include financial income, financial expense and corporate assets and liabilities.

(A) Sector analysis

The Sector analysis is based on the Group's management and reporting structure. A detailed explanation of each sector is included in the Business and Financial Review.

(B) Geographical analysis of business

In presenting information on the basis of secondary geographic segments, segment revenue is based on the geographic location of the customer that generated that revenue. Segment assets and capital expenditure is based on the geographical location of the assets. Other Europe is defined as Continental Europe and Eire excluding France, whilst America includes North and South America and Canada.

	UK		France		Other Europe		America		Rest of the World		Total	
	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m
Revenue from external customers	1,493.7	1,463.3	318.2	310.7	435.8	390.1	416.7	255.7	50.9	21.8	2,715.3	2,441.6

Amortisation of business combination intangibles disclosed relates to the amortisation of intangible assets arising on acquisition of companies since 1 November 2004.

3. Separately disclosed items

	2006 £m	2005 £m
Reorganisation of back office functions	3.2	–
Business restructuring costs	10.6	–
Other items	(8.0)	–
	5.8	–

Reorganisation of back office functions
Following a strategic review of the Group's UK Mainstream operations, a decision has been made to outsource certain back office functions. This outsourcing is planned to commence in the first half of financial year 2007. The separately disclosed items incurred for this in 2006 of £3.2m relate to set up costs for the outsourced operations and provision for redundancy costs associated with the relocation.

Business restructuring costs
In line with the Group's strategy of remaining cost competitive, during the year a comprehensive review of under performing businesses was performed. This review has resulted in the closure of the Marmara Portugal operation and restructuring of other business units. Costs of £10.6m have been incurred, principally in relation to redundancy and other closure costs associated with the restructuring activities in the Specialist, Activity and Mainstream sectors.

Other items
There have been a number of favourable developments and outcomes in respect of certain commercial transactions and legal settlements in the year. In addition, management has undertaken a review of other accruals. Whilst none of these items are individually significant, it is considered appropriate to separately disclose the aggregate of £8.0m.

4. Net financing expenses

Financial income	2006 £m	2005 £m
Bank interest receivable	5.0	4.7
Interest on pension scheme assets	3.9	3.0
	8.9	7.7

Interest on pension scheme liabilities	(4.5)	(3.8)
Finance lease charges on leases	(1.1)	(1.8)
	(27.1)	(12.9)
Net financing expenses	(18.2)	(5.2)

5. Employees

(A) Average number of employees by sector	2006 Total	2005 Total
Mainstream Holidays	7,618	8,035
Specialist Holidays	2,914	2,983
Activity Holidays	3,282	2,340
Online Destination Services	1,504	1,193
	15,318	14,551

(B) Staff costs	2006 Total	2005 Total
Wages and salaries	256.3	252.2
Social security costs	32.7	30.2
Pension costs	12.2	12.2
	301.2	294.6

Details of the emoluments of Directors (including details of share options, long-term incentive scheme interests and pension entitlements) are set out in the Report of the Board to Shareholders on Directors' Remuneration on pages 85 to 91.

(C) Pension costs

The Group operates pension schemes for employees eligible and wishing to participate in the schemes. The assets of all the schemes are held separately from the assets of the Group.

Funded defined contribution schemes for employees and Directors (Group schemes)

Pension costs of £8.6m (2005: £8.8m) relating to defined contribution schemes were charged to the income statement.

Funded defined benefit schemes

The Group sponsors three defined benefit schemes, the Air 2000 Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme and the Emerald Star Line scheme. The contributions required are determined by a qualified actuary on the basis of triennial valuations using the projected unit method.

All three defined benefit schemes are closed to new entrants and under the projected unit method, the service cost as a percentage of pensionable payroll will increase as the members of the scheme approach retirement.

Valuations of the schemes are made by qualified actuaries using market based valuations for the assets and attained age method for the liabilities. The Group recognises all actual gains or losses in the consolidated statement of recognised income and expense.

5. Employees *continued*

Air 2000 scheme
The last full actuarial valuation of the scheme was carried out by a qualified independent actuary as at 1 November 2003 and this has been updated on an approximate basis to 31 October 2006 for these financial statements.

In the last full actuarial valuation, the principal valuation assumptions used were rates of investment return of 7.25% per annum compound (pre-retirement) and 5.5% per annum compound (post-retirement) and a rate of salary increase of 4.75% per annum compound. The market value of the scheme's assets as 1 November 2003 was £18.5m, representing 59% of the benefits that had accrued to members after allowing for expected future increases in earnings.

The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contributions from 1 June 2004 onwards are 34.2% of contribution salaries for Flight Deck staff and 30.1% for Ground and Administrative staff. From 1 June 2004 to 31 March 2005 Flight Deck staff have a contribution rate of 7%, from 1 April 2005 to 31 December 2005 8% and from 1 January 2006 onwards 10%. From 1 June 2004 to 31 March 2005 Ground and Administrative staff have a contribution rate of 5%, from 1 April 2005 to 31 March 2006 6% and from 1 April 2006 onwards 7%.

The signed Schedule of Contributions dated 30 March 2006 stated that the Group's contributions from 1 April 2006 onwards would be 34.2% for Flight Deck staff and 30.1% for Ground and Administrative staff for members not participating in the salary sacrifice of member contributions. If members participate in salary sacrifice then the Group's contributions will be 44.2% for Flight Deck staff and 37.1% for Ground and Administrative staff.

From 1 April 2006, Flight Deck staff will have a contribution rate of 10% and Ground and Administrative staff will have a contribution rate of 7.1%. If members participate in the salary sacrifice of member contributions their contribution rate will be 0%.

In addition, special employer contributions have been paid on 1 June 2006 of £3.5m. Further special employer contributions are payable as follows: £3.4m no later than 1 June 2007 and £0.9m each no later than 1 June 2008, 2009 and 2010 respectively.

The next valuation will be performed and reflected in the accounts for the year ending 31 October 2007.

Unijet scheme
The last full actuarial valuation of the scheme was carried out by a qualified independent actuary as at 1 November 2003 and this has been updated on an approximate basis to 31 October 2006 for these financial statements.

In the last full actuarial valuation, the principal valuation assumptions used were the rates of investment return of 7.25% per annum compound (pre-retirement) 5.5% per annum compound (post-retirement) and a rate of salary increase of 4.75% per annum compound. The market value of the scheme's assets at the date of the last actuarial valuation was £12.3m, representing 61% of the benefits that had accrued to members after allowing for expected future increases in earnings. The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contribution rate from 1 November 2004 to 31 August 2005 is 16.4% of pensionable salaries and from 1 September 2005 onwards 32.1%. From 1 November 2004 to 31 March 2005 employees have a contribution rate of 7%, from 1 April 2005 to 31 December 2005 8% and from 1 January 2006 onwards 10%.

The signed Schedule of Contributions dated 30 March 2006 stated that the Group contributions from 1 April 2006 onwards would be 32.1% for employees not participating in the salary sacrifice of member contributions and if employees participate the Group contributions will be 42.1%.

From 1 April 2006, employees will have a contribution rate of 10% and if employees participate in the salary sacrifice of members contributions their contribution rate will be 0%.

In addition, special employer contributions have been paid on 1 June 2006 of £2.45m. Further special employer contributions are payable as follows: £2.5m no later than 1 June 2007, and £1.2m each no later than 1 June 2008, 2009 and 2010 respectively.

The next valuation will be performed and reflected in the accounts for the year ending 31 October 2007.

Emerald Star Line scheme
The last full actuarial valuation was carried out by a qualified independent actuary as at 1 July 2005. The principal valuation assumptions used were the rates of investment return of 8.0% per annum compound and a rate of salary increase of 4.0% per annum compound. From July 2005 the Group has contributed at an average rate of 2.5% of contributory earnings. Employees do not contribute. The market value of the scheme's assets at the date of the last actuarial valuation was £1.1m.

The next valuation will be performed and reflected in the accounts for the year ending 31 October 2008.

*5. **Employees** continued*

Disclosure information-funded defined benefit pension schemes

The assets of each scheme have been taken at market value and liabilities have been calculated using the following principal assumptions:

	Emerald Star Line Scheme per annum		Air 2000 Scheme per annum		Unijet Scheme per annum	
	2006 %	2005 %	2006 %	2005 %	2006 %	2005 %
Inflation	2.25	2.25	2.90	3.00	2.90	3.00
Salary increases	4.00	4.00	4.90	5.00	4.90	5.00
Rate of discount	4.00	4.00	5.10	5.20	5.10	5.20
Pension in payment increases			3.00	3.00	3.00	3.00
Revaluation rate for deferred pensioners			2.90	3.00	2.90	3.00

The mortality assumptions underlying the value of the accrued liabilities for the Air 2000 and Unijet schemes are based on the following life expectancies from age 65:

	Air 2000 and Unijet schemes	
	Years 2006	Years 2005
Males		
Current pensioner	21.8	21.7
Future pensioner (aged 50)	22.7	22.7
Females		
Current pensioner	24.7	24.6
Future pensioner (aged 50)	25.6	25.6

On this basis, the balance sheet figures are as follows:

	Emerald Star Line Scheme		Air 2000 Scheme		Unijet Scheme		Total	
	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m
Assets	1.8	1.6	39.0	30.4	26.2	19.5	67.0	51.5
Liabilities	(1.3)	(1.1)	(53.0)	(50.2)	(37.4)	(34.4)	(91.7)	(85.7)
Surplus/(deficit)	0.5	0.5	(14.0)	(19.8)	(11.2)	(14.9)	(24.7)	(34.2)

The above disclosed position is different to that determined for the long-term funding of the schemes, as different assumptions have been used.

The fair value of assets of the schemes at 31 October 2006 and 31 October 2005 are as follows:

	Emerald Star Line Scheme		Air 2000 Scheme		Unijet Scheme		Total		Expected returns on all schemes	
	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 %	2005 %
Equities	1.4	1.2	25.5	19.8	17.0	12.7	43.9	33.7	7.72	7.95
Bonds	0.2	0.2	13.4	10.5	9.1	6.7	22.7	17.4	4.99	4.98
Cash and other short-term assets	0.2	0.2	0.1	0.1	0.1	0.1	0.4	0.4	4.95	4.75
	1.8	1.6	39.0	30.4	26.2	19.5	67.0	51.5		

The fair value of the schemes' assets are not intended to be realised in the short-term and may be subject to significant change before they are realised.

Changes in the present value of scheme assets are as follows:

	Emerald Star Line Scheme		Air 2000 Scheme		Unijet Scheme		Total

(D) Share options

The Company has established four principal share award/option schemes which are designed to link remuneration to the future performance of the Group: a senior executive performance related share option scheme as well as alternative long-term incentive schemes known as the Restricted Share Plan (RSP), the Deferred Annual Bonus Scheme (DABS) and the Performance Share Plan (PSP), all of which are as described on pages 86 and 87, along with the relevant vesting criteria.

Options granted and outstanding as well as shares awarded and outstanding in respect of unissued ordinary shares, are as follows:

	No. of shares	Option exercise price (p)	Date first exercisable
Senior Executive Plan	3,200,914	109.50	30 October 2007
	2,661,081	135.25	9 December 2008
Restricted Share Plan	24,099	N/A	14 December 2002
	2,608,508	N/A	31 October 2006
	2,636,034	N/A	9 December 2006
	154,333	N/A	23 December 2006
	125,823	N/A	1 April 2007
	14,212	N/A	28 April 2007
	87,976	N/A	27 July 2007
	419,548	N/A	13 October 2007
	2,827,113	N/A	14 December 2007
	267,536	N/A	23 December 2007
Deferred Annual Bonus Scheme	2,477,581	N/A	14 December 2008
Performance Share Plan	2,742,632	N/A	14 December 2008
	206,342	N/A	19 June 2009
	20,453,732		

As at 31 October 2006 there were 5,152,414 (2005: 7,565,589) ordinary shares held by the First Choice Employee Benefit Trust. The Trust is funded by the Group by way of loans.

The number of share options is as follows:

	Number of awards/ options 2006	Number of awards/ options 2005
Outstanding at beginning of the year	19,125,375	20,480,130
Forfeited during the period	(1,427,680)	(754,402)
Exercised during the period	(2,984,771)	(4,178,601)
Granted during the period	5,740,808	3,578,248
Outstanding at the end of the year	**20,453,732**	**19,125,375**

No awards or options were exercisable at the end of the year (2005: nil).

The fair value of services received in return for share options granted is measured by reference to the fair value of share options granted. The estimate of fair value of services received is measured using binomial or simulation valuation models, depending on the vesting criteria. The following variables are built into these models at the date of granting of the options:

	2006	2005	2004	2003
Information relating to fair values of share option and awards granted				
Fair value at measurement date	£1.35 – £2.02	£0.92 – £1.32	£1.05 – £1.19	£0.68 – £0.85
Share price	£2.17 – £2.29	£1.52 – £1.53	£1.21 – £1.37	£0.78 – £0.98
Exercise price	0	0	0	0
Expected volatility	23.4% – 27.8%	32.1% – 32.7%	34.3% – 39.4%	38.8% – 39.4%
Option life	3 years	3 – 4 years	3 – 5 years	3 – 4 years
Expected dividends	4.0%	4.0%	4.0%	4.0%
Risk free interest rate	4.29% – 4.32%	4.4% – 4.5%	4.6% – 5.2%	3.8% – 4.2%

Expected volatility is based on historic volatility adjusted for changes to future volatility indicated by publicly available information. Share options are granted under a service condition.

5. Employees *continued*

Employee expenses for the year relating to share based schemes are:

	2006 £m	2005 £m
Share options granted in 2003	–	0.2
Share options granted in 2004	2.1	1.8
Share options granted in 2005	1.1	1.0
Share options granted in 2006	2.7	–
Expense arising for share appreciation rights	0.2	0.2
Changes in fair value of share appreciation rights	–	0.1
	6.1	3.3
Total carrying amount of share appreciation liabilities	0.2	0.2

The future estimated expense for share option schemes outstanding at 31 October is:

	2006 £m	2005 £m
To be incurred within one year	5.9	4.1
To be incurred after more than one year	5.0	4.4
	10.9	8.5

6. Income, expenses and auditor remuneration

	2006 £m	2005 £m
Included in profit for the year are the following:		
Operating lease income, aircraft	(5.6)	(6.0)
Operating lease rentals, land and buildings	39.8	43.0
Operating lease rentals, aircraft and other equipment	76.9	74.2
Depreciation of property, plant and equipment	38.8	36.0
Amortisation of intangible assets	17.4	7.4
Charge for share based payments	6.1	3.2
Gain on sale of property plant and equipment	(0.9)	(0.4)
(Loss)/gain on foreign currency retranslation	(0.2)	(2.2)
Government grants	(0.3)	(0.9)
Impairment of goodwill on closure of business	1.4	–
Auditors' remuneration		
Auditors' remuneration for these financial statements and other Group subsidiary financial statements pursuant to legislation	0.9	0.8
Other services pursuant to legislation (regulatory reporting)	0.1	0.1
Services relating to corporate finance transactions	0.1	0.1
Other services	0.2	0.1

Other services relate to accounting advice in respect of the transition to Adopted IFRSs. The audit fee for the Company was £11,000 (2005: £10,250).

7. Taxation

The tax charge can be summarised as follows:

	2006 £m	2005 £m
(i) Analysis of charge in year		
Current tax expense:		
UK corporation tax on profits of the year	–	23.7
Non-UK tax on profits of the year	8.2	9.7
Adjustments in respect of previous years	(2.5)	1.0
	5.7	34.4
Deferred tax expense:		
Origination and reversal of timing differences:		
– Current year UK	17.9	(2.6)
– Current year non-UK	(0.9)	1.9
– *Adjustments in respect of previous years*	2.5	(1.8)
	19.5	(2.5)
Total income tax expense in income statement	25.2	31.9

(ii) Reconciliation of effective tax rate

The total tax charge for the year is lower (2005: lower) than the standard rate of corporation tax in the UK of 30% (2005: 30%). The differences are explained below:

	2006 £m	2006 %	2005 £m	2005 %
Profit before tax reported in the income statement	97.5		112.2	
Less share of profit in joint venture and associate	(2.8)		(1.9)	
	94.7		110.3	
Income tax on profit before tax excluding share of joint venture and associate at the standard rate of UK tax of 30% (2005: 30%)	28.4	30.0%	33.1	30.0%
– Expenses not deductible for tax purposes	0.3	0.3%	2.5	2.2%
– Utilisation of tax losses	(6.5)	(6.9)%	(2.7)	(2.5)%
– Non-utilisation of tax losses	2.8	3.0%	2.2	2.0%
– Higher tax rates on overseas earnings	1.7	1.8%	1.4	1.3%
– Lower tax rates on overseas earnings	(1.5)	(1.6)%	(3.8)	(3.4)%
– *Adjustments to tax charge in respect of previous periods*	–	–	(0.8)	(0.7)%
Total income tax expense in income statement	25.2	26.6%	31.9	28.9%

The effective rate of taxation is 26.6% (2005: 28.9%). The underlying rate of taxation is 27.6%. It is expected that an effective tax rate of 28% will be sustainable in the medium-term.

Due to an equal and opposite reversal of deferred taxation temporary differences, no UK corporation tax is payable in the year ended 31 October 2006. There is no effect on the total tax charge.

(iii) Deferred tax recognised directly in equity

The following taxation has been recorded directly in equity within the statement of recognised income and expense:

	2006 £m	2005 £m
Cash flow hedges	(18.1)	–
Equity-settled transactions	(4.7)	(3.2)
Defined benefit pension plans	1.2	(2.4)
Exchange differences	–	0.4
Total	(21.6)	(5.2)

8. Dividends

Ordinary shares

The following dividends have been deducted from equity in the year:

	2006 £m	2005 £m
Interim dividend paid for 2005 of 1.95p per share (2004: 1.75p)	10.1	9.1
Final ordinary dividend paid for 2005 of 4.65p (2004: 3.75p)	24.4	19.5
	34.5	28.6

The interim dividend in respect of the six-month period to 30 April 2006 of 2.25p per share was paid on 1 November 2006 and this dividend of £11.8m will be recognised as a deduction from equity in the year ending 31 October 2007.

Subsequent to the balance sheet date, the Directors have proposed a final dividend of 5.4p per share (2005: 4.65p) payable on 10 April 2007 to the holders of relevant shares on the register at 9 March 2007. The final proposed dividend amounts to £28.3m (2005: £24.4m) and will, after approval by shareholders, be recognised in the financial statements for the year ended 31 October 2007. The final ordinary dividend of 5.4p per share, together with the interim dividend of 2.25p per share, makes a total dividend of 7.65p per share relating to the year ended 31 October 2006 (2005: 6.6p).

A dividend reinvestment plan was introduced for the first time with respect to the final dividend payable for the year ended 31 October 2000. Those shareholders who have not elected to participate in this plan, and who would like to participate with respect to the 2006 final dividend, may do so by contacting Lloyds TSB Registrars direct on 0870 241 3018. The last day for election for the final proposed dividend is 16 March 2007 and any requests should be made in good time ahead of that date.

Preference shares

All preference shares were redeemed by the Group during the comparative year on 27 July 2005. Preference shares were accounted for as equity in the year ended 31 October 2005, prior to the adoption by the Group of IAS 32 (see note 1). In the year ended 31 October 2005, preference share dividends of £10.0m were deducted from equity.

9. Earnings per share

The basic earnings per ordinary share is calculated by dividing the profit attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the year, excluding those held in the employee share ownership trusts. The diluted earnings per share is calculated on profits attributable to ordinary shareholders divided by the adjusted weighted average number of ordinary shares, which takes account of the outstanding share options, where their conversion is dilutive. The additional earnings per share measures have been given to provide the reader of the accounts with a better understanding of the results.

	Earnings 2006 £m	Weighted average no. of shares 2006 millions	Earnings per share 2006 pence	Earnings 2005 £m	Weighted average no. of shares 2005 millions	Earnings per share 2005 pence

Exchange adjustments	(0.3)	(12.3)	(1.2)	(0.4)	(0.4)	(14.6)
At 31 October 2006	**42.7**	**641.7**	**24.6**	**9.4**	**8.3**	**726.7**
Amortisation and impairment losses						
At 1 November 2004	10.8	85.7	–	–	–	96.5
Amortisation	5.3	–	0.1	1.5	0.3	7.2
Exchange adjustments	0.2	–	–	–	–	0.2
At 31 October 2005	16.3	85.7	0.1	1.5	0.3	103.9
Amortisation	6.1	–	1.7	7.4	2.2	17.4
Impairment losses	–	1.4	–	–	–	1.4
Exchange adjustments	(0.1)	–	(0.1)	–	–	(0.2)
At 31 October 2006	**22.3**	**87.1**	**1.7**	**8.9**	**2.5**	**122.5**
Carrying value						
At 1 November 2004	10.4	376.4	–	–	–	386.8
At 31 October 2005	13.0	440.9	3.6	1.1	1.4	460.0
At 31 October 2006	**20.4**	**554.6**	**22.9**	**0.5**	**5.8**	**604.2**

Amortisation of intangible assets is recognised within the administrative expenses in the income statement.

The impairment losses incurred in 2006 relate to the closure of the Marmara Portugal division and the write off of all related goodwill to reflect a nil recoverable amount. The £1.4m impairment charge is disclosed separately on the face of the income statement.

Amortisation of business combination intangibles totalling £11.3m shown in the income statement relates to the amortisation charge during the year of brands, the order book and customer databases.

Goodwill is analysed by Sector as follows:

	Mainstream Holidays £m	Specialist Holidays £m	Activity Holidays £m	Online Destination Services £m	Corporate £m	Total Group £m
At 31 October 2006	**56.0**	**189.8**	**206.0**	**101.8**	**1.0**	**554.6**
At 31 October 2005	56.0	184.3	113.3	86.3	1.0	440.9

The recoverable amount of goodwill in all Sectors has been determined based on value in use.

Those calculations use cash flow projections based on actual operating results and the Group's latest five-year business plan. Cash flows for a further five-year period are extrapolated using an inflationary only growth rate of up to 2%. This total period of ten years is considered a prudent assumption in the context of the anticipated greater longevity of the Group's brands and business model in each Sector.

10. Intangible assets continued

A pre-tax discount rate of 9.0% has been used in discounting projected cash flows.

Based on the calculations undertaken, the Directors consider that the carrying value of goodwill in each Sector exceeds its recoverable amount.

Key assumptions are in respect of the short-term post acquisition earnings of acquired operations within the Activity and Specialist Sectors. The forecast earnings of these newly acquired businesses are inherently more judgmental in the short and medium-term.

11. Property, plant and equipment

	Land and buildings £m	Ships, yachts and motor boats £m	Aircraft and equipment £m	Computer equipment £m	Other £m	Total £m

At 31 October 2006	**71.6**	**147.3**	**53.4**	**23.9**	**16.2**	**312.4**

Other fixed assets with a combined net book value as at 31 October 2006 of £16.2m (2005: £16.7m) comprise £14.8m (2005: £15.8m) of fixtures and fittings, £1.4m (2005: £0.8m) of motor vehicles and £nil (2005: £0.1m) of ski equipment.

Fixed asset additions of £78.8m include £30.8m of fixed assets acquired in business combinations during the year (2005: £2.1m).

Land and buildings comprise freehold and short leasehold properties with net book values of £16.0m (2005: £19.5m) and £54.7m (2005: £51.2m) respectively.

The net book value of assets held under finance leases and hire purchase contracts at 31 October 2006 was £16.2m (2005: £32.1m). The depreciation charged in the year for these assets was £1.3m (2005: £3.6m).

12. Investments in joint venture and associate

The Group's equity investment in its joint venture and associate is recorded in the financial statements as follows:

	Share of net assets of joint venture £m	Share of net assets of associate £m	Total £m
Cost			
At 1 November 2005	29.3	1.8	31.1
Dividend received	–	(0.5)	(0.5)
Share of profits for the year	2.5	1.5	4.0
Share of tax charge	(0.7)	(0.5)	(1.2)
At 31 October 2006	**31.1**	**2.3**	**33.4**
Goodwill			
At 1 November 2005	3.4	–	3.4
At 31 October 2006	**3.4**	**–**	**3.4**
Net book value			
At 31 October 2005	32.7	1.8	34.5
At 31 October 2006	**34.5**	**2.3**	**36.8**

Name of company	Proportion held	Nature of of business	Country of registration/ incorporation	Investment held by
Hays Travel Limited	37.75%	Travel agent	England and Wales	First Choice Holidays PLC
Sunshine Cruises Limited	50.00%	Cruise operator	England and Wales	First Choice Holidays PLC

All proportions held are in ordinary shares.

There is a put option on the Group to acquire the remaining shareholding of the Group's associate, Hays Travel Limited. The option has not been exercised. Its value is dependent on the future profitability of Hays Travel Limited.

Sunshine Cruises Limited (trading as Island Cruises) was set up as a joint venture with Royal Caribbean Cruises Ltd. (RCCL) in July 2000. The share of profits recognised in respect of the joint venture represents the Group's share of the profit generated in the year.

Included within the Group's consolidated financial statements is the Group's 50% share of the following items accounted for using the equity method:

100% values	Joint venture 2006 £m	Joint venture 2005 £m
Revenue	**95.3**	**51.6**
Operating profit	5.0	3.6
Taxation	(1.5)	(1.0)

Provisional goodwill arising	**130.0**

13. Investments continued

Notes:

1. Elimination of goodwill existing in balance sheets at acquisition and inclusion of the fair value of IFRS 3 business combination intangible assets.
2. Impairment and revaluation of property plant and equipment; reclassification of leasehold property.
3. Impairment of Intrav, Inc ships prior to disposal.
4. Reclassification of leasehold property.
5. Elimination of deferred costs; recognition of deferred tax assets.
6. Recognition of a potential corporation tax liability.
7. Recognition of deferred tax liabilities.

The consideration payable is made up of:

	£m
Cash	129.3
Deferred consideration	13.6
Contingent consideration	5.8
Total consideration	148.7

(b) Cash flows arising in respect of acquisitions

Total cash flows relating to acquisitions in the year, including amounts paid in respect of deferred and contingent consideration arising on prior year acquisitions are as follows:

	2006 Max £m	2006 Paid £m	2005 Max £m	2005 Paid £m
Acquisitions in the year	129.3	129.3	53.4	53.4
Deferred & contingent consideration arising	19.4	–	12.1	–
	148.7	129.3	65.5	53.4
Acquisition expenses paid in the year	4.5	4.5	1.8	1.8
Total consideration	153.2	133.8	67.3	55.2
Cash acquired with acquisitions		(40.0)		(23.7)
Cash paid relating to prior year acquisitions		14.3		1.6
Net cash outflow in the year relating to acquisitions		108.1		33.1

Movements in deferred and contingent consideration in the year were as follows:

	Deferred consideration £m	Contingent consideration £m	Loan notes £m	Total £m
At 1 November 2005	19.6	9.4	–	29.0
Recognised in the year relating to current year acquisitions	7.7	5.8	5.9	19.4
Adjustments to amounts recognised in respect of prior year acquisitions	–	(0.7)	–	(0.7)
Cash paid	(11.4)	(3.4)	–	(14.8)
Exchange differences	(0.6)	(0.6)	(0.3)	(1.5)
At 31 October 2006	15.3	10.5	5.6	31.4

Offsetting the cash paid of £14.8m in the year is a refund of consideration relating to a prior year acquisition, of £0.5m, giving net cash paid of £14.3m.

13. Investments continued

The contingent consideration payable is in respect of the acquisitions listed below. It is dependent on the results of the businesses over the following periods or the balance of working capital at the acquisition date, and the Directors believe the amounts provided reflect the most likely outcome in each case:

Acquisition	Basic of calculation of contingent consideration	Period for calculation of contingent consideration	Maximum contingent consideration	Consideration provided for in these accounts
Trek Holidays	Earnings	Years ending 31 October 2006-2010	C$6.0m	C$6.0m
Jumpstreet	Working capital	N/A	N/A	C$0.5m
School Voyageurs	Working capital	N/A	N/A	C$0.5m
Educatours	Working capital	N/A	N/A	C$0.4m
Educational Tours, Inc	Working capital	N/A	N/A	US$2.1m
Sawadee	Earnings	Calendar year 2006	€1.4m	€1.4m

All acquisitions have been accounted for using the purchase method, as required by IFRS 3. It should be noted that certain fair value adjustments have necessarily been prepared on a provisional basis. Experience may result in the revisions to fair values in the subsequent accounting period.

(c) Residual goodwill

A consistent process is undertaken at each acquisition to identify the fair value of separable assets and liabilities acquired, including the fair value of intangible assets, being brands, order books and customer databases. The residual goodwill on acquisition represents the value of assets and earnings that do not form separable assets under IFRS3 but nevertheless are expected to contribute to the future results of the Group.

At 31 October 2006, the residual goodwill represents mainly:

- Market knowledge of particular geographic areas such as the Americas and the Far East.
- Knowledge of particular market segments, for example escorted tours.
- Involvement of existing management and employees and transfer of their knowledge of the operation of the business model.
- Integration synergies, particularly cost optimisation in our yacht holidays businesses.
- The ability to sell acquired product through existing channels and existing product through acquired channels.

(d) Income statement

If the businesses that were acquired at various times during the year ended 31 October 2006 had been part of the Group since 1 November 2005, the impact on revenue and profit would not have been material to the Group. This is mainly due to the timing of the three largest acquisitions, which have been part of the Group for their most profitable months in the year.

The revenues and operating profits of acquisitions made in the year are reported in note 2.

14. Non-current trade and other receivables

	2006 £m	2005 £m
Prepaid accommodation	65.2	52.3
Aircraft deposits	10.8	8.3
Other long-term debtors	4.0	–
	80.0	60.6

15. Deferred tax assets and liabilities

	Assets 2006	Assets 2005	Liabilities 2006	Liabilities 2005	Net 2006	Net 2005
Property, plant and equipment	–	–	(21.5)	(21.1)	(21.5)	(21.1)
Intangible assets	4.1	–	(12.8)	(0.2)	(8.7)	(0.2)
Other investments	–	–	–	(2.3)	–	(2.3)
Employee benefits	16.2	17.5	–	–	16.2	17.5
Financial instruments and foreign exchange	17.4	–	–	–	17.4	–
Other short-term temporary differences	14.9	28.1	–	(0.2)	14.9	27.9
Tax value of loss carry forwards recognised	4.2	4.2	–	–	4.2	4.2
Total	56.8	49.8	(34.3)	(23.8)	22.5	26.0

15. Deferred tax assets and liabilities continued

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items:

	2006 £m	2005 £m
Capital losses	2.1	4.5
Other losses	28.0	40.8
	30.1	45.3

These assets have not been recognised because the Directors are not certain that any benefits will arise in the foreseeable future.

At 31 October 2006, a deferred tax liability of £2.4m (2005: £1.7m) relating to profits arising in respect of investments in overseas subsidiaries has not been recognised because the Group controls whether the liability will be incurred and is satisfied that it will not be incurred in the foreseeable future.

There are no other unprovided deferred tax liabilities.

Movements in temporary differences during the year:

	Balance at 1 November 2005 £m	Arising on acquisition £m	Recognised/ (charged) in income £m	Recognised/ (charged) in equity £m	Balance at 31 October 2006 £m
Property, plant and equipment	(21.1)	–	(0.4)	–	(21.5)
Intangible assets	(0.2)	(5.6)	(2.9)	–	(8.7)
Other investments	(2.3)	–	2.3	–	–
Employee benefits	17.5	–	(4.8)	3.5	16.2
Financial instruments and foreign exchange	–	–	(0.7)	18.1	17.4
Other short-term temporary differences	27.9	–	(13.0)	–	14.9
Tax value of loss carry forwards recognised	4.2	–	–	–	4.2
Total	**26.0**	**(5.6)**	**(19.5)**	**21.6**	**22.5**

Movements in temporary difference during the prior year are analysed as follows:

	Balance at 1 November 2004 £m	Arising on acquisition £m	Recognised/ (charged) in income £m	Recognised/ (charged) in equity £m	Exchange movement £m	Balance at 31 October 2005 £m
Property, plant and equipment	(18.5)	–	(2.6)	–	–	(21.1)
Intangible assets	–	–	(0.2)	–	–	(0.2)
Other investments	(2.3)	–	–	–	–	(2.3)
Employee benefits	10.5	–	1.8	5.2	–	17.5
Other short-term temporary differences	22.1	–	5.5	–	0.3	27.9
Tax value of loss carry forwards recognised	6.2	–	(2.0)	–	–	4.2
Total	**18.0**	**–**	**2.5**	**5.2**	**0.3**	**26.0**

Property, plant and equipment temporary differences principally relate to accelerated capital allowances received in the UK. Employee benefit temporary differences arise in respect of defined benefit pension scheme liabilities, holiday pay accruals and future deductions available on the exercise of employee share options. Financial instruments and foreign exchange temporary differences arise in respect of financial instruments accounted for under IAS 39 and principally reflect the fair value at 31 October 2006 of cash flow hedging derivatives that will be settled against future transactions. Other short-term temporary differences relate to operating expenses and related accruals. The reversal of other short-term temporary differences in the current year principally relates to the current tax deduction of selling costs that were deferred under UK GAAP but are expensed as incurred under Adopted IFRSs.

16. Trade and other receivables

	2006 £m	2005 £m
Trade debtors	156.4	107.4
Other debtors	102.2	83.2
Prepayments	133.1	125.0
	391.7	315.6

17. Cash and cash equivalents

	2006 £m	2005 £m
Cash	117.5	40.3
Short-term liquid assets	54.7	46.9
Deposits at bank maturing within one month	5.3	38.1
Cash and cash equivalents	177.5	125.3

Cash and cash equivalents includes £54.7m (2005: £46.9m) that is not available for immediate use by the Group. This represents monies held in trust to meet regulatory requirements.

18. Assets classified as held for sale

	2006 £m	2005 £m
Yachts and motor boats	0.8	1.1
Land and buildings	0.4	7.9
	1.2	9.0

No adjustment has been required to record these assets at the lower of their carrying value and fair value less costs to sell.

19. Interest-bearing loans and borrowings

	2006 £m	2005 £m
Current liabilities		
Bank loans and overdrafts	5.5	56.9
Loan notes	0.8	–
Finance leases (and hire purchase contracts)	2.3	16.4
	8.6	73.3

	2006 £m	2005 £m
Non-current liabilities		
Bank loans	262.5	31.4
Loan notes	4.8	–
Finance leases (and hire purchase contracts)	4.9	2.5
	272.2	33.9

The bank loans and loan notes are repayable:

	2006 £m	2005 £m
Within one year	6.3	56.9
Between one and five years	266.3	23.2
After five years	1.0	8.2
	273.6	88.3

Included within amounts payable within one year are bank overdrafts of £nil (2005: £19.9m) that are repayable on demand. Some loans are secured on the underlying assets of the company in whose name the borrowings are made. Finance lease liabilities relate to the leasing of aircraft and boats.

19. Interest-bearing loans and borrowings continued

Group obligations under finance leases and hire purchase contracts are payable as follows:

	Principal £m	Interest £m	Minimum lease payments 2006 £m	Principal £m	Interest £m	Minimum lease payments 2005 £m
In respect of aircraft, yachts and equipment payable within:						
One year	2.2	0.4	2.6	16.4	0.5	16.9
Two to five years	5.0	0.5	5.5	2.5	0.2	2.7
	7.2	0.9	8.1	18.9	0.7	19.6

Security given in respect of finance leases and hire purchase contracts consists of fixed charges over the respective assets. Further details are set out in note 25.

20. Current trade and other payables

	2006 £m	2005 £m
Trade creditors	187.6	183.5
Other creditors	33.8	54.7
Other taxes and social security costs	21.3	24.1
Accruals and deferred income	357.3	287.1
Client money received in advance	263.5	237.8
Amounts owed to joint venture	2.4	2.6
	865.9	789.8

Included in other creditors are amounts in respect of contingent and deferred consideration payable for acquisitions of £8.1m (2005: £17.8m). Further details are set out in note 13(b).

21. Provisions for liabilities and charges

	Aircraft maintenance £m	Other £m	Total £m
At 1 November 2004	45.1	1.8	46.9
Provided in the year	54.3	–	54.3
Costs incurred	(44.1)	–	(44.1)
Exchange movements	(2.4)	–	(2.4)
At 31 October 2005	52.9	1.8	54.7
Adoption of IAS 32/39	(4.2)	–	(4.2)
At 1 November 2005	48.7	1.8	50.5
Provided in the year	45.9	–	45.9
Costs incurred	(47.9)	–	(47.9)
Exchange movements	(0.7)	–	(0.7)
At 31 October 2006	**46.0**	**1.8**	**47.8**

Of the aircraft maintenance provisions, £17.6m (2005: £21.3m) are estimated to be payable in less than one year.

Aircraft maintenance

In respect of aircraft, provision is made for maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares based on total anticipated costs over the useful economic life of the asset calculated by reference to costs experienced and published manufacturers data. The charge to the income statement is calculated by reference to the number of hours and cycles flown and by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised and depreciated over the period until the next scheduled major overhaul.

22. Other non-current liabilities

	2006 £m	2005 £m
Deferred and contingent consideration (note 13(b))	17.7	11.2
Accruals and deferred income	22.4	14.1
	40.1	25.3

23. Share capital

	2006 £m	2005 £m
Authorised		
800,000,000 (2005: 800,000,000) ordinary shares of 3p each	24.0	24.0
Allotted, called up and fully paid		
530,230,326 (2005: 529,658,730) ordinary shares	15.9	15.9

The Company issued 571,596 new ordinary shares in the year, with none of these shares being in respect of acquisitions. The new ordinary shares were issued in respect of the following:

	No. of shares
Restricted Share Plan	403,359
Savings Related Share Option Scheme	168,237
	571,596

The share premium arising on the above issues was £0.5m.

24. Capital and reserves

	Share capital £m	Share premium £m	Other reserves £m	Retained earnings £m	Equity holders of parent £m	Minority interests £m	Total £m
At 1 November 2004	215.3	239.8	162.9	(184.4)	433.6	0.2	433.8
Share-based payment	–	–	–	3.3	3.3	–	3.3
Shares issued	0.1	1.7	–	–	1.8	–	1.8
Amortised issue costs	–	–	–	0.1	0.1	–	0.1
Redemption of preference share capital	(199.5)	–	199.5	(199.5)	(199.5)	–	(199.5)
Realisation of merger reserve	–	–	(22.5)	22.5	–	–	–
Total recognised (expense)/income for the year	–	–	(2.1)	77.3	75.2	0.2	75.4

Minority interest acquired	–	–	–	–	–	0.5	0.5
At 31 October 2006	15.9	242.0	296.4	(273.2)	281.1	0.9	282.0

24. Capital and reserves *continued*

Other reserves are analysed as follows:

	Capital reserve £m	Merger reserve £m	Foreign exchange reserve £m	Hedging reserve £m	Total £m
At 1 November 2004	**1.9**	**161.0**	**–**	**–**	**162.9**
Redemption of preference share capital	199.5	–	–	–	199.5
Realisation of merger reserve	–	(22.5)	–	–	(22.5)
Total recognised expense for the year	–	–	(2.1)	–	(2.1)
At 31 October 2005	**201.4**	**138.5**	**(2.1)**	**–**	**337.8**
Transition adjustments on adoption of IAS 32 and 39	–	–	–	4.4	4.4
Restated at 1 November 2005	**201.4**	**138.5**	**(2.1)**	**4.4**	**342.2**
Total recognised expense for the year	–	–	(3.7)	(42.1)	(45.8)
At 31 October 2006	**201.4**	**138.5**	**(5.8)**	**(37.7)**	**296.4**

Cumulative goodwill arising on the acquisition of subsidiaries and written off to the profit and loss account reserve at 31 October 2006 is £232.3m (2005: £232.3m) against which Section 131 merger relief of £40.6m (2005: £40.6m) has been deducted.

25. Financial instruments

As set out in note 1, the Group has adopted IFRS 7, IAS 32 and IAS 39, only with effect from 1 November 2005. The comparative financial information in these financial statements does not therefore comply with IFRS 7, IAS 32 and IAS 39 as the Group has elected to apply the transitional rules permitted by IFRS 1 and has not restated prior years. Comparative disclosures for the year ended 31 October 2005 have been prepared under UK GAAP FRS 13 and are set out in part (ii) of this note.

(i) Disclosures for the year ended 31 October 2006

(a) Treasury risk analysis

The Group has exposure to the following risks from its use of financial instruments: market risk (in respect of changes in foreign exchange rates, fuel prices and interest rates), liquidity risk (in respect of the Group's ability to meet its liabilities) and credit risk (in respect of recovery of amounts owing to the Group).

The Group faces significant financial risks mainly due to the substantial cross-border element of its trading. Currency risk arises on sales, purchases and borrowings that are denominated in a currency other than the functional currencies of individual Group entities. It is managed by the use of foreign exchange forward, swap and option contracts. Interest rate risk is split into two separate exposures, namely US dollar interest rates on variable rate aircraft leases and loans, and sterling rates on Group loan and cash balances. Both exposures are managed using interest rate derivatives. Finally, the Group's exposure to jet fuel prices is managed using energy swaps and options.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

During the year, the Financial Risk Management Committee (FRMC) managed the governance of financial risk. The Committee, which was created in 2005, reports to the Board of Directors and to the Audit Committee and is made up of the relevant senior business employees and technical experts within the Group. Incorporated within the terms of reference is the determination of all treasury policies and the monitoring of the effectiveness of those policies.

Group Treasury implements the agreed policies on a day-to-day basis. The procedures also stipulate the levels of authority applied to dealing and to approving the types of financial instrument used to manage these exposures. Transactions are only undertaken to hedge underlying exposures. Financial instruments are not traded, nor are speculative positions taken. Regular reports are provided to the Board.

(b) Currency risk management

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the functional currencies of individual Group entities (which are principally Sterling, Canadian dollars, Euros and US dollars).

The Group publishes its consolidated financial statements in Sterling and as a result, it is also subject to foreign currency exchange translation risk in respect of the results and underlying net assets of its foreign operations.

The Group hedges its foreign currency exposures season-by-season, with each season comprising a six-month period. At the start of a season the Group will have hedged substantially all of its foreign currency exposure (forecast sales and purchases and related assets and liabilities) for that season, using forward exchange contracts, most with a maturity of less than one year from the reporting date. When necessary, forward contracts are rolled over at maturity.

25. Financial Instruments continued

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by undertaking fair value hedges to address imbalances. Fair value hedges are principally undertaken in respect of non-Sterling denominated airline maintenance provision balances, loan balances and deposits.

The following significant exchange rates (excluding the impact of hedged transactions) applied during the current and prior year:

	Average rate		Mid-spot rate	
	Year ended 31 October 2006	Year ended 31 October 2005	31 October 2006	31 October 2005
US Dollar	1.815	1.844	1.908	1.776
Euro	1.462	1.457	1.494	1.478
Canadian Dollar	2.052	2.263	2.141	2.091

The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars.

The table below shows Group companies' net financial assets and liabilities held in currencies other than their functional currency at 31 October 2006, analysed by functional currency:

	Non-functional financial assets and liabilities								
	Sterling £m	Euro £m	US Dollar £m	Canadian Dollar £m	Thai Baht £m	Australian Dollar £m	Swiss Franc £m	Other £m	2006 Total £m
Functional currency of Group entities									
Sterling	–	(49.4)	(60.1)	1.6	1.4	3.3	2.3	(1.4)	(102.3)
Canadian Dollars	–	–	1.7	–	–	–	–	–	1.7
Euro	7.3	–	(1.1)	–	–	–	–	0.1	6.3
US Dollars	(0.6)	0.1	–	0.2	–	–	–	–	(0.3)
Other	0.6	(1.3)	3.8	(0.2)	–	–	–	0.8	3.7
Total	**7.3**	**(50.6)**	**(55.7)**	**1.6**	**1.4**	**3.3**	**2.3**	**(0.5)**	**(90.9)**

(c) Interest rate risk

The Group has an exposure to interest rate risk arising principally on changes in Sterling, US Dollars, Euro and Canadian Dollar interest rates.

To manage interest rate risk, the Group manages its proportion of fixed to variable borrowings within limits approved by the Board, primarily through the Financial Risk Management Committee. The profile of the fixed rate to floating rate borrowings is maintained on a minimum of 50% of interest expense and 75% of operating leases being fixed to the end of all seasons on sale.

An analysis of net borrowings and interest rates as at 31 October 2006 is as follows:

	Earlier of maturity and repricing date							
	Within 1 year £m	1-2 years £m	2-3 years £m	3-4 years £m	4-5 years £m	> 5 years £m	Total £m	Weighted average interest rate
Fixed rate								
Secured bank loans	–	0.6	1.7	2.1	6.8	–	11.2	6.0%
Unsecured bank loans	–	–	52.8	–	–	–	52.8	6.0%
Unsecured loan notes	0.8	3.9	0.9	–	–	–	5.6	5.0%
Finance leases	–	1.1	1.3	1.3	0.9	0.9	5.5	6.2%
Floating rate								
Secured bank loans	14.6	–	–	–	–	–	14.6	6.5%
Unsecured bank loans	189.4	–	–	–	–	–	189.4	5.7%
Finance leases	1.7	–	–	–	–	–	1.7	8.1%
Net borrowings	206.5	5.6	56.7	3.4	7.7	0.9	280.8	

Fixed rate and floating rate financial liabilities comprise loans and obligations under finance leases. The split of fixed and floating rate borrowings is after taking into account interest rate protection.

25. Financial Instruments continued

The Group also has aircraft operating leases that vary with market interest rates. At 31 October 2006, the future commitment under these leases was £70.2m. The variation in leases is hedged using interest rate swaps and forward rate agreements extending over a maximum of 1.5 years.

The Group does not account for any fixed rate financial liabilities at fair value through profit and loss and the Group does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model.

(d) Credit risk

The carrying amount of financial assets represents the maximum credit exposure. Except as noted below, the Group has no significant concentration of credit risk arising from trading activities, either with individual entities or by geographical area.

Cash and cash equivalents and other liquid resources principally comprise money market deposits and other short-term investments. The investments are with counterparties with a strong long-term credit rating. At 31 October 2006, approximately 62% of the Group's unrestricted cash and cash equivalents were invested with counterparties based in the United Kingdom.

Within the UK, the Group has, from time to time, significant short-term credit exposure from receivables from other major tour operators and travel agents.

In addition, the Group makes prepayments for hotel accommodation. Whilst such prepayments do not meet the definition of a financial asset under IAS 39, such prepayments give rise to a risk similar to credit risk due to the inherent risk of the Group not recovering the prepayment through full delivery of the related goods and services. Prepayments from time to time can concentrate risk with specific counterparties which are based overseas.

The carrying amount of prepayments (which are presented within current and non-current assets) forms the maximum credit exposure, before taking into account any security or collateral held by the Group. Where appropriate, the Group obtains security collateral over the related accommodation property, to mitigate credit risk. At 31 October 2006, prepaid accommodation which is recoverable after more than one year was £65.2m.

(e) Capital management

The Board's policy is to maintain a strong capital base in order to maintain investor, creditor and market confidence and to sustain future development of the business.

From time to time the Group purchases its own shares on the market. The timing of these purchases depends on market prices. The shares are intended to be used for issuing shares under the Group's share option programmes. There is not a specific share buy back plan.

There were no changes to the Group's approach to capital management in the year.

(f) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach is to ensure that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed circumstances.

As at 31 October 2006 the Group had available undrawn committed borrowing facilities of £198.8m, comprising letters of credit, *guarantees and revolving, floating rate credit facilities for cash borrowings. Any non-compliance with covenants underlying the Groups* financing arrangements could, if not waived, constitute an event of default with respect to any such arrangements. The Group was in full compliance with its financial covenants throughout each of the periods presented.

The Group had available undrawn committed bank facilities as follows:

	2006 £m
Expiring:	
Within one year	-
In more than one year but less than five years	198.8
	198.8

Subsequent to the year-end, the Group has undertaken a new £28m secured bank loan facility with Royal Bank of Scotland which is secured over property, plant & equipment.

25. Financial Instruments continued

Information regarding the contractual maturities of financial liabilities can be found in note 19 to the accounts.The actual repayment of revolving credit facility cash flows will vary. The timing reflected in the table is based on the maximum duration and availability of the facility agreement.

(g) Analysis of total financial liabilities and financial assets

The tables below set out the Group's IAS 39 classification for each of its financial assets and liabilities at 31 October 2006.

	Held for trading £m	Available for sale £m	Loans and receivables £m	Amortised cost £m	Total carrying value £m
Trade investments	–	0.6	–	–	0.6
Cash and cash equivalents	–	177.5	–	–	177.5
Borrowings due within one year	–	–	–	(8.6)	(8.6)
Borrowings due after more than one year	–	–	–	(272.2)	(272.2)
Derivative assets	1.6	–	–	–	1.6
Derivative liabilities	(62.5)	–	–	–	(62.5)
Other financial assets	–	–	273.4	–	273.4
Other financial liabilities	–	–	–	(647.0)	(647.0)
	(60.9)	178.1	273.4	(927.8)	(537.2)

Derivatives held for trading under IAS 39 are all accounted for under cash flow or fair value hedges.

Other financial assets comprise trade receivables and other debtors which are receivable within and after more than one year. Other financial liabilities comprise trade payables and accruals which are payable within and after more than one year.

All derivatives are held within hedging relationships. Speculative positions are not undertaken.

(h) Fair values of financial assets and financial liabilities

The fair values of financial assets and liabilities, together with carrying amounts shown in the balance sheet at 31 October 2006, are as follows:

	Carrying amount £m	Fair value £m
Other investments	0.6	0.6
Cash and cash equivalents	177.5	177.5
Trade receivables	273.4	273.4
Interest rate swaps used for hedging – liabilities	(0.1)	(0.1)
Forward exchange contracts used for hedging		
– assets	1.6	1.6
– liabilities	(48.4)	(48.4)
Swaps for energy purchases	(14.0)	(14.0)
Bank loans	(215.2)	(215.1)
Eurobond loan	(52.8)	(53.1)
Loan notes	(5.6)	(5.5)
Finance lease liabilities	(7.2)	(7.2)
Trade and other payables	(619.7)	(619.7)
Other long-term liabilities	(27.3)	(27.3)
	(537.2)	(537.3)
Unrecognised loss		(0.1)

The fair value of forward rate agreements is the estimated amount that the Group would receive or pay to terminate the swaps at the balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparties.

The fair value of fuel swaps is the estimated amount that the Group would receive or pay to terminate the swaps at the balance sheet date, taking into account current fuel prices.

25. Financial Instruments continued

The fair value of forward exchange contracts is their quoted market price at the balance sheet date, being the present value of the quoted forward price.

The fair value of trade receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

The fair value of non-derivative financial liabilities is based on the present value of future principal and interest cash flows discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

(i) Derivative instruments

At 31 October 2006 the fair value and notional amount of the Group's derivative financial assets and liabilities was as follows:

	Assets		Liabilities		Total	
Cash flow hedges	Fair value	Notional amount	Fair value	Notional amount	Fair value	Notional amount
Interest rate swaps	–	–	(0.1)	(126.0)	(0.1)	(126.0)
Foreign exchange forwards	0.6	73.1	(40.2)	(974.6)	(39.6)	(901.5)
Energy swaps	–	1.1	(14.0)	(105.7)	(14.0)	(104.6)
	0.6	74.2	(54.3)	(1,206.3)	(53.7)	(1,132.1)
Fair value hedges						
Foreign exchange forwards	1.0	93.3	(8.2)	(212.2)	(7.2)	(118.9)
Total at 31 October 2006	**1.6**	**167.5**	**(62.5)**	**(1,418.5)**	**(60.9)**	**(1,251.0)**

The maturity profile of these derivative financial assets and liabilities was as follows:

	Maturity profile		
	Within 1 year £m	1-2 years £m	Total £m
Derivative financial assets			
Foreign exchange forwards	1.6	–	1.6
Derivative financial liabilities			
Interest rate swaps	–	(0.1)	(0.1)
Foreign exchange forwards	(44.0)	(4.4)	(48.4)
Energy swaps	(14.0)	–	(14.0)
	(58.0)	(4.5)	(62.5)
Total at 31 October 2006	**(56.4)**	**(4.5)**	**(60.9)**

The following table indicates the periods in which the cash flows associated with derivatives (which are principally cash flow hedges) are expected to occur. The cash flows are expected to impact profit and loss on a similar time profile:

	Maturity profile			
	Within 1 year £m	1-2 years £m	2-3 years £m	Total £m
Derivative financial assets				
Foreign exchange forwards	146.7	19.7	–	166.4
Energy swaps	1.1	–	–	1.1
	147.8	**19.7**	**–**	**167.5**
Derivative financial liabilities				
Interest rate swaps	(35.7)	(90.3)	–	(126.0)
Foreign exchange forwards	(903.4)	(278.2)	(5.3)	(1,186.9)
Energy swaps	(105.6)	–	–	(105.6)
	(1,044.7)	(368.5)	(5.3)	(1,418.5)
Total at 31 October 2006	**(896.9)**	**(348.8)**	**(5.3)**	**(1,251.0)**

No ineffectiveness has been recognised in the income statement for the year ended 31 October 2006.

