TUI Travel PLC

Trading Update

TUI Travel PLC is pleased to provide an update on current trading and outlook. This announcement also contains the financial information for TUI Travel PLC which has today been disclosed as part of the TUI AG 3rd quarter results.

Summer 2007

Since the trading update announced on 26 September the Summer 2007 season has traded out well and as a consequence, the TUI Travel PLC Board is satisfied that both the First Choice and TUI Tourism businesses will meet their expectations in respect of their 2007 financial year ends.

Current Trading

For Winter 2007/08 and Summer 2008, demand across the group, for those businesses on sale, has remained encouraging.

UK consumer demand for leisure travel remains strong, reflecting higher demand for overseas holidays following poor weather conditions in Summer 2007. Consumers continue to view overseas travel as an integral part of their annual expenditure, a fact validated by the results of our annual survey of customers' attitudes on overseas travel and spending. This survey confirmed, for the third year running, that 80% of customers consider their holiday to be a significant event in the year and not a luxury item, while 90% said they would not choose holidays as the primary area on which to cut spending. In Germany, we are also experiencing healthy demand as the strengthening economy, buoyed by improving employment rates and rising disposable income, stimulates consumer demand for our portfolio of travel products.

Strong demand for leisure travel in our markets is borne out in the encouraging forward trading position for both the Winter 2007/08 and Summer 2008 programmes.

3 Laterooms.com – Winter season is not significantly sold at this point in time

As we enter the peak selling period for the Winter 2007/08 programme, we remain pleased with performance to date with load factors in the key source markets ahead of prior year.

UK Mainstream trading remains strong with total sales up 7% and margins tracking slightly ahead of last year. Volumes are down 2% on capacity reduced by 11%, primarily within the short-haul segment. First Choice continues to benefit from remixing its programme to differentiated medium-haul and long-haul product with sales up 24% and 22% respectively, with bookings driven by consumer demand for Egypt, Tunisia, Mexico and the Dominican Republic. Total capacity is down 10% primarily as the business reduces its Winter programme in the Canaries. Thomson sales are up 2% with 7% lower volumes on capacity reduced by 11%. Short-haul capacity for the season has been reduced by 29%, primarily as a result of scaling back loss making scheduled 'city pair' routes, on which capacity has been halved.

We are pleased with trading across the Nordics region, where margins are tracking ahead of last year, as demand for long-haul package holidays and differentiated content, such as the portfolio of Blue Villages, drive sales growth of 19%.

In both the Central Europe and Western Europe regions, we are experiencing strong growth with sales up 9% and 6% respectively, on capacity that is marginally up.

Within the Specialist sectors, demand for our portfolio of destination specialist businesses and activity adventure businesses remains strong, with sales up 4% and 11% on a like for like basis. In Canada, where market conditions are challenging, trading started more slowly than last year but has picked up in recent weeks, with the load factor for the peak months of January and February now in line with last year.

Summer 08

As we continue our post merger 100 day review, we are exiting unprofitable lines of business for Summer 2008 wherever possible, particularly within the short-haul segment in the UK and German source markets. As a result, UK capacity will be down 12% as we scale back the loss making scheduled flying programme within Thomson. As previously announced, capacity in Germany will be approximately 10% lower, following the return of eight aircraft for the Summer 2008 programme.

For Summer 2008, the UK & Ireland Mainstream and TUI Nordic programmes are the only businesses that have been on sale for any reasonable time period. Even though it remains early in the selling period, we remain encouraged by trading in the UK where sales are up 12% on volume growth of 6%. Margins in the UK & Ireland Mainstream business are slightly ahead of last year, despite continued cost pressures, particularly the year on year increase in fuel costs and APD recovery.

Currently, the First Choice programme remains 4 percentage points further sold than at the same point last year with sales 24% ahead on customer bookings that are up 18%. Both medium haul and long haul programmes are experiencing strong demand with sales up 36% and 17% respectively. In Thomson bookings are 1% down on capacity that has been reduced by 16%. The programme is 2 percentage points further sold than last year.

In the Nordic region, although it is early in the season, sales are up 23% on volume growth of 18%. The programme is 1 percentage point further sold than the prior year, with margins tracking ahead.

Integration Process

The integration process continues to progress in line with our expectations. On 29 January 2008, we will host an Investor Day at which we will present the conclusions of the first 100-day review, as well as updates on both the integration process and group strategy.

Proformas

TUI Travel PLC will issue proforma financial information for the 12 months ended 30 September 2007 and 30 September 2006 on 13 December 2007.

3rd Quarter Financial Results

TUI AG has today published its 3rd Quarter Interim Report. This report includes the results of the TUI AG Tourism division. It should be noted that the TUI AG Tourism division includes TUI Hotels & Resorts that do not form part of TUI Travel PLC.

The TUI AG 3rd Quarter Interim Report is based on the results of the TUI tourism division for the nine months to 30 September 2007 and First Choice Holidays for one month to 30 September 2007.

For ease of reference we have split out the TUI Hotels & Resort result in the table below. For completeness, we have also included, in Appendix 1 of this announcement, the extract from TUI AG's 3rd Quarter Interim Report that covers both the relevant financial results and commentary for the Tourism division.

[2] First Choice Holidays PLC was consolidated for September 2007 only

Going forward TUI Travel PLC will report interim management statements, in addition to half-yearly and preliminary results, to the market to coincide with TUI AG quarterly announcements. These results will only include the businesses within TUI Travel PLC and will be reported in sterling.

Commenting on the announcement, Peter Long, Chief Executive, TUI Travel PLC said:

"I am pleased with the way Winter trading is progressing across our businesses. In the UK, early indications for next Summer's trading are very encouraging where we are benefiting from operating two very strong franchises. The integration of the TUI Tourism and First Choice businesses within the UK is progressing as planned and as I have been visiting the TUI Tourism businesses over the past few weeks, my conviction that we have an exceptional value creation opportunity, which will be achieved by combining the best of both businesses, has been reinforced."

Tourism turnover grew by 12.2% to € 5.8 billion in the third quarter and by 6.3% to € 12.0 billion in the first nine months of 2007. The Central Europe sector increased by 1.1% in the third quarter and by 4.4% in the first nine months of the year. This was due to the increase in customers both in package tours but also in the modular and seat-only business. The Northern Europe sector reported a slight increase in customers and a decline in turnover of 1.9% in the third quarter and 3.3% in the first nine months of the year. The Western Europe sector recorded an increase in turnover of 10.2% in the third quarter with cumulated turnover of 5.8% for the first nine months of the year, with an overall growth in customers. The incoming agencies recorded turnover increases of 6.4% in the third quarter and of 13.5% in the first nine months of the year. First Choice – consolidated fully for the first time in September 2007 – reported a turnover of € 500 million for that month. The Other tourism sector did not report any turnover due to the divestments in the 2006 financial year. In the TUI Hotels & Resorts sector, turnover increased by 28.9% and by 21.6% respectively, in the third quarter and in the first nine months of 2007. On a like-for-like basis, excluding Other tourism sector as well as First Choice, tourism turnover increased by 2.6% and 2.5%, respectively, for the third quarter and the first nine months of 2007.

Customer numbers tourism

'000	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %
Central Europe	4,224	3,784	+11.6	9,333	8,481	+10.1
Northern Europe	2.431	2.357	+3.1	5,630	5,453	+3.2
Western Europe	1,731	1,619	+6.9	3,771	3,569	+5.7
Total	**8,386**	**7,761**	**+8.1**	**18,734**	**17,503**	**+7.0**

At € 631 million in the third quarter 2007, total earnings by the tourism division increased by 8.0%. In the first nine months of the year, total earnings by the tourism division decreased by € 246 million year-on-year. The main reason for the decline in earnings year-on-year in the first nine months was one-off income from the divestment of the business travel operations, which was included in the first quarter 2006 and the Dutch specialist tour operators totalling € 162 million. Adjusted for one-off effects, underlying earnings increased by € 87 million year-

on year in the third quarter 2007 but declined by € 21 million in the first nine months of the year.

Turnover and earnings

In the Central Europe sector (Germany, Switzerland and Austria and airline TUIfly.com), the number of customers rose by 11.6% in the third quarter 2007, with cumulative customers for the first nine months of 2007 up 10.1%. Turnover increased by 1.1% in the third quarter with varying trends observed in the individual source markets. In the first nine months of 2007, turnover increased by 4.4%. The German and Swiss source markets contributed to this year-on-year growth, whilst Austria's performance declined year-on-year.

Earnings for the Central Europe sector fell by 18.5% year-on-year to € 141 million in the third quarter 2007. Earnings for the first nine months of the year also declined by 38.7% to € 84 million. Earnings in the third quarter 2007 included one-off expenses of € 2 million for the re-branding of the new brand TUIfly.com in the framework of the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express. There were also restructuring costs of € 3 million concerning the reorganisation of Austrian Gulet Touristik GmbH & Co KG. In the third quarter 2006 earnings included restructuring expenses of € 2 million, relating to the efficiency enhancement programme for the German market. Adjusted for these one-off effects in the third quarter 2007, underlying earnings totalled € 146 million, down 16.6% year-on-year. Cumulated underlying earnings for the first nine months of the year amounted to € 100 million, a decline of 31.0%. The main reason for the reduction in earnings was the slight decline in the seat load factor in the airline sector as well as a difficult market environment in the German flight sector.

Customer numbers Central Europe

'000	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %
Germany	3,771	3,333	+13.1	8,462	7,632	+10.9
Switzerland	119	105	+13.5	248	212	+17.1
Austria	334	347	-3.8	623	637	-2.3
Central Europe	**4,224**	**3,784**	**+11.6**	**9,333**	**8,481**	**+10.1**

Germany

Customers by TUI tour operators and TUIfly.com, grew by 13.1% year-on-year in the third quarter 2007 and 10.9% for the first nine months of the year. As before, this was largely attributable to the TUI Deutschland tour operators – both in the package tour and modular segments – and the seat-only business of TUIfly.com. Demand for Egypt, Turkey and Spain as well as long-haul destinations was very strong, while bookings to Italy, Tunisia and Sri Lanka were more subdued.

Switzerland

The Swiss tour operator market continued to develop very satisfactorily in the third quarter 2007. TUI Suisse tour operators recorded an increase in customers of 13.5% in the third quarter and of 17.1% in the first nine months of 2007. This was largely attributable to the two brands TUI and FlexTravel, while Vögele bookings were on last year's level.

Austria

In Austria, the tour operator market continued to weaken in the third quarter 2007. TUI Austria reported a 3.8% reduction in customers year-on-year, with customer numbers declining by 2.3% year-on-year in the first nine months of 2007. However, both the TUI and Terra brands improved, whilst Gulet remained below expectations. Demand was particularly good for Egypt and Turkey. Bookings to Spain were less strong.

Flight operations Central Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q3 2007	Q3 2006	Var. abs.	Q3 2007	Q3 2006	Var. %	Q3 2007	Q3 2006	Var. % - points
TUIfly.com	55	51	+4	7.5	7.2	+4.8	88.1	88.5	-0.4

TUIfly.com

The third quarter was furthermore characterised by the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express. Due to the new Boeing 737s, delivered in the second quarter, the number of operated aircraft increased by four aircraft year-on-year. There was no change in the number of operated aircraft compared with the second quarter 2007. The seat load factor was slightly down against last year's level. However, compared with the second quarter 2007, the airline managed to improve its seat load factor significantly by 11.6%-points.

Turnover and earnings

In the Northern Europe sector (UK, Ireland, Nordic countries and airlines Thomsonfly and TUIfly Nordic), the number of customers rose by 3.1% in the third quarter 2007 and 3.2% in the first nine months of the year in a continuing difficult market environment. This growth in customers was mainly driven by the increase in Thomsonfly's seat-only business. Turnover declined by 1.9% year-on-year in the third quarter and 3.3% in the first nine months of the year. Source market UK reported a decline in turnover both in the third quarter and in the first nine months of 2007 whilst source market Nordic countries managed to expand their business volume in the quarter as well as in the first nine months.

At € 239 million in the third quarter 2007, earnings for the Northern Europe sector were above last year's level. Earnings for the first nine months of the year reduced by € 102 million to € 84 million. Earnings in the third quarter included one-off expenses of € 3 million relating to changes to the air passenger duty in the UK which could not be passed on to customers as well as one-off expenses for the redemption of long-term bonus programmes and consultancy fees relating to the merger between First Choice and TUI's tourism division of € 15 million. No one-off effects were included in earnings for 2006. Adjusted for the one-off effects for the third quarter 2007, underlying earnings totalled € 257 million, an increase of € 22 million year-on-year. This increase in earnings was primarily attributable to the restructuring programme offset in the financial year 2006 taking effects now as well as first recovery trends in the UK travel market; however, the market environment remains difficult yet. The Nordic countries had again a strong third quarter and were able to increase earnings for the first nine months of 2007. For the first nine months of 2007, underlying earnings for the Northern Europe sector totalled € 130 million, a decline of € 56 million.

Customer numbers Northern Europe

'000	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %
UK	1,990	1,822	+9.2	4,496	4,239	+6.1
Ireland	50	157	-68.3	180	299	-39.8
Nordic Countries	391	378	+3.3	954	915	+4.2
Northern Europe	**2,431**	**2,357**	**+3.1**	**5,630**	**5,453**	**+3.2**

UK

Market conditions in the UK remained difficult for the tour operators, leading to a reduction in customers; on the other hand, Thomsonfly recorded an increase in customers in the seat-only business. Total customers rose by 9.2% year-on-year in the third quarter 2007 and 6.1% year-on-year in the first nine months of 2007. In terms of short and medium-haul destinations, bookings to Portugal and France rose for the 2007 summer season, whilst bookings to Spanish destinations declined year-on-year.

Ireland

In the third quarter 2007, Ireland reported a 68.3% decline in customers. For the first nine months of the year, customers fell by 39.8% year-on-year. In the third quarter, the contract concerning the sale of the Irish tour operator Budget Travel to Primera Travel Group (Iceland) was closed. Thereby the requirements of the antitrust authorities in relation to the merger of TUI's tourism division and First Choice Holidays PLC were met.

Nordic countries

Tour operators in the Nordic countries met expectations in the third quarter 2007. The number of customers grew by a total of 3.3% in the third quarter, with cumulative customers for the first nine months of 2007 up 4.2%. Demand for Greece in particular was highly supported by higher demand for the Balearic Islands.

Flight operations Northern Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q3 2007	Q3 2006	Var. abs.	Q3 2007	Q3 2006	Var. %	Q3 2007	Q3 2006	Var. % - points
Thomsonfly	48	47	+1	8.1	8.7	-6.5	90.7	85.5	+5.2
TUIfly Nordic	5	5	+/- 0	1.0	1.0	-5.1	95.5	95.1	+0.4

Thomsonfly

Due to flight schedule adjustments Thomsonfly reduced the volume of seat kilometres offered both in the charter flight segment and the scheduled flight segment. As a result, the seat load factor increased year-on-year. The airline operated one more aircraft compared to the third quarter 2006.

TUIfly Nordic

Offered seat kilometres in the third quarter 2007 were reduced due to flight schedule adjustments. As a consequence the seat load factor in the third quarter increased year-on-year. The fleet size remained unchanged year-on-year.

Western Europe – Key figures

Turnover and earnings

In the Western Europe sector (France, the Netherlands, Belgium and airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium), turnover increased in the third quarter 2007 by 10.2% against 2006 due to an increase in customers. Cumulative turnover for the first nine months of the year also grew by 5.8%. In the Netherlands, turnover increased for the third quarter as well as for the entire reporting period. In France, turnover grew year-on-year both in the third quarter and in the first nine months of the year with customer numbers on last year's level. Belgium reported a turnover above last year's level, while customer numbers increased.

Earnings by the division increased noticeably year-on-year to € 108 million in the third quarter 2007 and to cumulative € 51 million in the first nine months of the year. Earnings in the third quarter included restructuring expenses of € 2 million for reorganisation in the French and Dutch source markets. Earnings in the corresponding 2006 quarter included restructuring expenses as well as other one-off items from the fleet renewal of the Corsair Boeing 747 fleet and expenses from changes to the IT booking systems at Nouvelles Frontières totalling € 7 million. Adjusted for these one-off effects, underlying earnings increased by 48.6% year-on-year. This was due to the from now on noticeable positive effects of performed restructuring programmes in the French business. The Dutch and Belgian organisations also developed positively in the third quarter. Cumulative underlying earnings for the first nine months of the year increased by 78.8% to € 59 million.

Customer numbers Western Europe

'000	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %
France	521	513	+1.5	1,270	1,273	-0.2
Netherlands	497	452	+10.0	1,044	984	+6.1
Belgium	713	654	+9.0	1,457	1,312	+11.0
Western Europe	**1,731**	**1,619**	**+6.9**	**3,771**	**3,569**	**+5.7**

France

In France, the travel market experienced a slight recovery. In line with this, customers increased by 1.5% year-on-year in the third quarter. Cumulated customers for the first nine months were on last year's level. Bookings to North Africa and Guadeloupe in particular were up in the third quarter.

Netherlands

Whilst volumes in the Dutch travel market decreased in the third quarter, TUI's Dutch tour operators reported an overall increase of 10.0% in customers, with total growth in customers of 6.1% for the first nine months of 2007. Demand in the third quarter was very strong for the Caribbean, France and Egypt, whilst bookings to the Balearic Islands, Germany and Portugal declined slightly.

Belgium

In Belgium, the number of tour operator customers grew by 9.0% in the third quarter 2007 and 11.0% in the first nine months of the year. In terms of flight operations, demand for Turkey and Bulgaria was very strong in the medium-haul segment, while the Caribbean reported good booking levels in the long-haul segment. Bookings of self-drive tours matched 2006 levels, while city trips and short breaks recorded year-on-year growth in bookings.

Flight operations Western Europe – Key figures

	Number of operated aircraft			Seat kilometres (bn)			Seat load factor (%)		
	Q3 2007	Q3 2006	Var. abs.	Q3 2007	Q3 2006	Var. %	Q3 2007	Q3 2006	Var. % - points
Corsair	8	8	+/- 0	4.3	4.3	+1.0	82.2	80.2	+2.0
TUI Airlines Nederland	4	3	+1	1.2	1.0	+23.7	89.9	90.1	-0.2
TUI Airlines Belgium	10	8	+2	1.8	1.6	+8.6	93.5	92.5	+1.0

Corsair

In the third quarter 2007, Corsair slightly increased the seat kilometre volume on offer due to the rise in demand in the long-haul segment. The seat load factor also increased, whilst the number of aircraft did not change year-on-year.

TUI Airlines Nederland/Arkefly

In the third quarter 2007, TUI Airlines Nederland operated one additional aircraft compared with the same quarter 2006. The seat kilometre volume rose accordingly whilst the seat load factor decreased slightly year-on-year.

TUI Airlines Belgium/Jetairfly

In the third quarter 2007, TUI Airlines Belgium operated two additional aircraft compared with the corresponding period 2006 and increased seat kilometres offered. The seat load factor on the expanded flight capacity increased year-on-year due to the increase in demand for tour operator products.

INCOMING AGENCIES

Incoming agencies – Key figures

€ million	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %

Employees (30 September)	-	-	-	5,399	4,608	+17.2

Turnover and earnings

The incoming agencies sector reported a 6.4% increase in turnover year-on-year in the third quarter 2007. Cumulative turnover for the first nine months of the year increased by 13.5%.

Earnings for the division were stable, increasing by 10.3% to € 32 million in the third quarter 2007. At € 46 million in the first nine months of 2007, earnings were on last year's level. There were no one-off effects, neither in the third quarter 2007 nor 2006.

Business development

Incoming agencies reported a satisfactory business trend in the third quarter 2007 catering for 4.20 million guests, a 5.5% increase year-on-year. Agencies in the western Mediterranean reported different trends in guest numbers in the third quarter: TUI España recorded a slight fall in guests, primarily from source market UK. TUI Portugal however reported an increase in guests in all the Portuguese destinations and especially for the relatively new destination in the Cape Verde Islands. In the eastern mediterranean, the TUI Hellas and TUI Türkiye agencies again recorded increases in terms of guest numbers; as did Tunisia. In Egypt guest numbers were at last year's level in the third quarter. In the long-haul segment the Dominican Republic suffered a strong decline in guests. Mexico saw also a decline in the number of guests, in particular from Germany and the UK.

OTHER TOURISM

Other tourism – Key figures

€ million	Q3 2007	Q3 2006	Var. %	9M 2007	9M 2006	Var. %

In 2006, the Other tourism sector included the business travel operations and the IT services companies of TUI InfoTec. The divestment of the business travel operations to the Dutch BCD Holdings N.V. was closed on 31 March 2006. Resulting from this divestment a lagging expense of € 1 million incurred in the third quarter 13 2007. In September 2006, a 50.1% majority in TUI InfoTec was sold to the Indian software company Sonata Software Limited. The transaction was closed on 24 November 2006.

FIRST CHOICE HOLIDAYS PLC

First Choice Holidays PLC – Key figures

€ million	Sept 2007	Sept 2006	Var. %
Turnover	500.1	-	-
EBITA by division	**10**	-	-
Gains on disposals	-	-	-
Restructuring expenses	-	-	-
Purchase price allocation	+15	-	-
Other one-off items	+10	-	-
Underlying EBITA by division	**+35**	-	-
Capital expenditure	9.0	-	-
Employees (30 September)	15,170	-	-

In September – the first month the company was fully consolidated – the tour operators of First Choice Holidays reported 0.5 million customers. The business operated a fleet of 33 aircraft and offered 2.1 billion seat kilometres with a seat load factor of 91.9%. First Choice contributed turnover of € 500 million and earnings of € 10 million for September. These earnings included expenses incurred in the framework of the merger (€ 10 million) as well as expenses for the purchase price allocation (€ 15 million), of which € 10 million are related to the amortisation of order backlog fair value. Adjusted for these one-off effects of € 25 million, First Choice achieved underlying earnings of € 35 million.

TUI TRAVEL PLC

TRADING UPDATE

Following the successful completion of the merger of the tourism businesses of TUI AG and First Choice Holidays PLC to form TUI Travel PLC, we are pleased to provide an update on current trading, acquisitions and business integration ahead of the start of our first full financial year for the 12 months ended 30 September 2008.

Current Trading

Since the trading numbers announced on the 9th August consumer demand across the TUI Travel businesses for Summer 2007 has remained strong. Forward bookings for Winter 2007/08 and early bookings for Summer 2008 are also very positive.

Summer 2007

After a relatively weak start to the Summer 2007 season, demand has picked up across all source markets and the Group has continued to trade in line with the Board's expectations.

MAINSTREAM SECTOR

Northern Europe (UK & Ireland and Nordic)

In the UK Mainstream business the First Choice brand, as anticipated, has performed particularly well with sales up 6% on flat capacity. This has been particularly driven by a strong long-haul offering and a recovery in medium-haul compared to last year. In the Thomson business sales are down 4% on lower capacity. This is primarily a result of remixing volume by reducing capacity in the package holiday segment and increasing participation in the component led independent travel segment. Whilst tightening the package holiday capacity in Thomson has led to good margin performance in the Summer, overall margins across the TUI Travel UK & Ireland businesses continue to be adversely impacted by higher APD taxes and the year on year increase in fuel costs.

The Nordic businesses which make up the rest of the Northern Europe Sector have had a strong Summer.

Central Europe (Germany, Switzerland and Austria)

In the German source market, although consumer demand has been strong with bookings up 10%, there has been a considerable increase in capacity leading to weaker selling prices, lower load factors and margin pressure. In addition, the German business has suffered as a result of third party tour operators returning capacity. For Summer 2008 capacity will be reduced to 48 aircraft from the current fleet of 55.

The other central European source markets have performed in line with our expectations.

Western Europe (France, Belgium and The Netherlands)

We are pleased with the performance in Western Europe where the Belgian and Dutch markets have performed very well with revenues up 10% and 14% respectively. The French business has also recovered strongly from a difficult Summer last year and will significantly reduce its loss for the year compared to 2006. All these businesses have seen margins improve year-on-year.

SPECIALIST SECTORS (Specialist, Activity and Online Destination Services)

The First Choice specialist businesses have continued their strong performance throughout the summer. On a like-for-like basis sales are up 16% in Specialist, 3% in Activity and 40% in Online Destination Services. Margins have improved across these businesses.

Winter 07/08

All businesses that have Winter programmes on sale are currently performing well for the Winter season. Capacity has been tightened across a number of source markets and margins are currently ahead of last year. We are further sold in the UK by 5 percentage points compared to this time last year.

[1] These statistics are up to 23 September 2007
[2] These statistics exclude FY2006 and FY2007 acquisitions
[3] ODS and Laterooms.com – Winter season is not significantly sold at this point in time

Summer 08

For Summer 2008, the UK & Ireland Mainstream business is the only programme that has been on sale for any reasonable time period and we are seeing the benefit of having the two strongest tour operating businesses. Currently, First Choice sales are 26% ahead on customer bookings that are up 24%. The programme is 3 percentage points further sold than at the same point last year and long-haul is selling particularly well. In Thomson sales are 2% ahead on capacity that has been reduced by 8%. Margins overall in the TUI Travel UK & Ireland business are slightly ahead of last year.

Acquisitions

Over the summer period we have completed nine acquisitions within niche specialist segments of the leisure travel market for a maximum consideration of £81.7m. An initial consideration of £52.2m has been paid with a further amount of up to £29.5m that could be paid as deferred and contingent consideration. For the eleven months ended 30 September 2007, we have made sixteen acquisitions for a maximum consideration of £227.5m with an initial consideration of £159.0m.

In addition, as recently announced, we have divested of Budget Travel, one of the Group's Irish businesses to Primera Travel Group, a privately owned Icelandic travel company. Completion of the sale is subject to approval from the EU Competition authority.

We have acquired businesses within the online, activity, premium escorted tours and student travel segments of the market:

- Within Online Destination Services, we have strengthened our position further in the Asia Pacific region by agreeing to acquire asiarooms.com, a leading online B2C provider of hotel accommodation in Asia. Asiarooms.com has established itself as a significant online retailer of accommodation by applying leading edge technology and web capabilities in one of the fastest growing travel markets. Its main source markets are the USA, UK, Singapore and Australia serving key destinations of Thailand, Singapore, Japan and Hong Kong. In the current year, the business is on track to sell nearly 4m bed nights. This acquisition adds to our growing position in the Asia Pacific region and online accommodation market where we continue to see excellent growth and margin opportunities for the Group going forward.

- In the Activity Holidays Sector, we have acquired four companies. Within the premium North American escorted tours segment, we acquired Starquest, an operator of themed luxury travel adventures by private jet. Along with our existing business, TCS (acquired as part of the Grand Expeditions acquisition in December 2005), we are now the clear market leader within this high-growth segment of the US travel market. As previously announced, we acquired Hannibal Travel Group which is a leading premium escorted tours operator serving the Danish 'baby boomer' and 'young professional' demographic. It also compliments our existing Danish activity operation. In addition, we have added to our Schools and Adventure Travel Group within the Adventure division with the acquisition of Ski Alpine, which is a provider of group ski trips to UK university students. Finally, we have entered the sports tour market with the acquisition of Australian Sports Tours which offers fully guided tours and independent travel packages through B2B and B2C distribution channels for major sporting events. Operating at double-digit margins and within a fast growing area of the marketplace, we are looking to develop our participation within this niche segment.

- Within North American Student Travel, we have added to our two acquisitions in the first half with the purchase of World Class Vacations and New Horizons Tour and Travel. These acquisitions will maintain our position at the forefront of the fragmented and high growth group performance segment of the student travel marketplace in the US.

- Within the Mainstream Sector, we have acquired an online car broker and an online independent package holiday review site. These businesses will further enable us to meet the needs of the travel consumer for flexibility and choice in their holiday decision making.

The acquisition pipeline remains strong as we continue to target travel companies, notably within the Asia Pacific region, online, activity and North American student travel segments, that exhibit excellent growth characteristics and the ability to generate premium margins, high earnings growth and strong cash flow.

Integration Process

The integration process has started very well. The UK and Ireland management team has been announced and the two integration teams across the business are now fully operational. We are increasingly confident that during the first 100 days strategic clarity will be reached on a number of key business issues and that, over the stated three year period, we will deliver at least £100m in synergy benefits.

Outlook

In line with previous statements by both First Choice and TUI AG and based on the Summer 2007 trading numbers the TUI Travel Board is satisfied that these businesses will meet their expectations in respect of their current financial year ends. This is based on the continued trading progress made during Summer 2007 together with the benefits of the cost restructuring in the TUI Tourism businesses that are coming through in the second half of 2007 particularly in the 4th quarter.

Going forward, the first TUI Travel PLC year-end will be 30 September 2008. Accordingly, for comparative purposes proforma financials for the 12 months ended 30 September 2007 and 30 September 2006 are being produced. These will be available for release in early December. In arriving at the September numbers, adjustments will arise as we harmonise the October year-end of First Choice and the December year-end of TUI Tourism.

Commenting on the trading update, Peter Long, Chief Executive, TUI Travel PLC said:

"I am pleased with the way the peak summer season trading has progressed across our businesses and the signs for future seasons' trading are very encouraging particularly in the UK where we are benefiting from two strong franchises. Our acquisition pipeline remains strong and I am delighted with the acquisitions we have completed. Acquisitions remain a key priority for TUI Travel.

"The integration of the TUI Tourism and First Choice businesses has started and as I have been visiting the TUI Tourism businesses over the past few weeks my belief that we have an exceptional value creation opportunity by combining the best of both businesses has been reinforced."

Future communication dates

The next communication dates for the company will be as follows:

8 November	Trading update in conjunction with TUI AG's 3rd quarter results
Early December	Proforma financials for the twelve months to 30 September 2007 and 2006
29 January	Strategic update and Interim Management Statement

Deferred Annual Bonus Scheme (Matching)	235,595	235,595
Performance Share Plan	113,355	113,355

The following options were exercised and sold (which includes a proportion to cover taxation, national insurance obligations and the option price of 109.50p		
	Exercised	**Sold**
Peter Long		
Senior Executive Plan	958,904	958,904

The share price for all transactions detailed above was 291.20 pence.

As a result of the above transactions the relevant Directors have beneficial interests in TUI Travel PLC shares as follows:

3 September 2007

TUI TRAVEL PLC BEGINS TRADING ON THE LONDON STOCK EXCHANGE

TUI Travel PLC is pleased to announce that the merger of First Choice Holidays PLC and the Tourism Division of TUI AG has been successfully completed. As a result, First Choice Holidays PLC's listing was cancelled at 8.00am today and the ordinary shares of the new combined group, TUI Travel PLC, have been admitted to the Official List of the UK Listing Authority and to trading on the London Stock Exchange's market for listed securities.

As previously announced, a detailed review of all the businesses will be undertaken over the coming months to help the Group identify enhanced opportunities in the businesses and to build on its stated strategy. In addition, cost efficiencies identified will be actioned during this period and beyond. It is the Group's intention to present the results of the review in January 2008.

Commenting on the completion of the merger, Peter Long, Chief Executive TUI Travel PLC said:
"The creation of TUI Travel PLC, one of the world's leading leisure travel companies, represents real growth opportunities for us as a Group. Not only will our shareholders benefit from efficiencies but we are also well positioned to deliver strong organic and acquisition led growth."

Dr Michael Frenzel, Chairman of TUI Travel PLC added:
"TUI Travel has tremendous opportunities ahead of it. We will bring together some of the best known brands in leisure travel coupled with excellent management expertise. TUI Travel will be actively shaping the future of the tourism business."

First Choice Holidays PLC
Trading Update & Financing Announcement

To coincide with the announcement of the TUI AG Q2 results, and ahead of providing quarterly updates post-completion, First Choice Holidays PLC today announces an update on current trading and financing arrangements.

Financing Update

Acting on behalf of TUI Travel PLC with our colleagues at TUI AG, we are delighted to announce the successful syndication and signing of TUI Travel PLC's debut £1.2bn credit facility. The facility comprise two tranches - a £770m five year revolving credit facility and a £430m nine month bonding facility with a twelve month extension option. The facility is for the general corporate purposes of TUI Travel PLC including refinancing existing First Choice facilities and replacing existing First Choice and TUI Tourism bonding facilities.

The transaction was significantly oversubscribed, which we believe reflects the financial market's confidence in the strategic rationale and growth opportunity of the new Group. Due to such strong demand, the new facilities arranged are £200m more than originally sought. This was achieved at highly competitive margins over LIBOR of 75bps for the revolving credit facility and 55bps for the bonding facility.

Trading Update

In the six weeks since our trading update, the Group has continued to trade in line with the Board's expectations.

[1] These statistics are up to 5 August 2007

[2] These statistics exclude FY2006 and FY2007 acquisitions

For the Summer 2007 season, the Mainstream Holidays Sector has continued to see the rate of sale increase and is tracking in line with our internal expectations, with revenues now cumulatively up +6% on volume growth of +3%. As previously announced, we have cut capacity in the short-haul segment, while increasing capacity within long-haul by +25%, thereby maintaining overall capacity flat with the prior year. Given the continued strong demand, we have less capacity left to sell for the remainder of the season compared to last year. Despite the encouraging rate of sale, margins continue to be adversely impacted by higher APD taxes and the year-on-year increase in fuel costs.

The Specialist Holidays Sector has continued to experience strong demand for its destination and lifestyle specialist products, with cumulative revenues up +15% on volume growth of +13%. Margins have benefited from the strong customer demand and are tracking in line with the Board's expectations.

In the Activity Holidays Sector, revenues are up +3% overall, with the Adventure businesses continuing to experience strong demand for its range of products, with revenues on a like-for-like basis up +6% for the season. Marine revenues are up +1%, with margins for the Sector tracking slightly ahead of last year.

All routes to market within the Online Destination Services Sector are performing well with revenues up +42% and bednights up +25%, and margins tracking ahead of last year. The Sector continues to grow as independent tour operators, travel agents and consumers (primarily through our successful partnerships with low cost airlines such as EasyJet) seek access to our accommodation bed-bank of over 25,000 hotels in 900 leisure destinations. Laterooms.com continues to perform ahead of our expectations with sales and bednights up +61% and +58% respectively, as the business experiences significant demand for late availability bedstock.

Merger Update

The merger process continues to remain on track following shareholder approval for the transaction on 25 July 2007. It is expected that admission and completion of the Merger will take place on 3 September 2007.

Commenting on the trading and financing update, Peter Long, Chief Executive said:

"I am pleased with the way summer trading is progressing and we remain on track to meet our internal expectations for the full year. Capacity is being well managed and demand remains strong for our products across all sectors. The successful refinancing is a major step towards the launch of TUI Travel PLC and I am delighted with the support we have received from our banking partners. I now look forward to the completion of the merger process and leading my colleagues through the integration process to create one of the world's leading travel groups."

FIRST CHOICE HOLIDAYS PLC

RESULTS OF COURT MEETING AND EGM

The Board of First Choice Holidays PLC ("First Choice") announces that at the meeting convened by the Court and the Extraordinary General Meeting held today all the resolutions contained in the Notice of Court Meeting and the Notice of Extraordinary General Meeting were passed by the requisite majorities.

Accordingly, the merger of First Choice and the Tourism Division of TUI AG has now been approved by First Choice Shareholders. Subject to the Court sanctioning the Scheme, and confirming the associated reduction of capital, and the satisfaction or waiver of certain other outstanding conditions, completion of the merger and the listing of the TUI Travel PLC shares are expected to occur on 3 September 2007.

Voting Results

The resolution proposed at the Court Meeting to approve the Scheme was passed on a poll of holders of the Scheme Shares. The result of the poll was as follows:

To approve the Scheme:

	Number of Scheme Shares voted	% of Scheme Shares voted	% of issued Scheme Shares	Number of Scheme shareholders voting	% of Scheme shareholders voting
For	344,648,429	99.94%	64.96%	1,173	93.10%
Against	199,067	0.06%	0.04%	87	6.90%

The Extraordinary General Meeting was held to consider resolutions to approve (1) the Scheme, (2) the proposed waiver of Rule 9 of the Takeover Code, (3) the operation of the TUI Travel PLC Performance Share Plan, (4) the operation of the TUI Travel PLC Deferred Annual Bonus Scheme, (5) the operation of the TUI Travel PLC Sharesave Scheme, (6) the operation of the TUI Travel PLC Share Incentive Plan and (7) the operation of the TUI Travel PLC Value Creation Synergy Plan. Resolutions (1) and (3)-(7) were passed on a poll. Resolution (2) was passed on a poll of independent Shareholders. The results of the polls were as follows:

Res'n	Description	Votes For	%	Votes Against	%	Abstentions
1	Special resolution to approve the Scheme of Arrangement, to amend the Articles of Association of the Company, to cancel all the Scheme Shares, to reduce the capital of the Company, to increase the authorised share capital of the Company and to allot new shares	345,015,999	99.81	656,204	0.19	5,718,552
2	Ordinary resolution to approve the waiver by the Takeover Panel of the obligation that would otherwise arise on TUI AG to make a general offer to all the shareholders of the Company pursuant to Rule 9 of the Takeover Code	350,039,142	99.90	353,604	0.10	998,009
3	Ordinary resolution to approve the TUI Travel Performance Share Plan	333,392,800	95.69	15,000,256	4.31	2,997,699
4	Ordinary resolution to approve the TUI Travel Deferred Annual Bonus Scheme	327,848,718	96.15	13,144,450	3.85	10,397,587
5	Ordinary resolution to approve the TUI Travel Sharesave Scheme	351,026,854	99.91	302,082	0.09	61,819
6	Ordinary resolution to approve the TUI Travel Share Incentive Plan	351,076,526	99.93	251,819	0.07	62,410
7	Ordinary resolution to approve the TUI Travel Value Creation	313,547,317	91.27	29,981,529	8.73	7,861,909

	Synergy Plan					

The expected timetable of the remaining principal events will be as follows:

Court hearing to sanction the Scheme	29 August 2007
Court hearing to confirm the reduction of capital	31 August 2007
Expected date of completion, listing of TUI Travel PLC shares and commencement of dealings	3 September 2007

The number of First Choice Shares in issue as at 10.00 am on Wednesday, 25 July 2007 was 530,577,303. No First Choice Shares were held in Treasury.

Terms used but not defined in this announcement have the same meaning as given to them in the circular to shareholders dated 29 June 2007.

FIRST CHOICE HOLIDAYS PLC

INTERIM RESULTS FOR THE SIX MONTHS ENDED 30 APRIL 2007

2007 DEC 17 A 11:23

Highlights

- Underlying operating loss before interest and tax improved by 1% to £66.5m (2006: £67.0m)
- Underlying loss before tax of £82.5m (2006: £76.5m) due to higher financing cost resulting from increased spend on acquisitions
- Interim dividend up by 11% to 2.50p per ordinary share (2006: 2.25p)
- Improvement in underlying gross and operating margin
- Seven strategic acquisitions in niche specialist segments made in the first half for a maximum consideration of £145.8m (2006: £94.9m)
- Continued investment in long-haul programme and Holiday Villages; Dominican Republic opened in Winter 2006, Egypt opening in Summer 2007, Mexico and Cyprus openings planned for Summer 2008
- Specialist sectors underlying operating profit improved to £5.1m (2006: £0.2m)
- Agreement with TUI AG to create TUI Travel PLC by merging First Choice Holidays with the TUI tourism business (excluding certain hotel assets)

Current trading

- For Summer 2007 Mainstream Holidays Sector revenues are up 3%, with long-haul revenues and bookings up 26% and 21% respectively
- Specialist Holidays Sector revenues and bookings are ahead of last year by 18% and 16% respectively
- Activity Holidays Sector revenues are up 5% on a like for like basis
- Online Destination Services bednight bookings are 32% up on prior year
- Laterooms.com bednights and revenues are up 73% and 78% respectively

[1] *The Group believes that underlying operating loss, underlying loss before tax and underlying loss per share provide additional guidance to statutory measures on the underlying performance of the business during the financial period. Underlying loss before tax and underlying operating loss exclude separately disclosed items, amortisation of business combination intangibles, impairment of goodwill and taxation of losses of the Group's joint venture and associate.*

Commenting on the results, Peter Long, Chief Executive said:

"I am pleased with the first half trading performance in what has been a challenging market, particularly in the UK and of course an exceptionally busy period for the company. The recent acquisitions are performing very well and the pipeline remains strong."

"It gives me great confidence for the future that we have such strength in depth within our management team that we have been able to pursue a large corporate transaction with TUI, complete the competition process whilst still delivering a good trading performance and integrating a number of acquisitions. Over the next few months this capability will be vital as we focus on delivering the results through the key summer period and completing the merger."

Overview

The first half performance of the Group has been in line with our expectations and we are pleased to report a satisfactory overall result despite challenging trading conditions in some markets. We have continued to actively manage capacity and differentiate our Mainstream business through greater emphasis on exclusive product and medium and long-haul destinations, whilst building a portfolio of niche leisure travel businesses that operate in high growth segments. This strategy provides us with flexibility and the ability to diversify risk across the Group and drive margin growth.

During the period, we were pleased to announce the proposed creation of one of the world's leading travel groups, TUI Travel PLC through the recommended merger of First Choice and the tourism division of TUI AG (excluding certain hotel assets). The strong strategic fit of the businesses, combined with a leading management team provides the opportunity to create one of the world's most profitable travel groups. The merger will enable us to deliver sustainable revenue and long-term earnings growth while deriving cost advantage from leveraging both synergy opportunities and economies of scale to enhance margins.

Financial results

The Group achieved underlying loss before tax of £82.5m (2006: £76.5m), with underlying operating loss reduced by 1% to £66.5m (2006: £67.0m), on revenue growth of 6% to £1,018m (2006: £961m). The 8% increase in underlying loss before tax to £82.5m was primarily as a result of higher net financing expenses (up £6.5m to £16.0m) due to interest on acquisitions in the first half (£3.0m of the increase), the full period impact on interest expense of FY06 acquisitions (£2.5m of the increase) and higher borrowing costs as a result of the recent rises in UK interest rates (£1.0m of the increase). Consequently, underlying loss per share increased to 11.4 pence (2006: 10.5 pence). The Board has declared an interim dividend of 2.50p (2006: 2.25p) per ordinary share. This represents an increase of 11% compared to the same period in the prior year.

The Group's results, on both a statutory and underlying basis, are set out in the table below.

Six months ended 30 April	2007	2006
Revenue	£1,018m	£961m
Underlying operating loss	(£66.5m)	(£67.0m)
Underlying loss before tax	(£82.5m)	(£76.5m)
Statutory operating loss	(£86.3m)	(£68.7m)
Statutory loss before tax	(£102.8m)	(£78.2m)
Underlying basic loss per share	(11.4p)	(10.5p)
Statutory basic loss per share	(14.2p)	(11.0p)

A reconciliation of underlying loss before tax to statutory loss before tax is as follows:

	2007 £m	2006 £m
Underlying loss before tax	(82.5)	(76.5)
Separately disclosed items	(12.9)	-
Loss on disposal of investment in associate	(0.5)	-
Amortisation of business combination intangibles	(7.9)	(2.5)
Taxation on profits of joint venture and associate	1.0	0.8
Statutory loss before tax	(102.8)	(78.2)

As previously announced, due to the UK Government raising Air Passenger Duty (APD) in December 2006, we have been unable to recover the one-off cost of the retrospective tax for bookings made pre 6 December 2006. In addition, we have incurred some further costs in closing underperforming business units in the first half in Germany and Belgium and downsizing and restructuring particularly through outsourcing back office operations in the Mainstream Holidays Sector. We also incurred advisor fees and other related costs in connection with the potential sale of the Mainstream Sector which was terminated on 12 February 2007. Accordingly, the Group has incurred separately disclosed items of £12.9m (2006: £nil).

Controlled distribution[3]	62%	57%	+5ppts
Online distribution[3]	34%	31%	+3ppts

[1]Passenger numbers include inclusive tour and flight-only sales for the UK, Ireland and Ski, whereas the trading updates simply focus on inclusive tour and flight-only sales for the UK.

[2]Other revenues include distribution, airline, accommodation only, cancellation and sundry revenue.

[3]Controlled and online distribution is expressed as a total % of customer bookings.

In what continues to be a particularly challenging UK market, the Mainstream Holidays Sector has performed in line with our expectations. The Sector's revenue for the six months ended 30 April 2007 was £367.7m (2006: £352.5m), with an underlying operating loss of £60.9m (2006: £54.8m). The increase in the underlying loss is attributable to a number of factors, including the impact of the increase in APD resulting in a £2.5m impact to margin. As previously announced, we have not been able to fully recover the rise in fuel prices from our customers, resulting in a £2.0m impact to profitability, while the continuing investment in the long-haul programme has cost £3.0m in the first half. We now have our full complement of six long-haul B767s, with five operating and one providing dedicated standby cover, all of which will be in operation until we start to take delivery of our first B787s in 2009.

Winter capacity was flat year-on-year with a 7% reduction in short-haul, 8% in medium-haul and a 30% increase in long-haul. The demand for our long-haul offering is very encouraging and it now accounts for 25% of our Winter programme (2006: 19%).

We continue to increase our control of distribution and in the Winter period 62% (2006:57%) of First Choice product was sold through our own channels, while for Summer 2007 it is 71% (2006: 66%). The investment in exclusive differentiated product continues. In the Winter we operated five Holiday Villages, including our first long-haul Holiday Village in the Dominican Republic. Our newest Holiday Village, in Egypt, has opened for this Summer and two more Holiday Villages, Mexico and Cyprus, will open next Summer.

Specialist Holidays

This Sector operates a business model characterised by destination specialisation and expertise, flexible accommodation and flying arrangements with niche brands in each source market. The Sector delivered an underlying operating profit of £10.9m (2006: £9.4m) on revenues of £400.6m (2006: £428.3m), representing a margin improvement of 50 basis points. The performance was driven primarily by a strong UK performance, managing capacity in a challenging Canadian market and in the key European source markets.

European Specialist Businesses

The UK Specialist businesses enjoyed an excellent Winter with underlying operating profits increasing by £1.0m year-on-year. The restructuring of the Division and the investment in a dynamic new selling system is now yielding benefits with controlled distribution increasing from 57% of total bookings to 69% across the Division. In the Continental European Specialist businesses the rate of sale continued to improve throughout the season with the businesses managing capacity carefully throughout the period. Egypt has continued to recover from terrorist incidents which affected trading during the Winter 2006 season, while capacity to Morocco increased by 33% following the launch of a further Marmara club in the destination, which proved extremely popular with our customers.

As previously announced, we have decided to scale back, or close, certain smaller businesses in Continental Europe which had sales in the year ending 31 October 2006 of £36.3m. The £4.5m benefit arising from these actions will be realised in the current financial year.

North American Specialist Businesses

The Canadian market remains highly competitive and this Winter the weather was also unseasonally warm during December and January. Despite the competitive environment, Signature Vacations performed strongly across all the regions of the country, as we were able to successfully manage capacity despite weakened demand during the early part of the season with minimal impact on profitability.

The First Choice Student Travel businesses based in the USA and Canada performed in line with our expectations. The recent acquisitions in educational student travel have integrated well into the division and are performing as anticipated.

	Winter 06/07	Winter 05/06	Change%

Underlying operating margin	2.7%	2.2%	+0.5ppts

Note
[1]Passenger and revenue KPI's include FY06 and FY07 acquisitions, and exclude discontinued operations.
[2] Other includes revenue relating to discontinued operations in FY06 and FY07 and the impact of changing foreign exchange rates.

Activity Holidays

The Activity Holidays Sector delivered an underlying operating loss of £6.8m (2006: loss of £7.5m) on revenue growth of 25% to £174.7m (2006: £140.1m). The £0.7m improvement in the underlying operating loss was primarily a result of continued growth in the Adventure division and the contribution from in-year and prior year acquisitions.

Marine

The Sunsail Yachts and Moorings' integration is progressing well and we remain on target to deliver the anticipated cost synergy benefits of £5m this year, which is ahead of our original target.

Sunsail Clubs has reduced capacity following the closure of the Javelin Club in Turkey for re-development, it is planned to re-open the Javelin Club in 2008. This market remains challenging with a number of competitors offering holidays at significantly discounted prices. Our newest club, Phokaia in Turkey is in its second year of operation and demand is very high, up 56% year-on-year, giving us confidence that, despite the competitive environment, a superior club experience is important to our customers.

Occupancy levels within Inland Waterways have risen over the season, while the level of direct sales has increased by four percentage points to 46% (2006: 42%).

Adventure

The Adventure division, which includes First Choice Expedition Cruising, performed in line with our expectations with consumer demand for adventure-style holidays continuing to drive top-line and margin growth, with total revenues up 28% to £105m (2006: £82m) and like-for-like revenues up 19%. During the period, we reviewed our participation in the expedition cruising market and took the strategic decision to focus solely on polar expedition cruising. As a consequence, we acquired Quark Expeditions the world's leading operator of expedition cruise voyages to the polar regions. Quark operate six ships in the polar region and has built up market leading expertise in this activity. This acquisition will allow us to combine the Peregrine ships to create the market-leading operator in the polar expedition cruising market. As a result of this decision, after the period end, we sold the two Clipper ships that we acquired with the INTRAV acquisition for net disposal proceeds of £16m, although we have retained a medium-term charter on the Clipper Adventurer. In our opinion access to this type of capacity is important but ownership of the assets was not the optimum use of capital when capacity was readily available in the marketplace. With our enhanced position in this market we will be able to substantially improve our itineraries in the 2007/08 cruising programme.

The schools business performed well during its key trading period including a strong performance from the Travel Class business we acquired in 2006. The FlexiSki business benefited from restructuring and delivered excellent growth during its key trading period.

Winter 2006/07

Year-on-year variation	Revenue Total	Like-for-like
Marine	+25%	+3%
Adventure [1]	+28%	+19%
Escorted Tours	+9%	n/a
Total	**+25%**	**+15%**

	Winter 06/07	Winter 05/06	Change
Underlying operating loss (£m)	(6.8)	(7.5)	+9.3%
Operating margin	(3.9)%	(5.3)%	1.4ppts

[1] Winter 2006/07 revenue includes First Choice Expedition Cruising, which is not included in the trading updates

Escorted Tours

The Escorted Tours division enjoyed revenue growth of 9% to £21.3m (2006: £19.5m) as the portfolio of cultural and luxury escorted tour operators continued to benefit from strong consumer-led growth for these products.

Online Destination Services

The Online Destination Services Sector has achieved 29% like-for-like growth in underlying operating profit in the first half with like-for-like revenues up 11% and total revenues up 88% to £74.7m (2006: £39.8m). Total underlying operating profit has risen 159% to £1.0m (2006: £1.7m loss) as a result of the continued growth in the Hotelbeds and Bedsonline routes to markets, the recovery in Mexico as a destination which was adversely affected last year by Hurricane Wilma and the acquisition of Laterooms.com.

The integration of last year's acquisitions, Meridian and Pacific World, remains in line with expectations and has resulted in the Sector bed-bank increasing substantially for all the main destinations in China and South East Asia.

Laterooms.com, which we acquired in December 2006, had an excellent first four months in the Group and has so far delivered a financial performance in excess of our expectations. We are delighted with this performance and remain confident that this business will complement our existing online capability.

Acquisitions

In the last six months we have completed seven acquisitions in niche segments of the leisure travel market for a maximum consideration of £145.8m. By way of comparison, in the first half ended 30 April 2006, we made nine acquisitions for a maximum consideration of £94.9m. Of the maximum consideration of £145.8m for the six months ended 30 April 2007, £106.8m has been paid during the first half. A further amount up to £39.0m could be paid as deferred and contingent consideration.

Cash paid relating to prior year acquisitions		4.6
Net cash outflow in the period relating to acquisitions		**106.4**

We have acquired businesses within the online, adventure, premium escorted tours and North American student travel segments of the market:

- In the online market, we acquired laterooms.com, an online hotel price comparator and genuine provider of late availability accommodation. This business operates in a high growth niche market as hoteliers seek to distribute their unsold stock.

- Within North American Student Travel we have acquired two businesses, Young Explorers an educational tours business based in Canada and KSA Events which offers participation by high school students in organised sporting events and tournaments. The acquisition of KSA Events provides us with the platform to enter the group performance segment of the student travel marketplace in the US, which demonstrates similar high-growth characteristics to our existing high school leisure and educational group travel propositions.

- In the Activity Holidays Sector we have acquired four businesses within the Adventure division in the first half. i-to-i, headquartered in the UK, has established itself as a leading provider of Meaningful Travel experiences while iExplore, Inc. is a US premium adventure travel internet portal and WesternXposure is an Australian operator of adventure tours in Western Australia and the Northern Territory. Within expedition cruising, we acquired Quark Expeditions, the world's leading operator of expedition cruise voyages to the Polar Regions, and recently disposed of the two Clipper cruising ships to enable our business to focus exclusively on expedition cruising.

After the period end, we acquired Hannibal Travel Group (trading under the Hannibal and Marco Polo brands) within the Escorted Tours division, which is a leading premium escorted tours operator, serving the Danish market and primarily the 'baby boomer' and 'young professional' demographic.

The acquisition pipeline remains strong and we will continue to target leisure travel companies that have excellent growth characteristics with the ability to generate superior returns for our shareholders.

Cash

Our net debt position of (£373m) represents increased indebtedness of £186m compared to the same point in the prior year (2006: £187m net debt). The net debt position comprises £196m of cash and £569m of debt. Our acquisition strategy accounts for the majority of this increase in debt.

Dividends

The Board has declared an interim dividend of 2.50p (2006: 2.25p) per ordinary share. This represents an increase of 11% compared to the same period in the prior year. This is in line with our stated progressive dividend policy to maintain dividend cover at around two-times. The dividend is payable on 26 September 2007 to shareholders on the register at 24 August 2007.

Corporate activity

On 19 March 2007, we announced a proposed merger with the Tourism Division of TUI AG (excluding certain hotel assets) to create TUI Travel PLC. On 4 June 2007, the European Commission announced that it had conditionally approved the merger, subject to divestment of a business within the Republic of Ireland.

The merger, which will be implemented by way of a Court-approved Scheme of Arrangement, remains subject to a number of conditions, including approval of the TUI Travel PLC prospectus by the UKLA, approval by First Choice shareholders, approval of the Scheme of Arrangement by the UK High Court and the listing of the TUI Travel PLC shares.

The expected timetable of key events is:

29 June 2007- UKLA approval and publication of the TUI Travel PLC prospectus

Early July 2007 - Posting of the First Choice Scheme of Arrangement circular and TUI Travel PLC prospectus to First Choice shareholders

By 1 October 2007 - Delisting of First Choice shares and listing of TUI Travel PLC shares

Within the expected timetable, exact dates for the posting of the First Choice Scheme of Arrangement circular and TUI Travel PLC prospectus to First Choice shareholders, the First Choice shareholder meetings, the Court hearing and for the final merger steps will be decided shortly. Shareholders will be kept fully informed.

In the six weeks since the trading update on 1 May 2007, trading for Summer 2007 has continued to perform in line with our expectations.

In Mainstream Holidays our performance has tracked in line with our expectations in what remains a challenging market, with revenues now cumulatively up +3% on flat volumes. We have cut capacity in the short-haul market, while maintaining capacity levels in the medium-haul segment where we are continuing to experience strong demand for Turkey and Greece. Within long-haul, as a result of the 25% increase in capacity and our differentiated product offering, we are continuing to enjoy strong demand for key destinations such as Mexico, Dominican Republic, Cuba and Costa Rica. Accordingly, long-haul revenues are up 26% on volume growth of 21%. We anticipate that margins will remain under pressure as the impact of the rise in APD and year-on-year increase in fuel costs affects our ability to recover the additional costs incurred.

The Specialist Holidays Sector has had an excellent start to Summer across all its businesses with sales and margins up on last year, as demand for the lifestyle and destination specialism products on offer and the growth in controlled distribution yields benefits across the sector.

Overall, the Activity Holidays Sector is performing well with the Adventure businesses enjoying a strong start to the season with revenues up 7% like-for-like and Marine revenues up +2% on a like-for-like basis. Margins are tracking slightly ahead of last year for the summer programme.

In the Online Destination Services Sector all routes to market continue to grow and are performing well, with margins ahead of last year. The Sector continues to benefit from demand for its significant bedbank across over 900 predominately leisure destinations from independent tour operators and travel agents. The integration of laterooms.com is progressing as planned, as the business enjoys strong demand for late availability bedstock, with sales and volumes up 78% and 73% respectively.

Although early in the selling period, where Winter 2007/08 is on sale, we are performing in line with our expectations.

	(74.7)	(63.0)	34.0

Notes (unaudited)

1. Basis of preparation

This interim financial information has been prepared applying the accounting policies and presentation that were applied in the preparation of the Company's published consolidated financial statements for the year ended 31 October 2006.

The comparative figures for the financial year ended 31 October 2006 are not the Company's statutory accounts for that financial year. Those accounts have been reported on by the Company's auditors and delivered to the registrar of companies. The report of the auditors was (i) unqualified, (ii) did not include a reference to any matters to which the auditors drew attention by way of emphasis without qualifying their report, and (iii) did not contain a statement under section 237(2) or (3) of the Companies Act 1985.

2. Segmental information

The Sector analysis is based on the Group's management and reporting structure.

Comparative segmental information has been restated to reflect the transfer of management of Trips Worldwide, Magic of the Orient, Aventuria and Your Man Tours business from the Activity Holidays Sector to the Specialist Holidays Sector. Comparative information has also been restated to reflect corporate costs separately.

Online Destination Services revenue and cost of sales for the six month period to 30 April 2006 have both been reduced by £56.1m in order to be presented on a consistent basis with the other periods reported.

3. Separately disclosed items

As previously announced, due to the UK government raising Air Passenger Duty (APD) in December 2006, we have been unable to recover the one-off cost of the retrospective tax for bookings made pre 6 December 2006. In addition, we have incurred some further costs in closing under performing business units in the first half in Germany and Belgium and downsizing and restructuring particularly through outsourcing back office operations in the Mainstream Holidays Sector. We also incurred advisor fees and other related costs in connection with the potential sale of the Mainstream Sector which was terminated on 12 February 2007. Accordingly, the Group has incurred separately disclosed items of £12.9m (2006: £nil).

4. Net financing expenses

	6 months 30 April 2007 £m	6 months 30 April 2006 £m	Year 31 October 2006 £m
Interest income	**4.0**	2.0	5.0
Interest on pension scheme assets	**2.3**	1.8	3.9
Financial income	**6.3**	3.8	8.9
Bank interest payable on loans and overdrafts	**(19.2)**	(10.5)	(21.5)
Interest on pension scheme liabilities	**(2.4)**	(2.2)	(4.5)
Finance lease charges	**(0.7)**	(0.6)	(1.1)
Financial expenses	**(22.3)**	(13.3)	(27.1)
Net financing expenses	**(16.0)**	(9.5)	(18.2)

5. Taxation

Income tax for the six month period to 30 April 2007 is calculated using the estimated annual effective tax rate for the full year ending 31 October 2007.

The estimated annual effective tax rate for the year ended 31 October 2007, calculated on profit/loss before tax separately disclosed items and amortisation of business combination intangibles, is 27.5% (2006: full year actual underlying tax rate 27.6%).

6. Dividends

Dividends have been recognised within equity as follows:

	6 months 30 April 2007 £m	6 months 30 April 2006 £m	Year 31 October 2006 £m
Interim ordinary dividend paid for 2006 2.25p (2005: 1.95p)	**11.8**	10.1	10.1
Final ordinary dividend paid for 2006 of 5.40p (2005: 4.65p)	**28.6**	24.4	24.4
	40.4	34.5	34.5

6. Dividends – cont'd

Subsequent to the balance sheet date, the Directors have approved an interim dividend of 2.50p per share (2006: 2.25p) payable on 26 September 2007 to the holders of relevant shares on the register at 24 August 2007. The interim dividend amounts to £13.2m (2006: £11.8m) and will be recognised as a deduction from equity when paid.

A dividend reinvestment plan is available for shareholders. Those shareholders who have not elected to participate in this plan, and who would like to participate with respect to the 2007 interim dividend, may do so by contacting Lloyds TSB Registrars direct on 0870 2413018. The last day for election for the interim dividend is 5 September 2007 and any requests should be made in good time ahead of that date.

7. Loss per ordinary share

The basic loss per ordinary share for the six month period to 30 April 2007 is calculated by dividing the loss attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the period, excluding those held in the employee share ownership trusts.

	Loss 2007 £m	**Weighted average no. of shares 6 months 30 April 2007 millions**	**Loss per share 2007 pence**	Loss 2006 £m	Weighted average no. of shares 6 months 30 April 2006 millions	Loss per share 2006 pence
Basic and diluted loss per ordinary share	**(74.9)**	**527.0**	**(14.2)**	(57.8)	524.2	(11.0)
Amortisation of business combination intangibles (net of tax)	**5.5**	**–**	**1.0**	2.5	–	0.5
Basic and diluted loss per share before amortisation of business combination intangibles	**(69.4)**	**527.0**	**(13.2)**	(55.3)	524.2	(10.5)
Separately disclosed items (net of tax)	**8.9**	**–**	**1.7**	–	–	–
Disposal of investment in associate	**0.5**	**–**	**0.1**	–	–	–
Basic and diluted underlying loss per ordinary share	**(60.0)**	**527.0**	**(11.4)**	(55.3)	524.2	(10.5)

In accordance with IAS 33: Earnings Per Share, the calculation of diluted basic loss per ordinary share and diluted underlying loss per ordinary share has not included anti-dilutive potential ordinary shares. Therefore there is no difference between the calculation of basic and diluted measures in the six month period.

8. Acquisitions

During the six months ended 30 April 2007, the Group has made the following acquisitions:

Sector & entity	Country of operation	Date of acquisition	Consideration recognised £m
Specialist			
Young Explorers	Canada	January 2007	0.8
KSA Events	USA	April 2007	+2.1
Activity			
WesternXposure	Australia	February 2007	+2.4
i-to-i	UK	February 2007	+20.6
iExplore	USA	February 2007	+4.6
Quark Expeditions	USA	April 2007	9.8
ODS			
Laterooms.com	UK	December 2006	+97.2
			137.5

+ Provisional, as consideration is dependent on future earnings

Cash paid for the acquisitions in the period, net of cash acquired, was £101.8m; deferred consideration and acquisition costs of £4.6m was paid relating to acquisitions in prior years, giving a total cash payment for acquisitions in the period of £106.4m.

Details in respect of these acquisitions are set out below. Fair value adjustments are provisional.

Total acquisitions **£m**	**Book value prior to acquisition**	**Fair value adjustments (provisional)**	**Fair value to Group (provisional)**
Property, plant and equipment	1.0	–	1.0
Other intangible assets	0.8	56.6	57.4
Trade and other receivables	6.7	–	6.7
Trade and other payables	(11.2)	–	(11.2)
Interest-bearing loans and borrowings	(17.5)	–	(17.5)
Income tax payable	(0.1)	–	(0.1)
Deferred tax liabilities	–	(17.6)	(17.6)
Cash and cash equivalents	6.2	–	6.2
Net identifiable assets and liabilities	(14.1)	39.0	24.9
Goodwill on acquisition			113.8
Fair value of consideration		137.5	
Acquisition costs		1.2	
Total cost of investment			138.7
Cash and cash equivalents acquired			(6.2)
Loan notes payable			(21.6)
Deferred and contingent consideration and accrued costs			(9.1)
Net cash outflow			**101.8**

9. Reconciliation of movements in equity

	Share capital £m	Share premium £m	Other reserves £m	Retained earnings £m	Equity holders of parent £m	Minority interests £m	Total £m
At 31 October 2006	**15.9**	**242.0**	**296.4**	**(273.2)**	**281.1**	**0.9**	**282.0**
Total recognised (expense)/ income for the period	–	–	(0.1)	(74.9)	(75.0)	0.3	(74.7)
Shares issued	–	0.2	–	(0.2)	–	–	–
Share based payment	–	–	–	3.3	3.3	–	3.3
Acquisition of shares for share-based payment	–	–	–	(3.9)	(3.9)	–	(3.9)
Ordinary dividends *(note 6)*	–	–	–	(40.4)	(40.4)	–	(40.4)
Minority interest dividend	–	–	–	–	–	(0.3)	(0.3)
At 30 April 2007	**15.9**	**242.2**	**296.3**	**(389.3)**	**165.1**	**0.9**	**166.0**

Other reserves are analysed as follows:

	Capital reserve £m	Merger reserve £m	Foreign exchange reserve £m	Hedging reserves £m	Total £m
At 31 October 2006	**201.4**	**138.5**	**(5.8)**	**(37.7)**	**296.4**
Total recognised (expense)/ income for the period	–	–	(2.2)	2.1	(0.1)
At 30 April 2007	**201.4**	**138.5**	**(8.0)**	**(35.6)**	**296.3**

10. Movements in cash and net debt

	30 April 2007 £m	Cash movement £m	Foreign exchange movements £m	Arising on acquisition £m	31 October 2006 £m	30 April 2006 £m
Cash and cash equivalents	**196.1**	19.0	(0.4)	–	177.5	156.1
Bank loans and loan notes	**(561.6)**	(250.0)	1.1	(39.1)	(273.6)	(336.0)
Finance leases	**(7.4)**	0.5	(0.7)	–	(7.2)	(7.5)
Net debt	**(372.9)**	(230.5)	–	(39.1)	(103.3)	(187.4)

Cash movements in bank loans include £0.1m of repayment of acquisition-related loan notes. For clarity, the cash flow statement includes this movement in payments for the acquisition of subsidiaries.

11. Approval

The interim financial statements were approved by the Board on 13 June 2007.

Independent Review Report by KPMG Audit Plc to First Choice Holidays PLC

Introduction

We have been instructed by the company to review the financial information for the six months ended 30 April 2007 which comprises the consolidated income statement, the consolidated balance sheet, the consolidated statement of cash flows, the consolidated statement of recognised income and expense and the related notes. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the company in accordance with the terms of our engagement to assist the company in meeting the requirements of the Listing Rules of the Financial Services Authority. Our review has been undertaken so that we might state to the company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company for our review work, for this report, or for the conclusions we have reached.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with guidance contained in Bulletin 1999/4: *Review of interim financial information* issued by the Auditing Practices Board for use in the UK. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with International Standards on Auditing (UK and Ireland) and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 April 2007.

Our marketplace – what's happened in the last 12 months

First Choice Holidays PLC

The First Choice strategy

- Creating leadership positions through differentiated content
- Building flexible business models
- Gaining control of customer relationships
- Building leadership positions in attractive segments

Building leadership positions

Creating leadership positions through differentiated content

- Most exclusive differentiated product for UK mainstream customers
- No 1 destination specialist in France
- World's leading adventure travel provider
- World's leading provider of yachting holidays
- World's leading provider of inland waterways holidays
- Significant position in expedition cruising
- ODS - No 1 destination services business in Europe
- Building leadership positions in North American student travel and expedition tours

Building flexible business models – Mainstream Holidays

	Summer	52%	49%	42%
	Total	54%	51%	45%

First Choice Holidays PLC

Measured by revenue

Building flexible business models – Specialist Holidays

- Diversifying destinations and source markets
  - no single destination now represents more than 20% of revenues (was >30%)
  - 15 source markets, many sharing product
- Flexibility in aircraft and accommodation contracts
  - reverse charter model, all third party, less than 50% contracted
  - less than 50% accommodation committed
- Low cost overhead infrastructure in each business

Gaining control of the customer relationship

Region	Sector/Division	Direct %	Online %
UK	Mainstream	66	31
	Specialist	59	13

	Rest of North America	55	15

First Choice Holidays PLC

Based on summer 2006 trading (bookings) to date

Building leadership positions in attractive segments through acquisition in fragmented marketplaces

- Adventure
  - 17 acquisitions, largest range of adventure product
  - experiences offered to a range of source markets
  - revenue growth 2003: £26m → 2005: £87m → 2006: £140m +

- Student Travel
  - 64 million students (10-25 years) in market valued at $20bn
  - entry point via spring break holidays; 8 further acquisitions so far
  - revenue growth 2004: £8m → 2005: £22m → 2006: £40m +

- Escorted Tours
  - entered market with Grand Expeditions, and subsequently Intrav

Building leadership positions in attractive segments through consolidation

- First Choice Marine
  - bringing together the world's leading bareboat brands
  - combined business of 1,500 yachts and power boats
  - combined revenues of £75m, EBIT of £4.5m in 2005
  - synergies through joint procurement, sales office, overhead and base rationalization estimated at £5m to 31 October 2007

Building leadership positions in attractive segments through restructuring

- INTRAV
  - broken into 3 distinct businesses
  - coastal shipping business sold
  - expedition cruise shipping integrated with Peregrine
  - "new" INTRAV refocused on premium expeditions
  - infrastructure dismantled with $6m savings in 2005/06

Acquisition strategy – the pipeline is strong

- Continue to build on niche segments:
  - adventure travel
  - North America student travel
  - escorted tours
- Acquisition firepower:
  - 25% on balance sheet gearing is achievable
  - potential new CAA bonding environment
- Continuing to seek new growth markets:
  - South East Asia
  - South America

What does this strategy deliver?

Mainstream

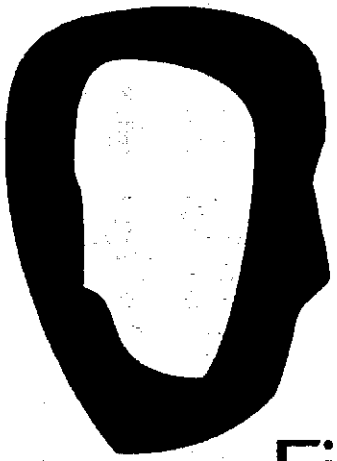
- Revenue growth through remixing to long-haul
- Margin enhancement through remixing and through greater control of distribution

Specialist

- Revenue growth possible in all divisions
- Margin enhancement towards 5%

Activity

- Revenue growth driven by Adventure and Escorted Tours
- Margin enhancement through better asset utilisation and consolidation in Marine



Online Destination Services

- TTV and revenue growth across all online routes to market
- Margin enhancement in 07/08 post ongoing investment in Hotelopia

Investment case

- Clearly defined strategy
- Driving towards 5% operating margins
- Combination of organic and acquisition growth
- Confident about the outlook

Leadership in the travel space that generates leading returns

FIRST CHOICE HOLIDAYS PLC

MERGER UPDATE

First Choice Holidays PLC ("First Choice") and TUI AG ("TUI") note today's decision by the European Commission to approve the proposed merger of First Choice and the Tourism Division of TUI, excluding certain hotel assets. The Boards of First Choice and TUI are pleased that the Commission has approved the merger and look forward to the creation of one of the world's leading travel groups, TUI Travel PLC.

Peter Long, CEO of First Choice said: "I am delighted that the Commission has granted us clearance. We are pleased that the Commission has recognised the sea-change in the leisure travel industry brought about by internet-based travel and tourism businesses and the low cost airlines. We will now be able to press forward with the merger process and the creation of TUI Travel PLC, which will offer great value holidays and leisure travel experiences for our customers. We are excited about the prospects for the new Group and look forward to the future with confidence."

Dr Michael Frenzel, Chief Executive Officer of TUI AG commented "today's announcement sees us take the first step on the path to creating a world leading leisure travel Group."

The clearance is subject to an undertaking to divest TUI's Budget Travel business in Ireland.

The merger, which First Choice is implementing by way of a Court-approved Scheme of Arrangement, remains subject to a number of conditions, including approval of the TUI Travel PLC prospectus by the UKLA, approval by First Choice shareholders, approval of the Scheme of Arrangement by the UK High Court, and the listing of the TUI Travel PLC shares.

The expected timetable of key events is:

29 June 2007- UKLA approval and publication of the TUI Travel PLC prospectus

Early July 2007 - Posting of the First Choice Scheme of Arrangement circular and TUI Travel PLC prospectus to First Choice shareholders

By 1 October 2007 - Delisting of First Choice shares and listing of TUI Travel PLC shares

Within the expected timetable, exact dates for the Posting of the First Choice Scheme of Arrangement circular and TUI Travel PLC prospectus to First Choice shareholders, the First Choice shareholder meetings, the Court hearing and for the final merger steps will be decided shortly. Shareholders will be kept fully informed.

FIRST CHOICE HOLIDAYS PLC AND TUI AG

UPDATE ON PROPOSED MERGER OF FIRST CHOICE HOLIDAYS PLC AND TUI TRAVEL

Following a meeting with the Competition Case Team of the European Commission on 3 May 2007 at which the issue of potential dominance post merger in the Republic of Ireland was raised, First Choice Holidays PLC and TUI AG have agreed to consider specific undertakings to address this issue including the potential sale of one of their Irish businesses.

As a result of the need for the European Commission to consider these undertakings, the Phase I investigation will now be extended by 10 working days. We, therefore, expect that their decision on whether to clear the proposed merger at Phase I or extend it into a Phase II investigation will be announced on or before 4 June 2007. First Choice and TUI AG remain confident that the proposed merger will be cleared by the European Commission.

2. These statistics exclude FY2006 and FY2007 acquisitions

Mainstream Holidays Sector

Winter 2006/07

In the Mainstream Holidays Sector, despite ongoing challenging trading conditions in the UK market, performance for the Winter season was in line with our expectations. Total revenues for the season are up 10% on volumes slightly lower by 2%. Demand for our long-haul products remains strong, with revenues up 37% and volumes up 26%, as we continue to benefit from the investment in our market-leading differentiated long-haul programme. Our

first Holiday Village within this segment, in the Dominican Republic, opened for the Winter 2006/07 season and has proved popular with our customers.

As previously indicated, a number of significant cost pressures have impacted margins during this half. The rise in Air Passenger Duty (APD), the year-on-year increases in fuel costs and our investment in two additional long-haul aircraft for the Summer season will as expected result in lower margins for Winter 06/07. This will be partially offset by the benefits of continuing to increase control of our distribution.

Summer 2007

Summer trading has remained broadly in line with our expectations since the AGM, with revenues now cumulatively up by 2% on lower volumes of 2%. We have cut capacity in the short-haul market, while maintaining capacity levels in the medium-haul segment where we are experiencing strong demand for Turkey and Greece. Within long-haul, we have increased capacity by 25% as the two additional B767s have enabled us to expand our programme in popular destinations such as Mexico, Dominican Republic, Cuba and Costa Rica. Accordingly, long-haul revenues are up 23% on volume growth of 17%. Again, however, as anticipated margins are being adversely affected by the rise in APD that is not currently being fully recovered from passengers.

Specialist Holidays Sector

Winter 2006/07

The Specialist Holidays Sector has enjoyed a successful Winter, with the European businesses growing revenues by 3% on volume growth of 9%. Margins are slightly ahead of last year. North American revenues were up 13% on lower volumes (down 4%) as the unusually warm weather in Canada during the peak trading season of January to March adversely affected consumer demand.

Summer 2007

Even though it remains very early in the booking cycle for a number of our continental European businesses, we are encouraged by trading with revenues up 24% on higher volumes (up 18%). Since the AGM statement, we have experienced an increase in the rate of sale for the peak Summer months of July and August with margins performing in line with our expectations.

Activity Holidays Sector

The Sector continues to perform in line with our expectations with revenues up 2% for the Winter season and up 5% for Summer. The Adventure division continues to benefit from growth in demand for adventure travel experiences with revenues up 6% for the Summer season. The Marine division has also benefited from an improvement in the rate of sale since the AGM statement and is now 3% up for Summer. In addition, we remain on track to deliver the £5m synergy benefit in this financial year from the integration of The Moorings and Sunsail brands.

Online Destination Services

All routes to market are performing well with the Sector experiencing both growth in pricing and volumes, as the business continues to expand both its content and client base through its Bedsonline, Hotelbeds and Hotelopia channels. Revenues are up +46% on volume growth

of 35% for Winter, and up 60% and 39% for Summer respectively. The integration of laterooms.com is progressing well, with the business trading strongly with revenues up 79%.

Acquisitions

During the first half of the year, we have continued to build upon our leadership positions with the acquisition of seven businesses within specialist niche segments of the market that demonstrate high growth and value enhancing characteristics.

Further to the five acquisitions previously announced, we have completed another two acquisitions since the AGM statement, within the polar expedition cruising and North American student travel segments of the market:

- Quark Expeditions is the world's leading operator of expedition cruise voyages to the Polar Regions. The business focuses exclusively on Polar cruises and remains the only operator offering ice-breaker trips. Since 1991 it has carried over 30,000 passengers to this region. Polar expedition cruising is a fast growing segment of the leisure travel market, with a strong near term growth profile. The combination of Quark with our existing First Choice Expedition Cruising business will provide us with the opportunity to drive incremental margins through back office consolidation and expanding the range of specialist expedition cruising content.

- KSA Events operates within the North American student travel segment, offering participation by high school students in organised sporting events and tournaments. This acquisition provides us with the platform to enter the group performance segment of the student travel marketplace in US. This segment demonstrates similar high growth characteristics to our existing high school leisure and educational group travel propositions.

In the current financial year, we have completed acquisitions to date with a maximum aggregate consideration of £163.2m of which £134m has already been paid (2006: £153m of which £133m was paid).

We continue to see attractive acquisition opportunities and to target leisure travel companies that have excellent growth characteristics and the ability to generate superior returns for our shareholders.

A full list of the acquisitions is attached at Appendix 1 to this statement.

Proposed Merger

On 19 March 2007 we announced our proposed merger with the tourism division of TUI AG (excluding certain hotel assets). Following notification of the merger to the European Commission, we expect to be informed by 16 May 2007 of either Phase I clearance or a further review (Phase II).

Interim Results

First Choice Holidays PLC will announce its interim results for the six months ending 30 April 2007 on Thursday 14 June 2007.

Merger Update

Back

First Choice Holidays PLC and TUI AG announce that on 4 April they delivered to the European Commission their notification of the proposed merger of First Choice Holidays PLC and the Tourism Division of TUI AG, excluding certain hotel assets.

The Commission will decide whether it will clear the merger or refer it for a Phase II investigation by 16 May 2007. If the Commission clears the merger, shareholder documentation is expected to be posted in June with completion then anticipated in the third quarter of this year.

- Sustainable cost-cutting through synergies and efficient management structure
- Platform for future growth: best structure to capture growth opportunities

Outstanding Opportunity in Global Travel & Leisure

- Bringing together market leading brands
- Exceptional combination of content and distribution capability
- Ability to provide a full range of leisure travel needs
- Cost advantage through synergies and economies of scale
- Excellent management track record

Combination of sustainable growth opportunities and considerable synergies

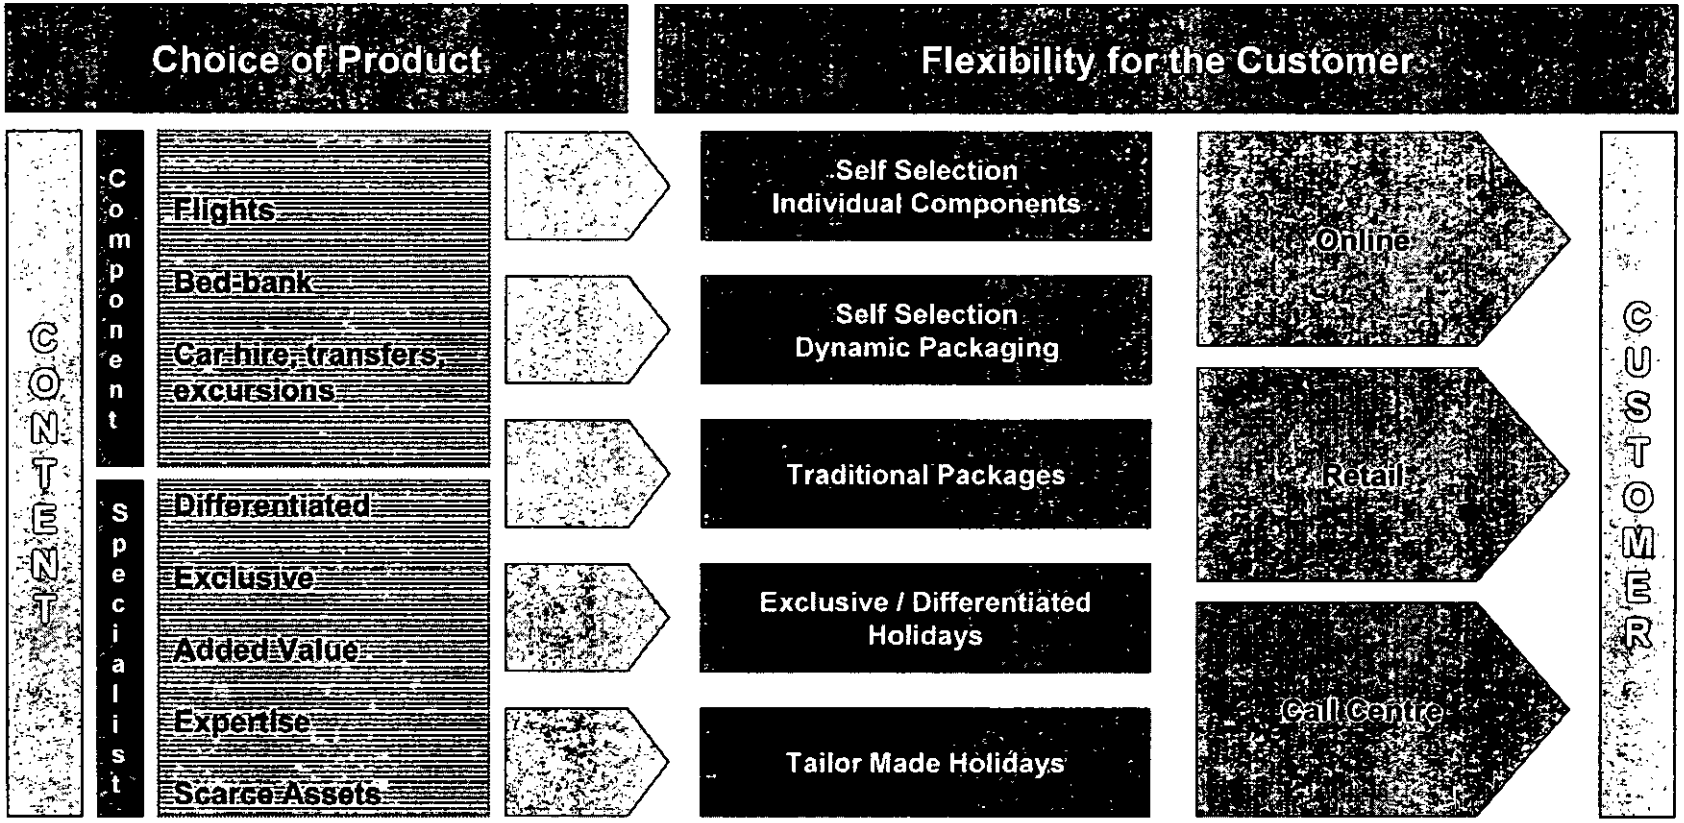
Peter Long, CE First Choice Holidays PLC

Chief Executive Officer Designate of TUI Travel PLC

Deal rationale

- The leisure travel environment is changing rapidly
- The combined business of First Choice Holidays and TUI Travel has a strong strategic fit
- The TUI Travel business model can satisfy a full range of leisure travel needs
- The deal provides the opportunity for
  - one of the world's leading travel groups
  - sustainable growth in revenue and margins
  - delivery of synergies

A significant value creation opportunity



Deal rationale – the travel environment

Customer Trends	How has the market changed?	The opportunities
Flexibility and choice	• fewer 7 / 14 night packages • growth in independent travel • growth in low cost carriers	• differentiate and specialise • scale up to drive economies • large airline content
Life experiences not just materialism	• change in demographics • demand for different travel experiences • focus on health, environment, culture and learning • growth in long haul	• build a specialist portfolio of activity and experiential holidays • invest in long haul proposition
24 / 7 access to content and increasing web awareness	• high web penetration • price transparency • self selection / DIY	• multi-channel strategy • build brands that can compete online • increase component offering

Deal rationale – strategic fit

	Key Strengths	First Choice Holidays	TUI Travel	TUI Travel PLC	Competitive Positioning
Content	Flight Only		✓	156 aircraft, 8 source markets – Pan European airline	Competing effectively with LCCs
	Bed Bank	✓	✓	Access to a bedbank of +25,000 hotels across +900 leisure destinations	Competing effectively with online intermediaries
	Exclusive / Differentiated	✓	✓	Access to 6 Holiday Villages, and 21 Robinson hotels 23 B787 order book	Driving earlier bookings and higher margins
	Specialist & Niche	✓		96 specialist brands across 7 segments	Satisfying changing customer demands through higher margin products
Distribution & Business Model	Web Led Distribution	✓	✓	Dynamic packaging, controlled distribution	Providing flexibility and choice to consumer at lower cost
	Brands	✓	✓	Over 200 brands, strong customer awareness	Optimising tour operating and specialist brands online to drive loyalty and margins
	Flexible Business Model	✓		Flexible aircraft & retail leasing, low operational gearing	Leveraging economies of scale and synergies to derive cost advantage
	Acquisitions	✓		£700m spend over past 10 years, value creation	Building leadership positions in fragmented niche markets

Deal Rationale – TUI Travel Business Model

Providing choice and flexibility for the customer

Deal Rationale – Delivering Growth

Objective	Value Driver	
Content	- increase aircraft utilisation - optimise yield - flight only and packages - operate flexible fleet profile - leverage market for leisure hotels - optimise specialist brand margins	**Enhanced margin opportunity with combined management expertise 1% = c.£100m EBITA**
Distribution	- optimise specialist brand margins - increase controlled distribution - maximise web sales & content - build strong brand awareness & loyalty - reduce cost of acquisition	**Specialist products distributed in new source markets**
Cost Competitiveness	- deliver synergies - increase procurement capability	**c.£100m synergies c.1% margin**
Acquisitions	- consolidate fragmented markets - build leadership positions in niche segments at higher margins - deliver First Choice Holidays track record	**Acquisition-led value creation**

Paul Bowtell, Group FD of First Choice Holidays PLC

Chief Financial Officer Designate of TUI Travel PLC

Financial Highlights

- Pro forma revenues of £12.1bn (€17.6bn), EBITDA of £569m (€831m) and EBITA of £340m (€497m) before central costs of c.£15m for First Choice Holidays PLC
- TUI AG will transfer €875m (approximately £600m) of net debt (including pension liabilities) to TUI Travel PLC
- Operating assets transferred include:
  - TUI Travel airline fleet and First Choice Holidays airline fleet
  - retail estate of both parties

(1) As at year end 2006, includes 2 aircrafts leased to third parties

First Choice Holidays PLC
Where leisure travels further

TUI Aktiengesellschaft

Synergy Benefits

- Cost advantage arising from significant synergy benefits
- Anticipated cost synergies of c.£100m (c.€146m) per annum
  - 29% of 2006 proforma EBITA (before central costs for First Choice Holidays) and 0.8% of 2006 proforma revenues (unaudited)
  - annual run rate to be achieved within three years of completion
- Cost synergies to arise from
  - economies of scale of combined operations
  - consolidation of operations
- Synergies mainly in the UK but benefits available across Europe
- Potential revenue synergies offer further upside
- c.£100m excludes existing TUI restructuring programme and its associated benefits

Key Areas for Synergies

- Airline flight planning and operating costs
- Streamlined distribution (front office IT, development costs, retail shops)
- Consolidation of retail, call centre and administrative facilities
- Reduced marketing and commercial costs
- Destination cost efficiencies
- Higher internet traffic and lower acquisition costs
- Yield improvement (Mainstream and airline)

Expected Timetable to Completion

Transaction announcement	■ 19 March 2007 ■ Conditional on anti-trust approval
Posting of circular to First Choice Holidays shareholders and TUI Travel PLC prospectus	■ Expected June
EU competition approval	■ Formal filing shortly ■ Earliest possible clearance - May ■ Strong argument for clearance in Phase I
Court meeting and EGM	■ Scheme of arrangement (acquisition of First Choice Holidays by TUI Travel PLC) ■ Expected July
Completion	■ Completion expected August / September

Peter Long, CE First Choice Holidays PLC

Chief Executive Officer Designate of TUI Travel PLC

Current Trading

First Choice Holidays

- AGM statement – 7 March 2007
  - mainstream rate of sale improving but the UK remains a challenging market
  - specialist businesses enjoying an excellent start to the Summer 2007 season

TUI Travel

- Annual results – 19 March 2007
  - excellent start to summer season 2007 with revenue increase of +4.7% and customer numbers +7.2%
  - Germany and Nordic countries showing strong growth with UK and Ireland slower

MERGER OF FIRST CHOICE HOLIDAYS PLC AND TUI TRAVEL TO CREATE TUI TRAVEL PLC

* The Boards of First Choice Holidays PLC ("First Choice") and TUI AG ("TUI") are pleased to announce the creation of one of the world's leading travel groups, TUI Travel PLC

* TUI Travel PLC is being created through a recommended merger of First Choice and the Tourism division of TUI, excluding certain hotel assets ("TUI Travel")

* The new group will have approximately 27 million customers in 20 source markets. It will be headquartered in the UK and application will be made for TUI Travel PLC's shares to be admitted to listing on the Official List and to trading on the London Stock Exchange

* TUI Travel PLC will have proforma revenues of £12.1 billion (€17.6 billion), EBITDA of £554 million (€809 million) and EBITA of £325 million (€475 million)

* First Choice and TUI believe that the Merger will deliver pre-tax cost benefits of at least £100 million (€146 million) per annum to be fully realised within three years of completion. The cost synergies are prior to any benefits expected from the existing TUI Travel restructuring programme

* TUI Travel PLC will be chaired by Dr. Michael Frenzel (Chief Executive Officer of TUI), deputy chaired by Sir Mike Hodgkinson (Chairman of First Choice) and managed by Chief Executive Officer Peter Long (Chief Executive of First Choice), Deputy CEO Peter Rothwell (CEO TUI Northern Europe) and Chief Financial Officer Paul Bowtell (Group Finance Director of First Choice)

* The strong strategic fit of the businesses combined with a leading management team provides the opportunity to create one of the world's most profitable travel groups by delivering sustainable revenue and long-term earnings growth while deriving cost advantage from leveraging both synergy opportunities and economies of scale to enhance margins

* TUI Travel PLC will have extensive content, multiple distribution channels

and the cost advantage to compete in a dynamic and rapidly changing travel market. TUI Travel PLC will also be able to provide customers with the flexibility and choice they demand

* TUI Travel PLC will be 51 per cent. owned by TUI and 49 per cent. owned by the existing shareholders of First Choice (calculated on a fully diluted basis)

* TUI will also contribute €875 million (approximately £600 million) of net financial debt, including all pensions liabilities currently associated with TUI Travel, to the new group

* The Merger will be effected through the acquisition by NewCo of both First Choice and TUI Travel (First Choice by means of a scheme of arrangement). It is expected that the Merger will be completed in the third quarter of 2007

* The Merger is conditional, inter alia, upon the approval of First Choice Shareholders and approval by the relevant anti-trust authorities. The Board of First Choice and the Supervisory Board of TUI have approved the Merger. While TUI shareholder approval is not required, First Choice shareholder approval will be sought at the Court Meeting and an Extraordinary General Meeting to be convened in due course. The directors of First Choice unanimously intend to recommend to First Choice Shareholders that they vote in favour of the Merger, as they intend to do in relation to their own shareholdings

Commenting on today's announcement, Sir Mike Hodgkinson, Chairman of First Choice said:

"This proposed merger provides us with a unique opportunity to leverage the strengths of both First Choice and TUI to create one of the world's leading travel groups. In addition to the significant opportunity to enhance margins, we believe the combination of brand leadership and management expertise that this transaction creates will deliver sustainable, long-term growth for shareholders and a group that satisfies the rapidly changing travel needs of our customers."

Dr. Michael Frenzel, CEO of TUI said:

"We are pleased that the Board of First Choice has decided unanimously to support the creation of TUI Travel PLC. The new company will be a leading worldwide travel group, with approximately 27 million customers per year in over 200 destinations. The combination of First Choice's fast growing specialist businesses and our strong momentum in the mainstream sector creates a solid platform from which to accelerate growth opportunities.

I am especially pleased that Peter Long has agreed to become Chief Executive of TUI Travel PLC and to lead the highly experienced executive management team. I firmly believe this Merger will deliver significant value to both TUI and First Choice shareholders."

All forward looking statements included in this announcement are based on information available to First Choice, TUI and TUI Travel on the date hereof. Investors should not place undue reliance on such forward looking statements, and we undertake no obligation to publicly update or revise any forward looking statements.

MERGER OF FIRST CHOICE HOLIDAYS PLC AND TUI TRAVEL TO CREATE TUI TRAVEL PLC

1. INTRODUCTION

The Boards of First Choice and TUI today announce a proposed recommended merger of First Choice and TUI Travel to create a unique leisure travel group with market leading positions in both component and specialist leisure travel.

The Boards of First Choice and TUI believe that the Merger offers significant benefits for their shareholders and customers. This transaction presents First Choice and TUI with the opportunity to take a leading position in the ongoing consolidation within the European leisure travel sector, as well as creating a business model that is ideally positioned to compete effectively within the leisure travel market.

The new group will be named TUI Travel PLC, and will be headquartered in the UK. Application will be made for TUI Travel PLC's shares to be admitted to listing on the Official List and to trading on the London Stock Exchange.

First Choice and TUI have established a new company, NewCo, which will effect the Merger by acquiring each of First Choice and TUI Travel (First Choice by means of a scheme of arrangement). The Merger is to be effected pursuant to a Merger Agreement between First Choice, TUI and NewCo. TUI will contribute TUI Travel together with €875 million (approximately £600 million) of net financial debt, including all pensions liabilities currently associated with TUI Travel.

Following the Merger, TUI will hold 51 per cent. of TUI Travel PLC, with existing First Choice Shareholders holding 49 per cent. (calculated on a fully diluted basis). Completion of the Merger is expected to take place in the third quarter of 2007.

The Merger is conditional, inter alia, upon the approval of First Choice Shareholders and approval by the relevant anti-trust authorities. The Board of First Choice and the Supervisory Board of TUI have approved the Merger. While TUI shareholder approval is not required, First Choice shareholder approval will be sought at the Court Meeting and an Extraordinary General Meeting to be convened in due course. The directors of First Choice unanimously intend to recommend to First Choice Shareholders that they vote in favour of the Merger, as they intend to do in relation to their own shareholdings.

2. BACKGROUND TO AND REASONS FOR THE MERGER

The combination of First Choice and TUI Travel offers the opportunity to create significant value for both First Choice and TUI shareholders and their customers through the creation of a market leading global travel group with leadership positions in both component and specialist leisure travel segments.

The leisure travel environment has changed significantly over the last few years as consumers demand flexibility and choice, seek new life experiences and look to access travel content through a number of points of sale, most notably the internet. Travel companies have also changed, with both First Choice and TUI Travel successfully re-mixing their respective business models to compete effectively within the new market:

* First Choice has pursued a strategy of providing differentiated and exclusive products to its customers. It has invested in its mainstream business (including the development of six exclusive Holiday Villages) and built leadership positions in growing niche segments via a successful acquisition strategy. The result has been double-digit earnings growth each year since 2003.

* TUI Travel has built a leading European airline of 127 planes and successfully invested in developing an internet-led distribution model that provides flexibility and choice to the consumer, while optimising its significant brand presence online to drive loyalty and top-line growth.

Consequently, the Boards of First Choice and TUI believe that the two businesses are an excellent strategic fit. TUI Travel PLC's combined business model will be well positioned to satisfy a wide range of leisure needs of the customer and drive earnings and margin growth.

TUI Travel PLC will have a broad portfolio of over 200 leading brands, and an exceptional combination of content and distribution capability. Both sets of shareholders will benefit from management's ability to enhance margins and the cost advantages of leveraging significant synergy benefits and economies of scale.

The transaction provides the opportunity to:

* Create a leading worldwide travel group operating in 20 source markets serving approximately 27 million customers per year in over 200

destinations;

* Offer the customer breadth of content from self-selection to exclusive and differentiated to niche travel products;

* Develop a pre-eminent position in long haul travel with a current order book of 23 Boeing 787s and build a European short haul fleet to compete effectively with low cost carriers;

* Leverage significant synergies and economies of scale to deliver cost advantage in a competitive market place;

* Distribute specialist travel products into new source markets;

* Continue to build strong positions, via acquisition, in fragmented niche segments of the market;

* Participate in many growth segments of the leisure travel sector;

* Enhance margins using the skills of a proven management team; and

* Deliver sustainable revenue and earnings growth.

3. INFORMATION ABOUT FIRST CHOICE

First Choice is a leading international leisure travel company headquartered in Crawley in the UK. It operates in 16 major source markets across more than 80 brands, employing over 15,000 people. It has successfully transformed itself into a leading international leisure travel company, comprising a differentiated UK mainstream tour operator and a portfolio of niche specialist businesses across the world, that create added value experiences for its customers. Although First Choice's many brands offer a variety of leisure travel experiences, the business model across First Choice is focused on differentiation and flexibility.

First Choice operates in four principal sectors:

* Mainstream Holiday Sector - the sector consists of the UK and Ireland tour operating, retail and airline businesses. Its clear strategy has led to a focus on developing differentiated and exclusive products, such as its six Holiday Villages. It operates 34 aircraft, and has invested significantly in its long haul programme. Its six re-configured B767s offer customers an enhanced in-flight entertainment experience. In addition, First Choice has recently announced that it has exercised a further four options on the new Boeing 787 Dreamliner to bring the total firm order to twelve aircraft.

* Specialist Holiday Sector - the sector consists of the Continental European and UK Specialist businesses, and a number of businesses operating in North America including a student travel business and a Canadian tour operator. All the businesses within this sector have either destination or

product expertise, and operate from 13 source countries with expert local management teams that understand both their market and their customers' needs. These businesses develop leisure travel experiences that cater for a specific marketplace or lifestyle and include brands such as Sovereign, Marmara, StudentCity.com and Travcoa.

* Activity Holiday Sector – this sector consists of three divisions: the Marine division includes First Choice Marine which operates the market leading yacht chartering brands of The Moorings and Sunsail, Sunsail Clubs and Inland Waterways. The Adventure division consists of a portfolio of 19 adventure travel businesses across 7 source markets offering a range of experiences including trekking and expedition cruising, with the division experiencing high consumer demand for these travel experiences. The Escorted Tours division consists of seven brands that operate specialist escorted tours for the US source market, whose customer base is drawn primarily from the growing "boomer" demographic in the US.

* Online Destination Services Sector - this sector has operations in 16 countries with 67 offices, providing accommodation online and services in destination as well as specialised services to cruise lines and the management of meetings and incentives activities for companies. It is focused on two strategic distribution channels – Business to Business with the Hotelbeds and Bedsonline brands and Business to Consumer with the Hotelopia brand. The business has successfully leveraged its strong relationship with local bed suppliers to build a bed bank of 25,000 hotels and apartments in over 2,000 tourist areas across 900 destinations. Clients include over 1,800 tour operators and 7,000 travel agents who can access this bed bank online, and in 2006, the sector sold 9.5 million bed nights.

For the financial year ended 31 October 2006, First Choice reported revenues of £2,715 million (2005: £2,442 million), EBITDA (including First Choice's share of results of associates and joint ventures) of £179 million (2005: £162 million), and EBITA of £135 million (2005: £120 million).

As at 31 October 2006, First Choice had shareholders' capital excluding minority interest of £281 million and net debt of £103 million. First Choice has a current market capitalisation of £1,556 million (based on the closing price of 284 pence for each First Choice share and 547.9 million fully diluted First Choice Shares on 16 March 2007) and is traded on the London Stock Exchange.

4. INFORMATION ABOUT TUI TRAVEL

TUI Travel consists of TUI's Tourism division, excluding certain hotel assets, and operates in four main sectors:

* The Central Europe sector comprises the distribution and tour operator business in Germany, Switzerland, Austria and the Eastern European markets as well as airlines Hapag-Lloyd Flug and Hapag-Lloyd Express

* The Northern Europe sector comprises the distribution and tour operation

business in the UK, Ireland and the Nordic countries as well as the following airlines; TUI Fly Nordic and Thomsonfly

* The Western Europe sector comprises the distribution and tour operation business in France, the Netherlands and Belgium as well as the following airlines: Corsair, TUI Airlines Nederland and TUI Airlines Belgium

* The Destinations sector covers TUI Travel's consolidated and associated incoming agencies from shareholdings in 35 agencies in 36 countries as well as Nordotel, Atlantika and Safeharbour

TUI Travel currently operates a total of 127 aircraft which are allocated to Central Europe, Northern Europe and Western Europe.

For the financial year ended 31 December 2006, TUI Travel had unaudited pro-forma external sales of £9,368 million (€13,678 million), EBITDA of £375 million (€548 million) and EBITA of £190 million (€278 million).

5. INFORMATION ABOUT TUI

TUI, formerly known as Preussag AG, which is headquartered in Hanover, Germany, has transformed itself from an industrial conglomerate to a pure services company. Today, TUI's core businesses are Tourism and Shipping.

* The Tourism division comprises four main sectors: Central Europe, Northern Europe, Western Europe and Destinations. Following the Merger, TUI will retain a majority of the TUI hotels and resorts business, operating 279 hotels with 164,844 beds.

* The Shipping division comprises Hapag-Lloyd Container Line, a container shipping company operating globally, with a total of 138 vessels and holding containers with a total capacity of 1,015,000 TEU. The Shipping division will not form part of the Merger and will remain directly owned by TUI.

For the financial year ended 31 December 2006, TUI reported turnover of €20.5 billion (2005: €18.2 billion), EBITDA of €939 million (2005: €1.12 billion), and profit before tax of minus €736 million (2005: positive €387 million) from continuing operations. As at 31 December 2006, TUI had shareholder's capital excluding minority interest of €2.7 billion and net debt of €3.2 billion.

TUI has a current market capitalisation of €4.2 billion (based on the closing price of €16.58 for each TUI share on 16 March 2007 and 251.0 million TUI shares outstanding) and is a member of Germany's DAX 30 Index (which includes the largest publicly-owned companies in Germany).

6. STRATEGY FOR TUI TRAVEL PLC

TUI Travel PLC will be one of the world's leading leisure travel groups providing its customers with a unique choice of products and the flexibility to meet their ever changing needs. Through its range of component and specialist products, such as flights, beds and car hire, and in the specialist travel segment, such as escorted tours and adventure holidays, TUI Travel PLC will be able to offer flexibility and choice to the consumer.

TUI Travel PLC will focus on four areas:

* Content – TUI Travel PLC will have access to a range of products, from differentiated and exclusive content within the package holiday market (including a long haul programme with 23 Boeing 787s), to a specialist portfolio of niche businesses (including marine and escorted tours) and a significant bed and flight bank accessed via the internet that will enable it to offer its customers both flexibility and choice

* Distribution – TUI Travel PLC will maximise internet sales and content while building strong brand awareness and loyalty through its portfolio of large consumer brands and specialist brands

* Cost competitiveness – TUI Travel PLC will leverage the economies of scale and significant synergy opportunity to derive cost advantage across the business model. It will operate an asset right model in its airline operations by introducing a flexible leasing structure for the European fleet, while leveraging the low overheads in the specialist portfolio

* Acquisition – TUI Travel PLC will continue to invest in small to medium sized bolt-on acquisitions within specialist segments of the leisure travel market, in order to build leadership positions in higher margin niche segments. First Choice has an excellent track record in delivering high returns and earnings from its acquisitions. During the 2006 financial year First Choice spent £149 million (2005: £66 million) on acquisitions. In the current financial year, First Choice has already completed a number of acquisitions in the online and activity segments.

7. SYNERGY BENEFITS

The Boards of First Choice and TUI believe that the Merger will deliver pre-tax cost benefits of at least £100 million (€146 million) per annum, which are expected to be realised within three years of Completion. The £100 million of cost synergies per annum are prior to any benefits expected from the existing TUI Travel restructuring programme.

Cost synergies are expected to arise mainly in the UK, but benefits will be available across Europe through economies of scale in the combined operations and consolidation of the First Choice and TUI Travel operations. Potential revenue synergies are expected to offer further upside to the £100 million per annum synergy target.

Synergies are likely to be achievable through a combination of:

* Airline flight planning and operating costs

* Streamlined distribution (front office IT, development costs, retail shops)

* Consolidation of retail, call centre and administrative facilities

* Reduced marketing and commercial costs

* Destination cost efficiencies

* Higher internet traffic and lower customer acquisition costs

* Yield improvement (Mainstream and Airline)

* Growth through offering First Choice's Specialist products through TUI Travel's European distribution network

8. BOARD OF DIRECTORS, MANAGEMENT AND ORGANISATION

The proposed Board of TUI Travel PLC will be drawn from the boards of First Choice, TUI, and the current management of TUI Travel, supplemented by additional independent non-executive directors to be appointed by the Board as soon as practicable. The Board will be comprised of 17 directors, the majority of whom will be independent. First Choice and TUI believe that the proposed structure will result in an independent Board with a strong and experienced executive management team.

The Board will be chaired, as Non-Executive Chairman, by Dr. Michael Frenzel (currently CEO of TUI), with Sir Mike Hodgkinson (Chairman of First Choice) being appointed as Independent Non-Executive Deputy Chairman.

The proposed Board of TUI Travel PLC is:

NAME	BOARD POSITION	CURRENT POSITION
Dr. Michael Frenzel	Non-Executive Chairman	CEO of TUI
Sir Mike Hodgkinson	Non-Executive Deputy Chairman	Chairman of First Choice
Peter Long	Chief Executive Officer	Chief Executive of First Choice
Peter Rothwell	Deputy Chief Executive	CEO TUI Northern Europe
Paul Bowtell	Chief Financial Officer	Group Finance Director of First Choice

Will Waggott	Group Commercial Director	CFO TUI Northern Europe
Christoph Mueller	Aviation Director	Chairman of Hapag-Lloyd Flug
Volker Böttcher	Managing Director, Central Europe	Head of TUI Travel Germany
R. Feuerhake	Non-executive Director	CFO of TUI
T. Campbell	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays
C. Chapman	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays
B. Dalton	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays
J. Hicks	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays
G. Thorley	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays

In addition, the Board will include a further three independent non-executive directors. Five of the non-executive directors will be drawn from the existing non-executive directors of First Choice. Rainer Feuerhake will be appointed to the Board on behalf of TUI.

TUI Travel PLC will have audit, nomination and remuneration committees. Each Board committee will have not fewer than three independent non-executive directors and not more than two non-executive directors representing TUI.

The Relationship Agreement summarised below sets out the agreement between First Choice and TUI as to the governance arrangements for TUI Travel PLC that will apply following completion of the Merger.

9. EMPLOYEES

First Choice and TUI attach great importance to retaining the skills and expertise of their management and employees. The existing employment rights of employees of both First Choice and TUI Travel will be safeguarded.

Outstanding options under the First Choice Share Schemes which are not already exercisable will become exercisable when the scheme of arrangement is sanctioned. Any First Choice Shares issued on the exercise of options prior to 6.00 p.m. on the Business Day immediately preceding the date of the hearing by the Court of the petition to sanction the scheme of arrangement will be subject to the terms of the scheme of arrangement. However, while the scheme of arrangement will not extend to First Choice Shares issued to optionholders under the First Choice Share Schemes on or after such time, such First Choice Shares will be transferred to Newco under a proposed change to First Choice's articles.

In due course, appropriate proposals will be made to participants in the First Choice Share Schemes.

10. DIVIDEND POLICY

It is anticipated that TUI Travel PLC will pay, post Completion, a final dividend in respect of its first financial period. The dividend policy will be set by TUI Travel PLC's Board, not all of whom have yet been appointed. Further details will be set out in the prospectus.

11. CURRENT TRADING AND PROSPECTS

11.1 First Choice

Trading for the 2006/07 financial year is progressing well with performance in line with First Choice's expectations.

* Winter 2006/07 – across First Choice, Winter trading is progressing well. In Mainstream total revenues are 12 per cent. higher than last year with long-haul capacity up 25 per cent. The Mainstream Sector has fewer holidays left to sell than at the same point last year and while margins are slightly behind last year, they are in line with First Choice's expectations. In the Specialist Holidays Sector its businesses are trading well overall and in the Activity Holidays Sector revenues are ahead of last year with the Adventure division's revenue 4 per cent. ahead for Winter.

* Summer 2007 – Trading is progressing well across all Sectors. In Mainstream, Summer revenues have steadily improved throughout the period despite the challenging market. Overall capacity will be flat on last year with increased capacity in the long-haul segment. Revenues for long-haul have increased 19 per cent. with margins slightly behind last year but in line with First Choice's expectations. In the Specialist Holidays Sector the rate of sale is improving significantly week on week. Both the Activity Sector and Online Destination Services are trading in line with expectations.

11.2 TUI Travel

* Winter 2006/07 – TUI is closing out the winter season with a solid performance. Turnover for TUI Travel is currently up 5.4 per cent. year-on-

year, with customer numbers up 9.0 per cent. Both figures are ahead of current market growth.

* Summer 2007 - The current status of bookings is very good in most source markets. For the 2007 summer season starting in April the number of guests is currently 7.2 per cent over the previous year for TUI Travel. Booked sales have increased by 4.7 per cent, and they are likewise considerably above the previous year's level.

12. MERGER AGREEMENT, RELATIONSHIP AGREEMENT AND DETAILS OF THE MERGER

First Choice, TUI and NewCo have entered into a Merger Agreement, which sets out the terms on which NewCo will acquire each of First Choice and TUI Travel. In addition, First Choice and TUI have agreed the terms of a Relationship Agreement which will regulate the relationship between NewCo and TUI (as shareholder in NewCo) following completion of the Merger. This agreement deals with, among other things, the governance arrangements for NewCo.

These agreements are summarised in Appendix I.

The key terms and conditions of the Merger are:

* NewCo will acquire First Choice in consideration for the issue of 49 per cent. (calculated on a fully diluted basis) of the share capital of NewCo to First Choice Shareholders. This acquisition will be effected by means of a scheme of arrangement of First Choice pursuant to section 425 of the Companies Act;

* NewCo will acquire TUI Travel in consideration for the issue of 51 per cent. (calculated on a fully diluted basis) of the share capital of NewCo to TUI and the contribution by TUI to NewCo of an amount of €875 million (approximately £600 million) of net financial debt, including all pension deficits associated with TUI Travel;

* the Merger is subject to clearance under the EC Merger Regulation and other regulatory authorities;

* the Merger is subject to the approval of First Choice Shareholders at the Court Meeting and the Extraordinary General Meeting to be convened in due course; and

* NewCo will be named TUI Travel PLC and application will be made for NewCo's shares to be admitted to listing on the Official List and to trading on the London Stock Exchange with effect from Completion.

A circular and prospectus will be despatched to First Choice Shareholders in due course.

A description of the circumstances in which the Merger Agreement may be terminated (and a break fee may become payable) is set out in Appendix I.

13. RULE 9 WHITEWASH

Following completion of the Merger, TUI will come to hold 51 per cent. of the voting rights of NewCo. Under Rule 9 of the City Code, a person who acquires an interest in shares which, taken together with shares in which he is already interested, carry 30 per cent. or more of the voting rights of a company must normally make a general offer for all the remaining shares in the company. However, where an obligation to make a mandatory offer under Rule 9 arises following an issue of new shares, the Panel will normally consent to a waiver of that obligation provided that, among other things, this is approved by a vote of the independent shareholders. In this case, approval for the waiver of the obligation which would otherwise arise for TUI to make an offer for NewCo under Rule 9 of the City Code will be sought from First Choice Shareholders at the Extraordinary General Meeting.

14. SETTLEMENT, LISTING AND DEALING

Application will be made to the UK Listing Authority for the NewCo Shares to be admitted to the Official List and to the London Stock Exchange for such shares to be admitted to trading on the London Stock Exchange's market for listed securities. It is expected that Admission to the Official List will become effective and that dealings, for normal settlement, in the NewCo Shares will commence on the day on which the Merger is completed. Further details on settlement, listing and dealing will be included in the scheme document and prospectus to be sent to First Choice Shareholders in due course. Admission of NewCo Shares to the Official List and to trading on the London Stock Exchange is subject to customary confirmation from the FSA of NewCo's eligibility for listing under Listing Rule 2 and Listing Rule 6.

15. RECOMMENDATION OF THE BOARD OF FIRST CHOICE

The directors of First Choice, who have been so advised by Lazard and Deutsche Bank, consider the terms of the Merger to be fair and reasonable. In providing their advice, Lazard and Deutsche Bank have taken into account the directors' commercial assessments.

The directors of First Choice consider that the Merger is in the best interests of First Choice Shareholders as a whole. Accordingly, the directors intend unanimously to recommend that First Choice Shareholders vote in favour of the resolutions to be proposed at the Court Meeting and the Extraordinary General Meeting, as they intend to do in respect of their own beneficial holdings amounting to approximately 0.9 per cent of the issued share capital of First Choice.

Deutsche Bank has an existing relationship with TUI AG, and Lazard is therefore providing advice to the Board of First Choice in connection with the Merger for the purposes of Rule 3 of the Code.

Lazard & Co., Limited, which is authorised and regulated in the United Kingdom by the Financial Services Authority, is acting exclusively as financial adviser to First Choice in connection with the Merger and no-one else and will not be responsible to anyone other than First Choice for providing the protections afforded to clients of Lazard or for providing advice in relation to the Merger, the content of this announcement or any matter referred to herein.

Deutsche Bank AG is authorised under German Banking Law (competent authority: BaFin - Federal Financial Supervising Authority) and with respect to UK commodity derivatives business by the Financial Services Authority; and is regulated by the Financial Services Authority for the conduct of UK business. Deutsche Bank AG is acting exclusively as financial adviser and broker to First Choice and no one else in connection with the Merger and will not be responsible to anyone other than First Choice for providing the protections afforded to clients of Deutsche Bank AG nor for providing advice in relation to the Merger, the content of this announcement or any matter referred to herein.

Hoare Govett Limited, which is authorised and regulated in the United Kingdom by the Financial Services Authority, is acting as broker to First Choice and no-one else in connection with the Merger and will not be responsible to any person other than First Choice for providing the protections afforded to its customers or for providing advice in relation to the Merger or in relation to the contents of this announcement or any transaction or arrangement referred to herein.

Morgan Stanley Bank AG is acting for TUI in connection with the Merger and no one else and will not be responsible to anyone other than TUI for providing the protections afforded to clients of Morgan Stanley or for providing advice in relation to the Merger or any other matters referred to in this announcement.

The distribution of this announcement in jurisdictions other than the United Kingdom may be restricted by law and therefore persons into whose possession this announcement comes should inform themselves about, and observe, such restrictions. Any failure to comply with the restrictions may constitute a violation of the securities laws of any such jurisdiction.

This announcement has been prepared for the purposes of complying with English law, the Listing Rules, the rules of the London Stock Exchange and the City Code and the information disclosed may not be the same as that which would have been disclosed if this announcement had been prepared in accordance with the laws and regulations of any jurisdiction outside the United Kingdom.

This announcement does not constitute an offer to purchase, sell or exchange or the solicitation of an offer to purchase, sell or exchange any securities or the solicitation of any vote or approval in any jurisdiction pursuant to the Merger or otherwise, nor shall there be any purchase, sale or exchange of securities or such solicitation in any jurisdiction in which such offer, solicitation or sale or exchange would be unlawful prior to the registration or qualification under the laws of such jurisdiction.

This announcement does not constitute a prospectus or prospectus equivalent document. First Choice Shareholders are advised to read carefully the formal documentation in relation to the Merger once it has been despatched.

The NewCo Shares may not be offered or sold in the United States absent registration under the US Securities Act or an exemption therefrom. NewCo has not registered and does not intend to register any NewCo Shares under the US Securities Act. Any NewCo Shares will be issued in reliance upon the exemption from the registration requirements of the US Securities Act provided by Section 3(a)(10) thereof.

This announcement contains statements about First Choice, TUI and TUI Travel that are or may be forward looking statements. All statements other than statements of historical facts included in this announcement may be forward looking statements. Without limitation, any statements preceded or followed by or that include the words "targets", "plans", "believes", "expects", "aims", "intends", "will", "should", "may", "anticipates", "estimates", "synergies", "cost savings", "opportunity", "projects", "strategy" or words or terms of similar substance or the negative thereof, are forward looking statements. Forward looking statements include statements relating to the following: (i) the expected timetable for completing this transaction, future capital expenditures, expenses, revenues, earnings, synergies, economic performance, indebtedness, financial condition, dividend policy, losses and future prospects of First Choice, TUI, TUI Travel or the Enlarged Group; (ii) business and management strategies and the expansion and growth of First Choice, TUI, TUI Travel or the Enlarged Group's operations and potential synergies resulting from the Merger; and (iii) the effects of government regulation on First Choice, TUI, TUI Travel or the Enlarged Group's business.

These forward looking statements are not guarantees of future performance. They have not been reviewed by the auditors of First Choice, TUI or TUI Travel. These forward looking statements involve known and unknown risks, uncertainties and other factors which may cause them to differ from the actual results, performance or achievements expressed or implied by such forward looking statements. These forward looking statements are based on numerous assumptions regarding the present and future business strategies of such persons and the environment in which each will operate in the future. Investors are cautioned not to place undue reliance on the forward looking statements, which speak only as of the date they were made. All subsequent oral or written forward looking statements attributable to First Choice, TUI or TUI Travel or any of their respective members, directors, officers or employees or any persons acting on their behalf are expressly qualified in their entirety by the cautionary statement above. All forward looking statements included in this announcement are based on information available to First Choice, TUI and TUI Travel on the date hereof. Investors should not place undue reliance on such forward looking statements, and we undertake no obligation to publicly update or revise any forward looking statements.

APPENDIX I
Key Merger Terms and Conditions

The Merger Agreement

KEY TERMS

Under the Merger Agreement:

* NewCo has agreed to acquire all of the issued share capital of First Choice in consideration for the issue of 49 per cent. (calculated on a fully diluted basis) of the share capital of NewCo to First Choice Shareholders. This acquisition will be effected by means of a scheme of arrangement of First Choice in accordance with section 425 of the Companies Act.

* TUI has agreed to sell all of the issued share capital of TUI Travel to NewCo in consideration for the issue of 51 per cent. (calculated on a fully diluted basis) of the share capital of NewCo to TUI together with the contribution by TUI to NewCo of €875 million (approximately £600 million) of net financial debt, including all pension liabilities currently associated with TUI Travel.

CONDITIONS

The material conditions to completion of the Merger are:

* approval at the Court Meeting of the proposed scheme of arrangement of First Choice by a majority in number of the First Choice Shareholders present and voting representing not less than 75 per cent. by value of the First Choice Shares voted by such shareholders;

* the passing of the resolutions by First Choice Shareholders at the Extraordinary General Meeting which will follow the Court Meeting including in relation to the approval of the scheme of arrangement and the confirmation of the associated reduction of capital and the resolution required to obtain a dispensation from the Panel from the requirements of Rule 9 in respect of the issue of NewCo Shares to TUI;

* the sanction of the scheme of arrangement and reduction of capital by the Court and the subsequent registration of the court order by the Registrar of Companies in England and Wales;

* the UKLA confirming that NewCo is suitable for listing in accordance with the Listing Rules on the basis of the terms of the Relationship Agreement;

* the Admission of the NewCo Shares, to be issued in accordance with the terms of the Merger Agreement, to the Official List and to trading on the London Stock Exchange;

* the Merger having been cleared by the European Commission under the

EC Merger Regulation;

* the Merger having been cleared by any relevant non-EU competition authorities and no notice of any action, which would make the Merger, unenforceable or illegal or impose material conditions on the parties with respect to the Merger, having been received from any regulatory body (including the Civil Aviation Authority) in any jurisdiction;

* the Panel granting dispensation from the requirements of Rule 9 of the Code in respect of the issue of NewCo Shares to TUI; and

* TUI and First Choice having obtained all necessary consents from the providers of their bonding and other finance facilities, or other replacement facilities having been arranged.

OTHER PROVISIONS

The Merger Agreement contains mutual undertakings by First Choice and TUI that pending Completion, First Choice and TUI Travel will carry on business in the normal course.

Under the Merger Agreement TUI has agreed to give First Choice high-level warranties covering certain information provided to First Choice in respect of TUI Travel's business.

Pursuant to the Merger Agreement, each of First Choice and TUI have agreed that it will not actively solicit any alternative transaction that would be inconsistent with implementing the Merger, and that each of them will inform and consult with the other party if it is approached by a third party in respect of any such alternative competing transaction. The parties have agreed certain rights applicable in the event of such an approach including postponement or termination.

Under the Merger Agreement the parties agree to negotiate a licence agreement, at a royalty of 0.02 per cent. per annum of the gross turnover of NewCo under the TUI brand, in relation to the proposed use by NewCo of the TUI name.

TERMINATION

The Merger Agreement may be terminated with immediate effect by First Choice or TUI if:

* First Choice notifies TUI prior to the publication of the prospectus that it has concluded that in its reasonable opinion assets and liabilities, profits or prospects of TUI Travel are materially different by reference to agreed benchmarks from those assumed in its reaching agreement to the percentage shareholdings in NewCo of First Choice and TUI under the Merger;

* any regulatory authority irrevocably blocks the Merger;

* certain conditions become incapable of being satisfied or fail to be satisfied unless such Condition is waived;

* any Independent Competing Offer becomes or is declared unconditional in all respects;

* a Material Adverse Change has occurred, referable to agreed benchmarks, which affects First Choice or TUI Travel (as the case may be);

* if the scheme of arrangement is not sanctioned by First Choice shareholders at the Court Meeting or the resolutions relating to the Merger are not passed at the Extraordinary General Meeting;

* prior to satisfaction of the Conditions, the recommendation by the directors of First Choice to vote in favour of the scheme of arrangement is withdrawn or adversely amended;

* if the Court declines or refuses to sanction the scheme of arrangement;

* the other party commits a material breach of its warranties, covenants or other obligations under the Merger Agreement; and

* if the scheme of arrangement and reduction of capital have not become effective by an agreed long stop date.

First Choice and TUI have agreed mutual break fees if the Merger fails.

First Choice will pay TUI a break fee of £15 million if the Merger fails and:

* an Independent Competing Offer for First Choice is announced and such offer becomes wholly unconditional;

* the recommendation by First Choice directors to vote in favour of the resolution relating to the Merger is withdrawn; or

* TUI exercises its right to terminate for an unremedied breach by First Choice of its obligations under the Merger Agreement.

TUI will pay to First Choice a fee of £15 million if the Merger fails and:

* an Independent Competing Offer for TUI or TUI Travel is announced and such offer becomes or is declared wholly unconditional; or

* First Choice exercises its right to terminate for an unremedied material breach by TUI of its breach by TUI of its obligations under the Merger Agreement.

Relationship Agreement

The Relationship Agreement enshrines the principle agreed between the parties that, following completion of the Merger, NewCo will operate independently from TUI and in accordance with the highest standards of corporate governance best practice. It also sets out the agreement of the parties regarding the composition of the Board of NewCo as follows:

* the Board will include a majority of independent non-executive directors and will not be more than 17 in number;

* for so long as TUI holds 30 per cent. or more of the voting shares of NewCo, TUI may appoint a maximum of two non-executive directors;

* for so long as TUI holds 40 per cent. or more of the voting shares of NewCo, TUI may appoint the Chairman of NewCo, in which case the CEO of NewCo will be appointed by the Board but subject to TUI's prior approval, provided that if TUI rejects three candidates nominated by the Board, TUI may nominate a candidate whose appointment will require the support of at least three independent non-executive directors. If this process does not lead to an appointment, the question will be resolved by shareholders (including TUI);

* for so long as TUI holds 40 per cent. or more of the voting shares of NewCo, TUI may relinquish its right to appoint the Chairman and in return have the right to appoint and remove the CEO. If this right is invoked, the Chairman of NewCo will be appointed by the Board but subject to TUI's prior approval, provided that if TUI rejects three candidates nominated by the Board, TUI may nominate a candidate whose appointment will require the support of at least three independent non-executive directors. If this process does not lead to an appointment, the question will be resolved by shareholders (including TUI);

* if TUI holds less than 40 per cent. of the voting shares of NewCo, for so long as it holds 30 per cent. or more of the voting rights of NewCo, the Board will appoint the Chairman but subject to TUI's prior approval, provided that if TUI rejects three candidates nominated by the Board, TUI may nominate a candidate whose appointment will require the support of at least three independent non-executive directors. If this process does not lead to an appointment, the question will be resolved by shareholders (including TUI);

* the Nomination Committee will nominate the rest of the directors, who will be appointed and/or removed by the Board; and

* it is agreed that any persons nominated and/or appointed to a position on the Board shall have appropriate experience and qualification for his or her role.

Other key provisions of the Relationship Agreement are as follows:

* the Relationship Agreement will remain in place until the earlier of (i) TUI's voting rights fall below 10 per cent. or (ii) NewCo ceases to be listed;

* TUI has agreed that it will exercise its voting rights in relation to class 1 transactions in accordance with the recommendation given by the Board unless all of the directors appointed by TUI have dissented to or abstained from such recommendation;

* NewCo has agreed that it will not (other than on the exercise of certain share options) issue any shares if the effect will be to reduce TUI's voting rights. If NewCo issues shares other than on a pre-emptive basis, TUI will have the right to subscribe for NewCo Shares at market value in order to restore the pre-existing level of his voting rights;

* TUI has agreed that it will not, for a period of 12 months following Admission, dispose of any NewCo Shares without the prior written consent of NewCo, other than:

  a) in each of the two consecutive periods of six months immediately following Admission, the disposal of NewCo Shares constituting, in aggregate, no more than 10 per cent. of the issued share capital then in issue either in the market (subject to orderly market restrictions) or to a single purchaser (who has agreed to be bound be equivalent lock-up restrictions);

  b) intra-group transactions; and

  c) the acceptance of a takeover offer in accordance with the Code;

* disposals of NewCo Shares by TUI after the expiry of the 12 month period following Admission will be effected after consultation with NewCo;

* TUI has agreed that it will not acquire any NewCo shares other than:

  a) acquisitions that would increase its shareholding to not more than 55 per cent;

  b) consequential increases in TUI's percentage of total number of NewCo shares as a result of a purchase by NewCo of its own shares; or

  c) where TUI makes a general offer to acquire all NewCo shares in issue;

* certain material matters shall not be undertaken by NewCo without the approval of the Board, further details of which will be set out in the prospectus, including any material alteration to the general nature of the business or NewCo or any subsidiary of NewCo;

* NewCo shall avoid doing certain things which may cause TUI being in breach of any of the restrictions under TUI's current bonding facilities in the absence of any permitted exemption. NewCo and TUI will discuss any proposed course of action which may be permitted by an exemption to the restrictions and if there is doubt as to whether such exemption applies to any particular case, TUI's decision on the matter shall be final;

* TUI will have the right to receive an agreed level of information in respect of NewCo's business;

* in the event that a person (acting alone or in concert with other persons) acquires control of TUI during the term of the Relationship Agreement, TUI will lose certain rights under the Relationship Agreement including its rights in respect of the composition of the Board; and

* for the purposes of complying with aviation regulation, the articles of association of NewCo shall incorporate provisions to prevent it becoming majority owned and effectively controlled by non-EEA nationals.

APPENDIX II
Definitions

The following definitions apply throughout this announcement unless the context otherwise requires:

"Admission"	means the admission of the Newco shares to the Official List;
"Board"	means the Board of NewCo;
"Business Day"	means a day (other than Saturday or Sunday) on which banks are generally open for business in the City of London;
"City Code" or "Code"	means the City Code on Takeovers and Mergers;
"Companies Act"	means the Companies Act 1985 (as amended);
"Completion"	means completion of the Merger in accordance with the terms of the Merger Agreement;
"Court"	means the High Court of Justice in England and Wales;
"Court Meeting"	means the meeting of First Choice Shareholders to be convened by an order of the Court pursuant to section 425 of the Companies Act for the purpose of

	considering and, if thought fit, approving the proposed scheme of arrangement of First Choice (with or without amendment), and any adjournment thereof;
"Deutsche Bank"	means Deutsche Bank AG;
"Enlarged Group"	means the group of companies comprising NewCo, First Choice, TUI Travel and their subsidiaries and subsidiary undertakings;
"Extraordinary General Meeting"	means the extraordinary general meeting of the First Choice Shareholders to be convened in connection with the Merger;
"First Choice"	means First Choice Holidays PLC;
"First Choice Group"	means First Choice Holidays PLC and its subsidiaries and subsidiary undertakings;
"First Choice Shareholders"	means the holders of First Choice Shares from time to time;
"First Choice Shares"	means the ordinary shares of 3 pence each in the capital of First Choice PLC;
"First Choice Share Schemes"	means the First Choice Senior Executive Plan, the First Choice Restricted Share Plan, the First Choice Deferred Award Bonus Scheme, the First Choice Performance Scheme Plan and the First Choice Incentive Scheme Plan;
"FSA"	means the Financial Services Authority;
"FSMA"	means the Financial Services and Markets Act 2000 (as amended);
"Independent Competing Offer"	means an offer or scheme of arrangement or a recapitalisation or other transaction involving the possible change of control of First Choice or TUI or TUI Travel which, if accepted in full would result in the offeror holding shares carrying over 50% of the voting rights of First Choice or TUI or TUI Travel, as the case may be, and which is made by or with a party which is not acting in concert (as such term is defined in the Code) with First Choice or TUI;
"Lazard"	means Lazard & Co., Limited;
"Listing Rules"	means the listing rules of the Financial Services Authority;

"London Stock Exchange"	means the London Stock Exchange PLC;
"Mainstream"	means the mainstream division of First Choice;
"Merger"	means the proposed merger of First Choice and the TUI Travel as described in this announcement;
"Merger Agreement"	means the merger agreement dated 19 March 2007 between NewCo, First Choice and TUI pursuant to which the Merger is to be implemented;
"Morgan Stanley"	means Morgan Stanley Bank AG;
"NewCo"	means Coppereagle PLC, a company formed by First Choice and TUI for the purpose of effecting the Merger (and to be renamed TUI Travel PLC);
"NewCo Shares"	means ordinary shares in the capital of NewCo;
"Official List"	means the official list of the Financial Services Authority;
"Panel" or "Takeover Panel"	means The Panel on Takeovers and Mergers;
"Proforma"	means the financial information for NewCo based on a year end of 31 October 2006 for First Choice and 31 December 2006 for TUI Travel
"Relationship Agreement"	means the relationship agreement to be entered into between NewCo and TUI pursuant to which the governance of NewCo will be regulated;
"Regulatory Information Service"	means any of the Regulatory Information Services approved by the Financial Services Authority and set out in appendix 3 to the Listing Rules;
"Specialist"	means the specialist division of First Choice;
"subsidiary" and "subsidiary undertaking"	have the meanings given to them by the Companies Act;
"TUI"	means TUI AG;
"TUI Travel"	means the tourism division of TUI, excluding certain hotel assets;
"UK Listing Authority" or	means the Financial Services Authority of the UK in its

the "UKLA"	capacity as the competent authority for the purposes of Part VI of FSMA and in the exercise of its functions in respect of admission to the Official List otherwise than in accordance with Part VI of the FSMA; and
"United Kingdom" or "UK"	means the United Kingdom of Great Britain and Northern Ireland; and
"United States" or "USA"	means the United States of America

7 March 2007

FIRST CHOICE HOLIDAYS PLC
AGM STATEMENT

At the Annual General Meeting to be held in London today, the Chairman, Sir Michael Hodgkinson, will make the following statement:

Trading update

I am pleased to announce that trading for the 2006/07 financial year[1] is progressing well with the Group performing in line with our expectations. Our strategy of a differentiated Mainstream business and a portfolio of specialist travel businesses in high-growth niche segments enable the Group to operate effectively across both leisure travel experiences and geographic regions.

Mainstream Holidays Sector

Despite continued challenging trading conditions, our Mainstream Holidays Sector is benefiting from the differentiated holiday experiences we offer.

Winter 06/07

Total revenues for Winter are 12% higher than last year with long-haul revenues up 38%. Total capacity is flat with long-haul capacity up by 25%. We have continued to reduce capacity in the short-haul market as well as to less attractive medium-haul destinations, and for the remainder of the season we have fewer holidays left to sell than at the same point last year. Margins for Winter are slightly behind last year but in line with our expectations.

We are fully supportive of the legal challenge, recently launched by the Federation of Tour Operators (FTO), to the legality of the Government's Air Passenger Duty (APD) following its decision to double the tax. We remain wholly committed and engaged in a number of initiatives to support the development of responsible and sustainable tourism. We are, therefore, opposed to the way the Government chose to introduce the new APD rates, which has financially penalised First Choice, its customers and the industry. The one-off cost of the retrospective tax for bookings made pre 6 December 2006 is £4.5m which will not be recovered and will, therefore, be treated as a separately disclosed item.

Summer 07

Summer revenues have steadily improved since our last update in December and are now flat versus last year's level on customer bookings down 5%. Overall capacity for the season will be flat on last year with a reduction in the short-haul segment and increased capacity in the long-haul segment where our differentiated growth strategy is focused. The continued shift in mix to long-haul has seen a 12% increase in customers and 19% increase in revenue in that segment. Margins for Summer are currently running slightly behind last year but in line with our expectations.

As a result of the continuing success of our long-haul programme and the opportunities we see in new destinations to drive further growth, we have decided to exercise options over a further four Boeing 787 aircraft. This will take the size of our long-haul fleet to twelve aircraft by 2013, up from the six we will be operating in the Summer 2007 season.

[1] *All statistics are up to 4 March 2007*

Specialist Holidays Sector

Winter 06/07

Overall, our Specialist businesses are trading well. After a difficult Winter last year, our European businesses have performed well with both customers up 6% and revenue up 2% above the same period last year with margins also ahead. The Canadian market has been more difficult due to highly competitive trading conditions but despite this, revenues remain ahead of prior year with margins for the season in line with last year.

Summer 07

Although early in the booking period for the Specialist businesses, the Summer season has started very strongly for the Sector with the rate of sale improving significantly week on week. For the European businesses, revenues and customers are up 26% and 22% respectively at higher margins. The UK Specialist business has continued to build upon an excellent performance in 2006, by investing in selling systems that offer the customer greater flexibility and by gaining greater control of distribution. The UK business continues to perform well with strong margin growth. In our North American businesses (primarily student leisure travel) revenues are up 16% and margins are in line with our expectations.

