TUI Travel aims to achieve these objectives through the following principal strategies: offering a comprehensive range of travel content to the consumer; increasing controlled contribution, developing the brand portfolio and improving yield management; maintaining an efficient and flexible business model; and making value-enhancing acquisitions in high-growth segments of the market.

4. Board and Management

The Board of TUI Travel is drawn from the boards of First Choice, TUI AG and the current management of TUI Tourism, supplemented by additional independent Non-Executive Directors. The Board comprises 14 Directors and, following the appointment of three further independent Non-Executive Directors as soon as practicable following Completion, the majority of the Board will be independent.

The Board is chaired by Dr Michael Frenzel as Non-Executive Chairman (currently Chief Executive of TUI AG), with Sir Michael Hodgkinson (currently Chairman of First Choice) appointed as independent Non-Executive Deputy Chairman.

The executive team of TUI Travel comprises Peter Long as Chief Executive, Peter Rothwell as Deputy Chief Executive, Paul Bowtell as Chief Financial Officer, William Waggott as Commercial Director, Christoph Mueller as Aviation Director and Dr Volker Böttcher as Managing Director, Central Europe.

In addition to the Chairman and Deputy Chairman, the Board includes six Non-Executive Directors, of whom five are independent. These Non-Executive Directors are Tony Campbell, Clare Chapman, Bill Dalton, Jeremy Hicks, Giles Thorley (who are currently Non-Executive First Choice Directors) and Rainer Feuerhake (who is currently Chief Financial Officer of TUI AG). Three additional independent Non-Executive Directors will be appointed by the Board as soon as practicable following Completion.

TUI Travel attaches great importance to the skills and expertise of the employees of First Choice and TUI Tourism and believes the increased size and strength of the Enlarged Group will offer attractive career prospects.

However, in order to achieve the planned benefits of the Merger some operational restructuring will be required following Completion. If compulsory redundancies are necessary, TUI Travel will comply with all applicable consultation and legal requirements in this respect.

5. Summary of the Merger

It is intended that the Merger will be effected through the acquisition by TUI Travel of each of TUI Tourism and First Choice, as a result of which TUI Travel will be the holding company of the Enlarged Group.

The acquisition of First Choice will be effected by means of the Scheme. Under the terms of the Scheme, the First Choice Shares will be cancelled and, on the Effective Date, First Choice Shareholders will receive one TUI Travel Share for each First Choice Share. The total number of TUI Travel Shares to be issued to First Choice Shareholders on Completion will constitute 49 per cent. of the entire issued share capital of TUI Travel immediately after Completion (on a fully diluted basis).

The acquisition of TUI Tourism will be effected, in accordance with the terms of the Merger Agreement, by means of a share exchange pursuant to which, on Completion, TUI AG will transfer or procure the transfer of its shareholdings in the relevant holding companies of the TUI Tourism Group. In consideration, TUI Travel will issue 570,197,768 TUI Travel Shares to TUI AG on Completion, constituting 51 per cent. of the entire issued share capital of TUI Travel immediately after Completion (on a fully diluted basis). Under the terms of the Merger, on Completion TUI Travel will assume target net debt of €875 million (inclusive of pension liabilities) in connection with its acquisition of TUI Tourism.

The terms of the Merger Agreement require a Relationship Agreement to be entered into between TUI AG and TUI Travel. The Relationship Agreement records the understanding between TUI AG and TUI Travel regarding the relationship between them and the governance of TUI Travel. It confers upon TUI AG the right to appoint two Directors to the Board for so long as TUI AG holds 30 per cent. or more of the voting rights in TUI Travel. In addition, for so long as TUI AG holds 40 per cent. or more of the voting rights in TUI Travel, TUI AG may appoint one of its nominated Directors as the Chairman of the Board or, instead, the Chief Executive of TUI Travel.

The Merger is conditional upon, amongst other matters, Admission, the approval of the Scheme and the Reduction of Capital by First Choice Shareholders and the Court, the Takeover Panel granting a specific waiver from the requirements of Rule 9 of the Takeover Code in respect of the issue of TUI Travel Shares to TUI AG and all necessary consents having been obtained from providers of bonding and other finance facilities to TUI AG, TUI Tourism and First Choice.

6. Current Trading

TUI Tourism

Trading for the financial year 2007 is in line with the Board's expectations. Overall demand in the travel market remains strong, with varying levels of growth in demand across TUI Tourism's source markets.

Overall, bookings for the 2007 Summer season have started well, with customer numbers up 7.8 per cent. and booked revenues up 2.8 per cent. year-on-year, as at 22 June 2007. The Central Europe Sector, which includes the large German source market, recorded a good increase in bookings, although the Sector's results are affected by start-up costs in connection with the restructuring of flight operations under the new brand TUIfly.com. Customer numbers and booked revenues have also increased in the Western Europe Sector, although the Northern Europe Sector has experienced a decline year-on-year due to difficult market conditions in the UK and Ireland.

Despite varying trends across TUI Tourism's source markets, in the absence of significant adverse events the performance for the full year is expected to be in line with the Board's expectations.

First Choice

Trading for the financial year 2007 has been in line with the Board's expectations. For the 2007 Summer season, the Mainstream Holidays Sector has performed in line with management expectations in what remains a challenging market. As at 24 June 2007, revenues were cumulatively up four per cent. on volume growth of one per cent., with overall capacity flat on 2006. Capacity in the short-haul market has been reduced by five per cent., with revenues down seven per cent. on lower volumes of five per cent. Within the medium-haul segment, where capacity has been maintained at 2006 levels, both revenues and volumes are flat. The long-haul segment has experienced strong demand, with capacity up by 25 per cent. and revenues up by 26 per cent. on volume growth of 22 per cent.

The Specialist Holidays Sector has had an excellent start to the 2007 Summer season across all its businesses, with sales and volumes as at 24 June 2007 up 18 per cent. and 16 per cent., respectively, on 2006 as a result of increased demand for lifestyle and destination specialist products.

In the Activity Holidays Sector, Summer revenues were up five per cent. as at 24 June 2007, as the Sector continues to perform in line with the Board's expectations. Revenues were up seven per cent. in the Adventure business and up two per cent. in the Marine business, on a like-for-like basis. Margins are currently slightly ahead of last year for the Summer programme.

In the Online Destination Services Sector, all routes to market as at 24 June 2007, continue to grow and are performing well, with sales and bednights up 50 per cent. and 30 per cent. respectively, with margins also ahead of last year. The integration of laterooms.com is progressing as planned, as the business enjoys strong demand for late availability bedstock, with sales and volumes up 78 per cent. and 73 per cent. respectively.

7. Dividend Policy

Following Completion, consistent with the Enlarged Group's growth strategy, TUI Travel intends to follow a progressive dividend policy which balances delivering returns to shareholders with the need to retain sufficient funds for investment in growth opportunities, including the ongoing expansion of the specialist portfolio. In setting its initial dividend, it is expected that, as from the Effective Date, TUI Travel will target a dividend cover in the order of two times.

It is intended that, following Completion, one or more Group Companies undertake a Court-approved capital reduction under section 135 of the Companies Act 1985 to create additional distributable reserves. This is principally to ensure that TUI Travel possesses sufficient distributable reserves to continue to be able to pay dividends in accordance with its dividend policy.

8. Risk Factors

A number of factors may affect the Enlarged Group's operating results, financial condition and prospects. Prospective investors should consider carefully the following risks summarised below:

- The Enlarged Group's business may be adversely affected by general economic conditions and other business conditions outside of its control.
- Changes in consumer behaviour and preferences, including increasing trends to book holidays closer to the time of travel than has previously been the case and concerns over the environmental impact of airline travel, may adversely affect the Enlarged Group's business.
- Significant competition in the European travel and tourism industry could lead to reduced prices or a loss of customers.
- Exposure to political instability, terrorism or natural disasters may lead to a reduction in consumer spending on leisure travel.
- The Enlarged Group will be vulnerable to fluctuations in exchange rates, interest rates and fuel costs.
- Changes to regulation, the introduction of new regulation and/or a failure to comply with regulation may result in increased costs for the Enlarged Group.

- The Enlarged Group's success will depend on its ability to retain key management and good relations with employee representatives.
- The Enlarged Group's business may suffer if it is unable to keep up with the latest information technology developments.
- The Enlarged Group will be dependent on third party service and facility providers.
- The Enlarged Group will have significant liabilities in connection with under-funded pension benefit plans, particularly in the United Kingdom, which could give rise to increased costs or otherwise adversely affect the Enlarged Group's business.
- Seasonal fluctuations in the level of demand for the Enlarged Group's services will cause the Enlarged Group's profitability to fluctuate during the year.
- Inability to identify appropriate acquisition targets, or the failure to successfully integrate acquired businesses into the Enlarged Group's business, could affect the Enlarged Group's expansion strategy and may adversely affect its business.
- The Enlarged Group will not have absolute ownership of the TUI name and brand.
- One or more conditions to completion of the Merger may not be satisfied.
- There can be no assurance that the post-Completion reorganisation of the businesses of TUI Tourism and First Choice will achieve the anticipated synergies and cost savings.
- The market price of TUI Travel Shares may go down as well as up.
- The interests of TUI AG, as majority shareholder, may not always coincide with the interests of TUI Travel or TUI Travel's other shareholders.

Part I

Risk factors

A number of factors may affect the Enlarged Group's operating results, financial condition, prospects and share price. Most of these factors are contingencies which may or may not occur and TUI Travel is not in a position to express a view on the likelihood of any such contingency occurring. This section describes certain potential risks which apply to the Enlarged Group.

You should consider carefully the risks and uncertainties described below, together with all other information contained in this document and the information incorporated by reference herein, before making any investment decision.

The risk factors mentioned below should not be regarded as a complete and comprehensive statement of all the potential risks and uncertainties. Additional risks and uncertainties that are not presently known to the Directors, or which they currently deem immaterial, may also have an adverse effect on the Enlarged Group's operating results, financial condition and prospects.

Risks relating to the Enlarged Group

The Enlarged Group's business may be affected by general economic conditions and other business conditions outside of its control.

Changing economic cycles may affect demand for tourism products. Such cycles may be influenced by global political events, such as terrorist acts, war and other hostilities as well as by market specific events, such as shifts in consumer confidence and consumer spending, labour or social unrest and political uncertainty.

Spending on travel and tourism is discretionary and price sensitive. An increase in interest rates, direct or indirect taxes, or the costs of living could lead to lower disposable income. Customers may reduce or stop their spending on travel or opt for lower-cost offers, in particular during periods of economic slowdown. Future economic downturns in any of the Enlarged Group's source markets could have a material adverse impact on the financial performance of the Enlarged Group in the case of that source market.

In addition, the introduction of travel taxes in any jurisdiction in which the Enlarged Group operates may affect both customers' spending on travel and the Enlarged Group's margin and could therefore have a material adverse impact on the financial performance of the Enlarged Group.

The Enlarged Group will be subject to changes in consumer behaviour and preferences.

In recent years, customers of the Enlarged Group have been increasingly booking holidays nearer the time of travel than has traditionally been the case. This type of booking behaviour makes it considerably more difficult for tourism companies to engage in seasonal planning and has the potential of making the Enlarged Group more vulnerable to short-term changes in customer demand. For example, bad weather at any of its destinations, or unseasonably warm weather in the Enlarged Group's source markets, could reduce demand for travel to the Enlarged Group's "sun and beach" destinations. Successful execution of the Enlarged Group's strategy will depend, among other things, upon its ability to anticipate changes in consumer preferences for leisure travel products across a number of source markets and destinations.

There is a further risk that the Enlarged Group's customers may choose to travel less by aircraft if they believe that aircraft travel is harmful to the environment. This may adversely affect the Enlarged Group's airline and holiday business.

Historically, the Enlarged Group has generated most of its business from integrated package tours, enabling it to maximise efficiently the use of its aircraft and hotel capacity. In recent years, customers of the Enlarged Group have been increasingly purchasing individual components of holidays, such as flights and hotel accommodation, particularly over the Internet. If demand for air package tours were to decline, this could lead to excess capacity on the Enlarged Group's aircraft. In addition, the Internet allows travel customers to compare easily the costs of each component of

their holiday, which could lead to increasing price pressure across the travel industry and could adversely affect the Enlarged Group's financial performance.

To the extent that the Enlarged Group purchases capacity from other airlines, it will be able to make capacity adjustments only to the extent permitted by its contracts with those airlines and there can be no assurance that the Enlarged Group will continue to be able to maximise the use of its aircraft and hotel capacity as effectively as it has in the past.

Significant competition in the European travel and tourism industry could lead to reduced prices or a loss of customers.

The Enlarged Group will have numerous competitors in its core European market. Some of these competitors have already consolidated or are in the process of consolidating into pan-European tourism groups. These groups are able to utilise the synergies generated by integrating the various components of the tourism value chain to improve their competitive position by increasing their market shares. Some of the Enlarged Group's competitors are focusing on offering modular holiday packages that the customers themselves combine, rather than integrated packages. Other competitors only offer dedicated individual components of holidays such as flights, hotels, accommodation or leisure activities, which customers can combine themselves, in particular by using the Internet. Internet-based travel and tourism businesses, such as online travel agencies, will continue to compete with the Enlarged Group. The Enlarged Group could lose customers or be forced to reduce its prices due to the significant competition in the European tourism industry.

Low-cost airlines compete successfully on many routes against charter airlines, including airlines operated by the Enlarged Group. If the Enlarged Group is unable to maintain a competitive cost structure for its airlines as compared to these low-cost carriers, it may be unable to offer competitive prices to its customers for package holidays that involve flights on its own aircraft. This may also affect the Enlarged Group's ability to sell capacity on its flights to third party tour operators on the same terms and in the same amounts as it has done to date and its single-seat offerings may become uncompetitive, which would adversely affect its financial results.

The Enlarged Group may be exposed to political instability, accidents, terrorism or the threat of terrorism, natural disasters or outbreaks of diseases or epidemics.

Airlines and package holiday providers are exposed to the risk of losses from political instability, accidents, terrorist attacks, acts of sabotage and natural catastrophes, climate change, outbreaks of diseases, epidemics, social unrest, civil war, international conflicts and failing governments, which could be of a magnitude that would threaten their economic viability. The Enlarged Group will operate in approximately 180 destinations worldwide and over 20 source markets, where its operations will be at risk of both domestic and international geo-political events impacting business performance as they could directly affect customers' propensity to travel. This may lead to a reduction in consumer spending on holidays and leisure travel products which could adversely impact the performance of the Enlarged Group.

The Enlarged Group may not be adequately insured against all expenses that may result from such events, if at all. The Enlarged Group may also be exposed to other civil law claims and be held liable for third-party losses if their insurers are unable to pay the resulting damages or refuse coverage. In addition, such losses could result in higher insurance premiums and could impose significant costs on the Enlarged Group. Future terrorist attacks or the threat of such attacks could also result in aviation or other insurance becoming unavailable or prohibitively expensive. Should this occur, the Enlarged Group would be unable to operate key parts of its business. If the Enlarged Group is unable to fly its customers to their destinations, it would experience consequential losses throughout its business.

In addition, any accident or incident affecting the Enlarged Group's aircraft, or the destinations they serve, could give rise to a public perception that its aircraft or the regions or countries in which it conducts tourism activities are less safe or reliable than those of its competitors, which could reduce demand for its products.

The Enlarged Group will be vulnerable to fluctuations in exchange rates, interest rates and fuel costs.

The Enlarged Group will face significant financial risk due to the substantial cross-border element of its trading, which exposes its business and results of operations to fluctuations in exchange rates. This is due to the imbalance between the currencies in which turnover is generated and costs are incurred and also to certain of the Enlarged Group's subsidiaries operating in functional currencies other than the Euro. Certain of the Enlarged Group's costs for materials, including destination services and aviation jet fuel, are denominated in currencies other than the currencies in which its customers pay for their holidays. This exchange rate risk is primarily in relation to the Euro/U.S. dollar and the Euro/pound sterling exchange rates.

The Enlarged Group's risk management policy will require forecasted expenses to be hedged against the currency in which the related turnover is to be generated. To the extent that the Enlarged Group does not adequately hedge its currency exposures, a significant negative change in exchange rates could result in a mismatch between its costs and its turnover which could significantly reduce its results of operations.

In the event of rising interest rates, the Enlarged Group's interest costs in respect of its borrowings will increase and its financial results will be adversely affected.

Aircraft fuel costs, which have fluctuated considerably since 2004, constitute a significant proportion of the operating costs of the Enlarged Group's operating expenses. Fuel prices and availability are subject to economic and political factors which are beyond the control of the Enlarged Group. Increases in fuel costs usually lead to increases in prices for holidays and to reduced demand for travel. In response to the rising fuel prices, the Enlarged Group may need to impose fuel surcharges on its short, medium and long-haul flights, which could reduce demand for its travel products. In addition, upon the expiry of existing fuel hedges, the Enlarged Group may not be able to enter into new hedging contracts at acceptable rates to help mitigate the risk of rising fuel prices.

Over the past few years, there have been discussions at the EU level and within EU member states in respect of whether the existing tax exemptions for kerosene, the primary aviation fuel, should be reviewed. There can be no assurance that the current tax exemptions for aviation fuel will not be repealed. The elimination of these exemptions would lead to an increase in the Enlarged Group's aviation fuel costs.

The Enlarged Group will be subject to significant regulation and may be adversely affected by changes to existing regulation, the introduction of new regulation and/or a failure to comply with any such regulation.

The industries in which the Enlarged Group will operate are heavily regulated at various levels by European and other national regulators. Regulated areas include, among others, the provision of holiday services, the availability of take-off and landing slots at airports and ownership requirements. Applicable regulations, which include noise and emissions restrictions, could be extended to include further environmental protection or consumer protection. Compliance with such regulations will impose significant costs on the Enlarged Group's business and could potentially limit its flexibility with respect to its business practices. In the event of non-compliance with certain regulations, such as those related to flight safety, a significant part of the Enlarged Group's business could be affected, which would have a material adverse impact on its results of operations.

The Enlarged Group will be subject to significant regulation, which may limit its operational flexibility, and non-compliance with the applicable regulations could lead to legal or regulatory sanctions, as well as reputational damage. The need to comply with new or revised regulations, or new or changed interpretations or enforcement of existing regulations, may have a material adverse effect on the Enlarged Group's business and financial performance.

European and national restrictions on airline ownership could result in the loss of the Enlarged Group's airline operating and route licenses, force divestment of its airline business or result in

other adverse effects on its business. In the European countries in which the Enlarged Group will operate an air carrier, the Enlarged Group will be permitted to operate airline services only if it is majority owned, and effectively controlled, by member states of the EEA or their nationals. The carrier must be able to prove this at any time. Failure to do so may result in the withdrawal of, or a refusal to issue, the carrier's operating licence or route licences. Accordingly, TUI Travel must remain majority owned and effectively controlled by EEA member states or their nationals in order for its airlines to maintain their operating and route licences. In addition there may be national ownership restrictions applicable to the grant of route licences to the Enlarged Group's airlines.

As 51 per cent. of the TUI Travel Shares will be owned by TUI AG (on a fully diluted basis), the continuation of the Enlarged Group's operating licences and route licences will also depend on TUI AG itself continuing to be majority owned, and effectively controlled, by member states of the EEA or their nationals. A change of control of TUI AG could therefore result in the withdrawal of the Enlarged Group's airline operating and route licences.

The Enlarged Group's success will depend on its ability to retain key management and it will rely on having good relations with trade unions, works councils and employee representatives.

The Enlarged Group will require effective management attention and focus. The performance and results of the Enlarged Group's business will depend upon the efforts and capabilities of the senior management team and other key personnel. The Enlarged Group cannot guarantee that such employees will remain with the Enlarged Group since competition for talented and qualified personnel is intense, and as such the loss of key managers could lead to an adverse effect on the Enlarged Group's business, operating results and financial performance.

With over 48,000 employees around the world, relationships with employees, European and local works councils, trade unions and other employee representatives will be an important part of the Enlarged Group's strategy. Should these relationships deteriorate, there could be a risk to customer service and increased costs associated with industrial disputes.

The Enlarged Group's business will depend on information technology systems.

The business of the Enlarged Group will depend on information technology systems, especially in their yield management activities and in the provision of central administration. The reservation systems and administrative operations of the Enlarged Group will rely on the continuous functioning of their information technology systems as the Enlarged Group will engage in direct selling of holidays and travel services to its customers over the Internet. The Internet is growing in importance, not only as a distribution channel but also as basic technology for the automation of business processes between business partners. Any disruption to the Enlarged Group's information technology systems could significantly hamper or prevent operations, reduce revenues, increase costs or otherwise adversely affect the operation of the Enlarged Group's business.

The Enlarged Group may be vulnerable to rapid changes in technology standards. Technology changes rapidly, especially in the consumer-oriented tourism business, and the Enlarged Group's business may suffer if it is unable to keep up with the latest information technology developments. In addition, the Enlarged Group may be required to incur expenditure on information technology in order to keep up with the technological developments of its competitors.

The Enlarged Group will be dependent on third party service and facility providers.

The Enlarged Group will be dependent on the provision of services by third parties, such as hotel operators, other airlines, suppliers of aircraft services (ground handling, fuel, engineering and maintenance, in-flight and catering), aircraft manufacturers and third party tour operators. If any third party services or facilities on which the Enlarged Group will rely in conducting its business are restricted, temporarily halted (for example, as a result of technical problems or strikes), cease permanently or are not available on commercially acceptable terms, this could have a material adverse effect on the business, financial condition and results of operations of the Enlarged Group, including through a deterioration in customers' confidence in the Enlarged Group's ability to offer

its services in a reliable manner. These adverse effects could also occur as a result of the loss or expiration of any of the Enlarged Group's contracts with third party service or facility providers and the inability to negotiate replacement contracts with other service providers at comparable rates or to enter into such contracts in any new markets the Enlarged Group wishes to access. In addition, the efficiency, timeliness and quality of contract performance by third party providers will be largely beyond the Enlarged Group's direct control.

The Enlarged Group will have significant liabilities in connection with under-funded pension benefit plans, particularly in the United Kingdom.

The Enlarged Group will have significant liabilities as a result of taking on the pension benefit plans of First Choice and TUI Tourism.

On an IAS 19 accounting basis in late 2006 the total combined deficit in the four largest UK schemes of the Enlarged Group was estimated to be approximately £363.27 million.

The Enlarged Group also has unfunded defined benefit pension obligations in countries outside of the UK and in particular the Enlarged Group has unfunded pension obligations in respect of the German defined benefit pension schemes which in 2006 equalled €74.5 million and the French defined benefit pension schemes which in 2006 equalled €10.2 million.

The cost of funding these benefits depends on a number of factors, including the real returns that can be obtained on the assets and the longevity of the members. The contributions to the defined benefit schemes may therefore change as a result of changes in investment performance, mortality and as a result of other actuarial experience factors not matching the assumptions made by the actuary.

The trustees of the Britannia Airways Limited Scheme (for TUI Tourism) and the Air 2000 Limited Retirement Benefits scheme and the Unijet Group Plc Final Salary scheme (for First Choice) are undertaking valuations which will result in updated schedules of contributions being finalised in 2007 for the Britannia Scheme and, for the other schemes, in the course of 2008. The trustees of the TUI (UK) Pension Scheme (for TUI Travel) will need to update their schedule of contributions in the course of 2009. A schedule of contributions is a schedule agreed between the participating employers and trustees of a scheme specifying the contributions payable by the employers and the scheme members; the scheme actuary is required to certify the schedule. The level of future contributions is not known at this stage and so there may be a risk of increased contributions in the future.

A recently decided case suggested that the trustees may have the right to set contribution levels (without employer agreement) which are in excess of the statutory funding requirement contributions. It is understood that this case may be subject to appeal. In addition, the trustees may seek additional contributions as a result of the Merger. This could have an adverse impact on the Enlarged Group's business, financial condition and results of operations.

If any participating company in a defined benefit pension scheme in the Enlarged Group were deemed to be "insufficiently resourced", the Pensions Regulator in the UK could issue a financial support direction requiring any company in the Enlarged Group which is connected or associated with the employer to put in place financial arrangements to support the pension liabilities. However, the Pensions Regulator may only issue a financial support direction where it considers that it is reasonable to do so.

The Enlarged Group will be subject to seasonal fluctuations.

Historically, the level of demand for TUI Tourism's and First Choice's services has fluctuated over the course of a calendar year, which caused their results to fluctuate, and this will continue to be the case for the Enlarged Group in the future. Demand has historically been highest in the summer season from May through to October and lowest in the winter season from November through to April (except for the days around Christmas, New Year and Easter). At the same time, a significant proportion of TUI Tourism's and First Choice's expenses are incurred more evenly throughout the year. Therefore, the Enlarged Group's profitability will fluctuate during the year, with the majority

of its profits being generated in the summer season. When disruptions to the Enlarged Group's business operations occur during the summer season, they may have a particularly strong adverse effect on the Enlarged Group's business, financial condition and results of operations.

Expansion through acquisitions entails certain risks, which could have adverse consequences for the Enlarged Group's business.

Part of the Enlarged Group's strategy may involve expanding its business through acquisitions of other businesses or establishing new businesses. Acquisitions will require the integration of new operations into the Enlarged Group's business. The Enlarged Group's ability to realise the expected benefits from future acquisitions will depend, in large part, upon its ability to integrate new operations with existing operations in a timely and effective manner and to manage an increasingly larger business. It will also depend upon the Enlarged Group's ability to recruit additional management as it cannot be assured that management of acquired businesses will continue to work for the Enlarged Group or that any of its recruiting efforts will succeed.

In addition, the Enlarged Group's acquisition strategy will involve numerous risks, including the potential inability to identify appropriate acquisition opportunities, possible failures of acquisitions to be profitable or to generate anticipated cash flows, the entry into markets and geographic areas where the Enlarged Group has limited or no experience, diversion of management's time and resources from core operations and potential difficulties in integrating operations and systems with those of acquired companies. Also, possible antitrust review by European or other antitrust authorities could result in such authorities seeking to impede the Enlarged Group's acquisition of new businesses.

The Enlarged Group will not have absolute ownership of the TUI name and brand.

TUI AG will grant the Enlarged Group a licence to use the TUI name and brand under the terms of the Trade Mark Licence Agreement (as summarised in paragraph 12.1.5 of Part XI of this document). The licence will be granted for an initial period of five years with a right to renew for a further five years on substantially similar terms. After such ten year period, the parties have agreed, without obligation, to consider further renewal on comparable terms. As well as its use in TUI Travel's name, the TUI brand is intended to be used extensively in the Enlarged Group's tour operating and aviation activities in Europe. It may be that the Enlarged Group and TUI AG are unable to agree terms for any further renewal of the Trade Mark Licence Agreement after the initial ten year period, or that any agreement may only be reached at substantially greater cost to the Enlarged Group than the licence fee.

Risks relating to the Merger

The conditions to completion of the Merger may not be satisfied.

Completion is conditional upon, among other things, approval by the First Choice Shareholders and approval of the Scheme by the Court. Any relevant body may refuse to grant its approval or may seek to make their approval subject to compliance by TUI AG, TUI Tourism, TUI Travel or First Choice with onerous conditions. These conditions, if accepted, could have the effect, among other things, of imposing significant additional costs on the Enlarged Group, limiting the Enlarged Group's revenues, or imposing other operating restrictions upon the business of the Enlarged Group.

The expected benefits of the Merger may not be realised.

There can be no assurance that the post-Completion reorganisation of the businesses of TUI Tourism and First Choice will achieve the anticipated synergies and cost savings.

The Board believes that the Enlarged Group will deliver pre-tax cost benefits estimated to be at least £100 million (€146 million) per annum, which will be fully realised within three years of Completion. It is expected that the restructuring costs associated with the delivery of the synergies will amount to £130 million (€190 million). These potential benefits can only be fully realised

through a successful integration of the businesses and there is a risk that if the implementation of the integration plan does not proceed as contemplated, the forecast synergies may not be realised, or they may not be realised according to the timescale contemplated. In addition, details of proposed synergies will need to be the subject of discussion and consultation with trade unions, employee representatives and European and local works councils as appropriate.

The success of the Merger depends on the ability of the Enlarged Group effectively to combine the businesses of TUI Tourism and First Choice, which will involve operational complexities. Failure successfully to combine the businesses of TUI Tourism and First Choice would have an adverse impact on the Enlarged Group's business, financial condition and results of operations.

Risks relating to the TUI Travel Shares

The market price of TUI Travel Shares may go down as well as up.

The price at which TUI Travel Shares are quoted and the price at which investors may realise their TUI Travel Shares will be influenced by a large number of factors, some specific to the Enlarged Group and its operations and some which may affect the quoted travel company sector or quoted companies generally and which are outside of TUI Travel's control. These factors could include the performance of the Enlarged Group, large purchases or sales of TUI Travel Shares, legislative changes in the travel industry, general economic, political or regulatory conditions, changes in market sentiment towards TUI Travel Shares or changes in applicable taxation regimes. The Enlarged Group's results may fall below the expectations of securities analysts and investors as a result of these or other factors. In addition, stock markets from time to time suffer significant price and volume fluctuations which could affect the market price of TUI Travel Shares, but which are unrelated to the Enlarged Group's operating performance. Any of these events could result in a decline in the market price of TUI Travel Shares.

The interests of TUI AG, as majority shareholder, may not always coincide with the interests of TUI Travel or TUI Travel's other shareholders.

At Completion, TUI AG will hold 51 per cent. of the TUI Travel Shares, calculated on a fully diluted basis. As a result, TUI AG will have the voting majority necessary to block or adopt certain resolutions of TUI Travel Shareholders, including those concerning the election of Directors and the distribution of dividends. Subject to the terms of the Relationship Agreement, TUI AG will be able to exercise influence over TUI Travel. This concentration of ownership may have the effect of delaying or deterring offers by third parties to purchase some or all of the outstanding TUI Travel Shares or otherwise to bid for ownership of TUI Travel. Such delay or deterrence could deprive TUI Travel Shareholders of opportunities to receive a premium for their TUI Travel Shares as part of a sale of TUI Travel, and that possibility may prospectively have a negative effect on the market price of TUI Travel Shares.

Further, although TUI AG has agreed not to dispose of any of its holding of TUI Travel Shares for a period of 12 months following Completion other than in certain defined circumstances, it may subsequently sell all or part of its holding of TUI Travel Shares. Such a sale could result in an excess supply of TUI Travel Shares in the market, which would in turn negatively impact the market price of TUI Travel Shares.

Although TUI AG, TUI Tourism and First Choice currently anticipate a strong relationship and alignment of interests between TUI Travel and TUI AG, the business goals of TUI Travel and TUI AG may not always coincide. A divergence of business goals may lead to TUI AG using its voting majority to adopt or block resolutions whose effects may not be in the best interest of TUI Travel or TUI Travel's other shareholders.

Forward-looking statements

Certain statements contained in this document, including those in the Parts headed "Summary", "Risk Factors", "Information on the Enlarged Group", "Information on the Merger", "Financial Information on TUI Tourism", "Financial Information on First Choice", "Operating and Financial Review Relating to TUI Tourism" and "Operating and Financial Review Relating to First Choice" constitute "forward-looking statements". In some cases, these forward-looking statements can be identified by the use of forward-looking terminology, including the terms "believes", "estimates", "plans", "prepares", "anticipates", "expects", "intends", "may", "will" or "should" or, in each case, their negative or other variations or comparable terminology. Investors should specifically consider the factors identified in this document which could cause actual results to differ before making an investment decision. Such forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of TUI Tourism, First Choice or, following Completion, the Enlarged Group or industry results, to be materially different from any future results, performance or achievement expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding TUI Tourism's, First Choice's and, following Completion, the Enlarged Group's present and future business strategies and the environment in which TUI Travel will operate in the future. As a result TUI Tourism's, First Choice's and, following Completion, the Enlarged Group's actual future financial condition, performance and results may differ materially from the plans, targets and expectations set out in the TUI Tourism's, First Choice's and TUI Travel's forward-looking statements contained in this document or any other forward-looking statement any of them may make. Except as required by the Prospectus Rules, the Listing Rules, the Disclosure and Transparency Rules, the London Stock Exchange or by law, none of TUI Tourism, First Choice and TUI Travel undertakes any obligation to update any of the forward-looking statements contained in this document or other forward-looking statements any of them may make.

NON-STATUTORY TERMINOLOGY

EBITDA is calculated as operating profit before depreciation of tangible fixed assets, impairment and amortisation of intangible assets where these are included in operating profit. EBITDA is not a measurement of performance under IFRS and an investor should not consider EBITDA as an alternative to operating profit or net result (as determined in accordance with generally accepted accounting principles); or as a measure for operating performance or as an alternative to net cash outflows or inflows from operating, investing and financing activities (as determined in accordance with generally accepted accounting principles); or as an alternative to any other measure of performance under generally accepted accounting principles. EBITDA is commonly reported and widely used by investors and other interested parties as a measure of a company's operating performance and debt servicing ability because it assists in comparing performance on a consistent basis without regard to depreciation and amortisation, which can vary significantly depending upon accounting methods or non operating factors. Accordingly this information has been disclosed to permit a more comprehensive analysis of the performance. As companies do not calculate EBITDA identically, the presentation of EBITDA may not be comparable to similarly titled measures of other companies. In addition, the EBITDA information included in this document is unaudited.

EXCHANGE RATES

Unless otherwise stated, throughout this document the exchange rate used to convert between Sterling and Euro is £1.00 : €1.46 and €1.00 : £0.68.

Crediting of TUI Travel Shares to CREST accounts	8.00 a.m. on 3 September 2007
Latest date for despatch of share certificates in respect of TUI Travel Shares	17 September 2007

(1) These times and dates are indicative only and the expected dates following the Court Hearings referred to above will depend, among other things, on the date upon which the Court sanctions the Scheme and confirms the Reduction of Capital. If any of the above times and/or dates change, the revised times and/or dates will be notified by announcement through the Regulatory Information Service.

(2) Unless otherwise stated, all references in this document to times are to London times.

(3) The form of proxy for the Court Meeting (but not the First Choice EGM) may alternatively be handed to First Choice's registrar on behalf of the Chairman of the Court Meeting at the start of the Court Meeting.

(4) If either the Court Meeting or the First Choice EGM is adjourned, the Scheme Voting Record Time for the relevant adjourned meeting will be 6.00 p.m. on the date two days prior to the date set for the adjourned meeting.

(5) Or as soon thereafter as the Court Meeting shall have concluded or been adjourned.

Part II

Information on the Enlarged Group

1. Introduction

On Completion, the Enlarged Group will be a leading international travel group which, on a combined basis in 2006, operated in approximately 180 countries worldwide and served more than 30 million customers in over 20 source markets.

The Enlarged Group's pro forma revenue and earnings before interest, tax, depreciation, amortisation and impairment, (EBITDA) from continuing operations and acquisitions were £12.3 billion (€18.0 billion) and £467 million (€683 million) respectively on a combined basis in 2006. *(Source: unaudited pro forma financial information as set out on page 305 of this document).*

The Board believes that the Merger offers significant benefits to First Choice Shareholders and its customers, employees and business partners.

2. Background to the Merger

The leisure travel environment has changed significantly over the last decade. The rapid development of low-cost airlines, the growth of online intermediaries, as well as increasing access to travel products via the Internet has driven changes in consumer behaviour. As a result, consumers are increasingly demanding greater flexibility and choice when purchasing leisure travel products and are seeking to access travel content through a number of points of sale, most notably the Internet.

Travel companies have responded to these changes, with both TUI Tourism and First Choice successfully reorganising their respective business models to compete within the new market:

- TUI Tourism has adapted to the changes in consumer behaviour by extending its product offering from traditional package holidays to a more Internet-based component offering, including seat-only, accommodation-only, dynamic packaging and other travel related products to ensure that its brands remain relevant in the current leisure travel market place.
- First Choice has pursued a strategy of providing differentiated and exclusive products to its customers. It has invested in its mainstream business (including the development of six exclusive Holiday Villages) and built leadership positions in growing niche segments via a successful acquisition strategy. The result has been double-digit earnings growth each year since 2003.

Consequently, the Board believes that the Merger, through the combination of TUI Tourism's large consumer tour operating brands, flight and bed content and web-led modular strategy with First Choice's specialist brands and product differentiation strategy, will create a business that is competitively positioned to satisfy all the leisure travel needs of the travel consumer. Whether that is an independent traveller seeking access to a flight or hotel room, the traditional package holidaymaker looking for the value and security of a package holiday or a travel consumer who is seeking a different type of leisure travel experience, the Enlarged Group will be able to provide the relevant content, through a variety of controlled distribution channels.

3. Competitive Strengths

The Board believes that the following key competitive strengths will enable the Enlarged Group to deliver sustainable revenue and earnings growth:

- the breadth and depth of its travel operations which address a wide range of consumer travel needs, including individual travel components (such as flights and accommodation), fully integrated package tours and niche travel products;
- a strong portfolio of over 170 brands, including leading brands such as TUI, Thomson, First Choice, JetAir, Sunsail, The Moorings, Marmara and Nouvelles Frontières;

- a variety of distribution channels in all major source markets, including off-line (retail shops and brochures), call centres and online (web-based) distribution, in order to maximise customer reach, ease of booking and flexibility of choice for customers;
- the opportunity to cross-sell differentiated travel products into the combined source markets of the Enlarged Group in cases where such opportunities have not previously been exploited;
- a leading position in the attractive long-haul segment of the travel market, supported by the Enlarged Group's experience in this segment and a firm order book for the new, fuel-efficient Boeing 787 Dreamliner, a new generation of aircraft which will enable the Enlarged Group to provide its customers with an enhanced long-haul experience to new and existing long-haul destinations;
- enhanced economies of scale in an increasingly competitive market place and the opportunity to realise significant pre-tax synergies (estimated to be at least £100 million (€146 million) per annum on an annualised basis within three years of Completion). For further information, see paragraph 7 of this Part II;
- leading Internet travel offerings in most source markets in terms of scale, product range and technology;
- management's experience in making value-enhancing acquisitions, particularly in fragmented niches of the travel market where businesses have attractive growth characteristics; and
- management's track record of improving underlying profit margins and delivering shareholder value.

4. Objectives and strategy of the Enlarged Group

TUI Travel's primary strategic objectives are:

- to be one of the world's leading leisure travel groups by providing customers with a wide choice of products with the flexibility to meet their changing needs;
- to deliver earnings growth and margin expansion through the combination of organic development and selected acquisitions;
- to deliver cost synergies and maintain a lean and efficient business model; and
- to maximise shareholder value.

TUI Travel aims to achieve these objectives through the following principal strategies:

- *Offering a comprehensive range of travel content to the consumer*—the Enlarged Group will have access to a range of products, from differentiated and exclusive content within the package holiday market, to a specialist portfolio of niche travel businesses. Its significant bed and flight content, particularly in European leisure destinations, which is accessible via multiple distribution channels, including the Internet, will enable it to offer its customers both flexibility and choice. It intends to maintain and further develop this product range.

  The Enlarged Group will also focus on offering its combined range of travel services in all of its source markets in order to maximise their potential. For example, it will seek to package and distribute specialist content (such as yachting holidays or adventure travel) into new and existing source markets, by accessing the existing operational and product expertise within First Choice and optimising the brand strength and distribution capability of TUI Tourism within all major European markets.

  The Enlarged Group aims to develop further its leading position in the attractive long-haul leisure travel segment across a number of key source markets. This will be achieved through continued investment in its long-haul fleet capacity. The Enlarged Group is a launch-customer in Europe for the new Boeing 787 Dreamliner and it has a firm order book for 23 Boeing 787s, deliveries of which are expected to commence in 2009. The Boeing 787, with its use of carbon-fibre components, represents a new generation of aircraft that will use 20 per cent. less fuel for comparable flights than today's similarly sized airplanes. These aircraft will also provide an

enhanced in-flight experience for the Enlarged Group's customers through a combination of increased comfort and conveniences onboard. The Boeing 787 also has a greater range capacity which will enable the Enlarged Group to operate to destinations for its customers that previously could only be reached by taking a secondary flight. Furthermore, the Enlarged Group will continue to develop differentiated experiences in resorts such as the Holiday Village offering which will drive earlier bookings, higher repeat rates and enhanced margins.

- *Increasing controlled distribution, developing the brand portfolio and improving yield management*—the Enlarged Group will continue to invest in its controlled distribution channels and, in particular, those channels which will maximise Internet sales and content. It will also continue to build strong brand awareness and loyalty through its portfolio of market-leading consumer brands and specialist niche brands. The Enlarged Group will develop its Internet distribution capability across the European market and specialist portfolio, while maintaining (and growing where relevant) its retail and call centre distribution channels in Europe.

  The Enlarged Group will introduce its existing leading-edge yield management techniques and systems across all its key source market operations. This will enable it to drive incremental margins by micro managing the distribution of content by enabling it to manage capacity and load factor with real-time information.

- *Maintaining an efficient and flexible business model*—the Enlarged Group will benefit from the economies of scale and consolidation synergies to maintain an efficient cost base, particularly in the Mainstream Sector. In addition, the Enlarged Group expects to benefit from the restructuring and earnings enhancement programme announced by TUI AG in December 2006 which is progressing well. Building flexibility across the business model will also be a key imperative for the Enlarged Group to enable it to manage capacity and react to changes in demand. This is particularly relevant with regards to aircraft and the combined fleets have lease maturity profiles that can provide this flexibility.

  The Enlarged Group will establish TUI Airline Management ("TAM") as the airline competence centre across the Enlarged Group. TAM will be responsible for coordinating group fleet planning and aircraft sourcing requirements as well as being responsible for the implementation of best practice group quality and safety standard procedures across the airlines. Consistency and harmonisation will be achieved through the implementation of common business and IT platforms across the airlines and through a network of intra-group services between the airlines.

- *Making value-enhancing acquisitions in high-growth segments of the market*—the Enlarged Group intends to continue to invest in small to medium-sized bolt-on acquisitions within specialist segments of the leisure travel market in order to build leadership positions in higher margin niche segments that have strong growth characteristics. The Enlarged Group's acquisition pipeline remains strong. The Enlarged Group will continue to participate in new segments of the leisure travel market through acquisitions. The Enlarged Group will also seek to build upon its leadership positions in the North American student travel market, as well as international escorted tours, adventure travel and online content, while also expanding further into the Asia Pacific and Latin American travel markets. The Enlarged Group has already secured funding facilities to enable it to finance this strategy.

5. History

First Choice and TUI AG signed a Merger Agreement on 19 March 2007, pursuant to which the parties agreed to merge TUI Tourism with First Choice to form the Enlarged Group. A brief description and history of TUI Tourism and First Choice is set out below.

TUI Tourism

Until the mid-1990s, TUI AG operated predominantly in the areas of industry, transport and natural resources. After a number of significant disposals and acquisitions, today, TUI AG's core businesses

are tourism and shipping. TUI Tourism is a one-stop shop for leisure travel related products, and has established itself a leader in the European travel market. Whether for component web-based bookings or package tours, TUI Tourism covers the entire travel chain, in more than 70 holiday destinations for over 20 million customers. Its portfolio comprises around 3,200 travel agencies, 70 market leading tour operator brands, over 120 aircraft, and over 40 inbound agencies as well as access to over 165,000 hotel beds.

First Choice

With over nine million customers in 2006, First Choice is a leading leisure travel company with operations in 17 source markets serving more than 160 destinations. Its portfolio of more than 80 mainstream and specialist brands, including First Choice, Marmara, The Moorings, and Sunsail provides the customer with access to a wide range of holiday experiences, from a two week holiday in the Mediterranean to Arctic expedition cruising, to student educational travel and cultural escorted tours. The business operates a flexible business model with a fleet of 33 aircraft and 420 travel agencies, and employs approximately 15,000 people across the world through its portfolio of over 80 leading leisure travel brands.

First Choice was established in the UK in 1973 under the name Owners Abroad. In 1982, the shares of First Choice were listed on the London Stock Exchange and it launched its own airline, Air 2000, in 1987. Owners Abroad re-branded as First Choice Holidays PLC in 1994.

Since 1994, principal events in First Choice's development have included the strengthening of its long-haul capability through the purchase of Unijet and Hayes & Jarvis in 1998, its entry into the marine travel market with the acquisition of Sunsail in 1999, the creation of Online Destination Services following the acquisition of the Barceló Travel division in 2000 and its entry into the adventure travel market with the acquisition of Exodus in 2002.

6. Description of the business

Introduction

The Enlarged Group will be headquartered in Crawley, near Gatwick airport in the UK and will employ approximately 48,000 people. The Enlarged Group will serve the leisure travel consumer and it will be organised and managed through the following four Sectors:

- Mainstream
- Specialist
- Activity
- Online Destination Services

A further description of each of these Sectors is set out below.

Where information is presented in this Part II on "a combined basis in 2006" in respect of the Enlarged Group, it is presented in respect of TUI Tourism for the year ended 31 December 2006 and in respect of First Choice for the year ended 31 October 2006.

Mainstream

This Sector includes the sale of flights, accommodation, car hire, transfers and excursions, in addition to package holidays within the mainstream segment of the leisure travel marketplace. It comprises a number of vertically integrated tour operators, such as Thomson, First Choice and TUI Deutschland which, on a combined basis in 2006, consisted of 155 aircraft and 3,594 retail shops, across the UK, Ireland and Continental Europe.

On a combined basis in 2006, this Sector represented 65.8 per cent. of the underlying operating profit of the Enlarged Group.

This Sector operates within two key segments of the leisure travel market:

- Package holidays: this includes the sale of differentiated and exclusively available content, such as the Holiday Villages hotels and long-haul travel, in addition to more traditional package holidays.
- Component: this includes the sale of flights, accommodation, car hire, transfers and excursions, either as separate components or together as part of a customer assembled package holiday. The component element of sales in this segment is increasingly provided via the Internet through a number of branded web portals such as Thomson.co.uk and TUIfly.com. By providing the customer with the flexibility to choose single sector flight-only options on both the Enlarged Group's scheduled and charter flight operations, the Enlarged Group participates in the fast growing flight-only segment of the European leisure travel market.

This Sector employed approximately 38,000 employees on a combined basis in 2006 and consists of three geographical divisions:

- The Central Europe division comprises the distribution and tour operator businesses in Germany, Switzerland, Austria and the Eastern European markets as well as the operation of airlines. On a combined basis in 2006, Central Europe had a fleet of 48 aircraft, retail estate of 1,774 shops and 9,411 employees.
- The Northern Europe division comprises the distribution and tour operation businesses in the UK, Ireland and the Nordic countries as well as the following airlines: TUIfly Nordic, Thomsonfly and First Choice Airways. On a combined basis in 2006, it had a fleet of 84 aircraft, retail estate of 1,131 shops and 22,298 employees and includes the Nordotel, Atlantica and Safeharbour hotel chains.
- The Western Europe division comprises the distribution and tour operation businesses in France, the Netherlands and Belgium as well as the following airlines: Corsairfly, Arkefly and Jetairfly, and a 40 per cent. stake in Jet4you.com (Morocco). On a combined basis in 2006, it had a fleet of 20 aircraft, retail estate of 689 shops and 6,504 employees.

Specialist

This Sector operates in three segments, Destination, Premium and Lifestages:

- The Destination segment comprises a number of specialist brands across 11 source markets that have become market leaders to certain destinations out of the source markets in which they operate. This has been achieved by focusing on a relatively small number of destinations whilst establishing a breadth of product that is often exclusive and provides the customer with a range of experiences in that destination. Brands within this Sector include Marmara, Turchese and Signature Vacations.
- The Premium segment consists of a portfolio of five brands, including Hayes & Jarvis, Sovereign, Citalia and Meon, and these specialise in premium leisure travel experiences, across a range of destinations in Europe, Asia and the Caribbean.
- The Lifestages segment consists of a portfolio of businesses which focus on a particular customer demographic, such as the student travel and grey market travel segments of the leisure travel market.

On a combined basis in 2006, this Sector represented 10.6 per cent. of the underlying operating profit of the Enlarged Group and employed approximately 2,914 employees serving over two million customers.

The businesses within this Sector operate with business models that are flexible and cost efficient, with the following shared characteristics:

- Flexibility in aircraft and accommodation contracts: the businesses in this Sector typically operate a reverse charter model with third party airlines, whereby aircraft are based in destinations (as opposed to based within source markets), with less than 50 per cent. of seat

capacity contracted. This enables the businesses to share flying commitments and, as a result, optimise flight yield and utilisation to drive higher margins.

- Low overhead infrastructure: Each business within this Sector operates a low overhead business model with administration and management maintained at the optimum level to support the business but maximise margins.

Activity

This Sector operates in three market segments, Marine, Adventure and Experiential.

- The Marine division includes First Choice Marine, which operates the market leading yacht chartering brands of Sunsail and The Moorings, in addition to Sunsail Clubs and Inland Waterways (Crown Blue Line and Connoisseur).
- The Adventure division consists of a portfolio of 17 adventure travel businesses, including First Choice Expedition Cruising, Exodus, Peregrine and Headwater. The portfolio of businesses has grown both organically and by acquisition, with the division averaging double-digit top line growth year-on-year while achieving high operating margins.
- The Experiential segment consists of six brands, such as Travcoa and TCS, that operate specialist escorted tours offering cultural and luxury escorted travel experiences for the US source market. These businesses have seen volume increases year-on-year as customers seek new cultural and luxury escorted travel experiences.

On a combined basis in 2006, this Sector represented 7.8 per cent. of the underlying operating profit of the Enlarged Group, and employed approximately 3,300 employees serving almost 400,000 customers.

The businesses within this Sector operate a mix of flexible and capital intensive business models to suit the travel experience offered. For example, on a combined basis in 2006 the Marine division consisted of 2,415 yachts and boats, while the First Choice Expedition Cruising business operated ten polar and adventure cruising ships. Selective asset ownership delivers competitive advantage as the businesses are able to invest in new technology and content, maintain operational control of the experience, and seek to optimise asset utilisation to drive margins.

Online Destination Services

The Online Destination Services Sector consists of market-leading incoming agencies which provide services such as guest assistance, transfers, excursions and roundtrips to Enlarged Group and third party tour operators and their clients. This Sector also sells accommodation online to both consumers and businesses and provides specialised services to cruise lines and the management of meetings and incentives activities for corporate clients.

On a combined basis in 2006, this Sector represented 15.8 per cent. of the underlying operating profit of the Enlarged Group.

The Enlarged Group provides its destination services through a portfolio of destination agencies in 48 countries around the world. The majority of these agencies are wholly owned, although joint ventures with local partners and minority interest investments also form part of the portfolio ownership structure.

This Sector's on-line accommodation services leverage the Enlarged Group's traditional offline content and relationships by distributing such content online via two main distribution channels:

- Business to business (*Hotelbeds* and *Bedsonline*)—by optimising its relationships with local hoteliers in its destinations, on a combined basis in 2006 the Enlarged Group was able to provide a bedbank of more than 25,000 hotels and apartments across 900 destinations to both independent travel agents and tour operators. The business now has over 1,800 tour operators and 7,000 travel agents as clients, who are able to access content and check availability and prices in real time. This Sector does not offer any of the exclusive hotel stock (e.g., Holiday Villages) only available to the Enlarged Group via these channels.

- Business to consumer—the Enlarged Group's online-only branded channels, such as Hotelopia, laterooms.com and TUIhotels.com, enable customers to book their accommodation as a component of their holidays, rather than as part of a package holiday. Hotelopia and laterooms.com, which focus on late availability, have access to the same bedstock as Hotelbeds and Bedsonline. A key aspect in the growth of this distribution channel is the establishment of strategic partnerships where Hotelopia delivers the content and functionality for well-known companies under their own brands. Laterooms.com is a leading online price comparator and seller of late availability hotel rooms (with particular focus on less than 24 hours), which sold 1.3 million room nights in 2006. Operating within a niche, specialist segment of the online market (i.e. late availability), it provides primarily independent hotels the opportunity to distribute late availability hotel stock. Based on a low overhead business model with no inventory risk, it has the ability to create strong margins, growth and cash generation. It primarily operates in the UK but is expanding into Europe, where a significant opportunity exists due to the fragmented ownership structure of hotels.

This Sector's destination services consist of market-leading incoming agencies which provide services such as guest assistance, transfers, excursions and roundtrips to Enlarged Group and third party tour operators as well as their clients. By providing these services, the agencies support the core tourism business and help to promote the respective travel brands of the Enlarged Group. The companies in this Sector also organise meetings, incentives, congresses and events for corporate clients and offer cruise handling services to international cruise lines. Both businesses are organised under common brands in order to achieve marketing and sales synergies on a global level. Finally, the agencies actively seek additional in-resort profit opportunities for the Enlarged Group by diversifying their activities across the tourism value chain in the destination.

On a combined basis in 2006, this Sector employed approximately 4,400 people and served nearly 15 million customers.

7. Integration and synergies

The Board believes that the Enlarged Group will deliver pre-tax cost benefits, estimated to be at least £100 million (€146 million) per annum on an annualised basis within three years of Completion. It is expected that the restructuring costs associated with the delivery of the synergies will amount to £130 million (€190 million), the majority of which will be incurred within two years of Completion.

Cost synergies are expected to arise mainly in the UK, but benefits are expected to accrue across Europe through economies of scale in the combined operations and consolidation of the First Choice and TUI Tourism operations. In the UK, synergies will be focused on combining the UK source market mainstream tour operations, and in particular improving operational efficiency within the charter airline operations. In addition, the streamlining of duplicate central functions, overheads and retail distribution capability in the UK is expected to generate significant savings for the Enlarged Group.

The expected cost synergies of at least £100 million (€146 million) per annum are in addition to any benefits expected from the existing TUI Tourism restructuring programme, announced by TUI AG on 15 December 2006.

8. Directors and Senior Managers

Board of the Enlarged Group

The Board of TUI Travel is drawn from the boards of First Choice, TUI AG and the current management of TUI Tourism, supplemented by additional independent Non-Executive Directors. The Board comprises 14 Directors and, following the appointment of three further independent Non-Executive Directors as soon as practicable following Completion, the majority of the Board will be independent.

The Board is chaired by Dr Michael Frenzel as Non-Executive Chairman (currently Chief Executive of TUI AG), with Sir Michael Hodgkinson (currently Chairman of First Choice) appointed as Independent Non-Executive Deputy Chairman.

The executive team of TUI Travel is:

	Position following Completion	Current Position
Peter Long	Chief Executive	Chief Executive of First Choice
Peter Rothwell	Deputy Chief Executive	Chief Operating Officer of TUI Tourism
Paul Bowtell	Chief Financial Officer	Chief Financial Officer of First Choice
William Waggott	Commercial Director	Chief Financial Officer of TUI Tourism
Christoph Mueller	Aviation Director	Member of executive board of TUI AG
Dr Volker Böttcher	Managing Director, Central Europe	Chief Executive of TUI Tourism Central Europe

In addition to the Chairman and Deputy Chairman, the Board includes six Non-Executive Directors, of whom five are independent. The Non-Executive Directors are Tony Campbell, Clare Chapman, Bill Dalton, Jeremy Hicks, Giles Thorley (who are currently Non-Executive First Choice Directors) and Rainer Feuerhake (who is currently Chief Financial Officer of TUI AG). Three additional independent Non-Executive Directors will be appointed by the Board as soon as practicable following Completion.

Senior Management of the Enlarged Group

In addition to the executive team outlined above, the senior management of the Enlarged Group will be made up of the following existing senior managers from First Choice and TUI Tourism, and will form the group management board of the Enlarged Group:

	Position following Completion	Current Position
Andrew John	Group Legal Director and Company Secretary	Legal Director and Company Secretary, First Choice
Bill Logan	Group Human Resources Director	Human Resources Director, First Choice
Dermot Blastland	Managing Director, UK & Ireland	Managing Director, Mainstream, First Choice
Johan Lundgren	Managing Director, Nordic	Managing Director Scandinavia, TUI Tourism
Bart Brackx	Managing Director, Western Europe	Managing Director, Western Europe, TUI Tourism
Richard Prosser	Managing Director, Specialist	Managing Director, Specialist, First Choice
John Wimbleton	Managing Director, Activity	Managing Director, Activity, First Choice
Joan Vilà	Managing Director, Online Destination Services	Managing Director, Online Destination Services, First Choice
Wolfgang Bremer	Managing Director, TUI Destination Management Services	Managing Director, Destination Management Services, TUI Tourism

Further information relating to the Board, management, corporate governance and employees is set out in Part IV of this document.

9. Relationship Agreement and other arrangements between TUI Travel and TUI AG

Relationship Agreement

Following Completion, TUI AG will hold 51 per cent. of the TUI Travel Shares on a fully diluted basis. The terms of the Merger Agreement require the Relationship Agreement to be entered into between TUI AG and TUI Travel. The Relationship Agreement sets out the principle that TUI Travel will operate independently of TUI AG and records the understanding between TUI AG and TUI Travel regarding the relationship between them and the governance of TUI Travel.

The Relationship Agreement will come into effect on Admission and will remain in force until either the TUI Travel Shares are no longer admitted to listing on the Official List and to trading on the London Stock Exchange, or TUI AG has less than 10 per cent. of the rights to vote at general meetings of TUI Travel. In addition, in the event that a person (acting alone or in concert with other persons) acquires control of TUI AG during the term of the Relationship Agreement, TUI AG will lose certain rights under the Relationship Agreement including its rights in respect of the composition of the Board.

The Relationship Agreement provides that the Board shall have a maximum of 17 Directors, a majority of whom shall be independent. It confers on TUI AG the right to appoint two Non-Executive Directors to the Board (being "Shareholder Directors") for so long as TUI AG holds 30 per cent. or more of the voting rights in TUI Travel. In addition, for so long as TUI AG holds 40 per cent. or more of the voting rights in TUI Travel, TUI AG may appoint one of its Shareholder Directors as

the Chairman of the Board. The Relationship Agreement also allows TUI AG to relinquish its right to appoint the Chairman and instead to appoint the Chief Executive of TUI Travel.

The Relationship Agreement also contains restrictions on TUI AG's ability to dispose of TUI Travel Shares in the 12 months following Admission and contains restrictions on the acquisition by TUI AG of additional TUI Travel Shares which result in the increase of its shareholding to more than 55 per cent. of the voting rights in TUI Travel (save where TUI AG makes a general offer to acquire all TUI Travel Shares in issue). TUI AG has anti-dilution rights in respect of further issues of TUI Travel Shares other than on a pre-emptive basis.

TUI Travel has agreed that certain matters will require the prior approval of 80 per cent. of the Directors present at the meeting of the Board at which such matter is considered, including material changes to the business of any Group Company, acquisitions and disposals of a value which exceeds £10 million, the entry into, variation or redemption prior to their due date of any borrowing facilities and the approval of the annual budget of the Enlarged Group.

In addition, TUI Travel is prevented from doing certain things which may cause TUI AG to breach any of the restrictions under its current bond facilities in the absence of any permitted exemption, including entering into external borrowings, creating security over its assets and restricting its ability to pay dividends.

Other arrangements

TUI Travel and TUI AG have entered into the Shareholder Loan Agreement, under which TUI AG will lend a maximum amount of €2 billion to TUI Travel with effect from Completion. This agreement will provide TUI Travel with funds for general corporate purposes for the period from Completion until the date three years after TUI Travel is no longer restricted from raising external finance by the terms of the Relationship Agreement (as referred to above).

TUI Travel and TUI AG have entered into the Hotel Framework Agreement, which governs the commercial relationship between TUI AG and TUI Travel in respect of the distribution of hotel beds forming the hotel portfolio interests retained by TUI AG on Completion.

Prior to Completion, TUI Travel and TUI AG will enter into the Trade Mark Licence Agreement, under which TUI AG will grant to TUI Travel an exclusive right to use the registered trade mark "TUI Travel" with effect from Completion.

Further details of the Relationship Agreement, Shareholder Loan Agreement, Hotel Framework Agreement and Trade Mark Licence Agreement are set out in paragraphs 12.1.2, 12.1.3, 12.1.4 and 12.1.5 of Part XI of this document respectively.

Transitional services will be provided by TUI AG to TUI Travel after the Effective Date, but are not considered to be material.

10. Dividend Policy

Following Completion, consistent with the Enlarged Group's enhanced growth strategy, TUI Travel intends to follow a progressive dividend policy which balances delivering returns to shareholders with the need to retain sufficient funds for investment in growth opportunities, including the ongoing expansion of the specialist portfolio. In setting its initial dividend, it is expected that, as from the Effective Date, TUI Travel will target a dividend cover in the order of two times.

It is intended that, following Completion, one or more Group Companies undertakes a Court-approved capital reduction under section 135 of the Companies Act 1985 to create additional distributable reserves. This is principally to ensure that TUI Travel possesses sufficient distributable reserves to continue to be able to pay dividends in accordance with its dividend policy.

11. Capital Resources

TUI Travel will be financed through three principal facilities: (i) a new bank facility which will provide £600 million of funding in the form of cash advances, letters of credit and bank guarantees

(subject to a maximum amount of £200 million which may be drawn down in the form of a letter of credit or bank guarantee); (ii) a new bonding facility which will provide £400 million of funding in the form of a bonding line; and (iii) a €2 billion shareholder loan from TUI AG. A summary of the terms of the bank facilities referred to in (i) and (ii) above and the Shareholder Loan Agreement referred to in (iii) above are set out in paragraphs 12.1.7, 12.1.8 and 12.1.3 respectively of Part XI of this document.

Information on the capital resources of TUI Tourism and First Choice is set out in paragraph 2.2 of Part VI and paragraph 2.2 of Part VIII of this document respectively.

12. Current Trading and Prospects

TUI Tourism

Trading for the financial year 2007 is in line with the Board's expectations. Overall demand in the travel market remains strong, with varying levels of growth in demand across TUI Tourism's source markets.

Overall, bookings for the 2007 Summer season have started well, with customer numbers up 7.8 per cent. and booked revenues up 2.8 per cent. year-on-year, as at 22 June 2007. The Central Europe Sector, which includes the large German source market, recorded a good increase in bookings, although the Sector's results are affected by start-up costs in connection with the restructuring of flight operations under the new brand TUIfly.com. Customer numbers and booked revenues have also increased in the Western Europe Sector, although the Northern Europe Sector has experienced a decline year-on-year due to difficult market conditions in the UK and Ireland.

Despite varying trends across TUI Tourism's source markets, in the absence of significant adverse events the performance for the full year is expected to be in line with the Board's expectations.

First Choice

Trading for the financial year 2007 has been in line with the Board's expectations. For the 2007 Summer season, the Mainstream Holidays Sector has performed in line with management expectations in what remains a challenging market. As at 24 June 2007, revenues were cumulatively up four per cent. on volume growth of one per cent., with overall capacity flat on 2006. Capacity in the short-haul market has been reduced by five per cent., with revenues down seven per cent. on lower volumes of five per cent. Within the medium haul segment, where capacity has been maintained at 2006 levels, both revenues and volumes are flat. The long-haul segment has experienced strong demand, with capacity up by 25 per cent. and revenues up by 26 per cent. on volume growth of 22 per cent.

The Specialist Holidays Sector has had an excellent start to the 2007 summer season across all its businesses, with sales and volumes as at 24 June 2007 up 18 per cent. and 16 per cent., respectively, on 2006 as a result of increased demand for lifestyle and destination specialist products.

In the Activity Holidays Sector, summer revenues were up five per cent. as at 24 June 2007, as the Sector continues to perform in line with the Board's expectations. Revenues were up seven per cent. in the Adventure business and up two per cent. in the Marine business, on a like-for-like basis. Margins are currently slightly ahead of last year for the summer programme.

In the Online Destination Services Sector, all routes to market as at 24 June 2007, continue to grow and are performing well, with sales and bednights up 50 per cent. and 30 per cent. respectively, with margins also ahead of last year. The integration of laterooms.com is progressing as planned, as the business enjoys strong demand for late availability bedstock, with sales and volumes up 78 per cent. and 73 per cent. respectively.

Part III

Information on the Merger

1. Introduction

On 19 March 2007, the boards of First Choice and TUI AG announced that they had agreed the terms of a recommended merger to create one of the world's leading travel groups to be called TUI Travel PLC.

On announcement, the Merger was subject to (amongst other things) the satisfaction of certain conditions, including the receipt of appropriate competition clearances. Such clearances have now been received. However, the implementation of the Merger remains subject to the satisfaction or waiver of the conditions referred to in paragraph 6 of this Part III.

2. Structure of the Merger

It is intended that the Merger, which is being unanimously recommended by the boards of TUI AG and First Choice, will be effected through the acquisition by TUI Travel of First Choice (by means of the Scheme) and, simultaneously with completion of the Scheme, the acquisition by TUI Travel of TUI Tourism from TUI AG.

Under the terms of the Scheme, the First Choice Shares will be cancelled and, on the Effective Date, First Choice Shareholders will receive one TUI Travel Share for each First Choice Share. The total number of TUI Travel Shares issued to First Choice Shareholders on Completion will constitute 49 per cent. of the entire issued share capital of TUI Travel immediately after Completion (on a fully diluted basis).

In consideration of the transfer by TUI AG of TUI Tourism to TUI Travel, TUI Travel will issue 570,197,768 TUI Travel Shares to TUI AG, constituting 51 per cent. of the entire issued share capital of TUI Travel immediately after Completion (on a fully diluted basis). In addition, TUI Travel will assume €875 million of target net debt (inclusive of pension liabilities).

Following implementation of the Merger, TUI AG will be the parent company of TUI Travel. TUI AG has a current market capitalisation of €4.99 billion (based on the closing price of €19.89 for each share in TUI AG on 27 June 2007 and 251 million TUI AG shares outstanding) and is a member of Germany's blue-chip DAX 30 Index. TUI AG will retain its interests in shipping and hotels after Completion.

The TUI Travel Shares to be issued on Completion will be issued credited as fully paid, will rank equally with the existing TUI Travel Shares and will be entitled to all dividends and other distributions declared or paid by TUI Travel by reference to a record date on or after the Effective Date.

3. First Choice Scheme of Arrangement

The purpose of the Scheme is to provide for TUI Travel to become the owner of the entire issued share capital of First Choice. This is to be achieved by the cancellation of the Scheme Shares held by First Choice Shareholders and the issuing of an equal number of First Choice Shares to TUI Travel and/or to its nominees.

For the Scheme to become effective, a special resolution implementing the Scheme must be passed by First Choice Shareholders at the First Choice EGM and the Scheme must be approved by First Choice Shareholders at the Court Meeting by a majority in number of those First Choice Shareholders, present and voting either in person or by proxy, at the Court Meeting, representing 75 per cent. or more in value of all First Choice Shares held by such First Choice Shareholders.

The Scheme also requires the sanction of the Court and the confirmation by the Court of the Reduction of Capital, as well as satisfaction or waiver of the other Conditions.

On the Effective Date, the Scheme will be binding on all First Choice Shareholders irrespective of whether or not they attend or vote in favour of the Scheme at the Court Meeting or at the First Choice EGM.

The Scheme Document, setting out the details of the Scheme and the Whitewash Resolution, will be despatched to First Choice Shareholders together with a copy of this document.

4. Transfer of TUI Tourism to TUI Travel

Prior to Completion, it will be necessary for TUI AG to undertake a restructuring of TUI Tourism. This will involve the transfer of companies and assets, including TUI AG's owned aircraft, aircraft engines, spare parts, Boeing order book aircraft, lease and finance contracts and related contracts, within the TUI AG group of companies to create the TUI Tourism Group. Where the consent of third parties is required to transfer TUI AG's leased aircraft to TUI Travel, meetings have been held with the relevant counterparties and initial indications are that such consents will ultimately be provided.

Once complete, the restructuring will allow the completion of the Merger to take place in accordance with the terms of the Merger Agreement. TUI AG will then transfer, or procure the transfer of, the assets and holding companies that constitute the TUI Tourism Group to TUI Travel.

In consideration of the transfer by TUI AG of TUI Tourism to TUI Travel, TUI Travel will issue 570,197,768 TUI Travel Shares to TUI AG, constituting 51 per cent. of the entire issued share capital of TUI Travel immediately after Completion (on a fully diluted basis). Under the terms of the Merger, on Completion TUI Travel will assume target net debt of €875 million (inclusive of pension liabilities) as described below.

The assumption of the net debt referred to above will be effected in the following manner: accounts of TUI Tourism will be prepared (each as defined in the Merger Agreement) as at the date of Completion. From such accounts, the amounts of net debt and working capital shall be determined as at Completion, except that the amount of pension liabilities shall be as at 31 December 2006. To the extent that the net debt (inclusive of pension liabilities) is less than €875 million, additional cash consideration will be due from TUI Travel to TUI AG in respect of the acquisition of TUI Tourism. This amount will remain outstanding as debt due to TUI AG on the terms of the Shareholder Loan Agreement described in paragraph 12.1.3 of Part XI of this document. To the extent that net debt (inclusive of pension liabilities) is greater than €875 million the non-share consideration due from TUI Travel to TUI AG in respect of the acquisition of TUI Tourism will be reduced by such difference and TUI AG will settle such difference by a cash payment to TUI Travel.

An amount of target working capital will be agreed prior to the Effective Date and the difference between the target working capital amount and the actual amount of working capital will be established. To the extent that actual working capital exceeds or is less than target working capital, a further adjustment will be made. If working capital exceeds target working capital (i.e., working capital is less negative than target working capital), an amount equal to the excess will be due from TUI Travel to TUI AG and will remain outstanding as a debt due to TUI AG on the terms of the Shareholder Loan Agreement. If working capital is less than target working capital, an amount equal to such shortfall will be settled by a cash payment from TUI AG to TUI Travel.

As referred to in paragraph 8 of this Part III, the disposal of TUI Tourism's Budget Travel business in Ireland is a condition of the European Commission's clearance decision. It is intended that TUI AG will transfer Budget Travel to TUI Travel as part of the TUI Tourism Group, and that Budget Travel will be disposed of in accordance with the disposal commitments given to the European Commission as a condition of its merger clearance.

5. The Merger Agreement and Inducement Fees

On 19 March 2007, TUI AG, First Choice and TUI Travel entered into the Merger Agreement in connection with the Merger. The Merger Agreement sets out the terms on which TUI Travel will acquire each of First Choice and TUI Tourism. In addition, the Merger Agreement has governed, and

will continue to govern, the relationship between TUI AG and First Choice until the Merger becomes effective or lapses.

Pursuant to the Merger Agreement, each of TUI AG and First Choice has undertaken to co-operate and take all steps that are within their power and are both reasonable and necessary to implement the Merger and has given certain undertakings in relation to the conduct of its respective business in the period prior to the implementation of the Merger. Each of TUI AG and First Choice has also agreed not to actively solicit any alternative transaction that would be inconsistent with implementing the Merger.

TUI AG has given First Choice high-level warranties covering certain information provided to First Choice in respect of the business of TUI Tourism. In addition, the Merger Agreement contains a tax indemnity under which TUI AG covenants with First Choice that it will indemnify TUI Travel in respect of tax incurred by TUI Travel relating to, amongst other matters, certain events occurring prior to Completion and the transfer of TUI Tourism to TUI Travel as described in paragraph 4 above.

The Merger Agreement may be terminated by TUI AG or First Choice in certain circumstances, including where any regulatory authority irrevocably blocks the Merger, where First Choice Shareholders fail to approve the Scheme at the Court Meeting or fail to pass the resolutions relating to the Merger at the First Choice EGM, where the Court fails to sanction the Scheme or a material adverse change occurs (referable to agreed benchmarks) which affects First Choice or TUI AG (as the case may be).

TUI AG has agreed to pay First Choice an inducement fee of £15 million (inclusive of any amounts in respect of VAT) if the Merger fails and:

(a) an Independent Competing Offer for TUI AG or TUI Tourism is announced and becomes or is declared wholly unconditional; or

(b) First Choice exercises its right to terminate the Merger Agreement for an unremedied breach by TUI AG of its obligations under the Merger Agreement.

First Choice has agreed to pay TUI AG an inducement fee of £15 million (inclusive of any amounts in respect of VAT) if the Merger fails and:

(a) an Independent Competing Offer for First Choice is announced and becomes or is declared wholly unconditional;

(b) the First Choice Directors withdraw or adversely modify their recommendation of the Merger; or

(c) TUI AG exercises its right to terminate the Merger Agreement for an unremedied breach by First Choice of its obligations under the Merger Agreement.

6. Conditions to the Implementation of the Merger

In summary, the implementation of the Merger is conditional upon:

(a) the approval of the Scheme by a majority in number representing 75 per cent. or more in value of the First Choice Shareholders present and voting, either in person or by proxy, at the Court Meeting;

(b) the resolutions to approve matters to give effect to the Scheme being duly passed by the requisite majority of First Choice Shareholders at the First Choice EGM;

(c) the sanction of the Scheme and confirmation of the Reduction of Capital by the Court (in either case, with or without modification, on terms acceptable to First Choice and TUI AG) and the subsequent registration of the Court Orders by the Registrar of Companies in England and Wales;

(d) Admission occurring;

(e) the Merger having been cleared by the European Commission under the EC Merger Regulation;

(f) the Merger having been cleared by any relevant non-EU competition authorities and no notice of any action, which would make the Merger unenforceable or illegal or impose material conditions on the parties with respect to the Merger, having been received from any regulatory body in any jurisdiction;

(g) the Takeover Panel granting a specific waiver from the requirements of Rule 9 of the Takeover Code in respect of the issue of TUI Travel Shares to TUI AG; and

(h) TUI AG and First Choice having obtained all necessary consents from the providers of their bonding and other finance facilities, or other replacement facilities having been arranged.

Neither First Choice nor TUI AG is entitled to invoke a Condition (other than the Conditions referred to in paragraphs (d), (e) and (f) above) unless the circumstances which give rise to the right to invoke the condition are of material significance in the context of the Merger.

7. Merger Resolutions and Timing

The Court Meeting and the First Choice EGM are scheduled to take place on 25 July 2007. On the assumption that the resolutions needed to approve the Scheme are duly passed at the Court Meeting and the First Choice EGM, First Choice will seek the consent of the Takeover Panel to a waiver from the requirements of Rule 9 of the Takeover Code and the sanction of the Scheme (and approval of the Reduction of Capital) by the Court.

Upon the Scheme and the acquisition by TUI Travel of TUI Tourism from TUI AG becoming effective, the First Choice Shares will be cancelled and TUI Travel Shares will be issued to First Choice Shareholders and TUI AG.

The Merger is expected to become effective on or about 3 September 2007.

8. Merger Filings

The Merger falls within the merger control jurisdictions of the European Commission (under the EC Merger Regulation), the United States, Canada and China. With the exception of the European Union, TUI Tourism and First Choice have no material overlapping activities in the travel and tourism sector in any jurisdiction or country.

Canada

Clearance was received from the Canadian Competition Bureau on 26 April 2007 by means of an Advance Ruling Certificate. Such a certificate precludes any challenge to the transaction under the competition laws of Canada and exempts the transaction from a formal (and more burdensome) merger filing under Part IX of the Canadian Competition Act.

China

An informal merger notification has been made to the merger central authorities in China and the Merger was cleared on 1 June 2007.

United States

A Hart-Scott merger filing was made on 5 May 2007 to the US Federal Trade Commission (the "FTC"). On 11 May 2007, the FTC cleared the Merger by notifying the parties of an early termination of the obligatory waiting period.

European Union

On 4 June 2007, the European Commission declared the Merger compatible with the common market in a phase I clearance decision, subject to the disposal of TUI Tourism's Budget Travel business in Ireland.

9. Rule 9 Whitewash

Following Completion, TUI AG will hold 51 per cent. of the TUI Travel Shares on a fully diluted basis. Under Rule 9 of the Takeover Code, if a person acquires an interest in shares which, taken together with shares in which he and persons acting in concert with him are already interested, carry 30 per cent. or more of the voting rights of a company subject to the Takeover Code, then that person must normally make a general offer for all the remaining shares in that company. However, where an obligation to make a mandatory offer under Rule 9 arises following an issue of new shares, the Takeover Panel may consent to a waiver of that obligation provided that, among other things, such waiver is approved by a vote of the independent shareholders of the company concerned. In this case, the Panel has agreed to waive the obligation which would otherwise arise for TUI AG to make an offer for TUI Travel under Rule 9, subject to approval of the waiver by the First Choice Shareholders, which is being sought at the First Choice EGM pursuant to the Whitewash Resolution.

TUI AG will, following Completion, hold in excess of 50 per cent. of the voting rights of TUI Travel and will be able to increase its aggregate interest in TUI Travel Shares without incurring any obligation to make a general offer to all TUI Travel Shareholders to acquire their TUI Travel Shares. However, TUI AG has, under the Relationship Agreement, agreed to certain restrictions on its ability to acquire further TUI Travel Shares. These restrictions are summarised in paragraph 12.1.2 of Part XI of this document.

10. Share Schemes

The effect of the Merger on the First Choice Share Schemes is described in paragraph 6 of Part XI of this document.

The Board has established the TUI Travel Incentive Schemes which may be used after the Merger becomes effective. The operation of these five schemes is subject to the approval in principle of First Choice Shareholders at the First Choice EGM. The principal features of the schemes are summarised in paragraph 6 of Part XI of this document and are available for inspection at the dates, times and places described in paragraph 23 of Part XI of this document.

11. Listing and Admission to Trading

Admission

Application will be made for the TUI Travel Shares to be admitted to the Official List, and to the London Stock Exchange for the TUI Travel Shares to be admitted to trading on the London Stock Exchange's main market for listed securities. It is expected that Admission will become effective on the Effective Date, which is currently expected to be 3 September 2007.

The maximum number of TUI Travel Shares which will be issued in connection with the Merger is 1,118,034,839. Assuming the maximum number of shares is issued, the total number of TUI Travel Shares in issue (including all of those TUI Travel Shares which may be issued as a result of the exercise of the options under the First Choice Share Schemes) following Completion will be 1,118,034,859.

The TUI Travel Shares will be created under the Companies Act 1985 and the legislation made thereunder and will be issued in registered form and will be capable of being held in certificated and uncertificated form.

De-listing of First Choice

Prior to the Effective Date, First Choice intends to apply to the Financial Services Authority for the listing of the First Choice Shares to be cancelled and to the London Stock Exchange for the First Choice Shares to cease to be admitted to trading on the London Stock Exchange's main market for listed securities. This is expected to take place on the Effective Date.

Dealings

On the assumption that the Scheme becomes effective, all registered holders of First Choice Shares will be bound by the Scheme. It is expected that the listing of the First Choice Shares will be cancelled and that they will cease to be admitted to trading on the London Stock Exchange at 8.00 a.m. on 3 September 2007.

It is expected that dealings in the TUI Travel Shares will commence at 8.00 a.m. on 3 September 2007.

The ISIN of the TUI Travel Shares will be GB00BIZ7RQ77.

Form of TUI Travel Shares

The TUI Travel Shares will be issued in registered form and may be held either in certificated or uncertificated form.

Share Certificates

It is intended that, where applicable, share certificates in respect of the TUI Travel Shares will be distributed from 3 September 2007 or as soon thereafter as is practicable at the risk of the investor. Temporary documents of title will not be issued.

TUI Travel Shares held in certificated form can be traded through a broker who should be provided with the relevant share certificate in order to settle trades. Holders of TUI Travel Shares who hold their shares in certificated form will receive dividends, notices of shareholder meetings and other shareholder documents directly from TUI Travel at their registered addresses.

Holders of First Choice Shares who are due to receive their TUI Travel Shares in certificated form will receive their certificates by post at their registered addresses no later than 14 days after the Effective Date.

CREST

TUI Travel will apply for the TUI Travel Shares to be admitted to CREST with effect from Admission. CREST is a paperless settlement procedure enabling securities to be evidenced otherwise than by a certificate and transferred otherwise than by a written instrument. On Admission, the articles of association of TUI Travel will permit the holding of TUI Travel Shares under the CREST system. Accordingly, settlement of transactions in the TUI Travel Shares following Admission may take place within the CREST system if any shareholder so wishes.

CREST is responsible for the payment of dividends to account holders. Holders of TUI Travel Shares who hold their shares through CREST will receive notices or any other shareholder documents directly from TUI Travel at their registered addresses.

CREST is a voluntary system and holders of TUI Travel Shares who wish to receive and retain share certificates will be able to do so.

First Choice Shareholders who are due to receive their TUI Travel Shares in uncertificated form through CREST will receive uncertificated TUI Travel Shares in their CREST accounts the Business Day after the Effective Date.

TUI AG will receive its TUI Travel Shares in uncertificated form.

12. Overseas Shareholders

United States

The TUI Travel Shares will not be registered under the US Securities Act and will be issued in the United States pursuant to the Scheme only in reliance on the exemption from registration provided by Section 3(a)(10) of that Act. For the purposes of qualifying for this exemption, First Choice will

advise the Court that its sanctioning of the Scheme will be relied upon to establish the availability of this exemption.

The TUI Travel Shares will not be registered under the securities laws of any state of the United States, and will be issued in the United States pursuant to the Scheme only in reliance on available exemptions from such state law registration requirements and the provisions of Section 18 of the US Securities Act.

Any First Choice Shareholder in the United States that is not an affiliate, for the purposes of the US Securities Act, of TUI Travel or First Choice prior to the implementation of the Scheme and is not an affiliate of TUI Travel following implementation of the Scheme may sell TUI Travel Shares received pursuant to the Scheme in ordinary secondary market transactions without restriction under the US Securities Act.

Under US securities laws, any First Choice Shareholder in the United States who is deemed to be an affiliate of TUI Travel or First Choice prior to the implementation of the Scheme and/or is or becomes an affiliate of TUI Travel following the implementation of the Scheme (whether or not a US person) will be subject to timing, manner of sale and volume restrictions on the sale of TUI Travel Shares received pursuant to the Scheme pursuant to Rule 145(d) under the US Securities Act, and may not resell TUI Travel Shares unless pursuant to another applicable exemption from the registration requirements of the US Securities Act, or in a transaction not subject to such requirements (including a transaction that satisfies the applicable requirements of Regulation S under the US Securities Act relating to offers and sales outside the United States). For these purposes, an "affiliate" of any person is generally defined to be a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, that person. Whether a person is an affiliate of a company for such purposes depends on the circumstances, but affiliates of a company can include directors, officers, and significant shareholders. First Choice Shareholders in the United States that believe they are or may be "affiliates" of TUI Travel or First Choice should consult their own legal advisers prior to any sale of TUI Travel Shares received pursuant to the Scheme.

Neither the SEC nor any US state securities commission has approved or disapproved the TUI Travel Shares or passed an opinion upon the accuracy or adequacy of this document. Any representation to the contrary is a criminal offence in the United States.

First Choice Shareholders who are citizens or residents of the United States should consult their own legal and tax advisers with respect to legal and tax consequences of the Scheme in their particular circumstances.

Canada

The TUI Travel Shares issued to or for the benefit of any resident of Canada pursuant to the Scheme will not be qualified for sale under the securities law of any province or territory of Canada and may be subject to resale restrictions.

First Choice Shareholders who are citizens or residents of Canada should consult their own legal and tax advisers with respect to legal and tax consequences of the Scheme in their particular circumstances.

Other Jurisdictions

This document and any accompanying documents are not being made available to First Choice Shareholders with registered addresses in any Restricted Jurisdiction and may not be treated as an invitation to subscribe for any TUI Travel Shares by any person resident or located in such jurisdictions or any other Restricted Jurisdiction.

The TUI Travel Shares have not been, and will not be, registered under the applicable securities laws of any Restricted Jurisdiction. Accordingly, the TUI Travel Shares may not be offered, sold, delivered or transferred, directly or indirectly, in or into any Restricted Jurisdiction to or for the account or benefit of any national, resident or citizen of any Restricted Jurisdiction.

The implications of the Scheme for Overseas Shareholders may be affected by the laws of relevant jurisdictions. Such Overseas Shareholders should inform themselves about, and observe, any applicable legal requirements. Any person outside the UK who is resident in, or who has a registered address in, or is a citizen of, an overseas jurisdiction and who is to receive TUI Travel Shares pursuant to the Scheme should consult his or her professional advisers and satisfy himself or herself as to the full observance of the laws of the relevant jurisdiction in connection with the Scheme, including obtaining any requisite governmental or other consents, observing any requisite formalities and paying any issue, transfer or other taxes due in such jurisdiction.

This document has been prepared for the purposes of complying with English law, the Prospectus Rules and the Listing Rules, and the information disclosed may not be the same as that which could have been disclosed if this document had been prepared in accordance with the laws of jurisdictions outside the United Kingdom.

Overseas Shareholders should consult their own legal and tax advisers with respect to the legal and tax consequences of the Scheme in their particular circumstances.

Part IV

Directors, corporate governance and employees

1. Directors of TUI Travel

TUI Travel's management team is highly experienced, with senior executives having spent many years in the leisure travel market. The Enlarged Group will be managed in four operational Sectors supported by a group management board.

Dr Michael Frenzel has been appointed as Non-Executive Chairman of TUI Travel. Dr Frenzel is also Chairman of the executive board of TUI AG and his knowledge of the TUI Tourism business will be of assistance to the Board following the completion of the Merger. He is supported in his role by Sir Michael Hodgkinson, currently Non-Executive Chairman of First Choice, who is independent Deputy Chairman of TUI Travel.

Peter Long has been appointed Chief Executive of TUI Travel. His long experience of successfully directing leisure travel businesses will be applied to the benefit of TUI Travel and its shareholders. Paul Bowtell, currently Group Finance Director of First Choice, has been named Chief Financial Officer of TUI Travel. Peter Rothwell, currently Chief Operating Officer of TUI Tourism, has been appointed Deputy Chief Executive of TUI Travel, in which role his extensive experience of both operations and restructuring will be of great benefit to the Board.

A group management board consisting of the six executive Directors and nine Senior Managers will be established on completion of the Merger to oversee the operational performance of the Enlarged Group.

The Directors are as follows:

Director	Age	Position at Completion
Chairman (Non-Executive)		
Dr Michael Frenzel	60	Chairman
Deputy Chairman (Non-Executive)		
Sir Michael Hodgkinson	63	Independent Deputy Chairman
Executive Directors		
Peter Long	55	Chief Executive
Peter Rothwell	47	Deputy Chief Executive
Paul Bowtell	39	Chief Financial Officer
William Waggott	43	Commercial Director
Christoph Mueller	46	Aviation Director
Dr Volker Böttcher	48	Managing Director, Central Europe
Non-Executive Directors		
Rainer Feuerhake	63	Non-Executive Director
Tony Campbell	57	Independent Non-Executive Director
Clare Chapman	47	Independent Non-Executive Director
Bill Dalton	63	Independent Non-Executive Director
Jeremy Hicks	54	Independent Non-Executive Director
Giles Thorley	39	Independent Non-Executive Director

The Senior Managers are as follows:

Senior Manager	Age	Position at Completion
Andrew John	54	Group Legal Director and Company Secretary
Bill Logan	59	Group Human Resources Director
Dermot Blastland	57	Managing Director, UK & Ireland
Johan Lundgren	40	Managing Director, Nordic
Bart Brackx	45	Managing Director, Western Europe
Richard Prosser	49	Managing Director, Specialist
John Wimbleton	48	Managing Director, Activity
Joan Vilà	44	Managing Director, Online Destination Services
Wolfgang Bremer	65	Managing Director, TUI Destination Management Services

The Company Secretary of TUI Travel is Andrew John.

Ages given are as at 27 June 2007, the latest practicable Business Day prior to the publication of this document.

The business address of each of the Directors is c/o TUI Travel PLC, First Choice House, London Road, Crawley, West Sussex RH10 9GX.

2. Profiles of the Directors and Senior Managers

2.1 The names, business experience and principal business activities outside TUI Travel of the Directors are set out below:

Dr Michael Frenzel

Dr Michael Frenzel has held the position of Chairman of the executive board of TUI AG (formerly Preussag AG) since January 1994, overseeing its extensive acquisition programme in the late 1990s, which resulted in the acquisitions of TUI AG's stake in Hapag-Lloyd and of leading tourism businesses such as Thomson Travel and Nouvelles Frontières. Prior to joining Preussag AG in 1988, he held various positions in Westdeutsche Landesbank (WestLB).

Sir Michael Hodgkinson

Sir Michael Hodgkinson joined the board of First Choice as a Non-Executive Director in January 2004 and became Chairman in March of that year. Following an early career in the automotive industry, Sir Michael was appointed Chief Executive of Grand Metropolitan's European Food Division in 1986. In 1992, Sir Michael joined BAA plc, becoming Chief Executive in 1999, a post from which he retired in June 2003. He is currently Senior Non-Executive Director at Royal Mail and Chairman of Post Office Limited, and a Non-Executive Director of Transport for London Limited, Dublin Airport Authority and FKI PLC.

Peter Long

Peter Long joined the board of First Choice in October 1996 as Managing Director of First Choice Holidays & Flights. In November 1996, he was appointed First Choice Group Managing Director and became Chief Executive of First Choice in September 1999. Prior to joining First Choice, Mr Long was Chief Executive of Sunworld Holidays, having previously been Finance Director and then Chief Executive of the tour operating division of the International Leisure Group. He is currently a Non-Executive Director of Rentokil Initial plc and Debenhams plc.

Peter Rothwell

Peter Rothwell is Chief Operating Officer of TUI Tourism and a member of the main management board of TUI AG. After an early career with Thomson Holidays, he joined Airtours Holidays in 1995 as its Managing Director, and had progressed by 1999 to the post of Airtours UK Leisure Group Chief Executive with a seat on the board of Airtours plc. In 2001, he rejoined Thomson Travel Group as Chief Operating Officer after its acquisition in 2000 by TUI AG.

Paul Bowtell

Paul Bowtell joined the board of First Choice as Group Finance Director in September 2004. He was previously Finance Director of British Gas, a subsidiary of Centrica plc, where he had been since 2002. Prior to that, he held a number of corporate centre roles at WH Smith plc, before becoming the Finance Director of the UK Retail business. Mr Bowtell is an associate of the Institute of Chartered Accountants in England and Wales.

William Waggott

William Waggott is currently Chief Financial Officer of TUI Tourism. Following an early career with Coopers & Lybrand and Courtaulds Textiles plc, where he performed various senior group finance and divisional finance director roles, Mr Waggott joined Airtours plc in 1992 as UK Leisure Group Finance Director, prior to joining Thomson Travel Group in 2001.

Christoph Mueller

Christoph Mueller has extensive experience within the aviation and aerospace industry, having held senior positions in Daimler Benz Aerospace, Lufthansa AG and the Sabena Group. He became Chief Financial Officer of DHL Worldwide Network SA in 2002 and became a member of the executive committee of Deutsche Post AG in 2004. On 1 January 2006, Mr Mueller was appointed as a member of the executive committee of TUI AG, responsible for the flight division. He is also currently Chief Executive Officer of Hapag-Lloyd Flug GmbH. Since September 2006, Mr Mueller has been a member of the executive board of TUI AG. He is also a member of the supervisory boards of Hapag-Lloyd AG, TUI Deutschland GmbH and TUI Belgium N.V.

Dr Volker Böttcher

After an early career in law, Dr Volker Böttcher became head of TUI AG's special programmes division in 1996, which included responsibility for long-haul destinations, City Tours and the Eastern Mediterranean. He was appointed to the board of TUI Deutschland GmbH in April 2000 and became Chairman in July 2001. Dr Böttcher is currently Chief Executive of TUI Tourism Central Europe and is responsible for tourism sales in the source markets of Germany, Austria, Switzerland and Poland.

Rainer Feuerhake

Rainer Feuerhake joined the Preussag Group (now TUI AG) in 1968, and by 1980 was responsible for all group accounting. He was appointed as Chief Financial Officer of TUI AG (formerly Preussag AG) in November 1988.

Tony Campbell

Tony Campbell became a Non-Executive Director of First Choice in April 1997. He was Deputy Chief Executive of Asda Stores Limited and a Director of Asda Stores plc until March 2001. Mr Campbell is chairman of both Hobbs Headco Limited and TM Lewin and Sons Limited, and a Director of Alaska Food Diagnostics Limited.

Clare Chapman

Clare Chapman was appointed to the board of First Choice in March 2003 as a Non-Executive Director. She is currently Director General of Workforce for the National Health Service and Department of Health. Prior to January 2007, she had been the Group Human Resources Director of Tesco plc. In addition, Ms Chapman serves on the board of the Qualifications and Curriculum Authority (QCA) and on the advisory board of the Judge Business School, University of Cambridge.

Bill Dalton

Bill Dalton became a Non-Executive Director of First Choice in October 2004. He was previously Chief Executive of HSBC Bank plc and global head of personal financial services for the HSBC Group. Mr Dalton is also a Non-Executive Director of a number of UK and North American companies, including Swiss Re GB plc, Associated Electric and Gas Insurance Services (AEGIS), HSBC Finance, Inc and Talisman Energy, Inc.

Jeremy Hicks

Jeremy Hicks, ACA, joined the board of First Choice as a Non-Executive Director in February 2005. He was, until April 2007, the Finance Director of Aegis Group plc, having been appointed to the role in 1999. Prior to that, Mr Hicks was Finance Director of Abbot Mead Vickers plc.

Giles Thorley

Giles Thorley was appointed a Non-Executive Director of First Choice in February 2006 and is currently the Chief Executive Officer of Punch Taverns plc. After qualifying as a barrister, he had an early career at Nomura International plc. Mr Thorley has been in his current post at Punch Taverns plc since 2001.

2.2 The names, business experience and principal business activities outside TUI Travel of the Senior Managers are set out below:

Andrew John

Andrew John is a solicitor who practised with the City law firm Coward Chance prior to taking up a career in industry. He held the post of Director of Legal Affairs at Unisys Limited followed by various senior legal and commercial positions at Vickers PLC, which culminated in his appointment to the Vickers' board in 1994 as Commercial Director and Company Secretary. In that role he led several high profile acquisitions and disposals. Mr John joined First Choice in December 2000.

Bill Logan

Bill Logan began his career in industrial relations. He then developed his human resources career in international roles with Seagram, Inc. in London, New York and Hong Kong. Having attended the Strategic HR Programme at Stanford University, he joined First Choice in 1998 to support First Choice's international human resources development.

Dermot Blastland

Dermot Blastland joined the board of First Choice on 6 September 1999. He is currently Managing Director of the Mainstream Holidays Sector of First Choice, having previously held positions as Managing Director of First Choice Holidays & Flights, Ski, Lakes & Mountains and President of Signature Vacations. Prior to joining First Choice in February 1988, he was Commercial Director at Thomson and subsequently Managing Director of Portland Holidays.

Johan Lundgren

Johan Lundgren has been working in the Nordic tourism industry for almost 20 years, ten of which have been as a Managing Director. Between 1999 and 2001, Mr Lundgren was president of Sunquest Vacations in Canada. Mr Lundgren is currently Chief Executive of TUI Nordic and is also responsible for tourism sales in the source markets of Italy and Russia.

Bart Brackx

Bart Brackx started his professional career with responsibilities in seat management and price calculation at the tour operator Jetair and, in 1994, he assumed further responsibility as Managing Director of internal affairs. Since 2001, Mr Brackx has held the position of Chief Executive Officer and President of the Board of Directors of Jetair, of which TUI AG is the majority shareholder. In 2004, Mr Brackx was appointed Chief Executive Officer of TUI Belgium and, in September 2006, he was appointed divisional director of TUI AG, in charge of the Western Europe source market.

Richard Prosser

Richard Prosser joined First Choice in 1997 as Overseas Director for the UK and Ireland Mainstream business and, following his appointment as Managing Director of First Choice's European Specialist businesses in 2000, he has built the current portfolio though a mixture of acquisitions, start-ups, internal reorganisations and leveraging the assets of the combined businesses. Prior to joining First Choice, Mr Prosser was a Director of Cosmos Holidays, part of the Swiss owned Globus organisation.

John Wimbleton

John Wimbleton joined the group management board of First Choice as Managing Director of the Activity Holidays Sector on 4 July 2006, having been with First Choice since 1990. From 2000 to 2005 he was Managing Director of the UK Distribution division of First Choice, with responsibility for the retail estate and sales of the First Choice Group's products through third parties and First Choice Independent Travel. Prior to this he held the position of deputy Managing Director of First Choice Holidays and Flights Limited for five years.

Joan Vilà

After developing his professional career in the Destination Services division of the Barceló Group, Joan Vilà was appointed Managing Director of this division in 1999, which was integrated into First Choice in 2000. In November 2002, he was appointed to the group management board of First Choice and, at present, he is the Managing Director of the Online Destination Services Sector. He holds an MBA from IESE, a degree in Economics from the University of Barcelona and has recently completed the Columbia Senior Executive programme at Columbia Business School.

Wolfgang Bremer

Wolfgang Bremer started his career with the Preussag Group (now TUI AG) in 1970. Mr Bremer was involved with the development of TUI AG's integrated tourism group and he headed the mergers and acquisitions department, as well as portfolio management in the tour operating, retail and incoming divisions. Currently, Mr Bremer is Executive Director of TUI AG and is responsible for the management of the group's destination services portfolio, which comprises TUI Service AG and incoming agencies in 29 countries. Mr Bremer is a member of the boards of TUI Service AG, TUI Netherlands and TUI Belgium.

3. Interests of the Directors and Senior Managers

As at 27 June 2007 (the latest practicable Business Day prior to the publication of this document), none of the Directors or Senior Managers or their immediate families had any interests in the share capital of TUI Travel which will be required to be (i) notified to TUI Travel pursuant to the Disclosure and Transparency Rules or (ii) being interests of a person connected (within the meaning of Disclosure and Transparency Rules) with a Director or Senior Manager which would, if such connected person were a Director or Senior Manager, be required to be disclosed under (i) above and the existence of which was known to or could, with reasonable diligence, be ascertained by the Director or Senior Manager as at 27 June 2007 (the latest practicable Business Day prior to the publication of this document). The interests which the Directors and Senior Managers and their

immediate families are expected to have in the share capital of TUI Travel immediately following Completion are set out in the following table:

	Number of TUI Travel Shares	Percentage of issued share capital of TUI Travel*
Directors		
Dr Michael Frenzel	—	—
Sir Michael Hodgkinson	20,000	0.0018%
Peter Long	2,869,706**	0.2567%
Peter Rothwell	—	—
Paul Bowtell	12,771**	0.0011%
William Waggott	—	—
Christoph Mueller	—	—
Dr Volker Böttcher	—	—
Rainer Feuerhake	—	—
Tony Campbell	40,804	0.0036%
Clare Chapman	—	—
Bill Dalton	—	—
Jeremy Hicks	—	—
Giles Thorley	25,000	0.0022%
Senior Managers		
Andrew John	264,579**	0.0237%
Bill Logan	100,754**	0.0090%
Dermot Blastland	440,775**	0.0394%
Johan Lundgren	—	—
Bart Brackx	—	—
Richard Prosser	232,694**	0.0208%
John Wimbleton	108,715**	0.0097%
Joan Vilà	16,930	0.0015%
Wolfgang Bremer	—	—

* Assuming the maximum number of TUI Travel Shares is issued on Completion. Rounded to four decimal places.

** Including TUI Travel Shares held in First Choice SIP.

As at 27 June 2007 (the latest practicable Business Day prior to the publication of this document), the following Directors held awards under the First Choice Share Schemes to subscribe for First Choice Shares:

Peter Long

	Date of Award	Number of Shares awarded	Date from which exercisable	Expiry of exercise period (60 days)
Restricted Share Plan (Converted Shares):	27.07.04	87,976	27.07.07	25.09.07
	14.12.04	105,263	14.12.07	12.02.08
	23.12.04	267,536	23.12.07	21.02.08

Matching	13.02.07	235,384	13.02.10

As at 27 June 2007 (the latest practicable Business Day prior to the publication of this document), the following Directors held options under the First Choice Senior Executive Plan to subscribe for First Choice Shares:

Peter Long

	Date of Award	No. of First Choice Shares under option	Exercise Price (pence)	Date from which exercisable	Expiry of exercise period
First Choice Senior Executive Plan	30.10.02	958,904	109.50	30.10.07	30.10.09
	09.12.03	828,096	135.25	09.12.08	09.12.10

A proposal will be made under the First Choice Performance Share Plan and the First Choice Deferred Annual Bonus Scheme to exchange a proportion of the awards under the First Choice Performance Share Plan and the matching shares under the First Choice Deferred Annual Bonus Scheme for awards over TUI Travel Shares. The remainder of the awards over First Choice Shares will vest with effect from the date on which the Court sanctions the Scheme, subject to performance testing and time pro rating to that date. Further details on the proposals to participants in the First Choice Share Schemes are set out in Part XI of this document.

Further details of the First Choice Share Schemes are set out in paragraph 6 of Part XI of this document.

Shareholding Guidelines

In order to emphasise the commitment of senior management to TUI Travel the Remuneration Committee and the Directors have set guidelines for the holding of shares in the Company. Within five years the Chief Executive will be expected to own shares to the value of 200 per cent. of his base salary. In the cases of the other executive Directors and members of the Group Management Board, the respective guidelines will be 150 per cent. to 100 per cent. of base salary.

At inception, the Chief Executive will already meet this target and the remaining executive Directors will be encouraged to reach the guideline levels well in advance of the five year timeframe.

4. Directors' terms of appointment

4.1 Executive Directors

Each of the executive Directors of TUI Travel will enter into a service agreement with TUI Travel (or, in the case of Dr Volker Böttcher and Christoph Mueller, with TUI Deutschland GmbH and Hapag-Lloyd Flug respectively, which will be subsidiaries of TUI Travel incorporated in Germany) with effect from Completion, which will replace his previous service agreement and will be conditional on and effective from Completion. The proposed principal terms of those service agreements, each of which will be governed by English law (or, in the case of Dr Volker Böttcher and Christoph Mueller, by German law), are set out in sub-paragraphs (a) to (g) below.

(a) Salary

Executive Director	Salary (£'000)
Peter Long	800
Peter Rothwell	600
Paul Bowtell	460
William Waggott	400
Dr Volker Böttcher	350
Christoph Mueller	350

(b) Term

Under the terms of each executive Director's service agreement, his employment will continue until (i) it is terminated by the executive Director giving to TUI Travel not less than six months' written notice, (ii) it is terminated by TUI Travel giving to the executive Director not less than 12 months' written notice, (iii) it is terminated by TUI Travel with immediate effect by reason of the executive Director's prolonged illness or incapacity, the executive Director committing a serious or repeated breach of any term of the service agreement, the executive Director neglecting, failing or refusing to carry out any of his duties, the executive Director's disqualification from acting as a director, the executive Director's resignation from his office as a director, the executive Director becoming of unsound mind, bankrupt or compounding with his creditors, or if the executive Director behaves in a manner which is likely to bring TUI Travel or any other Group Company into disrepute or prejudice its or their interests or which seriously impairs his ability to perform his duties.

TUI Travel may require an executive Director to spend any or all of his notice period on garden leave, during which the executive Director will receive full salary and other contractual benefits.

The Company reserves the right to terminate the executive Directors' service agreements by making a payment in lieu of notice of an amount equal to his gross basic salary and benefits in respect of his relevant notice period.

(c) Bonuses

Each executive Director participates in an annual non-pensionable bonus plan. The TUI Travel Remuneration Committee set the targets on an annual basis. The targets relate to the achievement of pre-tax profits and strategic personal objectives and the TUI Travel Remuneration Committee will assess the profit performance and the achievement of strategic personal objectives when determining the level of any bonus awards. The maximum bonus potential for the Chief Executive is 150 per cent. of base salary, for the Deputy Chief Executive and Group Finance Director 120 per cent. of base salary, and for the other executive Directors 100 per cent. of base salary.

In addition, the Chief Executive is entitled to any remaining payment, subject to the achievement of performance conditions, which may arise in October 2009 under a five-year long-term cash bonus plan, as explained in paragraph 5.2 of Part IV.

(d) Share plans

The executive Directors will be eligible to be selected for participation under the TUI Travel Incentive Schemes as described in paragraph 6 of Part XI, or such other long term incentive schemes as may from time to time be in force.

(e) Pension

Each of the executive Directors will participate in a defined contribution or equivalent pension scheme. The Company will also make contributions of 50 per cent. of base salary into a defined contribution pension scheme for the benefit of Peter Long, and contributions of 25 per cent. of base salary into a defined contribution pension scheme for the benefit of Paul Bowtell. Peter Rothwell and William Waggott will cease to be active members of a defined benefit pension scheme and will instead receive the benefit of contributions to a defined contribution pension scheme at the level of 50 per cent. of base salary. In the event of the pension fund values of any of these four executive Directors exceeding the HMRC lifetime allowance limit and the relevant executive Director choosing not to accept further pension contributions, a non-pensionable cash payment (which will be subject to tax and National Insurance) equivalent to the annual contribution to the pension scheme for that executive Director will be offered in lieu. Christoph Mueller and Dr Volker Böttcher will participate in separate pension arrangements in Germany at a company cost of 35 per cent. and 25 per cent. of base salary respectively.

(f) Other benefits

Each executive Director will be entitled to participate in TUI Travel's permanent health insurance scheme (or its equivalent in Germany), and to private medical cover (or its equivalent in Germany) for himself, his spouse and dependent children under 21 (or, if in full time education, under 25) and to a fully expensed motor vehicle. Each executive Director will also be entitled to 25 days' paid holiday in each holiday year, rising to a maximum of 30 days after five years of service.

(g) Confidentiality and Restrictive Covenants

Each executive Director will be subject to certain confidentiality restrictions during and after his employment, and will also be restricted for a period of 12 months from the termination of his employment from (i) competing with TUI Travel, (ii) soliciting customers, prospective customers or senior employees and (iii) interfering with suppliers to TUI Travel.

4.2 Non-Executive Directors

The Non-Executive Directors have entered into letters of appointment with TUI Travel dated 29 June 2007 with effect from Completion setting out the terms of their appointment which will be

conditional on and effective from Completion. The proposed principal terms are set out in sub-paragraphs (a) to (d) below:

(a) Fees

Non-Executive Director	Fee (£'000)
Dr Michael Frenzel	300
Sir Michael Hodgkinson	200
Jeremy Hicks	70[1]
Clare Chapman	65[2]
Rainer Feuerhake	55
Tony Campbell	55
Bill Dalton	55
Giles Thorley	55

(1) £55,000 in respect of his role as Non-Executive Director and £15,000 in respect of his role as Chairman of the audit committee

(2) £55,000 in respect of her role as Non-Executive Director and £10,000 in respect of her role as Chairman of the remuneration committee

(b) Term

The appointment of each Non-Executive Director will be for an initial term of three years from the date of his/her appointment to the Board unless otherwise terminated earlier by and at the discretion of either the Non-Executive Director or TUI Travel upon six months' written notice.

TUI Travel may terminate the appointment with immediate effect by reason of the Non-Executive Director's prolonged illness or incapacity, the Non-Executive Director committing a serious or repeated breach of any term of his/her letter of appointment, the Non-Executive Director ceasing to be a director, or the Non-Executive Director acquiring an interest in or accepting a position with another company without the prior approval of the Board which, in the Board's reasonable opinion, is likely to give rise to a material conflict of interest with the Non-Executive Director's position as a Non-Executive Director of TUI Travel.

(c) Time Commitment

TUI Travel anticipates a time commitment of up to 20 days per annum to include attendance at monthly Board meetings, meetings of committees of the Board on which the Non-Executive Director serves, meetings of Non-Executive Directors, the Company's annual general meeting, Board away days and at least one site visit per year.

(d) Other

TUI Travel intends to put in place and maintain directors' and officers' liability insurance with an indemnity limit of £100 million during the course of the appointments. Such insurance cover will also cover the executive Directors of TUI Travel.

5. Remuneration of the Directors and Senior Managers

An analysis of emoluments of the Directors and Senior Managers comprising their salary and fees, salary in lieu of benefits, bonus and benefits paid by TUI AG and its subsidiary undertakings for the

year ended 31 December 2006 and by First Choice and its subsidiary undertakings for the year ended 31 October 2006 is shown below:

5.1 TUI Tourism

	Annual base salary	Salary and fees	Bonus payments	Benefits	Total	Pension contributions
	£000	£000	£000	£000	£000	£000
Executive Directors						
Peter Rothwell	525	516	1,005	473	1,994	240
William Waggot	368	356	541	316	1,213	168
Christoph Mueller	306	306	640	203	1,149	118
Dr Volker Böttcher	238	238	200	129	567	45
	1,437	1,416	2,386	1,121	4,923	571
Non-Executive Directors						
Dr Michael Frenzel	748	924	431	3	1,359	462
Rainer Feuerhake	442	586	345	3	933	236
	1,190	1,510	776	6	2,292	698
Senior Managers						
Johan Lundgren, Bart Brackx and Wolfgang Bremer in aggregate	625	625	661	86	1,372	97
	3,252	3,551	3,823	1,213	8,587	1,366

Conditional upon Completion, TUI AG intends to make a payment of £2,425,000 together with a further amount to be calculated by reference to the value of 162,420 TUI AG shares on Completion by way of contribution to an employee benefit trust of which William Waggott and Peter Rothwell and their families are beneficiaries with a recommendation that the trustees appoint £880,000 and the value of 81,409 TUI AG shares to be held for the benefit of the family of William Waggott and £1,545,000 and the value of 81,011 TUI AG shares to be held for the benefit of the family of Peter Rothwell. The part of the payments that relate to Peter Rothwell is subject to TUI AG Supervisory Board approval and all of the payments are conditional on Completion.

Mr Waggott and Mr Rothwell have separately waived, conditional upon Completion, any rights in respect of the termination of their existing employment and pension arrangements with TUI AG and TUI Northern Europe.

TUI Travel has agreed that Peter Rothwell and William Waggott's entitlements under the TUI Northern Europe Long Term Incentive Plan will be surrendered on Completion in consideration of the grant by TUI Travel of replacement awards of equivalent face value to, in the case of Peter Rothwell, 81,010 TUI AG shares and, in the case of William Waggott, 81,409 TUI AG shares, to be released between 2008 and 2009 on a comparable basis as Peter Long and Paul Bowtell's replacement awards under the TUI Travel PSP.

TUI Travel has also agreed that certain entitlements under Christoph Mueller's and Volker Böttcher's contracts of employment within the TUI AG group will be surrendered on Completion in consideration of the grant by TUI Travel of awards to Christoph Mueller and Volker Böttcher with a face value of, respectively, €700,000 and €500,000 to be released between 2008 and 2009 on a comparable basis as Peter Long and Paul Bowtell's replacement awards under the TUI Travel PSP. The award to Christoph Mueller are subject to TUI AG Supervisory Board approval and all of the payments are conditional on Completion.

5.2 First Choice

	Annual base salary	Salary and fees	Bonus payments	Benefits	Total	Pension contributions
	£000	£000	£000	£000	£000	£000
Executive Directors						
Peter Long	636	636	636	40	1,312	318
Paul Bowtell	350	350	306	14	670	96
	986	986	942	54	1,982	414
Non-Executive Directors						
Sir Michael Hodgkinson	170	170	—	—	170	—
Tony Campbell	38	38	—	—	38	—
Clare Chapman	38	38	—	—	38	—
Bill Dalton	33	33	—	—	33	—
Jeremy Hicks	38	38	—	—	38	—
Giles Thorley	33	25(1)	—	—	25	—
	350	342	—	—	342	—
Senior Managers Andrew John, Bill Logan, Dermot Blastland, Richard Prosser, John Wimbleton and Joan Vilà in aggregate	1,456	1,430	462	89	1,981	430
	2,792	2,758	1,404	143	4,305	844

(1) Giles Thorley was appointed in February 2006.

Benefits of the Non-Executive Directors include annual holiday concessions of up to £2,500.

Under a five-year long-term cash bonus agreement between Peter Long and First Choice, approved at the 2005 AGM, Peter Long is entitled to a cash bonus in the aggregate maximum amount of £1.5 million based on the performance of First Choice to 31 October 2009 (or the nearest year end date).

The performance targets include both total shareholder return and earnings per share tests and an element of personal objectives.

The Remuneration Committee has approved, subject to performance conditions being met that a portion of this bonus will vest with effect from the date on which the Court sanctions the Scheme, which will result in the release of up to £900,000. The remaining portion of the long-term cash bonus plan will be released at the end of the original five year period, subject to the achievement of performance conditions at that date.

6. Corporate Governance

The Board and committees

There will be a maximum of 17 Directors on the Board, of whom 14 are currently appointed. Following the appointment of three further independent Non-Executive Directors by the Board as soon as practicable following Completion, the majority of the Board will be independent for the purposes of the Combined Code. As detailed below, the Board has established an Audit Committee, a Remuneration Committee and a Nomination Committee. The Board expects to meet at least eight times per year and may meet at other times at the request of any Director. Each Director has one vote but, in the case of equality of votes, the chairman of the meeting has a casting vote.

The Articles contain procedures to deal with any conflict of interest that may arise in the proceedings of the Board. Each Director is required to disclose to the Board any interest that the Director has in any proceedings of the Board and, except as otherwise provided by the Articles, the Director shall not vote at a meeting of the Board or a committee of the Board on any resolution concerning any contracts, arrangements or other proposals in which he or she has an interest.

Under the terms of the Relationship Agreement, each of the Audit Committee, Remuneration Committee and Nomination Committee will include up to two Shareholder Directors (appointed by TUI AG) and not less than three Non-Executive Directors. Each committee will be chaired by an independent Non-Executive Director.

TUI Travel Audit Committee

Members

The Board has established an audit committee (the "Audit Committee") comprised of four independent Non-Executive Directors.

The Chairman of the Audit Committee is Jeremy Hicks who has recent relevant financial experience as Finance Director of Aegis Group plc. In addition to Jeremy Hicks, the other members of the Audit Committee are Bill Dalton, Tony Campbell and Giles Thorley.

Mr Hicks, Mr Dalton, Mr Campbell and Mr Thorley are all considered by the Board to be independent within the meaning of the Combined Code.

Role of the Audit Committee

The main responsibilities of the TUI Travel Audit Committee are to:

(a) monitor the integrity and clarity of the financial information and of the major financial statements of TUI Travel, and to review any significant financial reporting issues and judgments those statements contain;

(b) approve the annual external audit plan and to review with the external auditors the nature, scope and results of their audit, and any control issues raised by them;

(c) make recommendations as to the appointment of the external auditors and review any question of their resignation or removal, and to review the effectiveness of the external auditors and their independence;

(d) review the consistency of and any changes to accounting policies, the application of appropriate accounting standards, and the methods used to account for significant unusual transactions;

(e) review and assess the internal audit plan, monitor and review the effectiveness and freedom from management interference of TUI Travel's internal audit function, and to approve the appointment and removal of the head of that function;

(f) review TUI Travel's internal controls and systems and practices for the identification and management of risk; and

(g) to review arrangements for "whistle blowing".

TUI Travel Remuneration Committee

Members

The Board has established a remuneration committee (the "Remuneration Committee") comprised of three independent Non-Executive Directors and two Shareholder Directors.

The Chairman of the Remuneration Committee is Clare Chapman who has relevant experience as she was, until January 2007, Group Human Resources Director of Tesco plc, and is now Director General of Workforce for the National Health Service and Department of Health. The other members of the Remuneration Committee are Tony Campbell, Bill Dalton, Dr Michael Frenzel and Rainer Feuerhake.

Ms Chapman, Mr Campbell and Mr Dalton are all considered by the Board to be independent within the meaning of the Combined Code. Dr Michael Frenzel and Mr Feuerhake, being the Shareholder Directors, are not independent.

Role of the Remuneration Committee

The main responsibilities of the Remuneration Committee are to:

(a) make recommendations to the Board on the framework for executive remuneration and to determine and review from time to time the specific terms for the remuneration and terms and conditions of employment of the chairman of the Board and of the executive Directors, including the design of targets and payments made under any bonus scheme and long term incentive scheme;

(b) agree any compensation for loss of office of any executive Director; and

(c) recommend and monitor the level and structure of the remuneration of Senior Managers.

TUI Travel Nomination Committee

Members

The Board has established a nomination committee (the "Nomination Committee") comprised of three independent Non-Executive Directors and two Shareholder Directors.

The Chairman of the Nomination Committee is Sir Michael Hodgkinson and the other members are Clare Chapman, Jeremy Hicks, Dr Michael Frenzel and Mr Feuerhake.

Sir Michael Hodgkinson, Ms Chapman and Mr Hicks are all considered by the Board to be independent within the meaning of the Combined Code. Dr Michael Frenzel and Mr Feuerhake, being the Shareholder Directors, are not independent.

Role of the Nomination Committee

The main responsibilities of the Nomination Committee are to:

(a) periodically review the structure, size and composition of the Board and make appropriate recommendations to the Board;

(b) give full consideration to succession planning for Directors;

(c) evaluate the balance of skills, knowledge and experience of the Board;

(d) prepare a description of the role and capabilities required for any particular Board appointment including that of the chairman; and

(e) identify and nominate for the approval by the Board candidates to fill Board vacancies as and when they arise.

The Nomination Committee shall also make recommendations to the Board concerning the standing for reappointment of the Directors.

Compliance with the Combined Code

It is the intention of the Board that, upon Completion, TUI Travel will be in compliance with the provisions set out in Section 1 of the Combined Code, save in relation to the following matters:

(a) Dr Michael Frenzel, Chairman of the Board, did not fulfil the independence criteria set out in provision A3.1 of the Combined Code on his appointment to the Board, being chairman of the executive board of TUI AG.

(b) Provisions B2.1 and C3.1 of the Combined Code provide that the Remuneration Committee should be made up entirely of independent Non-Executive Directors. As explained above in this paragraph 6, under the terms of the Relationship Agreement, TUI AG has appointed two Non-Executive Directors to the Remuneration Committee.

(c) On Completion, it is expected that the Board will comprise 14 Directors, of whom six will be independent and so there will not be a majority of independent Non-Executive Directors on the Board pursuant to provision A.3.2 of the Combined Code. However, it is intended that three

additional independent Non-Executive Directors are appointed by the Board as soon as practicable following Completion, upon which TUI Travel will be compliant with provision A.3.2.

The corporate governance arrangements referred to above are considered by the Board to be appropriate given the shareholding structure of TUI Travel and the terms of the Relationship Agreement.

7. Employees

TUI Travel attaches great importance to the skills and expertise of the employees of First Choice and TUI Tourism and believes the increased size and strength of the Enlarged Group will offer attractive career prospects.

However, in order to achieve the planned benefits of the Merger some operational restructuring will be required following Completion. In particular, in the UK, restructuring will be required in the combined real estate, airline, tour operations and central functions, which will involve a reduction of roles in some areas but an increase in others. There will also be some restructuring in Germany and the UK associated with creating a single headquarters for TUI Travel in Crawley. Given the combined effects of the timescale for the integration programme, natural attrition and the opportunities the Enlarged Group will create, TUI Travel expects that compulsory redundancies will be minimised. If they are necessary, TUI Travel will comply with all applicable consultation and legal requirements in this respect.

8. Confirmations and Conflicts of Interest

8.1 Save as described in paragraph 8.2 below, none of the Directors or Senior Managers has, during the past five years:

(a) been convicted in relation to a fraudulent offence;

(b) been associated with any bankruptcy, receivership or liquidation while acting in the capacity of a member of the administrative, management or supervisory body or of senior manager of any company;

(c) been subject to any official public incrimination and/or sanction by statutory or regulatory authorities (including designated professional bodies); or

(d) been disqualified by a court from acting as a member of the administrative, management or supervisory bodies of any issuer or from acting in the management or conduct of the affairs of any issuer.

8.2 Mr Feuerhake was a Non-Executive director of Babcock Borsig AG from September 1999 until March 2003. Babcock Borsig AG filed for insolvency under German bankruptcy law in July 2002. During the subsequent insolvency proceedings commenced in September 2002, creditors of Babcock Borsig AG filed claims amounting to approximately €5.5 billion, and of those original claims, approximately €500 million have been recognised by the administrator. These proceedings are ongoing and are not expected to conclude for a number of years.

8.3 Save as described below, no Director or Senior Manager has any actual or potential conflicts of interest between any duties they have to TUI Travel and their private interests or other duties:

(a) Sir Michael Hodgkinson is a director of Dublin Airport Authority;

(b) Johan Lundgren is a member of the Malmö Aviation advisory board; and

(c) Dr Frenzel and Mr Feuerhake are members of the executive board of TUI AG, which will be the majority shareholder of TUI Travel from Completion.

8.4 Save in respect of the appointment of any Shareholder Director by TUI AG pursuant to the provisions of the Relationship Agreement, details of which are set out in paragraph 12.1.2 of Part XI of this document, none of the Directors or Senior Managers was selected to his or her

position pursuant to any arrangement or understanding with any major shareholder, customer, supplier or other person having a business connection with TUI Travel, TUI Tourism or First Choice.

8.5 No restrictions have been agreed by any Director or Senior Manager on the disposal within a certain period of time of his or her holdings of TUI Travel Shares.

8.6 There are no family relationships between any of the Directors or Senior Managers.

8.7 No Director or Senior Manager has, or has had, any interest in any transaction which is or was unusual in its nature or conditions or which is or was significant to the business of TUI Travel, TUI Tourism or First Choice and which was effected by TUI Travel, TUI Tourism or First Choice during the current or immediately preceding financial year and which remains in any respect outstanding or unperformed.

8.8 There are no outstanding loans granted by TUI Travel, TUI Tourism or First Choice to any of the Directors or Senior Managers, nor has any guarantee been provided by TUI Travel, TUI Tourism or First Choice for their benefit.

9. Directorships and Partnerships

Save as set out below, none of the Directors or Senior Managers has either (a) held a directorship of any company, other than those companies in the TUI Tourism Group or First Choice Group, or (b) been a partner in a partnership, at any time in the five years prior to the date of this document:

29 June 2007

Dear Sirs

TUI Tourism Historical Financial Information

We report on the financial information set out in Section B of this Part V ("Financial information on TUI Tourism"). This financial information has been prepared for inclusion in the prospectus dated 29 June 2007 (the "Prospectus") of TUI Travel PLC (the " Company") on the basis of the accounting policies set out in Note 1 to the financial information. This report is required by item 20.1 of Annex I of the PD Regulation and is given for the purpose of complying with that item and for no other purpose.

Responsibilities

The Directors of the Company are responsible for preparing the financial information in accordance with the basis of preparation set out in Note 1(A) to the financial information. It is our responsibility to form an opinion as to whether the financial information gives a true and fair view, for the purposes of the Prospectus and to report our opinion to you.

PricewaterhouseCoopers LLP is a limited liability partnership registered in England with registered number OC303525. The registered office of PricewaterhouseCoopers LLP is 1 Embankment Place, London WC2N 6RH. PricewaterhouseCoopers LLP is authorised and regulated by the Financial Services Authority for designated investment business.

Save for any responsibility which we may have to those persons to whom this report is expressly addressed and for any responsibility arising under Prospectus Rule 5.5.3R(2)(f) to any person as and to the extent there provided, to the fullest extent permitted by law we do not assume any responsibility and will not accept any liability to any other person for any loss suffered by any such other person as a result of, arising out of, or in connection with this report or our statement, required by and given solely for the purposes of complying with item 23.1 of Annex I to the PD Regulation, consenting to its inclusion in the Prospectus.

Basis of opinion

We conducted our work in accordance with the Standards for Investment Reporting issued by the Auditing Practices Board in the United Kingdom. Our work included an assessment of evidence relevant to the amounts and disclosures in the financial information. It also included an assessment of significant estimates and judgements made by those responsible for the preparation of the financial information and whether the accounting policies are appropriate to TUI Tourism's circumstances, consistently applied and adequately disclosed. We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial information is free from material misstatement whether caused by fraud or other irregularity or error.

Opinion

In our opinion, the financial information gives, for the purposes of the Prospectus dated 29 June 2007, a true and fair view of the state of affairs of TUI Tourism as at 31 December 2004, 2005 and 2006 and of its profits or losses, cash flows and recognised income and expense for the years then ended in accordance with the basis of preparation set out in Note 1(A).

Declaration

For the purpose of Prospectus Rule 5.5.3R(2)(f), we are responsible for this report as part of the Prospectus and declare that we have taken all reasonable care to ensure that the information contained in this report is, to the best of our knowledge, in accordance with the facts and contains no omission likely to affect its import. This declaration is included in the Prospectus in compliance with item 1.2 of Annex I and item 1.2 of Annex III of the PD Regulation.

Yours faithfully

PricewaterhouseCoopers LLP

Section B

Historical financial information relating to TUI Tourism for the three years ended 31 December 2006

Combined income statement

For the years ended 31 December	Note	2006	2005	2004
		€m	€m	€m
Revenue	2	13,714.1	13,587.0	12,788.3
Cost of sales		(12,680.5)	(12,422.4)	(11,563.4)
Gross profit		1,033.6	1,164.6	1,224.9
Administrative expenses excluding impairments of goodwill		(950.0)	(1,030.4)	(1,049.9)
Impairment of goodwill		(690.0)	—	—
Total administrative expenses		(1,640.0)	(1,030.4)	(1,049.9)
Other income/(expenses)	3	49.1	38.3	9.2
Share of profit of joint ventures and associates		11.6	7.4	6.6
Operating (loss)/profit	2	(545.7)	179.9	190.8
Analysed as:				
Underlying operating profit	2	270.8	208.9	236.4
Separately disclosed items	4	(123.5)	(25.7)	(43.6)
Impairment of goodwill		(690.0)	—	—
Taxation on profits of joint ventures and associates		(3.0)	(3.3)	(2.0)
		(545.7)	179.9	190.8
Financial income	5	173.7	143.9	134.0
Financial expenses	5	(150.4)	(136.1)	(127.2)
Net financial income	5	23.3	7.8	6.8
(Loss)/Profit before tax	7	(522.4)	187.7	197.6
Taxation	8	(41.5)	(115.7)	(82.6)
(Loss)/Profit for the year		(563.9)	72.0	115.0
Attributable to:				
Shareholders		(565.6)	67.3	111.5
Minority interest		1.7	4.7	3.5
(Loss)/Profit for the year		(563.9)	72.0	115.0
Non-GAAP measures				
Reconciliation of underlying operating profit to underlying earnings				
Underlying operating profit		270.8	208.9	236.4
Net financial income		23.3	7.8	6.8
Underlying profit before tax		294.1	216.7	243.2
Taxation (Group and share of joint ventures and associates)		(44.5)	(119.0)	(84.6)
Tax credit on separately disclosed items		(40.8)	(8.0)	(13.1)
Minority interest		(1.7)	(4.7)	(3.5)
Underlying earnings		207.1	85.0	142.0

The financial information above may not be representative of future results, for example the historical capital structure does not reflect the future capital structure. Future interest income and expense, certain operating costs, tax charges and dividends may be significantly different from those that arose from being wholly owned by TUI AG.

Notes to the combined financial information

Statement of accounting policies

The principal accounting policies are as follows:

1. General

TUI Tourism has not in the past formed a separate legal group. As part of the proposed merger with First Choice, TUI AG will undertake to restructure TUI Tourism and to transfer the relevant entities assets, and liabilities to TUI Travel. The Combined Financial Information presented here reflects the entities, assets and liabilities that will be carved out from TUI AG and has been prepared in accordance with the basis of preparation set out below.

The principal accounting policies of TUI Travel have been applied to the Combined Financial Information and are as follows:

(A) Basis of preparation

The Combined Financial Information presented is for the years ended 31 December 2004, 2005 and 2006, of those businesses that will comprise TUI Tourism (also the "Group"). The Combined Financial Information therefore incorporates financial information previously included in the financial statements of TUI AG's tourism segment amended to reflect the carve out entities. The principal entities and associated undertakings included within the financial record are shown in notes 11 and 30 below.

The Combined Financial Information has been prepared on a going concern basis and under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, and financial assets and financial liabilities (including derivative instruments) at fair value through the income statement.

The Combined Financial Information has been prepared in accordance with the requirements of the PD regulation, the Listing Rules, and in accordance with this basis of preparation. This basis of preparation describes how the Combined Financial Information has been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (IFRSs as adopted by the EU) except as described below.

IFRSs as adopted by the EU do not provide for the preparation of Combined Financial Information, and accordingly in preparing the Combined Financial Information certain accounting conventions commonly used for the preparation of historical financial information for inclusion in investment circulars as described in the Annexure to SIR 2000 (Investment Reporting Standard applicable to public reporting engagements on historical financial information) issued by the UK Auditing Practices Board have been applied. The application of these conventions results in the following basis of accounting of the financial information. TUI Tourism has not previously been required to prepare Combined Financial Information and hence Combined Financial Information has not previously been presented. The Combined Financial Information has been prepared by aggregating the applicable financial information that was prepared for the purposes of the TUI AG consolidation together with certain TUI AG consolidation adjustments relating to the businesses forming TUI Tourism. Internal transactions within TUI Tourism have been eliminated in preparing the combination.

The information on earnings per share for TUI Tourism has not been presented as required under IAS 33, as the companies have not formed a statutory group, hence TUI Tourism had no historical capital structure.

Other than these departures IFRSs as adopted by the EU have been applied. The IFRSs not yet adopted are disclosed in (W).

(B) Basis of Accounting

The following summarises the principles applied in preparing the Combined Financial Information:

- Subsidiary undertakings and associates that are part of TUI Tourism and were acquired or disposed of by TUI Tourism during the period presented have been included in the Combined Financial Information from and up to the date control was passed.
- All cash and other movements in capital amounts, being shares issued or cancelled by or dividends and other distributions made from TUI Tourism companies to TUI AG have been reflected in the cash flow and reconciliation of movements in Invested capital as "Dividends and other distributions to TUI AG".
- TUI AG had not historically recharged corporate head office costs comprising administration, management and other services including, but not limited to, management information, accounting and financial reporting, treasury, taxation, cash management, employee benefit administration, investor relations and professional services to its underlying businesses. However for the purposes of the preparation of the Combined Financial Information an allocation has been made of the amounts of shared corporate head office costs attributable to TUI Tourism. These costs were affected by the arrangements that existed in TUI AG and are not necessarily representative of the position that may prevail in the future.
- TUI AG has historically assessed the financial requirements for the future and managed the hedging arrangements. TUI AG also documents its assessments and arrangements, both at hedge inception and on an ongoing basis, whether the derivative instruments are hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. The derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items. In the Combined Financial Information the hedging arrangements have been reflected in accordance with TUI AG's previous arrangements. They are not necessarily representative of the hedging arrangements that may arise in the future.
- TUI AG has historically operated a central cash pooling arrangement whereby cash and overdrafts are settled centrally by TUI AG with the financial institutions. For the purposes of preparation of the Combined Financial Information, such centrally managed cash pooling has been allocated to TUI Tourism and reflected in the Combined Financial Information in line with the reallocation of the related balances to TUI Tourism in the balance sheets.
- Tax charges in this Combined Financial Information have been determined based on the tax charges recorded by TUI Tourism companies in their local statutory accounts as well as certain adjustments made for TUI AG consolidation purposes. The tax charges recorded in the combined income statement have been affected by the taxation arrangements within TUI AG and are not necessarily representative of the tax charges that would have been reported had TUI Tourism been an independent group. Also, they are not necessarily representative of the tax charges that may arise in the future.
- All trading balances between TUI Tourism and other TUI AG companies have been presented in either receivables or payables. Where a TUI AG balance is unconnected with a trading relationship and is:

  (a) non-interest bearing it has been reclassified from payables to Invested Capital.

  (b) interest bearing and has the characteristics of debt, it has been presented as "Financial liabilities due to TUI AG companies" in the balance sheet, with any interest taken to the income statement.
- TUI Tourism has not in the past formed a separate legal group and therefore it is not possible to show share capital or an analysis of reserves for TUI Tourism. The net assets of TUI Tourism are represented by the cumulative investment of TUI AG in TUI Tourism (shown as "Invested capital").

- Interest income and expense in this Combined Financial Information have been determined based on the interest charges recorded by TUI Tourism companies in their local statutory accounts as well as certain adjustments made for TUI AG consolidation purposes. The interest income and expense recorded in the Combined Income Statement have been affected by the financing arrangements within TUI AG and are not necessarily representative of the interest charges that would have been reported had TUI Tourism been an independent group. They are not necessarily representative of the interest charges that may arise in the future.

(C) Basis of combination

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the combined financial information from the date that control commences until the date that control ceases. When the Group ceases to control these companies, they are removed from combination.

The Combined Financial Information of the Group was prepared on the basis of uniform accounting, measurement and combination methods.

Transactions with minority interests are treated as transactions with equity holders of the Group. Goodwill, i.e. the difference between the acquisition costs and the interest in the carrying amount of the net assets of the subsidiary, arising on the acquisition of minority interests is directly eliminated against reserves. When minority interests are sold, the difference between the gain on disposal and the interest in the carrying amount is also offset against reserves.

(ii) Joint ventures and associates

Joint ventures are jointly controlled entities over whose activities the Group has the power to jointly control, established by contractual agreement.

Associates are those entities in which the Group has the ability to exercise significant influence, but not control, over the financial and operating policies.

The Combined Financial Information includes the Group's share of the recognised income and expense of joint ventures and associates on an equity accounted basis, from the date that joint control or significant influence respectively commences until the date that it ceases. Equity measurement in each case is based on the last annual or consolidated financial statements.

When the Group's share of losses exceeds the carrying amount of the joint venture or associate, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture or associate.

(iii) Transactions eliminated on combination

Intra-group balances and any unrealised gains, income and expenses arising from intra-group transactions are eliminated in preparing the Combined Financial Information. Unrealised gains arising from transactions with associates and jointly controlled entities are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment. Intercompany profits from deliveries to and from joint ventures or associates are eliminated on the basis of the same principles.

(D) Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to the functional currency at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to the functional currency at foreign exchange rates ruling at the dates the fair values were determined.

(ii) Foreign operations

The financial statements of entities are prepared in the functional currency of the entity. The respective functional currency corresponds to the currency of the economic environment in which the company primarily operates. The functional currency of all subsidiaries is generally the national currency of the country in which the respective subsidiary is based.

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on combination, are translated to the presentation currency (Euro) at the foreign exchange rates ruling at the balance sheet date. The revenues and expenses of entities with functional currencies other than the reporting currency of the Group are translated at the average rate for the year.

(iii) Net investment in foreign operations

Exchange differences arising from the translation of the net investment in foreign subsidiaries and of related hedges are recognised in the statement of recognised income and expenses and taken to the foreign exchange reserve. On disposal of the subsidiary, they are taken into the income statement as part of the gain or loss on disposal.

Exchange rates of relevant currencies

	Closing rate 2006	Closing rate 2005	Closing rate 2004	Average rate 2006	Average rate 2005	Average rate 2004
	€	€	€	€	€	€
British pounds sterling . . .	0.67	0.69	0.71	0.68	0.68	0.68
US dollars	1.32	1.18	1.36	1.26	1.24	1.24
Swiss francs	1.61	1.56	1.54	1.57	1.55	1.54
Swedish kronas	9.04	9.39	9.02	9.25	9.28	9.12

(E) Derivative financial instruments

The Group uses derivative financial instruments to hedge its exposure to foreign exchange, interest rate and fuel price risks arising from operational, financing and investment activities.

In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments.

On initial recognition, derivative financial instruments are measured at their fair value attributable to them on the day of the conclusion of the agreement. The gain or loss on re-measurement to fair value is recognised immediately in the income statement. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged (see accounting policy (F)).

The fair values of derivative financial instruments correspond to market values. The fair value of interest rate swaps is the estimated amount that the Group would receive or pay to terminate the swap at the balance sheet date, taking into account current interest rates and the current

creditworthiness of the swap counterparties. The fair value of forward exchange contracts and fuel price contracts is, if applicable, their quoted market prices at the balance sheet date, being the present value of the quoted forward price. The fair value of over-the-counter financial derivates is determined by means of appropriate discounting methods, e.g. by discounting the expected future cash flows. The calculation of the fair values of options is based on the Black-Scholes model. The fair values determined on the basis of the Group's own systems are regularly compared with fair value confirmations of external counterparties.

(F) Hedge accounting

(i) Cash flow hedges

Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probably forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in the hedging reserve. Any ineffective portion of the hedge is recognised immediately in the income statement.

When the forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated cumulative gain or loss is removed from the hedging reserve and is included in the initial cost or other carrying amount of the non-financial asset or liability.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains and losses that were recognised directly in equity are reclassified into the income statement in the same period or periods during which the asset acquired or liability assumed affects profit or loss.

For cash flow hedges, other than those covered by the preceding two policy statements, the associated cumulative gain or loss is removed from equity and recognised in the income statement in the same period or periods during which the hedged forecast transaction affects the income statement.

At inception, the Group documents the hedging relationship between the hedge and the underlying item, the risk management goal and the strategy pursued in entering into the hedges. In addition, an assessment is made both at the beginning of the hedge relationship and on a continual basis as to whether the derivates used for the hedge compensate for the changes in the cash flows of the underlying transactions in a highly efficient manner.

When a hedging instrument expires or is sold, terminated or exercised, or the entity revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity and is recognised in accordance with the above policy when the transaction occurs. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss recognised in equity is recognised in the income statement immediately.

(ii) Fair value hedges

Where a derivative financial instrument is designated as a hedge of the variability in fair value of a recognised asset or liability or an unrecognised firm commitment, all changes in the fair value of the derivative are recognised immediately in the income statement. The carrying value of the hedged item is adjusted by the change in fair value that is attributable to the risk being hedged (even if it is normally carried at cost or amortised cost) and any gains or losses on re-measurement are recognised immediately in the income statement (even if those gains would normally be recognised directly in reserves).

(G) Revenue

Revenue represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business.

Revenue excludes intra-group transactions and value-added tax, and is stated after the deduction of trade discounts.

(i) Goods sold and services rendered

Revenue from sale of goods and services is recognised in the income statement when the significant risks and rewards or ownership have been transferred to the buyer. Revenue in respect of package tours is recognised on the date of departure. Revenue from individual travel modules directly booked with airlines, hotels and incoming agencies by the customers is realised when the customer uses the corresponding service. Commissions and other revenues received from the sale of third-party product are recognised when they are earned, normally on receipt of final payment from the end customer.

(ii) Client monies received in advance

Client monies received at the balance sheet date relating to holidays commencing and flights departing after the year end is deferred and included within trade and other payables.

(iii) Valuation of revenue

Where the Group acts as principal, revenue is stated at the fair value of the consideration received or to be received for the sale of goods and services provided.

Where the Group acts as agent and collects amounts on behalf of the principal provider of goods or services, revenue is stated at the fair value of the commissions received or to be received and not the total transaction sales value.

In assessing whether the Group acts as principal or as agent, the businesses are identified as acting as agents depending on: the control exercised over the providing of service, inventory risk and customer credit risk. Revenue for businesses acting as agents is then presented on a net basis as the difference between the sales prices to the customer and the cost of the services purchased.

(H) Expenses

(i) Operating lease payments

Payments made under operating leases are recognised in the income statement on a straight-line basis over the term of the lease or on another systematic basis if this is more representative of the time pattern of the benefit from use of the leased asset. Lease incentives received and paid are recognised in the income statement as an integral part of the total lease expense over the term of the lease.

(ii) Finance lease payments

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

(iii) Marketing and other direct sales costs

Marketing, advertising and other promotional costs, including those related to the production of brochures, are expensed as incurred.

(I) Taxation

Income tax on profit or loss comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity in the same way as the item to which it relates.

(i) Current tax

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

(ii) Deferred tax

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries, joint ventures and associates to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax asset provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(J) Non-GAAP measures

The Group believes that underlying operating profit and underlying profit before tax provide additional guidance to statutory measures on the underlying performance of the business during the financial year.

The term underlying is not defined under International Financial Reporting Standards. It is a measure that is used by management to assess the underlying performance of the business internally and is not intended to be a substitute measure for Adopted IFRSs GAAP measures.

The Group defines these underlying measures as follows:

- Underlying operating profit is profit before financial income and expense, taxation (Group and share of joint ventures and associates), separately disclosed items, and impairment of goodwill.
- Underlying profit before tax is profit before taxation (Group and share of joint ventures and associates), separately disclosed items and impairment of goodwill.
- Underlying profit after tax is profit before separately disclosed items and impairment of goodwill (all net of tax).
- Underlying earnings are underlying profit after tax less minority interests.

It should be noted that the definitions of underlying items being used in this Combined Financial Information are those used by the Group and may not be comparable with the term "underlying" as defined by other companies within either the same sector or elsewhere.

(K) Property, plant and equipment

(i) Owned assets

Items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The costs of finance for the acquisition or the period of construction are not capitalised.

Where significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

(ii) Leased assets

Leases in which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Leased assets acquired by way of a finance lease are stated at an amount equal to the lower of their fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Lease payments are accounted for as set out in (H) (ii) above.

(iii) Depreciation

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Freehold land is not depreciated. The useful economic lives on initial recognition are as follows:

Freehold properties	—	up to 50 years
Short leasehold properties	—	Lease period or useful economic life if shorter
Finance leased aircraft and engines	—	Lease period, or useful economic life if shorter
Aircraft and engines	—	18 years
Aircraft spares	—	12 years
Machinery and fixtures	—	up to 40 years
Yachts	—	15 years
Motor boats	—	24 years
Other operating and office equipment	—	up to 10 years

Assets under construction are not depreciated.

The residual values and useful lives of all assets are re-assessed annually.

(L) Intangible assets

(i) Goodwill

All business combinations are accounted for by applying the purchase method.

Goodwill represents amounts arising on acquisition of subsidiaries, associates and jointly controlled entities. In respect of business acquisitions, goodwill represents the difference between the fair value of consideration paid and the fair value of the net identifiable assets and contingent liabilities acquired. Identifiable intangibles are those which can be sold separately or which arise from legal rights regardless of whether those rights are separable. Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is not amortised but is tested annually for impairment or when there are any events or indications suggesting a potential impairment (triggering event). In respect of joint ventures and associates, the carrying amount of goodwill is included in the carrying amount of the investment in the associates or joint ventures.

Goodwill is tested annually for impairment or when there are any events or indications suggesting a potential impairment (triggering event).

Fair value adjustments are made in respect of acquisitions. If, at the balance sheet date, the amounts of fair values of the acquiree's identifiable assets and liabilities can only be established provisionally, then these values are used. Any adjustments to these values are taken as adjustments to goodwill and are recorded within 12 months of the acquisition.

Negative goodwill arising on an acquisition is recognised in the income statement immediately.

(ii) Other intangible assets

Other intangible assets that are acquired by the Group are stated at cost less accumulated amortisation and impairment losses. Self-generated software used by the Group itself, is capitalised at cost where an inflow of future economic benefits for the Group is probable and can be reliably measured.

(iii) Amortisation

Amortisation is charged to the income statement on a straight-line basis over the period in which the value of the assets will be obtained by the Group. Computer software is amortised over a period usually not exceeding 5 years, but in exceptional cases of up to 10 years.

(M) Financial assets

Loans and receivables are non-derivative financial assets with fixed or determinable payments not listed in an active market. Loans and receivables are shown under "Trade and other receivables" in the balance sheet.

Financial assets measured at fair value through income statement are only held by the Group in the form of derivative financial instruments exclusively held for the purpose of hedging.

Financial assets available for sale are non-derivative financial assets either allocated to the "other investments" category or that could not be allocated to any other category of financial assets. They are allocated to non-current assets if the management does not intend to sell them within twelve months after the balance sheet date. The financial assets allocated to "other investments" are shares and securities held.

Financial assets are recognised at the trade date on which the Group committed to buy or sell the asset. Loans and receivables as well as financial assets available for sale are initially recognised at fair value plus transaction costs. Financial assets available for sale are measured at their fair value after initial recognition. Changes in the fair value are recognised in equity with no effect on results until the disposal of the asset. A permanent reduction in fair value gives rise to an impairment with a corresponding charge in the income statement. In the event of subsequent reversal of the impairment, the impairment recognised in the income statement is not reversed for equity instruments but eliminated against equity with no effect on results. Where a listed market price in an active market is not available for shares held and other methods to determine the objective market value are not applicable, the shares are measured at amortised cost. Loans and receivables are recognised at amortised cost based on the effective interest method.

(N) Impairments

The carrying amounts of the Group's assets, other than deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such an indication exists, the recoverable amount of such an asset is estimated. For goodwill, the recoverable amount is estimated at each balance sheet date.

An impairment loss is recognised whenever the carrying amount of an asset or its related cash-generating unit exceeds its recoverable amount. The recoverable amount of an asset or cash generating unit is the fair value less costs to sell or the present value of future cash flows expected to arise from the asset (value in use), if higher. Impairment losses are recognised separately in the income statement. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of goodwill allocated to cash-generating units and then to reduce the carrying amount of other assets in the unit on a pro rata basis. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

The fair value less costs to sell is the amount for which the asset or cash-generating unit could be exchanged between knowledgeable, willing parties in an arm's length transaction after deduction of the costs to sell. If a fair value on an active market is not available for the assets or cash-generating units to be tested for impairment, the fair value is determined by means of discounting the expected operating net cashflows. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, before impairment. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed when there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount.

(O) Trade and other receivables

Trade and other receivables are initially recognised at their fair value and subsequently measured at amortised cost on the basis of the effective interest method and the deduction of impairments. An impairment of trade and other receivables is recognised if objective indications suggest that the amounts receivable and due are not fully matched.

(P) Inventories

Inventories are measured at the lower of cost or net realisable value. Net realisable value is the estimated selling price less the estimated cost incurred until the sale and the estimated variable costs required to sell. All inventories are written down individually where the net realisable value of inventories is lower than their carrying amounts. The measurement method applied to similar inventory items is the weighted average cost formula.

(Q) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits as well as other current highly liquid financial assets with an original term of a maximum three months. Credit balances in current accounts are shown as overdrafts under current interest-bearing loans and borrowings, unless they form part of the Group's cash pooling arrangements in which case the aggregate balance of cash pooling accounts is included in either cash and cash equivalents or current interest-bearing loans and borrowings as appropriate.

(R) Provisions

A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

In respect of aircraft, due to the legal obligations placed upon the Group under the terms of certain operating leases, provision is made for the maintenance, overhaul and repair costs of operating leased airframes, engines and other aircraft components. The provision is based on total anticipated costs and intervals between maintenance events. It is calculated by reference to costs experienced and published manufacturers' data. The charge to the income statement is calculated by reference to the number of hours operated, cycles flown and the passage of time, and by reference to the length of the full overhaul cycle and the life-cycle of each asset within the business.

(S) Liabilities

Liabilities are recognised on the date on which they arise at the fair value less the costs of borrowing and transaction costs. Over the course of time, liabilities are measured at amortised cost based on the effective interest method.

(T) Dividends

Dividend distribution is recognised as a liability in the Group's Combined Financial Information in the period in which the dividends are appropriately authorised and approved for payment and are no longer at the discretion of the Group. Unpaid dividends that do not meet these criteria are disclosed in the notes to the Combined Financial Information.

(U) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are recognised as an expense in the income statement as they fall due.

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The calculation is performed by a qualified actuary using the projected unit credit method.

When the benefits of a plan are improved, the portion of the increased benefit relating to past services by employees is recognised as an expense in the income statement on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the income statement.

All actuarial gains and losses are recognised in the period they occur directly in equity through the statement of recognised income and expense.

(iii) Share-based payment transactions

All share-based payment schemes existing in the Group were payment schemes paid in cash. At the date of the performance by the beneficiary, the resulting liability for the Group was carried at its fair value. Until the liability was paid, the fair value of the liability was remeasured at every reporting date and all changes in the fair value were carried with an effect on results.

(V) Non-current assets held for sale and discontinued operations

A non-current asset or a group of assets containing a non-current asset is classified as held for sale if its carrying amount will be recovered principally through sale rather than through continuing use, it is available for immediate sale and sale is highly probable within one year.

On initial classification as held for sale, non-current assets and disposal groups are measured at the lower of previous carrying amount and fair value less costs to sell with any adjustments taken to profit or loss. The same applies to gains and losses on subsequent re-measurement.

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations or is a subsidiary acquired exclusively with a view to resale, that has been disposed of, has been abandoned or that meets the criteria to be classified as held for sale.

(W) Key accounting estimates and judgements

All estimates and judgments are constantly revalued and are based on past experience and other factors, including expectations concerning future events.

The key estimates and judgements used are:

(i) Goodwill is tested for impairment as at each of the balance sheet dates. Details concerning the implementation of goodwill impairments tests are provided in note 9.

(ii) The determination of the present value of pension obligations largely depends on the selection of the discount rate, determined at the end of each year. The discount rate used was the interest rate of high-quality corporate bonds that were denominated in the currency in which the benefits will be paid, and that had terms to maturity approximating the terms of the related pension liability. Detailed information is provided in the explanations on recognised pension provisions in note 6.

(iii) The Group is liable to pay income taxes in numerous countries. Significant assumptions were required in determining the worldwide provision for income taxes. There were transactions and calculations for which the ultimate tax determination was uncertain during the ordinary course of business. The level of provisions for anticipated tax audits was based on estimates of whether and to what extent additional income taxes will be due. In the period in which the final tax determination was made, the estimates were corrected, if required.

(iv) The useful lives and residual values of property, plant and equipment are reviewed at least annually. Details on useful lives and residual values of property, plant and equipment are provided in Note 1(K)(iii) on "Property, plant and equipment".

(v) In accounting for business combinations, the identifiable assets acquired and liabilities and contingent liabilities assumed are measured initially at their fair values. In this process, cash flow-based methods are regularly used, which may produce different results based on the underlying assumptions. In particular, the assessment of the useful lives of intangible assets and the determination of fair values of contingent liabilities entailed an element of uncertainty since assumptions needed to be made.

(vi) Details in respect of the estimation of aircraft maintenance provisions and the accounting policy are disclosed in note 1(R).

(X) IFRS not yet adopted

Adoption of new standards which became effective in the three year period

TUI Tourism has adopted accounting standards that became effective during the three year period from the date these standards were applicable.

Interpretations to existing standards that are not yet effective and not relevant for TUI Tourism

The following accounting standards, amendments and interpretations to published standards are mandatory for accounting periods beginning on or after 1 January 2007 but they are not relevant to TUI Tourism's operations:

—IFRIC 7 Applying the Restatement Approach under IAS 29 Financial Reporting in Hyperinflationary Economies

—IFRIC 9 Reassessment of Embedded Derivatives

—IFRIC 12 Service Concession Arrangements

Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted

The following accounting standards and interpretations to existing standards are mandatory for periods beginning on or after 1 January 2007 or later periods but have not been adopted herein as, with the exception of changes in disclosure which TUI Tourism is in the process of evaluating, the adoption of these standards and interpretations in future periods will have no material impact on the financial statements:

—IAS 1 Presentation of Financial Statements (Amendement re. Capital Disclosures)

—IFRS 7 Financial Instruments: Disclosures

—IFRS 8 Operating Segments

—IFRIC 8 Scope of IFRS 2

—IFRIC 10 Interim Financial Reporting and Impairment

—IFRIC 11 Group and Treasury Share transactions

2. Segmental Information

Based on the risk and rewards the primary reporting segment is by geographical analysis. Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items include financial income, financial expense and corporate assets and liabilities.

As there were no significant acquisitions in the years under review there is no segmental information separated for acquisitions.

The secondary segment is the business segment, which is the provision of leisure travel. These disclosures have been given in the Combined Financial Information.

(B) Acquisitions

As at 24 August 2006, TUI UK Limited, London acquired 100 per cent. of the shares in Explorers Travel Club Ltd., Camberley (UK), a provider of individual and organised diving tours, and four other subsidiaries. The purchase price including incidental acquisition costs totalled around £8.9m (€13.1m), while net assets acquired totalled £2.3m (€3.5m). Under the purchase accounting fair value assessment of individual assets and liabilities, net assets increased by £2.1m (€3.0m). The excess of the total acquisition cost over the revalued net assets of £4.4m (€6.5m) was carried as goodwill. Since the date of first time combination, the group recorded a loss after taxes of £0.4m (€0.5m) with turnover of £3.2m (€4.7m). Since the group's financial year did not correspond to the calendar year, financial statements for the entire year 2006 were not available. It was therefore impossible to determine the disclosures of turnover and earnings generated in 2006.

	Carrying amounts at acquisition date		Carrying amounts at date of first time combination	
	£m	€m	£m	€m
Intangible assets	—	—	2.6	3.7

Goodwill			4.5	6.6

As at 18 July 2005, a subsidiary of TUI Nederland N.V.—TUI Airlines Nederland B.V.—took over the assets, liabilities and material rights related to flight operations from the insolvent ATR Leasing VI B.V. (previously operating under the "HollandExel" brand) at a purchasing price of €11.5m in the framework of an acquisition of business operations. The purchase price (including incidental acquisition cost) was €13.9m while net liabilities were €0.9m. The resulting difference of €14.8m was carried as goodwill since further acquired tangible or intangible assets could not be identified or separately recognised. Impacted by the start-up costs for flight operations under the

"ArkeFly" brand, the company generated turnover of €75.5m and posted negative earnings before income taxes of €11.7m in the 2005 financial year.

Restructuring costs	**(100.6)**	(18.3)	(43.6)
Other items	**(22.9)**	(7.4)	—
	(123.5)	(25.7)	(43.6)

Restructuring costs

In order to reduce costs, in 2006 TUI AG's executive board adopted a cost-cutting programme aimed at reducing tourism costs by €250m by 2008. The cost-cutting programme comprises savings of €100m in terms of personnel costs and €150m in terms of cost of sales. Where the individual measures were sufficiently specific and a factual obligation for restructuring existed, corresponding provisions were formed. These were primarily provisions for personnel costs related to planned personnel reductions and other provisions due to the early termination of rental and lease agreements. Personnel measures focused on source markets Germany and France, but in particular on the source market in the UK. These restructuring measures resulted in total expenses of €100.6m in the 2006 financial year. At the end of the financial year, total provisions remaining amounted to €95.8m. The provisions formed for personnel measures are expected to be utilised in 2007. The restructuring costs in 2005 and 2004 resulted from restructuring measures in the Northern Europe sector only, for the relocation of operations, a reduction of required headcount, the early cancellation of a contract for desktop services and the possible legal claims resulting therefrom.

Other items

In the financial year 2006 other items include one-off items from the fleet renewal of the Boeing 747 fleet and changes of IT systems. Other items in the financial year 2005 relates to the expenses incurred for renewal of lease agreements.

	1,574.4	1,518.6	1,472.7

(C) Pension costs

Due to the number of different pension plans the information required by IAS 19 is given only on an aggregate basis.

A number of pension schemes based on defined contribution plans or defined benefit plans are provided for Group employees. Pension obligations varied according to the legal, fiscal and economic circumstances of the country concerned and usually depended on employees' length of service and pay levels. While all defined contribution plans are funded by means of the payment of premiums to external insurance companies or funds, systems existed for defined benefit plans

entailing the formation of provisions within the relevant entity or investments in funds outside the relevant entity.

Once the contributions to the state and private pension insurance institutions had been paid, the Group had no further obligations. Current contribution payments are recognised as an expense for the respective period. In the 2006 financial year, the pension costs for all defined contribution plans for the Group totalled €49.4m (2005: €53.1m, 2004: €48.6m). The pension costs for defined benefit pension commitments totalled €48.8m (2005: €53.5m, 2004: €59.4m).

Pension costs included in:

	2006 Total	2005 Total	2004 Total
	€m	€m	€m
Operating profit	**88.0**	97.0	95.2
Financial income and expenses	**10.2**	9.6	12.8
	98.2	106.6	108.0

Pension costs for defined benefit obligations

	2006 Total	2005 Total	2004 Total

Effects of curtailment or settlement of pension obligations	**(0.6)**	(0.6)	—
	48.8	53.5	59.4

An amendment of a British law which came into force in April 2006 allows British pensioners to have substantially larger parts of their pension paid out as a tax-free lump sum than before. The Group's pension schemes in the UK were adjusted accordingly. These improvements resulted in an increase in amounts paid out and a reduction in the corresponding pension obligations. The effects of the increase in the payout ratio before the amendment of the law were carried as an actuarial gain (€15.2m) recognised in reserves. The increase in the assumed future payout ratios caused by the amendment and the associated reduction in pension obligations were immediately recognised in the income statement (€13.2m) as 'past service cost' for vested entitlements. The income from past service cost shown under pension costs was mainly attributable to this development.

Development of provisions for pensions and similar obligations

	Provisions for pensions	Similar obligations	Total
	€m	€m	€m
At 1 January 2004	538.1	0.3	538.4

At 31 December 2006	**602.0**	**6.2**	**608.2**

Provision for pension mainly relates to UK.

Of the provisions for pensions and similar obligations €2.1m (2005: €1.7m, 2004: €1.7m) are estimated to be payable in less than one year.

Disclosure information-funded defined benefit pension schemes

The assets of each scheme have been taken at market value and liabilities have been calculated using the following principal assumptions:

Actuarial parameters for German companies	2006	2005	2004
	%	%	%
Discount rate	4.5	4.25	4.75
Projected future salary increases	2.0–2.5	1.5–2.0	1.33–2.5
Projected future pension increases	1.5–1.83	1.0–1.5	1.0–1.33
Projected employee turnover rate	2.0	2.0	2.0

Actuarial calculations for companies abroad were based on specific parameters for each country concerned.

Actuarial assumptions for foreign companies	Eurozone	UK	Rest of Europe
	%	%	%
2006			
Discount rate	4.5	5.0	3.25
Projected return on plan assets	6.0	4.55–7.4	4.0
Projected future salary increases	0.0–4.5	4.1–4.6	1.5–2.0
2005			
Discount rate	4.25	4.75–4.8	3.25–3.75
Projected return on plan assets	6.0	5.1–7.47	2.5–4.0
Projected future salary increases	0.0–4.4	3.9–4.4	0.2–2.5
2004			
Discount rate	4.75	5.3–5.4	3.75
Projected return on plan assets	6.0	5.1–7.63	2.5–5.0
Projected future salary increases	0.0–3.85	3.9–4.4	0.02–2.5

Fair value of fund assets at year-end	**1,306.6**	1,134.0	903.4
of which dividend-carrying securities	**906.8**	920.1	642.2
of which bonds	**302.1**	177.8	197.2
of which property, plant and equipment	**1.1**	—	0.5
of which cash	**68.3**	9.5	35.3
of which other	**28.3**	26.6	28.2

The assumptions used in determining the expected return on external fund assets were based on the actual fund structure and were oriented to the future long-term returns for the individual fund categories. Further factors taken into account were the current interest level and the inflation trend. The Group's calculation of the pension costs were based on conservative forecasts in determining the expected return on the fund assets. This was reflected by the fact that in the financial years under review the funds in particular not just generated the expected returns but managed to generate amounts on top of these returns. Given an expected return of €81.6m (2005: €69.6m, 2004: €61.7m), the funds generated an actuarial return of €118.3m (2005: €174.5m, 2004: €84.5m).

The companies are expected to contribute around €57.1m to pension funds in the next financial year (2005: €70.1m, 2004: €55.0m).

Changes in the present value of defined benefit obligations are as follows:

	2006	2005	2004
	€m	€m	€m
Net present value of actual pension obligations at beginning of year	**1,942.5**	1,448.4	1,308.8
Additions to combination	**0.5**	—	—
Disposals from combination	**(10.8)**	—	—
Current service costs	**52.4**	44.6	46.7
Interest cost	**91.7**	79.2	74.5
Pensions paid	**(69.9)**	(35.1)	(36.3)
Contributions paid by pension beneficiaries	**11.1**	12.0	12.2
Actuarial (gains)/losses of the current year	**(155.0)**	365.1	36.5
Past service benefits	**(10.8)**	0.1	(0.1)
Exchange differences	**38.0**	34.6	6.0
Other	**11.9**	(6.4)	0.1
Net present value of actual pension obligations at year-end	**1,901.6**	1,942.5	1,448.4

Amounts recognised in the statement of changes in income and expense during the years are as follows:

	2006	2005	2004
	€m	€m	€m
Actuarial (gains)/losses on plan assets	**(36.7)**	(104.9)	(22.8)
Actuarial (gains)/losses on plan liabilities	**(155.0)**	365.1	36.5
Net actuarial (gains)/losses in the year	**(191.7)**	260.2	(13.7)

The cumulative actuarial losses recognised in Statement of Recognised Income and Expense were €465.6m (2005: €650.6m, 2004: €381.3m).

	2006	2005	2004
	€m	€m	€m
Reconciliation of the present value of pension obligations to pension liability recognised in the balance sheet			
Actual present value of fully or partly funded pension obligations	(1,806.3)	(1,840.8)	(1,362.8)
Fair value of external plan assets	1,306.6	1,134.0	903.4
Deficit	**(499.7)**	**(706.8)**	**(459.4)**
Actual present value of non-funded pension obligations	95.3	101.7	85.6
Net present value of pension obligations	**(595.0)**	**(808.5)**	**(545.0)**
Adjustment for past service cost	1.8	(0.3)	(0.5)
Net recognised liability	**(593.2)**	**(808.8)**	**(545.5)**
of which provisions for pensions for non-funded obligations	(93.5)	(102.0)	(92.8)
of which provisions for pensions for funded obligations	(508.5)	(706.9)	(459.9)
of which capitalised assets	8.8	0.1	7.2

As the Group used the option of immediately offsetting the actuarial gains and losses against equity in the year in which they arose, the Group's total pension obligations were fully shown in the balance sheet, netted against existing fund assets.

Where plan assets exceeded obligations with regard to funded pension obligations, taking account of an adjustment due to past service cost, and where at the same time there was an entitlement to reimbursement or reduction of future contribution payments to the fund, the excess was capitalised in conformity with the upper limit defined by IAS 19.

(D) Share-based payments

In the Northern Europe sector, there were various share-based payment schemes with cash compensation in conformity with IFRS 2, each with a term to maturity of three years. Senior

executive staff are granted a contractually agreed maximum number of phantom shares under these compensation schemes. The number of phantom shares actually granted at the end of the term of the respective compensation scheme depends on the extent of target achievement with regard to pre-determined indicators and, depending on the actual design of the compensation scheme, to some extent on the relative price share development of TUI AG compared with DAX 30. If an employee leaves the relevant entity before the end of the compensation scheme, these phantom shares may expire. For each individual year, the number of phantom shares granted is measured on the basis of target achievement with regard to the pre-defined parameters, and to some extent on the basis of the relative share price development of TUI AG compared with other DAX 30 members. Where future periods are involved, corresponding estimates are made. The fair value was determined on the basis of the parameters mentioned above by means of Monte Carlo methods as at the balance sheet date. Deductions were made in order to account for expected employee turnover. The level of the provision for the compensation schemes formed as at the respective balance sheet date was based on the degree of target achievement, taking account of the vesting period.

	Number of shares	Pro rata temporis present value in €m
31 December 2004	**1,314,212**	**6.4**
Phantom shares granted	371,403	1.7

2005	—	—	—	—
2004	—	—	—	—
Peter Rothwell				
2006	759	1,477	695	2,931
2005	688	958	490	2,136
2004	651	659	428	1,738
Will Waggott				
2006	523	795	465	1,783
2005	460	667	334	1,461
2004	440	476	176	1,092

The TUI Tourism key management is partly paid by TUI AG. The performance related compensation includes one-off compensation payments.

8. Taxation

The tax charge can be summarised as follows:

(i) Analysis of charge in year

	2006	2005	2004
	€m	€m	€m
Current tax expense			
Current income taxes:			
In Germany	**30.9**	46.3	39.0
Abroad	**21.6**	26.5	9.6
Total current tax	**52.5**	72.8	48.6
Deferred tax	**(11.0)**	42.9	34.0
Total income tax expense in income statement	**41.5**	115.7	82.6

(ii) Reconciliation of effective tax rate

	2006	2005	2004
	€m	€m	€m
Profit before income taxes	(522.4)	187.7	197.6
Expected income tax expense/(credit) (Tax rate: 40 per cent. in 2006, 39 per cent. in 2005 and 2004)	(209.0)	73.2	77.1
Variation from the difference between actual and expected tax rates	(11.4)	(14.4)	(5.1)
Income not chargeable for tax purposes	(16.1)	(42.4)	(1.1)
Expenses not deductible for tax purposes	277.9	8.1	64.3
Temporary differences and losses for which no deferred taxes were recognised	25.9	103.4	(10.8)
Effective tax expenses and income relating to other periods	0.8	5.8	(25.7)
Other differences	(26.6)	(18.0)	(16.1)
Total income tax expense in income statement	41.5	115.7	82.6

In 2006 the difference between actual income tax expenses and expected income tax expenses was primarily due to non-tax-deductible impairments of goodwill.

(iii) Deferred tax recognised directly in equity

The following taxation has been recorded directly in equity within the statement of recognised income and expense:

	2006	2005	2004
	€m	€m	€m
Cash flow hedges	26.9	(69.6)	6.4
Pension plans	(57.5)	78.6	5.9
Total	(30.6)	9.0	12.3

As noted in the basis of preparation, tax charges have been determined based on entity levels. The allocation of aircraft, that are owned by TUI AG, to the Combined Financial Information has resulted in additional property, plant and equipment and depreciation being reflected in the balance sheets and income statements. Any associated deferred taxation balances due to the taxation base of those assets and associated charges being different from the book value of those assets has not been reflected as these remain within TUI AG. Given the values involved this has had a significant impact on the taxation charge and therefore these charges may be significantly different to those that will occur in future.

At 31 December 2006	**697.4**	**176.6**	**55.3**	**—**	**929.3**
Net book value					
At 31 December 2004	3,226.1	73.6	88.9	1.2	3,389.8
At 31 December 2005	3,298.3	74.8	65.4	2.0	3,440.5
At 31 December 2006	**2,634.7**	**70.8**	**24.6**	**3.2**	**2,733.3**

In addition to the below described impairments of goodwill other impairments of intangible assets amounted to €0.8m (2005: €5.1m, 2004: €0.2m). The impairment in 2005 related to software.

The additions to goodwill include acquisitions during the period—refer to note 2(B) for details of significant acquisitions.

Goodwill is analysed by Sector as follows:

	Northern Europe	Central Europe	Western Europe	Destinations	Total Group
	€m	€m	€m	€m	€m
At 31 December 2006	**1,525.2**	**637.8**	**272.1**	**199.6**	**2,634.7**
At 31 December 2005	1,960.2	650.2	488.0	199.9	3,298.3
At 31 December 2004	1,904.3	650.0	473.3	198.5	3,226.1

Goodwill is tested for impairment at the level of cash-generating units at least once a year. In accordance with the rules of the IASB, cash-generating units are the smallest identifiable groups of assets that generate cash inflows from continuing use that are largely independent of the cash inflows from other assets. Cash-generating units were established for individual source markets on a country-specific basis and in the destinations sector for individual subsidiaries.

In the framework of the impairment tests, the carrying amounts of the tested entities plus the relevant goodwill allocated to the entities were compared with their recoverable amounts. The recoverable amount is the fair value less cost to sell or the value in use, if higher. If the carrying amounts exceeded the recoverable amount, impairment losses were recognised. In 2006 the value determined in the framework of the impairment tests is the fair value less cost to sell. In 2005 and 2004 the recoverable amounts were predominantly determined on the basis of the value in use. The applicable pre-tax interest rate for the detailed planning period was 8.39 per cent. p.a. in 2005 and 8.1 per cent. p.a. in 2004 and taking account of a growth rate of 1 per cent. (2005) and 2 per cent. (2004) for the periods thereafter. No impairments had to be recognised in 2005 and 2004.

The fair value less cost to sell is the amount for which for the cash-generating unit could be exchanged between knowledgeable, willing parties in an arm's length transaction after deduction of the cost to sell. Since a fair value on an active market was not available for the entities to be tested for impairment, the fair value was determined by means of discounting the expected operating net cashflows.

Discounting was based on the medium-term planning for the entity under review, prepared as at the end of the 2006 financial year, after deduction of income tax payments. The discounting was based on a weighted average cost of capital rate after taxes of 6.44 per cent. p.a. for the detailed planning period 2007 to 2009 with a growth rate of 1 per cent. for the periods thereafter. The determined fair values have been validated using multiples customary in the market. The cost to sell to be included was based on experience from past transactions.

In the 2006 financial year, impairments of goodwill totalling €690.0m arose. The impairments were particularly caused by the increasingly difficult market environment in the UK, Ireland and France. They were broken down as follows:

Source market	Impairment charged	Reduced growth rate (0.5 per cent.)	Increased interest rate (0.5 per cent.)
	€m		
Northern Europe			
—UK	390.2	453.8	465.9
—Ireland	89.5	91.5	91.8
Western Europe			
—France/aviation	140.2	158.0	160.2
—France/tour operator	70.1	70.9	71.5
	690.0	774.2	789.4

If the growth rate had been 0.5 per cent. lower, the impairments of goodwill in the sectors listed above would have been €84.2m higher in total. If the weighted average cost of capital rate after taxes applied to the detailed planning period 2007 to 2009 for the tourism division had been 0.5 per cent. p.a. higher, the impairments of goodwill required for the sectors mentioned above would have been €99.4m higher in total. No further impairments would have been required on top of that, neither from the increase in the weighted average cost of capital rate nor from the reduction in the growth rate.

Losses on which deferred tax assets recognised	**241.5**	113.8	321.1
Total	**637.7**	533.6	578.8

The loss carryforwards arose in companies in various countries, each with different income tax rates. For Germany, the loss carryforwards comprised a cumulative amount consisting of loss carryforwards for trade income taxes and corporate taxes. Deferred tax assets of €120.8m (2005: €124.8m, 2004: €67.3m) were not recognised since the benefit of the underlying loss carryforwards was unlikely to be realised within the planning period.

Although there was no time limit for German loss carryforwards, the annual use of such carryforwards was restricted due to the minimum taxation. Foreign loss carryforwards frequently had to be used within a specified country-specific time limit and were subject to restrictions concerning the use of these loss carryforwards for profits on ordinary activities, which were taken into account accordingly in the measurement.

Development of deferred tax assets from realisable loss carryforwards

	2006	2005	2004
	€m	€m	€m

Other financial liabilities	55.6	3.7	2.9
	556.3	392.9	454.0

Liabilities to banks are repayable:

	2006	2005	2004
	€m	€m	€m
Within one year	19.9	22.7	21.8
Between one and five years	5.9	24.6	22.9
After five years	1.6	31.0	40.6
	27.4	78.3	85.3

Liabilities secured by mortgages, assignment as security or similar rights:

	2006	2005	2004
	€m	€m	€m
To banks	2.5	65.2	71.7
To non-banks	3.9	3.9	3.9
Total	6.4	69.1	75.6

Secured liabilities related to non-current liabilities totalling €4.2m (2005: €5.3m, 2004: €4.6m).