25. Financial Instruments continued

(j) Amounts recognised directly in equity

The following amounts have been recognised in equity during the year:

	2006 £m
Hedging reserve	
Effective portion of changes in fair value of cash flow hedge	(55.1)
Fair value of cash flow hedges transferred to profit and loss	(5.1)
	(60.2)
Translation reserve	
Foreign currency translation differences for foreign operations	(3.7)
Net charge to equity	(63.9)

(k) Sensitivity analysis

The sensitivity analysis is for illustrative purposes only.

Interest rate risk

The Group has used a sensitivity analysis technique that measures the estimated change to the income statement and equity of a 1% (100 basis points) difference in market interest rates from the rates applicable at 31 October 2006, with all other variables remaining constant.

The sensitivity analysis includes the following assumptions:

- Change in market interest rates only affect interest income or expense of variable financial instruments.
- Changes in market interest rates only affect interest income or expense in relation to financial instruments with fixed interest rates if these are recognised at fair value.
- Changes in market interest rates affect the fair value of derivative financial instruments designated as hedging instruments and all interest rate hedges are expected to be highly effective.
- Changes in the fair value of derivative financial instruments and other financial assets or liabilities are estimated by discounting the future cash flows to net present values using appropriate market rates prevailing at the year end.

31 October 2006 Variable rate instruments	Income statement 100bp increase	Income statement 100bp decrease	Equity (before tax) 100bp increase	Equity (before tax) 100bp decrease
Variable rate instruments	(2.9)	2.9	–	–
Fixed rate instruments	–	–	–	–
Interest rate swaps	–	–	0.5	0.8
	(2.9)	2.9	0.5	0.8

Currency risk

The currency risk sensitivity analysis is based on the assumption that all cash flow hedges are highly effective and that all other variables remain constant.

Under this assumption, with a 10% strengthening or weakening of Sterling against all exchange rates, profit before tax would have increased by £5.0m or reduced by £4.1m, respectively (principally relating to the translation of the income statement of overseas subsidiaries). Equity (before tax) would have increased by £15.3m or decreased by £12.5m, respectively.

Energy risk – Fuel

The fuel risk sensitivity analysis is based on the assumption that all cash flow hedges are highly effective and that all other variables remain constant.

Under this assumption, with a 10% increase or decrease in the unit price of fuel, profit before tax would neither increase or decrease materially, because of the fuel price hedging policy. Equity (before tax) would increase by £9.2m, or decrease by £9.2m, respectively.

25. Financial instruments continued

(ii) Comparative disclosures under UK GAAP (FRS 13) for the year ended 31 October 2005

To reduce risks arising from movements in foreign exchange and interest rates, the Group has entered into forward foreign exchange contracts and single currency interest rate swaps/forward rate agreements and accounts for such transactions as hedges. The gross value of financial assets and liabilities is stated after the effect of these hedged transactions. Short-term debtors and creditors have been omitted from the disclosures other than the currency risk.

(a) Financial assets and liabilities

At 31 October 2005 the Group's financial assets and liabilities profile, after taking account of interest rate and currency hedging arrangements in place, was as follows:

	2005		
Financial assets	Floating rate £m	Non-interest bearing £m	Total £m
Sterling	33.7	7.3	41.0
Canadian Dollars	30.0	–	30.0
Euro	28.9	1.3	30.2
US Dollars	20.0	–	20.0
Other	4.9	–	4.9
Total	**117.5**	**8.6**	**126.1**

Floating rate financial assets comprise cash and current asset investments, which attract interest rates of between 1.5% and 4.5% and are all due to mature within one year. Non-interest bearing assets represent trade investments, which have no maturity period, and cash at bank.

	2005			
Financial liabilities	Fixed rate £m	Floating rate £m	Non-interest bearing £m	Total £m
Sterling	28.2	69.7	3.8	101.7
Canadian Dollars	–	–	2.8	2.8
Euro	4.6	4.7	3.1	12.4
US Dollars	–	–	19.3	19.3
Total	**32.8**	**74.4**	**29.0**	**136.2**

Fixed rate financial liabilities comprise bank borrowings and obligations under finance leases. The weighted average fixed rate of Sterling borrowings at 31 October 2005 is 5.2% and the average time to maturity is 2.6 years. The weighted average fixed rate of Euro borrowings at 31 October 2005 is 5.8% and the average time to maturity is 3.0 years.

Floating rate financial liabilities comprise loans and obligations under finance leases, at the following interest rates:

Sterling: LIBOR plus a margin between 0.9% and 1.65% at 31 October 2005.
Euro: EURIBOR plus a margin between 1.5% and 1.65% or RIBOR plus a margin between 0.25% and 0.85% at 31 October 2005.

Non-interest bearing financial liabilities comprise deferred consideration for acquisitions.

(b) Maturity profile of financial liabilities

	2005 £m
Within one year	91.1
In more than one year but less than five years	36.9
More than five years	8.2
	136.2

25. Financial instruments continued

(c) Fair value of derivative financial instruments

Fair values	2005 Book value £m	2005 Fair value £m
Financial instruments		
Financial assets	126.1	126.1
Financial liabilities	(136.2)	(136.2)
	(10.1)	(10.1)
Derivative financial instruments		
Interest rate swaps and forward rate agreements	–	(0.1)
Foreign currency transactions	–	3.2
Fuel derivatives	–	1.0
	(10.1)	(6.0)
Difference between book and fair value		**4.1**

Fair value is the difference between market value in which the instruments are traded at the balance sheet date and the future contracted commitment.

(d) Unrecognised gains and losses relating to hedges of future exposures

Unrecognised gains and losses	2005 Gains £m	2005 Losses £m	2005 Net £m
Total unrecognised gains/(losses) at 1 November	43.2	(40.1)	3.1
(Gains)/losses recognised in the year relating to prior years	(42.0)	34.7	(7.3)
Gains/(losses) not recognised in the year relating to prior years	1.2	(5.4)	(4.2)
Gains/(losses) not recognised in the year relating to the current year	21.8	(13.5)	8.3
Total unrecognised gains/(losses) at 31 October	23.0	(18.9)	4.1
Of which:			
Due to be recognised within one year	21.3	(15.6)	5.7
Due to be recognised after one year	1.7	(3.3)	(1.6)
	23.0	(18.9)	4.1

Gains and losses on foreign exchange instruments used for hedging purposes are not recognised until the maturity of the underlying exposure.

(e) Currency exposures

The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars. The table below shows the Group companies' net monetary assets and liabilities held in currencies other than their principal currency, after having taken into account the effect of forward contracts or other derivative instruments used to match foreign currency exposure.

Functional currency	Sterling £m	Euro £m	US Dollar £m	Canadian Dollar £m	Thai Baht £m	Australian Dollar £m	Swiss Franc £m	Other £m	Total £m
Sterling	–	32.3	14.1	1.3	1.4	2.8	(0.9)	8.9	59.9
Canadian Dollars	–	–	7.7	–	–	–	–	–	7.7
Euro	0.9	–	(0.1)	0.1	–	–	1.3	2.2	4.4
US Dollars	–	1.1	–	0.7	–	–	–	0.3	2.1
Total	**0.9**	**33.4**	**21.7**	**2.1**	**1.4**	**2.8**	**0.4**	**11.4**	**74.1**

26. Movements in cash and net funds

	31 October 2006 £m	Cash movement £m	Finance leases £m	Foreign exchange £m	Arising on acquisition £m	Adoption of IAS 32 and 39 £m	31 October 2005 £m
Cash and cash equivalents	177.5	54.9	–	(2.7)	–	–	125.3
Bank overdrafts	–	19.9	–	–	–	–	(19.9)
Movements in cash and cash equivalents	177.5	74.8	–	(2.7)	–	–	105.4
Bank loans and loan notes	(273.6)	(186.4)	–	(2.7)	(18.1)	2.0	(68.4)
Finance leases	(7.2)	17.7	(1.6)	(2.2)	(3.6)	1.4	(18.9)
Net (debt)/funds	(103.3)	(93.9)	(1.6)	(7.6)	(21.7)	3.4	18.1

27. Acquisitions, continuing and discontinuing operations contributions to Group cash flows

	Continuing operations £m	Acquisitions £m	Total £m
Net cash generated from/(absorbed by) operations	118.0	(2.7)	115.3
Net cash flow from operating activities	(33.3)	0.5	(32.8)
Net cash flow from investing activities	(144.8)	2.8	(142.0)
Net cash flow from financing activities	150.3	(16.0)	134.3
Increase/(decrease) in cash in the year	90.2	(15.4)	74.8

The acquisitions column reflects cash flows arising from post acquisition trading of acquired businesses.

28. Operating lease commitments

Group obligations under operating lease contracts are as follows:

	Land and buildings 2006 £m	Aircraft, yachts and equipment 2006 £m	Land and buildings 2005 £m	Aircraft, yachts and equipment 2005 £m
Total commitments under non-cancellable operating leases expiring:				
Within one year	5.2	7.5	5.5	2.9
Between one and five years	34.8	183.7	20.5	110.9
Thereafter	249.5	103.4	256.2	221.1
	289.5	294.6	282.2	334.9

29. Capital commitments

	2006 £m	2005 £m
Contracted but not provided for	5.1	4.1
Authorised but not contracted or provided for	10.6	5.6
	15.7	9.7

In addition to the above items, the Group has contracted to purchase eight Boeing 787 aircraft, the first delivery of which is in 2009. The Group intends to refinance these aircraft in advance of their delivery dates and therefore does not expect to use its own cash resources for their purchase. At list price, the order value is US$1,160.0m.

Sunshine Cruises Limited, a joint venture with Royal Caribbean Cruises Ltd. had no capital commitments in 2006 (2005: £1.6m).

30. Contingent liabilities

Under the terms of guarantees given to the Civil Aviation Authority and other relevant authorities by the Group in respect of certain subsidiaries, in the event of default, the Group could be held liable to the extent of the subsidiaries' net trading liabilities at the time of default.

The Group is at any time defending a number of actions against it arising in the normal course of business. Provision is made for these actions where this is deemed appropriate. The Directors consider that adequate provision has been made for all known liabilities.

31. Related party transactions

Simón Barceló is a director and shareholder of the Barceló Corporación Empresarial SA (BCE) Group of companies. During the last 12 months the Group spent approximately £12.5m (2005: £12.8m) on hotel accommodation with BCE.

At 31 October 2005 the Group owed BCE £1.0m for such accommodation (2005: £1.3m). Viajes Barceló and Barceló Business (also part of BCE) owed the Group commission of £0.7m at 31 October 2006 (2005: £nil) and the group earned total commissions of £21.8m in the year (2005: £3.5m) from these businesses.

Susan Hooper is Senior Vice President, International Managing Director, Royal Caribbean and Celebrity Cruises International.

Royal Caribbean Cruises Ltd. (RCCL) is First Choice's joint venture partner in Sunshine Cruises Limited. The Group earned commission of £2.2m (2005: £2.2m) during the year selling Royal Caribbean Cruises.

During the year, the Group traded with its associate Hays Travel Limited, and its joint venture Sunshine Cruises Limited. The main transactions during the year were:

(a) Commissions paid to Hays Travel Limited of £2.0m (2005: £3.0m). The balance outstanding as at 31 October 2006 is £nil (2005: £nil).

(b) The Group has charged Sunshine Cruises Limited for flying, administrative services and marketing contributions net of commissions received on sales totalling £0.5m (2005: £0.4m). There is an outstanding balance of £2.4m (2005: £2.6m) within creditors as at 31 October 2006.

The compensation paid in respect of key management personnel was as follows:

	2006 £m	2005 £m
Short-term employee benefits	5.2	5.0
Post-retirement benefits	0.9	0.8
Share based payments	3.2	1.7
	9.3	7.5

Directors' remuneration of £3.4m (2005: £3.5m) is included within these amounts. The balance relates to key management personnel other than Directors. All the above amounts are included within employee costs (note 5).

32. Key accounting estimates and judgments

Accounting policies

The preparation of consolidated financial statements under IFRS requires the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent asset and liabilities and the reported amount of revenue and expenses during the year. The Group evaluates its estimates and assumptions on an on-going basis. Such estimates and judgments are based upon historical experience and other factors it believes to be reasonable under the circumstances.

Management has discussed with the Audit Committee the development, selection and disclosure of the Group's critical accounting policies and estimates and the applications of these policies and estimates.

The most important estimates and judgments are:

Goodwill carrying value

A full impairment review has been performed of all goodwill balances held across the Group on a cash generating unit basis. The impairment review is performed on a "value-in-use" basis, which requires estimation of future net operating cash flows and the time period over which they will occur. Further details are given in note 10.

Other asset carrying values

Management annually assesses the carrying value of all material assets across the Group. Key judgment areas include the carrying values of prepaid accommodation and of ships, yachts and motorboats.

Business combinations

Judgment and estimation is required in the valuation of separable assets and liabilities on acquisitions. In particular, judgment is required in the identification and valuation of separable intangible assets, being brands, orders books and customer databases, and the useful economic lives assigned.

Defined benefit pension plans

A qualified independent actuary undertakes the estimation of the present value of the Group's obligations under defined benefit pension schemes using assumptions taken from a range of possible actuarial assumptions. These assumptions may not be borne out in practice, especially due to the long timescales involved. The valuation of scheme assets is based on the fair value at the balance sheet date. As these assets are not intended to be sold in the short-term, their value may change significantly prior to realisation.

Derivative financial instruments

Judgment is required in the assessment of cash flow hedge accounting and in the assessment of the probability of forecast transactions, both at hedge inception and during the period over which hedge accounting is adopted. The value of derivative financial instruments is also judgmental. External valuations from financial institutions are undertaken to support the carrying value of such items.

Aircraft maintenance provisions

Details in respect of the estimation of aircraft maintenance provisions are given in note 21 and the accounting policy is disclosed in note 1(P).

Taxation

The Group has, from time to time, contingent tax liabilities arising from trading and corporate transactions in the UK and overseas jurisdictions. After taking appropriate external advice, the Group makes provision for these liabilities based on the probable level of economic loss that may be incurred and which is reliably measurable.

33. Explanation of transition to Adopted IFRSs

As stated in note 1, these are the Group's first consolidated financial statements prepared in accordance with Adopted IFRSs.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31 October 2006, the comparative information presented in these financial statements for the year ended 31 October 2005 and in the preparation of an opening IFRS balance sheet at 1 November 2004 (the Group's date of transition).

In preparing the opening IFRS balance sheet, the Group has adjusted amounts previously reported in financial statements prepared in accordance with its old basis of accounting (UK GAAP). An explanation of how the transition from UK GAAP to Adopted IFRSs has affected the Group's financial position, financial performance and cash flows is set out in the following tables and notes that accompany the tables.

33. Explanation of transition to Adopted IFRSs continued

Reconciliation of equity

	Note	UK GAAP 31 Oct 2004 £m	Effect of transition £m	IFRS 1 Nov 2004 £m	UK GAAP 31 Oct 2005 £m	Effect of transition £m	IFRS 31 Oct 2005 £m

33. Explanation of transition to Adopted IFRSs continued

Notes to the reconciliation of equity

(A) IAS 38, "Intangible assets", requires that computer software that is "not an integral part of the related hardware" be classified as an intangible asset. Accordingly, the carrying value of computer software of £10.4m at 1 November 2004 and £13.0m at 31 October 2005 has been re-classified from Property, Plant and Equipment to Intangible assets.

(B) Assets that meet the criteria for an asset held for sale under IFRS 5, "Assets held for sale and discontinued operations", should be re-classified as such in the balance sheet. This has led to re-classifications with a net book value of £2.1m at 1 November 2004 and £9.0m at 31 October 2005, relating to yachts, boats, properties and fond de commerce agreements.

(C) In line with IAS 38, "Intangible Assets", all prepaid advertising, marketing and other direct costs of selling holidays are required to be written off as incurred. Under UK GAAP the Group carried such costs on balance sheet, matching them to the season to which they related. This has led to a reduction in net assets of £69.9m at 1 November 2004 (including joint venture and associate £0.9m) and £70.3m at 31 October 2005 (including joint venture and associate £0.9m).

(D) Accommodation prepayments relating to a period outside of the current operating cycle have been re-classified from current to non-current receivables in accordance with IAS 1. The size of this adjustment was £38.7m at 1 November 2004 and £60.6m at 31 October 2005.

(E) Deferred tax assets and liabilities are required to be shown separately on the face of the balance sheet in accordance with IAS 12, "Taxation". At 1 November 2004, £5.6m of existing deferred tax assets have been re-classified from current receivables to non-current deferred tax assets and £15.0m of existing deferred tax liabilities have been re-classified from provisions to non-current deferred tax liabilities. These adjustments were £11.1m and £18.3m respectively at 31 October 2005.

(F) In line with IAS 12, "Taxation", £33.2m of new deferred tax assets and £5.5m of deferred tax liabilities, net £27.7m, were created upon transition to Adopted IFRSs at 1 November 2004. At 31 October 2005, new deferred tax assets of £38.7m and new deferred tax liabilities of £5.5m, net £33.2m, were created.

(G) Current finance lease liabilities of £6.2m have been re-classified from trade payables to interest bearing liabilities and £19.3m for other long-term liabilities to non-current interest bearing liabilities at 1 November 2004. Similar re-classifications of £16.4m and £2.5m respectively occurred at 31 October 2005.

(H) IAS 19, "Employee benefits", requires the Group to accrue for unused annual leave at each balance sheet date. An accrual of £4.0m has therefore been included within the Groups balance sheet at 1 November 2004 and 31 October 2005.

(I) Under Adopted IFRSs, dividends are only deducted from equity once the dividend is an unavoidable liability. At 1 November 2004, the interim dividend for the year ended 31 October 2004, of £9.0m, had not been paid and the proposed 2004 final dividend of £19.4m had not yet been approved by the shareholders. Under UK GAAP, these dividends were accrued as liabilities at 1 November 2004. This liability has been reversed under Adopted IFRSs.

Similarly, dividends totalling £34.4m, which had been accrued at 31 October 2005, have been reversed and added back to equity at that date.

(J) IFRS 2, "Share-based payments", requires that the fair value of share options issued to employees should be calculated and charged to the income statement over the vesting period. The IFRS 2 fair value charge calculated is less than the charge previously accrued by the Group, leading to a write back to accruals of £0.8m at 1 November 2004 and £2.8m at 31 October 2005.

(K) Lease incentives and reverse premiums should be accounted for over the life of the lease term under IFRS, as opposed to until the period of the first rent review under UK GAAP. The Group has therefore written back deferred income of £2.8m at 1 November 2004 and £2.9m at 31 October 2005 in line with recognising such incentives over the full lease term.

(L) The transition to Adopted IFRSs has the impact of decreasing net assets by £3.1m at 1 November 2004 and £4.5m at 31 October 2005 for other movements.

(M) Previously under UK GAAP the Group classified all aircraft maintenance provisions are being payable in greater than one year. Under Adopted IFRSs, £14.8m at 1 November 2004 and £21.3m at 31 October 2005 has been re-classified as being due to be paid within one year.

(N) IAS 19, "Employee benefits", requires that the Group's deficit in relation to defined benefit pension schemes is brought on balance sheet. At 1 November 2004, an existing provision of £1.9m has been increased by £30.8m to give a total liability of £32.7m. At 31 October 2005 a liability of £34.2m was recognised. Both of these liability balances were obtained via actuarial valuations.

(O) IFRS requires that minority interests be shown as part of equity as opposed to non-current liabilities under UK GAAP.

(P) Goodwill is no longer amortised under Adopted IFRSs, with effect from 1 November 2004, leading to a write back under IFRS of £24.9m (including joint venture £0.2m). Offsetting this is £1.9m of amortisation relating to acquired intangible assets.

33. Explanation of transition to Adopted IFRSs continued

(Q) Total equity has been reduced by £53.3m at 1 November 2004 and £26.1m at 31 October 2005 in line with the above adjustments.

A breakdown of these adjustments is:

	Note	1 November 2004 £m	31 October 2005 £m
Prepaid advertising and marketing	C	(69.9)	(70.3)
Defined benefit pension liability	N	(30.8)	(38.2)
Holiday pay accrual	H	(4.0)	(4.0)
Dividend recognition	I	28.6	34.5
Share-based payments	J	0.8	2.8
Lease incentives	K	(2.8)	(2.9)
Taxation	F	27.7	33.2
Goodwill	P	–	24.9
Amortisation of business combination intangibles	P	–	(1.9)
Minority interest	O	0.2	0.3
Other	L	(3.1)	(4.5)
Impact on net assets		(53.3)	(26.1)

Included in these reconciliations are further adjustments necessary to achieve Adopted IFRSs compared to the reconciliations published on 23 March 2006 and available from the "Media-Press Releases" section of the Group's website, www.firstchoiceholidaysplc.com.

These additional adjustments have had no impact on the Income Statement and are principally in respect of the recognition of 2004 and 2005 interim dividends.

The presentation of revenue and cost of sales under both UK GAAP and Adopted IFRSs has also been revised to more accurately reflect the nature of activities undertaken in the Online Destination Services Sector, where the Group acts as an intermediary between service provider and customer. This change has reduced the previously reported comparative ODS revenue and cost of sales by £137.0m each.

33. Explanation of transition to Adopted IFRSs continued

Reconciliation of equity at 1 November 2005 on implementation of IAS 32 and 39

Minority interest	0.3	–	0.3
Total equity	276.2	(0.3)	275.9

33. Explanation of transition to Adopted IFRSs continued

Notes to the reconciliation of equity at 1 November 2005 upon implementation of IAS 32 and 39
To adopt IAS 32 and IAS 39 within the balance sheet as at 1 November 2005, the following adjustments have been necessary:

- The recognition on balance sheet of the fair value of derivative financial assets of £23.0m and the fair value of derivative financial liabilities of £18.9m. Unrealised fair value gains of £6.3m on cash flow hedges are included within the hedging reserve. Unrealised fair value losses of £2.2m on fair value hedges are included within retained earnings. Under UK GAAP derivatives were held off balance sheet and were recognised at the time of the hedged transaction.

- IAS 21 requires that monetary items (e.g. cash, debtors, accounts payable) that are denominated in a currency other than an individual entities reporting currency should be translated at the spot rate at the balance sheet date. Many businesses within the Group already translated at the closing spot exchange rate at each reporting date under UK GAAP. Re-translation of such items is however required in some business units where assets and liabilities have previously been translated at the contracted rate, in accordance with UK GAAP. The impact of this change is to decrease net assets by £4.6m at 1 November 2005.

The total adjustment to net assets, after tax, has been recorded directly to equity and is summarised below:

	Derivative financial instruments £m	Translation at spot rate £m	Deferred tax impact £m	Total £m
Non-current assets				
Trade and other receivables	–	(8.3)	–	(8.3)
Deferred tax assets	–	–	2.1	2.1
Current financial assets				
Derivative financial instruments	23.0	–	–	23.0
Current liabilities				
Trade and other payables	–	(3.9)	–	(3.9)
Finance leases	–	1.4	–	1.4
Loans	–	2.0	–	2.0
Derivative financial instruments	(18.9)	–	–	(18.9)
Non-current liabilities				
Provisions	–	4.2	–	4.2
Deferred tax liabilities	–	–	(1.9)	(1.9)
	4.1	**(4.6)**	**0.2**	**(0.3)**
Equity				
Cash flow hedging reserve	6.3	–	(1.9)	4.4
Retained earnings	(2.2)	(4.6)	2.1	(4.7)
	4.1	**(4.6)**	**0.2**	**(0.3)**

Derivative financial instruments at 1 November 2005 relate to forward foreign exchange contracts, interest rate swaps and fuel swaps. These instruments are used to reduce the exposure of the Group to movements in foreign exchange rates, interest rates and the price of fuel.

33. Explanation of transition to Adopted IFRSs continued

Reconciliation of income

	Note	Year 31 October 2005 UK GAAP £m	Effect of transition £m	Year 31 October 2005 IFRS £m
Revenue	G	2,441.6	–	2,441.6
Cost of sales	G	(2,084.2)	0.8	(2,083.4)

Ordinary shareholders		45.8	24.3	70.1
Preference shareholders		10.0	–	10.0
Minority interest		0.2	–	0.2
Profit for the year		56.0	24.3	80.3
Basic EPS		10.8p	2.7p	13.5p
Diluted EPS		10.6p	2.6p	13.2p

Notes to the reconciliation of income

(A) In line with IFRS 2, "Share-based payments", the Group has calculated the expense to be charged to the income statement using binomial and simulation models. The fair value charged calculated by these is lower than the charge calculated using a UK GAAP basis, giving an upside of £0.8m in the year ending 31 October 2005.

(B) Amortisation of acquired intangible assets during the year was £1.9m.

(C) Under UK GAAP, taxation of profits from joint venture and associates is included with the normal taxation charge calculated on profit before tax. Under IFRS, the tax charge for joint ventures and associates of £0.9m is offset against the profit from these businesses.

(D) Goodwill is no longer required to be amortised under IFRS 3. Instead, it is subject to an annual impairment review.

(E) In line with IAS 19, "Employee Benefits", the return on assets of defined benefit pension schemes is classed as financial income and the interest cost on the pension scheme liabilities is shown as a financial expense. Under UK GAAP the pension charge went through cost of sales.

(F) Other minor adjustments to the income statement were upsides of £0.2m in administrative expenses and £0.3m in the tax charge for the year.

(G) Revenue and cost of sales have been restated under both UK GAAP and Adopted IFRSs as set out in note 1 to the accounts.

Cash flow statement

There have no material changes between the cash flow statement presented under UK GAAP and that presented under Adopted IFRSs.

34. Historical record

35. Principal operating subsidiaries

All the principal operating subsidiaries listed below were wholly owned and were consolidated at 31 October 2006. Principal operating subsidiaries are those which, in the opinion of the Directors, significantly affected the Group's results and net assets during the year. The Directors consider that those companies not listed are not significant in relation to the Group as a whole.

All of the subsidiaries have only ordinary share capital except for Signature Vacations Inc., which also has convertible, redeemable preference shares all of which are owned by the Group. Subsidiaries marked with an * are directly held by First Choice Holidays PLC. A full list of subsidiaries will be included in the Company's annual return.

A. Accounting policies

Basis of preparation

Except in respect of changes of accounting policy set out below, the following accounting policies have been consistently applied in dealing with items considered material in relation to the Company's financial statements.

Accounting convention

The financial statements have been prepared in accordance with applicable UK accounting standards and under the historical cost convention as modified by the revaluation of certain fixed assets. The financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operational existence for the foreseeable future.

The Company has taken advantage of the exemption under Section 230(4) of the Companies Act 1985 from presenting its own profit and loss account. The profit after tax included in the financial statements of First Choice Holidays PLC, determined in accordance with the Act, was £1.9m (2005 restated: £86.9m).

Under Financial Reporting Standard No 1 (revised), the Company is exempt from the requirement to prepare a cash flow statement as its cash flows are included within the published consolidated statement of cash flows of First Choice Holidays PLC.

The Company has taken advantage of the exemption contained within FRS 8 and has not therefore disclosed transactions or balances with entities which form part of its Group.

Prior year adjustments and changes in accounting policy

The Company has adopted the following new Financial Reporting Standards during the year:

FRS 20: "Share-based payment"

FRS 20 requires that the fair value of share options granted to employees is recognised as an expense with a corresponding increase in equity. However, during the current and prior year, the Company had no employees and only issued share options to employees of its operating subsidiaries. Consequently, no profit and loss charge has been recorded in the current or prior year. Previously, under UITF 17 (revised 2003), the intrinsic value of share options issued at a discount was recognised as an expense. Adoption of FRS 20 has restated and increased profit after tax for the year ended 31 October 2005 by £2.2m with a corresponding charge to equity. There is therefore no prior year adjustment to the value of net assets at 31 October 2005.

FRS 21: "Events after the balance sheet date"

FRS 21 requires dividends are recorded as liabilities in the period in which they are authorised and approved. Previously, proposed dividends were recorded as liabilities in the period, notwithstanding that they were declared and approved after the balance sheet date. This change in accounting policy has resulted in dividends proposed in December 2005 and recorded in the balance sheet at 31 October 2005 only being recognised during the current year. The impact of this restatement is to increase net assets at 31 October 2004 and 31 October 2005 by £28.6m and £34.5m respectively.

FRS 25: Financial instruments "Disclosure and presentation"

The Company has adopted, with effect from 1 November 2005, the disclosure and presentation requirements of FRS 25. Comparative financial information has not been restated.

FRS 26: Financial instruments "Measurement"

The Company has adopted, with effect from 1 November 2005, the measurement requirements of FRS 26. Comparative financial information has not been restated.

Investments

In the Company's financial statements, investments in subsidiaries, joint venture and associate undertakings are stated at cost less provision for impairment. Dividends received and receivable are credited to the Company's profit and loss account.

Foreign currencies

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Sterling at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to Sterling at foreign exchange rates ruling at the dates the fair values were determined.

Interest-bearing borrowings
Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any differences between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest rate basis.

Classification of financial instruments issued
Financial instruments issued by the Company are treated as equity only to the extent that they meet the following conditions: they include no contractual obligation upon the Company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the Company and; where the instrument will or may be settled in the Company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the Company's own equity instruments or is a derivative that will be settled by the Company exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

Taxation
The charge for taxation is based on the profit or loss for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Except as otherwise required by accounting standards, full provision without discounting is made for all timing differences, which have arisen but not reversed at the balance sheet date. Timing differences arise when items of income and expenditure are included in tax computations in periods different from their inclusion in the financial statements.

Dividend distribution
Dividend distribution to the Company's shareholders is recognised as a liability and deducted from equity in the Group's financial statements in the period in which the dividends are appropriately authorised and approved for payment and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

B. Directors' remuneration and employees
Details of directors' emoluments, gains made by them on exercise of share options, amounts receivable by them under long-term incentive schemes and pension entitlements in the current and prior years are contained in the Report of the Board to Shareholders on Directors' Remuneration.

The Company had no employees.

Details of share options issued by the Company are given in note 5 to the consolidated financial statements.

C. Dividends
Details of dividends paid and proposed by the Company in the current and prior year and details of dividends proposed subsequently to the balance sheet date are given in note 8 of the consolidated financial statements.

D. Investments

	Shares in subsidiaries £m	Investment in joint venture £m	Investment in associate £m
Cost			
At 1 November 2005	537.9	35.9	2.9
Acquisitions	52.3	–	–
At 31 October 2006	**590.2**	**35.9**	**2.9**
Provision for diminution in value

At 31 October 2006	**15.9**	**242.0**	**201.4**	**165.8**	**39.3**	**664.4**	**696.5**

No profit and loss account is presented for First Choice Holidays PLC as provided by Section 230 of the Companies Act 1985. The profit after taxation for the financial year of First Choice Holidays PLC was £1.9m (2005: profit after taxation of £86.9m).

Shareholders' funds are all due to equity shareholders.

K. Contingent liabilities

Under the terms of guarantees given to the Civil Aviation Authority and other relevant authorities by the Company in respect of certain subsidiaries, in the event of default the Company could be held liable to the extent of the subsidiaries' net trading liabilities at the time of default.

The Company, and its subsidiaries, is at any time defending a number of actions against it arising in the normal course of business. Provision is made for these actions where this is deemed appropriate.

Where the Company enters into financial guarantee contracts to guarantee the indebtedness of other companies within its group, the Company considers these to be insurance arrangements and accounts for them as such. In this respect, the Company treats the guarantee contract as a contingent liability until such time as it becomes probable that the Company will be required to make a payment under the guarantee.

BOARD OF DIRECTORS

Sir Michael Hodgkinson
Chairman (Age 62)
Sir Michael Hodgkinson joined the Board as Non-Executive Director on 1 January 2004 and became Chairman on 11 March 2004. Following an early career in the automotive industry, Sir Michael was appointed Chief Executive of Grand Metropolitan's European Food Division in 1986 and in 1992 he joined BAA plc, becoming Chief Executive in 1999, a post from which he retired in June 2003.

He is Senior Non-Executive Director at Royal Mail and Chairman of Post Office Limited and a Non-Executive Director of FKI plc, Transport for London Limited and Dublin Airport. He was also a director of Bank of Ireland plc from May 2004 until July 2006.

Sir Michael has in-depth experience of both substantial public companies and the travel industry.

Peter Long
Chief Executive (Age 54)
Peter Long joined the Board on 1 October 1996 as Managing Director of First Choice Holidays & Flights. On 11 November 1996 he was appointed Group Managing Director and became Chief Executive on 6 September 1999. Prior to joining First Choice Holidays PLC, he was Chief Executive of Sunworld Holidays, having previously been Finance Director then Chief Executive of the tour operating division of the International Leisure Group.

In October 2002 he was appointed a Non-Executive Director of Rentokil Initial Plc and joined the Board of Debenhams PLC as a Non-Executive Director in May 2006. He was a director of RAC plc (formerly Lex Service Plc) from February 2001 to June 2005.

Paul Bowtell
Group Finance Director (Age 38)
Paul Bowtell joined the Board as Group Finance Director on 6 September 2004. He was previously the Finance Director of British Gas, a subsidiary of Centrica plc, where he had been since January 2002. Prior to that, he was with W H Smith plc where he held a number of corporate centre roles before becoming the Finance Director of the UK Retail business. He is an Associate of the Institute of Chartered Accountants in England and Wales.

Bill Dalton
Non-Executive Director (Age 63)
Bill Dalton became a Non-Executive Director on 6 October 2004. He was previously Chief Executive of HSBC Bank plc and Global Head of Personal Financial Services for the HSBC Group. During his banking career, he has amassed a great deal of international expertise. Bill is also a Non-Executive Director of a number of UK and North American companies including Swiss Re GB plc, Associated Electric and Gas Insurance Services (AEGIS), HSBC Finance, Inc and Talisman Energy, Inc.

Simón Barceló
Non-Executive Director (Age 40)
Simón Barceló joined the Board on 6 July 2000 in accordance with the terms of the Relationship Deed between Barceló Corporación Empresarial SA and the Company. On 30 August 2002 he resigned his executive position as President of the Barceló Travel Division, as envisaged at the time of the acquisition, and became a Non-Executive Director.

He was Senator for Mallorca and occupied the 3rd Secretariat of the Spanish Senate from October 1989 to July 1993. From July 1993 to February 2000 he was Vice-Chairman of Barceló Corporación Empresarial and was appointed Chairman and CEO in June 2000.

Susan Hooper
Non-Executive Director (Age 46)
Susan Hooper joined the Board as a Non-Executive Director on 10 March 2005. She is currently the Senior Vice President, International Managing Director, Royal Caribbean and Celebrity Cruises International. She joined Royal Caribbean from Avis Europe where she was Commercial Vice-President. Prior to this she gained extensive international experience with Saatchi & Saatchi, McKinsey & Co and PepsiCo International.

Susan is currently a Director of Sunshine Cruises Limited (the joint venture between First Choice and Royal Caribbean), Transcom Worldwide SA and is a trustee of The Suzy Lamplugh Fund.

Dermot Blastland
Managing Director (Age 56)
Mainstream Holidays Sector
Dermot Blastland joined the Board on 6 September 1999. He is Managing Director, Mainstream Holidays, and is the Group Board Director with responsibility for Sustainable Development, having previously held positions as Managing Director of First Choice Holidays and Flights, Ski, Lakes & Mountains and President of Signature Vacations. Prior to joining the Company in February 1988, he was Commercial Director at Thomson and subsequently Managing Director of Portland Holidays.

Tony Campbell
Non-Executive Director and Senior Independent Director (Age 57)
Tony Campbell became a Non-Executive Director on 1 April 1997. He was Deputy Chief Executive of Asda Stores Limited and a director of Asda Stores PLC until 2 March 2001. He is Chairman of Hobbs Headco Limited, Chairman of T M Lewin and Sons Ltd. and a director of Alaska Food Diagnostics Limited.

Clare Chapman
Non-Executive Director (Age 46)
Clare Chapman became a Non-Executive Director on 11 March 2003. She has been appointed as the Director General of Workforce for the NHS and Department of Health and takes up her new position in January 2007. Prior to this she was the Group HR Director of Tesco PLC.

In addition, Clare serves on the Board of the Qualifications and Curriculum Authority (QCA) and on the Advisory Board of the Judge Business School, University of Cambridge.

Jeremy Hicks
Non-Executive Director (Age 53)
Jeremy Hicks became a Non-Executive Director in February 2005. He is the Finance Director of Aegis plc where he has overseen the expansion of the business from a European media agency into a global business with twin competences in media and market research.

Up until 1999 he was Finance Director of Abbot Mead Vickers plc (AMV), where he played a key role in the strategic development of the Company into one of the largest marketing services groups in the UK.

Giles Thorley
Non-Executive Director (Age 39)
Giles Thorley became a Non-Executive Director in February 2006 and is currently the Chief Executive Officer of Punch Taverns plc.

After qualifying as a Barrister, he had an early career at Nomura International plc. He has been in his current post of Chief Executive of Punch Taverns plc since 2001. At Punch, he successfully led the IPO and Punch's subsequent acquisition of Pubmaster and Spirit Group to its current position as the largest pub company in the UK.

The Directors submit their report to the members of First Choice Holidays PLC for the year ended 31 October 2006.

Results and dividends
The Group profit before taxation for the year was £97.5m (2005: £112.2m).

The Directors recommend a final dividend of 5.40p (2005: 4.65p) net per ordinary share, payable on 10 April 2007 to holders on the register at the close of business on 9 March 2007. When taken with the interim dividend of 2.25p (2005: 1.95p) net per ordinary share paid on 1 November 2006, this gives a total dividend of 7.65p (2005: 6.60p) relating to the year ended 31 October 2006.

Business review and activity
The Group's principal activity is that of an international leisure travel business providing integrated tour operations, specialist holidays and online accommodation. It operates from 17 countries including the UK, Ireland, the USA, Canada, France, Germany and Spain.

The Business and Financial Review for the year ended 31 October 2006 is set out on pages 4 to 21.

People agenda
It is our vision to be the "First Choice" for people wanting to work in leisure travel. Achieving this vision helps drive profitable growth across the Group.

First Choice operates a global portfolio of businesses, employing approximately 15,000 people across the Group – based in the UK and throughout the USA, Canada, Africa, Asia, Australia and Continental Europe. Although businesses within our portfolio are at various stages of development and maturity, together we all share common values. Our aim is to reward, develop and promote our people in a way that is right for them, taking into account the environment in which they operate.

Our commitment is to:

- engage employees in our aims and success – and in issues that affect them.
- promote a positive workplace.
- reward them in a way which is relevant to them and reflects their contribution to the Group's success.

Rewarding people and valuing their contribution
First Choice's goal is to have a reward strategy which underpins business objectives within Group-wide principles which provide a framework for local environments. Recognising and rewarding our employees in ways that are effective for them is a key driver for engagement and high performance. Our reward strategy takes into account base pay, competency pay, incentives, benefits and non-cash based rewards. We make every effort to measure the input and results of both individuals and teams. Many UK employees participate in the Share Incentive Plan, giving them an interest in the financial performance of their Company.

Ensuring our employees share our aims and are involved in matters that affect them is a key challenge for us. We employ people in many countries around the world – a significant number of whom are engaged on a seasonal basis. We start by employing people we believe share our passion for our customers and products and build engagement through consultation and by providing regular local and global updates in ways which suit our employees' working environment and culture.

We encourage the participation of employees through frequent "Work in Partnership" meetings led by senior management. Regular meetings also take place with recognised trade unions. The "First Voice" survey is sent to all employees worldwide and we monitor the responses closely and adapt and change policies and practices taking account of the comments and views of employees.

We have recently established a new extranet website to enhance communications across the whole Group and this now provides a central source where all employees can find both external and internal information about the Sectors and various businesses in the Group. Additionally each Sector has its own tailored approach to communication which reflects its particular needs.

As a Group we operate in diverse cultures and understand the need to rule out discrimination on any grounds including ethnicity, gender, disability and age. If applicable and possible, alternative suitable employment would be found for any employee who becomes disabled during the course of employment provided that they can be employed in a safe working environment. We continue to develop policies on non-discrimination and inclusiveness in line with best practice and these are incorporated into training for line managers as a key part of induction programmes. Unfair treatment of any employee is not tolerated and a confidential hotline is available for all employees worldwide – there is a translation service in place for non-English speaking employees.

Attracting, developing and retaining talent
We continue to be proud of the commitment and dedication of our employees in achieving the levels of service and efficiency which make First Choice stand out from our competitors. Every effort is made to encourage and develop all employees to realise their maximum potential. We are committed to using the most effective recruitment methods in all the countries in which we operate and to build skills and knowledge in ways which suit both the business and our employees.

We continue to invest in our leadership capability. For example, the majority of our senior managers have now attended a Strategic Leadership programme at an International Business School. This programme, which extends across all Sectors of the Group, builds the skills and capability of those with the greatest responsibility for leadership and strategy. Investment in the capability of our people is a priority and all employees have had the opportunity to provide feedback on their training needs for the coming year.

Each year our employees have the opportunity to meet their line manager at least once to discuss their performance over the previous year and make plans for development in the coming year. The "Personal Development Update" allows individuals to identify training opportunities and understand the role they play in First Choice's success. The update is designed to ensure that each person has objectives supporting business plans.

Retaining key employees is critical to our continued business success. Group-wide talent is reviewed on a regular basis at Board level and our focus is to retain and develop individuals to carry the business forward. We actively move people to career opportunities across the Group to enhance the mix of innovative, entrepreneurial and general management skills. In order to meet seasonal demands we continue to move our best frontline staff between retail, overseas representation and airline cabin crew roles. This develops a multi-skilled workforce that has year-round experience of working with our customers.

Policy and practice on payment of suppliers

Group – First Choice Holidays PLC and subsidiary companies

The Group's operating units are responsible for agreeing the terms and conditions under which business transactions with their suppliers are conducted. Due to the nature of the Group's operations and in common with the industry as a whole, payments are often made in advance of the provision of goods and services. The Group does not follow any code or statement on payment practice but it is Group policy that payments to suppliers, whether in advance or after the provision of the goods or services, are made on the basis of the terms that have been agreed with them.

Company – First Choice Holidays PLC

The Company has no material contracts for the supply of goods or services. Where the Company is the recipient of goods or services, payment of suppliers is conducted by one of the Group companies in accordance with the policy set out above.

Directors

The Directors who served during the year are set out below:

Sir Michael Hodgkinson	Non-Executive Chairman	
Peter Long	Chief Executive	
Paul Bowtell	Group Finance Director	
Dermot Blastland	Managing Director, Mainstream Holidays	
Tony Campbell	Non-Executive Director and Senior Independent Director	
Clare Chapman	Non-Executive Director	
Simón Pedro Barceló Vadell	Non-Executive Director	
Jeremy Hicks	Non-Executive Director	
Susan Hooper	Non-Executive Director	
Bill Dalton	Non-Executive Director	
Giles Thorley	Non-Executive Director	Appointed 1 February 2006

As at 31 October 2006, the Board comprised three Executive Directors and eight Non-Executive Directors (including the Chairman). There have been no changes to the Board since that date. Biographical details of all the Directors are set out on pages 80 to 81. In accordance with the Articles of Association, one-third of the Board members will retire by rotation and additional biographical details to enable shareholders to make an informed decision on the reappointment of the Non-Executive Directors are contained in the 2007 Notice of the Annual General Meeting (AGM). The Directors retiring by rotation at the AGM are Peter Long, Simón Barceló, Bill Dalton and Paul Bowtell. Peter Long, Bill Dalton and Paul Bowtell intend to offer themselves for re-election and are eligible to do so. The Board recommends to shareholders the reappointment of all four Directors retiring at the meeting and offering themselves for reappointment on the basis that they are all effective Directors of the Company and demonstrate the appropriate level of commitment in their respective roles. Tony Campbell retires in accordance with the Combined Code, which requires that he submits to annual re-election, as he has more than nine years' continuous service as a Non-Executive Director. The Board, including all the other members deemed independent, is completely satisfied that he remains independent in character and judgment.

The terms of the Directors' service contracts are disclosed in the remuneration report commencing on page 85. Directors' interests in the shares of the Company are disclosed on page 89. Directors' interests in any contract of significance to the Group's business are disclosed in note 31 to the accounts.

Directors' Insurance

The Company has purchased, and maintained throughout the year, directors' and officers' liability insurance.

Substantial shareholdings

As at 6 December 2006 the Company was aware of the following interests in the issued ordinary share capital of the Company:

	Shares (millions)	%
Scottish Widows Investment Partnership	52,316,224	9.87
Newton Investment Management	44,907,044	8.47
Barclays PLC	36,189,762	6.83
Legal & General	35,963,421	6.78
Barceló Corporación Empresarial SA	32,625,919	6.15
M&G Investment Management	26,418,428	4.98
Goldman Sachs International	21,520,010	4.06

Save as above, no other person has reported an interest, which is notifiable under the Companies Act 1985, being an interest of 3% or more in the issued ordinary share capital.

Going concern
After making appropriate enquiries, the Directors have reasonable expectation that the Company and Group have adequate resources to continue operations for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the Accounts.

Charitable and political donations
During the year, the Group made charitable donations of £87,000 (2005: £87,000). The Group made no political contributions during the year (2005: £nil).

Financial instruments
Details of the Group's financial risk management objectives and related policies are given in note 25 to the financial statements.

Auditors
In accordance with Section 384 of the Companies Act 1985, a resolution regarding the reappointment of KPMG Audit Plc as auditors of the Company will be proposed at the forthcoming Annual General Meeting.

Statement of the Directors as to disclosure of information to Auditors
The Directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's Auditors are unaware; and each director has taken all the steps that he or she ought to have taken as a director to make himself or herself aware of any relevant audit information and to establish that the Company's Auditors are aware of that information.

Other matters
An explanation as to the business, other than routine business, to be transacted at the Annual General Meeting which is to be held on Wednesday 7 March 2007 at 10.30am, is contained in the explanatory notes to the Notice of Annual General Meeting which accompanies this Report and Accounts.

By Order of the Board

Andrew John
Company Secretary
6 December 2006

Remuneration Committee

The Remuneration Committee (the Committee) is responsible for all aspects of remuneration and contractual terms and conditions of the Executive Directors and members of the Group Management Board (GMB). The Remuneration Committee sets the remuneration policy and strategy for these employees and determines appropriate reward packages for them. The activities of the Committee are governed by its Terms of Reference, which have been approved by the Board and can be found on the First Choice Holidays PLC website at www.firstchoiceholidaysplc.com

The Committee is composed entirely of independent Non-Executive Directors. No member of the Committee has any personal financial interest (other than as a small shareholder – as disclosed in the interests in shares and options table on page 89) in the business of the Group. There are no conflicts of interest arising from Committee members' cross-directorships and they do not participate in any bonus schemes, pension plans, share options or any employee share scheme. Members of the Remuneration Committee have no day-to-day involvement in the running of the Group.

The current membership of the Remuneration Committee is:

Clare Chapman (Chairman)
Tony Campbell
Bill Dalton

During the year, the Committee met on four occasions.

The Committee has appointed Mercer Human Resource Consulting (Mercer) to provide independent advice on all aspects of senior management remuneration. Mercer also provides salary benchmarking information to the Group from time to time and external verification of the calculations of the performance conditions used in the Performance Share Plan and Deferred Annual Bonus Scheme (explained in greater detail below).

In addition, the following principal advisers provided advice to the Committee during the year:

- Watson Wyatt Limited prepared the Total Shareholder Return (TSR) calculations for the Restricted Share Plan. Watson Wyatt does not have any other connection with the Group.
- Herbert Smith advised on the Directors' Remuneration Report and on various legal issues relating to the Company's share schemes. Herbert Smith also advises the Group on legal issues generally.

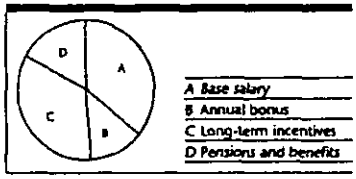
Peter Long (Chief Executive) attends meetings of the Committee to make recommendations relating to the performance and remuneration of his direct reports. Bill Logan (Group HR Director) also provides advice and guidance to the Committee. Andrew John (Company Secretary) acts as Secretary to the Committee. Peter Long, Bill Logan and Andrew John are not in attendance when their own remuneration is considered.

The Committee is constituted, and operated throughout the review period, in accordance with the relevant provisions of the Combined Code. This report complies with the Directors' Remuneration Report Regulations 2002. A resolution will be put to the shareholders at the Annual General Meeting on 7 March 2007 inviting them to consider and approve this report.

Remuneration policy

The objective of the Group's remuneration policy is to provide competitive packages to motivate, reward and retain high-calibre individuals at senior management level. The main principles of this policy are to:

- set the total remuneration package at an appropriate level to reflect the competitive market in which the Group operates.
- link a substantial proportion of the total remuneration package to the achievement of demanding performance targets.
- structure the reward of senior management to align their interests with those of the shareholders.
- ensure the development of a high-performance culture throughout the Group.



The remuneration arrangements are kept under regular review to ensure that they are appropriate and the last extensive review was undertaken in 2004, with new long-term incentive plans put in place in 2005. The Committee believes that the current arrangements remain appropriate.

Elements of remuneration

The Executive Directors' total remuneration consists of the following elements:

- Base salary.
- Annual bonus.
- Long-term incentives.
- Pensions and life assurance.
- Other benefits.

The chart below sets out the balance between fixed pay (A and D) and performance related pay (B and C) under the current arrangements.

Base salary

The Committee's policy is that base salaries for the Executive Directors should be paid at a market-competitive level measured against base salaries paid for equivalent roles in UK companies of broadly similar size and complexity and from which the Group attracts talent. The Committee assesses the market information and applies its judgment in setting the salary levels – having regard to job size, function and personal performance. It reviews the base salaries of Executive Directors annually and takes note of relative pay and employment conditions within the Group in determining annual salary reviews.

Annual bonus
Each Executive Director participates in an annual non-pensionable bonus plan. The Committee reviews the targets on an annual basis. The maximum bonus potential is 100% of base salary for the Chief Executive and 87.5% for the other Executive Directors. For the financial year ending 31 October 2006, the annual bonus performance targets related to the achievement of pre-tax profits and strategic personal objectives. For the Chief Executive and Finance Director, 80% of the annual bonus was based on Group pre-tax profit and 20% on personal objectives. For the Managing Director of the Mainstream Holidays Sector, 40% of his annual bonus was based on Group pre-tax profit, 40% on pre-tax profit of the Mainstream Sector and 20% on personal objectives. The achievement of strategic personal objectives by the Executive Directors is considered by the Committee when determining the level of any bonus awards. In aggregate, bonuses of £1,078,000 were awarded to the Executive Directors for the year under review (2005: £1,186,250).

Long-term incentives
As a result of the Group's transition to reporting under Adopted IFRSs, the Group's additional measure of earnings per share (EPS) is calculated as set out in note 9. The Remuneration Committee will use this measure of EPS in the performance conditions for the long-term incentive plans. References to EPS in the remainder of this report are to the EPS measure currently included in the various schemes' rules.