Activity Holidays Sector

This Sector continues to perform in line with our expectations with revenues ahead of the same period last year. The Adventure Division's revenue is 4% ahead for Winter and 9% ahead for Summer on a like-for-like basis on higher margins as our portfolio of businesses within this segment continues to deliver strong growth.

We continue to identify and acquire high-growth businesses and, in the Activity Sector, three more companies have joined the Adventure Division since the year-end. We have paid a total initial consideration of £16.6m with future payments of up to £13.7m dependent on performance for i-to-i (International Projects Limited), iExplore, Inc. and TKJ Pty Ltd which trades as WesternXposure.

Online Destination Services Sector

All routes to market are performing well, with increased like-for-like volume and pricing for Winter and Summer. Laterooms.com, which we acquired in December 2006, is trading strongly and the complementary nature of its business to the rest of the brands in the Sector is already proving a valuable addition.

Board change

Simón Pedro Barceló is leaving the Board at the close of the AGM. On the Board's behalf I would like to thank Simón for the valuable contribution he has made over the almost seven years that he has been a non-executive director of the Group.

Conclusion

We are confident that our strategy of offering differentiated exclusive product, expanding our long-haul programme and operating a flexible business model remains robust and will ensure that we continue to have the market leading leisure travel business.

We have built a diversified and robust Group of businesses with a flexible and efficient business model focused on delivering sustainable growth. We are well positioned to capitalise on this strength, are satisfied with our current performance and remain confident that we will make further progress throughout the remainder of the year.

We will provide a trading update on 1 May 2007, with the Interim results to be announced on 14 June 2007.

Sir Michael Hodgkinson
Chairman

Four more Boeing 787's

Back

First Choice Airways, the European launch customer for the Boeing 787, has exercised options on a further four B787 aircraft. Originally, in July 2004, the airline signed up for six 787's with options on a further six. In September 2006 it exercised the options on a further two and has now ordered the final four.

The Boeing 787 has been the most successful new commercial aircraft to launch ever. First Choice Airways will take delivery of its first two in 2009 and introduce the remaining 10 between 2010 and 2013, doubling the size of its long-haul fleet.

The B787 will bring faraway places within the range of mid-sized aircraft, flying up to 8,500 nautical miles (10,000 miles) - Gatwick to Borneo for instance - as fast as comparable current jets. It will use 20% less fuel than today's mid-sized commercial aircraft, in part down to 66% of the aircraft comprising composite material, which is considerably lighter than traditional materials.

The B787 will also improve passenger well being; it will be pressurised at lower altitudes and have greater cabin humidity ensuring passengers arrive feeling less tired. New technology that senses air pressure differences and allows the aircraft to avoid turbulence will also result in a smoother flight.

The First Choice Mainstream Holidays Sector provides differentiated holiday experiences. Building a market-leading long-haul travel programme is a key part of this strategy. Providing the most comfortable economy cabin is critical to its success, as it has demonstrated over the last two years by upgrading its Boeing 767's to provide customers with more legroom and superior in-flight entertainment. Long-haul sales are currently up 38% for Winter 2006/07 and 19% or Summer 2007.

Dermot Blastland, Managing Director of First Choice Mainstream Holidays said: "Having taken the decision to increase our commitment to long-haul holidays we wanted to ensure we could do this in the most cost effective and environmentally sound way, whilst offering our customers new destinations and even more comfortable travel. When we announced our selection in 2004, we believed the new Boeing 787 would be key to achieving this. The success of our current long-haul programme has now given us the confidence to order 12 aircraft. The B787's will be a unique experience for our customers, as we establish ourselves at the forefront of long-haul leisure travel."

"This third order from First Choice is another vote of confidence in the Boeing 787's capabilities and unprecedented environmental performance," said Marlin Dailey, Vice President of Sales for Europe, Russia and Central Asia, Boeing Commercial Airplanes. "It's exciting and very satisfying when great customers like First Choice continue to select your product. It reflects its faith in the 787 and in Boeing. I'm also very proud First Choice is making the B787 an integral part of its environmental leadership."

Acquisition of Laterooms Limited

Back

First Choice Holidays PLC has purchased LateRooms Limited www.laterooms.com a leading online price comparator and seller of late availability hotel rooms.

Highlights

- Initial consideration - £108 million
- Year end 31 December 2006 forecast EBITA of £6.2 million (2005: £3.7 million)
- UK online booking of hotel accommodation £1.1 billion in 2004, expected to increase 21% year-on-year to £3.4 billion by 2008
- LateRooms has 12% of the UK intermediary online booking market - estimated 1.3 million room nights will be sold in 2006
- Approximately one million unique customer visits monthly - mix of business and leisure
- Genuine provider of online late availability (less than 24 hours)
- Over 13,000 properties on the LateRooms database with the majority currently in the UK - independent and major chains - no reliance on any one hotelier
- Leverage on the strength of the Online Destination Services Sector's supplier relationships
- Significant growth opportunities in existing and new markets

LateRooms operates in an attractive market that has enjoyed strong growth which is forecast to continue. The UK hotel market is worth £12 billion annually, of which approximately £8.2 billion comes from the domestic source market, with 20% of customers booking online. It is estimated that intermediaries like LateRooms account for approximately 40% of online bookings. LateRooms share of this intermediary market is 12%. The online distribution channel has doubled since 2004 and is forecast to continue to grow at 20% per annum for the coming years. This growth is being driven by increasing internet and broadband penetration, increasing consumer expenditure online and increasing frequency of short breaks. In Europe, the hotel market is even larger and the online distribution channel less well developed representing a significant growth opportunity.

LateRooms (www.laterooms.com) is a leading online price comparator and seller of late availability hotel rooms. In 2006, LateRooms will sell around 1.3m bednights. The website provides independent, detailed comparative information on price, star rating and location of over 13,000 properties worldwide, with the majority in the UK. This gives customers access to the best late availability and hoteliers a controlled route to market to maximise occupancy and revenue. On average, rooms are sold at a discount of 40% to the rack rate.

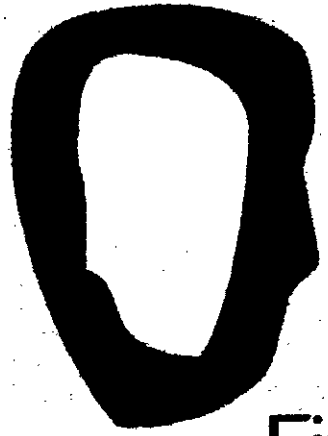
LateRooms operates a commission model acting as an agent for the hoteliers. The site generates approximately one million unique visitors per month with 70% arriving at the site directly and achieves a 10% conversion rate. LateRooms now wants to expand its European content to distribute to the UK source market (City and leisure destinations) as well as establishing operations in European source markets. The combination of LateRooms and Online Destination Services will accelerate LateRooms' growth strategy in Europe by leveraging existing hotel relationships and infrastructure across Europe.

First Choice has paid an initial consideration of £108 million for the entire issued share capital of LateRooms with a further maximum of £12 million payable, depending on future outperformance over the next three years. The Business had gross assets of £1.7 million in the year ending 31 December 2005. Net revenue grew 57% from £4.4 million in the year ended 31 December 2004 to £6.9 million in 2005 and is forecast to grow by a further 57% to £10.8 million in 2006. Similarly, operating profit has grown by 95% from £1.9 million in the year ended 31 December 2004 to £3.7 million in 2005 with a forecasted 68% increase to £6.2 million for 2006. We anticipate that this progression will continue.

Founded in 1999, the management team of LateRooms has successfully developed the business from a simple price comparator to today's online transaction site with enriched features including customer reviews on hotels. In 2002, its first year of selling online, 46,000 room nights were sold, it is estimated that in 2006 this will have increased to 1.3 million room nights. First Choice's acquisition strategy is to acquire companies with their management who are then responsible for growing the business with the support of the PLC, LateRooms is no different and the current management team will remain with the business.

Commenting on the acquisition, Peter Long, Chief Executive, First Choice Holidays PLC said:

servicing a niche market segment at low cost. The access to an increased range of accommodation already available in the Group will strengthen its position and give international scalability.



'As a genuine provider of late availability accommodation, its recognised and established brand benefits from a generic relationship with its product and has a limited requirement for marketing support. Integral to its success has been its senior management team who have successfully grown the business and are a key component in its future development. I'm sure that as part of First Choice, LateRooms will continue to lead the way in late availability online accommodation.'

Activity Holidays	20%	14%	+6ppt	1.0%	0.7%	+30bps
Online Destination Services	10%	9%	+1ppt	0.5%	0.5%	-
JV / Associate	3%	3%	-	0.1%	0.1%	-
Group	**100%**	**100%**	**-**	**5.0%**	**4.9%**	**+10bps**

Cashflow

Depreciation within EBITDA is £44.9m (2005: £43.4m)

	FY06 £m	FY05 £m	y-o-y £m
EBITDA[1]	**176**	**162**	**+14**
Working capital movement - underlying	(4)	3	-7
- one-off (see next slide)	(33)	(3)	-30
Prepayments for properties not yet on sale	(20)	(3)	-17
Net operating cash flow	**119**	**159**	**-40**
Capital expenditure (net)	(39)	(55)	+16
Tax	(14)	(33)	+19
Interest/other	(17)	(3)	-14
Preference dividends	-	(11)	+11
Free cash flow	**49**	**57**	**-8**
Ordinary dividends	(35)	(29)	-6
Net acquisitions/disposals	(108)	(33)	-75
Movement in Cash (pre: debt movement)	**(94)**	**(5)**	**-89**

Disposals were £10m higher than in a normal year due to the sale of two Intrav coastal cruise ships. Gross capex was £59.6m (2005: £65.8m)

Tax cashflow benefited from changes to cost deferrals under IFRS accelerating UK tax deduction for marketing expenditure - one off change

All preference shares were redeemed during FY05, consequently the additional debt raised to repay the dividends has increased the interest charge during FY06.

Acquisition spend in the year amounted to £129.3m, deferred spend relating to prior year acquisitions of £14.3m, acquisition expenses of £4.5m and cash acquired of £40.0m, resulting in total net cash outflow of £108.1m for the year.

(1) Excludes JV and associate share of profits

First Choice
Holidays PLC

Where leisure travels further

Creating value

Peter Long – Chief Executive

What is First Choice?

An international leisure travel company

A portfolio of specialists

A UK market leading Mainstream business

First Choice Holidays PLC

Creating value

Creating value - building a specialist portfolio

- Identify niche market segments
- Diversify risk:
  - spread of source markets
  - range of experiences
  - balance of customer segments
- Allows mix of asset light or asset right to suit the experience
- Delivers top-line growth
- Fragmented specialist markets ripe for consolidation
- Synergy benefits and enhanced margins

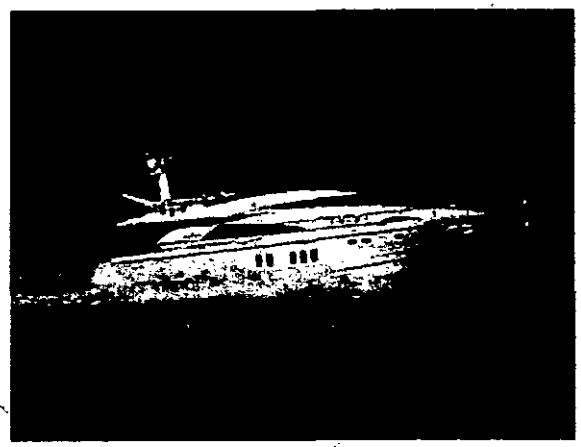
First Choice Holidays PLC

Building a specialist portfolio - Adventure

- Increased customer desire for adventure experiences
- Acquired Exodus (2002)
- Fragmented market now have a range of experiences from:
  - 17 adventure travel companies
  - across 7 source markets
- Expertise is the key value add
- High growth in revenue and profit
- Strong pipeline of acquisitions
- Ready to leverage infrastructure to enhance margins further

First Choice Holidays PLC

Creating value



Building a specialist portfolio - First Choice Marine

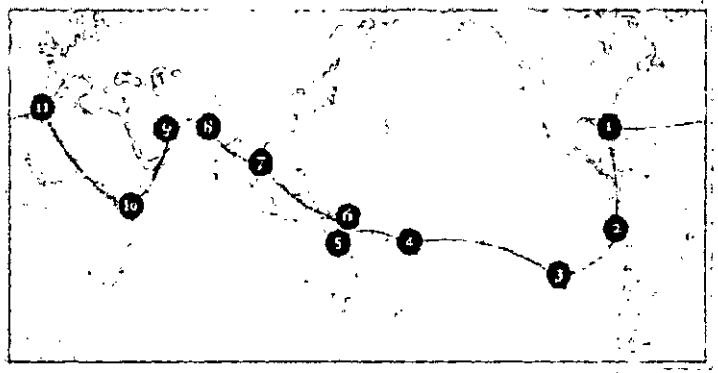
- Sunsail acquisition - first significant move into higher margin specialist businesses

- Acquired Moorings in 2005 – now world leader in yacht vacations:
  - Integration and synergy benefits on target

- Clearly defined brands to suit every sailing desire:
  - The Moorings
  - Sunsail Yachts
  - Footloose
  - NauticBlue
  - First Choice Yachting
    - crewed yachts
    - luxury power boat fractional ownership

- Direct relationships with customers

Building a specialist portfolio - North American student travel



- Identified high growth student travel segment:
  - 64 million students in the USA
- Acquired StudentCity.com – July 2004:
  - student leisure
- Fragmented growth market
- Direct business model
- 2006 entered adjacent segment - student education
- Building single infrastructure to enhance margins

First Choice Holidays PLC

Creating value

Building a specialist portfolio - US premium escorted tours

- Identified niche in US boomer market:
  - 78 million boomers control 70% of US assets
- Acquisition of Grand Expeditions and Intrav:
  - significant footprint into the market
- Life experiences that money can buy
- Expertise a pre-requisite
- Fragmented market with many opportunities
- High margin, high growth

1 - Orlando, Florida — Day 1
2 - Lima, Cusco and Machu Picchu — Days 2, 3 & 4
3 - Easter Island, Chile — Days 5 & 6
4 - Apia, Samoa — Days 7 & 8
5 - Great Barrier Reef — Days 9 & 10
6 - Papua New Guinea — Days 11, 12 & 13
7 - Angkor, Cambodia — Days 14 & 15
8 - Taj Mahal, Agra, India — Day 16
9 - Dubai, United Arab Emirates — Days 17 & 18
10 - Serengeti Plain, Tanzania — Days 19 & 20
11 - Marrakech, Morocco — Days 21 & 22
1 - Orlando, Florida and Home — Day 23

Building a specialist portfolio, Online Destination Services

- Acquire offline businesses and bring online:
  - retain local presence & well established relationships
- Fragmented supply chain – suits ODS business model:
  - focus on independent hotels
- Building an international presence across regions:
  - Mediterranean
  - Caribbean/Latin America
  - European Cities
  - USA
  - Asia Pacific
- Leverage single infrastructure

- Mainstream outperformed the market:
  - long-haul product revenues and bookings up 44% and 35% respectively
  - sixth Holiday Village opened in Dominican Republic
  - on target to achieve 75% of sales through controlled channels by 2008
- Specialist sectors underlying operating profit increased by £17.8m (up 30%)
- Grand Expeditions and Intrav acquisitions integrated and performing well:
  - creation of Escorted Tours division and First Choice Expedition Cruising
- £148.7m of niche, specialist acquisitions made during the year; strong pipeline going forward:
  - first acquisition in Asia Pacific region

[1] The Group believes that underlying operating profit, underlying profit before tax and underlying earnings per share provide additional guidance to the statutory measures on the underlying performance of the business during the financial year. Underlying profit before tax and underlying operating profit exclude separately disclosed items, amortisation of business combination intangibles, impairment of goodwill and taxation of profits of the Group's joint venture and associate. Underlying earnings exclude the same items net of tax and minority interests.

Current Trading

- Winter 2006/07:
  - Mainstream Holidays Sector revenue up 15% against market which is 9% down; long-haul revenues and bookings up 40% and 26% respectively
  - Specialist Holidays Sector revenues up 9%
  - Activity Holidays Sector revenue up 7%
  - Online Destination Services sales and bednights performing strongly

- Summer 2007:
  - Mainstream Holidays Sector revenue down 5% versus market which is 11% down
  - Activity Holidays Sector revenue up 12%

Commenting on the results, Peter Long, Chief Executive said:

"The Group has once again delivered strong operational performance and financial growth in a year that has proved challenging for the leisure travel industry. The year's financial results prove that the cash generative, flexible business model we operate, combined with the range of differentiated leisure travel experiences the Group offers, is both robust and provides a platform for long-term, sustained growth.

In the Mainstream Holidays Sector, the UK market remains challenging for Winter 06/07. Nonetheless, we have continued to outperform the market and experienced an improvement in trading over the last six weeks, due to continued strong demand for our long-haul products. Our confidence in the performance of this area of the business has led us to order two additional Boeing 787 aircraft to service this demand going forward. Although it is still very early in the booking cycle for Summer 2007, we are encouraged by performance to date across the three Sectors currently on sale.

Our confidence in the future is reflected in the double-digit increase in the full year dividend, as we believe the combination of organic and acquisition led growth, which have transformed the business over the last few years, will continue to generate superior returns for shareholders."

CHAIRMAN'S STATEMENT

In what has been a difficult year for the leisure travel market, the Group has demonstrated that its strategy of diversifying risk by creating leadership positions across a portfolio of international leisure businesses continues to deliver sustainable growth. The portfolio, which offers customers in 17 source markets a wide variety of leisure experiences to over 200 destination countries, means that the Group is never over-reliant on any single destination or source market. Our financial performance is testament to management's ability to anticipate and effectively guide the Group through an unprecedented number of geo-political events and natural disasters.

In the Mainstream Sector, we have outperformed the market and continue to do so due to a greater offering of exclusive differentiated product, a more flexible business model and a superior management team. In the Specialist Sectors, our portfolio of businesses continue to perform strongly as we benefit from the breadth of Specialist and Activity travel experiences available to our customers.

Results

Consequently, I am very pleased to report that the Group achieved record underlying[2] profit before tax of £117.2m (2005: £115.0m), with underlying operating profit up 13% at £135.4m (2005: £120.2m), on revenue growth of 11% to £2,715m (2005: £2,442m). The resulting underlying earnings per share increased by 16% to 16.1p (2005: 13.9p). This represents the fourth consecutive year of underlying double-digit earnings growth and demonstrates the strength of the Group's strategy which combines both organic and acquisition led growth. The Group's statutory profit before tax was £97.5m (2005: £112.2m) and statutory basic earnings per share was 13.7p (2005: 13.5p).

Dividends

The Board is recommending a final dividend of 5.40p per share (2005: 4.65p), an increase of 16% on the comparable period. The interim dividend was 2.25p (2005: 1.95p), giving a total dividend for the year of 7.65p per share (2005: 6.60p). The full year dividend increase of 16% per share represents the fourth consecutive year of double-digit dividend growth and reflects our continuing commitment to a progressive dividend policy and our confidence in the future.

The Market

We have recognised for some time that to remain successful in the mainstream tour operating segment of the market in the UK, we would need to reduce our exposure to the increasingly commoditised short-haul market and be able to offer our customers better quality differentiated product. We have, therefore, invested in exclusive product, such as Holiday Villages and our long-haul aircraft, which has given us competitive advantage and consequently enabled us to outperform the market. When we start to take delivery of our Boeing 787s in 2009, the differentiated experience will be even greater for our customers. The results we are achieving from the long-haul product have given us the confidence to order eight of these aircraft with the option to acquire a further four.

In our specialist sectors, we have identified niche growth segments in which we are investing and developing leading positions. These parts of the Group are truly international and offer exciting growth opportunities. Many of these segments are highly fragmented and building a significant presence through acquisition has allowed us to create substantial businesses in a relatively short period.

[2] Underlying profit before tax and underlying operating profit exclude separately disclosed items, amortisation of business combination intangibles, impairment of goodwill and taxation of profits of the Group's joint venture and associate. Underlying earnings exclude the same items net of tax and minority interests.

Acquisitions

Acquisitions continue to be a key part of our strategy. This year we have made 13 acquisitions for a total consideration of £148.7m of which £129.3m has been paid during the year (2005: 12 acquisitions for consideration of £65.5m of which £53m had been paid).

The acquisition pipeline remains strong as we continue to identify opportunities which have excellent growth characteristics across a number of segments including adventure travel, student travel and specialist escorted tours.

Board

Giles Thorley joined the Board on 1 February 2006 and has proven to be a valuable and supportive Board member. As the Group has transformed itself from a purely mainstream holidays business in 1999 to an international leisure travel company today, we have similarly established a Board with a wide-ranging skill set, excellent business reputation and international experience.

Colleagues

We are a people business focused on giving our customers the most enjoyable leisure travel experience we can. The passion and commitment shown by our colleagues across all the businesses has been greatly appreciated and, on behalf of the Board, I would like to thank them all for their hard work and effort.

Sustainable development

First Choice is committed to sustainable development in both source market and in destination. We are a founder member of the Travel Foundation in the UK and encourage all of our businesses to behave responsibly and support communities on an ongoing basis. Our stand-alone (web based) Environment & People Report was updated in the Spring and includes key future commitments. We were admitted to the FTSE4Good index last year and for the first time completed the full Business in the Community Corporate Responsibility Survey. All the FTSE100 and FTSE250 companies are invited to participate in the Survey and we were ranked 101 with an overall score of 72%.

Outlook

First Choice Holidays PLC has once again delivered strong financial performance in a year when our flexible business model and strategy have been tested by challenging conditions in a number of source and destination markets, but have proven successful in delivering growth.

On 27 November 2006 we announced, following press speculation regarding the Mainstream business, that the Board of First Choice Holidays PLC has been reviewing how it might continue to maximise the potential of its market leading tour operating business. The Board is considering a range of alternatives in this market and discussions with a number of parties are at a preliminary stage. There can be no certainty that any transaction will be forthcoming. However, I remain confident, whatever the outcome, that our strategy and flexible business model will ensure that we are well placed to continue to outperform the market and deliver sustainable growth into 2007 and beyond.

BUSINESS AND FINANCIAL REVIEW

Group performance

The Group has once again delivered strong operational performance and financial growth in a year that has tested the leisure travel industry. The year's financial results prove that the flexible business model we operate, combined with the range of differentiated leisure travel experiences the Group offers is both robust and provides a platform for long-term sustained growth.

The Group has achieved underlying profit before tax of £117.2m (2005: £115.0m), with underlying operating profit up 13% to £135.4m (2005: £120.2m). The underlying profit before tax includes net financing expense of £18.2m which is £13.0m higher than in 2005, primarily as a result of refinancing the convertible preference shares in July 2005 (£9.0m) and a higher level of acquisitions (£4.0m). Group revenue for the year increased by 11% to £2,715m (2005: £2,442m). The resulting operating profit margin improved by 10 basis points to 5.0% this year. It should be noted that during the year we changed our accounting policy regarding ODS revenue recognition to bring it in line with accepted market practice, which resulted in a margin improvement. However, the 10 basis points margin improvement is after restating prior year revenue.

The Group's results, on both a statutory and underlying basis, are set out in the table below.

Year ended 31 October	**2006**	**2005**
Revenue	£2,715m	£2,442m
Underlying operating profit	£135.4m	£120.2m
Underlying profit before tax	£117.2m	£115.0m
Statutory operating profit	£115.7m	£117.4m
Statutory profit before tax	£97.5m	£112.2m
Underlying basic earnings per share	16.1p	13.9p
Statutory basic earnings per share	13.7p	13.5p

A reconciliation of underlying profit before tax to statutory profit before tax is as follows:

	2006 £m	**2005 £m**
Underlying profit before tax	**117.2**	**115.0**
Separately disclosed items	(5.8)	-
Impairment of goodwill on closure of business	(1.4)	-
Amortisation of business combination intangibles	(11.3)	(1.9)
Taxation on profits of joint venture and associate	(1.2)	(0.9)
Statutory profit before tax	**97.5**	**112.2**

Our acquisition strategy is clearly a key contributor to future growth and we continue to have a strong pipeline of potential acquisition opportunities. We are continuously exploring new geographical source markets and destinations to expand our portfolio of leisure travel businesses and diversify risk. In August 2006, we acquired the Pacific World group of seven companies. This marked our first significant entry into the Asia Pacific and Chinese markets. These markets represent a significant opportunity for high growth in travel and the fragmented nature of the accommodation supply base fits well with our Online Destination Services model. The integration of this business is progressing well.

We also entered the North American specialist escorted tours segment during the year. This is a fragmented market-place which focuses on the growing and affluent "boomer" demographic. We now have seven brands operating in this high margin segment. These include Country Walkers, International Expeditions, Park East, Travcoa and TCS Expeditions, all acquired as part of the acquisition of Grand Expeditions in December 2005. In addition, Intrav was acquired in January 2006 and Your Man Tours acquired in July 2006. All of these businesses have performed well during the year and provide significant growth opportunities.

- Mainstream Holidays Sector underlying operating profit was £53.7m (2005: £57.5m), down 7% year-on-year, primarily due to the delay in high season bookings as a direct result of the World Cup and extremely warm weather in July which led to pricing pressure in the lates market. Revenue grew by 1% to £1,272m (2005: £1,264m);

- Specialist Holidays Sector underlying operating profit was £36.6m (2005: £31.5m), up 16% year-on-year. This was on revenue of £928m (2005: £891m), up 4%. The increase in profit was driven by continued growth in Canada combined with strong performance in our UK Specialist Division and North American student businesses;

- Activity Holidays Sector underlying operating profit was £26.7m (2005: £17.0m), up 57% year-on-year. This was achieved on revenue of £377m (2005: £194m), up 94%. On a like-for-like basis revenue was up 13%. The result was driven by good performance by our Adventure businesses and by a contribution of £5.5m from acquisitions made in the year;

- Online Destination Services underlying operating profit was £14.4m (2005: £11.4m), up 26% year-on-year, with continued strong growth in revenue, which was up 48% to £138m (2005: £93m). This result reflects strong underlying growth in our online channels offset by further incremental investment in Hotelopia;

- The Group's joint venture with Royal Caribbean Cruises Limited increased underlying profits before tax by £1.5m to £5.0m (2005: £3.5m). The Group's share of the pre-tax profits amounted to £2.5m, compared to £1.8m in 2005.

As announced at the trading update in October, we constantly review our participation strategy and how we can remain cost competitive. As a result of a review of underperforming business units and restructuring actions across all our Sectors, but particularly in the UK, the Group has incurred net separately disclosed items of £5.8m.

Mainstream Holidays Sector

The Mainstream Holidays Sector consists of the UK and Ireland tour operating, retail and airline businesses. With a clear strategy, it is focused on the development of differentiated, exclusive product such as the long-haul flight experience and Holiday Villages as it reduces capacity in the commoditised short-haul market. With a strong brand that is increasingly recognised as offering holidays of good value and quality, it is also benefiting from greater control of distribution.

Despite satisfactory revenue performance and a significant reduction in capacity across the Summer season there was a delay in high season bookings due to bird-flu scares in the early booking period, the World Cup in June and unusually warm weather in July. This led to weaker selling prices in the market-place from August, the result of which was that incremental year-on-year fuel costs for the season of £50m were not fully recovered from the customer in the lates market. This, combined with additional costs we incurred in managing an unprecedented level of external events resulted in a 7% reduction in full year underlying operating profit to £53.7m (2005: £57.5m), and a 0.3 percentage point reduction in underlying margin to 4.2%.

[2] FY04/05 passengers and revenue are restated to include the Adult Ski division which was transferred to the Mainstream Sector in FY2005/06

The continued emphasis on product differentiation resulted in a 30% year-on-year revenue increase for the Premier programme. The popularity of our Holiday Village concept goes from strength to strength and, as a result, we have recently opened a new resort in the Dominican Republic, the sixth property of this type. Our long-haul product has been significantly expanded (capacity up 32% for Summer 2006) and we are now flying to six new long-haul destinations. During the Summer, we operated four re-configured Boeing 767s (Summer 2005: three) and have recently introduced a further two for Summer 2007.

We have made excellent progress in increasing our control of distribution, which has now reached 63% for the Summer (2005: 56%). We are well on target to achieve 75% of our sales through controlled channels by the end of the 2008 financial year and aim to exceed this target. Online sales have increased to 32% (2005: 25%), while sales from our retail outlets have also grown with call centres remaining level. As we drive towards becoming a predominantly direct-sell business, we need to continue to build and develop our own distribution channels. We have, therefore, announced that we will expand the retail chain and continue to work with some of our long-term third-party retail partners. Accordingly, we recently announced plans to

franchise First Choice shops and to date have signed contracts with two significant franchisees, which will increase our store portfolio by 50. We will also be opening 45 of our own stores before the end of December in key geographical areas in which we are currently not represented. Our mobile concession concept, "the travel pod", which has a footprint of less than 200 sq ft, is currently being trialled with Asda, Sainsbury's, Morrisons and Waterstones. This investment in retail has been primarily funded through reduced commission rates paid to third party travel agents. Overall, the increase in direct sales has resulted in a distribution benefit of £5.9m in the year.

The First Choice brand and its products have traditionally appealed to families. The differentiated experience we have developed, particularly in Holiday Villages and the long-haul flight experience, where we have actively promoted the benefits of flying with First Choice Airways, has increased the brand appeal to both families and couples, as well as those who are normally considered the natural long-haul leisure customers of the scheduled airlines. The investment in the brand and long-haul product has cost an incremental £1.5m this year which has been expensed in 2006, but will benefit future seasons.

Specialist Holidays Sector

The Specialist Holidays Sector consists of the continental European and UK Specialist businesses (which are grouped as European Specialist for reporting purposes), our Canadian tour operating and retail business, First Choice Student Travel in the US and Canada, and Europe Express (First Choice Independent Vacations), our independent travel business operating in the US. These businesses offer both destination-led and lifestyle holidays with differentiated and exclusive product.

The companies in this Sector are not vertically integrated or capital intensive and their business models are extremely flexible and cost efficient. Despite a number of the businesses in this Sector experiencing challenging market conditions, it delivered strong growth in profitability with underlying operating profit of £36.6m (2005: £31.5m), up 16% year-on-year.

The businesses in continental Europe experienced a number of external events, from bird flu scares in Turkey to terrorist incidents in North Africa and Eastern Mediterranean key destinations, that adversely impacted underlying performance. Consequently, profitability in a number of continental European businesses was reduced. Several of our smaller continental European businesses were loss making in the year with total losses amounting to £4.2m. At the trading update in October, we announced that we had decided to scale-back the loss making businesses in Continental Europe. The one-off costs of these actions have been reported within the net separately disclosed items of £5.8m.

[1] *2004/2005 passengers are restated to exclude Encore which was sold during the year and also to include Europe Express.*

Marmara remains France's number one tour operator in terms of profitability. It opened a new club in Marrakech, Morocco in April 2006 and increased overall volumes to this destination by 26% with an occupancy rate of more than 90% for the entire season. The Aqua Fantasy Hotel in Kusadasi, Turkey which is exclusive to First Choice Netherlands and the Mainstream Holidays Sector in the UK, successfully opened its second phase and a further extension to this property will be completed by Summer 2007. A number of the European businesses are entering a limited number of new destinations such as Morocco to offer alternatives to Egypt and Turkey, as we continually strive to diversify risk.

The restructuring and streamlining of the UK Specialist business model, combined with the growth in direct distribution, has resulted in a very successful year for this division. The product offering for Sovereign, Hayes & Jarvis, Citalia and Meon Villas, has been more clearly defined and this, together with careful capacity management, the introduction of a more flexible selling system and a focus on growing direct distribution channels, has improved profitability substantially. Controlled distribution now stands at 59% (2005: 49%) in UK Specialist and will increase further in the coming year, with the business now achieving underlying margins of around 5% (2005: 4%).

North America

Our North American businesses improved underlying profitability by £8.4m to £13.8m (2005: £5.4m). This was driven by both our Canadian operation, which improved its profit margin in a year that, for this market, was badly affected by the 2005 hurricane season and the North American student travel businesses.

These student travel businesses performed equally strongly, despite also being affected by the 2005 hurricane season. The flexibility in the business meant that we were able to move and significantly increase bookings to the West Coast of Mexico away from Cancun which was badly affected by hurricane Wilma. We made a significant step into the highly fragmented educational student travel market through the acquisitions of Jumpstreet, School Voyageurs and Educatours in Canada and Educational Tours in the US. Opportunities in the student travel market remain attractive and we have a strong pipeline of acquisitions that we are pursuing.

Activity Holidays Sector

The Activity Holidays Sector consists of three divisions:

- The Marine division includes First Choice Marine, which operates the market leading yacht chartering brands of Sunsail and The Moorings, Sunsail Clubs and Inland Waterways (Crown Blue Line and Connoisseur).
- The Adventure division consists of a portfolio of 17 adventure travel businesses, including First Choice Expedition Cruising and our specialist and schools ski offering.
- The Escorted Tours division consists of seven brands that operate specialist escorted tours for the US source market.

The Sector is a high growth area with strong consumer demand for adventure and escorted tours products in particular. Its high margin businesses delivered underlying operating profit of £26.7m (2005: £17.0m) on revenue that increased by 94% to £377m (2005: £194m). Revenue increased 13% on a like-for-like basis with profitability flat, primarily as a result of a disappointing performance in Sunsail Clubs. During the year, we acquired a number of businesses in this Sector that were not expected to achieve full profitability until 2007. Consequently, this led to a dilution in underlying margin during the year of 1.7 percentage points.

Activity Holidays

y-o-y variation Revenue growth	**Total**	**Like-for-like**	**Change %**
Marine	+36%	+13%

Marine

The Marine division delivered underlying operating profitability of £10.6m (2005: £9.7m) on revenue of £122m (2005: £90m). The result was impacted by difficult trading conditions for our Sunsail Clubs and the cost of restructuring the yacht chartering businesses of The Moorings and Sunsail Yachts.

First Choice Marine, which comprises Sunsail Yachts and The Moorings, has focused on integrating the businesses since the acquisition of The Moorings in December 2005. The business is firmly on track to deliver anticipated cost synergy benefits of £5m in 2007.

Inland Waterways has focused on driving organic growth through direct channels with 44% of sales now direct (2005: 42%). Asset utilisation has continued to improve with occupancy increasing 5% year-on-year. Based on our research, we believe there could be strong demand for this product in a broader number of source markets, which we will actively pursue.

Sunsail Clubs had a challenging year with bookings affected adversely by the bird flu scare in Turkey. Despite this difficult trading environment, our new club, Club Phokia, had a very successful season, proving that our customers appreciate the quality of our product.

Adventure

Our portfolio of Adventure businesses has grown both organically and by acquisition, with the division growing revenue by 81% to £189m (2005: £104m), and underlying operating profit to £13.3m (2005: £7.3m). Profitability grew by 5% on a like-for-like basis to £6.6m as the organic businesses continued to perform strongly in a segment which we expect to deliver strong growth in the future. The North American market continued to be a focus for this division and we have acquired Trek Holidays in Canada and Trip n Tours, a US West coast dive business that complements our Caribbean dive expertise at Caradonna. In the Netherlands, we acquired Sawadee (an adventure travel tour operator) and in the UK, we acquired TravelClass which operates two school brands; Skiclass and JCA. Skiclass complements our existing Skibound business, while JCA is a summer based schools activities business which has grown strongly and offers good growth potential as it expands the number of sites available to schools across the UK. Having achieved critical mass with these businesses, we are now pursuing the most effective ways to leverage the infrastructure we have established.

Following the acquisition of Intrav by the Group in January 2006, a new sub-division, First Choice Expedition Cruising, has been formed to manage and operate the two small ship expedition cruising brands, Peregrine Cruises and Clipper Cruises. This sub-division will be included within the Adventure division. Travel on small expedition ships is a niche adventure segment offering substantial growth opportunities. Combining the operations of these two brands will enable us to offer a complementary portfolio of small ship expedition product from 2008 and make this available through a worldwide distribution network.

Escorted Tours

The Escorted Tours division has been formed out of certain businesses acquired in the Grand Expeditions transaction, Intrav and Your Man Tours.

Intrav was loss making at acquisition and a number of steps have been taken to address this situation including the transfer of Clipper Cruise Lines into First Choice Expedition Cruising. This initiative has enabled Intrav to focus on escorted tours, its core expertise. As anticipated, these measures have resulted in the Intrav and Clipper Cruise Line businesses achieving break-even results.

The escorted tours businesses that had been part of Grand Expeditions and whose customer base is drawn primarily from the growing "boomer" demographic in the US market had a successful year. The cultural and luxury escorted travel categories are growing as customers seeks new destinations. Our businesses are averaging double-digit volume increases year-on-year. The tailor-made journeys market is also growing rapidly as wealthy travellers desire to individualise their travel experiences.

Online Destination Services Sector

Our business approach in this Sector is based on a local presence at key travel destinations. Our extensive infrastructure includes 89 offices in 23 countries servicing over five million customers. We have established strong relationships with our suppliers, enabling us to offer our customers a breadth of content online that is not available through our competitors and customer service on the ground, rather than from a centralised base. The destinations in which we operate usually have a highly fragmented supply base, meaning the relationships we have with our suppliers are a critical success factor. The majority of our inventory comes from privately owned hotels.

We have continued to experience significant growth in all our online routes to market with total online transaction value growing to £306m, representing growth of 49%. Hotelbeds, the brand which services tour operators, has experienced a 32% growth in transaction value. Bedsonline, our B2B operator servicing travel agents who are sourcing accommodation for the independent traveller, has significantly increased its customer base, now meeting the needs of more than 8,000 travel agents (2005: +5,000) and has grown transaction value by 79%. Hotelopia, our B2C accommodation business brand, has achieved an increase in transaction value of 48%.

Our strategy is to acquire established offline incoming agencies who have strong relationships in their destinations and then bring their inventory online. To this end, the Sector has expanded its geographical reach, opening an office in Brazil and acquiring a further business in Greece. In July, we acquired the Pacific World group of companies based in the Asia Pacific region. This was a significant strategic move for us and we are delighted that this well-respected and successful group is now part of our Sector. Pacific World is a network of specialist companies providing meetings, incentives, conference and events (MICE) services as well as servicing cruise lines and foreign independent travel for tour operators. With 19 offices across the region, Pacific World has given us an immediate, established presence in key Asian markets.

The Sector was affected by the 2005 hurricane season and the events in Turkey during the year. Hurricane Wilma caused extensive damage in Cancun, Mexico, which resulted in the destination being almost entirely closed for the peak season as hotels, resorts and infrastructure were repaired or rebuilt. The reduction in capacity to Turkey, which tour operators implemented, also affected the requirement for our services. We continue to seek new destination markets not only to grow our business, but to diversify and spread our risks.

Hotelopia's growth has been achieved both through growth in its own brand and through the strategic alliances it has formed with a number of substantial companies including BBVA, easyJet, Spanair, Martinair, bmi and bmibaby. We will continue to pursue meaningful strategic alliances both in the UK and overseas.

Island Cruises

Our joint venture with Royal Caribbean Cruises Limited now operates two ships in the Mediterranean in the Summer and off the coast of Brazil in the Winter. The second ship, the Island Star, went into service in December 2005 after an extensive refurbishment.

Total passengers carried increased by 84% to 167,000, with passengers from the UK increasing by 95% to 90,000. This was achieved against an overall growth in passenger numbers in the UK cruise market of 17%.

Profit before tax was up 39% with our share of the profit at £2.5m (2005: £1.8m). Revenue improved by 84% in what was a tough UK market, where the weakness in the price of land-based package holidays in the lates market affected cruise prices, while cost pressures, particularly on fuel, were also a factor.

Demand in both the Brazilian and UK markets is strong and forward bookings are significantly ahead of the previous year. We remain optimistic that this segment of the cruise market will continue to prosper.

Taxation

Profit before tax (excluding joint venture and associate profits) was £94.7m (2005: £110.3m). The tax charge on these profits was £25.2m (2005: £31.9m), representing an effective tax rate of 26.6% (2005: 28.9%). The lower effective rate compared to the UK statutory rate of 30% is due to the use of historic losses used against current year profits, net of current year losses not recognised and higher overseas tax rates.

The Group underlying profit before tax (excluding profit before tax of the joint venture and associate) was £113.2m (2005: £112.2m). The Group tax charge on this profit was £31.2m (2005: £32.4m), representing an effective underlying tax rate of 27.6% (2005: 28.9%). This rate is higher than the statutory 26.6% due to the tax credit on overseas business combination intangible amortisation being at a rate in excess of 30%.

Based on the current structure of the business, existing local taxation rates and legislation, it is expected that the underlying tax rate on ongoing activities (before intangible amortisation) will be at a level of around 28% going forward.

Earnings per share

Underlying basic earnings per ordinary share was 16.1p (2005: 13.9p), an increase of 16%. This performance represents the fourth year of double-digit growth.

Dividends

The Board recommends a final dividend per ordinary share of 5.40p (2005: 4.65p), an increase of 16%, making a total dividend relating to the year of 7.65p (2005: 6.60p), an increase of 16%. The Group will look to maintain underlying dividend cover at just over two times. The dividend will be paid on 10 April 2007 to all shareholders on the register as at 9 March 2007. The Company intends to continue to operate a dividend re-investment plan as an alternative to the full cash dividend.

TOTAL				**£148.7m**	**£129.3m**

For the last four years, First Choice Holidays PLC has been investing in small to medium sized bolt-on acquisitions in specialist niche segments of the leisure travel market. This programme has been accelerated in the year ended 31 October 2006 with 13 businesses being acquired for a maximum total consideration of £148.7m. By way of comparison, in the year ended 31 October 2005, we made 12 acquisitions with a maximum aggregate consideration of £65.5m of which £53.4m was paid in 2005.

Acquisitions in the year are shown in the table above. Of the maximum consideration, £129.3m was paid during the year. A further £19.4m will be paid as deferred and contingent consideration. In addition, £4.5m of acquisition expenses were incurred bringing the total expected consideration to £153.2m.

Acquisitions in the year	2006 Max £m	2006 Paid £m	2005 Max £m	2005 Paid £m
Amounts paid in the year	129.3	129.3	65.5	53.4
Deferred & contingent consideration arising	19.4	-	-	-
	148.7	129.3	65.5	53.4
Acquisition expenses paid in the year	4.5	4.5	1.8	1.8
Total consideration	**153.2**	**133.8**	**67.3**	**55.2**
Cash acquired with acquisitions	-	(40.0)	-	(23.7)
Cash paid relating to prior year acquisitions	-	14.3	-	1.6
Net cash outflow in the year relating to acquisitions	-	**108.1**	-	**33.1**

The cash flow effect of these acquisitions includes the cash consideration paid in the year of £129.3m, deferred and contingent consideration of £14.3m relating to prior year acquisitions that was paid in the year, acquisition expenses of £4.5m and the cash acquired of £40.0m, resulting in a total net cash outflow for the year of £108.1m (2005: £33.1m).

The net assets of all the subsidiaries acquired during the year have been consolidated in the Group's balance sheet at 31 October 2006. The Group's consolidated profit and loss account reflects revenue of £148.2m and underlying operating profit of £8.4m from the results of the acquired companies since acquisition.

Cash and liquidity

Throughout the year there has continued to be a strong focus on cash management with an emphasis on working capital management. However, there has been a working capital outflow in the year of £56.6m (2005: £3.7m). This was driven by a significant increase in accommodation prepayments to finance a number of new exclusive and differentiated properties, primarily within the European Specialist businesses, for which we are not currently taking bookings. As a result of acquiring and disposing of businesses part way through the trading cycle, post acquisition working capital outflows of £18.0m have been incurred. In addition, special employer contributions of £6.0m were paid to reduce the pension deficit in the airline defined benefit schemes, while the Group also paid advance deposits on Boeing 787 options amounting to £2.8m.

The net debt position (cash and cash equivalents less loans, overdrafts and finance leases) at the year-end was £103.3m (2005: net cash £18.1m). This consisted of £177.5m of cash and £280.8m of debt. The £121.4m movement in net debt has primarily arisen due to the accelerated acquisition strategy. Fixed charges cover, which we believe to be the most useful measure of liquidity, was 2.3 times at the year-end (2005: 2.3 times).

During the year the Group issued a $100m Eurobond to Royal Caribbean Cruises Limited. The Eurobond has a coupon of 6% and matures in March 2009. In addition, the Group negotiated bi-lateral bank facilities with Deutsche Bank (£30m due July 2010) and Societe Generale (€18.3m due November 2009).

Shareholders' funds

Shareholders' funds have increased in the year to £281.1m (2005: £276.0m). There was a retained profit for the year of £72.3m (2005: £80.3m) which has been offset by dividends paid and hedge reserve movements.

The Group issued no ordinary shares (2005: nil) in respect of acquisitions.

Regulations, bonding and banking

The Civil Aviation Authority (CAA), the Federation of Tour Operators (FTO) and the Association of British Travel Agents (ABTA) regulate the businesses based in the UK. Each of these bodies protects the rights of consumers by requiring the Group to lodge security bonds with them.

In the UK, the CAA has been active in lobbying Government to make legislative changes to the bonding regime to ensure that tour operators are not competitively disadvantaged as a result of the current legislation. First Choice Holidays PLC fully supports the CAA's proposal to replace the bonding regime with a small levy per passenger and looks forward to working with the CAA to pursue this change during 2007.

Where international businesses are regulated, the protection of consumers is achieved either by means of cash collateral or bond cover similar to the UK requirements.

Treasury policies

The Group faces significant financial risks mainly due to the substantial cross-border element of its trading. Currency exchange risk, which arises because of the mismatch between the Group's UK businesses sterling revenue streams and foreign currency operating costs, is managed by the use of foreign exchange forward, swap and option contracts. Interest rate risk is split into two separate exposures, namely US dollar interest rates on variable rate aircraft leases and loans, and sterling rates on Group cash balances. Both exposures are managed using interest rate derivatives. Finally, the Group's exposure to jet fuel prices is managed using energy swaps and options.

During the year the governance of financial risk, was managed by the Financial Risk Management Committee (FRMC). The Committee, which was created in 2005, reports to the Audit Committee and is made up of the relevant senior business employees and technical experts from within the Group. Incorporated within its terms of reference is the determination of all treasury policies and the monitoring of the effectiveness of those policies.

Group Treasury implements the agreed policies on a day-to-day basis. The procedures also stipulate the levels of authority applied to dealing and to approving the types of financial instrument, used to manage these exposures. Transactions are only undertaken to hedge underlying exposures. Financial instruments are not traded, nor are speculative positions taken. Regular reports are provided to the Board.

Change in accounting policies

European and UK legislation requires the Group to adopt International Financial Reporting Standards as adopted for use in the EU (Adopted IFRS) for the financial year ended 31 October 2006. Accordingly, the interim financial statements at 30 April 2006 and the full statements for the year ended 31 October 2006 have been prepared using the measurement and recognition principles of Adopted IFRS as opposed to UK Generally Accepted Accounting Practice (UK GAAP). We have provided significant information on the transition to Adopted IFRS and the impact on the Group's opening balance sheet in IFRS updates in October 2005 and March 2006. These announcements, and the accounting policies used in its preparation, can be found on the First Choice Holidays PLC website www.firstchoiceholidaysplc.com.

As stated in the press releases, while Adopted IFRS results in certain changes to our financial reporting it has no impact on the underlying value drivers of our business. Our strategy, accordingly, is totally unaffected by these changes. The transition to Adopted IFRS will not change how the Group is managed and significantly will have no impact on cash generation which remains a key performance measure. It will also not affect the way that the Group assesses potential investments nor the ability of the Group to pay dividends from cash reserves.

Further details on the Group's accounting policies can be found in Appendix 1 to this announcement.

Current trading

Winter 2006/07

In the Mainstream Holidays Sector, the UK market continues to remain challenging, as reported at the pre-close trading update on 25 October 2006. The October AC Nielsen Travel Track report identifies total market volumes for the Winter season cumulatively down by 11% and total sales cumulatively down by 9%. Despite the trading environment, Mainstream Holidays Sector volumes are down 1% with sales up 15% due to the continued successful re-mix to long-haul. This reflects an improvement on Winter trading since the October trading update due to continued strong demand for our long-haul products with volumes up 26% and sales up 40% on capacity that is up around 25%. The AC Nielsen report clearly highlights continuing out-performance by Mainstream versus the competition, but we still expect the rate of sale to slow down as we move into the period in which the largest number of short-haul and medium-haul holidays are sold.

We anticipated that weaker market demand would continue into early Winter trading particularly in short and medium-haul, and we have, therefore, reduced capacity in these segments by around 10% for Winter 2006/07, with overall capacity flat year-on-year. As disclosed in the October trading update, we expect the Sector to experience margin pressure in the first half of the year due to incremental fuel costs not being fully recovered in the Winter lates market and further investment in our long-haul programme with two additional 767s joining the fleet for operation in Summer 2007.

In the Specialist Holidays Sector, despite market conditions remaining challenging to a number of destinations, trading performance has improved since the October trading update with an improvement in bookings in the European markets as we enter the core booking period. Our North American businesses continue to trade well with revenue per passenger ahead of last year and margins ahead in Student Travel.

Our Activity Holidays Sector is performing strongly with sales 7% ahead. Like-for-like sales across our Adventure businesses are up 5%, while the Marine businesses continue to generate strong revenue growth of 7%.

Online Destination Services are trading well with strong volumes and prices across all routes to market.

Summer 2007

It remains very early in the booking cycle for Summer 2007 across all businesses within the Group, but we are encouraged by performance to date. In the Mainstream Holidays Sector, the market is still suffering from the events of the previous Summer, particularly the thwarted terrorist attacks in August. As a result, the October AC Nielsen Travel Track report identifies total market volumes for the Summer season cumulatively down by 14% and sales down by 11%. We continue to outperform the market as we are currently 13% down on customer volumes, which has improved from 18% down six weeks ago, and 5% down on sales. Demand for our long-haul product and exclusive differentiated properties continues to drive increases in both sales and volumes, up 17% and 10% respectively. We have reduced capacity for short-haul and medium-haul programmes in line with anticipated demand, with overall capacity remaining flat year-on-year.

Our Activity Holidays Sector and Online Destination Services Sector continues to see strong volumes and prices for the Summer season. The Specialist Holidays Sector programme has yet to go on sale.

Outlook

As we enter the key booking periods for both Winter and Summer 2007 holidays, it is clear that our portfolio of businesses continue to outperform the market.

Our business model is constantly evolving to ensure that we maintain flexibility, and continue to offer our customers the range of differentiated and exclusive leisure travel experiences they desire.

We are confident that our combination of organic and acquisition led growth will continue to generate superior returns and enhance shareholder value, as the platform we have established delivers sustainable long-term growth.

1. Accounting policies

The figures in this document have been prepared and approved by the Directors in accordance with International Financial Reporting Standards as adopted by the European Union (Adopted IFRSs). As this is the first year of full implementation of IFRS, a full set of accounting policies is presented in Appendix 1 of this document.

The document is presented in the Group's functional currency of Sterling, rounded to the nearest hundred thousand.

3. Separately disclosed items

	2006 £m	2005 £m
Re-organisation of back office functions	3.2	–
Business restructuring costs	10.6	–
Other items	(8.0)	–
	5.8	–

Re-organisation of back office functions

Following a strategic review of the Group's UK Mainstream operations, a decision has been made to outsource certain back office functions. This outsourcing is planned to commence in the first half of financial year 2007. The separately disclosed items incurred for this in 2006 of £3.2m relate to set up costs for the outsourced operations and provision for redundancy costs associated with the relocation.

Business restructuring costs

In line with the Group's strategy of remaining cost competitive, during the year a comprehensive review of under performing businesses was carried out. This review has resulted in the closure of the Marmara Portugal operation and restructuring of other business units. Non-recurring costs of £10.6m have been incurred, principally in relation to redundancy and other closure costs associated with the restructuring activities in the Specialist, Activity and Mainstream sectors.

Other items

There have been a number of favourable developments and outcomes in respect of certain commercial transactions and legal settlements in the year. In addition, management has undertaken a review of other accruals. Whilst none of these items are individually significant, it is considered appropriate to separately disclose the aggregate of £8.0m.

4. Taxation

The tax charge can be summarised as follows:

	2006 £m	2005 £m
(i) Analysis of charge in year		
Current tax expense:		
UK corporation tax on profits of the year	–	23.7
Non-UK tax on profits of the year	8.2	9.7
Adjustments in respect of previous years	(2.5)	1.0
	5.7	34.4
Deferred tax expense:		
Origination and reversal of timing differences:		
- Current year UK	17.9	(2.6)
- Current year non-UK	(0.9)	1.9
- Adjustments in respect of previous periods	2.5	(1.8)
	19.5	(2.5)
Total income tax expense in income statement	25.2	31.9

4. Taxation (continued)

(ii) Reconciliation of effective tax rate

The total tax charge for the year is lower (2005: lower) than the standard rate of corporation tax in the UK of 30% (2005: 30%). The differences are explained below:

	2006 %	2006 £m	2005 %	2005 £m
Profit before tax reported in the income statement		**97.5**		112.2
Less share of profit in joint venture and associate		**(2.8)**		(1.9)
		94.7		110.3
Income tax on profit before tax excluding share of joint venture and associate at the standard rate of UK tax of 30% (2005: 30%)	**30.0**	**28.4**	30.0	33.1
– Expenses not deductible for tax purposes	**0.3**	**0.3**	2.2	2.5
– Utilisation of tax losses	**(6.9)**	**(6.5)**	(2.5)	(2.7)
– Non-utilisation of tax losses	**3.0**	**2.8**	2.0	2.2
– Higher tax rates on overseas earnings	**1.8**	**1.7**	1.3	1.4
– Lower tax rates on overseas earnings	**(1.6)**	**(1.5)**	(3.4)	(3.8)
– Adjustments to tax charge in respect of previous periods	**–**	**–**	(0.7)	(0.8)
Total income tax expense in income statement	**26.6**	**25.2**	28.9	31.9

The effective rate of taxation is 26.6% (2005: 28.9%). The underlying rate of taxation is 27.6%. It is expected that an effective tax rate of 28% will be sustainable in the medium term.

5. Dividends

Ordinary shares

The following dividends have been deducted from equity in the year:

	2006 £m	2005 £m
Interim dividend paid for 2005 of 1.95p per share (2004: 1.75p)	**10.1**	9.1
Final ordinary dividend paid for 2005 of 4.65p (2004: 3.75p)	**24.4**	19.5
	34.5	28.6

The interim dividend in respect of the six-month period to 30 April 2006 of 2.25p per share was paid on 1 November 2006 and this dividend of £11.8m will be recognised as a deduction from equity in the year ending 31 October 2007.

Subsequent to the balance sheet date, the Directors have approved a final proposed dividend of 5.4p per share (2005: 4.65p) payable on 10 April 2007 to the holders of relevant shares on the register at 9 March 2007. The final proposed dividend amounts to £28.3m (2005: £24.4m) and will be recognised in the financial statements for the year ended 31 October 2007. The final ordinary dividend of 5.4p per share, together with the interim dividend of 2.25p per share, makes a total dividend of 7.65p per share relating to the year ended 31 October 2006 (2005: 6.6p).

A dividend reinvestment plan was introduced for the first time with respect to the final dividend payable for the year ended 31 October 2000. Those shareholders who have not elected to participate in this plan, and who would like to participate with respect to the 2006 final dividend, may do so by contacting Lloyds TSB Registrars direct on 0870 241 3018. The last day for election for the final proposed dividend is 16 March 2007 and any requests should be made in good time ahead of that date.

6. Earnings per share

The basic earnings per ordinary share is calculated by dividing the profit attributable to ordinary shareholders by the applicable weighted average number of ordinary shares in issue during the year, excluding those held in the employee share ownership trusts. The diluted earnings per share is calculated on profits attributable to ordinary shareholders divided by the adjusted weighted average number of ordinary shares, which takes account of the outstanding share options, where their conversion is dilutive. The additional earnings per share measures have been given to provide the reader of the accounts with a better understanding of the results.

6. Earnings per share (continued)

	Earnings 2006 £m	Weighted average no. of shares 2006 millions	Earnings per share 2006 Pence	Earnings 2005 £m	Weighted average no. of shares 2005 millions	Earnings per share 2005 Pence

At 31 October 2006	**201.4**	**138.5**	**(5.8)**	**(37.7)**	**296.4**

8. Announcement of statutory accounts

The financial information set out in this preliminary announcement does not constitute the Group's statutory accounts for the year ended 31 October 2006 or 2005. Statutory accounts for 2005, which were prepared under UK GAAP, have been delivered to the Registrar of Companies, and those for 2006, prepared under Adopted IFRS, will be delivered in due course. The auditors have reported on those accounts; their reports were (i) unqualified, (ii) did not include reference to any matters to which the auditors drew attention by way of emphasis without qualifying their reports and (iii) did not contain statements under section 237(2) or (3) of the Companies Act 1985.

9. Issue of Annual report and accounts

This statement will not be advertised in the press, but the Annual Reports will be posted to the shareholders in January 2007 and will also be available from the Director of Planning and Financial Control at the registered office of the Company at First Choice House, London Road, Crawley, West Sussex, RH10 9GX. Telephone 01293 588038. Fax 01293 588080.

10. Annual General Meeting

The Company's Annual General Meeting will be held at 10.30 a.m. on 9 March 2007 at the offices of Deutche Bank, 1 Great Winchester Street, London, EC2N 2DB

Accounting policies

First Choice Holidays PLC is a company incorporated in England and Wales. The Group financial statements consolidate those of the Company and its subsidiaries (together referred to as "the Group") and equity account the Group's interest in joint ventures and associates.

(A) Basis of preparation
The consolidated financial statements have been prepared and approved by the Directors in accordance with International Financial Reporting Standards as adopted by the European Union (Adopted IFRSs). The financial statements are presented in the Group's functional currency of Sterling, rounded to the nearest hundred thousand.

The Group believes that underlying operating profit, underlying profit before tax and underlying earnings per share provide additional guidance to statutory measures on the underlying performance of the business during the financial year.

The term underlying is not defined under International Financial Reporting Standards. It is a measure that is used by management to assess the underlying performance of the business internally and is not intended to be a substitute measure for statutory IFRS GAAP measures.

The Group defines these underlying measures as follows:

- Underlying operating profit is profit before interest, taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill.
- Underlying profit before tax is profit before taxation (Group and share of joint venture and associate), separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill.
- Underlying profit after tax is profit before separately disclosed items, amortisation of intangible assets acquired in business combinations and impairment of goodwill (all net of tax).
- Underlying earnings are underlying profit after tax less minority interests and preference dividends.
- Underlying earnings per share is underlying earnings divided by the weighted average number of ordinary shares in issue during the financial period, excluding those held by employee share ownership trusts.

It should be noted that the definitions of underlying items being used in these financial statements are those used by the Group and may not be comparable with the term 'underlying' as defined by other companies within both the same sector or elsewhere.

The presentation of revenue and cost of sales has been revised to more accurately reflect the nature of the activities undertaken in the Online Destination Services Sector, where the Sector acts as an intermediary between service provider and end customer (see Appendix 1 (G)). This change has reduced the previously reported comparative ODS revenue and cost of sales figures by £137.0m each. Revenue in note 2 is presented on this revised basis.

(B) Transition to Adopted IFRSs
The Group is preparing its financial information in accordance with Adopted IFRSs for the first time and consequently has applied IFRS 1: "First-time adoption of International Financial Reporting Standards".

The preparation of the consolidated financial statements in accordance with Adopted IFRSs resulted in changes to the accounting policies as compared with the 2005 annual financial statements prepared under UK GAAP. With the exception of accounting policies in respect of financial instruments, the accounting policies set out below have been applied consistently to all years presented in these consolidated financial statements. They have also been applied in preparing an opening Adopted IFRSs balance sheet at 1 November 2004 for the purposes of the transition to IFRS, as required by IFRS 1. The impact of the transition from previous UK GAAP to Adopted IFRSs is explained in note 33.

The consolidated financial statements are prepared on the historical cost basis other than, from 1 November 2005, derivative financial instruments, financial instruments held for trading and financial instruments classified as available for sale, which are stated at their fair value. Non-current assets held for sale are stated at the lower of their carrying amount and fair value less costs to sell.

The Group has adopted the transitional rules of IFRS1 and has therefore adopted IAS 32: Financial Instruments "Disclosures and Presentation" and IAS 39: Financial Instruments "Recognition and Measurement" and IFRS 7 "Financial Instruments" only with effect from 1 November 2005. In the comparative financial year, the previous UK GAAP accounting policy has been applied. The Group has early adopted IFRS 7 in the year ending 31 October 2006 which replaces the disclosure requirements of IAS 32.

In addition, IFRS 1 grants certain exemptions from the full requirements of other Adopted IFRSs on transition. The following exemptions permitted under IFRS 1 have been taken in these Group financial statements:

(i) Business combinations
Business combinations that took place prior to 1 November 2004 have not been restated.

(ii) Foreign exchange
Cumulative translation differences for all foreign operations have been set at zero at 1 November 2004.

(iii) Share based payments
IFRS 2: "Share based payments" has only been applied in respect of share options issued after 7 November 2002.

(C) Basis of consolidation

The consolidated financial statements of the Group comprise the Company and its subsidiaries (together referred to as "the Group") and the Group's interest in joint ventures and associates.

(i) Subsidiaries
Subsidiaries are entities controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial information from the date that control commences until the date that control ceases.

(ii) Joint ventures and associates
Jointly controlled entities are those entities over whose activities the Group has the power to jointly control, established by contractual agreement.

Associates are those entities in which the Group has the ability to exercise significant influence, but not control, over the financial and operating policies.

The consolidated financial statements includes the Group's share of the total recognised income and expense of joint ventures and associates on an equity accounted basis, from the date that joint control or significant influence respectively commences until the date that it ceases. When the Group's share of losses exceeds the carrying amount of the joint venture or associate, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture or associate.

(iii) Transactions eliminated on consolidation
Intra-group balances and any unrealised gains or income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with associates and jointly controlled entities are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(D) Foreign currency

(i) Foreign currency transactions
Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Sterling at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to Sterling at foreign exchange rates ruling at the dates the fair values were determined.

(ii) Foreign operations
The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on consolidation, are translated to Sterling at the foreign exchange rates ruling at the balance sheet date.

The revenues and expenses of overseas operations are translated at rates approximating to the foreign exchange rates ruling at the dates of the transactions. Foreign exchange differences arising on retranslation are recognised directly in equity in a foreign exchange reserve.

(iii) Net investment in foreign operations
Exchange differences arising from the translation of the net investment in foreign operations and of related hedges are taken to the foreign exchange reserve. They are released into the income statement upon disposal.

Accounting policies (continued)

(E) Derivative financial instruments

The Group uses derivative financial instruments to hedge its exposure to foreign exchange, interest rate and fuel price risks arising from operational, financing and investment activities.

In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments from 1 November 2005.

As set out in (B), the Group has adopted IAS 32 and IAS 39 only with effect from 1 November 2005:

(i) Accounting policy up to 1 November 2005
Instruments accounted for as hedges were designated as a hedge at the inception of the instruments. Gains and losses arising on foreign currency and fuel hedges were recognised on maturity of the underlying transaction. Interest differentials on derivative instruments and amounts receivable and payable on interest rate instruments were recognised as adjustments to interest over the period of the contracts. Gains and losses arising on hedging instruments which are cancelled due to the termination of the underlying exposure were taken to the profit and loss account immediately.

(ii) Accounting policy from 1 November 2005
Derivative financial instruments are stated at fair value. The gain or loss on re-measurement to fair value is recognised immediately in the income statement. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged (see accounting policy (F)).

The fair value of interest rate swaps is the estimated amount that the Group would receive or pay to terminate the swap at the balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparties. The fair value of forward exchange contracts and fuel price contracts is their quoted market price at the balance sheet date, being the present value of the quoted forward price.

(F) Hedge accounting

The following accounting policy has been applied with effect from 1 November 2005. Prior to this date, the accounting policy for the period up to 1 November 2005, set out in (E), was followed.

(i) Cash flow hedges
Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probably forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in the hedging reserve. Any ineffective portion of the hedge is recognised immediately in the income statement.

When the forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated cumulative gain or loss is removed from the hedging reserve and is included in the initial cost or other carrying amount of the non-financial asset or liability.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains and losses that were recognised directly in equity are reclassified into the income statement in the same period or periods during which the asset acquired or liability assumed affects profit or loss.

For cash flow hedges, other than those covered by the preceding two policy statements, the associated cumulative gain or loss is removed from equity and recognised in the income statement in the same period or periods during which the hedged forecast transaction affects the income statement.

When a hedging instrument expires or is sold, terminated or exercised, or the entity revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity and is recognised in accordance with the above policy when the transaction occurs. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss recognised in equity is recognised in the income statement immediately.

(ii) Fair value hedges
Where a derivative financial instrument is designated as a hedge of the variability in fair value of a recognised asset or liability or an unrecognised firm commitment, all changes in the fair value of the derivative are recognised immediately in the income statement. The carrying value of the hedged item is adjusted by the change in fair value that is attributable to the risk being hedged (even if it is normally carried at cost or amortised cost) and any gains or losses on re-measurement are recognised immediately in the income statement (even if those gains would normally be recognised directly in reserves).

Accounting policies (continued)

(G) Revenue

Revenue represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business. Revenue excludes intra-group transactions and is stated after the deduction of trade discounts and commissions.

(i) Goods sold and the services rendered
Revenue from sale of goods is recognised in the income statement when the significant risks and rewards of ownership have been transferred to the buyer. Revenue in respect of in-house product is recognised on the date of departure. Travel agency commissions and other revenues received from the sale of third party product are recognised when they are earned on receipt of final payment.

No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, associated costs or possible return of goods.

(ii) Client monies received in advance (deferred income)
Client monies received at the balance sheet date relating to holidays commencing and flights departing after the year end is deferred and included within trade and other payables.

(iii) Valuation of revenue
Where the Group acts as principal, revenue is stated at the contractual value of goods and services provided, net of variable distribution costs such as agents' commissions and "click costs".

Where the Group acts as agent and collects amounts on behalf of the principal provider of goods or services, revenue is stated at the value of the commissions earned and not the total transaction sales value.

Where the Group acts as intermediary between the service provider and the end customer, revenue is presented on a net basis as the difference between the sales price to the customer and the cost of the services purchased. Businesses are identified as intermediaries dependent on: the control exercised over the provision of service; inventory risk; and customer credit risk.

(H) Expenses

(i) Operating lease payments
Payments made under operating leases are recognised in the income statement on a straight line basis over the term of the lease or on another systematic basis if this is more representative of the time pattern of the benefit from use of the leased asset. Lease incentives received are recognised in the income statement as an integral part of the total lease expense over the term of the lease.

(ii) Finance lease payments
Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

(iii) Marketing and other direct sales costs
Marketing, advertising and other promotional costs, including those related to the production of brochures, are expensed as incurred.

(I) Taxation

Income tax on profit or loss comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

(i) Current tax
Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

(ii) Deferred tax
Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of goodwill not deductable for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax asset or liability provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(J) Property, plant and equipment

(i) Owned assets
Items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Where significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

(ii) Leased assets
Leases in which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Leased assets acquired by way of a finance lease are stated at an amount equal to the lower of their fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Lease payments are accounted for as set out in (H) above.

(iii) Depreciation
Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Freehold land is not depreciated. The useful economic lives are as follows:

Freehold properties	-	50 years
Short leasehold properties	-	Lease period or useful economic life if shorter
Finance lease aircraft and equipment	-	Lease period or useful economic life if shorter
Aircraft spares	-	12 years
Yachts	-	15 years
Motor boats	-	24 years
Retail computer equipment	-	5 years
Computer equipment	-	3-5 years
Retail fixtures and fittings	-	8 years
Other assets	-	4 years

The residual values and useful lives of all assets are re-assessed annually.

(K) Intangible assets

(i) Owned assets
All business combinations are accounted for by applying the purchase method.

Goodwill represents amounts arising on acquisition of subsidiaries, associates and joint ventures. In respect of business acquisitions that have occurred since 1 November 2004, goodwill represents the difference between the fair value of consideration paid and the fair value of the net identifiable assets and contingent liabilities acquired. Identifiable intangibles are those which can be sold separately or which arise from legal rights regardless of whether those rights are separable. Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is not amortised but is tested annually for impairment. In respect of joint ventures and associates, the carrying amount of goodwill is included in the carrying amount of the investment in the joint venture or associate.

In respect of acquisitions prior to 1 November 2004, goodwill is included at 1 November 2004 on the basis of its deemed cost, which represents the amount recorded under UK GAAP which was broadly comparable save that only separable intangibles were recognised and goodwill was amortised. Amortisation of goodwill ceased on 1 November 2004. This goodwill is tested annually for impairment.

Purchased goodwill in respect of acquisitions before 1 January 1998 was written off to reserves in the year of acquisition, in accordance with the accounting standard then in force.

Fair value adjustments are made in respect of acquisitions. If, at the balance sheet date, the amounts of fair values of the acquiree's identifiable assets and liabilities can only be established provisionally, then these values are used. Any adjustments to these values are taken as adjustments to goodwill and are recorded within 12 months of the acquisition.

Negative goodwill arising on an acquisition is recognised in the income statement.

(ii) Computer software
Computer software consists of all software that is not an integral part of the related computer hardware and is stated at cost less accumulated amortisation and impairment losses.

(iii) Other intangible assets
Other intangible assets that are acquired by the Group are stated at cost less accumulated amortisation and impairment losses.

(iv) Amortisation
Amortisation is charged to the income statement on a straight-line basis over the estimated useful economic life of each type of intangible asset as follows:

Computer software	-	3-5 years
Brands	-	10 years
Order book at date of acquisition	-	When travel occurs
Customer lists	-	Over the period to which value will be obtained by the Group (up to 3 years)

Goodwill is not amortised but is systematically tested for impairment at each balance sheet date.

(L) Investments
Trade investments are classified as available for sale assets and are included under non-current assets. They are recorded at market value with movements in value taken to equity. Any impairment to value is recorded in the income statement.

Short-term investments in debt and equity securities which are held for trading are classified as current assets and are stated at fair value, with any resultant gain or loss recognised in the income statement.

(M) Impairments
The carrying amount of the Group's assets, other than deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such an indication exists, the asset's recoverable amount is estimated. For goodwill, the recoverable amount is estimated at each balance sheet date.

Am impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised separately in the income statement.

Impairment losses recognised in respect of cash generating units are allocated first to reduce the carrying amount of goodwill allocated to cash generating units and then to reduce the carrying amount of other assets in the unit on a pro rata basis. A cash generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

Goodwill was tested for impairment as at 1 November 2004, the date of transition to adopted IFRSs, even though no indication of impairment existed.

The recoverable amount of the Group's receivables which are carried at amortised cost is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets). Receivables with a short duration are not discounted. The recoverable amount of other assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed when there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount.

(N) Cash and cash equivalents
Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose only of the statement of cash flows.

(O) Interest-bearing borrowings
Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any differences between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest rate basis.

(P) Provisions
A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

In respect of aircraft, due to the legal obligations placed upon the Group under the terms of certain operating leases, provision is made for the maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares. The provision is based on total anticipated costs over the useful economic life of the asset calculated by reference to costs experienced and published manufacturers data. The charge to the income statement is calculated by reference to the number of hours flown or by reference to the length of the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised and depreciated over the period until the next scheduled major overhaul.

(Q) Other financial assets and other financial liabilities
Trade and other receivables are stated at their nominal amount (discounted if material) less impairments.

Trade and other payables are stated at cost.

(R) Dividends
Dividend distribution to the Company's shareholders is recognised as a liability in the Group's financial statements in the period in which the dividends are appropriately authorised and approved for payment and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

(S) Employee benefits

(i) Defined contribution plans
Obligations for contributions to defined contribution pension plans are recognised as an expense in the income statement as incurred.

(ii) Defined benefit plans
The Group's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted. The calculation is performed by a qualified actuary using the projected unit credit method.

When the benefits of a plan are improved, the portion of the increased benefit relating to past services by employees is recognised as an expense in the income statement on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the income statement.

All actuarial gains and losses at 1 November 2004, the date of transition to IFRS, were recognised. The Group has early adopted the amendments to IAS19: "Employee Benefits". Consequently, all actuarial gains and losses since 1 November 2004 are recognised in the period they occur directly in equity through the statement of recognised income and expense.

Pension liabilities are funded by monthly or annual contributions.

Accounting policies (continued)

(iii) Share-based payment transactions
The Group's share option programmes allow Group employees to acquire shares of the ultimate parent company; these awards are granted by the ultimate parent. The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employee becomes entitled to the options.

The fair value of the options granted is measured using option valuation models, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense is adjusted to reflect the actual number of share options that vest except where forfeiture is due only to market based performance conditions not achieving the threshold for vesting.

This accounting policy relates only to share options issued after 7 November 2002, in line with the transition rules of IFRS 2.

(iv) Own shares held by an ESOP trust
Transactions of the group sponsored ESOP trust are included in the Group financial statements. In particular, the trust's purchase of shares in the Company are debited directly to equity.

(T) Non-current assets held for sale and discontinued operations
A non-current asset or a group of assets containing a non-current asset is classified as held for sale if its carrying amount will be recovered principally through sale rather than through continuing use or it is available for immediate sale and sale is highly probable within one year.

On initial classification as held for sale, non-current assets and disposal groups are measured at the lower of previous carrying amount and fair value less costs to sell with any adjustments taken to profit or loss. The same applies to gains and losses on subsequent re-measurement.

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations or is a subsidiary acquired exclusively with a view to resale, that has been disposed of, has been abandoned or that meets the criteria to be classified as held for sale.

(U) Related parties
For the purpose of these financial statements, parties are considered to be related to the Group if the Group has the ability directly or indirectly, to control the party or exercise significant influence over the party making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

(V) Segment reporting
A segment is a distinguishable component of the Group that is engaged either in providing services (business segment) or in providing services within a particular economic environment (geographic segment) which is subject to risks and rewards that are different from those of other segments.

Comment regarding press speculation

Back

Following recent press speculation regarding its Mainstream business, the Board of First Choice Holidays PLC confirms that it has been reviewing how it might continue to maximise the potential of this market leading tour operating business. It is considering a range of alternatives in this market and discussions with a number of parties are at a preliminary stage. However, there can be no certainty that any transaction will be forthcoming.

Further announcements will be made as appropriate.

FIRST CHOICE HOLIDAYS PLC

PRE-CLOSE TRADING UPDATE

Prior to entering its close period on 1 November 2006, First Choice Holidays PLC announces the following trading update.

Summary

- Our stated strategy of creating leadership positions through differentiated content, building flexible business models and gaining control of customer relationships continues to deliver strong operational performance and financial growth for the Group.

- A number of our businesses have operated in a market that has proven challenging due to a series of events beyond our control, ranging from the bird flu scares in the Eastern Mediterranean during January to the recent airport security alerts in the UK and terrorist attacks in Turkey. The latter two events led to a slowdown in the rate of sale during the high season, and consequently impacted our expected profitability for the year within the UK for the Mainstream Holidays Sector.

- Despite these events, the Group is on track to deliver strong underlying EBIT growth for the year ending 31 October 2006. We also remain confident of achieving our 5% EBIT margin target in the year ending 31 October 2007.

- We constantly review our participation strategy and how we can remain cost competitive. Consequently, we have decided to scale back, or close, certain smaller businesses in Continental Europe, which had sales in the year ending 31 October 2005 of £36m, and in the UK Mainstream business we have recently agreed to outsource certain back office functions. The likely one-off costs of these actions will be in the range of £4m to £6m, which will be committed prior to this year-end.

- The Group continues to focus on value-creation through a combination of organic and acquisition-led growth. The acquisition pipeline in specialist niche businesses continues to be strong, as we build upon our significant leadership positions in attractive segments of the marketplace.

Current trading

Summer 2006

In the Mainstream Holidays Sector, we have continued to re-mix our product offering away from generic short-haul product by reducing capacity in this segment and concentrating on differentiated product, such as long-haul and Holiday Villages. As a result of this strategy we have outperformed the market for both sales and volumes and achieved a 2% increase in sales revenue on 5% lower capacity for inclusive tour holidays.

Despite a satisfactory top-line performance and a significant reduction in capacity across the Summer season there was a delay in high season bookings due to the World Cup and extremely warm weather in July. This led to weaker selling prices in the market-place from

August, the result of which was that incremental fuel costs of £45m were not fully recovered from the customer in the lates market. This combined with additional costs we incurred in dealing with an unprecedented combination of external events means that margins in Mainstream will be slightly lower than last year for the second half and therefore the year as a whole.

In the Specialist Holidays Sector, our businesses in Continental Europe and the UK have, since the interim results, continued to improve the rate of sale over the profitable Summer trading months with cumulative sales down 6% against 12% in June. Having anticipated a need for reduction in capacity in the shoulder months, our flexible business model enabled us to manage total capacity across the season, in order to be broadly in line with customer demand. As a result of managing capacity and costs appropriately the Specialist Sector has continued to improve margins year-on-year over the second-half.

The Activity Holidays Sector has performed well. Within Marine, the Sunsail and Moorings bareboat yacht charter businesses (First Choice Marine) were flat on turnover but have been making excellent progress with integration and are on track to deliver the anticipated cost synergy benefits of £5m in 2007. Sunsail Clubs suffered from many of the events that impacted the Mainstream business, particularly in Turkey and, as a result, have suffered turnover and margin pressures. In Adventure, demand for adventure holidays continued to grow and this division enjoyed a strong increase in underlying sales of +8% on a like-for-like basis and 32% in total.

Online Destination Services continues to enjoy significant growth and perform well across all its areas of operation, with the increase in the number of partnerships in our B2C brand (Hotelopia) contributing to an excellent performance for the Sector.

		Summer 06	
y-o-y variation %		**Sales**	**Customers**

Notes:

These figures are up to 22 October 2006

1. *These statistics reflect inclusive tour sales only*
2. *During the Summer there is very little trading in Canada and the Student Businesses*
3. *These statistics exclude FY05 and FY06 acquisitions*

Winter 2006/07

In the Mainstream Holidays Sector, the UK market continues to remain challenging, as illustrated by the September AC Nielsen Travel Track report, which identifies total market volumes for the Winter season cumulatively down by 13% and total sales cumulatively down by 10%. As a result of the trading environment, Mainstream Holidays Sector volumes are down 3% but sales are up 14% due to the continued re-mix to the long-haul. Demand for our long-haul products remains strong with volumes up 25% and sales up 39%. The report clearly highlights continuing out-performance by Mainstream versus the competition, but since long-haul holidays tend to book earlier than both short-haul and medium-haul we would expect the overall rate of sale for the Winter season to slow-down over the coming months.

We anticipated that weaker market demand would continue into early Winter trading particularly in the short and medium-haul, and we have, therefore, reduced capacity in these segments by around 10% for Winter 2006/07. Conversely, we are increasing our long-haul programme with four reconfigured 767 aircraft currently operating and a further two joining the fleet towards the end of Winter for Summer 2007. The cost of introducing these two aircraft will be around £6m, which will be incurred during the first half with the benefits arising in the second half and thereafter. In addition, fuel costs will increase by £8m, and as experienced in the Summer, we do not anticipate fully recovering the incremental cost. As a result whilst the Sector, as a whole, is achieving yield increases with average prices per customer up across all destinations, we envisage margin pressure.

In the Specialist Holidays Sector although it is relatively early in the booking cycle for the Winter programme, market conditions remain challenging to a number of destinations. Consequently, capacity in a number of our Continental European Specialist businesses has been reduced by 6% to take account of lower anticipated volumes. Our North American businesses are trading well with revenue per passenger ahead of last year and margins ahead in Student Travel but flat in Canada.

Our Activity Holidays Sector is performing strongly with sales 9% ahead. The like-for-like sales increases across our Adventure businesses is 7%, while the Marine businesses are enjoying strong revenue growth of 14%.

Online Destination Services are trading well with strong volumes and prices across all routes to market.

Total		**+68%**	**+58%**

Notes:

These figures are up to 22 October 2006

1. *These statistics reflect inclusive tour sales only*
2. *These statistics exclude FY06 acquisitions*

Summer 2007

In the Mainstream Holidays Sector, we have reduced capacity in-line with Summer 2006 for short-haul and medium-haul programmes but continued to add capacity into our long-haul offering (up 25%). Overall, capacity for Summer 2007 is currently flat year-on-year. Our long-haul programme and exclusive differentiated properties continue to be attractive to customers and demand remains strong, building on good growth in Summer 2006.

Acquisitions

Our acquisition strategy is to acquire specialist businesses that will allow the Group to build leadership positions in attractive niche segments of the market and reduce volatility in our

business model. During the second half of the year, we have continued to build upon our specialist positions with the acquisition of a number of businesses within the adventure segment and the North American escorted tours market.

In addition, we have made a significant entry into the rapidly growing Asian Pacific market through the acquisition of Pacific World, a leading specialist inbound company with an established presence in seven countries throughout the region. The acquisition pipeline remains strong, as we continue to seek leisure travel companies that have excellent growth characteristics and the ability to generate superior returns for our shareholders.

In the current financial year, we have completed acquisitions to date with a maximum aggregate consideration of £153m of which £133m has been paid (2005: £66m of which £53m was paid during the year). A full list of the acquisitions is attached as an appendix to this statement.

Outlook

Even though it is relatively early for selling Winter 2006/07 and Summer 2007 holidays, it is clear that the market conditions remain challenging. However, the Group's continued strategy and flexible business model will ensure that we are well placed to outperform the market and deliver growth into 2007 and beyond.

Our business model is constantly evolving to ensure that we maintain our flexibility and efficiency whatever the market conditions and that we continue to offer our customers the leisure travel experiences they desire.

Our focus on differentiation and the spread of risk both geographically and through the different product types we offer means that we are constantly reducing dependence on any one area of the business, any one-source market or any one single destination. The acquisition pipeline will ensure that we increase this diversification as we move forward and consequently improve our quality of earnings.

Conference Call

There will be a conference call for analysts this morning at 9am, the call in details are:

Telephone Number: +44 (0)1452 561 394
Conference ID: 9385609

Preliminary Results

First Choice Holidays PLC will announce its preliminary results for the twelve months ending 31 October 2006 on Thursday 7 December 2006.

Acquisition - Asia Pacific

Back

First Choice Holidays PLC has been studying how best to enter the Asia Pacific region, which it believes offers significant growth opportunities. The Group is pleased to announce that Hotelbeds, part of its Online Destination Services Sector ('ODS'), has entered into an agreement to acquire the Pacific World group of companies which has a network of operations in South East Asia and China for a maximum consideration of US$36m (£19.6m). An initial consideration of US$22m (£12m) will be paid at completion.

Asia's tourism industry has now fully recovered following a period of difficult events that affected the region. The World Travel & Tourism Council's research identifies the Asia Pacific region as the second fastest growing outbound market in the world, while China is expected to remain and consolidate its position as the biggest single market for domestic and international tourism in the Asia-Pacific area in the foreseeable future. The long-term growth forecast for the Chinese economy overall is 6.3% p.a. This growth is stimulating both incoming and outgoing tourism. South East Asia is the largest in-bound destination in the Asia-Pacific region and it is estimated by the Pacific Asia Travel Association that domestic and regional travel will grow between 18-20% p.a. over the next 10 years.

Pacific World is the leading specialist inbound company in Asia providing meetings, incentives, conferences and events ('MICE') services to corporate clients, as well as servicing cruiselines and foreign independent travel ('FIT') for tour operators. With an established presence in Hong Kong and the People's Republic of China, Thailand, Singapore, Malaysia, Indonesia, Vietnam and Cambodia, Pacific World operates from 19 offices, and has an excellent reputation in the industry while the experienced local management have developed strong long-term relationships with suppliers and customers.

First Choice believes that the acquisition of Pacific World represents the best way for it to enter this rapidly growing market. It offers an immediate, established presence in the main Asian markets, has sound business disciplines, a history of managed, profitable growth and first-rate management and staff. The companies acquired by Hotelbeds will join the ODS Sector of the Group led by Joan Vila and all key management and the owners will be retained to continue the Company's successful growth.

Pacific World was established in Hong Kong in 1982 by Jacques Arnoux and entered Thailand in 1985. His partner Bob Guy then proceeded to set up the Singapore and Malaysian businesses in 1989. Operations in Indonesia, Vietnam and Cambodia have been established since then. After having a representative office in Beijing since 1982, Pacific World opened a stand-alone Chinese business in Shanghai in 2003.

Pacific World's reputation and strength have been built off a sound base in providing MICE and FIT services at locations throughout its network. The acquisition is consistent with the way ODS and its core business, Hotelbeds, has successfully entered other key strategic markets over the past couple of years. Hotelbeds has taken leading, established offline businesses and introduced them to its source destinations and customers whilst moving the business online. This enables the extension of its online accommodation as well as increasing Hotelbeds international spread and customer and product base. Commenting on the acquisition, Peter Long, Chief Executive, First Choice said:

'As an international leisure travel company, the Asia Pacific region is a key growth area for us and we have been investigating how best to enter it for some considerable time. By acquiring Pacific World, which is already well established and has operations in eight countries, we have achieved a significant foothold in this market through one acquisition. Pacific World is a successful network of businesses that share First Choice's values. It has an excellent reputation, long-term track record and will help us to continue to deliver superior shareholder value.'

Jacques Arnoux, Founder and Managing Director of Pacific World (Northern Region) said:

'This is a great opportunity for us to join a leading international leisure travel PLC. We have developed a successful regional business which we will now be able to leverage in a way that would not have been possible without being part of a larger group. It is very exciting for all of us and we look forward to going from strength to strength.'

'Over more than 20 years, we have built a network of companies that covers all the major travel markets of South East Asia. Hotelbeds acts for more than 1,200 tour operators and travel organisers across the world and being acquired by them represents a tremendous opportunity for us to increase both their and our business. In addition, being able to use ODS's technical capabilities will bring enormous benefit to us.'

Further Strategic US Acquisition

Back

Having identified and actively decided to participate in the student travel and escorted tours markets - niche growth segments in North America - First Choice Holidays PLC is now pleased to announce the acquisition of YMT Vacations ('YMT'). Based in Los Angeles, with sales offices in the US Midwest YMT offers escorted tours and is a specialist in the USA 'boomers to seniors market'. The maximum total consideration for the business is US$49.6m (£27.0m) and the initial consideration is US$44.0m (£24.0m).

YMT, founded in 1967 by Frank J. and Lenore Dupuis, offers its US tours to people in the 55 - 75 year age bracket (' the baby boomers to seniors market'), which is the highest growth demographic of the US population. A flexible business model and low-cost infrastructure have enabled the company to become a leader in this expanding market. A value operator, it offers close to 15 different itineraries throughout the year and expects to take 25,000 customers on vacation in 2006. Targeting the segment of the population with the most flexible travel requirements, but who prefer the security and sense of community offered by escorted group travel, its land and cruise/tour products focus on classic American travel experiences such as - Alaska, Hawaii, the Canadian Rockies, California and the West, the National Parks, New England and the Annual Rose Parade.

YMT fits First Choice's acquisition criteria. It is in a growth segment with a clearly defined, efficient and sustainable business model. It has an excellent reputation for customer service and is a market leader in this segment of the market. The highly respected, tight knit management team, led by President Bill Price, have strongly established relationships with key suppliers stretching back over a number of years.

Distribution of the product is over 95% direct, with customers responding to a targeted advertising strategy and subsequently booking through YMT call centres. The limited number of itineraries offered allow the sales staff to develop not only a high level of product knowledge but they are also able to assist customers in their decision making step by step thereby increasing the conversion of enquirers to bookers.

Commenting, Frank J. Dupuis, Chairman and YMT Founder, said:

'We believe that joining First Choice gives us the opportunity to be part of an international leisure travel company that has shown that it can identify niche growth segments and build significant positions. For us, to be part of a Group like First Choice, is an exciting prospect in terms of growth potential, new areas of activity and a support network for the incumbent operational management team going forward.'

Peter Long, Chief Executive, First Choice commented:

'YMT is a successful business that fits well with our growth criteria and we are delighted that it has agreed to become a part of First Choice. It adds a further offering to our escorted tours segment in North America and brings with it a highly experienced and committed management team. I am sure that YMT will continue to deliver both on performance and the holiday experiences its customers want, whilst leveraging the benefits that will result from it being part of a PLC.'

Disposal Of Encore Cruises To Mytravel Group Plc

Back

First Choice Holidays PLC, announces the agreement to dispose of Encore Cruises, its Canadian distributor of cruise holidays, to MyTravel Group plc for C$3.75m (£1.85m*). Subject to certain closing conditions the disposal will complete on 31 July 2006.

The disposal will allow the Canadian business to now focus entirely on its own tour operations and retail capability. First Choice Canada Inc achieved a record financial performance for the six months ended 30 April 2006, principally from its core tour operating business.

Our marketplace – what's happened in the last 12 months

The First Choice strategy

- Creating leadership positions through differentiated content
- Building flexible business models
- Gaining control of customer relationships
- Building leadership positions in attractive segments

Building leadership positions

Creating leadership positions through differentiated content

- Most exclusive differentiated product for UK mainstream customers
- No 1 destination specialist in France
- World's leading adventure travel provider
- World's leading provider of yachting holidays
- World's leading provider of inland waterways holidays
- Significant position in expedition cruising
- ODS - No 1 destination services business in Europe
- Building leadership positions in North American student travel and expedition tours

Building flexible business models – Mainstream Holidays

KPI	Analysis	2006	2005	2003
Revenue mix (%)	Short-haul	27%	31%	38%
	Medium-haul	48%	53%	46%

	Summer	52%	49%	42%
	Total	54%	51%	45%

First Choice Holidays PLC

Measured by revenue

Building flexible business models – Specialist Holidays

- Diversifying destinations and source markets
  - no single destination now represents more than 20% of revenues (was >30%)
  - 15 source markets, many sharing product
- Flexibility in aircraft and accommodation contracts
  - reverse charter model, all third party, less than 50% contracted
  - less than 50% accommodation committed
- Low cost overhead infrastructure in each business

Gaining control of the customer relationship

Region	Sector/Division	Direct %	Online %
UK	Mainstream	66	31
	Specialist	59	13
	Activity	81	26
Europe	France	17	10
	Germany	8	8
	Nordics	100	30
	Netherlands	68	35
	Rest of Europe	2	2
North America	Canada	5	4

	Marine	80	0
	Rest of North America	55	15

First Choice Holidays PLC

Based on summer 2006 trading (bookings) to date

Building leadership positions in attractive segments through acquisition in fragmented marketplaces

- Adventure
  - 17 acquisitions, largest range of adventure product
  - experiences offered to a range of source markets
  - revenue growth 2003: £26m → 2005: £87m → 2006: £140m +

- Student Travel
  - 64 million students (10-25 years) in market valued at $20bn
  - entry point via spring break holidays; 8 further acquisitions so far
  - revenue growth 2004: £8m → 2005: £22m → 2006: £40m +

- Escorted Tours
  - entered market with Grand Expeditions, and subsequently Intrav

Building leadership positions in attractive segments through consolidation

- First Choice Marine
  - bringing together the world's leading bareboat brands
  - combined business of 1,500 yachts and power boats
  - combined revenues of £75m, EBIT of £4.5m in 2005
  - synergies through joint procurement, sales office, overhead and base rationalization estimated at £5m to 31 October 2007

Building leadership positions in attractive segments through restructuring

- INTRAV
  - broken into 3 distinct businesses
  - coastal shipping business sold
  - expedition cruise shipping integrated with Peregrine
  - "new" INTRAV refocused on premium expeditions
  - infrastructure dismantled with $6m savings in 2005/06

Acquisition strategy – the pipeline is strong

- Continue to build on niche segments:
  - adventure travel
  - North America student travel
  - escorted tours

- Acquisition firepower:
  - 25% on balance sheet gearing is achievable
  - potential new CAA bonding environment

- Continuing to seek new growth markets:
  - South East Asia
  - South America

What does this strategy deliver?

Mainstream

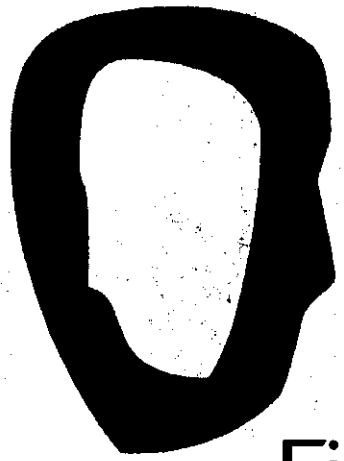
- Revenue growth through remixing to long-haul
- Margin enhancement through remixing and through greater control of distribution

Specialist

- Revenue growth possible in all divisions
- Margin enhancement towards 5%

Activity

- Revenue growth driven by Adventure and Escorted Tours
- Margin enhancement through better asset utilisation and consolidation in Marine



Online Destination Services

- TTV and revenue growth across all online routes to market
- Margin enhancement in 07/08 post ongoing investment in Hotelopia

Investment case

- Clearly defined strategy
- Driving towards 5% operating margins
- Combination of organic and acquisition growth
- Confident about the outlook

Leadership in the travel space that generates leading returns

FIRST CHOICE HOLIDAYS PLC

TRADING UPDATE, STUDENT TRAVEL ACQUISITIONS AND HOTELOPIA STRATEGIC AIRLINE PARTNERSHIPS

Prior to entering its close period on 30 April 2006, First Choice Holidays PLC announces the following trading update.

In the five weeks since the AGM statement on 23 March 2006, Summer trading has progressed as we anticipated, with an improvement in sales in the Mainstream Holidays Sector and increasing evidence of improving sales for the high season in the Specialist Holidays Sector. We are confident that trading across the Group will continue to be in line with our expectations.

In Mainstream, Summer sales have been up 7% over the last five weeks with peak season rates of sale and margins particularly strong. Cumulative sales for the Summer are now 4% up on the same period last year.

In the Specialist Sector, our European businesses Summer sales have been broadly flat over the last five weeks on the same period as last year. In the shoulder period of May and June, when margins are lower, the significant capacity reductions we have implemented have resulted in lower year-on-year comparable sales. In the high season, however, we have continued to see improved rates of sale and margins ahead of last year. Accordingly, the cumulative Summer sales position for Europe remains at 12% down on the same period as last year.

The Activity Holidays Sector and Online Destination Services Sector continue to perform well for the Summer with sales up 5% and 53% respectively.

Notes:

* These statistics reflect inclusive tour sales only from GB up until 22nd April 2006

** According to AC Nielsen Traveltrack data for March 2006, the UK market as a whole for advanced package holiday cumulative bookings for Summer 2006 was down 7.5% with the four major UK tour operators down 4.5%

*** These statistics exclude FY05 and FY06 acquisitions.

Acquisitions integration

Following the acquisition of the Grand Expedition companies in December 2005 and Intrav in January 2006, we remain on track to achieve the synergy and operational efficiency benefits we identified. The management team of First Choice Marine, with its five major brands including Sunsail Yachts and The Moorings, has successfully integrated these businesses and good progress is being made to fully realise £4.5m of synergy benefits in the year to 31 October 2007. Further savings are anticipated in 2008 and 2009. Following the disposal of its two US coastal cruising ships, Intrav is being re-structured to focus on its premium escorted tours and expedition cruise businesses. A significant reduction in Intrav's cost base has already been achieved and the business is well on the way to returning to profitability in 2007.

Student travel acquisitions

The Group has identified the student travel market in North America as a key growth area and has recently completed four acquisitions in the educational group travel sector for a total consideration of £16 million. The businesses provide national curriculum based tours to middle and high school students (11 – 15 year olds) primarily to US destinations.

Educational Tours, based in Chicago, is the second largest educational tours operator in the US and the acquisition has given the Group a significant entry point into this market. School Voyageurs, Educa Tours and Jumpstreet Tours are all Canadian educational tours operators and their acquisition together with Impact Educational Tours, which is already part of the Group, establishes a strong position in this segment of the Canadian market.

Hotelopia new airline partnerships

Hotelopia our b2c accommodation provider has continued to extend its strategic partnerships with airlines. Having originally secured its first contract with easyJet, Hotelopia recently won the contract to be the accommodation provider for Spanair and has now signed two further contracts with bmi and bmibaby. Hotelopia is scheduled to start providing accommodation for the three airlines from May. They have a total customer base of close to 20 million passengers who will be able to book accommodation at more than 20,000 hotels in over 900 destinations through Hotelopia.

Interim results

First Choice Holidays PLC will announce its interim results for the six months ended 30 April 2006 on Tuesday 13 June 2006.

26 April 2006

First Choice Holidays PLC, Online Destination Services Sector

New Airline Partnerships for Hotelopia

Hotelopia, part of the Online Destinations Services Sector of First Choice Holidays PLC, has agreed commercial partnerships to become accommodation providers for bmi and low cost airline bmibaby.

These commercial partnerships to provide hotel services follow the deals in December 2004 for Hotelopia to power easyJet's accommodation component, and the announcement earlier this year regarding Hotelopia's agreement to supply Spanair with an accommodation component as well.

Hotelopia will now supply a total customer base of approximately 50 million through its airlines partners, offering an accommodation booking facility covering more than 20,000 hotels in over 900 destinations.

Sotiris Damianos, Head of Sales & Marketing at Hotelopia said: "We are clearly succeeding in our objective to become the hotel booking website of choice, whether customers choose to book through one of our partner sites, or directly on the Hotelopia website."

Furthermore, according to commissioned research carried out by SKOPOS*, Hotelopia has beaten leading European hotel booking providers to become the top choice in terms of ease of booking, achieving a favourable scoring from 77% of the audience while top leading European travel brands combined achieved a total positive score of 44% from the same audience.

The results illustrated that a third of those surveyed were more satisfied with the simplicity offered by Hotelopia's search and booking process compared to other competitors' websites and that 83% of those who had booked on Hotelopia intended to revisit the website.

Sotiris added: "Our access to a network of offices around the world clearly enables us to deliver a superior offering to our customers and partners. This, combined with a focus on simplicity in our site architecture for ease of use and a commitment to offering customers lower prices, has set a new performance benchmark for the traditional big travel brands."

These new airline partnerships are scheduled start from May 2006.

bmi and bmibaby

In 2005 the bmi group, as a whole carried 10.5 million passengers.

bmi is the second largest airline at London Heathrow, one of the world's best connected airports. It operates nearly 1,700 flights a week across the UK, Europe and long haul to the USA, Caribbean, India and Saudi Arabia.

bmibaby, the award winning airline with tiny fares, was established in January 2002, and is now one of the UK's fastest growing low cost airlines operating more than 850 flights every week from five bases to 18 destinations across the UK and Europe.

Hotelopia

Hotelopia offers reduced-rate accommodation to both business and leisure travellers at over 20,000 properties, budget to five star, in over 900 destinations throughout Europe, North America, Latin America, the Caribbean and Asia.

Profit for the financial period	**80.3**	**56.0**
Ordinary dividend for the period	29.5	34.6
Earnings per share[1]		
- Basic	13.5p	8.8p
- Diluted	13.2p	8.7p
Non GAAP measures		
Reconciliation of headline profit before interest to headline earnings		
Headline profit before interest and tax[2]	**120.2**	**118.4**
Net financing expense	(5.2)	(4.4)
Headline profit before tax[3]	**115.0**	**114.0**
Taxation (Group and share of joint ventures and associates)	(32.8)	(33.1)
Minority interests[4]	(0.2)	(0.2)
Preference dividends[4]	(10.0)	(10.0)
Headline earnings	**72.0**	**70.7**
Headline earnings per share		
- Basic	13.9p	13.6p
- Diluted	13.6p	13.4p

1 Earnings per share is calculated as profit attributable to equity shareholders in the parent company divided by the weighted average number of ordinary shares in the year ended at 31 October 2005.

2 Headline profit/loss before interest and tax is defined as profit/loss before interest, taxation (Group and share of joint ventures and associates), exceptional items and amortisation of intangible assets acquired in business combinations.

3 Headline profit/loss before tax is defined as profit/loss before taxation (Group and share of joint ventures and associates), exceptional items and amortisation of intangible assets acquired in business combinations.

4 Under IFRS these items are recognised directly in equity as opposed to the income statement.

* Amended 21 April 2006

13. ACCOUNTING POLICIES USED IN PREPARATION OF THE IFRS FINANCIAL INFORMATION FOR THE YEAR ENDED 31 OCTOBER 2005

First Choice Holidays PLC is a company incorporated in the UK. The consolidated financial information of the Company presented in the accompanying press release comprise the Company and its subsidiaries (together referred to as the "Group") and the Group's interest in associates and jointly controlled entities.

Basis of preparation
The International Financial Reporting Standards ("IFRS") financial information has been prepared in accordance with the IFRSs as adopted by the EU ("Adopted IFRSs").

EU law (IAS Regulation EC 1606/2002) requires that the next annual consolidated financial statements of the company, for the year ending 31 October 2006, be prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the EU ("Adopted IFRSs").

This financial information has been prepared on the basis of the recognition and measurement requirements of IFRSs in issue that either are endorsed by the EU and effective (or available for early adoption) at 31 October 2006 or are expected to be endorsed and effective (or available for early adoption) at 31 October 2006, the Group's first annual reporting date at which it is required to use adopted IFRSs. Based on these adopted and unadopted IFRSs, the directors have made assumptions about the accounting policies expected to be applied, as set out below, when the first annual IFRS financial statements are prepared for the year ending 31 October 2006.

In particular, the directors have assumed that the following IFRSs issued by the International Accounting Standards Board and IFRIC interpretations issued by the International Financial Reporting Interpretations Committee will be adopted by the EU in sufficient time that they will be available for use in the annual IFRS financial statements for the year ending 31 October 2006:

- IFRS 7 – Financial Instruments : Disclosures.
- Amendments to IAS 32 and 39 and IFRS 4..

In addition, the adopted IFRSs that will be effective (or available for early adoption) in the annual financial statements for the year ending 31 October 2006 are still subject to change and to additional interpretations and therefore cannot be determined with certainty. Accordingly, the accounting policies for that annual period will be determined finally only when the annual financial statements are prepared for the year ending 31 October 2006.

1.Transition to Adopted IFRSs

The Group is preparing its financial information in accordance with Adopted IFRS for the first time and consequently has applied IFRS 1, "First-time adoption of International Financial Reporting Standards".

The Group has ensured that the re-stated IFRS financial information for the year to 31 October 2005 has been prepared under IFRS guidelines and includes the following:

- Recognition of all assets and liabilities whose recognition is required by IFRSs;
- Non-recognition of any items as assets and liabilities if IFRSs do not permit such recognition;
- Re-classification of items that have been recognised under UK GAAP as one type of asset, liability or component of equity, but are a different type of asset, liability or component of equity under IFRSs; and
- Application of all IFRSs in measuring all recognised assets and liabilities.

In addition to exempting companies from the requirement to re-state comparatives for IAS 32 and 39, IFRS 1 grants certain exemptions from the full requirements of IFRSs in the transition period. The following exemptions have been taken in this financial information:

1.1 Business combinations

The Group has the option to apply IFRS 3 "Business Combinations" fully retrospectively, re-stating previous business combinations to comply with this standard. The Group has elected not to apply this option and will instead apply IFRS 3 only to business combinations completed on or after 1 November 2004, the Group's date of transition to IFRS. Therefore, the goodwill balance held in the Group balance sheet at 1 November 2004 (£376.4m) will remain as stated under UK GAAP.

1.2 Fair value or re-valuation as deemed cost

IAS 16, "Property, Plant and Equipment", requires that purchased items of capital expenditure be recognised at cost on initial recognition, where cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of acquisition.

IFRS allows for the Group to measure items at fair value on the date of transition to IFRS and use this fair value as deemed cost of each asset rather than at historical cost. The Group will not apply this re-measurement and hence the recorded cost of all property, plant and equipment will be as stated under UK GAAP.

1.3 Foreign exchange

IFRS 1 offers the option to apply IAS 21, "The Effects of Changes in Foreign Exchange Rates", retrospectively to fair value adjustments and goodwill arising on business combinations that occurred prior to 1 November 2004, the transition date. The Group has decided not to take this option. Goodwill and fair value adjustments will therefore be treated as assets and liabilities of the acquiring entity as opposed to being assets and liabilities of the acquired entity which will then be re-translated at each reporting date. The assets and liabilities will either be expressed in the acquiring entity's functional currency or, where they are non-monetary foreign currency items, will be reported using the exchange rate applied historically under UK GAAP.

IFRS 1 also offers an opportunity for first time adopters to deem cumulative translation differences of all foreign operations to be zero at the date of transition. The Group has decided to apply this exemption, so that future gains or losses arising on disposal of any foreign operation will exclude translation differences that arose before the date of transition to IFRSs.

The Group is not applying IAS 32 and 39 until 1 November 2005 (see below). Accordingly, the Group's UK GAAP accounting policy for such items has been followed in preparing the Group's financial information for the year ended 31 October 2005 under UK GAAP and IFRS.

1.4 Financial Instruments

IAS 32, "Financial Instruments: Disclosure and Presentation", and IAS 39,"Financial Instruments: Recognition and Measurement", specify that all derivative financial instruments be carried on the balance sheet at fair value. These financial instruments will be marked to market at each reporting date and movements in the fair value taken through the income statement unless strict requirements relating to hedge accounting are met. The Group has taken advantage of the exemption permitted by IFRS 1 and not re-stated comparatives for IAS 32 and 39.

1.5 Share based payment transactions

IFRS 2, "Share-based payment" requires an entity to recognise all share-based payment transactions within its financial statements, covering transactions with employees or other parties to be settled in cash, other assets or equity instruments of the entity. The Group operates a number of share option schemes. The charge for these schemes is based upon the fair value of the transaction at the date that it is granted, and is recognised over the vesting period of the various schemes. The Group will be using binomial and simulation based models to determine the fair value of such schemes.

IFRS 1 gives the opportunity to recognise this expense only on schemes that have been issued since 7 November 2002 as opposed to being recognised on all schemes. The Group will use this exemption.

1.6 Other IFRS 1 options

A review has been made of all other optional treatments for transition to IFRS that are set out in IFRS 1. There are no other optional treatments that are applicable to the Group.

2. Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial information from the date that control commences until the date that control ceases.

(ii) Associates

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. The consolidated financial information includes the Group's share of the total recognised income and expense of associates on an equity accounted basis, from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds the carrying amount of the associate, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

(iii) Jointly controlled entities

Joint controlled entities are those entities over whose activities the Group has joint control, established by contractual agreement. The consolidated financial information includes the Group's share of the total recognised assets, liabilities, income and expenses of jointly controlled entities on an equity accounted basis from the date that joint control commences until the date that joint control ceases. When the Group's share of losses exceeds the carrying amount of the jointly controlled entity, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred obligations in respect of the jointly controlled entity.

(iv) Transactions eliminated on consolidation

Intragroup balances and any unrealised gains or income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial information. Unrealised gains arising from transactions with associates and jointly controlled entities are eliminated to the extent of the Group's

interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

3. Other accounting policies

(a) Foreign Currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction or where forward cover has been arranged, at the contractual rate. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to GBP Sterling at the foreign exchange rate ruling at that date or at a contractual rate if applicable. Foreign exchange differences arising on translation are recognised in the income statement.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to GBP Sterling at foreign exchange rates ruling at the dates the fair values were determined.

Please note that this accounting policy will change once IAS 32 and 39 are adopted in full from 1 November 2005 (See section 1.4).

The Group has taken advantage of relief available in IFRS 1 to deem the cumulative translation differences for all foreign operations to be zero at the 1 November 2004, the date of transition to IFRS.

(ii) Financial statements of foreign operations

The assets and liabilities of foreign operations are translated to GBP Sterling at the foreign exchange rates ruling at the balance sheet date.

The results of overseas operations are translated at weighted average exchange rates for the year, which are considered to approximate to the exchange rates ruling at the dates of the transactions. Foreign exchange differences arising on retranslation are recognised directly in a separate component of equity.

(iii) Net investment in foreign operations

Exchange differences arising from the translation of the net investment in foreign operations, are taken to the translation reserve. They are released into the income statement upon disposal.

(b) Derivative Financial Instruments

The Group uses derivative financial instruments to hedge its exposure to foreign exchange, interest rate and fuel price risks arising from operational, financing and investment activities.

The following financial instruments may be utilised by the Group: foreign exchange forward contracts and swaps, foreign exchange options, interest rate swaps, forward rate agreements, interest rate options, energy swaps and energy options. The instruments are used to manage Group exposures to fluctuations in foreign currency exchange rates, interest rates and fuel prices.

In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for trading purposes.

Derivative financial instruments held by the Group will be brought onto the Group's balance sheet from 1 November 2005 (See section 1.4).

(c) Revenue

Revenue represents the aggregate amount of revenue from inclusive tours, travel agency commission received and other services supplied to customers in the ordinary course of business. Revenue excludes intragroup transactions and is stated after the deduction of trade discounts and commissions.

(i) Goods sold and services rendered

Revenue from sale of goods is recognised in the income statement when the significant risks and rewards of ownership have been transferred to the buyer. Revenue in respect of in-house product is recognised on the date of departure. Travel agency commissions and other revenues received from the sale of third party product are recognised on receipt of final payment.

No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, associated costs or possible return of goods.

(ii) Government grants

An unconditional government grant is recognised in the income statement as other operating income when the grant becomes receivable.

Any other government grant is recognised in the balance sheet initially as deferred income when there is reasonable assurance that it will be received and that the Group will comply with the conditions attached to it. The grant is recognised in the income statement when conditions attached to the grant have been met.

Grants that compensate the Group for expenses incurred are recognised as revenue in the income statement on a systematic basis in the same periods in which the expenses are incurred.

(iii) Client monies received in advance

Client monies received at the balance sheet date relating to holidays commencing and flights departing after the year end is included within trade and other payables.

(iv) Interest income

Interest income is recognised in the income statement using the effective interest rate method.

(d) Expenses

(i) Operating lease payments

Payments made under operating leases are recognised in the income statement on a straight line basis over the term of the lease or on another systematic basis if this is more representative of the time pattern of the benefit from use of the leased asset. Lease incentives received are recognised in the income statement as an integral part of the total lease expense over the term of the lease.

(ii) Finance lease payments

Assets arising under finance leases and hire purchase contracts are capitalised and a corresponding liability recorded in interest bearing liabilities, representing the present value of minimum lease payments. Where an option price exists, the corresponding liability includes the option purchase price as though it were a lease payment and the option exercise is taken as the most beneficial to the Group.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. The interest expense component of finance lease payments is recognised in the income statement using the effective interest rate method.

(iii) Marketing and other direct sales costs

Marketing, advertising and other promotional costs, including those related to the production of brochures, are expensed as incurred along with all direct costs relating to the sale of holidays.

(iv) Current tax

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

(v) Deferred tax

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax asset provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Additional income taxes that arise from distribution of dividends are recognised at the same time as the liability to pay the related dividend.

(e) Property, Plant and Equipment

(i) Owned assets

Items of property, plant and equipment are stated at cost less accumulated depreciation (see below) and impairment losses (see accounting policy k).

Where significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

(ii) Leased assets

Leases in which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Leased assets acquired by way of a finance lease are stated at an amount equal to the

lower of their fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation (see below) and impairment losses (see accounting policy k).

Lease payments are accounted for as described in accounting policy note d

(iii) Subsequent expenditure

The Group recognises in the carrying amount of an item of property, plant and equipment the cost of replacing part of such an item when that cost is incurred if it is probable that the future economic benefit embodied with the item will flow to the Group and the cost of the item can be measured reliably. All other expenditure is recognised in the income statement as an expense as incurred.

(iv) Depreciation

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Freehold land is not depreciated. The useful economic lives are as follows:

Freehold properties	-	50 years
Short leasehold properties	-	Lease period
Finance lease aircraft and equipment	-	Lease period
Aircraft spares	-	12 years
Yachts	-	15 years
Motor boats	-	25 years
Retail computer equipment	-	5 years
Computer equipment	-	3-5 years
Retail fixtures and fittings	-	8 years
Other assets	-	4 years

The residual values and useful lives of all assets are re-assessed annually.

(v) Profit and loss on disposal of property, plant and equipment

Profits and losses on the disposal of property, plant and equipment are charged to the income statement as generated / incurred.

(f) Intangible assets

(i) Goodwill
Subject to the transitional relief of IFRS 1, all business combinations are accounted for by applying the purchase method.

Goodwill represents amounts arising on acquisition of subsidiaries, associates, joint ventures and business operations.

In respect of acquisitions prior to 1 November 2004, goodwill is included on the basis of deemed cost, which represents the amount recorded under previous GAAP. The classification and accounting treatment of business combinations that occurred prior to 1 November 2004 has not been reconsidered in preparing the Group's opening IFRS balance sheet at that date (see section 1.1).

In respect of business combinations that have occurred since 1 November 2004, goodwill represents the difference between the cost of acquisition and the fair value of the net identifiable assets acquired. Identifiable intangible assets are those which can be sold separately or which arise from legal rights regardless of whether the rights are separable.

Goodwill is stated at cost less accumulated impairment losses. Goodwill is allocated to cash generating units and is not amortised but is tested annually for impairment. In respect of associates and jointly controlled entities, the carrying amount of goodwill is included in the carrying amount of the investment.

(ii) Computer software

Computer software consists of all software that is not an integral part of the related computer hardware and is stated at cost less accumulated amortisation (see below) and impairment losses (see accounting policy k).

(iii) Other intangible assets

Other intangible assets that are acquired by the Group are stated at cost less accumulated amortisation (see below) and impairment losses (see accounting policy k).

(iv) Subsequent expenditure

Subsequent expenditure on capitalised intangible assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

(v) Amortisation

Amortisation is charged to the income statement on a straight line basis over the estimated useful economic life of each type of asset as follows:

Computer software	-	3-5 years
Brands	-	10 years
Order book at date of acquisition	-	When travel occurs
Customer lists	-	Over the period to which value will be obtained by the Group

(g) Investments

Investments in debt and equity securities are classified as current assets and are stated at fair value, with any resultant gain or loss recognised in the income statement.

(h) Calculation of recoverable amount

The recoverable amount of the Group's receivables is calculated at present value of the expected future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets). Receivables with a short duration are not discounted.

The recoverable amount of other assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

(i) Trade and other receivables

Trade and other receivables are stated at their nominal amount less impairment losses (see accounting policy note k).

(j) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose only of the statement of cash flows.

(k) Impairments

The carrying amount of the Group's assets, other than deferred tax assets (see accounting policy d), are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such an indication exists, the asset's recoverable amount is estimated. For goodwill, the recoverable amount is estimated annually.

An impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the income statement.

Impairment losses recognised in respect of cash generating units are allocated first to reduce the carrying amount of goodwill allocated to cash generating units and then to reduce the carrying amount of other assets in the unit on a pro rata basis. A cash generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

Goodwill was tested for impairment as at 1 November 2004, the date of transition to adopted IFRSs, even though no indication of impairment existed.

(l) Share Capital

(i) Preference share capital
In the period to 31 October 2005, preference share capital is presented within total equity. This treatment is consistent with the previous GAAP accounting policy. The preference share capital was re-deemed in the year.

(ii) Dividends
Dividends on redeemable preference shares are recognised as a liability on an accruals basis. Other dividends are recognised as a liability in the period in which they are declared.

(m) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any differences between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest rate basis.

(n) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are recognised as an expense in the income statement as incurred.

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted.

The calculation is performed by a qualified actuary using the projected unit credit method.
When the benefits of a plan are improved, the portion of the increased benefit relating to past services by employees is recognised as an expense in the income statement on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the income statement.

All actuarial gains and losses at 1 November 2004, the date of transition to IFRS, were recognised. All actuarial gains and losses since 1 November 2004 are recognised in the period they occur directly in equity through the statement of recognised income and expense.

Pension liabilities are funded by monthly or annual contributions.

(iii) Share-based payment transactions

The Group has two schemes in operation at 1 November 2004, the Senior Executive Plan and the Restricted Share Plan.

The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employee becomes entitled to the options.

Where the scheme has an Earnings Per Share (EPS) performance criteria, the fair value of the options granted is measured using a binomial model, taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense reflects the actual number of share options that will vest.

Where the scheme has a Total Shareholder Return (TSR) performance criteria, the fair value of the options granted is measured using a simulation model, again taking into account the terms and conditions upon which the options were granted. The amount recognised as an expense reflects the actual number of share options that vest except where forfeiture is only due to performance criteria not having been achieved.

This accounting policy relates only to schemes issued post 7 November 2002, in line with the optional treatment granted by IFRS 1 (see section 1.5).

(o) Provisions

A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

In respect of aircraft, provision is made for maintenance, overhaul and repair costs of operating leased airframes, engines and rotable spares based on total anticipated costs over the useful economic life of the asset calculated by reference to costs experienced and published manufacturers data. The charge to the income statement is calculated by reference to the number of hours flown or by reference to the length of

the full overhaul cycle. Costs incurred are charged against the provision. Neither the timing nor the value of the expenditure can be precisely determined but they can be averaged over time and over a fleet.

The cost of major overhauls of owned airframes, engines and rotable spares is capitalised and depreciated over the period until the next scheduled major overhaul.

(p) Trade and other payables

Trade and other payables are stated at cost.

(q) Non-current assets held for sale

A non-current asset or a group of assets containing a non-current asset is classified as held for sale if its carrying amount will be recovered principally through sale rather than through continuing use, it is available for immediate sale and sale is highly probable within one year.

On initial classification as held for sale, non-current assets and disposal groups are measured at the lower of previous carrying amount and fair value less costs to sell with any adjustments taken to profit or loss. The same applies to gains and losses on subsequent re-measurement. In accordance with IFRS 5, the above policy is effective from 1 November 2004.

(r) Own shares held by an ESOP trust

Transactions of the group sponsored ESOP trust are included in the Group financial statements. In particular, the trust's purchase of shares in the Company are debited directly to equity.

14. Special Purpose Audit Report of KPMG Audit Plc to First Choice Holidays PLC ('the Company') on its Preliminary International Financial Reporting Standards ("IFRS") financial information – Comparative Full Year

In accordance with the terms of our engagement letter dated 22 March 2006, we have audited the accompanying consolidated preliminary IFRS balance sheet of First Choice Holidays PLC ("the Company") as at 31 October 2005, and the related consolidated statements of income and cash flows for the year then ended and the related accounting policy notes ("the preliminary IFRS financial information").

Respective responsibilities of directors and KPMG Audit Plc

The directors of the Company have accepted responsibility for the preparation of the preliminary IFRS financial information which have been prepared as part of the Company's conversion to IFRS. Our responsibilities, as independent auditors, are established in the United Kingdom by the Auditing Practices Board, our profession's ethical guidance and the terms of our engagement.

Under the terms of engagement we are required to report to you our opinion as to whether the preliminary IFRS financial information has been properly prepared, in all material respects, in accordance with the accounting policies note to the preliminary IFRS financial information. We also report to you if, in our opinion, we have not received all the information and explanations we require for our audit.

We read the other information accompanying the preliminary IFRS financial information and consider whether it is consistent with the preliminary IFRS financial information. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the preliminary IFRS financial information.

Our report has been prepared for the Company solely in connection with the Company's conversion to IFRS.

Our report was designed to meet the agreed requirements of the Company determined by the Company's needs at the time. Our report should not therefore be regarded as suitable to be used or relied on by any party wishing to acquire rights against us other than the Company for any purpose or in any context. Any party other than the Company who chooses to rely on our report (or any part of it) will do so at its own risk. To the fullest extent permitted by law, KPMG Audit Plc will accept no responsibility or liability in respect of our report to any other party.

Basis of audit opinion

We conducted our audit having regard to Auditing Standards issued by the UK Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the preliminary IFRS financial information. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the preliminary IFRS financial information, and of whether the accounting policies are appropriate to the Group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the preliminary IFRS financial information is free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the preliminary IFRS financial information.

Emphasis of matters

Without qualifying our opinion, we draw your attention to the following matters:

- The accounting policies note to the preliminary IFRS financial information explains why the accompanying preliminary IFRS financial information may require adjustment before their inclusion as comparative information in the FRS financial statements for the year ending 31 October 2006 when the Company prepares its first IFRS financial statements.
- As described in the accounting policies note to the preliminary IFRS financial statements, as part of its conversion to IFRSs, the Company has prepared the preliminary IFRS financial information for the year ended 31 October 2005 to establish the financial position, results of operations and cash flows of the Company necessary to provide the comparative financial information expected to be included in the Company's first complete set of IFRS financial statements for the year ending 31 October 2006. The preliminary IFRS financial statements do not themselves include comparative financial information for the prior period.
- As explained in the accounting policies note, in accordance with IFRS 1 *First-time Adoption of International Financial Reporting Standards*, no adjustments have been made for any changes in estimates made at the time of approval of the UK Generally Accepted Accounting Practices financial statements on which the preliminary IFRS financial statements are based.
- As permitted by IFRS 1, IAS 32 *Financial Instruments: Disclosure and Presentation* and IAS 39 *Financial Instruments: Recognition and Measurement* have not yet been applied and there has been no related restatement of the 31 October 2005 balance sheet. Any adjustments that arise from the application of those standards will be shown as an equity movement on 1 November 2005.

Opinion

In our opinion, the accompanying preliminary IFRS financial information for the year ended 31 October 2005 have been prepared, in all material respects, in accordance with the basis set out in the accounting policies note, which describes how IFRS have been applied under IFRS 1, including the assumptions made by the directors of the Company about the standards and interpretations expected to be effective, and the policies expected to be adopted, when they prepare the first complete set of consolidated IFRS financial statements of the Company for the year ending 31 October 2006.

22 March 2006

15. Special Purpose Review Report of KPMG Audit Plc to First Choice Holidays PLC ('the Company') on its Preliminary International Financial Reporting Standards ("IFRS") Financial Information – Comparative Interim

In accordance with the terms of our engagement letter dated 22 March 2006, we have reviewed the accompanying consolidated preliminary IFRS balance sheet of the Company as at 30 April 2005, and the related consolidated statements of income, and cash flows for the six month period then ended and the related accounting policy notes ("the preliminary IFRS interim financial information").

Respective responsibilities of directors and KPMG Audit Plc

The directors of the Company have accepted responsibility for the preparation of the preliminary IFRS interim financial information which has been prepared as part of the Company's conversion to IFRS.

Our responsibilities under the terms of engagement are to report to you our review conclusion as to whether we are aware of any material modifications that should be made to the preliminary IFRS interim financial information which has been prepared, in all material respects, in accordance with the accounting policies note to the preliminary IFRS interim financial information.

We read the other information accompanying the preliminary IFRS interim financial information and consider whether it is consistent with the preliminary IFRS interim financial information. We consider the implications for our review conclusion if we become aware of any apparent misstatements or material inconsistencies with the preliminary IFRS interim financial information.

Our report has been prepared for the Company solely in connection with the Company's conversion to IFRS.

Our report was designed to meet the agreed requirements of the Company determined by the Company's needs at the time. Our report should not therefore be regarded as suitable to be used or relied on by any party wishing to acquire rights against us other than the Company for any purpose or in any context. Any party other than the Company who chooses to rely on our report (or any part of it) will do so at its own risk. To the fullest extent permitted by law, KPMG Audit Plc will accept no responsibility or liability in respect of our report to any other party.

Basis of review conclusion

We conducted our review having regard to Bulletin 1999/4: *Review of interim financial information* issued by the UK Auditing Practices Board. A review consists principally of making enquiries of group management and applying analytical procedures to the preliminary IFRS interim financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review is substantially less in scope than an audit performed in accordance with Auditing Standards and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the preliminary IFRS interim financial information.

Emphasis of matters

Without qualifying our review conclusion, we draw your attention to the following matters:

- The accounting policies note to the preliminary IFRS interim financial information explains why the accompanying preliminary IFRS interim financial information may require adjustment before its inclusion as comparative information in the Company's interim report for the six month period ending 30 April 2006 when the Company prepares its first interim report applying IFRS.
- As described in the accounting policies note to the preliminary IFRS interim financial information, as part of its conversion to IFRS, the Company has prepared the preliminary IFRS interim financial information for the six month period ended 30 April 2005 to establish the financial position, results of operations and cash flows of the Company necessary to provide the comparative financial information expected to be included in the Company's first interim report for the six month period

ending 30 April 2006. The preliminary IFRS interim financial information does not itself include comparative financial information for the prior period.

- As explained in the accounting policies note, in accordance with IFRS 1 *First-time Adoption of International Financial Reporting Standards*, no adjustments have been made for any changes in estimates made at the time of approval of the previous UK Generally Accepted Accounting Practices interim report for the six month period ended 30 April 2005 on which the preliminary IFRS interim financial information is based.
- As permitted by IFRS 1, IAS 32 *Financial Instruments: Disclosure and Presentation* and IAS 39 *Financial Instruments: Recognition and Measurement* have not yet been applied, and there has been no related restatement of the 30 April 2005 balance sheet. Any adjustments that arise from the application of those standards will be shown as an equity movement on 1 November 2005.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the preliminary IFRS interim financial information as presented for the six month period ended 30 April 2005 which has been prepared, in all material respects, in accordance with the basis set out in the accounting policies note, which describes how IFRS have been applied under IFRS 1, including the assumptions made by the directors of the Company about the standards and interpretations expected to be effective, and the policies expected to be adopted, when they prepare the first complete set of consolidated IFRS financial statements of the Company for the year ending 31 October 2006.

23 MARCH 2006

FIRST CHOICE HOLIDAYS PLC
IFRS UPDATE

First Choice Holidays PLC ("the Group") today provides a further update in relation to the transition of the Group to International Financial Reporting Standards ("IFRS").

On 26 October 2005, the Group issued a press release summarising the initial impact of transition to IFRS (as adopted by the EU). This provided an analysis of the impact on the opening Group balance sheet at 1 November 2004 and an initial quantification of the range of profit impacts on the financial statements for the comparative year ending 31 October 2005.

The key points of today's update are as follows:

- Opening balance sheet net assets at 1 November 2004 have reduced by £61.3m from £487.1m under UK GAAP to £425.8m under IFRS.
- Headline profit before interest and tax[1] for the year ended 31 October 2005 has increased by £1.8m from £118.4m under UK GAAP to £120.2m under IFRS.
- Headline profit before tax for the year[2] ended 31 October 2005 has increased by £1.0m from £114.0m under UK GAAP to £115.0m under IFRS.
- Profit before tax for the year to 31 October 2005 has increased by £23.1m from £89.1m under UK GAAP to £112.2m under IFRS.
- Headline loss before interest and tax[1] for the six months ended 30 April 2005 has increased by £32.5m from £33.0m under UK GAAP to £65.5m under IFRS.
- The implementation of IAS 32 and 39 relating to financial instruments on 1 November 2005 will increase net assets by £8.9m.

A copy of the reconciliations between UK GAAP and IFRS of the relevant income statements, balance sheets and cash flow statements at 1 November 2004, 30 April 2005 and 31 October 2005, along with the significant accounting policies that First Choice has adopted in preparing the IFRS comparative information, can be found on the First Choice Holidays PLC website www.firstchoiceholidaysplc.com. Reconciliations between UK GAAP and IFRS of income statement key indicators and net assets at these dates can be found in section 1 of this press release.

As stated in our press release of 26 October 2005, whilst IFRS results in certain changes to our financial reporting it has no impact on the underlying value drivers of our business. Our strategy, accordingly, is totally unaffected by these changes. The transition to IFRS will not change how the Group is managed and significantly will have no impact on cash generation which remains a key performance measure. It will also not affect the way that the Group assesses potential investments nor the ability of the Group to pay dividends from cash reserves.

1 Headline profit/loss before interest and tax is defined as profit/loss before interest, taxation (Group and share of joint ventures and associates), exceptional items and amortisation of intangible assets acquired in business combinations.
2 Headline profit/loss before tax is defined as profit/loss before taxation (Group and share of joint ventures and associates), exceptional items and amortisation of intangible assets acquired in business combinations.

A conference call for analysts on the impact of IFRS for the Group will be held at 9am, 23 March 2006.

UK Local call dial in number: 0845 140 0173
Standard international dial in number: +44 (0) 1452 568 060

Andy Jones, Director Strategy, Planning & Financial Control — Tel: +44 1293 588058

Background

Today's IFRS statement follows on from the earlier statement issued on 26 October 2005 and covers the following areas:

Section	Content
1	Provision and explanation of IFRS comparative balances at 30 April 2005. This includes restatement of the balance sheet at 30 April 2005, the income statement and cash flow statement for the six months ended 30 April 2005. Provision and explanation of IFRS comparative balances at 31 October 2005. This includes restatement of the balance sheet at 31 October 2005, the income statement and cash flow statement for the year ended 31 October 2005.
2	Update of the impact of IFRS at the date of transition, 1 November 2004.
3	Provision and explanation of the IFRS balance sheet at 1 November 2005, taking into account adjustments made to the IFRS balance sheet following from the implementation of the requirements of IAS 32/39 regarding financial instruments on that date.

1. IFRS COMPARATIVE FINANCIAL INFORMATION FOR THE 6 MONTHS ENDED 30 APRIL 2005 AND THE YEAR ENDED 31 OCTOBER 2005

For the year ended 31 October 2005, headline profit before interest and tax[1] is £120.2m under IFRS compared to £118.4m under UK GAAP, an increase of £1.8m. Headline profit before tax[2] is £115.0m under IFRS compared to £114.0m under UK GAAP, an increase of £1.0m.

Reconciliation between UK GAAP and IFRS of key income statement indicators

Note	Figures in £m	31 Oct 2005 Headline PBIT[1]	31 Oct 2005 Headline PBT[2]	30 April 2005 Headline LBIT[1]	30 April 2005 Headline LBT[2]
	UK GAAP	**118.4**	**114.0**	**(33.0)**	**(34.1)**
1.1	Pensions accounting	0.6	0.6	0.3	0.3
1.2	Holiday pay accrual	-	-	1.0	1.0
1.3	Cost recognition	(0.4)	(0.4)	(34.5)	(34.5)
1.5	Share based payments	0.8	0.8	0.4	0.4
1.14	Pension interest re-classification	0.8	-	0.4	-
	Other adjustments	-	-	(0.1)	(0.1)
	As adjusted under IFRS	**120.2**	**115.0**	**(65.5)**	**(67.0)**
	Change	**1.8**	**1.0**	**(32.5)**	**(32.9)**

For the year ended 31 October 2005, net assets have been reduced by £33.6m to £268.7m compared to £302.3m under UK GAAP. For the six months ended 30 April 2005, net assets have been reduced by £80.8m to £353.5m compared to £434.3m under UK GAAP.

Reconciliation between UK GAAP and IFRS of balance sheet net assets

Note	Figures in £m	Net assets at 31 October 2005	Net assets at 30 April 2005	Net assets at 31 October 2004
	UK GAAP	**302.3**	**434.3**	**487.1**
1.1	Pensions accounting	(38.2)	(30.5)	(30.8)
1.2	Holiday pay accrual	(4.0)	(3.0)	(4.0)
1.3	Cost recognition	(70.3)	(104.4)	(69.9)
1.4	Dividends	24.5	10.1	19.4
1.5	Share based payments	5.2	3.5	1.8
1.6	Lease incentives	(2.9)	(2.9)	(2.8)

1.8	Goodwill amortisation	24.9	11.8	-
1.9	IFRS 3 intangible amortisation	(1.9)	-	-
	Other adjustments	(4.1)	(2.6)	(2.7)
	As adjusted under IFRS	**268.7**	**353.5**	**425.8**
	Change	**(33.6)**	**(80.8)**	**(61.3)**

1 Headline profit/loss before interest and tax is defined as profit/loss before interest, taxation (Group and share of joint ventures and associates), exceptional items and amortisation of intangible assets acquired in business combinations.
2 Headline profit/loss before tax is defined as profit/loss before taxation (Group and share of joint ventures and associates), exceptional items and amortisation of intangible assets acquired in business combinations.

1.1) IAS 19 - Employee Benefits (Pensions)

IAS 19, "Employee Benefits", requires that the present value of the liability for the Group's defined benefit pension schemes be carried on the balance sheet, net of the current market value of the scheme assets. Under FRS 17, "Retirement Benefits", the Group has disclosed carrying values for the pension scheme liabilities that give an indication of the impact that will occur under IFRS. As at 31 October 2005 the total deficit under FRS 17 was £32.8m (Note 5; Annual Report & Accounts 2005).

A valuation in accordance with IAS 19 has been performed at 31 October 2005 on the Group's defined benefit pension schemes. This valued the deficit as £34.2m (31 October 2004: £32.7m). Accordingly, this deficit has been recognised in the IFRS balance sheet at 31 October 2005. Under UK GAAP an asset balance of £4.0m had been held, so the overall reduction in the value of net assets amounts to £38.2m. Partly offsetting this reduction is the separate recognition of an associated deferred tax asset of £10.2m. The net impact on the Group's balance sheet is therefore to reduce net assets by £28.0m (31 October 2004: £21.0m).

Bringing the surplus / deficit of defined benefit pension schemes on to the balance sheet may cause some volatility in net assets year-on-year, due to the requirement to mark to market the value of scheme assets and reassess the scheme liabilities on an actuarial basis. Given the nature of the surplus / deficit, the impact of this is difficult to forecast accurately. However, carrying the pension deficit on the balance sheet means that it will no longer be required to be expensed through the income statement each year, as was the case under UK GAAP. This has increased profits under IFRS compared to UK GAAP by £0.6m in financial year 2005, which has been recorded in the income statement on a straight line basis.

Previously it had been stated that the Group expected this change in accounting policy would increase profits by approximately £2m per annum. This expectation has now been revised in view of a change in actuarial assumptions in the calculation of scheme liabilities. Further changes to actuarial assumptions in the future may erode the benefits in the income statement in the year to 31 October 2006 under IFRS.

1.2) IAS 19 - Employee Benefits (Holiday Pay)

In addition to the accounting changes for the pension scheme deficit, IAS 19 provides guidance on short-term employee benefits such as wages and salaries and compensated absences, with a requirement that the Group accrue for unused annual leave entitlements at each reporting date. An exercise across the Group has determined that the additional accrual for holiday pay required at 31 October 2005 is £4.0m (31 October 2004: £4.0m). The full year impact of this in the income statement is £nil.