Group obligations under finance leases are payable as follows:

	Within one year	Two to five years	More than five years	Total
	€m	€m	€m	€m
2006				
Minimum lease payments	38.4	265.6	31.9	335.9
Interest	(12.8)	(39.3)	(2.0)	(54.1)
Present value	25.6	226.3	29.9	281.8
2005				
Minimum lease payments	40.0	143.4	141.6	325.0
Interest	(12.4)	(42.0)	(5.2)	(59.6)
Present value	27.6	101.4	136.4	265.4
2004				
Minimum lease payments	53.7	143.0	212.2	408.9
Interest	(17.2)	(50.2)	(16.5)	(83.9)
Present value	36.5	92.8	195.7	325.0

The table below sets out the interest rate profile of the Group's borrowings.

	2006		2005		2004	
	Fixed rate	Floating rate	Fixed rate	Floating rate	Fixed rate	Floating rate
Current liabilities						
Liabilities to banks . . .	—	19.9	4.6	18.1	12.0	9.5
Liabilities from finance leases	25.7	—	27.6	—	36.5	—
Financial liabilities due to affiliates . . .	—	3.1	—	—	—	—
Financial liabilities due to TUI AG Group companies . .	56.7	119.0	15.9	189.5	10.1	79.0
Other financial liabilities	52.0	—	45.5	—	41.5	—
Non-current liabilities						
Liabilities to banks . . .	—	7.5	1.1	54.5	1.8	61.7
Liabilities from finance leases	256.1	—	237.8	—	288.5	—
Financial liabilities due to TUI AG Group companies . .	114.9	122.2	85.8	10.0	86.3	12.8
Other financial liabilities	50.8	4.8	—	3.7	—	2.9

Floating rate financial liabilities are determined by reference to the market rate primarily EURIBOR and LIBOR in the relevant markets. The weighted average effective interest rate for fixed rate financial liabilities owed to TUI AG Group companies was 5.0 per cent. p.a. (2005: 4.6 per cent. p.a., 2004: 4.5 per cent. p.a.)

	2006		2005		2004	
	Book value	Fair value	Book value	Fair value	Book value	Fair value
Non-current liabilities						
Liabilities to banks . . .	7.5	7.5	55.6	55.6	63.5	63.5
Liabilities from finance leases	256.1	256.1	237.8	237.8	288.5	288.5
Financial liabilities due to TUI AG Group companies . .	237.1	239.6	95.8	99.4	99.1	103.6
Other financial liabilities	55.6	55.6	3.7	3.7	2.9	2.9
	556.3	558.8	392.9	396.5	454.0	458.5

The fair values of the current liabilities are not considered to be materially different from their book value.

In respect of aircraft, provision is made for maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares based on total anticipated costs over the useful economic life of the asset calculated by reference to costs experienced and published manufacturers data. The charge to the income statement is calculated by reference to the number of hours and cycles flown and by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised and depreciated over the period until the next scheduled major overhaul.

Refer to Note 4 for further information on the provision for restructuring.

Provision for other employee benefits is subject to actuarial valuation in accordance with IAS 19.

Provision for onerous contracts was primarily formed for hotel and flight capacity already contracted but not expected to be fully utilised.

Provision for legal claims and guarantees represents the best estimate of contractual obligations existing on balance sheet dates.

24. Financial instruments

Financial instruments represent contractual rights or obligations that will lead to an outflow or inflow of financial assets or the issue of equity rights. They also comprise derivative claims or obligations derived from other financial instruments. The fair value (market value) of a financial instrument is the amount for which an asset could be exchanged, sold or purchased, or a liability settled, between knowledgeable and willing parties in an arm's length transaction. Financial instruments were exposed to certain financial risk factors which the Group eliminated or limited by means of appropriate risk strategies and hedging methods.

Hedging strategy and risk management

In accordance with TUI AG's corporate financial goals, financial risks are to be limited. In order to implement this goal, TUI AG operated central risk management activities in the framework of which TUI AG acted as the bank. As a matter of principle, TUI AG was responsible for all financial transactions for the TUI AG companies and TUI AG-wide financial risk management, based on guidelines and rules fixing binding decision bases, competencies and responsibilities for all financial transactions.

Derivative financial instruments were only used in the framework of internally fixed limits and other regulations. The instruments used had to be controllable with TUI AG's own resources (human resources, organisational resources, systems). The hedges used were exclusively non-listed derivatives, primarily fixed-price transactions (e.g. futures and swaps) as well as options. The transactions were concluded at arm's length with TUI AG solely. As a matter of principle, all hedging transactions of TUI AG were based on appropriately recognised or future underlying items.

TUI AG has a strict organisational separation between the functional areas of trading, settlement and control. Compliance with the set limits and guidelines was regularly monitored. Recognised standard software was used for the assessment, monitoring and reporting of the hedges entered into and the underlying items. The processes, the methods applied and the organisation of risk management were reviewed for compliance with the relevant regulations at least annually by the internal audit department and TUI AG external auditors. In this context, TUI AG also performed a benchmarking against general industry standards.

The hedging transactions by the entities were based on the risk profile and hedge schedule of the respective company. The entities submitted monthly reports on their current and planned foreign currency and fuel requirements (or surpluses) to TUI AG. Based on the risk profile, the hedge schedule and the monthly reports submitted by the entities, each entity defined its specific hedging strategy, on the basis of which TUI AG established its hedge portfolio.

TUI AG concluded appropriate hedge transactions with external counterparties, using potential netting effects (netting of income and expenses in the same currency and with equivalent terms).

Hedges of currency transactions covered between 95 per cent. and 100 per cent. of the planned foreign currency requirements in the respective tourism season after the calculated brochure prices had been fixed. The hedged volumes were adjusted to changes in planning requirements based on the monthly reports by the subsidiaries.

Hedges of price risks related to aircraft fuel were based on the hedging model used by the tourism companies. When calculations for the respective season were made, at least 95 per cent. of the exposures were hedged, taking account of possibilities of levying fuel price surcharges.

Risk factors

The value of a financial instrument may change due to changes in exchange rates (currency risk), level of interest rates (interest rate risk) and changes in market and stock exchange prices (market risk).

The operative business of the companies generated payments denominated in foreign currencies, which were not always matched by congruent payments with equivalent terms in the same currency. To this extent the entities were exposed to currency risks. Within TUI AG, risks from exchange rate fluctuations of more than 20 currencies were hedged, with the largest hedging volumes relating to US dollars, euros and British pounds sterling.

The largest hedging volume in the operative business related to US dollars. In the tourism business, payments in US dollars primarily related to the procurement of services in non-European destinations and purchases of aircraft fuel and aircraft. Due to the structure of the respective business, the tourism division has a substantial short position in US dollars.

The Eurozone limited the currency risk from transactions in the key tourist destinations to entities whose functional currency was not the euro. The tourism division and primarily the Northern

Europe sector was mainly affected by changes in the value of the British pound sterling and the Swedish krona.

Market risk arises from the fact that the value of a financial instrument may change due to fluctuating market prices. In accordance with the rules of IAS 39, marketable securities were recognised at their fair values. Marketable available-for-sale securities mainly comprised listed shares and funds which were subject to normal price fluctuations on the capital markets. The market price risk of these investments was not hedged. As a matter of principle, changes in the market value of available-for-sale securities were taken directly to the revaluation reserve for financial instruments. Where any substantial impairments of available-for-sale securities occurred, the cumulative net loss previously shown in equity was recognised as an impairment in the result for the period.

The credit risk in non-derivative financial instruments results from the risk of non-performance of contractual payment obligations by counterparties.

Maximum credit risk exposure was mainly reported as the total of the fair values of the non-derivative financial assets, taking account of legally enforceable possibilities of netting financial assets and liabilities but not considering existing collateral. Since TUI AG operated in many different business areas and regions in a diversified manner, significant credit risk concentrations from receivables from and loans to specific debtors or groups of debtors were not to be expected; a significant concentration of credit risks related to specific countries was not to be expected either. TUI AG covered the identifiable credit risk of individual receivables and the general credit risk by means of corresponding specific bad debt allowances. In addition, bad debt allowances based on empirical values were made on a portfolio basis.

For derivative financial instruments entered into, the maximum credit risk was the total of all positive market values of these instruments, since in the event of non-performance by the counterparties asset losses would be incurred only up to this amount. Since derivative financial instruments were concluded with a variety of top-rated debtors, no credit risk exposure was to be expected.

TUI AG's liquidity requirements were determined by means of its liquidity planning and covered by committed credit lines so that TUI AG's liquidity was guaranteed at any time.

The cash flow risk results from uncertainty about the levels and timing of cash inflows or outflows from future transactions. TUI AG's floating-rate financial liabilities in particular entailed the risk of fluctuations in future cash flows due to changes in interest rates level. In order to minimise this risk, interest rate hedges were concluded where necessary to limit the potential cost of borrowing funds. The effective portion of the changes in the market values of these financial instruments, classified as cash flow hedges in accordance with the rules of IAS 39, was taken directly to equity.

The cash flow risks resulting from future cash flows in foreign currencies were hedged through derivative financial instruments. To this end, the foreign currency requirements of the tourism division attributable to expected bookings for future tourism seasons were hedged by means of corresponding forward exchange or option contracts.

Price hedging instruments were used in order to hedge exposure to external price risks for commodities. These hedges were used by TUI AG's airlines and container shipping companies to hedge aircraft fuel required in the future. The price hedges were based on corresponding plans and generally qualified as cash flow hedges according to IAS 39. The effective portion of cumulative changes in market values was taken directly to equity until the hedged transaction occurred.

Upon settlement of the hedged item, the cumulative results were taken to the income or expense item covering the associated hedged transaction with an effect on results.

The nominal amounts corresponded to the total of all purchase or sale amounts or the respective contract values of the transactions. Cross currency interest rate swaps not unambiguously to be allocated to currency or interest rate hedges were shown under currency hedges.

As a matter of principle, the fair values of derivative financial instruments corresponded to the market values. The fair value of over-the-counter financial derivatives was determined by means of appropriate discounting methods, e.g. by discounting the expected future cash flows. The calculation of the fair values of options was based on the Black-Scholes models. The fair values determined on the basis of the Group's own systems were regularly compared with fair value confirmations of external counterparties.

Financial instruments which were used in order to hedge a risk position according to operational criteria but did not meet the strict criteria of IAS 39 to qualify as hedges were shown as other derivative financial instruments. They included in particular structured hedges to hedge exposure to market risks in order to hedge the additional fuel volumes required in future by the airlines.

25. Operating lease commitments

Obligations under operating lease contracts are as follows:

	2006			
Remaining terms	up to 1 year	2-5 years	more than 5 years	Total
	€m	€m	€m	€m
Hotel complexes	18.2	37.7	5.9	61.8
Travel agencies	71.7	201.4	145.5	418.6
Administrative buildings	33.1	113.6	90.0	236.7
Aircraft	246.3	567.4	68.7	882.4
Cruise liners	76.9	194.0	15.7	286.6
Other	8.6	14.5	5.7	28.8
Total	454.8	1,128.6	331.5	1,914.9
Fair value	435.2	989.0	229.0	1,653.2

	2005			
Remaining terms	up to 1 year	2-5 years	more than 5 years	Total
	€m	€m	€m	€m
Hotel complexes	20.1	25.8	2.4	48.3
Travel agencies	58.5	165.5	161.5	385.5
Administrative buildings	36.3	114.5	120.7	271.5
Aircraft	216.2	363.4	39.3	618.9
Cruise liners	78.1	235.6	31.3	345.0
Other	31.9	37.6	7.5	77.0
Total	441.1	942.4	362.7	1,746.2
Fair value	423.2	831.7	253.2	1,508.1

	2004			
Remaining terms	up to 1 year	2-5 years	more than 5 years	Total
	€m	€m	€m	€m
Hotel complexes	13.8	18.1	1.6	33.5
Travel agencies	59.1	168.3	182.6	410.0
Administrative buildings	41.1	153.5	132.1	326.7
Aircraft	202.5	393.5	39.0	635.0
Cruise liners	62.4	206.6	67.0	336.0
Other	19.2	21.9	97.7	138.8
Total	398.1	961.9	520.0	1,880.0
Fair value	380.1	836.9	358.7	1,575.7

The fair value of financial commitments from lease, rental and charter contracts was determined by means of discounting future expenses on the basis of an interest rate of 4.5 per cent. p.a. for the financial year 2006, which was in conformity with the market rate. The fair values of financial commitments in 2005 and 2004 were determined on the basis of interest rates of 4.25 per cent. p.a. and 4.75 per cent. p.a. respectively.

26. Capital and other commitments

The fair value of other financial commitments was determined by means of discounting future expenses on the basis of a comparable market interest rate of 4.5 per cent. p.a. for the financial year 2006. The fair values of financial commitments in 2005 and 2004 were determined on the basis of interest rates of 4.25 per cent. p.a. and 4.75 per cent. p.a. respectively.

Order commitments in respect of tourism services related to contractual commitments to purchase accomodation and transport services from non-Group suppliers and associated companies as well as joint ventures.

TUI Travel (Ireland)

Approval for the proposed merger of TUI Tourism with First Choice by the European Commission has been granted on the basis of certain commitments made by TUI AG in relation to TUI Travel (Ireland) and its trading subsidiary Budget Travel Limited. TUI AG has committed to find a purchaser and enter into a binding sale and purchase agreement for the sale of Budget Travel Limited as a

going concern. The business of Budget Travel Limited forms part of the combined financial information herein as it is one of the entities that is the subject of the proposed merger.

Budget Travel Limited generated external turnover of €164 million in 2006 (2005: €172 million, 2004: €171 million) and an operating loss of €2 million (2005: operating profit €1.6 million, 2004: €0.3 million) and had net assets of €70 million (2005: €71 million, 2004: €79 million).

27. Contingent liabilities

	2006	2005	2004
	€m	€m	€m
Other liabilities under guarantees, bill and cheque guarantees . .	1.9	1.8	1.6
Other liabilities under warranties	3.4	0.3	0.3
Contingent liabilities related to the provision of collateral for third-party liabilities	0.1	—	2.5
Total	5.4	2.1	4.4

Contingent liabilities were carried at the level of estimated completion amount as at the balance sheet date.

Liabilities under warranties were all contractual liabilities to third parties not to be classified as guarantees and going beyond the typical scope of the business and the industry.

Group companies were jointly and severally liable for participations in civil-law partnerships for which profit and loss transfer agreements with subsidiaries existed, for participations in joint ventures and participations in partnerships as general partner.

28. Litigation

None of the Group companies were involved in pending or foreseeable court or arbitration proceedings which might have a significant impact on its economic position or had such an impact in the past two years, nor were any such proceedings foreseeable.

The respective Group companies made provisions net of expected insurance benefits to cover any potential financial charges from other court or arbitration proceedings. Overall, the future financial position is therefore not expected to be substantially affected by such charges.

29. Related party transactions

Parties are considered to be related to the Group if the Group has the ability directly or indirectly, to control the party or exercise significant influence over the party making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

Transactions with associated companies and joint ventures related primarily to the tourism services of the incoming agencies and hotel companies used by the Group's tour operators.

All transactions with related parties were executed on an arm's length basis, based on international comparable uncontrolled price methods in accordance with IAS 24.

Liabilities to related parties did not comprise any liabilities from finance leases. Receivables and liabilities existing as at the balance sheet date were comprised in receivables from and liabilities to TUI AG Group companies and associated companies.

In preparing the Combined Financial Information, as discussed in note 1, an allocation of shared corporate head office costs has been made, and these amounts are included above. These amounts include the cost of providing hedging facilities to TUI Tourism during the period.

TUI AG has counter-secured TUI Northern Europe's bank and surety facilities providing bonds to the Civil Aviation Authority ("CAA") and other relevant authorities in respect of certain TUI Tourism companies. In the event of default, the TUI AG Group could be held liable to the extent of these companies' net trading liabilities at the time of default.

At 31 December 2006, there were facility agreements amounting to £330.0 million with contingent liabilities under counter indemnities given to TUI Tourism companies' bankers and other third parties in the normal course of business in respect of CAA and other similar bonds.

Part VI

Operating and financial review relating to TUI Tourism

1 Introduction

The operating and financial review contained in this Part VI should be read in conjunction with (i) TUI Tourism's historical financial information for each of the three years ended 31 December 2004, 2005 and 2006 and (ii) the notes explaining the financial information for the three years ended 31 December 2004, 2005 and 2006 each set out in Part V ("Financial Information on TUI Tourism") of this document.

Investors should read the whole of this document and should not rely solely on the summary operating and financial information set out in this Part VI.

Certain information on governmental, economic, fiscal and political factors which could affect TUI Tourism's operations is set out elsewhere in this document. In particular, information on regulatory, economic and fiscal risks and issues is set out in Part I ("Risk Factors") of this document.

In this Part VI, all comparisons are, unless otherwise stated, to the previous financial year.

2 Operating and Financial review

2.1 Overview

TUI Tourism is a leading integrated travel provider and its value chain comprises distribution, tour operators, airlines and incoming agencies. Sales are made through travel agencies and direct sales channels such as the Internet and call centres, offering both package tours and modular travel products. Aircraft seats are offered both as elements of a package tour and also in the form of the seat-only business. Incoming agencies organise hotel transfers, day trips and other services in the holiday destinations.

2.2 Capital Resources

2.2.1 Cash flow analysis

An explanation of TUI Tourism's cash flows for the three financial years ended 31 December 2006 is set out in paragraphs 2.4.2, 2.5.2 and 2.6.2 of this Part VI. A table showing the amounts of cash flows for such financial years is set out on page 63 of this document.

2.2.2 Capitalisation and indebtedness

The following tables show the indebtedness of TUI Tourism as at 30 April 2007:

Capitalisation and indebtedness[1][2][3]	€m
Guaranteed	—
Secured	(24.5)
Unguaranteed/unsecured	(277.0)
Total current debt	**(301.5)**
Guaranteed	—
Secured	(252.6)
Unguaranteed/unsecured	(260.6)
Total non-current debt (excluding current portion of the long term debt)	**(513.2)**
Total debt	**(814.7)**

(1) TUI Tourism has not in the past formed a separate legal group and therefore it is not meaningful to show share capital or an analysis of reserves for TUI Tourism.

(2) This statement of indebtedness has been prepared under IFRS using policies which are consistent with those used in preparing TUI Tourism's historical financial information for the year ended 31 December 2006.

(3) The information is unaudited.

The following table sets out the net combined financial funds of TUI Tourism as at 30 April 2007[1][2][3][4]:

Net financial funds	€m
Cash	476.0
Cash pool deposits	1,470.3
Trading securities	4.5
Total liquidity	**1,950.8**
Current bank debt	(87.8)
Current portion of non-current debt	(10.0)
Other current financial debt	(203.7)
Current financial debt	**(301.5)**
Net current financial funds	**1,649.3**
Non-current bank loans	(8.1)
Bonds issued	—
Other non-current financial debt	(505.1)
Non-current financial indebtedness	**(513.2)**
Net financial funds	**1,136.1**

(1) TUI Tourism has indirect or contingent indebtedness of €3 million as at 30 April 2007.

(2) TUI Tourism has signed syndicated and bilateral bonding facilities which are guaranteed by TUI AG. Drawings under such facilities as at 30 April 2007 amount to £283 million. These bonding facilities are described in more detail in paragraphs 12.2.1 and 12.2.2 of Part XI of this document.

(3) TUI Tourism has no derivatives not reflected in the analysis above that are hedging the fair value of borrowings.

(4) The information is unaudited.

2.2.3 Capital and other commitments

Details of TUI Tourism's capital and other commitments for the three financial years ended 31 December 2006 are set out on page 106 of this document.

2.2.4 Funding arrangements

TUI Tourism finances itself through a number of sources, namely leasing, unsecured debt, regulatory bonding, letters of credit, and inter-company loans, mainly granted by TUI AG. Furthermore, TUI Tourism invests surplus cash balances with TUI AG as part of cash management arrangements. The undrawn amount available to TUI Tourism under its regulatory bonding facilities is £17,064,785. Details of TUI Tourism's regulatory bonding facilities, including details of the covenants to which such facilities are subject, are set out in paragraphs 12.2.1 and 12.2.2 of Part XI of this document.

TUI Tourism seeks to ensure that sufficient liquidity is available at all times to fund its operations. Typically, TUI Tourism's liquidity peaks in July, August and September, with the liquidity low point being in December and January. To manage such variations in its liquidity position, TUI Tourism draws funds from its cash management investments, respectively under intercompany credit lines with TUI AG. TUI Tourism has had sufficient funding to cover its liquidity requirements for the three financial years ended 31 December 2006.

Further information on TUI Tourism's liquidity over the three financial periods ended 31 December 2006 is set out in paragraphs 2.4.2, 2.5.2 and 2.6.2 of this Part VI.

2.2.5 Treasury policies

TUI Tourism's treasury policy and strategy forms part of the risk management guidelines that are determined by TUI AG's executive board. The TUI AG executive board has established a framework

to ensure that TUI Tourism has adequate policies, procedures and controls to successfully manage the financial risks that is faces.

The main financial risks faced by TUI Tourism are in relation to foreign currency, interest rates, fuel prices and liquidity. The early identification and reporting of these risk positions is the responsibility of the relevant TUI Tourism entities. After having reported these risk positions to TUI AG, TUI AG ensures that entities have sufficient liquidity. Also, all hedges entered into by TUI Tourism must be supported by underlying recognised or future business transactions. TUI Tourism is required to carry out hedging transactions with TUI AG, which in turn hedges the risk with banks on a group-wide basis. Recognised standard software is used for the monitoring, evaluating and reporting of hedges.

2.3 Strategy

TUI Tourism's strategy has been to adapt to the changes in consumer behaviour in the tourism market by extending its product offering from traditional package holidays to a more Internet based component offering, including charter and schedule seats, accommodation only, dynamic packaging and other travel related products to ensure that its brands remain relevant in the current leisure travel market place.

2.4 Financial Year ended December 2006

2.4.1 Operating review

TUI Tourism's underlying operating profit increased by €61.9 million to €270.8 million in 2006. The 2006 year started slowly in several source markets with a decline in bookings due to good weather in such source markets and the football World Cup. The summer season ended with satisfactory performance compared with 2005. In addition, the first two months of the 2006/2007 winter season were promising, with the exception of source markets in the UK and France.

In 2006, TUI Tourism's revenue was €13.7 billion, exceeding 2005 revenue by approximately €127 million. The Central Europe source market grew slightly by 0.9 per cent. due to an increase in tour operator customers. This growth was largely attributable to Hapag-Lloyd Express, operating in the low-cost flight segment. The Northern Europe source market recorded a slight decline in revenue of 0.3 per cent. with an increase in customer figures. In the Western Europe source market, revenue increased slightly by 2.3 per cent. with flat customer numbers. Destinations recorded revenue growth in the period under review, while Other Tourism reported a decline in revenue.

In the Central Europe source market (Germany, Austria, Switzerland as well as airlines Hapag-Lloyd Flug and Hapag-Lloyd Express), the number of customers rose by 2.5 per cent. in 2006, mainly in Germany (2.9 per cent.) and Switzerland (1.9 per cent.). Austria experienced a decline in bookings of 2.0 per cent., however revenue grew slightly in Austria by 0.9 per cent. While revenue matched 2005 levels in the German market, the Swiss market reported a slight increase.

Operating profit in the Central Europe source market rose by 33 per cent. to €87.4 million. After adjusting for one-off restructuring expenses of €25.6 million (incurred in relation to an efficiency enhancement programme in the German market), underlying operating profit rose significantly by 71 per cent. This increase was achieved through improvements in airline operating profit relating to income from sale and lease back arrangements for four aircraft (€24 million; 2005: €18 million). Operating profit in Austria was impacted by the lower bookings for Turkey and Egypt, while Switzerland reported an increase in operating profit.

In the Northern Europe source market (UK, Ireland, Nordic countries as well as airlines Thomsonfly and TUIfly Nordic), customer numbers grew by 2.1 per cent. in a difficult market environment in 2006. This trend was not reflected by revenue, which dropped slightly by 0.3 per cent. year-on-year. While the UK and Ireland reported declines in revenue, the Nordic countries continued to expand their business volumes.

Operating profit in the Northern Europe source market decreased by €483.3 million resulting in a loss of €398.7 million in 2006. Operating profit was affected by restructuring expenses of €49.5 million. Furthermore there was a one-off effect from a change of IT services at Thomsonfly (€4.8 million) in addition to a goodwill impairment of €479.7 million. Adjusted for one-off

expenses, underlying operating profit totalled €135.3 million for 2006, an increase in underlying operating profit of 31.5 per cent. year-on-year. Due to the difficult market conditions, the markets in the UK and Ireland could not match profit expectations despite restructuring measures taken in 2005. The Nordic countries built on the performance in 2005 and again increased their operating profit.

In the Western Europe source market (France, the Netherlands, Belgium and airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium), the number of customers declined by 0.9 per cent. in 2006 year-on-year. Revenue grew by 2.2 per cent. in 2006. In France, revenue declined in difficult market conditions, dropping below 2005 levels. In the Netherlands, revenue matched the previous year's level. Adjusted for small disposals, revenues in the remaining Netherlands business grew year-on-year, largely due to improvements in the product range and an expansion of flight operations. In Belgium, revenue rose due to an increase in customer numbers.

The Western Europe source market incurred an operating loss of €277 million. Operating profit was affected by restructuring expenses (€23 million). Other one-off expenses, including the renewal of the Boeing 747 fleet at Corsair (€12 million), expenses from a planned headcount reduction, changes of IT booking systems at Nouvelles Frontières (€5.9 million) and impairments on goodwill also affected operating profit. In 2005, costs were incurred in connection with the renewal of Corsair's fleet of Boeing 747s (€7.4 million). Adjusted for these one-off effects, underlying operating profit in 2006 was €28.1 million down on 2005 to a loss of €26.2 million. The decline in operating profit in 2006 largely resulted from difficult market conditions in France and surplus capacity in flight operations. In addition, increases in the price of aircraft fuel could not be passed on in full to customers. Nouvelles Frontières and Corsair saw their businesses affected by reduced demand. Operating profit in the Netherlands grew year-on-year in 2006. Operating profit in Belgium, which included income from sale and lease back agreements for two aircraft (€5 million), also rose year-on-year in 2006.

Destinations (incoming agencies) generated a 12.3 per cent. increase in revenue year-on-year in 2006. Operating profit increased by 25 per cent. to €49.8 million in 2006. Incoming agencies catered for a total of 10.55 million guests in 36 countries. Their tourism services mainly comprised transfers and excursions as group and incentive programmes. Business trends varied between holiday regions and seasons but in most cases were reduced year-on-year. In particular, all agencies in eastern Mediterranean countries reported year-on-year declines in customer numbers. The portfolio of incoming agencies was further expanded by means of acquisitions in Thailand and Israel as well as the foundation of a new agency in Oman.

2.4.2 Financial performance

Revenue

TUI Tourism's revenue for the year ended 31 December 2006 was €13,714.1 million (2005: €13,587.0 million), an increase of one per cent.

In the Central Europe source market, revenue was almost stable with a growth of one per cent. to €5,812.0 million (2005: €5,758.5 million). Overall demand rose slightly, but continued to focus on products with attractive price/performance ratios. German customers increasingly demanded modular products and seat and accommodation-only offerings. Overall, 9.56 million customers (2005: 9.29 million) booked TUI Tourism's travel products, an increase of 2.9 per cent. year-on-year. Against the background of strong price-consciousness in the market, a reduced capacity policy was initiated in the summer season, to cater for a 2.7 per cent. decline in customers (2006: 5.24 million; 2005: 5.39 million). Due to an optimisation of capacity and the renewed increase in the number of early bookers, prices increased in the markets year-on-year.

In the German charter flight market, Hapag-Lloyd Flug (Hapagfly) benefited from the selective channelling of tour operator customers to TUI Tourism-owned flight capacity. At the same time, TUI Tourism changed its fleet structure, reducing its passenger capacity. These capacity management and customer channelling measures ensured high seat load factors whereby higher average prices could be achieved. The proportion of tour operator customers among passengers was kept almost constant at more than 84 per cent. Hapagfly operated a total of 33 aircraft in the

summer season: 32 Boeing 737-800s and one Airbus A 310-300, flying from 18 departure airports to 42 destination airports.

The German market for low-cost airlines again showed very dynamic growth in 2006. This resulted in significant capacity expansions. Hapag-Lloyd Express (HLX) also benefited from this environment and expanded its market position. In the 2006 summer season, HLX operated 18 aircraft: five Boeing 737-500s, eight Boeing 737-700s, three Boeing 737-800s and two Fokker 100s. HLX served eight departure airports and 14 destination airports in 2006.

The UK, as the largest market within the Northern Europe source market, was affected by reduced bookings, which led to an overall decrease in revenue of 0.3 per cent. to €4,794.4 million (2005: €4,809.2 million). In the UK, the travel market showed an unfavourable trend in the course of the year. The unusually good UK weather and the football World Cup caused a reduction in bookings. This also affected TUI Tourism's UK tour operators, although the number of customers rose by 2.6 per cent. year-on-year. The expansion of the Thomson website, offering package tours but also modular and seat-only products and hotel accommodation since the second quarter of 2006, had positive effects on TUI Tourism's results. Specialist tour operators were particularly successful in marketing skiing tours and the mobile homes offered by Thomson Al Fresco.

The Western Europe source market increased revenue despite a decrease in the number of guests (0.9 per cent.). Revenue increased by 2.2 per cent. to €2,815.2 million (2005: €2,754.3 million). This increase was mainly driven by the Belgium market which experienced a 6.6 per cent. increase in guests. French performance affected this development with a 6.3 per cent. decrease in guests. Throughout the year, the French travel market suffered from a persistent weakness in demand. The substantial declines in bookings for the important long-haul destination, Reunion, were only partly offset by bookings of the alternative destinations, Guadeloupe and Morocco. A total of 1.58 million customers booked their tours with tour operators of the Nouvelles Frontières Group, down 6.3 per cent. on 2005.

The Dutch travel market showed general stagnation in 2006, whereas direct distribution and Internet-based sales grew steadily. In terms of destinations, bookings of long and medium-haul destinations declined slightly, while short-haul destinations and city trips were very well booked.

Destinations showed revenue growth, although the number of customers in the classic Mediterranean regions declined. The revenue increase of 12.3 per cent. was mainly due to new agencies, especially in Asia.

Other income

TUI Tourism's operating results in 2006 included other income derived from disposals of property, plant and equipment and financial investments. Profits of €26.7 million were generated from the sale and lease back of aircraft (seven B737-800 and one B737-400) and the sale of two A310-200 which led to gains. The Western European source market benefited from the sale of two office buildings which led to an income of €12.0 million.

Underlying operating profit

Underlying operating profit for TUI Tourism rose by 29.6 per cent. to €270.8 million (2005: €208.9 million).

The Central Europe source market showed a significant increase in underlying operating profit (€113.6 million) of approximately €47 million, generated by solid tour operator performance and improvements in online operations. Profits were also boosted by income from the sale and lease back transactions as well from the sale of aircraft (in total €26.7 million; 2005 €18.0 million).

An increase in underlying operating profit by 31.5 per cent. year-on-year to €135.3 million was achieved in the Northern Europe source market, which was caused by improved cost structures by means of commission cuts in third-party distribution as well as by process optimisation resulting from the efficiency enhancement programme started in 2005. Nordic countries stayed on their growth path and increased the profit contribution.

Underlying operating profit in the Western Europe source market dropped from €1.9 million to a loss of €26.2 million, largely as a result of a slowing French market. This development resulted from surplus capacity in flight operations, fuel price increases which could not be reflected in sales prices, reduced demand for package travel and an epidemic disease in the Reunion destination.

The destinations sector increased its underlying profits by 24 per cent. to €52.4 million.

Separately disclosed items

Impairments to goodwill were made in 2006 of an aggregate amount of €690.0 million, caused by difficult market conditions in the UK (€390.2 million), Ireland (€89.5 million) and France (aviation €140.2 million and tour operator €70.1 million).

As mentioned above, TUI Tourism implemented a restructuring programme in order to enhance the efficiency of its tourism operations. In 2006, an amount of €100.6 million was expensed, of which €70.6 million was attributable to personnel measures and €30.0 million to abandonment of office space. These costs were apportioned between TUI Tourism's business source markets in the following manner:

Central Europe/Germany	€25.6 million
Northern Europe/UK	€47.7 million
Northern Europe/Nordic	€1.8 million
Western Europe/France	€17.7 million
Western Europe/Netherland	€5.1 million
Other tourism/Germany	€2.7 million

Liquidity and net indebtedness

The net cash inflow in 2006 from operating activities was €343.7 million compared to €214.7 million in 2005. The improvement in cash flows from operating activities was driven by a reduced outflow from changes in working capital in 2006 of €13.7 million compared to €120.1 million in 2005. This was mainly caused by the implementation of a restructuring and cost-cutting programme. These restructuring measures resulted in total expenses of €100.6 million in 2006. At the end of the financial year, total provisions amounted to €95.8 million.

The net cash outflow in 2006 from investing activities was €158.1 million compared to €214.2 million in 2005. This reduction primarily resulted from the decrease in net expenditure on property, plant and equipment to €334.1 million in 2006 from €387.3 million in 2005. Investments were made mainly in aircraft (€180.1 million) and other property, plant and equipment (€70.8 million). Proceeds from the sale of property, plant and equipment reduced to €179.1 million in 2006 from €207.4 million in 2005. The main drivers for this cash inflow were the sale and lease back transactions in respect of TUI Tourism's aircraft.

The net cash inflow from financing activities decreased from €137.7 million in 2005 to €89.3 million in 2006 due to increased inflow from new loans of €198.5 million (2005: €141.9 million).

The net cash position (cash and cash equivalents less interest-bearing loans and borrowings) at the end of 2006 amounted to €930.7 million compared to €787.1 million at the end of 2005. This consisted of €1,763.4 million of cash and cash equivalents and €832.7 million of interest-bearing loans and borrowings in 2006.

Aircraft fleet

The carrying value of TUI Tourism's aircraft fleet (excluding spare engines and parts) presented in the historical financial information as at 31 December 2006 was €1,196.7 million. The carrying value represents the lower of the depreciated cost or recoverable amount of the fleet assets. The recoverable amount of the fleet assets is the higher of the fair value less costs to sell and the value in use. The value in use of the fleet assets is higher than the fair value less costs to sell.

Two independent valuers have carried out a valuation exercise on the TUI Tourism aircraft fleet to establish the maintenance adjusted market value ("MAMV") at 15 June 2007. The two valuations

established that the MAMV of the fleet assets, translated to euros from US Dollars at a rate of $1.3317:€1.00, compared to current carrying values, give differences as follows:

- total gross overvalues (i.e. MAMV lower than carrying values) ranging from €111.4 million to €142.8 million; and
- total gross undervalues (i.e. MAMV higher than carrying values) ranging from €84.8 million to €100.1 million.

It should be noted that the quantum of gains or losses on such disposals will depend on, amongst other factors, the US Dollar: Euro exchange rate.

2.5 Financial Year ended December 2005

2.5.1 Operating review

TUI Tourism benefited from the sustained recovery of travel markets in Europe. Following the difficult years 2002 and 2003 and a recovery in 2004, the World Tourism Organisation (UNWTO) expected the worldwide travel market to grow by around five per cent. in terms of the number of holiday tours in 2005 (UNWTO World Tourism Barometer, January 2006). The European countries recorded different growth rates. The smaller markets grew more strongly, in relative terms, than the larger markets of Germany, the UK and France. The larger markets recorded a temporary slowdown in the demand for travel, due to uncertainty concerning political and economic development, in particular in Germany but also in France, where social unrest occured towards the end of the year. A general trend to be observed in European source markets was the stronger growth in the number of customers compared with booked revenue. This trend also reflected the structural changes currently observed in the tourism industry, characterised by new options in travel such as low-cost airlines and internet bookings.

TUI Tourism's revenue increased by 6.2 per cent., to €13.6 billion in 2005. However, underlying operating profit decreased by 8.8 per cent. to €208.9 million partly due to exceptional events in France. In 2005, 21.6 million customers booked a tourism product from TUI Tourism. Following a good start to 2005, the upward trend continued in the second quarter and performance in the first half of the year improved year-on-year. This positive trend continued throughout the peak travel period of the 2005 summer season. In the fourth quarter, October was strong and was followed by satisfactory performance in the first two months of the 2005/2006 winter season, except in France.

In the Central Europe source market, 6.8 per cent. growth in revenue to €5.8 billion was primarily attributable to higher revenue in Germany. The tour operation business in Switzerland also showed a positive trend. In Austria, the growth in revenue primarily resulted from the expansion of the Austrian business in neighbouring Eastern European countries.

At €65.7 million, operating profit in the Central Europe source market was up 46.3 per cent. on the previous year. In Germany, the year-on-year improvement in the tour operation business was in particular attributable to specialist tour operators. Good airline seat capacity levels were achieved by Hapag-Lloyd Flug and the results of Hapag-Lloyd Express contributed significantly to the increase in operating profit of the sector.

In the Northern Europe source market, revenue rose by 2.9 per cent. to €4.8 billion. The increase primarily reflected growth in the UK. The Irish market continued to be difficult. Revenue in the Nordic countries was also behind the previous year's figure, since a decrease in Sweden, caused by the aftermath of the tsunami in Asia at the beginning of the year, could not be offset by the business in the other Nordic countries.

At €84.6 million, operating profit in the Northern Europe source market exceeded the previous year's figure by 15.9 per cent. This increase was attributable to an improvement in operating profit both in the UK and Ireland as well as in the Nordic countries. In the UK, operating profit improved in particular due to the effects of restructuring measures implemented in the distribution and tour operation business. The development of operating profit in the flight sector was curbed by the start-up costs of Thomsonfly in respect of flight operations from the new departure airports Bournemouth and Doncaster, in particular in the first half of the year. Operating profit in Ireland was similar to the previous year. Despite a decline in revenue, the Nordic countries continued the

previous year's trend and achieved an increase in operating profit, mainly benefiting from the restructuring of the business in prior years.

Revenue in the Western Europe source market grew by 9.9 per cent. to €2.8 billion. The Netherlands benefited from good tour operation business and the launch of TUI Airlines Nederland in April 2005. The business in Belgium noted further steady growth. France, in contrast, posted more moderate growth in revenue than others since demand slowed down towards the end of the year, believed to be due largely to social and political unrest.

The operating loss in the Western Europe source market was €45.1 million less than the operating profit of €39.5 million in the previous year. This was largely due to performance in France, which closed the financial year overall with a loss. This was largely attributable to the flight sector, which incurred one-off expenses in connection with the renewal of Corsair's fleet of Boeing 747s and the restructuring of flight operations. In addition, operating profit from the flight-only business suffered from intense competition, especially on routes to French overseas destinations. The performance of the French tour operation business was also weaker than in the previous year, suffering a considerable decline in operating profit, in particular in the last few months of the year. The main reason was a significant setback in the Christmas business, which has generated strong profits in the past, caused by the temporary social unrest.

Destinations generated external revenue up 21.1 per cent. year-on-year, whereas operating profits were down by 16.7 per cent. to €39.9 million.

In 2005, TUI Tourism's business strategy aimed at achieving further expansion. Its goal in existing source markets was to achieve above-average revenue growth and an increase in market share. In this regard, the TUI Tourism planned to increasingly expand its direct sales activities to benefit from the new trends in the travel market such as modular and direct booking. It intended to implement further expansion by entering into new emerging source markets in Eastern Europe and Asia.

In addition, TUI Tourism commenced a restructuring programme in the UK involving a reduction of administration headcount by 900 by 2005. Furthermore the head office moved from Central London to Luton in the second half of 2005.

2.5.2 Financial performance

Revenue

In 2005, 21.6 million customers booked a tourism product of TUI Tourism, an increase of 9.1 per cent. year-on-year. Revenue grew by 6.2 per cent. to €13.6 billion (2004: €12.8 billion). All sectors of the tourism business recorded higher revenue than in the previous year, although growth rates varied.

The revenue of the Central Europe source market rose by 6.8 per cent. to €5.8 billion (2004: €5.4 billion). This increase primarily resulted from higher revenue in Germany, which accounted for 87 per cent. of sector revenue. Switzerland represented four per cent. and Austria nine per cent. of sector revenue. Customer numbers climbed by 11.9 per cent. to 10.3 million. The increase in the number of customers was stronger compared with growth in revenue reflecting the change in the product mix, in particular the increase in the number of modular bookings and the growth of the flight-only business.

Germany continued to record a positive trend in the travel market. Demand for travel picked up, although customers continued to be price-conscious. The German market was characterised by short-term bookings and an increasing trend towards bookings of modular products as well as flight-only and accommodation-only offerings. The total number of customers booking travel products of TUI Tourism was 9.29 million (previous year: 8.24 million), 12.8 per cent. up year-on-year. Due to the terrorist attacks in Egypt and Turkey, however, the high growth rates achieved at the beginning of the year were not maintained throughout the summer season. However, there was a sustained increase in the number of early bookers. As a result, the price-reduced offerings dropped again on the previous year. In the package tour segment, the 1-2-Fly brand benefited from the persistently strong demand for low-cost offerings. At 1.07 million

customers, it managed to maintain its market position in an environment characterised by strong competition.

In Northern Europe, revenue grew by 2.9 per cent. to €4.8 billion (2004: €4.7 billion). This increase primarily reflected the good business in UK which accounted for 80 per cent. of revenue in this sector, with Ireland accounting for four per cent. and the Nordic countries for 16 per cent. Customer number rose by 5.2 per cent. to 6.86 million. This increase exclusively resulted from volume growth in the UK, primarily supported by modular products and the expansion of Thomsonfly's flight-only business.

In the UK, a decline in business in January in the aftermath of the tsunami in Asia was followed by a subsequent positive trend which led to a year-on-year increase in revenue. This benefited TUI Tourism's UK tour operators, enabling them to compete effectively in a highly competitive environment driven by low-cost airlines and new distribution channels. At 5.38 million (previous year: 4.91 million), their customer numbers increased by 9.5 per cent. year-on-year. This was in particular attributable to the expansion of the flight-only business. Apart from its growth in absolute terms, Thomson also gained additional market share in its tour operation business. Although customers continued to be price-conscious, average prices improved.

Revenue in the Western Europe source market was up by 9.9 per cent. to €2.8 billion, improving more strongly than other sectors. All three source markets contributed to this increase. France accounted for 43 per cent. of the revenue by the sector, while Belgium accounted for 28 per cent. and the Netherlands for 29 per cent. Customer numbers were up by 8.7 per cent. to 4.4 million.

The French travel market showed little momentum throughout the year. Demand for travel was curbed by the country's social unrest at the end of the year, when demand declined noticeably. Due to the introduction of new products for price-conscious customers and the expansion of distribution via the Internet, Nouvelles Frontières managed to maintain its market position in this difficult environment. TUI, the brand positioned in the quality segment, consolidated its position in the French market. Overall, a total of 1.69 million (previous year: 1.64 million) customers booked from tour operators of the Nouvelles Frontières group, 3.1 per cent. more than in the previous year. In the flight sector, flights to destinations in East Asia, North Africa and several French overseas destinations declined, whereas an increase in flights to North America was recorded. As a part of its fleet renewal programme, Corsair commissioned four Boeing 747-400s and decommissioned three Boeing 747-300s as well as one Boeing 737.

In the Netherlands, the trend of the previous year continued: demand for long-haul tours continued to grow, while medium-haul destinations matched 2004 levels and bookings of short-haul tours declined. The total number of customers rose by 6.7 per cent. to 1.26 million (previous year: 1.18 million).

Due to the economic difficulties of the charter airline Holland Exel, which provided long-haul capacity for TUI Tourism in the Netherlands, TUI Tourism founded its own airline, TUI Airlines Nederland. It started operations on 21 April 2005 under the Arkefly brand and operated four Boeing 767-300s in the summer season. It offered 1.8 billion seat-kilometres and achieved a seat load factor of 85 per cent.

In the Belgian travel market, Jetair, TUI Belgium's main brand, generated strong growth in city breaks and skiing tours. Growth was also generated by the Jetairfly.com brand which mainly focused on the flight-only business. Customer numbers in Belgium increased by 18.3 per cent. to 1.49 million (previous year: 1.26 million).

Underlying operating profit

TUI Tourism's underlying operating profit in 2005 decreased by €27.5 million to €208.9 million. The decrease was largely caused by a difficult French market, which experienced social unrest at the end of the year, with TUI Tourism's operating profit in Western Europe down by €45.1 million.

The Central Europe source market increased its revenue by 6.8 per cent., leading to an increase of 45.4 per cent. in underlying operating profit (2005: €66.6 million; 2004: €45.8 million). Hapag-Lloyd

Express, which became profitable for the first time, contributed significantly to this result. In addition the personnel expenses in Central Europe decreased significantly.

Underlying operating profit in Northern Europe was €102.9 million, although this represented a decrease in underlying profit by 11.8 per cent. year-on-year after adjusting for significant one-off restructuring expenses in 2004.

In the Western Europe source market, there was a significant reduction in underlying operating profit from €39.5 million in 2004 to €1.9 million in 2005. This decrease was caused by the problems in the French market referred to above. In addition, increases in fuel prices could not be fully passed on to customers, resulting in a further negative impact on profitability. The late delivery of five new aircraft further reduced profits by €24.3 million. Income of €19.0 million from the sale of hotels in the Alps and two office buildings could not compensate for these effects. Operating profits in Belgium remained stable, whereas operating profits in the Netherlands were adversely affected by airline start-up costs.

Destinations experienced a 13.9 per cent. reduction in underlying operating profit to €42.2 million, largely due to a reduction in the number of customers and one-off income in 2004 from the sale of assets.

Separately disclosed items

Separately disclosed items included €18.3 million of restructuring costs concerning the restructuring programme in the UK referred to above (2004: €43.6 million).

Liquidity and net indebtedness

The net cash inflow in 2005 from operating activities was €214.7 million compared to €513.6 million in 2004. The reduction in cash flows from operating activities was primarily driven by a change in working capital. In 2004, the change in working capital resulted in a cash inflow of €109.6 million compared to a cash outflow of €120.1 million in 2005.

The net cash outflow in 2005 from investing activities was €214.2 million compared to €361.9 million in 2004. This reduction primarily resulted from the increase in proceeds from the sale of property, plant and equipment to €207.4 million in 2005 from €57.0 million in 2004. Net expenditure on property, plant and equipment increased from €340.2 million in 2004 to €387.3 million in 2005. Main drivers for investing activities were aircraft with €145.4 million and other property, plant and equipment of €98.8 million.

The net cash outflow of €141.6 million in 2004 from financing activities changed to a cash inflow of €137.7 million in 2005. This change was driven by a significant reduction in repayment of borrowings of €34.2 million in 2005 compared to a net increase in borrowings in 2004.

The net cash position (cash and cash equivalents less interest-bearing loans and borrowings) at the end of 2005 amounted to €787.1 million compared to €693.0 million at the end of 2004. This consisted of €1,481.2 million of cash and cash equivalents and €694.1 million of interest-bearing loans and borrowings in 2005.

2.6 Financial Year ended December 2004

2.6.1 Operating review

Following two difficult years, TUI Tourism recorded a significant improvement in 2004. It operated in an increasingly favourable economic and political environment and most major source markets recorded a considerable recovery. The markets in the Nordic countries, which were very difficult in previous years, recorded a significant recovery. Customer numbers rose in virtually all markets, with prices rising in comparison with previous years.

The positive trend of the first half of the year was consolidated so that business in the peak summer season also showed a better trend than in the previous year. At 18.4 million, the number of

customers travelling with TUI Tourism's tour operators rose by 0.9 per cent. year-on-year. Revenue of TUI Tourism totalled €12.8 billion.

In the Central Europe source market 8.05 million customers were achieved with total revenue of €5.4 billion. Central Europe achieved an operating profit of €44.9 million due to high capacity utilisation in flight operations. The 2004 performance was mainly driven by the German market, which accounted for 88 per cent. of the business of this sector.

In Northern Europe, customers totalled 6.26 million and total revenue was €4.7 billion. Around three quarters of the increase was generated in the UK, which achieved both higher customer numbers and higher prices.

In the Western Europe source market, the number of customers was 4.08 million. Growth in Belgium and in France compensated for the reduction in customer numbers in the Netherlands. Revenue of the sector was €2.5 billion. Revenue in Belgium and the Netherlands rose year-on-year. In France, on the other hand, it dropped due to price competition for several products. At €39.5 million, operating profit of the Western Europe source market decreased on the previous year. The slight reduction in operating profit in France and Belgium could not be offset by the improvement in the Netherlands.

2.6.2 Financial performance

Revenue

Total revenue of TUI Tourism was €12.8 billion in 2004. The total number of customers travelling with tour operators of TUI Tourism in 2004 was 18.4 million. The success of 2004 was largely attributable to the relationship between available capacity and demand being more balanced, so that less residual capacity had to be sold at reduced prices and available capacity in the flight sector was better utilised.

At €5.4 billion, the turnover generated by the Central Europe source market was 2.6 per cent. up on the previous year. This increase mainly resulted from improvements in the German market, which accounted for 87 per cent. of sector turnover. Here, the trend observed in the previous year continued: tour operators positioned in the budget-price market segments or engaging in direct or short-term sales of their products grew significantly. Germany recorded a significant recovery in demand for tours. Holidaymakers continued to be very price-conscious and used early booker discounts. Bookings of package tours grew slightly, while programmes bookable individually and flight-only or accommodation-only offerings recorded strong growth. In terms of destinations, Turkey and Egypt in particular were increasingly popular in 2004. Spain continued to be the main holiday destination for the German market. The smaller markets showed varying business trends: while turnover increased in Switzerland, it was relatively stable in Austria.

At €4.7 billion, the turnover generated by the Northern Europe source market was significantly up year-on-year. Growth was strongest in the British market which, at 79 per cent., also accounted for the largest proportion of turnover in this sector. Here, growth was recorded in particular by the mainstream tour operators. Market volume in the UK grew again in the 2003/2004 winter season, and this trend continued in the 2004 summer season. This benefited tour operators, both in the mainstream segment and in the special programmes, although competition remained intense due to the low-cost airlines and travel products offered through new distribution channels. Spain continued to be the destination with the highest number of bookings but suffered a decline in booking numbers which was believed to be due to an unfavourable exchange rate. As a result, growth was recorded for some low-cost destinations in the eastern Mediterranean and long-haul tours.

The strongest relative growth in turnover was reported by the Nordic countries, which saw their tour operators' position strengthened by the restructuring processes. Following several difficult years, the Nordic countries resumed an upward trend. Demand rose perceptibly, in particular in Sweden, the Nordic market with the highest volume. TUI Nordic benefited both from an early launch of sales of its programmes and the expansion of offerings in the low-cost destinations in the eastern Mediterranean. The number of customers travelling with TUI Nordic's tour operators grew

by 1.1 per cent. to 1.25 million. Due to capacity planning in line with market requirements and targeted sales channelling measures, the short-term marketing of capacity was largely avoided, resulting in an increase in average prices.

Ireland recorded a slight increase in turnover on the previous year despite the decline in volumes. The Irish market was characterised by intense competition, primarily based on prices. This was due to both the growth of low-cost airlines on traditional package tour routes and the trend towards late booking. Against this background, a total of 0.35 million customers travelled with TUI Tourism, a 6.9 per cent. drop year-on-year. Declines were recorded in particular for bookings of Spanish destinations, while long-haul destinations were well booked, a trend supported by the favourable US dollar exchange rate. Operating profit was also impacted by the pressure on margins.

Turnover in the Western Europe source market was €2.5 billion. In France, the largest contributor, it dropped slightly. This was mainly attributable to customers' price sensitivity and weak demand at the beginning and at the end of the year. As a result, market volume declined. Holidaymakers were increasingly price-conscious; this trend was reinforced by the increase in offerings through new forms of distribution. Due to its low-price offerings, a high proportion of modular tours and its strong position in the airfare-only business, Nouvelles Frontières managed to develop well and achieved a respectable market position.

In the Netherlands, turnover increased slightly despite a decline in volume, as long-haul tours with their higher prices increased as a proportion of total business. The Dutch travel market contracted considerably. Moreover, the structure of demand changed: it declined for short and medium-haul destinations but rose for long-haul tours. Direct sales and web bookings continued to grow. The business trend recorded was characterised by the changes in the market environment. The two classical tour operators Arke and Holland International lost customers as the growth in long-haul tours and city breaks did not compensate for the declines in other segments. In the direct sales segment, Kras continued the positive trend of 2003 and increased both its business volume and market share. At 1.18 million, the number of customers travelling with TUI Tourism declined by 2.2 per cent. This trend mainly affected destinations in Spain and tours to neighbouring countries. In contrast, growth was recorded for destinations in Turkey and the Caribbean.

In Belgium, the increase in business volume was also reflected by a corresponding increase in turnover. The Belgian travel market reported growth in demand, both in the winter and summer seasons. TUI Belgium took advantage of the favourable market environment and expanded its market position. However, growth rates differed in the individual market segments. Jetair, TUI Belgium's main brand, only achieved moderate growth in package charter tours. Growth was stronger in overland tours, with city trips being particularly popular. Jetonly, the brand launched in the previous year focusing on the seat-only business, reported strong growth. The direct selling operations of Sunjets Direct, which also grew most strongly in this market segment, were successfully established. At a total of 1.26 million customers, TUI Belgium's tour operators recorded 4.5 per cent. growth. Spain continued to be the most popular holiday destination, while tours to Egypt and the Caribbean recorded significant growth.

Other income

Other income of €9.2 million mainly comprised a gain from the sale of office and retail buildings in France (€7.8 million).

Underlying operating profit

Total underlying operating profits of €236.4 million were achieved in 2004.

In Germany, profits grew substantially year-on-year, in particular in tour operations but also in distribution. Austria and Switzerland also recorded an improvement in operating profit, although Switzerland reported a slight loss.

Underlying operating profit was mainly affected by the strength of the euro against the British pound. This had a negative effect on operating costs, in particular the cost of accommodation in

Europe. Ireland also recorded a decline in operating profit. In contrast, the Nordic countries achieved substantial improvements.

In France, while distribution and tour operation improved earnings, the flight sector was adversely impacted by the temporary price pressure on a number of high-volume routes. The Netherlands reported a considerable increase in earnings. The Belgian companies reported a year-on-year decline in earnings, caused to some extent by changes in the product mix.

Liquidity and net indebtedness

The net cash inflow in 2004 from operating activities was €513.6 million. The high cash flows from operating activities was primarily driven a change in working capital. In 2004, the change in working capital resulted in a cash inflow of €109.6 million.

The net cash outflow in 2004 from investing activities was €361.9 million. This cash outflow mainly resulted from net expenditure on property, plant and equipment in the amount of €340.2 million.

The net cash outflow in the amount of €141.6 million from financing activities was driven by a repayment of borrowings of €243.7 million.

The net cash position (cash and cash equivalents less interest-bearing loans and borrowings) at the end of 2004 amounted to €693.0 million. This consisted of €1,335.9 million of cash and cash equivalents and €642.9 million of interest-bearing loans and borrowings.

Part VII

Financial information on First Choice

This Part VII contains:

- in Section A, Accountant's Report in respect of the historical financial information relating to First Choice for the two years ended 31 October 2006;
- in Section B, historical financial information relating to First Choice for the two years ended 31 October 2006;
- in Section C, audited consolidated financial statements of First Choice for the two years ended 31 October 2005; and
- in Section D, unaudited interim results relating to First Choice for the six months ended 30 April 2007.

Introduction to the First Choice historical financial information

For the year ended 31 October 2006, First Choice was required for the first time to prepare audited consolidated financial statements in accordance with Adopted IFRS. For the two periods ended 31 October 2005, First Choice prepared consolidated financial statements under the historical cost convention in accordance with UK Generally Accepted Accounting Principles.

Consolidated historical financial information of First Choice for the two years ended 31 October 2006, together with an accountant's report from KPMG Audit Plc for the two years ended 31 October 2006, is included on pages 125 to 193 of this Part VII.

The consolidated financial statements of First Choice for the two periods ended 31 October 2005, together with the audit reports thereon prepared, in each case, by KPMG Audit Plc are included on pages 194 to 275 of this Part VII. The auditor's reports of KPMG Audit Plc for each of the two periods ended 31 October 2005 are unqualified and do not contain statements under section 237(2) or (3) of the Companies Act.

Statutory accounts for each of the three periods ended 31 October 2006 have been delivered to the Registrar of Companies.

The consolidated financial information for the two years ended 31 October 2006 set out in Section B of this Part VII and the unaudited interim results for the six months ended 30 April 2007 set out in Section D of this Part VII have been prepared and presented under Adopted IFRSs in a form consistent with that which is expected to be adopted by TUI Travel in its next published financial statements, having regard to accounting standards and policies and legislation applicable to such financial statements. The policies applied differ from the policies applied in the previously published consolidated financial statements of First Choice for the year ended 31 October 2006, materially in the following areas:

- revenue and cost of sales have increased by £183.7 million and £205.4 million in the financial years ended 31 October 2006 and 2005 respectively, as result of the disclosure of commissions payable as cost of sales, as opposed to a deduction from revenue;
- cost of sales has been reduced and net financing expenses have increased by £3.6 million and £3.1 million in the financial years ended 31 October 2006 and 2005 respectively, as a result of applying discounting to aircraft maintenance provisions; and
- inventories have increased and trade and other receivables reduced by £15.6 million and £9.8 million as at 31 October 2006 and 31 October 2005, respectively, as a result of presenting inventories separately on the face of the balance sheet.

Save as set out above, the appliation of the policies expected to be adopted by TUI Travel in its next published financial statements, as contained in Part VII Section B of this document, have not resulted in any material differences to First Choice's previously published consolidated financial statements for the two years ended 31 October 2006.

The financial information set out in Section B of this Part VII does not constitute First Choice's statutory accounts for the year ended 31 October 2006. Those accounts have been reported on by First Choice's auditors and delivered to the Registrar of Companies. The report of the auditors was (i) unqualified, (ii) did not include a reference to any matters to which the auditors drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 237(2) or (3) of the Companies Act 1985.

29 June 2007

Dear Sirs

First Choice Holidays PLC (the "Company")

We report on the financial information set out Section B of this Part VII ("Financial information on First Choice"). This financial information has been prepared for inclusion in the prospectus dated 29 June 2007 (the "Prospectus") of TUI Travel PLC (the "Issuer") on the basis of the accounting policies set out in note 1(A). This report is required by paragraph 20.1 of Annex I of the Prospectus Directive Regulation and is given for the purpose of complying with that paragraph and for no other purpose.

Responsibilities

The Directors of the Issuer are responsible for preparing the financial information on the basis of preparation set out in note 1(A) to the financial information and in accordance with IFRS as adopted by the EU.

It is our responsibility to form an opinion on the financial information and to report our opinion to you.

Save for any responsibility arising under Prospectus Rule 5.5.3R (2)(f) to any person as and to the extent there provided, to the fullest extent permitted by law we do not assume any responsibility and will not accept any liability to any other person for any loss suffered by any such other person as a result of, arising out of, or in connection with this report or our statement, required by and given solely for the purposes of complying with paragraph 23.1 of Annex I of the Prospectus Directive Regulation, consenting to its inclusion in the prospectus.

Basis of opinion

We conducted our work in accordance with Standards for Investment Reporting issued by the Auditing Practices Board in the United Kingdom. Our work included an assessment of evidence relevant to the amounts and disclosures in the financial information. It also included an assessment of the significant estimates and judgments made by those responsible for the preparation of the financial information and whether the accounting policies are appropriate to the entity's circumstances, consistently applied and adequately disclosed.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance

that the financial information is free from material misstatement whether caused by fraud or other irregularity or error.

Opinion

In our opinion, the financial information gives, for the purposes of the Prospectus, a true and fair view of the state of affairs of First Choice Holidays PLC as at the dates stated and of its profits, cash flows and recognised gains and losses for the periods then ended in accordance with the basis of preparation set out in note 1(A).

Declaration

For the purposes of Prospectus Rule 5.5.3R (2)(f) we are responsible for this report as part of the Prospectus and declare that we have taken all reasonable care to ensure that the information contained in this report is, to the best of our knowledge, in accordance with the facts and contains no omission likely to affect its import. This declaration is included in the Prospectus in compliance with paragraph 1.2 of Annex I of the Prospectus Directive Regulation.

Yours faithfully

KPMG Audit Plc

Notes to the historical financial information

1. Accounting policies

General

The Group historical financial information consolidates those of the Company and its subsidiaries (together referred to as "the Group") and equity account the Group's interest in joint ventures and associates.

(A) Basis of preparation

The consolidated historical financial information has been prepared and approved by the Directors in accordance with the requirements of the PD regulation, the Listing Rules and International Financial Reporting Standards as adopted by the European Union ("Adopted IFRSs"). The financial statements are prepared in the Group's reporting currency of Sterling, rounded to the nearest hundred thousand. The financial year of First Choice Holidays PLC, and that of its subsidiaries where this is practicable, is 31 October.

The Group believes that underlying operating profit, underlying profit before tax and underlying earnings per share provide additional guidance to statutory measures on the underlying performance of the business during the financial year.

The term underlying is not defined under International Financial Reporting Standards. It is a measure that is used by management to assess the underlying performance of the business internally and is not intended to be a substitute measure for Adopted IFRSs GAAP measures.

The Group defines these underlying measures as follows:

- Underlying operating profit is profit before financial income and expense, taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets recognised as a result of business combinations and impairment of goodwill.
- Underlying profit before tax is profit before taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets recognised as a result of business combinations and impairment of goodwill.
- Underlying profit after tax is profit before separately disclosed items, amortisation of intangible assets recognised as a result of business combinations and impairment of goodwill (all net of tax).
- Underlying earnings are underlying profit after tax less minority interests.
- Underlying earnings per share is underlying earnings divided by the weighted average number of ordinary shares in issue during the financial period, excluding those held by employee share ownership trusts.

It should be noted that the definitions of underlying items being used in these financial statements are those used by the Group and may not be comparable with the term "underlying" as defined by other companies within either the same sector or elsewhere.

The policies applied differ from the policies applied in the consolidated financial statements of First Choice Holdings PLC for the year ended 31 October 2006.

The financial information set out in Section B of this Part VII does not constitute the company's statutory accounts for the year ended 31 October 2006. Those accounts have been reported on by the company's auditors and delivered to the registrar of companies. The report of the auditors was (i) unqualified, (ii) did not include a reference to any matters to which the auditors drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 237(2) or (3) of the Companies Act 1985.

(B) Transition to Adopted IFRSs

The Group is preparing its financial information in accordance with Adopted IFRSs for the first time and consequently has applied IFRS 1: "First-time adoption of International Financial Reporting Standards".

The preparation of the consolidated financial statements in accordance with Adopted IFRSs resulted in changes to the accounting policies as compared with the 2005 annual financial statements prepared under UK GAAP. With the exception of accounting policies in respect of financial instruments, the accounting policies set out below have been applied consistently to all years presented in these consolidated financial statements. They have also been applied in preparing an opening Adopted IFRSs balance sheet at 1 November 2004 for the purposes of the transition to IFRS, as required by IFRS 1. The impact of the transition from previous UK GAAP to Adopted IFRSs is explained in note 33.

The consolidated financial statements are prepared on the historical cost basis other than, from 1 November 2005, derivative financial instruments, financial instruments held for trading and financial instruments classified as available for sale, which are stated at their fair value. Non-current assets held for sale are stated at the lower of their carrying amount and fair value less costs to sell.

The Group has adopted the transitional rules of IFRS 1 and has therefore adopted IAS 32: "Financial Instruments: Disclosure and Presentation", IAS 39: "Financial Instruments: Recognition and Measurement" and IFRS 7 "Financial Instruments: Disclosures" with effect from 1 November 2005. In the comparative financial year the previous UK GAAP accounting policy has been applied. A reconciliation showing the impact of the adoption of these standards from 1 November 2005 is provided in note 33 and further details of the change in accounting policy are provided in (E). The Group has early adopted IFRS 7 in the year ending 31 October 2006 which replaces the disclosure requirements of IAS 32.

In addition, IFRS 1 grants certain exemptions from the full requirements of other Adopted IFRSs on transition. The following exemptions permitted under IFRS 1 have been taken in these Group financial statements:

(i) Business combinations

Business combinations that took place prior to 1 November 2004 have not been restated.

(ii) Foreign exchange

Cumulative translation differences for all foreign operations have been set at zero at 1 November 2004.

(iii) Share-based payments

IFRS 2: "Share-based payments" has only been applied in respect of share options issued after 7 November 2002 and that had not vested by 1 January 2005.

In addition to the IFRS 1 exemptions above, the Group has chosen to adopt the amendment to IAS 19: "Employee benefits" issued on 16 December 2004 whereby actuarial gains and losses are recognised through the statement of recognised income and expense in full in the period in which they arise.

(C) Basis of consolidation

The consolidated financial statements of the Group comprise the Company and its subsidiaries (together referred to as the Group) and the Group's interest in associates and jointly controlled entities.

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable or convertible are taken into account. The financial statements of subsidiaries are

included in the consolidated financial information from the date that control commences until the date that control ceases.

The consolidated financial statements of the Group are prepared on the basis of uniform recognition, measurement and consolidation methods.

(ii) Joint ventures and associates

Joint ventures are jointly controlled entities over whose activities the Group has the power to jointly control, established by contractual agreement.

Associates are those entities in which the Group has the ability to exercise significant influence, but not control, over the financial and operating policies.

The consolidated financial statements include the Group's share of the total recognised income and expense of joint ventures and associates on an equity accounted basis, from the date that joint control or significant influence respectively commences until the date that it ceases.

When the Group's share of losses exceeds the carrying amount of the joint venture or associate, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture or associate.

(iii) Transactions eliminated on consolidation

Intra-group balances and any unrealised gains, income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with associates and jointly controlled entities are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(D) Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to the functional currency at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to the functional currency at foreign exchange rates ruling at the dates the fair values were determined.

(ii) Foreign operations

The financial statements of companies are prepared in the functional currency of the company. The respective functional currency corresponds to the currency of the economic environment in which the company primarily operates. The functional currency of subsidiaries is generally the national currency of the country in which the subsidiary is based.

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on consolidation, are translated to the reporting currency at the foreign exchange rates ruling at the balance sheet date. The revenues and expenses of entities with functional currencies other than the reporting currency of the Group are translated at average monthly rates.

(iii) Net investment in foreign operations

Exchange differences arising from the translation of the net investment in foreign subsidiaries and of related hedges are recognised in the statement of income and expenses and taken to the foreign exchange reserve. On disposal of the subsidiary, they are taken into the income statement as part of the gain or loss on disposal.

(E) Derivative financial instruments

The Group uses derivative financial instruments to hedge its exposure to foreign exchange, interest rate and fuel price risks arising from operational, financing and investment activities.

In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments.

On initial recognition, derivative financial instruments are measured at the fair value attributable to them on the day of the conclusion of the agreement. The gain or loss on re-measurement to fair value is recognised immediately in the income statement. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged (see accounting policy (F)).

Fair values of derivative financial instruments are their market values. The fair value of an interest rate or energy swap is the estimated amount that the Group would receive or pay to terminate the swap at the balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparty. The fair value of a forward exchange contract or fuel price contract is, if applicable, its quoted market price at the balance sheet date, being the present value of the quoted forward price. The fair value of an over-the-counter financial derivate is determined by means of an appropriate discounting method, e.g. by discounting expected future cash flows. The fair value of an option is determined using the Black Scholes model. The fair values determined on the basis of the Group's own systems are regularly compared with fair value confirmations of external counterparties.

(F) Hedge accounting

(i) Cash flow hedges

Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probably forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in the hedging reserve. Any ineffective portion of the hedge is recognised immediately in the income statement.

When the forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated cumulative gain or loss is removed from the hedging reserve and is included in the initial cost or other carrying amount of the non-financial asset or liability.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains and losses that were recognised directly in equity are reclassified into the income statement in the same period or periods during which the asset acquired or liability assumed affects profit or loss.

For cash flow hedges, other than those covered by the preceding two policy statements, the associated cumulative gain or loss is removed from equity and recognised in the income statement in the same period or periods during which the hedged forecast transaction affects the income statement.

Upon inception of the transaction, the Group documents the hedging relationship between the hedge and the underlying item, the risk management goal and the strategy pursued in entering into the hedges. In addition, an assessment is made both at the beginning of the hedge relationship and on a continual basis as to whether the derivatives used for the hedge compensate for the changes in the cash flows of the underlying transactions in a highly efficient manner.

When a hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, or the entity revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity and is recognised in accordance with the above policy when the

transaction occurs. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss recognised in equity is recognised in the income statement immediately.

(ii) Fair value hedges

Where a derivative financial instrument is designated as a hedge of the variability in fair value of a recognised asset or liability or an unrecognised firm commitment, all changes in the fair value of the derivative are recognised immediately in the income statement. The carrying value of the hedged item is adjusted by the change in fair value that is attributable to the risk being hedged (even if it is normally carried at cost or amortised cost) and any gains or losses on re-measurement are recognised immediately in the income statement (even if those gains would normally be recognised directly in reserves).

(G) Revenue

Revenue represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business. Revenue excludes intra-group transactions and value-added tax, and is stated after the deduction of trade discounts.

(i) Goods sold and services rendered

Revenue from sale of goods and services is recognised in the income statement when the significant risks and rewards of ownership have been transferred to the buyer. Revenue in respect of package tours is recognised on the date of departure. Revenue from individual travel modules directly booked with airlines, hotels and incoming agencies by the customers is realised when the customer uses the corresponding service. Commissions and other revenues received from the sale of third-party product are recognised when they are earned, normally on receipt of final payment from the end customer.

(ii) Client monies received in advance

Client monies received at the balance sheet date relating to holidays commencing and flights departing after the year end are deferred and included within trade and other payables.

(iii) Valuation of revenue

Where the Group acts as principal, revenue is stated at the fair value of the consideration received or to be received for the sale of goods and services provided.

Where the Group acts as agent and collects amounts on behalf of the principal provider of goods or services, revenue is stated at the fair value of the commissions received or to be received and not the total transaction sales value.

In assessing whether the Group acts as principal or as agent, the businesses are identified as acting as agents depending on: the control exercised over the providing of service, inventory risk and customer credit risk. Revenue for businesses acting as agent is then presented on a net basis as the difference between the sales prices to the customer and the cost of the services purchased.

(H) Expenses

(i) Operating lease payments

Payments made under operating leases are recognised in the income statement on a straight-line basis over the term of the lease or on another systematic basis if this is more representative of the time pattern of the benefit from use of the leased asset. Lease incentives received and paid are recognised in the income statement as an integral part of the total lease expense over the term of the lease.

(ii) Finance lease payments

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

(iii) Marketing and other direct sales costs

Marketing, advertising and other promotional costs, including those related to the production of brochures, are expensed as incurred.

(I) Net financing expenses

(i) Bank interest receivable

Bank interest receivable represents the interest receivable on current accounts, bank deposits and other investment instruments. Bank interest receivable is accrued over the term of the deposit using the effective interest method.

(ii) Interest on pension scheme assets

Interest on pension scheme assets represents the income arising from expected returns on the assets of the defined benefit pension schemes during the year.

(iii) Bank interest payable on loans and overdrafts

Interest payable on loans is calculated using the effective interest method. Costs of arranging the facilities are deducted from the proceeds and amortised over the life of the facility. Interest on overdrafts is calculated using the effective interest method. Interest payable also includes the costs of providing bonding facilities which are an integral part of the financing requirements of the Group.

(iv) Interest on pension scheme liabilities

Interest on pension scheme liabilities represents the unwinding of the discounting of the value of post-retirement benefits earned by defined benefit pension scheme members up to the balance sheet date.

(v) Finance lease charges

Finance lease charges represent the unwinding of the discount of the cash flows associated with leases classified as finance leases at the implicit interest rate of the lease.

(vi) Interest on discounted liabilities

Interest on discounted liabilities represents the unwinding of the discount on liabilities and provisions initially recognised at the present value of the expected future cash flows.

(J) Taxation

Income tax expense comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity in the same way as the item to which it relates.

(i) Current tax

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

(ii) Deferred tax

Deferred tax is recognised using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of goodwill, the initial recognition of assets or

liabilities in a transaction that is not a business combination that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries, joint ventures and associates to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax asset provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(K) Property, plant and equipment

(i) Owned assets

Items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The costs of finance for the acquisition or the period of construction are not capitalised.

Where significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

(ii) Leased assets

Leases in which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Leased assets acquired by way of a finance lease are stated at an amount equal to the lower of their fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Lease payments are accounted for as set out in (H) (ii) above.

(iii) Depreciation

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Freehold land is not depreciated. The useful economic lives on initial recognition are as follows:

Freehold properties	—	up to 50 years
Short leasehold properties	—	Lease period or useful economic life if shorter
Finance leased aircraft and engines	—	Lease period, or useful economic life if shorter
Computer equipment	—	3-5 years
Aircraft and engines	—	18 years
Aircraft spares	—	12 years
Yachts	—	15 years
Motor boats	—	24 years
Other operating and business equipment	—	up to 10 years

The residual values and useful lives of all assets are re-assessed annually.

(L) Intangible assets

(i) Goodwill

All business combinations are accounted for by applying the purchase method.

Goodwill represents amounts arising on acquisition of subsidiaries, associates and jointly controlled entities. In respect of business acquisitions, goodwill represents the difference between the fair value of consideration paid or payable and the fair value of the identifiable assets, liabilities and contingent liabilities acquired. Identifiable intangibles are those which can be sold separately or which arise from legal rights regardless of whether those rights are separable. Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is not amortised but is tested annually for impairment.

In respect of joint ventures and associates, the carrying amount of goodwill is included in the carrying amount of the investment in the associate.

Goodwill is tested annually for impairment or when there are any events or indications suggesting a potential impairment (triggering event).

Fair value adjustments are made in respect of acquisitions. If, at the balance sheet date, the amounts of fair values of the acquiree's identifiable assets and liabilities can only be established provisionally, then these values are used. Any adjustments to these values are taken as adjustments to goodwill and are recorded within 12 months of the acquisition.

Negative goodwill arising on an acquisition is recognised in the income statement.

(ii) Other intangible assets

Other intangible assets that are acquired by the Group are stated at cost less accumulated amortisation and impairment losses. Self-generated software used by the Group itself, is capitalised at cost where an inflow of future economic benefits for the Group is probable and can be reliably measured.

(iii) Amortisation

Amortisation is charged to the income statement on a straight-line basis over the period in which the value of the assets will be obtained by the Group. Computer software is amortised over a period usually not exceeding 5 years, but in exceptional cases of up to 10 years.

(M) Other investments

Trade investments are classified as available for sale assets and are included under non-current assets. They are recorded at market value with movements in value taken to equity. Any impairment to value is recorded in the income statement.

(N) Financial assets

Loans and receivables are non-derivative financial assets with fixed or determinable payments not listed in an active market. Loans and receivables are shown under "Trade and other receivables" in the balance sheet.

Financial assets measured at fair value through profit and loss are only held by the Group in the form of derivative financial instruments exclusively held for the purpose of hedging.

Financial assets available for sale are non-derivative financial assets either allocated to the "other investments" category or that could not be allocated to any other category of financial assets. They are allocated to non-current assets if the management does not intend to sell them within twelve months after the balance sheet date. The financial assets allocated to "other investments" are shares and securities held.

Financial assets are recognised at the trade date on which the Group committed to buy or sell the asset. Loans and receivables as well as financial assets available for sale are at the initially recognised at fair value plus transaction costs. Financial assets available for sale are measured at their fair value after initial recognition. Changes in the fair value are recognised in equity with no effect on results until the disposal of the asset. A permanent reduction in fair value gives rise to an impairment with a corresponding charge in the income statement. In the event of subsequent reversal of the impairment, the impairment recognised in the income statement is not reversed for equity instruments but eliminated against equity with no effect on results. Where a listed market price in an active market is not available for shares held and other methods to determine the objective market value are not applicable, the shares are measured at amortised cost. Loans and receivables are recognised at amortised cost based on the effective interest method.

(O) Impairments

The carrying amounts of the Group's assets, other than deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such an

indication exists, the recoverable amount of such as asset is estimated. For goodwill, the recoverable amount is estimated at each balance sheet date.

An impairment loss is recognised whenever the carrying amount of an asset or its related cash-generating unit exceeds its recoverable amount. The recoverable amount of an asset or cash-generating unit is the fair value less costs to sell or the present value of future cash flows expected to arise from the asset (value in use), if higher. Impairment losses are recognised separately in the income statement. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of goodwill allocated to cash-generating units and then to reduce the carrying amount of other assets in the unit on a pro rata basis. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

The fair value less costs to sell is the amount for which for the asset or cash-generating unit could be exchanged between knowledgeable, willing parties in an arm's length transaction after deduction of the costs to sell. If a fair value on an active market is not available for the assets or cash-generating units to be tested for impairment, the fair value is determined by means of discounting the expected operating net cash flows. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, before impairment. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed when there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount.

(P) Trade and other receivables

Trade and other receivables are initially recognised at their fair value and subsequently measured at amortised cost on the basis of the effective interest method and the deduction of impairments. An impairment of trade and other receivables is recognised if objective indications suggest that the amounts receivable and due are not fully recoverable.

(Q) Inventories

Inventories are measured at the lower of cost or net realisable value. Net realisable value is the estimated selling price less the estimated cost incurred until the sale and the estimated variable costs required to sell. All inventories are written down individually where the net realisable value of inventories is lower than their carrying amounts. The measurement method applied to similar inventory items is the weighted average cost formula.

(R) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits as well as other current highly liquid financial assets with an original term of a maximum three months. Credit balances in current accounts are shown as overdrafts under current interest-bearing loans and borrowings, unless they form part of the Group's cash pooling arrangements in which case the aggregate balance of cash pooling accounts is included in either cash and cash equivalents or current interest-bearing loans and borrowings as appropriate.

(S) Provisions

A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

In respect of aircraft, due to the legal obligations placed upon the Group under the terms of certain operating leases, provision is made for the maintenance, overhaul and repair costs of operating leased airframes, engines and other aircraft components. The provision is based on total anticipated costs and intervals between maintenance events. It is calculated by reference to costs experienced and published manufacturers' data. The charge to the income statement is calculated by reference to the number of hours operated, cycles flown and the passage of time, and by reference to the length of the full overhaul cycle and the life cycle of each asset within the business.

(T) Liabilities

Liabilities are recognised on the date on which they arise at the fair value less the costs of borrowing and transaction costs. Over the course of time, liabilities are measured at amortised cost based on the effective interest method.

(U) Dividends

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's financial statements in the period in which the dividends are appropriately authorised and approved for payment and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

(V) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are recognised as an expense in the income statement as they fall due.

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The calculation is performed by a qualified actuary using the projected unit credit method.

When the benefits of a plan are improved, the portion of the increased benefit relating to past services by employees is recognised as an expense in the income statement on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the income statement.

All actuarial gains and losses are recognised in the period they occur directly in equity through the statement of recognised income and expense.

(iii) Share-based payment transactions

The Group's share option programmes allow Group employees to acquire shares of the ultimate parent company; these awards are granted by the ultimate parent. The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employee becomes entitled to the options.

The fair value of the options granted is measured using option valuation models, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest except where forfeiture is due only to market-based performance conditions not achieving the threshold for vesting.

(iv) Own shares held by an ESOP trust

Transactions of the Group sponsored ESOP trust are included in the Group financial statements. In particular, the trust's purchases of shares in the Company are debited directly in equity to retained earnings.

(W) Non-current assets held for sale and discontinued operations

A non-current asset or a group of assets containing a non-current asset is classified as held for sale if its carrying amount will be recovered principally through sale rather than through continuing use, it is available for immediate sale and sale is highly probable within one year.

On initial classification as held for sale, non-current assets and disposal groups are measured at the lower of previous carrying amount and fair value less costs to sell with any adjustments taken to profit or loss. The same applies to gains and losses on subsequent re-measurement.

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations or is a subsidiary acquired exclusively with a view to resale, that has been disposed of, has been abandoned or that meets the criteria to be classified as held for sale.

(X) Related parties

For the purpose of these financial statements, parties are considered to be related to the Group if the Group has the ability directly or indirectly, to control the party or exercise significant influence over the party making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

(Y) Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing services (business segment) or in providing services within a particular economic environment (geographic segment) which is subject to risks and rewards that are different from those of other segments.

(Z) IFRSs not yet adopted

Adoption of new standards which became effective in the two year period

The Group has adopted standards that became effective during the two year period from the date these standards were applicable.

Interpretations to existing standards that are not yet effective and not relevant for the Group

The following standards, amendments and interpretations to published standards are mandatory for accounting periods beginning on or after 1 January 2007 but they are not relevant to the Group's operations:

—IFRIC 7 Applying the Restatement Approach under IAS 29 Financial Reporting in Hyperinflationary Economies

—IFRIC 9 Reassessment of Embedded Derivatives

—IFRIC 12 Service Concession Arrangements

Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted

The following standards and interpretations to existing standards are mandatory for periods beginning on or after 1 January 2007 or later periods but have not been adopted herein as, with the exception of changes in disclosure which the Group is in the process of evaluating, the adoption of

these standards and interpretations in future periods will have no material impact on the financial statements:

—IAS 1 Presentation of Financial Statements (Amendement re. Capital Disclosures)

—IFRS 8 Operating Segments

—IFRIC 8 Scope of IFRS 2

—IFRIC 10 Interim Financial Reporting and Impairment

—IFRIC 11 Group and Treasury Share transactions

IFRIC 4 "Determining whether an Arrangement contains a Lease" requires that an entity should base its assessment of whether an arrangement is, or contains, a lease on its substance rather than its legal form. IFRIC 4 will be effective for the Group for the first time in the year ended 31 October 2007. To date a preliminary assessment has been undertaken. The new guidance is likely to require additional disclosures for arrangements that are, in substance, similar to leases, including certain yacht investor schemes. However, the basis of measurement of these schemes is not expected to change and no affect is expected in the income statement or balance sheet.

2. Segmental Information

Segmental information is presented in the primary format by the Group's business sectors and, in the secondary format, analysed by geography. Segment results (operating profit), assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items include financial income, financial expense and corporate assets and liabilities.

(A) Sector analysis

The Sector analysis is based on the Group's management and reporting structure. A detailed explanation of each sector is included in the Business and Financial Review.

	Year ended 31 October 2005

(B) Geographical analysis of business

In presenting information on the basis of secondary geographic segments, segment revenue is based on the geographic location of the customer that generated that revenue. Segment assets and capital expenditure is based on the geographical location of the assets. Other Europe is defined as Continental Europe and Eire excluding France, whilst America includes North and South America and Canada.

	UK		France		Other Europe		America		Rest of the World		Total	
	2005	2006	2005	2006	2005	2006	2005	2006	2005	2006	2005	2006
	£m	£m	£m	£m	£m	£m	£m	£m	£m	£m	£m	£m
Revenue from external customers	1,566.2	1,564.0	351.2	348.5	424.3	469.1	281.4	463.7	23.9	53.7	2,647.0	2,899.0

Amortisation of business combination intangibles	(1.9)	(2.4)	(8.9)	(11.3)
Impairment of goodwill	—	(1.4)	—	(1.4)
Total administrative expenses	(242.7)	(250.2)	(38.8)	(289.0)
Share of profit of joint venture and associate (net of tax)	1.9	2.8	—	2.8
Operating profit/(loss)	120.5	121.5	(2.2)	119.3
Analysed as:				
Underlying profit before interest and tax	123.3	130.6	8.4	139.0
Separately disclosed items	—	(4.1)	(1.7)	(5.8)
Amortisation of business combination intangibles	(1.9)	(2.4)	(8.9)	(11.3)
Impairment of goodwill	—	(1.4)	—	(1.4)
Taxation on profits of joint venture and associate	(0.9)	(1.2)	—	(1.2)
Operating profit/(loss)	120.5	121.5	(2.2)	119.3

Amortisation of business combination intangibles disclosed relates to the amortisation of intangible assets arising on acquisition of companies since 1 November 2004.

3. Separately disclosed items

	2005	2006
	£m	£m
Reorganisation of back office functions	—	3.2
Business restructuring costs	—	10.6
Other items	—	(8.0)
	—	5.8

Reorganisation of back office functions

Following a strategic review of the Group's UK Mainstream operations, a decision has been made to outsource certain back office functions. This outsourcing is planned to commence in the first half of financial year 2007. The separately disclosed items incurred for this in 2006 of £3.2m relate to set up costs for the outsourced operations and provision for redundancy costs associated with the relocation.

Business restructuring costs

In line with the Group's strategy of remaining cost competitive, during the year a comprehensive review of under performing businesses was performed. This review has resulted in the closure of the Marmara Portugal operation and restructuring of other business units. Costs of £10.6m have been incurred, principally in relation to redundancy and other closure costs associated with the restructuring activities in the Specialist, Activity and Mainstream sectors.

Other items

There have been a number of favourable developments and outcomes in respect of certain commercial transactions and legal settlements in the year. In addition, management has undertaken a review of other accruals. Whilst none of these items are individually significant, it is considered appropriate to separately disclose the aggregate of £8.0m.

4. Net financing expenses

	2005	2006
	£m	£m
Financial income		
Bank interest receivable	4.7	5.0
Interest on pension scheme assets	3.0	3.9
	7.7	8.9
Financial expense		
Bank interest payable on loans and overdrafts	(7.3)	(21.5)
Interest on pension scheme liabilities	(3.8)	(4.5)
Finance lease charges on leases	(1.8)	(1.1)
Interest on discounted liabilities	(3.1)	(3.6)
	(16.0)	(30.7)
Net financing expenses	(8.3)	(21.8)

5. Employees

(A) Average number of employees by sector

	2005	2006
	Total	Total
Mainstream Holidays	8,035	7,618
Specialist Holidays	2,983	2,914
Activity Holidays	2,340	3,282
Online Destination Services	1,193	1,504
	14,551	15,318

(B) Staff costs

	2005	2006
	Total	Total
Wages and salaries	252.2	256.3
Social security costs	30.2	32.7
Pension costs	12.2	12.2
	294.6	301.2

(C) Pension costs

The Group operates pension schemes for employees eligible and wishing to participate in the schemes. The assets of all the schemes are held separately from the assets of the Group.

Funded defined contribution schemes for employees and Directors (Group schemes)

Pension costs of £8.6m (2005: £8.8m) relating to defined contribution schemes were charged to the income statement.

Funded defined benefit schemes

The Group sponsors three defined benefit schemes, the Air 2000 Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme and the Emerald Star scheme. The contributions required are determined by a qualified actuary on the basis of triennial valuations using the projected unit method.

All three defined benefit schemes are closed to new entrants and under the projected unit method, the service cost as a percentage of pensionable payroll will increase as the members of the scheme approach retirement.

Valuations of the schemes are made by qualified actuaries using market based valuations for the assets and attained age method for the liabilities. The Group recognises all actual gains or losses in the consolidated statement of recognised income and expense.

Air 2000 scheme

The last full actuarial valuation of the scheme was carried out by a qualified independent actuary as at 1 November 2003 and this has been updated on an approximate basis to 31 October 2006 for these financial statements.

In the last full actuarial valuation, the principal valuation assumptions used were rates of investment return of 7.25 per cent. per annum compound (pre-retirement) and 5.5 per cent. per annum compound (post-retirement) and a rate of salary increase of 4.75 per cent. per annum compound. The market value of the scheme's assets as 1 November 2003 was £18.5m, representing 59 per cent. of the benefits that had accrued to members after allowing for expected future increases in earnings.

The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contributions from 1 June 2004 onwards are 34.2 per cent. of contribution salaries for Flight Deck staff and 30.1 per cent. for Ground and Administrative staff. From 1 June 2004 to 31 March 2005 Flight Deck staff have a contribution rate of 7 per cent., from 1 April 2005 to 31 December 2005 8 per cent. and from 1 January 2006 onwards 10 per cent. From 1 June 2004 to 31 March 2005 Ground and Administrative staff have a contribution rate of 5 per cent., from 1 April 2005 to 31 March 2006 6 per cent. and from 1 April 2006 onwards 7 per cent.

The signed Schedule of Contributions dated 30 March 2006 stated that the Group's contributions from 1 April 2006 onwards would be 34.2 per cent. for Flight Deck staff and 30.1 per cent. for Ground and Administrative staff for members not participating in the salary sacrifice of member contributions. If members participate in salary sacrifice then the Group's contributions will be 44.2 per cent. for Flight Deck staff and 37.1 per cent. for Ground and Administrative staff.

From 1 April 2006, Flight Deck staff will have a contribution rate of 10 per cent. and Ground and Administrative staff will have a contribution rate of 7.0 per cent. If members participate in the salary sacrifice of member contributions their contribution rate will be 0 per cent.

In addition, special employer contributions have been paid on 1 June 2006 of £3.5m. Further special employer contributions are payable as follows: £3.4m no later than 1 June 2007 and £0.9m each no later than 1 June 2008, 2009 and 2010 respectively.

The next valuation will be performed and reflected in the accounts for the year ending 31 October 2007.

Unijet scheme

The last full actuarial valuation of the scheme was carried out by a qualified independent actuary as at 1 November 2003 and this has been updated on an approximate basis to 31 October 2006 for these financial statements.

In the last full actuarial valuation, the principal valuation assumptions used were the rates of investment return of 7.25 per cent. per annum compound (pre-retirement) 5.5 per cent. per annum compound (post-retirement) and a rate of salary increase of 4.75 per cent. per annum compound.

The market value of the scheme's assets at the date of the last actuarial valuation was £12.3m, representing 61 per cent. of the benefits that had accrued to members after allowing for expected future increases in earnings. The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contribution rate from 1 November 2004 to 31 August 2005 is 16.4 per cent. of pensionable salaries and from 1 September 2005 onwards 32.1 per cent. From 1 November 2004 to 31 March 2005 employees have a contribution rate of 7 per cent., from 1 April 2005 to 31 December 2005 8 per cent. and from 1 January 2006 onwards 10 per cent.

The signed Schedule of Contributions dated 30 March 2006 stated that the Group contributions from 1 April 2006 onwards would be 32.1 per cent. for employees not participating in the salary sacrifice of member contributions and if employees participate the Group contributions will be 42.1 per cent.

From 1 April 2006, employees will have a contribution rate of 10 per cent. and if employees participate in the salary sacrifice of members contributions their contribution rate will be 0 per cent.

In addition, special employer contributions have been paid on 1 June 2006 of £2.45m. Further special employer contributions are payable as follows: £2.5m no later than 1 June 2007, and £1.2m each no later than 1 June 2008, 2009 and 2010 respectively.

The next valuation will be performed and reflected in the accounts for the year ending 31 October 2007.

Emerald Star scheme

The last full actuarial valuation was carried out by a qualified independent actuary as at 1 July 2005. The principal valuation assumptions used were the rates of investment return of 8.0 per cent. per annum compound and a rate of salary increase of 4.0 per cent. per annum compound. From July 2005 the Group has contributed at an average rate of 2.5 per cent. of contributory earnings. Employees do not contribute. The market value of the scheme's assets at the date of the last actuarial valuation was £1.1m.

The next valuation will be performed and reflected in the accounts for the year ending 31 October 2008.

Disclosure information-funded defined benefit pension schemes

The assets of each scheme have been taken at market value and liabilities have been calculated using the following principal assumptions:

	Emerald Star Scheme per annum		Air 2000 Scheme per annum		Unijet Scheme per annum	
	2005	2006	2005	2006	2005	2006
	%	%	%	%	%	%
Inflation	2.25	2.25	3.00	2.90	3.00	2.90
Salary increases	4.00	4.00	5.00	4.90	5.00	4.90
Rate of discount	4.00	4.00	5.20	5.10	5.20	5.10
Pension in payment increases			3.00	3.00	3.00	3.00
Revaluation rate for deferred pensioners			3.00	2.90	3.00	2.90

The mortality assumptions underlying the value of the accrued liabilities for the Air 2000 and Unijet schemes are based on the following life expectancies from age 65:

	Air 2000 and Unijet schemes	
	Years 2005	Years 2006
Males		
Current pensioner	21.7	21.8
Future pensioner (aged 50)	22.7	22.7
Females		
Current pensioner	24.6	24.7
Future pensioner (aged 50)	25.6	25.6

On this basis, the balance sheet figures are as follows:

	Emerald Star Scheme		Air 2000 Scheme		Unijet Scheme		Total	
	2005	2006	2005	2006	2005	2006	2005	2006
	£m	£m	£m	£m	£m	£m	£m	£m
Assets	1.6	1.8	30.4	39.0	19.5	26.2	51.5	67.0
Liabilities	(1.1)	(1.3)	(50.2)	(53.0)	(34.4)	(37.4)	(85.7)	(91.7)
Surplus/(deficit)	0.5	0.5	(19.8)	(14.0)	(14.9)	(11.2)	(34.2)	(24.7)

The above disclosed position is different to that determined for the long-term funding of the schemes, as different assumptions have been used.

The fair value of assets of the schemes at 31 October 2006 and 31 October 2005 are as follows:

	Emerald Star Scheme		Air 2000 Scheme		Unijet Scheme		Total		Expected returns on all schemes	
	2005	2006	2005	2006	2005	2006	2005	2006	2005	2006
	£m	£m	£m	£m	£m	£m	£m	£m	%	%
Equities	1.2	1.4	19.8	25.5	12.7	17.0	33.7	43.9	7.95	7.72
Bonds	0.2	0.2	10.5	13.4	6.7	9.1	17.4	22.7	4.98	4.99
Cash and other short-term assets	0.2	0.2	0.1	0.1	0.1	0.1	0.4	0.4	4.75	4.95
	1.6	1.8	30.4	39.0	19.5	26.2	51.5	67.0		

The fair value of the schemes' assets are not intended to be realised in the short-term and may be subject to significant change before they are realised.

Changes in the present value of scheme assets are as follows:

	Emerald Star Scheme		Air 2000 Scheme		Unijet Scheme		Total	
	2005	2006	2005	2006	2005	2006	2005	2006

The trend history of experience gains and losses for the years ended 31 October 2006 and 31 October 2005 is shown in the above table.

(D) Share options

The Company has established four principal share award/option schemes which are designed to link remuneration to the future performance of the Group: a senior executive performance related share option scheme as well as alternative long-term incentive schemes known as the Restricted Share Plan (RSP), the Deferred Annual Bonus Scheme (DABS) and the Performance Share Plan (PSP).

Options granted and outstanding as well as shares awarded and outstanding in respect of unissued ordinary shares, are as follows:

	No. of shares	Option exercise price (p)	Date first exercisable
Senior Executive Plan	3,200,914	109.50	30 October 2007
	2,661,081	135.25	9 December 2008
Restricted Share Plan	24,099	N/A	14 December 2002
	2,608,508	N/A	31 October 2006
	2,636,034	N/A	9 December 2006
	154,333	N/A	23 December 2006
	125,823	N/A	1 April 2007
	14,212	N/A	28 April 2007
	87,976	N/A	27 July 2007
	419,548	N/A	13 October 2007
	2,827,113	N/A	14 December 2007
	267,536	N/A	23 December 2007
Deferred Annual Bonus Scheme	2,477,581	N/A	14 December 2008
Performance Share Plan	2,742,632	N/A	14 December 2008
	206,342	N/A	19 June 2009
	20,453,732		

As at 31 October 2006 there were 5,152,414 (2005: 7,565,589) ordinary shares held by the First Choice Employee Benefit Trust. The Trust is funded by the Group by way of loans.

The number of share options is as follows:

	Number of awards/ options 2005	Number of awards/ options 2006
Outstanding at beginning of the year	20,480,130	**19,125,375**
Forfeited during the period	(754,402)	**(1,427,680)**
Exercised during the period	(4,178,601)	**(2,984,771)**
Granted during the period	3,578,248	**5,740,808**
Outstanding at the end of the year	19,125,375	**20,453,732**

2,608,508 awards or options were exercisable at the end of the year (2005: nil).

The fair value of services received in return for share options granted is measured by reference to the fair value of share options granted. The estimate of fair value of services received is measured using binomial or simulation valuation models, depending on the vesting criteria. The following variables are built into these models at the date of granting of the options:

	2003	2004	2005	2006
Information relating to fair values of share option and awards granted				
Fair value at measurement date	£0.68–£0.85	£1.05–£1.19	£0.92–£1.32	**£1.35–£2.02**
Share price	£0.78–£0.98	£1.21–£1.37	£1.52–£1.53	**£2.17–£2.29**
Exercise price	0	0	0	**0**
Expected volatility	38.8%–39.4%	34.3%–39.4%	32.1%–32.7%	**23.4%–27.8%**
Option life	3–4 years	3–5 years	3–4 years	**3 years**
Expected dividends	4.0%	4.0%	4.0%	**4.0%**
Risk free interest rate	3.8%–4.2%	4.6%–5.2%	4.4%–4.5%	**4.29%–4.32%**

Expected volatility is based on historic volatility adjusted for changes to future volatility indicated by publicly available information. Share options are granted under a service condition.

Employee expenses for the year relating to share based schemes are:

	2005	2006
	£m	£m
Share options granted in 2003	0.2	—
Share options granted in 2004	1.8	2.1
Share options granted in 2005	1.0	1.1
Share options granted in 2006	—	2.7
Expense arising for share appreciation rights	0.2	0.2
Changes in fair value of share appreciation rights	0.1	—
	3.3	6.1
Total carrying amount of share appreciation liabilities	0.2	0.2

The future estimated expense for share option schemes outstanding at 31 October is:

	2005	2006
	£m	£m
To be incurred within one year	4.1	5.9
To be incurred after more than one year	4.4	5.0
	8.5	10.9

6. Income, expenses and auditor remuneration

	2005	2006
	£m	£m
Included in profit for the year are the following:		
Operating lease income, aircraft	(6.0)	(5.6)
Operating lease rentals, land and buildings	43.0	39.8
Operating lease rentals, aircraft and other equipment	74.2	76.9
Depreciation of property, plant and equipment	36.0	38.8
Amortisation of intangible assets	7.4	17.4
Charge for share based payments	3.2	6.1
Gain on sale of property plant and equipment	(0.4)	(0.9)
(Loss)/gain on foreign currency retranslation	(2.2)	(0.2)
Government grants	(0.9)	(0.3)
Impairment of goodwill on closure of business	—	1.4
Auditors' remuneration		
Auditors' remuneration for these financial statements and other Group:		
subsidiary financial statements pursuant to legislation	0.8	0.9
Other services pursuant to legislation (regulatory reporting)	0.1	0.1
Services relating to corporate finance transactions	0.1	0.1
Other services	0.1	0.2

Other services relate to accounting advice in respect of the transition to Adopted IFRSs. The audit fee for the Company was £11,000 (2005: £10,250).

7. Taxation

The tax charge can be summarised as follows:

	2005	2006
	£m	£m
(i) Analysis of charge in year		
Current tax expense:		
UK corporation tax on profits of the year	23.7	—
Non-UK tax on profits of the year	9.7	8.2
Adjustments in respect of previous years	1.0	(2.5)
	34.4	5.7
Deferred tax expense:		
Origination and reversal of timing differences:		
—Current year UK	(2.6)	17.9
—Current year non-UK	1.9	(0.9)
—Adjustments in respect of previous years	(1.8)	2.5
	(2.5)	19.5
Total income tax expense in income statement	31.9	25.2

(ii) Reconciliation of effective tax rate

The total tax charge for the year is lower (2005: lower) than the standard rate of corporation tax in the UK of 30 per cent. (2005: 30 per cent.). The differences are explained below:

	2005	2005	2006	2006
	£m	%	£m	%
Profit before tax reported in the income statement	112.2		97.5	
Less share of profit in joint venture and associate	(1.9)		(2.8)	
	110.3		94.7	
Income tax on profit before tax excluding share of joint venture and associate at the standard rate of UK tax of 30 per cent. (2005: 30 per cent.)	33.1	30.0%	28.4	30.0%
—Expenses not deductible for tax purposes	2.5	2.2%	0.3	0.3%
—Utilisation of tax losses	(2.7)	(2.5)%	(6.5)	(6.9)%
—Non-utilisation of tax losses	2.2	2.0%	2.8	3.0%
—Higher tax rates on overseas earnings	1.4	1.3%	1.7	1.8%
—Lower tax rates on overseas earnings	(3.8)	(3.4)%	(1.5)	(1.6)%
—Adjustments to tax charge in respect of previous periods	(0.8)	(0.7)%	—	—
Total income tax expense in income statement	31.9	28.9%	25.2	26.6%

The effective rate of taxation is 26.6 per cent. (2005: 28.9 per cent.). The underlying rate of taxation is 27.6 per cent. It is expected that an effective tax rate of 28 per cent. will be sustainable in the medium-term.

Due to an equal and opposite reversal of deferred taxation temporary differences, no UK corporation tax is payable in the year ended 31 October 2006. There is no effect on the total tax charge.

(iii) Deferred tax recognised directly in equity

The following taxation has been recorded directly in equity within the statement of recognised income and expense:

	2005	2006
	£m	£m
Cash flow hedges	—	(18.1)
Equity-settled transactions	(3.2)	(4.7)
Defined benefit pension plans	(2.4)	1.2
Exchange differences	0.4	—
Total	(5.2)	(21.6)

8. Dividends

Ordinary shares

The following dividends have been deducted from equity in the year:

	2005	2006
	£m	£m
Interim dividend paid for 2005 of 1.95p per share (2004: 1.75p)	9.1	10.1
Final ordinary dividend paid for 2005 of 4.65p (2004: 3.75p)	19.5	24.4
	28.6	34.5

The interim dividend in respect of the six-month period to 30 April 2006 of 2.25p per share was paid on 1 November 2006 and this dividend of £11.8m will be recognised as a deduction from equity in the year ending 31 October 2007.

Subsequent to the balance sheet date, the Directors have proposed a final dividend of 5.4p per share (2005: 4.65p) payable on 10 April 2007 to the holders of relevant shares on the register at 9 March 2007. The final proposed dividend amounts to £28.3m (2005: £24.4m) and will, after approval by shareholders, be recognised in the financial statements for the year ended 31 October 2007. The final ordinary dividend of 5.4p per share, together with the interim dividend of 2.25p per share, makes a total dividend of 7.65p per share relating to the year ended 31 October 2006 (2005: 6.6p).

A dividend reinvestment plan was introduced for the first time with respect to the final dividend payable for the year ended 31 October 2000. Those shareholders who have not elected to participate in this plan, and who would like to participate with respect to the 2006 final dividend, may do so by contacting Lloyds TSB Registrars direct on 0870 241 3018. The last day for election for the final proposed dividend is 16 March 2007 and any requests should be made in good time ahead of that date.

Preference shares

All preference shares were redeemed by the Group during the comparative year on 27 July 2005. Preference shares were accounted for as equity in the year ended 31 October 2005, prior to the adoption by the Group of IAS 32 (see note 1). In the year ended 31 October 2005, preference share dividends of £10.0m were deducted from equity.

9. Earnings per share

The basic earnings per ordinary share is calculated by dividing the profit attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the year, excluding those held in the employee share ownership trusts. The diluted earnings per share is calculated on profits attributable to ordinary shareholders divided by the adjusted weighted average number of ordinary shares, which takes account of the outstanding share options, where

their conversion is dilutive. The additional earnings per share measures have been given to provide the reader of the accounts with a better understanding of the results.

	Earnings 2005	Weighted average no. of shares 2005	Earnings per share 2005	Earnings 2006	Weighted no. average of shares 2006	Earnings per share 2006

At 31 October 2006	**22.3**	**87.1**	**1.7**	**8.9**	**2.5**	**122.5**
Carrying value						
At 1 November 2004	10.4	376.4	—	—	—	386.8
At 31 October 2005	13.0	440.9	3.6	1.1	1.4	460.0
At 31 October 2006	**20.4**	**554.6**	**22.9**	**0.5**	**5.8**	**604.2**

Amortisation of intangible assets is recognised within the administrative expenses in the income statement.

The impairment losses incurred in 2006 relate to the closure of the Marmara Portugal division and the write off of all related goodwill to reflect a nil recoverable amount. The £1.4m impairment charge is disclosed separately on the face of the income statement.

Amortisation of business combination intangibles totalling £11.3m shown in the income statement relates to the amortisation charge during the year of brands, the order book and customer databases.

Goodwill is analysed by Sector as follows:

	Mainstream Holidays	Specialist Holidays	Activity Holidays	Online Destination Services	Corporate	Total Group
	£m	£m	£m	£m	£m	£m
At 31 October 2006	**56.0**	**189.8**	**206.0**	**101.8**	**1.0**	**554.6**
At 31 October 2005	56.0	184.3	113.3	86.3	1.0	440.9

The recoverable amount of goodwill in all Sectors has been determined based on value in use.

Those calculations use cash flow projections based on actual operating results and the Group's latest five-year business plan. Cash flows for a further five-year period are extrapolated using an inflationary only growth rate of up to 2 per cent. This total period of ten years is considered a prudent assumption in the context of the anticipated greater longevity of the Group's brands and business model in each Sector.

A pre-tax discount rate of 9.0 per cent. has been used in discounting projected cash flows.

Based on the calculations undertaken, the Directors consider that the carrying value of goodwill in each Sector does not exceed its recoverable amount.

Key assumptions are in respect of the short-term post acquisition earnings of acquired operations within the Activity and Specialist Sectors. The forecast earnings of these newly acquired businesses are inherently more judgmental in the short and medium-term.

At 31 October 2006	**71.6**	**147.3**	**53.4**	**23.9**	**16.2**	**312.4**

Other fixed assets with a combined net book value as at 31 October 2006 of £16.2m (2005: £16.7m) comprise £14.8m (2005: £15.8m) of fixtures and fittings, £1.4m (2005: £0.8m) of motor vehicles and £nil (2005: £0.1m) of ski equipment.

Fixed asset additions of £78.8m include £30.8m of fixed assets acquired in business combinations during the year (2005: £2.1m).

Land and buildings comprise freehold and short leasehold properties with net book values of £16.0m (2005: £19.5m) and £54.7m (2005: £51.2m) respectively.

The net book value of assets held under finance leases and hire purchase contracts at 31 October 2006 was £16.2m (2005: £32.1m). The depreciation charged in the year for these assets was £1.3m (2005: £3.6m).

12. Investments in joint venture and associate

The Group's equity investment in its joint venture and associate is recorded in the financial statements as follows:

	Share of net assets of joint venture	Share of net assets of associate	Total
	£m	£m	£m
Cost			
At 1 November 2005	29.3	1.8	31.1
Dividend received	—	(0.5)	(0.5)
Share of profits for the year	2.5	1.5	4.0
Share of tax charge	(0.7)	(0.5)	(1.2)
At 31 October 2006	**31.1**	**2.3**	**33.4**
Goodwill			
At 1 November 2005	3.4	—	3.4
At 31 October 2006	**3.4**	**—**	**3.4**
Net book value			
At 31 October 2005	32.7	1.8	34.5
At 31 October 2006	**34.5**	**2.3**	**36.8**

Name of company	Proportion held	Nature of business	Country of registration/ incorporation	Investment held by
Hays Travel Limited	37.75%	Travel agent	England and Wales	First Choice Holidays PLC
Sunshine Cruises Limited	50.00%	Cruise operator	England and Wales	First Choice Holidays PLC

All proportions held are in ordinary shares.

There is a put option on the Group to acquire the remaining shareholding of the Group's associate, Hays Travel Limited. The option has not been exercised. Its value is dependent on the future profitability of Hays Travel Limited.

Sunshine Cruises Limited (trading as Island Cruises) was set up as a joint venture with Royal Caribbean Cruises Ltd. (RCCL) in July 2000. The share of profits recognised in respect of the joint venture represents the Group's share of the profit generated in the year.

Included within the Group's consolidated financial statements is the Group's 50 per cent. share of the following items accounted for using the equity method:

100% values	Joint venture 2005	Joint venture 2006
	£m	£m
Revenue	51.6	95.3
Operating profit	3.6	5.0

Acquisitions

(a) Acquisitions in the year ended 31 October 2006

Acquisitions were made in the year for a total of £153.2m, including £4.5m of acquisition expenses. These acquisitions gave rise to provisional goodwill of £130.0m. The acquired businesses are all wholly owned and their acquisition dates were:

Sector and entity	Country of operation	Acquisition date	Consideration
			£m
Specialist Holidays			
Jumpstreet	Canada	April 2006	1.7
School Voyageurs	Canada	April 2006	2.3

Total net assets acquired		**12.5**	**(2.5)**	**13.7**	**23.7**
Total investment cost					153.2
Net assets acquired (as above)					(23.7)
Minority interest in assets acquired					0.5
Provisional goodwill arising					**130.0**

1. Elimination of goodwill existing in balance sheets at acquisition and inclusion of the fair value of IFRS 3 business combination intangible assets.
2. Impairment and revaluation of property plant and equipment; reclassification of leasehold property.
3. Impairment of Intrav, Inc ships prior to disposal.
4. Reclassification of leasehold property.
5. Elimination of deferred costs; recognition of deferred tax assets.
6. Recognition of a potential corporation tax liability.
7. Recognition of deferred tax liabilities.

Net assets/(liabilities) acquired and the provisional goodwill arising are analysed individually for the following acquisitions:

	Net assets book value prior to acquisition	Accounting policy adjustments	Fair value adjustments	Fair value of net assets /(liabilities) acquired
	£m	£m	£m	£m
Grand Expeditions				
—Intangible assets	—	—	12.4	12.4

—Cash	10.3	—	—	10.3
—Current liabilities	(13.2)	—	—	(13.2)
—Non-current liabilities	(0.9)	0.5	(3.2)	(3.6)
Total net assets acquired	**1.4**	**(1.3)**	**4.9**	**5.0**
Total investment cost				**28.4**
Provisional goodwill arising				**23.4**

The consideration payable is made up of:

	£m
Cash	**129.3**
Deferred consideration	**13.6**
Contingent consideration	**5.8**
Total consideration	**148.7**

(b) Cash flows arising in respect of acquisitions

Total cash flows relating to acquisitions in the year, including amounts paid in respect of deferred and contingent consideration arising on prior year acquisitions are as follows:

	2005 Max	2005 Paid	2006 Max	2006 Paid
	£m	£m	£m	£m
Acquisitions in the year	53.4	53.4	129.3	129.3
Deferred & contingent consideration arising	12.1	—	19.4	—
	65.5	53.4	148.7	129.3
Acquisition expenses paid in the year	1.8	1.8	4.5	4.5
Total consideration	**67.3**	**55.2**	**153.2**	**133.8**
Cash acquired with acquisitions		(23.7)		(40.0)
Cash paid relating to prior year acquisitions		1.6		14.3
Net cash outflow in the year relating to acquisitions		**33.1**		**108.1**

Movements in deferred and contingent consideration in the year were as follows:

	Deferred consideration	Contingent consideration	Loan notes	Total
	£m	£m	£m	£m
At 1 November 2005	19.6	9.4	—	29.0
Recognised in the year relating to current year acquisitions	7.7	5.8	5.9	19.4
Adjustments to amounts recognised in respect of prior year acquisitions	—	(0.7)	—	(0.7)
Cash paid	(11.4)	(3.4)	—	(14.8)
Exchange differences	(0.6)	(0.6)	(0.3)	(1.5)
At 31 October 2006	**15.3**	**10.5**	**5.6**	**31.4**

Offsetting the cash paid of £14.8m in the year is a refund of consideration relating to a prior year acquisition, of £0.5m, giving net cash paid of £14.3m.

The contingent consideration payable is in respect of the acquisitions listed below. It is dependent on the results of the businesses over the following periods or the final determination of the working capital balance at the acquisition date, and the Directors believe the amounts provided reflect the most likely outcome in each case:

Acquisition	Basic of calculation of contingent consideration	Period for calculation of contingent consideration	Maximum contingent consideration	Consideration provided for in these accounts
Trek Holidays	Earnings	Years ending 31 October 2006–2010	C$6.0m	C$6.0m
Jumpstreet	Working capital	N/A	N/A	C$0.5m
School Voyageurs	Working capital	N/A	N/A	C$0.5m
Educatours	Working capital	N/A	N/A	C$0.4m
Educational Tours, Inc	Working capital	N/A	N/A	US$2.1m
Sawadee	Earnings	Calendar year 2006	€1.4m	€1.4m

All acquisitions have been accounted for using the purchase method, as required by IFRS 3. It should be noted that certain fair value adjustments have necessarily been prepared on a provisional basis. Experience may result in the revisions to fair values in the subsequent accounting period.

(c) Residual goodwill

A consistent process is undertaken at each acquisition to identify the fair value of separable assets and liabilities acquired, including the fair value of intangible assets, being brands, order books and

customer databases. The residual goodwill on acquisition represents the value of assets and earnings that do not form separable assets under IFRS3 but nevertheless are expected to contribute to the future results of the Group.

At 31 October 2006, the residual goodwill represents mainly:

- Market knowledge of particular geographic areas such as the Americas and the Far East.
- Knowledge of particular market segments, for example escorted tours.
- Involvement of existing management and employees and transfer of their knowledge of the operation of the business model.
- Integration synergies, particularly cost optimisation in our yacht holidays businesses.
- The ability to sell acquired product through existing channels and existing product through acquired channels.

(d) Income statement

If the businesses that were acquired at various times during the year ended 31 October 2006 had been part of the Group since 1 November 2005, the impact on revenue and profit would not have been material to the Group. This is mainly due to the timing of the three largest acquisitions, which have been part of the Group for their most profitable months in the year. The revenues and operating profits of acquisitions made in the year are reported in note 2.

14. Non-current trade and other receivables

	2005	2006
	£m	£m
Prepaid accommodation	52.3	**65.2**
Aircraft deposits	8.3	**10.8**
Other long-term debtors	—	**4.0**
	60.6	**80.0**

15. Deferred tax assets and liabilities

	Assets 2005	Assets 2006	Liabilities 2005	Liabilities 2006	Net 2005	Net 2006
	£m	£m	£m	£m	£m	£m
Property, plant and equipment	—	—	(21.1)	**(21.5)**	(21.1)	**(21.5)**

Tax value of loss carry forwards recognised	4.2	**4.2**	—	—	4.2	**4.2**
Total	49.8	**56.8**	(23.8)	**(34.3)**	26.0	**22.5**

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items:

	2005	2006
	£m	£m
Capital losses	4.5	2.1
Other losses	40.8	28.0
	45.3	30.1

These assets have not been recognised because the Directors are not certain that any benefits will arise in the foreseeable future.

At 31 October 2006, a deferred tax liability of £2.4m (2005: £1.7m) relating to profits arising in respect of investments in overseas subsidiaries has not been recognised because the Group controls whether the liability will be incurred and is satisfied that it will not be incurred in the foreseeable future.

There are no other unprovided deferred tax liabilities.

Movements in temporary difference during the prior year are analysed as follows:

	Balance at 1 November 2004	Arising on acquisition	Recognised/ (charged) in income	Recognised/ (charged) in equity	Exchange movement	Balance at 31 October 2005
	£m	£m	£m	£m	£m	£m
Property, plant and equipment	(18.5)	—	(2.6)	—	—	(21.1)
Intangible assets	—	—	(0.2)	—	—	(0.2)
Other investments	(2.3)	—	—	—	—	(2.3)
Employee benefits	10.5	—	1.8	5.2	—	17.5
Other short-term temporary differences	22.1	—	5.5	—	0.3	27.9
Tax value of loss carry forwards recognised	6.2	—	(2.0)	—	—	4.2
Total	**18.0**	**—**	**2.5**	**5.2**	**0.3**	**26.0**

Movements in temporary differences during the year:

	Balance at 1 November 2005	Arising on acquisition	Recognised/ (charged) in income	Recognised/ (charged) in equity	Balance at 2006 31 October
	£m	£m	£m	£m	£m
Property, plant and equipment	(21.1)	—	(0.4)	—	**(21.5)**
Intangible assets	(0.2)	(5.6)	(2.9)	—	**(8.7)**
Other investments	(2.3)	—	2.3	—	**—**
Employee benefits	17.5	—	(4.8)	3.5	**16.2**
Financial instruments and foreign exchange	—	—	(0.7)	18.1	**17.4**
Other short-term temporary differences	27.9	—	(13.0)	—	**14.9**
Tax value of loss carry forwards recognised	4.2	—	—	—	**4.2**
Total	**26.0**	(5.6)	(19.5)	21.6	**22.5**

Property, plant and equipment temporary differences principally relate to accelerated capital allowances received in the UK. Employee benefit temporary differences arise in respect of defined benefit pension scheme liabilities, holiday pay accruals and future deductions available on the exercise of employee share options. Financial instruments and foreign exchange temporary differences arise in respect of financial instruments accounted for under IAS 39 and principally reflect the fair value at 31 October 2006 of cash flow hedging derivatives that will be settled against

future transactions. Other short-term temporary differences relate to operating expenses and related accruals. The reversal of other short-term temporary differences in the current year principally relates to the current tax deduction of selling costs that were deferred under UK GAAP but are expensed as incurred under Adopted IFRSs.

16. Inventories

	2005	2006
	£m	£m
Raw materials and supplies	8.8	10.1
Finished goods	1.0	5.5
Total	9.8	15.6

17. Trade and other receivables

	2005	2006
	£m	£m
Trade debtors	107.4	156.4
Other debtors	73.4	86.6
Prepayments	125.0	133.1
	305.8	376.1

18. Cash and cash equivalents

	2005	2006
	£m	£m
Cash	40.3	117.5
Short-term liquid assets	46.9	54.7
Deposits at bank maturing within one month	38.1	5.3
Cash and cash equivalents	125.3	177.5

Cash and cash equivalents includes £54.7m (2005: £46.9m) that is not available for immediate use by the Group. This represents monies held in trust to meet regulatory requirements.

19. Assets classified as held for sale

	2005	2006
	£m	£m
Yachts and motor boats	1.1	0.8
Land and buildings	7.9	0.4
	9.0	1.2

No adjustment has been required to record these assets at the lower of their carrying value and fair value less costs to sell.

20. Interest-bearing loans and borrowings

	2005	2006
	£m	£m
Current liabilities		
Bank loans and overdrafts	56.9	5.5
Loan notes	—	0.8
Finance leases (and hire purchase contracts)	16.4	2.3
	73.3	8.6

	2005	2006
	£m	£m
Non-current liabilities		
Bank loans	31.4	262.5
Loan notes	—	4.8
Finance leases (and hire purchase contracts)	2.5	4.9
	33.9	272.2

The bank loans and loan notes are repayable:

	2005	2006
	£m	£m
Within one year	56.9	6.3
Between one and five years	23.2	266.3
After five years	8.2	1.0
	88.3	273.6

Included within amounts payable within one year are bank overdrafts of £nil (2005: £19.9m) that are repayable on demand. Some loans are secured on the underlying assets of the company in whose name the borrowings are made. Finance lease liabilities relate to the leasing of aircraft and boats.

Group obligations under finance leases and hire purchase contracts are payable as follows:

	Principal	Interest	Minimum lease payments 2005	Principal	Interest	Minimum lease payments 2006
	£m	£m	£m	£m	£m	£m
In respect of aircraft, yachts and equipment payable within:						
One year	16.4	0.5	16.9	2.2	0.4	2.6
Two to five years	2.5	0.2	2.7	5.0	0.5	5.5
	18.9	0.7	19.6	7.2	0.9	8.1

Security given in respect of finance leases and hire purchase contracts consists of fixed charges over the respective assets. Further details are set out in note 25.

21. Current trade and other payables

	2005	2006
	£m	£m
Trade creditors	183.5	187.6
Other creditors	54.7	33.8
Other taxes and social security costs	24.1	21.3
Accruals and deferred income	287.1	357.3
Client money received in advance	237.8	263.5
Amounts owed to joint venture	2.6	2.4
	789.8	865.9

Included in other creditors are amounts in respect of contingent and deferred consideration payable for acquisitions of £8.1m (2005: £17.8m). Further details are set out in note 13(b).

22. Provisions for liabilities and charges

	Aircraft maintenance	Other	Total
	£m	£m	£m
At 1 November 2004	45.1	1.8	46.9
Provided in the year	51.2	—	51.2
Unwinding of discounted amount	3.1	—	3.1
Costs incurred	(44.1)	—	(44.1)
Exchange movements	(2.4)	—	(2.4)
At 31 October 2005	52.9	1.8	54.7
Adoption of IAS 32/39	(4.2)	—	(4.2)
At 1 November 2005	48.7	1.8	50.5
Provided in the year	42.3	—	42.3
Unwinding of discounted amount	3.6	—	3.6
Costs incurred	(47.9)	—	(47.9)
Exchange movements	(0.7)	—	(0.7)
At 31 October 2006	**46.0**	**1.8**	**47.8**

Of the aircraft maintenance provisions, £17.6m (2005: £21.3m) are estimated to be payable in less than one year.

Aircraft maintenance

In respect of aircraft, due to the legal obligations placed upon the Group under the terms of certain operating leases, provision is made for maintenance, overhaul and repair costs of operating leased airframes, engines and other aircraft components. The provision is based on total anticipated costs and intervals between maintenance events. It is calculated by reference to costs experienced and published manufacturers data. The charge to the income statement is calculated by reference to the number of hours operated, cycles flown and the passage of time, and by reference to the length of the full overhaul cycle and the life cycle of each asset within the business.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised and depreciated over the period until the next scheduled major overhaul.

23. Other non-current liabilities

	2005	2006
	£m	£m
Deferred and contingent consideration (note 13(b))	11.2	17.7
Accruals and deferred income	14.1	22.4

At 31 October 2005	**201.4**	**138.5**	**(2.1)**	**—**	**337.8**
Transition adjustments on adoption of IAS 32 and 39	—	—	—	4.4	4.4
Restated at 1 November 2005	**201.4**	**138.5**	**(2.1)**	**4.4**	**342.2**
Total recognised expense for the year	—	—	(3.7)	(42.1)	(45.8)
At 31 October 2006	**201.4**	**138.5**	**(5.8)**	**(37.7)**	**296.4**

Cumulative goodwill arising on the acquisition of subsidiaries and written off to the profit and loss account reserve at 31 October 2006 is £232.3m (2005: £232.3m) against which Section 131 merger relief of £40.6m (2005: £40.6m) has been deducted.

25. Financial instruments

As set out in note 1, the Group has adopted IFRS 7, IAS 32 and IAS 39, only with effect from 1 November 2005. The comparative financial information in these financial statements does not therefore comply with IFRS 7, IAS 32 and IAS 39 as the Group has elected to apply the transitional rules permitted by IFRS 1 and has not restated prior years. Comparative disclosures for the year ended 31 October 2005 have been prepared under UK GAAP FRS 13 and are set out in part (ii) of this note.

(i) Disclosures for the year ended 31 October 2006

(a) Treasury risk analysis

The Group has exposure to the following risks from its use of financial instruments: market risk (in respect of changes in foreign exchange rates, fuel prices and interest rates), liquidity risk (in respect of the Group's ability to meet its liabilities) and credit risk (in respect of recovery of amounts owing to the Group).

The Group faces significant financial risks mainly due to the substantial cross-border element of its trading. Currency risk arises on sales, purchases and borrowings that are denominated in a currency other than the functional currencies of individual Group entities. It is managed by the use of foreign exchange forward, swap and option contracts. Interest rate risk is split into two separate exposures, namely US dollar interest rates on variable rate aircraft leases and loans, and sterling rates on Group loan and cash balances. Both exposures are managed using interest rate derivatives. Finally, the Group's exposure to jet fuel prices is managed using energy swaps and options.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

During the year, the Financial Risk Management Committee (FRMC) managed the governance of financial risk. The Committee, which was created in 2005, reports to the Board of Directors and to the Audit Committee and is made up of the relevant senior business employees and technical experts within the Group. Incorporated within the terms of reference is the determination of all treasury policies and the monitoring of the effectiveness of those policies.

Group Treasury implements the agreed policies on a day-to-day basis. The procedures also stipulate the levels of authority applied to dealing and to approving the types of financial instrument used to

manage these exposures. Transactions are only undertaken to hedge underlying exposures. Financial instruments are not traded, nor are speculative positions taken. Regular reports are provided to the Board.

(b) Currency risk management

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the functional currencies of individual Group entities (which are principally Sterling, Canadian dollars, Euros and US dollars).

The Group publishes its consolidated financial statements in Sterling and as a result, it is also subject to foreign currency exchange translation risk in respect of the results and underlying net assets of its foreign operations.

The Group hedges its foreign currency exposures season-by-season, with each season comprising a six-month period. At the start of a season the Group will have hedged substantially all of its foreign currency exposure (forecast sales and purchases and related assets and liabilities) for that season, using forward exchange contracts, most with a maturity of less than one year from the reporting date. When necessary, forward contracts are rolled over at maturity.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by undertaking fair value hedges to address imbalances. Fair value hedges are principally undertaken in respect of non-Sterling denominated airline maintenance provision balances, loan balances and deposits.

The following significant exchange rates (excluding the impact of hedged transactions) applied during the current and prior year:

	Average rate		Mid-spot rate	
	Year ended 31 October 2005	Year ended 31 October 2006	31 October 2005	31 October 2006
US Dollar	1.844	**1.815**	1.776	**1.908**
Euro	1.457	**1.462**	1.478	**1.494**
Canadian Dollar	2.263	**2.052**	2.091	**2.141**

The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars.

The table below shows Group companies' net financial assets and liabilities held in currencies other than their functional currency at 31 October 2006, analysed by functional currency:

	Non-functional financial assets and liabilities								
	Sterling	Euro	US Dollar	Canadian Dollar	Thai Baht	Australian Dollar	Swiss Franc	Other	2006 Total
	£m	£m	£m	£m	£m	£m	£m	£m	£m
Functional currency of Group entities									
Sterling	—	(49.4)	(60.1)	1.6	1.4	3.3	2.3	(1.4)	**(102.3)**
Canadian Dollars	—	—	1.7	—	—	—	—	—	**1.7**
Euro	7.3	—	(1.1)	—	—	—	—	0.1	**6.3**
US Dollars	(0.6)	0.1	—	0.2	—	—	—	—	**(0.3)**
Other	0.6	(1.3)	3.8	(0.2)	—	—	—	0.8	**3.7**
Total	**7.3**	(50.6)	(55.7)	1.6	1.4	3.3	2.3	(0.5)	**(90.9)**

(c) Interest rate risk

The Group has an exposure to interest rate risk arising principally on changes in Sterling, US Dollars, Euro and Canadian Dollar interest rates.

To manage interest rate risk, the Group manages its proportion of fixed to variable borrowings within limits approved by the Board, primarily through the Financial Risk Management Committee. The profile of the fixed rate to floating rate borrowings is maintained on a minimum of 50 per cent. of interest expense and 75 per cent. of operating leases being fixed to the end of all seasons on sale.

An analysis of net borrowings and interest rates as at 31 October 2006 is as follows:

	Earlier of maturity and repricing date							
	Within 1 year	1-2 years	2-3 years	3-4 years	4-5 years	> 5 years	Total	Weighted average interest rate
	£m	£m	£m	£m	£m	£m	£m	
Fixed rate								
Secured bank loans	—	0.6	1.7	2.1	6.8	—	11.2	6.0%
Unsecured bank loans	—	—	52.8	—	—	—	52.8	6.0%
Unsecured loan notes	0.8	3.9	0.9	—	—	—	5.6	5.0%
Finance leases	—	1.1	1.3	1.3	0.9	0.9	5.5	6.2%
Floating rate								
Secured bank loans	14.6	—	—	—	—	—	14.6	6.5%
Unsecured bank loans	189.4	—	—	—	—	—	189.4	5.7%
Finance leases	1.7	—	—	—	—	—	1.7	8.1%
Net borrowings	206.5	5.6	56.7	3.4	7.7	0.9	280.8	

Fixed rate and floating rate financial liabilities comprise loans and obligations under finance leases. The split of fixed and floating rate borrowings is after taking into account interest rate protection.

The Group also has aircraft operating leases that vary with market interest rates. At 31 October 2006, the future commitment under these leases was £70.2m. The variation in leases is hedged using interest rate swaps and forward rate agreements extending over a maximum of 1.5 years.

The Group does not account for any fixed rate financial liabilities at fair value through profit and loss and the Group does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model.

(d) Credit risk

The carrying amount of financial assets represents the maximum credit exposure. Except as noted below, the Group has no significant concentration of credit risk arising from trading activities, either with individual entities or by geographical area.

Cash and cash equivalents and other liquid resources principally comprise money market deposits and other short-term investments. The investments are with counterparties with a strong long-term credit rating. At 31 October 2006, approximately 62 per cent. of the Group's unrestricted cash and cash equivalents were invested with counterparties based in the United Kingdom.

Within the UK, the Group has, from time to time, significant short-term credit exposure from receivables from other major tour operators and travel agents.

In addition, the Group makes prepayments for hotel accommodation. Whilst such prepayments do not meet the definition of a financial asset under IAS 39, such prepayments give rise to a risk similar to credit risk due to the inherent risk of the Group not recovering the prepayment through full delivery of the related goods and services. Prepayments from time to time can concentrate risk with specific counterparties which are based overseas.

The carrying amount of prepayments (which are presented within current and non-current assets) forms the maximum credit exposure, before taking into account any security or collateral held by the Group. Where appropriate, the Group obtains security collateral over the related

accommodation property, to mitigate credit risk. At 31 October 2006, prepaid accommodation which is recoverable after more than one year was £65.2m.

(e) Capital management

The Board's policy is to maintain a strong capital base in order to maintain investor, creditor and market confidence and to sustain future development of the business.

From time to time the Group purchases its own shares on the market. The timing of these purchases depends on market prices. The shares are intended to be used for issuing shares under the Group's share option programmes. There is not a specific share buy back plan.

There were no changes to the Group's approach to capital management in the year.

(f) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach is to ensure that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed circumstances.

As at 31 October 2006 the Group had available undrawn committed borrowing facilities of £198.8m, comprising letters of credit, guarantees and revolving, floating rate credit facilities for cash borrowings. Any non-compliance with covenants underlying the Groups financing arrangements could, if not waived, constitute an event of default with respect to any such arrangements. The Group was in full compliance with its financial covenants throughout each of the periods presented.

The Group had available undrawn committed bank facilities as follows:

	2006
	£m
Expiring:	
Within one year	—
In more than one year but less than five years	198.8
	198.8

Subsequent to the year-end, the Group has undertaken a new £28m secured bank loan facility with Royal Bank of Scotland which is secured over property, plant & equipment.

Information regarding the contractual maturities of financial liabilities can be found in note 20 to the historical financial information. The actual repayment of revolving credit facility cash flows will vary. The timing reflected in the table is based on the maximum duration and availability of the facility agreement.

(g) Analysis of total financial liabilities and financial assets

The tables below set out the Group's IAS 39 classification for each of its financial assets and liabilities at 31 October 2006.

	Held for trading	Available for sale	Loans and receivables	Amortised cost	Total carrying value
	£m	£m	£m	£m	£m
Trade investments	—	0.6	—	—	0.6
Cash and cash equivalents	—	177.5	—	—	177.5
Borrowings due within one year	—	—	—	(8.6)	(8.6)
Borrowings due after more than one year	—	—	—	(272.2)	(272.2)
Derivative assets	1.6	—	—	—	1.6
Derivative liabilities	(62.5)	—	—	—	(62.5)
Other financial assets	—	—	273.4	—	273.4
Other financial liabilities	—	—	—	(647.0)	(647.0)
	(60.9)	178.1	273.4	(927.8)	(537.2)

Derivatives held for trading under IAS 39 are all accounted for under cash flow or fair value hedges.

Other financial assets comprise trade receivables and other debtors which are receivable within and after more than one year. Other financial liabilities comprise trade payables and accruals which are payable within and after more than one year.

All derivatives are held within hedging relationships. Speculative positions are not undertaken.

(h) Fair values of financial assets and financial liabilities

The fair values of financial assets and liabilities, together with carrying amounts shown in the balance sheet at 31 October 2006, are as follows:

	Carrying amount	Fair value
	£m	£m
Other investments	0.6	0.6
Cash and cash equivalents	177.5	177.5
Trade receivables	273.4	273.4
Interest rate swaps used for hedging—liabilities	(0.1)	(0.1)
Forward exchange contracts used for hedging		
—assets	1.6	1.6
—liabilities	(48.4)	(48.4)
Swaps for energy purchases	(14.0)	(14.0)
Bank loans	(215.2)	(215.1)
Eurobond loan	(52.8)	(53.1)
Loan notes	(5.6)	(5.5)
Finance lease liabilities	(7.2)	(7.2)
Trade and other payables	(619.7)	(619.7)
Other long-term liabilities	(27.3)	(27.3)
	(537.2)	(537.3)
Unrecognised loss		**(0.1)**

The fair value of forward rate agreements is the estimated amount that the Group would receive or pay to terminate the swaps at the balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparties.

The fair value of fuel swaps is the estimated amount that the Group would receive or pay to terminate the swaps at the balance sheet date, taking into account current fuel prices.

The fair value of forward exchange contracts is their quoted market price at the balance sheet date, being the present value of the quoted forward price.

The fair value of trade receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

The fair value of non-derivative financial liabilities is based on the present value of future principal and interest cash flows discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

(i) Derivative instruments

At 31 October 2006 the fair value and notional amount of the Group's derivative financial assets and liabilities was as follows:

	Assets		Liabilities		Total	
Cash flow hedges	Fair value	Notional amount	Fair value	Notional amount	Fair value	Notional amount
	£m	£m	£m	£m	£m	£m
Interest rate swaps	—	—	(0.1)	(126.0)	(0.1)	(126.0)
Foreign exchange forwards	0.6	73.1	(40.2)	(974.6)	(39.6)	(901.5)
Energy swaps	—	1.1	(14.0)	(105.7)	(14.0)	(104.6)
	0.6	74.2	(54.3)	(1,206.3)	(53.7)	(1,132.1)
Fair value hedges						
Foreign exchange forwards	1.0	93.3	(8.2)	(212.2)	(7.2)	(118.9)
Total at 31 October 2006	**1.6**	**167.5**	**(62.5)**	**(1,418.5)**	**(60.9)**	**(1,251.0)**

The maturity profile of these derivative financial assets and liabilities was as follows:

	Maturity profile		
	Within 1 year	1-2 years	Total
	£m	£m	£m
Derivative financial assets			
Foreign exchange forwards	1.6	—	1.6
Derivative financial liabilities			
Interest rate swaps	—	(0.1)	(0.1)
Foreign exchange forwards	(44.0)	(4.4)	(48.4)
Energy swaps	(14.0)	—	(14.0)
	(58.0)	(4.5)	(62.5)
Total at 31 October 2006	**(56.4)**	**(4.5)**	**(60.9)**

The following table indicates the periods in which the cash flows associated with derivatives (which are principally cash flow hedges) are expected to occur. The cash flows are expected to impact profit and loss on a similar time profile:

	Maturity profile			
	Within 1 year	1-2 years	2-3 years	Total
	£m	£m	£m	£m
Derivative financial assets				
Foreign exchange forwards	146.7	19.7	—	166.4
Energy swaps	1.1	—	—	1.1
	147.8	**19.7**	**—**	**167.5**
Derivative financial liabilities				
Interest rate swaps	(35.7)	(90.3)	—	(126.0)
Foreign exchange forwards	(903.4)	(278.2)	(5.3)	(1,186.9)
Energy swaps	(105.6)	—	—	(105.6)
	(1,044.7)	(368.5)	(5.3)	(1,418.5)
Total at 31 October 2006	**(896.9)**	**(348.8)**	**(5.3)**	**(1,251.0)**

No ineffectiveness has been recognised in the income statement for the year ended 31 October 2006.

(j) Amounts recognised directly in equity

The following amounts have been recognised in equity during the year:

	2006
	£m
Hedging reserve	
Effective portion of changes in fair value of cash flow hedge	(55.1)
Fair value of cash flow hedges recycled to profit and loss	(5.1)
	(60.2)
Translation reserve	
Foreign currency translation differences for foreign operations	(3.7)
Net charge to equity	(63.9)

(k) Sensitivity analysis

The sensitivity analysis is for illustrative purposes only.

Interest rate risk

The Group has used a sensitivity analysis technique that measures the estimated change to the income statement and equity of a 1 per cent. (100 basis points) difference in market interest rates from the rates applicable at 31 October 2006, with all other variables remaining constant.

The sensitivity analysis includes the following assumptions:

- Change in market interest rates only affect interest income or expense of variable financial instruments.
- Changes in market interest rates only affect interest income or expense in relation to financial instruments with fixed interest rates if these are recognised at fair value.
- Changes in market interest rates affect the fair value of derivative financial instruments designated as hedging instruments and all interest rate hedges are expected to be highly effective.
- Changes in the fair value of derivative financial instruments and other financial assets or liabilities are estimated by discounting the future cash flows to net present values using appropriate market rates prevailing at the year end.

	Income statement		Equity (before tax)	
31 October 2006 Variable rate instruments	100bp increase	100bp decrease	100bp increase	100bp decrease
	£m	£m	£m	£m
Variable rate instruments	(2.9)	2.9	—	—
Fixed rate instruments	—	—	—	—
Interest rate swaps	—	—	0.5	0.8
	(2.9)	2.9	0.5	0.8

Currency risk

The currency risk sensitivity analysis is based on the assumption that all cash flow hedges are highly effective and that all other variables remain constant.

Under this assumption, with a 10 per cent. strengthening or weakening of Sterling against all exchange rates, profit before tax would have increased by £5.0m or reduced by £4.1m, respectively (principally relating to the translation of the income statement of overseas subsidiaries). Equity (before tax) would have increased by £15.3m or decreased by £12.5m, respectively.

Energy risk—Fuel

The fuel risk sensitivity analysis is based on the assumption that all cash flow hedges are highly effective and that all other variables remain constant.

Under this assumption, with a 10 per cent. increase or decrease in the unit price of fuel, profit before tax would neither increase or decrease materially, because of the fuel price hedging policy. Equity (before tax) would increase by £9.2m, or decrease by £9.2m, respectively.

(ii) Comparative disclosures under UK GAAP (FRS 13) for the year ended 31 October 2005

To reduce risks arising from movements in foreign exchange and interest rates, the Group has entered into forward foreign exchange contracts and single currency interest rate swaps/forward rate agreements and accounts for such transactions as hedges. The gross value of financial assets and liabilities is stated after the effect of these hedged transactions. Short-term debtors and creditors have been omitted from the disclosures other than the currency risk.

(a) Financial assets and liabilities

At 31 October 2005 the Group's financial assets and liabilities profile, after taking account of interest rate and currency hedging arrangements in place, was as follows:

	2005		
	Floating rate	Non-interest bearing	Total
	£m	£m	£m
Financial assets			
Sterling	33.7	7.3	41.0
Canadian Dollars	30.0	—	30.0
Euro	28.9	1.3	30.2
US Dollars	20.0	—	20.0
Other	4.9	—	4.9
Total	**117.5**	**8.6**	**126.1**

Floating rate financial assets comprise cash and current asset investments, which attract interest rates of between 1.5 per cent. and 4.5 per cent. and are all due to mature within one year. Non-interest bearing assets represent trade investments, which have no maturity period, and cash at bank.

	2005			
	Fixed rate	Floating rate	Non-interest bearing	Total
	£m	£m	£m	£m
Financial liabilities				
Sterling	28.2	69.7	3.8	101.7
Canadian Dollars	—	—	2.8	2.8
Euro	4.6	4.7	3.1	12.4
US Dollars	—	—	19.3	19.3
Total	**32.8**	**74.4**	**29.0**	**136.2**

Fixed rate financial liabilities comprise bank borrowings and obligations under finance leases. The weighted average fixed rate of Sterling borrowings at 31 October 2005 is 5.2 per cent. and the average time to maturity is 2.6 years. The weighted average fixed rate of Euro borrowings at 31 October 2005 is 5.8 per cent. and the average time to maturity is 3.0 years.

Floating rate financial liabilities comprise loans and obligations under finance leases, at the following interest rates:

Sterling: LIBOR plus a margin between 0.9 per cent. and 1.65 per cent. at 31 October 2005.

Euro: EURIBOR plus a margin between 1.5 per cent. and 1.65 per cent. or RIBOR plus a margin between 0.25 per cent. and 0.85 per cent. at 31 October 2005.

Non-interest bearing financial liabilities comprise deferred consideration for acquisitions.

(b) Maturity profile of financial liabilities

	2005
	£m
Within one year	91.1
In more than one year but less than five years	36.9
More than five years	8.2
	136.2

(c) Fair value of derivative financial instruments

	2005	
	Book value	Fair value
	£m	£m
Fair values		
Financial instruments		
Financial assets	126.1	126.1
Financial liabilities	(136.2)	(136.2)
	(10.1)	(10.1)
Derivative financial instruments		
Interest rate swaps and forward rate agreements	—	(0.1)
Foreign currency transactions	—	3.2
Fuel derivatives	—	1.0
	(10.1)	(6.0)
Difference between book and fair value		**4.1**

Fair value is the difference between market value in which the instruments are traded at the balance sheet date and the future contracted commitment.

(d) Unrecognised gains and losses relating to hedges of future exposures

	2005		
	Gains	Losses	Net
	£m	£m	£m
Unrecognised gains and losses			
Total unrecognised gains/(losses) at 1 November	43.2	(40.1)	3.1
(Gains)/losses recognised in the year relating to prior years	(42.0)	34.7	(7.3)
Gains/(losses) not recognised in the year relating to prior years	1.2	(5.4)	(4.2)
Gains/(losses) not recognised in the year relating to the current year	21.8	(13.5)	8.3
Total unrecognised gains/(losses) at 31 October	23.0	(18.9)	4.1
Of which:			
Due to be recognised within one year	21.3	(15.6)	5.7
Due to be recognised after one year	1.7	(3.3)	(1.6)
	23.0	(18.9)	4.1

Gains and losses on foreign exchange instruments used for hedging purposes are not recognised until the maturity of the underlying exposure.

(e) Currency exposures

The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars. The table below shows the Group companies' net monetary assets and liabilities held in

currencies other than their principal currency, after having taken into account the effect of forward contracts or other derivative instruments used to match foreign currency exposure.

Functional currency	Sterling	Euro	US Dollar	Canadian Dollar	Thai Baht	Australian Dollar	Swiss Franc	Other	Total
	£m	£m	£m	£m	£m	£m	£m	£m	£m
Sterling	—	32.3	14.1	1.3	1.4	2.8	(0.9)	8.9	59.9
Canadian Dollars	—	—	7.7	—	—	—	—	—	7.7
Euro	0.9	—	(0.1)	0.1	—	—	1.3	2.2	4.4
US Dollars	—	1.1	—	0.7	—	—	—	0.3	2.1
Total	**0.9**	**33.4**	**21.7**	**2.1**	**1.4**	**2.8**	**0.4**	**11.4**	**74.1**

26. Movements in cash and net funds

	31 October 2005	Cash movement	Finance leases	Foreign exchange	Arising on acquisition	Adoption of IAS 32 and 39	31 October 2006
	£m	£m	£m	£m	£m	£m	£m
Cash and cash equivalents	125.3	54.9	—	(2.7)	—	—	177.5
Bank overdrafts	(19.9)	19.9	—	—	—	—	—
Movements in cash and cash equivalents	105.4	74.8	—	(2.7)	—	—	177.5
Bank loans and loan notes	(68.4)	(186.4)	—	(2.7)	(18.1)	2.0	(273.6)
Finance leases	(18.9)	17.7	(1.6)	(2.2)	(3.6)	1.4	(7.2)
Net (debt)/funds	18.1	(93.9)	(1.6)	(7.6)	(21.7)	3.4	(103.3)

27. Acquisitions, continuing and discontinuing operations contributions to Group cash flows

	Continuing operations	Acquisitions	Total
	£m	£m	£m
Net cash generated from/(absorbed by) operations	118.0	(2.7)	115.3
Net cash flow from operating activities	(33.3)	0.5	(32.8)
Net cash flow from investing activities	(144.8)	2.8	(142.0)
Net cash flow from financing activities	150.3	(16.0)	134.3
Increase/(decrease) in cash in the year	**90.2**	**(15.4)**	**74.8**

The acquisitions column reflects cash flows arising from post acquisition trading of acquired businesses.

28. Operating lease commitments

Group obligations under operating lease contracts are as follows:

	Land and buildings 2005	Aircraft, yachts and equipment 2005	Land and buildings 2006	Aircraft, yachts and equipment 2006
	£m	£m	£m	£m
Total commitments under non-cancellable operating leases expiring:				
Within one year	5.5	2.9	**5.2**	**7.5**
Between one and five years	20.5	110.9	**34.8**	**183.7**
Thereafter	256.2	221.1	**249.5**	**103.4**
	282.2	334.9	**289.5**	**294.6**

29. Capital commitments

	2005	2006
	£m	£m
Contracted but not provided for	4.1	5.1
Authorised but not contracted or provided for	5.6	10.6
	9.7	15.7

In addition to the above items, the Group has contracted to purchase twelve Boeing 787 aircraft, the first delivery of which is in 2009. The Group intends to refinance these aircraft in advance of their delivery dates and therefore does not expect to use its own cash resources for their purchase. At list price, the order value is US$1,160.0m.

Sunshine Cruises Limited, a joint venture with Royal Caribbean Cruises Ltd. had no capital commitments in 2006 (2005: £1.6m).

30. Contingent liabilities

Under the terms of guarantees given to the Civil Aviation Authority and other relevant authorities by the Company in respect of certain subsidiaries, in the event of default, the Company could be held liable to the extent of the subsidiaries' net trading liabilities at the time of default.

The Company is at any time defending a number of actions against it arising in the normal course of business. Provision is made for these actions where this is deemed appropriate. The Directors consider that adequate provision has been made for all known liabilities.

31. Related party transactions

Simón Barceló is a Director and shareholder of the Barceló Corporación Empresarial SA (BCE) Group of companies. During the last 12 months the Group spent approximately £12.5m (2005: £12.8m) on hotel accommodation with BCE.

At 31 October 2006 the Group owed BCE £1.0m for such accommodation (2005: £1.3m). Viajes Barceló and Barceló Business (also part of BCE) owed the Group commission of £0.7m at 31 October 2006 (2005: £nil) and the Group earned total commissions of £21.8m in the year (2005: £3.5m) from these businesses.

Susan Hooper is Senior Vice President, International Managing Director, Royal Caribbean and Celebrity Cruises International.

Royal Caribbean Cruises Ltd. (RCCL) is First Choice's joint venture partner in Sunshine Cruises Limited. The Group earned commission of £2.2m (2005: £2.2m) during the year selling Royal Caribbean Cruises.

During the year, the Group traded with its associate Hays Travel Limited, and its joint venture Sunshine Cruises Limited. The main transactions during the year were:

(a) Commissions paid to Hays Travel Limited of £2.0m (2005: £3.0m). The balance outstanding as at 31 October 2006 is £nil (2005: £nil).

(b) the Group has charged Sunshine Cruises Limited for flying, administrative services and marketing contributions net of commissions received on sales totalling £0.5m (2005: £0.4m). There is an outstanding balance of £2.4m (2005: £2.6m) within creditors as at 31 October 2006.

The compensation paid in respect of key management personnel was as follows:

	2005	2006
	£m	£m
Short-term employee benefits	5.0	5.2
Post-retirement benefits	0.8	0.9
Share based payments	1.7	3.2
	7.5	9.3

Directors' remuneration of £3.4m (2005: £3.5m) is included within these amounts. The balance relates to key management personnel other than Directors. All the above amounts are included within employee costs (note 5).

All related party transactions were on ordinary commercial terms incurred in the normal course of the Group's business.

32. Key accounting estimates and judgments

Accounting policies

The preparation of consolidated financial statements under Adopted IFRSs requires the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent asset and liabilities and the reported amount of revenue and expenses during the year. The Group evaluates its estimates and assumptions on an on-going basis. Such estimates and judgments are based upon historical experience and other factors it believes to be reasonable under the circumstances.

Management has discussed with the Audit Committee the development, selection and disclosure of the Group's critical accounting policies and estimates and the applications of these policies and estimates.

The most important estimates and judgments are:

Goodwill carrying value

A full impairment review has been performed of all goodwill balances held across the Group on a cash generating unit basis. The impairment review is performed on a "value-in-use" basis, which requires estimation of future net operating cash flows and the time period over which they will occur. Further details are given in note 10.

Other asset carrying values

Management annually assesses the carrying value of all material assets across the Group. Key judgment areas include the carrying values of prepaid accommodation and of ships, yachts and motorboats as they are based on estimated future cash flows.

Business combinations

Judgment and estimation is required in the valuation of separable assets and liabilities on acquisitions. In particular, judgment is required in the identification and valuation of separable intangible assets, being brands, orders books and customer databases, and the useful economic lives assigned.

Defined benefit pension plans

A qualified independent actuary undertakes the estimation of the present value of the Group's obligations under defined benefit pension schemes using assumptions taken from a range of possible actuarial assumptions. These assumptions may not be borne out in practice, especially due to the long timescales involved. The valuation of scheme assets is based on the fair value at the balance sheet date. As these assets are not intended to be sold in the short-term, their value may change significantly prior to realisation.

Derivative financial instruments

Judgment is required in the assessment of cash flow hedge accounting and in the assessment of the probability of forecast transactions, both at hedge inception and during the period over which hedge accounting is adopted. The value of derivative financial instruments is also judgmental.

External valuations from financial institutions are undertaken to support the carrying value of such items.

Aircraft maintenance provisions

Details in respect of the estimation of aircraft maintenance provisions are given in note 22 and the accounting policy is disclosed in note 1(S).

Taxation

The Group has, from time to time, contingent tax liabilities arising from trading and corporate transactions in the UK and overseas jurisdictions. After taking appropriate external advice, the Group makes provision for these liabilities based on the probable level of economic loss that may be incurred and which is reliably measurable.

33. Explanation of transition to Adopted IFRSs

As stated in note 1, these are the Group's first consolidated financial statements prepared in accordance with Adopted IFRSs.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31 October 2006, the comparative information presented in these financial statements for the year ended 31 October 2005 and in the preparation of an opening IFRS balance sheet at 1 November 2004 (the Group's date of transition).

In preparing the opening IFRS balance sheet, the Group has adjusted amounts previously reported in financial statements prepared in accordance with its old basis of accounting (UK GAAP). An explanation of how the transition from UK GAAP to Adopted IFRSs has affected the Group's financial position, financial performance and cash flows is set out in the following tables and notes that accompany the tables. Where further adjustments have been made to conform with the accounting policies of TUI Travel PLC these have been separately identified.

Reconciliation of equity

	Note	UK GAAP 31 October 2004	Effect of transition	IFRS 1 November 2004	UK GAAP 31 October 2005	Effect of transition	IFRS 31 October 2005

Notes to the reconciliation of equity

(A) IAS 38, "Intangible assets", requires that computer software that is "not an integral part of the related hardware" be classified as an intangible asset. Accordingly, the carrying value of computer software of £10.4m at 1 November 2004 and £13.0m at 31 October 2005 has been re-classified from Property, Plant and Equipment to Intangible assets.

(B) Assets that meet the criteria for an asset held for sale under IFRS 5, "Assets held for sale and discontinued operations", should be re-classified as such in the balance sheet. This has led to re-classifications with a net book value of £2.1m at 1 November 2004 and £9.0m at 31 October 2005, relating to yachts, boats, properties and *fond de commerce*agreements.

(C) In line with IAS 38, "Intangible Assets", all prepaid advertising, marketing and other direct costs of selling holidays are required to be written off as incurred. Under UK GAAP the Group carried such costs on balance sheet, matching them to the season to which they related. This has led to a reduction in net assets of £69.9m at 1 November 2004 (including joint venture and associate £0.9m) and £70.3m at 31 October 2005 (including joint venture and associate £0.9m).

(D) Accommodation prepayments relating to a period outside of the current operating cycle have been re-classified from current to non-current receivables in accordance with IAS 1. The size of this adjustment was £38.7m at 1 November 2004 and £60.6m at 31 October 2005.

(E) Deferred tax assets and liabilities are required to be shown on the face of the balance sheet either separately or offset in accordance with IAS 12, "Taxation". At 1 November 2004, £5.6m of existing deferred tax assets have been re-classified from current receivables to non-current deferred tax assets and £15.0m of existing deferred tax liabilities have been re-classified from provisions to non-current deferred tax liabilities. These adjustments were £11.1m and £18.3m respectively at 31 October 2005.

(F) In line with IAS 12, "Taxation", £33.2m of new deferred tax assets and £5.5m of deferred tax liabilities, net £27.7m, were created upon transition to Adopted IFRSs at 1 November 2004. At 31 October 2005, new deferred tax assets of £38.7m and new deferred tax liabilities of £5.5m, net £33.2m, were created.

(G) Current finance lease liabilities of £6.2m have been re-classified from trade payables to interest bearing liabilities and £19.3m for other long-term liabilities to non-current interest bearing liabilities at 1 November 2004. Similar re-classifications of £16.4m and £2.5m respectively occurred at 31 October 2005.

(H) IAS 19, "Employee benefits", requires the Group to accrue for unused annual leave at each balance sheet date. An accrual of £4.0m has therefore been included within the Groups balance sheet at 1 November 2004 and 31 October 2005.

(I) Under Adopted IFRSs, dividends are only deducted from equity once the dividend is an unavoidable liability. At 1 November 2004, the interim dividend for the year ended 31 October 2004, of £9.0m, had not been paid and the proposed 2004 final dividend of £19.4m had not yet been approved by the shareholders. Under UK GAAP, these dividends were accrued as liabilities at 1 November 2004. This liability has been reversed under Adopted IFRSs.

Similarly, dividends totalling £34.4m, which had been accrued at 31 October 2005, have been reversed and added back to equity at that date.

(J) IFRS 2, "Share-based payments", requires that the fair value of share options issued to employees should be calculated and charged to the income statement over the vesting period. The IFRS 2 fair value charge calculated is less than the charge previously accrued by the Group, leading to a write back to accruals of £0.8m at 1 November 2004 and £2.8m at 31 October 2005.

(K) Lease incentives and reverse premiums should be accounted for over the life of the lease term under IFRS, as opposed to until the period of the first rent review under UK GAAP. The Group has therefore written back deferred income of £2.8m at 1 November 2004 and £2.9m at 31 October 2005 in line with recognising such incentives over the full lease term.

(L) The transition to Adopted IFRSs has the impact of decreasing net assets by £3.1m at 1 November 2004 and £4.5m at 31 October 2005 for other movements.

(M) Previously under UK GAAP the Group classified all aircraft maintenance provisions are being payable in greater than one year. Under Adopted IFRSs, £14.8m at 1 November 2004 and £21.3m at 31 October 2005 has been re-classified as being due to be paid within one year.

(N) IAS 19, "Employee benefits", requires that the Group's deficit in relation to defined benefit pension schemes is brought on balance sheet. At 1 November 2004, an existing provision of £1.9m has been increased by £30.8m to give a total liability of £32.7m. At 31 October 2005 a liability of £34.2m was recognised. Both of these liability balances were obtained via actuarial valuations.

(O) IFRS requires that minority interests be shown as part of equity as opposed to non-current liabilities under UK GAAP.

(P) Goodwill is no longer amortised under Adopted IFRSs, with effect from 1 November 2004, leading to a write back under Adopted IFRSs of £24.9m (including joint venture £0.2m). Offsetting this is £1.9m of amortisation relating to acquired intangible assets.

(Q) Total equity has been reduced by £53.3m at 1 November 2004 and £26.1m at 31 October 2005 in line with the above adjustments.

(R) Inventories and Trade and other receivables have been restated by £9.8m to present Inventories separately on the face of the balance sheet to conform with the accounting policies of TUI Travel.

A breakdown of these adjustments is:

	Note	1 November 2004	31 October 2005
		£m	£m
Prepaid advertising and marketing	C	(69.9)	(70.3)
Defined benefit pension liability	N	(30.8)	(38.2)
Holiday pay accrual	H	(4.0)	(4.0)
Dividend recognition	I	28.6	34.5
Share-based payments	J	0.8	2.8
Lease incentives	K	(2.8)	(2.9)
Taxation	F	27.7	33.2
Goodwill	P	—	24.9
Amortisation of business combination intangibles	P	—	(1.9)
Minority Interest	O	0.2	0.3
Other	L	(3.1)	(4.5)
Impact on net assets		(53.3)	(26.1)

Included in these reconciliations are further adjustments necessary to achieve Adopted IFRSs compared to the reconciliations published on 23 March 2006 and available from the "Media-Press Releases" section of the Group's website, *www.firstchoiceholidaysplc.com*.

These additional adjustments have had no impact on the Income Statement and are principally in respect of the recognition of 2004 and 2005 interim dividends.

The presentation of revenue and cost of sales under both UK GAAP and Adopted IFRSs has also been revised to more accurately reflect the nature of activities undertaken in the Online Destination Services Sector, where the Group acts as an intermediary between service provider and customer. This change has reduced the previously reported comparative ODS revenue and cost of sales by £137.0m each.

Reconciliation of equity at 1 November 2005 on implementation of IAS 32 and 39

Total equity	276.2	(0.3)	275.9

Notes to the reconciliation of equity at 1 November 2005 upon implementation of IAS 32 and 39

To adopt IAS 32 and IAS 39 within the balance sheet as at 1 November 2005, the following adjustments have been necessary:

- The recognition on balance sheet of the fair value of derivative financial assets of £23.0m and the fair value of derivative financial liabilities of £18.9m. Unrealised fair value gains of £6.3m on cash flow hedges are included within the hedging reserve. Unrealised fair value losses of £2.2m on fair value hedges are included within retained earnings. Under UK GAAP derivatives were held off balance sheet and were recognised at the time of the hedged transaction.
- IAS 21 requires that monetary items (e.g. cash, debtors, accounts payable) that are denominated in a currency other than an individual entities reporting currency should be translated at the spot rate at the balance sheet date. Many businesses within the Group already translated at the closing spot exchange rate at each reporting date under UK GAAP. Re-translation of such items is however required in some business units where assets and liabilities have previously been translated at the contracted rate, in accordance with UK GAAP. The impact of this change is to decrease net assets by £4.6m at 1 November 2005.

The total adjustment to net assets, after tax, has been recorded directly to equity and is summarised below:

	Derivative financial instrument	Translation at spot rate	Deferred tax impact	Total
	£m	£m	£m	£m
Non-current assets				
Trade and other receivables	—	(8.3)	—	(8.3)
Deferred tax assets	—	—	2.1	2.1
Current financial assets				
Derivative financial instruments	23.0	—	—	23.0
Current liabilities				
Trade and other payables	—	(3.9)	—	(3.9)
Finance leases	—	1.4	—	1.4
Loans	—	2.0	—	2.0
Derivative financial instruments	(18.9)	—	—	(18.9)
Non-current liabilities				
Provisions	—	4.2	—	4.2
Deferred tax liabilities	—	—	(1.9)	(1.9)
	4.1	**(4.6)**	**0.2**	**(0.3)**
Equity				
Cash flow hedging reserve	6.3	—	(1.9)	4.4
Retained earnings	(2.2)	(4.6)	2.1	(4.7)
	4.1	**(4.6)**	**0.2**	**(0.3)**

Derivative financial instruments at 1 November 2005 relate to forward foreign exchange contracts, interest rate swaps and fuel swaps. These instruments are used to reduce the exposure of the Group to movements in foreign exchange rates, interest rates and the price of fuel.

Reconciliation of income

Diluted EPS		10.6p	2.6p	13.2p	—	13.2p

Notes to the reconciliation of income

Effect of transition

(A) In line with IFRS 2, "Share-based payments", the Group has calculated the expense to be charged to the income statement using binomial and simulation models. The fair value charged calculated by these is lower than the charge calculated using a UK GAAP basis, giving an upside of £0.8m in the year ending 31 October 2005.

(B) Amortisation of acquired intangible assets during the year was £1.9m.

(C) Under UK GAAP, taxation of profits from joint venture and associates is included with the normal taxation charge calculated on profit before tax. Under Adopted IFRSs, the tax charge for joint ventures and associates of £0.9m is offset against the profit from these businesses.

(D) Goodwill is no longer required to be amortised under IFRS 3. Instead, it is subject to an annual impairment review.

(E) In line with IAS 19, "Employee Benefits", the return on assets of defined benefit pension schemes is classed as financial income and the interest cost on the pension scheme liabilities is shown as a financial expense. Under UK GAAP the pension charge went through cost of sales.

(F) Other minor adjustments to the income statement were upsides of £0.2m in administrative expenses and £0.3m in the tax charge for the year.

(G) Revenue and cost of sales have been restated under both UK GAAP as set out in note 1 to the accounts.

Effect of changes to Accounting Policies to conform with TUI Travel

(H) Revenue and cost of sales have been restated by £205.4m to disclose commissions payable as cost of sales, as opposed to a deduction from revenue as applied under IFRSs as adopted by the Group.

(I) In line with IAS 37, "Provisions, contingent liabilities and contingent assets", the Group has discounted provisions where the time value of money is material. The unwinding of these provisions has been restated to reduce cost of sales and increase finance expenses by £3.1m.

Cash flow statement

There have no material changes between the cash flow statement presented under UK GAAP and that presented under Adopted IFRSs.

34. Principal operating subsidiaries

All the principal operating subsidiaries listed below were wholly owned and were consolidated at 31 October 2006. Principal operating subsidiaries are those which, in the opinion of the Directors, significantly affected the Group's results and net assets during the year. The Directors consider that those companies not listed are not significant in relation to the Group as a whole.

All of the subsidiaries have only ordinary share capital except for Signature Vacations Inc., which also has convertible, redeemable preference shares all of which are owned by the Group. Subsidiaries marked with an * are directly held by First Choice Holidays PLC. A full list of subsidiaries will be included in the Company's annual return.

(1) Bill Dalton received £2,000 of his 2004 fees in 2005 as an arrears payment.

(2) Jeremy Hicks and Susan Hopper were appointed during 2005.

(3) Giles Thorley was appointed in February 2006.

The Executive Directors have each elected to defer 50 per cent. (2005: 50 per cent.) of the annual bonus entitlement for the year ended 31 October 2006 under the terms of the Deferred Annual Bonus Scheme.

Interests in shares and options at 31 October 2006

* In accordance with the amendments to the Restricted Share Plan approved by the Shareholders.

During the year to 31 October 2005, the price of the Company's ordinary shares ranged between 135p and 218.25p and was 195.25p on 31 October 2005.

On 1 November 2005, the following shares were allocated to the directors in respect of the Dividend Reinvestment Plan (the DRIP):

Louise Bowtell (wife of Paul Bowtell)	100
Tony Campbell	379

Section C

Audited consolidated financial statements of First Choice for the two years ended 31 October 2005

The information contained in this Section C has been reproduced from the financial statements of First Choice Holidays PLC for the years ended 31 October 2005 and 31 October 2004. As a result it contains certain references within the annual report issued by First Choice in each year that is not reproduced within this section.

Independent auditors' report to the members of First Choice Holidays PLC

We have audited the accounts of First Choice Holidays PLC. We have also audited the information in the Directors' Remuneration Report that is described as having been audited.

This report is made solely to the Company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

The Directors are responsible for preparing the Annual Report and the Directors' Remuneration Report. As described in the statement of Directors' Responsibilities, this includes responsibility for preparing the accounts in accordance with applicable United Kingdom law and accounting standards. Our responsibilities, as independent auditors, are established in the United Kingdom by statute, the Auditing Practices Board, the Listing Rules of the Financial Services Authority and by our profession's ethical guidance.

We report to you our opinion as to whether the accounts and the part of the Directors' Remuneration Report to be audited give a true and fair view and have been properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the Directors' Report is not consistent with the accounts, if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and transactions with the Group is not disclosed.

We review whether the corporate governance statement reflects the Company's compliance with the nine provisions of the 2003 FRC Code specified for our review by the Listing Rules and we report if it does not. We are not required to consider whether the Board's statements on internal control cover all risks and controls, or form an opinion on the effectiveness of the Group's corporate governance procedures or its risk and control procedures.

We read the other information contained in the Annual Report, including the Corporate Governance Statement and the unaudited part of the Directors' Remuneration Report, and consider whether it is consistent with the audited accounts. We consider the implications for our report if we become aware of any apparent mis-statements or material inconsistencies with the accounts.

Basis of audit opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts and the part of the Directors' Remuneration Report to be audited. It also includes an assessment of the significant estimates and judgements made by the directors in the

preparation of the accounts, and of whether the accounting policies are appropriate to the Group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the accounts, and the part of the Directors' Remuneration Report to be audited, are free from material mis-statement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the accounts and the part of the Directors' Remuneration Report to be audited.

Opinion

In our opinion:

The accounts give a true and fair view of the state of affairs of the Company and the Group as at 31 October 2005 and of the profit of the Group for the year then ended; and

The accounts and the part of the Directors' Remuneration Report to be audited have been properly prepared in accordance with the Companies Act 1985.

1. Accounting policies

Basis of preparation

The following accounting policies have been consistently applied in dealing with items considered material in relation to the accounts, other than the change in accounting policy in relation to turnover for Online Destination Services.

The comparative figures for turnover and cost of sales have both been reduced by £32.1m to reflect more accurately the contractual basis of the activity in the Online Destination Services Sector.

Accounting convention

The accounts have been prepared in accordance with applicable accounting standards and under the historical cost convention as modified by the revaluation of certain fixed assets, and on the going concern basis.

Basis of consolidation

The Group accounts consolidate the accounts of First Choice Holidays PLC and its subsidiary undertakings together with the Group's share of net assets and results of its joint venture and associated undertakings. These accounts are made up to 31 October 2005.

The acquisition method of accounting has been adopted. Under this method, the results of subsidiary undertakings acquired during the year are included in the profit and loss account from the effective date of acquisition.

The Company has taken advantage of the exemption under Section 230 of the Companies Act 1985 from presenting its own profit and loss account.

Associated undertakings and joint ventures

An associated undertaking is one in which the Group has a long-term investment and exercises significant influence over the Company in which the investment is made. The Group's share of the results and net assets of its associated undertakings are included in the consolidated profit and loss account and balance sheet under the equity method of accounting.

A joint venture is an undertaking in which the Group has a long-term interest and over which it exercises joint control. The Group's share of the profits less losses of joint ventures is included in the consolidated profit and loss account and its interest in their net assets, and the Group's related other goodwill, is included in investments in the consolidated balance sheet. The joint venture undertaking has been accounted for using the gross equity method in the Group balance sheet.

Goodwill

Purchased goodwill (representing the excess of the fair value of the consideration and associated costs given over the fair values of the separable net assets acquired) arising on consolidation in respect of acquisitions since 1 November 1998 is capitalised. Positive goodwill is amortised to nil by equal instalments over its estimated useful life, normally and in no case more than 20 years. On the subsequent disposal or termination of a business acquired since 1 November 1998, the profit or loss on disposal or termination is calculated after charging the unamortised amount of any related goodwill.

Goodwill arising on consolidation prior to the adoption, on 1 November 1998, of FRS 10: Goodwill and Intangible Assets, has been charged directly to reserves. The goodwill, which has been taken directly to reserves, will be charged to the profit and loss account on disposal of the related business.

Fair value accounting adjustments are made in respect of acquisitions and these may be made on provisional estimates. Amendments may be made to those adjustments in the subsequent accounting period with a corresponding adjustment to goodwill.

Foreign currencies

Transactions in overseas currencies are translated at the exchange rate ruling at the date of the transaction or, where forward cover has been arranged, at the contractual rate. Monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rates ruling at the balance sheet date or at a contractual rate if applicable and any exchange differences arising are taken to the profit and loss account in the season to which the contract relates.

The results of overseas subsidiaries are translated at weighted average exchange rates for the year and exchange differences arising on consolidation of the net investment in overseas subsidiaries are dealt with through reserves.

Financial instruments

The following financial instruments may be utilised by the Group: foreign exchange forward contracts and swaps, foreign exchange options, interest rate swaps, forward rate agreements, interest rate options, energy swaps and energy options. The instruments are used to manage Group exposures to fluctuations in foreign currency exchange rates, interest rates and fuel prices.

Financial instruments are contracted for hedging purposes only. The Group does not trade any financial instruments and does not enter into speculative transactions. Interest rate derivatives are used to manage interest rate risk. Amounts payable and receivable in respect of these derivatives are recognised as adjustments to interest income or payable over the period of the contracts.

Gains and losses on foreign currency hedges are recognised on the maturity of the underlying exposure. Gains or losses arising on hedging instruments, which are cancelled due to the termination of underlying exposure, are taken to the profit and loss account immediately.

Turnover

Turnover represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business. Revenue in respect of in house product is recognised on the date of departure and the related costs of distribution and of providing the holidays and flights are charged to the profit and loss account on the same basis. Travel agency commissions and other revenues received from the sale of third party product, together with related costs, are recognised when they are earned on receipt of final payment. Turnover excludes intra-group transactions and is stated after deduction of trade discounts and commissions.

Client money received in advance

Client money received at the balance sheet date relating to holidays commencing and flights departing after the year end is included in creditors.

Marketing costs

Brochure and other marketing costs are charged to the profit and loss account in the season to which they relate.

Operating leases

Rentals payable and receivable under operating leases are charged or credited to the profit and loss account on a straight-line basis over the period of the lease or on another systematic basis, if this is more representative of the time pattern of the benefit from the use of the leased asset.

Finance leases and hire purchase contracts

Assets arising under finance leases and hire purchase contracts are capitalised and a corresponding liability recorded in creditors representing the present value of the minimum lease payments.

Where an option price exists, and the Group intends at inception to exercise the option, the corresponding liability includes the option purchase price as a lease payment and the option exercise date is taken as the most beneficial to the Group. Payments are treated as consisting of capital and interest elements with the interest being charged to the profit and loss account in proportion to the outstanding obligations.

Tangible fixed assets and depreciation

Tangible fixed assets are depreciated on a straight-line basis, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset over its expected useful economic life.

