This Annual Report to Shareholders contains projections and other forward-looking statements regarding future events or the future financial performance of the Company. Actual events and results may differ materially from those in the projections and other forward-looking statements set forth herein. See the additional cautionary statements in the accompanying Form 10-K (under "Contents" on page 2, "Item 1A. Risk Factors" on page 10 and "Forward-Looking Information" on page 31).

PRESIDENT'S LETTER

To Our Shareholders,

Review of 2006

Frankly, the net financial results for 2006 are disappointing. The Company had a net loss for 2006 of \$836,000, or \$.51 per share, compared to net income for 2005 of \$132,000, \$.08 per share.

Premiums and other considerations were down 12% in 2006 as compared to 2005. While, as discussed below, we have had promising progress in our marketing initiatives in the final expense life insurance and group ancillary product markets, they have not yet reached the scale to fully offset the reduction in premiums from normal policy attrition.

Realized investment gains were \$4,000 in 2006 as compared to \$780,000 in 2005. The last few years leading up to 2006, the Company has booked significant realized investment gains, which have been a key factor in reporting net income. However, it is unrealistic to expect that the vicissitudes of the stock market will result in sizeable realized investment gains every year.

The Company booked a \$354,000 income tax expense in 2006 as compared to no such expense in 2005.

While we experienced the above disappointments in 2006, we also made significant progress during the year.

The Company had a breakeven segment performance (pre-tax income excluding realized gains and losses and excluding interest expense) in 2006 as compared to a segment loss of \$269,000 in 2005. Total policy benefits were 77% of premiums and other considerations in 2006, compared with 82% in 2005. In recent years we have emphasized higher margin products and de-emphasized lower margin products.

There was a significant increase during 2006 in the sales of our new final expense life insurance product. The annualized premium on final expense life insurance sales during 2006 was \$1,265,000, compared to \$674,000 in 2005. In the third quarter of 2006 we added a marketing director focused exclusively on increasing our final expense life insurance sales.

Several major steps were taken during 2006 to update and strengthen the positioning of our group ancillary product line. In the third quarter of 2006 we added an experienced executive to oversee the development of this product line. Under his guidance, a new group vision insurance product was developed, our group dental insurance policy form was redesigned to increase the flexibility of the benefit structure, and, as discussed below, the decision was made to add sales representatives exclusively focused on promoting the

Company's group ancillary products to the group benefit broker community. The Company also obtained the backing, through reinsurance, of a highly-rated reinsurer for all new group dental and vision insurance policies issued.

Outlook for 2007

The steps taken in 2006 provide the foundation for growth of our final expense life insurance and group ancillary product lines in 2007 and beyond. For example, our production goal for 2007 for the final expense life insurance product is \$4 million of new annualized premium, up from 2006's actual production of about \$1.3 million of new annualized premium.

Towards the end of the first quarter of 2007 we added three sales representatives for our group ancillary products. As a result of this and the steps taken in 2006, we are targeting positive earned premium growth for 2007 in our group ancillary product line, reversing the declining trend of the last two years.

There is a lag time between the addition of the marketing resources previously noted and the point at which they generate sufficient new business to offset their costs. We will be challenged during 2007 to keep total expenses as a percentage of premiums and other considerations from rising. This challenge will be compounded if relief from some of the more onerous provisions of the federal Sarbanes-Oxley Act is not enacted.

We believe the Company is positioned for success and that our progress will be evident in 2007.

Joe Bost

On a final, personal note, we were deeply saddened by the death on August 21, 2006 of Joe Bost, our Executive Vice President and Chief Operating Officer. Joe joined the Company December 1, 2004. He had a dynamic personality and had quickly become beloved by our employees. The best wishes of the entire Citizens Financial Corporation family are extended to Joe's wife, Kelley, and his children, Julie and Jennifer.

Darrell R. Wells
President and Chairman of the Board

This report contains projections and other forward-looking statements regarding future events or the future financial performance of the Company. Actual events and results may differ materially from those in the projections and other forward-looking statements set forth herein. Among the important factors that could cause actual events or results to differ materially from those in the projections and other forward-looking statements are: changes in the market value of the Company's investments, including stock market performance and interest rate changes; customer response to marketing efforts; mortality and morbidity trends; regulatory changes; actions of independent rating agencies; general economic conditions and increased competition; the Company's ability to achieve operating efficiencies; unanticipated adverse litigation; and changes in Federal tax law. Readers are referred to the Items 1, 7, 7A and 8 in this report and to the Company Report on Financial Statements in the Company's Annual Report to Shareholders for the year ended December 31, 2006 for a discussion of these and other important risk factors concerning the Company and its operations.

PART I
ITEM 1. BUSINESS

General

Citizens Financial Corporation (herein, the "Company" or the "Registrant") was incorporated in Kentucky in 1990 at the direction of the Board of Directors of Citizens Security Life Insurance Company ("Citizens Security") for the ultimate purpose of becoming an insurance holding company. Pursuant to a merger completed in 1991, Citizens Security became a wholly owned subsidiary of the Company. The Company is now a holding company that engages in the business of life insurance, annuities, and accident and health insurance through Citizens Security and United Liberty Life Insurance Company ("United Liberty"), a wholly owned subsidiary of Citizens Security (herein collectively, the "Life Insurance Subsidiaries"). Citizens Security also owns Citizens Insurance Company ("Citizens Insurance"), which is licensed as a property and casualty insurer but currently has no business in force. The Life Insurance Subsidiaries and Citizens Insurance are herein collectively referred to as the "Insurance Subsidiaries."

Insurance Operations

The Company, through its Life Insurance Subsidiaries, operates in five business segments -- 1) home service life insurance ("Home Service Life" or "Home Service"), 2) broker-sold life insurance and annuities ("Broker Life"), 3) preneed life insurance ("Preneed Life" or "Preneed"), 4) dental insurance ("Dental"), and 5) other health and accident insurance ("Other Health"). The Home Service and Preneed Life segments provide individual coverages; the Dental segment provides group coverages; while the Broker Life and Other Health segments include individual and group insurance coverages. The following table presents each business segment's revenue; pretax segment profit (loss) excluding realized investment gains (losses) and interest expense; and ending assets for each of the last three fiscal years. Additional segment information is contained in Item 7 and in Note 9 of the Notes to Consolidated Financial Statements.