A similar exercise determined that the required holiday pay accrual at 30 April 2005 was £3.0m. Accordingly, losses before tax under IFRS have been decreased by £1.0m in the first half of the year. There is an equal and opposite impact in the second half of the year with second half profits before tax being decreased by £1.0m.

1.3) IAS 2 / IAS 38 – Marketing and other direct costs of providing holidays

IFRS contains more specific guidance than UK GAAP on the circumstances in which marketing and other direct costs of providing holidays may be deferred and matched against associated revenue. For example, IAS 38, "Intangible Assets", requires that all expenditure on advertising and promotional activities should be written off as incurred. IAS 2, "Inventory", allows labour and other costs of personnel directly engaged in providing holiday services (including supervisory personnel and attributable overheads) to be deferred; it does not allow labour and other costs related to sales to be deferred.

Under UK GAAP, the Group's policy has been to charge brochure, other marketing costs and other sales related costs to the income statement in the season to which they relate. These costs will be charged to the income statement as incurred under IFRS. The impact of these changes is to reduce net assets by £70.3m at 31 October 2005 (31 October 2004: £69.9m).

This adjustment will have no impact on the timing of the cash flows for the Group. There was a small increase in the level of costs deferred at 31 October 2005 in comparison to 31 October 2004, reducing profit before tax under IFRS by £0.4m. A significant proportion of this increase was attributable to new entities acquired during the year.

It should be noted that this change in accounting treatment under IFRS does have an impact on First Choice's first half / second half profitability split. First half losses before tax under IFRS are increased by £34.5m compared to UK GAAP as expenditure previously charged in the second half of the financial year is now being charged in the first half. Similarly, second half profit before tax is increased by £34.1m.

1.4) IAS 10 – Events after the Balance Sheet Date

IAS 10, "Events after the Balance Sheet Date", specifically excludes the recognition as liabilities of dividends that have not been authorised. As a result, final dividends payable are recognised only in the period in which they are approved in the Annual General Meeting and therefore become a liability. Interim dividends are recognised in the period in which they are declared. The impact of this is detailed in the table below.

Dividend payment	**When recognised under UK GAAP**	**When recognised under IFRS**
FY 2004 Final dividend £19.4m (Note 8; Annual Report & Accounts 2004)	Second half 2004	First half 2005
FY 2005 Interim dividend £10.1m (Note 5; Interim Report 2005)	First half 2005	Second half 2005
FY 2005 Final dividend £24.5 m (Note 8; Annual Report & Accounts 2005)	Second half 2005	First half 2006

The payment of dividends is no longer charged through the income statement but instead charged through reserves. Therefore the amendment to the timing of recognition will have no income statement impact.

This change will also have no effect on the timing and future payment of the Group's dividends.

1.5) IFRS 2 – Share-based payments

The Group operates a number of share schemes, as described in the annual report for the year to 31 October 2005.

Under UK GAAP, costs were included within the financial statements for such schemes as required by UITFs 17 and 38 (Note 6; Annual Report & Accounts 2005). IFRS 2, "Share based payment", requires that the annual charge for such equity settled schemes be based on the fair value to the employee of share scheme options granted. In line with these requirements, schemes with an Earnings Per Share ("EPS") performance condition have been valued using a binomial valuation model. The fair value of options under schemes with a Total Shareholder Return ("TSR") performance condition have been valued using a simulation based valuation model.

Both the binomial and simulation models take into account factors such as dividend yield, interest rates and share price volatility over the vesting period of the share schemes. The fair value of the options which is charged to the income statement is therefore expected to be lower than the charge to the income statement under UK GAAP, which is based upon the full share price of the options at the date at which they are granted.

Accordingly, there is a £0.8m increase in profit before tax as compared to UK GAAP in the year ended 31 October 2005. This benefit has been recorded in the income statement on a straight line basis through the year, decreasing first half losses by £0.4m and increasing second half profits by £0.4m.

Under IFRS, creditors for shares to be issued under share schemes are held within reserves, as opposed to within trade payables under UK GAAP. Consequently, a creditor of £5.2m recognised under UK GAAP has been transferred to reserves at 31 October 2005 (2004: £1.8m).

The IFRS 2 charge is dependent upon the fair value of options at the grant date. Given the current increased share price of the Group in comparison to the prior year, it is expected that the fair value of future share option grants will be higher than for grants prior to 31 October 2005.

1.6) SIC 15 - Lease Incentives

Under UK GAAP, lease incentives are currently recognised over the period to the first market rent review. This is particularly common on retail properties where the landlord incentivises First Choice to enter into a standard fifteen year lease with a first market rent review typically after five years. IFRS (SIC 15) requires that lease incentives be spread over the entire lease term.

As a result of this change, the Group's IFRS balance sheet at 30 April 2005 and 31 October 2005 includes additional deferred income of £2.9m (31 October 2004: £2.8m). Profit before tax under IFRS has been decreased by £0.1m in the year to 31 October 2005 in comparison to UK GAAP.

1.7) IAS 12 – Income Taxes

Under IAS 12, "Income Taxes", the Group is required to calculate deferred taxation on temporary differences, using a balance sheet liability method, whereas UK GAAP required provision to be made only for taxable timing differences arising between accounting profit and loss and taxable profit recognition.

The impact on the IFRS balance sheet of IAS 12 at 31 October 2005 is as follows:

	Deferred tax assets £m	Deferred tax liabilities £m	Total £m
Deferred tax recognised under UK GAAP (Note 19; Annual Report & Accounts 2005)	**11.1**	**(18.3)**	**(7.2)**
New deferred tax items created by transition on:			
Share options in line with IFRS 2	2.8	-	2.8
Marketing and other direct costs of providing holidays in line with IAS 2 / IAS 38	21.2	-	21.2
Spreading of lease incentives under SIC - 15	0.8	-	0.8
Recognition of the pension scheme deficit	10.2	-	10.2
Spreading of special pension contributions	1.6	-	1.6
Unremitted earnings	-	(2.3)	(2.3)
Adjustments to fair value of fixed assets acquired in business combinations and in consolidation adjustments	-	(3.0)	(3.0)
Other deferred tax assets / (liabilities)	2.1	(0.2)	1.9
Deferred tax recognised under IFRS	**49.8**	**(23.8)**	**26.0**
Variance	**38.7**	**(5.5)**	**33.2**

The effective tax rate for the year to 31 October 2005 under IFRS is 29%. At present it is expected that the transition to IFRS will have no significant impact on the Group's effective tax rate going forward.

1.8) IAS 38 Goodwill amortisation

IAS 38, "Intangible Assets", requires that goodwill is no longer amortised through the Group income statement. Instead, goodwill held in the Group balance sheet is subject to an impairment test at the date of transition and then annually thereafter. Any impairment to the goodwill value is taken through the income statement in the period in which it occurs.

Under UK GAAP, goodwill amortisation of £11.8m was charged through the income statement in the period to 30 April 2005 (Note 6; Interim Report 2005) and £24.9m was charged in the full year (Note 6; Annual Report & Accounts 2005). No such charges are made in the income statement under IFRS in financial year 2005, therefore increasing profit before tax by these amounts in the respective accounting periods.

1.9) IFRS 3 – Intangibles acquired during business combinations

IFRS 3, "Business Combinations", requires that consideration paid in excess of the value of assets acquired be held in the balance sheet. As opposed to this balance all being deemed to be goodwill as was the case under UK GAAP, assets that meet the definition of an intangible asset (i.e. assets that are 'identifiable non-monetary assets without physical substance') must be identified, recognised separately from goodwill and amortised over the period to which benefits from such assets relate.

In line with IFRS 1, "First time adoption", the Group has decided not to restate, for the requirements of IFRS 3, business combinations and goodwill that arose prior to its date of transition to IFRS on 1 November 2004.

A review of material acquisitions made by the Group since 1 November 2004 for items that meet the definition of an intangible asset to be recognised under IFRS 3 has identified the following:

Intangible Asset	Value under UK GAAP	Value re-stated under IFRS	Amortisation in 2005	Amortisation basis
Goodwill	£68.9m	£60.9m	-	Not amortised
Brands	-	£3.8m	£0.1m	10 years
Customer lists	-	£1.7m	£0.3m	3 years
Order book at acquisition	-	£2.6m	£1.5m	Period to departure
Total	**£68.9m**	**£68.9m**	**£1.9m**	-

Although a number of intangible assets have been identified, the amortisation charge for these assets that has been recognised on acquisitions made during the year is not considered to be significant, being just 1.7% of headline profit before tax (£1.9m / £115.0m). The annualised amortisation charge on these assets will be around £2.4m, approximately 2.1% of the 2005 headline profit before tax (£2.4m / £115.0m). This is significantly lower than the amortisation on goodwill that was previously charged under UK GAAP of £24.9m (Note 6; Annual Report & Accounts 2005), which was 21.8% of headline profit before tax (£24.9m / £114.0m).

Whilst the Group believes that the valuation and subsequent amortisation of intangible assets will not have a sizable impact on the income statement, the annual amortisation charge going forward is extremely difficult to forecast accurately. The valuation of brand names of travel companies, whilst not considered to be a significant proportion of the value of the majority of travel businesses, will vary in value from entity to entity, as will the value of customer listings. The valuation of the order book at acquisition date will also be dependent on the travel season in which acquisition occurs, and no accurate expectation of the quantum of any intangible asset can be made until acquisition contracts become finalised.

1.10) IFRS 5 - Assets Held For Sale

IFRS 5, "Non-current Assets Held for Sale and Discontinued Operations", requires that non-current assets meeting the following four criteria should be classified as assets held for sale:

- There is a firm commitment to sell the asset.
- The asset is being actively marketed.
- The asset is available for immediate sale.
- There is an expectation that the sale will occur within 1 year.

The standard is applicable for accounting periods beginning on or after 1 January 2005. The Group has decided to early adopt the requirements of this standard from 1 November 2004, the date of transition to IFRS.

Assets affected by this across the Group are boats, yachts, properties and fonds de commerce (leases held over the operation of properties in France). Accordingly, re-classifications of £5.6m at 30 April 2005 and £9.0m at 31 October 2005 (31 October 2004: £2.1m) have been made in the IFRS balance sheet from property, plant and equipment to current assets. These assets are stated at the lower of book value and fair value less costs to sell.

Under IFRS 5, depreciation of these assets ceases from the date at which assets are deemed to be held for sale. This has improved the Group's underlying profit by £0.2m in the year ending 31 October 2005, with a £0.1m improvement in both the first half and second half of the year.

1.11) IAS 38 – Intangible Assets

Under IAS 38, "Intangible Assets", computer software that is 'not an integral part of the related hardware' should be separated out from other computer software and classed as an intangible asset. This is a change from the current approach under UK GAAP where all computer software is classed as a tangible fixed asset. A review has been performed to assess the impact of this across the Group and the relevant reclassifications of £11.6m and £13.0m from property, plant and equipment to intangible assets have been made in the IFRS balance sheet at 30 April and 31 October 2005 respectively (31 October 2004: £10.4m).

In the income statement, amortisation is now charged on computer software under IFRS as opposed to depreciation under UK GAAP. This will have no impact on profit before tax for the Group.

1.12) IAS 17 – Leases

Finance lease obligations due in less than one year of £19.4m at 30 April 2005 and £16.4m at 31 October 2005 (Note 17; Annual Report & Accounts 2005) have been re-classified from trade and other payables under UK GAAP to current interest bearing liabilities under IFRS.

Finance lease obligations due in greater than one year of £3.8m at 30 April 2005 and £2.5m at 31 October 2005 (Note 18; Annual Report & Accounts 2005) have been re-classified from creditors due in greater than one year under UK GAAP to non-current interest bearing liabilities under IFRS.

1.13) IAS 1 - Assets due to be received / liabilities due to be paid in greater than one year

The Group has previously classified accommodation prepayments paid more than one year in advance as current debtors. IAS 1, "Presentation of Financial Statements", states four criteria by reference to which an item may be classified as a current asset. Having reviewed these criteria, such prepayments are more appropriately classified as non-current assets.

Accordingly, £52.5m and £52.3m have been re-classified as non-current assets at 30 April and 31 October 2005 respectively (31 October 2004: £38.7m).

The Group has also previously disclosed all aircraft maintenance provisions as being non-current liabilities. Again having reviewed the criteria of IAS 1, it is more appropriate to classify some of these provisions as current liabilities.

Accordingly, £18.4m and £21.3m have been re-classified as current liabilities at 30 April and 31 October 2005 respectively (31 October 2004: £14.8m).

1.14) IAS 19 – Employee Benefits (Disclosure of cost of employee pension schemes)

Previously, under UK GAAP, all pension costs have been charged as cost of sales through the Group income statement. This is in accordance with the requirements of SSAP 24.

Utilising an option given in IAS 19, in order to give the most beneficial information to users of the financial statements, the Group has disclosed the interest cost on defined benefit pension schemes (defined by IAS 19 as 'the increase during a period in the present value of a defined benefit obligation') as an interest expense. The return on plan assets of defined benefit pension schemes attained during the financial year has also been re-classified as interest income.

Accordingly, the following adjustments have been made to the Group income statement:

- For the six months to 30 April 2005, the return on plan assets during the period of £1.5m and the interest cost on defined benefit pension obligations of £1.9m have been re-classified as interest income and expense respectively.

- For the year ended 31 October 2005, the return on plan assets during the year of £3.0m and the interest cost on defined benefit pension obligations of £3.8m have been re-classified as interest income and expense respectively.

2. IMPACT OF IFRS AT 1 NOVEMBER 2004

The Group has calculated that at the date of transition to IFRS, 1 November 2004, net assets were reduced by £61.3m (12.6%). The most significant changes to the balance sheet values are:

- An increase in net assets of £19.4m as the 2004 final dividend had not been approved at the date of transition, 1 November 2004, and therefore will not be included in the balance sheet as a creditor at that date.

- A reduction of net assets by £30.8m for bringing the deficit on defined benefit pension schemes onto the balance sheet.

- A reduction in net assets of £69.9 million in respect of the timing of recognition of costs associated with the provision of holidays (including brochure costs) that were recognised under UK GAAP when the associated revenue was accounted for, but which must be expensed as incurred under IFRS.

- An increase in net assets of £27.7m due to the implementation of IAS 12, "Income Taxes", and the tax effect of adjustments to the balance sheet.

The reduction in net assets of £61.3m has increased by £5.3m from the £56.0m reduction as set out in the Group's previous IFRS press release of 26 October 2005.

The updated IFRS Group balance sheet at the date of transition, 1 November 2004, can be found on the First Choice Holidays PLC website www.firstchoiceholidaysplc.com.

3. IFRS BALANCE SHEET AT 1 NOVEMBER 2005 AS RE-STATED FOR THE REQUIREMENTS OF IAS 32 AND IAS 39

The Group is required to implement IAS 32, "Financial Instruments: Disclosure and Presentation", and IAS 39, "Financial Instruments: Recognition and Measurement" at 1 November 2005. The introduction of these standards will not change the Group's hedging strategy.

The balance sheet at 1 November 2005 has been re-stated to incorporate the requirements of these IFRS. Two significant adjustments have been made which are summarised below:

3.1) Fair valuation of derivative financial instruments

IAS 32 and IAS 39 require that all derivative financial instruments are carried on the balance sheet at fair value. These financial instruments are be marked to market at each reporting date with movements in fair value taken through the income statement unless strict requirements relating to hedge accounting are met. Processes and controls are already in place throughout the Group to ensure that the detailed requirements of these standards are adhered to.

At 1 November 2005, the impact of these changes on the IFRS Group balance sheet is as follows:

- Fair value of derivative financial assets now recognised on the balance sheet is £23.0m.
- Fair value of derivative financial liabilities now recognised on the balance sheet is £18.9m.
- Unrealised fair value gains included within the hedging reserve are £4.1m (Note 22; 2005 Annual Report & Accounts).

3.2) Valuation of monetary items at a spot exchange rate

IAS 32 and IAS 39 require that monetary items (e.g. cash, debtors, accounts payable) that are denominated in a currency other than an individual entities reporting currency should be translated at the spot rate at the balance sheet date.

Many businesses within the Group already translate at the closing spot exchange rate at each reporting date. Re-translation of such items is however required in some business units where assets and liabilities have previously been translated at the contracted rate, in accordance with UK GAAP. The impact of this change is to increase net assets by £8.7m at 1 November 2005.

The impact of these two adjustments is to increase net assets by £12.8m. An associated deferred tax liability of £3.9m is also recognised, giving an increase to net assets of £8.9m.

A full reconciliation showing the impact of these adjustments on the IFRS Group balance sheet at 1 November 2005 can be found on the First Choice Holidays PLC website www.firstchoiceholidaysplc.com.

23 March 2006

FIRST CHOICE HOLIDAYS PLC
AGM STATEMENT

At the Annual General Meeting to be held in London today, the Chairman, Sir Michael Hodgkinson, will make the following trading update:

Trading update

I am pleased to announce that trading for the 2005/06 financial year is progressing in line with our expectations against a background in which certain segments of the marketplace are experiencing tougher trading conditions. Our unique business model allows us to align capacity to match profitable demand, while managing our cost base.

Mainstream Holidays Sector

Our Mainstream Holidays Sector is performing well and the re-mixing of its business model into differentiated medium and long-haul holidays continues to progress to plan.

Winter 05/06

For the Winter season, revenues are 6% higher than last year reflecting stronger pricing and the impact of re-mixing the business. Capacity has been reduced by 8% year-on-year with a 15% cut in short and medium-haul destinations. Margin performance, after absorbing increased fuel costs, is in line with our expectations. This has been driven by increasing the proportion of Winter holidays sold via our own controlled distribution channels, particularly online, by 9 percentage points to 57%. For the remainder of the Winter season, we have a similar number of holidays left to sell as at the same point last year.

Summer 06

For Summer 2006, revenues are 3% higher than last year again reflecting stronger pricing and the remixing of the business. This good performance in the early part of the key booking season was achieved despite a number of negative external factors, including the outbreak of bird flu in Turkey, which impacted demand in January. Over the last four weeks revenues have been tracking in line with last year. We have reduced our capacity for the Summer by 5% year-on-year and bookings for inclusive tour packages are currently tracking 5% down. The capacity reductions have been focused on the low season (May and June). Margins are in line with our expectations and ahead of last year, having absorbed incremental fuel costs. Our control of distribution is even greater for the Summer with 68% of our package holiday bookings to date being made through our own channels, an increase of 8 percentage points year on year. For the remainder of the Summer season, we have less holidays to sell than at the same time last year.

Specialist Holidays Sector

Winter 05/06

Our North American business has had a strong Winter (the peak season for this business) with revenues up 4% on flat bookings. Our flexibility means that we have been able to move capacity away from the hurricane hit area of Cancun and offer our customers increased capacity in unaffected areas.

Turkey and Egypt are amongst the key destination markets for many of our European Specialist businesses. Since the terrorist bombings last Summer, we have been reducing low season capacity in these markets and offering holidays to alternative destinations in anticipation of tougher trading conditions. Overall, capacity in this division for Winter has been reduced by 20% while revenues are down 9% on reduced bookings of 16%.

Summer 06

The Summer season in Europe has been on sale since the beginning of the calendar year and as we anticipated has started slowly. Accordingly, we have cut capacity to appropriate levels to match expected profitable demand. To date revenues are down 11% with bookings down 14%.

The European business model has a highly variable cost base and so revenue shortfalls have a minimal effect on margin. Margins, are strong in many of the key destination markets for the Summer (Morocco, Greece, Egypt) and overall margins in the Specialist Holidays Sector are currently in line with our expectations.

Activity Holidays Sector

Our Activity Sector is performing well for both Winter and Summer with revenues across all the divisions ahead of the previous year by 12% for Winter and 8% for Summer on a like-for-like basis and margins in line with our expectations.

Online Destination Services

Volumes and prices in all routes to market in our Online Destination Services Sector are strong for both Winter and Summer. We are pleased to announce that Hotelopia, our B2C accommodation provider, has recently won the contract to provide online accommodation services for Spanair that is scheduled to commence in the Summer.

Current Trading

Total	**+77**	**+73**	**+47**	**+62**

Notes:

* These statistics reflect inclusive tour sales only from GB up until 19th March.

** According to AC Nielsen Traveltrack data for February 2006, the UK market as a whole for advanced package holiday cumulative bookings for Summer 2006 was down 7.6% with the four major UK tour operators down 4.4%.

*** These statistics exclude FY05 and FY06 acquisitions.

The integration and restructuring actions we are taking in the US businesses acquired in December 2005 and January 2006 are progressing well.

A further trading statement will be made to the market on Wednesday 26th April 2006, prior to entering our pre-close period.

Conclusion

We remain confident that our business model will allow us to continue to make progress this year towards our 5% operating margin target and are satisfied with the progress we have made so far in 2005/06. The introduction of our new long-haul service in the Mainstream Holidays Sector is proving very popular with our customers and we have a strong pipeline of acquisition opportunities in niche growth segments of the travel market that we are actively pursuing.

Sir Michael Hodgkinson

23 March 2006

FIRST CHOICE HOLIDAYS PLC

NON-EXECUTIVE DIRECTOR

At the AGM held in London this morning, the Chairman, Sir Michael Hodgkinson made the following statement about the Board's Senior Independent Director, Tony Campbell:

Although Tony Campbell, our Senior Independent Director, is not required to be re-elected at this meeting, it is right that I should draw attention to the fact that he will have completed nine years' service on the Board on 1 April 2006. At that point the Combined Code on Corporate Governance will oblige the Board to state its reasons for continuing to regard Mr Campbell as independent in the execution of his duties as a Non-Executive Director. The Board is pleased that Mr Campbell has indicated that, at the Board's request, he is prepared to serve for a further period of approximately one year to maintain an appropriate level of experience of the Company's affairs in a Board which has been substantially refreshed during the last 18 months by the appointment of four new Non-Executive Directors. His contribution to strategic debate and his wide experience of the retail sector and other leisure activities is of particular value to the Board.

18 January 2006

FIRST CHOICE HOLIDAYS PLC (FIRST CHOICE)

COMPLETION OF ACQUISITION OF INTRAV, INC. (INTRAV) FROM KUONI HOLDING DELAWARE, INC.

First Choice has completed the acquisition of INTRAV from Kuoni Holding Delaware, Inc. for a total consideration of £36m (US$63.5m). INTRAV is a US based leisure travel group specialising in small ship adventure travel, European river cruises, private jet expeditions and premium escorted tours worldwide.

As part of the acquisition, First Choice acquired four ships, two high specification expedition cruise ships and two coastal cruising ships and in its announcement on 8 December 2005 First Choice stated that it was in discussion to sell the two US coastal cruising ships. The Group is pleased to announce that it has also completed the sale of the two coastal cruising ships to Cruise West, a US family owned small-ship cruise line for £9.5m ($16.5m). This gives a net consideration, therefore, of £26.6m ($47m).

The two ships that First Choice is retaining have a market value of £17m ($30m) and generated revenues of £13.8m ($24.3m) in the twelve months to 31 December 2005. The INTRAV, premium escorted tours business, including European river cruises and private jet expeditions generated revenues of £15.9m ($28.1m).

Commenting on the completion of the acquisition, Peter Long, Chief Executive said:
"I am delighted that we have completed the acquisition. Having acquired the Grand Expeditions group of companies in December, the premium escorted tours business of INTRAV fits perfectly within this portfolio and will benefit from being a part of it. The expedition cruise market is also a key growth area for us and we will now be able to maximise the opportunities that these high specification expedition cruise ships provide us with."

APPENDIX A1: PRESS RELEASES

TUI AG

http://www.tui-group.com/en/pressemedien/press_releases/2007/20071114_investigation_frenzel.html

Statement on discontinuation of investigation proceedings by Düsseldorf department of public prosecution

Hanover, November 14, 2007

The investigation proceedings initiated by Düsseldorf department of public prosecution against, among others, Dr Michael Frenzel and Rainer Feuerhake almost five years ago in connection with the insolvency of Babcock Borsig AG and the sale of the share in HDW has now been dismissed against Dr Frenzel subject to the payment of a sum of money pursuant to the relevant German legislation (Section 153 a stop). The outcome of the proceedings against Mr. Feuerhake is still undecided.

Discontinuation of the investigation proceedings does not involve any determination of guilt whatsoever. Dr Michael Frenzel has – on request of the Executive Committee of the Supervisory Board – agreed to the solution proposed by the prosecutor in order to put an end to the prolonged investigation proceedings, which have also placed a strain on TUI AG.

Supervisory Board passes resolution on Executive Board personnel matters

Hannover, November 8, 2007

TUI AG's Supervisory Board has, at its meeting today, extended the contract of Dr Michael Frenzel (60) until 31 March 2012. The contracts of Chief Financial Officer Rainer Feuerhake (63) and Executive Board Member for Human Resources and Legal Affairs Dr Peter Engelen (51) were also renewed, until 31 March 2011 and 31 August 2013 respectively. In addition, Horst Baier (51) was appointed a full member of the Executive Board with immediate effect. His contract runs until 8 November 2010. Mr Baier is responsible for the Controlling division, which was headed by Christoph R. Mueller until the beginning of September.

Peter Long (55) will in future be the sole representative of the Tourism division on the TUI Executive Board. Peter Rothwell has stood down from the Executive Board with immediate effect. The Supervisory Board thanked Mr Rothwell, who will in the future be focusing on his responsibilities with TUI Travel PLC, for his services.

http://www.tui-group.com/en/pressemedien/press_releases/2007/20071108_third_quarter.html

Operational earnings in the third quarter up by around 45 per cent / Earnings well up in the Tourism division / Shipping results reveal turnaround / Considerable rise in total earnings 2007 expected

Hanover, November 8, 2007

In the third quarter of the 2007 financial year, TUI AG made considerable gains in its operational business and was able to increase its underlying combined divisional earnings (underlying EBITA) to 830 million euros, up 44.9 per cent on the same quarter the previous year. Growth was also achieved during the period January to September. The company's cumulative, underlying combined divisional earnings to the end of September were up 3.4 per cent at 622 million euros. All of the Group's divisions (Tourism, Shipping and Central Services) improved their earnings in the third quarter. In the third quarter of 2007, consolidated Group profits rose by 53.3 per cent to 459.7 million euros. Even after nine months, Group profits were still well up.

Cumulative consolidated earnings to the end of September were 421.7 million euros, equivalent to an increase of 70 per cent. In the third quarter, undiluted earnings per share rose by 57.8 per cent to 1.72euros. After nine months, undiluted earnings per share reached 1.43 euros (+72.3 per cent). TUI AG also saw growth in turnover. In the third quarter, combined divisional turnover totalled 7.4 billion euros, 9.8 per cent up year-on-year for the quarter. As at the end of September, TUI AG had achieved year-on-year turnover growth of 2.8 per cent. At the end of the first nine months of the 2007 financial year, net debt totalled 3.0 billion euros (having been 3.2 billion euros at the end of 2006).

"All things considered, our Tourism division had a strong third quarter and we have managed to bottom out in Shipping," said TUI's Chief Executive Officer Dr Michael Frenzel. He went on: "The greater earnings from our Shipping division are partly the result of an increase in efficiency achieved by the takeover of CP Ships." In view of the fact that the two operational divisions, Tourism and Shipping, performed well – as expected – in the third quarter of 2007, the Executive Board is optimistic about the year as a whole. Overall, the tourism operations are expected to match underlying earnings of 2006 (2006: 401 million euros). It is to be assumed that no additional positive profit contribution will be generated in the period from September to December taking into account of the profit contribution of First Choice due to seasonal reasons. A marked year-on-year increase in earnings from Shipping is expected. On present trends, Central Operations will achieve year-on-year growth, taking into account of the current positive effects of the valuation of foreign currency transactions. As with the expected growth in the operational divisions, it is assumed that there will also be a substantial year-on-year rise in consolidated Group earnings.

Detailed look at the Tourism division

Tourism showed a good performance in the third quarter, which is traditionally the most important. Turnover was, at 5.8 billion euros, up 12.2 per cent year-on-year. The third quarter saw First Choice being fully consolidated for the first time – in September – and contributing 500 million euros to tourism turnover. Adjusted for the portion of turnover attributable to First Choice, turnover from tourism rose by 2.6 per cent in the third quarter. As at the end of September,

mark was up by 2.5 per cent year-on-year.

Adjusted for extraordinary items totalling 50 million euros, tourism underlying earnings for the third quarter rose by 14.6 per cent to 681 million euros (underlying EBITA). The marked improvement in earnings is chiefly attributable to the recovery seen in the French market, higher hotel earnings, and – despite difficult market conditions – a substantial contribution to operational earnings by the British market. If First Choice's contribution to earnings for September – an item which was of course absent from the previous year's results – is stripped out, the third quarter of 2007 also showed a marked increase (8.8 per cent) in underlying earnings. Underlying earnings for the first nine months fell by 4.0 per cent to 502 million euros. Earnings for the first nine months of 2007 were 10,7 per cent down on figures for the equivalent period the previous year if First Choice's contribution to earnings is stripped out.

Detailed look at the Shipping division

Owing to considerable growth in container-shipping volumes transported, and to the recovery seen in freight rates, turnover from the Shipping division rose by 6.3 per cent to 1.6 billion euros in the third quarter of 2007, despite the persistently weak US dollar. The period January to September saw turnover down to 4.6 billion euros, a decline of 2.3 per cent. Container shipping, which enjoyed growth of 5.5 per cent in the third quarter but whose nine-month figures showed a 2.8 per cent decline, accounted for the largest portion of turnover from this division. Hapag-Lloyd Cruises succeeded in increasing turnover by 40.6 per cent during the third quarter of 2007, and by 13.1 per cent for the first nine months.

Overall, underlying earnings (underlying EBITA) from the Shipping division in the third quarter of 2007 were, at 115 million euros, well up on the equivalent figures from the previous year (9 million euros). Despite the weak first half of the year, the underlying nine-month earnings were up 14.3 per cent to 88 million euros. This enabled the substantially better third quarter of 2007 to fully offset the difficult first half-year, with its market-related problems.

The Hapag-Lloyd container line achieved volume growth of 12.4 per cent in the third quarter. Cumulative gains in transported volume for the first nine months stood at 9.9 per cent. Average freight rates in the third quarter are well up, and for the first time this year the rate level was back above that for the equivalent period in the previous year. During the period January to September, the freight rates were, however, still 4.2 per cent behind year-on-year, whereas the rate level is continuing to improve in the current year.

Detailed look at Central Operations

Turnover in Central Services fell markedly both in the third quarter of 2007 and for the nine months ending 30 September (-95.7 per cent and -88.2 per cent respectively). The main reason for this is that turnover generated by the sale of TUI's stake in Wolf GmbH in October 2006 was of course absent from the 2007 figures. In the 2007 financial year, the TUI Group has no more operations to be discontinued (as defined by the IFRS). The underlying earnings (underlying EBITA) from Central Services rose year-on-year by 64 million euros to 34 million euros in the third quarter of 2007. This increase in earnings was mainly driven by the positive earnings from the valuation of foreign exchange transactions to hedge future cash flows. In the first nine months there was also an increase in adjusted earnings, which were up 61 million euros to 32 million euros.

summer season with year-on-year increases of four and six per cent for booked turnover and customer numbers respectively. Bookings for the winter season 2007/2008 that began on 1 November have started well. Booked turnover, including bookings in First Choice's mainstream activities, is currently eight per cent up year-on-year, with customer numbers six per cent higher.

TUI Travel PLC

Trading Update

TUI Travel PLC is pleased to provide an update on current trading and outlook. This announcement also contains the financial information for TUI Travel PLC which has today been disclosed as part of the TUI AG 3rd quarter results.

Summer 2007

Since the trading update announced on 26 September the Summer 2007 season has traded out well and as a consequence, the TUI Travel PLC Board is satisfied that both the First Choice and TUI Tourism businesses will meet their expectations in respect of their 2007 financial year ends.

Current Trading

For Winter 2007/08 and Summer 2008, demand across the group, for those businesses on sale, has remained encouraging.

UK consumer demand for leisure travel remains strong, reflecting higher demand for overseas holidays following poor weather conditions in Summer 2007. Consumers continue to view overseas travel as an integral part of their annual expenditure, a fact validated by the results of our annual survey of customers' attitudes on overseas travel and spending. This survey confirmed, for the third year running, that 80% of customers consider their holiday to be a significant event in the year and not a luxury item, while 90% said they would not choose holidays as the primary area on which to cut spending. In Germany, we are also experiencing healthy demand as the strengthening economy, buoyed by improving employment rates and rising disposable income, stimulates consumer demand for our portfolio of travel products.

Strong demand for leisure travel in our markets is borne out in the encouraging forward trading position for both the Winter 2007/08 and Summer 2008 programmes.

3 Laterooms.com – Winter season is not significantly sold at this point in time

As we enter the peak selling period for the Winter 2007/08 programme, we remain pleased with performance to date with load factors in the key source markets ahead of prior year.

UK Mainstream trading remains strong with total sales up 7% and margins tracking slightly ahead of last year. Volumes are down 2% on capacity reduced by 11%, primarily within the short-haul segment. First Choice continues to benefit from remixing its programme to differentiated medium-haul and long-haul product with sales up 24% and 22% respectively, with bookings driven by consumer demand for Egypt, Tunisia, Mexico and the Dominican Republic. Total capacity is down 10% primarily as the business reduces its Winter programme in the Canaries. Thomson sales are up 2% with 7% lower volumes on capacity reduced by 11%. Short-haul capacity for the season has been reduced by 29%, primarily as a result of scaling back loss making scheduled 'city pair' routes, on which capacity has been halved.

We are pleased with trading across the Nordics region, where margins are tracking ahead of last year, as demand for long-haul package holidays and differentiated content, such as the portfolio of Blue Villages, drive sales growth of 19%.

In both the Central Europe and Western Europe regions, we are experiencing strong growth with sales up 9% and 6% respectively, on capacity that is marginally up.

Within the Specialist sectors, demand for our portfolio of destination specialist businesses and activity adventure businesses remains strong, with sales up 4% and 11% on a like for like basis. In Canada, where market conditions are challenging, trading started more slowly than last year but has picked up in recent weeks, with the load factor for the peak months of January and February now in line with last year.

Summer 08

As we continue our post merger 100 day review, we are exiting unprofitable lines of business for Summer 2008 wherever possible, particularly within the short-haul segment in the UK and German source markets. As a result, UK capacity will be down 12% as we scale back the loss making scheduled flying programme within Thomson. As previously announced, capacity in Germany will be approximately 10% lower, following the return of eight aircraft for the Summer 2008 programme.

For Summer 2008, the UK & Ireland Mainstream and TUI Nordic programmes are the only businesses that have been on sale for any reasonable time period. Even though it remains early in the selling period, we remain encouraged by trading in the UK where sales are up 12% on volume growth of 6%. Margins in the UK & Ireland Mainstream business are slightly ahead of last year, despite continued cost pressures, particularly the year on year increase in fuel costs and APD recovery.

Currently, the First Choice programme remains 4 percentage points further sold than at the same point last year with sales 24% ahead on customer bookings that are up 18%. Both medium haul and long haul programmes are experiencing strong demand with sales up 36% and 17% respectively. In Thomson bookings are 1% down on capacity that has been reduced by 16%. The programme is 2 percentage points further sold than last year.

In the Nordic region, although it is early in the season, sales are up 23% on volume growth of 18%. The programme is 1 percentage point further sold than the prior year, with margins tracking ahead.

Integration Process

The integration process continues to progress in line with our expectations. On 29 January 2008, we will host an Investor Day at which we will present the conclusions of the first 100-day review, as well as updates on both the integration process and group strategy.

Proformas

TUI Travel PLC will issue proforma financial information for the 12 months ended 30 September 2007 and 30 September 2006 on 13 December 2007.

3rd Quarter Financial Results

TUI AG has today published its 3rd Quarter Interim Report. This report includes the results of the TUI AG Tourism division. It should be noted that the TUI AG Tourism division includes TUI Hotels & Resorts that do not form part of TUI Travel PLC.

The TUI AG 3rd Quarter Interim Report is based on the results of the TUI tourism division for the nine months to 30 September 2007 and First Choice Holidays for one month to 30 September 2007.

For ease of reference we have split out the TUI Hotels & Resort result in the table below. For completeness, we have also included, in Appendix 1 of this announcement, the extract from TUI AG's 3rd Quarter Interim Report that covers both the relevant financial results and commentary for the Tourism division.

[2] First Choice Holidays PLC was consolidated for September 2007 only

Going forward TUI Travel PLC will report interim management statements, in addition to half-yearly and preliminary results, to the market to coincide with TUI AG quarterly announcements. These results will only include the businesses within TUI Travel PLC and will be reported in sterling.

Commenting on the announcement, Peter Long, Chief Executive, TUI Travel PLC said:

"I am pleased with the way Winter trading is progressing across our businesses. In the UK, early indications for next Summer's trading are very encouraging where we are benefiting from operating two very strong franchises. The integration of the TUI Tourism and First Choice businesses within the UK is progressing as planned and as I have been visiting the TUI Tourism businesses over the past few weeks, my conviction that we have an exceptional value creation opportunity, which will be achieved by combining the best of both businesses, has been reinforced."

TUI AG reorganises its press relations

Hanover, November 5, 2007

Following the successful merger with the British company First Choice Holidays PLC to form TUI Travel PLC, the parent company TUI AG has now reorganised its press relations department. TUI AG Group Communications will continue to be headed by Uwe Kattwinkel. Robin Zimmermann has been appointed deputy head of Group Communications.

Product communication in Germany has been assigned its own area of responsibility. As of 1 November Mario Köpers will take charge of the Communications department at TUI Deutschland GmbH. In his previous position Köpers was head of Group Communications at Thomas Cook AG. The press spokespeople who up to now were responsible for the various product areas have been reassigned to the new TUI Deutschland Communications department. Group topics referring to TUI Travel will be dealt with in London under the responsibility of Lesley Allan. Eva Gjersvik is in charge of the Communications department of TUI's shipping division Hapag-Lloyd AG.

TUI TRAVEL PLC: Trading Update

London, 26 September 2007. Following the successful completion of the merger of the tourism businesses of TUI AG and First Choice Holidays PLC to form TUI Travel PLC, we are pleased to provide an update on current trading, acquisitions and business integration ahead of the start of our first full financial year for the 12 months ended 30 September 2008.

Current Trading

Since the trading numbers announced on the 9th August consumer demand across the TUI Travel businesses for Summer 2007 has remained strong. Forward bookings for Winter 2007/08 and early bookings for Summer 2008 are also very positive.

Summer 2007

After a relatively weak start to the Summer 2007 season, demand has picked up across all source markets and the Group has continued to trade in line with the Board's expectations.

MAINSTREAM SECTOR

Northern Europe (UK & Ireland and Nordic)

In the UK Mainstream business the First Choice brand, as anticipated, has performed particularly well with sales up 6% on flat capacity. This has been particularly driven by a strong long-haul offering and a recovery in medium-haul compared to last year. In the Thomson business sales are down 4% on lower capacity. This is primarily a result of remixing volume by reducing capacity in the package holiday segment and increasing participation in the component led independent travel segment. Whilst tightening the package holiday capacity in Thomson has led to good margin performance in the Summer, overall margins across the TUI Travel UK & Ireland businesses continue to be adversely impacted by higher APD taxes and the year on year increase in fuel costs.

investor.relations@tui.com
www.tui.com

The Nordic businesses which make up the rest of the Northern Europe Sector have had a strong Summer.

Central Europe (Germany, Switzerland and Austria)

In the German source market, although consumer demand has been strong with bookings up 10%, there has been a considerable increase in capacity leading to weaker selling prices, lower load factors and margin pressure. In addition, the German business has suffered as a result of third party tour operators returning capacity. For Summer 2008 capacity will be reduced to 48 aircraft from the current fleet of 55.

The other central European source markets have performed in line with our expectations.

Western Europe (France, Belgium and The Netherlands)

We are pleased with the performance in Western Europe where the Belgian and Dutch markets have performed very well with revenues up 10% and 14% respectively. The French business has also recovered strongly from a difficult Summer

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

last year and will significantly reduce its loss for the year compared to 2006. All these businesses have seen margins improve year-on-year.

SPECIALIST SECTORS (Specialist, Activity and Online Destination Services)

The First Choice specialist businesses have continued their strong performance throughout the summer. On a like-for-like basis sales are up 16% in Specialist, 3% in Activity and 40% in Online Destination Services. Margins have improved across these businesses.

Winter 07/08

All businesses that have Winter programmes on sale are currently performing well for the Winter season. Capacity has been tightened across a number of source markets and margins are currently ahead of last year. We are further sold in the UK by 5 percentage points compared to this time last year.

Summer 08

For Summer 2008, the UK & Ireland Mainstream business is the only programme that has been on sale for any reasonable time period and we are seeing the benefit of having the two strongest tour operating businesses. Currently, First Choice sales are 26% ahead on customer bookings that are up 24%. The programme is 3 percentage points further sold than at the same point last year and long-haul is selling particularly well. In Thomson sales are 2% ahead on capacity that has been reduced by 8%. Margins overall in the TUI Travel UK & Ireland business are slightly ahead of last year.

Acquisitions

Over the summer period we have completed nine acquisitions within niche specialist segments of the leisure travel market for a maximum consideration of £81.7m. An initial consideration of £52.2m has been paid with a further amount of up to £29.5m that could be paid as deferred and contingent consideration. For the eleven months ended 30 September 2007, we have made sixteen acquisitions for a maximum consideration of £227.5m with an initial consideration of £159.0m.

In addition, as recently announced, we have divested of Budget Travel, one of the Group's Irish businesses to Primera Travel Group, a privately owned Icelandic travel company. Completion of the sale is subject to approval from the EU Competition authority.

We have acquired businesses within the online, activity, premium escorted tours and student travel segments of the market:

- Within Online Destination Services, we have strengthened our position further in the Asia Pacific region by agreeing to acquire asiarooms.com, a leading online B2C provider of hotel accommodation in Asia. Asiarooms.com has established itself as a significant online retailer of accommodation by applying leading edge technology and web capabilities in one of the fastest growing travel markets. Its main source markets are the USA, UK, Singapore and Australia serving key destinations of Thailand, Singapore, Japan and Hong Kong. In the current year, the business is on track to sell nearly 4m bed nights. This acquisition adds to our growing position in the Asia Pacific region and online accommodation market where we continue to see excellent growth and margin opportunities for the Group going forward.

- In the Activity Holidays Sector, we have acquired four companies. Within the premium North American escorted tours segment, we acquired Starquest, an operator of themed luxury travel adventures by private jet. Along with our existing business, TCS (acquired as part of the Grand Expeditions acquisition in December 2005), we are now the clear market leader within this high-growth segment of the US travel market. As previously announced, we acquired Hannibal Travel Group which is a leading premium escorted tours operator serving the

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Danish 'baby boomer' and 'young professional' demographic. It also compliments our existing Danish activity operation. In addition, we have added to our Schools and Adventure Travel Group within the Adventure division with the acquisition of Ski Alpine, which is a provider of group ski trips to UK university students. Finally, we have entered the sports tour market with the acquisition of Australian Sports Tours which offers fully guided tours and independent travel packages through B2B and B2C distribution channels for major sporting events. Operating at double-digit margins and within a fast growing area of the marketplace, we are looking to develop our participation within this niche segment.

- Within North American Student Travel, we have added to our two acquisitions in the first half with the purchase of World Class Vacations and New Horizons Tour and Travel. These acquisitions will maintain our position at the forefront of the fragmented and high growth group performance segment of the student travel marketplace in the US.

- Within the Mainstream Sector, we have acquired an online car broker and an online independent package holiday review site. These businesses will further enable us to meet the needs of the travel consumer for flexibility and choice in their holiday decision making.

The acquisition pipeline remains strong as we continue to target travel companies, notably within the Asia Pacific region, online, activity and North American student travel segments, that exhibit excellent growth characteristics and the ability to generate premium margins, high earnings growth and strong cash flow.

Integration Process

The integration process has started very well. The UK and Ireland management team has been announced and the two integration teams across the business are now fully operational. We are increasingly confident that during the first 100 days strategic clarity will be reached on a number of key business issues and that, over the stated three year period, we will deliver at least £100m in synergy benefits.

Outlook

In line with previous statements by both First Choice and TUI AG and based on the Summer 2007 trading numbers the TUI Travel Board is satisfied that these businesses will meet their expectations in respect of their current financial year ends. This is based on the continued trading progress made during Summer 2007 together with the benefits of the cost restructuring in the TUI Tourism businesses that are coming through in the second half of 2007 particularly in the 4th quarter.

Going forward, the first TUI Travel PLC year-end will be 30 September 2008. Accordingly, for comparative purposes proforma financials for the 12 months ended 30 September 2007 and 30 September 2006 are being produced. These will be available for release in early December. In arriving at the September numbers, adjustments will arise as we harmonise the October year-end of First Choice and the December year-end of TUI Tourism.

Commenting on the trading update, Peter Long, Chief Executive, TUI Travel PLC said:

"I am pleased with the way the peak summer season trading has progressed across our businesses and the signs for future seasons' trading are very encouraging particularly in the UK where we are benefiting from two strong franchises. Our acquisition pipeline remains strong and I am delighted with the acquisitions we have completed. Acquisitions remain a key priority for TUI Travel.

"The integration of the TUI Tourism and First Choice businesses has started and as I have been visiting the TUI Tourism businesses over the past few weeks my belief that we have an exceptional value creation opportunity by combining the best of both businesses has been reinforced."

TUI and Carnival withdraw German anti-trust filing for joint venture

Hanover/Maimi, 05 September 2007. TUI AG and Carnival Corporation today announced that they will withdraw their anti-trust filing with the relevant authorities for a joint venture to develop a new cruise brand. TUI and Carnival had planned a joint venture and had filed this with the relevant authorities. Reason for the withdrawal is the extremely difficult environment with regards to competitive law making it impossible to close the transaction in Carnival's current business year. Failure to do so would create adverse tax consequences for the companies and would have a severe impact on the economies of the transaction. TUI and Carnival have, therefore, decided not to implement the joint venture in the proposed form.

TUI AG will stick to its plans to expand its own cruise activities. This will now happen mainly within the framework of Hapag-Lloyd Cruises. Hapag-Lloyd Cruises today operates four cruise liners and is one of the leading operators of premium and luxury cruises in the German speaking market. The fleet includes the MS Europa, the only ship in the world rated with "5-Stars Plus" by the Berlitz Cruise Guide. In the British market, TUI's subsidiary, TUI Travel, also operates five cruise liners under the Thomson Cruises brand as well as two ships under the Island Cruises brand.

As previously announced, a detailed review of all the businesses will be undertaken over the coming months to help the Group identify enhanced opportunities in the businesses and to build on its stated strategy. In addition, cost efficiencies identified will be actioned during this period and beyond. It is the Group's intention to present the results of the review in January 2008.

Commenting on the completion of the merger, Peter Long, Chief Executive TUI Travel PLC said:
"The creation of TUI Travel PLC, one of the world's leading leisure travel companies, represents real growth opportunities for us as a Group. Not only will our shareholders benefit from efficiencies but we are also well positioned to deliver strong organic and acquisition led growth."
Dr Michael Frenzel, Chairman of TUI Travel PLC added:
"TUI Travel has tremendous opportunities ahead of it. We will bring together some of the best known brands in leisure travel coupled with excellent management expertise. TUI Travel will be actively shaping the future of the tourism business."

The PLC website for TUI Travel PLC can be found at www.tuitravelplc.com

As at 3 September 2007, TUI Travel PLC has 1,118 million shares in issue and will trade under the ticker symbol TT.L

TUI AG records stable turnover in tourism in Q2 / Earnings in tourism decline year-on-year / Currently strong bookings for the 2007 summer season / Development of freight rates shows recovery trends / Optimistic assessment of performance trend for overall year

TUI AG

Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

Hanover, 9 August 2007. Despite a decline in turnover and Group earnings in the second quarter 2007 compared to the previous year, TUI AG upholds its optimistic assessment of the development of its operative business in the year 2007 as a whole. Overall, a stable turnover trend is expected for 2007. Against the backdrop of currently strong bookings in the tourism division and an increase in freight rates in shipping, a significant operative improvement is expected for the second half of the year.

In the **tourism division,** TUI AG reported an almost stable turnover trend in the second quarter of 2007 despite a weak booking development in the months of April and May. Compared with the second quarter in 2006, turnover rose by 0.1 per cent to 3.6 billion euros. Source market Central Europe (+6.3 per cent) and the destinations sector (+22.1 per cent), in particular, showed substantial turnover growth year-on-year. An opposite trend was observed in source market Northern Europe, which recorded a decline in turnover (-9.4 per cent). Turnover in source market Western Europe almost matched 2006 levels (-0.5 per cent). In the **shipping** division, turnover dropped by 4.2 per cent to 1.5 billion euros in the second quarter of 2007. This development was driven by the year-on-year weakening of the US dollar and the decline in freight rates in almost all trade lanes. Total turnover by the **Group's** divisions (tourism, shipping, central operations) accounted for around 5.2 billion euros in the second quarter, down 2.0 per cent year-on-year.

In the second quarter, underlying earnings (underlying EBITA) by **tourism** totalled 48 million euros, a considerable decrease year-on-year (145 million euros). This corresponded to a decline of 66.9 per cent.

Underlying earnings by source market **Central Europe** dropped by 34.7 per cent to 47 million euros in the second quarter. The positive trend in the tour operator segment was curbed by a lower load factor of the new airline brand TUIfly.com.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Although the number of air passengers rose by 9.6 per cent, the seat load factor on the fleet, which was expanded by four additional aircraft compared with the 2006 reference quarter, dropped to 79.5 per cent (previous year: 91.5 per cent).

Underlying earnings by source market **Northern Europe** totalled minus ten million euros (previous year: 43 million euros) in the second quarter. This earnings trend was primarily characterised by the difficult situation in the high volume generating business and the resulting price pressure in the UK, which was augmented by drastic air passenger duties. In source market **Western Europe,** underlying earnings totalled minus 19 million euros, down 18.8 per cent year-on-year (-16 million euros). This was attributable to costs incurred by the increase of flight capacities in Belgium. In the destinations sector, earnings dropped by 31.8 per cent to 30 million euros (previous year: 44 million euros). Besides proceeds from a sale in the previous year, this was mainly due to costs related to renovation work in a Robinson Club.

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

Earnings by the **shipping** division were characterised by a year-on-year decline in freight rates. Adjusted for special effects, underlying earnings amounted to minus 15 million euros (previous year: five million euros). Freight rates in container shipping across all trade lanes were 5.6 per cent lower in the second quarter compared to the previous year. At the same time, transport volumes rose by 7.4 per cent to 1,382 million standard containers (TEU).

Overall, underlying earnings by the **Group's** divisions (tourism, shipping, central operations) totalled 18 million euros in the second quarter and thus dropped substantially year-on-year (128 million euros).

Prospects

TUI AG's Executive Board upholds its optimistic assessment of the develoment of the operative business in the overall year 2007. In **tourism,** trading in Northern Europe is expected to improve significantly in the second half of the year due to the market trend in the **UK** and cost savings. The **Western Europe** sector is also expected to show a considerable improvement, since the business is recovering after high costs had been incurred in 2006.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

In the **Central Europe** sector, the tour operator business conitnues to show very good development whilst pressure remains on the sead load factor of the German airline TUIfly.com. The development of business observed over the next few weeks will be crucially important for the performance trend. Performance by the **destinations** sector will benefit from new hotel openings. The merger with First Choice Holidays PLC is expected to become effective in September 2007 and this will impact reported results going forward.

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

At Group level, bookings for the 2007 summer season are currently 3.5 per cent up year-on-year. Customer numbers are 7.9 per cent up year-on-year. Source market Central Europe is showing a particularly gratifying trend with turnover growth of 6.1 per cent (customers: 10.7 per cent). In the Western Europe sector, booked turnover is currently 8.8 per cent up year-on-year (customers: 6.3 per cent), while source market Northern Europe is currently reporting a decline in turnover of 3.4 per cent (customers: +4.0 per cent). Along with an improved pricing quality bookings on Group level for the last five weeks are more than ten per cent up compared to the same period last year.

The shipping sector was characterised by strong volume growth and a recovery of freight rates in the second quarter. Against the background of freight rates currently continuing to rise, positive operating earnings contributions are expected for the second half of the year. Considering strong bookings in the tourism division and an increase in freight rates in shipping, a significant operative improvement in earnings is expected for the second half of the year.

Detailed development of the divisions

Tourism

In the second quarter of 2007, 6.3 million customers purchased products of the TUI Group's tourism division, an increase of 5.6 per cent year-on-year (6.0 million). Turnover by the tourism division totalled 3.6 billion euros, matching 2006 levels (3.6 billion euros).

While the Central Europe (+6.3 per cent) and destinations sectors (+22.1 per cent) achieved year-on-year turnover growth, the Northern Europe (-9.4 per cent) and Western Europe (-0.5 per cent) sectors reported a decline in turnover year-on-year

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

in the second quarter of 2007. At 13 million euros, earnings (EBITA) by the tourism division dropped sharply year-on-year (152 million euros). Adjusted for one-off expenses, underlying earnings by the division amounted to 48 million euros (previous year: 145 million euros).

In the **Central Europe** sector (Germany, Austria, Switzerland and airline TUIfly.com), the number of customers grew by 7.1 per cent to 3.2 million (previous year: 2.9 million) euros in the second quarter of 2007. The sector achieved turnover growth, essentially driven by the development of business in Germany. Turnover grew by 6.3 per cent to 1.65 billion euros (previous year: 1.55 billion euros). Earnings by the Central Europe sector, in contrast, declined in the second quarter of 2007. At 41 million euros, they fell 37.9 per cent short of 2006 levels (66 million euros). This trend was primarily attributable to a decline in the load factor of the flight capacities. A further effect was caused by integration costs associated with the merger of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express to establish the new brand TUIfly.com. Adjusted for the one-off effects, underlying earnings in the second quarter totalled 47 million euros and were thus down 34.7 per cent year-on-year (72 million euros).

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

In the **Northern Europe** sector (UK, Ireland, Nordic countries and airlines Thomsonfly and TUIfly Nordic), 1.91 million customers travelled with tour operators of the sector in the second quarter, an increase of 1.7 per cent year-on-year (1.88 million). Since this growth was mainly driven by Thomsonfly's seat-only business, turnover by the sector declined by 9.4 per cent to 1.12 billion euros (previous year: 1.24 billion euros). Earnings by the Northern Europe sector were mainly characterised by a difficult market environment and strong price pressure in source market UK. In addition, special expenses were incurred in the second quarter of 2007. At -36 million euros, earnings dropped by 79 million year-on-year (43 million euros). Adjusted for the special expenses, earnings totalled minus ten million euros (previous year: 43 million euros).

In the **Western Europe** sector (France, Belgium, Netherlands and airlines Corsair, TUI Airlines Belgium, TUI Airlines Nederland), customer numbers climbed 8.0 per cent to

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

1.23 million (previous year: 1.14 million) in the second quarter. At 707 million euros, turnover decreased slightly year-on-year (711 million euros).

Earnings by the Western Europe sector totalled minus 22 million euros in the second quarter and thus declined year-on-year (minus three million euros). In particular the source markets Belgium and The Netherlands did not reproduce the earnings levels achieved in 2006. Earnings development was impacted by costs which were incurred by the increase of flight capacities in Belgium. Earnings in the second quarter of 2007 also comprised restructuring expenses in the Dutch market of three million euros whilst the second quarter of 2006 included one-off income from the divestment of the specialist tour operators. Adjusted for these one-off effects, underlying earnings stood at minus 19 million euros, down on the comparative level for 2006 (-16 million euros).

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

Turnover by the **destinations** sector (incoming agencies and hotel companies) rose by 22.1 per cent to 167 million euros (previous year: 137 million euros) in the second quarter. At 30 million euros, earnings by the division, in contrast, fell by 21.1 per cent year-on-year (38 million euros). This was due to renovation work at a Robinson Club in the second quarter of 2007 as well as the divestment of a Robinson Club in the second quarter of 2006. Underlying earnings by the sector also totalled 30 million euros (previous year: 44 million euros).

Shipping

In the second quarter of 2007, the shipping division reported a decline in turnover of 4.2 per cent to 1.54 billion euros (previous year: 1.60 billion euros). The development resulted from the year-on-year drop in freight rates and the persistent weakness of the US dollar despite an increase in total transport volume. While container shipping contributed turnover of 1.50 billion euros in the second quarter (previous year: 1.57 billion euros), Hapag-Lloyd Kreuzfahrten accounted for turnover of 36 million euros (previous year: 37 million euros).

The average freight rate charged in the second quarter was 1,350 US dollar/TEU, down 5.6 per cent year-on-year (1,430 US dollar/TEU). The total transport volume, in contrast, rose by 7.4 per cent to a total of 1,382 million standard containers (TEU).

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

At 13 million euros, operating earnings by the shipping division thus rose substantially year-on-year (-41 million euros). Container shipping accounted for 14 million euros, with Hapag-Lloyd Kreuzfahrten generating minus one million euros. Adjusted for risk items from the integration of CP Ships as well as one-off expenses for the integration of CP Ships, underlying earnings for the second quarter totalled -15 million euros (previous year: five million euros).

TUI AG welcomes decision of First Choice shareholders

Hanover, 25 July 2007. TUI AG has welcomed the outcome of the Extraordinary General Meeting of First Choice shareholders. The merger of TUI AG's tourism activities and First Choice Holidays PLC was approved of with a great majority. "This means that, following the go-ahead of the antitrust authorities, we have cleared the second hurdle on the way to TUI Travel PLC," says TUI AG chief executive Dr Michael Frenzel. And continuing: "We will be creating one of the most profitable travel groups in the world. The biggest tourism platform in Europe will come into being with TUI Travel. Customers and shareholders will benefit from TUI Travel."

Based on the figures of the 2006 financial year, a travel group with a turnover of around 18 billion euros (£12.1billion) and an underlying EBITA of around 500 million euros (£340 million) will be created under the umbrella of TUI Travel PLC. Last year, around 27 million holidaymakers travelled with the tour operators and airlines of TUI Travel PLC. Through the merger, the new company expects synergy potentials of around 150 million euros (£100 million) per annum, which should take full effect within three years of completion of the merger. A major part of the synergies is down to the British market.

As the companies move towards the merger, the key events are a final hearing at court on 31 August, the completion of the transaction, the listing on the London Stock Exchange and the first day of trading of the new shares on 3 September.

FIRST CHOICE HOLIDAYS PLC AND TUI AG
PUBLICATION OF PROSPECTUS

London/ Hanover 29 June 2007. The Boards of First Choice Holidays PLC ("First Choice") and TUI AG announce that the prospectus for TUI Travel PLC prepared for the purposes of the proposed merger of First Choice and the Tourism Division of TUI AG ("TUI Tourism") has been published today. The prospectus and the circular relating to the proposed scheme of arrangement (the "Scheme") of First Choice will be posted to shareholders next week.

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

The merger remains subject to a number of conditions, including the approval of First Choice shareholders, approval of the Scheme by the Court and listing of TUI Travel PLC shares.

First Choice shareholders will be sent a circular setting out full details of the Scheme, together with the prospectus. The prospectus contains further information on First Choice, TUI Tourism and TUI Travel PLC, inclusive of a trading update.

Current trading and prospects for TUI Tourism

Trading for the financial year 2007 is in line with the Board's expectations. Overall demand in the travel market remains strong, with varying levels of growth in demand across TUI Tourism's source markets.

Overall, bookings for the 2007 Summer season have started well, with customer numbers up 7.8 per cent. and booked revenues up 2.8 per cent. year-on-year, as at 22 June 2007. The Central Europe Sector, which includes the large German source market, recorded a good increase in bookings, although the Sector's results are affected by start-up costs in connection with the restructuring of flight operations under the new brand TUIfly.com. Customer numbers and booked revenues have also increased in the Western Europe Sector, although the Northern Europe Sector has experienced a decline year-on-year due to difficult market conditions in the UK and Ireland.

Current trading and prospects for First Choice

Trading for the financial year 2007 has been in line with the Board's expectations. For the 2007 Summer season, the Mainstream Holidays Sector has performed in line with management expectations in what remains a challenging market. As at 24 June 2007, revenues were cumulatively up four per cent. on volume growth of one per cent., with overall capacity flat on 2006. Capacity in the short-haul market has been reduced by five per cent., with revenues down seven per cent. on lower volumes of five per cent. Within the medium-haul segment, where capacity has been maintained at 2006 levels, both revenues and volumes are flat. The long-haul segment has experienced strong demand, with capacity up by 25 per cent. and revenues up by 26 per cent. on volume growth of 22 per cent.

The Specialist Holidays Sector has had an excellent start to the 2007 Summer season across all its businesses, with sales and volumes as at 24 June 2007 up 18 per cent. and 16 per cent., respectively, on 2006 as a result of increased demand for lifestyle and destination specialist products.

In the Activity Holidays Sector, Summer revenues were up five per cent. as at 24 June 2007, as the Sector continues to perform in line with the Board's expectations. Revenues were up seven per cent. in the Adventure business and up two per cent. in the Marine business, on a like-for-like basis. Margins are currently slightly ahead of last year for the Summer programme.

In the Online Destination Services Sector, all routes to market as at 24 June 2007, continue to grow and are performing well, with sales and bednights up 50 per cent. and 30 per cent. respectively, with margins also ahead of last year. The integration of laterooms.com is progressing as planned, as the business enjoys strong demand for late availability bedstock, with sales and volumes up 78 per cent. and 73 per cent. respectively.

TUI Deutschland registers healthy increase in bookings in summer season 2007 / 13 percent growth in customer numbers and 6 percent growth in sales / Good start to advance bookings for winter season / Holiday prices for coming season remain stable / Snow guarantee for winter sports enthusiasts and substantial product expansion in long-haul holidays

Hanover/Sylt, 20 July 2007. TUI Deutschland, Germany's leading travel operator, is chalking up a healthy growth in bookings for the current summer season. The number of guests is up some 13 percent and the figure for booked sales is up about six percent compared with the same period for the previous year. "We are currently recording growth in all segments, from sun and beach packages, long-haul travel, city breaks and car holidays to individually assembled module-based trips," says TUI Deutschland head Dr Volker Böttcher at the launch of the winter brochures for the 2007/2008 season. After a successful early bookings phase, booking development showed an unexpected initial downturn in April. However, since June bookings have been gaining substantial momentum. "Development over the last three months of the season will be crucial for the overall result for the summer. We have to wait and see how bookings continue to develop, especially for the important months of September and October," reveals Böttcher. He made the point that there are plenty of holidays available for all those who so far have not made up their minds.

Winners and losers summer season 2007

Apart from Majorca, which remains the most important destination for German holidaymakers (+ 5 percent visitor increase), Turkey is one of the major winners. "After a weak year in 2006 we are now seeing a remarkable comeback by Turkey with growth in the number of guests currently registering some 35 percent," says TUI Germany head Böttcher. Equally pleasing is the development in Greece (+14 percent increase in visitors), Egypt (+24 percent visitor increase) and Portugal (+37 percent increase in visitors). Among the traditional sun and beach destinations in the medium-haul flight sector only the countries of former Yugoslavia are not meeting expectations (-4 percent visitor decrease). In the car holiday segment, too, TUI is clearly showing a positive booking trend. The German market is growing overproportionally well with a 16 percent surge in the number of holidaymakers.

Car holiday destinations Austria (+7 percent visitor increase) and Switzerland (+26 percent visitor increase) are recording substantial growth rates. In the long-haul travel and city break segments TUI is reaping the fruits of its product campaign. "We

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

greatly expanded our holiday and travel product range by adding new destinations, circular tours and discovery components. Nine percent growth in the number of customers in the long-haul travel segment and a 14 percent increase in travellers taking city tours show that we are on the right track," comments Böttcher.

The booking figures are particularly satisfactory for Mexico (+25 percent visitor increase), Thailand (+38 percent), Mauritius (+37 percent visitor increase) as well as the Maldives (+9 percent visitor increase). In line with expectations the booking figures for Sri Lanka were considerably lower than the year before on account of the political uncertainty in the country (-59 percent).

Early bookers can save money / Holiday prices for the winter season remain stable

For the coming winter season, too, TUI is offering holidaymakers wide-ranging early booker bonuses. Just as for the current summer season TUI is hitting the ground running with its own early booker price section. This section is valid until 12 December. After that the normal brochure prices come into effect. For adults TUI's early booker benefits are known as the XXL bonus. A total of 136 hotels in the most important winter destinations are offering these perks. This means adults can save as much as 200 euros per person on a sun and beach holiday in Egypt or up to 140 euros per person on the Canary Islands. With TUI, children can save using the XXS Super Price for Kids – it is valid for 34 family hotels and costs only 199 euros or 249 euros per child.

On average travel prices for the coming winter season, taking the early booker reduction into account, remain stable for all destinations. For the 2007/2008 winter season holidays are even cheaper than before, for instance, for a medium-haul holiday in Tunisia (-1.5 percent) or on the Spanish mainland (-2 percent). The price of travel to Egypt (+3 percent), the Balearics (+2 percent) and to Portugal (+1.5 percent) has gone up slightly. For trips to the Canary Islands, the most important winter destination for German holidaymakers, prices remain stable. Holiday prices for many long-haul destinations have become significantly cheaper thanks to favourable exchange rates. For instance, holidaymakers can save two percent in the Caribbean. The price of holidays in Namibia is down five percent, while a trip to South Africa now costs on average ten percent less than in the previous winter season.

New products – snow guarantee for winter sports and Asia expansion

With the TUI snow guarantee for skiers Germany's leading travel operator is launching a new concept. If one week before the holiday commences less than 75 percent of the lifts in a selected ski area are in operation for lack of snow, holidaymakers can at no extra cost either change the booking to a later date or choose a different destination from one of the TUI brochures. The TUI snow guarantee is valid for 36 ski areas in Germany, Austria, Switzerland and France and for some 200 hotels.

New to the winter sports brochure are not only numerous hotels in the Alpine countries but also winter sports destinations in the USA and Canada.

Overall for the 2007/2008 winter season TUI is delivering 26 TUI brochures to the travel agencies. Apart from expanding the product range in the car holiday brochures there are numerous new hotels and programmes, for instance, for city breaks, on the Canary Islands and in North Africa. Furthermore, the product line has been substantially expanded in the long-haul segment. For the coming winter season TUI has concentrated above all on developing travel to Asia (see also the detailed press releases on this subject at www.tui-group.com).

TUI Island opens to visitors in the virtual world of Second Life

Anyone interested in a virtual holiday before the actual holiday can now visit TUI on the online digital world of Second Life. Internet surfers land with an aircraft on the TUI island, where they can spend time in different holiday worlds based on TUI subbrands "Schöne Ferien", "Weltentdecker" and "Premium". For instance, In the "Weltentdecker" area, guests can decide to go on a jungle path tour, a rafting trip or on a treasure hunt in an abandoned temple. For those who prefer something quieter, they will find luxury water-bungalows or a wellness temple in the Premium zone on the island – just as in the real life Premium brochures.

The TUI Island programme is rounded off with virtual hotel tours, detailed information on TUI products as well as a travel agency for booking real holidays.

Supervisory Board appoints Peter Long to Executive Board of TUI AG

Hanover/Hamburg, 11 July 2007. The Supervisory Board of TUI AG has in today's meeting appointed Peter Long as ordinary member of the Executive Board. The appointment will come into effect with the completion of the merger of TUI Tourism with First Choice Holidays into TUI Travel PLC, which is expected to be on 3 September. As CEO of the future TUI Travel, Peter Long will represent tourism in the Executive Board of TUI AG. "The composition of the Executive Board will therefore take account of the future structure of the TUI Group. We are pleased that, with Peter Long as head of our tourism subsidiary, one of Europe's best respected tourism managers will be part of the top management body of the Group," says Dr Michael Frenzel. Besides, Peter Rothwell will remain member of the board as deputy CEO of TUI Travel.

As announced Christoph R. Mueller will serve on the board of TUI Travel PLC in charge of the European airline business of the group. Consequently, he will resign from the parent company board with effect of the completion of the merger.

Peter Long has acted as CEO of the British travel group First Choice Holidays PLC since 1999. He was appointed to the Executive Board at First Choice in 1996, having previously been employed as manager of First Choice Holiday & Flights. Before Peter Long came to First Choice, he was, among other things, employed as executive board chairman of Sunworld Holidays and as head of the finance department and chief manager of the tour operations department of the International Leisure Group.

THIS DOCUMENT IS IMPORTANT AND REQUIRES YOUR IMMEDIATE ATTENTION. PART II OF THIS DOCUMENT COMPRISES AN EXPLANATORY STATEMENT IN COMPLIANCE WITH SECTION 425 OF THE COMPANIES ACT 1985. If you are in any doubt as to the action you should take, you are recommended to seek your own independent financial advice immediately from a stockbroker, bank manager, solicitor, accountant or other independent financial adviser authorised under the Financial Services and Markets Act 2000. If you are in a territory outside the UK, you should immediately consult an appropriately authorised independent financial adviser.

If you have sold or otherwise transferred all of your First Choice Shares, please send this document and the accompanying documents, as soon as possible, to the purchaser or transferee or the stockbroker, bank or other agent through whom the sale or transfer was effected, for delivery to the purchaser or transferee. However, such documents should not be sent in or into any Restricted Jurisdiction. If you have sold or transferred part of your holding of First Choice Shares, please consult the stockbroker or other agent through whom the sale or transfer was effected.

This document should be read in conjunction with the accompanying Prospectus relating to TUI Travel which has been prepared in accordance with the Prospectus Rules made under Section 73A of FSMA in connection with Admission. The Prospectus has been made public in accordance with the Prospectus Rules.

SCHEME OF ARRANGEMENT

of

First Choice Holidays PLC

under Section 425 of the Companies Act 1985

in connection with its

RECOMMENDED MERGER

with

TUI AG'S TOURISM DIVISION

Your attention is drawn to the letter from the Chairman of First Choice set out in Part I of this document which contains the unanimous recommendation of the First Choice Directors to vote in favour of the resolutions to be proposed at the Court Meeting and the Extraordinary General Meeting referred to below. A letter from Lazard and Deutsche Bank explaining the Scheme appears in Part II of this document.

Notices of the Court Meeting and the Extraordinary General Meeting, both of which will be held at Exchange House, Primrose Street, London EC2A 2HS on 25 July 2007, are set out at the end of this document. The Court Meeting will start at 10.00 a.m. and the Extraordinary General Meeting at 10.15 a.m. (or as soon thereafter as the Court Meeting is concluded or adjourned).

Your attention is also drawn to the Whitewash Resolution, which is set out as resolution 2 in the Notice of Extraordinary General Meeting.

First Choice Shareholders will find enclosed with this document a BLUE Form of Proxy for use at the Court Meeting and a WHITE Form of Proxy for use at the Extraordinary General Meeting. To be valid, a Form of Proxy and any authority under which it is executed must be completed and returned in accordance with the instructions printed thereon by post or (during normal business hours only) by hand to Lloyds TSB Registrars, The Causeway, Worthing, West Sussex BN99 6LE (in the case of the BLUE Form of Proxy) or BN99 6LN (in the case of the WHITE Form of Proxy), as soon as possible, but in any event so as to arrive not less than 48 hours before the time fixed for the relevant meeting or adjourned meeting. Whether or not you intend to be present at the Court Meeting or the Extraordinary General Meeting please complete and return the Forms of Proxy accompanying this document to Lloyds TSB Registrars as soon as possible but, in any event, at least 48 hours prior to the relevant Meeting. The completion and return of a Form of Proxy will not prevent First Choice Shareholders from attending either or both of the Court Meeting and the Extraordinary General Meeting or from voting in person should they so wish.

If the BLUE Form of Proxy for use at the Court Meeting (but not the WHITE Form of Proxy for the Extraordinary General Meeting) is not lodged with Lloyds TSB Registrars by the relevant time, it may be handed to Lloyds TSB Registrars on behalf of the Chairman of the Court Meeting at the start of that Meeting.

Alternatively, if you hold your First Choice Shares in uncertificated form (i.e. in CREST), you may vote using the CREST Proxy Voting System in accordance with the procedures set out in the CREST Manual.

For more details of the action to be taken by First Choice Shareholders and instructions on completing the accompanying documents please refer to page 6 of this document and paragraph 14 of the letter from the Chairman set out in Part I of this document.

Application will be made to the UK Listing Authority and to the London Stock Exchange respectively for TUI Travel Shares to be admitted to listing on the Official List and to trading on the London Stock Exchange's main market for listed securities. It is anticipated that Admission will become effective and that dealings will commence on the London Stock Exchange at 8.00 a.m. on the day on which the Scheme becomes effective.

Lazard, which is authorised and regulated in the United Kingdom by the FSA, is acting as joint financial adviser to First Choice, and as joint sponsor and financial adviser to TUI Travel, and no one else in connection with the matters described herein and will not be responsible to anyone other than First Choice and TUI Travel for providing the protections afforded to clients of Lazard or for providing advice in relation to the Merger, Admission, the content of this document or any matter or arrangement referred to herein.

Deutsche Bank is authorised under German Banking Law (competent authority: BaFin-Federal Financial Supervising Authority) and with respect to UK commodity derivatives business by the FSA; and is regulated by the FSA for the conduct of UK business. Deutsche Bank is acting as joint financial adviser and as broker to First Choice, and as joint sponsor and financial adviser to TUI Travel, and no-one else in connection with the matters described herein and will not be responsible to anyone other than First Choice and TUI Travel for providing the protections afforded to clients of Deutsche Bank or for providing advice in relation to the Merger, Admission, the content of this document or any matter or arrangement referred to herein.

Morgan Stanley, which is authorised and regulated in the United Kingdom by the FSA, is acting as financial adviser exclusively to TUI AG and TUI Travel, and as joint sponsor exclusively to TUI Travel, and no one else in connection with the matters described herein and will not be responsible to anyone other than TUI AG and TUI Travel for providing the protections afforded to clients of Morgan Stanley or for providing advice in relation to the Merger, Admission, the content of this document or any matter or arrangement referred to herein.

The information contained in this document may not be the same as that required under the laws of jurisdictions outside England and Wales. The distribution of this document in jurisdictions other than England and Wales may be restricted by law and, therefore, persons into whose possession this document comes should inform themselves about and observe such restrictions. Any failure to comply with the restrictions may constitute a violation of the securities laws of any such jurisdiction. This document is being sent to you in your capacity as a First Choice Shareholder only and does not constitute an offer to sell or issue, or the solicitation of an offer to buy or subscribe for, shares in any jurisdiction in which such offer or solicitation is unlawful.

The TUI Travel Shares to be issued pursuant to the Scheme to or for the benefit of any resident of Canada will be qualified for sale under the securities laws of any province or territory of Canada and may be subject to resale restrictions.

Securities may not be offered or sold in the United States unless they are registered under the US Securities Act or are exempt from such registration. The TUI Travel Shares will not be registered under the US Securities Act, and will be issued in the United States pursuant to the Scheme in reliance on the exemption from registration provided by Section 3(a)(10) of that Act. In addition, the TUI Travel Shares have not been and will not be registered under the securities laws of any state of the United States, and will be issued in the United States in reliance on available exemptions from such state law registration requirements. First Choice Shareholders (whether or not US persons) who are affiliates (as defined in the US Securities Act) of TUI Travel or First Choice prior to, and/or become affiliates of TUI Travel or First Choice on or after, the implementation of the Scheme will be subject to certain US transfer restrictions relating to the TUI Travel Shares. In particular, US persons should note the matters set out in paragraph 8 of Part V of this document. Neither the SEC nor any US state securities commission has reviewed or approved this document, the Scheme, or the issue of the TUI Travel Shares, and any representation to the contrary is a criminal offence in the United States. The TUI Travel Shares have not been, and will not be, registered under the applicable laws of any Restricted Jurisdiction. Accordingly, the TUI Travel Shares may not be offered, sold, delivered or transferred, directly or indirectly, in or into any Restricted Jurisdiction or to or for the account of any other national, resident or citizen of any Restricted Jurisdiction.

Forward-looking statements

This document contains certain statements about First Choice, TUI AG, TUI Tourism, TUI Travel and the Enlarged Group that are or may be forward looking. All statements other than statements of historical facts included in this document may be forward-looking statements. Without limitation, any statements preceded or followed by or that include the words "believes", "estimates", "targets", "plans", "prepares", "anticipates", "expects", "intends", "estimates", "synergies", "strategy", "may", "will" or "should" or other words or terms of comparable nature or the negative thereof, are forward-looking statements. Forward-looking statements include statements relating to the following: (i) the expected timetable for completing the Merger, (ii) future capital expenditures, expenses, revenues, earnings, synergies, economic performance, indebtedness, financial condition, dividend policy, losses and future prospects of the First Choice, TUI Tourism, TUI Travel and the Enlarged Group, (iii) business and management strategies and the expansion and growth of First Choice, TUI Tourism, TUI Travel and the Enlarged Group and (iv) the effects of government regulation on First Choice's, TUI Tourism's, TUI Travel's and the Enlarged Group's business.

These forward-looking statements are not guarantees of future performance and have not been reviewed by the auditors of First Choice, TUI AG or TUI Travel. Such forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause them to differ from any actual results, performance or achievement expressed or implied by such forward-looking statements. These forward-looking statements are based on numerous assumptions regarding First Choice's, TUI Tourism's and, following Completion, TUI Travel's present and future business strategies and the environment in which they will operate in the future. As a result, First Choice's, TUI Tourism's and, following Completion, TUI Travel's actual future financial condition, performance and results may differ materially from the plans, targets and expectations set out in the First Choice's, TUI Tourism's and TUI Travel's forward-looking statements contained in this document or any other forward-looking statement any of them may make. All forward-looking statements included in this document are based on information available to First Choice, TUI AG or TUI Travel on the date hereof. Investors are cautioned not to place undue reliance on any forward-looking statements attributable to First Choice, TUI AG or TUI Travel or any of their respective members, directors, officers or employees or any other persons acting on their behalf. All such statements, which speak only as of the date they were made, are expressly qualified in their entirety by the cautionary statement above. Except as required by law, the Prospectus Rules, the Listing Rules, the Disclosure and Transparency Rules, the London Stock Exchange or by law, none of First Choice, TUI AG or TUI Travel undertakes any obligation to revise or update any forward-looking statements contained in this document or any other forward-looking statements that any of them may make.

EXCHANGE RATES

Unless otherwise stated, throughout this document the exchange rates used to convert between Sterling and Euro is £1.00:€1.46 and €1.00:£0.69.

Notice of Court Meeting		85
Notice of Extraordinary General Meeting		87

Action to be taken

Please check you have received with this document the following:

- a BLUE Form of Proxy for use in respect of the Court Meeting on 25 July, 2007 (attaching an attendance card in relation to the Court Meeting);
- a WHITE Form of Proxy for use in respect of the Extraordinary General Meeting ("EGM") on 25 July 2007 (attaching an attendance card in relation to the EGM); and
- the Prospectus for TUI Travel.

Whether or not you plan to attend the Meetings, PLEASE COMPLETE AND SIGN BOTH THE BLUE AND WHITE FORMS OF PROXY and return them as soon as possible to the Company's Registrar, Lloyds TSB Registrars, at The Causeway, Worthing, West Sussex BN99 6LE (in the case of the BLUE Form of Proxy) and BN99 6LN (in the case of the WHITE Form of Proxy), but in any event so as to be received by no later than 10.00 a.m. on 23 July 2007, in the case of the Court Meeting (BLUE form) and by no later than 10.15 a.m. on 23 July 2007, in the case of the EGM (WHITE form).

This will enable your votes to be counted at the Meetings in the event of your absence. If the BLUE Form of Proxy for use at the Court Meeting is not lodged with Lloyds TSB Registrars by 10.00 a.m. on 23 July 2007, it may be handed to Lloyds TSB Registrars on behalf of the Chairman of the Court Meeting at the start of that Meeting.

Alternatively, if you hold your shares in uncertificated form (i.e. in CREST) you may vote using the CREST Proxy Voting Service in accordance with the procedures set out in the CREST Manual (please also refer to the accompanying notes for the notice of EGM set out at the end of this document). Proxies submitted via CREST must be transmitted so as to be received by Lloyds TSB Registrars (under CREST participant ID 7RA01) not later than 10.00 a.m. on 23 July 2007 in the case of the Court Meeting or by 10.15 a.m. on 23 July 2007 in the case of the EGM.

It is important that, for the Court Meeting, as many votes as possible are cast so that the Court may be satisfied that there is a fair and reasonable representation of First Choice Shareholder opinion. You are therefore strongly urged to sign and return your Forms of Proxy as soon as possible in accordance with the instructions thereon.

Helpline

If you have any questions relating to this document or the completion and return of the Forms of Proxy or submitting your proxies electronically, please call the First Choice help line on 0870 609 2158 or, if calling from outside the UK, on +44 1903 276342 between 8.30 a.m. and 5.30 p.m. (London time) on any Business Day. Please note that help line operators cannot provide financial or legal advice, but will be able to answer questions on the effect of the proposals upon you as a First Choice Shareholder.

Expected timetable of principal events

Event	Time and/or date (year)
Latest time for lodging BLUE Forms of Proxy for the Court Meeting[1]	10.00 a.m. on 23 July 2007
Latest time for lodging WHITE Forms of Proxy for the EGM	10.15 a.m. on 23 July 2007
Voting Record Time for Court Meeting and EGM[2]	6.00 p.m. on 23 July 2007
Court Meeting	10.00 a.m. on 25 July 2007
EGM[3]	10.15 a.m. on 25 July 2007
The following dates are subject to change (please see note (4) below):	
Scheme Court Hearing	29 August 2007[4]
Reduction Court Hearing	31 August 2007[4]
Scheme Record Time	6.00 p.m. on 31 August 2007[4]
Last day of dealings in, and for registration of transfers of, and disablement of First Choice Shares in CREST	31 August 2007[4]
Scheme Effective Date	3 September 2007[4]
Allotment of TUI Travel Shares	3 September 2007[4]
Cancellation of listings and dealings in First Choice Shares	8.00 a.m. on 3 September 2007[4]
Expected date of Admission and commencement of dealings on the London Stock Exchange of TUI Travel Shares and CREST accounts credited in respect of TUI Travel Shares	8.00 a.m. on 3 September 2007[4]
Posting of certificates for TUI Travel Shares in certificated form by no later than	17 September 2007[4]

(1) The BLUE Form of Proxy for the Court Meeting may, alternatively, be handed to Lloyds TSB Registrars on behalf of the Chairman of the Court Meeting at the start of the Court Meeting, however it is requested that, if possible, BLUE Forms of Proxy be lodged at least 48 hours before the time appointed for the Court Meeting. This is not permissible in relation to the WHITE Form of Proxy for the EGM, which must be lodged at least 48 hours before the time appointed for the EGM.

(2) If either of the Meetings is adjourned, then the Voting Record Time for the relevant reconvened Meeting will be 6.00 p.m. on the date two days prior to the date set for the adjourned Meeting.

(3) If the Court Meeting has not been concluded or adjourned prior to the scheduled commencement of the EGM, the commencement of the EGM will be delayed until the Court Meeting has been concluded or adjourned.

(4) These times and dates are indicative only and will depend, amongst other things, on the dates on which the Court sanctions the Scheme and/or on which the Scheme becomes effective, which will, in turn, be dependent on the conditions to the Merger being satisfied or waived. If there are any revisions to the timetable, the First Choice Board will make an appropriate announcement as soon as practicable. It is not intended that any supplemental circular would be sent to First Choice Shareholders in this event.

All references in this document to times and dates are to times and dates in London, unless otherwise stated.

29 June 2007

To First Choice Shareholders and, for information only, to participants in the First Choice Share Schemes.

Dear Shareholder,

Scheme of Arrangement of First Choice in connection with its recommended merger with TUI AG's Tourism Division

1. Introduction

On 19 March 2007, the boards of First Choice and TUI AG announced that they had agreed the terms of a recommended merger of First Choice and TUI AG's tourism division, excluding certain hotel assets ("**TUI Tourism**") through the acquisition by a newly incorporated holding company, TUI Travel PLC ("**TUI Travel**"), of both First Choice and TUI Tourism (in the case of First Choice, by way of a scheme or arrangement under section 425 of the Companies Act 1985).

I am writing to you to explain the reasons for the Merger and, in particular, how it and the Scheme will be implemented, and to explain why your Board, which has been advised by Lazard and Deutsche Bank, considers the terms of the Merger to be fair and reasonable and why it unanimously recommends that you vote in favour of the resolutions to be proposed at the Court Meeting and the Extraordinary General Meeting.

In order to approve the terms of the Merger, First Choice Shareholders will need to vote in favour of the resolutions to be proposed at the Court Meeting and the Extraordinary General Meeting to be held on 25 July 2007 at Exchange House, Primrose Street, London EC2A 2HS. Details of the action you should take and the proposals to be put to you at the Meetings are set out in this letter.

First Choice Shareholders should read the whole of this document and the accompanying Prospectus and not rely solely on the information contained in this letter.

2. Background and Reasons for the Merger

The leisure travel environment has changed significantly over the last decade. The rapid development of low cost airlines, the growth of online intermediaries, as well as increasing access to travel products via the Internet has driven changes in consumer behaviour. As a result, consumers are increasingly demanding greater flexibility and choice when purchasing leisure travel products and are seeking to access travel content through a number of points of sale, most notably the Internet.

Travel companies have responded to these changes, with both TUI Tourism and First Choice successfully reorganising their respective business models to compete within the new market:

- TUI Tourism has adapted to the changes in consumer behaviour by extending its product offering from traditional package holidays to a more Internet-based component offering, including seat-only, accommodation-only, dynamic packaging and other travel related products to ensure that its brands remain relevant in the current leisure travel market place.
- First Choice has pursued a strategy of providing differentiated and exclusive products to its customers. It has invested in its mainstream business (including the development of six exclusive Holiday Villages) and built leadership positions in growing niche segments via a successful acquisition strategy. The result has been double-digit earnings growth each year since 2003.

Consequently, the Board believes that the Merger, through the combination of TUI Tourism's large consumer tour operating brands, flight and bed content and web-led modular strategy with First Choice's specialist brands and product differentiation strategy, will create a business that is competitively positioned to satisfy all the leisure travel needs of the travel consumer. Whether that is an independent traveller seeking access to a flight or hotel room, the traditional package holidaymaker looking for the value and security of a package holiday or a travel consumer who is seeking a different type of leisure travel experience, the Enlarged Group will be able to provide the relevant content, through a variety of controlled distribution channels.

3. Competitive Strengths

The Board believes that the following key competitive strengths will enable the Enlarged Group to deliver sustainable revenue and earnings growth:

- the breadth and depth of its travel operations which address a wide range of consumer travel needs, including individual travel components (such as flights and accommodation), fully integrated package tours and niche travel products;
- a strong portfolio of over 170 brands, including leading brands such as TUI, Thomson, First Choice, JetAir, Sunsail, The Moorings, Marmara and Nouvelles Frontières;
- a variety of distribution channels in all major source markets, including off-line (retail shops and catalogues), call centres and online (web-based) distribution, in order to maximise customer reach, ease of booking and flexibility of choice for customers;
- the opportunity to cross-sell differentiated travel products into the combined source markets of the Enlarged Group in cases where such opportunities have not previously been exploited;
- a leading position in the attractive long-haul segment of the travel market, supported by the Enlarged Group's experience in this segment and a firm order book for the new, fuel-efficient Boeing 787 Dreamliner, a new generation of aircraft which will enable the Enlarged Group to provide its customers with an enhanced long-haul experience to both new and existing long-haul destinations;
- enhanced economies of scale in an increasingly competitive market place and the opportunity to realise significant pre-tax synergies (estimated to be at least £100 million (€146 million) per annum on an annualised basis within three years of Completion). For further information, see paragraph 7 of Part II of the Prospectus;

- leading Internet travel offerings in most source markets in terms of scale, product range and technology;
- management's experience in making value-enhancing acquisitions, particularly in fragmented niches of the travel market where businesses have attractive growth characteristics; and
- management's track record of improving underlying profit margins and delivering shareholder value.

4. Information on the Enlarged Group

On Completion, the Enlarged Group will be a leading international travel group which, on a combined basis in 2006, operated in approximately 180 countries worldwide and served more than 30 million customers in over 20 source markets.

The Enlarged Group's pro forma revenue and earnings before interest, tax, depreciation, amortisation and impairment (EBITDA) from continuing operations and acquisitions were £12.3 billion (€18.0 billion) and £467 million (€683 million) respectively on a combined basis in 2006.

The Enlarged Group will be headquartered in Crawley, near Gatwick airport in the UK. On a combined basis in 2006, it employed approximately 48,000 people and operated a pan-European airline group consisting of 155 aircraft. The Enlarged Group will primarily serve the leisure travel customer and will be organised and managed through four sectors: Mainstream, Specialist, Activity and Online Destination Services.

The Board believes that the Merger offers significant benefits to its shareholders and its customers, employees and business partners.

Part II of the Prospectus contains further information on the Enlarged Group.

5. Objectives and strategy for the Enlarged Group

TUI Travel's primary strategic objectives are:

- to be one of the world's leading leisure travel groups by providing customers with a wide choice of products with the flexibility to meet their changing needs;
- to deliver earnings and margin expansion through the combination of organic development and selected acquisitions;
- to deliver cost synergies and maintain a lean and efficient business model; and
- to maximise shareholder value.

TUI Travel aims to achieve these objectives through the following principal strategies:

- offering a comprehensive range of travel content to the consumer;
- increasing controlled distribution, developing the brand portfolio and improving yield management;
- maintaining an efficient and flexible business model; and
- making value-enhancing acquisitions in high-growth segments of the market.

Paragraph 4 of Part II of the Prospectus contains further information on the objectives and strategy for the Enlarged Group.

6. Summary of terms of the Merger

The Merger will be implemented by TUI Travel acquiring ownership of First Choice and TUI Tourism pursuant to the terms of the Merger Agreement (a summary of which is set out in paragraph 6 of Part II of this document).

As a result of the Merger, TUI Travel will be 49 per cent. owned by First Choice Shareholders and 51 per cent. owned by TUI AG (such percentages being calculated on a fully diluted basis).

The acquisition of First Choice will be effected by First Choice implementing a scheme of arrangement under Section 425 of the Companies Act 1985. If the Scheme becomes effective, the existing First Choice Shares will be cancelled and new shares in First Choice will be issued to TUI Travel. In consideration for the cancellation of their shares, First Choice Shareholders on the register at the Scheme Record Time will receive:

for each First Choice Share **one TUI Travel Share**

The Scheme requires the approval of First Choice Shareholders by the passing of a resolution at the Court Meeting. This resolution must be approved by a majority in number of the holders of Scheme Shares present and voting, either in person or by proxy, representing not less than three-quarters in value of the Scheme Shares held by such holders. The Scheme and the reduction of capital associated with the Scheme must also be sanctioned by the Court at the Scheme Court Hearing and the Reduction Court Hearing respectively. All First Choice Shareholders are entitled to attend the Court Hearings in person or through counsel to support or oppose the sanctioning of the Scheme and the reduction of capital associated with the Scheme. Further details of the Court Meeting and the EGM, and the nature of the approvals to be given at them, are described in more detail in paragraph 7 of Part II of this document.

Under the terms of the Scheme, the First Choice Shares will be cancelled and, on the Effective Date, First Choice Shareholders will receive one TUI Travel Share for each First Choice Share. The total number of TUI Travel Shares issued to First Choice Shareholders on Completion will constitute 49 per cent. of the entire issued share capital of TUI Travel immediately after Completion (on a fully diluted basis).

In consideration of the transfer by TUI AG of TUI Tourism to TUI Travel, TUI Travel will issue 570,197,768 TUI Travel Shares to TUI AG, constituting 51 per cent. of the entire issued share capital of TUI Travel immediately after Completion (on a fully diluted basis). In addition, TUI Travel will assume €875 million of net debt (inclusive of pension liabilities).

All TUI Travel Shares to be issued to First Choice Shareholders and to TUI AG will be ordinary shares, credited as fully paid, and will rank *pari passu*.

Applications will be made to the UK Listing Authority and the London Stock Exchange for the cancellation of the listing of the First Choice Shares on the Official List and of the trading in First Choice Shares on the London Stock Exchange's market for listed securities respectively, with effect from 8.00 a.m. on the Scheme Effective Date.

It is also intended that the TUI Travel Shares will be admitted to the Official List of the UKLA and to trading on the London Stock Exchange at 8.00 a.m. on the Scheme Effective Date.

The terms of the Merger Agreement require the Relationship Agreement to be entered into between TUI AG and TUI Travel. The Relationship Agreement sets out the principle that TUI Travel will operate independently of TUI AG and records the understanding between TUI AG and TUI Travel regarding the relationship between them and the governance of TUI Travel. Under the terms of the Relationship Agreement, TUI AG will have the right to appoint two non-executive directors to the board of TUI Travel for so long as TUI AG holds 30 per cent. or more of the voting shares in TUI Travel.

For so long as TUI AG holds 40 per cent. or more of the voting shares in TUI Travel:

- TUI AG may appoint the Chairman of TUI Travel, in which case the Chief Executive Officer of TUI Travel will be appointed by the TUI Travel Board subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the question will be resolved by TUI Travel shareholders (including TUI AG); or
- TUI AG may relinquish its right to appoint the Chairman and in return have the right to appoint and remove the Chief Executive Officer. If this right is invoked, the Chairman of TUI Travel will

be appointed by the TUI Travel Board subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the question will be resolved by TUI Travel shareholders (including TUI AG).

If at any time TUI AG holds 30 per cent. or more, but less than 40 per cent., of the voting shares of TUI Travel, the TUI Travel Directors will appoint the Chairman subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Directors, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the question will be resolved by TUI Travel shareholders (including TUI AG).

The Relationship Agreement will come into effect on Completion and will remain in place until the earlier of (i) TUI AG's voting rights falling below 10 per cent. or (ii) TUI Travel ceasing to be listed.

The initial composition of the TUI Travel Board is set out in paragraph 9 of this letter and a more detailed summary of the Relationship Agreement is set out in paragraph 6 of Part II of this document.

7. Conditions to the Merger

On announcement, the Merger was subject to (amongst other things) the satisfaction of certain conditions, including the receipt of appropriate competition clearances. Such clearances have now been received.

However, the implementation of the Merger remains subject to a number of outstanding conditions which must be satisfied (or, where applicable, waived by TUI AG and First Choice), in order for the Merger to become effective and which are summarised in paragraph 5 of Part II of this document. First Choice will not petition the Court to sanction the Scheme unless certain conditions to the Merger have been satisfied (or, where relevant, waived by TUI AG and First Choice) as described in Part III of this document.

8. Waiver of Rule 9 of the Takeover Code

If implemented, as set out above, the Merger will result in TUI AG being interested in shares carrying 51 per cent. of the voting rights of TUI Travel (on a fully diluted basis).

Under Rule 9 of the Takeover Code, any person who acquires an interest (as defined in the Takeover Code) in shares which, taken together with shares in which he is already interested and shares in which persons acting in concert with him are interested, carry 30 per cent. or more of the voting rights of a company which is subject to the Takeover Code, is normally required to make a general offer to all the remaining shareholders of that company to acquire their shares. Under Rule 9 of the Takeover Code, following the Merger, TUI AG would normally be required to make a general offer to ordinary shareholders since it will acquire an interest in shares carrying more than 30 per cent. of the voting rights of TUI Travel (excluding Treasury Shares).

In this case, the Takeover Panel has agreed to waive the obligation which would otherwise arise for TUI AG to make a general offer for TUI Travel, subject to the Whitewash Resolution being approved on a poll of independent ordinary shareholders of First Choice, on the basis that any persons who the Takeover Panel treats as non-independent and who holds any interests in shares in First Choice Shares shall refrain from voting on such poll.

TUI AG will, following completion of the Merger, hold (directly or indirectly) in excess of 50 per cent. of the issued ordinary share capital of TUI Travel as enlarged by the Merger, and will be able to further increase its aggregate interest in TUI Travel without incurring an obligation under Rule 9 of the Takeover Code to make a general offer to ordinary shareholders. However, TUI AG has, under the terms of the Relationship Agreement, agreed that neither TUI AG nor any of its associates shall acquire further TUI Travel Shares if such acquisitions would increase their aggregate shareholding in TUI Travel beyond 55 per cent., unless such acquisitions are done in the context of a general offer

to acquire all the issued shares in TUI Travel or any increase in such percentage is the consequence of a purchase by TUI Travel of its own shares.

9. TUI Travel Board

The TUI Travel Board is drawn from the boards of First Choice, TUI AG and the current management of TUI Tourism, and will be supplemented by additional independent Non-Executive Directors. The TUI Travel Board comprises 14 directors and, following the appointment of three further independent Non-Executive Directors as soon as practicable following Completion, the majority of the TUI Travel Board will be independent.

The TUI Travel Board will be chaired by Dr Michael Frenzel, currently Chief Executive of TUI AG, as Non-Executive Chairman with Sir Michael Hodgkinson, currently Non-Executive Chairman of First Choice, being appointed as independent Non-Executive Deputy Chairman.

The executive team of TUI Travel is:

	Position following Completion	Current Position
Peter Long	Chief Executive	Chief Executive of First Choice
Peter Rothwell	Deputy Chief Executive	Chief Operating Officer of TUI Tourism
Paul Bowtell	Chief Financial Officer	Chief Financial Officer of First Choice
Will Waggott	Commercial Director	Chief Financial Officer of TUI Tourism
Christoph Mueller . . .	Aviation Director	Member of Executive Board of TUI AG
Volker Böttcher	Managing Director, Central Europe	Chief Executive of TUI Tourism Central Europe

In addition to the Chairman and the Deputy Chairman, the TUI Travel Board includes six Non-Executive Directors, of whom five are independent. These Non-Executive Directors are Tony Campbell, Clare Chapman, Bill Dalton, Jeremy Hicks, Giles Thorley (who are currently Non-Executive Directors of First Choice) and Rainer Feuerhake (currently Chief Financial Officer of TUI AG). Three additional independent Non-Executive Directors will be appointed by the TUI Travel Board as soon as practicable following Completion.

TUI Travel has established audit, nomination and remuneration committees. Each such committee has not fewer than three independent Non-Executive Directors and not more than two Non-Executive Directors representing TUI AG. Further details of the corporate governance arrangements for TUI Travel are set out in paragraph 5 of Part IV of the Prospectus.

10. Enlarged Group Management and Employees

The senior management of the Enlarged Group is made up of the following existing senior managers from both First Choice and TUI Tourism and, together with the executive directors of TUI Travel, will form the group management board of the Enlarged Group:

	Position following Completion	Current Position
Andrew John	Group Legal Director and Company Secretary	Legal Director and Company Secretary, First Choice
Bill Logan	Group Human Resources Director	Group Human Resources Director, First Choice
Dermot Blastland . . .	Managing Director, UK & Ireland	Managing Director, Mainstream, First Choice
Johan Lundgren	Managing Director, Nordic	Managing Director, Scandinavia, TUI Tourism
Bart Brackx	Managing Director, Western Europe	Managing Director, Western Europe, TUI Tourism
Richard Prosser	Managing Director, Specialist	Managing Director, Specialist, First Choice
John Wimbleton	Managing Director, Activity	Managing Director, Activity, First Choice
Joan Vilà	Managing Director, Online Destination Services	Managing Director, Online Destination Services, First Choice
Wolfgang Bremer . . .	Manager Director, TUI Destination Management Services	Managing Director, Destination Management Services, TUI Tourism

TUI Travel attaches great importance to the skills and expertise of the employees of First Choice and TUI Tourism and believes that the increased size and strength of the Enlarged Group will offer attractive career prospects.

However, in order to achieve the planned benefits of the Merger, some operational restructuring will be required following Completion. In particular, in the UK, restructuring will be required in the combined real estate, airline, tour operations and central functions, which will involve a reduction of roles in some areas but an increase in others. There will also be some restructuring in Germany and the UK associated with creating a single headquarters for TUI Travel in Crawley. Given the combined effects of the timescale for the integration programme, natural attrition and the opportunities that the Enlarged Group will create, TUI Travel expects that compulsory redundancies will be minimised. If redundancies are necessary, TUI Travel will comply with all applicable consultation and legal requirements in this respect.

11. First Choice Share Schemes

The impact of the Scheme on participants in the First Choice Share Schemes is summarised in paragraph 13 of Part II of this document.

Paragraph 14 of Part II of this document summarises the proposed new share schemes for the Enlarged Group.

12. Dividend Policy

Following Completion, consistent with the Enlarged Group's enhanced growth strategy, TUI Travel intends to follow a progressive dividend policy which balances delivering returns to shareholders with the need to retain sufficient funds for investment in growth opportunities, including the ongoing expansion of the specialist portfolio. In setting its initial dividend, it is expected that, as from the Effective Date, TUI Travel will target a dividend cover in the order of two times.

It is intended that, following Completion, one or more Group Companies undertake a Court-approved capital reduction under section 135 of the Companies Act to create additional distributable reserves. This is principally to ensure that TUI Travel possesses sufficient distributable reserves to continue to be able to pay dividends in accordance with its dividend policy.

13. Current Trading and Prospects

Trading for the financial year 2007 has been in line with the Board's expectations. For the 2007 Summer season, the Mainstream Holidays Sector has performed in line with management expectations in what remains a challenging market. As at 24 June 2007, revenues were cumulatively up four per cent. on volume growth of one per cent., with overall capacity flat on 2006. Capacity in the short-haul market has been reduced by five per cent., with revenues down seven per cent. on lower volumes of five per cent. Within the medium haul segment, where capacity has been maintained at 2006 levels, both revenues and volumes are flat. The long-haul segment has experienced strong demand, with capacity up by 25 per cent. and revenues up by 26 per cent. on volume growth of 22 per cent.

The Specialist Holidays Sector has had an excellent start to the 2007 Summer season across all its businesses, with sales and volumes as at 24 June 2007 up 18 per cent. and 16 per cent., respectively, on 2006 as a result of increased demand for lifestyle and destination specialist products.

In the Activity Holidays Sector, Summer revenues were up five per cent. as at 24 June 2007, as the Sector continues to perform in line with the Board's expectations. Revenues were up seven per cent. in the Adventure business and up two per cent. in the Marine business, on a like-for-like basis. Margins are currently slightly ahead of last year for the Summer programme.

In the Online Destination Services Sector, all routes to market as at 24 June 2007, continue to grow and are performing well, with sales and bednights up 50 per cent. and 30 per cent. respectively, with margins also ahead of last year. The integration of laterooms.com is progressing as planned, as the business enjoys strong demand for late availability bedstock, with sales and volumes up 78 per cent. and 73 per cent. respectively.

14. Action to be taken

At the end of this document First Choice Shareholders will find notices of the Meetings which have been convened to enable First Choice Shareholders to consider and, if thought fit, approve the Scheme and, in the case of the EGM, to approve certain resolutions necessary to enable First Choice to effect the Scheme and the Merger. Such EGM resolutions include the approval in connection with the waiver by the Takeover Panel of TUI AG's obligation under Rule 9 of the Takeover Code to make a mandatory offer for TUI Travel. You will find enclosed with this document two Forms of Proxy for use in connection with the Meetings.

It is particularly important that as many votes as possible are cast (whether in person or by proxy) at the Court Meeting so that the Court may be satisfied that the result is a fair representation of First Choice Shareholders' opinions. You are therefore strongly urged to complete and return your Forms of Proxy as soon as possible. Please make every effort to vote at the Meetings either in person or by completing the Forms of Proxy. Completion and return of any Form of Proxy will not prevent First Choice Shareholders from attending the Meetings and voting in person if they so wish.

Whether or not First Choice Shareholders propose to attend either of the Meetings in person, First Choice Shareholders are requested to complete and return the enclosed BLUE and WHITE Forms of Proxy so as to be received by post or (during normal business hours only) by hand by Lloyds TSB Registrars not later than 48 hours before the time for which the relevant meeting has been convened. If the BLUE Form of Proxy for use at the Court Meeting is not lodged with Lloyds TSB Registrars by that time, it may be handed to Lloyds TSB Registrars on behalf of the Chairman at the start of that Meeting.

Completing and returning the enclosed BLUE and WHITE Forms of Proxy will ensure that your votes can be counted at the Meetings.

Alternatively, if you hold your First Choice Shares in uncertificated form (i.e. in CREST) you may vote using the CREST Proxy Voting Service in accordance with the procedures set out in the CREST Manual (please also refer to the accompanying notes for the notice of EGM set out at the end of this document). Proxies submitted via CREST must be transmitted so as to be received by Lloyds TSB

Registrars (under CREST participant ID 7RA01) not later than 10.00 a.m. on 23 July 2007 in the case of the Court Meeting or by 10.15 a.m. on 23 July 2007 in the case of the EGM.

Please note that only those First Choice Shareholders registered in the register of members of First Choice as at 6.00 p.m. on 23 July 2007 or, in the event that the Meetings are adjourned, in the register of members at 6.00 p.m. on the date two days prior to the date set for any adjourned Meeting, will be entitled to attend or vote in respect of the number of First Choice Shares registered in their name at the relevant time.

Details relating to listing, dealing and settlement are included in paragraph 8 of Part II of this document.

15. Overseas Shareholders

The implications of the Scheme for persons resident in, or citizens or nationals of, jurisdictions outside the UK (**"Overseas Shareholders"**) may be affected by the laws of the relevant jurisdiction. Such Overseas Shareholders should inform themselves of and observe all applicable legal requirements. Please refer to paragraph 8 of Part V of this document for further details.

16. Further information

The terms of the Scheme are set out in full in Part III of this document. In addition, the Explanatory Statement set out in Part II of this document provides further details about the Scheme and the Merger.

Your attention is also drawn to the further information contained in this document, in particular, the conditions to the implementation of the Scheme and the Merger set out in paragraph 5 of Part II of this document.

This document should be read in conjunction with the accompanying Prospectus which contains further information, including risk factors, information about the Enlarged Group, the Merger, TUI Travel Directors, corporate governance and employees of TUI Travel and financial information on First Choice, TUI Tourism, TUI Travel and the Enlarged Group.

17. Recommendation

Your Board, which has been so advised by Lazard and Deutsche Bank, considers the terms of the Merger (including the Scheme) and the waiver by the Takeover Panel of the obligation which would otherwise arise for TUI AG to make a general offer for TUI Travel under Rule 9 of the Takeover Code, as described in paragraph 8 of this letter, to be fair and reasonable. In providing their advice to the Board, Lazard and Deutsche Bank have taken into account the commercial assessments of the Board.

The Board considers that the terms of the Merger are in the best interests of First Choice Shareholders as a whole and unanimously recommends that First Choice Shareholders vote in favour of the resolutions to be proposed at the Court Meeting and the EGM, as the members of the Board intend to do in respect of their own respective beneficial shareholdings in First Choice which, on 27 June 2007 (being the last practicable date prior to the publication of this document), amounted in aggregate to 3,409,056 First Choice Shares, representing approximately 0.64 per cent. of the existing issued ordinary share capital of First Choice.

Deutsche Bank has an existing relationship with TUI AG, and Lazard is therefore providing advice to the Board in connection with the Merger for the purposes of Rule 3 of the Takeover Code.

Yours faithfully,

Sir Michael Hodgkinson
Chairman
First Choice Holidays PLC

Part II

Explanatory Statement

(in compliance with Section 426 of the Companies Act)

Lazard & Co., Limited
50 Stratton Street
London, W1J 8LL
Registered in England and Wales
No 162175

Deutsche Bank AG, London Branch
1 Great Winchester Street
London, EC2N 2DB
Registered in England and Wales
No BR000005

29 June 2007

To First Choice Shareholders and, for information only, to participants in the First Choice Share Schemes.

Dear Shareholder,

Scheme of Arrangement of First Choice in connection with its recommended merger with TUI AG's tourism division

1. Introduction

On 19 March 2007, the boards of First Choice and TUI AG announced that they had reached agreement on the terms of a recommended merger, to be effected by means of the acquisition by a newly incorporated company, TUI Travel, of both First Choice and TUI Tourism.

Your attention is drawn to the letter from the Chairman of First Choice set out in Part I of this document which sets out the background to and reasons for the Merger and the Scheme, the implications of the Merger and the Scheme for First Choice Shareholders, information on the board of directors and organisation of the Enlarged Group, and the unanimous recommendation by the Board to First Choice Shareholders to vote in favour of the resolutions to be proposed at the Court Meeting and the EGM to be held on 25 July 2007.

The Board has been advised by Lazard and Deutsche Bank in connection with the Merger. Lazard and Deutsche Bank have been authorised by the Board to write to you on its behalf to explain the terms of the Merger and, in particular, the Scheme and to provide you with other relevant information. Statements made in this letter, which refer to TUI AG's reasons for the Merger and to the intentions and expectations regarding TUI Tourism and the Enlarged Group reflect the views of the TUI AG directors. Statements made in, or deemed to be included in, this letter which refer to the background to and reasons for the recommendation of the First Choice Directors reflect the views of the First Choice Directors. Other information on the businesses of TUI Tourism and First Choice reflects the beliefs of the TUI AG Directors or the First Choice Directors, as the case may be, unless otherwise indicated.

This Explanatory Statement contains a summary of the terms of the Merger and the provisions of the Scheme. The terms of the Scheme are set out in full in Part III of this document. Your attention is also drawn to the other parts of this document, which are deemed to form part of this Explanatory Statement, including a letter from the Chairman of First Choice in Part I, the financial information in Part IV, the additional information set out in Part V and the definitions in Part VI.

The attention of Overseas Shareholders is drawn to paragraph 8 of Part V of this document.

This letter and the rest of this document should be read in conjunction with the accompanying Prospectus which contains further information, including risk factors associated with the TUI Travel Shares, information about the Enlarged Group's business, details of the Merger, the TUI Travel Directors, corporate governance and employees of TUI Travel and financial information on First Choice, TUI Tourism, TUI Travel and the Enlarged Group.

2. The terms and effects of the Merger for First Choice Shareholders

It is intended that the Merger will be implemented through the acquisition by TUI Travel, a newly incorporated holding company, of both First Choice and TUI Tourism (in the case of First Choice, by way of a scheme or arrangement under section 425 of the Companies Act 1985).

Under the terms of the Merger, holders of First Choice Shares (pursuant to the Scheme) will receive:

for each First Choice Share	one TUI Travel Share

Paragraph 7 below sets out details of the approvals from First Choice Shareholders and the Court which are required for the Scheme to become effective.

The acquisition of TUI Tourism will be effected by means of a share exchange pursuant to which TUI AG will complete the transfer of TUI Tourism to TUI Travel in consideration for TUI Travel Shares and for TUI Travel assuming €875 million of net debt (inclusive of pension liabilities). Further details of the transfer of TUI Tourism to TUI Travel are set out in paragraph 4 of Part III of the Prospectus.

As a result of the Merger (and on a fully diluted basis) the First Choice Shareholders will hold in aggregate 49 per cent. of the issued share capital of TUI Travel and TUI AG will hold 51 per cent. of the issued share capital of TUI Travel. All TUI Travel Shares to be issued to First Choice Shareholders and to TUI AG will be ordinary shares, credited as fully paid, and will rank *pari passu*.

Completion is subject to certain clearances, approvals and other conditions, further details of which are set out in paragraph 5 below.

A Relationship Agreement has been entered into between TUI AG and TUI Travel to record their understanding in respect of the governance of TUI Travel and the exercise of the entitlements of TUI AG in respect of its TUI Travel Shares following Completion. A summary of the Relationship Agreement, together with the key terms of the Merger Agreement, are set out in paragraph 6 below.

Applications will be made to the UKLA and the London Stock Exchange for the cancellation of the listing on the Official List and of the trading on the London Stock Exchange of the First Choice Shares respectively. It is also intended that the TUI Travel Shares will be admitted to the Official List of the UKLA and to trading on the London Stock Exchange on the Scheme Effective Date.

The First Choice Directors have unanimously recommended that First Choice Shareholders vote in favour of the Merger and the Scheme at the Court Meeting and the EGM.

3. Information on First Choice

First Choice is a leading international leisure travel company headquartered in Crawley, in the UK. It operates in 17 major source markets across more than 80 brands, employing over 15,000 people. It has successfully transformed itself into a leading international leisure travel company, comprising a UK mainstream tour operator and a portfolio of niche specialist businesses across the world, that create added value experiences for its customers. Although First Choice's many brands offer a variety of leisure travel experiences, the business model across First Choice is focused on differentiation and flexibility.

First Choice operates in four principal sectors:

- Mainstream Holiday Sector—this sector consists of the UK and Ireland tour operating, retail and airline businesses. Its clear strategy has led to a focus on developing differentiated and exclusive products, such as its six Holiday Villages. It operates 33 aircraft, and has invested significantly in its long haul programme. Its six re-configured B767s offer customers an enhanced in-flight entertainment experience. In addition, First Choice has recently announced that it has exercised a further four options on the new Boeing 787 Dreamliner to bring the total firm order to twelve aircraft.
- Specialist Holiday Sector—this sector consists of the Continental European and UK Specialist businesses, and a number of businesses operating in North America including a student travel business and a Canadian tour operator. All the businesses within this sector have either destination or product expertise, and operate from 13 source countries with expert local

management teams that understand both their market and their customers' needs. These businesses develop leisure travel experiences that cater for a specific marketplace or lifestyle and include brands such as Sovereign, Marmara, StudentCity.com and Travcoa.

- Activity Holiday Sector—this sector consists of three divisions: the Marine division includes First Choice Marine which operates the market-leading yacht chartering brands of The Moorings and Sunsail, Sunsail Clubs and Inland Waterways. The Adventure division consists of a portfolio of 16 adventure travel businesses across seven source markets offering a range of experiences including trekking and expedition cruising, with the division experiencing high consumer demand for these travel experiences. The Escorted Tours division consists of six brands that operate specialist escorted tours for the US source market, whose customer base is drawn primarily from the growing "boomer" demographic in the US.
- Online Destination Services Sector—this sector has operations in 16 countries with 67 offices, providing accommodation online and services in destination as well as specialised services to cruise lines and the management of meetings and incentives activities for companies. It is focused on two strategic distribution channels—Business to Business with the Hotelbeds and Bedsonline brands and Business to Consumer with the Hotelopia brand. The business has successfully leveraged its strong relationship with local bed suppliers to build a bed bank of 25,000 hotels and apartments in over 2,000 tourist areas across 900 destinations. Clients include over 1,800 tour operators and 7,000 travel agents who can access this bed bank online, and in 2006, the sector sold 9.5 million bed nights.

For the financial year ended 31 October 2006, First Choice generated revenues of £2,899 million (2005: £2,647 million), EBITDA (including First Choice's share of results of associates and joint ventures) of £176.9 million (2005: £163.7 million), and underlying operating profit of £139.0 million (2005: £123.3 million).

As at 31 October 2006, First Choice had shareholders' capital excluding minority interests of £281 million and net debt of £103 million.

As at close of business on 27 June 2007 (being the latest practicable date prior to publication of this document), First Choice had a market capitalisation of £1,637 million (based on the closing price of 308.50 pence for each First Choice share and 530,577,303 First Choice Shares in issue), and is traded on the London Stock Exchange.

Further Information

Further information on First Choice is set out in paragraph 13 of Part I of this document and Parts VII and VIII of the Prospectus.

4. Information on TUI AG and TUI Tourism

TUI AG

TUI AG was formerly known as Preussag AG and is headquartered in Hanover, Germany. A change of name to TUI AG took place in June 2002. Until the mid-1990s, TUI AG operated predominantly in the areas of industry, transport and natural resources. After a number of significant disposals and acquisitions, today, TUI AG's core businesses are Tourism and Shipping.

- The Tourism division comprises four main sectors: Central Europe, Northern Europe, Western Europe and other Tourism (which includes Destination Services and Hotels & Resorts). Following the Merger, TUI AG will retain a majority of its current hotels and resorts business.
- The Shipping division comprises Hapag-Lloyd Container Line and Hapag-Lloyd Kreuzfahrten. Hapag-Lloyd Container Line is one of the world's top five container lines in the growth market of container shipping, operating globally with a total of 138 vessels and holding containers with a total capacity of 1,015,000 TEU. Hapag-Lloyd Kreuzfahrten is a premium and luxury cruise company focusing on lifestyle and experience cruises on all the world's seas. With four cruise vessels, Hapag-Lloyd Kreuzfahrten has established itself as a leading provider of cruises in German-speaking countries. The Shipping division will not form part of the Merger and will remain directly owned by TUI AG.

For the financial year ended 31 December 2006, TUI AG reported turnover of €20.5 billion (2005: €18.2 billion), EBITDA of €939 million (2005: €1.12 billion), and profit before tax of minus €736 million (2005: positive €387 million) from continuing operations. As at 31 December 2006, TUI AG had shareholders' capital excluding minority interests of €2.7 billion and net debt of €3.2 billion. As at 31 December 2006, TUI AG employed 53,930 employees worldwide.

As at close of business on 27 June 2007 (being the latest practicable date prior to publication of this document), TUI AG had a current market capitalisation of €4.99 billion (based on the closing price of €19.89 for each share in TUI AG and 251 million TUI AG shares outstanding) and is a member of Germany's blue-chip DAX 30 Index.

TUI Tourism

TUI Tourism has emerged as a leading European tour operator. The principal events that have led to this include the acquisition of the British tourism group Thomson Travel Group PLC in 2000, the acquisition of the French tourism company Nouvelles Frontières in 2002 and the expansion of TUI Tourism's airline business via acquisitions of Hapag-Lloyd Express in Germany in 2002, of TUI Airlines Belgium in 2004 and of Thomsonfly in the UK in 2000.

TUI Tourism is a one-stop shop for leisure travel related products, and has established itself as a leader in the European travel market. Whether for component web-based bookings or package tours, TUI Tourism covers the entire travel chain in more than 70 holiday destinations for over 20 million customers. Its portfolio comprises around 3,200 travel agencies, 70 market-leading tour operator brands, over 120 aircraft, and over 40 inbound agencies as well as access to over 165,000 hotel beds.

TUI Tourism consists of TUI AG's tourism division, excluding certain hotel assets, and operates in four main sectors:

- The Central Europe sector comprises the distribution and tour operator business in Germany, Switzerland, Austria and the Eastern European markets as well as the airlines Hapag-Lloyd Flug and Hapag-Lloyd Express.
- The Northern Europe sector comprises the distribution and tour operator business in the UK, Ireland and the Nordic countries as well as the airlines TUI Fly Nordic and Thomsonfly.
- The Western Europe sector comprises the distribution and tour operator business in France, the Netherlands and Belgium as well as the following airlines: Corsair, TUI Airlines Nederland and TUI Airlines Belgium.
- The Destinations sector covers TUI Travel's consolidated and associated incoming agencies from shareholdings in 35 agencies in 36 countries as well as Nordotel, Atlantika and Safeharbour.

For the financial year ended 31 December 2006, TUI Tourism had revenue of £9,393 million (€13,714 million), EBITDA of £291 million (€424 million) and underlying operating profit of £185 million (€271 million). As at 31 December 2006, TUI Tourism had net assets of £2,203 million (€3,216 million).

Further information

Further information on TUI AG's business is set out in Section B of Part IV of this document.

Further information on TUI Tourism's business is set out in Parts V and VI of the Prospectus.

5. Conditions to the Merger

On announcement, the Merger was subject to (amongst other things) the satisfaction of certain conditions, including the receipt of appropriate competition clearances. Such clearances have now been received.

The conditions which must be satisfied (or, where applicable, waived by First Choice and TUI AG) in order for the Scheme and the Merger to become effective are summarised below. First Choice will

not petition the Court to sanction the Scheme unless the conditions to the Merger have been satisfied (or, where applicable, waived).

In summary, the implementation of the Merger is conditional upon:

(a) the approval of the Scheme by a majority in number representing 75 per cent. or more in value of the First Choice Shareholders present and voting, either in person or by proxy, at the Court Meeting;

(b) the resolutions to approve matters to give effect to the Scheme being duly passed by the requisite majority of First Choice Shareholders at the EGM;

(c) the sanction of the Scheme and confirmation of the reduction of capital involved therein by the Court (in either case, with or without modification, on terms acceptable to First Choice and TUI AG) and the subsequent registration of the Reduction Court Order by the Registrar of Companies in England and Wales;

(d) Admission occurring;

(e) the Merger having been cleared by the European Commission under the Council Regulation (EC) No. 139/2004;

(f) the Merger having been cleared by any relevant non-EU competition authorities and no notice of any action, which would make the Merger unenforceable or illegal or impose material conditions on the parties with respect to the Merger, having been received from any regulatory body in any jurisdiction;

(g) the Takeover Panel granting a specific waiver from the requirements of Rule 9 of the Takeover Code in respect of the issue of TUI Travel Shares to TUI AG; and

(h) TUI AG and First Choice having obtained all necessary consents from the providers of their bonding and other finance facilities, or replacement facilities having been arranged.

Neither First Choice nor TUI AG is entitled to invoke a Condition (other than the Conditions referred to in paragraphs (d), (e) and (f) above) unless the circumstances which give rise to invoke the Condition are of material significance in the context of the Merger.

On 4 June 2007, the European Commission declared the Merger compatible with the common market and cleared the Merger in a phase I clearing decision, subject to the disposal of TUI Tourism's Budget Travel business in Ireland. It is intended that TUI AG will transfer Budget Travel to TUI Travel as part of the TUI Tourism Group, and that Budget Travel will be disposed of in accordance with the disposal commitments given to the European Commission as a condition of its merger clearance.

The Takeover Panel has agreed to grant a waiver from the requirements of Rule 9 of the Takeover Code subject to the Whitewash Resolution being approved at the EGM, as described in paragraph 8 of Part I of this document.

6. Merger Agreement, Relationship Agreement and other arrangements between TUI Travel and TUI AG

Merger Agreement and inducement fees

On 19 March 2007, TUI AG, First Choice and TUI Travel entered into the Merger Agreement in connection with the Merger. The Merger Agreement sets out the terms on which TUI Travel will acquire each of First Choice and TUI Tourism. In addition, the Merger Agreement has governed, and will continue to govern, the relationship between TUI AG and First Choice until the Merger becomes effective or lapses.

Pursuant to the Merger Agreement, each of TUI AG and First Choice has undertaken to co-operate and take all steps that are within their power and are both reasonable and necessary to implement the Merger and has given certain undertakings in relation to the conduct of its respective business in the period prior to the implementation of the Merger. Each of TUI AG and First Choice has also agreed not to actively solicit any alternative transaction that would be inconsistent with implementing the Merger.

TUI AG has given First Choice high-level warranties covering certain information provided to First Choice in respect of the business of TUI Tourism. In addition, the Merger Agreement contains a tax indemnity under which TUI AG covenants with First Choice that it will indemnify TUI Travel in respect of tax incurred by TUI Travel relating to, amongst other matters, certain events occurring prior to Completion and the transfer of TUI Tourism to TUI Travel.

The Merger Agreement also provides that TUI Travel shall assume €875 million of net debt (inclusive of pensions liabilities). This assumption of the net debt will be effected in the following manner: accounts of TUI Tourism will be prepared as at the date of Completion. From such accounts, the amounts of net debt and working capital shall be determined as at Completion, except that the amount of pension liabilities shall be as at 31 December 2006. To the extent that the net debt (inclusive of pension liabilities) is less than €875 million, additional cash consideration will be due from TUI Travel to TUI AG in respect of the acquisition of TUI Tourism. This amount will remain outstanding as debt due to TUI AG on the terms of the Shareholder Loan Agreement described in paragraph 12.1.3 of Part XI of the Prospectus. To the extent that net debt (inclusive of pension liabilities) is greater than €875 million the non-share consideration due from TUI Travel to TUI AG in respect of the acquisition of TUI Tourism will be reduced by such difference and TUI AG will settle such difference by a cash payment to TUI Travel.

An amount of target working capital will be agreed and the difference between the target working capital amount and the actual amount of working capital will be established. To the extent that actual working capital exceeds or is less than target working capital, a further adjustment will be made. If working capital exceeds target working capital, an amount equal to the excess will be due from TUI Travel to TUI AG and will remain outstanding as a debt due to TUI AG on the terms of the Shareholder Loan Agreement. If working capital is less than target working capital, an amount equal to such shortfall will be settled by a cash payment from TUI AG to TUI Travel.

The Merger Agreement may be terminated by TUI AG or First Choice in certain circumstances, including where any regulatory authority irrevocably blocks the Merger, where First Choice Shareholders fail to approve the Scheme at the Court Meeting or fail to pass the resolutions relating to the Merger at the EGM, where the Court fails to sanction the Scheme or a material adverse change occurs (referable to agreed benchmarks) which affects First Choice or TUI Tourism (as the case may be).

TUI AG has agreed to pay First Choice an inducement fee of £15 million (inclusive of any amounts in respect of VAT) if the Merger fails and:

(a) an Independent Competing Offer for TUI AG or TUI Tourism is announced and becomes or is declared wholly unconditional; or

(b) First Choice exercises its right to terminate the Merger Agreement for an unremedied breach by TUI AG of its obligations under the Merger Agreement.

First Choice has agreed to pay TUI AG an inducement fee of £15 million (inclusive of any amounts in respect of VAT) if the Merger fails and:

(a) an Independent Competing Offer for First Choice is announced and becomes or is declared wholly unconditional;

(b) the First Choice Directors withdraw or adversely modify their recommendation of the Merger; or

(c) TUI AG exercises its right to terminate the Merger Agreement for an unremedied breach by First Choice of its obligations under the Merger Agreement.

Relationship Agreement and other arrangements between TUI Travel and TUI AG

Following Completion, TUI AG will hold 51 per cent. of the TUI Travel Shares on a fully diluted basis. The Relationship Agreement records the understanding between TUI AG and TUI Travel regarding the relationship between them and the governance of TUI Travel. The Relationship Agreement was entered into on 29 June 2007 to take effect conditional upon Completion.

The Relationship Agreement will remain in force until either the TUI Travel Shares are no longer admitted to listing on the Official List and to trading on the London Stock Exchange, or TUI AG has

less than 10 per cent. of the rights to vote at general meetings of TUI Travel. In addition, in the event that a person (acting alone or in concert with other persons) acquires control of TUI AG during the term of the Relationship Agreement, TUI AG will lose certain rights under the Relationship Agreement including its rights in respect of the composition of the TUI Travel Board described below.

The Relationship Agreement sets out the agreement of TUI AG and TUI Travel as to the composition of the TUI Travel Board as follows:

(a) the TUI Travel Board shall have a maximum of 17 Directors, a majority of whom shall be independent;

(b) for so long as TUI AG holds 30 per cent. or more of the voting rights in TUI Travel, it may appoint two Non-Executive TUI Travel Directors to the TUI Travel Board (being "Shareholder Directors");

(c) for so long as TUI AG holds 40 per cent. or more of the voting rights in TUI Travel, it may appoint one of its Shareholder Directors as the chairman of the TUI Travel Board, in which case the chief executive of TUI Travel will be appointed by the TUI Travel Board but subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment of a chief executive, the matter will be put to the vote of the shareholders of TUI Travel (including TUI AG);

(d) for so long as TUI AG holds 40 per cent. or more of the voting rights in TUI Travel, it may relinquish its right to appoint the chairman of the TUI Travel Board and in return have the right to appoint the chief executive of TUI Travel who shall constitute one of TUI Travel's two Shareholder Directors. If this right is invoked, the chairman will be appointed by the TUI Travel Board but subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the matter will be put to the vote of the shareholders of TUI Travel (including TUI AG);

(e) if TUI AG holds less than 40 per cent. of the voting shares of TUI Travel, for so long as it holds 30 per cent. or more of the voting rights in TUI Travel, the TUI Travel Board will appoint the chairman but subject to TUI AG's prior approval, provided that if TUI AG rejects three candidates nominated by the TUI Travel Board, TUI AG may nominate a candidate whose appointment will require the support of at least three independent non-executive TUI Travel Directors. If this process does not lead to an appointment, the matter will be put to the vote of the shareholders of TUI Travel (including TUI AG);

(f) the nomination committee of TUI Travel will nominate the rest of the TUI Travel Directors, who will be appointed and/or removed by the TUI Travel Board; and

(g) it is agreed that any person nominated and/or appointed to a position on the TUI Travel Board shall have appropriate experience and qualification for his or her role.

In addition, TUI AG has agreed that it will exercise its voting rights in relation to class 1 transactions under the Listing Rules in accordance with the recommendation given by the TUI Travel Board unless all of the directors appointed by TUI AG have dissented to or abstained from such recommendation.

TUI Travel has agreed that it will not (other than on the exercise of certain share options) issue any shares if the effect will be to reduce TUI AG's voting rights. If TUI Travel issues shares other than on a pre-emptive basis, TUI AG will have the right to subscribe for TUI Travel Shares at market value in order to restore the pre-existing level of its voting rights.

TUI AG has agreed that it will not, for a period of 12 months following Admission, dispose of any TUI Travel Shares without the consent of TUI Travel, other than (i) in each of the two consecutive periods of six months immediately following Admission, the disposal of TUI Travel Shares constituting, in aggregate, no more than 10 per cent. of issued share capital then in issue either in the market (subject to orderly market restrictions) or to a single purchaser (who has agreed to be

bound by equivalent lock-up restrictions); (ii) intra group transfers of TUI Travel Shares; and (iii) the acceptance of a takeover offer in accordance with the Takeover Code.

Disposals of TUI Travel Shares by TUI AG after the expiry of the 12 month period following Admission will be effected after consultation with the TUI Travel Board.

Further, TUI AG has agreed that it will not acquire any TUI Travel Shares other than (i) acquisitions, that would increase its shareholding to not more than 55 per cent.; (ii) consequential increases in TUI AG's percentage of TUI Travel Shares as a result of a purchase by TUI Travel of its own shares; or (iii) where TUI AG makes a general offer to acquire all TUI Travel Shares then in issue.

TUI Travel has agreed that each of the following matters will require the prior approval of 80 per cent. of the TUI Travel Directors present at the meeting of the TUI Travel Board at which such matter is considered:

(a) any material alteration (including cessation) to the general nature of the business of any Group Company;

(b) the sale, transfer, leasing, licensing or disposal by any Group Company (other than in the normal course of trading) of all or a substantial part of its business, undertaking or assets, the transfer of any shares in the capital of any Group Company or the acquisition of any share capital or loan capital of, or the entry into of any partnership or joint venture arrangement or merger with, any body corporate, whether by a single transaction or series of transactions, related or not, where such transaction or series of transactions exceed a value of £10,000,000;

(c) the entry into by any Group Company of any new borrowing facility, the variation of the terms of any borrowing facilities or the issue or redemption prior to its due date of any loan capital; and

(d) the approval of an annual budget comprising short term business plans of the Enlarged Group in relation to profit, investment and financial planning.

In addition, TUI Travel shall avoid doing any of the following, which may cause TUI AG to be in breach of any of the restrictions under TUI AG's current bond facilities in the absence of any permitted exemption:

(a) borrowing any monies from external financial institutions in excess of the Enlarged Group's outstanding borrowings as at Completion, save in respect of the refinancing of such borrowings;

(b) creating or permitting to exist any liens over the Enlarged Group's assets other than those arising by operation of law or already in existence as at Completion (or arising pursuant to any refinancing referred to in (a) above);

(c) selling any of the Enlarged Group' assets other than for fair market value, at least 75 per cent. of which is paid in cash, with such proceeds being used to repay indebtedness or to invest in properties and assets used in the Enlarged Group's business;

(d) guaranteeing or permitting any Group Company to guarantee the debt of the Enlarged Group;

(e) creating or permitting to exist any restrictions on the Enlarged Group's ability to pay dividends, make inter-company loans, repay inter-company indebtedness, or transfer its assets to another member of TUI Travel's or TUI AG's group;

(f) merging with or selling all of the Enlarged Group's assets to another person; or

(g) failing to repay any indebtedness or pay any final judgment which amounts to more than €25 million.

TUI Travel and TUI AG will discuss any proposed course of action which may be permitted by an exemption to such restrictions and if there is doubt as to whether such exemption applies to any particular case, TUI AG's decision on the matter shall be final.

TUI Travel and TUI AG have also entered, or will also enter, into the following agreements with effect from Completion:

(a) The Shareholder Loan Agreement, which was entered into on 29 June 2007, under which TUI AG will lend a maximum amount of €2 billion to TUI Travel. This agreement will provide TUI Travel with funds for general corporate purposes for the period from Completion until the date three years after TUI Travel is no longer restricted from raising external finance by the terms of the Relationship Agreement (as referred to above).

(b) The Hotel Framework Agreement, which was entered into on 26 June 2007 , which governs the commercial relationship between TUI AG and TUI Travel in respect of the distribution of hotel beds forming the hotel portfolio interests retained by TUI AG on Completion.

(c) The Trademark Licensing Agreement, under which TUI AG will grant to TUI Travel an exclusive right to use the trademark "TUI Travel".

Further details of the Relationship Agreement, Shareholder Loan Agreement, Hotel Framework Agreement and Trademark Licensing Agreement are set out in paragraph 12 of Part XI of the Prospectus.

7. Structure of the Scheme

Introduction

As described above, the Merger is to be effected by a series of steps including the Scheme for the introduction of TUI Travel as First Choice's new holding company and the acquisition by TUI Travel of TUI Tourism.

The Scheme is a legal process under the Companies Act by means of which Scheme Shares will be cancelled and new TUI Travel Shares will be issued to the holders of Scheme Shares.

Under the terms of the Scheme, the Scheme Shares held at the Scheme Record Time will be cancelled and approximately 547,837,081 new shares in First Choice of 3 pence each will be issued to TUI Travel.

The Scheme also requires the sanction of the Court, as well as satisfaction and waiver of the other conditions set out in paragraph 5 above.

In order for the Scheme to become effective, the following procedure, as set out in the Companies Act, must be adopted:

(a) the Court Meeting will be held, at which a majority in number of First Choice Shareholders representing not less than three-quarters in nominal value of the First Choice Shares, present and voting in person or by proxy at such meeting, agree to the Scheme;

(b) the Special Resolution approving the Scheme and the reduction of capital involved therein (requiring a majority of at least three-quarters of the votes cast by person or by proxy) must be passed at the EGM. This EGM will be held on the same day as the Court Meeting;

(c) the Court must sanction the Scheme at the Scheme Court Hearing and issue the Scheme Court Order approving the Scheme;

(d) the Court must sanction the reduction of capital associated with the Scheme at the Reduction Court Hearing and issue the Reduction Court Order confirming the reduction of capital; and

(e) an office copy of the Scheme Court Order and the Reduction Court Order must be delivered to the Registrar of Companies for registration and, in the case of the Reduction Court Order, be registered by him (whereupon the Scheme will immediately become effective).