The years used are as follows:

Freehold properties	—	50 years
Short leasehold properties	—	Lease period
Finance lease aircraft and equipment	—	Lease period
Aircraft spares and equipment	—	12 years/period to next overhaul
Yachts	—	15 years
Motor boats	—	25 years
Retail computer equipment	—	5 years
Computer equipment	—	3–5 years
Retail fixtures and fittings	—	8 years
Other assets	—	4 years

Since adopting FRS 15: Tangible Fixed Assets, newly acquired assets are carried at cost with other assets held at their previously revalued amounts.

Aircraft maintenance costs

Provision is made in respect of maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares based on the total anticipated costs over the useful economic life of the assets calculated by reference to costs experienced and published manufacturers' data. The charge to the profit and loss account is calculated by reference to the number of hours flown or by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised on initial recognition and depreciated over the period until the next scheduled major overhaul.

Deferred taxation

Except as otherwise required by accounting standards, full provision without discounting is made for all timing differences, which have arisen but not reversed at the balance sheet date. Timing differences arise when items of income and expenditure are included in tax computations in periods different from their inclusion in the accounts.

Pensions

The Group operates defined benefit and defined contribution schemes. Pension liabilities are funded by monthly or annual contributions. Under the defined benefit schemes, pension liabilities are charged to the profit and loss account so as to spread the long-term cost of pensions over the service lives of employees. Variations from regular cost are spread over the average remaining service lives of current employees. Defined contribution scheme pension liabilities are charged to the profit and loss account as they fall due.

FRS 17: Retirement Benefits will require a market rather than actuarial valuation of defined benefit schemes. This will result in a greater volatility of the pension scheme surplus or deficit as the market

valuation will be taken at each balance sheet date and be reflective of a particular point in time. At 31 October 2005, the Group has adopted the transitional disclosure requirements of FRS 17.

Geographical analysis of business

Turnover determined by the location of customers is not materially different from turnover determined by location of business. Europe is defined as Continental Europe and Eire, whilst North America refers to Canada and the United States. First Choice is an integrated leisure travel business encompassing tour operating, distribution capacity, airline operations and ground handling services. Accordingly we consider that we operate under one class of business which we have defined as 'Leisure Travel'.

The exceptional item in the prior year of £0.2m arose in Europe.

Analysis of goodwill amortisation and net assets

Total administrative expenses	(258.5)	(8.0)	(266.5)	(237.0)
Group operating profit	90.3	0.6	90.9	75.2

The goodwill amortisation disclosed under Acquisitions relates to the goodwill arising on consolidation in respect of companies acquired during the year.

3. Exceptional items

Exceptional costs of £0.2m arose in the prior year and related to the loss on disposal of the Group's interest in the Barceló Retail businesses and the gain on disposal of the Group's minority stake in the Globalia group of companies.

4. Net interest payable and similar items

	295.1	277.4

Details of the emoluments of directors (including details of share options, long-term incentive scheme interests and pension entitlements) are set out in the Report of the Board to Shareholders on Directors' Remuneration.

Consistent with the disclosure in note 2 'Segmental information' we consider the Group to have one integrated business of 'Leisure Travel'. Accordingly, we have disclosed the average number of employees under this single business.

Pension costs

The Group operates pension schemes for employees eligible and wishing to participate in the schemes. The assets of all the schemes are held separately from the assets of the Group.

Funded defined contribution schemes for employees and Directors (Group schemes)

Pension costs of £8.6m (2004: £7.8m) relating to defined contribution schemes were charged to the profit and loss account.

Funded defined benefit schemes

The Group sponsors three defined benefit schemes, the Air 2000 Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme and the Emerald Star scheme. Actuarial valuations of the three schemes were carried out at 1 November 2003 (Air 2000), 1 November 2003 (Unijet), and 1 July 2002 (Emerald Star). The valuations revealed Minimum Funding Requirement ratios of 79 per cent. and 81 per cent. respectively for the Air 2000 and Unijet schemes, calculated in accordance with the provisions of the Pension Act 1995.

All three defined benefit schemes are closed to new entrants and under the projected unit method, the service cost as a percentage of pensionable payroll will increase as the members of the scheme approach retirement.

Valuations of the schemes are made by qualified actuaries using market based valuations for the assets and attained age method for the liabilities.

Air 2000 scheme

The principal valuation assumptions used were the rates of investment return of 7.25 per cent. per annum compound (pre-retirement) and 5.5 per cent. per annum compound (post-retirement) and a rate of salary increase of 4.75 per cent. per annum compound. The market value of the scheme's assets at the date of the last actuarial valuation was £18.5m, representing 59 per cent. of the benefits that had accrued to members after allowing for expected future increases in earnings. The total pension charge for the year was £2.2m (2004: £2.3m). The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contributions from 1 June 2004 onwards are 34.2 per cent. of contribution salaries for Flight Deck staff and 30.1 per cent. for Ground and Administrative staff. From 1 June 2004 to 31 March 2005 Flight Deck staff have a contribution rate of 7 per cent., from 1 April 2005 to 31 December 2005 8 per cent. and from 1 January 2006 onwards 10 per cent. From 1 June 2004 to 31 March 2005 Ground and Administrative staff have a contribution rate of 5 per cent., from 1 April 2005 to 31 March 2006 6 per cent. and from 1 April 2006 onwards 7 per cent.

In addition special employer contributions have been paid on 1 April 2005 and 1 September 2005 of £1.8m and £2.9m respectively. Further special employer contributions are payable as follows: £3.5m no later than 1 June 2006, £3.4m no later than 1 June 2007 and £0.85m each no later than 1 June 2008, 2009 and 2010 respectively.

The next triennial valuation will be due no later than 1 November 2006 and will be reflected in the accounts for the year ending 31 October 2007.

Unijet scheme

The principal valuation assumptions used were the rates of investment return of 7.25 per cent. per annum compound (pre-retirement) and 5.5 per cent. per annum compound (post-retirement) and a rate of salary increase of 4.75 per cent. per annum compound. The market value of the scheme's assets at the date of the last actuarial valuation was £12.3m, representing 61 per cent. of the benefits that had accrued to members after allowing for expected future increases in earnings. The total pension cost for the year was £1.6m (2004: £1.6m). The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contribution rate from 1 November 2004 to 31 August 2005 is 16.4 per cent. of pensionable salaries and from 1 September 2005 onwards 32.1 per cent. From 1 November 2004 to 31 March 2005 employees have a contribution rate of 7 per cent., from 1 April 2005 to 31 December 2005 8 per cent. and from 1 January 2006 onwards 10 per cent.

In addition special employer contributions have been paid on 1 April 2005 and 1 September 2005 of £0.74m and £2.0m respectively. Further special employer contributions are payable as follows: £2.45m no later than each of 1 June 2006 and 1 June 2007 respectively, and £1.15m each no later than 1 June 2008, 2009 and 2010 respectively.

The next triennial valuation will be due no later than 1 November 2006 and will be reflected in the accounts for the year ending 31 October 2007.

Emerald Star scheme

The principal valuation assumptions used were the rates of investment return of 8.0 per cent. per annum compound and a rate of salary increase of 6.0 per cent. per annum compound. From July 2005 the Group has contributed at an average rate of 2.5 per cent. of contributory earnings. Employees do not contribute. The market value of the scheme's assets at the date of the last actuarial valuation was £1.1m. The total pension cost for the year was £14,000 (2004: £14,000).

The next triennial valuation is currently underway and will be reflected in the accounts for the year ending 31 October 2006.

The transitional arrangements of FRS 17 require additional disclosure of defined benefit pension schemes as at 31 October 2005, 2004 and 2003, calculated in accordance with the requirements of FRS 17. For the purpose of these accounts, these figures are illustrative only and do not impact on the actual balance sheet or the profit and loss account. The assets of each scheme have been taken at market value and the liabilities have been calculated by the qualified actuary using the following principal actuarial assumptions:

	Emerald Star scheme per annum			Air 2000 scheme per annum			Unijet scheme per annum		
	2005	2004	2003	2005	2004	2003	2005	2004	2003
	%	%	%	%	%	%	%	%	%
Inflation	2.25	2.50	2.50	3.00	3.00	2.50	3.00	3.00	2.50
Salary increases	4.00	4.50	4.50	5.00	5.00	3.75	5.00	5.00	3.75
Rate of discount	4.00	4.50	5.25	5.20	5.50	5.75	5.20	5.50	5.75
Pension in payment increases				3.00	3.00	3.00	3.00	3.00	2.50
Revaluation rate for deferred pensioners				3.00	3.00	2.50	3.00	3.00	2.50

On this basis, the illustrative balance sheet figures are as follows:

	Emerald Star scheme			Air 2000 scheme			Unijet scheme			Total		
	2005	2004	2003	2005	2004	2003	2005	2004	2003	2005	2004	2003
	£m	£m	£m	£m	£m	£m	£m	£m	£m	£m	£m	£m
Assets	1.6	1.4	1.2	30.4	21.2	18.5	19.5	13.8	12.4	51.5	36.4	32.1
Liabilities	(1.2)	(1.0)	(0.7)	(49.3)	(39.6)	(27.5)	(33.8)	(27.2)	(16.9)	(84.3)	(67.8)	(45.1)
(Deficit)/surplus	0.4	0.4	0.5	(18.9)	(18.4)	(9.0)	(14.3)	(13.4)	(4.5)	(32.8)	(31.4)	(13.0)
Deferred tax	—	—	—	5.7	5.5	2.7	4.3	4.0	1.4	10.0	9.5	4.1
Net (deficit)/surplus	0.4	0.4	0.5	(13.2)	(12.9)	(6.3)	(10.0)	(9.4)	(3.1)	(22.8)	(21.9)	(8.9)

Based on the net deficit in the schemes at 31 October 2005 the future full adoption of FRS 17 would result in a decrease in Group reserves.

The above disclosed position is different to that determined for the long term funding of the schemes, as different assumptions have been used.

The assets of the schemes at 31 October 2005, 31 October 2004 and 31 October 2003 and corresponding expected returns over the following year are as follows:

	Emerald Star scheme			Air 2000 scheme			Unijet scheme			Expected returns on all schemes		
	2005	2004	2003	2005	2004	2003	2005	2004	2003	2005	2004	2003
	£m	£m	£m	£m	£m	£m	£m	£m	£m	%	%	%
Equities	1.2	1.0	0.9	19.8	13.7	12.1	12.7	9.0	8.2	7.95	8.44	8.70
Bonds	0.2	0.2	0.2	10.5	7.4	6.2	6.7	4.7	4.1	4.98	5.48	5.50
Cash and other short term assets	0.2	0.2	0.1	0.1	0.1	0.2	0.1	0.1	0.1	4.75	5.00	4.70
	1.6	1.4	1.2	30.4	21.2	18.5	19.5	13.8	12.4			

The fair value of the schemes' assets are not intended to be realised in the short term and may be subject to significant change before they are realised.

The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions, which, due to the timescale covered, may not necessarily be borne out in practice. The present values of the schemes' liabilities are derived from cash flow projections over long periods and are inherently uncertain.

The transitional arrangements of FRS 17 also require disclosure of the defined benefit pension related costs and movements which would have been included in the profit and loss account and the statement of total consolidated recognised gains and losses had full adoption of FRS 17 been made in the year ended 31 October 2005.

Total actuarial (losses)/gain recognised in the statement of total consolidated recognised gains and losses, expressed as a percentage of the present value of the scheme liabilities	—	—	(5.1)	(11)	(2.9)	(10)	(8.0)	(11)

Actuarial gains/(losses) last year were as follows:

2004	Emerald Star scheme		Air 2000 scheme		Unijet scheme		Total	
	£m	%	£m	%	£m	%	£m	%
Difference between the expected and actual return on pension scheme assets expressed as a percentage of scheme assets	—	2	(0.3)	(2)	0.1	1	(0.2)	(1)
Actuarial experience gains and losses on scheme liabilities expressed as a percentage of the present value of the scheme liabilities	—	3	0.1	—	(1.0)	(4)	(0.9)	(1)
Effects of changes in the demographic and financial assumptions underlying the present value of the scheme liabilities	(0.1)	(17)	(9.6)	(24)	(7.6)	(28)	(17.3)	(26)
Total actuarial losses recognised in the statement of total consolidated recognised gains and losses, expressed as a percentage of the present value of the scheme liabilities	(0.1)	(12)	(9.8)	(25)	(8.5)	(31)	(18.4)	(27)

Share options

The Company has established three principal share option schemes: a senior executive performance related and a savings related share option scheme as well as an alternative long-term incentive scheme known as the Restricted Share Plan, all of which are as described in paragraph 6 of Part XI of this document.

Options granted and outstanding as well as shares awarded and outstanding in respect of unissued ordinary shares, are as follows:

	No. of shares	Option exercise price (p)	Date first exercisable
Senior executive plan	3,200,914	109.50	30 October 2007
	2,893,983	135.25	9 December 2008
Savings related share option scheme	188,642	97.60	1 October 2005
Restricted share plan	54,054	N/A	16 September 2002
	237,675	N/A	14 December 2002
	1,357	N/A	15 August 2003
	45,174	N/A	5 April 2004
	198,940	N/A	11 December 2004
	7,015	N/A	12 April 2005
	2,056,724	N/A	30 October 2005
	423,364	N/A	12 December 2005
	2,544,422	N/A	31 October 2006
	2,177,411	N/A	9 December 2006
	802,413	N/A	9 December 2006
	154,333	N/A	23 December 2006
	83,479	N/A	1 April 2007
	14,212	N/A	28 April 2007
	87,976	N/A	27 July 2007
	419,548	N/A	13 October 2007
	962,786	N/A	14 December 2007
	267,536	N/A	23 December 2007

As at 31 October 2005 there were 7,565,589 ordinary shares held by the First Choice Employee Benefit Trust. The Trust is funded by the Group by way of loans. The Group has taken advantage of the exemption within Urgent Issues Task Force (UITF) 17: Employee Share Schemes, in respect of its savings related share option scheme. The cost of share options granted under this scheme are therefore not charged to the profit and loss account.

6. Profit on ordinary activities before taxation

	2005	2004
	£m	£m
Profit on ordinary activities before taxation is stated after charging/ (crediting):		
Operating lease income, aircraft	**(6.0)**	(4.9)
Operating lease rentals, land and buildings	**43.0**	39.3
Operating lease rentals, aircraft and other equipment	**74.2**	85.1
Auditors' remuneration, audit fees	**0.8**	0.9
Other fees paid to the auditors and their associates	**0.3**	0.6
Depreciation	**41.5**	35.8
Charge for share based payments	**2.2**	3.0
(Gain)/loss on sale of fixed assets	**(0.4)**	0.5
Gain on foreign currency retranslation	**(2.2)**	—
Goodwill amortisation, subsidiaries	**24.6**	23.3
Goodwill amortisation, associates	**0.1**	0.1
Goodwill amortisation, joint venture	**0.2**	0.2

The Company's audit fee is borne by a subsidiary company and amounted to £10,250 (2004: £10,000). Non-audit fees of £Nil (2004: £0.1m) relating to due diligence on acquisitions and related share issue costs have been included within the cost of investments and the calculation of goodwill arising on consolidation. Non-audit fees charged to the profit and loss account of £0.3m (2004: £0.6m) principally relate to advice relating to IFRS transition (£0.2m) and regulatory compliance certification (£0.1m).

7. Taxation

The tax charge in the 31 October 2005 Group accounts can be summarised as follows:

	2005	2004
	£m	£m
Tax on profit on ordinary activities:		
(i) Analysis of charge in year		
Current tax:		
UK corporation tax on profits of the year	**23.7**	17.7
Non-UK tax on profits of the year	**9.7**	9.4
Adjustments in respect of previous periods	**1.0**	(0.1)
Total current tax before share of joint venture and associate	**34.4**	27.0
—Share of current tax of joint venture	**—**	(0.3)
—Adjustments in respect of previous periods relating to joint venture	**0.1**	—
—Share of associates' current tax	**0.3**	0.2
Total current tax after share of joint venture and associate	**34.8**	26.9
Deferred tax:		
Origination and reversal of timing differences:		
—Current year UK	**(3.0)**	(0.9)
—Current year non-UK	**1.9**	2.0
—Adjustments in respect of previous periods	**(1.1)**	0.1
Total deferred tax before share of joint venture	**(2.2)**	1.2
—Share of deferred tax of joint venture	**0.5**	0.3
Total deferred tax after share of joint venture	**(1.7)**	1.5
Tax on profit on ordinary activities	**33.1**	28.4

(ii) Factors affecting the current tax charge for the year

The current tax charge for the year is higher (2004: higher) than the standard rate of corporation tax in the UK 30 per cent. (2004: 30 per cent.). The differences are explained below:

	2005	2004
	£m	£m
Profit on ordinary activities before tax	**89.1**	74.5
Profit on ordinary activities at the standard rate of UK corporation tax of 30 per cent. (2004: 30 per cent.)	**26.7**	22.4
Effects of:		
—Expenses not deductible for tax purposes	**8.1**	5.3
—Capital allowances (in excess of)/less than depreciation	**(0.7)**	0.9
—Utilisation of tax losses	**(4.7)**	(3.6)
—Non-utilisation of tax losses	**2.2**	0.9
—Higher tax rates on overseas earnings	**1.2**	1.8
—Lower tax rates on overseas earnings	**(3.8)**	(1.2)
—Adjustments to tax charge in respect of previous periods	**1.1**	(0.1)
—Other short term timing differences	**4.7**	0.5
Current tax charge for year	**34.8**	26.9

The effective rate of taxation of 29 per cent. (pre goodwill amortisation and exceptional items) is expected to prevail for the foreseeable future.

8. Dividends

	2005	2004
	£m	£m
Ordinary shares		
Interim—1.95p per share (2004: 1.75p) paid 1 November 2005	**10.1**	9.0
Final proposed—4.65p per share (2004: 3.75p) payable 6 April 2006	**24.5**	19.4
Total ordinary dividend—6.6p per share (2004: 5.5p)	**34.6**	28.4
Preference shares		
6.75 per cent. convertible cumulative redeemable	**9.9**	13.5
Amortisation of preference share issue costs	**0.1**	0.2
	10.0	13.7

The final ordinary dividend of 4.65p is payable to all ordinary shareholders on the register on 3 March 2006.

Amounts paid relating to preference share dividends during the year comprise £8.8m in respect of the 2005 dividend and £1.1m accrued for the 2004 dividend as at 31 October 2004. No accrual has been made in respect of preference share dividends as the preference shares were all redeemed by the Company on 27 July 2005 (see note 20).

9. Earnings per ordinary share

The basic earnings per ordinary share is calculated by dividing the profit attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the year, excluding those held in the employee share ownership trusts. The diluted earnings per share is calculated on profits attributable to ordinary shareholders divided by the adjusted weighted average number of ordinary shares, which takes account of the outstanding share options, where their conversion is dilutive.

The additional earnings per share measures have been given to provide the reader of the accounts with a better understanding of the results.

	Earnings 2005	Weighted average no. of shares 2005	Earnings per share 2005	Earnings 2004	Weighted average no. of shares 2004	Earnings per share 2004
	£m	millions	pence	£m	millions	pence
(i) Basic earnings per share	**45.8**	**519.5**	**8.8**	32.1	516.6	6.2

10. Intangible fixed assets

	Group
	£m
Cost	
At 1 November 2004	462.1
Additions (note 12a)	68.9
Disposals	(0.2)
Revision to consideration on prior year acquisitions (note 12b)	3.2
Exchange adjustments	1.9
At 31 October 2005	**535.9**
Provision for amortisation	
At 1 November 2004	85.7
Charge in the year	24.7
At 31 October 2005	**110.4**
Net book value	
At 31 October 2005	**425.5**
At 31 October 2004	376.4

Intangible fixed assets represent goodwill arising on acquisition. Note 12 provides details of acquisitions in the year and other changes to goodwill. Positive goodwill is amortised to nil by equal instalments over its useful economic life, usually 20 years.

11. Tangible fixed assets

	Land and buildings	Yachts and motor boats	Aircraft and equipment	Computer equipment	Other	Total
	£m	£m	£m	£m	£m	£m
Cost or valuation						
At 1 November 2004	98.4	128.0	82.3	72.3	32.4	413.4
Exchange adjustments	—	(0.9)	—	0.1	(0.1)	(0.9)

Disposals	(3.9)	(12.1)	(3.1)	(1.1)	(3.8)	(24.0)
At 31 October 2005	**99.1**	**141.5**	**88.6**	**94.5**	**34.8**	**458.5**
Depreciation						
At 1 November 2004	24.6	17.5	33.7	33.8	15.1	124.7
Exchange adjustments	0.1	(0.2)	—	0.1	—	—
Provided in the year	5.7	7.3	6.0	16.7	5.8	41.5
Disposals	(2.0)	(5.0)	(2.7)	(1.0)	(2.8)a	(13.5)
At 31 October 2005	**28.4**	**19.6**	**37.0**	**49.6**	**18.1**	**152.7**
Net book value						
At 31 October 2005	**70.7**	**121.9**	**51.6**	**44.9**	**16.7**	**305.8**
At 31 October 2004	73.8	110.5	48.6	38.5	17.3	288.7

Other fixed assets with a combined net book value as at 31 October 2005 of £16.7m (2004: £17.3m) comprise £15.8m (2004: £16.5m) of fixtures and fittings, £0.8m (2004: £0.6m) of motor vehicles and £0.1m (2004: £0.2m) of ski equipment.

Fixed asset additions of £70.0m include £2.1m of fixed assets acquired on the acquisition of subsidiary companies during the year.

Land and buildings comprise freehold and short leasehold properties with net book values of £19.5m (2004: £19.4m) and £51.2m (2004: £54.4m) respectively. A number of the Group's freehold properties are included at valuations, which were adopted prior to the introduction of FRS 15:

(i) A freehold property in Manchester was revalued at £1.2m by Savills, Chartered Surveyors, on the basis of an open market valuation at 31 October 1997 in accordance with the Practice Statements of the Royal Institution of Chartered Surveyors.

(ii) Freehold hotel properties located in France were revalued as at 31 October 1996 at French Francs 16,000,000 (£1.9m) by Lecart HDS Expertises, on the basis of an open market valuation.

The net book values of assets held at valuation along with corresponding historical cost amounts are set out below. All valuations were carried out on an open market basis.

	Land and buildings	Aircraft and equipment
	£m	£m
Net book value at valuation		
As at 31 October 2005	**2.7**	**3.0**
Historical cost		
At 1 November 2004 and 31 October 2005	2.1	4.5
Depreciation		
At 1 November 2004	0.5	1.9
Provided in the year	0.1	0.5
At 31 October 2005	**0.6**	**2.4**
Net book value at cost		
At 31 October 2005	**1.5**	**2.1**

Properties revalued as part of acquisitions have not been included in the above figures as they represent the cost to the Group. The net book value of assets held under finance leases and hire purchase contracts at 31 October 2005 was £32.1m (2004: £37.6m). The depreciation charged in the year for these assets was £3.6m (2004: £2.8m).

All of the subsidiaries have only ordinary share capital except for Signature Vacations Inc., which also has convertible, redeemable preference shares all of which are owned by the Group. Subsidiaries marked with an * are directly held by First Choice Holidays PLC. A full list of subsidiaries will be included in the Company's annual return. All the principal operating subsidiaries were wholly owned and were consolidated at 31 October 2005.

Acquisitions

(a) Acquisitions in the year ended 31 October 2005

Acquisitions were made in the year for a total of £67.3m, including £1.8m of acquisition expenses. These acquisitions gave rise to provisional goodwill of £68.9m. The acquired businesses and their acquisition date were:

Sector and entity	Country of operation	Acquisition date	Consideration
			£m
Specialist Holidays			
Delphin Touristik Reiserveranstalter GmbH	Austria	April 2005	3.1
Spring Break Travel Inc	United States	February 2005	3.2
Europe Express Inc	United States	July 2005	12.3
Boss Tours Ltd	Canada	August 2005	3.6

MyPlanet Holding A/S	Denmark	May 2005	7.2
Peregrine Adventures Pty	Australia	July 2005	19.1
The Imaginative Traveller Ltd	United Kingdom	September 2005	6.6
Online Destination Services			
Triaena Tours and Congress	Greece	August 2005	0.1
SEM CORP	United States	October 2005	1.3
			65.5

Net assets/(liabilities) acquired

	Notes	Book value prior to acquisition	Accounting policy adjustments	Fair value adjustments	Fair value of net assets/ (liabilities) acquired
		£m	£m	£m	£m
Intangible fixed assets	1	0.7	—	(0.7)	—
Tangible fixed assets	2	2.2	—	(0.1)	2.1
Investments		0.1	—	—	0.1
Current assets (excluding cash)	3	16.0	(0.1)	—	15.9
Cash		23.7	—	—	23.7
Creditors due within one year	4	(42.9)	(0.2)	(0.1)	(43.2)
Creditors due after more than one year		(0.2)	—	—	(0.2)
Total net liabilities acquired		**(0.4)**	**(0.3)**	**(0.9)**	**(1.6)**
Consideration					65.5
Acquisition costs					1.8
Total investment cost					67.3
Net liabilities acquired (as above)					1.6
Provisional goodwill arising					**68.9**

Notes:

1. Elimination of goodwill existing in balance sheets at acquisition.
2. Impairment of fixed asset
3. Remove fair value of financial instruments not carried on balance sheet under UK GAAP
4. Adjustment of revenue recognition to Group policy; recognition of accruals for costs

The consideration payable is made up of:

	£m
Cash	53.4
Deferred consideration	6.6
Contingent consideration	5.5
Total consideration	**65.5**

The contingent consideration payable is in respect of the acquisitions of the The Imaginative Traveller and Delphin. It is dependent on the results of the businesses over the following periods, and the Directors believe the amounts provided reflect the most likely outcome in each case:

Acquisition	Period for calculation of contingent consideration	Maximum contingent consideration	Consideration provided for in these accounts
The Imaginative Traveller	Year ended 31/10/05	£3.0m	£3.0m
Delphin	Year ended 31/10/06 to year ended 31/10/09	€3.5m	€3.5m

The provisional goodwill of £68.9m arising on the acquisitions has been capitalised on the balance sheet and will be amortised over 20 years, its estimated useful economic life. All acquisitions have been accounted for using the acquisition method. It should be noted that certain fair value adjustments have necessarily been prepared on a provisional basis. Subsequent experience may result in the requirement to revise fair values in the subsequent accounting period.

In addition, deferred and contingent consideration of £1.6m, relating to prior year acquisitions was paid during the year, resulting in a total net cash outflow for the year in respect of acquisitions of £33.1m (2004: £30.9 m)

(b) Adjustments to estimates relating to acquisitions in previous years

Adjustments to contingent consideration and fair value estimates relating to acquisitions in previous years have resulted in an increase in the value of goodwill of £3.2m. The adjustments relate principally to agreement with the vendors of StudentCity.com, Inc. that the full value of potential contingent consideration would be payable in light of the results for the business for the first period for the calculation of contingent consideration, and a reduction in the expected value of variable consideration in the acquisition of Grantur.

13. Investments in associate and joint venture

	Group share of net assets of joint venture	Group share of net assets of associate	Group total	Company
	£m	£m	£m	£m

At 31 October 2005	**32.7**	**2.5**	**35.2**	
At 31 October 2004	31.7	2.1	33.8	

Name of company	Proportion held	Nature of business	Country of registration/ incorporation	Investment held by
Hays Travel Limited	37.75%	Travel agent	England & Wales	First Choice Holidays PLC
Sunshine Cruises Limited	50.00%	Cruise operator	England & Wales	First Choice Holidays PLC

All proportions held are in ordinary shares.

Sunshine Cruises Limited (trading as Island Cruises) was set up as a joint venture with Royal Caribbean Cruises Ltd. (RCCL) in July 2000. The share of profits recognised in respect of the joint venture represents the Group's share of the profit generated in the year.

There is a put option on the Group to acquire the remaining shareholding of the Group's associate, Hays Travel Limited. The value of this is dependent on the future profitability of Hays Travel Limited.

14. Debtors

	Group 2005	Group 2004	Company 2005	Company 2004
	£m	£m	£m	£m

Transferred from debtors	—	5.5	—	—	5.5
Exchange movements	(2.4)	—	—	—	(2.4)
At 31 October 2005	**52.9**	**18.3**	**—**	**1.8**	**73.0**

The net deferred tax provision at 31 October 2005 is as follows:

	2005	2004
	£m	£m
Accelerated capital allowances	**18.3**	15.0
Other short-term timing differences	**(6.9)**	(0.1)
Tax losses carried forward	**(4.2)**	(5.5)
	7.2	9.4

	2005	2004
	£m	£m
Net provision at the end of the year		
Included within:		
—Debtors (see note 14)	**(11.1)**	(5.6)
—Provisions for liabilities and charges (see above)	**18.3**	15.0
	7.2	9.4

There are no unprovided deferred taxation liabilities at either 31 October 2005 or 31 October 2004.

There is an unrecognised deferred tax asset at 31 October 2005 in respect of losses carried forward of £40.8m (2004: £29.0m), capital losses carried forward of £4.5m (2004: £4.5m). These assets have not been recognised because the Directors are not certain that any benefits will arise in the foreseeable future.

20. Share capital

	2005	2004
	£m	£m
Authorised		
800,000,000 (2004: 800,000,000) ordinary shares of 3p each	**24.0**	24.0

	223.5	223.5
Allotted, called up and fully paid		
529,658,730 (2004: 527,839,299) ordinary shares	**15.9**	15.8
Nil (2004: 199,500,000) 6.75 per cent. convertible cumulative redeemable preference shares of £1 each	—	199.5
	15.9	215.3

The Company issued 1,819,431 new ordinary shares in the year, with none of these shares being in respect of acquisitions.

The new ordinary shares were issued in respect of the following:

	No. of shares
Restricted Share Plan	365,264
Senior Executive Plan	21,756
Savings Related Share Option Scheme	1,432,411
	1,819,431

The share premium arising on the above issues was £1.7m.

On 27 July 2005 the Company chose to redeem at par all the convertible cumulative redeemable preference shares of £1 each. This redemption was permitted by the articles of association of the company as the fifth anniversary of the date of issue of this class of share capital had been reached.

The redemption was made from distributable profits of the Company in accordance with section 160 of the Companies Act 1985 and a transfer of £199.5m from share capital to the capital reserve has been made in accordance with section 170 of the Act.

21. Capital and reserves

Shareholders' funds	**302.3**	487.1	**662.0**	807.3

22. Financial instruments

To reduce risks arising from movements in foreign exchange and interest rates, the Group has entered into forward foreign exchange contracts and single currency interest rate swaps/forward rate agreements and accounts for such transactions as hedges. The gross value of financial assets and liabilities is stated after the effect of these hedged transactions.

The Group's policy with regard to such financial instruments is detailed within the accounting policies in note 1. Short-term debtors and creditors have been omitted from the disclosures other than the currency risk.

(a) Financial assets and liabilities

At 31 October 2005 the Group's financial assets and liabilities profile, after taking account of interest rate and currency hedging arrangements in place, was as follows:

	2005			2004		
	Floating rate	Non-interest bearing	Total	Floating rate	Non-interest bearing	Total
	£m	£m	£m	£m	£m	£m
Financial assets						
Sterling	**33.8**	**7.3**	**41.1**	162.8	11.0	173.8
Canadian Dollars	**30.0**	**—**	**30.0**	28.7	—	28.7
Euro	**28.9**	**1.3**	**30.2**	65.6	1.3	66.9
US Dollars	**20.0**	**—**	**20.0**	15.1	—	15.1
Other	**4.9**	**—**	**4.9**	8.6	—	8.6
Total	**117.6**	**8.6**	**126.2**	280.8	12.3	293.1

Floating rate financial assets comprise cash, and current asset investments, which attract interest rates of between 1.5 per cent. and 4.5 per cent. and are all due to mature within one year. Non-interest bearing assets represent trade investments, which have no maturity period, and cash at bank.

	2005				2004			
	Fixed rate	Floating rate	Non-interest bearing	Total	Fixed rate	Floating rate	Non-interest bearing	Total
	£m	£m	£m	£m	£m	£m	£m	£m
Financial liabilities								
Sterling	**28.2**	**69.7**	**3.8**	**101.7**	236.5	27.0	2.0	265.5
Canadian Dollars	**—**	**—**	**2.8**	**2.8**	—	—	2.1	2.1
Euro	**4.6**	**4.7**	**3.1**	**12.4**	7.0	0.6	2.1	9.7
US Dollars	**—**	**—**	**19.3**	**19.3**	—	—	8.6	8.6
Total	**32.8**	**74.4**	**29.0**	**136.2**	243.5	27.6	14.8	285.9

Fixed rate financial liabilities comprise bank borrowings and obligations under finance leases. The weighted average fixed rate of Sterling borrowings is 5.2 per cent. (2004: 6.3 per cent.) and the average time to maturity is 2.6 years. The weighted average fixed rate of Euro borrowings is 5.8 per cent. (2004: 6.1 per cent.) and the average time to maturity is 3.0 years.

Floating rate financial liabilities comprise loans and obligations under finance leases, at the following interest rates:

Sterling: LIBOR plus a margin between 0.9 per cent. and 1.65 per cent.

Euro: EURIBOR plus a margin between 1.5 per cent. and 1.65 per cent. or RIBOR plus a margin between 0.25 per cent. and 0.85 per cent.

Non-interest bearing financial liabilities comprise deferred consideration for acquisitions.

(b) Maturity profile of financial liabilities

	2005	2004
	£m	£m
Within one year	91.1	19.9
In more than one year but less than five years	36.9	64.1
More than five years	8.2	201.9
	136.2	285.9

(c) Fair value of derivative financial instruments

	2005		2004	
Fair values	Book value	Fair value	Book value	Fair value
	£m	£m	£m	£m
Financial instruments				
Financial assets	126.2	126.2	293.1	293.1
Financial liabilities	(136.2)	(136.2)	(285.9)	(285.9)
Derivative financial instruments				
Interest rate swaps and forward rate agreements	—	(0.1)	—	(0.8)
Foreign currency transactions	—	3.2	—	(29.0)
Fuel derivatives	—	1.0	—	32.9
	(10.0)	(5.9)	7.2	10.3
Difference between book and fair value		4.1		3.1

Fair value is the difference between market value in which the instruments are traded at the balance sheet date and the future contracted commitment.

(d) Unrecognised gains and losses relating to hedges of future exposures

	2005			2004		
	Gains	Losses	Net	Gains	Losses	Net
	£m	£m	£m	£m	£m	£m
Unrecognised gains and losses						
Total unrecognised gains/(losses) at 1 November 2004	43.2	(40.1)	3.1	19.0	(40.8)	(21.8)
(Gains)/losses recognised in the year relating to prior years	(42.0)	34.7	(7.3)	(17.8)	32.8	15.0
Gains/(losses) not recognised in the year relating to prior years	1.2	(5.4)	(4.2)	1.2	(8.0)	(6.8)
Gains/(losses) not recognised in the year relating to the current year	21.8	(13.5)	8.3	42.0	(32.1)	9.9
Total unrecognised gains/(losses) at 31 October 2005	23.0	(18.9)	4.1	43.2	(40.1)	3.1
Of which:						
Due to be recognised within one year	21.3	(15.6)	5.7	42.0	(34.7)	7.3
Due to be recognised after one year	1.7	(3.3)	(1.6)	1.2	(5.4)	(4.2)
	23.0	(18.9)	4.1	43.2	(40.1)	3.1

Gains and losses on foreign exchange instruments used for hedging purposes are not recognised until the maturity of the underlying exposure.

(e) Currency exposures

The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars. The table below shows the Group companies' net monetary assets and liabilities held in

currencies other than their principal currency, after having taken into account the effect of forward contracts or other derivative instruments used to match foreign currency exposure.

	Sterling	Euro	US Dollar	Can Dollar	Thai Bhat	Aus Dollar	Swiss Franc	Other	2005 Total	2004 Total
	£m	£m	£m	£m	£m	£m	£m	£m	£m	£m
Functional currency										
Sterling	—	32.3	14.1	1.3	1.4	2.8	(0.9)	8.9	59.9	19.4
Canadian Dollars	—	—	7.7	—	—	—	—	—	7.7	1.4
Euro	0.9	—	(0.1)	0.1	—	—	1.3	2.2	4.4	1.9
US Dollars	—	1.1	—	0.7	—	—	—	0.3	2.1	0.2
Total	0.9	33.4	21.7	2.1	1.4	2.8	0.4	11.4	74.1	22.9

(f) Undrawn committed borrowing facilities

As at 31 October 2005 the Group had available undrawn committed borrowing facilities of £314.9m comprising letters of credit, guarantee and revolving, floating rate credit facilities for cash borrowings one of which expires on 31 March 2008 and the other on 11 July 2010.

The conditions precedent to the availability of these facilities are also satisfied at the balance sheet date.

In addition, as at 31 October 2005, the Group also had available an undrawn committed asset financing facility of £8.7m. The commitment period for new drawdowns expires on 15 February 2006.

23. Reconciliation of operating profit to net cash inflow from operating activities

	2005	2004
	£m	£m
Group operating profit (after goodwill amortisation and exceptional items)	90.9	75.2
Depreciation	41.5	35.8
Charge for EBT shares	2.2	3.0
Goodwill amortisation	24.7	23.4

Financing	(181.5)	(0.8)	(182.3)
Decrease in cash in the year	(49.6)	(6.7)	(56.3)

The acquisitions column reflects cash flows arising from post acquisition trading.

27. Operating lease commitments

	Land and buildings 2005	Aircraft, yachts and equipment 2005	Land and buildings 2004	Aircraft, yachts and equipment 2004
	£m	£m	£m	£m
Annual commitment under non-cancellable operating leases expiring within:				
One year	6.0	3.1	2.0	3.7
Two to five years	10.0	33.8	6.6	25.1
Thereafter	23.1	36.8	18.7	36.5
	39.1	73.7	27.3	65.3

28. Capital commitments

	Group 2005	Group 2004
	£m	£m
Contracted but not provided for	4.1	6.4
Authorised but not contracted or provided for	5.6	—
	9.7	6.4

Of the £9.7m capital commitments entered into at this year end £5.1m relates to yachts and the remainder is in respect of other fixed asset commitments.

The Group has guaranteed the residual value of certain yachts under charter from third party owners, giving them the right to sell the yachts to the Group at a determined price. For certain yachts, Sunsail Limited is required to deposit part of this price into trust accounts over the period of the charter. The maximum cash commitment including these future deposits is as follows:

Year end 31 October	2005	2004
	£m	£m
2005	—	—
2006	—	0.1

The Group has contracted to purchase six Boeing 787 aircraft, the first delivery of which is in 2009. The Group intends to refinance these aircraft in advance of their delivery dates and therefore does not expect to use its own cash resources for their purchase. At list price, the order value is US$818.5m.

29. Contingent liabilities

Under the terms of guarantees given to the Civil Aviation Authority and other relevant authorities by the Company in respect of certain subsidiaries, in the event of default, the Company could be held liable to the extent of the subsidiaries' net trading liabilities at the time of default.

The Company, and its subsidiaries, is at any time defending a number of actions against it arising in the normal course of business. Provision is made for these actions where this is deemed appropriate.

30. Related party transactions

Simón Barceló is a director and shareholder of the Barceló Corporación Empresarial SA (BCE) group of companies. During the last 12 months the Group spent approximately £12.8m (2004: £15.8m) on hotel accommodation with BCE.

At 31 October 2005 the Group owed BCE £1.3m for such accommodation (2004: £1.3m). Viajes Barceló and Barceló Business (also part of BCE) owed the Group commission of £nil at 31 October 2005 (2004: £3.5m) and the group earned total commissions of £3.5m in the year (2004: £20.2m) from these businesses.

Richard Fain is a Director of Royal Caribbean Cruises Ltd. (RCCL). The Group earned commissions of £2.2m (2004: £3.4m) during the year selling RCCL cruises.

During the year the Group traded with its associate Hays Travel Limited, and its joint venture Sunshine Cruises Limited. The main transactions during the year were:

(a) Commissions paid to Hays Travel Limited of £3.0m (2004: £3.0m). The balance outstanding as at 31 October 2005 is £nil (2004: £nil).

(b) The Group has charged Sunshine Cruises Limited for flying, administrative services and marketing contributions net of commissions received on sales totalling £0.4m (2004: £0.9m). There is an outstanding balance of £2.6m (2004: £0.9m) within creditors as at 31 October 2005.

Independent auditors' report to the members of First Choice Holidays PLC

We have audited the accounts of First Choice Holidays PLC. We have also audited the information in the Directors' Remuneration Report that is described as having been audited.

This report is made solely to the Company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

The Directors are responsible for preparing the Annual Report and the Directors' Remuneration Report. As described in the statement of Directors' Responsibilities, this includes responsibility for preparing the accounts in accordance with applicable United Kingdom law and accounting standards. Our responsibilities, as independent auditors, are established in the United Kingdom by statute, the Auditing Practices Board, the Listing Rules of the Financial Services Authority and by our profession's ethical guidance.

We report to you our opinion as to whether the accounts and the part of the Directors' Remuneration Report to be audited give a true and fair view and have been properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the Directors' Report is not consistent with the accounts, if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and transactions with the Group is not disclosed.

We review whether the corporate governance statement reflects the Company's compliance with the nine provisions of the 2003 FRC Code specified for our review by the Listing Rules and we report if it does not. We are not required to consider whether the Board's statements on internal control cover all risks and controls, or form an opinion on the effectiveness of the Group's corporate governance procedures or its risk and control procedures.

We read the other information contained in the Annual Report, including the Corporate Governance Statement and the unaudited part of the Directors' Remuneration Report, and consider whether it is consistent with the audited accounts. We consider the implications for our report if we become aware of any apparent mis-statements or material inconsistencies with the accounts.

Basis of audit opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the accounts and the part of the Directors' Remuneration Report to be audited. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the accounts, and of whether the accounting policies are appropriate to the Group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the accounts, and the part of the Directors' Remuneration Report to be audited, are free from material mis-statement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the accounts and the part of the Directors' Remuneration Report to be audited.

Opinion

In our opinion:

The accounts give a true and fair view of the state of affairs of the Company and the Group as at 31 October 2004 and of the profit of the Group for the year then ended; and

The accounts and the part of the Directors' Remuneration Report to be audited have been properly prepared in accordance with the Companies Act 1985.

1. Accounting policies

Basis of preparation

The following accounting policies have been consistently applied in dealing with items considered material in relation to the accounts.

The Group has adopted during the year the requirements of UITF 38: Accounting for ESOP Trusts. This has the effect of changing the accounting policy in respect of the Employee Benefit Trust. The UITF requires all of the Company's holdings of its own shares, whether held directly or through an ESOP, to be presented as a deduction in arriving at shareholders' funds, rather than as assets within investments.

The historic cost of the shares to the ESOP is no longer used to calculate the charge for the options of which the ESOP held shares are the subject. The basis of the charge is the difference between the market value of the shares at the date of grant and the exercise price payable by the employee. This cost is spread over the employees' performance measurement period.

The comparative balance sheet has been restated as set out in note 3. There was no significant impact on the profit and loss account for the year ended 31 October 2003.

Accounting convention

The accounts have been prepared in accordance with applicable accounting standards and under the historical cost convention as modified by the revaluation of certain fixed assets, and on the going concern basis.

Basis of consolidation

The Group accounts consolidate the accounts of First Choice Holidays PLC and its subsidiary undertakings together with the Group's share of net assets and results of its joint venture and associated undertakings. These accounts are made up to 31 October 2004.

The acquisition method of accounting has been adopted. Under this method, the results of subsidiary undertakings acquired during the year are included in the profit and loss account from the effective date of acquisition.

The Company has taken advantage of the exemption under Section 230 of the Companies Act 1985 from presenting its own profit and loss account.

Associated undertakings and joint ventures

An associated undertaking is one in which the Group has a long-term investment and exercises significant influence over the Company in which the investment is made. The Group's share of the results and net assets of its associated undertakings are included in the consolidated profit and loss account and balance sheet under the equity method of accounting.

A joint venture is an undertaking in which the Group has a long-term interest and over which it exercises joint control. The Group's share of the profits less losses of joint ventures is included in the consolidated profit and loss account and its interest in their net assets, and the Group's related other goodwill, is included in investments in the consolidated balance sheet. The joint venture undertaking has been accounted for using the gross equity method in the Group balance sheet.

Goodwill

Purchased goodwill (representing the excess of the fair value of the consideration and associated costs given over the fair values of the separable net assets acquired) arising on consolidation in respect of acquisitions since 1 November 1998 is capitalised. Positive goodwill is amortised to nil by equal instalments over its estimated useful life, normally 20 years. On the subsequent disposal or termination of a business acquired since 1 November 1998, the profit or loss on disposal or termination is calculated after charging the unamortised amount of any related goodwill.

Goodwill arising on consolidation prior to the adoption, on 1 November 1998, of FRS 10: Goodwill and Intangible Assets, has been charged directly to reserves. The goodwill, which has been taken directly to reserves, will be charged to the profit and loss account on disposal of the related business.

Fair value accounting adjustments are made in respect of acquisitions and these may be made on provisional estimates. Amendments may be made to those adjustments in the subsequent accounting period with a corresponding adjustment to goodwill in the light of post acquisition experience.

Foreign currencies

Transactions in overseas currencies are translated at the exchange rate ruling at the date of the transaction or, where forward cover has been arranged, at the contractual rate. Monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rates ruling at the balance sheet date or at a contractual rate if applicable and any exchange differences arising are taken to the profit and loss account in the season to which the contract relates.

The results of overseas subsidiaries are translated at weighted average exchange rates for the year and exchange differences arising on consolidation of the net investment in overseas subsidiaries are dealt with through reserves.

Financial instruments

The following financial instruments may be utilised by the Group: foreign exchange forward contracts and swaps, foreign exchange options, interest rate swaps, forward rate agreements, interest rate options, energy swaps and energy options. The instruments are used to manage Group exposures to fluctuations in foreign currency exchange rates, interest rates and fuel prices.

Financial instruments are contracted for hedging purposes only. The Group does not trade any financial instruments and does not enter into speculative transactions. Interest rate derivatives are used to manage interest rate risk. Amounts payable and receivable in respect of these derivatives are recognised as adjustments to interest income or payable over the period of the contracts.

Gains and losses on foreign currency hedges are recognised on the maturity of the underlying exposure. Gains or losses arising on hedging instruments, which are cancelled due to the termination of underlying exposure, are taken to the profit and loss account immediately.

Turnover

Turnover represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business. Revenue in respect of in house product is recognised on the date of departure and the related costs of distribution and of providing the holidays and flights are charged to the profit and loss account on the same basis. Travel agency commissions and other revenues received from the sale of third party product, together with related costs, are recognised on receipt of final payment. Turnover excludes intra-group transactions and is stated after deduction of trade discounts and commissions.

Client money received in advance

Client money received at the balance sheet date relating to holidays commencing and flights departing after the year end is included in creditors.

Marketing costs

Brochure and other marketing costs are charged to the profit and loss account in the season to which they relate.

Operating leases

Rentals payable and receivable under operating leases are charged or credited to the profit and loss account on a straight-line basis over the period of the lease or on another systematic basis, if this is more representative of the time pattern of the benefit from the use of the leased asset.

Finance leases and hire purchase contracts

Assets arising under finance leases and hire purchase contracts are capitalised and a corresponding liability recorded in creditors representing the present value of the minimum lease payments. Where an option price exists, the corresponding liability includes the option purchase price as though it were a lease payment and the option exercise date is taken as the most beneficial to the Group. Payments are treated as consisting of capital and interest elements with the interest being charged to the profit and loss account in proportion to the outstanding obligations.

Tangible fixed assets and depreciation

Tangible fixed assets are depreciated on a straight-line basis, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset over its expected useful economic life.

The years used are as follows:

Freehold properties	—	50 years
Short leasehold properties	—	Lease period
Finance lease aircraft and equipment	—	Lease period
Aircraft spares and equipment	—	12 years
Yachts	—	15 years
Motor boats	—	25 years
Retail computer equipment	—	5 years
Computer equipment	—	3–5 years
Retail fixtures and fittings	—	8 years
Other assets	—	4 years

Since adopting FRS 15: Tangible Fixed Assets, newly acquired assets are carried at cost with other assets held at their previously revalued amounts.

Aircraft maintenance costs

Provision is made in respect of maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares based on the total anticipated costs over the useful economic life of the assets calculated by reference to costs experienced and published manufacturers' data. The charge to the profit and loss account is calculated by reference to the number of hours flown or by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised and depreciated over the period until the next scheduled major overhaul.

Deferred taxation

Except as otherwise required by accounting standards, full provision without discounting is made for all timing differences, which have arisen but not reversed at the balance sheet date. Timing differences arise when items of income and expenditure are included in tax computations in periods different from their inclusion in the accounts.

Pensions

The Group operates defined benefit and defined contribution schemes. Pension liabilities are funded by monthly or annual contributions. Under the defined benefit schemes, pension liabilities

are charged to the profit and loss account so as to spread the long-term cost of pensions over the service lives of employees. Variations from regular cost are spread over the average remaining service lives of current employees. Defined contribution scheme pension liabilities are charged to the profit and loss account as they fall due.

FRS 17: Retirement Benefits will require a market rather than actuarial valuation of defined benefit schemes. This will result in a greater volatility of the pension scheme surplus or deficit as the market valuation will be taken at each balance sheet date and be reflective of a particular point in time. At 31 October 2004, the Group has adopted the transitional disclosure requirements of FRS 17.

Geographical analysis of business

Turnover determined by the location of customers is not materially different from turnover determined by location of business. Europe is defined as Continental Europe and Eire, whilst North America refers to Canada and the United States. First Choice is an integrated leisure travel business encompassing tour operating, distribution capacity, airline operations and ground handling services. Accordingly we consider that we operate under one class of business which we have defined as 'Leisure Travel'.

Exceptional items of £0.2m (2003: £16.8m) arise in Europe.

Analysis of continuing and discontinued operations and acquisitions

	Continuing operations 2004	Acquisitions 2004	Total 2004	Continuing operations 2003	Discontinued operations 2003	Total 2003
	£m	£m	£m	£m	£m	£m
Group turnover	**2,289.7**	**59.9**	**2,349.6**	2,206.5	42.6	2,249.1
Cost of sales	**(1,986.6)**	**(50.8)**	**(2,037.4)**	(1,915.0)	(34.2)	(1,949.2)
Gross profit	**303.1**	**9.1**	**312.2**	291.5	8.4	299.9
Administrative expenses excluding goodwill amortisation	**(206.4)**	**(7.2)**	**(213.6)**	(203.3)	(5.9)	(209.2)
Goodwill amortisation	**(22.4)**	**(1.0)**	**(23.4)**	(20.8)	(1.5)	(22.3)
Total administrative expenses	**(228.8)**	**(8.2)**	**(237.0)**	(224.1)	(7.4)	(231.5)
Group operating profit	**74.3**	**0.9**	**75.2**	67.4	1.0	68.4

The goodwill amortisation disclosed under Acquisitions relates to the goodwill arising on consolidation in respect of companies acquired during the year and that disclosed under Discontinued to operations discontinued in the year.

3. Exceptional items, amounts written off fixed asset investments and prior year adjustments

Exceptional costs of £0.2m in the year ended 31 October 2004 relate to the loss on disposal of the Group's interest in the Barceló Retail businesses as described in note 12(c) and the gain on disposal of the Group's minority stake in the Globalia group of companies. Exceptional costs in the year ended 31 October 2003 relate to the write-down of the value of the joint venture option with Barceló Corporación Empresarial SA as described in the Annual Report and Accounts for the year ended 31 October 2003.

During the period, the Group has adopted the requirements of UITF 38: 'Accounting for ESOP Trusts' and so has changed its accounting policy for the Employee Benefit Trust. There was no

significant impact on the profit and loss account for the year ended 31 October 2003. The comparative balance sheet at 31 October 2003 has been restated as shown below.

	31 October 2003
	£m
Investments and net assets	(6.0)
Reserve for own shares	(14.4)
Profit and loss account	8.4
Shareholders' funds	(6.0)

Finance lease charges on leases expiring within two to five years	(1.5)	(2.7)
Interest payable and similar charges	(5.5)	(6.1)
Total	(1.3)	(2.6)

5. Employees

	2004 Total	2003 Total
Staff numbers		
Average number of employees	13,915	13,993

	2004	2003
	£m	£m
Staff costs		
Wages and salaries	237.0	225.8
Social security costs	28.0	28.0
Pension costs	12.4	9.6
	277.4	263.4

Details of the emoluments of directors (including details of share options, long-term incentive scheme interests and pension entitlements) are set out in the Report of the Board to Shareholders on Directors' Remuneration.

Consistent with the disclosure in note 2 'Segmental information' we consider the Group to have one integrated business of 'Leisure Travel'. Accordingly, we have disclosed the average number of employees under this single business.

Pension costs

The Group operates pension schemes for employees eligible and wishing to participate in the schemes. The assets of all the schemes are held separately from the assets of the Group.

Funded defined contribution schemes for employees and Directors (Group schemes)

Pension costs of £7.8m (2003: £7.6m) relating to defined contribution schemes were charged to the profit and loss account.

Funded defined benefit schemes

The Group sponsors three defined benefit schemes, the Air 2000 Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme and the Emerald Star scheme. Actuarial valuations of the three schemes were carried out at 1 November 2003 (Air 2000), 1 November 2003 (Unijet), and 1 July 2002 (Emerald Star). The valuations revealed Minimum Funding Requirement ratios of 79 per cent. and 81 per cent. respectively for the Air 2000 and Unijet schemes, calculated in accordance with the provisions of the Pension Act 1995.

All three defined benefit schemes are closed to new entrants and under the projected unit method, the service cost as a percentage of pensionable payroll will increase as the members of the scheme approach retirement.

Valuations of the schemes are made by qualified actuaries using market based valuations for the assets and attained age method for the liabilities.

Air 2000 scheme

The principal valuation assumptions used were the rates of investment return of 7.25 per cent. per annum compound (pre-retirement) and 5.5 per cent. per annum compound (post-retirement) and a rate of salary increase of 4.75 per cent. per annum compound. From 1 November 2003 the Group has contributed at a rate of 34.2 per cent. of contribution salaries for Flight Deck staff and 30.1 per cent. for Ground and Administrative staff and employees have contributed at rates of 7.0 per cent. (Flight Deck) and 5.0 per cent. (Ground and Administrative). The market value of the scheme's assets at the date of the last actuarial valuation was £18.5m, representing 59 per cent. of the benefits that had accrued to members after allowing for expected future increases in earnings. The total pension charge for the year was £2.3m (2003: £1.5m). The signed Schedule of Contributions dated 14 June 2004 stated that the Group's contributions from 1 June 2004 are 34.2 per cent. for Flight Deck staff and 30.1 per cent. for Group and Administrative staff. In addition, two annual special employer contributions of £1.8m each will be due no later than 19 June 2005 and 2006 respectively.

The next triennial valuation will be due no later than 1 November 2006 and will be reflected in the accounts for the year ending 31 October 2007.

Unijet scheme

The principal valuation assumptions used were the rates of investment return of 7.25 per cent. per annum compound (pre-retirement) and 5.5 per cent. per annum compound (post-retirement) and a rate of salary increase of 4.75 per cent. per annum compound. From 1 November 2003 the Group has contributed at an average rate of 10.7 per cent. of pensionable salaries and employees have contributed at an average rate of 7.0 per cent. The market value of the scheme's assets at the date of the last actuarial valuation was £12.3m, representing 61 per cent. of the benefits that had accrued to members after allowing for expected future increases in earnings. The total pension cost for the year was £1.6m (2003: £0.5m). The signed Schedule of Contributions dated 17 November 2004 stated that the Group's contributions from 1 November 2004 are 16.4 per cent. In addition, three annual special employer contributions of £740,000 will be due no later than 30 November 2005, 2006 and 2007, followed by seven further employer contributions of £450,000 due no later than 30 November 2008 to 2014.

The next triennial valuation will be due no later than 1 November 2006 and will be reflected in the accounts for the year ending 31 October 2007.

Emerald Star scheme

The principal valuation assumptions used were the rates of investment return of 8.0 per cent. per annum compound and a rate of salary increase of 6.0 per cent. per annum compound. From July 2002 the Group has contributed at an average rate of 2.5 per cent. of contributory earnings. Employees do not contribute. The market value of the scheme's assets at the date of the last actuarial valuation was £1.1m. The total pension cost for the year was £14,000.

The next triennial valuation will be made at 1 July 2005.

The transitional arrangements of FRS 17 require additional disclosure of defined benefit pension schemes as at 31 October 2004, 2003 and 2002, calculated in accordance with the requirements of FRS 17. For the purpose of these accounts, these figures are illustrative only and do not impact on the actual balance sheet or the profit and loss account. The assets of each scheme have been taken at market value and the liabilities have been calculated by the qualified actuary using the following principal actuarial assumptions:

	Emerald Star scheme per annum			Air 2000 scheme per annum			Unijet scheme per annum		
	2004	2003	2002	2004	2003	2002	2004	2003	2002
	%	%	%	%	%	%	%	%	%
Inflation	2.50	2.50	2.25	3.00	2.50	2.00	3.00	2.50	2.00
Salary increases	4.50	4.50	4.25	5.00	3.75	3.75	5.00	3.75	3.75
Rate of discount	4.50	5.25	5.50	5.50	5.75	5.30	5.50	5.75	5.30
Pension in payment increases				3.00	3.00	3.00	3.00	2.50	2.00
Revaluation rate for deferred pensioners				3.00	2.50	2.00	3.00	2.50	2.00

On this basis, the illustrative balance sheet figures are as follows:

	Emerald Star scheme			Air 2000 scheme			Unijet scheme			Total		
	2004 £m	2003 £m	2002 £m	2004 £m	2003 £m	2002 £m	2004 £m	2003 £m	2002 £m	2004 £m	2003 £m	2002 £m
Assets	1.4	1.2	1.0	21.2	18.5	15.7	13.8	12.4	10.9	36.4	32.1	27.6
Liabilities	(1.0)	(0.7)	(0.6)	(39.6)	(27.5)	(27.6)	(27.2)	(16.9)	(17.3)	(67.8)	(45.1)	(45.5)
(Deficit)/ surplus	0.4	0.5	0.4	(18.4)	(9.0)	(11.9)	(13.4)	(4.5)	(6.4)	(31.4)	(13.0)	(17.9)
Deferred tax	—	—	—	5.5	2.7	3.6	4.0	1.4	1.9	9.5	4.1	5.5
Net (deficit)/ surplus	0.4	0.5	0.4	(12.9)	(6.3)	(8.3)	(9.4)	(3.1)	(4.5)	(21.9)	(8.9)	(12.4)

Based on the net deficit in the schemes at 31 October 2004 the future full adoption of FRS 17 would result in a decrease in Group reserves.

The above disclosed position is different to that determined for the long term funding of the schemes, as different assumptions have been used.

The assets of the schemes at 31 October 2004, 31 October 2003 and 31 October 2002 and corresponding expected returns over the following year are as follows:

	Emerald Star scheme			Air 2000 scheme			Unijet scheme			Expected returns on all schemes		
	2004	2003	2002	2004	2003	2002	2004	2003	2002	2004	2003	2002
	£m	£m	£m	£m	£m	£m	£m	£m	£m	%	%	%
Equities	1.0	0.9	0.7	13.7	12.1	12.3	9.0	8.2	8.7	8.44	8.70	7.50
Bonds	0.2	0.2	0.2	7.4	6.2	2.1	4.7	4.1	1.4	5.48	5.50	5.00
Property	—	—	—	—	—	0.8	—	—	0.6	—	—	7.50
Cash and other short term assets	0.2	0.1	0.1	0.1	0.2	0.5	0.1	0.1	0.2	5.00	4.70	4.50
	1.4	1.2	1.0	21.2	18.5	15.7	13.8	12.4	10.9			

The fair value of the schemes' assets are not intended to be realised in the short term and may be subject to significant change before they are realised.

The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions, which, due to the timescale covered, may not necessarily be borne out in practice. The present value of the schemes' liabilities are derived from cash flow projections over long periods and are inherently uncertain.

The transitional arrangements of FRS 17 also require disclosure of the defined benefit pension related costs and movements which would have been included in the profit and loss account and the statement of total consolidated recognised gains and losses had full adoption of FRS 17 been made in the year ended 31 October 2004.

Analysis of the amount that would have been charged to operating profit:

Share options

The Company has established three principal share option schemes: an executive, a senior executive performance related and a savings related share option scheme as well as an alternative long-term incentive scheme known as the Restricted Share Plan, all of which are as described in paragraph 6 of Part XI of this document.

Options granted and outstanding as well as shares awarded and outstanding in respect of unissued ordinary shares, are as follows:

	No. of shares	Option exercise price (p)	Date first exercisable
Executive share option scheme	21,756	95.00	21 July 1998
Senior executive plan	3,200,914	109.50	30 October 2007
	2,893,983	109.50	9 December 2008
Savings related share option scheme	1,692,201	97.60	1 October 2005
Restricted share plan	361,255	N/A	5 October 2001
	12,082	N/A	12 October 2001
	14,770	N/A	15 December 2001
	101,136	N/A	16 September 2002
	564,973	N/A	14 December 2002
	407,478	N/A	14 December 2002
	7,740	N/A	6 January 2003
	27,805	N/A	22 March 2003
	7,430	N/A	13 April 2003
	6,105	N/A	15 August 2003
	140,002	N/A	11 December 2003
	113,860	N/A	11 December 2004
	143,616	N/A	5 April 2004
	2,532,066	N/A	11 December 2004
	31,377	N/A	12 April 2005
	3,339,677	N/A	30 October 2005
	430,978	N/A	12 December 2005
	223,901	N/A	31 December 2005
	16,326	N/A	29 January 2006
	92,538	N/A	14 April 2006
	3,092,711	N/A	9 December 2006
	154,333	N/A	23 December 2006
	327,381	N/A	1 April 2007
	14,212	N/A	28 April 2007
	87,976	N/A	27 July 2007
	419,548	N/A	13 October 2007

As at 31 October 2004 there were 9,926,310 ordinary shares held by the First Choice Employee Benefit Trust. The Trust is funded by the Group by way of loans. The Group has taken advantage of the exemption within Urgent Issues Task Force (UITF) 17: Employee Share Schemes, in respect of its savings related share option scheme. The cost of share options granted under this scheme are therefore not charged to the profit and loss account.

6. Profit on ordinary activities before taxation

	2004	2003
	£m	£m
Profit on ordinary activities before taxation is stated after charging/ (crediting):		
Operating lease income, aircraft	**(4.9)**	(4.3)
Operating lease rentals, land and buildings	**39.3**	37.9
Operating lease rentals, aircraft and other equipment	**85.1**	105.4
Auditors' remuneration, audit fees	**0.9**	0.9
Other fees paid to the auditors and their associates	**0.6**	0.4
Depreciation	**35.8**	35.3
Amortisation of EBT shares	**3.0**	2.6
Loss / (gain) on sale of fixed assets	**0.4**	(0.5)
Goodwill amortisation, subsidiaries	**23.3**	22.3
Goodwill amortisation, associates	**0.1**	—
Goodwill amortisation joint venture	**0.2**	0.2

The Company's audit fee is borne by a subsidiary company and amounted to £10,000 (2003: £10,000). Non-audit fees of £0.1m (2003: £0.2m) relating to due diligence on acquisitions and related share issue costs have been included within the cost of investments and the calculation of goodwill arising on consolidation. Non-audit fees charged to the profit and loss account of £0.6m (2003: £0.4m) principally relate to taxation advisory services and advice relating to the disposal of the Barceló retail businesses.

7. Taxation

The tax charge in the 31 October 2004 Group accounts can be summarised as follows:

	2004	2003
	£m	£m
Tax on profit on ordinary activities:		
(i) Analysis of charge in year		
Current tax:		
UK corporation tax on profits of the year	17.7	25.8
Non-UK tax on profits of the year	9.4	6.8
Adjustments in respect of previous periods	(0.1)	1.7
Total current tax before share of joint venture and associate	27.0	34.3
—Share of current tax of joint venture	(0.3)	(0.7)
—Adjustments in respect of previous periods relating to joint venture	—	(0.8)
—Share of associates' current tax	0.2	0.2
Total current tax after share of joint venture and associate	26.9	33.0
Deferred tax:		
Origination and reversal of timing differences:		
—Current year UK	(0.9)	(9.1)
—Current year non-UK	2.0	(7.5)
—Adjustments in respect of previous periods	0.1	(0.8)
Total deferred tax before share of joint venture	1.2	(17.4)
—Share of deferred tax of joint venture	0.3	—
Total deferred tax after share of joint venture	1.5	(17.4)
Tax on profit on ordinary activities	28.4	15.6

(ii) Factors affecting the current tax charge for the year

The current tax charge for the year is higher (2003: higher) than the standard rate of corporation tax in the UK 30 per cent. (2003: 30 per cent.). The differences are explained below:

	2004	2003
	£m	£m
Profit on ordinary activities before tax	74.5	47.8
Profit on ordinary activities at the standard rate of UK corporation tax of 30 per cent. (2003: 30 per cent.)	22.4	14.3
Effects of:		
—Expenses not deductible for tax purposes	5.3	4.3
—Depreciation for year in excess of capital allowances	0.9	9.1
—Utilisation of tax losses	(3.6)	(2.0)
—Non-utilisation of tax losses	0.9	9.0
—Higher tax rates on overseas earnings	1.8	(0.8)
—Lower tax rates on overseas earnings	(1.2)	(1.8)
—Adjustments to tax charge in respect of previous periods	(0.1)	0.9
—Other short term timing differences	0.5	—
Current tax charge for year	26.9	33.0

The effective rate of taxation of 29 per cent. (pre goodwill amortisation and exceptional items) is expected to prevail for the foreseeable future.

8. Dividends

	2004	2003
	£m	£m
Ordinary shares		
Interim—1.75p per share (2003: 1.6p) paid 1 November 2004	**9.0**	8.2
Final proposed—3.75p per share (2003: 3.4p) payable 6 April 2005	**19.4**	17.5
Total ordinary dividend—5.5p per share (2003: 5.0p)	**28.4**	25.7
Preference shares		
6.75 per cent. convertible cumulative redeemable	**13.5**	13.5
Amortisation of preference share issue costs	**0.2**	0.2
	13.7	13.7

The final ordinary dividend of 3.75p is payable to all ordinary shareholders on the register on 4 March 2005.

Amounts paid relating to preference share dividends during the year comprise £12.4m in respect of the 2004 dividend and £1.1m accrued for the 2003 dividend as at 31 October 2003. £1.1m has also been accrued as at 31 October 2004 representing the final amount payable in respect of the 2004 preference share dividend (see note 17).

9. Earnings per ordinary share

The basic earnings per ordinary share is calculated by dividing the profit attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the year, excluding those held in the employee share ownership trusts. The diluted earnings per share is calculated on profits attributable to ordinary shareholders divided by the adjusted weighted average number of ordinary shares, which takes account of the conversion of the convertible preference shares and outstanding share options, where their conversion is dilutive.

The additional earnings per share measures have been given to provide the reader of the accounts with a better understanding of the results.

	Earnings 2004	Weighted average no. of shares 2004	Earnings per share 2004	Earnings 2003	Weighted average no. of shares 2003	Earnings per share 2003
	£m	millions	pence	£m	millions	pence
(i) Basic earnings per share	**32.1**	**516.6**	**6.2**	18.4	511.7	3.6
Goodwill amortisation	**23.6**	—	**4.6**	22.5	—	4.4
Basic earnings per share before goodwill amortisation	**55.7**	**516.6**	**10.8**	40.9	511.7	8.0
Exceptional items (net of tax)	**0.2**	—	—	7.1	—	1.4
Basic earnings per share before goodwill amortisation and exceptional items	**55.9**	**516.6**	**10.8**	48.0	511.7	9.4
(ii) Diluted earnings per share						
Basic earnings per share	**32.1**	**516.6**	**6.2**	18.4	511.7	3.6
Effect of dilutive securities						
Options	—	**4.3**	—	—	10.9	(0.1)
Diluted earnings per share	**32.1**	**520.9**	**6.2**	18.4	522.6	3.5
Goodwill amortisation	**23.6**	—	**4.5**	22.5	—	4.3
Diluted earnings per share before goodwill amortisation	**55.7**	**520.9**	**10.7**	40.9	522.6	7.8
Exceptional items (net of tax)	**0.2**	—	—	7.1	—	1.4
Diluted earnings per share before goodwill amortisation and exceptional items	**55.9**	**520.9**	**10.7**	48.0	522.6	9.2

In accordance with FRS 14: Earnings per Share, the calculation of diluted earnings per share has not taken into account the impact of the 6.75p Convertible preference shares, as this is anti-dilutive.

10. Intangible fixed assets

	Group
	£m
Cost	
At 1 November 2003	447.5
Additions (note 12a)	43.3
Disposals	(27.8)
Revisions to fair value adjustments and acquisition costs on prior year acquisitions (note 12b)	0.1
Revision to consideration on prior year acquisitions (note 12b)	(0.6)
Exchange adjustments	(0.4)
At 31 October 2004	**462.1**
Provision for amortisation	
At 1 November 2003	65.7
Charge in the year	23.4

At 31 October 2003	74.7	115.7	45.0	37.9	20.2	293.5

Other fixed assets with a combined net book value as at 31 October 2004 of £17.3m (2003: £20.2m) comprise £16.5m (2003: £19.8m) of fixtures and fittings, £0.6m (2003: £0.1m) of motor vehicles and £0.2m (2003: £0.3m) of ski equipment.

Fixed asset additions of £51.3m include £0.9m of fixed assets acquired on the acquisition of subsidiary companies during the year.

Land and buildings comprise freehold and short leasehold properties with net book values of £19.4m (2003: £20.6m) and £54.4m (2003: £54.1m) respectively. A number of the Group's freehold properties are included at valuations, which were adopted prior to the introduction of FRS 15:

(i) A freehold property in Manchester was revalued at £1.2m by Savills, Chartered Surveyors, on the basis of an open market valuation at 31 October 1997 in accordance with the Practice Statements of the Royal Institution of Chartered Surveyors.

(ii) Freehold hotel properties located in France were revalued as at 31 October 1996 at French Francs 16,000,000 (£1.9m) by Lecart HDS Expertises, on the basis of an open market valuation.

The net book values of assets held at valuation along with corresponding historical cost amounts are set out below. All valuations were carried out on an open market basis.

	Land and buildings	Aircraft and equipment
	£m	£m
Net book value at valuation		
As at 31 October 2004	**2.7**	**3.7**
Historical cost		
At 1 November 2003	2.1	2.6
Additions	—	1.9
At 31 October 2004	**2.1**	**4.5**

At 31 October 2004	**0.5**	**1.9**
Net book value at cost		
At 31 October 2004	**1.6**	**2.6**

Properties revalued as part of acquisitions have not been included in the above figures as they represent the cost to the Group. The net book value of assets held under finance leases and hire purchase contracts at 31 October 2004 was £37.6m (2003: £44.6m). The depreciation charged in the year for these assets was £2.8m (2003: £3.4m).

StudentCity.com, Inc.	USA	Tour operator

All of the subsidiaries have only ordinary share capital except for Signature Vacations Inc., which also has convertible, redeemable preference shares all of which are owned by the Group. Subsidiaries marked with an * are directly held by First Choice Holidays PLC. A full list of subsidiaries will be included in the Company's annual return. All the principal operating subsidiaries were wholly owned and were consolidated at 31 October 2004.

StudentCity.com, Inc. has an accounting reference date of 30 June. It is the Group's intention to change this to 31 October as soon as practicable.

Acquisitions

(a) Acquisitions in the year ended 31 October 2004

Acquisitions were made in the year for a total of £41.8m, including £0.9m of acquisition expenses. These acquisitions gave rise to goodwill of £43.3m. The acquired businesses and their acquisition date were:

Sector and entity	Country of operation	Acquisition date	Consideration
			£m
Activity Holidays			
Adventure Center	United States	November 2003	0.5
Trips Worldwide Limited	United Kingdom	December 2003	0.6
The Adventure company	United Kingdom	March 2004	3.1
Caradonna Caribbean Tours, Inc.	United States	March 2004	3.1
Let's Trek Australia	Australia	July 2004	0.1
Specialist Holidays			
Grantur	Portugal	July 2004	3.4
Online Destination Services			
Value Added Vacations, Inc.	United States	February 2004	3.3
Trina Tours Group	United Kingdom	May 2004	6.7
Triaena Destination Management, SL	Greece	July 2004	0.4
Medetours KK	Japan	July 2004	—
StudentCity.com, Inc.	United States	July 2004	19.7
			40.9

Net assets/(liabilities) acquired

	Notes	Book value prior to acquisition	Fair value adjustments	Fair value of net assets/ (liabilities) acquired
		£m	£m	£m
Intangible fixed assets	1	0.4	(0.4)	—
Tangible fixed assets		0.9	—	0.9
Current assets (excluding cash)	2	5.1	0.1	5.2
Cash		2.6	—	2.6
Creditors due within one year	3	(10.0)	(0.2)	(10.2)
Total net liabilities acquired		**(1.0)**	**(0.5)**	**(1.5)**
Consideration				40.9
Acquisition costs				0.9
Total investment cost				41.8
Net liabilities acquired (as above)				1.5
Goodwill arising				**43.3**

Notes:

1. Elimination of goodwill existing in balance sheets at acquisition.
2. Recognition of deferred tax on fair value adjustments.
3. Recognition of liability for settlement of a claim against the business.

The consideration payable is made up by:

	£m
Cash	28.3
Deferred consideration	0.6
Contingent consideration	12.0
Total consideration	**40.9**

The contingent consideration payable is in respect of the acquisitions of the Trina Tours group of companies, Grantur and StudentCity.com. It is dependent on the results of the businesses over the following periods, and the Directors believe the amounts provided reflect the most likely outcome in each case:

Acquisition	Period for calculation of contingent consideration	Maximum contingent consideration	Consideration provided for in these accounts
Trina Tours group	Year ended 30/9/04 to year ended 30/9/06	£1.9m	£1.9m
Grantur	Year ended 30/10/04 to year ended 30/10/07	€3.0m	€3.0m
StudentCity.com, Inc.	Year ended 30/6/05 to year ended 30/6/09	US$22.5m	US$14.8m

The net cash outflow from the acquisitions made in the year is as follows:

	£m
Cash consideration including costs	29.2
Cash acquired	(2.6)
Net cash outflow	**26.6**

The goodwill of £43.3m arising on the acquisitions has been capitalised on the balance sheet and will be amortised over 20 years, its estimated useful economic life. All acquisitions have been accounted for using the acquisition method. It should be noted that certain fair value adjustments have necessarily been prepared on a provisional basis. Subsequent experience may result in the requirement to revise fair values in the subsequent accounting period.

In addition, deferred and contingent consideration of £4.3m, relating to prior year acquisitions was paid during the year, resulting in a total net cash outflow for the year in respect of acquisitions of £30.9m (2003: £9.0m)

(b) Adjustments to estimates relating to acquisitions in previous years

Adjustments to contingent consideration and fair value estimates relating to acquisitions in previous years have resulted in a reduction in the value of goodwill of £0.5m.

(c) Disposal of the Barceló Retail businesses

During the period the Group disposed of its interests in its Spanish leisure retail and international business travel operations (Barceló Retail) by means of a controlled auction, which resulted in Barceló Corporación Empresarial SA exercising its pre-emption right under a Relationship Agreement dated 16 June 2000 to acquire Barceló Retail on terms which had been independently negotiated with a third party. After adjustments, the consideration for the disposal was €36.1m (£24.9m) of which €3.5m (£2.4m) is deferred. After deducting related costs, and associated goodwill of £24.4m, and including the gain on the disposal of the Globalia stake, the net loss on disposal was £0.2m.

The cash inflow arising on the disposal of Barceló Retail was £20.8m.

13. Investments in associate and joint venture

	Group share of net assets of joint venture	Group share of net assets of associate	Group total	Company

At 31 October 2004	**31.7**	**2.1**	**33.8**	
At 31 October 2003	31.5	2.0	33.5	

Name of company	Proportion held	Nature of business	Country of registration/ incorporation	Investment held by
Hays Travel Limited	37.75%	Travel agent	England & Wales	First Choice Holidays PLC
Sunshine Cruises Limited	50.00%	Cruise operator	England & Wales	First Choice Holidays PLC

All proportions held are in ordinary shares.

Sunshine Cruises Limited (trading as Island Cruises) was set up as a joint venture with Royal Caribbean Cruises Ltd. (RCCL) in July 2000. The share of profits recognised in respect of the joint venture represents the Group's share of the profit generated in the year.

There is a put option on the Group to acquire the remaining shareholding of the Group's associate, Hays Travel Limited. The value of this is dependent on the future profitability of Hays Travel Limited.

14. Debtors

	Group 2004	Group 2003	Company 2004	Company 2003
	£m	£m	£m	£m
Trade debtors	**93.6**	83.5	—	—
Amounts due from subsidiaries	—	—	**300.5**	318.5
Amounts due from joint venture undertaking	**0.9**	0.7	—	—
Other debtors	**104.1**	124.1	**5.6**	3.6

Group obligations under finance leases and hire purchase contracts in respect of aircraft, yachts and equipment payable within:		
One year	6.2	5.7
Two to five years	19.3	27.0
	25.5	32.7

Security given in respect of finance leases and hire purchase contracts consists of fixed charges over the respective assets.

Bank loans and overdrafts are repayable within:

	Group 2004	Group 2003	Company 2004	Company 2003
	£m	£m	£m	£m
One year	7.4	29.9	0.1	—
Two to five years	36.3	28.1	—	—
After five years	2.4	12.8	—	—
			—	—
	46.1	70.8	0.1	—

Included within amounts payable within one year are bank overdrafts of £0.1m (2003: £21.0m) that are repayable on demand at rates noted in note 22(a).

The Group has bank loans of £46.0m (UK £45.6m, Europe £0.4m), (2003: £49.8m (UK £49.2m, Europe £0.6m)), which are repayable in regular instalments on rates of interest as detailed in note 22(a). In the UK and Europe the loans are secured on the underlying assets of the company in whose name the borrowings are made.

19. Provisions for liabilities and charges

	Aircraft maintenance	Deferred Taxation	Pensions	Other	Total
	£m	£m	£m	£m	£m
At 1 November 2003	41.1	16.2	—	2.3	59.6

The net deferred tax provision at 31 October 2004 is as follows:

	2004	2003
	£m	£m
Accelerated capital allowances	15.0	16.4
Other short-term timing differences	(0.1)	(0.7)
Tax losses carried forward	(5.5)	(7.5)
	9.4	8.2

	2004	2003
	£m	£m
Net provision at the end of the year		
Included within:		
—Debtors (see note 14)	(5.6)	(8.0)
—Provisions for liabilities and charges (see above)	15.0	16.2
	9.4	8.2

There are no unprovided deferred taxation liabilities at either 31 October 2004 or 31 October 2003.

There are an unrecognised deferred tax asset at 31 October 2004 in respect of losses carried forward of £29.0m (2003: £30.0m), capital losses carried forward of £4.5m (2003: £4.5m) and surplus ACT of £nil (2003: £0.1m). These assets have not been recognised because the Directors are not certain that any benefits will arise in the foreseeable future.

20. Share capital

	2004	2003
	£m	£m
Authorised		
800,000,000 (2003: 800,000,000) ordinary shares of 3p each	**24.0**	24.0
199,500,000 (2003: 199,500,000) 6.75 per cent. convertible cumulative redeemable preference shares of £1 each	**199.5**	199.5
	223.5	223.5
Allotted, called up and fully paid		
527,839,299 (2003: 526,669,654) ordinary shares	**15.8**	15.8
199,500,000 (2003: 199,500,000) 6.75 per cent. convertible cumulative redeemable preference shares of £1 each	**199.5**	199.5
	215.3	215.3

The Company issued 1,169,645 new ordinary shares in the year, with none of these shares being in respect of acquisitions.

The new ordinary shares were issued in respect of the following:

	No. of shares
Restricted Share Plan	60,723
Senior Executive Plan	191,263
Savings Related Share Option Scheme	917,659
	1,169,645

The share premium arising on the above issues was £1.1m.

The convertible cumulative redeemable preference shares of £1 each can be converted by the holder into fully paid ordinary shares on the basis of 52.6316 ordinary shares for every £100 in nominal amount of convertible preference shares. This can be done at any time up to 10 July 2010.

The convertible cumulative redeemable preference shares of £1 each may be redeemed by the Company:

(i) where the aggregate nominal amount of shares remaining in issue shall be less than 10 per cent. of the aggregate nominal amount of shares at any time issued as convertible preference shares;

(ii) on or at any time after the fifth anniversary of the date of first issue;

(iii) within 14 days of the occurrence of a relevant event.

Special conversion rights will apply in certain circumstances in the event that a successful offer is made for the whole ordinary share capital of the Company. The convertible preference shares rank ahead of the ordinary shares on a winding up or other return of capital in respect of £1 per share and any arrears of dividend. The convertible preference shareholders are entitled to vote at any general meeting of the Company. The Company will, subject to statutory provisions, be obliged on 10 July 2010 to redeem at £1 per share any of the convertible preference shares then in issue.

22. Financial instruments

To reduce risks arising from movements in foreign exchange and interest rates, the Group has entered into forward foreign exchange contracts and single currency interest rate swaps/forward rate agreements and accounts for such transactions as hedges. The gross value of financial assets and liabilities is stated after the effect of these hedged transactions.

The Group's policy with regard to such financial instruments is detailed within the accounting policies in note 1. Short-term debtors and creditors have been omitted from the disclosures other than the currency risk.

(a) Financial assets and liabilities

At 31 October 2004 the Group's financial assets and liabilities profile, after taking account of interest rate and currency hedging arrangements in place, was as follows:

	2004			2005		
	Floating rate	Non-interest bearing	Total	Floating rate	Non-interest bearing	Total
	£m	£m	£m	£m	£m	£m
Financial assets						
Sterling	**162.8**	**11.0**	**173.8**	154.9	—	154.9
Canadian Dollars	**28.7**	**—**	**28.7**	14.2	—	14.2
Euro	**65.6**	**1.3**	**66.9**	63.6	9.1	72.7
US Dollars	**15.1**	**—**	**15.1**	14.9	—	14.9
Other	**8.6**	**—**	**8.6**	5.0	—	5.0
Total	**280.8**	**12.3**	**293.1**	252.6	9.1	261.7

Floating rate financial assets comprise cash, and current asset investments, which attract interest rates of between 1 per cent. and 4 per cent. and are all due to mature within one year. Non-interest bearing assets represent trade investments, which have no maturity period, and cash at bank.

	2004				2003			
	Fixed rate	Floating rate	Non-interest bearing	Total	Fixed rate	Floating rate	Non-interest bearing	Total
	£m	£m	£m	£m	£m	£m	£m	£m
Financial liabilities								
Sterling	**236.5**	**27.0**	**2.0**	**265.5**	254.2	37.4	—	291.6
Canadian Dollars	**—**	**—**	**2.1**	**2.1**	—	—	2.2	2.2
Euro	**7.0**	**0.6**	**2.1**	**9.7**	9.8	1.4	—	11.2
US Dollars	**—**	**—**	**8.6**	**8.6**	—	0.2	—	0.2
Total	**243.5**	**27.6**	**14.8**	**285.9**	264.0	39.0	2.2	305.2

Fixed rate financial liabilities comprise the 6.75 per cent. convertible preference shares of £199.5m with the balance comprising bank borrowings and obligations under finance leases. The weighted average fixed rate of Sterling borrowings is 6.3 per cent. (2003: 6.4 per cent.) and the average date to maturity is 3.3 years. The weighted average fixed rate of Euro borrowings is 6.1 per cent. and the average date to maturity is 3.7 years.

Floating rate financial liabilities comprise loans and obligations under finance leases, at the following interest rates:

Sterling: LIBOR plus a margin between 1.0 per cent. and 1.65 per cent.

Euro: EURIBOR plus a margin of 1.7 per cent. or RIBOR plus a margin between 0.25 per cent. and 0.87 per cent.

Non-interest bearing financial liabilities comprise deferred consideration for acquisitions.

(b) Maturity profile of financial liabilities

	2004	2003
	£m	£m
Within one year	**19.9**	35.6
In more than one year but less than five years	**64.1**	57.3
More than five years	**201.9**	212.3
	285.9	305.2

(c) Fair value of derivative financial instruments

	2004		2003	
	Book value	Fair value	Book value	Fair value
	£m	£m	£m	£m
Fair values				
Financial instruments				
Financial assets	**293.1**	**293.1**	261.7	261.7
Financial liabilities	**285.9**	**285.9**	305.2	305.2
Derivative financial instruments				
Interest rate swaps and forward rate agreements	—	**(0.8)**	—	(2.0)
Foreign currency transactions	—	**(29.0)**	0.1	(23.2)
Fuel derivatives	—	**32.9**	—	3.5
	—	**3.1**	0.1	(21.7)
Difference between book and fair value		**3.1**		(21.8)

Fair value is the difference between market value in which the instruments are traded at the balance sheet date and the future contracted commitment.

(d) Unrecognised gains and losses relating to hedges of future exposures

	2004			2003		
	Gains	Losses	Net	Gains	Losses	Net
	£m	£m	£m	£m	£m	£m
Unrecognised gains and losses						
Total unrecognised gains/(losses) at 1 November 2003	**19.0**	**(40.8)**	**(21.8)**	9.3	(30.3)	(21.0)
(Gains)/losses recognised in the year relating to prior years	**(17.8)**	**32.8**	**15.0**	(7.4)	25.0	17.6
Gains/(losses) not recognised in the year relating to prior years	**1.2**	**(8.0)**	**(6.8)**	1.9	(5.3)	(3.4)
Gains/(losses) not recognised in the year relating to the current year	**42.0**	**(32.1)**	**9.9**	17.1	(35.5)	(18.4)
Total unrecognised gains/(losses) at 31 October 2004	**43.2**	**(40.1)**	**3.1**	19.0	(40.8)	(21.8)
Of which:						
Due to be recognised within one year	**42.0**	**(34.7)**	**7.3**	17.8	(32.8)	(15.0)
Due to be recognised after one year	**1.2**	**(5.4)**	**(4.2)**	1.2	(8.0)	(6.8)
	43.2	**(40.1)**	**3.1**	19.0	(40.8)	(21.8)

Gains and losses on foreign exchange instruments used for hedging purposes are not recognised until the maturity of the underlying exposure.

(e) Currency exposures

The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars. The table below shows the Group companies' net monetary assets and liabilities held in

currencies other than their principal currency, after having taken into account the effect of forward contracts or other derivative instruments used to match foreign currency exposure.

	Euro	US Dollars	Can Dollars	Thai Bhats	Aus Dollars	Other	2004 Total	2003 Total
	£m	£m	£m	£m	£m	£m	£m	£m
Functional currency								
Sterling	6.0	6.3	0.9	1.5	3.1	1.6	19.4	(10.8)
Canadian Dollars	—	1.4	—	—	—	—	1.4	10.6
Euro	(0.2)	2.9	(0.1)	—	0.1	(0.8)	1.9	0.6
US Dollars	0.2	—	—	—	—	—	0.2	—
Total	6.0	10.6	0.8	1.5	3.2	0.8	22.9	0.4

(f) Undrawn committed borrowing facilities

As at 31 October 2004 the Group had available an undrawn committed borrowing facility of £109.7m comprising letters of credit, guarantee and a revolving, floating rate credit facility for cash borrowings which expires on 31 March 2008.

The conditions precedent to the availability of this facility are also satisfied at the balance sheet date.

In addition, as at 31 October 2004, the Group also had available an undrawn committed asset financing facility of £2.9m. The commitment period for new drawdowns expires on 15 February 2005.

23. Reconciliation of operating profit to net cash inflow from operating activities

	2004	2003
	£m	£m
Group operating profit (after goodwill amortisation and exceptional items)	75.2	68.4
Depreciation	35.8	35.3
Charge for EBT shares	3.0	2.6

Deposits at bank maturing within one month	177.7	20.0	—	—	—	157.7
Current asset investments	38.6	19.2	—	—	—	19.4
Bank loans	(46.0)	4.0	(0.2)	—	—	(49.8)
Finance leases and hire purchase contracts	(25.5)	7.3	(0.1)	(0.2)	0.2	(32.7)
Net funds	220.7	71.5	0.1	(0.2)	0.2	149.1

25. Reconciliation of net cash flow to movement in net funds

	2004	2003
	£m	£m
Increase/(decrease) in cash in the year	21.0	(18.6)
Cash outflow from increase in deposits at bank	20.0	33.1
Cash outflow from increase in current asset investment	19.2	2.5
Cash outflow from decrease in debt and lease financing	11.3	5.8
Changes in net funds resulting from cash flows	71.5	22.8
Changes in net funds arising on acquisition and disposal	—	—
Changes in net funds from non-cash movements	0.1	(3.1)
Increase in net funds in the year	71.6	19.7
Net funds at 1 November 2003	149.1	129.4
Net funds at 31 October 2004	220.7	149.1

26. Acquisitions' contributions to Group cash flows

	Continuing operations	Acquisitions	Total
	£m	£m	£m
Net cash inflow from operating activities	168.0	4.4	172.4
Dividends received from associate	0.3	—	0.3
Returns on investment and servicing of finance	(15.2)	0.1	(15.1)
Net tax paid	(21.2)	(0.1)	(21.3)
Capital expenditure and financial investment	(29.7)	(0.2)	(29.9)
Acquisitions and disposals	(10.1)	—	(10.1)
Equity dividends paid	(25.9)	—	(25.9)
Management of liquid resources	(39.2)	—	(39.2)
Financing	(10.2)	—	(10.2)
Increase in cash in the year	16.8	4.2	21.0

The Acquisitions column reflects cashflows arising from post acquisition trading.

27. Operating lease commitments

	Land and buildings 2004	Aircraft, yachts and equipment 2004	Land and buildings 2003	Aircraft, yachts and equipment 2003
	£m	£m	£m	£m
Annual commitment under non-cancellable operating leases expiring within:				
One year	2.0	3.7	5.0	9.8
Two to five years	6.6	25.1	8.9	50.7
Thereafter	18.7	36.5	20.3	26.5
	27.3	65.3	34.2	87.0

28. Capital commitments

	Group 2004	Group 2003
	£m	£m
Contracted but not provided for in these accounts	6.4	2.2

Of the £6.4m capital commitments entered into at this year end £5.2m relates to yachts and the remainder is in respect of other fixed asset commitments.

The Group has guaranteed the residual value of certain yachts under charter from third party owners, giving them the right to sell the yachts to the Group at a determined price. For certain yachts, Sunsail Limited is required to deposit part of this price into trust accounts over the period of the charter. The maximum cash commitment including these future deposits is as follows:

Year end 31 October	2004	2003
	£m	£m
2004	—	0.8
2005	0.1	0.1

29. Contingent liabilities

Under the terms of guarantees given to the Civil Aviation Authority and other relevant authorities by the Company in respect of certain subsidiaries, in the event of default, the Company could be held liable to the extent of the subsidiaries' net trading liabilities at the time of default.

The Company, and its subsidiaries, is at any time defending a number of actions against it arising in the normal course of business. Provision is made for these actions where this is deemed appropriate.

30. Related party transactions

Simón Barceló is a director and shareholder of the Barceló Corporación Empresarial SA (BCE) group of companies. During the last 12 months the Group spent approximately £15.8m (2003: £26.5m) on hotel accommodation with BCE.

At 31 October 2004 the Group owed BCE £1.3m for such accommodation (2003: £1.0m). Viajes Barceló and Barceló Business (also part of BCE) owed the Group commission of £3.5m at 31 October 2004 and the group earned total commissions of £20.2m in the year from these businesses.

As described in note 12(c) the Group disposed of its interests in the Spanish and international leisure and business travel retail business to BCE during the year.

Richard Fain is a Director of Royal Caribbean Cruises Ltd. (RCCL). The Group earned commissions of £3.4 m (2003: £2.5m) during the year selling RCCL cruises.

During the year the Group traded with its associate Hays Travel Limited, and its joint venture Sunshine Cruises Limited. The main transactions during the year were:

(a) Commissions paid to Hays Travel Limited of £3.0m (2003: £2.5m). The balance outstanding as at 31 October 2004 is £nil (2003: £0.2m).

(b) The Group has charged Sunshine Cruises Limited for flying, administrative services and marketing contributions net of commissions received on sales totalling £0.9m (2003: £5.8m). There is an outstanding balance of £0.9m (2003: £0.7m) within debtors as at 31 October 2004.

Notes (unaudited)

1. Basis of preparation

This interim financial information and comparative figures for the financial year ended 31 October 2006 have been prepared and presented under Adopted IFRSs in a form consistent with that which is expected to be adopted by TUI Travel PLC in its next published financial statements, having regard to accounting standards and policies and legislation applicable to such financial statements. The policies differ from the policies applied in the consolidated financial statements of First Choice Holidays PLC for the year ended 31 October 2006.

The comparative figures for the financial year ended 31 October 2006 are not the Company's statutory accounts for that financial year. Those accounts have been reported on by the Company's auditors and delivered to the registrar of companies. The report of the auditors was (i) unqualified, (ii) did not include a reference to any matters to which the auditors drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 237(2) or (3) of the Companies Act 1985.

2. Segmental information

The Sector analysis is based on the Group's management and reporting structure.

	Period ended 30 April 2007						
	Mainstream Holidays	Specialist Holidays	Activity Holidays	Online Destination Services	Eliminations/ Corporate	Joint venture	Total Group

Comparative segmental information has been restated to reflect the transfer of management of Trips Worldwide, Magic of the Orient, Aventuria and Your Man Tours business from the Activity Holidays Sector to the Specialist Holidays Sector. Comparative information has also been restated to reflect corporate costs separately.

Online Destination Services revenue and cost of sales for the six month period to 30 April 2006 have both been reduced by £56.1m in order to be presented on a consistent basis with the other periods reported.

3. Separately disclosed items

As previously announced, due to the UK government raising Air Passenger Duty (APD) in December 2006, we have been unable to recover the one-off cost of the retrospective tax for bookings made pre 6 December 2006. In addition, we have incurred some further costs in closing under performing business units in the first half in Germany and Belgium and downsizing and restructuring particularly through outsourcing back office operations in the Mainstream Holidays Sector. We also incurred advisor fees and other related costs in connection with the potential sale of the Mainstream Sector which was terminated on 12 February 2007. Accordingly, the Group has incurred separately disclosed items of £12.9m (2006: £nil).

4. Net financing expenses

	6 months 30 April 2007	6 months 30 April 2006	Year 31 October 2006
	£m	£m	£m
Interest income	4.0	2.0	5.0
Interest on pension scheme assets	2.3	1.8	3.9
Financial income	6.3	3.8	8.9
Bank interest payable on loans and overdrafts	(19.2)	(10.5)	(21.5)
Interest on pension scheme liabilities	(2.4)	(2.2)	(4.5)
Finance lease charges	(0.7)	(0.6)	(1.1)
Interest on discounted liabilities	(1.7)	(1.8)	(3.6)
Financial expenses	(24.0)	(15.1)	(30.7)
Net financing expenses	(17.7)	(11.3)	(21.8)

5. Taxation

Income tax for the six month period to 30 April 2007 is calculated using the estimated annual effective tax rate for the full year ending 31 October 2007.

The estimated annual effective tax rate for the year ended 31 October 2007, calculated on profit/loss before tax separately disclosed items and amortisation of business combination intangibles, is 27.5 per cent. (2006: full year actual underlying tax rate 27.6 per cent.).

6. Dividends

Dividends have been recognised within equity as follows:

	6 months 30 April 2007	6 months 30 April 2006	Year 31 October 2006
	£m	£m	£m
Interim ordinary dividend paid for 2006 2.25p (2005: 1.95p)	11.8	10.1	10.1
Final ordinary dividend paid for 2006 of 5.40p (2005: 4.65p)	28.6	24.4	24.4
	40.4	34.5	34.5

Subsequent to the balance sheet date, the Directors have approved an interim dividend of 2.50p per share (2006: 2.25p) payable on 26 September 2007 to the holders of relevant shares on the register at 24 August 2007. The interim dividend amounts to £13.2m (2006: £11.8m) and will be recognised as a deduction from equity when paid.

A dividend reinvestment plan is available for shareholders. Those shareholders who have not elected to participate in this plan, and who would like to participate with respect to the 2007 interim dividend, may do so by contacting Lloyds TSB Registrars direct on 0870 2413018. The last day for election for the interim dividend is 5 September 2007 and any requests should be made in good time ahead of that date.

7. Loss per ordinary share

The basic loss per ordinary share for the six month period to 30 April 2007 is calculated by dividing the loss attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the period, excluding those held in the employee share ownership trusts.

	Loss 2007	Weighted average no. of shares 6 months 30 April 2007	Loss per share 2007	Loss 2006	Weighted average no. of shares 6 months 30 April 2006	Loss per share 2006
	£m	millions	pence	£m	millions	pence
Basic and diluted loss per ordinary share	**(74.9)**	**527.0**	**(14.2)**	(57.8)	524.2	(11.0)
Amortisation of business combination intangibles (net of tax)	**5.5**	—	**1.0**	2.5	—	0.5
Basic and diluted loss per share before amortisation of business combination intangibles	**(69.4)**	**527.0**	**(13.2)**	(55.3)	524.2	(10.5)
Separately disclosed items (net of tax)	**8.9**	—	**1.7**	—	—	—
Disposal of investment in associate	**0.5**	—	**0.1**	—	—	—
Basic and diluted underlying loss per ordinary share	**(60.0)**	**527.0**	**(11.4)**	(55.3)	524.2	(10.5)

In accordance with IAS 33: Earnings Per Share, the calculation of diluted basic loss per ordinary share and diluted underlying loss per ordinary share has not included anti-dilutive potential ordinary shares. Therefore there is no difference between the calculation of basic and diluted measures in the six month period.

8. Acquisitions

During the six months ended 30 April 2007, the Group has made the following acquisitions:

Sector and entity	Country of operation	Date of acquisition	Consideration recognised
			£m
Specialist			
Young Explorers	Canada	January 2007	0.8
KSA Events	USA	April 2007	+2.1
Activity			
WesternXposure	Australia	February 2007	+2.4
i-to-i	UK	February 2007	+20.6
iExplore	USA	February 2007	+4.6
Quark Expeditions	USA	April 2007	9.8
ODS			
Laterooms.com	UK	December 2006	+97.2
			137.5

\+ Provisional, as consideration is dependent on future earnings

Cash paid for the acquisitions in the period, net of cash acquired, was £101.8m; deferred consideration and acquisition costs of £4.6m was paid relating to acquisitions in prior years, giving a total cash payment for acquisitions in the period of £106.4m.

Details in respect of these acquisitions are set out below. Fair value adjustments are provisional.

Total acquisitions	Book value prior to acquisition	Fair value adjustments (provisional)	Fair value to Group (provisional)
	£m	£m	£m
Property, plant and equipment	1.0	—	1.0
Other intangible assets	0.8	56.6	57.4
Trade and other receivables	6.7	—	6.7
Trade and other payables	(11.2)	—	(11.2)
Interest-bearing loans and borrowings	(17.5)	—	(17.5)
Income tax payable	(0.1)	—	(0.1)
Deferred tax liabilities	—	(17.6)	(17.6)
Cash and cash equivalents	6.2	—	6.2
Net identifiable assets and liabilities	(14.1)	39.0	24.9
Goodwill on acquisition			113.8
Fair value of consideration		137.5	
Acquisition costs		1.2	
Total cost of investment			138.7
Cash and cash equivalents acquired			(6.2)
Loan notes payable			(21.6)
Deferred and contingent consideration and accrued costs			(9.1)
Net cash outflow			**101.8**

9. Reconciliation of movements in equity

	Share capital	Share premium	Other reserves	Retained earnings	Equity holders of parent	Minority interests	Total
	£m	£m	£m	£m	£m	£m	£m
At 31 October 2006	**15.9**	**242.0**	**296.4**	**(273.2)**	**281.1**	**0.9**	**282.0**
Total recognised (expense)/ income for the period	—	—	(0.1)	(74.9)	(75.0)	0.3	(74.7)
Shares issued	—	0.2	—	(0.2)	—	—	—
Share based payment	—	—	—	3.3	3.3	—	3.3
Acquisition of shares for share-based payment	—	—	—	(3.9)	(3.9)	—	(3.9)
Ordinary dividends (note 6)	—	—	—	(40.4)	(40.4)	—	(40.4)
Minority interest dividend	—	—	—	—	—	(0.3)	(0.3)
At 30 April 2007	**15.9**	**242.2**	**296.3**	**(389.3)**	**165.1**	**0.9**	**166.0**

Other reserves are analysed as follows:

	Capital reserve	Merger reserve	Foreign exchange reserve	Hedging reserves	Total
	£m	£m	£m	£m	£m
At 31 October 2006	**201.4**	**138.5**	**(5.8)**	**(37.7)**	**296.4**
Total recognised (expense)/ income for the period	—	—	(2.2)	2.1	(0.1)
At 30 April 2007	**201.4**	**138.5**	**(8.0)**	**(35.6)**	**296.3**

10. Movements in cash and net debt

	30 April 2007	Cash movement	Foreign exchange movements	Arising on acquisition	31 October 2006	30 April 2006
	£m	£m	£m	£m	£m	£m
Cash and cash equivalents . . .	**196.1**	19.0	(0.4)	—	177.5	156.1
Bank loans and loan notes . . .	**(561.6)**	(250.0)	1.1	(39.1)	(273.6)	(336.0)
Finance leases	**(7.4)**	0.5	(0.7)	—	(7.2)	(7.5)
Net debt	**(372.9)**	(230.5)	—	(39.1)	(103.3)	(187.4)

Cash movements in bank loans include £0.1m of repayment of acquisition-related loan notes. For clarity, the cash flow statement includes this movement in payments for the acquisition of subsidiaries.

11. Approval

The interim financial statements were approved by the Board on 13 June 2007.

Part VIII

Operating and financial review relating to First Choice

1 Introduction

The operating and financial review contained in this Part VIII should be read in conjunction with (i) First Choice's historical financial information for the two years ended 31 October 2006 contained in Section B of Part VII of this document (the "Restated Information"); (ii) First Choice's audited consolidated financial statements for the two years ended 31 October 2005 contained in Section C of Part VII of this document (the "Original Financial Statements"); and (iii) the unaudited interim results relating to First Choice for the six months ended 30 April 2007.

Unless otherwise indicated, the selected financial information included in this Part VIII has been extracted without material adjustment from the Restated Information and the Original Financial Statements.

The Restated Information has been prepared having regard to the accounting standards and policies and presentation expected to be adopted by, and legislation expected to apply to, TUI Travel in its next published financial statements.

The analysis presented below for the financial year ended 31 October 2006 is based upon 2006 IFRS information and 2005 comparative IFRS information as presented in the Restated Information.

The analysis presented below for the financial years ended 31 October 2005 and 2004 is based upon information as presented in the Original Financial Statements.

Investors should read the whole of this document and should not rely solely on the summary operating and financial information set out in this Part VIII.

Certain information on governmental, economic, fiscal and political factors which could affect First Choice's operations is set out elsewhere in this document. In particular, information on regulatory, economic and fiscal risks and issues is given in Part I ("Risk Factors") of this document.

2 Operating and financial review

2.1 Overview

First Choice is a leading international leisure travel company. It operates from 17 major source markets offering differentiated leisure travel experiences to more than eight million customers annually. Over the past five years, First Choice has invested in increasing its international presence and has moved into niche segments which offer good long-term growth prospects, create additional shareholder value and allow it to build leadership positions. The First Choice Group operates with a flexible and efficient business model which allows it to increase or decrease capacity more easily than a number of its competitors.

2.2 Capital Resources

2.2.1 Cash flow analysis

An explanation of First Choice's cash flows for the three financial periods ended 31 October 2006 is set out in paragraphs 2.5.2, 2.6.2 and 2.7.2 of this Part VIII. Tables showing the amounts of cash flows for such financial periods are set out on pages 129 and 198 of this document.

2.2.2 *Capitalisation and Indebtedness*

The following tables show the capitalisation of First Choice as at 30 April 2007 and the indebtedness of First Choice as at 30 April 2007:

Capitalisation and indebtedness[1][2][3]	£m
Guaranteed	10.6
Secured	5.2
Unguaranteed/unsecured	118.7
Total current debt	**134.5**
Secured	45.5
Unguaranteed/unsecured	389.0
Total non-current debt (excluding current portion of the long term debt)	**434.5**
Share capital	15.9
Share premium	242.2
Capital and merger reserve	339.9
Shareholders' equity	**598.0**

The following table sets out the net consolidated financial indebtedness of the First Choice Group as at 30 April 2007[4][5][6]:

Net indebtedness	£m
Cash	137.2
Cash equivalents	58.9
Total liquidity	**196.1**
Current bank debt	(110.6)
Current portion of non-current debt	(23.9)
Current financial debt	**(134.5)**
Net current financial indebtedness	**61.6**
Non-current bank loans	(375.0)
Bonds issued	(50.0)
Other non-current financial debt	(9.5)
Non-current financial indebtedness	**(434.5)**
Net financial indebtedness	**(372.9)**

(1) Shareholders' equity does not include the profit and loss account reserve.

(2) This statement of indebtedness has been prepared under Adopted IFRS using policies which are consistent with those used in the preparing First Choice's financial statements for the year ended 31 October 2006.

(3) The information is unaudited.

(4) First Choice has no indirect or contingent indebtedness as at 30 April 2007.

(5) First Choice has an obligation to issue further loan notes relating to acquisitions of up to a maximum of £13.0m, of which £7.0m will be guaranteed if issued. The amount of loan notes that will be issued is however contingent on the post-acquisition performance of the acquired businesses. It is currently estimated that £13.0m of additional loan notes will be issued and this liability has been recorded within trade and other payables at 30 April 2007. There is no other contingent indebtedness.

(6) First Choice also has £0.6m liability of derivative financial instruments that are hedging the fair value of certain borrowings and which are not reflected in the indebtedness analysis.

2.2.3 *Capital commitments*

Details of First Choice's capital commitments in the financial period ended 31 October 2006 are set out on page 179 of this document.

2.2.4 *Funding arrangements*

First Choice finances itself through a number of sources, namely, leasing, unsecured debt, regulatory bonding and letters of credit facilities, and secured debt facilities. Details of First Choice's financing facilities are set out in paragraph 12 of Part XI of this document.

First Choice seeks to ensure that sufficient liquidity is available at all times to fund its operations. Typically, First Choice's liquidity peaks in July and August, the summer peak holiday season, with the liquidity low point being in December and January. To manage the liquidity position First Choice is able to draw cash advances under its existing bank facilities. First Choice has had sufficient funding to cover its liquidity requirements for the three financial periods ended 31 October 2006.

Further information on First Choice's liquidity over the three financial periods ended 31 October 2006 is set out in paragraphs 2.5.2, 2.6.2 and 2.7.2 of this Part VIII.

2.2.5 Treasury policies

The directors of First Choice have established a framework to ensure that First Choice has adequate policies, procedures and controls to successfully manage the financial risks that it faces.

The main financial risks faced by First Choice are in relation to foreign currency, interest rate, fuel price and liquidity. The First Choice Group treasury department is responsible for the execution of the agreed strategies and policies. Individual treasury policies are developed and agreed between the business units and group treasury to cover specific risks faced by each business. Group treasury undertakes and executes all significant external treasury transactions on behalf of the UK and overseas operations.

2.3 Strategy

First Choice's strategy has been to build on its position as a leading international leisure travel company, comprising a differentiated UK mainstream tour operating business and a portfolio of niche specialist businesses across the world, creating added value experiences for its customers.

2.4 Factors affecting trends in results

Acquisitions

First Choice has made several significant acquisitions during the last three financial years. In the financial year ended 31 October 2004, acquisitions included StudentCity.com, the leading online provider of travel packages for students in the United States.

In the financial year ended 31 October 2005, twelve acquisitions were made with a maximum aggregate consideration of £65 million. The acquisitions included Peregrine Adventures, an Australian-based activity adventure company, and Europe Express, one of the most respected wholesale tour operators in the United States providing top class service to travel agents and consumers with individual and group travel vacation packages.

In the financial year ended 31 October 2006, acquisitions included: Grand Expeditions, which operates in the North American specialist escorted tours market and focuses on the growing and affluent "boomer" demographic; Intrav and Your Man Tours, which also specialise in the escorted tours market; and Pacific World, which is a network of specialist companies providing meetings, incentives, conference and events services and is included within the Online Destination Services sector.

Geo-political events and natural disasters

The nature of the travel business means that First Choice is at risk of geo-political events or natural disasters affecting its business. It is for this reason that it ensures all its businesses operate with a flexible and efficient business model and minimise the reliance on any one destination. The flexibility of the business models in the Continental Europe Specialist businesses resulted in impressive performances in the financial year ended 31 October 2005, despite the terrorist bombings in Turkey and Egypt in 2005 and the additional costs incurred as a result. In addition, the tsunami in Asia in December 2004 adversely affected the revenues of the UK Specialist business.

In the financial year ended 31 October 2006, the Mainstream Holidays sector was adversely affected by bird flu scares, and the Continental Europe Specialist businesses were adversely affected by a number of external events, including the bird flu scares in Turkey and terrorist incidents in North African and Eastern Mediterranean key destinations.

First Choice's results are, however, particularly impacted by economic and market conditions in the United Kingdom, as approximately 55 per cent. of its turnover is derived from its UK operations.

Exchange rates

First Choice faces significant financial risks mainly due to the substantial cross-border element of its trading. Currency exchange risk, which arises principally from the mismatch between First Choice's UK businesses sterling revenue streams and foreign currency operating costs, is managed by the use of foreign exchange forward, swap and option contracts. Interest rate risk is split into two separate exposures, namely US dollar interest rates on variable rate aircraft leases and loans, and sterling rates on the First Choice Group cash balances. Both exposures are managed using interest rate derivatives. In addition, the First Choice Group's exposure to jet fuel prices is managed using energy swaps and options.

2.5 Period ended 30 April 2007

2.5.1 Operating review

The Group achieved underlying loss before tax of £82.5 million (2006: £76.5 million), with underlying operating loss reduced by one per cent. to £64.8 million (2006: £65.2 million), on revenue growth of four per cent. to £1,079 million (2006: £1,033 million). The 8 per cent. increase in underlying loss before tax to £82.5 million was primarily as a result of higher net financing expenses (up £6.4 million to £17.7 million) due to interest on acquisitions in the first half (£2.9 million of the increase), the full period impact on interest expense of FY06 acquisitions (£2.5 million of the increase) and higher borrowing costs as a result of the recent rises in UK interest rates (£1.0 million of the increase).

The Mainstream Holidays sector underlying operating loss was £59.2 million (2006: £53.0 million). The increase in the underlying loss is attributable to a number of factors, including the impact of the increase in APD resulting in a £2.5 million impact to margin. First Choice has not been able to fully recover the rise in fuel prices from its customers, resulting in a £2.0 million impact to profitability, while the continuing investment in the long-haul programme has cost £3.0 million in the first half. There is now a full complement of six long-haul B767s, with five operating and one providing dedicated standby cover, all of which will be in operation until delivery is taken of the first B787s in 2009.

The Specialist Holidays sector underlying operating profit was £10.9m (2006: £9.4m), up 16 per cent. year on year. The performance was driven primarily by a strong UK performance where the restructuring of the Division and the investment in a dynamic new selling system yielded benefits with controlled distribution increasing from 57 per cent. of total bookings to 69 per cent. across the Division. In the Continental European Specialist businesses the rate of sale continued to improve throughout the season with the businesses managing capacity carefully throughout the period. Egypt continued to recover from terrorist incidents which affected trading during the Winter 2006 season, while capacity to Morocco increased by 33 per cent. following the launch of a further Marmara club in the destination.

The Canadian market remains highly competitive and this Winter the weather was also unseasonally warm during December and January. Despite the competitive environment, Signature Vacations performed strongly across all the regions of the country. Capacity was successfully managed despite weakened demand during the early part of the season with minimal impact on profitability.

The Activity Holidays sector delivered an underlying operating loss of £6.8m (2006: loss of £7.5m) on revenue growth of 20 per cent. to £176.7m (2006: £146.9m). The £0.7m improvement in the underlying operating loss was primarily a result of continued growth in the Adventure division and the contribution from in-year and prior year acquisitions.

The Online Destination Services sector achieved underlying operating profit of £1.0m (2006: £1.7m loss) as a result of the continued growth in the Hotelbeds and Bedsonline routes to markets, the recovery in Mexico as a destination, which was adversely affected last year by Hurricane Wilma, and the acquisition of Laterooms.com. The integration of last year's acquisitions, Meridian and Pacific

World, remains in line with expectations and has resulted in the Sector bed-bank increasing substantially for all the main destinations in China and South East Asia. Laterooms.com, acquired in December 2006, had an excellent first four months in the Group and has so far delivered a financial performance in excess of expectations.

During the period, First Choice management reviewed their participation in the expedition cruising market and took the strategic decision to focus solely on polar expedition cruising. As a consequence, an acquisition was made of Quark Expeditions, the world's leading operator of expedition cruise voyages to the polar regions. Quark operate six ships in the polar region and has built up market leading expertise in this activity. This acquisition will allow First Choice to combine the Peregrine ships to create the market-leading operator in the polar expedition cruising market. As a result of this decision, after the period end, First Choice sold the two Clipper ships that were acquired with the INTRAV acquisition for net disposal proceeds of £16m, although a medium-term charter on the Clipper Adventurer has been retained. The Clipper ships are therefore disclosed on the balance sheet at 30 April 2007 under "Assets classified as held for sale".

After the period end, First Choice acquired Hannibal Travel Group (trading under the Hannibal and Marco Polo brands), which is a leading premium escorted tours operator, serving the Danish market and primarily the 'baby boomer' and 'young professional' demographic.

2.5.2 Financial Performance

Earnings per share and dividends

Underlying loss per share increased to 11.4 pence (2006: 10.5 pence). The First Choice Board has declared an interim dividend of 2.50p (2006: 2.25p) per ordinary share. This represents an increase of 11 per cent. compared to the same period in the prior year.

Revenue

The First Choice Group's revenue for the six months to 30 April 2007 was £1.079 billion (2006: £1.033 billion), an increase of 4.4 per cent.

In the Mainstream Holidays sector, revenue rose by four per cent. to £379.5 million (2006: £364.9 million). Despite an overall three per cent. reduction in passenger numbers, there was an increase in revenue per passenger of 12 per cent. Long-haul continues to be an area of increasing importance for the business, with revenue per passenger on long-haul destinations increasing ten per cent. and passenger numbers in this segment increasing by 25 per cent. compared to the same period in the previous financial year.

Revenue fell by 7.5 per cent. in the Specialist Holidays sector to £432.0 million (2006: £467.2 million). This was primarily the result of the closure of certain smaller businesses in Continental Europe during the period. Excluding discontinued operations, passenger numbers were up seven per cent. year-on-year, with an eight per cent. increase in Europe and a six per cent. increase in North America.

The Activity Holidays sector achieved revenue growth of 20.3 per cent. to £176.7 million (2006: £146.9 million). This was primarily driven by the Adventure division which saw revenue growth of 28 per cent. to £107 million (2006: £84m) and like-for-like revenues up 17 per cent. as consumer demand for adventure-style holidays remains strong.

The Online Destination Services sector experienced overall revenue growth of 67 per cent. to £90.9 million (2006: £54.4 million). This was primarily driven by the online routes to market increasing bednights by 37 per cent. to 6.1 million, coupled with an increase in total online transaction value per bednight of two per cent.

Underlying operating loss

Underlying operating loss for the First Choice Group for the six months ended 30 April 2007 reduced by one per cent. to £64.8 million (2006: £65.2 million).

The Mainstream Holidays sector underlying operating loss was £59.2 million (2006: £53.0 million). The increase in the underlying loss is attributable to a number of factors, as discussed in the earlier operating review section.

The Specialist Holidays sector underlying operating profit was £10.9 million (2006: £9.4 million), up 16 per cent. year on year. The performance was driven primarily by a strong UK performance, combined with managing capacity in a challenging Canadian market and in the key European source markets.

The Activity Holidays Sector delivered an underlying operating loss of £6.8 million (2006: loss of £7.5 million). The £0.7 million improvement in the underlying operating loss was primarily a result of continued growth in the Adventure division and the contribution from in-year and prior year acquisitions.

The Online Destination Services sector achieved underlying operating profit of £1.0 million (2006: £1.7 million loss). £2.2 million of this improvement was due to acquisitions, of which Laterooms.com is the most significant.

Separately disclosed items

The separately disclosed items included in the First Choice Group operating profit were a net cost of £12.9 million (2006: £NIL).

Due to the UK Government raising Air Passenger Duty (APD) in December 2006, First Choice have been unable to recover the one-off cost of the retrospective tax for bookings made pre 6 December 2006. In addition, further costs have been incurred in closing underperforming business units in the first half in Germany and Belgium, and downsizing and restructuring particularly through outsourcing back office operations in the Mainstream Holidays Sector. First Choice also incurred advisor fees and other related costs in connection with the potential sale of the Mainstream Sector which was terminated on 12 February 2007.

Liquidity and net indebtedness

The net cash outflow from operating activities in the six months to 30 April 2007 was £65.9 million (2006: £71.8 million). Cash flows from operations were £16.8 million better than for the same period last year, primarily due to a cash inflow from working capital management of £12.7 million, compared to an outflow of £15.9 million for the same period last year. This was then partially offset by higher net interest payments of £15.9 million (2006: £9.0 million) and by £4.0 million extra being paid in income taxes compared to last year.

The net cash outflow from investing activities was £124.0 million (2006: £84.1 million). Net expenditure on fixed assets amounted to £23.1 million whilst net expenditure on acquisitions was £106.4 million, with the acquisition of Laterooms.com in December 2006 being the most significant.

There was a net cash inflow from financing activities of £208.9 million (2006: £206.5 million), with an inflow from new loans of £271.2 million.

The net debt position (cash and cash equivalents less loans, overdrafts and finance leases) at 30 April 2007 was £372.9 million (2006: £187.4 million). This consisted of £196.1 million of cash and £569.0 million of debt. The acquisition strategy accounts for the majority of the increase in net debt.

2.6 Financial year ended 31 October 2006

In this section the Group refers to underlying operating profit, underlying profit before tax and underlying earnings per share. The Group believes that these measures provide additional guidance to statutory measures on the underlying performance of the business during the financial year.

The term underlying is not defined under Adopted International Financial Reporting Standards. It is a measure that is used by management to assess the underlying performance of the business internally and is not intended to be a substitute measure for Adopted IFRSs GAAP measures.

The Group defines these underlying measures as follows:

- Underlying operating profit is profit before financial income and expense, taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill.
- Underlying profit before tax is profit before taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill.
- Underlying earnings are underlying profit after tax less minority interests and preference dividends.
- Underlying earnings per share is underlying earnings divided by the weighted average number of ordinary shares in issue during the financial period, excluding those held by employee share ownership trusts.

It should be noted that the definitions of underlying items being used in these financial statements are those used by the Group and may not be comparable with the term "underlying" as defined by other companies within both the same sector or elsewhere.

2.6.1 Operating review

The First Choice Group achieved underlying profit before tax of £117.2 million (2005: £115 million), with underlying operating profit up 13 per cent. to £139.0 million (2005: £123.3 million). The underlying profit before tax includes net financing expense of £21.8 million which is £13.5 million higher than in 2005, primarily as a result of refinancing the convertible preference shares in July 2005 (£9 million) and a higher level of acquisitions (£4 million). First Choice Group revenue for the year increased by 9.5 per cent. to £2.899 billion (2005: £2.647 billion). The resulting underlying operating profit margin improved by ten basis points to 4.8 per cent. this year.

The Mainstream Holidays sector underlying operating profit was £53.7 million (2005: £60.6 million), down 11 per cent. year-on-year. Despite satisfactory revenue performance and a significant reduction in capacity across the Summer season there was a delay in high season bookings due to bird flu scares in the early booking period, the football World Cup in June and unusually warm weather in July. This led to weaker selling prices in the market-place from August, the result of which was that incremental year-on-year fuel costs for the Summer season of £50 million were not fully recovered from the customer in the lates market. This, combined with additional costs incurred in managing an unprecedented level of external events resulted in the 5 per cent. reduction in full year underlying operating profit and a 0.2 per cent. reduction in underlying margin to 4.3 per cent.

The Specialist Holidays sector underlying operating profit was £36.6 million (2005: £31.5 million), up 16 per cent. year-on-year. This was on revenue of £1,002 million (2005: £976 million), up 2.7 per cent. The increase in profit was driven by continued growth in Canada and strong performance in the UK Specialist division and North American student businesses.

The restructuring and streamlining of the UK Specialist business model, combined with the growth in direct distribution, resulted in a very successful year for this division. The product offering for Sovereign, Hayes & Jarvis, Citalia and Meon Villas, was more clearly defined and this, together with careful capacity management, the introduction of a more flexible selling system and a focus on growing direct distribution channels, improved profitability substantially. Controlled distribution improved to 59 per cent. (2005: 49 per cent.) in UK Specialist business with the business achieving underlying margins of around five per cent. (2005: four per cent.).

The North American Specialist businesses improved profitability by £8.4 million to £13.8 million (2005: £5.4 million). This was driven by the Canadian operation which improved its profit margin in a year that, for this market, was badly affected by the 2005 hurricane season and the North American student travel businesses. These student travel businesses performed equally strongly, despite also being affected by the 2005 hurricane season. The flexibility in the business meant that the business was able to move and significantly increase bookings to the West Coast of Mexico away from Cancun which was badly affected by Hurricane Wilma. Furthermore, a significant step was

made into the highly-fragmented educational student travel market through the acquisitions of Jumpstreet, School Voyageurs and Educatours in Canada and Educational Tours in the US.

The Specialist businesses in Continental Europe experienced a number of external events, from bird flu scares in Turkey to terrorist incidents in North African and Eastern Mediterranean key destinations that adversely impacted underlying performance. Consequently, profitability in a number of Continental European businesses was reduced. Several of the smaller Continental European businesses were loss-making in the year with total losses amounting to £4.2 million. Consequently it was decided to scale back the loss making businesses in Continental Europe, and the one-off costs of these actions were reported within the net separately disclosed items of £5.8 million.

The Activity Holidays sector underlying operating profit was £26.7 million (2005: £17 million), up 57 per cent. year-on-year. This was achieved on revenue of £394 million (2005: £204 million), up 93 per cent. The result was driven by good performances by the Adventure businesses and by a contribution of £5.5 million from acquisitions made in the year. Revenue increased 13 per cent. on a like-for-like basis with profitability flat, primarily as a result of a disappointing performance in Sunsail Clubs where bookings were affected adversely by the bird flu scare in Turkey. Despite this difficult trading environment, the new club, Club Phokaia, had a very successful season.

The portfolio of Adventure businesses within the Activity Holidays sector grew both organically and by acquisition, with the division growing revenue by 76 per cent. to £192 million (2005: £109 million) and underlying operating profit to £13.3 million (2005: £7.3 million). Profitability grew by five per cent. on a like-for-like basis to £6.6 million as the organic businesses continued to perform strongly and there were several acquisitions made in this sector. Acquisitions made included Trek Holidays in Canada and Trip-n-Tours, a US West Coast dive business that complements the Caribbean dive expertise at Caradonna. In the Netherlands Sawadee (an adventure travel tour operator) was acquired and in the UK acquisitions included TravelClass which operates two school brands; SkiClass and JCA. SkiClass complements the existing Skibound business while JCA is a summer-based schools activities business which has grown strongly and offers good growth potential as it expands the number of sites available to schools across the UK.

The Online Destination Services sector underlying operating profit was £14.4 million (2005: £11.4 million), up 26 per cent. year-on-year, with continued strong growth in revenue up 36 per cent. to £183 million (2005: £134 million). The sector continued to experience significant growth in all online routes to market with total online transaction value growing to £306 million, representing growth of 49 per cent. Hotelbeds, the brand which services tour operators, experienced a 32 per cent. growth in transaction value. Bedsonline, the business-to-business operator servicing travel agents who are sourcing accommodation for the independent traveller, significantly increased its customer base and now supplies more than 8,000 travel agents (2005: >5,000) and grew transaction value by 79 per cent. Hotelopia, the business-to-customer accommodation business brand, achieved an increase in transaction value of 48 per cent. Hotelopia's growth has been achieved both through its own brand and through the strategic alliances it has formed with a number of substantial companies including BBVA, easyJet, Spanair, Martinair, bmi and bmibaby.

The First Choice Group's joint venture with Royal Caribbean Cruises Ltd. increased underlying profit before tax by £1.5 million to £5 million (2005: £3.5 million). The First Choice Group's share of the pre-tax profit amounted to £2.5 million, compared to £1.8 million in 2005.

2.6.2 Financial performance

Earnings per share and dividends

Underlying basic earnings per ordinary share was 16.1p (2005: 13.9p), an increase of 16 per cent. This performance represents the fourth year of double-digit growth. The basic earnings per ordinary share was 13.7p (2005: 13.5p).

The First Choice board recommended a final dividend per ordinary share of 5.40p (2005: 4.65p), an increase of 16 per cent., making a total dividend relating to the year of 7.65p (2005: 6.60p), an increase of 16 per cent.

Revenue

The First Choice Group's revenue for the year to 31 October 2006 was £2.899 billion (2005: £2.647 billion), an increase of 9.5 per cent.

In the Mainstream Holidays sector, revenue fell by one per cent. to £1.320 billion (2005: £1.333 billion). Weaker selling prices in the market-place from August, due to a combination of bird flu scares in the early booking period, the World Cup in June and unusually warm weather in July, adversely affected this result.

Revenue grew by 2.7 per cent. in the Specialist Holidays sector to £1,002 million (2005: £976 million). Revenue grew by 28 per cent. in the North American businesses due to continued growth in Canada coupled with organic growth and acquisitions in the educational student travel market. This was offset by a eight per cent. decline in revenues in Europe, where the Continental European businesses were adversely affected by a number of external events as set out above.

In the Activity Holidays sector, revenue grew by 93 per cent. to £394 million (2005: £204 million). The Adventure businesses grew revenue by 76 per cent. to £192 million (2005: £109 million), with acquisitions playing a prominent role in this growth. The like-for-like revenue increase was 13 per cent.

Revenue grew by 36 per cent. in the Online Destination Services sector to £183 million (2005: £134 million). This was primarily driven by the online routes to market increasing bednights by 44 per cent. to 13.7 million, coupled with an increase in total online transaction value per bednight of four per cent.

Underlying operating profit

Underlying operating profit for the First Choice Group rose from a profit of £123.3 million for the year ended 31 October 2005 to a profit of £139.0 million for the year ended 31 October 2006.

The Mainstream Holidays sector underlying operating profit was £57.3 million (2005: £60.6 million), down 5 per cent. year-on-year. Weaker selling prices in the market-place from August, for the reasons discussed above, meant that the incremental year-on-year fuel costs for the season of £50 million were not fully recovered from the customer in the lates market. This, combined with additional costs incurred in managing an unprecedented level of events outside the control of the First Choice Group, resulted in the decline in underlying operating profit.

The Specialist Holidays sector increased underlying operating profit by 16 per cent. year-on-year to £36.6 million (2005: £31.5 million). The increase in profit was driven by continued growth in Canada and the North American student businesses, where the underlying operating profit grew by 156 per cent. to £13.8 million. This growth offset the decline of 13 per cent. in underlying operating profit to £22.8 million experienced by the European Specialist businesses, primarily due to the external events this sector experienced as set out above.

The Activity Holidays sector underlying operating profit was £26.7 million (2005: £17 million), up 57 per cent. year-on-year. Acquisitions made in the year contributed £5.5 million. The Adventure businesses were another key growth driver, with this division growing underlying operating profit to £13.3 million (2005: £7.3 million), with profitability growing by 5 per cent. on a like-for-like basis to £6.6 million as the organic businesses continued to perform strongly. The Escorted Tours division, formed out of certain businesses acquired in the Grand Expeditions transaction, Intrav and Your Man Tours, achieved underlying operating profit of £2.8 million for the year ended 31 October 2006.

The Online Destination Services sector underlying operating profit was £14.4 million (2005: £11.4 million), up 26 per cent. year-on-year, as volumes (bednights) increased by 44 per cent. year-on-year and combined with an increase in total transaction value per bednight year-on-year of four per cent.

Separately disclosed items

The separately disclosed items included in the First Choice Group operating profit were a net cost of £5.8 million (2005: £NIL).

Following a strategic review of the First Choice Group's UK Mainstream operations, a decision was made to outsource certain back office functions. The separately disclosed items incurred for this in 2006 amounted to £3.2 million and relate to set up costs for the outsourced operations and provision for redundancy costs associated with the relocation. This outsourcing commenced in the first half of financial year 2007.

In line with the First Choice Group's strategy of remaining cost competitive, during the year a comprehensive review of under performing businesses was performed. This review resulted in the closure of the Marmara Portugal operation and restructuring of other business units. Costs of £10.6 million were incurred, principally in relation to redundancy and other closure costs associated with the restructuring activities in the Specialist, Activity and Mainstream sectors.

There were a number of favourable developments and outcomes in respect of certain commercial transactions and legal settlements in the year. In addition, management undertook a review of other accruals. Whilst none of these items were individually significant, it was considered appropriate to separately disclose the aggregate release of £8 million.

Liquidity and net indebtedness

The net cash inflow in the year from operating activities was £87.4 million (2005: £121.8 million) which includes a working capital outflow in the year of £60.2 million (2005: £6.8 million). This was driven by a significant increase in accommodation prepayments to finance a number of new exclusively available and differentiated properties, primarily within the European Specialist businesses, for which the First Choice Group are not currently taking bookings. As a result of acquiring and disposing of businesses part way through the trading cycle, working capital outflows of £18 million have been incurred. In addition, special employer contributions of £6 million were paid to reduce the pension deficit in the airline defined benefit scheme, while the First Choice Group also paid advance deposits on Boeing 787 options amounting to £2.8 million.

The net cash outflow from investing activities was £146.8 million (2005: £87.4 million). Net expenditure on fixed assets amounted to £39.3 million and was primarily related to shop refits, refurbishing two Sunsail Clubs and investment in new boats and yachts. Net expenditure on acquisitions was £108.1 million. Full details of the cash flows arising in respect of acquisitions are set out in note 13b of the historical financial information for the year ended 31 October 2006 set out in Part VII ("Financial Information on First Choice") of this document.

There was a net cash inflow from financing activities of £134.2 million (2005: outflow of £222 million), with an inflow from new loans of £213.2 million.

The net debt position (cash and cash equivalents less loans, overdrafts and finance leases) at the year-end was £103.3 million (2005: net cash £18.1 million). This consisted of £177.5 million of cash and £280.8 million of debt. The £121.4 million movement in net debt primarily arose due to the accelerated acquisition strategy.

Accounts

For the year ended 31 October 2006, First Choice presented, for the first time, the First Choice Group's consolidated statements under IFRS. An explanation of how the transition from UK GAAP to IFRS affected the First Choice Group's financial position, financial performance and cash flows is set out in note 33 to the historical financial information for the two years ended 31 October 2006 contained in section A of Part VII ("Financial Information on First Choice") of this document. In the operating and financial reviews for 2006 above, all comparatives used are restated under IFRS.

2.7 Financial year ended 31 October 2005 (UK GAAP)

2.7.1 Operating review

The First Choice Group achieved profit before tax, goodwill amortisation and exceptional items in the year ended 31 October 2005 of £114.0 million (2004: £98.3 million), up 16 per cent. First Choice Group turnover for the year increased by 11 per cent. (£261 million) to £2.579 billion (2004: £2.318 billion). After excluding the effect of current year acquisitions, turnover increased by nine per cent. to £2.516 billion.

The Mainstream Holidays sector operating profit was £54 million (2004: £48.5 million), up 11 per cent. year-on-year. This was achieved on turnover of £1.232 billion (2004: £1.174 billion), up five per cent. as a result primarily of the shift in mix to long-haul holidays. The move away from commoditised short-haul holidays and particularly the flight-only market progressed well. Volumes to short-haul destinations declined 14 per cent. year-on-year, with short-haul representing 30 per cent. of inclusive tour revenues for the year ended 31 October 2005, down from 32 per cent. in 2004. Volumes to medium-haul and long-haul destinations, in contrast, both increased year-on-year by three per cent. and 11 per cent. respectively.

Product differentiation is a key value driver in this sector and First Choice continued to see increased demand from their customers for exclusive differentiated product across short, medium and long-haul destinations. Properties exclusive to First Choice customers stood at 38 per cent. of revenues (2004: 33 per cent.). The expansion of the range of exclusive products, like Holiday Village, saw the opening of two new properties in Mallorca and Turkey, bringing the total number of First Choice Holiday Villages to five. Furthermore, Summer 2005 saw the introduction to the fleet of the newly configured Boeing 767 long-haul aircraft. These aircraft offered more legroom, wider seats and in-flight entertainment superior to any of the competitors in this marketplace, and the response from customers was extremely positive both in respect of improved comfort and service. As a result of being able to offer customers a superior in-flight experience, First Choice increased their range of destinations and introduced the Bahamas and Brazil as new destinations for the sector.

The Specialist Holidays sector operating profit increased by 35 per cent. to £32.1 million (2004: £23.8 million), in a year where the sector's businesses were affected by the Asian tsunami, hurricanes and terrorist bombings. Turnover increased by 16 per cent. to £891 million (2004: £770 million). In Continental Europe, revenue and profit growth were driven primarily by strong performances in France, Italy, Holland and the Nordic countries. In France, Marmara increased customer revenues by 20 per cent. and is the market-leader in the destinations to which it operates. The geo-political events in Egypt and Turkey resulted in cancellations and reduced bookings to the affected areas for the French, Italian and Spanish businesses, resulting in reduced margins for those destinations. However, improved margins to other destinations offset this, leaving margins flat year-on-year at four per cent.

The UK Specialist division was impacted by the Asian tsunami of 26 December 2004, particularly in Hayes & Jarvis. This resulted in a reduction in turnover of 9 per cent. to £144 million (2004: £159 million). Despite this, strong performances by Sovereign, Meon and Citalia, ensured that margins improved 70 basis points to four per cent. (2004: 3.3 per cent.) in this division.

The North American Specialist businesses improved profitability by £5 million to £5.8 million (2004: £0.8 million). The Canadian Specialist business, Signature, was the biggest component of this division and it improved profitability in the year to £3.9 million (2004: £1.6 million). This was achieved on the back of volume increases of 13 per cent. which resulted in revenues increasing by 16 per cent. to £193 million (2004: £166 million). The operating margin increased by 1 percentage point to two per cent., with over 90 per cent. of customers travelling to Cuba, the Dominican Republic and Mexico.

In 2004 First Choice acquired StudentCity.com, a North American student travel operator. During 2005, further acquisitions were made of Boss Tours, a leading Canadian operator of Spring Breaks and educational tours and Spring Break Travel, a North Carolina based operator.

The Activity Holidays sector operating profit was £18.1 million (2004: £15.1 million), up 20 per cent. year-on-year. This was achieved on turnover of £226 million (2004: £196 million), up 15 per cent. The

result was driven by strong performances by the Activity Adventure businesses and by a contribution of £1.3 million from acquisitions made in the year. Activity Holidays sector revenues were up 15 per cent. year-on-year, driven particularly by acquisitions with underlying revenue growing seven per cent. year-on-year.

Further planned reductions in capacity in First Choice Marine, combined with a strong focus on club occupancy and yacht and boat utilisation, resulted in revenue decreasing to £90 million compared to £93 million in 2004. This division is capital intensive and, the focus in 2004 was to drive an improved return on the invested capital in the business. This was successfully achieved with a three percentage point increase in yacht utilisation and a ten percentage point increase in club occupancy. Operating margins moved ahead 40 basis points to 11.7 per cent. (2004: 11.3 per cent.).

The Activity Holidays Ski division pursued a strategy to reduce its exposure to mid-market, generic product in short-haul destinations so as to reduce volatility in the business. As a result, for the second year running, capacity was reduced significantly in the adult ski business. Going forward the focus will be on the Schools business and the higher margin FlexiSki and Luxury Mountain Hotels brands.

The Activity Adventure division reported another strong year of growth. The businesses in this division are low in capital intensity and are characterised by a flexible business model. Operating profit increased by £3.5 million to £6.7 million, with like-for-like profit increasing by 62 per cent. and acquisitions contributing growth of 49 per cent. Like-for-like turnover increased by 21 per cent. and acquisitions contributed a further £39 million of revenue growth (with in-year acquisitions contributing £33 million) to give total revenue growth for the year of 108 per cent. Active focus on optimising the number of customers on any given trip was key to the achievement of this success. The strategy of making acquisitions in this division was accelerated in 2005 and five new businesses were added to the portfolio. Notably, 2004 saw acquisitions being made outside the United Kingdom in France, Denmark and Australia.

The Online Destination Services sector operating profit was £11.4 million (2004: £11.2 million), up two per cent. year-on-year. This result reflects strong underlying growth offset by further investment in Hotelopia. During the year total revenues including prior year acquisitions grew to £230 million, an increase of 29 per cent. Based on a destination based infrastructure, the business had a successful year in all three routes to market. The Hotelbeds business, which services tour operators, increased the bednights sold in the year by 77 per cent. to 5.6 million. Bedsonline, the "business to business" operator servicing the travel agents market, grew by 102 per cent. in terms of bednights sold. Finally Hotelopia, the "business to consumer" accommodation business, established strategic partnerships with easyJet and BBVA which contributed significantly to growing the brand and helped bednights sold in the year increase to 1.3 million. Net operating margin was down by one percentage point as a result of the expansion of the lower margin business to the Hotelopia brand.

The joint venture with Royal Caribbean Cruises Ltd. achieved its second year of profitability in 2004/05. First Choice's share of this profit was £1.8 million compared to £0.4 million in 2003/04.

2.7.2 Financial performance

Earnings per share and dividends

Basic earnings per ordinary share before goodwill amortisation and exceptional items was 13.6p (2004: 10.8p), an increase of 26 per cent. Underlying earnings per share increased by 22 per cent., in-year acquisitions contributed one per cent. and the refinancing (redemption of convertible preference shares) completed in July 2005 contributed a further three per cent. increase.

The First Choice board recommended a final dividend per ordinary share of 4.65p (2004: 3.75p), an increase of 24 per cent., making a total dividend for the year of 6.6p (2004: 5.5p), an increase of 20 per cent.

Turnover

The First Choice Group's turnover for the year to 31 October 2005 was £2.579 billion (2004: £2.318 billion), an increase of 11 per cent. After excluding the effect of current year acquisitions, turnover increased by nine per cent. to £2.516 billion.

In the Mainstream Holidays sector, turnover grew by five per cent. to £1.232 billion (2004: £1.174 billion). This was despite a planned capacity reduction of three per cent. (Winter 04/05 down six per cent., Summer 05 down one per cent.). Within the turnover growth, inclusive tour holidays were up eight per cent. whilst flight-only and other revenues were down five per cent. The key driver of revenue growth was a continuing shift towards higher-priced medium and long-haul holidays. Volumes to short-haul destinations declined 14 per cent. year-on-year whilst volumes to medium-haul and long-haul destinations, in contrast, both increased year-on-year by three per cent. and 11 per cent. respectively. The overall revenue growth was also partly due to the collection of fuel supplements as the industry-wide mechanism to recover higher fuel costs; of the ten per cent. increase in revenue per passenger compared to 2004, three percentage points are attributed to the introduction of fuel supplements to the end customer.

Turnover grew by 16 per cent. in the Specialist Holidays sector to £891 million (2004: £770 million) with passenger volumes increasing by 18 per cent. to 2.1 million. The North American Specialist businesses saw volumes increase by 27 per cent., due to organic growth of the Canadian business (volumes up 13 per cent. on 2004) and the effect of acquisitions. As a result total revenue increased by 16 per cent. to £193 million (2004: £166 million). The European Specialist businesses increased total revenue by ten per cent. Strong revenue growth was achieved in the Continental European Specialist businesses, with revenue up 17 per cent. to £521 million (2004: £445 million). Revenues in the UK business were down nine per cent. at £144 million (2004: £159 million), on flat passenger numbers. Primarily this was as a result of discounting product in South East Asia following the tsunami and repositioning the villas business.

In the Activity Holidays sector, turnover increased 15 per cent. year-on-year to £226 million (2004: £196 million), driven particularly by acquisitions with underlying revenue growing seven per cent. year-on-year. The Marine and Ski divisions within this sector both experienced year-on-year declines in revenue of three per cent. and 20 per cent. respectively. In Marine this was due to planned reductions in capacity and a strong focus on club occupancy and yacht and boat utilisation, whilst in Ski it was due to reducing capacity in the adult ski business as part of the strategic move to reduce exposure to mid-market, generic product. The Adventure division saw revenue increase by a total of 108 per cent., with like-for-like turnover increasing by 21 per cent. and acquisitions contributing a further £39 million of revenue growth (with in-year acquisitions contributing £33 million).

In the Online Destination Services sector turnover increased 29 per cent. to £230 million (2004: £178 million), primarily due to an increase in online volumes (bednights) of 107 per cent. to 9.7 million (2004: 4.7 million).

Operating profit before exceptional items and goodwill amortisation

The First Choice Group achieved profit before tax, goodwill amortisation and exceptional items in the year ended 31 October 2005 of £114 million (2004: £98.3 million), up 16 per cent. In total, acquisitions contributed £1.6 million of operating profit before goodwill amortisation during the year representing two per cent. of the First Choice Group's year-on-year profit growth.

In the Mainstream Holidays sector operating profit increased by 11 per cent. year-on-year to £54 million (2004: £48.5 million). Capacity was reduced year-on-year by three per cent., particularly in those areas that did not offer sufficiently profitable returns. As set out in the operating review above, the shift in mix away from commoditised short-haul holidays towards medium and long-haul destinations, and the increased importance of the range of exclusive products were key drivers of the increased profitability.

The Specialist Holidays sector operating profit increased by 35 per cent. to £32.1 million (2004: £23.8 million). Passenger volumes increased by 18 per cent. to 2.1 million, which drove turnover up by 16 per cent. over the comparable period to £891 million in the year. The operating margin of 3.6 per cent. improved by 50 basis points from 3.1 per cent. in the comparable period. The European

Specialist businesses increased operating profit by 14 per cent. to £26.3 million (2004: £23 million). Strong revenue and profit growth in the Continental European Specialist businesses were due to strong performances in France, Italy and Holland and the Nordic business, launched in 2004, doubled the size of its programme and became profitable in its first full year of operation. This performance offset that of the UK where revenues were down nine per cent. at £144 million (2004: £159 million), on flat passenger numbers, primarily as a result of discounting product in South East Asia following the tsunami and repositioning the villas business. Operating margins were up 70 basis points to four per cent. (2004: 3.3 per cent.). The North American Specialist businesses improved profitability by £5 million to £5.8 million (2004: £0.8 million), due to organic growth in the Canadian businesses (operating profit rose £2.3 million to £3.9 million) and the effect of acquisitions.

The Activity Holidays sector operating profit was £18.1 million (2004: £15.1 million), up 20 per cent. year-on-year. This was achieved on turnover of £226 million (2004: £196 million), up 15 per cent. The result was driven by strong performances by the Activity Adventure businesses and by a contribution of £1.3 million from acquisitions made in the year, as set out in the operating review above.

The Online Destination Services sector operating profit was £11.4 million (2004: £11.2 million), up two per cent. year-on-year. This result reflects strong underlying growth offset by further investment in Hotelopia.

Exceptional items

There were £nil exceptional items in the year ended 31 October 2005 (2004: £0.2 million).

Liquidity and net indebtedness

The net cash inflow in the year from operating activities was £157.9 million (2004: £172.4 million). This included a working capital outflow of £1 million (2004: working capital inflow of £34.5 million).

The net cash position (cash and liquid investments less loans, overdrafts and finance leases) at the year-end was £18.1 million (2004: £220.7 million). This consisted of £105.4 million of cash and £87.3 million of debt. During the year the First Choice Group renegotiated the terms of a £310 million revolving credit facility and agreed an additional revolving credit facility of £240 million on the same revised terms as the original facility.

During the year First Choice redeemed the 6.75 per cent. convertible cumulative preference shares held at par for £199.5 million. The redemption was funded by a combination of cash resources and the expansion of its existing bank facilities referred to above. The First Choice Group benefited from an interest rate on its expanded bank facilities that was lower than the fixed 6.75 per cent. dividend on the preference shares and from tax deductibility of the interest charge.

2.8 Financial year ended 31 October 2004 (UK GAAP)

2.8.1 Operating review

The First Choice Group achieved profit before tax, goodwill amortisation and exceptional items in the year ended 31 October 2004 of £98.3 million (2003: £87.1 million), up 13 per cent. Before acquisition profits of £1.9 million, underlying profits increased 10 per cent. First Choice Group turnover for the year increased by £101 million to £2.350 billion (2003: £2.249 billion). After excluding the effect of current year acquisitions, like-for-like turnover increased by 4 per cent. to £2.290 billion.

During the year the First Choice Group was restructured into the following four sectors to give additional clarity in terms of management focus and reporting: (1) Mainstream Holidays: consisting of the UK and Ireland tour operating, retail and airline businesses with a strategy of differentiation to reduce exposure to highly competitive business activities such as flight only and short-haul, whilst developing exclusive content to encourage customers to book early; (2) Specialist Holidays: operating in Continental Europe, the UK and Canada with a highly differentiated product and a

focus on product exclusive to the First Choice Group. It specialises in offering destination and lifestyle holidays to its customers; (3) Activity Holidays: consisting of three divisions—Marine, Ski and Activity Adventure—which provide an active leisure travel experience to meet most people's desires; (4) Online Destination Services: offering hotel accommodation and other services to tour operators, travel agents and personal customers.

The Mainstream Holidays sector produced a good result in a challenging marketplace. Operating profit for the year ended 31 October 2004 was up six per cent. to £48.5 million (2003: £45.6 million), whilst as a result of planned reduction in capacity of four per cent., turnover was down one per cent. to £1.174 billion (2003: £1.187 billion). The re-mix of the product away from the short-haul flight only markets towards the medium and long-haul programmes continued as did the development of differentiated, exclusively available product for First Choice customers. As part of this exclusive programme, the Holiday Village in the Costa del Sol opened in May 2004 and completed a very successful first season with occupancy at 95 per cent.

The Specialist Holidays sector achieved an operating profit of £24.6 million (2003: £20 million) up 23 per cent. year-on-year. This was achieved on turnover of £770 million (2003: £703 million), up ten per cent. Operating margins increased 40 basis points to 4.2 per cent. (2003: 3.8 per cent.). In the Continental European specialist businesses there was strong revenue and profit growth with flat operating margins. There were strong performances in France, Italy and Holland. During the year First Choice launched a new business, Nazar Nordic, servicing the Swedish, Norwegian and Danish markets. The First Choice Group also entered the Portuguese market with the acquisition of Grantur, an operator specialising in holidays to the Eastern Mediterranean. The UK specialist business underwent a period of significant change in the year ended 31 October 2004, with restructuring of the back office in Hayes & Jarvis and Sovereign.

The Canadian Specialist business achieved profitability during the year, with profit of £1.6 million (2003: loss of £0.7 million). This was achieved despite a planned reduction in capacity that reduced revenues to £166 million (2003: £178 million). A significant element of the improved trading of the Canadian business arose from the relationship with Skyservice, their main aviation partner. The relationship gives the business increased flexibility and control over its aviation planning which helps drive cost savings. The focus on key destinations enables the business to compete effectively, with 90 per cent. of all passengers now travelling to Cuba, the Dominican Republic and Mexico.

The Activity Holidays sector delivered operating profit growth of 27 per cent. for the year ended 31 October 2004 to £15.1 million (2003: £11.9 million) on turnover of £196 million, up 6 per cent. year-on-year (2003: £185 million). Operating margins increased significantly during the year to 7.7 per cent. (2003: 6.5 per cent.). Revenues before acquisitions of £185 million were flat year-on-year due to planned withdrawal from certain unprofitable revenue streams in the Ski business and a reduction in capacity in the Marine business, offset by strong volume-driven growth in the Activity Adventure businesses. In the Marine division, Sunsail focused on improvement of asset utilisation which resulted in the yacht fleet being reduced by eight per cent. to under 1,000 yachts through the disposal of older yachts and the number of watersport clubs was reduced from nine to seven.

The Activity Adventure division achieved total revenue growth (including acquisitions) of 61 per cent. to £41.8 million (2003: £26 million), with like-for-like revenues increasing by 21 per cent. to £31 million over the comparable period. During the year five acquisitions were made in this division: The Adventure Center, Caradonna Caribbean Tours, Trips Worldwide, The Adventure company and Let's Trek Australia.

The Online Destination Services Sector improved like-for-like revenues by 28 per cent. to £168 million in the year (2003: £131 million) with total revenues including acquisitions growing to £210 million, an increase of 60 per cent. Profitability for the sector as a whole increased from £10.7 million to £11.2 million. Like-for-like operating profit growth was reduced by £2.8 million due to the start up costs relating to Hotelopia and the opening of new offices in four countries. Net operating margin was down as a consequence by 2.8 percentage points to 5.3 per cent. (2003: 8.1 per cent.). During the year ended 31 October 2004, businesses were either acquired or opened in the USA, the United Kingdom, Japan, the Netherlands, Croatia, Romania, Greece and Germany. 3.7 million passengers used the sector's services and 4.7 million bednights were sold online, an

increase of 131 per cent. in bednights over the previous year. In summer 2004, an online accommodation website for consumers, Hotelopia, was launched operating in the UK, the USA, Germany and the Netherlands.

The First Choice Group's joint venture with Royal Caribbean Cruises Ltd. achieved its first operating profit in 2003/4. First Choice's share of this profit was £0.4 million compared to a loss of £2.1 million in 2002/3.

2.8.2 Financial performance

Earnings per share and dividends

Basic earnings per ordinary share before goodwill amortisation and exceptional items was 10.8p (2003: 9.4p), an increase of 15 per cent.

The First Choice board recommended a final dividend per ordinary share of 3.75p (2003: 3.4p) an increase of ten per cent., making a total dividend for the year of 5.5p (2003: 5.0p), an increase of ten per cent.

Turnover

The First Choice Group's turnover for the year to 31 October 2004 was £2.350 billion (2003: £2.249 billion), an increase of 4.5 per cent. After excluding the effect of current year acquisitions, like-for-like turnover increased by four per cent. to £2.290 billion.

In the Mainstream Holidays sector, turnover declined by one per cent. to £1.174 billion (2003: £1.187 billion) due to a planned reduction in capacity of 4 per cent. and reduction in total passenger numbers of three per cent. The re-mix of the product away from the short-haul flight-only markets towards the medium and long-haul programmes continued. Volumes to short-haul destinations declined 11 per cent. year-on-year whilst in contrast, volumes to medium-haul and long-haul destinations increased year-on-year by two per cent. and seven per cent. respectively. Consequently, revenue on short-haul routes declined by nine per cent. year-on-year, whilst revenue on medium-haul routes increased by five per cent. and on long-haul routes it increased by six per cent.

Turnover grew by ten per cent. in the Specialist Holidays sector to £770 million (2003: £703 million) with passenger volumes increasing by 12 per cent. to 1.7 million (2003: 1.6 million). The European Specialist businesses increased passenger volumes by 16 per cent. to 1.5 million with revenue growing 15 per cent. as a result. The Canadian Specialist business reduced its capacity and passenger volumes declined four per cent. year-on-year as a result, with revenue declining six per cent. to £166 million (2003: £178 million).

In the Activity Holidays sector, revenues were up 6 per cent. year-on-year at £196 million (2003: £185 million). Revenues before acquisitions of £185 million were flat compared to the previous year as a result of a planned withdrawal from certain unprofitable revenue streams in the Ski business and a reduction in capacity in the Marine business. Revenue declined by four per cent. year-on-year in the Marine division, and by three per cent. in the Ski business as a result of these actions. These reductions were offset by strong volume-driven growth in the Activity Adventure businesses, where turnover was up on a like-for-like basis by 21 per cent. and acquisitions contributed a further £10 million of revenue growth. Total revenue therefore grew by 61 per cent. in total to £41.8m (2003: £26.0 million).

The Online Destination Services sector improved like-for-like revenues by 28 per cent. to £168 million in the year (2003: £131 million) with total revenues including acquisitions growing to £210 million, an increase of 60 per cent. Increased volumes were the main driver of the revenue growth, with Hotelbeds increasing the bednights sold in the year by 88 per cent. to 3.2 million, and Bedsonline growing by 348 per cent. in terms of bednights sold.

Profit before tax, goodwill amortisation and exceptional items

The First Choice Group achieved profit before tax, goodwill amortisation and exceptional items in the year ended 31 October 2004 of £98.3 million (2003: £87.1 million), up 13 per cent. Before acquisition profits of £1.9 million, underlying profits increased 10 per cent.

In the Mainstream Holidays sector operating profit for the year ended 31 October 2004 was up six per cent. to £48.5 million (2003: £45.6 million). As a result of reducing capacity by four per cent. to ensure supply and demand were matched, overall passenger numbers declined by three per cent. The consequent improvement in load factors enabled operating profit margins to improve by 0.3 percentage points to 4.1 per cent. (2003: 3.8 per cent.). A further driver of the improved profits in the Mainstream sector was the fact that the retail business broke even for the first time (2003: loss of £3 million). Holiday volumes increased by five per cent. at prices four per cent. above the previous year. In addition, the proportion of First Choice summer holidays sold through controlled distribution channels increased by six percentage points to 45 per cent.

The Specialist Holidays sector achieved an operating profit of £24.6 million (2003: £20 million) up £4.6 million (23 per cent.) year-on-year. The European division increased profits by £2.3 million or 11 per cent. to £23 million (2003: £20.7 million), with the Continental European businesses being the main profit drivers due to strong volume growth in France, Italy and Holland. The Canadian Specialist business turned a loss of £0.7 million in the year ended 31 October 2003 into a profit of £1.6 million in the year ended 31 October 2004, an overall improvement of £2.3 million. This improvement was mainly due to cost savings arising from the increased flexibility and control over aviation planning as noted in the operating review above. Restructuring of the back office also contributed to the profit improvement through cost savings.

The Activity Holidays sector achieved an operating profit of £15.1 million for the year ended 31 October 2004 (2003: £11.9 million), an increase of 27 per cent. Revenues before acquisitions of £185 million were flat compared to the previous year as a result of a planned withdrawal from certain unprofitable revenue streams in the Ski business and a reduction in capacity in the Marine business. The focus in the Marine division was on improvement in utilisation of the yacht and boat fleets as well as improving occupancy in Sunsail Clubs. These actions, combined with strong volume-driven growth in the Activity Adventure businesses, where turnover was up on a like-for-like basis by 21 per cent. and 61 per cent. in total, drove the increase in profitability of the sector.

The Online Destination Services sector operating profit was £11.2 million (2004: £10.7 million), up five per cent. year-on-year. This result reflects strong underlying growth offset by start up costs relating to Hotelopia and the opening of new offices in four countries.

Exceptional items

Exceptional costs for the year ended 31 October 2004 amounted to £0.2 million (2003: £16.8 million) and related to the loss on disposal of the First Choice Group's interest in the Barceló Retail businesses, and the gain on disposal of the First Choice Group's minority stake in the Globalia group of companies.

Liquidity and net indebtedness

The net cash inflow in the year from operating activities was £172.4 million (2003: £132.2 million). This included a working capital inflow of £34.5 million (2003: working capital inflow of £2.9 million) as the First Choice Group continued to have a strong focus on cash management. A total of £30.9 million was spent on acquisitions in the year, and the net cash inflow arising on the disposal of the First Choice Group's interest in the Barceló Retail businesses was £20.8 million.

The net cash position (cash and liquid investments less loans, overdrafts and finance leases) at the year-end was £220.7 million (2003: £149.1 million). This consisted of £292 million of cash and £71 million of debt.

Dear Sirs

TUI Travel PLC

We report on the special purpose financial information set out in Section B of this Part IX ("Financial Information on TUI Travel") below. This special purpose financial information has been prepared for inclusion in the prospectus dated 29 June 2007 (the "Prospectus") of TUI Travel PLC (the "Company") on the basis of the accounting policies set out in Note 2 to the financial information. This report is required by item 20.1 of Annex I to the PD Regulation and is given for the purpose of complying with that item and for no other purpose.

Responsibilities

The Directors of the Company are responsible for preparing the special purpose financial information in accordance with International Financial Reporting Standards as adopted by the European Union.

It is our responsibility to form an opinion as to whether the special purpose financial information gives a true and fair view, for the purposes of the Prospectus and to report our opinion to you.

PricewaterhouseCoopers LLP is a limited liability partnership registered in England with registered number OC303525. The registered office of PricewaterhouseCoopers LLP is 1 Embankment Place, London WC2N 6RH. PricewaterhouseCoopers LLP is authorised and regulated by the Financial Services Authority for designated investment business.

Part IX

Financial information on TUI Travel

This Part IX contains:

- in Section A, Accountant's Report in respect of the historical financial information relating to TUI Travel for the period ended 31 May 2007; and
- in Section B, historical financial information relating to TUI Travel for the period ended 31 May 2007.

29 June 2007

Dear Sirs

TUI Travel PLC

We report on the special purpose financial information set out in Section B of this Part IX ("Financial Information on TUI Travel") below. This special purpose financial information has been prepared for inclusion in the prospectus dated 29 June 2007 (the "Prospectus") of TUI Travel PLC (the "Company") on the basis of the accounting policies set out in Note 2 to the financial information. This report is required by item 20.1 of Annex I to the PD Regulation and is given for the purpose of complying with that item and for no other purpose.

Responsibilities

The Directors of the Company are responsible for preparing the special purpose financial information in accordance with International Financial Reporting Standards as adopted by the European Union.

It is our responsibility to form an opinion as to whether the special purpose financial information gives a true and fair view, for the purposes of the Prospectus and to report our opinion to you.

PricewaterhouseCoopers LLP is a limited liability partnership registered in England with registered number OC303525. The registered office of PricewaterhouseCoopers LLP is 1 Embankment Place, London WC2N 6RH. PricewaterhouseCoopers LLP is authorised and regulated by the Financial Services Authority for designated investment business.

Save for any responsibility which we may have to those persons to whom this report is expressly addressed and for any responsibility arising under item 5.5.3R(2)(f) of the Prospectus Rules to any person as and to the extent there provided, to the fullest extent permitted by law we do not assume any responsibility and will not accept any liability to any other person for any loss suffered by any such other person as a result of, arising out of, or in connection with this report or our statement, required by and given solely for the purposes of complying with item 23.1 of Annex I to the PD Regulation, consenting to its inclusion in the Prospectus.

Basis of opinion

We conducted our work in accordance with Standards for Investment Reporting issued by the Auditing Practices Board in the United Kingdom. Our work included an assessment of evidence relevant to the amounts and disclosures in the special purpose financial information. It also included an assessment of significant estimates and judgments made by those responsible for the preparation of the special purpose financial information and whether the accounting policies are appropriate to the Company's circumstances consistently applied and adequately disclosed.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the special purpose financial information is free from material misstatement, whether caused by fraud or other irregularity or error.

Opinion

In our opinion, the special purpose financial information gives, for the purposes of the Prospectus dated 29 June 2007, a true and fair view of the state of affairs of the Company as at the date stated and of its cash flows and changes in shareholders' equity for the period then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Declaration

For the purpose of Prospectus Rule 5.5.3R(2)(f) we are responsible for this report as part of the Prospectus and declare that we have taken all reasonable care to ensure that the information contained in this report is, to the best of our knowledge, in accordance with the facts and contains no omission likely to affect its import. This declaration is included in the Prospectus in compliance with item 1.2 of Annex I and item 1.2 of Annex III to the PD Regulation.

Yours faithfully

Notes to the Financial Information

1. Accounting convention

The financial information has been prepared under the historical cost convention.

History

The Company was incorporated as Coppereagle PLC on 29 January 2007 and is registered in England and Wales (registered number 06072876). On incorporation the Company had an issued share capital of two ordinary shares of £1 each, of which one was issued to TUI AG and one was issued to First Choice.

On 21 June 2007, the Company changed its name to TUI Travel PLC.

The Company has not traded and no dividends have been declared or paid.

2. Accounting policies

The principal accounting policies applied in the preparation of the financial information presented in this document are set out below.

Basis of preparation

The financial information has been prepared on a going concern basis in accordance with International Financial Reporting Standards as adopted by the European Union (Adopted IFRSs).

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits as well as other current highly liquid financial assets with an original term of a maximum of three months. Credit balances in current accounts are shown as overdrafts under current interest-bearing loans and borrowings, unless they form part of the Group's cash pooling arrangements in which case the aggregate balance of cash pooling accounts is included in either cash and cash equivalents or current interest-bearing loans and borrowings as appropriate.

Dividends

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's financial statements in the period in which the dividends are appropriately authorised and approved for payment and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial information.

3. Called up share capital

	Ordinary £1 shares	
	Number	£
Authorised	100,000	100,000
Allotted, issued and fully paid	2	2

On 29 January 2007 the Company issued two ordinary shares of £1 each at par which were fully paid.

4. Commitments

Since incorporation the Company has entered into the following agreements:

Merger Agreement

On 19 March 2007, TUI AG, First Choice and TUI Travel entered into the Merger Agreement in connection with the Merger. The Merger Agreement sets out the terms on which TUI Travel will acquire each of First Choice and TUI Tourism.

Under the Merger Agreement, the Merger will be effected by the acquisition by TUI Travel of TUI AG and First Choice. TUI Travel will acquire TUI Tourism in consideration for the issue to TUI AG of 51 per cent. of the share capital of TUI Travel and will acquire First Choice in consideration for the issue to First Choice Shareholders of 49 per cent. of the share capital of TUI Travel (on a fully diluted basis).

The Merger Agreement may be terminated by TUI AG or First Choice in certain circumstances. If the Scheme and the reduction of capital have not become effective by 31 October 2007, the Merger Agreement shall automatically terminate.

Relationship Agreement

Following completion, TUI AG will hold 51 per cent. of the TUI Travel Shares on a fully diluted basis. The Relationship Agreement was entered into on 29 June 2007 to take effect conditional upon Completion and records the understanding between TUI AG and TUI Travel regarding the relationship between them and the governance of TUI Travel.

The Relationship Agreement sets out certain conditions such as those in relation to the composition of the Board, in relation to transactions by TUI AG in respect of TUI Travel shares and approval of certain TUI Travel transactions.

The Relationship Agreement remains in force until TUI AG holds less than ten per cent. of the rights to vote at general meetings of TUI Travel.

Sponsors' Agreement

The Sponsors' Agreement was entered into on 29 June 2007 by TUI Travel and Deutsche Bank, Lazard and Morgan Stanley (the "Joint Sponsors"). Under the terms of the Sponsors' Agreement, TUI Travel appoints each of the Joint Sponsors to act as TUI Travel's sponsor in connection with the Admission. TUI Travel has undertaken to pay certain costs, charges, fees and expenses and to reimburse the Joint Sponsors for certain costs incurred in connection with Admission. Pursuant to the terms of the agreement, TUI Travel has also given certain representations, warranties and undertakings to the Joint Sponsors in connection with the Merger and Admission.

The Sponsors' Agreement may be terminated by any party prior to Admission in certain circumstances. The Joint Sponsors may terminate for failure to satisfy the conditions to the Merger.

The Shareholder Loan Agreement

On 29 June 2007 the Company entered into the Shareholder Loan Agreement with TUI AG under the terms of which TUI AG will lend a maximum amount of €2 billion (£1.4 billion) to the Company for general corporate purposes. The facility remains available in its entirety for a period of three years after the Company is no longer restricted from raising external finance under the terms of the Relationship Agreement. The loan is available to be drawn down only on completion. Any amounts repaid under the facility cannot be redrawn.

Hotel Framework Agreement

TUI AG and the Company entered into an agreement on 26 June 2007 which gives the Company continued access to the hotel operations retained by TUI AG.

The agreement expires on 31 October 2011.

Credit facility agreement

The Company entered into a five year credit facility agreement on 29 June 2007 with Barclays Capital, The Royal Bank of Scotland plc and Société Générale Corporate & Investment Banking which provides a £600 million credit facility. Interest is payable based upon LIBOR (or EURIBOR) plus a 0.75 per cent. margin.

Bonding facility agreement

On 29 June 2007 the Company entered into a £400 million bonding facility agreement with Barclays Capital, The Royal Bank of Scotland and Société Générale Corporate & Investment Banking. The final maturity date of the facility is 31 March 2008.

5. Post balance sheet events

The following alterations to the authorised and issued share capital of the Company have taken place since 31 May 2007:

- on 19 June 2007, a written shareholders' resolution was passed re-designating and converting 49,998 authorised but unissued ordinary shares into Redeemable Preference Shares of £1 each which will be redeemed automatically upon Admission (subject to the availability of sufficient distributable reserves);
- on 28 June 2007 each issued and unissued share of £1 each was sub-divided into 10 ordinary shares of 10 pence each;
- on 28 June 2007, the authorised share capital was increased from £100,000 to £200,000,000 by the creation of 1,999,000,000 ordinary shares of 10 pence each.

Capitalisation and Indebtedness of TUI Travel

The following tables show the capitalisation of TUI Travel as at 31 May 2007 and the indebtedness of TUI Travel as at 31 May 2007:

Capitalisation and indebtedness[1][2][3]	£

29 June 2007

Dear Sirs

TUI Travel PLC (the "Company")

We report on the pro forma financial information (the "Pro forma financial information") set out in Section B of this Part X of the Company's prospectus dated 29 June 2007 (the "Prospectus") which has been prepared on the basis described in the notes to the Pro forma financial information, for illustrative purposes only, to provide information about how the Merger, will be effected through the acquisition by TUI Travel PLC of each of TUI Tourism and First Choice, might have affected the financial information presented on the basis of the accounting policies to be adopted by the Company in preparing its next financial statements. This report is required by item 20.2 of Annex I to the PD Regulation and is given for the purpose of complying with that PD Regulation and for no other purpose.

Responsibilities

It is the responsibility of the Directors of the Company to prepare the Pro forma financial information in accordance with item 20.2 of Annex I to the PD Regulation.

PricewaterhouseCoopers LLP is a limited liability partnership registered in England with registered number OC303525. The registered office of PricewaterhouseCoopers LLP is 1 Embankment Place, London WC2N 6RH. PricewaterhouseCoopers LLP is authorised and regulated by the Financial Services Authority for designated investment business.

It is our responsibility to form an opinion, as required by item 7 of Annex II to the PD Regulation Rules as to the proper compilation of the Pro forma financial information and to report our opinion to you.

In providing this opinion we are not updating or refreshing any reports or opinions previously made by us on any financial information used in the compilation of the Pro forma financial information, nor do we accept and have been informed by PricewaterhouseCoopers AG that they do not accept, responsibility for such reports or opinions beyond that owed to those to whom those reports or opinions were addressed by us or them at the dates of their issue.

Save for any responsibility which we may have to those persons to whom this report is expressly addressed and for any responsibility arising under item 5.5.3R(2)(f) of the Prospectus Rules to any person as and to the extent there provided, to the fullest extent permitted by law we do not assume any responsibility and will not accept any liability to any other person for any loss suffered by any such other person as a result of, arising out of, or in connection with this report or our statement, required by and given solely for the purposes of complying with item 23.1 of Annex I to the PD Regulation, consenting to its inclusion in the Prospectus.

Basis of opinion

We conducted our work in accordance with the Standards for Investment Reporting issued by the Auditing Practices Board in the United Kingdom. The work that we performed for the purpose of making this report, which involved no independent examination of any of the underlying financial information, consisted primarily of comparing the unadjusted financial information with the source documents, considering the evidence supporting the adjustments and discussing the Pro forma financial information with the directors of the Company.

We planned and performed our work so as to obtain the information and explanations we considered necessary in order to provide us with reasonable assurance that the Pro forma financial information has been properly compiled on the basis stated and that such basis is consistent with the accounting policies of the Company.

Opinion

In our opinion:

(a) the Pro forma financial information has been properly compiled on the basis stated; and

(b) such basis is consistent with the accounting policies of the Company.

Declaration

For the purpose of Prospectus Rule 5.5.3R(2)(f), we are responsible for this report as part of the Prospectus and we declare that we have taken all reasonable care to ensure that the information contained in this report is, to the best of our knowledge, in accordance with the facts and contains no omission likely to affect its import. This declaration is included in the Prospectus in compliance with item 1.2 of Annex I and item 1.2 of Annex III to the PD Regulation.

Yours faithfully

PricewaterhouseCoopers LLP
Chartered Accountants

Section B

Unaudited Pro forma Financial Information

The unaudited pro forma income statement and unaudited pro forma net assets statement set out below have been prepared for illustrative purposes only and in accordance with Annex II of the Prospectus Directive Regulation and on the basis of the notes set out below. The unaudited pro forma income statement has been prepared to illustrate the effect on TUI Travel as if the proposed merger had taken place on 1 January 2006. The unaudited pro forma net assets statement has been prepared to illustrate the effect on the net assets of TUI Travel as if the proposed merger had taken place on 31 May 2007. As a result of their nature, the pro forma income statement and pro forma net assets statement address a hypothetical situation and, therefore, do not represent the Enlarged Group's actual financial result or financial position following the Merger.

The unaudited pro forma income statement and unaudited pro forma net assets statement have been compiled from the income statements and net assets statements of TUI Travel at 31 May 2007 and the period then ended, of First Choice at 30 April 2007 (in respect of the net assets statement) and the year ended 31 October 2006 (in respect of the income statement), and of TUI Tourism at 31 December 2006 and the year then ended as set out in the Historical Financial Information in Section B of Part IX, Section B of Part VII and Section B of Part V respectively.

The unaudited pro forma income statement and unaudited pro forma net assets statement of the Enlarged Group does not constitute financial statements within the meaning of section 240 of the Companies Act 1985.

Unaudited Pro forma Income Statement

		Adjustments

Notes

(1) The figures for TUI Travel are extracted without material adjustment from the Financial Information on TUI Travel as set out in Section B of Part IX of this document.

(2) The figures for First Choice have been extracted without material adjustment from the Historical Financial Information on First Choice as set out in Section B of Part VII of this document.