While preparing the current year's financial statements, the Company discovered an error in the compilation and reporting of certain reinsurance transactions that caused the Net Income (Loss) to be misstated by \$192,547, \$91,720, \$107,058 and \$122,566 for 2005 and the first, second and third quarters of 2006, respectively. The previously issued consolidated financial statements have been restated herein to reflect the correction of this error. See Note 2-CORRECTION OF AN ERROR and Note 10 - QUARTERLY FINANCIAL DATA in the NOTES TO CONSOLIDATED FINANCIAL STATEMENTS for a presentation of the originally reported amounts, the related changes and the restated amounts.

Segment Revenue, Profit (Loss) and Assets:

Year Ended December 31	2006	2005 (As Restated)	2004
<u>Revenue:</u>			
Home Service Life	\$ 8,840,283	\$ 9,009,607	\$ 8,873,473

Income (loss) before income taxes	\$ (481,972)	\$ 131,765	\$ 206,734

December 31	2006	2005 (As Restated)	2004
<u>Assets:</u>			
Home Service Life	\$ 42,233,804	\$ 41,620,007	\$ 41,465,725
Broker Life	49,098,467	51,305,778	54,414,225
Preneed Life	54,193,219	57,603,193	58,560,125
Dental	250,030	913,764	1,025,005
Other Health	1,504,029	1,782,055	1,805,479
Total Assets	\$ 147,279,549	\$ 153,224,797	\$ 157,270,559

Home Service Life. The Home Service Life segment consists primarily of traditional whole life insurance, which provides policyholders with permanent life insurance and fixed, guaranteed rates of return on the cash value element of policy premiums. Agents for these products sell primarily small face value policies (typically from \$1,000 to \$10,000). These policies are subject to normal underwriting procedures with the extent of such procedures determined by the amount of insurance, age of applicant and other pertinent factors.

Broker Life. The Broker Life segment offers traditional whole life insurance; universal life insurance, which provides policyholders with permanent life insurance and adjustable rates of return on the cash value element of policy premiums, based upon current interest rates; annuities; group life; accidental death and dismemberment; and dependent life insurance. The majority of Broker Life sales consists of whole life graded death benefit and simplified issue policies, as well as the new final expense policies.

The graded death benefit policy returns premium plus interest compounded at an annual rate of 10% if the insured dies of natural causes during the first three years the policy is in force. If the insured dies of an accidental cause, the benefit payable is the face amount of the policy. The simplified issue product provides full face amount coverage from date of issue, is more extensively underwritten and carries lower premium rates than the graded death benefit product. These products are targeted towards the "final expense market."

Generally, traditional whole life insurance products are more profitable than universal life policies, in part because investment margins are normally greater for traditional whole life products than for universal life policies. Overall profitability on universal life policies may decline as a result of downward interest crediting rate adjustments to the extent that policyholders withdraw funds to invest in higher-yielding financial products. The profitability of traditional whole life products and universal life policies is also dependent upon the ultimate underwriting experience and the realization of anticipated unit administrative costs. The Company believes that the historical claims experience for the traditional whole life and universal life products issued by the Life Insurance Subsidiaries has been within expected ranges, in relation to the mortality assumptions used to price the products.

Substantially all annuity considerations are attributable to sales of flexible premium deferred annuities, life policy annuity riders, and single premium deferred annuities. Generally, a flexible premium deferred annuity or a life policy annuity rider permits premium payments in such amounts as the policyholder deems appropriate, while a single premium deferred annuity requires a one-time lump sum payment.

Preneed Life. The Preneed Life segment products are traditional whole life policies sold to individuals in connection with prearrangement of their funeral and include single and multi-pay coverages, generally in amounts of \$10,000 and less. These policies are generally sold to middle-aged to elderly individuals.

Coverage in Force.

The following table provides information concerning the Life Insurance Subsidiaries' volume of life insurance coverage in force.

Year Ended December 31 (Dollars in Thousands)	2006	2005 (As Restated)	2004
Gross In-force at beginning of year ¹	\$ 716,635	\$ 737,984	\$ 765,051
New business issued during year:			
Individual	\$ 50,174	\$ 83,306	\$ 109,073
Group	2,195	2,716	12,668
New business total	\$ 52,369	\$ 86,022	\$ 121,741
Terminations during year	\$ 85,940	\$ 107,371	\$ 148,808
Termination rate ²	12.00%	14.50%	19.50%
Gross In-force at end of year ¹ :			
Individual	\$ 596,520	\$ 623,528	\$ 639,360
Group	86,544	93,107	98,624
Gross In-force total at end of year	\$ 683,064	\$ 716,635	\$ 737,984
Reinsurance ceded at end of year	63,326	75,462	84,456
Net In-force at end of year	\$ 619,738	\$ 641,173	\$ 653,528

¹Before deduction of reinsurance ceded.

²Represents the percentage of individual policies terminated during the indicated period by lapse, surrender, conversion, maturity, or otherwise.

The downward trend in Net In-force amounts is primarily the result of the reduced new premium in the Preneed segment (as part of the Company's strategy) and continued benefit payments in this segment.

Dental Insurance. Dental products are indemnity policies sold on a pure group and voluntary group basis. Voluntary dental groups must meet prescribed participation limits. All dental products have annual limits on all covered procedures and lifetime limits on orthodontia procedures. In addition, orthodontia and major restorative procedures are not covered for the first six months to one year, depending upon the plan, unless a no-loss-no-gain provision is attached to the policy.

Other Health Insurance. Other Health products include individual accident and health insurance policies, which provide coverage for monthly income during periods of hospitalization, scheduled reimbursement for specific hospital and surgical expenses and cancer treatments, and lump sum payments for accidental death or dismemberment. Group health plans are also offered, providing coverage for short-term disability, and income protection. The Company is not allocating significant marketing resources to this segment.