The last day of dealings in, and for registrations of transfers of, and disablement of CREST in relation to, First Choice Shares will be the last Business Day prior to the Effective Date (expected to be 31 August 2007). On the Effective Date, First Choice Shares will be de-listed from the Official List and from the London Stock Exchange's market for listed securities.

On the Effective Date, share certificates in respect of the Scheme Shares will cease to be valid and should be destroyed. In addition, on the Effective Date entitlements to Scheme Shares held within the CREST system will be cancelled and TUI Travel Shares shall be admitted to listing on the Official List and to trading on the London Stock Exchange's market for listed securities.

The TUI Travel Shares to be issued to First Choice Shareholders will be issued credited as fully paid and free from all liens, encumbrances, charges or other third party rights and/or interests whatsoever.

The Scheme is set out in full in Part III of this document.

The Meetings

Before the Court's approval can be sought to sanction the Scheme, the Scheme will require approval by the First Choice Shareholders at the Court Meeting and the passing of the Special Resolution by First Choice Shareholders at the EGM.

Notices of the Court Meeting and the EGM are set out at the end of this document.

All holders of First Choice Shares whose names appear on the register of members of First Choice at the Voting Record Time (being 6.00 p.m. on 23 July 2007 or, if either the Court Meeting or the EGM is adjourned, on the date two days prior to the date set for the adjourned Meeting) shall be entitled to attend and vote at the Court Meeting and the EGM in respect of the number of First Choice Shares registered in their name at such time.

Court Meeting

The Court Meeting has been convened for 10.00 a.m. on 25 July 2007 at Exchange House, Primrose Street, London EC2A 2HS. All First Choice Shareholders are entitled to attend the Court Hearings in person or through counsel to support or oppose the sanctioning of the Scheme.

The Court Meeting is being held at the direction of the Court for the purpose of enabling First Choice Shareholders to consider and, if thought fit, approve the Scheme in order for the Court to be satisfied that the Scheme has sufficient shareholder support. The Court will not grant the Scheme Court Order unless the Scheme is approved by First Choice Shareholders at the Court Meeting by the requisite statutory majority.

At the Court Meeting, voting will be by poll and each member present in person or by proxy will be entitled to one vote for each First Choice Share held at the Voting Record Time. In order for the Scheme to be approved at the Court Meeting, those voting to approve the Scheme must:

(a) represent a simple majority in number of those First Choice Shareholders present and voting in person or by proxy; and

(b) represent not less than three-quarters in nominal value of the First Choice Shares held by those First Choice Shareholders present and voting in person or by proxy.

At the Court Meeting, it is particularly important that as many votes as possible are cast so that the Court may be satisfied that there is a fair representation of First Choice Shareholder's opinions. You are therefore strongly urged to sign and return your Forms of Proxy for both the Court Meeting and the EGM as soon as possible.

The Extraordinary General Meeting

The EGM has been convened for 10.15 a.m. on 25 July 2007 at Exchange House, Primrose Street, London EC2A 2HS (or as soon thereafter as the Court Meeting has been concluded or adjourned), to consider and, if thought fit, pass the following resolutions:

(a) the Special Resolution to:

(i) approve the Scheme of Arrangement and to approve the participation by First Choice in the Merger as set out or referred to in this document and the Merger Agreement;

(ii) approve the reduction of share capital of First Choice resulting from the cancellation of Scheme Shares under the Scheme;

(iii) approve the issue of new First Choice Shares to TUI Travel in accordance with the Scheme by way of a capitalisation of the reserve arising from the cancellation of the Scheme Shares;

(iv) authorise the Directors to allot new First Choice Shares to TUI Travel;

(v) amend the articles of association of First Choice as described below and as fully set out in the Notice of EGM set out at the end of this document; and

(b) ordinary resolutions:

(i) approving (on a poll of independent First Choice Shareholders) the waiver by the Takeover Panel of the obligation which would otherwise arise for TUI AG to make a general offer for TUI Travel under Rule 9 of the Takeover Code, as described in paragraph 8 of Part I of this document; and

(ii) approving the rules of the TUI Travel share schemes which are described in paragraph 14 below.

The Special Resolution will require votes in favour of not less than three-quarters of the votes cast. The Chairman of First Choice intends to exercise his right to demand that the vote of the First Choice Shareholders at the EGM be held by way of a poll and, in such event, each First Choice Shareholder who was entered on the register of members of First Choice at the Voting Record Time and is present in person or by proxy will be entitled to one vote for each First Choice Share so held.

Proxies

Whether or not First Choice Shareholders plan to attend the Meetings, they are urged to complete and sign both the BLUE and WHITE Forms of Proxy and return them as soon as possible to the Company's registrar, Lloyds TSB Registrars, at the address set out on the Forms of Proxy, but in any event so as to be received by no later than 10.00 a.m. on 23 July 2007, in the case of the Court Meeting (BLUE form) and by no later than 10.15 a.m. on 23 July 2007, in the case of the EGM (WHITE form).

This will enable your votes to be counted at the Meetings in the event of your absence. If the BLUE Form of Proxy for use at the Court Meeting is not lodged with Lloyds TSB Registrars by 10.00 a.m. on 25 July 2007, it may be handed to Lloyds TSB Registrars on behalf of the Chairman of the Court Meeting at the start of the Meeting.

Alternatively, First Choice Shareholders who hold First Choice Shares in uncertificated form (i.e. in CREST) may vote using the CREST Proxy Voting Service in accordance with the procedures set out in the CREST Manual (please also refer to accompanying notes for the notice of EGM set out at the end of this document). Proxies submitted via CREST must be transmitted so as to be received by Lloyds TSB Registrars (under CREST participant ID 7RA01) not later than 10.00 a.m. on 23 July 2007 in the case of the Court Meeting or by 10.15 a.m. on 23 July 2007 in the case of the EGM.

Amendments to First Choice Articles

The Scheme will take effect in relation to the following First Choice Shares in issue at the Scheme Record Time:

(i) all of the ordinary shares of First Choice issued prior to the Voting Record Time (as defined in the Scheme); and

(ii) any First Choice Shares issued on or after the Voting Record Time and before 6.00 p.m. on the Business Day immediately preceding the day of the Reduction Court Order on terms that the holder thereof shall be bound by the Scheme or in respect of which the original or any subsequent holder thereof agrees in writing to be so bound.

As mentioned above, it is proposed that the articles of association of First Choice be amended at the EGM to ensure that any First Choice Shares issued under the First Choice Share Schemes (or otherwise) between the Voting Record Time and 6.00 p.m. on the Business Day immediately preceding the day of the Reduction Court Order will be subject to the Scheme.

It is also proposed to amend the articles of association of First Choice so that any First Choice Shares issued to persons other than TUI Travel and/or its nominee(s) ("**New Members**") on or after 6.00 p.m. on the Business Day immediately preceding the day of the Reduction Court Order will be automatically transferred (immediately after the Scheme Effective Time or, if later, upon the issue of such First Choice Shares) to TUI Travel and/or its nominee(s) and, in consideration for such transfer, the New Members will receive TUI Travel Shares following the Scheme Effective Time (or, if later, immediately following such transfer). This will avoid any person (other than TUI Travel) being left with First Choice Shares after dealings in such shares have been suspended and/or their listing has been cancelled.

Copies of First Choice's existing articles of association and copies of the articles of association as proposed to be amended at the EGM are available for further inspection at the offices of Herbert Smith LLP, Exchange House, Primrose Street, London EC2A 2HS during normal business hours on a weekday (Saturdays, Sundays and public holidays excepted) until the close of the EGM and will also be available for inspection at the place of the EGM for at least 15 minutes prior to, and during, the EGM.

Sanction of the Scheme by the Court

Under the Companies Act, the Scheme requires the sanction of the Court and the confirmation by the Court of the associated reduction of capital. The Scheme Court Hearing is expected to be held on 29 August 2007 and the Reduction Court Hearing is expected to be held on 31 August 2007. TUI Travel has confirmed that it will be represented by counsel at the Scheme Court Hearing and the Reduction Court Hearing so as to consent to the Scheme and to undertake to the Court to be bound thereby.

The Scheme will become effective in accordance with its terms on delivery of an office copy of the Scheme Court Order and of the Reduction Court Order to the Registrar of Companies, and the registration by him of the Reduction Court Order.

If the Scheme becomes effective, it will be binding on First Choice and all holders of Scheme Shares, including any holders of First Choice Shares and who did not vote to approve the Scheme or who voted against the Scheme.

If the Scheme does not become effective by 31 October 2007 (or such later date (if any) as TUI Travel and First Choice may agree and the Court may allow) the Scheme will not become effective and the Merger will not proceed.

8. Listings, dealings and settlement

Listings and dealings in First Choice Shares and TUI Travel Shares

First Choice Shares may only be traded on the London Stock Exchange until immediately prior to the Scheme Record Time which is expected to be at 6.00 p.m. on 31 August 2007. At the Scheme Record Time, the admission to trading of the First Choice Shares on the London Stock Exchange will be suspended and no transfers of First Choice Shares will be registered thereafter.

Applications will be made to the UK Listing Authority and the London Stock Exchange for the cancellation of the listing of the First Choice Shares on the Official List and of the trading in First Choice Shares on the London Stock Exchange's main market for listed securities respectively, with effect from 8.00 a.m. on the Scheme Effective Date.

With effect from the Scheme Effective Date, each existing certificate representing a holding of Scheme Shares shall cease to be valid in respect of such holding and each holder of Scheme Shares shall be bound at the request of First Choice to deliver up the same to First Choice or to any person appointed by First Choice to receive the same for cancellation or to destroy such share certificate.

With effect from the Scheme Effective Date, CRESTCo will be instructed to cancel entitlements to Scheme Shares held in uncertificated form.

Application will be made to the UK Listing Authority for the TUI Travel Shares to be admitted to the Official List in accordance with the Listing Rules and to the London Stock Exchange for the TUI Travel Shares to be admitted to the London Stock Exchange's main market for listed securities. It is expected that Admission will become effective and that dealings, for normal settlement, will commence at 8.00 a.m. on the Scheme Effective Date which, subject to the sanction of the Scheme by the Court and the satisfaction of the other conditions of the Merger, is expected to be on 3 September 2007.

Settlement

Subject to the Merger becoming effective (and except as provided in paragraph 8 of Part V of this document in relation to certain Overseas Shareholders), settlement of the consideration to which any First Choice Shareholder is entitled under the Scheme will be effected in the following manner:

First Choice Shares in uncertificated form, (that is, in CREST)

Where, at the Scheme Record Time, a First Choice Shareholder holds First Choice Shares in uncertificated form, the TUI Travel Shares to which such First Choice Shareholder is entitled will be issued to such person in uncertificated form through CREST. TUI Travel will procure that CRESTCo is instructed to credit the appropriate stock account in CREST of such First Choice Shareholder with such person's entitlement to TUI Travel Shares at the commencement of dealings in the TUI Travel Shares.

As from the Scheme Record Time, each holding of First Choice Shares credited to any stock account in CREST will be disabled and all First Choice Shares will be removed from CREST in due course.

TUI Travel reserves the right to issue the TUI Travel Shares referred to in this section to all or any First Choice Shareholder(s) in certificated form in the manner referred to below if, for any reason, it wishes to do so.

First Choice Shares in certificated form (that is, outside CREST)

Where, at the Scheme Record Time, a First Choice Shareholder holds First Choice Shares in certificated form, the TUI Travel Shares to which such First Choice Shareholder is entitled will be issued in certificated form. Definitive certificates for TUI Travel Shares will be despatched by first class post, airmail if overseas, (or such other method(s) as may be approved by the Takeover Panel and the UK Listing Authority) to the address appearing in the register of members of First Choice at the Scheme Record Time (or, in the case of joint holders, to the holder whose name appears first in such register in respect of the joint holding concerned) or in accordance with any applicable special instructions received by Lloyds TSB Registrars regarding communications prior to the Scheme Record Time. Definitive certificates will be issued as soon as practicable and no later than 14 days after the Scheme Effective Date.

General

All documents sent to First Choice Shareholders will be sent at their own risk.

In relation to TUI Travel Shares to be issued in certificated form, temporary documents of title will not be issued pending the despatch by post of definitive certificates for such TUI Travel Shares as referred to above. Pending the issue of definitive certificates for such TUI Travel Shares, former First Choice Shareholders wishing to register transfers of such TUI Travel Shares may certify their share transfer forms against the register of members of TUI Travel by contacting Lloyds TSB Registrars. On the registration of any such transfers, the transferee will receive a TUI Travel share certificate.

All mandates relating to the payment of dividends and other instructions (or deemed instructions) given (or deemed given) to First Choice by First Choice Shareholders in force at the Scheme Effective Time relating to holdings of First Choice Shares (including, without limitation, instructions in

relation to summary financial statements) will, unless and until amended or revoked, be deemed as from the Scheme Effective Time to be effective mandates or instructions in respect of the corresponding TUI Travel Shares.

9. The First Choice Directors and the effect of the Scheme on their interests

The interests of the First Choice Directors in the share capital of First Choice are as set out in paragraph 3.2(a) of Part V of this document.

In common with the other participants in the First Choice Share Schemes, First Choice Directors who are holders of options or awards under those schemes will be able to exercise or exchange their options as described in further detail in paragraph 13 of this Part II.

Details of the current service contracts (including termination provisions) of the executive directors of First Choice and the current letters of appointment of the non-executive directors of First Choice are set out in paragraph 7 of Part V of this document. Details of the proposed service agreements for those executive directors of First Choice who will become directors of TUI Travel and details of the proposed letters of appointment for the non-executive directors of TUI Travel are set out in paragraph 4 of Part IV of the Prospectus.

Save as disclosed, the total emoluments received by the Directors of First Choice will not be varied automatically as a consequence of the Merger.

Save as set out above, the effect of the Scheme on the interests of the First Choice Directors does not differ from its effect on the like interests of any First Choice Shareholder.

10. Irrevocable undertakings

The First Choice has received irrevocable undertakings to vote in favour of the Scheme at the Court Meeting and in favour of the Resolutions at the EGM from First Choice Directors holding in aggregate 3,409,056 First Choice Shares, representing, in aggregate, approximately 0.64 per cent. of the existing issued share capital of First Choice.

Further details of such irrevocable undertakings are set out in paragraph 5 of Part V of this document.

11. Dividend Policy

Following Completion, consistent with the Enlarged Group's enhanced growth strategy, it is intended that TUI Travel follows a progressive dividend policy which balances delivering returns to shareholders with the need to retain sufficient funds for investment in growth opportunities, such as the ongoing expansion of the Specialist portfolio. In setting its initial dividend, it is expected that, as from the Effective Date, TUI Travel will target a dividend cover in the order of two times.

It is intended that, following Completion, one or more Group Companies undertakes a Court-approved capital reduction under section 135 of the Companies Act to create additional distributable reserves. This is principally to ensure that TUI Travel possesses sufficient distributable reserves to continue to be able to pay dividends in accordance with its dividend policy.

12. Capital Resources

TUI Travel will be financed through three principal facilities: (i) a new bank facility which will provide £600 million of funding in the form of cash advances, letters of credit and bank guarantees (subject to a maximum amount of £200 million which may be drawn down in the form of a letter of credit or bank guarantee); (ii) a new bonding facility which will provide £400 million of funding in the form of a bonding line; and (iii) a €2 billion shareholder loan from TUI AG. A summary of the terms of the bank facilities referred to in (i) and (ii) above and the Shareholder Loan Agreement referred to in (iii) above are set out in paragraphs 12.1.7, 12.1.8 and 12.1.3 respectively of Part XI of the Prospectus.

Information on the capital resources of TUI Tourism and First Choice is set out in paragraph 2.2 of Part VI and paragraph 2.2 of Part VIII of the Prospectus respectively.

13. First Choice Share Schemes

First Choice currently operates the First Choice Holidays Performance Share Plan (**"First Choice PSP"**), the First Choice Holidays Deferred Annual Bonus Scheme (**"First Choice DABS"**) and the First Choice Holidays Share Incentive Plan (**"First Choice SIP"**) which are similar to the proposed TUI Travel PSP, TUI Travel DABS and TUI Travel SIP each of which is summarised in paragraph 14 below. In addition, there are two legacy schemes with residual outstanding awards: the First Choice Holidays PLC Restricted Share Plan (**"First Choice RSP"**) and the First Choice Holidays Senior Executive Plan (**"First Choice SEP"**).

As a result of the Scheme of Arrangement there will be no further awards granted under the First Choice Share Schemes and all outstanding awards will either vest to the extent permitted in accordance with the rules or be replaced by equivalent awards over TUI Travel Shares as explained below.

First Choice PSP

There are awards outstanding over approximately 5,430,701 First Choice Shares under the First Choice PSP (as at the latest practicable date before the publication of this document). It is expected that only a proportion of these shares will be released upon the Court sanction of the Scheme of Arrangement after taking account of the level of performance to date and time pro-rating for the early release of the shares. Upon applying pro-rating for time, the First Choice Remuneration Committee has determined a maximum of two thirds of the 2005 awards, one half of the 2006 awards and one third of the 2007 awards could potentially be released. The First Choice Remuneration Committee will determine the proportion of the awards which will be released shortly before the date of Court sanction based on performance to that time. The release of shares will be subject to income tax and National Insurance contributions (or an equivalent social security liability).

The First Choice Remuneration Committee has also determined that the balance of the shares which are ineligible for release to date on account of the pro-rating for time rules (one third of the shares in the case of the 2005 awards, one half of the shares in the case of the 2006 awards, and two thirds in the case of the 2007 awards) will be eligible for replacement awards over TUI Travel Shares of equivalent value (or, in the case of certain awards made mostly to pilots, replacement awards over cash or alternative benefits of equivalent value) which may be held until the normal release date under the terms of the First Choice PSP, subject to the achievement of the performance targets and pro-rating for time (if the award is released early upon cessation of employment or a corporate event).

First Choice DABS

There are awards outstanding over approximately 877,704 First Choice Shares under awards of deferred shares (**"Deferred Awards"**) and 3,062,466 First Choice Shares under awards of matching shares (**"Matching Awards"**) under the First Choice DABS (as at the latest practicable date before the publication of this document). All of the Deferred Awards, which were awarded in lieu of bonuses, and a proportion of the Matching Awards, will be released upon the Court sanction of the Scheme of Arrangement after taking account of the level of performance to that date and time pro-rating for the early release of shares. Upon applying pro-rating for time, the First Choice Remuneration Committee has determined a maximum of two thirds of the 2005 awards and one third of the 2007 awards could potentially be released. The First Choice Remuneration Committee will determine the proportion of the Matching Awards which will be released shortly before the date of Court sanction.

The release of shares will be subject to income tax and National Insurance contributions (or an equivalent social security liability).

The First Choice Remuneration Committee has determined that participants will also receive a cash sum equivalent to the dividends to which they would have been entitled in respect of their Deferred Awards.

The First Choice Remuneration Committee has also determined that the balance of the Matching Awards which are ineligible for release taking account of the pro-rating for time rules (one third of the shares in the case of the 2005 awards and two thirds of the shares in the case of the 2007 awards) will be eligible for replacement awards over TUI Travel Shares of equivalent value which may be held until the normal release date under the First Choice DABS, subject to the achievement of performance targets and pro-rating for time (if the award is released early upon cessation of employment or a corporate event).

First Choice RSP

There are approximately 3,700,974 First Choice Shares outstanding under the First Choice RSP (as at the last practicable date before the publication of this document).

The rules provide that, upon the Court sanctioning the Scheme, the First Choice Remuneration Committee can determine whether to release all or part of any award. In view of the performance to date the First Choice Remuneration Committee has determined that the awards should be released in full.

The exercise of the released awards will be subject to income tax and National Insurance contributions (or an equivalent social security liability).

First Choice SEP

There are options outstanding over approximately 5,861,995 First Choice Shares under the First Choice SEP (as at the last practicable date before the publication of this document).

The rules provide that all of the options will be exercisable upon a Scheme of Arrangement without regard to performance. The exercise of the options will be subject to the Court sanctioning the Scheme of Arrangement and to the payment of the option price (representing market value at the date of grant), income tax and National Insurance contributions (or an equivalent social security liability).

First Choice SIP

There are approximately 879,157 First Choice Shares held under the First Choice SIP as at the last practicable date before the publication of this document.

The existing First Choice Shares held under the First Choice SIP will be replaced by TUI Travel Shares under the Scheme on the same basis as First Choice Shareholders will exchange their shares under the Scheme of Arrangement. The replacement TUI Travel shares will then be held under the First Choice SIP on the same terms and conditions as the current First Choice Shares. First Choice employees will be allowed to continue to save under the SIP for TUI Travel Shares after the Merger on the same terms as they presently save for First Choice Shares.

14. Adoption of new Enlarged Group Share Incentive Schemes

Adoption of new Enlarged Group Share Incentive Schemes

TUI Travel has established five employee incentive schemes which may be used after Admission. There are two discretionary employee schemes for senior executives: a Performance Share Plan (**"TUI Travel PSP"**) and a Deferred Annual Bonus Scheme (**"TUI Travel DABS"**), and there are also two all-employee share schemes: a Share Incentive Plan (**"TUI Travel SIP"**) and a Savings-Related Share Option Scheme (**"TUI Travel SAYE Scheme"**), both of which will be submitted for approval by Her Majesty's Revenue and Customs (**"HMRC"**) under the Income Tax (Earnings and Pensions) Act 2003. The Board has made no decision whether to operate the TUI Travel SIP and the TUI Travel SAYE Scheme, or either of them, following Admission.

In addition, TUI Travel has established the Value Creation Synergy Plan (**"TUI Travel VCSP"**) which is a discretionary one-off three-year scheme which will be used after Admission and provides for a combination of cash and share incentives designed to maximise the synergistic benefits of the Merger and drive shareholder value creation.

These five schemes (together referred to as the **"TUI Travel Incentive Schemes"**) have been established by the TUI Travel Directors and resolutions will be put to First Choice Shareholders at the First Choice EGM approving the operation of these schemes in principle.

The TUI Travel Remuneration Committee will review the TUI Travel PSP, TUI Travel DABS and TUI Travel VCSP with a view to bringing forward any appropriate proposals for changes to executive incentive schemes at the 2008 Annual General Meeting.

Set out below is a summary of the principal features of the five schemes.

TUI Travel PSP

Under the TUI Travel PSP, participants will receive conditional allocations of TUI Travel Shares which will be released after a period of three years, provided that pre-set performance targets are satisfied.

Eligibility

Employees (including executive directors) of the Enlarged Group will be eligible to be selected for participation in the TUI Travel PSP, at the discretion of the TUI Travel Remuneration Committee. It is proposed that only executive TUI Travel Directors, senior executives and selected professional key employee groups will normally be selected for participation.

Individual Limits

The maximum aggregate market value of shares which may be allocated under the TUI Travel PSP to any employee in any financial year shall not exceed two times that employee's base salary (or, where the TUI Travel Remuneration Committee considers there are exceptional circumstances, four times the employee's base salary). No amount is payable by participants on allocation.

Performance Targets

Allocations will only vest and be released to participants, to the extent that performance targets set by the TUI Travel Remuneration Committee are achieved. No shares will be released unless, over the performance period, the performance targets have been met. The performance targets will be based 50 per cent. on earnings per share, and 50 per cent. on total shareholder return. The earnings per share test allows for vesting of the shares where earnings per share growth exceeds RPI growth by at least four per cent. per annum. Between 10 per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between four per cent. and 13 per cent., or greater per annum in excess of RPI growth. The earnings per share target will also be adjusted to take into account (and exclude) the first £100m of synergy benefits achieved over the three-year measurement period.

The total shareholder return test allows for vesting of the shares where performance is above the median of the companies ranked 30th to 100th by market capitalisation at the date of award. Between 15 per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between the median and upper quartile performance, or greater. There will be no retesting of any performance targets.

Vesting of allocations will also be subject to underpins relating to the Group's return on invested capital and weighted average cost of capital to ensure that shareholder value is not eroded.

The TUI Travel Remuneration Committee will keep the performance targets under review in order to ensure they remain challenging in the context of TUI Travel's business plans. The TUI Travel Remuneration Committee may alter the performance targets as appropriate when making further

grants, but would not make significant changes to the benefit of participants without consulting shareholders.

Cessation of Employment

If a participant leaves employment before the third anniversary of the allocation date his allocation will normally be forfeited. However, in the event of his death, injury, disability, retirement and (if approved by the TUI Travel Remuneration Committee) redundancy, or upon sale of the business or subsidiary for which he works, or upon his leaving as a result of any reason approved by the TUI Travel Remuneration Committee, allocations will vest, subject to both performance targets having been met to that date and to pro-rating for the time elapsed since the date of allocation. In other circumstances, the TUI Travel Remuneration Committee will have the discretion to allow allocations to vest as above, or to continue to subsist as if the participant had remained in employment until the end of the performance period. In the latter case, vesting will be subject to the three-year performance targets, but will continue to be pro-rated for time elapsed as set out above.

Corporate Events

In the event of a takeover, reconstruction, amalgamation or winding-up of TUI Travel, allocations will normally vest, subject to performance targets having been achieved and to time pro-rating. However, allocations will not vest where participants are offered replacement allocations on equivalent terms over shares in any acquiring company.

In the event of an internal restructuring, allocations will continue but over replacement shares in the acquiring company and with similar performance targets.

TUI Travel DABS

Under the TUI Travel DABS, participants will defer a proportion of their pre-tax annual performance-related bonus, which will be used to acquire TUI Travel Shares (**"deferred shares"**). These deferred shares, together with a conditional allocation of ordinary shares (**"matching shares"**) equal to up to four times the number of deferred shares, will be released after a period of three years. The release of the deferred shares will not be subject to any further performance targets. The release of the matching shares will be subject to further pre-set performance targets being satisfied, as described below.

Eligibility

Employees (including executive directors) of the Enlarged Group will be eligible to be selected for participation in the TUI Travel DABS at the discretion of the TUI Travel Remuneration Committee. It is proposed that only Executive TUI Travel Directors and senior managers and selected professional key employee groups will normally be selected for participation.

Deferred Shares

Where an employee is selected for participation in the TUI Travel DABS, he will be required to invest at least one quarter of his pre-tax annual bonus in deferred shares, subject to the deferral being not less than an amount which may be specified from time to time. The participant may elect to invest a further amount of up to a quarter of his pre-tax annual bonus in deferred shares, i.e. an overall maximum of one half of his pre-tax bonus can be invested in deferred shares. The investment in deferred shares will be made at a price per deferred share which is equal to the middle market quotation of a TUI Travel Share on the date of investment.

Performance Targets

Allocations of matching shares will only vest and the shares be released to participants, to the extent that performance targets set by the TUI Travel Remuneration Committee are achieved. The performance targets will be based 75 per cent. on earnings per share and 25 per cent. on total shareholder return. The earnings per share test allows for vesting of the shares where earnings per share growth exceeds RPI growth by at least four per cent. per annum. Between 10 per cent. and 100 per cent. of the shares will vest, on a straight-line basis, between four per cent. and 13 per cent., or greater per annum in excess of RPI growth. The earnings per share target will also be adjusted to take into account (and exclude) the first £100m of synergy benefits achieved over the three-year measurement period.

The total shareholder return test allows for vesting of the shares where performance is above the median of the companies ranked 30th to 100th by market capitalisation at the date of award. Between 15 per cent. and 100 per cent. will vest, on a straight-line basis, between the median and upper quartile performance or greater. There will be no re-testing of any performance targets.

Vesting of allocations of matching shares will also be subject to underpins related to the Enlarged Group's return on invested capital and weighted average cost of capital to ensure that shareholder value is not eroded.

The TUI Travel Remuneration Committee will keep the performance targets under review in order to ensure they remain challenging in the context of TUI Travel's business plans. The TUI Travel Remuneration Committee may alter the performance targets as appropriate when making further grants but would not make significant changes to the benefit of participants without consulting shareholders.

Cessation of Employment

If a participant leaves employment before the third anniversary of the date of allocation, his matching shares will normally be forfeited. His deferred shares will be released to him at this point (or at such later stage as the matching shares are to be released), unless cessation of employment is a result of dismissal for gross misconduct, in which case the deferred shares will be forfeited and there will be no release of matching shares.

In certain circumstances, including leaving on account of death, injury, disability, retirement and (if approved by the TUI Travel Remuneration Committee) redundancy, or upon the sale of the business or subsidiary for which the participant works, allocations of matching shares will vest, subject to both performance targets having been met and to pro-rating for the time elapsed since the date of allocation. In other circumstances, the TUI Travel Remuneration Committee will have the discretion to allow allocations of matching shares to vest as above, or to continue to subsist as if the participant had remained in employment until the end of the performance period. In the latter case, vesting will be subject to the three-year performance targets, but will continue to be pro-rated for time elapsed as set out above.

Corporate Events

In the event of a takeover, reconstruction, amalgamation or winding-up of TUI Travel, allocations of matching shares will normally vest subject to performance targets having been achieved and time pro-rating. Deferred shares will also be released at this point. However, no allocations will vest where participants are offered replacement allocations of matching and deferred shares on equivalent terms over shares in any acquiring company.

In the event of an internal restructuring, allocations of matching shares will continue, but over replacement shares in the new company and with similar performance targets and no deferred shares will be released early.

TUI Travel Sharesave Scheme

The TUI Travel SAYE Scheme will provide for the grant of options over TUI Travel Shares to be purchased out of the proceeds of a linked SAYE savings account with a bank or building society. Whether, and when, any grants will be made will be determined by the TUI Travel Board.

Eligibility

All UK employees of the Enlarged Group who have worked for any qualifying period as may be determined by the TUI Travel Board (but not to exceed five years) and any other employees (including overseas employees nominated by the TUI Travel Board) will be eligible to participate in the scheme.

Grant Price

Options may be granted at an acquisition price which is not less than 80 per cent. of the middle market quotation of a TUI Travel Share on the London Stock Exchange dealing day (or average over the three dealing days) immediately before the day invitations are sent out (or some other date agreed with HMRC). If shares are to be subscribed, the acquisition price will also not be lower than nominal value.

Grant Period

Invitations for the grant of options will normally only be issued within the 42-day period following TUI Travel's announcement of results for any period, or there being exceptional circumstances which justify the grant of options at that time. Options will normally be granted within the period of 30 days following the earliest dealing day by reference to which the exercise price of an option was fixed.

Leaving employment

Normally, options lapse on leaving employment. However, if a participant ceases employment with any company in the Enlarged Group by reason of death, injury, ill health or disability, redundancy, retirement or on the sale of their employing company or business out of the Enlarged Group, options may be exercised during a six-month period following the cessation of employment. Exercise is also allowed where the participant leaves employment for any other reason (except dismissal for gross misconduct), provided that the option has been held for at least three years. If any option is exercised early, the participant may only exercise to the extent of his or her accumulated savings under the savings contract (together with any interest due).

Corporate events

Options may be exercised in the event of a takeover, reconstruction or amalgamation or winding-up of TUI Travel, to the extent of the accumulated savings under the participant's savings contract (together with any interest due). In the event of another company acquiring control of TUI Travel, participants may in certain circumstances be allowed to exchange their options for options over shares in the acquiring company.

TUI Travel SIP

The TUI Travel SIP is constituted under a trust deed and rules which will provide for TUI Travel to make various types of award over TUI Travel Shares which are held by trustees on behalf of participants. Whether, and when, any grants will be made will be determined by the TUI Travel Board.

Eligibility

All UK employees of the Enlarged Group with the requisite qualifying period of service (which will be determined by the TUI Travel Board from time to time and may not exceed 18 months qualifying service) are entitled to participate. Overseas employees who would otherwise qualify, but who do not pay UK tax, may be invited to participate.

Free Shares

The TUI Travel SIP allows for awards of up to £3,000 worth of free shares in total in any tax year. Awards may be made on the basis of equal numbers of shares, pro-rata earnings or on the basis of other similar terms including objective performance conditions achieved prior to the making of the awards.

Partnership Shares

The TUI Travel SIP allows for participants to purchase up to £1,500 worth of shares (or 10 per cent. of the participant's annual salary, if less) in total in any tax year. Deductions may be made from salary each month, or may be accumulated over a period of up to 12 months and then applied in the acquisition of shares. Any lump sum purchases may also be made within the statutory limit.

Matching Shares

The TUI Travel SIP allows for additional free shares to be awarded based on the number of partnership shares acquired. The maximum award per employee is two matching shares for each partnership share—up to £3,000 worth of matching shares in total in any tax year.

Dividend Shares

The TUI Travel SIP also allows for the reinvestment in shares of up to £1,500 worth of cash dividends in total in any tax year.

Acquisition of Shares

The trustees may buy shares in the market or subscribe for new shares. Free and matching shares are funded by participating Enlarged Group companies.

Holding Period

Free shares and matching shares must be held in the TUI Travel SIP for a holding period which expires between three and five years after award, or, if earlier, when the participant ceases to be employed by an Enlarged Group company. Dividend shares must remain in the TUI Travel SIP for a holding period of three years or, if earlier, until the participant ceases to be employed within the Enlarged Group. Partnership shares may be withdrawn from the TUI Travel SIP at any time subject to any PAYE liabilities which may be due.

Voting, Dividend and Other Rights

While the shares are held in the TUI Travel SIP, the participant remains the beneficial owner and is entitled to receive dividends (subject to any reinvestment in dividend shares) and, through the TUI Travel SIP, to vote and to participate in substantially the same way as other shareholders. Shares may be left in the TUI Travel SIP until the participant ceases to be employed within the Enlarged Group.

Forfeiture

Free and matching shares may be forfeited if the participant ceases to be employed within the Enlarged Group before the expiry of a period specified by the TUI Travel Board (not exceeding three years) beginning with the date of award of such shares, unless he leaves employment due to injury, ill health, disability, redundancy, sale of the business or subsidiary by which he is employed, death or retirement. The TUI Travel Board may also provide that, if a participant withdraws his partnership shares from the TUI Travel SIP within three years of the date on which they were acquired, his corresponding matching shares shall be forfeited.

Corporate Events

Participants' shares are dealt with in the same way as any other shareholder upon a takeover or reconstruction. Any shares issued to the TUI Travel SIP in place of any shares on a takeover or reconstruction will be held in the TUI Travel SIP.

TUI Travel VCSP

Under the TUI Travel VCSP, which is a one-off three year plan, participants will receive an award which will be satisfied by a combination of cash and TUI Travel Shares, provided that pre-set performance targets are satisfied. The performance targets will be based on the achievement of the synergistic objectives of the Merger.

Eligibility

The TUI Travel Remuneration Committee will nominate executive directors and senior executives for participation in the plan. Up to 12 directors and senior executives are expected to participate.

Individual Limits

The maximum aggregate limit on awards for any individual under the TUI Travel VCSP will vary according to his level of responsibility, but the maximum award over three years will be no greater than an amount between 225 per cent. and 450 per cent. of base salary before statutory deductions for PAYE and similar liabilities. The awards will be a combination of cash and shares which will vest in three equal tranches over three years as shown below:

Tranche 1 (2007/2008): 50 per cent. cash and 50 per cent. shares;

Tranche 2 (2008/2009): 50 per cent. cash and 50 per cent. shares; and

Tranche 3 (2009/2010): 100 per cent. cash.

While any cash entitlement will be paid annually, no shares will be released until the end of the three-year period.

Performance Target

The vesting of the annual tranches will be subject to the achievement of annual performance targets over the three-year period—2007/2008 to 2009/2010. The release of the share elements will be subject to a further overall three-year performance target. The performance targets will be set by the TUI Travel Remuneration Committee and will be based upon the achievement of the synergistic benefits of the Merger and margin enhancement. Following consultation with key institutional shareholders the overall three year performance targets have been set at a "target" of £100 million (below which no vesting will occur) with a payment and vesting scale up to a stretch level of £150 million. The TUI Travel Remuneration Committee will set targets for the first two years of the plan consistent with the achievement of the overall three-year performance targets. In addition, the Remuneration Committee will set annual margin targets (below which no payment or vesting will occur). This is intended to ensure that synergy benefits translate to enhanced margins for the Enlarged Group.

At target annual performance, the proportion vesting under each annual tranche will be in the range of 37.5 per cent. to 75 per cent. of salary. For the achievement of annual stretching performance measures, the proportion vesting under each annual tranche will be in the range of 75 per cent. to 150 per cent. of salary. Annual performance will relate to the achievement of annual synergistic benefits of the Merger and will be subject to an annual margin enhancement underpin.

Cessation of Employment

If a participant leaves employment before the end of the three-year performance period his award will normally be forfeited. However, in the event of his death, injury, ill health, disability, retirement and (if approved by the TUI Travel Remuneration Committee) redundancy, or on a sale of the business or subsidiary for which he works, or upon his leaving as a result of any reason approved by the TUI Travel Remuneration Committee, any unvested tranches will lapse. The share elements of each tranche will vest, subject to performance targets having been met to that date and pro-rating for time elapsed compared to the total length of the performance period. In other circumstances, the TUI Travel Remuneration Committee will have discretion to allow the share elements in any outstanding tranches to vest as above, or to continue to subsist, as if the participant had remained in employment until the end of the performance period. In the latter case, vesting will be subject to the three-year performance targets but will continue to be pro-rated for time elapsed as set out above.

Corporate Events

In the event of a takeover, reconstruction, amalgamation or winding-up of TUI Travel, awards will normally vest, subject to performance targets having been achieved and to time pro-rating. However, awards will not vest where participants are offered replacement awards on equivalent terms over shares in any acquiring company.

In the event of an internal restructuring, awards will continue but over replacement shares in the acquiring company and with similar performance targets.

Provisions relating to all TUI Travel Incentive Schemes

Scheme Limits

The maximum number of new ordinary shares which may be issued or issuable under the TUI Travel Incentive Schemes shall be as follows:

- in any ten-year period, not more than five per cent. of the ordinary share capital of TUI Travel from time to time under the TUI Travel PSP, the TUI Travel DABS and the TUI Travel VCSP; and
- in any ten-year period, not more than 10 per cent. of the ordinary share capital of TUI Travel from time to time under all TUI Travel Incentive Schemes.

For the purpose of these limits no accounts will be taken of any shares where the right to acquire the shares has been released, lapsed or otherwise become incapable of exercise or vesting.

The current guidelines issued by the Association of British Insurers ("**ABI**") state that the transfer of Treasury Shares should count towards the overall scheme limits outlined above. These guidelines will be reflected in the trust deed and rules of each of the TUI Travel Incentive Schemes for as long as this remains ABI policy.

Scheme Shares

All awards and options which are granted over TUI Travel Shares will be over shares which may be new issue, Treasury Shares or purchased by any trustees in the market.

Non-executive directors

Non-Executive Directors cannot participate in any of the TUI Travel Incentive Schemes.

Non-pensionable benefits

All of the benefits under the TUI Travel Incentive Schemes are non-pensionable.

Non-transferability

Allocations and awards under the TUI Travel Incentive Schemes will not be transferable (other than to the participant's personal representatives in the event of his or her death).

Variations of Share Capital

Allocations under the TUI Travel PSP, TUI Travel DABS, TUI Travel SAYE Scheme and TUI Travel VCSP may be adjusted following certain variations in the ordinary share capital of TUI Travel including a capitalisation, rights issue or sub-division, consolidation or reduction of capital of TUI Travel. The prior approval of HMRC is required for adjustment of options under the TUI Travel SAYE Scheme.

Rights attaching to shares

Shares to be issued and allotted under the TUI Travel Incentive Schemes will rank equally with all other ordinary shares then in issue but will not qualify for dividends or other rights arising by reference to a prior record date.

Alterations to the schemes

The TUI Travel Board (or the TUI Travel Remuneration Committee) may amend the TUI Travel Incentive Schemes provided that the prior approval of shareholders is obtained for any amendments to the advantage of participants in respect of eligibility, the limits on participation, the overall limits on the issue of TUI Travel Shares under the TUI Travel Incentive Schemes, or the transfer of Treasury Shares under the TUI Travel Incentive Schemes, the basis for determining a participant's entitlement to, and the terms of, TUI Travel Shares or cash provided under the TUI Travel Incentive Schemes and the adjustment of such awards or options. However, shareholders' approval will not be required for only minor administrative charges or any alteration to take account of any change in legislation or any alteration required to obtain or maintain favourable tax, exchange control or regulatory treatment. No amendment to any key feature will be made to the TUI Travel SAYE Scheme or TUI Travel SIP without the prior approval of HMRC.

Extension of the schemes overseas

The terms of each of the TUI Travel Incentive Schemes provide the TUI Travel Board with the power to extend the schemes to countries outside the UK taking account of local tax, exchange control, or securities laws in the relevant jurisdictions, by either making conditional allocations in TUI Travel Shares or equivalent phantom allocations, where the awards would be satisfied in cash. Share awards under any such arrangements for overseas employees will count against the limits on the issue of shares under the TUI Travel Incentive Schemes and will not provide participants with benefits greater than those provided under those schemes.

Termination

None of the TUI Travel Incentive Schemes will be operated more than ten years after adoption without shareholder approval. The TUI Travel Remuneration Committee or the TUI Travel Board, as appropriate, will regularly review the operation of the TUI Travel Incentive Schemes.

15. Pensions

First Choice

The First Choice Group operates pension schemes for employees who are eligible and wishing to participate in the schemes. The First Choice Group sponsors three defined benefit pension schemes

which are the Air 2000 Limited Retirement Benefits scheme, the Unijet Group Plc Final Salary scheme (together the **"UK Defined Benefit Schemes"**) and the Emerald Star Limited pension scheme. All three defined benefit pension schemes are closed to new entrants.

Although no formal valuations of the UK Defined Benefit Schemes have been carried out since 1 November 2003 and 1 July 2005 in relation to the Emerald Star Limited pension scheme, the independent scheme actuary has estimated the total pension deficit as at 31 October 2006. At 31 October 2006, on an IAS 19 basis, the aggregate value of the assets and liabilities of those pension schemes was estimated to be:

	As at 31 October 2006
	£ million
Fair value of assets	67.0
Present value of funded obligations	(91.7)
Recognised liability for defined benefit obligations	(24.7)

Of the IAS 19 liability of £24.7 million, £14.0 million related to the Air 2000 scheme and £11.2 million related to the Unijet scheme.

The Trustees have indicated that they may request that TUI Travel becomes the principal employer of the UK Defined Benefit Schemes following Completion.

Special employer contributions are payable in respect of the Air 2000 scheme and the Unijet scheme as follows:

	Air 2000 scheme	Unijet scheme
Paid on 1 June 2006	£3.5 million	£2.5 million
Payable by 1 June 2007	£3.4 million	£2.5 million
Payable by 1 June 2008, 2009 and 2010	£0.9 million	£1.2 million

Source: Annual report and current schedule of contributions

The First Choice Group also operates defined contribution pension schemes for employees and executive directors. The non-executive directors of First Choice do not participate in the First Choice Group's pension schemes. The First Choice Group contribution rate for the Chief Executive is 50 per cent. of base salary which is paid into a self-invested personal pension. Contributions in excess of the HMRC annual allowance are made as non-pensionable cash payments equivalent to the First Choice Group's contractual pension contribution. The First Choice Group contribution rate for the other Executive directors is 25 per cent. of base salary.

The Trustees are considering requesting that TUI Travel becomes the principal employer of the UK Defined Benefit Schemes following Completion.

The Trustees of the UK Defined Benefit Schemes are currently conducting an actuarial valuation of the schemes which must be finalised by 1 February 2008. As part of that valuation process, the effect of the transaction on the covenant of First Choice Airways Limited, the main employer of members of the UK Defined Benefit Scheme, will be assessed.

The directors have been advised that the transaction is not a Type A transaction for the purposes of the Pensions Regulator's clearance guidance and no application for clearance is being made. On completion, the transaction will be notified to the Pensions Regulator as a "Notifiable Event" under the Pensions Regulator (Notifiable Events) Regulations 2005.

Certain aspects of the pensions arrangements are further discussed in Part I (Risk Factors) of the Prospectus.

TUI Tourism

TUI Northern Europe Limited has six defined benefit schemes. These are the TUI Pension Scheme (UK), the Britannia Airways Limited Superannuation and Life Assurance Scheme, the Orion Airways

Pension and Life Assurance Scheme and the Jetsave Retirement Benefits Plan, the TUI Northern Europe Executive Pension Scheme No 2 and the Callers 1978 Pension and Life Assurance Scheme.

TUI Northern Europe Limited also has two deferred members and one pensioner member in an unfunded unapproved retirement benefit plan.

The last formal valuation of the TUI Pension Scheme (UK) was prepared as at 31 March 2005 when, on an ongoing basis, the aggregate value of the assets was £234.1 million, and the total value of assets required to provide past service benefits was £307.1 million, giving rise to a funding shortfall on an ongoing basis of £73 million. Since 1 April 2006, TUI Northern Europe Limited made normal contributions of 25 per cent. of members' pensionable salaries. As at 31 December 2006, 75 per cent. of the total plan assets were held as equities, nine per cent. are held as corporate bonds, nine per cent. are held as government bonds and seven per cent. are held as cash.

On an accounting basis, as at 31 December 2006, it was estimated that the value of the assets and liabilities of the TUI Pension Scheme (UK) were:

	As at 31 December 2006	As at 31 December 2005
Market value of scheme assets	£331.6 million	£284.9 million
Present value of funded obligations	£446.7 million	£430.3 million
Recognised liability for defined benefit obligations	£115.2 million	£145.4 million

Employer contributions to the TUI Pension Scheme (UK) during the year ended 31 December 2006 were:

	Year ended 31 December 2006	Year ended 31 December 2005
Employer contributions	£25.9 million	£17.5 million

In relation to the defined benefit section of the Britannia Airways Limited Superannuation and Life Assurance Scheme (Britannia Airways is now known as Thomsonfly), an IAS 19 report for the year ending 31 December 2006, using an FRS17 style method, estimated that the value of the assets and liabilities of the Britannia Airways Limited Scheme were:

	As at 31 December 2006	As at 31 December 2005
Market value of scheme assets	£439.5 million	£408.4 million
Present value of funded obligations	£662.4 million	£747.3 million
Recognised liability for defined benefit obligations	£222.9 million	£338.9 million

Employer contributions to the Britannia Scheme during the year ended 31 December 2006 were:

	Year ended 31 December 2006	Year ended 31 December 2005
Employer contributions	£16.9 million	£17.1 million

According to the preliminary actuarial valuation results of the Orion Airways Pension and Life Assurance Scheme, as at 31 March 2006 the scheme had a deficit of £1.22 million. The same valuation records that, following the March 2004 actuarial valuation the employer agreed to pay contributions of £120,000 per annum in order to pay off the ongoing deficit of the scheme. However, the 2006 preliminary results suggest that additional employer "top-up" contributions would be required to eliminate the past service deficit.

According to an actuarial report on the Jetsave Retirement Benefits Plan in December 2004, the scheme had a deficit of £1.41 million. Independent pensions consultants have suggested that the funding level of employer contributions should be £20,000 per month for the period 1 November 2004 to 31 March 2006 and £11,000 per month thereafter.

The Callers 1978 Pension & Life Assurance Scheme is in the process of being wound up with the benefits being bought out with an insurance company. The formal wind up commenced in December 2004. According to the actuarial valuation report for the Callers 1978 Pension & Life Assurance Scheme at 1 April 2005, the scheme's assets represent 82 per cent. of the amount required to cover all of its accrued liabilities yet to be secured.

TUI Tourism also has funded pension obligations in countries outside the UK, in particular in relation to German defined benefit pension schemes, which equalled €74.5 million in 2006, and in relation to French defined benefit pension schemes, which equalled €10.2 million in 2006.

Certain aspects of the pension arrangements are further discussed in Part I (Risk Factors) of the Prospectus.

16. Overseas Shareholders

The implications of the Scheme for Overseas Shareholders may be affected by the laws of the relevant jurisdiction. Such Overseas Shareholders should inform themselves about and observe all applicable legal requirements. Please refer to paragraph 8 of Part V of this document for further details.

17. United Kingdom taxation

The following statements, which are intended as a general guide only and are based on current legislation and the current practice of HMRC, summarise certain limited aspects of the United Kingdom taxation treatment of the Merger. They relate only to the position of First Choice Shareholders who become TUI Travel Shareholders by virtue of the Merger and who (unless the position of non-United Kingdom resident shareholders is expressly referred to) are resident or ordinarily resident in the United Kingdom for United Kingdom tax purposes, who hold their First Choice Shares and, subsequently, will hold their TUI Travel Shares as an investment, and who are absolute beneficial owners of their First Choice Shares and their TUI Travel Shares. The statements may not apply to certain classes of First Choice Shareholders and TUI Travel Shareholders, such as market makers, brokers, dealers in securities, intermediaries, persons connected with depositary arrangements or clearance services or persons regarded as having obtained their First Choice Shares or their TUI Travel Shares by reason of their employment. The statements are not intended to be, and should not be construed to be, legal or taxation advice to any particular First Choice Shareholder or TUI Travel Shareholder.

Any First Choice or TUI Travel Shareholders who are in doubt as to their tax position or who are subject to taxation in any jurisdiction other than the United Kingdom should consult their own professional advisers without delay.

United Kingdom Taxation of Chargeable Gains

Liability to United Kingdom taxation of chargeable gains will depend on the individual circumstances of shareholders.

A First Choice Shareholder should not be treated as making a disposal of his First Choice Shares for the purposes of United Kingdom taxation of chargeable gains to the extent that he receives TUI Travel Shares under the Merger. Any chargeable gain or allowable loss which would otherwise have arisen on a disposal of his First Choice Shares will be "rolled-over" into the TUI Travel Shares so that the TUI Travel Shares will be treated as the same asset as the First Choice Shares, acquired at the same time as the First Choice Shares and for the same acquisition cost.

First Choice Shareholders are advised that clearance has been obtained from HMRC under Section 138 of the Taxation of Chargeable Gains Act 1992 (the "**TCGA**") that Section 137 TCGA shall not have effect in respect of the Merger. Therefore the Merger should not be treated as being undertaken otherwise than for bona fide commercial reasons or for a main tax avoidance purpose, and Section 137 TCGA should not be capable of applying to preclude the above "roll-over"

treatment for a First Choice Shareholder who, together with persons connected with him or her, holds more than five per cent. of the First Choice Shares.

A subsequent disposal of TUI Travel Shares by a TUI Travel Shareholder who is either resident or ordinarily resident in the United Kingdom may, subject to the TUI Travel Shareholder's circumstances and any available exemption or relief, give rise to a chargeable gain (or allowable loss) for the purposes of United Kingdom taxation of chargeable gains.

Dividends on the TUI Travel Shares

Under current United Kingdom taxation legislation, there is no United Kingdom withholding tax on dividends.

(a) Non-corporate holders of TUI Travel Shares

A holder of TUI Travel Shares who is an individual resident in the United Kingdom for United Kingdom tax purposes and who receives a dividend from TUI Travel will generally be entitled to a tax credit which such shareholder may set off against his total income tax liability on the dividend. The value of the tax credit is currently equal to 10 per cent. of the aggregate of the dividend and the related tax credit (the "gross dividend"), which is also equal to one-ninth of the cash dividend received.

A United Kingdom resident individual shareholder who is liable to income tax at the starting or basic rate will be subject to tax on the dividend at the rate of 10 per cent. of the gross dividend, so that the tax credit will satisfy in full such shareholder's liability to income tax in respect of the gross dividend. In the case of a United Kingdom resident individual shareholder who is liable to income tax at the higher rate of 32.5 per cent. on the cash dividend and related tax credit, the tax credit will be set against but not fully match his tax liability on the gross dividend and he will have to account for additional tax equal to 22.5 per cent. of the gross dividend (which is also equal to 25 per cent. of the cash dividend received) to the extent that the gross dividend when treated as the top slice of his income falls above the threshold for higher rate income tax. For example, a dividend of £80 will carry a tax credit of £8.89. The income tax payable by a higher rate taxpayer would be 32.5 per cent. of £88.89, namely £28.89, less the tax credit of £8.89, leaving a net tax liability of £20.

Generally, non-corporate holders of TUI Travel Shares who are resident in the United Kingdom but who are not liable to income tax or corporation tax on dividends including pension funds and charities, will not be entitled to claim repayment of the tax credit attaching to dividends paid by TUI Travel.

TUI Travel Shareholders who hold their TUI Travel Shares in an ISA or PEP are exempt from tax on dividends paid by TUI Travel but are not entitled to recover the tax credit on the dividends paid from HMRC.

(b) Corporate Holders of TUI Travel Shares

Holders of TUI Travel Shares within the charge to corporation tax and resident for tax purposes in the United Kingdom will generally not be subject to corporation tax on dividends received from TUI Travel. Those Shareholders will not be entitled to claim repayment of tax credits attaching to dividends.

Stamp Duty and Stamp Duty Reserve Tax ("SDRT")

No stamp duty or SDRT will be payable by TUI Travel Shareholders on the allotment, issue or registration of the TUI Travel Shares.

A transfer for value of TUI Travel Shares outside the CREST system will generally be subject to United Kingdom stamp duty or to SDRT. Stamp duty and SDRT are normally the liability of a purchaser. Stamp duty is generally payable on an instrument transferring TUI Travel Shares at the rate of 0.5 per cent. of the amount or value of the consideration for the transfer of the TUI Travel Shares (rounded up to the nearest £5). A charge to SDRT will also normally arise on an unconditional

agreement to transfer TUI Travel Shares equal to 0.5 per cent. of the amount or value of the consideration payable for the transfer. However, if within six years of the date on which the agreement is made (or, if that agreement is conditional, the date on which the condition is satisfied) an instrument of transfer is executed pursuant to the agreement and duly stamped, any SDRT paid will be refunded (generally, but not necessarily, with interest) provided that a claim for repayment is made within the six year period, and any outstanding liability to SDRT will be cancelled.

Transfers of TUI Travel Shares within CREST are generally liable to SDRT, rather than stamp duty, at the rate of 0.5 per cent. of the amount or value of the consideration payable. CRESTCo is obliged to collect SDRT from the purchaser of TUI Travel Shares on relevant transactions settled within the system. Deposits of TUI Travel Shares in CREST will not be subject to stamp duty and, unless the transfer into CREST is itself for consideration, will not be subject to SDRT. Special rules may apply to the transfer or deposit of shares into any depositary receipt or clearance service arrangement and in relation to market intermediaries.

Personal Equity Plans ("PEPs") and Individual Savings Accounts ("ISAs")

TUI Travel Shares should be eligible to be held within a PEP or an ISA as qualifying securities. Shareholders are reminded that no new subscription may now be made to PEPs.

18. Action to be taken

Your attention is drawn to page 6 and paragraph 14 of the letter from the Chairman of First Choice set out in Part I of this document, which explain the action you should take in relation to the Scheme.

19. Further information

The terms of the Scheme are set out in full in Part III of this document. Further information regarding First Choice, TUI AG and TUI Travel is set out in Part V of this document and in the Prospectus.

Yours faithfully,

Matthew Jarman

Part III

Scheme of Arrangement

IN THE HIGH COURT OF JUSTICE
CHANCERY DIVISION
COMPANIES COURT

No: 4493 of 2007

IN THE MATTER OF FIRST CHOICE HOLIDAYS PLC

and

IN THE MATTER OF THE COMPANIES ACT 1985

SCHEME OF ARRANGEMENT

(under Section 425 of the Companies Act 1985)

between

FIRST CHOICE HOLIDAYS PLC

and

THE HOLDERS OF SCHEME SHARES

(as hereinafter defined)

PRELIMINARY

(A) In the Scheme, unless inconsistent with the subject or context, the following expressions shall have the following meanings:

"Act"	means the Companies Act 1985, as amended;
"Business Day"	means any day (excluding Saturday, Sunday or public holidays in England or Wales) on which banks are open for general banking business in the City of London;
"certificated" or "certificated form"	means, in relation to a share or other security, a share or other security which is not in uncertificated form (that is, not in CREST);
"Court"	means Her Majesty's High Court of Justice in England and Wales or the Court of Appeal in England and Wales, as the case may be;
"Court Meeting"	means the meeting of the holders of First Choice Shares convened by order of the Court pursuant to Section 425 of the Act to consider and, if thought fit, approve the Scheme (with or without amendment), and any adjournment of that meeting;
"CREST"	means the system for the paperless settlement of trades in securities and the holding of uncertificated securities operated by CRESTCo in accordance with the Uncertificated Securities Regulations 2001 (SI No. 2001/3755);
"CRESTCo"	means CRESTCo Limited;
"Encumbrances"	means all mortgages, pledges, liens, charges, options, encumbrances, equitable rights, rights of pre-emption, assignments, hypothecations or any other third party rights of any nature whatsoever;

"First Choice"	means First Choice Holidays PLC, registered in England and Wales with number 48967;
"First Choice Share Schemes"	means the First Choice Holidays Senior Executive Plan, the First Choice Holidays PLC Restricted Share Plan, the First Choice Holidays Deferred Annual Bonus Scheme, the First Choice Holidays Performance Share Plan and the First Choice Holidays Share Incentive Plan;
"First Choice Shares"	means ordinary shares of 3 pence each in the capital of First Choice;
"holder"	means a registered holder of shares and includes any person(s) entitled by transmission;
"Member"	means a member of First Choice on the register of members at any relevant date;
"Merger"	means the proposed combination of First Choice and TUI Tourism pursuant to the terms of and subject to the Merger Agreement (as defined in the Scheme Document);
"Merger Agreement"	means the merger agreement entered into between First Choice, TUI AG and TUI Travel and dated 19 March 2007;
"nominee"	means a person acting solely and exclusively as nominee and bare trustee of another person;
"Reduction Court Order"	means the order of the Court confirming the Reduction of Capital;
"Reduction of Capital"	means the reduction of First Choice's share capital involving the cancellation of the Scheme Shares provided for by this Scheme under section 137 of the Act;
"Relevant Holders"	means the holders of Scheme Shares whose names appear in the register of members of First Choice at the Scheme Record Time;
"Scheme"	means the scheme of arrangement in its present form or with or subject to any modification, addition or condition approved or imposed by the Court and agreed by First Choice and TUI Travel;
"Scheme Court Order"	means the order of the Court sanctioning the Scheme under section 425 of the Act;
"Scheme Document"	means the circular dated 29 June 2007 addressed to the holders of First Choice Shares containing the Scheme and an explanatory statement in compliance with section 426 of the Act;
"Scheme Effective Date"	means the date on which the Scheme becomes effective in accordance with its terms and **"Scheme Effective Time"** means the time on such date at which the Scheme becomes effective;
"Scheme Record Time"	means 6.00 p.m. (London time) on the Business Day immediately preceding the Scheme Effective Date;
"Scheme Shares"	means: (i) any First Choice Shares in issue at the date of this document;

(ii) any First Choice Shares issued after the date of this document and prior to the Voting Record Time; and

(iii) any First Choice Shares issued at or after the Voting Record Time and before 6.00 p.m. on the Business Day immediately preceding the date of the Reduction Court Order on terms that the holder thereof shall be bound by the Scheme, or in respect of which the original or any subsequent holder thereof agrees in writing to be bound by the Scheme;

but excluding in each case any First Choice Shares held by TUI Travel at the Scheme Record Time;

"Takeover Panel" means the Panel on Takeovers and Mergers;

"TUI AG" means TUI AG, a company incorporated in Germany whose registered office is at Karl-Wiechert-Allee 4, 30625 Hanover;

"TUI Tourism" the travel and tourism division of TUI AG, excluding certain hotel assets which is constituted by the TUI Tourism Group;

"TUI Tourism Group" the companies constituting TUI Tourism which are to be transferred to TUI Travel on completion of the Merger;

"TUI Travel" means TUI Travel PLC, registered in England and Wales with number 6072876;

"TUI Travel Shares" means ordinary shares of 10 pence each in the capital of TUI Travel to be issued to the holders of the Scheme Shares under clause 2 of the Scheme;

"UK Listing Authority" means the Financial Services Authority acting in its capacity as the competent authority for the purposes of Part VI of the Financial Services and Markets Act 2000;

"uncertificated" or "uncertificated form" means in relation to a share or other security, a share or other security which is recorded on the relevant register of the share or security concerned as being held in uncertificated form in CREST and title to which may be transferred by means of CREST; and

"Voting Record Time" means 6.00 p.m. (London Time) on the day prior to the day immediately before the Court Meeting or any adjournment thereof (as the case may be).

(B) The authorised share capital of First Choice at the date of the Scheme is £223,500,000 divided into 199,500,000 convertible cumulative redeemable preference shares of £1 each (none of which is in issue) and 800,000,000 First Choice Shares of which 530,577,303 First Choice Shares have been issued and are credited as fully paid. The remaining First Choice Shares are unissued, but there are subsisting rights to subscribe for up to 17,259,768 First Choice Shares under the First Choice Share Schemes.

(C) TUI Travel was incorporated and registered in England and Wales on 29 January 2007 under the Act as a public limited company with registered number 6072876 and the name Coppereagle Public Limited Company. By virtue of a special resolution dated 19 June 2007 Coppereagle Public Limited Company changed its name to TUI Travel PLC.

(D) The authorised share capital of TUI Travel at the date of this Scheme is £100,000 divided into 50,002 ordinary shares of £1 nominal value each and 49,998 redeemable preference shares of

£1 nominal value each, of which two ordinary shares and 49,998 redeemable preference shares are in issue and are held as follows.

Andrew John	1 ordinary share of £1
TUI AG	1 ordinary share of £1
TUI AG	49,998 redeemable preference shares of £1

(E) TUI Travel has agreed to appear by counsel at the hearing of the petition to sanction the Scheme and at the hearing confirming the Reduction of Capital, to consent to the Scheme and to undertake to the Court to be bound by the provisions of this Scheme and to execute and do, or procure to be executed and done, all such documents, acts and things as may be necessary or desirable to be executed or done by it for the purposes of giving effect to the Scheme.

The Scheme

1. Cancellation of Scheme Shares

(a) The share capital of First Choice shall be reduced by cancelling and extinguishing the Scheme Shares.

(b) Forthwith and contingently upon the reduction of capital referred to in sub-clause 1(a) of the Scheme taking effect:

(i) the authorised share capital of First Choice shall be increased to its former amount by the creation of such number of new ordinary shares of 3 pence each as shall be equal to the number of Scheme Shares cancelled pursuant to sub-clause 1(a) of this Scheme; and

(ii) First Choice shall apply the reserve arising in its books of account as a result of such reduction of capital in paying up in full at par the new ordinary shares created pursuant to sub-clause 1(b)(i) of this Scheme which shall be allotted and issued free from Encumbrances and credited as fully paid to TUI Travel.

2. Consideration for the cancellation of the Scheme Shares

Subject to, and in consideration for, the cancellation of the Scheme Shares and the allotment and issue of the new ordinary shares in First Choice as provided in sub-clause 1(b)(ii) of this Scheme, TUI Travel shall allot and issue to or for the account of each holder of Scheme Shares (as appearing in the register of members of First Choice at the Scheme Record Time) free from Encumbrances and credited as fully paid, subject as hereinafter provided, TUI Travel Shares on the following basis:

for each Scheme Share appearing on the register of First Choice at the Scheme Record Time	**one TUI Travel Share**

3. Scheme Shares—Share Certificates and cancellation of CREST entitlements

(a) With effect from and on the Scheme Effective Time, each existing certificate representing a holding of Scheme Shares shall cease to be valid in respect of such holding and each holder of Scheme Shares shall be bound at the request of First Choice to deliver up the same to First Choice or to any person appointed by First Choice to receive the same for cancellation or to destroy such share certificate.

(b) With effect from and on the Scheme Effective Time, in respect of those holders of Scheme Shares held in uncertificated form, CRESTCo shall be instructed to cancel such holders' entitlement to such Scheme Shares and appropriate entries will be made in the register of members of First Choice with effect from the Scheme Effective Date to reflect their cancellation.

4. Allotment and issue of TUI Travel Shares

(a) The TUI Travel Shares to be issued pursuant to clause 2 of this Scheme shall be issued free from Encumbrances, credited as fully paid and shall rank *pari passu* with all other TUI Travel Shares in issue at the Scheme Effective Time and shall have the right to receive all dividends, distributions and other entitlements made or paid or declared on the TUI Travel Shares after the Scheme Effective Time.

(b) As soon as practicable (and in any event not later than seven days) after the Scheme Effective Date, TUI Travel shall make all such allotments of and shall issue such TUI Travel Shares as are required to be issued by it to give effect to the Scheme to the persons respectively entitled thereto, such consideration to be settled as set out in sub-clause 4(c) but subject to sub-clause 4(d) of the Scheme.

(c) Settlement of the consideration shall be effected as follows:

(i) where, at the Scheme Record Time, a Member holds Scheme Shares in uncertificated form in CREST the TUI Travel Shares to which such person is entitled shall be issued to such person in uncertificated form through CREST. TUI Travel shall procure that CRESTCo is instructed to credit the appropriate stock account in CREST of such Member with such person's entitlement to the TUI Travel Shares at the commencement of dealings in the TUI Travel Shares.

As from the Scheme Record Time, each holding of Scheme Shares credited to any stock account in CREST shall be disabled and all Scheme Shares will be removed from CREST in due course thereafter.

TUI Travel reserves the right to issue the TUI Travel Shares to all or any Member(s) who hold Scheme Shares in uncertificated form in CREST at the Scheme Record Time in the manner referred to in sub-clause 4(c)(ii) below if, for reasons outside its reasonable control, it is not able to effect settlement in uncertificated form in accordance with this sub-clause 4(c)(i); and

(ii) where, at the Scheme Record Time, a Member holds Scheme Shares in certificated form the TUI Travel Shares to which such person is entitled shall be issued in certificated form. Definitive certificates shall be issued as soon as practicable, in any event not later than fourteen days after the Scheme Effective Date.

(d) The provisions of this clause 4 of this Scheme shall be subject to any prohibition or condition imposed by law. Without prejudice to the generality of the foregoing, if, in respect of any holder of Scheme Shares with a registered address in a jurisdiction outside the United Kingdom, TUI Travel is advised that the allotment and/or issue of TUI Travel Shares pursuant to this clause 4 directly to such holder would or might infringe the laws of such jurisdiction or would or may require TUI Travel to observe any governmental or other consent or any registration, filing or other formality, with which TUI Travel is unable to comply or which TUI Travel regards as unduly onerous to comply with, TUI Travel may, in its sole discretion, either:

(i) determine that TUI Travel Shares shall not be allotted and issued to such holder under the Scheme but shall instead be allotted and issued to a nominee appointed by TUI Travel as trustee for such holder on terms that the nominee shall, as soon as practicable following the Scheme Effective Time, sell the TUI Travel Shares so allotted and issued at the best price which can reasonably be obtained at the time of sale and shall account for the net proceeds of such sale (after the deduction of all expenses and commissions, including any value added tax payable thereon) by sending a cheque for the net proceeds (denominated in sterling currency) to such holder or creating an assured payment obligation in accordance with the provisions of sub-clause 4(e) below. In the absence of bad faith or wilful default, none of First Choice, TUI Travel, their respective nominees or their respective directors and officers, shall have any liability for any loss or damage arising as a result of the timing or terms of such sale; or

(ii) determine that such TUI Travel Shares shall be sold, in which event the TUI Travel Shares shall be issued to such holder and TUI Travel shall appoint a person to act pursuant to this

sub-clause 4(d)(ii) and such person shall be authorised on behalf of such holder to procure that any shares in respect of which TUI Travel has made such a determination shall, subject to sub-clause 4(b), as soon as practicable following the Scheme Effective Time, be sold at the best price which can reasonably be obtained at the time of sale and the net proceeds of such sale (after the deductions of all expenses and commissions, including any value added tax payable thereon) shall be paid to such holder by sending a cheque for the net proceeds (denominated in sterling currency) to such holder. To give effect to any such sale, the person so appointed shall be authorised on behalf of such holder to execute and deliver a form of transfer and to give such instructions and to do all other things which he may consider expedient in connection with such sale. In the absence of bad faith or wilful default, none of First Choice, TUI Travel or their respective directors and officers or the person so appointed, shall have any liability for any loss or damage arising as a result of the timing or terms of such sale.

(e) (i) In the case of Scheme Shares to be sold in accordance with sub-clause 4(d)(i) which are in uncertificated form at the Scheme Record Time, TUI Travel shall, on behalf of the nominee appointed pursuant to sub-clause 4(d)(i) make any cash payment pursuant to sub-clause 4(d)(i) by arranging for the creation of an assured payment obligation in favour of the payment bank of the Relevant Holders of such Scheme Shares in accordance with CREST assured payment arrangements (as set out in the CREST Manual) provided that TUI Travel may (if, for any reason, it wishes to do so) determine that all or part of such consideration shall be paid by cheque in sterling drawn on a UK clearing bank despatched by post and in such case sub-clause 4(e)(ii) shall apply, to the extent it is appropriate; or

(ii) in the case of Scheme Shares to be sold in accordance with sub-clause 4(d)(i) which are in uncertificated form at the Scheme Record Time, TUI Travel shall on behalf of the nominee appointed pursuant to sub-clause 4(d)(i) make any cash payment pursuant to sub-clause 4(d)(i) by delivering to the persons respectively entitled thereto, or as they may direct, cheques in sterling drawn on a UK clearing bank by post by the fourteenth day following the Effective Date.

(f) All deliveries of certificates and cheques required to be made pursuant to the Scheme shall be effected by posting the same by first class post, airmail if overseas, (or such other method as may be approved by the Takeover Panel and the UK Listing Authority) to the address appearing in the register of members of First Choice at the Scheme Record Time (or, in the case of joint holders, to the address of that one of the joint holders whose name appears first in the register of members of First Choice in respect of such joint holding) or in accordance with any applicable special instructions received by Lloyds TSB Registrars regarding communications prior to the Scheme Record Time.

(g) None of TUI Travel, First Choice or any nominee referred to in sub-clause 4(d)(i) nor the person appointed by TUI Travel pursuant to sub-clause 4(d)(ii) shall be responsible for any loss or delay in the delivery of any certificates or cheques posted in accordance with sub-paragraphs (c), (d), (e) and (f) of this clause 4, which shall be posted at the risk of the persons entitled thereto.

(h) All cheques and warrants shall be in sterling drawn on a UK clearing bank and made payable to the holder or, in the case of joint holders, to the first named of such holders of the Scheme Shares concerned and the encashment of any such cheque shall be a complete discharge to TUI Travel, the nominee referred to in sub-clause 4(d)(i) and the person appointed by TUI Travel pursuant to sub-clause 4(d)(ii) for the moneys represented thereby.

(i) Prior to the issue of new share certificates in respect of TUI Travel Shares to Relevant Holders pursuant to sub-clause 4(c)(ii), transfers of the TUI Travel Shares issued to them pursuant to this Scheme shall be certified against the register of members of TUI Travel. Existing certificate(s) for Scheme Shares shall, on and from the Effective Date, cease to have effect as documents of title to the Scheme Shares comprised therein. In respect of those Relevant Holders holding their TUI Travel Shares in uncertificated form, CRESTCo shall be instructed to cancel such Relevant Holder's entitlement to TUI Travel Shares on and from the Effective Date.

5. Declarations and information relating to the nationality of First Choice Shareholders

Each declaration made in the case of Scheme Shares held in certificated form and each item of information relating to nationality provided through a relevant system (as defined in the Uncertificated Securities Regulations 2001 (SI 201/3755)) in the case of Scheme Shares held in uncertificated form for the purposes of article 31 of the articles of association of TUI Travel shall, unless and until amended or revoked, be deemed as from the Effective Date to be an effective declaration or provision of information (as the case may be) for the purposes of article 31 of the articles of association of TUI Travel.

6. The Scheme Effective Time

(a) The Scheme shall become effective as soon as office copies of the Scheme Court Order and the Reduction Court Order shall have been delivered to the Registrar of Companies in England and Wales for registration and, in the case of the Reduction Court Order, have been registered by him.

(b) Unless the Scheme shall have become effective on or before the close of business on 31 October 2007 (London time), or such later date (if any) as First Choice and TUI Travel may agree and the Court may approve, the Scheme shall never become effective.

7. Modification

First Choice and TUI Travel may jointly consent on behalf of all persons concerned to any modification of or addition to the Scheme or to any condition which the Court may think fit to approve or impose.

8. Costs

First Choice is authorised to and permitted to pay all its costs and expenses relating to the negotiation, preparation and implementation of the Scheme.

Dated 29 June 2007

Part IV

Financial Information

Section A

Financial information on First Choice Holidays PLC

The financial information incorporated in this Section A of this Part IV of this document by reference to the Prospectus does not constitute statutory accounts within the meaning of section 240 of the Companies Act.

Section A(i): Financial information on First Choice for the last three years ended 31 October 2006

Parts VII-B and VII-C (Financial Information on First Choice) of the Prospectus contain information which cover the last 3 financial years ended 31 October 2006, including: turnover, net profit or loss before and after taxation, the charge for tax, extraordinary items, minority interests, the amount absorbed by dividends and earnings and dividends per share.

Section A(ii): Unaudited interim results of First Choice for the six months ended 30 April 2007

Part VII—D (Financial Information on First Choice) of the Prospectus contains information which cover the six months ended 30 April 2007, including: turnover, net profit or loss before and after taxation, the charge for tax, extraordinary items, minority interests, the amount absorbed by dividends and earnings and dividends per share.

Section B

Financial information on TUI AG

Section B(i): Financial information on TUI AG for the three years to 31 December 2006

The following section sets out consolidated financial information on TUI AG for the last 3 financial years ended 31 December 2006, including turnover, net profit or loss before and after taxation, the charge for tax, minority interests, the amount absorbed by dividends and earnings and dividends per share.

The notes to such information, including in relation to the significant accounting policies in accordance with which it has been prepared, will be available for inspection as set out in paragraph 11 of Part V of this document.

Section C

Financial information on TUI Tourism

Financial information relating to TUI Tourism for the three years ended 31 December 2006 is set out in Part V of the Prospectus.

Section D

Unaudited pro forma financial information on the Enlarged Group

Part X of the Prospectus contains an unaudited pro forma income statement and an unaudited pro forma combined net assets statement. The unaudited pro forma income statement has been prepared to illustrate the effect on TUI Travel for the period ended 31 May 2007 as if the Merger had taken place on 1 January 2007. The audited pro forma net assets statement has been prepared to illustrate the effect on the net assets of TUI Travel as if the Merger had taken place on 31 May 2007. Such pro forma statements address a hypothetical situation and, therefore, do not represent TUI Travel's actual financial result or position following the Merger.

Part V

Additional information

1. Responsibility

1.1 The First Choice Directors, whose names are set out in paragraph 2.1 below, accept responsibility for the information contained in this document, other than information relating to the Enlarged Group, TUI Travel, TUI Tourism, TUI AG, the TUI Travel Directors, the TUI AG Directors and the immediate families and related trusts of and persons connected with such directors for which responsibility is taken by others pursuant to paragraphs 1.2 and 1.3 below. To the best of the knowledge and belief of the First Choice Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document for which they take responsibility is in accordance with the facts and does not omit anything likely to affect the import of such information.

1.2 The TUI AG Directors, whose names are set out in paragraph 2.2 below, accept responsibility for the information contained in this document relating to TUI AG, TUI Tourism, the TUI AG Directors, and the immediate families and related trusts of and persons connected with such directors. To the best of the knowledge and belief of the TUI AG Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document for which they take responsibility is in accordance with the facts and does not omit anything likely to affect the import of such information.

1.3 The TUI Travel Directors, whose names are set out in paragraph 2.3 below, accept responsibility for the information contained in this document relating to the Enlarged Group, TUI Travel TUI Travel Directors and the immediate families and related trusts of and persons connected with such directors. To the best of the knowledge and belief of the TUI Travel Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document for which they take responsibility is in accordance with the facts and does not omit anything likely to affect the import of such information.

The business address of each of the directors of TUI Travel is at TUI Travel's registered office.

The principal and registered office of TUI Travel is at First Choice House, London Road, Crawley, West Sussex RH10 9GX.

3. Interests and dealings in shares

3.1 Definitions and references

For the purposes of this Part V:

(a) **"acting in concert"** with TUI Travel means any such person acting or deemed to be acting in concert with TUI Travel for the purposes of the Takeover Code;

(b) **"arrangement"** includes indemnity or option arrangements, and any agreement or understanding, formal or informal, of whatever nature, relating to relevant securities which may be an inducement to deal or refrain from dealing;

(c) **"associate"** of any company means:

(i) its parent company (if any), its subsidiaries, fellow subsidiaries, their associated companies, and companies of which any such parent, subsidiaries, fellow subsidiaries or associated companies are associated companies (for this purpose, ownership or control of 20 per cent. or more of the equity share capital of a company is regarded as the test of "associated company" status);

(ii) its connected advisers and persons controlling, controlled by or under the same control as such connected advisers;

(iii) its directors and the directors of any company covered in (i) above (together in each case with their close relatives and related trusts);

(iv) its pension funds or the pension funds of any company covered in (i) above;

(d) **"connected adviser"** has the meaning attributed to it in the Takeover Code;

(e) **"connected person"** has the meaning attributed to it in section 346 of the Companies Act;

(f) **"control"** means an interest or interests in shares carrying in aggregate 30 per cent. or more of the voting rights attributable to the share capital of a company which are currently exercisable at a general meeting, irrespective of whether such interest or interests give *de facto* control;

(g) **"dealing"** or **"dealt"** includes the following:

(i) the acquisition or disposal of relevant securities, of the right (whether conditional or absolute) to exercise or direct the exercise of voting rights attached to relevant securities, or of general control of relevant securities;

(ii) the taking, granting, acquisition, disposal, entering into, closing out, termination, exercise (by either party) or variation of an option, (including a traded option contract) in respect of any securities;

(iii) subscribing or agreeing to subscribe for relevant securities;

(iv) the exercise or conversion, whether in respect of new or existing securities, of any relevant securities carrying conversion or subscription rights;

(v) the acquisition of, disposal of, entering into, closing out, exercise (by either party) of any rights under, or variation of, a derivative referenced, directly or indirectly, to relevant securities;

(vi) entering into, terminating or varying the terms of any agreement to purchase or sell relevant securities; and

(vii) any other action resulting, or which may result, in an increase or decrease in the number of relevant securities in which a person is interested or in respect of which he has a short position;

(h) **"derivative"** includes any financial product the value of which, in whole or in part, is determined directly or indirectly by reference to the price of an underlying security but which does not include the possibility of delivery of such underlying security;

(i) **"disclosure period"** means the period commencing twelve months prior to 27 June 2007 (being the latest practicable date prior to the posting of this document);

(j) being **"interested"** in relevant securities includes where a person:

(i) owns them;

(ii) has the right (whether conditional or absolute) to exercise or direct the exercise of the voting rights attaching to them or has general control of them;

(iii) by virtue of any agreement to purchase, option or derivative, has the right or option to acquire them or call for their delivery; or is under an obligation to take delivery of them, whether the right, option or obligation is conditional or absolute and whether it is in the money or otherwise; or

(iv) is party to any derivative whose value is determined by reference to their price; and which results, or may result, in his having a long position in them.

(k) **"relevant First Choice securities"** means First Choice Shares (or derivatives referenced thereto) and securities convertible into, rights to subscribe for an options (including traded options) in respect threreof;

(l) **"relevant securities"** includes relevant First Choice securities and relevant TUI AG securities;

(m) **"relevant TUI AG securities"** means TUI AG Shares (or derivatives referenced thereto) and securities convertible into, rights to subscribe for an options (including traded options) in respect threreof; and

(n) "short positions" means any short position (whether conditional or absolute and whether in the money or otherwise) including any short position under a derivative, any agreement to sell or any delivery obligation or right to require another person to purchase or take delivery.

3.2 Interests and Dealings in relevant First Choice securities

(a) At the close of business on 27 June 2007 (being the latest practicable date prior to the publication of this document) the interests, rights to subscribe and short positions in relevant First Choice securities of the Directors of First Choice, their immediate families, related trusts and connected persons (all of which are beneficial unless otherwise stated) other than in connection with First Choice Share Schemes (which are disclosed in paragraph (b) below) were as follows:

Name	Number of First Choice Shares
Sir Michael Hodgkinson	20,000
Peter Long	2,869,706*
Paul Bowtell	12,771*
Dermot Blastland	440,775
Tony Campbell	40,804
Giles Thorley	25,000

* Includes First Choice Shares held under the First Choice Share Incentive Plan

(b) At the close of business on 27 June 2007 (being the latest practicable date prior to the publication of this document) the following awards and options over relevant First Choice securities had been granted to the Directors of First Choice or their respective immediate families, related trusts and connected persons under the First Choice Share Schemes and remained outstanding:

(c) At the close of business on 27 June 2007 (being the latest practicable date prior to the publication of this document) the interests, rights to subscribe and short positions in relevant First Choice securities of the following employee benefit trust of First Choice (or of a company which is an associate of First Choice by virtue of the definition in paragraph 3.1(c)(i) above) were as follows:

Employee benefit trust	Number of First Choice Shares
First Choice Holidays PLC EBT	1,674,072

* It is intended that the 100 First Choice Shares currently held by JS Courtney Limited (a company in TUI Northern Europe Limited's group) will be transferred to the First Choice Holidays PLC Employee Benefit Trust after the date of this document.

(d) At the close of business on 27 June 2007 (being the latest practicable date prior to the publication of this document) the interests, rights to subscribe and short positions in relevant First Choice securities of (i) connected advisers to First Choice, to a company which is an associate of First Choice (by virtue of the definition in paragraph 3.1(c)(i) above) or to a person acting in concert with First Choice, or (ii) persons controlling or controlled by or under the same control as any such adviser (except for an exempt principal trader or an exempt fund manager), were as follows:

Name	Number of First Choice Shares
Deutsche Bank AG, London Branch	323,778*

* Short position.

(e) At the close of business on 27 June 2007 (being the latest practicable date prior to the publication of this document) the following persons acting in concert with TUI AG were interested in, had rights to subscribe for or had short positions in the following relevant First Choice securities:

Name	Number of First Choice Shares
Morgan Stanley Securities Limited	2,676,082*
JS Courtney Limited	100**
Thomsonfly Limited	1***

* Short position.

** It is intended that the 100 First Choice Shares held by JS Courtney Limited (a company in TUI Northern Europe Limited's group) will be transferred to the First Choice Holidays PLC Employee Benefit Trust after the date of this document.

*** It is intended that the First Choice Share held by Thomsonfly Limited will be transferred to TUI Travel for the purposes of complying with the exemption set out in section 103(3) of the Companies Act from the requirement under section 103(1) of the Companies Act to provide an independent valuation in connection with the transfer of TUI Tourism by TUI AG to TUI Travel in exchange for TUI Travel Shares.

(f) The following dealings for value in First Choice Shares by First Choice Directors or their immediate relatives have taken place during the disclosure period:

Name	Date	Transaction	Number of First Choice Shares	Price per First Choice Share (p)
Peter Long	12/02/2007	Total Sells:	123,526	263.75

(h) At the close of business on 27 June 2007 (being the latest practicable date prior to the publication of this document) and save as disclosed in this paragraph 3.2:

(i) TUI AG had no interest in or right to subscribe for, or had any short position in relation to, any relevant First Choice securities;

(ii) none of the TUI AG Directors (including any members of their immediate families, related trusts or connected persons) had any interest in, had a right to subscribe for or had short positions in relation to any relevant First Choice securities;

(iii) no person acting in concert with TUI AG had any interest in, had a right to subscribe for or had short positions in relation to any relevant First Choice securities;

(iv) no person referred to in paragraphs (i), (ii) or (iii) immediately above has dealt in any relevant First Choice security during the disclosure period;

(v) none of the Directors of First Choice (including any members of their immediate families, related trusts or connected persons) had any interest in, had a right to subscribe for or had short positions in relation to any relevant First Choice securities;

(vi) no companies who are associates of First Choice (by virtue of the definition in paragraph 3.1(c)(i)), has an arrangement was interested in, had a right to subscribe for or had short positions in any relevant First Choice securities;

(vii) no pension fund of First Choice or of an associate of First Choice (by virtue of the definition in paragraph 3.1(c)(i)) was interested in, had a right to subscribe for or had short positions in any relevant First Choice securities;

(viii) no employee benefit trust of First Choice or of an associate of First Choice (by virtue of the definition in paragraph 3.1(c)(i)) was interested in, had a right to subscribe for or had short positions in any relevant First Choice securities;

(ix) no connected adviser to First Choice, to an associate of First Choice (by virtue of the definition in paragraph 3.1(c)(i)) or to a person acting in concert with First Choice, nor any person controlling, controlled by or under the same control as any such connected adviser (except for an exempt principal trader or exempt fund manager) had any interest in or right to subscribe for or had any short position in relation to, any relevant First Choice securities;

(x) there were no arrangements between First Choice or any associate of First Choice and any other person;

(xi) there were no arrangements between TUI AG or any associate of TUI AG and any other person;

(xii) neither First Choice nor any person acting in concert with First Choice had borrowed or lent any relevant First Choice Securities, save for any borrowed shares which have either been on-lent or sold;

(xiii) neither TUI AG nor any person acting in concert with TUI AG had borrowed or lent any relevant First Choice Securities, save for any borrowed shares which have either been on-lent or sold;

3.3 Interests in relevant TUI AG securities

At the close of business on 27 June 2007 (being the last practicable date prior to the publication of this document) neither First Choice nor any First Choice Director (including their respective immediate families, related trusts and connected persons) is interested in or has any rights to subscribe for any relevant securities of TUI AG.

3.4 Interests in relevant TUI Travel securities

(a) At the close of business on 27 June 2007 (being the last practicable date prior to the publication of this document) the following persons held the following shares in TUI Travel:

Party	Number of First Choice Shares	Class and nominal value
Andrew John	1	Ordinary, £1 each
TUI AG	1	Ordinary, £1 each
TUI AG	49,998	Redeemable, £1 each

(b) The aforementioned shares comprise the entire issued share capital of TUI Travel as at 27 June 2007 (being the last practicable date prior to the publication of this document).

(c) Andrew John purchased one ordinary share of £1 nominal value in TUI Travel on 19 June 2007 from First Choice for a consideration of £1.

(d) TUI AG purchased one ordinary share of £1 nominal value in TUI Travel on 19 March 2007 from Peregrine Secretarial Services Limited for a consideration of £1.

(e) The 49,998 redeemable shares in TUI Travel held by TUI AG were subscribed by TUI AG on 19 June 2007.

4. Middle market quotations

The following table sets out the closing middle market quotations for First Choice Shares as derived from the Daily Official List for the first dealing day in each of the six months immediately prior to the date of this document and for 27 June 2007 (being the latest practicable date prior to the publication of this document):

Date	Price per First Choice Share (pence)
2 January 2007	291.00
1 February 2007	289.50
1 March 2007	253.00
2 April 2007	285.25
1 May 2007	285.50
1 June 2007	355.50
27 June 2007	308.50

The closing middle market prices or quotations of First Choice Shares are derived from the Daily Official List.

5. Irrevocable undertakings

The First Choice Directors whose names are set out below have irrevocably undertaken to vote in favour of the Scheme at the Court Meeting and in favour of the Resolutions at the EGM in respect of their entire beneficial holdings of First Choice Shares. Those holdings amount to, in aggregate 3,409,056 First Choice Shares, representing, in aggregate, approximately 0.64 per cent. of the existing issued share capital of First Choice. They have also agreed unless and until the Scheme is withdrawn, not to dispose in any manner of any of their interests in First Choice Shares, accept any offer in respect thereto or acquire any further interests in any First Choice Shares other than pursuant to the Share Schemes. However, all such commitments and restrictions shall cease to apply in the event that, and immediately upon, the First Choice Board determining (whether before or after the date of this document to First Choice Shareholders but before the Court has granted the Scheme Court Order), acting reasonably, in good faith and in light of a change of events or circumstances, not to give or to withdraw or adversely modify the First Choice Board recommendation in favour of the Merger (as set out in the announcement of 19 March 2007), in circumstances where not doing so would be inconsistent with their fiduciary duties or a breach of their obligations under the Takeover Code, subject to the First Choice Directors having obtained and relying upon appropriate external legal and independent financial advice to that effect.

The following table shows the number of First Choice Shares in which each of the relevant First Choice Directors had an interest (including those which were expected to vest on him under the First Choice Share Schemes) on the date of the undertaking given by him and in respect of which such undertaking was given:

Name	Date	First Choice Shares held
Sir Michael Hodgkinson	28 June 2007	20,000
Peter Long	28 June 2007	2,869,706*
Paul Bowtell	28 June 2007	12,771*
Dermot Blastland	28 June 2007	440,775
Tony Campbell	28 June 2007	40,804
Giles Thorley	28 June 2007	25,000

* Includes First Choice Shares held under the First Choice Share Incentive Plan.

6. Material contracts

Material contracts entered into by First Choice

Details of each material contract (not being a contract entered into in the ordinary course of business) entered into by First Choice or its subsidiaries within the 2 years prior to the date on which the Merger was announced are set out in paragraph 12 of Part XI of the Prospectus.

Material contracts entered into by TUI AG

Details of each material contract (not being a contract entered into in the ordinary course of business) entered into by TUI AG in relation to its tourism business or by a subsidiary or subsidiary undertaking of TUI AG that will be part of TUI Tourism within the 2 years prior to the date on which the Merger was announced are set out in paragraph 12 of Part XI of the Prospectus.

The following material contracts (not being contracts entered into in the ordinary course of business) have been entered into by TUI AG in relation to its shipping business or by a subsidiary or subsidiary undertaking of TUI AG that will not be part of TUI Tourism within the 2 years prior to the date on which the Merger was announced:

(a) On 20 August 2005, TUI AG and CP Ships Limited ("**CP Ships**") entered into and announced a support agreement (the "**Support Agreement**") pursuant to which TUI AG agreed to make an offer to purchase all of the common shares in the capital of CP Ships at a price of US$ 21.50 per common share (the "**Offer**"). On 30 August 2005, Ship Acquisition, Inc. (a wholly-owned subsidiary of TUI AG) made an offer for CP Ships by way of an offer document and circular. CP Ships represented and warranted to TUI AG in the Support Agreement that the board of directors of CP Ships had determined unanimously that the Offer was fair to the shareholders of CP Ships and that the Offer was in the best interests of CP Ships and resolved unanimously to recommend to the shareholders of CP Ships that they accept the Offer and deposit their shares under the Offer. Both TUI AG and CP Ships provided customary representations and warranties to each other in the Support Agreement. These representations and warranties terminated when TUI AG took up and paid for, in the aggregate, more than 50 per cent. of the shares under the Offer. On 19 October 2005 TUI AG and CP Ships jointly announced that shareholders of CP Ships representing 89 per cent. of the common shares in the capital of CP Ships had accepted the Offer and, on 20 December 2005, CP Ships became an indirect wholly owned subsidiary of TUI AG. That total consideration paid by the TUI AG group for CP Ships was approximately €2 billion.

(b) On 23 December 2006, Carnival plc, through its subsidiary Costa Crociere S.p.A. ("**Carnival**") and TUI AG entered into a letter of intent to establish a joint venture company to develop, market, operate and sell ocean line holiday cruises primarily within the German-speaking cruise sector (the "**Business**"). The joint venture company will be established and headquartered in Italy and will be governed by Italian law. Initially, Carnival will hold 95 per cent. of the shares in the joint venture company while TUI AG will hold five per cent. of the shares. The joint venture company will own all of the assets that are used in Carnival's Aida cruise line business and TUI AG shall grant the joint venture company the right to use the TUI Cruises brand name in furtherance of the Business. The joint venture company is valued at Euro 1.935 million (before third party debt of Euro 619 million). The strategic direction of the joint venture company shall be the responsibility of the board of the joint venture company (the "**Board**"). The Board will at all times have a total of four directors. One director will be appointed by TUI AG and three directors will be appointed by Carnival. The chairman of the Board shall be appointed by Carnival and shall have a casting vote. Certain specified matters in respect of the joint venture company require Board approval on the basis of a majority vote while certain specified key decisions affecting the Business shall require unanimous approval by the Board. The executive officers of the joint venture company shall be appointed by Carnival.

The parties will enter into a shareholders agreement which will include provisions on: (a) the distribution of earnings, (b) the transfer of the parties' shareholdings in the joint venture company, including an obligation on TUI AG to obtain Carnival's consent if it wishes to transfer its shareholding in the joint venture company to any competitor of Carnival and an obligation on Carnival to obtain TUI AG's consent if it wishes to transfer its shareholding to any competitor of TUI AG, (c) each party having a right of first refusal if the other party wishes to sell its shares in the joint venture company (which, except for certain permitted intra-group transfers, shall not be permitted for an initial period of 10 years), (d) where the right of first refusal contained in (b) above is not exercised, each party has customary tag along rights to sell the same proportion of their interests in the joint venture company, (e) a call option over 20 per cent. of the shares in the joint venture company in favour of TUI AG, exercisable by TUI AG during the period between 90 days and 60 days prior to the delivery of the first TUI AG newbuild to the Business, (f) a put option over 20 per cent. of the shares in the joint venture company, exercisable by Carnival during the period between 60 days and 30 days prior to delivery of the first TUI AG newbuild to the Business, (g) undertakings given by TUI AG (on behalf of itself and its affiliates) not to compete in the operation of cruises with the business of the joint venture company within the following regions: Germany, the German-speaking Region of Switzerland, Austria, Sweden, Norway, Finland, Denmark, Belgium, Luxembourg and The Netherlands (together, the "**Territory**") whilst it remains a shareholder in the joint venture company (on the basis that TUI AG may operate (i) its existing Hapag-Lloyd cruise line as well as its existing Thomson cruise line, (ii) within the luxury cruise/expeditions sector and (iii) within the river cruise market so long as TUI AG does not use the "TUI Cruises" brand in the European market for marketing, sales, financial reporting or other operational purposes or activities in connection with such businesses). This undertaking not to compete within the Territory shall continue for a period of three years following TUI AG ceasing to be a shareholder in the joint venture company for any reason other than a buy-out by Carnival. Prior to entering any European market or region for the TUI Cruise brand outside of the Territory, TUI AG shall first offer the joint venture company the opportunity to expand the TUI Cruise business into such market or region. There is also provision for a Carnival buy-out of TUI AG's shareholding at market value in the event that the joint venture company determines to cease the use of the TUI Cruises brand name in connection with the Business. On the basis of a management and services agreement to be entered into with the joint venture company, Carnival shall provide management services to the joint venture company in return for the payment of an annual fee equal to three per cent. of the joint venture company's annual gross revenues. The parties and the joint venture company will enter into a branding agreement under which the joint venture company is granted an irrevocable and exclusive right within the Territory to use the "TUI Cruises" brand. In return for such branding rights, the joint venture company shall pay TUI AG a nominal fee. TUI AG is currently negotiating the terms of the shareholders agreement and associated documents with Carnival and anticipates that they will be entered into in the period between the date of this document and Completion.

Save as disclosed above no contracts have been entered into by TUI AG or its subsidiaries otherwise than in the ordinary course of business within the two years prior to the date on which the Merger was announced.

7. Service contracts of First Choice Directors

7.1 As at the date of this document, the Executive Directors have service contracts with First Choice on the following terms:

(a) Peter Long is employed by First Choice pursuant to a service contract dated 10 July 1996. His current basic salary is £675,000 per annum. In addition, Mr Long is entitled to participate in the Group Bonus Scheme for directors. Mr Long receives pension contributions of 50 per cent. of his basic salary which is paid to a Self-Invested Personal Pension. Mr Long's additional benefits include private health insurance, permanent health insurance, life assurance and a company car. In addition, he is entitled to participate in a Five Year

Performance Bonus. Under this scheme, Mr Long may receive a cash bonus, based on the Company's performance, of up to £1.5m. This is payable no later than six months after 31 October 2009, however, a pro-rated sum (reduced to take into account the time remaining until 31 October 2009) is payable early on a takeover or a scheme of arrangement (see paragraph 5.2 of Part IV of the Prospectus for further details). Any amount paid under this scheme is not pensionable.

(b) Paul Bowtell is employed by First Choice pursuant to a service contract dated 28 April 2004. His current basic salary is £385,000 per annum. Mr Bowtell receives company pension contributions of 25 per cent. of his basic salary paid to the First Choice Pension Scheme. In addition, Mr Bowtell is entitled to participate in the Group Bonus Scheme for directors, and the First Choice Share Schemes excluding the First Choice Senior Executive Plan. Mr Bowtell's additional benefits include private health insurance, permanent health insurance and a company car.

(c) Dermot Blastland is employed by First Choice pursuant to a service contract dated 22 April 1999 (as amended by an addendum dated 30 September 1999). His current basic salary is £382,000. Mr Blastland receives company pension contributions of 25 per cent. of his basic salary paid to the First Choice Pension Scheme. In addition, Mr Blastland is entitled to participate in the First Choice Share Schemes and the Group Bonus Scheme for directors. Mr Blastland's additional benefits include private health insurance, permanent health insurance and a company car.

Each of these service contracts is terminable upon not less than six months' notice from the relevant Director or upon not less than 12 months' notice from First Choice. Each contract provides First Choice with a discretion to terminate the contracts without notice on payment of a sum equal to the Director's gross salary (including benefits apart from Dermot Blastland who is entitled to a sum equal to only his gross basic salary) in respect of the period of notice required under the contract. No other benefits are payable on termination.

Both Mr Blastland's and Mr Long's contracts terminate automatically on reaching 65 years of age.

7.2 The Non-Executive Directors have letters of appointment with the Company on the following terms:

(a) Sir Michael Hodgkinson was appointed as a Non-Executive Director with effect from 1 January 2004 for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Sir Michael was appointed Non-Executive Chairman with effect from 11 March 2004. He is entitled to a fee of £170,000 per annum.

(b) Tony Campbell was appointed as a Non-Executive Director and Senior Independent Director with effect from 1 April 1997. Mr Campbell is entitled to an annual fee of £38,000 (which includes the £5,000 annual fee to which he is entitled as Senior Independent Director).

(c) Clare Chapman was appointed as a Non-Executive Director with effect from 12 March 2003 for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Ms Chapman is the chairman of the remuneration committee of First Choice. Ms Chapman is entitled to an annual fee of £38,000 (which includes the £5,000 annual fee to which she is entitled as chairman of the remuneration committee).

(d) Bill Dalton was appointed as a Non-Executive Director on 6 October 2004, for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Mr Dalton is entitled to an annual fee of £33,000 per annum.

(e) Jeremy Hicks was appointed as a Non-Executive Director on 1 March 2005 for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Mr Hicks is the chairman of the audit committee of First Choice.

Mr Hicks is entitled to an annual fee of £38,000 (which includes the £5,000 annual fee to which he is entitled as chairman of the audit committee).

(f) Susan Hooper was appointed as a Non-Executive Director on 10 March 2005 for an initial term of three years, although either party may terminate the appointment by giving six months' written notice. Ms Hooper is entitled to a fee of £33,000 per annum.

(g) Giles Thorley was appointed as a Non-Executive Director with effect from 1 February 2006 for an initial term of three years, although either party may terminate the appointment by giving six-months' written notice.

All the Non-Executive Directors apart from Tony Campbell are entitled to a sum equivalent to net fees for up to six months if their appointment is terminated by First Choice in certain circumstances.

None of the services contracts or letters of appointment of the First Choice Directors has been replaced or amended in the six months prior to the date of this document.

8. Overseas shareholders

General

It is the responsibility of Overseas Shareholders to satisfy themselves as to the full observance of the laws of the relevant jurisdiction in connection with the allotment and issue of TUI Travel Shares, including the obtaining of any governmental, exchange control or other consents which may be required, and/or the compliance with other necessary formalities which are required to be observed and the payment of any issue, transfer or other taxes due in such jurisdiction.

This document does not constitute an offer to sell or issue or the solicitation of an offer to buy or subscribe for shares in any jurisdiction in which such offer or solicitation is unlawful.

If, in respect of any Overseas Shareholder, First Choice is advised that the allotment and issue of TUI Travel Shares would or might infringe the laws of any jurisdiction outside the United Kingdom, or would or might require TUI Travel to obtain any governmental or other consent or effect any registration, filing or other formality with which, in the opinion of First Choice, it would be unable to comply or which it regards as unduly onerous, then First Choice may, at its sole discretion either (a) determine that no TUI Travel Shares shall be allotted and issued to such Overseas Shareholder, but that instead those TUI Travel Shares shall be allotted and issued to a nominee appointed by TUI Travel, as trustee for such Overseas Shareholder, on terms that they shall be sold on behalf of such Overseas Shareholder as soon as reasonably practicable following the Scheme Effective Time, with the net proceeds of sale (after deduction of all expenses and commissions, including any amount in respect of value added tax payable thereon) being remitted to the Overseas Shareholder concerned as soon as reasonably practicable after the sale at the risk of such Overseas Shareholder, or (b) determine that such TUI Travel Shares shall be sold on behalf of such Overseas Shareholder, in which event the TUI Travel Shares shall be issued to such Overseas Shareholder, and First Choice shall appoint a person to procure that those shares be sold as soon as reasonably practicable following the Scheme Effective Time, with the net proceeds of sale (after deduction of all expenses and commissions, including any amount in respect of value added tax payable thereon) being remitted to the Overseas Shareholder concerned (by sending a cheque in sterling) as soon as reasonably practicable after the sale at the risk of such Overseas Shareholder.

The document has been prepared for the purposes of complying with English Law, the Takeover Code and the Listing Rules and the information disclosed may not be the same as that which would have been disclosed if the document had been prepared in accordance with the laws of jurisdictions outside the United Kingdom.

United States

The TUI Travel Shares to be issued to holders of First Choice Shares under the Scheme will not be registered under the US Securities Act and will be issued in the United States pursuant to the Scheme only in reliance on the exemption from registration provided by Section 3(a)(10) of that Act. For purposes of qualifying for this exemption, First Choice will advise, or procure advice to, the Court that its sanctioning of the Scheme will be relied upon to establish the availability of this exemption.

The TUI Travel Shares will not be registered under the securities laws of any state of the United States, and will be issued in the United States pursuant to the Scheme only in reliance on available exemptions from such state law registration requirements and the provisions of Section 18 of the US Securities Act.

Any First Choice Shareholder in the United States that is not an affiliate, for the purposes of the US Securities Act, of TUI Travel or First Choice prior to the implementation of the Scheme and is not an affiliate of TUI Travel following implementation of the Scheme may sell TUI Travel Shares received pursuant to the Scheme in ordinary secondary market transactions without restriction under the US Securities Act.

Under US securities laws, any First Choice Shareholder in the United States who is deemed to be an affiliate of TUI Travel or First Choice prior to the implementation of the Scheme and/or is or becomes an affiliate of TUI Travel following the implementation of the Scheme (whether or not a US person) will be subject to timing, manner of sale and volume restrictions on the sale of TUI Travel Shares received pursuant to the Scheme pursuant to Rule 145(d) under the US Securities Act, and may not resell TUI Travel Shares unless pursuant to another applicable exemption from the registration requirements of the US Securities Act, or in a transaction not subject to such requirements (including a transaction that satisfies the applicable requirements of Regulation S under the US Securities Act relating to offers and sales outside the United States). For these purposes, an "affiliate" of any person is generally defined to be a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, that person. Whether a person is an affiliate of a company for such purposes depends on the circumstances, but affiliates of a company can include directors, officers, and significant shareholders. First Choice Shareholders in the United States that believe they are or may be "affiliates" of TUI Travel or First Choice should consult their own legal advisers prior to any sale of TUI Travel received pursuant to the Scheme.

Neither the SEC nor any US state securities commission has approved or disapproved the TUI Travel Shares or passed an opinion upon the accuracy or adequacy of this document. Any representation to the contrary is a criminal offence in the United States.

First Choice Shareholders who are citizens or residents of the United States should consult their own legal and tax advisers with respect to legal and tax consequences of the Scheme in their particular circumstances.

Canada

The TUI Travel Shares issued to or for the benefit of any resident of Canada pursuant to the Scheme will not be qualified for sale under the securities law of any province or territory of Canada and may be subject to resale restrictions.

First Choice Shareholders who are citizens or residents of Canada should consult their own legal and tax advisers with respect to legal and tax consequences of the Scheme in their particular circumstances.

Other Jurisdictions

This document and any accompanying documents are not being made available to First Choice Shareholders with registered addresses in any Restricted Jurisdiction and may not be treated as

an invitation to subscribe for any TUI Travel Shares by any person resident or located in such jurisdictions or any other Restricted Jurisdiction.

The TUI Travel Shares have not been, and will not be, registered under the applicable securities laws of any Restricted Jurisdiction. Accordingly, the TUI Travel Shares may not be offered, sold, delivered or transferred, directly or indirectly, in or into any Restricted Jurisdiction to or for the account or benefit of any national, resident or citizen of any Restricted Jurisdiction.

The implications of the Scheme for Overseas Shareholders may be affected by the laws of relevant jurisdictions. Such Overseas Shareholders should inform themselves about, and observe, any applicable legal requirements. Any person outside the UK who is resident in, or who has a registered address in, or is a citizen of, an overseas jurisdiction and who is to receive TUI Travel Shares pursuant to the Scheme should consult his or her professional advisers and satisfy himself or herself as to the full observance of the laws of the relevant jurisdiction in connection with the Scheme, including obtaining any requisite governmental or other consents, observing any requisite formalities and paying any issue, transfer or other taxes due in such jurisdiction.

This document has been prepared for the purposes of complying with English law, the Takeover Code and the Listing Rules, and the information disclosed may not be the same as that which could have been disclosed if this document had been prepared in accordance with the laws of jurisdictions outside the United Kingdom.

Overseas Shareholders should consult their own legal and tax advisers with respect to the legal and tax consequences of the Scheme in their particular circumstances.

9. Forecasts in respect of TUI Tourism

In December 2006, in the context of defining a restructuring programme for its entire tourism division, TUI AG published a target range for EBITA of that division for the 2008 calendar year. During questions following a presentation to analysts by First Choice and TUI AG on 19 March 2007, statements were made regarding the proportion of that target range attributable to TUI Tourism. It has been noted that these statements could be construed as a profit forecast for TUI Tourism for the year ended 31 December 2008. These statements were not intended to be a profit forecast and both TUI AG and First Choice consider that it is not possible to produce a forecast and associated assumptions for this period in a form capable of being reported on in the manner required by the Takeover Code. Accordingly, the relevant statements have been and remain withdrawn.

10. Other information

10.1 No agreement, arrangement or understanding (including any compensation arrangement) exists between TUI AG or any party acting in concert with TUI AG and any of the directors, recent directors, shareholders or recent shareholders of First Choice which has any connection with, or dependence on, or which is conditional upon the outcome of the Merger.

10.2 There is no agreement, arrangement or understanding whereby the beneficial ownership of any of the First Choice Shares to be acquired pursuant to the Merger will be transferred to any person, but TUI Travel reserves the right to transfer any such shares to any member of the Enlarged Group.

10.3 Save as disclosed in this document and in the Prospectus, there have been no material changes in the financial or trading position of the First Choice Group since 31 October 2006 (the date to which the last audited accounts of First Choice have been prepared).

10.4 Save as disclosed in this document and in the Prospectus, there have been no material changes in the financial or trading position of TUI AG since 31 December 2006 (the date to which the last audited accounts of TUI AG have been prepared), save that on 1 June 2007 TUI AG closed a €694 million convertible bond transaction which includes an option to convert the bonds into ordinary shares and which bonds mature on 1 September 2012. TUI AG will use the proceeds of the bonds for general corporate purposes.

10.5 Each of Lazard, Deutsche Bank and Morgan Stanley has given and has not withdrawn its written consent to the issue of this document with the inclusion of the references to its name in the form and context in which it appear.

10.6 As at the date of this document, First Choice holds no Treasury Shares.

11. Documents available for inspection

Copies of the following documents will be available for inspection at the offices of Herbert Smith LLP, Exchange House, Primrose Street, London EC2A 2HS, during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted) until the conclusion of the Court Meeting and the EGM:

(a) the memorandum and articles of association of First Choice and the full terms of the proposed amendments to the articles of association;

(b) the memorandum and articles of association of TUI Travel and an English translation of the charter of TUI AG;

(c) the audited consolidated accounts of First Choice for the two financial years ended 31 October 2005 and 31 October 2006 and the unaudited interim results for the six-month period ended 30 June 2007;

(d) the audited consolidated accounts of TUI AG for the two financial years ended 31 December 2005 and 31 December 2006 and the unaudited interim results for the three-month period ended 31 March 2007;

(e) the service contracts of the Directors of First Choice referred to in paragraph 7 above;

(f) the written consents of the financial advisers referred to in paragraph 10.5 above;

(g) the Merger Agreement, the Relationship Agreement and the material contracts referred to in paragraph 6 above;

(h) copies of any irrevocable undertakings to vote in favour of the Scheme;

(i) any full lists of dealings as referred to in paragraph 3.2(g) of this Part V in accordance with Rule 26(h) of the Takeover Code;

(j) this document, the accompanying blue and white Forms of Proxy and the Prospectus.

29 June 2007

Part VI

Definitions

"£" or "sterling" or "pounds"	pounds sterling, the lawful currency for the time being of the UK and references to "pence" and "p" shall be construed accordingly
"Act" or "Companies Act"	the Companies Act 1985, as amended
"Admission"	admission of the TUI Travel Shares to the Official List and to trading on the London Stock Exchange's market for listed securities and **"Admission becoming effective"** means it becoming effective in accordance with paragraph 3.2.7 of the Listing Rules and the LSE Admission and Disclosure Standards
"Board" or "Directors"	the directors of First Choice from time to time
"Business Day"	any day (excluding a Saturday, Sunday or public holiday) on which banks are generally open for non-automated business in London
"Canada"	Canada, its provinces and territories and all areas subject to its jurisdiction and any political sub-division thereof
"Completion"	the Scheme becoming effective and the completion of the transfer of TUI Tourism to TUI Travel
"Conditions"	the conditions to the Merger set out in the Merger Agreement and summarised in paragraph 5 of Part II of this document
"Court"	Her Majesty's High Court of Justice in England and Wales or the Court of Appeal in England and Wales, as the case may be
"Court Hearings"	the Scheme Court Hearing and the Reduction Court Hearing
"Court Meeting"	the meeting of First Choice Shareholders convened by an order of the Court pursuant to Section 425 of the Act to consider and, if thought fit, approve the Scheme (with or without amendment), including any adjournment thereof, notice of which is attached at the end of this document
"Court Orders" or "Orders"	the Scheme Court Order and the Reduction Court Order
"CREST"	the relevant system (as defined in the Regulations) in respect of which CRESTCo is the Operator (as defined in the Regulations)
"CREST sponsor"	a CREST participant admitted to CREST as a CREST sponsor
"CREST sponsored member"	a CREST member admitted to CREST as a sponsored member (which includes all CREST Personal Members)
"CRESTCo"	CRESTCo Limited
"Daily Official List"	the daily official list of the London Stock Exchange
"Deutsche Bank"	Deutsche Bank AG, London Branch
"Directors" or "Board"	the directors of First Choice or TUI Travel from time to time, as the context requires

"Enlarged Group"	TUI Travel and its subsidiaries and subsidiary undertakings after the Merger becomes effective
"Explanatory Statement"	the explanatory statement relating to the Scheme, as set out in Part II of this document, which together with the documents incorporated therein constitute the explanatory statement relating to the Scheme as required by Section 426 of the Act
"Extraordinary General Meeting" or "EGM"	the extraordinary general meeting of First Choice Shareholders, notice of which is set out at the end of this document, and any adjournment thereof
"First Choice"	First Choice Holidays PLC, a company incorporated in England and Wales with registered number 48967
"First Choice Directors"	the directors of First Choice whose names are set out in paragraph 2.1 of Part V of this document or, where the context so requires, the directors of First Choice from time to time
"First Choice Group"	First Choice, its subsidiaries and its subsidiary undertakings
"First Choice Remuneration Committee"	the remuneration committee of First Choice
"First Choice Share Schemes"	First Choice Holidays Senior Executive Plan, the First Choice Holidays PLC Restricted Share Plan, the First Choice Holidays Deferred Annual Bonus Scheme, the First Choice Holidays Performance Share Plan and the First Choice Holidays Share Incentive Plan
"First Choice Shareholders" or "Shareholders"	holders of First Choice Shares
"First Choice Shares"	ordinary shares of nominal value 3 pence each in the capital of First Choice
"Form(s) of Proxy"	either or both, as the context requires, of the blue form of proxy for use at the Court Meeting and the white form of proxy for use at the Extraordinary General Meeting which accompany this document, as the context requires
"FSA"	the Financial Services Authority
"FSMA"	the Financial Services and Markets Act 2000, as amended
"Group Company"	any company forming part of the Enlarged Group
"holder"	a registered holder of shares and includes any person(s) entitled by transmission
"Independent Competing Offer"	an offer or scheme of arrangement or a recapitalisation or other transaction involving the possible change of control of First Choice or TUI AG or TUI Tourism which, if accepted in full would result in the offeror holding shares carrying over 50 per cent. of the voting rights of First Choice or TUI AG or TUI Tourism, as the case may be, and which is made by or with a party which is not acting in concert (as such term is defined in the Takeover Code) with First Choice or TUI AG
"Lazard"	Lazard & Co., Limited

"Listing Rules"	the listing rules issued by the UK Listing Authority pursuant to Part VI of the Financial Services and Markets Act 2000
"London Stock Exchange"	London Stock Exchange plc
"LSE Admission and Disclosure Standards"	the rules issued by the London Stock Exchange in relation to the admission to trading of, and continuing requirements for, securities admitted to the Official List
"Meetings"	the Court Meeting and the Extraordinary General Meeting, or either of them as the context may require
"Merger"	the merger of First Choice and TUI Tourism in accordance with the terms of the Merger Agreement
"Merger Agreement"	the agreement dated 19 March 2007 between First Choice, TUI AG and TUI Travel relating to the Merger
"Morgan Stanley"	Morgan Stanley & Co. Limited
"Official List"	the official list maintained by the UK Listing Authority pursuant to Part VI of the Financial Services and Markets Act 2000
"Overseas Shareholders"	holders of shares resident in, or citizens or nationals of, jurisdictions outside the UK
"Prospectus Rules"	the prospectus rules issued by the UK Listing Authority pursuant to Part VI of the Financial Services and Markets Act 2000
"Reduction Court Hearing"	hearing of the Court to confirm the reduction of capital associated with the Scheme
"Reduction Court Order"	the Order of the Court confirming the reduction of capital associated with the Scheme
"Registrar of Companies"	the Registrar of Companies in England and Wales
"Regulations"	the Uncertificated Securities Regulations 2001 (S.I. No. 2001/3755)
"Relationship Agreement"	the relationship agreement to be entered into at Completion between TUI AG and TUI Travel
"Resolutions"	the Special Resolution and the Whitewash Resolution
"Restricted Jurisdiction"	any jurisdiction where TUI Travel Shares cannot be made available without breaching any applicable law
"Scheme Court Hearing"	hearing of the Court to consider the petition for the sanction of the Scheme
"Scheme Court Order"	the Order of the Court sanctioning the Scheme
"Scheme Effective Date"	the date on which the Scheme becomes effective, which is expected to be on 3 September 2007 and **"Scheme Effective Time"** means the time on such date at which the Scheme becomes effective in accordance with its terms
"Scheme Record Time"	6.00 p.m. (London time) on the Business Day immediately before the Scheme Effective Date
"Scheme Shares"	the First Choice Shares: (i) in issue at the date of this document;

(ii) (if any) issued after the date of this document and prior to the Voting Record Time; and

(iii) (if any) issued on or after the Voting Record Time and before 6.00 p.m. on the Business Day immediately preceding the date of the Reduction Court Order on terms that the holder thereof shall be bound by the Scheme or in respect of which the original or any subsequent holder thereof is or shall have agreed in writing to be bound by the Scheme,

excluding, in any case, any First Choice Shares held by TUI Travel at the Scheme Record Time

"Scheme" or "Scheme of Arrangement"	the scheme of arrangement proposed to be made under Section 425 of the Act between First Choice and the holders of the Scheme Shares as set out in Part III of this document, with or subject to any modification, addition or condition approved or imposed by the Court
"Special Resolution"	the special resolution to be proposed at the First Choice EGM
"Takeover Code" or "Code"	the City Code on Takeovers and Mergers
"Takeover Panel"	the Panel on Takeovers and Mergers
"Treasury Shares"	shares held as treasury shares as defined in Section 162A(3) of the Companies Act
"TUI AG"	TUI AG, a company incorporated in Germany whose registered office is at Karl-Wiechert-Allee 4, 30625 Hanover
"TUI AG Directors"	the members of the executive board of TUI AG whose names are set out in paragraph 2.2 of Part V of this document or, where the context so requires, the members of the executive board of TUI AG from time to time
"TUI Tourism"	the travel and tourism division of TUI AG, excluding certain hotel assets which is constituted by the TUI Tourism Group
"TUI Tourism Group"	the companies constituting TUI Tourism which are to be transferred to TUI Travel on Completion in connection with the Merger
"TUI Travel"	TUI Travel PLC, formerly named Coppereagle Public Limited Company
"TUI Travel Board"	the board of directors of directors of TUI Travel
"TUI Travel Directors"	the director of TUI Travel whose names are set out in paragraph 2.3 of Part V of this document or, where the context so requires, the directors of TUI Travel from time to time
"TUI Travel Redeemable Shares"	the redeemable preference shares of £1 each in the share capital of TUI Travel
"TUI Travel Shares"	the ordinary shares of 10 pence each in the share capital of TUI Travel and, for the avoidance of doubt, excluding the TUI Travel Redeemable Shares

"UK Listing Authority" or "UKLA"	the Financial Services Authority as the competent authority under Part VI of the Financial Services and Markets Act 2000
"UK" or "United Kingdom"	the United Kingdom of Great Britain and Northern Ireland
"uncertificated" or "in uncertificated form"	in relation to a share or other security, a share or other security which is recorded on the relevant register of the share or security concerned as being held in uncertificated form in CREST and title to which, by virtue of the Regulations, may be transferred by means of CREST
"United States" or "US"	the United States of America, its territories and possessions, any state of the United States of America, the District of Columbia, and all other areas subject to its jurisdiction
"US Securities Act"	the United States Securities Act 1933, as amended
"Voting Record Time"	6.00 p.m. (London Time) on the day prior to the day immediately before the Court Meeting or any adjournment thereof (as the case may be)
"Whitewash Resolution"	the ordinary resolution 2 to be proposed at the First Choice EGM in respect of the waiver by the Takeover Panel of the obligation that would otherwise arise on TUI AG to make a general offer to the shareholders of First Choice (all of whom, as a result of the Scheme will become shareholders of TUI Travel) pursuant to Rule 9 of the Takeover Code for TUI Travel

Notice of Court Meeting

IN THE HIGH COURT OF JUSTICE
CHANCERY DIVISION
COMPANIES COURT

No. 4493 of 2007

IN THE MATTER OF FIRST CHOICE HOLIDAYS PLC

and

IN THE MATTER OF THE COMPANIES ACT 1985

NOTICE IS HEREBY GIVEN that, by an order dated 28 June 2007 made in the above matters, the Court has directed a meeting of the holders of Scheme Shares (as defined in the scheme of arrangement referred to below) (the "**Court Meeting**") to be convened for the purpose of considering and, if thought fit, approving (with or without modification) a scheme of arrangement pursuant to Section 425 of the Companies Act 1985 dated 29 June 2007 (the "**Scheme of Arrangement**") proposed to be made between First Choice Holidays PLC (the "**Company**") and the holders of Scheme Shares (as defined in the Scheme of Arrangement) and that such meeting will be held at Exchange House, Primrose Street, London EC2A 2HS on 25 July 2007 at 10.00 a.m., at which place and time all holders of First Choice Shares are requested to attend.

A copy of the Scheme of Arrangement and a copy of the explanatory statement required to be furnished pursuant to Section 426 of the Companies Act 1985 in relation to the Scheme of Arrangement are incorporated in the document of which this notice forms part.

Holders of Scheme Shares entitled to attend and vote at the Court Meeting may vote in person at the Court Meeting or they may appoint another person as their proxy to attend and vote in their place. A proxy need not be a member of the Company. A BLUE Form of Proxy for use at the Court Meeting is enclosed with this notice. Alternatively, if the Scheme Shares are held in uncertificated form (i.e. in CREST), voting may be effected using the CREST Proxy Voting Service so as to be received by Lloyds TSB Registrars (under CREST participant ID 7RA01) in accordance with the procedures set out in the CREST Manual.

Completion of the BLUE Form of Proxy and voting through CREST will not preclude a holder of Scheme Shares who wishes to do so from attending and voting in person at the Court Meeting or any adjournment thereof.

In the case of joint holders of Scheme Shares, any one such joint holder may tender a vote (in person or by proxy) at the Court Meeting, but if more than one joint holder shall tender a vote (in person or by proxy) the vote of the senior who tenders a vote will be accepted to the exclusion of the votes of the other joint holder(s) and for this purpose seniority will be determined by the order in which the names appear in the register of members of First Choice in respect of the relevant joint holding.

It is requested that BLUE Forms of Proxy be lodged with Lloyds TSB Registrars, The Causeway, Worthing, West Sussex BN99 6LE, not less than 48 hours before the time appointed for the Court Meeting (or any adjournment thereof) but, if forms are not so lodged, they may be handed to Lloyds TSB Registrars on behalf of the chairman of the Court Meeting (or to the chairman himself) at the start of the meeting.

Proxies submitted using the CREST Proxy Voting Service must be transmitted so as to be received by Lloyds TSB Registrars, (under CREST participant ID 7RA01) not later than 10.00 a.m. on 23 July 2007 in the case of the Court Meeting or by 10.15 a.m. on 23 July 2007 in the case of the EGM.

The Court has specified that only those shareholders registered in the register of members of First Choice as at 6.00 p.m. on the day prior to the day immediately before the Court Meeting or or any adjournment thereof (as the case may be), shall be entitled to attend or vote in respect of the number of shares registered in their name at that specified time. Changes to the entries on the register of members after that specified time will be disregarded in determining the right of any person to attend and vote at the meeting, including the number of votes which may be cast thereat.

By the said order, the Court has appointed Sir Michael Hodgkinson or, failing him, Tony Campbell or, failing him, Peter Long, to act as chairman of the Court Meeting and has directed the chairman to report the result of the Court Meeting to the Court.

The Scheme of Arrangement will be subject to the subsequent sanction of the Court.

Dated 29 June 2007

Herbert Smith LLP

Notice of Extraordinary General Meeting

First Choice Holidays PLC

(Registered in England and Wales No. 48967)

(the "Company")

NOTICE IS HEREBY GIVEN that an Extraordinary General Meeting of the Company will be held on 25 July 2007 at Exchange House, Primrose Street, London EC2A 2HS at 10.15 a.m. (or, if later, as soon thereafter as the meeting of the holders of ordinary shares in First Choice convened by the direction of the High Court of Justice in England and Wales (the **"Court"**) for 10.00 a.m. on the same day and at the same place shall have concluded or been adjourned) to consider and, if thought fit, pass the following resolutions, where item 1 which will be proposed as a special resolution and items 2 to 7 (both inclusive) will be proposed as ordinary resolutions:

Special Resolution

(1) THAT:

(A) the Scheme of Arrangement dated 29 June 2007 (the **"Scheme"**) proposed to be made between the Company and holders of Scheme Shares (as defined in the Scheme) in its original form in the circular sent to shareholders of the Company dated 29 June 2007 (the **"Circular"**) (a print of which has been produced to the meeting and signed by the chairman of the meeting for the purpose of identification), or with or subject to any modification, addition or condition (including, without limitation, any modification or addition which represents an improvement in the value and/or terms of the Merger to holders of Scheme Shares) approved or imposed by the Court, be and is hereby approved, and the directors of the Company be and are hereby authorised to take all such action on behalf of the Company as they consider necessary or desirable for carrying into effect the Scheme;

(B) for the purpose of giving effect to the Scheme in its original form, or with or subject to any modification, addition or condition approved or imposed by the Court:

(i) the share capital of the Company be reduced by cancelling and extinguishing all the Scheme Shares (as defined in the Scheme);

(ii) forthwith and contingent upon such reduction of capital taking effect:

(a) the share capital of the Company be increased to its former amount by the creation of such number of new ordinary shares of 3 pence each (**"New Shares"**) as shall be equal to the aggregate number of Scheme Shares so cancelled; and

(b) the reserve arising in the books of account of the Company as a result of the cancellation of the Scheme Shares be applied in paying up in full at par the New Shares created pursuant to paragraph 1(B)(ii)(a) above, which shall be allotted and issued, credited as fully paid, to TUI Travel PLC and/or any nominee(s) of it; and

(iii) conditionally upon the Scheme becoming effective, the directors of the Company be and are hereby authorised pursuant to and in accordance with Section 80 of the Companies Act 1985 to give effect to this special resolution and accordingly to effect the allotment of relevant securities (within the meaning of Section 80(2) of the Companies Act 1985) in the form of the New Shares, provided that (i) this authority shall expire on the fifth anniversary of the date on which it is passed (unless previously revoked, varied or renewed); (ii) the maximum aggregate nominal amount of relevant securities which may be allotted hereunder shall be £55,000,000; and (iii) this authority shall be without prejudice to any other authority under the said Section 80 previously granted and in force on the date on which this special resolution is passed; and

(C) forthwith upon the passing of this special resolution, the articles of association of the Company be amended by the adoption and inclusion of the following new article 137:

SCHEME OF ARRANGEMENT

137.(1) In this article, references to the **"Scheme"** are to the scheme of arrangement dated 29 June 2007 under Section 425 of the Act between the Company and the holders of the Scheme Shares (as defined in the Scheme), as it may be modified or amended in accordance with its terms, and expressions defined in the Scheme or (if not so defined in the Scheme) defined in the circular dated 29 June 2007 circulated with the Scheme and containing the explanatory statement required pursuant to Section 426 of the Act, shall have the same meanings where used in this article except as otherwise expressly stated in this article 137.

(2) Notwithstanding any other provision of these articles, if any ordinary shares are issued on or after the Voting Record Time (as defined in the Scheme) other than to TUI Travel PLC or any person identified by written notice to the Company as its nominee(s) but before the Scheme Record Time (as defined in the Scheme), such ordinary shares shall be issued subject to the terms of the Scheme and the original or any subsequent holder or holders of such ordinary shares shall be bound by the Scheme accordingly.

(3) Notwithstanding any other provision of these articles and as a matter separate from the Merger (as defined in the Scheme), if, at any time on or after 6.00 p.m. on the business day immediately preceding the date of the Reduction Court Order (as defined in the Scheme), any ordinary shares (**"Post-merger Shares"**), such Post-merger Shares to be deemed a separate class, are issued or are to be issued to any person (a **"New Member"**) other than TUI Travel PLC or any person identified by written notice to the Company by TUI Travel PLC as its nominee(s) and/or designated subsidiary, provided that the Scheme has become effective, such Post-merger Shares shall be transferred immediately after the time at which the Scheme becomes effective (**"Scheme Effective Time"**) or, if later, upon the issue of the Post-merger Shares, free of all encumbrances, to TUI Travel PLC (or as TUI Travel PLC may direct by notice in writing to the Company) in consideration for, and conditionally upon, the issue or transfer free from all encumbrances to the New Member (as soon as is practicable after the Scheme Effective Date or, if later, after the issue of the Shares) of one fully paid ordinary share in TUI Travel PLC for each one Post-merger Share transferred to TUI Travel PLC or its nominee (being the number of ordinary shares of TUI Travel PLC which the New Member would have been entitled to receive in aggregate if the Post-merger Shares transferred hereunder had been Scheme Shares and the New Member had been the holder thereof at the Scheme Record Time) being ordinary shares in TUI Travel PLC which rank *pari passu* with all other ordinary shares in TUI Travel PLC for the time being in issue subject to the memorandum and articles of association of TUI Travel PLC, and rank for any dividends or other distributions declared, made or paid thereon after the date of their issue or transfer.

(4) The number of ordinary shares of TUI Travel PLC to be issued or transferred to the New Member under article 137(3) may be adjusted by the directors of TUI Travel PLC on any reorganisation of, or material alteration to, the share capital of the Company or TUI Travel PLC effected after the Scheme Effective Time in such manner as the auditors of the Company shall (in their absolute discretion) determine to reflect such reorganisation or alteration and the determination by the auditors or the Company, in the absence of manifest error, shall be final and binding on all concerned.

(5) To give effect to any such transfer required by article 137(3), the Company may appoint any person to execute and deliver a form of transfer on behalf of the New Member in favour of TUI Travel PLC (as directed by TUI Travel PLC) and to agree for

and on behalf of the New Member to become a member of TUI Travel PLC. Pending the registration of TUI Travel PLC (or its designated subsidiary and/or nominee(s)) as the holder of any share to be transferred pursuant to this article 137, TUI Travel PLC shall be empowered to appoint a person nominated by the directors of TUI Travel PLC to act as attorney on behalf of the holder of such share in accordance with such directions as TUI Travel PLC may give in relation to any dealings with or disposal of such share (or any interest therein), exercising any rights attached thereto or receiving any distribution or other benefit accruing or payable in respect thereof and the registered holder of such share shall exercise all rights attaching thereto in accordance with the directions of TUI Travel PLC but not otherwise.

(6) The issue and allotment of any ordinary shares of TUI Travel PLC in respect of any shares transferred pursuant to this article 137 shall be made within seven days of the date of transfer of such shares. The ordinary shares of TUI Travel PLC to be issued and allotted pursuant to this 137 shall be issued in certificated or uncertificated form as TUI Travel PLC may determine in its absolute discretion. In the case of TUI Travel PLC ordinary shares issued in certificated form TUI Travel PLC shall, not less than 28 days after the date of transfer of the Post-merger Shares in respect of which the TUI Travel Shares are issued, send without charge to such New Member or his nominee a certificate for the ordinary shares in TUI Travel PLC so issued by ordinary post at the risk of the New Member concerned.

(7) If the Scheme shall not have become effective by 31 October 2007 (or such later date (if any) as First Choice and TUI AG may agree) and the Court may approve, this article 137 shall be of no effect.

Ordinary Resolutions

(2) THAT:

The waiver by the Takeover Panel described in the Circular of the obligation that would otherwise arise on TUI AG to make a general offer to the shareholders of the Company (all of whom as a result of the Scheme will become shareholders of TUI Travel PLC) pursuant to Rule 9 of the City Code on Takeovers and Mergers in connection with the remaining shares in TUI Travel PLC be and is hereby approved.

(3) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Performance Share Plan, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

(4) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Deferred Annual Bonus Scheme, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

(5) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Sharesave Scheme, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

(6) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Share Incentive Plan, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

(7) THAT:

Subject to and conditional upon Resolutions 1 and 2 becoming effective, the operation of the TUI Travel Value Creation Synergy Plan, the principal terms of which are summarised at paragraph 14 of Part II of the Circular, be and is hereby approved.

BY ORDER OF THE BOARD
Andrew John
Company Secretary
29 June 2007

Registered office at First Choice House
London Road
Crawley
West Sussex RH10 9GX
Registered in England and Wales No. 48967

1. A member entitled to attend and vote at the Extraordinary General Meeting may appoint one or more persons to attend and on a poll, to vote instead of him or her. Lodgement of a Form of Proxy will not prevent a member from attending and voting at the meeting.
2. A proxy need not be a member of the Company.
3. A WHITE Form of Proxy is enclosed. To be valid, the WHITE Form of Proxy, together with the authority (if any) under which it is executed or a notarially certified copy of such authority, must be returned to the Lloyds TSB Registrars, The Causeway, Worthing BN99 6LN, by no later than 48 hours before the time of the meeting or (as the case may be) the adjourned meeting. Alternatively, if you hold your shares in uncertificated form (i.e. in CREST), you may vote using the CREST system (see notes on CREST voting below).
4. Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001 (SI 2001/3755), the Company has specified that only those shareholders registered on the register of members of the Company as at 6.00 p.m. on 23 July 2007 or, if the Extraordinary General Meeting is adjourned, on the register of members not less than 48 hours before the time of any adjourned meeting, shall be entitled to attend and vote at the meeting in respect of the number of ordinary shares in the Company registered in their names at that relevant time. Changes to entries on the register of members after 6.00 p.m. on 23 July 2007 or, if the Extraordinary General Meeting is adjourned, on the register of members not more than 48 hours before the time of any adjourned meeting, will be disregarded in determining the rights of any person to attend and vote at the meeting (including the number of votes which may be cast thereat).
5. Copies of the Company's existing articles of association and copies of the articles of association as proposed to be amended by paragraph (C) of the Special Resolution set out in the notice of the meeting are available for inspection at the offices of Herbert Smith LLP, Exchange House, Primrose Street, London EC2A 2HS during normal business hours on a weekday (Saturdays, Sundays and public holidays excepted) until the close of the Extraordinary General Meeting and will also be available for inspection at the place of the Extraordinary General Meeting for at least 15 minutes prior to, and during, the Extraordinary General Meeting.

Notes on CREST Proxy voting

6. If you submit your proxy electronically through CREST, to be valid the appropriate CREST message (regardless of whether it relates to the appointment of a proxy or to an amendment to the instruction given to a previously appointed proxy) must be transmitted so as to be received by Lloyds TSB Registrars, (under CREST participant ID 7RA01), by no later than 48 hours before the time of the meeting or (as the case may be) the adjourned meeting. The time of receipt will be taken to be the time from which Lloyds TSB Registrars is able to retrieve the message by enquiry to CREST.
7. CREST Personal Members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.
8. CREST members and, where applicable, their CREST sponsors or voting service providers should note that CRESTCo does not make available special procedures in CREST for any particular

messages and the normal system timings and limitations apply to the input of CREST Proxy Instructions.

9. The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001 (SI 2001/3755).

Merrill Corporation Ltd, London

RECEIVED
2007 DEC 17 A 11:

TUI welcomes the European Union's merger clearance

Hanover/London, 4 June 2007. TUI AG welcomes the approval by the European Commission of the planned merger to create TUI Travel PLC. "This means we have taken the first crucial hurdle on the path to creating the world's leading travel group," says TUI chief executive Dr Michael Frenzel. Furthermore, "With the merger we are expanding our leading position in Europe and are gaining more ground in the specialist tourism growth sector. The merger creates the world's biggest tourism platform. Together with First Choice we are writing a new growth story and will be ideally equipped to successfully face increasing competition in our industry." The clearance is subject to an undertaking to divest TUI's Budget Travel business in Ireland.