(3) The figures for TUI Tourism have been extracted without material adjustment from the Historical Financial Information on TUI Tourism as set out in Section B of Part V of this document and translated into sterling at the rate of €1.00 : £0.683.

(4) The proposed combination has been accounted for as follows: the combination of TUI Tourism and TUI Travel is deemed to be a common control transaction and is therefore outside the scope of IFRS 3, "Business combinations"; it has been accounted for under merger accounting rules using predecessor values for TUI Tourism. The combination with First Choice has been treated as an acquisition in accordance with IFRS 3.

(5) No adjustments have been made to the values of the individual net assets of First Choice to reflect any restatement to fair value which may arise on the acquisition. The gross difference between the net assets of First Choice as reported at 30 April 2007 and the sum of the estimated consideration and TUI Travel's transaction expenses has therefore been presented as a single value in "goodwill". Following Completion, the carrying values of the assets and liabilities of First Choice will be restated to their fair values at the date of Completion. The estimated consideration for the acquisition of First Choice is £1,636.8m (€2,396.3m), based on the closing price of First Choice shares at 27 June 2007, being the latest practicable Business Day before publication of this document. The estimated transaction costs are based on the TUI Travel Directors' latest estimate of TUI Travel's transaction costs and other cost directly attributable to the combination.

The goodwill arising on this basis had been calculated as follows:

	£m
Estimated consideration	1,636.8
Estimated transaction costs and other costs directly attributable to the combination	27.0
	1,663.8
less: Reported value of First Choice net assets	(166.0)
Goodwill	1,497.8

(6) The terms of the Merger Agreement state that on Completion, TUI Travel will assume target net debt of €875m (£597.6m) (inclusive of pension liabilities), further details of which are found in paragraph 4 of Part III. This has been reflected in the pro forma net asset statement by the adjustment of £817.8m (€1,197.5m). In addition the Merger Agreement states that on Completion working capital must be in line with target working capital which is to be agreed between the parties. The difference between the target working capital amount and the actual amount of working capital as at 31 December 2006 has been reflected as a further adjustment of £302.7m (€443.3m). The actual net debt and working capital adjustments will be calculated using balance sheet values at the date of Completion and will therefore differ from the adjustments calculated for the illustrative purposes of this statement.

(7) The adjustment made for €2,000.0m (£1,366.1m) to cash and non-current liabilities represents the drawdown of the facility under the Shareholder Loan Agreement on Completion, further details of which are contained in paragraph 12.1.3 in Part XI.

(8) No account has been taken of the trading activity or other transactions of TUI Tourism for the period since 31 December 2006 nor First Choice for the period since 31 October 2006 for the pro forma income statement or for the period since 30 April 2007 for the pro forma net assets statement or of the trading activity or other transactions of TUI Travel since 31 May 2007.

Part XI

Additional information

1. Responsibility

TUI Travel and the Directors, whose names appear on page 15 of this document, accept responsibility for the information contained in this document. To the best of the knowledge and belief of TUI Travel and the Directors (who have taken all reasonable care to ensure that such is the case), such information is in accordance with the facts and contains no omissions likely to affect the import of such information.

2. Incorporation

TUI Travel was incorporated and registered in England and Wales on 29 January 2007, under the name Coppereagle PLC, with registered number 06072876 as a public limited company. By virtue of a special resolution dated 19 June 2007, Coppereagle PLC changed its name to TUI Travel PLC on 21 June 2007.

The principal legislation under which TUI Travel operates, and pursuant to which the TUI Travel Shares will be created, are the Companies Acts and regulations made thereunder.

TUI Travel is domiciled in England and Wales and its registered and head office is at First Choice House, London Road, Crawley, West Sussex RH10 9GX (telephone number 01293 560777).

Following Admission, the TUI Travel Shares will be listed on the Official List of the London Stock Exchange. The TUI Travel Shares will be in registered form and may be held in either certificated or uncertificated form.

3. Share Capital

TUI Travel was incorporated with an authorised share capital of £100,000 divided into 100,000 shares of £1 each. On incorporation TUI Travel had an issued share capital of two ordinary shares of £1 each, of which one was issued to TUI AG and one was issued to First Choice.

The following alterations to the authorised and issued share capital of TUI Travel have taken place since its incorporation:

- on 19 June 2007, a written shareholders' resolution was passed re-designating and converting 49,998 authorised but unissued ordinary shares into Redeemable Preference Shares of £1 each which will be redeemed automatically upon Admission (subject to the availability of sufficient distributable reserves). The Redeemable Preference Shares will have the rights and restrictions described in paragraph 4 of this Part XI;
- on 28 June 2007, each issued and unissued ordinary share of £1 each was sub-divided into ten ordinary shares of ten pence each; and
- on 28 June 2007, the authorised share capital was increased from £100,000 to £200,000,000 by the creation of 1,999,000,000 ordinary shares of ten pence each.

The following table shows the authorised and issued share capital of TUI Travel as at 28 June 2007 and the authorised and issued share capital of TUI Travel following Completion:

	28 June 2007		Following Completion	
	Number	Nominal amount per share	Number	Nominal amount per share
Authorised	1,000,000	10p	2,000,000,000	10p
Issued and fully paid TUI Travel Shares	20	10p	1,118,034,859(1)	10p
Issued and fully paid Reedemable Preference Shares	49,998	£1	Nil	Nil

(1) The number of TUI Travel Shares in issue following Completion assumes that the maximum number of TUI Travel Shares will be issued in connection with the Merger and that no further TUI Travel Shares will be issued between the publication of this document and the Effective Date.

Existing Shareholder Authorities

On 28 June 2007:

(i) a resolution was passed by the members of the TUI Travel generally and unconditionally authorising the Directors, pursuant to section 80 of the Companies Act 1985, to exercise all the powers of TUI Travel to allot relevant securities (within the meaning of section 80(2) of the Companies Act 1985) up to an aggregate nominal amount of £200,000,000 to such persons at such times and on such terms as the Directors may think fit. Such authority is to be in substitution for any and all existing authorities provided that such authority is to expire immediately following Admission.

(ii) a resolution was passed by the members of TUI Travel generally empowering the Directors, pursuant to section 95 of the Companies Act 1985, to allot equity securities (within the meaning of section 94(2) of the Companies Act 1985) for cash pursuant to the authority conferred by the resolution referred to in sub-paragraph (i) above as if section 89(1) of the Companies Act 1985 did not apply to such allotment. Such power is to expire upon the expiry of the resolution described in sub-paragraph (i) above.

(iii) a resolution was passed by the members of the TUI Travel generally and unconditionally authorising the Directors from the expiry of the authority referred to in sub clause (i) above, pursuant to section 80 of the Companies Act 1985, to exercise all of the powers of the Company to allot relevant securities (within the meaning of section 80(2) of the Companies Act 1985) up to an aggregate nominal amount of £38,000,000 or such lesser amount as shall equal one-third of the nominal value of the issued ordinary share capital of the Company immediately following Admission) for a period expiring (unless previously renewed, varied or revoked by the Company in a general meeting) five years after the date of the passing of such resolution, but so that the Company may make offers or agreements which would or might require relevant securities to be allotted after the expiry of such authority and the Directors of the Company may allot relevant securities in pursuance of such offers or agreements as if the authority had not expired.

(iv) a resolution was passed by the members of TUI Travel generally empowering the Directors with effect from the expiry of the authority specified in sub paragraph (ii) above, pursuant to section 95 of the Companies Act 1985, to allot equity securities (within the meaning of section 94(2) of the Companies Act 1985) for cash pursuant to the authority conferred on them by the resolution referred to in sub-paragraph (iii) above or by way of a sale of treasury shares as if section 89(1) of the Companies Act 1985 did not apply to such allotment. Such power, unless previously revoked, is to expire five years after the date of the passing of this resolution, save that the Company may make offers or agreements which would or might require equity securities to be allotted after the expiry of such power and the Directors of the Company may allot equity securities in pursuance of such offers or agreements as if such power had not expired), such power being limited to:

  (a) the allotment of equity securities in connection with a rights issue, open offer or other offer of securities in favour of equity shareholders where the equity securities respectively attributable to the interests of the equity shareholders are proportionate (as near as may be) to the respective number of equity shares held by them, subject to such exclusions or other arrangements as the Directors may deem necessary or expedient to deal with treasury shares, fractional entitlements or legal or practical problems arising under the laws of any overseas territory or the requirements of any regulatory body or any stock exchange or any other matter whatsoever; and

  (b) the allotment of equity securities, otherwise than pursuant to paragraph (a) above, up to an aggregate nominal amount equal to five per cent. of the nominal value of the issued ordinary share capital of the Company immediately following Admission;

(v) a resolution was passed by the members of TUI Travel, subject to and conditional upon Admission, authorising the Company generally and unconditionally to make market purchases (within the meaning of section 163(3) of the Companies Act 1985) of ordinary shares of ten pence each of the Company provided that:

(a) the maximum number of ordinary shares of ten pence each hereby authorised to be acquired is an amount equal to ten per cent. of the ordinary share capital of the Company immediately following Admission;

(b) the minimum price which may be paid for any such ordinary share is the nominal value of such ordinary share being ten pence;

(c) the maximum price which may be paid for any such ordinary share is an amount equal to 105 per cent. of the average of the middle market quotations for an ordinary share in the Company as derived from The London Stock Exchange Daily Official List for the five business days immediately preceding the day on which such share is contracted to be purchased;

(d) the authority hereby conferred shall expire at the conclusion of the next annual general meeting of the Company; and

(e) the Company may make a contract to purchase its ordinary shares under the authority hereby conferred prior to the expiry of such authority, which contract will or may be executed wholly or partly after the expiry of such authority, and may purchase its ordinary shares in pursuance of any such contract.

General Confirmations

None of the TUI Travel Shares has been marketed or are being made available to the public in whole or in part in conjunction with the application for listing of the TUI Travel Shares. All of the TUI Travel Shares to be issued in connection with the Merger will be allotted and issued to TUI AG and First Choice Shareholders under the terms of the Merger.

Save as disclosed in this paragraph 3, during the three years immediately preceding the date of this document, there has been no issue of TUI Travel's share capital fully or partly paid for cash or other consideration and no such issues are proposed and no share capital of TUI Travel or any of its subsidiaries is under option or agreed, conditionally or unconditionally, to be put under option.

Shares not Representing Capital

TUI Travel does not have any shares not representing capital.

4. Memorandum and Articles

The Memorandum and Articles are available for inspection at the dates, times and places described in paragraph 23 of this Part XI.

4.1 Memorandum

The Memorandum provides that the Company's principal objects include the carrying on of business as a holding and general commercial company.

The objects of the Company are set out in full in clause 4 of the Memorandum.

4.2 Articles

The Articles, which were adopted pursuant to a special resolution on 28 June 2007 contain (among others) provisions to the following effect:

Issue of shares

Subject to the provisions of the Companies Acts and without prejudice to any rights attaching to any existing shares, any share may be issued with such rights or restrictions as the Company may by ordinary resolution determine (or in absence of such resolution, as the Directors may determine). Redeemable Shares may be issued. Subject to the provisions of the Companies Acts and the Articles, the unissued shares in the Company shall be at the disposal of the Directors.

Changes to the share capital

The Company may (by ordinary resolution) increase its share capital, consolidate and divide all or any of its share capital into shares of larger amount than its existing shares, and (subject to the Companies Acts), sub-divide its shares (or any of them). The Company may (by special resolution and subject to the Companies Acts) reduce its share capital, any capital redemption reserve and any share premium reserve, in any way.

Purchase of own shares

Subject to the provisions of the Companies Acts, the Company may purchase its own shares (including redeemable shares) and may hold such shares as treasury shares or cancel them.

Dividends

Subject to the provisions of the Companies Acts, the Company may by ordinary resolution declare dividends not exceeding the amount recommended by the Directors. Subject to the provisions of the Companies Acts, the Directors may pay interim dividends, or dividends payable at a fixed rate, if it appears to them that they are justified by the profits of the Company available for distribution. If the Directors act in good faith they shall not incur any liability to the holders of shares conferring preferred rights for any loss they may suffer by the lawful payment of an interim dividend on any shares having deferred or non-preferred rights.

Subject to the provisions of the Companies Acts and except as otherwise provided by the Articles or the rights attached to shares, all dividends shall be declared and paid according to the amounts paid up on the shares on which the dividend is paid. If any share is issued on terms that it ranks for dividend as from a particular date, it shall rank for dividend accordingly. In any other case, dividends shall be apportioned and paid proportionately to the amounts paid up on the shares during any portion(s) of the period in respect of which the dividend is paid.

With the authority of an ordinary resolution of the Company, the Directors may offer any holders of ordinary shares the right to elect to receive ordinary shares, credited as fully paid, instead of cash in respect of the whole (or some part, to be determined by the Directors) of any dividend specified by the ordinary resolution.

Notwithstanding any other provision of the Articles but without prejudice to the rights attached to any shares, the Company or the Directors may fix a date as the record date by reference to which a dividend will be declared or paid or a distribution, allotment or issue made, and that date may be before, on or after the date on which the dividend, distribution, allotment or issue is declared, paid or made.

No dividends or other money payable in respect of a share shall bear interest against the Company, unless otherwise provided by the rights attached to the share.

The Company may cease to send any cheque or warrant (or to use any other method of payment) for any dividend payable in respect of a share if at least two consecutive payments have remained uncashed or are returned undelivered (or that method of payment has failed) or following one such occasion reasonable enquiries have failed to establish any new address of the holder.

Subject to the Articles, the Company may recommence sending cheques or warrants (or using another method of payment) for dividends payable on that share if the person or persons entitled so request.

Any dividend which has remained unclaimed for twelve years from the date when it became due for payment shall, if the Directors so resolve, be forfeited and cease to remain owing by the Company.

Voting rights

Subject to any rights or restrictions attached to any shares and to the provisions of the Companies Acts, every member present in person or, for a corporation, present by a duly authorised

representative, not himself a member entitled to vote, shall have one vote on a show of hands and on a poll every member shall have one vote for every share of which he is the holder.

In the case of joint holders, the vote of the person who stands first in the register of members and who tenders a vote shall be accepted to the exclusion of any votes tendered by the other joint holders.

Transfer of the shares

A share in certificated form may be transferred by an instrument of transfer, which may be in any usual form or in any other form approved by the Directors, executed by or on behalf of the transferor and, where the share is not fully paid, by or on behalf of the transferee. A share in uncertificated form may be transferred by means of the relevant system concerned.

In their absolute discretion and without giving any reasons, the Directors may refuse to register the transfer of a share in certificated form which is not fully paid provided that if the share is listed on the Official List such refusal does not prevent dealings in the shares from taking place on an open and proper basis. The Directors may also refuse to register a transfer of a share in certificated form unless the instrument of transfer is (i) lodged, duly stamped, at the registered office of the Company or such other place as the Directors may appoint and is accompanied by the certificate for the share to which it relates and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer (ii) is in respect of only one class of share and (iii) is not in favour of more than four transferees.

The Directors may refuse to register a transfer of a share in uncertificated form to a person who is to hold it thereafter in certificated form in any case where the Company is entitled to refuse to register the transfer under the Uncertificated Securities Regulations.

If the Directors refuse to register a transfer of a share, they shall send the transferee notice of that refusal within two months after the date on which the transfer was lodged with the Company (for the transfer of a share in certificated form) or the date the operator-instruction was received by the Company (for the transfer of share in uncertificated form which will be held thereafter in certificated form).

Subject to the Uncertificated Securities Regulations, the registration of transfers of shares or of any class of shares may be suspended at such times and for such periods (not exceeding thirty days in any year) as the Directors may determine.

No fee shall be charged for the registration of any instrument of transfer or other document or instruction relating to or affecting the title to any share.

Distribution of assets on a winding-up

On a winding up, the liquidator may, with the sanction of an extraordinary resolution and any other sanction required by law and subject to the Companies Acts, divide among the members in specie all or any part of the assets of the Company.

Restrictions on rights

If a member, or any other person appearing to be interested in shares held by that member, fails to provide the information requested in a notice given to him/her under section 793 of the Companies Act 2006 by the Company in relation to his/her interest in shares (the "default shares") within 14 days of the notice, sanctions shall apply unless the Directors determine otherwise. The sanctions available are the suspension of the right to attend or vote (whether in person or by representative or proxy) at any general meeting or any separate meeting of the holders of any class or on any poll and where the default shares represent at least 0.25 per cent. of their class (excluding treasury shares) also the withholding of any dividend payable in respect of those shares and the restriction of the transfer of any shares (subject to certain exceptions).

Untraced members

The Company shall be entitled to sell at the best price reasonably obtainable any share held by a member, or any share to which a person is entitled by transmission, if (i) for a period of 12 years, during which at least three dividends in respect of the share have become payable, no cheque or warrant or other method of payment for amounts payable in respect of the share sent and payable in a manner authorised by the Articles has been cashed or been successful and no communication has been received by the Company from the member or person concerned; (ii) the Company has, after the expiration of that period, by advertisement in a national newspaper published in the UK and in a newspaper circulating in the area of the registered address or last known address of the member or person concerned, given notice of its intention to sell such a share; and (iii) the Company has not during the further period of three months after the date of the advertisement and prior to the sale of the share received any communication from the member or person concerned.

The Company shall be indebted to the member or other person entitled to the share for an amount equal to the net proceeds of the sale, but no trust or duty to account shall arise and no interest shall be payable in respect of the proceeds of sale.

If on three consecutive occasions notices, documents or information sent or supplied to a member have been returned undelivered, the member shall not be entitled to receive any subsequent notice, document or information until he has supplied to the Company a new registered address, or a postal address within the UK, or shall have informed the Company, in such manner as may be specified by the Company, of an electronic address.

Variation of rights

Subject to the provisions of the Companies Acts, if the capital of the Company is divided into different classes of shares, the rights attaching to any class may be varied in such manner (if any) as may be provided by those rights or, if there are no such provisions, either with the written consent of the holders of three quarters in nominal value of the issued shares of that class (not including any treasury shares) or with the sanction of an extraordinary resolution passed at a separate meeting of the holders of such shares. To every such separate meeting, the provisions of the Articles relating to general meetings shall apply except that the quorum for any such meeting shall be two persons together holding or representing by proxy at least one third in nominal value of the issued shares of the class in question (excluding treasury shares). At an adjourned meeting the quorum shall be one person holding shares of the class in question (excluding treasury shares) or his proxy.

Unless otherwise expressly provided by the rights attached to any class of shares, those rights shall be deemed not to be varied by the purchase by the Company of any of its own shares or the holding of such shares in treasury.

Appointment of Directors

Unless the Company determines otherwise by ordinary resolution, the number of Directors (other than alternate Directors) shall not be less than two nor more than 17. The Directors need not be members of the Company.

Subject to the Articles, the Company may by ordinary resolution appoint a person who is willing to act to be a director either to fill a vacancy or as an additional director. The directors may appoint a person who is willing to act to be a director (either to fill a vacancy or as an additional director) provided that the appointment does not cause the number of directors to exceed any number fixed as the maximum number of directors. A person appointed as a director by the other directors is required to retire at the next annual general meeting and shall then be eligible for reappointment, but shall not be taken into account in determining the directors who are to retire by rotation.

Other than a director retiring at the meeting, no person shall be appointed or reappointed a director at any general meeting unless he is recommended by the directors or notice of the intention to propose such person for appointment or reappointment executed by a member qualified to vote on the appointment or reappointment is given to the Company not less than seven nor more than 35 days before the date appointed for the meeting.

Retirement of Directors

At each annual general meeting of the Company one-third (or, if their number is not three or a multiple of three, the number nearest to one-third) of the Directors who are subject to retirement by rotation shall retire from office.

Subject to the Companies Acts and the Articles, the Directors to retire by rotation are those who have been longest in office since their last appointment or reappointment, but, as between persons who became or were last reappointed directors on the same day, those to retire shall (unless otherwise agreed) be determined by lot. Notwithstanding the foregoing, each Director shall retire from office no later than the third annual general meeting following the annual general meeting of his appointment or reappointment.

If the Company does not fill the vacancy the retiring Director shall, if willing to act, be deemed to have been reappointed unless at the meeting it is resolved not to fill the vacancy or a resolution for the reappointment of the Director is put to the meeting and lost. If a Director retiring by rotation is not reappointed or deemed to have been reappointed, he shall retain office until the meeting elects someone in his place or, if it does not do so, until the end of the meeting.

Removal

Without prejudice to the provisions of the Companies Acts, the Company may remove a Director before the expiration of his period of office by extraordinary resolution.

The office of a Director shall be vacated if: (i) he ceases to be a Director by virtue of any provision of the Companies Acts or he becomes prohibited by law from being a Director; or (ii) he becomes bankrupt or makes any arrangement or composition with his creditors generally; or (iii) he is, or may be, suffering from mental disorder and either he is admitted to hospital in pursuance of an application for admission under the Mental Health Act 1983 or under the Mental Health (Scotland) Act 1984, or an order is made by a court having jurisdiction in matters concerning mental disorder for his detention or for the appointment of any person to exercise powers with respect to his property or affairs; or (iv) he resigns his office by notice in writing to the Company; or (v) in the case of a Director who holds any executive office, his appointment as such is terminated or expires and the Directors resolve that his office be vacated; or (vi) he is absent for more than six months consecutively without permission of the Directors from the meeting of the Directors held during that period and the Directors resolve that his office be vacated; or (vii) a notice in writing is served upon him signed by all other Directors for the time being to the effect that his office as Director shall on receipt of such notice be vacated.

Powers of Directors

The business of the Company shall be managed by the Directors. Subject to the provisions of the Companies Acts, the Memorandum and the Articles and to any directions given by special resolution, they may exercise all the powers of the Company. The Directors may appoint one or more of their number to any executive office under the Company for such term, at such remuneration and such other conditions as the Directors think fit (subject to the provisions of the Companies Acts). The Directors may delegate any of their powers to any managing Director, any Director holding any other executive office or any other Director; any committee consisting of one or more Directors and (if thought fit) one or more other persons; and any local board or agency for managing the affairs of the Company either in the UK or elsewhere. Any Director (other than an alternate Director) may appoint any other Director, or any other person approved by resolution of the Directors, to be an alternate Director and may remove such an alternate Director from office.

Voting at board meetings

No business shall be transacted to any meeting of the Directors unless a quorum is present and the quorum may be fixed by the Directors; unless so fixed at any other number it shall be two. Questions arising at a meeting of the Directors shall be decided by a majority of votes. In the case of an equality of votes, the chairman shall have a second or casting vote.

Restrictions on voting

Save as otherwise provided by the Articles, a Director shall not vote, or count in the quorum present, at a meeting of Directors on any resolution concerning a matter in which he has, directly or indirectly, a material interest (other than an interest in securities of, or otherwise in or through, the Company) unless his interests arises only because the case falls within one or more of the following:

(i) the resolution relates to the giving to him of a guarantee, security, or indemnity in respect of money lent to, or an obligation incurred by him for the benefit of, the Company or any of its subsidiary undertakings;

(ii) the resolution relates to the giving to a third party of a guarantee, security or indemnity in respect of an obligation of the Company or any of its subsidiary undertakings for which the Director has assumed responsibility in whole or in part and whether alone or jointly with others under a guarantee or indemnity or by the giving of security;

(iii) his interest arises by virtue of his being, or intending to become, a participant in the underwriting or sub-underwriting of an offer of any shares in or debentures or other securities of the Company for subscription, purchase or exchange;

(iv) the resolution relates in any way to a retirement benefit scheme which has been approved, or is conditional upon approval, by HMRC for taxation purposes;

(v) the resolution relates to an arrangement for the benefit of employees of the Company or any of its subsidiary undertakings including but not limited to an employees' share scheme which does not accord a Director any privilege or advantage not generally accorded to the employees to whom the arrangement relates;

(vi) the resolution relates to a transaction or arrangement with any other company in which he is interested, directly or indirectly, provided that he is not the holder of or beneficially interested in one per cent. or more of any class of the equity share capital of that company (or of any other company through which his interest is derived) and he is not entitled to exercise one per cent. or more of the voting rights available to the members of the relevant company;

(vii) the resolution relates to the purchase or maintenance for any Director or Directors of insurance against liability.

Directors' interests

Subject of the provisions of the Companies Acts and provided that the Director has disclosed to the other Directors the nature and extent of any material interest of his, a Director, notwithstanding his office; (i) may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is otherwise interested; (ii) may be a Director or other officer of, or employed by, or a party to any transaction or arrangement with or otherwise interested in, any body corporate promoted by the Company or in which the Company is otherwise interested; and (iii) shall not, by reason of his office, be accountable to the Company for any benefit he derives from such office or employment or from any such transaction or arrangement or from any interest in any such body corporate and no such transaction or arrangement shall be liable to be avoided on the grounds of such interest or benefit.

Non-Executive Directors' remuneration and expenses

Until otherwise determined by the Company by ordinary resolution, the Non-Executive Directors (other than alternate Directors) shall be paid such fees for their services in the office of Director as the Directors may determine (not exceeding in aggregate an annual sum of £1,500,000 or such larger amount as the Company may by ordinary resolution decide) divided by the Directors as they may determine or, failing such determination, equally.

The Director may also be paid expenses properly incurred by them in connection with their attendance at meetings of the Directors or of committees of the Directors or general meetings or separate meetings of any holders in any class of shares or otherwise in connection with the discharge of their duties as Directors.

Any Director who performs, or undertakes to perform, services which the Directors consider go beyond the ordinary duties of a Director may be paid such special remuneration as the Directors may determine.

Directors' gratuities and pensions

The directors may provide benefits, whether by payments of gratuities or pensions, or by insurance or death or disability benefits or otherwise, for any director or any former director who holds or has held but no longer holds any executive office or employment with the Company or with any body corporate which is or has been a subsidiary of the Company or a predecessor in the business of the Company or of any such subsidiary, and for any member of his family (including a spouse and civil partner or a former spouse and former civil partner) or any such person who is or was dependent on him and may (both before and after he ceases to hold such office or employment) contribute to any fund and pay premiums for the purchase or provision of any such benefit.

Indemnity

Subject to provisions of the Companies Acts, the Company may indemnify any person who is or was a Director directly or indirectly (including by funding any expenditure incurred or to be incurred by him) against any loss or liability whether in connection with any proved or alleged negligence, default, breach of duty or breach of trust or otherwise in relation to the Company or any associated company and/or may purchase and maintain for any such person insurance in relation to the same.

General Meetings

All meetings shall be called extraordinary general meetings other than the annual general meeting. Meetings may be called by the Directors. If there are not within the UK sufficient Directors to call a general meeting, any Director, or if there is no Director, any member of the Company may call a general meeting.

Subject to the provisions of the Companies Acts, at least 21 days' notice must be given for an annual general meeting and an extraordinary general meeting called for the passing of a special resolution. All other extraordinary general meetings require at least 14 days' notice to be given.

The notice of the meeting must specify the place, day and time of the meeting and the general nature of the business to be transacted. If the meeting is an annual general meeting, the notice must specify the meeting as such. Subject to the provisions of the Articles and to any rights or restrictions attached to any shares or notices shall be given to all members, all persons entitled to a share in consequence of the death or bankruptcy of a member, the Directors and the auditors. A member whose registered address is not within the UK shall not be entitled to receive any notice, document or information from the Company unless he gives the Company an address (not being an address for the purposes of electronic communication) within the UK at which notices, documents or information may be given to him.

A Director shall, notwithstanding that he is not a member, be entitled to attend and speak at any general meeting and at any separate meeting of the holders of any class of shares.

Limitations on share ownership

The Articles are designed to ensure that the number of TUI Travel Shares held by non-EEA nationals does not reach a level which could jeopardise TUI Travel's entitlement to continue to hold or enjoy the benefit of any authority, permission, licence or privilege which it or any of its subsidiaries holds or enjoys and which enables an air service to be operated (each an "Operating Right"). In particular, EC Council Regulation 2407/92 on licensing of air carriers requires that an air carrier must be majority-owned and effectively controlled by EEA nationals.

The Articles allow the Directors, from time to time, to set a "Permitted Maximum" on the number of TUI Travel Shares which may be owned by non-EEA nationals at such level as they believe is in

compliance with the Operating Rights, provided that the Permitted Maximum shall not be less than 40 per cent. of the total number of issued TUI Travel Shares.

TUI Travel will maintain a separate register (the "Separate Register") of TUI Travel Shares in which non-EEA nationals, whether individuals, bodies corporate or other entities, have an interest (such TUI Travel Shares are referred to as "Relevant Shares" in the Articles). An interest in this context is widely defined (see below). The Directors will be able to require relevant members or other persons to provide them with information to enable them to determine whether TUI Travel Shares are, or are to be treated as, Relevant Shares. If such information is not provided then the Directors will be able, at their discretion, to determine that the TUI Travel Shares to which their enquiries relate should be treated as Relevant Shares. Registered holders of TUI Travel Shares will also be obliged to notify TUI Travel if they are aware either (a) that any TUI Travel Share which they hold ought to be treated as a Relevant Share for this purpose; or (b) that any TUI Travel Share that they hold, which is treated as a Relevant Share, should no longer be so treated. In this case, the Directors shall request such information and evidence as they require to satisfy themselves that the TUI Travel Share should not be treated as a Relevant Share and, on receipt of such evidence, shall remove particulars of the share from the Separate Register.

If the Directors determine that action is necessary or desirable to protect any Operating Right due to the fact that an Intervening Act (an "Intervening Act" being the refusal, withholding, suspension or revocation of any Operating Right or the imposition of materially inhibiting conditions or limitations on any Operating Right in either case, by any state or regulatory authority) has taken place or is contemplated, threatened or intended, or the aggregate number of Relevant Shares is such that an Intervening Act may occur or the ownership or control of TUI Travel is otherwise such that an Intervening Act may occur, the Directors may:

(i) remove any Director;

(ii) identify those TUI Travel Shares which give rise to the need to take action and deal with such TUI Travel Shares as affected shares ("Affected Shares") (see below); and/or

(iii) set a Permitted Maximum on the number of Relevant Shares which may subsist or vary any Permitted Maximum previously specified (which may not, save in the circumstances referred to below, be lower than 40 per cent. of the total number of issued TUI Travel Shares) and treat any Relevant Shares in excess of this Permitted Maximum as Affected Shares (see below).

The Directors shall serve a notice (an "Affected Share Notice") in respect of any Affected Share on the registered holder. An Affected Share Notice can, if it so specifies, have the effect of depriving the registered holder of the right to attend, vote and speak at general meetings which he would otherwise have had as a consequence of holding such shares. Such an Affected Share Notice can, if it so specifies, also require the recipient to dispose of the Affected Shares (so that the Relevant Shares will then cease to be Affected Shares) within 10 days or such longer period as the Directors may determine. The Directors are also given the power to sell such Affected Shares themselves where there is non-compliance with an Affected Share Notice at the best price reasonably obtainable at the relevant time on behalf of the shareholder.

In deciding which TUI Travel Shares are to be dealt with as Affected Shares, the Directors in their sole opinion will determine which Relevant Shares may give rise to the fact or risk of an Intervening Act occurring and, subject to any such determination, will have regard to the chronological order in which particulars of Relevant Shares have been, or are to be, entered in the Separate Register unless to do so would in the sole opinion of the Directors be inequitable.

If there is a change in any applicable law or TUI Travel or any subsidiary receives any direction, notice or requirement from any state or regulatory authority, which, in either case, necessitates such action to overcome, prevent or avoid an Intervening Act, then the Directors may either:

(i) lower the Permitted Maximum to the minimum extent that they consider necessary to overcome, prevent or avoid an Intervening Act; and

(ii) resolve that such number of Relevant Shares the Directors consider to be the minimum number necessary in order to prevent or avoid such Intervening Act shall be treated as Affected Shares.

The rights of the Directors referred to above apply until such time as the Directors resolve that grounds for the making of a determination have ceased to exist, whereupon the Directors must withdraw such determination.

The Permitted Maximum will initially be set at 40 per cent. This Permitted Maximum may be varied by the Directors. If the Directors resolve to vary the Permitted Maximum to deal with shares as Affected Shares or relax the ownership limitations, they shall publish in at least one national newspaper in the United Kingdom (and in any other country in which the TUI Travel Shares are listed) notice of the determination and of any Permitted Maximum. The Directors shall publish, from time to time, information as to the number of TUI Travel Shares particulars of which have been entered on the Separate Register.

The Directors may not register any person as a holder of TUI Travel Shares unless such person has furnished to the Directors a declaration, together with such evidence as the Directors may require, stating (a) the name and nationality of any person who has an interest in such TUI Travel Share and, if the Directors require, the nature and extent of such interest; or (b) such other information as the Directors may from time to time determine. The Directors may decline to register any person as a shareholder if satisfactory evidence or information is not forthcoming.

A person shall be deemed to have an "interest" in relation to TUI Travel Shares if (i) such person has an interest which would (subject as provided below) be taken into account, or which he would be taken as having, in determining for the purpose of Part 22 of the Companies Act 2006 whether a person has a notifiable interest or (ii) he has any such interest as is referred to in Part 22 of the Companies Act 2006; but shall not be deemed to have an interest in any shares in which his spouse or civil partner or any infant child or stepchild of his is interested by virtue of that relationship, or which he holds as a bare or custodian trustee under the laws of England or as a simple trustee under the laws of Scotland, and "interested" shall be construed accordingly.

Redeemable Preference Shares

The following is a summary of the rights and provisions in the Articles relating to the non-voting, non-dividend bearing Redeemable Preference Shares:

(i) Income: the holders of the Redeemable Preference Shares shall not be entitled to receive a dividend;

(ii) Capital: on a return of capital £1 per share;

(iii) Voting: no right to vote at any general meeting of the Company unless (a) the meeting is to consider any resolution approving the purchase by the Company of its own shares, a reduction in the capital of, or the winding up of the Company, or (b) the meeting is to consider any resolution which abrogates or varies the rights attaching to the Redeemable Preference Shares;

(iv) Redemption: subject to the provisions of the Companies Acts, the Redeemable Preference Shares shall be redeemed automatically upon Admission.

5. Major Shareholders

In so far as it is known to TUI Travel, as at 27 June 2007 (the latest practicable Business Day prior to the publication of this document), the following persons are, directly or indirectly, interested in three per cent. or more of the issued ordinary share capital of TUI Travel:

Name of Shareholder	Number of TUI Travel Shares	Percentage of issued share capital
TUI AG	10	50%
Andrew Lloyd John	10	50%

In so far as it is known to TUI Travel, as at 27 June 2007 (the latest practicable Business Day prior to the publication of this document), the following persons will be, directly or indirectly, interested in three per cent. or more of the issued ordinary share capital of TUI Travel upon Completion, based on

the assumptions that the holdings of the First Choice Shareholders in First Choice Shares as at 27 June 2007 do not change, that the Merger completes, that 17,259,768 shares are issued prior to the Merger to satisfy all employee share scheme awards and options which cannot be satisfied by a transfer of existing shares held in the First Choice employee benefit trust and that the maximum number of 1,118,034,839 TUI Travel Shares are issued in connection with the Merger:

Name of Shareholder	Number of TUI Travel Shares	Percentage of issued share capital
TUI AG	570,197,778	51.00%
Newton Investment Management	48,465,985	4.33%
M&G Investment Management	48,456,872	4.33%
Legal & General Investment Management	43,446,961	3.89%

Save as disclosed above, the Directors are not aware of any person who is or will be interested directly or indirectly in three per cent. or more of the issued share capital of TUI Travel.

As at 27 June 2007 (the latest practicable Business Day prior to the publication of this document), and so far as is known to TUI Travel, there is one shareholder who, upon Completion, directly or indirectly, jointly or severally, will exercise or could exercise control over TUI Travel, being TUI AG. The Relationship Agreement, which is to be entered into between TUI AG and TUI Travel upon Completion, records the understanding between TUI AG and TUI Travel regarding the governance of TUI Travel, and the exercise of certain entitlements of TUI AG in respect of its TUI Travel Shares, in each case following Completion. Further details of the Relationship Agreement are provided in paragraph 12.1.2 of this Part XI.

None of the major shareholders in TUI Travel has or will have different voting rights. The provisions of the Relationship Agreement relating to the exercise by TUI AG of voting rights in respect of its TUI Travel Shares on resolutions relating to the appointment or removal of Directors are described in paragraph 12.1.2 of this Part XI.

6. Share Schemes

TUI Travel Share Incentive Schemes

Adoption of new Enlarged Group Share Incentive Schemes

TUI Travel has established five employee incentive schemes which may be used after Admission. There are two discretionary employee share schemes for senior executives: the TUI Travel PSP and the TUI Travel DABS, and there are also two all-employee share schemes: the TUI Travel SIP and the TUI Travel SAYE Scheme, both of which will be submitted for approval by HMRC under the Income Tax (Earnings and Pensions) Act 2003. The Board has made no decision whether to operate the TUI Travel SIP and the TUI Travel SAYE Scheme, or either of them, following Admission.

In addition, TUI Travel has established the TUI Travel VCSP which is a discretionary one-off three-year scheme which will be used after Admission and provides for a combination of cash and share incentives designed to maximise the synergistic benefits of the Merger and drive shareholder value creation.

These five schemes (together referred to as the "TUI Travel Incentive Schemes") have been established by the Directors and resolutions will be put to First Choice Shareholders at the First Choice EGM approving the operation of these schemes in principle.

The TUI Travel Remuneration Committee will review the TUI Travel PSP, TUI Travel DABS and TUI Travel VCSP with a view to bringing forward any appropriate proposals for changes to executive incentive schemes at the 2008 AGM.

Set out below is a summary of the principal features of the five schemes.

TUI Travel PSP

Under the TUI Travel PSP, participants will receive conditional allocations of TUI Travel Shares which will be released after a period of three years, provided that pre-set performance targets are satisfied.

Eligibility

Employees (including executive directors) of the Enlarged Group will be eligible to be selected for participation in the TUI Travel PSP, at the discretion of the TUI Travel Remuneration Committee. It is proposed that only executive directors, senior executives and selected professional key employee groups will normally be selected for participation.

Individual Limits

The maximum aggregate market value of shares which may be allocated under the TUI Travel PSP to any employee in any financial year shall not exceed two times that employee's base salary (or, where the TUI Travel Remuneration Committee considers there are exceptional circumstances, four times the employee's base salary). No amount is payable by participants on allocation.

Performance Targets

Allocations will only vest and be released to participants, to the extent that performance targets set by the TUI Travel Remuneration Committee are achieved. No shares will be released unless over the performance period, the performance targets have been met. The performance targets will be based 50 per cent. on earnings per share, and 50 per cent. on total shareholder return. The earnings per share test allows for vesting of the shares where earnings per share growth exceeds RPI growth by at least four per cent. per annum. Between ten per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between four per cent. and 13 per cent., or greater, per annum in excess of RPI growth. The earnings per share target will also be adjusted to take into account (and exclude) the first £100 million of synergy benefits achieved over the three year measurement period.

The total shareholder return test allows for vesting of the shares where performance is above the median of the companies ranked 30th to 100th by market capitalisation at the date of award. Between 15 per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between the median and upper quartile performance, or greater. There will be no retesting of any performance targets.

Vesting of allocations will also be subject to underpins relating to the Group's return on invested capital and weighted average cost of capital, to ensure that shareholder value is not eroded.

The TUI Travel Remuneration Committee will keep the performance targets under review in order to ensure they remain challenging in the context of TUI Travel's business plans. The TUI Travel Remuneration Committee may alter the performance targets as appropriate when making further grants but would not make significant changes to the benefit of participants without consulting shareholders.

Cessation of Employment

If a participant leaves employment before the third anniversary of the allocation date his allocation will normally be forfeited. However, in the event of his death, injury, disability, retirement and (if approved by the TUI Travel Remuneration Committee) redundancy, or upon sale of the business or subsidiary for which he works, or upon his leaving as a result of any reason approved by the TUI Travel Remuneration Committee, allocations will vest, subject to both performance targets having been met to that date and to pro-rating for the time elapsed since the date of allocation. In other circumstances, the TUI Travel Remuneration Committee will have the discretion to allow allocations to vest as above, or to continue to subsist as if the participant had remained in employment until the end of the performance period. In the latter case, vesting will be subject to

the three-year performance targets, but will continue to be pro-rated for time elapsed as set out above.

Corporate Events

In the event of a takeover, reconstruction, amalgamation or winding-up of TUI Travel, allocations will normally vest, subject to performance targets having been achieved and to time pro-rating. However, allocations will not vest where participants are offered replacement allocations on equivalent terms over shares in any acquiring company.

In the event of an internal restructuring, allocations will continue, but over replacement shares in the acquiring company and with similar performance targets.

TUI Travel DABS

Under the TUI Travel DABS, participants will be required to defer a proportion of their pre-tax annual performance-related bonus, which will be used to acquire TUI Travel Shares ("deferred shares"). These deferred shares, together with a conditional allocation of ordinary shares ("matching shares") equal to up to four times the number of deferred shares, will be released after a period of three years. The release of the deferred shares will not be subject to any further performance targets. The release of the matching shares will be subject to further pre-set performance targets being satisfied, as described below.

Eligibility

Employees (including executive directors) of the Enlarged Group will be eligible to be selected for participation in the TUI Travel DABS at the discretion of the TUI Travel Remuneration Committee. It is proposed that only executive directors, senior managers and selected professional key employee groups will normally be selected for participation.

Deferred Shares

Where an employee is selected for participation in the TUI Travel DABS, he will be required to invest at least one quarter of his pre-tax annual bonus in deferred shares, subject to the deferral being not less than an amount which may be specified from time to time. The participant may elect to invest up to a further quarter of his pre-tax annual bonus in deferred shares, i.e. an overall maximum of one half of his pre-tax bonus can be invested in deferred shares. The investment in deferred shares will be made at a price per deferred share which is equal to the middle market quotation of a TUI Travel Share on the date of investment.

Performance Targets

Allocations of matching shares will only vest and the shares be released to participants, to the extent that performance targets set by the TUI Travel Remuneration Committee are achieved. The performance targets will be based 75 per cent. on earnings per share and 25 per cent. on total shareholder return. The earnings per share test allows for vesting of the shares where earnings per share growth exceeds RPI growth by at least four per cent. per annum. Between 10 per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between four per cent. and 13 per cent., or greater, per annum in excess of RPI growth. The earnings per share target will also be adjusted to take into account (and exclude) the first £100 million of synergy benefits achieved over the three year measurement period.

The total shareholder return test allows for vesting of the shares where performance is above the median of the companies ranked 30th to 100th by market capitalisation at the date of award. Between 15 per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between the median and upper quartile performance, or greater. There will be no re-testing of any performance targets.

Vesting of allocations of matching shares will also be subject to underpins related to the Enlarged Group's return on invested capital and weighted average cost of capital, to ensure that shareholder value is not eroded.

The TUI Travel Remuneration Committee will keep the performance targets under review in order to ensure they remain challenging in the context of TUI Travel's business plans. The TUI Travel Remuneration Committee may alter the performance targets as appropriate when making further grants but would not make significant changes to the benefit of participants without consulting shareholders.

Cessation of Employment

If a participant leaves employment before the third anniversary of the date of allocation, his matching shares will normally be forfeited. His deferred shares will be released to him at this point (or at such later stage as the matching shares are to be released), unless the cessation of employment is a result of dismissal for gross misconduct, in which case the deferred shares will be forfeited and there will be no release of matching shares.

In certain circumstances, including leaving on account of death, injury, disability, retirement and (if so approved by the TUI Travel Remuneration Committee) redundancy, or upon the sale of the business or subsidiary for which the participant works, allocations of matching shares will vest, subject to both performance targets having been met and to pro-rating for the time elapsed since the date of allocation. In other circumstances, the TUI Travel Remuneration Committee will have the discretion to allow allocations of matching shares to vest as above, or to continue to subsist as if the participant had remained in employment until the end of the performance period. In the latter case, vesting will be subject to the three-year performance targets, but will continue to be pro-rated for time elapsed as set out above.

Corporate Events

In the event of a takeover, reconstruction or amalgamation or winding-up of TUI Travel, allocations of matching shares will normally vest subject to performance targets having been achieved and time pro-rating. Deferred shares will also be released at this point. However, no allocations will vest where participants are offered replacement allocations of matching and deferred shares on equivalent terms over shares in any acquiring company.

In the event of an internal restructuring, allocations of matching shares will continue, but over replacement shares in the new company, and with similar performance targets, and no deferred shares will be released early.

TUI Travel Sharesave Scheme

The TUI Travel SAYE Scheme will provide for the grant of options over TUI Travel Shares to be purchased out of the proceeds of a linked SAYE savings account with a bank or building society. Whether, and when, any grants will be made will be determined by the Board.

Eligibility

All UK employees of the Enlarged Group who have worked for any qualifying period as may be determined by the Board (but not to exceed five years) and any other employees (including overseas employees nominated by the Board) will be eligible to participate in the scheme.

Grant Price

Options may be granted at an acquisition price which is not less than 80 per cent. of the middle market quotation of a TUI Travel Share on the London Stock Exchange dealing day (or average over the three dealing days) immediately before the day invitations are sent out (or some other date agreed with HMRC). If shares are to be subscribed, the acquisition price will also not be lower than nominal value.

Grant Period

Invitations for the grant of options will normally only be issued within the 42-day period following TUI Travel's announcement of results for any period, or there being exceptional circumstances which justify the grant of options at that time. Options will normally be granted within the period of 30 days following the earliest dealing day by reference to which the exercise price of an option was fixed.

Leaving employment

Normally, options lapse on leaving employment. However, if a participant ceases employment with any company in the Enlarged Group by reason of death, injury, ill health or disability, redundancy, retirement or on the sale of their employing company or business out of the Enlarged Group, options may be exercised during a six-month period following the cessation of employment. Exercise is also allowed where the participant leaves employment for any other reason (except dismissal for gross misconduct), provided that the option has been held for at least three years. If any option is exercised early, the participant may only exercise to the extent of his or her accumulated savings under the savings contract (together with any interest due).

Corporate events

Options may be exercised in the event of a takeover, reconstruction or amalgamation or winding-up of TUI Travel, to the extent of the accumulated savings under the participant's savings contract (together with any interest due). In the event of another company acquiring control of TUI Travel, participants may in certain circumstances be allowed to exchange their options for options over shares in the acquiring company.

TUI Travel SIP

The TUI Travel SIP is constituted under a trust deed and rules which will provide for TUI Travel to make various types of award over TUI Travel Shares which are held by trustees on behalf of participants. Whether, and when, any grants will be made will be determined by the Board.

Eligibility

All UK employees of the Enlarged Group with the requisite qualifying period of service (which will be determined by the Board from time to time and may not exceed 18 months qualifying service) are entitled to participate. Overseas employees who would otherwise qualify, but who do not pay UK tax, may be invited to participate.

Free Shares

The TUI Travel SIP allows for awards of up to £3,000 worth of free shares in total in any tax year. Awards may be made on the basis of equal numbers of shares, pro-rata earnings or on the basis of other similar terms including objective performance conditions achieved prior to the making of the awards.

Partnership Shares

The TUI Travel SIP allows for participants to purchase up to £1,500 worth of shares (or ten per cent. of the participant's annual salary, if less) in total in any tax year. Deductions may be made from salary each month, or may be accumulated over a period of up to 12 months and then applied in the acquisition of shares. Any lump sum purchases may also be made within the statutory limit.

Matching Shares

The TUI Travel SIP allows for additional free shares to be awarded based on the number of partnership shares acquired. The maximum award per employee is two matching shares for each partnership share—up to £3,000 worth of matching shares in total in any tax year.

Dividend Shares

The TUI Travel SIP also allows for the reinvestment in shares of up to £1,500 worth of cash dividends in total in any tax year.

Acquisition of Shares

The trustees may buy shares in the market or subscribe for new shares. Free and matching shares are funded by participating Enlarged Group companies.

Holding Period

Free shares and matching shares must be held in the TUI Travel SIP for a holding period which expires between three and five years after award, or, if earlier, when the participant ceases to be employed by an Enlarged Group company. Dividend shares must remain in the TUI Travel SIP for a holding period of three years or, if earlier, until the participant ceases to be employed within the Enlarged Group. Partnership shares may be withdrawn from the TUI Travel SIP at any time subject to any PAYE liabilities which may be due.

Voting, Dividend and Other Rights

While the shares are held in the TUI Travel SIP, the participant remains the beneficial owner and is entitled to receive dividends (subject to any reinvestment in dividend shares) and, through the TUI Travel SIP, to vote and to participate in substantially the same way as other shareholders. Shares may be left in the TUI Travel SIP until the participant ceases to be employed within the Enlarged Group.

Forfeiture

Free and matching shares may be forfeited if the participant ceases to be employed within the Enlarged Group before the expiry of a period specified by the Board (not exceeding three years) beginning with the date of award of such shares, unless he leaves employment due to injury, ill health, disability, redundancy, sale of the business or subsidiary by which he is employed, death or retirement. The Board may also provide that, if a participant withdraws his partnership shares from the TUI Travel SIP within three years of the date on which they were acquired, his corresponding matching shares shall be forfeited.

Corporate Events

Participants' shares are dealt with in the same way as any other shareholder upon a takeover or reconstruction. Any shares issued to the TUI Travel SIP in place of any shares on a takeover or reconstruction will be held in the TUI Travel SIP.

TUI Travel VCSP

Under the TUI Travel VCSP, which is a one-off three year plan, participants will receive an award which will be satisfied by a combination of cash and TUI Travel Shares provided that pre-set performance targets are satisfied. The performance targets will be based on the achievement of the synergistic objectives of the Merger.

Eligibility

The TUI Travel Remuneration Committee will nominate executive Directors and senior executives for participation in the plan. Up to 12 Directors and senior executives of TUI Travel are expected to participate.

Individual Limits

The maximum aggregate limit on awards for any individual under the TUI Travel VCSP will vary according to his level of responsibility, but the maximum award over three years will be no greater than an amount between 225 per cent. and 450 per cent. of base salary before statutory deductions for PAYE and similar liabilities. The awards will be a combination of cash and shares, which will vest in three tranches over three years, as shown below:

Tranche 1 (2007/2008): 50 per cent. cash and 50 per cent. shares;

Tranche 2 (2008/2009): 50 per cent. cash and 50 per cent. shares; and

Tranche 3 (2009/2010): 100 per cent. cash.

While any cash entitlement will be paid annually, no shares will be released until the end of the three-year period.

Performance Target

The vesting of the annual tranches will be subject to the achievement of annual performance targets over the three-year period—2007/2008 to 2009/2010. The release of the share elements will be subject to a further overall three-year performance target. The performance targets will be set by the TUI Travel Remuneration Committee and will be based upon the achievement of the synergistic benefits of the Merger and margin enhancement. Following consultation with key institutional shareholders, the overall three year performance targets have been set at a "target" of £100 million (below which no vesting will occur) with a payment and vesting scale up to a stretch level of £150 million. The TUI Travel Remuneration Committee will set targets for the first two years of the plan consistent with the achievement of the overall three-year performance targets. In addition, the Remuneration Committee will set annual margin targets (below which no payment or vesting will occur). This is intended to ensure that synergy benefits translate to enhanced margins for the Enlarged Group.

At target annual performance, the proportion vesting under each annual tranche will be in the range of 37.5 per cent. to 75 per cent. of salary. For the achievement of annual stretching performance measures, the proportion vesting under each annual tranche will be in the range of 75 per cent. to 150 per cent. of salary. Annual performance will relate to the achievement of annual synergistic benefits of the Merger and will be subject to an annual margin enhancement underpin.

Cessation of Employment

If a participant leaves employment before the end of the three-year performance period his award will normally be forfeited. However, in the event of his death, injury, ill health, disability, retirement, and (if approved by the TUI Travel Remuneration Committee) redundancy, or on a sale of the business or subsidiary for which he works, or upon his leaving as a result of any reason approved by the TUI Travel Remuneration Committee, any unvested awards will lapse. The share elements of each tranche will vest, subject to performance targets having been met to that date and pro-rating for time elapsed compared to the total length of the performance period. In other circumstances, the TUI Travel Remuneration Committee will have discretion to allow the share elements in any outstanding tranches to vest as above, or to continue to subsist, as if the participant had remained in employment until the end of the performance period. In the latter case, vesting will be subject to the three-year performance targets but will continue to be pro-rated for time elapsed as set out above.

Corporate Events

In the event of a takeover, reconstruction, amalgamation or winding-up of TUI Travel, awards will normally vest, subject to performance targets having been achieved and to time pro-rating. However, awards will not vest where participants are offered replacement awards on equivalent terms over shares in any acquiring company.

In the event of an internal restructuring, awards will continue, but over replacement shares in the acquiring company and with similar performance targets.

Provisions relating to all TUI Travel Incentive Schemes

Scheme Limits

The maximum number of new ordinary shares which may be issued or issuable under the TUI Travel Incentive Schemes shall be as follows:

- in any ten-year period, not more than five per cent. of the ordinary share capital of TUI Travel from time to time under the TUI Travel PSP, the TUI Travel DABS and the TUI Travel VCSP; and
- in any ten-year period, not more than ten per cent. of the ordinary share capital of TUI Travel from time to time under all TUI Travel Incentive Schemes.

For the purpose of these limits no accounts will be taken of any shares where the right to acquire the shares has been released, lapsed or otherwise become incapable of exercise or vesting.

The current guidelines issued by the Association of British Insurers ("ABI") state that the transfer of treasury shares should count towards the overall scheme limits outlined above. These guidelines will be reflected in the trust deed and rules of each of the TUI Travel Incentive Schemes for as long as this remains ABI policy.

Scheme Shares

All awards and options which are granted over TUI Travel Shares will be over shares which may be new issue, treasury shares or purchased by any trustees in the market.

Non-Executive Directors

Non-Executive Directors cannot participate in any of the TUI Travel Incentive Schemes.

Non-pensionable benefits

All of the benefits under the TUI Travel Incentive Schemes are non-pensionable.

Non-transferability

Allocations and awards under the TUI Travel Incentive Schemes will not be transferable (other than to the participant's personal representatives in the event of his or her death).

Variations of Share Capital

Allocations under the TUI Travel PSP, TUI Travel DABS, TUI Travel SAYE Scheme and TUI Travel VCSP may be adjusted following certain variations in the ordinary share capital of TUI Travel including a capitalisation, rights issue or sub-division, consolidation or reduction of capital of TUI Travel. The prior approval of HMRC is required for adjustment of options under the TUI Travel SAYE Scheme.

Rights attaching to shares

Shares to be issued and allotted under the TUI Travel Incentive Schemes will rank equally with all other ordinary shares then in issue but will not qualify for dividends or other rights arising by reference to a prior record date.

Alterations to the schemes

The Board (or the TUI Travel Remuneration Committee) may amend the TUI Travel Incentive Schemes provided that the prior approval of shareholders is obtained for any amendments to the advantage of participants in respect of eligibility, the limits on participation, the overall limits on the issue of TUI Travel Shares under the TUI Travel Incentive Schemes, or the transfer of treasury shares under the TUI Travel Incentive Schemes, the basis for determining a participant's entitlement to, and the terms of, TUI Travel Shares or cash provided under the TUI Travel Incentive Schemes and the adjustment of such awards or options. However, shareholders' approval will not be required for minor administrative changes or any alteration to take account of any change in legislation or any alteration required to obtain or maintain favourable tax, exchange control or regulatory treatment. No amendment to any key feature will be made to the TUI Travel SAYE Scheme or TUI Travel SIP without the prior approval of HMRC.

Extension of the schemes overseas

The terms of each of the TUI Travel Incentive Schemes provide the Board with the power to extend the schemes to countries outside the UK taking account of local tax, exchange control, or securities laws in the relevant jurisdictions, by either making conditional allocations in TUI Travel Shares or equivalent phantom allocations, where the awards would be satisfied in cash. Share awards under any such arrangements for overseas employees will count against the limits on the issue of shares under the TUI Travel Incentive Schemes and will not provide participants with benefits greater than those provided under those schemes.

Termination

None of the TUI Travel Incentive Schemes will be operated more than ten years after adoption without shareholder approval. The TUI Travel Remuneration Committee or the Board, as appropriate, will regularly review the operation of the TUI Travel Incentive Schemes.

First Choice Share Schemes

First Choice currently operates the First Choice PSP, the First Choice DABS and the First Choice SIP which are similar to the proposed TUI Travel PSP, TUI Travel DABS and TUI Travel SIP. In addition, there are two legacy schemes with residual outstanding awards: the First Choice RSP and the First Choice SEP.

As a result of the Scheme there will be no further awards granted under the First Choice Share Schemes and all outstanding awards will either vest to the extent permitted in accordance with the rules or be replaced by equivalent awards over TUI Travel Shares as explained below.

First Choice PSP

There are awards outstanding over approximately 5,430,701 First Choice Shares under the First Choice PSP (as at the latest practicable date before the publication of this document). It is expected that only a proportion of these shares will be released upon the Court sanction of the Scheme after taking account of the level of performance to date and time pro-rating for the early release of the shares. Upon applying pro-rating for time, the First Choice Remuneration Committee has determined a maximum of two thirds of the 2005 awards, one half of the 2006 awards and one third of the 2007 awards could potentially be released. The First Choice Remuneration Committee will determine the proportion of the awards which will be released based on performance to that

time, shortly before the date of Court sanction. The release of shares will be subject to income tax and National Insurance contributions (or an equivalent social security liability).

The First Choice Remuneration Committee has also determined that the balance of the shares which are ineligible for release to date on account of the pro-rating for time rules (one third of the shares in the case of the 2005 awards, one half of the shares in the case of the 2006 awards, and two thirds in the case of the 2007 awards) will be eligible for replacement awards over TUI Travel Shares of equivalent value (or, in the case of certain awards, granted mostly to pilots, replacement awards over cash or alternative benefits of equivalent value) which may be held until the normal release date under the terms of the First Choice PSP, subject to the achievement of the performance targets and pro-rating for time (if the award is released early upon cessation of employment or a corporate event).

First Choice DABS

There are awards outstanding over approximately 877,704 First Choice Shares under awards of deferred shares ("Deferred Awards") and 3,062,466 First Choice Shares under awards of matching shares ("Matching Awards") under the First Choice DABS (as at the latest practicable date before the publication of this document). All of the Deferred Awards, which were awarded in lieu of bonuses, and a proportion of the Matching Awards, will be released upon the Court sanction of the Scheme after taking account of the level of performance to that date and time pro-rating for the early release of shares. Upon applying pro-rating for time, the First Choice Remuneration Committee has determined a maximum of two-thirds of the 2005 awards and one third of the 2007 awards could potentially be released. The First Choice Remuneration Committee will determine the proportion of the matching awards which will be released based on performance to that time shortly before the date of Court sanction.

The release of shares will be subject to income tax and National Insurance contributions (or an equivalent social security liability).

The First Choice Remuneration Committee has determined that participants will also receive a cash sum equivalent to the dividends to which they would have been entitled in respect of their Deferred Awards.

The First Choice Remuneration Committee has also determined that the balance of the matching shares which are ineligible for release taking account of the pro-rating for time rules (one third of the shares in the case of the 2005 awards and two thirds of the shares in the case of the 2007 awards) will instead be eligible for replacement awards over TUI Travel Shares of equivalent value which may be held until the normal release date under the First Choice DABS, subject to the achievement of performance targets and pro-rating for time (if the award is released early upon cessation of employment of a corporate event).

First Choice RSP

There are approximately 3,700,974 First Choice Shares outstanding under the First Choice RSP (as at the latest practicable date prior to the publication of this document).

The rules provide that upon the Court sanctioning of the Scheme, the First Choice Remuneration Committee can determine whether to release all or part of any award. In view of the performance to date the First Choice Remuneration Committee has determined that the awards should be released in full.

The exercise of the released awards will be subject to income tax and National Insurance contributions (or an equivalent social security liability).

First Choice SEP

There are options outstanding over approximately 5,861,995 First Choice Shares under the First Choice SEP (as at the latest practicable date before the publication of this document).

The rules provide that all of the shares will be exercisable upon a Scheme without regard to performance. The exercise of the options will be subject to the Court sanctioning the Scheme of Arrangement and to the payment of the option price (representing market value at the date of grant), income tax, and National Insurance contributions (or an equivalent social security liability).

First Choice SIP

There are approximately 879,157 First Choice Shares held under the First Choice SIP (as at the latest practicable date before publication of this document).

The existing First Choice Shares held under the First Choice SIP will be replaced by TUI Travel Shares under the Scheme on the same basis as First Choice Shareholders will exchange their First Choice Shares under the Scheme. The replacement TUI Travel Shares will then be held under the First Choice SIP on the same terms and conditions as the current First Choice Shares. First Choice employees may be allowed to continue to save under the SIP for TUI Travel Shares after the merger on the same terms as they presently save for First Choice Shares.

7. Pensions

TUI Tourism

TUI Northern Europe has six defined benefit schemes. These are the TUI Pension Scheme (UK), the Britannia Airways Limited Superannuation and Life Assurance Scheme, the Orion Airways Pension and Life Assurance Scheme, the Jetsave Retirement Benefits Plan, the TUI Northern Europe Executive Pension Scheme No 2 and the Callers 1978 Pension & Life Assurance Scheme.

TUI Northern Europe also has two deferred members and one pensioner member in an unfunded unapproved retirement benefit plan.

The last formal valuation of the TUI Pension Scheme (UK) was prepared as at 31 March 2005 when, on an ongoing basis, the aggregate value of the assets was £234.1 million, and the total value of assets required to provide past service benefits was £307.1 million, giving rise to a funding shortfall on an ongoing basis of £73 million. Since 1 April 2006, TUI Northern Europe made normal contributions of 25 per cent. of members' pensionable salaries. As at 31 December 2006, 75 per cent. of the total plan assets were held as equities, nine per cent. are held as corporate bonds, nine per cent. are held as government bonds and seven per cent. are held as cash.

On an accounting basis, as at 31 December 2006 it was estimated that the value of the assets and liabilities of the TUI Pension Scheme (UK) were:

	As at 31 December 2006	As at 31 December 2005
Market value of scheme assets	£331.6 million	£284.9 million
Present value of funded obligations	£446.7 million	£430.3 million
Recognised liability for defined benefit obligations	£115.2 million	£145.4 million

Employer contributions to the TUI Pension Scheme (UK) during the year ended 31 December 2006 were:

	Year ended 31 December 2006	Year ended 31 December 2005
Employer contributions	£25.9 million	£17.5 million

In relation to the defined benefit section of the Britannia Airways Limited Superannuation and Life Assurance Scheme (Britannia Airways is now known as Thomsonfly), an IAS 19 report for the year

ending 31 December 2006, using an FRS 17 style method, estimated that the value of the assets and liabilities of the Britannia Airways Limited Scheme were:

	As at 31 December 2006	As at 31 December 2005
Market value of scheme assets	£439.5 million	£408.4 million
Present value of funded obligations	£662.4 million	£747.3 million
Recognised liability for defined benefit obligations	£222.9 million	£338.9 million

Employer contributions to the Britannia Scheme during the year ended 31 December 2006 were:

	Year ended 31 December 2006	Year ended 31 December 2005
Employer contributions	£16.9 million	£17.1 million

According to the preliminary actuarial valuation results of the Orion Airways Pension and Life Assurance Scheme, as at 31 March 2006 the scheme had a deficit of £1.22 million. The same valuation records that, following the March 2004 actuarial valuation, the employer agreed to pay contributions of £120,000 per annum in order to pay off the ongoing deficit of the scheme. However, the 2006 preliminary results suggest that additional employer "top-up" contributions would be required to eliminate the past service deficit.

According to an actuarial report on the Jetsave Retirement Benefits Plan in December 2004, the scheme had a deficit of £1.41 million. Independent pensions consultants have suggested that the funding level of employer contributions should be £20,000 per month for the period 1 November 2004 to 31 March 2006 and £11,000 per month thereafter.

The Callers 1978 Pension & Life Assurance Scheme is in the process of being wound up with the benefits being bought out with an insurance company. The formal wind up commenced in December 2004. According to the actuarial valuation report for the Callers 1978 Pension & Life Assurance Scheme at 1 April 2005, the scheme's assets represent 82 per cent. of the amount required to cover all of its accrued liabilities yet to be secured.

Certain aspects of the pension arrangements are further discussed in the "Risk Factors" section of this document.

First Choice

The First Choice Group operates pension schemes for employees who are eligible and wishing to participate in the schemes. The First Choice Group sponsors three defined benefit pension schemes which are the Air 2000 Limited Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme (together the "UK Defined Benefit Schemes") and the Emerald Star Limited pension scheme. All three defined benefit pension schemes are closed to new entrants.

Although no formal valuations of the First Choice Group's defined benefit pension schemes have been carried out since 1 November 2003 (and 1 July 2005 in relation to the Emerald Star Limited pension scheme), the independent scheme actuary has estimated the total pension deficit as at 31 October 2006. At 31 October 2006, on an IAS 19 basis, the aggregate value of the assets and liabilities of those pension schemes was estimated to be:

	As at 31 October 2006
Fair value of assets	£67.0 million
Present value of funded obligations	(£91.7) million
Recognised liability for defined benefit obligations	(£24.7) million

Of the IAS 19 liability of £24.7 million, £14.0 million related to the Air 2000 scheme and £11.2 million related to the Unijet scheme.

The Trustees have indicated that they may request that TUI Travel becomes the principal employer of the UK Defined Benefit Schemes following Completion.

Special employer contributions are payable in respect of the Air 2000 scheme and the Unijet scheme as follows:

	Air 2000 scheme	Unijet scheme
Paid on 1 June 2006	£3.5 million	£2.5 million
Payable by 1 June 2007	£3.4 million	£2.45 million
Payable by 1 June 2008, 2009 and 2010	£0.9 million	£1.2 million

Source: First Choice Annual report and current schedule of contributions

The First Choice Group also operates defined contribution pension schemes for employees and executive directors. The Non-Executive directors of First Choice do not participate in the First Choice Group's pension schemes. The First Choice Group contribution rate for the Chief Executive is 50 per cent. of base salary which is paid into a self-invested personal pension. Contributions in excess of the HMRC annual allowance are made as non-pensionable cash payments equivalent to the First Choice Group's contractual pension contribution. The First Choice Group contribution rate for the other Executive directors is 25 per cent. of base salary.

The Trustees are considering requesting that TUI Travel becomes the principal employer of the UK Defined Benefit Schemes following Completion.

The Trustees of the UK Defined Benefit Schemes are currently conducting an actuarial valuation of the schemes which must be finalised by 1 February 2008. As part of that valuation process, the effect of the transaction on the covenant of First Choice Airways Limited, the main employer of members of the UK Defined Benefit Schemes, will be assessed.

The directors have been advised that the transaction is not a Type A transaction for the purposes of the Pensions Regulator's clearance guidance and no application for clearance is being made. On completion, the transaction will be notified to the Pensions Regulator as a Notifiable Event under the Pensions Regulator (Notifiable Events) Regulations 2005.

Certain aspects of the pension arrangements are further discussed in the "Risk Factors" section of this document.

8. Taxation

The following statements, which are intended as a general guide only and are based on current legislation and the current practice of HMRC, summarise certain limited aspects of the United Kingdom taxation treatment of the Merger. They relate only to the position of TUI Travel Shareholders who (unless the position of non-United Kingdom resident TUI Travel Shareholders is expressly referred to) are resident or ordinarily resident in the United Kingdom for United Kingdom tax purposes, who hold their TUI Travel Shares as an investment and who are absolute beneficial owners of their TUI Travel Shares. The statements may not apply to certain classes of TUI Travel Shareholders, such as market makers, brokers, dealers in securities, intermediaries, persons connected with depositary arrangements or clearance services or persons regarded as having obtained their TUI Travel Shares by reason of their employment. The statements are not intended to be, and should not be construed to be, legal or taxation advice to any particular TUI Travel Shareholder.

Any TUI Travel Shareholders who are in doubt as to their tax position or who are subject to taxation in any jurisdiction other than the United Kingdom should consult their own professional advisers without delay.

United Kingdom Taxation of Chargeable Gains

Liability to United Kingdom taxation of chargeable gains will depend on the individual circumstances of TUI Travel Shareholders.

A First Choice Shareholder should not be treated as making a disposal of his First Choice Shares for the purposes of United Kingdom taxation of chargeable gains to the extent that he receives TUI Travel Shares under the Merger. Any chargeable gain or allowable loss which would otherwise

have arisen on a disposal of his First Choice Shares will be "rolled-over" into the TUI Travel Shares so that the TUI Travel Shares will be treated as the same asset as the First Choice Shares, acquired at the same time as the First Choice Shares and for the same acquisition cost.

First Choice Shareholders are advised that clearance has been obtained from HMRC under Section 138 of the Taxation of Chargeable Gains Act 1992 (the "TCGA") that Section 137 TCGA shall not have effect in respect of the Merger. Therefore, the Merger should not be treated as being undertaken otherwise than for bona fide commercial reasons or for a main tax avoidance purpose and Section 137 TCGA should not be capable of applying to preclude the above "roll-over" treatment. For a First Choice Shareholder who, together with persons connected with him or her, holds more than five per cent. of the First Choice Shares.

A subsequent disposal of TUI Travel Shares by a TUI Travel Shareholder who is either resident or ordinarily resident in the United Kingdom may, subject to the TUI Travel Shareholder's circumstances and any available exemption or relief, give rise to a chargeable gain (or allowable loss) for the purposes of United Kingdom taxation of chargeable gains.

Dividends on the TUI Travel Shares

Under current United Kingdom taxation legislation, there is no United Kingdom withholding tax on dividends.

(i) Non-corporate holders of TUI Travel Shares

A holder of TUI Travel Shares who is an individual resident in the United Kingdom for United Kingdom tax purposes and who receives a dividend from TUI Travel will generally be entitled to a tax credit which such shareholder may set off against his total income tax liability on the dividend. The value of the tax credit is currently equal to ten per cent. of the aggregate of the dividend and the related tax credit (the "gross dividend"), which is also equal to one-ninth of the cash dividend received.

A United Kingdom resident individual shareholder who is liable to income tax at the starting or basic rate will be subject to tax on the dividend at the rate of ten per cent. of the gross dividend, so that the tax credit will satisfy in full such shareholder's liability to income tax in respect of the gross dividend. In the case of a United Kingdom resident individual shareholder who is liable to income tax at the higher rate of 32.5 per cent. on the cash dividend and related tax credit, the tax credit will be set against but not fully match his tax liability on the gross dividend and he will have to account for additional tax equal to 22.5 per cent. of the gross dividend (which is also equal to 25 per cent. of the cash dividend received) to the extent that the gross dividend when treated as the top slice of his income falls above the threshold for higher rate income tax. For example, a dividend of £80 will carry a tax credit of £8.89. The income tax payable by a higher rate taxpayer would be 32.5 per cent. of £88.89, namely £28.89, less the tax credit of £8.89, leaving a net tax liability of £20.

Generally, non-corporate holders of TUI Travel Shares who are resident in the United Kingdom but who are not liable to income tax or corporation tax on dividends including pension funds and charities, will not be entitled to claim repayment of the tax credit attaching to dividends paid by TUI Travel.

TUI Travel Shareholders who hold their TUI Travel Shares in an ISA or PEP are exempt from tax on dividends paid by TUI Travel but are not entitled to recover the tax credit on the dividends paid from HMRC.

(ii) Corporate Holders of TUI Travel Shares

Holders of TUI Travel Shares within the charge to corporation tax and resident for tax purposes in the United Kingdom will generally not be subject to corporation tax on dividends received from TUI Travel. Those shareholders will not be entitled to claim repayment of tax credits attaching to dividends.

Stamp Duty and Stamp Duty Reserve Tax ("SDRT")

No stamp duty or SDRT will be payable by TUI Travel Shareholders on the allotment, issue or registration of TUI Travel Shares.

A transfer for value of TUI Travel Shares outside the CREST system will generally be subject to United Kingdom stamp duty or to SDRT. Stamp duty and SDRT are normally the liability of a purchaser. Stamp duty is generally payable on an instrument transferring TUI Travel Shares at the rate of 0.5 per cent. of the amount or value of the consideration for the transfer of the TUI Travel Shares (rounded up to the nearest £5). A charge to SDRT will also normally arise on an unconditional agreement to transfer TUI Travel Shares equal to 0.5 per cent. of the amount or value of the consideration payable for the transfer. However, if within six years of the date on which the agreement is made (or, if that agreement is conditional, the date on which the condition is satisfied) an instrument of transfer is executed pursuant to the agreement and duly stamped, any SDRT paid will be refunded (generally, but not necessarily, with interest) provided that a claim for repayment is made within the six year period, and any outstanding liability to SDRT will be cancelled.

Paperless transfers of TUI Travel Shares within CREST are generally liable to SDRT, rather than stamp duty, at the rate of 0.5 per cent. of the amount or value of the consideration payable. CRESTCo is obliged to collect SDRT from the purchaser of TUI Travel Shares on relevant transactions settled within the system. Deposits of TUI Travel Shares in CREST will not be subject to stamp duty and, unless the transfer into CREST is itself for consideration, will not be subject to SDRT. Special rules may apply to the transfer or deposit of shares into any depositary receipt or clearance service arrangement and in relation to market intermediaries.

Personal Equity Plans ("PEPs") and Individual Savings Accounts ("ISAs")

TUI Travel Shares should be eligible to be held within a PEP or an ISA as qualifying securities. Shareholders are reminded that no new subscription may now be made to PEPs.

9. Principal Subsidiary Undertakings and Other Undertakings

TUI Travel's principal subsidiaries and associated undertakings (each of which are considered by TUI Travel to be likely to have a significant effect on the assessment of assets and liabilities, the financial position and/or the profits and losses of the Enlarged Group) will, on Completion, be as follows:

TUI Tourism

Subsidiary	Countries of incorporation	Principal activities	Percentage to be held by TUI Travel
Berge & Meer Touristik GmbH	Germany	Tour operator	100
Corsair S.A.	France	Airline	98.9
Groupe Nouvelles Frontières S.A.S	France	Tour operator	100

TUI Northern Europe Limited, Wigmore House, Wigmore Place, Wigmore Lane, Luton, LU2 9TN, United Kingdom

TUI España Turismo S.A., Camino Viejo de Bunyola, 43, 07009 Palma de Mallorca, Spain

Hapag-Lloyd Fluggesellschaft mbH, Flughafenstraße 10, 30855 Langenhagen, Germany

Nouvelles Frontières S.A., Immeuble Terra Nova 2, 74, rue de Lagny, 93107 Montreuil Cedex, France

First Choice

First Choice House, London Road, Crawley, West Sussex, RH10 9GX, United Kingdom

Hotelbeds, Calle Perez Galdos, 34, 07006, Palma de Mallorca, Spain

11. Summary of Principal Investments

TUI Tourism

TUI Tourism has not made any principal investments for the financial periods ended 31 December 2004, 2005 and 2006, nor for the period between 31 December 2006 and 27 June 2007 (the latest practicable Business Day prior to the publication of this document). TUI Tourism has no principal investments which are in progress. The directors of TUI Tourism have made no firm commitments concerning future principal investments.

First Choice

First Choice has made the following principal investments for the financial periods ended 31 October 2004, 2005 and 2006 and for the period between 31 October 2006 and 27 June 2007 (the latest practicable Business Day prior to the publication of this document):

- In December 2005, the Grand Expeditions companies were acquired for a total consideration of £54 million.
- In January 2006, INTRAV, Inc. was acquired for a total consideration of £36 million.
- In June 2006, Your Man Tours, Inc. was acquired for an initial consideration of £24 million.
- In December 2006, Late Rooms Ltd was acquired for an initial consideration of £108 million with a further maximum of £12 million payable depending on performance over the next three years.

First Choice has no principal investments which are in progress. The directors of First Choice have made no firm commitments concerning future principal investments.

12. Material Contracts

12.1 TUI Travel

The following are all the contracts (not being contracts entered into in the ordinary course of business) that have been entered into by TUI Travel and its subsidiaries: (i) within the two years immediately preceding the date of this document which are, or may be, material to TUI Travel or its subsidiaries; or (ii) at any time and contain obligations or entitlements which are, or may be, material to TUI Travel or its subsidiaries as at the date of this document:

12.1.1 The Merger Agreement

The Merger Agreement is summarised in paragraph 5 of Part III of this document.

12.1.2 The Relationship Agreement

Following Completion, TUI AG will hold 51 per cent. of the TUI Travel Shares on a fully diluted basis. The Relationship Agreement records the understanding between TUI AG and TUI Travel regarding the relationship between them and the governance of TUI Travel. The Relationship Agreement was entered into on 29 June 2007 to take effect conditional upon Completion.

The Relationship Agreement will remain in force until either the shares are no longer admitted to listing on the Official List and to trading on the London Stock Exchange, or TUI AG has less than ten per cent. of the rights to vote at general meetings of TUI Travel. In addition, in the event that a person (acting alone or in concert with other persons) acquires control of TUI AG during the term of the Relationship Agreement, TUI AG will lose certain rights under the Relationship Agreement including its rights in respect of the composition of the Board described below.

The Relationship Agreement sets out the agreement of TUI AG and TUI Travel as to the composition of the Board as follows:

(a) the Board shall have a maximum of 17 Directors, a majority of whom shall be independent;

(b) for so long as TUI AG holds 30 per cent. or more of the voting rights in TUI Travel, it may appoint two Non-Executive Directors (being "Shareholder Directors");

(c) for so long as TUI AG holds 40 per cent. or more of the voting rights in TUI Travel, it may appoint one of the Shareholder Directors to the position of chairman of the Board, in which case the chief executive of TUI Travel will be appointed by the Board but subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent Non-Executive Directors. If this process does not lead to an appointment of a Chief Executive, the matter will be put to the vote of the TUI Travel Shareholders (including TUI AG);

(d) for so long as TUI AG holds 40 per cent. or more of the voting rights in TUI Travel, TUI AG may relinquish its right to appoint the chairman of the Board and in return have the right to appoint the Chief Executive who shall constitute one of TUI AG's two Shareholder Directors. If this right is invoked, the chairman will be appointed by the Board but subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent Non-Executive Directors. If this process does not lead to an appointment, the matter will be put to the vote of the TUI Travel Shareholders (including TUI AG);

(e) if TUI AG holds less than 40 per cent. of the voting shares of TUI Travel, for so long as it holds 30 per cent. or more of the voting rights of TUI Travel, the Board will appoint the chairman but subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent Non-Executive Directors. If this process does not lead to an appointment, the matter will be put to the vote of the TUI Travel Shareholders (including TUI AG);

(f) the nomination committee of TUI Travel will nominate the rest of the Directors, who will be appointed and/or removed by the Board; and

(g) it is agreed that any person nominated and/or appointed to a position on the Board shall have appropriate experience and qualification for his or her role.

In addition, TUI AG has agreed that it will exercise its voting rights in relation to class 1 transactions under the Listing Rules in accordance with the recommendation given by the Board unless all of the directors appointed by TUI AG have dissented to or abstained from such recommendation.

TUI Travel has agreed that it will not (other than on the exercise of certain share options) issue any shares if the effect will be to reduce TUI AG's voting rights. If TUI Travel issues shares other than on a pre-emptive basis, TUI AG will have the right to subscribe for TUI Travel Shares at market value in order to restore the pre-existing level of its voting rights.

TUI AG has agreed that it will not, for a period of 12 months following Admission, dispose of any TUI Travel Shares without the consent of TUI Travel, other than (i) in each of the two consecutive periods of six months immediately following Admission, the disposal of TUI Travel Shares constituting, in aggregate, no more than ten per cent. of issued share capital then in issue either in the market (subject to orderly market restrictions) or to a single purchaser (who has agreed to be bound by equivalent lock-up restrictions); (ii) intra group transfers of TUI Travel Shares; and (iii) the acceptance of a takeover offer in accordance with the Takeover Code.

Disposals of TUI Travel Shares by TUI AG after the expiry of the 12 month period following Admission will be effected after consultation with TUI Travel.

Further, TUI AG has agreed that it will not acquire any TUI Travel Shares other than (i) acquisitions that would increase its shareholding to not more than 55 per cent.; (ii) consequential increases in TUI AG's percentage of TUI Travel Shares as a result of a purchase by TUI Travel of its own shares; or (iii) where TUI AG makes a general offer to acquire all TUI Travel Shares then in issue.

TUI Travel has agreed that each of the following matters will require the prior approval of 80 per cent. of the Directors present at the meeting of the Board at which such matter is considered:

(a) any material alteration (including cessation) to the general nature of the business of any Group Company;

(b) the sale, transfer, leasing, licensing or disposal by any Group Company (other than in the normal course of trading) of all or a substantial part of its business, undertaking or assets, the transfer of any shares in the capital of any Group Company or the acquisition of any share capital or loan capital of, or the entry into of any partnership or joint venture arrangement or merger with, any body corporate, whether by a single transaction or series of transactions, related or not, where such transaction or series of transactions exceed a value of £10,000,000;

(c) the entry into by any Group Company of any new borrowing facility, the variation of the terms of any borrowing facilities or the issue or redemption prior to its due date of any loan capital; and

(d) the approval of an annual budget comprising short term business plans of the Enlarged Group in relation to profit, investment and financial planning.

In addition, TUI Travel shall avoid doing any of the following, which may cause TUI AG to be in breach of any of the restrictions under TUI AG's current bond facilities in the absence of any permitted exemption:

(a) borrowing any monies from external financial institutions in excess of the Enlarged Group's outstanding borrowings as at Completion, save in respect of the refinancing of such borrowings;

(b) creating or permitting to exist any liens over the Enlarged Group's assets other than those arising by operation of law or already in existence as at Completion (or arising pursuant to any refinancing referred to in (a) above);

(c) selling any of the Enlarged Group's assets other than for fair market value, at least 75 per cent. of which is paid in cash, with such proceeds being used to repay indebtedness or to invest in properties and assets used in the Enlarged Group's business;

(d) guaranteeing or permitting any Group Company to guarantee the debt of the Enlarged Group;

(e) creating or permitting to exist any restrictions on the Enlarged Group's ability to pay dividends, make inter company loans, repay inter-company indebtedness, or transfer its assets to another member of the Company's or TUI AG's group;

(f) merging with or selling all of the Enlarged Group's assets to another person; or

(g) failing to repay any indebtedness or pay any final judgment which amounts to more than €25 million.

TUI Travel and TUI AG will discuss any proposed course of action which may be permitted by an exemption to such restrictions and if there is doubt as to whether such exemption applies to any particular case, TUI AG's decision on the matter shall be final.

12.1.3 The Shareholder Loan Agreement

TUI AG and TUI Travel entered into the Shareholder Loan Agreement on 29 June 2007 under which, conditional upon Completion, TUI AG will lend a maximum amount of €2.0 billion to TUI Travel (the "Facility"). This agreement will provide TUI Travel with funds for general corporate purposes for the period from Completion until the date three years after TUI Travel is no longer restricted from raising external finance by the terms of the Relationship Agreement (the "Final Maturity Date").

The entire amount under the Facility will be drawn down on Completion and will be available to the Enlarged Group for its operations. The Facility is unsecured with interest due quarterly. The only circumstances in which the Facility must be prepaid before the Final Maturity Date are:

(a) if it is or becomes illegal for TUI AG to provide the loan;

(b) when TUI Travel arranges its own financing from a source external to the TUI AG group; or

(c) upon an acceleration following an event of default.

TUI Travel makes representations which are standard in a facility of this type including representations as to corporate existence and power to enter into the loan, no default, no litigation, and in relation to accounts and other information provided. In addition to the usual

undertakings relating to notification of events of default, maintenance of authorisations, compliance with law and incurring financial indebtedness, TUI Travel also undertakes that:

(a) it will not take action in breach of the provisions of the Relationship Agreement relating to covenants TUI AG has given in various of its financing arrangements; and

(b) it will refinance the Facility with a third party finance provider external to the Enlarged Group and TUI AG's group once the contractual restrictions placed on TUI AG which prevent TUI Travel preventing it from raising external finance have been removed.

Events of default under the Facility are limited to the breach of any provision of the credit agreement, misrepresentation, the non-payment of principal and interest and general insolvency events relating to TUI Travel or any of its subsidiaries.

Some of the funds provided under the Facility may be put into the TUI AG group cash pooling arrangements. Amounts contributed to these cash pooling arrangements will still accrue interest under the Facility. However, TUI AG will pay any interest to TUI Travel that is earned on TUI Travel's deposits at the usual deposit rate of interest under their cash pooling arrangements in accordance with their cash pooling arrangements from time to time.

12.1.4 The Hotel Framework Agreement

TUI AG, TUI Travel (and their respective related parties Robinson Club GmbH ("Robinson") (an affiliate of TUI AG now and following Completion) and TUI Deutschland GmbH ("TUI Deutschland") (an affiliate of TUI Travel following Completion) entered into the Hotel Framework Agreement on 26 June 2007. The Hotel Framework Agreement governs the commercial relationship between TUI AG and TUI Travel (and their affiliates) in respect of the distribution of hotel beds forming the "Robinson" hotel portfolio interest retained by TUI AG and not transferred to TUI Travel on Completion.

Under the Hotel Framework Agreement, TUI Deutschland (TUI Travel's tour operating business) will continue to have access to the Robinson hotel portfolio and to the distribution of such portfolio's hotel beds in Germany, Austria, Switzerland, Poland, Czech Republic, Hungary, Slovenia and Slovakia (the "Distribution Territory") on the basis of the existing levels of exclusivity and seasonal agreements between TUI Deutschland and Robinson, as practised prior to Completion. In addition, TUI Deutschland agrees to provide the same services in relation to the distribution of the beds in the Distribution Territory as it did prior to Completion and shall be entitled to use certain Robinson trade marks in connection with these services. Robinson agrees to maintain the relevant hotels to the standard maintained prior to Completion. It is agreed that the Hotel Framework Agreement will survive a change of control of the Robinson business.

The Hotel Framework Agreement expires on 31 October 2011, provided that one year prior to such expiry the parties shall discuss in good faith and endeavour to agree a replacement agreement to govern the distribution of beds and provision of the services in the Distribution Territory once the Hotel Framework Agreement has expired.

In addition to the Hotel Framework Agreement, the existing "Magiclife" hotel framework agreement (pursuant to which TUI AG permits the distribution of hotel beds in the "Magiclife" hotel portfolio by members of the TUI Tourism Group) shall remain in force following Completion.

12.1.5 The Trade Mark Licence Agreement

On or before Completion, TUI AG and TUI Travel will enter into a trade mark licence agreement pursuant to which TUI AG will grant TUI Travel an exclusive right to use the registered trade mark "TUI Travel" (both in word and logo form) in TUI Travel's corporate holding business, as well as the right to use "TUI Travel" as its company name. As consideration for the grant of this licence, TUI Travel agrees to pay TUI AG an annual licence fee of €200,000.

The Trade Mark Licence Agreement contains provisions that are standard in trade mark licences, requiring TUI Travel to ensure that its use of the licensed trade mark is consistent with TUI AG's brand guidelines.

The Trade Mark Licence Agreement is for an initial term of five years with an option for TUI Travel to extend the licence for a further five years thereafter (in each case, unless terminated earlier by either party). TUI AG's termination rights are limited to the right to terminate for TUI Travel's material breach or insolvency. On expiry of any additional five year term, the parties shall consider (without any obligation on either party) a further extension of the licence on comparable terms.

In addition to the grant of the licence relating to TUI Travel's corporate holding business, the Trade Mark Licence Agreement provides for the replacement of certain existing trade mark licences granted from TUI AG to members of the TUI Tourism Group in relation to TUI Tourism's use of the "TUI" name and logo and other trade marks from within TUI AG's portfolio of trade marks used in TUI Tourism's business. Amongst other things, these replacement licences limit TUI AG's right to terminate the licences and standardise both the duration of the licenses (to a standard term of five years with an option for the relevant licensee to extend for a further five years) and the licence fees payable under each licence (to an annual fee equal to 0.02 per cent. of the average annual gross turnover of the relevant licensee under the relevant trade marks measured over a three year period). On expiry of any additional five year term, the parties shall consider (without any obligation on either party) a further extension of the licence on comparable terms.

The Trade Mark Licence Agreement also establishes a framework whereby members of the TUI Tourism Group can request additional rights from TUI AG under the "TUI" name and logo and other trade marks from within TUI AG's portfolio of trade marks used in TUI Tourism's business (including requests for additional licences and requests for increases in scope of existing licences). TUI AG has to give its consent to such requests except in limited circumstances. All new licences and replacement licences granted under this framework will be on the standard terms and conditions of a pro forma licence that will be annexed to the Trade Mark Licence Agreement.

12.1.6 The Sponsors' Agreement

The Company, First Choice, certain companies within the TUI Tourism Group and each of Deutsche Bank, Lazard and Morgan Stanley (the "Joint Sponsors") have entered into a sponsors' agreement dated 29 June 2007. Pursuant to the terms of the Sponsors' Agreement, the Company appointed each of the Joint Sponsors to act as the Company's sponsor in connection with Admission. The Company has undertaken to pay certain costs, charges, fees and expenses and to reimburse the Joint Sponsors for certain costs incurred in connection with Admission. Pursuant to the terms of the agreement, First Choice, certain companies within the TUI Tourism Group and the Company have also given certain representations, warranties, undertakings and indemnities to the Joint Sponsors in connection with the Merger and Admission. The Sponsors' Agreement may be terminated prior to Admission in certain circumstances.

12.1.7 £600,000,000 Credit Facility

A £600,000,000 credit facility dated 29 June 2007 and entered into between (1) TUI Travel as borrower, (2) Barclays Capital, The Royal Bank of Scotland plc and Société Générale Corporate & Investment Banking as mandated lead arrangers, (3) Barclays Bank Plc, The Royal Bank of Scotland plc and Société Générale as original lenders and (4) The Royal Bank of Scotland plc as issuing bank and facility agent relating to a £600,000,000 multicurrency revolving facility available by way of cash advances and the issuing of letters of credit and bank guarantees to be used for general corporate purposes including the refinancing of certain existing facilities of the First Choice Group including the $100,000,000 6 per cent. notes due 2009. The final maturity date is five years from the date of the agreement.

Interest is payable at a rate equal to the aggregate of (i) LIBOR or EURIBOR (as applicable), (ii) mandatory costs and (iii) margin at 0.75 per cent. per annum. An arrangement fee and facility agency fee and a fronted instrument fee are payable in an amount agreed between the parties. A commitment fee is payable on the undrawn and uncancelled amounts.

The agreement contains representations, undertakings and events of default normal for facilities of this type.

12.1.8 £400,000,000 Bonding Facility

A £400,000,000 bonding facility agreement dated 29 June 2007 and entered into between (1) TUI Travel PLC as borrower, (2) Barclays Capital, The Royal Bank of Scotland plc and Société Générale Corporate & Investment Banking as mandated lead arrangers, (3) Barclays Bank plc, The Royal Bank of Scotland plc and Société Générale as original lenders and (4) The Royal Bank of Scotland plc as facility agent relating to a £400,000,000 bonding facility to be used for general corporate purposes including the replacing of bonds issued under the £310,000,000 syndicated revolving credit, Letter of Credit, bank guarantee and bonding facility dated 8 March 2004. The final maturity date is 31 March 2008 unless notice is given to extend the bonding facility in which case the final maturity date is 31 March 2009.

An issuance fee is payable quarterly in arrears at a rate of 0.55 per cent. per annum on the issued bonds. An agency fee and an arrangement fee are payable in a manner agreed between the parties. A commitment fee is payable on the undrawn and uncancelled amounts.

The agreement contains representations, undertakings and events of default normal for facilities of this type.

12.2 TUI Tourism

The following are all the contracts (not being contracts entered into in the ordinary course of business) that have been entered into by the TUI Tourism Group: (i) within the two years immediately preceding the date of this document which are, or may be, material to the TUI Tourism Group; or (ii) at any time and contain obligations or entitlements which are, or may be, material to the TUI Tourism Group as at the date of this document:

12.2.1 £310,000,000 Bonding Facility

A bonding facility agreement dated 9 March 2005 and entered into by (1) TUI AG as guarantor, TUI Northern Europe as borrower, (2) various subsidiaries of TUI AG as guarantors, (3) HVB Banque Luxembourg Société Anonyme as facility agent, (4) The Royal Bank of Scotland plc as bonding agent, (5) Bayerische Hypo- und Vereinsbank AG, Citigroup Global Markets Limited, Commerzbank Aktiengesellschaft, The Royal Bank of Scotland plc and WestLB AG as mandated lead arrangers, and (6) various financial institutions as lenders, relating to a £310,000,000 multicurrency bonding facility which has been used to refinance certain existing indebtedness and is to be used to support the ongoing bonding requirements of TUI Northern Europe and its subsidiaries in the United Kingdom, the Republic of Ireland and Scandinavia in connection with their tour operating, holiday and retail business. The final maturity date is 31 March 2010 following the exercise of two extension options. In January 2007, £30,000,000 of the facility was voluntarily cancelled, so currently the available amount under the facility is £280,000,000; presently the amount outstanding under this facility is £262,935,215.

Under the bonding facility the lenders agree to make available to TUI Northern Europe or any other additional borrower (on behalf of itself or its subsidiaries) a multicurrency bonding facility. TUI Northern Europe agrees to indemnify the lenders in respect of the issue of any bonds issued under the facility. A bonding commission is payable by the borrower on each outstanding bond at a rate varying between 0.75 per cent. to 1.25 per cent. per annum on the amounts outstanding under a bond depending on the leverage ratio of the TUI AG group. An arrangement fee and an agency fee are payable by TUI AG as agreed separately between TUI AG and the mandated lead arrangers and the agent as the case may be. A commitment fee is payable by TUI Northern Europe on the unutilised amount of the facility at the rate of 45 per cent. of the applicable bonding commission.

The bonding facility may be subject to acceleration and cancellation of the commitment under the facility if a change of control of TUI AG or Hapag-Lloyd AG occurs. In the event of such change of control the terms of the bonding facility will be negotiated for a period of 30 days. If agreement is not reached in this period the facility will be cancelled and all amounts accrued in relation to the facility are due and payable, however if the lenders who hold an aggregate commitment which is more than 50 per cent. of the total commitments at that time agree that cancellation is not required TUI Northern Europe will only be obliged to repay the commitments to the lenders who do not agree.

TUI Northern Europe and TUI AG (on behalf of themselves and their subsidiaries) have each given customary representations and warranties and has agreed to provide the agent with regular financial information. Included in these warranties is an obligation to obtain a certificate from the chief financial officer or representatives of TUI AG identified as Vorstand or Prokurist in the commercial register of TUI AG certifying that any proposed acquisition in excess of €100,000,000 will not breach the financial covenants in the bonding facility. There is also a restriction on the disposal of specific named subsidiaries without consent of the lenders. The various consents necessary to effect the Merger have been obtained and the required certificates have been sent to the lenders.

12.2.2 £10,000,000 Bonding Facilities

Two bonding facility agreements on substantially the same terms both dated 26 September 2005:

- entered into by (1) TUI AG as guarantor, TUI Northern Europe as borrower, (2) various subsidiaries of TUI Northern Europe as guarantors, and (3) ACE European Group Limited, the legal successor to the business of ACE Insurance S.A. N.V. as surety; and
- entered into by (1) TUI AG as guarantor, TUI Northern Europe as borrower, (2) various subsidiaries of TUI Northern Europe as guarantors, and (3) Zurich Versicherung AG (Deutschland) as surety.

ACE European Group Limited and Zurich Versicherung AG (Deutschland) are each a Surety. Each bonding facility is a £10,000,000 multicurrency bonding facility which was used to replace existing bonding facilities and to support the ongoing bonding requirements of TUI Northern Europe and its subsidiaries in connection with their tour operating, holiday and retail business. The final maturity date of the facilities is 31 March 2008. Each of these facilities is fully drawn.

Under these bonding facilities, the Sureties agree to make available to TUI Northern Europe (on behalf of itself or its subsidiaries) a multicurrency bonding facility. TUI Northern Europe agrees to indemnify the Sureties in respect of the issue of any bonds under the facility. A bonding commission is payable by the Borrower to the Surety at one per cent. per annum on the amounts outstanding under the bonding facilities.

TUI Northern Europe and TUI AG have each given customary representations and warranties and have agreed to provide the agent with regular financial information. Included in these warranties is an obligation to get a certificate from the chief financial officer or representatives of TUI AG identified as Vorstand or Prokurist in the commercial register of TUI AG certifying that any proposed acquisition in excess of €100,000,000 will not breach the financial covenants in the bonding facility. There is also a restriction on the disposal of specific named subsidiaries without consent of the Sureties. These bonding facilities are referenced back to the £310,000,000 facility (as amended) referred to above and any consent or waiver granted or certificate given under the £310,000,000 facility (as amended) will serve as consent under these documents.

12.3 First Choice

The following are all the contracts (not being contracts entered into in the ordinary course of business) that have been entered into by the First Choice Group: (i) within the two years immediately preceding the date of this document which are, or may be, material to the First Choice Group; or (ii) at any time and contain obligations or entitlements which are, or may be, material to the First Choice Group as at the date of this document:

12.3.1 The Merger Agreement summarised in paragraph 5 of Part III of this document.

12.3.2 £108,000,000 Term Loan

A facility agreement dated 20 December 2006 and entered into between (1) First Choice as borrower, (2) various subsidiaries of First Choice as original guarantors and (3) The Royal Bank of Scotland plc as original lender and relating to a £108,000,000 term loan facility to be used for the financing of the acquisition of the entire issued share capital of Ever 2457 Limited and the payment of any costs and expenses incurred in connection with the acquisition. Subject to an extension option described therein, the final maturity date is the first anniversary of the date of the agreement. Currently the amount available for drawdown under this facility is £35,000,000.

Interest is payable on loans at the rate equal to the aggregate of (i) LIBOR, (ii) mandatory costs and (iii) the applicable margin, which will be (x) on or before the date falling 9 months from the date of the agreement, 0.75 per cent. per annum, (y) thereafter, but on or before the date falling on the first anniversary of the date of the agreement, 1.25 per cent. per annum and (z) subject to the extension option, thereafter 1.50 per cent. per annum. A flat rate commitment fee is payable quarterly in arrears on the undrawn, uncancelled amount of the facility and an arrangement fee is payable in a manner agreed between the borrower and lender.

The agreement contains representations, undertakings and events of default normal for facilities of this type. Among other things, the agreement contains (i) restrictions on any merger undertaken without the prior consent of the lender and (ii) a mandatory prepayment event upon a change of control of First Choice. Lender consent to the proposed merger has not been sought as this facility will be repaid out of the proceeds of the £600,000,000 Credit Facility and cancelled in full upon completion of the merger.

12.3.3 £28,000,000 Term Loan

A facility agreement dated 10 November 2006 and entered into between (1) First Choice and certain subsidiaries and/or affiliates of First Choice listed therein as borrowers, (2) First Choice as guarantor and (3) The Royal Bank of Scotland plc as original lender, agent and security trustee, and relating to a £28,000,000 term loan facility to be used for the replenishment of funds and/or reserves utilised by a borrower in connection with funding the acquisition by a borrower other than First Choice of the inland waterway assets (the Existing Assets and the Future Assets as defined therein) as set out in a schedule thereto. First Choice as guarantor may during certain periods request by written notice a further term loan facility to be provided on terms consistent with already available facilities, subject to the terms described therein. Repayment of the facilities will be in accordance with a repayment table to be issued by the agent. Currently the amount available for drawdown under this facility is £7,807,692.

Interest is payable at the rate equal to the aggregate of (i) LIBOR, (ii) mandatory costs and (iii) margin at 0.65 per cent. per annum. On the dates specified in the agreement a flat rate commitment fee is payable on undrawn and uncancelled amounts and a front end fee is payable to the original lender on the first utilisation date.

The agreement contains representations, undertakings and events of default normal for facilities of this type. Among other things, the agreement contains restrictions on any merger, which means that the proposed merger will require lender consent. Such consent has been obtained.

12.3.4 €18,300,000 Term Loan

A facility agreement dated 14 November 2005 and entered into between (1) First Choice as borrower, (2) various subsidiaries of First Choice as original guarantors and (3) IVEFI SA as lender and relating to a €18,000,000 loan facility to be used for the general corporate purposes of the group. The loan must be repaid in full on the date falling four years after the date of the agreement, and is currently fully drawn.

Interest is payable at the rate per annum equal to the aggregate of (i) EURIBOR, (ii) mandatory costs and (iii) margin at 0.45 per cent. per annum.

The agreement contains representations, undertakings and events of default usual for facilities of this type. Among other things, the agreement contains a mandatory prepayment event upon a change of control of First Choice. Lender consent to the proposed merger has not been sought as this facility will be repaid out of the proceeds of the £600,000,000 Credit Facility and cancelled in full upon completion of the merger.

12.3.5 £240,000,000 Revolving Credit Facility

A credit facility agreement dated 11 July 2005 and amended on 4 January 2007 and entered into between (1) First Choice as borrower, (2) various subsidiaries of First Choice as original guarantors, (3) Barclays Capital, HSBC Bank plc, ING Bank N.V. London Branch, Société Générale and The Royal Bank of Scotland plc as mandated lead arrangers, (4) Barclays Bank plc, HSBC Bank plc, ING Bank N.V. London Branch, Société Générale, The Royal Bank of Scotland plc, Banco Bilbao Vizcaya

Argentaria S.A., The Co-operative Bank plc, Citibank International plc, National Australia Bank Limited, Allied Irish Banks, plc and Commerzbank Aktiengesellschaft, London Branch as lenders and (5) The Royal Bank of Scotland plc as facility agent, relating to a £140,000,000 revolving credit facility (Facility A) and a £100,000,000 revolving credit facility (Facility B), each to be used for the general corporate purposes of the group. Each loan must be repaid in full on the date which is the last day of the term of that loan (the term of a loan to be determined in accordance with the provisions of the agreement). The final maturity date is the date falling five years after the date of the agreement. Currently the amount available for drawdown under this facility is £4,047,869.

Interest is payable at the rate per annum equal to the aggregate of (i) LIBOR or EURIBOR, as applicable, (ii) mandatory costs and (iii) margin at 0.75 per cent. per annum. A flat rate commitment fee is payable quarterly in arrears on the undrawn, uncancelled amount of each lender's commitment. A facility agent's fee and an arrangement fee is payable by the borrower in a manner agreed.

The agreement contains representations, undertakings and events of default usual for facilities of this type. Among other things, the agreement contains (i) restrictions on any merger undertaken without the prior consent of the majority lenders (as defined therein) and (ii) a mandatory prepayment event upon a change of control of First Choice. Lender consent to the proposed merger has not been sought as this facility will be repaid out of the proceeds of the £600,000,000 Credit Facility and cancelled in full upon completion of the merger.

12.3.6 £310,000,000 Revolving Credit Facility

A credit facility agreement dated 8 March 2004 and amended on 31 January 2005 and 4 January 2007 and entered into between (1) First Choice as borrower, (2) various subsidiaries of First Choice as original guarantors, (3) Barclays Capital, HSBC Bank plc, ING Bank N.V., The Royal Bank of Scotland plc and Société Générale as mandated lead arrangers, (4) Barclays Bank plc, HSBC Bank plc, ING Bank N.V. London Branch, Société Générale, The Royal Bank of Scotland plc, Banco Bilbao Vizcaya Argentaria S.A., Natixis, London Branch, Citibank International plc, National Australia Bank Limited, Allied Irish Banks plc and Commerzbank Aktiengesellschaft London Branch as original lenders, (5) The Royal Bank of Scotland plc as issuing bank and (6) The Royal Bank of Scotland plc as facility agent, relating to a £310,000,000 revolving credit facility to be used for the general corporate purposes of the group, including the refinancing of certain existing indebtedness of members of the group. The facility includes a letter of credit option, a bank guarantee option and a bond option to be used to support the ongoing requirements of the group, including the refinancing of certain existing indebtedness. The final maturity date is 31 March 2009. Currently the amount available for drawdown under this facility is £10,714,000.

Interest is payable at the rate per annum equal to the aggregate of (i) LIBOR or EURIBOR, as applicable, (ii) mandatory costs and (iii) margin at 0.75 per cent. per annum. A commitment fee is payable on the terms therein and a facility agent's fee and an arrangement fee is payable in the manner agreed.

The agreement contains representations, undertakings and events of default usual for facilities of this type. Among other things, the agreement contains (i) restrictions on any merger undertaken without the prior consent of the majority lenders (as defined therein) and (ii) a mandatory prepayment event upon a change of control of First Choice. Lender consent to the proposed merger has not been sought as this facility will be repaid out of the proceeds of the £600,000,000 Credit Facility and the £400,000,000 Bonding Facility and cancelled in full upon completion of the merger.

12.3.7 £75,000,000 Bonding Facility

A bonding facility agreement dated 1 September 2004 as amended by amendment agreements dated 25 February 2005, 26 September 2005 and 5 December 2006 and entered into between (1) First Choice, (2) various subsidiaries of First Choice as original guarantors and (3) ACE Insurance SA. N.V., AIG Europe (UK) Limited acting as authorised foreign agent and manager for companies and corporations who shall from time to time be members of the American International Group, and Zurich Versicherung Aktiengesellschaft (Deutschland) as original sureties.

Under the bonding facility, the sureties agree to issue UK bonds and Irish bonds on behalf of First Choice or any other member of the group which holds any Air Travel Organisers' Licence issued form time to time by the Civil Aviation Authority. The facility may be used to issue UK bonds to any UK Bond Beneficiary (as defined therein), to issue Irish bonds to any Irish Bond Beneficiary (as defined therein) and to replace any existing bond issued for the benefit of any member of the group. Bonds may be issued in sterling or euros. The termination date is 30 April 2008. Currently the amount available for drawdown under this facility is £4,276,000.

A non-utilisation fee is payable by First Choice in sterling quarterly to each surety computed at a flat rate on that surety's available commitment for the period from and including the date of the first utilisation under the agreement until and including the termination date. A bonding fee at a rate of 0.75 per cent. per annum is payable by First Choice in sterling annually in advance on the face amount of each bond for the period commencing with the date of issue of the relevant bond and ending on the termination date. If a bond is cancelled or reduced the surety which issued such bond shall reimburse First Choice on a pro-rata basis for that pro-rata part of the bonding fee paid in advance which relates to the period from the date of such cancellation or reduction.

The agreement contains representations, undertakings and events of default usual for facilities of this type. Among other things, the agreement contains (i) restrictions on any merger undertaken without the prior consent of the majority sureties (as defined therein) and (ii) mandatory cash cover upon a change of control of First Choice, each of which means that the proposed merger will require lender consent. Such consent has been obtained.

12.3.8 Deed of Guarantee

First Choice has entered into a deed of guarantee dated 6 March 2001 as amended by a deed of amendment dated 14 October 2005 in favour of HSH Nordbank in its capacity as facility agent and security trustee under the Loan Agreement (the "Facility Agent") in relation to a loan agreement dated 6 March 2001 (the "Loan Agreement") between, among others the Facility Agent (formerly Landesbank Schleswig Holstein Girozentrale) and Unijet Leisure Limited as borrower, under which First Choice guaranteed the obligations of the borrower under the Transaction Documents (as defined in the Loan Agreement).

The Loan Agreement comprises a term loan facility in an aggregate maximum amount of $35,125,964.20 to be used by Unijet Leisure Limited for the purchase of one airbus A321-221 aircraft. The loan is repaid in forty equal instalments payable on each 14th April, July, October and January until 14 January 2011 in accordance with the schedule as set out therein. Interest is payable on the last day of each interest period calculated at the rate per annum which is the sum of (i) LIBOR and (ii) margin at 0.90 per cent. per annum. So long as no Event of Default, Potential Event of Default or Acceleration Event (each as defined in the Loan Agreement) shall have occurred and be continuing Unijet Leisure Limited may by notice request the banks to use their reasonable endeavours to obtain fixed rate funding in respect of the loan for a period in excess of three months and for no longer than five years. A transaction fee and an agency fee is payable in the manner agreed between the Facility Agent and Unijet Leisure Limited.

The agreement contains representations, undertakings and events of default usual for facilities of this type. Among other things, the agreement contains provisions for an event of default upon merger, which means that the proposed merger requires lender consent. Such consent has been obtained.

12.3.9 £30,000,000 Credit Facility

A facility agreement dated 31 October 2006 and entered into between (1) First Choice Holidays PLC as borrower, (2) various subsidiaries of First Choice Holidays PLC as original guarantors and (3) Deutsche Bank AG, London Branch as lender and relating to a £30,000,000 credit facility to be used for the general corporate purposes of the group. The final maturity date is 11 July 2010. The facility is currently fully drawn.

Interest is payable at the rate equal to the aggregate of (i) LIBOR, (ii) mandatory costs and (iii) margin at 0.75 per cent. per annum. A flat rate commitment fee is payable quarterly in arrears on the undrawn, uncancelled amount of the commitment.

The agreement contains representations, undertakings and events of default normal for facilities of this type. Among other things, the agreement contains (i) restrictions on any merger undertaken without the prior consent of the lender and (ii) a mandatory prepayment event upon a change of control of First Choice. Lender consent to the proposed merger has not been sought as this facility will be repaid out of the proceeds of the £600,000,000 Credit Facility and cancelled in full upon completion of the merger.

12.3.10 $100,000,000 6 per cent. Notes due 2009

First Choice is issuer ("Issuer") of $100,000,000 6 per cent. Notes due 2009. The issue price is 100 per cent. of their principal amount.

Unless previously redeemed or cancelled, the Notes will be redeemed at their principal amount on 30 March 2009. The Notes are subject to redemption in whole at their principal amount at the option of the Issuer at any time in the event of certain changes affecting taxation in the jurisdiction of the Issuer and may be redeemed in whole or in part by the Issuer on any 30 March or 30 September in each year prior to 30 March 2008 and on one month's notice. The Issuer or any of its subsidiaries may at any time purchase Notes in the open market or otherwise and at any price.

The Notes bear interest from and including 30 March 2006 at the rate of six per cent. per annum payable semi-annually in arrear on 30 March and 30 September in each year commencing on 30 September 2006 Payments on the Notes are made in US Dollar. The Notes are currently fully drawn.

The Notes are listed on the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange, "Bourse de Luxembourg".

The Notes are in registered form and in the denomination of $1,000,000 each. The proceeds of the £600,000,000 Credit Facility may be used to redeem the Notes.

12.3.11 Pacific World Share Purchase Agreement

Jacques Arnoux, Robert Guy and Gillian Guy (the "PW Sellers"), Trina Group Limited ("Trina") and First Choice entered into a sale and purchase agreement on 14 July 2006 (as amended on 25 August 2006 and 24 November 2006) (the "PW SPA"). Pursuant to the PW SPA the PW Sellers agreed to sell their shares in Pacific World Limited ("PW Hong Kong"), Pacific World (Thailand) Company Limited ("PW Thailand"), Event Clicks Group Limited ("Eventclicks"), Pacific World Singapore Pte. Limited ("PW Singapore"), Pacific World Destination East Sdn. Bhd ("PW Malaysia") and PT. Pacific World Nusantara ("PW Indonesia") (together the "PW Companies") to Trina. The sale and purchase of the shares in (i) PW Hong Kong, PW Thailand, Eventclicks and PW Singapore was completed on 25 August 2006; (ii) PW Malaysia was completed on 24 November 2006; and (iii) PW Indonesia is still to be completed. The PW Sellers gave customary warranties concerning the PW Companies and their respective subsidiaries. Claims in respect of the warranties must be notified to the PW Sellers within three years of 25 August 2006.

Following completion of the sale of the PW Indonesia shares, Trina will own 100 per cent. of PW Hong Kong, 48.51 per cent. of PW Thailand (including 23.51 per cent. indirectly through PW Hong Kong), 100 per cent. of PW Indonesia (including 18.4 per cent. indirectly through each of PW Hong Kong and PW Singapore), 100 per cent. of PW Singapore (including 30 per cent. indirectly through PW Hong Kong), 30 per cent. of PW Malaysia (including 15 per cent. indirectly through PW Singapore) and 75 per cent. of Eventclicks (including 62.53 per cent. indirectly through PW Hong Kong).

Under separate asset transfer agreements dated 25 August 2006, Hotelbeds (Shanghai) Commercial Service Co., Ltd acquired the business and assets of the Beijing Pacific World Convention & Exhibition Service Co., Limited and the Shanghai Pacific World Convention & Exhibition Service Co., Limited (the "PW ATAs").

The initial consideration payable under the PW SPA and the PW ATAs was $22 million. The maximum consideration payable will be $36 million.

12.3.12 Grand Expeditions Stock Purchase Agreement

Grand Expeditions, Inc. (an affiliate of North Castle Partners III, L.P.) and Project Scott, Inc. entered into a stock purchase agreement on 7 December 2005 (the "GE SPA"). Pursuant to the GE SPA, Grand Expeditions, Inc. sold all of its shares in TCS Expeditions, Inc., Country Walkers, Inc., Park East Tours, Inc., International Expeditions, Inc., and Travcoa Corporation and its interests in GEI/ Moorings, LLC to Project Scott, Inc. for $94 million (including $21 million of long term debt). The limitation periods in respect of bringing claims in relation to the warranties in the GE SPA have expired.

12.3.13 Late Rooms Share Purchase Agreement

John Allen, Anthony Walsh and Christopher Morris (the "LR Warrantors") and John Donaldson, Stephen Walsh, Paul Walsh, EC17 LP and EC17 (UK) LP (together with the LR Warrantors, the "LR Sellers") and Trina entered into a share purchase agreement on 23 December 2006 (the "LR SPA"). Under the LR SPA, the LR Sellers agreed to sell and Trina agreed to acquire the entire issued share capital of Ever 2457 Limited. Late Rooms Ltd is a subsidiary of Ever 2519 Limited (a wholly owned subsidiary of Ever 2457 Limited). The initial consideration payable by Trina was £108 million. A further £12 million may be payable by way of further consideration after 31 December 2009. The LR Warrantors gave customary warranties in respect of Ever 2457 and members of its group. Claims in respect of the warranties must be notified to the LR Warrantors by 31 December 2008 (or 23 December 2013 in the case of claims in respect of the tax warranties).

12.3.14 Peregrine Share Purchase Agreement

Scott Karen & Fiona Pty Ltd and various individuals (the "Peregrine Sellers"), Robert McNaught, Richard Mole, First Choice Holdings Australia Pty Limited ("First Choice Holdings Pty") and First Choice entered into a share sale and purchase agreement on 22 July 2005 (the "Peregrine SPA") pursuant to which the Peregrine Sellers sold all of the issued shares in Peregrine Adventures Pty Ltd to First Choice Holdings Pty. First Choice acted as guarantor of the obligations of First Choice Holdings Pty under the Peregrine SPA. The consideration payable under the Peregrine SPA was AU$44 million (subject to possible post-completion adjustments). The Peregrine SPA contains customary warranties given by the Peregrine Sellers to First Choice Holdings Pty Ltd.

12.3.15 Your Man Tours Stock Purchase Agreement

First Choice Holdings, Inc., Frank J. Dupuis and Frank J. Dupuis, Trustee of the Dupuis Family Trust ("DFT") entered into a stock purchase agreement on 30 June 2006 (the "YMT SPA") whereby DFT sold all of the issued and outstanding shares in Your Man Tours, Inc. to First Choice Holdings, Inc. for an initial consideration of $44 million. The total maximum consideration payable is $49.6 million. DFT has given customary warranties to First Choice Holdings Inc. under the YMT SPA.

12.3.16 INTRAV Stock Purchase Agreement

Kuoni Reisen Holding AG ("Kuoni AG"), Kuoni Holding Delaware, Inc., ("Kuoni Inc") and First Choice Holdings, Inc. entered into a stock sale and purchase agreement on 7 December 2005 (as amended on 16 January 2006 and on 17 January 2006) (the "Kuoni SPA") whereby Kuoni Inc sold all of the issued and outstanding capital stock of INTRAV, Inc. to First Choice Holdings, Inc. for a total consideration of £36 million. The Kuoni SPA contains customary warranties given by Kuoni AG to First Choice Holdings, Inc. on an indemnity basis.

13. Related Party Transactions

TUI Travel

TUI Travel has entered into the following transactions and agreements with related parties during the period between its incorporation and 27 June 2007 (being the latest practicable Business Day prior to the publication of this document):

(a) the Merger Agreement summarised in paragraph 5 of Part III of this document;

(b) the Relationship Agreement summarised in paragraph 12.1.2 of this Part XI;

(c) the Shareholder Loan Agreement summarised in paragraph 12.1.3 of this Part XI; and

(d) the Hotel Framework Agreement summarised in paragraph 12.1.4 of this Part XI.

TUI Tourism

Save as disclosed in the financial information set out in note 29 of the financial information for the three financial periods of TUI Tourism ended 31 December 2006 set out in Part V of this document, TUI Tourism has entered into no material transactions with related parties during the three financial periods ended 31 December 2006 or in the period between 1 January 2007 and 27 June 2007 (being the latest practicable Business Day prior to the publication of this document).

First Choice

Transactions between First Choice and its related parties are disclosed, in accordance with IAS 24: Related Party Disclosures, in note 30 of the historical financial information for the two years ended 31 October 2006 in Section B of Part VII of this document and in note 30 of the audited consolidated financial statements for the year ended 31 October 2004 in Section C of Part VII of this document. All material related party transactions were on ordinary commercial terms incurred in the normal course of the Group's business. Save as set out in Part VII of this document, First Choice has entered into no material transactions with related parties during the three financial periods ended 31 October 2006 or in the period between 1 November 2006 and 27 June 2007 (being the latest practicable date prior to the publication of this document).

14. Property, plant and equipment

Principal types of tangible fixed assets owned by TUI Tourism and First Choice include land, buildings, ships, yachts, motor boats, aircraft and equipment and computer equipment. No individual tangible fixed asset of TUI Tourism or First Choice is material.

15. European Union Emissions Trading Scheme

The European Commission proposes to include aviation within the scope of the European carbon dioxide cap-and-trade scheme (the "European Union Emissions Trading Scheme" or "EU ETS"). The EU ETS requires participants to account for their emissions by surrendering allowances they have been allocated or, if necessary, purchased on the allowance market. The current proposal is to include the aviation industry from the start of 2011. Businesses operating aircraft routes within, to or from the EU would be required to measure their carbon dioxide emissions and account for those emissions by surrendering allowances. To the extent that TUI Travel operates flights that fall within the scope of the proposal, it may be necessary for those companies to buy allowances if their emissions exceed the amount of allowances allocated to them free of charge.

As the proposal is not yet finalised it is not possible to either precisely determine which TUI Travel entities will fall within the scope of the EU ETS nor make an assessment of the future financial impact of the EU ETS on the Company. However, as under the proposal some allowances will be auctioned rather than allocated free, and due to the growth of the aviation industry, aircraft operators are likely to need to purchase additional allowances to account for their emissions.

16. Significant Changes

TUI Travel

There has been no significant change in the financial or trading position of TUI Travel and its subsidiaries since 31 May 2007, being the date to which the historical financial information on TUI Travel set out in Section B of Part IX of this document has been prepared.

TUI Tourism

There has been no significant change in the financial or trading position of the TUI Tourism Group since 31 December 2006, being the date to which the combined historical financial information on TUI Tourism set out in Section B of Part V of this document has been prepared.

First Choice

There has been no significant change in the financial or trading position of the First Choice Group since 30 April 2007, being the date to which First Choice's most recent unaudited interim results set out in Section D of Part VII of this document have been prepared.

17. Working Capital Statement

TUI Travel is of the opinion that, taking account of available facilities and cash resources, the TUI Travel Group has sufficient working capital for its present requirements, that is, for at least the next 12 months from the date of publication of this document.

18. Litigation

TUI Travel

There are no governmental, legal or arbitrational proceedings (including any such proceedings which are pending or threatened of which TUI Travel is aware) during the 12 months preceding the date of this document which may have, or have had in the recent past, significant effects on the financial position or profitability of TUI Travel or its subsidiaries.

TUI Tourism

There are no governmental, legal or arbitrational proceedings (including any such proceedings which are pending or threatened of which TUI Travel is aware) during the 12 months preceding the date of this document which may have, or have had in the recent past, significant effects on the financial position or profitability of the TUI Tourism Group.

First Choice

There are no governmental, legal or arbitrational proceedings (including any such proceedings which are pending or threatened of which TUI Travel is aware) during the 12 months preceding the date of this document which may have, or have had in the recent past, significant effects on the financial position or profitability of the First Choice Group.

19. Dividend Policy

Following Completion, consistent with the Enlarged Group's enhanced growth strategy, TUI Travel intends to follow a progressive dividend policy which balances delivering returns to shareholders with the need to retain sufficient funds for investment in growth opportunities, such as the ongoing expansion of the specialist portfolio. In setting its initial dividend, it is expected that, as from the Effective Date, TUI Travel will target a dividend cover in the order of two times.

It is intended that, following Completion, one or more Group Companies undertakes a Court-approved capital reduction under section 135 of the Companies Act 1985 to create additional distributable reserves. This is principally to ensure that TUI Travel possesses sufficient distributable reserves to continue to be able to pay dividends in accordance with its dividend policy.

20. Sources and Bases of Selected Financial Information

In this document:

(a) unless otherwise stated:

(i) financial information relating to TUI Tourism has been extracted without material adjustment from the historical financial information on TUI Tourism for the relevant financial year set out in section B of Part V of this document; and

(ii) financial information relating to First Choice has been extracted without material adjustment from:

(A) the historical financial information relating to First Choice for the two years ended 31 October 2006 set out in section B of Part VII of this document;

(B) the audited consolidated financial statements of First Choice for the year ended 31 October 2004 set out in section C of Part VII of this document; and

(C) the unaudited interim results relating to First Choice for the six months ended 30 April 2007 set out in section D of Part VII of this document;

(b) unless otherwise stated, all prices quoted for First Choice Shares are closing mid-market prices and are derived from the Daily Official List of the London Stock Exchange; and

(c) all share prices expressed in pence and all percentages have been rounded to one decimal place.

21. Consents

Deutsche Bank has given and not withdrawn its written consent to the inclusion in this document of its name in the form and context in which it appears.

Lazard has given and not withdrawn its written consent to the inclusion in this document of its name in the form and context in which it appears.

Morgan Stanley has given and not withdrawn its written consent to the inclusion in this document of its name in the form and context in which it appears.

KPMG Audit plc has given and not withdrawn its written consent to the inclusion of its accountant's report in section A of Part VII of this document in the form and context in which it appears and has authorised the contents of those parts of this document which comprise those reports for the purpose of Rule 5.5.3 R (2)(f) of the Prospectus Rules.

PricewaterhouseCoopers LLP has given and not withdrawn its written consent to the inclusion of its accountant's reports in Section A of Part V and Section A of Part IX and of its report in Section A of Part X of this document in the form and context in which they appear and has authorised the contents of those parts of this document which comprise those reports for the purpose of Rule 5.5.3 R (2)(f) of the Prospectus Rules.

22. Fees and Expenses

The total costs and expenses of, or incidental to, the Merger payable by the Enlarged Group are estimated to be approximately £27 million (excluding VAT).

23. Documents Available for Inspection

Copies of the following documents:

(a) the Memorandum and Articles;

(b) the historical financial information for TUI Tourism for the three years ended 31 December 2004, 2005 and 2006;

(c) the audited consolidated financial statement of First Choice for the three years ended 31 October 2004, 2005 and 2006;

(d) the accountant's report by PricewaterhouseCoopers LLP on TUI Tourism referred to in Section A of Part V of this document;

(e) the accountant's report by KPMG Audit Plc referred to in section A of Part VII of this document;

(f) the accountant's report by PricewaterhouseCoopers LLP on TUI Travel referred to in Section A of Part IX of this document;

(g) the report by PricewaterhouseCoopers LLP on the unaudited Pro forma financial information referred to in Section A of Part X of this document;

(h) the consent letters referred to in paragraph 21 above;

(i) the rules of the TUI Travel Incentive Schemes; and

(j) this document,

are available for inspection during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted) for a period from the date of publication of this document until Admission at:

(a) the registered office of TUI Travel, First Choice House, London Road, Crawley, West Sussex RH10 9GX; and

(b) the offices of Allen & Overy LLP, One Bishops Square, London E1 6AO.

The Scheme Document will be available for inspection at the above addresses following despatch of the Scheme Document to First Choice shareholders.

29 June 2007

Definitions

The following terms have the following meanings throughout this document unless the context otherwise requires:

"Admission"	the admission of the TUI Travel Shares to the Official List and to trading on the London Stock Exchange's market for listed securities becoming effective
"Articles"	the articles of association of TUI Travel
"Board"	the board of directors of TUI Travel as constituted from time to time
"Business Day"	any day (other than a Saturday or Sunday or public holiday) on which banks generally are open for business in the City of London for the transaction of normal banking business
"Combined Code"	the Combined Code on Corporate Governance issued by the Financial Reporting Council in June 2006
"Companies Act 1985"	the UK Companies Act 1985, to the extent in force from time to time
"Companies Act 2006"	the UK Companies Act 2006, to the extent in force from time to time
"Companies Acts"	the Companies Act 1985 and the Companies Act 2006
"Completion"	the Scheme becoming effective and the completion of the transfer of TUI Tourism to TUI Travel
"Conditions"	the conditions to implementation of the Merger and the Scheme set out in the Merger Agreement, which are summarised in paragraph 6 of Part III of this document
"Court"	the High Court of Justice in England and Wales
"Court Meeting"	any meeting or meetings of the First Choice Shareholders as may be convened pursuant to an order of the Court pursuant to section 425 of the Companies Act 1985 for the purposes of considering and, if thought fit, approving the Scheme (with or without amendment), including any adjournment or postponement of any such meeting
"Court Orders"	(i) the order of the Court sanctioning the Scheme and (ii) the order of the Court confirming the Reduction of Capital
"CREST"	the system for the paperless settlement of trades in listed securities operated by CRESTCo Limited
"Deutsche Bank"	Deutsche Bank AG, London Branch
"Directors"	the directors of TUI Travel from time to time
"Disclosure and Transparency Rules"	the Disclosure and Transparency Rules made by the FSA under Part VI of the FSMA
"EC Merger Regulation"	the Council Regulation of 20 January 2004 on the control of concentrations between undertakings (the EC Merger Regulation (139/2004/EC))

"Effective Date"	the date upon which the Scheme becomes effective in accordance with its terms, by registration of the Court Orders by the Registrar of Companies in England and Wales
"Enlarged Group"	the group of companies which will, following Completion, comprise TUI Travel, First Choice and TUI Tourism and their respective subsidiaries and subsidiary undertakings
"First Choice"	First Choice Holidays PLC, a company incorporated in England and Wales with registered number 48967
"First Choice DABS"	the First Choice Holidays Deferred Annual Bonus Scheme
"First Choice Directors"	the directors of First Choice from time to time
"First Choice EGM"	the extraordinary general meeting of First Choice Shareholders to be convened in connection with the Scheme
"First Choice Group"	First Choice and its subsidiary undertakings
"First Choice PSP"	the First Choice Holidays Performance Share Plan
"First Choice Remuneration Committee"	the remuneration committee of First Choice
"First Choice RSP"	the First Choice Holidays PLC Restricted Share Plan
"First Choice SEP"	the First Choice Holidays Senior Executive Plan
"First Choice Share Schemes"	the First Choice PSP, the First Choice DABS, the First Choice SIP, the First Choice RSP and the First Choice SEP
"First Choice Shareholders"	the holders of the First Choice Shares from time to time
"First Choice Shares"	the ordinary shares of three pence each in the capital of First Choice
"First Choice SIP"	the First Choice Holidays Share Incentive Plan
"FSA"	the Financial Services Authority
"FSMA"	the Financial Services and Markets Act 2000
"Group Company"	any company forming part of the Enlarged Group
"HMRC"	HM Revenue & Customs
"Hotel Framework Agreement"	the hotel framework agreement dated 26 June 2007 between TUI AG and TUI Travel the terms of which are described in paragraph 12.1.4 of Part XI of this document
"IFRS"	the International Financial Reporting Standard
"Independent Competing Offer"	an offer or scheme of arrangement or a recapitalisation or other transaction involving the possible change of control of First Choice or TUI AG or TUI Tourism which, if accepted in full, would result in the offeror holding shares carrying over 50 per cent. of the voting rights of First Choice or TUI AG or TUI Tourism, as the case may be, and which is made by or with a party which is not acting in concert (as such term is defined in the Takeover Code) with First Choice or TUI AG
"KPMG"	KPMG Audit Plc

"Lazard"	Lazard & Co., Limited
"Listing Rules"	the listing rules made by the UK Listing Authority pursuant Part VI of the FSMA
"Memorandum"	the memorandum of association of TUI Travel
"Merger"	the proposed combination of TUI Tourism and First Choice pursuant to the terms of and subject to the conditions of the Merger Agreement
"Merger Agreement"	the merger agreement dated 19 March 2007 entered into by TUI AG, First Choice and TUI Travel setting out the terms and conditions of, and the arrangements for the implementation of, the Merger, as summarised in paragraph 5 of Part III of this document
"Morgan Stanley"	Morgan Stanley & Co. Limited
"Official List"	the list maintained by the UK Listing Authority pursuant to Part VI of the FSMA
"Overseas Shareholders"	First Choice Shareholders who are resident in, ordinarily resident in, or citizens of, jurisdictions outside the United Kingdom
"PD Regulation"	Regulation 809/2004 of the European Commission
"Prospectus Directive"	Directive 2003/71/EC of the European Commission
"Prospectus Rules"	the Prospectus Rules made by the FSA under Part VI of the FSMA
"Redeemable Preference Shares"	the redeemable preference shares of £1 each in the capital of TUI Travel described in paragraph 3 of Part XI of this document

THIS DOCUMENT IS IMPORTANT AND REQUIRES YOUR IMMEDIATE ATTENTION. PART II OF THIS DOCUMENT COMPRISES AN EXPLANATORY STATEMENT IN COMPLIANCE WITH SECTION 425 OF THE COMPANIES ACT 1985. If you are in any doubt as to the action you should take, you are recommended to seek your own independent financial advice immediately from a stockbroker, bank manager, solicitor, accountant or other independent financial adviser authorised under the Financial Services and Markets Act 2000. If you are in a territory outside the UK, you should immediately consult an appropriately authorised independent financial adviser.

If you have sold or otherwise transferred all of your First Choice Shares, please send this document and the accompanying documents, as soon as possible, to the purchaser or transferee or the stockbroker, bank or other agent through whom the sale or transfer was effected, for delivery to the purchaser or transferee. However, such documents should not be sent in or into any Restricted Jurisdiction. If you have sold or transferred part of your holding of First Choice Shares, please consult the stockbroker or other agent through whom the sale or transfer was effected.

This document should be read in conjunction with the accompanying Prospectus relating to TUI Travel which has been prepared in accordance with the Prospectus Rules made under Section 73A of FSMA in connection with Admission. The Prospectus has been made public in accordance with the Prospectus Rules.

SCHEME OF ARRANGEMENT

of

First Choice Holidays PLC

under Section 425 of the Companies Act 1985

in connection with its

RECOMMENDED MERGER

with

TUI AG'S TOURISM DIVISION

GEAVED
27 JUL 07 12:23

Your attention is drawn to the letter from the Chairman of First Choice set out in Part I of this document which contains the unanimous recommendation of the First Choice Directors to vote in favour of the resolutions to be proposed at the Court Meeting and the Extraordinary General Meeting referred to below. A letter from Lazard and Deutsche Bank explaining the Scheme appears in Part II of this document.

Notices of the Court Meeting and the Extraordinary General Meeting, both of which will be held at Exchange House, Primrose Street, London EC2A 2HS on 25 July 2007, are set out at the end of this document. The Court Meeting will start at 10.00 a.m. and the Extraordinary General Meeting at 10.15 a.m. (or as soon thereafter as the Court Meeting is concluded or adjourned).

Your attention is also drawn to the Whitewash Resolution, which is set out as resolution 2 in the Notice of Extraordinary General Meeting.

First Choice Shareholders will find enclosed with this document a BLUE Form of Proxy for use at the Court Meeting and a WHITE Form of Proxy for use at the Extraordinary General Meeting. To be valid, a Form of Proxy and any authority under which it is executed must be completed and returned in accordance with the instructions printed thereon by post or (during normal business hours only) by hand to Lloyds TSB Registrars, The Causeway, Worthing, West Sussex BN99 6LE (in the case of the BLUE Form of Proxy) or BN99 6LN (in the case of the WHITE Form of Proxy), as soon as possible, but in any event so as to arrive not less than 48 hours before the time fixed for the relevant meeting or adjourned meeting. Whether or not you intend to be present at the Court Meeting or the Extraordinary General Meeting please complete and return the Forms of Proxy accompanying this document to Lloyds TSB Registrars as soon as possible but, in any event, at least 48 hours prior to the relevant Meeting. The completion and return of a Form of Proxy will not prevent First Choice Shareholders from attending either or both of the Court Meeting and the Extraordinary General Meeting or from voting in person should they so wish.

If the BLUE Form of Proxy for use at the Court Meeting (but not the WHITE Form of Proxy for the Extraordinary General Meeting) is not lodged with Lloyds TSB Registrars by the relevant time, it may be handed to Lloyds TSB Registrars on behalf of the Chairman of the Court Meeting at the start of that Meeting.

Alternatively, if you hold your First Choice Shares in uncertificated form (i.e. in CREST), you may vote using the CREST Proxy Voting System in accordance with the procedures set out in the CREST Manual.

For more details of the action to be taken by First Choice Shareholders and instructions on completing the accompanying documents please refer to page 6 of this document and paragraph 14 of the letter from the Chairman set out in Part I of this document.

Application will be made to the UK Listing Authority and to the London Stock Exchange respectively for TUI Travel Shares to be admitted to listing on the Official List and to trading on the London Stock Exchange's main market for listed securities. It is anticipated that Admission will become effective and that dealings will commence on the London Stock Exchange at 8.00 a.m. on the day on which the Scheme becomes effective.

Lazard, which is authorised and regulated in the United Kingdom by the FSA, is acting as joint financial adviser to First Choice, and as joint sponsor and financial adviser to TUI Travel, and no one else in connection with the matters described herein and will not be responsible to anyone other than First Choice and TUI Travel for providing the protections afforded to clients of Lazard or for providing advice in relation to the Merger, Admission, the content of this document or any matter or arrangement referred to herein.

Deutsche Bank is authorised under German Banking Law (competent authority: BaFin-Federal Financial Supervising Authority) and with respect to UK commodity derivatives business by the FSA; and is regulated by the FSA for the conduct of UK business. Deutsche Bank is acting as joint financial adviser and as broker to First Choice, and as joint sponsor and financial adviser to TUI Travel, and no-one else in connection with the matters described herein and will not be responsible to anyone other than First Choice and TUI Travel for providing the protections afforded to clients of Deutsche Bank or for providing advice in relation to the Merger, Admission, the content of this document or any matter or arrangement referred to herein.

Morgan Stanley, which is authorised and regulated in the United Kingdom by the FSA, is acting as financial adviser exclusively to TUI AG and TUI Travel, and as joint sponsor exclusively to TUI Travel, and no one else in connection with the matters described herein and will not be responsible to anyone other than TUI AG and TUI Travel for providing the protections afforded to clients of Morgan Stanley or for providing advice in relation to the Merger, Admission, the content of this document or any matter or arrangement referred to herein.

The information contained in this document may not be the same as that required under the laws of jurisdictions outside England and Wales. The distribution of this document in jurisdictions other than England and Wales may be restricted by law and, therefore, persons into whose possession this document comes should inform themselves about and observe such restrictions. Any failure to comply with the restrictions may constitute a violation of the securities laws of any such jurisdiction. This document is being sent to you in your capacity as a First Choice Shareholder only and does not constitute an offer to sell or issue, or the solicitation of an offer to buy or subscribe for, shares in any jurisdiction in which such offer or solicitation is unlawful.

The TUI Travel Shares to be issued pursuant to the Scheme to or for the benefit of any resident of Canada will be qualified for sale under the securities laws of any province or territory of Canada and may be subject to resale restrictions.

Securities may not be offered or sold in the United States unless they are registered under the US Securities Act or are exempt from such registration. The TUI Travel Shares will not be registered under the US Securities Act, and will be issued in the United States pursuant to the Scheme in reliance on the exemption from registration provided by Section 3(a)(10) of that Act. In addition, the TUI Travel Shares have not been and will not be registered under the securities laws of any state of the United States, and will be issued in the United States in reliance on available exemptions from such state law registration requirements. First Choice Shareholders (whether or not US persons) who are affiliates (as defined in the US Securities Act) of TUI Travel or First Choice prior to, and/or become affiliates of TUI Travel or First Choice on or after, the implementation of the Scheme will be subject to certain US transfer restrictions relating to the TUI Travel Shares. In particular, US persons should note the matters set out in paragraph 8 of Part V of this document. Neither the SEC nor any US state securities commission has reviewed or approved this document, the Scheme, or the issue of the TUI Travel Shares, and any representation to the contrary is a criminal offence in the United States. The TUI Travel Shares have not been, and will not be, registered under the applicable laws of any Restricted Jurisdiction. Accordingly, the TUI Travel Shares may not be offered, sold, delivered or transferred, directly or indirectly, in or into any Restricted Jurisdiction or to or for the account of any other national, resident or citizen of any Restricted Jurisdiction.

Forward-looking statements

This document contains certain statements about First Choice, TUI AG, TUI Tourism, TUI Travel and the Enlarged Group that are or may be forward looking. All statements other than statements of historical facts included in this document may be forward-looking statements. Without limitation, any statements preceded or followed by or that include the words "believes", "estimates", "targets", "plans", "prepares", "anticipates", "expects", "intends", "estimates", "synergies", "strategy", "may", "will" or "should" or other words or terms of comparable nature or the negative thereof, are forward-looking statements. Forward-looking statements include statements relating to the following: (i) the expected timetable for completing the Merger, (ii) future capital expenditures, expenses, revenues, earnings, synergies, economic performance, indebtedness, financial condition, dividend policy, losses and future prospects of the First Choice, TUI Tourism, TUI Travel and the Enlarged Group, (iii) business and management strategies and the expansion and growth of First Choice, TUI Tourism, TUI Travel and the Enlarged Group and (iv) the effects of government regulation on First Choice's, TUI Tourism's, TUI Travel's and the Enlarged Group's business.

These forward-looking statements are not guarantees of future performance and have not been reviewed by the auditors of First Choice, TUI AG or TUI Travel. Such forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause them to differ from any actual results, performance or achievement expressed or implied by such forward-looking statements. These forward-looking statements are based on numerous assumptions regarding First Choice's, TUI Tourism's and, following Completion, TUI Travel's present and future business strategies and the environment in which they will operate in the future. As a result, First Choice's, TUI Tourism's and, following Completion, TUI Travel's actual future financial condition, performance and results may differ materially from the plans, targets and expectations set out in the First Choice's, TUI Tourism's and TUI Travel's forward-looking statements contained in this document or any other forward-looking statement any of them may make. All forward-looking statements included in this document are based on information available to First Choice, TUI AG or TUI Travel on the date hereof. Investors are cautioned not to place undue reliance on any forward-looking statements attributable to First Choice, TUI AG or TUI Travel or any of their respective members, directors, officers or employees or any other persons acting on their behalf. All such statements, which speak only as of the date they were made, are expressly qualified in their entirety by the cautionary statement above. Except as required by law, the Prospectus Rules, the Listing Rules, the Disclosure and Transparency Rules, the London Stock Exchange or by law, none of First Choice, TUI AG or TUI Travel undertakes any obligation to revise or update any forward-looking statements contained in this document or any other forward-looking statements that any of them may make.

EXCHANGE RATES

Unless otherwise stated, throughout this document the exchange rates used to convert between Sterling and Euro is £1.00:€1.46 and €1.00:£0.69.

Notice of Court Meeting 85

Notice of Extraordinary General Meeting 87

Action to be taken

Please check you have received with this document the following:

- a BLUE Form of Proxy for use in respect of the Court Meeting on 25 July, 2007 (attaching an attendance card in relation to the Court Meeting);
- a WHITE Form of Proxy for use in respect of the Extraordinary General Meeting ("**EGM**") on 25 July 2007 (attaching an attendance card in relation to the EGM); and
- the Prospectus for TUI Travel.

Whether or not you plan to attend the Meetings, PLEASE COMPLETE AND SIGN BOTH THE BLUE AND WHITE FORMS OF PROXY and return them as soon as possible to the Company's Registrar, Lloyds TSB Registrars, at The Causeway, Worthing, West Sussex BN99 6LE (in the case of the BLUE Form of Proxy) and BN99 6LN (in the case of the WHITE Form of Proxy), but in any event so as to be received by no later than 10.00 a.m. on 23 July 2007, in the case of the Court Meeting (BLUE form) and by no later than 10.15 a.m. on 23 July 2007, in the case of the EGM (WHITE form).

This will enable your votes to be counted at the Meetings in the event of your absence. If the BLUE Form of Proxy for use at the Court Meeting is not lodged with Lloyds TSB Registrars by 10.00 a.m. on 23 July 2007, it may be handed to Lloyds TSB Registrars on behalf of the Chairman of the Court Meeting at the start of that Meeting.

Alternatively, if you hold your shares in uncertificated form (i.e. in CREST) you may vote using the CREST Proxy Voting Service in accordance with the procedures set out in the CREST Manual (please also refer to the accompanying notes for the notice of EGM set out at the end of this document). Proxies submitted via CREST must be transmitted so as to be received by Lloyds TSB Registrars (under CREST participant ID 7RA01) not later than 10.00 a.m. on 23 July 2007 in the case of the Court Meeting or by 10.15 a.m. on 23 July 2007 in the case of the EGM.

It is important that, for the Court Meeting, as many votes as possible are cast so that the Court may be satisfied that there is a fair and reasonable representation of First Choice Shareholder opinion. You are therefore strongly urged to sign and return your Forms of Proxy as soon as possible in accordance with the instructions thereon.

Helpline

If you have any questions relating to this document or the completion and return of the Forms of Proxy or submitting your proxies electronically, please call the First Choice help line on 0870 609 2158 or, if calling from outside the UK, on +44 1903 276342 between 8.30 a.m. and 5.30 p.m. (London time) on any Business Day. Please note that help line operators cannot provide financial or legal advice, but will be able to answer questions on the effect of the proposals upon you as a First Choice Shareholder.

Expected timetable of principal events

Event	Time and/or date (year)
Latest time for lodging BLUE Forms of Proxy for the Court Meeting[1]	10.00 a.m. on 23 July 2007
Latest time for lodging WHITE Forms of Proxy for the EGM	10.15 a.m. on 23 July 2007
Voting Record Time for Court Meeting and EGM[2]	6.00 p.m. on 23 July 2007
Court Meeting	10.00 a.m. on 25 July 2007
EGM[3]	10.15 a.m. on 25 July 2007
The following dates are subject to change (please see note (4) below):	
Scheme Court Hearing	29 August 2007[4]
Reduction Court Hearing	31 August 2007[4]
Scheme Record Time	6.00 p.m. on 31 August 2007[4]
Last day of dealings in, and for registration of transfers of, and disablement of First Choice Shares in CREST	31 August 2007[4]
Scheme Effective Date	3 September 2007[4]
Allotment of TUI Travel Shares	3 September 2007[4]
Cancellation of listings and dealings in First Choice Shares	8.00 a.m. on 3 September 2007[4]
Expected date of Admission and commencement of dealings on the London Stock Exchange of TUI Travel Shares and CREST accounts credited in respect of TUI Travel Shares	8.00 a.m. on 3 September 2007[4]
Posting of certificates for TUI Travel Shares in certificated form by no later than	17 September 2007[4]

(1) The BLUE Form of Proxy for the Court Meeting may, alternatively, be handed to Lloyds TSB Registrars on behalf of the Chairman of the Court Meeting at the start of the Court Meeting, however it is requested that, if possible, BLUE Forms of Proxy be lodged at least 48 hours before the time appointed for the Court Meeting. This is not permissible in relation to the WHITE Form of Proxy for the EGM, which must be lodged at least 48 hours before the time appointed for the EGM.

(2) If either of the Meetings is adjourned, then the Voting Record Time for the relevant reconvened Meeting will be 6.00 p.m. on the date two days prior to the date set for the adjourned Meeting.

(3) If the Court Meeting has not been concluded or adjourned prior to the scheduled commencement of the EGM, the commencement of the EGM will be delayed until the Court Meeting has been concluded or adjourned.

(4) These times and dates are indicative only and will depend, amongst other things, on the dates on which the Court sanctions the Scheme and/or on which the Scheme becomes effective, which will, in turn, be dependent on the conditions to the Merger being satisfied or waived. If there are any revisions to the timetable, the First Choice Board will make an appropriate announcement as soon as practicable. It is not intended that any supplemental circular would be sent to First Choice Shareholders in this event.

All references in this document to times and dates are to times and dates in London, unless otherwise stated.

Giles Thorley (Non-Executive Director)

29 June 2007

To First Choice Shareholders and, for information only, to participants in the First Choice Share Schemes.

Dear Shareholder,

Scheme of Arrangement of First Choice in connection with its recommended merger with TUI AG's Tourism Division

1. Introduction

On 19 March 2007, the boards of First Choice and TUI AG announced that they had agreed the terms of a recommended merger of First Choice and TUI AG's tourism division, excluding certain hotel assets ("**TUI Tourism**") through the acquisition by a newly incorporated holding company, TUI Travel PLC ("**TUI Travel**"), of both First Choice and TUI Tourism (in the case of First Choice, by way of a scheme or arrangement under section 425 of the Companies Act 1985).

I am writing to you to explain the reasons for the Merger and, in particular, how it and the Scheme will be implemented, and to explain why your Board, which has been advised by Lazard and Deutsche Bank, considers the terms of the Merger to be fair and reasonable and why it unanimously recommends that you vote in favour of the resolutions to be proposed at the Court Meeting and the Extraordinary General Meeting.

In order to approve the terms of the Merger, First Choice Shareholders will need to vote in favour of the resolutions to be proposed at the Court Meeting and the Extraordinary General Meeting to be held on 25 July 2007 at Exchange House, Primrose Street, London EC2A 2HS. Details of the action you should take and the proposals to be put to you at the Meetings are set out in this letter.

First Choice Shareholders should read the whole of this document and the accompanying Prospectus and not rely solely on the information contained in this letter.

2. Background and Reasons for the Merger

The leisure travel environment has changed significantly over the last decade. The rapid development of low cost airlines, the growth of online intermediaries, as well as increasing access to travel products via the Internet has driven changes in consumer behaviour. As a result, consumers are increasingly demanding greater flexibility and choice when purchasing leisure travel products and are seeking to access travel content through a number of points of sale, most notably the Internet.

Travel companies have responded to these changes, with both TUI Tourism and First Choice successfully reorganising their respective business models to compete within the new market:

- TUI Tourism has adapted to the changes in consumer behaviour by extending its product offering from traditional package holidays to a more Internet-based component offering, including seat-only, accommodation-only, dynamic packaging and other travel related products to ensure that its brands remain relevant in the current leisure travel market place.
- First Choice has pursued a strategy of providing differentiated and exclusive products to its customers. It has invested in its mainstream business (including the development of six exclusive Holiday Villages) and built leadership positions in growing niche segments via a successful acquisition strategy. The result has been double-digit earnings growth each year since 2003.

Consequently, the Board believes that the Merger, through the combination of TUI Tourism's large consumer tour operating brands, flight and bed content and web-led modular strategy with First Choice's specialist brands and product differentiation strategy, will create a business that is competitively positioned to satisfy all the leisure travel needs of the travel consumer. Whether that is an independent traveller seeking access to a flight or hotel room, the traditional package holidaymaker looking for the value and security of a package holiday or a travel consumer who is seeking a different type of leisure travel experience, the Enlarged Group will be able to provide the relevant content, through a variety of controlled distribution channels.

3. Competitive Strengths

The Board believes that the following key competitive strengths will enable the Enlarged Group to deliver sustainable revenue and earnings growth:

- the breadth and depth of its travel operations which address a wide range of consumer travel needs, including individual travel components (such as flights and accommodation), fully integrated package tours and niche travel products;
- a strong portfolio of over 170 brands, including leading brands such as TUI, Thomson, First Choice, JetAir, Sunsail, The Moorings, Marmara and Nouvelles Frontières;
- a variety of distribution channels in all major source markets, including off-line (retail shops and catalogues), call centres and online (web-based) distribution, in order to maximise customer reach, ease of booking and flexibility of choice for customers;
- the opportunity to cross-sell differentiated travel products into the combined source markets of the Enlarged Group in cases where such opportunities have not previously been exploited;
- a leading position in the attractive long-haul segment of the travel market, supported by the Enlarged Group's experience in this segment and a firm order book for the new, fuel-efficient Boeing 787 Dreamliner, a new generation of aircraft which will enable the Enlarged Group to provide its customers with an enhanced long-haul experience to both new and existing long-haul destinations;
- enhanced economies of scale in an increasingly competitive market place and the opportunity to realise significant pre-tax synergies (estimated to be at least £100 million (€146 million) per annum on an annualised basis within three years of Completion). For further information, see paragraph 7 of Part II of the Prospectus;

- leading Internet travel offerings in most source markets in terms of scale, product range and technology;
- management's experience in making value-enhancing acquisitions, particularly in fragmented niches of the travel market where businesses have attractive growth characteristics; and
- management's track record of improving underlying profit margins and delivering shareholder value.

4. Information on the Enlarged Group

On Completion, the Enlarged Group will be a leading international travel group which, on a combined basis in 2006, operated in approximately 180 countries worldwide and served more than 30 million customers in over 20 source markets.

The Enlarged Group's pro forma revenue and earnings before interest, tax, depreciation, amortisation and impairment (EBITDA) from continuing operations and acquisitions were £12.3 billion (€18.0 billion) and £467 million (€683 million) respectively on a combined basis in 2006.

The Enlarged Group will be headquartered in Crawley, near Gatwick airport in the UK. On a combined basis in 2006, it employed approximately 48,000 people and operated a pan-European airline group consisting of 155 aircraft. The Enlarged Group will primarily serve the leisure travel customer and will be organised and managed through four sectors: Mainstream, Specialist, Activity and Online Destination Services.

The Board believes that the Merger offers significant benefits to its shareholders and its customers, employees and business partners.

Part II of the Prospectus contains further information on the Enlarged Group.

5. Objectives and strategy for the Enlarged Group

TUI Travel's primary strategic objectives are:

- to be one of the world's leading leisure travel groups by providing customers with a wide choice of products with the flexibility to meet their changing needs;
- to deliver earnings and margin expansion through the combination of organic development and selected acquisitions;
- to deliver cost synergies and maintain a lean and efficient business model; and
- to maximise shareholder value.

TUI Travel aims to achieve these objectives through the following principal strategies:

- offering a comprehensive range of travel content to the consumer;
- increasing controlled distribution, developing the brand portfolio and improving yield management;
- maintaining an efficient and flexible business model; and
- making value-enhancing acquisitions in high-growth segments of the market.

Paragraph 4 of Part II of the Prospectus contains further information on the objectives and strategy for the Enlarged Group.

6. Summary of terms of the Merger

The Merger will be implemented by TUI Travel acquiring ownership of First Choice and TUI Tourism pursuant to the terms of the Merger Agreement (a summary of which is set out in paragraph 6 of Part II of this document).

As a result of the Merger, TUI Travel will be 49 per cent. owned by First Choice Shareholders and 51 per cent. owned by TUI AG (such percentages being calculated on a fully diluted basis).

The acquisition of First Choice will be effected by First Choice implementing a scheme of arrangement under Section 425 of the Companies Act 1985. If the Scheme becomes effective, the existing First Choice Shares will be cancelled and new shares in First Choice will be issued to TUI Travel. In consideration for the cancellation of their shares, First Choice Shareholders on the register at the Scheme Record Time will receive:

for each First Choice Share **one TUI Travel Share**

The Scheme requires the approval of First Choice Shareholders by the passing of a resolution at the Court Meeting. This resolution must be approved by a majority in number of the holders of Scheme Shares present and voting, either in person or by proxy, representing not less than three-quarters in value of the Scheme Shares held by such holders. The Scheme and the reduction of capital associated with the Scheme must also be sanctioned by the Court at the Scheme Court Hearing and the Reduction Court Hearing respectively. All First Choice Shareholders are entitled to attend the Court Hearings in person or through counsel to support or oppose the sanctioning of the Scheme and the reduction of capital associated with the Scheme. Further details of the Court Meeting and the EGM, and the nature of the approvals to be given at them, are described in more detail in paragraph 7 of Part II of this document.

Under the terms of the Scheme, the First Choice Shares will be cancelled and, on the Effective Date, First Choice Shareholders will receive one TUI Travel Share for each First Choice Share. The total number of TUI Travel Shares issued to First Choice Shareholders on Completion will constitute 49 per cent. of the entire issued share capital of TUI Travel immediately after Completion (on a fully diluted basis).

In consideration of the transfer by TUI AG of TUI Tourism to TUI Travel, TUI Travel will issue 570,197,768 TUI Travel Shares to TUI AG, constituting 51 per cent. of the entire issued share capital of TUI Travel immediately after Completion (on a fully diluted basis). In addition, TUI Travel will assume €875 million of net debt (inclusive of pension liabilities).

All TUI Travel Shares to be issued to First Choice Shareholders and to TUI AG will be ordinary shares, credited as fully paid, and will rank *pari passu*.

Applications will be made to the UK Listing Authority and the London Stock Exchange for the cancellation of the listing of the First Choice Shares on the Official List and of the trading in First Choice Shares on the London Stock Exchange's market for listed securities respectively, with effect from 8.00 a.m. on the Scheme Effective Date.

It is also intended that the TUI Travel Shares will be admitted to the Official List of the UKLA and to trading on the London Stock Exchange at 8.00 a.m. on the Scheme Effective Date.

The terms of the Merger Agreement require the Relationship Agreement to be entered into between TUI AG and TUI Travel. The Relationship Agreement sets out the principle that TUI Travel will operate independently of TUI AG and records the understanding between TUI AG and TUI Travel regarding the relationship between them and the governance of TUI Travel. Under the terms of the Relationship Agreement, TUI AG will have the right to appoint two non-executive directors to the board of TUI Travel for so long as TUI AG holds 30 per cent. or more of the voting shares in TUI Travel.

For so long as TUI AG holds 40 per cent. or more of the voting shares in TUI Travel:

- TUI AG may appoint the Chairman of TUI Travel, in which case the Chief Executive Officer of TUI Travel will be appointed by the TUI Travel Board subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the question will be resolved by TUI Travel shareholders (including TUI AG); or
- TUI AG may relinquish its right to appoint the Chairman and in return have the right to appoint and remove the Chief Executive Officer. If this right is invoked, the Chairman of TUI Travel will

be appointed by the TUI Travel Board subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the question will be resolved by TUI Travel shareholders (including TUI AG).

If at any time TUI AG holds 30 per cent. or more, but less than 40 per cent., of the voting shares of TUI Travel, the TUI Travel Directors will appoint the Chairman subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Directors, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the question will be resolved by TUI Travel shareholders (including TUI AG).

The Relationship Agreement will come into effect on Completion and will remain in place until the earlier of (i) TUI AG's voting rights falling below 10 per cent. or (ii) TUI Travel ceasing to be listed.

The initial composition of the TUI Travel Board is set out in paragraph 9 of this letter and a more detailed summary of the Relationship Agreement is set out in paragraph 6 of Part II of this document.

7. Conditions to the Merger

On announcement, the Merger was subject to (amongst other things) the satisfaction of certain conditions, including the receipt of appropriate competition clearances. Such clearances have now been received.

However, the implementation of the Merger remains subject to a number of outstanding conditions which must be satisfied (or, where applicable, waived by TUI AG and First Choice), in order for the Merger to become effective and which are summarised in paragraph 5 of Part II of this document. First Choice will not petition the Court to sanction the Scheme unless certain conditions to the Merger have been satisfied (or, where relevant, waived by TUI AG and First Choice) as described in Part III of this document.

8. Waiver of Rule 9 of the Takeover Code

If implemented, as set out above, the Merger will result in TUI AG being interested in shares carrying 51 per cent. of the voting rights of TUI Travel (on a fully diluted basis).

Under Rule 9 of the Takeover Code, any person who acquires an interest (as defined in the Takeover Code) in shares which, taken together with shares in which he is already interested and shares in which persons acting in concert with him are interested, carry 30 per cent. or more of the voting rights of a company which is subject to the Takeover Code, is normally required to make a general offer to all the remaining shareholders of that company to acquire their shares. Under Rule 9 of the Takeover Code, following the Merger, TUI AG would normally be required to make a general offer to ordinary shareholders since it will acquire an interest in shares carrying more than 30 per cent. of the voting rights of TUI Travel (excluding Treasury Shares).

In this case, the Takeover Panel has agreed to waive the obligation which would otherwise arise for TUI AG to make a general offer for TUI Travel, subject to the Whitewash Resolution being approved on a poll of independent ordinary shareholders of First Choice, on the basis that any persons who the Takeover Panel treats as non-independent and who holds any interests in shares in First Choice Shares shall refrain from voting on such poll.

TUI AG will, following completion of the Merger, hold (directly or indirectly) in excess of 50 per cent. of the issued ordinary share capital of TUI Travel as enlarged by the Merger, and will be able to further increase its aggregate interest in TUI Travel without incurring an obligation under Rule 9 of the Takeover Code to make a general offer to ordinary shareholders. However, TUI AG has, under the terms of the Relationship Agreement, agreed that neither TUI AG nor any of its associates shall acquire further TUI Travel Shares if such acquisitions would increase their aggregate shareholding in TUI Travel beyond 55 per cent., unless such acquisitions are done in the context of a general offer

to acquire all the issued shares in TUI Travel or any increase in such percentage is the consequence of a purchase by TUI Travel of its own shares.

9. TUI Travel Board

The TUI Travel Board is drawn from the boards of First Choice, TUI AG and the current management of TUI Tourism, and will be supplemented by additional independent Non-Executive Directors. The TUI Travel Board comprises 14 directors and, following the appointment of three further independent Non-Executive Directors as soon as practicable following Completion, the majority of the TUI Travel Board will be independent.

The TUI Travel Board will be chaired by Dr Michael Frenzel, currently Chief Executive of TUI AG, as Non-Executive Chairman with Sir Michael Hodgkinson, currently Non-Executive Chairman of First Choice, being appointed as independent Non-Executive Deputy Chairman.

The executive team of TUI Travel is:

	Position following Completion	Current Position
Peter Long	Chief Executive	Chief Executive of First Choice
Peter Rothwell	Deputy Chief Executive	Chief Operating Officer of TUI Tourism
Paul Bowtell	Chief Financial Officer	Chief Financial Officer of First Choice
Will Waggott	Commercial Director	Chief Financial Officer of TUI Tourism
Christoph Mueller . . .	Aviation Director	Member of Executive Board of TUI AG
Volker Böttcher	Managing Director, Central Europe	Chief Executive of TUI Tourism Central Europe

In addition to the Chairman and the Deputy Chairman, the TUI Travel Board includes six Non-Executive Directors, of whom five are independent. These Non-Executive Directors are Tony Campbell, Clare Chapman, Bill Dalton, Jeremy Hicks, Giles Thorley (who are currently Non-Executive Directors of First Choice) and Rainer Feuerhake (currently Chief Financial Officer of TUI AG). Three additional independent Non-Executive Directors will be appointed by the TUI Travel Board as soon as practicable following Completion.

TUI Travel has established audit, nomination and remuneration committees. Each such committee has not fewer than three independent Non-Executive Directors and not more than two Non-Executive Directors representing TUI AG. Further details of the corporate governance arrangements for TUI Travel are set out in paragraph 5 of Part IV of the Prospectus.

10. Enlarged Group Management and Employees

The senior management of the Enlarged Group is made up of the following existing senior managers from both First Choice and TUI Tourism and, together with the executive directors of TUI Travel, will form the group management board of the Enlarged Group:

	Position following Completion	Current Position
Andrew John	Group Legal Director and Company Secretary	Legal Director and Company Secretary, First Choice
Bill Logan	Group Human Resources Director	Group Human Resources Director, First Choice
Dermot Blastland . . .	Managing Director, UK & Ireland	Managing Director, Mainstream, First Choice
Johan Lundgren	Managing Director, Nordic	Managing Director, Scandinavia, TUI Tourism
Bart Brackx	Managing Director, Western Europe	Managing Director, Western Europe, TUI Tourism
Richard Prosser	Managing Director, Specialist	Managing Director, Specialist, First Choice
John Wimbleton	Managing Director, Activity	Managing Director, Activity, First Choice
Joan Vilà	Managing Director, Online Destination Services	Managing Director, Online Destination Services, First Choice
Wolfgang Bremer . . .	Manager Director, TUI Destination Management Services	Managing Director, Destination Management Services, TUI Tourism

TUI Travel attaches great importance to the skills and expertise of the employees of First Choice and TUI Tourism and believes that the increased size and strength of the Enlarged Group will offer attractive career prospects.

However, in order to achieve the planned benefits of the Merger, some operational restructuring will be required following Completion. In particular, in the UK, restructuring will be required in the combined real estate, airline, tour operations and central functions, which will involve a reduction of roles in some areas but an increase in others. There will also be some restructuring in Germany and the UK associated with creating a single headquarters for TUI Travel in Crawley. Given the combined effects of the timescale for the integration programme, natural attrition and the opportunities that the Enlarged Group will create, TUI Travel expects that compulsory redundancies will be minimised. If redundancies are necessary, TUI Travel will comply with all applicable consultation and legal requirements in this respect.

11. First Choice Share Schemes

The impact of the Scheme on participants in the First Choice Share Schemes is summarised in paragraph 13 of Part II of this document.

Paragraph 14 of Part II of this document summarises the proposed new share schemes for the Enlarged Group.

12. Dividend Policy

Following Completion, consistent with the Enlarged Group's enhanced growth strategy, TUI Travel intends to follow a progressive dividend policy which balances delivering returns to shareholders with the need to retain sufficient funds for investment in growth opportunities, including the ongoing expansion of the specialist portfolio. In setting its initial dividend, it is expected that, as from the Effective Date, TUI Travel will target a dividend cover in the order of two times.

It is intended that, following Completion, one or more Group Companies undertake a Court-approved capital reduction under section 135 of the Companies Act to create additional distributable reserves. This is principally to ensure that TUI Travel possesses sufficient distributable reserves to continue to be able to pay dividends in accordance with its dividend policy.

13. Current Trading and Prospects

Trading for the financial year 2007 has been in line with the Board's expectations. For the 2007 Summer season, the Mainstream Holidays Sector has performed in line with management expectations in what remains a challenging market. As at 24 June 2007, revenues were cumulatively up four per cent. on volume growth of one per cent., with overall capacity flat on 2006. Capacity in the short-haul market has been reduced by five per cent., with revenues down seven per cent. on lower volumes of five per cent. Within the medium haul segment, where capacity has been maintained at 2006 levels, both revenues and volumes are flat. The long-haul segment has experienced strong demand, with capacity up by 25 per cent. and revenues up by 26 per cent. on volume growth of 22 per cent.

The Specialist Holidays Sector has had an excellent start to the 2007 Summer season across all its businesses, with sales and volumes as at 24 June 2007 up 18 per cent. and 16 per cent., respectively, on 2006 as a result of increased demand for lifestyle and destination specialist products.

In the Activity Holidays Sector, Summer revenues were up five per cent. as at 24 June 2007, as the Sector continues to perform in line with the Board's expectations. Revenues were up seven per cent. in the Adventure business and up two per cent. in the Marine business, on a like-for-like basis. Margins are currently slightly ahead of last year for the Summer programme.

In the Online Destination Services Sector, all routes to market as at 24 June 2007, continue to grow and are performing well, with sales and bednights up 50 per cent. and 30 per cent. respectively, with margins also ahead of last year. The integration of laterooms.com is progressing as planned, as the business enjoys strong demand for late availability bedstock, with sales and volumes up 78 per cent. and 73 per cent. respectively.

14. Action to be taken

At the end of this document First Choice Shareholders will find notices of the Meetings which have been convened to enable First Choice Shareholders to consider and, if thought fit, approve the Scheme and, in the case of the EGM, to approve certain resolutions necessary to enable First Choice to effect the Scheme and the Merger. Such EGM resolutions include the approval in connection with the waiver by the Takeover Panel of TUI AG's obligation under Rule 9 of the Takeover Code to make a mandatory offer for TUI Travel. You will find enclosed with this document two Forms of Proxy for use in connection with the Meetings.

It is particularly important that as many votes as possible are cast (whether in person or by proxy) at the Court Meeting so that the Court may be satisfied that the result is a fair representation of First Choice Shareholders' opinions. You are therefore strongly urged to complete and return your Forms of Proxy as soon as possible. Please make every effort to vote at the Meetings either in person or by completing the Forms of Proxy. Completion and return of any Form of Proxy will not prevent First Choice Shareholders from attending the Meetings and voting in person if they so wish.

Whether or not First Choice Shareholders propose to attend either of the Meetings in person, First Choice Shareholders are requested to complete and return the enclosed BLUE and WHITE Forms of Proxy so as to be received by post or (during normal business hours only) by hand by Lloyds TSB Registrars not later than 48 hours before the time for which the relevant meeting has been convened. If the BLUE Form of Proxy for use at the Court Meeting is not lodged with Lloyds TSB Registrars by that time, it may be handed to Lloyds TSB Registrars on behalf of the Chairman at the start of that Meeting.

Completing and returning the enclosed BLUE and WHITE Forms of Proxy will ensure that your votes can be counted at the Meetings.

Alternatively, if you hold your First Choice Shares in uncertificated form (i.e. in CREST) you may vote using the CREST Proxy Voting Service in accordance with the procedures set out in the CREST Manual (please also refer to the accompanying notes for the notice of EGM set out at the end of this document). Proxies submitted via CREST must be transmitted so as to be received by Lloyds TSB

Registrars (under CREST participant ID 7RA01) not later than 10.00 a.m. on 23 July 2007 in the case of the Court Meeting or by 10.15 a.m. on 23 July 2007 in the case of the EGM.

Please note that only those First Choice Shareholders registered in the register of members of First Choice as at 6.00 p.m. on 23 July 2007 or, in the event that the Meetings are adjourned, in the register of members at 6.00 p.m. on the date two days prior to the date set for any adjourned Meeting, will be entitled to attend or vote in respect of the number of First Choice Shares registered in their name at the relevant time.

Details relating to listing, dealing and settlement are included in paragraph 8 of Part II of this document.

15. Overseas Shareholders

The implications of the Scheme for persons resident in, or citizens or nationals of, jurisdictions outside the UK ("**Overseas Shareholders**") may be affected by the laws of the relevant jurisdiction. Such Overseas Shareholders should inform themselves of and observe all applicable legal requirements. Please refer to paragraph 8 of Part V of this document for further details.

16. Further information

The terms of the Scheme are set out in full in Part III of this document. In addition, the Explanatory Statement set out in Part II of this document provides further details about the Scheme and the Merger.

Your attention is also drawn to the further information contained in this document, in particular, the conditions to the implementation of the Scheme and the Merger set out in paragraph 5 of Part II of this document.

This document should be read in conjunction with the accompanying Prospectus which contains further information, including risk factors, information about the Enlarged Group, the Merger, TUI Travel Directors, corporate governance and employees of TUI Travel and financial information on First Choice, TUI Tourism, TUI Travel and the Enlarged Group.

17. Recommendation

Your Board, which has been so advised by Lazard and Deutsche Bank, considers the terms of the Merger (including the Scheme) and the waiver by the Takeover Panel of the obligation which would otherwise arise for TUI AG to make a general offer for TUI Travel under Rule 9 of the Takeover Code, as described in paragraph 8 of this letter, to be fair and reasonable. In providing their advice to the Board, Lazard and Deutsche Bank have taken into account the commercial assessments of the Board.

The Board considers that the terms of the Merger are in the best interests of First Choice Shareholders as a whole and unanimously recommends that First Choice Shareholders vote in favour of the resolutions to be proposed at the Court Meeting and the EGM, as the members of the Board intend to do in respect of their own respective beneficial shareholdings in First Choice which, on 27 June 2007 (being the last practicable date prior to the publication of this document), amounted in aggregate to 3,409,056 First Choice Shares, representing approximately 0.64 per cent. of the existing issued ordinary share capital of First Choice.

Deutsche Bank has an existing relationship with TUI AG, and Lazard is therefore providing advice to the Board in connection with the Merger for the purposes of Rule 3 of the Takeover Code.

Yours faithfully,

Sir Michael Hodgkinson
Chairman
First Choice Holidays PLC

Part II

Explanatory Statement

(in compliance with Section 426 of the Companies Act)

Lazard & Co., Limited

29 June 2007

To First Choice Shareholders and, for information only, to participants in the First Choice Share Schemes.

Dear Shareholder,

Scheme of Arrangement of First Choice in connection with its recommended merger with TUI AG's tourism division

1. Introduction

On 19 March 2007, the boards of First Choice and TUI AG announced that they had reached agreement on the terms of a recommended merger, to be effected by means of the acquisition by a newly incorporated company, TUI Travel, of both First Choice and TUI Tourism.

Your attention is drawn to the letter from the Chairman of First Choice set out in Part I of this document which sets out the background to and reasons for the Merger and the Scheme, the implications of the Merger and the Scheme for First Choice Shareholders, information on the board of directors and organisation of the Enlarged Group, and the unanimous recommendation by the Board to First Choice Shareholders to vote in favour of the resolutions to be proposed at the Court Meeting and the EGM to be held on 25 July 2007.

The Board has been advised by Lazard and Deutsche Bank in connection with the Merger. Lazard and Deutsche Bank have been authorised by the Board to write to you on its behalf to explain the terms of the Merger and, in particular, the Scheme and to provide you with other relevant information. Statements made in this letter, which refer to TUI AG's reasons for the Merger and to the intentions and expectations regarding TUI Tourism and the Enlarged Group reflect the views of the TUI AG directors. Statements made in, or deemed to be included in, this letter which refer to the background to and reasons for the recommendation of the First Choice Directors reflect the views of the First Choice Directors. Other information on the businesses of TUI Tourism and First Choice reflects the beliefs of the TUI AG Directors or the First Choice Directors, as the case may be, unless otherwise indicated.