Marketing. The Life Insurance Subsidiaries are currently licensed to sell products in 29 states and the District of Columbia. Citizens Security and United Liberty are both licensed in the states designated below with a "b" while only Citizens Security is licensed in the states designated "c" and only United Liberty in the states designated "u".

b	Alabama	b	Indiana	u	Nebraska	u	Oregon
u	Arizona	u	Kansas	u	Nevada	c	Pennsylvania
b	Arkansas	b	Kentucky	c	New Jersey	b	South Carolina
u	Colorado	b	Louisiana	u	New Mexico	b	Tennessee
c	Delaware	b	Maryland	c	North Carolina	b	Texas
c	District of Columbia	c	Mississippi	c	Ohio	u	Utah
b	Florida	b	Missouri	u	Oklahoma	c	Virginia
c	Georgia					b	West Virginia

The Life Insurance Subsidiaries market products through the personal producing general agent distribution system. Approximately 3,300 sales representatives are licensed as independent agents for the Life Insurance Subsidiaries. Nearly all of these agents also represent other insurers. Approximately 1,000 of these agents specialize in the home service market. That market consists primarily of middle and low-income families and individuals who desire whole life policies with policy limits typically below \$10,000. Agents usually collect premiums directly at monthly intervals. The home service market has higher than average policy lapse rates. Approximately 500 agents specialize in the Preneed market. Typically, these agents are funeral directors or operate from facilities owned by funeral directors.

The Life Insurance Subsidiaries furnish rate material, brochures, applications, and other pertinent sales material, at no expense to the agents. The agents are responsible for complying with state licensing laws and any related appointment fees. Agents are compensated by commissions. The Life Insurance Subsidiaries have agent commission arrangements that are generally intended to provide competitive incentives for agents to increase their production of new insurance and to promote continued renewals of in-force insurance. Historically, these incentives have frequently involved awards, overrides, and compensation scales that escalate according to achievement levels for newly-issued business and that provide additional payments for renewal business.

Underwriting. The Life Insurance Subsidiaries follow underwriting procedures designed to assess and quantify insurance risks before issuing life and health insurance policies to individuals and members of groups. Such procedures require medical examinations (including blood tests, where permitted) of applicants for certain policies of health insurance and for policies of life insurance in excess of certain policy limits. These requirements are graduated according to the applicant's age and vary by policy type. In addition, certain types of life insurance policies are offered with higher premium rates and less stringent underwriting requirements. The Life Insurance Subsidiaries also rely upon each applicant's written application for insurance, which is generally prepared under the supervision of a trained agent. In issuing health insurance, information from the application and, in some cases, inspection reports, physician statements, or medical examinations are used to determine whether a policy should be issued as applied for, issued with reduced coverage under a health rider, or rejected.

Acquired Immunodeficiency Syndrome ("AIDS") claims identified to date, as a percentage of total claims, have not been significant for the Life Insurance Subsidiaries. Evaluating the impact of future AIDS claims under health and life insurance policies issued is extremely difficult, in part due to the insufficiency and conflicting data regarding the number of persons now infected with the AIDS virus, uncertainty as to the speed at which the AIDS virus has and may spread through the general population, and advancements in medical treatment options. The Life Insurance Subsidiaries have implemented, where legally permitted, underwriting procedures designed to assist in the detection of the AIDS virus in applicants.

Investments. The Company derives a substantial portion of its revenue from investments. The Life Insurance Subsidiaries maintain diversified investment portfolios that are held primarily to fund future policyholder obligations. State insurance laws impose certain restrictions on the nature and extent of investments by insurance companies and, in some states, require divestiture of assets contravening these restrictions. Within the framework of such laws, the Life Insurance Subsidiaries follow a general strategy to maximize total return (current income plus appreciation) without subjecting themselves to undue risk. When deemed appropriate, the Life Insurance Subsidiaries have held selected non-investment grade bonds that provide higher yields or are convertible to common stock. The Company considers a bond non-investment grade if it is unrated or rated less than BBB by Standard & Poor's Rating Group ("S&P") or BAA by Moody's Investors Service ("Moody's"). The Company's non-investment grade bonds, based on reported fair values, represented 3.0% of the Company's cash and invested assets as of December 31, 2006. Citizens Security has maintained substantial investments in equity securities in an effort to achieve higher investment earnings than can usually be achieved through portfolio bonds but at a greater comparative risk. The Company also maintains an investment portfolio of equity securities separate from those of the Insurance Subsidiaries. Federally-insured mortgage-backed securities, collateralized mortgage obligations and real estate investments, apart from the investment in the office building described in Item 2, "Description of Property," represented approximately 0.6% of cash and invested assets as of December 31, 2006. Neither the Company nor its subsidiaries owned any collateralized mortgage-backed securities as of December 31, 2006 that would be included in the high-risk classification.

For additional information concerning investment results, see Item 7.

Reinsurance. In keeping with industry practice, the Life Insurance Subsidiaries reinsure, with unaffiliated insurance companies, portions of the life and health insurance risks which they underwrite. The Life Insurance Subsidiaries generally retain no more than \$40,000 of individual life insurance risk and \$20,000 of group life insurance risk for any single life. Graded death benefit and simplified issue coverages above \$4,000 are generally 50% reinsured, with the Life Insurance Subsidiaries maintaining a maximum \$10,000 risk on any one life. Individual and group accidental death coverage is 100% reinsured. At December 31, 2006, approximately \$63,326,000 or 9.3% of life insurance in force was reinsured under arrangements described in Note 11 of the Notes to the Consolidated Financial Statements. Under most reinsurance arrangements described above, new insurance is reinsured automatically rather than on a basis that would require the reinsurer's prior approval. Generally, the Life Insurance Subsidiaries enter into indemnity reinsurance arrangements to assist in diversifying their risks and to limit their maximum loss on large or unusually hazardous risks. Indemnity reinsurance does not discharge the ceding insurer's liability to meet policy claims on the reinsured business. Accordingly, the Life Insurance Subsidiaries remain responsible for policy claims on the reinsured business to the extent a reinsurer should fail to pay such claims.