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

On the basis of the figures for the fiscal year 2006 the merger creates under the umbrella of TUI Travel PLC a travel group with sales of some 18 billion euros ((£12.1 billion) and an underlying EBITA of around 500 million euros (£340 million). Last year some 27 million holidaymakers travelled with the tour operators and airlines of TUI Travel PLC. The new plc expects the merger to liberate an annual synergy potential of about 150 million euros (£100 million), which will come into full effect within the first three years after finalising the fusion. A major part of the synergy will be generated on the British market.

The next steps on the path to the merger include publishing the stock exchange prospectus for listing on the LSE as well as the extraordinary general meeting of First Choice Holidays PLC. The target date for publishing the prospectus is the end of June. All other exact dates will be decided shortly. Assuming the merger is approved by the necessary three-quarters majority, TUI Travel's first listing could take place at the start of October.

In connection with the offering of a €632.5 million convertible bond of TUI AG, the greenshoe option in the amount of €61.5 million has been exercised today. The total amount of the convertible bond is therefore €694 million.

In connection with the offering of the bonds, Deutsche Bank AG in its role as Stabilisation Manager or any person acting on its behalf, has not undertaken any stabilisation trading and it has elected not to do so.

The stabilisation period is therefore closed.

This press release is for information purposes only and does not constitute or form part of, and should not be construed as an offer or an invitation to sell, or issue or the solicitation of any offer to buy or subscribe for, any securities. In connection with this transaction there has not been, nor will there be, any public offering of the Bonds. No prospectus will be prepared in connection with the offering of the Bonds. The Bonds may not be offered to the public in any jurisdiction in circumstances which would require the Issuer of the Bonds to prepare or register any prospectus or offering document relating to the Bonds in such jurisdiction. The distribution of this press release and the offer and sale of the Bonds in certain jurisdictions may be restricted by law. Italy has only partially implemented the Prospectus Directive and, accordingly, the provisions of the Prospectus Directive shall apply with respect to Italy only to the extent to which the relevant provisions of the Prospectus Directive have already been implemented in Italy. The Bonds may not be placed, sold or offered to individuals resident in Italy in the primary or in the secondary market. Any persons reading this press release should inform themselves of and observe any such restrictions.

This press release does not constitute an offer to sell or a solicitation of an offer to purchase any securities in the United States. The securities referred to herein (including the Bonds and the shares of TUI) have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act") or the laws of any state within the U.S., and may not be offered or sold in the United States or to or for the account or benefit of U.S. persons, except in a transaction not subject to, or pursuant to an applicable exemption from, the registration requirements of the Securities Act or any state securities laws. This press release and the information contained herein may not be distributed or sent into the United States, or in any other jurisdiction in which offers or sales of the securities described herein would be prohibited by applicable laws and should not be distributed to United States persons or publications with a general circulation in the United States. No offering of the Bonds is being made in the United States.

This press release is only being distributed to and is only directed at (i) persons who have professional experience in matters relating to investments falling within Article 19(1) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order") and (ii) high net worth entities falling within Article 49(2) of the Order and (iii) persons to whom it would otherwise be lawful to distribute it (all such persons together being referred to as "relevant persons"). The Bonds are only available to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire such Bonds will be engaged in only with, relevant persons. Any person who is not a relevant person should not act or rely on this press release or any of its contents.

TUI AG prices convertible bond offering

Ad-hoc announcement according to § 15 WpHG

Hanover, 24 May 2007:

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

The Management Board of TUI AG ("TUI") resolved today, subject to the consent of the Supervisory Board, to issue unsecured, unsubordinated convertible bonds (the "Bonds"). The Bonds are issued by TUI AG and were placed only with institutional investors outside of the US. The pre-emptive rights of shareholders of TUI AG to subscribe to the Bonds were excluded.

The issue size is €632.5 million. Due to strong demand, the initial issue size of €550 million was directly increased by €82.5 million (the "Upsize Option"). In addition, TUI has granted the banks managing the placement, Citi, Deutsche Bank and Unicredit MIB, a greenshoe option of up to €61.5 million to cover over-allotments. The total issue size can therefore amount up to €694 million.

The conversion price is set to €27.68 representing a premium of 30% above the volume weighted average XETRA price of TUI's ordinary shares during the placement. Up to approximately 25.07 million ordinary shares of TUI are underlying the Bonds at the outset (assuming that the greenshoe option is fully exercised).

The maturity of the Bonds is 5 years and 3 months. The Bonds will be issued at 100% of the principal amount on 1 June 2007 (the "Settlement Date") and pay a coupon of 2.75%.

TUI intends to list the Bonds on the Euro MTF market of the Luxembourg Stock Exchange.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Citi, Deutsche Bank and Unicredit MIB are acting as Joint Bookrunners ("the Joint Bookrunners") and sole syndicate members of the Offering. Deutsche Bank is acting as stabilisation manager (the "Stabilising Manager") of the issue. In connection with the Offering, the Stabilising Manager, from today until the earlier of 30 days after the Settlement Date or 60 days after allotment of the Bonds, may, to the extent permitted by applicable laws and regulations, effect transactions with a view to supporting the market price of the Bonds and/or the shares of TUI at a level higher than that which may otherwise prevail. There is, however, no obligation to undertake such stabilisation measures, and such stabilisation measures may, after they have been commenced, be terminated at any time. The greenshoe option can only be exercised to an amount of up to €61.5 million until the Settlement Date. At the end of the stabilisation period a statement on stabilisation measures and the exercise of the greenshoe option if undertaken are published in the German newspapers Frankfurter Allgemeine Zeitung and Börsenzeitung.

TUI intends to use the proceeds from the sale of the convertible bonds for general corporate purposes as well as to have the possibility to refinance part of its existing indebtedness.

Stabilisation FSA.

The Management Board of TUI AG ("TUI") resolved today, with the consent of the Supervisory Board, to issue unsecured, unsubordinated convertible bonds (the "Bonds"). The Bonds will be issued by TUI AG and offered only to institutional investors outside of the US. The pre-emptive rights of shareholders of TUI AG to subscribe to the Bonds are excluded. The coupon, the conversion premium as well as the conversion price will be determined based on today's bookbuilding process.

The initial aggregate issue size will be €550 million. TUI is entitled to increase the aggregate issue size by up to €82.5 million (the "Upsize Option"). In addition, TUI has granted the banks managing the placement, Citi, Deutsche Bank and Unicredit MIB, a greenshoe option of up to €82.5 million to cover over-allotments (if any). The maximum issue size can therefore amount to €715 million.

The conversion price is expected to be set based on the bookbuilding at a premium of between 25% - 30% above the volume weighted average XETRA price of TUI's ordinary shares during the placement. Up to 25.07 million ordinary shares of TUI are underlying the Bonds at the outset (assuming that the Upsize Option and the greenshoe option are fully exercised). Depending on today's development of the share price, the final pricing and the final issue size, the amount of ordinary shares of TUI underlying the Bonds at the outset may vary.

The maturity of the Bonds is 5 years and 3 months. The Bonds will be issued at 100% of the principal amount on 1 June 2007 (the "Settlement Date") and are expected to pay a coupon of between 2.75% - 3.25%.

Shipping

Eight newbuildings for Hapag-Lloyd / Delivery in 2009/10

Hannover / Hamburg, 18 May 2007. Global container transport volume should surge to 138m standard containers by 2011, according to Global Insight, one of the leading economic research institutes. This would mean an increase of 40m containers or over 40% compared with 2006.

www.tui-group.com

The Hamburg-based shipping line Hapag-Lloyd, which belongs to the top 5 in global container transport, is responding to the forecast market expansion. Today it announced a newbuilding programme for eight vessels for delivery in December 2009 (two ships) and in the first half of 2010. It is planned to deploy the newbuildings on the routes to and from Asia, which continue to account for the highest growth in container transport.

The newbuildings are to be built at the South Korean shipyard Hyundai Heavy Industries. They will have a length of 335m and a beam of 43m and each be able to carry 8,750 standard containers (TEU). The units will have a deadweight capacity of 103,000t and measure over 60m from keel to superstructure.

With this order, Hapag-Lloyd is giving fleet homogeneity and thus savings in operational costs priority over opting for a ship size capable of transporting over 10,000 TEU. We have had very positive results with the five units we already deploy. They are efficient and incorporate state-of-the-art technology, and they can be flexibly deployed on various routes if required by the market situation," explained Michael Behrendt, Chairman of the Executive Board of Hapag-Lloyd.

High level of attendance at TUI AG Annual General Meeting All items on the Agenda passed with very strong majority

Hanover, May 16, 2007

Today's 48th Annual General Meeting of the Group held in the Hannover Congress Centrum was attended by approximately 2,200 shareholders and shareholders' representatives as well as 290 guests and members of the press. They represented 118,538,125 shares corresponding to capital of 303,042,716.56 euros (47.22 percent).

The Agenda included the amendment of the charter with regards to the long-term variable remuneration for the Supervisory Board. The resolution to change the relevant section of the charter was approved; also, the resolution to amend section 21 of the charter to add a new paragraph 6 'Electronic transmission of information to shareholders' was approved. Furthermore, the resolution for a new authorization to acquire and use own shares under Section 71 Para 1 No. 8 AktG, and to exclude the subscription right was passed with a strong majority.

Other items on the agenda included the presentation of the adopted annual financial statements for the financial year 2006, the management report, and the approved consolidated financial statements, group management report and the report of the Supervisory Board. Resolutions where then passed on the appropriation of the balance-sheet profit for the financial year 2006 and on the formal approval of the activities of the Executive Board as well as the Supervisory Board in the financial year 2006.

Finally, PricewaterhouseCoopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover, was appointed by the Annual General Meeting to audit the financial statements for the 2007 financial year.

All applications for resolution were accepted with more than 97 percent of votes in favour. The Annual General Meeting was closed at 17:30 hrs by the Chairman of the Supervisory Board of TUI AG, Dr. Jürgen Krumnow.

TUI plans biggest tourism project in company history Eleven square kilometres of land in Tuscany purchased with village centre for tourism project development

Hanover, May 16, 2007

By purchasing a plot of land of eleven square kilometres on which there are several old buildings, a medieval castle, a hotel, an 18-hole golf course as well as agricultural areas, TUI has furthered its plans to put into effect the biggest tourism project in Tuscany as well as the biggest in the company's history. "This project is a good example of our growth strategy in the hotel sector," said TUI AG chief executive Dr Michael Frenzel at the annual general meeting Hanover. This project is modelled on the Land Fleesensee, which has proved to be most successful since it was set up seven years ago. TUI, together with five partners, including two of its own hotel brands, opened the biggest holiday resort in northern Europe there in 2000.

The "Tenuta di Castelfalfi" area is located at the heart of Tuscany between the tradition rich cities of Florence, Siena and Pisa in the community of Montaione. The primary goal of the future development of Castelfalfi is not only to expand the tourism offering but also to preserve and restore the existing area under cultivation in Tuscany. This includes also the preservation of the agriculture based on viticulture and olive farming.

"Tenuta di Castelfalfi S.p.A.", a company in which TUI has a share-holding of 85 percent and the previous Italian owner 15 percent, has been established for this unique project in TUI's history. The volume of investment amounts to several hundred million euros, and is included in the medium-term investment planning of TUI Hotels & Resorts. The overall project will be known in future by the name "Toscana Resort Castelfalfi".

The existing village with a church and castle will be renovated and extended by new elements suitable for tourism. For instance a spa area, various restaurants and boutiques. In addition, subject to approval by the local authorities, three hotel arrangements - a ROBINSON club, a Dorfhotel and an Iberotel - as well as villas and apartments with an appropriate infrastructure are to be built on the land. The existing golf course is to be expanded und improved.

Top priority are sustainability and environmental compatibility, both key aspects under which the project is being developed. It is intended for the complex to be generally independent and self-supporting by using renewable energy for covering its demand for electricity. As far as water is concerned it is planned for instance to have biological water treatment and introduce means for using water more than once. Absolutely unique is that a proportion of the food supply for guests is to be covered by products from its own farms.

As the project progresses at least 300 new jobs will be created. And as the employees should preferably come from the region, the project will have a positive effect on the development of the local job market.

The feasibility study needed for this project was prepared in close cooperation with the representatives of the local community as well as their planners and handed over to the

traditional culinary and cultural offering. The interest in the sector of golfing holidays and short trips has risen rapidly in Italy, not least as a result of the good flight connections, for instance with TUIfly, the German market leader for flights to Italy. Current trends such as wellness and golf are at present scarcely being catered for in the region. Modern hotel projects aiming at specific target groups are as good as non-existent. The goal is to use internationally proven tourism concepts to gain a slice of the tourism volume in Italy beyond that of city breaks and cultural trips.

RECEIVED
2007 DEC 17 A 11:

TUI increases turnover in tourism division in first quarter / Underlying operating earnings of shipping division impacted by low freight rate levels / Group-level booked turnover in tourism up 3.6 per cent year-on-year

Hanover, 11 May 2007. TUI's tourism division achieved an increase in turnover in the first quarter of 2007. The division recorded year-on-year growth of 3.1 per cent to 2.6 billion euros (previous year: 2.5 billion euros). Source market Central Europe and the destinations sector, in particular, reported significant turnover growth. Despite an increase in transport volume of 9.9 per cent year-on-year, the shipping division reported a decline of 8.5 per cent to 1.5 billion euros compared to the previous year (1.64 billion euros). The development of the division was impacted by a reduction in freight rates in almost all trade lanes. At 4.1 billion euros, turnover by the Group's continuing operations (tourism, shipping and central operations) fell slightly short of 2006 levels (4.2 billion euros) in the first quarter of 2007.

investor.relations@tui.com
www.tui-group.com

In the period under review, underlying earnings by **tourism** fell to -227 million euros (previous year: -216 million euros). Due to the typical seasonal nature of the tourism business, the first quarter regularly produces negative figures. The Central Europe sector generated underlying earnings at -93 million euros, just under nine per cent higher than the previous year (-102 million euros). The Northern Europe sector was affected by the weaker business in the UK. At -117 million euros, earnings by the sector dropped substantially year-on-year (-92 million euros). The Western Europe sector posted underlying earnings of -32 million euros (previous year: -25 million euros). Despite the decline, the situation in the French travel market improved gradually in the period under review. The destinations sector managed to achieve growth. The substantial increase in earnings by the sector to 15 million euros (previous year: 6 million euros) was driven by the hotel companies.

In the first quarter of 2007, the **shipping** division saw only minor changes in its environment compared with previous quarters. The development of the division was impacted in particular by reductions in freight rates in almost all trade lanes. Despite an increase in transport volume of 9.9 per cent year-on-year, the development of the division was impacted by a reduction in freight rates in almost all trade lanes.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Underlying earnings by the shipping division totalled -53 million euros (previous year: 22 million euros) in the first quarter of 2007. Including the one-off income of 181 million euros from the divestment of Montreal Gateway Terminals and 15 million euros from the sale of Hapag-Lloyd's minority shareholding in Germanischer Lloyd AG as well as other integration effects, earnings by the division amounted to 141 million euros, a substantial increase year-on-year (-25 million euros).

Underlying earnings by **central operations** dropped to 13 million euros (previous year: 23 million euros) in the first quarter of 2007. This decline was attributable to the divestment of Wolf GmbH in 2006 and income from a sale in the real estate segment (Schacht Konrad), creating a corresponding reduction in income. On the other hand, in the first quarter 2007, there were increased profit contributions from the measurement of derivatives.

investor.relations@tui.com
www.tui.com

In the first quarter of 2007, earnings by the **continuing operations,** tourism and shipping as well as central operations, dropped to -83 million euros (previous year: -70 million euros). Both in the period under review and the 2006 reference period, earnings were affected by a variety of special factors. Adjusted for these effects, earnings by the continuing operations totalled -267 million euros (previous year: -171 million euros).

Prospects

Bookings for the 2007 summer season

Core business tourism saw an overall positive start to the 2007 financial year. At Group level, bookings for the 2006/2007 winter season, which ended in April, rose by 8.5 per cent in terms of customer numbers and 4.9 per cent in terms of booked turnover. Overall, bookings for the 2007 summer season have started off well. At Group level, customer numbers are currently 6.9 per cent up year-on-year, with booked turnover up 3.6 per cent year-on-year. An even more positive trend is emerging in Germany, where the number of customers is 10.1 per cent up year-on-year while booked turnover for the 2007 summer season is currently 5.6 per cent up year-on-year. The difficult source market France currently shows an initial recovery of business and sound price levels. With a slight increase in customer numbers year-on-year (+1.4 per cent), booked turnover is currently up 4.6 per cent.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Overall, source market Western Europe is showing year-on-year growth both in turnover and in terms of customer volume for the summer of 2007. In the Northern Europe sector, the current bookings situation reflects the difficult market environment in the UK. Customer numbers in the UK have risen year-on-year (+1.9 per cent) but booked turnover is currently 6.8 per cent down year-on-year. The Nordic countries, in contrast, show a positive trend. Customer numbers are 6.5 per cent up year-on-year for the 2007 summer season, with booked turnover up 9.0 per cent year-on-year.

Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

With regards to underlying earnings (EBITA) by the tourism division, an uneven trend is emerging for the 2007 financial year. The tour operator business in source market Central Europe shows a positive trend. However, an opposite effect is caused by start-up costs for the realignment of flight operations under the new brand TUIfly.com. The Northern Europe sector will not be able to fully reproduce the very good performance of 2006, despite a persistently positive trend in the Nordic countries. Earnings by the sector will be impacted by the difficult market environment in the UK. For the Western Europe sector, earnings are expected to grow overall. This will reflect the visible recovery of the French market. Earnings by the destinations sector are expected to rise, with the hotel companies playing a key role in achieving this growth.

The current development and earnings situation in the shipping division is primarily characterised by a year-on-year decline in freight rates in almost all trade lanes. Initial recovery trends are expected for the second quarter of 2007. Positive operating profit contributions are therefore expected again for the second half of 2007. The overall development of the shipping division will depend not only on the development of freight rates during the important summer period but also on the future development of costs, for example for land-based transportation and shipping bunker costs. The expected recovery of freight rate levels in the course of the year is expected to go hand in hand with a corresponding upswing in turnover.

Earnings by central operations will fall slightly short of 2006 levels due to special effects included in 2006 figures.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Overall, the Group expects slight turnover growth for its continuing operations (tourism, shipping, central operations). However, due to the announced merger of TUI AG's tourism division - excluding the hotel companies jointly operated under TUI Hotels & Resorts - with the British First Choice Holidays PLC, an assessment of the earnings trend cannot be provided at this point in time.

Detailed development of divisions

Tourism

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

In the first quarter of 2007, four million customers selected tourism products of the TUI Group, an increase of 7.2 per cent year-on-year (3.73 million). At 2.6 billion euros, turnover by the tourism division was 3.1 per cent up year-on-year (2.5 billion euros). In the 2006 reference quarter, 'Other tourism' still comprised turnover of the divested business travel activities on a pro rata basis. Adjusted for 'Other tourism', the tourism division posted turnover growth of 5.8 per cent in the first quarter of 2007. Earnings were negative for seasonal reasons. Another factor to be taken into account was the fact that earnings in the first quarter of 2006 comprised one-off income of 144 million euros from the divestment of the business travel activities. Adjusted for the special effects, earnings declined by 5.1 per cent to -227 million euros year-on-year (-216 million euros).

The **Central Europe** sector (Germany, Austria, Switzerland as well as airline TUIfly.com) reported business growth compared with 2006. Customer numbers rose by 11.7 per cent to 1.91 million (previous year: 1.71 million). Turnover grew by 8.8 per cent to 984 million euros (previous year: 905 million euros). Underlying earnings by the Central Europe sector also rose by 8.8 per cent to -93 million euros (previous year: -102 million euros). The overall positive business trend in source market Germany was slightly curbed by additional expenses for the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express into the new brand TUIfly.com. In the first quarter of 2007, the integration resulted in one-off expenses of 5 million euros.

The **Northern Europe** sector (UK, Ireland, Nordic countries and airlines Thomsonfly [charter and scheduled flights] and TUIfly Nordic) showed an overall difficult trend in the first quarter of 2007.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Customer numbers rose by 5.8 per cent to 1.28 million (previous year: 1.21 million); however, this growth was primarily driven by Thomsonfly's expansion in the seat-only business. Turnover thus did not reflect this trend, rising by 2.4 per cent to 937 million euros (previous year: 915 million euros). At -117 million euros, underlying earnings by the Northern Europe sector dropped considerably year-on-year (-92 million euros). Earnings were impacted by source market UK, which failed to meet the previous year's earnings level due to a weak market environment. In Ireland, 2006 earnings levels were matched. The Nordic countries, in contrast, managed to continue the positive trend of previous quarters and again increased their profit contribution.

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

In the **Western Europe** sector (France, the Netherlands, Belgium, as well as airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium), the number of customers was 0.81 million, matching 2006 levels (0.81 million). At the same time, turnover grew by 5.2 per cent to 553 million euros (previous year: 526 million euros). Source markets France and Belgium achieved year-on-year growth in turnover. In the Netherlands, turnover dropped below the 2006 reference level due to the divestment of the specialist tour operators in the second quarter of 2006. At -32 million euros, underlying earnings by the Western Europe sector were down year-on-year (-25 million euros).

In the **Destinations** sector (incoming agencies and hotel companies), the hotel companies played a key role. The RIU Group, in particular, posted a significant increase in earnings year-on-year. Turnover grew by 14.4 per cent to 116 million euros (previous year: 101 million euros). In the first quarter of 2007, earnings by the sector climbed substantially by 150 per cent to 15 million euros (previous year: 6 million euros).

The **Other tourism** sector still comprised the business travel activities of the TQ3 Group and the IT services companies of TUI InfoTec in 2006. In the course of the 2006 financial year, one of these operations was completely divested, with a majority shareholding in the other one sold in 2006.

Shipping

The shipping division (container and cruise business) posted turnover of 1.5 billion euros in the first quarter of 2007, down 8.5 per cent year-on-year (1.64 billion euros). The decline resulted from a reduction in freight rates in almost all trade lanes for container shipping and from a considerable weakening of the US dollar against the euro. At 141 million euros, earnings by the shipping division were significantly up year-on-year (-25 million euros). Adjusted for the one-off effects of divestments in the first quarter of 2007 and one-off expenses for the integration of CP Ships, earnings totalled -53 million euros (previous year: 22 million euros).

Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

At around 1.45 billion euros and minus 8.8 per cent, the container business accounted for the bulk of turnover by the division. Transport volume grew by 9.9 per cent year-on-year to a total of 1,315 million standard containers (TEU), with all trade lanes reporting growth, albeit at different levels. On the other hand, freight rates declined in almost all trade lanes with the exception of the Far East trade lane. Freight rates dropped by 8.2 per cent on average for all trade lanes.

Hapag-Lloyd Kreuzfahrten recorded an overall positive business trend in the first quarter of 2007. The segment achieved turnover of 50 million euros, up 2.9 per cent year-on-year (49 million euros). Earnings declined slightly to 3 million euros (previous year: 4 million euros) due to higher operating costs.

RECEIVED

Update on proposed Merger of TUI Travel and First Choice Holidays PLC

London/ Hanover 04 May 2007. Following a meeting with the Competition Case Team of the European Commission on 3 May 2007 at which the issue of potential dominance post merger in the Republic of Ireland was raised, TUI AG and First Choice Holidays PLC have agreed to consider specific undertakings to address this issue including the potential sale of one of their Irish businesses.

www.tui-group.com

As a result of the need for the European Commission to consider these undertakings, the Phase I investigation will now be extended by 10 working days. We, therefore, expect that their decision on whether to clear the proposed merger at Phase I or extend it into a Phase II investigation will be announced on or before 4 June 2007. TUI AG and First Choice remain confident that the proposed merger will be cleared by the European Commission.

http://www.tui-group.com/en/pressemedien/press_releases/2007/0405_all_4_ships.html

"All4ships" casts off TUI incoming agencies combine cruise services under a new masterbrand

Hannover, May 4, 2007

TUI, Europe's leading tourism group, has combined its services for cruise handling in the destinations under the new masterbrand "all4ships". 23 incoming agencies in 30 countries now present a collective face as a global network that offers broad coverage in the globally booming cruise market.

"We have created the new all4ships brand to achieve a clear market presence as a global organisation of professional and experienced incoming agencies in the cruise handling segment," says Bea Eering, responsible for all4ships in the destination management department of TUI AG. The offerings are aimed at shipping companies and tour operators, and above all cover cruise services such country excursions, supporting programmes and transfers as well as inbound and outbound journeys, and this in over 200 seaports and 50 inland ports worldwide.

By introducing the new masterbrand, TUI is responding to the undiminished, posi-tive development of the cruise market. By 2010, the industry expects 4.5 million passengers in Europe alone, while the market had already grown from 2.6 million to 3.2 million cruise guests between the years 2003 and 2005.

Info: Whether a tour through the fishing village of San Andres in Spain, adventur-ous photo safaris in South Africa or an expedition to the lively bazaars of Istanbul in Turkey: a colourful and varied mix of daytime and evening activities awaits the cruise passengers of the customers of all4ships. Incoming agencies that have joined the new brand are located in Africa, Mexico, the Caribbean as well as numerous countries in Asia and around the Mediterranean. More information is available from www.all4ships.com.

investor.relations@tui.com
www.tui-group.com

Hanover/Hamburg, 19 March 2007. The Boards of TUI AG and the British First Choice Holidays PLC ("First Choice") have today agreed to create a unique leisure travel group which will also be one of the world's most profitable travel companies. TUI AG will merge its tourism division, excluding certain hotel assets with First Choice. The new leisure travel group will be called TUI Travel PLC. TUI Travel PLC will be headquartered in the UK and will seek admittance to trading on the London Stock Exchange. TUI AG will have a majority shareholding with 51 per cent., with existing shareholders of First Choice holding 49 per cent. (calculated on a fully diluted basis). Chief Executive Officer designate of the new company is Peter Long, who is currently Chief Executive of First Choice. As authorised by the Supervisory Board of TUI AG in an extraordinary meeting last night, the executive board has approved the Merger. The merger is subject to approval by the existing shareholders of First Choice and approval by the relevant anti-trust authorities. "We are creating one of the most profitable and efficient tourism groups in the world", said TUI Chief Executive Dr. Michael Frenzel, who will become Chairman of TUI Travel PLC. And he continued: "At just the right time two strong partners are joining forces: TUI Travel PLC is clearly aiming at growth and simultaneously will make good use of the opportunities presented by the ongoing consolidation in the European travel market."

The different strengths of the two partners represent an excellent fit. "TUI is clearly the market leader in traditional beach package holidays. And over the past few years First Choice has successfully expanded in the modular travel segment and in certain niche markets, and in doing so has achieved above average returns. Both partners will benefit from the know how of the other", said Peter Long, current Chief Executive Officer and Chief Executive Officer Designate of TUI Travel PLC.

The travel company being created under the umbrella of TUI Travel PLC will have, on the basis of the composite figures of the 2006 financial year, a revenue of

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

approximately 18 billion euros (12.1 billion pound Sterling) and EBITA of around 475 million euros (325 million pound Sterling). Last year, approximately 27 million holidaymakers travelled with the tour operators and airlines of TUI Travel PLC (for further information see "Facts about the new TUI Travel PLC").

TUI Travel PLC anticipates an annual synergy potential amounting to approximately 146 million euros (100 million pound Sterling) as a result of the Merger to be fully realised within three years of completion. The majority of the synergy effects will be in the British market and will be achieved for instance by having joint administration, joint fleet and flight planning in the airlines, introducing a common IT infrastructure and a more efficient use of marketing instruments. It is as yet uncertain how many jobs will be lost as a result of the merger. Jobs in Germany will not be directly affected by the merger.

Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

The formation of TUI Travel PLC is at the right juncture according to Dr. Frenzel. "We have used the past year to do our homework. Many structural and operational measures have been started. Now we are fit for the future", said Dr. Frenzel. The TUI AG Chief Executive emphasized that the new TUI Travel PLC is in a position not only to secure its footprint in a strongly competitive environment but also to extend it. Dr. Frenzel: "By taking this step we are creating room to take positive action and are driving forwards the consolidation of the European tourism business. At the same time this undertaking underlines our intention of pushing forward the two pillar strategy of the TUI Group."

The TUI Travel PLC will be headed by Peter Long as Chief Executive Officer designate. The board will consist of 17 members, including will be Sir Mike Hodgkinson (Non-Executive Deputy Chairman), Peter Rothwell (Deputy Chief Executive), Paul Bowtell (Chief Financial Officer), Will Waggott (Group Commercial Director), Christoph R. Mueller (Aviation Director) and Volker Böttcher (Managing Director Central Europe).

Ad-hoc statement

Ad-hoc-statement in accordance with Section 15 of the German Securities Trading Act (WpHG - German Stock Exchange Act)

Merger of TUI AG tourism division and First Choice Holidays PLC to create one of the world's leading travel groups

Hanover, 19 March 2007. The Boards of TUI AG and First Choice Holidays PLC ("First Choice") have today agreed to merge the tourism division of TUI AG excluding certain hotel assets, and First Choice. The merger will create a new leisure travel group called TUI Travel PLC. The new company will be headquartered in the United Kingdom and will seek admittance to trading on the London Stock Exchange.

TUI AG
Karl-Wiechert-Allee 4
30625 Hannover

Phone +49 (0) 511 566-0
Fax +49 (0) 511 566-1901
presse@tui.com
www.tui-group.com

Copy free of charge

The Merger will be effected through the acquisition, by TUI Travel PLC, of First Choice and TUI's tourism division, excluding certain hotel assets. The new company will also assume 875 million euros of net financial debt from TUI AG, including all pensions liabilities currently associated with TUI Travel. First Choice will be acquired by means of a scheme of arrangement, as per British legislation.

After completion of the merger TUI AG will hold a 51 per cent. stake in TUI Travel PLC, with existing First Choice shareholders holding 49 per cent. (calculated on a fully diluted basis). TUI Travel PLC will be fully consolidated into TUI AG's accounts. The merger is expected to complete in the third quarter of 2007.

The Merger is subject to approval by the relevant anti-trust authorities and the shareholders of First Choice. As authorised by the Supervisory Board of TUI AG in an extraordinary meeting last night, the executive board has approved the Merger. Approval of TUI AG shareholders is not required.

Chief Executive Officer designate of the new company is Peter Long, who is currently Chief Executive of First Choice, Dr. Michael Frenzel, currently Chief Executive of TUI AG will become Non-executive Chairman.

The board will consist of 17 members, including Sir Mike Hodgkinson (Deputy Chairman), Peter Rothwell (Deputy Chief Executive Officer), Paul Bowtell (Chief Financial Officer), Will Waggott (Group Commercial Director), Christoph R. Mueller (Aviation Director) and Dr. Volker Böttcher (Managing Director Central Europe).

The travel company being created under the umbrella of TUI Travel PLC will have, on the basis of the composite figures of the 2006 financial year, a revenue of about €18 billion (£12.1 billion) and EBITA of around €475 million (£325 million). Approximately 27 million holidaymakers travelled with the tour operators and airlines of TUI Travel PLC last year.

TUI Travel PLC anticipates an annual synergy potential amounting to approximately €146 million (£100 million) as a result of the Merger to be fully realised within three years of completion of the Merger. The majority of the synergy effects will be achieved in the British market for instance by having joint administration, joint fleet and flight planning in the airlines, introducing a common IT infrastructure and a more efficient use of marketing instruments. Jobs in Germany will not be directly affected by the merger.

Hanover/Hamburg, 19 March 2007. TUI AG, Europe's leading tourism and shipping company, closed fiscal year 2006 with a considerable increase of the underlying operating earnings in its tourism division. The tourism result improved by 9.5 per cent to 401 million euros (366 million euros in the previous year) after adjustment for special influences (underlying divisions EBITA). In the tourism division, the company posted about 14.1 billion euros in sales for 2006. This figure matches the previous year's level. The shipping division increased its sales by 63.1 per cent to 6.3 billion euros. This increase was primarily caused by first-time inclusion of CP Ships for the entire year. The division's underlying result was still slightly positive at 8 million euros yet still fell considerably short of the comparable figure for the previous year (322 million euros). Decreased freight rates owing to cyclical development as well as markedly increased costs for bunker fuel and landside logistics primarily caused this financial result.

The group reported an overall increase of 6.6 per cent in sales to 20.9 billion euros (19.6 billion euros in the previous year) for its divisions. This figure covers the central operations unit and the discontinued operations in addition to the core business segments, i.e. tourism and shipping. The divisions' underlying profit, adjusted by special items, was 369 billion euros (707 million euros in the previous year), and was therefore considerably below the comparable figure for the previous year.

The 2006 annual results for the group were considerably below the previous year's figures. Financial results as shown in the balance sheet were burdened by expenses for restructuring measures and by required depreciations on goodwill in the tourism division to the amount of 710 million euros. Moreover, non-scheduled depreciations on intangible and tangible assets to the amount of 54 million euros were required.

The total sum of non-scheduled depreciation in fiscal year 2006 therefore amounted to 764 million euros. Taking into account the tax expenses the results for the group amount to a loss of 847 million euros.

Tourism continued its positive development from the previous years, especially in the **Central Europe sector**. The unit's underlying operating earnings, adjusted by 26 million euros in restructuring expenses, improved 74.7 per cent to 115 million euros (previous year 66 million euros). The reported result at 90 million euros was 35.8 per cent above the previous year's level (66 million euros).

Despite difficult market conditions in the U.K. and Ireland the earnings in the Northern Europe source market, adjusted for restructuring costs, saw an increase. At a slight decline in sales the **Northern Europe sector** obtained underlying results of 135 million euros (previous year: 114 million euros). Including restructuring expenses the result stands at 81 million euros (previous year: 103 million euros).

The development of the **Western Europe sector** has not turned out satisfactory. The unit's result worsened compared with the previous year, with burdens resulting from the weakness of the French market. The division's underlying EBITA, after adjustments for special items, was -26 million euros, which is considerably below the comparable figure for the previous year (-0.7 million euros). Taking into account extraordinary effects from restructuring measures the result stands at -54 million euros (-3 million euros in the previous year).

In the **Destinations sector** the incoming agencies and the hotel sector succeeded in increasing sales compared with the previous year. The 173 million euros underlying division EBITA attained the previous year's high level. With 136 million euros, the result as shown in the balance sheet is falling below the previous year's figure (185 million euros) owing to special depreciations.

The development in **shipping** was characterized, on the one hand, by integration and first-time annual reporting of CP Ships and, on the other hand, by the declining development among freight rates.

Moreover, increased costs for bunker fuel, for landside logistics and an increase in charter rates for vessels had a negative impact on profit. Sales in the shipping division increased by 63.1 per cent to 6.3 billion euros in 2006 due to the integration of CP Ships for the entire year. The underlying result was slightly positive at 8 million euros (322 million euros in the previous year), when adjusted by expenses in conjunction with integrating CP Ships. The reported operating result at -106 million euros, as caused by the aforementioned factors, was considerably below the previous year's figure (319 million euros).

The group's debt situation evidences a positive development. Debt was reduced by 600 million euros compared with the previous year to about 3.2 billion euros due to divestments performed in 2006.

Outlook

Tourism

The current status of bookings is very good in most source markets. For the 2007 summer season starting in April the number of guests is currently 7.2 per cent over the previous year for the global TUI Group. Booked sales have increased by 4.7 per cent, and they are likewise considerably above the previous year's level. TUI is even closing out the winter season with a solid plus on its books. Winter sales throughout the group in the tourist sector are 5.4 per cent higher, and the number of guests 9.0 per cent higher compared with the same period last year. Both figures are ahead of current market growth.

TUI is expecting a positive development for the current fiscal year in various tourism sectors. We are generally expecting rising sales, especially in the Central Europe sector, to accompany our consistent expansion of the growth segment of modular trips and expansion of innovative products in the package tour market. Consequently, TUI aims at sales growth of up to 15 billion euros in tourism for fiscal year 2007.

It is assumed, in terms of the development of bookings, that the Central Europe sector can achieve the good results from the previous year, supported by accelerated expansion of new business segments.

TUI believes that restructuring programs, which commenced in the U.K. at a time of a declining market in the previous year, will have a stabilising impact on the development of financial results for the Northern Europe sector, with positive results most likely expected in the Nordic countries.

The market environment in France, which has been difficult thus far, is expected to improve in the course of the current fiscal year. TUI plans for a generally positive contribution to financial results in the Western Europe sector. It is also anticipated that profits in the Destinations sector will rise, which may substantially result from profitable growth in the hotel sector.

Copy free of charge

TUI has moreover instituted strategic initiatives that are aimed at increasing the financial results in the tourism division in a sustainable way. These initiatives are based on structural changes on the tourism market. The measures were announced in December 2006, and to a large extent restructuring costs have already been implemented in the accounts for 2006.

TUI is reckoning with operating earnings somewhere between 450 million and 550 million euros for 2008 in the tourism division in consideration of the profit margin risk caused by intensified competition and high prices for raw materials and kerosene.

Shipping

TUI is reckoning with an 8 to 9 per cent increase in shipped quantities in the container shipping division for 2007 and 2008 within the scope of anticipated market growth. The group is assuming that freight rates will develop differently on a regional basis. They are expected to show a slow positive development in the second half of 2007. A further increase in freight rates is expected for 2008. TUI is assuming, based on the expected developments of shipped quantities and freight rates that sales in the shipping division will rise to up to 7 billion euros in fiscal year 2007.

Financial results in the shipping division shall remain encumbered during the first half of 2007. Dominated by the realisation of synergies from the process of integrating CP Ships, which has been completed at the operational level, a significantly positive contribution to the 2007 financial results is expected, even in case of freight rates remaining low. The full synergy potential of about 220 million euros from integrating CP Ships shall be achieved in fiscal year 2008. Influenced by an anticipated growth in quantities and recovery of the freight rate level, TUI is expecting an operating profit in the range between 400 million and 500 million euros for shipping in 2008.

Group

TUI is reckoning with an increase of group turnover to up to 22 billion euros for fiscal year 2007 against the backdrop of the anticipated positive development in the tourism and shipping divisions. Markedly improved results in both divisions shall yield again a positive result for the Group.

Detailed Breakdown of the Divisions' Development

Tourism

The **Central Europe sector** (Germany, Austria, Switzerland and the Hapag-Lloyd Flug and Hapag-Lloyd Express airline companies) reported a 2.5 per cent increase in the number of guests in fiscal year 2006 to 10.5 million (10.3 million in the previous year). Sales increased slightly by 0.9 per cent and amounted to 5.8 billion euros (5.75 billion euros in the previous year). The underlying result at 115 million euros, adjusted by 26 million euros for restructuring expenses caused by the program for increasing efficiency on the German market, was 74.7 per cent above the comparable figure for the previous year. Reported earnings improved by 35.8 per cent to 90 million euros (66 million euros in the previous year). The sector's overall positive development was influenced by a considerable improvement in the operating earnings from flight operations, which contain 24 million euros in income for sale-and-lease-back contracts (18 million euros in the previous year). TUI tour operators were able to increase passenger numbers although the market and competitive situation was generally difficult in Germany during the period under review.
Improved price quality could be achieved on the market, compared with the previous year, by means of an optimised capacity policy and a rise in the number of travellers who increasingly booked early.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

The number of guests in the **Northern Europe sector** (U.K., Ireland, Nordic countries and the Thomsonfly [charter and scheduled route] and TUIfly Nordic airlines) increased by 2.1 per cent to 7 million (6.9 million in the previous year) despite a difficult market environment. However, sales failed to reflect this development and with 4.8 billion euros fell minimally below the previous year's figure (4.81 billion euros). Within this context, the unit reported declining sales in the U.K. and Ireland and an ability to continue to expand business volume in the Nordic countries. The sector's underlying result was 135 million euros, when adjusted by special items, which translates into and increase of 19.1 per cent compared with the previous year. The special items included posting 50 million euros in restructuring expenses and a single 5 million euros one-off charge for conversion of IT services at Thomsonfly. Including the aforementioned items reported earnings at 81 million euros were considerably below the previous year's figure (103 million euros).

www.tui.com

In fiscal year 2006, 4.39 million passengers travelled with tour operators in the **Western Europe sector** (France, Belgium, The Netherlands and the Corsair, TUI Airlines Belgium, TUI Airlines Nederland airlines). This figure is 0.9 per cent below the previous year's level (4.4 million). Sales increased by 2.2 per cent to 2.82 billion euros (2.75 billion euros in the previous year). The positive development in Belgium and The Netherlands primarily contributed to this development. Sales in The Netherlands reached the previous year's level despite the sale of the specialist tour operator business. Sales in France declined, by contrast, due to market conditions and therefore influenced the sector's financial result. The underlying financial result, adjusted for some special one-off items in France and The Netherlands, was -25 million euros. This result is below the comparable previous year's figure (-0.7 million euros).The reported EBITA for the Western Europe sector was -54 million euros, which is likewise considerably below the previous year's figure (-3 million euros). The French market exclusively caused deterioration of the financial result. Weak demand, over-capacities in the flight sector and an increase in the kerosene price, due to the price of oil, caused margin losses.
Operating business developed positively in Belgium and The Netherlands and both sectors succeeded in increasing the financial result compared with the previous year.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Sales in the **Destinations sector** (incoming agencies and the hotel sector) increased in 2006 by 12.5 per cent to 599 million euros (533 million euros in the previous year). The underlying financial result for the sector was 173 million euros, and it attained the level of the previous year, when adjusted by one-off effects, among others an extraordinary depreciation of hotel facilities in Turkey amounting to 30 million euros. The sector's 136 million euros reported result was considerably below the previous year's figure (185 million euros).

Other Tourism

The activities of this division (business travel, IT services) were sold either entirely (TQ3) or the majority thereof was sold (TUI InfoTec). By virtue of proceeds from asset retirement the division EBITA improved to 140.8 million euros (13.8 million euros in the previous year). Sales of this division, which shall be included for the last time in 2006, decreased to 72.2 million euros (previous year: 251.5 million euros) against the backdrop of divestments carried out.

Shipping

The shipping division (container & cruise business of the Hapag-Lloyd Group) reported sales of 6.3 billion euros in fiscal year 2006 (3.8 billion euros in the previous year). This figure translates into an increase of 63.1 per cent that primarily resulted from completed integration of CP Ships. A comparison of annual figures can therefore only provide limited information. Shipped quantities increased, on a comparable basis, to 5.0 million standard containers (TEU) (4.8 million in the previous year).

An average freight rate of USD 1,430/TEU was earned in 2006, which is 2.7 per cent below the previous year's figure (USD 1,469/TEU). Sales growth in 2006 was offset by higher costs compared with the previous year: bunker costs conditional on the price of oil and costs for landside logistics increased and, along with likewise high charter rates had a negative impact on the financial result. The operating earnings were therefore merely neutral following the high profits in the previous year.

114 million euros in non-recurring expenses moreover arose in the course of restructuring and of integrating CP Ships. The financial result for the shipping division was -106 million euros (322 million euros in the previous year). Container shipping

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

contributed -114 million euros to this result and Hapag-Lloyd cruises contributed 8 million euros.

Central operations

The financial result of central operations (corporate centre, other income and expenses, property holding companies, residual industrial activities) earned a loss of -85 million euros in 2006. However, this figure is 9.9 per cent better than in the previous year (-94 million euros). Holding costs dropped from 110 million euros to 104 million euros. These costs were offset by earnings from a revaluation of the convertible rights for the 2003 convertible bond, from real property sales as well as the sale of the company Wolf GmbH and one-off expenses.

Discontinued Operations

Sales of discontinued operations amounted to 401 million euros. The financial result of discontinued operations was 30 million euros. TUI no longer has any discontinued operations following the sale of the activities of PNA Steel Trade (PNA Stahlhandel) in the second quarter of 2006.

TUI welcomes Hamed El Chiaty as new shareholder

Hanover / Berlin, March 7, 2007. Mr. Hamed El Chiaty has informed us that he exceeded the threshold of 3 % of the voting rights in TUI AG, Hanover, on 7 March 2007 and at this point in time held 3.12 %. The TUI executive board welcomes the fact that Egyptian investor Mr Hamed El Chiaty has become a shareholder of TUI AG. TUI chief executive Dr Michael Frenzel said on the sidelines of the International Tourism Fair (ITB) in Berlin: "This investment in our company is proof of the faith in TUI's growth prospects. We have gained in Mr Hamed El Chiaty a shareholder who has been associated with our company for very many years."

TUI on course for growth in the domestic market / market leader profits particularly from good economic trend Turnover and guest increase above market average / Turkish comeback in summer season 2007

Hanover, March 4, 2007

TUI, Germany's leading tour operator, after a good start to the year 2007 in the domestic market is still on course for growth. As the TUI Germany boss Dr. Volker Böttcher reported shortly before the beginning of the ITB travel trade fair, the number of booked turnover for the summer season 2007 in the German market is currently 5.5 per cent above the comparable values for the previous year. Also in terms of the number of guests booked TUI Germany is on course for growth with a current 6.6 per cent increase in comparison with this period last year.

„Our business is buzzing. On the one hand, our early booking strategy has come off. On the other, as market and quality leader we are profiting particularly at the moment from the good economic trend in Germany. We are currently growing faster than the market", says Böttcher. The positive booking trend is affecting all segments from the classic package holiday to the Mediterranean to self-selected component and wellness holidays, long-haul journeys and city breaks. Among the volume target areas the current strongest growth area – after a quiet year in 2006 – is Turkey. „Within the external framework, Turkey will be celebrating a comeback", says Böttcher.

Classics round the Mediterranean in demand / high growth rate in Turkey

In Turkey, TUI Germany is currently recording a guest increase of 50 per cent in comparison with the 2006 summer season. „Above all, families are rediscovering their love for Turkey and are coming back", says the TUI Germany boss. In the previous year the country had suffered predominantly from the asian flu and the caricature dispute. Böttcher: „Regulars, who appreciate the recent hotel product and the many all-inclusive offers, are booking again." In the 2007 holiday season, German holiday-makers are above all settling for the classical holiday destinations Spain (+1.5 per cent visitor increase), Portugal (+40 per cent visitor increase), Italy (+8 per cent visitor increase) and Greece (+10 per cent visitor increase).

In the most important destination in volume for the Germans, Spain, the current development is still variable. „We are growing strongly in the Canary Islands (+10 per cent visitor increase) and the Spanish mainland (+40 per cent visitor increase). Bookings for Majorca (-5 per cent visitor decrease) are still behind the very good figures for the previous year. „Last year Majorca enjoyed special economic activity because the island benefited from a pronounced weakness in Turkey. Now the holiday-makers are returning to the eastern Mediterranean", says Böttcher. But the TUI Germany boss is working on the assumption that the number of bookings for Majorca will yet rise. TUI is also happy with the bookings situation for the northern African countries of Morocco, Tunisia and Egypt. Bulgaria and the countries in the former

thus the TUI Germany boss describes another trend for the 2007 holiday season. TUI reacted to this development about a year ago with a holiday brochure offensive. Among other things, the offer of long-haul journeys was significantly increased and all such offers were made flexible, so that the long-haul journeys could be booked either as a package or as a self-selected combination. Apart from that, with the introduction of its sister brand TUI World Discoverer TUI has focussed on this segment in its communications as well. In the Caribbean, Mexico (+40 per cent visitor increase) and Cuba (+24 per cent visitor increase) have recorded vigorous growth. The bookings for the Dominican Republic are on a level with the previous year. In Asia, trips to Thailand (+30 per cent visitor increase), China (+29 per cent visitor increase) and to the Maldives Islands (+12 per cent visitor increase) above all are in great demand. Bookings for Sri Lanka, La Réunion and India are still below the figures for comparable for the previous year. Equally, breaks are following the same trend (+9 per cent visitor increase) .

TUI Germany has also recorded an increase in both the package holiday segment and the modular market. Böttcher: „As an integrated provider, we can offer holiday-makers any service they want: from a completely carefree package to the Mediterranean or to the Caribbean to a single overnight stay in a hotel or a hire car in New Zealand."

American Express and TUI enter into cooperation agreement New business travel offer for small and medium-sized firms in Germany

Hanover, February 26, 2007

As from 1 March two strong brands are cooperating in the business travel sector: American Express, a leading provider worldwide in business travel management, and FIRST Business Travel, the business travel sector of TUI Leisure Travel, are entering into partnership to look after small and medium-sized enterprises (SMEs) in Germany. The two companies believe that the combination of American Express's global offer and network and FIRST Business Travel's local presence will yield special added value for customers.

The SMEs segment will continue to grow strongly as far as business travel is concerned. The aim of the new link-up is to quickly penetrate the market. One of the strengths of American Express is the individual and global service it provides to major customers and mid-sized companies. "Through the cooperation with FIRST Business Travel we will now be able to reach the SME segment better in Germany. The personal and professional service and the strong regional presence of our partner will optimally complement the American Express offer," explains Marc Hildebrand, Vice President & General Manager for Central Europe at American Express Business Travel.

In return American Express will be contributing its extensive know-how, its experience and its holistic business concept in the business travel sector along with the tools it deploys such as benchmarking, consulting and a worldwide hotel and hire car programme. For FIRST Business Travel American Express is the ideal partner. "American Express not only has a comprehensive global network but also the strongest global brand. This will enable us to meet the requirements of our branches and franchise partners, says Peter Wittmann, Head of FIRST Business Travel. "Many of our SME customers have international branches and need harmonised solutions for efficient purchasing and cost management," states Wittmann.

The importance of German small and medium-sized enterprises as a growth segment is highlighted by a current study conducted by the German Business Travel Association (VDR). This shows that in 2005 around 150 million business trips were made, of which 84 per cent were by small and medium-sized firms. The total volume of business trips made by SMEs amounted to 38 billion euros, which represents considerable potential for the new partnership between American Express and FIRST Business Travel.

About American Express
American Express Business Travel, a division of travel and finance service provider American Express International, Inc., develops solutions worldwide for optimising travel management at companies. As a global service provider the Business Travel division supports small, mid-sized and internationally active companies across all sectors in the planning, implementation and control of business travel management.

Through innovative travel booking technology, comprehensive advisory services in the development of purchasing strategies and support in negotiations with suppliers and customers American Express Business Travel

biggest travel agency networks worldwide. In 2006 total sales revenue amounted to 21.8 billion dollars.

About FIRST Business Travel
FIRST Business Travel is the business travel sector of TUI Leisure Travel and pools the expertise of the business travel units for the three brands FIRST Business Services, Hapag-Lloyd Reisebüro and TUI ReiseCenter. FIRST Business Travel offers travel planning, travel organisation, local support, billing and controlling from a single source, in particular to small and medium-sized companies.

TUI Leisure Travel GmbH is a wholly-owned subsidiary of TUI AG, Europe's leading travel group. TUI Leisure Travel pools all the travel activities handled through the company's sales outlets. These include around 980 franchise and cooperation partners as well as around 430 branch offices.

TUI takes first steps of announced divestments

Group sells container terminal and seven container ships

Hanover, 22 February 2007. TUI AG takes already announced measures to reduce capital tied up in the company. The Group has agreed to sell an 80 percent stake in its Canadian container terminal activities of the Montreal Gateway Terminals, which had been acquired with the CP Ships takeover. The buyer is Morgan Stanley's infrastructure investment group, part of the Firm's Investment Management division. In addition to the retained 20 percent stake, Hapag-Lloyd remains a major client of the terminal through a long-term contract. The conclusion of the transaction is expected during the first quarter. The divestment will enable TUI to reduce net debt by around 300 million euros.

With effect from the end of 2006, the Group has sold seven container ships including a container portfolio from the CP Ships fleet. The buyer is the Swedish leasing company HSH N Nordic Finance AB, a company of HSH Nordbank subsidiary DAL/AGV in Wiesbaden, Germany. HSH Nordbank will finance the deal. The reduction of indebtedness owing to the transaction is around 320 million euros. By means of an Operate-Leasing structure the seven container ships and the container portfolio will be leased to Hapag-Lloyd in a long term agreement. In December 2006 the Group had announced it would release some of the capital tied up in the company so as to reduce its debt.

TUI Environmental Management awarded – first place in Europe Winner in the Good Company Ranking 2006 in the Environment category

Hanover, February 2, 2007

TUI AG has been chosen by a jury as having the best environmental management in a European comparison. In the German Manager Magazin's Good Company Ranking 2006 the travel and shipping group took first place in the Environment category. "Whether in travel or shipping, environmental quality is part of our value-creating activity which secures our ability to compete for the long term," says Dr. Peter Engelen, Executive Board Member for Human Resources at TUI AG who is also responsible for Group Environmental Management.

On behalf of the magazine, independent teams of experts and a high-calibre jury, including Professor Klaus Töpfer, examined the 120 companies in Europe with the strongest sales according to strict criteria in respect of society, environment, employees and financial strength. In the overall evaluation TUI achieved 72nd place.

As test winner in the Environment segment TUI AG continues its course of broadly based systematic environmental management and since 18 September 2006 has once again been the only travel company worldwide to be listed in the "Travel and Tourism" sector of the Dow Jones Sustainability Index (World). The Index covers altogether 318 organisations which in their sector represent particular sustainability. TUI is also listed in the main European sustainability indices FTSE4Good, ASPI and Ethibel.

Info: The Good Company Ranking has been conducted on behalf of Manager Magazin, a German monthly magazine for managers, since 2004. The aim is to determine the social policy and social responsibility of companies by assessing individual categories. The criteria for the Environment segment are the company's operational environmental performance, environmental aspects in the value chain, ecological innovations, integration of environmental aspects into business processes and the dialogue with stakeholders.

Roland Keppler takes on responsibility for Flight and New Media in the Central Europe source market

Hanover, January 30, 2007

Roland Keppler (42) takes over with immediate effect responsibility for the Airlines and New Media divisions in the Central Europe source market of TUI. This source market represents the management function for the tourism activities of TUI in the countries Germany, Austria, Switzerland, Poland as well as the Baltic states.

The source market management will in future consist of Dr Volker Böttcher (chairman), Henrik Homann and Roland Keppler. Christoph Müller remains responsible for TUI Airline Management in the executive board of TUI AG and therefore for the overall coordination of the flight division of TUI AG.

Roland Keppler began his professional career, following studies in industrial engineering, in 1992 in the Group Controlling division of the then Preussag AG. This was followed by periods at Preussag Wasser- und Rohrtechnik GmbH, the airline Hapag-Lloyd Flug GmbH and in the central airline management of TUI AG. In 2002, Keppler was appointed Chief Financial Officer (CFO) of the low-cost carrier Hapag-Lloyd Express, where he has been responsible as chairman of the management board since January 2005.

TUI staff donate to "Help-for-hungry-children" TUI executive board hands over cheque for 34,000 euros

Hanover, January 24, 2007

Conjuring up a smile on people's faces – TUI employees based in Hanover certainly achieved more than that. Last year they collected the handsome sum of 34,000 euros with their charitable sponsorship project "Help-for-hungry-children".

Today, Dr Peter Engelen, executive board member of TUI AG, and Henrik Homann, managing director of TUI Deutschland GmbH, handed over the symbolic cheque to Kornelia Rust-Bulmahn, manager of "Help-for-hungry-children". For 12 months TUI employees had collected money with such diverse fundraising events as selling cakes as well as tickets for the Christmas raffle.

"Help-for-hungry-children" is an initiative for supplying support to special schools and institutions in which children suffering from hunger and poverty are looked after. Every year since 1995 TUI has supported a charitable sponsorship project selected in an internal ballot from ideas suggested by employees. Preference is given to officially recognised organisations, foundations and associations from the Hanover region that look after children and youngsters. The employees supported the campaign this year so much that for the first time a project has been reselected: TUI will again be the sponsor supporting the initiative "Help-for-hungry-children".

New joint airline TUIfly with record number of passengers in 2006 / HLX passenger figures rose by 22 percent in 2006

Hanover, 12 January 2007. Hapag-Lloyd Express (HLX), the low-cost carrier in the TUI Group, can look back on an extremely successful year 2006. The airline, which has merged with its sister company Hapagfly and now operates under the new airline brand TUIfly, increased its passenger figures by 22 percent, carrying a total of 4.4 million passengers on its fleet of 18 aircraft in 2006. The total passenger figure for both TUI airlines in 2006 reached the figure of 11.1 million. Hapagfly, which reduced its fleet by two aircraft last year and therefore offered fewer seats in the market, accounted for 6.7 million of the total figure. With seat load factors of 88 percent (Hapagfly) and 80 percent (HLX), both companies again booked record figures.

"The principal growth sectors last year were once again our connections to city and European destinations, and that is also where we expect to see the greatest growth potential again this year under the TUIfly.com brand," commented Roland Keppler, responsible for sales and marketing at TUIfly, and simultaneously Chairman of the HLX Executive Board. This year, the TUIfly.com fleet of 56 aircraft (summer 2007) is forecast to carry 13.5 million passengers (22 per cent up on 2006). The airline currently flies to 75 destinations in 17 countries, most of which are available from just € 19.99 per person and flight.

TUI extends sponsoring of football club Hanover 96 by one year
White TUIfly.com logo on red football shirts from next season

Hannover, January 10, 2007

TUI AG is extending its shirt and main sponsorship of German premier league side Hanover 96 by a further year. This is the result of the Group taking out an option to extend the existing contract. With the exception of certain promotional days the shirt advertising design during the second half of this season will not be changed.

From the coming season the home shirt colours will continue to be in the club's red, but the white logo on the shirts will then advertise the new airline brand TUIfly.com.
TUI is using its sponsoring of Hanover 96 to round off its national advertising cam-paign starting on 15 January on TV, radio and in printed media for promoting the new airline brand TUIfly.com.

TUI announced back in December that it intended in the current football season to integrate the new airline brand in its sponsoring activities. The perimeter hoardings were changed before the last home game and now advertise TUIfly.com.

TUI Supervisory Board approves action plan: no demerger of the Group / Resolution to adopt new flight and internet strategy / Entry into the high-volume cruise market / 250 million euro cost-cutting programme / Substantial reduction in central costs / First measures to reduce debt and capital costs

Hanover, 15 December 2006. At yesterday's meeting, the Supervisory Board of TUI AG approved all measures of the Executive Board to achieve further growth, efficiency enhancements and cost reductions. The Supervisory Board supports the Executive Board's decision not to demerge the shipping division at the current market situation.

TUI AG
Investor Relations

Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

The core of the action plan is a growth strategy for TUI's German flight business under the new brand TUIfly.com, the establishment of a new Europe-wide internet portal for flights, the expansion of the hotel business and entry into the high-volume premium cruise segment under the brand TUI Cruises by means of a joint venture with world market leader Carnival. At the same time, a new debt reduction programme totalling around one billion euros has been initiated. In parallel, the first steps have been taken to reduce the amount of capital tied up in flight operations. Frenzel said: "Our action plan clearly aims to significantly improve profitability in the tourism division. We will achieve this objective by means of profitable growth and cost reductions while simultaneously reducing our capital tie-up." On top of the action plan, TUI's CEO announced a cost-cutting programme worth 250 million euros by 2008 for the tourism division and a signficant reduction in corporate centre costs by around one third.

Detailed overview of the measures:

Flight strategy / New brand TUIfly.com

TUI AG has opted for a stand-alone solution for the German market. In future, the airline will operate under the new brand TUIfly.com. "We will pool Hapagfly and Hapag-Lloyd Express (HLX) into the new brand TUIfly.com in order to secure access to the low-cost, internet and modular tour growth markets", explained Frenzel. Currently, growth in the modular segment is largely generated through the airlines' websites, through which some of the hotel and rental car modules are already sold today. Following a capacity increase of five aircraft already announced, the fleet will

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

operate a total of 56 aircraft in 2007 and expand its seat capacity by around 27 per cent. The airline strategy will be implemented in three stages. With the merger of Hapagfly and HLX and the integration of flight schedules, a crucial basis for future growth has already been created this year. In mid-January 2007, a uniform internet portal will be released under the new brand. As of 2007, the remaining five TUI airlines in Europe will then gradually be marketed under the website TUIfly.com. In 2008, all existing airlines will gradually be rebranded to the new airline brand TUIfly.com. "Our consistent branding will facilitate considerable efficiency increases in the use of marketing resources and will boost our sales opportunities", said Frenzel. Carrying passengers from the holiday destinations to TUI's source markets, in particular, is a business that can still be expanded. With TUIfly.com, a European brand, it will be easier to address customers. At the same time, the new brand TUIfly.com will be an essential element of TUI's new internet strategy.

Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

Overall, the new airline strategy will create an earnings effect of around 60 million euros by 2008.

In order to secure its future airline business, TUI has placed a fleet renewal order with Boeing for 41 aircraft valued at US$ 3.64 billion. The aircraft will be delivered as of 2010 and will replace aircraft required in the period 2010 to 2013 without increasing overall capacity. (→ "Reduction in debt and capital employed", page 5).

The new aircraft will replace leased aircraft currently operated in all source markets. Most of the aircraft will be financed through off-balance financing schemes.

The above commitment is in addition to an existing order backlog with Boeing of 24 narrow-body aircraft, bringing TUI's total order backlog with Boeing to 65 aircraft.

Internet strategy

TUI is planning to significantly increase its internet-based sales of tours in the years to come. The Group already generates around 18 per cent of its overall turnover on the web. "We are pursuing a clear objective: on an average we are planning to grow 50 per cent in the internet segment in the respective source markets within the next three years", said TUI CEO Michael Frenzel. Web-induced sales would then account

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

for more than 25 per cent of total turnover (currently 18 per cent / approx. 2.2 billion euros). However, TUI's CEO pointed out that travel agencies will remain the key distribution channel in Germany. The new airline brand TUIfly.com will be expanded to form an international travel platform for all of Europe. "We are developing a new, yellow TUI travel world with primarily price-aggressive modular offerings, complementing our classical blue travel world", explained Frenzel.

The new internet strategy is expected to create an earnings potential of around 70 million euros by 2008 for the Group.

investor.relations@tui.com
www.tui-group.com

TUI Cruises

With the entry into the high-volume premium cruise segment in the German cruise market, TUI will secure an additional growth perspective. TUI is already represented in the luxury segment with the Hapag-Lloyd Kreuzfahrten brand and operates a small fleet under the Thomson Cruises brand in the budget segment in the UK. "We are now planning to close a gap in the high-volume premium segment with TUI Cruises", said Frenzel. This segment accounts for around 30 per cent of the overall cruise market in Germany and, moreover, shows the strongest growth.

In order to enter this market, TUI is planning to engage in a partnership with Carnival Corporation & PLC, the world market leader in cruises. TUI will gradually acquire up to 25 per cent of a joint venture to be founded. Carnival will bring its German AIDA operations into the company. In the framework of the partnership, a separate product line TUI Cruises will then be established. The first TUI ship will be delivered in 2010 and will have a capacity of 3,000 beds. TUI CEO Frenzel said: "This way, we will benefit from growth in this market at reasonable risk and employment of capital." A corresponding letter of intent has been signed.

Expansion of hotel business

A highly competitive hotel sector is of key strategic importance to TUI. "Both for package tours and modular tours, hotels are the crucial factor determining customers' satisfaction with their holiday trip and thus are the key to success in terms of customer loyalty", explained TUI's CEO. For this reason, TUI engaged in selective investments in cooperation with its hotel partners in the past and will continue to do

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

so in future. The investments made in the last few years are expected to create an earnings effect of around 60 million euros. By 2008, 26 new hotels with a total capacity of around 20,000 beds will be added to the portfolio.

Cost-cutting programme in tourism

Against the background of a constantly changing market and persistently strong competitive pressure, TUI has been forced to further reduce costs in the tourism division. Alongside the classical package tour market, a new modular travel market is developing with different distribution, cost and margin structures. Future growth will primarily be created in the modular travel segment. "However, gross margins are considerably lower in this segment compared with package tours. Without further growth and an adjustment of our cost structures, we would risk our market position", said Frenzel. According to Frenzel, the TUI Group currently generates better margins and leverages economies of scale in competing with classical online travel portals. "We therefore have to get fit for the future now, from a position of strength. Improvements in our cost structure in combination with profitable growth in new and existing business segments are the only way to ensure our future strength", said Frenzel.

TUI AG
Investor Relations
Karl-Wiechert-Allee 4

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

Overall, TUI is planning to implement cost savings of around 250 million euros by 2008, including savings of 150 million euros in cost of materials and around 100 million euros in personnel costs. This also includes cutting around 3,600 jobs in the tourism division by 2008. At 2,600 jobs, the UK will be most strongly affected by the job cuts since market changes are far more dramatic in the UK compared with Central Europe. In Germany, around 400 jobs will be affected. The job reductions will largely be effected in a socially compatible manner. Discussions with employee representatives will soon be initiated. The anticipated restructuring costs of 140 million euros will be carried in the balance sheet for the current financial year 2006.

TUI CEO Frenzel pointed out that alongside the job cuts more than 3,300 new jobs will be created in certain segments by 2008, including several hundred new jobs in Germany.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Reduction in central costs

On top of cost cutting measures in tourism, the cost of materials and personnel costs for TUI AG's corporate centre function will also be reduced. The aim is to cut corporate centre costs from currently 112 million euros to 70 to 80 million euros by 2008, a reduction of around one third.

Merger of TUI AG and TUI Deutschland GmbH

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

Further efficiency enhancements will result from the integration of TUI AG and TUI Deutschland GmbH in a single joint organisation. In future, the classical holding functions, the central functions of the tourism division and the operative business in source market Germany will be pooled in the new TUI AG. The merger is not planned to result in any job losses.

Reduction in debt and capital employed

In parallel to the action plan for efficiency enhancements, TUI has launched a new programme for a further reduction in net debt and a related reduction in capital tied up in the Group. For shipping, it was decided to sell a harbour terminal in Montréal, Canada, and to sell several smaller ships owned by CP Ships. Some of them have already been chartered out to third parties. In addition, the divestment of real estate not required for operating purposes has been planned. Overall, this will result in a cash potential of around one billion euros. For 2008,
TUI thus expects net debt to stand at around 2.5 billion euros. Additional potential to reduce net debt will result from operating cash flow.

Moreover, the TUI AG Supervisory Board has authorised the Executive Board to prepare the annual financial statements for 2006 on the assumption that a dividend will not be paid. Servicing of the Group's hybrid bond will not be affected. For the 2007 financial year dividends are assumed to be paid again.

A reduction in capital employed has also been planned for the tourism division. TUI is currently analysing the establishment of a leasing company, in which TUI would hold a minority shareholding. Should the company be established, aircraft currently owned by the Group could be transferred to the leasing company. At the same time, the

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

company to be established would be able to acquire new aircraft. The relevant details still have to be worked out.

Specification of the medium-term profit target

Despite the currently difficult market situation in shipping and tourism, TUI is aiming to achieve a substantial improvement in earnings in the medium term. The divisions' medium-term performance targets have been defined more specifically. Due to the persistent pressure on margins in tourism, the Executive Board considers earnings of 450 to 550 million euros to be realistic for 2008. As Frenzel pointed out: "The reduction in capital tie-up, however, will also significantly increase our profitability." Earnings in the shipping division will be boosted significantly by the non-recurrence of the integration costs and the synergies taking effect. In combination with considerable volume growth, TUI is aiming to generate an earnings level of 400 to 500 million euros. "Depending on the development of freight rates, the earnings potential may considerably exceed 600 million euros in subsequent years if worldwide economic growth continues", said Frenzel.

In the tourism division, the Executive Board considers it probable that a restatement of goodwill may be required due to the changes in earnings expectations.

TUI
Aktiengesellschaft

http://www.tui-group.com/en/pressemedien/press_releases/2006/20061214_adhoc.html

Disclosure pursuant to section 15 WpHG (German Securities Trading Act) TUI AG:

Hannover, December 14, 2006

Against the background of the deterioration in earnings in 2006, in particular in the shipping division, TUI AG announces:

The Supervisory Board of TUI AG has approved the plan submitted by the Executive Board for the next few years and in this context also approved a comprehensive action plan to improve earnings in tourism. Besides measures for further growth in the airline, internet and hotel businesses, a comprehensive cost-cutting programme totalling 250 million euros by 2008 was resolved. The cost of materials will be cut by around 150 million euros, with personnel costs reduced by around 100 million euros. The plan also includes cutting around 3,600 jobs in the tourism division. The expected restructuring costs of 140 million euros will be carried in the balance sheet for 2006 to the largest extent possible.

Against the background of the currently difficult market situation in particular in the shipping division, TUI has specified its medium-term profit targets. In the shipping division, a considerable improvement in earnings is expected due to the non-recurrence of the integration costs and the onset of the synergy effects. In combination with notable volume growth, an earnings level of 400 to 500 million euros is planned for 2008. Due to the persistent pressure on margins in tourism, the Executive Board considers earnings of 450 to 550 million euros in 2008 as realistic. In the tourism division, the Executive Board considers it probable that a restatement of goodwill may be required due to the changes in earnings expectations.

2007 DEC 17 A 11:

At the same time, TUI has launched a new programme for a further reduction in debt and an associated reduction in capital tied up in the Group. For the shipping division, the decision was taken to sell a harbour terminal in Montréal, Canada, and several small ships owned by CP Ships, some of which have been chartered out. In addition, the divestment of real estate not required for operative purposes has been planned. The total cash potential resulting from these measures is around one billion euros. For 2008, TUI thus expects net debt of around 2.5 billion euros. Additional debt reduction potential will result from the cash flow from operating activities.

Moreover, the TUI AG Supervisory Board has authorised the Executive Board to prepare the annual financial statements for 2006 on the assumption that a dividend will not be paid. Servicing of the Group's hybrid bond will not be affected. For the 2007 financial year, a significant improvement of Group earnings is expected and in this regard dividends are assumed to be paid again.

Further details concerning the resolutions adopted at the Supervisory Board meeting will be announced on Friday, 15

December 2006, 10:00 a.m. (CET).

RECEIVED

Ad-hoc announcement according to § 15 WpHG (German Stock Trading Law)

Hanover, 14 December 2006. Against the background of the deterioration in earnings in 2006, in particular in the shipping division, TUI AG announces:

The Supervisory Board of TUI AG has approved the plan submitted by the Executive Board for the next few years and in this context also approved a comprehensive action plan to improve earnings in tourism. Besides measures for further growth in the airline, internet and hotel businesses, a comprehensive cost-cutting programme totalling 250 million euros by 2008 was resolved. The cost of materials will be cut by around 150 million euros, with personnel costs reduced by around 100 million euros. The plan also includes cutting around 3,600 jobs in the tourism division. The expected restructuring costs of 140 million euros will be carried in the balance sheet for 2006 to the largest extent possible.

investor.relations@tui.com
www.tui-group.com

Against the background of the currently difficult market situation in particular in the shipping division, TUI has specified its medium-term profit targets. In the shipping division, a considerable improvement in earnings is expected due to the non-recurrence of the integration costs and the onset of the synergy effects. In combination with notable volume growth, an earnings level of 400 to 500 million euros is planned for 2008. Due to the persistent pressure on margins in tourism, the Executive Board considers earnings of 450 to 550 million euros in 2008 as realistic. In the tourism division, the Executive Board considers it probable that a restatement of goodwill may be required due to the changes in earnings expectations.

At the same time, TUI has launched a new programme for a further reduction in debt and an associated reduction in capital tied up in the Group. For the shipping division, the decision was taken to sell a harbour terminal in Montréal, Canada, and several small ships owned by CP Ships, some of which have been chartered out. In addition, the divestment of real estate not required for operative purposes has been planned. The total cash potential resulting from these measures is around one billion euros. For 2008, TUI thus expects net debt of around 2.5 billion euros. Additional debt reduction potential will result from the cash flow from operating activities.

Joint initiative between UN and TUI to protect dolphins is launched in Germany

Bonn, December 4, 2006

TUI, Europe's leading travel group, is supporting the United Nations Environment Programme (UNEP) – through the Bonn Convention – in a major public awareness campaign directed at tackling various threats to dolphin survival, such as by-catch and the destruction of their habitats.

The Convention on Migratory Species, widely known as the Bonn Convention, focuses on wild animals crossing national boundaries. It has declared 2007 the "Year of the Dolphin" and invited private sector companies as well as other international organisations to work together to spread the message on the urgent need to protect these marine species. "The United Nations often lacks sufficient resources to undertake global public awareness projects; thus the need to join forces with others. We are very pleased to welcome TUI as our corporate partner of this campaign and rely on their established communication network to spread our message," says Robert Hepworth, Executive Secretary of the Convention.

Activities promoted in the framework of this partnership include the publication of information on dolphins in travel brochures and in-flight magazines, and awarding 'dolphin diplomas' to children. The dedicated website www.YoD2007.org provides information in German and English about the world of dolphins and the campaigns and actions of partners. In addition, multilingual dolphin handbooks are also being produced for distribution to young travellers and their families at TUI destinations as well as to children in local schools.

"TUI will be an effective partner and ambassador of the CMS message on dolphins. We believe that our guests and managers can make a useful contribution to an important cause while enjoying their holidays or doing their work. Our partnership with the Bonn Convention represents an ideal way of combining business with the communication of environmental and social objectives," says Dr W. Michael Iwand, Director of Group Environmental Management/Sustainable Development at TUI AG. On the basis of its outreach and the alternative educational strategy UNESCO has chosen this campaign as one of the activities in the UN Decade for Education on Sustainable Development. The campaign also makes a tangible contribution towards meeting targets governments have agreed on in the framework of the UN to reduce the loss of biodiversity by 2010.

Over and above this TUI will assist in organising an important conference on the Canary Islands in late 2007. The aim is to reach an international agreement for the conservation of small whales and dolphins in West Africa. TUI will provide logistics and assistance to developing countries participating

in this project.

In addition to TUI other organisations including the Whale and Dolphin Conservation Society (WDCS), CMS regional initiatives – the Agreement on Conservation of Cetaceans of the Black Sea, Mediterranean Sea and Contiguous Atlantic Area (ACCOBAMS) and the Agreement on the Conservation of Small Cetaceans of the Baltic and North Seas (ASCOBANS) – as well as the United Nations Educational, Scientific and Cultural Organisation (UNESCO) have joined the initiative.

The international launch of the campaign took place in Monaco on the 17 September 2006 with HSH Prince Albert II of Monaco as patron. "The Year of the Dolphin gives me the opportunity to renew my firm commitment towards protecting marine biodiversity. With this strong initiative we can make a difference to save these fascinating marine mammals from the brink of extinction," said the Prince on that occasion.

It must be a record – TUI image film gains yet another award CIFFT awards "Mention des Grand Prix" for the best tourism film

Hanover, December 1, 2006

TUI has every reason to smile. For sixth time the image film "The Discovery of the Smile" has been awarded with an international prize. In November the TUI team was presented in Vienna with the "Mention des Grand Prix", which elevated "The Discovery of the Smile" to one of the best tourism films in the world. The prize was awarded by the CIFFT, the Comité International des Festivals du Film Touristique. "This award is the climax of several other prizes. Just like in formula 1 racing, whoever gains the most points throughout the year is our winner," said Alexander Kammel, executive director of CIFFT.

More than one thousand film entries had been submitted for the various film festivals. Last year "The Discovery of the Smile" won amongst others the German Business Film Prize as well as the "red dot award for good design quality 2005". Moreover, "The Discovery of the Smile" won the Grand Prix at the international Festival du Creusot, a film festival dedicated to corporate communications media.

By referring to the TUI Logo the film recounts in unexpected and amusing images how mankind started out on its journey with the discovery of the smile. In doing so the film combines the history of the smile with information about the TUI Group and portrays the transition of the former Preussag to Europe's leading travel and shipping company.

The concept was put together by the Frankfurt agency Klaus E Küster, which also created the image film for Porchse. Direction and production of the film was by Rainero Spirandelli, the music originates from Parviz Mir-Ali. The German version is spoken by Hubertus Bengsch, the German voice for Richard Gere.

TUI supports German Foundation for World Population 12,000 euros for youth clubs in Kenya

Hanover, November 29, 2006

The German Foundation for World Population (DSW) is celebrating its 15th anniversary this year and TUI AG will congratulate the foundation by making a generous donation. On the anniversary Dieter Brettschneider, representing TUI AG, will hand over at 5pm on Wednesday, 29 November in the TUI AG offices in Karl-Wiechert-Allee 4, a cheque for 12,000 euros to the DSW managing director Dr Jörg F Maas.

The money will go to the two youth clubs "Vision Youth Club" and "Red Strikers Youth Group" in Kenya, both of which TUI is sponsoring. In the clubs young people are told how they can protect themselves against AIDS and unwanted pregnancies. "We thank TUI as a tourism company for supporting our work and involvement in developing countries. The youth clubs are extremely important for our educational work because they give us the opportunity of approaching young people in their own surroundings," said Maas. About 200 invited guests will be celebrating the DSW anniversary from 6pm, to which Hanover's Lord Major Stephan Weil has also been invited. The host for the evening programme will be the well known television journalist and member of the DSW board of trustees Rolf Seelmann-Eggebert.

DSW is an internationally operating development aid organisation from Hanover. The private, charitable foundation educates young people in Africa and Asia in questions of health, including HIV/AIDS. It supports family planning and educational projects on site in the countries where it operates. In Germany DSW informs people of the close relationship between population development, poverty, health and environmental protection.

TUI merges incoming services for Meetings & Incentives New masterbrand TUI Event Management at EIBTM for the first time

Hanover, November 24, 2006

TUI is to merge its services for incentive and conference customers in the destinations within a global network. The incoming agencies of Europe's leading travel Group will merge the sales and marketing activities of 29 countries in the MICE sector (Meetings, Incentives, Conferences and Events) under the new masterbrand of TUI Event Management.

"This stresses we are taking into consideration the growing importance of the MICE business field. With the new brand of TUI Event Management we will obtain a clear presence on the market as a global network of incoming service providers," states Mark-Stefan Willsch, responsible for TUI Event Management. Thus, TUI Event Management presents itself as a network of professional and experienced DMCs (Destination Management Companies) all over the world which develop event concepts according to individual demands and needs of their customers.

Examples of the team's dynamism, commitment and possibilities include the organisation of the high-profile 3GSM World Congress in Barcelona with over 50,000 participants. Furthermore, the agencies of TUI Event Management coordinate the leading international trade fair for event business, the European Incentive & Business Travel Exhibition (EIBTM). From the 28th to the 30th of November 2006, TUI Event Management will for the first time present itself at the EIBTM in Barcelona. TUI will be represented by 26 agencies from 29 countries at stand G800.

TUI signs Luxembourg Declaration on Health Promotion
Benefit for employers and employees

Hanover, November 16, 2006

TUI, Europe's biggest tourism group, has signed the Luxembourg Declaration on Workplace Health Promotion in the European Union. The Declaration promotes preventative measures and traditional occupational safety in the industries of the member states.

The aim is to improve the health of employees by means of targeted in-house activities, such as influenza vaccination, company sports, or by providing back training.

Special measures, such as management seminars, strengthen the sense of responsibility of each employee and help optimise how work and jobs are organised. "We all profit from the corporate health promotion: the staff thanks to improved fitness and health and the company from the improved motivation of its staff and the lower sickness-related costs," says Dr Peter Engelen, HR Director at TUI AG.

Character count: 814

Earnings by shipping impacted by persistently weak market environment / Earnings by tourism at 2005 levels / Turnover for winter season 2006/2007 currently up 5.8 per cent above previous year

Hanover, 9 November 2006. TUI AG has increased its total turnover in the third quarter of 2006. Turnover of continuing operations grew by 8.3 per cent to 6.74 billion euros (previous year: 6.22 billion euros). In the tourism division, turnover declined slightly by 2.4 per cent to 5.16 billion euros (previous year: 5.29 billion euros), while shipping recorded an increase in turnover of 73.0 per cent to 1.51 billion euros (previous year: 873 million euros) due to the integration of CP Ships.

investor.relations@tui.com
www.tui-group.com

Earnings by the two core divisions, in contrast, developed differently. While tourism closed on 2005 levels, shipping recorded a decline in earnings. Tourism posted earnings (EBITA) of 584 million euros (previous year: 583 million euros) in the third quarter. In shipping, in contrast, earnings dropped considerably year-on-year to -25 million euros (previous year: 95 million euros). Overall, TUI recorded earnings of 529 million euros (previous year: 708 million euros) for its continuing operations in the third quarter.

Earnings by tourism were supported in particular by the contribution made by the Central Europe sector with its improvement in earnings from flight operations, the Northern Europe sector, the hotel companies and the source markets Belgium and the Netherlands. Earnings grew 6.8 per cent to 173 million euros (previous year: 162 million euros) in the Central Europe sector and by 2.6 per cent to 235 million euros (previous year: 229 million euros) in the Northern Europe sector. As in the previous quarter, the strategy of focusing on price quality rather than volume growth proved successful again in the third quarter. The Northern Europe sector benefited from the positive business development in the Scandinavian countries and despite weaker market conditions in the UK from structural measures implemented during the previous year.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

The performance of the Western Europe sector, in contrast, did not improve in the third quarter. Restrained demand in France impacted both Nouvelles Frontières and the Corsair airline.

The weak market environment in France was not offset by the gratifying trends in the Netherlands and Belgium. Overall, earnings by the division declined by 18.3 per cent to 67 million euros (previous year: 82 million euros) for the Western Europe sector.

TUI AG
Investor Relations
Karl-Wiechert-Allee 4

Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

The destinations sector (incoming agencies and hotel companies) posted a 5.2 per cent increase to 207 million euros (previous year: 197 million euros) in turnover in the third quarter of 2006. Earnings by the sector rose by 0.9 per cent to 112 million euros (previous year: 111 million euros). The incoming agencies recorded varying trends. At 3.99 million, the number of guests catered for in the third quarter of 2006 matched the previous year's level. The hotel companies of the Hotels & Resorts segment managed to maintain the high occupancy rates achieved in 2005.

In the third quarter of 2006, the shipping division operated virtually in the same environment as in the previous quarter. In the period under review, the trend was characterised by a reduction in freight rates and high costs. The oil price-related bunker costs and charter rates remained high in all trade lanes. The growth in transport volumes in the third quarter of 2006 remained at the previous year's level. As a result, earnings dropped significantly to -25 million euros (previous year: 95 million euros) and included one-off expenses for the integration of CP Ships.

Prospects

In the 2006 summer season, which ended on 31 October 2006, customer numbers were 2.4 per cent up year-on-year at TUI Group level. Booked turnover roughly matched the previous year's level, growing 0.1 per cent. TUI started off into the current winter season at solid growth in bookings. Tourism turnover for the winter season is 5.8 per cent up year-on-year at Group level, with customer numbers up 11.5 per cent year-on-year.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Concerning the development of earnings (EBITA) of the individual tourism sectors, an uneven trend emerges for the 2006 financial year. The Central Europe sector is expected to see an improvement in earnings. The optimisation programmes already initiated will more than offset the associated one-off expenses.

The restructuring programmes launched in the UK in 2005 will have a positive effect on earnings by the Northern Europe sector. An opposite effect will be caused by the declining trend in the market observed since the summer months. The development of the Western Europe sector, in contrast, fails to meet expectations. Due to the persistent market weakness in France, the Western Europe sector will probably not generate positive earnings for the year as a whole. In August 2006, the TUI Executive Board activated a catalogue of measures in order to enhance efficiency and cut costs throughout the Group. Some individual measures are currently being scrutinised. Details on measures to be taken will be announced on 15 December 2006.

In shipping, the integration of CP Ships has progressed significantly faster than expected and has meanwhile almost been completed. In 2007 already, a large part of the 220 million euros in synergies expected will affect earnings. The cost of the restructuring and integration of CP Ships total around 100 million euros and will largely be incurred in the 2006 financial year. Turnover and earnings by the division will therefore be characterised by the first-time consolidation of CP Ships for a full year. Despite a so far positive development of transport volumes, the shipping division is expected to considerably undercut the high earnings level achieved in 2005. This is due to the cost of integration, the partly negative development of freight rates, in particular in Asian transports, the oil price-induced increase in bunker costs and land-based transport costs. In the light of the current external framework, it is to be expected that the one-off integration costs will result in negative earnings by the shipping division.

For the overall 2006 financial year, the TUI Group expects significant turnover growth. Earnings by divisions (EBITA), in contrast, will decline year-on-year.

Bei Übertragungsproblemen bitten wir um Rückruf

Detailed development of the divisions

Tourism

In the third quarter, the **Central Europe** sector (Germany, Austria, Switzerland and airlines Hapagfly and Hapag-Lloyd Express) recorded an increase in customer numbers of 3.2 per cent to 3.8 million (previous year: 3.7 million). Turnover, however, declined slightly by 0.8 per cent to 2.14 billion euros (previous year: 2.16 billion euros). On the other hand, a significant increase in earnings from flight operations ensured an overall positive trend in this sector. In the third quarter, earnings by the Central Europe sector amounted to 173 million euros, up 6.8 per cent year-on-year (162 million euros). In Germany, the market and competitive situation continued to be difficult in the period under review, but TUI tour operators managed to increase their customer numbers. In addition, income of 6 million euros was generated from an aircraft sale-and-lease-back agreement. At the same time, however, expenses of 1 million euros were incurred in the framework of the restructuring programme aimed at enhancing efficiency.

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

In the **Northern Europe** sector (UK, Ireland, Nordic countries and airlines Thomsonfly (charter and scheduled flights) and TUIfly Nordic), customer numbers declined 5.4 per cent to 2.36 million (previous year: 2.49 million) in a difficult market environment. Turnover dropped accordingly by 4.3 per cent to 1.74 billion euros (previous year: 1.82 billion euros). At 235 million euros, earnings by the sector were slightly up year-on-year (229 million euros). Adjusted for non-periodic income, earnings for the Northern Europe sector dropped slightly year-on-year in the third quarter of 2006. Restructuring measures initiated in 2005, however, had a positive impact by improving cost structures for example through commission cuts at third-party distribution.

At 1.62 million, the number of customers travelling with tour operators of the **Western Europe** sector (France, Belgium, Netherlands and airlines Corsair, TUI Airlines Belgium, TUI Airlines Nederland) almost matched 2005 levels (1.63 million) in the third quarter of 2006. Turnover grew 2.1 per cent to 1.07 billion euros (previous year: 1.05 billion euros). This was primarily attributable to the positive trend in Belgium and the Netherlands. Earnings by the Western Europe sector, in

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

contrast, were strongly characterised by the development in the French market. In the third quarter of 2006, EBITA totalled 67 million euros, down 18.3 per cent year-on-year (82 million euros). The persistently difficult market environment impacted Nouvelles Frontières and Corsair. The good performance of the French national team at the World Cup, the current weak demand in the French market and the oil price-induced increase in aircraft fuel costs caused margin-losses.
In the Netherlands and Belgium, the operative business showed a positive trend. Both sectors managed to achieve year-on-year earnings growth.

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

Turnover in the **destinations** sector (incoming agencies and hotel companies) grew to 207 million euros (previous year: 197 million euros) in the third quarter. Earnings by the sector were constant in the third quarter at 112 million euros (previous year: 111 million euros). Hotel companies in particular showed a positive trend. In the third quarter, occupancy rates were kept at the high levels achieved in 2005.

Shipping

In the third quarter of 2006, the shipping division posted turnover of 1.51 billion euros (previous year: 873 million euros) up 73.1 per cent. This growth mainly resulted from the integration of CP Ships, which has meanwhile virtually been completed. In contrast to the two preceding quarters, transport volumes (Hapag-Lloyd including CP Ships) were constant at 1.24 million standard containers (TEU) in the third quarter of 2006 (previous year: 1.24 million TEU).

The average freight rate in the third quarter (Hapag-Lloyd including CP Ships) was 1,431 US dollars/TEU, down 4.2 per cent year-on-year (1,494 US dollars/TEU). Overall, freight rates dropped in almost all trade lanes due to intense competition.

While turnover grew in the third quarter of 2006, costs rose again year-on-year: in all trade lanes, charter rates and the oil price-induced increase in bunker costs remained high. Operating earnings therefore declined again year-on-year. Moreover, one-off expenses of 14 million euros were incurred in the third quarter of 2006 in the framework of the restructuring and integration of CP Ships. Earnings by the shipping division totalled –25 million euros (previous year: 95 million euros).

Central Operations

Earnings at central operations (corporate centre functions, real estate companies) dropped to -30 million euros in the third quarter. This decline was attributable to the positive effects of both convertible options and hedging transactions.

Discontinuing operations

Following the divestment of the PNA steel trading activities in the second quarter, the TUI Group no longer holds any discontinuing operations. In the third quarter of 2006, however, gains on disposal of 6 million euros were posted from the divestment of rail logistics in December 2005.

Note concerning the reporting structure in the shipping division

As of the third quarter of 2006, freight rates and transport volumes were presented jointly for Hapag-Lloyd and CP Ships, broken down according to the geographical structure of the trade lanes. To this end, CP Ships' indicators for 2006 were broken down accordingly, with reference indicators for the 2005 reference periods determined on the basis of a pro forma calculation in order to obtain a basis for comparisons.

TUI moves production of airtours brand from Frankfurt to Hanover

Frankfurt/Hanover, November 7, 2006

As part of the reorganisation of the business in Germany, which started back in June, TUI is to move the holiday production of the airtours brand from Frankfurt to Hanover. Half of the almost 200 jobs will be transferred to Hanover during this centralisation process. Employees will be offered a job at the new location. As a result of the move, about 100 jobs will be gradually cut back by the end of 2007 . The reduction of jobs is to be conducted as socially acceptable as possible.

The airtours brand is the leading provider of premium and luxury holidays in Germany. Under the umbrella of TUI Deutschland GmbH the airtours brand will continue to hold this clear position in the brand and product portfolio and moreover next year its offering will be even further extended. As part of this summer's reorganisation of the business in Germany the tour operating activities of the brands TUI, 1-2-FLY and airtours as well as of the retail organisation TUI Leisure Travel Management have been merged into one company. TUI has therefore created a central organisation for all volume brands in Germany. The overall aim is to make the production and marketing of holidays more efficient.

TUI Deutschland: presentation of summer brochures 2007

TUI has started quite well into the 2006/2007 winter season on the home market / increase in turnover and customers above market growth / strong demand for Spain, self-drive and long-haul holidays / strengthened early-booker initiative for the summer season 2007 / holidays in Turkey will be cheaper next year

Hanover/Lanzarote, 5 November 2006. TUI, Germany's leading tour operator, has entered the 2006/2007 winter season with a quite good increase in bookings. One week after the start of the season TUI records an increase in booked turnover on the home market of 4.3 per cent compared with the prior-year period. The number of customers is currently rising by 9.2 per cent. The increases in customers and turnover are both currently above the present growth in the market. In the 2006 summer season, which ended on 31 October, TUI Deutschland enjoyed a 4.4 per cent increase in the number of customers. Booked turnover were 1.4 per cent below the comparable figure for the previous year. Presenting the new brochures for the summer season 2007, TUI Deutschland Chief Executive Dr Volker Böttcher referred to the good quality of results on the German market despite the slight decline in booked turnover. "This reflects increased utilisation of the flight and hotel capacities managed by TUI and a lower proportion of last-minute bookings compared with the previous year", said Böttcher at the presentation on the Canary Island of Lanzarote. "Our strategy has proved correct. Thanks to our excellent control of capacity we sold more holidays at the brochure price and thus increased the quality of results", he added. For the new summer programmes Böttcher announced that the TUI early-booker initiative would be strengthened, long-haul and city tours would again be distinctly expanded and four new brochures would be launched.

Summer 2007: even stronger focus on early bookers

In the coming year TUI will focus even more strongly than before on early-booker advantages. "For the first time we will introduce an early-booker price list which will replace the all-season regular price list and which will enable holidaymakers who book early to save several hundred euros," says Böttcher.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

The new brochures will be available for bookings as of 10 November at travel agents and on the Internet at tui.com - the early-booker price list will apply up to 14 February. Then the price lists will be replaced and the holiday prices will rise. Böttcher: "This way we are once again drawing increased attention to the advantages of booking holidays early. Customers who book early will have a full selection of products and will be financially rewarded." As an incentive for early bookers TUI will be offering XXS fixed prices for children as from 99 euros and the XXL bonus for adults which on average can save 110 euros per person. What's more, TUI has distinctly expanded the now very successfully established 60-day price advantage in particular in the self-drive segment. All the early-booker advantages can be combined with further cost-saving options.

Price development in summer 2007: Turkey cheaper – Spain slightly more expensive

As expected, holiday prices in the coming summer season will develop differently according to holiday location. On average, holidays on the Balearic Islands will cost around three per cent more, on the Spanish mainland around 2.5 per cent more and on the Canary Islands around 1.5 per cent more. Holidays in Portugal (+ 1.5 per cent) and in Germany (+ 1.7 per cent) will be slightly more expensive, too. By contrast, holidays to Turkey and North Africa will be cheaper or show stable prices. Böttcher: "We can announce stable prices for Egypt, and holidays in Turkey will be on average three per cent cheaper than this year."

First holiday trends from the winter season 2006/2007

In the winter season, which officially started a week ago, there are signs that once again the trend for Spain is very stable. The Balearic Islands are currently experiencing turnover growth of 11 per cent (customers - 5.2 per cent) and the Canary Islands an increase in turnover of 9.6 per cent (customers + 9 per cent) compared with the prior-year season. "We are particularly pleased about the trend for the Canary Islands because most Germans spend their holidays here in the winter half-year and it is the most important destination in the winter season for TUI," explains Böttcher. Italy and Portugal are also enjoying strong demand. In the self-drive sector the trend remains positive for Germany and Austria.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

The long-haul destinations in Southeast Asia, Central and South America are currently experiencing overproportional growth – reflecting the long-haul travel offensive launched by TUI a year ago. TUI is likewise highly satisfied up to now with the trend in city tours, wellness and all-inclusive holidays. TUI Deutschland Chief Executive Böttcher emphasised that the booking figures for the winter season merely represent an initial trend and that the figures will show changes over the further course of the season.

Four new brochures, more long-haul and city tours, expansion of health holidays

In the coming summer season TUI will present altogether 48 brochures and thousands of holiday offers around the globe. The TUI brochure world has been completely revamped and divided into three subbrands presenting classic beach holidays, holidays for vacationers who mainly want to experience the country and its people as well as premium holidays which are geared towards customers whose priority on holiday is highest quality and luxury.

As part of TUI's long-haul holiday and modular initiative, the number of holidays has once again been distinctly increased for the next summer season. "This means that we now have the biggest long-haul and city tour programme in the history of the TUI brand," says Böttcher. The Australia / New Zealand brochure is new with numerous bus and hire-car tours, experience and adventure tours and hotels for do-it-yourself travellers in the major cities, in the Outback and on the tropical beaches of Australia's eastern coast. Other new developments include the destination of Tibet, which TUI is offering for the first time in a combined tour with China. For families TUI is offering a family club brochure for the first time in the new summer season. "Our family clubs are a real success story and over the past three years have enjoyed above-average bookings against the market trend," states the TUI Deutschland Chief Executive. The new brochure with altogether 20 clubs in the most important holiday destinations on medium-haul flight routes is geared to families who exclusively want a club holiday.

TUI Marathon Palma de Majorca on the finishing straight German wins third annual event of the autumn sporting highlight on the Balearic island

Palma de Majorca, October 22, 2006

The "most beautiful island marathon in the world" has come of age. 3,778 runners from 32 countries started the race , 1,156 in the marathon and 1,934 in the half-marathon. The 10-km run attracted 688 runners. Whereas the number of runners in many European marathon races has started to stagnate or even fall, the TUI Marathon Palma de Majorca achieved an increase of almost 30 percent compared to last year. It seems that the TUI Marathon is on the right way to becoming one of the top events on the marathon scene.

Dr Michael Frenzel, chief executive of TUI AG, once again accepted the privilege this year of firing the starter's gun to start the runners from all over the world. "The number of people taking part, the quality of the event as well as the atmosphere along the route make it quite evident that we have now successfully established the TUI Marathon. We will continue to improve upon the excellent standard of this international sporting event; not only for the runners but also for the inhabitants of the most popular holiday destination of our customers," said Frenzel.

Once again the Spanish sun accompanied the runners along the route. The weather conditions were pleasant: 24°C with a fresh breeze, especially along the section running parallel to the sea.

Marathon winner comes from Germany
After just 2:35:58 hours running time Marc Jörgens from Wermelskirchen, Germany passed the finishing line, followed by the five-times Spanish Balearic champion Vicente Jose Ogazón Marí (2:36:53) and Georg Brunner (2:40:51) from South Tyrol, Italy. The winning time of this year's TUI marathon set up a new record for the rou-te.

Winner of the ladies race was Birgit Schönherr-Hölscher, Witten, Germany in a time of 3:10:08. Second and third places went to the two Germans Svenja Gayk (3:14:23) from Mühlheim/Ruhr and Manuela Köhne (3:14:50) from Osnabrück.

Spaniard wins half marathon
Guillem Bosch from the island of Menorca passed the finishing line first in the half-marathon event in a new best time for the route. His time was 1:11:32. Second and third places were also won by Spaniards: Gerardo Radó Borst (1:13:05) and Juan Zarate Osuna (1:15:09), both from Majorca. The Norwegian Jessicca Gunnarson won the ladies event also in a new course record time of 1:20:46. Coming in behind her were the German triathlete Nicole Leder (1:23:35) and Sharon Broadwell (1:25:49) from the USA.

Olympic champions and world champions also in the

running
Six exceptional German athletes, from boxing world champion Sven Ottke, rowing champion Kathrin Boron and biathlete Peter Sendel to cross-country skier Andreas Schlütter and mountain bike professional Mike Kluge and rower Andreas Dittmer, fought it out for the title of "Cross-Over Sportsperson 2006". The runners obviously took great pleasure in the half-marathon distance and enjoyed taking part in a quite different sporting discipline to that for which they are famous. Andreas Schlütter reached the finishing line first. His time was 1:17:04. Kathrin Boron, who finished the half-marathon in a magnificent 1:43:32, took the title of "Cross-Over- Sportsperson 2006".

Jürgen Drews runs in the Companies Competition
Enthused by his successful marathon premiere and last year's motivating atmos-phere along the route, pop singer Jürgen Drews (2:16:08), the self- proclaimed "King of Majorca", ran in this year's Running Award. In this competition, which is held as part of the half-marathon event, the title of "fastest company in Europe" is up for grabs. Jürgen and his team running for "Drews und Brinks Promotion Wipper-fürth" nevertheless had to be satisfied with 8th place. In first place was the TUI team followed by the EVAG team and the staff of Ars Vitalis.

"Mr Ironman Germany" Lothar Leder also runs the course
The triathlete Lothar Leder from Darmstadt ran for the first time in the TUI Mara-thon and finished the 10km-run in an impressive 36:07 minutes. The world famous athlete, who during his career has won nine Ironman race series and was the first person ever in 1997 to finish the event in under eight hours, started this year's race sponsored by Erdinger Alkoholfrei.

4th International TUI Marathon Palma de Majorca
After the race Michael Lambertz, head of TUI AG Group Marketing and responsible for the TUI Marathon Palma de Majorca, dared looking to the future: "As we had almost 30-percent more runners this year we are aiming for the 5,000 mark next year." Enthusiastic runners can look forward to **21 October 2007**, when the fourth TUI Marathon Palma de Majorca will take place.

Further information as well as the list of results are available at www.tui-marathon.com.

TUI comments on rumours about shareholding of federal states

Hanover, October 20, 2006

Between TUI AG and the city state of Hamburg and/or the state of Lower Saxony negotiations about buying a stake in TUI AG are not taking place. Such negotiations are not intended either.

Once during the talks, which take place on a regular basis, the TUI board a few weeks ago had informed both federal states about the current situation at the shipping division Hapag-Lloyd as well as at the Group.

TUI's tsunami relief project on Sri Lanka completed Opening of Godigomuwa Yayawatta village

Hanover/Hambantota, October 13, 2006

The tsunami relief project on Sri Lanka funded by Europe's leading travel group TUI AG is now complete. The village Godigomuwa Yayawatta was officially opened on 12 October 2006. Apart from the villagers the Sri Lankan deputy minister for urban development was also taking part in the ceremony in the village alongside other representatives from the regional government as well as from Plan International and TUI AG.

The focus of the relief work carried out in cooperation with Plan International Deutschland e.V. was the construction of a new village. Families from different communities that lost their homes and all their possessions in the tsunami flooding will be moving into this new village. In all 1,000 victims of the tsunami disaster will find new homes in Godigomuwa Yayawatta. The first families already moved in during August. The village facilities include a kindergarten and a community centre. The kindergarten will look after some 600 children, also from neighbouring villages.

The selection of the families was undertaken by the government of Sri Lanka using criteria drawn up together with different institutions and NGOs. The village is characterised by a social and family-friendly infrastructure borrowed from the region – this includes a school, health centre, community facilities and a playground. In addition the residents are provided with expert advice and micro-credits to help them set up means of existence and small businesses. Moreover, the families had a say in the design and layout of their new village during the whole planning and construction phase.

Info:
After the devastation of the tsunami disaster on 26 December 2004 TUI AG decided to embark on a long-term relief programme. A good 1 million euros was made available for the construction of a village in Sri Lanka. Numerous TUI AG subsidiaries contributed – with own projects or donations – to the Group-wide relief project. For example, money raised by airline Hapagfly was used to finance a hospital.

Plan International already had a good track record in development work on Sri Lanka, which was particularly hard hit by the tsunami. The organisation is recognised by the UNO and alongside UNICEF plays an advisory role at the United Nations.

Today Plan International has a presence in 15 industrialised countries; 185 project offices coordinate the work of the local development experts and volunteers. The progress of TUI's relief project is documented on the internet. For more information go to www.tui-aid.com.

TUI sells Wolf subsidiary to CENTROTEC Sustainable

Hanover, 6 October 2006. TUI AG has sold its 80-percent share in Wolf GmbH to CENTROTEC Sustainable AG, Brilon, Germany. The selling price was not disclosed. The transaction has been finalised on 5 October 2006. As previously announced TUI has now disposed of its last industrial holding and has so completed the transformation of the Group by turning its focus completely on tourism and shipping. It is intended for Wolf to continue within the CENTROTEC group as an independent company with its own brand.

New majority owner for travel channel TV Travel Shop

Hannover, October 2, 2006

The German travel channel TV Travel Shop, previously a joint venture between TUI AG and the dynamic-packer GmbH & Co. KG, has agreed to the entry of a new investor with experience in television retail. Hong Kong based Television Voyages will acquire a 74 percent stake in the business. Dynamic-packer has sold its entire stake whereas TUI AG will retain a 26 percent holding in the company. It was agreed not to disclose the details of the transaction.

The channel will be re-branded as "Voyages". Concurrent with the re-branding, the Company will introduce new program formats and features for the viewer. The current "hard sell" program format will be replaced by program formats that are more entertaining, more informative and that offer a wider variety of destinations and holiday products. The operational business will continue to be run from the Hanover location with a view to expanding the channel in Germany and other Euro-pean markets. The World of TUI – including dynamic-packer GmbH & Co. KG – with its products and brands will remain a premium partner of the travel channel.

1.190 characters

About TV Travel Shop:
The Hanover based travel channel TV Travel Shop started in June 2001 and is now received by 22 million households in Germany, digitally via the Astra satellite as well as via the cable network in Lower Saxony, Bremen, Hamburg, Schleswig-Holstein, Mecklenburg-Vorpommern, Rhineland-Palatinate, Saxony and Hesse. In addition, the station can be received via cable on selected time blocks around the country.

About Voyages Television:
Television Voyages Ltd. operates the Voyages Channel, which provides viewers with . Headquartered in Hong Kong, the Company maintains studio operations in Mumbai, Taipei and has a new facility under construction in Shanghai. Voyages programming is available in India, Hong Kong and Taiwan on a 24 hour a day dedicated channel and in China on selected blocks. The Company is privately owned.

Indian software company Sonata buys stake in TUI InfoTec

Hanover, 27 September 2006. Sonata, an Indian software company, has bought a 50.1 percent stake of TUI InfoTec, the IT subsidiary of TUI AG, Europe's leading tourism company. TUI will hold a 49.9 percent stake in the joint venture. The deal is still subject to approval by the anti-trust authorities. "Our aim is to offer the services and know-how of the Group's own IT subsidiary TUI InfoTec in future not only within the Group but also externally. The joint venture will enable us to benefit from the marketing and sales experience of Sonata", says Heinz Kreuzer, Group CIO of TUI AG and managing director of TUI InfoTec. He adds: "By opening up to the outside market and by entering into this joint venture we are creating long-term prospects for our employees." Sonata sees big growth potential in Germany. Entering into this joint venture the company gains a strategically important presence on the German market. Sonata is based in Bangalore, India, and has branch offices in the United Kingdom, Singapore and the US. In 2005 the software company achieved a turnover of €85 million with its 1,700 employees.

The integration of Hapagfly and HLX is under way 56 aircraft from the German airlines in the TUI Group will be taking off in summer 2007 – a capacity increase of about 25 percent

Hannover, September 26, 2006

On the way to integrating the two German airlines Hapagfly and Hapag-Lloyd Express (HLX) in the TUI Group the first joint flight schedule will be released on 29 September. Flights can be booked on the internet via a joint platform as well as in travel agencies.

"With the joint flight schedule for summer 2007 we have reached the first major milestone on the path to integrating Hapagfly and HLX," says Christoph Müller, member of TUI's executive board and simultaneously chairman of the executive board at Hapagfly. "The integrated approach bundles the two airlines in terms of cost and capacity aspects, optimises market coverage and assures us growth potential over the long term." To continue operating successfully on the ever-growing low-cost market the new constellation will be increasing its capacity – in terms of available seats – for the 2007 summer season by a good 25 percent.

The new airline grouping has a joint fleet of 56 aircraft, a workforce of some 2,500 and about 11.5 million passengers this year, making it the third largest airline in Germany. Next year it is planned to convey more than13.5 million passengers. The decision about which unitary brand the new constellation will use to present itself will be taken at the latest by the end of October – taking full account of the strengths and weaknesses of the airline brands already in the Group.

The new organisation structure envisages a division of work between flight opera-tions and marketing. "This model allows the controlled migration of Hapagfly as a production unit and HLX as a marketing unit to the new low-cost platform with strong internet sales," adds Müller. Moreover the grouping is making the most of the respective strengths of the two airlines: a quality carrier (Hapagfly) and a suc-cessful marketing and sales concept (HLX). For the new setup Müller is expecting the highest growth in the classic low-cost segment. The aim is to generate some 60 percent of the bookings here and 40 percent through the tour operator business.

TUI becomes the only tourism group in the world to be included in the Dow Jones sustainability index / top marks in the categories biodiversity, ecotourism, protection of the climate and risk and crisis management

Hannover, September 18, 2006

TUI is from 18 September 2006 once again quoted in the Dow Jones Sustainability World Index (DJSI World). This means that the Hannover-based group is the only tourism concern worldwide to be included in the industrial group Consumer Services, subsector Travel & Tourism in the respected sustainability index. TUI also received top marks for, among other categories, biodiversity, ecotourism and protection of the climate and sets the benchmark for its subsector in the area of risk and crisis management.

Dr Michael Frenzel, chairman of the executive board of TUI AG: "Environment and society are value drivers of our Group. Environmental management in TUI has demonstrated a high standard for years, similarly the social standard, where we made significant progress in the scoring." The Dow Jones Sustainability World Index covers the 318 companies of the 2,500-member Dow Jones Global Index that lead in the area of sustainability. The scoring for corporate groups takes account of ecological and social criteria besides economic ones. TUI AG has been a constituting member of the international ethics index FTSE4Good from as far back as early 2004. Moreover, the Group has been represented in the sustainability index ASPI Eurozone since 2001 and the Ethibel Pioneer Index since March 2005.

Since producing the 1st TUI Environmental Report in 1994/95, environmental reporting at TUI has become an integral part of in-house reporting, Group financial information, public relations work and the further development of TUI's environmental strategy.

By integrating the company's economic objectives with a commitment to employees, the environment and society, TUI, at its business locations as well as in the destinations, makes a valuable contribution to improving the quality of life, protecting the natural environment and minimising commercial risks.

The TUI Group is the European market leader in tourism and one of the top five players in global container shipping. It is registered in Hanover and Berlin. The tour operators of TUI trade in 17 European countries and in 2005 sold the Group's products to around 21 million customers. TUI encompasses all in all about 3,200 travel agencies, 7 airlines with more than 100 aircraft and 37 incoming agencies. Its hotel portfolio is made up of 279 hotels with approximately 164,000 beds in 30 countries.

Statement on the meeting of the Supervisory Board of TUI AG

Hanover, 31 August 2006. During a regular strategy meeting held near Salzburg, the Executive Board of TUI AG informed the Supervisory Board of TUI AG about the Group's current and future business situation. The Executive Board and the Supervisory Board discussed the fundamental factors affecting the two divisions, Tourism and Shipping, together with future strategies and alternative courses of action for them.

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

The conference took place against the background of a deterioration in exogenous market conditions in both areas of business, which is currently contributing to unsatisfactory results and an unsatisfactory assessment of TUI AG on the capital markets. Since 2002 the reduction in number of employees in the Tourism division by more than 6,000 employees and savings of €360 million have stabilised the earnings situation, however, was not enough to realise the results targets. With regards to the current competition situation significant price increases are hardly realisable.

The Supervisory Board supports the initiatives which have been presented by the Executive Board to improve profitability in the tourism and shipping divisions in a sustainable way. The essential initiatives include a **reorientation of the management structure,** with the management of Tourism for all source markets and the Aviation and Internet units being centralised under Board Member Peter Rothwell. In addition, operational competence in the management holding company will be strengthened by the appointment of Christoph Müller as a Member of the Executive Board responsible for Controlling. Bart Brackx will in future be Divisional Director with responsibility for the source market West.

In order to ensure that result targets in the Tourism division are met, even though margins remain under pressure, **further efficiency improvements** are being realised. This includes pushing ahead more vigorously with the cost-cutting programmes that have already been initiated in all source markets and the accelerated expansion of the internet business.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Furthermore, it has been decided to integrate TUI's two German air carriers, Hapagfly and Hapag-Lloyd Express. Further strategic options in the German aviation market are being examined.

In the Group's Shipping division, the **integration** of CP Ships into Hapag-Lloyd is proceeding more rapidly than originally expected and has revealed additional potential for enhanced earnings, so that the Group is now realising a major part of the synergies of €220 million a year already in 2007.

TUI AG
Investor Relations

Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

In addition, first steps to reduce the amount of **tied-up capital** in the Group and the **costs of central functions** have been decided. Furthermore, **financial reporting** is to be reorganised.

Details will be determined by December, when next years' planning is adopted, and will be announced in due time.

After extensive consultation the Supervisory Board and the Executive Board agree that the current structure as a two-pillar Group generates value for the shareholders through the integration of CP Ships. A separation of Hapag-Lloyd during the current cyclic sector down-turn would jeopardise value. This cannot be in the interest of the Group's shareholders and employees. Should external conditions change, the Executive Board will present the Supervisory Board all aspects of a portfolio change.

Supervisory Board appoints Christoph Müller as TUI AG Executive Board member / Bart Brackx will be in charge of business operations in source market Western Europe

Hanover, 31 August 2006. At its regular strategy meeting, TUI AG's Supervisory Board appointed Christoph Müller as member of TUI AG's Executive Board with effect from 1 September 2006. Müller (44) will be in charge of controlling. Transitionally, Müller will be responsible for the operative management of the two German airlines Hapagfly and Hapag-Lloyd Express..

Sebastian Ebel (43) will withdraw from TUI AG's Executive Board by mutual agreement. Ebel, previously responsible for controlling and the tourism platforms, has asked the Supervisory Board for premature termination of his contract as of 31 August 2006.

In addition, Bart Brackx (44) was appointed new divisional director in charge of source market Western Europe (France, Belgium, Netherlands) at yesterday's Supervisory Board meeting. Brackx started out his career in the tourism division and currently manages the business operations of both the TUI tour operators and the TUI airline Jetairfly in Belgium. Eric Debry, previously in charge of source market Western Europe, will leave the TUI Group as of 31 August 2006.

If we comment on forecasts or expectations in this announcement or if our statements relate to the future, these statements may be associated with known and unknown risks and uncertainties. Actual outcomes and developments may, therefore, deviate significantly from the expressed expectations and assumptions. In addition, the performance of financial markets and exchange rates as well as national and international law amendments, particularly with regard to tax regulations, may have an influence. TUI presents International Environmental Award on the Adriatic island of Lošinj to INSULA International Scientific Council for Island Development

Hanover/Mali Lošinj, Croatia, August 30, 2006

TUI presents its International Environmental Award to the International Scientific Council for Island Development (INSULA) for its exceptional and pioneering work in the area of sustainable island development. The award is accompanied by prize money of 10,000 euros. TUI awards the prize in recognition of the long-standing successful commitment of INSULA for fundamental contributions to the sustainable development of islands, especially as holiday destinations.

Dr. Michael Iwand, Director Group Corporate Environmental Management at TUI AG, recognised the long-standing cooperation with INSULA in his laudation on the Croatian Adriatic island of Mali Lošinj: "Islands and island states hold paramount significance for TUI. Since 1995 TUI and INSULA have jointly and internationally advanced the economic, ecological, social and cul-tural core issues of sustainable tourism development on islands."

In close collaboration with UNESCO, INSULA strengthens the capacity to improve the quality of life of island inhabitants and increases their opportunities for a sustained future. Through an international network comprising a wide range of different scientific experts the active ability to act and technical cooperation are pro-moted to the benefit of islands. "We are very proud of that significant recognition by TUI, the world's leading tourism group with a strong dedication to the environment and sustainability, and we truly cherish it," stated Dr. Anamarija Margan, President of INSULA, during her speech of thanks also on the island of Lošinj.

The TUI International Environmental Award, which was presented for the first time in 1991, is awarded to environmental protection and nature conservation organisations or outstanding interregional initiatives which decisively and in exemplary fashion contribute to the protection and conservation of nature and the environment and to sustainable development in the holiday destinations of the World of TUI.

Past prize winners have included local environmental initiatives in Turkey, Greece, Kenya and Minorca, along with the "Blue Flag" campaign conducted by the Foundation for Environmental Education (FEE), the CIPRA Alpine Commission, EUROPARC, the Federation of European National and Nature Parks, the Instituto de Turismo Responsable (ITR) and the Loro Parque Fundación on Tenerife, Canary Islands.

Information:
The INSULA International Scientific Council for Island Development founded in 1989 and based in the UNESCO building in Paris is an international non-profit non-governmental organisation. With a network of diverse

research institutes and ex-perts INSULA pursues the goal of contributing to the economic, social and cultural progress of islands throughout the world and of promoting the protection of their environment and their sustained development. INSULA cooperates with the EU Commission, UNESCO and other prominent international organisations.

TUI achieves 15.4 per cent turnover growth in Q2 / Increase in earnings by tourism / Considerable decline in earnings by shipping

Hanover, 10 August 2006. TUI AG has significantly increased its turnover in the second quarter of 2006. In the second quarter, turnover by the tourism division grew by 4.3 per cent to 3.64 billion euros (2005: 3.49 billion euros). Due to the integration of CP Ships, turnover by the shipping division rose by 109.8 per cent to 1.61 billion euros (2005: 765 million euros). At 5.3 billion euros, turnover by the continuing operations (tourism, shipping and central operations) thus climbed by 22.1 per cent year-on-year (4.34 billion euros). Overall, Group turnover totalled 5.42 billion euros, up 15.4 per cent year-on-year (4,7 billion euros).

www.tui-group.com

'The second quarter was characterised by a positive trend in tourism and a negative freight and cost development in shipping, the scope of which had not been expected', says TUI's CEO Dr Michael Frenzel. While the tourism division improved significantly, earnings by the shipping division were considerably down. In the second quarter, tourism increased its earnings (EBITA) to 152 million euros (2005: 116 million). In shipping, in contrast, earnings dropped substantially to -41 million euros year-on-year (91 million euros). Earnings comprised one-off expenses of 30 million euros for the integration of CP Ships. Overall, TUI reports earnings of 89 million euros (2005: 204 million euros) for the continuing operations in the second quarter. Adjusted for the earnings of disposals and the cost of the integration of CP Ships, earnings by divisions totalled 111 million euros in the second quarter of 2006 (previous year 215 million euros).

Frenzel stresses the fact that the tourism division has improved in particular in the Central and Northern Europe sectors. This was due to the three factors price quality, integrated control system and the seasonal effect of Easter falling into the second quarter this year. Earnings increased by 78.4 per cent to 66 million euros (2005: 37 million euros) in the Central Europe sector and by 13.2 per cent to 43 million euros (2005: 38 million euros) in the Northern Europe sector. Frenzel: 'Our strategy said price quality before volume growth. And this strategy has worked.' At Group level, booked tourism turnover is up 0.6 per cent year-on-year and customer numbers are up 2.3 per cent.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Despite this slight increase in bookings the integrated control system has led to higher occupancy rates for group-owned airlines and hotel companies. 'This proves, once again, that our integrated model works well,' says Frenzel. In contrast, the earnings trend in the Western Europe sector is not yet satisfactory, with still negative but slightly improved quarterly earnings of -3 million euros (2005: -5 million euros).

The development in the shipping division was characterised by declining freight rates and high costs. In particular the oil price-induced drastic increase in bunker costs had a negative impact. Operating earnings therefore dropped significantly year-on-year. Without the high one-off restructuring costs half-year earnings would have been positive. TUI's CEO upholds his positive assessment of the status of the integration of CP Ships. Frenzel says: 'The integration process is currently progressing faster than originally expected and has shown additional earnings enhancement potential. Instead of the originally expected earnings improvements of 180 million euros as of 2008, we are now aiming to achieve synergies of 220 million euros. Most of these synergies shall be realised already in 2007.'

Outlook

TUI's CEO Frenzel expects the development of earnings (EBITA) by the tourism division to improve in the 2006 financial year. The Central Europe sector is expected to generate significantly higher earnings, despite one-off expenses incurred for the current efficiency programme. In the Northern Europe sector, earnings in the UK will benefit from the restructuring programme implemented in 2005 and improvements in flight operations. The Western Europe sector is also expected to create an improvement in earnings.

In shipping, earnings in the 2006 financial year will be influenced by the integration of CP Ships into Hapag-Lloyd Container Linie. Most of the integration costs of around 100 million euros will be incurred in 2006. Although volumes are developing positively it is expected that the shipping division will fall significantly short of last year's high earnings.
Under the current external business conditions TUI assumes that the shipping division will still be able to generate positive earnings in the full year.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

The debt situation has developed positively. In spite of the acquisition of CP Ships the level of debt could be improved compared to last year and was reduced to 2.9 billion euros.

From today's perspective TUI AG aims at dividend continuity.

Detailed overview of Q2

Tourism

In the second quarter, the **Central Europe** sector (Germany, Austria, Switzerland and airlines Hapagfly and Hapag-Lloyd Express) recorded an increase in customer numbers of 11.8 per cent to 2.99 million (2005: 2.67 million). The development of business in Germany contributed essentially to the turnover growth by the sector. In the second quarter, turnover grew by 9.9 per cent to 1.55 billion euros

(2005: 1.41 billion euros). Earnings rose significantly year-on-year. In the second quarter, they totalled 66 million euros, up 78.4 per cent year-on-year (37 million euros).
This development was due to the fact that Easter was in mid-April and thus fell into the second quarter this year. The tour operation business associated with the Easter break therefore shifted into the second quarter in comparison with 2005. Moreover, income from two aircraft sale-and-lease-back contracts of 10 million euros was generated; at the same time, however, expenses of 11 million euros were incurred in the framework of the restructuring programme for efficiency enhancement.

In the **Northern Europe** sector (UK, Ireland, Nordic countries and airlines Thomsonfly (charter and scheduled flights) as well as TUIfly Nordic), the number of customers travelling with tour operators in this sector totalled 1.88 million in the second quarter, down 3.6 per cent year-on-year (1.95 million). Turnover, in contrast, rose due to an increase in prices of tours offered by tour operators and totalled 1.24 billion euros in the second quarter (2005: 1.23 billion euros). Due to the overall good performance of the UK, earnings by the Northern Europe sector increased. The restraint in bookings related to the Soccer World Cup was offset partly by an improvement in the performance of Thomsonfly. In the second quarter, earnings grew by 13.2 per cent to 43 million euros (2005: 38 million euros).

In the **Western Europe** sector (France, Belgium, Netherlands and airlines Corsair, TUI Airlines Belgium, TUI Airlines Nederland), the number of customers was 1.14 million in the second quarter (2005: 1.14 million) and thus matched 2005 levels. Turnover climbed by 6.6 per cent to 711 million euros in the second quarter (2005: 666 million euros). Earnings by the Western Europe sector were – 3 million euros in the second quarter and thus rose year-on-year (- 5 million euros). The development of earnings was affected in particular by the weaker business in France, where demand in the travel market was impaired by the persistently difficult market environment. This was mainly due to the Chikungunya fever in Réunion. Demand for this long-haul destination, which is relevant for tour operator Nouvelles Frontières and airline Corsair, declined strongly. In addition, there was an overall restraint in bookings due to the Soccer World Cup.

Turnover in the **destinations** sector (incoming agencies and hotel companies) climbed to 137 million euros (2005: 121 million euros) in the second quarter. Earnings by the sector totalled 38 million euros in the second quarter, down 13.6 per cent year-on-year (44 million euros). This was due to restrained bookings of tours to Turkey and Egypt. The RIU Group, in contrast, recorded a significant increase in its operating earnings.

Shipping

In the second quarter of 2006, the shipping division achieved turnover of 1.61 billion euros, an increase of 109.8 per cent. This growth resulted from the integration of CP Ships and growth in transport volumes in individual trade lanes. CP Ships contributed 706 million euros to quarterly turnover. The transport volume in the shipping division rose to 1.287 million standard containers (TEU) in the second quarter of 2006. Of this total, 0.792 million TEU were related to Hapag-Lloyd Container Linie and 0.495 million TEU to CP Ships. The average freight rate generated in the second quarter was 1,303 USD/TEU for Hapag-Lloyd, down 1.8 per cent year-on-year (1,327 USD/TEU). This was primarily due to the decline in freight rates in the Far East trade lane, the highest-volume trade lane operated by Hapag-Lloyd. For CP Ships, the rate stood at 1,632 USD/TEU, up 4.1 per cent year-on-year (1,568 USD/TEU).
Compared with the first quarter of 2006, freight rates declined by 0.7 per cent (previous quarter 2006: 1,312 USD/TEU) for Hapag-Lloyd and by 3.0 per cent (previous quarter 2006: 1,682 USD/TEU) for CP Ships.

While turnover grew year-on-year, charter rates rose more strongly than in 2005 and both container lines recorded oil price-induced increases in bunker costs in all trade lanes. Operating earnings therefore declined year-on-year. The cost increases were not offset by the increase in transport volumes. In addition, one-off expenses of 32 million euros were incurred in the framework of the integration of CP Ships in the second quarter of 2006. At – 41 million euros (2005: 91 million euros), earnings by the shipping division were significantly down year-on-year.

Discontinuing operations

Discontinuing operations (trading and, in 2005, special logistics) posted turnover of 123 million (2005: 359 million euros) in the second quarter. The decline was attributable, among others, to the divestments in the special logistics sector in 2005. Following the divestment of the trading activities of PNA in May 2006, TUI no longer has any discontinuing operations.

Note concerning the reporting indicator EBITA

With the beginning of the 2006 financial year, the reporting indicator 'earnings by divisions' was converted to earnings before interest, taxes and amortisation of goodwill (EBITA). The figures reported for the corresponding quarter in 2005 were restated and carried accordingly.

Ad-hoc announcement according to § 15 WpHG (German Stock Trading Law)

TUI AG: TUI releases key figures for the 2nd quarter 2006 and changes forecast for the shipping division in 2006

Hanover, 9 August 2006

Key figures for the 2nd quarter 2006

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425

investor.relations@tui.com
www.tui-group.com

The TUI Group has increased turnover by the continuing operations to 5.3 billion euros (previous year 4.3 billion euros) in the second quarter 2006. Earnings by the continuing operations (EBITA) dropped to 89 million euros (previous year 204 million euros). Whilst the tourism division improved earnings to 152 million euros (previous year 116 million euros), earnings at the shipping division were significantly lower than expected at -41 million euros (previous year 91 million euros). This development was due to the expected one-off costs for the integration of CP Ships into Hapag-Lloyd as well as lower freight rates and oil price-induced higher costs which could not be offset by an increase in transport volumes.

Change of forecast for the shipping division in 2006

As the aspired increase of freight rates in the second quarter and in July 2006 could not fully be realised, the aggravated cost situation will also negatively impact earnings in the second half of the year, in particular due to higher bunker costs and the cost of land-based transport. Therefore, TUI now expects the shipping division to undercut significantly the high earnings levels of the previous year. From today's perspective, given the current external framework the shipping division is still expected to generate positive earnings despite high one-off integration costs.

In tourism it is still expected that earnings for the financial year 2006 will be higher year-on-year. This also applies even excluding the effect of the positive gain from the disposal of the business travel activities.

Overall, earnings (EBITA) for the continuing operations (tourism, shipping and central operations) in 2006 are expected to decline year-on-year.

TUI Deutschland: presentation of winter brochures 2006/2007

TUI Deutschland: positive earnings development / holiday prices remain stable in the winter season / strong product expansion in long haul holiday segment / dynamic flight prices for Spanish mainland / planned TÜV certificate for travel agencies

Hanover, Antalya, 28 July 2006. TUI, Germany's leading tour operator, is expecting a good earnings result this year in its home market despite a slight downturn in sales for the ongoing summer season. According to TUI Deutschland CEO Dr Volker Böttcher, this is due to a strategy based on stable sales prices. "For us respectable profit development is more important than volume growth," says Böttcher at the launch of TUI's winter brochures in Turkey. Compared with last year TUI is currently registering growth of 3.6 per cent in the number of customers. Booked turnover is currently 1.7 per cent down compared to last year's figure. The strong growth of low-fares airline Hapag-Lloyd Express accounts for the improvement in customer figures. For the winter season starting on 1 November Böttcher announced the introduction of dynamic pricing for the Spanish mainland and a quality initiative in the travel agencies. The prices for holidays in the most important sun and beach winter destinations, Egypt and the Canary Islands, will be slightly lower compared with the previous year.

Capacity adjustment and stable prices mean improved aircraft load factors

The head of TUI Deutschland pointed out that a moderate capacity planning was being implemented during the current summer season. The aim is to achieve higher occupancy rates for group hotel beds and aircraft seats. Böttcher: "What is crucial is not the incremental increase in turnover or market share but what is left over at the end." The improvement in the load factor for TUI's own airline is currently about 2 percentage points higher than last year. "Assuming external factors don't spoil developments, we will deliver respectable profits at the end of the year," adds the head of TUI Deutschland.

Winners this summer season: Italy, Spain, long haul holidays and city breaks

The traditional holiday countries are particularly popular with Germans in the ongoing summer season. In the medium-haul flight segment the winner this year is Italy with a gain in guest volume of some 25 per cent and Malta with an increase of six per cent. The two major Spanish destinations, the Balearics and the Canary Islands, managed to improve on last year's very high guest-figures with growth of one per cent. Böttcher stressed that the growth in sales for TUI's two most important destinations is currently stronger than growth in the number of guests. Equally positive is the development of holidays in Germany itself. For holidays and travel in Germany TUI is registering an increase in bookings of some 22 per cent. TUI Deutschland CEO Böttcher regards the strategy in long-distance holidays and city breaks as a success story. Both travel segments are currently booming and are being further developed by TUI systematically. Compared with the previous year the number of city breaks has risen by about 20 per cent. The long haul holiday segment is now growing at about 29 per cent. Particularly outstanding is the development of the Southeast Asian destinations such as Thailand (+198 per cent), Maldives (+60 per cent) and Sri Lanka (+44 per cent). TUI Deutschland will be expanding both the city breaks as well as the long haul holiday segments further in its winter programme, generating further growth.

The losers this summer season include the North African countries and Turkey. Böttcher ascribed this to the avian flu and the cartoon controversies. "Precisely at the crucial early booking time at the start of the year, when families with school-aged children decide where to go, avian flu and the cartoon controversies dominated the media. That had a negative impact on the booking situation."

Winter holiday prices stable / Holiday on the Canary Islands cheaper

The price development for the coming winter season is quite differentiated. Taking all holiday segments into account prices remain stable. Böttcher: "The good news for sun worshippers is: holidays in Egypt, Turkey and the Canary Islands will be cheaper than last year." Accordingly, the prices for holidays in Turkey have dropped by three per cent and in Egypt and the Canary Islands by 1.5 per cent. The Canary Islands and Egypt account for almost a quarter of all bookings for the winter season. Holiday trips using private cars are getting slightly more expensive owing to the increase in value

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

added tax. Holiday travel in Germany costs on average two per cent more. In the winter sports destination Austria prices are up by some 2.5 per cent. On the other hand, in the long haul holiday segment travel prices are subject to more significant rises. "This is where the jet fuel price, which remains at a record level, is making itself felt," says Böttcher. As a result the price of holidays is up three per cent on Mauritius, seven percent in Vietnam and eight percent in Kenya.

In the coming winter season TUI is again counting on the attraction of wide-ranging early booker discounts. There are basically three ways of benefiting from the early booker reductions. The first 50,000 customers receive a 50 euro extra discount as a reward for booking early. In addition, TUI also offers the so-called target-date-based early booker discount for almost all beach hotels and most circular tours – the amount varies, depending on the hotel and destination. As a rule these early booker benefits apply to bookings made by 31 October at the latest. For all those who cannot decide by this deadline TUI has – and this is exclusive – the 60-day price discount. Some 230 hotels offer early booker discounts on the basis of booking the holiday at the latest 60 days before the start of the holiday trip. Both the target-date-based early booker discount and the 60-day can be combined with the 50-euro extra discount. For those who make up their minds early this can translate into savings of, for instance, up to 175 euros per person per week for a holiday on Grand Canary.

Dynamic flight prices announced for the Spanish mainland

For the Spanish mainland TUI is launching a novelty on the tour operator market. For the first time holidaymakers can benefit from the changing ticket prices offered by the airlines on package holiday flights, e.g. to the Costa del Sol. The background for this new product is the significant change in customer behaviour. "For the south of Spain the share of component-based holidays already makes up sixty per cent," says Böttcher. With regards to flight-only offers these holidaymakers are already accustomed to more favourable prices when booking early and higher prices for making a booking at short notice. TUI will be bundling the actual ticket prices from the airlines for a particular day with a hotel arrangement to create a package. The basic prices for packages will continue to be shown in the brochure. Böttcher: "With dynamic flight prices the basic prices may drop by as much as 100 euros." At the same time, taking too long to decide to make a booking can also mean that a holiday

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

becomes more expensive, especially if the price for the flight ticket rises due to high demand.

Major product expansion in the long haul holiday segment

In the coming winter season, TUI is continuing its long-distance holiday strategy with another major expansion. New to the programme are, for example, separate brochures for holiday destinations in the Indian Ocean and Latin America, as well as a special "stars brochure" for long-haul destinations.

TUI is bundling the best holiday hotels in the world for upmarket customers in this brochure. New destinations for the winter season include Zanzibar and Rwanda in Africa, Borneo in Malaysia and Tierra del Fuego with Cape Horn in South America. In addition to the classical package and component holidays, TUI has, compared with the previous year, expanded above all the circular tour and discovery packages. New, for example, is a safari following the trail of the mountain gorillas of Rwanda or an adventure trip on the Pan Americana road from Panama to South Argentina.

Quality initiative for travel agencies

TUI has announced a quality initiative for more than 1,000 of its travel agencies in Germany. Following the launch of the first internal quality programme, the travel agencies are going through a certification process operated by TÜV Süd. Since April they are being tested for, e.g. technical competence, advisory skills, and customer satisfaction. The test, specially developed by TÜV Süd, lasts many hours and includes anonymous test purchases and surveying 10,000 TUI customers. "We are the quality leaders on the German market and are committed to our quality claim. Holidays start with the booking in the travel agency and we want to be the best here, too," says TUI Deutschland CEO Böttcher. The results of the tests by TÜV Süd are expected in the middle of August.

TUI
Aktiengesellschaft

http://www.tui-group.com/en/pressemedien/press_releases/2006/20060626_Pay_agreement.html

Pay agreement reached between German TUI Airlines and pilots' association "Cockpit" Negotiated result paves way for future growth in Germany

Hanover, June 26, 2006

Pilots of the airlines Hapagfly and Hapag-Lloyd Express have accepted a new remuneration package. Some 75 percent of the members of pilots' association "Cockpit" voted in favour of the package. The voting turnout was almost 91 percent.

"I am very pleased that this settlement will now enable us to grow based on a competitive cost structure," said Christoph Mueller, Flight division chairman of TUI AG and chairman of the Hapagfly board.

The agreement, which is valid till 31 December 2008, centres on a uniform salary scale for all pilots flying for the charter airline Hapagfly as well as the low-cost airline Hapag-Lloyd Express (HLX). The new remuneration package will give all cockpit crew salary increases with a simultaneous increase in efficiency.

This agreement lays the foundation for further growth of the two German TUI airlines. For 2007 the fleet of currently 50 aircraft will be enlarged by at least three Boeing 737-700s. The extra aircraft are to be operated on HLX routes.

TUI Deutschland optimises its distribution and production structures

Hanover, 14 June 2006. TUI aims to enhance the efficiency of its distribution and production structure in order to further boost its competitiveness in Germany and thus expand its market leadership. The key measure involved is the merger of its tour operation and distribution activities into a single powerful marketing entity. In future, all high-volume brands (TUI, 1-2-FLY and Airtours) as well as distribution will be operated under one central organisation. Therefore,, a legal merger of the 1-2-FLY, Airtours International and TUI Leisure Travel Management companies will take place 'Both the planning, production, control and marketing of all brands will then be managed by one single management body. This will enable us to leverage synergies, respond significantly faster to market changes and offer the market even more selective products', says Dr Volker Böttcher, head of TUI Deutschland.