This Explanatory Statement contains a summary of the terms of the Merger and the provisions of the Scheme. The terms of the Scheme are set out in full in Part III of this document. Your attention is also drawn to the other parts of this document, which are deemed to form part of this Explanatory Statement, including a letter from the Chairman of First Choice in Part I, the financial information in Part IV, the additional information set out in Part V and the definitions in Part VI.

The attention of Overseas Shareholders is drawn to paragraph 8 of Part V of this document.

This letter and the rest of this document should be read in conjunction with the accompanying Prospectus which contains further information, including risk factors associated with the TUI Travel Shares, information about the Enlarged Group's business, details of the Merger, the TUI Travel Directors, corporate governance and employees of TUI Travel and financial information on First Choice, TUI Tourism, TUI Travel and the Enlarged Group.

2. The terms and effects of the Merger for First Choice Shareholders

It is intended that the Merger will be implemented through the acquisition by TUI Travel, a newly incorporated holding company, of both First Choice and TUI Tourism (in the case of First Choice, by way of a scheme or arrangement under section 425 of the Companies Act 1985).

Under the terms of the Merger, holders of First Choice Shares (pursuant to the Scheme) will receive:

for each First Choice Share	one TUI Travel Share

Paragraph 7 below sets out details of the approvals from First Choice Shareholders and the Court which are required for the Scheme to become effective.

The acquisition of TUI Tourism will be effected by means of a share exchange pursuant to which TUI AG will complete the transfer of TUI Tourism to TUI Travel in consideration for TUI Travel Shares and for TUI Travel assuming €875 million of net debt (inclusive of pension liabilities). Further details of the transfer of TUI Tourism to TUI Travel are set out in paragraph 4 of Part III of the Prospectus.

As a result of the Merger (and on a fully diluted basis) the First Choice Shareholders will hold in aggregate 49 per cent. of the issued share capital of TUI Travel and TUI AG will hold 51 per cent. of the issued share capital of TUI Travel. All TUI Travel Shares to be issued to First Choice Shareholders and to TUI AG will be ordinary shares, credited as fully paid, and will rank *pari passu*.

Completion is subject to certain clearances, approvals and other conditions, further details of which are set out in paragraph 5 below.

A Relationship Agreement has been entered into between TUI AG and TUI Travel to record their understanding in respect of the governance of TUI Travel and the exercise of the entitlements of TUI AG in respect of its TUI Travel Shares following Completion. A summary of the Relationship Agreement, together with the key terms of the Merger Agreement, are set out in paragraph 6 below.

Applications will be made to the UKLA and the London Stock Exchange for the cancellation of the listing on the Official List and of the trading on the London Stock Exchange of the First Choice Shares respectively. It is also intended that the TUI Travel Shares will be admitted to the Official List of the UKLA and to trading on the London Stock Exchange on the Scheme Effective Date.

The First Choice Directors have unanimously recommended that First Choice Shareholders vote in favour of the Merger and the Scheme at the Court Meeting and the EGM.

3. Information on First Choice

First Choice is a leading international leisure travel company headquartered in Crawley, in the UK. It operates in 17 major source markets across more than 80 brands, employing over 15,000 people. It has successfully transformed itself into a leading international leisure travel company, comprising a UK mainstream tour operator and a portfolio of niche specialist businesses across the world, that create added value experiences for its customers. Although First Choice's many brands offer a variety of leisure travel experiences, the business model across First Choice is focused on differentiation and flexibility.

First Choice operates in four principal sectors:

- Mainstream Holiday Sector—this sector consists of the UK and Ireland tour operating, retail and airline businesses. Its clear strategy has led to a focus on developing differentiated and exclusive products, such as its six Holiday Villages. It operates 33 aircraft, and has invested significantly in its long haul programme. Its six re-configured B767s offer customers an enhanced in-flight entertainment experience. In addition, First Choice has recently announced that it has exercised a further four options on the new Boeing 787 Dreamliner to bring the total firm order to twelve aircraft.
- Specialist Holiday Sector—this sector consists of the Continental European and UK Specialist businesses, and a number of businesses operating in North America including a student travel business and a Canadian tour operator. All the businesses within this sector have either destination or product expertise, and operate from 13 source countries with expert local

management teams that understand both their market and their customers' needs. These businesses develop leisure travel experiences that cater for a specific marketplace or lifestyle and include brands such as Sovereign, Marmara, StudentCity.com and Travcoa.

- Activity Holiday Sector—this sector consists of three divisions: the Marine division includes First Choice Marine which operates the market-leading yacht chartering brands of The Moorings and Sunsail, Sunsail Clubs and Inland Waterways. The Adventure division consists of a portfolio of 16 adventure travel businesses across seven source markets offering a range of experiences including trekking and expedition cruising, with the division experiencing high consumer demand for these travel experiences. The Escorted Tours division consists of six brands that operate specialist escorted tours for the US source market, whose customer base is drawn primarily from the growing "boomer" demographic in the US.
- Online Destination Services Sector—this sector has operations in 16 countries with 67 offices, providing accommodation online and services in destination as well as specialised services to cruise lines and the management of meetings and incentives activities for companies. It is focused on two strategic distribution channels—Business to Business with the Hotelbeds and Bedsonline brands and Business to Consumer with the Hotelopia brand. The business has successfully leveraged its strong relationship with local bed suppliers to build a bed bank of 25,000 hotels and apartments in over 2,000 tourist areas across 900 destinations. Clients include over 1,800 tour operators and 7,000 travel agents who can access this bed bank online, and in 2006, the sector sold 9.5 million bed nights.

For the financial year ended 31 October 2006, First Choice generated revenues of £2,899 million (2005: £2,647 million), EBITDA (including First Choice's share of results of associates and joint ventures) of £176.9 million (2005: £163.7 million), and underlying operating profit of £139.0 million (2005: £123.3 million).

As at 31 October 2006, First Choice had shareholders' capital excluding minority interests of £281 million and net debt of £103 million.

As at close of business on 27 June 2007 (being the latest practicable date prior to publication of this document), First Choice had a market capitalisation of £1,637 million (based on the closing price of 308.50 pence for each First Choice share and 530,577,303 First Choice Shares in issue), and is traded on the London Stock Exchange.

Further Information

Further information on First Choice is set out in paragraph 13 of Part I of this document and Parts VII and VIII of the Prospectus.

4. Information on TUI AG and TUI Tourism

TUI AG

TUI AG was formerly known as Preussag AG and is headquartered in Hanover, Germany. A change of name to TUI AG took place in June 2002. Until the mid-1990s, TUI AG operated predominantly in the areas of industry, transport and natural resources. After a number of significant disposals and acquisitions, today, TUI AG's core businesses are Tourism and Shipping.

- The Tourism division comprises four main sectors: Central Europe, Northern Europe, Western Europe and other Tourism (which includes Destination Services and Hotels & Resorts). Following the Merger, TUI AG will retain a majority of its current hotels and resorts business.
- The Shipping division comprises Hapag-Lloyd Container Line and Hapag-Lloyd Kreuzfahrten. Hapag-Lloyd Container Line is one of the world's top five container lines in the growth market of container shipping, operating globally with a total of 138 vessels and holding containers with a total capacity of 1,015,000 TEU. Hapag-Lloyd Kreuzfahrten is a premium and luxury cruise company focusing on lifestyle and experience cruises on all the world's seas. With four cruise vessels, Hapag-Lloyd Kreuzfahrten has established itself as a leading provider of cruises in German-speaking countries. The Shipping division will not form part of the Merger and will remain directly owned by TUI AG.

For the financial year ended 31 December 2006, TUI AG reported turnover of €20.5 billion (2005: €18.2 billion), EBITDA of €939 million (2005: €1.12 billion), and profit before tax of minus €736 million (2005: positive €387 million) from continuing operations. As at 31 December 2006, TUI AG had shareholders' capital excluding minority interests of €2.7 billion and net debt of €3.2 billion. As at 31 December 2006, TUI AG employed 53,930 employees worldwide.

As at close of business on 27 June 2007 (being the latest practicable date prior to publication of this document), TUI AG had a current market capitalisation of €4.99 billion (based on the closing price of €19.89 for each share in TUI AG and 251 million TUI AG shares outstanding) and is a member of Germany's blue-chip DAX 30 Index.

TUI Tourism

TUI Tourism has emerged as a leading European tour operator. The principal events that have led to this include the acquisition of the British tourism group Thomson Travel Group PLC in 2000, the acquisition of the French tourism company Nouvelles Frontières in 2002 and the expansion of TUI Tourism's airline business via acquisitions of Hapag-Lloyd Express in Germany in 2002, of TUI Airlines Belgium in 2004 and of Thomsonfly in the UK in 2000.

TUI Tourism is a one-stop shop for leisure travel related products, and has established itself as a leader in the European travel market. Whether for component web-based bookings or package tours, TUI Tourism covers the entire travel chain in more than 70 holiday destinations for over 20 million customers. Its portfolio comprises around 3,200 travel agencies, 70 market-leading tour operator brands, over 120 aircraft, and over 40 inbound agencies as well as access to over 165,000 hotel beds.

TUI Tourism consists of TUI AG's tourism division, excluding certain hotel assets, and operates in four main sectors:

- The Central Europe sector comprises the distribution and tour operator business in Germany, Switzerland, Austria and the Eastern European markets as well as the airlines Hapag-Lloyd Flug and Hapag-Lloyd Express.
- The Northern Europe sector comprises the distribution and tour operator business in the UK, Ireland and the Nordic countries as well as the airlines TUI Fly Nordic and Thomsonfly.
- The Western Europe sector comprises the distribution and tour operator business in France, the Netherlands and Belgium as well as the following airlines: Corsair, TUI Airlines Nederland and TUI Airlines Belgium.
- The Destinations sector covers TUI Travel's consolidated and associated incoming agencies from shareholdings in 35 agencies in 36 countries as well as Nordotel, Atlantika and Safeharbour.

For the financial year ended 31 December 2006, TUI Tourism had revenue of £9,393 million (€13,714 million), EBITDA of £291 million (€424 million) and underlying operating profit of £185 million (€271 million). As at 31 December 2006, TUI Tourism had net assets of £2,203 million (€3,216 million).

Further information

Further information on TUI AG's business is set out in Section B of Part IV of this document.

Further information on TUI Tourism's business is set out in Parts V and VI of the Prospectus.

5. Conditions to the Merger

On announcement, the Merger was subject to (amongst other things) the satisfaction of certain conditions, including the receipt of appropriate competition clearances. Such clearances have now been received.

The conditions which must be satisfied (or, where applicable, waived by First Choice and TUI AG) in order for the Scheme and the Merger to become effective are summarised below. First Choice will

not petition the Court to sanction the Scheme unless the conditions to the Merger have been satisfied (or, where applicable, waived).

In summary, the implementation of the Merger is conditional upon:

(a) the approval of the Scheme by a majority in number representing 75 per cent. or more in value of the First Choice Shareholders present and voting, either in person or by proxy, at the Court Meeting;

(b) the resolutions to approve matters to give effect to the Scheme being duly passed by the requisite majority of First Choice Shareholders at the EGM;

(c) the sanction of the Scheme and confirmation of the reduction of capital involved therein by the Court (in either case, with or without modification, on terms acceptable to First Choice and TUI AG) and the subsequent registration of the Reduction Court Order by the Registrar of Companies in England and Wales;

(d) Admission occurring;

(e) the Merger having been cleared by the European Commission under the Council Regulation (EC) No. 139/2004;

(f) the Merger having been cleared by any relevant non-EU competition authorities and no notice of any action, which would make the Merger unenforceable or illegal or impose material conditions on the parties with respect to the Merger, having been received from any regulatory body in any jurisdiction;

(g) the Takeover Panel granting a specific waiver from the requirements of Rule 9 of the Takeover Code in respect of the issue of TUI Travel Shares to TUI AG; and

(h) TUI AG and First Choice having obtained all necessary consents from the providers of their bonding and other finance facilities, or replacement facilities having been arranged.

Neither First Choice nor TUI AG is entitled to invoke a Condition (other than the Conditions referred to in paragraphs (d), (e) and (f) above) unless the circumstances which give rise to invoke the Condition are of material significance in the context of the Merger.

On 4 June 2007, the European Commission declared the Merger compatible with the common market and cleared the Merger in a phase I clearing decision, subject to the disposal of TUI Tourism's Budget Travel business in Ireland. It is intended that TUI AG will transfer Budget Travel to TUI Travel as part of the TUI Tourism Group, and that Budget Travel will be disposed of in accordance with the disposal commitments given to the European Commission as a condition of its merger clearance.

The Takeover Panel has agreed to grant a waiver from the requirements of Rule 9 of the Takeover Code subject to the Whitewash Resolution being approved at the EGM, as described in paragraph 8 of Part I of this document.

6. Merger Agreement, Relationship Agreement and other arrangements between TUI Travel and TUI AG

Merger Agreement and inducement fees

On 19 March 2007, TUI AG, First Choice and TUI Travel entered into the Merger Agreement in connection with the Merger. The Merger Agreement sets out the terms on which TUI Travel will acquire each of First Choice and TUI Tourism. In addition, the Merger Agreement has governed, and will continue to govern, the relationship between TUI AG and First Choice until the Merger becomes effective or lapses.

Pursuant to the Merger Agreement, each of TUI AG and First Choice has undertaken to co-operate and take all steps that are within their power and are both reasonable and necessary to implement the Merger and has given certain undertakings in relation to the conduct of its respective business in the period prior to the implementation of the Merger. Each of TUI AG and First Choice has also agreed not to actively solicit any alternative transaction that would be inconsistent with implementing the Merger.

TUI AG has given First Choice high-level warranties covering certain information provided to First Choice in respect of the business of TUI Tourism. In addition, the Merger Agreement contains a tax indemnity under which TUI AG covenants with First Choice that it will indemnify TUI Travel in respect of tax incurred by TUI Travel relating to, amongst other matters, certain events occurring prior to Completion and the transfer of TUI Tourism to TUI Travel.

The Merger Agreement also provides that TUI Travel shall assume €875 million of net debt (inclusive of pensions liabilities). This assumption of the net debt will be effected in the following manner: accounts of TUI Tourism will be prepared as at the date of Completion. From such accounts, the amounts of net debt and working capital shall be determined as at Completion, except that the amount of pension liabilities shall be as at 31 December 2006. To the extent that the net debt (inclusive of pension liabilities) is less than €875 million, additional cash consideration will be due from TUI Travel to TUI AG in respect of the acquisition of TUI Tourism. This amount will remain outstanding as debt due to TUI AG on the terms of the Shareholder Loan Agreement described in paragraph 12.1.3 of Part XI of the Prospectus. To the extent that net debt (inclusive of pension liabilities) is greater than €875 million the non-share consideration due from TUI Travel to TUI AG in respect of the acquisition of TUI Tourism will be reduced by such difference and TUI AG will settle such difference by a cash payment to TUI Travel.

An amount of target working capital will be agreed and the difference between the target working capital amount and the actual amount of working capital will be established. To the extent that actual working capital exceeds or is less than target working capital, a further adjustment will be made. If working capital exceeds target working capital, an amount equal to the excess will be due from TUI Travel to TUI AG and will remain outstanding as a debt due to TUI AG on the terms of the Shareholder Loan Agreement. If working capital is less than target working capital, an amount equal to such shortfall will be settled by a cash payment from TUI AG to TUI Travel.

The Merger Agreement may be terminated by TUI AG or First Choice in certain circumstances, including where any regulatory authority irrevocably blocks the Merger, where First Choice Shareholders fail to approve the Scheme at the Court Meeting or fail to pass the resolutions relating to the Merger at the EGM, where the Court fails to sanction the Scheme or a material adverse change occurs (referable to agreed benchmarks) which affects First Choice or TUI Tourism (as the case may be).

TUI AG has agreed to pay First Choice an inducement fee of £15 million (inclusive of any amounts in respect of VAT) if the Merger fails and:

(a) an Independent Competing Offer for TUI AG or TUI Tourism is announced and becomes or is declared wholly unconditional; or

(b) First Choice exercises its right to terminate the Merger Agreement for an unremedied breach by TUI AG of its obligations under the Merger Agreement.

First Choice has agreed to pay TUI AG an inducement fee of £15 million (inclusive of any amounts in respect of VAT) if the Merger fails and:

(a) an Independent Competing Offer for First Choice is announced and becomes or is declared wholly unconditional;

(b) the First Choice Directors withdraw or adversely modify their recommendation of the Merger; or

(c) TUI AG exercises its right to terminate the Merger Agreement for an unremedied breach by First Choice of its obligations under the Merger Agreement.

Relationship Agreement and other arrangements between TUI Travel and TUI AG

Following Completion, TUI AG will hold 51 per cent. of the TUI Travel Shares on a fully diluted basis. The Relationship Agreement records the understanding between TUI AG and TUI Travel regarding the relationship between them and the governance of TUI Travel. The Relationship Agreement was entered into on 29 June 2007 to take effect conditional upon Completion.

The Relationship Agreement will remain in force until either the TUI Travel Shares are no longer admitted to listing on the Official List and to trading on the London Stock Exchange, or TUI AG has

less than 10 per cent. of the rights to vote at general meetings of TUI Travel. In addition, in the event that a person (acting alone or in concert with other persons) acquires control of TUI AG during the term of the Relationship Agreement, TUI AG will lose certain rights under the Relationship Agreement including its rights in respect of the composition of the TUI Travel Board described below.

The Relationship Agreement sets out the agreement of TUI AG and TUI Travel as to the composition of the TUI Travel Board as follows:

(a) the TUI Travel Board shall have a maximum of 17 Directors, a majority of whom shall be independent;

(b) for so long as TUI AG holds 30 per cent. or more of the voting rights in TUI Travel, it may appoint two Non-Executive TUI Travel Directors to the TUI Travel Board (being "Shareholder Directors");

(c) for so long as TUI AG holds 40 per cent. or more of the voting rights in TUI Travel, it may appoint one of its Shareholder Directors as the chairman of the TUI Travel Board, in which case the chief executive of TUI Travel will be appointed by the TUI Travel Board but subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment of a chief executive, the matter will be put to the vote of the shareholders of TUI Travel (including TUI AG);

(d) for so long as TUI AG holds 40 per cent. or more of the voting rights in TUI Travel, it may relinquish its right to appoint the chairman of the TUI Travel Board and in return have the right to appoint the chief executive of TUI Travel who shall constitute one of TUI Travel's two Shareholder Directors. If this right is invoked, the chairman will be appointed by the TUI Travel Board but subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the matter will be put to the vote of the shareholders of TUI Travel (including TUI AG);

(e) if TUI AG holds less than 40 per cent. of the voting shares of TUI Travel, for so long as it holds 30 per cent. or more of the voting rights in TUI Travel, the TUI Travel Board will appoint the chairman but subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the matter will be put to the vote of the shareholders of TUI Travel (including TUI AG);

(f) the nomination committee of TUI Travel will nominate the rest of the TUI Travel Directors, who will be appointed and/or removed by the TUI Travel Board; and

(g) it is agreed that any person nominated and/or appointed to a position on the TUI Travel Board shall have appropriate experience and qualification for his or her role.

In addition, TUI AG has agreed that it will exercise its voting rights in relation to class 1 transactions under the Listing Rules in accordance with the recommendation given by the TUI Travel Board unless all of the directors appointed by TUI AG have dissented to or abstained from such recommendation.

TUI Travel has agreed that it will not (other than on the exercise of certain share options) issue any shares if the effect will be to reduce TUI AG's voting rights. If TUI Travel issues shares other than on a pre-emptive basis, TUI AG will have the right to subscribe for TUI Travel Shares at market value in order to restore the pre-existing level of its voting rights.

TUI AG has agreed that it will not, for a period of 12 months following Admission, dispose of any TUI Travel Shares without the consent of TUI Travel, other than (i) in each of the two consecutive periods of six months immediately following Admission, the disposal of TUI Travel Shares constituting, in aggregate, no more than 10 per cent. of issued share capital then in issue either in the market (subject to orderly market restrictions) or to a single purchaser (who has agreed to be

bound by equivalent lock-up restrictions); (ii) intra group transfers of TUI Travel Shares; and (iii) the acceptance of a takeover offer in accordance with the Takeover Code.

Disposals of TUI Travel Shares by TUI AG after the expiry of the 12 month period following Admission will be effected after consultation with the TUI Travel Board.

Further, TUI AG has agreed that it will not acquire any TUI Travel Shares other than (i) acquisitions, that would increase its shareholding to not more than 55 per cent.; (ii) consequential increases in TUI AG's percentage of TUI Travel Shares as a result of a purchase by TUI Travel of its own shares; or (iii) where TUI AG makes a general offer to acquire all TUI Travel Shares then in issue.

TUI Travel has agreed that each of the following matters will require the prior approval of 80 per cent. of the TUI Travel Directors present at the meeting of the TUI Travel Board at which such matter is considered:

(a) any material alteration (including cessation) to the general nature of the business of any Group Company;

(b) the sale, transfer, leasing, licensing or disposal by any Group Company (other than in the normal course of trading) of all or a substantial part of its business, undertaking or assets, the transfer of any shares in the capital of any Group Company or the acquisition of any share capital or loan capital of, or the entry into of any partnership or joint venture arrangement or merger with, any body corporate, whether by a single transaction or series of transactions, related or not, where such transaction or series of transactions exceed a value of £10,000,000;

(c) the entry into by any Group Company of any new borrowing facility, the variation of the terms of any borrowing facilities or the issue or redemption prior to its due date of any loan capital; and

(d) the approval of an annual budget comprising short term business plans of the Enlarged Group in relation to profit, investment and financial planning.

In addition, TUI Travel shall avoid doing any of the following, which may cause TUI AG to be in breach of any of the restrictions under TUI AG's current bond facilities in the absence of any permitted exemption:

(a) borrowing any monies from external financial institutions in excess of the Enlarged Group's outstanding borrowings as at Completion, save in respect of the refinancing of such borrowings;

(b) creating or permitting to exist any liens over the Enlarged Group's assets other than those arising by operation of law or already in existence as at Completion (or arising pursuant to any refinancing referred to in (a) above);

(c) selling any of the Enlarged Group' assets other than for fair market value, at least 75 per cent. of which is paid in cash, with such proceeds being used to repay indebtedness or to invest in properties and assets used in the Enlarged Group's business;

(d) guaranteeing or permitting any Group Company to guarantee the debt of the Enlarged Group;

(e) creating or permitting to exist any restrictions on the Enlarged Group's ability to pay dividends, make inter-company loans, repay inter-company indebtedness, or transfer its assets to another member of TUI Travel's or TUI AG's group;

(f) merging with or selling all of the Enlarged Group's assets to another person; or

(g) failing to repay any indebtedness or pay any final judgment which amounts to more than €25 million.

TUI Travel and TUI AG will discuss any proposed course of action which may be permitted by an exemption to such restrictions and if there is doubt as to whether such exemption applies to any particular case, TUI AG's decision on the matter shall be final.

TUI Travel and TUI AG have also entered, or will also enter, into the following agreements with effect from Completion:

(a) The Shareholder Loan Agreement, which was entered into on 29 June 2007, under which TUI AG will lend a maximum amount of €2 billion to TUI Travel. This agreement will provide TUI Travel with funds for general corporate purposes for the period from Completion until the date three years after TUI Travel is no longer restricted from raising external finance by the terms of the Relationship Agreement (as referred to above).

(b) The Hotel Framework Agreement, which was entered into on 26 June 2007 , which governs the commercial relationship between TUI AG and TUI Travel in respect of the distribution of hotel beds forming the hotel portfolio interests retained by TUI AG on Completion.

(c) The Trademark Licensing Agreement, under which TUI AG will grant to TUI Travel an exclusive right to use the trademark "TUI Travel".

Further details of the Relationship Agreement, Shareholder Loan Agreement, Hotel Framework Agreement and Trademark Licensing Agreement are set out in paragraph 12 of Part XI of the Prospectus.

7. Structure of the Scheme

Introduction

As described above, the Merger is to be effected by a series of steps including the Scheme for the introduction of TUI Travel as First Choice's new holding company and the acquisition by TUI Travel of TUI Tourism.

The Scheme is a legal process under the Companies Act by means of which Scheme Shares will be cancelled and new TUI Travel Shares will be issued to the holders of Scheme Shares.

Under the terms of the Scheme, the Scheme Shares held at the Scheme Record Time will be cancelled and approximately 547,837,081 new shares in First Choice of 3 pence each will be issued to TUI Travel.

The Scheme also requires the sanction of the Court, as well as satisfaction and waiver of the other conditions set out in paragraph 5 above.

In order for the Scheme to become effective, the following procedure, as set out in the Companies Act, must be adopted:

(a) the Court Meeting will be held, at which a majority in number of First Choice Shareholders representing not less than three-quarters in nominal value of the First Choice Shares, present and voting in person or by proxy at such meeting, agree to the Scheme;

(b) the Special Resolution approving the Scheme and the reduction of capital involved therein (requiring a majority of at least three-quarters of the votes cast by person or by proxy) must be passed at the EGM. This EGM will be held on the same day as the Court Meeting;

(c) the Court must sanction the Scheme at the Scheme Court Hearing and issue the Scheme Court Order approving the Scheme;

(d) the Court must sanction the reduction of capital associated with the Scheme at the Reduction Court Hearing and issue the Reduction Court Order confirming the reduction of capital; and

(e) an office copy of the Scheme Court Order and the Reduction Court Order must be delivered to the Registrar of Companies for registration and, in the case of the Reduction Court Order, be registered by him (whereupon the Scheme will immediately become effective).

The last day of dealings in, and for registrations of transfers of, and disablement of CREST in relation to, First Choice Shares will be the last Business Day prior to the Effective Date (expected to be 31 August 2007). On the Effective Date, First Choice Shares will be de-listed from the Official List and from the London Stock Exchange's market for listed securities.

On the Effective Date, share certificates in respect of the Scheme Shares will cease to be valid and should be destroyed. In addition, on the Effective Date entitlements to Scheme Shares held within the CREST system will be cancelled and TUI Travel Shares shall be admitted to listing on the Official List and to trading on the London Stock Exchange's market for listed securities.

The TUI Travel Shares to be issued to First Choice Shareholders will be issued credited as fully paid and free from all liens, encumbrances, charges or other third party rights and/or interests whatsoever.

The Scheme is set out in full in Part III of this document.

The Meetings

Before the Court's approval can be sought to sanction the Scheme, the Scheme will require approval by the First Choice Shareholders at the Court Meeting and the passing of the Special Resolution by First Choice Shareholders at the EGM.

Notices of the Court Meeting and the EGM are set out at the end of this document.

All holders of First Choice Shares whose names appear on the register of members of First Choice at the Voting Record Time (being 6.00 p.m. on 23 July 2007 or, if either the Court Meeting or the EGM is adjourned, on the date two days prior to the date set for the adjourned Meeting) shall be entitled to attend and vote at the Court Meeting and the EGM in respect of the number of First Choice Shares registered in their name at such time.

Court Meeting

The Court Meeting has been convened for 10.00 a.m. on 25 July 2007 at Exchange House, Primrose Street, London EC2A 2HS. All First Choice Shareholders are entitled to attend the Court Hearings in person or through counsel to support or oppose the sanctioning of the Scheme.

The Court Meeting is being held at the direction of the Court for the purpose of enabling First Choice Shareholders to consider and, if thought fit, approve the Scheme in order for the Court to be satisfied that the Scheme has sufficient shareholder support. The Court will not grant the Scheme Court Order unless the Scheme is approved by First Choice Shareholders at the Court Meeting by the requisite statutory majority.

At the Court Meeting, voting will be by poll and each member present in person or by proxy will be entitled to one vote for each First Choice Share held at the Voting Record Time. In order for the Scheme to be approved at the Court Meeting, those voting to approve the Scheme must:

(a) represent a simple majority in number of those First Choice Shareholders present and voting in person or by proxy; and

(b) represent not less than three-quarters in nominal value of the First Choice Shares held by those First Choice Shareholders present and voting in person or by proxy.

At the Court Meeting, it is particularly important that as many votes as possible are cast so that the Court may be satisfied that there is a fair representation of First Choice Shareholder's opinions. You are therefore strongly urged to sign and return your Forms of Proxy for both the Court Meeting and the EGM as soon as possible.

The Extraordinary General Meeting

The EGM has been convened for 10.15 a.m. on 25 July 2007 at Exchange House, Primrose Street, London EC2A 2HS (or as soon thereafter as the Court Meeting has been concluded or adjourned), to consider and, if thought fit, pass the following resolutions:

(a) the Special Resolution to:

  (i) approve the Scheme of Arrangement and to approve the participation by First Choice in the Merger as set out or referred to in this document and the Merger Agreement;

(ii) approve the reduction of share capital of First Choice resulting from the cancellation of Scheme Shares under the Scheme;

(iii) approve the issue of new First Choice Shares to TUI Travel in accordance with the Scheme by way of a capitalisation of the reserve arising from the cancellation of the Scheme Shares;

(iv) authorise the Directors to allot new First Choice Shares to TUI Travel;

(v) amend the articles of association of First Choice as described below and as fully set out in the Notice of EGM set out at the end of this document; and

(b) ordinary resolutions:

(i) approving (on a poll of independent First Choice Shareholders) the waiver by the Takeover Panel of the obligation which would otherwise arise for TUI AG to make a general offer for TUI Travel under Rule 9 of the Takeover Code, as described in paragraph 8 of Part I of this document; and

(ii) approving the rules of the TUI Travel share schemes which are described in paragraph 14 below.

The Special Resolution will require votes in favour of not less than three-quarters of the votes cast. The Chairman of First Choice intends to exercise his right to demand that the vote of the First Choice Shareholders at the EGM be held by way of a poll and, in such event, each First Choice Shareholder who was entered on the register of members of First Choice at the Voting Record Time and is present in person or by proxy will be entitled to one vote for each First Choice Share so held.

Proxies

Whether or not First Choice Shareholders plan to attend the Meetings, they are urged to complete and sign both the BLUE and WHITE Forms of Proxy and return them as soon as possible to the Company's registrar, Lloyds TSB Registrars, at the address set out on the Forms of Proxy, but in any event so as to be received by no later than 10.00 a.m. on 23 July 2007, in the case of the Court Meeting (BLUE form) and by no later than 10.15 a.m. on 23 July 2007, in the case of the EGM (WHITE form).

This will enable your votes to be counted at the Meetings in the event of your absence. If the BLUE Form of Proxy for use at the Court Meeting is not lodged with Lloyds TSB Registrars by 10.00 a.m. on 25 July 2007, it may be handed to Lloyds TSB Registrars on behalf of the Chairman of the Court Meeting at the start of the Meeting.

Alternatively, First Choice Shareholders who hold First Choice Shares in uncertificated form (i.e. in CREST) may vote using the CREST Proxy Voting Service in accordance with the procedures set out in the CREST Manual (please also refer to accompanying notes for the notice of EGM set out at the end of this document). Proxies submitted via CREST must be transmitted so as to be received by Lloyds TSB Registrars (under CREST participant ID 7RA01) not later than 10.00 a.m. on 23 July 2007 in the case of the Court Meeting or by 10.15 a.m. on 23 July 2007 in the case of the EGM.

Amendments to First Choice Articles

The Scheme will take effect in relation to the following First Choice Shares in issue at the Scheme Record Time:

(i) all of the ordinary shares of First Choice issued prior to the Voting Record Time (as defined in the Scheme); and

(ii) any First Choice Shares issued on or after the Voting Record Time and before 6.00 p.m. on the Business Day immediately preceding the day of the Reduction Court Order on terms that the holder thereof shall be bound by the Scheme or in respect of which the original or any subsequent holder thereof agrees in writing to be so bound.

As mentioned above, it is proposed that the articles of association of First Choice be amended at the EGM to ensure that any First Choice Shares issued under the First Choice Share Schemes (or otherwise) between the Voting Record Time and 6.00 p.m. on the Business Day immediately preceding the day of the Reduction Court Order will be subject to the Scheme.

It is also proposed to amend the articles of association of First Choice so that any First Choice Shares issued to persons other than TUI Travel and/or its nominee(s) ("**New Members**") on or after 6.00 p.m. on the Business Day immediately preceding the day of the Reduction Court Order will be automatically transferred (immediately after the Scheme Effective Time or, if later, upon the issue of such First Choice Shares) to TUI Travel and/or its nominee(s) and, in consideration for such transfer, the New Members will receive TUI Travel Shares following the Scheme Effective Time (or, if later, immediately following such transfer). This will avoid any person (other than TUI Travel) being left with First Choice Shares after dealings in such shares have been suspended and/or their listing has been cancelled.

Copies of First Choice's existing articles of association and copies of the articles of association as proposed to be amended at the EGM are available for further inspection at the offices of Herbert Smith LLP, Exchange House, Primrose Street, London EC2A 2HS during normal business hours on a weekday (Saturdays, Sundays and public holidays excepted) until the close of the EGM and will also be available for inspection at the place of the EGM for at least 15 minutes prior to, and during, the EGM.

Sanction of the Scheme by the Court

Under the Companies Act, the Scheme requires the sanction of the Court and the confirmation by the Court of the associated reduction of capital. The Scheme Court Hearing is expected to be held on 29 August 2007 and the Reduction Court Hearing is expected to be held on 31 August 2007. TUI Travel has confirmed that it will be represented by counsel at the Scheme Court Hearing and the Reduction Court Hearing so as to consent to the Scheme and to undertake to the Court to be bound thereby.

The Scheme will become effective in accordance with its terms on delivery of an office copy of the Scheme Court Order and of the Reduction Court Order to the Registrar of Companies, and the registration by him of the Reduction Court Order.

If the Scheme becomes effective, it will be binding on First Choice and all holders of Scheme Shares, including any holders of First Choice Shares and who did not vote to approve the Scheme or who voted against the Scheme.

If the Scheme does not become effective by 31 October 2007 (or such later date (if any) as TUI Travel and First Choice may agree and the Court may allow) the Scheme will not become effective and the Merger will not proceed.

8. Listings, dealings and settlement

Listings and dealings in First Choice Shares and TUI Travel Shares

First Choice Shares may only be traded on the London Stock Exchange until immediately prior to the Scheme Record Time which is expected to be at 6.00 p.m. on 31 August 2007. At the Scheme Record Time, the admission to trading of the First Choice Shares on the London Stock Exchange will be suspended and no transfers of First Choice Shares will be registered thereafter.

Applications will be made to the UK Listing Authority and the London Stock Exchange for the cancellation of the listing of the First Choice Shares on the Official List and of the trading in First Choice Shares on the London Stock Exchange's main market for listed securities respectively, with effect from 8.00 a.m. on the Scheme Effective Date.

With effect from the Scheme Effective Date, each existing certificate representing a holding of Scheme Shares shall cease to be valid in respect of such holding and each holder of Scheme Shares shall be bound at the request of First Choice to deliver up the same to First Choice or to any person appointed by First Choice to receive the same for cancellation or to destroy such share certificate.

With effect from the Scheme Effective Date, CRESTCo will be instructed to cancel entitlements to Scheme Shares held in uncertificated form.

Application will be made to the UK Listing Authority for the TUI Travel Shares to be admitted to the Official List in accordance with the Listing Rules and to the London Stock Exchange for the TUI Travel Shares to be admitted to the London Stock Exchange's main market for listed securities. It is expected that Admission will become effective and that dealings, for normal settlement, will commence at 8.00 a.m. on the Scheme Effective Date which, subject to the sanction of the Scheme by the Court and the satisfaction of the other conditions of the Merger, is expected to be on 3 September 2007.

Settlement

Subject to the Merger becoming effective (and except as provided in paragraph 8 of Part V of this document in relation to certain Overseas Shareholders), settlement of the consideration to which any First Choice Shareholder is entitled under the Scheme will be effected in the following manner:

First Choice Shares in uncertificated form, (that is, in CREST)

Where, at the Scheme Record Time, a First Choice Shareholder holds First Choice Shares in uncertificated form, the TUI Travel Shares to which such First Choice Shareholder is entitled will be issued to such person in uncertificated form through CREST. TUI Travel will procure that CRESTCo is instructed to credit the appropriate stock account in CREST of such First Choice Shareholder with such person's entitlement to TUI Travel Shares at the commencement of dealings in the TUI Travel Shares.

As from the Scheme Record Time, each holding of First Choice Shares credited to any stock account in CREST will be disabled and all First Choice Shares will be removed from CREST in due course.

TUI Travel reserves the right to issue the TUI Travel Shares referred to in this section to all or any First Choice Shareholder(s) in certificated form in the manner referred to below if, for any reason, it wishes to do so.

First Choice Shares in certificated form (that is, outside CREST)

Where, at the Scheme Record Time, a First Choice Shareholder holds First Choice Shares in certificated form, the TUI Travel Shares to which such First Choice Shareholder is entitled will be issued in certificated form. Definitive certificates for TUI Travel Shares will be despatched by first class post, airmail if overseas, (or such other method(s) as may be approved by the Takeover Panel and the UK Listing Authority) to the address appearing in the register of members of First Choice at the Scheme Record Time (or, in the case of joint holders, to the holder whose name appears first in such register in respect of the joint holding concerned) or in accordance with any applicable special instructions received by Lloyds TSB Registrars regarding communications prior to the Scheme Record Time. Definitive certificates will be issued as soon as practicable and no later than 14 days after the Scheme Effective Date.

General

All documents sent to First Choice Shareholders will be sent at their own risk.

In relation to TUI Travel Shares to be issued in certificated form, temporary documents of title will not be issued pending the despatch by post of definitive certificates for such TUI Travel Shares as referred to above. Pending the issue of definitive certificates for such TUI Travel Shares, former First Choice Shareholders wishing to register transfers of such TUI Travel Shares may certify their share transfer forms against the register of members of TUI Travel by contacting Lloyds TSB Registrars. On the registration of any such transfers, the transferee will receive a TUI Travel share certificate.

All mandates relating to the payment of dividends and other instructions (or deemed instructions) given (or deemed given) to First Choice by First Choice Shareholders in force at the Scheme Effective Time relating to holdings of First Choice Shares (including, without limitation, instructions in

relation to summary financial statements) will, unless and until amended or revoked, be deemed as from the Scheme Effective Time to be effective mandates or instructions in respect of the corresponding TUI Travel Shares.

9. The First Choice Directors and the effect of the Scheme on their interests

The interests of the First Choice Directors in the share capital of First Choice are as set out in paragraph 3.2(a) of Part V of this document.

In common with the other participants in the First Choice Share Schemes, First Choice Directors who are holders of options or awards under those schemes will be able to exercise or exchange their options as described in further detail in paragraph 13 of this Part II.

Details of the current service contracts (including termination provisions) of the executive directors of First Choice and the current letters of appointment of the non-executive directors of First Choice are set out in paragraph 7 of Part V of this document. Details of the proposed service agreements for those executive directors of First Choice who will become directors of TUI Travel and details of the proposed letters of appointment for the non-executive directors of TUI Travel are set out in paragraph 4 of Part IV of the Prospectus.

Save as disclosed, the total emoluments received by the Directors of First Choice will not be varied automatically as a consequence of the Merger.

Save as set out above, the effect of the Scheme on the interests of the First Choice Directors does not differ from its effect on the like interests of any First Choice Shareholder.

10. Irrevocable undertakings

The First Choice has received irrevocable undertakings to vote in favour of the Scheme at the Court Meeting and in favour of the Resolutions at the EGM from First Choice Directors holding in aggregate 3,409,056 First Choice Shares, representing, in aggregate, approximately 0.64 per cent. of the existing issued share capital of First Choice.

Further details of such irrevocable undertakings are set out in paragraph 5 of Part V of this document.

11. Dividend Policy

Following Completion, consistent with the Enlarged Group's enhanced growth strategy, it is intended that TUI Travel follows a progressive dividend policy which balances delivering returns to shareholders with the need to retain sufficient funds for investment in growth opportunities, such as the ongoing expansion of the Specialist portfolio. In setting its initial dividend, it is expected that, as from the Effective Date, TUI Travel will target a dividend cover in the order of two times.

It is intended that, following Completion, one or more Group Companies undertakes a Court-approved capital reduction under section 135 of the Companies Act to create additional distributable reserves. This is principally to ensure that TUI Travel possesses sufficient distributable reserves to continue to be able to pay dividends in accordance with its dividend policy.

12. Capital Resources

TUI Travel will be financed through three principal facilities: (i) a new bank facility which will provide £600 million of funding in the form of cash advances, letters of credit and bank guarantees (subject to a maximum amount of £200 million which may be drawn down in the form of a letter of credit or bank guarantee); (ii) a new bonding facility which will provide £400 million of funding in the form of a bonding line; and (iii) a €2 billion shareholder loan from TUI AG. A summary of the terms of the bank facilities referred to in (i) and (ii) above and the Shareholder Loan Agreement referred to in (iii) above are set out in paragraphs 12.1.7, 12.1.8 and 12.1.3 respectively of Part XI of the Prospectus.

Information on the capital resources of TUI Tourism and First Choice is set out in paragraph 2.2 of Part VI and paragraph 2.2 of Part VIII of the Prospectus respectively.

13. First Choice Share Schemes

First Choice currently operates the First Choice Holidays Performance Share Plan ("**First Choice PSP**"), the First Choice Holidays Deferred Annual Bonus Scheme ("**First Choice DABS**") and the First Choice Holidays Share Incentive Plan ("**First Choice SIP**") which are similar to the proposed TUI Travel PSP, TUI Travel DABS and TUI Travel SIP each of which is summarised in paragraph 14 below. In addition, there are two legacy schemes with residual outstanding awards: the First Choice Holidays PLC Restricted Share Plan ("**First Choice RSP**") and the First Choice Holidays Senior Executive Plan ("**First Choice SEP**").

As a result of the Scheme of Arrangement there will be no further awards granted under the First Choice Share Schemes and all outstanding awards will either vest to the extent permitted in accordance with the rules or be replaced by equivalent awards over TUI Travel Shares as explained below.

First Choice PSP

There are awards outstanding over approximately 5,430,701 First Choice Shares under the First Choice PSP (as at the latest practicable date before the publication of this document). It is expected that only a proportion of these shares will be released upon the Court sanction of the Scheme of Arrangement after taking account of the level of performance to date and time pro-rating for the early release of the shares. Upon applying pro-rating for time, the First Choice Remuneration Committee has determined a maximum of two thirds of the 2005 awards, one half of the 2006 awards and one third of the 2007 awards could potentially be released. The First Choice Remuneration Committee will determine the proportion of the awards which will be released shortly before the date of Court sanction based on performance to that time. The release of shares will be subject to income tax and National Insurance contributions (or an equivalent social security liability).

The First Choice Remuneration Committee has also determined that the balance of the shares which are ineligible for release to date on account of the pro-rating for time rules (one third of the shares in the case of the 2005 awards, one half of the shares in the case of the 2006 awards, and two thirds in the case of the 2007 awards) will be eligible for replacement awards over TUI Travel Shares of equivalent value (or, in the case of certain awards made mostly to pilots, replacement awards over cash or alternative benefits of equivalent value) which may be held until the normal release date under the terms of the First Choice PSP, subject to the achievement of the performance targets and pro-rating for time (if the award is released early upon cessation of employment or a corporate event).

First Choice DABS

There are awards outstanding over approximately 877,704 First Choice Shares under awards of deferred shares ("**Deferred Awards**") and 3,062,466 First Choice Shares under awards of matching shares ("**Matching Awards**") under the First Choice DABS (as at the latest practicable date before the publication of this document). All of the Deferred Awards, which were awarded in lieu of bonuses, and a proportion of the Matching Awards, will be released upon the Court sanction of the Scheme of Arrangement after taking account of the level of performance to that date and time pro-rating for the early release of shares. Upon applying pro-rating for time, the First Choice Remuneration Committee has determined a maximum of two thirds of the 2005 awards and one third of the 2007 awards could potentially be released. The First Choice Remuneration Committee will determine the proportion of the Matching Awards which will be released shortly before the date of Court sanction.

The release of shares will be subject to income tax and National Insurance contributions (or an equivalent social security liability).

The First Choice Remuneration Committee has determined that participants will also receive a cash sum equivalent to the dividends to which they would have been entitled in respect of their Deferred Awards.

The First Choice Remuneration Committee has also determined that the balance of the Matching Awards which are ineligible for release taking account of the pro-rating for time rules (one third of the shares in the case of the 2005 awards and two thirds of the shares in the case of the 2007 awards) will be eligible for replacement awards over TUI Travel Shares of equivalent value which may be held until the normal release date under the First Choice DABS, subject to the achievement of performance targets and pro-rating for time (if the award is released early upon cessation of employment or a corporate event).

First Choice RSP

There are approximately 3,700,974 First Choice Shares outstanding under the First Choice RSP (as at the last practicable date before the publication of this document).

The rules provide that, upon the Court sanctioning the Scheme, the First Choice Remuneration Committee can determine whether to release all or part of any award. In view of the performance to date the First Choice Remuneration Committee has determined that the awards should be released in full.

The exercise of the released awards will be subject to income tax and National Insurance contributions (or an equivalent social security liability).

First Choice SEP

There are options outstanding over approximately 5,861,995 First Choice Shares under the First Choice SEP (as at the last practicable date before the publication of this document).

The rules provide that all of the options will be exercisable upon a Scheme of Arrangement without regard to performance. The exercise of the options will be subject to the Court sanctioning the Scheme of Arrangement and to the payment of the option price (representing market value at the date of grant), income tax and National Insurance contributions (or an equivalent social security liability).

First Choice SIP

There are approximately 879,157 First Choice Shares held under the First Choice SIP as at the last practicable date before the publication of this document.

The existing First Choice Shares held under the First Choice SIP will be replaced by TUI Travel Shares under the Scheme on the same basis as First Choice Shareholders will exchange their shares under the Scheme of Arrangement. The replacement TUI Travel shares will then be held under the First Choice SIP on the same terms and conditions as the current First Choice Shares. First Choice employees will be allowed to continue to save under the SIP for TUI Travel Shares after the Merger on the same terms as they presently save for First Choice Shares.

14. Adoption of new Enlarged Group Share Incentive Schemes

Adoption of new Enlarged Group Share Incentive Schemes

TUI Travel has established five employee incentive schemes which may be used after Admission. There are two discretionary employee schemes for senior executives: a Performance Share Plan ("**TUI Travel PSP**") and a Deferred Annual Bonus Scheme ("**TUI Travel DABS**"), and there are also two all-employee share schemes: a Share Incentive Plan ("**TUI Travel SIP**") and a Savings-Related Share Option Scheme ("**TUI Travel SAYE Scheme**"), both of which will be submitted for approval by Her Majesty's Revenue and Customs ("**HMRC**") under the Income Tax (Earnings and Pensions) Act 2003. The Board has made no decision whether to operate the TUI Travel SIP and the TUI Travel SAYE Scheme, or either of them, following Admission.

In addition, TUI Travel has established the Value Creation Synergy Plan ("**TUI Travel VCSP**") which is a discretionary one-off three-year scheme which will be used after Admission and provides for a combination of cash and share incentives designed to maximise the synergistic benefits of the Merger and drive shareholder value creation.

These five schemes (together referred to as the "**TUI Travel Incentive Schemes**") have been established by the TUI Travel Directors and resolutions will be put to First Choice Shareholders at the First Choice EGM approving the operation of these schemes in principle.

The TUI Travel Remuneration Committee will review the TUI Travel PSP, TUI Travel DABS and TUI Travel VCSP with a view to bringing forward any appropriate proposals for changes to executive incentive schemes at the 2008 Annual General Meeting.

Set out below is a summary of the principal features of the five schemes.

TUI Travel PSP

Under the TUI Travel PSP, participants will receive conditional allocations of TUI Travel Shares which will be released after a period of three years, provided that pre-set performance targets are satisfied.

Eligibility

Employees (including executive directors) of the Enlarged Group will be eligible to be selected for participation in the TUI Travel PSP, at the discretion of the TUI Travel Remuneration Committee. It is proposed that only executive TUI Travel Directors, senior executives and selected professional key employee groups will normally be selected for participation.

Individual Limits

The maximum aggregate market value of shares which may be allocated under the TUI Travel PSP to any employee in any financial year shall not exceed two times that employee's base salary (or, where the TUI Travel Remuneration Committee considers there are exceptional circumstances, four times the employee's base salary). No amount is payable by participants on allocation.

Performance Targets

Allocations will only vest and be released to participants, to the extent that performance targets set by the TUI Travel Remuneration Committee are achieved. No shares will be released unless, over the performance period, the performance targets have been met. The performance targets will be based 50 per cent. on earnings per share, and 50 per cent. on total shareholder return. The earnings per share test allows for vesting of the shares where earnings per share growth exceeds RPI growth by at least four per cent. per annum. Between 10 per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between four per cent. and 13 per cent., or greater per annum in excess of RPI growth. The earnings per share target will also be adjusted to take into account (and exclude) the first £100m of synergy benefits achieved over the three-year measurement period.

The total shareholder return test allows for vesting of the shares where performance is above the median of the companies ranked 30th to 100th by market capitalisation at the date of award. Between 15 per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between the median and upper quartile performance, or greater. There will be no retesting of any performance targets.

Vesting of allocations will also be subject to underpins relating to the Group's return on invested capital and weighted average cost of capital to ensure that shareholder value is not eroded.

The TUI Travel Remuneration Committee will keep the performance targets under review in order to ensure they remain challenging in the context of TUI Travel's business plans. The TUI Travel Remuneration Committee may alter the performance targets as appropriate when making further

grants, but would not make significant changes to the benefit of participants without consulting shareholders.

Cessation of Employment

If a participant leaves employment before the third anniversary of the allocation date his allocation will normally be forfeited. However, in the event of his death, injury, disability, retirement and (if approved by the TUI Travel Remuneration Committee) redundancy, or upon sale of the business or subsidiary for which he works, or upon his leaving as a result of any reason approved by the TUI Travel Remuneration Committee, allocations will vest, subject to both performance targets having been met to that date and to pro-rating for the time elapsed since the date of allocation. In other circumstances, the TUI Travel Remuneration Committee will have the discretion to allow allocations to vest as above, or to continue to subsist as if the participant had remained in employment until the end of the performance period. In the latter case, vesting will be subject to the three-year performance targets, but will continue to be pro-rated for time elapsed as set out above.

Corporate Events

In the event of a takeover, reconstruction, amalgamation or winding-up of TUI Travel, allocations will normally vest, subject to performance targets having been achieved and to time pro-rating. However, allocations will not vest where participants are offered replacement allocations on equivalent terms over shares in any acquiring company.

In the event of an internal restructuring, allocations will continue but over replacement shares in the acquiring company and with similar performance targets.

TUI Travel DABS

Under the TUI Travel DABS, participants will defer a proportion of their pre-tax annual performance-related bonus, which will be used to acquire TUI Travel Shares ("**deferred shares**"). These deferred shares, together with a conditional allocation of ordinary shares ("**matching shares**") equal to up to four times the number of deferred shares, will be released after a period of three years. The release of the deferred shares will not be subject to any further performance targets. The release of the matching shares will be subject to further pre-set performance targets being satisfied, as described below.

Eligibility

Employees (including executive directors) of the Enlarged Group will be eligible to be selected for participation in the TUI Travel DABS at the discretion of the TUI Travel Remuneration Committee. It is proposed that only Executive TUI Travel Directors and senior managers and selected professional key employee groups will normally be selected for participation.

Deferred Shares

Where an employee is selected for participation in the TUI Travel DABS, he will be required to invest at least one quarter of his pre-tax annual bonus in deferred shares, subject to the deferral being not less than an amount which may be specified from time to time. The participant may elect to invest a further amount of up to a quarter of his pre-tax annual bonus in deferred shares, i.e. an overall maximum of one half of his pre-tax bonus can be invested in deferred shares. The investment in deferred shares will be made at a price per deferred share which is equal to the middle market quotation of a TUI Travel Share on the date of investment.

Performance Targets

Allocations of matching shares will only vest and the shares be released to participants, to the extent that performance targets set by the TUI Travel Remuneration Committee are achieved. The performance targets will be based 75 per cent. on earnings per share and 25 per cent. on total shareholder return. The earnings per share test allows for vesting of the shares where earnings per share growth exceeds RPI growth by at least four per cent. per annum. Between 10 per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between four per cent. and 13 per cent., or greater per annum in excess of RPI growth. The earnings per share target will also be adjusted to take into account (and exclude) the first £100m of synergy benefits achieved over the three-year measurement period.

The total shareholder return test allows for vesting of the shares where performance is above the median of the companies ranked 30th to 100th by market capitalisation at the date of award. Between 15 per cent. and 100 per cent. will vest, on a straight-line basis, between the median and upper quartile performance or greater. There will be no re-testing of any performance targets.

Vesting of allocations of matching shares will also be subject to underpins related to the Enlarged Group's return on invested capital and weighted average cost of capital to ensure that shareholder value is not eroded.

The TUI Travel Remuneration Committee will keep the performance targets under review in order to ensure they remain challenging in the context of TUI Travel's business plans. The TUI Travel Remuneration Committee may alter the performance targets as appropriate when making further grants but would not make significant changes to the benefit of participants without consulting shareholders.

Cessation of Employment

If a participant leaves employment before the third anniversary of the date of allocation, his matching shares will normally be forfeited. His deferred shares will be released to him at this point (or at such later stage as the matching shares are to be released), unless cessation of employment is a result of dismissal for gross misconduct, in which case the deferred shares will be forfeited and there will be no release of matching shares.

In certain circumstances, including leaving on account of death, injury, disability, retirement and (if approved by the TUI Travel Remuneration Committee) redundancy, or upon the sale of the business or subsidiary for which the participant works, allocations of matching shares will vest, subject to both performance targets having been met and to pro-rating for the time elapsed since the date of allocation. In other circumstances, the TUI Travel Remuneration Committee will have the discretion to allow allocations of matching shares to vest as above, or to continue to subsist as if the participant had remained in employment until the end of the performance period. In the latter case, vesting will be subject to the three-year performance targets, but will continue to be pro-rated for time elapsed as set out above.

Corporate Events

In the event of a takeover, reconstruction, amalgamation or winding-up of TUI Travel, allocations of matching shares will normally vest subject to performance targets having been achieved and time pro-rating. Deferred shares will also be released at this point. However, no allocations will vest where participants are offered replacement allocations of matching and deferred shares on equivalent terms over shares in any acquiring company.

In the event of an internal restructuring, allocations of matching shares will continue, but over replacement shares in the new company and with similar performance targets and no deferred shares will be released early.

TUI Travel Sharesave Scheme

The TUI Travel SAYE Scheme will provide for the grant of options over TUI Travel Shares to be purchased out of the proceeds of a linked SAYE savings account with a bank or building society. Whether, and when, any grants will be made will be determined by the TUI Travel Board.

Eligibility

All UK employees of the Enlarged Group who have worked for any qualifying period as may be determined by the TUI Travel Board (but not to exceed five years) and any other employees (including overseas employees nominated by the TUI Travel Board) will be eligible to participate in the scheme.

Grant Price

Options may be granted at an acquisition price which is not less than 80 per cent. of the middle market quotation of a TUI Travel Share on the London Stock Exchange dealing day (or average over the three dealing days) immediately before the day invitations are sent out (or some other date agreed with HMRC). If shares are to be subscribed, the acquisition price will also not be lower than nominal value.

Grant Period

Invitations for the grant of options will normally only be issued within the 42-day period following TUI Travel's announcement of results for any period, or there being exceptional circumstances which justify the grant of options at that time. Options will normally be granted within the period of 30 days following the earliest dealing day by reference to which the exercise price of an option was fixed.

Leaving employment

Normally, options lapse on leaving employment. However, if a participant ceases employment with any company in the Enlarged Group by reason of death, injury, ill health or disability, redundancy, retirement or on the sale of their employing company or business out of the Enlarged Group, options may be exercised during a six-month period following the cessation of employment. Exercise is also allowed where the participant leaves employment for any other reason (except dismissal for gross misconduct), provided that the option has been held for at least three years. If any option is exercised early, the participant may only exercise to the extent of his or her accumulated savings under the savings contract (together with any interest due).

Corporate events

Options may be exercised in the event of a takeover, reconstruction or amalgamation or winding-up of TUI Travel, to the extent of the accumulated savings under the participant's savings contract (together with any interest due). In the event of another company acquiring control of TUI Travel, participants may in certain circumstances be allowed to exchange their options for options over shares in the acquiring company.

TUI Travel SIP

The TUI Travel SIP is constituted under a trust deed and rules which will provide for TUI Travel to make various types of award over TUI Travel Shares which are held by trustees on behalf of participants. Whether, and when, any grants will be made will be determined by the TUI Travel Board.

Eligibility

All UK employees of the Enlarged Group with the requisite qualifying period of service (which will be determined by the TUI Travel Board from time to time and may not exceed 18 months qualifying service) are entitled to participate. Overseas employees who would otherwise qualify, but who do not pay UK tax, may be invited to participate.

Free Shares

The TUI Travel SIP allows for awards of up to £3,000 worth of free shares in total in any tax year. Awards may be made on the basis of equal numbers of shares, pro-rata earnings or on the basis of other similar terms including objective performance conditions achieved prior to the making of the awards.

Partnership Shares

The TUI Travel SIP allows for participants to purchase up to £1,500 worth of shares (or 10 per cent. of the participant's annual salary, if less) in total in any tax year. Deductions may be made from salary each month, or may be accumulated over a period of up to 12 months and then applied in the acquisition of shares. Any lump sum purchases may also be made within the statutory limit.

Matching Shares

The TUI Travel SIP allows for additional free shares to be awarded based on the number of partnership shares acquired. The maximum award per employee is two matching shares for each partnership share—up to £3,000 worth of matching shares in total in any tax year.

Dividend Shares

The TUI Travel SIP also allows for the reinvestment in shares of up to £1,500 worth of cash dividends in total in any tax year.

Acquisition of Shares

The trustees may buy shares in the market or subscribe for new shares. Free and matching shares are funded by participating Enlarged Group companies.

Holding Period

Free shares and matching shares must be held in the TUI Travel SIP for a holding period which expires between three and five years after award, or, if earlier, when the participant ceases to be employed by an Enlarged Group company. Dividend shares must remain in the TUI Travel SIP for a holding period of three years or, if earlier, until the participant ceases to be employed within the Enlarged Group. Partnership shares may be withdrawn from the TUI Travel SIP at any time subject to any PAYE liabilities which may be due.

Voting, Dividend and Other Rights

While the shares are held in the TUI Travel SIP, the participant remains the beneficial owner and is entitled to receive dividends (subject to any reinvestment in dividend shares) and, through the TUI Travel SIP, to vote and to participate in substantially the same way as other shareholders. Shares may be left in the TUI Travel SIP until the participant ceases to be employed within the Enlarged Group.

Forfeiture

Free and matching shares may be forfeited if the participant ceases to be employed within the Enlarged Group before the expiry of a period specified by the TUI Travel Board (not exceeding three years) beginning with the date of award of such shares, unless he leaves employment due to injury, ill health, disability, redundancy, sale of the business or subsidiary by which he is employed, death or retirement. The TUI Travel Board may also provide that, if a participant withdraws his partnership shares from the TUI Travel SIP within three years of the date on which they were acquired, his corresponding matching shares shall be forfeited.

Corporate Events

Participants' shares are dealt with in the same way as any other shareholder upon a takeover or reconstruction. Any shares issued to the TUI Travel SIP in place of any shares on a takeover or reconstruction will be held in the TUI Travel SIP.

TUI Travel VCSP

Under the TUI Travel VCSP, which is a one-off three year plan, participants will receive an award which will be satisfied by a combination of cash and TUI Travel Shares, provided that pre-set performance targets are satisfied. The performance targets will be based on the achievement of the synergistic objectives of the Merger.

Eligibility

The TUI Travel Remuneration Committee will nominate executive directors and senior executives for participation in the plan. Up to 12 directors and senior executives are expected to participate.

Individual Limits

The maximum aggregate limit on awards for any individual under the TUI Travel VCSP will vary according to his level of responsibility, but the maximum award over three years will be no greater than an amount between 225 per cent. and 450 per cent. of base salary before statutory deductions for PAYE and similar liabilities. The awards will be a combination of cash and shares which will vest in three equal tranches over three years as shown below:

Tranche 1 (2007/2008): 50 per cent. cash and 50 per cent. shares;

Tranche 2 (2008/2009): 50 per cent. cash and 50 per cent. shares; and

Tranche 3 (2009/2010): 100 per cent. cash.

While any cash entitlement will be paid annually, no shares will be released until the end of the three-year period.

Performance Target

The vesting of the annual tranches will be subject to the achievement of annual performance targets over the three-year period—2007/2008 to 2009/2010. The release of the share elements will be subject to a further overall three-year performance target. The performance targets will be set by the TUI Travel Remuneration Committee and will be based upon the achievement of the synergistic benefits of the Merger and margin enhancement. Following consultation with key institutional shareholders the overall three year performance targets have been set at a "target" of £100 million (below which no vesting will occur) with a payment and vesting scale up to a stretch level of £150 million. The TUI Travel Remuneration Committee will set targets for the first two years of the plan consistent with the achievement of the overall three-year performance targets. In addition, the Remuneration Committee will set annual margin targets (below which no payment or vesting will occur). This is intended to ensure that synergy benefits translate to enhanced margins for the Enlarged Group.

At target annual performance, the proportion vesting under each annual tranche will be in the range of 37.5 per cent. to 75 per cent. of salary. For the achievement of annual stretching performance measures, the proportion vesting under each annual tranche will be in the range of 75 per cent. to 150 per cent. of salary. Annual performance will relate to the achievement of annual synergistic benefits of the Merger and will be subject to an annual margin enhancement underpin.

Cessation of Employment

If a participant leaves employment before the end of the three-year performance period his award will normally be forfeited. However, in the event of his death, injury, ill health, disability, retirement and (if approved by the TUI Travel Remuneration Committee) redundancy, or on a sale of the business or subsidiary for which he works, or upon his leaving as a result of any reason approved by the TUI Travel Remuneration Committee, any unvested tranches will lapse. The share elements of each tranche will vest, subject to performance targets having been met to that date and pro-rating for time elapsed compared to the total length of the performance period. In other circumstances, the TUI Travel Remuneration Committee will have discretion to allow the share elements in any outstanding tranches to vest as above, or to continue to subsist, as if the participant had remained in employment until the end of the performance period. In the latter case, vesting will be subject to the three-year performance targets but will continue to be pro-rated for time elapsed as set out above.

Corporate Events

In the event of a takeover, reconstruction, amalgamation or winding-up of TUI Travel, awards will normally vest, subject to performance targets having been achieved and to time pro-rating. However, awards will not vest where participants are offered replacement awards on equivalent terms over shares in any acquiring company.

In the event of an internal restructuring, awards will continue but over replacement shares in the acquiring company and with similar performance targets.

Provisions relating to all TUI Travel Incentive Schemes

Scheme Limits

The maximum number of new ordinary shares which may be issued or issuable under the TUI Travel Incentive Schemes shall be as follows:

- in any ten-year period, not more than five per cent. of the ordinary share capital of TUI Travel from time to time under the TUI Travel PSP, the TUI Travel DABS and the TUI Travel VCSP; and
- in any ten-year period, not more than 10 per cent. of the ordinary share capital of TUI Travel from time to time under all TUI Travel Incentive Schemes.

For the purpose of these limits no accounts will be taken of any shares where the right to acquire the shares has been released, lapsed or otherwise become incapable of exercise or vesting.

The current guidelines issued by the Association of British Insurers ("**ABI**") state that the transfer of Treasury Shares should count towards the overall scheme limits outlined above. These guidelines will be reflected in the trust deed and rules of each of the TUI Travel Incentive Schemes for as long as this remains ABI policy.

Scheme Shares

All awards and options which are granted over TUI Travel Shares will be over shares which may be new issue, Treasury Shares or purchased by any trustees in the market.

Non-executive directors

Non-Executive Directors cannot participate in any of the TUI Travel Incentive Schemes.

Non-pensionable benefits

All of the benefits under the TUI Travel Incentive Schemes are non-pensionable.

Non-transferability

Allocations and awards under the TUI Travel Incentive Schemes will not be transferable (other than to the participant's personal representatives in the event of his or her death).

Variations of Share Capital

Allocations under the TUI Travel PSP, TUI Travel DABS, TUI Travel SAYE Scheme and TUI Travel VCSP may be adjusted following certain variations in the ordinary share capital of TUI Travel including a capitalisation, rights issue or sub-division, consolidation or reduction of capital of TUI Travel. The prior approval of HMRC is required for adjustment of options under the TUI Travel SAYE Scheme.

Rights attaching to shares

Shares to be issued and allotted under the TUI Travel Incentive Schemes will rank equally with all other ordinary shares then in issue but will not qualify for dividends or other rights arising by reference to a prior record date.

Alterations to the schemes

The TUI Travel Board (or the TUI Travel Remuneration Committee) may amend the TUI Travel Incentive Schemes provided that the prior approval of shareholders is obtained for any amendments to the advantage of participants in respect of eligibility, the limits on participation, the overall limits on the issue of TUI Travel Shares under the TUI Travel Incentive Schemes, or the transfer of Treasury Shares under the TUI Travel Incentive Schemes, the basis for determining a participant's entitlement to, and the terms of, TUI Travel Shares or cash provided under the TUI Travel Incentive Schemes and the adjustment of such awards or options. However, shareholders' approval will not be required for only minor administrative charges or any alteration to take account of any change in legislation or any alteration required to obtain or maintain favourable tax, exchange control or regulatory treatment. No amendment to any key feature will be made to the TUI Travel SAYE Scheme or TUI Travel SIP without the prior approval of HMRC.

Extension of the schemes overseas

The terms of each of the TUI Travel Incentive Schemes provide the TUI Travel Board with the power to extend the schemes to countries outside the UK taking account of local tax, exchange control, or securities laws in the relevant jurisdictions, by either making conditional allocations in TUI Travel Shares or equivalent phantom allocations, where the awards would be satisfied in cash. Share awards under any such arrangements for overseas employees will count against the limits on the issue of shares under the TUI Travel Incentive Schemes and will not provide participants with benefits greater than those provided under those schemes.

Termination

None of the TUI Travel Incentive Schemes will be operated more than ten years after adoption without shareholder approval. The TUI Travel Remuneration Committee or the TUI Travel Board, as appropriate, will regularly review the operation of the TUI Travel Incentive Schemes.

15. Pensions

First Choice

The First Choice Group operates pension schemes for employees who are eligible and wishing to participate in the schemes. The First Choice Group sponsors three defined benefit pension schemes

which are the Air 2000 Limited Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme (together the "**UK Defined Benefit Schemes**") and the Emerald Star Limited pension scheme. All three defined benefit pension schemes are closed to new entrants.

Although no formal valuations of the UK Defined Benefit Schemes have been carried out since 1 November 2003 and 1 July 2005 in relation to the Emerald Star Limited pension scheme, the independent scheme actuary has estimated the total pension deficit as at 31 October 2006. At 31 October 2006, on an IAS 19 basis, the aggregate value of the assets and liabilities of those pension schemes was estimated to be:

	As at 31 October 2006
	£ million
Fair value of assets	67.0
Present value of funded obligations	(91.7)
Recognised liability for defined benefit obligations	(24.7)

Of the IAS 19 liability of £24.7 million, £14.0 million related to the Air 2000 scheme and £11.2 million related to the Unijet scheme.

The Trustees have indicated that they may request that TUI Travel becomes the principal employer of the UK Defined Benefit Schemes following Completion.

Special employer contributions are payable in respect of the Air 2000 scheme and the Unijet scheme as follows:

	Air 2000 scheme	Unijet scheme
Paid on 1 June 2006	£3.5 million	£2.5 million
Payable by 1 June 2007	£3.4 million	£2.5 million
Payable by 1 June 2008, 2009 and 2010	£0.9 million	£1.2 million

Source: Annual report and current schedule of contributions

The First Choice Group also operates defined contribution pension schemes for employees and executive directors. The non-executive directors of First Choice do not participate in the First Choice Group's pension schemes. The First Choice Group contribution rate for the Chief Executive is 50 per cent. of base salary which is paid into a self-invested personal pension. Contributions in excess of the HMRC annual allowance are made as non-pensionable cash payments equivalent to the First Choice Group's contractual pension contribution. The First Choice Group contribution rate for the other Executive directors is 25 per cent. of base salary.

The Trustees are considering requesting that TUI Travel becomes the principal employer of the UK Defined Benefit Schemes following Completion.

The Trustees of the UK Defined Benefit Schemes are currently conducting an actuarial valuation of the schemes which must be finalised by 1 February 2008. As part of that valuation process, the effect of the transaction on the covenant of First Choice Airways Limited, the main employer of members of the UK Defined Benefit Scheme, will be assessed.

The directors have been advised that the transaction is not a Type A transaction for the purposes of the Pensions Regulator's clearance guidance and no application for clearance is being made. On completion, the transaction will be notified to the Pensions Regulator as a "Notifiable Event" under the Pensions Regulator (Notifiable Events) Regulations 2005.

Certain aspects of the pensions arrangements are further discussed in Part I (Risk Factors) of the Prospectus.

TUI Tourism

TUI Northern Europe Limited has six defined benefit schemes. These are the TUI Pension Scheme (UK), the Britannia Airways Limited Superannuation and Life Assurance Scheme, the Orion Airways

Pension and Life Assurance Scheme and the Jetsave Retirement Benefits Plan, the TUI Northern Europe Executive Pension Scheme No 2 and the Callers 1978 Pension and Life Assurance Scheme.

TUI Northern Europe Limited also has two deferred members and one pensioner member in an unfunded unapproved retirement benefit plan.

The last formal valuation of the TUI Pension Scheme (UK) was prepared as at 31 March 2005 when, on an ongoing basis, the aggregate value of the assets was £234.1 million, and the total value of assets required to provide past service benefits was £307.1 million, giving rise to a funding shortfall on an ongoing basis of £73 million. Since 1 April 2006, TUI Northern Europe Limited made normal contributions of 25 per cent. of members' pensionable salaries. As at 31 December 2006, 75 per cent. of the total plan assets were held as equities, nine per cent. are held as corporate bonds, nine per cent. are held as government bonds and seven per cent. are held as cash.

On an accounting basis, as at 31 December 2006, it was estimated that the value of the assets and liabilities of the TUI Pension Scheme (UK) were:

	As at 31 December 2006	As at 31 December 2005
Market value of scheme assets	£331.6 million	£284.9 million
Present value of funded obligations	£446.7 million	£430.3 million
Recognised liability for defined benefit obligations	£115.2 million	£145.4 million

Employer contributions to the TUI Pension Scheme (UK) during the year ended 31 December 2006 were:

	Year ended 31 December 2006	Year ended 31 December 2005
Employer contributions	£25.9 million	£17.5 million

In relation to the defined benefit section of the Britannia Airways Limited Superannuation and Life Assurance Scheme (Britannia Airways is now known as Thomsonfly), an IAS 19 report for the year ending 31 December 2006, using an FRS17 style method, estimated that the value of the assets and liabilities of the Britannia Airways Limited Scheme were:

	As at 31 December 2006	As at 31 December 2005
Market value of scheme assets	£439.5 million	£408.4 million
Present value of funded obligations	£662.4 million	£747.3 million
Recognised liability for defined benefit obligations	£222.9 million	£338.9 million

Employer contributions to the Britannia Scheme during the year ended 31 December 2006 were:

	Year ended 31 December 2006	Year ended 31 December 2005
Employer contributions	£16.9 million	£17.1 million

According to the preliminary actuarial valuation results of the Orion Airways Pension and Life Assurance Scheme, as at 31 March 2006 the scheme had a deficit of £1.22 million. The same valuation records that, following the March 2004 actuarial valuation the employer agreed to pay contributions of £120,000 per annum in order to pay off the ongoing deficit of the scheme. However, the 2006 preliminary results suggest that additional employer "top-up" contributions would be required to eliminate the past service deficit.

According to an actuarial report on the Jetsave Retirement Benefits Plan in December 2004, the scheme had a deficit of £1.41 million. Independent pensions consultants have suggested that the funding level of employer contributions should be £20,000 per month for the period 1 November 2004 to 31 March 2006 and £11,000 per month thereafter.

The Callers 1978 Pension & Life Assurance Scheme is in the process of being wound up with the benefits being bought out with an insurance company. The formal wind up commenced in December 2004. According to the actuarial valuation report for the Callers 1978 Pension & Life Assurance Scheme at 1 April 2005, the scheme's assets represent 82 per cent. of the amount required to cover all of its accrued liabilities yet to be secured.

TUI Tourism also has funded pension obligations in countries outside the UK, in particular in relation to German defined benefit pension schemes, which equalled €74.5 million in 2006, and in relation to French defined benefit pension schemes, which equalled €10.2 million in 2006.

Certain aspects of the pension arrangements are further discussed in Part I (Risk Factors) of the Prospectus.

16. Overseas Shareholders

The implications of the Scheme for Overseas Shareholders may be affected by the laws of the relevant jurisdiction. Such Overseas Shareholders should inform themselves about and observe all applicable legal requirements. Please refer to paragraph 8 of Part V of this document for further details.

17. United Kingdom taxation

The following statements, which are intended as a general guide only and are based on current legislation and the current practice of HMRC, summarise certain limited aspects of the United Kingdom taxation treatment of the Merger. They relate only to the position of First Choice Shareholders who become TUI Travel Shareholders by virtue of the Merger and who (unless the position of non-United Kingdom resident shareholders is expressly referred to) are resident or ordinarily resident in the United Kingdom for United Kingdom tax purposes, who hold their First Choice Shares and, subsequently, will hold their TUI Travel Shares as an investment, and who are absolute beneficial owners of their First Choice Shares and their TUI Travel Shares. The statements may not apply to certain classes of First Choice Shareholders and TUI Travel Shareholders, such as market makers, brokers, dealers in securities, intermediaries, persons connected with depositary arrangements or clearance services or persons regarded as having obtained their First Choice Shares or their TUI Travel Shares by reason of their employment. The statements are not intended to be, and should not be construed to be, legal or taxation advice to any particular First Choice Shareholder or TUI Travel Shareholder.

Any First Choice or TUI Travel Shareholders who are in doubt as to their tax position or who are subject to taxation in any jurisdiction other than the United Kingdom should consult their own professional advisers without delay.

United Kingdom Taxation of Chargeable Gains

Liability to United Kingdom taxation of chargeable gains will depend on the individual circumstances of shareholders.

A First Choice Shareholder should not be treated as making a disposal of his First Choice Shares for the purposes of United Kingdom taxation of chargeable gains to the extent that he receives TUI Travel Shares under the Merger. Any chargeable gain or allowable loss which would otherwise have arisen on a disposal of his First Choice Shares will be "rolled-over" into the TUI Travel Shares so that the TUI Travel Shares will be treated as the same asset as the First Choice Shares, acquired at the same time as the First Choice Shares and for the same acquisition cost.

First Choice Shareholders are advised that clearance has been obtained from HMRC under Section 138 of the Taxation of Chargeable Gains Act 1992 (the "**TCGA**") that Section 137 TCGA shall not have effect in respect of the Merger. Therefore the Merger should not be treated as being undertaken otherwise than for bona fide commercial reasons or for a main tax avoidance purpose, and Section 137 TCGA should not be capable of applying to preclude the above "roll-over"

treatment for a First Choice Shareholder who, together with persons connected with him or her, holds more than five per cent. of the First Choice Shares.

A subsequent disposal of TUI Travel Shares by a TUI Travel Shareholder who is either resident or ordinarily resident in the United Kingdom may, subject to the TUI Travel Shareholder's circumstances and any available exemption or relief, give rise to a chargeable gain (or allowable loss) for the purposes of United Kingdom taxation of chargeable gains.

Dividends on the TUI Travel Shares

Under current United Kingdom taxation legislation, there is no United Kingdom withholding tax on dividends.

(a) Non-corporate holders of TUI Travel Shares

A holder of TUI Travel Shares who is an individual resident in the United Kingdom for United Kingdom tax purposes and who receives a dividend from TUI Travel will generally be entitled to a tax credit which such shareholder may set off against his total income tax liability on the dividend. The value of the tax credit is currently equal to 10 per cent. of the aggregate of the dividend and the related tax credit (the "**gross dividend**"), which is also equal to one-ninth of the cash dividend received.

A United Kingdom resident individual shareholder who is liable to income tax at the starting or basic rate will be subject to tax on the dividend at the rate of 10 per cent. of the gross dividend, so that the tax credit will satisfy in full such shareholder's liability to income tax in respect of the gross dividend. In the case of a United Kingdom resident individual shareholder who is liable to income tax at the higher rate of 32.5 per cent. on the cash dividend and related tax credit, the tax credit will be set against but not fully match his tax liability on the gross dividend and he will have to account for additional tax equal to 22.5 per cent. of the gross dividend (which is also equal to 25 per cent. of the cash dividend received) to the extent that the gross dividend when treated as the top slice of his income falls above the threshold for higher rate income tax. For example, a dividend of £80 will carry a tax credit of £8.89. The income tax payable by a higher rate taxpayer would be 32.5 per cent. of £88.89, namely £28.89, less the tax credit of £8.89, leaving a net tax liability of £20.

Generally, non-corporate holders of TUI Travel Shares who are resident in the United Kingdom but who are not liable to income tax or corporation tax on dividends including pension funds and charities, will not be entitled to claim repayment of the tax credit attaching to dividends paid by TUI Travel.

TUI Travel Shareholders who hold their TUI Travel Shares in an ISA or PEP are exempt from tax on dividends paid by TUI Travel but are not entitled to recover the tax credit on the dividends paid from HMRC.

(b) Corporate Holders of TUI Travel Shares

Holders of TUI Travel Shares within the charge to corporation tax and resident for tax purposes in the United Kingdom will generally not be subject to corporation tax on dividends received from TUI Travel. Those Shareholders will not be entitled to claim repayment of tax credits attaching to dividends.

Stamp Duty and Stamp Duty Reserve Tax ("SDRT")

No stamp duty or SDRT will be payable by TUI Travel Shareholders on the allotment, issue or registration of the TUI Travel Shares.

A transfer for value of TUI Travel Shares outside the CREST system will generally be subject to United Kingdom stamp duty or to SDRT. Stamp duty and SDRT are normally the liability of a purchaser. Stamp duty is generally payable on an instrument transferring TUI Travel Shares at the rate of 0.5 per cent. of the amount or value of the consideration for the transfer of the TUI Travel Shares (rounded up to the nearest £5). A charge to SDRT will also normally arise on an unconditional

agreement to transfer TUI Travel Shares equal to 0.5 per cent. of the amount or value of the consideration payable for the transfer. However, if within six years of the date on which the agreement is made (or, if that agreement is conditional, the date on which the condition is satisfied) an instrument of transfer is executed pursuant to the agreement and duly stamped, any SDRT paid will be refunded (generally, but not necessarily, with interest) provided that a claim for repayment is made within the six year period, and any outstanding liability to SDRT will be cancelled.

Transfers of TUI Travel Shares within CREST are generally liable to SDRT, rather than stamp duty, at the rate of 0.5 per cent. of the amount or value of the consideration payable. CRESTCo is obliged to collect SDRT from the purchaser of TUI Travel Shares on relevant transactions settled within the system. Deposits of TUI Travel Shares in CREST will not be subject to stamp duty and, unless the transfer into CREST is itself for consideration, will not be subject to SDRT. Special rules may apply to the transfer or deposit of shares into any depositary receipt or clearance service arrangement and in relation to market intermediaries.

Personal Equity Plans ("PEPs") and Individual Savings Accounts ("ISAs")

TUI Travel Shares should be eligible to be held within a PEP or an ISA as qualifying securities. Shareholders are reminded that no new subscription may now be made to PEPs.

18. Action to be taken

Your attention is drawn to page 6 and paragraph 14 of the letter from the Chairman of First Choice set out in Part I of this document, which explain the action you should take in relation to the Scheme.

19. Further information

The terms of the Scheme are set out in full in Part III of this document. Further information regarding First Choice, TUI AG and TUI Travel is set out in Part V of this document and in the Prospectus.

Yours faithfully,

Matthew Jarman

Part III

Scheme of Arrangement

IN THE HIGH COURT OF JUSTICE
CHANCERY DIVISION
COMPANIES COURT

No: 4493 of 2007

IN THE MATTER OF FIRST CHOICE HOLIDAYS PLC

and

IN THE MATTER OF THE COMPANIES ACT 1985

SCHEME OF ARRANGEMENT

(under Section 425 of the Companies Act 1985)

between

FIRST CHOICE HOLIDAYS PLC

and

THE HOLDERS OF SCHEME SHARES

(as hereinafter defined)

PRELIMINARY

(A) In the Scheme, unless inconsistent with the subject or context, the following expressions shall have the following meanings:

"Act"	means the Companies Act 1985, as amended;
"Business Day"	means any day (excluding Saturday, Sunday or public holidays in England or Wales) on which banks are open for general banking business in the City of London;
"certificated" or "certificated form"	means, in relation to a share or other security, a share or other security which is not in uncertificated form (that is, not in CREST);
"Court"	means Her Majesty's High Court of Justice in England and Wales or the Court of Appeal in England and Wales, as the case may be;
"Court Meeting"	means the meeting of the holders of First Choice Shares convened by order of the Court pursuant to Section 425 of the Act to consider and, if thought fit, approve the Scheme (with or without amendment), and any adjournment of that meeting;
"CREST"	means the system for the paperless settlement of trades in securities and the holding of uncertificated securities operated by CRESTCo in accordance with the Uncertificated Securities Regulations 2001 (SI No. 2001/3755);
"CRESTCo"	means CRESTCo Limited;
"Encumbrances"	means all mortgages, pledges, liens, charges, options, encumbrances, equitable rights, rights of pre-emption, assignments, hypothecations or any other third party rights of any nature whatsoever;

"First Choice"	means First Choice Holidays PLC, registered in England and Wales with number 48967;
"First Choice Share Schemes"	means the First Choice Holidays Senior Executive Plan, the First Choice Holidays PLC Restricted Share Plan, the First Choice Holidays Deferred Annual Bonus Scheme, the First Choice Holidays Performance Share Plan and the First Choice Holidays Share Incentive Plan;
"First Choice Shares"	means ordinary shares of 3 pence each in the capital of First Choice;
"holder"	means a registered holder of shares and includes any person(s) entitled by transmission;
"Member"	means a member of First Choice on the register of members at any relevant date;
"Merger"	means the proposed combination of First Choice and TUI Tourism pursuant to the terms of and subject to the Merger Agreement (as defined in the Scheme Document);
"Merger Agreement"	means the merger agreement entered into between First Choice, TUI AG and TUI Travel and dated 19 March 2007;
"nominee"	means a person acting solely and exclusively as nominee and bare trustee of another person;
"Reduction Court Order"	means the order of the Court confirming the Reduction of Capital;
"Reduction of Capital"	means the reduction of First Choice's share capital involving the cancellation of the Scheme Shares provided for by this Scheme under section 137 of the Act;
"Relevant Holders"	means the holders of Scheme Shares whose names appear in the register of members of First Choice at the Scheme Record Time;
"Scheme"	means the scheme of arrangement in its present form or with or subject to any modification, addition or condition approved or imposed by the Court and agreed by First Choice and TUI Travel;
"Scheme Court Order"	means the order of the Court sanctioning the Scheme under section 425 of the Act;
"Scheme Document"	means the circular dated 29 June 2007 addressed to the holders of First Choice Shares containing the Scheme and an explanatory statement in compliance with section 426 of the Act;
"Scheme Effective Date"	means the date on which the Scheme becomes effective in accordance with its terms and **"Scheme Effective Time"** means the time on such date at which the Scheme becomes effective;
"Scheme Record Time"	means 6.00 p.m. (London time) on the Business Day immediately preceding the Scheme Effective Date;
"Scheme Shares"	means: (i) any First Choice Shares in issue at the date of this document;

(ii) any First Choice Shares issued after the date of this document and prior to the Voting Record Time; and

(iii) any First Choice Shares issued at or after the Voting Record Time and before 6.00 p.m. on the Business Day immediately preceding the date of the Reduction Court Order on terms that the holder thereof shall be bound by the Scheme, or in respect of which the original or any subsequent holder thereof agrees in writing to be bound by the Scheme;

but excluding in each case any First Choice Shares held by TUI Travel at the Scheme Record Time;

"Takeover Panel"	means the Panel on Takeovers and Mergers;
"TUI AG"	means TUI AG, a company incorporated in Germany whose registered office is at Karl-Wiechert-Allee 4, 30625 Hanover;
"TUI Tourism"	the travel and tourism division of TUI AG, excluding certain hotel assets which is constituted by the TUI Tourism Group;
"TUI Tourism Group"	the companies constituting TUI Tourism which are to be transferred to TUI Travel on completion of the Merger;
"TUI Travel"	means TUI Travel PLC, registered in England and Wales with number 6072876;
"TUI Travel Shares"	means ordinary shares of 10 pence each in the capital of TUI Travel to be issued to the holders of the Scheme Shares under clause 2 of the Scheme;
"UK Listing Authority"	means the Financial Services Authority acting in its capacity as the competent authority for the purposes of Part VI of the Financial Services and Markets Act 2000;
"uncertificated" or **"uncertificated form"**	means in relation to a share or other security, a share or other security which is recorded on the relevant register of the share or security concerned as being held in uncertificated form in CREST and title to which may be transferred by means of CREST; and
"Voting Record Time"	means 6.00 p.m. (London Time) on the day prior to the day immediately before the Court Meeting or any adjournment thereof (as the case may be).

(B) The authorised share capital of First Choice at the date of the Scheme is £223,500,000 divided into 199,500,000 convertible cumulative redeemable preference shares of £1 each (none of which is in issue) and 800,000,000 First Choice Shares of which 530,577,303 First Choice Shares have been issued and are credited as fully paid. The remaining First Choice Shares are unissued, but there are subsisting rights to subscribe for up to 17,259,768 First Choice Shares under the First Choice Share Schemes.

(C) TUI Travel was incorporated and registered in England and Wales on 29 January 2007 under the Act as a public limited company with registered number 6072876 and the name Coppereagle Public Limited Company. By virtue of a special resolution dated 19 June 2007 Coppereagle Public Limited Company changed its name to TUI Travel PLC.

(D) The authorised share capital of TUI Travel at the date of this Scheme is £100,000 divided into 50,002 ordinary shares of £1 nominal value each and 49,998 redeemable preference shares of

£1 nominal value each, of which two ordinary shares and 49,998 redeemable preference shares are in issue and are held as follows.

Andrew John	1 ordinary share of £1
TUI AG	1 ordinary share of £1
TUI AG	49,998 redeemable preference shares of £1

(E) TUI Travel has agreed to appear by counsel at the hearing of the petition to sanction the Scheme and at the hearing confirming the Reduction of Capital, to consent to the Scheme and to undertake to the Court to be bound by the provisions of this Scheme and to execute and do, or procure to be executed and done, all such documents, acts and things as may be necessary or desirable to be executed or done by it for the purposes of giving effect to the Scheme.

The Scheme

1. Cancellation of Scheme Shares

(a) The share capital of First Choice shall be reduced by cancelling and extinguishing the Scheme Shares.

(b) Forthwith and contingently upon the reduction of capital referred to in sub-clause 1(a) of the Scheme taking effect:

(i) the authorised share capital of First Choice shall be increased to its former amount by the creation of such number of new ordinary shares of 3 pence each as shall be equal to the number of Scheme Shares cancelled pursuant to sub-clause 1(a) of this Scheme; and

(ii) First Choice shall apply the reserve arising in its books of account as a result of such reduction of capital in paying up in full at par the new ordinary shares created pursuant to sub-clause 1(b)(i) of this Scheme which shall be allotted and issued free from Encumbrances and credited as fully paid to TUI Travel.

2. Consideration for the cancellation of the Scheme Shares

Subject to, and in consideration for, the cancellation of the Scheme Shares and the allotment and issue of the new ordinary shares in First Choice as provided in sub-clause 1(b)(ii) of this Scheme, TUI Travel shall allot and issue to or for the account of each holder of Scheme Shares (as appearing in the register of members of First Choice at the Scheme Record Time) free from Encumbrances and credited as fully paid, subject as hereinafter provided, TUI Travel Shares on the following basis:

for each Scheme Share appearing on the register of First Choice at the Scheme Record Time	**one TUI Travel Share**

3. Scheme Shares—Share Certificates and cancellation of CREST entitlements

(a) With effect from and on the Scheme Effective Time, each existing certificate representing a holding of Scheme Shares shall cease to be valid in respect of such holding and each holder of Scheme Shares shall be bound at the request of First Choice to deliver up the same to First Choice or to any person appointed by First Choice to receive the same for cancellation or to destroy such share certificate.

(b) With effect from and on the Scheme Effective Time, in respect of those holders of Scheme Shares held in uncertificated form, CRESTCo shall be instructed to cancel such holders' entitlement to such Scheme Shares and appropriate entries will be made in the register of members of First Choice with effect from the Scheme Effective Date to reflect their cancellation.

4. Allotment and issue of TUI Travel Shares

(a) The TUI Travel Shares to be issued pursuant to clause 2 of this Scheme shall be issued free from Encumbrances, credited as fully paid and shall rank *pari passu* with all other TUI Travel Shares in issue at the Scheme Effective Time and shall have the right to receive all dividends, distributions and other entitlements made or paid or declared on the TUI Travel Shares after the Scheme Effective Time.

(b) As soon as practicable (and in any event not later than seven days) after the Scheme Effective Date, TUI Travel shall make all such allotments of and shall issue such TUI Travel Shares as are required to be issued by it to give effect to the Scheme to the persons respectively entitled thereto, such consideration to be settled as set out in sub-clause 4(c) but subject to sub-clause 4(d) of the Scheme.

(c) Settlement of the consideration shall be effected as follows:

(i) where, at the Scheme Record Time, a Member holds Scheme Shares in uncertificated form in CREST the TUI Travel Shares to which such person is entitled shall be issued to such person in uncertificated form through CREST. TUI Travel shall procure that CRESTCo is instructed to credit the appropriate stock account in CREST of such Member with such person's entitlement to the TUI Travel Shares at the commencement of dealings in the TUI Travel Shares.

As from the Scheme Record Time, each holding of Scheme Shares credited to any stock account in CREST shall be disabled and all Scheme Shares will be removed from CREST in due course thereafter.

TUI Travel reserves the right to issue the TUI Travel Shares to all or any Member(s) who hold Scheme Shares in uncertificated form in CREST at the Scheme Record Time in the manner referred to in sub-clause 4(c)(ii) below if, for reasons outside its reasonable control, it is not able to effect settlement in uncertificated form in accordance with this sub-clause 4(c)(i); and

(ii) where, at the Scheme Record Time, a Member holds Scheme Shares in certificated form the TUI Travel Shares to which such person is entitled shall be issued in certificated form. Definitive certificates shall be issued as soon as practicable, in any event not later than fourteen days after the Scheme Effective Date.

(d) The provisions of this clause 4 of this Scheme shall be subject to any prohibition or condition imposed by law. Without prejudice to the generality of the foregoing, if, in respect of any holder of Scheme Shares with a registered address in a jurisdiction outside the United Kingdom, TUI Travel is advised that the allotment and/or issue of TUI Travel Shares pursuant to this clause 4 directly to such holder would or might infringe the laws of such jurisdiction or would or may require TUI Travel to observe any governmental or other consent or any registration, filing or other formality, with which TUI Travel is unable to comply or which TUI Travel regards as unduly onerous to comply with, TUI Travel may, in its sole discretion, either:

(i) determine that TUI Travel Shares shall not be allotted and issued to such holder under the Scheme but shall instead be allotted and issued to a nominee appointed by TUI Travel as trustee for such holder on terms that the nominee shall, as soon as practicable following the Scheme Effective Time, sell the TUI Travel Shares so allotted and issued at the best price which can reasonably be obtained at the time of sale and shall account for the net proceeds of such sale (after the deduction of all expenses and commissions, including any value added tax payable thereon) by sending a cheque for the net proceeds (denominated in sterling currency) to such holder or creating an assured payment obligation in accordance with the provisions of sub-clause 4(e) below. In the absence of bad faith or wilful default, none of First Choice, TUI Travel, their respective nominees or their respective directors and officers, shall have any liability for any loss or damage arising as a result of the timing or terms of such sale; or

(ii) determine that such TUI Travel Shares shall be sold, in which event the TUI Travel Shares shall be issued to such holder and TUI Travel shall appoint a person to act pursuant to this

sub-clause 4(d)(ii) and such person shall be authorised on behalf of such holder to procure that any shares in respect of which TUI Travel has made such a determination shall, subject to sub-clause 4(b), as soon as practicable following the Scheme Effective Time, be sold at the best price which can reasonably be obtained at the time of sale and the net proceeds of such sale (after the deductions of all expenses and commissions, including any value added tax payable thereon) shall be paid to such holder by sending a cheque for the net proceeds (denominated in sterling currency) to such holder. To give effect to any such sale, the person so appointed shall be authorised on behalf of such holder to execute and deliver a form of transfer and to give such instructions and to do all other things which he may consider expedient in connection with such sale. In the absence of bad faith or wilful default, none of First Choice, TUI Travel or their respective directors and officers or the person so appointed, shall have any liability for any loss or damage arising as a result of the timing or terms of such sale.

(e) (i) In the case of Scheme Shares to be sold in accordance with sub-clause 4(d)(i) which are in uncertificated form at the Scheme Record Time, TUI Travel shall, on behalf of the nominee appointed pursuant to sub-clause 4(d)(i) make any cash payment pursuant to sub-clause 4(d)(i) by arranging for the creation of an assured payment obligation in favour of the payment bank of the Relevant Holders of such Scheme Shares in accordance with CREST assured payment arrangements (as set out in the CREST Manual) provided that TUI Travel may (if, for any reason, it wishes to do so) determine that all or part of such consideration shall be paid by cheque in sterling drawn on a UK clearing bank despatched by post and in such case sub-clause 4(e)(ii) shall apply, to the extent it is appropriate; or

(ii) in the case of Scheme Shares to be sold in accordance with sub-clause 4(d)(i) which are in uncertificated form at the Scheme Record Time, TUI Travel shall on behalf of the nominee appointed pursuant to sub-clause 4(d)(i) make any cash payment pursuant to sub-clause 4(d)(i) by delivering to the persons respectively entitled thereto, or as they may direct, cheques in sterling drawn on a UK clearing bank by post by the fourteenth day following the Effective Date.

(f) All deliveries of certificates and cheques required to be made pursuant to the Scheme shall be effected by posting the same by first class post, airmail if overseas, (or such other method as may be approved by the Takeover Panel and the UK Listing Authority) to the address appearing in the register of members of First Choice at the Scheme Record Time (or, in the case of joint holders, to the address of that one of the joint holders whose name appears first in the register of members of First Choice in respect of such joint holding) or in accordance with any applicable special instructions received by Lloyds TSB Registrars regarding communications prior to the Scheme Record Time.

(g) None of TUI Travel, First Choice or any nominee referred to in sub-clause 4(d)(i) nor the person appointed by TUI Travel pursuant to sub-clause 4(d)(ii) shall be responsible for any loss or delay in the delivery of any certificates or cheques posted in accordance with sub-paragraphs (c), (d), (e) and (f) of this clause 4, which shall be posted at the risk of the persons entitled thereto.

(h) All cheques and warrants shall be in sterling drawn on a UK clearing bank and made payable to the holder or, in the case of joint holders, to the first named of such holders of the Scheme Shares concerned and the encashment of any such cheque shall be a complete discharge to TUI Travel, the nominee referred to in sub-clause 4(d)(i) and the person appointed by TUI Travel pursuant to sub-clause 4(d)(ii) for the moneys represented thereby.

(i) Prior to the issue of new share certificates in respect of TUI Travel Shares to Relevant Holders pursuant to sub-clause 4(c)(ii), transfers of the TUI Travel Shares issued to them pursuant to this Scheme shall be certified against the register of members of TUI Travel. Existing certificate(s) for Scheme Shares shall, on and from the Effective Date, cease to have effect as documents of title to the Scheme Shares comprised therein. In respect of those Relevant Holders holding their TUI Travel Shares in uncertificated form, CRESTCo shall be instructed to cancel such Relevant Holder's entitlement to TUI Travel Shares on and from the Effective Date.

5. Declarations and information relating to the nationality of First Choice Shareholders

Each declaration made in the case of Scheme Shares held in certificated form and each item of information relating to nationality provided through a relevant system (as defined in the Uncertificated Securities Regulations 2001 (SI 201/3755)) in the case of Scheme Shares held in uncertificated form for the purposes of article 31 of the articles of association of TUI Travel shall, unless and until amended or revoked, be deemed as from the Effective Date to be an effective declaration or provision of information (as the case may be) for the purposes of article 31 of the articles of association of TUI Travel.

6. The Scheme Effective Time

(a) The Scheme shall become effective as soon as office copies of the Scheme Court Order and the Reduction Court Order shall have been delivered to the Registrar of Companies in England and Wales for registration and, in the case of the Reduction Court Order, have been registered by him.

(b) Unless the Scheme shall have become effective on or before the close of business on 31 October 2007 (London time), or such later date (if any) as First Choice and TUI Travel may agree and the Court may approve, the Scheme shall never become effective.

7. Modification

First Choice and TUI Travel may jointly consent on behalf of all persons concerned to any modification of or addition to the Scheme or to any condition which the Court may think fit to approve or impose.

8. Costs

First Choice is authorised to and permitted to pay all its costs and expenses relating to the negotiation, preparation and implementation of the Scheme.

Dated 29 June 2007

Part IV

Financial Information

Section A

Financial information on First Choice Holidays PLC

The financial information incorporated in this Section A of this Part IV of this document by reference to the Prospectus does not constitute statutory accounts within the meaning of section 240 of the Companies Act.

Section A(i): Financial information on First Choice for the last three years ended 31 October 2006

Parts VII-B and VII-C (Financial Information on First Choice) of the Prospectus contain information which cover the last 3 financial years ended 31 October 2006, including: turnover, net profit or loss before and after taxation, the charge for tax, extraordinary items, minority interests, the amount absorbed by dividends and earnings and dividends per share.

Section A(ii): Unaudited interim results of First Choice for the six months ended 30 April 2007

Part VII—D (Financial Information on First Choice) of the Prospectus contains information which cover the six months ended 30 April 2007, including: turnover, net profit or loss before and after taxation, the charge for tax, extraordinary items, minority interests, the amount absorbed by dividends and earnings and dividends per share.

Section B

Financial information on TUI AG

Section B(i): Financial information on TUI AG for the three years to 31 December 2006

The following section sets out consolidated financial information on TUI AG for the last 3 financial years ended 31 December 2006, including turnover, net profit or loss before and after taxation, the charge for tax, minority interests, the amount absorbed by dividends and earnings and dividends per share.

The notes to such information, including in relation to the significant accounting policies in accordance with which it has been prepared, will be available for inspection as set out in paragraph 11 of Part V of this document.

Section C

Financial information on TUI Tourism

Financial Information relating to TUI Tourism for the three years ended 31 December 2006 is set out in Part V of the Prospectus.

Section D

Unaudited pro forma financial information on the Enlarged Group

Part X of the Prospectus contains an unaudited pro forma income statement and an unaudited pro forma combined net assets statement. The unaudited pro forma income statement has been prepared to illustrate the effect on TUI Travel for the period ended 31 May 2007 as if the Merger had taken place on 1 January 2007. The audited pro forma net assets statement has been prepared to illustrate the effect on the net assets of TUI Travel as if the Merger had taken place on 31 May 2007. Such pro forma statements address a hypothetical situation and, therefore, do not represent TUI Travel's actual financial result or position following the Merger.

Part V

Additional information

1. Responsibility

1.1 The First Choice Directors, whose names are set out in paragraph 2.1 below, accept responsibility for the information contained in this document, other than information relating to the Enlarged Group, TUI Travel, TUI Tourism, TUI AG, the TUI Travel Directors, the TUI AG Directors and the immediate families and related trusts of and persons connected with such directors for which responsibility is taken by others pursuant to paragraphs 1.2 and 1.3 below. To the best of the knowledge and belief of the First Choice Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document for which they take responsibility is in accordance with the facts and does not omit anything likely to affect the import of such information.

1.2 The TUI AG Directors, whose names are set out in paragraph 2.2 below, accept responsibility for the information contained in this document relating to TUI AG, TUI Tourism, the TUI AG Directors, and the immediate families and related trusts of and persons connected with such directors. To the best of the knowledge and belief of the TUI AG Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document for which they take responsibility is in accordance with the facts and does not omit anything likely to affect the import of such information.

1.3 The TUI Travel Directors, whose names are set out in paragraph 2.3 below, accept responsibility for the information contained in this document relating to the Enlarged Group, TUI Travel TUI Travel Directors and the immediate families and related trusts of and persons connected with such directors. To the best of the knowledge and belief of the TUI Travel Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document for which they take responsibility is in accordance with the facts and does not omit anything likely to affect the import of such information.

The principal and registered office of TUI Travel is at First Choice House, London Road, Crawley, West Sussex RH10 9GX.

3. Interests and dealings in shares

3.1 Definitions and references

For the purposes of this Part V:

(a) "**acting in concert**" with TUI Travel means any such person acting or deemed to be acting in concert with TUI Travel for the purposes of the Takeover Code;

(b) "**arrangement**" includes indemnity or option arrangements, and any agreement or understanding, formal or informal, of whatever nature, relating to relevant securities which may be an inducement to deal or refrain from dealing;

(c) "**associate**" of any company means:

(i) its parent company (if any), its subsidiaries, fellow subsidiaries, their associated companies, and companies of which any such parent, subsidiaries, fellow subsidiaries or associated companies are associated companies (for this purpose, ownership or control of 20 per cent. or more of the equity share capital of a company is regarded as the test of "associated company" status);

(ii) its connected advisers and persons controlling, controlled by or under the same control as such connected advisers;

(iii) its directors and the directors of any company covered in (i) above (together in each case with their close relatives and related trusts);

(iv) its pension funds or the pension funds of any company covered in (i) above;

(d) "**connected adviser**" has the meaning attributed to it in the Takeover Code;

(e) "**connected person**" has the meaning attributed to it in section 346 of the Companies Act;

(f) "**control**" means an interest or interests in shares carrying in aggregate 30 per cent. or more of the voting rights attributable to the share capital of a company which are currently exercisable at a general meeting, irrespective of whether such interest or interests give *de facto* control;

(g) "**dealing**" or "**dealt**" includes the following:

(i) the acquisition or disposal of relevant securities, of the right (whether conditional or absolute) to exercise or direct the exercise of voting rights attached to relevant securities, or of general control of relevant securities;

(ii) the taking, granting, acquisition, disposal, entering into, closing out, termination, exercise (by either party) or variation of an option, (including a traded option contract) in respect of any securities;

(iii) subscribing or agreeing to subscribe for relevant securities;

(iv) the exercise or conversion, whether in respect of new or existing securities, of any relevant securities carrying conversion or subscription rights;

(v) the acquisition of, disposal of, entering into, closing out, exercise (by either party) of any rights under, or variation of, a derivative referenced, directly or indirectly, to relevant securities;

(vi) entering into, terminating or varying the terms of any agreement to purchase or sell relevant securities; and

(vii) any other action resulting, or which may result, in an increase or decrease in the number of relevant securities in which a person is interested or in respect of which he has a short position;

(h) "**derivative**" includes any financial product the value of which, in whole or in part, is determined directly or indirectly by reference to the price of an underlying security but which does not include the possibility of delivery of such underlying security;

(i) "**disclosure period**" means the period commencing twelve months prior to 27 June 2007 (being the latest practicable date prior to the posting of this document);

(j) being "**interested**" in relevant securities includes where a person:

(i) owns them;

(ii) has the right (whether conditional or absolute) to exercise or direct the exercise of the voting rights attaching to them or has general control of them;

(iii) by virtue of any agreement to purchase, option or derivative, has the right or option to acquire them or call for their delivery; or is under an obligation to take delivery of them, whether the right, option or obligation is conditional or absolute and whether it is in the money or otherwise; or

(iv) is party to any derivative whose value is determined by reference to their price; and which results, or may result, in his having a long position in them.

(k) "**relevant First Choice securities**" means First Choice Shares (or derivatives referenced thereto) and securities convertible into, rights to subscribe for an options (including traded options) in respect threreof;

(l) "**relevant securities**" includes relevant First Choice securities and relevant TUI AG securities;

(m) "**relevant TUI AG securities**" means TUI AG Shares (or derivatives referenced thereto) and securities convertible into, rights to subscribe for an options (including traded options) in respect threreof; and

(n) **"short positions"** means any short position (whether conditional or absolute and whether in the money or otherwise) including any short position under a derivative, any agreement to sell or any delivery obligation or right to require another person to purchase or take delivery.

3.2 **Interests and Dealings in relevant First Choice securities**

(a) At the close of business on 27 June 2007 (being the latest practicable date prior to the publication of this document) the interests, rights to subscribe and short positions in relevant First Choice securities of the Directors of First Choice, their immediate families, related trusts and connected persons (all of which are beneficial unless otherwise stated) other than in connection with First Choice Share Schemes (which are disclosed in paragraph (b) below) were as follows:

Name	Number of First Choice Shares
Sir Michael Hodgkinson	20,000

(v) none of the Directors of First Choice (including any members of their immediate families, related trusts or connected persons) had any interest in, had a right to subscribe for or had short positions in relation to any relevant First Choice securities;

(vi) no companies who are associates of First Choice (by virtue of the definition in paragraph 3.1(c)(i)), has an arrangement was interested in, had a right to subscribe for or had short positions in any relevant First Choice securities;

(vii) no pension fund of First Choice or of an associate of First Choice (by virtue of the definition in paragraph 3.1(c)(i)) was interested in, had a right to subscribe for or had short positions in any relevant First Choice securities;

(viii) no employee benefit trust of First Choice or of an associate of First Choice (by virtue of the definition in paragraph 3.1(c)(i)) was interested in, had a right to subscribe for or had short positions in any relevant First Choice securities;

(ix) no connected adviser to First Choice, to an associate of First Choice (by virtue of the definition in paragraph 3.1(c)(i)) or to a person acting in concert with First Choice, nor any person controlling, controlled by or under the same control as any such connected adviser (except for an exempt principal trader or exempt fund manager) had any interest in or right to subscribe for or had any short position in relation to, any relevant First Choice securities;

(x) there were no arrangements between First Choice or any associate of First Choice and any other person;

(xi) there were no arrangements between TUI AG or any associate of TUI AG and any other person;

(xii) neither First Choice nor any person acting in concert with First Choice had borrowed or lent any relevant First Choice Securities, save for any borrowed shares which have either been on-lent or sold;

(xiii) neither TUI AG nor any person acting in concert with TUI AG had borrowed or lent any relevant First Choice Securities, save for any borrowed shares which have either been on-lent or sold;

3.3 **Interests in relevant TUI AG securities**

At the close of business on 27 June 2007 (being the last practicable date prior to the publication of this document) neither First Choice nor any First Choice Director (including their respective immediate families, related trusts and connected persons) is interested in or has any rights to subscribe for any relevant securities of TUI AG.

3.4 **Interests in relevant TUI Travel securities**

(a) At the close of business on 27 June 2007 (being the last practicable date prior to the publication of this document) the following persons held the following shares in TUI Travel:

Party	Number of First Choice Shares	Class and nominal value
Andrew John	1	Ordinary, £1 each
TUI AG	1	Ordinary, £1 each
TUI AG	49,998	Redeemable, £1 each

(b) The aforementioned shares comprise the entire issued share capital of TUI Travel as at 27 June 2007 (being the last practicable date prior to the publication of this document).

(c) Andrew John purchased one ordinary share of £1 nominal value in TUI Travel on 19 June 2007 from First Choice for a consideration of £1.

(d) TUI AG purchased one ordinary share of £1 nominal value in TUI Travel on 19 March 2007 from Peregrine Secretarial Services Limited for a consideration of £1.

(e) The 49,998 redeemable shares in TUI Travel held by TUI AG were subscribed by TUI AG on 19 June 2007.

4. Middle market quotations

The following table sets out the closing middle market quotations for First Choice Shares as derived from the Daily Official List for the first dealing day in each of the six months immediately prior to the date of this document and for 27 June 2007 (being the latest practicable date prior to the publication of this document):

Date	Price per First Choice Share (pence)
2 January 2007	291.00
1 February 2007	289.50
1 March 2007	253.00
2 April 2007	285.25
1 May 2007	285.50
1 June 2007	355.50
27 June 2007	308.50

The closing middle market prices or quotations of First Choice Shares are derived from the Daily Official List.

5. Irrevocable undertakings

The First Choice Directors whose names are set out below have irrevocably undertaken to vote in favour of the Scheme at the Court Meeting and in favour of the Resolutions at the EGM in respect of their entire beneficial holdings of First Choice Shares. Those holdings amount to, in aggregate 3,409,056 First Choice Shares, representing, in aggregate, approximately 0.64 per cent. of the existing issued share capital of First Choice. They have also agreed unless and until the Scheme is withdrawn, not to dispose in any manner of any of their interests in First Choice Shares, accept any offer in respect thereto or acquire any further interests in any First Choice Shares other than pursuant to the Share Schemes. However, all such commitments and restrictions shall cease to apply in the event that, and immediately upon, the First Choice Board determining (whether before or after the date of this document to First Choice Shareholders but before the Court has granted the Scheme Court Order), acting reasonably, in good faith and in light of a change of events or circumstances, not to give or to withdraw or adversely modify the First Choice Board recommendation in favour of the Merger (as set out in the announcement of 19 March 2007), in circumstances where not doing so would be inconsistent with their fiduciary duties or a breach of their obligations under the Takeover Code, subject to the First Choice Directors having obtained and relying upon appropriate external legal and independent financial advice to that effect.

The following table shows the number of First Choice Shares in which each of the relevant First Choice Directors had an interest (including those which were expected to vest on him under the First Choice Share Schemes) on the date of the undertaking given by him and in respect of which such undertaking was given:

Name	Date	First Choice Shares held
Sir Michael Hodgkinson	28 June 2007	20,000
Peter Long	28 June 2007	2,869,706*
Paul Bowtell	28 June 2007	12,771*
Dermot Blastland	28 June 2007	440,775
Tony Campbell	28 June 2007	40,804
Giles Thorley	28 June 2007	25,000

* Includes First Choice Shares held under the First Choice Share Incentive Plan.

6. Material contracts

Material contracts entered into by First Choice

Details of each material contract (not being a contract entered into in the ordinary course of business) entered into by First Choice or its subsidiaries within the 2 years prior to the date on which the Merger was announced are set out in paragraph 12 of Part XI of the Prospectus.

Material contracts entered into by TUI AG

Details of each material contract (not being a contract entered into in the ordinary course of business) entered into by TUI AG in relation to its tourism business or by a subsidiary or subsidiary undertaking of TUI AG that will be part of TUI Tourism within the 2 years prior to the date on which the Merger was announced are set out in paragraph 12 of Part XI of the Prospectus.

The following material contracts (not being contracts entered into in the ordinary course of business) have been entered into by TUI AG in relation to its shipping business or by a subsidiary or subsidiary undertaking of TUI AG that will not be part of TUI Tourism within the 2 years prior to the date on which the Merger was announced:

(a) On 20 August 2005, TUI AG and CP Ships Limited ("**CP Ships**") entered into and announced a support agreement (the "**Support Agreement**") pursuant to which TUI AG agreed to make an offer to purchase all of the common shares in the capital of CP Ships at a price of US$ 21.50 per common share (the "**Offer**"). On 30 August 2005, Ship Acquisition, Inc. (a wholly-owned subsidiary of TUI AG) made an offer for CP Ships by way of an offer document and circular. CP Ships represented and warranted to TUI AG in the Support Agreement that the board of directors of CP Ships had determined unanimously that the Offer was fair to the shareholders of CP Ships and that the Offer was in the best interests of CP Ships and resolved unanimously to recommend to the shareholders of CP Ships that they accept the Offer and deposit their shares under the Offer. Both TUI AG and CP Ships provided customary representations and warranties to each other in the Support Agreement. These representations and warranties terminated when TUI AG took up and paid for, in the aggregate, more than 50 per cent. of the shares under the Offer. On 19 October 2005 TUI AG and CP Ships jointly announced that shareholders of CP Ships representing 89 per cent. of the common shares in the capital of CP Ships had accepted the Offer and, on 20 December 2005, CP Ships became an indirect wholly owned subsidiary of TUI AG. That total consideration paid by the TUI AG group for CP Ships was approximately €2 billion.

(b) On 23 December 2006, Carnival plc, through its subsidiary Costa Crociere S.p.A. ("**Carnival**") and TUI AG entered into a letter of intent to establish a joint venture company to develop, market, operate and sell ocean line holiday cruises primarily within the German-speaking cruise sector (the "**Business**"). The joint venture company will be established and headquartered in Italy and will be governed by Italian law. Initially, Carnival will hold 95 per cent. of the shares in the joint venture company while TUI AG will hold five per cent. of the shares. The joint venture company will own all of the assets that are used in Carnival's Aida cruise line business and TUI AG shall grant the joint venture company the right to use the TUI Cruises brand name in furtherance of the Business. The joint venture company is valued at Euro 1.935 million (before third party debt of Euro 619 million). The strategic direction of the joint venture company shall be the responsibility of the board of the joint venture company (the "**Board**"). The Board will at all times have a total of four directors. One director will be appointed by TUI AG and three directors will be appointed by Carnival. The chairman of the Board shall be appointed by Carnival and shall have a casting vote. Certain specified matters in respect of the joint venture company require Board approval on the basis of a majority vote while certain specified key decisions affecting the Business shall require unanimous approval by the Board. The executive officers of the joint venture company shall be appointed by Carnival.

The parties will enter into a shareholders agreement which will include provisions on: (a) the distribution of earnings, (b) the transfer of the parties' shareholdings in the joint venture company, including an obligation on TUI AG to obtain Carnival's consent if it wishes to transfer its shareholding in the joint venture company to any competitor of Carnival and an obligation on Carnival to obtain TUI AG's consent if it wishes to transfer its shareholding to any competitor of TUI AG, (c) each party having a right of first refusal if the other party wishes to sell its shares in the joint venture company (which, except for certain permitted intra-group transfers, shall not be permitted for an initial period of 10 years), (d) where the right of first refusal contained in (b) above is not exercised, each party has customary tag along rights to sell the same proportion of their interests in the joint venture company, (e) a call option over 20 per cent. of the shares in the joint venture company in favour of TUI AG, exercisable by TUI AG during the period between 90 days and 60 days prior to the delivery of the first TUI AG newbuild to the Business, (f) a put option over 20 per cent. of the shares in the joint venture company, exercisable by Carnival during the period between 60 days and 30 days prior to delivery of the first TUI AG newbuild to the Business, (g) undertakings given by TUI AG (on behalf of itself and its affiliates) not to compete in the operation of cruises with the business of the joint venture company within the following regions: Germany, the German-speaking Region of Switzerland, Austria, Sweden, Norway, Finland, Denmark, Belgium, Luxembourg and The Netherlands (together, the "**Territory**") whilst it remains a shareholder in the joint venture company (on the basis that TUI AG may operate (i) its existing Hapag-Lloyd cruise line as well as its existing Thomson cruise line, (ii) within the luxury cruise/expeditions sector and (iii) within the river cruise market so long as TUI AG does not use the "TUI Cruises" brand in the European market for marketing, sales, financial reporting or other operational purposes or activities in connection with such businesses). This undertaking not to compete within the Territory shall continue for a period of three years following TUI AG ceasing to be a shareholder in the joint venture company for any reason other than a buy-out by Carnival. Prior to entering any European market or region for the TUI Cruise brand outside of the Territory, TUI AG shall first offer the joint venture company the opportunity to expand the TUI Cruise business into such market or region. There is also provision for a Carnival buy-out of TUI AG's shareholding at market value in the event that the joint venture company determines to cease the use of the TUI Cruises brand name in connection with the Business. On the basis of a management and services agreement to be entered into with the joint venture company, Carnival shall provide management services to the joint venture company in return for the payment of an annual fee equal to three per cent. of the joint venture company's annual gross revenues. The parties and the joint venture company will enter into a branding agreement under which the joint venture company is granted an irrevocable and exclusive right within the Territory to use the "TUI Cruises" brand. In return for such branding rights, the joint venture company shall pay TUI AG a nominal fee. TUI AG is currently negotiating the terms of the shareholders agreement and associated documents with Carnival and anticipates that they will be entered into in the period between the date of this document and Completion.

Save as disclosed above no contracts have been entered into by TUI AG or its subsidiaries otherwise than in the ordinary course of business within the two years prior to the date on which the Merger was announced.

7. Service contracts of First Choice Directors

7.1 As at the date of this document, the Executive Directors have service contracts with First Choice on the following terms:

(a) Peter Long is employed by First Choice pursuant to a service contract dated 10 July 1996. His current basic salary is £675,000 per annum. In addition, Mr Long is entitled to participate in the Group Bonus Scheme for directors. Mr Long receives pension contributions of 50 per cent. of his basic salary which is paid to a Self-Invested Personal Pension. Mr Long's additional benefits include private health insurance, permanent health insurance, life assurance and a company car. In addition, he is entitled to participate in a Five Year

Performance Bonus. Under this scheme, Mr Long may receive a cash bonus, based on the Company's performance, of up to £1.5m. This is payable no later than six months after 31 October 2009, however, a pro-rated sum (reduced to take into account the time remaining until 31 October 2009) is payable early on a takeover or a scheme of arrangement (see paragraph 5.2 of Part IV of the Prospectus for further details). Any amount paid under this scheme is not pensionable.

(b) Paul Bowtell is employed by First Choice pursuant to a service contract dated 28 April 2004. His current basic salary is £385,000 per annum. Mr Bowtell receives company pension contributions of 25 per cent. of his basic salary paid to the First Choice Pension Scheme. In addition, Mr Bowtell is entitled to participate in the Group Bonus Scheme for directors, and the First Choice Share Schemes excluding the First Choice Senior Executive Plan. Mr Bowtell's additional benefits include private health insurance, permanent health insurance and a company car.

(c) Dermot Blastland is employed by First Choice pursuant to a service contract dated 22 April 1999 (as amended by an addendum dated 30 September 1999). His current basic salary is £382,000. Mr Blastland receives company pension contributions of 25 per cent. of his basic salary paid to the First Choice Pension Scheme. In addition, Mr Blastland is entitled to participate in the First Choice Share Schemes and the Group Bonus Scheme for directors. Mr Blastland's additional benefits include private health insurance, permanent health insurance and a company car.

Each of these service contracts is terminable upon not less than six months' notice from the relevant Director or upon not less than 12 months' notice from First Choice. Each contract provides First Choice with a discretion to terminate the contracts without notice on payment of a sum equal to the Director's gross salary (including benefits apart from Dermot Blastland who is entitled to a sum equal to only his gross basic salary) in respect of the period of notice required under the contract. No other benefits are payable on termination.

Both Mr Blastland's and Mr Long's contracts terminate automatically on reaching 65 years of age.

7.2 The Non-Executive Directors have letters of appointment with the Company on the following terms:

(a) Sir Michael Hodgkinson was appointed as a Non-Executive Director with effect from 1 January 2004 for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Sir Michael was appointed Non-Executive Chairman with effect from 11 March 2004. He is entitled to a fee of £170,000 per annum.

(b) Tony Campbell was appointed as a Non-Executive Director and Senior Independent Director with effect from 1 April 1997. Mr Campbell is entitled to an annual fee of £38,000 (which includes the £5,000 annual fee to which he is entitled as Senior Independent Director).

(c) Clare Chapman was appointed as a Non-Executive Director with effect from 12 March 2003 for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Ms Chapman is the chairman of the remuneration committee of First Choice. Ms Chapman is entitled to an annual fee of £38,000 (which includes the £5,000 annual fee to which she is entitled as chairman of the remuneration committee).

(d) Bill Dalton was appointed as a Non-Executive Director on 6 October 2004, for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Mr Dalton is entitled to an annual fee of £33,000 per annum.

(e) Jeremy Hicks was appointed as a Non-Executive Director on 1 March 2005 for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Mr Hicks is the chairman of the audit committee of First Choice.

Mr Hicks is entitled to an annual fee of £38,000 (which includes the £5,000 annual fee to which he is entitled as chairman of the audit committee).

(f) Susan Hooper was appointed as a Non-Executive Director on 10 March 2005 for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Ms Hooper is entitled to a fee of £33,000 per annum.

(g) Giles Thorley was appointed as a Non-Executive Director with effect from 1 February 2006 for an initial term of three years, although either party may terminate the appointment by giving six-months' written notice.

All the Non-Executive Directors apart from Tony Campbell are entitled to a sum equivalent to net fees for up to six months if their appointment is terminated by First Choice in certain circumstances.

None of the services contracts or letters of appointment of the First Choice Directors has been replaced or amended in the six months prior to the date of this document.

8. Overseas shareholders

General

It is the responsibility of Overseas Shareholders to satisfy themselves as to the full observance of the laws of the relevant jurisdiction in connection with the allotment and issue of TUI Travel Shares, including the obtaining of any governmental, exchange control or other consents which may be required, and/or the compliance with other necessary formalities which are required to be observed and the payment of any issue, transfer or other taxes due in such jurisdiction.

This document does not constitute an offer to sell or issue or the solicitation of an offer to buy or subscribe for shares in any jurisdiction in which such offer or solicitation is unlawful.

If, in respect of any Overseas Shareholder, First Choice is advised that the allotment and issue of TUI Travel Shares would or might infringe the laws of any jurisdiction outside the United Kingdom, or would or might require TUI Travel to obtain any governmental or other consent or effect any registration, filing or other formality with which, in the opinion of First Choice, it would be unable to comply or which it regards as unduly onerous, then First Choice may, at its sole discretion either (a) determine that no TUI Travel Shares shall be allotted and issued to such Overseas Shareholder, but that instead those TUI Travel Shares shall be allotted and issued to a nominee appointed by TUI Travel, as trustee for such Overseas Shareholder, on terms that they shall be sold on behalf of such Overseas Shareholder as soon as reasonably practicable following the Scheme Effective Time, with the net proceeds of sale (after deduction of all expenses and commissions, including any amount in respect of value added tax payable thereon) being remitted to the Overseas Shareholder concerned as soon as reasonably practicable after the sale at the risk of such Overseas Shareholder, or (b) determine that such TUI Travel Shares shall be sold on behalf of such Overseas Shareholder, in which event the TUI Travel Shares shall be issued to such Overseas Shareholder, and First Choice shall appoint a person to procure that those shares be sold as soon as reasonably practicable following the Scheme Effective Time, with the net proceeds of sale (after deduction of all expenses and commissions, including any amount in respect of value added tax payable thereon) being remitted to the Overseas Shareholder concerned (by sending a cheque in sterling) as soon as reasonably practicable after the sale at the risk of such Overseas Shareholder.

The document has been prepared for the purposes of complying with English Law, the Takeover Code and the Listing Rules and the information disclosed may not be the same as that which would have been disclosed if the document had been prepared in accordance with the laws of jurisdictions outside the United Kingdom.

United States

The TUI Travel Shares to be issued to holders of First Choice Shares under the Scheme will not be registered under the US Securities Act and will be issued in the United States pursuant to the Scheme only in reliance on the exemption from registration provided by Section 3(a)(10) of that Act. For purposes of qualifying for this exemption, First Choice will advise, or procure advice to, the Court that its sanctioning of the Scheme will be relied upon to establish the availability of this exemption.

The TUI Travel Shares will not be registered under the securities laws of any state of the United States, and will be issued in the United States pursuant to the Scheme only in reliance on available exemptions from such state law registration requirements and the provisions of Section 18 of the US Securities Act.

Any First Choice Shareholder in the United States that is not an affiliate, for the purposes of the US Securities Act, of TUI Travel or First Choice prior to the implementation of the Scheme and is not an affiliate of TUI Travel following implementation of the Scheme may sell TUI Travel Shares received pursuant to the Scheme in ordinary secondary market transactions without restriction under the US Securities Act.

Under US securities laws, any First Choice Shareholder in the United States who is deemed to be an affiliate of TUI Travel or First Choice prior to the implementation of the Scheme and/or is or becomes an affiliate of TUI Travel following the implementation of the Scheme (whether or not a US person) will be subject to timing, manner of sale and volume restrictions on the sale of TUI Travel Shares received pursuant to the Scheme pursuant to Rule 145(d) under the US Securities Act, and may not resell TUI Travel Shares unless pursuant to another applicable exemption from the registration requirements of the US Securities Act, or in a transaction not subject to such requirements (including a transaction that satisfies the applicable requirements of Regulation S under the US Securities Act relating to offers and sales outside the United States). For these purposes, an "affiliate" of any person is generally defined to be a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, that person. Whether a person is an affiliate of a company for such purposes depends on the circumstances, but affiliates of a company can include directors, officers, and significant shareholders. First Choice Shareholders in the United States that believe they are or may be "affiliates" of TUI Travel or First Choice should consult their own legal advisers prior to any sale of TUI Travel received pursuant to the Scheme.

Neither the SEC nor any US state securities commission has approved or disapproved the TUI Travel Shares or passed an opinion upon the accuracy or adequacy of this document. Any representation to the contrary is a criminal offence in the United States.

First Choice Shareholders who are citizens or residents of the United States should consult their own legal and tax advisers with respect to legal and tax consequences of the Scheme in their particular circumstances.

Canada

The TUI Travel Shares issued to or for the benefit of any resident of Canada pursuant to the Scheme will not be qualified for sale under the securities law of any province or territory of Canada and may be subject to resale restrictions.

First Choice Shareholders who are citizens or residents of Canada should consult their own legal and tax advisers with respect to legal and tax consequences of the Scheme in their particular circumstances.

Other Jurisdictions

This document and any accompanying documents are not being made available to First Choice Shareholders with registered addresses in any Restricted Jurisdiction and may not be treated as

an invitation to subscribe for any TUI Travel Shares by any person resident or located in such jurisdictions or any other Restricted Jurisdiction.

The TUI Travel Shares have not been, and will not be, registered under the applicable securities laws of any Restricted Jurisdiction. Accordingly, the TUI Travel Shares may not be offered, sold, delivered or transferred, directly or indirectly, in or into any Restricted Jurisdiction to or for the account or benefit of any national, resident or citizen of any Restricted Jurisdiction.

The implications of the Scheme for Overseas Shareholders may be affected by the laws of relevant jurisdictions. Such Overseas Shareholders should inform themselves about, and observe, any applicable legal requirements. Any person outside the UK who is resident in, or who has a registered address in, or is a citizen of, an overseas jurisdiction and who is to receive TUI Travel Shares pursuant to the Scheme should consult his or her professional advisers and satisfy himself or herself as to the full observance of the laws of the relevant jurisdiction in connection with the Scheme, including obtaining any requisite governmental or other consents, observing any requisite formalities and paying any issue, transfer or other taxes due in such jurisdiction.

This document has been prepared for the purposes of complying with English law, the Takeover Code and the Listing Rules, and the information disclosed may not be the same as that which could have been disclosed if this document had been prepared in accordance with the laws of jurisdictions outside the United Kingdom.

Overseas Shareholders should consult their own legal and tax advisers with respect to the legal and tax consequences of the Scheme in their particular circumstances.

9. Forecasts in respect of TUI Tourism

In December 2006, in the context of defining a restructuring programme for its entire tourism division, TUI AG published a target range for EBITA of that division for the 2008 calendar year. During questions following a presentation to analysts by First Choice and TUI AG on 19 March 2007, statements were made regarding the proportion of that target range attributable to TUI Tourism. It has been noted that these statements could be construed as a profit forecast for TUI Tourism for the year ended 31 December 2008. These statements were not intended to be a profit forecast and both TUI AG and First Choice consider that it is not possible to produce a forecast and associated assumptions for this period in a form capable of being reported on in the manner required by the Takeover Code. Accordingly, the relevant statements have been and remain withdrawn.

10. Other information

10.1 No agreement, arrangement or understanding (including any compensation arrangement) exists between TUI AG or any party acting in concert with TUI AG and any of the directors, recent directors, shareholders or recent shareholders of First Choice which has any connection with, or dependence on, or which is conditional upon the outcome of the Merger.

10.2 There is no agreement, arrangement or understanding whereby the beneficial ownership of any of the First Choice Shares to be acquired pursuant to the Merger will be transferred to any person, but TUI Travel reserves the right to transfer any such shares to any member of the Enlarged Group.

10.3 Save as disclosed in this document and in the Prospectus, there have been no material changes in the financial or trading position of the First Choice Group since 31 October 2006 (the date to which the last audited accounts of First Choice have been prepared).

10.4 Save as disclosed in this document and in the Prospectus, there have been no material changes in the financial or trading position of TUI AG since 31 December 2006 (the date to which the last audited accounts of TUI AG have been prepared), save that on 1 June 2007 TUI AG closed a €694 million convertible bond transaction which includes an option to convert the bonds into ordinary shares and which bonds mature on 1 September 2012. TUI AG will use the proceeds of the bonds for general corporate purposes.

10.5 Each of Lazard, Deutsche Bank and Morgan Stanley has given and has not withdrawn its written consent to the issue of this document with the inclusion of the references to its name in the form and context in which it appear.

10.6 As at the date of this document, First Choice holds no Treasury Shares.

11. Documents available for inspection

Copies of the following documents will be available for inspection at the offices of Herbert Smith LLP, Exchange House, Primrose Street, London EC2A 2HS, during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted) until the conclusion of the Court Meeting and the EGM:

(a) the memorandum and articles of association of First Choice and the full terms of the proposed amendments to the articles of association;

(b) the memorandum and articles of association of TUI Travel and an English translation of the charter of TUI AG;

(c) the audited consolidated accounts of First Choice for the two financial years ended 31 October 2005 and 31 October 2006 and the unaudited interim results for the six-month period ended 30 June 2007;

(d) the audited consolidated accounts of TUI AG for the two financial years ended 31 December 2005 and 31 December 2006 and the unaudited interim results for the three-month period ended 31 March 2007;

(e) the service contracts of the Directors of First Choice referred to in paragraph 7 above;

(f) the written consents of the financial advisers referred to in paragraph 10.5 above;

(g) the Merger Agreement, the Relationship Agreement and the material contracts referred to in paragraph 6 above;

(h) copies of any irrevocable undertakings to vote in favour of the Scheme;

(i) any full lists of dealings as referred to in paragraph 3.2(g) of this Part V in accordance with Rule 26(h) of the Takeover Code;

(j) this document, the accompanying blue and white Forms of Proxy and the Prospectus.

29 June 2007

Part VI

Definitions

"£" or "sterling" or "pounds"	pounds sterling, the lawful currency for the time being of the UK and references to "pence" and "p" shall be construed accordingly
"Act" or "Companies Act"	the Companies Act 1985, as amended
"Admission"	admission of the TUI Travel Shares to the Official List and to trading on the London Stock Exchange's market for listed securities and **"Admission becoming effective"** means it becoming effective in accordance with paragraph 3.2.7 of the Listing Rules and the LSE Admission and Disclosure Standards
"Board" or "Directors"	the directors of First Choice from time to time
"Business Day"	any day (excluding a Saturday, Sunday or public holiday) on which banks are generally open for non-automated business in London
"Canada"	Canada, its provinces and territories and all areas subject to its jurisdiction and any political sub-division thereof
"Completion"	the Scheme becoming effective and the completion of the transfer of TUI Tourism to TUI Travel
"Conditions"	the conditions to the Merger set out in the Merger Agreement and summarised in paragraph 5 of Part II of this document
"Court"	Her Majesty's High Court of Justice in England and Wales or the Court of Appeal in England and Wales, as the case may be
"Court Hearings"	the Scheme Court Hearing and the Reduction Court Hearing
"Court Meeting"	the meeting of First Choice Shareholders convened by an order of the Court pursuant to Section 425 of the Act to consider and, if thought fit, approve the Scheme (with or without amendment), including any adjournment thereof, notice of which is attached at the end of this document
"Court Orders" or "Orders"	the Scheme Court Order and the Reduction Court Order
"CREST"	the relevant system (as defined in the Regulations) in respect of which CRESTCo is the Operator (as defined in the Regulations)
"CREST sponsor"	a CREST participant admitted to CREST as a CREST sponsor
"CREST sponsored member"	a CREST member admitted to CREST as a sponsored member (which includes all CREST Personal Members)
"CRESTCo"	CRESTCo Limited
"Daily Official List"	the daily official list of the London Stock Exchange
"Deutsche Bank"	Deutsche Bank AG, London Branch
"Directors" or "Board"	the directors of First Choice or TUI Travel from time to time, as the context requires

"Enlarged Group"	TUI Travel and its subsidiaries and subsidiary undertakings after the Merger becomes effective
"Explanatory Statement"	the explanatory statement relating to the Scheme, as set out in Part II of this document, which together with the documents incorporated therein constitute the explanatory statement relating to the Scheme as required by Section 426 of the Act
"Extraordinary General Meeting" or "EGM"	the extraordinary general meeting of First Choice Shareholders, notice of which is set out at the end of this document, and any adjournment thereof
"First Choice"	First Choice Holidays PLC, a company incorporated in England and Wales with registered number 48967
"First Choice Directors"	the directors of First Choice whose names are set out in paragraph 2.1 of Part V of this document or, where the context so requires, the directors of First Choice from time to time
"First Choice Group"	First Choice, its subsidiaries and its subsidiary undertakings
"First Choice Remuneration Committee"	the remuneration committee of First Choice
"First Choice Share Schemes"	First Choice Holidays Senior Executive Plan, the First Choice Holidays PLC Restricted Share Plan, the First Choice Holidays Deferred Annual Bonus Scheme, the First Choice Holidays Performance Share Plan and the First Choice Holidays Share Incentive Plan
"First Choice Shareholders" or "Shareholders"	holders of First Choice Shares
"First Choice Shares"	ordinary shares of nominal value 3 pence each in the capital of First Choice
"Form(s) of Proxy"	either or both, as the context requires, of the blue form of proxy for use at the Court Meeting and the white form of proxy for use at the Extraordinary General Meeting which accompany this document, as the context requires
"FSA"	the Financial Services Authority
"FSMA"	the Financial Services and Markets Act 2000, as amended
"Group Company"	any company forming part of the Enlarged Group
"holder"	a registered holder of shares and includes any person(s) entitled by transmission
"Independent Competing Offer"	an offer or scheme of arrangement or a recapitalisation or other transaction involving the possible change of control of First Choice or TUI AG or TUI Tourism which, if accepted in full would result in the offeror holding shares carrying over 50 per cent. of the voting rights of First Choice or TUI AG or TUI Tourism, as the case may be, and which is made by or with a party which is not acting in concert (as such term is defined in the Takeover Code) with First Choice or TUI AG
"Lazard"	Lazard & Co., Limited

"Listing Rules"	the listing rules issued by the UK Listing Authority pursuant to Part VI of the Financial Services and Markets Act 2000
"London Stock Exchange"	London Stock Exchange plc
"LSE Admission and Disclosure Standards"	the rules issued by the London Stock Exchange in relation to the admission to trading of, and continuing requirements for, securities admitted to the Official List
"Meetings"	the Court Meeting and the Extraordinary General Meeting, or either of them as the context may require
"Merger"	the merger of First Choice and TUI Tourism in accordance with the terms of the Merger Agreement
"Merger Agreement"	the agreement dated 19 March 2007 between First Choice, TUI AG and TUI Travel relating to the Merger
"Morgan Stanley"	Morgan Stanley & Co. Limited
"Official List"	the official list maintained by the UK Listing Authority pursuant to Part VI of the Financial Services and Markets Act 2000
"Overseas Shareholders"	holders of shares resident in, or citizens or nationals of, jurisdictions outside the UK
"Prospectus Rules"	the prospectus rules issued by the UK Listing Authority pursuant to Part VI of the Financial Services and Markets Act 2000
"Reduction Court Hearing"	hearing of the Court to confirm the reduction of capital associated with the Scheme
"Reduction Court Order"	the Order of the Court confirming the reduction of capital associated with the Scheme
"Registrar of Companies"	the Registrar of Companies in England and Wales
"Regulations"	the Uncertificated Securities Regulations 2001 (S.I. No. 2001/3755)
"Relationship Agreement"	the relationship agreement to be entered into at Completion between TUI AG and TUI Travel
"Resolutions"	the Special Resolution and the Whitewash Resolution
"Restricted Jurisdiction"	any jurisdiction where TUI Travel Shares cannot be made available without breaching any applicable law
"Scheme Court Hearing"	hearing of the Court to consider the petition for the sanction of the Scheme
"Scheme Court Order"	the Order of the Court sanctioning the Scheme
"Scheme Effective Date"	the date on which the Scheme becomes effective, which is expected to be on 3 September 2007 and **"Scheme Effective Time"** means the time on such date at which the Scheme becomes effective in accordance with its terms
"Scheme Record Time"	6.00 p.m. (London time) on the Business Day immediately before the Scheme Effective Date
"Scheme Shares"	the First Choice Shares: (i) in issue at the date of this document;

	(ii) (if any) issued after the date of this document and prior to the Voting Record Time; and (iii) (if any) issued on or after the Voting Record Time and before 6.00 p.m. on the Business Day immediately preceding the date of the Reduction Court Order on terms that the holder thereof shall be bound by the Scheme or in respect of which the original or any subsequent holder thereof is or shall have agreed in writing to be bound by the Scheme, excluding, in any case, any First Choice Shares held by TUI Travel at the Scheme Record Time
"Scheme" or "Scheme of Arrangement"	the scheme of arrangement proposed to be made under Section 425 of the Act between First Choice and the holders of the Scheme Shares as set out in Part III of this document, with or subject to any modification, addition or condition approved or imposed by the Court
"Special Resolution"	the special resolution to be proposed at the First Choice EGM
"Takeover Code" or "Code"	the City Code on Takeovers and Mergers
"Takeover Panel"	the Panel on Takeovers and Mergers
"Treasury Shares"	shares held as treasury shares as defined in Section 162A(3) of the Companies Act
"TUI AG"	TUI AG, a company incorporated in Germany whose registered office is at Karl-Wiechert-Allee 4, 30625 Hanover
"TUI AG Directors"	the members of the executive board of TUI AG whose names are set out in paragraph 2.2 of Part V of this document or, where the context so requires, the members of the executive board of TUI AG from time to time
"TUI Tourism"	the travel and tourism division of TUI AG, excluding certain hotel assets which is constituted by the TUI Tourism Group
"TUI Tourism Group"	the companies constituting TUI Tourism which are to be transferred to TUI Travel on Completion in connection with the Merger
"TUI Travel"	TUI Travel PLC, formerly named Coppereagle Public Limited Company
"TUI Travel Board"	the board of directors of directors of TUI Travel
"TUI Travel Directors"	the director of TUI Travel whose names are set out in paragraph 2.3 of Part V of this document or, where the context so requires, the directors of TUI Travel from time to time
"TUI Travel Redeemable Shares"	the redeemable preference shares of £1 each in the share capital of TUI Travel
"TUI Travel Shares"	the ordinary shares of 10 pence each in the share capital of TUI Travel and, for the avoidance of doubt, excluding the TUI Travel Redeemable Shares

"UK Listing Authority" or **"UKLA"** . . .	the Financial Services Authority as the competent authority under Part VI of the Financial Services and Markets Act 2000
"UK" or **"United Kingdom"**	the United Kingdom of Great Britain and Northern Ireland
"uncertificated" or **"in uncertificated form"**	in relation to a share or other security, a share or other security which is recorded on the relevant register of the share or security concerned as being held in uncertificated form in CREST and title to which, by virtue of the Regulations, may be transferred by means of CREST
"United States" or **"US"**	the United States of America, its territories and possessions, any state of the United States of America, the District of Columbia, and all other areas subject to its jurisdiction
"US Securities Act"	the United States Securities Act 1933, as amended
"Voting Record Time"	6.00 p.m. (London Time) on the day prior to the day immediately before the Court Meeting or any adjournment thereof (as the case may be)
"Whitewash Resolution"	the ordinary resolution 2 to be proposed at the First Choice EGM in respect of the waiver by the Takeover Panel of the obligation that would otherwise arise on TUI AG to make a general offer to the shareholders of First Choice (all of whom, as a result of the Scheme will become shareholders of TUI Travel) pursuant to Rule 9 of the Takeover Code for TUI Travel

Notice of Court Meeting

IN THE HIGH COURT OF JUSTICE
CHANCERY DIVISION
COMPANIES COURT

No. 4493 of 2007

IN THE MATTER OF FIRST CHOICE HOLIDAYS PLC

and

IN THE MATTER OF THE COMPANIES ACT 1985

NOTICE IS HEREBY GIVEN that, by an order dated 28 June 2007 made in the above matters, the Court has directed a meeting of the holders of Scheme Shares (as defined in the scheme of arrangement referred to below) (the "**Court Meeting**") to be convened for the purpose of considering and, if thought fit, approving (with or without modification) a scheme of arrangement pursuant to Section 425 of the Companies Act 1985 dated 29 June 2007 (the "**Scheme of Arrangement**") proposed to be made between First Choice Holidays PLC (the "**Company**") and the holders of Scheme Shares (as defined in the Scheme of Arrangement) and that such meeting will be held at Exchange House, Primrose Street, London EC2A 2HS on 25 July 2007 at 10.00 a.m., at which place and time all holders of First Choice Shares are requested to attend.

A copy of the Scheme of Arrangement and a copy of the explanatory statement required to be furnished pursuant to Section 426 of the Companies Act 1985 in relation to the Scheme of Arrangement are incorporated in the document of which this notice forms part.

Holders of Scheme Shares entitled to attend and vote at the Court Meeting may vote in person at the Court Meeting or they may appoint another person as their proxy to attend and vote in their place. A proxy need not be a member of the Company. A BLUE Form of Proxy for use at the Court Meeting is enclosed with this notice. Alternatively, if the Scheme Shares are held in uncertificated form (i.e. in CREST), voting may be effected using the CREST Proxy Voting Service so as to be received by Lloyds TSB Registrars (under CREST participant ID 7RA01) in accordance with the procedures set out in the CREST Manual.

Completion of the BLUE Form of Proxy and voting through CREST will not preclude a holder of Scheme Shares who wishes to do so from attending and voting in person at the Court Meeting or any adjournment thereof.

In the case of joint holders of Scheme Shares, any one such joint holder may tender a vote (in person or by proxy) at the Court Meeting, but if more than one joint holder shall tender a vote (in person or by proxy) the vote of the senior who tenders a vote will be accepted to the exclusion of the votes of the other joint holder(s) and for this purpose seniority will be determined by the order in which the names appear in the register of members of First Choice in respect of the relevant joint holding.

It is requested that BLUE Forms of Proxy be lodged with Lloyds TSB Registrars, The Causeway, Worthing, West Sussex BN99 6LE, not less than 48 hours before the time appointed for the Court Meeting (or any adjournment thereof) but, if forms are not so lodged, they may be handed to Lloyds TSB Registrars on behalf of the chairman of the Court Meeting (or to the chairman himself) at the start of the meeting.

Proxies submitted using the CREST Proxy Voting Service must be transmitted so as to be received by Lloyds TSB Registrars, (under CREST participant ID 7RA01) not later than 10.00 a.m. on 23 July 2007 in the case of the Court Meeting or by 10.15 a.m. on 23 July 2007 in the case of the EGM.

The Court has specified that only those shareholders registered in the register of members of First Choice as at 6.00 p.m. on the day prior to the day immediately before the Court Meeting or or any adjournment thereof (as the case may be), shall be entitled to attend or vote in respect of the number of shares registered in their name at that specified time. Changes to the entries on the register of members after that specified time will be disregarded in determining the right of any person to attend and vote at the meeting, including the number of votes which may be cast thereat.

By the said order, the Court has appointed Sir Michael Hodgkinson or, failing him, Tony Campbell or, failing him, Peter Long, to act as chairman of the Court Meeting and has directed the chairman to report the result of the Court Meeting to the Court.

The Scheme of Arrangement will be subject to the subsequent sanction of the Court.

Dated 29 June 2007

Herbert Smith LLP
Exchange House
Primrose Street
London EC2A 2HS
Solicitors for the Company

Notice of Extraordinary General Meeting

First Choice Holidays PLC

(Registered in England and Wales No. 48967)

(the "Company")

NOTICE IS HEREBY GIVEN that an Extraordinary General Meeting of the Company will be held on 25 July 2007 at Exchange House, Primrose Street, London EC2A 2HS at 10.15 a.m. (or, if later, as soon thereafter as the meeting of the holders of ordinary shares in First Choice convened by the direction of the High Court of Justice in England and Wales (the "**Court**") for 10.00 a.m. on the same day and at the same place shall have concluded or been adjourned) to consider and, if thought fit, pass the following resolutions, where item 1 which will be proposed as a special resolution and items 2 to 7 (both inclusive) will be proposed as ordinary resolutions:

Special Resolution

(1) THAT:

(A) the Scheme of Arrangement dated 29 June 2007 (the "**Scheme**") proposed to be made between the Company and holders of Scheme Shares (as defined in the Scheme) in its original form in the circular sent to shareholders of the Company dated 29 June 2007 (the "**Circular**") (a print of which has been produced to the meeting and signed by the chairman of the meeting for the purpose of identification), or with or subject to any modification, addition or condition (including, without limitation, any modification or addition which represents an improvement in the value and/or terms of the Merger to holders of Scheme Shares) approved or imposed by the Court, be and is hereby approved, and the directors of the Company be and are hereby authorised to take all such action on behalf of the Company as they consider necessary or desirable for carrying into effect the Scheme;

(B) for the purpose of giving effect to the Scheme in its original form, or with or subject to any modification, addition or condition approved or imposed by the Court:

(i) the share capital of the Company be reduced by cancelling and extinguishing all the Scheme Shares (as defined in the Scheme);

(ii) forthwith and contingent upon such reduction of capital taking effect:

(a) the share capital of the Company be increased to its former amount by the creation of such number of new ordinary shares of 3 pence each ("**New Shares**") as shall be equal to the aggregate number of Scheme Shares so cancelled; and

(b) the reserve arising in the books of account of the Company as a result of the cancellation of the Scheme Shares be applied in paying up in full at par the New Shares created pursuant to paragraph 1(B)(ii)(a) above, which shall be allotted and issued, credited as fully paid, to TUI Travel PLC and/or any nominee(s) of it; and

(iii) conditionally upon the Scheme becoming effective, the directors of the Company be and are hereby authorised pursuant to and in accordance with Section 80 of the Companies Act 1985 to give effect to this special resolution and accordingly to effect the allotment of relevant securities (within the meaning of Section 80(2) of the Companies Act 1985) in the form of the New Shares, provided that (i) this authority shall expire on the fifth anniversary of the date on which it is passed (unless previously revoked, varied or renewed); (ii) the maximum aggregate nominal amount of relevant securities which may be allotted hereunder shall be £55,000,000; and (iii) this authority shall be without prejudice to any other authority under the said Section 80 previously granted and in force on the date on which this special resolution is passed; and

(C) forthwith upon the passing of this special resolution, the articles of association of the Company be amended by the adoption and inclusion of the following new article 137:

SCHEME OF ARRANGEMENT

137.(1) In this article, references to the "**Scheme**" are to the scheme of arrangement dated 29 June 2007 under Section 425 of the Act between the Company and the holders of the Scheme Shares (as defined in the Scheme), as it may be modified or amended in accordance with its terms, and expressions defined in the Scheme or (if not so defined in the Scheme) defined in the circular dated 29 June 2007 circulated with the Scheme and containing the explanatory statement required pursuant to Section 426 of the Act, shall have the same meanings where used in this article except as otherwise expressly stated in this article 137.

(2) Notwithstanding any other provision of these articles, if any ordinary shares are issued on or after the Voting Record Time (as defined in the Scheme) other than to TUI Travel PLC or any person identified by written notice to the Company as its nominee(s) but before the Scheme Record Time (as defined in the Scheme), such ordinary shares shall be issued subject to the terms of the Scheme and the original or any subsequent holder or holders of such ordinary shares shall be bound by the Scheme accordingly.

(3) Notwithstanding any other provision of these articles and as a matter separate from the Merger (as defined in the Scheme), if, at any time on or after 6.00 p.m. on the business day immediately preceding the date of the Reduction Court Order (as defined in the Scheme), any ordinary shares ("**Post-merger Shares**"), such Post-merger Shares to be deemed a separate class, are issued or are to be issued to any person (a "**New Member**") other than TUI Travel PLC or any person identified by written notice to the Company by TUI Travel PLC as its nominee(s) and/or designated subsidiary, provided that the Scheme has become effective, such Post-merger Shares shall be transferred immediately after the time at which the Scheme becomes effective ("**Scheme Effective Time**") or, if later, upon the issue of the Post-merger Shares, free of all encumbrances, to TUI Travel PLC (or as TUI Travel PLC may direct by notice in writing to the Company) in consideration for, and conditionally upon, the issue or transfer free from all encumbrances to the New Member (as soon as is practicable after the Scheme Effective Date or, if later, after the issue of the Shares) of one fully paid ordinary share in TUI Travel PLC for each one Post-merger Share transferred to TUI Travel PLC or its nominee (being the number of ordinary shares of TUI Travel PLC which the New Member would have been entitled to receive in aggregate if the Post-merger Shares transferred hereunder had been Scheme Shares and the New Member had been the holder thereof at the Scheme Record Time) being ordinary shares in TUI Travel PLC which rank *pari passu* with all other ordinary shares in TUI Travel PLC for the time being in issue subject to the memorandum and articles of association of TUI Travel PLC, and rank for any dividends or other distributions declared, made or paid thereon after the date of their issue or transfer.

(4) The number of ordinary shares of TUI Travel PLC to be issued or transferred to the New Member under article 137(3) may be adjusted by the directors of TUI Travel PLC on any reorganisation of, or material alteration to, the share capital of the Company or TUI Travel PLC effected after the Scheme Effective Time in such manner as the auditors of the Company shall (in their absolute discretion) determine to reflect such reorganisation or alteration and the determination by the auditors or the Company, in the absence of manifest error, shall be final and binding on all concerned.

(5) To give effect to any such transfer required by article 137(3), the Company may appoint any person to execute and deliver a form of transfer on behalf of the New Member in favour of TUI Travel PLC (as directed by TUI Travel PLC) and to agree for

and on behalf of the New Member to become a member of TUI Travel PLC. Pending the registration of TUI Travel PLC (or its designated subsidiary and/or nominee(s)) as the holder of any share to be transferred pursuant to this article 137, TUI Travel PLC shall be empowered to appoint a person nominated by the directors of TUI Travel PLC to act as attorney on behalf of the holder of such share in accordance with such directions as TUI Travel PLC may give in relation to any dealings with or disposal of such share (or any interest therein), exercising any rights attached thereto or receiving any distribution or other benefit accruing or payable in respect thereof and the registered holder of such share shall exercise all rights attaching thereto in accordance with the directions of TUI Travel PLC but not otherwise.

(6) The issue and allotment of any ordinary shares of TUI Travel PLC in respect of any shares transferred pursuant to this article 137 shall be made within seven days of the date of transfer of such shares. The ordinary shares of TUI Travel PLC to be issued and allotted pursuant to this 137 shall be issued in certificated or uncertificated form as TUI Travel PLC may determine in its absolute discretion. In the case of TUI Travel PLC ordinary shares issued in certificated form TUI Travel PLC shall, not less than 28 days after the date of transfer of the Post-merger Shares in respect of which the TUI Travel Shares are issued, send without charge to such New Member or his nominee a certificate for the ordinary shares in TUI Travel PLC so issued by ordinary post at the risk of the New Member concerned.

(7) If the Scheme shall not have become effective by 31 October 2007 (or such later date (if any) as First Choice and TUI AG may agree) and the Court may approve, this article 137 shall be of no effect.

Ordinary Resolutions

(2) THAT:

The waiver by the Takeover Panel described in the Circular of the obligation that would otherwise arise on TUI AG to make a general offer to the shareholders of the Company (all of whom as a result of the Scheme will become shareholders of TUI Travel PLC) pursuant to Rule 9 of the City Code on Takeovers and Mergers in connection with the remaining shares in TUI Travel PLC be and is hereby approved.

(3) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Performance Share Plan, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

(4) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Deferred Annual Bonus Scheme, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

(5) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Sharesave Scheme, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

(6) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Share Incentive Plan, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

(7) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Value Creation Synergy Plan, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

BY ORDER OF THE BOARD
Andrew John
Company Secretary
29 June 2007

Registered office at First Choice House
London Road
Crawley
West Sussex RH10 9GX
Registered in England and Wales No. 48967

1. A member entitled to attend and vote at the Extraordinary General Meeting may appoint one or more persons to attend and on a poll, to vote instead of him or her. Lodgement of a Form of Proxy will not prevent a member from attending and voting at the meeting.
2. A proxy need not be a member of the Company.
3. A WHITE Form of Proxy is enclosed. To be valid, the WHITE Form of Proxy, together with the authority (if any) under which it is executed or a notarially certified copy of such authority, must be returned to the Lloyds TSB Registrars, The Causeway, Worthing BN99 6LN, by no later than 48 hours before the time of the meeting or (as the case may be) the adjourned meeting. Alternatively, if you hold your shares in uncertificated form (i.e. in CREST), you may vote using the CREST system (see notes on CREST voting below).
4. Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001 (SI 2001/3755), the Company has specified that only those shareholders registered on the register of members of the Company as at 6.00 p.m. on 23 July 2007 or, if the Extraordinary General Meeting is adjourned, on the register of members not less than 48 hours before the time of any adjourned meeting, shall be entitled to attend and vote at the meeting in respect of the number of ordinary shares in the Company registered in their names at that relevant time. Changes to entries on the register of members after 6.00 p.m. on 23 July 2007 or, if the Extraordinary General Meeting is adjourned, on the register of members not more than 48 hours before the time of any adjourned meeting, will be disregarded in determining the rights of any person to attend and vote at the meeting (including the number of votes which may be cast thereat).
5. Copies of the Company's existing articles of association and copies of the articles of association as proposed to be amended by paragraph (C) of the Special Resolution set out in the notice of the meeting are available for inspection at the offices of Herbert Smith LLP, Exchange House, Primrose Street, London EC2A 2HS during normal business hours on a weekday (Saturdays, Sundays and public holidays excepted) until the close of the Extraordinary General Meeting and will also be available for inspection at the place of the Extraordinary General Meeting for at least 15 minutes prior to, and during, the Extraordinary General Meeting.

Notes on CREST Proxy voting

6. If you submit your proxy electronically through CREST, to be valid the appropriate CREST message (regardless of whether it relates to the appointment of a proxy or to an amendment to the instruction given to a previously appointed proxy) must be transmitted so as to be received by Lloyds TSB Registrars, (under CREST participant ID 7RA01), by no later than 48 hours before the time of the meeting or (as the case may be) the adjourned meeting. The time of receipt will be taken to be the time from which Lloyds TSB Registrars is able to retrieve the message by enquiry to CREST.
7. CREST Personal Members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.
8. CREST members and, where applicable, their CREST sponsors or voting service providers should note that CRESTCo does not make available special procedures in CREST for any particular

messages and the normal system timings and limitations apply to the input of CREST Proxy Instructions.

9. The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001 (SI 2001/3755).

Merrill Corporation Ltd, London
07ZBV47701

2. The Notice convening the Court Meeting is contained in the Scheme Document dated 29 June 2007 (the "Scheme Document"). Capitalised terms used but not defined in this Form of Proxy have the meanings given to them in the Scheme Document.
3. If you wish to appoint as your proxy someone other than the Chairman of the Court Meeting, cross out the words "the Chairman of the Court Meeting OR" and add the name of your proxy in the relevant place (in BLOCK CAPITALS). A proxy need not be a shareholder but must attend the Court Meeting in person to represent you. The appointment of a proxy will not preclude you from attending the Court Meeting and voting in person.
4. In the case of joint holders, the vote of the senior shareholder who tenders a vote, whether in person or by proxy, will be accepted to the exclusion of the votes of the other joint holder(s). For this purpose, seniority is determined by the order in which the names stand in the register of members of the Company in respect of the relevant joint holding.
5. Where the person appointing the proxy is a company, this Form of Proxy must be executed either under its common seal or signed on its behalf by a director or other person authorised to sign. Where a director signs this Form of Proxy, the signatory should state his or her office on the Form of Proxy.
6. Your proxy will vote 'FOR' or 'AGAINST' the Scheme of Arrangement as you indicate herein. For any other business which may properly come before the Court Meeting (including, without limitation, any adjournment thereof or procedural motion) your proxy will vote or abstain at their discretion.
7. It is requested that this Form of Proxy, together with any power of attorney (if any) under which it is signed, or a duly certified copy of such power of attorney, be lodged with the Company's registrar, Lloyds TSB Registrars, The Causeway, Worthing, West Sussex, BN99 6LE as soon as possible and in any event by 10:00 am on Monday 23 July 2007, or, if the Court Meeting is adjourned not less than 48 hours before the time fixed for any further adjourned Court Meeting. However, if this Form of Proxy is not so lodged, it may be handed to the Chairman of the Court Meeting or to representatives of the Lloyds TSB Registrars at the Court Meeting before the start of that meeting. Forms of Proxy returned by fax will not be accepted.
8. Entitlement to attend and vote at the Court Meeting (or any adjournment thereof), and the number of votes which may be cast thereat, will be determined by reference to the register of members of the Company at 6:00 pm on Monday 23 July 2007 or, if the Court Meeting is adjourned, 6:00 pm on the day two days immediately preceding the date fixed for such further adjourned Court Meeting. Changes to entries on the register of members after that time shall be disregarded in determining the rights of any person to attend and vote at the Court Meeting.
9. CREST members may appoint a proxy or proxies through the CREST electronic proxy appointment service by following the procedures described in the CREST manual.
10. An electronic proxy appointment will not be valid if sent to any address other than those provided or if received after 10:00 am on Monday 23 July 2007. Any electronic communication found to contain a computer virus will not be accepted.
11. If you do not wish this Form of Proxy to be seen by anyone or if you are sending this Form of Proxy from outside the UK, you should post it in an envelope to the address shown on the back of the card. No stamp is needed if you are returning the Form of Proxy from within the UK. Shareholders returning this Form of Proxy by post from outside the UK should affix a stamp.

Detach along dotted line and submit at Court Meeting entry to facilitate admission

Herbert Smith LLP, Exchange House, Primrose Street, London EC2A 2HS

CHECKED

If you come to the meeting please bring this card with you and present it on arrival. It is evidence of your right to attend and vote at the Court Meeting and will help you gain admission.

First Choice Holidays PLC

Form of Proxy for holders of Ordinary Shares in the Company

RECEIVED

2007 DEC 17 P 12:25

In the High Court of Justice
No. 4493 of 2007 Chancery Division,
Companies Court
In the matter of
First Choice Holidays PLC
And in the matter of
the Companies Act 1985

REFERENCE NUMBER | CARD ID | ACCOUNT NUMBER

You can vote electronically at www.sharevote.co.uk using the above numbers

As a shareholder, you have the right to attend, speak and vote at the Court Meeting. If you are unable or do not wish to attend you may appoint another person to attend and vote for you by completing this Form of Proxy and returning it to the address overleaf in accordance with the instructions below and notes accompanying this Form of Proxy.

You may, if you wish, appoint someone other than the Chairman as your proxy, in which case you should delete the words 'the Chairman of the Court Meeting OR' and insert the name of the person appointed proxy.

I/We, hereby appoint the Chairman of the Court Meeting OR the following person:

(Please leave the box blank if you wish to appoint the Chairman of the Court Meeting as your proxy. Do not insert your own names(s).)

as my/our proxy to attend and vote on my/our behalf at the Court Meeting of First Choice Holidays PLC (the "Company") to be held at 10:00 am on Wednesday 25 July 2007 (or any adjournment thereof), for the purposes of considering and, if thought fit, approving (with or without modification as my/our proxy may approve) the Scheme of Arrangement referred to in the Notice dated 29 June 2007 convening the Court Meeting included at the back of the Scheme Document distributed with this Form of Proxy.

At the Court Meeting (or any adjournment of thereof) the proxy is to vote on my/our behalf for the Scheme of Arrangement (with or without modification as my/our proxy may approve) or against the Scheme of Arrangement as indicated below.

IMPORTANT: If you wish to vote for the Scheme of Arrangement, sign your name in the box marked 'FOR the Scheme'. If you wish to vote against the Scheme of Arrangement, sign your name in the box marked 'AGAINST the Scheme'. Unless otherwise instructed, the proxy may vote as he or she sees fit on any other business (including, without limitation, any adjournment or procedural motion) which may properly come before the Court Meeting (or any adjournment thereof).

It is important that, for the Court Meeting in particular, as many votes as possible are cast so that the Court may be satisfied that there is a fair and reasonable representation of shareholder opinion. You are therefore strongly encouraged to complete, sign and return this Form of Proxy as soon as possible.

Date	**FOR the Scheme** Signature:	**AGAINST the Scheme** Signature:
2007		

In the case of joint holders the signature of any one holder is sufficient.

If you come to the meeting please bring this card with you and present it on arrival. It is evidence of your right to attend and vote at the Extraordinary General Meeting and will help you gain admission.

Detach along dotted line and submit at EGM entry to facilitate admission

2. The Notice convening the EGM was contained in the Scheme Document dated 29 June 2007 (the "Scheme Document"). Capitalised terms used but not defined in this Form of Proxy have the meanings given to them in the Scheme Document.
3. If you wish to appoint as your proxy someone other than the Chairman of the EGM, cross out the words 'the Chairman of the EGM OR' and add the name of your proxy in the relevant place (in BLOCK CAPITALS). A proxy need not be a shareholder but must attend the EGM in person to represent you. The appointment of a proxy will not preclude you from attending the EGM and voting in person.
4. In the case of joint holders, the vote of the senior shareholder who tenders a vote, whether in person or by proxy, will be accepted to the exclusion of the votes of the other joint holder(s). For this purpose, seniority is determined by the order in which the names stand in the register of member of the Company in respect of the relevant joint holding.
5. Where the person appointing the proxy is a company, this Form of Proxy must be executed either under its common seal or signed on its behalf by a director or other person authorised to sign. Where a director signs this Form of Proxy, the signatory should state his or her office on the Form of Proxy.
6. Your proxy will vote as you indicate herein. For any other business, which may properly come before the adjourned EGM (including, without limitation, any amendments to the special resolution or the ordinary resolutions and any adjournment or procedural motion) your proxy will vote or abstain from voting at their discretion.
7. To be valid, completed Forms of Proxy must be returned so as to arrive at the offices of the Company's registrar, Lloyds TSB Registrars, The Causeway, Worthing, West Sussex, BN99 6LN as soon as possible and in any event not later than 10:15 am on Monday 23 July 2007 or, if the EGM is adjourned, not less than 48 hours before the time fixed for any further adjourned EGM. If it is signed on behalf of the appointer by an attorney, the letter of power of attorney authorising the attorney to sign on behalf of the appointer or a duly certified copy thereof must (failing previous registration with the Company and/or Lloyds TSB Registrars) be lodged a the same time. Forms of Proxy returned by fax will not be accepted.
8. Entitlement to attend and vote at the adjourned EGM (or any further adjournment thereof), and the number of votes which may be cast thereat, will be determined by reference to the register of members of the Company at 6:00 pm on Monday 23 July 2007 or, if the EGM is adjourned, 6:00 pm on the day two days immediately preceding the date fixed for such adjourned EGM. Changes to entries on the register of members after that time shall be disregarded in determining the rights of any person to attend and vote at the EGM.
9. CREST members may appoint a proxy or proxies through the CREST electronic proxy appointment service following the procedures described in the CREST manual. The notes to the Notice of EGM provide further information.
10. An electronic proxy appointment will not be valid if sent to any address other than those provided or if received after 10:15 am on Monday 23 July 2007. Any electronic communication found to contain a computer virus will not be accepted.
11. If you do not wish this Form of Proxy to be seen by anyone or if you are sending this Form of Proxy from outside the UK you should post it in an envelope to the address shown on the back of the card. No stamp is needed if you are returning this Form of Proxy from within the UK. Shareholders returning this Form of Proxy by post from outside the UK should affix a stamp.

First Choice Holidays PLC

Form of Proxy for holders of Ordinary Shares in the Company

REFERENCE NUMBER CARD ID ACCOUNT NUMBER

You can vote electronically at www.sharevote.co.uk using the above numbers

As a shareholder, you have the right to attend, speak and vote at the Extraordinary General Meeting ("EGM"). If you are unable or do not wish to attend you may appoint another person to attend and vote for you by completing this Form of Proxy and returning it to the address overleaf in accordance with the instructions below and notes accompanying this Form of Proxy.

You may, if you wish, appoint someone other than the Chairman as your proxy, in which case you should delete the words 'the Chairman of the EGM OR' and insert the name of the person appointed proxy.

I/We, hereby appoint the Chairman of the EGM OR the following person:

(Please leave the box blank if you wish to appoint the Chairman of the EGM as your proxy. Do not insert your own name(s).)

as my/our proxy to attend and vote on a poll on my/our behalf at the EGM of First Choice Holidays PLC (the "Company") to be held at 10:15 am on Wednesday 25 July 2007 (or as soon thereafter as the preceding Court Meeting has concluded or been adjourned) and at any adjournment of the EGM. I/we would like my/our proxy to vote on my/our behalf on the special resolution and the ordinary resolutions referred to in the notice dated 29 June 2007 convening the EGM.

Please indicate your vote for the resolutions by inserting 'X' in one of the boxes below in black ink. The full text of the special resolution and the ordinary resolutions is set out in the Notice of EGM included at the back of the Scheme Document dated 29 June 2007 distributed with this Form of Proxy.

	Vote For	Against	Withheld
SPECIAL RESOLUTION			
Resolution 1: To approve the Scheme of Arrangement, to amend the Articles of Association of the Company, to cancel all the Scheme Shares, to reduce the capital of the Company, to increase the authorised issued capital of the Company and to allot new shares.	☐	☐	☐
ORDINARY RESOLUTIONS			
Resolution 2: To approve the waiver by the Takeover Panel of the obligation that would otherwise arise on TUI AG to make a general offer to all the shareholders of the Company pursuant to Rule 9 of the Takeover Code.	☐	☐	☐
Resolution 3: Conditional upon resolutions 1 and 2, to approve the TUI Travel Performance Share Plan.	☐	☐	☐
Resolution 4: Conditional upon resolutions 1 and 2, to approve the TUI Travel Deferred Annual Bonus Scheme.	☐	☐	☐
Resolution 5: Conditional upon resolutions 1 and 2, to approve the TUI Travel Sharesave Scheme.	☐	☐	☐
Resolution 6: Conditional upon resolutions 1 and 2, to approve the TUI Travel Share Incentive Plan.	☐	☐	☐
Resolution 7: Conditional upon resolutions 1 and 2, to approve the TUI Travel Value Creation Synergy Plan.	☐	☐	☐

If you fail to select any of the given options, the proxy may vote (or abstain from voting) as he or she thinks fit on the special resolution and the ordinary resolutions. The proxy may also vote (or abstain from voting) as he thinks fit on any other business (including, without limitation, any adjournment or procedural motion) which may properly come before the EGM (or any adjournment thereof).

The 'VOTE WITHHELD' option is to enable you to abstain on any of the specified resolutions. Please note that a 'VOTE WITHHELD' has no legal effect and will not be counted in the votes 'FOR' and 'AGAINST' a resolution.

FIRST CHOICE HOLIDAYS PLC

INTERIM RESULTS FOR THE SIX MONTHS ENDED 30 APRIL 2007

Highlights

- Underlying operating loss before interest and tax improved by 1% to £66.5m (2006: £67.0m)
- Underlying loss before tax of £82.5m (2006: £76.5m) due to higher financing cost resulting from increased spend on acquisitions
- Interim dividend up by 11% to 2.50p per ordinary share (2006: 2.25p)
- Improvement in underlying gross and operating margin
- Seven strategic acquisitions in niche specialist segments made in the first half for a maximum consideration of £145.8m (2006: £94.9m)
- Continued investment in long-haul programme and Holiday Villages; Dominican Republic opened in Winter 2006, Egypt opening in Summer 2007, Mexico and Cyprus openings planned for Summer 2008
- Specialist sectors underlying operating profit improved to £5.1m (2006: £0.2m)
- Agreement with TUI AG to create TUI Travel PLC by merging First Choice Holidays with the TUI tourism business (excluding certain hotel assets)

Current trading

- For Summer 2007 Mainstream Holidays Sector revenues are up 3%, with long-haul revenues and bookings up 26% and 21% respectively
- Specialist Holidays Sector revenues and bookings are ahead of last year by 18% and 16% respectively
- Activity Holidays Sector revenues are up 5% on a like for like basis
- Online Destination Services bednight bookings are 32% up on prior year
- Laterooms.com bednights and revenues are up 73% and 78% respectively

[1] *The Group believes that underlying operating loss, underlying loss before tax and underlying loss per share provide additional guidance to statutory measures on the underlying performance of the business during the financial period. Underlying loss before tax and underlying operating loss exclude separately disclosed items, amortisation of business combination intangibles, impairment of goodwill and taxation of losses of the Group's joint venture and associate.*

Commenting on the results, Peter Long, Chief Executive said:

"I am pleased with the first half trading performance in what has been a challenging market, particularly in the UK and of course an exceptionally busy period for the company. The recent acquisitions are performing very well and the pipeline remains strong."

"It gives me great confidence for the future that we have such strength in depth within our management team that we have been able to pursue a large corporate transaction with TUI, complete the competition process whilst still delivering a good trading performance and integrating a number of acquisitions. Over the next few months this capability will be vital as we focus on delivering the results through the key summer period and completing the merger."

Overview

The first half performance of the Group has been in line with our expectations and we are pleased to report a satisfactory overall result despite challenging trading conditions in some markets. We have continued to actively manage capacity and differentiate our Mainstream business through greater emphasis on exclusive product and medium and long-haul destinations, whilst building a portfolio of niche leisure travel businesses that operate in high growth segments. This strategy provides us with flexibility and the ability to diversify risk across the Group and drive margin growth.

During the period, we were pleased to announce the proposed creation of one of the world's leading travel groups, TUI Travel PLC through the recommended merger of First Choice and the tourism division of TUI AG (excluding certain hotel assets). The strong strategic fit of the businesses, combined with a leading management team provides the opportunity to create one of the world's most profitable travel groups. The merger will enable us to deliver sustainable revenue and long-term earnings growth while deriving cost advantage from leveraging both synergy opportunities and economies of scale to enhance margins.