Deferred Annual Bonus Scheme (DABS)
The Deferred Annual Bonus Scheme was approved at the AGM in March 2005. Under the DABS, the Executive Directors are required to defer 25% of their performance-related annual bonus and have the opportunity to defer up to an additional 25% of their bonus into Company Shares (deferred shares). A conditional award of matching shares equal to four times the number of deferred shares is made at the same time.

Deferred shares normally vest after three years and matching shares also vest after three years subject to the achievement of performance conditions, as determined by the Committee. No matching shares will vest unless the annual average of the ratio of the Group's return on invested capital (ROIC) to the weighted average cost of capital (WACC) exceeds 100% over the 3-year period. A hurdle of ROIC, being at least equal to WACC, is used to ensure that the relevant long-term incentive schemes pay out only when shareholder value is being created over the performance periods. If the ROIC/WACC hurdle is met, shares will only vest to the extent to which two further performance conditions are satisfied over the 3-year period as follows:

- Up to three-quarters of the matching shares will vest based on growth in the Group's EPS, before goodwill amortisation and exceptional items, in relation to the growth in the UK Retail Price Index (RPI) as shown in the table below:

Average annual EPS growth in excess of RPI growth	Proportion of matching shares vesting
Below 4%	0%
Between 4% and 13%	On a straight-line basis between 10% and 100%
13% or above	100%

- Up to one-quarter of the matching shares will vest based on the Group's ranking of Total Shareholder Return (TSR) performance in relation to the TSR of the FTSE mid-250 constituents (excluding Investment Trusts) over the three-year period as shown in the table below:

TSR Ranking	Proportion of matching shares vesting
Below median	0%
Between median and upper quartile	On a straight-line basis between 10% and 100%
At or above upper quartile	100%

The Committee considers that EPS and TSR are the key performance conditions that are most relevant to the Group. EPS is a key indicator of the Group's underlying financial performance whilst TSR is a relative measure of shareholder value creation. There will be no re-testing of the performance conditions after the three-year performance period.

The first bonus deferral under the DABS was made in December 2005, based on the annual bonus earned in the financial year ended 31 October 2005. The deferred shares under this first award will vest in two tranches: two-thirds of the award will vest in December 2007 and the remainder in December 2008. This first award is in two tranches to acknowledge the time delay from the introduction of the scheme to the release date and only applies to the December 2005 deferral – thereafter all bonus deferrals will vest after three years as described above. In aggregate, matching shares of 1,034,900 were awarded to Executive Directors for the year ended 31 October 2005. The Executive Directors elected to defer an additional 25% of the annual bonus entitlement for the year ended 31 October 2005 (50% of the annual bonus in total).

Performance Share Plan (PSP)
Under the PSP, the Executive Directors are eligible to receive conditional awards of shares annually, which vest after a three-year period subject to the achievement of performance conditions, as determined by the Committee. No shares will vest unless the ROIC/WACC hurdle, which is the same hurdle as for the DABS above, is met over the three-year period.

If the ROIC/WACC hurdle is met, shares will only vest to the extent to which a performance condition based on growth in EPS, before goodwill amortisation and exceptional items, in relation to RPI growth over the three-year period is met, as shown in the table below:

Average annual EPS growth in excess of RPI growth	Proportion of shares vesting
Below 4%	0%
Between 4% and 13%	On a straight-line basis between 10% and 100%
13% or above	100%

There will be no re-testing of the performance conditions after the three-year performance period. The Chief Executive will be eligible to receive an annual award equivalent to 100% of his salary and the other Executive Directors will be eligible to receive annual awards of 75% of their respective salaries. The first award under the PSP was made in December 2005.

Long-term cash bonus for the Chief Executive
The Chief Executive, Peter Long, participates in a long-term cash bonus (the Bonus), which was approved at the AGM in March 2005. A one-off cash bonus will be payable at the end of a five-year period ending 31 October 2009, subject to meeting pre-determined performance conditions over that period. The objective of the Bonus is to incentivise the Chief Executive to achieve demanding financial and personal objectives and to ensure his retention by the Group. The maximum that may be earned under the Bonus is £1.5m. No payment will be made unless the ROIC/WACC hurdle, as described in the DABS section above, is met over the five-year period. The amount of bonus payable will depend on the extent to which the following three separate performance tests are met:

- 50% of the Bonus will depend on relative TSR against constituents of the FTSE mid-250 (excluding investment trusts) and will be paid out according to the same schedule set out under the DABS section above.
- 35% of the Bonus will be based on the growth in EPS, before goodwill amortisation and exceptional items, against RPI growth and will be paid out according to the same schedule set out under the DABS and PSP sections above.
- The remaining 15% of the Bonus will be payable for the achievement of personal objectives which is assessed against key strategic and leadership targets as determined by the Committee.

The Bonus is non-pensionable.

Restricted Share Plan (RSP)
The final award of restricted shares under the RSP was made in December 2004. Awards were made on an annual basis to most participants. The exception was the Chief Executive who received periodic awards so that the total original value of all his outstanding awards was equal to four times his annual salary.

The other Executive Directors received annual grants with an original value equivalent to 50% to 100% of salary. Shareholder approval was obtained at the AGM in March 2005 to change the performance condition previously attached to the RSP (which was TSR-based) to the performance conditions attached to the awards made under the PSP and the Executive Directors agreed to this change in relation to their individual awards. Therefore, all outstanding RSP awards made from 14 December 1999 to 23 December 2004 will now be subject to the ROIC/WACC hurdle and the EPS performance condition described on page 86. The performance period for these awards is 1 November 2003 to 31 October 2006 and there will be no opportunity to retest the performance conditions attached to these awards.

The awards made from 14 December 1999 to 31 October 2003 will mature on 31 October 2006 and, if the performance condition is satisfied, will vest in December 2006. The number of shares maturing will reflect the extent to which the performance conditions are met. The awards granted after 1 November 2003 will not mature until the third anniversary of the date of each award.

Senior Executive Plan (SEP)
The SEP expired in 2004 and the last award under the plan was made in December 2003. Under the SEP, options with original values of between 150% and 200% of base salary were awarded to the Executive Directors in October 2002 and December 2003. At the AGM in March 2005 approval was also obtained to amend the performance condition attached to the vesting of the options to the ROIC/WACC hurdle and EPS growth in relation to RPI growth performance condition as described on page 86. The previous performance condition was based on relative TSR against the constituents of the FTSE mid-250 (excluding investment trusts) measured over a five-year period. The extent to which the outstanding awards made in October 2002 and December 2003 vest on 31 October 2007 and 31 October 2008 respectively will be determined by the extent to which the new performance conditions are met over the five-year performance period corresponding to each award.

Pensions and life assurance
All the Executive Directors participate in a HMRC-registered defined contribution scheme. The Group makes a contribution of 50% of base salary for the Chief Executive. Contributions are paid into a self-invested personal pension up to the HMRC annual allowance limit. Contributions in excess of the annual allowance are made as a non-pensionable cash payment equivalent to the Group's contractual pension contribution.

Pension contributions of 25% of base salary are made for the other Executive Directors.

During 2005, the Committee reviewed the Group's pension policy in anticipation of the introduction of the new pension tax regime in April 2006. It has taken the view that pension scheme participants will not be compensated for any tax adverse consequences. The Committee has also decided that, in the event of a participant in a pension scheme reaching the HMRC lifetime allowance limit, and choosing not to accept further pension contributions, a non-pensionable cash payment, equivalent to the Group's contribution to the pension scheme, will be offered in lieu. The normal retirement date for the Executive Directors is 65 in accordance with changes which came into effect from 1 October 2006 under the Age Discrimination Act.

In the event of death, the pension scheme provides lump sums for the purchase of dependants' pensions of the greater of eight times salary or the value of the pension fund. On death-in-service a lump sum of four times salary is payable. Following the changes to the tax rules from April 2006 any dependant's pension may be paid as an additional lump sum subject to HMRC limits.

Other benefits
Other benefits provided to the Executive Directors include permanent health insurance, private medical insurance, medical examinations, the provision of a company car (or a non-pensionable cash alternative) and holiday concessions of £2,500 per annum. They are eligible to participate in the HMRC-approved Share Incentive Plan which is an all-employee share scheme which enables staff to acquire shares in the Company on preferential terms. To further encourage employee shareholding in the Company, the Share Incentive Plan was enhanced in 2005 to provide for the Company to award a matching share for every four shares bought by a participant under the plan.

Subject to the approval of the Board, the Executive Directors are allowed to accept non-executive director appointments and retain the fees received. Peter Long received and retained non-executive director fees of £98,947 (2005: £61,666) in respect of two appointments.

Shareholding guidelines
In line with its policy of aligning senior management interests with those of shareholders, the Executive Directors and GMB members will be required, by November 2010, to hold, at a minimum, the following number of shares in the Company:

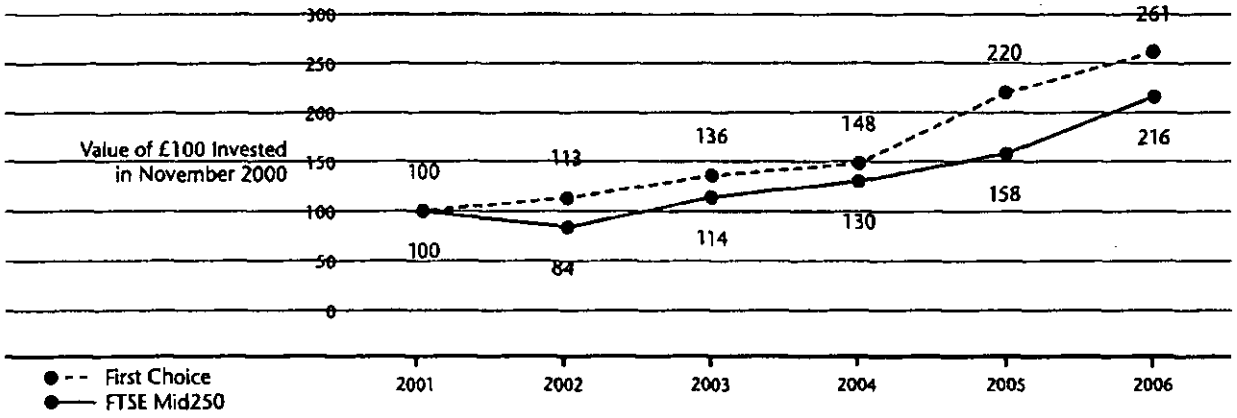
	Number of shares
Chief Executive	500,000
Other Executive Directors	270,000
Other GMB members	100,000 to 175,000

Any newly-appointed Executive Director or GMB member will be required to hold the required shares within five years of appointment.

Service contracts

All the Executive Directors have service contracts with the Group which can be terminated on six months' notice from the Director or on 12 months' notice from the Group. Service contracts for the Executive Directors do not include any provisions for the payment of compensation in the event of early termination save for the ability of the Group to exercise its discretion to make a payment in lieu of all or part of the notice period to the Executive Directors subject to any obligation they may have to mitigate any post termination losses. The dates of the service agreements and the notice periods for each Executive Director are set out below:

Executive Director	Date of agreement	Notice period (months)
Peter Long	1 October 1996	12
Dermot Blastland	22 April 1999	12
Paul Bowtell	6 September 2004	12



Non-Executive Directors

The Non-Executive Directors do not have service contracts and do not participate in the Group's pension scheme, annual bonus scheme or long-term incentive schemes. Non-Executive Directors have letters of appointment and their appointments can be terminated by either party serving six months' notice. Each appointment is for three years and they receive a basic annual fee. The fees payable are determined, from time to time, by the Board as a whole, based on relevant external market research and consultations with internal and external advisors.

The Chairman receives fees of £170,000 per annum and the other Non-Executive Directors receive a fee of £33,000 per annum. In addition, the Board pays an additional fee of £5,000 per annum to the Senior Independent Director (Tony Campbell) and to the Chairmen of the Audit and Remuneration Committees (Jeremy Hicks and Clare Chapman respectively). They also receive annual holiday concessions to the value of £2,500 per annum.

Performance graph

Total Shareholder Return (TSR), comprising the changes in value of a share and dividends distributed, can be represented by the value of a notional £100 invested at the beginning of a period and its change over that period. A graph showing TSR in respect of the Group over five years from 1 November 2001 to 31 October 2006 is given below. The TSR performance for the Group is compared with the TSR for the FTSE mid-250 Index, which was considered to be the most appropriate benchmark for comparison purposes as it is the principal index in which the Company's shares are quoted.

The auditors are required to report on the information contained in the following section of this report.

Remuneration

1 Bill Dalton received £2,000 of his 2004 fees in 2005 as an arrears payment.
2 Jeremy Hicks and Susan Hooper were appointed during 2005.
3 Giles Thorley was appointed in February 2006.

The Executive Directors have each elected to defer 50% (2005: 50%) of the annual bonus entitlement for the year ended 31 October 2006 under the terms of the DABS described on page 86.

Interests in shares and options

The interests of Directors in the share capital of the Company are set out below:

	Ordinary shares			Options			*Share awards		
	31 October 2006	31 October 2005	31 October 2006	Granted	Exercised	31 October 2005	31 October 2006	Granted	Exercised	31 October 2005

* Includes shares awarded under the Restricted Share Plan, Performance Share Plan and Deferred Share Bonus Plan.
** Includes shares purchased under the Buy-as-You-Earn Share Incentive Plan.
*** Simón Barceló's interest in 32,625,919 shares is held through his 6.15% (2005: 11.16%) shareholding in Barceló Corporación Empresarial SA and its wholly-owned subsidiary Barceló Cruceros Marítimos SL (2005: 59,115,629 shares).

The performance criteria relating to the restricted shares and share options are set out on pages 86 to 87.

Share awards/options exercised during the year

No shares were exercised under any of the various plans during the year and therefore there were no gains on the exercise of shares by Directors during the year (2005: £931,538).

Share awards/options granted and outstanding at 31 October 2006

Share options and awards granted to the Executive Directors and outstanding at the year-end under the Performance Share Plan, Deferred Annual Bonus Scheme, Restricted Share Plan and the Senior Executive Plan are set out below.

	Number of shares	Grant date	Option exercise price (p)	Date next exercisable	*Final lapse date
Peter Long

	377,079	9 December 2003	135.25	9 December 2008	9 December 2010

* In accordance with the amendments to the Restricted Share Plan approved by the shareholders.

During the year, the price of the Company's ordinary shares ranged between 196p and 260.5p and the mid closing price on 31 October 2006 was 225.25p.

On 1 November 2006, the following shares were allocated to the Directors in respect of the Dividend Reinvestment Plan (the DRIP):

Louise Bowtell (wife of Paul Bowtell)	104
Tony Campbell	390

The report was approved by the Board of Directors on 6 December 2006 and has been signed on its behalf by:

Clare Chapman
Chairman of the Remuneration Committee
6 December 2006

Corporate Governance
First Choice has maintained its commitment to high standards of corporate governance during the year. Throughout the year, all provisions of the Combined Code were complied with except for Code Provision A3.2 (half the Board, excluding the Chairman, should comprise independent Non-Executive Directors) and Code Provision D1.1 (the Senior Independent Director should meet with a range of major shareholders to listen to their views in order to help develop a balanced understanding of the issues and concerns of major shareholders). Explanations for non-compliance are given below.

The Board of Directors
The Company is controlled through its Board of Directors, which meets regularly, including away days to review the strategy of the Group. The schedule of matters specifically reserved to it for decision include: determining the strategy and control of the Group; amendments to the structure and capital of the Group; approval of financial reporting and controls; oversight of the Group's internal controls; approval of capital and revenue expenditure of a significant size; acquisitions, disposals and share dealings; Board membership and appointments; approval of remuneration of Directors and certain senior management; corporate governance matters; and approval of Group policies and risk management strategies.

The Board has delegated authority to the Committees of the Board on specific matters. The executive management is delegated to the Chief Executive, Executive Directors and certain other senior managers who, together, form the Group Management Board (the GMB), the membership of which is disclosed on page 99. Details of the Nomination and Audit Committees are given on page 93 and details of the Remuneration Committee are given on page 85. The Terms of Reference for the Board and its Committees are available for inspection on the Company's website and will be available at the Annual General Meeting (AGM).

The division of responsibilities between the Chairman and Chief Executive is clearly established and has been agreed by the Board. All Directors have access to the advice and services of the Company Secretary and all Directors can take independent professional advice, if necessary, at the Company's expense. No such advice was sought by any Director during the year. The Company has in place appropriate insurance cover in respect of legal actions against its Directors and the level of cover is regularly reviewed. The Company Secretary is responsible for ensuring Board procedures are followed including the formal minuting of any unresolved concerns that Directors may have in connection with the operation of the Company. During the year, there were no such unresolved issues.

Sir Michael Hodgkinson met the independence criteria laid out in the provisions of the Combined Code at the time of his appointment. The Non-Executive Directors met to consider the performance of the Chairman. The views of all the Directors on the Chairman's performance were obtained via a confidential questionnaire and the results were considered by a meeting of the Non-Executive Directors (excluding the Chairman), and discussed with him.

Details of the Chairman's other significant commitments are given in his biography on page 80. The Chairman does have a number of other external roles but the Board is satisfied that these do not interfere with the performance of his duties as Chairman of the Company, which are expected to require at least one day per week. He resigned his position as a director of the Bank of Ireland during the year.

The eight Non-Executive Directors all bring independent judgment to the Board, although the Board accepts that Susan Hooper and Simón Barceló may not be considered to be wholly independent (refer to note 31). The Non-Executive Directors considered to be independent are Clare Chapman, Bill Dalton, Jeremy Hicks, Giles Thorley and Tony Campbell.

Notwithstanding Tony Campbell was first appointed to the Board on 1 April 1997, the Board is entirely satisfied that he is independent in character and judgment and that there are no relationships or circumstances that are likely to affect, or could appear to affect, his judgment. Tony has the broad experience, credibility and commitment required to be an effective independent director and the Board benefits from his wealth of experience, particularly in the retail sector. He continues to make a significant, valuable and challenging contribution to both governance and strategic issues whilst demonstrating a continued strong commitment to his role. For these reasons, the Board continues to recognise him as the Senior Independent Non-Executive Director and the Notice of the AGM explains why the Board is recommending him for re-election. In accordance with the Combined Code, Tony will now retire annually and will be subject to a rigorous annual review not only of his performance but also of his independence.

The Board recognises that the Combined Code requires that at least half the Board, excluding the Chairman, should be independent Non-Executive Directors. Giles Thorley was appointed on 1 February 2006 and therefore the Company was compliant with provision A3.2 of the Combined Code for nine months of the year. Giles has also been appointed as a member of the Audit Committee. The Board seeks to ensure that its membership is regularly refreshed.

The letters of appointment of the Non-Executive Directors are available for inspection at the Company's registered offices and will be available at the AGM.

All Directors are subject to re-election by shareholders at intervals of no more than three years. Accordingly, Peter Long, Simón Barceló, Bill Dalton and Paul Bowtell will be proposed for re-election at the Annual General Meeting on 7 March 2007. Full biographical details of all Directors are on pages 80 and 81. Shareholders will be sent, as part of the papers accompanying the resolutions to re-elect the Non-Executive Directors, statements as to why the Company believes they should be re-elected. The Chairman intends to confirm at the AGM that the performance of each individual continues to be effective and to demonstrate commitment to the role.

Nomination Committee
The nomination of suitable candidates for approval of the Board of Directors to fill Executive and Non-Executive vacancies on the Board is carried out by the Nomination Committee, which comprises the Chairman and three Non-Executive Directors. The composition of the Nomination Committee is set out on page 99.

The meeting of the Committee held during the year to consider the appointment of Giles Thorley was chaired by the Non-Executive Chairman. Prior to his appointment, the Nomination Committee considered the existing skills and knowledge of the Board before providing an external search consultancy with a description of the capabilities required for his appointment. As previously disclosed, the Board considered the other commitments of Giles Thorley and he confirmed that he will have sufficient time to fulfil his non-executive role.

Following the appointment of a new Director, the Chairman, in conjunction with the Company Secretary, is responsible for ensuring that a full, formal and tailored induction to the Company is given. A detailed pack and programme was provided to Giles Thorley on appointment.

Audit Committee
The Audit Committee operates under written Terms of Reference to assist the Board in the discharge of its duties with regard to the Group's accounts, the review of internal controls and risk management systems and the external audit.

The composition of the Audit Committee, which is chaired by Jeremy Hicks, is set out on page 99. All members of the Committee are considered to be independent. In accordance with the Combined Code, the Board is satisfied that Jeremy Hicks has "recent and relevant financial experience". Bill Dalton, the former Chief Executive of HSBC Bank plc, also brings additional financial expertise to its deliberations. Giles Thorley was appointed as a member of the Committee on joining the Board. His background in corporate finance, and his experience as the Chief Executive of the highly-acquisitive Punch Taverns plc, greatly assists debate in the Committee.

The Chief Executive, Group Finance Director and Head of Business Assurance are normally invited to attend meetings and other Non-Executive Directors may attend meetings from time to time. The Chairman of the Committee also meets with the external auditors without management present.

The Committee's duties include:

- Monitoring the integrity of the financial statements of the Company and formal announcements relating to the Company's financial performance and reviewing the significant financial reporting judgments contained in them.

- Reviewing the Company's internal financial controls and the Company's internal control and risk management systems.

- Monitoring the effectiveness of the Company's Business Assurance function through meetings with the Head of Business Assurance, the agreement in advance of annual work plans and the review of the results of the work undertaken.

- The consideration of the appointment, re-appointment and removal of the external auditors and the approval of their remuneration and terms of their engagement. During the year, the Audit Committee considered and recommended the reappointment of the incumbent auditors. The detailed scope of the statutory audit is agreed with the external auditors prior to the commencement of their work and their findings are considered prior to the approval of the financial statements. The level of remuneration for these services has been approved. As part of the re-appointment process the independence of the incumbent auditors was reviewed.

- The development of a policy for the engagement of the external auditors to supply non-audit services. The Audit Committee has concluded that, in some cases, the provision of non-audit services by the incumbent auditors, which does not impact on their independence in providing their primary statutory audit role, is appropriate and this has been communicated to the Board. Auditor independence and objectivity are safeguarded by the Audit Committee monitoring and approving, where appropriate, the nature of the work and the level of fees paid for non-audit services as a proportion of the total audit fees paid. The Committee has requested that a formal policy on the engagement of external auditors for non-audit services be drafted for review in the first quarter of next year.

During the year, an assessment of the external auditors was undertaken with the findings being considered by the Audit Committee and discussed with the external auditors. The assessment took the form of a questionnaire circulated to individuals across the Group with whom the auditors had significant dealings. The questionnaire addressed, among other matters, the robustness of the audit, the quality of judgments and the quality of the auditors' personnel and service.

Board and Committee meetings

	Scheduled Board meetings	Audit Committee meetings	Remuneration Committee meetings	Nomination Committee meetings
Sir Michael Hodgkinson (Chairman)	9(9)	N/A	N/A	2(2)
Peter Long (Chief Executive)	9(9)	N/A	N/A	N/A
Paul Bowtell (Group Finance Director)	9(9)	N/A	N/A	N/A
Dermot Blastland (Executive Director)	8(9)	N/A	N/A	N/A
Tony Campbell (Senior Independent Director)	7(9)	3(4)	3(4)	N/A
Clare Chapman (Non-Executive Director)	8(9)	N/A	4(4)	2(2)
Simón Barceló (Non-Executive Director)	9(9)	N/A	N/A	2(2)
Susan Hooper (Non-Executive Director)	7(9)	N/A	N/A	N/A
Bill Dalton (Non-Executive Director)	7(9)	4(4)	4(4)	N/A
Jeremy Hicks (Non-Executive Director)	8(9)	4(4)	N/A	2(2)
Giles Thorley (Non-Executive Director)	6(7)	3(3)	N/A	N/A

Figures in brackets indicate the maximum number of meetings in the period in which the individual was a Board member. In addition to the full meetings of the Board, the Chairman has held one meeting with Non-Executive Directors without the Executive Directors being present and the Senior Independent Director has chaired a meeting of the Non-Executive Directors without either the Chairman or the Executive Directors being present.

Board, Committee and individual performance

An assessment of the performance of the Board and its Committees is undertaken by means of a detailed questionnaire, designed by the Company Secretary and completed by each Director. The questionnaire covers 16 areas including the processes for setting the strategy of the Company, monitoring business performance, corporate governance and the effectiveness of the Executive Directors, Non-Executive Directors (including the Chairman) and the Board's Committees.

The findings are discussed by the Non-Executive Directors and the Chairman and are referred to the Board as a whole. In general, the Board considers its structures, composition and proceedings to be effective.

An assessment of each individual Director's performance is undertaken annually. The performance of each Director is measured against 12 criteria with peers being requested, confidentially, to rate that Director's performance by reference to the criteria. The Chairman then discusses the overall result for each Director with him or her and any concerns are addressed.

Internal control

The Board has overall responsibility for the Group's system of internal control and for reviewing its effectiveness, while the role of management is to implement Board policies on risk and control.

The system of internal control is designed to manage and mitigate rather than eliminate the risk of failure to achieve business objectives. In pursuing these objectives, internal controls – which include financial, operational and compliance controls – and risk management can only provide reasonable, and not absolute, assurance against material misstatement or loss. The Board has reviewed the effectiveness of internal controls during the year.

The Board confirms that there is an ongoing process for identifying, evaluating and managing the significant risks faced by the Group; that this has been in place for the year under review and up to the date of approval of the Annual Report and Accounts; that this process is regularly reviewed by the Board; and that the process accords with the Turnbull Guidance. The key elements of the control framework and review processes in place across the Group are as follows:

- The Board sets corporate strategy and business objectives. The GMB and Sector management integrate these objectives into their operational and financial business plans. Where areas for improvement in the system of Internal Control are identified, the Board considers the recommendations made by the GMB and the Audit Committee.

- The GMB meets regularly together with other senior executives to consider Group operational and financial performance and business development. The Chief Executive reports to the Board on behalf of the GMB on significant changes in the business and the external environment. The Group Finance Director provides the Board with financial information which includes key performance and risk indicators.

- The Audit Committee, with assistance from certain related management committees, oversees key risks, such as financial risk, health and safety, corporate and social responsibility and the environment, where such risks apply across all Sectors. The Board believes that, in order to be effective, risk management processes must be driven down to each operating unit. Accordingly, each Sector Board now addresses risk management as a standing agenda item and is responsible for ensuring that the risks facing that Sector's businesses are identified and that related action plans are implemented.

- The Business Assurance function independently reviews the risk identification procedures and control processes implemented by management and reports its findings at each Audit Committee meeting, or more frequently if appropriate.

- The Audit Committee reviews the proposed work plans of the Business Assurance function; reports issued by Business Assurance on the Group's risk assessment process; the system of internal control as well as reports on systems; and controls from the external auditors covering material weaknesses. The Chairman of the Audit Committee reports to the Board on the outcome of the Audit Committee meetings held and the Board receives the minutes of all such meetings.

- The Treasury position of the Group, including cash, foreign exchange and fuel hedging exposure, is managed centrally in accordance with policies appropriate for each Sector and is the responsibility of the Group Finance Director and Group Treasurer. Reports and forecasts are submitted monthly to the GMB and to each Board meeting.

- Financial forecasts, providing predicted results with sensitivity analysis, are prepared routinely throughout the year for review by the GMB and the Board. These forecasts also include details of the Group's ongoing compliance with its regulatory and banking requirements. The Group has established investment appraisal and authorisation procedures and its capital expenditure is reviewed against budgets which have been approved by the Board.

There are policies and procedures for the reporting by employees and the resolution of suspected fraudulent activities. It is the policy of the Group to employ staff and management of high integrity, to train them appropriately and to require compliance with all relevant laws, regulations and internal policies. The Group has an independent third-party confidential telephone line in place for all UK and overseas based staff which allows employees to raise concerns on financial reporting or other matters. A translation/interpreter service is available for non-English-speaking staff. Any reports received through the confidential telephone line are passed direct to Business Assurance which acknowledges receipt and periodically reports back to the third-party service provider on any action taken. Within its regular report to the Audit Committee, Business Assurance provides a section on the Employee Confidential Hotline and a summary of any reports and actions taken. A monthly report is also produced by the third-party call monitoring service provider which includes a summary of all calls received highlighting any issues raised.

Communications with shareholders

The Chief Executive and Group Finance Director hold regular meetings with major shareholders to review the Group's performance and prospects. The views of shareholders are communicated to all members of the Board following such meetings. During the course of these meetings the issue of governance is discussed. Presentations to major shareholders are made at least twice yearly, after the announcement of the interim and preliminary results, details of which, together with the Group's financial reports and other announcements, can be accessed via the Group's website www.firstchoiceholidaysplc.com

The Combined Code recommends that the Senior Independent Director meets with a range of major shareholders to gain an understanding of their views. In practice and, as a result of the extensive investor feedback provided by the Chairman, Chief Executive and the Group Finance Director, the Senior Independent Director and other Non-Executive Directors believe that they are aware of such issues and therefore considered that it was not necessary to arrange meetings with major shareholders for this purpose during the year. However, they would make themselves available if any shareholder requested such a meeting.

There is also an opportunity for shareholders to question the Chairman and other Directors (including the Chairmen of the Audit, Remuneration and Nomination Committees) at the Annual General Meeting. This forum also provides Non-Executive Directors with the opportunity to discuss the views of shareholders with them directly.

At general meetings:

- The Company prepares separate resolutions on each substantially separate issue and does not combine resolutions together inappropriately.

- A schedule of proxy votes cast is made available for inspection at the conclusion of the proceedings.

- The Annual Report and Accounts is laid before shareholders at the Annual General Meeting.

Risk Management
First Choice Holidays PLC (First Choice) attaches great importance to risk management at all levels of the business and has now invested in increased resource to move the identification, monitoring and controlling of operational risk to the next level of sophistication. The Group continues to strive for greater transparency of risk and to promote the sharing of knowledge between its businesses for the greater good of the whole organisation and its stakeholders.

The strategy for risk management has been enhanced by the declared intention to drive risk management principles deep into the day-to-day business of each of the Sectors. The setting of policy and monitoring of performance is the responsibility of the Financial Risk Management Committee and the Health, Safety and Environmental Risk Management Committee. These committees are responsible to the Group Risk Management Committee, and ultimately to the Audit Committee, thereby providing Directors with the assurance that risks are managed appropriately at all times.

The Group Risk Management and Business Assurance Departments work closely to monitor key performance indicators (KPIs) relevant to each risk and to ensure that actions identified to control and mitigate these risks are subject to a continual internal auditing process.

A more co-ordinated Group-wide approach to risk management, based on a sound structure and reflecting the way the businesses are operated, is now in place. Having built the platform to identify, monitor and mitigate risk and having assembled the required resource, the focus for 2007 is to raise awareness of operational risk management throughout the Group.

There continues to be an appropriate emphasis on risks affecting the health and safety of the Group's customers and employees with Andrew John, Director of Legal Affairs and Company Secretary, taking responsibility for these matters on behalf of the Board.

Risk Management remains primarily the responsibility of the businesses affected, supported by expertise at Group level. As part of the long-term process, the risk profile of the Group is to be re-evaluated with risks categorised by discipline, territory and the effect on business strategy at all levels in the organisation.

Resource
In addition to restructuring the responsibility for managing risk, the Group Management Board has approved significant investment to increase the resources available – both in human terms and by introducing speciality IT tools. A number of risk management positions have been established at Group level and a commitment has been made to employ Risk Managers within each Sector who will be responsible for deploying Group-wide policies and procedures.

Strategic Risk Management
The Group Risk Management Policy is designed to provide a formal structure through which First Choice will:

- endeavour to reduce as far as possible the exposure of all its businesses to risk.
- seek to recognise and derive the maximum benefit from any opportunities identified through risk analysis.
- seek to achieve excellence in Corporate Governance through managing risk effectively throughout the organisation.
- seek to provide entrepreneurial leadership within a framework of prudent and effective controls which enables risk to be assessed and managed.

In order to manage risk, we must be able to measure it. It is therefore our intention to further develop risk management practices which enable us to measure the impact of risk by reference to recognised, international standards. First Choice currently has an Environmental Management System (EMS) compatible to ISO14001. In the longer term it is planned that its Business Continuity Management (BCM) capabilities equivalent to PAS 56:2003 standards will also be developed.

First Choice is currently setting appropriate metrics and KPIs by which it will be able to improve the measurement, in comparative terms, of risk levels and progress made in mitigating and managing risk. Supported by an IT solution to assist in the identification and quantification of risk, this will assist greatly in identifying any process interdependencies which merit further attention. It will also assist in the Group's consolidated business impact assessment.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND THE FINANCIAL STATEMENTS

The Directors are responsible for preparing the Annual Report and the Group and Parent Company financial statements, in accordance with applicable law and regulations.

Company law requires the Directors to prepare Group and Parent Company financial statements for each financial year. Under that law the Directors are required to prepare the Group financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and have elected to prepare the Parent Company financial statements in accordance with UK Accounting Standards.

The Group financial statements are required by law and IFRS as adopted by the EU to present fairly the financial position and performance of the Group; the Companies Act 1985 provides in relation to such financial statements that references in the relevant part of that Act to financial statements giving a true and fair view are references to their achieving a fair presentation.

The Parent Company financial statements are required by law to give a true and fair view of the state of affairs of the Parent Company.

In preparing each of the Group and Parent Company financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently.
- make judgments and estimates that are reasonable and prudent.
- for the Group financial statements, state whether they have been prepared in accordance with IFRS as adopted by the EU.
- for the Parent Company financial statements, state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the Parent Company financial statements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and the Parent Company will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Parent Company and enable them to ensure that its financial statements comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for preparing a Directors' Report, Directors' Remuneration Report and Corporate Governance Statement which comply with that law and those regulations.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF FIRST CHOICE HOLIDAYS PLC

We have audited the Group and Parent Company financial statements (the financial statements) of First Choice Holidays PLC for the year ended 31 October 2006 which comprise the Consolidated Income Statement, the Consolidated and Parent Company Balance Sheets, the Consolidated Statement of Cash Flows, the Consolidated Statement of Recognised Income and Expense and the related notes. These financial statements have been prepared under the accounting policies set out therein. We have also audited the information in the Directors' Remuneration Report that is described as having been audited.

This report is made solely to the Company's members, as a body, in accordance with Section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and auditors
The Directors' responsibilities for preparing the Annual Report and the Group financial statements in accordance with applicable law and International Financial Reporting Standards (IFRS) as adopted by the EU, and for preparing the Parent Company financial statements and the Directors' Remuneration Report in accordance with applicable law and UK Accounting Standards (UK Generally Accepted Accounting Practice) are set out in the Statement of Directors' Responsibilities on page 97.

Our responsibility is to audit the financial statements and the part of the Directors' Remuneration Report to be audited in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view and whether the financial statements and the part of the Directors' Remuneration Report to be audited have been properly prepared in accordance with the Companies Act 1985 and, as regards the Group financial statements, Article 4 of the IAS Regulation. We also report to you whether in our opinion the information given in the Directors' Report is consistent with the financial statements. The information given in the Directors' Report includes that specific information presented in the Business and Financial Review which is cross-referred from the "Business review and activity" section of the Directors' Report.

In addition, we report to you if, in our opinion, the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and other transactions is not disclosed.

We review whether the Corporate Governance Statement reflects the Company's compliance with the nine provisions of the 2003 FRC Combined Code, specified for our review by the Listing Rules of the Financial Services Authority, and we report if it does not. We are not required to consider whether the Board's statements on internal control cover all risks and controls, or form an opinion on the effectiveness of the Group's corporate governance procedures or its risk and control procedures.

We read the other information contained in the Annual Report and consider whether it is consistent with the audited financial statements. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. Our responsibilities do not extend to any other information.

Basis of audit opinion
We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements and the part of the Directors' Remuneration Report to be audited. It also includes an assessment of the significant estimates and judgments made by the Directors in the preparation of the financial statements and of whether the accounting policies are appropriate to the Group's and Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements and the part of the Directors' Remuneration Report to be audited are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements and the part of the Directors' Remuneration Report to be audited.

Opinion
In our opinion:

- the Group financial statements give a true and fair view, in accordance with IFRS as adopted by the EU, of the state of the Group's affairs as at 31 October 2006 and of its profit for the year then ended.
- the Group financial statements have been properly prepared in accordance with the Companies Act 1985 and Article 4 of the IAS Regulation.
- the Parent Company financial statements give a true and fair view, in accordance with UK Generally Accepted Accounting Practice, of the state of the Parent Company's affairs as at 31 October 2006.
- the Parent Company financial statements and the part of the Directors' Remuneration Report to be audited have been properly prepared in accordance with the Companies Act 1985.
- the information given in the Directors' Report is consistent with the financial statements.

FIRST CHOICE HOLIDAYS PLC
YEAR END 31 OCTOBER 2005

DIRECTORS' REPORT AND ACCOUNTS

COMPANY REGISTRATION NUMBER - 48967

First Choice Holidays PLC...
is a leading international leisure travel company. It operates from 17 source markets and employs more than 14,000 people across 72 brands.

The Group operates in four Sectors, each offering a particular type of leisure travel experience. It could be a two-week holiday in the Mediterranean or Florida, arctic expedition cruising, college spring breaks, sailing in the Caribbean, a cultural tour in Egypt or booking a hotel for a weekend away. First Choice can satisfy all these leisure travel needs and many more to over 200 countries.

Operating in a fast changing marketplace, making the right choices for our customers and our business is essential. We believe we are leading the way in providing innovative, differentiated, leisure travel experiences for our customers and we will continue to invest in niche market segments that offer substantial growth.

Strategy
Our strategy is to create a platform for growth and sustainable competitive advantage by developing the specialist Sectors and further differentiating the Mainstream Holidays Sector. We aim to:

> generate at least 66% of the Group's operating profit from the specialist Sectors;
> continue to operate using flexible and low cost business models;
> create a sustainable, robust and quality income stream;
> generate the highest leisure travel profit margins in Europe.

The strategy is working
We have had three consecutive years of double-digit profit and earnings growth. We are building strong positions in our chosen segments – offering our customers the leisure travel experiences they want, leveraging the strength of our brands and operating flexible efficient business models. All this positions us for further profitable, higher margin growth.

Financial highlights

	2005	2004
Group turnover* (up 11%)	£2,579m	£2,318m
Group profit before interest* (up 19%)	£118m	£100m

Our brands ..... IBC

Making the right choice requires understanding of and belief in the value of that choice. It forces the imagination and often takes an extra mile of effort. That is part of achieving and how pioneers behave. The understanding and knowledge gained forms expertise, breaks new ground and keeps people interested in what you offer. It's what we do and it's how we've become a leading international leisure travel company.

Peter Long, Chief Executive

The following pages show various business choices that we've made recently. We see them developing into exciting opportunities and laying the foundation to even greater success for the Group in delivering shareholder value.

Re-defining long-haul / The decision to remove 54 seats from our Boeing 767 aircraft means more legroom and greater comfort. We also installed state-of-the art seat back entertainment systems and our customers love what we've done. We are not stopping there. In 2009 we will be the first UK airline to take delivery of the Boeing 787, the next stage in aircraft design that will give a greater flying range and new levels of comfort.

Serving North America's student market / This source market offers substantial growth opportunities for us in niche market segments. We chose to enter the student travel segment for this very reason and, through the expert knowledge and understanding that our North American team has of their marketplace, we are rapidly growing the business both organically and by acquisition.

Conquering new ground / We have built a leading position in Activity Adventure. The Division's expert teams are constantly seeking new opportunities that will give our customers greater leisure travel experiences. The acquisition of Peregrine, with its two expedition ships, has given us a significant position in the increasingly popular Arctic and Antarctic adventure cruising market.

Relax in safe hands / No matter what sort of holiday we provide we constantly strive to make it a more enjoyable experience for our customers. If your idea of heaven is having a massage in an open air cabana listening to the sea, while the children are looked after with a whole range of activities on offer, then our exclusive Pegasos Palace and Tropical in Turkey is where to head.

A balanced business

The Group's four Sectors all offer different leisure travel experiences. The business model focuses on differentiation and flexibility across the Group. Our diverse product portfolio and international dimension give balance.

Highlights by business Sector

	% of operating profit		2005
Mainstream Holidays Efficient flexible business model, differentiated product and powerful one brand franchise	47%	Operating profit Turnover % Group operating profit Growth year-on-year	£54.0m £1,232m 47% 11%
Specialist Holidays Destination and lifestyle led with a high degree of exclusive product and strong local brands offers exciting growth	28%	Operating profit Turnover % Group operating profit Growth year-on-year	£32.1m £891m 28% 35%
Activity Holidays Market leading brands with high customer loyalty and a mix of asset intensive and asset light businesses operating in a rapidly growing market	15%	Operating profit Turnover % Group operating profit Growth year-on-year	£18.1m £226m 15% 20%
Online Destination Services Online accommodation and other destination services to tour operators, travel agents and personal customers achieving strong top-line growth and market penetration	10%	Operating profit Turnover % Group operating profit Growth year-on-year	£11.4m £230m 10% 2%

An international leisure travel company /

Geographical diversification by source markets 1999-2005

Mainstream controlled distribution* percentage 2001-2005

Activity Adventure Division passenger growth** 2001-2005

Continental European Specialist business passenger growth 2001-2005

* Summer season
** Annual carryings of businesses owned at 31 October

To me, our results demonstrate that Peter Long and the First Choice management team have built a highly resilient business model that is capable of reducing the impact of such events. This has been achieved by pursuing a strategy of tight capacity management as well as diversifying risk by moving into many different product areas, offered to a variety of customer segments in 17 major source markets.

Results

Against this backdrop, I am delighted, therefore, to report that the Group has achieved record profit before tax, goodwill amortisation and exceptional items of £114.0m (2004: £98.3m), up 16%. Earnings before interest and tax (EBIT) increased by 14% on like-for-like basis[1] with acquisitions made during the year contributing an increase of 2% and the annualisation of prior year acquisitions contributing a further 3%. The specialist businesses achieved turnover growth of 18% and operating profit growth of 23% – these businesses now represent 53% of Group profit. The Mainstream Holidays Sector also achieved excellent profit growth of 11%, driven particularly by the way in which we have remixed the business and gained greater control of distribution.

Basic earnings per share before goodwill amortisation was 13.6p (2004: 10.8p), an increase of 26% over the comparable period. Underlying[2] earnings per share increased by 22%, in – year acquisitions contributed 1% and the refinancing completed in July of this year contributed a further 3% increase.

Dividends

The Board is recommending a final dividend of 4.65p per share (2004: 3.75p), up 24% on the comparable period. This increase reflects both the strong underlying growth in earnings and the earnings benefit of the balance sheet restructuring. The interim dividend was 1.95p per share (2004: 1.75p), giving a total dividend for the year of 6.6p per share. The full year dividend increase of 20% per share represents the third year of double-digit dividend growth and reflects our commitment to a progressive dividend policy and confidence about the future.

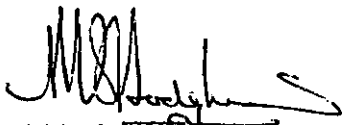
Acquisitions

We continue to deliver strong growth from acquisitions. During the year we have made 12 acquisitions with a maximum aggregate consideration of £65m of which £53m has been paid

In a year in which the travel industry has experienced an unprecedented number of significant tragic natural disasters and geo-political events, First Choice has produced an excellent performance yet again.

(2004: £41m of which £28m had been paid). These acquisitions have contributed £1.6m of operating profit before goodwill amortisation during the year representing 2% of the Group's year-on-year profit growth. Five of these acquisitions have been in the Activity Adventure Division of the Activity Holidays Sector and three in the Student Travel market in North America. We are still confident that there are many opportunities to continue to build significant positions in certain segments of the market that have strong growth characteristics.

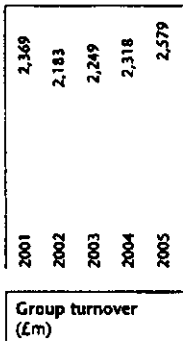
Today, we are announcing the significant acquisition of all the businesses of Grand Expeditions, Inc. for £54m and agreement to acquire INTRAV, Inc. for £37m.



IFRS
From 1 November 2005 First Choice has adopted International Financial Reporting Standards (IFRS). Opening net assets for the year ended 31 October 2005 will reduce by around £60m as a result of accounting changes primarily relating to the recognition of costs, pension deficits and the proposed final dividend. These changes were described in detail in a press release issued on 26 October 2005. We have also given an estimate of the profit and loss impact of accounting changes under IFRS in that release. In summary, profit before tax will increase by around £27m and profit before tax and amortisation will increase by £2-3m.

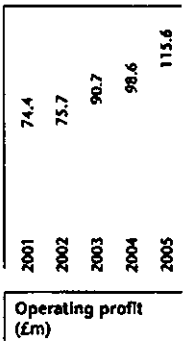
Board
During the year Terry Green and Richard Fain retired from the Board. Both were valuable members of the Board and I would like to record my thanks for the significant contribution they made as Board members. Jeremy Hicks and Susan Hooper have joined the Board replacing Terry and Richard and have already demonstrated that they will be supportive and challenging members of the team. I look forward to working with them in the forthcoming years. I am also delighted to announce the appointment of Giles Thorley as a Non-Executive Director. Giles is currently the Chief Executive of Punch Taverns plc and will join the Board on 1 February 2006.

Colleagues
As I have already mentioned, we have experienced a number of significant natural disasters and geo-political events during the year, including the Tsunami in December 2004 where, tragically, we lost three of our customers. Our first priority is to ensure that we account for all of our customers and colleagues and ensure that family and friends are made aware of their loved ones' circumstances. We then repatriate those who wish to curtail their holiday, before ensuring that customers who wish to defer their holiday or substitute elsewhere are able to do so. This takes a tremendous effort from many of my colleagues and I have been extremely pleased with the manner in which we have handled these matters. Furthermore, I have spent much time in the business this year, whether in resort, in our retail outlets or visiting our overseas offices and I have been consistently impressed by the passion that exists amongst my colleagues to ensure that the customer's holiday is a great experience. To them all I would like to express my thanks on behalf of the Board.

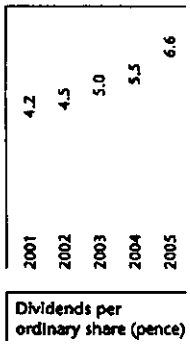


Environment & People Report
The Group is committed to sustainable development and three years ago we agreed a Group mission 'to enable people to explore and enjoy the world without harming it, based on a commitment to sustainable development.' We developed a Group sustainable development policy and have been working on implementing that policy. In October, we launched our first stand-alone web-based Environment & People Report (www.fcenvironmentandpeople.com). We are currently seeking feedback from interested groups both internally and externally and in the Spring will publish an update to the report which will include key future commitments.

Outlook
First Choice Holidays PLC has again achieved significant growth. The business model has great flexibility and this has been fully tested during this financial year. This, combined with the positions we have built and will continue to build, in specialist niche segments of the market, gives me confidence that we can continue to grow the Group.



Sir Michael Hodgkinson
Chairman
7 December 2005



1 like-for-like: growth excluding in-year acquisitions and the annualisation of prior year acquisitions.
2 underlying: growth excluding in-year acquisitions and the effects of refinancing the RCCL preference shares.

Group turnover (£m)

Operating profit (£m)

Dividends per ordinary share (pence)

First Choice Holidays PLC has produced record-breaking profits of £114m and a 26% increase in earnings per share (before goodwill amortisation and exceptional items), over the comparable period.

During the year, the Group has continued to strengthen its position as a leading international leisure travel company by creating a platform for growth across all its Sectors, further differentiating the Mainstream Holidays Sector and developing the specialist Sectors. This is our third consecutive year of double-digit profit and earnings growth and we remain on track to achieve Group EBIT margins of 5% by 2007.

Growth

We operate a flexible business model across all the Sectors and have continued to re-invest the substantial cash generated by the Mainstream Holidays Sector into specialist businesses that have stronger growth characteristics. We believe that by offering our customers the sort of holiday experiences they want, we are building a leisure travel company of the future with many growth opportunities.

Growth across the Group is being achieved both organically and through acquisitions. Like-for-like, we have grown turnover by 7% and the acquisitions we have made across the specialist sectors have contributed a further 4%. Many of these acquisitions were in the Activity Adventure Division of the Activity Holidays Sector where, not only are we offering different experiences for our UK customers, but are increasingly adding international companies in this Division. We now have substantial operations from 17 source markets offering our customers leisure experiences to over 200 countries.

Acquisitions include MyPlanet (a Scandinavian premium, tailor-made operator of tours to Australia, New Zealand, the USA and Canada) and Peregrine (an Australian activity adventure business, offering a wide range of activity holidays including exploration trips to the Arctic and Antarctic).

The development of the Activity Adventure Division is a good example of our ability to use customer insight to build a significant position in a growth segment of the market. Since our first acquisition of Exodus in 2002 we have made a total of 12 further acquisitions in this market segment. In so doing, we have built a division that has generated almost £90m of revenue this year at 8% operating margins.

We are also building rapidly in the student travel segment in North America, where there are 64 million students. Our entry point to this market has been through the Spring Break segment with the acquisition of StudentCity.com in 2004. Subsequently, we have made three further acquisitions and have a strong pipeline of opportunities in what is a highly fragmented marketplace. These opportunities are not only in the Spring Break product segment but also in adjacent markets such as educational tours and high school graduation breaks.

Today, we have announced the acquisition of all the businesses of Grand Expeditions, Inc., a US based group of six companies specialising in premium leisure travel experiences for a consideration of £54m (US$95m). This acquisition consolidates our position in the global yacht charter market with the addition of the premium Moorings brand to our portfolio. In addition it provides us with a platform into the escorted tours market, which is another significant growth segment of the US market with a bias towards the over 50's. The Grand Expeditions group of businesses is headed by Hans Birkholz who will continue to run the business reporting directly to me.

The combination of organic and acquisition growth is, in our opinion, very powerful and over the last three years we have demonstrated annual double-digit profit growth.

Financial year	Like-for-like EBIT*	Acquisition EBIT*	Total EBIT*
2003	22%	2%	24%
2004	9%	2%	11%
2005	14%	5%	19%

* the percentages represent growth in profit before tax, goodwill amortisation, interest and exceptionals.

We have a strong platform for growth, an excellent track record and significant opportunities to continue to build our business.

Business model

This year, we have experienced a number of natural and geo-political events that have fully tested the robustness of our business model. In the industry in which we operate, events will invariably arise that are outside of the Group's control. It is our responsibility to ensure that we mitigate the impact that these events can have on the overall performance of the business and this is where flexibility, which is integral to our business model, is so important. That flexibility comes in the shape of capacity management and a portfolio of product offerings with no reliance on either a single source market or a particular destination. In addition, we have built significant flexibility into the way we contract with our suppliers, enabling us to react quickly to changes in demand. Furthermore we are constantly striving to challenge our cost base.

Controlling the distribution of our product, particularly our exclusive product, is of major importance to the business. We continue to develop all the routes to market that the Group's customers demand and are experiencing substantial growth in online sales. This is particularly evident in the Mainstream Holidays Sector, where transactions over the internet accounted for 25% of all Summer holiday sales and in the Online Destination Services Sector where we have achieved significant online growth for Hotelopia (our business to consumer brand), in its first full year. In certain areas of the Group, third party travel agent relationships continue to play an important role, particularly in the UK and Europe. We believe that building a strong relationship with these key partners remains integral to those businesses.

38%

of properties are exclusive to First Choice customers.

Mainstream Holidays Sector

The Mainstream Holidays Sector continued to grow its operating profit, which was up 11% to £54.0m (2004: £48.5m). Capacity, which was down year-on-year by 3%, has been and continues to be managed carefully, particularly in those areas that do not offer sufficiently profitable returns. Turnover was up 5% to £1,232m (2004: £1,174m). The move away from commoditised short-haul holidays and particularly the flight-only market has progressed well. Short-haul now represents 30% of inclusive tour revenues (2004: 32%). We continue to see increased demand from our customers for exclusive differentiated product across short, medium and long-haul destinations. Properties exclusive to First Choice customers now stand at 38% of revenues (2004: 33%) and we remain committed to achieving 50% exclusivity by 2008.

