Report of Independent Registered Public Accounting Firm

The Plan Administrator and Members
Retirement Savings Plan for Employees of the ICI Group in Puerto Rico:

We have audited the accompanying statements of net assets available for benefits of the Retirement Savings Plan for Employees of the ICI Group in Puerto Rico as of December 31, 2005 and 2004, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2005 and 2004, and the changes in net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) and schedule of delinquent contributions are presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan’s management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

RETIREMENT SAVINGS PLAN FOR EMPLOYEES
OF THE ICI GROUP IN PUERTO RICO

Notes to the Financial Statements
December 31, 2005 and 2004

(1) Description of the Plan

(a) General

The following description of the Retirement Savings Plan for Employees of the ICI Group in Puerto Rico (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

The Plan covers nonunion employees of The Glidden Company (Glidden) and ICI Paints (Puerto Rico) Inc., who reside in Puerto Rico and performed substantially all their services for either company in Puerto Rico. The plan sponsor is ICI Paints (Puerto Rico) Inc. (the Company), and Glidden is a participating employer.

The Plan is an individual account defined contribution plan. Participant accounts are credited with participant and employer contributions and are adjusted for withdrawals or distributions elected by the participant. In addition, the accounts are adjusted for an allocation of the Plan’s income, expenses, and any increases or decreases in the market value of plan assets.

The Plan assets are held in trust by Banco Santander pursuant to a trust agreement between the Company and Banco Santander. All plan assets held in trust by Banco Santander (other than Plan loans) are invested in the ICI Master Trust. Fidelity Management Trust Company is the Trustee of the ICI Master Trust, which holds the assets of a number of defined contribution plans sponsored by subsidiaries and affiliates of ICI American Holdings Inc.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) Contributions

Eligible employees can contribute up to 10% of compensation on a pretax basis through monthly payroll deductions, subject to relevant Internal Revenue Code of Puerto Rico (PR Code) limitations. Before-tax contributions made to the Plan are matched by the Company on a dollar-for-dollar basis up to the first 3% of a participant’s contributions. Eligible employees may also contribute up to 10% of eligible compensation on an after-tax basis.

The Company may also contribute an additional “Make Up Matching” contribution to eligible participants of the Plan. The plan administrator first determines the matching contributions made to the participant’s account during the plan year. The plan administrator then determines the hypothetical year-end match based upon the participant’s total before-tax contributions for the year and his/her eligible compensation for the portion of the plan year in which the participant was eligible to participate in the Plan up to a maximum of 3% of eligible compensation. The difference, if any, between the actual before-tax matching contribution and the hypothetical year-end match is the “Make Up Matching” contribution.

Effective April 1, 2002, a participant who is not eligible to participate in a defined benefit pension plan of the ICI Group will be eligible for a retirement contribution unless (i) he agrees in writing that he is not eligible or (ii) he is a member of a collective bargaining unit that has not negotiated the
RETIREMENT SAVINGS PLAN FOR EMPLOYEES
OF THE ICI GROUP IN PUERTO RICO

Notes to the Financial Statements
December 31, 2005 and 2004

retirement contribution. The retirement contribution is 4%. Retirement contributions are not
withdrawable prior to termination of employment, are not eligible for loans and are not counted to
determine the amount available for a loan.

(c) Vesting

Participants are 100% vested at all times in the value of their before-tax and after-tax contributions,
the Company’s matching contributions, and income or loss thereon. Retirement contributions vest
upon completion of five years of vesting subject to the break in service rule.

Forfeitures represent the unvested portion of employer contributions. Forfeitures result from the
termination of a participant prior to becoming 100% vested in the retirement contribution.
Forfeitures are used to offset retirement contributions. For the year ended December 31, 2005 and
2004, forfeitures were $8,201 and $1,675, respectively.

(d) Benefit Payments

Prior to termination of employment and age 59½, participants may withdraw their after-tax employee
contributions and related investment income (loss), if any, on such contributions subject to Plan
limitations and restrictions. After age 59½, participants may elect to withdraw all or part of their
account prior to termination of employment.

Upon termination of employment, or at certain later times provided under the Plan, a participant’s
vested account balance is distributed in a lump sum, deferred until normal retirement, or rolled over
to another qualified employer-sponsored plan or individual retirement account. Participants’ meeting
certain criteria, as defined in the Plan, may elect installment payment options.

(e) Investment Options

Contributions and balances were invested at the election of the participant in one or more of the
following funds:

ICI Long-Term Income Fund - This fund is comprised of investment contracts with insurance
companies and individual bonds and bond portfolios at varying interest rates and maturities,
although typically three to five years. As contracts and bonds mature, the proceeds are
reinvested in one or more new contracts, bonds, or bond portfolios. The fund’s rate of return is
a blended rate that varies based on the underlying investments.