Financial results

The Group achieved underlying loss before tax of £82.5m (2006: £76.5m), with underlying operating loss reduced by 1% to £66.5m (2006: £67.0m), on revenue growth of 6% to £1,018m (2006: £961m). The 8% increase in underlying loss before tax to £82.5m was primarily as a result of higher net financing expenses (up £6.5m to £16.0m) due to interest on acquisitions in the first half (£3.0m of the increase), the full period impact on interest expense of FY06 acquisitions (£2.5m of the increase) and higher borrowing costs as a result of the recent rises in UK interest rates (£1.0m of the increase). Consequently, underlying loss per share increased to 11.4 pence (2006: 10.5 pence). The Board has declared an interim dividend of 2.50p (2006: 2.25p) per ordinary share. This represents an increase of 11% compared to the same period in the prior year.

The Group's results, on both a statutory and underlying basis, are set out in the table below.

Six months ended 30 April	2007	2006
Revenue	£1,018m	£961m
Underlying operating loss	(£66.5m)	(£67.0m)
Underlying loss before tax	(£82.5m)	(£76.5m)
Statutory operating loss	(£86.3m)	(£68.7m)
Statutory loss before tax	(£102.8m)	(£78.2m)
Underlying basic loss per share	(11.4p)	(10.5p)
Statutory basic loss per share	(14.2p)	(11.0p)

A reconciliation of underlying loss before tax to statutory loss before tax is as follows:

	2007 £m	2006 £m
Underlying loss before tax	(82.5)	(76.5)
Separately disclosed items	(12.9)	-
Loss on disposal of investment in associate	(0.5)	-
Amortisation of business combination intangibles	(7.9)	(2.5)
Taxation on profits of joint venture and associate	1.0	0.8
Statutory loss before tax	(102.8)	(78.2)

As previously announced, due to the UK Government raising Air Passenger Duty (APD) in December 2006, we have been unable to recover the one-off cost of the retrospective tax for bookings made pre 6 December 2006. In addition, we have incurred some further costs in closing underperforming business units in the first half in Germany and Belgium and downsizing and restructuring particularly through outsourcing back office operations in the Mainstream Holidays Sector. We also incurred advisor fees and other related costs in connection with the potential sale of the Mainstream Sector which was terminated on 12 February 2007. Accordingly, the Group has incurred separately disclosed items of £12.9m (2006: £nil).

Online distribution[3]	34%	31%	+3ppts

[1]Passenger numbers include inclusive tour and flight-only sales for the UK, Ireland and Ski, whereas the trading updates simply focus on inclusive tour and flight-only sales for the UK.

[2]Other revenues include distribution, airline, accommodation only, cancellation and sundry revenue.

[3]Controlled and online distribution is expressed as a total % of customer bookings.

In what continues to be a particularly challenging UK market, the Mainstream Holidays Sector has performed in line with our expectations. The Sector's revenue for the six months ended 30 April 2007 was £367.7m (2006: £352.5m), with an underlying operating loss of £60.9m (2006: £54.8m). The increase in the underlying loss is attributable to a number of factors, including the impact of the increase in APD resulting in a £2.5m impact to margin. As previously announced, we have not been able to fully recover the rise in fuel prices from our customers, resulting in a £2.0m impact to profitability, while the continuing investment in the long-haul programme has cost £3.0m in the first half. We now have our full complement of six long-haul B767s, with five operating and one providing dedicated standby cover, all of which will be in operation until we start to take delivery of our first B787s in 2009.

Winter capacity was flat year-on-year with a 7% reduction in short-haul, 8% in medium-haul and a 30% increase in long-haul. The demand for our long-haul offering is very encouraging and it now accounts for 25% of our Winter programme (2006: 19%).

We continue to increase our control of distribution and in the Winter period 62% (2006:57%) of First Choice product was sold through our own channels, while for Summer 2007 it is 71% (2006: 66%). The investment in exclusive differentiated product continues. In the Winter we operated five Holiday Villages, including our first long-haul Holiday Village in the Dominican Republic. Our newest Holiday Village, in Egypt, has opened for this Summer and two more Holiday Villages, Mexico and Cyprus, will open next Summer.

Specialist Holidays

This Sector operates a business model characterised by destination specialisation and expertise, flexible accommodation and flying arrangements with niche brands in each source market. The Sector delivered an underlying operating profit of £10.9m (2006: £9.4m) on revenues of £400.6m (2006: £428.3m), representing a margin improvement of 50 basis points. The performance was driven primarily by a strong UK performance, managing capacity in a challenging Canadian market and in the key European source markets.

European Specialist Businesses

The UK Specialist businesses enjoyed an excellent Winter with underlying operating profits increasing by £1.0m year-on-year. The restructuring of the Division and the investment in a dynamic new selling system is now yielding benefits with controlled distribution increasing from 57% of total bookings to 69% across the Division. In the Continental European Specialist businesses the rate of sale continued to improve throughout the season with the businesses managing capacity carefully throughout the period. Egypt has continued to recover from terrorist incidents which affected trading during the Winter 2006 season, while capacity to Morocco increased by 33% following the launch of a further Marmara club in the destination, which proved extremely popular with our customers.

As previously announced, we have decided to scale back, or close, certain smaller businesses in Continental Europe which had sales in the year ending 31 October 2006 of £36.3m. The £4.5m benefit arising from these actions will be realised in the current financial year.

North American Specialist Businesses

The Canadian market remains highly competitive and this Winter the weather was also unseasonally warm during December and January. Despite the competitive environment, Signature Vacations performed strongly across all the regions of the country, as we were able to successfully manage capacity despite weakened demand during the early part of the season with minimal impact on profitability.

The First Choice Student Travel businesses based in the USA and Canada performed in line with our expectations. The recent acquisitions in educational student travel have integrated well into the division and are performing as anticipated.

	Winter 06/07	Winter 05/06	Change%
Passengers ('000)[1]			
Europe	360	334	+8%

Europe	(4.8)	(7.1)	32%
North America	15.7	16.5	-5%
Total	**10.9**	**9.4**	**16%**
Underlying operating margin	2.7%	2.2%	+0.5ppts

Note
[1]Passenger and revenue KPI's include FY06 and FY07 acquisitions, and exclude discontinued operations.
[2] Other includes revenue relating to discontinued operations in FY06 and FY07 and the impact of changing foreign exchange rates.

Activity Holidays

The Activity Holidays Sector delivered an underlying operating loss of £6.8m (2006: loss of £7.5m) on revenue growth of 25% to £174.7m (2006: £140.1m). The £0.7m improvement in the underlying operating loss was primarily a result of continued growth in the Adventure division and the contribution from in-year and prior year acquisitions.

Marine

The Sunsail Yachts and Moorings' integration is progressing well and we remain on target to deliver the anticipated cost synergy benefits of £5m this year, which is ahead of our original target.

Sunsail Clubs has reduced capacity following the closure of the Javelin Club in Turkey for re-development, it is planned to re-open the Javelin Club in 2008. This market remains challenging with a number of competitors offering holidays at significantly discounted prices. Our newest club, Phokaia in Turkey is in its second year of operation and demand is very high, up 56% year-on-year, giving us confidence that, despite the competitive environment, a superior club experience is important to our customers.

Occupancy levels within Inland Waterways have risen over the season, while the level of direct sales has increased by four percentage points to 46% (2006: 42%).

Adventure

The Adventure division, which includes First Choice Expedition Cruising, performed in line with our expectations with consumer demand for adventure-style holidays continuing to drive top-line and margin growth, with total revenues up 28% to £105m (2006: £82m) and like-for-like revenues up 19%. During the period, we reviewed our participation in the expedition cruising market and took the strategic decision to focus solely on polar expedition cruising. As a consequence, we acquired Quark Expeditions the world's leading operator of expedition cruise voyages to the polar regions. Quark operate six ships in the polar region and has built up market leading expertise in this activity. This acquisition will allow us to combine the Peregrine ships to create the market-leading operator in the polar expedition cruising market. As a result of this decision, after the period end, we sold the two Clipper ships that we acquired with the INTRAV acquisition for net disposal proceeds of £16m, although we have retained a medium-term charter on the Clipper Adventurer. In our opinion access to this type of capacity is important but ownership of the assets was not the optimum use of capital when capacity was readily available in the marketplace. With our enhanced position in this market we will be able to substantially improve our itineraries in the 2007/08 cruising programme.

The schools business performed well during its key trading period including a strong performance from the Travel Class business we acquired in 2006. The FlexiSki business benefited from restructuring and delivered excellent growth during its key trading period.

Winter 2006/07

Year-on-year variation	Revenue Total	Like-for-like
Marine	+25%	+3%
Adventure [1]	+28%	+19%
Escorted Tours	+9%	n/a
Total	**+25%**	**+15%**

	Winter 06/07	Winter 05/06	Change
Underlying operating loss (£m)	(6.8)	(7.5)	+9.3%
Operating margin	(3.9)%	(5.3)%	1.4ppts

[1] Winter 2006/07 revenue includes First Choice Expedition Cruising, which is not included in the trading updates

Escorted Tours

The Escorted Tours division enjoyed revenue growth of 9% to £21.3m (2006: £19.5m) as the portfolio of cultural and luxury escorted tour operators continued to benefit from strong consumer-led growth for these products.

Online Destination Services

The Online Destination Services Sector has achieved 29% like-for-like growth in underlying operating profit in the first half with like-for-like revenues up 11% and total revenues up 88% to £74.7m (2006: £39.8m). Total underlying operating profit has risen 159% to £1.0m (2006: £1.7m loss) as a result of the continued growth in the Hotelbeds and Bedsonline routes to markets, the recovery in Mexico as a destination which was adversely affected last year by Hurricane Wilma and the acquisition of Laterooms.com.

The integration of last year's acquisitions, Meridian and Pacific World, remains in line with expectations and has resulted in the Sector bed-bank increasing substantially for all the main destinations in China and South East Asia.

Laterooms.com, which we acquired in December 2006, had an excellent first four months in the Group and has so far delivered a financial performance in excess of our expectations. We are delighted with this performance and remain confident that this business will complement our existing online capability.

	Winter 06/07	Winter 05/06	Change

Acquisitions

In the last six months we have completed seven acquisitions in niche segments of the leisure travel market for a maximum consideration of £145.8m. By way of comparison, in the first half ended 30 April 2006, we made nine acquisitions for a maximum consideration of £94.9m. Of the maximum consideration of £145.8m for the six months ended 30 April 2007, £106.8m has been paid during the first half. A further amount up to £39.0m could be paid as deferred and contingent consideration.

Acquisitions H1 2007	Max £m	Paid £m
Acquisitions in the year	**106.8**	**106.8**
Contingent consideration not recognised	8.3	
Deferred and contingent consideration recognised	30.7	
	145.8	106.8

Less contingent consideration not recognised	(8.3)	
Total cost of investment accounted for	**138.7**	**108.0**
Cash acquired with acquisitions		(6.2)
Cash paid relating to prior year acquisitions		4.6
Net cash outflow in the period relating to acquisitions		**106.4**

We have acquired businesses within the online, adventure, premium escorted tours and North American student travel segments of the market:

- In the online market, we acquired laterooms.com, an online hotel price comparator and genuine provider of late availability accommodation. This business operates in a high growth niche market as hoteliers seek to distribute their unsold stock.

- Within North American Student Travel we have acquired two businesses, Young Explorers an educational tours business based in Canada and KSA Events which offers participation by high school students in organised sporting events and tournaments. The acquisition of KSA Events provides us with the platform to enter the group performance segment of the student travel marketplace in the US, which demonstrates similar high-growth characteristics to our existing high school leisure and educational group travel propositions.

- In the Activity Holidays Sector we have acquired four businesses within the Adventure division in the first half. i-to-i, headquartered in the UK, has established itself as a leading provider of Meaningful Travel experiences while iExplore, Inc. is a US premium adventure travel internet portal and WesternXposure is an Australian operator of adventure tours in Western Australia and the Northern Territory. Within expedition cruising, we acquired Quark Expeditions, the world's leading operator of expedition cruise voyages to the Polar Regions, and recently disposed of the two Clipper cruising ships to enable our business to focus exclusively on expedition cruising.

After the period end, we acquired Hannibal Travel Group (trading under the Hannibal and Marco Polo brands) within the Escorted Tours division, which is a leading premium escorted tours operator, serving the Danish market and primarily the 'baby boomer' and 'young professional' demographic.

The acquisition pipeline remains strong and we will continue to target leisure travel companies that have excellent growth characteristics with the ability to generate superior returns for our shareholders.

Cash

Our net debt position of (£373m) represents increased indebtedness of £186m compared to the same point in the prior year (2006: £187m net debt). The net debt position comprises £196m of cash and £569m of debt. Our acquisition strategy accounts for the majority of this increase in debt.

Dividends

The Board has declared an interim dividend of 2.50p (2006: 2.25p) per ordinary share. This represents an increase of 11% compared to the same period in the prior year. This is in line with our stated progressive dividend policy to maintain dividend cover at around two-times. The dividend is payable on 26 September 2007 to shareholders on the register at 24 August 2007.

Corporate activity

On 19 March 2007, we announced a proposed merger with the Tourism Division of TUI AG (excluding certain hotel assets) to create TUI Travel PLC. On 4 June 2007, the European Commission announced that it had conditionally approved the merger, subject to divestment of a business within the Republic of Ireland.

The merger, which will be implemented by way of a Court-approved Scheme of Arrangement, remains subject to a number of conditions, including approval of the TUI Travel PLC prospectus by the UKLA, approval by First Choice shareholders, approval of the Scheme of Arrangement by the UK High Court and the listing of the TUI Travel PLC shares.

The expected timetable of key events is:

29 June 2007- UKLA approval and publication of the TUI Travel PLC prospectus

Early July 2007 - Posting of the First Choice Scheme of Arrangement circular and TUI Travel PLC prospectus to First Choice shareholders

By 1 October 2007 - Delisting of First Choice shares and listing of TUI Travel PLC shares

Within the expected timetable, exact dates for the posting of the First Choice Scheme of Arrangement circular and TUI Travel PLC prospectus to First Choice shareholders, the First Choice shareholder meetings, the Court hearing and for the final merger steps will be decided shortly. Shareholders will be kept fully informed.

Notes:
[1] *These figures reflect trading up to 9 June 2007*
[2] *These statistics reflect UK Inclusive Tour and Flight Only sales*
[3] *These statistics exclude FY06 and FY07 acquisitions*
[4] *Hotelopia is on a booking basis*

In the six weeks since the trading update on 1 May 2007, trading for Summer 2007 has continued to perform in line with our expectations.

In Mainstream Holidays our performance has tracked in line with our expectations in what remains a challenging market, with revenues now cumulatively up +3% on flat volumes. We have cut capacity in the short-haul market, while maintaining capacity levels in the medium-haul segment where we are continuing to experience strong demand for Turkey and Greece. Within long-haul, as a result of the 25% increase in capacity and our differentiated product offering, we are continuing to enjoy strong demand for key destinations such as Mexico, Dominican Republic, Cuba and Costa Rica. Accordingly, long-haul revenues are up 26% on volume growth of 21%. We anticipate that margins will remain under pressure as the impact of the rise in APD and year-on-year increase in fuel costs affects our ability to recover the additional costs incurred.

The Specialist Holidays Sector has had an excellent start to Summer across all its businesses with sales and margins up on last year, as demand for the lifestyle and destination specialism products on offer and the growth in controlled distribution yields benefits across the sector.

Overall, the Activity Holidays Sector is performing well with the Adventure businesses enjoying a strong start to the season with revenues up 7% like-for-like and Marine revenues up +2% on a like-for-like basis. Margins are tracking slightly ahead of last year for the summer programme.

In the Online Destination Services Sector all routes to market continue to grow and are performing well, with margins ahead of last year. The Sector continues to benefit from demand for its significant bedbank across over 900 predominately leisure destinations from independent tour operators and travel agents. The integration of laterooms.com is progressing as planned, as the business enjoys strong demand for late availability bedstock, with sales and volumes up 78% and 73% respectively.

Although early in the selling period, where Winter 2007/08 is on sale, we are performing in line with our expectations.

Notes (unaudited)

1. Basis of preparation

This interim financial information has been prepared applying the accounting policies and presentation that were applied in the preparation of the Company's published consolidated financial statements for the year ended 31 October 2006.

The comparative figures for the financial year ended 31 October 2006 are not the Company's statutory accounts for that financial year. Those accounts have been reported on by the Company's auditors and delivered to the registrar of companies. The report of the auditors was (i) unqualified, (ii) did not include a reference to any matters to which the auditors drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 237(2) or (3) of the Companies Act 1985.

2. Segmental information

The Sector analysis is based on the Group's management and reporting structure.

Comparative segmental information has been restated to reflect the transfer of management of Trips Worldwide, Magic of the Orient, Aventuria and Your Man Tours business from the Activity Holidays Sector to the Specialist Holidays Sector. Comparative information has also been restated to reflect corporate costs separately.

Online Destination Services revenue and cost of sales for the six month period to 30 April 2006 have both been reduced by £56.1m in order to be presented on a consistent basis with the other periods reported.

3. Separately disclosed items

As previously announced, due to the UK government raising Air Passenger Duty (APD) in December 2006, we have been unable to recover the one-off cost of the retrospective tax for bookings made pre 6 December 2006. In addition, we have incurred some further costs in closing under performing business units in the first half in Germany and Belgium and downsizing and restructuring particularly through outsourcing back office operations in the Mainstream Holidays Sector. We also incurred advisor fees and other related costs in connection with the potential sale of the Mainstream Sector which was terminated on 12 February 2007. Accordingly, the Group has incurred separately disclosed items of £12.9m (2006: £nil).

4. Net financing expenses

	6 months 30 April 2007 £m	6 months 30 April 2006 £m	Year 31 October 2006 £m
Interest income	**4.0**	2.0	5.0
Interest on pension scheme assets	**2.3**	1.8	3.9
Financial income	**6.3**	3.8	8.9
Bank interest payable on loans and overdrafts	**(19.2)**	(10.5)	(21.5)
Interest on pension scheme liabilities	**(2.4)**	(2.2)	(4.5)
Finance lease charges	**(0.7)**	(0.6)	(1.1)
Financial expenses	**(22.3)**	(13.3)	(27.1)
Net financing expenses	**(16.0)**	(9.5)	(18.2)

5. Taxation

Income tax for the six month period to 30 April 2007 is calculated using the estimated annual effective tax rate for the full year ending 31 October 2007.

The estimated annual effective tax rate for the year ended 31 October 2007, calculated on profit/loss before tax separately disclosed items and amortisation of business combination intangibles, is 27.5% (2006: full year actual underlying tax rate 27.6%).

6. Dividends

Dividends have been recognised within equity as follows:

	6 months 30 April 2007 £m	6 months 30 April 2006 £m	Year 31 October 2006 £m
Interim ordinary dividend paid for 2006 2.25p (2005: 1.95p)	**11.8**	10.1	10.1
Final ordinary dividend paid for 2006 of 5.40p (2005: 4.65p)	**28.6**	24.4	24.4
	40.4	34.5	34.5

6. Dividends – cont'd

Subsequent to the balance sheet date, the Directors have approved an interim dividend of 2.50p per share (2006: 2.25p) payable on 26 September 2007 to the holders of relevant shares on the register at 24 August 2007. The interim dividend amounts to £13.2m (2006: £11.8m) and will be recognised as a deduction from equity when paid.

A dividend reinvestment plan is available for shareholders. Those shareholders who have not elected to participate in this plan, and who would like to participate with respect to the 2007 interim dividend, may do so by contacting Lloyds TSB Registrars direct on 0870 2413018. The last day for election for the interim dividend is 5 September 2007 and any requests should be made in good time ahead of that date.

7. Loss per ordinary share

The basic loss per ordinary share for the six month period to 30 April 2007 is calculated by dividing the loss attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the period, excluding those held in the employee share ownership trusts.

	Loss 2007 £m	**Weighted average no. of shares 6 months 30 April 2007 millions**	**Loss per share 2007 pence**	Loss 2006 £m	Weighted average no. of shares 6 months 30 April 2006 millions	Loss per share 2006 pence
Basic and diluted loss per ordinary share	**(74.9)**	**527.0**	**(14.2)**	(57.8)	524.2	(11.0)
Amortisation of business combination intangibles (net of tax)	**5.5**	**–**	**1.0**	2.5	–	0.5
Basic and diluted loss per share before amortisation of business combination intangibles	**(69.4)**	**527.0**	**(13.2)**	(55.3)	524.2	(10.5)
Separately disclosed items (net of tax)	**8.9**	**–**	**1.7**	–	–	–
Disposal of investment in associate	**0.5**	**–**	**0.1**	–	–	–
Basic and diluted underlying loss per ordinary share	**(60.0)**	**527.0**	**(11.4)**	(55.3)	524.2	(10.5)

In accordance with IAS 33: Earnings Per Share, the calculation of diluted basic loss per ordinary share and diluted underlying loss per ordinary share has not included anti-dilutive potential ordinary shares. Therefore there is no difference between the calculation of basic and diluted measures in the six month period.

8. Acquisitions

During the six months ended 30 April 2007, the Group has made the following acquisitions:

Sector & entity	Country of operation	Date of acquisition	Consideration recognised £m
Specialist			
Young Explorers	Canada	January 2007	0.8
KSA Events	USA	April 2007	+2.1
Activity			
WesternXposure	Australia	February 2007	+2.4
i-to-i	UK	February 2007	+20.6
iExplore	USA	February 2007	+4.6
Quark Expeditions	USA	April 2007	9.8
ODS			
Laterooms.com	UK	December 2006	+97.2
			137.5

+ Provisional, as consideration is dependent on future earnings

Cash paid for the acquisitions in the period, net of cash acquired, was £101.8m; deferred consideration and acquisition costs of £4.6m was paid relating to acquisitions in prior years, giving a total cash payment for acquisitions in the period of £106.4m.

Details in respect of these acquisitions are set out below. Fair value adjustments are provisional.

Total acquisitions £m	**Book value prior to acquisition**	**Fair value adjustments (provisional)**	**Fair value to Group (provisional)**
Property, plant and equipment	1.0	–	1.0
Other intangible assets	0.8	56.6	57.4

Cash movements in bank loans include £0.1m of repayment of acquisition-related loan notes. For clarity, the cash flow statement includes this movement in payments for the acquisition of subsidiaries.

11. Approval

The interim financial statements were approved by the Board on 13 June 2007.

Independent Review Report by KPMG Audit Plc to First Choice Holidays PLC

Introduction

We have been instructed by the company to review the financial information for the six months ended 30 April 2007 which comprises the consolidated income statement, the consolidated balance sheet, the consolidated statement of cash flows, the consolidated statement of recognised income and expense and the related notes. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the company in accordance with the terms of our engagement to assist the company in meeting the requirements of the Listing Rules of the Financial Services Authority. Our review has been undertaken so that we might state to the company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company for our review work, for this report, or for the conclusions we have reached.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4: *Review of interim financial information* issued by the Auditing Practices Board for use in the UK. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with International Standards on Auditing (UK and Ireland) and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 April 2007.

BEING A LEADER

FIRST CHOICE HOLIDAYS PLC
Annual Report and Accounts 2006

RECEIVED
2007 DEC 17 P 2:57

First Choice Holidays PLC
Where leisure travels further

FIRST CHOICE HOLIDAYS PLC IS A LEADING INTERNATIONAL LEISURE TRAVEL COMPANY. IT OPERATES FROM 17 MAJOR SOURCE MARKETS AND EMPLOYS OVER 15,000 PEOPLE ACROSS MORE THAN 80 BRANDS.

EACH OF ITS FOUR SECTORS OFFERS PARTICULAR TYPES OF LEISURE TRAVEL. IT COULD BE A TWO-WEEK HOLIDAY IN THE MEDITERRANEAN OR FLORIDA, ARCTIC EXPEDITION CRUISING, STUDENT EDUCATIONAL TRAVEL, SAILING IN THE CARIBBEAN, A CULTURAL JOURNEY THROUGH EGYPT, A ROUND THE WORLD PRIVATE JET TOUR OR BOOKING A HOTEL FOR A WEEKEND AWAY. FIRST CHOICE CAN SATISFY ALL THESE AND MANY MORE LEISURE TRAVEL NEEDS TO OVER 200 COUNTRIES.

A BALANCED BUSINESS
THE BUSINESS MODEL FOCUSES ON DIFFERENTIATION AND FLEXIBILITY ACROSS THE GROUP. OUR DIVERSE PRODUCT PORTFOLIO AND INTERNATIONAL DIMENSION GIVE BALANCE.

Strategy
Our strategy is to continue to transform ourselves into a leading international leisure travel company, comprising a differentiated UK Mainstream tour operating business and a portfolio of niche specialist businesses across the world, creating added value experiences for our customers. This will ensure long-term sustainable competitive advantage with premium margins and returns for our shareholders.

OPERATIONAL HIGHLIGHTS

Our diversified portfolio delivered strong performance in a difficult market-place.

The Mainstream Holidays Sector outperformed the market with our long-haul product proving very popular increasing revenues and bookings by 44% and 35% respectively.

The three specialist Sectors continue to offer life experiences in segments of the market where there is increasing demand.

Grand Expeditions and Intrav acquisitions integrated and performing well:
- creation of Escorted Tours division and First Choice Expedition Cruising.

£148.7m of niche, specialist acquisitions made during the year; strong pipeline going forward:
- first acquisition in Asia Pacific region.

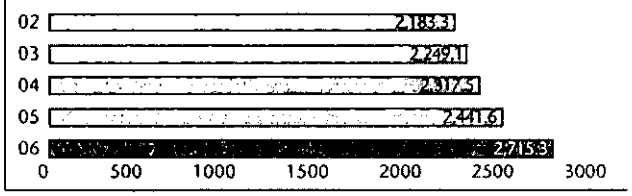
CHAIRMAN'S STATEMENT

Sir Michael Hodgkinson
Chairman

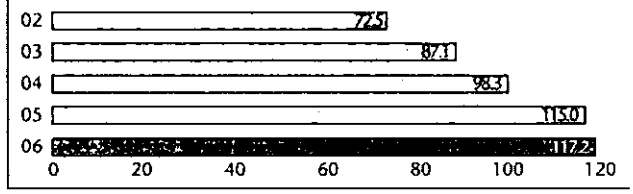
IN WHAT HAS BEEN A DIFFICULT YEAR FOR THE LEISURE TRAVEL MARKET, THE GROUP HAS DEMONSTRATED THAT ITS STRATEGY OF DIVERSIFYING RISK BY CREATING LEADERSHIP POSITIONS ACROSS A PORTFOLIO OF INTERNATIONAL LEISURE BUSINESSES CONTINUES TO DELIVER SUSTAINABLE GROWTH. THE PORTFOLIO, WHICH OFFERS CUSTOMERS IN 17 SOURCE MARKETS A WIDE VARIETY OF LEISURE EXPERIENCES TO OVER 200 DESTINATION COUNTRIES, MEANS THAT THE GROUP IS NEVER OVER-RELIANT ON ANY SINGLE DESTINATION OR SOURCE MARKET. OUR FINANCIAL PERFORMANCE IS TESTAMENT TO MANAGEMENT'S ABILITY TO ANTICIPATE AND EFFECTIVELY GUIDE THE GROUP THROUGH AN UNPRECEDENTED NUMBER OF GEO-POLITICAL EVENTS AND NATURAL DISASTERS.

In the Mainstream Sector, we have outperformed the market and continue to do so due to a greater offering of exclusive differentiated product, a more flexible business model and a superior management team. In the Specialist Sectors, our portfolio of businesses continue to perform strongly as we benefit from the breadth of Specialist and Activity travel experiences available to our customers.



RESULTS

Consequently, I am very pleased to report that the Group achieved record underlying[1] profit before tax of £117.2m (2005: £115.0m), with underlying operating profit up 13% at £135.4m (2005: £120.2m), on revenue growth of 11% to £2,715m (2005: £2,442m). The resulting underlying earnings per share increased by 16% to 16.1p (2005: 13.9p). This represents the fourth consecutive year of underlying double-digit earnings growth and demonstrates the strength of the Group's strategy, which combines both organic and acquisition led growth. The Group's statutory profit before tax was £97.5m (2005: £112.2m) and statutory basic earnings per share was 13.7p (2005: 13.5p).



DIVIDENDS

The Board is recommending a final dividend of 5.40p per share (2005: 4.65p), an increase of 16% on the comparable period. The interim dividend was 2.25p (2005: 1.95p), giving a total dividend for the year of 7.65p per share (2005: 6.60p). The full year dividend increase of 16% per share represents the fourth consecutive year of double-digit dividend growth and reflects our continuing commitment to a progressive dividend policy and our confidence in the future.

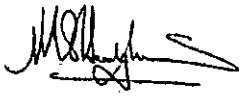
[1] Underlying profit before tax and underlying operating profit exclude separately disclosed items, amortisation of business combination intangibles, impairment of goodwill and taxation on profits of the Group's joint venture and associate. Underlying earnings exclude the same items net of tax and minority interests.

THE MARKET
We have recognised for some time that to remain successful in the mainstream tour operating segment of the market in the UK, we would need to reduce our exposure to the increasingly commoditised short-haul market and be able to offer our customers better quality differentiated product. We have, therefore, invested in exclusive product, such as Holiday Villages and our long-haul aircraft, which has given us competitive advantage and consequently enabled us to outperform the market. When we start to take delivery of our Boeing 787s in 2009 the differentiated experience will be even greater for our customers. The results we are achieving from the long-haul product has given us the confidence to order eight of these aircraft with an option to acquire a further four.

In our specialist Sectors we have identified niche growth segments in which we are investing and developing leading positions. These parts of the Group are truly international and offer exciting growth opportunities. Many of these segments are highly fragmented and building a significant presence through acquisition has allowed us to create substantial businesses in a relatively short period.

ACQUISITIONS
Acquisitions continue to be a key part of our strategy. This year we have made 13 acquisitions for a total consideration of £148.7m of which £129.3m has been paid during the year (2005: 12 acquisitions for consideration of £65.5m of which £53m had been paid).

The acquisition pipeline remains strong as we continue to identify opportunities which have excellent growth characteristics across a number of segments including adventure travel, student travel and specialist escorted tours.



BOARD
Giles Thorley joined the Board on 1 February 2006 and has proven to be a valuable and supportive Board member. As the Group has transformed itself from a purely mainstream holidays business in 1999 to an international leisure travel company today, we have similarly established a Board with a wide-ranging skill set, excellent business reputation and international experience.

COLLEAGUES
We are a people business, focused on giving our customers the most enjoyable leisure travel experience we can. The passion and commitment shown by our colleagues across all the businesses has been greatly appreciated and, on behalf of the Board, I would like to thank them all for their hard work and effort.

SUSTAINABLE DEVELOPMENT
First Choice is committed to sustainable development in both source market and in destination. We are a founder member of the Travel Foundation in the UK and encourage all of our businesses to behave responsibly and support communities on an ongoing basis. Our stand-alone (web based) Environment & People Report was updated in the Spring and includes key future commitments. We were admitted to the FTSE4Good Index last year and for the first time completed the full Business in the Community Corporate Responsibility Survey. All the FTSE100 and FTSE250 companies are invited to participate in the Survey and we were ranked 101 with an overall score of 72%.

OUTLOOK
First Choice Holidays PLC has once again delivered strong financial performance in a year when our flexible business model and strategy has been tested by challenging conditions in a number of source and destination markets, but has proven successful in delivering growth.

On 27 November 2006 we announced, following press speculation regarding the Mainstream business, that the Board of First Choice Holidays PLC has been reviewing how it might continue to maximise the potential of its market leading tour operating business. The Board is considering a range of alternatives in this market and discussions with a number of parties are at a preliminary stage. There can be no certainty that any transaction will be forthcoming. However, I remain confident, whatever the outcome, that our strategy and flexible business model will ensure that we are well placed to continue to outperform the market and deliver sustainable growth into 2007 and beyond.

Sir Michael Hodgkinson
Chairman
6 December 2006

BUSINESS AND FINANCIAL REVIEW

Peter Long
Chief Executive

Paul Bowtell
Group Finance Director

THE BUSINESS AND FINANCIAL REVIEW HAS BEEN PREPARED BY THE BOARD OF FIRST CHOICE HOLIDAYS PLC (THE COMPANY) SOLELY FOR THE MEMBERS OF FIRST CHOICE HOLIDAYS PLC. IT PROVIDES INFORMATION ON THE CORPORATE OBJECTIVES OF THE GROUP AND ITS BUSINESSES, TOGETHER WITH A REVIEW OF OUR PROGRESS DURING THE FINANCIAL YEAR ENDED 31 OCTOBER 2006 AND AN ASSESSMENT OF THE KEY RISKS AND UNCERTAINTIES THAT WE FACE.

CORPORATE OBJECTIVES AND STRATEGY

First Choice Holidays PLC is a leading international leisure travel company. It operates from 17 major source markets offering differentiated leisure travel experiences to more than eight million customers annually. Over the past five years, the Company has invested in increasing its international presence and has moved into niche segments which offer good long-term growth prospects, create additional shareholder value and allow us to build leadership positions. The Group operates with a flexible and efficient business model which allows it to increase or decrease capacity more easily than a number of its competitors. The new market segments it has chosen to enter have a highly fragmented supply base which provides us with good opportunities for further consolidation in those markets.

We aim to deliver long-term sustainable shareholder value through continued growth in profitability and we invest in current and newly acquired businesses to achieve this. The Board, however, also recognises that external factors beyond the Company's control can affect these objectives in the short-term but believes that the competitive advantage inherent in our chosen growth segments will provide more robust longer-term value for our shareholders.

Our strategy this year has remained unchanged. We continue to build our position as a leading international leisure travel company, comprising a differentiated UK mainstream tour operating business and a portfolio of niche specialist businesses across the world, creating added value experiences for our customers. This will ensure long-term sustainable competitive advantage with premium margins resulting in superior returns for our shareholders.

KEY STRENGTHS

First Choice Holidays PLC ensures that all its businesses across the Group operate with flexible and efficient business models thereby enabling them to anticipate trends more easily and react quickly to changes in the trading environment by ameliorating the adverse effects of unforeseen natural disasters, geo-political events and the like.

Operating from 17 major source markets gives the Company a good international spread of businesses and means we are not over reliant on any one source market from which to attract customers. We will continue to investigate new source markets that demonstrate good growth prospects such as Asia and Latin America.

By offering differentiated product across the Group, both specialist and mainstream, we are able to cater to a wide range of customers who are seeking the many and varied leisure travel experiences provided by us through our portfolio of businesses.

13%

Group underlying operating profit increase

30%

underlying operating profit increase of three specialist Sectors

The companies we acquire tend to be asset light with a high level of expertise within the business. Those Group businesses that do require higher levels of capital expenditure invest in assets (such as yachts, inland waterways cruisers, expedition cruise ships, licences to operate in the Galapagos or yacht berths), which provide greater competitive advantage and allows a premium to be charged.

GROUP PERFORMANCE

The Group has once again delivered strong operational performance and financial growth in a year that has tested the leisure travel industry. The year's financial results prove that the flexible business model we operate, combined with the range of differentiated leisure travel experiences the Group offers, is both robust and provides a platform for long-term sustained growth.

The Group has achieved underlying profit before tax of £117.2m (2005: £115.0m), with underlying operating profit up 13% to £135.4m (2005: £120.2m). The underlying profit before tax includes net financing expense of £18.2m which is £13.0m higher than in 2005, primarily as a result of refinancing the convertible preference shares in July 2005 (£9.0m) and a higher level of acquisitions (£4.0m). Group revenue for the year increased by 11% to £2,715m (2005: £2,442m). The resulting operating profit margin improved by 10 basis points to 5.0% this year. It should be noted that during the year we changed our accounting policy regarding ODS revenue recognition to bring it in line with accepted market practice, which resulted in a margin improvement. However, the 10 basis points margin improvement is after restating prior year revenue.

The Group's results, on both a statutory and underlying basis, are set out in the table below.

Year ended 31 October	2006	2005
Revenue	£2,715m	£2,442m
Underlying operating profit	£135.4m	£120.2m
Underlying profit before tax	£117.2m	£115.0m
Statutory operating profit	£115.7m	£117.4m
Statutory profit before tax	£97.5m	£112.2m
Underlying basic earnings per share	16.1p	13.9p
Statutory basic earnings per share	13.7p	13.5p

A reconciliation of underlying profit before tax to statutory profit before tax is as follows:

	2006 £m	2005 £m
Underlying profit before tax	117.2	115.0
Separately disclosed items	(5.8)	–
Impairment of goodwill on closure of business	(1.4)	–
Amortisation of business combination intangibles	(11.3)	(1.9)
Taxation on profits of joint venture and associate	(1.2)	(0.9)
Statutory profit before tax	**97.5**	**112.2**

Our acquisition strategy is clearly a key contributor to future growth and we continue to have a strong pipeline of potential acquisition opportunities. We are continuously exploring new geographical source markets and destinations to expand our portfolio of leisure travel businesses and diversify risk. In August 2006, we acquired the Pacific World group of seven companies. This marked our first significant entry into the Asia Pacific and Chinese markets. These markets represent a significant opportunity for high growth in travel and the fragmented nature of the accommodation supply base fits well with our Online Destination Services model. The integration of this business is progressing well.

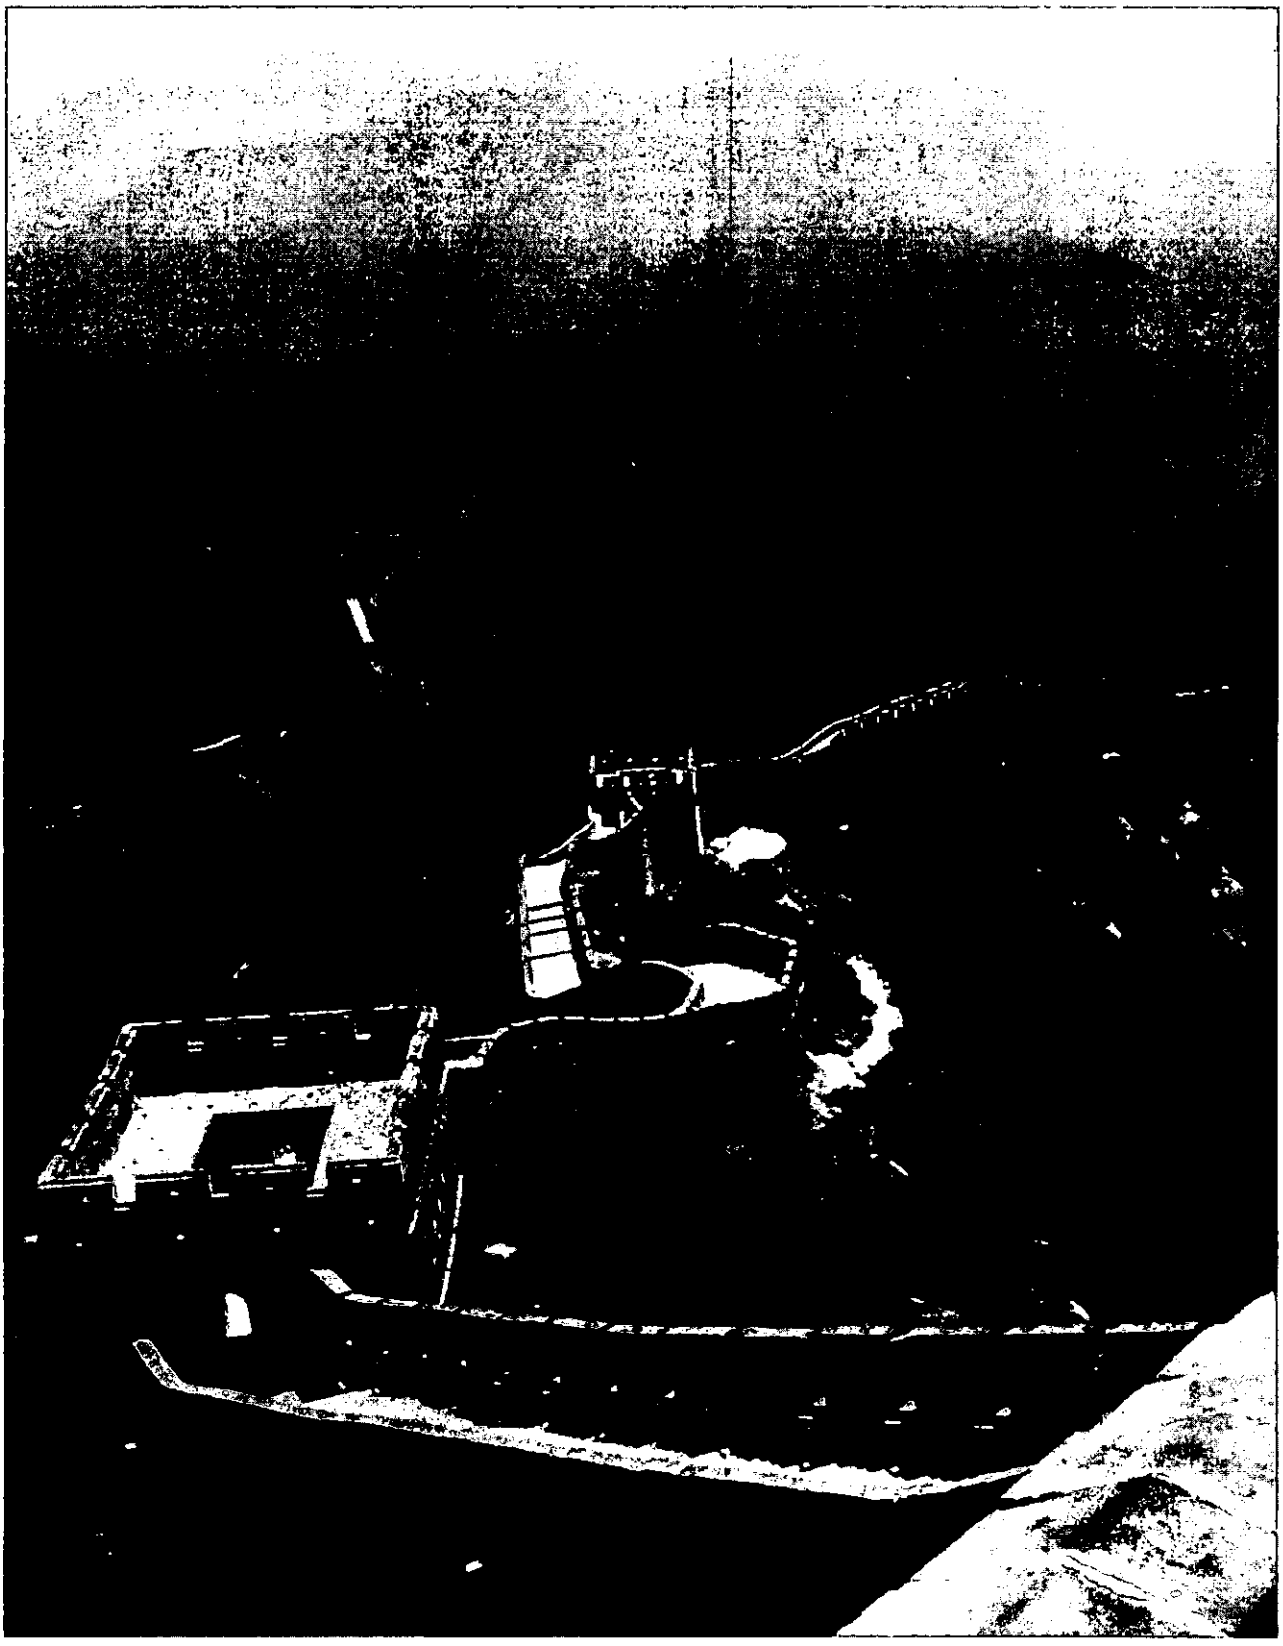
We also entered the North American specialist escorted tours segment during the year. This is a fragmented market-place which focuses on the growing and affluent "boomer" demographic. We now have seven brands operating in this high margin segment. These include Country Walkers, International Expeditions, Park East, TRAVCOA, TCS Expeditions, all acquired as part of the acquisition of Grand Expeditions in December 2005. In addition, Intrav was acquired in January 2006 and Your Man Tours acquired in July 2006. All of these businesses have performed well during the year and provide significant growth opportunities.

- Mainstream Holidays Sector underlying operating profit was £53.7m (2005: £57.5m), down 7% year-on-year, primarily due to the delay in high season bookings as a direct result of the World Cup and extremely warm weather in July which led to pricing pressure in the lates market. Revenue grew by 1% to £1,272m (2005: £1,264m).

- Specialist Holidays Sector underlying operating profit was £36.6m (2005: £31.5m), up 16% year-on-year. This was on revenue of £928m (2005: £891m), up 4%. The increase in profit was driven by continued growth in Canada and strong performance in our UK Specialist Division and North American student businesses.

- Activity Holidays Sector underlying operating profit was £26.7m (2005: £17.0m), up 57% year-on-year. This was achieved on revenue of £377m (2005: £194m), up 94%. On a like-for-like basis revenue was up 13%. The result was driven by good performances by our Adventure businesses and by a contribution of £5.5m from acquisitions made in the year.

- Online Destination Services Sector underlying operating profit was £14.4m (2005: £11.4m), up 26% year-on-year, with continued strong growth in revenue up 49% to £138m (2005: £93m). This result reflects strong underlying growth in our online channels offset by further incremental investment in Hotelopia.



- The Group's joint venture with Royal Caribbean Cruises Ltd. increased underlying profit before tax by £1.5m to £5.0m (2005: £3.5m). The Group's share of the pre-tax profit amounted to £2.5m, compared to £1.8m in 2005.

As announced at the trading update in October, we constantly review our participation strategy and how we can remain cost competitive. As a result of a review of underperforming business units and restructuring actions across all our Sectors, but particularly the UK, the Group has incurred net separately disclosed items of £5.8m.

PARTNERING

As an international leisure travel company we have developed sound, long-term relationships across all our businesses. We believe in working together with the suppliers we use across the world and our strategic alliance partners. This way we are able to provide high levels of service and choice for our customers whatever leisure travel experience we are providing.

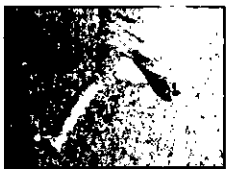
Online Destination Services
This Sector's relationships, with mainly independent hoteliers, now stretches from the Mediterranean to Asia Pacific via European cities and the USA.

32%
increase in long-haul Summer capacity

63%
controlled distribution in Mainstream

MAINSTREAM HOLIDAYS SECTOR

The Mainstream Holidays Sector consists of the UK and Ireland tour operating, retail and airline businesses. With a clear strategy, it is focused on the further development of differentiated, exclusive product such as the long-haul flight experience and Holiday Villages as it reduces capacity in the commoditised short-haul market. With a strong brand that is increasingly recognised as offering holidays of good value and quality, it is also benefiting from greater control of distribution.



Despite satisfactory revenue performance and a significant reduction in capacity across the Summer season there was a delay in high season bookings due to bird flu scares in the early booking period, the World Cup in June and unusually warm weather in July. This led to weaker selling prices in the market-place from August, the result of which was that incremental year-on-year fuel costs for the season of £50m were not fully recovered from the customer in the lates market. This, combined with additional costs we incurred in managing an unprecedented level of external events resulted in a 7% reduction in full year underlying operating profit to £53.7m (2005: £57.5m), and a 0.3 percentage point reduction in underlying margin to 4.2%.

MAINSTREAM HOLIDAYS SECTOR

[1] All figures are based on inclusive tour and flight only, whereas the trading updates simply focus on inclusive tour from Great Britain

[2] FY2004/05 passengers and revenue are restated to include the Adult Ski-division which was transferred to the Mainstream Sector in FY2005/06

The "It's a big sky" advertising campaign promoted the quality of comfort and service that our long-haul aircraft and crew provide.

The continued emphasis on product differentiation resulted in a 30% year-on-year revenue increase for the Premier programme. The popularity of our Holiday Village concept goes from strength to strength and, as a result, we have recently opened a new resort in the Dominican Republic, the sixth property of this type. Our long-haul product has been significantly expanded (capacity up 32% for Summer 2006) and we are now flying to six new long-haul destinations. During the Summer, we operated four re-configured Boeing 767s (Summer 2005: three) and have recently introduced a further two for Summer 2007.

We have made excellent progress in increasing our control of distribution, which has now reached 63% for the Summer (2005: 56%). We are well on target to achieve 75% of our sales through controlled channels by the end of the 2008 financial year and aim to exceed this target. Online sales have increased to 32% (2005: 25%), while sales from our retail outlets have also grown, with call centres remaining level. As we drive towards becoming a predominantly direct-sell business we need to continue to build and develop our distribution channel. We have, therefore, announced that we will expand the retail chain and continue to work with some of our long-term third-party retail partners. Accordingly, we recently announced plans to franchise First Choice shops and to date have signed two significant franchisees which will increase our store portfolio by 50. We will also be opening 45 of our own stores before the end of December in key geographical areas where we are currently not represented. Our mobile concession concept, "the travel pod", which has a footprint of less than 200 sq ft is currently on trial with Asda, Sainsbury's, Morrisons and Waterstones. This investment in retail has been primarily funded through reduced commission rates paid to third-party travel agents. Overall, the increase in direct sales has resulted in a distribution benefit of £5.9m in the year.

The First Choice brand and its products have traditionally appealed to families. The differentiated experience we have developed, particularly in Holiday Villages and the long-haul flight experience, where we have actively promoted the benefits of flying with First Choice Airways, has increased the brand appeal to both families and couples, as well as those who are normally considered the natural long-haul leisure customers of the scheduled airlines. The investment in the brand and long-haul product has cost an incremental £1.5m this year which has been expensed in 2006 but will benefit future seasons.

The Sector is fully committed to a wide-ranging Corporate Social Responsibility programme and in particular takes seriously its responsibility to manage its carbon footprint. Energy reduction measures are in place in our retail and office premises, the majority of which are on green tariffs. We operate a highly efficient airline, achieving industry-leading load factors in excess of 95%. First Choice Airways has recently been awarded the Best Charter Airline and Best Environmental Airline at the British Travel Awards. We have also embraced new, more efficient technology and are the UK launch customer for the Boeing 787, the most energy efficient plane in development.

90%

5%

underlying margins in UK Specialist businesses

SPECIALIST HOLIDAYS SECTOR

The Specialist Holidays Sector consists of the Continental European and UK Specialist businesses (which are grouped as European Specialist for reporting purposes), our Canadian tour operating and retail business, First Choice Student Travel in the US and Canada, and Europe Express (First Choice Independent Vacations), our independent travel business operating in the US. These businesses offer both destination-led and lifestyle holidays with differentiated and exclusive product.

The businesses in this Sector are not vertically integrated or capital intensive and their business models are extremely flexible and cost efficient. Despite a number of the businesses in this Sector experiencing challenging market conditions, it delivered strong growth in profitability with underlying operating profit of £36.6m (2005: £31.5m), up 16% year-on-year.

The businesses in Continental Europe experienced a number of external events, from bird flu scares in Turkey to terrorist incidents in North Africa and Eastern Mediterranean key destinations, that adversely impacted underlying performance. Consequently, profitability in a number of Continental European businesses was reduced. Several of our smaller Continental European businesses were loss-making in the year with total losses amounting to £4.2m. At the trading update in October, we announced that we had decided to scale back the loss making businesses in Continental Europe. The one-off costs of these actions have been reported within the net separately disclosed items of £5.8m.

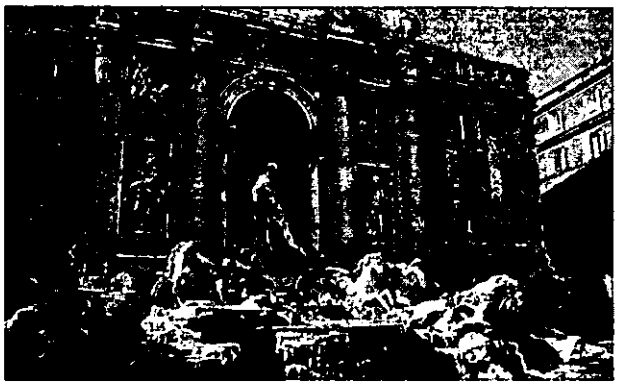
[1] 2004/05 passengers are restated to exclude Encore which was sold during the year and also to include Europe Express

Marmara remains France's number one tour operator in terms of profitability. It opened a new club in Marrakech, Morocco in April 2006 and increased overall volumes to this destination by 26% with an occupancy rate of more than 90% for the entire season. The Aqua Fantasy Hotel in Kusadasi, Turkey which is exclusive to First Choice Netherlands and the Mainstream Holidays Sector in the UK, successfully opened its second phase and a further extension to this property will be completed by Summer 2007. A number of the European businesses are entering a limited number of new destinations, such as Morocco, to offer alternatives to Egypt and Turkey as we continuously strive to diversify risk.

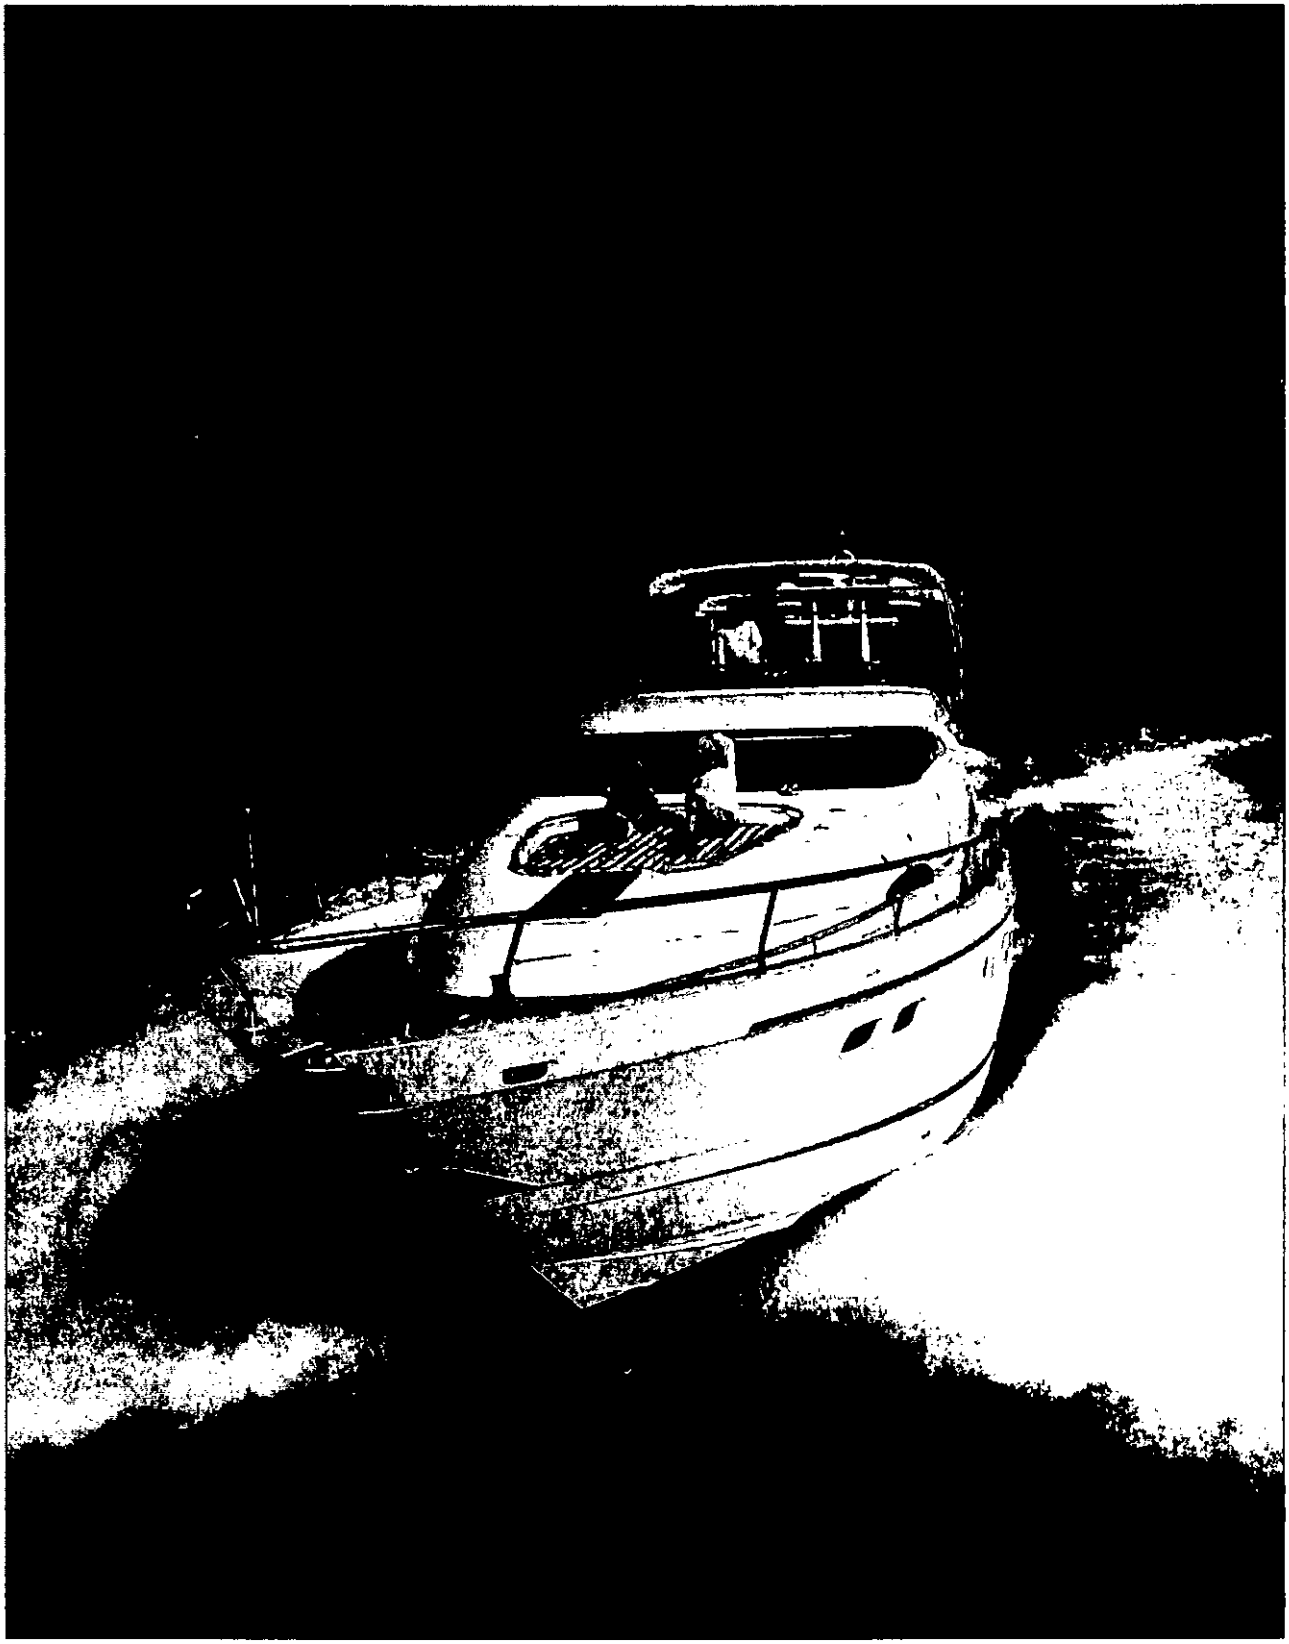


The restructuring and streamlining of the UK Specialist business model, combined with the growth in direct distribution, has resulted in a very successful year for this division. The product offering for Sovereign, Hayes & Jarvis, Citalia and Meon Villas, has been more clearly defined and this, together with careful capacity management, the introduction of a more flexible selling system and a focus on growing direct distribution channels has improved profitability substantially. Controlled distribution now stands at 59% (2005: 49%) in UK Specialist and will increase further in the coming year, with the business now achieving underlying margins of around 5% (2005: 4%).

North America

Our North American businesses improved profitability by £8.4m to £13.8m (2005: £5.4m). This was driven by our Canadian operation which improved its profit margin in a year that, for this market, was badly affected by the 2005 hurricane season and the North American student travel businesses.

These student travel businesses performed equally strongly, despite also being affected by the 2005 hurricane season. The flexibility in the business meant that we were able to move and significantly increase bookings to the West Coast of Mexico away from Cancun which was badly affected by Hurricane Wilma. We made a significant step into the highly-fragmented educational student travel market through the acquisitions of Jumpstreet, School Voyageurs and Educatours in Canada and Educational Tours in the US. Opportunities in the student travel market remain attractive and we have a strong pipeline of acquisitions that we are pursuing.



At Citalia we have a real passion for Italy. Our experience together with our personal touch makes us the leading Italian specialist.

LEADING

We are leaders in a number of segments in which we operate including Marine and Adventure. We have built these positions both organically and by acquisition and have identified a number of further niche areas where we are currently making rapid inroads. Offering good growth opportunities, we will actively pursue our leadership position in these segments.

First Choice Marine
The world leader in yachting. If it's sail or power our customers desire we have the experience to suit them.

FLEXIBLE

Operating with flexible business models across our companies is part of our strategy of ensuring that we are able to manage our businesses efficiently whatever the market conditions. Our product mix also helps us not to be over-dependent on any one part of our business or any one destination.

UK Specialist businesses
It's not only about flexibility in the business model, customers travelling on holiday with one of our UK Specialist companies can choose the length of their stay.

ACTIVITY HOLIDAYS SECTOR
The Activity Holidays Sector consists of three divisions:

- The Marine division includes First Choice Marine, which operates the market leading yacht chartering brands of Sunsail and The Moorings, Sunsail Clubs and Inland Waterways (Crown Blue Line and Connoisseur).
- The Adventure division consists of a portfolio of 17 adventure travel businesses, including First Choice Expedition Cruising and our specialist and schools ski offering.
- The Escorted Tours division consists of seven brands that operate specialist escorted tours for the US source market.

The Sector is a high growth area with strong consumer demand for adventure and escorted products in particular. Its high margin businesses delivered underlying operating profit of £26.7m (2005: £17.0m) on revenue that increased by 94% to £377m (2005: £194m). Revenue increased 13% on a like-for-like basis with profitability flat, primarily as a result of a disappointing performance in Sunsail Clubs. During the year, we acquired a number of businesses in this Sector that were not expected to achieve full profitability until 2007. Consequently, this led to a dilution in underlying margin during the year of 1.7 percentage points.

Marine
The Marine division delivered underlying operating profitability of £10.6m (2005: £9.7m) on revenue of £122m (2005: £90m). The result was impacted by difficult trading conditions for our Sunsail Clubs.

First Choice Marine, which comprises Sunsail Yachts and The Moorings, has focused on integrating the businesses since the acquisition of The Moorings in December 2005. The business is firmly on track to deliver anticipated cost synergy benefits of £5m in 2007.

Inland Waterways has focused on driving organic growth through direct channels with 44% of sales now direct (2005: 42%). Asset utilisation has continued to improve with occupancy increasing 5% year-on-year. Based on our research, we believe there could be strong demand for this product in a broader number of source markets, which we will actively pursue.

Sunsail Clubs had a challenging year with bookings affected adversely by the bird flu scare in Turkey. Despite this difficult trading environment, our new club, Club Phokaia, had a very successful season, proving that our customers appreciate the quality of our product.

Adventure
Our portfolio of Adventure businesses has grown both organically and by acquisition, with the division growing revenue by 81% to £189m (2005: £104m) and underlying operating profit to £13.3m (2005: £7.3m). Profitability grew by 5% on a like-for-like basis to £6.6m as the organic businesses continued to perform strongly in a segment which we expect to deliver strong growth in the future. The North American market continued to be a focus for this division and we have acquired Trek Holidays in Canada and Trip n Tours, a US West Coast dive business that complements our Caribbean dive expertise at Caradonna. In the Netherlands we acquired Sawadee (an adventure travel tour operator) and in the UK, we acquired TravelClass which operates two school brands; Skiclass and JCA. Skiclass complements our existing Skibound business while JCA is a summer-based schools activities business which has grown strongly and offers good growth potential as it expands the number of sites available to schools across the UK. Having achieved critical mass with these businesses, we are now pursuing the most effective ways to leverage the infrastructure we have established.

Following the acquisition of Intrav by the Group in January 2006, a new sub-division, First Choice Expedition Cruising, has been formed to manage and operate the two small ship expedition cruising brands, Peregrine Cruises and Clipper Cruise Line. This sub-division will be included within the Adventure division. Travel on small expedition ships is a niche adventure segment offering substantial growth opportunities. Combining the operations of these two brands will enable us to offer a complementary portfolio of small ship expedition product from 2008 and make this available through a worldwide distribution network.

These lovely creatures can be seen on a First Choice Expedition Cruising Antarctic voyage.

48%

Hotelopia's increase in transaction value

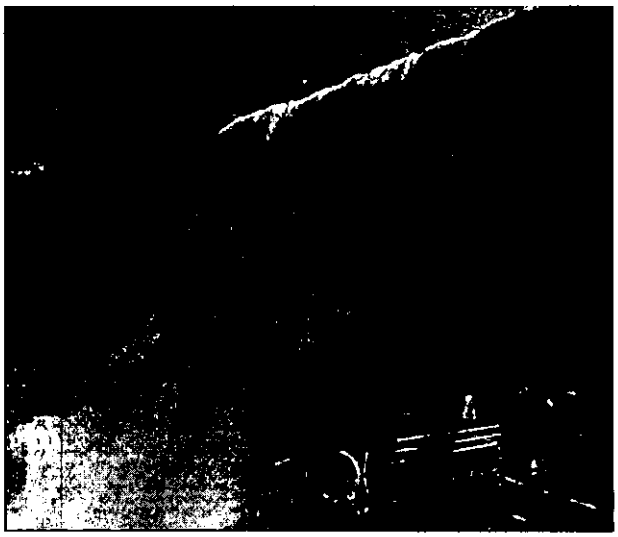
60%

increase in Bedsonline customer base

Escorted Tours
The Escorted Tours division has been formed out of certain businesses acquired in the Grand Expeditions transaction, Intrav and Your Man Tours.

Intrav was loss-making at acquisition and a number of steps have been taken to address this including the transfer of Clipper Cruise Lines into First Choice Expedition Cruising. This initiative has enabled Intrav to focus on escorted tours, its core expertise. As anticipated, these measures have resulted in the Intrav and Clipper Cruise Line businesses achieving break-even results.

The escorted tours businesses that had been part of Grand Expeditions and whose customer base is drawn primarily from the growing "boomer" demographic in the US market, had a successful year. The cultural and luxury escorted travel categories are growing as customers seek new destinations. Our businesses are averaging double-digit volume increases year-on-year. The tailor-made journeys market is also growing rapidly as wealthy travellers desire to individualise their travel experiences.



ONLINE DESTINATION SERVICES SECTOR
Our business approach in this Sector is based on a local presence at key travel destinations. Our extensive infrastructure includes 89 offices in 23 countries servicing over five million customers. We have established strong relationships with our suppliers, enabling us to offer our customers a breadth of content online that is not available through our competitors, plus customer service on the ground, rather than from a centralised base. The destinations in which we operate usually have a highly fragmented supply base, meaning the relationships with our suppliers are a critical success factor. The majority of our inventory comes from privately owned hotels.

We have continued to experience significant growth in all our online routes to market with total online transaction value growing to £306m, representing growth of 49%. Hotelbeds, the brand which services tour operators has experienced a 32% growth in transaction value. Bedsonline, our B2B operator servicing travel agents who are sourcing accommodation for the independent traveller, has significantly increased its customer base, now meeting the needs of more than 8,000 travel agents (2005: >5,000) and has grown transaction value by 79%. Hotelopia, our B2C accommodation business brand, has achieved an increase in transaction value of 48%.

Our strategy is to acquire established offline incoming agencies which have strong relationships in their destinations and then bring their inventory online. To this end, the Sector has expanded its geographical reach, opening an office in Brazil and acquiring a further business in Greece. In August, we acquired the Pacific World group of companies based in the Asia Pacific region. This was a significant strategic move for us and we are delighted that this well-respected and successful group is now part of this Sector.

Pacific World is a network of specialist companies providing meetings, incentives, conference and events (MICE) services as well as servicing cruise lines and foreign independent travel for tour operators. With 19 offices across the region, Pacific World has given us an immediate, established presence in key Asian markets.

Iguasu Falls, Brazil. The Online Destination Services Sector has recently opened an office in Brazil.

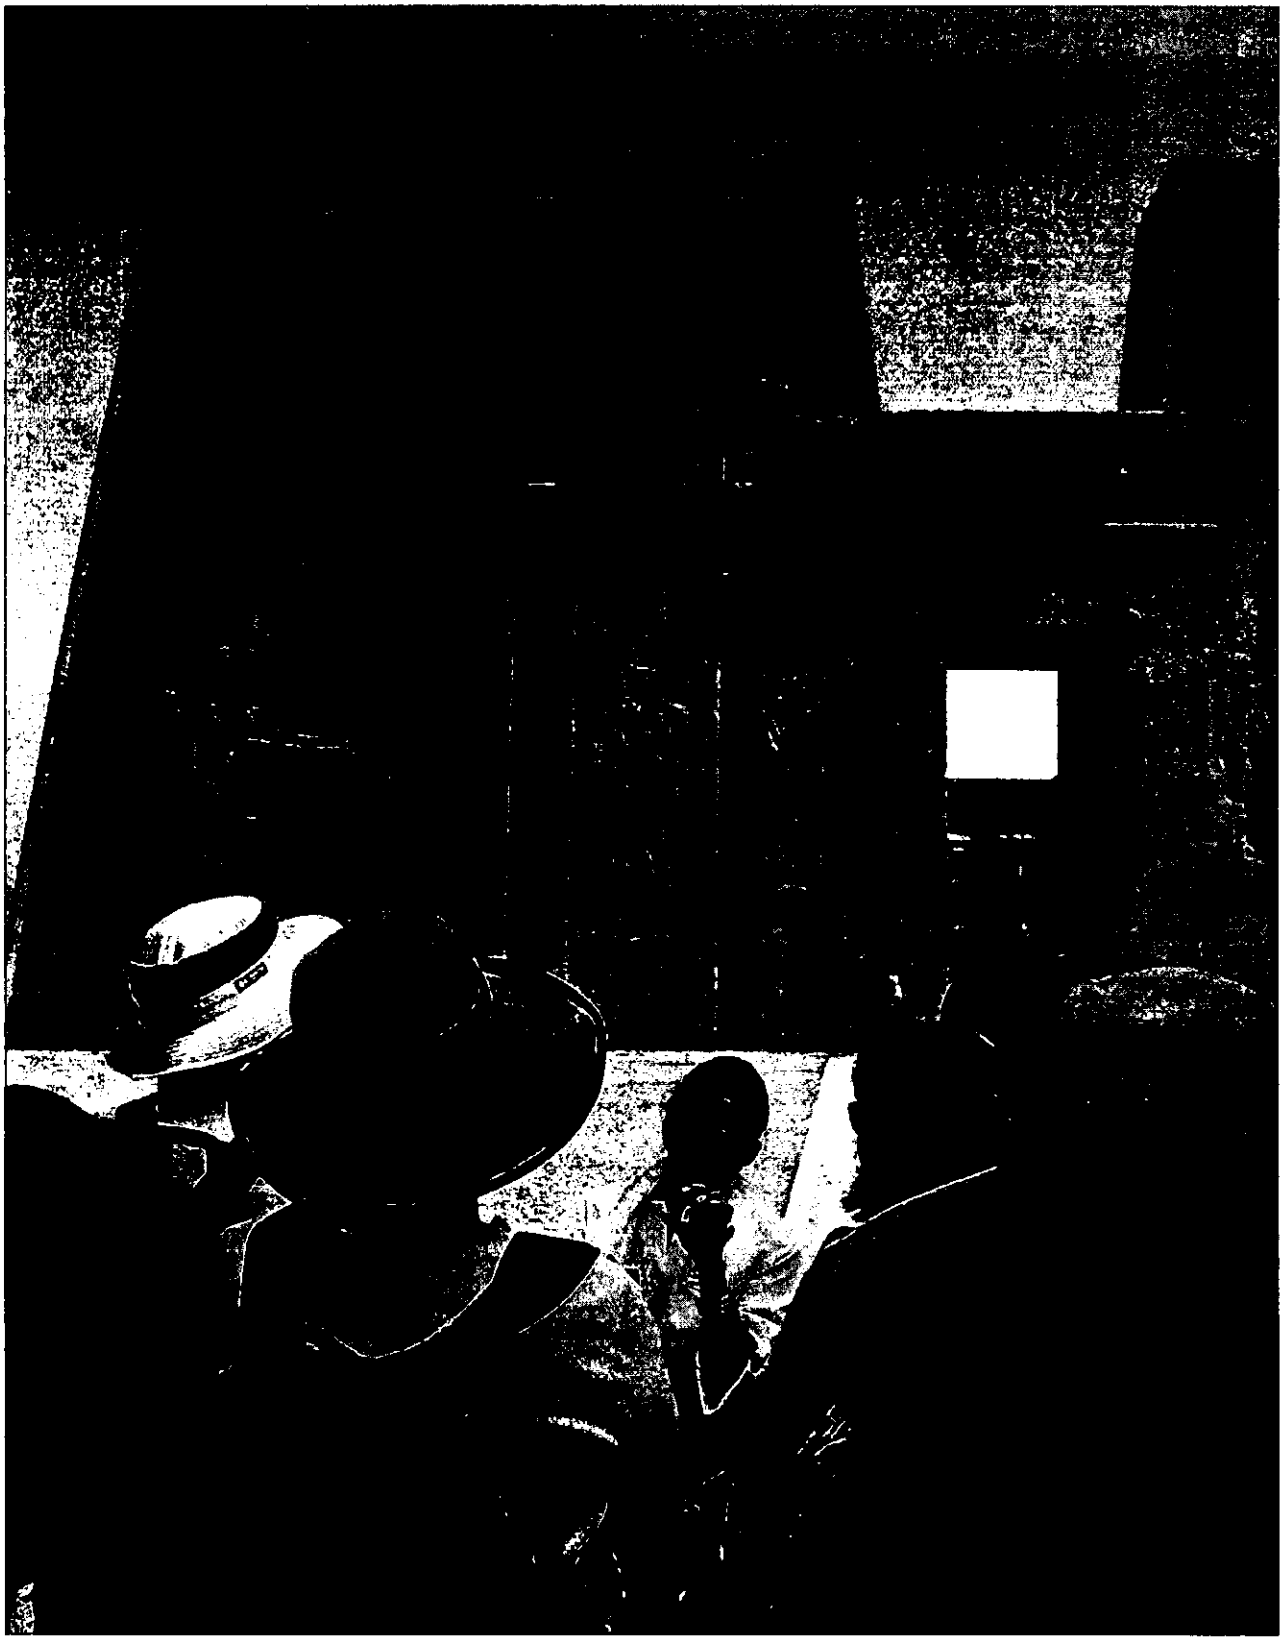
The Sector was affected by the 2005 hurricane season and the events in Turkey during the year. Hurricane Wilma caused extensive damage in Cancun, Mexico, which resulted in the destination being almost entirely closed for the peak season as hotels, resorts and infrastructure were repaired or rebuilt. The reduction in capacity to Turkey, which tour operators implemented, also affected the requirement for our services. We continue to seek new destination markets not only to grow our business, but to diversify and spread our risks.

We have not been afraid to be at the forefront of leisure travel experiences that allow our customers to go to places and experience adventures that they would not readily be able to do on their own, across sectors that we have identified as delivering top-line growth and increasing demand.



Adventure Holidays
With Exodus, you can avoid the Everest Base Camp crowds, ascend the highest trekking peak in the Himalayas, Mera, and admire Everest to the north of you.

EXPERTS

Everywhere across the Group you will find expertise at all levels – entrepreneurial and instinctive tour operators combined with non-travel experts, each understanding their particular area and contributing to the growth and the success of the businesses they are involved in. This expertise allows us to differentiate our products further and offer life experiences to our customers.

Cultural and luxury escorted tours
Across the North American "boomer" market demand for small group tours with like-minded people to cultural, historical and natural sites accompanied by expert guides is growing.

84%

increase in passengers on Island Cruises

16%

growth in the Group's underlying basic EPS

The acquisition of Pacific World enables us to offer a global MICE business that we plan to build on to attract new customers and enhance our destination portfolio for our existing customers. It will also allow us to expand our Intercruises brand to provide accommodation services to cruise lines in South East Asia.

We have continued to invest in Information Technology throughout the Sector, outsourcing communications as well as our servers, giving greater scalability to our business. Our systems in the US are now completely online, giving this destination instant access to the entire customer base, an important development for us as we grow this market.

Hotelopia's growth has been achieved both through its own brand and through the strategic alliances it has formed with a number of substantial companies including BBVA, easyJet, Spanair, Martinair, bmi and bmibaby. We will continue to pursue meaningful strategic alliances both in the UK and overseas.

Pacific World is able to offer services in many South East Asian destinations including Vietnam.

Santorini, Greece, one port of call on an Island Cruises Mediterranean itinerary.

ISLAND CRUISES

Our joint venture with Royal Caribbean Cruises Ltd. now operates two ships in the Mediterranean in the Summer and off the coast of Brazil in the Winter. The second ship, the Island Star, went into service in December 2005 after an extensive refurbishment.

Total passengers carried increased by 84% to 167,000, with passengers from the UK increasing by 95% to 90,000. This was achieved against an overall growth in passenger numbers in the UK cruise market of 17%.

Profit before tax was up 40% with our share of the profit at £2.5m (2005: £1.8m). Revenue improved by 84% in what was a tough UK market, where the weakness in the price of land-based package holidays in the lates market affected cruise prices, while cost pressures, particularly on fuel, were also a factor.

Demand in both the Brazilian and UK markets is strong and forward bookings are significantly ahead of the previous year and we remain optimistic that this segment of the cruise market will continue to prosper.

TAXATION

Profit before tax (excluding joint venture and associate profits) was £94.7m (2005: £110.3m). The tax charge on these profits was £25.2m (2005: £31.9m), representing an effective tax rate of 26.6% (2005: 28.9%). The lower effective rate compared to the UK statutory rate of 30% is due to the use of historic losses against current year profits, net of current year losses not recognised and higher overseas tax rates.

The Group underlying profit before tax (excluding profit before tax of the joint venture and associate) was £113.2m (2005: £112.2m). The Group tax charge on this profit was £31.2m (2005: £32.4m), representing an effective underlying tax rate of 27.6% (2005: 28.9%). This rate is higher than the statutory 26.6% due to the tax credit on overseas business combination intangible amortisation being at a rate in excess of 30%.

Based on the current structure of the business, existing local taxation rates and legislation, it is expected that the underlying tax rate on ongoing activities (before intangible amortisation) will be at a level of around 28% going forward.

EARNINGS PER SHARE

Underlying basic earnings per ordinary share was 16.1p (2005: 13.9p), an increase of 16%. This performance represents the fourth year of double-digit growth.

DIVIDENDS

The Board recommends a final dividend per ordinary share of 5.40p (2005: 4.65p), an increase of 16%, making a total dividend relating to the year of 7.65p (2005: 6.60p), an increase of 16%. The Group will look to maintain underlying dividend cover at just over two times. The dividend will be paid on 10 April 2007 to all shareholders on the register as at 9 March 2007. The Company intends to continue to operate a dividend reinvestment plan as an alternative to the full cash dividend.

Total				**148.7**	**129.3**

For the last four years First Choice Holidays PLC has been investing in small to medium sized bolt-on acquisitions in specialist niche segments of the leisure travel market. This programme has been accelerated in the year ended 31 October 2006 with 13 businesses being acquired for a maximum total consideration of £148.7m. By way of comparison, in the year ended 31 October 2005, we made 12 acquisitions with a maximum aggregate consideration of £65.5m of which £53.4m was paid in 2005.

Acquisitions in the year are shown in the table above. Of the maximum consideration, £129.3m was paid during the year. A further £19.4m will be paid as deferred and contingent consideration. In addition, £4.5m of acquisition expenses were incurred bringing the total expected consideration to £153.2m.

	2006		2005	
	Max £m	Paid £m	Max £m	Paid £m
Acquisitions in the year				
Amounts paid in year	129.3	129.3	53.4	53.4
Deferred and contingent consideration arising	19.4	–	12.1	–
	148.7	129.3	65.5	53.4
Acquisitions expenses paid in the year	4.5	4.5	1.8	1.8
Total consideration	**153.2**	**133.8**	**67.3**	**55.2**
Cash acquired with acquisitions	–	(40.0)	–	(23.7)
Cash paid relating to prior year acquisitions	–	14.3	–	1.6
Net cash outflow in the year relating to acquisitions	–	**108.1**	–	**33.1**

The cash flow effect of these acquisitions includes the cash consideration paid in the year of £129.3m, deferred and contingent consideration of £14.3m relating to prior year acquisitions that was paid in the year, acquisition expenses of £4.5m and the cash acquired of £40.0m, resulting in a total net cash outflow for the year of £108.1m (2005: £33.1m).

The net assets of all the subsidiaries acquired during the year have been consolidated in the Group's balance sheet at 31 October 2006. The Group's consolidated profit and loss account reflects revenue of £148.2m and underlying operating profit of £8.4m from the results of the acquired companies since acquisition.

CASH AND LIQUIDITY

Throughout the year there has continued to be a strong focus on cash management with an emphasis on working capital management. However, there has been a working capital outflow in the year of £56.6m (2005: £3.7m). This was driven by a significant increase in accommodation prepayments to finance a number of new exclusive and differentiated properties, primarily within the European Specialist businesses, for which we are not currently taking bookings. As a result of acquiring and disposing of businesses part way through the trading cycle, working capital outflows of £18.0m have been incurred. In addition, special employer contributions of £6.0m were paid to reduce the pension deficit in the airline defined benefit schemes, while the Group also paid advance deposits on Boeing 787 options amounting to £2.8m.

The net debt position (cash and cash equivalents less loans, overdrafts and finance leases) at the year-end was £103.3m (2005: net cash £18.1m). This consisted of £177.5m of cash and £280.8m of debt. The £121.4m movement in net debt has primarily arisen due to the accelerated acquisition strategy. Fixed charges cover, which we believe to be the most useful measure of liquidity, was 2.3 times at the year-end (2005: 2.3 times).

During the year the Group issued a $100m Eurobond to Royal Caribbean Cruises Ltd. The Eurobond has a coupon of 6% and matures in March 2009. In addition, the Group negotiated bi-lateral bank facilities with Deutsche Bank (£30m due July 2010) and Société Générale (€18.3m due November 2009).

SHAREHOLDERS' FUNDS

Shareholders' funds have increased in the year to £281.1m (2005: £275.9m). There was a profit for the year of £72.3m (2005: £80.3m) which has been offset by dividends paid and hedge reserve movements.

The Group issued no ordinary shares (2005: nil) in respect of acquisitions.

REGULATIONS, BONDING AND BANKING

The Civil Aviation Authority (CAA), the Federation of Tour Operators (FTO) and the Association of British Travel Agents (ABTA) regulate the businesses based in the UK. Each of these bodies protects the rights of consumers by requiring the Group to lodge security bonds with them.

In the UK, the CAA has been active in lobbying Government to make legislative changes to the bonding regime to ensure that tour operators are not competitively disadvantaged as a result of the current legislation. First Choice Holidays PLC fully supports the CAA's proposal to replace the bonding regime with a small levy per passenger and looks forward to working with the CAA to pursue this change during 2007.

Where international businesses are regulated, the protection of consumers is achieved either by means of cash collateral or bond cover similar to the UK requirements.

TREASURY POLICIES

The Group faces significant financial risks mainly due to the substantial cross-border element of its trading. Currency exchange risk, which arises principally from the mismatch between the Group's UK businesses sterling revenue streams and foreign currency operating costs, is managed by the use of foreign exchange forward, swap and option contracts. Interest rate risk is split into two separate exposures, namely US dollar interest rates on variable rate aircraft leases and loans, and sterling rates on Group cash balances. Both exposures are managed using interest rate derivatives. Finally, the Group's exposure to jet fuel prices is managed using energy swaps and options.

During the year the governance of financial risk, was managed by the Financial Risk Management Committee (FRMC). The Committee, which was created in 2005, reports to the Board of Directors and the Audit Committee and is made up of the relevant senior business employees and technical experts within the Group. Incorporated within its terms of reference is the determination of all treasury policies and the monitoring of the effectiveness of those policies.

Group Treasury implements the agreed policies on a day-to-day basis. The procedures also stipulate the levels of authority applied to dealing and to approving the types of financial instrument, used to manage these exposures. Transactions are only undertaken to hedge underlying exposures. Financial instruments are not traded, nor are speculative positions taken. Regular reports are provided to the Board.

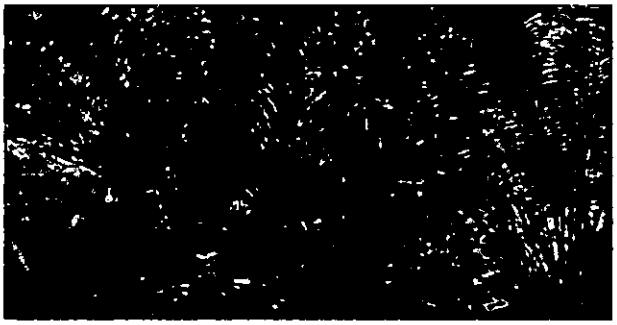
First Choice is leading the way in long-haul flying to destinations with some of the world's most amazing experiences.

Surrounded by a sparkling bay, our newest Sunsail Club, Phokaia is the perfect place to enjoy a variety of watersports.

CHANGE IN ACCOUNTING POLICIES

European and UK legislation requires the Group to adopt International Financial Reporting Standards as adopted for use in the EU (Adopted IFRSs) for the financial year ended 31 October 2006. Accordingly, the interim financial statements at 30 April 2006 and the full statements for the year ended 31 October 2006 have been prepared using the measurement and recognition principles of Adopted IFRSs as opposed to UK Generally Accepted Accounting Practice (UK GAAP). We have provided significant information on the transition to Adopted IFRSs and the impact on the Group's opening balance sheet in IFRS updates in October 2005 and March 2006. These announcements, and the accounting policies used in its preparation, can be found on the First Choice Holidays PLC website www.firstchoiceholidaysplc.com.

As stated in the press releases, while Adopted IFRSs result in certain changes to our financial reporting they have no impact on the underlying value drivers of our business. Our strategy, accordingly, is totally unaffected by these changes. The transition to Adopted IFRSs will not change how the Group is managed and significantly will have no impact on cash generation, which remains a key performance measure. It will also not affect the way that the Group assesses potential investments nor the ability of the Group to pay dividends from cash reserves.



Further details on the Group's accounting policies can be found in note 1 of the financial statements.

SUSTAINABLE DEVELOPMENT

Over the past year sustainable development has continued to be an important part of the business agenda for First Choice and we have undertaken a number of initiatives designed to ensure that our performance in this area continually improves.

Our French customers can travel to some of the world's most beautiful islands, including those of Polynesia, with Tourinter.

We support the Travel Foundation's projects protecting precious natural environments in Mexico.

The Group first published a sustainable development policy in January 2003 which was updated in 2004 and 2005 and signed by Dermot Blastland, Managing Director of the Mainstream Holidays Sector, who takes overall responsibility for sustainable development on behalf of the Board.

Group Sustainable Development Policy
As a leading leisure travel company, we recognise that the environment, the communities and cultures within which we operate, and our relationships with key groups and individuals, are vital to the success of our business. We therefore commit in the long-term to:

- Minimise the direct environmental impact of our operations and to be proactively involved in activities and projects which work to protect and restore the natural environment.
- Work with customers, employees, shareholders, suppliers, industry partners, local communities and other relevant interested parties, to understand and respect their needs and support them so as to deliver commitments.
- Use the collective influence of the First Choice Group responsibly to create momentum within the leisure travel industry for increasingly sustainable tourism.
- Be open, honest and realistic about our environmental and social impacts, targets and achievements in the context of our business objectives.

In support of the above we will work to:

- Engage First Choice employees and gain their commitment to action, by raising awareness of this Policy and increasing their understanding of sustainable development and the benefits of addressing it.
- Prevent pollution wherever possible and continually improve our environmental performance by setting and measuring objectives and targets which address our environmental impacts – principally aircraft noise and emissions, waste, procurement, use of energy, paper and water.
- Promote fair working conditions throughout our own business and our supply chain.
- Comply with all relevant legislation, acting in advance where possible and keep pace with best practice.
- Report current business practices and ensure plans are in place to embed the Company's sustainable development vision.
- Deliver long-term strategic benefit and shareholder value by maximising the synergies that sustainable development provides.

Management of sustainable development
In the past year Dermot Blastland has attended residential training at the Prince of Wales International Business Leaders' Forum and, in the coming year, three additional senior executives will attend Forum for the Future's Sustainability Masterclass with Jonathon Porritt (founder director of Forum for the Future). During the year management teams in each Sector have held sessions to discuss sustainable development, associated risks and

12%

increase in score in Environment section of BITC Corporate Responsibility Survey

100%

of Mainstream Board have at least one personal objective relating to sustainable development

opportunities, their effects in the relevant Sector and to set strategies for progressing action to mitigate these risks and capitalise on the opportunities.

For the first time each member of the Mainstream Sector Board has accepted at least one personal objective for the financial year relating to sustainable development. This will continue into 2006/07 and will be further rolled out across the Group.

Social, environmental and ethical risks are managed through the Group risk management approach. These risks are considered at Sector and Group Risk Management Committees which meet every six months. Each Sector has its own risk register to help manage non-financial risks and these feed into the central Group Risk Register which is reviewed by the Group Risk Management Committee. The Group Risk Management Committee reports through the Audit Committee to the Board. In addition, social and environmental issues are included in the Health, Safety and Environment monthly report made by the Director of Legal Affairs and Company Secretary to the Group Management Board (GMB).

Understanding the business case for sustainable development
We commissioned Forum for the Future to undertake research into the ways in which sustainable development issues impact on our business strategy. In addition to desk research, members of the GMB and their management teams were interviewed and the results were presented to the GMB in July. Climate change, protection of natural resources (such as water), relationships with destination communities and changing consumer trends were identified as key issues and these will be reflected in our sustainable development strategy for 2006/07.

Stakeholder engagement and reporting
We updated our first Environment & People Report in April – this can be found on our dedicated website www.fcenvironmentandpeople.com. This Report is now complete for the year 2004/05 and will be re-published in April 2007 to reflect the Company's performance for the year 2005/06. The Report includes a commitment to continue to develop a consistent approach to sustainable development across the Group, including a set of Group-wide key performance indicators (KPIs) – KPIs already exist for environmental and employee issues in the Mainstream Holidays Sector and performance against these is reported. We will continue to develop KPIs in line with the Global Reporting Initiative where relevant and possible. Forum for the Future reviews our Report and their statement can be found within the Report.

In January 2006 we held our first Stakeholder Forum attended by Dermot Blastland and representatives of our institutional investors, non-governmental organisations, suppliers, Government and employees. This was an opportunity to gather feedback on our performance to date and to identify KPIs of interest to our stakeholders. Throughout the year we have engaged in additional forums held by The Travel Foundation and The Tour Operators' Initiative – organisations which we actively continue to support.

Training in sustainable development
Sustainable development has been integrated into development initiatives for our future leaders. In addition, the Mainstream Holidays Sector has taken the lead in piloting sustainability employee training programmes specific to job functions – in partnership with The Travel Foundation – and these will be rolled out across other Group Sectors.

External benchmarking
During the year we completed the full Business in the Community Corporate Responsibility Survey for the first time and achieved an overall score of 71% – our score on the Environment section continued to rise year-on-year to 77% (2005: 69%). We also continue to be included in the FTSE4Good Index, the ethical investment index run by FTSE which is designed to measure the performance of companies which meet globally-recognised corporate responsibility standards.

Environmental management system
Our established environmental workstreams have continued to make improvements to the way in which we manage our significant environmental impacts in line with ISO 14001. Objectives, targets and performance data are published for two consecutive financial years on www.fcenvironmentandpeople.com. The data we submit to Business in the Environment Survey is independently audited and verified by Bureau Veritas.

Supplier sustainability strategy
We have been working closely with the Federation of Tour Operators to develop a sustainability handbook and checklist for suppliers, primarily accommodation suppliers. This is now complete and we have appointed a consultant to work with our in-house auditors to benchmark the 150 hotels most used by the First Choice Mainstream Sector. We will work with suppliers to encourage continual improvement in environmental and employee management and local community support.

PRINCIPAL RISKS AND UNCERTAINTIES
The Board of First Choice believes that there are a number of potential risks and uncertainties within the Group which could have an impact on the successful growth of the business. The process for identifying and managing risk is set out in more detail in the Corporate Governance and Risk Management sections. The key risks are identified below:

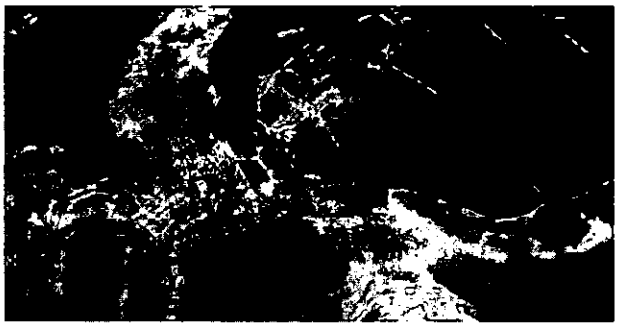
Geo-political events and natural disasters
The nature of our business means that we are at risk of geo-political events or natural disasters affecting our business. It is for this reason that we ensure all our businesses operate with a flexible and efficient business model and minimise the reliance on any one destination.

Commercial relationships
We have well established and close relationships with our suppliers across the Group. We spread our risk by not placing over-reliance on any one supplier in any particular area. However, if a relationship was lost or damaged with a major supplier this could have a detrimental effect on our business. The management teams across the Group meet regularly with our suppliers to maintain good working relationships.

Information technology
The Group is heavily reliant upon information technology with each Sector responsible for its own systems. Investment is being made to ensure that we have advanced and efficient systems across the Group but there is a risk to Sectors if there is a major failure particularly if it affects selling systems. Procedures are in place to minimise the time a selling system is unavailable in the event of such a failure.

Business continuity
The development of the Group, through acquisition, has meant that business continuity plans across the Group are not consistent. Work is currently being undertaken to ensure that these are in place.

Financial risk
Group Finance and Treasury are managed centrally supporting the operating activities of the Group and our exposure to changes in the price of fuel and foreign exchange movements. These departments identify, monitor and manage the financial risks to the business.



Environmental risk
As a tour operator we use aircraft to take people on holidays sometimes to countries where tourism is just developing. We do have an impact on the environment and take our corporate and social responsibilities very seriously at every level. We operate a modern efficient airline and work with the authorities and suppliers in the destinations we serve to ensure that any local environmental impact is minimised in the best interest of the indigenous population.

Acquisitions
As an acquisitive company, we are at risk of an acquisition not performing as anticipated. We have a dedicated corporate finance function and extensive due diligence is undertaken before acquisition. Once acquired, the acquisition target either becomes part of a Sector where it will benefit from being guided by specialists in its market niche or, if it is a large acquisition or in a segment new to the Group, it will report to the central team during an "incubator" phase prior to joining an existing, or forming a new, Sector.

KEY PERFORMANCE INDICATORS
The key performance indicators used by the Group and the Sectors are mentioned in the relevant sections of the Business and Financial Review on pages 4 to 21.

TRENDS
The Group is encouraged by the demand it sees across its businesses for differentiated, specialist leisure travel experiences. In adventure travel we are seeing more and more families wanting to go on holidays which just a few years ago would have been taken by adults only. For our North American customers, expeditions and escorted tours are extremely popular with those who are either time poor or want to visit interesting places without having to arrange anything themselves. Student travel and the traditional graduate Spring Break is an institution in North America but, just as their parents expect more from their vacations, so do the students and successful operators are offering more sophisticated breaks. Similarly, demand is driving an increase in the range and quality of educational tours. Independent travel is growing, particularly across Europe, and we will see an increased need for reliable, well managed online accommodation booking sites. In countries like China, travel outside the country, particularly to other areas of the Asia Pacific region, is becoming increasingly common.

We believe that in the UK, the short-haul mainstream tour operating market will continue to be adversely affected by the continued growth of low-cost airlines which will increasingly serve traditional holiday destinations particularly where they have become popular second home locations. The need for differentiated, exclusive product in this market is key.

Staff at our Holiday Village in Turkey have had training in protecting the nesting sites of turtles.

Spring Break is an institution in North America and our StudentCity representatives ensure our customers enjoy it to the full.

Medium-haul and long-haul destinations will continue to grow but just as customers expect a good value, quality product from short-haul operators, they expect the same in medium and long-haul destinations. Only the most operationally efficient companies will be able to increase margins in this market.

CURRENT TRADING

Winter 2006/07

In the Mainstream Holidays Sector, the UK market continues to remain challenging, as reported at the pre-close trading update on 25 October 2006. The October AC Nielsen Travel Track report identifies total market volumes for the Winter season cumulatively down by 11% and total sales cumulatively down by 9%. Despite the trading environment, Mainstream Holidays Sector volumes are down 1% with sales up 15% due to the continued successful re-mix to the long-haul. This reflects an improvement on Winter trading since the October trading update due to continued strong demand for our long-haul products with volumes up 26% and sales up 40% on capacity that is up around 25%. The AC Nielsen report clearly highlights continuing outperformance by Mainstream versus the competition, but we still expect the rate of sale to slow down as we move into the period in which the largest number of short-haul and medium-haul holidays are sold.

We anticipated that weaker market demand would continue into early Winter trading particularly in the short and medium-haul, and we have, therefore, reduced capacity in these segments by around 10% for Winter 2006/07, with overall capacity flat year-on-year. As disclosed in the October trading update, we expect the Sector to experience margin pressure in the first half of the year due to incremental fuel costs not being fully recovered in the Winter lates market and further investment in our long-haul programme with two additional 767s joining the fleet for operation in Summer 2007.

In the Specialist Holidays Sector, despite market conditions remaining challenging to a number of destinations, trading performance has improved since the October trading update with an improvement in bookings in the European markets as we enter the core booking period. Our North American businesses continue to trade well with revenue per passenger ahead of last year and margins ahead in Student Travel.

Our Activity Holidays Sector is performing strongly with sales 7% ahead. Like-for-like sales across our Adventure businesses are up 5%, while the Marine businesses continue to generate strong revenue growth of 7%.

Online Destination Services are trading well with strong volumes and prices across all routes to market.

Summer 2007

It remains very early in the booking cycle for Summer 2007 across all businesses within the Group, but we are encouraged by performance to date. In the Mainstream Holidays Sector, the market is still suffering from the events of the previous Summer, particularly the thwarted terrorist attacks in August and as a result the October AC Nielsen Travel Track report identifies total market volumes for the Summer season cumulatively down by 14% and revenue down by 11%. We continue to outperform the market and we are currently 13% down on customer volumes which has improved from 18% down six weeks ago and 5% down on sales. Demand for our long-haul product and exclusive differentiated properties continues to drive increases in both sales and volumes, up 17% and 10% respectively. We have reduced capacity for short-haul and medium-haul programmes in line with anticipated demand, with overall capacity remaining flat year-on-year. Our Activity Holidays Sector and Online Destination Services Sector continue to see strong volumes and prices for the Summer season. The Specialist Holidays Sector programme has yet to go on sale.

OUTLOOK

As we enter the key booking periods for both Winter and Summer 2007 holidays, it is clear that our portfolio of businesses continues to outperform the market.

Our business model is constantly evolving to ensure that we maintain flexibility and continue to offer our customers the range of differentiated and exclusive leisure travel experiences they desire.

We are confident that our combination of organic and acquisition led growth will continue to generate superior returns and enhance shareholder value, as the platform we have established delivers sustainable long-term growth.

1. Accounting policies

First Choice Holidays PLC is a company incorporated in England and Wales. The Group financial statements consolidate those of the Company and its subsidiaries (together referred to as "the Group") and equity account the Group's interest in joint ventures and associates. The parent company financial statements present information about the Company as a separate entity and not about the Group.

(A) Basis of preparation

The consolidated financial statements have been prepared and approved by the Directors in accordance with International Financial Reporting Standards as adopted by the European Union (Adopted IFRSs). The Company has elected to prepare its parent company financial statements in accordance with UK GAAP. These are presented separately on pages 75 to 79. The financial statements are presented in the Group's functional currency of Sterling, rounded to the nearest hundred thousand.

The Group believes that underlying operating profit, underlying profit before tax and underlying earnings per share provide additional guidance to statutory measures on the underlying performance of the business during the financial year.

The term underlying is not defined under International Financial Reporting Standards. It is a measure that is used by management to assess the underlying performance of the business internally and is not intended to be a substitute measure for Adopted IFRSs GAAP measures.

The Group defines these underlying measures as follows:

- Underlying operating profit is profit before financial income and expense, taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill.
- Underlying profit before tax is profit before taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill.
- Underlying profit after tax is profit before separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill (all net of tax).
- Underlying earnings are underlying profit after tax less minority interests and preference dividends.
- Underlying earnings per share is underlying earnings divided by the weighted average number of ordinary shares in issue during the financial period, excluding those held by employee share ownership trusts.

It should be noted that the definitions of underlying items being used in these financial statements are those used by the Group and may not be comparable with the term "underlying" as defined by other companies within both the same sector or elsewhere.

The presentation of revenue and cost of sales has been revised to more accurately reflect the nature of the activities undertaken in the Online Destination Services Sector, where the Sector acts as an intermediary between service provider and end customer. This change has reduced the previously reported comparative ODS revenue and cost of sales figures by £137.0m each. Revenue in note 2 is presented on this revised basis. This basis has been used for the years ended 31 October 2006 and 2005. However the prior years 2002, 2003 and 2004 have not been restated.

(B) Transition to Adopted IFRSs

The Group is preparing its financial information in accordance with Adopted IFRSs for the first time and consequently has applied IFRS 1: "First-time adoption of International Financial Reporting Standards".

The preparation of the consolidated financial statements in accordance with Adopted IFRSs resulted in changes to the accounting policies as compared with the 2005 annual financial statements prepared under UK GAAP. With the exception of accounting policies in respect of financial instruments, the accounting policies set out below have been applied consistently to all years presented in these consolidated financial statements. They have also been applied in preparing an opening Adopted IFRSs balance sheet at 1 November 2004 for the purposes of the transition to IFRS, as required by IFRS 1. The impact of the transition from previous UK GAAP to Adopted IFRSs is explained in note 33.

The consolidated financial statements are prepared on the historical cost basis other than, from 1 November 2005, derivative financial instruments, financial instruments held for trading and financial instruments classified as available for sale, which are stated at their fair value. Non-current assets held for sale are stated at the lower of their carrying amount and fair value less costs to sell.

The Group has adopted the transitional rules of IFRS 1 and has therefore adopted IAS 32: Financial Instruments "Disclosures and Presentation" and IAS 39: Financial Instruments "Recognition and Measurement" and IFRS 7 "Financial Instruments" with effect from 1 November 2005. In the comparative financial year the previous UK GAAP accounting policy has been applied. A reconciliation showing the impact of the adoption of these standards from 1 November 2005 is provided in note 33 and further details of the change in accounting policy are provided in (E). The Group has early adopted IFRS 7 in the year ending 31 October 2006 which replaces the disclosure requirements of IAS 32.

In addition, IFRS 1 grants certain exemptions from the full requirements of other Adopted IFRSs on transition. The following exemptions permitted under IFRS 1 have been taken in these Group financial statements:

(i) Business combinations
Business combinations that took place prior to 1 November 2004 have not been restated.

(ii) Foreign exchange
Cumulative translation differences for all foreign operations have been set at zero at 1 November 2004.

(iii) Share-based payments
IFRS 2: "Share-based payments" has only been applied in respect of share options issued after 7 November 2002.

(C) Basis of consolidation

The consolidated financial statements of the Group comprise the Company and its subsidiaries (together referred to as the Group) and the Group's interest in associates and jointly controlled entities.

(i) Subsidiaries
Subsidiaries are entities controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial information from the date that control commences until the date that control ceases.

1. **Accounting policies** continued

(ii) Joint ventures and associates
Joint ventures are jointly controlled entities over whose activities the Group has the power to jointly control, established by contractual agreement.

Associates are those entities in which the Group has the ability to exercise significant influence, but not control, over the financial and operating policies.

The consolidated financial statements includes the Group's share of the total recognised income and expense of joint ventures and associates on an equity accounted basis, from the date that joint control or significant influence respectively commences until the date that it ceases. When the Group's share of losses exceeds the carrying amount of the joint venture or associate, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture or associate.

(iii) Transactions eliminated on consolidation
Intra-group balances and any unrealised gains or income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with associates and jointly controlled entities are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(D) Foreign currency
(i) Foreign currency transactions
Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Sterling at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to Sterling at foreign exchange rates ruling at the dates the fair values were determined.

(ii) Foreign operations
The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on consolidation, are translated to Sterling at the foreign exchange rates ruling at the balance sheet date.

The revenues and expenses of overseas operations are translated at rates approximating to the foreign exchange rates ruling at the dates of the transactions. Foreign exchange differences arising on retranslation are recognised directly in equity in a foreign exchange reserve.

(iii) Net investment in foreign operations
Exchange differences arising from the translation of the net investment in foreign operations and of related hedges are taken to the foreign exchange reserve. They are released into the income statement upon disposal.

(E) Derivative financial instruments
The Group uses derivative financial instruments to hedge its exposure to foreign exchange, interest rate and fuel price risks arising from operational, financing and investment activities.

In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments from 1 November 2005.

As set out in (B), the Group has adopted IAS 32 and IAS 39 only with effect from 1 November 2005:

(i) Accounting policy up to 1 November 2005
Instruments accounted for as hedges were designated as a hedge at the inception of the contracts. Gains and losses arising on foreign currency and fuel hedges were recognised on maturity of the underlying transaction. Interest differentials on derivative instruments and amounts receivable and payable on interest rate instruments were recognised as adjustments to interest over the period of the contracts. Gains and losses arising on hedging instruments which are cancelled due to the termination of the underlying exposure were taken to the profit and loss account immediately.

(ii) Accounting policy from 1 November 2005
Derivative financial instruments are stated at fair value. The gain or loss on re-measurement to fair value is recognised immediately in the income statement. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged (see accounting policy (F)).

The fair value of interest rate swaps is the estimated amount that the Group would receive or pay to terminate the swap at the balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparties. The fair value of forward exchange contracts and fuel price contracts is their quoted market price at the balance sheet date, being the present value of the quoted forward price.

(F) Hedge accounting
The following accounting policy has been applied with effect from 1 November 2005. Prior to this date, the accounting policy for the period up to 1 November 2005, set out in (E), was followed.

(i) Cash flow hedges
Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probably forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in the hedging reserve. Any ineffective portion of the hedge is recognised immediately in the income statement.

When the forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated cumulative gain or loss is removed from the hedging reserve and is included in the initial cost or other carrying amount of the non-financial asset or liability.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains and losses that were recognised directly in equity are reclassified into the income statement in the same period or periods during which the asset acquired or liability assumed affects profit or loss.

1. Accounting policies continued

For cash flow hedges, other than those covered by the preceding two policy statements, the associated cumulative gain or loss is removed from equity and recognised in the income statement in the same period or periods during which the hedged forecast transaction affects the income statement.

Prospective hedge effectiveness is performed at the commencement of hedge accounting through comparison of the critical terms of the hedged forecast transaction and the hedging instrument. Critical terms are the maturity, amount and currency of the cash flows relating to the hedging instrument and the forecast hedged transaction. Retrospective hedge effectiveness is performed at each reporting date principally using a dollar offset analysis, comparing the cumulative changes in the fair values of the forecast hedged transaction and the hedging instrument.

When a hedging instrument expires or is sold, terminated or exercised, or the entity revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity and is recognised in accordance with the above policy when the transaction occurs. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss recognised in equity is recognised in the income statement immediately.

(ii) Fair value hedges
Where a derivative financial instrument is designated as a hedge of the variability in fair value of a recognised asset or liability or an unrecognised firm commitment, all changes in the fair value of the derivative are recognised immediately in the income statement. The carrying value of the hedged item is adjusted by the change in fair value that is attributable to the risk being hedged (even if it is normally carried at cost or amortised cost) and any gains or losses on re-measurement are recognised immediately in the income statement (even if those gains would normally be recognised directly in reserves).

(G) Revenue
Revenue represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business. Revenue excludes intra-group transactions and is stated after the deduction of trade discounts and commissions.

(i) Goods sold and services rendered
Revenue from sale of goods is recognised in the income statement when the significant risks and rewards or ownership have been transferred to the buyer. Revenue in respect of in-house product is recognised on the date of departure. Travel agency commissions and other revenues received from the sale of third-party product are recognised when they are earned on receipt of final payment.

No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, associated costs or possible return of goods.

(ii) Client monies received in advance (deferred income)
Client monies received at the balance sheet date relating to holidays commencing and flights departing after the year end is deferred and included within trade and other payables.

(iii) Valuation of revenue
Where the Group acts as principal, revenue is stated at the contractual value of goods and services provided, net of variable distribution costs such as agents' commissions and "click costs".

Where the Group acts as agent and collects amounts on behalf of the principal provider of goods or services, revenue is stated at the value of the commissions earned and not the total transaction sales value.

Where the Group acts as intermediary between the service provider and the end customer, revenue is presented on a net basis as the difference between the sales price to the customer and the cost of the services purchased. Businesses are identified as intermediaries dependent on: the control exercised over the provision of service: inventory risk; and customer credit risk.

(H) Expenses
(i) Operating lease payments
Payments made under operating leases are recognised in the income statement on a straight-line basis over the term of the lease or on another systematic basis if this is more representative of the time pattern of the benefit from use of the leased asset. Lease incentives received are recognised in the income statement as an integral part of the total lease expense over the term of the lease.

(ii) Finance lease payments
Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

(iii) Marketing and other direct sales costs
Marketing, advertising and other promotional costs, including those related to the production of brochures, are expensed as incurred.

(I) Taxation
Income tax on profit or loss comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

(i) Current tax
Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

(ii) Deferred tax
Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax asset provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

1. Accounting policies continued

(iii) A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(J) Property, plant and equipment

(i) Owned assets
Items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Where significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

(ii) Leased assets
Leases in which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Leased assets acquired by way of a finance lease are stated at an amount equal to the lower of their fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Lease payments are accounted for as set out in (H) above.

(iii) Depreciation
Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Freehold land is not depreciated. The useful economic lives are as follows:

Freehold properties	–	50 years
Short leasehold properties	–	Lease period or useful economic life if shorter
Finance lease aircraft and equipment	–	Lease period or useful economic life if shorter
Aircraft spares	–	12 years
Yachts	–	15 years
Motor boats	–	24 years
Retail computer equipment	–	5 years
Computer equipment	–	3 – 5 years
Retail fixtures and fittings	–	8 years
Other assets	–	4 years

The residual values and useful lives of all assets are re-assessed annually.

(K) Intangible assets

(i) Owned assets
All business combinations are accounted for by applying the purchase method.

Goodwill represents amounts arising on acquisition of subsidiaries, associates and jointly controlled entities. In respect of business acquisitions that have occurred since 1 November 2004, goodwill represents the difference between the fair value of consideration paid and the fair value of the net identifiable assets and contingent liabilities acquired. Identifiable intangibles are those which can be sold separately or which arise from legal rights regardless of whether those rights are separable. Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is not amortised but is tested annually for impairment. In respect of joint ventures and associates, the carrying amount of goodwill is included in the carrying amount of the investment in the associate.

In respect of acquisitions prior to 1 November 2004, goodwill is included at 1 November 2004 on the basis of its deemed cost, which represents the amount recorded under UK GAAP which was broadly comparable save that only separable intangibles were recognised and goodwill was amortised. Amortisation of goodwill ceased on 1 November 2004. This goodwill is tested annually for impairment.

Purchased goodwill in respect of acquisitions before 1 January 1998 was written off to reserves in the year of acquisition, in accordance with the accounting standard then in force.

Fair value adjustments are made in respect of acquisitions. If at the balance sheet date, the amounts of fair values of the acquiree's identifiable assets and liabilities can only be established provisionally, then these values are used. Any adjustments to these values are taken as adjustments to goodwill and must be recorded within 12 months of the acquisition.

Negative goodwill arising on an acquisition is recognised in the income statement.

(ii) Computer software
Computer software consists of all software that is not an integral part of the related computer hardware and is stated at cost less accumulated amortisation and impairment losses.

(iii) Other intangible assets
Other intangible assets that are acquired by the Group are stated at cost less accumulated amortisation and impairment losses.

(iv) Amortisation
Amortisation is charged to the income statement on a straight-line basis over the estimated useful economic life of each type of intangible asset as follows:

Computer software	–	3 – 5 years
Brands	–	10 years
Order book at date of acquisition	–	When travel occurs
Customer databases	–	Over the period to which value will be obtained by the Group (up to 3 years)

Goodwill is not amortised but is systematically tested for impairment at each balance sheet date.

(L) Investments
Trade investments are classified as available for sale assets and are included under non-current assets. They are recorded at market value with movements in value taken to equity. Any impairment to value is recorded in the income statement.

Short-term investments in debt and equity securities which are held for trading are classified as current assets and are stated at fair value, with any resultant gain or loss recognised in the income statement.

(M) Impairments
The carrying amount of the Group's assets, other than deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such an indication exists, the assets recoverable amount is estimated. For goodwill, the recoverable amount is estimated at each balance sheet date.

1. Accounting policies continued

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised separately in the income statement. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of goodwill allocated to cash-generating units and then to reduce the carrying amount of other assets in the unit on a pro rata basis. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. Goodwill was tested for impairment as at 1 November 2004, the date of transition to Adopted IFRSs, even though no indication of impairment existed.

The recoverable amount of the Group's receivables which are carried at amortised cost is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets). Receivables with a short duration are not discounted. The recoverable amount of other assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed when there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount.

(N) Cash and cash equivalents
Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose only of the statement of cash flows.

(O) Interest-bearing borrowings
Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any differences between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest rate basis.

(P) Provisions
A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

In respect of aircraft, due to the legal obligations placed upon the Group under the terms of certain operating leases, provision is made for the maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares. The provision is based on total anticipated costs over the useful economic life of the asset calculated by reference to costs experienced and published manufacturers data. The charge to the income statement is calculated by reference to the number of hours and cycles flown and by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised and depreciated over the period until the next scheduled major overhaul.

(Q) Other financial assets and other financial liabilities
Trade and other receivables are stated at their nominal amount (discounted if material) less impairments.

Trade and other payables are stated at cost.

(R) Dividends
Dividend distribution to the Company's shareholders is recognised as a liability in the Group's financial statements in the period in which the dividends are appropriately authorised and approved for payment and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

(S) Employee benefits
(i) Defined contribution plans
Obligations for contributions to defined contribution pension plans are recognised as an expense in the income statement as incurred.

(ii) Defined benefit plans
The Group's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The calculation is performed by a qualified actuary using the projected unit credit method.

When the benefits of a plan are improved, the portion of the increased benefit relating to past services by employees is recognised as an expense in the income statement on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the income statement.

All actuarial gains and losses at 1 November 2004, the date of transition to IFRS, were recognised. The Group has early adopted the amendments to IAS 19, "Employee Benefits". Consequently, all actuarial gains and losses since 1 November 2004 are recognised in the period they occur directly in equity through the statement of recognised income and expense.

Pension liabilities are funded by monthly or annual contributions.

1. Accounting policies continued

(iii) Share-based payment transactions
The Group's share option programmes allow Group employees to acquire shares of the ultimate parent company; these awards are granted by the ultimate parent. The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employee becomes entitled to the options.

The fair value of the options granted is measured using option valuation models, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest except where forfeiture is due only to market-based performance conditions not achieving the threshold for vesting.

This accounting policy relates only to share options issued post 7 November 2002, in line with the transitions rules of IFRS 2.

(iv) Own shares held by an ESOP trust
Transactions of the Group sponsored ESOP trust are included in the Group financial statements. In particular, the trust's purchase of shares in the Company are debited directly in equity to retained earnings.

(T) Non-current assets held for sale and discontinued operations
A non-current asset or a group of assets containing a non-current asset is classified as held for sale if its carrying amount will be recovered principally through sale rather than through continuing use, it is available for immediate sale and sale is highly probable within one year.

On initial classification as held for sale, non-current assets and disposal groups are measured at the lower of previous carrying amount and fair value less costs to sell with any adjustments taken to profit or loss. The same applies to gains and losses on subsequent re-measurement.

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations or is a subsidiary acquired exclusively with a view to resale, that has been disposed of, has been abandoned or that meets the criteria to be classified as held for sale.

(U) Related parties
For the purpose of these financial statements, parties are considered to be related to the Group if the Group has the ability directly or indirectly, to control the party or exercise significant influence over the party making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

(V) Segment reporting
A segment is a distinguishable component of the Group that is engaged either in providing services (business segment) or in providing services within a particular economic environment (geographic segment) which is subject to risks and rewards that are different from those of other segments.

(W) IFRS not yet adopted
The Company has not adopted amendments to IAS 39 and IFRS 4 in relation to financial guarantee contracts which will apply for periods commencing on or after 1 January 2006. Where the Company enters into financial guarantee contracts to guarantee the indebtedness of other companies within its group, the Company considers these to be insurance arrangements and accounts for them as such. In this respect, the Company treats the guarantee contract as a contingent liability until such time as it becomes probably that the Company will be required to make a payment under the guarantee. The Company does not expect the amendments to have any impact on the financial statements for the period commencing 1 November 2006.

IFRIC 4 "Determining whether an Arrangement contains a Lease" requires that an entity should base its assessment of whether an arrangement is, or contains, a lease on its substance rather than its legal form. IFRIC 4 will be effective for the Group for the first time in the year ended 31 October 2007. To date a preliminary assessment has been undertaken. The new guidance is likely to require additional disclosures for arrangements that are, in substance, similar to leases, including certain yacht investor schemes. However, the basis of measurement of these schemes is not expected to change and no affect is expected in the income statement or balance sheet.

2. Segmental Information

Segmental information is presented in the primary format by the Group's business sectors and, in the secondary format, analysed by geography. Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items include financial income, financial expense and corporate assets and liabilities.

(A) Sector analysis

The Sector analysis is based on the Group's management and reporting structure. A detailed explanation of each sector is included in the Business and Financial Review.

Year ended 31 October 2006

(B) Geographical analysis of business

In presenting information on the basis of secondary geographic segments, segment revenue is based on the geographic location of the customer that generated that revenue. Segment assets and capital expenditure is based on the geographical location of the assets. Other Europe is defined as Continental Europe and Eire excluding France, whilst America includes North and South America and Canada.

	UK		France		Other Europe		America		Rest of the World		Total	
	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m

Total administrative expenses	(250.2)	(38.8)	(289.0)	(242.7)
Share of profit of joint venture and associate (net of tax)	2.8	–	2.8	1.9
Operating profit/(loss)	117.9	(2.2)	115.7	117.4
Analysed as:				
Underlying profit before interest and tax	127.0	8.4	135.4	120.2
Separately disclosed items	(4.1)	(1.7)	(5.8)	–
Amortisation of business combination intangibles	(2.4)	(8.9)	(11.3)	(1.9)
Impairment of goodwill	(1.4)	–	(1.4)	–
Taxation on profits of joint venture and associate	(1.2)	–	(1.2)	(0.9)
Operating profit/(loss)	117.9	(2.2)	115.7	117.4

Amortisation of business combination intangibles disclosed relates to the amortisation of intangible assets arising on acquisition of companies since 1 November 2004.

3. Separately disclosed items

	2006 £m	2005 £m
Reorganisation of back office functions	3.2	–
Business restructuring costs	10.6	–
Other items	(8.0)	–
	5.8	–

Reorganisation of back office functions
Following a strategic review of the Group's UK Mainstream operations, a decision has been made to outsource certain back office functions. This outsourcing is planned to commence in the first half of financial year 2007. The separately disclosed items incurred for this in 2006 of £3.2m relate to set up costs for the outsourced operations and provision for redundancy costs associated with the relocation.

Business restructuring costs
In line with the Group's strategy of remaining cost competitive, during the year a comprehensive review of under performing businesses was performed. This review has resulted in the closure of the Marmara Portugal operation and restructuring of other business units. Costs of £10.6m have been incurred, principally in relation to redundancy and other closure costs associated with the restructuring activities in the Specialist, Activity and Mainstream sectors.

Other items
There have been a number of favourable developments and outcomes in respect of certain commercial transactions and legal settlements in the year. In addition, management has undertaken a review of other accruals. Whilst none of these items are individually significant, it is considered appropriate to separately disclose the aggregate of £8.0m.

4. Net financing expenses

Financial income	2006 £m	2005 £m
Bank interest receivable	5.0	4.7
Interest on pension scheme assets	3.9	3.0
	8.9	7.7

Financial expense	2006 £m	2005 £m
Bank interest payable on loans and overdrafts	(21.5)	(7.3)
Interest on pension scheme liabilities	(4.5)	(3.8)
Finance lease charges on leases	(1.1)	(1.8)
	(27.1)	(12.9)
Net financing expenses	(18.2)	(5.2)

5. Employees

(A) Average number of employees by sector	2006 Total	2005 Total
Mainstream Holidays	7,618	8,035
Specialist Holidays	2,914	2,983
Activity Holidays	3,282	2,340
Online Destination Services	1,504	1,193
	15,318	14,551

(B) Staff costs	2006 Total	2005 Total
Wages and salaries	256.3	252.2
Social security costs	32.7	30.2
Pension costs	12.2	12.2
	301.2	294.6

Details of the emoluments of Directors (including details of share options, long-term incentive scheme interests and pension entitlements) are set out in the Report of the Board to Shareholders on Directors' Remuneration on pages 85 to 91.

(C) Pension costs

The Group operates pension schemes for employees eligible and wishing to participate in the schemes. The assets of all the schemes are held separately from the assets of the Group.

Funded defined contribution schemes for employees and Directors (Group schemes)

Pension costs of £8.6m (2005: £8.8m) relating to defined contribution schemes were charged to the income statement.

Funded defined benefit schemes

The Group sponsors three defined benefit schemes, the Air 2000 Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme and the Emerald Star Line scheme. The contributions required are determined by a qualified actuary on the basis of triennial valuations using the projected unit method.

All three defined benefit schemes are closed to new entrants and under the projected unit method, the service cost as a percentage of pensionable payroll will increase as the members of the scheme approach retirement.

Valuations of the schemes are made by qualified actuaries using market based valuations for the assets and attained age method for the liabilities. The Group recognises all actual gains or losses in the consolidated statement of recognised income and expense.

5. Employees continued

Air 2000 scheme
The last full actuarial valuation of the scheme was carried out by a qualified independent actuary as at 1 November 2003 and this has been updated on an approximate basis to 31 October 2006 for these financial statements.

In the last full actuarial valuation, the principal valuation assumptions used were rates of investment return of 7.25% per annum compound (pre-retirement) and 5.5% per annum compound (post-retirement) and a rate of salary increase of 4.75% per annum compound. The market value of the scheme's assets as 1 November 2003 was £18.5m, representing 59% of the benefits that had accrued to members after allowing for expected future increases in earnings.

The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contributions from 1 June 2004 onwards are 34.2% of contribution salaries for Flight Deck staff and 30.1% for Ground and Administrative staff. From 1 June 2004 to 31 March 2005 Flight Deck staff have a contribution rate of 7%, from 1 April 2005 to 31 December 2005 8% and from 1 January 2006 onwards 10%. From 1 June 2004 to 31 March 2005 Ground and Administrative staff have a contribution rate of 5%, from 1 April 2005 to 31 March 2006 6% and from 1 April 2006 onwards 7%.

The signed Schedule of Contributions dated 30 March 2006 stated that the Group's contributions from 1 April 2006 onwards would be 34.2% for Flight Deck staff and 30.1% for Ground and Administrative staff for members not participating in the salary sacrifice of member contributions. If members participate in salary sacrifice then the Group's contributions will be 44.2% for Flight Deck staff and 37.1% for Ground and Administrative staff.

From 1 April 2006, Flight Deck staff will have a contribution rate of 10% and Ground and Administrative staff will have a contribution rate of 7.1%. If members participate in the salary sacrifice of member contributions their contribution rate will be 0%.

In addition, special employer contributions have been paid on 1 June 2006 of £3.5m. Further special employer contributions are payable as follows: £3.4m no later than 1 June 2007 and £0.9m each no later than 1 June 2008, 2009 and 2010 respectively.

The next valuation will be performed and reflected in the accounts for the year ending 31 October 2007.

Unijet scheme
The last full actuarial valuation of the scheme was carried out by a qualified independent actuary as at 1 November 2003 and this has been updated on an approximate basis to 31 October 2006 for these financial statements.

In the last full actuarial valuation, the principal valuation assumptions used were the rates of investment return of 7.25% per annum compound (pre-retirement) 5.5% per annum compound (post-retirement) and a rate of salary increase of 4.75% per annum compound. The market value of the scheme's assets at the date of the last actuarial valuation was £12.3m, representing 61% of the benefits that had accrued to members after allowing for expected future increases in earnings. The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contribution rate from 1 November 2004 to 31 August 2005 is 16.4% of pensionable salaries and from 1 September 2005 onwards 32.1%. From 1 November 2004 to 31 March 2005 employees have a contribution rate of 7%, from 1 April 2005 to 31 December 2005 8% and from 1 January 2006 onwards 10%.

The signed Schedule of Contributions dated 30 March 2006 stated that the Group contributions from 1 April 2006 onwards would be 32.1% for employees not participating in the salary sacrifice of member contributions and if employees participate the Group contributions will be 42.1%.

From 1 April 2006, employees will have a contribution rate of 10% and if employees participate in the salary sacrifice of members contributions their contribution rate will be 0%.

In addition, special employer contributions have been paid on 1 June 2006 of £2.45m. Further special employer contributions are payable as follows: £2.5m no later than 1 June 2007, and £1.2m each no later than 1 June 2008, 2009 and 2010 respectively.

The next valuation will be performed and reflected in the accounts for the year ending 31 October 2007.

Emerald Star Line scheme
The last full actuarial valuation was carried out by a qualified independent actuary as at 1 July 2005. The principal valuation assumptions used were the rates of investment return of 8.0% per annum compound and a rate of salary increase of 4.0% per annum compound. From July 2005 the Group has contributed at an average rate of 2.5% of contributory earnings. Employees do not contribute. The market value of the scheme's assets at the date of the last actuarial valuation was £1.1m.

The next valuation will be performed and reflected in the accounts for the year ending 31 October 2008.

5. **Employees** continued

Disclosure information-funded defined benefit pension schemes

The assets of each scheme have been taken at market value and liabilities have been calculated using the following principal assumptions:

	Emerald Star Line Scheme per annum		Air 2000 Scheme per annum		Unijet Scheme per annum	
	2006 %	2005 %	2006 %	2005 %	2006 %	2005 %
Inflation	2.25	2.25	2.90	3.00	2.90	3.00
Salary increases	4.00	4.00	4.90	5.00	4.90	5.00
Rate of discount	4.00	4.00	5.10	5.20	5.10	5.20
Pension in payment increases			3.00	3.00	3.00	3.00
Revaluation rate for deferred pensioners			2.90	3.00	2.90	3.00

The mortality assumptions underlying the value of the accrued liabilities for the Air 2000 and Unijet schemes are based on the following life expectancies from age 65:

	Air 2000 and Unijet schemes	
	Years 2006	Years 2005
Males		
Current pensioner	21.8	21.7
Future pensioner (aged 50)	22.7	22.7
Females		
Current pensioner	24.7	24.6
Future pensioner (aged 50)	25.6	25.6

On this basis, the balance sheet figures are as follows:

	Emerald Star Line Scheme		Air 2000 Scheme		Unijet Scheme		Total	
	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m
Assets	1.8	1.6	39.0	30.4	26.2	19.5	67.0	51.5
Liabilities	(1.3)	(1.1)	(53.0)	(50.2)	(37.4)	(34.4)	(91.7)	(85.7)
Surplus/(deficit)	0.5	0.5	(14.0)	(19.8)	(11.2)	(14.9)	(24.7)	(34.2)

The above disclosed position is different to that determined for the long-term funding of the schemes, as different assumptions have been used.

The fair value of assets of the schemes at 31 October 2006 and 31 October 2005 are as follows:

	Emerald Star Line Scheme		Air 2000 Scheme		Unijet Scheme		Total		Expected returns on all schemes	
	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 %	2005 %
Equities	1.4	1.2	25.5	19.8	17.0	12.7	43.9	33.7	7.72	7.95
Bonds	0.2	0.2	13.4	10.5	9.1	6.7	22.7	17.4	4.99	4.98
Cash and other short-term assets	0.2	0.2	0.1	0.1	0.1	0.1	0.4	0.4	4.95	4.75
	1.8	1.6	39.0	30.4	26.2	19.5	67.0	51.5		

The fair value of the schemes' assets are not intended to be realised in the short-term and may be subject to significant change before they are realised.

Changes in the present value of scheme assets are as follows:

	Emerald Star Line Scheme		Air 2000 Scheme		Unijet Scheme		Total	
	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m	2006 £m	2005 £m

The trend history of experience gains and losses for the years ended 31 October 2006 and 31 October 2005 is shown in the above table.

5. Employees continued

(D) Share options

The Company has established four principal share award/option schemes which are designed to link remuneration to the future performance of the Group: a senior executive performance related share option scheme as well as alternative long-term incentive schemes known as the Restricted Share Plan (RSP), the Deferred Annual Bonus Scheme (DABS) and the Performance Share Plan (PSP), all of which are as described on pages 86 and 87, along with the relevant vesting criteria.

Options granted and outstanding as well as shares awarded and outstanding in respect of unissued ordinary shares, are as follows:

	No. of shares	Option exercise price (p)	Date first exercisable
Senior Executive Plan	3,200,914	109.50	30 October 2007
	2,661,081	135.25	9 December 2008
Restricted Share Plan	24,099	N/A	14 December 2002
	2,608,508	N/A	31 October 2006
	2,636,034	N/A	9 December 2006
	154,333	N/A	23 December 2006
	125,823	N/A	1 April 2007
	14,212	N/A	28 April 2007
	87,976	N/A	27 July 2007
	419,548	N/A	13 October 2007
	2,827,113	N/A	14 December 2007
	267,536	N/A	23 December 2007
Deferred Annual Bonus Scheme	2,477,581	N/A	14 December 2008
Performance Share Plan	2,742,632	N/A	14 December 2008
	206,342	N/A	19 June 2009
	20,453,732		

As at 31 October 2006 there were 5,152,414 (2005: 7,565,589) ordinary shares held by the First Choice Employee Benefit Trust. The Trust is funded by the Group by way of loans.

The number of share options is as follows:

	Number of awards/ options 2006	Number of awards/ options 2005
Outstanding at beginning of the year	**19,125,375**	20,480,130
Forfeited during the period	**(1,427,680)**	(754,402)
Exercised during the period	**(2,984,771)**	(4,178,601)
Granted during the period	**5,740,808**	3,578,248
Outstanding at the end of the year	**20,453,732**	**19,125,375**

No awards or options were exercisable at the end of the year (2005: nil).

The fair value of services received in return for share options granted is measured by reference to the fair value of share options granted. The estimate of fair value of services received is measured using binomial or simulation valuation models, depending on the vesting criteria. The following variables are built into these models at the date of granting of the options:

	2006	2005	2004	2003
Information relating to fair values of share option and awards granted				
Fair value at measurement date	**£1.35 – £2.02**	£0.92 – £1.32	£1.05 – £1.19	£0.68 – £0.85
Share price	**£2.17 – £2.29**	£1.52 – £1.53	£1.21 – £1.37	£0.78 – £0.98
Exercise price	**0**	0	0	0
Expected volatility	**23.4% – 27.8%**	32.1% – 32.7%	34.3% – 39.4%	38.8% – 39.4%
Option life	**3 years**	3 – 4 years	3 – 5 years	3 – 4 years
Expected dividends	**4.0%**	4.0%	4.0%	4.0%
Risk free interest rate	**4.29% – 4.32%**	4.4% – 4.5%	4.6% – 5.2%	3.8% – 4.2%

Expected volatility is based on historic volatility adjusted for changes to future volatility indicated by publicly available information. Share options are granted under a service condition.

5. Employees continued

Employee expenses for the year relating to share based schemes are:

	2006 £m	2005 £m
Share options granted in 2003	–	0.2
Share options granted in 2004	2.1	1.8
Share options granted in 2005	1.1	1.0
Share options granted in 2006	2.7	–
Expense arising for share appreciation rights	0.2	0.2
Changes in fair value of share appreciation rights	–	0.1
	6.1	3.3
Total carrying amount of share appreciation liabilities	0.2	0.2

The future estimated expense for share option schemes outstanding at 31 October is:

	2006 £m	2005 £m
To be incurred within one year	5.9	4.1
To be incurred after more than one year	5.0	4.4
	10.9	8.5

6. Income, expenses and auditor remuneration

	2006 £m	2005 £m
Included in profit for the year are the following:		
Operating lease income, aircraft	(5.6)	(6.0)
Operating lease rentals, land and buildings	39.8	43.0
Operating lease rentals, aircraft and other equipment	76.9	74.2
Depreciation of property, plant and equipment	38.8	36.0
Amortisation of intangible assets	17.4	7.4
Charge for share based payments	6.1	3.2
Gain on sale of property plant and equipment	(0.9)	(0.4)
(Loss)/gain on foreign currency retranslation	(0.2)	(2.2)
Government grants	(0.3)	(0.9)
Impairment of goodwill on closure of business	1.4	–
Auditors' remuneration		
Auditors' remuneration for these financial statements and other Group subsidiary financial statements pursuant to legislation	0.9	0.8
Other services pursuant to legislation (regulatory reporting)	0.1	0.1
Services relating to corporate finance transactions	0.1	0.1
Other services	0.2	0.1

Other services relate to accounting advice in respect of the transition to Adopted IFRSs. The audit fee for the Company was £11,000 (2005: £10,250).

7. Taxation

The tax charge can be summarised as follows:

	2006 £m	2005 £m
(i) Analysis of charge in year		
Current tax expense:		
UK corporation tax on profits of the year	–	23.7
Non-UK tax on profits of the year	8.2	9.7
Adjustments in respect of previous years	(2.5)	1.0
	5.7	34.4
Deferred tax expense:		
Origination and reversal of timing differences:		
– Current year UK	17.9	(2.6)
– Current year non-UK	(0.9)	1.9
– Adjustments in respect of previous years	2.5	(1.8)
	19.5	(2.5)
Total income tax expense in income statement	25.2	31.9

(ii) Reconciliation of effective tax rate

The total tax charge for the year is lower (2005: lower) than the standard rate of corporation tax in the UK of 30% (2005: 30%). The differences are explained below:

	2006 £m	2006 %	2005 £m	2005 %
Profit before tax reported in the income statement	97.5		112.2	
Less share of profit in joint venture and associate	(2.8)		(1.9)	
	94.7		110.3	
Income tax on profit before tax excluding share of joint venture and associate at the standard rate of UK tax of 30% (2005: 30%)	28.4	30.0%	33.1	30.0%
– Expenses not deductible for tax purposes	0.3	0.3%	2.5	2.2%
– Utilisation of tax losses	(6.5)	(6.9)%	(2.7)	(2.5)%
– Non-utilisation of tax losses	2.8	3.0%	2.2	2.0%
– Higher tax rates on overseas earnings	1.7	1.8%	1.4	1.3%
– Lower tax rates on overseas earnings	(1.5)	(1.6)%	(3.8)	(3.4)%
– Adjustments to tax charge in respect of previous periods	–	–	(0.8)	(0.7)%
Total income tax expense in income statement	25.2	26.6%	31.9	28.9%

The effective rate of taxation is 26.6% (2005: 28.9%). The underlying rate of taxation is 27.6%. It is expected that an effective tax rate of 28% will be sustainable in the medium-term.

Due to an equal and opposite reversal of deferred taxation temporary differences, no UK corporation tax is payable in the year ended 31 October 2006. There is no effect on the total tax charge.

(iii) Deferred tax recognised directly in equity

The following taxation has been recorded directly in equity within the statement of recognised income and expense:

	2006 £m	2005 £m
Cash flow hedges	(18.1)	–
Equity-settled transactions	(4.7)	(3.2)
Defined benefit pension plans	1.2	(2.4)
Exchange differences	–	0.4
Total	(21.6)	(5.2)

8. Dividends

Ordinary shares

The following dividends have been deducted from equity in the year:

	2006 £m	2005 £m
Interim dividend paid for 2005 of 1.95p per share (2004: 1.75p)	**10.1**	9.1
Final ordinary dividend paid for 2005 of 4.65p (2004: 3.75p)	**24.4**	19.5
	34.5	28.6

The interim dividend in respect of the six-month period to 30 April 2006 of 2.25p per share was paid on 1 November 2006 and this dividend of £11.8m will be recognised as a deduction from equity in the year ending 31 October 2007.

Subsequent to the balance sheet date, the Directors have proposed a final dividend of 5.4p per share (2005: 4.65p) payable on 10 April 2007 to the holders of relevant shares on the register at 9 March 2007. The final proposed dividend amounts to £28.3m (2005: £24.4m) and will, after approval by shareholders, be recognised in the financial statements for the year ended 31 October 2007. The final ordinary dividend of 5.4p per share, together with the interim dividend of 2.25p per share, makes a total dividend of 7.65p per share relating to the year ended 31 October 2006 (2005: 6.6p).

A dividend reinvestment plan was introduced for the first time with respect to the final dividend payable for the year ended 31 October 2000. Those shareholders who have not elected to participate in this plan, and who would like to participate with respect to the 2006 final dividend, may do so by contacting Lloyds TSB Registrars direct on 0870 241 3018. The last day for election for the final proposed dividend is 16 March 2007 and any requests should be made in good time ahead of that date.

Preference shares

All preference shares were redeemed by the Group during the comparative year on 27 July 2005. Preference shares were accounted for as equity in the year ended 31 October 2005, prior to the adoption by the Group of IAS 32 (see note 1). In the year ended 31 October 2005, preference share dividends of £10.0m were deducted from equity.

9. Earnings per share

The basic earnings per ordinary share is calculated by dividing the profit attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the year, excluding those held in the employee share ownership trusts. The diluted earnings per share is calculated on profits attributable to ordinary shareholders divided by the adjusted weighted average number of ordinary shares, which takes account of the outstanding share options, where their conversion is dilutive. The additional earnings per share measures have been given to provide the reader of the accounts with a better understanding of the results.

	Earnings 2006 £m	Weighted average no. of shares 2006 millions	Earnings per share 2006 pence	Earnings 2005 £m	Weighted average no. of shares 2005 millions	Earnings per share 2005 pence

Carrying value						
At 1 November 2004	10.4	376.4	–	–	–	386.8
At 31 October 2005	13.0	440.9	3.6	1.1	1.4	460.0
At 31 October 2006	**20.4**	**554.6**	**22.9**	**0.5**	**5.8**	**604.2**

Amortisation of intangible assets is recognised within the administrative expenses in the income statement.

The impairment losses incurred in 2006 relate to the closure of the Marmara Portugal division and the write off of all related goodwill to reflect a nil recoverable amount. The £1.4m impairment charge is disclosed separately on the face of the income statement.

Amortisation of business combination intangibles totalling £11.3m shown in the income statement relates to the amortisation charge during the year of brands, the order book and customer databases.

Goodwill is analysed by Sector as follows:

	Mainstream Holidays £m	Specialist Holidays £m	Activity Holidays £m	Online Destination Services £m	Corporate £m	Total Group £m
At 31 October 2006	**56.0**	**189.8**	**206.0**	**101.8**	**1.0**	**554.6**
At 31 October 2005	56.0	184.3	113.3	86.3	1.0	440.9

The recoverable amount of goodwill in all Sectors has been determined based on value in use.

Those calculations use cash flow projections based on actual operating results and the Group's latest five-year business plan. Cash flows for a further five-year period are extrapolated using an inflationary only growth rate of up to 2%. This total period of ten years is considered a prudent assumption in the context of the anticipated greater longevity of the Group's brands and business model in each Sector.

16. Intangible assets continued

A pre-tax discount rate of 9.0% has been used in discounting projected cash flows.

Based on the calculations undertaken, the Directors consider that the carrying value of goodwill in each Sector exceeds its recoverable amount.

Key assumptions are in respect of the short-term post acquisition earnings of acquired operations within the Activity and Specialist Sectors. The forecast earnings of these newly acquired businesses are inherently more judgmental in the short and medium-term.

17. Property, plant and equipment

At 31 October 2006	**71.6**	**147.3**	**53.4**	**23.9**	**16.2**	**312.4**

Other fixed assets with a combined net book value as at 31 October 2006 of £16.2m (2005: £16.7m) comprise £14.8m (2005: £15.8m) of fixtures and fittings, £1.4m (2005: £0.8m) of motor vehicles and £nil (2005: £0.1m) of ski equipment.

Fixed asset additions of £78.8m include £30.8m of fixed assets acquired in business combinations during the year (2005: £2.1m).

Land and buildings comprise freehold and short leasehold properties with net book values of £16.0m (2005: £19.5m) and £54.7m (2005: £51.2m) respectively.

The net book value of assets held under finance leases and hire purchase contracts at 31 October 2006 was £16.2m (2005: £32.1m). The depreciation charged in the year for these assets was £1.3m (2005: £3.6m).

12. Investments in joint venture and associate

The Group's equity investment in its joint venture and associate is recorded in the financial statements as follows:

	Share of net assets of joint venture £m	Share of net assets of associate £m	Total £m
Cost			
At 1 November 2005	29.3	1.8	31.1
Dividend received	–	(0.5)	(0.5)
Share of profits for the year	2.5	1.5	4.0
Share of tax charge	(0.7)	(0.5)	(1.2)
At 31 October 2006	**31.1**	**2.3**	**33.4**

At 1 November 2005	3.4	–	3.4
At 31 October 2006	**3.4**	**–**	**3.4**
Net book value			
At 31 October 2005	32.7	1.8	34.5
At 31 October 2006	**34.5**	**2.3**	**36.8**

Name of company	Proportion held	Nature of of business	Country of registration/ incorporation	Investment held by
Hays Travel Limited	37.75%	Travel agent	England and Wales	First Choice Holidays PLC
Sunshine Cruises Limited	50.00%	Cruise operator	England and Wales	First Choice Holidays PLC

All proportions held are in ordinary shares.

There is a put option on the Group to acquire the remaining shareholding of the Group's associate, Hays Travel Limited. The option has not been exercised. Its value is dependent on the future profitability of Hays Travel Limited.

Sunshine Cruises Limited (trading as Island Cruises) was set up as a joint venture with Royal Caribbean Cruises Ltd. (RCCL) in July 2000. The share of profits recognised in respect of the joint venture represents the Group's share of the profit generated in the year.

Included within the Group's consolidated financial statements is the Group's 50% share of the following items accounted for using the equity method:

100% values	Joint venture 2006 £m	Joint venture 2005 £m
Revenue	**95.3**	51.6
Operating profit	5.0	3.6
Taxation	(1.5)	(1.0)

Acquisitions

(a) Acquisitions in the year ended 31 October 2006

Acquisitions were made in the year for a total of £153.2m, including £4.5m of acquisition expenses. These acquisitions gave rise to provisional goodwill of £130.0m. The acquired businesses and their acquisition dates were:

Sector and entity	Country of operation	Acquisition date	Consideration £m
Specialist Holidays			
Jumpstreet	Canada	April 2006	1.7
School Voyageurs	Canada	April 2006	2.3
Educatours	Canada	April 2006	1.4
Educational Tours, Inc	USA	April 2006	11.1
Activity Holidays			
Grand Expeditions	USA	December 2005	43.1
Intrav, Inc.	USA	January 2006	26.7
Trek Holidays	Canada	January 2006	4.8
TravelClass	UK	May 2006	4.2
Your Man Tours	USA	June 2006	28.2
Sawadee	Netherlands	June 2006	3.5
Trip n Tours	USA	August 2006	0.7
Online Destination Services			
Meridian	Greece	January 2006	3.5
Pacific World	Asia	August 2006	17.5
			148.7
Acquisition expenses			4.5
Total investment cost			153.2

Net assets/(liabilities) acquired

	Note	Book value prior to acquisition £m	Accounting policy adjustments £m	Fair value adjustments £m	Fair value of net assets/ (liabilities) acquired £m
Intangible fixed assets	1	2.8	–	33.7	36.5

Non-current liabilities	7	(11.2)	0.6	(13.6)	(24.2)
Total net assets acquired		**12.5**	**(2.5)**	**13.7**	**23.7**
Total investment cost					153.2
Net assets acquired (as above)					(23.7)
Minority interest in assets acquired					0.5
Provisional goodwill arising					**130.0**

13. Investments continued

Notes:

1. Elimination of goodwill existing in balance sheets at acquisition and inclusion of the fair value of IFRS 3 business combination intangible assets.
2. Impairment and revaluation of property plant and equipment; reclassification of leasehold property.
3. Impairment of Intrav, Inc ships prior to disposal.
4. Reclassification of leasehold property.
5. Elimination of deferred costs; recognition of deferred tax assets.
6. Recognition of a potential corporation tax liability.
7. Recognition of deferred tax liabilities.

The consideration payable is made up of:

	£m
Cash	129.3
Deferred consideration	13.6
Contingent consideration	5.8
Total consideration	**148.7**

(b) Cash flows arising in respect of acquisitions

Total cash flows relating to acquisitions in the year, including amounts paid in respect of deferred and contingent consideration arising on prior year acquisitions are as follows:

	2006 Max £m	2006 Paid £m	2005 Max £m	2005 Paid £m
Acquisitions in the year	129.3	129.3	53.4	53.4
Deferred & contingent consideration arising	19.4	–	12.1	–
	148.7	129.3	65.5	53.4
Acquisition expenses paid in the year	4.5	4.5	1.8	1.8
Total consideration	**153.2**	**133.8**	**67.3**	**55.2**
Cash acquired with acquisitions		(40.0)		(23.7)
Cash paid relating to prior year acquisitions		14.3		1.6
Net cash outflow in the year relating to acquisitions		**108.1**		**33.1**

Movements in deferred and contingent consideration in the year were as follows:

	Deferred consideration £m	Contingent consideration £m	Loan notes £m	Total £m
At 1 November 2005	19.6	9.4	–	29.0
Recognised in the year relating to current year acquisitions	7.7	5.8	5.9	19.4
Adjustments to amounts recognised in respect of prior year acquisitions	–	(0.7)	–	(0.7)
Cash paid	(11.4)	(3.4)	–	(14.8)
Exchange differences	(0.6)	(0.6)	(0.3)	(1.5)
At 31 October 2006	**15.3**	**10.5**	**5.6**	**31.4**

Offsetting the cash paid of £14.8m in the year is a refund of consideration relating to a prior year acquisition, of £0.5m, giving net cash paid of £14.3m.

13. Investments continued

The contingent consideration payable is in respect of the acquisitions listed below. It is dependent on the results of the businesses over the following periods or the balance of working capital at the acquisition date, and the Directors believe the amounts provided reflect the most likely outcome in each case:

Acquisition	Basic of calculation of contingent consideration	Period for calculation of contingent consideration	Maximum contingent consideration	Consideration provided for in these accounts
Trek Holidays	Earnings	Years ending 31 October 2006-2010	C$6.0m	C$6.0m
Jumpstreet	Working capital	N/A	N/A	C$0.5m
School Voyageurs	Working capital	N/A	N/A	C$0.5m
Educatours	Working capital	N/A	N/A	C$0.4m
Educational Tours, Inc	Working capital	N/A	N/A	US$2.1m
Sawadee	Earnings	Calendar year 2006	€1.4m	€1.4m

All acquisitions have been accounted for using the purchase method, as required by IFRS 3. It should be noted that certain fair value adjustments have necessarily been prepared on a provisional basis. Experience may result in the revisions to fair values in the subsequent accounting period.

(c) Residual goodwill

A consistent process is undertaken at each acquisition to identify the fair value of separable assets and liabilities acquired, including the fair value of intangible assets, being brands, order books and customer databases. The residual goodwill on acquisition represents the value of assets and earnings that do not form separable assets under IFRS3 but nevertheless are expected to contribute to the future results of the Group.

At 31 October 2006, the residual goodwill represents mainly:

- Market knowledge of particular geographic areas such as the Americas and the Far East.
- Knowledge of particular market segments, for example escorted tours.
- Involvement of existing management and employees and transfer of their knowledge of the operation of the business model.
- Integration synergies, particularly cost optimisation in our yacht holidays businesses.
- The ability to sell acquired product through existing channels and existing product through acquired channels.

(d) Income statement

If the businesses that were acquired at various times during the year ended 31 October 2006 had been part of the Group since 1 November 2005, the impact on revenue and profit would not have been material to the Group. This is mainly due to the timing of the three largest acquisitions, which have been part of the Group for their most profitable months in the year.

The revenues and operating profits of acquisitions made in the year are reported in note 2.

14. Non-current trade and other receivables

	2006 £m	2005 £m
Prepaid accommodation	65.2	52.3
Aircraft deposits	10.8	8.3
Other long-term debtors	4.0	–
	80.0	60.6

15. Deferred tax assets and liabilities

	Assets 2006	Assets 2005	Liabilities 2006	Liabilities 2005	Net 2006	Net 2005
Property, plant and equipment	–	–	(21.5)	(21.1)	(21.5)	(21.1)
Intangible assets	4.1	–	(12.8)	(0.2)	(8.7)	(0.2)
Other investments	–	–	–	(2.3)	–	(2.3)
Employee benefits	16.2	17.5	–	–	16.2	17.5
Financial instruments and foreign exchange	17.4	–	–	–	17.4	–
Other short-term temporary differences	14.9	28.1	–	(0.2)	14.9	27.9
Tax value of loss carry forwards recognised	4.2	4.2	–	–	4.2	4.2
Total	56.8	49.8	(34.3)	(23.8)	22.5	26.0

15. Deferred tax assets and liabilities continued

Unrecognised deferred tax assets
Deferred tax assets have not been recognised in respect of the following items:

	2006 £m	2005 £m
Capital losses	2.1	4.5
Other losses	28.0	40.8
	30.1	45.3

These assets have not been recognised because the Directors are not certain that any benefits will arise in the foreseeable future.

At 31 October 2006, a deferred tax liability of £2.4m (2005: £1.7m) relating to profits arising in respect of investments in overseas subsidiaries has not been recognised because the Group controls whether the liability will be incurred and is satisfied that it will not be incurred in the foreseeable future.

There are no other unprovided deferred tax liabilities.

Movements in temporary differences during the year:

	Balance at 1 November 2005 £m	Arising on acquisition £m	Recognised/ (charged) in income £m	Recognised/ (charged) in equity £m	Balance at 31 October 2006 £m
Property, plant and equipment	(21.1)	–	(0.4)	–	(21.5)
Intangible assets	(0.2)	(5.6)	(2.9)	–	(8.7)
Other investments	(2.3)	–	2.3	–	–
Employee benefits	17.5	–	(4.8)	3.5	16.2
Financial instruments and foreign exchange	–	–	(0.7)	18.1	17.4
Other short-term temporary differences	27.9	–	(13.0)	–	14.9
Tax value of loss carry forwards recognised	4.2	–	–	–	4.2
Total	**26.0**	**(5.6)**	**(19.5)**	**21.6**	**22.5**

Movements in temporary difference during the prior year are analysed as follows:

	Balance at 1 November 2004 £m	Arising on acquisition £m	Recognised/ (charged) in income £m	Recognised/ (charged) in equity £m	Exchange movement £m	Balance at 31 October 2005 £m
Property, plant and equipment	(18.5)	–	(2.6)	–	–	(21.1)
Intangible assets	–	–	(0.2)	–	–	(0.2)
Other investments	(2.3)	–	–	–	–	(2.3)
Employee benefits	10.5	–	1.8	5.2	–	17.5
Other short-term temporary differences	22.1	–	5.5	–	0.3	27.9
Tax value of loss carry forwards recognised	6.2	–	(2.0)	–	–	4.2
Total	**18.0**	**–**	**2.5**	**5.2**	**0.3**	**26.0**

Property, plant and equipment temporary differences principally relate to accelerated capital allowances received in the UK. Employee benefit temporary differences arise in respect of defined benefit pension scheme liabilities, holiday pay accruals and future deductions available on the exercise of employee share options. Financial instruments and foreign exchange temporary differences arise in respect of financial instruments accounted for under IAS 39 and principally reflect the fair value at 31 October 2006 of cash flow hedging derivatives that will be settled against future transactions. Other short-term temporary differences relate to operating expenses and related accruals. The reversal of other short-term temporary differences in the current year principally relates to the current tax deduction of selling costs that were deferred under UK GAAP but are expensed as incurred under Adopted IFRSs.

16. Trade and other receivables

	2006 £m	2005 £m
Trade debtors	156.4	107.4
Other debtors	102.2	83.2
Prepayments	133.1	125.0
	391.7	315.6

17. Cash and cash equivalents

	2006 £m	2005 £m
Cash	117.5	40.3
Short-term liquid assets	54.7	46.9
Deposits at bank maturing within one month	5.3	38.1
Cash and cash equivalents	177.5	125.3

Cash and cash equivalents includes £54.7m (2005: £46.9m) that is not available for immediate use by the Group. This represents monies held in trust to meet regulatory requirements.

18. Assets classified as held for sale

	2006 £m	2005 £m
Yachts and motor boats	0.8	1.1
Land and buildings	0.4	7.9
	1.2	9.0

No adjustment has been required to record these assets at the lower of their carrying value and fair value less costs to sell.

19. Interest-bearing loans and borrowings

	2006 £m	2005 £m
Current liabilities		
Bank loans and overdrafts	5.5	56.9
Loan notes	0.8	–
Finance leases (and hire purchase contracts)	2.3	16.4
	8.6	73.3

	2006 £m	2005 £m
Non-current liabilities		
Bank loans	262.5	31.4
Loan notes	4.8	–
Finance leases (and hire purchase contracts)	4.9	2.5
	272.2	33.9

The bank loans and loan notes are repayable:

	2006 £m	2005 £m
Within one year	6.3	56.9
Between one and five years	266.3	23.2
After five years	1.0	8.2
	273.6	88.3

Included within amounts payable within one year are bank overdrafts of £nil (2005: £19.9m) that are repayable on demand. Some loans are secured on the underlying assets of the company in whose name the borrowings are made. Finance lease liabilities relate to the leasing of aircraft and boats.

19. Interest-bearing loans and borrowings continued

Group obligations under finance leases and hire purchase contracts are payable as follows:

	Principal £m	Interest £m	Minimum lease payments 2006 £m	Principal £m	Interest £m	Minimum lease payments 2005 £m
In respect of aircraft, yachts and equipment payable within:						
One year	2.2	0.4	2.6	16.4	0.5	16.9
Two to five years	5.0	0.5	5.5	2.5	0.2	2.7
	7.2	0.9	8.1	18.9	0.7	19.6

Security given in respect of finance leases and hire purchase contracts consists of fixed charges over the respective assets. Further details are set out in note 25.

20. Current trade and other payables

	2006 £m	2005 £m
Trade creditors	187.6	183.5
Other creditors	33.8	54.7
Other taxes and social security costs	21.3	24.1
Accruals and deferred income	357.3	287.1
Client money received in advance	263.5	237.8
Amounts owed to joint venture	2.4	2.6
	865.9	789.8

Included in other creditors are amounts in respect of contingent and deferred consideration payable for acquisitions of £8.1m (2005: £17.8m). Further details are set out in note 13(b).

21. Provisions for liabilities and charges

	Aircraft maintenance £m	Other £m	Total £m
At 1 November 2004	45.1	1.8	46.9
Provided in the year	54.3	–	54.3
Costs incurred	(44.1)	–	(44.1)
Exchange movements	(2.4)	–	(2.4)
At 31 October 2005	52.9	1.8	54.7
Adoption of IAS 32/39	(4.2)	–	(4.2)
At 1 November 2005	48.7	1.8	50.5
Provided in the year	45.9	–	45.9
Costs incurred	(47.9)	–	(47.9)
Exchange movements	(0.7)	–	(0.7)
At 31 October 2006	**46.0**	**1.8**	**47.8**

Of the aircraft maintenance provisions, £17.6m (2005: £21.3m) are estimated to be payable in less than one year.

Aircraft maintenance

In respect of aircraft, provision is made for maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares based on total anticipated costs over the useful economic life of the asset calculated by reference to costs experienced and published manufacturers data. The charge to the income statement is calculated by reference to the number of hours and cycles flown and by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised and depreciated over the period until the next scheduled major overhaul.

22. Other non-current liabilities

	2006 £m	2005 £m
Deferred and contingent consideration (note 13(b))	17.7	11.2
Accruals and deferred income	22.4	14.1
	40.1	25.3

23. Share capital

	2006 £m	2005 £m
Authorised		
800,000,000 (2005: 800,000,000) ordinary shares of 3p each	24.0	24.0
Allotted, called up and fully paid		
530,230,326 (2005: 529,658,730) ordinary shares	15.9	15.9

The Company issued 571,596 new ordinary shares in the year, with none of these shares being in respect of acquisitions. The new ordinary shares were issued in respect of the following:

	No. of shares
Restricted Share Plan	403,359
Savings Related Share Option Scheme	168,237
	571,596

The share premium arising on the above issues was £0.5m.

24. Capital and reserves

	Share capital £m	Share premium £m	Other reserves £m	Retained earnings £m	Equity holders of parent £m	Minority interests £m	Total £m
At 1 November 2004	**215.3**	**239.8**	**162.9**	**(184.4)**	**433.6**	**0.2**	**433.8**
Share-based payment	–	–	–	3.3	3.3	–	3.3
Shares issued	0.1	1.7	–	–	1.8	–	1.8
Amortised issue costs	–	–	–	0.1	0.1	–	0.1
Redemption of preference share capital	(199.5)	–	199.5	(199.5)	(199.5)	–	(199.5)
Realisation of merger reserve	–	–	(22.5)	22.5	–	–	–
Total recognised (expense)/income for the year	–	–	(2.1)	77.3	75.2	0.2	75.4
Ordinary dividends	–	–	–	(28.6)	(28.6)	–	(28.6)
Preference dividends	–	–	–	(10.0)	(10.0)	–	(10.0)
Minority interest dividend	–	–	–	–	–	(0.1)	(0.1)
At 31 October 2005	**15.9**	**241.5**	**337.8**	**(319.3)**	**275.9**	**0.3**	**276.2**
Transition adjustments on adoption of IAS 32 and 39	–	–	4.4	(4.7)	(0.3)	–	(0.3)
Restated at 1 November 2005	**15.9**	**241.5**	**342.2**	**(324.0)**	**275.6**	**0.3**	**275.9**
Share-based payment	–	–	–	6.1	6.1	–	6.1
Shares issued	–	0.5	–	(0.3)	0.2	–	0.2
Total recognised (expense)/income for the year	–	–	(45.8)	79.5	33.7	0.3	34.0
Ordinary dividends	–	–	–	(34.5)	(34.5)	–	(34.5)
Minority interest dividend	–	–	–	–	–	(0.2)	(0.2)
Minority interest acquired	–	–	–	–	–	0.5	0.5
At 31 October 2006	**15.9**	**242.0**	**296.4**	**(273.2)**	**281.1**	**0.9**	**282.0**

24. Capital and reserves continued

Other reserves are analysed as follows:

	Capital reserve £m	Merger reserve £m	Foreign exchange reserve £m	Hedging reserve £m	Total £m
At 1 November 2004	**1.9**	**161.0**	**–**	**–**	**162.9**
Redemption of preference share capital	199.5	–	–	–	199.5
Realisation of merger reserve	–	(22.5)	–	–	(22.5)
Total recognised expense for the year	–	–	(2.1)	–	(2.1)
At 31 October 2005	**201.4**	**138.5**	**(2.1)**	**–**	**337.8**
Transition adjustments on adoption of IAS 32 and 39	–	–	–	4.4	4.4
Restated at 1 November 2005	**201.4**	**138.5**	**(2.1)**	**4.4**	**342.2**
Total recognised expense for the year	–	–	(3.7)	(42.1)	(45.8)
At 31 October 2006	**201.4**	**138.5**	**(5.8)**	**(37.7)**	**296.4**

Cumulative goodwill arising on the acquisition of subsidiaries and written off to the profit and loss account reserve at 31 October 2006 is £232.3m (2005: £232.3m) against which Section 131 merger relief of £40.6m (2005: £40.6m) has been deducted.

25. Financial instruments

As set out in note 1, the Group has adopted IFRS 7, IAS 32 and IAS 39, only with effect from 1 November 2005. The comparative financial information in these financial statements does not therefore comply with IFRS 7, IAS 32 and IAS 39 as the Group has elected to apply the transitional rules permitted by IFRS 1 and has not restated prior years. Comparative disclosures for the year ended 31 October 2005 have been prepared under UK GAAP FRS 13 and are set out in part (ii) of this note.

(i) Disclosures for the year ended 31 October 2006

(a) Treasury risk analysis

The Group has exposure to the following risks from its use of financial instruments: market risk (in respect of changes in foreign exchange rates, fuel prices and interest rates), liquidity risk (in respect of the Group's ability to meet its liabilities) and credit risk (in respect of recovery of amounts owing to the Group).

The Group faces significant financial risks mainly due to the substantial cross-border element of its trading. Currency risk arises on sales, purchases and borrowings that are denominated in a currency other than the functional currencies of individual Group entities. It is managed by the use of foreign exchange forward, swap and option contracts. Interest rate risk is split into two separate exposures, namely US dollar interest rates on variable rate aircraft leases and loans, and sterling rates on Group loan and cash balances. Both exposures are managed using interest rate derivatives. Finally, the Group's exposure to jet fuel prices is managed using energy swaps and options.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

During the year, the Financial Risk Management Committee (FRMC) managed the governance of financial risk. The Committee, which was created in 2005, reports to the Board of Directors and to the Audit Committee and is made up of the relevant senior business employees and technical experts within the Group. Incorporated within the terms of reference is the determination of all treasury policies and the monitoring of the effectiveness of those policies.

Group Treasury implements the agreed policies on a day-to-day basis. The procedures also stipulate the levels of authority applied to dealing and to approving the types of financial instrument used to manage these exposures. Transactions are only undertaken to hedge underlying exposures. Financial instruments are not traded, nor are speculative positions taken. Regular reports are provided to the Board.

(b) Currency risk management

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the functional currencies of individual Group entities (which are principally Sterling, Canadian dollars, Euros and US dollars).

The Group publishes its consolidated financial statements in Sterling and as a result, it is also subject to foreign currency exchange translation risk in respect of the results and underlying net assets of its foreign operations.

The Group hedges its foreign currency exposures season-by-season, with each season comprising a six-month period. At the start of a season the Group will have hedged substantially all of its foreign currency exposure (forecast sales and purchases and related assets and liabilities) for that season, using forward exchange contracts, most with a maturity of less than one year from the reporting date. When necessary, forward contracts are rolled over at maturity.

25. Financial Instruments continued

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by undertaking fair value hedges to address imbalances. Fair value hedges are principally undertaken in respect of non-Sterling denominated airline maintenance provision balances, loan balances and deposits.

The following significant exchange rates (excluding the impact of hedged transactions) applied during the current and prior year:

	Average rate		Mid-spot rate	
	Year ended 31 October 2006	Year ended 31 October 2005	31 October 2006	31 October 2005
US Dollar	1.815	1.844	1.908	1.776
Euro	1.462	1.457	1.494	1.478
Canadian Dollar	2.052	2.263	2.141	2.091

The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars.

The table below shows Group companies' net financial assets and liabilities held in currencies other than their functional currency at 31 October 2006, analysed by functional currency:

	Non-functional financial assets and liabilities								
	Sterling £m	Euro £m	US Dollar £m	Canadian Dollar £m	Thai Baht £m	Australian Dollar £m	Swiss Franc £m	Other £m	2006 Total £m
Functional currency of Group entities									
Sterling	–	(49.4)	(60.1)	1.6	1.4	3.3	2.3	(1.4)	(102.3)
Canadian Dollars	–	–	1.7	–	–	–	–	–	1.7
Euro	7.3	–	(1.1)	–	–	–	–	0.1	6.3
US Dollars	(0.6)	0.1	–	0.2	–	–	–	–	(0.3)
Other	0.6	(1.3)	3.8	(0.2)	–	–	–	0.8	3.7
Total	**7.3**	**(50.6)**	**(55.7)**	**1.6**	**1.4**	**3.3**	**2.3**	**(0.5)**	**(90.9)**

(c) Interest rate risk

The Group has an exposure to interest rate risk arising principally on changes in Sterling, US Dollars, Euro and Canadian Dollar interest rates.

To manage interest rate risk, the Group manages its proportion of fixed to variable borrowings within limits approved by the Board, primarily through the Financial Risk Management Committee. The profile of the fixed rate to floating rate borrowings is maintained on a minimum of 50% of interest expense and 75% of operating leases being fixed to the end of all seasons on sale.

An analysis of net borrowings and interest rates as at 31 October 2006 is as follows:

	Earlier of maturity and repricing date							
	Within 1 year £m	1-2 years £m	2-3 years £m	3-4 years £m	4-5 years £m	> 5 years £m	Total £m	Weighted average interest rate
Fixed rate								
Secured bank loans	–	0.6	1.7	2.1	6.8	–	**11.2**	**6.0%**
Unsecured bank loans	–	–	52.8	–	–	–	**52.8**	**6.0%**
Unsecured loan notes	0.8	3.9	0.9	–	–	–	**5.6**	**5.0%**
Finance leases	–	1.1	1.3	1.3	0.9	0.9	**5.5**	**6.2%**
Floating rate								
Secured bank loans	14.6	–	–	–	–	–	**14.6**	**6.5%**
Unsecured bank loans	189.4	–	–	–	–	–	**189.4**	**5.7%**
Finance leases	1.7	–	–	–	–	–	**1.7**	**8.1%**
Net borrowings	206.5	5.6	56.7	3.4	7.7	0.9	**280.8**	

Fixed rate and floating rate financial liabilities comprise loans and obligations under finance leases. The split of fixed and floating rate borrowings is after taking into account interest rate protection.

25. Financial instruments continued

The Group also has aircraft operating leases that vary with market interest rates. At 31 October 2006, the future commitment under these leases was £70.2m. The variation in leases is hedged using interest rate swaps and forward rate agreements extending over a maximum of 1.5 years.

The Group does not account for any fixed rate financial liabilities at fair value through profit and loss and the Group does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model.

(d) Credit risk

The carrying amount of financial assets represents the maximum credit exposure. Except as noted below, the Group has no significant concentration of credit risk arising from trading activities, either with individual entities or by geographical area.

Cash and cash equivalents and other liquid resources principally comprise money market deposits and other short-term investments. The investments are with counterparties with a strong long-term credit rating. At 31 October 2006, approximately 62% of the Group's unrestricted cash and cash equivalents were invested with counterparties based in the United Kingdom.

Within the UK, the Group has, from time to time, significant short-term credit exposure from receivables from other major tour operators and travel agents.

In addition, the Group makes prepayments for hotel accommodation. Whilst such prepayments do not meet the definition of a financial asset under IAS 39, such prepayments give rise to a risk similar to credit risk due to the inherent risk of the Group not recovering the prepayment through full delivery of the related goods and services. Prepayments from time to time can concentrate risk with specific counterparties which are based overseas.

The carrying amount of prepayments (which are presented within current and non-current assets) forms the maximum credit exposure, before taking into account any security or collateral held by the Group. Where appropriate, the Group obtains security collateral over the related accommodation property, to mitigate credit risk. At 31 October 2006, prepaid accommodation which is recoverable after more than one year was £65.2m.

(e) Capital management

The Board's policy is to maintain a strong capital base in order to maintain investor, creditor and market confidence and to sustain future development of the business.

From time to time the Group purchases its own shares on the market. The timing of these purchases depends on market prices. The shares are intended to be used for issuing shares under the Group's share option programmes. There is not a specific share buy back plan.

There were no changes to the Group's approach to capital management in the year.

(f) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach is to ensure that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed circumstances.

As at 31 October 2006 the Group had available undrawn committed borrowing facilities of £198.8m, comprising letters of credit, guarantees and revolving, floating rate credit facilities for cash borrowings. Any non-compliance with covenants underlying the Groups financing arrangements could, if not waived, constitute an event of default with respect to any such arrangements. The Group was in full compliance with its financial covenants throughout each of the periods presented.

The Group had available undrawn committed bank facilities as follows:

	2006 £m
Expiring:	
Within one year	–
In more than one year but less than five years	198.8
	198.8

Subsequent to the year-end, the Group has undertaken a new £28m secured bank loan facility with Royal Bank of Scotland which is secured over property, plant & equipment.

25. Financial instruments continued

Information regarding the contractual maturities of financial liabilities can be found in note 19 to the accounts.The actual repayment of revolving credit facility cash flows will vary. The timing reflected in the table is based on the maximum duration and availability of the facility agreement.

(g) Analysis of total financial liabilities and financial assets

The tables below set out the Group's IAS 39 classification for each of its financial assets and liabilities at 31 October 2006.

	Held for trading £m	Available for sale £m	Loans and receivables £m	Amortised cost £m	Total carrying value £m
Trade investments	–	0.6	–	–	0.6
Cash and cash equivalents	–	177.5	–	–	177.5
Borrowings due within one year	–	–	–	(8.6)	(8.6)
Borrowings due after more than one year	–	–	–	(272.2)	(272.2)
Derivative assets	1.6	–	–	–	1.6
Derivative liabilities	(62.5)	–	–	–	(62.5)
Other financial assets	–	–	273.4	–	273.4
Other financial liabilities	–	–	–	(647.0)	(647.0)
	(60.9)	178.1	273.4	(927.8)	(537.2)

Derivatives held for trading under IAS 39 are all accounted for under cash flow or fair value hedges.