TUI AG

investor.relations@tui.com
www.tui-group.com

Up to 400 jobs will be cut in the framework of the new structure. The first stage of the personnel reduction scheme will largely affect the top and middle management levels at TUI Deutschland GmbH. The job losses are intended to be effected in a socially compatible way. As Böttcher points out: 'We will identify further synergy potential following the completion of the merger. At the end of the process, the entire organisation will be considerably leaner and more efficient. This will make us more powerful and will put us in a position to meet the challenges of the future'.

TUI had already started to launch the strategic restructuring of its business in Germany at the beginning of the year. 'The measures now initiated in Germany are part of our Group-wide cost reduction and efficiency enhancement programme in TUI AG's tourism division', emphasizes TUI's CEO Dr Michael Frenzel. Following an optimisation of business processes in the UK market in 2005, TUI now focuses on its business in Germany, as had already been announced at the Annual General Meeting in early May. Frenzel: 'By 2008, the progressive implementation of the entire set of measures will result in total efficiency and cost improvements worth around 210 million euros for the Group, including around 50 million euros generated in the German market'.
In future, the management of TUI Deutschland will comprise three members.
Dr Volker Böttcher, the head of TUI Deutschland, will be in charge of the high-volume

business (traditional sun & beach holidays). Henrik Homan, the head of finance TUI Deutschland, will also be in charge of the specialty business (long-haul tours, city breaks, self-drive tours, self-catering holidays). Christoph Müller will continue to be in charge of the airline business in the source market. In addition, the operative business will be managed by four operational heads. The purchasing, product and brochure production operations will be managed by Ralf Horter.

Dr Ingo Burmester will be in charge of pricing, control and marketing, besides his functions at Hapagfly. Hasso von Düring will be in charge of all distribution operations in Germany. These three managers will directly report to Dr Volker Böttcher. The activities in the so-called specialty business will be managed by Kirsten Feld-Türkis, who will directly report to Henrik Homan. TUI AG's two German airlines will continue to be managed by Christoph Müller (Hapagfly) and Roland Keppler (Hapag-Lloyd Express), as before.

http://www.tui-group.com/en/pressemedien/press_releases/2006/20060529_Environment_Award.html

TUI presents International Environment Award in Tenerife to the Instituto de Túrismo Responsable and the Loro Parque Fundación

Hanover/Tenerife, May 29, 2006

This year's TUI International Environment Award goes to two organisations in Tenerife. The accolade, which is accompanied by a prize worth in each case 10,000 euros, is awarded to the Instituto de Túrismo Responsable (ITR) and the Loro Parque Fundación. "Both initiatives in their own special way protect nature and the environment, biological and cultural diversity, and therefore directly and indirectly benefit this island and its population, increasing the future opportunities for Tenerife," stated Dr. Michael Iwand, Director of Group Environmental Management at TUI AG, praising the commitment and efforts shown by the two prizewinners.

In his speech at the presentation of the award in the capital of Tenerife he singled out the ITR's programmatic approach to the biosphere, its system of continuous improvement for holiday hotels and its extremely effective international dialogue on tourism, sustained development and cultural diversity at world level as reasons for its receipt of the award. He continued that the Loro Parque Fundación deserved the accolade in particular for its worldwide projects and domestic research programmes on the protection and maintenance of threatened species and biological diversity. Exceptional private financial expenditures had made this possible, along with masterful communication and educational efforts in connection with sustained quality tourism.

TUI's International Environment Award, which was conferred for the first time in 1991, is presented to environmental and nature protection organisations or outstanding interregional initiatives which make a decisive and exemplary contribution to the protection and maintenance of nature and the environment in World of TUI holiday destinations. Past prizewinners have included local environmental initiatives from Turkey, Greece, Kenya and Minorca, as well as the "Blue Flag" campaign conducted by the Foundation for Environmental Education (FEE), the International Commission for the Protection of the Alps CIPRA, and EUROPARC, the Federation of Nature and National Parks of Europe.

High level of attendance at TUI AG Annual General Meeting
All items on the Agenda passed with strong majority

Hanover, Germany, 10 May 2006. Today's 47th Annual General Meeting of the Group held in the Congress Centrum Hannover was attended by approximately 3.200 shareholders and shareholder representatives as well as 255 guests and members of the press. They represented 94,615,075 shares corresponding to capital of 241,268,441.25 euros (37.74 percent).

The Agenda included the new election of the Supervisory Board. The Chairman of the Supervisory Board, Dr. Jürgen Krumnow, former member of the Executive Board of Deutsche Bank AG, was confirmed in office for five years. All shareholder representatives were also confirmed in office. As new members of the Supervisory Board the Annual General Meeting elected Jean Claude Baumgarten, President of the World Travel & Tourism Council, and Sepp Dieter Heckmann, Chairman of the Executive Board of Deutsche Messe AG.

The resolution to amend the object of the company in order to reflect the increased significance of the shipping business was approved, as were the applications to create approved and authorised but unissued capital for future capital measures. This was followed by the anticipatory resolution to issue convertible and/or warrant bonds, profit participation rights and/or profit-sharing bonds. In addition, the Executive Board was authorised to purchase own shares in accordance with Article 71 para. 1 No. 8 of the Stock Corporation Act (Aktiengesetz). The amendments to the Articles of Association (voting in the Supervisory Board and restructuring of Supervisory Board remuneration as from the 2006 financial year, change in the period of notice for convening the Annual General Meeting and authorisation of the Chairman of the Meeting to restrict time-wise the right of a shareholder to raise a question or to talk) were likewise passed by a strong majority.

Other items on the Agenda included the presentations of the adopted annual financial statements for the 2005 financial year with the management report as well as the consolidated accounts, the management report on the Group and the report of the Supervisory Board. Resolutions were then passed on the employment of the unappropriated profit and the discharge of the Executive Board and Supervisory Board from responsibility. Finally, PwC Deutsche Revision Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover, was appointed by the Annual General Meeting to audit the financial statements for the 2006 financial year.

TUI expects higher synergy effects through the integration of CP Ships / Prospect of doubling the shipping result by 2008 / Further investment in own hotels / Sale of steel trading activities completed

Hanover, 10 May 2006. At today's annual general meeting in Hanover, Dr. Michael Frenzel, Chairman of the Board of TUI AG, Europe's leading tourism and shipping group, said that the Group is expecting noticeably increased synergy effects from the integration of CP Ships. "The integration of the CP Ships business in Hapag-Lloyd AG is progressing at a faster rate than expected. We are sure that we will be able to considerably accelerate the integration process", Frenzel said.

Shipping revenue to increase to approximately 650 million euros by 2008

Frenzel is confident that the new Hapag-Lloyd AG will be able to double its earnings by 2008. "Shipping will develop into the second strong pillar for our Group over the next few years" he said. At the same time the TUI boss repudiated criticism that the price paid for CP Ships was too high and that the company was acquired at the wrong time. "The tough competition dictated the time of the acquisition and despite this we did not pay any unreasonable strategic premiums". He continued: "With the expansion of the shipping business, we are reducing the volatility of our results and creating a more balanced earnings structure for the Group."

2006 will be a transitional year for TUI's shipping division in which the integration will be largely completed. Approximately 80 million of the estimated 100 million euros of integration costs will be incurred this year. This means that the integration will be completed more quickly than initially expected. "As things stand we are now expecting synergy effects of 220 million euros from 2008 onwards instead of the 180 million euros originally planned", Frenzel said. In the medium term with stable general conditions the TUI boss believes an earnings level of approximately 650 million euros to be realistic for the shipping sector.

Earnings target for tourism confirmed / Investment in new hotels

In his speech to shareholders TUI boss Frenzel confirmed the earnings target of the Group's tourism division. "A year ago I presented you with an earnings target of approximately 700 million euros for 2008. This is still very much our target". Frenzel

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

referred to numerous cost saving and efficiency improvement measures to achieve this target. The step-by-step implementation of the measures will result in cost savings of approximatley 180 million euros and around 30 million euros from improved efficiency by 2008. Following optimisation of the business processes on the British market in 2005, TUI is now focusing on business in Germany. According to Frenzel "The 'Pelican' programme decided last year is being implemented according to schedule and is progressing well." Measures to improve efficiency will also focus on the two German airlines Hapagfly and Hapag-Lloyd Express. "The two airlines Hapagfly and HLX can hold their own against European competition thanks to their close ties with tour operators", Frenzel said. The TUI boss went on to say that the cost situation in the airline sector, too, must nevertheless be adjusted to the competitive situation. Measures to reduce material and personnel costs have already been initiated with the aim of reducing the costs for Hapagfly in Germany sustainably by around 30 million euros.

The Chairman of the TUI Board expects the low-cost airlines in Germany and the UK and the development of innovative new products to yield further increased earnings potential of 120 million euros by 2008. Here, TUI is focusing on the extension of modular production and market leadership in online sales. Frenzel said "We are confident that, in spite of the changing markets, we can increase our market leadership as a globally active, internet-based travel company."

Frenzel announced further investments in the hotel sector. By 2008 the TUI Hotels & Resorts division, already Europe's largest holiday hotel operator, plans to add more than 25,000 new hotel beds. The expansion of the hotel business and incoming agency business will generate additional earnings of 40 million euros.

Frenzel admitted that economic fluctuations and political tension can have an impact on travel plans, however, he said that "Overall, we feel that we may well be able to continue to grow profitably over the next few years and to reach our goal of doubling earnings in the tourism division by 2008".

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Successful sale of steel trading activities

During his speech, Frenzel announced that the sale of the US steel trading activities was successfully completed on 9 May 2006. He did not mention the sale price. The divestment will have a positive impact on the result at the end of the first half-year, and in particular will bring about a substantial further reduction in TUI AG's net debt. The PNA Group Inc. was sold to the US-based financial investor Platinum Equity.

Continued dividend of 77 cents per share proposed

At the annual general meeting Frenzel proposed leaving the dividend unchanged at 77 cents per no-par value share. "This means that we will keep a high dividend level", the TUI boss said.

Executive board chairman

TUI AG

Annual General Meeting

10 May 2006

Hanover

- Check against delivery -

Dear Shareholders,
Ladies and Gentlemen,

Welcome to the TUI AG Annual General Meeting. We are delighted that so many of you could come to Hanover once again this year.

2005 has been a very eventful year for TUI. We have achieved very much, but have not yet arrived at our desired destination. Allow me to begin with an overview of the milestones of the past year:

The main event of 2005 was the acquisition of CP Ships. By purchasing this company, we extended our highly profitable shipping activities and established two strong pillars for the Group. I will come back to this in detail later on. Parallel to this purchase, we were able to optimise our equity position and our financial structure on a sustainable basis:

following the successfully placed capital increase of Euro 1 billion, we were able to increase our equity ratio to 28.5 per cent . I would like to thank those who subscribed to the new shares for their confidence in us. In particular, I would like to emphasise at this point that our Spanish shareholders – the RIU Group, Caja de Ahorros del Mediterraneo and Mr. Matutes' Fiesta Group – who together represent approximately 13 per cent of TUI's equity, and whose interest in TUI is primarily related to tourism, contributed to the capital increase in line with their equity holdings and expressly endorse the strategic development of TUI into a "two-pillar Group".

This, together with the three bonds in the amount of Euro 1.3 billion that were placed successfully following the capital increase, has rendered the Group more "weatherproof". We are now fully financed in the long term and less susceptible to future changes in interest rates. A positive result of this is the credit rating that was assigned to us for the first time during the past year. With this rating, we offer our investors a reliable basis for their investment decisions.

In addition to the sale of the rail logistics business, the year's milestones included the sale of our TQ3 business travel interests, concluded in the first quarter of 2006. This was necessary in the light of the continuing consolidation of this market. TQ3 was not a core business and on our own we were too small – and this in turn led to a real risk of our profitability in this sector being eroded. As can be seen from the quarterly results that were published yesterday, we received a highly attractive price that will have a very positive impact on our overall result for 2006.

Ladies and Gentlemen, you can see that there were many positive developments over the past year. All of this would not have been possible without the committed efforts of our staff, whom I would like to thank – also on your behalf.

That completes the overview – let us now turn to the expansion of the shipping division.

What were our reasons for taking such an important step for the Group?
With this acquisition, we are developing a second division – shipping – that is every bit as strong as the existing tourism division. In recent years, our container shipping business has proved itself to be both profitable and capable of high growth.

In spite of the temporarily difficult market situation in 2002, the company was still able to generate good results.

Over the past few years, we have been able to improve productivity in the container shipping business on a continual basis. Today, there is no doubt that Hapag-Lloyd is one of the most productive and profitable players in the sector.

Since acquiring Hapag-Lloyd in 1997, we have almost doubled our fleet through investments in new ships. With the purchase of CP Ships, Hapag-Lloyd has now moved to the top of the global table.

However, this was not driven by a desire for size, but rather by the expectation that we would be able to significantly improve our profitability in the shipping division.

CP Ships is an excellent company with a well-structured, modern fleet which is complemented perfectly by Hapag-Lloyd.

Owing to its historical business development, CP Ships still has considerable productivity potential that is as yet untapped.

Through the integration of the CP business in Hapag-Lloyd, we will increase the productivity of CP to match the level of Hapag-Lloyd. The integration is progressing at a faster rate than expected. According to current figures, we now expect positive synergy effects of Euro 220 million rather than Euro 180 million as originally estimated. In addition, we are certain that we can accelerate the integration process substantially, and that the key measures will be completed by the end of this year.

If we are able to predict the positive synergy effects with confidence, this is because these effects relate only to controllable cost and efficiency improvement measures. Half of these synergies are attributable to personnel costs and the other half to savings in material costs. Through the integration in the international Hapag-Lloyd network, we were able to reduce the workforce at CP Ships by approximately 2,000. These job reductions were spread widely across the continents. In Hamburg, where we are adapting the Hapag-Lloyd headquarters to cope with the increased volumes, we will create 100 new positions. Incidentally, it is characteristic of the job situation in the UK that we were not able to fill the majority of new positions with staff from the UK to whom these had been offered.

Ladies and Gentlemen, over the next few years, we will see the shipping division develop into a second strong pillar for our Group – I am wholly convinced of this.

The profitability of the CP Ships business, the expected synergy effects and further organic growth will lead to a significant growth in earnings in 2007 and the following years. Based on the level of earnings in 2005, we expect the new Hapag-Lloyd to be able to double its result by 2008.
And, Ladies and Gentlemen, I would like to add that CP Ships was neither bought at too high a price nor acquired at the wrong time. The acquisition date was predetermined, we were in competition and yet did not pay any unreasonable strategic premiums, but rather focused on the expected profitability of the company without taking into account most of the synergies at that stage.

For the container shipping business, 2006 is a transition year in which the integration process will be largely completed. Some Euro 80 million of approximately Euro 100 million in integration costs will be incurred this year. The impact of the synergy effects will be seen in 2007 and 2008 and there will be a clear increase in earnings in the shipping market, which itself will continue to grow.

To recap:

through the expansion of the shipping business, we have focused Group activities on two strong pillars, tourism and shipping.

This is not a change in strategy, but is rather the systematic continuation of our growth course with Hapag-Lloyd. Since September 2001, our core business – tourism – has become increasingly volatile.

There has been no year in which natural disasters or political unrest have not left their mark on our business. With the expansion of the shipping business, we are reducing the fluctuation of our results and creating a more balanced earnings structure. In short, two pillars are steadier than one.

Our strategy, which is based on this structure, is very clear: the primary objective is to continue to increase the profitability of the Group substantially. This means increasing our earnings in absolute terms, it means creating a balanced earnings structure for tourism and shipping and it means significantly increasing our free cash flow from the larger shipping business.

At this point, I would like to say a few frank words on the share price performance. For all of us – not only for you as our shareholders, but also for my colleagues and myself on the Executive Board – last year's share price performance was somewhat less than satisfactory. We were not able to match the positive development of the Dax. To a certain extent, this is due to technical reasons, such as the dilutive effect from the capital increase, which in itself was an advisable move nonetheless. However, it was also because there was a temporary downturn in shipping at the end of 2005, as we anticipated, meaning that we were unable to achieve the even higher earnings in the tourism division expected by the market. We are confident – and I will return to this point later on in my outlook on 2006 – that we will be able to demonstrate the increasing profitability of our tourism business in 2006. We also believe that, in 2007 and the following years, the

expected positive impact on earnings in the shipping division will be increasingly significant. Profitability in both sectors is high, meaning that there is also clear growth potential for the price of TUI shares. We would kindly ask you to stay with us on this course.

Our plans also provide for an attractive dividend payment in the future. Furthermore, as well as improving share performance, we wish to continue offering an attractive dividend yield.

And how about tourism?

2005 was a mixed year, with both positive and negative developments. Although sales growth in our tourism core business reached 5.8 per cent , earnings growth failed to match our expectations, increasing by a mere 2 per cent to Euro 360 million EBTA. The principal reason for this was an unfavourable and unforeseen development in France. While all other markets continued to develop positively, we fell substantially short of our earnings targets in France.

After incurring a high one-off expenditure in the first half of 2005 in connection with the fleet renewal of our French airline – Corsair – the sociopolitical unrest in France towards the end of the year had a very negative effect on the generally highly profitable Christmas business. Customers of Corsair which organises flights to former French colonies overseas live in the affected suburbs and did not travel. We reacted to the situation and have currently reduced our capacity considerably; an

in-depth restructuring programme is in place to restore our French business to profitability in 2006.

We were also successful in the other major markets. Earnings in the Central Europe source market sector increased by over 33 per cent to Euro 83 million, while in the Northern Europe sector, earnings increased by as much as 40 per cent to Euro 109 million. In the Destinations sector, earnings grew by 18 per cent to approximately Euro 169 million. Without the unexpectedly high loss in the French source market, our tourism earnings increased by 17 per cent , which clearly illustrates that the negative developments in France are largely responsible for our failure to attain our higher earnings target.

All in all, the future looks very promising for our tourism business. Our integrated business model is proving its worth, as can be seen from the high share of earnings attributable to our hotel business.

We are the clear market leader in Europe and will continue to build on this position.

We are also rather proud of the fact that, in 2005, TUI was once again identified as the brand trusted most by customers. This is both an incentive to live up to this high standard and an obligation to do so.

The European markets are experiencing further growth and this is generally expected to continue.

However the market is changing – the trend towards modular booking in particular is reshaping our business. This market change is being driven by the internet. The European online travel market has grown by an average of 50 per cent in recent years and currently accounts for some 15 per cent of the overall market.

We are at the forefront of this development. Last year, our online turnover grew at the same rate as the market and currently accounts for 15 per cent of our turnover as well. If we add to this our other direct turnover, in particular turnover from call centre activities, direct sales already make up some 20 per cent of our turnover, a trend that is set to continue dynamically.
In the UK, we are market leader in online sales with a share of 12 per cent.

In Germany too, our websites have a market share of roughly 18 per cent . Ladies and Gentlemen, you can see from these figures that, rather than being taken unawares by the future, we are one of the main forces that are actively shaping it.

Ladies and Gentlemen,
we are now involved in all stages of value creation, from sales to hotels. This means that we can safeguard the quality of our products as well as improving our margins considerably. The degree to which we use in-house resources rather than outsourcing varies widely from country to country and is adjusted every year as part of our plans.

Flexibility and competitiveness are the key factors determining the degree of integration.

Our tourism strategy is clearly defined:

we are confident that, in spite of the changing markets, we can increase our market leadership as a globally active, internet-based travel company.

We are strengthening the new distribution channels, modularising more of our products and also expanding into new source markets and product fields. This is not an end in itself, but rather aims to return our sustainable profitability to the high level we had achieved before the terrorist attacks of 2001.

Last year, I presented you with an earnings target of approximately Euro 700 million for the tourism business in 2008 and outlined the individual measures for reaching this target. This is still very much our target.

The most important measures are those concerned with optimising costs and efficiency. At present, we have identified an improvement potential of Euro 210 million, which we plan to implement gradually by 2008. Of this figure, Euro 180 million comes from cost savings and approximately Euro 30 million from improved efficiency.

In 2005, we took extensive measures to optimise business processes in England in 2005, which involved reducing the workforce by 2,000

people. This year, the main focus will be on improving efficiency in the German market. The programme for Germany finalised last year is being implemented according to schedule and is progressing well. As part of a project entitled "Pelican", our efforts are directed towards making the organisation even more lean and efficient. Business processes will change radically.

Our performance optimisation will also focus on our German airlines. In Hapag-Lloyd Flug and HLX we have two airlines that can hold their own against European competition thanks to their close ties with tour operators. HLX has developed extremely well and is set to record a very positive result in 2006. However, in the flight operations sector we must also adapt our cost situation to the increased competition. The ongoing programme for reducing personnel and material expenditure aims to cut costs at Hapag-Lloyd by over Euro 30 million on a sustainable basis.

Comparable programmes are also being implemented in other markets, such as France, which I mentioned earlier.

With these cost reduction and efficiency improvement measures, we will bring about cost savings of Euro 210 million in 2008, which will improve our profitability considerably.

In addition to increasing profitability in the source markets, we see further potential in the Hotel and Destinations sectors. Through additional investments in new hotels and incoming agencies, we can

further increase the share of earnings attributable to this part of our value creation in the tourism sector.

With the introduction of over 25 thousand new beds by 2008, we are increasing the profitability of the hotel sector continually and strengthening our network of agencies in the destinations, which will generate additional earnings of up to Euro 40 million.

Lastly, we will also profit from the fact that the investments in innovative products that we have begun to make in recent years are now bearing fruit. Our low-cost airlines in Germany and the UK are also growing in profitability and will make a steadily increasing contribution to earnings in 2008.

The further growth of our internet business also makes a contribution to increased profitability. By 2008, we expect our new products and services to yield increased earnings of up to Euro 120 million in total.

Overall, we feel that we may well be able to grow profitably over the next few years while reaching our goal of doubling earnings in the tourism division by 2008.

Needless to say – Ladies and Gentlemen – we cannot rule out the risks associated with business development: economic fluctuations, terrorist attacks, political tension or regional epidemics can have a negative impact on earnings. We learnt this the hard way in France in 2005. Our business cannot be taken for granted but must prove itself anew everyday. Nonetheless, travelling and holidays remain a basic human

requirement and – as readily confirmed by all international studies – tourism is a growth industry. Our challenge is to grow profitably with efficient business models – I have attempted to illustrate this for you in outlining our potential for increasing profitability.

It is quite clear from my comments that our core business model of an integrated travel company is here to stay. However, this is not written in stone, but rather is simply a model for earning more money through increased added value – in other words, with a greater degree of in-house production. We will continue with this insofar as it proves effective, which requires that our cost structures remain competitive.

The sluggish earnings experienced by internet portals in the USA demonstrate the limitations of pure sales models that do not have any in-house capacity of their own. Only players who have constant control of all the stages of the tourism value-added process, who determine the quality of products and who offer exclusive products in addition to high-volume products and services – only these players will be successful in the long term and will create the level of value expected by the capital markets. Our English tour operator Thomson demonstrated impressively that it is possible to bring together old and new worlds successfully. Thanks to its own strong products, Thomson is well ahead of new economy providers in the UK and is set to increase its lead even further.

When I spoke earlier about the acquisition of CP Ships, I mentioned the medium-term development of the shipping business.

In 2007, we will have harnessed over two-thirds of the synergy potential of Euro 220 million and these savings will help us to improve our earnings substantially. We feel that an earnings level of Euro 650 million for the shipping sector is realistic as of 2008 if freight rates continue to develop in a stable way. This means that the tourism and shipping divisions will make a roughly equal contribution to the Group's earnings.

In addition to the effects from the integration of CP Ships that I have already addressed, our anticipated earnings in the shipping division are based on solid investment planning. Over the next few years, organic growth will be our main area of focus. Several weeks ago, another ship with a capacity of 8,750 TEU – the Chicago Express – was delivered to us. Ships of this size are currently the most modern units. In total, this year and next year we will have increased our fleet by 14 new ships: 5 from the 8,750 TEU class and 9 medium-sized units with a slot capacity of 4,250 TEU.

Accordingly, it can be said that we are achieving solid organic growth and will continue to do so.

The shipping division also includes the cruise business. Hapag-Lloyd Kreuzfahrten is primarily active in the premium and luxury segment, focusing mainly on themed and exhibition tours. We are particularly proud of our flagship – the MS EUROPA – which has been voted the world's best cruise ship once again. This area of business is profitable and we will outperform the previous year again in 2006. However, until

now we have never operated in the fast-growing volume market using our own ships. The exception in this regard is in the English market, where Thomson marketed four chartered cruise ships with approximately 5,300 beds with profitable results.

Cruises are growing in popularity and market research findings confirm that the TUI brand also has great appeal for customers in the German cruise market. Accordingly, we will realign the cruise business and look for openings in the volume segment, including the German market.

Ladies and Gentlemen,
As you can see, we are working on a variety of tasks, concepts and attractive new projects. The strategic guidelines – strengthening the tourism division and developing the shipping division – are being implemented resolutely. Our targets are based on a variety of individual plans – they are challenging but realistic. By reaching these earnings targets, our Group will achieve a medium-term return on capital employed of 15 per cent , thereby creating a high level of value. That completes our look at the medium-term development.

To conclude, I would like to take a look at the first quarter of the current year before presenting an outlook on 2006 as a whole. The report for the first quarter of 2006 was published yesterday.

All in all, the beginning of 2006 was as we had anticipated it. In the tourism sector, the operating result was satisfactory in view of the fact that this year the profitable Easter business falls into the second

quarter. In the first quarter, there were one-off gains in the amount of Euro 144 million resulting from the sale of business travel interests. This is an excellent result which surpasses market expectations substantially as well as reflecting our successful operating activities of the last three years, in which we restructured this area completely. In the shipping division, we expensed almost Euro 40 million provisions for the planned reduction of the workforce by 2,000. Leaving aside these one-off expenditures and the non-cash purchase price allocation, our operating result in the new unit is on a par with the previous year, thanks to the high profitability of CP Ships.

And now for my outlook on 2006:

In the tourism division, we expect there to be an invigorating level of bookings for the summer. However, booking behaviour in last year's winter season indicated a proportionate increase in short-term bookings, so bookings for the early summer months of May and June can also be said to be good. This will continue in the following months. Our capacities have been geared towards this development, particularly in the case of air travel. Due to the absence of one-off expenses incurred in 2005, notably restructuring costs in the UK, to a significant decline in start-up losses incurred by Thomsonfly, the absence of one-off expenses relating to the fleet renewal in France and the positive effects of the cost and efficiency improvement measures, we expect a significant increase in earnings in the tourism division in 2006. Given that bookings for the summer are still at an early stage, we cannot yet put a figure on earnings for 2006.

In the shipping division, the anticipated fall in freight rates occurred at the beginning of the year. However, a turnabout is expected in rates and we assume that freight rates will rise again if freight volumes continue to increase. Accordingly, we were able to increase freight rates in the Far East for the first time in April – the next increase has been announced for July. Our volume growth of 13per cent was higher than expected, a development that enables us to enforce our price increases. However, owing to the one-off expense in the amount of Euro 80 million relating to the integration of CP Ships and to the incremental depreciation to be recognised for the first time on the CP Ships assets acquired – i.e. purchase price allocation – we will probably not be able to match the previous year's performance in the shipping division.

Of course, the overall outlook on the results of 2006 is still affected by the uncertainties associated with business development. Today, we can safely say that 2006 will be a year in which we lay the foundations for a sweeping and sustainable improvement in earnings – including those of the Group as a whole – in 2007 and in the following years.

Ladies and Gentlemen,
TUI is well on course. Our strong pillars – tourism and shipping – stand for increasing earnings, stable dividends and sustainable growth. We will make every effort to ensure that this is also reflected in sustainably increasing share prices.

Thank you very much for your attention.

Speech by

Rainer Feuerhake

CFO

TUI AG

Annual General Meeting

10 May 2006

Hanover

- Check against delivery -

Ladies and Gentlemen,

I would also like to welcome you most cordially to today's Annual General Meeting. Following Dr. Frenzel's observations, I would now like to elaborate on a few points regarding the 2005 consolidated financial statements.

New IASB accounting standards

The presentation of the consolidated profit and loss statement and balance sheet – which I will look at in more detail shortly – differs from earlier annual financial statements. This is because there are a number of revised or newly issued financial reporting standards from the IASB (International Accounting Standards Board) that are now mandatory. Other standards that do not become binding until 2006 have also been applied already in order to enhance the continuity of the financial statements.

One factor that has a considerable impact on our consolidated financial statements can be found in the summary of earnings from discontinuing operations, which is now required to be presented as a separate item of the profit and loss statement. Accordingly, the assets and liabilities of the discontinuing operations are also reported as a separate balance sheet item [IFRS 5].

Furthermore, we are required to implement a review of residual values, depreciation methods and useful lives on an annual basis [IAS 16]. In this connection, we have – among other things – adjusted the useful life of the Hapag-Lloyd container ships to 25 years, the general international standard that is also used by CP Ships.

With regard to recognition of pension obligations, cover shortages relating to pension obligations have been recognised directly in equity as of 2005 [IAS 19].

Furthermore, the interest portion of the measurement of pension obligations is no longer carried under personnel expenses but is shown under financial expenses.

In order to enhance comparability, the figures from 2004 have been restated accordingly [IAS 8].

That completes my comments on the new IASB accounting standards, so let us now turn to the results of Group operations and also take a closer look at a number of points on the profit and loss statement.

Profit and loss statement

Group turnover increased by 12 per cent from Euro 1.9 billion to Euro 18.2 billion. Material costs, personnel costs, depreciation and amortisation increased with the growth in turnover. The balance – i.e.

the operating result – remains virtually unchanged at Euro 584 million [previous year: Euro 590 million, -1 per cent year-on-year)].

After deducting the balances of the financial result and the result of companies measured at equity – Euro 198 million – EBTA of the continued operations was Euro 386 million in 2005. This corresponds to a year-on-year decline in earnings of Euro 35 million – or 8 percentage points – largely because interest expenses were Euro 28 million more than in the previous year.

Breaking down divisional results to the individual operative sectors, the earnings situation is as follows:

Earnings in the tourism division were Euro 360 million. This was a slight improvement, but on the whole still fell short of our expectations. This – as Dr. Frenzel has already explained – was due to the high level of one-off operative expenses in 2005.

The result of the shipping division was on a par with the previous year's level at Euro 279 million. Owing to the first-time consolidation, the positive operating result of CP Ships for November and December did not contribute to the Group's earnings.

The result of the central operations sector, which essentially includes the corporate centre functions of TUI AG and the Group's real estate business, fell to Euro -253 million. This is because the figure for the

previous year contains a one-off income item stemming from the finalisation of real estate sales.

Let us now leave the earnings development within the individual sectors and look at the Group as a whole once again.

In spite of the slight decline in the divisional results, the total tax expense increased to Euro 87 million, a year-on-year rise of Euro 32 million. This is attributable in part to higher tax payments by hotel companies but primarily to an increase in deferred tax expenses in the French source market.

In total, this results in earnings after tax of Euro 299 million for continuing operations, corresponding to a decrease of some Euro 66 million year-on-year. As indicated above, this fall is due in equal parts to the less favourable financial result and the increased income tax expense.

The result of the discontinuing operations is on a par with the previous year's level at Euro 196 million. This contains the result from the Group's ordinary activities in the special logistics and trading sector and from the sale of VTG last December.

Accounting for the aforementioned earnings from discontinuing operations, the final Group profit amounted to Euro 495 million. The (basic) earnings per share decreased accordingly by 68 cents to its current level of Euro 2.28 per share.

To round off my comments on the key earnings figures, I would like to take a look at the level of profitability achieved. Return on Invested Capital (ROIC) – defined as the earnings before interest, tax and amortisation in relation to the interest-bearing capital – fell by 2.2 percentage points to 9.9 per cent when adjusted for unusual income from disposals. Compared to our current cost of capital of 8.0 per cent, this resulted in an excess return of 1.9 per cent, which, in absolute terms, corresponds to a positive contribution of approximately Euro 133 million for the financial year 2005.

I would now like to leave the results of Group operations and move on to significant changes in the balance sheet.

Balance sheet/Debt

The balance sheet total increased by approximately Euro 3 billion or 24 per cent to Euro 15.3 billion. The primary reason for the asset growth was the consolidation of the CP Ships Group since 25 October 2005.

At the same time, equity rose by approximately Euro 1.7 billion. This increase – over 50 per cent of the increase in the balance sheet total – results from the capital increase, the issue of hybrid capital and the net allocation to revenue reserves netted against the recognition of underfunded pension obligations.

As a result of this development, the proportion of the balance sheet total represented by equity increased by 7 percentage points year-on-year to 28.5 per cent. Accordingly, it was possible to improve our equity ratio by over 10 percentage points since the financial year 2000 within the framework of the Group restructuring process. Furthermore, equity is now approximately Euro 600 million higher than consolidated goodwill.

In my view, an examination of our balance sheets in the long-term indicates clearly that: "The transformation process of your TUI Group has resulted in a solid financial foundation."

Remaining with the question of financial stability, I would like to touch upon the Group's debt situation. The net financial position increased by some Euro 0.5 billion to Euro 3.8 billion in the financial year 2005.

This increase is due to the acquisition of CP Ships, netted off against the increase in own funds. There was an increase of approximately Euro 0.6 billion in the financial obligations not reported in the balance sheet. After adjusting for the additions in the amount of Euro 0.9 billion stemming from the consolidation of CP Ships, the sale of VTG resulted in a decrease of Euro 0.3 billion.

In the first quarter of the current financial year 2006, we can already report a further improvement in our net debt situation following the sale of our business travel interests to Dutch company BCD Holdings N.V.

In addition, net debt was reduced even further by the sale of our steel trading activities – Preussag North America (PNA) – which was finalised yesterday.

That completes my overview of the 2005 consolidated financial statements.

Thank you for your attention.

RECEIVED

Michael Behrendt and Peter Rothwell appointed to the Executive Board of TUI AG

Hanover, 10 May 2006. The supervisory board of TUI AG today appointed Michael Behrendt (shipping) and Peter Rothwell (tourism) as ordinary members to the Executive Board of the Group with immediate effect. „This new management structure accommodates the two-pillar strategy of the Group which was implemented last year", comments Dr. Michael Frenzel, CEO of TUI AG. „The increased importance of the shipping division requires a tight operative integration into the work of the executive board, which we now ensure with Michael Behrendt", he added.

With regards to the tourism division, TUI CEO Frenzel pins his hopes on a management structure which overlaps the source markets. „Our competition operates globally and employs technology cross-nationally. Therefore, we need cross-national management structures, too". Peter Rothwell, as Chief Operating Officer, will bundle resources in the various markets and find uniform solutions for the challenges of the national markets. In addition to his executive board membership Rothwell will remain responsible for the source market Northern Europe.

The executive board of TUI AG now comprises six members. Apart from Dr. Michael Frenzel as Chief Executive Officer, Rainer Feuerhake as Chief Financial Officer and Dr. Peter Engelen as Executive Board member in charge of Human Resources and Legal Affairs, Sebastian Ebel will be responsible for the Controlling division as well as for the two capital-intensive Flight and Hotels businesses.

Significant turnover growth in Q1 due to expansion of shipping
Overall increase in earnings by divisions

Hanover, 9 May 2006. TUI has generated significant turnover growth due to the expansion of its shipping division and achieved a year-on-year increase in earnings by divisions. Group turnover in the first quarter 2006 reached 4.48 billion euros and was up 25.1 per cent from last year (3.58 billion euros). Earnings by divisions (EBITA) improved 73.4 per cent to -45 million euros (previous year -169 million euros). Due to the typical seasonal nature of the tourism business, the first quarter regularly closes at negative results.

Considerable increase in turnover by continuing operations year-on-year
In the first quarter of 2006, the turnover generated by the TUI Group's continuing operations (tourism, shipping, central operations) totalled 4.20 billion euros, up 30.1 per cent year-on-year (3.23 billion euros). This growth was facilitated by the addition of the business of CP Ships to the shipping division (+145.2 per cent). Turnover of the tourism division nearly reached the previous year's high level.

In the first quarter of 2006, the **discontinuing operations** (trading and special logistics) reported turnover of 278 million euros, down 21.1 per cent year-on-year. The decline resulted from the complete divestment of the special logistics sector in 2005. The trading sector, in contrast, generated turnover growth of 13.1 per cent.

New reporting indicator EBITA
With the start of the 2006 financial year, the reporting indicator 'earnings by divisions' was converted to earnings before interest, taxes and amortisation of goodwill (EBITA), as already announced. The figures for the 2005 reference quarter were adjusted and restated accordingly.

Increase in earnings by continuing operations due to special income
In the first quarter of 2006, earnings of the continuing operations tourism and shipping as well as central operations grew by 64.8 per cent to –70 million euros (last year: -199 million euros). This was in particular attributable to the 53.4 per cent earnings growth in tourism.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

The increase resulted from the book profit from the divestment of the business travel activities of the TQ3 Group. Earnings by central operations also rose due to the realisation of proceeds from a real estate sale transaction.

In the first quarter of 2006, **earnings of the discontinuing operations** trading and special logistics dropped by 16.7 per cent year-on-year to 25 million euros (last year: 30 million euros) since the special logistics sector was no longer included. The trading sector achieved earnings growth of 17.6 per cent year-on-year to 20 million euros.

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

At – 169 million euros, earnings by divisions (EBITA), adjusted for unusual expenses and income and the revaluation of conversion options from the convertible bond issued in 2003, required under IAS 39 in combination with IAS 32, fell by 19,0 per cent year-on-year (-142 million euros). Unlike last year, unusual income and expenses had to be accounted for in the first quarter of 2006. They totalled +109 million euros. One-off income was carried in particular due to the book profits from the divestment of the business travel operations, while unusual expenses were incurred in the framework of the integration of CP Ships into Hapag-Lloyd Container Linie.

Year-on-year growth in tourism

In the first quarter of 2006, 3.73 million customers purchased tourism products of the TUI Group (last year: 3.87 million). At 2.51 billion euros, turnover by the division fell slightly short of last year's level (2.52 billion euros). Earnings were negative due to the seasonal cycle of the business. Apart from that, the Easter business with its strong guest volumes as well as sales volumes fell into the first quarter last year. Due to the book profits from the disposal of the business travel operations earnings rose 53.4 per cent to -83 million euros year-on-year (last year: -178 million euros).

In the **Central Europe** sector (Germany, Austria, Switzerland as well as airlines Hapagfly and Hapag-Lloyd Express), the business trend was weaker than in 2005. The number of customers dropped to 1.71 million (last year: 1.73 million). At 905 million euros, turnover fell 3.7 per cent short of 2005 levels (940 million euros). In absolute figures, this decline was primarily attributable to business in Germany. At –102 million euros (last year: -84 million euros), earnings of the Central Europe sector declined year-on-year. Again, this reflects the postponement of the Easter

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

business into the month of April. Therefore, charter flight operations in particular did not match the solid earnings generated in 2005. In contrast, Hapag-Lloyd Express matched the 2005 earnings level.

The **Northern Europe** sector (UK, Ireland, Nordic countries as well as airlines Thomsonfly (charter and scheduled flights) and Britannia Airways Nordic) showed an overall positive trend in the first quarter of 2006. The number of customers was 1.21 million, up from 1.18 million in 2005. Turnover grew by 2.2 per cent to 915 million euros (last year: 895 million euros). Growth was recorded both in the UK and the Nordic countries. Earnings by the sector rose by 5.2 per cent to – 92 million euros (last year: –97 million euros). Earnings in the UK rose slightly year-on-year. In the Nordic countries, earnings matched 2005 levels.

TUI AG
Investor Relations
Karl-Wiechert-Allee 4

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui.com

In the **Western Europe** sector (France, the Netherlands, Belgium as well as airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium), the number of customers dropped 6.9 per cent to 0.81 million (last year: 0.87 million). Turnover declined by 1.0 per cent to 526 million euros (last year: 531 million euros). This development was attributable to the turnover drop in France. The tour operators of Nouvelles Frontières had reduced their capacities due to the restrained demand for travel in the French market. Besides, the outbreak of the Chikungunya virus on the French Island Territory of Réunion affected bookings for that island which is an important destination for Nouvelles Frontières. Earnings by the Western Europe sector also declined. At –36 million euros, they fell 89.5 per cent short of 2005 levels (-19 million euros). The quarterly results were in particular affected by the earnings by the flight division in the Netherlands. The typical seasonal cost of operating an own airline had not been incurred in the previous year. The flight division had only started operating in the second quarter of 2005.

The late Easter holidays affected business of the **destinations** sector (incoming agencies and hotel companies) quite strongly. Therefore, earnings declined to 6 million euros (last year: 25 million euros).

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

In the first quarter of 2006, the **other tourism** sector still comprised the business travel activities of the TQ3 Group, which has already been sold, and the IT services companies. These operations generated turnover of 64 million euros (last year: 61 million euros). The closing of the sale of the business travel operations was on 31 March 2006. Besides the operating result, the gain on disposal of 144 million euros was also included in earnings by the Other Tourism sector, which therefore totalled 141 million euros (last year: -3 million euros).

Negative earnings in shipping due to integration costs, as expected

In the first quarter of 2006, the shipping division (Hapag-Lloyd Container Linie and Hapag-Lloyd Kreuzfahrten, Hapag-Lloyd AG and CP Ships) generated turnover of 1.64 billion euros, an increase of 145.2 per cent. This growth partly resulted from the integration of CP Ships, which contributed 791 million euros to quarterly turnover. A further reason for this increase was the substantial growth in transport volumes of Hapag-Lloyd Container Linie in all trade lanes. As a result, Hapag-Lloyd Container Linie achieved an increase in turnover of 27.0 per cent to 849 million euros (last year: 669 million euros). The transport volume rose to a total of 1.196 million standard containers (TEU), including 0.699 million TEU for Hapag-Lloyd Container Linie and 0.497 million TEU for CP Ships. The average freight rate generated in the first quarter was 1,312 US dollars/TEU for Hapag-Lloyd, falling only 0.5 per cent below the high level of 2005 (1,318 US dollars/TEU). For CP Ships, the rate was 1,682 US dollars/TEU, up 9 per cent year-on-year (1,543 US dollars/TEU).

This turnover growth was accompanied by a relatively stronger increase in charter rates year-on-year and oil price-induced increases in bunker costs. In addition, one-off expenses of 40 million euros arose in the framework of the integration of CP Ship in the first quarter of 2006, so that earnings by the shipping division totalled –25 million euros. In operative terms, the sector reported earnings of 15 million euros.

Turnover and earnings growth in central operations

Central operations (corporate centre functions, real estate companies, industrial activities) reported turnover of 50 million euros (last year: 44 million euros). Earnings rose to 38 million euros (last year: -53 million euros) due to the realisation of proceeds from the sale of industrial property, effected in previous years.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Discontinuing operations

The discontinuing operations comprised the **trading sector**, completely divested in February 2006, with the steel service companies of Preussag North America, Inc. (PNA). Their turnover was 278 million euros, down 21.1 per cent year-on-year (353 million euros) since the turnover of the special logistics sector, divested in December 2005, was no longer included. The trading sector recorded an increase in turnover of 13.1 per cent. Earnings by the discontinuing operations declined by 16.7 per cent to 25 million euros (last year: 30 million euros) for the same reason. In the first quarter of 2006, they only included earnings by the trading sector of 20 million euros and proceeds related to the settlement of the former energy sector, carried under divestments.

Prospects – satisfactory start to the financial year

The core businesses tourism and shipping have seen an overall satisfactory start to the 2006 financial year. In tourism, an overall steady recovery is emerging, with the large markets Germany, the UK and France showing uneven trends. Group-level bookings for the 2005/2006 winter season, which ended in April, amounted to 6.6 per cent in terms of customer numbers and 3.1 per cent in terms of booked turnover. Overall, bookings for the 2006 summer season have started off as expected. At Group level, bookings are currently 1.6 per cent up in terms of customer numbers and 0.9 per cent up year-on-year in terms of booked turnover. Following a slow start, the UK has seen a steady improvement in bookings. In Germany, the travel business is expected to pick up substantially after the FIFA World Cup, in line with past experience with regards to large sports events.

In France, booking numbers reflect the overall restrained demand in the travel market which, however, is gradually picking up again. The discontinuation of significant restructuring costs from previous years as well as the consistent implementation of cost reduction and efficiency improvement programmes, are the foundation for the expected improvement of earnings in tourism.

Faster integration in shipping / Significantly higher synergies

In shipping, the integration of CP Ships into Hapag-Lloyd Container Linie will significantly affect earnings (EBITA) in 2006. The integration process will be

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

accelerated and will be mostly completed already by 2006. In 2006 most of the integration costs will be incurred. Based, among others, on the development of freight rates in individual trade lanes, in particular in Asian transports, the persistently high bunker costs and short-term charter rates, the container shipping division will probably not reproduce the high earnings levels achieved in 2005. At 220 million euros as of 2008, synergies will be significantly higher than initially expected.

Update:Information from TUI on the explosions in Egypt Holidays amended free of charge for the summer season up to 6 May

Concerning the German source market

Hannover, April 25, 2006

TUI has reacted to yesterday's attacks in Dahab. Customers who have booked a holiday on the Sinai peninsula (destination airport Sharm el Sheikh) in the summer season from May to October 2006 can change their holiday up to 6 May free of charge. Relatives of holidaymakers currently in the area as well as customers who will be flying within the next 48 hours to the Sinai peninsula can obtain information by phoning the

TUI telephone hotline 0511 – 567 8000

Guests with departures at a later time are asked to contact their travel agency or internet booking office.

TUI has as an initial reaction cancelled all daily excursions on the Sinai peninsula. According to the latest information all TUI guests in the destination are safe and unharmed. At present there are 200 German holidaymakers with TUI in the Dahab region as well as 200 other guests on holiday with TUI's European subsidiaries. The situation among TUI holidaymakers in the destination is calm. Up to now four guests have expressed a wish to prematurely terminate their holiday. TUI will comply with this wish and make appropriate arrangements in today's flights. During the night and this morning all TUI customers about to travel to the Sinai peninsula were informed by the airport service points about the explosions as well as about the latest security advice issued by the German Foreign Office. Customers who no longer wanted to spend their holiday on the Sinai peninsula have had their bookings amended at no charge. In its current brochure TUI has three hotels on offer in the Dahab region.

TUI – Up to now only isolated requests to change holidays

Concerning the German source market

Hannover, April 25, 2006

Up to now TUI's tour operators have received only isolated requests to change or cancel holidays following yesterday's terrorist attacks in Dahab. Of the 450 holidaymakers originally booked, 410 started out today for their holiday on the Sinai peninsula. All flights to Egypt will be operated according to schedule. Currently some 7,700 Germans are on holiday with TUI in Egypt, of which about 200 are in the Dahab region. Four customers in Dahab prematurely ended their holiday today.

This morning TUI decided on a ruling for people who want to change their holiday. Customers who have booked a holiday on the Sinai peninsula (destination airport Sharm el Sheikh) in the summer season from May to October 2006 can change their holiday up to 6 May free of charge. Amendments can be made either in travel agencies or through the internet booking office.

In its current holiday brochure TUI offers three hotels in the Dahab region. Since this morning it is clear that no TUI guest was immediately affected by the terrorist attacks. All customers destined for the Sinai peninsula will be informed up to 8 May by TUI about the events in Dahab and given the latest travel advice issued by the German Foreign Office.

TUI closes sale of TQ3 business travel division

Hanover/Bremen, 31 March 2006. TUI has closed the sale of its business travel activities, operating within its wholly owned subsidiary of TQ3 Travel Solutions Management Holding GmbH. Following the necessary approvals of the cartel authorities the closing of the sale took place on 31 March 2006. The business travel activities were sold to the Dutch BCD Holdings N.V. Through the sale TUI places this division, which does not belong to its tourism core business, within a future-oriented business travel management company. It is intended to continue the current cooperation between TQ3, which is being renamed into BCD Travel, and the incoming agencies of TUI in the future. "The planned cooperation between TUI and BCD will benefit both parties", Sebastian Ebel, member of the executive board said.

RECEIVED

TUI successfully closes the 2005 financial year / Increased turnover in core businesses tourism and shipping / Higher tourism earnings / Record levels in shipping

Hanover, 22 March 2006. TUI AG has successfully completed the 2005 financial year. The Group's core businesses tourism and shipping continued the positive trend of the previous year. Turnover in the tourism division rose 5.8 per cent to 14.1 billion euros, outperforming the global travel market. A similar growth rate was posted by Group EBITA which rose by 20.1 million to 365.2 million euros. At 2 per cent, EBTA growth was relatively lower, due, among others, to an increase in interest expenses. In shipping, turnover grew by 42.7 per cent to 3.8 billion euros. EBITA rose 6 per cent to 317.9 million euros. Taking EBTA as an indicator, earnings totalled 279 million euros and almost matched the previous year's record level (280 million euros).

TUI AG
Investor Relations
Karl-Wiechert-Allee 4
30625 Hannover

Telefon +49(0)511 566-1425
Fax +49(0)511 566-1096
investor.relations@tui.com
www.tui-group.com

Overall Group turnover by divisions stood at 19.6 billion euros, an increase of 8.7 per cent year-on-year. Earnings by divisions (EBITA) were 849 million euros (previous year: 912 million euros). This was partly due to a rise in interest expenses incurred by central operations and a decline in profits by the discontinuing operations available for sale. On an EBTA basis, earnings by divisions totalled 633 million euros (previous year: 680 million euros). Adjusted for unusual expenses and income as well as the divestments, earnings (EBTA adjusted) totalled 486 million euros, compared to 532 million euros in 2004.

Application of new IFRS standards

Several new binding IFRS accounting standards have been applicable since 1 January 2005. This has led to a different presentation and measurement of a number of items in the profit and loss statement and the balance sheet in the financial statements for 2005. The comparative figures for 2004 were restated accordingly. This is the last time that the year-on-year comparison was based on EBTA; in future, reporting will shift to EBITA (before interest), as is increasingly customary in the financial markets.

Bei Übertragungsproblemen bitten wir um Rückruf

Improved earnings in tourism / Exceptional strain in source market France

In the 2005 financial year, earnings by the tourism division totalled 360 million euros, up 2 per cent on 2004 (353 million euros). In the same period, turnover climbed 5.8 per cent to 14.1 billion euros. This trend was largely attributable to the Central Europe sector which increased earnings by 33.3 per cent to 83 million euros, the Northern Europe sector which posted earnings of 109 million euros (+40.4 per cent) and the destinations sector (earnings growth of +17.9 per cent to 169 million euros). This trend more than offset the loss in the Western Europe sector of – 10 million euros and the reduction in the profit contribution by the 'Other tourism' sector. In the Western Europe sector, the source market France showed a loss, falling significantly short of expectations in the 2005 financial year. The main factor impacting results was the country's domestic situation. The riots in the French suburbs led to substantial declines at the end of the year, in particular in the highly profitable Christmas business. A futher factor adversely impacting results were the expenses for restructuring measures and the costs associated with the renewal of Corsair's Boeing 747 fleet in flight operations. 'Adjusted for the unexpectedly high loss in source market France, earnings by tourism rose 17 per cent. That is why I am basically satisfied with the development of tourism', said TUI's CEO Dr. Michael Frenzel. A comprehensive restructuring programme was initiated for France to bring the source market back into the profit zone in 2006.

Shipping continues growth path

The shipping division which comprised Hapag-Lloyd Container Linie and Hapag-Lloyd Kreuzfahrten as well as CP Ships, included in consolidation from the date of acquisition, 25 October 2005, to 31 December 2005, benefited from persistently high worldwide demand for container transport and thus continued on its positive trend. Turnover grew 42.7 per cent to 3.8 billion euros. This included 0.6 billion euros of turnover generated by CP Ships. Earnings by the shipping division matched expectations, reproducing the record level of 2004 (280 million euros) at 279 million euros.

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

Central operations

Central operations (corporate centre functions, real estate companies, remaining industrial activities) posted a turnover of 270 million euros (previous year: 284 million euros) in the 2005 financial year. Earnings by central operations totalled – 253 million euros in 2005 (previous year: - 212 million euros). Earnings were adversely affected by the formation of provisions and the result of the valuation of the conversion option for the 2003 convertible bond.

Discontinuing operations

Discontinuing operations, trading and special logistics, recorded a turnover of 1.4 billion euros in the 2005 financial year, 19.3 per cent down year-on-year. Earnings, including the proceeds from disposals, dropped to 247 million euros. This was due to the reduction in the profit contribution of the trading sector.

Development of net debt

The Group's net debt stood at 3.8 billion euros on 31 December 2005 (previous year: 3.3 billion euros). This development substantially reflected the acquisition of CP Ships.

Prospects

TUI AG maintains its medium-term earnings goals for tourism. A further improvement in earnings is targeted in 2006. In particular in the large source markets Germany, UK and France, earnings have benefited from the cost-cutting and efficiency improvement programmes initiated in previous years. In shipping, the programme to integrate CP Ships is progressing according to plan. The announced operating cost synergies of 180 million euros will be partly achieved by 2007 and will be fully realised by 2008. In view of the freight rates, in particular in transport operations in Asia, it will be difficult to repeat the good earnings of 2005 in 2006. Based on the

Bei Übertragungsproblemen bitten wir um Rückruf
If you do not receive any of these pages properly please call

higher expectations for sales in both tourism and shipping, Group turnover may increase up to 22 billion euros. The proceeds from the divestment of the US steel subsidiary and the business travel operations, which are expected to be realised in 2006, will be used to achieve a further significant reduction in the Group's net debt.

TUI starts the 2005/2006 travel year with increased bookings Turnover growth in key source markets / Online turnover up by 44 per cent

Hanover/Berlin, March 8, 2006

TUI AG, Europe's leading travel group, has started the 2005/2006 travel year with solid growth. In the current winter business, TUI has recorded Europe-wide growth in booked turnover of 2.4 per cent and an increase in customer numbers of six per cent. For the 2006 summer season, booked turnover and customer numbers are two per cent up on last year's very high levels. 'In the eastern Mediterranean destinations, the start into the summer season was characterised by the bird flu and the cartoons controversy,' said TUI's CEO Dr. Michael Frenzel at the opening of the ITB, the world's largest tourism fair held in Berlin. Frenzel pointed out that bookings are currently shifting from the eastern to the western Mediterranean. 'Spain, our most important destination, currently benefits most strongly from this trend', said Frenzel. At the moment the bookings for Spain for the coming summer season are five percent above last year's figures. TUI's CEO expects booking numbers to pick up again also for other destinations over the next few weeks: 'All economic data in Europe are positive. If the positive sentiment is no longer overshadowed by the external factors, booking numbers will rise again in the short term. We are already observing a positive trend again.' Most evident is the current growth in online turnover. At 1.8 billion euros it was up 44 percent in Europe last year. "We have consolidated our leading market position in the internet above all in the United Kingdom, but also in Germany', continued Frenzel.

Domestic market matches last year's performance with good price levels

In the German market, TUI's tour operators and airlines saw off to a stable start to the new travel year. Currently, booked turnover for the summer in source market Germany is matching last year's good level. Customer numbers are growing slightly by 1.5 per cent. 'The first few booking weeks of the summer season were initially promising', said Dr. Böttcher, head of TUI Deutschland. He pointed out that this positive trend has slowed down again due to the bird flu and the cartoons controversy. According to Böttcher, this trend is currently offset by growth in Spain and Greece. There is also a strong demand for holiday destinations in Italy, Germany, many long-haul destinations in Asia as well as city and wellness trips.

Böttcher underlined the fact that the priority for TUI will be to ensure stable prices in the 2006 summer. 'As market and quality leaders, price quality matters more to us than gaining market shares', said Böttcher.

The head of TUI Deutschland was satisfied with the demand for travel during the Football World Cup. Böttcher: ‚Market researchers have warned us that many Germans will not travel during the World Cup. This forecast has not proven true.' Böttcher expects an additional surge in demand after the World Cup.

Above-average growth in source markets Scandinavia and Benelux

markets in Scandinavia (+10.6 per cent) and Ireland (+5.3 per cent). In the UK, turnover roughly matches last year's figure with prices still at a good level. The current development in the Western Europe sector with year-on-year growth of seven per cent is particularly gratifying. The positive trend is boosted by above-average growth in Belgium (+18.4 per cent) and an increase in bookings in the Netherlands (+7.4 per cent). In contrast, TUI's CEO Frenzel is not yet satisfied with the development of turnover in France (-5.8 per cent). According to Frenzel, the French market is currently struggling with substantial consumer restraint, equally affecting all suppliers. In the Central Europe sector, turnover is slightly up year-on-year (+0.2 per cent). While the Austrian market is still short of last year's level (-8.5 per cent), Switzerland (+18.9 per cent) and the eastern European markets (+24.4 per cent) show above-average growth.

TUI is the no. 1 in direct sales in Europe
Last year, TUI's multi-channel strategy resulted in new record turnover in direct sales. European online sales alone climbed to 1.8 billion euros in 2005. This corresponds to an increase of 44 per cent year-on-year. Frenzel: 'If you include call centres and TV-induced sales, direct sales now account for 25 per cent of turnover in tourism.' According to Frenzel TUI was in January clearly the market leader on the internet with its online offer both in the United Kingdom with 13 per cent and in Germany with 18 per cent market share. TUI expects the German market to trigger further growth stimuli in online sales this year. After the launch of the master brand portal www.tui.com in December bookings in particular for flights and hotels increased significantly. The websites of the two German airlines HLX and Hapagfly are also continuing to be disproportionately successful.

TUI agrees to sell U.S. steel activities to investment firm Platinum Equity

Hanover, Germany, 15 February, 2006. TUI AG has reached an agreement to sell its indirect 100 percent holding in the U.S. steel trading corporation PNA Group Inc. to the U.S. based investment firm Platinum Equity. It was agreed not to disclose the purchase price. The transaction, which is subject to regulatory approval and normal closing conditions, is expected to be completed in the second quarter of 2006. TUI herewith successfully completes the already announced step.

PNA Group Inc., the business being acquired by Platinum Equity, is based in the U.S. city of Atlanta, Georgia. It comprises three subsidiaries: Feralloy, Infra-Metals and Delta Steel. The group is a regional and national leader in the U.S. steel trading market. It serves its customers across the United States, as well as in Mexico.

Platinum Equity, based in Beverly Hills, California, is a global investment firm founded in 1995 by financier Tom Gores. Since its founding, the firm has completed more than 60 M&A transactions and acquired businesses with more than $11 billion in aggregate annual revenue at the time of acquisition. Its current portfolio of operating companies includes more than 20 independent businesses based primarily in the United States and Europe.

TUI AG extends its Executive Committee

Proposal to maintain dividend at 77 cents per share announced

Hanover, 25 January, 2006. TUI AG, the world's leading tourism and shipping group, extends its Executive Committee. At today's meeting, the Supervisory Board approved the appointment of Adolf Adrion (Shipping), Christoph R. Müller (Flight Operations) and Karl J. Pojer (Hotels & Resorts) as divisional directors to the Group's Executive Committee with immediate effect. 'The renewed increase in the importance of shipping due to the successful takeover of CP Ships will be reflected by the appointment of a second divisional director. In the tourism division, all key elements of our value chain are now represented in the Executive Committee', says TUI's CEO Dr. Michael Frenzel. As before, the Executive Committee also comprises Dr. Volker Böttcher (Tourism Central Europe), Eric Debry (Tourism Western Europe), Peter Rothwell (Tourism Northern Europe) and Michael Behrendt (Shipping).

In addition, there will be a modification of responsibilities within TUI's Executive Board. In future Sebastian Ebel will be in charge of Group Controlling, apart from IT, Central Purchasing and Destination Management.

Furthermore, a dividend proposal of 77 cents per share was announced to the Supervisory Board today for its March meeting, convened for the adoption of the annual financial statements. 'Our aim is to thereby continually uphold the high dividend level', says TUI's CEO. The TUI Group will publish its figures for the 2005 financial year at its annual press conference in Hanover on 22 March, 2006.

Ad hoc-announcement according to § 15 WpHG (German Stock Trading Law)

TUI sells TQ3 business travel division to Dutch BCD

Hanover/Bremen, 3 January 2006. TUI AG has reached an agreement to sell its business travel activities, operating within its wholly owned subsidiary of TQ3 Travel Solutions Management Holding GmbH, to the Dutch BCD Holdings N.V. It was agreed not to disclose the purchase price. The sale has yet to be approved by the TUI supervisory board and is also subject to necessary approvals by anti-trust authorities. The business travel market is currently going through a process of global consolidation. This provides TUI with the opportunity of placing this division, which does not belong to its tourism core business, within a future-oriented business travel management company. Promising international prospects will be opened up for the company as well as staff by the purchaser BCD Holdings N.V. Finalisation of the deal is expected in the first quarter of 2006.

Simultaneously, TQ3 and Navigant have agreed to cancel their joint venture with effect from 03 January 2006.

TQ3 Travel Solutions is the leading provider of intelligent and innovative business travel management. BCD Holdings is a private Dutch company founded in 1975 by John A. Fentener van Vlissingen, now chairman of the holding company. The company focuses its activities on the travel services sector, which are offered above all through its wholly owned subsidiary WorldTravel BTI and in Financial Management Services. 80 % of the revenues are generated by business travel, with the rest coming from leisure travel and the financial services companies.

Corporate Governance Report 2006 Recommendations of the German Corporate Governance Code fully implemented.

The actions of TUI AG's management and control bodies are determined by the principles of good and responsible corporate governance. The following corporate governance report is provided by the Executive Board and at the same time on behalf of the Supervisory Board pursuant to sub-section 3.10 of the German Corporate Governance Code.

TUI has consistently based its corporate governance on the recommendations and suggestions of the German Corporate Governance Code. The Executive Board and the Supervisory Board discussed corporate governance issues several times in 2006 and jointly submitted an updated declaration of compliance for 2006 on 14 December 2006, pursuant to section 161 of the German Stock Corporation Act. The declaration was made permanently available to the general public on the Company's website.

Declaration of compliance
The declaration of compliance reads as follows:

'In accordance with section 161 of the German Stock Corporate Act, the Executive Board and Supervisory Board of TUI AG hereby declare:

The recommendations of the Government Commission on the German Corporate Governance Code in the version of 2 June 2005, as published by the Federal Ministry of Justice in the official section of the electronic Federal Gazette on 21 July 2005, have been and are fully complied with.

TUI AG will additionally fully comply with the recommendations in the currently valid version of 12 June 2006, as published by the Federal Ministry of Justice on 24 July 2006.

In addition, TUI AG also complies with the suggestions set out in the Code, the only exceptions being the formation of further committees and the introduction of varying periods of office for the shareholders' representatives in the Supervisory Board, for which no plan exists at present.'

We consider maintenance of uniform periods of office to be useful in order to guarantee the continuity of the work of the Supervisory Board. To date, the formation of further committees has not been necessary.

Cooperation between the Executive Board and Supervisory Board
TUI AG is a company under German law, which also forms the basis of the German Corporate Governance Code. One of the fundamental principles of German stock corporation law is the dual management system involving two bodies, the Executive Board and the Supervisory Board, each of which are endowed with independent competences. TUI AG's Executive Board and Supervisory Board cooperate closely and in a spirit of trust to manage and control the company.

TUI AG's Executive Board currently comprises six members. They manage the company's operations and are jointly accountable for the management of the company. The allocation of duties and responsibilities to the individual Board

strategic and planning decisions and all decisions of fundamental importance to the company. In accordance with the terms of reference, decisions taken by the Executive Board on major transactions such as the annual budget, major acquisitions or divestments require the approval of the Supervisory Board. The chairman of the Supervisory Board coordinates the work in the Supervisory Board, chairs its meetings and externally represents the concerns of the body.

The Executive Board provides the Supervisory Board with comprehensive up-to-date information at regular meetings and in writing about the development of business and the situation of the Group, including risk management. An extraordinary Supervisory Board meeting may be convened if required when events of particular relevance occur. The Supervisory Board has adopted terms of reference governing its work. In the run-up to the Supervisory Board meetings, the representatives of shareholders and employees meet separately, when necessary.

In accordance with the German Co-determination Act and the Articles of Association, TUI AG's Supervisory Board comprises twenty members, with ten representatives elected by the shareholders and ten by the employees for an identical period of office. There is no plan at present to introduce different periods of office for the shareholders' representatives. In accordance with the new recommendations of the German Corporate Governance Code, the shareholders' representatives were elected individually in the last elections to the Supervisory Board at the Annual General Meeting on 10 May 2006. The Supervisory Board does not comprise any former Executive Board members. The body comprises a sufficient number of independent members not maintaining any personal or business relationship with the company or its Executive Board. The Supervisory Board has been elected for a period of five years that will expire at the end of the 2011 ordinary Annual General Meeting.

The Supervisory Board has established two committees from among its members: the Presiding Committee and the Audit Committee, which prepare and complement its work. The Presiding and Audit Committee have six members each, with an equal number of shareholder and employee representatives. Based on his practical professional experience, the chairman of the Audit Committee has special knowledge and experience in the application of accounting principles and internal control methods. There is no plan at present to set up any further committees.

The Executive and Supervisory Board members are obliged to act in TUI AG's best interests. In the completed financial year there were no conflicts of interest requiring immediate disclosure to the Supervisory Board. None of the Executive Board members of TUI AG sat on more than five Supervisory Boards on listed non-Group companies.

TUI AG complies with the recommendations of the German Corporate Governance Code to provide details of the remuneration of each individual member of the Executive Board and Supervisory Board. The principles of the remuneration systems and remuneration amounts are outlined in the remuneration report which is part of the management report.

Shareholders and Annual General Meeting
TUI AG shareholders exercise their co-determination and control rights at the ordinary Annual General Meeting. The AGM takes decisions on all statutory matters that are binding on all shareholders and the Company. For voting on resolutions, each share confers one vote.

representative provided by TUI AG and acting on their behalf in accordance with their instructions. Since the 2006 Annual General Meeting, shareholders have also had the opportunity of voting per internet in the run-up to the AGM or authorising the representatives provided by the Company via the web.

The invitation to the AGM and the reports and documents required for voting are published in accordance with the provisions of the German Stock Corporation Act and provided in German and English on TUI AG's website. During the AGM the presentations given by the Chairman of the Supervisory Board and the Executive Board are transmitted live over the internet.

Risk management
Good corporate governance entails the responsible handling of commercial risks. The Executive Board of TUI AG and the management of the TUI Group use comprehensive general and company-specific reporting and monitoring systems to identify, assess and manage these risks. These systems are continually developed, adjusted to match changes in overall conditions and reviewed by the auditors. More detailed information about risk management in the TUI Group is presented in the relevant chapter of the management report.

Transparency
TUI provides immediate, regular and up-to-date information about the Group's economic situation and new developments to capital market participants and the interested public. The annual report and the interim reports are published within the applicable time-frames. The company publishes press releases and ad hoc releases, if required, on topical events and any new developments. In addition, shareholders and interested parties may subscribe to a newsletter providing up-to-date information about the Group. All information is published simultaneously in German and English and is available in print as well as by appropriate electronic media such as e-mail or the internet. Moreover, the company website at www.tui-group.com provides comprehensive information on the TUI Group and the TUI share.

The scheduled dates for the main regular events and publications – such as AGM, annual report and interim reports – are set out in a financial calendar. They are published well in advance and made permanently accessible to the public on TUI AG's website.

Directors' dealings
The Company was not informed of any notifiable purchase or sale transactions of TUI AG shares or related financial instruments by any Board members in 2006.

At the end of the 2006 financial year, the number of shares in TUI AG directly or indirectly held by members of the Executive Board and Supervisory Board exceeded 1%, the limit fixed for individually notifiable share ownership, for two Supervisory Board members. Executive Board members held a total of 2,038 shares, Supervisory Board members held 18,780,820 shares. Of these shares, Ms Carmen Riu Güell held 12,768,000 shares (indirectly), Mr Abel Matutes Juan held 6,006,000 shares (indirectly) and the remaining Supervisory Board members held 6,820 shares.

Accounting and auditing
TUI AG prepares its consolidated financial statements in accordance with the provisions of the International Accounting Standards Board (IASB) and regularly publishes interim reports, also in accordance with the relevant provisions of the IASB. The annual financial statements of TUI AG are prepared in accordance with the German Commercial Code (HGB).

Wirtschaftsprüfungsgesellschaft, Hannover, the auditor elected by the 2006 AGM. The audit was based on German auditing rules, taking account of the generally accepted auditing standards issued by the German Auditors' Institute as well as the International Standards on Auditing. It also covered risk management and compliance with reporting requirements concerning corporate governance pursuant to section 161 of the German Stock Corporation Act. In addition, a contractual agreement was concluded with the auditors to the effect that the auditors will immediately inform the Supervisory Board of any reasons for disqualification or partiality occurring during the audit as well as of all findings or events of importance arising during the performance of the audit. In the course of the audit for the 2006 financial year there was no reason to provide such information.

Report of the Supervisory Board

In the following, the Supervisory Board reports about its activities in the 2006 financial year, in particular the plenary discussions, the work done by the committees, the compliance with the German Corporate Governance Code, the audit of the financial statements of TUI AG and the Group as well as changes in the membership of the Boards of the Company.

Cooperation between Supervisory Board and Executive Board

In the 2006 financial year, the Supervisory Board performed its duties in accordance with the law and the Articles of Association. It monitored the work of the Executive Board and regularly advised the Board on the management of the Company.

In written and verbal reports, the Executive Board provided regular, timely and comprehensive information to the Supervisory Board, encompassing all relevant information on the development of business and the position of the Group, including the risk situation and risk management. Deviations from the approved plans for the development of business were presented, explained and discussed. The Executive Board discussed the strategic orientation of the Group and all key transactions of relevance to the Company – in particular the further development of the Group – with the Supervisory Board. The Supervisory Board was involved in all key decisions affecting the Company.

Transactions requiring the approval of the Supervisory Board and decisions of fundamental importance were discussed in depth in the committees of the Supervisory Board with the Executive Board prior to a decision being taken. The Supervisory Board was fully informed about specific and particularly urgent plans and projects arising between the regular meetings and, where necessary, submitted its vote in writing. In addition, the chairman of the Supervisory Board was regularly informed about current business developments and key transactions in the Company in between Supervisory Board meetings.

Supervisory Board and committees

The Supervisory Board has set up two committees to support its work: the Presiding Committee and the Audit Committee. The Presiding Committee prepares the resolutions and issues to be dealt with by the Supervisory Board. It also fixes the terms and condition, including the remuneration, of the contracts of employment for Executive Board members. The chairman of the Supervisory Board has regularly informed the plenary meetings about the discussions and resolutions taken by the Presiding Committee.

The Supervisory Board held five regular meetings and one constituent meeting in the 2006 financial year. The Presiding Committee also met five times, and the Audit Committee four times.

Prior to regular Supervisory Board meetings the shareholders' representatives met four times and the employees' representatives nine times in separate meetings. Seven Supervisory Board members were newly elected or appointed in 2006 and therefore attended fewer than half of the

2006 Annual General Meeting and therefore only attended two meetings, and Ms Marina Schmidt, who was no longer employed by a company forming part of the TUI Group after the divestment of the TQ3 Group and retired from the Supervisory Board on conclusion of 30 March 2006.

Work of the Presiding Committee
At its meeting on 25 January 2006, the Presiding Committee dealt mainly with issues relating to the Executive Board. At its meeting on 21 March 2006, convened to adopt the annual financial statements, deliberations focused on the annual and consolidated financial statements for 2005, including the Audit Committee's report on this issue, the comparison between budgeted figures and actual performance for 2005 and various amendments to the Articles of Association. On 8 May 2006 and 24 August 2006, the meetings again focused on Executive Board matters. On 14 December 2006 deliberations focused on issues relating to the Executive Board and the updated declaration on the German Corporate Governance Code.

Work of the Audit Committee
At its meeting on 17 March 2006, the Audit Committee focused its deliberations on the annual financial statements of TUI AG and the consolidated financial statements for 2005. Other issues covered included the recommendation to the Supervisory Board on the election of the auditors for the 2006 financial year as well as insurance coverage of the companies and Boards.

At its meeting on 8 May 2006, the Audit Committee mainly dealt with the interim financial statements to 31 March 2006.

One of the key items discussed at the meeting on 9 August 2006 were the interim financial statements for the end of the first half of 2006. In addition, the Audit Committee discussed the main areas to be audited in the annual audit for the 2006 financial year.

The meeting on 8 November 2006 mainly focused on the interim financial statements to 30 September 2006. The agenda also covered other issues including the internal control system, in particular Group Internal Auditing activities in the 2006 financial year and the audit plan for 2007. Auditor representatives attended all four meetings of the Audit Committee and presented reports on their activities.

Deliberations in the Supervisory Board
The Executive Board's reports and the discussions at Supervisory Board meetings regularly focused on the development of turnover, earnings and employment of the Group and the individual divisions as well as the financial situation and structural development of the Group.

At its meeting on 25 January 2006 the Supervisory Board approved the budget for 2006 for the Group and took note of the 2007/2008 forecast accounts. A further item on the agenda was the appointment of Messrs Adolf Adrion (shipping), Christoph R. Mueller (airlines) and Karl J. Pojer (hotels & resorts) as divisional directors by the Supervisory Board. The Supervisory Board also discussed the divestment of the interest in TQ3 Travel Solutions Management Holding GmbH and dealt with shareholding issues and editorial amendments of TUI AG's Articles of Association.

The Supervisory Board meeting on 21 March 2006 focused on the reports and deliberations on the annual financial statements as per 31 December 2005, a comparison between budgeted and actual figures for 2005 and the personnel and social reports for 2005. The discussions on the annual financial statements were also attended by representatives of the auditors who were available to answer questions. Other

Board also dealt with shareholding issues.

At the meeting on 10 May 2006, Messrs Michael Behrendt (shipping) and Peter Rothwell (tourism) were appointed TUI AG Executive Board members by the Supervisory Board, additionally this meeting served to prepare for the forthcoming ordinary Annual General Meeting. After the Annual General Meeting on 10 May 2006, the constituent meeting of the newly elected Supervisory Board was convened. The chairman and the vice-chairman of the Supervisory Board and the members and chairmen of the Presiding Committee and Audit Committee were elected at that meeting.

On 30 and 31 August 2006 the Supervisory Board met for its annual strategy meeting. The presentations and deliberations focused on the initiatives developed by the Executive Board in order to achieve a substantial and sustainable increase in the profitability of the tourism and shipping divisions. In order to secure the performance targets, a comprehensive programme for further efficiency enhancements in all sectors of the Group was adopted. In this connection, decisions were taken concerning changes in the composition of the Executive Board and divisional directors and changes in the allocation of responsibilities of Executive Board members, outlined in greater detail in the sections 'Supervisory Board' and 'Executive Board' in this chapter. Furthermore, measures were prepared in order to reduce invested capital and central costs. Following comprehensive deliberations on the strategic positioning of TUI AG as a two-pillar group, the Supervisory Board and Executive Board agreed that the publicly discussed option of a spin-off of container shipping would jeopardise consolidated assets and would not be in the interest of TUI shareholders and employees. The meeting closed with presentations and discussions concerning the financial framework for the Group's future development and the Group's personnel and social policies.

On 25 September 2006, the Supervisory Board agreed to the divestment of the interest in Wolf GmbH – effective from 5 October 2006 – in the written circular procedure.

The meeting on 14 December 2006 focused on the measures to be taken in order to achieve the strategic goals and thus the budget for 2007 and the 2008/2009 forecast accounts. In addition, shareholding issues and investment projects had to be dealt with. Moreover, the Supervisory Board adopted the declaration of compliance with the German Corporate Governance Code.

Corporate Governance

At the meeting of 14 December 2006, the Executive and Supervisory Board discussed an update of the declaration of compliance with the German Corporate Governance Code and issued the joint declaration of compliance pursuant to section 161 of the German Stock Corporation Act. It was made permanently accessible to the public on TUI's website. Accordingly, TUI AG complies with all recommendations of the German Corporate Governance Code in its currently applicable version dated 12 June 2006. In accordance with section 3.10 of the Code and also on behalf of the Supervisory Board, the Executive Board reports about corporate governance in a separate sector (Corporate Governance Report) of this chapter.

At their meetings, both the Audit Committee and the Supervisory Board dealt with corporate governance issues within the company several times. Due to the Supervisory Board elections held in the 2006 financial year and the resulting short duration of the term of office of the new members, the Boards did not have the efficiency of their own actions examined. The next efficiency review will be carried

PricewaterhouseCoopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft, Hanover, were appointed as the auditors by the Annual General Meeting held on 10 May 2006 and were commissioned by the Supervisory Board. The audit covered the annual financial statements of TUI AG as at 31 December 2006, submitted by the Executive Board and prepared in accordance with the provisions of the German Commercial Code (HGB), and the joint management report for TUI AG and the TUI Group and the consdidated financial statements for the 2006 financial year, the provisions of the International Accounting Standards Board (IASB) and complemented by the commercial-law provisions additionally required pursuant to section 315a sub-section 1. The auditors issued their unqualified audit certificate for the annual financial statements of TUI AG and the consolidated financial statements.

The financial statements, the management report and the auditors' reports were submitted to all members of the Supervisory Board. They were discussed at the Audit Committee meeting of 17 March 2007 and the Supervisory Board meeting on 18 March 2007, at which representatives of the auditors were present and were available to answer questions.

On the basis of its own audit of the annual financial statements of TUI AG and the TUI Group, the joint management report as at 31 December 2006 and the results of the audit, the Supervisory Board approved the annual financial statements prepared by TUI AG, which were thereby adopted, the consolidated financial statements and the Group management report. The Supervisory Board also examined and approved the proposal for the appropriation of the profits for the 2006 financial year submitted by the Executive Board.

Supervisory Board and committee membership
Ms Marina Schmidt resigned from the Supervisory Board on conclusion of 30 March 2006 since she was no longer a TUI Group employee as of that date due to the divestment of the TQ3 Group. The Supervisory Board thanks her for her cooperation based on trust.

With effect from the end of the Annual General Meeting on 10 May 2006, Messrs Fritz Kollorz, Dr. Klaus Liesen, Hans-Dieter Rüster, Hartmut Schulz and Dr. Ekkehard D. Schulz resigned from the Supervisory Board. The Supervisory Board thanks the gentlemen for their commitment over many years and acknowledges their achievements.

The employees' representatives to the Supervisory Board were elected on 5 April 2006. The shareholders' representatives were elected to the Supervisory Board at the AGM on 10 May. In these elections, Messrs Jean Claude Baumgarten, Andreas Barczewski, Sepp Dieter Heckmann, Alfred Linzmeier, Roland Schneider and Henry Sieb were newly elected to the Supervisory Board. The other members of the Supervisory Board were reelected. The current term of office will expire in 2011. The constituent meeting of the new Supervisory Board took place on 10 May 2006.

At its constituent meeting on 10 May 2006, the Supervisory Board elected Dr. Jürgen Krumnow chairman and Jan Kahmann vice-chairman of the Supervisory Board. These two gentlemen therefore automatically sit on the Presiding Committee. In addition, Ms Petra Oechtering and Ms Carmen Riu Güell as well as Messrs Uwe Klein and Dr. Franz Vranitzky were elected to the Presiding Committee. Ms Ilona Schulz-Müller and Messrs Uwe Klein, Dr. Jürgen Krumnow, Dr. Dietmar Kuhnt (chairman), Dr. Manfred Schneider and Olaf Seifert were elected members of the Audit Committee.

On 5 October 2006, Mr Alfred Linzmeier resigned from the

was appointed to the Supervisory Board.

Executive Board and Executive Committee membership
At its meeting on 25 January 2006, the Supervisory Board appointed Messrs Adolf Adrion (shipping), Christoph R. Mueller (airlines) and Karl J. Pojer (hotels & resorts) divisional directors with immediate effect.

With effect from 10 May 2006, the Supervisory Board appointed Messrs Michael Behrendt (shipping) and Peter Rothwell (tourism) as ordinary Executive Board members in addition to the four previous members. In addition to his new function as an Executive Board member of TUI AG Mr Michael Behrendt will continue to be the Chairman of Hapag-Lloyd AG. In addition to his new Board function, Peter Rothwell will continue to be in charge of Northern Europe.

With effect from 1 September 2006, the Supervisory Board appointed Mr Christoph R. Mueller a member of the Executive Board of TUI AG, responsible for the controlling department. He will temporarily also be in charge of the management of the two German airlines Hapagfly and Hapag-Lloyd Express. Mr Sebastian Ebel, previously responsible for the controlling and tourism platforms departments, resigned from TUI AG's Executive Board as per 31 August 2006 and left the Group. The Supervisory Board thanks Mr Ebel for his work as Board member of TUI AG and in leading positions within the Group.

With effect from 1 September 2006, the Supervisory Board appointed Mr Brackx the new divisional director for the Western Europe sector. Mr Eric Debry, previously in charge of this sector, resigned from his office as divisional director of TUI AG as per 31 August 2006 and left the Group. The Supervisory Board thanks Mr Debry for his work as divisional director of TUI AG and in leading positions within the Group.

Trading Update

TUI Travel PLC is pleased to provide an update on current trading and outlook. This announcement also contains the financial information for TUI Travel PLC which has today been disclosed as part of the TUI AG 3rd quarter results.

Summer 2007

Since the trading update announced on 26 September the Summer 2007 season has traded out well and as a consequence, the TUI Travel PLC Board is satisfied that both the First Choice and TUI Tourism businesses will meet their expectations in respect of their 2007 financial year ends.

Current Trading

For Winter 2007/08 and Summer 2008, demand across the group, for those businesses on sale, has remained encouraging.

UK consumer demand for leisure travel remains strong, reflecting higher demand for overseas holidays following poor weather conditions in Summer 2007. Consumers continue to view overseas travel as an integral part of their annual expenditure, a fact validated by the results of our annual survey of customers' attitudes on overseas travel and spending. This survey confirmed, for the third year running, that 80% of customers consider their holiday to be a significant event in the year and not a luxury item, while 90% said they would not choose holidays as the primary area on which to cut spending. In Germany, we are also experiencing healthy demand as the strengthening economy, buoyed by improving employment rates and rising disposable income, stimulates consumer demand for our portfolio of travel products.

Strong demand for leisure travel in our markets is borne out in the encouraging forward trading position for both the Winter 2007/08 and Summer 2008 programmes.

3 Laterooms.com - Winter season is not significantly sold at this point in time

As we enter the peak selling period for the Winter 2007/08 programme, we remain pleased with performance to date with load factors in the key source markets ahead of prior year.

UK Mainstream trading remains strong with total sales up 7% and margins tracking slightly ahead of last year. Volumes are down 2% on capacity reduced by 11%, primarily within the short-haul segment. First Choice continues to benefit from remixing its programme to differentiated medium-haul and long-haul product with sales up 24% and 22% respectively, with bookings driven by consumer demand for Egypt, Tunisia, Mexico and the Dominican Republic. Total capacity is down 10% primarily as the business reduces its Winter programme in the Canaries. Thomson sales are up 2% with 7% lower volumes on capacity reduced by 11%. Short-haul capacity for the season has been reduced by 29%, primarily as a result of scaling back loss making scheduled 'city pair' routes, on which capacity has been halved.

We are pleased with trading across the Nordics region, where margins are tracking ahead of last year, as demand for long-haul package holidays and differentiated content, such as the portfolio of Blue Villages, drive sales growth of 19%.

In both the Central Europe and Western Europe regions, we are experiencing strong growth with sales up 9% and 6% respectively, on capacity that is marginally up.

Within the Specialist sectors, demand for our portfolio of destination specialist businesses and activity adventure businesses remains strong, with sales up 4% and 11% on a like for like basis. In Canada, where market conditions are challenging, trading started more slowly than last year but has picked up in recent weeks, with the load factor for the peak months of January and February now in line with last year.

Summer 08

As we continue our post merger 100 day review, we are exiting unprofitable lines of business for Summer 2008 wherever possible, particularly within the short-haul segment in the UK and German source markets. As a result, UK capacity

2008 programme.

For Summer 2008, the UK & Ireland Mainstream and TUI Nordic programmes are the only businesses that have been on sale for any reasonable time period. Even though it remains early in the selling period, we remain encouraged by trading in the UK where sales are up 12% on volume growth of 6%. Margins in the UK & Ireland Mainstream business are slightly ahead of last year, despite continued cost pressures, particularly the year on year increase in fuel costs and APD recovery.

Currently, the First Choice programme remains 4 percentage points further sold than at the same point last year with sales 24% ahead on customer bookings that are up 18%. Both medium haul and long haul programmes are experiencing strong demand with sales up 36% and 17% respectively. In Thomson bookings are 1% down on capacity that has been reduced by 16%. The programme is 2 percentage points further sold than last year.

In the Nordic region, although it is early in the season, sales are up 23% on volume growth of 18%. The programme is 1 percentage point further sold than the prior year, with margins tracking ahead.

Integration Process

The integration process continues to progress in line with our expectations. On 29 January 2008, we will host an Investor Day at which we will present the conclusions of the first 100-day review, as well as updates on both the integration process and group strategy.

Proformas

TUI Travel PLC will issue proforma financial information for the 12 months ended 30 September 2007 and 30 September 2006 on 13 December 2007.

3rd Quarter Financial Results

TUI AG has today published its 3rd Quarter Interim Report. This report includes the results of the TUI AG Tourism division. It should be noted that the TUI AG Tourism division includes TUI Hotels & Resorts that do not form part of TUI Travel PLC.

The TUI AG 3rd Quarter Interim Report is based on the results of the TUI tourism division for the nine months to 30 September 2007 and First Choice Holidays for one month to 30 September 2007.

For ease of reference we have split out the TUI Hotels & Resort result in the table below. For completeness, we have also included, in Appendix 1 of this announcement, the extract from TUI AG's 3rd Quarter Interim Report that covers

Going forward TUI Travel PLC will report interim management statements, in addition to half-yearly and preliminary results, to the market to coincide with TUI AG quarterly announcements. These results will only include the businesses within TUI Travel PLC and will be reported in sterling.

Commenting on the announcement, Peter Long, Chief Executive, TUI Travel PLC said:

"I am pleased with the way Winter trading is progressing across our businesses. In the UK, early indications for next Summer's trading are very encouraging where we are benefiting from operating two very strong franchises. The integration of the TUI Tourism and First Choice businesses within the UK is progressing as planned and as I have been visiting the TUI Tourism businesses over the past few weeks, my conviction that we have an exceptional value

Underlying EBITA by division	681	594	+14.6	
Capital expenditure	109.5	129.9	-15.7	
Employees (30 September)	-	-	-	

Tourism turnover grew by 12.2% to e 5.8 billion in the third quarter and by 6.3% to e 12.0 billion in the first nine months of 2007. The Central Europe sector increased by 1.1% in the third quarter and by 4.4% in the first nine months of the year. This was due to the increase in customers both in package tours but also in the modular and seat-only business. The Northern Europe sector reported a slight increase in customers and a decline in turnover of 1.9% in the third quarter and 3.3% in the first nine months of the year. The Western Europe sector recorded an increase in turnover of 10.2% in the third quarter with cumulated turnover of 5.8% for the first nine months of the year, with an overall growth in customers. The incoming agencies recorded turnover increases of 6.4% in the third quarter and of 13.5% in the first nine months of the year. First Choice - consolidated fully for the first time in September 2007 - reported a turnover of e 500 million for that month. The Other tourism sector did not report any turnover due to the divestments in the 2006 financial year. In the TUI Hotels & Resorts sector, turnover increased by 28.9% and by 21.6% respectively, in the third quarter and in the first nine months of 2007. On a like-for-like basis, excluding Other tourism sector as well as First Choice, tourism turnover increased by 2.6% and 2.5%, respectively, for the third quarter and the first nine months of 2007.

Customer numbers tourism

Northern Europe	2.431	2.357	+3.1
Western Europe	1,731	1,619	+6.9
Total	8,386	7,761	+8.1

At e 631 million in the third quarter 2007, total earnings by the tourism division increased by 8.0%. In the first nine months of the year, total earnings by the tourism division decreased by e 246 million year-on-year. The main reason for the decline in earnings year-on-year in the first nine months was one-off income from the divestment of the business travel operations, which was included in the first quarter 2006 and the Dutch specialist tour operators totalling e 162 million. Adjusted for one-off effects, underlying earnings increased by e 87 million year-on year in the third quarter 2007 but declined by e 21 million in the first nine months of the year.

CENTRAL EUROPE

Capital expenditure	6.7	31.3	-78.6
Employees (30 September)	-	-	-

Turnover and earnings

In the Central Europe sector (Germany, Switzerland and Austria and airline TUIfly.com), the number of customers rose by 11.6% in the third quarter 2007, with cumulative customers for the first nine months of 2007 up 10.1%. Turnover increased by 1.1% in the third quarter with varying trends observed in the individual source markets. In the first nine months of 2007, turnover increased by 4.4%. The German and Swiss source markets contributed to this year-on-year growth, whilst Austria's performance declined year-on-year.

Earnings for the Central Europe sector fell by 18.5% year-on-year to e 141 million in the third quarter 2007. Earnings for the first nine months of the year also declined by 38.7% to e 84 million. Earnings in the third quarter 2007 included one-off expenses of e 2 million for the re-branding of the new brand TUIfly.com in the framework of the integration of the two airlines Hapag-Lloyd Flug and Hapag-Lloyd Express. There were also restructuring costs of e 3 million concerning the reorganisation of Austrian Gulet Touristik GmbH & Co KG. In the third quarter 2006 earnings included restructuring expenses of e 2 million, relating to the efficiency enhancement programme for the German market. Adjusted for these one-off effects in the third quarter 2007, underlying earnings totalled e 146 million, down 16.6% year-on-year. Cumulated underlying earnings

environment in the German flight sector.

Customer numbers Central Europe

'000	Q3 2007	Q3 2006	Var. %
Germany	3,771	3,333	+13.1
Switzerland	119	105	+13.5
Austria	334	347	-3.8
Central Europe	4,224	3,784	+11.6

Germany

Customers by TUI tour operators and TUIfly.com, grew by 13.1% year-on-year in the third quarter 2007 and 10.9% for the first nine months of the year. As before, this was largely attributable to the TUI Deutschland tour operators - both in the package tour and modular segments - and the seat-only business of TUIfly.com. Demand for Egypt, Turkey and Spain as well as long-haul destinations was very strong, while bookings to Italy, Tunisia and Sri Lanka were more subdued.

Switzerland

The Swiss tour operator market continued to develop very satisfactorily in the third quarter 2007. TUI Suisse tour operators recorded an increase in customers of 13.5% in the third quarter and of 17.1% in the first nine months of 2007. This was largely attributable to the two brands TUI and FlexTravel, while Vogele bookings were on last year's level.

Austria

In Austria, the tour operator market continued to weaken in the third quarter 2007. TUI Austria reported a 3.8% reduction in customers year-on-year, with customer numbers declining by 2.3% year-on-year in the first nine months of 2007. However, both the TUI and Terra brands improved, whilst Gulet remained below expectations. Demand was particularly good for Egypt and Turkey. Bookings to Spain were less strong.

Flight operations Central Europe - Key figures

TUIfly.com	55	51	+4	7.5	7.2	+4.8

TUIfly.com

airlines Hapag-Lloyd Flug and Hapag-Lloyd Express. Due to the new Boeing 737s, delivered in the second quarter, the number of operated aircraft increased by four aircraft year-on-year. There was no change in the number of operated aircraft compared with the second quarter 2007. The seat load factor was slightly down against last year's level. However, compared with the second quarter 2007, the airline managed to improve its seat load factor significantly by 11.6%-points.

Turnover and earnings

In the Northern Europe sector (UK, Ireland, Nordic countries and airlines Thomsonfly and TUIfly Nordic), the number of customers rose by 3.1% in the third quarter 2007 and 3.2% in the first nine months of the year in a continuing difficult market environment. This growth in customers was mainly driven by the increase in Thomsonfly's seat-only business. Turnover declined by 1.9% year-on-year in the third quarter and 3.3% in the first nine months of the year. Source market UK reported a decline in turnover both in the third quarter and in the first nine months of 2007 whilst source market Nordic countries managed to expand their business volume in the quarter as well as in the first nine months.

At e 239 million in the third quarter 2007, earnings for the Northern Europe sector were above last year's level. Earnings for the first nine months of the year reduced by e 102 million to e 84 million. Earnings in the third quarter included one-off expenses of e 3 million relating to changes to the air passenger duty in the UK which could not be passed on to customers as well as one-off expenses for the redemption of long-term bonus programmes and consultancy fees relating to the merger between First Choice and TUI's tourism division of e 15 million. No one-off effects were included in earnings for 2006. Adjusted for the one-off effects for the third quarter 2007, underlying earnings totalled e 257 million, an increase of e 22 million year-on-year. This increase in earnings was primarily attributable to the restructuring programme offset in the financial year 2006 taking effects now as well as first recovery trends in the UK travel market; however, the market environment remains difficult yet. The Nordic countries had again a strong third quarter and were able to increase earnings for the first nine months of 2007. For the first nine months of 2007, underlying earnings for the Northern Europe sector totalled e 130 million, a decline of e 56 million.

'000	Q3 2007	Q3 2006	Var. %
UK	1,990	1,822	+9.2
Ireland	50	157	-68.3
Nordic Countries	391	378	+3.3
Northern Europe	2,431	2,357	+3.1

UK

Market conditions in the UK remained difficult for the tour operators, leading to a reduction in customers; on the other hand, Thomsonfly recorded an increase in customers in the seat-only business. Total customers rose by 9.2% year-on-year in the third quarter 2007 and 6.1% year-on-year in the first nine months of 2007. In terms of short and medium-haul destinations, bookings to Portugal and France rose for the 2007 summer season, whilst bookings to Spanish destinations declined year-on-year.

Ireland

In the third quarter 2007, Ireland reported a 68.3% decline in customers. For the first nine months of the year, customers fell by 39.8% year-on-year. In the third quarter, the contract concerning the sale of the Irish tour operator Budget Travel to Primera Travel Group (Iceland) was closed. Thereby the requirements of the antitrust authorities in relation to the merger of TUI's tourism division and First Choice Holidays PLC were met.

Nordic countries

Tour operators in the Nordic countries met expectations in the third quarter 2007. The number of customers grew by a total of 3.3% in the third quarter, with cumulative customers for the first nine months of 2007 up 4.2%. Demand for Greece in particular was highly supported by higher demand for the Balearic Islands.

Flight operations Northern Europe - Key figures

	Number of operated aircraft			Seat kilometres (bn)		
	Q3 2007	Q3 2006	Var. abs.	Q3 2007	Q3 2006	Var. %
Thomsonfly	48	47	+1	8.1	8.7	-6.5
TUIfly Nordic	5	5	+/- 0	1.0	1.0	-5.1

Thomsonfly

kilometres offered both in the charter flight segment and the scheduled flight segment. As a result, the seat load factor increased year-on-year. The airline operated one more aircraft compared to the third quarter 2006.

TUIfly Nordic

Offered seat kilometres in the third quarter 2007 were reduced due to flight schedule adjustments. As a consequence the seat load factor in the third quarter increased year-on-year. The fleet size remained unchanged year-on-year.

WESTERN EUROPE

estern Europe - Key figures

Turnover and earnings

In the Western Europe sector (France, the Netherlands, Belgium and airlines Corsair, TUI Airlines Nederland and TUI Airlines Belgium), turnover increased in the third quarter 2007 by 10.2% against 2006 due to an increase in customers. Cumulative turnover for the first nine months of the year also grew by 5.8%. In the Netherlands, turnover increased for the third quarter as well as for the entire reporting period. In France, turnover grew year-on-year both in the third quarter and in the first nine months of the year with customer numbers on last year's level. Belgium reported a turnover above last year's level, while customer numbers increased.

Earnings by the division increased noticeably year-on-year to e 108 million in the third quarter 2007 and to cumulative e 51 million in the first nine months of the year. Earnings in the third quarter included restructuring expenses of e 2 million for reorganisation in the French and Dutch source markets. Earnings in the corresponding 2006 quarter included restructuring expenses as well as other one-off items from the fleet renewal of the Corsair Boeing 747 fleet and expenses from changes to the IT booking systems at Nouvelles Frontieres totalling e 7 million. Adjusted for these one-off effects, underlying earnings increased by 48.6% year-on-year. This was due to the from now on noticeable positive effects of performed restructuring programmes in the French business. The Dutch and Belgian organisations also developed positively in the third

Customer numbers Western Europe

'000	Q3 2007	Q3 2006	Var. %
France	521	513	+1.5
Netherlands	497	452	+10.0
Belgium	713	654	+9.0
Western Europe	1,731	1,619	+6.9

France

In France, the travel market experienced a slight recovery. In line with this, customers increased by 1.5% year-on-year in the third quarter. Cumulated customers for the first nine months were on last year's level. Bookings to North Africa and Guadeloupe in particular were up in the third quarter.

Netherlands

Whilst volumes in the Dutch travel market decreased in the third quarter, TUI's Dutch tour operators reported an overall increase of 10.0% in customers, with total growth in customers of 6.1% for the first nine months of 2007. Demand in the third quarter was very strong for the Caribbean, France and Egypt, whilst bookings to the Balearic Islands, Germany and Portugal declined slightly.

Belgium

In Belgium, the number of tour operator customers grew by 9.0% in the third quarter 2007 and 11.0% in the first nine months of the year. In terms of flight operations, demand for Turkey and Bulgaria was very strong in the medium-haul segment, while the Caribbean reported good booking levels in the long-haul segment. Bookings of self-drive tours matched 2006 levels, while city trips and short breaks recorded year-on-year growth in bookings.

Flight operations Western Europe - Key figures

	Number of operated aircraft			Seat kilometres (bn)		
	Q3 2007	Q3 2006	Var. abs.	Q3 2007	Q3 2006	Var. %
Corsair	8	8	+/- 0	4.3	4.3	+1.0
TUI Airlines Nederland	4	3	+1	1.2	1.0	+23.7
TUI Airlines Belgium	10	8	+2	1.8	1.6	+8.6

In the third quarter 2007, Corsair slightly increased the seat kilometre volume on offer due to the rise in demand in the long-haul segment. The seat load factor also increased, whilst the number of aircraft did not change year-on-year.

TUI Airlines Nederland/Arkefly

In the third quarter 2007, TUI Airlines Nederland operated one additional aircraft compared with the same quarter 2006. The seat kilometre volume rose accordingly whilst the seat load factor decreased slightly year-on-year.

TUI Airlines Belgium/Jetairfly

In the third quarter 2007, TUI Airlines Belgium operated two additional aircraft compared with the corresponding period 2006 and increased seat kilometres offered. The seat load factor on the expanded flight capacity increased year-on-year due to the increase in demand for tour operator products.

INCOMING AGENCIES

Incoming agencies - Key figures

e million	Q3 2007	Q3 2006	Var. %
Turnover	115.3	108.4	+6.4
EBITA by division	32	29	+10.3

Underlying EBITA by division	32	29	+10.3
Capital expenditure	1.6	0.9	+77.8
Employees (30 September)	-	-	-

Turnover and earnings

The incoming agencies sector reported a 6.4% increase in turnover year-on-year in the third quarter 2007. Cumulative turnover for the first nine months of the year increased by 13.5%.

Earnings for the division were stable, increasing by 10.3% to e 32 million in the third quarter 2007. At e 46 million in the first nine months of 2007, earnings were on last year's level. There were no one-off effects, neither in the third quarter 2007 nor 2006.

Incoming agencies reported a satisfactory business trend in the third quarter 2007 catering for 4.20 million guests, a 5.5% increase year-on-year. Agencies in the western Mediterranean reported different trends in guest numbers in the third quarter: TUI Espana recorded a slight fall in guests, primarily from source market UK. TUI Portugal however reported an increase in guests in all the Portuguese destinations and especially for the relatively new destination in the Cape Verde Islands. In the eastern mediterranean, the TUI Hellas and TUI Turkiye agencies again recorded increases in terms of guest numbers; as did Tunisia. In Egypt guest numbers were at last year's level in the third quarter. In the long-haul segment the Dominican Republic suffered a strong decline in guests. Mexico saw also a decline in the number of guests, in particular from Germany and the UK.

OTHER TOURISM

Other tourism - Key figures

TUI Travel PLC

Trading Update

Following the successful completion of the merger of the tourism businesses of TUI AG and First Choice Holidays PLC to form TUI Travel PLC, we are pleased to provide an update on current trading, acquisitions and business integration ahead of the start of our first full financial year for the 12 months ended 30 September 2008.

Current Trading

Since the trading numbers announced on the 9th August consumer demand across the TUI Travel businesses for Summer 2007 has remained strong. Forward bookings for Winter 2007/08 and early bookings for Summer 2008 are also very positive.

Summer 2007

After a relatively weak start to the Summer 2007 season, demand has picked up across all source markets and the Group has continued to trade in line with the Board's expectations.

(3) These statistics are for the online businesses only

MAINSTREAM SECTOR

Northern Europe (UK & Ireland and Nordic)

In the UK Mainstream business the First Choice brand, as anticipated, has performed particularly well with sales up 6% on flat capacity. This has been particularly driven by a strong long-haul offering and a recovery in medium-haul compared to last year. In the Thomson business sales are down 4% on lower capacity. This is primarily a result of remixing volume by reducing capacity in the package holiday segment and increasing participation in the component led independent travel segment. Whilst tightening the package holiday capacity in Thomson has led to good margin performance in the Summer, overall margins across the TUI Travel UK & Ireland businesses continue to be adversely impacted by higher APD taxes and the year on year increase in fuel costs.

The Nordic businesses which make up the rest of the Northern Europe Sector have had a strong Summer.

Central Europe (Germany, Switzerland and Austria)

In the German source market, although consumer demand has been strong with bookings up 10%, there has been a considerable increase in capacity leading to weaker selling prices, lower load factors and margin pressure. In addition, the German business has suffered as a result of third party tour operators returning capacity. For Summer 2008 capacity will be reduced to 48 aircraft from the current fleet of 55.

The other central European source markets have performed in line with our expectations.

Western Europe (France, Belgium and The Netherlands)

We are pleased with the performance in Western Europe where the Belgian and Dutch markets have performed very well with revenues up 10% and 14% respectively. The French business has also recovered strongly from a difficult Summer last year and will significantly reduce its loss for the year compared to 2006. All these businesses have seen margins improve year-on-year.

SPECIALIST SECTORS (Specialist, Activity and Online Destination Services)

throughout the summer. On a like-for-like basis sales are up 16% in Specialist, 3% in Activity and 40% in Online Destination Services. Margins have improved across these businesses.

Winter 07/08

All businesses that have Winter programmes on sale are currently performing well for the Winter season. Capacity has been tightened across a number of source markets and margins are currently ahead of last year. We are further sold in the UK by 5 percentage points compared to this time last year.

sales are 26% ahead on customer bookings that are up 24%. The programme is 3 percentage points further sold than at the same point last year and long-haul is selling particularly well. In Thomson sales are 2% ahead on capacity that has been reduced by 8%. Margins overall in the TUI Travel UK & Ireland business are slightly ahead of last year.

Acquisitions

Over the summer period we have completed nine acquisitions within niche specialist segments of the leisure travel market for a maximum consideration of £81.7m. An initial consideration of £52.2m has been paid with a further amount of up to £29.5m that could be paid as deferred and contingent consideration. For the eleven months ended 30 September 2007, we have made sixteen acquisitions for a maximum consideration of £227.5m with an initial consideration of £159.0m.

In addition, as recently announced, we have divested of Budget Travel, one of the Group's Irish businesses to Primera Travel Group, a privately owned Icelandic travel company. Completion of the sale is subject to approval from the EU Competition authority.

We have acquired businesses within the online, activity, premium escorted tours and student travel segments of the market:

- Within Online Destination Services, we have strengthened our position further in the Asia Pacific region by agreeing to acquire asiarooms.com, a leading online B2C provider of hotel accommodation in Asia. Asiarooms.com has established itself as a significant online retailer of accommodation by applying leading edge technology and web capabilities in one of the fastest growing travel markets. Its main source markets are the USA, UK, Singapore and Australia serving key destinations of Thailand, Singapore, Japan and Hong Kong. In the current year, the business is on track to sell nearly 4m bed nights. This acquisition adds to our growing position in the Asia Pacific region and online accommodation market where we continue to see excellent growth and margin opportunities for the Group going forward.

- In the Activity Holidays Sector, we have acquired four companies. Within the premium North American escorted tours segment, we acquired Starquest, an operator of themed luxury travel adventures by private jet. Along with our existing business, TCS (acquired as part of the Grand Expeditions acquisition in December 2005), we are now the clear market leader within this high-growth segment of the US travel market. As previously announced, we acquired Hannibal Travel Group which is a leading premium escorted tours operator serving the Danish 'baby boomer' and 'young professional' demographic. It also compliments our existing Danish activity operation. In addition, we have added to our Schools and Adventure Travel Group within the Adventure division with the acquisition of Ski Alpine, which is a provider of group ski trips to UK university students. Finally, we have entered the sports tour market with the acquisition of Australian Sports Tours which offers fully guided tours and independent travel packages through B2B and B2C distribution channels for major sporting events. Operating at double-digit margins and within a fast growing area of the marketplace, we are looking to develop our participation within this niche segment.

the forefront of the fragmented and high growth group performance segment of the student travel marketplace in the US.

- Within the Mainstream Sector, we have acquired an online car broker and an online independent package holiday review site. These businesses will further enable us to meet the needs of the travel consumer for flexibility and choice in their holiday decision making.

The acquisition pipeline remains strong as we continue to target travel companies, notably within the Asia Pacific region, online, activity and North American student travel segments, that exhibit excellent growth characteristics and the ability to generate premium margins, high earnings growth and strong cash flow.

Integration Process

The integration process has started very well. The UK and Ireland management team has been announced and the two integration teams across the business are now fully operational. We are increasingly confident that during the first 100 days strategic clarity will be reached on a number of key business issues and that, over the stated three year period, we will deliver at least £100m in synergy benefits.

Outlook

In line with previous statements by both First Choice and TUI AG and based on the Summer 2007 trading numbers the TUI Travel Board is satisfied that these businesses will meet their expectations in respect of their current financial year ends. This is based on the continued trading progress made during Summer 2007 together with the benefits of the cost restructuring in the TUI Tourism businesses that are coming through in the second half of 2007 particularly in the 4th quarter.

Going forward, the first TUI Travel PLC year-end will be 30 September 2008. Accordingly, for comparative purposes proforma financials for the 12 months ended 30 September 2007 and 30 September 2006 are being produced. These will be available for release in early December. In arriving at the September numbers, adjustments will arise as we harmonise the October year-end of First Choice and the December year-end of TUI Tourism.

Commenting on the trading update, Peter Long, Chief Executive, TUI Travel PLC said:

"I am pleased with the way the peak summer season trading has progressed across our businesses and the signs for future seasons' trading are very encouraging particularly in the UK where we are benefiting from two strong franchises. Our acquisition pipeline remains strong and I am delighted with the acquisitions we have completed. Acquisitions remain a key priority for TUI Travel.

as I have been visiting the TUI Tourism businesses over the past few weeks my belief that we have an exceptional value creation opportunity by combining the best of both businesses has been reinforced."

Future communication dates

The next communication dates for the company will be as follows:

8 November	Trading update in conjunction with TUI AG's 3rd qua
Early December	Proforma financials for the twelve months to 30 Sep
29 January	Strategic update and Interim Management Statement

TUI Travel PLC

Exercise of Shares

TUI Travel PLC, the new company formed by the merger of First Choice Holidays PLC and the Tourism Division of TUI AG has today begun trading on the London Stock Exchange. Following an extended close period associated, inter alia, with the merger, and as part of a larger sale of shares by employees, the following share transactions were undertaken by Peter Long (Chief Executive) and Paul Bowtell (Chief Financial Officer) on 3 September 2007:

In total Peter Long sold 2,441,707 shares, of which 854,256 were sold to cover taxation and national insurance and 360,577 were sold to cover the option price under the Senior Executive Plan.

In total Paul Bowtell sold 705,615 shares, of which 428,981 were sold to cover taxation and national insurance.

Further details of the shares sold from various share schemes and bonus schemes are set out below.

The following shares were exercised and sufficient shares sold to cover the taxation and national insurance obligations:		
	Exercised	Sold
Peter Long		
Deferred Annual Bonus Scheme	122,308	50,147
Deferred Annual Bonus Scheme (Matching Shares)	499,792	*229,708
Performance Share Plan	271,489	111,311
* Plus sale of additional 24,792 shares		
Paul Bowtell		
Restricted Share Plan	577,442	236,752

The following shares were exercised and sold (which

	Exercised	Sold
Peter Long		
Deferred Annual Bonus Scheme	130,862	130,862
Restricted Share Plan	460,775	460,775
Paul Bowtell

Deferred Annual Bonus Scheme (Matching)	235,595	235,595
Performance Share Plan	113,355	113,355

The following options were exercised and sold (which includes a proportion to cover taxation, national insurance obligations and the option price of 109.50p		
	Exercised	Sold
Peter Long		
Senior Executive Plan	958,904	958,904

The share price for all transactions detailed above was 291.20 pence.

As a result of the above transactions the relevant Directors have beneficial interests in TUI Travel PLC shares as follows:

In total Peter Long retains an interest in 4,466,417 shares, relating to 2,872,129 personal holding, 828,096 share options and 766,192 deferred annual bonus share awards.

In total Paul Bowtell retains an interest in 704,019 shares, relating to 353,463 personal holding and 350,556 deferred annual bonus share awards.

In addition to the above transactions, the TUI Travel PLC Employee Benefit Trust ("EBT") has today purchased 4,400,000 shares at a price of 291.20 pence per share to satisfy future obligations of the EBT. The Directors of TUI Travel PLC are, amongst others, potential future beneficiaries of the EBT.

TUI TRAVEL PLC BEGINS TRADING ON THE LONDON STOCK EXCHANGE

TUI Travel PLC is pleased to announce that the merger of First Choice Holidays PLC and the Tourism Division of TUI AG has been successfully completed. As a result, First Choice Holidays PLC's listing was cancelled at 8.00am today and the ordinary shares of the new combined group, TUI Travel PLC, have been admitted to the Official List of the UK Listing Authority and to trading on the London Stock Exchange's market for listed securities.

As previously announced, a detailed review of all the businesses will be undertaken over the coming months to help the Group identify enhanced opportunities in the businesses and to build on its stated strategy. In addition, cost efficiencies identified will be actioned during this period and beyond. It is the Group's intention to present the results of the review in January 2008.

Commenting on the completion of the merger, Peter Long, Chief Executive TUI Travel PLC said:

"The creation of TUI Travel PLC, one of the world's leading leisure travel companies, represents real growth opportunities for us as a Group. Not only will our shareholders benefit from efficiencies but we are also well positioned to deliver strong organic and acquisition led growth."

Dr Michael Frenzel, Chairman of TUI Travel PLC added:

"TUI Travel has tremendous opportunities ahead of it. We will bring together some of the best known brands in leisure travel coupled with excellent management expertise. TUI Travel will be actively shaping the future of the tourism business."

31 August 2007

FIRST CHOICE HOLIDAYS PLC

ORDER CONFIRMING THE REDUCTION OF CAPITAL RELATING TO THE MERGER WITH THE TOURISM DIVISION OF TUI AG TO CREATE TUI TRAVEL PLC

First Choice Holidays PLC ("First Choice") announces that, at a hearing held earlier today, the High Court of Justice in England and Wales (the "Court") granted an order confirming the reduction of capital (the "Reduction Court Order") relating to the scheme of arrangement (the "Scheme") between First Choice and the holders of the Scheme Shares. As previously announced by First Choice, the Scheme was sanctioned by the Court at a hearing held on 29 August 2007.

It is intended that the Reduction Court Order, together with the order of the Court sanctioning the Scheme (the "Scheme Court Order"), will be delivered to the Registrar of Companies in England and Wales for registration on Monday 3 September 2007. The Scheme and the reduction of capital will consequently become effective as soon as office copies of the Scheme Court Order and the Reduction Court Order have been delivered to the Registrar of Companies for registration on Monday 3 September 2007 and, in the case of the Reduction Court Order, have been registered by him. At that time the merger between First Choice and the travel and tourism division of TUI AG, excluding certain hotel assets, will be completed.

Indicative timetable

The indicative timetable for implementation of the Merger is currently expected to be as follows:

Last day of dealings in First Choice Shares	31 August 2007
Scheme Record Time	6.00 p.m. on 31 August 2007
Cancellation of listing of First Choice Shares	8.00 a.m. on 3 September 2007
Scheme Effective Date	3 September 2007
Completion of the Merger	3 September 2007
Expected date of Admission and commencement of dealings in TUI Travel Shares	3 September 2007
CREST accounts expected to be credited with TUI Travel Shares	on or around 3 September 2007
Latest date for despatch of definitive certificates for TUI Travel Shares in certificated form	17 September 2007

Capitalised terms used but not defined in this announcement have the same meaning as given to them in the circular to shareholders dated 29 June 2007.

29 August 2007

FIRST CHOICE HOLIDAYS PLC

ORDER SANCTIONING THE SCHEME OF ARRANGEMENT RELATING TO THE MERGER WITH THE TOURISM DIVISION OF TUI AG TO CREATE TUI TRAVEL PLC and TERMINATION OF DIVIDEND REINVESTMENT PLAN

The High Court of Justice in England and Wales (the "Court") has today made an order (the "Scheme Court Order") sanctioning the scheme of arrangement (the "Scheme") between First Choice Holidays PLC ("First Choice") and the holders of the Scheme Shares.

The hearing of the Court to confirm the reduction of capital associated with the Scheme (the "Reduction Court Hearing") is scheduled to take place on Friday 31 August 2007.

It is intended that the Scheme Court Order, together with the order of the Court confirming the reduction of capital associated with the Scheme (the "Reduction Court Order"), will be delivered to the Registrar of Companies in England and Wales for registration on Monday 3 September 2007. The Scheme and the reduction of capital will consequently become effective as soon as office copies of the Scheme Court Order and the Reduction Court Order have been delivered to the Registrar of Companies for registration on Monday 3 September 2007 and, in the case of the Reduction Court Order, have been registered by him.

Dealings in the ordinary shares of TUI Travel PLC ("TUI Travel"), the holding company of the enlarged group, are expected to commence at 8.00 a.m. on 3 September 2007.

Indicative timetable

The indicative timetable for implementation of the Merger is currently expected to be as follows:

Date of Reduction Court Hearing	31 August 2007
Last day of dealings in First Choice Shares	31 August 2007
Scheme Record Time	6.00 p.m. on 31 August 2007
Scheme Effective Date	3 September 2007
Cancellation of listing of First Choice Shares	8.00 a.m. on 3 September 2007
Expected completion of the Merger	3 September 2007
Expected date of Admission and commencement of dealings in TUI Travel Shares	3 September 2007
CREST accounts expected to be credited with TUI Travel Shares	on or around 3 September 2007
Latest date for despatch of definitive certificates for TUI Travel Shares in certificated form	17 September 2007

As a result of this timetable, the First Choice Dividend Reinvestment Plan ("DRIP") will not be available for shareholders in relation to the interim dividend which is to be paid by First Choice on 26 September 2007 to holders of First Choice Shares on the register on 24 August 2007. The Board has decided to terminate the DRIP with immediate effect and notice of the termination will be posted to participants in the DRIP shortly. Accordingly, holders of First Choice

It is intended that TUI Travel shareholders will be offered the chance to participate in a new TUI Travel Dividend Reinvestment Plan following the Merger. Details of the new TUI Travel Dividend Reinvestment Plan will be posted to TUI Travel shareholders in due course following completion of the Merger.

Capitalised terms used but not defined in this announcement have the same meaning as given to them in the circular to shareholders dated 29 June 2007.

First Choice Holidays PLC

Trading Update & Financing Announcement

To coincide with the announcement of the TUI AG Q2 results, and ahead of providing quarterly updates post-completion, First Choice Holidays PLC today announces an update on current trading and financing arrangements.

Financing Update

Acting on behalf of TUI Travel PLC with our colleagues at TUI AG, we are delighted to announce the successful syndication and signing of TUI Travel PLC's debut £1.2bn credit facility. The facility comprise two tranches - a £770m five year revolving credit facility and a £430m nine month bonding facility with a twelve month extension option. The facility is for the general corporate purposes of TUI Travel PLC including refinancing existing First Choice facilities and replacing existing First Choice and TUI Tourism bonding facilities.

The transaction was significantly oversubscribed, which we believe reflects the financial market's confidence in the strategic rationale and growth opportunity of the new Group. Due to such strong demand, the new facilities arranged are £200m more than originally sought. This was achieved at highly competitive margins over LIBOR of 75bps for the revolving credit facility and 55bps for the bonding facility.

Trading Update

In the six weeks since our trading update, the Group has continued to trade in line with the Board's expectations.

Current Trading (1)

y-o-y variation%		Summer 07 Sales	Customers
Mainstream			
	Short haul	-3	Flat
	Medium haul	+1	+1
	Long haul	+27	+23
Total		+6	+3
Capacity			Flat
Specialist			
	Europe	+16	+14
	North America (2)	+6	-2
Total		+15	+13
Activity			
	Marine	+1	N/a
	Adventure (2)	+6	N/a
Total		+3	N/a
Online Destination Services		Sales	Bednights
Online			
	Hotelbeds	+47	+24
	Bedsonline	+41	+34
	Hotelopia	+24	+4
Total		+42	+25

(2) These statistics exclude FY2006 and FY2007 acquisitions

For the Summer 2007 season, the Mainstream Holidays Sector has continued to see the rate of sale increase and is tracking in line with our internal expectations, with revenues now cumulatively up +6% on volume growth of +3%. As previously announced, we have cut capacity in the short-haul segment, while increasing capacity within long-haul by +25%, thereby maintaining overall capacity flat with the prior year. Given the continued strong demand, we have less capacity left to sell for the remainder of the season compared to last year. Despite the encouraging rate of sale, margins continue to be adversely impacted by higher APD taxes and the year-on-year increase in fuel costs.

The Specialist Holidays Sector has continued to experience strong demand for its destination and lifestyle specialist products, with cumulative revenues up +15% on volume growth of +13%. Margins have benefited from the strong customer demand and are tracking in line with the Board's expectations.

In the Activity Holidays Sector, revenues are up +3% overall, with the Adventure businesses continuing to experience strong demand for its range of products, with revenues on a like-for-like basis up +6% for the season. Marine revenues are up +1%, with margins for the Sector tracking slightly ahead of last year.

All routes to market within the Online Destination Services Sector are performing well with revenues up +42% and bednights up +25%, and margins tracking ahead of last year. The Sector continues to grow as independent tour operators, travel agents and consumers (primarily through our successful partnerships with low cost airlines such as EasyJet) seek access to our accommodation bed-bank of over 25,000 hotels in 900 leisure destinations. Laterooms.com continues to perform ahead of our expectations with sales and bednights up +61% and +58% respectively, as the business experiences significant demand for late availability bedstock.

Merger Update

The merger process continues to remain on track following shareholder approval for the transaction on 25 July 2007. It is expected that admission and completion of the Merger will take place on 3 September 2007.

Commenting on the trading and financing update, Peter Long, Chief Executive said:

"I am pleased with the way summer trading is progressing and we remain on track to meet our internal expectations for the full year. Capacity is being well managed and demand remains strong for our products across all sectors. The successful refinancing is a major step towards the launch of TUI Travel PLC and I am delighted with the support we have received from our banking partners. I now look forward to the completion of the merger process and leading my colleagues through the integration process to create one of the world's leading travel groups."

FIRST CHOICE HOLIDAYS PLC

RESULTS OF COURT MEETING AND EGM

The Board of First Choice Holidays PLC ("First Choice") announces that at the meeting convened by the Court and the Extraordinary General Meeting held today all the resolutions contained in the Notice of Court Meeting and the Notice of Extraordinary General Meeting were passed by the requisite majorities.

Accordingly, the merger of First Choice and the Tourism Division of TUI AG has now been approved by First Choice Shareholders. Subject to the Court sanctioning the Scheme, and confirming the associated reduction of capital, and the satisfaction or waiver of certain other outstanding conditions, completion of the merger and the listing of the TUI Travel PLC shares are expected to occur on 3 September 2007.

Voting Results

The resolution proposed at the Court Meeting to approve the Scheme was passed on a poll of holders of the Scheme Shares. The result of the poll was as follows:

To approve the Scheme:

	Number of Scheme Shares voted	% of Scheme Shares voted	% of issued Scheme Shares	Number of Scheme shareholders voting	% o sha vot
For	344,648,429	99.94%	64.96%	1,173	93.
Against	199,067	0.06%	0.04%	87	6.9

The Extraordinary General Meeting was held to consider resolutions to approve (1) the Scheme, (2) the proposed waiver of Rule 9 of the Takeover Code, (3) the operation of the TUI Travel PLC Performance Share Plan, (4) the operation of the TUI Travel PLC Deferred Annual Bonus Scheme, (5) the operation of the TUI Travel PLC Sharesave Scheme, (6) the operation of the TUI Travel PLC Share Incentive Plan and (7) the operation of the TUI Travel PLC Value Creation Synergy Plan. Resolutions (1) and (3)-(7) were passed on a poll. Resolution (2) was passed on a poll of independent Shareholders. The results of the polls were as follows:

Res'n	Description	Votes For	%	Votes Against	%	Abs
1	Special resolution to approve the Scheme of Arrangement, to amend the Articles of Association of the Company, to cancel all the Scheme Shares, to reduce the capital of the Company, to increase the authorised share capital of the Company and to allot new shares	345,015,999	99.81	656,204	0.19	5,7
2	Ordinary resolution to approve the waiver by the	350,039,142	99.90	353,604	0.10	998

	to make a general offer to all the shareholders of the Company pursuant to Rule 9 of the Takeover Code					
3	Ordinary resolution to approve the TUI Travel Performance Share Plan	333,392,800	95.69	15,000,256	4.31	2,9
4	Ordinary resolution to approve the TUI Travel Deferred Annual Bonus Scheme	327,848,718	96.15	13,144,450	3.85	10,
5	Ordinary resolution to approve the TUI Travel Sharesave Scheme	351,026,854	99.91	302,082	0.09	61,
6	Ordinary resolution to approve the TUI Travel Share Incentive Plan	351,076,526	99.93	251,819	0.07	62,
7	Ordinary resolution to approve the TUI Travel Value Creation Synergy Plan	313,547,317	91.27	29,981,529	8.73	7,8

The expected timetable of the remaining principal events will be as follows:

Court hearing to sanction the Scheme	29 August 2007
Court hearing to confirm the reduction of capital	31 August 2007
Expected date of completion, listing of TUI Travel PLC shares and commencement of dealings	3 September 2007

The number of First Choice Shares in issue as at 10.00 am on Wednesday, 25 July 2007 was 530,577,303. No First Choice Shares were held in Treasury.

Terms used but not defined in this announcement have the same meaning as given to them in the circular to shareholders dated 29 June 2007.

FIRST CHOICE HOLIDAYS PLC AND TUI AG

PUBLICATION OF PROSPECTUS

The Boards of First Choice Holidays PLC ("First Choice") and TUI AG announce that the prospectus for TUI Travel PLC prepared for the purposes of the proposed merger of First Choice and the Tourism Division of TUI AG ("TUI Tourism") has been published today. The prospectus and the circular relating to the proposed scheme of arrangement (the "Scheme") of First Choice will be posted to shareholders next week.

The merger remains subject to a number of conditions, including the approval of First Choice shareholders, approval of the Scheme by the Court and listing of TUI Travel PLC shares.

First Choice shareholders will be sent a circular setting out full details of the Scheme, together with the prospectus. The prospectus contains further information on First Choice, TUI Tourism and TUI Travel PLC, inclusive of a trading update.

Current trading and prospects for TUI Tourism

Trading for the financial year 2007 is in line with the Board's expectations. Overall demand in the travel market remains strong, with varying levels of growth in demand across TUI Tourism's source markets.

Overall, bookings for the 2007 Summer season have started well, with customer numbers up 7.8 per cent. and booked revenues up 2.8 per cent. year-on-year, as at 22 June 2007. The Central Europe Sector, which includes the large German source market, recorded a good increase in bookings, although the Sector's results are affected by start-up costs in connection with the restructuring of flight operations under the new brand TUIfly.com. Customer numbers and booked revenues have also increased in the Western Europe Sector, although the Northern Europe Sector has experienced a decline year-on-year due to difficult market conditions in the UK and Ireland.

Despite varying trends across TUI Tourism's source markets, in the absence of significant adverse events the performance for the full year is expected to be in line with the Board's expectations.

Current trading and prospects for First Choice

Trading for the financial year 2007 has been in line with the Board's

volume growth of one per cent., with overall capacity flat on 2006. Capacity in the short-haul market has been reduced by five per cent., with revenues down seven per cent. on lower volumes of five per cent. Within the medium-haul segment, where capacity has been maintained at 2006 levels, both revenues and volumes are flat. The long-haul segment has experienced strong demand, with capacity up by 25 per cent. and revenues up by 26 per cent. on volume growth of 22 per cent.

The Specialist Holidays Sector has had an excellent start to the 2007 Summer season across all its businesses, with sales and volumes as at 24 June 2007 up 18 per cent. and 16 per cent., respectively, on 2006 as a result of increased demand for lifestyle and destination specialist products.

In the Activity Holidays Sector, Summer revenues were up five per cent. as at 24 June 2007, as the Sector continues to perform in line with the Board's expectations. Revenues were up seven per cent. in the Adventure business and up two per cent. in the Marine business, on a like-for-like basis. Margins are currently slightly ahead of last year for the Summer programme.

In the Online Destination Services Sector, all routes to market as at 24 June 2007, continue to grow and are performing well, with sales and bednights up 50 per cent. and 30 per cent. respectively, with margins also ahead of last year. The integration of laterooms.com is progressing as planned, as the business enjoys strong demand for late availability bedstock, with sales and volumes up 78 per cent. and 73 per cent. respectively.

Timetable

The timetable of principal events will be as follows:

First Choice shareholder meetings	25 July 2007
Final court hearing to sanction Scheme / reduction of capital	31 August 2007
Expected date of completion, listing of TUI Travel PLC shares and commencement of dealings	3 September 2007

The prospectus is available on the First Choice website at www.firstchoiceholidaysplc.com and at the FSA Document Viewing Facility.

Conference call

There will be a conference call for analysts on Tuesday 3 July at 9am. The call-in details are:

Group believes that underlying operating loss, underlying loss before tax
derlying loss per share provide additional guidance to statutory measures
underlying performance of the business during the financial period.
ying loss before tax and underlying operating loss exclude separately
sed items, amortisation of business combination intangibles, impairment of
ll and taxation of losses of the Group's joint venture and associate.

ting on the results, Peter Long, Chief Executive said:

pleased with the first half trading performance in what has been a
nging market, particularly in the UK and of course an exceptionally busy
for the company. The recent acquisitions are performing very well and
peline remains strong."

ves me great confidence for the future that we have such strength in depth
our management team that we have been able to pursue a large corporate
ction with TUI, complete the competition process whilst still delivering a
rading performance and integrating a number of acquisitions. Over the
ew months this capability will be vital as we focus on delivering the
s through the key summer period and completing the merger."

rstchoiceholidaysplc.co.uk

INTERIM STATEMENT

ew

rst half performance of the Group has been in line with our expectations
are pleased to report a satisfactory overall result despite challenging
g conditions in some markets. We have continued to actively manage
ty and differentiate our Mainstream business through greater emphasis on
ive product and medium and long-haul destinations, whilst building a
lio of niche leisure travel businesses that operate in high growth
ts. This strategy provides us with flexibility and the ability to
ify risk across the Group and drive margin growth.

the period, we were pleased to announce the proposed creation of one of
rld's leading travel groups, TUI Travel PLC through the recommended merger
st Choice and the tourism division of TUI AG (excluding certain hotel
). The strong strategic fit of the businesses, combined with a leading
ment team provides the opportunity to create one of the world's most
able travel groups. The merger will enable us to deliver sustainable

e and long-term earnings growth while deriving cost advantage from
ging both synergy opportunities and econ es of scale to enhance margins.

ial results

oup achieved underlying loss before tax of £82.5m (2006: £76.5m), with
ying operating loss reduced by 1% to £66.5m (2006: £67.0m), on revenue
of 6% to £1,018m (2006: £961m). The 8% increase in underlying loss before
£82.5m was primarily as a result of higher net financing expenses (up
to £16.0m) due to interest on acquisitions in the first half (£3.0m of the
se), the full period impact on interest expense of FY06 acquisitions
of the increase) and higher borrowing costs as a result of the recent
in UK interest rates (£1.0m of the increase). Consequently, underlying
er share increased to 11.4 pence (2006: 10.5 pence). The Board has
ed an interim dividend of 2.50p (2006: 2.25p) per ordinary share. This
ents an increase of 11% compared to the same period in the prior year.

oup's results, on both a statutory and underlying basis, are set out in
ble below.

nths ended 30 April	2007	2006
e	£1,018m	£961m
ying operating loss	(£66.5m)	(£67.0m)
ying loss before tax	(£82.5m)	(£76.5m)
ory operating loss	(£86.3m)	(£68.7m)
ory loss before tax	(£102.8m)	(£78.2m)
ying basic loss per share	(11.4p)	(10.5p)
ory basic loss per share	(14.2p)	(11.0p)

nciliation of underlying loss before tax to statutory loss before tax is
lows:

	2007 £m	2006 £m
ying loss before tax	(82.5)	(76.5)
tely disclosed items	(12.9)	-
n disposal of investment in associate	(0.5)	-
sation of business combination intangibles	(7.9)	(2.5)
on on profits of joint venture and associate	1.0	0.8
ory loss before tax	(102.8)	(78.2)

viously announced, due to the UK Government raising Air Passenger Duty
in December 2006, we have been unable to recover the one-off cost of the

pective tax for bookings made pre 6 December 2006. In addition, we have
ed some further costs in closing underperforming business units in the
half in Germany and Belgium and downsizing and restructuring particularly
h outsourcing back office operations in the Mainstream Holidays Sector. We
ncurred advisor fees and other related costs in connection with the
ial sale of the Mainstream Sector which was terminated on 12 February
Accordingly, the Group has incurred separately disclosed items of £12.9m
£nil).

t continues to be a particularly challenging UK market, the Mainstream ys Sector has performed in line with our expectations. The Sector's e for the six months ended 30 April 2007 was £367.7m (2006: £352.5m), with erlying operating loss of £60.9m (2006: £54.8m). The increase in the ying loss is attributable to a number of factors, including the impact of crease in APD resulting in a £2.5m impact to margin. As previously ced, we have not been able to fully recover the rise in fuel prices from stomers, resulting in a £2.0m impact to profitability, while the uing investment in the long-haul programme has cost £3.0m in the first We now have our full complement of six long-haul B767s, with five ing and one providing dedicated standby cover, all of which will be in ion until we start to take delivery of our first B787s in 2009.

capacity was flat year-on-year with a 7% reduction in short-haul, 8% in -haul and a 30% increase in long-haul. The demand for our long-haul ng is very encouraging and it now accounts for 25% of our Winter programme 19%).

tinue to increase our control of distribution and in the Winter period 62% 57%) of First Choice product was sold through our own channels, while for 2007 it is 71% (2006: 66%). The investment in exclusive differentiated t continues. In the Winter we operated five Holiday Villages, including rst long-haul Holiday Village in the Dominican Republic. Our newest y Village, in Egypt, has opened for this Summer and two more Holiday es, Mexico and Cyprus, will open next Summer.

list Holidays

ector operates a business model characterised by destination lisation and expertise, flexible accommodation and flying arrangements iche brands in each source market. The Sector delivered an underlying ing profit of £10.9m (2006: £9.4m) on revenues of £400.6m (2006: £428.3m), enting a margin improvement of 50 basis points. The performance was primarily by a strong UK performance, managing capacity in a challenging an market and in the key European source markets.

ean Specialist Businesses

K Specialist businesses enjoyed an excellent Winter with underlying
ting profits increasing by £1.0m year-on-year. The restructuring of the
ion and the investment in a dynamic new selling system is now yielding
its with controlled distribution increasing from 57% of total bookings to
cross the Division. In the Continental European Specialist businesses the
of sale continued to improve throughout the season with the businesses
ing capacity carefully throughout the period. Egypt has continued to
er from terrorist incidents which affected trading during the Winter 2006
, while capacity to Morocco increased by 33% following the launch of a
er Marmara club in the destination, which proved extremely popular with our
mers.

eviously announced, we have decided to scale back, or close, certain
er businesses in Continental Europe which had sales in the year ending 31
er 2006 of £36.3m. The £4.5m benefit arising from these actions will be
ed in the current financial year.

American Specialist Businesses

nadian market remains highly competitive and this Winter the weather was
nseasonally warm during December and January. Despite the competitive
nment, Signature Vacations performed strongly across all the regions of
untry, as we were able to successfully manage capacity despite weakened
during the early part of the season with minimal impact on profitability.

irst Choice Student Travel businesses based in the USA and Canada performed
e with our expectations. The recent acquisitions in educational student
have integrated well into the division and are performing as anticipated.

assenger and revenue KPI's include FY06 and FY07 acquisitions, and exclude discontinued perations.

ther includes revenue relating to discontinued operations in FY06 and FY07 and the impact of hanging foreign exchange rates.

ty Holidays

tivity Holidays Sector delivered an underlying operating loss of £6.8m loss of £7.5m) on revenue growth of 25% to £174.7m (2006: £140.1m). The improvement in the underlying operating loss was primarily a result of ued growth in the Adventure division and the contribution from in-year and year acquisitions.

nsail Yachts and Moorings' integration is progressing well and we remain rget to deliver the anticipated cost synergy benefits of £5m this year, is ahead of our original target.

l Clubs has reduced capacity following the closure of the Javelin Club in for re-development, it is planned to re-open the Javelin Club in 2008. narket remains challenging with a number of competitors offering holidays nificantly discounted prices. Our newest club, Phokaia in Turkey is in its year of operation and demand is very high, up 56% year-on-year, giving us dence that, despite the competitive environment, a superior club experience

ortant to our customers.

ncy levels within Inland Waterways have risen over the season, while the of direct sales has increased by four percentage points to 46% (2006:

ure

venture division, which includes First Choice Expedition Cruising, med in line with our expectations with consumer demand for adventure-style ys continuing to drive top-line and margin growth, with total revenues up £105m (2006: £82m) and like-for-like revenues up 19%. During the period, iewed our participation in the expedition cruising market and took the gic decision to focus solely on polar expedition cruising. As a uence, we acquired Quark Expeditions the world's leading operator of tion cruise voyages to the polar regions. Quark operate six ships in the region and has built up market leading expertise in this activity. This ition will allow us to combine the Peregrine ships to create the -leading operator in the polar expedition cruising market. As a result of ecision, after the period end, we sold the two Clipper ships that we ed with the INTRAV acquisition for net disposal proceeds of £16m, although e retained a medium-term charter on the Clipper Adventurer. In our n access to this type of capacity is important but ownership of the assets t the optimum use of capital when capacity was readily available in the place. With our enhanced position in this market we will be able to ntially improve our itineraries in the 2007/08 cruising programme.

hools business performed well during its key trading period including a performance from the Travel Class business we acquired in 2006. The ki business benefited from restructuring and delivered excellent growth its key trading period.

ter 2006/07

erating margin	(3.9)%	(5.3)%	1.4ppts

inter 2006/07 revenue includes First Choice Expedition Cruising, which is not included in the
rading updates

ed Tours

corted Tours division enjoyed revenue growth of 9% to £21.3m (2006:
) as the portfolio of cultural and luxury escorted tour operators
ued to benefit from strong consumer-led growth for these products.