Competition. The insurance industry is highly competitive, with approximately 1,500 life and health insurance companies in the United States. Many insurers and insurance holding company systems have substantially greater capital and surplus, larger and more diversified portfolios of life and health insurance policies, and larger agency sales operations than those of the Life Insurance Subsidiaries. Financial and claims-paying ratings assigned to insurers by A.M. Best Company ("Best") and by nationally recognized statistical rating organizations have become more important to policyholders. Citizens Security's rating was last changed by Best in October 2001, when it was downgraded to B- (Fair) from B (Fair). The B-rating was reaffirmed in December 2006. United Liberty's rating has remained at B- (Fair) since its 1998 acquisition. According to Best, B- ratings are assigned to companies that have on balance, fair financial strength, operating performance and market profile when compared to the standards established by Best. Also according to Best, B- companies have an ability to meet their current obligations to policyholders, but their financial strength is vulnerable to adverse changes in underwriting or economic conditions. There are seven Best rating categories above the B- category from B to A++. The Life Insurance Subsidiaries will continue to pursue upward revisions in their Best ratings. Citizens Insurance has no insurance business in force and is not rated by Best.

A rating is not a recommendation to buy, sell or hold securities and is subject to revision or withdrawal by the assigning rating organization. Each rating should be evaluated independently of any other rating.

The Life Insurance Subsidiaries compete primarily on the basis of the experience, size, accessibility and claims response of their customer service representatives, product design, service and pricing. The Company believes that the Life Insurance Subsidiaries are generally competitive in the markets in which they are engaged based upon premium rates and services, have good relationships with their agents, and have an adequate variety of insurance and annuity products approved for issuance.

State Insurance Regulation. The Insurance Subsidiaries are subject to comprehensive regulation in the states in which they are authorized to conduct business. The laws of such states establish supervisory agencies with broad administrative powers, among other things, to grant and revoke licenses for transacting business, regulate the form and content of policies, establish reserve requirements, prescribe the type and amount of allowable investments, and review premium rates for fairness and adequacy. The Insurance Subsidiaries file detailed annual statements with the National Association of Insurance Commissioners ("NAIC") and with many states in which they are licensed to transact business. The Kentucky Office of Insurance ("KOI") also periodically examines the business and accounts of the Insurance Subsidiaries.

The Life Insurance Subsidiaries also can be required, under the solvency or guaranty laws of most states in which they do business, to pay assessments (up to prescribed limits) to fund policyholder losses or liabilities of other insurance companies that become insolvent. These assessments may be deferred or foregone under most guaranty laws if they would threaten an insurer's financial strength and, in certain instances, may be offset against future premium or intangible property taxes. Gross assessments for the Life Insurance Subsidiaries, net of refunds but before offsets for future premium or intangible property taxes, were \$171, \$5,544, and \$5,178 in 2006, 2005, and 2004, respectively.

Kentucky, in common with substantially all states, regulates transactions between or affecting insurance holding companies and their insurance company subsidiaries, including the Company and the Insurance Subsidiaries. Generally, under Kentucky insurance holding company statutes, the KOI must approve in advance the direct or indirect acquisition of 15% or more of the voting securities of an insurance company organized under the laws of Kentucky. Such statutes also regulate certain transactions among affiliates, including the payment of dividends by an insurance company to its holding company parent. Under the Kentucky statutes, the Insurance Subsidiaries may not during any year pay dividends on their common and preferred stock to their parent company in excess of the lesser of the net gain from operations for the preceding year or 10% of their capital and surplus at the end of the preceding year, without the consent of the Executive Director of the KOI. For 2007, the maximum amount of dividends that Citizens Security, United Liberty and Citizens Insurance could pay, without the Executive Director's approval, is \$29,700, \$228,100 and \$19,700, respectively. The Company provides substantially all management, operating and employee services for the Insurance Subsidiaries and is reimbursed at actual cost plus 15%. This management fee totaled \$5,759,000 for 2006. The Company currently has resources which management believes will be adequate to service debt obligations through 2007, without relying upon affiliate dividends for near-term debt service.

During recent years, the NAIC has taken several steps to address public concerns regarding insurer solvency. These steps included implementing a state certification program designed to promote uniformity among the insurance laws of the various states and developing insurer reporting requirements that focus on asset quality, capital adequacy, profitability, asset/liability matching, and liquidity. These requirements include establishment of asset valuation reserves ("AVR") and interest maintenance reserves ("IMR"), risk-based capital ("RBC") rules to assess the capital adequacy of an insurer, and a revision to the Standard Valuation Law ("SVL") that specifies minimum reserve levels and requires cash flow testing in which projected cash inflows from assets are compared to projected cash outflows for liabilities to determine reserve adequacy.

The Life Insurance Subsidiaries' AVR, as of December 31, 2006, 2005 and 2004, is shown in Item 7. Cash flow testing and the results of such testing as applied to the Life Insurance Subsidiaries are also described and discussed in Item 7.

RBC provides a means of establishing the capital standards for insurance companies to support their overall business operations in light of their size and risk profile. The four categories of major risk involved in the formula are [i] asset risk - the risk with respect to the insurer's assets; [ii] insurance risk -- the risk of adverse insurance experience with respect to the insurer's liabilities and obligations; [iii] interest rate risk -- the interest risk with respect to the insurer's business; and [iv] business risk -- all other business risks. A company's RBC is calculated by applying factors to various asset, premium and reserve items, with higher factors for those items with greater underlying risk and lower factors for less risky items.

RBC standards are used by regulators to set in motion appropriate regulatory actions relating to insurers that show signs of weak or deteriorating conditions. They also provide an additional standard for minimum capital, below which companies would be placed in conservatorship.

Based on RBC computations as of December 31, 2006, the Insurance Subsidiaries each have capital that is in excess of minimum regulatory requirements.

Action taken by the NAIC in these and other areas may have a significant impact on the regulation of insurance companies during the next several years. In addition, various proposals are being considered for permitting insurers to elect Federal regulation. Given their comparatively small size, it may be expected that the Life Insurance Subsidiaries would be affected by more stringent regulatory policy, both under existing laws and any new regulatory initiatives. Such effects could include curtailment or discontinuance of insurance underwriting in one or more states, mandated increases in capital and surplus, and/or other effects.

Income Taxation. The Life Insurance Subsidiaries are taxed under the life insurance company provisions of the Internal Revenue Code of 1986, as amended (the "Code"). Under the Code, a life insurance company's taxable income incorporates all income, including life and health premiums, investment income, and certain decreases in reserves. The Code currently establishes a maximum corporate tax rate of 34% and imposes a corporate alternative minimum tax rate of 20%. See Item 7 and Note 7 of the Notes to Consolidated Financial Statements.