Product differentiation is a key value driver in this Sector. Summer 2005 saw the introduction to our fleet of the newly configured Boeing 767 long-haul aircraft. These aircraft have 54 fewer seats than a standard Boeing 767 and offer more legroom, wider seats and in-flight entertainment superior to any of our competitors in this marketplace, including the scheduled carriers. The response from customers has been extremely positive both in respect of improved comfort and service. It is not only the customers, however, who believe we are offering a superior service. At the recent Travel Trade Gazette Awards First Choice Airways was voted the best charter airline by travel agents. We now have three of the re-configured aircraft flying and in Summer 2006 will have one more in service. As a result of being able to offer our customers a superior in-flight experience we are increasing our range of destinations and have introduced the Bahamas and Brazil as new destinations for the Sector.

The expansion of our range of exclusive products, like Holiday Village, saw the opening of two new properties in Mallorca and Turkey, bringing the total number of First Choice Holiday Villages to five. The success of this differentiated product offering will see further development of the concept. We are continuously striving to improve the customer experience and the introduction of In2Action (high wires), Stage Coach (drama) and Wannaplay Tennis, have proved popular value added experiences for our customers. Within the exclusive portfolio, properties we classify as differentiated represent 13% (2004: 10%) of revenues. It is this type of product innovation driven by customer insight that is increasing earlier bookings. The rate of sale on a differentiated product such as the Holiday Village or long-haul flight experience continues to run at 2:1 compared with the generic 3Iproduct.

The expansion of First Choice Premier which features 4I and 5Iproperties continues. For Summer 2006, we have introduced Premier Families and Premier Adults as a direct result of customer research and increased customer insight. Knowing what our customers want is crucial to the development of the business and these tools play an important part in the way we shape the Mainstream Holidays Sector.

Control of distribution is another key value driver in this Sector. We have to interact with customers in a way which meets their needs. In many cases this means multiple customer touch-points: online, via the telephone or in one of our retail stores. We have increased our control of Summer distribution by 11 percentage points to 56% (2004: 45%), with a financial benefit of around £2m for the business. It is our intention over the next few years to grow control of distribution to 75%. Whilst our retail chain continues to play a significant part in this key strategic initiative, we continue to adjust the portfolio to meet our needs. In 2005 we opened one store, closed seven where profit levels were not satisfactory and did not renew four concessions.

The focus during the current financial year will continue to be the move away from short-haul commoditised product to medium and long-haul destinations and differentiated exclusive product. In addition, capacity will be managed appropriately.

Superior in-flight entertainment on our newly configured Boeing 767 long-haul aircraft.

Cuba, a key destination for our Canadian customers.

Our Campus Representatives promote StudentCity breaks to college students.

Specialist Holidays Sector

The Specialist Holidays Sector operates from 14 source markets in Continental Europe, the UK and Canada and specialises in offering destination-led and lifestyle holidays. The product is highly differentiated and primarily exclusive to the Sector.

Operating profit increased by 35% to £32.1m (2004: £23.8m including StudentCity), in a year where the Sector's businesses were affected by the Tsunami, hurricanes and terrorist bombings. The ability to react quickly to sudden changes in demand and to adjust capacity accordingly, has been key. Turnover increased by 16% to £891m (2004: £770m).

In Continental Europe, revenue and profit growth were driven primarily by strong performances in France, Italy, Holland and the Nordic countries. In France, Marmara increased customer revenues by 20% and is the market-leader in the destinations to which it operates. The geo-political events in Egypt and Turkey resulted in cancellations and reduced bookings to the affected areas for our French, Italian and Spanish businesses, resulting in reduced margins for those destinations. However, improved margins to other destinations have offset this, leaving margins flat year-on-year at 4%.

Our position in Austria was enhanced by the acquisition in April of Delphin, an operator specialising in holidays to the Eastern Mediterranean and specifically Turkey. This business has been integrated with Nazar Austria and cost savings and efficiencies are being driven through the two businesses.

The UK Specialist Division has been impacted by the tragic events of 26 December 2004, particularly in Hayes & Jarvis. This has resulted in a reduction of turnover of 9% to £144m (2004: £159m). Despite this, strong performances by Sovereign, Meon and Citalia, which all operated on a single sales platform for the first time this year, means that margins have improved 70 basis points to 4.0% (2004: 3.3%) in this Division.

Our Canadian operation, Signature, has established a strong position in what is a highly competitive tour operating market. The Division specialises in three key destinations with over 90% of customers now travelling to Cuba, the Dominican Republic and Mexico. A strong performance in the year delivered an increase in operating profit of £2.3m to £3.9m on turnover growth of 16% to £193m (2004: £166m).

Over the past year, we have focused on building our online capabilities across the Sector and now the majority of our businesses have fully transactional websites. Direct bookings, however, represent only 10% (2004: 8%) of total holidays sold and resource will continue to be dedicated to this area. We believe that the concentrated and differentiated product ranges we offer combined with a high-value selling proposition will enable us to expand this route to market substantially over the next 12 months.

Student Travel

We acquired StudentCity.com in July 2004, recognising the strong growth characteristics in this market-place and the fragmented state of the North American student travel market-place. Since then we have acquired three further businesses. Spring Break Travel, which is located in the South Eastern USA, was acquired in February and is the dominant operator of student Spring Break cruise holidays to Grand Bahama Island. Boss Tours Ltd, which is Canada's leading leisure operator of student travel programmes, was acquired in August and just before the year-end we acquired Leisure Tours International, the leading US operator of Spring Break vacations to South Padre Island in Texas.

The business currently consists of six student brands offering counter-cyclical profits for the Group. During the period over 92% of the product was distributed direct to the consumer. Strong growth was achieved across all the businesses during their key Spring trading period.

This business is included within the Specialist Holidays Sector results.

+15%

Activity Holidays revenue increase with underlying revenue growing 7% year-on-year.

Activity Holidays Sector

The continued focus of the Sector has been on improved asset utilisation across all businesses, matching capacity with demand and leveraging the acquisitions made in the Activity Adventure Division.

Total Sector revenue increased by 15% with underlying revenue growing 7% year-on-year (before the impact of in-year acquisitions and excluding Ski). The 5 adventure acquisitions made in the year contributed £33m to Sector revenues. Operating profit grew 20% to £18.1m (2004: £15.1m).

Following a strategic review of Sunsail, the decision was taken to reorganise into two distinct businesses – Sunsail Clubs & Flotillas and Sunsail Yacht Charter. The Sunsail Clubs & Flotillas business is focused on providing water sports club and yacht flotilla holidays in the Eastern Mediterranean and the Caribbean for a predominantly UK based market. Having analysed the market we have produced a separate flotilla yacht holiday brochure for customers who appreciate the conviviality and re-assurance of flotilla sailing. In the Sunsail Clubs the extensive upgrading of the clubs and the roll-out of added experiences, like mountain biking and health and fitness centres, resulted in a healthy increase in revenues. As a result of this, we will be opening a new club in Turkey in Summer 2006.

Sunsail Yacht Charter consists of a corporate sailing centre and sailing school, as well as catering for experienced sailors who wish to sail independently. Through focusing on improved utilisation and return on assets, the size of the fleet has been further reduced by 4% and the number of yacht types reduced by 40% year-on-year. At the corporate sailing school at Port Solent, Hampshire, we now have a racing fleet of 60 identical Jeanneau 37 yachts, which we believe is the largest single type racing fleet in the world.

The Inland Waterways brands have continued to focus on capacity management and asset utilisation to improve profitability, as well as developing more direct business and entering new source markets. Capacity has been reduced by 2% and asset utilisation has improved by 5% during the year.

We continue to refresh the quality of the fleet and have introduced two new boat types in 2005, with a third being introduced this year.

Within the Activity Holidays Sector we now have a Specialist Ski Division focused on a premium ski offering and a schools ski and Summer tours business. As part of the premium offering, Specialist Ski acquired the exclusive contract on the Hotel Fitzroy in Val Thorens for £1.8m. We now have three luxury mountain hotels for our customers' exclusive use in the Trois Vallées region of France and have launched the Luxury Mountain Hotels brand to market these hotels. This part of the ski business delivers a very high level of service in the best hotels in the Alps and represents the next step in the Specialist Ski Division's move away from high volume low margin business into higher margin niche segments. First Choice Ski was moved into the Mainstream Holidays Sector at the end of the Winter 2004/05 season.

The Activity Adventure Division experienced another strong trading year, both in like-for-like terms and from the new businesses. Like-for-like revenues increased by 21% and, including the revenues for the acquired businesses, the Division's total revenue growth amounted to over 100%. Operating profit for this Division continues to grow rapidly with like-for-like profit increasing by 62% and acquisitions contributing growth of 49%. Notably, this year saw us acquiring businesses outside the United Kingdom in France, Denmark and Australia. The Activity Adventure Division is now a global business and we believe it is the largest business of its type in terms of revenue and operating profit.

Luxury Mountain Hotels delivering high levels of service exclusively for our customers.

Peregrine is a member of the International Association of Antartic Tour Operators (IAATO) and embrace all their environmental guidelines.

Online Destination Services Sector

The Online Destination Services Sector (ODS) has achieved another year of excellent growth. Total revenues (Hotelbeds) and transaction values (Bedsonline and Hotelopia) have grown by 22% and 233% respectively. As we have previously indicated, the strategic intent has been to invest to grow this business rapidly this year and next and, therefore, the operating profit has remained broadly flat at £11.4m (2004: £11.2m).

The Sector has continued with its strategy of acquiring small bolt-on destination companies to increase its geographical spread, building the online capability and widening the offer to the Sector's customer base. During the year under review, acquisitions were made in Greece and Hawaii. The acquisition of Connoisseur Holidays Unlimited (SEM Corp) in Hawaii was our first move into this region. Connoisseur is a well established and respected destination services business with good relationships with both suppliers and agents. It is the number one non-Japanese destination management company in Hawaii and the Sector believes that there are substantial growth opportunities to be pursued by leveraging our current international suppliers and customers.

To this end, the Sector now has an extensive infrastructure of 61 offices in 14 countries. The destination offices' network is a key differentiator for the business, enabling ODS to have price and range leadership as well as providing superior customer service.

All three routes to market have enjoyed a successful year. Hotelbeds, the original business, provides accommodation, car hire, excursions and other destination services to over 1,800 tour operators. The key objective for this business is to migrate suppliers and customers online. Increasingly, Hotelbeds is providing travel services online at Hotelbeds.com with 20,000 hotels across 900 locations. A key imperative for this route to market is to deliver xml solutions to the top 300 tour operator accounts by the end of 2006; we are currently a third of the way through this project. Hotelbeds revenues totalled £210m (2004: £172m) for the year.

Launched in 2003, Bedsonline provides accommodation, car hire, excursions and other destination services to over 5,000 travel agents who are providing services to the independent traveller. Bedsonline is a high-growth business because it provides travel agents facing a rapidly changing competitive environment with an opportunity to meet the ever more demanding needs of the independent traveller and to reduce costs. It provides a low cost solution to the travel agent in return for a commission. In 2005 the total transaction values increased 109% to £67m (2004: £32m), on which Bedsonline generated revenue of £12m (2004: as restated £6m).

We continue to leverage our destination expertise to increase the number of hotels and destinations we can offer our customers with new acquisitions in Greece...

We have invested in the current year in building the Hotelopia business (our business-to-consumer brand) and it has enjoyed significant growth. Hotelopia significantly increased bednights sold to achieve transactions with a total value of £41m. It generated net revenues of £8m on these transactions. It is present in 42 destination countries and growth is both organic and through strategic partnerships with easyJet and BBVA, the large international Spanish bank. Having established the strategic partnership with BBVA earlier in the year, we are exploring a number of initiatives together which will utilise Hotelopia's content with BBVA's brand and customer base of some 35m. As an example, the Hotelopia credit card backed by BBVA was recently launched in the UK.

We will continue to leverage our destination expertise to increase the number of hotels and destinations we can offer our customers as well as delivering first class destination management capability. We anticipate that the continued investment in the marketing of the online brands will result in continuing flat margins but increased revenue growth.

...and Hawaii.

We have taken delivery of our second ship The Island Star.

Our customers continue to seek out new experiences, such as this elephant safari.

30%

Repeat bookings for Island Cruises, our joint venture with Royal Caribbean Cruises Ltd.

Island Cruises
Island Cruises, our joint venture with Royal Caribbean Cruises Ltd. (RCCL), has continued its financial improvement and has seen a fourfold profit increase. The continued strength of the cruise sector, both in Brazil and in the UK, has further driven yields and occupancy remains very high. The result is particularly encouraging given the backdrop of upward cost pressures, in particular fuel. The business continues to be very successful at attracting first time cruisers through its more relaxed approach and, as the brand becomes more established, repeat business now accounts for 30% of bookings and guest satisfaction levels remain at an all time high.

In late October, we took delivery of our second ship, the Island Star, which has been leased from RCCL. By bringing a second ship into service we will leverage the brand's positive momentum and the buoyant marketplace whilst ensuring that we remain competitive in our Summer Mediterranean and Winter Brazilian markets.

Summary
We will continue to strive to offer our customers the choice of holiday experiences they want. Today's acquisition of Grand Expeditions takes the Group into new and exciting growth areas giving our customers even greater choice. Through the businesses in Grand Expeditions we further strengthen our position in the premium end of the market. Making the right choice, of not only the travel experiences we offer but the business model we operate, will provide superior returns to our shareholders and result in strong top-line revenue and bottom-line earnings for the foreseeable future.

Current trading and prospects
The trading environment has not changed significantly since we issued a trading update on 26 October 2005.

In the Mainstream Holidays Sector revenues are up 4% for Winter 05/06 and 7% for Summer 06 with long-haul and exclusive products continuing to perform well. Margins are up on last year for both seasons and we have the same number of holidays to sell as last year as a result of capacity reductions we have taken so far – Winter -9% and Summer -2%.

In the Specialist Holidays Sector Winter revenues are up 1% year-on-year on bookings that are down 8%. The bookings are down as a result of weakness in the Egyptian market and the reluctance of customers to be in the areas affected by the

Notes:
These figures are up to and including the week ending 26 November 2005.
* these statistics reflect inclusive tour sales only from Great Britain.
** like-for-like cumulative growth Winter 05 +9%, Summer 06 +28%.

Tsunami in and around the anniversary of that event. Capacity cuts are now being undertaken for the second half of Winter to ensure capacity matches demand. The Summer season is only just on sale in the UK source market and to date the volumes sold are negligible at less than 1% of the total expected Sector capacity for the season as a whole. This is in-line with last year. The North American businesses continue to perform well.

The Activity Holidays Sector continues to trade strongly for Winter with sales up 91% in total (excluding 2004/05 acquisitions are up 9%) and Summer sales up 39% (excluding 2004/05 acquisitions are up 14%). The Activity Adventure Division continues to perform very well with like-for-like sales up. Margins are ahead of last year.

The Online Destination Services Sector continues to see strong volumes and prices for the next financial year with all three routes to market.

The Group's business philosophy is not to chase volume at unprofitable margins. Instead we align capacity to match profitable demand. This philosophy, together with our combination of growth and flexibility, means that the Group has confidence as we continue to make progress towards our 5% operating margin target.

Despite a challenging market environment, our unique model means we are confident that the Group remains well placed for continued growth.

Peter Long
Chief Executive
7 December 2005

Increases were again achieved in each Sector and the result represents another year of record profits for the Group.

Group performance

Group profit (before tax, goodwill amortisation and exceptional items) of £114.0m was up 16% from £98.3m in 2004. Goodwill amortisation for the year was £24.9m (2004: £23.6m). Group turnover for the year increased by 11% (£261m) to £2,579m (2004: £2,318m). After excluding the effect of current year acquisitions, turnover increased by 9% to £2,516m.

The segmental split introduced last year has been used again to reflect, as closely as possible, the Sector based management structure in the business. The acquisitions in the student market in North America together with Europe Express, Inc. have, for the time being, been included within the Specialist Holidays Sector. Based on this split the operating profit is as follows:

> Mainstream Holidays Sector operating profit was £54.0m (2004: £48.5m), up 11% year-on-year. This was achieved on turnover of £1,232m (2004: £1,174m), up 5% as a result primarily of the shift in mix to long-haul holidays;

> Specialist Holidays Sector operating profit was £32.1m (2004: £23.8m), up 35% year-on-year. This was on turnover of £891m (2004: £770m), up 16%. The increase in profit was driven by continued growth in Europe (up 14%) and Canada (up 144%);

> Activity Holidays Sector operating profit was £18.1m (2004: £15.1m), up 20% year-on-year. This was achieved on turnover of £226m (2004: £196m), up 15%. The result was driven by strong performances by our Activity Adventure businesses and by a contribution of £1.3m from acquisitions made in the year;

> Online Destination Services Sector operating profit was £11.4m (2004: £11.2m), up 2% year-on-year. This result reflects strong underlying growth offset by further investment in Hotelopia;

> The Group's joint venture with Royal Caribbean Cruises Ltd was profitable for the second year with a result of £3.5m (2004: £0.8m). The Group's share of the profits amounted to £1.8m, compared to £0.4m in 2004.

Mainstream Holidays Sector

The Mainstream Holidays Sector consists of the UK and Ireland tour operating, retail and airline businesses. The Sector's strategy is to focus on the development of differentiated exclusive product to reduce exposure to the competitive flight-only and short-haul markets, whilst encouraging customers to book early. In addition, the Sector seeks continuously to improve the flexibility and operational efficiency of its business model, whilst increasing the level of control it has over the distribution of its product.

Total Mainstream Holidays turnover was up 5% to £1,232m (2004: £1,174m). This was despite a planned capacity reduction of 3% (Winter 04/05 down 6%, Summer 05 down 1%). Within the turnover growth, inclusive tour holidays were up 8% whilst flight-only and other revenues were down 5%.

The key driver of revenue growth was a continuing shift towards higher-priced medium and long-haul holidays but also partly due to the collection of fuel supplements as the industry-wide mechanism to recover higher fuel costs.

The reduction in volumes to short-haul destinations, -14% year-on-year, reflects the continued drive to reduce exposure to commodity product such as flight-only sales and generic 3Iproperties. Short-haul revenues including flight-only now represent just over 30% of total revenues, compared to over 33% in 2004.

Mainstream Holidays Sector

	2004/05	2003/04	Change %
Passengers ('000)*

Other revenues	-1%		
Total	+5%		
Operating profit (£m)	54.0	48.5	+11%
Operating margin %	4.4%	4.1%	+0.3 ppts
Controlled distribution % (Summer)	56%	45%	+11 ppts

* all figures are based on inclusive tour and flight-only, whereas the trading updates simply focus on inclusive tour from Great Britain.

Control of distribution for Summer has increased by 11 percentage points to 56% from 45%. This is split across the various routes to market as follows:

	2005	2004
Retail	25%	23%
Online	25%	15%
Call centre	6%	7%
Total controlled	56%	45%

Since we launched our online site, www.firstchoice.co.uk, three years ago the percentage of sales which have been distributed through this channel has grown substantially every year.

Whilst this rate of growth will clearly slow, we are confident that we will achieve our target of 75% of sales through controlled channels by 2008. To achieve this there will be some incremental revenue expenditure (circa £2-3m) and

capital expenditure (circa £5m) in 2006 to ensure that the website is sufficiently flexible to meet customer requirements and able to handle ever increasing traffic.

Our retail stores continue to play a vital role in the distribution of First Choice products and have again increased the percentage of First Choice holidays sold through this channel. Whilst this in itself does not improve the economics of distribution, it does provide an opportunity to up-sell other products (such as excursions, transfers and foreign exchange) as well as establishing a direct relationship with the customer.

During the year First Choice Airways, the Group's in-house airline, operated with a fleet of 32 aircraft. The size of the fleet will remain broadly similar for the year ahead. Our enhanced long-haul Boeing 767 offering has performed exceptionally well in 2005 with three such aircraft operated in Summer 2005. We anticipate re-mixing our fleet in 2006 to include another three Boeing 767's and there remain eight aircraft based on low lease rate structures.

Specialist Holidays Sector
The Specialist Holidays Sector consists of the European, UK and Canadian specialist businesses.

The Sector increased turnover by 16% over the comparable period to £891m in the year. Passenger volumes increased by 18% to 2.1m and operating profit increased 35% to £32.1m. The operating margin of 3.6% improved by 50 basis points from 3.1% in the comparable period.

European Specialist businesses
In the Continental European Specialist businesses there was strong revenue and profit growth at flat operating margins. Revenues grew 17% to £521m (2004: £445m), whilst profit increased £2.8m to £20.6m (2004: £17.8m). There were again strong performances in France, Italy and Holland and our Nordic business, launched in 2004, doubled the size of its programme and became profitable in its first full year of operation. The flexibility of the business models in Continental Europe resulted in impressive performances despite the terrorist bombings in Turkey and Egypt and the additional costs we incurred as a result.

The UK Specialist business concluded a significant period of change with the back office restructuring of Citalia to complement the similar restructurings in Sovereign and Hayes & Jarvis in 2004. The UK businesses now operate under one management team and are focusing on increasing control of distribution through direct and online routes to market with Meon Villas already a direct-only operator. In the year, 45% of volumes went through controlled routes to market, which include First Choice Retail. These changes will allow the UK businesses to benefit from a reduced overhead base and should result in improved gross margins as we move forward.

Revenues in the UK business were down 9% at £144m (2004: £159m), on flat passenger numbers. Primarily this was as a result of discounting product in South East Asia following the Tsunami and repositioning the villas business. Operating margins were up 70 basis points to 4% (2004: 3.3%).

North American Specialist businesses
Our Canadian Specialist business improved profitability in the year, with a profit of £3.9m (2004: £1.6m). This was achieved on the back of volume increases of 13% which resulted in revenues increasing by 16% to £193m (2004: £166m). The operating margin increased by 1 percentage point to 2.0%.

A significant element of the improved trading of our Canadian business arises from our relationship with Skyservice, our main aviation partner. The relationship gives the business increased flexibility and control over its aviation planning which helps drive cost savings. In addition, the continual focus on the operational efficiency of back office functions and the ability to share product expertise with the Mainstream business also contributes to improving profitability.

In 2004 we acquired StudentCity.com, a North American student travel operator. During 2005, we have built our position in this fragmented marketplace with the acquisitions of Boss Tours, a leading Canadian operator of Spring Breaks and educational tours and Spring Break Travel, a North Carolina based operator. We anticipate further expansion into the North American student market where we are attracted to the counter-cyclical profitability, strong margins and excellent growth potential.

Activity Holidays Sector
Activity Holidays Sector revenues were up 15% year-on-year, driven particularly by acquisitions. The focus in the Marine Division has continued to be to improve utilisation of the yacht and boat fleets as well as improving occupancy in Sunsail Clubs. These actions, combined with strong volume-driven growth in our Activity Adventure businesses, where

turnover was up on a like-for-like basis by 21% and 108% in total, resulted in a 20% increase in operating profit to £18.1m (2004: £15.1m).

First Choice Marine
Further planned reductions in capacity in First Choice Marine combined with a strong focus on club occupancy and yacht and boat utilisation resulted in revenue decreasing to £90m compared to £93m in 2004. This Division is capital intensive and, once again, the focus in the year was to drive an improved return on the invested capital in the business. This was successfully achieved with a three percentage point increase in yacht utilisation and a 10 percentage point increase in club occupancy. Operating margins moved ahead 40 basis points to 11.7% (2004: 11.3%).

Ski
Similar to the strategy of our Mainstream Holidays Sector, we are aiming to reduce our exposure to mid-market, generic product in short-haul destinations to reduce volatility in the business. As a result, for the second year running, we reduced capacity significantly in our adult ski business. Going forward we will focus on our Schools business and the higher margin FlexiSki and Luxury Mountain Hotels brands. Our acquisition of the exclusive rights to operate the Hotel Fitzroy in Val Thorens in 2005 will enable us to expand our recently launched Luxury Mountain Hotels offering. We incurred some restructuring cost after the Winter season finished which will allow the business to move operating margins forward in 2005/06.

Activity Adventure Division
The Activity Adventure Division reported another strong year of growth. The businesses in this Division are low in capital intensity and are characterised by a flexible business model. Operating profit increased by £3.5m to £6.7m. Like-for-like turnover increased by 21% and acquisitions contributed a further £39m of revenue growth (with in-year acquisitions contributing £33m). Active focus on optimising the number of customers on any given trip was key to the achievement of this success. Our strategy of bolting on acquisitions in this Division was accelerated in 2005 and five new businesses were added to the portfolio giving the Group real scale in this rapidly growing market. We anticipate continuing our strategy of adding businesses to this Division for the foreseeable future.

Online Destination Services Sector
Our Online Destination Services Sector provides strong growth opportunities for the Group. During the year total revenues including prior year acquisitions have grown to £230m, an increase of 29%. Profitability for the Sector as a whole increased from £11.2m to £11.4m. Net operating margin was down by one percentage point as a result of the expansion of the lower margin business to consumer Hotelopia brand.

Based on a destination based infrastructure, the business has had a successful year in all three routes to market. Our Hotelbeds business, which services tour operators, has increased the bednights sold in the year by 77% to 5.6m. Bedsonline is a 'business to business' operator servicing the travel agents market and has grown by 102% in terms of bednights sold. Finally Hotelopia, our 'business to consumer' accommodation business, has established strategic partnerships with easyJet and BBVA which have contributed significantly to growing the brand.

Island Cruises
Our joint venture with Royal Caribbean Cruises Ltd, (RCCL) achieved its second year of profitability in 2004/05. First Choice's share of this profit was £1.8m compared to £0.4m in 2003/04.

This business again operated from Brazil in the Winter and Palma in the Summer. Improved passenger load factors and yields resulted in an improvement in Winter trading performance with First Choice's share of the Winter losses reducing from £1.3m to £1.0m. In Summer 2005, continued improvements in distribution resulted in earlier sales at high yields and a 65% improvement in Summer profitability. For 2005/06, the Island Escape will return to Brazil and Palma, building on the ship's strong reputation and high customer satisfaction levels. In addition, a second ship, the Island Star, which has been leased from RCCL, will operate for the first time out of Brazil in the Winter and the Mediterranean in the Summer. We estimate that the start-up costs for the second ship, which will be incurred during the Winter, will be offset by profits generated in the Summer.

Efficiencies arising from leveraging the overhead across two ships will help drive the profitability of this business.

Taxation
The Group profit before tax, goodwill amortisation and exceptional items for the year was £114.0m (2004: £98.3m). The tax charge on recurring profits of £33.1m (2004: £28.4m) represents an effective tax rate of 29% (2004: 29%).

Based on the current structure of the business, existing local taxation rates and legislation, it is expected that the underlying tax rate on ongoing activities (before goodwill amortisation) will remain at a level of around 29% going forward. For a number of years, the corporation tax cash outflows have benefited from accelerated capital allowances. This benefit has unwound and consequently the tax cash outflows have returned to levels more consistent with the tax charge.

Earnings per share
Basic earnings per ordinary share before goodwill amortisation and exceptional items was 13.6p (2004: 10.8p), an increase of 26%. This includes the positive earnings impact of 3% as a result of the redemption of the convertible preference shares.

Dividends
The Board recommends a final dividend per ordinary share of 4.65p (2004: 3.75p), an increase of 24%, making a total dividend for the year of 6.6p (2004: 5.5p), an increase of 20%. Going forward the Group will look to maintain the dividend cover (at the profit after tax and preference dividends but before goodwill amortisation and exceptional items level) at approximately two times. The dividend will be paid on 6 April 2006 to all shareholders on the register as at 3 March 2006. The Company intends to continue to operate a dividend re-investment plan as an alternative to the full cash dividend.

For the last three years First Choice has been re-investing its free cash flow in small to medium sized bolt-on acquisitions. This programme has been accelerated in 2004/05 with 12 businesses being acquired for an expected total consideration of £65.5m.

Acquisitions

Date	Business acquired	Maximum consideration	Consideration paid in 2005
February 2005	Spring Break Travel	£3.2m	£1.7m
April 2005	Delphin	£3.1m	£0.7m
May 2005	Groupe Aventuria	£7.4m	£7.4m
June 2005	MyPlanet	£7.2m	£7.2m
July 2005	Peregrine Adventures	£19.1m	£19.1m
July 2005	Europe Express	£12.3m	£9.1m
August 2005	Boss Tours	£3.6m	£2.8m
September 2005	Imaginative Traveller	£6.6m	£3.5m
October 2005	SEM Corp	£1.3m	£1.0m
Various	Other	£1.7m	£0.9m
Total		£65.5m	£53.4m

Acquisitions in the year are shown in the table above. Of the maximum consideration, £53.4m was paid during the year. A further £1.6m was paid as deferred consideration on prior year acquisitions. In addition, £1.8m of acquisition expenses were incurred bringing the total expected consideration to £67.3m. By way of comparison, in the year ended 31 October 2004, we made acquisitions with a maximum aggregate consideration of £40.9m of which £28.3m was paid during the year.

	2005		2004	
£m	Max	Paid	Max	Paid
In-year	65.5	53.4	40.9	28.3
Deferred	–	1.6	–	4.3
Expenses	1.8	1.8	0.9	0.9
Total	67.3	56.8	41.8	33.5

The net assets of all the subsidiaries acquired during the year have been consolidated in the Group's balance sheet at 31 October 2005. The Group's consolidated profit and loss account reflects turnover of £63m and operating profit before goodwill amortisation of £1.6m from the results of the acquired companies since acquisition. Certain of these acquisitions incur losses in the Summer, which reduces the overall profit contribution of these businesses in the year of acquisition.

Cash and liquidity
Throughout the year there has continued to be a strong focus on cash management with an emphasis on working capital management. Careful cash management is now an established feature across all of our businesses, with a clear understanding of the importance of conversion of operating profits to cash. The net cash position (cash and liquid investments less loans, overdrafts and finance leases) at the year-end was £18.1m (2004: £220.7m). This consisted of £105.4m of cash and £87.3m of debt. Based on the average cash balance during the year the gearing level would have been 23%. Fixed charges cover which we believe to be the most useful measure of liquidity was 2.3 times at the year end (2004: 2.1 times). On this basis we are satisfied with the level of gearing and believe there is capacity within the balance sheet to increase this further if required.

During the year the Group renegotiated the terms of a £310m revolving credit facility, which we had entered into with our banking group in March 2004. The original facility had a four-year term. Reflecting the improving financial strength of the Company, the banking group agreed to revised financial covenants which provide more flexibility for the business to grow, better rates and a one year extension. Furthermore in July 2005 the banking group agreed to an additional revolving creditfacility of £240m on the same revised terms as the original facility.

Convertible cumulative preference shares
During the year the Company redeemed the 6.75% convertible cumulative preference shares held at par for £199.5m. The redemption was funded by a combination of cash resources and the expansion of its existing bank facilities referred to above. The Group benefits from an interest rate on its expanded bank facilities that is lower than the fixed 6.75% dividend on the preference shares and from tax deductibility of the interest charge.

Shareholders' funds
Shareholders' funds have decreased in the year to £302.3m (2004: £487.1m) largely as a result of the redemption of the convertible cumulative preference shares referred to opposite.

There was a retained profit for the year of £11.2m (2004: £3.7m) and the Group issued no ordinary shares (2004: nil) in respect of acquisitions.

Regulations, bonding and banking
The Civil Aviation Authority, the Federation of Tour Operators and the Association of British Travel Agents regulate the businesses based in the UK. Each of these bodies protects the rights of consumers by requiring the Group to lodge security bonds with them.

Where the international businesses are regulated, this is achieved either by means of cash collateral or bond cover similar to the UK requirements.

Treasury policies
The Group faces significant financial risks mainly due to the substantial cross-border element of its trading. Currency exchange risk, which arises because of the mismatch between the Group's revenue streams and foreign currency operating costs, is managed by the use of foreign exchange forward, swap and option contracts. Interest rate risk is split into two separate exposures, namely US dollar interest rates on variable rate aircraft leases and loans and sterling rates on Group cash balances. Both exposures are managed using interest rate derivatives. Finally, the Group's exposure to jet fuel prices is managed using energy swaps and options.

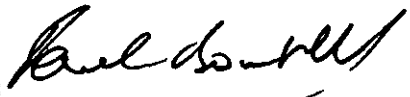
During the year the governance of financial risk was further formalised by the creation of the Financial Risk Management Committee. The Committee is a formal committee of the Board and is made up of the relevant senior business employees and technical experts. Incorporated within the terms of reference is the determination of all treasury policies and the monitoring of the effectiveness of those policies.

Group Treasury implements the agreed policies on a day-to-day basis. The procedures also stipulate the levels of authority applied to dealing and to approving the types of financial instrument, used to manage these exposures. Transactions are only undertaken to hedge underlying exposures. Financial instruments are not traded, nor are speculative positions taken. Regular reports are provided to the Board.

International Financial Reporting Standards (IFRS)
European and UK legislation requires the Group to adopt IFRS for the financial year ending 31 October 2006. The interim financial statements at 30 April 2006 and the full statements for the year ending 31 October 2006 will be prepared using the measurement and recognition principles of IFRS (as adopted for use in the EU) as opposed to UK Generally Accepted Accounting Practice (UK GAAP).

The Group believes it is well placed in the transition process. The IFRS convergence project continues in-line with the project plan. An announcement detailing the impacts of the adoption of IFRS was made on 26 October 2005. This announcement, including the opening IFRS Group balance sheet at 1 November 2004 and the accounting policies used in its preparation, can be found on the First Choice Holidays PLC website www.firstchoiceholidaysplc.com.

At the date of transition to IFRS, the Group calculated that net assets would be reduced by circa £60m. The most significant changes to balance sheet values were:



> an increase in net assets of £19.4m as the 2004 final dividend had not been approved at the date of transition, 1 November 2004 and, therefore, could not be included in the balance sheet as a creditor at that date;

> a reduction of net assets by £21.0m for bringing the deficit (net of deferred taxation) on defined benefit pension schemes onto the balance sheet;

> a reduction in net assets of £63.0m in respect of the timing of recognition of costs associated with the provision of holidays (including brochure costs). These costs were recognised under UK GAAP when the associated revenue was accounted for, but must be expensed as incurred under IFRS; and

> an increase in net assets of £15.8m due to the implementation of IAS 12, 'Income Taxes' and the tax effect of adjustments to the balance sheet.

Other significant changes affecting the financial statements after 1 November 2004 will include accounting for business combinations in-line with IFRS 3 and accounting for financial instruments in-line with IAS 32/39 with effect from 1 November 2005. Further details on these will be given in February 2006 when the Group will issue financial statements for the six months to 30 April 2005 and the year to 31 October 2005 as re-stated under IFRS.

1. Accounting policies

Basis of preparation
The following accounting policies have been consistently applied in dealing with items considered material in relation to the accounts, other than the change in accounting policy in relation to turnover for Online Destination Services.

The comparative figures for turnover and cost of sales have both been reduced by £32.1m to reflect more accurately the contractual basis of the activity in the Online Destination Services Sector.

Accounting convention
The accounts have been prepared in accordance with applicable accounting standards and under the historical cost convention as modified by the revaluation of certain fixed assets, and on the going concern basis.

Basis of consolidation
The Group accounts consolidate the accounts of First Choice Holidays PLC and its subsidiary undertakings together with the Group's share of net assets and results of its joint venture and associated undertakings. These accounts are made up to 31 October 2005.

The acquisition method of accounting has been adopted. Under this method, the results of subsidiary undertakings acquired during the year are included in the profit and loss account from the effective date of acquisition.

The Company has taken advantage of the exemption under Section 230 of the Companies Act 1985 from presenting its own profit and loss account.

Associated undertakings and joint ventures
An associated undertaking is one in which the Group has a long-term investment and exercises significant influence over the Company in which the investment is made. The Group's share of the results and net assets of its associated undertakings are included in the consolidated profit and loss account and balance sheet under the equity method of accounting.

A joint venture is an undertaking in which the Group has a long-term interest and over which it exercises joint control. The Group's share of the profits less losses of joint ventures is included in the consolidated profit and loss account and its interest in their net assets, and the Group's related other goodwill, is included in investments in the consolidated balance sheet. The joint venture undertaking has been accounted for using the gross equity method in the Group balance sheet.

Goodwill
Purchased goodwill (representing the excess of the fair value of the consideration and associated costs given over the fair values of the separable net assets acquired) arising on consolidation in respect of acquisitions since 1 November 1998 is capitalised. Positive goodwill is amortised to nil by equal instalments over its estimated useful life, normally and in no case more than 20 years. On the subsequent disposal or termination of a business acquired since 1 November 1998, the profit or loss on disposal or termination is calculated after charging the unamortised amount of any related goodwill.

Goodwill arising on consolidation prior to the adoption, on 1 November 1998, of FRS 10: Goodwill and Intangible Assets, has been charged directly to reserves. The goodwill, which has been taken directly to reserves, will be charged to the profit and loss account on disposal of the related business.

Fair value accounting adjustments are made in respect of acquisitions and these may be made on provisional estimates. Amendments may be made to those adjustments in the subsequent accounting period with a corresponding adjustment to goodwill.

Foreign currencies
Transactions in overseas currencies are translated at the exchange rate ruling at the date of the transaction or, where forward cover has been arranged, at the contractual rate. Monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rates ruling at the balance sheet date or at a contractual rate if applicable and any exchange differences arising are taken to the profit and loss account in the season to which the contract relates.

The results of overseas subsidiaries are translated at weighted average exchange rates for the year and exchange differences arising on consolidation of the net investment in overseas subsidiaries are dealt with through reserves.

Financial instruments
The following financial instruments may be utilised by the Group: foreign exchange forward contracts and swaps, foreign exchange options, interest rate swaps, forward rate agreements, interest rate options, energy swaps and energy options. The instruments are used to manage Group exposures to fluctuations in foreign currency exchange rates, interest rates and fuel prices.

Financial instruments are contracted for hedging purposes only. The Group does not trade any financial instruments and does not enter into speculative transactions. Interest rate derivatives are used to manage interest rate risk. Amounts payable and receivable in respect of these derivatives are recognised as adjustments to interest income or payable over the period of the contracts.

Gains and losses on foreign currency hedges are recognised on the maturity of the underlying exposure. Gains or losses arising on hedging instruments, which are cancelled due to the termination of underlying exposure, are taken to the profit and loss account immediately.

Turnover
Turnover represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business. Revenue in respect of in house product is recognised on the date of departure and the related costs of distribution and of providing the holidays and flights are charged to the profit and loss account on the same basis. Travel agency commissions and other revenues received from the sale of third party product, together with related costs, are recognised when they are earned on receipt of final payment. Turnover excludes intra-group transactions and is stated after deduction of trade discounts and commissions.

Client money received in advance
Client money received at the balance sheet date relating to holidays commencing and flights departing after the year end is included in creditors.

Marketing costs
Brochure and other marketing costs are charged to the profit and loss account in the season to which they relate.

Operating leases
Rentals payable and receivable under operating leases are charged or credited to the profit and loss account on a straight-line basis over the period of the lease or on another systematic basis, if this is more representative of the time pattern of the benefit from the use of the leased asset.

Finance leases and hire purchase contracts
Assets arising under finance leases and hire purchase contracts are capitalised and a corresponding liability recorded in creditors representing the present value of the minimum lease payments. Where an option price exists, and the Group intends at inception to exercise the option, the corresponding liability includes the option purchase price as a lease payment and the option exercise date is taken as the most beneficial to the Group. Payments are treated as consisting of capital and interest elements with the interest being charged to the profit and loss account in proportion to the outstanding obligations.

Tangible fixed assets and depreciation
Tangible fixed assets are depreciated on a straight-line basis, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset over its expected useful economic life.

The years used are as follows:

Freehold properties	50 years
Short leasehold properties	Lease period
Finance lease aircraft and equipment	Lease period
Aircraft spares and equipment	12 years period to next overhaul
Yachts	15 years
Motor boats	25 years
Retail computer equipment	5 years
Computer equipment	3-5 years
Retail fixtures and fittings	8 years
Other assets	4 years

Since adopting FRS 15: Tangible Fixed Assets, newly acquired assets are carried at cost with other assets held at their previously revalued amounts.

Aircraft maintenance costs
Provision is made in respect of maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares based on the total anticipated costs over the useful economic life of the assets calculated by reference to costs experienced and published manufacturers' data. The charge to the profit and loss account is calculated by reference to the number of hours flown or by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised on initial recognition and depreciated over the period until the next scheduled major overhaul.

Deferred taxation
Except as otherwise required by accounting standards, full provision without discounting is made for all timing differences, which have arisen but not reversed at the balance sheet date. Timing differences arise when items of income and expenditure are included in tax computations in periods different from their inclusion in the accounts.

Pensions
The Group operates defined benefit and defined contribution schemes. Pension liabilities are funded by monthly or annual contributions. Under the defined benefit schemes, pension liabilities are charged to the profit and loss account so as to spread the long-term cost of pensions over the service lives of employees. Variations from regular cost are spread over the average remaining service lives of current employees. Defined contribution scheme pension liabilities are charged to the profit and loss account as they fall due.

FRS 17: Retirement Benefits will require a market rather than actuarial valuation of defined benefit schemes. This will result in a greater volatility of the pension scheme surplus or deficit as the market valuation will be taken at each balance sheet date and be reflective of a particular point in time. At 31 October 2005, the Group has adopted the transitional disclosure requirements of FRS 17.

Geographical analysis of business

Turnover determined by the location of customers is not materially different from turnover determined by location of business. Europe is defined as Continental Europe and Eire, whilst North America refers to Canada and the United States. First Choice is an integrated leisure travel business encompassing tour operating, distribution capacity, airline operations and ground handling services. Accordingly we consider that we operate under one class of business which we have defined as "Leisure Travel".

The exceptional item in the prior year of £0.2m arose in Europe.

Details of the emoluments of Directors (including details of share options, long-term incentive scheme interests and pension entitlements) are set out in the Report of the Board to Shareholders on Directors' Remuneration on pages 63 to 70.

Consistent with the disclosure in note 2 "Segmental information" we consider the Group to have one integrated business of "Leisure Travel". Accordingly, we have disclosed the average number of employees under this single business.

Pension costs
The Group operates pension schemes for employees eligible and wishing to participate in the schemes. The assets of all the schemes are held separately from the assets of the Group.

Funded defined contribution schemes for employees and Directors (Group schemes)
Pension costs of £8.9m (2004: £7.8m) relating to defined contribution schemes were charged to the profit and loss account.

Funded defined benefit schemes
The Group sponsors three defined benefit schemes, the Air 2000 Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme and the Emerald Star Line scheme. Actuarial valuations of the three schemes were carried out at 1 November 2003 (Air 2000), 1 November 2003 (Unijet), and 1 July 2002 (Emerald Star Line). The valuations revealed Minimum Funding Requirement ratios of 79% and 81% respectively for the Air 2000 and Unijet schemes, calculated in accordance with the provisions of the Pension Act 1995.

All three defined benefit schemes are closed to new entrants and under the projected unit method, the service cost as a percentage of pensionable payroll will increase as the members of the scheme approach retirement.

Valuations of the schemes are made by qualified actuaries using market based valuations for the assets and attained age method for the liabilities.

5. Employees continued

Air 2000 scheme
The principal valuation assumptions used were the rates of investment return of 7.25% per annum compound (pre-retirement) and 5.5% per annum compound (post-retirement) and a rate of salary increase of 4.75% per annum compound. The market value of the scheme's assets at the date of the last actuarial valuation was £18.5m, representing 59% of the benefits that had accrued to members after allowing for expected future increases in earnings. The total pension charge for the year was £2.2m (2004: £2.3m). The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contributions from 1 June 2004 onwards are 34.2% of contribution salaries for Flight Deck staff and 30.1% for Ground and Administrative staff. From 1 June 2004 to 31 March 2005 Flight Deck staff have a contribution rate of 7%, from 1 April 2005 to 31 December 2005 8% and from 1 January 2006 onwards 10%. From 1 June 2004 to 31 March 2005 Ground and Administrative staff have a contribution rate of 5%, from 1 April 2005 to 31 March 2006 6% and from 1 April 2006 onwards 7%.

In addition special employer contributions have been paid on 1 April 2005 and 1 September 2005 of £1.8m and £2.9m respectively. Further special employer contributions are payable as follows: £3.5m no later than 1 June 2006, £3.4m no later than 1 June 2007 and £0.85m each no later than 1 June 2008, 2009 and 2010 respectively.

The next triennial valuation will be due no later than 1 November 2006 and will be reflected in the accounts for the year ending 31 October 2007.

Unijet scheme
The principal valuation assumptions used were the rates of investment return of 7.25% per annum compound (pre-retirement) and 5.5% per annum compound (post-retirement) and a rate of salary increase of 4.75% per annum compound. The market value of the scheme's assets at the date of the last actuarial valuation was £12.3m, representing 61% of the benefits that had accrued to members after allowing for expected future increases in earnings. The total pension cost for the year was £1.6m (2004: £1.6m). The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contribution rate from 1 November 2004 to 31 August 2005 is 16.4% of pensionable salaries and from 1 September 2005 onwards 32.1%. From 1 November 2004 to 31 March 2005 employees have a contribution rate of 7%, from 1 April 2005 to 31 December 2005 8% and from 1 January 2006 onwards 10%.

In addition special employer contributions have been paid on 1 April 2005 and 1 September 2005 of £0.74m and £2.0m respectively. Further special employer contributions are payable as follows: £2.45m no later than each of 1 June 2006 and 1 June 2007 respectively, and £1.15m each no later than 1 June 2008, 2009 and 2010 respectively.

The next triennial valuation will be due no later than 1 November 2006 and will be reflected in the accounts for the year ending 31 October 2007.

Emerald Star Line scheme
The principal valuation assumptions used were the rates of investment return of 8.0% per annum compound and a rate of salary increase of 6.0% per annum compound. From July 2005 the Group has contributed at an average rate of 2.5% of contributory earnings. Employees do not contribute. The market value of the scheme's assets at the date of the last actuarial valuation was £1.1m. The total pension cost for the year was £14,000 (2004: £14,000).

The next triennial valuation is currently underway and will be reflected in the accounts for the year ending 31 October 2006.

The transitional arrangements of FRS 17 require additional disclosure of defined benefit pension schemes as at 31 October 2005, 2004 and 2003, calculated in accordance with the requirements of FRS 17. For the purpose of these accounts, these figures are illustrative only and do not impact on the actual balance sheet or the profit and loss account. The assets of each scheme have been taken at market value and the liabilities have been calculated by the qualified actuary using the following principal actuarial assumptions:

	Emerald Star Line scheme per annum			Air 2000 scheme per annum			Unijet scheme per annum		
	2005 %	2004 %	2003 %	2005 %	2004 %	2003 %	2005 %	2004 %	2003 %
Inflation	2.25	2.50	2.50	3.00	3.00	2.50	3.00	3.00	2.50
Salary increases	4.00	4.50	4.50	5.00	5.00	3.75	5.00	5.00	3.75
Rate of discount	4.00	4.50	5.25	5.20	5.50	5.75	5.20	5.50	5.75
Pension in payment increases				3.00	3.00	3.00	3.00	3.00	2.50
Revaluation rate for deferred pensioners				3.00	3.00	2.50	3.00	3.00	2.50

5. Employees continued

On this basis, the illustrative balance sheet figures are as follows:

	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m
Assets	1.6	1.4	1.2	30.4	21.2	18.5	19.5	13.8	12.4	51.5	36.4	32.1
Liabilities	(1.2)	(1.0)	(0.7)	(49.3)	(39.6)	(27.5)	(33.8)	(27.2)	(16.9)	(84.3)	(67.8)	(45.1)
(Deficit)/surplus	0.4	0.4	0.5	(18.9)	(18.4)	(9.0)	(14.3)	(13.4)	(4.5)	(32.8)	(31.4)	(13.0)
Deferred tax	–	–	–	5.7	5.5	2.7	4.3	4.0	1.4	10.0	9.5	4.1
Net (deficit)/ surplus	0.4	0.4	0.5	(13.2)	(12.9)	(6.3)	(10.0)	(9.4)	(3.1)	(22.8)	(21.9)	(8.9)

Based on the net deficit in the schemes at 31 October 2005 the future full adoption of FRS 17 would result in a decrease in Group reserves.

The above disclosed position is different to that determined for the long term funding of the schemes, as different assumptions have been used.

The assets of the schemes at 31 October 2005, 31 October 2004 and 31 October 2003 and corresponding expected returns over the following year are as follows:

	Emerald Star Line scheme			Air 2000 scheme			Unijet scheme			Expected returns on all schemes		
	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m	2005 %	2004 %	2003 %
Equities	1.2	1.0	0.9	19.8	13.7	12.1	12.7	9.0	8.2	7.95	8.44	8.70
Bonds	0.2	0.2	0.2	10.5	7.4	6.2	6.7	4.7	4.1	4.98	5.48	5.50
Cash and other short-term assets	0.2	0.2	0.1	0.1	0.1	0.2	0.1	0.1	0.1	4.75	5.00	4.70
	1.6	1.4	1.2	30.4	21.2	18.5	19.5	13.8	12.4			

The fair value of the schemes' assets are not intended to be realised in the short term and may be subject to significant change before they are realised.

The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions, which, due to the timescale covered, may not necessarily be borne out in practice. The present values of the schemes' liabilities are derived from cash flow projections over long periods and are inherently uncertain.

The transitional arrangements of FRS 17 also require disclosure of the defined benefit pension related costs and movements which would have been included in the profit and loss account and the statement of total consolidated recognised gains and losses had full adoption of FRS 17 been made in the year ended 31 October 2005.

Analysis of the amount that would have been charged to operating profit:

	Emerald Star Line scheme		Air 2000 scheme		Unijet scheme		Total	
	2005 £m	2004 £m	2005 £m	2004 £m	2005 £m	2004 £m	2005 £m	2004 £m
Current service cost	–	–	1.6	1.2	1.4	1.1	3.0	2.3

Analysis of the amount that would have been charged to other finance income:

	Emerald Star Line scheme		Air 2000 scheme		Unijet scheme		Total

Share options
The Company has established three principal share option schemes: a senior executive performance related and a savings related share option scheme as well as an alternative long-term incentive scheme known as the Restricted Share Plan, all of which are as described on pages 64 to 66.

Options granted and outstanding as well as shares awarded and outstanding in respect of unissued ordinary shares, are as follows:

	No. of shares	Option exercise price (p)	Date first exercisable
Senior executive plan	3,200,914	109.50	30 October 2007
	2,893,983	135.25	9 December 2008
Savings related share option scheme	188,642	97.60	1 October 2005
Restricted share plan	54,054	N/A	16 September 2002
	237,675	N/A	14 December 2002
	1,357	N/A	15 August 2003
	45,174	N/A	5 April 2004
	198,940	N/A	11 December 2004
	7,015	N/A	12 April 2005
	2,056,724	N/A	30 October 2005
	423,364	N/A	12 December 2005
	2,544,422	N/A	31 October 2006
	2,177,411	N/A	9 December 2006
	802,413	N/A	9 December 2006
	154,333	N/A	23 December 2006
	83,479	N/A	1 April 2007
	14,212	N/A	28 April 2007
	87,976	N/A	27 July 2007
	419,548	N/A	13 October 2007
	962,786	N/A	14 December 2007
	267,536	N/A	23 December 2007

As at 31 October 2005 there were 7,565,589 ordinary shares held by the First Choice Employee Benefit Trust. The Trust is funded by the Group by way of loans. The Group has taken advantage of the exemption within Urgent Issues Task Force (UITF) 17: Employee Share Schemes, in respect of its savings related share option scheme. The cost of share options granted under this scheme are therefore not charged to the profit and loss account.