Destination Services

line Destination Services Sector has achieved 29% like-for-like growth in
ying operating profit in the first half with like-for-like revenues up 11%
tal revenues up 88% to £74.7m (2006: £39.8m). Total underlying operating
has risen 159% to £1.0m (2006: £1.7m loss) as a result of the continued
in the Hotelbeds and Bedsonline routes to markets, the recovery in Mexico
estination which was adversely affected last year by Hurricane Wilma and
quisition of Laterooms.com.

tegration of last year's acquisitions, Meridian and Pacific World, remains
e with expectations and has resulted in the Sector bed-bank increasing
ntially for all the main destinations in China and South East Asia.

oms.com, which we acquired in December 2006, had an excellent first four
in the Group and has so far delivered a financial performance in excess
expectations. We are delighted with this performance and remain confident
his business will complement our existing online capability.

e acquired businesses within the online, adventure, premium escorted tours rth American student travel segments of the market:

the online market, we acquired laterooms.com, an online hotel price mparator and genuine provider of late availability accommodation. This siness operates in a high growth niche market as hoteliers seek to stribute their unsold stock.

thin North American Student Travel we have acquired two businesses, ung Explorers an educational tours business based in Canada and KSA Events ich offers participation by high school students in organised sporting ents and tournaments. The acquisition of KSA Events provides us with the atform to enter the group performance segment of the student travel

rketplace in the US, which demonstrates similar high-growth
aracteristics to our existing high school leisure and educational group
avel propositions.

the Activity Holidays Sector we have acquired four businesses within
e Adventure division in the first half. i-to-i, headquartered in the UK,
s established itself as a leading provider of Meaningful Travel
periences while iExplore, Inc. is a US premium adventure travel internet
rtal and WesternXposure is an Australian operator of adventure tours in
stern Australia and the Northern Territory. Within expedition cruising, we
quired Quark Expeditions, the world's leading operator of expedition
uise voyages to the Polar Regions, and recently disposed of the two
ipper cruising ships to enable our business to focus exclusively on
pedition cruising.

the period end, we acquired Hannibal Travel Group (trading under the
al and Marco Polo brands) within the Escorted Tours division, which is a
g premium escorted tours operator, serving the Danish market and primarily
aby boomer' and 'young professional' demographic.

quisition pipeline remains strong and we will continue to target leisure
companies that have excellent growth characteristics with the ability to
te superior returns for our shareholders.

t debt position of (£373m) represents increased indebtedness of £186m
ed to the same point in the prior year (2006: £187m net debt). The net
osition comprises £196m of cash and £569m of debt. Our acquisition
gy accounts for the majority of this increase in debt.

nds

ard has declared an interim dividend of 2.50p (2006: 2.25p) per ordinary
This represents an increase of 11% compared to the same period in the
year. This is in line with our stated progressive dividend policy to
in dividend cover at around two-times. The dividend is payable on 26
ber 2007 to shareholders on the register at 24 August 2007.

ate activity

March 2007; we announced a proposed merger with the Tourism Division of
(excluding certain hotel assets) to create TUI Travel PLC. On 4 June
the European Commission announced that it had conditionally approved the

, subject to divestment of a business within the Republic of Ireland.

rger, which will be implemented by way of a Court-approved Scheme of
ement, remains subject to a number of conditions, including approval of
I Travel PLC prospectus by the UKLA, approval by First Choice
olders, approval of the Scheme of Arrangement by the UK High Court and the
g of the TUI Travel PLC shares.

pected timetable of key events is:

e 2007- UKLA approval and publication of the TUI Travel PLC prospectus

July 2007 - Posting of the First Choice Scheme of Arrangement circular and
avel PLC prospectus to First Choice shareholders

ctober 2007 - Delisting of First Choice shares and listing of TUI Travel
ares

the expected timetable, exact dates for the posting of the First Choice
of Arrangement circular and TUI Travel PLC prospectus to First Choice
olders, the First Choice shareholder meetings, the Court hearing and for
nal merger steps will be decided shortly. Shareholders will be kept fully
ed.

six weeks since the trading update on 1 May 2007, trading for Summer 2007 ntinued to perform in line with our expectations.

nstream Holidays our performance has tracked in line with our expectations t remains a challenging market, with revenues now cumulatively up +3% on olumes. We have cut capacity in the short-haul market, while maintaining ty levels in the medium-haul segment where we are continuing to experience demand for Turkey and Greece. Within long-haul, as a result of the 25% se in capacity and our differentiated product offering, we are continuing oy strong demand for key destinations such as Mexico, Dominican Republic, nd Costa Rica. Accordingly, long-haul revenues are up 26% on volume growth . We anticipate that margins will remain under pressure as the impact of se in APD and year-on-year increase in fuel costs affects our ability to r the additional costs incurred.

ecialist Holidays Sector has had an excellent start to Summer across all sinesses with sales and margins up on last year, as demand for the yle and destination specialism products on offer and the growth in lled distribution yields benefits across the sector.

l, the Activity Holidays Sector is performing well with the Adventure sses enjoying a strong start to the season with revenues up 7% or-like and Marine revenues up +2% on a like-for-like basis. Margins are ng slightly ahead of last year for the summer programme.

Online Destination Services Sector all routes to market continue to grow e performing well, with margins ahead of last year. The Sector continues efit from demand for its significant bedbank across over 900 predominately e destinations from independent tour operators and travel agents. The ation of laterooms.com is progressing as planned, as the business enjoys demand for late availability bedstock, with sales and volumes up 78% and spectively.

gh early in the selling period, where Winter 2007/08 is on sale, we are ming in line with our expectations.

Basis of preparation

nterim financial information has been prepared applying the accounting
es and presentation that were applied in the preparation of the Company's
hed consolidated financial statements for the year ended 31 October 2006.

mparative figures for the financial year ended 31 October 2006 are not the
y's statutory accounts for that financial year. Those accounts have been
ed on by the Company's auditors and delivered to the registrar of
ies. The report of the auditors was (i) unqualified, (ii) did not include
erence to any matters to which the auditors drew attention by way of
is without qualifying their report, and (iii) did not contain a statement
section 237(2) or (3) of the Companies Act 1985.

nancing expenses	(16.0)	(9.5)	(18.2)

Taxation

tax for the six month period to 30 April 2007 is calculated using the ted annual effective tax rate for the full year ending 31 October 2007.

timated annual effective tax rate for the year ended 31 October 2007, ated on profit/loss before tax separately disclosed items and amortisation iness combination intangibles, is 27.5% (2006: full year actual underlying te 27.6%).

Dividends

nds have been recognised within equity as follows:

	6 months 30 April 2007 £m	6 months 30 April 2006 £m	Year 31 October 2006 £m
m ordinary dividend paid for 2006 2.25p (2005: 1.95p)	11.8	10.1	10.1
ordinary dividend paid for 2006 of 5.40p (2005: 4.65p)	28.6	24.4	24.4
	40.4	34.5	34.5

quent to the balance sheet date, the Directors have approved an interim nd of 2.50p per share (2006: 2.25p) payable on 26 September 2007 to the s of relevant shares on the register at 24 August 2007. The interim nd amounts to £13.2m (2006: £11.8m) and will be recognised as a deduction equity when paid.

dend reinvestment plan is available for shareholders. Those shareholders ve not elected to participate in this plan, and who would like to ipate with respect to the 2007 interim dividend, may do so by contacting TSB Registrars direct on 0870 2413018. The last day for election for the m dividend is 5 September 2007 and any requests should be made in good head of that date.

Loss per ordinary share

sic loss per ordinary share for the six month period to 30 April 2007 is ated by dividing the loss attributable to ordinary shareholders by the cable weighted average number of ordinary shares in issue during the

, excluding those held in the employee share ownership trusts.

	Loss 2007 £m	Weighted average no. of shares 6 months 30 April 2007 millions	Loss per share 2007 pence	Loss 2006 £m	Weighted average no. of shares 6 months 30 April 2006 millions	Loss per share 2006 pence
and diluted loss per ry share	(74.9)	527.0	(14.2)	(57.8)	524.2	(11.0)
sation of business ation intangibles (net of	5.5	-	1.0	2.5	-	0.5
and diluted loss per before amortisation of ss combination ibles	(69.4)	527.0	(13.2)	(55.3)	524.2	(10.5)
tely disclosed items (net)	8.9	-	1.7	-	-	-
al of investment in ate	0.5	-	0.1	-	-	-
and diluted underlying er ordinary share	(60.0)	527.0	(11.4)	(55.3)	524.2	(10.5)

ordance with IAS 33: Earnings Per Share, the calculation of diluted basic er ordinary share and diluted underlying loss per ordinary share has not ed anti-dilutive potential ordinary shares. Therefore there is no ence between the calculation of basic and diluted measures in the six period.

Acquisitions

the six months ended 30 April 2007, the Group has made the following itions:

Approval

terim financial statements were approved by the Board on 13 June 2007.

ndent Review Report by KPMG Audit Plc st Choice Holidays PLC

uction

e been instructed by the company to review the financial information for x months ended 30 April 2007 which comprises the consolidated income ent, the consolidated balance sheet, the consolidated statement of cash the consolidated statement of recognised income and expense and the d notes. We have read the other information contained in the interim and considered whether it contains any apparent misstatements or material istencies with the financial information.

eport is made solely to the company in accordance with the terms of our ment to assist the company in meeting the requirements of the Listing of the Financial Services Authority. Our review has been undertaken so e might state to the company those matters we are required to state to it s report and for no other purpose. To the fullest extent permitted by law, not accept or assume responsibility to anyone other than the company for view work, for this report, or for the conclusions we have reached.

ors' responsibilities

terim report, including the financial information contained therein, is sponsibility of, and has been approved by, the directors. The directors sponsible for preparing the interim report in accordance with the Listing of the Financial Services Authority which require that the accounting es and presentation applied to the interim figures should be consistent hose applied in preparing the preceding annual accounts except where any

s, and the reasons for them, are disclosed.

work performed

ducted our review in accordance with guidance contained in Bulletin 1999/
iew of interim financial information issued by the Auditing Practices
for use in the UK. A review consists principally of making enquiries of
management and applying analytical procedures to the financial information
derlying financial data and, based thereon, assessing whether the
ting policies and presentation have been consistently applied unless
ise disclosed. A review excludes audit procedures such as tests of
ls and verification of assets, liabilities and transactions. It is
ntially less in scope than an audit performed in accordance with
ational Standards on Auditing (UK and Ireland) and therefore provides a
level of assurance than an audit. Accordingly, we do not express an audit
n on the financial information.

conclusion

basis of our review we are not aware of any material modifications that
be made to the financial information as presented for the six months
30 April 2007.

FIRST CHOICE HOLIDAYS PLC

MERGER UPDATE

First Choice Holidays PLC ("First Choice") and TUI AG ("TUI") note today's decision by the European Commission to approve the proposed merger of First Choice and the Tourism Division of TUI, excluding certain hotel assets. The Boards of First Choice and TUI are pleased that the Commission has approved the merger and look forward to the creation of one of the world's leading travel groups, TUI Travel PLC.

Peter Long, CEO of First Choice said: "I am delighted that the Commission has granted us clearance. We are pleased that the Commission has recognised the sea change in the leisure travel industry brought about by internet-based travel and tourism businesses and the low cost airlines. We will now be able to press forward with the merger process and the creation of TUI Travel PLC, which will offer great value holidays and leisure travel experiences for our customers. We are excited about the prospects for the new Group and look forward to the future with confidence."

Dr Michael Frenzel, Chief Executive Officer of TUI AG commented "today's announcement sees us take the first step on the path to creating a world leading leisure travel Group."

The clearance is subject to an undertaking to divest TUI's Budget Travel business in Ireland.

The merger, which First Choice is implementing by way of a Court-approved Scheme of Arrangement, remains subject to a number of conditions, including approval of the TUI Travel PLC prospectus by the UKLA, approval by First Choice shareholders, approval of the Scheme of Arrangement by the UK High Court, and the listing of the TUI Travel PLC shares.

The expected timetable of key events is:

29 June 2007- UKLA approval and publication of the TUI Travel PLC prospectus

Early July 2007 - Posting of the First Choice Scheme of Arrangement circular and TUI Travel PLC prospectus to First Choice shareholders

By 1 October 2007 - Delisting of First Choice shares and listing of TUI Travel PLC shares

Within the expected timetable, exact dates for the Posting of the First Choice Scheme of Arrangement circular and TUI Travel PLC prospectus to First Choice shareholders, the First Choice shareholder meetings, the Court hearing and for the final merger steps will be decided shortly. Shareholders will be kept fully informed.

4 May 2007

FIRST CHOICE HOLIDAYS PLC AND TUI AG

UPDATE ON PROPOSED MERGER OF
FIRST CHOICE HOLIDAYS PLC AND TUI TRAVEL

Following a meeting with the Competition Case Team of the European Commission on 3 May 2007 at which the issue of potential dominance post merger in the Republic of Ireland was raised, First Choice Holidays PLC and TUI AG have agreed to consider specific undertakings to address this issue including the potential sale of one of their Irish businesses.

As a result of the need for the European Commission to consider these undertakings, the Phase I investigation will now be extended by 10 working days. We, therefore, expect that their decision on whether to clear the proposed merger at Phase I or extend it into a Phase II investigation will be announced on or before 4 June 2007. First Choice and TUI AG remain confident that the proposed merger will be cleared by the European Commission.

FIRST CHOICE HOLIDAYS PLC

TRADING UPDATE

On entering its close period, First Choice Holidays PLC announces the following trading update.

In the eight weeks since the AGM statement on 7 March 2007, Summer trading has progressed as anticipated, with little overall change in market conditions.

Current trading

	Laterooms.com	+79	+69	n/a

Notes:

1. These statistics are up to 29 April 2007. Laterooms statistics up to 22 April

2. These statistics exclude FY2006 and FY2007 acquisitions

Mainstream Holidays Sector

Winter 2006/07

In the Mainstream Holidays Sector, despite ongoing challenging trading conditions in the UK market, performance for the Winter season was in line with our expectations. Total revenues for the season are up 10% on volumes slightly lower by 2%. Demand for our long-haul products remains strong, with revenues up 37% and volumes up 26%, as we continue to benefit from the investment in our market-leading differentiated long-haul programme. Our first Holiday Village within this segment, in the Dominican Republic, opened for the Winter 2006/07

margins during this half. The rise in Air Passenger Duty (APD), the year-on-year increases in fuel costs and our investment in two additional long-haul aircraft for the Summer season will as expected result in lower margins for Winter 06/07. This will be partially offset by the benefits of continuing to increase control of our distribution.

Summer 2007

Summer trading has remained broadly in line with our expectations since the AGM, with revenues now cumulatively up by 2% on lower volumes of 2%. We have cut capacity in the short-haul market, while maintaining capacity levels in the medium-haul segment where we are experiencing strong demand for Turkey and Greece. Within long-haul, we have increased capacity by 25% as the two additional B767s have enabled us to expand our programme in popular destinations such as Mexico, Dominican Republic, Cuba and Costa Rica. Accordingly, long-haul revenues are up 23% on volume growth of 17%. Again, however, as anticipated margins are being adversely affected by the rise in APD that is not currently being fully recovered from passengers.

Specialist Holidays Sector

Winter 2006/07

The Specialist Holidays Sector has enjoyed a successful Winter, with the European businesses growing revenues by 3% on volume growth of 9%. Margins are slightly ahead of last year. North American revenues were up 13% on lower volumes (down 4%) as the unusually warm weather in Canada during the peak trading season of January to March adversely affected consumer demand.

Summer 2007

Even though it remains very early in the booking cycle for a number of our continental European businesses, we are encouraged by trading with revenues up 24% on higher volumes (up 18%). Since the AGM statement, we have experienced an increase in the rate of sale for the peak Summer months of July and August with margins performing in line with our expectations.

Activity Holidays Sector

The Sector continues to perform in line with our expectations with revenues up 2% for the Winter season and up 5% for Summer. The Adventure division continues to benefit from growth in demand for adventure travel experiences with revenues up for the Summer season. The Marine division has also benefited from an improvement in the rate of sale since the AGM statement and is now 3% up for Summer. In addition, we remain on track to deliver the £5m synergy benefit in this financial year from the integration of The Moorings and Sunsail brands.

Online Destination Services

All routes to market are performing well with the Sector experiencing both growth in pricing and volumes, as the business continues to expand both its content and client base through its Bedsonline, Hotelbeds and Hotelopia channels. Revenues are up +46% on volume growth of 35% for Winter, and up 60% and 39% for Summer respectively. The integration of laterooms.com is progressing well, with the business trading strongly with revenues up 79%.

Acquisitions

During the first half of the year, we have continued to build upon our leadership positions with the acquisition of seven businesses within specialist niche segments of the market that demonstrate high growth and value enhancing characteristics.

Further to the five acquisitions previously announced, we have completed another two acquisitions since the AGM statement, within the polar expedition cruising and North American student travel segments of the market:

1991 it has carried over 30,000 passengers to this region. Polar expedition cruising is a fast growing segment of the leisure travel market, with a strong near term growth profile. The combination of Quark with our existing First Choice Expedition Cruising business will provide us with the opportunity to drive incremental margins through back office consolidation and expanding the range of specialist expedition cruising content.

- KSA Events operates within the North American student travel segment, offering participation by high school students in organised sporting events and tournaments. This acquisition provides us with the platform to enter the group performance segment of the student travel marketplace in US. This segment demonstrates similar high growth characteristics to our existing high school leisure and educational group travel propositions.

In the current financial year, we have completed acquisitions to date with a maximum aggregate consideration of £163.2m of which £134m has already been paid (2006: £153m of which £133m was paid).

We continue to see attractive acquisition opportunities and to target leisure travel companies that have excellent growth characteristics and the ability to generate superior returns for our shareholders.

A full list of the acquisitions is attached at Appendix 1 to this statement.

Proposed Merger

On 19 March 2007 we announced our proposed merger with the tourism division of TUI AG (excluding certain hotel assets). Following notification of the merger to the European Commission, we expect to be informed by 16 May 2007 of either Phase I clearance or a further review (Phase II).

Interim Results

First Choice Holidays PLC will announce its interim results for the six months ending 30 April 2007 on Thursday 14 June 2007.

---

(i) This form is to be sent to the issuer or underlying issuer and to be filed with the competent authority.

(ii) Either the full name of the legal entity or another method for identifying the issuer or underlying issuer, provided it is reliable and accurate.

(iii) This should be the full name of (a) the shareholder; (b) the person acquiring, disposing of or exercising voting rights in the cases provided for in DTR5.2.1 (b) to (h); (c) all the parties to the agreement referred to in DTR5.2.1 (a), or (d) the direct or indirect holder of financial instruments entitled to acquire shares already issued to which voting rights are attached, as appropriate.

In relation to the transactions referred to in points DTR5.2.1 (b) to (h), the following list is provided as indication of the persons who should be mentioned:

- in the circumstances foreseen in DTR5.2.1 (b), the person that acquires the voting rights and is entitled to exercise them under the agreement and the natural person or legal entity who is transferring temporarily for consideration the voting rights;

- in the circumstances foreseen in DTR 5.2.1 (c), the person holding the collateral, provided the person or entity controls the voting rights and declares its intention of exercising them, and person lodging the collateral under these conditions;

- in the circumstances foreseen in DTR5.2.1(d), the person who has a life interest in shares if that person is entitled to exercise the voting rights attached to the shares and the person who is disposing of the voting rights when the life interest is created;

- in the circumstances foreseen in DTR5.2.1 (e), the parent undertaking and, provided it has a notification duty at an individual level under DTR 5.1, under DTR5.2.1 (a) to (d) or under a combination of any of those situations, the controlled undertaking;

- in the circumstances foreseen in DTR5.2.1 (f), the deposit taker of the shares, if he can exercise the voting rights attached to the shares deposited with him at his discretion, and the depositor of the shares allowing the deposit taker to exercise the voting rights at his discretion;

- in the circumstances foreseen in DTR5.2.1 (g), the person that controls the voting rights;

- in the circumstances foreseen in DTR5.2.1 (h), the proxy holder, if he can exercise the voting rights at his discretion, and the shareholder who has given

(iv) Applicable in the cases provided for in DTR 5.2.1 (b) to (h). This should be the full name of the shareholder or holder of financial instruments who is the counterparty to the natural person or legal entity referred to in DTR5.2.

(v) The date of the transaction should normally be, in the case of an on exchange transaction, the date on which the matching of orders occurs; in the case of an off exchange transaction, date of the entering into an agreement.

The date on which threshold is crossed should normally be the date on which the acquisition, disposal or possibility to exercise voting rights takes effect (see DTR 5.1.1R (3)). For passive crossings, the date when the corporate event took effect.(DEL: :DEL)

These dates will usually be the same unless the transaction is subject to a condition beyond the control of the parties.

(vi) Please refer to the situation disclosed in the previous notification, In case the situation previous to the triggering transaction was below 3%, please state 'below 3%'.

vii If the holding has fallen below the minimum threshold , the notifying party should not be obliged to disclose the extent of the holding, only that the new holding is less than 3%.

For the case provided for in DTR5.2.1(a), there should be no disclosure of individual holdings per party to the agreement unless a party individually crosses or reaches an Article 9 threshold. This applies upon entering into, introducing changes to or terminating an agreement.

viii Direct and indirect

ix In case of combined holdings of shares with voting rights attached 'direct holding' and voting rights 'indirect holdings', please split the voting rights number and percentage into the direct and indirect columns-if there is no combined holdings, please leave the relevant box blank.

X Voting rights attached to shares in respect of which the notifying party is a direct shareholder (DTR 5.1)

xi Voting rights held by the notifying party as an indirect shareholder (DTR 5.2.1)

xi If the holding has fallen below the minimum threshold, the notifying party should not be obliged to disclose the extent of the holding, only that the new holding is below 3%.

xiii date of maturity / expiration of the finical instrument i.e. the date when the right to acquire shares ends.

xiv If the financial instrument has such a period-please specify the period- for example once every three months starting from the (date)

xv The notification should include the name(s) of the controlled undertakings through which the voting rights are held. The notification should also include the amount of voting rights and the percentage held by each controlled undertaking, insofar as individually the controlled undertaking holds 3% or more, and insofar as the notification by the parent undertaking is intended to cover the notification obligations of the controlled undertaking.

xvi This annex is only to be filed with the competent authority.

xvii Whenever another person makes the notification on behalf of the shareholder or the natural person/legal entity referred to in DTR5.2 and DTR5.3.

FIRST CHOICE HOLIDAYS PLC

MERGER UPDATE

First Choice Holidays PLC and TUI AG announce that on 4 April they delivered to the European Commission their notification of the proposed merger of First Choice Holidays PLC and the Tourism Division of TUI AG, excluding certain hotel assets.

The Commission will decide whether it will clear the merger or refer it for a Phase II investigation by 16 May 2007. If the Commission clears the merger, shareholder documentation is expected to be posted in June with completion then anticipated in the third quarter of this year.

MERGER OF FIRST CHOICE HOLIDAYS PLC AND TUI TRAVEL
TO CREATE TUI TRAVEL PLC

The Boards of First Choice Holidays PLC ("First Choice") and TUI AG ("TUI") are pleased to announce the creation of one of the world's leading travel groups, TUI Travel PLC

TUI Travel PLC is being created through a recommended merger of First Choice and the Tourism division of TUI, excluding certain hotel assets ("TUI Travel")

The new group will have approximately 27 million customers in 20 source markets. It will be headquartered in the UK and application will be made for TUI Travel PLC's shares to be admitted to listing on the Official List and to trading on the London Stock Exchange

TUI Travel PLC will have proforma revenues of £12.1 billion (e17.6 billion), EBITDA of £554 million (e809 million) and EBITA of £325 million (e475 million)

First Choice and TUI believe that the Merger will deliver pre-tax cost benefits of at least £100 million (e146 million) per annum to be fully realised within three years of completion. The cost synergies are prior to any benefits expected from the existing TUI Travel restructuring programme

TUI Travel PLC will be chaired by Dr. Michael Frenzel (Chief Executive Officer of TUI), deputy chaired by Sir Mike Hodgkinson (Chairman of First Choice) and managed by Chief Executive Officer Peter Long (Chief Executive of First Choice), Deputy CEO Peter Rothwell (CEO TUI Northern Europe) and Chief Financial Officer Paul Bowtell (Group Finance Director of First Choice)

The strong strategic fit of the businesses combined with a leading management team provides the opportunity to create one of the world's most profitable travel groups by delivering sustainable revenue and long-term earnings growth while deriving cost advantage from leveraging both synergy opportunities and economies of scale to enhance margins

TUI Travel PLC will have extensive content, multiple distribution channels and the cost advantage to compete in a dynamic and rapidly changing travel market. TUI Travel PLC will also be able to provide customers with the flexibility and choice they demand

TUI Travel PLC will be 51 per cent. owned by TUI and 49 per cent. owned by the existing shareholders of First Choice (calculated on a fully diluted basis)

TUI will also contribute e875 million (approximately £600 million) of net financial debt, including all pensions liabilities currently associated with TUI Travel, to the new group

The Merger will be effected through the acquisition by NewCo of both First Choice and TUI Travel (First Choice by means of a scheme of arrangement). It is expected that the Merger will be completed in the third quarter of 2007

The Merger is conditional, inter alia, upon the approval of First Choice Shareholders and approval by the relevant anti-trust authorities. The Board of First Choice and the Supervisory Board of TUI have approved the Merger. While TUI shareholder approval is not required, First Choice shareholder approval will be sought at the Court Meeting and an Extraordinary General Meeting to be convened in due course. The directors of First Choice unanimously intend to recommend to First Choice Shareholders that they vote in favour of the Merger, as they intend to do in relation to their own shareholdings

ting on today's announcement, Sir Mike Hodgkinson, Chairman of First
said:

proposed merger provides us with a unique opportunity to leverage the
ths of both First Choice and TUI to create one of the world's leading
groups. In addition to the significant opportunity to enhance margins, we
e the combination of brand leadership and management expertise that this
ction creates will deliver sustainable, long-term growth for shareholders
group that satisfies the rapidly changing travel needs of our customers."

chael Frenzel, CEO of TUI said:

e pleased that the Board of First Choice has decided unanimously to
t the creation of TUI Travel PLC. The new company will be a leading
ide travel group, with approximately 27 million customers per year in over
stinations. The combination of First Choice's fast growing specialist
sses and our strong momentum in the mainstream sector creates a solid
rm from which to accelerate growth opportunities.

specially pleased that Peter Long has agreed to become Chief Executive of
avel PLC and to lead the highly experienced executive management team. I

believe this Merger will deliver significant value to both TUI and First shareholders."

MERGER OF FIRST CHOICE HOLIDAYS PLC AND TUI TRAVEL
TO CREATE TUI TRAVEL PLC

INTRODUCTION

ards of First Choice and TUI today announce a proposed recommended merger of First Choice
I Travel to create a unique leisure travel group with market leading positions in both
ent and specialist leisure travel.

ards of First Choice and TUI believe that the Merger offers significant benefits for their
olders and customers. This transaction presents First Choice and TUI with the opportunity to
leading position in the ongoing consolidation within the European leisure travel sector, as
s creating a business model that is ideally positioned to compete effectively within the
e travel market.

w group will be named TUI Travel PLC, and will be headquartered in the UK. Application will
e for TUI Travel PLC's shares to be admitted to listing on the Official List and to trading
London Stock Exchange.

Choice and TUI have established a new company, NewCo, which will effect the Merger by
ing each of First Choice and TUI Travel (First Choice by means of a scheme of arrangement).
rger is to be effected pursuant to a Merger Agreement between First Choice, TUI and NewCo.
ll contribute TUI Travel together with e875 million (approximately £600 million) of net
ial debt, including all pensions liabilities currently associated with TUI Travel.

ing the Merger, TUI will hold 51 per cent. of TUI Travel PLC, with existing First Choice olders holding 49 per cent. (calculated on a fully diluted basis). Completion of the Merger ected to take place in the third quarter of 2007.

rger is conditional, inter alia, upon the approval of First Choice Shareholders and approval relevant anti-trust authorities. The Board of First Choice and the Supervisory Board of TUI pproved the Merger. While TUI shareholder approval is not required, First Choice shareholder al will be sought at the Court Meeting and an Extraordinary General Meeting to be convened course. The directors of First Choice unanimously intend to recommend to First Choice olders that they vote in favour of the Merger, as they intend to do in relation to their own oldings.

BACKGROUND TO AND REASONS FOR THE MERGER

mbination of First Choice and TUI Travel offers the opportunity to create significant value th First Choice and TUI shareholders and their customers through the creation of a market g global travel group with leadership positions in both component and specialist leisure segments.

isure travel environment has changed significantly over the last few years as consumers flexibility and choice, seek new life experiences and look to access travel content through er of points of sale, most notably the internet. Travel companies have also changed, with irst Choice and TUI Travel successfully re-mixing their respective business models to e effectively within the new market:

First Choice has pursued a strategy of providing differentiated and exclusive products to its customers. It has invested in its mainstream business (including the development of six exclusive Holiday Villages) and built leadership positions in growing niche segments via a successful acquisition strategy. The result has been double-digit earnings growth each year since 2003.

TUI Travel has built a leading European airline of 127 planes and successfully invested in developing an internet-led distribution model that provides flexibility and choice to the consumer, while optimising its significant brand presence online to drive loyalty and top-line growth.

uently, the Boards of First Choice and TUI believe that the two businesses are an excellent gic fit. TUI Travel PLC's combined business model will be well positioned to satisfy a wide of leisure needs of the customer and drive earnings and margin growth.

avel PLC will have a broad portfolio of over 200 leading brands, and an exceptional ation of content and distribution capability. Both sets of shareholders will benefit from ment's ability to enhance margins and the cost advantages of leveraging significant synergy ts and economies of scale.

ansaction provides the opportunity to:

Create a leading worldwide travel group operating in 20 source markets serving

approximately 27 million customers per year in over 200 destinations;

Offer the customer breadth of content from self-selection to exclusive and differentiated to niche travel products;

Develop a pre-eminent position in long haul travel with a current order book of 23 Boeing 787s and build a European short haul fleet to compete effectively with low cost carriers;

Leverage significant synergies and economies of scale to deliver cost advantage in a competitive market place;

Distribute specialist travel products into new source markets;

Continue to build strong positions, via acquisition, in fragmented niche segments of the market;

Participate in many growth segments of the leisure travel sector;

Enhance margins using the skills of a proven management team; and

Deliver sustainable revenue and earnings growth.

INFORMATION ABOUT FIRST CHOICE

Choice is a leading international leisure travel company headquartered in Crawley in the UK. rates in 16 major source markets across more than 80 brands, employing over 15,000 people. successfully transformed itself into a leading international leisure travel company, sing a differentiated UK mainstream tour operator and a portfolio of niche specialist sses across the world, that create added value experiences for its customers. Although First 's many brands offer a variety of leisure travel experiences, the business model across Choice is focused on differentiation and flexibility.

Choice operates in four principal sectors:

Mainstream Holiday Sector - the sector consists of the UK and Ireland tour operating, retail and airline businesses. Its clear strategy has led to a focus on developing differentiated and exclusive products, such as its six Holiday Villages. It operates 34 aircraft, and has invested significantly in its long haul programme. Its six re-configured B767s offer customers an enhanced in-flight entertainment experience. In addition, First Choice has recently announced that it has exercised a further four options on the new Boeing 787 Dreamliner to bring the total firm order to twelve aircraft.

Specialist Holiday Sector - the sector consists of the Continental European and UK Specialist businesses, and a number of businesses operating in North America including a student travel business and a Canadian tour operator. All the businesses within this sector have either destination or product expertise, and operate from 13 source countries with expert local management teams that understand both their market and their customers'

needs. These businesses develop leisure travel experiences that cater for a specific marketplace or lifestyle and include brands such as Sovereign, Marmara, StudentCity.com and Travcoa.

Activity Holiday Sector - this sector consists of three divisions: the Marine division includes First Choice Marine which operates the market leading yacht chartering brands of The Moorings and Sunsail, Sunsail Clubs and Inland Waterways. The Adventure division consists of a portfolio of 19 adventure travel businesses across 7 source markets offering a range of experiences including trekking and expedition cruising, with the division experiencing high consumer demand for these travel experiences. The Escorted Tours division consists of seven brands that operate specialist escorted tours for the US source market, whose customer base is drawn primarily from the growing "boomer" demographic in the US.

Online Destination Services Sector - this sector has operations in 16 countries with 67 offices, providing accommodation online and services in destination as well as specialised services to cruise lines and the management of meetings and incentives activities for companies. It is focused on two strategic distribution channels - Business to Business with the Hotelbeds and Bedsonline brands and Business to Consumer with the Hotelopia brand. The business has successfully leveraged its strong relationship with local bed suppliers to build a bed bank of 25,000 hotels and apartments in over 2,000 tourist areas across 900 destinations. Clients include over 1,800 tour operators and 7,000 travel agents who can access this bed bank online, and in 2006, the sector sold 9.5 million bed nights.

e financial year ended 31 October 2006, First Choice reported revenues of £2,715 million £2,442 million), EBITDA (including First Choice's share of results of associates and joint es) of £179 million (2005: £162 million), and EBITA of £135 million (2005: £120 million).

31 October 2006, First Choice had shareholders' capital excluding minority interest of £281 n and net debt of £103 million. First Choice has a current market capitalisation of £1,556 n (based on the closing price of 284 pence for each First Choice share and 547.9 million diluted First Choice Shares on 16 March 2007) and is traded on the London Stock Exchange.

The Western Europe sector comprises the distribution and tour operation business in France, the Netherlands and Belgium as well as the following airlines: Corsair, TUI

Airlines Nederland and TUI Airlines Belgium

The Destinations sector covers TUI Travel's consolidated and associated including agencies from shareholdings in 35 agencies in 36 countries as well as Nordotel, Atlantika and Safeharbour

ravel currently operates a total of 127 aircraft which are allocated to Central Europe, ern Europe and Western Europe.

he financial year ended 31 December 2006, TUI Travel had unaudited pro-forma external sales 368 million (e13,678 million), EBITDA of £375 million (e548 million) and EBITA of £190 n (e278 million).

INFORMATION ABOUT TUI

ormerly known as Preussag AG, which is headquartered in Hanover, Germany, has transformed from an industrial conglomerate to a pure services company. Today, TUI's core businesses ourism and Shipping.

The Tourism division comprises four main sectors: Central Europe, Northern Europe, Western Europe and Destinations. Following the Merger, TUI will retain a majority of the TUI hotels and resorts business, operating 279 hotels with 164,844 beds.

The Shipping division comprises Hapag-Lloyd Container Line, a container shipping company operating globally, with a total of 138 vessels and holding containers with a total capacity of 1,015,000 TEU. The Shipping division will not form part of the Merger and will remain directly owned by TUI.

he financial year ended 31 December 2006, TUI reported turnover of e20.5 billion (2005: e18.2 n), EBITDA of e939 million (2005: e1.12 billion), and profit before tax of minus e736 n (2005: positive e387 million) from continuing operations. As at 31 December 2006, TUI had older's capital excluding minority interest of e2.7 billion and net debt of e3.2 billion.

s a current market capitalisation of e4.2 billion (based on the closing price of e16.58 for UI share on 16 March 2007 and 251.0 million TUI shares outstanding) and is a member of y's DAX 30 Index (which includes the largest publicly-owned companies in Germany).

STRATEGY FOR TUI TRAVEL PLC

ravel PLC will be one of the world's leading leisure travel groups providing its customers unique choice of products and the flexibility to meet their ever changing needs. Through nge of component and specialist products, such as flights, beds and car hire, and in the list travel segment, such as escorted tours and adventure holidays, TUI Travel PLC will be o offer flexibility and choice to the consumer.

ravel PLC will focus on four areas:

Content - TUI Travel PLC will have access to a range of products, from differentiated and exclusive content within the package holiday market (including a long haul programme with

23 Boeing 787s), to a specialist portfolio of niche businesses (including marine and escorted tours) and a significant bed and flight bank accessed via the internet that will enable it to offer its customers both flexibility and choice

Distribution - TUI Travel PLC will maximise internet sales and content while building strong brand awareness and loyalty through its portfolio of large consumer brands and specialist brands

Cost competitiveness - TUI Travel PLC will leverage the economies of scale and significant synergy opportunity to derive cost advantage across the business model. It will operate an asset right model in its airline operations by introducing a flexible leasing structure for the European fleet, while leveraging the low overheads in the specialist portfolio

Acquisition - TUI Travel PLC will continue to invest in small to medium sized bolt-on acquisitions within specialist segments of the leisure travel market, in order to build leadership positions in higher margin niche segments. First Choice has an excellent track record in delivering high returns and earnings from its acquisitions. During the 2006 financial year First Choice spent £149 million (2005: £66 million) on acquisitions. In the current financial year, First Choice has already completed a number of acquisitions in the online and activity segments.

SYNERGY BENEFITS

ards of First Choice and TUI believe that the Merger will deliver pre-tax cost benefits of st £100 million (e146 million) per annum, which are expected to be realised within three of Completion. The £100 million of cost synergies per annum are prior to any benefits ed from the existing TUI Travel restructuring programme.

ynergies are expected to arise mainly in the UK, but benefits will be available across through economies of scale in the combined operations and consolidation of the First Choice I Travel operations. Potential revenue synergies are expected to offer further upside to the illion per annum synergy target.

ies are likely to be achievable through a combination of:

Airline flight planning and operating costs

Streamlined distribution (front office IT, development costs, retail shops)

Consolidation of retail, call centre and administrative facilities

Reduced marketing and commercial costs

Destination cost efficiencies

Higher internet traffic and lower customer acquisition costs

Yield improvement (Mainstream and Airline)

Growth through offering First Choice's Specialist products through TUI Travel's European distribution network

BOARD OF DIRECTORS, MANAGEMENT AND ORGANISATION

oposed Board of TUI Travel PLC will be drawn from the boards of First Choice, TUI, and the t management of TUI Travel, supplemented by additional independent non-executive directors appointed by the Board as soon as practicable. The Board will be comprised of 17 directors, jority of whom will be independent. First Choice and TUI believe that the proposed ure will result in an independent Board with a strong and experienced executive management

ard will be chaired, as Non-Executive Chairman, by Dr. Michael Frenzel (currently CEO of with Sir Mike Hodgkinson (Chairman of First Choice) being appointed as Independent ecutive Deputy Chairman.

oposed Board of TUI Travel PLC is:

	BOARD POSITION	CURRENT POSITION
chael Frenzel	Non-Executive Chairman	CEO of TUI
ke Hodgkinson	Non-Executive Deputy Chairman	Chairman of First Choice
Long	Chief Executive Officer	Chief Executive of First Choice
Rothwell	Deputy Chief Executive	CEO TUI Northern Europe
owtell	Chief Financial Officer	Group Finance Director of First Choice
aggott	Group Commercial Director	CFO TUI Northern Europe
oph Mueller	Aviation Director	Chairman of Hapag-Lloyd Flug
Bottcher	Managing Director, Central Europe	Head of TUI Travel Germany
erhake	Non-executive Director	CFO of TUI
pbell	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays
pman	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays
ton	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays

ks	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays
rley	Independent Non-executive Director	Independent Non-executive Director First Choice Holidays

ition, the Board will include a further three independent non-executive directors. Five of n-executive directors will be drawn from the existing non-executive directors of First . Rainer Feuerhake will be appointed to the Board on behalf of TUI.

avel PLC will have audit, nomination and remuneration committees. Each Board committee will ot fewer than three independent non-executive directors and not more than two non-executive ors representing TUI.

lationship Agreement summarised below sets out the agreement between First Choice and TUI as governance arrangements for TUI Travel PLC that will apply following completion of the .

EMPLOYEES

Choice and TUI attach great importance to retaining the skills and expertise of their ment and employees. The existing employment rights of employees of both First Choice and TUI will be safeguarded.

nding options under the First Choice Share Schemes which are not already exercisable will exercisable when the scheme of arrangement is sanctioned. Any First Choice Shares issued on ercise of options prior to 6.00 p.m. on the Business Day immediately preceding the date of aring by the Court of the petition to sanction the scheme of arrangement will be subject to rms of the scheme of arrangement. However, while the scheme of arrangement will not extend st Choice Shares issued to optionholders under the First Choice Share Schemes on or after ime, such First Choice Shares will be transferred to Newco under a proposed change to First 's articles.

course, appropriate proposals will be made to participants in the First Choice Share s.

DIVIDEND POLICY

anticipated that TUI Travel PLC will pay, post Completion, a final dividend in respect of rst financial period. The dividend policy will be set by TUI Travel PLC's Board, not all of ave yet been appointed. Further details will be set out in the prospectus.

CURRENT TRADING AND PROSPECTS

First Choice

g for the 2006/07 financial year is progressing well with performance in line with First 's expectations.

Winter 2006/07 - across First Choice, Winter trading is progressing well. In Mainstream total revenues are 12 per cent. higher than last year with long-haul capacity up 25 per cent. The Mainstream Sector has fewer holidays left to sell than at the same point last year and while margins are slightly behind last year, they are in line with First Choice's expectations. In the Specialist Holidays Sector its businesses are trading well overall and in the Activity Holidays Sector revenues are ahead of last year with the Adventure division's revenue 4 per cent. ahead for Winter.

Summer 2007 - Trading is progressing well across all Sectors. In Mainstream, Summer revenues have steadily improved throughout the period despite the challenging market. Overall capacity will be flat on last year with increased capacity in the long-haul segment. Revenues for long-haul have increased 19 per cent. with margins slightly behind last year but in line with First Choice's expectations. In the Specialist Holidays Sector the rate of sale is improving significantly week on week. Both the Activity Sector and Online Destination Services are trading in line with expectations.

TUI Travel

Winter 2006/07 - TUI is closing out the winter season with a solid performance. Turnover for TUI Travel is currently up 5.4 per cent. year-on-year, with customer numbers up 9.0 per cent. Both figures are ahead of current market growth.

Summer 2007 - The current status of bookings is very good in most source markets. For the 2007 summer season starting in April the number of guests is currently 7.2 per cent over the previous year for TUI Travel. Booked sales have increased by 4.7 per cent, and they are likewise considerably above the previous year's level.

MERGER AGREEMENT, RELATIONSHIP AGREEMENT AND DETAILS OF THE MERGER

Choice, TUI and NewCo have entered into a Merger Agreement, which sets out the terms on NewCo will acquire each of First Choice and TUI Travel. In addition, First Choice and TUI greed the terms of a Relationship Agreement which will regulate the relationship between and TUI (as shareholder in NewCo) following completion of the Merger. This agreement deals among other things, the governance arrangements for NewCo.

agreements are summarised in Appendix I.

y terms and conditions of the Merger are:

NewCo will acquire First Choice in consideration for the issue of 49 per cent. (calculated on a fully diluted basis) of the share capital of NewCo to First Choice Shareholders. This acquisition will be effected by means of a scheme of arrangement of First Choice pursuant to section 425 of the Companies Act;

o follow, for following part double-click nRN1S1829T

e before a number denotes euros

NewCo will acquire TUI Travel in consideration for the issue of 51 per cent. (calculated on a fully diluted basis) of the share capital of NewCo to TUI and the contribution by TUI to NewCo of an amount of e875 million (approximately £600 million) of net financial debt, including all pension deficits associated with TUI Travel;

the Merger is subject to clearance under the EC Merger Regulation and other regulatory authorities;

the Merger is subject to the approval of First Choice Shareholders at the Court Meeting and the Extraordinary General Meeting to be convened in due course; and

NewCo will be named TUI Travel PLC and application will be made for NewCo's shares to be admitted to listing on the Official List and to trading on the London Stock Exchange with effect from Completion.

ular and prospectus will be despatched to First Choice Shareholders in due course.

ription of the circumstances in which the Merger Agreement may be terminated (and a break y become payable) is set out in Appendix I.

RULE 9 WHITEWASH

ing completion of the Merger, TUI will come to hold 51 per cent. of the voting rights of Under Rule 9 of the City Code, a person who acquires an interest in shares which, taken er with shares in which he is already interested, carry 30 per cent. or more of the voting of a company must normally make a general offer for all the remaining shares in the y. However, where an obligation to make a mandatory offer under Rule 9 arises following an of new shares, the Panel will normally consent to a waiver of that obligation provided that, other things, this is approved by a vote of the independent shareholders. In this case, al for the waiver of the obligation which would otherwise arise for TUI to make an offer for under Rule 9 of the City Code will be sought from First Choice Shareholders at the rdinary General Meeting.

SETTLEMENT, LISTING AND DEALING

ation will be made to the UK Listing Authority for the NewCo Shares to be admitted to the al List and to the London Stock Exchange for such shares to be admitted to trading on the Stock Exchange's market for listed securities. It is expected that Admission to the al List will become effective and that dealings, for normal settlement, in the NewCo Shares ommence on the day on which the Merger is completed. Further details on settlement, listing

aling will be included in the scheme document and prospectus to be sent to First Choice olders in due course. Admission of NewCo [redacted]ares to the Official List and to tr[redacted]ng on the Stock Exchange is subject to customary confirmation from the FSA of NewCo's eligibility for g under Listing Rule 2 and Listing Rule 6.

RECOMMENDATION OF THE BOARD OF FIRST CHOICE

rectors of First Choice, who have been so advised by Lazard and Deutsche Bank, consider the of the Merger to be fair and reasonable. In providing their advice, Lazard and Deutsche ave taken into account the directors' commercial assessments.

rectors of First Choice consider that the Merger is in the best interests of First Choice olders as a whole. Accordingly, the directors intend unanimously to recommend that First Shareholders vote in favour of the resolutions to be proposed at the Court Meeting and the rdinary General Meeting, as they intend to do in respect of their own beneficial holdings ing to approximately 0.9 per cent of the issued share capital of First Choice.

he Bank has an existing relationship with TUI AG, and Lazard is therefore providing advice Board of First Choice in connection with the Merger for the purposes of Rule 3 of the Code.

APPENDIX I

Key Merger Terms and Conditions

rger Agreement

RMS

the Merger Agreement:

NewCo has agreed to acquire all of the issued share capital of First Choice in consideration for the issue of 49 per cent. (calculated on a fully diluted basis) of the share capital of NewCo to First Choice Shareholders. This acquisition will be effected by means of a scheme of arrangement of First Choice in accordance with section 425 of the Companies Act.

TUI has agreed to sell all of the issued share capital of TUI Travel to NewCo in consideration for the issue of 51 per cent. (calculated on a fully diluted basis) of the share capital of NewCo to TUI together with the contribution by TUI to NewCo of e875 million (approximately £600 million) of net financial debt, including all pension liabilities currently associated with TUI Travel.

IONS

terial conditions to completion of the Merger are:

approval at the Court Meeting of the proposed scheme of arrangement of First Choice by a majority in number of the First Choice Shareholders present and voting representing not less than 75 per cent. by value of the First Choice Shares voted by such shareholders;

the passing of the resolutions by First Choice Shareholders at the Extraordinary General Meeting which will follow the Court Meeting including in relation to the approval of the scheme of arrangement and the confirmation of the associated reduction of capital and the resolution required to obtain a dispensation from the Panel from the requirements of Rule 9 in respect of the issue of NewCo Shares to TUI;

the sanction of the scheme of arrangement and reduction of capital by the Court and the subsequent registration of the court order by the Registrar of Companies in England and Wales;

the UKLA confirming that NewCo is suitable for listing in accordance with the Listing Rules on the basis of the terms of the Relationship Agreement;

the Admission of the NewCo Shares, to be issued in accordance with the terms of the Merger Agreement, to the Official List and to trading on the London Stock Exchange;

the Merger having been cleared by the European Commission under the EC Merger Regulation;

the Merger having been cleared by any relevant non-EU competition authorities and no notice of any action, which would make the Merger, unenforceable or illegal or impose material conditions on the parties with respect to the Merger, having been received from any regulatory body (including the Civil Aviation Authority) in any jurisdiction;

the Panel granting dispensation from the requirements of Rule 9 of the Code in respect of the issue of NewCo Shares to TUI; and

TUI and First Choice having obtained all necessary consents from the providers of their bonding and other finance facilities, or other replacement facilities having been arranged.

PROVISIONS

erger Agreement contains mutual undertakings by First Choice and TUI that pending Completion, Choice and TUI Travel will carry on business in the normal course.

the Merger Agreement TUI has agreed to give First Choice high-level warranties covering certain ation provided to First Choice in respect of TUI Travel's business.

nt to the Merger Agreement, each of First Choice and TUI have agreed that it will not actively t any alternative transaction that would be inconsistent with implementing the Merger, and that f them will inform and consult with the other party if it is approached by a third party in t of any such alternative competing transaction. The parties have agreed certain rights able in the event of such an approach including postponement or termination.

the Merger Agreement the parties agree to negotiate a licence agreement, at a royalty of 0.02 nt. per annum of the gross turnover of N[redacted]o under the TUI brand, in relation [redacted] the proposed NewCo of the TUI name.

ATION

rger Agreement may be terminated with immediate effect by First Choice or TUI if:

First Choice notifies TUI prior to the publication of the prospectus that it has concluded that in its reasonable opinion assets and liabilities, profits or prospects of TUI Travel are materially different by reference to agreed benchmarks from those assumed in its reaching agreement to the percentage shareholdings in NewCo of First Choice and TUI under the Merger;

any regulatory authority irrevocably blocks the Merger;

certain conditions become incapable of being satisfied or fail to be satisfied unless such Condition is waived;

any Independent Competing Offer becomes or is declared unconditional in all respects;

a Material Adverse Change has occurred, referable to agreed benchmarks, which affects First Choice or TUI Travel (as the case may be);

if the scheme of arrangement is not sanctioned by First Choice shareholders at the Court Meeting or the resolutions relating to the Merger are not passed at the Extraordinary General Meeting;

prior to satisfaction of the Conditions, the recommendation by the directors of First Choice to vote in favour of the scheme of arrangement is withdrawn or adversely amended;

if the Court declines or refuses to sanction the scheme of arrangement;

the other party commits a material breach of its warranties, covenants or other obligations under the Merger Agreement; and

if the scheme of arrangement and reduction of capital have not become effective by an agreed long stop date.

Choice and TUI have agreed mutual break fees if the Merger fails.

Choice will pay TUI a break fee of £15 million if the Merger fails and:

an Independent Competing Offer for First Choice is announced and such offer becomes wholly unconditional;

the recommendation by First Choice directors to vote in favour of the resolution relating to the Merger is withdrawn; or

TUI exercises its right to terminate [redacted] an unremedied breach by First Choi[redacted] of its obligations under the Merger Agreement.

ll pay to First Choice a fee of £15 million if the Merger fails and:

an Independent Competing Offer for TUI or TUI Travel is announced and such offer becomes or is declared wholly unconditional; or

First Choice exercises its right to terminate for an unremedied material breach by TUI of its breach by TUI of its obligations under the Merger Agreement.

onship Agreement

lationship Agreement enshrines the principle agreed between the parties that, following tion of the Merger, NewCo will operate independently from TUI and in accordance with the t standards of corporate governance best practice. It also sets out the agreement of the s regarding the composition of the Board of NewCo as follows:

the Board will include a majority of independent non-executive directors and will not be more than 17 in number;

for so long as TUI holds 30 per cent. or more of the voting shares of NewCo, TUI may appoint a maximum of two non-executive directors;

for so long as TUI holds 40 per cent. or more of the voting shares of NewCo, TUI may appoint the Chairman of NewCo, in which case the CEO of NewCo will be appointed by the Board but subject to TUI's prior approval, provided that if TUI rejects three candidates nominated by the Board, TUI may nominate a candidate whose appointment will require the support of at least three independent non-executive directors. If this process does not lead to an appointment, the question will be resolved by shareholders (including TUI);

for so long as TUI holds 40 per cent. or more of the voting shares of NewCo, TUI may relinquish its right to appoint the Chairman and in return have the right to appoint and remove the CEO. If this right is invoked, the Chairman of NewCo will be appointed by the Board but subject to TUI's prior approval, provided that if TUI rejects three candidates nominated by the Board, TUI may nominate a candidate whose appointment will require the support of at least three independent non-executive directors. If this process does not lead to an appointment, the question will be resolved by shareholders (including TUI);

if TUI holds less than 40 per cent. of the voting shares of NewCo, for so long as it holds 30 per cent. or more of the voting rights of NewCo, the Board will appoint the Chairman but subject to TUI's prior approval, provided that if TUI rejects three candidates nominated by the Board, TUI may nominate a candidate whose appointment will require the

support of at least three independent non-executive directors. If this process does not lead to an appointment, the question will be resolved by shareholders (including TUI);

the Nomination Committee will nominate the rest of the directors, who will be appointed and/or removed by the Board; and

it is agreed that any persons nominated and/or appointed to a position on the Board shall have appropriate experience and qualification for his or her role.

key provisions of the Relationship Agreement are as follows:

the Relationship Agreement will remain in place until the earlier of (i) TUI's voting rights fall below 10 per cent. or (ii) NewCo ceases to be listed;

TUI has agreed that it will exercise its voting rights in relation to class 1 transactions in accordance with the recommendation given by the Board unless all of the directors appointed by TUI have dissented to or abstained from such recommendation;

NewCo has agreed that it will not (other than on the exercise of certain share options) issue any shares if the effect will be to reduce TUI's voting rights. If NewCo issues shares other than on a pre-emptive basis, TUI will have the right to subscribe for NewCo Shares at market value in order to restore the pre-existing level of his voting rights;

TUI has agreed that it will not, for a period of 12 months following Admission, dispose of any NewCo Shares without the prior written consent of NewCo, other than:

a) in each of the two consecutive periods of six months immediately following Admission, the disposal of NewCo Shares constituting, in aggregate, no more than 10 per cent. of the issued share capital then in issue either in the market (subject to orderly market restrictions) or to a single purchaser (who has agreed to be bound be equivalent lock-up restrictions);

b) intra-group transactions; and

c) the acceptance of a takeover offer in accordance with the Code;

disposals of NewCo Shares by TUI after the expiry of the 12 month period following Admission will be effected after consultation with NewCo;

TUI has agreed that it will not acquire any NewCo shares other than:

a) acquisitions that would increase its shareholding to not more than 55 per cent;

b) consequential increases in TUI's percentage of total number of NewCo shares as a result of a purchase by NewCo of its own shares; or

c) where TUI makes a general offer to acquire all NewCo shares in issue;

certain material matters shall not be undertaken by NewCo without the approval of the Board, further details of which will be set out in the prospectus, including any material alteration to the general nature of the business or NewCo or any subsidiary of NewCo;

NewCo shall avoid doing certain things which may cause TUI being in breach of any of the restrictions under TUI's current bonding facilities in the absence of any permitted exemption. NewCo and TUI will discuss any proposed course of action which may be permitted by an exemption to the restrictions and if there is doubt as to whether such exemption applies to any particular case, TUI's decision on the matter shall be final;

TUI will have the right to receive an agreed level of information in respect of NewCo's business;

in the event that a person (acting alone or in concert with other persons) acquires control of TUI during the term of the Relationship Agreement, TUI will lose certain rights under the Relationship Agreement including its rights in respect of the composition of the Board; and

for the purposes of complying with aviation regulation, the articles of association of NewCo shall incorporate provisions to prevent it becoming majority owned and effectively controlled by non-EEA nationals.

7 March 2007

FIRST CHOICE HOLIDAYS PLC

MAINSTREAM HOLIDAYS AIRLINE EXERCISES OPTIONS
ON FOUR MORE BOEING 787'S

First Choice Airways, the European launch customer for the Boeing 787, has exercised options on a further four B787 aircraft. Originally, in July 2004, the airline signed up for six 787's with options on a further six. In September 2006 it exercised the options on a further two and has now ordered the final four.

The Boeing 787 has been the most successful new commercial aircraft to launch ever. First Choice Airways will take delivery of its first two in 2009 and introduce the remaining 10 between 2010 and 2013, doubling the size of its long-haul fleet.

The B787 will bring faraway places within the range of mid-sized aircraft, flying up to 8,500 nautical miles (10,000 miles) - Gatwick to Borneo for instance - as fast as comparable current jets. It will use 20% less fuel than today's mid-sized commercial aircraft, in part down to 66% of the aircraft comprising composite material, which is considerably lighter than traditional materials.

The B787 will also improve passenger well being; it will be pressurised at lower altitudes and have greater cabin humidity ensuring passengers arrive feeling less tired. New technology that senses air pressure differences and allows the aircraft to avoid turbulence will also result in a smoother flight.

The First Choice Mainstream Holidays Sector provides differentiated holiday experiences. Building a market-leading long-haul travel programme is a key part of this strategy. Providing the most comfortable economy cabin is critical to its success, as it has demonstrated over the last two years by upgrading its Boeing 767's to provide customers with more legroom and superior in-flight entertainment. Long-haul sales are currently up 38% for Winter 2006/07 and 19% for Summer 2007.

Dermot Blastland, Managing Director of First Choice Mainstream Holidays said: " Having taken the decision to increase our commitment to long-haul holidays we wanted to ensure we could do this in the most cost effective and environmentally sound way, whilst offering our customers new destinations and even more comfortable travel. When we announced our selection in 2004, we believed the new Boeing 787 would be key to achieving this. The success of our current long-haul programme has now given us the confidence to order 12 aircraft. The B787's will be a unique experience for our customers, as we establish ourselves at the forefront of long-haul leisure travel."

"This third order from First Choice is another vote of confidence in the Boeing 787's capabilities and unprecedented environmental performance," said Marlin Dailey, Vice President of Sales for Europe, Russia and Central Asia, Boeing Commercial Airplanes. "It's exciting and very satisfying when great customers like First Choice continue to select your product. It reflects its faith in the 787 and in Boeing. I'm also very proud First Choice is making the B787 an integral part of its environmental leadership."

7 March 2007

FIRST CHOICE HOLIDAYS PLC

AGM STATEMENT

At the Annual General Meeting to be held in London today, the Chairman, Sir Michael Hodgkinson, will make the following statement:

Trading update

I am pleased to announce that trading for the 2006/07 financial year1 is progressing well with the Group performing in line with our expectations. Our strategy of a differentiated Mainstream business and a portfolio of specialist travel businesses in high-growth niche segments enable the Group to operate effectively across both leisure travel experiences and geographic regions.

Mainstream Holidays Sector

Despite continued challenging trading conditions, our Mainstream Holidays Sector is benefiting from the differentiated holiday experiences we offer.

Winter 06/07

Total revenues for Winter are 12% higher than last year with long-haul revenues up 38%. Total capacity is flat with long-haul capacity up by 25%. We have continued to reduce capacity in the short-haul market as well as to less attractive medium-haul destinations, and for the remainder of the season we have fewer holidays left to sell than at the same point last year. Margins for Winter are slightly behind last year but in line with our expectations.

We are fully supportive of the legal challenge, recently launched by the Federation of Tour Operators (FTO), to the legality of the Government's Air Passenger Duty (APD) following its decision to double the tax. We remain wholly committed and engaged in a number of initiatives to support the development of responsible and sustainable tourism. We are, therefore, opposed to the way the Government chose to introduce the new APD rates, which has financially penalised First Choice, its customers and the industry. The one-off cost of the retrospective tax for bookings made pre 6 December 2006 is £4.5m which will not be recovered and will, therefore, be treated as a separately disclosed item.

Summer 07

Summer revenues have steadily improved since our last update in December and are now flat versus last year's level on customer bookings down 5%. Overall capacity for the season will be flat on last year with a reduction in the short-haul segment and increased capacity in the long-haul segment where our differentiated growth strategy is focused. The continued shift in mix to long-haul has seen a 12% increase in customers and 19% increase in revenue in that segment. Margins for Summer are currently running slightly behind last year but in line with our expectations.

As a result of the continuing success of our long-haul programme and the opportunities we see in new destinations to drive further growth, we have decided to exercise options over a further four Boeing 787 aircraft. This will take the size of our long-haul fleet to twelve aircraft by 2013, up from the six we will be operating in the Summer 2007 season.

1. All statistics are up to 4 March 2007

Specialist Holidays Sector

Winter 06/07

Overall, our Specialist businesses are trading well. After a difficult Winter

conditions but despite this, revenues remain ahead of prior year with margins for the season in line with last year.

Summer 07

Although early in the booking period for the Specialist businesses, the Summer season has started very strongly for the Sector with the rate of sale improving significantly week on week. For the European businesses, revenues and customers are up 26% and 22% respectively at higher margins. The UK Specialist business has continued to build upon an excellent performance in 2006, by investing in selling systems that offer the customer greater flexibility and by gaining greater control of distribution. The UK business continues to perform well with strong margin growth. In our North American businesses (primarily student leisure travel) revenues are up 16% and margins are in line with our expectations.

Activity Holidays Sector

This Sector continues to perform in line with our expectations with revenues ahead of the same period last year. The Adventure Division's revenue is 4% ahead for Winter and 9% ahead for Summer on a like-for-like basis on higher margins as our portfolio of businesses within this segment continues to deliver strong growth.

We continue to identify and acquire high-growth businesses and, in the Activity Sector, three more companies have joined the Adventure Division since the year-end. We have paid a total initial consideration of £16.6m with future payments of up to £13.7m dependent on performance for i-to-i (International Projects Limited), iExplore, Inc. and TKJ Pty Ltd which trades as WesternXposure.

Online Destination Services Sector

All routes to market are performing well, with increased like-for-like volume and pricing for Winter and Summer. Laterooms.com, which we acquired in December 2006, is trading strongly and the complementary nature of its business to the rest of the brands in the Sector is already proving a valuable addition.

Current Trading (1)

		Winter 06/07		Summer

Total		+52	+41	+61

Notes:

1. These statistics are up to 4 March 2007

2. These statistics exclude FY2006 and FY2007 acquisitions

Board change

Simon Pedro Barcelo is leaving the Board at the close of the AGM. On the Board's behalf I would like to thank Simon for the valuable contribution he has made over the almost seven years that he has been a non-executive director of the Group.

Conclusion

We are confident that our strategy of offering differentiated exclusive product, expanding our long-haul programme and operating a flexible business model remains robust and will ensure that we continue to have the market leading leisure travel business.

We have built a diversified and robust Group of businesses with a flexible and efficient business model focused on delivering sustainable growth. We are well positioned to capitalise on this strength, are satisfied with our current performance and remain confident that we will make further progress throughout the remainder of the year.

We will provide a trading update on 1 May 2007, with the Interim results to be announced on 14 June 2007.

Sir Michael Hodgkinson
Chairman

01 March 2007

Further to the announcement by First Choice Holdiays PLC of the same title at 12.49pm today (RNS Number 1367S) the following correction is issued concerning the total initial consideration and future payment dependent on performance for these acquisitions.

1 March 2007

FIRST CHOICE HOLIDAYS PLC

THREE NEW COMPANIES ACQUIRED BY THE ACTIVITY HOLIDAYS SECTOR

First Choice Holidays PLC has acquired the specialist niche businesses of i-to-i (International Projects Limited), iExplore, Inc. and TKJ Pty Ltd trading as WesternXposure for a combined total initial consideration of £16.6m and future payments of up to £13.7m dependent on performance. The three businesses will be included within the Group's Activity Holidays Sector.

i-to-i, headquartered in the UK, has established itself as a leading provider of Meaningful Travel experiences while iExplore, Inc. is a US premium adventure travel internet portal and WesternXposure is an Australian operator of adventure tours in Western Australia and the Northern Territory.

i-to-i (www.i-to-i.com)

i-to-i was set up in 1995 as a provider of TEFL courses and advice on overseas placements. Following on from its TEFL credentials, i-to-i was able to establish a product portfolio servicing the Meaningful Travel segment of the market and currently sends more than 5,000 people annually on one of these experiences. This includes both Volunteer Travel - with projects in community development and conservation as well as specialist work experience projects in media and medicine - and Meaningful Tours which are structured as off the beaten track experiences, often including elements of volunteer work.

Building on its Meaningful Travel expertise, i-to-i now offers corporate organisations the opportunity to engage their employees in overseas volunteering via its Volunteer Partnerships Abroad Scheme. Employers support their employees whilst they partake in volunteering projects overseas. i-to-i offers individual volunteer projects or group challenges for between six and 30 people and this is seen as a significant area of future growth for the business.

i-to-i has built an unparalleled level of knowledge and experience in its segment, has an extensive network of contacts across the world and is one of the leading companies in the field of charity tourism. Customers fall broadly into two life-stages, pre or post university gap-year students (18 - 24 years) and career break travellers (generally 25 - 35 years). It has offices in Leeds, Denver, USA, Melbourne, Australia and Dungarven, Ireland and operates in both a high growth and highly profitable segment of the market.

iExplore (www.iExplore.com)

Based in Chicago, iExplore was formed in 1999 and since its inception has driven significant internet traffic through its portal as well as establishing a position as the Google authority site for adventure travel in the US. The activity and experiential online space is less mature than the online mainstream space and it provides substantial opportunities for iExplore whose site architecture was created to be search engine friendly from the outset. It generates over one million unique visitors per month from its travel product retail site and its community (forum) site. The forum area offers consumers research resources including books, suggestions on clothing and equipment and trip reviews from fellow travellers. In addition, advertising space is made available to credible travel and adventure related blue chip customers, which provides a substantial amount of income to the business.

The travel business offers over 500 adventure and experiential trips, predominantly for US customers. 200 of the trips are own label 'iExplore Exclusives' and account for circa 90% of passenger volumes within the business. iExplore's customer demographics fit within the affluent 30's and young 50's where the average household income is US$120,000 per annum. This acquisition provides the Group with proprietorial technology that, over time, can be used in other source markets.

WesternXposure (www.westernXposure.com.au)

Based in Perth, Western Australia, WesternXposure is at the forefront of adventure tourism in this region. With 29 itineraries offering eco-based camping and accommodated tours to all the icons of Western Australia and into the Northern Territory it has the most comprehensive range of tours available on the west coast of Australia. The fully guided tours range from 1 - 24 days and are conducted in a modern fleet of custom-built 4WD's and mini-buses. WesternXposure takes over 15,000 customers each year, primarily in the 20-45 age group, deep into the outback to attractions and destinations which include, Monkey Mia, Broome, Uluru, The Pinnacles, Darwin and Alice Springs. In addition to English language tours, WesternXposure has also established a Japanese language tours offering.

First Choice entered the Australian soft adventure market in 2004 with the acquisition of Let's Trek Australia a specialist provider of similar tours to remote parts of Eastern Australia. The acquisition of WesternXposure brings together the two leading businesses in Western and Eastern Australia creating geographic coverage and expertise in a high growth market which is popular within the Australian domestic market and for international travellers to Australia.

Commenting on the businesses, Peter Long, Chief Executive, First Choice said:

"We have established a leading presence in the adventure travel market, not only in the UK but also internationally. I am delighted that i-to-i, iExplore and WesternXposure have joined the Group as part of the Activity Holidays Sector. We have led the way in consolidating this fragmented growth area and these three businesses give us the opportunity to enter new segments of the market place, broaden our product range, offer exciting growth prospects and wider-scale future development prospects."

Annex to Notification Of Major Interests In Shares xvi

A: Identity of the person or legal entity subject to the notification obligation	
Full name (including legal form for legal entities)	

Phone number	
Other useful information (at least legal representative for legal persons)	

B: Identity of the notifier, if applicable xvii	
Full name	
Contact address	
Phone number	
Other useful information (e.g. functional relationship with the person or legal entity subject to the notification obligation)	

C: Additional information

(i) This form is to be sent to the issuer or underlying issuer and to be filed with the competent authority.

(ii) Either the full name of the legal entity or another method for identifying the issuer or underlying issuer, provided it is reliable and accurate.

(iii) This should be the full name of (a) the shareholder; (b) the person acquiring, disposing of or exercising voting rights in the cases provided for in DTR5.2.1 (b) to (h); (c) all the parties to the agreement referred to in DTR5.2.1 (a), or (d) the direct or indirect holder of financial instruments entitled to acquire shares already issued to which voting rights are attached, as appropriate.

In relation to the transactions referred to in points DTR5.2.1 (b) to (h), the following list is provided as indication of the persons who should be mentioned:

- in the circumstances foreseen in DTR5.2.1 (b), the person that acquires the voting rights and is entitled to exercise them under the agreement and the natural person or legal entity who is transferring temporarily for consideration the voting rights;

- in the circumstances foreseen in DTR 5.2.1 (c), the person holding the collateral, provided the person or entity controls the voting rights and declares its intention of exercising them, and person lodging the collateral under these conditions;

- in the circumstances foreseen in DTR5.2.1(d), the person who has a life interest in shares if that person is entitled to exercise the voting rights attached to the shares and the person who is disposing of the voting rights when the life interest is created;

- in the circumstances foreseen in DTR5.2.1 (e), the parent undertaking and, provided it has a notification duty at an individual level under DTR 5.1, under DTR5.2.1 (a) to (d) or under a combination of any of those situations, the controlled undertaking;

with him at his discretion, and the depositor of the shares allowing the deposit taker to exercise the voting rights at his discretion;

- in the circumstances foreseen in DTR5.2.1 (g), the person that controls the voting rights;

- in the circumstances foreseen in DTR5.2.1 (h), the proxy holder, if he can exercise the voting rights at his discretion, and the shareholder who has given his proxy to the proxy holder allowing the latter to exercise the voting rights at his discretion.

(iv) Applicable in the cases provided for in DTR 5.2.1 (b) to (h). This should be the full name of the shareholder who is the counterparty to the natural person or legal entity referred to in DTR5.2.

(v) The date of the transaction should normally be, in the case of an on exchange transaction, the date on which the matching of orders occurs; in the case of an off exchange transaction, date of the entering into an agreement.

The date on which threshold is crossed should normally be the date on which the acquisition, disposal or possibility to exercise voting rights takes effect (see DTR 5.1.1R (3)). For passive crossings, the date when the corporate event took eff[redacted]t.

(vi) Please refer to the situation disclosed in the previous notification, In case the situation previous to the triggering transaction was below 3%, please state 'below 3%'.

vii If the holding has fallen below the minimum threshold , the notifying party should not be obliged to disclose the extent of the holding, only that the new holding is less than 3%.

For the case provided for in DTR5.2.1(a), there should be no disclosure of individual holdings per party to the agreement unless a party individually crosses or reaches an Article 9 threshold. This applies upon entering into, introducing changes to or terminating an agreement.

viii Direct and indirect

ix In case of combined holdings of shares with voting rights attached 'direct holding' and voting rights 'indirect holdings', please split the voting rights number and percentage into the direct and indirect columns-if there is no co[redacted]ned holdings, please leave the relevant box blank.

X Voting rights to shares in respect of which the notifying party is a direct shareholder (DTR 5.1)

xi Voting rights held by the notifying party as an indirect shareholder (DTR 5.2.1)

xii If the holding has fallen below the minimum threshold, the notifying party should not be obliged to disclose the extent of the holding, only that the new holding is below 3%.

xiii date of maturity / expiration of the finical instrument i.e. the date when the right to acquire shares ends.

xiv If the financial instrument has such a period-please specify the period- for example once every three months starting from the (date)

xv The notification should include the name(s) of the controlled undertakings through which the voting rights are held. The notification should also include the amount of voting rights and the percentage held by each controlled undertaking, insofar as individually the controlled undertaking holds 5% or more, and insofar as the notification by the parent undertaking is intended to cover the notification obligations of the controlled undertaking.

23 December 2006

FIRST CHOICE HOLIDAYS PLC

ACQUISITION OF LATEROOMS LIMITED (LATEROOMS)

First Choice Holidays PLC has purchased LateRooms Limited www.laterooms.com a leading online price comparator and seller of late availability hotel rooms.

Highlights

- Initial consideration - £108 million

- Year end 31 December 2006 forecast EBITA of £6.2 million (2005: £3.7 million)

- UK online booking of hotel accommodation £1.1 billion in 2004, expected to increase 21% year-on-year to £3.4 billion by 2008

- LateRooms has 12% of the UK intermediary online booking market - estimated 1.3 million room nights will be sold in 2006

- Approximately one million unique customer visits monthly - mix of business and leisure

- Genuine provider of online late availability (less than 24 hours)

- Over 13,000 properties on the LateRooms database with the majority currently in the UK - independent and major chains - no reliance on any one hotelier

- Leverage on the strength of the Online Destination Services Sector's supplier relationships

- Significant growth opportunities in existing and new markets

LateRooms operates in an attractive market that has enjoyed strong growth which is forecast to continue. The UK hotel market is worth £12 billion annually, of which approximately £8.2 billion comes from the domestic source market, with 20% of customers booking online. It is estimated that intermediaries like LateRooms account for approximately 40% of online bookings. LateRooms share of this intermediary market is 12%. The online distribution channel has doubled since 2004 and is forecast to continue to grow at 20% per annum for the coming years. This growth is being driven by increasing internet and broadband penetration, increasing consumer expenditure online and increasing frequency of short breaks. In Europe, the hotel market is even larger and the online distribution channel less well developed representing a significant growth opportunity.

LateRooms (www.laterooms.com) is a leading online price comparator and seller of late availability hotel rooms. In 2006, LateRooms will sell around 1.3m bednights. The website provides independent, detailed comparative information on price, star rating and location of over 13,000 properties worldwide, with the majority in the UK. This gives customers access to the best late availability and hoteliers a controlled route to market to maximise occupancy and revenue. On average, rooms are sold at a discount of 40% to the rack rate.

LateRooms operates a commission model acting as an agent for the hoteliers. The site generates approximately one million unique visitors per month with 70% arriving at the site directly and achieves a 10% conversion rate. LateRooms now wants to expand its European content to distribute to the UK source market (City and leisure destinations) as well as establishing operations in European source markets. The combination of LateRooms and Online Destination Services will accelerate LateRooms' growth strategy in Europe by leveraging existing hotel relationships and infrastructure across Europe.

depending on future outperformance over the next three years. The Business had gross assets of £1.7 million in the year ending 31 December 2005. Net revenue grew 57% from £4.4 million in the year ended 31 December 2004 to £6.9 million in 2005 and is forecast to grow by a further 57% to £10.8 million in 2006. Similarly, operating profit has grown by 95% from £1.9 million in the year ended 31 December 2004 to £3.7 million in 2005 with a forecasted 68% increase to £6.2 million for 2006. We anticipate that this progression will continue.

Founded in 1999, the management team of LateRooms has successfully developed the business from a simple price comparator to today's online transaction site with enriched features including customer reviews on hotels. In 2002, its first year of selling online, 46,000 room nights were sold, it is estimated that in 2006 this will have increased to 1.3 million room nights. First Choice's acquisition strategy is to acquire companies with their management who are then responsible for growing the business with the support of the PLC, LateRooms is no different and the current management team will remain with the business.

Commenting on the acquisition, Peter Long, Chief Executive, First Choice Holidays PLC said:

"Operating in a high growth sector, we see considerable opportunity to increase LateRooms future profitability even further. It has a distinct business model se[redacted]cing a niche market segment at low cost. The access to an increased range of accommodation already available in the Group will strengthen its position and give international scalability.

"As a genuine provider of late availability accommodation, its recognised and established brand benefits from a generic relationship with its product and has a limited requirement for marketing support. Integral to its success has been its senior management team who have successfully grown the business and are a key component in its future development. I'm sure that as part of First Choice, LateRooms will continue to lead the way in late availability online accommodation."

FIRST CHOICE HOLIDAYS PLC

Preliminary Results for the year ended 31 October 2006

Highlights

- Diversified portfolio delivering strong performance in difficult marketplace

- Underlying operating profit of £135.4m (2005: £120.2m) up 13%

- EBIT margin up 10 basis points to 5.0% (2005: 4.9%)

- Fourth consecutive year of underlying double-digit earnings growth; underlying earnings per share up 16% to 16.1p (2005: 13.9p)

- Fourth consecutive year of double-digit dividend growth; final dividend up 16% to 5.4p per share (2005: 4.65p)

Financial highlights

	Underlying1 results	Statutory results

£m	FY06	FY05	Change	FY06	FY05	Change
Revenue	2,715.3	2,[illegible].6	+11%	2,715.3	2,441.6	[illegible]%
Operating profit	135.4	120.2	+13%	115.7	117.4	-1%
Profit before tax	117.2	115.0	+2%	97.5	112.2	-13%
Basic EPS	16.1p	13.9p	+16%	13.7p	13.5p	+2%
Dividend per share	7.65p	6.60p	+16%	7.65p	6.60p	+16%

- Mainstream outperformed the market:
  - long-haul product revenues and bookings up 44% and 35% respectively
  - sixth Holiday Village opened in Dominican Republic
  - on target to achieve 75% of sales through controlled channels by 2008

- Specialist sectors underlying operating profit increased by £17.8m (up 30%)

- Grand Expeditions and Intrav acquisitions integrated and performing well:
  - creation of Escorted Tours division and First Choice Expedition Cruising

- £148.7m of niche, specialist acquisitions made during the year; strong pipeline going forward:
  - first acquisition in Asia Pacific region

(1) The Group believes that underlying operating profit, underlying profit before tax and underlying earnings per share provide additional guidance to the statutory measures on the underlying performance of the business during the financial year. Underlying profit before tax and underlying operating profit exclude separately disclosed items, amortisation of business combination intangibles, impairment of goodwill and taxation of profits of the Group's joint venture and associate. Underlying earnings exclude the same items net of tax and minority interests

Current Trading

- Winter 2006/07:
    - Mainstream Holidays Sector revenue up 15% against market which is 9% down; long- haul revenues and bookings up 40% and 26% respectively
    - Specialist Holidays Sector revenues up 9%
    - Activity Holidays Sector revenue up 7%
    - Online Destination Services sales and bednights performing strongly

- Summer 2007:
    - Mainstream Holidays Sector revenue down 5% versus market which is 11% down
    - Activity Holidays Sector revenue up 12%

Commenting on the results, Peter Long, Chief Executive said:

"The Group has once again delivered strong operational performance and financial growth in a year that has proved challenging for the leisure travel industry. The year's financial results prove that the cash generative, flexible business model we operate, combined with the range of differentiated leisure travel experiences the Group offers, is both robust and provides a platform for long-term, sustained growth.

In the Mainstream Holidays Sector, the UK market remains challenging for Winter 06/07. Nonetheless, we have continued to outperform the market and experienced an improvement in trading over the last six weeks, due to continued strong

demand for our long-haul products. Our confidence in the performance of this area of the business has led us to order two additional Boeing 787 aircraft to service this demand going forward. Although it is still very early in the booking cycle for Summer 2007, we are encouraged by performance to date across the three Sectors currently on sale.

Our confidence in the future is reflected in the double-digit increase in the full year dividend, as we believe the combination of organic and acquisition led growth, which have transformed the business over the last few years, will continue to generate superior returns for shareholders."

Hedge accounting

llowing accounting policy has been applied with effect from 1 November
Prior to this date, the accounting policy for the period up to 1 November
set out in (E), was followed.

Cash flow hedges

a derivative financial instrument is designated as a hedge of the
ility in cash flows of a recognised asset or liability, or a highly
ly forecast transaction, the effective part of any gain or loss on the
tive financial instrument is recognised directly in the hedging reserve.
effective portion of the hedge is recognised immediately in the income
ent.

he forecast transaction subsequently results in the recognition of a
nancial asset or non-financial liability, the associated cumulative gain
s is removed from the hedging reserve and is included in the initial cost
er carrying amount of the non-financial asset or liability.

edge of a forecast transaction subsequently results in the recognition of
ncial asset or a financial liability, the associated gains and losses that
recognised directly in equity are reclassified into the income statement in
me period or periods during which the asset acquired or liability assumed
s profit or loss.

sh flow hedges, other than those covered by the preceding two policy
ents, the associated cumulative gain or loss is removed from equity and
ised in the income statement in the same period or periods during which

edged forecast transaction affects the income statement.

hedging instrument expires or is sold, terminated or exercised, or the revokes designation of the hedge relationship but the hedged forecast action is still expected to occur, the cumulative gain or loss at that remains in equity and is recognised in accordance with the above policy the transaction occurs. If the hedged transaction is no longer expected to place, the cumulative unrealised gain or loss recognised in equity is nised in the income statement immediately.

Fair value hedges

a derivative financial instrument is designated as a hedge of the bility in fair value of a recognised asset or liability or an unrecognised commitment, all changes in the fair value of the derivative are recognised iately in the income statement. The carrying value of the hedged item is ted by the change in fair value that is attributable to the risk being d (even if it is normally carried at cost or amortised cost) and any gains sses on re-measurement are recognised immediately in the income statement if those gains would normally be recognised directly in reserves).

Revenue

ue represents the aggregate amount of revenue from inclusive tours, travel commission received and other services supplied to customers in the ary course of business. Revenue excludes intra-group transactions and is d after the deduction of trade discounts and commissions.

Goods sold and the services rendered

ue from sale of goods is recognised in the income statement when the ficant risks and rewards of ownership have been transferred to the buyer. ue in respect of in-house product is recognised on the date of departure. agency commissions and other revenues received from the sale of third product are recognised when they are earned on receipt of final payment.

venue is recognised if there are significant uncertainties regarding ery of the consideration due, associated costs or possible return of goods.

Client monies received in advance (deferred income)

monies received at the balance sheet date relating to holidays commencing
ights departing after the year end is deferred and included within trade
her payables.

Valuation of revenue

Where the Group acts as principal, revenue is stated at the contractual
of goods and services provided, net of variable distribution costs such as
commissions and "click costs".

the Group acts as agent and collects amounts on behalf of the principal
er of goods or services, revenue is stated at the value of the commissions
and not the total transaction sales value.

the Group acts as intermediary between the service provider and the end
er, revenue is presented on a net basis as the difference between the
price to the customer and the cost of the services purchased. Businesses
entified as intermediaries dependent on: the control exercised over the
ion of service; inventory risk; and customer credit risk.

Expenses

Operating lease payments

ts made under operating leases are recognised in the income statement on a
ht line basis over the term of the lease or on another systematic basis if
s more representative of the time pattern of the benefit from use of the
asset. Lease incentives received are recognised in the income statement
integral part of the total lease expense over the term of the lease.

Finance lease payments

m lease payments are apportioned between the finance charge and the
ion of the outstanding liability. The finance charge is allocated to each
during the lease term so as to produce a constant periodic rate of
st on the remaining balance of the liability.

Marketing and other direct sales costs

ing, advertising and other promotional costs, including those related to oduction of brochures, are expensed as incurred.

Taxation

tax on profit or loss comprises current and deferred tax. Income tax is ised in the income statement except to the extent that it relates to items ised directly in equity, in which case it is recognised in equity.

Current tax

t tax is the expected tax payable on the taxable income for the year, tax rates enacted or substantially enacted at the balance sheet date, and djustment to tax payable in respect of previous years.

Deferred tax

ed tax is provided using the balance sheet liability method, providing for ary differences between the carrying amounts of assets and liabilities for ial reporting purposes and the amounts used for taxation purposes. The ing temporary differences are not provided for: the initial recognition of ll not deductable for tax purposes, the initial recognition of assets or ities that affect neither accounting nor taxable profit, and differences ng to investments in subsidiaries to the extent that they will probably everse in the foreseeable future. The amount of deferred tax asset or ity provided is based on the expected manner of realisation or settlement e carrying amount of assets and liabilities, using tax rates enacted or ntively enacted at the balance sheet date.

erred tax asset is recognised only to the extent that it is probable that e taxable profits will be available against which the asset can be ed. Deferred tax assets are reduced to the extent that it is no longer ble that the related tax benefit will be realised.

Property, plant and equipment

Owned assets

of property, plant and equipment are stated at cost less accumulated
iation and impairment losses.

significant parts of an item of property, plant and equipment have
ent useful lives, they are accounted for as separate items of property,
and equipment.

Leased assets

in which the Group assumes substantially all the risks and rewards of
hip are classified as finance leases. Leased assets acquired by way of a
e lease are stated at an amount equal to the lower of their fair value and
esent value of the minimum lease payments at the inception of the lease,
ccumulated depreciation and impairment losses. Lease payments are
ted for as set out in (H) above.

Depreciation

iation is charged to the income statement on a straight-line basis over
timated useful lives of each part of an item of property, plant and
ent. Freehold land is not depreciated. The useful economic lives are as
s:

old properties	-	50 years
leasehold properties	-	Lease period or useful economic life if shorter
e lease aircraft and equipment	-	Lease period or useful economic life if shorter
ft spares	-	12 years
	-	15 years
boats	-	24 years
computer equipment	-	5 years
er equipment	-	3-5 years
fixtures and fittings	-	8 years
assets	-	4 years

esidual values and useful lives of all assets are re-assessed annually.

Intangible assets

Owned assets

siness combinations are accounted for by applying the purchase method.

ll represents amounts arising on acquisition of subsidiaries, associates
int ventures. In respect of business acquisitions that have occurred
1 November 2004, goodwill represents the difference between the fair value
sideration paid and the fair value of the net identifiable assets and
gent liabilities acquired. Identifiable intangibles are those which can
d separately or which arise from legal rights regardless of whether those
are separable. Goodwill is stated at cost less any accumulated
ment losses. Goodwill is allocated to cash-generating units and is not
sed but is tested annually for impairment. In respect of joint ventures
sociates, the carrying amount of goodwill is included in the carrying
of the investment in the joint venture or associate.

pect of acquisitions prior to 1 November 2004, goodwill is included at 1
er 2004 on the basis of its deemed cost, which represents the amount
ed under UK GAAP which was broadly comparable save that only separable
ibles were recognised and goodwill was amortised. Amortisation of
ll ceased on 1 November 2004. This goodwill is tested annually for
ment.

sed goodwill in respect of acquisitions before 1 January 1998 was written
reserves in the year of acquisition, in accordance with the accounting
rd then in force.

value adjustments are made in respect of acquisitions. If, at the balance

date, the amounts of fair values of the acquiree's identifiable assets and
ities can only be established provisionally then these values are used.
justments to these values are taken as adjustments to goodwill and are
ed within 12 months of the acquisition.

ve goodwill arising on an acquisition is recognised in the income
ent.

Computer software

er software consists of all software that is not an integral part of the
d computer hardware and is stated at cost less accumulated amortisation
pairment losses.

Other intangible assets

intangible assets that are acquired by the Group are stated at cost less
lated amortisation and impairment losses.

Amortisation

sation is charged to the income statement on a straight-line basis over
timated useful economic life of each type of intangible asset as follows:

er software	-	3-5 years
	-	10 years
book at date of acquisition	-	When travel occurs
er lists	-	Over the period to which value will be obtained by the Group (up to 3 years)

ll is not amortised but is systematically tested for impairment at each
e sheet date.

Investments

investments are classified as available f sale assets and are included
non-current assets. They are recorded at market value with movements in
taken to equity. Any impairment to value is recorded in the income
ent.

term investments in debt and equity securities which are held for trading
assified as current assets and are stated at fair value, with any
ant gain or loss recognised in the income statement.

mpairments

rrying amount of the Group's assets, other than deferred tax assets, are
ed at each balance sheet date to determine whether there is any indication
airment. If such an indication exists, the asset's recoverable amount is
ted. For goodwill, the recoverable amount is estimated at each balance
date.

airment loss is recognised whenever the carrying amount of an asset or its
enerating unit exceeds its recoverable amount. Impairment losses are
ised separately in the income statement.

ment losses recognised in respect of cash generating units are allocated
to reduce the carrying amount of goodwill allocated to cash generating
and then to reduce the carrying amount of other assets in the unit on a
ta basis. A cash generating unit is the smallest identifiable group of
that generates cash inflows that are largely independent of the cash
s from other assets or groups of assets.

ll was tested for impairment as at 1 November 2004, the date of transition
pted IFRSs, even though no indication of impairment existed.

coverable amount of the Group's receivables which are carried at amortised
s calculated as the present value of estimated future cash flows,
nted at the original effective interest rate (i.e. the effective interest
computed at initial recognition of these financial assets). Receivables
short duration are not discounted. The recoverable amount of other

is the greater of their net selling price and value in use. In assessing in use, the estimated future cash flows are discounted to their present using a pre-tax discount rate that reflects current market assessments of me value of money and the risks specific to the asset. For an asset that ot generate largely independent cash flows, the recoverable amount is ined for the cash-generating unit to which the asset belongs.

airment loss is reversed only to the extent that the asset's carrying does not exceed the carrying amount that would have been determined, net reciation or amortisation, if no impairment loss has been recognised. An ment loss in respect of goodwill is not reversed. In respect of other , an impairment loss is reversed when there is an indication that the ment loss may no longer exist and there has been a change in the estimates o determine the recoverable amount.

Cash and cash equivalents

nd cash equivalents comprise cash balances and call deposits. Bank afts that are repayable on demand and form an integral part of the Group's anagement are included as a component of cash and cash equivalents for the e only of the statement of cash flows.

nterest-bearing borrowings

st-bearing borrowings are recognised initially at fair value less utable transaction costs. Subsequent to initial recognition, st-bearing borrowings are stated at amortised cost with any differences n cost and redemption value being recognised in the income statement over riod of the borrowings on an effective interest rate basis.

Provisions

ision is recognised in the balance sheet when the Group has a legal or uctive obligation as a result of a past event, and it is probable that an w of economic benefits will be required to settle the obligation. If the is material, provisions are determined by discounting the expected future lows at a pre-tax rate that reflects current market assessments of the alue of money and, where appropriate, the risks specific to the liability.

pect of aircraft, due to the legal obligations placed upon the Group under rms of certain operating leases, provisions are made for the maintenance, ul and repair costs of operating leased airframes, engines and rotable . The provision is based on total anticipated costs over the useful ic life of the asset calculated by reference to costs experienced and hed manufacturers data. The charge to the income statement is calculated erence to the number of hours flown or by reference to the length of the verhaul cycle. Costs incurred are charged against the provision. Neither ming nor the value of the expenditure can be precisely determined but they averaged over time and over a fleet.

st of major overhauls of owned airframes, engines and rotable spares is lised and depreciated over the period until the next scheduled major ul.

ther financial assets and other financial liabilities

and other receivables are stated at their nominal amount (discounted if al) less impairments.

and other payables are stated at cost.

Dividends

nd distribution to the Company's shareholders is recognised as a liability Group's financial statements in the period in which the dividends are riately authorised and approved for payment and are no longer at the tion of the Company. Unpaid dividends that do not meet these criteria are sed in the notes to the financial statements.

Employee benefits

Defined contribution plans

tions for contributions to defined contribution pension plans are ised as an expense in the income statement as incurred.

Defined benefit plans

oup's net obligation in respect of defined benefit pension plans is ated separately for each plan by estimating the amount of future benefit mployees have earned in return for their service in current and prior s; that benefit is discounted to determine its present value, and the fair of any plan assets is deducted. The calculation is performed by a ied actuary using the projected unit credit method.

he benefits of a plan are improved, the portion of the increased benefit ng to past services by employees is recognised as an expense in the income ent on a straight-line basis over the average period until the benefits vested. To the extent that the benefits vest immediately, the expense is ised immediately in the income statement.

tuarial gains and losses at 1 November 2004, the date of transition to were recognised. The Group has early adopted the amendments to IAS19: yee Benefits". Consequently, all actuarial gains and losses since 1 er 2004 are recognised in the period they occur directly in equity through atement of recognised income and expense.

n liabilities are funded by monthly or annual contributions.

Share-based payment transactions

oup's share option programmes allow Group employees to acquire shares of timate parent company; these awards are granted by the ultimate parent. ir value of options granted is recognised as an employee expense with a ponding increase in equity. The fair value is measured at grant date and over the period during which the employee becomes entitled to the s.

ir value of the options granted is measured using option valuation models, into account the terms and conditions upon which the options were d. The amount recognised as an expense is adjusted to reflect the actual of share options that vest except where forfeiture is due only to market performance conditions not achieving the threshold for vesting.

ccounting policy relates only to share options issued after 7 November
in line with the transition rules of IFRS 2.

Own shares held by an ESOP trust

ctions of the group sponsored ESOP trust are included in the Group
ial statements. In particular, the trust's purchase of shares in the
y are debited directly to equity.

Non-current assets held for sale and discontinued operations

current asset or a group of assets containing a non-current asset is
fied as held for sale if its carrying amount will be recovered principally
h sale rather than through continuing use or it is available for immediate
nd sale is highly probable within one year.

tial classification as held for sale, non-current assets and disposal
are measured at the lower of previous carrying amount and fair value less
to sell with any adjustments taken to profit or loss. The same applies to
and losses on subsequent re-measurement.

ontinued operation is a component of the Group's business that represents
rate major line of business or geographical area of operations or is a
iary acquired exclusively with a view to resale, that has been disposed
s been abandoned or that meets the criteria to be classified as held for

Related parties

e purpose of these financial statements, parties are considered to be
d to the Group if the Group has the ability directly or indirectly, to
l the party or exercise significant influence over the party making
ial and operating decisions, or vice versa, or where the Group and the
are subject to common control or common significant influence. Related
s may be individuals or other entities.

Segment reporting

ent is a distinguishable component of the Group that is engaged either in ing services (business segment) or in providing services within a ular economic environment (geographic segment) which is subject to risks wards that are different from those of other segments.

items	(8.0)	-
	5.8	-

anisation of back office functions

ing a strategic review of the Group's UK Mainstream operations, a decision

en made to outsource certain back office functions. This outsourcing is
d to commence in the first half of financial year 2007. The separately
sed items incurred for this in 2006 of £3.2m relate to set up costs for
tsourced operations and provision for redundancy costs associated with the
tion.

ss restructuring costs

e with the Group's strategy of remaining cost competitive, during the year
rehensive review of under performing businesses was carried out. This
has resulted in the closure of the Marmara Portugal operation and
cturing of other business units. Non-recurring costs of £10.6m have been
ed, principally in relation to redundancy and other closure costs
ated with the restructuring activities in the Specialist, Activity and
ream sectors.

items

have been a number of favourable developments and outcomes in respect of
n commercial transactions and legal settlements in the year. In addition,
ment has undertaken a review of other accruals. Whilst none of these
are individually significant, it is considered appropriate to separately
se the aggregate of £8.0m.

axation

x charge can be summarised as follows:

	2006 £m	2005 £m
nalysis of charge in year		
t tax expense:		
poration tax on profits of the year	-	23.7

tax on profits of the year	8.2	9.7
ments in respect of previous years	(2.5)	1.0
	5.7	34.4
ed tax expense:		
ation and reversal of timing differences:		
rent year UK	17.9	(2.6)
rent year non-UK	(0.9)	1.9
ustments in respect of previous periods	2.5	(1.8)
	19.5	(2.5)
income tax expense in income statement	25.2	31.9

axation (continued)

econciliation of effective tax rate

tal tax charge for the year is lower (2005: lower) than the standard rate
poration tax in the UK of 30% (2005: 30%). The differences are explained

	2006 %	2006 £m	2005 %	2005 £m
before tax reported in the income statement		97.5		112.2
hare of profit in joint venture and associate		(2.8)		(1.9)
		94.7		110.3
tax on profit before tax excluding share of joint e and associate at the standard rate of UK tax of 30% 30%)	30.0	28.4	30.0	33.1
nses not deductible for tax purposes	0.3	0.3	2.2	2.5
isation of tax losses	(6.9)	(6.5)	(2.5)	(2.7)
utilisation of tax losses	3.0	2.8	2.0	2.2
er tax rates on overseas earnings	1.8	1.7	1.3	1.4
r tax rates on overseas earnings	(1.6)	(1.5)	(3.4)	(3.8)
stments to tax charge in respect of previous periods	-	-	(0.7)	(0.8)

income tax expense in income statement	26.6	25.2	28.9	31.9

fective rate of taxation is 26.6% (2005: 28.9%). The underlying rate of
on is 27.6%. It is expected that an effective tax rate of 28% will be
nable in the medium term.

ividends

ry shares

llowing dividends have been deducted from equity in the year:

	2006 £m	2005 £m
m dividend paid for 2005 of 1.95p per share (2004: 1.75p)	10.1	9.1
ordinary dividend paid for 2005 of 4.65p (2004: 3.75p)	24.4	19.5
	34.5	28.6

terim dividend in respect of the six-month period to 30 April 2006 of
per share was paid on 1 November 2006 and this dividend of £11.8m will be
ised as a deduction from equity in the year ending 31 October 2007.

uent to the balance sheet date, the Directors have approved a final
ed dividend of 5.4p per share (2005: 4.65p) payable on 10 April 2007 to
lders of relevant shares on the register at 9 March 2007. The final
ed dividend amounts to £28.3m (2005: £24.4m) and will be recognised in the
ial statements for the year ended 31 October 2007. The final ordinary
nd of 5.4p per share, together with the interim dividend of 2.25p per
makes a total dividend of 7.65p per share relating to the year ended 31
r 2006 (2005: 6.6p).

dend reinvestment plan was introduced for the first time with respect to nal dividend payable for the year ended 31 October 2000. Those olders who have not elected to participate in this plan, and who would o participate with respect to the 2006 final dividend, may do so by ting Lloyds TSB Registrars direct on 0870 241 3018. The last day for on for the final proposed dividend is 16 March 2007 and any requests be made in good time ahead of that date.

arnings per share

sic earnings per ordinary share is calculated by dividing the profit utable to ordinary shareholders by the applicable weighted average number inary shares in issue during the year, excluding those held in the ee share ownership trusts. The diluted earnings per share is calculated on s attributable to ordinary shareholders divided by the adjusted weighted e number of ordinary shares, which takes account of the outstanding share s, where their conversion is dilutive. The additional earnings per share es have been given to provide the reader of the accounts with a better tanding of the results.

nual General Meeting

mpany's Annual General Meeting will be held at 10.30 a.m. on 9 March 2007
offices of Deutche Bank, 1 Great Winchester Street, London, EC2N 2DB

Appendix 1

ting policies

Choice Holidays PLC is a company incorporated in England and Wales. The
financial statements consolidate those of the Company and its subsidiaries
her referred to as "the Group") and equity account the Group's interest in
ventures and associates.

Basis of preparation

nsolidated financial statements have been prepared and approved by the
ors in accordance with International Financial Reporting Standards as
d by the European Union (Adopted IFRSs). The financial statements are
ted in the Group's functional currency of Sterling, rounded to the nearest
d thousand.

oup believes that underlying operating profit, underlying profit before
d underlying earnings per share provide additional guidance to statutory
es on the underlying performance of the business during the financial

rm underlying is not defined under International Financial Reporting
rds. It is a measure that is used by management to assess the underlying
mance of the business internally and is not intended to be a substitute
e for statutory IFRS GAAP measures.

oup defines these underlying measures as follows:

erlying operating profit is profit before interest, taxation
oup and share of joint venture and associate), separately disclosed items,
rtisation of intangible assets acquired in business combinations and
airment of goodwill.

erlying profit before tax is profit before taxation (Group and
re of joint venture and associate), separately disclosed items,
rtisation of intangible assets acquired in business combinations and
airment of goodwill.

erlying profit after tax is profit before separately disclosed
ms, amortisation of intangible assets acquired in business combinations
impairment of goodwill (all net of tax).

erlying earnings are underlying profit after tax less minority
erests and preference dividends.

erlying earnings per share is underlying earnings divided by the
ghted average number of ordinary shares in issue during the financial
iod, excluding those held by employee share ownership trusts.

uld be noted that the definitions of underlying items being used in these
ial statements are those used by the Group and may not be comparable with
rm 'underlying' as defined by other companies within both the same sector
ewhere.

esentation of revenue and cost of sales has been revised to more
tely reflect the nature of the activities undertaken in the Online
ation Services Sector, where the Sector acts as an intermediary between
e provider and end customer (see Appendix 1 (G)). This change has reduced
eviously reported comparative ODS revenue and cost of sales figures by
m each. Revenue in note 2 is presented on this revised basis.

Transition to Adopted IFRSs

oup is preparing its financial information in accordance with Adopted
for the first time and consequently has applied IFRS 1: "First-time
on of International Financial Reporting Standards".

eparation of the consolidated financial statements in accordance with
d IFRSs resulted in changes to the accounting policies as compared with
05 annual financial statements prepared under UK GAAP. With the exception
ounting policies in respect of financial instruments, the accounting
es set out below have been applied consistently to all years presented in
consolidated financial statements. They have also been applied in
ing an opening Adopted IFRSs balance sheet at 1 November 2004 for the
es of the transition to IFRS, as required by IFRS 1. The impact of the
tion from previous UK GAAP to Adopted IFRSs is explained in note 33.

nsolidated financial statements are prepared on the historical cost basis
than, from 1 November 2005, derivative financial instruments, financial
ments held for trading and financial instruments classified as available
le, which are stated at their fair value. Non-current assets held for
re stated at the lower of their carrying amount and fair value less costs
l.

oup has adopted the transitional rules of IFRS1 and has therefore adopted
: Financial Instruments "Disclosures and Presentation" and IAS 39:
ial Instruments "Recognition and Measurement" and IFRS 7 "Financial
ments" only with effect from 1 November 2005. In the comparative
ial year, the previous UK GAAP accounting policy has been applied. The
has early adopted IFRS 7 in the year ending 31 October 2006 which replaces
sclosure requirements of IAS 32.

ition, IFRS 1 grants certain exemptions from the full requirements of
Adopted IFRSs on transition. The following exemptions permitted under
have been taken in these Group financial statements:

Business combinations

Business combinations that took place prior to 1 November 2004
ot been restated.

Foreign exchange

Cumulative translation differences for all foreign operations
een set at zero at 1 November 2004.

Share based payments

IFRS 2: "Share based payments" has only been applied in respect of share
s issued after 7 November 2002.

Basis of consolidation

nsolidated financial statements of the Group comprise the Company and its
iaries (together referred to as "the Group") and the Group's interest in
ventures and associates.

Subsidiaries

iaries are entities controlled by the Group. Control exists when the
has the power, directly or indirectly, to govern the financial and
ing policies of an entity so as to obtain benefits from its activities.
essing control, potential voting rights that are currently exercisable or
tible are taken into account. The financial statements of subsidiaries
cluded in the consolidated financial information from the date that
l commences until the date that control ceases.

Joint ventures and associates

y controlled entities are those entities over whose activities the Group
e power to jointly control, established by contractual agreement.

ates are those entities in which the Group has the ability to exercise
icant influence, but not control, over the financial and operating
es.

nsolidated financial statements includes the Group's share of the total
ised income and expense of joint ventures and associates on an equity
ted basis, from the date that joint control or significant influence
tively commences until the date that it ceases. When the Group's share of
exceeds the carrying amount of the joint venture or associate, the
ng amount is reduced to nil and recognition of further losses is
tinued except to the extent that the Group has incurred legal or
uctive obligations or made payments on behalf of the joint venture or
ate.

Transactions eliminated on consolidation

group balances and any unrealised gains or income and expenses arising
ntra-group transactions, are eliminated in preparing the consolidated
ial statements. Unrealised gains arising from transactions with
ates and jointly controlled entities are eliminated to the extent of the
s interest in the entity. Unrealised losses are eliminated in the same
unrealised gains, but only to the extent that there is no evidence of
ment.

Foreign currency

Foreign currency transactions

ctions in foreign currencies are translated at the foreign exchange rate
at the date of the transaction. Monetary assets and liabilities
nated in foreign currencies at the balance sheet date are translated to
ng at the foreign exchange rate ruling at that date. Foreign exchange
ences arising on translation are recognised in the income statement.
netary assets and liabilities that are measured in terms of historical
n a foreign currency are translated using the exchange rate at the date of
ansaction. Non-monetary assets and liabilities denominated in foreign
cies that are stated at fair value are translated to Sterling at foreign
ge rates ruling at the dates the fair values were determined.

Foreign operations

sets and liabilities of foreign operations, including goodwill and fair

adjustments arising on consolidation, are translated to Sterling at the
n exchange rates ruling at the balance sh date.

venues and expenses of overseas operations are translated at rates
imating to the foreign exchange rates ruling at the dates of the
ctions. Foreign exchange differences arising on retranslation are
ised directly in equity in a foreign exchange reserve.

Net investment in foreign operations

ge differences arising from the translation of the net investment in
n operations and of related hedges are taken to the foreign exchange
e. They are released into the income statement upon disposal.

Derivative financial instruments

oup uses derivative financial instruments to hedge its exposure to foreign
ge, interest rate and fuel price risks arising from operational, financing
vestment activities.

ordance with its treasury policy, the Group does not hold or issue
tive financial instruments for trading purposes. However, derivatives
o not qualify for hedge accounting are accounted for as trading
ments from 1 November 2005.

out in (B), the Group has adopted IAS 32 and IAS 39 only with effect from
mber 2005:

Accounting policy up to 1 November 2005

ments accounted for as hedges were designated as a hedge at the inception
instruments. Gains and losses arising on foreign currency and fuel
were recognised on maturity of the underlying transaction. Interest
entials on derivative instruments and amounts receivable and payable on

st rate instruments were recognised as adjustments to interest over the
of the contracts. Gains and losses aris on hedging instruments which
ncelled due to the termination of the underlying exposure were taken to
ofit and loss account immediately.

Accounting policy from 1 November 2005

tive financial instruments are stated at fair value. The gain or loss on
surement to fair value is recognised immediately in the income statement.
r, where derivatives qualify for hedge accounting, recognition of any
ant gain or loss depends on the nature of the item being hedged (see
ting policy (F)).

ir value of interest rate swaps is the estimated amount that the Group
receive or pay to terminate the swap at the balance sheet date, taking
ccount current interest rates and the current creditworthiness of the
ounterparties. The fair value of forward exchange contracts and fuel
contracts is their quoted market price at the balance sheet date, being
esent value of the quoted forward price.

AN'S STATEMENT

t has been a difficult year for the leisure travel market, the Group has trated that its strategy of diversifying risk by creating leadership ons across a portfolio of international leisure businesses continues to r sustainable growth. The portfolio, which offers customers in 17 source s a wide variety of leisure experiences to over 200 destination countries, that the Group is never over-reliant on any single destination or source . Our financial performance is testament to management's ability to pate and effectively guide the Group through an unprecedented number of litical events and natural disasters.

Mainstream Sector, we have outperformed the market and continue to do so a greater offering of exclusive differentiated product, a more flexible ss model and a superior management team. In the Specialist Sectors, our lio of businesses continue to perform strongly as we benefit from the h of Specialist and Activity travel experiences available to our ers.

s

uently, I am very pleased to report that the Group achieved record ying2 profit before tax of £117.2m (2005: £115.0m), with underlying ing profit up 13% at £135.4m (2005: £120.2m), on revenue growth of 11% to m (2005: £2,442m). The resulting underlying earnings per share increased to 16.1p (2005: 13.9p). This represents the fourth consecutive year of ying double-digit earnings growth and demonstrates the strength of the s strategy which combines both organic and acquisition led growth. The

s statutory profit before tax was £97.5m (2005: £112.2m) and statutory
earnings per share was 13.7p (2005: 13.5p

nds

ard is recommending a final dividend of 5.40p per share (2005: 4.65p), an
se of 16% on the comparable period. The interim dividend was 2.25p (2005:
, giving a total dividend for the year of 7.65p per share (2005: 6.60p).
ll year dividend increase of 16% per share represents the fourth
utive year of double-digit dividend growth and reflects our continuing
ment to a progressive dividend policy and our confidence in the future.

rket

e recognised for some time that to remain successful in the mainstream
perating segment of the market in the UK, we would need to reduce our
re to the increasingly commoditised short-haul market and be able to offer
stomers better quality differentiated product. We have, therefore,
ed in exclusive product, such as Holiday Villages and our long-haul
ft, which has given us competitive advantage and consequently enabled us
perform the market. When we start to take delivery of our Boeing 787s in
the differentiated experience will be even greater for our customers. The
s we are achieving from the long-haul product have given us the confidence
er eight of these aircraft with the option to acquire a further four.

specialist sectors, we have identified niche growth segments in which we
vesting and developing leading positions. These parts of the Group are
international and offer exciting growth opportunities. Many of these
ts are highly fragmented and building a significant presence through
ition has allowed us to create substantial businesses in a relatively
period.

erlying profit before tax and underlying operating profit exclude
tely disclosed items, amortisation of business combination intangibles,
ment of goodwill and taxation of profits of the Group's joint venture and

ate. Underlying earnings exclude the same items net of tax and minority
sts.

itions

itions continue to be a key part of our strategy. This year we have made
uisitions for a total consideration of £148.7m of which £129.3m has been
uring the year (2005: 12 acquisitions for consideration of £65.5m of which
ad been paid).

quisition pipeline remains strong as we continue to identify opportunities
have excellent growth characteristics across a number of segments
ing adventure travel, student travel and specialist escorted tours.

Thorley joined the Board on 1 February 2006 and has proven to be a
le and supportive Board member. As the Group has transformed itself from
ly mainstream holidays business in 1999 to an international leisure travel
y today, we have similarly established a Board with a wide-ranging skill
xcellent business reputation and international experience.

gues

a people business focused on giving our customers the most enjoyable
e travel experience we can. The passion and commitment shown by our
gues across all the businesses has been greatly appreciated and, on behalf
Board, I would like to thank them all for their hard work and effort.

nable development

Choice is committed to sustainable development in both source market and

tination. We are a founder member of the Travel Foundation in the UK and age all of our businesses to behave responsibly and support communities on oing basis. Our stand-alone (web based) Environment & People Report was d in the Spring and includes key future commitments. We were admitted to SE4Good index last year and for the first time completed the full Business Community Corporate Responsibility Survey. All the FTSE100 and FTSE250 ies are invited to participate in the Survey and we were ranked 101 with rall score of 72%.

k

Choice Holidays PLC has once again delivered strong financial performance ear when our flexible business model and strategy have been tested by nging conditions in a number of source and destination markets, but have successful in delivering growth.

November 2006 we announced, following press speculation regarding the ream business, that the Board of First Choice Holidays PLC has been ing how it might continue to maximise the potential of its market leading perating business. The Board is considering a range of alternatives in arket and discussions with a number of parties are at a preliminary stage. can be no certainty that any transaction will be forthcoming. However, in confident, whatever the outcome, that our strategy and flexible ss model will ensure that we are well placed to continue to outperform the and deliver sustainable growth into 2007 and beyond.

SS AND FINANCIAL REVIEW

performance

oup has once again delivered strong operational performance and financial in a year that has tested the leisure travel industry. The year's ial results prove that the flexible business model we operate, combined he range of differentiated leisure travel experiences the Group offers is

obust and provides a platform for long-term sustained growth.

oup has achieved underlying profit before tax of £117.2m (2005: £115.0m), nderlying operating profit up 13% to £135.4m (2005: £120.2m). The ying profit before tax includes net financing expense of £18.2m which is higher than in 2005, primarily as a result of refinancing the convertible ence shares in July 2005 (£9.0m) and a higher level of acquisitions). Group revenue for the year increased by 11% to £2,715m (2005: m). The resulting operating profit margin improved by 10 basis points to his year. It should be noted that during the year we changed our ting policy regarding ODS revenue recognition to bring it in line with ed market practice, which resulted in a margin improvement. However, the is points margin improvement is after restating prior year revenue.

oup's results, on both a statutory and underlying basis, are set out in ble below.

nded 31 October	2006	2005
e	£2,715m	£2,442m

quisition strategy is clearly a key contributor to future growth and we
ue to have a strong pipeline of potential acquisition opportunities. We
ntinuously exploring new geographical source markets and destinations to
our portfolio of leisure travel businesses and diversify risk. In August
we acquired the Pacific World group of seven companies. This marked our
significant entry into the Asia Pacific and Chinese markets. These
s represent a significant opportunity for high growth in travel and the
nted nature of the accommodation supply base fits well with our Online
ation Services model. The integration of this business is progressing

o entered the North American specialist escorted tours segment during the
This is a fragmented market-place which focuses on the growing and
nt "boomer" demographic. We now have seven brands operating in this high
segment. These include Country Walkers, International Expeditions, Park
Travcoa and TCS Expeditions, all acquired as part of the acquisition of
Expeditions in December 2005. In addition, Intrav was acquired in January
nd Your Man Tours acquired in July 2006. All of these businesses have
med well during the year and provide significant growth opportunities.

instream Holidays Sector underlying operating profit was £53.7m (2005:
7.5m), down 7% year-on-year, primarily due to the delay in high season
okings as a direct result of the World Cup and extremely warm weather in
ly which led to pricing pressure in the lates market. Revenue grew by 1%
£1,272m (2005: £1,264m);

ecialist Holidays Sector underlying operating profit was £36.6m (2005:
1.5m), up 16% year-on-year. This was on revenue of £928m (2005: £891m),
4%. The increase in profit was driven by continued growth in Canada
mbined with strong performance in our UK Specialist Division and North
erican student businesses;

tivity Holidays Sector underlying operating profit was £26.7m (2005:
7.0m), up 57% year-on-year. This was achieved on revenue of £377m (2005:
94m), up 94%. On a like-for-like basis revenue was up 13%. The result was
iven by good performance by our Adventure businesses and by a contribution
£5.5m from acquisitions made in the year;

line Destination Services underlying operating profit was £14.4m (2005:
1.4m), up 26% year-on-year, with continued strong growth in revenue, which

s up 48% to £138m (2005: £93m). This result reflects strong underlying owth in our online channels offset by fur er incremental investment in telopia;

e Group's joint venture with Royal Caribbean Cruises Limited increased derlying profits before tax by £1.5m to £5.0m (2005: £3.5m). The Group's are of the pre-tax profits amounted to £2.5m, compared to £1.8m in 2005.

ounced at the trading update in October, we constantly review our ipation strategy and how we can remain cost competitive. As a result of a of underperforming business units and restructuring actions across all ctors, but particularly in the UK, the Group has incurred net separately sed items of £5.8m.

ream Holidays Sector

instream Holidays Sector consists of the UK and Ireland tour operating, and airline businesses. With a clear strategy, it is focused on the pment of differentiated, exclusive product such as the long-haul flight ence and Holiday Villages as it reduces capacity in the commoditised haul market. With a strong brand that is increasingly recognised as ng holidays of good value and quality, it is also benefiting from greater l of distribution.

e satisfactory revenue performance and a significant reduction in capacity the Summer season there was a delay in high season bookings due to lu scares in the early booking period, the World Cup in June and unusually veather in July. This led to weaker selling prices in the market-place ugust, the result of which was that incremental year-on-year fuel costs e season of £50m were not fully recovered from the customer in the lates . This, combined with additional costs we incurred in managing an edented level of external events resulted in a 7% reduction in full year ying operating profit to £53.7m (2005: £57.5m), and a 0.3 percentage point ion in underlying margin to 4.2%.

Mainstream Sector in FY2005/06

ntinued emphasis on product differentiation resulted in a 30% year-on-year
e increase for the Premier programme. The popularity of our Holiday
e concept goes from strength to strength and, as a result, we have

ly opened a new resort in the Dominican Republic, the sixth property of
ype. Our long-haul product has been significantly expanded (capacity up
r Summer 2006) and we are now flying to six new long-haul destinations.
the Summer, we operated four re-configured Boeing 767s (Summer 2005:
and have recently introduced a further two for Summer 2007.

e made excellent progress in increasing our control of distribution, which
w reached 63% for the Summer (2005: 56%). We are well on target to
e 75% of our sales through controlled channels by the end of the 2008
ial year and aim to exceed this target. Online sales have increased to
005: 25%), while sales from our retail outlets have also grown with call
s remaining level. As we drive towards becoming a predominantly
-sell business, we need to continue to build and develop our own
bution channels. We have, therefore, announced that we will expand the
chain and continue to work with some of our long-term third-party retail
rs. Accordingly, we recently announced plans to franchise First Choice
and to date have signed contracts with two significant franchisees, which
ncrease our store portfolio by 50. We will also be opening 45 of our own
before the end of December in key geographical areas in which we are
tly not represented. Our mobile concession concept, "the travel pod",
has a footprint of less than 200 sq ft, is currently being trialled with
Sainsbury's, Morrisons and Waterstones. This investment in retail has
rimarily funded through reduced commission rates paid to third party
agents. Overall, the increase in direct sales has resulted in a
bution benefit of £5.9m in the year.

rst Choice brand and its products have traditionally appealed to families.
fferentiated experience we have developed, particularly in Holiday
es and the long-haul flight experience, where we have actively promoted
nefits of flying with First Choice Airways, has increased the brand appeal
h families and couples, as well as those who are normally considered the
l long-haul leisure customers of the scheduled airlines. The investment
brand and long-haul product has cost an incremental £1.5m this year which
en expensed in 2006, but will benefit future seasons.

list Holidays Sector

ecialist Holidays Sector consists of the continental European and UK
list businesses (which are grouped as European Specialist for reporting

es), our Canadian tour operating and retail business, First Choice Student
in the US and Canada, and Europe Express, First Choice Independent
ons), our independent travel business operating in the US. These
sses offer both destination-led and lifestyle holidays with differentiated
clusive product.

mpanies in this Sector are not vertically integrated or capital intensive
eir business models are extremely flexible and cost efficient. Despite a
of the businesses in this Sector experiencing challenging market
ions, it delivered strong growth in profitability with underlying
ing profit of £36.6m (2005: £31.5m), up 16% year-on-year.

sinesses in continental Europe experienced a number of external events,
ird flu scares in Turkey to terrorist incidents in North Africa and
n Mediterranean key destinations, that adversely impacted underlying
mance. Consequently, profitability in a number of continental European
sses was reduced. Several of our smaller continental European businesses
oss making in the year with total losses amounting to £4.2m. At the
g update in October, we announced that we had decided to scale-back the
aking businesses in Continental Europe. The one-off costs of these
s have been reported within the net separately disclosed items of £5.8m.

s.

a remains France's number one tour operator in terms of profitability. It
a new club in Marrakech, Morocco in April 2006 and increased overall
s to this destination by 26% with an occupancy rate of more than 90% for
tire season. The Aqua Fantasy Hotel in Kusadasi, Turkey which is
ive to First Choice Netherlands and the Mainstream Holidays Sector in the
ccessfully opened its second phase and a further extension to this
ty will be completed by Summer 2007. A number of the European businesses
tering a limited number of new destinations such as Morocco to offer
atives to Egypt and Turkey, as we continually strive to diversify risk.

structuring and streamlining of the UK Specialist business model, combined
he growth in direct distribution, has resulted in a very successful year
is division. The product offering for Sovereign, Hayes & Jarvis, Citalia
on Villas, has been more clearly defined and this, together with careful
ty management, the introduction of a more flexible selling system and a
on growing direct distribution channels, has improved profitability
ntially. Controlled distribution now stands at 59% (2005: 49%) in UK
list and will increase further in the coming year, with the business now
ing underlying margins of around 5% (2005: 4%).

America

rth American businesses improved underlying profitability by £8.4m to
(2005: £5.4m). This was driven by both our Canadian operation, which
ed its profit margin in a year that, for this market, was badly affected
2005 hurricane season and the North American student travel businesses.

student travel businesses performed equally strongly, despite also being
ed by the 2005 hurricane season. The flexibility in the business meant
e were able to move and significantly increase bookings to the West Coast
ico away from Cancun which was badly affected by hurricane Wilma. We made
ificant step into the highly fragmented educational student travel market
h the acquisitions of Jumpstreet, School Voyageurs and Educatours in
and Educational Tours in the US. Opportunities in the student travel
remain attractive and we have a strong pipeline of acquisitions that we
rsuing.

ty Holidays Sector

tivity Holidays Sector consists of three divisions:

Marine division includes First Choice Marine, which operates the
ket leading yacht chartering brands of Sunsail and The Moorings, Sunsail
bs and Inland Waterways (Crown Blue Line and Connoisseur).

Adventure division consists of a portfolio of 17 adventure travel
inesses, including First Choice Expedition Cruising and our specialist and
ools ski offering.

Escorted Tours division consists of seven brands that operate
cialist escorted tours for the US source market.

ctor is a high growth area with strong consumer demand for adventure and
ed tours products in particular. Its high margin businesses delivered
ying operating profit of £26.7m (2005: £17.0m) on revenue that increased
to £377m (2005: £194m). Revenue increased 13% on a like-for-like basis
rofitability flat, primarily as a result of a disappointing performance in
l Clubs. During the year, we acquired a number of businesses in this
that were not expected to achieve full profitability until 2007.
uently, this led to a dilution in underlying margin during the year of 1.7
tage points.

rine division delivered underlying operating profitability of £10.6m
£9.7m) on revenue of £122m (2005: £90m). The result was impacted by
ult trading conditions for our Sunsail Clubs and the cost of restructuring
cht chartering businesses of The Moorings and Sunsail Yachts.

Choice Marine, which comprises Sunsail Yachts and The Moorings, has
d on integrating the businesses since the acquisition of The Moorings in
er 2005. The business is firmly on track to deliver anticipated cost
y benefits of £5m in 2007.

Waterways has focused on driving organic growth through direct channels
4% of sales now direct (2005: 42%). Asset utilisation has continued to
e with occupancy increasing 5% year-on-year. Based on our research, we

e there could be strong demand for this product in a broader number of markets, which we will actively pursue.

l Clubs had a challenging year with bookings affected adversely by the lu scare in Turkey. Despite this difficult trading environment, our new Club Phokia, had a very successful season, proving that our customers iate the quality of our product.

ure

rtfolio of Adventure businesses has grown both organically and by ition, with the division growing revenue by 81% to £189m (2005: £104m), derlying operating profit to £13.3m (2005: £7.3m). Profitability grew by a like-for-like basis to £6.6m as the organic businesses continued to m strongly in a segment which we expect to deliver strong growth in the . The North American market continued to be a focus for this division and e acquired Trek Holidays in Canada and Trip n Tours, a US West coast dive ss that complements our Caribbean dive expertise at Caradonna. In the lands, we acquired Sawadee (an adventure travel tour operator) and in the acquired TravelClass which operates two school brands; Skiclass and JCA. ss complements our existing Skibound business, while JCA is a summer based s activities business which has grown strongly and offers good growth ial as it expands the number of sites available to schools across the UK. achieved critical mass with these businesses, we are now pursuing the ffective ways to leverage the infrastructure we have established.

ing the acquisition of Intrav by the Group in January 2006, a new vision, First Choice Expedition Cruising, has been formed to manage and e the two small ship expedition cruising brands, Peregrine Cruises and r Cruises. This sub-division will be included within the Adventure on. Travel on small expedition ships is a niche adventure segment ng substantial growth opportunities. Combining the operations of these ands will enable us to offer a complementary portfolio of small ship tion product from 2008 and make this available through a worldwide bution network.

ed Tours

corted Tours division has been formed out of certain businesses acquired
Grand Expeditions transaction, Intrav and Your Man Tours.

was loss making at acquisition and a number of steps have been taken to
s this situation including the transfer of Clipper Cruise Lines into First
Expedition Cruising. This initiative has enabled Intrav to focus on
ed tours, its core expertise. As anticipated, these measures have
ed in the Intrav and Clipper Cruise Line businesses achieving break-even
s.

corted tours businesses that had been part of Grand Expeditions and whose
er base is drawn primarily from the growing "boomer" demographic in the US
had a successful year. The cultural and luxury escorted travel
ries are growing as customers seeks new destinations. Our businesses are
ing double-digit volume increases year-on-year. The tailor-made journeys
is also growing rapidly as wealthy travellers desire to individualise
travel experiences.

Destination Services Sector

siness approach in this Sector is based on a local presence at key travel
ations. Our extensive infrastructure includes 89 offices in 23 countries
ing over five million customers. We have established strong relationships
ur suppliers, enabling us to offer our customers a breadth of content
that is not available through our competitors and customer service on the
, rather than from a centralised base. The destinations in which we
e usually have a highly fragmented supply base, meaning the relationships
e with our suppliers are a critical success factor. The majority of our
ory comes from privately owned hotels.

e continued to experience significant growth in all our online routes to
with total online transaction value growing to £306m, representing growth

. Hotelbeds, the brand which services tour operators, has experienced a owth in transaction value. Bedsonline, our B2B operator servicing travel who are sourcing accommodation for the independent traveller, has icantly increased its customer base, now meeting the needs of more than travel agents (2005: +5,000) and has grown transaction value by 79%. pia, our B2C accommodation business brand, has achieved an increase in ction value of 48%.

rategy is to acquire established offline incoming agencies who have strong onships in their destinations and then bring their inventory online. To nd, the Sector has expanded its geographical reach, opening an office in and acquiring a further business in Greece. In July, we acquired the c World group of companies based in the Asia Pacific region. This was a icant strategic move for us and we are delighted that this well-respected ccessful group is now part of our Sector. Pacific World is a network of list companies providing meetings, incentives, conference and events services as well as servicing cruise lines and foreign independent travel ur operators. With 19 offices across the region, Pacific World has given immediate, established presence in key Asian markets.

ctor was affected by the 2005 hurricane season and the events in Turkey
the year. Hurricane Wilma caused extensive damage in Cancun, Mexico,
resulted in the destination being almost entirely closed for the peak
as hotels, resorts and infrastructure were repaired or rebuilt. The
ion in capacity to Turkey, which tour operators implemented, also affected
quirement for our services. We continue to seek new destination markets
ly to grow our business, but to diversify and spread our risks.

pia's growth has been achieved both through growth in its own brand and
h the strategic alliances it has formed with a number of substantial
ies including BBVA, easyJet, Spanair, Martinair, bmi and bmibaby. We will
ue to pursue meaningful strategic alliances both in the UK and overseas.

Cruises

int venture with Royal Caribbean Cruises Limited now operates two ships in
diterranean in the Summer and off the coast of Brazil in the Winter. The
ship, the Island Star, went into service in December 2005 after an
ive refurbishment.

passengers carried increased by 84% to 167,000, with passengers from the
reasing by 95% to 90,000. This was achieved against an overall growth in
ger numbers in the UK cruise market of 17%.

before tax was up 39% with our share of the profit at £2.5m (2005:
. Revenue improved by 84% in what was a tough UK market, where the
ss in the price of land-based package holidays in the lates market
ed cruise prices, while cost pressures, particularly on fuel, were also a
.

l in both the Brazilian and UK markets is strong and forward bookings are
ficantly ahead of the previous year. We remain optimistic that this
t of the cruise market will continue to prosper.

on

before tax (excluding joint venture and associate profits) was £94.7m
£110.3m). The tax charge on these profits was £25.2m (2005: £31.9m),
enting an effective tax rate of 26.6% (2005: 28.9%). The lower effective
compared to the UK statutory rate of 30% is due to the use of historic
used against current year profits, net of current year losses not
ised and higher overseas tax rates.

oup underlying profit before tax (excluding profit before tax of the joint
e and associate) was £113.2m (2005: £112.2m). The Group tax charge on
profit was £31.2m (2005: £32.4m), representing an effective underlying tax
f 27.6% (2005: 28.9%). This rate is higher than the statutory 26.6% due
tax credit on overseas business combination intangible amortisation being
ate in excess of 30%.

on the current structure of the business, existing local taxation rates
gislation, it is expected that the underlying tax rate on ongoing
ties (before intangible amortisation) will be at a level of around 28%
forward.

gs per share

ying basic earnings per ordinary share was 16.1p (2005: 13.9p), an
se of 16%. This performance represents the fourth year of double-digit
.

nds

oard recommends a final dividend per ordinary share of 5.40p (2005: 4.65p), crease of 16%, making a total dividend relating to the year of 7.65p (2005: , an increase of 16%. The Group will look to maintain underlying dividend at just over two times. The dividend will be paid on 10 April 2007 to all holders on the register as at 9 March 2007. The Company intends to ue to operate a dividend re-investment plan as an alternative to the full ividend.

he last four years, First Choice Holidays PLC has been investing in small dium sized bolt-on acquisitions in specialist niche segments of the leisure market. This programme has been accelerated in the year ended 31 October

ith 13 businesses being acquired for a maximum total consideration of
m. By way of comparison, in the year ende 1 October 2005, we made 12
itions with a maximum aggregate consideration of £65.5m of which £53.4m
id in 2005.

itions in the year are shown in the table above. Of the maximum
eration, £129.3m was paid during the year. A further £19.4m will be paid
erred and contingent consideration. In addition, £4.5m of acquisition
es were incurred bringing the total expected consideration to £153.2m.

	2006		2005	
itions in the year	Max £m	Paid £m	Max £m	Paid £m
s paid in the year	129.3	129.3	65.5	53.4
ed & contingent consideration arising	19.4	-	-	-
	148.7	129.3	65.5	53.4

consideration	153.2	133.8	67.3	55.2
cquired with acquisitions	-	(40.0)	-	(23.7)
aid relating to prior year acquisitions	-	14.3	-	1.6
sh outflow in the year relating to itions	-	108.1	-	33.1

sh flow effect of these acquisitions includes the cash consideration paid
year of £129.3m, deferred and contingent consideration of £14.3m relating
or year acquisitions that was paid in the year, acquisition expenses of
and the cash acquired of £40.0m, resulting in a total net cash outflow for
ar of £108.1m (2005: £33.1m).

t assets of all the subsidiaries acquired during the year have been
idated in the Group's balance sheet at 31 October 2006. The Group's
idated profit and loss account reflects revenue of £148.2m and underlying
ing profit of £8.4m from the results of the acquired companies since
ition.

nd liquidity

hout the year there has continued to be a strong focus on cash management
n emphasis on working capital management. However, there has been a
g capital outflow in the year of £56.6m (2005: £3.7m). This was driven by
ificant increase in accommodation prepayments to finance a number of new
ive and differentiated properties, primarily within the European
list businesses, for which we are not currently taking bookings. As a
of acquiring and disposing of businesses part way through the trading
working capital outflows of £18.0m have been incurred. In addition,
l employer contributions of £6.0m were paid to reduce the pension deficit
airline defined benefit schemes, while the Group also paid advance
ts on Boeing 787 options amounting to £2.8m.

t debt position (cash and cash equivalents less loans, overdrafts and
e leases) at the year-end was £103.3m (2005: net cash £18.1m). This
ted of £177.5m of cash and £280.8m of debt. The £121.4m movement in net
as primarily arisen due to the accelerated acquisition strategy. Fixed
s cover, which we believe to be the most useful measure of liquidity, was
mes at the year-end (2005: 2.3 times).

the year the Group issued a $100m Eurobond to Royal Caribbean Cruises
d. The Eurobond has a coupon of 6% and matures in March 2009. In
on, the Group negotiated bi-lateral bank facilities with Deutsche Bank
due July 2010) and Societe Generale (e18.3m due November 2009).

olders' funds

olders' funds have increased in the year to £281.1m (2005: £276.0m).
was a retained profit for the year of £72.3m (2005: £80.3m) which has been
by dividends paid and hedge reserve movements.

oup issued no ordinary shares (2005: nil) in respect of acquisitions.

tions, bonding and banking

vil Aviation Authority (CAA), the Federation of Tour Operators (FTO) and sociation of British Travel Agents (ABTA) regulate the businesses based in . Each of these bodies protects the rights of consumers by requiring the to lodge security bonds with them.

UK, the CAA has been active in lobbying Government to make legislative s to the bonding regime to ensure that tour operators are not itively disadvantaged as a result of the current legislation. First Holidays PLC fully supports the CAA's proposal to replace the bonding with a small levy per passenger and looks forward to working with the CAA sue this change during 2007.

international businesses are regulated, the protection of consumers is ed either by means of cash collateral or bond cover similar to the UK ements.

ry policies

oup faces significant financial risks mainly due to the substantial border element of its trading. Currency exchange risk, which arises e of the mismatch between the Group's UK businesses sterling revenue s and foreign currency operating costs, is managed by the use of foreign ge forward, swap and option contracts. Interest rate risk is split into parate exposures, namely US dollar interest rates on variable rate ft leases and loans, and sterling rates on Group cash balances. Both res are managed using interest rate derivatives. Finally, the Group's re to jet fuel prices is managed using energy swaps and options.

the year the governance of financial risk, was managed by the Financial anagement Committee (FRMC). The Committee, which was created in 2005, s to the Audit Committee and is made up of the relevant senior business ees and technical experts from within the Group. Incorporated within its of reference is the determination of all treasury policies and the

ring of the effectiveness of those policies.

Treasury implements the agreed policies on a day-to-day basis. The
ures also stipulate the levels of authority applied to dealing and to
ing the types of financial instrument, used to manage these exposures.
ctions are only undertaken to hedge underlying exposures. Financial
ments are not traded, nor are speculative positions taken. Regular
s are provided to the Board.

in accounting policies

an and UK legislation requires the Group to adopt International Financial
ing Standards as adopted for use in the EU (Adopted IFRS) for the
ial year ended 31 October 2006. Accordingly, the interim financial
ents at 30 April 2006 and the full statements for the year ended 31
r 2006 have been prepared using the measurement and recognition principles
pted IFRS as opposed to UK Generally Accepted Accounting Practice (UK
We have provided significant information on the transition to Adopted
nd the impact on the Group's opening balance sheet in IFRS updates in
r 2005 and March 2006. These announcements, and the accounting policies

MyTravel Group plc

Following recent press speculation, MyTravel Group plc confirms that, following an approach it made to First Choice Holidays, it is in discussions with First Choice Holidays regarding the possible acquisition of First Choice's Mainstream business and certain related operations.

The MyTravel Board believes that this is an opportunity which could deliver significant value to both First Choice and MyTravel shareholders given the value of potential synergies and other consolidation benefits.

Any offer by MyTravel would be in cash, financed through a mixture of new debt and equity. MyTravel is prepared to consider including the issue of equity to First Choice shareholders as part of its offer.

Discussions are at an early stage and there is no certainty that any transaction will occur.