The Code currently requires capitalization and amortization over a five to ten year period of certain policy acquisition costs incurred in connection with the sale of certain insurance products. Prior tax laws permitted these costs to be deducted as incurred. These provisions apply to life, health, and annuity business. Certain proposals to make additional changes in the federal income tax laws, including increasing marginal tax rates, and regulations affecting insurance companies or insurance products, continue to be considered at various times in the United States Congress and by the Internal Revenue Service. The Company currently cannot predict whether any additional changes will be adopted in the foreseeable future or, if adopted, whether such measures will have a material effect on its operations.

Reserves. In accordance with applicable insurance laws, the Life Insurance Subsidiaries have established and carry as liabilities actuarially determined reserves to meet their policy obligations. Life insurance reserves, when added to interest thereon at certain assumed rates and premiums to be received on outstanding policies, are required to be sufficient to meet policy obligations. Reserves maintained for health insurance include the unearned premiums under each policy, reserves for claims that have been reported but not yet paid, and reserves for claims that have been incurred but have not been reported. Furthermore, for all health policies under which renewability is guaranteed, additional reserves are maintained in recognition of the actuarially calculated probability that the frequency and amount of claims will increase as policies persist. The Life Insurance Subsidiaries are required to maintain reserves on reinsured business assumed on a basis essentially comparable to direct insurance reserves. Reinsurance business assumed is presently insignificant in amount.

The reserves carried in the financial statements included in this Form 10-K are calculated on the basis of accounting principles generally accepted in the United States and differ from the reserves specified by laws of the various states, which govern preparation of financial statements on the statutory basis of accounting for the Life Insurance Subsidiaries. These differences arise from the use of different mortality and morbidity tables and interest assumptions, the introduction of lapse assumptions into the reserve calculation, and the use of the level premium reserve method on all insurance business. See Note 1 of the Notes to Consolidated Financial Statements, for certain additional information regarding reserve assumptions under accounting principles generally accepted in the United States.

Employees. As of March 1, 2007, the Company employed 69 people, excluding agents. As of that date, the Company had approximately 3,300 independent agents licensed to sell its products.

ITEM 1A. RISK FACTORS

The following list describes several of the more significant risk factors unique to our company. Additional risks to which we are subject include, but are not limited to, the factors discussed under "Forward-Looking Statements" and elsewhere in this Form 10-K:

Market fluctuations and general economic conditions may adversely impact our operating results and financial position.

Our investment income and the values of our investment holdings are sensitive to stock, real estate and interest rate market fluctuations and general economic conditions and these fluctuations could adversely affect our investment returns, realized and unrealized investment gains and losses and the value of our invested assets. A prolonged period of high inflation could cause a negative change in consumer sentiment adversely affecting the sales and persistency of our products. Market conditions also determine the availability and cost of reinsurance we employ to limit our risks.

Losses due to defaults by others could adversely impact the value of our investments and our operating results.

Issuers and borrowers whose securities we hold and reinsurers may default on their obligations to us due to bankruptcy, insolvency, lack of liquidity, adverse economic conditions, operational failure, fraud or other reasons, having an adverse impact on our operating results and financial position.

The life insurance industry is becoming increasingly competitive. If we are not able to effectively compete it would adversely impact our operating results and financial position.

We face significant competition, including from companies with significantly greater resources. Product life cycles have shortened in many product segments, creating intense competition regarding product features. Larger companies with greater resources are able to allocate more resources to brand identity, product development and risk management, as well as distribution capability and information technology needed to offer the superior customer service demanded by an increasingly sophisticated marketplace (both policyholder and agent base).

Differences between actual claims experience and underwriting and reserving assumptions might adversely impact our operating results and financial position.

We set prices for our insurance products based upon expected claims, using assumptions for mortality and morbidity rates of our policyholders and expected persistency of our products. Significant deviations in actual experience from our pricing assumptions could adversely affect our profitability.

If our reserves for future policyholder benefits are inadequate, an increase in our reserves in the future would adversely impact our operating results and financial position.

We establish reserves to pay future policyholder benefits based upon actuarial or statistical estimates, using many assumptions and projections which involve the exercise of significant judgment, including as to the levels of and timing of receipt or payment of premiums, benefits, claims, expenses, interest credits, investment results, surrenders, mortality, morbidity and persistency. If we conclude that our reserves are inadequate, we would be required to increase our reserves and incur operating statement charges for the period in which we make the determination, adversely impacting our operating results and financial position.

Reinsurance may not be available, affordable or adequate to protect us against losses.

While life reinsurance generally binds the reinsurer for the life of the business reinsured at generally fixed pricing, market conditions determine the availability and cost of reinsurance protection for new business. As a result of consolidation of the life reinsurance market and other market factors, capacity in the life reinsurance market has decreased. Further, life reinsurance is currently available at higher prices and less favorable terms than those prevailing in earlier years. Further consolidation, regulatory developments, catastrophic events or other significant developments affecting the pricing and

availability of reinsurance could materially harm the reinsurance market and our ability to enter into reinsurance agreements. An increase in the cost of reinsurance or our inability to protect ourselves against large losses would adversely impact our operating results and financial position.

We may be unable to attract and retain sales representatives for our products which would adversely impact our operating results and financial position.

We use an independent agent distribution channel to sell our products. Our independent agents generally sell competing products offered by a number of different insurance companies. Strong competition exists among insurance companies for agents with demonstrated ability. The companies represented by independent agents compete on the basis of financial position, support services, compensation, product features and other factors. If we are unsuccessful in attracting and retaining high quality, producing agents our profitability could be significantly adversely affected.

We may not be able to raise capital, if necessary, at an affordable cost which could adversely impact our operating results.

Due to our relative small size, the relatively thin market for shares of our stock and our lack of a stable history of income, we may not be able to raise additional capital or borrowings, if needed, with acceptable terms. This could force us to forgo opportunities to grow or force us to raise capital with unfavorable terms, which could adversely impact our operating results and financial position.

The loss and replacement of a key employee or director could disrupt our operations and adversely impact our operating results.