Fidelity Balanced Fund - This fund normally invests approximately 60% of assets in stocks
and other equity securities and the remainder in investment-grade bonds and other investment
debt securities of both medium and high quality. The fund invests 25% of assets in fixed
income senior securities, including investment-grade debt securities and preferred stock. The
goal of this fund is to provide income and capital growth consistent with reasonable risk.

Mellon Capital Asset Allocation Strategy Fund - The Mellon Capital Asset Allocation
Strategy, which is managed by Mellon Capital Management Corporation, is invested in shares
of a pooled investment portfolio in which other trusts participate, the assets of which are

(Continued)
primarily invested in equity and fixed income securities. Such investments are made at the discretion of the fund’s investment manager.

**Fidelity Equity Income Fund** - This fund normally invests at least 65% of assets in income-producing equity securities, which tend to lead to investments in large-cap stocks. The fund potentially invests in other types of equity and debt securities including lower-quality debt securities. The objective of this fund is to provide reasonable income while considering the potential for capital appreciation.

**Fidelity US Equity Index Pooled Fund** - This fund invests primarily in the common stocks of the 500 companies that make up the S&P 500. The goal of this fund is to approximate the composition and total return of the Standard and Poor’s 500 Index.

**Fidelity Magellan Fund** - This fund invests primarily in common stocks and securities convertible into common stock, but may also invest in other types of securities. The objective of this fund is to increase the value of investments over the long term through capital appreciation.

**Fidelity Aggressive Growth Fund** - This fund invests primarily in common stocks of domestic and foreign issuers. The objective of this fund is to increase the value of investment over the long term through capital appreciation. This fund is closed to new investments. Participants may transfer money out of the fund, but not into this fund.

**T. Rowe Price Small Cap Stock Fund** - This fund invests primarily in stocks of small and medium-sized companies that are believed to offer superior earnings growth or that appear to be undervalued. The objective of this fund is to provide long-term capital growth.

**American Funds Europacific Growth Fund** - This fund’s objective is long-term growth through investments primarily in common stocks (to include ADRs) of large established non-US companies. The fund also may have small investments in emerging and newly industrialized countries. There is an element of risk from exchange rate fluctuations and the action of foreign governments.

**ICI Company Stock Fund** - Invests primarily in Imperial Chemical Industries PLC American Depositary Receipts (ADR), which are traded on the New York Stock Exchange. The rate of return results from a combination of the movement in the price of the stock and the movement in the exchange ratio of U.S. dollars to British pounds sterling. This fund has the greatest investment risk since it is invested primarily in one security.

**Vanguard Total Bond Market Index Fund** - This fund normally invests at least 80% of assets in bonds listed on the index. It attempts to keep its portfolio weightings in line with the weightings of the index.

**Delaware Trend Instrument Fund** - This fund is a growth mutual fund that invests primarily in common stocks of emerging growth-oriented domestic and foreign companies. The objective of the fund is to increase the value of investments through capital growth.

**Fidelity Freedom Income Fund** - This fund invests in a combination of Fidelity equity, fixed-income, and money market funds (underlying Fidelity funds) and allocates its assets
among these funds according to a stable asset allocation strategy designed for investors already in retirement.

_Fidelity Freedom 2010_ - This fund invests in a combination of Fidelity equity, fixed-income, and money market funds (underlying Fidelity funds) and allocates its assets among these funds according to an asset allocation strategy. After reaching its target date, Freedom 2010 will become more conservative for 5-10 years, until the asset mix is approximately the same as the Freedom Income Fund. Ultimately, the funds will merge. This fund is targeted to investors expected to retire around the year 2010.

_Fidelity Freedom 2020_ - This fund invests in a combination of Fidelity equity, fixed-income, and money market funds (underlying Fidelity funds) and allocates its assets among these funds according to an asset allocation strategy. Having met its target date, Freedom 2020 will become more conservative for 5-10 years, until the asset mix is approximately the same as the Freedom Income Fund. Ultimately, the funds will merge. This fund is targeted to investors expected to retire around the year 2020.

_Fidelity Freedom 2030_ - This fund invests in a combination of Fidelity equity, fixed-income, and money market funds (underlying Fidelity funds) and allocates its assets among these funds. After reaching its target date, Freedom 2030 will become more conservative for 5-10 years, until the asset mix is approximately the same as the Freedom Income Fund. Ultimately, the funds will merge. The fund is targeted to investors expected to retire around the year 2030.

_Fidelity Freedom 2040_ - This fund invests in a combination of Fidelity equity, fixed-income, and money market funds (underlying Fidelity funds) and allocates its assets among these funds. After reaching its target date, Freedom 2040 will become more conservative for 5-10 years, until the asset mix is approximately the same as the Freedom Income Fund. Ultimately, the funds will merge. This fund is targeted to investors expected to retire around the year 2040.