FIRST CHOICE HOLIDAYS PLC

PRE-CLOSE TRADING UPDATE

Prior to entering its close period on 1 November 2006, First Choice Holidays PLC announces the following trading update.

Summary

- Our stated strategy of creating leadership positions through differentiated content, building flexible business models and gaining control of customer relationships continues to deliver strong operational performance and financial growth for the Group.

- A number of our businesses have operated in a market that has proven challenging due to a series of events beyond our control, ranging from the bird flu scares in the Eastern Mediterranean during January to the recent airport security alerts in the UK and terrorist attacks in Turkey. The latter two events led to a slowdown in the rate of sale during the high season, and consequently impacted our expected profitability for the year within the UK for the Mainstream Holidays Sector.

- Despite these events, the Group is on track to deliver strong underlying EBIT growth for the year ending 31 October 2006. We also remain confident of achieving our 5% EBIT margin target in the year ending 31 October 2007.

- We constantly review our participation strategy and how we can remain cost competitive. Consequently, we have decided to scale back, or close, certain smaller businesses in Continental Europe, which had sales in the year ending 31 October 2005 of £36m, and in the UK Mainstream business we have recently agreed to outsource certain back office functions. The likely one-off costs of these actions will be in the range of £4m to £6m, which will be committed prior to this year-end.

- The Group continues to focus on value-creation through a combination of organic and acquisition-led growth. The acquisition pipeline in specialist niche businesses continues to be strong, as we build upon our significant leadership positions in attractive segments of the marketplace.

Current trading

Summer 2006

In the Mainstream Holidays Sector, we have continued to re-mix our product offering away from generic short-haul product by reducing capacity in this segment and concentrating on differentiated product, such as long-haul and Holiday Villages. As a result of this strategy we have outperformed the market for both sales and volumes and achieved a 2% increase in sales revenue on 5% lower capacity for inclusive tour holidays.

Despite a satisfactory top-line performance and a significant reduction in capacity across the Summer season there was a delay in high season bookings due to the World Cup and extremely warm weather in July. This led to weaker selling prices in the market-place from August, the result of which was that incremental fuel costs of £45m were not fully recovered from the customer in the lates market. This combined with additional costs we incurred in dealing with an unprecedented combination of external events means that margins in Mainstream will be slightly lower than last year for the second half and therefore the year as a whole.

in June. Having anticipated a need for reduction in capacity in the shoulder months, our flexible business model enabled us to manage total capacity across the season, in order to be broadly in line with customer demand. As a result of managing capacity and costs appropriately the Specialist Sector has continued to improve margins year-on-year over the second-half.

The Activity Holidays Sector has performed well. Within Marine, the Sunsail and Moorings bareboat yacht charter businesses (First Choice Marine) were flat on turnover but have been making excellent progress with integration and are on track to deliver the anticipated cost synergy benefits of £5m in 2007. Sunsail Clubs suffered from many of the events that impacted the Mainstream business, particularly in Turkey and, as a result, have suffered turnover and margin pressures. In Adventure, demand for adventure holidays continued to grow and this division enjoyed a strong increase in underlying sales of +8% on a like-for-like basis and 32% in total.

Online Destination Services continues to enjoy significant growth and perform well across all its areas of operation, with the increase in the number of partnerships in our B2C brand (Hotelopia) contributing to an excellent performance for the Sector.

Notes:
These figures are up to 22 October 2006

1. These statistics reflect inclusive tour sales only

2. During the Summer there is very little trading in Canada and the Student Businesses

3. These statistics exclude FY05 and FY06 acquisitions

Winter 2006/07

In the Mainstream Holidays Sector, the UK market continues to remain challenging, as illustrated by the September AC Nielsen Travel Track report,

due to the continued re-mix to the long-haul. Demand for our long-haul products remains strong with volumes up 25% and sales up 39%. The report clearly highlights continuing out-performance by Mainstream versus the competition, but since long-haul holidays tend to book earlier than both short-haul and medium-haul we would expect the overall rate of sale for the Winter season to slow-down over the coming months.

We anticipated that weaker market demand would continue into early Winter trading particularly in the short and medium-haul, and we have, therefore, reduced capacity in these segments by around 10% for Winter 2006/07. Conversely, we are increasing our long-haul programme with four reconfigured 767 aircraft currently operating and a further two joining the fleet towards the end of Winter for Summer 2007. The cost of introducing these two aircraft will be around £6m, which will be incurred during the first half with the benefits arising in the second half and thereafter. In addition, fuel costs will increase by £8m, and as experienced in the Summer, we do not anticipate fully recovering the incremental cost. As a result whilst the Sector, as a whole, is achieving yield increases with average prices per customer up across all destinations, we envisage margin pressure.

In the Specialist Holidays Sector although it is relatively early in the booking cycle for the Winter programme, market conditions remain challenging to a number of destinations. Consequently, capacity in a number of our Continental European Specialist businesses has been reduced by 6% to take account of lower anticipated volumes. Our North American businesses are trading well with revenue per passenger ahead of last year and margins ahead in Student Travel but flat in Canada.

Our Activity Holidays Sector is performing strongly with sales 9% ahead. The like-for-like sales increases across our Adventure businesses is 7%, while the Marine businesses are enjoying strong revenue growth of 14%.

Online Destination Services are trading well with strong volumes and prices across all routes to market.

Total		+9

Online Destination Services		Winter Sales
Online		
	Hotelbeds	+77%
	Bedsonline	+133%
	Hotelopia	+17%

These figures are up to 22 October 2006

1. These statistics reflect inclusive tour sales only

2. These statistics exclude FY06 acquisitions

Summer 2007

In the Mainstream Holidays Sector, we have reduced capacity in-line with Summer 2006 for short-haul and medium-haul programmes but continued to add capacity into our long-haul offering (up 25%). Overall, capacity for Summer 2007 is currently flat year-on-year. Our long-haul programme and exclusive differentiated properties continue to be attractive to customers and demand remains strong, building on good growth in Summer 2006.

Acquisitions

Our acquisition strategy is to acquire specialist businesses that will allow the Group to build leadership positions in attractive niche segments of the market and reduce volatility in our business model. During the second half of the year we have continued to build upon our specialist positions with the acquisition of a number of businesses within the adventure segment and the North American escorted tours market.

In addition, we have made a significant entry into the rapidly growing Asian Pacific market through the acquisition of Pacific World, a leading specialist inbound company with an established presence in seven countries throughout the region. The acquisition pipeline remains strong, as we continue to seek leisure travel companies that have excellent growth characteristics and the ability to generate superior returns for our shareholders.

In the current financial year, we have completed acquisitions to date with a maximum aggregate consideration of £153m of which £133m has been paid (2005: £66m of which £53m was paid during the year). A full list of the acquisitions is attached as an appendix to this statement.

Outlook

Even though it is relatively early for selling Winter 2006/07 and Summer 2007 holidays, it is clear that the market conditions remain challenging. However, the Group's continued strategy and flexible business model will ensure that we are well placed to outperform the market and deliver growth into 2007 and beyond.

Our business model is constantly evolving to ensure that we maintain our flexibility and efficiency whatever the market conditions and that we continue to offer our customers the leisure travel experiences they desire.

Our focus on differentiation and the spread of risk both geographically and through the different product types we offer means that we are constantly reducing dependence on any one area of the business, any one-source market or any one single destination. The acquisition pipeline will ensure that we increase this diversification as we move forward and consequently improve our quality of earnings.

17 July 2006

FIRST CHOICE HOLIDAYS PLC

FIRST MOVE INTO ASIA PACIFIC

First Choice Holidays PLC has been studying how best to enter the Asia Pacific region, which it believes offers significant growth opportunities. The Group is pleased to announce that Hotelbeds, part of its Online Destination Services Sector ("ODS"), has entered into an agreement to acquire the Pacific World group of companies which has a network of operations in South East Asia and China for a maximum consideration of US$36m (£19.6m). An initial consideration of US$22m (£12m) will be paid at completion.

Asia's tourism industry has now fully recovered following a period of difficult events that affected the region. The World Travel & Tourism Council's research identifies the Asia Pacific region as the second fastest growing outbound market in the world, while China is expected to remain and consolidate its position as the biggest single market for domestic and international tourism in the Asia-Pacific area in the foreseeable future. The long-term growth forecast for the Chinese economy overall is 6.3% p.a. This growth is stimulating both incoming and outgoing tourism. South East Asia is the largest in-bound destination in the Asia-Pacific region and it is estimated by the Pacific Asia Travel Association that domestic and regional travel will grow between 18-20% p.a. over the next 10 years.

Pacific World is the leading specialist inbound company in Asia providing meetings, incentives, conferences and events ("MICE") services to corporate clients, as well as servicing cruiselines and foreign independent travel ("FIT") for tour operators. With an established presence in Hong Kong and the People's Republic of China, Thailand, Singapore, Malaysia, Indonesia, Vietnam and Cambodia, Pacific World operates from 19 offices, and has an excellent reputation in the industry while the experienced local management have developed strong long-term relationships with suppliers and customers.

First Choice believes that the acquisition of Pacific World represents the best way for it to enter this rapidly growing market. It offers an immediate, established presence in the main Asian markets, has sound business disciplines, a history of managed, profitable growth and first-rate management and staff. The companies acquired by Hotelbeds will join the ODS Sector of the Group led by Joan Vila and all key management and the owners will be retained to continue the Company's successful growth.

Pacific World was established in Hong Kong in 1982 by Jacques Arnoux and entered Thailand in 1985. His partner Bob Guy then proceeded to set up the Singapore and Malaysian businesses in 1989. Operations in Indonesia, Vietnam and Cambodia have been established since then. After having a representative office in Beijing since 1982, Pacific World opened a stand-alone Chinese business in Shanghai in 2003.

Pacific World's reputation and strength have been built off a sound base in providing MICE and FIT services at locations throughout its network. The acquisition is consistent with the way ODS and its core business, Hotelbeds, has successfully entered other key strategic markets over the past couple of years. Hotelbeds has taken leading, established offline businesses and introduced them to its source destinations and customers whilst moving the business online. This enables the extension of its online accommodation as well as increasing Hotelbeds international spread and customer and product base.

Commenting on the acquisition, Peter Long, Chief Executive, First Choice said: "As an international leisure travel company, the Asia Pacific region is a key growth area for us and we have been investigating how best to enter it for some

successful network of businesses that share First Choice's values. It has an excellent reputation, long-term track record and will help us to continue to deliver superior shareholder value."

Jacques Arnoux, Founder and Managing Director of Pacific World (Northern Region) said:

"This is a great opportunity for us to join a leading international leisure travel PLC. We have developed a successful regional business which we will now be able to leverage in a way that would not have been possible without being part of a larger group. It is very exciting for all of us and we look forward to going from strength to strength."

Bob Guy, Managing Director of Pacific World (Southern Region) commented further:

"Over more than 20 years, we have built a network of companies that covers all the major travel markets of South East Asia. Hotelbeds acts for more than 1,200 tour operators and travel organisers across the world and being acquired by them represents a tremendous opportunity for us to increase both their and our business. In addition, being able to use ODS's technical capabilities will bring enormous benefit to us."

FIRST CHOICE HOLIDAYS PLC

FURTHER STRATEGIC US ACQUISITION

Having identified and actively decided to participate in the student travel and escorted tours markets - niche growth segments in North America - First Choice Holidays PLC is now pleased to announce the acquisition of YMT Vacations ("YMT"). Based in Los Angeles, with sales offices in the US Midwest YMT offers escorted tours and is a specialist in the USA "boomers to seniors market". The maximum total consideration for the business is US$49.6m (£27.0m) and the initial consideration is US$44.0m (£24.0m).

YMT, founded in 1967 by Frank J. and Lenore Dupuis, offers its US tours to people in the 55 - 75 year age bracket (" the baby boomers to seniors market"), which is the highest growth demographic of the US population. A flexible business model and low-cost infrastructure have enabled the company to become a leader in this expanding market. A value operator, it offers close to 15 different itineraries throughout the year and expects to take 25,000 customers on vacation in 2006. Targeting the segment of the population with the most flexible travel requirements, but who prefer the security and sense of community offered by escorted group travel, its land and cruise/tour products focus on classic American travel experiences such as - Alaska, Hawaii, the Canadian Rockies, California and the West, the National Parks, New England and the Annual Rose Parade.

YMT fits First Choice's acquisition criteria. It is in a growth segment with a clearly defined, efficient and sustainable business model. It has an excellent reputation for customer service and is a market leader in this segment of the market. The highly respected, tight knit management team, led by President Bill Price, have strongly established relationships with key suppliers stretching back over a number of years.

Distribution of the product is over 95% direct, with customers responding to a targeted advertising strategy and subsequently booking through YMT call centres. The limited number of itineraries offered allow the sales staff to develop not only a high level of product knowledge but they are also able to assist customers in their decision making step by step thereby increasing the conversion of enquirers to bookers..

Commenting, Frank J. Dupuis, Chairman and YMT Founder, said:
"We believe that joining First Choice gives us the opportunity to be part of an international leisure travel company that has shown that it can identify niche growth segments and build significant positions. For us, to be part of a Group like First Choice, is an exciting prospect in terms of growth potential, new areas of activity and a support network for the incumbent operational management team going forward."

Peter Long, Chief Executive, First Choice commented:
"YMT is a successful business that fits well with our growth criteria and we are delighted that it has agreed to become a part of First Choice. It adds a further offering to our escorted tours segment in North America and brings with it a highly experienced and committed management team. I am sure that YMT will continue to deliver both on performance and the holiday experiences its customers want, whilst leveraging the benefits that will result from it being part of a PLC."

INTERIM RESULTS FOR THE SIX MONTHS ENDED 30 APRIL 2006

GHTS

Operating loss (on an IFRS basis) increases to £68.7m (2005: £65.2m)		
Improvement in underlying(1) operating loss pre IFRS adjustments to £30.3m (2005: £32.0m)	Improved by	5%
Interim dividend of 2.25p per ordinary share (2005: 1.95p)	Improved by	15%

Nine strategic acquisitions in niche specialist segments made in the first half for £94.9m and the acquisition pipeline continues to be strong

The three specialist sectors first half performance improved by £4.4m

IFRS adjustments increase first half loss by £34.4m (2005: £32.9m), as previously indicated, which will predominantly reverse in the second half

Net financing expenses increased by £8m as a result of refinancing the convertible preference shares (£6m) and acquisition financing (£2m)

Loss before tax increases to £78.2m (2005: £66.7m)

t trading

For Summer 2006 Mainstream Holidays Sector revenues are up 4% with long-haul revenues and bookings up 38% and 30% respectively, while margins remain strong

Specialist Holidays Sector rate of sale and margins for the high season are up against last year

Activity revenues are up 48% in total for Summer 2006 and 5% on a like-for-like basis

Online Destination Services bednight bookings for Summer 2006 are up over 60%

ting on the results, Peter Long, Chief Executive said:

e pleased with our first half performance and have seen our strategy to a portfolio of leisure travel businesses pay dividends during the first

Having a diverse portfolio of businesses and a flexible business model that we are not over-reliant on any one single destination or source . By focusing on segments of the marketplace that demonstrate strong characteristics, we are satisfying customers' increasing

erating loss before goodwill amortisation, interest, joint venture & ate and IFRS adjustments. Refer to the tables on page 1 for a iliation of underlying and IFRS losses.

for differentiated holiday experiences. We remain very focused on a ation of organic and acquisition-led growth. The acquisition pipeline of list businesses is strong and will help us build significant leadership ons in the segments of the marketplace we find attractive.

crease in the interim dividend reflects our continuing confidence that the le business model we have created will continue to be highly cash tive. The outlook for the high season in July and August remains strong are confident of the outcome for the full year as we continue to progress s our 5% margin target by 2007."

M STATEMENT

ew

oup's strategy is to build a portfolio of leisure travel businesses that
ipate in high growth segments of the marketplace in which they operate.
trategy has enabled the delivery of a good first half financial
mance in market conditions that for certain businesses have been
nging. The operating loss under International Financial Reporting
rds (IFRS) has increased to £68.7m (2005: £65.2m), although the underlying
ing loss (before interest, JV and associate) and before adjusting for IFRS
s, has improved by 5% to £30.3m (2005: £32.0m).

tinue to differentiate the Mainstream product, leverage the flexible
ss models across the Group and invest in companies in niche segments of
rketplace that offer good growth prospects. The combined result of these
tives is to further diversify risk and increase the geographic spread of
rtfolio.

s the first time the Group is reporting under IFRS. When we notified the
of the impact of IFRS in October 2005 we announced that a number of
ic accounting adjustments under IFRS would impact the phasing of our
and Summer profitability. As a result of these changes, first half
before tax and amortisation have increased by £34.4m.

ingly, the headline loss before interest and tax has increased to £67.0m
£65.5m). In addition, the refinancing of the convertible preference
(£6.0m) we carried out last Summer, together with a higher level of
ition spend (£2.0m), has led to an additional £8.0m of net financing
es. The headline loss before tax, therefore, has increased to £76.5m
£67.0m).

	HY06	HY05
ying operating loss pre IFRS	(30.3)	(32.0)
djustment	(33.8)	(32.5)
ing loss post IFRS	(64.1)	(64.5)
venture & associate*	(2.9)	
ne loss before interest and tax	(67.0)	(65.5)
st*	(9.5)	(1.5)
ne loss before tax	(76.5)	(67.0)

uding IFRS adjustments - see table below

tal IFRS adjustments of £34.4m can be summarised as follows:

	HY06	HY05
ream Holidays	(26.6)	(24.1)
list Holidays	(0.2)	(1.0)
ty Holidays	(7.0)	(7.4)
	0.0	0.0
level	(33.8)	(32.5)
venture & associate	(0.2)	
st	(0.4)	(0.4)
IFRS adjustment	(34.4)	(32.9)

crease in Winter losses resulting from the change to IFRS will
inantly reverse in the second half of the year, increasing second half

ability. As previously stated, the accounting changes under IFRS have no
on the Group's strategy or cash generati. On a full year basis the
ne profit before tax for the year ended 31 October 2005 has increased by
£115m (see appendix 1).

review

t of our chosen strategy, we have identified two growth segments in North
a in which we are determined to build a significant presence - student
and the escorted tours market. We entered the US student travel market in
004 with the acquisition of StudentCity.com and since then have made eight
r acquisitions in this marketplace. Our entry into the escorted tours
came in December 2005 with the acquisition of the Grand Expeditions group
panies and INTRAV.

ingly, we are structuring our North American businesses under First Choice
gs Inc, that will comprise four divisions - First Choice Expeditions which
together Country Walkers, Travcoa, TCS, International Expeditions, Park
nd INTRAV; First Choice Marine with its distinct brands of The Moorings,
l Yachts, Footloose, NauticBlue and Signature Crewed Yachts; First Choice
ndent Vacations where Europe Express will sit and First Choice Student
where we now have ten brands catering principally to the college and high
breaks market.

porting purposes, First Choice Independent Vacations and First Choice
t Travel are included within the Specialist Holidays Sector while First
Expeditions and First Choice Marine are included within the Activity
ys Sector.

ream Holidays

instream Holidays Sector has continued to perform well. The Sector's
e for the six months ended 30 April 2006 was £352.5m (2005: £353.8m,
ed to include Adult Ski) with a loss before tax of £58.7m (2005: £54.7m).
crease in loss before tax is attributable to the changes in accounting
IFRS (£2.5m) and additional marketing spend (£1.5m) to support the brand

increase the rate at which we distribute our product through controlled
ls. This has resulted in some margin dil[redacted]n in the first half but does
ange our belief that gaining greater control of distribution, and having a
relationship with our customers, will lead to margin enhancement in the
term for this Sector.

capacity was reduced by 8% year-on-year with a 24% reduction in
haul, 11% in medium-haul and a 44% increase in long-haul, while
ive-tour passenger numbers were down 8% year-on-year. We have seen strong
for long-haul destinations where passenger volumes were up 41%, with
aul now accounting for 19% of our Winter programme (2005: 12%).

rategy of generating higher quality earnings through differentiating our
t offering continues. We are expanding our portfolio of product that is
ive to First Choice customers and now have five high-quality First Choice
y Villages. This all-inclusive product combines comfort and an extensive
of activities, restaurants and other services and facilities. We will be
g our first long-haul Holiday Village, in the Dominican Republic during
2006/07. For the Summer we are operating four newly configured long-haul
767s and satisfaction levels from our customers are averaging 78% across
ng-haul fleet (up 13 percentage points (ppts) versus last year) while our
m product averages a satisfaction score of 84% (up 12ppts versus last

l of distribution remains a key value driver in this Sector, and for
2006 trading, distribution through our own channels has increased to 66%
r 2005: 60%). With 31% (Summer 2005: 24%) of bookings being made through
line route to market, we will continue to invest in our direct
bution capability through both the online and retail channels to achieve
rgets for controlled distribution. Our research confirms that customers
ue to value travel shops for both holiday purchases and research, and
lingly, we are investing in our retail presence in specific regions of the
order to further drive controlled distribution. This investment will
e franchise partnerships with independent agents and we will seek to open
er of new First Choice Retail stores in key towns where the First Choice
is not currently well represented.

hese statistics exclude FY05 and FY06 acquisitions

ecialist Holidays Sector now operates from 15 source markets in ental Europe, the UK and North America and specialises in destination-led festyle holidays. The product is highly differentiated and primarily ive to our businesses.

ctor faced significant challenges in the first half of the year, with anes in the Gulf of Mexico affecting a key destination for our Canadian ss and our Student Travel division, bird flu scares in the Eastern rranean and continuing acts of terrorism (particularly in North Africa). these events impacted holiday bookings, with total passenger volumes down rsus prior year. This Sector, however, operates on the basis of low odation and flying commitments with low infrastructure costs. As a result, g is quite low and as bookings slowed the individual businesses cut back ty.

exibility of this business model and the importance of having a ified portfolio have been clearly demonstrated in difficult Winter trading ions, enabling this Sector to increase headline profit by £1.5m (up 30%) 5m. Of this improvement, the existing businesses delivered £0.4m, £0.3m rom acquisitions and £0.8m from accounting changes under IFRS.

an Specialist Businesses

Continental European Specialist businesses, demand was most severely ed by the ongoing impact of terrorist events in Egypt. Holidays to Egypt

own 27% for the European Specialist Businesses division, but this was countered by strong year-on-year growth in Morocco (up 14%) and Greece %). Capacity was cut back to underperforming destinations and as a result rofit impact of the revenue shortfall of 8% was not significant.

Specialist businesses continue to focus on improved efficiencies and the o a new generation, more flexible selling system. Hayes & Jarvis has y migrated to the new system and Citalia and Meon will follow in the l half of the year. Hayes & Jarvis volumes and margins have increased as a of steps taken internally in the business and recovery from the Tsunami of the previous year.

American Specialist Businesses

competitive market, Signature Vacations in Canada has maintained its strong ion across all the regions of the country. This business has delivered a l financial performance with an increase in operating profit over the prior with the majority of the improvement achieved in the core tour operating ess, although the retail operations maintained growth in both bookings and ues against a background of strong competition and discounting.

Choice Student Travel, based in the US and Canada, focuses on both the re and educational segments of the student travel markets. Now providing experiences to over 200,000 students per annum, we have a market leading ion in the US and Canadian leisure student markets as well as the Canadian tional travel segment. In the first half, the business has continued to rapidly both organically and by acquisition. Given the size and highly ented nature of the market, we will continue to pursue an aggressive growth onsolidation strategy in both the leisure and educational segments.

Choice Independent Vacations, which experienced a downturn following the n bombings of July 2005, has recovered and is now trading well.

ity Holidays

ter 2005/06

r-on-year change (%)*	Customers	Revenue
ine**	+4%	+11%
cialist Ski	+19%	+11%

dline loss (£m)	(10.2)	(13.7)	+25%
rating margin	(6.9)%	(22.4)%	+15.5ppts

hese statistics exclude FY05 and FY06 acquisitions, total turnover up 142%
arine currently includes Sunsail Clubs & Flotillas, Inland Waterways and Sunsail Yachts.

tivity Holidays Sector delivered an improved result for the first half revenue up 142% to £148m (2005: £61m) and losses were significantly reduced .2m (2005: £13.7m). While the acquisitions in the Activity Adventure on and the US businesses (Grand Expeditions and INTRAV) have contributed improved result we are pleased that like-for-like losses continue to e primarily as a result of enhanced asset utilisation and matching ty with demand. The like-for-like reduction in losses contributed £0.5m of rst half improvement and the acquisitions contributed a further £2.6m. The e was as a result of changes under IFRS.

l Clubs and Flotillas

nsail Clubs revenues were up 22% for the first half of the year and to y increasing demand for higher-quality accommodation within our Club t range, we have added a new Turkish Club, Phokaia. This club, which on schedule on 18 May and further strengthens our Mediterranean club lio, is already booking very well for the summer season. Revenues for the l Flotilla business were up 30% for the first half, while full year sales rrently up 13% with particularly strong growth in the Caribbean.

Waterways

land Waterways business is relatively small during the Winter. Nonetheless siness continues to deliver strong top line growth with revenues 15% ahead comparable period last year. Continued management focus on utilisation pacity management has resulted in a two percentage point improvement in ncy and we are experiencing significant levels of growth in new source s such as Italy, Spain and Scandinavia.

Choice Marine

e consolidated our position in the bareboat yachts charter market through quisition of The Moorings and its associated brands in December 2005, and now the world's largest bareboat yacht charter operator with over 1,500 and powerboats available for our customers at over 70 bases around the Our customers can enjoy the widest range of yachting experiences from m crewed yachts to quality value-for-money holidays. The integration of orings (and its brands) with our existing Sunsail Yachts operation is ssing well, as we seek to leverage operational synergies within the ed operation and subsequently drive margin improvement.

announcement of the preliminary results in December 2005 we indicated e expected to deliver synergies of around £4.5m from the Grand Expeditions ition in the first full year of ownership. These synergies were to be red primarily from First Choice Marine and were focused on areas such as l of duplication in sales offices, base overheads and back office ons. In addition, we announced we would review the corporate head office nd Expeditions. After the first six months of ownership we are confident he initial assessment of potential cost savings will be exceeded in the o 31 October 2007.

list Ski

ecialist Ski division now comprises Luxury Mountain Hotels, FlexiSki and hools business focusing on ski and educational tours for the UK schools'. Revenue was up 11% to £17m (2005: £15m). FlexiSki increased passenger s by 8% and revenue increased by 9%. The successful first year of

ion of the Hotel Le Fitzroy in Val Thorens, increased revenues in the
Mountain Hotels brand by 47% while the [redacted]ools business continued to
Adult Ski is now managed within the Main[redacted]eam Holidays Sector.

ty Adventure

tivity Adventure businesses experienced another period of strong growth
ike-for-like revenues 12% ahead of the comparable period last year (with
revenue growth up 205% to £67m), as all businesses performed in line with
ations. The businesses acquired during the second half of 2005 have
ated well into the Sector and we continue to target acquisitions that can
e new source market opportunities and have high growth characteristics.

l be maximising the opportunities we now have in the expedition cruising
following the Group's acquisition of INTRAV in January 2006 and Peregrine
ures in July 2005. A business unit, First Choice Expedition Cruising, has
reated to manage the four ships which sail under the leading brands of
ine Shipping and Clipper Cruise Line, and will offer an integrated,
mentary portfolio of ships and expedition cruise product through a
ide distribution network.

Choice Expeditions

and Expeditions escorted tours businesses have traded well since we
ed them in December 2005. These businesses in the United States offer
ng growth opportunities for the Group within a segment that is
terised by high growth and strong margins.

, acquired from Kuoni Travel Holding Ltd. in January 2006 is in the
s of being restructured. The company we acquired consisted of three
ct business activities: a coastal cruising operation, expedition cruising
ing under the Clipper Cruise Line brand and a premium escorted tours
ss under the INTRAV brand. The coastal cruising operation was sold
ing the acquisition. The award-winning Clipper Cruise Line is to be
d under First Choice Expedition Cruising (along with our Peregrine
ng product, as noted above). The integration of the escorted tours

ss into the Group has progressed extremely well, with savings of
imately $6m of overheads and marketing costs identified since acquisition.
quently, we forecast that the combined entity will break-even this year
$7.0m loss) before the cost of restructuring.

Destination Services

line Destination Services Sector has achieved a 37% increase in total
ction value (TTV) to £159m (2005: £116m). During the period we have
ued to develop the Hotelopia brand with additional airline partnerships at
remental cost of £0.9m. In addition, Winter trading has been affected by
pact of Hurricane Wilma in Mexico, which is a key Winter destination for
eds in particular. As a result the trading loss for the period has
sed by £0.6m to £1.7m (2005: £1.1m). This also includes a £0.4m Winter
ncurred by the Meridian business, based in Greece, acquired in the first
f 2006.

eds now has an extensive infrastructure of 67 offices in 16 countries
ng local market knowledge and high quality service. This brand grew its
37% in the period.

dsonline brand has successfully increased its travel agent customer base
of the consortiums in Spain, while Portugal is also experiencing
icant growth. TTV is up 126% and the brand is establishing a foothold in
key European markets, North and South America.

	Winter 05/06	Winter 04/05	Change

nights (000)			
elbeds	2,164	1,495	+45%
dsonline	1,126	530	+112%
elopia	1,160	685	+69%
al	4,450	2,710	+64%

enue per bednight (year-on-year change)

elbeds			-1%
lsonline			+8%
elopia			+18%
al			+6%
dline loss (£m)	(1.7)	(1.1)	-54%
rating margin	(1.8)%	(1.5)%	-0.3ppts

pia, our B2C online brand has seen impressive volume growth in the first with TTV up 71%. The strategic partnership with easyJet has been very ssful and we have in the period also signed partnership agreements to be commodation provider for bmi, bmibaby and Spanair. Our partnership with rge Spanish bank BBVA has been expanded and we are now working with them th America.

l Cruises

oint venture with Royal Caribbean Cruises Ltd. trading as Island Cruises successful first half with like for like Winter profitability from the ship, Island Escape, increasing by £0.5m. The Company's second ship the l Star, which joined the fleet in late October 2005, underwent a refit in ber 2005 that included a total refurbishment of public spaces, the addition ersion of 76 cabins and the addition of 68 cabin balconies. The cost of refit was £2.2m during the period. Island Star joined her sister ship, l Escape in Brazil in December 2005.

he six months ended 30 April 2006 total revenues grew year-on-year by 82% assengers carried increased by 77%. However, the re-fit of Island Star and 2m IFRS adjustment resulted in an increase in total first half losses by to £3.4m2 (2005: £1.0m). Both ships are now in the Mediterranean for the r and trading for the remainder of the year is in line with expectations.

sitions

last six months we have completed nine acquisitions. A number of these
een a continuation of our strategy to build significant positions in
ts of the marketplace that have attractive consumer-driven growth
teristics. These include the student travel

e of JV and associate pre-tax loss of £2.9m includes £0.5m share of
ate income (2005: £nil)

in North America, escorted tours and adventures businesses. In addition,
e also acquired in attractive segments where we have the ability to
idate a market by acquiring the major specialist yachting competitor,
The Moorings. With the INTRAV acquisition, we have demonstrated our
y to acquire where radical restructuring is required.

e continued to acquire businesses in the specialist sectors that
trate growth characteristics and the ability to generate superior returns.
ember 2005 and January 2006, as previously announced, we acquired the
Expeditions group of companies and INTRAV. During the period under review
uired a further seven specialist businesses and since 1 May we have added
re company to the Group.

line Destination Services Sector continues to expand into new geographical
s and in December 2005 we acquired Meridian a Greek destination services
ss for £3.7m. This acquisition gives us a market leading presence in the
Islands.

uary 2006, the Activity Holidays Sector acquired Trek Holidays.
ished over 30 years, Trek is one of Canada's leading adventure travel
ies. In May, we acquired Travel Class Limited, a leading supplier of ski
residential activity trips for schools in the UK market, for a net cash
eration of £6.4m. This acquisition complements our existing schools ski
ucational tours business while offering us entry to the UK Activity Centre
t of the market. We are confident that superior returns are achievable
articipation in the UK activity segment and a combination with the
ng Ski and Travelbound businesses (within the Specialist Ski division)
rovide the Group with a market leading position in the school focused
market with three clear product offerings and brands.

North American student travel market, we have continued to build a

icant niche segment through further bolt-ons during the period. As ced in the April pre-close statement, we have acquired four businesses in ucational group travel segment of the market for a total consideration of The acquisition of Educational Tours, based in Chicago, has secured our on as the second largest educational travel company in the US, catering to school students. The three other businesses acquired in this segment, Voyageurs, Educatours and Jumpstreet, are all based in Canada.

e a strong pipeline of acquisitions in the second half of the year and tly see no sign of this diminishing as we further strengthen our position growth segments we have identified.

et debt position of (£187m) represents increased indebtedness of £288m red to the same point in the prior year (2005: £101m net cash). The net position is made up of £156m of cash and £343m of debt. The refinancing of CCL preference shares (£199.5m) in the second half of 2005, which gave us ved tax efficiency and a lower cost of debt, combined with our acquisition diture account for this increase in debt.

ends

oard has declared an interim dividend of 2.25p (2005: 1.95p) per ordinary This represents an increase of 15% compared to the same period in the year. This is in line with our stated progressive dividend policy to ain dividend cover at around two-times. The dividend is payable on 1 ber 2006 to shareholders on the register at 29 September 2006.

seven weeks since the trading update on 26 April 2006, trading for Summer
as continued to perform in line with our expectations.

nstream Holidays our performance reflects our focus on long-haul
ations and differentiated product. We continue to refine the short-haul
ng and reduce capacity to match demand. Medium-haul destinations are
g an improving trend with Greece, Egypt and Morocco proving extremely
r and Turkey continuing to recover. Sales in our higher quality earnings
aul programme show that the investment we have made in both the in-flight
ence and in resort are proving what our customers want. Margins for the
remain strong.

list Holidays Sector trading has progressed as we anticipated, with our
an businesses Summer sales broadly flat against last year across the
season. We have continued to reduce capacity in the shoulder season, when
s are lower. In the high season, however, the rate of sale and margins has
ued to perform ahead of last year. In particular, we have experienced
icant demand for Morocco and Greece, while both sales and margins in our
cialist businesses are up versus last year. Both the Activity Holidays
line Destination Services Sectors continue to perform well.

gh early in the selling period, where Winter 2006/07 is on sale, we are
ming in line with our expectations.

oup operates a flexible and efficient business model across a portfolio of
. This enables us to operate successfully and maintain growth in a more
nging trading environment. Furthermore, opportunities exist to continue to
ur business organically and through acquisitions in order to build
icant leadership positions in attractive segments of the travel market
trong growth characteristics. We remain confident of the outlook for the
der of this year.

Basis of preparation

Choice Holidays PLC (the "Company") is a company domiciled in the United
om. The consolidated interim financial statements of the Company for the
onths ended 30 April 2006 comprise the Company and its subsidiaries
ther referred to as the "Group") and the Group's interest in associates and
ly controlled entities.

(IAS Regulation EC 1606/2002) requires that the next annual consolidated
ial statements of the Company, for the year ending 31 October 2006, be
ed in accordance with International Financial Reporting Standards (IFRSs)
d by the EU ("adopted IFRSs"). This interim financial information has
repared on the basis of the recognition and measurement requirements of
in issue that either are endorsed by the EU and effective (or available
rly adoption) at 31 October 2006 or are expected to be endorsed and
ive (or available for early adoption) at 31 October 2006, the Group's
annual reporting date at which it is required to use adopted IFRSs.

opted IFRSs that will be effective (or available for early adoption) in
nual financial statements for the year ending 31 October 2006 are still
t to change and to additional interpretations and therefore cannot be
ined with certainty. Accordingly, the accounting policies for that annual
will be determined finally only when the annual financial statements are
ed for the year ending 31 October 2006.

nsolidated interim financial statements do not include all of the
ation required for full annual financial statements and none of the
ial information included within the consolidated interim financial
ents has been subject to audit.

mparative figures for the financial year ended 31 October 2005 and the six
period to 30 April 2005 are extracted from the "First Choice Holidays PLC
pdate" and "IFRS Supporting Documentation" as published by the Group on 23
2006. This information is available on the Group's website,
rstchoiceholidaysplc.com.

he exception of financial instruments, as detailed below, the accounting
es and first time adoption transitional rules followed in this interim
ial report are the same as those published by the Group on 23 March 2006
the IFRS Update, which is also available on the Group's website,
rstchoiceholidaysplc.com. To further aid understanding and comparability
he Group's historic performance, the tables in Appendix 1 show a
iliation between the income statements and the balance sheet under IFRS
e results under UK GAAP for the 6 month period ended 30 April 2005 and the
nded 31 October 2005.

mparative figures for the financial year ended 31 October 2005 are not the
y's statutory accounts for the financial year. These accounts, which were
ed under UK GAAP, have been reported on by the Company's auditors and
ered to the registrar of companies. The report of the auditors was
ified and did not contain statements under section 237(2) or (3) of the
ies Act 1985.

of this report and financial information is available for members of the
from the Company's registered office at First Choice House, London Road,
y, West Sussex, RH10 9GX. Website: www.firstchoiceholidaysplc.com.

o follow, for following part double-click nRN2M4650E

ting policy for financial instruments

ordance with IFRS 1, "First Time Adoption of International Financial
ing Standards", the Group has applied the transition adoption rules for
: Financial Instruments (Disclosure and Presentation) and IAS 39:
ial Instruments (Recognition and Measurement). The Group has therefore
d these standards, and the related accounting policies, only with effect
e current period from 1 November 2005 and not within the comparative
ial information. The opening balance sheet at 1 November 2005 has been
ed to reflect the adoption of these standards from that date and details
se adjustments can be found in note 10.

xation

e tax for the six month period to 30 April 2006 is calculated using the ated annual effective tax rate for the year ending 31 October 2006 applied e pre-tax loss before amortisation of business combination intangibles for terim period.

ax credit for the period comprises both the Group tax credit, and the joint re tax credit and associate tax charge which, under IFRS, are included the Group's share of joint venture and associate profits and losses on ace of the income statement.

s basis, the tax rate applied on the loss before tax for the interim d is 28% (2005: full year rate 29%).

vidends

ary shares

ends have been recognised within equity as follows:

	6 months 30 April 2006 £m	6 months 30 April 2005 £m	Year 31 October 2005 £m
ordinary dividend paid for 2005 of (2004: 3.75p)	24.5	19.4	19.4
im dividend paid for 2005 of 1.95p	-	-	10.1

24.5	19.4	29.5

quent to the balance sheet date, the Directors have approved an interim
end of 2.25p per share (2005: 1.95p) payable on 1 November 2006 to the
s of relevant shares on the register at 29 September 2006. The interim
end amounts to £11.8m (2005: £10.1m) and will be recognised in the
ial statements in the second half of the year.

dend reinvestment plan was introduced for the first time with respect to
nal dividend payable for the year ended 31 October 2000. Those
olders who have not elected to participate in this plan, and who would
o participate with respect to the 2006 interim dividend, may do so by
ting Lloyds TSB Registrars direct on 0870 2413018. The last day for
on for the interim dividend is 11 October 2006 and any requests should be
n good time ahead of that date.

ence shares

eference shares were redeemed by the Company on 27 July 2005. In the six
period to 30 April 2005, preference share dividends of £6.7m were paid.

s per ordinary share

sic loss per ordinary share for the six month period to 30 April 2006 is
ated by dividing the loss attributable to ordinary shareholders by the
able weighted average number of ordinary shares in issue during the
, excluding those held in the employee share ownership trusts.

	Weighted average	Loss		Weighted average	Loss

	Loss 2006 £m	no. of shares 2006 millions	per share 2006 pence	Loss 2005 £m	no. of shares 2005 millions	per share 2005 pence
loss dinary	(57.8)	524.2	(11.0)	(54.6)	518.5	(10.5)
sation iness ation ibles	2.5	-	0.5	-	-	-
ne loss dinary	(55.3)	524.2	(10.5)	(54.6)	518.5	(10.5)

ordance with IAS 33: Earnings Per Share, the calculation of diluted basic gs per share and diluted adjusted loss per share has not been disclosed as e potential ordinary shares that comprise the calculation are ilutive.

nancial instruments

out in note 1, the Group has adopted IAS 32, "Financial Instruments: sure and Presentation" and IAS 39, "Recognition and Measurement" from 1 er 2005. In accordance with IFRS 1, "First Time Adoption of International ial Reporting Standards", the Group has elected not to re-state ative information for the impacts of IAS 32 and 39.

d, for the year ended 31 October 2005, the accounting policies documented UK GAAP financial statements for the year ended 31 October 2005 were d in respect of: financial instruments issued by the Group; investments securities; derivative financial instruments; hedging and translation of n currency monetary items.

e six months to 30 April 2006, the following accounting policies have been

d:

tive financial instruments and hedging

tive financial instruments

tive financial instruments are recognised at fair value. The gain or loss
easurement to fair value is recognised immediately in the income
ent. However, where derivatives qualify for hedge accounting, recognition
resultant gain or loss depends on the nature of the item being hedged
elow).

ir value of interest rate swaps is the estimated amount that the Group
receive or pay to terminate the swaps at the balance sheet date, taking
ccount current interest rates and the current creditworthiness of the swap
rparties. The fair value of fuel swaps is the estimated amount that the
would receive or pay to terminate the swaps at the balance sheet date,
into account current fuel prices. The fair value of forward exchange
cts is their quoted market price at the balance sheet date, being the
t value of the quoted forward price.

tive financial instruments and hedging

low hedges

a derivative financial instrument is designated as a hedge of the
ility in cash flows of a recognised asset or liability, or a highly
le forecast transaction, the effective part of any gain or loss on the
tive financial instrument is recognised directly in the hedging reserve.
effective portion of the hedge is recognised immediately in the income
ent.

edge of a forecast transaction subsequently results in the recognition of

ncial asset or a financial liability, the associated gains and losses that
ecognised directly in equity are reclassified into the income statement in
me period or periods during which the asset acquired or liability assumed
s the income statement. When the forecast transaction subsequently results
recognition of a non-financial asset or non-financial liability, the
ated cumulative gain or loss is removed from the hedging reserve and is
ed in the initial cost or other carrying amount of the non-financial asset
bility. For cash flow hedges, other than those covered by the preceding
licy statements, the associated cumulative gain or loss is removed from
and recognised in the income statement in the same period or periods
which the hedged forecast transaction affects profit or loss.

hedging instrument expires or is sold, terminated or exercised, or the
revokes designation of the hedge relationship but the hedged forecast
ction is still expected to

o follow, for following part double-click nRN3M4650E

inancial instruments - cont'd

the cumulative gain or loss at that point remains in equity and is
ised in accordance with the above policy when the transaction occurs. If
edged transaction is no longer expected to take place, the cumulative
ised gain or loss 1previously recognised in equity is recognised in the
statement immediately.

value hedges

a derivative financial instrument is designated as a hedge of the
bility in fair value of a recognised asset or liability or an unrecognised
commitment, all changes in the fair value of the derivative are recognised
iately in the income statement. The carrying value of the hedged item is
ted by the change in fair value that is attributable to the risk being
d and any gains or losses on remeasurement are also recognised immediately
income statement (even if those gains would normally be recognised
tly in reserves). On the discontinuance of hedge accounting, any adjustment
to the carrying amount of the hedged item as a consequence of the fair
hedge relationship is recognised in the income statement over the
ining life of the hedged item.

t of first time adoption of IAS 32 and IAS 39 on 1 November 2005

opt IAS 32 and IAS 39 within the balance sheet as at 1 November 2005, the
wing adjustments have been necessary:

The recognition on balance sheet of t fair value of derivative
ial assets of £23.0m and the fair value of derivative financial
ities of £18.9m. Unrealised fair value gains of £6.3m on cash flow hedges
cluded within the hedging reserve. Unrealised fair value losses of £2.2m
r value hedges are included within retained earnings. Under UK GAAP
tives were held off balance sheet and were recognised at the time of the
transaction.

IAS 21 requires that monetary items (e.g. cash, debtors, accounts
e) that are denominated in a currency other than an individual entities
ing currency should be translated at the spot rate at the balance sheet
Many businesses within the Group already translated at the closing spot
ge rate at each reporting date under UK GAAP. Re-translation of such items
ever required in some business units where assets and liabilities have
usly been translated at the contracted rate, in accordance with UK GAAP.
pact of this change is to decrease net assets by £4.6m at 1 November 2005.

tal adjustment to net assets, after tax, has been recorded directly to
(note 8) and is summarised below:

nancial instruments - cont'd

	Derivative financial instruments	Translation at spot rate	Deferred tax impact	Total
	£m	£m	£m	£m
rrent assets				
and other receivables	-	(8.3)	-	(8.3)

tive financial instruments at 1 November 2005 relate to forward foreign
ge contracts, interest rate swaps and fuel swaps. These instruments are
o reduce the exposure of the Group to movements in foreign exchange rates,
st rates and the price of fuel.

proval

terim financial statements were approved by the Board on 12 June 2006.

endent Review Report by KPMG Audit Plc

st Choice Holidays PLC

uction
e been engaged by First Choice Holidays PLC ('the Company') to review the
ial information for the six month period to 30 April 2006 which comprises
nsolidated income statement, the Consolidated balance sheet, the
idated statement of cash flows, the Consolidated statement of recognised
and expense and the related notes. We have read the other information
ned in the interim report and considered whether it contains any apparent
tements or material inconsistencies with the financial information.

eport is made solely to the Company in accordance with the terms of our
ment to assist the Company in meeting the requirements of the Listing
of the Financial Services Authority. Our review has been undertaken so
e might state to the Company those matters we are required to state to it
s report and for no other purpose. To the fullest extent permitted by
e do not accept or assume responsibility to anyone other than the Company
r review work, for this report, or for the conclusions we have reached.

ors' responsibilities

terim report, including the financial information contained therein, is
sponsibility of and has been approved by the directors. The directors are
sible for preparing the interim report in accordance with the Listing
which require that the accounting policies and presentation applied to the
m figures should be consistent with those applied in preparing the
ing annual financial statements except where any changes, and the reasons
em, are disclosed.

closed in note 1 to the financial information, the next annual financial
ents of the Group will be prepared in accordance with IFRSs adopted for
the European Union. The accounting policies that have been adopted in
ing the financial information are consistent with those that the directors
tly intend to use in the next annual financial statements. There is,
r, a possibility that the directors may determine that some changes to
policies are necessary when preparing the full annual financial statements
e first time in accordance with those IFRSs adopted for use by the
an Union.

work performed

ducted our review in accordance with guidance contained in Bulletin 1999/
ew of interim financial information issued by the Auditing Practices Board
e in the United Kingdom. A review consists principally of making
ies of group management and applying analytical procedures to the
ial information and underlying financial data and, based thereon,
ing whether the accounting policies and presentation have been
tently applied unless otherwise disclosed. A review is substantially less
pe than an audit performed in accordance with Auditing Standards and
ore provides a lower level of assurance than an audit. Accordingly, we do
press an audit opinion on the financial information.

conclusion
basis of our review we are not aware of any material modifications that
be made to the financial information as presented for the six months
30 April 2006.

FIRST CHOICE HOLIDAYS PLC

TRADING UPDATE, STUDENT TRAVEL ACQUSITIONS
AND HOTELOPIA STRATEGIC AIRLINE PARTNERSHIPS

Prior to entering its close period on 30 April 2006, First Choice Holidays PLC announces the following trading update.

In the five weeks since the AGM statement on 23 March 2006, Summer trading has progressed as we anticipated, with an improvement in sales in the Mainstream Holidays Sector and increasing evidence of improving sales for the high season in the Specialist Holidays Sector. We are confident that trading across the Group will continue to be in line with our expectations.

In Mainstream, Summer sales have been up 7% over the last five weeks with peak season rates of sale and margins particularly strong. Cumulative sales for the Summer are now 4% up on the same period last year.

In the Specialist Sector, our European businesses Summer sales have been broadly flat over the last five weeks on the same period as last year. In the shoulder period of May and June, when margins are lower, the significant capacity reductions we have implemented have resulted in lower year-on-year comparable sales. In the high season, however, we have continued to see improved rates of sale and margins ahead of last year. Accordingly, the cumulative Summer sales position for Europe remains at 12% down on the same period as last year.

The Activity Holidays Sector and Online Destination Services Sector continue to perform well for the Summer with sales up 5% and 53% respectively.

Notes:

* These statistics reflect inclusive tour sales only from GB up until 22nd April 2006

** According to AC Nielsen Traveltrack data for March 2006, the UK market as a whole fo cumulative bookings for Summer 2006 was down 7.5% with the four major UK tour operators

*** These statistics exclude FY05 and FY06 acquisitions.

Acquisitions integration

Following the acquisition of the Grand Expedition companies in December 2005 and Intrav in January 2006, we remain on track to achieve the synergy and operational efficiency benefits we identified. The management team of First Choice Marine, with its five major brands including Sunsail Yachts and The Moorings, has successfully integrated these businesses and good progress is being made to fully realise £4.5m of synergy benefits in the year to 31 October 2007. Further savings are anticipated in 2008 and 2009. Following the disposal of its two US coastal cruising ships, Intrav is being re-structured to focus on its premium escorted tours and expedition cruise businesses. A significant reduction in Intrav's cost base has already been achieved and the business is well on the way to returning to profitability in 2007.

Student travel acquisitions

The Group has identified the student travel market in North America as a key growth area and has recently completed four acquisitions in the educational group travel sector for a total consideration of £16 million. The businesses provide national curriculum based tours to middle and high school students (11 - 15 year olds) primarily to US destinations.

Educational Tours, based in Chicago, is the second largest educational tours operator in the US and the acquisition has given the Group a significant entry point into this market. School Voyageurs, Educa Tours and Jumpstreet Tours are all Canadian educational tours operators and their acquisition together with Impact Educational Tours, which is already part of the Group, establishes a strong position in this segment of the Canadian market.

Hotelopia new airline partnerships

Hotelopia our b2c accommodation provider has continued to extend its strategic partnerships with airlines. Having originally secured its first contract with easyJet, Hotelopia recently won the contract to be the accommodation provider for Spanair and has now signed two further contracts with bmi and bmibaby. Hotelopia is scheduled to start providing accommodation for the three airlines from May. They have a total customer base of close to 20 million passengers who will be able to book accommodation at more than 20,000 hotels in over 900 destinations through Hotelopia.

Interim results

First Choice Holidays PLC will announce its interim results for the six months ended 30 April 2006 on Tuesday 13 June 2006.

FIRST CHOICE HOLIDAYS PLC

NON-EXECUTIVE DIRECTOR

At the AGM held in London this morning, the Chairman, Sir Michael Hodgkinson made the following statement about the Board's Senior Independent Director, Tony Campbell:

Although Tony Campbell, our Senior Independent Director, is not required to be re-elected at this meeting, it is right that I should draw attention to the fact that he will have completed nine years' service on the Board on 1 April 2006. At that point the Combined Code on Corporate Governance will oblige the Board to state its reasons for continuing to regard Mr Campbell as independent in the execution of his duties as a Non-Executive Director. The Board is pleased that Mr Campbell has indicated that, at the Board's request, he is prepared to serve for a further period of approximately one year to maintain an appropriate level of experience of the Company's affairs in a Board which has been substantially refreshed during the last 18 months by the appointment of four new Non-Executive Directors. His contribution to strategic debate and his wide experience of the retail sector and other leisure activities is of particular value to the Board.

FIRST CHOICE HOLIDAYS PLC
AGM STATEMENT

e Annual General Meeting to be held in London today, the Chairman, Sir
el Hodgkinson, will make the following trading update:

ng update

pleased to announce that trading for the 2005/06 financial year is
essing in line with our expectations against a background in which certain
nts of the marketplace are experiencing tougher trading conditions. Our
e business model allows us to align capacity to match profitable demand,
managing our cost base.

tream Holidays Sector

ainstream Holidays Sector is performing well and the re-mixing of its
ess model into differentiated medium and long-haul holidays continues to
ess to plan.

r 05/06

he Winter season, revenues are 6% higher than last year reflecting stronger
ng and the impact of re-mixing the business. Capacity has been reduced by
ar-on-year with a 15% cut in short and medium-haul destinations. Margin

RECEIVED
2006 MAR 27 P 12:23

rmance, after absorbing increased fuel costs, is in line with our
ations. This has been driven by increasing the proportion of Winter
ys sold via our own controlled distribution channels, particularly online,
ercentage points to 57%. For the remainder of the Winter season, we have
lar number of holidays left to sell as at the same point last year.

06

mmer 2006, revenues are 3% higher than last year again reflecting stronger
g and the remixing of the business. This good performance in the early
f the key booking season was achieved despite a number of negative
al factors, including the outbreak of bird flu in Turkey, which impacted
in January. Over the last four weeks revenues have been tracking in line
ast year. We have reduced our capacity for the Summer by 5%
n-year and bookings for inclusive tour packages are currently tracking 5%
The capacity reductions have been focused on the low season (May and
Margins are in line with our expectations and ahead of last year, having
ed incremental fuel costs. Our control of distribution is even greater
e Summer with 68% of our package holiday bookings to date being made
h our own channels, an increase of 8 percentage points year on year. For
mainder of the Summer season, we have less holidays to sell than at the
ime last year.

list Holidays Sector

05/06

rth American business has had a strong Winter (the peak season for this
ss) with revenues up 4% on flat bookings. Our flexibility means that we
een able to move capacity away from the hurricane hit area of Cancun and
our customers increased capacity in unaffected areas.

and Egypt are amongst the key destination markets for many of our
an Specialist businesses. Since the terrorist bombings last Summer, we
een reducing low season capacity in these markets and offering holidays to
ative destinations in anticipation of tougher trading conditions.
l, capacity in this division for Winter has been reduced by 20% while

es are down 9% on reduced bookings of 16%.

06

mmer season in Europe has been on sale since the beginning of the calendar
nd as we anticipated has started slowly. Accordingly, we have cut
ty to appropriate levels to match expected profitable demand. To date
es are down 11% with bookings down 14%.

ropean business model has a highly variable cost base and so revenue
alls have a minimal effect on margin. Margins, are strong in many of the
stination markets for the Summer (Morocco, Greece, Egypt) and overall
s in the Specialist Holidays Sector are currently in line with our
ations.

ty Holidays Sector

tivity Sector is performing well for both Winter and Summer with revenues
all the divisions ahead of the previous year by 12% for Winter and 8% for
on a like-for-like basis and margins in line with our expectations.

Destination Services

s and prices in all routes to market in our Online Destination Services
are strong for both Winter and Summer. We are pleased to announce that
pia, our B2C accommodation provider, has recently won the contract to
e online accommodation services for Spanair that is scheduled to commence
Summer.

23 MARCH 2006

FIRST CHOICE HOLIDAYS PLC
IFRS UPDATE

Choice Holidays PLC ("the Group") today provides a further update in
on to the transition of the Group to International Financial Reporting
rds ("IFRS").

October 2005, the Group issued a press release summarising the initial
of transition to IFRS (as adopted by the EU). This provided an analysis
impact on the opening Group balance sheet at 1 November 2004 and an
l quantification of the range of profit impacts on the financial
ents for the comparative year ending 31 October 2005.

y points of today's update are as follows:

ening balance sheet net assets at 1 November 2004 have reduced by £61.3m
om £487.1m under UK GAAP to £425.8m under IFRS.

adline profit before interest and tax(1) for the year ended 31 October
05 has increased by £1.8m from £118.4m under UK GAAP to £120.2m under
RS.

adline profit before tax for the year(2) ended 31 October 2005 has
creased by £1.0m from £114.0m under UK GAAP to £115.0m under IFRS.

ofit before tax for the year to 31 October 2005 has increased by £23.1m
om £89.1m under UK GAAP to £112.2m under IFRS.

adline loss before interest and tax(1) for the six months ended 30 April
05 has increased by £32.5m from £33.0m under UK GAAP to £65.5m under IFRS.

e implementation of IAS 32 and 39 relating to financial instruments on 1
vember 2005 will increase net assets by £8.9m.

of the reconciliations between UK GAAP and IFRS of the relevant income
ents, balance sheets and cash flow statements at 1 November 2004, 30 April
nd 31 October 2005, along with the significant accounting policies that
Choice has adopted in preparing the IFRS comparative information, can be
on the First Choice Holidays PLC website www.firstchoiceholidaysplc.com.
iliations between UK GAAP and IFRS of income statement key indicators and
sets at these dates can be found in section 1 of this press release.

ted in our press release of 26 October 2005, whilst IFRS results in
n changes to our financial reporting it has no impact on the underlying
drivers of our business. Our strategy, accordingly, is totally unaffected
se changes. The transition to IFRS will not change how the Group is
d and significantly will have no impact on cash generation which remains a
rformance measure. It will also not affect the way that the Group
es potential investments nor the ability of the Group to pay dividends
ash reserves.

adline profit/loss before interest and tax is defined as profit/loss
interest, taxation (Group and share of joint ventures and associates),
ional items and amortisation of intangible assets acquired in business
ations.

adline profit/loss before tax is defined as profit/loss before taxation
and share of joint ventures and associates), exceptional items and
sation of intangible assets acquired in business combinations.

isation of intangible assets acquired in business combinations.

IAS 19 - Employee Benefits (Pensions)

, "Employee Benefits", requires that the present value of the liability
e Group's defined benefit pension schemes be carried on the balance sheet,
the current market value of the scheme assets. Under FRS 17, "Retirement
ts", the Group has disclosed carrying values for the pension scheme
ities that give an indication of the impact that will occur under IFRS.
31 October 2005 the total deficit under FRS 17 was £32.8m (Note 5; Annual
& Accounts 2005).

uation in accordance with IAS 19 has been performed at 31 October 2005 on
coup's defined benefit pension schemes. This valued the deficit as £34.2m
ctober 2004: £32.7m). Accordingly, this deficit has been recognised in the
balance sheet at 31 October 2005. Under UK GAAP an asset balance of £4.0m
een held, so the overall reduction in the value of net assets amounts to
n. Partly offsetting this reduction is the separate recognition of an
ated deferred tax asset of £10.2m. The net impact on the Group's balance
is therefore to reduce net assets by £28.0m (31 October 2004: £21.0m).

ing the surplus / deficit of defined benefit pension schemes on to the
ce sheet may cause some volatility in net assets year-on-year, due to the
rement to mark to market the value of scheme assets and reassess the scheme
ities on an actuarial basis. Given the nature of the surplus / deficit,
mpact of this is difficult to forecast accurately. However, carrying the

n deficit on the balance sheet means that it will no longer be required to ensed through the income statement each year, as was the case under UK This has increased profits under IFRS compared to UK GAAP by £0.6m in ial year 2005, which has been recorded in the income statement on a ht line basis.

usly it had been stated that the Group expected this change in accounting would increase profits by approximately £2m per annum. This expectation w been revised in view of a change in actuarial assumptions in the ation of scheme liabilities. Further changes to actuarial assumptions in ture may erode the benefits in the income statement in the year to 31 r 2006 under IFRS.

AS 19 - Employee Benefits (Holiday Pay)

ition to the accounting changes for the pension scheme deficit, IAS 19 es guidance on short-term employee benefits such as wages and salaries and sated absences, with a requirement that the Group accrue for unused annual entitlements at each reporting date. An exercise across the Group has ined that the additional accrual for holiday pay required at 31 October s £4.0m (31 October 2004: £4.0m). The full year impact of this in the statement is £nil.

lar exercise determined that the required holiday pay accrual at 30 April as £3.0m. Accordingly, losses before tax under IFRS have been decreased 0m in the first half of the year. There is an equal and opposite impact second half of the year with second half profits before tax being sed by £1.0m.

AS 2 / IAS 38 - Marketing and other direct costs of providing holidays

ontains more specific guidance than UK GAAP on the circumstances in which ing and other direct costs of providing holidays may be deferred and d against associated revenue. For example, IAS 38, "Intangible Assets", es that all expenditure on advertising and promotional activities should tten off as incurred. IAS 2, "Inventory", allows labour and other costs sonnel directly engaged in providing holiday services (including isory personnel and attributable overheads) to be deferred; it does not labour and other costs related to sales to be deferred.

UK GAAP, the Group's policy has been to charge brochure, other marketing and other sales related costs to the income statement in the season to they relate. These costs will be charged to the income statement as ed under IFRS. The impact of these changes is to reduce net assets by at 31 October 2005 (31 October 2004: £69.9m).

djustment will have no impact on the timing of the cash flows for the There was a small increase in the level of costs deferred at 31 October n comparison to 31 October 2004, reducing profit before tax under IFRS by

A significant proportion of this increase was attributable to new
es acquired during the year.

uld be noted that this change in accounting treatment under IFRS does have
act on First Choice's first half / second half profitability split. First
osses before tax under IFRS are increased by £34.5m compared to UK GAAP as
iture previously charged in the second half of the financial year is now
charged in the first half. Similarly, second half profit before tax is
sed by £34.1m.

AS 10 - Events after the Balance Sheet Date

, "Events after the Balance Sheet Date", specifically excludes the
ition as liabilities of dividends that have not been authorised. As a
, final dividends payable are recognised only in the period in which they
proved in the Annual General Meeting and therefore become a liability.
m dividends are recognised in the period in which they are declared. The
of this is detailed in the table below.

nd payment	When recognised under UK GAAP	When recognised under IFRS
4 Final dividend £19.4m 8; Annual Report & Accounts 2004)	Second half 2004	First half 2005
5 Interim dividend £10.1m (Note 5; m Report 2005)	First half 2005	Second half 2005
5 Final dividend £24.5 m 8; Annual Report & Accounts 2005)	Second half 2005	First half 2006

yment of dividends is no longer charged through the income statement but
d charged through reserves. Therefore the amendment to the timing of
ition will have no income statement impact.

hange will also have no effect on the timing and future payment of the
s dividends.

FRS 2 - Share-based payments

oup operates a number of share schemes, as described in the annual report
e year to 31 October 2005.

UK GAAP, costs were included within the financial statements for such
s as required by UITFs 17 and 38 (Note 6; Annual Report & Accounts 2005).
, "Share based payment", requires that the annual charge for such equity
d schemes be based on the fair value to the employee of share scheme
s granted. In line with these requirements, schemes with an Earnings Per
("EPS") performance condition have been valued using a binomial valuation
The fair value of options under schemes with a Total Shareholder Return

) performance condition have been valued using a simulation based
ion model.

he binomial and simulation models take into account factors such as
nd yield, interest rates and share price volatility over the vesting
l of the share schemes. The fair value of the options which is charged to
come statement is therefore expected to be lower than the charge to the
statement under UK GAAP, which is based upon the full share price of the
s at the date at which they are granted.

lingly, there is a £0.8m increase in profit before tax as compared to UK
n the year ended 31 October 2005. This benefit has been recorded in the
statement on a straight line basis through the year, decreasing first
osses by £0.4m and increasing second half profits by £0.4m.

IFRS, creditors for shares to be issued under share schemes are held
reserves, as opposed to within trade payables under UK GAAP.
quently, a creditor of £5.2m recognised under UK GAAP has been transferred
serves at 31 October 2005 (2004: £1.8m).

RS 2 charge is dependent upon the fair value of options at the grant date.
the current increased share price of the Group in comparison to the prior
it is expected that the fair value of future share option grants will be
than for grants prior to 31 October 2005.

IC 15 - Lease Incentives

UK GAAP, lease incentives are currently recognised over the period to the
market rent review. This is particularly common on retail properties
the landlord incentivises First Choice to enter into a standard fifteen
ease with a first market rent review typically after five years. IFRS
5) requires that lease incentives be spread over the entire lease term.

result of this change, the Group's IFRS balance sheet at 30 April 2005 and
ober 2005 includes additional deferred income of £2.9m (31 October 2004:
. Profit before tax under IFRS has been decreased by £0.1m in the year to
ober 2005 in comparison to UK GAAP.

AS 12 - Income Taxes

IAS 12, "Income Taxes", the Group is required to calculate deferred
on on temporary differences, using a balance sheet liability method,
s UK GAAP required provision to be made only for taxable timing
rences arising between accounting profit and loss and taxable profit
nition.

mpact on the IFRS balance sheet of IAS 12 at 31 October 2005 is as follows:

	Deferred tax	Deferred tax	Total

	assets £m	liabilities £m	£m
red tax recognised under UK GAAP	11.1	(18.3)	(7.2)
19; Annual Report & Accounts 2005)			
eferred tax items created by transition on:			
are options in line with IFRS 2	2.8	-	2.8
rketing and other direct costs of providing ays in line with IAS 2 / IAS 38	21.2	-	21.2
reading of lease incentives under SIC - 15	0.8	-	0.8
cognition of the pension scheme deficit	10.2	-	10.2
reading of special pension contributions	1.6	-	1.6
remitted earnings	-	(2.3)	(2.3)
justments to fair value of fixed assets acquired siness combinations and in consolidation tments	-	(3.0)	(3.0)
ner deferred tax assets / (liabilities)	2.1	(0.2)	1.9
red tax recognised under IFRS	49.8	(23.8)	26.0
nce	38.7	(5.5)	33.2

ffective tax rate for the year to 31 October 2005 under IFRS is 29%. At nt it is expected that the transition to IFRS will have no significant t on the Group's effective tax rate going forward.

IAS 38 Goodwill amortisation

3, "Intangible Assets", requires that goodwill is no longer amortised gh the Group income statement. Instead, goodwill held in the Group balance is subject to an impairment test at the date of transition and then lly thereafter. Any impairment to the goodwill value is taken through the e statement in the period in which it occurs.

UK GAAP, goodwill amortisation of £11.8m was charged through the income ment in the period to 30 April 2005 (Note 6; Interim Report 2005) and n was charged in the full year (Note 6; Annual Report & Accounts 2005). No charges are made in the income statement under IFRS in financial year 2005, fore increasing profit before tax by these amounts in the respective nting periods.

IFRS 3 - Intangibles acquired during business combinations

3, "Business Combinations", requires that consideration paid in excess of alue of assets acquired be held in the balance sheet. As opposed to this ce all being deemed to be goodwill as was the case under UK GAAP, assets meet the definition of an intangible asset (i.e. assets that are '

ifiable non-monetary assets without physical substance') must be
ified, recognised separately from goodwill and amortised over the
to which benefits from such assets relate.

e with IFRS 1, "First time adoption", the Group has decided not to
e, for the requirements of IFRS 3, business combinations and goodwill that
prior to its date of transition to IFRS on 1 November 2004.

ew of material acquisitions made by the Group since 1 November 2004 for
that meet the definition of an intangible asset to be recognised under
has identified the following:

ngible Asset	Value under UK GAAP	Value re-stated under IFRS	Amortisation in 2005	Amortisation basis
ll	£68.9m	£60.9m	-	Not amortised
	-	£3.8m	£0.1m	10 years
er lists	-	£1.7m	£0.3m	3 years
book at sition	-	£2.6m	£1.5m	Period to departure
	£68.9m	£68.9m	£1.9m	-

gh a number of intangible assets have been identified, the amortisation
for these assets that has been recognised on acquisitions made during the
s not considered to be significant, being just 1.7% of headline profit
tax (£1.9m / £115.0m). The annualised amortisation charge on these assets
e around £2.4m, approximately 2.1% of the 2005 headline profit before tax
/ £115.0m). This is significantly lower than the amortisation on
ll that was previously charged under UK GAAP of £24.9m (Note 6; Annual
& Accounts 2005), which was 21.8% of headline profit before tax (£24.9m /
m).

the Group believes that the valuation and subsequent amortisation of
gible assets will not have a sizable impact on the income statement, the
amortisation charge going forward is extremely difficult to forecast
ately. The valuation of brand names of travel companies, whilst not
dered to be a significant proportion of the value of the majority of travel
esses, will vary in value from entity to entity, as will the value of
er listings. The valuation of the order book at acquisition date will
e dependent on the travel season in which acquisition occurs, and no
ate expectation of the quantum of any intangible asset can be made until
sition contracts become finalised.

IFRS 5 - Assets Held For Sale

5, "Non-current Assets Held for Sale and Discontinued Operations", requires
non-current assets meeting the following four criteria should be classified
sets held for sale:

There is a firm commitment to sell the asset.
The asset is being actively marketed.
The asset is available for immediate sale.
There is an expectation that the sale will occur within 1 year.

andard is applicable for accounting periods beginning on or after 1
y 2005. The Group has decided to early adopt the requirements of this
rd from 1 November 2004, the date of transition to IFRS.

affected by this across the Group are boats, yachts, properties and fonds
merce (leases held over the operation of properties in France).
ingly, re-classifications of £5.6m at 30 April 2005 and £9.0m at 31
r 2005 (31 October 2004: £2.1m) have been made in the IFRS balance sheet
roperty, plant and equipment to current assets. These assets are stated at
wer of book value and fair value less costs to sell.

IFRS 5, depreciation of these assets ceases from the date at which assets
emed to be held for sale. This has improved the Group's underlying profit
2m in the year ending 31 October 2005, with a £0.1m improvement in both
rst half and second half of the year.

IAS 38 - Intangible Assets

IAS 38, "Intangible Assets", computer software that is 'not an integral
f the related hardware' should be separated out from other computer
re and classed as an intangible asset. This is a change from the current
ch under UK GAAP where all computer software is classed as a tangible
asset. A review has been performed to assess the impact of this across
oup and the relevant reclassifications of £11.6m and £13.0m from property,
and equipment to intangible assets have been made in the IFRS balance
at 30 April and 31 October 2005 respectively (31 October 2004: £10.4m).

income statement, amortisation is now charged on computer software under
s opposed to depreciation under UK GAAP. This will have no impact on
before tax for the Group.

IAS 17 - Leases

e lease obligations due in less than one year of £19.4m at 30 April 2005
6.4m at 31 October 2005 (Note 17; Annual Report & Accounts 2005) have been
ssified from trade and other payables under UK GAAP to current interest
g liabilities under IFRS.

e lease obligations due in greater than one year of £3.8m at 30 April 2005
.5m at 31 October 2005 (Note 18; Annual Report & Accounts 2005) have been
ssified from creditors due in greater than one year under UK GAAP to
rrent interest bearing liabilities under IFRS.

IAS 1 - Assets due to be received / liabilities due to be paid in greater ne year

oup has previously classified accommodation prepayments paid more than one n advance as current debtors. IAS 1, "Presentation of Financial ents", states four criteria by reference to which an item may be fied as a current asset. Having reviewed these criteria, such prepayments re appropriately classified as non-current assets.

ingly, £52.5m and £52.3m have been re-classified as non-current assets at il and 31 October 2005 respectively (31 October 2004: £38.7m).

oup has also previously disclosed all aircraft maintenance provisions as non-current liabilities. Again having reviewed the criteria of IAS 1, it e appropriate to classify some of these provisions as current liabilities.

ingly, £18.4m and £21.3m have been re-classified as current liabilities at il and 31 October 2005 respectively (31 October 2004: £14.8m).

IAS 19 - Employee Benefits (Disclosure of cost of employee pension s)

usly, under UK GAAP, all pension costs have been charged as cost of sales h the Group income statement. This is in accordance with the requirements P 24.

ing an option given in IAS 19, in order to give the most beneficial ation to users of the financial statements, the Group has disclosed the st cost on defined benefit pension schemes (defined by IAS 19 as 'the se during a period in the present value of a defined benefit obligation') interest expense. The return on plan assets of defined benefit pension s attained during the financial year has also been re-classified as st income.

ingly, the following adjustments have been made to the Group income ent:

r the six months to 30 April 2005, the return on plan assets during the riod of £1.5m and the interest cost on defined benefit pension obligations £1.9m have been re-classified as interest income and expense spectively.

r the year ended 31 October 2005, the return on plan assets during the ar of £3.0m and the interest cost on defined benefit pension obligations £3.8m have been re-classified as interest income and expense spectively.

ACT OF IFRS AT 1 NOVEMBER 2004

roup has calculated that at the date of transition to IFRS, 1 November net assets were reduced by £61.3m (12.6%). The most significant changes balance sheet values are:

increase in net assets of £19.4m as the 2004 final dividend had not een approved at the date of transition, 1 November 2004, and therefore will ot be included in the balance sheet as a creditor at that date.

reduction of net assets by £30.8m for bringing the deficit on defined enefit pension schemes onto the balance sheet.

reduction in net assets of £69.9 million in respect of the timing of ecognition of costs associated with the provision of holidays (including rochure costs) that were recognised under UK GAAP when the associated evenue was accounted for, but which must be expensed as incurred under RS.

increase in net assets of £27.7m due to the implementation of IAS 12, " ncome Taxes", and the tax effect of adjustments to the balance sheet.

eduction in net assets of £61.3m has increased by £5.3m from the £56.0m ion as set out in the Group's previous IFRS press release of 26 October

dated IFRS Group balance sheet at the date of transition, 1 November 2004, found on the First Choice Holidays PLC website rstchoiceholidaysplc.com.

S BALANCE SHEET AT 1 NOVEMBER 2005 AS RE-STATED FOR THE REQUIREMENTS OF AND IAS 39

roup is required to implement IAS 32, "Financial Instruments: Disclosure esentation", and IAS 39, "Financial Instruments: Recognition and ement" at 1 November 2005. The introduction of these standards will not the Group's hedging strategy.

lance sheet at 1 November 2005 has been re-stated to incorporate the ements of these IFRS. Two significant adjustments have been made which mmarised below:

air valuation of derivative financial instruments

and IAS 39 require that all derivative financial instruments are carried balance sheet at fair value. These financial instruments are be marked ket at each reporting date with movements in fair value taken through the statement unless strict requirements relating to hedge accounting are Processes and controls are already in place throughout the Group to ensure he detailed requirements of these standards are adhered to.

ovember 2005, the impact of these changes on the IFRS Group balance sheet follows:

ir value of derivative financial assets now recognised on the balance eet is £23.0m.

ir value of derivative financial liabilities now recognised on the lance sheet is £18.9m.

realised fair value gains included within the hedging reserve are £4.1m ote 22; 2005 Annual Report & Accounts).

aluation of monetary items at a spot exchange rate

and IAS 39 require that monetary items (e.g. cash, debtors, accounts e) that are denominated in a currency other than an individual entities ing currency should be translated at the spot rate at the balance sheet

usinesses within the Group already translate at the closing spot exchange t each reporting date. Re-translation of such items is however required e business units where assets and liabilities have previously been ated at the contracted rate, in accordance with UK GAAP. The impact of hange is to increase net assets by £8.7m at 1 November 2005.

pact of these two adjustments is to increase net assets by £12.8m. An ated deferred tax liability of £3.9m is also recognised, giving an se to net assets of £8.9m.

reconciliation showing the impact of these adjustments on the IFRS Group e sheet at 1 November 2005 can be found on the First Choice Holidays PLC e www.firstchoiceholidaysplc.com.

FIRST CHOICE HOLIDAYS PLC (FIRST CHOICE)

COMPLETION OF ACQUISITION OF INTRAV, INC. (INTRAV)
FROM KUONI HOLDING DELAWARE, INC.

First Choice has completed the acquisition of INTRAV from Kuoni Holding Delaware, Inc. for a total consideration of £36m (US$63.5m). INTRAV is a US based leisure travel group specialising in small ship adventure travel, European river cruises, private jet expeditions and premium escorted tours worldwide.

As part of the acquisition, First Choice acquired four ships, two high specification expedition cruise ships and two coastal cruising ships and in its announcement on 8 December 2005 First Choice stated that it was in discussion to sell the two US coastal cruising ships. The Group is pleased to announce that it has also completed the sale of the two coastal cruising ships to Cruise West, a US family owned small-ship cruise line for £9.5m ($16.5m). This gives a net consideration, therefore, of £26.6m ($47m).

The two ships that First Choice is retaining have a market value of £17m ($30m) and generated revenues of £13.8m ($24.3m) in the twelve months to 31 December 2005. The INTRAV, premium escorted tours business, including European river cruises and private jet expeditions generated revenues of £15.9m ($28.1m).

Commenting on the completion of the acquisition, Peter Long, Chief Executive said:

"I am delighted that we have completed the acquisition. Having acquired the Grand Expeditions group of companies in December, the premium escorted tours business of INTRAV fits perfectly within this portfolio and will benefit from being a part of it. The expedition cruise market is also a key growth area for us and we will now be able to maximise the opportunities that these high specification expedition cruise ships provide us with."

TUI Travel PLC– Rule 12g3-2(b) Exemption

APPENDIX A2: RNS ANNOUNCEMENTS

TUI AG

2001 DEC 17 P 12:24

Declaration of compliance for 2007 with respect to the German Corporate Governance Code

'In accordance with section 161 of the German Stock Corporation Act, the Executive Board and Supervisory Board of TUI AG hereby declare: The recommendations of the Government Commission on the German Corporate Governance Code in the version of 12 June 2006, as published by the Federal Ministry of Justice in the official section of the electronic Federal Gazette on 24 July 2006, have been and are fully complied with.

TUI AG will additionally fully comply with the recommendations of the Government Commission on the German Corporate Governance Code in its currently valid version of 14 June 2007, as published by the Federal Ministry of Justice on 20 July 2007.

In addition, TUI AG also complies almost completely with the majority of the suggestions set out in the Code, currently with the exception of the introduction of different periods of office for the shareholders' representatives in the Supervisory Board.

Hanover, November 2007

Executive Board and Supervisory Board'

CHARTER

of

TUI AG

with registered seats in
Berlin and Hannover

(Federal Republic of Germany)

Wording of 16th May 2007

General Provisions

Article 1

(1) The name of the Company is **"TUI AG"**.

(2) The Company has registered seats in Berlin and Hannover.

Article 2

(1) The duration of life of the Company is not limited to a set period.

(2) The business year is the calendar year; the period 1 October 2000 to 31 December 2000 comprises a short year.

Article 3

(1) The object of the company is to engage on a commercial basis in tourism and shipping (including all associated services and project developments), the acquisition of interests in enterprises active in tour operating, commercial air transportation, passenger and freight shipping (in particular container shipping) as well as the container transport business, the hotel industry, the leisure industry, in travel agents as well as other services, namely in its own facilities or in facilities of affiliated companies, as well as the bundling of affiliated companies under a centralised management.

(2) The Company is entitled to undertake all kinds of business and measures deemed necessary or expedient for achieving the purpose of the Company, in particular to establish or acquire other enterprises or to participate therein as well as to transfer its operations in total or in part to such enterprises, or put them into same, to establish branches at home and abroad, and also to conclude joint interest agreements and inter-company agreements.

Article 4

(1) The capital stock totals EUR 641,722,069.41 (in words: EURO six hundred and forty one million seven hundred and twenty two thousand sixty nine, and forty one Cents).

(2) The share capital is divided into 251,019,855 ordinary shares without par value (no-par value shares).

(3) The shares are registered shares.

(4) The Executive Board shall be authorised, with the consent of the Supervisory Board, to raise the share capital of the Company in one or more stages until 17 May 2009 by up to EUR 7,319,398.93 (in words: EURO seven million three hundred and nineteen thousand three hundred and ninety eight, and ninety three Cents) by issuing registered shares in return for contributions in cash (authorised capital) and further to decide as to the content of the shares and the terms of share issuance. The shareholders' subscription rights can be excluded in order to be able to issue the shares created from the authorised capital to employees of the company and of its Group member companies.

(5) The Executive Board is authorised, with the consent of the Supervisory Board, to raise the share capital in one or more stages until 9 May 2011 by up to EUR 64,000,000.00 (in words: EURO sixty four million) by issuing new registered shares in return for contributions in cash. The shareholders are to be granted subscription rights on first principles. The shares may also be acquired by one or several banks, with the conditional obligation that the shares are offered to shareholders for subscription. The Executive Board, with the consent of the Supervisory Board, is also authorised to exclude shareholders' subscription rights if the issue amount of the new shares is not significantly lower than the market price for those shares with the same terms which have already been issued.

The number of the new shares, together with the shares issued or sold during the term of this authorisation, and up to the time of its utilisation on the basis of an authorisation to sell pursuant to Section 71 Para. 1 No. 8 Sentence 5, and Section 186 Para. 3 Sentence 4 German Stock Corporation Act (AktG), may not exceed a limit of 10 % of the share capital as set out in Section 186 Para. 3 Sentence 4 AktG. For the purpose of this limitation, shares are to be taken into account which were issued or are to be issued on the basis of bonds with conversion or option rights issued at the time of utilisation pursuant to Section 186 Para. 3 Sentence 4 AktG. The Executive board is also authorised, with the consent of the Supervisory Board, to exclude shareholders' subscription rights in the case of possible peak yields. The Executive Board, with the approval of the Supervisory Board, is authorised to determine the further details of the increase in capital and its implementation.

(6) The share capital shall be conditionally raised by up to EUR 90,000,000.00 (in words: EURO ninety million) by issuing registered shares. The Conditional Capital increase shall be effected only to the extent that creditors of bonds with conversion rights or conversion obligations or holders of option rights issued by TUI AG or associated companies in which it holds a 100% direct or indirect interest until 18 June 2008 under the authorisation granted the Executive Board by the Annual General Meeting of 18 June 2003 exercise their conversion or option rights for registered shares of the Company or this is required to fulfil conversion obligations and provided that own shares are not used for servicing. The issue of the new shares takes place at the conversion or option price determined in each case in accordance with the aforementioned authorisation resolution. The new shares arising from the conditionally increased capital are entitled to dividends from the beginning of the business year in which they originate by the exercise of the conversion rights or options or the fulfilment of conversion obligations.

(7) The share capital shall be conditionally raised by up to EUR 100,000,000.00 (in words: EURO one hundred million) by issuing up to 39,116,600 registered shares with profit rights from the beginning of the fiscal year in which they were created. The conditional capital increase shall be effected only to the extent that creditors of bonds with conversion rights or conversion obligations or holders of option rights (or combinations thereof) issued by the company or Group companies until 9 May 2011 under the authorisation granted the Executive Board by the Annual General Meeting of 10 May 2006 for cash exercise their conversion or option rights or if this is required to fulfil conversion obligations and provided that own shares are not used for servicing. The Executive Board, with the approval of the Supervisory Board, is also authorised to determine the further details of the conditional increase in capital and its implementation.

(8) The executive board is authorised, with the approval of the supervisory board, to increase the share capital of the company once or several times until 9 May 2011 by issuing new registered shares in return for contributions in cash or in kind by an amount not to exceed EUR 246,000,000.00 (in words: EURO two hundred forty six million). The shareholders are to be granted subscription rights on first principles. The Executive Board is, however, authorised, with the approval of the Supervisory Board, to exclude the shareholders' subscription rights to the extent necessary to grant subscription rights to the holders of conversion rights or option rights issued or to be issued in the future by TUI AG or its subsidiaries as they would be entitled to after the exercise of the conversion or option rights or after performance of conversion obligations. Furthermore, peak yields can also be excluded from shareholders' subscription rights. In addition, the Executive Board, with the approval of the Supervisory Board, is also authorised to exclude shareholders' subscription rights to the extent that the increase in capital is made in exchange for subscriptions in kind

which serve the acquisition of participations in whole or in part of enterprises or the acquisition of an interest in such enterprises or other economic assets. In the case that the increase in capital is made in exchange of subscriptions in kind the Executive Board is only entitled to exercise this authorisation to an amount equal to a maximum of 20 % of the share capital existing at the time of coming into effect of the authorisation or at the time of utilising the authorisation, whichever is the lower. The in-kind contribution increase is therefore limited to a maximum amount of EUR 128,000,000.00. The Executive Board is further authorised, with the approval of the Supervisory Board, to determine the further details of the increase in capital and its implementation.

Article 5

(1) The Company shall be entitled to issue dividend warrants and certificates of renewal.

(2) Form and content of the share certificates as well as those of the dividend warrants and certificates of renewal shall be determined by the Executive Board.

(3) The Company is entitled to issue registered share documents incorporating one or several shares. The shareholders' right to have their shares confirmed in share certificates is excluded.

(4) In the event of a share capital increase, the profit sharing of the new shares issued may be regulated in a manner divergent from the provisions of the Stock Corporation Act (Aktiengesetz).

Article 6

Official announcements issued by the Company shall be published in the electronic Bundesanzeiger.

Corporate Bodies

Article 7

The Corporate Bodies are:

1. the Executive Board (Vorstand),
2. the Supervisory Board (Aufsichtsrat),
3. the General Meeting (Hauptversammlung).

Executive Board

Article 8

(1) The Executive Board shall consist of several members, including a board member who is responsible for personnel and welfare matters (Arbeitsdirektor). The appointment of deputy board members is permissible.

(2) Appointment to and removal from the Executive Board is effected by the Supervisory Board. The Supervisory Board also decides the number of members of the Executive Board.

Article 9

(1) The Executive Board shall direct the business of the Company in accordance with the laws and the Charter, as well as abiding by the rules of procedure issued to it by the Supervisory Board.

(2) The Supervisory Board may appoint a chairman and one or more deputy chairmen to the Executive Board.

Article 10

(1) The Company shall be legally represented by two members of the Executive Board or by a member of the Executive Board in conjunction with an authorised executive (Prokurist).

(2) The authorisation as an executive shall be conferred by the Executive Board with approval of the Supervisory Board in such a manner that the authorised executive will be empowered to represent the Company jointly with a member of the Executive Board or with another authorised executive.

Supervisory Board

Article 11

(1) The Supervisory Board shall consist of 20 members. The members of the Supervisory Board shall be elected by the General Meeting for a period of five years of office; the period of office will end with the closing of the fifth General Meeting following the election. The election of worker representatives to the Supervisory Board shall be governed by the provisions of the law concerning worker participation in management (Mitbestimmungsgesetz); they shall be elected for the same term of office as those members of the Supervisory Board who are elected by the General Meeting. Retiring members are eligible for re-election.

(2) Each member of the Supervisory Board may resign at any time, even without important reasons, by declaring his intention to do so to the chairman of the Supervisory Board. Any public official who has been elected to become a member of the Supervisory Board shall on termination of the period of such public office forfeit his seat on the board at the closing of the next General or Extraordinary Meeting which follows such termination.

(3) If any member of the Supervisory Board withdraws from the board before his term of office ends and an election is held to replace him, the period of office of the newly elected member is limited to the remainder of the term of the retiring member, unless decided otherwise by the General Meeting.

Article 12

(1) The Supervisory Board, at a meeting which convenes without special arrangement after the General Meeting in which the election took place, elects the chairman and the deputy chairman from amongst its numbers. They form the steering committee of the Supervisory Board, together with the two members who complete the committee in accordance with section 27, paragraph 3 of the Mitbestimmungsgesetz (the law governing worker participation in management), and together with two further members to be elected by the Supervisory Board from the representatives of the shareholders and the employees.

(2) Should a member of the steering committee retire before the normal date of termination of office, the Supervisory Board shall immediately arrange for a new election.

Article 13

(1) As prescribed by law, the Supervisory Board shall supervise the business management as conducted by the Executive Board.

(2) All matters which the Executive Board intends to raise at the General Meeting shall be submitted to the Supervisory Board beforehand.

Article 14

Any meeting of the Supervisory Board shall be convened by due notice in writing by its chairman or by the Executive Board acting on his instructions, indicating the agenda, place and time of the meeting. In urgent cases, convening may be verbally, by telephone, or by cable.

Article 15

(1) The Supervisory Board shall constitute a quorum, if all members have been invited and if at least half of the members constituting the Supervisory Board, including the chairman or his deputy, take part in the vote.

(2) A member of the Supervisory Board who is unable to attend a board meeting is entitled, on certain items of the agenda, to submit his vote in writing through another member of the Supervisory Board.

(3) Resolutions shall be adopted by a simple majority of the votes cast, unless the law compels another form of majority decision. In the event of voting parity, each member of the Supervisory Board has the right to demand a recasting of the vote during the same sitting. In this event, the chairman of the Supervisory Board has two votes, should there also be voting parity in this second vote.

(4) The method of voting shall be determined by the chairman.

(5) Minutes shall be kept of the discussions held and of resolutions passed by the Supervisory Board. These minutes shall be signed by the chairman.

Article 16

(1) The Supervisory Board may also pass resolutions by written, telegraphic or telephone votes or by votes cast by fax or e-mail if the chairman of the board so directs.

(2) The provisions for verbal voting shall be applied accordingly.

Article 17

Acts of the Supervisory Board shall be made in its name by the chairman of the Supervisory Board.

Article 18

1. Apart from reimbursement of their expenses, which also include the turnover tax due on their emoluments, the members of the supervisory board shall each receive:

   a) fixed remuneration payable at the end of the fiscal year totalling EUR 40,000.00;

   b) a variable remuneration reflecting short-term successes of the company (short term variable remuneration) of EUR 100.00 per EUR 0.01 of the results per share (profit per share) as reported in the Group financial statements for the fiscal year ended; the profit per share shall be determined as the ratio of the Group annual profit to which the TUI AG shareholders are entitled and the number of dividend entitled shares at the end of the fiscal year;

   (c) Remuneration oriented to the long term success of the company (long term variable remuneration). The long term variable remuneration comprises a reference amount of EUR 20,000.00 per year, and shall be granted for the ongoing financial year – starting with the 2006 financial year. This reference amount is paid out at the end of the third year after it was granted and is increased or reduced by the extent to which the profit per share in the third financial year after it was granted has changed with respect to the financial year in which it was originally granted. Accordingly, a change in profit per share of EUR 0.01 corresponds to an increase or decrease of EUR 100.00 in the reference amount. The amount actually paid shall never exceed the reference amount by more than 250 %.

Should a member step down from the Supervisory Board before the end of the reference period, the long term variable remuneration shall be based in said case on the profit per share in the financial year in which the member steps down.

c) The amounts pursuant to subsections 1 (b) and (c) shall be payable after conclusion of the annual general meeting responsible for passing the resolution to release the supervisory board from responsibility for the respectively ending fiscal year.

2. The chairman of the supervisory board shall receive three times the above amount, his deputy and other members of the executive committee shall receive one and a half times the remuneration as specified in subsections (a) through (c).

3. Members of the audit committee shall receive in addition to their remuneration per subsections 1 (a) through (c) an additional amount of EUR 20,000.00 after end of the fiscal year, the chairman of the audit committee shall receive three times this remuneration.

4. The remuneration is in all cases with reference to a full fiscal year. Parts of a fiscal year or short fiscal years shall receive remuneration proportionately. In the case of short fiscal years the ratio shall be ensured by determining suitable adapted values.

5. Members of the supervisory board shall be included in any D&O insurance taken out by the company to a reasonable amount in the interest of the company covering organs and certain managers in so far as such insurance exists. The premium shall be settled by the company.

General Meeting

Article 19

The General Meeting of the Company shall be held within the first eight months of the business year in Berlin or in Hannover, or another town which is the seat of a stock exchange, within the Federal Republic of Germany.

Article 20

The Annual General Meeting shall, unless a shorter period of notice is allowed under law, be convened at least 30 days before the last day on which shareholders must have registered their intention to attend.

Article 21

(1) Only shareholders whose names are entered in the share register and who were registered in good time shall be entitled to attend the Annual General Meeting and exercise their voting right.

(2) Registration to attend shall be addressed to the Executive Board at Company HQ or to some other office named in the invitation in writing, by fax, or, if so resolved by the Executive Board, by some electronic means to be specified by the Executive Board to arrive by the latest on the seventh day before the Annual General Meeting. No deletions and new entries shall be made to the share register on the day of the Annual General Meeting nor in the six days prior thereto.

(3) Those shareholders entitled shall be issued with tickets to attend the Annual General Meeting.

(4) Shareholders can appoint a proxy of their choice to exercise their voting rights.

(5) The Company appoints one or more proxies to exercise the voting rights of shareholders in accordance with their instructions. Proxies issued to the Company proxy can be given in writing, by fax, or via an electronic medium in a form to be defined in more detail by the Executive Board. Details, especially on the form and deadlines for the issuance and cancellation of proxies shall be published together with the annual general meeting convening notice.

(6) The Company is authorised to transmit information to the shareholders as part of data transmission pursuant to Section 30b Para. 3 No. 1 WpHG (German Securities Trading Act).

Article 22

(1) The chair at the General Meeting shall be taken by the chairman of the Supervisory Board, or if he is unable to attend, by a member who is elected for this purpose by a majority of the shareholder-elected members of the Supervisory Board.

(2) The chairman, in terms of paragraph (1) above, shall regulate the proceedings and determine the sequence of subjects for discussion on the agenda, as well as the method of voting. The chairman is empowered to apply reasonable time restrictions to the question and answer rights of shareholders and in particular, at the start of the annual general meeting or during its course, to specify a reasonable framework of time allowances for the entire proceedings of the annual general meeting, for the individual points on the agenda or for individual question and answer contributions.

Article 23

(1) The resolutions of the General Meeting shall be passed by a simple majority of the votes cast, provided that a larger majority is not prescribed by law. In cases of voting parity, the motion is deemed to be rejected.

(2) If in elections none of the candidates obtain the majority of the votes cast, there will be a second ballot between the two candidates with the largest number of votes. In the event of voting parity, the election will be decided by lot.

(3) Each share carries the entitlement to one vote at the General Meeting.

Final Provision

Article 24

The Supervisory Board is once and for all authorised to resolve changes of and amendments to the Charter, in as far as the wording only is affected.

This is to certify that the foregoing translation into English gives the true meaning of the original German text before me.

Hannover,

TUI
Aktiengesellschaft

RECEIVED
2007 DEC 17 P 12:24

Disclosure pursuant to section 26, para. 1 of the German Securities Trading Act (WpHG)

Brierly Gardens Investments Limited (managing director: Hamed El Chiaty), Limassol, Cyprus, has informed us that its voting rights in TUI AG, Hanover, exceeded the threshold of 3% of 30 April 2007 and accounted for 4.00% (10,040,600 voting shares) at that date.

Declaration of compliance for 2006 with respect to the German Corporate Governance Code

'In accordance with section 161 of the German Stock Corporation Act, the Executive Board and Supervisory Board of TUI AG hereby declare: The recommendations of the Government Commission on the German Corporate Governance Code in the version of 2 June 2005, as published by the Federal Ministry of Justice in the official section of the electronic Federal Gazette on 21 July 2005, have been and are fully complied with.

TUI AG will additionally fully comply with the recommendations of the Government Commission on the German Corporate Governance Code in its currently valid version of 12 June 2006, as published by the Federal Ministry of Justice on 24 July 2006.

In addition, TUI AG also complies almost completely with the majority of the suggestions set out in the Code, currently with the exception for the formation of further committees and the introduction of different periods of office for the shareholders' representatives in the Supervisory Board.

Hanover,
December 2006
TUI AG

Executive Board and Supervisory Board'

TUI
Aktiengesellschaft

Disclosure pursuant to section 25 para. 1 of the German Securities Trading Act (WpHG):

Caja de Ahorros del Mediterráneo, Avenida Oscar Esplá 37, Alicante 03007, Spain, has notified us as follows in its own name and at the same time, pursuant to section 24 of the German Securities Trading Act, in the name and on behalf of Inversiones Cotizadas del Mediterráneo, S. L., Avenida Oscar Esplá 37, Alicante 03007, Spain, in accordance with sections 21 and 22 of the German Securities Trading Act:

1. With effect from 1st December 2005, Caja de Ahorros del Mediterráneo ceases to directly hold the 5.00% of the voting rights previously directly held in TUI AG, Berlin/Hanover. Following the contribution of its shareholding in TUI AG to the company mentioned under item 2 below, its shareholding in TUI AG is now only held indirectly. Thus, Caja de Ahorros del Mediterráneo is entitled to 5.00% of the voting rights in TUI AG, attributable to the company in accordance with section 22 para. 1 sentence 1 no. 1 of the German Securities Trading Act.

2. With effect from 1st December 2005, the share of the voting rights of Inversiones Cotizadas del Mediterráneo, S. L. in TUI AG, Berlin/Hanover, has exceeded the threshold of 5%. The company holds a 5.00% share of the voting rights.

If you would like to receive shareholder documentation in the traditional paper form, please tick the box against option 3 on the slip below and return it in the pre-paid envelope to Equiniti Limited, Aspect House, Spencer Road, Lancing, West Sussex BN99 6DA. If you do not return the slip by 23 October 2007, we will assume that you have consented to website publication of shareholder documentation and you will no longer receive hard copies in the post.

Further information

Further information about your options is included on the back of this letter.

You should note that the Company reserves the right, irrespective of your election, to revert to sending hard copy documentation by post, whenever it considers it necessary or desirable to do so.

By taking advantage of electronic communications, shareholders will help the Company not only to reduce printing and mailing costs but also to reduce the impact of those activities on the environment.

Yours faithfully

Andrew John
Company Secretary

Shareholder Communications – *More Information*

Why are we being given this choice?
The Companies Act 2006 included new provisions regarding shareholder communications. These came into force on 20 January 2007, and allow us to offer you a choice in how we communicate with you.

What are the options?
You can choose to receive shareholder documentation electronically or in the traditional paper format.
If you do not specifically elect to receive shareholder documentation in paper format we will contact you via e-mail or by letter to let you know that a shareholder document is available to view on www.tuitravelplc.com.

What action do I need to take?

- **View shareholder information on www.tuitravelplc.com**
  If you are happy to view shareholder documentation in this way, the Company will send you a notification whenever shareholder documents are available to view on the website. The notice will include full details of any software or technical requirements necessary to access the documentation. You can choose to have notifications sent by email by registering online at www.shareview.co.uk by 23 October 2007. Alternatively, if you would prefer to receive notifications in hard copy form through the post, you do not need to take any further action.

- **Receive hard copies of shareholder information by post.**
  To receive shareholder documentation in this way, you must complete and return the attached slip by 23 October 2007. Otherwise, your consent will be deemed to have been given to the Company sending or supplying the documents by means of its website www.tuitravelplc.com and you will only receive notifications by post as described in the paragraph above.

Do I need to return the slip whatever option I choose?
You need only return the slip if you would like to receive shareholder information in the traditional paper format.

What if I choose electronic communications but want a paper version of something?
You have the right to request, at no extra charge, hard copy versions of shareholder documentation.

Can I change my mind?
Your election and contact details will stand until you tell us otherwise. You can change your selection by writing to us at Equiniti Limited, Aspect House, Spencer Road, Lancing, West Sussex BN99 6DA.

Why should I reply?
These arrangements will ensure that if you prefer to receive your documents in paper format then you can do so, whilst enabling us to take advantage of the environmental and cost benefits arising from reduced paper usage, printing and distribution.

What happens if I do not do anything?
If you do not return the attached slip then shareholder documentation will not be sent to you directly, but instead will be available for you to review on the Company's website www.tuitravelplc.com. You will receive hard copy notifications of the publication of any documents unless you register online at www.shareview.co.uk to receive e-mail notification.

Are there any exceptions to electronic communications?
If we are required to restrict the sending of any documents or information to any shareholder due to local laws of the jurisdiction in which you are resident or located, and, as a result, we are not permitted to use electronic means to communicate with shareholders, we will send you hard copies of the documents or information.

In addition, the Company reserves the right, irrespective of your election, to revert to sending hard copy documentation by post, whenever it considers it necessary or desirable to do so.

Additional Information:
The Company's Reports and Accounts and AGM documents will be available for viewing approximately one month before the scheduled Annual General Meeting each year.

↓ Please detach your form carefully along the perforated line ↓

Online Communications: Additional Information

The Company's Reports & Accounts and AGM documents will be available for viewing approximately one month before the scheduled Annual General Meeting each year.

Guidance Notes
If we are required to restrict the sending of any documents or information to any shareholder due to local laws of the jurisdiction in which you are resident or located, and, as a result, we are not permitted to use electronic means to communicate with shareholders, we will send you hard copies of the documents or information.

Please note that if you do not return this form by 23 October 2007 then shareholder documents or information will not be sent directly to you, but instead will be available for you to review following their publication on the Company's website www.tuitravelplc.com.

You can change your instructions at any time by writing to **Equiniti Limited, Aspect House, Spencer Road, Lancing, West Sussex BN99 6DA.**

You can request a paper copy of any document at any time by writing to the Company Secretary. It will be sent to you within 21 days and free of charge.

TUI Travel PLC

25 September 2007

To: THE HOLDERS OF ORDINARY SHARES AND, FOR INFORMATION ONLY, THE PARTICIPANTS IN THE COMPANY'S EMPLOYEE SHARE SCHEMES

Dear Shareholder

Dividend Reinvestment Plan

TUI Travel PLC
First Choice House,
London Road, Crawley,
West Sussex RH10 9GX.

Tel: +44 (0)1293 560777
Fax: +44 (0)1293 588680
www.tuitravelplc.com

Following the successful merger of First Choice Holidays PLC and TUI AG's Tourism Division, excluding certain hotel assets, on 3 September 2007 and the cancellation by First Choice Holidays PLC of its Dividend Reinvestment Plan, the Directors have decided to offer holders of ordinary shares the opportunity to elect to take part in the TUI Travel PLC Dividend Reinvestment Plan (the "TUI Travel Plan").

The TUI Travel Plan is a dealing facility which enables those TUI Travel shareholders who are entitled to dividends to which the TUI Travel Plan applies, to invest cash dividends received in purchasing further TUI Travel ordinary shares. The TUI Travel Plan is administered by Equiniti Financial Services Limited.

The terms and conditions of the TUI Travel Plan are described fully in the enclosed booklet.

If you are in any doubt about how your tax position will be affected should you choose to join the TUI Travel Plan, you should consult your own financial adviser before taking any action.

Action to be taken

If you wish to receive the whole of your dividends in cash, you need take no further action.

If you wish to participate in the TUI Travel Plan, you should complete the enclosed Form of Mandate in accordance with the instructions on the Form and return it to Equiniti Financial Services Limited. If you have any queries concerning the Form of Mandate or the TUI Travel Plan, please contact Equiniti Financial Services Limited on 0870 241 3018.

Yours faithfully

TUI Travel PLC

EQUINITI

The Dividend Reinvestment Plan is a convenient easy and cost effective way to build your shareholding in TUI Travel.

Making your plan work

Risk warnings

If you make an investment under this plan it's in just one company. So you should think of it as one part of a balanced portfolio. It's important to remember that the price and value of any investment can go down as well as up. That's also true of any income that might come from it. So you might get back less than you invested. The way an investment has performed in the past doesn't tell you how it will perform in the future. You should not interpret the information in this booklet as a recommendation by the Company or us to buy or hold shares in the Company. It's your decision. If you're not sure whether this investment is right for you, you should talk to an authorised financial adviser.

Special information

How much does it cost?

- There's a charge of 0.5% of the value of the shares you buy, and there's no minimum fee.
- You have to pay Stamp Duty Reserve Tax, which is currently 0.5% of the value of the shares you buy.
- There's no charge for joining or leaving the plan.

Who can join?

UK shareholders – you can join the plan if you live in the UK. Overseas shareholders – please see paragraph 3 of the terms and conditions. You're responsible for checking that you can join.

How do I join?

Simply complete and return the application form enclosed with this booklet.

If you have any questions just call our helpline on 0870 241 3018.

What happens to any money left over?

If after we've bought your shares there's a small amount of cash left – but it's not enough to buy one share – we'll look after it and add it to your next dividend. If you leave the plan, we'll send you any remaining cash as soon as possible. Look at paragraph 7 of the terms and conditions for more information.

Can I cancel the plan?

You can leave the plan at any time. You'll find more details in paragraph 12 of the terms and conditions.

What are the deadlines for joining and leaving the plan?

We need to receive your application or cancellation request at least 10 working days before the date of the next dividend payment date.

If you have any questions about the information in this booklet just call our helpline on **0870 241 3018**.

Terms and Conditions

Your Plan is provided by Equiniti Financial Services Limited, which is authorised and regulated by the Financial Services Authority of 25 The North Colonnade, Canary Wharf, London E14 5HS, and is on the FSA register under reference 468631. The main business of Equiniti Financial Services Limited is investment and general insurance services. Our registered office is in the UK at Aspect House, Spencer Road, Lancing, West Sussex BN99 6DA. Registered in England and Wales, number 06208699.

1 About the agreement between us

Once we accept your instruction to take part in the Plan, this booklet and these terms and conditions and your instruction will together constitute a binding agreement between you and us. Under the agreement, we will:

- collect the dividends paid on your shares in the Plan
- use your dividends to buy additional shares for you
- send you a detailed statement following each dividend showing details of the purchase.

This is an execution only service. We will carry out your instructions to buy shares. We will not offer or give any advice on the merits of your instructions or purchases. We will not assess the suitability of purchases made for you or other services provided under the Plan and you do not benefit from the rules of the Financial Services Authority on assessing suitability.

2 Definitions

Under the agreement between us, the following words have particular meanings:

- **Plan** means this dividend reinvestment plan
- **you, your** means
  - the personal investor or corporate body who signs the application form

  or
  - if more than one person signs, the joint holders jointly and severally and/or
  - your personal representatives
- **we, our, us** means Equiniti Financial Services Limited. It also includes any company to which we may transfer our rights and obligations in accordance with paragraph 14
- **the Equiniti Group** means Equiniti Financial Services Limited, its subsidiaries and parent companies and any subsidiary of any of its parent companies
- **the Company** means the company named in this booklet
- **shares** means ordinary shares in the Company
- **Special Information** means the special features applying to the Plan that are set out in this booklet and are part of these terms and conditions
- **FSA and FSA rules** mean respectively, the Financial Services Authority and the rules made by the FSA, amended from time to time.

3 Eligibility to join the Plan

The decision to take part in the Plan is your responsibility.
You may participate in the Plan unless:

- you are a North American person, or
- you fall into one of the other excluded categories described here or in the Special Information.

A North American person here means:

- any citizen or resident of the USA or Canada, including the estate of any such person, or
- any corporation, partnership or other body created in or organised under the laws of the USA or Canada, or any political subdivision of either country, or
- any estate or trust whose income, regardless of its source, is subject to US federal or Canadian income tax.

References here to the USA or Canada include their territories, possessions and all areas subject to their jurisdiction.

If you are a citizen or resident of an overseas country other than the USA or Canada, you may take part in the Plan provided you are not subject to regulations that would oblige us or the Company to comply with any governmental or regulatory procedures or similar formalities. You are responsible for making sure you can validly take part and for complying with all necessary formalities. You should consult a professional adviser if you are in any doubt about:

- whether you need any government consents or to observe any other formalities, or
- whether you're prohibited from receiving shares instead of cash dividends.

4 Joining the Plan

Applications to join the Plan must reach us by the deadline given in the Special Information in order for the Plan to apply to the next dividend and then for subsequent dividends. Applications that miss the deadline will only be eligible for subsequent dividends.

We do not usually acknowledge receipt of applications.

We have the right to refuse an application. If your application is incomplete or incorrect and we are unable to get it corrected, we may have to return it without carrying out your instructions.

Once you join the Plan, all future dividends paid by the Company will automatically be reinvested for you through the purchase of additional shares until either you leave the Plan or we suspend or terminate the Plan.

5 Tax position

This is a summary of your tax position under current UK law and HM Revenue and Customs practice.

Please remember:

- this is only an outline of the tax position, not a comprehensive picture – your own tax treatment will depend on your individual circumstances
- it only covers the tax position for a shareholder resident in the UK
- the law and rules on tax can change from time to time
- you are responsible for paying any taxes attributable to your taking part in the Plan, including (but without being limited to) income tax and capital gains tax
- we are not liable for any taxes attributable to your taking part in the Plan
- we cannot give you financial or tax advice. If you have questions

or uncertainties, we strongly recommend you consult an authorised financial adviser.

Income tax

An individual shareholder is deemed to have paid income tax at the dividend ordinary rate of 10%. This is called the tax credit. If you pay income tax at the starting or at the basic rate, you will have no further tax to pay on the dividends.

If you are a higher rate taxpayer, you will have a further liability for tax. You cannot reclaim the tax credit.

Capital gains tax

To calculate your gain or loss for capital gains tax purposes when shares are sold, the base cost of shares bought on your behalf will be their purchase price, including the dealing charge and stamp duty.

6 Share purchases

6.1 The share purchases under the Plan will be transmitted by us to one of our approved entities for execution. There are currently more than ten approved entities and all of them have been selected by us because they have demonstrated that they have policies and procedures that enable them to deliver the best possible result for you, given the types of order and the market conditions involved. In particular, these entities will treat price and costs (total consideration) as the most important factors when dealing with or executing share purchases, although they may also take into account other factors such as speed, likelihood of execution and settlement, size or any other relevant considerations.

These approved entities will normally execute share purchases on a regulated market but may choose to use other execution venues (including off-exchange dealers) where this is advantageous. We will monitor the performance of these entities and periodically review our internal arrangements and policies for dealing with share purchases under the Plan with a view to achieving the best possible result for you. Further information about these internal arrangements and policies (including a full list of our approved entities) is available on request.

Share purchases made on your behalf may be aggregated with share purchases made for other participants in the Plan, and this may work to your disadvantage in relation to a particular order, compared with the price you would have paid if your purchase had been made on its own.

For all participants, shares may be bought in separate transactions and on different days, if need be. If it is necessary to buy shares at different prices, we will calculate an average price for all of them.

You will receive the maximum whole number of shares it is possible to buy for you using your cash dividend plus any cash balance from previous dividend payments minus the charges described in this booklet.

Shares will be bought for you as soon as practicable on or after the dividend payment date.

The shares bought for you under the Plan will be registered in your name and you will be sent a share certificate unless:

- your shares are held in the CREST system. In this case, the shares will be credited to your CREST account

or

- your shareholding is not registered in your own name but is held on your behalf (for instance, through a company sponsored nominee service). In this case, the arrangements for share issues will depend on the terms and conditions of that service.

We will send you a statement with full details of the share purchase no later than the first working day after we receive written confirmation that the purchase has been made. If applicable, we will also send you a share certificate.

6.2 Very occasionally, we may decide that, due to market conditions following a particular dividend, we are not able to purchase shares for you under the Plan within a reasonable time. In such a case, we may forward the amount of the dividend to you in cash. Alternatively, if the entity used by us to make the purchase recommends that it be given more time to complete the order, we may allow this.

7 Cash balances

The Special Information explains what will happen to:

- any cash balance that remains after shares have been bought for you, and
- any dividend money that's too little to buy one whole share.

You will not be paid interest on cash balances. We will keep any interest earned or any equivalent fee that the bank in question pays us.

All cash balances will be held by us as client money under the FSA rules and as follows:

- We will deposit the cash in the UK with an authorised bank.
- The bank will hold the cash on our behalf in a trust account separate to any account used to hold money belonging to us in our own right.
- We will not, however, be responsible for any acts or omissions of the bank.
- If the bank becomes insolvent, we will have a claim on behalf of our clients against the bank. If, however, the bank cannot repay all of its creditors, any shortfall may have to be shared pro rata between them.

The Special Information also describes how any cash balance will be treated if you leave the Plan or the Plan comes to an end.

If we are holding cash, whether client money or not, we may withdraw the cash and apply it towards paying fees, charges, and other sums due to us.

8 No third party rights

This agreement is only between you and us. It will not give any benefits to, nor be enforceable by, a third party.

9 Full and partial reinvestment

Usually you must participate in the Plan for all the shares in your account. But, if your shares are held for more than one beneficial owner, we may at our discretion allow you to reinvest the cash dividend on only part of your shareholding.

10 Partial sales and transfers of shares

If you sell or transfer some of your shares, your instructions will go on applying to your remaining shares.

11 The Plan charges

11.1 We will be entitled to the fees and charges set out in this booklet. We may review the amount and structure of the charges from time to time. We will give you 30 days' notice in writing before any change to the Plan's fees or charges comes into effect.

Charges, tax and any other duties will be deducted from the transaction. If the money to be invested, less any fees and charges, is too little to buy one whole share, no purchase will be made and you will not be charged. For more details please see the 'How much does it cost?' section of this booklet.

11.2 In addition to the charges outlined above, we receive fees from the Company sponsoring the service. The Company sponsors this service so that shareholders can benefit from the reduced charges available for bulk purchases, resulting from a number of shareholders' purchase instructions being dealt together. The fees are negotiated regularly with the Company, with the actual charge made to the Company reflecting the size, complexity and value of a particular scheme and our overall relationship with the Company. More information about these fees is available on request.

12 Cancelling or leaving the Plan

If you are a new customer, you have a right to cancel the Plan within 14 days of joining by sending us a letter stating that you wish to exercise your right to cancel. This must reach us within 14 days of your instruction to participate in the Plan reaching us.

Outside the cancellation period, you may leave the Plan at any time by sending us a letter stating that you no longer wish to participate.

If you do not want the Plan to apply to your next dividend, your letter must reach us by the deadline set out in the Special Information.

Cancelling or leaving the Plan will not prevent the completion of any transactions already underway. The normal charges will be made for these transactions.

Unless you tell us otherwise, any existing instruction you've given us to pay your cash dividends to a bank, building society or third party will carry on.

If we receive notification of a shareholder's death, mental incapacity, bankruptcy or liquidation, that shareholder's participation in the Plan will end for all future dividends – and, if we receive the notification before the deadline in the Special Information, this will include the next dividend. If, however, the relevant shares are held in the name of more than one person, and after the event the shares are held by the other joint shareholder/s, then the Plan will continue to apply in relation to the shares.

13 If we terminate the Plan

We may suspend or terminate the Plan at any time. If this happens:

- you will be notified by letter
- you will receive the next cash dividend paid by the Company on, or as soon as practicable after, the dividend payment date
- the completion of transactions already under way will not be affected.

14 Assigning the agreement

In accepting these terms and conditions you agree that we may transfer our obligations under this agreement to any other company, if that other company writes to you and undertakes to carry out all our duties and obligations under this agreement. If it does so, you agree that we will be released from all those duties and obligations that such company has undertaken to carry out. We shall satisfy ourselves that any such company is competent to carry out those functions and duties transferred and is authorised to do so by the FSA, if such authorisation is required. As part of transferring our rights and obligations to a third party, we may transfer all of the cash, investments and information we hold under these terms and conditions to the third party or its nominee.

Remember, however, that you have a right to end this agreement at any time by following the procedure set out in paragraph 12. No charge is payable by you when you terminate.

15 Our policy on conflicts of interest

15.1 The Equiniti Group has established and implemented a Conflicts Policy (which may be revised and updated from time to time) in line with the FSA rules, which sets out how we must seek to identify and manage all material conflicts of interest. Such conflicts of interest can occur in our day to day business activities: for example, where one of our clients could make a gain at the direct expense of another client, or we might be faced with an opportunity to make a gain but this would be to the direct disadvantage of one or more of our clients.

15.2 Depending on the exact nature of the conflict of interest involved, we may take certain actions in accordance with the Conflicts Policy to mitigate the potential impact of the conflict. Such actions may include putting in place controls between the opposing sides of the conflict, which may control or prevent the exchange of information, and/or involve the appropriate management of staff activities and segregation of duties. Where such controls would be insufficient to eliminate the potential material risk of damage to clients from specific conflicts, then we will disclose the general nature and/or source of those conflicts of interest to you prior to us undertaking the relevant business.

15.3 You'll find full details of our Conflicts Policy on our website at **www.shareview.co.uk**, or you're welcome to contact us and ask us for a printed copy.

At the time of the issue of this document no material conflicts of interest were identified which could not be managed in accordance with 15.1 above.

16 Governing law

These terms and conditions are governed by English law. Any disputes relating to the agreement between us will be subject to the jurisdiction of the courts of England and Wales.

17 FSA regulatory classification

You will be classified for the purposes of the FSA rules as a retail client. If, however, you would otherwise be an eligible counterparty or a professional client, you may not necessarily have the rights of a retail client under the Financial Services Compensation Scheme. For more information on complaints/compensation, please see paragraph 21 of these terms and conditions.

18 Communications between you and us

Any agreement made between you and us under these terms and conditions will be in the English language. We will always communicate with you in English.

Please address all letters, instructions, notices and other documents for us to:

Share Dividend Team, Equiniti,
Aspect House, Spencer Road, Lancing, West Sussex BN99 6DA.

Until your communication actually reaches us at this address, we will not be able to treat it as officially received, nor to act on it.

You must give us any instructions in writing. We may sometimes be able to accept instructions by fax, email, telephone or online, but in this case, we may require you to confirm your instructions in writing before we go ahead and act on them.

We will send all statements, notices and other documents by post to the sole or first-named joint holder. If the sole or first-named joint holder has given us an email address:

- we will have a discretion to send any notices or other documents to you via that email address; and
- by sending to that email address a link to our website, we will have a discretion to use that website to provide to you (together with other participants in the Plan), general information or documents relevant to these terms and conditions in the future. For example, we may use the website to advise you of updates or amendments to these terms and conditions, or new fees and charges, rather than having to send this type of information to you (and all other participants in the Plan) individually by post or email.

If you provide us with an email address but subsequently decide that you do not want us to communicate with you by email or using a website, please send us a letter in the post stating this and we will resume using the last postal address we have for you.

Everything we send you is at your own risk. If you need documents to be reissued or altered, there may be a fee to pay.

19 Protecting your personal data

19.1 You agree that we may keep the personal details that you or others give us during your relationship with us on an Equiniti database. These details may include:

- information that you or your agents give us on application forms, in letters, via electronic messages or over the phone
- what we know from providing you with this Plan and analysing the transactions you carry out through us
- information that comes to us from credit reference and fraud detection agencies or services, and registration or stockbroking industry exchanges
- information we receive from our client companies or their agents.

We may store, use and process your personal information in order to:

- assess your application to participate in this service
- provide you with services
- identify other products and services that might be suitable for you
- keep our records about you up to date
- check your identity
- prevent and detect fraud and/or money laundering
- recover debts, and
- carry out research and statistical analysis about our services and how we might improve them. Sometimes we may use an outside market research agency to do this for us, in which case we undertake to ensure that they appropriately protect any personal customer data we share with them.

19.2 Unless you tell us not to, we may share your information within the Equiniti Group and we or other Equiniti Group companies may write to you about:

- Equiniti Group products and services we believe may interest you, and/or
- selected products and services from third party businesses we know and trust.

If you prefer not to receive this kind of information, simply let us know by visiting www.shareview.co.uk/clients/optout or calling 0870 607 0636.

19.3 Under the Data Protection Act 1998 you are entitled to a copy of the information we hold about you on request, on payment of a fee. If you think any information we hold about you is inaccurate, don't hesitate to let us know so that we can correct it.

19.4 The information we hold about you is confidential. We will only ever disclose it outside the Equiniti Group:

- at your request or with your consent
- in line with paragraph 19.1 above
- if the law requires or permits disclosure, or there is a duty to the public to reveal it
- if we are asked to do so by the FSA, the London Stock Exchange or any other relevant regulatory authority or exchange in the UK or overseas
- to investigate or prevent fraud or other crimes
- to the Company so that they can update their own records about you
- to our agents and others in connection with running accounts and other services for you
- to any individual or company to whom we propose to transfer our obligations and rights in line with paragraph 14 of these terms and conditions.

19.5 We may administer your account and provide you with some services via agencies in countries outside the European Economic Area ('EEA'), such as India or the USA, where data protection laws and standards differ from those in the UK. But, even if we are processing your personal details outside the EEA:

- there will always be a contract in place to ensure that such information is appropriately protected, and
- we will continue to be strictly bound by the UK's Data Protection Act 1998.

19.6 In order to comply with UK money laundering regulations, we may need to confirm your identity. To help us do this, we may make a search with a credit reference agency, which will keep a record of that search and will share that information with other businesses, and/or ask you to supply us with proof of identity.

This could lead to a delay in carrying out an instruction you've given us, or in paying you the proceeds of a sale or sending out your share certificate/s, or not being able to carry out an instruction at all. In any of these circumstances, we will not be responsible for any resulting loss.

19.7 We monitor and record some phone calls in case we need to check we have carried out your instructions correctly, to help maintain our quality standards and for security purposes.

20 Changing the Plan and/or these terms & conditions

The operation of the Plan is at our discretion. We may amend these terms and conditions to:

- comply with legal, tax or regulatory requirements
- correct errors, omissions, inaccuracies or ambiguities
- take account of any corporate reorganisations within our group of companies
- reflect a change in market conditions or the overall cost of providing the Plan to our customers
- reflect a change in technology to cover a development or change in the Plan or in the facilities we provide
- reflect developments in market practices
- reflect the terms and conditions on which the new provider offers a similar plan, in accordance with paragraph 14, or the computer systems the new provider will use to provide the Plan
- reflect any other valid reason.

If we intend to change the terms and conditions, and the alteration is material, we will give you at least 30 days' written notice of the alteration, unless it is impracticable to do so.

21 Complaints and compensation

If you have a complaint of any kind, please be sure to let us know. We will do our utmost to sort it out. Please put your complaint in writing to us at the following address: **Service Quality Team, Equiniti, PO Box 4608, Worthing, West Sussex BN99 6NZ.**

If we cannot resolve the issue between us, you may – so long as you are eligible – ask the independent Financial Ombudsman Service to review your complaint.

Our leaflet 'How to voice your concerns' has more details about our complaints procedure. You're welcome to ask us for a copy at any time.

We are a member of the Financial Services Compensation Scheme, set up under the Financial Services and Markets Act 2000.

If we cannot meet our obligations, you may be entitled to compensation from the scheme. This will depend on the type of agreement you have with us and the circumstances of the claim. For example, the scheme covers corporate sponsored nominees, individual savings accounts and share-dealing.

Most types of claims for FSA regulated business are covered for 100% of the first £30,000 and for 90% of the next £20,000. So the maximum compensation is £48,000.

For more details about the Financial Services Compensation Scheme:

- call their helpline on 020 7892 7300
- go to their website at www.fscs.org.uk
- write to them at FSCS, 7th floor, Lloyds Chambers, Portsoken Street, London E1 8BN.

For more on the classification of shareholders for regulatory purposes, please see paragraph 17 of these terms and conditions.

22 Our liability

Nothing in these terms and conditions will exclude us from:

- any liability caused by our fraud, wilful default or negligence

or

- any liability that the FSA rules say cannot be excluded. To the extent that the FSA rules make us liable for something, this agreement will be deemed to say so explicitly.

The amount of our liability for any claim you make (other than for fraud or a breach of the Conduct of Business Sourcebook or the Client Assets Sourcebook in the FSA rules) will be no more than the following:

- the amount or total amount of the dividend relevant to your claim (for example, where your claim relates to two dividends, this refers to the total amount of these two dividends)
  plus
- interest at 2% above the Bank of England base rate, starting from when the claim arises up until the point when we pay our liability amount.

We will not be responsible for the following:

- anything done or not done by the Company named in the booklet
- acting in accordance with a court order (of whatever jurisdiction) or failing to act in accordance with a court order that we haven't been notified about
- forged or fraudulent instructions. We will be entitled to treat instructions that purport to be from you as genuine, unless it ought to be obvious to anyone that they are not
- any losses, costs, damages or expenses you suffer that result from industrial action or any cause beyond our reasonable control including, but not limited to, any shortfall in the performance of our obligations because of malfunction or failure of any telecoms or computer service, electronic payment system or CREST or because of the circumstances contemplated by paragraph 6.2 (provided, where relevant, that we have complied with the FSA rules on business continuity). If this type of situation arises, however, we will remedy the situation as soon as reasonably possible
- any indirect, special or consequential loss (including direct or indirect loss of profit), other than where this results from fraud or a breach of the Conduct of Business Sourcebook or Client Assets Sourcebook in the FSA Rules on our part.

We may do, or stop doing, anything that, in our reasonable opinion, is necessary in order to comply with any laws, rules, regulations or the requirements of any regulatory or other body that are binding on us.

If you would like this in an alternative format, for example Braille, large print or on audio tape, please contact us on 0870 241 3018

APPENDIX A3: OTHER DOCUMENTS SENT TO SECURITYHOLDERS

FIRST CHOICE

take, you are recommended to seek your own personal financial advice as soon as possible from your stockbroker, bank, solicitor, accountant, fund manager or other appropriate independent financial adviser authorised under the FSMA if you are in the United Kingdom or, if not, from another appropriately authorised independent financial adviser.

If you have sold or otherwise transferred all of your First Choice Shares, you should send this document as soon as possible to the purchaser or transferee or to the stockbroker, bank or other agent through whom the sale or transfer was effected for delivery to the purchaser or the transferee. However, the distribution of this document and any accompanying documents into certain jurisdictions other than the United Kingdom may be restricted by law. Therefore, persons into whose possession this document comes should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the securities laws of any such jurisdiction.

A copy of this document, which comprises a prospectus relating to the TUI Travel Shares prepared in accordance with the Prospectus Rules made under section 84 of the FSMA, has been filed with the FSA and has been made available to the public as required by rule 3.2 of the Prospectus Rules.

You should read the whole of this document and any documents incorporated herein by reference. In particular, your attention is drawn to the "Risk Factors" section of this document.

TUI TRAVEL PLC

(incorporated and registered in England and Wales under the Companies Act 1985 with registered number 6072876)

Proposed issue of up to 1,118,034,839 new ordinary shares in TUI Travel in connection with the proposed merger of TUI Tourism and First Choice and application for admission of ordinary shares in TUI Travel to the Official List and to trading on the London Stock Exchange's main market for listed securities

---

Application will be made to the UK Listing Authority for the TUI Travel Shares proposed to be issued in connection with the Merger to be admitted to the Official List and to the London Stock Exchange for the TUI Travel Shares to be admitted to trading on the London Stock Exchange's main market for listed securities. It is expected that Admission will become effective on the Effective Date (which is currently expected to be 3 September 2007). Application has not been, and will not be, made for TUI Travel Shares to be admitted to, or to be traded on, any other stock exchange.

Prospective investors should only rely on the information contained in this document and any documents incorporated herein by reference. No person has been authorised to give any information or make any representations other than those contained in this document and, if given or made, such information or representation must not be relied upon as having been authorised by TUI Travel or the Directors of TUI Travel. TUI Travel will comply with its obligations to publish updated information as required by law or by any regulatory authority but assumes no further obligation to publish additional information.

This document and any accompanying documents are not to be made available to any First Choice Shareholder with a registered address in any Restricted Jurisdiction and may not be treated as an invitation to subscribe for TUI Travel Shares by any person resident or located in any Restricted Jurisdiction.

All persons (including, without limitation, nominees, trustees or custodians) who would, or otherwise intend to, forward this document and its accompanying documents to any jurisdiction outside the United Kingdom, should seek appropriate advice before taking any action.

The TUI Travel Shares issued to or for the benefit of any resident of Canada will not be qualified for sale under the securities laws of any province or territory of Canada and will be subject to resale restrictions.

Securities may not be offered or sold in the United States unless they are registered under the US Securities Act or are exempt from such registration. The TUI Travel Shares will not be registered under the US Securities Act, and will be issued in the United States pursuant to the Scheme in reliance on the exemption from registration provided by Section 3(a)(10) of that Act. In addition, the TUI Travel Shares have not been and will not be registered under the securities laws of any state of the United States, and will be issued in the United States in reliance on available exemptions from such state law registration requirements. First Choice Shareholders (whether or not US persons) who are affiliates (as defined in the US Securities Act) of TUI Travel or First Choice prior to, and/or become affiliates of TUI Travel or First Choice on or after, the implementation of the Scheme will be subject to certain US transfer restrictions relating to the TUI Travel Shares. In particular, US persons should note the matters set out in paragraph 12 of Part III ("Information on the Merger") of this document. Neither the SEC nor any US state securities commission has reviewed or approved this document, the Scheme, or the issue of TUI Travel Shares, and any representation to the contrary is a criminal offence in the United States. TUI Travel Shares have not been, and will not be, registered under the applicable laws of any Restricted Jurisdiction. Accordingly, TUI Travel Shares may not be offered, sold, delivered or transferred, directly or indirectly, in or into any Restricted Jurisdiction or to or for the account of any other national, resident or citizen of any Restricted Jurisdiction.

Deutsche Bank AG is authorised under German Banking Law (competent authority: BaFin—Federal Financial Supervising Authority) and with respect to UK commodity derivatives business by the Financial Services Authority; regulated by the Financial Services Authority for the conduct of UK business. Deutsche Bank AG is acting as financial adviser and broker exclusively to First Choice, and as joint sponsor and financial adviser exclusively to TUI Travel, and no one else in connection with the Merger and Admission and will not be responsible to anyone other than First Choice and TUI Travel for providing the protections afforded to clients of Deutsche Bank nor for providing advice in connection with the Merger, Admission, the content of this document or any matter or arrangement referred to herein.

Lazard & Co., Limited, which is authorised and regulated in the United Kingdom by the FSA, is acting as financial adviser exclusively to First Choice and TUI Travel, and as joint sponsor exclusively to TUI Travel, and no one else in connection with the Merger and Admission and will not be responsible to anyone other than First Choice and TUI Travel for providing the protections afforded to clients of Lazard nor for providing advice in connection with the Merger, Admission, the content of this document or any matter or arrangement referred to herein.

Morgan Stanley & Co. Limited, which is authorised and regulated in the United Kingdom by the FSA, is acting as financial adviser exclusively to TUI AG and TUI Travel, and as joint sponsor exclusively to TUI Travel, and no one else in connection with the Merger and Admission and will not be responsible to anyone other than TUI AG and TUI Travel for providing the protections afforded to clients of Morgan Stanley nor for providing advice in connection with the Merger, Admission, the content of this document or any matter or arrangement referred to herein.

Summary

THE FOLLOWING INFORMATION IS EXTRACTED FROM, AND SHOULD BE READ AS AN INTRODUCTION TO AND IN CONJUNCTION WITH, THE FULL TEXT OF THIS DOCUMENT.

An investment decision relating to TUI Travel or the Enlarged Group or the Merger should be based on a consideration of this document as a whole. Following the implementation of the relevant provisions of the Prospectus Directive in each member state of the European Economic Area no civil liability will attach to TUI Travel or the Directors in any such member state in respect of this summary, including any translation hereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of this document. Where a claim relating to the information contained in this document is brought before a court in a member state of the European Economic Area, the plaintiff may under the national legislation of the member state where the claim is brought, be required to bear the costs of translating this document before the legal proceedings are initiated.

Where information is presented in this summary on "a combined basis in 2006" in respect of the Enlarged Group, it is presented in respect of TUI Tourism for the year ended 31 December 2006 and in respect of First Choice for the year ended 31 October 2006.

1. Introduction

On 19 March 2007, the boards of TUI AG and First Choice announced that they had agreed the terms of a recommended merger of TUI Tourism and First Choice to create a leading international leisure travel group, to be called TUI Travel PLC.

It is intended that the Merger will be effected through the acquisition by TUI Travel of First Choice (by means of the Scheme) and, simultaneously with completion of the Scheme, the acquisition by TUI Travel of TUI Tourism from TUI AG. Following completion of the Merger, TUI Travel will be owned as to 51 per cent. by TUI AG and as to 49 per cent. by First Choice Shareholders (on a fully diluted basis).

Application will be made for the TUI Travel Shares to be admitted to listing on the Official List and to trading on the London Stock Exchange. It is expected that Admission and completion of the Merger will occur on 3 September 2007.

2. Overview of the Enlarged Group

On Completion, the Enlarged Group will be a leading international travel group which, on a combined basis in 2006, operated in approximately 180 countries worldwide and served more than 30 million customers in over 20 source markets.

The Enlarged Group's pro forma revenue and earnings before interest, tax, depreciation, amortisation and impairment (EBITDA) from continuing operations and acquisitions were, on a combined basis in 2006, £12.3 billion (€18.0 billion) and £467 million (€683 million) respectively. *(Source: unaudited pro forma financial information as set out on page 305 of this document).*

The Enlarged Group will be headquartered in Crawley, near Gatwick airport in the UK. On a combined basis in 2006, it employed approximately 48,000 people and operated a pan-European airline group consisting of 155 aircraft. The Enlarged Group will primarily serve the leisure travel consumer and it will be organised and managed through the following four business Sectors:

Mainstream

This Sector includes the sale of flights, accommodation, car hire, transfers and excursions, in addition to package holidays within the mainstream segment of the leisure travel marketplace. It comprises a number of vertically integrated tour operators, such as Thomson, First Choice and TUI Deutschland, within 158 countries, which in the year ended 31 December 2006 consisted of 155 aircraft and 3,594 retail shops across the UK, Ireland and Continental Europe. On a combined basis in 2006, this Sector served over 24 million customers and represented 65.8 per cent. of the underlying operating profit of the Enlarged Group.

Specialist

This Sector operates in three segments, Destination, Premium and Lifestages and comprises a number of specialist brands, such as Marmara, Sovereign and StudentCity, that operate in 11 source markets. The businesses in this Sector focus on specific destinations, premium travel experiences or particular customer demographics, often with differentiated and exclusive content. On a combined basis in 2006, the Specialist Sector served over two million customers and represented 10.6 per cent. of the underlying operating profit of the Enlarged Group.

Activity

This Sector comprises a number of activity lifestyle travel companies and premium brands operating in three market segments, Marine, Adventure and Experiential, including Headwater, Sunsail, The Moorings, Exodus and Travcoa. On a combined basis in 2006, it served almost 400,000 customers and represented 7.8 per cent. of the underlying operating profit of the Enlarged Group.

Online Destination Services

The Online Destination Services Sector consists of market-leading incoming agencies which provide services such as guest assistance, transfers, excursions and roundtrips to the Enlarged Group and third party tour operators and their clients. This Sector also sells accommodation online to both consumers and businesses and provides specialised services to cruise lines and the management of meetings and incentives activities for corporate clients. The Enlarged Group provides its destination services through a portfolio of destination agencies in 48 countries around the world. On a combined basis in 2006, this Sector served nearly 15 million customers and represented 15.8 per cent. of the underlying operating profit of the Enlarged Group.

Summary Historical Financial Information

TUI Tourism

The summary financial information below has been extracted and/or calculated without material adjustment from the financial information set out in Section B of Part V of this document.

	Year ended 31 December 2006	Year ended 31 December 2005	Year ended 31 December 2004
	€m	€m	€m
Revenue	13,714.1	13,587.0	12,788.3

Profit for the year	72.3	80.3	45.8
Underlying operating profit	139.0	123.3	99.6
Underlying profit before tax	117.2	115.0	98.3
Underlying earnings	84.5	72.0	55.9
Net assets	282.0	276.2	487.1

3. Objectives and Strategy

TUI Travel's primary strategic objectives are:

- to be one of the world's leading leisure travel groups by providing customers with a wide choice of products with the flexibility to meet their changing needs;
- to deliver earnings growth and margin expansion through the combination of organic development and selected acquisitions;
- to deliver cost synergies estimated to be at least £100 million (€146 million) per annum on an annualised basis within three years of Completion;
- to maintain a lean and efficient business model; and
- to maximise shareholder value.