6. Profit on ordinary activities before taxation

	2005 £m	2004 £m
Profit on ordinary activities before taxation is stated after charging/(crediting):		
Operating lease income, aircraft	(6.0)	(4.9)
Operating lease rentals, land and buildings	43.0	39.3
Operating lease rentals, aircraft and other equipment	74.2	85.1
Auditors' remuneration, audit fees	0.8	0.9
Other fees paid to the auditors and their associates	0.3	0.6
Depreciation	41.5	35.8
Charge for share based payments	2.2	3.0
(Gain)/loss on sale of fixed assets	(0.4)	0.5
Gain on foreign currency retranslation	(2.2)	–
Goodwill amortisation, subsidiaries	24.6	23.3
Goodwill amortisation, associates	0.1	0.1
Goodwill amortisation, joint venture	0.2	0.2

The Company's audit fee is borne by a subsidiary company and amounted to £10,250 (2004: £10,000). Non-audit fees of £Nil (2004: £0.1m) relating to due diligence on acquisitions and related share issue costs have been included within the cost of investments and the calculation of goodwill arising on consolidation. Non-audit fees charged to the profit and loss account of £0.3m (2004: £0.6m) principally relate to advice relating to IFRS transition (£0.2m) and regulatory compliance certification (£0.1m).

7. Taxation

The tax charge in the 31 October 2005 Group accounts can be summarised as follows:

Tax on profit on ordinary activities:

(i) Analysis of charge in year

	2005 £m	2004 £m
Current tax:		
UK corporation tax on profits of the year	23.7	17.7
Non-UK tax on profits of the year	9.7	9.4
Adjustments in respect of previous periods	1.0	(0.1)
Total current tax before share of joint venture and associate	34.4	27.0
– Share of current tax of joint venture	–	(0.3)
– Adjustments in respect of previous periods relating to joint venture	0.1	–
– Share of associates' current tax	0.3	0.2
Total current tax after share of joint venture and associate	34.8	26.9
Deferred tax:		
Origination and reversal of timing differences:		
– Current year UK	(3.0)	(0.9)
– Current year non-UK	1.9	2.0
– Adjustments in respect of previous periods	(1.1)	0.1
Total deferred tax before share of joint venture	(2.2)	1.2
– Share of deferred tax of joint venture	0.5	0.3
Total deferred tax after share of joint venture	(1.7)	1.5
Tax on profit on ordinary activities	33.1	28.4

7. Taxation continued

(ii) Factors affecting the current tax charge for the year
The current tax charge for the year is higher (2004: higher) than the standard rate of corporation tax in the UK of 30% (2004: 30%). The differences are explained below:

	2005 £m	2004 £m
Profit on ordinary activities before tax	**89.1**	**74.5**
Profit on ordinary activities at the standard rate of UK corporation tax of 30% (2004: 30%)	**26.7**	**22.4**
Effects of:		
– Expenses not deductible for tax purposes	8.1	5.3
– Capital allowances (in excess of)/less than depreciation	(0.7)	0.9
– Utilisation of tax losses	(4.7)	(3.6)
– Non-utilisation of tax losses	2.2	0.9
– Higher tax rates on overseas earnings	1.2	1.8
– Lower tax rates on overseas earnings	(3.8)	(1.2)
– Adjustments to tax charge in respect of previous periods	1.1	(0.1)
– Other short term timing differences	4.7	0.5
Current tax charge for year	**34.8**	**26.9**

The effective rate of taxation of 29% (pre goodwill amortisation and exceptional items) is expected to prevail for the foreseeable future.

8. Dividends

	2005 £m	2004 £m
Ordinary shares		
Interim – 1.95p per share (2004: 1.75p) paid 1 November 2005	10.1	9.0
Final proposed – 4.65p per share (2004: 3.75p) payable 6 April 2006	24.5	19.4
Total ordinary dividend – 6.6p per share (2004: 5.5p)	34.6	28.4
Preference shares		
6.75% convertible cumulative redeemable	9.9	13.5
Amortisation of preference share issue costs	0.1	0.2
	10.0	13.7

The final ordinary dividend of 4.65p is payable to all ordinary shareholders on the register on 3 March 2006.

Amounts paid relating to preference share dividends during the year comprise £9.9m in respect of the 2005 dividend and £1.1m accrued for the 2004 dividend as at 31 October 2004. No accrual has been made in respect of preference share dividends as the preference shares were all redeemed by the Company on 27 July 2005 (see note 20).

9. Earnings per ordinary share

The basic earnings per ordinary share is calculated by dividing the profit attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the year, excluding those held in the employee share ownership trusts. The diluted earnings per share is calculated on profits attributable to ordinary shareholders divided by the adjusted weighted average number of ordinary shares, which takes account of the outstanding share options, where their conversion is dilutive.

The additional earnings per share measures have been given to provide the reader of the accounts with a better understanding of the results.

	Earnings 2005 £m	Weighted average no. of shares 2005 millions	Earnings per share 2005 pence	Earnings 2004 £m	Weighted average no. of shares 2004 millions	Earnings per share 2004 pence
(i) Basic earnings per share	45.8	519.5	8.8	32.1	516.6	6.2
Goodwill amortisation	24.9	–	4.8	23.6	–	4.6
Basic earnings per share before goodwill amortisation	70.7	519.5	13.6	55.7	516.6	10.8
Exceptional items (net of tax)	–	–	–	0.2	–	–
Basic earnings per share before goodwill amortisation and exceptional items	70.7	519.5	13.6	55.9	516.6	10.8
(ii) Diluted earnings per share						
Basic earnings per share	45.8	519.5	8.8	32.1	516.6	6.2
Effect of dilutive securities						
Options	–	9.6	(0.1)	–	4.3	–
Diluted earnings per share	45.8	529.1	8.7	32.1	520.9	6.2
Goodwill amortisation	24.9	–	4.7	23.6	–	4.5
Diluted earnings per share before goodwill amortisation	70.7	529.1	13.4	55.7	520.9	10.7
Exceptional items (net of tax)	–	–	–	0.2	–	–
Diluted earnings per share before goodwill amortisation and exceptional items	70.7	529.1	13.4	55.9	520.9	10.7

10. Intangible fixed assets

	Group £m
Cost	
At 1 November 2004	462.1
Additions (note 12a)	68.9
Disposals	(0.2)
Revision to consideration on prior year acquisitions (note 12b)	3.2
Exchange adjustments	1.9
At 31 October 2005	535.9
Provision for amortisation	
At 1 November 2004	85.7
Charge in the year	24.7
At 31 October 2005	110.4
Net book value	
At 31 October 2005	425.5
At 31 October 2004	376.4

Intangible fixed assets represent goodwill arising on acquisition. Note 12 provides details of acquisitions in the year and other changes to goodwill. Positive goodwill is amortised to nil by equal instalments over its useful economic life, usually 20 years.

11. Tangible fixed assets

	Land and buildings £m	Yachts and motor boats £m	Aircraft and equipment £m	Computer equipment £m	Other £m	Total £m
Cost or valuation						
At 1 November 2004	98.4	128.0	82.3	72.3	32.4	413.4
Exchange adjustments	–	(0.9)	–	0.1	(0.1)	(0.9)
Additions	4.6	26.5	9.4	23.2	6.3	70.0
Disposals	(3.9)	(12.1)	(3.1)	(1.1)	(3.8)	(24.0)
At 31 October 2005	**99.1**	**141.5**	**88.6**	**94.5**	**34.8**	**458.5**
Depreciation						
At 1 November 2004	24.6	17.5	33.7	33.8	15.1	124.7
Exchange adjustments	0.1	(0.2)	–	0.1	–	–
Provided in the year	5.7	7.3	6.0	16.7	5.8	41.5
Disposals	(2.0)	(5.0)	(2.7)	(1.0)	(2.8)	(13.5)
At 31 October 2005	**28.4**	**19.6**	**37.0**	**49.6**	**18.1**	**152.7**
Net book value						
At 31 October 2005	**70.7**	**121.9**	**51.6**	**44.9**	**16.7**	**305.8**
At 31 October 2004	73.8	110.5	48.6	38.5	17.3	288.7

Other fixed assets with a combined net book value as at 31 October 2005 of £16.7m (2004: £17.3m) comprise £15.8m (2004: £16.5m) of fixtures and fittings, £0.8m (2004: £0.6m) of motor vehicles and £0.1m (2004: £0.2m) of ski equipment.

Fixed asset additions of £70.0m include £2.1m of fixed assets acquired on the acquisition of subsidiary companies during the year.

Land and buildings comprise freehold and short leasehold properties with net book values of £19.5m (2004: £19.4m) and £51.2m (2004: £54.4m) respectively. A number of the Group's freehold properties are included at valuations, which were adopted prior to the introduction of FRS 15:

(i) A freehold property in Manchester was revalued at £1.2m by Savills, Chartered Surveyors, on the basis of an open market valuation at 31 October 1997 in accordance with the Practice Statements of the Royal Institution of Chartered Surveyors.

(ii) Freehold hotel properties located in France were revalued as at 31 October 1996 at French Francs 16,000,000 (£1.9m) by Lecart HDS Expertises, on the basis of an open market valuation.

The net book values of assets held at valuation along with corresponding historical cost amounts are set out below. All valuations were carried out on an open market basis.

	Land and buildings £m	Aircraft and equipment £m
Net book value at valuation		
As at 31 October 2005	**2.7**	**3.0**
Historical cost		
At 1 November 2004 and 31 October 2005	2.1	4.5
Depreciation		
At 1 November 2004	0.5	1.9
Provided in the year	0.1	0.5
At 31 October 2005	**0.6**	**2.4**
Net book value at cost		
At 31 October 2005	**1.5**	**2.1**

Properties revalued as part of acquisitions have not been included in the above figures as they represent the cost to the Group.
The net book value of assets held under finance leases and hire purchase contracts at 31 October 2005 was £32.1m (2004: £37.6m).
The depreciation charged in the year for these assets was £3.6m (2004: £2.8m).

Subsidiaries marked with an * are directly held by First Choice Holidays PLC. A full list of subsidiaries will be included in the Company's annual return. All the principal operating subsidiaries were wholly owned and were consolidated at 31 October 2005.

12. Investments continued

Acquisitions

(a) Acquisitions in the year ended 31 October 2005

Acquisitions were made in the year for a total of £67.3m, including £1.8m of acquisition expenses. These acquisitions gave rise to provisional goodwill of £68.9m. The acquired businesses and their acquisition date were:

Sector and entity	Country of operation	Acquisition date	Consideration £m
Specialist Holidays			
Delphin Touristik Reiserveranstalter GmbH	Austria	April 2005	3.1
Spring Break Travel Inc	United States	February 2005	3.2

Net assets/(liabilities) acquired

	Notes	Book value prior to acquisition £m	Accounting policy adjustments £m	Fair value adjustments £m	Fair value of net assets/ (liabilities) acquired £m
Intangible fixed assets	1	0.7	–	(0.7)	–
Tangible fixed assets	2	2.2	–	(0.1)	2.1
Investments		0.1	–	–	0.1
Current assets (excluding cash)	3	16.0	(0.1)	–	15.9
Cash		23.7	–	–	23.7
Creditors due within one year	4	(42.9)	(0.2)	(0.1)	(43.2)
Creditors due after more than one year		(0.2)	–	–	(0.2)
Total net liabilities acquired		**(0.4)**	**(0.3)**	**(0.9)**	**(1.6)**
Consideration					65.5
Acquisition costs					1.8
Total investment cost					67.3
Net liabilities acquired (as above)					1.6
Provisional goodwill arising					68.9

Notes:
1 elimination of goodwill existing in balance sheets at acquisition.
2 impairment of fixed asset.
3 remove fair value of financial instruments not carried on balance sheet under UK GAAP.
4 adjustment of revenue recognition to Group policy; recognition of accruals for costs.

12. Investments continued

The consideration payable is made up by:

	£m
Cash	53.4
Deferred consideration	6.6
Contingent consideration	5.5
Total consideration	**65.5**

The contingent consideration payable is in respect of the acquisitions of the The Imaginative Traveller and Delphin. It is dependent on the results of the businesses over the following periods, and the Directors believe the amounts provided reflect the most likely outcome in each case:

Acquisition	Period for calculation of contingent consideration	Maximum contingent consideration	Consideration provided for in these accounts
The Imaginative Traveller	Year ended 31/10/05	£3.0m	£3.0m
Delphin	Year ended 31/10/06 to year ended 31/10/09	€3.5m	€3.5m

The provisional goodwill of £68.9m arising on the acquisitions has been capitalised on the balance sheet and will be amortised over 20 years, its estimated useful economic life. All acquisitions have been accounted for using the acquisition method. It should be noted that certain fair value adjustments have necessarily been prepared on a provisional basis. Subsequent experience may result in the requirement to revise fair values in the subsequent accounting period.

In addition, deferred and contingent consideration of £1.6m, relating to prior year acquisitions was paid during the year, resulting in a total net cash outflow for the year in respect of acquisitions of £33.1m (2004: £30.9 m).

(b) Adjustments to estimates relating to acquisitions in previous years
Adjustments to contingent consideration and fair value estimates relating to acquisitions in previous years have resulted in an increase in the value of goodwill of £3.2m. The adjustments relate principally to agreement with the vendors of StudentCity.com, Inc. that the full value of potential contingent consideration would be payable in light of the results for the business for the first period for the calculation of contingent consideration, and a reduction in the expected value of variable consideration in the acquisition of Grantur.

13. Investments in associate and joint venture

Cost	Group share of net assets of joint venture £m	Group share of net assets of associate £m	Group total £m	Company £m
At 1 November 2004	28.3	2.1	30.4	38.8
Dividend received	–	(0.3)	(0.3)	–
Share of profits for the year	1.8	1.0	2.8	–
Share of tax charge	(0.6)	(0.3)	(0.9)	–

Net book value				
At 31 October 2005	**32.7**	**2.5**	**35.2**	
At 31 October 2004	31.7	2.1	33.8	

Name of company	Proportion held	Nature of business	Country of registration/ incorporation	Investment held by
Hays Travel Limited	37.75%	Travel agent	England & Wales	First Choice Holidays PLC
Sunshine Cruises Limited	50.00%	Cruise operator	England & Wales	First Choice Holidays PLC

All proportions held are in ordinary shares.

Sunshine Cruises Limited (trading as Island Cruises) was set up as a joint venture with Royal Caribbean Cruises Ltd. (RCCL) in July 2000. The share of profits recognised in respect of the joint venture represents the Group's share of the profit generated in the year.

There is a put option on the Group to acquire the remaining shareholding of the Group's associate, Hays Travel Limited. The value of this is dependent on the future profitability of Hays Travel Limited.

14. Debtors

	Group 2005 £m	Group 2004 £m	Company 2005 £m	Company 2004 £m
Trade debtors	107.4	93.6	–	–
Amounts due from subsidiaries	–	–	166.4	300.5
Amounts due from joint venture undertaking	–	0.9	–	–
Other debtors	118.2	104.1	0.3	5.6
Prepayments	224.3	196.1	1.5	1.5
Deferred tax asset (note 19)	11.1	5.6	–	–
	461.0	400.3	168.2	307.6

Included in prepayments are security deposits repayable by 2013 of £4.0m (2004: £5.2m) which are held as security against hire purchase contracts and operating leases. £3.3m relates to security deposits not repayable within one year (2004: £4.6m).

In addition to the security deposits mentioned above are debtors receivable after more than one year, Group £23.0m (2004: £1.6m) and Company £nil (2004: £nil).

15. Current asset investments

	Group 2005 £m	Group 2004 £m

Deferred consideration	11.2	8.5	0.6	1.3
Accruals and deferred income	14.1	14.1	–	–
	59.2	80.6	0.6	1.3

	Group 2005 £m	Group 2004 £m
Group obligations under finance leases and hire purchase contracts in respect of aircraft, yachts and equipment payable within:		
One year	16.4	6.2
Two to five years	2.5	19.3
	18.9	25.5

Security given in respect of finance leases and hire purchase contracts consists of fixed charges over the respective assets.

Bank loans and overdrafts are repayable within:

	Group 2005 £m	Group 2004 £m	Company 2005 £m	Company 2004 £m
One year	56.9	7.4	30.0	0.1
Two to five years	23.2	36.3	–	–
After five years	8.2	2.4	–	–
	88.3	46.1	30.0	0.1

Included within amounts payable within one year are bank overdrafts of £19.9m (2004: £0.1m) that are repayable on demand at rates noted in note 22(a).

The Group has bank loans of £68.4m (UK £64.6m, Europe £3.8m), (2004: £46.0m (UK £45.6m, Europe £0.4m)), which are repayable in regular instalments on rates of interest as detailed in note 22(a). In the UK and Europe the loans are secured on the underlying assets of the company in whose name the borrowings are made.

19. Provisions for liabilities and charges

	Aircraft maintenance £m	Deferred taxation £m	Pensions £m	Other £m	Total £m
At 1 November 2004	45.1	15.0	1.9	1.8	63.8
Provided/(credited) in the year	54.3	(2.2)	–	–	52.1

At 31 October 2005	**52.9**	**18.3**	**–**	**1.8**	**73.0**

19. Provisions for liabilities and charges continued

The net deferred tax provision at 31 October 2005 is as follows:

	2005 £m	2004 £m
Accelerated capital allowances	18.3	15.0
Other short-term timing differences	(6.9)	(0.1)
Tax losses carried forward	(4.2)	(5.5)
	7.2	9.4

	2005 £m	2004 £m
Net provision at the end of the year		
Included within:		
– Debtors (see note 14)	(11.1)	(5.6)
– Provisions for liabilities and charges (see above)	18.3	15.0
	7.2	9.4

There are no unprovided deferred taxation liabilities at either 31 October 2005 or 31 October 2004.

There is an unrecognised deferred tax asset at 31 October 2005 in respect of losses carried forward of £40.8m (2004: £29.0m), capital losses carried forward of £4.5m (2004: £4.5m). These assets have not been recognised because the Directors are not certain that any benefits will arise in the foreseeable future.

20. Share capital

	2005 £m	2004 £m
Authorised		
800,000,000 (2004: 800,000,000) ordinary shares of 3p each	24.0	24.0
199,500,000 (2004: 199,500,000) 6.75% convertible cumulative redeemable preference shares of £1 each	199.5	199.5
	223.5	223.5
Allotted, called up and fully paid		
529,658,730 (2004: 527,839,299) ordinary shares	15.9	15.8
Nil (2004: 199,500,000) 6.75% convertible cumulative redeemable preference shares of £1 each	–	199.5
	15.9	215.3

The Company issued 1,819,431 new ordinary shares in the year, with none of these shares being in respect of acquisitions.

The new ordinary shares were issued in respect of the following:

	No. of shares
Restricted Share Plan	365,264
Senior Executive Plan	21,756
Savings Related Share Option Scheme	1,432,411
	1,819,431

The share premium arising on the above issues was £1.7m.

On 27 July 2005 the Company chose to redeem at par all the convertible cumulative redeemable preference shares of £1 each. This redemption was permitted by the articles of association of the Company as the fifth anniversary of the date of issue of this class of share capital had been reached.

The redemption was made from distributable profits of the Company in accordance with section 160 of the Companies Act 1985 and a transfer of £199.5m from share capital to the capital reserve has been made in accordance with section 170 of the Act.

21. Capital and reserves

Group	Share capital £m	Share premium £m	Capital reserve £m	Own shares reserve £m	Revaluation reserve £m	Merger reserve £m	Profit & loss account £m	Total £m
At 1 November 2004	215.3	239.8	1.9	(11.4)	2.9	161.0	(122.4)	487.1

Equity	302.3	287.6	662.0	607.8
Shareholders' funds	**302.3**	**487.1**	**662.0**	**807.3**

22. Financial instruments

To reduce risks arising from movements in foreign exchange and interest rates, the Group has entered into forward foreign exchange contracts and single currency interest rate swaps/forward rate agreements and accounts for such transactions as hedges. The gross value of financial assets and liabilities is stated after the effect of these hedged transactions.

The Group's policy with regard to such financial instruments is detailed within the accounting policies in note 1. Short-term debtors and creditors have been omitted from the disclosures other than the currency risk.

(a) Financial assets and liabilities
At 31 October 2005 the Group's financial assets and liabilities profile, after taking account of interest rate and currency hedging arrangements in place, was as follows:

	2005			2004		
Financial assets	Floating rate £m	Non-interest bearing £m	Total £m	Floating rate £m	Non-interest bearing £m	Total £m
Sterling	33.7	7.3	41.0	162.8	11.0	173.8
Canadian Dollars	30.0	–	30.0	28.7	–	28.7
Euro	28.9	1.3	30.2	65.6	1.3	66.9
US Dollars	20.0	–	20.0	15.1	–	15.1
Other	4.9	–	4.9	8.6	–	8.6
Total	117.5	8.6	126.1	280.8	12.3	293.1

Floating rate financial assets comprise cash, and current asset investments, which attract interest rates of between 1.5% and 4.5% and are all due to mature within one year. Non-interest bearing assets represent trade investments, which have no maturity period, and cash at bank.

	2005				2004			
Financial liabilities	Fixed rate £m	Floating rate £m	Non-interest bearing £m	Total £m	Fixed rate £m	Floating rate £m	Non-interest bearing £m	Total £m
Sterling	28.2	69.7	3.8	101.7	236.5	27.0	2.0	265.5
Canadian Dollars	–	–	2.8	2.8	–	–	2.1	2.1
Euro	4.6	4.7	3.1	12.4	7.0	0.6	2.1	9.7
US Dollars	–	–	19.3	19.3	–	–	8.6	8.6
Total	32.8	74.4	29.0	136.2	243.5	27.6	14.8	285.9

Fixed rate financial liabilities comprise bank borrowings and obligations under finance leases. The weighted average fixed rate of Sterling borrowings is 5.2% (2004: 6.3%) and the average time to maturity is 2.6 years. The weighted average fixed rate of Euro borrowings is 5.8% (2004: 6.1%) and the average time to maturity is 3.0 years.

Floating rate financial liabilities comprise loans and obligations under finance leases, at the following interest rates:

Sterling: LIBOR plus a margin between 0.9% and 1.65%
Euro: EURIBOR plus a margin between 1.5% and 1.65% or RIBOR plus a margin between 0.25% and 0.85%

Non-interest bearing financial liabilities comprise deferred consideration for acquisitions.

(b) Maturity profile of financial liabilities

	2005 £m	2004 £m
Within one year	91.1	19.9
In more than one year but less than five years	36.9	64.1
More than five years	8.2	201.9
	136.2	285.9

22. Financial instruments continued

(c) Fair value of financial instruments

Fair values	2005 Book value £m	2005 Fair value £m	2004 Book value £m	2004 Fair value £m
Financial instruments				
Financial assets	126.1	126.1	293.1	293.1
Financial liabilities	(136.2)	(136.2)	(285.9)	(285.9)
Derivative financial instruments				
Interest rate swaps and forward rate agreements	–	(0.1)	–	(0.8)
Foreign currency transactions	–	3.2	–	(29.0)
Fuel derivatives	–	1.0	–	32.9
	(10.1)	(6.0)	7.2	10.3
Difference between book and fair value		4.1		3.1

Fair value is the difference between market value in which the instruments are traded at the balance sheet date and the future contracted commitment.

(d) Unrecognised gains and losses relating to hedges of future exposures

Unrecognised gains and losses	2005 Gains £m	2005 Losses £m	2005 Net £m	2004 Gains £m	2004 Losses £m	2004 Net £m
Total unrecognised gains/(losses) at 1 November 2004	43.2	(40.1)	3.1	19.0	(40.8)	(21.8)
(Gains)/losses recognised in the year relating to prior years	(42.0)	34.7	(7.3)	(17.8)	32.8	15.0
Gains/(losses) not recognised in the year relating to prior years	1.2	(5.4)	(4.2)	1.2	(8.0)	(6.8)
Gains/(losses) not recognised in the year relating to the current year	21.8	(13.5)	8.3	42.0	(32.1)	9.9
Total unrecognised gains/(losses) at 31 October 2005	23.0	(18.9)	4.1	43.2	(40.1)	3.1
Of which:						
Due to be recognised within one year	21.3	(15.6)	5.7	42.0	(34.7)	7.3
Due to be recognised after one year	1.7	(3.3)	(1.6)	1.2	(5.4)	(4.2)
	23.0	(18.9)	4.1	43.2	(40.1)	3.1

Gains and losses on foreign exchange instruments used for hedging purposes are not recognised until the maturity of the underlying exposure.

(e) Currency exposures
The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars. The table below shows the Group companies' net monetary assets and liabilities held in currencies other than their principal currency, after having taken into account the effect of forward contracts or other derivative instruments used to match foreign currency exposure.

Functional currency	Sterling £m	Euro £m	US Dollar £m	Can Dollar £m	Thai Bhat £m	Aus Dollar £m	Swiss Franc £m	Other £m	2005 Total £m	2004 Total £m
Sterling	–	32.3	14.1	1.3	1.4	2.8	(0.9)	8.9	59.9	19.4
Canadian Dollars	–	–	7.7	–	–	–	–	–	7.7	1.4
Euro	0.9	–	(0.1)	0.1	–	–	1.3	2.2	4.4	1.9
US Dollars	–	1.1	–	0.7	–	–	–	0.3	2.1	0.2
Total	0.9	33.4	21.7	2.1	1.4	2.8	0.4	11.4	74.1	22.9

(f) Undrawn committed borrowing facilities
As at 31 October 2005 the Group had available undrawn committed borrowing facilities of £314.9m comprising letters of credit, guarantee and revolving, floating rate credit facilities for cash borrowings one of which expires on 31 March 2008 and the other on 11 July 2010. The conditions precedent to the availability of these facilities are satisfied at the balance sheet date.

In addition, as at 31 October 2005, the Group also had available an undrawn committed asset financing facility of £8.7m. The commitment period for new drawdowns expires on 15 February 2006.

23. Reconciliation of operating profit to net cash inflow from operating activities

	2005 £m	2004 £m
Group operating profit (after goodwill amortisation)	**90.9**	**75.2**
Depreciation	41.5	35.8
Charge for EBT shares	2.2	3.0
Goodwill amortisation	24.7	23.4
(Gain)/loss on sale of fixed assets	(0.4)	0.5
Increase in debtors	(41.4)	(18.3)
Increase in creditors and maintenance reserves	40.4	52.8
Net cash inflow from operating activities	**157.9**	**172.4**

24. Movements in cash and net funds

Acquisitions and disposals	(33.1)	–	(33.1)
Equity dividends paid	(28.7)	–	(28.7)
Management of liquid resources	131.3	–	131.3
Financing	(181.5)	(0.8)	(182.3)
Decrease in cash in the year	**(49.6)**	**(6.7)**	**(56.3)**

The acquisitions column reflects cash flows arising from post acquisition trading.

27. Operating lease commitments

	Land and buildings 2005 £m	Aircraft, yachts and equipment 2005 £m	Land and buildings 2004 £m	Aircraft, yachts and equipment 2004 £m
Annual commitment under non-cancellable operating leases expiring within:				
One year	6.0	3.1	2.0	3.7
Two to five years	10.0	33.8	6.6	25.1
Thereafter	23.1	36.8	18.7	36.5
	39.1	73.7	27.3	65.3

28. Capital commitments

	Group 2005 £m	Group 2004 £m
Contracted but not provided for	4.1	6.4
Authorised but not contracted or provided for	5.6	–
	9.7	6.4

Of the £9.7m capital commitments entered into at this year end £5.1m relates to yachts and the remainder is in respect of other fixed asset commitments.

The Group has guaranteed the residual value of certain yachts under charter from third party owners, giving them the right to sell the yachts to the Group at a determined price. For certain yachts, Sunsail Limited is required to deposit part of this price into trust accounts over the period of the charter. The maximum cash commitment including these future deposits is as follows:

Year end 31 October	2005 £m	2004 £m
2005	–	–
2006	–	0.1

The Group has contracted to purchase six Boeing 787 aircraft, the first delivery of which is in 2009. The Group intends to refinance these aircraft in advance of their delivery dates and therefore does not expect to use its own cash resources for their purchase. At list price, the order value is US$818.5m.

29. Contingent liabilities

Under the terms of guarantees given to the Civil Aviation Authority and other relevant authorities by the Company in respect of certain subsidiaries, in the event of default, the Company could be held liable to the extent of the subsidiaries' net trading liabilities at the time of default.

The Company, and its subsidiaries, is at any time defending a number of actions against it arising in the normal course of business. Provision is made for these actions where this is deemed appropriate.

30. Related party transactions

Simón Barceló is a director and shareholder of the Barceló Corporación Empresarial SA (BCE) group of companies. During the last 12 months the Group spent approximately £12.8m (2004: £15.8m) on hotel accommodation with BCE.

At 31 October 2005 the Group owed BCE £1.3m for such accommodation (2004: £1.3m). Viajes Barceló and Barceló Business (also part of BCE) owed the Group commission of £nil at 31 October 2005 (2004: £3.5m) and the Group earned total commissions of £3.5m in the year (2004: £20.2m) from these businesses.

Royal Caribbean Cruises Ltd. (RCCL) is First Choice's joint venture partner in Sunshine Cruises Limited. The Group earned commissions of £2.2m (2004: £3.4m) during the year selling Royal cruises.

During the year the Group traded with its associate Hays Travel Limited, and its joint venture Sunshine Cruises Limited. The main transactions during the year were:

(a) Commissions paid to Hays Travel Limited of £3.0m (2004: £3.0m). The balance outstanding as at 31 October 2005 is £nil (2004: £nil).

(b) The Group has charged Sunshine Cruises Limited for flying, administrative services and marketing contributions net of commissions received on sales totalling £0.4m (2004: £0.9m). There is an outstanding balance of £2.6m (2004: £0.9m) within creditors as at 31 October 2005.

2.

3.

4.

5.

6.

7.

8.

9.

10.

1 / Sir Michael Hodgkinson
Chairman (Age 61)
Sir Michael Hodgkinson joined the Board as a Non-Executive Director on 1 January 2004 and became Chairman on 11 March 2004. Following an early career in the automotive industry, Sir Michael was appointed Chief Executive of Grand Metropolitan's European Food Division in 1986 and in 1992 he joined BAA plc, becoming Chief Executive in 1999, a post from which he retired in June 2003. He is Senior Non-Executive Director at Royal Mail and Chairman of Post Office Limited and a Non-Executive Director of FKI plc, Bank of Ireland plc, Transport for London Limited and Dublin Airport. Sir Michael has in-depth experience of both substantial public companies and the travel industry.

2 / Peter Long
Chief Executive (Age 53)
Peter Long joined the Board on 1 October 1996 as Managing Director of First Choice Holidays & Flights. On 11 November 1996 he was appointed Group Managing Director and became Chief Executive on 6 September 1999. Prior to joining First Choice Holidays PLC he was Chief Executive of Sunworld Holidays, having previously been Finance Director then Chief Executive of the tour operating division of the International Leisure Group. From February 2001 to June 2005 he was a Non-Executive Director of RAC plc (formerly Lex Service Plc) and in October 2002 he was appointed a Non-Executive Director of Rentokil Initial Plc.

3 / Paul Bowtell
Group Finance Director (Age 37)
Paul Bowtell joined the Board as Group Finance Director on 6 September 2004. He was previously the Finance Director of British Gas, a subsidiary of Centrica plc, where he had been since January 2002. Prior to that, he was with W H Smith plc where he held a number of corporate centre roles before becoming the Finance Director of the UK Retail business. He is an Associate of the Institute of Chartered Accountants.

4 / Dermot Blastland
Managing Director
Mainstream Holidays (Age 55)
Dermot Blastland joined the Board on 6 September 1999. He is Managing Director – Mainstream Holidays, having previously held positions as Managing Director of First Choice Holidays & Flights, Ski, Lakes & Mountains and President of Signature Vacations. Prior to joining the Company in February 1988, he was Commercial Director at Thomson and subsequently Managing Director of Portland Holidays.

5 / Tony Campbell
Non-Executive and Senior
Independent Director (Age 56)
Tony Campbell became a Non-Executive Director on 1 April 1997. He was Deputy Chief Executive of Asda Stores Limited until 2 March 2001, having previously been its Trading Director. Prior to that, he held senior management positions at J Sainsbury plc and Hillard Superstores. He is Non-Executive Chairman of Spirit Group Limited and Hobbs Headco Limited.

6 / Clare Chapman
Non-Executive Director (Age 45)
Clare Chapman became a Non-Executive Director on 11 March 2003. She is currently the Group HR Director of Tesco PLC and was previously with PepsiCola International where she had a number of European roles, including Vice President HR for Central and Eastern Europe. Prior to that, Clare held a number of senior management roles at Quaker Oats Inc. in both the UK and the USA.

In addition to her roles with Tesco and First Choice, Clare has been appointed by the Secretary of State for Education & Skills on to the Board of the Qualifications and Curriculum Authority (QCA) and serves on the Skills Council Board for Retail and the Advisory Board for the Judge Institute.

7 / Bill Dalton
Non-Executive Director (Age 62)
Bill Dalton became a Non-Executive Director on 6 October 2004. He was previously Chief Executive of HSBC Bank plc and Global Head of Personal Financial Services for the HSBC Group. During his banking career, he has amassed a great deal of international expertise. Bill is also a Non-Executive Director of a number of UK and North American companies including Swiss Re GB plc, Associated Electric & Gas Insurance Services (AEGIS), HSBC Finance Inc and Talisman Energy Inc.

8 / Simón Barceló
Non-Executive Director (Age 39)
Simón Barceló joined the Board on 6 July 2000 in accordance with the terms of the Relationship Deed between Barceló Corporación Empresarial SA and the Company. On 30 August 2002 he resigned his executive position as President of the Barceló Travel Division, as envisaged at the time of the acquisition, and became a Non-Executive Director.

He was Senator for Mallorca and occupied the 3rd Secretariat of the Spanish Senate from October 1989 to July 1993. From *July 1993 to February 2000 he was Vice-Chairman of* Barceló Corporación Empresarial and was appointed Chairman and CEO in June 2000.

9 / Susan Hooper
Non-Executive Director (Age 45)
Susan Hooper joined the Board as a Non-Executive Director on 10 March 2005. She is currently the Senior Vice President International and Managing Director, Royal Caribbean & Celebrity Cruises International. She joined Royal Caribbean from Avis Europe where she was commercial vice-president. Prior to this she gained extensive international experience with Saatchi & Saatchi, McKinsey and Co and PepsiCo International.

Susan is currently a Director of Sunshine Cruises Limited (the joint venture between First Choice and Royal Caribbean), Transcom Worldwide SA and is a trustee of The Suzy Lamplugh Fund.

10 / Jeremy Hicks
Non-Executive Director (Age 51)
Jeremy became a Non-Executive Director in February 2005. He is Finance Director of Aegis plc where he has overseen the *expansion of the business from a European media agency into* a global business with twin competences in media and market research. Up until 1999 he was Finance Director of Abbot Mead Vickers plc (AMV) where he played a key role in the strategic development of the Company into one of the largest marketing services groups in the UK.

The Directors submit their report of First Choice Holidays PLC for the year ended 31 October 2005.

Results and dividends
The Group profit before taxation for the year was £89.1m (2004: £74.5m).

The Directors recommend a final dividend of 4.65p (2004: 3.75p) net per ordinary share, payable on 6 April 2006 to holders on the register on 3 March 2006. When taken with the interim dividend of 1.95p (2004: 1.75p) net per ordinary share paid on 1 November 2005, this gives a total dividend of 6.6p (2004: 5.5p) for the year ended 31 October 2005.

The total preference dividend for the year was £10.0m (2004: £13.7m). On 27 July 2005, the Company redeemed all of the 6.75% Convertible Cumulative Preference Shares held by Royal Caribbean Cruises Ltd. at par for £199,500,000 (see note 20).

Business review and activity
The Group's principal activity is that of an international leisure travel business providing integrated tour operations, specialist holidays and online accommodation. It operates from 17 countries including the UK, Ireland, the USA, Canada, France, Germany and Spain.

A review of the Group's activity during the year and likely future developments is contained in the Reports section of this document.

Our people
First Choice employs approximately 14,000 people across the Group, of whom 8,600 are based in the UK and 4,200 in Western Europe, the USA and Canada, with the remainder being based in Africa, Asia, Australia and Eastern Europe. We have a global portfolio of businesses at various stages of development and maturity which all share common values. The challenge of developing and promoting our people in a way that is right for them, in the environment in which they operate, is currently being addressed.

Attracting, developing and retaining excellent people is critical to the sustainability of our business. Treating employees with empathy and respect – an important element of our commitment to sustainable development – is part and parcel of what we do.

We have a vision to be the "First Choice" for people wanting to work in leisure travel. Achieving this vision helps drive profitable growth across the Company. For us, this means:

> engaging our people in our aims and success – and in issues that affect them;

> promoting a positive workplace; and

> rewarding people in a way that is relevant to them and reflects their contribution to the Group's success.

Rewarding people and valuing their contribution
We encourage the participation of employees in the Company through frequent "Work in Partnership" meetings, which are led by senior management. Regular meetings also take place with recognised trade unions. We monitor closely the responses from our Staff Survey and adapt and change policies and practices as a result of the comments and views of employees. Many UK employees continue to subscribe to the Group's Employee Share Incentive Plan, giving many of our workforce a shareholding in the Company and interest in its financial performance.

Our goal is to continue to develop a reward strategy which underpins business objectives within Group principles which provide a framework for local adaptation and implementation. Recognising and rewarding our employees in ways that are effective for them is a key driver for engagement and high performance. Our compensation strategy takes into account base pay, competency pay, incentives, benefits and non-cash based rewards. We make every effort to measure the input and results of both individuals and teams.

Ensuring our employees share our aims and are involved in matters which affect them is a key challenge for us. We employ people in many countries around the world – a significant number of whom are engaged on a seasonal basis. We start by employing people we believe share our passion for our customers and products and build engagement through communication and consultation by providing regular local and global updates in ways that suit the relevant working environment and culture.

We have recently established a new extranet website to enhance communications across the whole Group which means that there is now a central source where all employees can find both external and internal information about the Sectors and various businesses in the Group. Additionally each Sector has its own tailored approach to communication which reflects the needs of that particular Sector.

As a Group we operate in diverse cultures and understand the need to rule out discrimination on any grounds including ethnicity, gender, disability and age. In the past year we have developed new policies on non-discrimination and inclusiveness to underpin this position. These are being introduced across the Group and incorporated into training for line managers and will become a key part of the Company induction programmes. Unfair treatment of any employee is not tolerated and a confidential employee hotline is in place across the Group.

Attracting, developing and retaining talent
We recognise that the success of our strategy is built on having the best people to deliver it around the world. We are committed to using the most effective recruitment methods in all countries in which we operate and to build skills and knowledge in ways that suit both the business and the employees.

Investing in leadership capability at senior levels to take the business forward is an area of particular focus and, accordingly, we have developed a Strategic Leadership programme in partnership with an International Business School. The programme, which extends across all Sectors of the Group, builds the skills and capability of those with the greatest responsibility for leadership and strategy. Across the Group investment in the capability of our people is a priority and all employees have had the opportunity to provide feedback on their training needs for the coming year.

Each year employees have the opportunity to meet their line manager to discuss their performance over the previous year and make plans for development in the coming year. This update allows individuals to identify training opportunities and understand the role they play in the success of the Company which is captured within the Personal Development Update (PDU). This process is designed to ensure that each person has objectives which support business plans. It is intended to roll out the PDU to colleagues across the Group who currently do not take part.

Retaining key employees is critical to our continued business success. Group-wide talent is reviewed on a regular basis at Board level and our focus is to retain and develop those individuals who will carry our business forward. We actively move people to career

opportunities across the Group to enhance the mix of innovative, entrepreneurial and general management skills. In order to meet seasonal demands we continue to move our best front-line staff between retail, overseas representation and airline cabin crew roles. This develops a multi-skilled workforce that has year-round experience of working with our customers.

Policy and practice on payment of suppliers
Group – First Choice Holidays PLC and subsidiary companies
The Group's Divisions are responsible for agreeing the terms and conditions under which business transactions with their suppliers are conducted. Due to the nature of the Group's operations and in common with the industry as a whole, payments are often made in advance of the provision of goods and services. The Group does not follow any code or statement on payment practice but it is Group policy that payments to suppliers, whether in advance or after the provision of the goods or services, are made on the basis of the terms that have been agreed with them.

Company – First Choice Holidays PLC
The Company has no material contracts for the supply of goods or services. Where the Company is the recipient of goods or services, normally in the course of the acquisition of subsidiary companies, payment of suppliers is conducted by one of the Group companies, in accordance with the policy set out above.

Directors
The Directors who served during the year are set out below:

Sir Michael Hodgkinson	Non-Executive Chairman	
Peter Long	Chief Executive	
Paul Bowtell	Group Finance Director	
Dermot Blastland	Managing Director, Mainstream Holidays	
Tony Campbell	Non-Executive Director & Senior Independent Director	
Simón Barceló	Non-Executive Director	
Clare Chapman	Non-Executive Director	
Bill Dalton	Non-Executive Director	
Jeremy Hicks	Non-Executive Director	Appointed 10 March 2005
Susan Hooper	Non-Executive Director	Appointed 1 April 2005
Terry Green	Non-Executive Director	Resigned 1 April 2005
Richard Fain	Non-Executive Director	Resigned 1 April 2005

Biographical notes and, where applicable, details of terms of appointment for both the Non-Executive and the Executive Directors are given on page 59.

The Directors retiring by rotation at the Annual General Meeting (AGM) in accordance with the Articles of Association are Sir Michael Hodgkinson, Dermot Blastland and Clare Chapman who, being eligible, offer themselves for re-election. Susan Hooper and Jeremy Hicks, having been appointed since the last AGM, also offer themselves for re-election. The Board has announced the appointment of Giles Thorley as an additional independent Non-Executive Director with effect from 1 February 2006 and, accordingly, he will also offer himself for re-election at the AGM.

As reported in the Chairman's statement, Jeremy Hicks was appointed to the Board as a Non-Executive Director on 10 March 2005 and Susan Hooper replaced Richard Fain on 1 April 2005 as the Non-Executive Director nominated to the Board by Royal Caribbean Cruises Ltd. (RCCL) under the terms of the 14 July 2000 Relationship Agreement between the Company and RCCL.

The terms of the Directors' service contracts are disclosed on page 66. Directors' interests in the shares of the Company are disclosed on page 69.

Directors' interests in any contract of significance to the Group's business are disclosed in note 30 to the accounts.

Substantial shareholdings
As at 7 December 2005 the Company was aware of following interests in the issued ordinary share capital of the Company:

	Shares (millions)	%
Barclays Global Investors	73.55	13.88
Barceló Corporación Empresarial	59.11	11.16
M&G Investment Management	32.58	6.15
J P Morgan Fleming Asset Management	28.94	5.47
State Street Global Advisors	28.53	5.39
Scottish Widows Investment Partnership	25.26	4.77
Newton Investment Management	19.72	3.72
Standard Life Investments	18.70	3.53
Legal & General Investment Management	18.17	3.43

Save as above, no other person has reported an interest, which is notifiable under the Companies Act 1985, being an interest of 3% or more in the issued ordinary share capital.

Going concern
After making appropriate enquiries, the Directors have reasonable expectation that the Company and Group have adequate resources to continue operations for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the Accounts.

Charitable and political donations
During the year, the Group made charitable donations of £87,000 (2004: £25,000), including donations of £25,000 each to the Family Holiday Association and the Disaster Emergency Committee Tsunami Earthquake Appeal. The Group made no political contributions during the year (2004: £nil).

Auditors
In accordance with Section 384 of the Companies Act 1985, a resolution regarding the re-appointment of KPMG Audit Plc as auditors of the Company will be proposed at the forthcoming Annual General Meeting.

Other matters
An explanation as to the business, other than routine business, to be transacted at the Annual General Meeting, which is to be held on Thursday 23 March 2006 at 10.30am, is contained in the explanatory notes to the Notice of Annual General Meeting, which accompanies this Report and Accounts.

By Order of the Board

Andrew John
Company Secretary
7 December 2005

Report of the Board to shareholders on Directors' remuneration

Remuneration Committee
The Remuneration Committee (the Committee) is responsible for all aspects of remuneration and contractual terms and conditions of the Executive Directors and members of the Group Management Board (GMB). The Remuneration Committee sets the remuneration policy and strategy for these employees and determines appropriate reward packages for them.

The activities of the Committee are governed by its Terms of Reference, which have been approved by the Board and can be found on the First Choice Holidays PLC website at www. firstchoiceholidaysplc.com.

The Committee is composed entirely of independent Non-Executive Directors. No member of the Committee has any personal financial interest (other than as a small shareholder – as disclosed in the table of interests in share and options on page 69) in the business of the Company. There are no conflicts of interest arising from Committee members' cross-directorships and they do not participate in any bonus schemes, pension plans, share options or any employee share scheme. Members of the Remuneration Committee have no day-to-day involvement in the running of the Company.

The current membership of the Remuneration Committee is:

Clare Chapman (Chairman)
Tony Campbell
Bill Dalton

Bill Dalton replaced Terry Green when he resigned from the Committee on 1 April 2005. During the year, the Committee met on three occasions.

Peter Long (Chief Executive) attends meetings of the Committee to make recommendations relating to the performance and remuneration of his direct reports. Bill Logan (Group HR Director) also provides advice and guidance to the Committee. Andrew John (Company Secretary) acts as Secretary to the Committee. Neither Peter Long, Bill Logan nor Andrew John are in attendance when their own remuneration is considered.

The Committee has appointed Mercer Human Resource Consulting (Mercer) to provide independent advice on all aspects of remuneration. Mercer also provides salary benchmarking information to the Company from time to time.

In addition, the following principal advisers provided advice to the Committee during the year:

> Watson Wyatt LLP prepared the Total Shareholder Return (TSR) calculations for the Restricted Share Plan. Watson Wyatt does not have any other connection with the Company; and

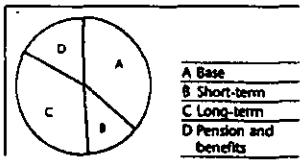
> Herbert Smith advised on the Directors' Remuneration Report and on various legal issues relating to the Company's share schemes. Herbert Smith also advises the Company on legal issues generally.

The Committee is constituted, and operated throughout the review period, in accordance with the relevant provisions of the Combined Code. This report complies with the Directors' Remuneration Report Regulations 2002. A resolution will be put to the shareholders at the Annual General Meeting on 23 March 2006 inviting them to consider and approve this report.

Remuneration policy
The objective of the Company's remuneration policy is to provide competitive packages to motivate, reward and retain high-calibre individuals at the senior management level.

The main principles of this policy are to:

> set the total remuneration package at an appropriate level to reflect the competitive market in which the Company operates;



> link a substantial proportion of the total remuneration package to the achievement of demanding performance targets;

> ensure the development of a high-performance culture throughout the Company; and

> structure the reward of senior management to align their interests with those of the shareholders.

In 2004, the Committee undertook a review of the Company's remuneration policy for the Executive Directors and members of the Group Management Board and took the view that a greater proportion of the package should be in the form of variable remuneration. As a result, the Company sought and obtained the approval of its shareholders to introduce new long-term incentive schemes at the AGM in March 2005. The new plans are a Performance Share Plan and a Deferred Annual Bonus Scheme, which will replace the existing Restricted Share Plan.

The charts below set out the balance between fixed and variable pay under the revised arrangements.

Elements of remuneration
The Executive Directors' total remuneration consists of the following elements:

> base salary;

> annual bonus;

> long-term incentives;

> pensions and life assurance; and

> other benefits.

The annual bonus and long-term incentives are performance-related.

Base salary
The Committee's policy is that base salaries for the Executive Directors should be paid at a market-competitive level having regard to job size, function and personal performance, measured against base salaries paid for equivalent roles in companies that reflect the talent pool from which we recruit.

The Committee normally reviews the base salaries of Executive Directors annually, and takes note of relative pay and employment conditions within the Company, in determining annual salary increases.

Annual bonus
Each Executive Director participates in an annual non-pensionable bonus plan. The Committee reviews the targets on an annual basis.

The maximum bonus potential is 100% of base salary for the Chief Executive and 87.5% for the other Executive Directors. For the financial year ending 31 October 2005, the annual bonus performance targets related to the achievement of pre-tax profits and personal objectives. For the Chief Executive and Finance Director, 80% of the annual bonus was based on Group pre-tax profit and 20% on personal objectives. For the Managing Director of the Mainstream Holidays Sector, 40% of his annual bonus was based on Group pre-tax profit, 40% on pre-tax profit of the Mainstream Sector and 20% on personal objectives.

In aggregate, bonuses of £1,186,250 were awarded to the Executive Directors for the year under review (2004: £721,840). It should be noted that, in 2004, Paul Bowtell's bonus was on a pro-rated basis as he was appointed in September 2004.

Long-term incentives
Deferred Annual Bonus Scheme (DABS)
The Deferred Annual Bonus Scheme was approved at the AGM in March 2005. Under the DABS, the Executive Directors are required to defer 25% of their performance-related annual bonus and have the opportunity to defer up to an additional 25% of their bonus into Company Shares (deferred shares). A conditional award of matching shares equal to four times the number of deferred shares is made at the same time.

Deferred shares vest after three years and matching shares also vest after three years subject to the achievement of performance conditions, as determined by the Committee. No matching shares will vest unless the annual average of the ratio of the Company's return on invested capital to the weighted average cost of capital (ROIC/WACC) exceeds 100% over the three-year period. A hurdle of ROIC, being at least equal to WACC, is used to ensure that the relevant long-term incentive schemes pay out only when shareholder value is being created over the performance periods. If the ROIC/WACC hurdle is met, shares will only vest to the extent to which two further performance conditions are satisfied over the three-year period as follows:

> Up to three-quarters of the matching shares will vest based on growth in the Company's earnings per share (EPS), before goodwill and exceptional items, in relation to the growth in the UK Retail Price Index (RPI) as shown in the table below:

Average annual EPS growth in excess of RPI growth	Proportion of matching shares vesting
Below 4%	0%
Between 4% and 13%	On a straight-line basis between 10% and 100%
13% or above	100%

> Up to one-quarter of the matching shares will vest based on the Company's ranking of Total Shareholder Return (TSR) performance in relation to the TSR of the FTSE 250 constituents (excluding investment trusts) over the three-year period as shown in the table below:

TSR Ranking	Proportion of matching shares vesting
Below median	0%
Between median and upper quartile	On a straight-line basis between 10% and 100%
At or above upper quartile	100%

There will be no re-testing of the performance conditions after the three-year performance period.

The Committee considers that EPS and TSR are the key performance conditions that are most relevant to the Company. EPS is a key indicator of the Company's underlying financial performance whilst TSR is a relative measure of shareholder value creation.

The first deferral under the DABS was made in December 2005, based on the annual bonus earned in the financial year ending 31 October 2005. The Executive Directors have elected to defer an additional 25% of their annual bonus (50% of annual bonus in total).

Performance Share Plan (PSP)
Under the PSP, the Executive Directors are eligible to receive conditional awards of shares annually, which vest after a three-year period subject to the achievement of performance conditions, as determined by the Committee.

No shares will vest unless ROIC/WACC exceeds 100% over the three-year period which is the same hurdle as for the DABS above.

If the ROIC/WACC hurdle is met, shares will only vest to the extent to which a performance condition based on growth in EPS, before goodwill and exceptional terms, in relation to RPI growth over the three-year period is met, as shown in the table below:

Average annual EPS growth in excess of RPI growth	Proportion of shares vesting
Below 4%	0%
Between 4% and 13%	On a straight-line basis between 10% and 100%
13% or above	100%

There will be no re-testing of the performance conditions after the three-year performance period.

The Chief Executive will receive an annual award equivalent to 100% of his salary. The other Executive Directors will receive annual awards of 75% of their respective salaries. The first award under the PSP was made in December 2005.

Long-Term Cash Bonus for the Chief Executive
The Chief Executive, Peter Long, participates in a Long-Term Cash Bonus (the Bonus), which was approved at the AGM in March 2005. A one-off cash bonus will be payable at the end of a five-year period ending 31 October 2009, subject to meeting pre-determined performance conditions over that period. The objective of the Bonus is to incentivise the Chief Executive to achieve demanding financial and personal objectives and to ensure his retention by the Company.

The maximum that may be earned under the Bonus is £1.5m. No payment will be made unless ROIC/WACC exceeds 100%, on average, over the five-year period. The amount of bonus payable will depend on the extent to which the following three separate performance tests are met:

> 50% of the Bonus will depend on relative TSR against constituents of the FTSE 250 (excluding investment trusts) and will be paid out according to the same schedule set out under the DABS section above.

> 35% of the Bonus will be based on the EPS growth against RPI growth and will be paid out according to the same schedule set out under the DABS and PSP sections above.