For more information on investments, the prospectus of the applicable fund should be consulted.

(f) **Disability**

If a participant eligible for retirement contributions becomes disabled with less than five years of vesting, he or she will vest in his retirement contributions and earnings. If a participant eligible for retirement contributions becomes disabled after completing five years of vesting, he or she shall continue to receive retirement contributions until the earlier of the date he or she ceases to be disabled or age 65.

(g) **Plan Mergers, Transfers, Corporation Actions**

There were $30,316 and $1,280 of transfers into the plan during the December 31, 2005 and 2004 fiscal years, respectively.
(2) Summary of Significant Accounting Policies

The significant accounting policies employed in the preparation of the accompanying financial statements are as follows:

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America.

(b) Valuation of Plan Assets and Income Recognition

The value of the Master Trust is based on the value of underlying securities. Securities listed on a national exchange and shares of registered investment companies are valued on the basis of year-end sales prices. Securities traded in the over-the-counter market and listed securities for which no sales were reported on that date are valued on the last reported bid price. ICI ADRs are valued at the period-end market price as quoted on the New York Stock Exchange. Fixed income contracts are valued at contract value plus interest at the contract rate (which approximates fair value). Certificates of deposit are valued at cost, which approximates market value. Short-term investments, comprised principally of money market funds, are valued at cost, which approximates market value.

The carrying values for contribution receivables approximate their fair values due to their short-term nature. Participant loans are stated at amortized cost.

Interest income is recorded on the accrual basis.

(c) Administrative Expenses

Generally costs and expenses incident to the administration of the Plan and the management of the trust fund, including the compensation of the trustee, are paid by the Company. The Mellon Capital investment management fees are charged to the Mellon Capital Asset Allocation Strategy Fund. Fiduciary Capital Management's investment advisory fees are charged to the ICI Long-Term Income Fund. Brokerage charges and fees incurred for purchases and sales of ICI ADRs are paid by the Company. All other brokerage charges and fees in connection with the purchase and sale of securities are included as an element of the cost of securities purchased or as a reduction in the proceeds of securities sold.

(d) Participant Withdrawals

Payments to participants in the form of a withdrawal or distribution are recognized as a reduction of plan assets when paid by the trustee.
RETIREMENT SAVINGS PLAN FOR EMPLOYEES
OF THE ICI GROUP IN PUERTO RICO

Notes to the Financial Statements
December 31, 2005 and 2004

(e) Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the making of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases during the reporting period. Actual results could differ from those estimates.

(f) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.

(3) Loans to Plan Participants

Loans from the Plan may only be made to participants who are “parties in interest” within the meaning of ERISA Section 3(14). A maximum of two loans may be outstanding at any time for any eligible participant. The Plan may, however, accept more than two loans pursuant to a transfer of assets and liabilities or merger of plans into this Plan in accordance with Code § 414(1), provided that a participant with more than two such loans may not take a loan under this Plan until all but one of such loans have been paid in full. A participant may borrow up to the lesser of $50,000 (reduced by the highest loan balance in the preceding 12 months) or 50% of his vested account balance (excluding retirement contributions and earnings thereon). Loans under $500 are not permitted. Loans have a fixed rate of interest, 1% above the prime rate of interest at the origination of the loan. Loans are generally for a term of five years. The term of a loan for the purchase of a principal residence is up to 25 years. Participant loans issued during the years ended December 31, 2005 and 2004 carried an interest rate between 6.25% and 7.75% and 5.00% and 5.75%, respectively.

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are 100% vested in their retirement contributions and earnings thereon.

(5) Investments in Master Trust

At December 31, 2005 and 2004, the Plan’s investments (excluding participant loans) were held in the ICI Master Trust. Investment income and administrative expenses relating to the ICI Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan in each fund.

Plan's proportionate share

0.5%

0.5%

The Plan's proportionate share is affected by the extent of its participation in certain individual funds.
(6) Related-Party Transactions

At December 31, 2005 and 2004, the Plan had a 0.92% and 0.93%, respectively, beneficial interest in the ICI Company Stock Fund (an investment fund of the ICI Master Trust), which holds ICI ADRs as its principal investment.

Certain plan investments are invested in Fidelity funds. Fidelity is the Trustee of the Plan, and as such, these transactions qualify as party-in-interest.

(7) Puerto Rico Income Tax Status

The Puerto Rico Department of Revenue has determined and informed the Company by a letter dated February 17, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Puerto Rico Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the employee benefits and tax counsel of the Company believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the PR Code.

(8) Commitments and Contingencies

The Plan is subject to reporting under the Securities Exchange Act of 1934 which requires the Plan to file an annual report on Form 11-K within 180 days of the end of the Plan’s fiscal year. As of January 19, 2007, the Plan has not made such filing.