Other financial assets comprise trade receivables and other debtors which are receivable within and after more than one year. Other financial liabilities comprise trade payables and accruals which are payable within and after more than one year.

All derivatives are held within hedging relationships. Speculative positions are not undertaken.

(h) Fair values of financial assets and financial liabilities

The fair values of financial assets and liabilities, together with carrying amounts shown in the balance sheet at 31 October 2006, are as follows:

	Carrying amount £m	Fair value £m
Other investments	0.6	0.6
Cash and cash equivalents	177.5	177.5
Trade receivables	273.4	273.4
Interest rate swaps used for hedging – liabilities	(0.1)	(0.1)
Forward exchange contracts used for hedging		
– assets	1.6	1.6
– liabilities	(48.4)	(48.4)
Swaps for energy purchases	(14.0)	(14.0)
Bank loans	(215.2)	(215.1)
Eurobond loan	(52.8)	(53.1)
Loan notes	(5.6)	(5.5)
Finance lease liabilities	(7.2)	(7.2)
Trade and other payables	(619.7)	(619.7)
Other long-term liabilities	(27.3)	(27.3)
	(537.2)	(537.3)
Unrecognised loss		(0.1)

The fair value of forward rate agreements is the estimated amount that the Group would receive or pay to terminate the swaps at the balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparties.

The fair value of fuel swaps is the estimated amount that the Group would receive or pay to terminate the swaps at the balance sheet date, taking into account current fuel prices.

25. Financial instruments continued

The fair value of forward exchange contracts is their quoted market price at the balance sheet date, being the present value of the quoted forward price.

The fair value of trade receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

The fair value of non-derivative financial liabilities is based on the present value of future principal and interest cash flows discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

(i) Derivative instruments

At 31 October 2006 the fair value and notional amount of the Group's derivative financial assets and liabilities was as follows:

	Assets		Liabilities		Total	
Cash flow hedges	Fair value	Notional amount	Fair value	Notional amount	Fair value	Notional amount
Interest rate swaps	–	–	(0.1)	(126.0)	(0.1)	(126.0)
Foreign exchange forwards	0.6	73.1	(40.2)	(974.6)	(39.6)	(901.5)
Energy swaps	–	1.1	(14.0)	(105.7)	(14.0)	(104.6)
	0.6	74.2	(54.3)	(1,206.3)	(53.7)	(1,132.1)
Fair value hedges						
Foreign exchange forwards	1.0	93.3	(8.2)	(212.2)	(7.2)	(118.9)
Total at 31 October 2006	**1.6**	**167.5**	**(62.5)**	**(1,418.5)**	**(60.9)**	**(1,251.0)**

The maturity profile of these derivative financial assets and liabilities was as follows:

	Maturity profile		
	Within 1 year £m	1-2 years £m	Total £m
Derivative financial assets			
Foreign exchange forwards	1.6	–	1.6
Derivative financial liabilities			
Interest rate swaps	–	(0.1)	(0.1)
Foreign exchange forwards	(44.0)	(4.4)	(48.4)
Energy swaps	(14.0)	–	(14.0)
	(58.0)	(4.5)	(62.5)
Total at 31 October 2006	**(56.4)**	**(4.5)**	**(60.9)**

The following table indicates the periods in which the cash flows associated with derivatives (which are principally cash flow hedges) are expected to occur. The cash flows are expected to impact profit and loss on a similar time profile:

	Maturity profile			
	Within 1 year £m	1-2 years £m	2-3 years £m	Total £m
Derivative financial assets				
Foreign exchange forwards	146.7	19.7	–	166.4
Energy swaps	1.1	–	–	1.1
	147.8	**19.7**	–	**167.5**
Derivative financial liabilities				
Interest rate swaps	(35.7)	(90.3)	–	(126.0)
Foreign exchange forwards	(903.4)	(278.2)	(5.3)	(1,186.9)
Energy swaps	(105.6)	–	–	(105.6)
	(1,044.7)	(368.5)	(5.3)	(1,418.5)
Total at 31 October 2006	**(896.9)**	**(348.8)**	**(5.3)**	**(1,251.0)**

No ineffectiveness has been recognised in the income statement for the year ended 31 October 2006.

23. Financial instruments continued

(j) Amounts recognised directly in equity

The following amounts have been recognised in equity during the year:

	2006 £m
Hedging reserve	
Effective portion of changes in fair value of cash flow hedge	(55.1)
Fair value of cash flow hedges transferred to profit and loss	(5.1)
	(60.2)
Translation reserve	
Foreign currency translation differences for foreign operations	(3.7)
Net charge to equity	(63.9)

(k) Sensitivity analysis

The sensitivity analysis is for illustrative purposes only.

Interest rate risk

The Group has used a sensitivity analysis technique that measures the estimated change to the income statement and equity of a 1% (100 basis points) difference in market interest rates from the rates applicable at 31 October 2006, with all other variables remaining constant.

The sensitivity analysis includes the following assumptions:

- Change in market interest rates only affect interest income or expense of variable financial instruments.
- Changes in market interest rates only affect interest income or expense in relation to financial instruments with fixed interest rates if these are recognised at fair value.
- Changes in market interest rates affect the fair value of derivative financial instruments designated as hedging instruments and all interest rate hedges are expected to be highly effective.
- Changes in the fair value of derivative financial instruments and other financial assets or liabilities are estimated by discounting the future cash flows to net present values using appropriate market rates prevailing at the year end.

31 October 2006	Income statement		Equity (before tax)	
Variable rate instruments	100bp increase	100bp decrease	100bp increase	100bp decrease
Variable rate instruments	(2.9)	2.9	–	–
Fixed rate instruments	–	–	–	–
Interest rate swaps	–	–	0.5	0.8
	(2.9)	2.9	0.5	0.8

Currency risk

The currency risk sensitivity analysis is based on the assumption that all cash flow hedges are highly effective and that all other variables remain constant.

Under this assumption, with a 10% strengthening or weakening of Sterling against all exchange rates, profit before tax would have increased by £5.0m or reduced by £4.1m, respectively (principally relating to the translation of the income statement of overseas subsidiaries). Equity (before tax) would have increased by £15.3m or decreased by £12.5m, respectively.

Energy risk – Fuel

The fuel risk sensitivity analysis is based on the assumption that all cash flow hedges are highly effective and that all other variables remain constant.

Under this assumption, with a 10% increase or decrease in the unit price of fuel, profit before tax would neither increase or decrease materially, because of the fuel price hedging policy. Equity (before tax) would increase by £9.2m, or decrease by £9.2m, respectively.

25. Financial Instruments continued

(ii) Comparative disclosures under UK GAAP (FRS 13) for the year ended 31 October 2005

To reduce risks arising from movements in foreign exchange and interest rates, the Group has entered into forward foreign exchange contracts and single currency interest rate swaps/forward rate agreements and accounts for such transactions as hedges. The gross value of financial assets and liabilities is stated after the effect of these hedged transactions. Short-term debtors and creditors have been omitted from the disclosures other than the currency risk.

(a) Financial assets and liabilities

At 31 October 2005 the Group's financial assets and liabilities profile, after taking account of interest rate and currency hedging arrangements in place, was as follows:

	2005		
Financial assets	Floating rate £m	Non-interest bearing £m	Total £m
Sterling	33.7	7.3	41.0
Canadian Dollars	30.0	–	30.0
Euro	28.9	1.3	30.2
US Dollars	20.0	–	20.0
Other	4.9	–	4.9
Total	**117.5**	**8.6**	**126.1**

Floating rate financial assets comprise cash and current asset investments, which attract interest rates of between 1.5% and 4.5% and are all due to mature within one year. Non-interest bearing assets represent trade investments, which have no maturity period, and cash at bank.

	2005			
Financial liabilities	Fixed rate £m	Floating rate £m	Non-interest bearing £m	Total £m
Sterling	28.2	69.7	3.8	101.7
Canadian Dollars	–	–	2.8	2.8
Euro	4.6	4.7	3.1	12.4
US Dollars	–	–	19.3	19.3
Total	**32.8**	**74.4**	**29.0**	**136.2**

Fixed rate financial liabilities comprise bank borrowings and obligations under finance leases. The weighted average fixed rate of Sterling borrowings at 31 October 2005 is 5.2% and the average time to maturity is 2.6 years. The weighted average fixed rate of Euro borrowings at 31 October 2005 is 5.8% and the average time to maturity is 3.0 years.

Floating rate financial liabilities comprise loans and obligations under finance leases, at the following interest rates:

Sterling: LIBOR plus a margin between 0.9% and 1.65% at 31 October 2005.
Euro: EURIBOR plus a margin between 1.5% and 1.65% or RIBOR plus a margin between 0.25% and 0.85% at 31 October 2005.

Non-interest bearing financial liabilities comprise deferred consideration for acquisitions.

(b) Maturity profile of financial liabilities

	2005 £m
Within one year	91.1
In more than one year but less than five years	36.9
More than five years	8.2
	136.2

25. Financial instruments continued

(c) Fair value of derivative financial instruments

Fair values	2005 Book value £m	2005 Fair value £m
Financial instruments		
Financial assets	126.1	126.1
Financial liabilities	(136.2)	(136.2)
	(10.1)	(10.1)
Derivative financial instruments		
Interest rate swaps and forward rate agreements	–	(0.1)
Foreign currency transactions	–	3.2
Fuel derivatives	–	1.0
	(10.1)	(6.0)
Difference between book and fair value		**4.1**

Fair value is the difference between market value in which the instruments are traded at the balance sheet date and the future contracted commitment.

(d) Unrecognised gains and losses relating to hedges of future exposures

Unrecognised gains and losses	2005 Gains £m	2005 Losses £m	2005 Net £m
Total unrecognised gains/(losses) at 1 November	43.2	(40.1)	3.1
(Gains)/losses recognised in the year relating to prior years	(42.0)	34.7	(7.3)
Gains/(losses) not recognised in the year relating to prior years	1.2	(5.4)	(4.2)
Gains/(losses) not recognised in the year relating to the current year	21.8	(13.5)	8.3
Total unrecognised gains/(losses) at 31 October	23.0	(18.9)	4.1
Of which:			
Due to be recognised within one year	21.3	(15.6)	5.7
Due to be recognised after one year	1.7	(3.3)	(1.6)
	23.0	(18.9)	4.1

Gains and losses on foreign exchange instruments used for hedging purposes are not recognised until the maturity of the underlying exposure.

(e) Currency exposures

The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars. The table below shows the Group companies' net monetary assets and liabilities held in currencies other than their principal currency, after having taken into account the effect of forward contracts or other derivative instruments used to match foreign currency exposure.

Functional currency	Sterling £m	Euro £m	US Dollar £m	Canadian Dollar £m	Thai Baht £m	Australian Dollar £m	Swiss Franc £m	Other £m	Total £m
Sterling	–	32.3	14.1	1.3	1.4	2.8	(0.9)	8.9	59.9
Canadian Dollars	–	–	7.7	–	–	–	–	–	7.7
Euro	0.9	–	(0.1)	0.1	–	–	1.3	2.2	4.4
US Dollars	–	1.1	–	0.7	–	–	–	0.3	2.1
Total	**0.9**	**33.4**	**21.7**	**2.1**	**1.4**	**2.8**	**0.4**	**11.4**	**74.1**

26. Movements in cash and net funds

	31 October 2006 £m	Cash movement £m	Finance leases £m	Foreign exchange £m	Arising on acquisition £m	Adoption of IAS 32 and 39 £m	31 October 2005 £m
Cash and cash equivalents	177.5	54.9	–	(2.7)	–	–	125.3
Bank overdrafts	–	19.9	–	–	–	–	(19.9)
Movements in cash and cash equivalents	177.5	74.8	–	(2.7)	–	–	105.4
Bank loans and loan notes	(273.6)	(186.4)	–	(2.7)	(18.1)	2.0	(68.4)
Finance leases	(7.2)	17.7	(1.6)	(2.2)	(3.6)	1.4	(18.9)
Net (debt)/funds	(103.3)	(93.9)	(1.6)	(7.6)	(21.7)	3.4	18.1

27. Acquisitions, continuing and discontinuing operations contributions to Group cash flows

	Continuing operations £m	Acquisitions £m	Total £m
Net cash generated from/(absorbed by) operations	118.0	(2.7)	115.3
Net cash flow from operating activities	(33.3)	0.5	(32.8)
Net cash flow from investing activities	(144.8)	2.8	(142.0)
Net cash flow from financing activities	150.3	(16.0)	134.3
Increase/(decrease) in cash in the year	**90.2**	**(15.4)**	**74.8**

The acquisitions column reflects cash flows arising from post acquisition trading of acquired businesses.

28. Operating lease commitments

Group obligations under operating lease contracts are as follows:

	Land and buildings 2006 £m	Aircraft, yachts and equipment 2006 £m	Land and buildings 2005 £m	Aircraft, yachts and equipment 2005 £m
Total commitments under non-cancellable operating leases expiring:				
Within one year	5.2	7.5	5.5	2.9
Between one and five years	34.8	183.7	20.5	110.9
Thereafter	249.5	103.4	256.2	221.1
	289.5	294.6	282.2	334.9

29. Capital commitments

	2006 £m	2005 £m
Contracted but not provided for	5.1	4.1
Authorised but not contracted or provided for	10.6	5.6
	15.7	9.7

In addition to the above items, the Group has contracted to purchase eight Boeing 787 aircraft, the first delivery of which is in 2009. The Group intends to refinance these aircraft in advance of their delivery dates and therefore does not expect to use its own cash resources for their purchase. At list price, the order value is US$1,160.0m.

Sunshine Cruises Limited, a joint venture with Royal Caribbean Cruises Ltd. had no capital commitments in 2006 (2005: £1.6m).

30. Contingent liabilities

Under the terms of guarantees given to the Civil Aviation Authority and other relevant authorities by the Group in respect of certain subsidiaries, in the event of default, the Group could be held liable to the extent of the subsidiaries' net trading liabilities at the time of default.

The Group is at any time defending a number of actions against it arising in the normal course of business. Provision is made for these actions where this is deemed appropriate. The Directors consider that adequate provision has been made for all known liabilities.

31. Related party transactions

Simón Barceló is a director and shareholder of the Barceló Corporación Empresarial SA (BCE) Group of companies. During the last 12 months the Group spent approximately £12.5m (2005: £12.8m) on hotel accommodation with BCE.

At 31 October 2005 the Group owed BCE £1.0m for such accommodation (2005: £1.3m). Viajes Barceló and Barceló Business (also part of BCE) owed the Group commission of £0.7m at 31 October 2006 (2005: £nil) and the group earned total commissions of £21.8m in the year (2005: £3.5m) from these businesses.

Susan Hooper is Senior Vice President, International Managing Director, Royal Caribbean and Celebrity Cruises International.

Royal Caribbean Cruises Ltd. (RCCL) is First Choice's joint venture partner in Sunshine Cruises Limited. The Group earned commission of £2.2m (2005: £2.2m) during the year selling Royal Caribbean Cruises.

During the year, the Group traded with its associate Hays Travel Limited, and its joint venture Sunshine Cruises Limited. The main transactions during the year were:

(a) Commissions paid to Hays Travel Limited of £2.0m (2005: £3.0m). The balance outstanding as at 31 October 2006 is £nil (2005: £nil).

(b) The Group has charged Sunshine Cruises Limited for flying, administrative services and marketing contributions net of commissions received on sales totalling £0.5m (2005: £0.4m). There is an outstanding balance of £2.4m (2005: £2.6m) within creditors as at 31 October 2006.

The compensation paid in respect of key management personnel was as follows:

	2006 £m	2005 £m
Short-term employee benefits	5.2	5.0
Post-retirement benefits	0.9	0.8
Share based payments	3.2	1.7
	9.3	7.5

Directors' remuneration of £3.4m (2005: £3.5m) is included within these amounts. The balance relates to key management personnel other than Directors. All the above amounts are included within employee costs (note 5).

32. Key accounting estimates and judgments

Accounting policies

The preparation of consolidated financial statements under IFRS requires the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent asset and liabilities and the reported amount of revenue and expenses during the year. The Group evaluates its estimates and assumptions on an on-going basis. Such estimates and judgments are based upon historical experience and other factors it believes to be reasonable under the circumstances.

Management has discussed with the Audit Committee the development, selection and disclosure of the Group's critical accounting policies and estimates and the applications of these policies and estimates.

The most important estimates and judgments are:

Goodwill carrying value

A full impairment review has been performed of all goodwill balances held across the Group on a cash generating unit basis. The impairment review is performed on a "value-in-use" basis, which requires estimation of future net operating cash flows and the time period over which they will occur. Further details are given in note 10.

Other asset carrying values

Management annually assesses the carrying value of all material assets across the Group. Key judgment areas include the carrying values of prepaid accommodation and of ships, yachts and motorboats.

Business combinations

Judgment and estimation is required in the valuation of separable assets and liabilities on acquisitions. In particular, judgment is required in the identification and valuation of separable intangible assets, being brands, orders books and customer databases, and the useful economic lives assigned.

Defined benefit pension plans

A qualified independent actuary undertakes the estimation of the present value of the Group's obligations under defined benefit pension schemes using assumptions taken from a range of possible actuarial assumptions. These assumptions may not be borne out in practice, especially due to the long timescales involved. The valuation of scheme assets is based on the fair value at the balance sheet date. As these assets are not intended to be sold in the short-term, their value may change significantly prior to realisation.

Derivative financial instruments

Judgment is required in the assessment of cash flow hedge accounting and in the assessment of the probability of forecast transactions, both at hedge inception and during the period over which hedge accounting is adopted. The value of derivative financial instruments is also judgmental. External valuations from financial institutions are undertaken to support the carrying value of such items.

Aircraft maintenance provisions

Details in respect of the estimation of aircraft maintenance provisions are given in note 21 and the accounting policy is disclosed in note 1(P).

Taxation

The Group has, from time to time, contingent tax liabilities arising from trading and corporate transactions in the UK and overseas jurisdictions. After taking appropriate external advice, the Group makes provision for these liabilities based on the probable level of economic loss that may be incurred and which is reliably measurable.

33. Explanation of transition to Adopted IFRSs

As stated in note 1, these are the Group's first consolidated financial statements prepared in accordance with Adopted IFRSs.

The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended 31 October 2006, the comparative information presented in these financial statements for the year ended 31 October 2005 and in the preparation of an opening IFRS balance sheet at 1 November 2004 (the Group's date of transition).

In preparing the opening IFRS balance sheet, the Group has adjusted amounts previously reported in financial statements prepared in accordance with its old basis of accounting (UK GAAP). An explanation of how the transition from UK GAAP to Adopted IFRSs has affected the Group's financial position, financial performance and cash flows is set out in the following tables and notes that accompany the tables.

33. Explanation of transition to Adopted IFRSs continued

Notes to the reconciliation of equity

(A) IAS 38, "Intangible assets", requires that computer software that is "not an integral part of the related hardware" be classified as an intangible asset. Accordingly, the carrying value of computer software of £10.4m at 1 November 2004 and £13.0m at 31 October 2005 has been re-classified from Property, Plant and Equipment to Intangible assets.

(B) Assets that meet the criteria for an asset held for sale under IFRS 5, "Assets held for sale and discontinued operations", should be re-classified as such in the balance sheet. This has led to re-classifications with a net book value of £2.1m at 1 November 2004 and £9.0m at 31 October 2005, relating to yachts, boats, properties and fond de commerce agreements.

(C) In line with IAS 38, "Intangible Assets", all prepaid advertising, marketing and other direct costs of selling holidays are required to be written off as incurred. Under UK GAAP the Group carried such costs on balance sheet, matching them to the season to which they related. This has led to a reduction in net assets of £69.9m at 1 November 2004 (including joint venture and associate £0.9m) and £70.3m at 31 October 2005 (including joint venture and associate £0.9m).

(D) Accommodation prepayments relating to a period outside of the current operating cycle have been re-classified from current to non-current receivables in accordance with IAS 1. The size of this adjustment was £38.7m at 1 November 2004 and £60.6m at 31 October 2005.

(E) Deferred tax assets and liabilities are required to be shown separately on the face of the balance sheet in accordance with IAS 12, "Taxation". At 1 November 2004, £5.6m of existing deferred tax assets have been re-classified from current receivables to non-current deferred tax assets and £15.0m of existing deferred tax liabilities have been re-classified from provisions to non-current deferred tax liabilities. These adjustments were £11.1m and £18.3m respectively at 31 October 2005.

(F) In line with IAS 12, "Taxation", £33.2m of new deferred tax assets and £5.5m of deferred tax liabilities, net £27.7m, were created upon transition to Adopted IFRSs at 1 November 2004. At 31 October 2005, new deferred tax assets of £38.7m and new deferred tax liabilities of £5.5m, net £33.2m, were created.

(G) Current finance lease liabilities of £6.2m have been re-classified from trade payables to interest bearing liabilities and £19.3m for other long-term liabilities to non-current interest bearing liabilities at 1 November 2004. Similar re-classifications of £16.4m and £2.5m respectively occurred at 31 October 2005.

(H) IAS 19, "Employee benefits", requires the Group to accrue for unused annual leave at each balance sheet date. An accrual of £4.0m has therefore been included within the Groups balance sheet at 1 November 2004 and 31 October 2005.

(I) Under Adopted IFRSs, dividends are only deducted from equity once the dividend is an unavoidable liability. At 1 November 2004, the interim dividend for the year ended 31 October 2004, of £9.0m, had not been paid and the proposed 2004 final dividend of £19.4m had not yet been approved by the shareholders. Under UK GAAP, these dividends were accrued as liabilities at 1 November 2004. This liability has been reversed under Adopted IFRSs.

Similarly, dividends totalling £34.4m, which had been accrued at 31 October 2005, have been reversed and added back to equity at that date.

(J) IFRS 2, "Share-based payments", requires that the fair value of share options issued to employees should be calculated and charged to the income statement over the vesting period. The IFRS 2 fair value charge calculated is less than the charge previously accrued by the Group, leading to a write back to accruals of £0.8m at 1 November 2004 and £2.8m at 31 October 2005.

(K) Lease incentives and reverse premiums should be accounted for over the life of the lease term under IFRS, as opposed to until the period of the first rent review under UK GAAP. The Group has therefore written back deferred income of £2.8m at 1 November 2004 and £2.9m at 31 October 2005 in line with recognising such incentives over the full lease term.

(L) The transition to Adopted IFRSs has the impact of decreasing net assets by £3.1m at 1 November 2004 and £4.5m at 31 October 2005 for other movements.

(M) Previously under UK GAAP the Group classified all aircraft maintenance provisions are being payable in greater than one year. Under Adopted IFRSs, £14.8m at 1 November 2004 and £21.3m at 31 October 2005 has been re-classified as being due to be paid within one year.

(N) IAS 19, "Employee benefits", requires that the Group's deficit in relation to defined benefit pension schemes is brought on balance sheet. At 1 November 2004, an existing provision of £1.9m has been increased by £30.8m to give a total liability of £32.7m. At 31 October 2005 a liability of £34.2m was recognised. Both of these liability balances were obtained via actuarial valuations.

(O) IFRS requires that minority interests be shown as part of equity as opposed to non-current liabilities under UK GAAP.

(P) Goodwill is no longer amortised under Adopted IFRSs, with effect from 1 November 2004, leading to a write back under IFRS of £24.9m (including joint venture £0.2m). Offsetting this is £1.9m of amortisation relating to acquired intangible assets.

33. Explanation of transition to Adopted IFRSs continued

(Q) Total equity has been reduced by £53.3m at 1 November 2004 and £26.1m at 31 October 2005 in line with the above adjustments.

A breakdown of these adjustments is:

	Note	1 November 2004 £m	31 October 2005 £m
Prepaid advertising and marketing	C	(69.9)	(70.3)
Defined benefit pension liability	N	(30.8)	(38.2)
Holiday pay accrual	H	(4.0)	(4.0)
Dividend recognition	I	28.6	34.5
Share-based payments	J	0.8	2.8
Lease incentives	K	(2.8)	(2.9)
Taxation	F	27.7	33.2
Goodwill	P	–	24.9
Amortisation of business combination intangibles	P	–	(1.9)
Minority Interest	O	0.2	0.3
Other	L	(3.1)	(4.5)
Impact on net assets		(53.3)	(26.1)

Included in these reconciliations are further adjustments necessary to achieve Adopted IFRSs compared to the reconciliations published on 23 March 2006 and available from the "Media-Press Releases" section of the Group's website, www.firstchoiceholidaysplc.com.

These additional adjustments have had no impact on the Income Statement and are principally in respect of the recognition of 2004 and 2005 interim dividends.

The presentation of revenue and cost of sales under both UK GAAP and Adopted IFRSs has also been revised to more accurately reflect the nature of activities undertaken in the Online Destination Services Sector, where the Group acts as an intermediary between service provider and customer. This change has reduced the previously reported comparative ODS revenue and cost of sales by £137.0m each.

33. Explanation of transition to Adopted IFRSs continued

Reconciliation of equity at 1 November 2005 on implementation of IAS 32 and 39

	IFRS 31 Oct 2005 £m	Effect of transition £m	IFRS 1 Nov 2005 £m

Total equity	276.2	(0.3)	275.9

33. Explanation of transition to Adopted IFRSs continued

Notes to the reconciliation of equity at 1 November 2005 upon implementation of IAS 32 and 39
To adopt IAS 32 and IAS 39 within the balance sheet as at 1 November 2005, the following adjustments have been necessary:

- The recognition on balance sheet of the fair value of derivative financial assets of £23.0m and the fair value of derivative financial liabilities of £18.9m. Unrealised fair value gains of £6.3m on cash flow hedges are included within the hedging reserve. Unrealised fair value losses of £2.2m on fair value hedges are included within retained earnings. Under UK GAAP derivatives were held off balance sheet and were recognised at the time of the hedged transaction.

- IAS 21 requires that monetary items (e.g. cash, debtors, accounts payable) that are denominated in a currency other than an individual entities reporting currency should be translated at the spot rate at the balance sheet date. Many businesses within the Group already translated at the closing spot exchange rate at each reporting date under UK GAAP. Re-translation of such items is however required in some business units where assets and liabilities have previously been translated at the contracted rate, in accordance with UK GAAP. The impact of this change is to decrease net assets by £4.6m at 1 November 2005.

The total adjustment to net assets, after tax, has been recorded directly to equity and is summarised below:

	Derivative financial instruments £m	Translation at spot rate £m	Deferred tax impact £m	Total £m
Non-current assets				
Trade and other receivables	–	(8.3)	–	(8.3)
Deferred tax assets	–	–	2.1	2.1
Current financial assets				
Derivative financial instruments	23.0	–	–	23.0
Current liabilities				
Trade and other payables	–	(3.9)	–	(3.9)
Finance leases	–	1.4	–	1.4
Loans	–	2.0	–	2.0
Derivative financial instruments	(18.9)	–	–	(18.9)
Non-current liabilities				
Provisions	–	4.2	–	4.2
Deferred tax liabilities	–	–	(1.9)	(1.9)
	4.1	(4.6)	0.2	(0.3)
Equity				
Cash flow hedging reserve	6.3	–	(1.9)	4.4
Retained earnings	(2.2)	(4.6)	2.1	(4.7)
	4.1	(4.6)	0.2	(0.3)

Derivative financial instruments at 1 November 2005 relate to forward foreign exchange contracts, interest rate swaps and fuel swaps. These instruments are used to reduce the exposure of the Group to movements in foreign exchange rates, interest rates and the price of fuel.

33. Explanation of transition to Adopted IFRSs continued

Reconciliation of income

	Note	Year 31 October 2005 UK GAAP £m	Effect of transition £m	Year 31 October 2005 IFRS £m
Revenue	G	2,441.6	–	2,441.6

Taxation	B,F	(33.1)	1.2	(31.9)
Profit for the year		56.0	24.3	80.3
Attributable to:				
Ordinary shareholders		45.8	24.3	70.1
Preference shareholders		10.0	–	10.0
Minority interest		0.2	–	0.2
Profit for the year		56.0	24.3	80.3
Basic EPS		10.8p	2.7p	13.5p
Diluted EPS		10.6p	2.6p	13.2p

Notes to the reconciliation of income

(A) In line with IFRS 2, "Share-based payments", the Group has calculated the expense to be charged to the income statement using binomial and simulation models. The fair value charged calculated by these is lower than the charge calculated using a UK GAAP basis, giving an upside of £0.8m in the year ending 31 October 2005.

(B) Amortisation of acquired intangible assets during the year was £1.9m.

(C) Under UK GAAP, taxation of profits from joint venture and associates is included with the normal taxation charge calculated on profit before tax. Under IFRS, the tax charge for joint ventures and associates of £0.9m is offset against the profit from these businesses.

(D) Goodwill is no longer required to be amortised under IFRS 3. Instead, it is subject to an annual impairment review.

(E) In line with IAS 19, "Employee Benefits", the return on assets of defined benefit pension schemes is classed as financial income and the interest cost on the pension scheme liabilities is shown as a financial expense. Under UK GAAP the pension charge went through cost of sales.

(F) Other minor adjustments to the income statement were upsides of £0.2m in administrative expenses and £0.3m in the tax charge for the year.

(G) Revenue and cost of sales have been restated under both UK GAAP and Adopted IFRSs as set out in note 1 to the accounts.

Cash flow statement

There have no material changes between the cash flow statement presented under UK GAAP and that presented under Adopted IFRSs.

35. Principal operating subsidiaries

All the principal operating subsidiaries listed below were wholly owned and were consolidated at 31 October 2006. Principal operating subsidiaries are those which, in the opinion of the Directors, significantly affected the Group's results and net assets during the year. The Directors consider that those companies not listed are not significant in relation to the Group as a whole.

All of the subsidiaries have only ordinary share capital except for Signature Vacations Inc., which also has convertible, redeemable preference shares all of which are owned by the Group. Subsidiaries marked with an * are directly held by First Choice Holidays PLC. A full list of subsidiaries will be included in the Company's annual return.

Peter Long
Chief Executive

Paul Bowtell
Finance Director

A. Accounting policies

Basis of preparation

Except in respect of changes of accounting policy set out below, the following accounting policies have been consistently applied in dealing with items considered material in relation to the Company's financial statements.

Accounting convention

The financial statements have been prepared in accordance with applicable UK accounting standards and under the historical cost convention as modified by the revaluation of certain fixed assets. The financial statements have been prepared on a going concern basis, which assumes that the Company will continue in operational existence for the foreseeable future.

The Company has taken advantage of the exemption under Section 230(4) of the Companies Act 1985 from presenting its own profit and loss account. The profit after tax included in the financial statements of First Choice Holidays PLC, determined in accordance with the Act, was £1.9m (2005 restated: £86.9m).

Under Financial Reporting Standard No 1 (revised), the Company is exempt from the requirement to prepare a cash flow statement as its cash flows are included within the published consolidated statement of cash flows of First Choice Holidays PLC.

The Company has taken advantage of the exemption contained within FRS 8 and has not therefore disclosed transactions or balances with entities which form part of its Group.

Prior year adjustments and changes in accounting policy

The Company has adopted the following new Financial Reporting Standards during the year:

FRS 20: "Share-based payment"

FRS 20 requires that the fair value of share options granted to employees is recognised as an expense with a corresponding increase in equity. However, during the current and prior year, the Company had no employees and only issued share options to employees of its operating subsidiaries. Consequently, no profit and loss charge has been recorded in the current or prior year. Previously, under UITF 17 (revised 2003), the intrinsic value of share options issued at a discount was recognised as an expense. Adoption of FRS 20 has restated and increased profit after tax for the year ended 31 October 2005 by £2.2m with a corresponding charge to equity. There is therefore no prior year adjustment to the value of net assets at 31 October 2005.

FRS 21: "Events after the balance sheet date"

FRS 21 requires dividends are recorded as liabilities in the period in which they are authorised and approved. Previously, proposed dividends were recorded as liabilities in the period, notwithstanding that they were declared and approved after the balance sheet date. This change in accounting policy has resulted in dividends proposed in December 2005 and recorded in the balance sheet at 31 October 2005 only being recognised during the current year. The impact of this restatement is to increase net assets at 31 October 2004 and 31 October 2005 by £28.6m and £34.5m respectively.

FRS 25: Financial instruments "Disclosure and presentation"

The Company has adopted, with effect from 1 November 2005, the disclosure and presentation requirements of FRS 25. Comparative financial information has not been restated.

FRS 26: Financial instruments "Measurement"

The Company has adopted, with effect from 1 November 2005, the measurement requirements of FRS 26. Comparative financial information has not been restated.

Investments

In the Company's financial statements, investments in subsidiaries, joint venture and associate undertakings are stated at cost less provision for impairment. Dividends received and receivable are credited to the Company's profit and loss account.

Foreign currencies

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Sterling at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to Sterling at foreign exchange rates ruling at the dates the fair values were determined.

Interest-bearing borrowings
Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any differences between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest rate basis.

Classification of financial instruments issued
Financial instruments issued by the Company are treated as equity only to the extent that they meet the following conditions: they include no contractual obligation upon the Company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the Company and; where the instrument will or may be settled in the Company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the Company's own equity instruments or is a derivative that will be settled by the Company exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

Taxation
The charge for taxation is based on the profit or loss for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Except as otherwise required by accounting standards, full provision without discounting is made for all timing differences, which have arisen but not reversed at the balance sheet date. Timing differences arise when items of income and expenditure are included in tax computations in periods different from their inclusion in the financial statements.

Dividend distribution
Dividend distribution to the Company's shareholders is recognised as a liability and deducted from equity in the Group's financial statements in the period in which the dividends are appropriately authorised and approved for payment and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

3. Directors' remuneration and employees
Details of directors' emoluments, gains made by them on exercise of share options, amounts receivable by them under long-term incentive schemes and pension entitlements in the current and prior years are contained in the Report of the Board to Shareholders on Directors' Remuneration.

The Company had no employees.

Details of share options issued by the Company are given in note 5 to the consolidated financial statements.

4. Dividends
Details of dividends paid and proposed by the Company in the current and prior year and details of dividends proposed subsequently to the balance sheet date are given in note 8 of the consolidated financial statements.

5. Investments

	Shares in subsidiaries £m	Investment in joint venture £m	Investment in associate £m
Cost			
At 1 November 2005	537.9	35.9	2.9

At 31 October 2006	**15.9**	**242.0**	**201.4**	**165.8**	**39.3**	**664.4**	**696.5**

No profit and loss account is presented for First Choice Holidays PLC as provided by Section 230 of the Companies Act 1985. The profit after taxation for the financial year of First Choice Holidays PLC was £1.9m (2005: profit after taxation of £86.9m).

Shareholders' funds are all due to equity shareholders.

K. Contingent liabilities

Under the terms of guarantees given to the Civil Aviation Authority and other relevant authorities by the Company in respect of certain subsidiaries, in the event of default the Company could be held liable to the extent of the subsidiaries' net trading liabilities at the time of default.

The Company, and its subsidiaries, is at any time defending a number of actions against it arising in the normal course of business. Provision is made for these actions where this is deemed appropriate.

Where the Company enters into financial guarantee contracts to guarantee the indebtedness of other companies within its group, the Company considers these to be insurance arrangements and accounts for them as such. In this respect, the Company treats the guarantee contract as a contingent liability until such time as it becomes probable that the Company will be required to make a payment under the guarantee.

BOARD OF DIRECTORS

Sir Michael Hodgkinson
Chairman (Age 62)
Sir Michael Hodgkinson joined the Board as Non-Executive Director on 1 January 2004 and became Chairman on 11 March 2004. Following an early career in the automotive industry, Sir Michael was appointed Chief Executive of Grand Metropolitan's European Hotel Division in 1985 and in 1992 he joined BAA plc, becoming Chief Executive in 1999, a post from which he retired in June 2003.

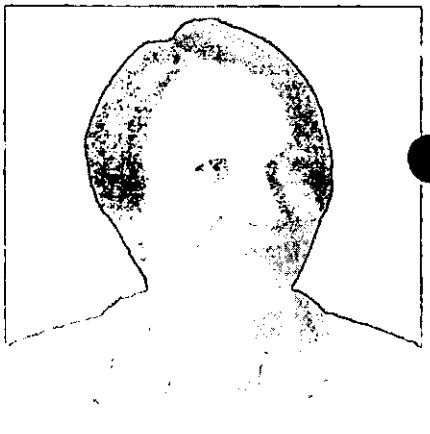
He is Senior Non-Executive Director at Royal Mail and Chairman of Post Office Limited and a Non-Executive Director of FKI plc, Transport for London Limited and Dublin Airport. He was also a director of Bank of Ireland plc from May 2004 until July 2006.

Sir Michael has in-depth experience of both substantial public companies and the travel industry.

Peter Long
Chief Executive (Age 54)
Peter Long joined the Board on 1 October 1996 as Managing Director of First Choice Holidays & Flights. On 11 November 1996 he was appointed Group Managing Director and became Chief Executive on 6 September 1999. Prior to joining First Choice Holidays PLC, he was Chief Executive of Sunworld Holidays, having previously been Finance Director then Chief Executive of the tour operating division of the International Leisure Group.

In October 2002 he was appointed a Non-Executive Director of Rentokil Initial Plc and joined the Board of Debenhams PLC as a Non-Executive Director in May 2006. He was a director of RAC plc (formerly Lex Service Plc) from February 2001 to June 2005.

Paul Bowtell
Group Finance Director (Age 38)
Paul Bowtell joined the Board as Group Finance Director on 6 September 2004. He was previously the Finance Director of British Gas, a subsidiary of Centrica plc, where he had been since January 2002. Prior to that, he was at W H Smith plc where he held a number of corporate centre roles before becoming the Finance Director of the UK Retail business. He is an Associate of the Institute of Chartered Accountants in England and Wales.



Bill Dalton
Non-Executive Director (Age 63)
Bill Dalton became a Non-Executive Director on 6 October 2004. He was previously Chief Executive of HSBC Bank plc and Global Head of Personal Financial Services for the HSBC Group. During his banking career, he has amassed a wealth of international expertise. Bill is also a Non-Executive Director of a number of UK and North American companies including Swiss Re CE plc, Associated Electric and Gas Insurance Services (AEGIS), HSBC Finance, Inc. and Talisman Energy, Inc.

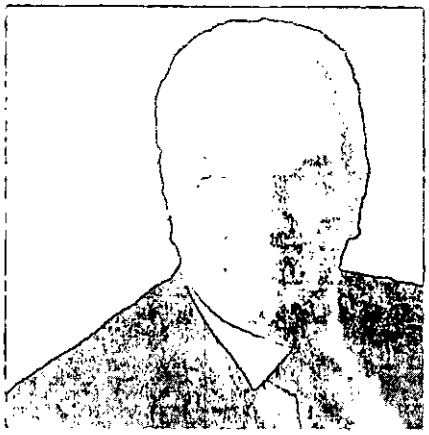
Simón Barceló
Non-Executive Director (Age 49)
Simón Barceló joined the Board on 6 July 2000 in accordance with the terms of the Relationship Deed between Barceló Corporación Empresarial SA and the Company. On 30 August 2002 he resigned his executive position as President of the Barceló Travel Division, as envisaged at the time of the acquisition, and became a Non-Executive Director.

He was Senator for Mallorca and occupied the 3rd Secretariat of the Spanish Senate from October 1989 to July 1993. From July 1993 to February 2000 he was Vice Chairman of Barceló Corporación Empresarial and was appointed Chairman and CEO in June 2000.

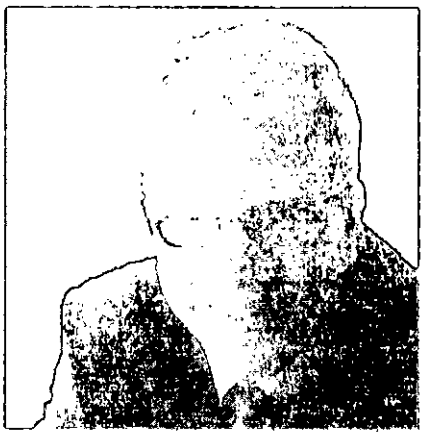
Susan Hooper
Non-Executive Director (Age 46)
Susan Hooper joined the Board as a Non-Executive Director on 10 March 2005. She is currently the Senior Vice President, International Managing Director, Royal Caribbean and Celebrity Cruises International. She joined Royal Caribbean from Avis Europe where she was Commercial Vice President. Prior to this she gained extensive international experience with Saatchi & Saatchi, McKinsey & Co and PepsiCo International.

Susan is currently a Director of Sunshine Cruises Limited (the joint venture between First Choice and Royal Caribbean) Transcom Worldwide SA and is a trustee of The Suzy Lamplugh Fund.

Dermot Blastland
Managing Director (Age 56)
Mainstream Holidays Sector
Dermot Blastland joined the Board on 6 September 1999. He is Managing Director, Mainstream Holidays, and is the Group Board Director with responsibility for Sustainable Development, having previously held positions as Managing Director of First Choice Holidays and Flights, Ski, Lakes & Mountains and President of Starwave Vacations. Prior to joining the Company in February 1988, he was Commercial Director at Thomson and subsequently Managing Director of Portland Holidays.



Tony Campbell
Non-Executive Director and Senior Independent Director (Age 57)
Tony Campbell became a Non Executive Director on 1 April 1997. He was Deputy Chief Executive of Asda Stores Limited and a director of Asda Stores PLC until 2 March 2001. He is Chairman of Hobbs Headco Limited, Chairman of T W Lewin and Sons Ltd. and a director of Alpha Food Diagnostics Limited.



Clare Chapman
Non-Executive Director (Age 46)
Clare Chapman became a Non Executive Director on 11 March 2003. She has been appointed as the Director General of Workforce for the NHS and Department of Health and takes up her new position in January 2007. Prior to this she was the Group HR Director of Tesco PLC.

In addition, Clare serves on the Board of the Qualifications and Curriculum Authority (QCA) and on the Advisory Board of the Judge Business School, University of Cambridge.

Jeremy Hicks
Non-Executive Director (Age 53)
Jeremy Hicks became a Non-Executive Director in February 2005. He is the Finance Director of Aegis plc where he has overseen the expansion of the business from a European media agency into a global business with their competences in media and market research.

Up until 1999 he was Finance Director of Abbot Mead Vickers plc (AMV) where he played a key role in the strategic development of the Company into one of the largest marketing services groups in the UK.

Giles Thorley
Non-Executive Director (Age 39)
Giles Thorley became a Non-Executive Director in February 2006 and is currently the Chief Executive Officer of Punch Taverns plc.

After qualifying as a Barrister, he had an early career at Nomura International plc. He has been in his current post of Chief Executive of Punch Taverns plc since 2001. At Punch, he successfully led the IPO and Punch's subsequent acquisition of Pubmaster and Spirit Group to its current position as the largest pub company in the UK.

The Directors submit their report to the members of First Choice Holidays PLC for the year ended 31 October 2006.

Results and dividends
The Group profit before taxation for the year was £97.5m (2005: £112.2m).

The Directors recommend a final dividend of 5.40p (2005: 4.65p) net per ordinary share, payable on 10 April 2007 to holders on the register at the close of business on 9 March 2007. When taken with the interim dividend of 2.25p (2005: 1.95p) net per ordinary share paid on 1 November 2006, this gives a total dividend of 7.65p (2005: 6.60p) relating to the year ended 31 October 2006.

Business review and activity
The Group's principal activity is that of an international leisure travel business providing integrated tour operations, specialist holidays and online accommodation. It operates from 17 countries including the UK, Ireland, the USA, Canada, France, Germany and Spain.

The Business and Financial Review for the year ended 31 October 2006 is set out on pages 4 to 21.

People agenda
It is our vision to be the "First Choice" for people wanting to work in leisure travel. Achieving this vision helps drive profitable growth across the Group.

First Choice operates a global portfolio of businesses, employing approximately 15,000 people across the Group – based in the UK and throughout the USA, Canada, Africa, Asia, Australia and Continental Europe. Although businesses within our portfolio are at various stages of development and maturity, together we all share common values. Our aim is to reward, develop and promote our people in a way that is right for them, taking into account the environment in which they operate.

Our commitment is to:

- engage employees in our aims and success – and in issues that affect them.
- promote a positive workplace.
- reward them in a way which is relevant to them and reflects their contribution to the Group's success.

Rewarding people and valuing their contribution
First Choice's goal is to have a reward strategy which underpins business objectives within Group-wide principles which provide a framework for local environments. Recognising and rewarding our employees in ways that are effective for them is a key driver for engagement and high performance. Our reward strategy takes into account base pay, competency pay, incentives, benefits and non-cash based rewards. We make every effort to measure the input and results of both individuals and teams. Many UK employees participate in the Share Incentive Plan, giving them an interest in the financial performance of their Company.

Ensuring our employees share our aims and are involved in matters that affect them is a key challenge for us. We employ people in many countries around the world – a significant number of whom are engaged on a seasonal basis. We start by employing people we believe share our passion for our customers and products and build engagement through consultation and by providing regular local and global updates in ways which suit our employees' working environment and culture.

We encourage the participation of employees through frequent "Work in Partnership" meetings led by senior management. Regular meetings also take place with recognised trade unions. The "First Voice" survey is sent to all employees worldwide and we monitor the responses closely and adapt and change policies and practices taking account of the comments and views of employees.

We have recently established a new extranet website to enhance communications across the whole Group and this now provides a central source where all employees can find both external and internal information about the Sectors and various businesses in the Group. Additionally each Sector has its own tailored approach to communication which reflects its particular needs.

As a Group we operate in diverse cultures and understand the need to rule out discrimination on any grounds including ethnicity, gender, disability and age. If applicable and possible, alternative suitable employment would be found for any employee who becomes disabled during the course of employment provided that they can be employed in a safe working environment. We continue to develop policies on non-discrimination and inclusiveness in line with best practice and these are incorporated into training for line managers as a key part of induction programmes. Unfair treatment of any employee is not tolerated and a confidential hotline is available for all employees worldwide – there is a translation service in place for non-English speaking employees.

Attracting, developing and retaining talent
We continue to be proud of the commitment and dedication of our employees in achieving the levels of service and efficiency which make First Choice stand out from our competitors. Every effort is made to encourage and develop all employees to realise their maximum potential. We are committed to using the most effective recruitment methods in all the countries in which we operate and to build skills and knowledge in ways which suit both the business and our employees.

We continue to invest in our leadership capability. For example, the majority of our senior managers have now attended a Strategic Leadership programme at an International Business School. This programme, which extends across all Sectors of the Group, builds the skills and capability of those with the greatest responsibility for leadership and strategy. Investment in the capability of our people is a priority and all employees have had the opportunity to provide feedback on their training needs for the coming year.

Each year our employees have the opportunity to meet their line manager at least once to discuss their performance over the previous year and make plans for development in the coming year. The "Personal Development Update" allows individuals to identify training opportunities and understand the role they play in First Choice's success. The update is designed to ensure that each person has objectives supporting business plans.

Retaining key employees is critical to our continued business success. Group-wide talent is reviewed on a regular basis at Board level and our focus is to retain and develop individuals to carry the business forward. We actively move people to career opportunities across the Group to enhance the mix of innovative, entrepreneurial and general management skills. In order to meet seasonal demands we continue to move our best frontline staff between retail, overseas representation and airline cabin crew roles. This develops a multi-skilled workforce that has year-round experience of working with our customers.

Policy and practice on payment of suppliers

Group - First Choice Holidays PLC and subsidiary companies

The Group's operating units are responsible for agreeing the terms and conditions under which business transactions with their suppliers are conducted. Due to the nature of the Group's operations and in common with the industry as a whole, payments are often made in advance of the provision of goods and services. The Group does not follow any code or statement on payment practice but it is Group policy that payments to suppliers, whether in advance or after the provision of the goods or services, are made on the basis of the terms that have been agreed with them.

Company - First Choice Holidays PLC

The Company has no material contracts for the supply of goods or services. Where the Company is the recipient of goods or services, payment of suppliers is conducted by one of the Group companies in accordance with the policy set out above.

Directors

The Directors who served during the year are set out below:

Sir Michael Hodgkinson	Non-Executive Chairman	
Peter Long	Chief Executive	
Paul Bowtell	Group Finance Director	
Dermot Blastland	Managing Director, Mainstream Holidays	
Tony Campbell	Non-Executive Director and Senior Independent Director	
Clare Chapman	Non-Executive Director	
Simón Pedro Barceló Vadell	Non-Executive Director	
Jeremy Hicks	Non-Executive Director	
Susan Hooper	Non-Executive Director	
Bill Dalton	Non-Executive Director	
Giles Thorley	Non-Executive Director	Appointed 1 February 2006

As at 31 October 2006, the Board comprised three Executive Directors and eight Non-Executive Directors (including the Chairman). There have been no changes to the Board since that date. Biographical details of all the Directors are set out on pages 80 to 81. In accordance with the Articles of Association, one-third of the Board members will retire by rotation and additional biographical details to enable shareholders to make an informed decision on the reappointment of the Non-Executive Directors are contained in the 2007 Notice of the Annual General Meeting (AGM). The Directors retiring by rotation at the AGM are Peter Long, Simón Barceló, Bill Dalton and Paul Bowtell. Peter Long, Bill Dalton and Paul Bowtell intend to offer themselves for re-election and are eligible to do so. The Board recommends to shareholders the reappointment of all four Directors retiring at the meeting and offering themselves for reappointment on the basis that they are all effective Directors of the Company and demonstrate the appropriate level of commitment in their respective roles. Tony Campbell retires in accordance with the Combined Code, which requires that he submits to annual re-election, as he has more than nine years' continuous service as a Non-Executive Director. The Board, including all the other members deemed independent, is completely satisfied that he remains independent in character and judgment.

The terms of the Directors' service contracts are disclosed in the remuneration report commencing on page 85. Directors' interests in the shares of the Company are disclosed on page 89. Directors' interests in any contract of significance to the Group's business are disclosed in note 31 to the accounts.

Directors' Insurance

The Company has purchased, and maintained throughout the year, directors' and officers' liability insurance.

Substantial shareholdings

As at 6 December 2006 the Company was aware of the following interests in the issued ordinary share capital of the Company:

	Shares (millions)	%
Scottish Widows Investment Partnership	52,316,224	9.87
Newton Investment Management	44,907,044	8.47
Barclays PLC	36,189,762	6.83
Legal & General	35,963,421	6.78
Barceló Corporación Empresarial SA	32,625,919	6.15
M&G Investment Management	26,418,428	4.98
Goldman Sachs International	21,520,010	4.06

Save as above, no other person has reported an interest, which is notifiable under the Companies Act 1985, being an interest of 3% or more in the issued ordinary share capital.

Going concern
After making appropriate enquiries, the Directors have reasonable expectation that the Company and Group have adequate resources to continue operations for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the Accounts.

Charitable and political donations
During the year, the Group made charitable donations of £87,000 (2005: £87,000). The Group made no political contributions during the year (2005: £nil).

Financial instruments
Details of the Group's financial risk management objectives and related policies are given in note 25 to the financial statements.

Auditors
In accordance with Section 384 of the Companies Act 1985, a resolution regarding the reappointment of KPMG Audit Plc as auditors of the Company will be proposed at the forthcoming Annual General Meeting.

Statement of the Directors as to disclosure of information to Auditors
The Directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's Auditors are unaware; and each director has taken all the steps that he or she ought to have taken as a director to make himself or herself aware of any relevant audit information and to establish that the Company's Auditors are aware of that information.

Other matters
An explanation as to the business, other than routine business, to be transacted at the Annual General Meeting which is to be held on Wednesday 7 March 2007 at 10.30am, is contained in the explanatory notes to the Notice of Annual General Meeting which accompanies this Report and Accounts.

By Order of the Board

Andrew John
Company Secretary
6 December 2006

Remuneration Committee
The Remuneration Committee (the Committee) is responsible for all aspects of remuneration and contractual terms and conditions of the Executive Directors and members of the Group Management Board (GMB). The Remuneration Committee sets the remuneration policy and strategy for these employees and determines appropriate reward packages for them. The activities of the Committee are governed by its Terms of Reference, which have been approved by the Board and can be found on the First Choice Holidays PLC website at www.firstchoiceholidaysplc.com

The Committee is composed entirely of independent Non-Executive Directors. No member of the Committee has any personal financial interest (other than as a small shareholder – as disclosed in the interests in shares and options table on page 89) in the business of the Group. There are no conflicts of interest arising from Committee members' cross-directorships and they do not participate in any bonus schemes, pension plans, share options or any employee share scheme. Members of the Remuneration Committee have no day-to-day involvement in the running of the Group.

The current membership of the Remuneration Committee is:

Clare Chapman (Chairman)
Tony Campbell
Bill Dalton

During the year, the Committee met on four occasions.

The Committee has appointed Mercer Human Resource Consulting (Mercer) to provide independent advice on all aspects of senior management remuneration. Mercer also provides salary benchmarking information to the Group from time to time and external verification of the calculations of the performance conditions used in the Performance Share Plan and Deferred Annual Bonus Scheme (explained in greater detail below).

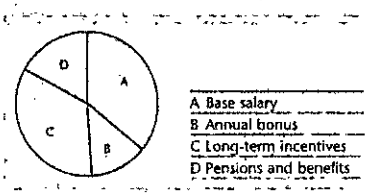
In addition, the following principal advisers provided advice to the Committee during the year:

- Watson Wyatt Limited prepared the Total Shareholder Return (TSR) calculations for the Restricted Share Plan. Watson Wyatt does not have any other connection with the Group.
- Herbert Smith advised on the Directors' Remuneration Report and on various legal issues relating to the Company's share schemes. Herbert Smith also advises the Group on legal issues generally.

Peter Long (Chief Executive) attends meetings of the Committee to make recommendations relating to the performance and remuneration of his direct reports. Bill Logan (Group HR Director) also provides advice and guidance to the Committee. Andrew John (Company Secretary) acts as Secretary to the Committee. Peter Long, Bill Logan and Andrew John are not in attendance when their own remuneration is considered.

The Committee is constituted, and operated throughout the review period, in accordance with the relevant provisions of the Combined Code. This report complies with the Directors' Remuneration Report Regulations 2002. A resolution will be put to the shareholders at the Annual General Meeting on 7 March 2007 inviting them to consider and approve this report.

Remuneration policy
The objective of the Group's remuneration policy is to provide competitive packages to motivate, reward and retain high-calibre individuals at senior management level. The main principles of this policy are to:



- set the total remuneration package at an appropriate level to reflect the competitive market in which the Group operates.
- link a substantial proportion of the total remuneration package to the achievement of demanding performance targets.
- structure the reward of senior management to align their interests with those of the shareholders.
- ensure the development of a high-performance culture throughout the Group.

The remuneration arrangements are kept under regular review to ensure that they are appropriate and the last extensive review was undertaken in 2004, with new long-term incentive plans put in place in 2005. The Committee believes that the current arrangements remain appropriate.

Elements of remuneration
The Executive Directors' total remuneration consists of the following elements:

- Base salary.
- Annual bonus.
- Long-term incentives.
- Pensions and life assurance.
- Other benefits.

The chart below sets out the balance between fixed pay (A and D) and performance related pay (B and C) under the current arrangements.

Base salary
The Committee's policy is that base salaries for the Executive Directors should be paid at a market-competitive level measured against base salaries paid for equivalent roles in UK companies of broadly similar size and complexity and from which the Group attracts talent. The Committee assesses the market information and applies its judgment in setting the salary levels – having regard to job size, function and personal performance. It reviews the base salaries of Executive Directors annually and takes note of relative pay and employment conditions within the Group in determining annual salary reviews.

Annual bonus
Each Executive Director participates in an annual non-pensionable bonus plan. The Committee reviews the targets on an annual basis. The maximum bonus potential is 100% of base salary for the Chief Executive and 87.5% for the other Executive Directors. For the financial year ending 31 October 2006, the annual bonus performance targets related to the achievement of pre-tax profits and strategic personal objectives. For the Chief Executive and Finance Director, 80% of the annual bonus was based on Group pre-tax profit and 20% on personal objectives. For the Managing Director of the Mainstream Holidays Sector, 40% of his annual bonus was based on Group pre-tax profit, 40% on pre-tax profit of the Mainstream Sector and 20% on personal objectives. The achievement of strategic personal objectives by the Executive Directors is considered by the Committee when determining the level of any bonus awards. In aggregate, bonuses of £1,078,000 were awarded to the Executive Directors for the year under review (2005: £1,186,250).

Long-term incentives
As a result of the Group's transition to reporting under Adopted IFRSs, the Group's additional measure of earnings per share (EPS) is calculated as set out in note 9. The Remuneration Committee will use this measure of EPS in the performance conditions for the long-term incentive plans. References to EPS in the remainder of this report are to the EPS measure currently included in the various schemes' rules.

Deferred Annual Bonus Scheme (DABS)
The Deferred Annual Bonus Scheme was approved at the AGM in March 2005. Under the DABS, the Executive Directors are required to defer 25% of their performance-related annual bonus and have the opportunity to defer up to an additional 25% of their bonus into Company Shares (deferred shares). A conditional award of matching shares equal to four times the number of deferred shares is made at the same time.

Deferred shares normally vest after three years and matching shares also vest after three years subject to the achievement of performance conditions, as determined by the Committee. No matching shares will vest unless the annual average of the ratio of the Group's return on invested capital (ROIC) to the weighted average cost of capital (WACC) exceeds 100% over the 3-year period. A hurdle of ROIC, being at least equal to WACC, is used to ensure that the relevant long-term incentive schemes pay out only when shareholder value is being created over the performance periods. If the ROIC/WACC hurdle is met, shares will only vest to the extent to which two further performance conditions are satisfied over the 3-year period as follows:

- Up to three-quarters of the matching shares will vest based on growth in the Group's EPS, before goodwill amortisation and exceptional items, in relation to the growth in the UK Retail Price Index (RPI) as shown in the table below:

Average annual EPS growth in excess of RPI growth	Proportion of matching shares vesting
Below 4%	0%
Between 4% and 13%	On a straight-line basis between 10% and 100%
13% or above	100%

- Up to one-quarter of the matching shares will vest based on the Group's ranking of Total Shareholder Return (TSR) performance in relation to the TSR of the FTSE mid-250 constituents (excluding Investment Trusts) over the three-year period as shown in the table below:

TSR Ranking	Proportion of matching shares vesting
Below median	0%
Between median and upper quartile	On a straight-line basis between 10% and 100%
At or above upper quartile	100%

The Committee considers that EPS and TSR are the key performance conditions that are most relevant to the Group. EPS is a key indicator of the Group's underlying financial performance whilst TSR is a relative measure of shareholder value creation. There will be no re-testing of the performance conditions after the three-year performance period.

The first bonus deferral under the DABS was made in December 2005, based on the annual bonus earned in the financial year ended 31 October 2005. The deferred shares under this first award will vest in two tranches: two-thirds of the award will vest in December 2007 and the remainder in December 2008. This first award is in two tranches to acknowledge the time delay from the introduction of the scheme to the release date and only applies to the December 2005 deferral – thereafter all bonus deferrals will vest after three years as described above. In aggregate, matching shares of 1,034,900 were awarded to Executive Directors for the year ended 31 October 2005. The Executive Directors elected to defer an additional 25% of the annual bonus entitlement for the year ended 31 October 2005 (50% of the annual bonus in total).

Performance Share Plan (PSP)
Under the PSP, the Executive Directors are eligible to receive conditional awards of shares annually, which vest after a three-year period subject to the achievement of performance conditions, as determined by the Committee. No shares will vest unless the ROIC/WACC hurdle, which is the same hurdle as for the DABS above, is met over the three-year period.

If the ROIC/WACC hurdle is met, shares will only vest to the extent to which a performance condition based on growth in EPS, before goodwill amortisation and exceptional items, in relation to RPI growth over the three-year period is met, as shown in the table below:

Average annual EPS growth in excess of RPI growth	Proportion of shares vesting
Below 4%	0%
Between 4% and 13%	On a straight-line basis between 10% and 100%
13% or above	100%

There will be no re-testing of the performance conditions after the three-year performance period. The Chief Executive will be eligible to receive an annual award equivalent to 100% of his salary and the other Executive Directors will be eligible to receive annual awards of 75% of their respective salaries. The first award under the PSP was made in December 2005.

Long-term cash bonus for the Chief Executive
The Chief Executive, Peter Long, participates in a long-term cash bonus (the Bonus), which was approved at the AGM in March 2005. A one-off cash bonus will be payable at the end of a five-year period ending 31 October 2009, subject to meeting pre-determined performance conditions over that period. The objective of the Bonus is to incentivise the Chief Executive to achieve demanding financial and personal objectives and to ensure his retention by the Group. The maximum that may be earned under the Bonus is £1.5m. No payment will be made unless the ROIC/WACC hurdle, as described in the DABS section above, is met over the five-year period. The amount of bonus payable will depend on the extent to which the following three separate performance tests are met:

- 50% of the Bonus will depend on relative TSR against constituents of the FTSE mid-250 (excluding investment trusts) and will be paid out according to the same schedule set out under the DABS section above.
- 35% of the Bonus will be based on the growth in EPS, before goodwill amortisation and exceptional items, against RPI growth and will be paid out according to the same schedule set out under the DABS and PSP sections above.
- The remaining 15% of the Bonus will be payable for the achievement of personal objectives which is assessed against key strategic and leadership targets as determined by the Committee.

The Bonus is non-pensionable.

Restricted Share Plan (RSP)
The final award of restricted shares under the RSP was made in December 2004. Awards were made on an annual basis to most participants. The exception was the Chief Executive who received periodic awards so that the total original value of all his outstanding awards was equal to four times his annual salary.

The other Executive Directors received annual grants with an original value equivalent to 50% to 100% of salary. Shareholder approval was obtained at the AGM in March 2005 to change the performance condition previously attached to the RSP (which was TSR-based) to the performance conditions attached to the awards made under the PSP and the Executive Directors agreed to this change in relation to their individual awards. Therefore, all outstanding RSP awards made from 14 December 1999 to 23 December 2004 will now be subject to the ROIC/WACC hurdle and the EPS performance condition described on page 86. The performance period for these awards is 1 November 2003 to 31 October 2006 and there will be no opportunity to retest the performance conditions attached to these awards.

The awards made from 14 December 1999 to 31 October 2003 will mature on 31 October 2006 and, if the performance condition is satisfied, will vest in December 2006. The number of shares maturing will reflect the extent to which the performance conditions are met. The awards granted after 1 November 2003 will not mature until the third anniversary of the date of each award.

Senior Executive Plan (SEP)
The SEP expired in 2004 and the last award under the plan was made in December 2003. Under the SEP, options with original values of between 150% and 200% of base salary were awarded to the Executive Directors in October 2002 and December 2003. At the AGM in March 2005 approval was also obtained to amend the performance condition attached to the vesting of the options to the ROIC/WACC hurdle and EPS growth in relation to RPI growth performance condition as described on page 86. The previous performance condition was based on relative TSR against the constituents of the FTSE mid-250 (excluding investment trusts) measured over a five-year period. The extent to which the outstanding awards made in October 2002 and December 2003 vest on 31 October 2007 and 31 October 2008 respectively will be determined by the extent to which the new performance conditions are met over the five-year performance period corresponding to each award.

Pensions and life assurance
All the Executive Directors participate in a HMRC-registered defined contribution scheme. The Group makes a contribution of 50% of base salary for the Chief Executive. Contributions are paid into a self-invested personal pension up to the HMRC annual allowance limit. Contributions in excess of the annual allowance are made as a non-pensionable cash payment equivalent to the Group's contractual pension contribution.

Pension contributions of 25% of base salary are made for the other Executive Directors.

During 2005, the Committee reviewed the Group's pension policy in anticipation of the introduction of the new pension tax regime in April 2006. It has taken the view that pension scheme participants will not be compensated for any tax adverse consequences. The Committee has also decided that, in the event of a participant in a pension scheme reaching the HMRC lifetime allowance limit, and choosing not to accept further pension contributions, a non-pensionable cash payment, equivalent to the Group's contribution to the pension scheme, will be offered in lieu. The normal retirement date for the Executive Directors is 65 in accordance with changes which came into effect from 1 October 2006 under the Age Discrimination Act.

In the event of death, the pension scheme provides lump sums for the purchase of dependants' pensions of the greater of eight times salary or the value of the pension fund. On death-in-service a lump sum of four times salary is payable. Following the changes to the tax rules from April 2006 any dependant's pension may be paid as an additional lump sum subject to HMRC limits.

Other benefits
Other benefits provided to the Executive Directors include permanent health insurance, private medical insurance, medical examinations, the provision of a company car (or a non-pensionable cash alternative) and holiday concessions of £2,500 per annum. They are eligible to participate in the HMRC-approved Share Incentive Plan which is an all-employee share scheme which enables staff to acquire shares in the Company on preferential terms. To further encourage employee shareholding in the Company, the Share Incentive Plan was enhanced in 2005 to provide for the Company to award a matching share for every four shares bought by a participant under the plan.

Subject to the approval of the Board, the Executive Directors are allowed to accept non-executive director appointments and retain the fees received. Peter Long received and retained non-executive director fees of £98,947 (2005: £61,666) in respect of two appointments.

Shareholding guidelines
In line with its policy of aligning senior management interests with those of shareholders, the Executive Directors and GMB members will be required, by November 2010, to hold, at a minimum, the following number of shares in the Company:

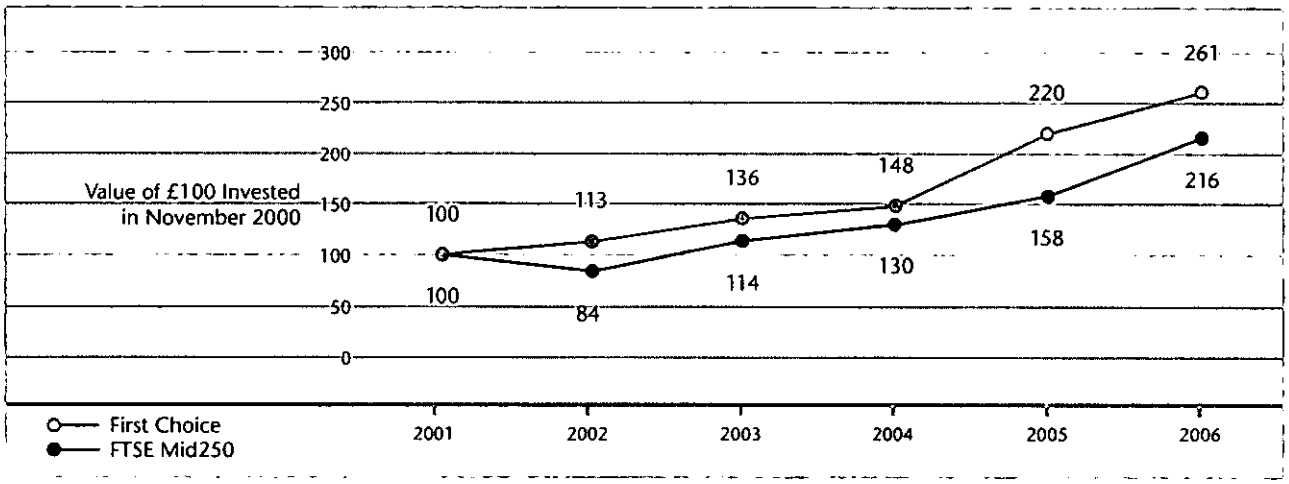
	Number of shares
Chief Executive	500,000
Other Executive Directors	270,000
Other GMB members	100,000 to 175,000

Any newly-appointed Executive Director or GMB member will be required to hold the required shares within five years of appointment.

Service contracts

All the Executive Directors have service contracts with the Group which can be terminated on six months' notice from the Director or on 12 months' notice from the Group. Service contracts for the Executive Directors do not include any provisions for the payment of compensation in the event of early termination save for the ability of the Group to exercise its discretion to make a payment in lieu of all or part of the notice period to the Executive Directors subject to any obligation they may have to mitigate any post termination losses. The dates of the service agreements and the notice periods for each Executive Director are set out below:

Executive Director	Date of agreement	Notice period (months)
Peter Long	1 October 1996	12
Dermot Blastland	22 April 1999	12
Paul Bowtell	6 September 2004	12



Non-Executive Directors

The Non-Executive Directors do not have service contracts and do not participate in the Group's pension scheme, annual bonus scheme or long-term incentive schemes. Non-Executive Directors have letters of appointment and their appointments can be terminated by either party serving six months' notice. Each appointment is for three years and they receive a basic annual fee. The fees payable are determined, from time to time, by the Board as a whole, based on relevant external market research and consultations with internal and external advisors.

The Chairman receives fees of £170,000 per annum and the other Non-Executive Directors receive a fee of £33,000 per annum. In addition, the Board pays an additional fee of £5,000 per annum to the Senior Independent Director (Tony Campbell) and to the Chairmen of the Audit and Remuneration Committees (Jeremy Hicks and Clare Chapman respectively). They also receive annual holiday concessions to the value of £2,500 per annum.

Performance graph

Total Shareholder Return (TSR), comprising the changes in value of a share and dividends distributed, can be represented by the value of a notional £100 invested at the beginning of a period and its change over that period. A graph showing TSR in respect of the Group over five years from 1 November 2001 to 31 October 2006 is given below. The TSR performance for the Group is compared with the TSR for the FTSE mid-250 Index, which was considered to be the most appropriate benchmark for comparison purposes as it is the principal index in which the Company's shares are quoted.

The auditors are required to report on the information contained in the following section of this report.

1 Bill Dalton received £2,000 of his 2004 fees in 2005 as an arrears payment.
2 Jeremy Hicks and Susan Hooper were appointed during 2005.
3 Giles Thorley was appointed in February 2006.

The Executive Directors have each elected to defer 50% (2005: 50%) of the annual bonus entitlement for the year ended 31 October 2006 under the terms of the DABS described on page 86.

Interests in shares and options

The interests of Directors in the share capital of the Company are set out below:

	Ordinary shares			Options				*Share awards		
	31 October 2006	31 October 2005	31 October 2006	Granted	Exercised	31 October 2005	31 October 2006	Granted	Exercised	31 October 2005

* Includes shares awarded under the Restricted Share Plan, Performance Share Plan and Deferred Share Bonus Plan.
** Includes shares purchased under the Buy-as-You-Earn Share Incentive Plan.
*** Simón Barceló's interest in 32,625,919 shares is held through his 6.15% (2005: 11.16%) shareholding in Barceló Corporación Empresarial SA and its wholly-owned subsidiary Barceló Cruceros Marítimos SL (2005: 59,115,629 shares).

The performance criteria relating to the restricted shares and share options are set out on pages 86 to 87.

Share awards/options exercised during the year

No shares were exercised under any of the various plans during the year and therefore there were no gains on the exercise of shares by Directors during the year (2005: £931,538).

Share awards/options granted and outstanding at 31 October 2006

Share options and awards granted to the Executive Directors and outstanding at the year-end under the Performance Share Plan, Deferred Annual Bonus Scheme, Restricted Share Plan and the Senior Executive Plan are set out below.

	Number of shares	Grant date	Option exercise price (p)	Date next exercisable	*Final lapse date

* In accordance with the amendments to the Restricted Share Plan approved by the shareholders.

During the year, the price of the Company's ordinary shares ranged between 196p and 260.5p and the mid closing price on 31 October 2006 was 225.25p.

On 1 November 2006, the following shares were allocated to the Directors in respect of the Dividend Reinvestment Plan (the DRIP):

Louise Bowtell (wife of Paul Bowtell)	104
Tony Campbell	390

The report was approved by the Board of Directors on 6 December 2006 and has been signed on its behalf by:

Clare Chapman

Clare Chapman
Chairman of the Remuneration Committee
6 December 2006

Corporate Governance
First Choice has maintained its commitment to high standards of corporate governance during the year. Throughout the year, all provisions of the Combined Code were complied with except for Code Provision A3.2 (half the Board, excluding the Chairman, should comprise independent Non-Executive Directors) and Code Provision D1.1 (the Senior Independent Director should meet with a range of major shareholders to listen to their views in order to help develop a balanced understanding of the issues and concerns of major shareholders). Explanations for non-compliance are given below.

The Board of Directors
The Company is controlled through its Board of Directors, which meets regularly, including away days to review the strategy of the Group. The schedule of matters specifically reserved to it for decision include: determining the strategy and control of the Group; amendments to the structure and capital of the Group; approval of financial reporting and controls; oversight of the Group's internal controls; approval of capital and revenue expenditure of a significant size; acquisitions, disposals and share dealings; Board membership and appointments; approval of remuneration of Directors and certain senior management; corporate governance matters; and approval of Group policies and risk management strategies.

The Board has delegated authority to the Committees of the Board on specific matters. The executive management is delegated to the Chief Executive, Executive Directors and certain other senior managers who, together, form the Group Management Board (the GMB), the membership of which is disclosed on page 99. Details of the Nomination and Audit Committees are given on page 93 and details of the Remuneration Committee are given on page 85. The Terms of Reference for the Board and its Committees are available for inspection on the Company's website and will be available at the Annual General Meeting (AGM).

The division of responsibilities between the Chairman and Chief Executive is clearly established and has been agreed by the Board. All Directors have access to the advice and services of the Company Secretary and all Directors can take independent professional advice, if necessary, at the Company's expense. No such advice was sought by any Director during the year. The Company has in place appropriate insurance cover in respect of legal actions against its Directors and the level of cover is regularly reviewed. The Company Secretary is responsible for ensuring Board procedures are followed including the formal minuting of any unresolved concerns that Directors may have in connection with the operation of the Company. During the year, there were no such unresolved issues.

Sir Michael Hodgkinson met the independence criteria laid out in the provisions of the Combined Code at the time of his appointment. The Non-Executive Directors met to consider the performance of the Chairman. The views of all the Directors on the Chairman's performance were obtained via a confidential questionnaire and the results were considered by a meeting of the Non-Executive Directors (excluding the Chairman), and discussed with him.

Details of the Chairman's other significant commitments are given in his biography on page 80. The Chairman does have a number of other external roles but the Board is satisfied that these do not interfere with the performance of his duties as Chairman of the Company, which are expected to require at least one day per week. He resigned his position as a director of the Bank of Ireland during the year.

The eight Non-Executive Directors all bring independent judgment to the Board, although the Board accepts that Susan Hooper and Simón Barceló may not be considered to be wholly independent (refer to note 31). The Non-Executive Directors considered to be independent are Clare Chapman, Bill Dalton, Jeremy Hicks, Giles Thorley and Tony Campbell.

Notwithstanding Tony Campbell was first appointed to the Board on 1 April 1997, the Board is entirely satisfied that he is independent in character and judgment and that there are no relationships or circumstances that are likely to affect, or could appear to affect, his judgment. Tony has the broad experience, credibility and commitment required to be an effective independent director and the Board benefits from his wealth of experience, particularly in the retail sector. He continues to make a significant, valuable and challenging contribution to both governance and strategic issues whilst demonstrating a continued strong commitment to his role. For these reasons, the Board continues to recognise him as the Senior Independent Non-Executive Director and the Notice of the AGM explains why the Board is recommending him for re-election. In accordance with the Combined Code, Tony will now retire annually and will be subject to a rigorous annual review not only of his performance but also of his independence.

The Board recognises that the Combined Code requires that at least half the Board, excluding the Chairman, should be independent Non-Executive Directors. Giles Thorley was appointed on 1 February 2006 and therefore the Company was compliant with provision A3.2 of the Combined Code for nine months of the year. Giles has also been appointed as a member of the Audit Committee. The Board seeks to ensure that its membership is regularly refreshed.

The letters of appointment of the Non-Executive Directors are available for inspection at the Company's registered offices and will be available at the AGM.

All Directors are subject to re-election by shareholders at intervals of no more than three years. Accordingly, Peter Long, Simón Barceló, Bill Dalton and Paul Bowtell will be proposed for re-election at the Annual General Meeting on 7 March 2007. Full biographical details of all Directors are on pages 80 and 81. Shareholders will be sent, as part of the papers accompanying the resolutions to re-elect the Non-Executive Directors, statements as to why the Company believes they should be re-elected. The Chairman intends to confirm at the AGM that the performance of each individual continues to be effective and to demonstrate commitment to the role.

Nomination Committee
The nomination of suitable candidates for approval of the Board of Directors to fill Executive and Non-Executive vacancies on the Board is carried out by the Nomination Committee, which comprises the Chairman and three Non-Executive Directors. The composition of the Nomination Committee is set out on page 99.

The meeting of the Committee held during the year to consider the appointment of Giles Thorley was chaired by the Non-Executive Chairman. Prior to his appointment, the Nomination Committee considered the existing skills and knowledge of the Board before providing an external search consultancy with a description of the capabilities required for his appointment. As previously disclosed, the Board considered the other commitments of Giles Thorley and he confirmed that he will have sufficient time to fulfil his non-executive role.

Following the appointment of a new Director, the Chairman, in conjunction with the Company Secretary, is responsible for ensuring that a full, formal and tailored induction to the Company is given. A detailed pack and programme was provided to Giles Thorley on appointment.

Audit Committee
The Audit Committee operates under written Terms of Reference to assist the Board in the discharge of its duties with regard to the Group's accounts, the review of internal controls and risk management systems and the external audit.

The composition of the Audit Committee, which is chaired by Jeremy Hicks, is set out on page 99. All members of the Committee are considered to be independent. In accordance with the Combined Code, the Board is satisfied that Jeremy Hicks has "recent and relevant financial experience". Bill Dalton, the former Chief Executive of HSBC Bank plc, also brings additional financial expertise to its deliberations. Giles Thorley was appointed as a member of the Committee on joining the Board. His background in corporate finance, and his experience as the Chief Executive of the highly-acquisitive Punch Taverns plc, greatly assists debate in the Committee.

The Chief Executive, Group Finance Director and Head of Business Assurance are normally invited to attend meetings and other Non-Executive Directors may attend meetings from time to time. The Chairman of the Committee also meets with the external auditors without management present.

The Committee's duties include:

- Monitoring the integrity of the financial statements of the Company and formal announcements relating to the Company's financial performance and reviewing the significant financial reporting judgments contained in them.

- Reviewing the Company's internal financial controls and the Company's internal control and risk management systems.

- Monitoring the effectiveness of the Company's Business Assurance function through meetings with the Head of Business Assurance, the agreement in advance of annual work plans and the review of the results of the work undertaken.

- The consideration of the appointment, re-appointment and removal of the external auditors and the approval of their remuneration and terms of their engagement. During the year, the Audit Committee considered and recommended the reappointment of the incumbent auditors. The detailed scope of the statutory audit is agreed with the external auditors prior to the commencement of their work and their findings are considered prior to the approval of the financial statements. The level of remuneration for these services has been approved. As part of the re-appointment process the independence of the incumbent auditors was reviewed.

- The development of a policy for the engagement of the external auditors to supply non-audit services. The Audit Committee has concluded that, in some cases, the provision of non-audit services by the incumbent auditors, which does not impact on their independence in providing their primary statutory audit role, is appropriate and this has been communicated to the Board. Auditor independence and objectivity are safeguarded by the Audit Committee monitoring and approving, where appropriate, the nature of the work and the level of fees paid for non-audit services as a proportion of the total audit fees paid. The Committee has requested that a formal policy on the engagement of external auditors for non-audit services be drafted for review in the first quarter of next year.

During the year, an assessment of the external auditors was undertaken with the findings being considered by the Audit Committee and discussed with the external auditors. The assessment took the form of a questionnaire circulated to individuals across the Group with whom the auditors had significant dealings. The questionnaire addressed, among other matters, the robustness of the audit, the quality of judgments and the quality of the auditors' personnel and service.

Board and Committee meetings

	Scheduled Board meetings	Audit Committee meetings	Remuneration Committee meetings	Nomination Committee meetings
Sir Michael Hodgkinson (Chairman)	9(9)	N/A	N/A	2(2)
Peter Long (Chief Executive)	9(9)	N/A	N/A	N/A
Paul Bowtell (Group Finance Director)	9(9)	N/A	N/A	N/A
Dermot Blastland (Executive Director)	8(9)	N/A	N/A	N/A
Tony Campbell (Senior Independent Director)	7(9)	3(4)	3(4)	N/A
Clare Chapman (Non-Executive Director)	8(9)	N/A	4(4)	2(2)
Simón Barceló (Non-Executive Director)	9(9)	N/A	N/A	2(2)
Susan Hooper (Non-Executive Director)	7(9)	N/A	N/A	N/A
Bill Dalton (Non-Executive Director)	7(9)	4(4)	4(4)	N/A
Jeremy Hicks (Non-Executive Director)	8(9)	4(4)	N/A	2(2)
Giles Thorley (Non-Executive Director)	6(7)	3(3)	N/A	N/A

Figures in brackets indicate the maximum number of meetings in the period in which the individual was a Board member. In addition to the full meetings of the Board, the Chairman has held one meeting with Non-Executive Directors without the Executive Directors being present and the Senior Independent Director has chaired a meeting of the Non-Executive Directors without either the Chairman or the Executive Directors being present.

Board, Committee and individual performance
An assessment of the performance of the Board and its Committees is undertaken by means of a detailed questionnaire, designed by the Company Secretary and completed by each Director. The questionnaire covers 16 areas including the processes for setting the strategy of the Company, monitoring business performance, corporate governance and the effectiveness of the Executive Directors, Non-Executive Directors (including the Chairman) and the Board's Committees.

The findings are discussed by the Non-Executive Directors and the Chairman and are referred to the Board as a whole. In general, the Board considers its structures, composition and proceedings to be effective.

An assessment of each individual Director's performance is undertaken annually. The performance of each Director is measured against 12 criteria with peers being requested, confidentially, to rate that Director's performance by reference to the criteria. The Chairman then discusses the overall result for each Director with him or her and any concerns are addressed.

Internal control
The Board has overall responsibility for the Group's system of internal control and for reviewing its effectiveness, while the role of management is to implement Board policies on risk and control.

The system of internal control is designed to manage and mitigate rather than eliminate the risk of failure to achieve business objectives. In pursuing these objectives, internal controls – which include financial, operational and compliance controls – and risk management can only provide reasonable, and not absolute, assurance against material misstatement or loss. The Board has reviewed the effectiveness of internal controls during the year.

The Board confirms that there is an ongoing process for identifying, evaluating and managing the significant risks faced by the Group; that this has been in place for the year under review and up to the date of approval of the Annual Report and Accounts; that this process is regularly reviewed by the Board; and that the process accords with the Turnbull Guidance. The key elements of the control framework and review processes in place across the Group are as follows:

- The Board sets corporate strategy and business objectives. The GMB and Sector management integrate these objectives into their operational and financial business plans. Where areas for improvement in the system of Internal Control are identified, the Board considers the recommendations made by the GMB and the Audit Committee.

- The GMB meets regularly together with other senior executives to consider Group operational and financial performance and business development. The Chief Executive reports to the Board on behalf of the GMB on significant changes in the business and the external environment. The Group Finance Director provides the Board with financial information which includes key performance and risk indicators.

- The Audit Committee, with assistance from certain related management committees, oversees key risks, such as financial risk, health and safety, corporate and social responsibility and the environment, where such risks apply across all Sectors. The Board believes that, in order to be effective, risk management processes must be driven down to each operating unit. Accordingly, each Sector Board now addresses risk management as a standing agenda item and is responsible for ensuring that the risks facing that Sector's businesses are identified and that related action plans are implemented.

- The Business Assurance function independently reviews the risk identification procedures and control processes implemented by management and reports its findings at each Audit Committee meeting, or more frequently if appropriate.

- The Audit Committee reviews the proposed work plans of the Business Assurance function; reports issued by Business Assurance on the Group's risk assessment process; the system of internal control as well as reports on systems; and controls from the external auditors covering material weaknesses. The Chairman of the Audit Committee reports to the Board on the outcome of the Audit Committee meetings held and the Board receives the minutes of all such meetings.

- The Treasury position of the Group, including cash, foreign exchange and fuel hedging exposure, is managed centrally in accordance with policies appropriate for each Sector and is the responsibility of the Group Finance Director and Group Treasurer. Reports and forecasts are submitted monthly to the GMB and to each Board meeting.

- Financial forecasts, providing predicted results with sensitivity analysis, are prepared routinely throughout the year for review by the GMB and the Board. These forecasts also include details of the Group's ongoing compliance with its regulatory and banking requirements. The Group has established investment appraisal and authorisation procedures and its capital expenditure is reviewed against budgets which have been approved by the Board.

There are policies and procedures for the reporting by employees and the resolution of suspected fraudulent activities. It is the policy of the Group to employ staff and management of high integrity, to train them appropriately and to require compliance with all relevant laws, regulations and internal policies. The Group has an independent third-party confidential telephone line in place for all UK and overseas based staff which allows employees to raise concerns on financial reporting or other matters. A translation/interpreter service is available for non-English-speaking staff. Any reports received through the confidential telephone line are passed direct to Business Assurance which acknowledges receipt and periodically reports back to the third-party service provider on any action taken. Within its regular report to the Audit Committee, Business Assurance provides a section on the Employee Confidential Hotline and a summary of any reports and actions taken. A monthly report is also produced by the third-party call monitoring service provider which includes a summary of all calls received highlighting any issues raised.

Communications with shareholders

The Chief Executive and Group Finance Director hold regular meetings with major shareholders to review the Group's performance and prospects. The views of shareholders are communicated to all members of the Board following such meetings. During the course of these meetings the issue of governance is discussed. Presentations to major shareholders are made at least twice yearly, after the announcement of the interim and preliminary results, details of which, together with the Group's financial reports and other announcements, can be accessed via the Group's website www.firstchoiceholidaysplc.com

The Combined Code recommends that the Senior Independent Director meets with a range of major shareholders to gain an understanding of their views. In practice and, as a result of the extensive investor feedback provided by the Chairman, Chief Executive and the Group Finance Director, the Senior Independent Director and other Non-Executive Directors believe that they are aware of such issues and therefore considered that it was not necessary to arrange meetings with major shareholders for this purpose during the year. However, they would make themselves available if any shareholder requested such a meeting.

There is also an opportunity for shareholders to question the Chairman and other Directors (including the Chairmen of the Audit, Remuneration and Nomination Committees) at the Annual General Meeting. This forum also provides Non-Executive Directors with the opportunity to discuss the views of shareholders with them directly.

At general meetings:

- The Company prepares separate resolutions on each substantially separate issue and does not combine resolutions together inappropriately.

- A schedule of proxy votes cast is made available for inspection at the conclusion of the proceedings.

- The Annual Report and Accounts is laid before shareholders at the Annual General Meeting.

Risk Management
First Choice Holidays PLC (First Choice) attaches great importance to risk management at all levels of the business and has now invested in increased resource to move the identification, monitoring and controlling of operational risk to the next level of sophistication. The Group continues to strive for greater transparency of risk and to promote the sharing of knowledge between its businesses for the greater good of the whole organisation and its stakeholders.

The strategy for risk management has been enhanced by the declared intention to drive risk management principles deep into the day-to-day business of each of the Sectors. The setting of policy and monitoring of performance is the responsibility of the Financial Risk Management Committee and the Health, Safety and Environmental Risk Management Committee. These committees are responsible to the Group Risk Management Committee, and ultimately to the Audit Committee, thereby providing Directors with the assurance that risks are managed appropriately at all times.

The Group Risk Management and Business Assurance Departments work closely to monitor key performance indicators (KPIs) relevant to each risk and to ensure that actions identified to control and mitigate these risks are subject to a continual internal auditing process.

A more co-ordinated Group-wide approach to risk management, based on a sound structure and reflecting the way the businesses are operated, is now in place. Having built the platform to identify, monitor and mitigate risk and having assembled the required resource, the focus for 2007 is to raise awareness of operational risk management throughout the Group.

There continues to be an appropriate emphasis on risks affecting the health and safety of the Group's customers and employees with Andrew John, Director of Legal Affairs and Company Secretary, taking responsibility for these matters on behalf of the Board.

Risk Management remains primarily the responsibility of the businesses affected, supported by expertise at Group level. As part of the long-term process, the risk profile of the Group is to be re-evaluated with risks categorised by discipline, territory and the effect on business strategy at all levels in the organisation.

Resource
In addition to restructuring the responsibility for managing risk, the Group Management Board has approved significant investment to increase the resources available – both in human terms and by introducing speciality IT tools. A number of risk management positions have been established at Group level and a commitment has been made to employ Risk Managers within each Sector who will be responsible for deploying Group-wide policies and procedures.

Strategic Risk Management
The Group Risk Management Policy is designed to provide a formal structure through which First Choice will:

- endeavour to reduce as far as possible the exposure of all its businesses to risk.
- seek to recognise and derive the maximum benefit from any opportunities identified through risk analysis.
- seek to achieve excellence in Corporate Governance through managing risk effectively throughout the organisation.
- seek to provide entrepreneurial leadership within a framework of prudent and effective controls which enables risk to be assessed and managed.

In order to manage risk, we must be able to measure it. It is therefore our intention to further develop risk management practices which enable us to measure the impact of risk by reference to recognised, international standards. First Choice currently has an Environmental Management System (EMS) compatible to ISO14001. In the longer term it is planned that its Business Continuity Management (BCM) capabilities equivalent to PAS 56:2003 standards will also be developed.

First Choice is currently setting appropriate metrics and KPIs by which it will be able to improve the measurement, in comparative terms, of risk levels and progress made in mitigating and managing risk. Supported by an IT solution to assist in the identification and quantification of risk, this will assist greatly in identifying any process interdependencies which merit further attention. It will also assist in the Group's consolidated business impact assessment.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND THE FINANCIAL STATEMENTS

The Directors are responsible for preparing the Annual Report and the Group and Parent Company financial statements, in accordance with applicable law and regulations.

Company law requires the Directors to prepare Group and Parent Company financial statements for each financial year. Under that law the Directors are required to prepare the Group financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and have elected to prepare the Parent Company financial statements in accordance with UK Accounting Standards.

The Group financial statements are required by law and IFRS as adopted by the EU to present fairly the financial position and performance of the Group; the Companies Act 1985 provides in relation to such financial statements that references in the relevant part of that Act to financial statements giving a true and fair view are references to their achieving a fair presentation.

The Parent Company financial statements are required by law to give a true and fair view of the state of affairs of the Parent Company.

In preparing each of the Group and Parent Company financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently.
- make judgments and estimates that are reasonable and prudent.
- for the Group financial statements, state whether they have been prepared in accordance with IFRS as adopted by the EU.
- for the Parent Company financial statements, state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the Parent Company financial statements.
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and the Parent Company will continue in business.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Parent Company and enable them to ensure that its financial statements comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for preparing a Directors' Report, Directors' Remuneration Report and Corporate Governance Statement which comply with that law and those regulations.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF FIRST CHOICE HOLIDAYS PLC

We have audited the Group and Parent Company financial statements (the financial statements) of First Choice Holidays PLC for the year ended 31 October 2006 which comprise the Consolidated Income Statement, the Consolidated and Parent Company Balance Sheets, the Consolidated Statement of Cash Flows, the Consolidated Statement of Recognised Income and Expense and the related notes. These financial statements have been prepared under the accounting policies set out therein. We have also audited the information in the Directors' Remuneration Report that is described as having been audited.

This report is made solely to the Company's members, as a body, in accordance with Section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and auditors
The Directors' responsibilities for preparing the Annual Report and the Group financial statements in accordance with applicable law and International Financial Reporting Standards (IFRS) as adopted by the EU, and for preparing the Parent Company financial statements and the Directors' Remuneration Report in accordance with applicable law and UK Accounting Standards (UK Generally Accepted Accounting Practice) are set out in the Statement of Directors' Responsibilities on page 97.

Our responsibility is to audit the financial statements and the part of the Directors' Remuneration Report to be audited in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view and whether the financial statements and the part of the Directors' Remuneration Report to be audited have been properly prepared in accordance with the Companies Act 1985 and, as regards the Group financial statements, Article 4 of the IAS Regulation. We also report to you whether in our opinion the information given in the Directors' Report is consistent with the financial statements. The information given in the Directors' Report includes that specific information presented in the Business and Financial Review which is cross-referred from the "Business review and activity" section of the Directors' Report.

In addition, we report to you if, in our opinion, the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding Directors' remuneration and other transactions is not disclosed.

We review whether the Corporate Governance Statement reflects the Company's compliance with the nine provisions of the 2003 FRC Combined Code, specified for our review by the Listing Rules of the Financial Services Authority, and we report if it does not. We are not required to consider whether the Board's statements on internal control cover all risks and controls, or form an opinion on the effectiveness of the Group's corporate governance procedures or its risk and control procedures.

We read the other information contained in the Annual Report and consider whether it is consistent with the audited financial statements. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements. Our responsibilities do not extend to any other information.

Basis of audit opinion
We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements and the part of the Directors' Remuneration Report to be audited. It also includes an assessment of the significant estimates and judgments made by the Directors in the preparation of the financial statements and of whether the accounting policies are appropriate to the Group's and Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements and the part of the Directors' Remuneration Report to be audited are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements and the part of the Directors' Remuneration Report to be audited.

Opinion
In our opinion:

- the Group financial statements give a true and fair view, in accordance with IFRS as adopted by the EU, of the state of the Group's affairs as at 31 October 2006 and of its profit for the year then ended.
- the Group financial statements have been properly prepared in accordance with the Companies Act 1985 and Article 4 of the IAS Regulation.
- the Parent Company financial statements give a true and fair view, in accordance with UK Generally Accepted Accounting Practice, of the state of the Parent Company's affairs as at 31 October 2006.
- the Parent Company financial statements and the part of the Directors' Remuneration Report to be audited have been properly prepared in accordance with the Companies Act 1985.
- the information given in the Directors' Report is consistent with the financial statements.

5 January 2007

To: THE HOLDERS OF ORDINARY SHARES AND, FOR INFORMATION ONLY, THE PARTICIPANTS IN THE COMPANY'S EMPLOYEE SHARE SCHEMES

Dear Shareholder

ANNUAL GENERAL MEETING

This document contains the Notice of the 2007 Annual General Meeting of the Company which will be held at 10.30am on Wednesday 7 March 2007 at the offices of Deutsche Bank, 1 Great Winchester Street, London EC2N 2DB. An explanation of the business to be transacted is set out below and in the explanatory notes on page 9.

You will see that, in addition to the ordinary business to be dealt with, there are five items of special business which require the AGM's attention:

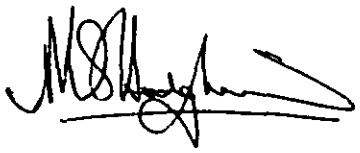
- Resolutions 9 and 10 concern the Directors' authority to allot the Company's shares – see the explanatory notes on page 10;
- Resolutions 11 and 12 are to amend the Articles of Association of the Company – see the explanatory notes on page 10; and
- Resolution 13 concerns the general authority to make market purchases of ordinary shares of 3 pence each of the Company – see the explanatory notes on pages 10 and 11.

DIVIDEND REINVESTMENT PLAN

A Dividend Reinvestment Plan (the "Plan") was introduced by the Company in 2000. The Plan is a dealing facility which enables those shareholders who are entitled to the proposed final dividend for the year ended 31 October 2006 of 5.40 pence per share, and any subsequent dividends to which the Plan applies, to invest the cash dividends received in purchasing further ordinary shares. The Plan is administered by Lloyds TSB Group plc through Lloyds TSB Registrars.

Those shareholders who have already elected to participate in the Plan will automatically be included in the Plan for the year ended 31 October 2006. Those shareholders who have not already elected to participate in the Plan, and would like to participate with respect to the final dividend for the year ended 31 October 2006, may do so by contacting Lloyds TSB Registrars direct on 0870 600 3964. The last day for election for the final dividend for 2006 is 16 March 2007 and any requests should be made in good time ahead of that date.

If you are in any doubt about how your tax position will be affected should you choose to join the Plan, you should consult your own financial adviser before taking any action.



Action to be taken

If you wish to receive the whole of your dividend in cash, and you have not previously elected to participate in the Plan, you need take no action. The final dividend for the year ended 31 October 2006 will be paid to you in cash in the normal way on 10 April 2007. If you wish to receive the whole of your dividend in cash, and have previously elected to participate in the Plan, you will need to notify Lloyds TSB Registrars in writing in accordance with the terms of the Plan.

Enclosed is a form of proxy for use by the ordinary shareholders at the AGM. You should complete and return the form of proxy, in accordance with the instructions printed thereon, as soon as possible and, in any event, so that it is received not later than **10.30am on 5 March 2007**. Completion and return of a form of proxy will not preclude you from attending the AGM and voting in person should you so wish. An appointment of a proxy may also be returned by completing it online, please refer to the notes on page 8. For CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service, please refer to the notes on page 8.

Your Directors consider that the passing of all the resolutions is in the best interests of the Company and its shareholders. Accordingly, they recommend shareholders to vote in favour of the resolutions – as they intend to do in respect of their own beneficial shareholdings.

Yours sincerely

Sir Michael Hodgkinson
Chairman

FIRST CHOICE HOLIDAYS PLC

NOTICE OF ANNUAL GENERAL MEETING

To: THE HOLDERS OF ORDINARY SHARES AND, FOR INFORMATION ONLY, THE PARTICIPANTS IN THE COMPANY'S EMPLOYEE SHARE SCHEMES

NOTICE IS HEREBY GIVEN that the 2007 Annual General Meeting of First Choice Holidays PLC will be held at the offices of Deutsche Bank, 1 Great Winchester Street, London EC2N 2DB on Wednesday 7 March 2007 at 10.30am for the following purposes:

ORDINARY BUSINESS

1 To receive and adopt the Reports of the Directors and the Auditors and the Accounts for the year ended 31 October 2006.

2 To receive and approve the Report of the Board to Shareholders on Directors' Remuneration for the year ended 31 October 2006.

3 To declare a final dividend.

4 To re-elect Peter Long as a Director.

5 To re-elect Bill Dalton as a Director.

6 To re-elect Paul Bowtell as a Director.

7 To re-elect Tony Campbell as a Director.

8 To re-appoint KPMG Audit Plc as auditors of the Company to hold office from the conclusion of this meeting until the conclusion of the next general meeting at which accounts are laid before the Company at a remuneration to be fixed by the Directors.

SPECIAL BUSINESS

To consider and, if thought fit, to pass the following resolutions. Resolution 9 will be proposed as an ordinary resolution and Resolutions 10, 11, 12 and 13 will be proposed as special resolutions.

Ordinary Resolution:

9 **THAT** the Directors be and they are hereby generally and unconditionally authorised pursuant to Section 80 of the Companies Act 1985 (the "Act") to exercise all the powers of the Company to allot relevant securities (within the meaning of Section 80(2) of the Act) up to an aggregate nominal amount of £5,305,773.03 provided that this authority shall expire on 7 March 2012, save that the Company may before such expiry make an offer or agreement which would or might require relevant securities to be allotted after such expiry and the Directors may allot relevant securities in pursuance of such offer or agreement as if the authority had not expired; and all unexercised authorities previously granted to the Directors to allot relevant securities be and are hereby revoked.

Special Resolutions:

10 **THAT** the Directors be and they are hereby empowered pursuant to Section 95 of the Companies Act 1985 (the "Act") to allot equity securities (within the meaning of Section 94 of the Act) for cash pursuant to the authority conferred by Resolution 9 set out in the Notice convening the 2007 Annual General Meeting of the Company, or by way of a sale of treasury shares, as if Section 89(1) of the Act did not apply to any such allotment provided that:

(a) the power conferred hereby shall be limited:

(i) to the allotment of equity securities in connection with a rights issue, open offer or other offer of securities in favour of equity shareholders where the equity securities respectively attributable to the

interests of the equity shareholders are proportionate (as near as may be) to the respective number of equity shares held by them, subject to such exclusions or other arrangements as the Directors may deem necessary or expedient to deal with treasury shares, fractional entitlements or legal or practical problems arising under the laws of any overseas territory or the requirements of any regulatory body or any stock exchange or any other matter whatsoever; and

(ii) to the allotment (otherwise than pursuant to paragraph 10(a)(i) above) of equity securities up to an aggregate nominal amount of £795,865.95; and

(b) the power conferred hereby shall (unless previously revoked or varied) expire on 7 March 2012 but so that this power shall allow the Company, before the expiry of this power, to make any offer or agreement which will or may require equity securities to be allotted after such expiry and so that the Directors shall be allowed to allot equity securities pursuant to any such offer or agreement as if the power conferred hereby had not expired.

11 **THAT** the Articles of Association of the Company shall be amended as follows:

(a) by deleting the number "14" in the third sentence of paragraph 1(B) of Article 3 and inserting the number "17" in substitution therefor; and

(b) by deleting the word "twelve" in Article 73 and inserting the word "fifteen" in substitution therefor.

12 **THAT** the Articles of Association of the Company shall be amended by deleting the figure of "£500,000" in Article 75(1) and inserting the figure of "£650,000" in substitution therefor.

13 **THAT** the Company be generally and unconditionally authorised to make market purchases (within the meaning of Section 163(3) of the Companies Act 1985) of ordinary shares of 3 pence each of the Company provided that:

(a) the maximum number of ordinary shares hereby authorised to be acquired is 53,057,730;

(b) the minimum price which may be paid for any such share is 3 pence;

(c) the maximum price which may be paid for any such share is an amount equal to 105 per cent of the average of the middle market quotations for an ordinary share in the Company as derived from The London Stock Exchange Daily Official List for the five business days immediately preceding the day on which the share is contracted to be purchased;

(d) the authority hereby conferred shall expire on 7 March 2008; and

(e) the Company may make a contract to purchase its ordinary shares under the authority hereby conferred prior to the expiry of such authority, which contract will or may be executed wholly or partly after the expiry of such authority, and may purchase its ordinary shares in pursuance of any such contract.

5 January 2007

By Order of the Board

Andrew John
Company Secretary

Registered Office:
First Choice House, London Road, Crawley, West Sussex RH10 9GX

Registered in England 48967

Notes:

1 A form of proxy is enclosed for use by holders of ordinary shares of 3p each.

2 A member entitled to attend and vote at the meeting is entitled to appoint a proxy or proxies to attend and, on a poll, to vote in his/her place. A proxy need not be a member of the Company.

3 In order to be valid, an appointment of a proxy must be returned by 10.30am on 5 March 2007 by one of the following methods:

- in hard copy form by post, by courier or by hand to the offices of the Company's Registrars, Lloyds TSB Registrars, The Causeway, Worthing, West Sussex BN99 6US; or
- by completing it online at www.sharevote.co.uk by following the on-screen instructions to submit it – you will need to identify yourself with your reference number, card ID and account number, as printed on your proxy form; or
- in the case of CREST members, by utilising the CREST electronic proxy appointment service in accordance with the procedures set out below.

Please note that the Company takes all reasonable precautions to ensure that no viruses are present in any electronic communication it sends out but the Company cannot accept responsibility for loss or damage arising from the opening or use of any email or attachments from the Company and recommends that the shareholders subject all messages to virus-checking procedures prior to use. Any electronic communication received by the Company, including the lodgement of an electronic proxy form, which is found to contain any virus will not be accepted.

4 An appointment of a proxy will not preclude a member from attending and voting at the meeting should he/she so wish.

5 *Electronic proxy appointment through CREST*

CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service may do so for the Annual General Meeting to be held on Wednesday 7 March 2007 and any adjournment(s) thereof by using the procedures described in the CREST Manual. CREST Personal Members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.

In order for a proxy appointment or instruction made using the CREST service to be valid, the appropriate CREST message (a "CREST Proxy Instruction") must be properly authenticated in accordance with CRESTCo's specifications and must contain the information required for such instructions, as described in the CREST Manual. The message, regardless of whether it constitutes the appointment of a proxy or an amendment to the instruction given to a previously appointed proxy must, in order to be valid, be transmitted so as to be received by the issuer's agent (ID 7RA01) by the latest time(s) for receipt of proxy appointments specified in the notice of meeting. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which the issuer's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST. After this time any change of instructions to proxies appointed through CREST should be communicated to the appointee through other means.

CREST members and, where applicable, their CREST sponsors or voting service providers should note that CRESTCo does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider(s), to procure that his CREST sponsor or voting service provider(s) take(s)) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.

6 To have the right to attend and vote at the meeting or any adjourned meeting (and also for the purposes of calculating how many votes a person may cast), a person must have his/her name entered on the register of holders of ordinary shares by no later than 6.00pm on 5 March 2007 (or, if the meeting is adjourned, 6.00pm on the date

which is two days prior to the adjourned meeting). Changes to entries on the register after this time shall be disregarded in determining the rights of any holder of ordinary shares to attend or vote (and the number of votes they may cast) at the meeting or any adjourned meeting.

Explanatory notes:

These explanatory notes are intended to explain the business to be transacted at the Annual General Meeting other than routine business.

1 *Resolution 2 – the Report of the Board to Shareholders on Directors' Remuneration*

Under Part VII of the Companies Act 1985 (as amended pursuant to the Directors' Remuneration Report Regulations 2002), the Company is required to produce a directors' remuneration report for each relevant financial year and to put a resolution to shareholders, at each Annual General Meeting, to approve the report on Directors' remuneration. The Report of the Board to Shareholders on Directors' Remuneration appears on pages 85 to 91 of the Report and Accounts of the Company for the year ended 31 October 2006.

2 *Resolution 3 – Final Dividend*

A final ordinary dividend of 5.40 pence has been recommended by the Board as detailed on page 82 of the Report and Accounts of the Company for the year ended 31 October 2006 and will be payable to all members on the register at the close of business on 9 March 2007. The payment date will be 10 April 2007.

3 *Resolutions 4, 5 and 6 – Retirement by rotation*

Under Article 85 of the Company's Articles of Association, one-third (or as near as may be) of the Directors subject to retirement by rotation must retire at each Annual General Meeting of the Company. In addition, under Article 86 of the Company's Articles of Association each Director must retire and offer himself for re-appointment at least once every third Annual General Meeting. The Directors who are due to retire pursuant to the Articles of Association are Peter Long, Bill Dalton and Paul Bowtell and Resolutions 4, 5 and 6 provide for their re-appointment to the Board of Directors.

3.1 Bill Dalton – Independent Non-Executive Director

As a Non-Executive Director Bill Dalton does not have a service contract with the Company. He was appointed to the Board in October 2004 and, since that time, has made a significant contribution to both the Board and to the Audit Committee. His wide-ranging international experience as a senior banker is of particular value to the Group and provides him with the relevant financial background to be an effective member of the Audit Committee. A performance evaluation conducted during the year demonstrated that he continues to contribute effectively (including contributing to the Board's deliberations in a challenging and lively manner) and reinforced his continuing commitment to the role whilst retaining independence in character and judgement. The Board considers that Bill Dalton is independent in character and judgement and that there are no relationships or circumstances which are likely to, or could appear to, affect his judgement. The Board therefore recommends his re-election as a Non-Executive Director.

Further biographical details for Bill Dalton, and biographical details for Peter Long and Paul Bowtell, appear on page 80 of the Report and Accounts of the Company for the year ended 31 October 2006.

4 *Resolution 7 – Re-election of Tony Campbell – Senior Independent Non-Executive Director*

Tony Campbell retires in accordance with the Combined Code, which requires that he submits himself to annual re-election, as he has more than nine years' continuous service as a Non-Executive Director.

As a Non-Executive Director, Tony Campbell does not have a service contract with the Company. He was first appointed to the Board on 1 April 1997 and has therefore served in excess of nine years as a director. In accordance with the Combined Code, Tony Campbell will now offer himself for re-election annually and will be subject to a rigorous annual review not only of his performance but also of his independence. The Board is completely satisfied that Tony is independent in character and judgement and that there are no relationships or circumstances which are likely to, or could appear to, affect his judgement. Tony has the broad experience, credibility and commitment required to be an effective independent director and the Board benefits from his wealth of experience, particularly in the retail sector. A performance evaluation conducted by the Board during the year has shown that he continues to make an effective contribution (including a significant, valuable and challenging contribution to both governance and strategic issues) and demonstrates a continued strong commitment to his role whilst retaining independence in character and judgement. For these reasons, and following rigorous debate concerning his performance and independence, the Board continues to recognise him as the Senior Independent Non-Executive Director and has no hesitation in recommending him for re-election.

Further biographical details for Tony Campbell appear on page 81 of the Report and Accounts of the Company for the year ended 31 October 2006.

5 *Resolution 9 – Authority to allot shares*

Under the Companies Act 1985 the directors of a company may only allot unissued shares if authorised to do so by the shareholders in general meeting. The authority which is sought in respect of the unissued ordinary shares of the Company ("relevant securities") is dealt with in Resolution 9. The aggregate nominal value of relevant securities which can be allotted under the authority is limited to £5,305,773.03 being equal to approximately 33 per cent of the nominal value of the issued ordinary share capital at the date of this notice. The Company does not hold any shares as treasury shares as at the date of this notice. The authority will last for 5 years from the date of the passing of the Resolution, the maximum period allowed under the Companies Act 1985, and will replace the general authority given at the Annual General Meeting on 23 March 2006. Except in relation to the exercise of options, the Directors have no present intention of exercising this authority (subject to the possibility of the allotment of shares as deferred consideration in connection with acquisitions which have been made by the Company and the possibility of the allotment of shares in connection with acquisitions which may be made by the Company in the forthcoming year).

6 *Resolution 10 – Pre-emption rights*

If equity securities are to be allotted for cash using the authority given by Resolution 9 above, or by way of a sale of treasury shares, Section 89(1) of the Companies Act 1985 requires that those securities are offered first to existing shareholders in proportion to the number of ordinary shares they each hold at that time.

There may be circumstances, however, when it is in the interests of the Company for the Directors to be able to allot new equity securities for cash other than by way of a strict rights issue. The authority given by Resolution 10 will empower the Directors to modify the situation with regard to rights issues, open offers and other offers of securities such that they may effect such exclusions or other arrangements as they may deem necessary or expedient to deal with treasury shares, fractional entitlements or legal or practical problems arising under the laws of any overseas territory or the requirements of any regulatory body or any stock exchange or any other matter whatsoever. Resolution 10 also authorises the Directors to allot equity securities for cash in other circumstances but limited to equity securities having a maximum aggregate nominal value of £795,865.95 which is equivalent to 5 per cent of the Company's issued ordinary share capital at the date of this notice.

7 *Resolution 11 – Amendment to the Articles of Association*

The Articles of Association currently provide for a maximum of twelve directors of the Company. Following the appointments of Jeremy Hicks, Susan Hooper and Giles Thorley to the Board, the Board comprises eleven directors and the Company is accordingly close to reaching this maximum. In order to have the flexibility to appoint additional directors of the Company, it is therefore proposed to increase the maximum number to 15 and Resolution 11 sets out the amendments (including consequential amendments) to the Articles required to effect the proposed increase.

8 *Resolution 12 – Amendment to the Articles of Association*

Institutional guidelines state that a company's articles of association should impose a fixed limit on the level of directors' fees, either individually or in aggregate. The Company's Articles of Association currently provide for an aggregate annual limit of £500,000 and it is proposed to replace this limit with an aggregate annual limit of £650,000 which sum may be increased in the future by the Company by an ordinary resolution. The proposed aggregate limit has been calculated by reference to the current number of directors of the Company, fees currently paid for the provision of the Chairman's services and the potential to appoint additional non-executive directors to the Board. Under the Articles of Association, the fees to be paid to directors in respect of the office of director (such fees are distinct from any remuneration which may be paid to directors in respect of executive employment or other special services to the Company) are to be determined by the Directors and the proposed amendment should provide the Directors with additional flexibility in setting levels of remuneration which are sufficient to attract and retain the directors needed to run the Company successfully.

9 *Resolution 13 – Purchase of own shares*

The Directors are committed to managing the Company's capital effectively and consider that the purchase by the Company of its ordinary shares may, in certain circumstances, be advantageous to shareholders. They believe that, in common with many other listed companies, the Company should obtain from shareholders a general authority to make market purchases of its own shares.

Under the Companies Act 1985 (the "Act"), the Company may only purchase its own shares if authorised to do so by the shareholders in general meeting. The authority which is sought in respect of the ordinary shares of the Company is dealt with in Resolution 13. The maximum number of ordinary shares which can be purchased under the authority is 53,057,730 ordinary shares, which is equivalent to 10 per cent of the Company's issued share capital at the date of this notice. The minimum and maximum prices at which ordinary shares may be purchased are set out in paragraphs (b) and (c) of Resolution 13.

The Companies (Acquisition of Own Shares) (Treasury Shares) Regulations 2003 SI 2003/1116 (the "Regulations") allow a listed company purchasing its own shares in accordance with the Act to hold those shares in treasury as an alternative to cancelling them. Shares held in treasury in this manner would be available for resale by the Company at a later date providing additional flexibility in the management of the Company's capital base. It is the Company's current intention to cancel the shares it may purchase pursuant to the authority granted to it. However, in order to respond properly to the Company's capital requirements and prevailing market conditions, the Directors will reassess at the time of any and each actual purchase whether to hold the shares in treasury or cancel them, provided it is permitted to do so under the Regulations which in particular impose a maximum limit of up to 10 per cent of the Company's issued share capital being held in treasury.

No dividends will be paid on shares while held in treasury and no voting rights will attach to the treasury shares.

The total number of options to subscribe for ordinary shares outstanding at the date of this notice was 5,861,995, which represented 1.10 per cent of the issued share capital of the Company as at that date. If the Company were to purchase the maximum number of ordinary shares permitted by Resolution 13, the options outstanding at the date of this notice would represent 1.23 per cent of the issued share capital of the Company as reduced following those purchases. The Company has issued no warrants to subscribe for share capital.

The authority which is sought in Resolution 13 will be exercised only if, in the opinion of the Directors, this will result in an increase in earnings per share and would be in the best interests of the Company. The Directors have no present intention of exercising the authority but this position will be kept under review.

10 Documents available for inspection

Copies of the Directors' Contracts of Service, the letters of appointment of the Non-Executive Directors and the Register of Interests of the Directors (and their families) in the shares and debentures of the Company are available for inspection at the registered office of the Company during usual business hours on any weekday (Saturdays, Sundays and public holidays excluded) and will be available for inspection at the Annual General Meeting and for a period of one hour before it commences.

First Choice Holidays PLC

Form of Proxy for holders of Ordinary Shares in the Company

REFERENCE NUMBER CARD I.D. ACCOUNT NUMBE

You can vote electronically at www.sharevote.co.uk using the above numbers

I/We, hereby appoint the Chairman of the Meeting, or

as my/our proxy to attend and vote on my/our behalf at the Annual General Meeting of First Choice Holidays PLC (the Company) to be held at 10.30am on Wednesday 7 March 2007 and adjournment thereof. **(See Note 1)**

Please indicate your vote by marking the appropriate boxes in black ink like this: ☒

If no direction is given, the proxy is authorised to vote or abstain from voting at his/her discret (including on any other business which may arise at the meeting).

I/We direct my/our proxy to vote as follows:

Detach along dotted line and submit at AGM entry to facilitate reception

Notes:

1. If you wish to appoint a proxy other than the Chairman of the Meeting please delete the words "the Chairman of the Meeting, or" and insert the name and address of the desired proxy. Please initial the amendment.
2. In the case of a corporation, this form of proxy must be given under its Common Seal (if any), or signed on its behalf by an officer or attorney of the corporation or other person or agent duly authorised to sign it. In the case of an individual this form of proxy must be signed by the Shareholder or his attorney.
3. A proxy need not also be a holder of Ordinary Shares in the Company.
4. The completion of this form of proxy will not preclude a holder of Ordinary Shares from attending and voting in person.
5. In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, will be accepted to the exclusion of the votes of the other joint holders and, for this purpose, seniority will be determined by the order in which the names stand in the register of members.
6. This form of proxy, together with any power of attorney or other authority under which it is signed, must be lodged with the Company's registrars, Lloyds TSB Registrars, The Causeway, Worthing, West Sussex BN99 6US not later than 48 hours before the time fixed for the Meeting.
7. To have the right to attend and vote at the meeting or any adjourned meeting (and also for the purposes of calculating how many votes a person may cast), a person must have his/her name entered on the register of holders of Ordinary Shares by no later than 6.00pm on 5 March 2007 (or, if the meeting is adjourned, 6.00pm on the date which is two days prior to the adjourned meeting). Changes to entries on the register after this time shall be disregarded in determining the rights of any holder of Ordinary Shares to attend or vote (and the number of votes they may cast) at the meeting or any adjourned meeting.
8. You may, if you wish, register the appointment of your proxy electronically either via the website www.sharevote.co.uk or, if you hold your shares through CREST, using the CREST electronic proxy appointment service. To use sharevote you will need your reference number, card ID and account number, as printed on your proxy form. Full details and instructions are given on the website. To use the CREST service please refer to the notes in the accompanying Notice of Meeting.

Admission Card

First Choice Holidays PLC Annual General Meeting

Wednesday 7 March 2007 at 10.30am at the offices of Deutsche Bank, 1 Great Winchester Street, London EC2N 2DB

If you come to the meeting please bring this card with you. It is evidence of your right to attend and vote at the Meeting and will help you gain admission as quickly as possible.

13 June 2006

FIRST CHOICE HOLIDAYS PLC

INTERIM RESULTS FOR THE SIX MONTHS ENDED 30 APRIL 2006

HIGHLIGHTS

- Operating loss (on an IFRS basis) increases to £68.7m (2005: £65.2m)
- Improvement in underlying[1] operating loss pre IFRS adjustments to £30.3m (2005: £32.0m) — Improved by 5%
- Interim dividend of 2.25p per ordinary share (2005: 1.95p) — Improved by 15%
- Nine strategic acquisitions in niche specialist segments made in the first half for £94.9m and the acquisition pipeline continues to be strong
- The three specialist sectors first half performance improved by £4.4m
- IFRS adjustments increase first half loss by £34.4m (2005: £32.9m), as previously indicated, which will predominantly reverse in the second half
- Net financing expenses increased by £8m as a result of refinancing the convertible preference shares (£6m) and acquisition financing (£2m)
- Loss before tax increases to £78.2m (2005: £66.7m)

RECEIVED
2006 JUN 21 P 12:21

Current trading

- For Summer 2006 Mainstream Holidays Sector revenues are up 4% with long-haul revenues and bookings up 38% and 30% respectively, while margins remain strong
- Specialist Holidays Sector rate of sale and margins for the high season are up against last year
- Activity revenues are up 48% in total for Summer 2006 and 5% on a like-for-like basis
- Online Destination Services bednight bookings for Summer 2006 are up over 60%

Commenting on the results, Peter Long, Chief Executive said:

"We are pleased with our first half performance and have seen our strategy to build a portfolio of leisure travel businesses pay dividends during the first half. Having a diverse portfolio of businesses and a flexible business model means that we are not over-reliant on any one single destination or source market. By focusing on segments of the marketplace that demonstrate strong growth characteristics, we are satisfying customers' increasing

[1] Operating loss before goodwill amortisation, interest, joint venture & associate and IFRS adjustments. Refer to the tables on page 1 for a reconciliation of underlying and IFRS losses.

demand for differentiated holiday experiences. We remain very focused on a combination of organic and acquisition-led growth. The acquisition pipeline of specialist businesses is strong and will help us build significant leadership positions in the segments of the marketplace we find attractive.

The increase in the interim dividend reflects our continuing confidence that the flexible business model we have created will continue to be highly cash generative. The outlook for the high season in July and August remains strong and we are confident of the outcome for the full year as we continue to progress towards our 5% margin target by 2007."

INTERIM STATEMENT

Overview

The Group's strategy is to build a portfolio of leisure travel businesses that participate in high growth segments of the marketplace in which they operate. This strategy has enabled the delivery of a good first half financial performance in market conditions that for certain businesses have been challenging. The operating loss under International Financial Reporting Standards (IFRS) has increased to £68.7m (2005: £65.2m), although the underlying operating loss (before interest, JV and associate) and before adjusting for IFRS changes, has improved by 5% to £30.3m (2005: £32.0m).

We continue to differentiate the Mainstream product, leverage the flexible business models across the Group and invest in companies in niche segments of the marketplace that offer good growth prospects. The combined result of these initiatives is to further diversify risk and increase the geographic spread of the portfolio.

IFRS

This is the first time the Group is reporting under IFRS. When we notified the market of the impact of IFRS in October 2005 we announced that a number of specific accounting adjustments under IFRS would impact the phasing of our Winter and Summer profitability. As a result of these changes, first half losses before tax and amortisation have increased by £34.4m.

Accordingly, the headline loss before interest and tax has increased to £67.0m (2005: £65.5m). In addition, the refinancing of the convertible preference shares (£6.0m) we carried out last Summer, together with a higher level of acquisition spend (£2.0m), has led to an additional £8.0m of net financing expenses. The headline loss before tax, therefore, has increased to £76.5m (2005: £67.0m).

£'m	**HY06**	**HY05**
Underlying operating loss pre IFRS	(30.3)	(32.0)
IFRS adjustment	(33.8)	(32.5)
Operating loss post IFRS	(64.1)	(64.5)
Joint venture & associate*	(2.9)	(1.0)
Headline loss before interest and tax	(67.0)	(65.5)
Interest*	(9.5)	(1.5)
Headline loss before tax	**(76.5)**	**(67.0)**

** Including IFRS adjustments – see table below*

The total IFRS adjustments of £34.4m can be summarised as follows:

£'m	**HY06**	**HY05**
Mainstream Holidays	(26.6)	(24.1)
Specialist Holidays	(0.2)	(1.0)
Activity Holidays	(7.0)	(7.4)
ODS	0.0	0.0
Sector level	(33.8)	(32.5)
Joint venture & associate	(0.2)	0.0
Interest	(0.4)	(0.4)
Total IFRS adjustment	**(34.4)**	**(32.9)**

The increase in Winter losses resulting from the change to IFRS will predominantly reverse in the second half of the year, increasing second half profitability. As previously stated, the

accounting changes under IFRS have no impact on the Group's strategy or cash generation. On a full year basis the headline profit before tax for the year ended 31 October 2005 has increased by £1m to £115m (see appendix 1).

Sector review

As part of our chosen strategy, we have identified two growth segments in North America in which we are determined to build a significant presence – student travel and the escorted tours market. We entered the US student travel market in July 2004 with the acquisition of StudentCity.com and since then have made eight further acquisitions in this marketplace. Our entry into the escorted tours market came in December 2005 with the acquisition of the Grand Expeditions group of companies and INTRAV.

Accordingly, we are structuring our North American businesses under First Choice Holdings Inc, that will comprise four divisions - First Choice Expeditions which groups together Country Walkers, Travcoa, TCS, International Expeditions, Park East and INTRAV; First Choice Marine with its distinct brands of The Moorings, Sunsail Yachts, Footloose, NauticBlue and Signature Crewed Yachts; First Choice Independent Vacations where Europe Express will sit and First Choice Student Travel where we now have ten brands catering principally to the college and high school breaks market.

For reporting purposes, First Choice Independent Vacations and First Choice Student Travel are included within the Specialist Holidays Sector while First Choice Expeditions and First Choice Marine are included within the Activity Holidays Sector.

Mainstream Holidays

The Mainstream Holidays Sector has continued to perform well. The Sector's revenue for the six months ended 30 April 2006 was £352.5m (2005: £353.8m, adjusted to include Adult Ski) with a loss before tax of £58.7m (2005: £54.7m). The increase in loss before tax is attributable to the changes in accounting under IFRS (£2.5m) and additional marketing spend (£1.5m) to support the brand as we increase the rate at which we distribute our product through controlled channels. This has resulted in some margin dilution in the first half but does not change our belief that gaining greater control of distribution, and having a direct relationship with our customers, will lead to margin enhancement in the medium term for this Sector.

Winter capacity was reduced by 8% year-on-year with a 24% reduction in short-haul, 11% in medium-haul and a 44% increase in long-haul, while inclusive-tour passenger numbers were down 8% year-on-year. We have seen strong demand for long-haul destinations where passenger volumes were up 41%, with long-haul now accounting for 19% of our Winter programme (2005: 12%).

Our strategy of generating higher quality earnings through differentiating our product offering continues. We are expanding our portfolio of product that is exclusive to First Choice customers and now have five high-quality First Choice Holiday Villages. This all-inclusive product combines comfort and an extensive choice of activities, restaurants and other services and facilities. We will be opening our first long-haul Holiday Village, in the Dominican Republic during Winter 2006/07. For the Summer we are operating four newly configured long-haul Boeing 767s and satisfaction levels from our customers are averaging 78% across the long-haul fleet (up 13 percentage points (ppts) versus last year) while our premium product averages a satisfaction score of 84% (up 12ppts versus last year).

Winter 2005/06

Year-on-year change (%)	Capacity	Customers	Revenue
Short-haul	-24%	-26%	-20%
Medium-haul	-11%	-13%	-9%
Long-haul	+44%	+41%	+48%

Online distribution**	31.3%	21.9%	+9.4ppts

** Customer number analysis includes UK inclusive tour and flight-only sales*

*** Controlled and online distribution is expressed as a total % of customer bookings*

Control of distribution remains a key value driver in this Sector, and for Summer 2006 trading, distribution through our own channels has increased to 66% (Summer 2005: 60%). With 31% (Summer 2005: 24%) of bookings being made through our online route to market, we will continue to invest in our direct distribution capability through both the online and retail channels to achieve our targets for controlled distribution. Our research confirms that customers continue to value travel shops for both holiday purchases and research, and accordingly, we are investing in our retail presence in specific regions of the UK in order to further drive controlled distribution. This investment will include franchise partnerships with independent agents and we will seek to open a number of new First Choice Retail stores in key towns where the First Choice brand is not currently well represented.

** These statistics exclude FY05 and FY06 acquisitions*

The Specialist Holidays Sector now operates from 15 source markets in Continental Europe, the UK and North America and specialises in destination-led and lifestyle holidays. The product is highly differentiated and primarily exclusive to our businesses.

The Sector faced significant challenges in the first half of the year, with hurricanes in the Gulf of Mexico affecting a key destination for our Canadian business and our Student Travel division, bird flu scares in the Eastern Mediterranean and continuing acts of terrorism (particularly in North Africa). All of these events impacted holiday bookings, with total passenger volumes down 12% versus prior year. This Sector, however, operates on the basis of low accommodation and flying commitments with low infrastructure costs. As a result, gearing is quite low and as bookings slowed the individual businesses cut back capacity.

The flexibility of this business model and the importance of having a diversified portfolio have been clearly demonstrated in difficult Winter trading conditions, enabling this Sector to increase headline profit by £1.5m (up 30%) to £6.5m. Of this improvement, the existing businesses delivered £0.4m, £0.3m came from acquisitions and £0.8m from accounting changes under IFRS.

European Specialist Businesses

In the Continental European Specialist businesses, demand was most severely impacted by the ongoing impact of terrorist events in Egypt. Holidays to Egypt were down 27% for the

European Specialist Businesses division, but this was partly countered by strong year-on-year growth to Morocco (up 14%) and Greece (up 19%). Capacity was cut back to underperforming destinations and as a result the profit impact of the revenue shortfall of 8% was not significant.

The UK Specialist businesses continue to focus on improved efficiencies and the move to a new generation, more flexible selling system. Hayes & Jarvis has already migrated to the new system and Citalia and Meon will follow in the second half of the year. Hayes & Jarvis volumes and margins have increased as a result of steps taken internally in the business and recovery from the Tsunami impact of the previous year.

North American Specialist Businesses

In a competitive market, Signature Vacations in Canada has maintained its strong position across all the regions of the country. This business has delivered a record financial performance with an increase in operating profit over the prior year with the majority of the improvement achieved in the core tour operating business, although the retail operations maintained growth in both bookings and revenues against a background of strong competition and discounting.

First Choice Student Travel, based in the US and Canada, focuses on both the leisure and educational segments of the student travel markets. Now providing travel experiences to over 200,000 students per annum, we have a market leading position in the US and Canadian leisure student markets as well as the Canadian educational travel segment. In the first half, the business has continued to grow rapidly both organically and by acquisition. Given the size and highly fragmented nature of the market, we will continue to pursue an aggressive growth and consolidation strategy in both the leisure and educational segments.

First Choice Independent Vacations, which experienced a downturn following the London bombings of July 2005, has recovered and is now trading well.

Activity Holidays

Winter 2005/06

Year-on-year change (%)*	**Customers**	**Revenue**
Marine**	+4%	+11%
Specialist Ski	+19%	+11%
Activity Adventure	+14%	+12%
Total	**+10%**	**+12%**

	Winter 05/06	**Winter 04/05**	**Change**
Headline loss (£m)	(10.2)	(13.7)	+25%
Operating margin	(6.9)%	(22.4)%	+15.5ppts

** These statistics exclude FY05 and FY06 acquisitions, total turnover up 142%*

***Marine currently includes Sunsail Clubs & Flotillas, Inland Waterways and Sunsail Yachts.*

The Activity Holidays Sector delivered an improved result for the first half with revenue up 142% to £148m (2005: £61m) and losses were significantly reduced to £10.2m (2005: £13.7m). While the acquisitions in the Activity Adventure Division and the US businesses

(Grand Expeditions and INTRAV) have contributed to the improved result we are pleased that like-for-like losses continue to improve primarily as a result of enhanced asset utilisation and matching capacity with demand. The like-for-like reduction in losses contributed £0.5m of the first half improvement and the acquisitions contributed a further £2.6m. The balance was as a result of changes under IFRS.

Sunsail Clubs and Flotillas

The Sunsail Clubs revenues were up 22% for the first half of the year and to satisfy increasing demand for higher-quality accommodation within our Club product range, we have added a new Turkish Club, Phokaia. This club, which opened on schedule on 18 May and further strengthens our Mediterranean club portfolio, is already booking very well for the summer season. Revenues for the Sunsail Flotilla business were up 30% for the first half, while full year sales are currently up 13% with particularly strong growth in the Caribbean.

Inland Waterways

The Inland Waterways business is relatively small during the Winter. Nonetheless the business continues to deliver strong top line growth with revenues 15% ahead of the comparable period last year. Continued management focus on utilisation and capacity management has resulted in a two percentage point improvement in occupancy and we are experiencing significant levels of growth in new source markets such as Italy, Spain and Scandinavia.

First Choice Marine

We have consolidated our position in the bareboat yachts charter market through the acquisition of The Moorings and its associated brands in December 2005, and we are now the world's largest bareboat yacht charter operator with over 1,500 yachts and powerboats available for our customers at over 70 bases around the world. Our customers can enjoy the widest range of yachting experiences from premium crewed yachts to quality value-for-money holidays. The integration of The Moorings (and its brands) with our existing Sunsail Yachts operation is progressing well, as we seek to leverage operational synergies within the combined operation and subsequently drive margin improvement.

At the announcement of the preliminary results in December 2005 we indicated that we expected to deliver synergies of around £4.5m from the Grand Expeditions acquisition in the first full year of ownership. These synergies were to be delivered primarily from First Choice Marine and were focused on areas such as removal of duplication in sales offices, base overheads and back office functions. In addition, we announced we would review the corporate head office of Grand Expeditions. After the first six months of ownership we are confident that the initial assessment of potential cost savings will be exceeded in the year to 31 October 2007.

Specialist Ski

Our Specialist Ski division now comprises Luxury Mountain Hotels, FlexiSki and our schools business focusing on ski and educational tours for the UK schools' market. Revenue was up 11% to £17m (2005: £15m). FlexiSki increased passenger numbers by 8% and revenue increased by 9%. The successful first year of operation of the Hotel Le Fitzroy in Val Thorens, increased revenues in the Luxury Mountain Hotels brand by 47% while the schools business continued to grow. Adult Ski is now managed within the Mainstream Holidays Sector.

Activity Adventure

The Activity Adventure businesses experienced another period of strong growth with like-for-like revenues 12% ahead of the comparable period last year (with total revenue growth up 205% to £67m), as all businesses performed in line with expectations. The businesses acquired during the second half of 2005 have integrated well into the Sector and we continue to target acquisitions that can provide new source market opportunities and have high growth characteristics.

We will be maximising the opportunities we now have in the expedition cruising market following the Group's acquisition of INTRAV in January 2006 and Peregrine Adventures in July 2005. A business unit, First Choice Expedition Cruising, has been created to manage the four ships which sail under the leading brands of Peregrine Shipping and Clipper Cruise Line, and will offer an integrated, complementary portfolio of ships and expedition cruise product through a worldwide distribution network.

First Choice Expeditions

The Grand Expeditions escorted tours businesses have traded well since we acquired them in December 2005. These businesses in the United States offer exciting growth opportunities for the Group within a segment that is characterised by high growth and strong margins.

INTRAV, acquired from Kuoni Travel Holding Ltd. in January 2006 is in the process of being restructured. The company we acquired consisted of three distinct business activities: a coastal cruising operation, expedition cruising operating under the Clipper Cruise Line brand and a premium escorted tours business under the INTRAV brand. The coastal cruising operation was sold following the acquisition. The award-winning Clipper Cruise Line is to be managed under First Choice Expedition Cruising (along with our Peregrine cruising product, as noted above). The integration of the escorted tours business into the Group has progressed extremely well, with savings of approximately $6m of overheads and marketing costs identified since acquisition. Consequently, we forecast that the combined entity will break-even this year (2005: $7.0m loss) before the cost of restructuring.

Online Destination Services

The Online Destination Services Sector has achieved a 37% increase in total transaction value (TTV) to £159m (2005: £116m). During the period we have continued to develop the Hotelopia brand with additional airline partnerships at an incremental cost of £0.9m. In addition, Winter trading has been affected by the impact of Hurricane Wilma in Mexico, which is a key Winter destination for Hotelbeds in particular. As a result the trading loss for the period has increased by £0.6m to £1.7m (2005: £1.1m). This also includes a £0.4m Winter loss incurred by the Meridian business, based in Greece, acquired in the first half of 2006.

Hotelbeds now has an extensive infrastructure of 67 offices in 16 countries offering local market knowledge and high quality service. This brand grew its TTV by 37% in the period.

The Bedsonline brand has successfully increased its travel agent customer base to 95% of the consortiums in Spain, while Portugal is also experiencing significant growth. TTV is up 126% and the brand is establishing a foothold in other key European markets, North and South America.

	Winter 05/06	Winter 04/05	Change
Online			
Bednights (000)			
Hotelbeds	2,164	1,495	+45%
Bedsonline	1,126	530	+112%
Hotelopia	1,160	685	+69%
Total	**4,450**	**2,710**	**+64%**
Revenue per bednight (year-on-year change)			
Hotelbeds	-1%		
Bedsonline	+8%		
Hotelopia	+18%		
Total	**+6%**		
Headline loss (£m)	(1.7)	(1.1)	-54%
Operating margin	(1.8)%	(1.5)%	-0.3ppts

Hotelopia, our B2C online brand has seen impressive volume growth in the first half with TTV up 71%. The strategic partnership with easyJet has been very successful and we have in the period also signed partnership agreements to be the accommodation provider for bmi, bmibaby and Spanair. Our partnership with the large Spanish bank BBVA has been expanded and we are now working with them in South America.

Island Cruises

Our joint venture with Royal Caribbean Cruises Ltd. trading as Island Cruises had a successful first half with like for like Winter profitability from the first ship, Island Escape, increasing by £0.5m. The Company's second ship the Island Star, which joined the fleet in late October 2005, underwent a refit in November 2005 that included a total refurbishment of public spaces, the addition/conversion of 76 cabins and the addition of 68 cabin balconies. The cost of this refit was £2.2m during the period. Island Star joined her sister ship, Island Escape in Brazil in December 2005.

For the six months ended 30 April 2006 total revenues grew year-on-year by 82% and passengers carried increased by 77%. However, the re-fit of Island Star and a £0.2m IFRS adjustment resulted in an increase in total first half losses by £2.4m to £3.4m[2] (2005: £1.0m). Both ships are now in the Mediterranean for the Summer and trading for the remainder of the year is in line with expectations.

Acquisitions

In the last six months we have completed nine acquisitions. A number of these have been a continuation of our strategy to build significant positions in segments of the marketplace that have attractive consumer-driven growth characteristics. These include the student travel

[2] Share of JV and associate pre-tax loss of £2.9m includes £0.5m share of associate income (2005: £nil)

market in North America, escorted tours and adventures businesses. In addition, we have also acquired in attractive segments where we have the ability to consolidate a market by acquiring the major specialist yachting competitor, namely The Moorings. With the INTRAV acquisition, we have demonstrated our ability to acquire where radical restructuring is required.

We have continued to acquire businesses in the specialist sectors that demonstrate growth characteristics and the ability to generate superior returns. In December 2005 and January 2006, as previously announced, we acquired the Grand Expeditions group of companies and INTRAV. During the period under review we acquired a further seven specialist businesses and since 1 May we have added one more company to the Group.

The Online Destination Services Sector continues to expand into new geographical markets and in December 2005 we acquired Meridian a Greek destination services business for £3.7m. This acquisition gives us a market leading presence in the Greek Islands.

In January 2006, the Activity Holidays Sector acquired Trek Holidays. Established over 30 years, Trek is one of Canada's leading adventure travel companies. In May, we acquired Travel Class Limited, a leading supplier of ski and UK residential activity trips for schools in the UK market, for a net cash consideration of £6.4m. This acquisition complements our existing schools ski and educational tours business while offering us entry to the UK Activity Centre segment of the market. We are confident that superior returns are achievable from participation in the UK activity segment and a combination with the existing Ski and Travelbound businesses (within the Specialist Ski division) will provide the Group with a market leading position in the school focused travel market with three clear product offerings and brands.

In the North American student travel market, we have continued to build a significant niche segment through further bolt-ons during the period. As announced in the April pre-close statement, we have acquired four businesses in the educational group travel segment of the market for a total consideration of £16m. The acquisition of Educational Tours, based in Chicago, has secured our position as the second largest educational travel company in the US, catering to middle school students. The three other businesses acquired in this segment, School Voyageurs, Educatours and Jumpstreet, are all based in Canada.

We have a strong pipeline of acquisitions in the second half of the year and currently see no sign of this diminishing as we further strengthen our position in the growth segments we have identified.

Cash

Our net debt position of (£187m) represents increased indebtedness of £288m compared to the same point in the prior year (2005: £101m net cash). The net debt position is made up of £156m of cash and £343m of debt. The refinancing of the RCCL preference shares (£199.5m) in the second half of 2005, which gave us improved tax efficiency and a lower cost of debt, combined with our acquisition expenditure account for this increase in debt.

Dividends

The Board has declared an interim dividend of 2.25p (2005: 1.95p) per ordinary share. This represents an increase of 15% compared to the same period in the prior year. This is in line with our stated progressive dividend policy to maintain dividend cover at around two-times. The dividend is payable on 1 November 2006 to shareholders on the register at 29 September 2006.

Notes:
These figures are up to 5 June 2006
**These statistics reflect inclusive tour sales only*
***These statistics exclude FY05 and FY06 acquisitions*

In the seven weeks since the trading update on 26 April 2006, trading for Summer 2006 has continued to perform in line with our expectations.

In Mainstream Holidays our performance reflects our focus on long-haul destinations and differentiated product. We continue to refine the short-haul offering and reduce capacity to match demand. Medium-haul destinations are showing an improving trend with Greece, Egypt and Morocco proving extremely popular and Turkey continuing to recover. Sales in our higher quality earnings long-haul programme show that the investment we have made in both the in-flight experience and in resort are proving what our customers want. Margins for the season remain strong.

Specialist Holidays Sector trading has progressed as we anticipated, with our European businesses Summer sales broadly flat against last year across the entire season. We have continued to reduce capacity in the shoulder season, when margins are lower. In the high season, however, the rate of sale and margins has continued to perform ahead of last year. In particular, we have experienced significant demand for Morocco and Greece, while both sales and margins in our UK specialist businesses are up versus last year. Both the Activity Holidays and Online Destination Services Sectors continue to perform well.

Although early in the selling period, where Winter 2006/07 is on sale, we are performing in line with our expectations.

Our Group operates a flexible and efficient business model across a portfolio of brands. This enables us to operate successfully and maintain growth in a more challenging trading environment. Furthermore, opportunities exist to continue to grow our business organically and through acquisitions in order to build significant leadership positions in attractive segments of the travel market with strong growth characteristics. We remain confident of the outlook for the remainder of this year.

Notes (unaudited)

1. Basis of preparation

First Choice Holidays PLC (the "Company") is a company domiciled in the United Kingdom. The consolidated interim financial statements of the Company for the six months ended 30 April 2006 comprise the Company and its subsidiaries (together referred to as the "Group") and the Group's interest in associates and jointly controlled entities.

EU law (IAS Regulation EC 1606/2002) requires that the next annual consolidated financial statements of the Company, for the year ending 31 October 2006, be prepared in accordance with International Financial Reporting Standards (IFRSs) adopted by the EU ("adopted IFRSs"). This interim financial information has been prepared on the basis of the recognition and measurement requirements of IFRSs in issue that either are endorsed by the EU and effective (or available for early adoption) at 31 October 2006 or are expected to be endorsed and effective (or available for early adoption) at 31 October 2006, the Group's first annual reporting date at which it is required to use adopted IFRSs.

The adopted IFRSs that will be effective (or available for early adoption) in the annual financial statements for the year ending 31 October 2006 are still subject to change and to additional interpretations and therefore cannot be determined with certainty. Accordingly, the accounting policies for that annual period will be determined finally only when the annual financial statements are prepared for the year ending 31 October 2006.

The consolidated interim financial statements do not include all of the information required for full annual financial statements and none of the financial information included within the consolidated interim financial statements has been subject to audit.

The comparative figures for the financial year ended 31 October 2005 and the six month period to 30 April 2005 are extracted from the "First Choice Holidays PLC IFRS Update" and "IFRS Supporting Documentation" as published by the Group on 23 March 2006. This information is available on the Group's website, www.firstchoiceholidaysplc.com.

With the exception of financial instruments, as detailed below, the accounting policies and first time adoption transitional rules followed in this interim financial report are the same as those published by the Group on 23 March 2006 within the IFRS Update, which is also available on the Group's website, www.firstchoiceholidaysplc.com. To further aid understanding and comparability with the Group's historic performance, the tables in Appendix 1 show a reconciliation between the income statements and the balance sheet under IFRS and the results under UK GAAP for the 6 month period ended 30 April 2005 and the year ended 31 October 2005.

The comparative figures for the financial year ended 31 October 2005 are not the Company's statutory accounts for the financial year. These accounts, which were prepared under UK GAAP, have been reported on by the Company's auditors and delivered to the registrar of companies. The report of the auditors was unqualified and did not contain statements under section 237(2) or (3) of the Companies Act 1985.

A copy of this report and financial information is available for members of the public from the Company's registered office at First Choice House, London Road, Crawley, West Sussex, RH10 9GX. Website: www.firstchoiceholidaysplc.com.

Accounting policy for financial instruments

In accordance with IFRS 1, "First Time Adoption of International Financial Reporting Standards", the Group has applied the transition adoption rules for IAS 32: Financial Instruments (Disclosure and Presentation) and IAS 39: Financial Instruments (Recognition and Measurement). The Group has therefore applied these standards, and the related accounting policies, only with effect for the current period from 1 November 2005 and not within the comparative financial information. The opening balance sheet at 1 November 2005 has been adjusted to reflect the adoption of these standards from that date and details of these adjustments can be found in note 10.

Financial expenses	**(13.3)**	(4.5)	(12.9)
Net financing expenses	**(9.5)**	(1.5)	(5.2)

4. Taxation

Income tax for the six month period to 30 April 2006 is calculated using the estimated annual effective tax rate for the year ending 31 October 2006 applied to the pre-tax loss before amortisation of business combination intangibles for the interim period.

The tax credit for the period comprises both the Group tax credit, and the joint venture tax credit and associate tax charge which, under IFRS, are included within the Group's share of joint venture and associate profits and losses on the face of the income statement.

On this basis, the tax rate applied on the loss before tax for the interim period is 28% (2005: full year rate 29%).

5. Dividends

Ordinary shares

Dividends have been recognised within equity as follows:

	6 months 30 April 2006 £m	6 months 30 April 2005 £m	Year 31 October 2005 £m
Final ordinary dividend paid for 2005 of 4.65p (2004: 3.75p)	**24.5**	19.4	19.4
Interim dividend paid for 2005 of 1.95p	**–**	–	10.1
	24.5	19.4	29.5

Subsequent to the balance sheet date, the Directors have approved an interim dividend of 2.25p per share (2005: 1.95p) payable on 1 November 2006 to the holders of relevant shares on the register at 29 September 2006. The interim dividend amounts to £11.8m (2005: £10.1m) and will be recognised in the financial statements in the second half of the year.

A dividend reinvestment plan was introduced for the first time with respect to the final dividend payable for the year ended 31 October 2000. Those shareholders who have not elected to participate in this plan, and who would like to participate with respect to the 2006 interim dividend, may do so by contacting Lloyds TSB Registrars direct on 0870 2413018. The last day for election for the interim dividend is 11 October 2006 and any requests should be made in good time ahead of that date.

Preference shares

All preference shares were redeemed by the Company on 27 July 2005. In the six month period to 30 April 2005, preference share dividends of £6.7m were paid.

6. Loss per ordinary share

The basic loss per ordinary share for the six month period to 30 April 2006 is calculated by dividing the loss attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the period, excluding those held in the employee share ownership trusts.

	Loss 2006 £m	**Weighted average no. of shares 2006 millions**	**Loss per share 2006 pence**	Loss 2005 £m	Weighted average no. of shares 2005 millions	Loss per share 2005 pence
Basic loss per ordinary share	**(57.8)**	**524.2**	**(11.0)**	(54.6)	518.5	(10.5)
Amortisation of business combination intangibles	**2.5**	**–**	**0.5**	–	–	–
Headline loss per ordinary share	**(55.3)**	**524.2**	**(10.5)**	(54.6)	518.5	(10.5)

In accordance with IAS 33: Earnings Per Share, the calculation of diluted basic earnings per share and diluted adjusted loss per share has not been disclosed as all the potential ordinary shares that comprise the calculation are anti-dilutive.

7. Acquisitions

During the six months ended 30 April 2006, the Group has made the following acquisitions:

Sector & entity	Country of operation	Date of acquisition	Consideration £m
Specialist			
Jumpstreet*	Canada	April 2006	1.7
School Voyageurs*	Canada	April 2006	2.3

Net (debt)/funds	**(187.4)**	(190.4)	0.3	(18.8)	3.4	18.1	101.0

10. Financial instruments

As set out in note 1, the Group has adopted IAS 32, "Financial Instruments: Disclosure and Presentation" and IAS 39, "Recognition and Measurement" from 1 November 2005. In accordance with IFRS 1, "First Time Adoption of International Financial Reporting Standards", the Group has elected not to re-state comparative information for the impacts of IAS 32 and 39.

Instead, for the year ended 31 October 2005, the accounting policies documented in the UK GAAP financial statements for the year ended 31 October 2005 were applied in respect of: financial instruments issued by the Group; investments equity securities; derivative financial instruments; hedging and translation of foreign currency monetary items.

For the six months to 30 April 2006, the following accounting policies have been applied:

Derivative financial instruments and hedging

Derivative financial instruments

Derivative financial instruments are recognised at fair value. The gain or loss on remeasurement to fair value is recognised immediately in the income statement. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged (see below).

The fair value of interest rate swaps is the estimated amount that the Group would receive or pay to terminate the swaps at the balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparties. The fair value of fuel swaps is the estimated amount that the Group would receive or pay to terminate the swaps at the balance sheet date, taking into account current fuel prices. The fair value of forward exchange contracts is their quoted market price at the balance sheet date, being the present value of the quoted forward price.

Cash flow hedges

Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probable forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in the hedging reserve. Any ineffective portion of the hedge is recognised immediately in the income statement.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains and losses that were recognised directly in equity are reclassified into the income statement in the same period or periods during which the asset acquired or liability assumed affects the income statement. When the forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated cumulative gain or loss is removed from the hedging reserve and is included in the initial cost or other carrying amount of the non-financial asset or liability. For cash flow hedges, other than those covered by the preceding two policy statements, the associated cumulative gain or loss is removed from equity and recognised in the income statement in the same period or periods during which the hedged forecast transaction affects profit or loss.

When a hedging instrument expires or is sold, terminated or exercised, or the Group revokes designation of the hedge relationship but the hedged forecast transaction is still expected to

10. Financial instruments – cont'd

occur, the cumulative gain or loss at that point remains in equity and is recognised in accordance with the above policy when the transaction occurs. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss previously recognised in equity is recognised in the income statement immediately.

Fair value hedges

Where a derivative financial instrument is designated as a hedge of the variability in fair value of a recognised asset or liability or an unrecognised firm commitment, all changes in the fair value of the derivative are recognised immediately in the income statement. The carrying value of the hedged item is adjusted by the change in fair value that is attributable to the risk being hedged and any gains or losses on remeasurement are also recognised immediately in the income statement (even if those gains would normally be recognised directly in reserves). On the discontinuance of hedge accounting, any adjustment made to the carrying amount of the hedged item as a consequence of the fair value hedge relationship is recognised in the income statement over the remaining life of the hedged item.

Effect of first time adoption of IAS 32 and IAS 39 on 1 November 2005

To adopt IAS 32 and IAS 39 within the balance sheet as at 1 November 2005, the following adjustments have been necessary:

- The recognition on balance sheet of the fair value of derivative financial assets of £23.0m and the fair value of derivative financial liabilities of £18.9m. Unrealised fair value gains of £6.3m on cash flow hedges are included within the hedging reserve. Unrealised fair value losses of £2.2m on fair value hedges are included within retained earnings. Under UK GAAP derivatives were held off balance sheet and were recognised at the time of the hedged transaction.

- IAS 21 requires that monetary items (e.g. cash, debtors, accounts payable) that are denominated in a currency other than an individual entities reporting currency should be translated at the spot rate at the balance sheet date. Many businesses within the Group already translated at the closing spot exchange rate at each reporting date under UK GAAP. Re-translation of such items is however required in some business units where assets and liabilities have previously been translated at the contracted rate, in accordance with UK GAAP. The impact of this change is to decrease net assets by £4.6m at 1 November 2005.

The total adjustment to net assets, after tax, has been recorded directly to equity (note 8) and is summarised below:

10. Financial instruments – cont'd

	Derivative financial instruments £m	Translation at spot rate £m	Deferred tax impact £m	Total £m
Non-current assets				
Trade and other receivables	–	(8.3)	–	(8.3)
Deferred tax assets	–	–	2.1	2.1
Current financial assets				
Derivative financial instruments	23.0	–	–	23.0
Current liabilities				
Trade and other payables	–	(3.9)	–	(3.9)
Finance leases	–	1.4	–	1.4
Loans	–	2.0	–	2.0
Derivative financial instruments	(18.9)	–	–	(18.9)
Non-current liabilities				
Provisions	–	4.2	–	4.2
Deferred tax liabilities	–	–	(1.9)	(1.9)
	4.1	**(4.6)**	**0.2**	**(0.3)**
Equity				
Cash flow hedging reserve	6.3		(1.9)	4.4
Retained earnings	(2.2)	(4.6)	2.1	(4.7)
	4.1	**(4.6)**	**0.2**	**(0.3)**

Derivative financial instruments at 1 November 2005 relate to forward foreign exchange contracts, interest rate swaps and fuel swaps. These instruments are used to reduce the exposure of the Group to movements in foreign exchange rates, interest rates and the price of fuel.

11. Approval

The interim financial statements were approved by the Board on 12 June 2006.

Independent Review Report by KPMG Audit Plc to First Choice Holidays PLC

Introduction

We have been engaged by First Choice Holidays PLC ('the Company') to review the financial information for the six month period to 30 April 2006 which comprises the Consolidated income statement, the Consolidated balance sheet, the Consolidated statement of cash flows, the Consolidated statement of recognised income and expense and the related notes. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the Company in accordance with the terms of our engagement to assist the Company in meeting the requirements of the Listing Rules of the Financial Services Authority. Our review has been undertaken so that we might state to the Company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company for our review work, for this report, or for the conclusions we have reached.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of and has been approved by the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual financial statements except where any changes, and the reasons for them, are disclosed.

As disclosed in note 1 to the financial information, the next annual financial statements of the Group will be prepared in accordance with IFRSs adopted for use in the European Union. The accounting policies that have been adopted in preparing the financial information are consistent with those that the directors currently intend to use in the next annual financial statements. There is, however, a possibility that the directors may determine that some changes to these policies are necessary when preparing the full annual financial statements for the first time in accordance with those IFRSs adopted for use by the European Union.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4 *Review of interim financial information* issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review is substantially less in scope than an audit performed in accordance with Auditing Standards and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 April 2006.

KPMG Audit Plc

6 January 2006

To: THE HOLDERS OF ORDINARY SHARES AND, FOR INFORMATION ONLY, THE PARTICIPANTS IN THE COMPANY'S EMPLOYEE SHARE SCHEMES

Dear Shareholder

ANNUAL GENERAL MEETING

This document contains the Notice of the 2006 Annual General Meeting of the Company which will be held at 10.30am on Thursday 23 March 2006 at the offices of ABN Amro, 250 Bishopsgate, London EC2M 4AA. An explanation of the business to be transacted is set out below and in the explanatory notes on page 10.

You will see that, in addition to the ordinary business to be dealt with, there are five items of special business which require the AGM's attention:

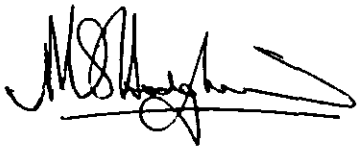
- Resolutions 11 and 12 concern the Directors' authority to allot the Company's shares – see the explanatory notes on page 11;
- Resolutions 13 and 15 are to amend the Articles of Association of the Company – see the explanatory notes on pages 11 and 12; and
- Resolution 14 concerns the general authority to make market purchases of ordinary shares of 3 pence each of the Company – see the explanatory notes on pages 11 and 12.

DIVIDEND REINVESTMENT PLAN

A Dividend Reinvestment Plan (the "Plan") was introduced by the Company in 2000. The Plan is a dealing facility which enables those shareholders who are entitled to the proposed final dividend for the year ended 31 October 2005 of 4.65 pence per share, and any subsequent dividends to which the Plan applies, to invest the cash dividends received in purchasing further ordinary shares. The Plan is administered by Lloyds TSB Group plc through Lloyds TSB Registrars.

Those shareholders who have already elected to participate in the Plan will automatically be included in the Plan for the year ended 31 October 2005. Those shareholders who have not already elected to participate in the Plan, and would like to participate with respect to the final dividend for the year ended 31 October 2005, may do so by contacting Lloyds TSB Registrars direct on 0870 2413018. The last day for election for the final dividend for 2005 is 16 March 2006 and any requests should be made in good time ahead of that date.

If you are in any doubt about how your tax position will be affected should you choose to join the Plan, you should consult your own financial adviser before taking any action.



Action to be taken

If you wish to receive the whole of your dividend in cash, and you have not previously elected to participate in the Plan, you need take no action. The final dividend for the year ended 31 October 2005 will be paid to you in cash in the normal way on 6 April 2006. If you wish to receive the whole of your dividend in cash, and have previously elected to participate in the Plan, you will need to notify Lloyds TSB Registrars in writing in accordance with the terms of the Plan.

Enclosed is a form of proxy for use by the ordinary shareholders at the AGM. You should complete and return the form of proxy, in accordance with the instructions printed thereon, as soon as possible and, in any event, so that it is received not later than **10.30am on 21 March 2006.** Completion and return of a form of proxy will not preclude you from attending the AGM and voting in person should you so wish. An appointment of a proxy may also be returned by completing it online, please refer to the notes on page 9. For CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service, please refer to the notes on page 9.

Your Directors consider that the passing of all the resolutions is in the best interests of the Company and its shareholders. Accordingly, they recommend shareholders to vote in favour of the resolutions – as they intend to do in respect of their own beneficial shareholdings.

Yours sincerely

Sir Michael Hodgkinson
Chairman

FIRST CHOICE HOLIDAYS PLC

NOTICE OF ANNUAL GENERAL MEETING

To: THE HOLDERS OF ORDINARY SHARES AND, FOR INFORMATION ONLY, THE PARTICIPANTS IN THE COMPANY'S EMPLOYEE SHARE SCHEMES

NOTICE IS HEREBY GIVEN that the 2006 Annual General Meeting of First Choice Holidays PLC will be held at the offices of ABN Amro, 250 Bishopsgate, London, EC2M 4AA on Thursday 23 March 2006 at 10.30am for the following purposes:

ORDINARY BUSINESS

1 To receive and adopt the Reports of the Directors and the Auditors and the Accounts for the year ended 31 October 2005.

2 To receive and approve the Report of the Board to Shareholders on Directors' Remuneration for the year ended 31 October 2005.

3 To declare a final dividend.

4 To re-elect Sir Michael Hodgkinson as a Director.

5 To re-elect Dermot Blastland as a Director.

6 To re-elect Clare Chapman as a Director.

7 To re-elect Susan Hooper as a Director having been appointed since the last Annual General Meeting.

8 To re-elect Jeremy Hicks as a Director having been appointed since the last Annual General Meeting.

9 To re-elect Giles Thorley as a Director having been appointed since the last Annual General Meeting.

10 To re-appoint KPMG Audit Plc as auditors of the Company to hold office from the conclusion of this meeting until the conclusion of the next general meeting at which accounts are laid before the Company at a remuneration to be fixed by the Directors.

SPECIAL BUSINESS

To consider and, if thought fit, to pass the following resolutions. Resolution 11 will be proposed as an ordinary resolution and Resolutions 12, 13, 14, and 15 will be proposed as special resolutions.

Ordinary Resolution:

11 **THAT** the Directors be and they are hereby generally and unconditionally authorised pursuant to Section 80 of the Companies Act 1985 (the "Act") to exercise all the powers of the Company to allot relevant securities (within the meaning of Section 80(2) of the Act) up to an aggregate nominal amount of £5,297,784.08 provided that this authority shall expire on 23 March 2011, save that the Company may before such expiry make an offer or agreement which would or might require relevant securities to be allotted after such expiry and the Directors may allot relevant securities in pursuance of such offer or agreement as if the authority had not expired; and all unexercised authorities previously granted to the Directors to allot relevant securities be and are hereby revoked.

Special Resolutions:

12 **THAT** the Directors be and they are hereby empowered pursuant to Section 95 of the Companies Act 1985 (the "Act") to allot equity securities (within the meaning of Section 94 of the Act) for cash pursuant to the authority conferred by Resolution 11 set out in the Notice convening the 2006 Annual General Meeting of the Company, or by way of a sale of treasury shares, as if Section 89(1) of the Act did not apply to any such allotment provided that:

(a) the power conferred hereby shall be limited:

(i) to the allotment of equity securities in connection with a rights issue, open offer or other offer of securities in favour of equity shareholders where the equity securities respectively attributable to the interests of the equity shareholders are proportionate (as near as may be) to the respective number of equity shares held by them, subject to such exclusions or other arrangements as the Directors may deem necessary or expedient to deal with treasury shares, fractional entitlements or legal or practical problems arising under the laws of any overseas territory or the requirements of any regulatory body or any stock exchange or any other matter whatsoever; and

(ii) to the allotment (otherwise than pursuant to paragraph 12(a)(i) above) of equity securities up to an aggregate nominal amount of £794,667.61; and

(b) the power conferred hereby shall (unless previously revoked or varied) expire on 23 March 2011 but so that this power shall allow the Company, before the expiry of this power, to make any offer or agreement which will or may require equity securities to be allotted after such expiry and so that the Directors shall be allowed to allot equity securities pursuant to any such offer or agreement as if the power conferred hereby had not expired.

13 **THAT:**

(a) the Articles of Association of the Company shall be amended as follows:

(i) by deleting the existing Article 135 in its entirety and substituting the following therefor:

"135 Subject to the provisions of the Act, the Company may:

(a) indemnify any person who is or was a director, directly or indirectly (including by funding any expenditure incurred or to be incurred by him), against any loss or liability, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company; and/or

(b) purchase and maintain insurance for any person who is or was a director against any loss or liability or any expenditure he may incur, whether in connection with any proven or alleged negligence, default, breach of duty or breach of trust by him or otherwise, in relation to the Company or any associated company.

For the purposes of this article, "associated company" has the same meaning as in section 309A of the Act.";

(ii) by the deletion from Article 98 of the words "donations, gratuities, pensions, allowances and emoluments" and the substitution therefor of the words "pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit"; and

(iii) by the deletion from Article 98 of the words "donation, gratuity, pension, allowance or emolument" and the substitution therefor of the words "pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation";

(b) the Memorandum of Association of the Company shall be amended as follows:

(i) by the insertion in Clause 4 of the following sub-clause after sub-clause (K):

"(KA) To provide any guarantee or indemnity in respect of the performance or discharge of any obligation or liability by, or otherwise for the benefit of, any person.";

(ii) by the deletion from sub-clause (MM) of Clause 4 of the words "donations, gratuities, pensions, allowances and emoluments" and the substitution therefor of the words "pensions, annuities, allowances, gratuities, donations, emoluments, benefits of any description (whether in kind or otherwise), incentives, bonuses, assistance (whether financial or otherwise) and accommodation in such manner and on such terms as the Company thinks fit"; and

(iii) by the deletion from sub-clause (MM) of Clause 4 of the words "donation, gratuity, pension, allowance or emolument" and the substitution therefor of the words "pension, annuity, allowance, gratuity, donation, emolument, benefit, incentive, bonus, assistance or accommodation".

14 **THAT** the Company be generally and unconditionally authorised to make market purchases (within the meaning of Section 163(3) of the Companies Act 1985) of ordinary shares of 3 pence each of the Company provided that:

(a) the maximum number of ordinary shares hereby authorised to be acquired is 52,977,840;

(b) the minimum price which may be paid for any such share is 3 pence;

(c) the maximum price which may be paid for any such share is an amount equal to 105% of the average of the middle market quotations for an ordinary share in the Company as derived from The London Stock Exchange Daily Official List for the five business days immediately preceding the day on which the share is contracted to be purchased;

(d) the authority hereby conferred shall expire on 23 March 2007;

(e) the Company may make a contract to purchase its ordinary shares under the authority hereby conferred prior to the expiry of such authority, which contract will or may be executed wholly or partly after the expiry of such authority, and may purchase its ordinary shares in pursuance of any such contract.

15 **THAT** the Articles of Association of the Company shall be amended as follows:

(a) by the deletion from Article 9(b) of the words "share capital of that class" and the substitution therefor of the words "shares of that class (excluding any shares of that class held as treasury shares)";

(b) by the insertion in Article 9 of the words "(excluding any shares of that class held as treasury shares)" after the words "at least one-third in nominal value of the issued shares of the class in question";

(c) by the insertion in Article 9 of the words "(other than treasury shares)" after the words "one person holding shares of the class in question";

(d) by the insertion in Article 10(c) of the words "or the holding of such shares as treasury shares" after the words "the purchase by the Company of any of its own shares";

(e) by the insertion in Article 37(1)(b) of the words "(calculated exclusive of treasury shares)" after the words "at least 0.25 per cent of their class";

(f) by the insertion in Article 42 of the words "and may hold such shares as treasury shares or cancel them," after the words "including redeemable shares,";

(g) by the insertion in Article 54(c) of the words "(excluding any voting rights attached to any shares in the Company held as treasury shares)" after the words "vote at the meeting";

(h) by the insertion in Article 54(d) of the words "(excluding any shares in the Company conferring a right to vote at the meeting which are held as treasury shares)" after the words "all the shares conferring that right";

(i) by the insertion in Article 61 of the words "and to the provisions of the Act" after the words "Subject to any rights or restrictions attached to any shares";

(j) by the deletion from Article 115 of the words "Except as otherwise provided by these articles or the rights attached to shares," and the substitution therefor of the words "Subject to the provisions of the Act and except as otherwise provided by these articles or the rights attached to shares,";

(k) by the insertion in Article 121(1)(b) of the words "(or in the case of treasury shares, which would if such shares were not held as treasury shares)" after the words "held by them respectively which would"; and

(l) by the insertion in Article 134 of the words "subject to the provisions of the Act," after the words "and any other sanction required by law,".

6 January 2006

By Order of the Board

ANDREW JOHN
Company Secretary

Registered Office:
First Choice House, London Road, Crawley, West Sussex RH10 9GX

Registered in England 48967

Notes:

1 A form of proxy is enclosed for use by holders of ordinary shares of 3p each.

2 A member entitled to attend and vote at the meeting is entitled to appoint a proxy or proxies to attend and, on a poll, to vote in his/her place. A proxy need not be a member of the Company.

3 In order to be valid, an appointment of a proxy must be returned by one of the following methods:

- in hard copy form by post, by courier or by hand to the offices of the Company's Registrars, Lloyds TSB Registrars, The Causeway, Worthing, West Sussex BN99 6US; or
- by completing it online at www.sharevote.co.uk by following the on-screen instructions to submit it – you will need to identify yourself with your reference number, card ID and account number, as printed on your proxy form; or
- in the case of CREST members, by utilising the CREST electronic proxy appointment service in accordance with the procedures set out below.

Please note that the Company takes all reasonable precautions to ensure that no viruses are present in any electronic communication it sends out but the Company cannot accept responsibility for loss or damage arising from the opening or use of any email or attachments from the Company and recommends that the shareholders subject all messages to virus-checking procedures prior to use. Any electronic communication received by the Company, including the lodgement of an electronic proxy form, which is found to contain any virus will not be accepted.

4 An appointment of a proxy will not preclude a member from attending and voting at the meeting should he/she so wish.

5 *Electronic proxy appointment through CREST*

CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service may do so for the Annual General Meeting to be held on Thursday 23 March 2006 and any adjournment(s) thereof by using the procedures described in the CREST Manual. CREST Personal Members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.

In order for a proxy appointment or instruction made using the CREST service to be valid, the appropriate CREST message (a "CREST Proxy Instruction") must be properly authenticated in accordance with CRESTCo's specifications and must contain the information required for such instructions, as described in the CREST Manual. The message, regardless of whether it constitutes the appointment of a proxy or an amendment to the instruction given to a previously appointed proxy must, in order to be valid, be transmitted so as to be received by the issuer's agent (ID 7RA01) by the latest time(s) for receipt of proxy appointments specified in the notice of meeting. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which the issuer's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST. After this time any change of instructions to proxies appointed through CREST should be communicated to the appointee through other means.

CREST members and, where applicable, their CREST sponsors or voting service providers should note that CRESTCo does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider(s), to procure that his CREST sponsor or voting service provider(s) take(s)) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.

6 To have the right to attend and vote at the meeting or any adjourned meeting (and also for the purposes of calculating how many votes a person may cast), a person must have his/her name entered on the register of holders of ordinary shares by no later than 6.00pm on 21 March 2006 (or, if the meeting is adjourned, 6.00pm on the date which is two days prior to the adjourned meeting). Changes to entries on the register after this time

shall be disregarded in determining the rights of any holder of ordinary shares to attend or vote (and the number of votes they may cast) at the meeting or any adjourned meeting.

Explanatory notes:

These explanatory notes are intended to explain the business to be transacted at the Annual General Meeting other than routine business.

1 *Resolution 2 – the Report of the Board to Shareholders on Directors' Remuneration*

Under Part VII of the Companies Act 1985 (as amended pursuant to the Directors' Remuneration Report Regulations 2002), the Company is required to produce a directors' remuneration report for each relevant financial year and to put a resolution to shareholders, at each Annual General Meeting, to approve the report on Directors' remuneration. The Report of the Board to Shareholders on Directors' Remuneration appears on pages 63 to 70 of the Report and Accounts of the Company for the year ended 31 October 2005.

2 *Resolution 3 – Final Dividend*

A final ordinary dividend of 4.65 pence has been recommended by the Board as detailed on page 60 of the Report and Accounts of the Company for the year ended 31 October 2005 and will be payable to all members on the register at the close of business on 3 March 2006. The payment date will be 6 April 2006.

3 *Resolutions 4, 5 and 6 - Retirement by rotation*

Under Article 85 of the Company's Articles of Association, one-third (or as near as may be) of the Directors subject to retirement by rotation must retire at each Annual General Meeting of the Company. In addition, under Article 86 of the Company's Articles of Association each Director must retire and offer himself for re-appointment at least once every third Annual General Meeting. The Directors who are due to retire pursuant to the Articles of Association are Sir Michael Hodgkinson, Dermot Blastland and Clare Chapman and Resolutions 4, 5 and 6 provide for their re-appointment to the Board of Directors.

3.1 *Sir Michael Hodgkinson – Chairman*

Sir Michael continues, through his Chairmanship of the Company, to ensure highly-effective Board meetings and to encourage maximum contribution from all directors. In addition, he brings to bear the full benefit of his experience both of leading a significant public company and of the aviation industry.

3.2 *Clare Chapman – Independent Non-Executive Director*

Clare Chapman has made an excellent contribution to the Company both as Chairman of the Remuneration Committee and as a member of the Board. Her strategic Human Resources experience in a large retail organisation is of particular benefit to the Board.

Further biographical details for Sir Michael Hodgkinson and Clare Chapman, and biographical details for Dermot Blastland, appear on page 59 of the Report and Accounts of the Company for the year ended 31 October 2005.

4 *Resolutions 7, 8 and 9 – Re-election of Directors appointed since the last Annual General Meeting*

Under Article 91 of the Company's Articles of Association, Directors appointed by the Board shall retire at the next following Annual General Meeting of the Company. Accordingly, Susan Hooper, Jeremy Hicks and Giles Thorley retire at the meeting and Resolutions 7, 8 and 9 provide for their re-appointment to the Board of Directors.

4.1 *Susan Hooper – Non-Executive Director*

Susan Hooper's extensive marketing experience assists the Board in keeping the customer at the forefront of the corporate mind. Further, her in-depth experience of the cruise industry is also of real value.

4.2 *Jeremy Hicks – Independent Non-Executive Director*

Jeremy Hicks' experience as a FTSE 250 Finance Director has enabled him to make a valuable contribution both as Chairman of the Audit Committee and in his wider role as a member of the Company's Board.

4.3 *Giles Thorley – Independent Non-Executive Director*

Giles Thorley's wealth of experience as a leader in public companies with retail interests, and in the integration of acquisitions, will be of significant value to the Board.

Further biographical details for Susan Hooper and Jeremy Hicks appear on page 59, and for Giles Thorley on page 71, of the Report and Accounts of the Company for the year ended 31 October 2005.