> The remaining 15% of the Bonus will be payable for the achievement of personal objectives.

The Bonus is non-pensionable.

Restricted Share Plan (RSP)
The final award of restricted shares under the RSP was made in December 2004. Awards were made on an annual basis to most participants. The exception was the Chief Executive who received periodic awards so that the total original value of all his outstanding awards was equal to four times his annual salary.

The other Executive Directors received annual grants with an original value equivalent to 50% to 100% of salary.

Awards under the RSP vest three years from the award date to the extent that a pre-determined TSR-based performance condition in relation to the constituents of the FTSE mid-250 (excluding investment trusts) is met as shown below:

TSR Ranking	Proportion of restricted shares vesting
Below median	0%
Between median and upper quartile	On a straight-line basis between 10% and 100%
At or above upper quartile	100%

If all, or part, of the restricted share awards do not vest after the three years, the residual award is re-tested on a six-monthly basis, from a fixed start date, until the performance condition is met. If the performance condition is not met by the seventh anniversary of the date of award, the outstanding awards will lapse.

For the Executive Directors, shareholder approval was obtained at the AGM in March 2005 to change the TSR performance condition described above to the performance conditions attached to the awards made under the PSP. All Executive Directors agreed this change.

Therefore, all restricted share awards (apart from the exception detailed below) made from 14 December 1999 to 23 December 2004 will now be subject to the ROIC/WACC hurdle and the EPS growth in relation to RPI growth performance condition described above. The performance period for these awards is 1 November 2003 to 31 October 2006 and there will be no opportunity to re-test the performance conditions attached to these awards. If the performance condition is satisfied, those awards made from 14 December 1999 to 31 October 2003 will mature on 31 October 2006 but those granted after 1 November 2003 will not mature until the third anniversary of the date of each award. The number of shares maturing will reflect the extent to which the performance conditions are met.

The award of restricted shares made to the Executive Directors and members of the GMB on 5 October 1998 was not converted to the new performance targets. As the award was due to lapse on 5 October 2005 in accordance with the rules of the Restricted Share Plan (seven years after the grant date), conversion would have necessitated an extension to the life of the award and this was not considered appropriate. Unvested shares remaining under the award were tested under the existing TSR performance conditions in October 2005 and the award lapsed after that date.

Senior Executive Plan (SEP)
The SEP expired in 2004 and the last award under the plan was made in December 2003. Under the SEP, options with original values of between 150% and 200% of base salary were awarded to the Executive Directors in October 2002 and December 2003.

At the AGM in March 2005 approval was also obtained to amend the performance condition attached to the vesting of the options to the ROIC/WACC hurdle and EPS growth in relation to RPI growth performance condition as described above. The previous performance condition was based on relative TSR against the constituents of the FTSE 250 (excluding investment trusts) measured over a five-year period.

The extent to which the outstanding awards made in October 2002 and December 2003 vest on 31 October 2007 and 31 October 2008 respectively will be determined by the extent to which the new performance conditions are met over the five-year performance period corresponding to each award.

Pensions and life assurance
All the Executive Directors participate in HMRC-approved defined contribution schemes.

The Company makes a contribution of 50% of basic salary for the Chief Executive. Contributions are paid into a self-invested personal pension up to the permitted limits and further contributions are paid into an individually-funded unapproved retirement benefit scheme.

The other Executive Directors all participate in a Revenue-approved defined contribution pension scheme, with the Company contributing 25% of total basic salary.

During 2005, the Committee reviewed the Company's pension policy in anticipation of the introduction of the new pension tax regime in April 2006. It has decided that pension scheme participants would not be compensated for any tax adverse consequences.

The Committee has also decided that, in the event of a participant in a pension scheme reaching the lifetime allowance and choosing not to accept further pension contributions, a non-pensionable cash allowance equivalent to the Company's contribution to the pension scheme would be offered in lieu.

The normal retirement date for the Executive Directors is 60.

In the event of death, the pension scheme provides lump sums for the purchase of dependants' pensions of the greater of eight times salary and the value of the approved pension fund. On death-in-service, a lump sum of four times salary, subject to the earnings cap, is also payable. A separate life assurance policy provides death-in-service benefits over the earnings cap. These arrangements are currently under review, in light of the Finance Act 2004, and any changes will be effective as from April 2006.

Other benefits
Other benefits provided to the Executive Directors include permanent health insurance, private medical insurance, medical examinations, the provision of a company car (or a non-pensionable cash alternative) and holiday concessions of £2,500 per annum.

Executive Directors are eligible to participate in the Company's Savings Related Share Option Scheme and the HMRC-approved Share Incentive Plan. These are all-employee share schemes that enable staff to acquire shares in the Company on preferential terms. To further encourage employee shareholding in the Company, the Share Incentive Plan was enhanced in 2005 to provide for the Company to award a matching share for every four shares bought by a participant under the plan.

Subject to the approval of the Board, the Executive Directors are allowed to accept non-executive director appointments and retain the fees received. Peter Long received and retained non-executive director fees of £61,666 (2004: £69,250) in respect of two appointments – he resigned one of his non-executive directorships during the year.

Shareholding guidelines
In line with its policy of aligning senior management interests with those of shareholders, the Executive Directors and GMB members will be required, by November 2010, to hold, at a minimum, the following number of shares in the Company:

	Number of shares
Chief Executive	500,000
Other Executive Directors	270,000
Other GMB members	100,000 to 175,000

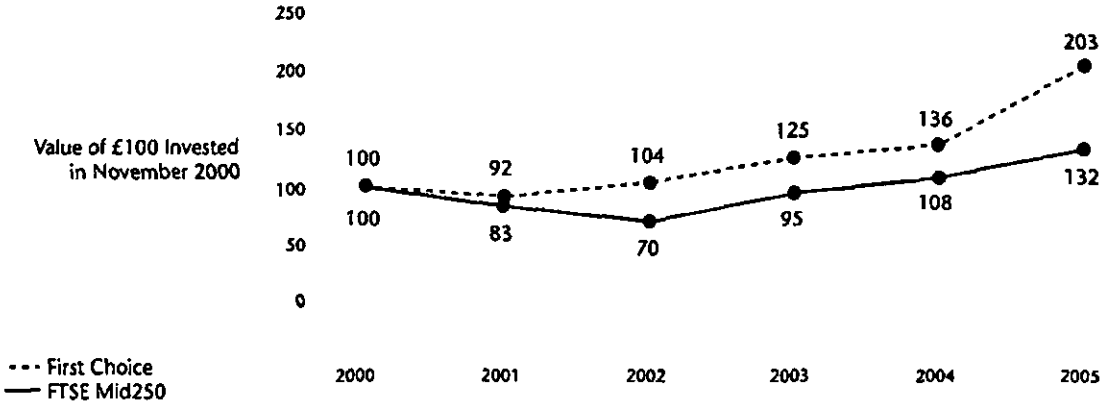
Service contracts
All the Executive Directors have service contracts with the Company that can be terminated on six months' notice from the Director or on 12 months' notice from the Company.

Service contracts for the Executive Directors do not include any provisions for the payment of compensation in the event of early termination save for the ability of the Company to exercise its discretion to make a payment in lieu of all or part of the notice period to the Executive Directors subject to any obligation they may have to mitigate any post termination losses.

Non-Executive Directors
The Non-Executive Directors do not have service contracts and do not participate in the Company's pension scheme, annual bonus scheme or long-term incentive schemes. Non-Executive Directors have letters of appointment and their appointments can be terminated by either party by serving six months' notice. Each appointment is for three years.

Non-Executive Directors receive a basic annual fee. The fees payable to the Non-Executive Directors are determined by the Board as a whole, based on relevant external market research and consultations with internal and external advisors.

During the year the Chairman's fees were increased from £150,000 to £170,000 per annum. The other Non-Executive Directors receive a fee of £33,000 per annum. In addition the Board pay an additional fee of £5,000 per annum to the Senior Independent Director (Tony Campbell) and to the Chairmen of the Audit and Remuneration Committees (Jeremy Hicks and Clare Chapman respectively).



The Non-Executive Directors also receive annual holiday concessions to the value of £2,500 per annum.

Performance graph

Total Shareholder Return (TSR), comprising the changes in value of a share and dividends distributed, can be represented by the value of a notional £100 invested at the beginning of a period and its change over that period.

A graph showing TSR in respect of the Company over five years from 1 November 2000 is given below. The TSR performance for the Company is compared with the TSR for the mid-FTSE 250 Index, which was considered to be the most appropriate benchmark for comparison purposes as it is the principal index in which the Company's shares are quoted.

Cumulative TSR performance

The auditors are required to report on the information contained in the following section of this report.

Remuneration

1 Sir Michael Hodgkinson (Non-Executive Chairman) was appointed during 2004 and his fees were increased with effect from April 2005.
2 Paul Bowtell was appointed during 2004 and, under the terms of his contract, he was paid £110,000 during the year as compensation for loss of entitlement to performance related benefits from his previous employment. Benefits in kind include an amount of £64,592 (2004: £15,000) for relocation costs.
3 Bill Dalton was appointed during 2004.
4 Jeremy Hicks and Susan Hooper were appointed during the year.

The Executive Directors have each elected to defer 50% of their bonus entitlement for the year under the terms of the DABS described on page 64.

Interests in shares and options
The interests of Directors in the share capital of the Company are set out below:

	Ordinary shares		Options					Restricted shares		
	31 October 2005	31 October 2004	31 October 2005	Granted	Exercised	31 October 2004	31 October 2005	Granted	Exercised	31 October 2004

* in accordance with the amendments to the Restricted Share Plan approved by the Shareholders.

During the year the price of the Company's ordinary shares ranged between 135p and 218.25p and was 195.25p on 31 October 2005.

On 1 November 2005, the following shares were allocated to the Directors in respect of the Dividend Reinvestment Plan (the DRIP):

Louise Bowtell (wife of Paul Bowtell)	100
Tony Campbell	379

The report was approved by the Board of Directors on 7 December 2005 and has been signed on its behalf by:

C. Chapman

Clare Chapman
Chairman of the Remuneration Committee
7 December 2005

Nomination Committee
The nomination of suitable candidates for approval of the Board of Directors to fill Executive and Non-Executive vacancies on the Board is carried out by the Nomination Committee, which comprises the Chairman and three Non-Executive Directors. The composition of the Nomination Committee is set out on page 79.

The meetings of the Committee were chaired by the Non-Executive Chairman. Prior to the appointments of Jeremy Hicks and Giles Thorley, the Nomination Committee considered the existing skills and knowledge of the Board before providing an external search consultancy with a description of the capabilities required for these appointments. The Nomination Committee believes these appointments significantly enhance the level of financial and commercial skills among the Non-Executive Directors. Jeremy Hicks has recent and relevant financial experience gained as the Finance Director of a FTSE-250 company. Prior to his appointment Jeremy Hicks confirmed he had sufficient time to complete his responsibilities and his other commitments are listed in the biographical notes on page 59. Similarly, for Giles Thorley, the Board has considered his other commitments and he has confirmed that he will have sufficient time to fulfil his non-executive role – full biographical details are included in the Notice of the AGM.

Susan Hooper was appointed in accordance with the terms of the Relationship Agreement then in force between Royal Caribbean Cruises Ltd. and the Company as a replacement for Richard Fain. Consequently, neither the use of external search consultancies or open advertising was appropriate for this appointment.

Following the appointment of a new Director, the Chairman, in conjunction with the Company Secretary, is responsible for ensuring that a full, formal and tailored induction to the Company is given. A detailed induction programme is underway for both Jeremy Hicks and Susan Hooper and will also be provided for Giles Thorley.

Audit Committee
The Audit Committee operates under written Terms of Reference to assist the Board in the discharge of its duties with regard to the Group's accounts, the review of internal controls and risk management systems and the external audit.

The composition of the Audit Committee, which is chaired by Jeremy Hicks, is set out on page 79. Jeremy Hicks took over the role of Chairman from Tony Campbell who remains a member of the Committee. All members of the Committee are considered to be independent. In accordance with the Combined Code, the Board is satisfied that Jeremy Hicks has "recent and relevant financial experience". Bill Dalton, the former Chief Executive of HSBC Bank plc, became a member of the Audit Committee in December 2004 and has also brought additional financial expertise to its deliberations.

The Chief Executive, Group Finance Director and Director of Business Assurance normally attend meetings and Non-Executive Directors may attend meetings from time to time. The Chairman of the Committee also meets with the external auditors without management present.

The Committee's duties include:

> monitoring the integrity of the financial statements of the Company and formal announcements relating to the Company's financial performance and reviewing the significant financial reporting judgments contained in them;

> reviewing the Company's internal financial controls and the Company's internal control and risk management systems;

> monitoring the effectiveness of the Company's Business Assurance function (which includes Internal Audit) through meetings with the Director of Business Assurance, the agreement, in advance, of annual work plans and the review of the results of the work undertaken;

> the consideration of the appointment, re-appointment and removal of the external auditors and the approval of their remuneration and terms of their engagement. During the year the Audit Committee considered and recommended the re-appointment of the incumbent auditors. The detailed scope of the audit is agreed with the external auditors prior to the commencement of their work and their findings are considered prior to the approval of the financial statements. The level of remuneration for these services has been approved. As part of the re-appointment process the independence of the incumbent auditors was reviewed;

> the development of a policy for the engagement of the external auditors to supply non-audit services. The Audit Committee has concluded that, in some cases, the provision of non-audit services by the incumbent auditors is appropriate and this has been communicated to the Board. Auditor independence and objectivity are safeguarded by the Audit Committee monitoring and approving, where appropriate, the nature of the work and the level of fees paid for non-audit services as a proportion of the total audit fees paid.

During the year an assessment of the external auditors was undertaken with the findings being considered by the Audit Committee and discussed with the external auditors. The assessment took the form of a questionnaire circulated to individuals across the Group with whom the auditors had significant dealings. The questionnaire addressed, among other matters, the robustness of the audit, the quality of judgements and the quality of the auditors' personnel and service.

The Group has a confidential telephone line operated by an independent third party to allow staff to raise concerns on financial reporting or other matters. Concerns raised in this way are directed to Business Assurance so that appropriate action can be taken. This telephone line is available to all staff worldwide.

Board and Committee meetings

The number of full Board and Committee meetings attended by each Director during the year was as follows:

	Scheduled Board meetings	Audit Committee meetings	Remuneration Committee meetings	Nomination Committee meetings
Sir Michael Hodgkinson (Chairman)	8(8)	1(1)	N/A	1(1)
Peter Long (Chief Executive)	8(8)	N/A	Part of 1	N/A
Paul Bowtell (Group Finance Director)	8(8)	N/A	N/A	N/A
Dermot Blastland (Executive Director)	8(8)	N/A	N/A	N/A
Tony Campbell (Senior Independent Director)	8(8)	4(4)	3(3)	N/A
Terry Green (Non-Executive Director)	3(4)	1(2)	1(2)	1(1)
Simón Barceló (Non-Executive Director)	6(8)	N/A	N/A	1(1)
Richard Fain (Non-Executive Director)	4(4)	N/A	N/A	N/A
Susan Hooper (Non-Executive Director)	2(4)	N/A	N/A	N/A
Clare Chapman (Non-Executive Director)	6(8)	N/A	3(3)	1(1)
Bill Dalton (Non-Executive Director)	7(8)	3(4)	1(1)	N/A
Jeremy Hicks (Non-Executive Director)	2(4)	2(2)	N/A	0(0)

Figures in brackets indicate the maximum number of meetings in the period in which the individual was a Board member. In addition to the full meetings of the Board, the Chairman has held one meeting with Non-Executive Directors without the Executive Directors being present and the Senior Independent Director has chaired a meeting of the Non-Executive Directors without either the Chairman or the Executive Directors being present. At this meeting the results of the questionnaire circulated to Directors to assess the Chairman's performance were considered and the conclusions of the discussion were later communicated to the Chairman.

Board, Committee and individual performance

An assessment of the performance of the Board and its Committees was undertaken by means of a detailed questionnaire, designed by the Company Secretary and completed by each Director. The questionnaire covered 16 areas including the processes for setting the strategy of the Company, monitoring business performance, corporate governance and the effectiveness of the Executive Directors, Non-Executive Directors and the Board's Committees.

The findings were discussed by the Non-Executive Directors and the Chairman and were then referred to the Board as a whole. It was agreed that the action points arising out of the 2004 Board performance assessment had been successfully addressed with all Directors in particular benefiting from fewer but longer Board meetings and a greater emphasis on strategy. In general, the Board considers its structures, composition and proceedings to be effective. The 2005 assessment has identified the desire for the Nomination Committee to be more proactive and this issue will be addressed early in 2006.

An assessment of each individual Director's performance was undertaken during the year. The performance of each Director was measured against 12 criteria with peers being requested, confidentially, to rate that Director's performance by reference to the criteria. The Chairman then discussed the overall result for each Director with him or her and any concerns were addressed.

Internal control

The Board has overall responsibility for the Group's system of internal control and for reviewing its effectiveness, while the role of management is to implement Board policies on risk and control.

The system of internal control is designed to manage and mitigate rather than eliminate the risk of failure to achieve business objectives. In pursuing these objectives, internal controls – which include financial, operational and compliance controls – and risk management can only provide reasonable, and not absolute, assurance against material mis-statement or loss. The Board has reviewed the effectiveness of internal controls during the year.

The Board confirms that there is an ongoing process for identifying, evaluating and managing the significant risks faced by the Group; that this has been in place for the year under review and up to the date of approval of the Annual Report and Accounts; that this process is regularly reviewed by the Board; and that the process accords with the Turnbull Guidance.

The key elements of the control framework and review processes in place across the Group are as follows:

> The Board sets corporate strategy and business objectives. The GMB and Sector management integrate these objectives into their operational and financial business plans. Where areas for improvement in the system of internal control are identified, the Board considers the recommendations made by the GMB and the Audit Committee;

> The GMB meet regularly together with other senior executives to consider Group operational and financial performance and business development. The Chief Executive reports to the Board on behalf of the GMB on significant changes in the business and the external environment. The Group Finance Director provides the Board with monthly financial information which includes key performance and risk indicators;

> The Audit Committee, with assistance from certain related management committees, oversees key risks, such as financial risk, health and safety, corporate and social responsibility and the environment, where such risks apply across all Sectors. Each Sector has established a Sector Risk Management Committee, which is responsible for ensuring that the risks facing that Sector's business are identified and that related action plans are implemented. The committees ensure that the recommendations to mitigate risks are being actioned;

> The Business Assurance function independently reviews the risk identification procedures and control processes implemented by management and reports its findings to the Audit Committee three times per year, or more frequently if appropriate;

> The Audit Committee reviews: external audit work plans and that of the Business Assurance function; reports by Business Assurance on the Group's risk assessment process; and reports from both internal and external audit on the system of internal control, including the identification of material weaknesses. The Chairman of the Audit Committee reports to the Board on the outcome of the Audit Committee meetings held and the Board receives the minutes of all such meetings;

> The Treasury position of the Group, including cash, foreign exchange and fuel hedging exposure, is managed centrally in accordance with policies appropriate for each Sector and is the responsibility of the Group Finance Director and Group Treasurer. Reports and forecasts are submitted monthly to the Board;

> Financial forecasts, providing predicted results with sensitivity analysis, are prepared routinely throughout the year for review by the Board. These forecasts also include details of the Group's ongoing compliance with its regulatory and banking requirements. The Group has established investment appraisal and authorisation procedures and its capital expenditure is reviewed against budgets which have been approved by the Board;

> There are policies and procedures for the reporting by employees and resolution of suspected fraudulent activities. It is the policy of the Group to employ staff and management of high integrity, to train them appropriately and to require compliance with all relevant laws, regulations and internal policies.

During 2004, the Group identified a series of financial irregularities in the Engineering Department of First Choice Airways Limited (FCA), which resulted in the dismissal of two senior FCA employees. The impact of these financial irregularities on the Group's accounts was not material and there are no adverse safety or operational effects for FCA. Civil suits were commenced against those employees and certain other parties in order to recover monies. Internal controls at FCA have been the subject of both internal and independent external review and measures have been taken to further strengthen those controls. As a result of the civil action taken, the Company has recovered a total of £4.5m, representing more than 90% of the total financial irregularities identified.

Communications with shareholders

The Chief Executive and Group Finance Director hold regular meetings with major shareholders to review the Group's performance and prospects. The views of shareholders are communicated to all members of the Board following such meetings. During the course of these meetings the issue of governance is discussed. Presentations to major shareholders are made at least twice yearly, after the announcement of the interim and preliminary results, the details of which, together with the Group's financial reports and other announcements, can be accessed via the Group's website www.firstchoiceholidaysplc.com. The Combined Code recommends that the Senior Independent Director meets with a range of major shareholders to gain an understanding of their views. In practice, as a result of the extensive feedback provided, the Senior Independent Director and other Non-Executive Directors believe that they are aware of such issues, and that, unless requested by major shareholders, such meetings are unnecessary.

There is also an opportunity for shareholders to question the Chairman and other Directors (including the Chairmen of the Audit, Remuneration and Nomination Committees) at the Annual General Meeting. This forum also provides Non-Executive Directors with the opportunity to discuss the views of shareholders with them directly.

At general meetings:

> The Company prepares separate resolutions on each substantially separate issue and does not combine resolutions together inappropriately;

> A schedule of proxy votes cast is made available for inspection at the conclusion of the proceedings; and

> The Annual Report & Accounts is laid before shareholders at the Annual General Meeting.

Sustainable development

First Choice has made a clear commitment to sustainable development – balancing respect for people, environmental protection and long-term sustainable business success.

Management of sustainable development
Dermot Blastland, MD of the Mainstream Holidays Sector, takes responsibility for sustainable development on behalf of the Board. Social, environmental and ethical risks are managed through the Group risk management approach. These issues are raised at Sector and Group risk management committees which meet every six months. Each Sector has its own risk register to help manage non-financial risks and these feed into the overarching Group risk register which is reviewed by the Group Risk Management Committee. The Group Risk Management Committee reports through the Audit Committee to the Board. In addition, social and environmental issues are included in the Health, Safety and Environment monthly report made by the Director of Legal Affairs & Company Secretary to the Group Management Board.

Key achievements 2004/05
In March our ranking on the UK Business in the Community's Environment Index rose significantly, marking us out as one of the 10 most improving companies listed.

In September the Company was listed in the FTSE4Good Index for the first time, recognising our disclosure of environmental management targets and data, governance standards and good standards of employee policies and practices.

In October we published our first public Environment and People Report on our sustainable development progress so far. The Report is housed on a dedicated website at www.fcenvironmentandpeople.com and is also accessible via our corporate website at www.firstchoiceholidaysplc.com. In the Report we publish for the first time environmental data and targets across our significant environmental impacts, as well as some social data, for example on employee diversity.

In order to raise awareness of the Report internally we have run an employee competition, which directs people to the Report and offers the opportunity to win an overseas conservation trip. We have also translated a summary of the Report into five languages and communicated the key points of the Report through our existing internal cascade process.

We will update the Environment and People Report in April 2006 to disclose our environmental data for the year 2004/05 and targets for 2005/06. We will then continue to report annually in April.

First Choice has been working closely with other airlines and the wider aviation industry, including airport operators and aircraft and engine manufacturers, to develop a strategy towards sustainable development of UK aviation. This strategy was launched in June 2005 and had been endorsed by the Government (www.sustainableaviation.co.uk).

Looking forward to 2005/06
First Choice is currently working with the sustainable development charity "Forum for the Future" on a project to identify the embedded key business opportunities, which will enable us to take our commitment to sustainable development forward. This project is being championed by Dermot Blastland, Board member with responsibility for sustainable development, and will engage the Group Sector Boards and the Group Management Board in the first and second quarters of the year 2005/06.

This project will also involve training for the Group Management Board and Group Sector Boards in sustainable development issues.

In evaluating the business opportunities that may arise from our commitment to sustainable development, the Board will use the Group's formal strategic decision-making methodology.

In the first quarter of 2005/06 we are completing Business in the Community's Corporate Responsibility Survey. This is the first time that we are completing the sections on market-place, community and work-place issues and the third time we are completing the environment section. The results of the survey will provide us with a benchmark for measurement against other UK-based companies working on sustainable development.

During 2005/06 we will also be expanding and enhancing our existing business ethics standards by introducing a Business Code of Conduct. At present all senior managers and Directors are required to sign a declaration that they are not subject to any conflict of interest.

Risk management
First Choice Holidays PLC (First Choice) attaches great importance to risk management at all levels of the business and has now invested in increased resources to move the identification, monitoring and controlling of operational risk to the next level of sophistication. The Group continues to strive for greater transparency of risk and to promote the sharing of knowledge between its businesses for the greater good of the whole organisation and its stakeholders.

The strategy for risk management has been enhanced by the declared intention to drive risk management principles deep into the day-to-day business of each of the Sectors. The setting of policy and monitoring of performance is the responsibility of the Financial Risk Management Committee and the Health, Safety & Environmental Risk Management Committee. These committees are responsible to the Group Risk Management Committee, and ultimately to the Audit Committee, thereby providing Directors with the assurance that risks are managed appropriately at all times.

The Group Risk Management and Business Assurance Departments work closely to monitor key performance indicators (KPIs) relevant to each risk and to ensure that actions identified to control and mitigate these risks are subject to a continual internal auditing process.

A more co-ordinated Group-wide approach to risk management, based on a sound structure and reflecting the way the businesses are operated, is now in place. Having built the platform to identify, monitor and mitigate risk and having assembled the required resources, the focus for 2006 is to raise awareness of operational risk management throughout the Group.

There continues to be an appropriate emphasis on risks affecting the health and safety of the Group's customers and employees with Andrew John, Director of Legal Affairs & Company Secretary, taking responsibility for these matters on behalf of the Board.

Risk Management remains primarily the responsibility of the businesses affected, supported by expertise at Group level. As part of the long-term process, the risk profile of the Group is to be re-evaluated with risks categorised by discipline, territory and the effect on business strategy at all levels in the organisation.

Resources
In addition to restructuring the responsibility for managing risk, the Group Management Board has approved significant investment to increase the resources available – both in human terms and by introducing speciality IT tools. A Group Risk Manager was appointed in April 2004 and a commitment has been made to employ Risk Managers within each Sector who will be responsible for deploying Group-wide policies and procedures.

The Corporate Communications Team launched a Corporate Extranet during 2005 which has significantly enhanced the deployment of information around the Group and made the upgraded Crisis Communications Manual more widely available. Further IT-based support is currently in development and will be rolled out during 2006.

Strategic risk management
The Group Risk Management Policy is designed to provide a formal structure through which First Choice will:

> endeavour to reduce as far as possible the exposure of all its businesses to risk;

> seek to recognise and derive the maximum benefit from any opportunities identified through risk analysis;

> seek to achieve excellence in Corporate Governance through managing risk effectively throughout the organisation; and

> seek to provide entrepreneurial leadership within a framework of prudent and effective controls which enables risk to be assessed and managed.

In order to manage risk, we must be able to measure it. It is therefore our intention to further develop risk management practices that enable us to measure the impact of risk by reference to recognised, international standards. The Mainstream Holidays Sector is implementing an Environmental Management System (EMS) in line with the best practice standard ISO14001. In the longer term it is planned that we will also develop its Business Continuity Management (BCM) capabilities to PAS 56:2003 standards.

First Choice is currently setting appropriate metrics and KPIs by which it will be able to improve the measurement, in comparative terms, of risk levels and progress made in mitigating and managing risk. Supported by an IT solution to assist in the identification and quantification of risk, this will assist greatly in identifying any process interdependencies that merit further attention. It will also assist in the Group's consolidated business impact assessment.

Directors' responsibilities

Company law requires the Directors to prepare accounts for each financial year which give a true and fair view of the state of affairs of the Company and the Group and of the profit or loss for that period. In preparing those accounts, the Directors are required to:

> select suitable accounting policies and then apply them consistently;

> make judgements and estimates that are reasonable and prudent;

> state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the accounts; and

> prepare the accounts on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the accounts comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

Report of the independent auditors to the members of First Choice Holidays PLC

We have audited the accounts on pages 28 to 56. We have also audited the information in the Directors' Remuneration Report that is described as having been audited.

This report is made solely to the Company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors
The Directors are responsible for preparing the Annual Report and the Directors' Remuneration Report. As described on page 77, this includes responsibility for preparing the accounts in accordance with applicable United Kingdom law and accounting standards. Our responsibilities, as independent auditors, are established in the United Kingdom by statute, the Auditing Practices Board, the Listing Rules of the Financial Services Authority and by our profession's ethical guidance.

We report to you our opinion as to whether the accounts and the part of the Directors' Remuneration Report to be audited give a true and fair view and have been properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the Directors' Report is not consistent with the accounts, if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and transactions with the Group is not disclosed.

We review whether the corporate governance statement on pages 71 to 74 reflects the Company's compliance with the nine provisions of the 2003 FRC Code specified for our review by the Listing Rules and we report if it does not. We are not required to consider whether the Board's statements on internal control cover all risks and controls, or form an opinion on the effectiveness of the Group's corporate governance procedures or its risk and control procedures.

We read the other information contained in the Annual Report, including the Corporate Governance Statement and the unaudited part of the Directors' Remuneration Report, and consider whether it is consistent with the audited accounts. We consider the implications for our report if we become aware of any apparent mis-statements or material inconsistencies with the accounts.

Basis of audit opinion
We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts and the part of the Directors' Remuneration Report to be audited. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the accounts, and of whether the accounting policies are appropriate to the Group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the accounts, and the part of the Directors' Remuneration Report to be audited, are free from material mis-statement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the accounts and the part of the Directors' Remuneration Report to be audited.

Opinion
In our opinion:

> the accounts give a true and fair view of the state of affairs of the Company and the Group as at 31 October 2005 and of the profit of the Group for the year then ended; and

> the accounts and the part of the Directors' Remuneration Report to be audited have been properly prepared in accordance with the Companies Act 1985.

MEMORANDUM OF ASSOCIATION

THE COMPANIES ACTS 1985 to 1989

COMPANY LIMITED BY SHARES

MEMORANDUM OF ASSOCIATION

of

FIRST CHOICE HOLIDAYS PLC

1. The name of the Company is "FIRST CHOICE HOLIDAYS PLC".*

2. The Company is to be a Public Company.

3. The registered office of the Company will be situate in England and Wales.

4. The objects for which the Company is established are:- **

   (A) To carry on the business of a Holding Company in all its branches, and to acquire by purchase, lease, concession, grant, licence or otherwise deal in such businesses, options, rights, privileges, lands, buildings, leases, underleases, stocks, shares, debentures, bonds, obligations, securities, reversionary interests, annuities, policies of assurance and other property and rights of interest in property as the Company shall deem fit, and generally to hold, manage, develop, lease, sell or dispose of the same, and to vary any of the investments of the Company, and to enter into, assist or participate in financial, commercial, mercantile, industrial, and other transactions, undertakings, and businesses of every description.

*** (AA) To carry on business as a general commercial company.

   (B) To carry on business as carriers of passengers, goods and other articles by air, sea and land, and as proprietors, agents, consultants, charterers and hirers of aeroplanes, sea-planes and aircraft generally, ships, yachts, boats, motor cars, coaches and omnibuses and mechanically propelled vehicles of every description.

   (C) To carry on business as owners, managers, proprietors and operators of holiday accommodation throughout the world, including villas, cottages, chalets, houses, apartment blocks, hotels and guest houses; to carry on business as travel agents and operators and to establish and carry on travel bureaux, touring agencies, custom's

---

* (i) The name of the Company was changed from The Kintyre Tea Estates Company Limited to Owners Abroad Group Limited on 31 December 1981.

(ii) The name of the Company was changed from Owners Abroad Group Limited to Owners Abroad Group PLC on 31 December 1981.

(iii) The name of the Company was changed from Owners Abroad Group PLC to First Choice Holidays PLC on 19 September 1994.

** Amended by Special Resolution passed on 31 December 1981.

*** *Clause 4(AA) added by Special Resolution passed on 23 May 1991.*

clearing agencies; to organise and conduct trips, holidays and excursions of all kinds in any part of the world, to provide hotel and lodging accommodation and to act as agents for railways, shippers, carriers and as sellers and dealers in any tickets issued by them; and to provide any other accommodation, assistance or services to travellers and tourists.

(D) To construct, build, improve, maintain, work, manage, carry out or control any roads, ways, tramways, railways, branches or sidings, reservoirs, water courses, wharves, manufactories, warehouses, shops, stores, buildings, and conveniences, which may seem calculated directly or indirectly to advance the Company's interests, and contribute to, subsidise, or otherwise assist or take part in the construction, improvements, maintenance, working, management, carrying out, or control thereof.

(E) To acquire and undertake the whole or any part of the business, property, and liabilities of any person or Company carrying on any business which this Company is authorised to carry on, or possessed of property suitable for the purposes of the Company.

(F) To enter into any arrangement for sharing profits, union of interests, co-operation, joint adventure, reciprocal concession or otherwise, with any person or company carrying on or engaged in, or about to carry on or engage in any business or transaction which this Company is authorised to carry on or engage in, or any business or transaction capable of being conducted so as directly or indirectly to benefit this Company, and to take or otherwise acquire shares and securities of any such company, and to sell, hold, re-issue, with or without guarantee, or otherwise deal with the same.

(G) To sell the undertaking of the Company, or any part thereof, for such consideration as the Company may think fit, and in particular for shares, debentures, or securities of any other Company having objects, altogether or in parts, similar to those of this Company.

(H) To invest and deal with the moneys of the Company not immediately required, upon such securities, and in such manner as may from time to time be determined.

(I) To lend money to such persons, and on such terms, as may seem expedient, and in particular to customers and others having dealings with the Company, and to guarantee the performance of contracts by any such persons.

(J) To borrow or raise money in such manner as the Company shall think fit, and in particular by the issue of debentures, or debenture stock, perpetual or otherwise, charged upon all or any of the Company's property, both present and future, including its uncalled capital.

(K)* To give indemnity for, or to guarantee, support, secure the performance of all or any of the obligations of any person or company with or without consideration and whether or not the Company obtains any benefit therefrom whether by personal covenant or by mortgage, charge or lien on the whole or any part of the undertaking, property and assets of the Company both present and future, including its uncalled capital, or by all or any of such methods or in any other manner; and in particular, but without limiting the generality of the foregoing to give indemnity for, or to guarantee, support or secure with or without consideration and whether or not the Company obtains any benefit therefrom whether by personal covenant or by any such mortgage, charge or lien, or by all or any of such methods the performance of all or any of the obligations (including the repayment or payment of the principal and premium of, and interest on, any securities) of any company which is for the time being a subsidiary or a holding

---

* Clause 4(K) added by Special Resolution passed on 30 November 1983.

company of the Company or another subsidiary of a holding company of the Company or otherwise associated with the Company.

(KA)* To provide any guarantee or indemnity in respect of the performance or discharge of any obligation or liability by, or otherwise for the benefit of, any person.

(KK)** To purchase and maintain insurance for the benefit of any director or other officer or auditor of the Company against any liability which may attach to him or loss or expenditure which he may incur in relation to anything done or omitted to be done or alleged to have been done or to be done as a director, or auditor.

(L) To make, endorse, execute, and issue promissory notes, bills of exchange, debentures, and other negotiable or transferable instruments.

(M) To sell, improve, manage, develop, lease, mortgage, dispose of, turn to account, or otherwise deal with all or any of the property of the Company.

(MM)*** To establish and maintain, or procure the establishment and maintenance of, any pension or superannuation funds (whether contributory or otherwise) for the benefit of, and give or procure the giving of pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit to, any persons who are or were at any time in the employment or service of the Company, or of any company which is a subsidiary of the Company or is allied to or associated with the Company or any such subsidiary or of any of the predecessors in business of the Company or any such other company as aforesaid, or may be or have been directors or officers of the Company or of any such other companies as aforesaid and do hold or have held executive positions or agreements for service with the Company or any such other companies as aforesaid, and the wives, widows, families and dependants of any such persons, and also establish, subsidise and subscribe to any institutions, associations, societies, clubs or funds calculated to be for the benefit of, or to advance the interests and well-being of, the Company or of any such other company as aforesaid or any such persons as aforesaid, and make payments for or towards the insurance of any such person as aforesaid and subscribe or guarantee money for charitable or benevolent objects, or for any exhibition of any public, general or useful object, and do any of the matters aforesaid either alone or in conjunction with any such other company as aforesaid. Subject to particulars with respect to the proposed payment being disclosed to the members of the Company and to the proposal being approved by the Company by ordinary resolution, if the Act shall so require, any director who holds or has held any such executive position or agreement for services shall be entitled to participate in and retain for his own benefit any such pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation.

(N) To do all or any of the above things in any part of the world, as principals, agents, contractors, trustees, or otherwise, and by or through trustees, agents, or otherwise, and either alone or in conjunction with others, and the doing of all such other things as are incidental or conducive to the attainment of the above objects.

5. The liability of the Members is limited.

---

* Clause 4(KA) added by Special Resolution passed on 23 March 2006.

** Clause 4(KK) added by Special Resolution passed on 23 May 1991.

*** Cause 4(MM) as amended by Special Resolution passed on 23 March 2006.

6. The Capital of the Company is £65,000, dividend into 2,000 Preference Shares of £10 each, and 4,500 Ordinary Shares of £10 each. Such Preference Shares shall confer a right to a fixed cumulative preferential dividend at the rate of 5 per cent. per annum subject to the provisions of the Articles of Association of the Company.

7. The Company shall from time to time have power to increase the Capital to such extent, and with or without priorities of ranking on Capital, or with respect to dividend, as the Company may in general meeting and under the conditions for the time being prescribed by its regulations determine.

(A) MINUTE APPROVED BY THE COURT

The Capital of Owners Abroad Group PLC was by virtue of a Special Resolution and with the sanction of an Order of the High Court of Justice dated 16th December 1985 reduced from £6,000,000 divided into 60,000,000 Ordinary Shares of 10p each to £1,800,000 divided into 60,000,000 Ordinary Shares of 3p each. At the date of registration of this Minute 57,458,800 of such shares are issued and are deemed to be fully paid up and all the remaining shares are unissued.

By an Order of the High Court of Justice dated 16th December 1985 the amount standing to the credit of the Share Premium Account of the Company at that date was cancelled.

(B) By an ordinary resolution of the Company passed on 19th June 1986 the authorised share capital of the Company was increased from £1,800,000 divided into 60,000,000 ordinary shares of 3p each to £2,301,000 divided into 76,700,000 ordinary shares of 3p each.

(C) By an ordinary resolution of the Company passed on 1st August 1988 the authorised share capital of the Company was increased from £2,301,000 divided into 76,700,000 ordinary shares of 3p each to £3,600,000 divided into 120,000,000 ordinary shares of 3p each.

(D) By a special resolution of the Company passed on 9th April 1990 the authorised share capital of the Company was increased from £3,600,000 divided into 120,000,000 ordinary shares of 3p each to £8,037,350 divided into 171,245,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each.

(E) By a special resolution of the Company passed on 23rd May 1991 the authorised share capital of the Company was increased from £8,037,350 divided into 171,245,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each to £10,100,000 divided into 240,000,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each.

(F) By a special resolution of the Company passed on 25th October 1995 the authorised share capital of the Company was increased from £10,100,000 divided into 240,000,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each to £13,700,000 divided into 360,000,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each.

(G) By an ordinary resolution of the Company passed on 9th July 1998 the authorised share capital of the Company was increased from £13,700,000 divided into 360,000,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each to £16,700,000 divided into 460,000,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each.

(H) By an ordinary resolution of the Company passed on 15th March 2000, the authorised share capital of the Company was increased from £16,700,000 divided into 460,000,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each to £20,000,000 divided into 570,000,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each.

(I) By a special resolution of the Company passed on 10th July 2000, the authorised share capital of the Company was increased from £20,000,000 divided into 570,000,000 ordinary shares of 3p each and 29,000,000 9.75p (net) convertible cumulative redeemable preference shares of 10p each to £219,750,000 divided into 675,000,000 ordinary shares of 3p each and 199,500,000 convertible cumulative redeemable preference shares of £1 each.

(J) By a special resolution of the Company passed on 14th March 2001, the authorised share capital of the Company was increased from £219,750,000 divided into 675,000,000 ordinary shares of 3p each and 199,500,000 convertible cumulative redeemable preference shares of £1 each to £223,500,000 divided into 800,000,000 ordinary shares of 3p each and 199,500,000 convertible cumulative redeemable preference shares of £1 each.

(K) By a special resolution of the Company passed on 11th March 2003, the authorised share capital of the Company was increased from £223,500,000 divided into 800,000,000 ordinary shares of 3p each and 199,500,000 convertible cumulative redeemable preferences shares of £1 each to £223,950,000 divided into 815,000,000 ordinary shares of 3p each and 199,500,000 convertible cumulative redeemable preference shares of £1 each.

14 March 2001, 13 March 2002, 11 March 2003 and 23 March 2006)

PRELIMINARY

1. (1) In these articles the following words bear the following meanings:-

"the Act"	subject to paragraph (4) of this article, the Companies Act 1985;
"these articles"	the articles of the Company;
"clear days"	in relation to the period of a notice, that period excluding the day when the notice is given or deemed to be given and the day for which it is given or on which it is to take effect;
"executed"	any mode of execution;
"holder"	in relation to shares, the member whose name is entered in the register of members as the holder of the shares;
"Office"	the registered office of the Company;
"recognised person"	a recognised clearing house or a nominee of a recognised clearing house or of a recognised investment exchange who is designated as mentioned in section 185(4) of the Act;
"the seal"	the common seal (if any) of the Company and an official seal (if any) kept by the Company by virtue of section 40 of the Act, or either of them as the case may require;
"secretary"	the secretary of the Company or any other person appointed to perform the duties of the secretary of the Company, including a joint, assistant or deputy secretary;
"the Stock Exchange"	the London Stock Exchange Limited;
"the Uncertificated Securities Regulations"	subject to paragraph (4) of this article, the Uncertificated Securities Regulations 1995;

"A" Convertible Preference Shares"	6.75 per cent. (net) convertible cumulative redeemable preference shares of nominal value of £1 each arising upon the redesignation of convertible preference shares pursuant to Article 3(7)(c) and forming a separate class of shares from the convertible preference shares;
"Listing Rules"	the Listing Rules made by the UK Listing Authority under section 142 of the Financial Services Act 1986;
"London Stock Exchange"	London Stock Exchange PLC;
"LSE Admission Standards"	the rules issued by the London Stock Exchange in relation to the admission of trading of, and continuing requirements for, securities admitted to the Official List;
"Official List"	the list maintained by the UK Listing Authority pursuant to Part IV of the Financial Services Act 1986;
"Relevant Event"	means any of the following events:

(i) a takeover offer (as defined in section 428 of the Act) in respect of the ordinary share capital of the Company becoming unconditional in all respects;

(ii) the acceptance by a Relevant Person of any offer or invitation to subscribe for new ordinary shares in the capital of the Company save where such offer or invitation is made to such person by reason of their being an existing holder of ordinary shares, such offer or invitation being made to all holders of ordinary shares at a specified date on an equivalent basis (or as near as is practicable thereto), which shall include, without prejudice to the generality of the foregoing, an offer or invitation by way of a rights issue or open offer as described in Chapter 4 of the Listing Rules;

(iii) the acquisition by a Relevant Person of ordinary shares such that such person holds 30 per cent. or more of the issued ordinary share capital of the Company at that date;

(iv) issue of a petition seeking an administration order in relation to the Company or the appointment of a receiver over a material part of the Company's property, assets or undertaking;

(v) the passing by the Company of a resolution for its winding up or the issue of a petition seeking an order for the winding up of the Company otherwise than, in each case, for the purposes of a solvent amalgamation or reconstruction;

(vi) the entering into by the Company of a Strategic Relationship with a Relevant Person;

"Relevant Person"	an entity which owns, operates or controls cruise vessels with capacity in excess of 5,000 passenger berths together in each case with their respective subsidiary undertakings (as defined in section 258 of the Act) and associated undertakings (as defined in paragraph 20 of Schedule 4A of the Act and taking into

account the presumption in sub-paragraph (2) thereof);

"Strategic Relationship"	any of the following: (i) any relationship between the Company and a Relevant Person which the Company has announced to be a strategic relationship; (ii) any acquisition by the Company of an interest in the share capital of a Relevant Person in connection with a commercial relationship; (iii) the establishment of a joint venture having the potential for profit sharing with a Relevant Person; (iv) conferring on a Relevant Person most favoured status in the retail operations of the Company and its subsidiary undertakings; or (v) a major distribution initiative for the exclusive benefit of a Relevant Person;
"UK Listing Authority"	the Financial Services Authority as the competent authority for listing in the United Kingdom;

(2) In relation to shares, the expressions "in uncertificated form" and "in certificated form" have the same meaning in these articles as in the Uncertificated Securities Regulations, provided that any reference to a share in uncertificated form does not include a reference to a share which is not a participating security, as defined in those regulations.

(3) Save as aforesaid and unless the context otherwise requires, words or expressions contained in these articles bear the same meaning as in the Act or the Uncertificated Securities Regulations (as the case may be). For the purposes of these Articles, a dematerialised instruction is properly authenticated if it complies with the specifications referred to in paragraph 5(b) of Schedule 1 to the Uncertificated Securities Regulations.

(4) Except where otherwise expressly stated, a reference in these articles to any primary or delegated legislation or legislative provision includes a reference to any modification or re-enactment or replacement of it for the time being in force.

(5) In these articles, unless the context otherwise requires -

(a) words in the singular include the plural, and vice versa;

(b) words importing any gender include all genders; and

(c) a reference to a person includes a reference to a body corporate and to an unincorporated body of persons.

(6) In these articles -

(a) references to writing include any method of presenting words in a visible form whether in a physical document or in an electronic communication or in any other way;

(b) references to "other" and "otherwise" shall not be construed ejusdem generis where a wider construction is possible;

(c) references to a power are to a power of any kind, whether administrative, discretionary or otherwise; and

(d) references to a committee of the directors are to a committee established in accordance with these articles, whether or not comprised wholly of directors.

(7) The headings are inserted for convenience only and do not affect the construction of these articles.

2. The regulations contained in Table A do not apply to the Company.

SHARE CAPITAL

3. The share capital of the Company, at the date of adoption of this Article, is £223,500,000 divided into 800,000,000 ordinary shares of 3p each (**"ordinary shares"**) and 199,500,000 6.75 per cent. (net) convertible cumulative redeemable preference shares of nominal value of £1 each (**"convertible preference shares"**).

(1) **Income**

(A) Out of the profits available for distribution the holders of the convertible preference shares shall be entitled, in priority to any payment of dividend to the holders of any other class of shares, to be paid a fixed cumulative preferential dividend (**"preferential dividend"**) at the rate of 6.75p per share per annum (exclusive of any associated tax credit) such dividend to accrue from day to day and to be paid quarterly on 31st December, 31st March, 30th June and 30th September (**"fixed dividend dates"**) (or in the event of any such date being a Saturday, Sunday or public holiday in England on the first business day following such date) in each year in respect of the quarters ending on those respective dates, save that the first such payment in respect of the convertible preference shares shall be made on 30th September 2000, in respect of the period from their date of issue to 30th September 2000 (both dates inclusive). Payments of preferential dividends shall be made to holders of the convertible preference shares on the register on the date 21 days prior to the relevant fixed dividend date. The convertible preference shares shall not entitle the holders to any further right of participation in the profits of the Company provided that the entitlements of holders under this paragraph (1) shall be subject to valid elections made by holders of convertible preference shares pursuant to any offer of ordinary shares made in accordance with the provisions of Article 120.

(B) If at any time and for so long as the aggregate preferential dividend payable on six successive fixed dividend dates has not been paid by the Company the holder or holders for the time being of a majority of the issued convertible preference shares shall be entitled to appoint up to two additional directors of the Company (and to remove and replace any directors so appointed) by a written direction to the Company signed by the holder or holders of a majority of the issued convertible preference shares. Such direction shall take effect upon being delivered to the Office. In such circumstances, if necessary, the maximum number of directors referred to in Article 73 shall be deemed to be increased to 14. As soon as all preferential dividends accrued in respect of previous fixed dividend dates have been paid in full any directors appointed pursuant to this paragraph shall forthwith cease to hold office and any deemed increase in the maximum number of directors referred to in Article 73 shall cease to apply.

(2) **Capital**

Subject to sub-paragraph (7)(b) of this Article, on a return of capital (other than on conversion, redemption or purchase of shares in the Company) the assets of the Company available for distribution among the members shall be applied in priority to any payment to the holders of any other class of shares in repaying to the holders of the convertible preference shares a sum equal to the nominal capital paid up or credited as paid up thereon and all arrears and accruals (if any) of the preferential dividend whether such preferential dividend has been earned or declared or not, calculated to the date of the commencement of the winding-up (in the case of a winding-up) or the return of capital (in any other case) on the footing that it continues to accrue from day to day down to that date. The provisions of this paragraph are without prejudice to the other provisions of these

articles (as from time to time amended) as to conversion, redemption and purchase of shares. After the holders of the ordinary shares have received a sum equal to the nominal capital paid up or credited as paid up on the ordinary shares together with the sum of £1,000 per ordinary share held by them respectively the holders of convertible preference shares shall be entitled to participate with the holders of ordinary shares pro rata to the number of shares of each class held by them respectively in the surplus assets of the Company available for distribution. The convertible preference shares shall not entitle the holders to any further right of participation in the assets of the Company.

(3) **Voting at General Meetings**

(a) The convertible preference shares shall entitle the holder to receive notice of, to attend and to vote at any general meeting. A holder of convertible preference shares shall be entitled to such number of votes, and the provisions of these Articles so far as they relate to votes of members at general meetings including, without prejudice to the generality, Articles 61 to 71 shall be applied, as if such holder of convertible preference shares had exercised in full immediately prior to the time for establishing the right to vote at the meeting at which such vote is to be taken the conversion rights attaching to the convertible preference shares held by such holder.

(b) In the event that any convertible preference share is redesignated as an "A" Convertible Preference Share pursuant to paragraph (7)(c) below the holders of such redesignated "A" Convertible Preference Shares shall be entitled to receive notice of any General Meeting of the Company but shall not be entitled:

(i) to vote upon any resolution (other than a resolution for winding-up the Company or a resolution varying, modifying, altering or abrogating any of the rights, privileges, limitations or restrictions attached to the convertible preference shares) unless, at the date of the notice convening the meeting at which the resolution is to be proposed, the preferential dividend or any part thereof shall be at least six months in arrears, whether or not there were sufficient profits available out of which the dividend could have been paid, or the Company shall have failed to redeem on any applicable date on which the convertible preference shares were due for redemption; and

(ii) to attend at any general meeting unless the business of the meeting includes a resolution upon which such holders are entitled to vote

and the provisions of sub-paragraph (3)(a) shall no longer apply to such redesignated "A" Convertible Preference Share.

Where a holder is entitled to vote under this sub-paragraph (b) he shall be entitled to such number of votes as equals the number of ordinary shares which would result from the exercise in full, immediately prior to the time for establishing the right to vote at the meeting at which such vote is to be taken, of the conversion rights attaching to the convertible preference shares held by such holder.

(4) **Conversion**

(a) Subject as hereinafter provided, each holder of convertible preference shares shall be entitled at the times and in the manner set out in this Article to convert all or any of his convertible preference shares into fully paid ordinary shares on the basis of 52.6316 ordinary shares for every £100 in nominal amount of convertible preference shares so converted, and so in proportion for any greater or lesser nominal amount of convertible preference shares (such rate as adjusted from time to time as provided in sub-paragraphs (6)(a), (c) or (d) or (4)(o)) of this article being herein called **"the Conversion Rate"**) provided that if a Conversion Notice (as defined in sub-paragraph (4)(c) below) is given in respect of part only of a holding of convertible preference shares so that there would remain following conversion five or fewer such shares in that

holding, all the convertible preference shares in the holding shall be converted notwithstanding the figure inserted in the Conversion Notice.