Due to the relative size and the limited resources of our business we are forced to operate with a limited number of key management employees. The loss of one or more of our key employees or directors could be disruptive to our operations, and filling a vacancy could be expensive and difficult because we compete with larger companies having greater resources for qualified management employees and directors. Such a loss could adversely impact our operating results.

We may be required to accelerate the amortization of deferred policy acquisition costs ("DAC"), or value of insurance acquired ("VIF"), or recognize impairment in the value of our goodwill that would adversely impact our operating results and financial position.

Deferred policy acquisition costs represent the costs that vary with and are related primarily to the acquisition of new and renewal insurance contracts. We amortize these costs over the expected lives of the related insurance contracts. Value of insurance acquired represents the present value of future profits embedded in acquired business and is amortized over the expected lives of the acquired contracts. Goodwill represents the excess of the amounts we paid to acquire subsidiaries and other business over the fair value at the date of acquisition of the net assets acquired. Management continuously tests the DAC and VIF to determine if the recorded amounts are recoverable under current assumptions. We also regularly review the estimates and assumptions underlying DAC and VIF for those products for which we amortize DAC and VIF in proportion to gross profits. Management reviews goodwill for impairment at least annually based upon estimates of the fair value of the reporting unit to which the goodwill relates. Given changes in facts and circumstances, these tests and reviews could lead to reductions in goodwill, DAC or VIF that could have an adverse impact on our operating results and financial position.

A downgrade or potential downgrade in our claims paying rating could limit our ability to market products and/or increase the number or value of policies being surrendered.

Claims paying ratings represent the opinions of rating agencies regarding the financial ability of an insurance company to meet its obligations under an insurance policy, and are important factors affecting public confidence in an insurer and its competitive position in marketing products.

Our operating insurance subsidiaries are heavily regulated and changes in regulation could reduce our profitability and limit our growth.

Our insurance subsidiaries are regulated by the KOI and other states in which they are licensed to do business. We are also subject to the rules and regulations of the SEC and NASDAQ relative to reporting and disclosure, security trading, accounting and financial reporting and corporate governance matters. The Sarbanes-Oxley Act of 2002 and the rules and regulations adopted in furtherance of that Act have substantially increased the requirements in these and other areas for public companies. Compliance with applicable laws and regulations is time consuming and staff intensive. Changes in these laws and regulations may materially increase our direct and indirect compliance costs, adversely impacting our operating results and financial position.

Legal actions are inherent in our insurance business and could adversely impact our operating results and financial position.

We face a significant risk of litigation and regulatory investigations and actions in the ordinary course of business, including the risk of class action lawsuits. Any adverse judgment against us, and the legal costs of defending our company in potentially lengthy legal battles would have an adverse impact on our operating results and financial position, as well as threaten our ability to continue operating.

Catastrophes may adversely impact our operating results and financial position.

Our insurance operations are exposed to the risk of catastrophic mortality, such as a pandemic or other natural or man caused event that causes a large number of deaths. The occurrence of any such catastrophic event could materially adversely impact our operating results and financial position due to a potentially large number of death claims and surrenders.

Our risk management policies and procedures may leave us exposed to unidentified or unanticipated risk which could adversely impact our operating results and financial position.

Our policies and procedures to monitor risks may not be fully effective and may leave us exposed to unidentified and unanticipated risks. Past or future employee or agent misconduct could result in violations of law by us, regulatory sanctions, serious financial harm or harm to our reputation, and the precautions we take to prevent and detect such activity may not be effective in all cases. A failure of our computer systems or a compromise of their security could subject us to regulatory sanctions or other claims, harm our reputation, interrupt our operations and adversely impact our business, operating results, or financial position.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

The Company owns, through Citizens Security, a three-story, 63,000 square foot office building in suburban Louisville, Kentucky completed in 1988. The Company and its Subsidiaries occupy about 32% of the building for their headquarters and home offices. The remaining 68% of the building space is available for lease to tenants under leases of various durations. Market conditions for this property are generally favorable and, in management's opinion, the property is adequately covered by insurance. Currently, the Company's policy is not to invest in additional real estate or real estate mortgages, although a change in such policy would not require a vote of security holders. In addition, the Company's current bank lending agreement precludes investment in additional real estate and in mortgages with a loan-to-appraised-value ratio of more than 75%.

ITEM 3. LEGAL PROCEEDINGS

The Company is party to lawsuits in the normal course of business. Based on information currently available, management believes that currently pending lawsuits will be resolved without material financial impact to the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matter was submitted during the fourth quarter of the fiscal year covered by this Form 10-K to a vote of the Company's security holders, through the solicitation of proxies or otherwise.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

As of March 21, 2007, there were approximately 2,300 holders of record of the Company's Class A Stock, its only class of common equity. The Class A Stock is currently eligible for quotation on the National Association of Securities Dealers, Inc.'s Small-Cap Market ("NASDAQ") under the trading symbol CNFL. Trading volume in 2006 was 22.5% of the average shares outstanding during the year and trading volume by non-affiliates was about 62.6% of the average shares owned by non-affiliates during the year.

The following table summarizes quarterly high and low bid quotations for the Class A Stock in 2006 and 2005 as reported by NASDAQ. Such quotations reflect inter-dealer prices and do not include retail markup, markdown, or commission, and may not necessarily represent actual transactions.