5 *Resolution 11 - Authority to allot shares*

Under the Companies Act 1985 the directors of a company may only allot unissued shares if authorised to do so by the shareholders in general meeting. The authority which is sought in respect of the unissued ordinary shares of the Company ("relevant securities") is dealt with in Resolution 11. The aggregate nominal value of relevant securities which can be allotted under the authority is limited to £5,297,784.08 being equal to approximately 33 per cent of the nominal value of the issued ordinary share capital at the date of this notice. The authority will last for 5 years from the date of the passing of the Resolution, the maximum period allowed under the Companies Act 1985, and will replace the general authority given at the Annual General Meeting on 10 March 2005. Except in relation to the exercise of options, the Directors have no present intention of exercising this authority (subject to the possibility of the allotment of shares as deferred consideration in connection with acquisitions which have been made by the Company and the possibility of the allotment of shares in connection with acquisitions which may be made by the Company in the forthcoming year).

6 *Resolution 12 – Pre-emption rights*

If equity securities are to be allotted for cash using the authority given by Resolution 11 above, or by way of a sale of treasury shares, Section 89(1) of the Companies Act 1985 requires that those securities are offered first to existing shareholders in proportion to the number of ordinary shares they each hold at that time.

There may be circumstances, however, when it is in the interests of the Company for the Directors to be able to allot new equity securities for cash other than by way of a strict rights issue. The authority given by Resolution 12 will empower the Directors to modify the situation with regard to rights issues, open offers and other offers of securities such that they may effect such exclusions or other arrangements as they may deem necessary or expedient to deal with treasury shares, fractional entitlements or legal or practical problems arising under the laws of any overseas territory or the requirements of any regulatory body or any stock exchange or any other matter whatsoever. Resolution 12 also authorises the Directors to allot equity securities for cash in other circumstances but limited to equity securities having a maximum aggregate nominal value of £794,667.61 which is equivalent to 5 per cent of the Company's issued ordinary share capital at the date of this notice.

7 *Resolution 13 – Amendments to the Memorandum and Articles of Association*

The Companies (Audit, Investigations and Community Enterprise) Act 2004 (the "2004 Act") has, amongst other things, extended the range of the indemnity which companies are permitted to give to directors. The 2004 Act has inserted new sections 309A-C into the Companies Act 1985. These provisions broadly allow a company to indemnify its directors against liability to third parties arising in connection with any negligence, default, breach of duty or breach of trust by the directors in relation to the company. The company may not however provide an indemnity against:

(i) any liability to the company or any associated company; or

(ii) any liability incurred by a director in defending criminal proceedings in which he is convicted; or

(iii) any liability to pay a fine imposed in criminal proceedings or by a regulatory authority; or

(iv) any liability incurred by a director in defending civil proceedings brought by the company or an associated company in which judgment is given against the director.

The 2004 Act has also inserted a new section 337A into the Companies Act 1985, which allows a company to fund a director's defence costs as they are incurred in both civil and criminal proceedings, through the granting of a loan to a director (although the loan must be repaid if the director is convicted in the proceedings or judgment is given against him).

The Board therefore proposes to amend the Memorandum and Articles of Association of the Company to reflect the new statutory provisions. The proposed new Article 135 is a general permissive article which will allow the Company to indemnify its directors subject to the provisions of the Companies Act 1985 (as amended). The proposed changes to the Memorandum of Association and to Article 98 are required to make it clear that the Company has the capacity to take advantage of the new wider indemnity provisions, should it wish to do so.

The provision of any indemnity by the Company pursuant to the proposed new Article 135, and the scope of any such indemnity, will be a matter for consideration by the Board, who will need to be satisfied that the granting of any director's indemnity is in the best interests of the Company. Any such indemnities will be disclosed in the Company's annual Directors' Remuneration Report.

8 *Resolution 14 – Purchase of own shares*

The Directors are committed to managing the Company's capital effectively and consider that the purchase by the Company of its ordinary shares may, in certain circumstances, be advantageous to shareholders. They believe that, in common with many other listed companies, the Company should obtain from shareholders a general authority to make market purchases of its own shares.

Under the Companies Act 1985 (the "Act"), the Company may only purchase its own shares if authorised to do so by the shareholders in general meeting. The authority which is sought in respect of the ordinary shares of the Company is dealt with in Resolution 14. The maximum number of ordinary shares which can be purchased under the authority is 52,977,840 ordinary shares, which is equivalent to 10 per cent of the Company's issued share capital at the date of this notice. The minimum and maximum prices at which ordinary shares may be purchased are set out in paragraphs (b) and (c) of Resolution 14.

The Companies (Acquisition of Own Shares) (Treasury Shares) Regulations 2003 SI 2003/1116 (the "Regulations") allow a listed company purchasing its own shares in accordance with the Act to hold those shares in treasury as an alternative to cancelling them. Shares held in treasury in this manner would be available for resale by the Company at a later date providing additional flexibility in the management of the Company's capital base.

If Resolution 14 is passed at the Annual General Meeting, it is the Company's current intention to cancel the shares it may purchase pursuant to the authority granted to it. However, in order to respond properly to the Company's capital requirements and prevailing market conditions, the Directors will need to reassess at the time of any and each actual purchase whether to hold the shares in treasury or cancel them, provided it is permitted to do so under the Regulations which in particular impose a maximum limit of up to 10 per cent of the Company's issued share capital being held in treasury.

No dividends will be paid on shares while held in treasury and no voting rights will attach to the treasury shares.

The total number of options to subscribe for ordinary shares outstanding at the date of this notice was 6,163,861, which represented 1.16 per cent of the issued share capital of the Company as at that date. If the Company were to purchase the maximum number of ordinary shares permitted by Resolution 14, the options outstanding at the date of this notice would represent 1.29 per cent of the issued share capital of the Company as reduced following those purchases. The Company has issued no warrants to subscribe for share capital.

The authority which is sought in Resolution 14 will be exercised only if in the opinion of the Directors this will result in an increase in earnings per share and would be in the best interests of the Company. The Directors have no present intention of exercising the authority but this position will be kept under review.

9 *Resolution 15 – Amendments to the Articles of Association*

The amendments which are proposed to the Articles of Association in Resolution 15 bring the Articles into line with the legislation relating to treasury shares. The Companies (Acquisition of Own Shares) (Treasury Shares) Regulations 2003 allow listed companies purchasing their own shares in accordance with the Companies Act 1985 to hold those shares in treasury as an alternative to cancelling them. Shares held in treasury in this manner are available for resale by the company at a later date.

An appropriate resolution (such as Resolution 14) will need to be passed at an Annual General Meeting before the Company has authority to buy back its shares and then hold them in treasury. No dividends are paid on treasury shares and a company may not exercise voting rights in respect of treasury shares.

Various changes are proposed to be made so that the Articles are consistent with the legislation and so that, as a consequence of these legislative changes, the meaning of any Article that refers to issued share capital and/or proportions of share and voting capital will remain clear if shares are at any stage held in treasury.

10 *Documents available for inspection*

Copies of the Directors' Contracts of Service, the letters of appointment of the Non-Executive Directors and the Register of Interests of the Directors (and their families) in the shares and debentures of the Company are available for inspection at the registered office of the Company during usual business hours on any weekday (Saturdays, Sundays and public holidays excluded) and will be available for inspection at the Annual General Meeting and for a period of one hour before it commences.

Notes:

1 If you wish to appoint a proxy other than the Chairman of the Meeting please delete the words "the Chairman of the Meeting, or" and insert the name and address of the desired proxy. Please initial the amendment.

2 In the case of a corporation, this form of proxy must be given under its Common Seal (if any), or signed on its behalf by an officer or attorney of the corporation or other person or agent duly authorised to sign it. In the case of an individual this form of proxy must be signed by the Shareholder or his attorney.

3 A proxy need not also be a holder of Ordinary Shares in the Company.

4 The completion of this form of proxy will not preclude a holder of Ordinary Shares from attending and voting in person.

5 In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, will be accepted to the exclusion of the votes of the other joint holders and, for this purpose, seniority will be determined by the order in which the names stand in the register of members.

6 This form of proxy, together with any power of attorney or other authority under which it is signed, must be lodged with the Company's registrars, Lloyds TSB Registrars, The Causeway, Worthing, West Sussex BN99 6US not later than 48 hours before the time fixed for the Meeting.

7 To have the right to attend and vote at the meeting or any adjourned meeting (and also for the purposes of calculating how many votes a person may cast), a person must have his/her name entered on the register of holders of Ordinary Shares by no later than 6.00pm on 21 March 2006 (or, if the meeting is adjourned, 6.00pm on the date which is two days prior to the adjourned meeting). Changes to entries on the register after this time shall be disregarded in determining the rights of holder of Ordinary Shares to attend or vote (and the numb votes they may cast) at the meeting or any adjourned meeting.

8 You may, if you wish, register the appointment of your proxy electronically either via the website www.sharevote.co.uk or, if you hold your shares through CREST, using the CREST electronic proxy appointment service. To use sharevote you will need your reference number, card ID and account number, as printed on your proxy form. Full details and instructions are given on the website. To use the CREST service please refer to the notes in the accompanying Notice of Meeting.

First Choice Holidays PLC

Where leisure travels further

Annual Report & Accounts 2005

Making the right choices

First Choice Holidays PLC...
is a leading international leisure travel company. It operates from 17 source markets and employs more than 14,000 people across 72 brands.

The Group operates in four Sectors, each offering a particular type of leisure travel experience. It could be a two-week holiday in the Mediterranean or Florida, arctic expedition cruising, college spring breaks, sailing in the Caribbean, a cultural tour in Egypt or booking a hotel for a weekend away. First Choice can satisfy all these leisure travel needs and many more to over 200 countries.

Operating in a fast changing marketplace, making the right choices for our customers and our business is essential. We believe we are leading the way in providing innovative, differentiated, leisure travel experiences for our customers and we will continue to invest in niche market segments that offer substantial growth.

Strategy
Our strategy is to create a platform for growth and sustainable competitive advantage by developing the specialist Sectors and further differentiating the Mainstream Holidays Sector. We aim to:

> generate at least 66% of the Group's operating profit from the specialist Sectors;
> continue to operate using flexible and low cost business models;
> create a sustainable, robust and quality income stream;
> generate the highest leisure travel profit margins in Europe.

The strategy is working
We have had three consecutive years of double-digit profit and earnings growth. We are building strong positions in our chosen segments – offering our customers the leisure travel experiences they want, leveraging the strength of our brands and operating flexible efficient business models. All this positions us for further profitable, higher margin growth.

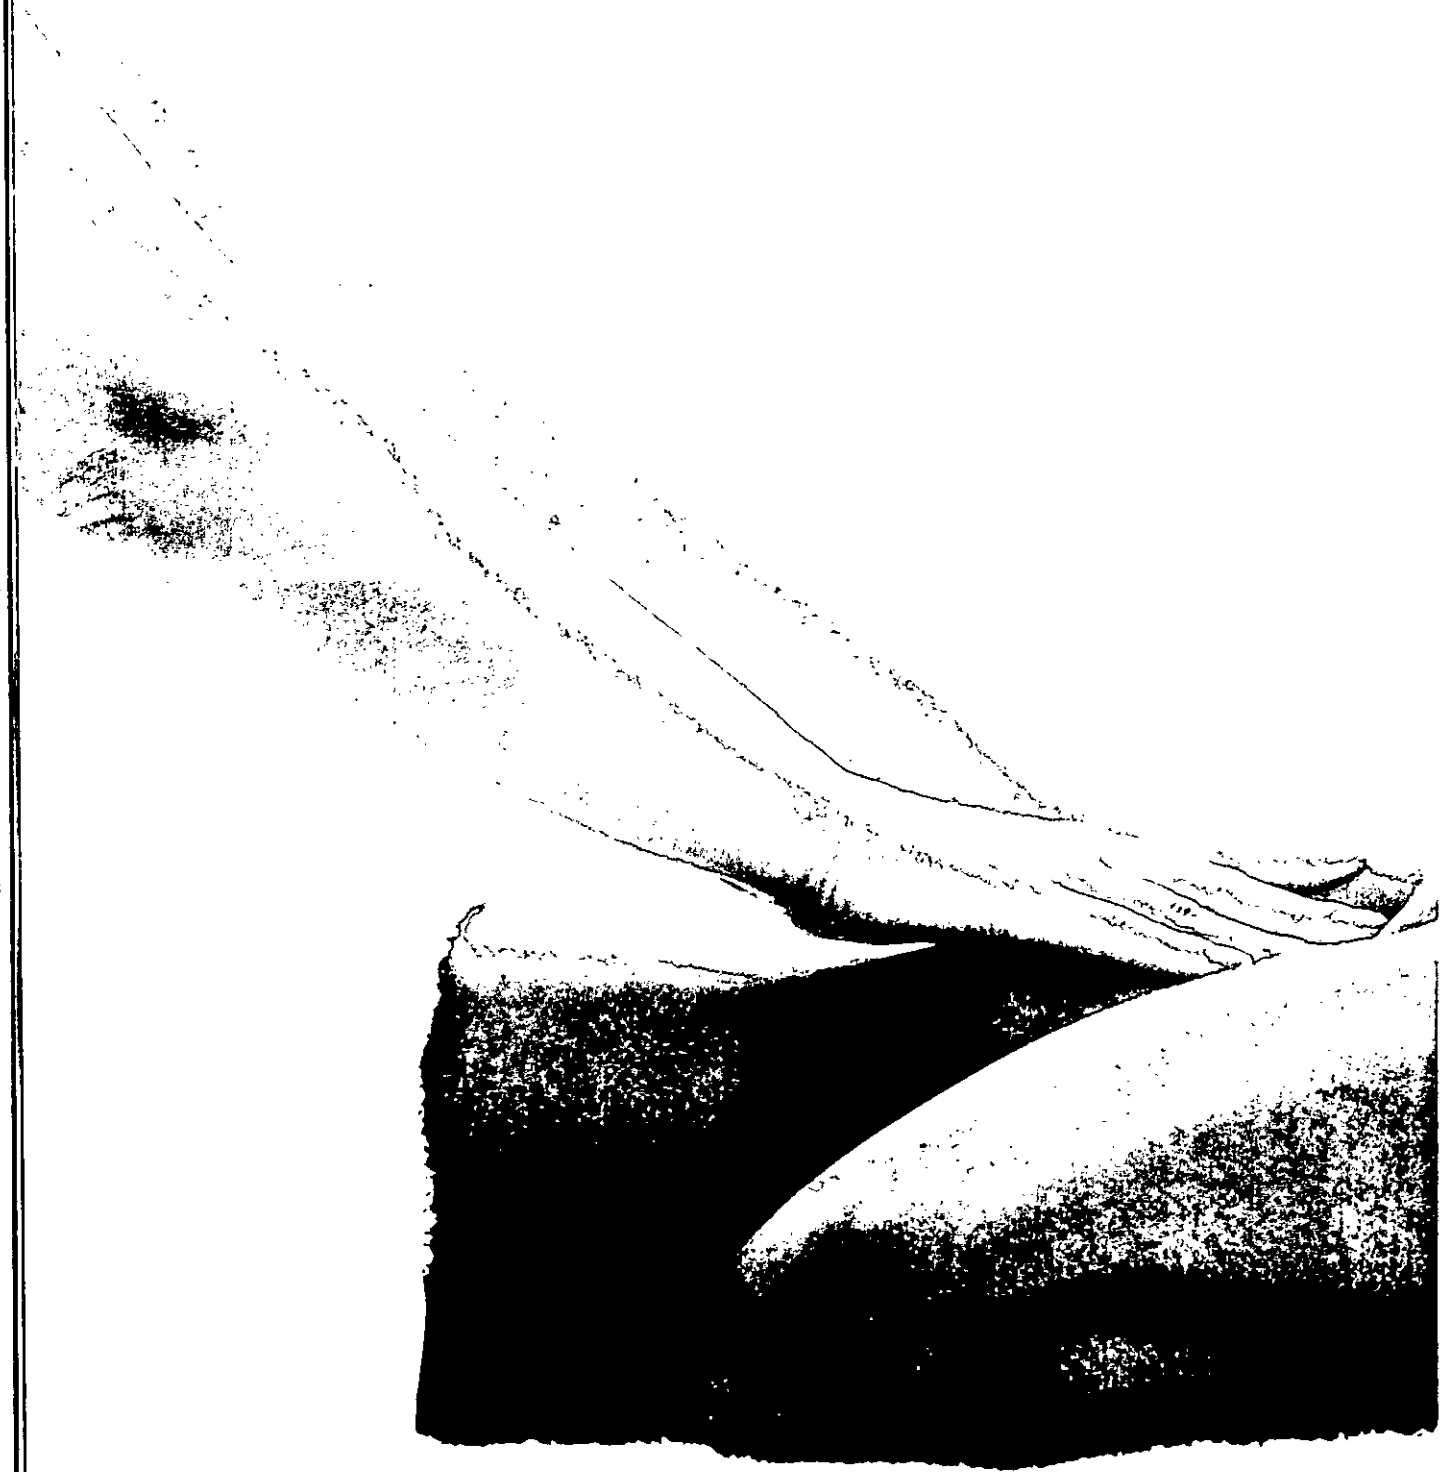
Our brands ....IBC

Making the right choice requires understanding of and belief in the value of that choice. It forces the imagination and often takes an extra mile of effort. That is part of achieving and how pioneers behave. The understanding and knowledge gained forms expertise, breaks new ground and keeps people interested in what you offer. It's what we do and it's how we've become a leading international leisure travel company.

Peter Long, Chief Executive

The following pages show various business choices that we've made recently. We see them developing into exciting opportunities and laying the foundation to even greater success for the Group in delivering shareholder value.

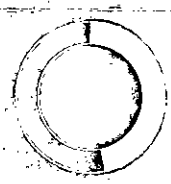
Re-defining long-haul /

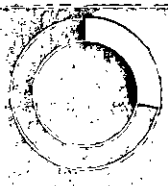


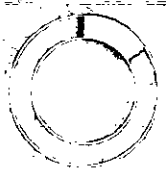
Serving North America's student market / This source market offers substantial growth opportunities for us in niche market segments. We chose to enter the student travel segment for this very reason and, through the expert knowledge and understanding that our North American team has of their marketplace, we are rapidly growing the business both organically and by acquisition.

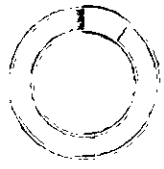
Conquering new ground / We have built a leading position in Activity Adventure. The Division's expert teams are constantly seeking new opportunities that will give our customers greater leisure travel experiences. The acquisition of Peregrine, with its two expedition ships, has given us a significant position in the increasingly popular Arctic and Antarctic adventure cruising market.

Consolidated profit and loss account / Balance sheets / Consolidated cash flow statement / Statement of total recognised gains and losses / Notes to the accounts / Five year historical record
Chairman's statement / Chief Executive's review / Operating and financial review









Relax in safe hands / No matter what sort of holiday we provide we constantly strive to make it a more enjoyable experience for our customers. If your idea of heaven is having a massage in an open air cabana listening to the sea, while the children are looked after with a whole range of activities on offer, then our exclusive Pegasos Palace and Tropical in Turkey is where to head.

A balanced business

The Group's four Sectors all offer different leisure travel experiences. The business model focuses on differentiation and flexibility across the Group. Our diverse product portfolio and international dimension give balance.

Highlights by business Sector

	% of operating profit		2005
Mainstream Holidays Efficient flexible business model, differentiated product and powerful one brand franchise	 47%	Operating profit Turnover % Group operating profit Growth year-on-year	£540m £1,232m 47% 11%
Specialist Holidays Destination and lifestyle led with a high degree of exclusive product and strong local brands offers exciting growth	 28%	Operating profit Turnover % Group operating profit Growth year-on-year	£324m £891m 28% 35%
Activity Holidays Market leading brands with high customer loyalty and a mix of asset intensive and asset light businesses operating in a rapidly growing market	 15%	Operating profit Turnover % Group operating profit Growth year-on-year	£181m £226m 15% 20%
Online Destination Services Online accommodation and other destination services to tour operators, travel agents and personal customers achieving strong top-line growth and market penetration	 10%	Operating profit Turnover % Group operating profit Growth year-on-year	£114m £230m 10% 2%

Geographical diversification by source markets 1999-2005

Mainstream controlled distribution* percentage 2001-2005

Activity Adventure Division passenger growth** 2001-2005

Continental European Specialist business passenger growth 2001-2005

* Summer season
** Annual carryings of businesses owned at 31 October

Against this backdrop, I am delighted, therefore, to report that the Group has achieved record profit before tax, goodwill amortisation and exceptional items of £114.0m (2004: £98.3m), up 16%. Earnings before interest and tax (EBIT) increased by 14% on like-for-like basis[1] with acquisitions made during the year contributing an increase of 2% and the annualisation of prior year acquisitions contributing a further 3%. The specialist businesses achieved turnover growth of 18% and operating profit growth of 23% – these businesses now represent 53% of Group profit. The Mainstream Holidays Sector also achieved excellent profit growth of 11%, driven particularly by the way in which we have remixed the business and gained greater control of distribution.

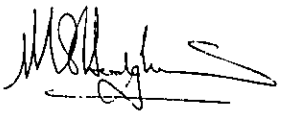
Basic earnings per share before goodwill amortisation was 13.6p (2004: 10.8p), an increase of 26% over the comparable period. Underlying[2] earnings per share increased by 22%, in – year acquisitions contributed 1% and the refinancing completed in July of this year contributed a further 3% increase.

The Board is recommending a final dividend of 4.65p per share (2004: 3.75p), up 24% on the comparable period. This increase reflects both the strong underlying growth in earnings and the earnings benefit of the balance sheet restructuring. The interim dividend was 1.95p per share (2004: 1.75p), giving a total dividend for the year of 6.6p per share. The full year dividend increase of 20% per share represents the third year of double-digit dividend growth and reflects our commitment to a progressive dividend policy and confidence about the future.

We continue to deliver strong growth from acquisitions. During the year we have made 12 acquisitions with a maximum aggregate consideration of £65m of which £53m has been paid

(2004: £41m of which £28m had been paid). These acquisitions have contributed £1.6m of operating profit before goodwill amortisation during the year representing 2% of the Group's year-on-year profit growth. Five of these acquisitions have been in the Activity Adventure Division of the Activity Holidays Sector and three in the Student Travel market in North America. We are still confident that there are many opportunities to continue to build significant positions in certain segments of the market that have strong growth characteristics.

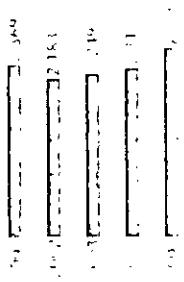
Today, we are announcing the significant acquisition of all the businesses of Grand Expeditions, Inc. for £54m and agreement to acquire INTRAV, Inc. for £37m.



IFRS
From 1 November 2005 First Choice has adopted International Financial Reporting Standards (IFRS). Opening net assets for the year ended 31 October 2005 will reduce by around £60m as a result of accounting changes primarily relating to the recognition of costs, pension deficits and the proposed final dividend. These changes were described in detail in a press release issued on 26 October 2005. We have also given an estimate of the profit and loss impact of accounting changes under IFRS in that release. In summary, profit before tax will increase by around £27m and profit before tax and amortisation will increase by £2-3m.

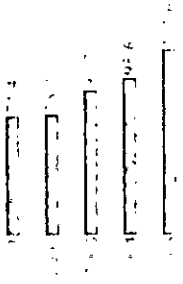
Board
During the year Terry Green and Richard Fain retired from the Board. Both were valuable members of the Board and I would like to record my thanks for the significant contribution they made as Board members. Jeremy Hicks and Susan Hooper have joined the Board replacing Terry and Richard and have already demonstrated that they will be supportive and challenging members of the team. I look forward to working with them in the forthcoming years. I am also delighted to announce the appointment of Giles Thorley as a Non-Executive Director. Giles is currently the Chief Executive of Punch Taverns plc and will join the Board on 1 February 2006.

Colleagues
As I have already mentioned, we have experienced a number of significant natural disasters and geo-political events during the year, including the Tsunami in December 2004 where, tragically, we lost three of our customers. Our first priority is to ensure that we account for all of our customers and colleagues and ensure that family and friends are made aware of their loved ones' circumstances. We then repatriate those who wish to curtail their holiday, before ensuring that customers who wish to defer their holiday or substitute elsewhere are able to do so. This takes a tremendous effort from many of my colleagues and I have been extremely pleased with the manner in which we have handled these matters. Furthermore, I have spent much time in the business this year, whether in resort, in our retail outlets or visiting our overseas offices and I have been consistently impressed by the passion that exists amongst my colleagues to ensure that the customer's holiday is a great experience. To them all I would like to express my thanks on behalf of the Board.



Environment & People Report
The Group is committed to sustainable development and three years ago we agreed a Group mission 'to enable people to explore and enjoy the world without harming it, based on a commitment to sustainable development.' We developed a Group sustainable development policy and have been working on implementing that policy. In October, we launched our first stand-alone web-based Environment & People Report (www.fcenvironmentandpeople.com). We are currently seeking feedback from interested groups both internally and externally and in the Spring will publish an update to the report which will include key future commitments.

Outlook
First Choice Holidays PLC has again achieved significant growth. The business model has great flexibility and this has been fully tested during this financial year. This, combined with the positions we have built and will continue to build, in specialist niche segments of the market, gives me confidence that we can continue to grow the Group.



Sir Michael Hodgkinson
Chairman
7 December 2005

1 Like-for-like growth excluding acquisitions and the amortisation of prior year acquisitions
2 Profit before exceptional items, acquisitions and the effect of redeeming the RCI preference shares

Group turnover

Operating profit

Dividends per ordinary share

During the year, the Group has continued to strengthen its position as a leading international leisure travel company by creating a platform for growth across all its Sectors, further differentiating the Mainstream Holidays Sector and developing the specialist Sectors. This is our third consecutive year of double-digit profit and earnings growth and we remain on track to achieve Group EBIT margins of 5% by 2007.

Growth

We operate a flexible business model across all the Sectors and have continued to re-invest the substantial cash generated by the Mainstream Holidays Sector into specialist businesses that have stronger growth characteristics. We believe that by offering our customers the sort of holiday experiences they want, we are building a leisure travel company of the future with many growth opportunities.

Growth across the Group is being achieved both organically and through acquisitions. Like-for-like, we have grown turnover by 7% and the acquisitions we have made across the specialist sectors have contributed a further 4%. Many of these acquisitions were in the Activity Adventure Division of the Activity Holidays Sector where, not only are we offering different experiences for our UK customers, but are increasingly adding international companies in this Division. We now have substantial operations from 17 source markets offering our customers leisure experiences to over 200 countries.

Acquisitions include MyPlanet (a Scandinavian premium, tailor-made operator of tours to Australia, New Zealand, the USA and Canada) and Peregrine (an Australian activity adventure business, offering a wide range of activity holidays including exploration trips to the Arctic and Antarctic).

The development of the Activity Adventure Division is a good example of our ability to use customer insight to build a significant position in a growth segment of the market. Since our first acquisition of Exodus in 2002 we have made a total of 12 further acquisitions in this market segment. In so doing, we have built a division that has generated almost £90m of revenue this year at 8% operating margins.

We are also building rapidly in the student travel segment in North America, where there are 64 million students. Our entry point to this market has been through the Spring Break segment with the acquisition of StudentCity.com in 2004. Subsequently, we have made three further acquisitions and have a strong pipeline of opportunities in what is a highly fragmented marketplace. These opportunities are not only in the Spring Break product segment but also in adjacent markets such as educational tours and high school graduation breaks.

Today, we have announced the acquisition of all the businesses of Grand Expeditions, Inc., a US based group of six companies specialising in premium leisure travel experiences for a consideration of £54m (US$95m). This acquisition consolidates our position in the global yacht charter market with the addition of the premium Moorings brand to our portfolio. In addition it provides us with a platform into the escorted tours market, which is another significant growth segment of the US market with a bias towards the over 50's. The Grand Expeditions group of businesses is headed by Hans Birkholz who will continue to run the business reporting directly to me.

The combination of organic and acquisition growth is, in our opinion, very powerful and over the last three years we have demonstrated annual double-digit profit growth.

Financial year	Like-for-like EBIT*	Acquisition EBIT*	Total EBIT*
2003	22%	2%	24%
2004	9%	2%	11%
2005	14%	5%	19%

* the percentages represent growth in profit before tax, goodwill amortisation, interest and exceptionals.

We have a strong platform for growth, an excellent track record and significant opportunities to continue to build our business.

Business model

This year, we have experienced a number of natural and geo-political events that have fully tested the robustness of our business model. In the industry in which we operate, events will invariably arise that are outside of the Group's control. It is our responsibility to ensure that we mitigate the impact that these events can have on the overall performance of the business and this is where flexibility, which is integral to our business model, is so important. That flexibility comes in the shape of capacity management and a portfolio of product offerings with no reliance on either a single source market or a particular destination. In addition, we have built significant flexibility into the way we contract with our suppliers, enabling us to react quickly to changes in demand. Furthermore we are constantly striving to challenge our cost base.

Controlling the distribution of our product, particularly our exclusive product, is of major importance to the business. We continue to develop all the routes to market that the Group's customers demand and are experiencing substantial growth in online sales. This is particularly evident in the Mainstream Holidays Sector, where transactions over the internet accounted for 25% of all Summer holiday sales and in the Online Destination Services Sector where we have achieved significant online growth for Hotelopia (our business to consumer brand), in its first full year. In certain areas of the Group, third party travel agent relationships continue to play an important role, particularly in the UK and Europe. We believe that building a strong relationship with these key partners remains integral to those businesses.

38%

The Mainstream Holidays Sector continued to grow its operating profit, which was up 11% to £54.0m (2004: £48.5m). Capacity, which was down year-on-year by 3%, has been and continues to be managed carefully, particularly in those areas that do not offer sufficiently profitable returns. Turnover was up 5% to £1,232m (2004: £1,174m). The move away from commoditised short-haul holidays and particularly the flight-only market has progressed well. Short-haul now represents 30% of inclusive tour revenues (2004: 32%). We continue to see increased demand from our customers for exclusive differentiated product across short, medium and long-haul destinations. Properties exclusive to First Choice customers now stand at 38% of revenues (2004: 33%) and we remain committed to achieving 50% exclusivity by 2008.

Product differentiation is a key value driver in this Sector. Summer 2005 saw the introduction to our fleet of the newly configured Boeing 767 long-haul aircraft. These aircraft have 54 fewer seats than a standard Boeing 767 and offer more legroom, wider seats and in-flight entertainment superior to any of our competitors in this marketplace, including the scheduled carriers. The response from customers has been extremely positive both in respect of improved comfort and service. It is not only the customers, however, who believe we are offering a superior service. At the recent Travel Trade Gazette Awards First Choice Airways was voted the best charter airline by travel agents. We now have three of the re-configured aircraft flying and in Summer 2006 will have one more in service. As a result of being able to offer our customers a superior in-flight experience we are increasing our range of destinations and have introduced the Bahamas and Brazil as new destinations for the Sector.

The expansion of our range of exclusive products, like Holiday Village, saw the opening of two new properties in Mallorca and Turkey, bringing the total number of First Choice Holiday Villages to five. The success of this differentiated product offering will see further development of the concept. We are continuously striving to improve the customer experience and the introduction of In2Action (high wires), Stage Coach (drama) and Wannaplay Tennis, have proved popular value added experiences for our customers. Within the exclusive portfolio, properties we classify as differentiated represent 13% (2004: 10%) of revenues. It is this type of product innovation driven by customer insight that is increasing earlier bookings. The rate of sale on a differentiated product such as the Holiday Village or long-haul flight experience continues to run at 2:1 compared with the generic 3☆ product.

The expansion of First Choice Premier which features 4☆ and 5☆ properties continues. For Summer 2006, we have introduced Premier Families and Premier Adults as a direct result of customer research and increased customer insight. Knowing what our customers want is crucial to the development of the business and these tools play an important part in the way we shape the Mainstream Holidays Sector.

Control of distribution is another key value driver in this Sector. We have to interact with customers in a way which meets their needs. In many cases this means multiple customer touch-points: online, via the telephone or in one of our retail stores. We have increased our control of Summer distribution by 11 percentage points to 56% (2004: 45%), with a financial benefit of around £2m for the business. It is our intention over the next few years to grow control of distribution to 75%. Whilst our retail chain continues to play a significant part in this key strategic initiative, we continue to adjust the portfolio to meet our needs. In 2005 we opened one store, closed seven where profit levels were not satisfactory and did not renew four concessions.

The focus during the current financial year will continue to be the move away from short-haul commoditised product to medium and long-haul destinations and differentiated exclusive product. In addition, capacity will be managed appropriately.

Cuba, a key destination for our Canadian customers.

Our Campus Representatives promote StudentCity breaks to college students.

Specialist Holidays Sector

The Specialist Holidays Sector operates from 14 source markets in Continental Europe, the UK and Canada and specialises in offering destination-led and lifestyle holidays. The product is highly differentiated and primarily exclusive to the Sector.

Operating profit increased by 35% to £32.1m (2004: £23.8m including StudentCity), in a year where the Sector's businesses were affected by the Tsunami, hurricanes and terrorist bombings. The ability to react quickly to sudden changes in demand and to adjust capacity accordingly, has been key. Turnover increased by 16% to £891m (2004: £770m).

In Continental Europe, revenue and profit growth were driven primarily by strong performances in France, Italy, Holland and the Nordic countries. In France, Marmara increased customer revenues by 20% and is the market-leader in the destinations to which it operates. The geo-political events in Egypt and Turkey resulted in cancellations and reduced bookings to the affected areas for our French, Italian and Spanish businesses, resulting in reduced margins for those destinations. However, improved margins to other destinations have offset this, leaving margins flat year-on-year at 4%.

Our position in Austria was enhanced by the acquisition in April of Delphin, an operator specialising in holidays to the Eastern Mediterranean and specifically Turkey. This business has been integrated with Nazar Austria and cost savings and efficiencies are being driven through the two businesses.

The UK Specialist Division has been impacted by the tragic events of 26 December 2004, particularly in Hayes & Jarvis. This has resulted in a reduction of turnover of 9% to £144m (2004: £159m). Despite this, strong performances by Sovereign, Meon and Citalia, which all operated on a single sales platform for the first time this year, means that margins have improved 70 basis points to 4.0% (2004: 3.3%) in this Division.

Our Canadian operation, Signature, has established a strong position in what is a highly competitive tour operating market. The Division specialises in three key destinations with over 90% of customers now travelling to Cuba, the Dominican Republic and Mexico. A strong performance in the year delivered an increase in operating profit of £2.3m to £3.9m on turnover growth of 16% to £193m (2004: £166m).

Over the past year, we have focused on building our online capabilities across the Sector and now the majority of our businesses have fully transactional websites. Direct bookings, however, represent only 10% (2004: 8%) of total holidays sold and resource will continue to be dedicated to this area. We believe that the concentrated and differentiated product ranges we offer combined with a high-value selling proposition will enable us to expand this route to market substantially over the next 12 months.

Student Travel

We acquired StudentCity.com in July 2004, recognising the strong growth characteristics in this market-place and the fragmented state of the North American student travel market-place. Since then we have acquired three further businesses. Spring Break Travel, which is located in the South Eastern USA, was acquired in February and is the dominant operator of student Spring Break cruise holidays to Grand Bahama Island. Boss Tours Ltd, which is Canada's leading leisure operator of student travel programmes, was acquired in August and just before the year-end we acquired Leisure Tours International, the leading US operator of Spring Break vacations to South Padre Island in Texas.

The business currently consists of six student brands offering counter-cyclical profits for the Group. During the period over 92% of the product was distributed direct to the consumer. Strong growth was achieved across all the businesses during their key Spring trading period.

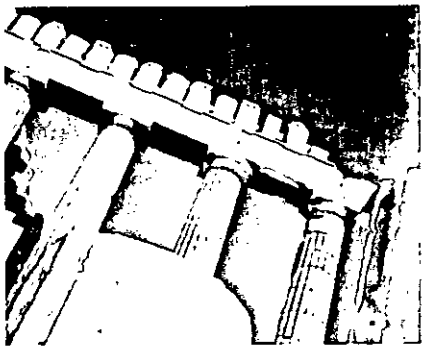
This business is included within the Specialist Holidays Sector results.

Total Sector revenue increased by 15% with underlying revenue growing 7% year-on-year (before the impact of in-year acquisitions and excluding Ski). The 5 adventure acquisitions made in the year contributed £33m to Sector revenues. Operating profit grew 20% to £18.1m (2004: £15.1m).

Following a strategic review of Sunsail, the decision was taken to reorganise into two distinct businesses – Sunsail Clubs & Flotillas and Sunsail Yacht Charter. The Sunsail Clubs & Flotillas business is focused on providing water sports club and yacht flotilla holidays in the Eastern Mediterranean and the Caribbean for a predominantly UK based market. Having analysed the market we have produced a separate flotilla yacht holiday brochure for customers who appreciate the conviviality and re-assurance of flotilla sailing. In the Sunsail Clubs the extensive upgrading of the clubs and the roll-out of added experiences, like mountain biking and health and fitness centres, resulted in a healthy increase in revenues. As a result of this, we will be opening a new club in Turkey in Summer 2006.

Sunsail Yacht Charter consists of a corporate sailing centre and sailing school, as well as catering for experienced sailors who wish to sail independently. Through focusing on improved utilisation and return on assets, the size of the fleet has been further reduced by 4% and the number of yacht types reduced by 40% year-on-year. At the corporate sailing school at Port Solent, Hampshire, we now have a racing fleet of 60 identical Jeanneau 37 yachts, which we believe is the largest single type racing fleet in the world.

The Inland Waterways brands have continued to focus on capacity management and asset utilisation to improve profitability, as well as developing more direct business and entering new source markets. Capacity has been reduced by 2% and asset utilisation has improved by 5% during the year.



We continue to refresh the quality of the fleet and have introduced two new boat types in 2005, with a third being introduced this year.

Within the Activity Holidays Sector we now have a Specialist Ski Division focused on a premium ski offering and a schools ski and Summer tours business. As part of the premium offering, Specialist Ski acquired the exclusive contract on the Hotel Fitzroy in Val Thorens for £1.8m. We now have three luxury mountain hotels for our customers' exclusive use in the Trois Vallées region of France and have launched the Luxury Mountain Hotels brand to market these hotels. This part of the ski business delivers a very high level of service in the best hotels in the Alps and represents the next step in the Specialist Ski Division's move away from high volume low margin business into higher margin niche segments. First Choice Ski was moved into the Mainstream Holidays Sector at the end of the Winter 2004/05 season.

The Activity Adventure Division experienced another strong trading year, both in like-for-like terms and from the new businesses. Like-for-like revenues increased by 21% and, including the revenues for the acquired businesses, the Division's total revenue growth amounted to over 100%. Operating profit for this Division continues to grow rapidly with like-for-like profit increasing by 62% and acquisitions contributing growth of 49%. Notably, this year saw us acquiring businesses outside the United Kingdom in France, Denmark and Australia. The Activity Adventure Division is now a global business and we believe it is the largest business of its type in terms of revenue and operating profit.

Online Destination Services Sector

We continue to leverage our destination expertise to increase the number of hotels and destinations we can offer our customers with new acquisitions in Greece ...

The Online Destination Services Sector (ODS) has achieved another year of excellent growth. Total revenues (Hotelbeds) and transaction values (Bedsonline and Hotelopia) have grown by 22% and 233% respectively. As we have previously indicated, the strategic intent has been to invest to grow this business rapidly this year and next and, therefore, the operating profit has remained broadly flat at £11.4m (2004: £11.2m).

The Sector has continued with its strategy of acquiring small bolt-on destination companies to increase its geographical spread, building the online capability and widening the offer to the Sector's customer base. During the year under review, acquisitions were made in Greece and Hawaii. The acquisition of Connoisseur Holidays Unlimited (SEM Corp) in Hawaii was our first move into this region. Connoisseur is a well established and respected destination services business with good relationships with both suppliers and agents. It is the number one non-Japanese destination management company in Hawaii and the Sector believes that there are substantial growth opportunities to be pursued by leveraging our current international suppliers and customers.

To this end, the Sector now has an extensive infrastructure of 61 offices in 14 countries. The destination offices' network is a key differentiator for the business, enabling ODS to have price and range leadership as well as providing superior customer service.

All three routes to market have enjoyed a successful year. Hotelbeds, the original business, provides accommodation, car hire, excursions and other destination services to over 1,800 tour operators. The key objective for this business is to migrate suppliers and customers online. Increasingly, Hotelbeds is providing travel services online at Hotelbeds.com with 20,000 hotels across 900 locations. A key imperative for this route to market is to deliver xml solutions to the top 300 tour operator accounts by the end of 2006; we are currently a third of the way through this project. Hotelbeds revenues totalled £210m (2004: £172m) for the year.

Launched in 2003, Bedsonline provides accommodation, car hire, excursions and other destination services to over 5,000 travel agents who are providing services to the independent traveller. Bedsonline is a high-growth business because it provides travel agents facing a rapidly changing competitive environment with an opportunity to meet the ever more demanding needs of the independent traveller and to reduce costs. It provides a low cost solution to the travel agent in return for a commission. In 2005 the total transaction values increased 109% to £67m (2004: £32m), on which Bedsonline generated revenue of £12m (2004: as restated £6m).

We have invested in the current year in building the Hotelopia business (our business-to-consumer brand) and it has enjoyed significant growth. Hotelopia significantly increased bednights sold to achieve transactions with a total value of £41m. It generated net revenues of £8m on these transactions. It is present in 42 destination countries and growth is both organic and through strategic partnerships with easyJet and BBVA, the large international Spanish bank. Having established the strategic partnership with BBVA earlier in the year, we are exploring a number of initiatives together which will utilise Hotelopia's content with BBVA's brand and customer base of some 35m. As an example, the Hotelopia credit card backed by BBVA was recently launched in the UK.

We will continue to leverage our destination expertise to increase the number of hotels and destinations we can offer our customers as well as delivering first class destination management capability. We anticipate that the continued investment in the marketing of the online brands will result in continuing flat margins but increased revenue growth.

...and Hawaii.

Island Cruises, our joint venture with Royal Caribbean Cruises Ltd. (RCCL), has continued its financial improvement and has seen a fourfold profit increase. The continued strength of the cruise sector, both in Brazil and in the UK, has further driven yields and occupancy remains very high. The result is particularly encouraging given the backdrop of upward cost pressures, in particular fuel. The business continues to be very successful at attracting first time cruisers through its more relaxed approach and, as the brand becomes more established, repeat business now accounts for 30% of bookings and guest satisfaction levels remain at an all time high.

In late October, we took delivery of our second ship, the Island Star, which has been leased from RCCL. By bringing a second ship into service we will leverage the brand's positive momentum and the buoyant marketplace whilst ensuring that we remain competitive in our Summer Mediterranean and Winter Brazilian markets.

We will continue to strive to offer our customers the choice of holiday experiences they want. Today's acquisition of Grand Expeditions takes the Group into new and exciting growth areas giving our customers even greater choice. Through the businesses in Grand Expeditions we further strengthen our position in the premium end of the market. Making the right choice, of not only the travel experiences we offer but the business model we operate, will provide superior returns to our shareholders and result in strong top-line revenue and bottom-line earnings for the foreseeable future.

The trading environment has not changed significantly since we issued a trading update on 26 October 2005.

In the Mainstream Holidays Sector revenues are up 4% for Winter 05/06 and 7% for Summer 06 with long-haul and exclusive products continuing to perform well. Margins are up on last year for both seasons and we have the same number of holidays to sell as last year as a result of capacity reductions we have taken so far – Winter -9% and Summer -2%.

In the Specialist Holidays Sector Winter revenues are up 1% year-on-year on bookings that are down 8%. The bookings are down as a result of weakness in the Egyptian market and the reluctance of customers to be in the areas affected by the

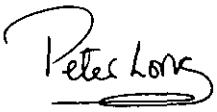
Notes:
These figures are up to and including the week ending 26 November 2005.
* these statistics reflect inclusive tour sales only from Great Britain.
** like-for-like cumulative growth Winter 05 +9%, Summer 06 +28%.



Tsunami in and around the anniversary of that event. Capacity are now being undertaken for the second half of Winter to ensure capacity matches demand. The Summer season is only just on sale in the UK source market and to date the volumes sold are negligible at less than 1% of the total expected Sector capacity for the season as a whole. This is in-line with last year. The North American businesses continue to perform well.

The Activity Holidays Sector continues to trade strongly for Winter with sales up 91% in total (excluding 2004/05 acquisitions are up 9%) and Summer sales up 39% (excluding 2004/05 acquisitions are up 14%). The Activity Adventure Division continues to perform very well with like-for-like sales up. Margins are ahead of last year.

The Online Destination Services Sector continues to see strong volumes and prices for the next financial year with all three routes to market.

The Group's business philosophy is not to chase volume at unprofitable margins. Instead we align capacity to match profitable demand. This philosophy, together with our combination of growth and flexibility, means that the Group has confidence as we continue to make progress towards our 5% operating margin target.

Despite a challenging market environment, our unique model means we are confident that the Group remains well placed for continued growth.

Peter Long
Chief Executive
7 December 2005

Group performance

Group profit (before tax, goodwill amortisation and exceptional items) of £114.0m was up 16% from £98.3m in 2004. Goodwill amortisation for the year was £24.9m (2004: £23.6m). Group turnover for the year increased by 11% (£261m) to £2,579m (2004: £2,318m). After excluding the effect of current year acquisitions, turnover increased by 9% to £2,516m.

The segmental split introduced last year has been used again to reflect, as closely as possible, the Sector based management structure in the business. The acquisitions in the student market in North America together with Europe Express, Inc. have, for the time being, been included within the Specialist Holidays Sector. Based on this split the operating profit is as follows:

- Mainstream Holidays Sector operating profit was £54.0m (2004: £48.5m), up 11% year-on-year. This was achieved on turnover of £1,232m (2004: £1,174m), up 5% as a result primarily of the shift in mix to long-haul holidays;

> Specialist Holidays Sector operating profit was £32.1m (2004: £23.8m), up 35% year-on-year. This was on turnover of £891m (2004: £770m), up 16%. The increase in profit was driven by continued growth in Europe (up 14%) and Canada (up 144%);

> Activity Holidays Sector operating profit was £18.1m (2004: £15.1m), up 20% year-on-year. This was achieved on turnover of £226m (2004: £196m), up 15%. The result was driven by strong performances by our Activity Adventure businesses and by a contribution of £1.3m from acquisitions made in the year;

> Online Destination Services Sector operating profit was £11.4m (2004: £11.2m), up 2% year-on-year. This result reflects strong underlying growth offset by further investment in Hotelopia;

- The Group's joint venture with Royal Caribbean Cruises Ltd was profitable for the second year with a result of £3.5m (2004: £0.8m). The Group's share of the profits amounted to £1.8m, compared to £0.4m in 2004.

Mainstream Holidays Sector

The Mainstream Holidays Sector consists of the UK and Ireland tour operating, retail and airline businesses. The Sector's strategy is to focus on the development of differentiated exclusive product to reduce exposure to the competitive flight-only and short-haul markets, whilst encouraging customers to book early. In addition, the Sector seeks continuously to improve the flexibility and operational efficiency of its business model, whilst increasing the level of control it has over the distribution of its product.

Total Mainstream Holidays turnover was up 5% to £1,232m (2004: £1,174m). This was despite a planned capacity reduction of 3% (Winter 04/05 down 6%, Summer 05 down 1%). Within the turnover growth, inclusive tour holidays were up 8% whilst flight-only and other revenues were down 5%.

The key driver of revenue growth was a continuing shift towards higher-priced medium and long-haul holidays but also partly due to the collection of fuel supplements as the industry-wide mechanism to recover higher fuel costs.

The reduction in volumes to short-haul destinations, -14% year-on-year, reflects the continued drive to reduce exposure to commodity product such as flight-only sales and generic 3☆ properties. Short-haul revenues including flight-only now represent just over 30% of total revenues, compared to over 33% in 2004.

Mainstream Holidays Sector

Total	+5%		
Operating profit (£m)	54.0	48.5	+11%
Operating margin %	4.4%	4.1%	+0.3 ppts
Controlled distribution % (Summer)	56%	45%	+11 ppts

* all figures are based on inclusive tour and flight-only, whereas the trading updates simply focus on inclusive tour from Great Britain.

Control of distribution for Summer has increased by 11 percentage points to 56% from 45%. This is split across the various routes to market as follows:

	2005	2004
Retail	25%	23%
Online	25%	15%
Call centre	6%	7%
Total controlled	56%	45%

Since we launched our online site, www.firstchoice.co.uk, three years ago the percentage of sales which have been distributed through this channel has grown substantially every year.

Whilst this rate of growth will clearly slow, we are confident that we will achieve our target of 75% of sales through controlled channels by 2008. To achieve this there will be some incremental revenue expenditure (circa £2-3m) and

capital expenditure (circa £5m) in 2006 to ensure that the website is sufficiently flexible to meet customer requirements and able to handle ever increasing traffic.

Our retail stores continue to play a vital role in the distribution of First Choice products and have again increased the percentage of First Choice holidays sold through this channel. Whilst this in itself does not improve the economics of distribution, it does provide an opportunity to up-sell other products (such as excursions, transfers and foreign exchange) as well as establishing a direct relationship with the customer.

During the year First Choice Airways, the Group's in-house airline, operated with a fleet of 32 aircraft. The size of the fleet will remain broadly similar for the year ahead. Our enhanced long-haul Boeing 767 offering has performed exceptionally well in 2005 with three such aircraft operated in Summer 2005. We anticipate re-mixing our fleet in 2006 to include another three Boeing 767's and there remain eight aircraft based on low lease rate structures.

The Specialist Holidays Sector consists of the European, UK and Canadian specialist businesses.

The Sector increased turnover by 16% over the comparable period to £891m in the year. Passenger volumes increased by 18% to 2.1m and operating profit increased 35% to £32.1m. The operating margin of 3.6% improved by 50 basis points from 3.1% in the comparable period.

In the Continental European Specialist businesses there was strong revenue and profit growth at flat operating margins. Revenues grew 17% to £521m (2004: £445m), whilst profit increased £2.8m to £20.6m (2004: £17.8m). There were again strong performances in France, Italy and Holland and our Nordic business, launched in 2004, doubled the size of its programme and became profitable in its first full year of operation. The flexibility of the business models in Continental Europe resulted in impressive performances despite the terrorist bombings in Turkey and Egypt and the additional costs we incurred as a result.

The UK Specialist business concluded a significant period of change with the back office restructuring of Citalia to complement the similar restructurings in Sovereign and Hayes & Jarvis in 2004. The UK businesses now operate under one management team and are focusing on increasing control of distribution through direct and online routes to market with Meon Villas already a direct-only operator. In the year, 45% of volumes went through controlled routes to market, which include First Choice Retail. These changes will allow the UK businesses to benefit from a reduced overhead base and should result in improved gross margins as we move forward.

Revenues in the UK business were down 9% at £144m (2004: £159m), on flat passenger numbers. Primarily this was as a result of discounting product in South East Asia following the Tsunami and repositioning the villas business. Operating margins were up 70 basis points to 4% (2004: 3.3%).

Operating margin	3.6%	3.1%	+0.5ppts

Our Canadian Specialist business improved profitability in the year, with a profit of £3.9m (2004: £1.6m). This was achieved on the back of volume increases of 13% which resulted in revenues increasing by 16% to £193m (2004: £166m). The operating margin increased by 1 percentage point to 2.0%.

A significant element of the improved trading of our Canadian business arises from our relationship with Skyservice, our main aviation partner. The relationship gives the business increased flexibility and control over its aviation planning which helps drive cost savings. In addition, the continual focus on the operational efficiency of back office functions and the ability to share product expertise with the Mainstream business also contributes to improving profitability.

In 2004 we acquired StudentCity.com, a North American student travel operator. During 2005, we have built our position in this fragmented marketplace with the acquisitions of Boss Tours, a leading Canadian operator of Spring Breaks and educational tours and Spring Break Travel, a North Carolina based operator. We anticipate further expansion into the North American student market where we are attracted to the counter-cyclical profitability, strong margins and excellent growth potential.

Activity Holidays Sector revenues were up 15% year-on-year, driven particularly by acquisitions. The focus in the Marine Division has continued to be to improve utilisation of the yacht and boat fleets as well as improving occupancy in Sunsail Clubs. These actions, combined with strong volume-driven growth in our Activity Adventure businesses, where

turnover was up on a like-for-like basis by 21% and 108% in total, resulted in a 20% increase in operating profit to £18.1m (2004: £15.1m).

First Choice Marine
Further planned reductions in capacity in First Choice Marine combined with a strong focus on club occupancy and yacht and boat utilisation resulted in revenue decreasing to £90m compared to £93m in 2004. This Division is capital intensive and, once again, the focus in the year was to drive an improved return on the invested capital in the business. This was successfully achieved with a three percentage point increase in yacht utilisation and a 10 percentage point increase in club occupancy. Operating margins moved ahead 40 basis points to 11.7% (2004: 11.3%).

Ski
Similar to the strategy of our Mainstream Holidays Sector, we are aiming to reduce our exposure to mid-market, generic product in short-haul destinations to reduce volatility in the business. As a result, for the second year running, we reduced capacity significantly in our adult ski business. Going forward we will focus on our Schools business and the higher margin FlexiSki and Luxury Mountain Hotels brands. Our acquisition of the exclusive rights to operate the Hotel Fitzroy in Val Thorens in 2005 will enable us to expand our recently launched Luxury Mountain Hotels offering. We incurred some restructuring cost after the Winter season finished which will allow the business to move operating margins forward in 2005/06.

Activity Adventure Division
The Activity Adventure Division reported another strong year of growth. The businesses in this Division are low in capital intensity and are characterised by a flexible business model. Operating profit increased by £3.5m to £6.7m. Like-for-like turnover increased by 21% and acquisitions contributed a further £39m of revenue growth (with in-year acquisitions contributing £33m). Active focus on optimising the number of customers on any given trip was key to the achievement of this success. Our strategy of bolting on acquisitions in this Division was accelerated in 2005 and five new businesses were added to the portfolio giving the Group real scale in this rapidly growing market. We anticipate continuing our strategy of adding businesses to this Division for the foreseeable future.

Online Destination Services Sector
Our Online Destination Services Sector provides strong growth opportunities for the Group. During the year total revenues including prior year acquisitions have grown to £230m, an increase of 29%. Profitability for the Sector as a whole increased from £11.2m to £11.4m. Net operating margin was down by one percentage point as a result of the expansion of the lower margin business to consumer Hotelopia brand.

Based on a destination based infrastructure, the business has had a successful year in all three routes to market. Our Hotelbeds business, which services tour operators, has increased the bednights sold in the year by 77% to 5.6m. Bedsonline is a 'business to business' operator servicing the travel agents market and has grown by 102% in terms of bednights sold. Finally Hotelopia, our 'business to consumer' accommodation business, has established strategic partnerships with easyJet and BBVA which have contributed significantly to growing the brand.

Island Cruises
Our joint venture with Royal Caribbean Cruises Ltd, (RCCL) achieved its second year of profitability in 2004/05. First Choice's share of this profit was £1.8m compared to £0.4m in 2003/04.

This business again operated from Brazil in the Winter and Palma in the Summer. Improved passenger load factors and yields resulted in an improvement in Winter trading performance with First Choice's share of the Winter losses reducing from £1.3m to £1.0m. In Summer 2005, continued improvements in distribution resulted in earlier sales at high yields and a 65% improvement in Summer profitability. For 2005/06, the Island Escape will return to Brazil and Palma, building on the ship's strong reputation and high customer satisfaction levels. In addition, a second ship, the Island Star, which has been leased from RCCL, will operate for the first time out of Brazil in the Winter and the Mediterranean in the Summer. We estimate that the start-up costs for the second ship, which will be incurred during the Winter, will be offset by profits generated in the Summer.

Efficiencies arising from leveraging the overhead across two ships will help drive the profitability of this business.

The Group profit before tax, goodwill amortisation and exceptional items for the year was £114.0m (2004: £98.3m). The tax charge on recurring profits of £33.1m (2004: £28.4m) represents an effective tax rate of 29% (2004: 29%).

Based on the current structure of the business, existing local taxation rates and legislation, it is expected that the underlying tax rate on ongoing activities (before goodwill amortisation) will remain at a level of around 29% going forward. For a number of years, the corporation tax cash outflows have benefited from accelerated capital allowances. This benefit has unwound and consequently the tax cash outflows have returned to levels more consistent with the tax charge.

Basic earnings per ordinary share before goodwill amortisation and exceptional items was 13.6p (2004: 10.8p), an increase of 26%. This includes the positive earnings impact of 3% as a result of the redemption of the convertible preference shares.

The Board recommends a final dividend per ordinary share of 4.65p (2004: 3.75p), an increase of 24%, making a total dividend for the year of 6.6p (2004: 5.5p), an increase of 20%. Going forward the Group will look to maintain the dividend cover (at the profit after tax and preference dividends but before goodwill amortisation and exceptional items level) at approximately two times. The dividend will be paid on 6 April 2006 to all shareholders on the register as at 3 March 2006. The Company intends to continue to operate a dividend re-investment plan as an alternative to the full cash dividend.

For the last three years First Choice has been re-investing its free cash flow in small to medium sized bolt-on acquisitions. This programme has been accelerated in 2004/05 with 12 businesses being acquired for an expected total consideration of £65.5m.

Date	Business acquired	Maximum consideration	Consideration paid in 2005
February 2005	Spring Break Travel	£3.2m	£1.7m
April 2005	Delphin	£3.1m	£0.7m
May 2005	Groupe Aventuria	£7.4m	£7.4m
June 2005	MyPlanet	£7.2m	£7.2m
July 2005	Peregrine Adventures	£19.1m	£19.1m
July 2005	Europe Express	£12.3m	£9.1m
August 2005	Boss Tours	£3.6m	£2.8m
September 2005	Imaginative Traveller	£6.6m	£3.5m
October 2005	SEM Corp	£1.3m	£1.0m
Various	Other	£1.7m	£0.9m
Total		**£65.5m**	**£53.4m**

Acquisitions in the year are shown in the table above. Of the maximum consideration, £53.4m was paid during the year. A further £1.6m was paid as deferred consideration on prior year acquisitions. In addition, £1.8m of acquisition expenses were incurred bringing the total expected consideration to £67.3m. By way of comparison, in the year ended 31 October 2004, we made acquisitions with a maximum aggregate consideration of £40.9m of which £28.3m was paid during the year.

	2005		2004	
£'m	Max	Paid	Max	Paid
In-year	65.5	53.4	40.9	28.3
Deferred	–	1.6	–	4.3
Expenses	1.8	1.8	0.9	0.9
Total	67.3	56.8	41.8	33.5

The net assets of all the subsidiaries acquired during the year have been consolidated in the Group's balance sheet at 31 October 2005. The Group's consolidated profit and loss account reflects turnover of £63m and operating profit before goodwill amortisation of £1.6m from the results of the acquired companies since acquisition. Certain of these acquisitions incur losses in the Summer, which reduces the overall profit contribution of these businesses in the year of acquisition.

Throughout the year there has continued to be a strong focus on cash management with an emphasis on working capital management. Careful cash management is now an established feature across all of our businesses, with a clear understanding of the importance of conversion of operating profits to cash. The net cash position (cash and liquid investments less loans, overdrafts and finance leases) at the year-end was £18.1m (2004: £220.7m). This consisted of £105.4m of cash and £87.3m of debt. Based on the average cash balance during the year the gearing level would have been 23%. Fixed charges cover which we believe to be the most useful measure of liquidity was 2.3 times at the year end (2004: 2.1 times). On this basis we are satisfied with the level of gearing and believe there is capacity within the balance sheet to increase this further if required.

During the year the Group renegotiated the terms of a £310m revolving credit facility, which we had entered into with our banking group in March 2004. The original facility had a four-year term. Reflecting the improving financial strength of the Company, the banking group agreed to revised financial covenants which provide more flexibility for the business to grow, better rates and a one year extension. Furthermore in July 2005 the banking group agreed to an additional revolving creditfacility of £240m on the same revised terms as the original facility.

During the year the Company redeemed the 6.75% convertible cumulative preference shares held at par for £199.5m. The redemption was funded by a combination of cash resources and the expansion of its existing bank facilities referred to above. The Group benefits from an interest rate on its expanded bank facilities that is lower than the fixed 6.75% dividend on the preference shares and from tax deductibility of the interest charge.

Shareholders' funds

Shareholders' funds have decreased in the year to £302.3m (2004: £487.1m) largely as a result of the redemption of the convertible cumulative preference shares referred to opposite.

There was a retained profit for the year of £11.2m (2004: £3.7m) and the Group issued no ordinary shares (2004: nil) in respect of acquisitions.

Regulations, bonding and banking

The Civil Aviation Authority, the Federation of Tour Operators and the Association of British Travel Agents regulate the businesses based in the UK. Each of these bodies protects the rights of consumers by requiring the Group to lodge security bonds with them.

Where the international businesses are regulated, this is achieved either by means of cash collateral or bond cover similar to the UK requirements.

Treasury policies

The Group faces significant financial risks mainly due to the substantial cross-border element of its trading. Currency exchange risk, which arises because of the mismatch between the Group's revenue streams and foreign currency operating costs, is managed by the use of foreign exchange forward, swap and option contracts. Interest rate risk is split into two separate exposures, namely US dollar interest rates on variable rate aircraft leases and loans and sterling rates on Group cash balances. Both exposures are managed using interest rate derivatives. Finally, the Group's exposure to jet fuel prices is managed using energy swaps and options.

During the year the governance of financial risk was further formalised by the creation of the Financial Risk Management Committee. The Committee is a formal committee of the Board and is made up of the relevant senior business employees and technical experts. Incorporated within the terms of reference is the determination of all treasury policies and the monitoring of the effectiveness of those policies.

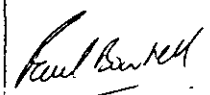
Group Treasury implements the agreed policies on a day-to-day basis. The procedures also stipulate the levels of authority applied to dealing and to approving the types of financial instrument, used to manage these exposures. Transactions are only undertaken to hedge underlying exposures. Financial instruments are not traded, nor are speculative positions taken. Regular reports are provided to the Board.

International Financial Reporting Standards (IFRS)

European and UK legislation requires the Group to adopt IFRS for the financial year ending 31 October 2006. The interim financial statements at 30 April 2006 and the full statements for the year ending 31 October 2006 will be prepared using the measurement and recognition principles of IFRS (as adopted for use in the EU) as opposed to UK Generally Accepted Accounting Practice (UK GAAP).

The Group believes it is well placed in the transition process. The IFRS convergence project continues in-line with the project plan. An announcement detailing the impacts of the adoption of IFRS was made on 26 October 2005. This announcement, including the opening IFRS Group balance sheet at 1 November 2004 and the accounting policies used in its preparation, can be found on the First Choice Holidays PLC website www.firstchoiceholidaysplc.com.

At the date of transition to IFRS, the Group calculated that net assets would be reduced by circa £60m. The most significant changes to balance sheet values were:



> an increase in net assets of £19.4m as the 2004 final dividend had not been approved at the date of transition, 1 November 2004 and, therefore, could not be included in the balance sheet as a creditor at that date;

> a reduction of net assets by £21.0m for bringing the deficit (net of deferred taxation) on defined benefit pension schemes onto the balance sheet;

> a reduction in net assets of £63.0m in respect of the timing of recognition of costs associated with the provision of holidays (including brochure costs). These costs were recognised under UK GAAP when the associated revenue was accounted for, but must be expensed as incurred under IFRS; and

> an increase in net assets of £15.8m due to the implementation of IAS 12, 'Income Taxes' and the tax effect of adjustments to the balance sheet.

Other significant changes affecting the financial statements after 1 November 2004 will include accounting for business combinations in-line with IFRS 3 and accounting for financial instruments in-line with IAS 32/39 with effect from 1 November 2005. Further details on these will be given in February 2006 when the Group will issue financial statements for the six months to 30 April 2005 and the year to 31 October 2005 as re-stated under IFRS.

Paul Bowtell
Group Finance Director
7 December 2005

1. Accounting policies

Basis of preparation
The following accounting policies have been consistently applied in dealing with items considered material in relation to the accounts, other than the change in accounting policy in relation to turnover for Online Destination Services.

The comparative figures for turnover and cost of sales have both been reduced by £32.1m to reflect more accurately the contractual basis of the activity in the Online Destination Services Sector.

Accounting convention
The accounts have been prepared in accordance with applicable accounting standards and under the historical cost convention as modified by the revaluation of certain fixed assets, and on the going concern basis.

Basis of consolidation
The Group accounts consolidate the accounts of First Choice Holidays PLC and its subsidiary undertakings together with the Group's share of net assets and results of its joint venture and associated undertakings. These accounts are made up to 31 October 2005.

The acquisition method of accounting has been adopted. Under this method, the results of subsidiary undertakings acquired during the year are included in the profit and loss account from the effective date of acquisition.

The Company has taken advantage of the exemption under Section 230 of the Companies Act 1985 from presenting its own profit and loss account.

Associated undertakings and joint ventures
An associated undertaking is one in which the Group has a long-term investment and exercises significant influence over the Company in which the investment is made. The Group's share of the results and net assets of its associated undertakings are included in the consolidated profit and loss account and balance sheet under the equity method of accounting.

A joint venture is an undertaking in which the Group has a long-term interest and over which it exercises joint control. The Group's share of the profits less losses of joint ventures is included in the consolidated profit and loss account and its interest in their net assets, and the Group's related other goodwill, is included in investments in the consolidated balance sheet. The joint venture undertaking has been accounted for using the gross equity method in the Group balance sheet.

Goodwill
Purchased goodwill (representing the excess of the fair value of the consideration and associated costs given over the fair values of the separable net assets acquired) arising on consolidation in respect of acquisitions since 1 November 1998 is capitalised. Positive goodwill is amortised to nil by equal instalments over its estimated useful life, normally and in no case more than 20 years. On the subsequent disposal or termination of a business acquired since 1 November 1998, the profit or loss on disposal or termination is calculated after charging the unamortised amount of any related goodwill.

Goodwill arising on consolidation prior to the adoption, on 1 November 1998, of FRS 10: Goodwill and Intangible Assets, has been charged directly to reserves. The goodwill, which has been taken directly to reserves, will be charged to the profit and loss account on disposal of the related business.

Fair value accounting adjustments are made in respect of acquisitions and these may be made on provisional estimates. Amendments may be made to those adjustments in the subsequent accounting period with a corresponding adjustment to goodwill.

Foreign currencies
Transactions in overseas currencies are translated at the exchange rate ruling at the date of the transaction or, where forward cover has been arranged, at the contractual rate. Monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rates ruling at the balance sheet date or at a contractual rate if applicable and any exchange differences arising are taken to the profit and loss account in the season to which the contract relates.

The results of overseas subsidiaries are translated at weighted average exchange rates for the year and exchange differences arising on consolidation of the net investment in overseas subsidiaries are dealt with through reserves.

Financial instruments
The following financial instruments may be utilised by the Group: foreign exchange forward contracts and swaps, foreign exchange options, interest rate swaps, forward rate agreements, interest rate options, energy swaps and energy options. The instruments are used to manage Group exposures to fluctuations in foreign currency exchange rates, interest rates and fuel prices.

Financial instruments are contracted for hedging purposes only. The Group does not trade any financial instruments and does not enter into speculative transactions. Interest rate derivatives are used to manage interest rate risk. Amounts payable and receivable in respect of these derivatives are recognised as adjustments to interest income or payable over the period of the contracts.

Gains and losses on foreign currency hedges are recognised on the maturity of the underlying exposure. Gains or losses arising on hedging instruments, which are cancelled due to the termination of underlying exposure, are taken to the profit and loss account immediately.

Turnover
Turnover represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business. Revenue in respect of in house product is recognised on the date of departure and the related costs of distribution and of providing the holidays and flights are charged to the profit and loss account on the same basis. Travel agency commissions and other revenues received from the sale of third party product, together with related costs, are recognised when they are earned on receipt of final payment. Turnover excludes intra-group transactions and is stated after deduction of trade discounts and commissions.

Client money received in advance
Client money received at the balance sheet date relating to holidays commencing and flights departing after the year end is included in creditors.

Marketing costs
Brochure and other marketing costs are charged to the profit and loss account in the season to which they relate.

Operating leases
Rentals payable and receivable under operating leases are charged or credited to the profit and loss account on a straight-line basis over the period of the lease or on another systematic basis, if this is more representative of the time pattern of the benefit from the use of the leased asset.

Finance leases and hire purchase contracts
Assets arising under finance leases and hire purchase contracts are capitalised and a corresponding liability recorded in creditors representing the present value of the minimum lease payments. Where an option price exists, and the Group intends at inception to exercise the option, the corresponding liability includes the option purchase price as a lease payment and the option exercise date is taken as the most beneficial to the Group. Payments are treated as consisting of capital and interest elements with the interest being charged to the profit and loss account in proportion to the outstanding obligations.

Tangible fixed assets and depreciation
Tangible fixed assets are depreciated on a straight-line basis, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset over its expected useful economic life.

The years used are as follows:

Freehold properties	50 years
Short leasehold properties	Lease period
Finance lease aircraft and equipment	Lease period
Aircraft spares and equipment	12 years period to next overhaul
Yachts	15 years
Motor boats	25 years
Retail computer equipment	5 years
Computer equipment	3-5 years
Retail fixtures and fittings	8 years
Other assets	4 years

Since adopting FRS 15: Tangible Fixed Assets, newly acquired assets are carried at cost with other assets held at their previously revalued amounts.

Aircraft maintenance costs
Provision is made in respect of maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares based on the total anticipated costs over the useful economic life of the assets calculated by reference to costs experienced and published manufacturers' data. The charge to the profit and loss account is calculated by reference to the number of hours flown or by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised on initial recognition and depreciated over the period until the next scheduled major overhaul.

Deferred taxation
Except as otherwise required by accounting standards, full provision without discounting is made for all timing differences, which have arisen but not reversed at the balance sheet date. Timing differences arise when items of income and expenditure are included in tax computations in periods different from their inclusion in the accounts.

Pensions
The Group operates defined benefit and defined contribution schemes. Pension liabilities are funded by monthly or annual contributions. Under the defined benefit schemes, pension liabilities are charged to the profit and loss account so as to spread the long-term cost of pensions over the service lives of employees. Variations from regular cost are spread over the average remaining service lives of current employees. Defined contribution scheme pension liabilities are charged to the profit and loss account as they fall due.

FRS 17: Retirement Benefits will require a market rather than actuarial valuation of defined benefit schemes. This will result in a greater volatility of the pension scheme surplus or deficit as the market valuation will be taken at each balance sheet date and be reflective of a particular point in time. At 31 October 2005, the Group has adopted the transitional disclosure requirements of FRS 17.

Geographical analysis of business

Turnover determined by the location of customers is not materially different from turnover determined by location of business. Europe is defined as Continental Europe and Eire, whilst North America refers to Canada and the United States. First Choice is an integrated leisure travel business encompassing tour operating, distribution capacity, airline operations and ground handling services. Accordingly we consider that we operate under one class of business which we have defined as "Leisure Travel".

The exceptional item in the prior year of £0.2m arose in Europe.

Analysis of goodwill amortisation and net assets		Goodwill amortisation 2005 £m	Goodwill amortisation 2004 £m	Net assets 2005 £m	Net assets 2004 £m

5. Employees

Staff numbers	2005 Total	2004 Total
Average number of employees	14,551	13,915

Staff costs	2005 Total	2004 Total
Wages and salaries	252.2	237.0
Social security costs	30.2	28.0
Pension costs	12.7	12.4
	295.1	277.4

Details of the emoluments of Directors (including details of share options, long-term incentive scheme interests and pension entitlements) are set out in the Report of the Board to Shareholders on Directors' Remuneration on pages 63 to 70.

Consistent with the disclosure in note 2 "Segmental information" we consider the Group to have one integrated business of "Leisure Travel". Accordingly, we have disclosed the average number of employees under this single business.

Pension costs
The Group operates pension schemes for employees eligible and wishing to participate in the schemes. The assets of all the schemes are held separately from the assets of the Group.

Funded defined contribution schemes for employees and Directors (Group schemes)
Pension costs of £8.9m (2004: £7.8m) relating to defined contribution schemes were charged to the profit and loss account.

Funded defined benefit schemes
The Group sponsors three defined benefit schemes, the Air 2000 Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme and the Emerald Star Line scheme. Actuarial valuations of the three schemes were carried out at 1 November 2003 (Air 2000), 1 November 2003 (Unijet), and 1 July 2002 (Emerald Star Line). The valuations revealed Minimum Funding Requirement ratios of 79% and 81% respectively for the Air 2000 and Unijet schemes, calculated in accordance with the provisions of the Pension Act 1995.

All three defined benefit schemes are closed to new entrants and under the projected unit method, the service cost as a percentage of pensionable payroll will increase as the members of the scheme approach retirement.

Valuations of the schemes are made by qualified actuaries using market based valuations for the assets and attained age method for the liabilities.

5. **Employees** continued

Air 2000 scheme

The principal valuation assumptions used were the rates of investment return of 7.25% per annum compound (pre-retirement) and 5.5% per annum compound (post-retirement) and a rate of salary increase of 4.75% per annum compound. The market value of the scheme's assets at the date of the last actuarial valuation was £18.5m, representing 59% of the benefits that had accrued to members after allowing for expected future increases in earnings. The total pension charge for the year was £2.2m (2004: £2.3m). The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contributions from 1 June 2004 onwards are 34.2% of contribution salaries for Flight Deck staff and 30.1% for Ground and Administrative staff. From 1 June 2004 to 31 March 2005 Flight Deck staff have a contribution rate of 7%, from 1 April 2005 to 31 December 2005 8% and from 1 January 2006 onwards 10%. From 1 June 2004 to 31 March 2005 Ground and Administrative staff have a contribution rate of 5%, from 1 April 2005 to 31 March 2006 6% and from 1 April 2006 onwards 7%.

In addition special employer contributions have been paid on 1 April 2005 and 1 September 2005 of £1.8m and £2.9m respectively. Further special employer contributions are payable as follows: £3.5m no later than 1 June 2006, £3.4m no later than 1 June 2007 and £0.85m each no later than 1 June 2008, 2009 and 2010 respectively.

The next triennial valuation will be due no later than 1 November 2006 and will be reflected in the accounts for the year ending 31 October 2007.

Unijet scheme

The principal valuation assumptions used were the rates of investment return of 7.25% per annum compound (pre-retirement) and [illegible]% per annum compound (post-retirement) and a rate of salary increase of 4.75% per annum compound. The market value of the scheme's assets at the date of the last actuarial valuation was £12.3m, representing 61% of the benefits that had accrued to members after allowing for expected future increases in earnings. The total pension cost for the year was £1.6m (2004: £1.6m). The signed Schedule of Contributions dated 31 August 2005 stated that the Group's contribution rate from 1 November 2004 to 31 August 2005 is 16.4% of pensionable salaries and from 1 September 2005 onwards 32.1%. From 1 November 2004 to 31 March 2005 employees have a contribution rate of 7%, from 1 April 2005 to 31 December 2005 8% and from 1 January 2006 onwards 10%.

In addition special employer contributions have been paid on 1 April 2005 and 1 September 2005 of £0.74m and £2.0m respectively. Further special employer contributions are payable as follows: £2.45m no later than each of 1 June 2006 and 1 June 2007 respectively, and £1.15m each no later than 1 June 2008, 2009 and 2010 respectively.

The next triennial valuation will be due no later than 1 November 2006 and will be reflected in the accounts for the year ending 31 October 2007.

Emerald Star Line scheme

The principal valuation assumptions used were the rates of investment return of 8.0% per annum compound and a rate of salary increase of 6.0% per annum compound. From July 2005 the Group has contributed at an average rate of 2.5% of contributory earnings. Employees do not contribute. The market value of the scheme's assets at the date of the last actuarial valuation was £1.1m. The total pension cost for the year was £14,000 (2004: £14,000).

The next triennial valuation is currently underway and will be reflected in the accounts for the year ending 31 October 2006.

The transitional arrangements of FRS 17 require additional disclosure of defined benefit pension schemes as at 31 October 2005, 2004 and 2003, calculated in accordance with the requirements of FRS 17. For the purpose of these accounts, these figures are illustrative only and do not impact on the actual balance sheet or the profit and loss account. The assets of each scheme have been taken at market value and the liabilities have been calculated by the qualified actuary using the following principal actuarial assumptions:

	Emerald Star Line scheme per annum			Air 2000 scheme per annum			Unijet scheme per annum		
	2005 %	2004 %	2003 %	2005 %	2004 %	2003 %	2005 %	2004 %	2003 %
Inflation	2.25	2.50	2.50	3.00	3.00	2.50	3.00	3.00	2.50
Salary increases	4.00	4.50	4.50	5.00	5.00	3.75	5.00	5.00	3.75
Rate of discount	4.00	4.50	5.25	5.20	5.50	5.75	5.20	5.50	5.75
Pension in payment increases				3.00	3.00	3.00	3.00	3.00	2.50
Revaluation rate for deferred pensioners				3.00	3.00	2.50	3.00	3.00	2.50

5. Employees continued

On this basis, the illustrative balance sheet figures are as follows:

	Emerald Star Line scheme			Air 2000 scheme			Unijet scheme			Total		
	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m
Assets	1.6	1.4	1.2	30.4	21.2	18.5	19.5	13.8	12.4	51.5	36.4	32.1
Liabilities	(1.2)	(1.0)	(0.7)	(49.3)	(39.6)	(27.5)	(33.8)	(27.2)	(16.9)	(84.3)	(67.8)	(45.1)
(Deficit)/surplus	0.4	0.4	0.5	(18.9)	(18.4)	(9.0)	(14.3)	(13.4)	(4.5)	(32.8)	(31.4)	(13.0)
Deferred tax	–	–	–	5.7	5.5	2.7	4.3	4.0	1.4	10.0	9.5	4.1
Net (deficit)/ surplus	0.4	0.4	0.5	(13.2)	(12.9)	(6.3)	(10.0)	(9.4)	(3.1)	(22.8)	(21.9)	(8.9)

Based on the net deficit in the schemes at 31 October 2005 the future full adoption of FRS 17 would result in a decrease in Group reserves.

The above disclosed position is different to that determined for the long term funding of the schemes, as different assumptions have been used.

The assets of the schemes at 31 October 2005, 31 October 2004 and 31 October 2003 and corresponding expected returns over the following year are as follows:

	Emerald Star Line scheme			Air 2000 scheme			Unijet scheme			Expected returns on all schemes		
	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m	2005 £m	2004 £m	2003 £m	2005 %	2004 %	2003 %
Equities	1.2	1.0	0.9	19.8	13.7	12.1	12.7	9.0	8.2	7.95	8.44	8.70
Bonds	0.2	0.2	0.2	10.5	7.4	6.2	6.7	4.7	4.1	4.98	5.48	5.50
Cash and other short-term assets	0.2	0.2	0.1	0.1	0.1	0.2	0.1	0.1	0.1	4.75	5.00	4.70
	1.6	1.4	1.2	30.4	21.2	18.5	19.5	13.8	12.4			

The fair value of the schemes' assets are not intended to be realised in the short term and may be subject to significant change before they are realised.

The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions, which, due to the timescale covered, may not necessarily be borne out in practice. The present values of the schemes' liabilities are derived from cash flow projections over long periods and are inherently uncertain.

The transitional arrangements of FRS 17 also require disclosure of the defined benefit pension related costs and movements which would have been included in the profit and loss account and the statement of total consolidated recognised gains and losses had full adoption of FRS 17 been made in the year ended 31 October 2005.

Analysis of the amount that would have been charged to operating profit:

	Emerald Star Line scheme		Air 2000 scheme		Unijet scheme		Total	
	2005 £m	2004 £m	2005 £m	2004 £m	2005 £m	2004 £m	2005 £m	2004 £m
Current service cost	–	–	1.6	1.2	1.4	1.1	3.0	2.3

Analysis of the amount that would have been charged to other finance income:

Share options
The Company has established three principal share option schemes: a senior executive performance related and a savings related share option scheme as well as an alternative long-term incentive scheme known as the Restricted Share Plan, all of which are as described on pages 64 to 66.

Options granted and outstanding as well as shares awarded and outstanding in respect of unissued ordinary shares, are as follows:

	No. of shares	Option exercise price (p)	Date first exercisable
Senior executive plan	3,200,914	109.50	30 October 2007
	2,893,983	135.25	9 December 2008
Savings related share option scheme	188,642	97.60	1 October 2005
Restricted share plan	54,054	N/A	16 September 2002
	237,675	N/A	14 December 2002
	1,357	N/A	15 August 2003
	45,174	N/A	5 April 2004
	198,940	N/A	11 December 2004
	7,015	N/A	12 April 2005
	2,056,724	N/A	30 October 2005
	423,364	N/A	12 December 2005
	2,544,422	N/A	31 October 2006
	2,177,411	N/A	9 December 2006
	802,413	N/A	9 December 2006
	154,333	N/A	23 December 2006
	83,479	N/A	1 April 2007
	14,212	N/A	28 April 2007
	87,976	N/A	27 July 2007
	419,548	N/A	13 October 2007
	962,786	N/A	14 December 2007
	267,536	N/A	23 December 2007

As at 31 October 2005 there were 7,565,589 ordinary shares held by the First Choice Employee Benefit Trust. The Trust is funded by the Group by way of loans. The Group has taken advantage of the exemption within Urgent Issues Task Force (UITF) 17: Employee Share Schemes, in respect of its savings related share option scheme. The cost of share options granted under this scheme are therefore not charged to the profit and loss account.

6. Profit on ordinary activities before taxation

	2005 £m	2004 £m
Profit on ordinary activities before taxation is stated after charging/(crediting):		
Operating lease income, aircraft	(6.0)	(4.9)
Operating lease rentals, land and buildings	43.0	39.3
Operating lease rentals, aircraft and other equipment	74.2	85.1
Auditors' remuneration, audit fees	0.8	0.9
Other fees paid to the auditors and their associates	0.3	0.6
Depreciation	41.5	35.8
Charge for share based payments	2.2	3.0
(Gain)/loss on sale of fixed assets	(0.4)	0.5
Gain on foreign currency retranslation	(2.2)	–
Goodwill amortisation, subsidiaries	24.6	23.3
Goodwill amortisation, associates	0.1	0.1
Goodwill amortisation, joint venture	0.2	0.2

The Company's audit fee is borne by a subsidiary company and amounted to £10,250 (2004: £10,000). Non-audit fees of £Nil (2004: £0.1m) relating to due diligence on acquisitions and related share issue costs have been included within the cost of investments and the calculation of goodwill arising on consolidation. Non-audit fees charged to the profit and loss account of £0.3m (2004: £0.6m) principally relate to advice relating to IFRS transition (£0.2m) and regulatory compliance certification (£0.1m).

7. Taxation

The tax charge in the 31 October 2005 Group accounts can be summarised as follows:

Tax on profit on ordinary activities:

(i) Analysis of charge in year

	2005 £m	2004 £m
Current tax:		
UK corporation tax on profits of the year	23.7	17.7
Non-UK tax on profits of the year	9.7	9.4
Adjustments in respect of previous periods	1.0	(0.1)
Total current tax before share of joint venture and associate	34.4	27.0
– Share of current tax of joint venture	–	(0.3)
– Adjustments in respect of previous periods relating to joint venture	0.1	–
– Share of associates' current tax	0.3	0.2
Total current tax after share of joint venture and associate	34.8	26.9
Deferred tax:		
Origination and reversal of timing differences:		
– Current year UK	(3.0)	(0.9)
– Current year non-UK	1.9	2.0
– Adjustments in respect of previous periods	(1.1)	0.1
Total deferred tax before share of joint venture	(2.2)	1.2
– Share of deferred tax of joint venture	0.5	0.3
Total deferred tax after share of joint venture	(1.7)	1.5
Tax on profit on ordinary activities	33.1	28.4

7. Taxation continued

(ii) Factors affecting the current tax charge for the year
The current tax charge for the year is higher (2004: higher) than the standard rate of corporation tax in the UK of 30% (2004: 30%). The differences are explained below:

	2005 £m	2004 £m
Profit on ordinary activities before tax	**89.1**	74.5
Profit on ordinary activities at the standard rate of UK corporation tax of 30% (2004: 30%)	**26.7**	22.4
Effects of:		
– Expenses not deductible for tax purposes	**8.1**	5.3
– Capital allowances (in excess of)/less than depreciation	**(0.7)**	0.9
– Utilisation of tax losses	**(4.7)**	(3.6)
– Non-utilisation of tax losses	**2.2**	0.9
– Higher tax rates on overseas earnings	**1.2**	1.8
– Lower tax rates on overseas earnings	**(3.8)**	(1.2)
– Adjustments to tax charge in respect of previous periods	**1.1**	(0.1)
– Other short term timing differences	**4.7**	0.5
Current tax charge for year	**34.8**	26.9

The effective rate of taxation of 29% (pre goodwill amortisation and exceptional items) is expected to prevail for the foreseeable future.

8. Dividends

	2005 £m	2004 £m
Ordinary shares		
Interim – 1.95p per share (2004: 1.75p) paid 1 November 2005	**10.1**	9.0
Final proposed – 4.65p per share (2004: 3.75p) payable 6 April 2006	**24.5**	19.4
Total ordinary dividend – 6.6p per share (2004: 5.5p)	**34.6**	28.4
Preference shares		
6.75% convertible cumulative redeemable	**9.9**	13.5
Amortisation of preference share issue costs	**0.1**	0.2
	10.0	13.7

The final ordinary dividend of 4.65p is payable to all ordinary shareholders on the register on 3 March 2006.

Amounts paid relating to preference share dividends during the year comprise £9.9m in respect of the 2005 dividend and £1.1m accrued for the 2004 dividend as at 31 October 2004. No accrual has been made in respect of preference share dividends as the preference shares were all redeemed by the Company on 27 July 2005 (see note 20).

9. Earnings per ordinary share

The basic earnings per ordinary share is calculated by dividing the profit attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the year, excluding those held in the employee share ownership trusts. The diluted earnings per share is calculated on profits attributable to ordinary shareholders divided by the adjusted weighted average number of ordinary shares, which takes account of the outstanding share options, where their conversion is dilutive.

The additional earnings per share measures have been given to provide the reader of the accounts with a better understanding of the results.

	Earnings 2005 £m	Weighted average no. of shares 2005 millions	Earnings per share 2005 pence	Earnings 2004 £m	Weighted average no. of shares 2004 millions	Earnings per share 2004 pence
(i) Basic earnings per share	**45.8**	**519.5**	**8.8**	32.1	516.6	6.2
Goodwill amortisation	**24.9**	–	**4.8**	23.6	–	4.6
Basic earnings per share before goodwill amortisation	**70.7**	**519.5**	**13.6**	55.7	516.6	10.8
Exceptional items (net of tax)	–	–	–	0.2	–	–
Basic earnings per share before goodwill amortisation and exceptional items	**70.7**	**519.5**	**13.6**	55.9	516.6	10.8
(ii) Diluted earnings per share						
Basic earnings per share	**45.8**	**519.5**	**8.8**	32.1	516.6	6.2
Effect of dilutive securities						
Options	–	**9.6**	**(0.1)**	–	4.3	–
Diluted earnings per share	**45.8**	**529.1**	**8.7**	32.1	520.9	6.2
Goodwill amortisation	**24.9**	–	**4.7**	23.6	–	4.5
Diluted earnings per share before goodwill amortisation	**70.7**	**529.1**	**13.4**	55.7	520.9	10.7
Exceptional items (net of tax)	–	–	–	0.2	–	–
Diluted earnings per share before goodwill amortisation and exceptional items	**70.7**	**529.1**	**13.4**	55.9	520.9	10.7

10. Intangible fixed assets

	Group £m
Cost	
At 1 November 2004	462.1
Additions (note 12a)	68.9
Disposals	(0.2)
Revision to consideration on prior year acquisitions (note 12b)	3.2
Exchange adjustments	1.9
At 31 October 2005	**535.9**
Provision for amortisation	
At 1 November 2004	85.7
Charge in the year	24.7
At 31 October 2005	**110.4**
Net book value	
At 31 October 2005	**425.5**
At 31 October 2004	376.4

Intangible fixed assets represent goodwill arising on acquisition. Note 12 provides details of acquisitions in the year and other changes to goodwill. Positive goodwill is amortised to nil by equal instalments over its useful economic life, usually 20 years.

11. Tangible fixed assets

	Land and buildings £m	Yachts and motor boats £m	Aircraft and equipment £m	Computer equipment £m	Other £m	Total £m
Cost or valuation						
At 1 November 2004	98.4	128.0	82.3	72.3	32.4	413.4

At 31 October 2004	73.8	110.5	48.6	38.5	17.3	288.7

Other fixed assets with a combined net book value as at 31 October 2005 of £16.7m (2004: £17.3m) comprise £15.8m (2004: £16.5m) of fixtures and fittings, £0.8m (2004: £0.6m) of motor vehicles and £0.1m (2004: £0.2m) of ski equipment.

Fixed asset additions of £70.0m include £2.1m of fixed assets acquired on the acquisition of subsidiary companies during the year.

Land and buildings comprise freehold and short leasehold properties with net book values of £19.5m (2004: £19.4m) and £51.2m (2004: £54.4m) respectively. A number of the Group's freehold properties are included at valuations, which were adopted prior to the introduction of FRS 15:

(i) A freehold property in Manchester was revalued at £1.2m by Savills, Chartered Surveyors, on the basis of an open market valuation at 31 October 1997 in accordance with the Practice Statements of the Royal Institution of Chartered Surveyors.

(ii) Freehold hotel properties located in France were revalued as at 31 October 1996 at French Francs 16,000,000 (£1.9m) by Lecart HDS Expertises, on the basis of an open market valuation.

The net book values of assets held at valuation along with corresponding historical cost amounts are set out below. All valuations were carried out on an open market basis.

	Land and buildings £m	Aircraft and equipment £m
Net book value at valuation		
As at 31 October 2005	**2.7**	**3.0**
Historical cost		
At 1 November 2004 and 31 October 2005	2.1	4.5
Depreciation		
At 1 November 2004	0.5	1.9
Provided in the year	0.1	0.5
At 31 October 2005	**0.6**	**2.4**
Net book value at cost		
At 31 October 2005	**1.5**	**2.1**

Properties revalued as part of acquisitions have not been included in the above figures as they represent the cost to the Group. The net book value of assets held under finance leases and hire purchase contracts at 31 October 2005 was £32.1m (2004: £37.6m). The depreciation charged in the year for these assets was £3.6m (2004: £2.8m).

Subsidiaries marked with an * are directly held by First Choice Holidays PLC. A full list of subsidiaries will be included in the Company's annual return. All the principal operating subsidiaries were wholly owned and were consolidated at 31 October 2005.

12. Investments continued

Acquisitions

(a) Acquisitions in the year ended 31 October 2005

Acquisitions were made in the year for a total of £67.3m, including £1.8m of acquisition expenses. These acquisitions gave rise to provisional goodwill of £68.9m. The acquired businesses and their acquisition date were:

Sector and entity	Country of operation	Acquisition date	Consideration £m
Specialist Holidays			
Delphin Touristik Reiserveranstalter GmbH	Austria	April 2005	3.1
Spring Break Travel Inc	United States	February 2005	3.2

SEM Corp	United States	October 2005	1.3
			65.5

Net assets/(liabilities) acquired

	Notes	Book value prior to acquisition £m	Accounting policy adjustments £m	Fair value adjustments £m	Fair value of net assets/ (liabilities) acquired £m
Intangible fixed assets	1	0.7	–	(0.7)	–
Tangible fixed assets	2	2.2	–	(0.1)	2.1
Investments		0.1	–	–	0.1
Current assets (excluding cash)	3	16.0	(0.1)	–	15.9
Cash		23.7	–	–	23.7
Creditors due within one year	4	(42.9)	(0.2)	(0.1)	(43.2)
C[redacted]tors due after more than one year		(0.2)	–	–	(0.2)
To[redacted]net liabilities acquired		(0.4)	(0.3)	(0.9)	(1.6)

Consideration	65.5
Acquisition costs	1.8
Total investment cost	67.3
Net liabilities acquired (as above)	1.6
Provisional goodwill arising	68.9

Notes:
1 elimination of goodwill existing in balance sheets at acquisition.
2 impairment of fixed asset.
3 remove fair value of financial instruments not carried on balance sheet under UK GAAP.
4 adjustment of revenue recognition to Group policy; recognition of accruals for costs.

12. Investments continued

The consideration payable is made up by:

	£m
Cash	53.4
Deferred consideration	6.6
Contingent consideration	5.5
Total consideration	65.5

The contingent consideration payable is in respect of the acquisitions of the The Imaginative Traveller and Delphin. It is dependent on the results of the businesses over the following periods, and the Directors believe the amounts provided reflect the most likely outcome in each case:

Acquisition	Period for calculation of contingent consideration	Maximum contingent consideration	Consideration provided for in these accounts
The Imaginative Traveller	Year ended 31/10/05	£3.0m	£3.0m
Delphin	Year ended 31/10/06 to year ended 31/10/09	€3.5m	€3.5m

The provisional goodwill of £68.9m arising on the acquisitions has been capitalised on the balance sheet and will be amortised over 20 years, its estimated useful economic life. All acquisitions have been accounted for using the acquisition method. It should be noted that certain fair value adjustments have necessarily been prepared on a provisional basis. Subsequent experience may result in the requirement to revise fair values in the subsequent accounting period.

In addition, deferred and contingent consideration of £1.6m, relating to prior year acquisitions was paid during the year, resulting in a total net cash outflow for the year in respect of acquisitions of £33.1m (2004: £30.9 m).

(b) Adjustments to estimates relating to acquisitions in previous years

Adjustments to contingent consideration and fair value estimates relating to acquisitions in previous years have resulted in an increase in the value of goodwill of £3.2m. The adjustments relate principally to agreement with the vendors of StudentCity.com, Inc. that the full value of potential contingent consideration would be payable in light of the results for the business for the first period for the calculation of contingent consideration, and a reduction in the expected value of variable consideration in the acquisition of Grantur.

13. Investments in associate and joint venture

Cost	Group share of net assets of joint venture £m	Group share of net assets of associate £m	Group total £m	Company £m
At 1 November 2004	28.3	2.1	30.4	38.8
Dividend received	–	(0.3)	(0.3)	–
Share of profits for the year	1.8	1.0	2.8	–

Net book value				
At 31 October 2005	32.7	2.5	35.2	
At 31 October 2004	31.7	2.1	33.8	

Name of company	Proportion held	Nature of business	Country of registration/ incorporation	Investment held by
Hays Travel Limited	37.75%	Travel agent	England & Wales	First Choice Holidays PLC
Sunshine Cruises Limited	50.00%	Cruise operator	England & Wales	First Choice Holidays PLC

All proportions held are in ordinary shares.

Sunshine Cruises Limited (trading as Island Cruises) was set up as a joint venture with Royal Caribbean Cruises Ltd. (RCCL) in July 2000. The share of profits recognised in respect of the joint venture represents the Group's share of the profit generated in the year.

There is a put option on the Group to acquire the remaining shareholding of the Group's associate, Hays Travel Limited. The value of this is dependent on the future profitability of Hays Travel Limited.

14. Debtors

	Group 2005 £m	Group 2004 £m	Company 2005 £m	Company 2004 £m
Trade debtors	107.4	93.6	–	–

One year	**16.4**	6.2
Two to five years	**2.5**	19.3
	18.9	25.5

Security given in respect of finance leases and hire purchase contracts consists of fixed charges over the respective assets.

Bank loans and overdrafts are repayable within:

	Group 2005 £m	Group 2004 £m	Company 2005 £m	Company 2004 £m
One year	**56.9**	7.4	**30.0**	0.1
Two to five years	**23.2**	36.3	–	–
After five years	**8.2**	2.4	–	–
	88.3	46.1	**30.0**	0.1

Included within amounts payable within one year are bank overdrafts of £19.9m (2004: £0.1m) that are repayable on demand at rates noted in note 22(a).

The Group has bank loans of £68.4m (UK £64.6m, Europe £3.8m), (2004: £46.0m (UK £45.6m, Europe £0.4m)), which are repayable in regular instalments on rates of interest as detailed in note 22(a). In the UK and Europe the loans are secured on the underlying assets of the company in whose name the borrowings are made.

19. Provisions for liabilities and charges

19. Provisions for liabilities and charges continued

The net deferred tax provision at 31 October 2005 is as follows:

	2005 £m	2004 £m
Accelerated capital allowances	18.3	15.0
Other short-term timing differences	(6.9)	(0.1)
Tax losses carried forward	(4.2)	(5.5)
	7.2	9.4

	2005 £m	2004 £m
Net provision at the end of the year		
Included within:		
– Debtors (see note 14)	(11.1)	(5.6)
– Provisions for liabilities and charges (see above)	18.3	15.0
	7.2	9.4

There are no unprovided deferred taxation liabilities at either 31 October 2005 or 31 October 2004.

There is an unrecognised deferred tax asset at 31 October 2005 in respect of losses carried forward of £40.8m (2004: £29.0m), capital losses carried forward of £4.5m (2004: £4.5m). These assets have not been recognised because the Directors are not certain that any benefits will arise in the foreseeable future.

20. Share capital

	2005 £m	2004 £m
Authorised		
800,000,000 (2004: 800,000,000) ordinary shares of 3p each	24.0	24.0
199,500,000 (2004: 199,500,000) 6.75% convertible cumulative redeemable preference shares of £1 each	199.5	199.5
	223.5	223.5
Allotted, called up and fully paid		
529,658,730 (2004: 527,839,299) ordinary shares	15.9	15.8
Nil (2004: 199,500,000) 6.75% convertible cumulative redeemable preference shares of £1 each	–	199.5
	15.9	215.3

The Company issued 1,819,431 new ordinary shares in the year, with none of these shares being in respect of acquisitions.

The new ordinary shares were issued in respect of the following:

	No. of shares
Restricted Share Plan	365,264
Senior Executive Plan	21,756
Savings Related Share Option Scheme	1,432,411
	1,819,431

The share premium arising on the above issues was £1.7m.

On 27 July 2005 the Company chose to redeem at par all the convertible cumulative redeemable preference shares of £1 each. This redemption was permitted by the articles of association of the Company as the fifth anniversary of the date of issue of this class of share capital had been reached.

The redemption was made from distributable profits of the Company in accordance with section 160 of the Companies Act 1985 and a transfer of £199.5m from share capital to the capital reserve has been made in accordance with section 170 of the Act.

21. Capital and reserves

Shareholders' funds	**302.3**	487.1	**662.0**	807.3

22. Financial instruments

To reduce risks arising from movements in foreign exchange and interest rates, the Group has entered into forward foreign exchange contracts and single currency interest rate swaps/forward rate agreements and accounts for such transactions as hedges. The gross value of financial assets and liabilities is stated after the effect of these hedged transactions.

The Group's policy with regard to such financial instruments is detailed within the accounting policies in note 1. Short-term debtors and creditors have been omitted from the disclosures other than the currency risk.

(a) Financial assets and liabilities

At 31 October 2005 the Group's financial assets and liabilities profile, after taking account of interest rate and currency hedging arrangements in place, was as follows:

	2005			2004		
Financial assets	Floating rate £m	Non-interest bearing £m	Total £m	Floating rate £m	Non-interest bearing £m	Total £m
Sterling	33.7	7.3	41.0	162.8	11.0	173.8
Canadian Dollars	30.0	–	30.0	28.7	–	28.7
Euro	28.9	1.3	30.2	65.6	1.3	66.9
US Dollars	20.0	–	20.0	15.1	–	15.1
[illegible]er	4.9	–	4.9	8.6	–	8.6
Total	117.5	8.6	126.1	280.8	12.3	293.1

Floating rate financial assets comprise cash, and current asset investments, which attract interest rates of between 1.5% and 4.5% and are all due to mature within one year. Non-interest bearing assets represent trade investments, which have no maturity period, and cash at bank.

	2005				2004			
Financial liabilities	Fixed rate £m	Floating rate £m	Non-interest bearing £m	Total £m	Fixed rate £m	Floating rate £m	Non-interest bearing £m	Total £m
Sterling	28.2	69.7	3.8	101.7	236.5	27.0	2.0	265.5
Canadian Dollars	–	–	2.8	2.8	–	–	2.1	2.1
Euro	4.6	4.7	3.1	12.4	7.0	0.6	2.1	9.7
US Dollars	–	–	19.3	19.3	–	–	8.6	8.6
Total	32.8	74.4	29.0	136.2	243.5	27.6	14.8	285.9

Fixed rate financial liabilities comprise bank borrowings and obligations under finance leases. The weighted average fixed rate of Sterling borrowings is 5.2% (2004: 6.3%) and the average time to maturity is 2.6 years. The weighted average fixed rate of Euro borrowings is 5.8% (2004: 6.1%) and the average time to maturity is 3.0 years.

Floating rate financial liabilities comprise loans and obligations under finance leases, at the following interest rates:

Sterling: LIBOR plus a margin between 0.9% and 1.65%
Euro: EURIBOR plus a margin between 1.5% and 1.65% or RIBOR plus a margin between 0.25% and 0.85%

Non-interest bearing financial liabilities comprise deferred consideration for acquisitions.

(b) Maturity profile of financial liabilities

	2005 £m	2004 £m
Within one year	91.1	19.9
In more than one year but less than five years	36.9	64.1
More than five years	8.2	201.9
	136.2	285.9

22. Financial instruments continued

(a) Fair value of financial instruments

Fair values	2005 Book value £m	2005 Fair value £m	2004 Book value £m	2004 Fair value £m
Financial instruments				
Financial assets	126.1	126.1	293.1	293.1
Financial liabilities	(136.2)	(136.2)	(285.9)	(285.9)
Derivative financial instruments				
Interest rate swaps and forward rate agreements	–	(0.1)	–	(0.8)
Foreign currency transactions	–	3.2	–	(29.0)
Fuel derivatives	–	1.0	–	32.9
	(10.1)	(6.0)	7.2	10.3
Difference between book and fair value		4.1		3.1

Fair value is the difference between market value in which the instruments are traded at the balance sheet date and the future contracted commitment.

(b) Unrecognised gains and losses relating to hedges of future exposures

Unrecognised gains and losses	2005 Gains £m	2005 Losses £m	2005 Net £m	2004 Gains £m	2004 Losses £m	2004 Net £m
Total unrecognised gains/(losses) at 1 November 2004	43.2	(40.1)	3.1	19.0	(40.8)	(21.8)
(Gains)/losses recognised in the year relating to prior years	(42.0)	34.7	(7.3)	(17.8)	32.8	15.0
Gains/(losses) not recognised in the year relating to prior years	1.2	(5.4)	(4.2)	1.2	(8.0)	(6.8)
Gains/(losses) not recognised in the year relating to the current year	21.8	(13.5)	8.3	42.0	(32.1)	9.9
Total unrecognised gains/(losses) at 31 October 2005	23.0	(18.9)	4.1	43.2	(40.1)	3.1
Of which:						
Due to be recognised within one year	21.3	(15.6)	5.7	42.0	(34.7)	7.3
Due to be recognised after one year	1.7	(3.3)	(1.6)	1.2	(5.4)	(4.2)
	23.0	(18.9)	4.1	43.2	(40.1)	3.1

Gains and losses on foreign exchange instruments used for hedging purposes are not recognised until the maturity of the underlying exposure.

(c) Currency exposures

The primary functional currencies of the Group are Sterling, Canadian Dollars, the Euro and US Dollars. The table below shows the Group companies' net monetary assets and liabilities held in currencies other than their principal currency, after having taken into account the effect of forward contracts or other derivative instruments used to match foreign currency exposure.

Functional currency	Sterling £m	Euro £m	US Dollar £m	Can Dollar £m	Thai Bhat £m	Aus Dollar £m	Swiss Franc £m	Other £m	2005 Total £m	2004 Total £m
Sterling	–	32.3	14.1	1.3	1.4	2.8	(0.9)	8.9	59.9	19.4
Canadian Dollars	–	–	7.7	–	–	–	–	–	7.7	1.4
Euro	0.9	–	(0.1)	0.1	–	–	1.3	2.2	4.4	1.9
US Dollars	–	1.1	–	0.7	–	–	–	0.3	2.1	0.2
Total	0.9	33.4	21.7	2.1	1.4	2.8	0.4	11.4	74.1	22.9

(d) Undrawn committed borrowing facilities

As at 31 October 2005 the Group had available undrawn committed borrowing facilities of £314.9m comprising letters of credit, guarantee and revolving, floating rate credit facilities for cash borrowings one of which expires on 31 March 2008 and the other on 11 July 2010. The conditions precedent to the availability of these facilities are satisfied at the balance sheet date.

In addition, as at 31 October 2005, the Group also had available an undrawn committed asset financing facility of £8.7m. The commitment period for new drawdowns expires on 15 February 2006.

23. Reconciliation of operating profit to net cash inflow from operating activities

	2005 £m	2004 £m
Group operating profit (after goodwill amortisation)	**90.9**	75.2
Depreciation	**41.5**	35.8
Charge for EBT shares	**2.2**	3.0
Goodwill amortisation	**24.7**	23.4
(Gain)/loss on sale of fixed assets	**(0.4)**	0.5
Increase in debtors	**(41.4)**	(18.3)
Increase in creditors and maintenance reserves	**40.4**	52.8
Net cash inflow from operating activities	**157.9**	172.4

24. Movements in cash and net funds

	2005 £m	Cash movement £m	Non-cash movement £m	Borrowings assumed on acquisition £m	2004 £m
Cash	**40.3**	(36.5)	0.8	–	76.0
Bank overdrafts	**(19.9)**	(19.8)	–	–	(0.1)
Deposits at bank maturing within one month	**38.1**	(139.6)	–	–	177.7
Current asset investments	**46.9**	8.3	–	–	38.6
Bank loans	**(68.4)**	(23.0)	1.5	(0.9)	(46.0)
Finance leases and hire purchase contracts	**(18.9)**	7.2	(0.6)	–	(25.5)
Net funds	**18.1**	(203.4)	1.7	(0.9)	220.7

25. Reconciliation of net cash flow to movement in net funds

	2005 £m	2004 £m
(Decrease)/increase in cash in the year	**(56.3)**	21.0
Cash (inflow)/outflow from increase in deposits at bank	**(139.6)**	20.0
Cash inflow from decrease in current asset investment	**8.3**	19.2
Cash (inflow)/outflow from movement in debt and lease financing	**(15.8)**	11.3
Changes in net funds resulting from cash flows	**(203.4)**	71.5
Changes in net funds arising on acquisitions	**(0.9)**	–
Changes in net funds from non-cash movements	**1.7**	0.1
(Decrease)/increase in net funds in the year	**(202.6)**	71.6
Net funds at 1 November 2004/2003	**220.7**	149.1
Net funds at 31 October 2005/2004	**18.1**	220.7

26. Acquisitions' contributions to Group cash flows

	Continuing operations £m	Acquisitions £m	Total £m
Net cash inflow/(outflow) from operating activities	163.0	(5.1)	157.9
Dividends received from associate	0.3	–	0.3
Returns on investment and servicing of finance	(14.7)	0.1	(14.6)
Net tax paid	(32.0)	(0.5)	(32.5)
Capital expenditure and financial investment	(54.2)	(0.4)	(54.6)
Acquisitions and disposals	(33.1)	–	(33.1)
Equity dividends paid	(28.7)	–	(28.7)
Management of liquid resources	131.3	–	131.3
Financing	(181.5)	(0.8)	(182.3)
Decrease in cash in the year	**(49.6)**	**(6.7)**	**(56.3)**

The acquisitions column reflects cash flows arising from post acquisition trading.

27. Operating lease commitments

	Land and buildings 2005 £m	Aircraft, yachts and equipment 2005 £m	Land and buildings 2004 £m	Aircraft, yachts and equipment 2004 £m
Annual commitment under non-cancellable operating leases expiring within:				
One year	**6.0**	**3.1**	2.0	3.7
Two to five years	**10.0**	**33.8**	6.6	25.1
Thereafter	**23.1**	**36.8**	18.7	36.5
	39.1	**73.7**	27.3	65.3

28. Capital commitments

	Group 2005 £m	Group 2004 £m
Contracted but not provided for	**4.1**	6.4
Authorised but not contracted or provided for	**5.6**	–
	9.7	6.4

Of the £9.7m capital commitments entered into at this year end £5.1m relates to yachts and the remainder is in respect of other fixed asset commitments.

The Group has guaranteed the residual value of certain yachts under charter from third party owners, giving them the right to sell the yachts to the Group at a determined price. For certain yachts, Sunsail Limited is required to deposit part of this price into trust accounts over the period of the charter. The maximum cash commitment including these future deposits is as follows:

Year end 31 October	2005 £m	2004 £m
2005	–	–
2006	–	0.1

The Group has contracted to purchase six Boeing 787 aircraft, the first delivery of which is in 2009. The Group intends to refinance these aircraft in advance of their delivery dates and therefore does not expect to use its own cash resources for their purchase. At list price, the order value is US$818.5m.

29. Contingent liabilities

Under the terms of guarantees given to the Civil Aviation Authority and other relevant authorities by the Company in respect of certain subsidiaries, in the event of default, the Company could be held liable to the extent of the subsidiaries' net trading liabilities at the time of default.

The Company, and its subsidiaries, is at any time defending a number of actions against it arising in the normal course of business. Provision is made for these actions where this is deemed appropriate.

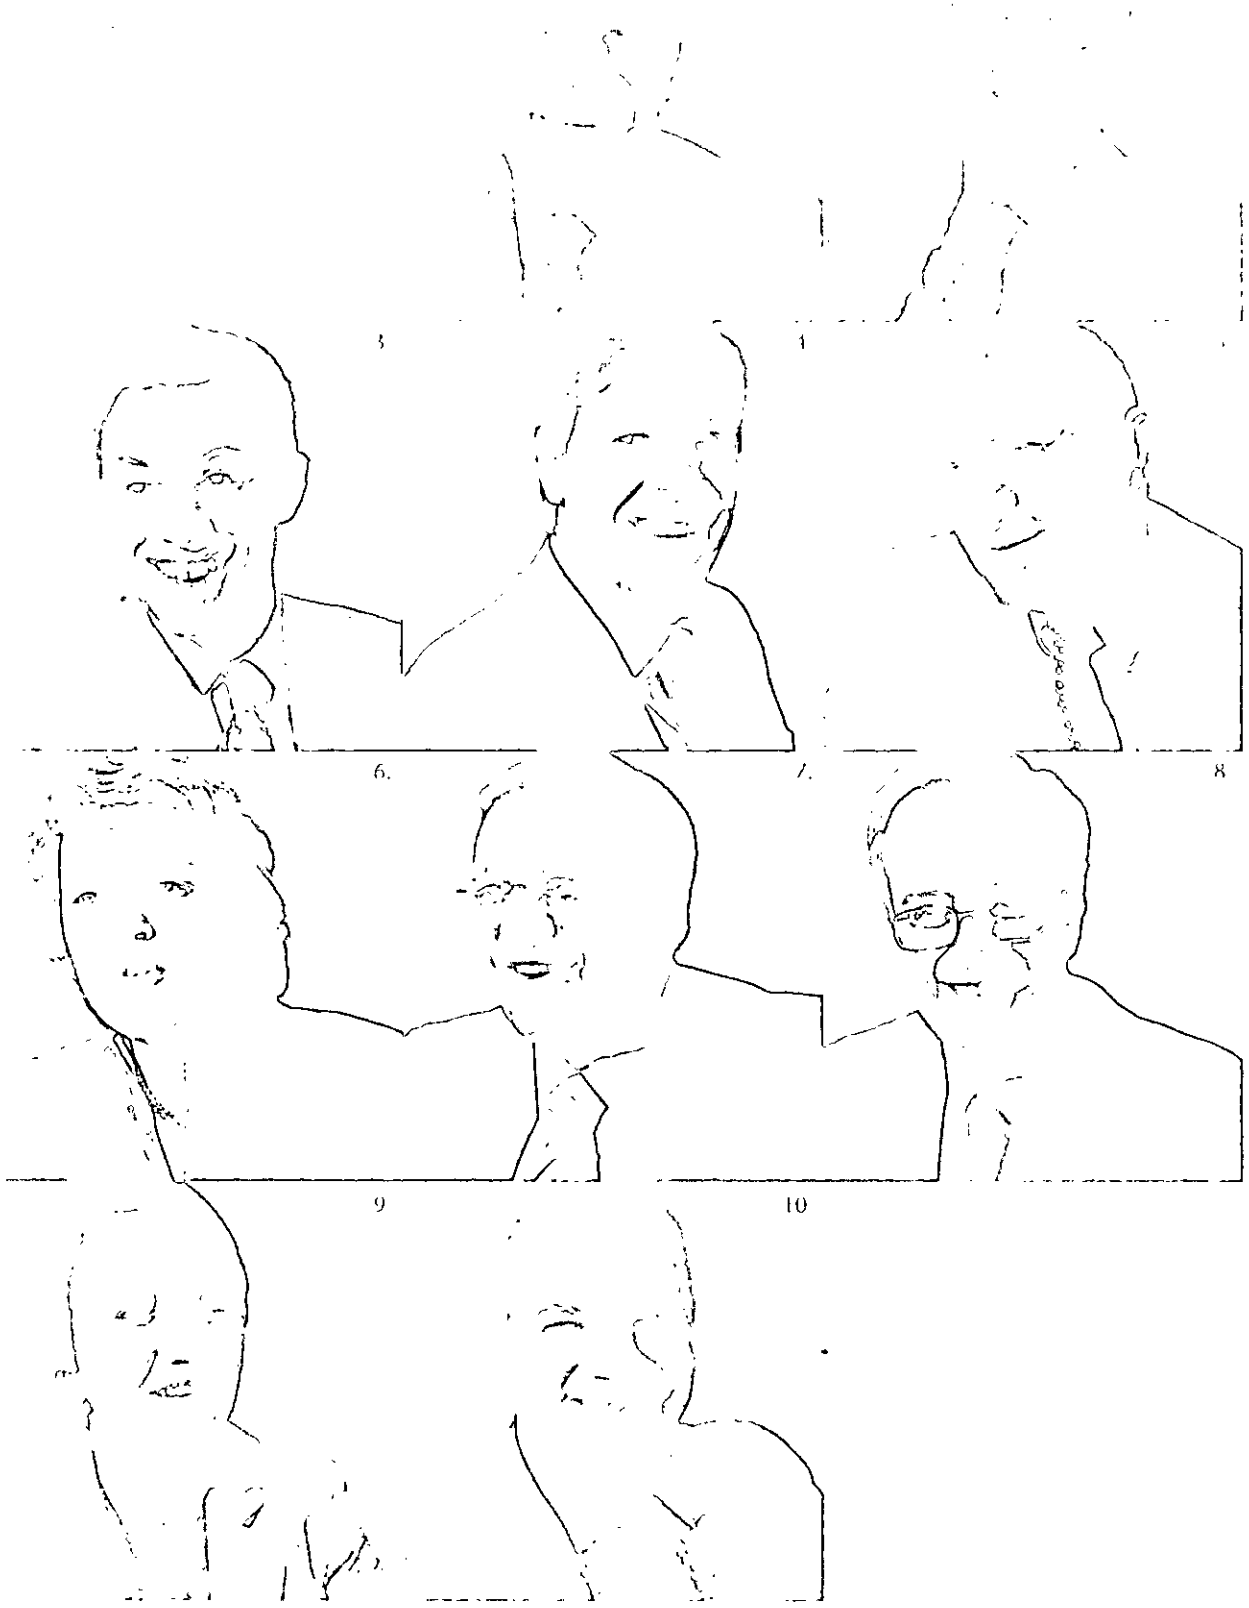
30. Related party transactions

Simón Barceló is a director and shareholder of the Barceló Corporación Empresarial SA (BCE) group of companies. During the last 12 months the Group spent approximately £12.8m (2004: £15.8m) on hotel accommodation with BCE.

At 31 October 2005 the Group owed BCE £1.3m for such accommodation (2004: £1.3m). Viajes Barceló and Barceló Business (also part of BCE) owed the Group commission of £nil at 31 October 2005 (2004: £3.5m) and the Group earned total commissions of £3.5m in the year (2004: £20.2m) from these businesses.

Royal Caribbean Cruises Ltd. (RCCL) is First Choice's joint venture partner in Sunshine Cruises Limited. The Group earned commissions of £2.2m (2004: £3.4m) during the year selling Royal cruises.

During the year the Group traded with its associate Hays Travel Limited, and its joint venture Sunshine Cruises Limited. The main transactions during the year were:



(a) Commissions paid to Hays Travel Limited of £3.0m (2004: £3.0m). The balance outstanding as at 31 October 2005 is £nil (2004: £nil).

(b) The Group has charged Sunshine Cruises Limited for flying, administrative services and marketing contributions net of commissions received on sales totalling £0.4m (2004: £0.9m). There is an outstanding balance of £2.6m (2004: £0.9m) within creditors as at 31 October 2005.

Profit and loss account	2005 £m	As restated 2004 £m	2003 £m	2002 £m	As restated 2001 £m

1 / Sir Michael Hodgkinson
Chairman (Age 61)
Sir Michael Hodgkinson joined the Board as a Non-Executive Director on 1 January 2004 and became Chairman on 11 March 2004. Following an early career in the automotive industry, Sir Michael was appointed Chief Executive of Grand Metropolitan's European Food Division in 1986 and in 1992 he joined BAA plc, becoming Chief Executive in 1999, a post from which he retired in June 2003. He is Senior Non-Executive Director at Royal Mail and Chairman of Post Office Limited and a Non-Executive Director of FKI plc, Bank of Ireland plc, Transport for London Limited and Dublin Airport. Sir Michael has in-depth experience of both substantial public companies and the travel industry.

2 / Peter Long
Chief Executive (Age 53)
Peter Long joined the Board on 1 October 1996 as Managing Director of First Choice Holidays & Flights. On 11 November 1996 he was appointed Group Managing Director and became Chief Executive on 6 September 1999. Prior to joining First Choice Holidays PLC he was Chief Executive of Sunworld Holidays, having previously been Finance Director then Chief Executive of the tour operating division of the International Leisure Group. From February 2001 to June 2005 he was a Non-Executive Director of RAC plc (formerly Lex Service Plc) and in October 2002 he was appointed a Non-Executive Director of Rentokil Initial Plc.

3 / Paul Bowtell
Group Finance Director (Age 37)
Paul Bowtell joined the Board as Group Finance Director on 6 September 2004. He was previously the Finance Director of British Gas, a subsidiary of Centrica plc, where he had been since January 2002. Prior to that, he was with W H Smith plc where he held a number of corporate centre roles before becoming the Finance Director of the UK Retail business. He is an Associate of the Institute of Chartered Accountants.

4 / Dermot Blastland
Managing Director
Mainstream Holidays (Age 55)
Dermot Blastland joined the Board on 6 September 1999. He is Managing Director – Mainstream Holidays, having previously held positions as Managing Director of First Choice Holidays & Flights, Ski, Lakes & Mountains and President of Signature Vacations. Prior to joining the Company in February 1988, he was Commercial Director at Thomson and subsequently Managing Director of Portland Holidays.

5 / Tony Campbell
Non-Executive and Senior
Independent Director (Age 56)
Tony Campbell became a Non-Executive Director on 1 April 1997. He was Deputy Chief Executive of Asda Stores Limited until 2 March 2001, having previously been its Trading Director. Prior to that, he held senior management positions at J Sainsbury plc and Hillard Superstores. He is Non-Executive Chairman of Spirit Group Limited and Hobbs Headco Limited.

6 / Clare Chapman
Non-Executive Director (Age 45)
Clare Chapman became a Non-Executive Director on 11 March 2003. She is currently the Group HR Director of Tesco PLC and was previously with PepsiCola International where she had a number of European roles, including Vice President HR for Central and Eastern Europe. Prior to that, Clare held a number of senior management roles at Quaker Oats Inc. in both the UK and the USA.

In addition to her roles with Tesco and First Choice, Clare has been appointed by the Secretary of State for Education & Skills on to the Board of the Qualifications and Curriculum Authority (QCA) and serves on the Skills Council Board for Retail and the Advisory Board for the Judge Institute.

7 / Bill Dalton
Non-Executive Director (Age 62)
Bill Dalton became a Non-Executive Director on 6 October 2004. He was previously Chief Executive of HSBC Bank plc and Global Head of Personal Financial Services for the HSBC Group. During his banking career, he has amassed a great deal of international expertise. Bill is also a Non-Executive Director of a number of UK and North American companies including Swiss Re GB plc, Associated Electric & Gas Insurance Services (AEGIS), HSBC Finance Inc and Talisman Energy Inc.

8 / Simón Barceló
Non-Executive Director (Age 39)
Simón Barceló joined the Board on 6 July 2000 in accordance with the terms of the Relationship Deed between Barceló Corporación Empresarial SA and the Company. On 30 August 2002 he resigned his executive position as President of the Barceló Travel Division, as envisaged at the time of the acquisition, and became a Non-Executive Director.

He was Senator for Mallorca and occupied the 3rd Secretariat of the Spanish Senate from October 1989 to July 1993. From July 1993 to February 2000 he was Vice-Chairman of Barceló Corporación Empresarial and was appointed Chairman and CEO in June 2000.

9 / Susan Hooper
Non-Executive Director (Age 45)
Susan Hooper joined the Board as a Non-Executive Director on 10 March 2005. She is currently the Senior Vice President International and Managing Director, Royal Caribbean & Celebrity Cruises International. She joined Royal Caribbean from Avis Europe where she was commercial vice-president. Prior to this she gained extensive international experience with Saatchi & Saatchi, McKinsey and Co and PepsiCo International.

Susan is currently a Director of Sunshine Cruises Limited (the joint venture between First Choice and Royal Caribbean), Transcom Worldwide SA and is a trustee of The Suzy Lamplugh Fund.

10 / Jeremy Hicks
Non-Executive Director (Age 51)
Jeremy became a Non-Executive Director in February 2005. He is Finance Director of Aegis plc where he has overseen the expansion of the business from a European media agency into a global business with twin competences in media and market research. Up until 1999 he was Finance Director of Abbot Mead Vickers plc (AMV) where he played a key role in the strategic development of the Company into one of the largest marketing services groups in the UK.

The Directors submit their report of First Choice Holidays PLC for the year ended 31 October 2005.

Results and dividends
The Group profit before taxation for the year was £89.1m (2004: £74.5m).

The Directors recommend a final dividend of 4.65p (2004: 3.75p) net per ordinary share, payable on 6 April 2006 to holders on the register on 3 March 2006. When taken with the interim dividend of 1.95p (2004: 1.75p) net per ordinary share paid on 1 November 2005, this gives a total dividend of 6.6p (2004: 5.5p) for the year ended 31 October 2005.

The total preference dividend for the year was £10.0m (2004: £13.7m). On 27 July 2005, the Company redeemed all of the 6.75% Convertible Cumulative Preference Shares held by Royal Caribbean Cruises Ltd. at par for £199,500,000 (see note 20).

Business review and activity
The Group's principal activity is that of an international leisure travel business providing integrated tour operations, specialist holidays and online accommodation. It operates from 17 countries including the UK, Ireland, the USA, Canada, France, Germany and Spain.

A review of the Group's activity during the year and likely future developments is contained in the Reports section of this document.

Our people
First Choice employs approximately 14,000 people across the Group, of whom 8,600 are based in the UK and 4,200 in Western Europe, the USA and Canada, with the remainder being based in Africa, Asia, Australia and Eastern Europe. We have a global portfolio of businesses at various stages of development and maturity which all share common values. The challenge of developing and promoting our people in a way that is right for them, in the environment in which they operate, is currently being addressed.

Attracting, developing and retaining excellent people is critical to the sustainability of our business. Treating employees with empathy and respect – an important element of our commitment to sustainable development – is part and parcel of what we do.

We have a vision to be the "First Choice" for people wanting to work in leisure travel. Achieving this vision helps drive profitable growth across the Company. For us, this means:

> engaging our people in our aims and success – and in issues that affect them;

> promoting a positive workplace; and

> rewarding people in a way that is relevant to them and reflects their contribution to the Group's success.

Rewarding people and valuing their contribution
We encourage the participation of employees in the Company through frequent "Work in Partnership" meetings, which are led by senior management. Regular meetings also take place with recognised trade unions. We monitor closely the responses from our Staff Survey and adapt and change policies and practices as a result of the comments and views of employees. Many UK employees continue to subscribe to the Group's Employee Share Incentive Plan, giving many of our workforce a shareholding in the Company and interest in its financial performance.

Our goal is to continue to develop a reward strategy which underpins business objectives within Group principles which provide a framework for local adaptation and implementation. Recognising and rewarding our employees in ways that are effective for them is a key driver for engagement and high performance. Our compensation strategy takes into account base pay, competency pay, incentives, benefits and non-cash based rewards. We make every effort to measure the input and results of both individuals and teams.

Ensuring our employees share our aims and are involved in matters which affect them is a key challenge for us. We employ people in many countries around the world – a significant number of whom are engaged on a seasonal basis. We start by employing people we believe share our passion for our customers and products and build engagement through communication and consultation by providing regular local and global updates in ways that suit the relevant working environment and culture.

We have recently established a new extranet website to enhance communications across the whole Group which means that there is now a central source where all employees can find both external and internal information about the Sectors and various businesses in the Group. Additionally each Sector has its own tailored approach to communication which reflects the needs of that particular Sector.

As a Group we operate in diverse cultures and understand the need to rule out discrimination on any grounds including ethnicity, gender, disability and age. In the past year we have developed new policies on non-discrimination and inclusiveness to underpin this position. These are being introduced across the Group and incorporated into training for line managers and will become a key part of the Company induction programmes. Unfair treatment of any employee is not tolerated and a confidential employee hotline is in place across the Group.

Attracting, developing and retaining talent
We recognise that the success of our strategy is built on having the best people to deliver it around the world. We are committed to using the most effective recruitment methods in all countries in which we operate and to build skills and knowledge in ways that suit both the business and the employees.

Investing in leadership capability at senior levels to take the business forward is an area of particular focus and, accordingly, we have developed a Strategic Leadership programme in partnership with an International Business School. The programme, which extends across all Sectors of the Group, builds the skills and capability of those with the greatest responsibility for leadership and strategy. Across the Group investment in the capability of our people is a priority and all employees have had the opportunity to provide feedback on their training needs for the coming year.

Each year employees have the opportunity to meet their line manager to discuss their performance over the previous year and make plans for development in the coming year. This update allows individuals to identify training opportunities and understand the role they play in the success of the Company which is captured within the Personal Development Update (PDU). This process is designed to ensure that each person has objectives which support business plans. It is intended to roll out the PDU to colleagues across the Group who currently do not take part.

Retaining key employees is critical to our continued business success. Group-wide talent is reviewed on a regular basis at Board level and our focus is to retain and develop those individuals who will carry our business forward. We actively move people to career

opportunities across the Group to enhance the mix of innovative, entrepreneurial and general management skills. In order to meet seasonal demands we continue to move our best front-line staff between retail, overseas representation and airline cabin crew roles. This develops a multi-skilled workforce that has year-round experience of working with our customers.

Policy and practice on payment of suppliers

Group – First Choice Holidays PLC and subsidiary companies

The Group's Divisions are responsible for agreeing the terms and conditions under which business transactions with their suppliers are conducted. Due to the nature of the Group's operations and in common with the industry as a whole, payments are often made in advance of the provision of goods and services. The Group does not follow any code or statement on payment practice but it is Group policy that payments to suppliers, whether in advance or after the provision of the goods or services, are made on the basis of the terms that have been agreed with them.

Company – First Choice Holidays PLC

The Company has no material contracts for the supply of goods or services. Where the Company is the recipient of goods or services, normally in the course of the acquisition of subsidiary companies, payment of suppliers is conducted by one of the Group companies, in accordance with the policy set out above.

Directors

The Directors who served during the year are set out below:

Sir Michael Hodgkinson	Non-Executive Chairman	
Peter Long	Chief Executive	
Paul Bowtell	Group Finance Director	
Dermot Blastland	Managing Director, Mainstream Holidays

Simón Barceló	Non-Executive Director	
Clare Chapman	Non-Executive Director	
Bill Dalton	Non-Executive Director	
Jeremy Hicks	Non-Executive Director	Appointed 10 March 2005
Susan Hooper	Non-Executive Director	Appointed 1 April 2005
Terry Green	Non-Executive Director	Resigned 1 April 2005
Richard Fain	Non-Executive Director	Resigned 1 April 2005

Biographical notes and, where applicable, details of terms of appointment for both the Non-Executive and the Executive Directors are given on page 59.

The Directors retiring by rotation at the Annual General Meeting (AGM) in accordance with the Articles of Association are Sir Michael Hodgkinson, Dermot Blastland and Clare Chapman who, being eligible, offer themselves for re-election. Susan Hooper and Jeremy Hicks, having been appointed since the last AGM, also offer themselves for re-election. The Board has announced the appointment of Giles Thorley as an additional independent Non-Executive Director with effect from 1 February 2006 and, accordingly, he will also offer himself for re-election at the AGM.

As reported in the Chairman's statement, Jeremy Hicks was appointed to the Board as a Non-Executive Director on 10 March 2005 and Susan Hooper replaced Richard Fain on 1 April 2005 as the Non-Executive Director nominated to the Board by Royal Caribbean Cruises Ltd. (RCCL) under the terms of the 14 July 2000 Relationship Agreement between the Company and RCCL.

The terms of the Directors' service contracts are disclosed on page 66. Directors' interests in the shares of the Company are disclosed on page 69.

Directors' interests in any contract of significance to the Group's business are disclosed in note 30 to the accounts.

Substantial shareholdings
As at 7 December 2005 the Company was aware of following interests in the issued ordinary share capital of the Company:

	Shares (millions)	%
Barclays Global Investors	73.55	13.88
Barceló Corporación Empresarial	59.11	11.16
M&G Investment Management	32.58	6.15
J P Morgan Fleming Asset Management	28.94	5.47
State Street Global Advisors	28.53	5.39
Scottish Widows Investment Partnership	25.26	4.77
Newton Investment Management	19.72	3.72
Standard Life Investments	18.70	3.53
Legal & General Investment Management	18.17	3.43

Save as above, no other person has reported an interest, which is notifiable under the Companies Act 1985, being an interest of 3% or more in the issued ordinary share capital.

Going concern
After making appropriate enquiries, the Directors have reasonable expectation that the Company and Group have adequate resources to continue operations for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the Accounts.

Charitable and political donations
During the year, the Group made charitable donations of £87,000 (2004: £25,000), including donations of £25,000 each to the Family Holiday Association and the Disaster Emergency Committee Tsunami Earthquake Appeal. The Group made no political contributions during the year (2004: £nil).

Auditors
In accordance with Section 384 of the Companies Act 1985, a resolution regarding the re-appointment of KPMG Audit Plc as auditors of the Company will be proposed at the forthcoming Annual General Meeting.

Other matters
An explanation as to the business, other than routine business, to be transacted at the Annual General Meeting, which is to be held on Thursday 23 March 2006 at 10.30am, is contained in the explanatory notes to the Notice of Annual General Meeting, which accompanies this Report and Accounts.

By Order of the Board

Andrew John
Company Secretary
7 December 2005

Remuneration Committee
The Remuneration Committee (the Committee) is responsible for all aspects of remuneration and contractual terms and conditions of the Executive Directors and members of the Group Management Board (GMB). The Remuneration Committee sets the remuneration policy and strategy for these employees and determines appropriate reward packages for them.

The activities of the Committee are governed by its Terms of Reference, which have been approved by the Board and can be found on the First Choice Holidays PLC website at www. firstchoiceholidaysplc.com.

The Committee is composed entirely of independent Non-Executive Directors. No member of the Committee has any personal financial interest (other than as a small shareholder – as disclosed in the table of interests in share and options on page 69) in the business of the Company. There are no conflicts of interest arising from Committee members' cross-directorships and they do not participate in any bonus schemes, pension plans, share options or any employee share scheme. Members of the Remuneration Committee have no day-to-day involvement in the running of the Company.

The current membership of the Remuneration Committee is:

Clare Chapman (Chairman)
Tony Campbell
Bill Dalton

Bill Dalton replaced Terry Green when he resigned from the Committee on 1 April 2005. During the year, the Committee met on three occasions.

Peter Long (Chief Executive) attends meetings of the Committee to make recommendations relating to the performance and remuneration of his direct reports. Bill Logan (Group HR Director) also provides advice and guidance to the Committee. Andrew John (Company Secretary) acts as Secretary to the Committee. Neither Peter Long, Bill Logan nor Andrew John are in attendance when their own remuneration is considered.

The Committee has appointed Mercer Human Resource Consulting (Mercer) to provide independent advice on all aspects of remuneration. Mercer also provides salary benchmarking information to the Company from time to time.

In addition, the following principal advisers provided advice to the Committee during the year:

> Watson Wyatt LLP prepared the Total Shareholder Return (TSR) calculations for the Restricted Share Plan. Watson Wyatt does not have any other connection with the Company; and

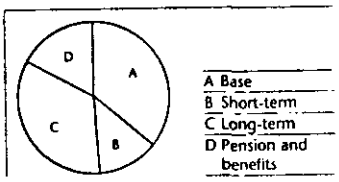
> Herbert Smith advised on the Directors' Remuneration Report and on various legal issues relating to the Company's share schemes. Herbert Smith also advises the Company on legal issues generally.

The Committee is constituted, and operated throughout the review period, in accordance with the relevant provisions of the Combined Code. This report complies with the Directors' Remuneration Report Regulations 2002. A resolution will be put to the shareholders at the Annual General Meeting on 23 March 2006 inviting them to consider and approve this report.

Remuneration policy
The objective of the Company's remuneration policy is to provide competitive packages to motivate, reward and retain high-calibre individuals at the senior management level.

The main principles of this policy are to:

> set the total remuneration package at an appropriate level to reflect the competitive market in which the Company operates;



> link a substantial proportion of the total remuneration package to the achievement of demanding performance targets;

> ensure the development of a high-performance culture throughout the Company; and

> structure the reward of senior management to align their interests with those of the shareholders.

In 2004, the Committee undertook a review of the Company's remuneration policy for the Executive Directors and members of the Group Management Board and took the view that a greater proportion of the package should be in the form of variable remuneration. As a result, the Company sought and obtained the approval of its shareholders to introduce new long-term incentive schemes at the AGM in March 2005. The new plans are a Performance Share Plan and a Deferred Annual Bonus Scheme, which will replace the existing Restricted Share Plan.

The charts below set out the balance between fixed and variable pay under the revised arrangements.

Elements of remuneration
The Executive Directors' total remuneration consists of the following elements:

> base salary;

> annual bonus;

> long-term incentives;

> pensions and life assurance; and

> other benefits.

The annual bonus and long-term incentives are performance-related.

Base salary
The Committee's policy is that base salaries for the Executive Directors should be paid at a market-competitive level having regard to job size, function and personal performance, measured against base salaries paid for equivalent roles in companies that reflect the talent pool from which we recruit.

The Committee normally reviews the base salaries of Executive Directors annually, and takes note of relative pay and employment conditions within the Company, in determining annual salary increases.

Annual bonus
Each Executive Director participates in an annual non-pensionable bonus plan. The Committee reviews the targets on an annual basis.

The maximum bonus potential is 100% of base salary for the Chief Executive and 87.5% for the other Executive Directors. For the financial year ending 31 October 2005, the annual bonus performance targets related to the achievement of pre-tax profits and personal objectives. For the Chief Executive and Finance Director, 80% of the annual bonus was based on Group pre-tax profit and 20% on personal objectives. For the Managing Director of the Mainstream Holidays Sector, 40% of his annual bonus was based on Group pre-tax profit, 40% on pre-tax profit of the Mainstream Sector and 20% on personal objectives.

In aggregate, bonuses of £1,186,250 were awarded to the Executive Directors for the year under review (2004: £721,840). It should be noted that, in 2004, Paul Bowtell's bonus was on a pro-rated basis as he was appointed in September 2004.

Long-term incentives
Deferred Annual Bonus Scheme (DABS)
The Deferred Annual Bonus Scheme was approved at the AGM in March 2005. Under the DABS, the Executive Directors are required to defer 25% of their performance-related annual bonus and have the opportunity to defer up to an additional 25% of their bonus into Company Shares (deferred shares). A conditional award of matching shares equal to four times the number of deferred shares is made at the same time.

Deferred shares vest after three years and matching shares also vest after three years subject to the achievement of performance conditions, as determined by the Committee. No matching shares will vest unless the annual average of the ratio of the Company's return on invested capital to the weighted average cost of capital (ROIC/WACC) exceeds 100% over the three-year period. A hurdle of ROIC, being at least equal to WACC, is used to ensure that the relevant long-term incentive schemes pay out only when shareholder value is being created over the performance periods. If the ROIC/WACC hurdle is met, shares will only vest to the extent to which two further performance conditions are satisfied over the three-year period as follows:

> Up to three-quarters of the matching shares will vest based on growth in the Company's earnings per share (EPS), before goodwill and exceptional items, in relation to the growth in the UK Retail Price Index (RPI) as shown in the table below:

Average annual EPS growth in excess of RPI growth	Proportion of matching shares vesting
Below 4%	0%
Between 4% and 13%	On a straight-line basis between 10% and 100%
13% or above	100%

> Up to one-quarter of the matching shares will vest based on the Company's ranking of Total Shareholder Return (TSR) performance in relation to the TSR of the FTSE 250 constituents (excluding investment trusts) over the three-year period as shown in the table below:

TSR Ranking	Proportion of matching shares vesting
Below median	0%
Between median and upper quartile	On a straight-line basis between 10% and 100%
At or above upper quartile	100%

There will be no re-testing of the performance conditions after the three-year performance period.

The Committee considers that EPS and TSR are the key performance conditions that are most relevant to the Company. EPS is a key indicator of the Company's underlying financial performance whilst TSR is a relative measure of shareholder value creation.

The first deferral under the DABS was made in December 2005, based on the annual bonus earned in the financial year ending 31 October 2005. The Executive Directors have elected to defer an additional 25% of their annual bonus (50% of annual bonus in total).

Performance Share Plan (PSP)
Under the PSP, the Executive Directors are eligible to receive conditional awards of shares annually, which vest after a three-year period subject to the achievement of performance conditions, as determined by the Committee.

No shares will vest unless ROIC/WACC exceeds 100% over the three-year period which is the same hurdle as for the DABS above.

If the ROIC/WACC hurdle is met, shares will only vest to the extent to which a performance condition based on growth in EPS, before goodwill and exceptional terms, in relation to RPI growth over the three-year period is met, as shown in the table below:

Average annual EPS growth in excess of RPI growth	Proportion of shares vesting
Below 4%	0%
Between 4% and 13%	On a straight-line basis between 10% and 100%
13% or above	100%

There will be no re-testing of the performance conditions after the three-year performance period.

The Chief Executive will receive an annual award equivalent to 100% of his salary. The other Executive Directors will receive annual awards of 75% of their respective salaries. The first award under the PSP was made in December 2005.

Long-Term Cash Bonus for the Chief Executive

The Chief Executive, Peter Long, participates in a Long-Term Cash Bonus (the Bonus), which was approved at the AGM in March 2005. A one-off cash bonus will be payable at the end of a five-year period ending 31 October 2009, subject to meeting pre-determined performance conditions over that period. The objective of the Bonus is to incentivise the Chief Executive to achieve demanding financial and personal objectives and to ensure his retention by the Company.

The maximum that may be earned under the Bonus is £1.5m. No payment will be made unless ROIC/WACC exceeds 100%, on average, over the five-year period. The amount of bonus payable will depend on the extent to which the following three separate performance tests are met:

> 50% of the Bonus will depend on relative TSR against constituents of the FTSE 250 (excluding investment trusts) and will be paid out according to the same schedule set out under the DABS section above.

> 35% of the Bonus will be based on the EPS growth against RPI growth and will be paid out according to the same schedule set out under the DABS and PSP sections above.

> The remaining 15% of the Bonus will be payable for the achievement of personal objectives.

The Bonus is non-pensionable.

Restricted Share Plan (RSP)

The final award of restricted shares under the RSP was made in December 2004. Awards were made on an annual basis to most participants. The exception was the Chief Executive who received periodic awards so that the total original value of all his outstanding awards was equal to four times his annual salary.

The other Executive Directors received annual grants with an original value equivalent to 50% to 100% of salary.

Awards under the RSP vest three years from the award date to the extent that a pre-determined TSR-based performance condition in relation to the constituents of the FTSE mid-250 (excluding investment trusts) is met as shown below:

TSR Ranking	Proportion of restricted shares vesting
Below median	0%
Between median and upper quartile	On a straight-line basis between 10% and 100%
At or above upper quartile	100%

If all, or part, of the restricted share awards do not vest after the three years, the residual award is re-tested on a six-monthly basis, from a fixed start date, until the performance condition is met. If the performance condition is not met by the seventh anniversary of the date of award, the outstanding awards will lapse.

For the Executive Directors, shareholder approval was obtained at the AGM in March 2005 to change the TSR performance condition described above to the performance conditions attached to the awards made under the PSP. All Executive Directors agreed this change.

Therefore, all restricted share awards (apart from the exception detailed below) made from 14 December 1999 to 23 December 2004 will now be subject to the ROIC/WACC hurdle and the EPS growth in relation to RPI growth performance condition described above. The performance period for these awards is 1 November 2003 to 31 October 2006 and there will be no opportunity to re-test the performance conditions attached to these awards. If the performance condition is satisfied, those awards made from 14 December 1999 to 31 October 2003 will mature on 31 October 2006 but those granted after 1 November 2003 will not mature until the third anniversary of the date of each award. The number of shares maturing will reflect the extent to which the performance conditions are met.

The award of restricted shares made to the Executive Directors and members of the GMB on 5 October 1998 was not converted to the new performance targets. As the award was due to lapse on 5 October 2005 in accordance with the rules of the Restricted Share Plan (seven years after the grant date), conversion would have necessitated an extension to the life of the award and this was not considered appropriate. Unvested shares remaining under the award were tested under the existing TSR performance conditions in October 2005 and the award lapsed after that date.

Senior Executive Plan (SEP)

The SEP expired in 2004 and the last award under the plan was made in December 2003. Under the SEP, options with original values of between 150% and 200% of base salary were awarded to the Executive Directors in October 2002 and December 2003.

At the AGM in March 2005 approval was also obtained to amend the performance condition attached to the vesting of the options to the ROIC/WACC hurdle and EPS growth in relation to RPI growth performance condition as described above. The previous performance condition was based on relative TSR against the constituents of the FTSE 250 (excluding investment trusts) measured over a five-year period.

The extent to which the outstanding awards made in October 2002 and December 2003 vest on 31 October 2007 and 31 October 2008 respectively will be determined by the extent to which the new performance conditions are met over the five-year performance period corresponding to each award.

Pensions and life assurance
All the Executive Directors participate in HMRC-approved defined contribution schemes.

The Company makes a contribution of 50% of basic salary for the Chief Executive. Contributions are paid into a self-invested personal pension up to the permitted limits and further contributions are paid into an individually-funded unapproved retirement benefit scheme.

The other Executive Directors all participate in a Revenue-approved defined contribution pension scheme, with the Company contributing 25% of total basic salary.

During 2005, the Committee reviewed the Company's pension policy in anticipation of the introduction of the new pension tax regime in April 2006. It has decided that pension scheme participants would not be compensated for any tax adverse consequences.

The Committee has also decided that, in the event of a participant in a pension scheme reaching the lifetime allowance and choosing not to accept further pension contributions, a non-pensionable cash allowance equivalent to the Company's contribution to the pension scheme would be offered in lieu.

The normal retirement date for the Executive Directors is 60.

In the event of death, the pension scheme provides lump sums for the purchase of dependants' pensions of the greater of eight times salary and the value of the approved pension fund. On death-in-service, a lump sum of four times salary, subject to the earnings cap, is also payable. A separate life assurance policy provides death-in-service benefits over the earnings cap. These arrangements are currently under review, in light of the Finance Act 2004, and any changes will be effective as from April 2006.

Other benefits
Other benefits provided to the Executive Directors include permanent health insurance, private medical insurance, medical examinations, the provision of a company car (or a non-pensionable cash alternative) and holiday concessions of £2,500 per annum.

Executive Directors are eligible to participate in the Company's Savings Related Share Option Scheme and the HMRC-approved Share Incentive Plan. These are all-employee share schemes that enable staff to acquire shares in the Company on preferential terms. To further encourage employee shareholding in the Company, the Share Incentive Plan was enhanced in 2005 to provide for the Company to award a matching share for every four shares bought by a participant under the plan.

Subject to the approval of the Board, the Executive Directors are allowed to accept non-executive director appointments and retain the fees received. Peter Long received and retained non-executive director fees of £61,666 (2004: £69,250) in respect of two appointments – he resigned one of his non-executive directorships during the year.

Shareholding guidelines
In line with its policy of aligning senior management interests with those of shareholders, the Executive Directors and GMB members will be required, by November 2010, to hold, at a minimum, the following number of shares in the Company:

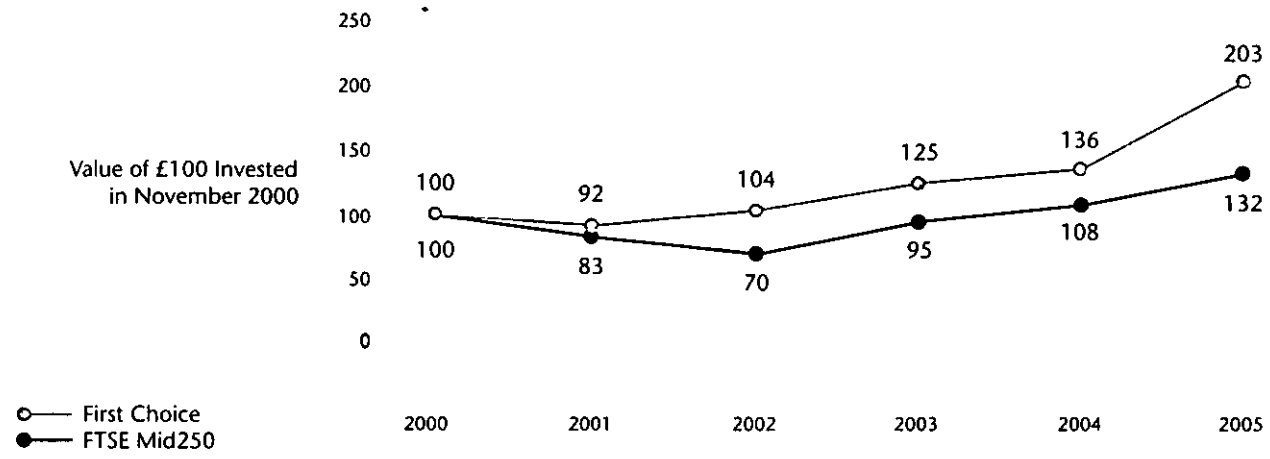
	Number of shares
Chief Executive	500,000
Other Executive Directors	270,000
Other GMB members	100,000 to 175,000

Service contracts
All the Executive Directors have service contracts with the Company that can be terminated on six months' notice from the Director or on 12 months' notice from the Company.

Service contracts for the Executive Directors do not include any provisions for the payment of compensation in the event of early termination save for the ability of the Company to exercise its discretion to make a payment in lieu of all or part of the notice period to the Executive Directors subject to any obligation they may have to mitigate any post termination losses.

Non-Executive Directors
The Non-Executive Directors do not have service contracts and do not participate in the Company's pension scheme, annual bonus scheme or long-term incentive schemes. Non-Executive Directors have letters of appointment and their appointments can be terminated by either party by serving six months' notice. Each appointment is for three years.

Non-Executive Directors receive a basic annual fee. The fees payable to the Non-Executive Directors are determined by the Board as a whole, based on relevant external market research and consultations with internal and external advisors.



During the year the Chairman's fees were increased from £150,000 to £170,000 per annum. The other Non-Executive Directors receive a fee of £33,000 per annum. In addition the Board pay an additional fee of £5,000 per annum to the Senior Independent Director (Tony Campbell) and to the Chairmen of the Audit and Remuneration Committees (Jeremy Hicks and Clare Chapman respectively).

The Non-Executive Directors also receive annual holiday concessions to the value of £2,500 per annum.

Performance graph
Total Shareholder Return (TSR), comprising the changes in value of a share and dividends distributed, can be represented by the value of a notional £100 invested at the beginning of a period and its change over that period.

A graph showing TSR in respect of the Company over five years from 1 November 2000 is given below. The TSR performance for the Company is compared with the TSR for the mid-FTSE 250 Index, which was considered to be the most appropriate benchmark for comparison purposes as it is the principal index in which the Company's shares are quoted.

Cumulative TSR performance

The auditors are required to report on the information contained in the following section of this report.

Remuneration

1 Sir Michael Hodgkinson (Non-Executive Chairman) was appointed during 2004 and his fees were increased with effect from April 2005.
2 Paul Bowtell was appointed during 2004 and, under the terms of his contract, he was paid £110,000 during the year as compensation for loss of entitlement to performance related benefits from his previous employment. Benefits in kind include an amount of £64,592 (2004: £15,000) for relocation costs.
3 Bill Dalton was appointed during 2004.
4 Jeremy Hicks and Susan Hooper were appointed during the year.

The Executive Directors have each elected to defer 50% of their bonus entitlement for the year under the terms of the DABS described on page 64.

Interests in shares and options

The interests of Directors in the share capital of the Company are set out below:

	Ordinary shares			Options				Restricted shares		
	31 October 2005	31 October 2004	31 October 2005	Granted	Exercised	31 October 2004	31 October 2005	Granted	Exercised	31 October 2004

* in accordance with the amendments to the Restricted Share Plan approved by the Shareholders.

During the year the price of the Company's ordinary shares ranged between 135p and 218.25p and was 195.25p on 31 October 2005.

On 1 November 2005, the following shares were allocated to the Directors in respect of the Dividend Reinvestment Plan (the DRIP):

Louise Bowtell (wife of Paul Bowtell)	100
Tony Campbell	379

The report was approved by the Board of Directors on 7 December 2005 and has been signed on its behalf by:

Clare Chapman

Clare Chapman
Chairman of the Remuneration Committee
7 December 2005

Corporate governance
First Choice has made further progress during the year to ensure that its commitment to maintaining high standards of corporate governance continues. Throughout the year, all provisions of the Combined Code were complied with except for: Code Provision A3.2 (half the Board, excluding the Chairman, should comprise independent Non-Executive Directors) and Code Provision D1.1 (the Senior Independent Director should meet with a range of major shareholders to listen to their views in order to help develop a balanced understanding of the issues and concerns of major shareholders). Explanations for non-compliance are given below.

The Board and Directors
The Company is controlled through its Board of Directors, which meets regularly including away days, to review the strategy of the Group. The schedule of matters specifically reserved to it for decision include: determining the strategy and control of the Group; amendments to the structure and capital of the Group; approval of financial reporting and controls; oversight of the Group's internal controls; approval of capital and revenue expenditure of a significant size; acquisitions, disposals and share dealings; Board membership and appointments; approval of remuneration of Directors and certain senior management; corporate governance matters; and approval of Group policies and risk management strategies.

The Board has delegated authority to the Committees of the Board on specific matters. The executive management is delegated to the Chief Executive, Executive Directors and certain other senior managers who, together, form the Group Management Board (the GMB), the membership of which is disclosed on page 79. Details of the Nomination and Audit Committees are given on page 72, and details of the Remuneration Committee are given on page 63.

The Terms of Reference for the Board and its Committees are available for inspection on the Company's website and will be available at the Annual General Meeting (AGM).

The division of responsibilities between the Chairman and Chief Executive is clearly established and has been agreed by the Board. All Directors have access to the advice and services of the Company Secretary and all Directors can take independent professional advice, if necessary, at the Company's expense. No such advice was sought by any Director during the year. The Company has in place appropriate insurance cover in respect of legal actions against its Directors and the level of cover is regularly reviewed. The Company Secretary is responsible for ensuring Board procedures are followed including the formal minuting of any unresolved concerns that Directors may have. During the year no such unresolved issues were minuted.

Sir Michael Hodgkinson met the independence criteria laid out in the provisions of the Combined Code at the time of his appointment. The Non-Executive Directors met to consider the performance of the Chairman. The views of all the Directors on the Chairman's performance were obtained via a confidential questionnaire and the results were considered by a meeting of the Non-Executive Directors (excluding the Chairman) and discussed with him.

Details of the Chairman's other significant commitments, which have not changed since last year, are given in his biography on page 59. The Chairman does have a number of other roles but the Board is satisfied that these do not interfere with the performance of his duties as Chairman of the Company, which are expected to require at least one day per week.

The seven Non-Executive Directors all bring independent judgement to the Board, although the Board accepts that Susan Hooper (who replaced Richard Fain on 1 April 2005) and Simón Barceló may not be considered to be wholly independent (refer to note 30 on page 56). The Non-Executive Directors considered to be independent are Tony Campbell (Senior Independent Director), Clare Chapman, Bill Dalton and Jeremy Hicks. The Board recognises that the Combined Code requires that at least half the Board, excluding the Chairman, should be independent Non-Executive Directors. Jeremy Hicks was appointed during the year and has been appointed as Chairman of the Audit Committee. He is a qualified accountant and has recent and relevant financial experience.

The Board has announced the appointment of Giles Thorley as an additional independent Non-Executive Director. After qualifying as a Barrister, he had an early career at Nomura International PLC and has been in his current post of Chief Executive at Punch Taverns plc since 2001. At Punch, Giles successfully led the IPO and Punch's subsequent acquisition of Pubmaster for £1.2 billion. As a result, Punch now has an estate in the order of 8,000 pubs and is capitalised at approximately £2 billion. Giles Thorley's wealth of experience as a leader in public companies with retail interests, and in the integration of acquisitions, will be of significant value to the Board. Following the appointment, the independent Non-Executive Directors, excluding the Chairman, will comprise half the Board and therefore, with effect from this appointment, the Company will be in compliance with provision A3.2 of the Combined Code.

The letters of appointment of the Non-Executive Directors are available for inspection at the Company's registered offices and will be available at the AGM.

All Directors are subject to election by shareholders after their initial appointment and, accordingly, the shareholders will be asked to approve the appointment of Jeremy Hicks, Susan Hooper and Giles Thorley at the AGM on 23 March 2006. Thereafter all Directors are subject to re-election by shareholders at intervals of no more than three years. Sir Michael Hodgkinson, Dermot Blastland and Clare Chapman will be proposed for re-election at the next AGM. Full biographical details are on page 59. Shareholders will be sent, as part of the papers accompanying the resolutions to re-elect the Non-Executive Directors, statements as to why the Company believes they should be re-elected. The Chairman intends to confirm at the AGM that the individuals' performance continues to be effective and to demonstrate commitment to the role.

Nomination Committee
The nomination of suitable candidates for approval of the Board of Directors to fill Executive and Non-Executive vacancies on the Board is carried out by the Nomination Committee, which comprises the Chairman and three Non-Executive Directors. The composition of the Nomination Committee is set out on page 79.

The meetings of the Committee were chaired by the Non-Executive Chairman. Prior to the appointments of Jeremy Hicks and Giles Thorley, the Nomination Committee considered the existing skills and knowledge of the Board before providing an external search consultancy with a description of the capabilities required for these appointments. The Nomination Committee believes these appointments significantly enhance the level of financial and commercial skills among the Non-Executive Directors. Jeremy Hicks has recent and relevant financial experience gained as the Finance Director of a FTSE-250 company. Prior to his appointment Jeremy Hicks confirmed he had sufficient time to complete his responsibilities and his other commitments are listed in the biographical notes on page 59. Similarly, for Giles Thorley, the Board has considered his other commitments and he has confirmed that he will have sufficient time to fulfil his non-executive role – full biographical details are included in the Notice of the AGM.

Susan Hooper was appointed in accordance with the terms of the Relationship Agreement then in force between Royal Caribbean Cruises Ltd. and the Company as a replacement for Richard Fain. Consequently, neither the use of external search consultancies or open advertising was appropriate for this appointment.

Following the appointment of a new Director, the Chairman, in conjunction with the Company Secretary, is responsible for ensuring that a full, formal and tailored induction to the Company is given. A detailed induction programme is underway for both Jeremy Hicks and Susan Hooper and will also be provided for Giles Thorley.

Audit Committee
The Audit Committee operates under written Terms of Reference to assist the Board in the discharge of its duties with regard to the Group's accounts, the review of internal controls and risk management systems and the external audit.

The composition of the Audit Committee, which is chaired by Jeremy Hicks, is set out on page 79. Jeremy Hicks took over the role of Chairman from Tony Campbell who remains a member of the Committee. All members of the Committee are considered to be independent. In accordance with the Combined Code, the Board is satisfied that Jeremy Hicks has "recent and relevant financial experience". Bill Dalton, the former Chief Executive of HSBC Bank plc, became a member of the Audit Committee in December 2004 and has also brought additional financial expertise to its deliberations.

The Chief Executive, Group Finance Director and Director of Business Assurance normally attend meetings and Non-Executive Directors may attend meetings from time to time. The Chairman of the Committee also meets with the external auditors without management present.

The Committee's duties include:

> monitoring the integrity of the financial statements of the Company and formal announcements relating to the Company's financial performance and reviewing the significant financial reporting judgments contained in them;

> reviewing the Company's internal financial controls and the Company's internal control and risk management systems;

> monitoring the effectiveness of the Company's Business Assurance function (which includes Internal Audit) through meetings with the Director of Business Assurance, the agreement, in advance, of annual work plans and the review of the results of the work undertaken;

> the consideration of the appointment, re-appointment and removal of the external auditors and the approval of their remuneration and terms of their engagement. During the year the Audit Committee considered and recommended the re-appointment of the incumbent auditors. The detailed scope of the audit is agreed with the external auditors prior to the commencement of their work and their findings are considered prior to the approval of the financial statements. The level of remuneration for these services has been approved. As part of the re-appointment process the independence of the incumbent auditors was reviewed;

> the development of a policy for the engagement of the external auditors to supply non-audit services. The Audit Committee has concluded that, in some cases, the provision of non-audit services by the incumbent auditors is appropriate and this has been communicated to the Board. Auditor independence and objectivity are safeguarded by the Audit Committee monitoring and approving, where appropriate, the nature of the work and the level of fees paid for non-audit services as a proportion of the total audit fees paid.

During the year an assessment of the external auditors was undertaken with the findings being considered by the Audit Committee and discussed with the external auditors. The assessment took the form of a questionnaire circulated to individuals across the Group with whom the auditors had significant dealings. The questionnaire addressed, among other matters, the robustness of the audit, the quality of judgements and the quality of the auditors' personnel and service.

The Group has a confidential telephone line operated by an independent third party to allow staff to raise concerns on financial reporting or other matters. Concerns raised in this way are directed to Business Assurance so that appropriate action can be taken. This telephone line is available to all staff worldwide.

Board and Committee meetings

The number of full Board and Committee meetings attended by each Director during the year was as follows:

	Scheduled Board meetings	Audit Committee meetings	Remuneration Committee meetings	Nomination Committee meetings
Sir Michael Hodgkinson (Chairman)	8(8)	1(1)	N/A	1(1)
Peter Long (Chief Executive)	8(8)	N/A	Part of 1	N/A
Paul Bowtell (Group Finance Director)	8(8)	N/A	N/A	N/A
Dermot Blastland (Executive Director)	8(8)	N/A	N/A	N/A
Tony Campbell (Senior Independent Director)	8(8)	4(4)	3(3)	N/A
Terry Green (Non-Executive Director)	3(4)	1(2)	1(2)	1(1)
Simón Barceló (Non-Executive Director)	6(8)	N/A	N/A	1(1)
Richard Fain (Non-Executive Director)	4(4)	N/A	N/A	N/A
Susan Hooper (Non-Executive Director)	2(4)	N/A	N/A	N/A
Clare Chapman (Non-Executive Director)	6(8)	N/A	3(3)	1(1)
Bill Dalton (Non-Executive Director)	7(8)	3(4)	1(1)	N/A
Jeremy Hicks (Non-Executive Director)	2(4)	2(2)	N/A	0(0)

ures in brackets indicate the maximum number of meetings in the period in which the individual was a Board member. In addition to the full meetings of the Board, the Chairman has held one meeting with Non-Executive Directors without the Executive Directors being present and the Senior Independent Director has chaired a meeting of the Non-Executive Directors without either the Chairman or the Executive Directors being present. At this meeting the results of the questionnaire circulated to Directors to assess the Chairman's performance were considered and the conclusions of the discussion were later communicated to the Chairman.

Board, Committee and individual performance

An assessment of the performance of the Board and its Committees was undertaken by means of a detailed questionnaire, designed by the Company Secretary and completed by each Director. The questionnaire covered 16 areas including the processes for setting the strategy of the Company, monitoring business performance, corporate governance and the effectiveness of the Executive Directors, Non-Executive Directors and the Board's Committees.

The findings were discussed by the Non-Executive Directors and the Chairman and were then referred to the Board as a whole. was agreed that the action points arising out of the 2004 Board performance assessment had been successfully addressed with all Directors in particular benefiting from fewer but longer Board meetings and a greater emphasis on strategy. In general, the Board considers its structures, composition and proceedings to be effective. The 2005 assessment has identified the desire for the Nomination Committee to be more proactive and this issue will be addressed early in 2006.

An assessment of each individual Director's performance was undertaken during the year. The performance of each Director was measured against 12 criteria with peers being requested, confidentially, to rate that Director's performance by reference to the criteria. The Chairman then discussed the overall result for each Director with him or her and any concerns were addressed.

Internal control

The Board has overall responsibility for the Group's system of internal control and for reviewing its effectiveness, while the role of management is to implement Board policies on risk and control.

The system of internal control is designed to manage and mitigate rather than eliminate the risk of failure to achieve business objectives. In pursuing these objectives, internal controls – which include financial, operational and compliance controls – and risk management can only provide reasonable, and not absolute, assurance against material mis-statement or loss. The Board has reviewed the effectiveness of internal controls during the year.

The Board confirms that there is an ongoing process for identifying, evaluating and managing the significant risks faced by the Group; that this has been in place for the year under review and up to the date of approval of the Annual Report and Accounts; that this process is regularly reviewed by the Board; and that the process accords with the Turnbull Guidance.

The key elements of the control framework and review processes in place across the Group are as follows:

> The Board sets corporate strategy and business objectives. The GMB and Sector management integrate these objectives into their operational and financial business plans. Where areas for improvement in the system of internal control are identified, the Board considers the recommendations made by the GMB and the Audit Committee;

> The GMB meet regularly together with other senior executives to consider Group operational and financial performance and business development. The Chief Executive reports to the Board on behalf of the GMB on significant changes in the business and the external environment. The Group Finance Director provides the Board with monthly financial information which includes key performance and risk indicators;

> The Audit Committee, with assistance from certain related management committees, oversees key risks, such as financial risk, health and safety, corporate and social responsibility and the environment, where such risks apply across all Sectors. Each Sector has established a Sector Risk Management Committee, which is responsible for ensuring that the risks facing that Sector's business are identified and that related action plans are implemented. The committees ensure that the recommendations to mitigate risks are being actioned;

> The Business Assurance function independently reviews the risk identification procedures and control processes implemented by management and reports its findings to the Audit Committee three times per year, or more frequently if appropriate;

> The Audit Committee reviews: external audit work plans and that of the Business Assurance function; reports by Business Assurance on the Group's risk assessment process; and reports from both internal and external audit on the system of internal control, including the identification of material weaknesses. The Chairman of the Audit Committee reports to the Board on the outcome of the Audit Committee meetings held and the Board receives the minutes of all such meetings;

> The Treasury position of the Group, including cash, foreign exchange and fuel hedging exposure, is managed centrally in accordance with policies appropriate for each Sector and is the responsibility of the Group Finance Director and Group Treasurer. Reports and forecasts are submitted monthly to the Board;

> Financial forecasts, providing predicted results with sensitivity analysis, are prepared routinely throughout the year for review by the Board. These forecasts also include details of the Group's ongoing compliance with its regulatory and banking requirements. The Group has established investment appraisal and authorisation procedures and its capital expenditure is reviewed against budgets which have been approved by the Board;

> There are policies and procedures for the reporting by employees and resolution of suspected fraudulent activities. It is the policy of the Group to employ staff and management of high integrity, to train them appropriately and to require compliance with all relevant laws, regulations and internal policies.

During 2004, the Group identified a series of financial irregularities in the Engineering Department of First Choice Airways Limited (FCA), which resulted in the dismissal of two senior FCA employees. The impact of these financial irregularities on the Group's accounts was not material and there are no adverse safety or operational effects for FCA. Civil suits were commenced against those employees and certain other parties in order to recover monies. Internal controls at FCA have been the subject of both internal and independent external review and measures have been taken to further strengthen those controls. As a result of the civil action taken, the Company has recovered a total of £4.5m, representing more than 90% of the total financial irregularities identified.

Communications with shareholders

The Chief Executive and Group Finance Director hold regular meetings with major shareholders to review the Group's performance and prospects. The views of shareholders are communicated to all members of the Board following such meetings. During the course of these meetings the issue of governance is discussed. Presentations to major shareholders are made at least twice yearly, after the announcement of the interim and preliminary results, the details of which, together with the Group's financial reports and other announcements, can be accessed via the Group's website www.firstchoiceholidaysplc.com. The Combined Code recommends that the Senior Independent Director meets with a range of major shareholders to gain an understanding of their views. In practice, as a result of the extensive feedback provided, the Senior Independent Director and other Non-Executive Directors believe that they are aware of such issues, and that, unless requested by major shareholders, such meetings are unnecessary.

There is also an opportunity for shareholders to question the Chairman and other Directors (including the Chairmen of the Audit, Remuneration and Nomination Committees) at the Annual General Meeting. This forum also provides Non-Executive Directors with the opportunity to discuss the views of shareholders with them directly.

At general meetings:

> The Company prepares separate resolutions on each substantially separate issue and does not combine resolutions together inappropriately;

> A schedule of proxy votes cast is made available for inspection at the conclusion of the proceedings; and

> The Annual Report & Accounts is laid before shareholders at the Annual General Meeting.

First Choice has made a clear commitment to sustainable development – balancing respect for people, environmental protection and long-term sustainable business success.

Management of sustainable development
Dermot Blastland, MD of the Mainstream Holidays Sector, takes responsibility for sustainable development on behalf of the Board. Social, environmental and ethical risks are managed through the Group risk management approach. These issues are raised at Sector and Group risk management committees which meet every six months. Each Sector has its own risk register to help manage non-financial risks and these feed into the overarching Group risk register which is reviewed by the Group Risk Management Committee. The Group Risk Management Committee reports through the Audit Committee to the Board. In addition, social and environmental issues are included in the Health, Safety and Environment monthly report made by the Director of Legal Affairs & Company Secretary to the Group Management Board.

Key achievements 2004/05
In March our ranking on the UK Business in the Community's Environment Index rose significantly, marking us out as one of the 10 most improving companies listed.

In September the Company was listed in the FTSE4Good Index for the first time, recognising our disclosure of environmental management targets and data, governance standards and good standards of employee policies and practices.

In October we published our first public Environment and People Report on our sustainable development progress so far. The Report is housed on a dedicated website at www.fcenvironmentandpeople.com and is also accessible via our corporate website at www.firstchoiceholidaysplc.com. In the Report we publish for the first time environmental data and targets across our significant environmental impacts, as well as some social data, for example on employee diversity.

In order to raise awareness of the Report internally we have run an employee competition, which directs people to the Report and offers the opportunity to win an overseas conservation trip. We have also translated a summary of the Report into five languages and communicated the key points of the Report through our existing internal cascade process.

We will update the Environment and People Report in April 2006 to disclose our environmental data for the year 2004/05 and targets for 2005/06. We will then continue to report annually in April.

First Choice has been working closely with other airlines and the wider aviation industry, including airport operators and aircraft and engine manufacturers, to develop a strategy towards sustainable development of UK aviation. This strategy was launched in June 2005 and had been endorsed by the Government (www.sustainableaviation.co.uk).

Looking forward to 2005/06
First Choice is currently working with the sustainable development charity "Forum for the Future" on a project to identify the embedded key business opportunities, which will enable us to take our commitment to sustainable development forward. This project is being championed by Dermot Blastland, Board member with responsibility for sustainable development, and will engage the Group Sector Boards and the Group Management Board in the first and second quarters of the year 2005/06.

This project will also involve training for the Group Management Board and Group Sector Boards in sustainable development issues.

In evaluating the business opportunities that may arise from our commitment to sustainable development, the Board will use the Group's formal strategic decision-making methodology.

In the first quarter of 2005/06 we are completing Business in the Community's Corporate Responsibility Survey. This is the first time that we are completing the sections on market-place, community and work-place issues and the third time we are completing the environment section. The results of the survey will provide us with a benchmark for measurement against other UK-based companies working on sustainable development.

During 2005/06 we will also be expanding and enhancing our existing business ethics standards by introducing a Business Code of Conduct. At present all senior managers and Directors are required to sign a declaration that they are not subject to any conflict of interest.

Risk management
First Choice Holidays PLC (First Choice) attaches great importance to risk management at all levels of the business and has now invested in increased resources to move the identification, monitoring and controlling of operational risk to the next level of sophistication. The Group continues to strive for greater transparency of risk and to promote the sharing of knowledge between its businesses for the greater good of the whole organisation and its stakeholders.

The strategy for risk management has been enhanced by the declared intention to drive risk management principles deep into the day-to-day business of each of the Sectors. The setting of policy and monitoring of performance is the responsibility of the Financial Risk Management Committee and the Health, Safety & Environmental Risk Management Committee. These committees are responsible to the Group Risk Management Committee, and ultimately to the Audit Committee, thereby providing Directors with the assurance that risks are managed appropriately at all times.

The Group Risk Management and Business Assurance Departments work closely to monitor key performance indicators (KPIs) relevant to each risk and to ensure that actions identified to control and mitigate these risks are subject to a continual internal auditing process.

A more co-ordinated Group-wide approach to risk management, based on a sound structure and reflecting the way the businesses are operated, is now in place. Having built the platform to identify, monitor and mitigate risk and having assembled the required resources, the focus for 2006 is to raise awareness of operational risk management throughout the Group.