(b) For the purposes of the provisions of this article a **"Conversion Date"** shall be a day on or after the date which is sixty days after the date of adoption of this Article, but prior to the tenth anniversary of the date of issue of the first convertible preference shares to be issued (being the last Conversion Date), being the day on which the Board shall allot (and in any case where such allotment is conditional, such day shall be the day on which such allotment becomes unconditional) the ordinary shares arising upon the conversion of the shares specified in a Conversion Notice.

(c) Such right shall be exercisable on any day (other than a Saturday, Sunday or a day which is a public holiday in England) by completing the notice of conversion endorsed on the share certificate relating to the convertible preference shares to be converted or a notice in such other form as may from time to time be prescribed by the directors (a **"Conversion Notice"**) and delivering the same to the registrars for the time being of the Company together with, in any case where there is doubt or uncertainty over the title to the shares in question, such other evidence (if any) as the directors may reasonably require to prove the title of the person exercising such right to convert. A Conversion Notice once given may not be withdrawn without the consent in writing of the Company.

(d) Conversion of such convertible preference shares as may be specified in any Conversion Notice (the **"Relevant Shares"**) shall be effected in such manner as the directors shall from time to time determine in accordance with the following provisions of this Article or otherwise as may be authorised by law.

(e) The directors may, subject as herein provided, determine to effect conversion by electing to redeem at par the Relevant Shares (or any of them) on any Conversion Date out of the profits of the Company which would otherwise be available for distribution to the holders of any class of shares. The convertible preference shares shall confer upon the holders thereof the right and the obligation (in the event that the convertible preference shares held by them respectively become Relevant Shares and the directors determine to redeem the same at par out of profits as aforesaid) to subscribe for the appropriate number of ordinary shares at the applicable Conversion Rate at such premium (if any) as shall represent the amount by which the redemption monies in respect of the Relevant Shares exceed the nominal amount of the ordinary shares to which the holders are so entitled. In any such case, the Conversion Notice given by a holder of Relevant Shares shall be deemed irrevocably to authorise and instruct the directors to apply the redemption monies payable to him in subscribing for such ordinary shares at such premium (if any) as aforesaid.

(f) The directors may, subject as herein provided and if duly authorised to allot such ordinary shares in accordance with the provisions of the Act and these Articles, determine to effect conversion by electing to redeem at par the Relevant Shares (or any of them) on any Conversion Date out of the proceeds of a fresh issue of ordinary shares. The convertible preference shares shall confer upon the holders thereof the right and the obligation (in the event that the convertible preference shares held by them respectively become Relevant Shares and the directors determine to redeem the same at par out of the proceeds of a fresh issue as aforesaid) to subscribe, and the holders shall be deemed irrevocably to authorise and instruct the secretary of the Company (or any other person appointed for the purpose by the directors) to subscribe as agent on the holder's behalf, for the appropriate number of ordinary shares (which authority shall include the right to borrow money) at the applicable Conversion Rate at such premium (if any) as shall represent the amount by which the redemption monies in respect of the Relevant Shares exceed the nominal amount of the ordinary shares to which the holders are so entitled. In any such case, the Conversion Notice given by a holder of Relevant Shares shall be deemed irrevocably to authorise and instruct the directors following the allotment of such ordinary shares to apply the redemption monies payable to him in payment to his said agent who shall be entitled to retain the same for his own benefit without being accountable therefor to such holder.

(g) The directors may, if duly authorised to allot such ordinary shares in accordance with the provisions of the Act and these articles, determine to effect conversion by electing to redeem at par the Relevant Shares (or any of them) on the Conversion Date: (i) in part, up to an amount equal to any applicable stamp duty, transfer duty or stamp duty reserve tax in respect of the renunciation referred to below, out of profits of the Company which would otherwise be available for distribution, and (ii) in part, out of the proceeds of a fresh issue of the number of ordinary shares into which the relevant shares are required to be converted at the Conversion Rate, such issue to be at such premium (if any) as shall represent: (i) the amount by which the redemption moneys in respect of the relevant shares exceed the nominal value of such ordinary shares less (ii) an amount equal to any applicable stamp duty, transfer duty or stamp duty reserve tax in respect of the renunciation referred to below. In such event the directors shall arrange for the allotment of the appropriate number of ordinary shares to some person selected by them on terms that such person will subscribe and pay for such ordinary shares at such premium (if any) as aforesaid and renounce the allotment of such ordinary shares in favour of the holder of the relative Relevant Shares (and will also pay any applicable stamp duty, transfer duty or stamp duty reserve tax in respect of such renunciation) against payment to such subscriber by the Company of the redemption moneys in respect of such shares so redeemed (which redemption moneys shall be equal to the amount payable to the holder of the relative Relevant Shares as aforesaid). In any such case, the Conversion Notice given by a holder of Relevant Shares shall be deemed to have authorised and instructed the directors to pay the redemption moneys in respect of his Relevant Shares to the subscriber of the ordinary shares renounced in his favour.

(h) The directors may determine to effect conversion by means of consolidation and sub-division. In such case the requisite consolidation and sub-division shall be effected pursuant to the authority given by the passing in general meeting of the resolution creating the convertible preference shares, by consolidating into one share all the Relevant Shares at any one or more Conversion Dates held by any holder or joint holders and sub-dividing such consolidated share into shares of 3p each (or such other amount as may be appropriate as a result of any consolidation or sub-division, of the ordinary shares) of which 52.6316 shares for each £100 nominal amount of the consolidated share (or such other number of shares as may be appropriate as a result of any adjustment pursuant to the provisions of sub-paragraph (6)(a), (c) or (d) or (4)(o) of this Article) shall be ordinary shares (and so in proportion for any other nominal amount of the consolidated share), fractional entitlements being disregarded, and the balance of such shares (including any fractions) shall be non-voting deferred shares (**"Non-voting Deferred Shares"**) which shall have the following rights and be subject to the following restrictions:

(i) on a return of capital on winding-up or otherwise, the Non-voting Deferred Shares shall entitle the holders thereof only to the repayment of the amounts paid up on such shares after payment in respect of each ordinary share of the capital paid up on such shares together with £100,000;

(ii) the Non-voting Deferred Shares shall not entitle the holders thereof to the payment of any dividend or other distribution;

(iii) the Non-voting Deferred Shares shall not entitle the holders thereof to receive notice of or attend or vote at any general meeting of the Company.

Such conversion shall be deemed to confer irrevocable authority on the Company at any time thereafter to appoint any person to execute on behalf of the holders of such Non-voting Deferred Shares a transfer thereof (and/or an agreement to transfer the same) to such person as the Company may determine as custodian thereof and/or to purchase the same (in accordance with the provisions of the Act) in any such case for not more than 1p for all the Non-voting Deferred Shares without obtaining the sanction of the holder or holders thereof and pending such transfer and/or purchase to retain the certificate for such Non-voting Deferred Shares. Subject to the provisions of the Act, the Company may at its option at any time after the creation of any Non-voting Deferred

Shares redeem all of the Non-voting Deferred Shares then in issue, at an aggregate price not exceeding 1p for all the Non-voting Deferred Shares redeemed, at any time upon giving the registered holders of such shares not less than 28 days' previous notice in writing of its intention so to do, fixing a time and place for the redemption and, at such time and place so fixed, such registered holders shall be bound to surrender to the Company the certificates for the Non-voting Deferred Shares in order that the same may be cancelled and the Company shall pay the redemption monies to one of such registered holders to be determined by lot.

(i) In addition to the right to determine to effect conversion by means of consolidation and sub-division in accordance with the foregoing provisions of this paragraph (4), the Directors may consolidate into one share all the Relevant Shares at any one or more Conversion Dates held by any holder or joint holders and sub-divide such share into the appropriate number of ordinary shares, in which event such ordinary shares, notwithstanding that they may have a different nominal amount from other ordinary shares then in issue, shall form a uniform class with all such shares and shall notwithstanding any contrary provision herein for all purposes and in all respects *(including without limitation entitlement to dividends or other distributions, participation* in offers, voting rights, rights on liquidation or return of capital) rank pari passu with all other fully paid ordinary shares for which purpose the nominal amount of each ordinary share arising on such consolidation and sub-division shall be deemed to be 3p (or such other amount as may be appropriate as a result of any sub-division or consolidation of the ordinary shares) and the nominal amount of the ordinary shares into which the Relevant Shares shall convert shall (subject to adjustment as aforesaid) also be deemed to be 3p.

(j) Any fractions of ordinary shares arising on conversion shall be aggregated and sold on behalf of such holders of Relevant Shares at the best price reasonably obtainable and the net proceeds of sale shall be distributed pro rata among such holders who would *otherwise have been entitled unless in respect of any holding of the Relevant Shares* the amount to be distributed would be less than £3.00 in which case such amount shall not be so distributed but shall be retained for the benefit of the Company. For the purpose of implementing the provisions of this sub-paragraph (4)(i), the directors may appoint some person to execute transfers or renunciations on behalf of persons otherwise entitled to any such fractions and generally may make all arrangements which appear to them necessary or appropriate for the settlement and disposal of fractional entitlements.

(k) Save in the circumstances specified below, the preferential dividend on any convertible preference shares converted (whatever the manner of conversion) shall cease to accrue with effect from the fixed dividend date last preceding the relevant Conversion Date. In the event that conversion is effected at the rate and in the circumstances described in paragraph (o) below or follows immediately after service of a notice under sub-paragraph (5)(c) below, the preferential dividend shall cease to accrue with effect from the day immediately preceding the Conversion Date. The ordinary shares arising on any conversion shall rank pari passu in all respects with the ordinary shares in issue on the Conversion Date, except that the ordinary shares so allotted will not rank for any dividend or other distribution which has been announced, declared, recommended or resolved upon prior to the Conversion Date by the directors or by the Company in general meeting to be paid or made, if the record date for such dividend or other distribution is prior to the Conversion Date and notice of the intended dividend or other distribution and of the record date has been given to the London Stock Exchange prior to such Conversion Date.

(l) Subject to sub-paragraph (4)(n) of this Article below, allotments of ordinary shares arising from conversion (whatever the manner of conversion) shall be effected within 2 business days of the receipt of the relevant Conversion Notice and relevant entries made in the register of members immediately thereafter. Within 14 days after the Conversion Date, the Company shall send to each holder of the Relevant Shares, by post at his own risk, free of charge, a definitive certificate for the appropriate number of fully-paid ordinary shares arising on conversion that are in certificated form and a new

certificate for any unconverted convertible preference shares comprised in the certificates surrendered by him together, where relevant, with a cheque in respect of any cash entitlement arising from the sale of fractions. In the meantime transfers shall be certified against the Register. In the case of ordinary shares that are in uncertificated form, the Company will procure that the Operator is instructed to credit the appropriate stock accounts, in the relevant system with the appropriate number of ordinary shares.

(m) The Company shall use its best endeavours to procure that the ordinary shares arising on conversion are admitted to the Official List and admitted to trading on the London Stock Exchange.

(n) The conversion rights of a holder of convertible preference shares are subject, as regards their exercise, to the approval of the UK Listing Authority in any case where such approval is required. Where, in accordance with the Listing Rules, the allotment of ordinary shares arising on the exercise of conversion rights in respect of any convertible preference shares would require the preparation by the Company of listing particulars or a prospectus, the allotment of such ordinary shares shall be effected within 45 days of receipt of the relevant Conversion Notice and the other periods referred to in sub-paragraph (4)(l) of this Article shall be adjusted accordingly. The Company shall use all reasonable endeavours to apply for listing and to publish listing particulars as soon as possible.

(o) If the holder of convertible preference shares exercises the right to convert the whole but not part only of his holding of convertible preference shares by giving a Conversion Notice which is not more than 30 days after receipt by the holder of the notification of the occurrence of a Relevant Event then the Conversion Rate shall be, for every £100 in nominal amount of convertible preference shares so converted, on or prior to certain anniversaries of the date of first issue of any convertible preference shares (an **"Anniversary"**) the number of ordinary shares shown below and after that the Conversion Rate (as defined in sub-paragraph (4)(a) of this Article):

Date of Conversion Notice	**Conversion Rate**
On or before first Anniversary	55.5556
On or before second Anniversary	54.0541

(5) **Redemption and purchase**

(a) Where a holder of convertible preference shares has given a Conversion Notice in respect thereof, such convertible preference shares may be redeemed at the option of the Company at the price(s), in the manner and in the circumstances specified in sub-paragraphs (4)(e), (f) or (g) of this Article and in the case of any such redemption, the redemption monies shall become payable on redemption but shall be applied in accordance with those sub-paragraphs.

(b) Except where a Conversion Notice has previously been given the Company shall, subject to the Act, redeem on the tenth anniversary of the date of first issue of any convertible preference shares, the whole of the convertible preference shares if any in issue on that date.

(c) The Company may by giving the holders of the convertible preference shares not less than 15 and not more than 30 days notice in writing subject to the Act, redeem the whole (but not part only) of the convertible preference shares (if any) in issue:

(i) at any time following the date upon which the aggregate nominal amount of shares remaining in issue as convertible preference shares shall be less than 10 per cent. of the aggregate nominal amount of shares at any time issued as convertible preference shares;

(ii) on or at any time after the fifth anniversary of the date of issue of the first convertible preference shares to be issued; or

(iii) within 14 days of the occurrence of a Withholding Event (as defined in sub-paragraph (9)(c) of this Article)

provided always that the Company's right to redeem shall be subject to the holder not having given a Conversion Notice prior to the Redemption Date.

(d) As soon as practicable following the occurrence of any Relevant Event, the Company shall give notice of that event to the holders of Convertible Preference Shares. Following the occurrence of a Relevant Event, on any date which is not more than 30 days following the later of the occurrence of such Relevant Event or receipt of such notice, a holder of convertible preference shares may require the Company to redeem the whole (but not part only) of the convertible preference shares held by such holder. In that event the Company shall redeem such convertible preference shares on the date which is 7 days, or, in the case of an event of the kind described in sub-paragraph (iii) of the definition of Relevant Event, 90 days (or in the event of such date being a Saturday, Sunday, or public holiday in England on the first business day following such date) after the earlier of:

(i) receipt of the notice by the Company as referred to in this sub-paragraph; or

(ii) receipt by the Company of notice of redemption under this sub-paragraph.

(e) The date upon which a convertible preference share is to be redeemed in accordance with the foregoing provisions of this paragraph 5 is hereinafter referred to as the **"Redemption Date"**.

(f) There shall be paid on each convertible preference share so redeemed the nominal amount paid up or credited as paid up thereon together with a sum equal to all arrears of the preferential dividend thereon to be calculated down to and including the Redemption Date on the footing that it continues to accrue from day to day down to that date and to be payable irrespective of whether or not such preferential dividend has been declared or earned.

(g) Upon the Redemption Date each of the holders of the convertible preference shares shall be bound to deliver to the Company at the Office the certificate(s) for the convertible preference shares held by him and upon such delivery the Company shall pay to such holder the amount due to him in respect of such redemption.

(h) As from the Redemption Date the preferential dividend shall cease to accrue on the convertible preference shares except on any such convertible preference share in respect of which, upon due presentation of the certificate relating thereto, payment of the money due at such redemption shall be refused in which case the preferential *dividend shall be deemed to have continued and shall continue to accrue from the* relevant Redemption Date to the date of payment.

(i) The receipt of the registered holder for the time being of any convertible preference shares or in the case of joint registered holders the receipt of any of them for the monies payable on redemption thereof shall constitute an absolute discharge to the Company in respect thereof.

(j) Subject to the provisions of the Act and the Listing Rules, the Company may at any time purchase convertible preference shares by tender (available alike to all holders of convertible preference shares) or by private treaty, in each case at a price (exclusive of all costs of purchase) which shall not exceed 110 per cent. of the nominal amount of a convertible preference share but not otherwise, and upon such other terms and conditions as it may think fit. The Company may exercise its rights and powers of purchase as regards the convertible preference shares at its sole discretion and without obligation to maintain the ratio between the nominal amounts for the time being outstanding of any series. No holder shall be obliged to sell any convertible preference shares held by it in such event.

(k) Upon the redemption of all outstanding convertible preference shares the directors may pursuant to the authority given by the adoption of this article convert and sub-divide the authorised but unissued preference share capital created as a consequence of such redemption into shares of any other class of share capital into which the authorised share capital of the Company is or may at that time be divided of a like nominal amount (as nearly as may be) as the shares of such class then in issue or into unclassified shares of the same nominal amount as the convertible preference shares.

(6) **Adjustments and Protections**

(a) If, whilst any convertible preference shares remain capable of being converted into ordinary shares, the Company shall make any issue of ordinary shares by way of capitalisation of profits or reserves (including any share premium account and capital redemption reserve) to holders of ordinary shares, then the number of ordinary shares to be issued on any subsequent conversion of convertible preference shares shall be increased pro rata to the increase in the aggregate number of ordinary shares in issue immediately prior to such issue. No adjustments shall be made in the event of the issue of shares by way of capitalisation of profits or reserves in lieu of ordinary cash dividends.

(b) If any offer or invitation by way of rights or otherwise (not being either an offer of shares by way of capitalisation of profits or reserves at the option of a holder of ordinary shares in lieu of ordinary cash dividends or an offer or invitation to which the provisions of sub-paragraph (7)(a)(ii) of this Article apply) is made to the holders of the ordinary share capital of the Company, the Company shall make or procure that there is made a like offer at the same time to each holder of convertible preference shares as if he held the number of ordinary shares which would result from the exercise in full immediately prior to the record date of such offer of the conversion rights attaching to the convertible preference shares held by such holder.

In the case of any offer or invitation as aforesaid being made the entitlement of the holders of the convertible preference shares shall be to the exclusion of any other right or entitlement to which such holders might otherwise be entitled.

(c) If whilst any convertible preference shares remain capable of being converted into ordinary shares, the ordinary shares shall be consolidated or sub-divided, the number of ordinary shares to be issued on any subsequent conversion of convertible preference shares shall be reduced or increased pro rata to the reduction or increase in the aggregate number of ordinary shares in issue immediately prior to such reduction or increase.

(d) If whilst any convertible preference shares remain capable of being converted into ordinary shares, the Company shall make any capital distribution to the holders of ordinary shares, the number of ordinary shares to be issued on any subsequent conversion of the convertible preference shares shall be increased by an amount determined to be appropriate by the Board acting reasonably and in good faith. For the purposes of this sub-paragraph (6)(d), "capital distribution" means:

(i) any distribution of assets in specie;

(ii) any dividend or other distribution of capital profits (whether realised or not) or capital reserves, or profits or reserves arising after the date of the passing in general meeting of the resolution creating the convertible preference shares from a distribution of capital profits (whether realised or not) or capital reserves by a subsidiary, except in either case by means of a capitalisation issue not contravening sub-paragraph (7)(a)(i) of this Article. For the purposes of this sub-paragraph (6)(d), insofar as the relevant audited accounts do not distinguish between capital and revenue profits or reserves, the Company shall be entitled to rely upon a determination by the Board (given in good faith and acting reasonably) as to the extent to which any part of any profit or reserve should be regarded as of a capital nature.

(e) Except in the event that arrangements are or have been offered to the holders of the convertible preference shares which ensure that the rights of such holders would not be prejudiced, the Company will procure that no scheme of compromise or arrangement within the meaning of section 425 of the Act affecting the ordinary shares shall become effective unless the holders of convertible preference shares shall be parties to the scheme and unless the scheme shall be approved by such holders in the manner prescribed by the said section.

(f) Except in pursuance of a scheme approved in accordance with sub-paragraph (6)(e) above or in accordance with sub-paragraph (6)(d), the Company shall not (prior to the day next following the final Conversion Date) give effect to any arrangement pursuant to which the Company is to make a distribution of the kind described in section 213 of the Income and Corporation Taxes Act 1988 whereby shares are to be issued or transferred to all or any of the ordinary shareholders unless it shall have given to the holders of convertible preference shares prior notice thereof, such notice to be given not less than 42 days prior to the proposed record date in respect of the entitlement of ordinary shareholders to receive the shares to be issued or transferred.

(7) **Other Provisions**

(a) So long as any convertible preference shares remain capable of being converted into ordinary shares then, save with the consent or sanction on the part of the holders of three quarters in nominal value of the convertible preference shares:

(i) no shares shall be allotted pursuant to a capitalisation of profits or reserves (including any share premium account or capital redemption reserve) except ordinary shares, credited as fully-paid, to the holders of ordinary shares and upon any allotment to the holders of ordinary shares the Conversion Rate shall be adjusted as appropriate under paragraph (6) of this Article;

(ii) no equity share capital (as defined by section 744 of the Act) shall be in issue which is not in all respects uniform with the ordinary shares of the Company in issue on the date of adoption of this Article, save:

(a) as to the date from which such capital shall rank for dividend; or

(b) for equity share capital issued in connection with or pursuant to any scheme approved by the Company in general meeting to staff and/or employees (including directors of the Company or its subsidiaries holding executive positions) or any such group thereof; or

(c) for equity share capital which has attached thereto rights as to dividend, capital or voting, which in no respect are more favourable than those attached to the ordinary shares in issue at the date of adoption of this Article; or

(d) for the convertible preference shares (and provided that no authorised convertible preference share capital remaining after the conversion or redemption of any such share shall be available for re-issue);

(iii) no resolution shall be passed whereby the rights attaching to the ordinary shares shall be modified, varied or abrogated;

(iv) the Company shall not (except as authorised by sections 146(2), 159, 160 or 162 of the Act in respect of redeemable shares or of shares purchased by it as hereinbefore mentioned) reduce its ordinary share capital or any uncalled liability in respect thereof or (except as authorised by sections 130(2), 160(2) and 170(4) of the Act) any share premium account or capital redemption reserve and the Company shall not purchase any of its own shares otherwise than pursuant to paragraphs (4) or (5) of this Article;

(v) the Company shall procure that at all times up to the last Conversion Date there shall be sufficient authorised but unissued ordinary share capital available for the purposes of converting any convertible preference shares pursuant to paragraph (4) of this article and the Company shall seek always to maintain authorities under Sections 80 and 89 of the Act (for the longest period permissible thereunder) sufficient to permit such conversion;

(vi) the Company shall not do any act or thing resulting in an adjustment to the Conversion Rate if in consequence such rate would involve the issue of ordinary shares at a discount to their par value;

(vii) the convertible preference shares shall not be consolidated or sub-divided save pursuant to the authority contained in the resolution adopting this article for the purposes of enabling conversion to be effected by means of consolidation and sub-division;

(viii) the Company shall not do any act or thing such that the aggregate of

(A) the number of ordinary shares which would result from the exercise in full of conversion rights attaching to the number of convertible preference shares held at that date by a single holder thereof; and

(B) the number of ordinary shares held at that date by such holder and which resulted from any previous exercise of conversion rights attaching to convertible preference shares;

shall be greater than 19.9 per cent. of the entire issued ordinary share capital of the Company at that time.

(b) If a resolution is passed or an Order of Court is made for the Company to be wound up, the Company shall forthwith give notice thereof in writing to all holders of convertible preference shares. Each holder of his convertible preference shares in respect of all or any of his convertible preference shares shall be entitled within six weeks after the date of the resolution to wind up the Company or (as the case may be) after the date of the Order of the Court for such winding-up (either of such dates being referred to in this sub-paragraph as the **"operative date"**) by notice in writing to the Company to elect to be treated as if his conversion rights had been exercised immediately before the operative date in accordance with paragraph (4) of this article but taking into account sub-paragraph 3(4)(o) of this Article as if such exercise took place within 30 days of the occurrence of a Relevant Event and in that event such holder shall be entitled to be paid in satisfaction of the amount due in respect of such of its convertible preference shares as are to be treated as if converted a sum equal to the amount to which such holder would have become entitled in such liquidation if it had been the holder of the ordinary shares to which such holder would have become entitled by virtue of such conversion (fractions being disregarded for this purpose).

(c) In the event that any convertible preference shares are transferred in consequence of a public offering to any party other than Royal Caribbean Cruises Ltd. or one of its subsidiary undertakings, upon registration of such transfer any convertible preference share so transferred shall automatically be redesignated as an "A" Convertible Preference Share having all the rights and entitlements attached to a convertible preference share and ranking pari passu with the convertible preference shares save that:

(i) the provisions of paragraphs (1)(B), (3)(a), (9)(b) and (9)(c)(ii) of this Article shall not apply and shall not attach to any "A" Convertible Preference Share;

(ii) the provisions of paragraph (3)(b) of this Article shall apply and attach to such "A" Convertible Preference Shares; and

(iii) the provisions of paragraphs (4)(o) and (5)(d) of this Article shall apply and attach to such "A" Convertible Preference Shares only where the Relevant Event

referred to therein shall be an event set out in one of sub-paragraphs (i), (iv) or (v) of the definition of "Relevant Event" in these Articles.

(d) So long as any convertible preference shares remain capable of being converted into ordinary shares, if any offer is made to all (or as nearly as may be practicable all) ordinary shareholders (or all (or as nearly as may be practicable all) ordinary shareholders other than the offeror and/or any associates of the offeror (as defined in section 430E(4) of the Act)) to acquire all or a majority of the issued ordinary share capital of the Company, or if any person proposes a scheme with regard to such acquisition, the Company shall give notice of such offer or scheme to the holders of convertible preference shares at the same time as any notice thereof is sent to its ordinary shareholders (or as soon as practicable thereafter) and enclose the same information about the offer or scheme as it provides to the ordinary shareholders.

(8) **Further issues of preference shares**

The Company may not, save with the consent or sanction of three quarters in nominal value of the holders of the convertible preference shares, create and issue further preference shares (herein called **"further preference shares"**) ranking as regards participation in the profits and assets of the Company either pari passu with or in priority to the convertible preference shares.

(9) **Withholding Tax etc**

(a) The preferential dividend and any sums payable in respect of the redemption of convertible preference shares shall be paid without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the United Kingdom or any political subdivision thereof or any authority thereof or therein having power to levy the same unless such withholding or deduction is required by law. In that event, the Company and the holders of the convertible preference shares shall comply with sub-paragraph (9)(b) of this Article and pending the taking of any such steps as are referred to therein, the Company shall pay by way of dividend such additional amounts as will result in the receipt by the holders of convertible preference shares of such net amounts as would have been received by them had no such withholding or deduction been required and provided that no such additional amounts will be payable where the holder is liable for such taxes, duties, assessments or governmental charges solely by reason of his having connection with the United Kingdom having nothing to do with the Company.

(b) In the circumstances referred to in sub-paragraph (9)(a) of this Article, the Company shall use all reasonable endeavours to amend or propose amendments to the terms of the convertible preference shares or other steps or measures so as to remedy the requirement to withhold or make any deductions. Following the giving of a notice by the Company to the holders of the convertible preference shares the Company and the holders of the convertible preference shares shall seek to identify and agree any steps the taking of which would mean that such withholding or deduction shall not be required. In the event that such agreement is reached it shall be recorded in writing between the Company and the relevant shareholders and thereafter implemented in accordance with its terms within 60 days of such notice to such holders.

(c) A Withholding Event (as referred to in sub-paragraph (5)(c)(iii)) shall occur in relation to a shareholder where:-

(i) with respect to that shareholder the Company would be obliged to pay additional amounts as referred to in sub-paragraph (9)(a) of this Article such additional amounts being in aggregate not less than 30 per cent. of the net amounts which would have been received by the holders of the convertible preference shares had no such withholding or deduction been required; and

(ii) within 90 days of a notice given by the Company under sub-paragraph (9)(b) of this Article, no such agreement has been recorded in writing or variation made as referred to in that paragraph;

but not earlier than 30 days prior to the earliest date on which the Company would be obliged to pay such additional amounts were a payment in respect of the convertible preference shares then due

(d) If:

(i) the Company pays to a holder of convertible preference shares any additional amounts as referred to in sub-paragraph (9)(a) of this Article; and

(ii) such holder of convertible preference shares has received or been granted a credit against or relief or remission from or repayment of any tax in respect of or calculated by reference to the payment of such additional amount or to the deduction or withholding which has given rise to such additional payment,

such holder of convertible preference shares shall pay to the Company, promptly on obtaining the same, the amount of the credit against or relief or remission from or repayment of tax up to a maximum of such amount as such holder of convertible preference shares certifies will leave it (after such payment) in no worse after-tax position than it would have been in had the relevant withholding or deduction never been required. This sub-paragraph shall not impose any obligation on a holder of convertible preference shares:

(A) to manage its tax or other affairs in any particular manner; or

(B) to disclose any information concerning its tax affairs to the Company or to any other person.

4. Subject to the provisions of the Act and without prejudice to any rights attached to any existing shares, any share may be issued with such rights or restrictions as the Company may by ordinary resolution determine (or, if the Company has not so determined, as the directors may determine).

5. Subject to the provisions of the Act, any share may be issued which is or is to be liable, to be redeemed at the option of the Company or a holder on such terms and in such manner as may be provided by these articles.

6. Subject to the provisions of the Act and these articles, the unissued shares in the Company shall be at the disposal of the directors, who may offer, allot, grant options over or otherwise dispose of them to such persons and on such terms as the directors think fit.

7. The Company may exercise the powers of paying commissions conferred by the Act. Subject to the provisions of the Act, any such commission may be satisfied by the payment of cash or by the allotment of fully or partly paid shares or partly in one way and partly in the other.

8. Except as required by law, no person shall be recognised by the Company as holding any share upon any trust and (except as otherwise provided by these articles or by law) the Company shall not be bound by or recognise any interest in any share except an absolute right to the entirety of it in the holder.

VARIATION OF RIGHTS

9. Subject to the provisions of the Act, if at any time the capital of the Company is divided into different classes of shares, the rights attached to any class may be varied, either while the Company is a going concern or during or in contemplation of a winding up:-

(a) in such manner (if any) as may be provided by those rights; or

(b) in the absence of any such provision, with the consent in writing of the holders of three-quarters in nominal value of the issued shares of that class (excluding any

shares of that class held as treasury shares), or with the sanction of an extraordinary resolution passed at a separate meeting of the holders of the shares of that class,

but not otherwise. To every such separate meeting the provisions of these articles relating to general meetings shall apply, except that the necessary quorum at any such meeting other than an adjourned meeting shall be two persons together holding or representing by proxy at least one-third in nominal value of the issued shares of the class in question (excluding any shares of that class held as treasury shares) and at an adjourned meeting shall be one person holding shares of the class in question (other than treasury shares) or his proxy.

10. Unless otherwise expressly provided by the rights attached to any shares, those rights:-

(a) shall be deemed to be varied by the reduction of the capital paid up on those shares and by the creation or issue of further shares ranking in priority for payment of a dividend or in respect of capital or which confer on the holders voting rights more favourable than those conferred by the first-mentioned shares;

(b) shall otherwise be deemed not to be varied by the creation or issue of further shares ranking pari passu with or subsequent to the first-mentioned shares; and

(c) shall be deemed not to be varied by the purchase by the Company of any of its own shares or the holding of such shares as treasury shares.

SHARE CERTIFICATES

11. (1) Subject to paragraph 2 of this article, every holder of shares (other than a recognised person in respect of whom the Company is not required by law to complete and have ready a certificate) shall be entitled without payment to one certificate for all the shares of each class held by him (and, upon transferring a part of his holding of shares of any class, to a certificate for the balance of that holding) or, upon payment for every certificate after the first of such reasonable sum as the directors may determine, to several certificates each for one or more of his shares. Every certificate shall be issued under the seal, or bearing an imprint or representation of the seal of such other form of authentication as the directors may determine, and shall specify the number, class and distinguishing numbers (if any) of the shares to which it relates and the amount or respective amounts paid up on them. The Company shall not be bound to issue more than one certificate for shares held jointly by several persons and delivery of a certificate to one joint holder shall be a sufficient delivery to all of them.

(2) Paragraph (1) of this article shall not apply in relation to shares in uncertificated form.

(3) If a share certificate is defaced, worn out, lost or destroyed, it may be renewed on such terms (if any) as to evidence and indemnity and payment of any exceptional expenses incurred by the Company in investigating evidence as the directors may determine but otherwise free of charge, and (in the case of defacement or wearing out) on delivery up of the old certificate.

LIEN

12. The Company shall have a first and paramount lien on every share (not being a fully paid share) for all amounts (whether presently payable or not) payable at a fixed time or called in respect of that share. The directors may declare any share to be wholly or in part exempt from the provisions of this article. The Company's lien on a share shall extend to all amounts payable in respect of it.

13. The Company may sell, in such manner as the directors determine, any share on which the Company has a lien if an amount in respect of which the lien exists is presently payable and is not paid within fourteen clear days after notice has been given to the holder of the share, or the person entitled to it in consequence of the death or bankruptcy of the holder, demanding payment and stating that if the notice is not complied with the shares may be sold.

14. To give effect to the sale the directors may, in the case of a share in certificated form, authorise some person to execute an instrument of transfer of the share sold to, or in accordance with the directions of, the purchaser; and, in the case of a share in uncertificated form, the directors may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer. The title of the transferee to the share shall not be affected by any irregularity in or invalidity of the proceedings in reference to the sale.

15. The net proceeds of the sale, after payment of the costs, shall be applied in payment of so much of the amount for which the lien exists as is presently payable, and any residue shall (upon surrender to the Company for cancellation of the certificate for the share sold, in the case of a share in certificated form, and subject to a like lien for any amount not presently payable as existed upon the share before the sale) be paid to the person entitled to the share at the date of the sale.

CALLS ON SHARES AND FORFEITURE

16. Subject to the terms of allotment, the directors may make calls upon the members in respect of any amounts unpaid on their shares (whether in respect of nominal value or premium) and each member shall (subject to receiving at least fourteen clear days' notice specifying when and where payment is to be made) pay to the Company as required by the notice the amount called on his shares. A call may be required to be paid by instalments. A call may, before receipt by the Company of an amount due under it, be revoked in whole or in part and payment of a call may be postponed in whole or part. A person upon whom a call is made shall remain liable for calls made upon him notwithstanding the subsequent transfer of the shares in respect of which the call was made.

17. A call shall be deemed to have been made at the time when the resolution of the directors authorising the call was passed.

18. The joint holders of a share shall be jointly and severally liable to pay all calls in respect of it.

19. If a call or an instalment of a call remains unpaid after it has become due and payable the person from whom it is due shall pay interest on the amount unpaid, from the day it became due and payable until it is paid at the rate fixed by the terms of allotment of the shares in question or in the notice of the call or, if no rate is fixed, at the appropriate rate (as defined by the Act) but the directors may waive payment of the interest wholly or in part.

20. An amount payable in respect of a share on allotment or at any fixed date, whether in respect of nominal value or premium or as an instalment of a call, shall be deemed to be a call and if it is not paid these articles shall apply as if that sum had become due and payable by virtue of a call.

21. Subject to the terms of allotment, the directors may differentiate between the holders in the amounts and times of payment of calls on their shares.

22. The directors may receive from any member willing to advance it all or any part of the amount unpaid on the shares held by him (beyond the sums actually called up) as a payment in advance of calls, and such payment shall, to the extent of it, extinguish the liability on the shares in respect of which it is advanced. The Company may pay interest on the amount so received, or so much of it as exceeds the sums called up on the shares in respect of which it has been received, at such rate (if any) as the member and the directors agree.

23. If a call or an instalment of a call remains unpaid after it has become due and payable the directors may give to the person from whom it is due not less than fourteen clear days' notice requiring payment of the amount unpaid together with any interest which may have accrued. The notice shall name the place where payment is to be made and shall state that if the notice is not complied with the shares in respect of which the call was made will be liable to be forfeited. If the notice is not complied with, any shares in respect of which it was given may, before the payment required by the notice has been made, be forfeited by a resolution of the directors and the forfeiture shall include all dividends and other amounts payable in respect of the forfeited shares and not paid before the forfeiture.

24. Subject to the provisions of the Act, a forfeited share may be sold, re-allotted or otherwise disposed of on such terms and in such manner as the directors determine either to the person who was before the forfeiture the holder or to any other person and, at any time before the disposition, the forfeiture may be cancelled on such terms as the directors determine. Where for the purposes of its disposal a forfeited share is to be transferred to any person, the directors may, in the case of a share in certificated form, authorise someone to execute an instrument of transfer and, in the case of a share in uncertificated form, the directors may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer of the share to that person.

25. A person any of whose shares have been forfeited shall cease to be a member in respect of them and shall surrender to the Company for cancellation any certificate for the shares forfeited but shall remain liable to the Company for all amounts which at the date of forfeiture were presently payable by him to the Company in respect of those shares with interest at the rate at which interest was payable on those amounts before the forfeiture or, if no interest was so payable, at the appropriate rate (as defined in the Act) from the date of forfeiture until payment, but the directors may waive payment wholly or in part or enforce payment without any allowance for the value of the shares at the time of forfeiture or for any consideration received on their disposal.

26. A statutory declaration by a director or the secretary that a share has been forfeited on a specified date shall be conclusive evidence of the facts stated in it as against all persons claiming to be entitled to the share and the declaration shall (subject to the execution of an instrument of transfer if necessary, in the case of a share in certificated form) constitute a good title to the share and the person to whom the share is disposed of shall not be bound to see to the application of the consideration, if any, nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings relating to the forfeiture or disposal of the share.

TRANSFER OF SHARES

27. The instrument of transfer of a share in certificated form may be in any usual form or in any other form which the directors approve and shall be executed by or on behalf of the transferor and, where the share is not fully paid, by or on behalf of the transferee.

28. (1) The directors may, in their absolute discretion and without giving any reason, refuse to register the transfer of a share in certificated form which is not fully paid. They may also refuse to register a transfer of a share in certificated form unless the instrument of transfer -

(a) is lodged, duly stamped, at the Office or at such other place as the directors may appoint and (except in the case of a transfer by a recognised person where a certificate has not been issued in respect of the share) is accompanied by the certificate for the share to which it relates and such other evidence as the directors may reasonably require to show the right of the transferor to make the transfer;

(b) is in respect of only one class of share; and

(c) is in favour of not more than four transferees.

(2) The directors may refuse to register a transfer of a share in uncertificated form in any case where the Company is entitled to refuse (or is excepted from the requirement) under the Uncertificated Securities Regulations to register the transfer; and they may refuse to register any such transfer in favour of more than four transferees.

29. If the directors refuse to register a transfer of a share, they shall within two months after the date on which the transfer was lodged with the Company (in the case of a share in certificated form) or the date on which the Operator - instruction was received by the Company (in the case of a share in uncertificated form) send to the transferee notice of the refusal.

30. Subject to the Uncertificated Securities Regulations, the registration of transfers of shares or of any class of shares may be suspended at such times and for such periods (not exceeding thirty days in any year) as the directors may determine.

31. No fee shall be charged for the registration of any instrument of transfer or other document or instruction relating to or affecting the title to any share.

32. The Company shall be entitled to retain any instrument of transfer which is registered, but any instrument of transfer which the directors refuse to register shall (except in the case of fraud) be returned to the person lodging it when notice of the refusal is given.

33. Nothing in these articles shall preclude the directors from recognising a renunciation of the allotment of any share by the allottee in favour of some other person.

TRANSMISSION OF SHARES

34. If a member dies the survivor or survivors where he was a joint holder, or his personal representatives where he was a sole holder or the only survivor of joint holders, shall be the only persons recognised by the Company as having any title to his interest; but nothing in this article shall release the estate of a deceased member from any liability in respect of any share which had been jointly held by him.

35. A person becoming entitled to a share in consequence of the death or bankruptcy of a member may, upon such evidence being produced as the directors may properly require, elect either to become the holder of the share or to have some person nominated by him registered as the transferee. If he elects to become the holder he shall give notice to the Company to that effect. If he elects to have another person registered he shall execute an instrument of transfer of the share to that person. All the provisions of these articles relating to the transfer of shares shall apply to the notice or instrument of transfer as if it were an instrument of transfer signed by the member and the death or bankruptcy of the member had not occurred.

36. A person becoming entitled to a share by reason of the death or bankruptcy of a member shall have the rights to which he would be entitled if he were the holder of the share, except that he shall not, before being registered as the holder of the share, be entitled in respect of it to attend or vote at any general meeting or at any separate meeting of the holders of any class of shares.

DISCLOSURE OF INTERESTS

37. (1) If a member, or any other person appearing to be interested in shares held by that member, has been given a notice under section 212 of the Act and has failed in relation to any shares (the **"default shares"**) to give the Company the information thereby required within fourteen days from the date of giving the notice, the following sanctions shall apply, unless the directors otherwise determine:-

(a) the member shall not be entitled in respect of the default shares to be present or to vote (either in person or by representative or proxy) at any general meeting or at any separate meeting of the holders of any class of shares or on any poll or to exercise any other right conferred by membership in relation to any such meeting or poll; and

(b) where the default shares represent at least 0.25 per cent of their class (calculated exclusive of treasury shares):-

(i) any dividend payable in respect of the shares shall be withheld by the Company, which shall not have any obligation to pay interest on it, and the member shall not be entitled to elect, pursuant to these articles, to receive shares instead of that dividend; and

(ii) no transfer, other than an excepted transfer, of any shares held by the member in certificated form shall be registered unless:-

(A) the member is not himself in default as regards supplying the information required; and

(B) the member proves to the satisfaction of the directors that no person in default as regards supplying such information is interested in any of the shares the subject of the transfer.

(2) Where the sanctions under paragraph (1) of this article apply in relation to any shares, they shall cease to have effect at the end of the period of seven days (or such shorter period as the directors may determine) following the earlier of:

(a) receipt by the Company of the information required by the notice mentioned in that paragraph; and

(b) receipt by the Company of notice that the shares have been transferred by means of an excepted transfer,

and the directors may suspend or cancel any of the sanctions at any time in relation to any shares.

(3) Any new shares in the Company issued in right of default shares shall be subject to the same sanctions as apply to the default shares, and the directors may make any right to an allotment of the new shares subject to sanctions corresponding to those which will apply to those shares on issue: provided that any sanctions applying to, or to a right to, new shares by virtue of this paragraph shall cease to have effect when the sanctions applying to the related default shares cease to have effect (and shall be suspended or cancelled if and to the extent that the sanctions applying to the related default shares are suspended or cancelled); and provided further that paragraph (1) of this article shall apply to the exclusion of this paragraph if the Company gives a separate notice under section 212 of the Act in relation to the new shares.

(4) Where, on the basis of information obtained from a member in respect of any share held by him, the Company gives a notice under section 212 of the Act to any other person, it shall at the same time send a copy of the notice to the member, but the accidental omission to do so, or the non-receipt by the member of the copy, shall not invalidate or otherwise affect the application of paragraph (1) of this article.

(5) For the purposes of this article:-

(a) a person, other than the member holding a share, shall be treated as appearing to be interested in that share if the member has informed the Company that the person is, or may be, so interested, or if the Company (after taking account of any information obtained from the member or, pursuant to a notice under section 212 of the Act, from anyone else) knows or has reasonable cause to believe that the person is, or may be, so interested;

(b) "interested" shall be construed as it is for the purpose of section 212 of the Act;

(c) reference to a person having failed to give the Company the information required by a notice, or being in default as regards supplying such information, includes (i) reference to his having failed or refused to give all or any part of it and (ii) reference to his having given information which he knows to be false in a material particular or having recklessly given information which is false in a material particular;

(d) an " excepted transfer" means, in relation to any shares held by a member:-

(i) a transfer pursuant to acceptance of a take over offer (within the meaning in Part XIII A of the Act) in respect of shares in the Company);or

(ii) a transfer in consequence of a sale made through a recognised investment exchange (as defined in the Financial Services Act 1986) or any other stock exchange outside the United Kingdom on which the Company's shares are normally traded; or

(iii) a transfer which is shown to the satisfaction of the directors to be made in consequence of a sale of the whole of the beneficial interest in the shares to a person who is unconnected with the member and with any other person appearing to be interested in the shares.

(6) Nothing in this article shall limit the powers of the Company under section 216 of the Act or any other powers of the Company whatsoever.

UNTRACED MEMBERS

38. (1) The Company shall be entitled to sell at the best price reasonably obtainable any share held by a member, or any share to which a person is entitled by transmission, if:-

(a) for a period of 12 years no cheque or warrant for amounts payable in respect of the share sent and payable in a manner authorised by these articles has been cashed and no communication has been received by the Company from the member or person concerned;

(b) during that period at least three dividends in respect of the share have become payable;

(c) the Company has, after the expiration of that period, by advertisement in a national newspaper published in the United Kingdom and in a newspaper circulating in the area of the registered address or last known address of the member or person concerned, given notice of its intention to sell such share, and has informed the Stock Exchange of that intention; and

(d) the Company has not during the further period of three months after the date of the advertisement and prior to the sale of the share received any communication from the member or person concerned.

(2) The Company shall also be entitled to sell at the best price reasonably obtainable any additional share issued during the said period of twelve years in right of any share to which paragraph (1) of this article applies (or in right of any share so issued), if the criteria in sub-paragraphs (a), (c) and (d) of that paragraph are satisfied in relation to the additional share (but as if the words "for a period of twelve years" were omitted from sub-paragraph (a) and the words ", after the expiration of that period," were omitted from sub-paragraph (c)).

(3) To give effect to the sale of any share pursuant to this article the Company may, in the case of a share in certificated form, authorise any person to execute an instrument of transfer of the share sold to, or in accordance with the directions of the purchaser; and in the case of a share in uncertificated form, the Company may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as it thinks fit to effect the transfer. The purchaser shall not be bound to see to the application of the proceeds of sale, nor shall his title to the share be affected by any irregularity in or invalidity of the proceedings relating to the sale. The Company shall be indebted to the member or other person entitled to the share for an amount equal to the net proceeds of the sale, but no trust or duty to account shall arise and no interest shall be payable in respect of the proceeds of sale.

ALTERATION OF CAPITAL

39. The Company may by ordinary resolution:-

(a) increase its share capital by new shares of such amount as the resolution prescribes;

(b) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;

(c) subject to the provisions of the Act, sub-divide its shares, or any of them, into shares of smaller amount that is fixed by the memorandum;

(d) determine that, as between the shares resulting from such a sub-division, any of them may have any preference or advantage as compared with the others; and

(e) cancel shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person, and diminish the amount of its share capital by the amount of the shares so cancelled.

40. Whenever as a result of a consolidation of shares any members would become entitled to fractions of a share, the directors may on behalf of those members sell to any person (including, subject to the provisions of the Act, the Company) the shares representing the fractions for the best price reasonably obtainable and distribute the net proceeds of sale in due proportion among those members, and the directors may in, the case of shares in certificated form authorise some person to execute an instrument of transfer of the shares to or in accordance with the directions of the purchaser; and, in the case of shares in uncertificated form, the directors may take such other steps (including the giving of directions to or on behalf of the holder, who shall be bound by them) as they think fit to effect the transfer. The transferee shall not be bound to see to the application of the purchase money nor shall his title to the shares be affected by any irregularity in or invalidity of the proceedings in reference to the sale.

41. Subject to the provisions of the Act, the Company may by special resolution reduce its share capital, any capital redemption reserve and any share premium account, in any way.

PURCHASE OF OWN SHARES

42. Subject to the provisions of the Act, the Company may purchase its own shares, including redeemable shares, and may hold such shares as treasury shares or cancel them, but, subject to article 3, not unless the purchase has been sanctioned by an extraordinary resolution passed at a separate meeting of the holders of any class of convertible shares in the Company.

GENERAL MEETINGS

43. All general meetings other than annual general meetings shall be called extraordinary general meetings.

44. The directors may call general meetings. If there are not within the United Kingdom sufficient directors to call a general meeting, any director or, if there is no director within the United Kingdom, any member of the Company may call a general meeting.

NOTICE OF GENERAL MEETINGS

45. Subject to the provisions of the Act, an annual general meeting and an extraordinary general meeting called for the passing of a special resolution shall be called by at least twenty-one clear days' notice, and all other extraordinary general meetings shall be called by at least fourteen clear days' notice. The notice shall specify the place, the day and the time of meeting and the general nature of the business to be transacted, and in the case of an annual general meeting shall specify the meeting as such. Subject to the provisions of these articles and to any rights or restrictions attached to any shares, notices shall be given to all members, to all persons entitled to a share in consequence of the death or bankruptcy of a member and to the directors and auditors of the Company.

46. The accidental omission to give notice of a meeting to, or the non-receipt of notice of a meeting by, any person entitled to receive notice shall not invalidate the proceedings at that meeting.

PROCEEDINGS AT GENERAL MEETINGS

47. No business shall be transacted at any meeting unless a quorum is present. Two persons entitled to vote upon the business to be transacted, each being a member or a proxy for a member or a duly authorised representative of a corporation which is a member, shall be a quorum.

48. If a quorum is not present within half an hour after the time appointed for holding the meeting, or if during a meeting a quorum ceases to be present, the meeting shall stand adjourned to the same day in the next week at the same time and place, or to such day, time and place as the directors may determine. If at the adjourned meeting a quorum is not present within fifteen minutes after the time appointed for holding the meeting, the meeting shall be dissolved.

49. The chairman (if any) of the board of directors, or in his absence the deputy-chairman, or in the absence of both of them some other director nominated by the directors, shall preside as chairman of the meeting, but if neither the chairman nor the deputy-chairman nor such other director (if any) is present within fifteen minutes after the time appointed for holding the meeting and willing to act, the directors present shall elect one of their number present to be chairman and, if there is only one director present and willing to act, he shall be chairman.

50. If no director is willing to act as chairman, or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present and entitled to vote shall choose one of their number to be chairman.

51. A director shall, notwithstanding that he is not a member, be entitled to attend and speak at any general meeting and at any separate meeting of the holders of any class of shares.

52. Without prejudice to any other power of adjournment he may have under these articles or at common law, the chairman may, with the consent of a meeting at which a quorum is present (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place, but no business shall be transacted at an adjourned meeting other than business which might properly have been transacted at the meeting had the adjournment not taken place. When a meeting is adjourned for fourteen days or more, at least seven clear days' notice shall be given specifying the time and place of the adjourned meeting and the general nature of the business to be transacted. Otherwise it shall not be necessary to give notice of an adjournment.

53. If an amendment proposed to any resolution under consideration is ruled out of order by the chairman, the proceedings on the resolution shall not be invalidated by any error in the ruling.

54. A resolution put to the vote of a meeting (excluding any voting rights attached to any shares in the Company held as treasury shares) shall be decided on a show of hands unless before, or on the declaration of the result of, the show of hands a poll is duly demanded. Subject to the provisions of the Act, a poll may be demanded:-

    (a) by a chairman; or

    (b) by not less than five members having the right to vote at the meeting; or

    (c) by a member or members representing not less than one-tenth of the total voting rights of all the members having the right to vote at the meeting (excluding any voting rights attached to any shares in the Company held as treasury shares); or

    (d) by a member or members holding shares conferring a right to vote on the resolution on which an aggregate sum has been paid up equal to not less than one-tenth of the total sum paid up on all the shares conferring that right (excluding any shares in the Company conferring a right to vote at the meeting which are held as treasury shares).

55. Unless a poll is duly demanded, a declaration by the chairman that a resolution has been carried or carried unanimously, or by a particular majority, or lost, or not carried by a particular majority, and an entry to that effect in the minutes of the meeting, shall be conclusive evidence

of the fact without proof of the number or proportion of the votes recorded in favour of or against the resolution.

56. The demand for a poll may, before the poll is taken, be withdrawn but only with the consent of the chairman, and a demand so withdrawn shall not be taken to have invalidated the result of a show of hands declared before the demand was made.

57. A poll shall be taken as the chairman directs, and he may appoint scrutineers (who need not be members) and fix a time and place for declaring the result of the poll. The result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded.

58. In the case of any equality of votes, whether on a show of hands or on a poll, the chairman shall be entitled to a casting vote in addition to any other vote he may have.

59. A poll demanded on the election of a chairman or on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken either forthwith or at such time and place as the chairman directs, not being more than thirty days after the poll is demanded. The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll was demanded. If a poll is demanded before the declaration of the result of a show of hands and the demand is duly withdrawn, the meeting shall continue as if the demand had not been made.

60. No notice need be given of a poll not taken forthwith if the time and place at which it is to be taken are announced at the meeting in respect of which it is demanded. In any other case, at least seven clear days' notice shall be given specifying the time and place at which the poll is to be taken.