<u>Quarter Ended</u>	<u>Bid Quotations for Class A Stock</u>			
		<u>High Bid</u>		<u>Low Bid</u>
December 31, 2006	\$	6.840	\$	4.200
September 30, 2006	\$	6.580	\$	4.560
June 30, 2006	\$	8.070	\$	5.810
March 31, 2006	\$	6.620	\$	2.700
December 31, 2005	\$	7.500	\$	6.250
September 30, 2005	\$	8.750	\$	6.500
June 30, 2005	\$	9.000	\$	7.010
March 31, 2005	\$	10.000	\$	6.750

The Company has not paid a dividend on the Class A Stock. The Board of Directors of the Company has not adopted a dividend payment policy; however, dividends must necessarily depend upon the Company's earnings and financial condition, applicable legal restrictions, and other factors relevant at the time the Board of Directors considers a dividend policy. The Company is subject to a loan agreement covenant that prevents it from paying dividends on the Class A Stock without the consent of the lender except to the extent it can meet certain requirements relating to the ratio of its outstanding borrowings compared to dividends and income before interest expense, amortization, depreciation and income tax expense for (5) consecutive quarters and provided that there is no default or potential default under the loan agreement. As of January 2007, the bank loan covenant precludes the Company from paying any dividends. Cash available for dividends to shareholders of the Company must initially come from income and capital gains earned on its investment portfolio, management service fees and dividends paid by the Insurance Subsidiaries, and Citizens Security's repurchase of its preferred stock owned by the Company. Provisions of the Kentucky Insurance Code subject transactions between the Insurance Subsidiaries and their respective parents, including dividend payments, to certain standards generally intended to prevent such transactions from adversely affecting the adequacy of the Insurance Subsidiaries' capital and surplus available to support policyholder obligations. See Item 1. "Description of Business -- State Insurance Regulation." In addition, under the Kentucky Business Corporation Act, the Company may not pay dividends if, after giving effect to a dividend, it would not be able to pay its debts as they become due in the usual course of business or if its total liabilities would exceed its total assets.

Equity Compensation Plan Information

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column a)
Equity compensation plans approved by security holders	0	Not applicable	110,000
Equity compensation plans not approved by security holders	0	Not applicable	0
Total	0	Not applicable	110,000

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share (a)	Total Number of Shares Purchased as part of Publicly Announced Plans or Programs (b)	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs (b)
October 1, 2006 through October 31, 2006	0	\$0.00	0	\$406,621
November 1, 2006 through November 31, 2006	10,719	\$5.37	10,719	\$349,103
December 1, 2006 through December 31, 2006	34,637	\$6.27	34,637	\$131,767
Total	45,356	\$6.06	45,356	

- (a) The average price paid per share of stock repurchased under the stock repurchase program includes any commissions paid to the brokers.
- (b) Information in these columns relates to the stock repurchase program publicly announced on August 12, 1998 under which our Board of Directors authorized the repurchase of up to an aggregate of \$1,200,000 of our common stock, amended November 12, 2002 to authorize the repurchase of an additional \$250,000 and further amended May 23, 2006 to authorize repurchase of an additional \$500,000. Under the repurchase program, we may repurchase outstanding shares of our common stock from time to time in the open market and through privately negotiated transactions. Unless terminated earlier by resolution of our Board of Directors, the repurchase program will expire when we have repurchased all shares authorized for repurchase under the repurchase program.

- (a) Net income (loss) per share and shareholders' equity per share are based upon the weighted average common shares outstanding in 2006, 2005, 2004, 2003 and 2002 of 1,652,605, 1,671,628, 1,671,628, 1,685,390, and 1,711,627, respectively.
- (b) Net investment income reported in the consolidated financial statements as a percent of average cash and invested assets.

**ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATION**

EXECUTIVE SUMMARY

The Company's management continuously monitors the performance of and outlook for the Company by analyzing several indicators that they judge to be critical. The key indicators of particular interest to management are (a) the general economic environment relative to outlook, (b) trend of premium volume, (c) lapse rates, (d) mortality and morbidity rates, (e) trend of general expense levels, (f) asset and capital and surplus growth, (g) general interest rate movements, (h) investment yields, (i) diversity (e.g. by industry) and mix (e.g. between fixed income securities and equity securities) of our investment portfolios and (j) segment performance and trends.

The Company's management has identified the following as major financial, operational and marketing accomplishments during 2006:

The Company:

- positioned itself for expansion of its group product line by:
 - placing a new web-enabled group administration system into service
 - hiring an experienced Executive Vice President for Group Products
 - developing a new group vision product for introduction in 2007
 - developing a more flexible group dental product for introduction in 2007
 - obtaining the backing, through reinsurance, of a highly rated reinsurer for all new group products issued
- experienced significant growth in the new Final Expense premium and distribution channel.

Management sees the following as its key challenges for 2007:

- Financial
 - (1) generating significant premium growth for the Final Expense product
 - (2) recruiting several Group Product marketing representatives, setting the stage for significant premium growth for these products in 2008 and beyond
 - (3) earning an operating profit (see page 28 of this Management Discussion and Analysis of Financial Condition and Results of Operation and Note 8 to the Consolidated Financial Statements for a discussion of statutory accounting)
 - (4) continuing to solidify the ratings from A.M. Best and setting the stage for a future rating upgrade (see the section titled "Competition" in Item 1 in this Form 10-K for a discussion of the Company's rating)
- Operational
 - (1) continuing to control operating expenses while expanding distribution and implementing the reviews required for compliance with the federal Sarbanes-Oxley Act
 - (2) enhancing software technology

- Product line

- (1) for Group Products: exploring non-traditional methods of growth, such as third party administration, marketing partnerships and acquisitions
- (2) for Final Expense: continuing to increase premiums at a steady pace
- (3) for Home Service: minimizing the lapse rate, improving 13-month persistency, strengthening controls over field premium collection, maintaining distribution relationships and controlling expenses
- (4) for Preneed: maintaining current distribution relationships and controlling costs and expenses

The following discussion is presented to provide the reader with a clearer understanding of some of the operational elements impacting the financial position and results as reported in the accompanying consolidated balance sheets and related consolidated statements of operations, shareholders' equity and cash flows.

For the year 2006, the Company reported a consolidated pretax operating loss (which excludes net realized investment gains of \$4,000) of \$486,000, compared to a pretax operating loss of \$648,000 (which excludes net realized investment gains of \$780,000) for 2005 and a net loss of \$836,000 for 2006, compared to a net income of \$132,000 for 2005. The net realized investment gains of \$4,000 in 2006 are net of write downs of \$687,000 of available-for-sale equity securities which management deemed to be other-than-temporarily impaired. There were no such write downs in 2005.