VOTES OF MEMBERS

61. Subject to any rights or restrictions attached to any shares and to the provisions of the Act, on a show of hands every member who (being an individual) is present in person or (being a corporation) is present by a duly authorised representative who is not himself a member entitled to vote, shall have one vote, and on a poll every member shall have one vote for every share of which he is the holder.

62. In the case of joint holders the vote of the senior who tenders a vote shall be accepted to the exclusion of the votes of the other joint holders, and seniority shall be determined by the order in which the names of the holders stand in the register of members.

63. A member in respect of whom an order has been made by any court having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder may vote, on a show of hands or on a poll, by any person authorised in that behalf by that court, who may on a poll vote by proxy. Evidence to the satisfaction of the directors of the authority of the person claiming the right to vote shall be deposited at the Office, or at such other place as is specified in accordance with these articles for the deposit of instruments of proxy, not less than 48 hours before the time appointed for holding the meeting or adjourned meeting at which the right to vote is to be exercised, and in default the right to vote shall not be exercisable.

64. No member shall have the right to vote at any general meeting or at any separate meeting of the holders of any class of shares, either in person or by representative or proxy, in respect of any share held by him unless all amounts presently payable by him in respect of that share have been paid.

65. No objection shall be raised to the qualification of any voter or to the counting of, or failure to count, any vote, except at the meeting or adjourned meeting at which the vote objected to is tendered. Subject to any objection made in due time, every vote counted and not disallowed at the meeting shall be valid and every vote disallowed or not counted shall be invalid. Any objection made in due time shall be referred to the chairman whose decision shall be final and conclusive.

66. On a poll votes may be given either personally or by proxy or (in the case of a corporate member) by a duly authorised representative. A member entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses the same way. A proxy need not be a member.

67. An instrument appointing a proxy shall be in writing in any usual form or in any other form which the directors may approve and shall be executed by or on behalf of the appointor. A corporation may execute a form of proxy either under its common seal or under the hand of a duly authorised officer. A member may appoint more than one proxy to attend on the same occasion. Deposit of an instrument of proxy shall not preclude a member from attending and voting at the meeting or at any adjournment of it.

68. The instrument appointing a proxy and any authority under which it is executed or a copy of the authority certified notarially or in some other way approved by the directors may:-

(a) be deposited at the Office or at such other place in the United Kingdom as is specified in the notice convening the meeting, or in any instrument of proxy sent out by the Company in relation to the meeting, not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote; or

(b) in the case of a poll taken more than 48 hours after it was demanded, be deposited as aforesaid after the poll has been demanded and not less than 24 hours before the time appointed for taking the poll; or

(c) where the poll is not taken forthwith but is taken not more than 48 hours after it was demanded, be delivered at the meeting to the chairman or to the secretary or to any director;

and an instrument of proxy which is not deposited or delivered in a manner so permitted shall be invalid.

69. A vote given or poll demanded by proxy or by the duly authorised representative of a corporation shall be valid notwithstanding the previous determination of the authority of the person voting or demanding a poll, unless notice of the determination was received by the Company at the Office, or at such other place at which the instrument of proxy was duly deposited, before the commencement of the meeting or adjourned meeting at which the vote is given or the poll demanded or (in the case of a poll not taken on the same day as the meeting or adjourned meeting) the time appointed for taking the poll.

70. The instrument appointing a proxy to vote at a meeting shall be deemed also to confer authority to demand or join in demanding a poll (and for the purposes of these articles a demand for a poll made by a person as proxy for a member or as the duly authorised representative of a corporate member shall be the same as a demand made by the member).

71. The directors may at the expense of the Company send instruments of proxy to the members by post or otherwise (with or without provision for their return prepaid) for use at any general meeting or at any separate meeting of the holders of any class of shares, either in blank or nominating in the alternative any one or more of the directors or any other person. If for the purpose of any meeting invitations to appoint as proxy a person or one of a number of persons specified in the invitations are issued at the Company's expense, they shall be issued to all (and not to some only) of the members entitled to be sent a notice of the meeting and to vote at it. The accidental omission to send such an instrument or give such an invitation to, or the non-receipt thereof by, any member entitled to attend and vote at a meeting shall not invalidate the proceedings of that meeting.

CORPORATIONS ACTING BY REPRESENTATIVES

72. Any corporation which is a member of the Company may, by resolution of its directors or other governing body, authorise such person as it thinks fit to act as its representative at any meeting of the Company, or at any separate meeting of the holders of any class of shares. Except as otherwise provided in these articles, the person so authorised shall be entitled to

exercise the same power on behalf of the corporation as the corporation could exercise if it were an individual member of the Company, and the corporation shall for the purposes of these articles be deemed to be present in person at any such meeting if a person so authorised is present at it.

DIRECTORS

73. Unless otherwise determined by the Company by ordinary resolution the number of directors (other than alternate directors) shall not be less than two nor more than twelve.

74. A director shall not require a share qualification.

75. (1) Until otherwise determined by the Company by ordinary resolution, there shall be paid to the directors (other than alternate directors) such fees for their services in the office of director as the directors may determine (not exceeding in the aggregate an annual sum of £500,000 or such larger amount as the Company may by ordinary resolution decide) divided between the directors as they may determine, or, failing such determination, equally. The fees shall be deemed to accrue from day to day and shall be distinct from and additional to any remuneration or other benefits which may be paid or provided to any director pursuant to any other provision of these articles.

(2) The directors may also be paid all travelling, hotel and other expenses properly incurred by them in connection with their attendance at meetings of the directors or of committees of the directors or general meetings or separate meetings of the holders of any class of shares or otherwise in connection with the discharge of their duties as directors.

(3) Any director who performs, or undertakes to perform, services which the directors consider go beyond the ordinary duties of a director may be paid such special remuneration (whether by way of fixed sum, bonus, commission, participation in profits or otherwise) as the directors may determine.

ALTERNATE DIRECTORS

76. Any director (other than an alternate director) may appoint any other director, or any other person approved by resolution of the directors and willing to act, to be an alternate director and may remove from office an alternate director appointed by him.

77. An alternate director shall (unless he is absent from the United Kingdom) be entitled to receive notices of meetings of the directors and of committees of the directors of which his appointor is a member, to attend and vote at any such meeting at which the director appointing him is not present, and generally to perform all the functions of his appointor as a director in his absence, but shall not (unless the Company by ordinary resolution otherwise determines) be entitled to any fees for his services as an alternate director.

78. An alternate director shall cease to be an alternate director if his appointor ceases to be a director; but, if a director retires by rotation or otherwise but is reappointed or deemed to have been re-appointed at the meeting at which he retires, any appointment of an alternate director made by him which was in force immediately prior to his retirement shall continue after his reappointment.

79. An appointment or removal of an alternate director shall be by notice to the Company executed by the director making or revoking the appointment or in the other manner approved by the directors.

80. Save as otherwise provided in these articles, an alternate director shall be deemed for all purposes to be a director and shall alone be responsible for his own acts and defaults, and he shall not be deemed to be the agent of the director appointing him.

POWERS OF DIRECTORS

81. The business of the Company shall be managed by the directors who, subject to the provisions of the Act, the memorandum and these articles and to any directions given by special resolution, may exercise all the powers of the Company. No alteration of the memorandum or these articles and no such direction shall invalidate any prior act of the directors which would have been valid if that alteration had not been made or that direction had not been given. The powers given by this article shall not be limited by any special power given to the directors by these articles and a meeting of the directors at which a quorum is present may exercise all powers exercisable by the directors.

82. (1) The directors shall restrict the borrowings of the Company and exercise all powers of control exercisable by the Company in relation to its subsidiary undertakings so as to secure (as regards subsidiary undertakings so far as by such exercise they can secure) that the aggregate principal amount (including any premium payable on final repayment) outstanding of all money borrowed by the Group (excluding amounts borrowed by any member of the Group from any other member of the Group, other than amounts to be taken into account under paragraph (3)(c) and (d) of this article) shall not at any time, save with the previous sanction of an ordinary resolution of the Company, exceed an amount equal to four times the aggregate of:-

(a) the amount paid up on the share capital of the Company; and

(b) the total of the capital and revenue reserves of the Group, including any share premium account, capital redemption reserve and credit balance on the profit and loss account, but excluding sums set aside for taxation and amounts attributable to outside shareholders in subsidiary undertakings of the Company and deducting any debit balance on the profit and loss account, all as shown in the then latest audited consolidated balance sheet and profit and loss account of the Group, but adjusted as may be necessary in respect of any variation in the paid up share capital or share premium account of the Company since the date of that balance sheet and further adjusted as may be necessary to reflect any change since that date in the companies comprising the Group.

(2) In this article:-

(a) "the Group" means the Company and its subsidiary undertakings (if any); and

(b) "subsidiary undertaking" has the same meaning as in the Act.

(3) For the purposes of this article, but without prejudice to the generality of the terms "borrowing" and "borrowed":-

(a) amounts borrowed for the purposes of repaying the whole or any part of any amounts previously borrowed and then outstanding (including any premium payable on final repayment) and to be applied for that purpose within six months of the borrowing shall not, pending such application, be taken into account as money borrowed;

(b) the principal amount (including any premium payable on final repayment) of any debentures issued in whole or in part for a consideration other than cash shall be taken into account as money borrowed by the member of the Group issuing them;

(c) money borrowed by a partly owned subsidiary undertaking and not owing to another member of the Group shall (notwithstanding sub-paragraph (b) of this paragraph) be taken into account subject to the exclusion of a proportion of it equal to the minority proportion, and money borrowed and owing to a partly owned subsidiary undertaking by another member of the Group shall (subject to sub-paragraph (d) of this paragraph) be taken into account to the extent of a proportion of it equal to the minority proportion (and for the purpose of this

sub-paragraph "minority proportion" means the proportion of the issued equity share capital of the partly owned subsidiary undertaking which is not attributable, directly or indirectly, to the Company); and

(d) in the case of money borrowed and owing to a partly owned subsidiary undertaking by another partly owned subsidiary undertaking the proportion which would otherwise be taken into account under sub-paragraph (c) of this paragraph shall be reduced by excluding such part of it as is equal to the proportion of the issued equity share capital of the borrowing subsidiary undertaking which is not attributable, directly or indirectly, to the Company.

(4) In calculating the aggregate amount of borrowings for the purpose of this article, money borrowed by any member of the Group which is denominated or repayable in a currency other than sterling shall be treated as converted into sterling:-

(a) at the rate of exchange used for the conversion of that currency in the latest audited balance sheet of that member; or

(b) if no rate was so used, at the middle market rate of exchange prevailing in London at the close of business on the date of that balance sheet, but if the amount in sterling resulting from conversion at that rate would be greater than that resulting from conversion at the middle market rate prevailing in London at the close of business on the business day immediately preceding the day on which the calculation falls to be made, the latter rate shall apply instead;

(5) No debt incurred or security given in respect of money borrowed or to be taken into account as money borrowed in excess of the above limit shall be invalid or ineffectual except in the case of express notice to the lender or the recipient of the security at the time when the debt was incurred or security given that the limit hereby imposed had been or was thereby exceeded, but no lender or other person dealing with the Company shall be concerned to see or enquire whether such limit is observed.

(6) In this article references to a consolidated balance sheet and profit and loss account of the Group are to be taken -

(a) in a case where the Company had no subsidiary undertakings at the relevant time, as references to the balance sheet and profit and loss account of the Company;

(b) in a case where the Company had subsidiary undertakings at the relevant time but there are no consolidated accounts of the Group, as references to the respective balance sheets and profit and loss accounts of the companies comprising the Group; and

(c) in a case where the Company had subsidiary undertakings at the relevant time, one or more of which has, in accordance with the Act, been excluded from consolidation as references to the consolidated balance sheet and profit and loss account of the Company and those of its subsidiary undertakings included in the consolidation.

DELEGATION OF DIRECTORS' POWERS

83. (1) The directors may delegate any of their powers:-

(a) to any managing director, any director holding any other executive office or any other director;

(b) to any committee consisting of one or more directors and (if thought fit) one or more other persons; and

(c) to any local board or agency for managing any of the affairs of the Company either in the United Kingdom or elsewhere.

(2) Any such delegation (which may include authority to sub-delegate all or any of the powers delegated) may be subject to any conditions the directors impose and either collaterally with or to the exclusion of their own powers and may be revoked or varied. The power to delegate under this article, being without limitation, includes the power to delegate the determination of any fee, remuneration or other benefit which may be paid or provided to any director and the scope of the power to delegate under sub-paragraph (a), (b) or (c) of paragraph (1) of this article shall not be restricted by reference to or inference from any other of those sub-paragraphs. Subject as aforesaid, the proceedings of any committee, local board or agency with two or more members shall be governed by such of these articles as regulate the proceedings of directors so far as they are capable of applying.

84. The directors may, by power of attorney or otherwise, appoint any person, whether nominated directly or indirectly by the directors, to be the agent of the Company for such purposes and subject to such conditions as they think fit, and may delegate any of their powers to such an agent. The directors may revoke or vary any such appointment or delegation and may also authorise the agent to sub-delegate all or any of the powers vested in him.

APPOINTMENT AND RETIREMENT OF DIRECTORS

85. At the annual general meeting in every year one-third of the directors who are subject to retirement by rotation or, if their number is not three or a multiple of three, the number nearest to one-third, shall retire from office; but, if there is only one director who is subject to retirement by rotation, he shall retire.

86. Subject to the provision of the Act and to the following provisions of these articles, the directors to retire by rotation shall be those who have been longest in office since their last appointment or reappointment, but as between persons who become or were last reappointed directors on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot. Notwithstanding the foregoing, each Director shall retire from office no later than the third Annual General Meeting following the Annual General Meeting of appointment or reappointment.

87. If the Company, at the meeting at which a director retires by rotation, does not fill the vacancy the retiring director shall, if willing to act, be deemed to have been reappointed unless at the meeting it is resolved not to fill the vacancy or a resolution for the reappointment of the director is put to the meeting and lost.

88. No person other than a director retiring by rotation shall be appointed or re-appointed a director at any general meeting unless:-

(a) he is recommended by the directors; or

(b) not less than seven nor more than thirty five days before the date appointed for holding the meeting, notice executed by a member qualified to vote on the appointment or reappointment has been given to the Company of the intention to propose that person for appointment or reappointment, stating the particulars which would, if he were appointed or reappointed, be required to be included in the Company's register of directors, together with notice executed by that person of his willingness to be appointed or reappointed.

89. At a general meeting a motion for the appointment of two or more persons as directors by a single resolution shall not be made, unless a resolution that it shall be so made has been first agreed to by the meeting without any vote being given against it, and for the purposes of this article a motion for approving a person's appointment or for nominating a person for appointment shall be treated as a motion for his appointment.

90. Subject as aforesaid, the Company may by ordinary resolution appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, and may also determine the rotation in which any additional directors are to retire.

91. The directors may appoint a person who is willing to act to be a director, either to fill a vacancy or as an additional director, provided that the appointment does not cause the number of directors to exceed any number fixed as the maximum number of directors. A director so appointed shall retire at the next following annual general meeting and shall not be taken into account in determining the directors who are to retire by rotation at the meeting.

92. Subject as aforesaid, a director who retires at an annual general meeting may be reappointed. If he is not reappointed or deemed to have been reappointed, he shall retain office until the meeting appoints someone in his place or, if it does not do so, until the end of the meeting.

DISQUALIFICATION AND REMOVAL OF DIRECTORS

93. Without prejudice to the provisions of the Act, the Company may, by ordinary resolution, remove a director before the expiration of his period of office (but such removal shall be without prejudice to any claim to damages for breach of any contract of service between the director and the Company) and, subject to these articles, may, by ordinary resolution, appoint another person instead of him. A person so appointed shall be subject to retirement at the same time as if he had become a director on the day on which the director in whose place he is appointed was last appointed or reappointed a director.

94. The office of a director shall be vacated if:-

(a) he ceases to be a director by virtue of any provision of the Act or he becomes prohibited by law from being a director; or

(b) he becomes bankrupt or makes any arrangement or composition with his creditors generally; or

(c) he is, or may be, suffering from mental disorder and either:-

(i) he is admitted to hospital in pursuance of an application for admission for treatment under the Mental Health Act 1983 or, in Scotland, an application for admission under the Mental Health (Scotland) Act 1984; or

(ii) an order is made by a court having jurisdiction (whether in the United Kingdom or elsewhere) in matters concerning mental disorder for his detention or for the appointment of any person to exercise powers with respect to his property or affairs; or

(d) he resigns his office by notice in writing to the Company; or

(e) in the case of a director who holds any executive office, his appointment as such is terminated or expires and the directors resolve that his office be vacated; or

(f) he is absent for more than six consecutive months without permission of the directors from meetings of the directors held during that period and the directors resolve that his office be vacated; or

(g) he is requested in writing by all the other directors to resign.

95. No person shall be disqualified from being appointed or reappointed as a director and no director shall be requested to vacate that office by reason of his attaining the age of seventy or any other age; nor shall it be necessary by reason of his age to give special notice under the Act of any resolution appointing, reappointing or approving the appointment of a director. Where a general meeting is convened at which a director will be proposed for appointment or reappointment who, to the knowledge of the directors, will be seventy or more at the date of the meeting, the directors shall give notice of his age in the notice covering the meeting or in any document sent with it; but the accidental omission to do so shall not invalidate any proceedings at the meeting or any appointment or reappointment of the director concerned.

DIRECTORS' APPOINTMENTS AND INTERESTS

96. The directors may appoint one or more of their number to the office of managing director or to any other executive office under the Company and, subject to the provisions of the Act, any such appointment may be made for such term, at such remuneration and on such other conditions as the directors think fit. Any appointment of a director to an executive office shall terminate if he ceases to be a director but without prejudice to any claim to damages for breach of the contract of service between the director and the Company.

97. (1) Subject to the provisions of the Act, and provided that he has disclosed to the directors the nature and extent of any material interest of his, a director notwithstanding his office:-

(a) may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is otherwise interested;

(b) may be a director or other officer of, or employed by, or a party to any transaction or arrangement with, or otherwise interest in, any body corporate promoted by the Company or in which the Company is otherwise interested; and

(c) shall not, by reason of his office, be accountable to the Company for any benefit which he derives from any such office or employment or from any such transaction or arrangement or from any interest in any such body corporate;

and no such transaction or arrangement shall be liable to be avoided on the ground of any such interest or benefit.

(2) For the purposes of this article:-

(a) a general notice given to the directors that a director is to be regarded as having an interest of the nature and extent specified in the notice in any transaction or arrangement in which a specified person or class of persons is interested shall be deemed to be a disclosure that the director has an interest in any such transaction of the nature and extent so specified; and

(b) an interest of which a director has no knowledge and of which it is unreasonable to expect him to have knowledge shall not be treated as an interest of his.

DIRECTORS' GRATUITIES AND PENSIONS

98. The directors may establish and maintain, or procure the establishment and maintenance of, any pension or superannuation funds (whether contributory or otherwise) for the benefit of, and give or procure the giving of pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit to, any persons who are or were at any time in the employment or service of the Company, or of any company which is a subsidiary of the Company or is allied to or associated with the Company or any such subsidiary or of any of the predecessors in business of the Company or any such other company as aforesaid, or who may be or have been directors or officers of the Company or of any such other companies as aforesaid and who hold or have held executive positions or agreements for service with the Company or any such other companies as aforesaid, and the spouses, former spouses, families and dependants of any such persons, and also establish, subsidise and subscribe to any institutions, associations, societies, clubs or funds calculated to be for the benefit of, or to advance the interests and well being of, the Company or of any such other company as aforesaid, or of any such persons as aforesaid, and make payments for or towards the insurance of any such person as aforesaid and subscribe or guarantee money for charitable or benevolent objects, or for any exhibition or for any public, general or useful object, and do any of the matters aforesaid either alone or in conjunction with any such other company as

aforesaid. Subject to particulars with respect to the proposed payment being disclosed to the members of the Company and to the proposal being approved by the Company by ordinary resolution, if the Act shall so require, any director who holds or has held any such executive position or agreement for services shall be entitled to participate in and retain for his own benefit any such pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation.

PROCEEDINGS OF DIRECTORS

99. (1) Subject to the provisions of these articles, the directors may regulate their proceedings as they think fit.

(2) A director may, and the secretary at the request of a director shall, call a meeting of the directors. Subject to paragraph (3) of this article, it shall not be necessary to give notice of a meeting to a director who is absent from the United Kingdom.

(3) If a director notifies the Company in writing of an address in the United Kingdom at which notice of meetings of the directors is to be given to him when he is absent from the United Kingdom, he shall, if so absent, be entitled to have notice given to him at that address; but the Company shall not be obliged by virtue of this paragraph to give any director a longer period of notice than he would have been entitled to had he been present in the United Kingdom at that address.

(4) Questions arising at a meeting shall be decided by a majority of votes. In case of an equality of votes, the chairman shall have a second or casting vote. A director who is also an alternate director shall be entitled in the absence of his appointor to a separate vote on behalf of his appointor in addition to his own vote; and an alternate director who is appointed by two or more directors shall be entitled to a separate vote on behalf of each of his appointors in the appointor's absence.

100. No business shall be transacted at any meeting of the directors unless a quorum is present. The quorum may be fixed by the directors and unless so fixed at any other number shall be two. An alternate director who is not himself a director shall, if his appointor is not present, be counted in the quorum.

101. The continuing directors or a sole continuing director may act notwithstanding any vacancies in their number, but, if the number of directors is less than the number fixed as the quorum, the continuing directors or director may act only for the purpose of filling vacancies or of calling a general meeting.

102. The directors may elect from their number, and remove, a chairman and a deputy-chairman of the board of directors. The chairman, or in his absence the deputy-chairman, shall preside at all meetings of the directors, but if there is no chairman or deputy-chairman or if at the meeting neither the chairman nor the deputy-chairman is present within five minutes after the time appointed for the meeting, or if neither of them is willing to act as chairman, the directors present may choose one of their number to be chairman of the meeting.

103. All acts done by a meeting of the directors, or of a committee of the directors, or by a person acting as a director, shall notwithstanding that it may afterwards be discovered that there was a defect in the appointment of any director or that any of them were disqualified from holding office, or had vacated office, or were not entitled to vote, be as valid as if every such person had been duly appointed and was qualified and had continued to be a director and had been entitled to vote.

104. A resolution in writing executed by all the directors entitled to receive notice of a meeting of the directors or of a committee of the directors shall be as valid and effectual as if it had been passed at a meeting of the directors or (as the case may be) of that committee, duly convened and held, and may consist of several documents in the like form each executed by one or more directors, but a resolution executed by an alternate director need not also be executed by his appointor and, if it is executed by a director who has appointed an alternate director, it need not also be executed by the alternate director in that capacity.

105. A meeting of the board may consist of a conference between directors some or all of whom are in different places provided that each director who participates is able:

(1) to hear each of the other participating directors addressing the meeting; and

(2) if he so wishes, to address each of the other participating directors simultaneously,

whether directly, by conference telephone or by any other form of communications equipment (whether in use when this Article 105 is adopted or developed subsequently) or by a combination of such methods. A quorum shall be deemed to be present if those conditions are satisfied in respect of at least the number of directors required to form a quorum. A meeting held in this way shall be deemed to take place at the place where the largest group of directors is assembled or, if no such group is readily identifiable, at the place from where the chairman of the meeting participates. Any director may, by prior notice to the secretary, indicate that he wishes to participate in the meeting in such manner, in which event, the directors shall procure that an appropriate conference facility is arranged.

106. (1) Save as otherwise provided by these articles, a director shall not vote at a meeting of the directors on any resolution concerning a matter in which he has, directly or indirectly, a material interest (other than an interest in shares, debentures or other securities of, or otherwise in or through, the Company), unless his interest arises only because the case falls within one or more of the following sub-paragraphs:-

(a) the resolution relates to the giving to him of a guarantee, security, or indemnity in respect of money lent to, or an obligation incurred by him for the benefit of, the Company or any of its subsidiary undertakings;

(b) the resolution relates to the giving to a third party of a guarantee, security, or indemnity in respect of an obligation of the Company or any of its subsidiary undertakings for which the director has assumed responsibility in whole or part and whether alone or jointly with others under a guarantee or indemnity or by the giving of security;

(c) his interest arises by virtue of his being, or intending to become, a participant in the underwriting or sub-underwriting of an offer of any shares in or debentures or other securities of the Company for subscription, purchase or exchange;

(d) the resolution relates in any way to a retirement benefits scheme which has been approved, or is conditional upon approval, by the Board of Inland Revenue for taxation purposes;

(e) the resolution relates to an arrangement for the benefit of the employees of the Company or any of its subsidiary undertakings, including but without being limited to an employees' share scheme, which does not accord to any director as such any privilege or advantage not generally accorded to the employees to whom the arrangement relates;

(f) the resolution relates to a transaction or arrangement with any other company in which he is interested, directly or indirectly, provided that he is not the holder of or beneficially interested in one per cent. or more of the equity share capital of that company (or of any other company through which his interest is derived) and not entitled to exercise one per cent. or more of the voting rights available to members of the relevant company (and for the purpose of calculating the said percentage there shall be disregarded any shares held by the director as a bare or custodian trustee and in which he has no beneficial interest, and any shares comprised in any authorised unit trust scheme in which the director is interested only as a unit holder);

(g) the resolution relates to the purchase or maintenance for any director or directors of insurance against any liability.

(2) For the purposes of paragraph (1) of this article, an interest of any person who is for any purpose of the Act (excluding any statutory modification thereof not in force when these articles become binding on the Company) connected with a director shall be taken to be the interest of that director and, in relation to an alternate director, an interest of his appointor shall be treated as an interest of the alternate director without prejudice to any interest which the alternate director has otherwise.

(3) Where proposals are under consideration concerning the appointment (including the fixing or varying of terms of appointment) of two or more directors to offices or employments with the Company or any body corporate in which the Company is interested, the proposals may be divided and considered in relation to each director separately and (provided he is not by virtue of paragraph (1)(f) of this article, or otherwise under that paragraph, or for any other reason, precluded from voting) each of the directors concerned shall be entitled to vote and be counted in the quorum in respect of each resolution except that concerning his own appointment.

107. A director shall not by counted on the quorum present at a meeting in relation to a resolution on which he is not entitled to vote.

108. If a question arises at a meeting of the directors as to the right of a director to vote, the question may, before the conclusion of the meeting, be referred to the chairman of the meeting (or, if the director concerned is the chairman, to the other directors at the meeting), and his ruling in relation to any director other than himself (or, as the case may be, the ruling of the majority of the other directors in relation to the chairman) shall be final and conclusive.

MINUTES

109. The directors shall cause minutes to be made in books kept for the purpose:-

(a) of all appointments of officers made by the directors; and

(b) of all proceedings at meetings of the Company, of the holders of any class of shares in the Company, and of the directors, and of committees of the directors, including the names of the directors present at each such meeting.

SECRETARY

110. Subject to the provisions of the Act, the secretary shall be appointed by the directors for such term, at such remuneration and on such other conditions as they think fit and any secretary so appointed may be removed by them.

THE SEAL

111. The seal shall be used only by the authority of a resolution of the directors or of a committee of the directors. The directors may determine whether any instrument to which the seal is affixed, shall be signed and, if it is to be signed, who shall sign it. Unless otherwise determined by the directors:-

(a) share certificates and, subject to the provisions of any instrument constituting the same, certificates issued under the seal in respect of any debentures or other securities need not be signed and any signature may be applied to any such certificate by any mechanical or other means or may be printed on it; and

(b) every other instrument to which the seal is affixed shall be signed by one director and by the secretary or another director.

112. Subject to the provisions of the Act, the Company may have an official seal for use in any place abroad.

DIVIDENDS

113. Subject to the provisions of the Act, the Company may by ordinary resolution declare dividends in accordance with the respective rights of the members, but no dividend shall exceed the amount recommended by the directors.

114. Subject to the provisions of the Act, the directors may pay interim dividends if it appears to them that they are justified by the profits of the Company available for distribution. If the share capital is divided into different classes, the directors may pay interim dividends on shares which confer deferred or non-preferred rights with regard to dividend as well as on shares which confer preferential rights with regard to dividend, but no interim dividend shall be paid on shares carrying deferred or non-preferred rights if, at the time of payment, any preferential dividend is in arrear. The directors may also pay at intervals settled by them any dividend payable at a fixed rate if it appears to them that the profits available for distribution justify the payment. If the directors act in good faith they shall not incur any liability to the holders of shares conferring preferred rights for any loss they may suffer by the lawful payment of an interim dividend on any shares having deferred or non-preferred rights.

115. Subject to the provisions of the Act and except as otherwise provided by these articles or the rights attached to shares, all dividends shall be declared and paid according to the amounts paid up on the shares on which the dividend is paid. If any share is issued on terms that it ranks for dividend as from a particular date, it shall rank for dividend accordingly. In any other case, (and except as aforesaid) dividends shall be apportioned and paid proportionately to the amounts paid up on the shares during any portion or portions of the period in respect of which the dividend is paid. For the purpose of this article, an amount paid up on a share in advance of a call shall be treated, in relation to any dividend declared after the payment but before the call, as not paid up on the share.

116. A general meeting declaring a dividend may, upon the recommendation of the directors, direct that it shall be satisfied wholly or partly by the distribution of assets and, where any difficulty arises in regard to the distribution, the directors may settle the same as they think fit and in particular (but without limitation) may issue fractional certificates or other fractional entitlements (or ignore fractions) and fix the value for distribution of any assets, and may determine that cash shall be paid to any member upon the footing of the value so fixed in order to adjust the rights of members, and may vest any assets in trustees.

117. (1) Any dividend or other money payable in respect of a share may be paid by cheque or warrant sent by post to the registered address of the person entitled or, if two or more persons are the holders of the share or are jointly entitled to it by reason of the death or bankruptcy of the holder, to the registered address of that one of those persons who is first named in the register of members or to such person and to such address as the person or persons entitled may in writing direct. Every cheque or warrant shall be made payable to the order of the person or persons entitled or to such other person as the person or persons entitled may in writing direct and payment of the cheque or warrant shall be a good discharge to the Company. Any such dividend or other money may also be paid by any other method (including direct debit or credit and bank transfer) which the directors consider appropriate. Any joint holder or other person jointly entitled to a share as aforesaid may give receipts for any dividend or other money payable in respect of the share. Every such cheque or warrant shall be sent at the risk of the person entitled to the monies represented thereby.

(2) The Company may cease to send any cheque or warrant (or to use any other method of payment) for any dividend payable in respect of a share if:

(a) in respect of at least two consecutive dividends payable on that share the cheque or warrant has been returned undelivered or remains uncashed (or that other method of payment has failed); or

(b) following one such occasion, reasonable enquiries have failed to establish any new address of the holder;

but, subject to the provisions of these articles, may recommence sending cheques or warrants (or using another method of payment) for dividends payable on that share if the person or persons entitled to those payments so request.

118. No dividend or other money payable in respect of a share shall bear interest against the Company, unless otherwise provided by the rights attached to the share.

119. Any dividend which has remained unclaimed for twelve years from the date when it became due for payment shall, if the directors so resolve be forfeited and cease to remain owing by the Company.

120. The directors may, with the authority of an ordinary resolution of the above Company, offer any holders of ordinary shares and/or convertible preference shares the right to elect to receive ordinary shares, credited as fully paid, instead of cash in respect of the whole (or some part, to be determined by the directors) of any dividend (including a preferential dividend) specified by the ordinary resolution. The following provisions shall apply:

(a) the said resolution may specify a particular dividend (including a preferential dividend) (whether or not declared), or may specify all or any dividends or preferential dividends declared or payable within a specified period, but such period may not end later than the beginning of the fifth annual general meeting next following the date of the meeting at which the ordinary resolution is passed;

(b) the basis of allotment shall be determined by the directors so that, as nearly as may be considered convenient, the relevant value of the additional ordinary shares to be allotted in lieu of any amount of dividend shall be not less than an amount equal to the net cash amount that such holders would have otherwise received by way of a dividend and may not (unless authorised by a special resolution of the Company) exceed an amount equal to the sum of the net cash amount of such dividend together with the associated tax credit. For such purpose the "relevant value" of an ordinary share shall be calculated either (1) by reference to the average of the middle market quotations (less the relevant dividend unless the ordinary shares are already quoted ex such dividend) on the London Stock Exchange (derived from the Daily Official List of the London Stock Exchange or any similar publication) on at least five consecutive dealing days selected by the directors, but commencing no earlier than the day upon which the proposed relevant dividend is announced by the directors, or (2) in such other manner as may be determined by the directors. Furthermore, for such purposes the "associated tax credit" shall be the tax credit which would be available to the recipient of a dividend under section 231 of the Income and Corporation Taxes Act 1988 on the assumption that such recipient is an individual resident in the United Kingdom for United Kingdom taxation purposes;

(c) no fraction of a share shall be allotted and the directors may deal with any fractions which arise as they think fit;

(d) the directors shall, after determining the basis of allotment, notify the holders of ordinary shares and/or convertible preference shares, if applicable, in writing of the right of election offered to them, and specify the procedure to be followed and place at which, and the latest time by which, elections must be lodged in order to be effective;

(e) the directors may exclude from any offer any holders of ordinary shares and/or convertible preference shares, if applicable, where the directors believe that the making of the offer to them would or might involve the contravention of the laws of any territory or that for any other reason the offer should not be made to them;

(f) the dividend or preferential dividend (or that part of the dividend or preferential dividend in respect of which a right of election has been given) shall not be payable on ordinary shares and/or convertible preference shares in respect of which an election has been duly made (**"the elected shares"**) and instead additional ordinary shares shall be allotted to the holders of the elected ordinary shares on the basis of allotment determined as aforesaid. For such purpose the directors shall capitalise out of any amount for the time being standing to the credit of any reserve or fund (including any

share premium account or capital redemption reserve) or any of the profits which could otherwise have been applied in paying dividends in cash, as the directors may determine, a sum equal to the aggregate nominal amount of the additional ordinary shares to be allotted on that basis and apply it in paying up in full the appropriate number of unissued ordinary shares for allotment and distribution to the holders of the elected shares on that basis;

(g) the directors shall not proceed with any election unless the Company has sufficient unissued shares authorised for issue and sufficient reserves or funds that may be capitalised to give effect to it after the basis of allotment is determined;

(h) the additional ordinary shares when allotted shall rank pari passu in all respects with the fully paid ordinary shares then in issue except that they will not be entitled to participation in the dividend in lieu of which they were allotted;

(i) the directors may do all acts and things which they consider necessary or expedient to give effect to any such capitalisation, and may authorise any person to enter on behalf of all the members interested into an agreement with the Company providing for such capitalisation and incidental matters and any agreement so made shall be binding on all concerned.

CAPITALISATION OF PROFITS

121. (1) The directors may with the authority of an ordinary resolution of the Company:-

(a) subject as hereinafter provided, resolve to capitalise any undivided profits of the Company not required for paying any preferential dividend (whether or not they are available for distribution) or any sum standing to the credit of any reserve or fund of the Company (including any share premium account or capital redemption reserve);

(b) appropriate the sum resolved to be capitalised to the members in proportion to the nominal amounts of the shares (whether or not fully paid) held by them respectively which would (or in the case of treasury shares, which would if such shares were not held as treasury shares) entitle them to participate in a distribution of that sum if the shares were fully paid and the sum were then distributable and were distributed by way of dividend and apply such sum on their behalf either in or towards paying up the amounts, if any, for the time being unpaid on any shares held by them respectively, or in paying up in full unissued shares or debentures of the Company of a nominal amount equal to that sum, and allot the shares or debentures credited as fully paid to those members or as they may direct, in those proportions, or partly in one way and partly in the other, but the share premium account, the capital redemption reserve, and any profits which are not available for distribution may, for the purposes of this article, only be applied in paying up unissued shares to be allotted to members credited as fully paid;

(c) resolve that any shares so allotted to any member in respect of a holding by him of any partly paid shares shall so long as such shares remain partly paid rank for dividend only to the extent that the latter shares rank for dividend;

(d) make such provision by the issue of fractional certificates or other fractional entitlements (or by ignoring fractions) or by payment in cash or otherwise as they determine in the case of shares or debentures becoming distributable in fractions (including provision whereby the benefit of fractional entitlements accrue to the Company rather than to the members concerned);

(e) authorise any person to enter on behalf of all the members concerned into an agreement with the Company providing for the allotment to them respectively, credited as fully paid, of any further shares to which they are entitled upon such capitalisation, any agreement made under such authority being binding on all such members; and

(f) generally do all acts and things required to give effect to such resolution as aforesaid.

(2) Where, pursuant to an employees' share scheme (within the meaning of section 743 of the Act) the Company has granted options to subscribe for shares on terms which provide (inter alia) for adjustments to the subscription price payable on the exercise of such options or to the number of shares to be allotted upon such exercise in the event of any increase or reduction in or other reorganisation of the Company's issued share capital and an otherwise appropriate adjustment would result in the subscription price for any share being less than its nominal value, then, subject to the provisions of the Act, the directors may, on the exercise of any of the options concerned and payment of the subscription price which would have applied had such adjustment been made, capitalise any such profits or other sum as is mentioned in paragraph (1) (a) above to the extent necessary to pay up the unpaid balance of the nominal value of the shares which fall to be allotted on the exercise of such options and apply such amount in paying up such balance and allot shares fully paid accordingly. The provisions of paragraphs (1)(a) to (f) of this article shall apply mutatis mutandis to this paragraph (but as if the authority of an ordinary resolution of the Company were not required).

RECORD DATES

122. Notwithstanding any other provision of these articles, but without prejudice to the rights attached to any shares, the Company or the directors may fix a date as the record date by reference to which a dividend will be declared or paid or a distribution, allotment or issue made, and that date may be before, on or after the date on which the dividend, distribution, allotment or issue is declared, paid or made. Where such a record date has been fixed, references in these articles to a holder of shares or member to whom a dividend is to be paid or a distribution, allotment or issue is to be made shall be construed accordingly.

ACCOUNTS

123. No member (other than a director) shall have any right of inspecting any accounting record or other document of the Company, unless he is authorised to do so by statute, by order of the court, by the directors or by ordinary resolution of the Company.

NOTICES

124. Any notice to be given to or by any person pursuant to these articles shall be in writing, except that a notice calling a meeting of the directors need not be in writing.

125. The Company may give any notice to a member either personally or by sending it by post in a prepaid envelope addressed to the member at his registered address or by leaving it at that address. In the case of joint holders of a share, all notices shall be given to the joint holder whose name stands first in the register of members in respect of the joint holding and notice so given shall be sufficient notice to all the joint holders. A member whose registered address is not within the United Kingdom and who gives to the Company an address within the United Kingdom at which notices may be given to him shall be entitled to have notices given to him at that address, but otherwise no such member shall be entitled to receive any notice from the Company.

126. A member present either in person or by proxy, or in the case of a corporate member by a duly authorised representative, at any meeting of the Company or of the holders of any class of shares shall be deemed to have received notice of the meeting and, where requisite, of the purposes for which it was called.

127. (1) Any notice to be given to a member may be given by reference to the register of members as it stands at any time within the period of fifteen days before the notice is given; and no change in the register after that time shall invalidate the giving of the notice.

(2) Every person who becomes entitled to a share shall be bound by any notice in respect of that share which, before his name is entered into the register of members, has

been given to the person from whom he derives his title; but this paragraph does not apply to a notice given under section 212 of the Act.

128. Where, by reason of the suspension or curtailment of postal services within the United Kingdom, the Company is unable effectively to convene a general meeting by notice sent by post, notice of the meeting shall be sufficiently given if given by advertisement in two leading national daily newspapers published in the United Kingdom. The Company shall send a copy of the notice to members by post if at least seven clear days before the meeting the posting of notices to addresses throughout the United Kingdom again becomes practicable.

129. Any notice to be given by the Company to the members or any of them, and not provided for by or pursuant to these articles, shall be sufficiently given if given by advertisement in at least one leading national daily newspaper published in the United Kingdom.

130. A notice sent by post shall be deemed to have been given on the day following that on which the envelope containing the notice was posted unless it was sent by second class post or there is only one class of post in which case it shall be deemed to have been given on the day next but one after it was posted. Proof that the envelope was properly addressed, prepaid and posted shall be conclusive evidence that notice was given. A notice given by advertisement shall be deemed to have been served on the day on which the advertisement appears.

131. A notice may be given by the Company to the person entitled to a share in consequence of the death or bankruptcy of a member by sending or delivering it in any manner authorised by these articles for the giving of notice to a member addressed to that person by name, or by the title of representative of the deceased or trustee of the bankrupt or by any like description, at the address, if any, within the United Kingdom supplied for that purpose by the person claiming to be so entitled. Until such an address has been supplied, a notice may be given in any manner in which it might have been given if the death or bankruptcy had not occurred.

132. Subject to the provisions of the Act, if on three consecutive occasions notices or other communications have been sent by post to a member at his registered address (or, in the case of a member whose registered address is not within the United Kingdom, any address given by him to the Company for the service of notices) but have been returned undelivered, the member shall not be entitled to receive any subsequent notice or other communication until he has given to the Company a new registered address (or, in the case of a member whose registered address is not within the United Kingdom, a new address for the service of notices). For the purposes of this article, references to a communication include references to any cheque or other instrument of payment; but nothing in this article shall entitle the Company to cease sending any cheque or other instrument of payment for any dividend, unless it is otherwise so entitled under these articles.

ELECTRONIC COMMUNICATIONS

132A. Notwithstanding anything to the contrary contained in these articles:

(a) the directors may decide that any information, notice or document may be recorded, provided, delivered, produced or executed in electronic form provided that this is done in accordance with rules made by the directors and is done with the consent of the person entitled to receive it. A document is deemed to have been delivered electronically if a notice has been delivered stating that the document is available and how it can be accessed electronically; and

(b) a document or notice may be sent to a facsimile number or to an electronic address notified to the Company for these purposes and will be deemed to have been properly delivered two hours after being sent; proof that the document or notice was properly sent shall be conclusive evidence of delivery.

DESTRUCTION OF DOCUMENTS

133. (1) The Company may destroy:-

(a) any instrument of transfer, after six years from the date on which it is registered;

(b) any dividend mandate or notification of change of name or address, after two years from the date on which it is recorded;

(c) any share certificate, after one year from the date on which it is cancelled;

(d) any other document on the basis of which an entry in the register of members is made, after six years from the date on which it is made.

(2) Any document referred to in paragraph (1) of this article may be destroyed earlier than the relevant date authorised by that paragraph, provided that a permanent record of the document is made which is not destroyed before that date.

(3) It shall be conclusively presumed in favour of the Company that every entry in the register of members purporting to have been made on the basis of a document destroyed in accordance with this article was duly and properly made, that every instrument of transfer so destroyed was duly registered, that every share certificate so destroyed was duly cancelled, and that every other document so destroyed was valid and effective in accordance with the particulars in the records of the Company; provided that:-

(a) this article shall apply only to the destruction of a document in good faith and without notice of any claim (regardless of the parties to it) to which the document might be relevant;

(b) nothing in this article shall be construed as imposing upon the Company any liability in respect of the destruction of any such document otherwise than in accordance with this article which would not attach to the Company in the absence of this article; and

(c) references in this article to the destruction of any document include references to the disposal of it in any manner.

WINDING UP

134. If the Company is wound up, the liquidator may, with the sanction of an extraordinary resolution and any other sanction required by law, subject to the provisions of the Act, divide among the members in specie the whole or any part of the assets of the Company and may, for that purpose, value any assets and determine how the division shall be carried out as between the members or different classes of members. The liquidator may, with the like sanction, vest the whole or any part of the assets in trustees upon such trusts for the benefit of the members as he may with the like sanction determine, but no member shall be compelled to accept any assets upon which there is a liability.

INDEMNITY

135. Subject to the provisions of the Act, the Company may:

(a) indemnify any person who is or was a director, directly or indirectly (including by funding any expenditure incurred or to be incurred by him), against any loss or liability, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company; and/or

(b) purchase and maintain insurance for any person who is or was a director against any loss or liability or any expenditure he may incur, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company.

For the purposes of this article, "associated company" has the same meaning as in section 309A of the Act.

UNCERTIFICATED SHARES

136. (1) Without prejudice to any powers which the Company or the directors may have to issue, allot, dispose of, convert, or otherwise deal with or make arrangements in relation to, shares and other securities in any form:

(a) the holding of shares in uncertificated form and the transfer of title to such shares by means of a relevant system (as defined in the Uncertificated Securities Regulations) shall be permitted; and

(b) the Company may issue shares in uncertificated form and may convert shares from certificated form to uncertificated form and vice versa.

(2) If and to the extent that any provision of these articles is inconsistent with such holding or transfer as is referred to in paragraph (1)(a) above or with any provision of the Uncertificated Securities Regulations, it shall not apply to any share in uncertificated form.

Company No 48967

THE COMPANIES ACT 1985

PUBLIC LIMITED COMPANY

RESOLUTIONS OF

FIRST CHOICE HOLIDAYS PLC

Passed on

23rd day of March 2006

At the Annual General Meeting of the above named Company duly convened and held at the offices of ABN Amro, 250 Bishopsgate, London EC2M 4AA on Thursday 23 March 2006, the following resolutions were duly passed:

Ordinary Resolution

11 **THAT** the Directors be and they are hereby generally and unconditionally authorised pursuant to Section 80 of the Companies Act 1985 (the "Act") to exercise all the powers of the Company to allot relevant securities (within the meaning of Section 80(2) of the Act) up to an aggregate nominal amount of £5,297,784.08 provided that this authority shall expire on 23 March 2011, save that the Company may before such expiry make an offer or agreement which would or might require relevant securities to be allotted after such expiry and the Directors may allot relevant securities in pursuance of such offer or agreement as if the authority had not expired; and all unexercised authorities previously granted to the Directors to allot relevant securities be and are hereby revoked.

Special Resolutions

12 **THAT** the Directors be and they are hereby empowered pursuant to Section 95 of the Companies Act 1985 (the "Act") to allot equity securities (within the meaning of Section 94 of the Act) for cash pursuant to the authority conferred by Resolution 11 set out in the Notice convening the 2006 Annual General Meeting of the Company, or by way of a sale of treasury shares, as if Section 89(1) of the Act did not apply to any such allotment provided that:

(a) the power conferred hereby shall be limited:

(i) to the allotment of equity securities in connection with a rights issue, open offer or other offer of securities in favour of equity shareholders where the equity securities respectively attributable to the interests of the equity shareholders are proportionate (as near as may be) to the respective number of equity shares held by them, subject to such exclusions or other arrangements as the Directors may deem necessary or expedient to deal with treasury shares, fractional entitlements or legal or practical problems arising under the laws of any overseas territory or the requirements of any regulatory body or any stock exchange or any other matter whatsoever; and

(ii) to the allotment (otherwise than pursuant to paragraph 12(a)(i) above) of equity securities up to an aggregate nominal amount of £794,667.61; and

(b) the power conferred hereby shall (unless previously revoked or varied) expire on 23 March 2011 but so that this power shall allow the Company, before the expiry of this power, to make any offer or agreement which will or may require equity securities to be allotted after such expiry and so that the Directors shall be allowed to allot equity securities pursuant to any such offer or agreement as if the power conferred hereby had not expired.

13 **THAT:**

(a) the Articles of Association of the Company shall be amended as follows:

therefor:

"135 Subject to the provisions of the Act, the Company may:

(a) indemnify any person who is or was a director, directly or indirectly (including by funding any expenditure incurred or to be incurred by him), against any loss or liability, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company; and/or

(b) purchase and maintain insurance for any person who is or was a director against any loss or liability or any expenditure he may incur, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company.

For the purposes of this article, "associated company" has the same meaning as in section 309A of the Act.";

(ii) by the deletion from Article 98 of the words "donations, gratuities, pensions, allowances and emoluments" and the substitution therefor of the words "pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit"; and

(iii) by the deletion from Article 98 of the words "donation, gratuity, pension, allowance or emolument" and the substitution therefor of the words "pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation";

(b) the Memorandum of Association of the Company shall be amended as follows:

(i) by the insertion in Clause 4 of the following sub-clause after sub-clause (K):

"(KA) To provide any guarantee or indemnity in respect of the performance or discharge of any obligation or liability by, or otherwise for the benefit of, any person.";

(ii) by the deletion from sub-clause (MM) of Clause 4 of the words "donations, gratuities, pensions, allowances and emoluments" and the substitution therefor of the words "pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit"; and

(iii) by the deletion from sub-clause (MM) of Clause 4 of the words "donation, gratuity, pension, allowance or emolument" and the substitution therefor of the words "pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation".

14 **THAT** the Company be generally and unconditionally authorised to make market purchases (within the meaning of Section 163(3) of the Companies Act 1985) of ordinary shares of 3 pence each of the Company provided that:

(a) the maximum number of ordinary shares hereby authorised to be acquired is 52,977,840;

(b) the minimum price which may be paid for any such share is 3 pence;

(c) the maximum price which may be paid for any such share is an amount equal to 105% of the average of the middle market quotations for an ordinary share in the Company as derived from The London Stock Exchange Daily Official List for the five business days immediately preceding the day on which the share is contracted to be purchased;

(d) the authority hereby conferred shall expire on 23 March 2007;

(e) the Company may make a contract to purchase its ordinary shares under the authority hereby conferred prior to the expiry of such authority, which contract will or may be executed wholly or partly after the expiry of such authority, and may purchase its ordinary shares in pursuance of any such contract.

15 **THAT** the Articles of Association of the Company shall be amended as follows:

(a) by the deletion from Article 9(b) of the words "share capital of that class" and the substitution therefor of the words "shares of that class (excluding any shares of that class held as treasury shares)";

(b) by the insertion in Article 9 of the words "(excluding any shares of that class held as treasury shares)" after the words "at least one-third in nominal value of the issued shares of the class in question";

(c) by the insertion in Article 9 of the words "(other than treasury shares)" after the words "one person holding shares of the class in question";

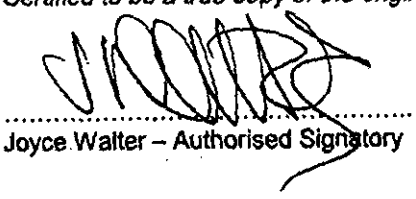
(d) by the insertion in Article 10(c) of the words "or the holding of such shares as treasury shares" after the words "the purchase by the Company of any of its own shares";

(e) by the insertion in Article 37(1)(b) of the words "(calculated exclusive of treasury shares)" after the words "at least 0.25 per cent of their class";

(f) by the insertion in Article 42 of the words "and may hold such shares as treasury shares or cancel them," after the words "including redeemable shares,";

(g) by the insertion in Article 54(c) of the words "(excluding any voting rights attached to any shares in the Company held as treasury shares)" after the words "vote at the meeting";

(h) by the insertion in Article 54(d) of the words "(excluding any shares in the Company conferring a right to vote at the meeting which are held as treasury shares)" after the words "all the shares conferring that right";



(i) by the insertion in Article 61 of the words "and to the provisions of the Act" after the words "Subject to any rights or restrictions attached to any shares";

(j) by the deletion from Article 115 of the words "Except as otherwise provided by these articles or the rights attached to shares," and the substitution therefor of the words "Subject to the provisions of the Act and except as otherwise provided by these articles or the rights attached to shares,";

(k) by the insertion in Article 121(1)(b) of the words "(or in the case of treasury shares, which would if such shares were not held as treasury shares)" after the words "held by them respectively which would"; and

(l) by the insertion in Article 134 of the words "subject to the provisions of the Act," after the words "and any other sanction required by law,".

NOTES

Show the full forenames, NOT INITIALS. If the director or secretary is a corporation or Scottish firm, show the name on surname line and registered or principal office on the usual residential line.

Give previous forenames or surname(s) except:
- for a married woman, the name by which she was known before marriage need not be given.
- for names not used since the age of 18 or for at least 20 years.

A peer or individual known by a title may state the title instead of or in addition to the forenames and surname and need not give the name by which that person was known before he or she adopted the title or succeeded to it.

Other directorships.

Give the name of every company incorporated in Great Britain of which the person concerned is a director or has been a director at any time in the past five years.

You may exclude a company which either is, or at all times during the past five years when the person concerned was a director, was
- dormant
- a parent company which wholly owned the company making the return, or
- another wholly owned subsidiary of the same parent company.