The Company is subject to various market risks. The most significant risks relate to fluctuations in interest rates (which impact prices of fixed maturity securities) and prices of equity securities. The Company has at times experienced negative total returns (defined as *investment income and realized and unrealized investment gains and losses*) on its investment portfolio, however the total return for 2006 was 3.50% (the Company recorded pre-tax unrealized losses of \$2,534,000 on debt securities and unrealized gains of \$301,000 on equities) compared to a total return of 2.60% in 2005. Historically these returns have been favorable and the Company has successfully managed the risk over many years. Company management devotes significant attention to the capital markets, and repositions the Company's portfolio upon detection of adverse risk trends associated with individual securities or overall markets.

In an effort to increase levels of risk adjusted statutory surplus at the insurance subsidiary level, management repositions the portfolio to take advantage of opportunities and increased its investment in equity securities on a market value basis by \$849,000 or 9.9 % and decreased fixed maturity securities by \$11,863,000 or 10.5% (principally, securities with longer maturity dates resulting in greater risks) during 2006. Management anticipates that this action will negatively impact long-term total returns, however, the Company will further reposition the portfolios, as opportunities become available, in order to increase total returns and maintain an acceptable risk-adjusted statutory surplus at the insurance subsidiary level.

General expenses and depreciation for 2006 were up \$428,000, or 6.2%, compared to 2005, principally due to the costs of employing a marketing executive for life insurance products in the second quarter of 2005 and one marketing executive for the group dental product in the fall of 2005 and one in the fall of 2006. We also placed in service, and therefore began to depreciate, the new group administration system in January 2006.

Segment Profit (Loss)

The Company manages its operations in five business segments, Home Service Life, Broker Life, Preneed Life, Dental, and Other Health. Products in all five segments are sold through independent agency operations. Home Service Life consists primarily of traditional life insurance coverage sold in amounts of \$10,000 and less to middle and lower income individuals. This distribution channel is characterized by a significant amount of agent contact with customers throughout the year. Broker Life product sales consist primarily of simplified issue and graded-benefit policies in amounts of \$10,000 and less, as well as our new Final Expense product in amounts of \$10,000 to \$25,000. Other products in the Broker Life segment that comprise a significant portion of existing business include group life, universal life, annuities and participating life policies. Preneed Life products are sold to individuals in connection with prearrangement of their funeral and include single and multi-pay policies, generally in amounts of \$10,000 and less. These policies are generally sold to middle aged and elderly individuals. Dental products are term policies generally sold to small and intermediate size employer groups.

Other Health products include various accident and health policies sold to individuals and employer groups. Profit or loss for each segment is reported on a pretax basis, without an allocation of realized investment gains or interest expense.

The Company's 2006 segment income (loss) was \$1,000 compared to losses of \$(269,000) in 2005 and \$(2,307,000) in 2004. The segment loss in 2004, excluding nonrecurring items described below, was \$(481,000).

The nonrecurring items in 2004 include costs of \$1,190,000 (settlement and legal costs) incurred in 2004 associated with the legal proceedings described in Item 3, and additional one time consulting expenses of \$636,000 related to redesign and other organizational restructuring begun in 2003, as well as severance agreements.

Segment income (loss) increased \$270,000 to \$1,000 in 2006 compared to a segment loss of \$(269,000) in 2005 primarily due to the *positive* impact of: (a) a decrease in policyholder benefits of \$3,554,000; (b) a decrease in commissions of \$113,000; (c) a decrease in amortization of deferred policy acquisition costs and value of insurance acquired of \$194,000, and (d) an increase in policy acquisition costs deferred of \$208,000, offset by the *negative* impact of: (e) a decrease in net premiums earned of \$3,175,000 (Pre-need decreased \$2,300,000, Dental decreased \$376,000, Home Service decreased \$330,000, Other Health decreased \$41,000, and Broker Life decreased \$128,000 (net of the increase in new final expense premiums of \$901,000)); (f) a decrease in investment and other income of \$196,000 and (g) an increase in general expenses and depreciation of \$428,000.

See pages 26 through 28 of Management's Discussion and Analysis for a more extensive analysis of factors impacting the individual segment operating results between years.

Net Income

The Company's 2006 net loss was \$(836,000) compared to a net income of \$132,000 and \$256,000 in 2005 and 2004, respectively. These results reflect the segment losses described above (including nonrecurring items) and net realized investment gains of \$4,000, \$780,000 and \$2,868,000 in 2006, 2005 and 2004, respectively. The Company realized significant investment gains in both 2005 and 2004 due to restructuring the investment portfolio to include a greater proportion of fixed maturity investments with shorter durations and fewer equity investments while taking advantage of an upturn in the equities market. After the restructuring, our equities portfolio did not present opportunities for similar levels of realized gains in 2006. Net realized investment gains and losses include losses resulting from the write down of securities deemed by management to be other than temporarily impaired of \$687,000, \$0 and \$653,000 in 2006, 2005 and 2004, respectively.

Comprehensive Income (Loss) Comprehensive Income (Loss) (which combines net income (loss) and net unrealized gains and losses) was \$(2,613,000), \$(2,510,000), and \$(977,000) for 2006, 2005, and 2004, respectively. During 2006, the Company continued to be adversely affected by relatively low yields on its fixed income investment portfolio. The increase of \$103,000 in comprehensive loss in 2006 is attributable to the decrease in unrealized losses of \$865,000, offset by the decrease in net income of \$968,000 described above. Net unrealized losses in 2006 are comprised of net losses in our fixed maturities portfolio of \$1,697,000, offset by unrealized gains in our equities portfolio of \$589,000. Late in the second quarter of 2005, interest yields on fixed maturity investments began to rise. Although this adversely impacted the market value of the Company's bond portfolio, management believes the opportunity to invest new money at higher yields will have a long term positive impact on the Company's operating earnings. The 2006 environment continued to generate a relatively high level of qualitative investment risk, as discussed in the Cash Flow and Liquidity section. The 2005 Comprehensive Loss results from unrealized losses resulting from market interest rates beginning to increase in 2005 (and therefore the decline of \$1,774,000, net of taxes, in the values of our fixed income portfolio) and a decline of \$868,000, net of taxes, in the value of our equities portfolio, offset by net income of \$132,000.

During 2006, the Company repurchased 83,617 shares of its common stock at an average price of \$6.16 per share. There were no repurchases in 2005 and in 2004 13,600 shares were repurchased at an average price of \$7.50 per share.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's discussion and analysis of its financial condition and results of operations are based on its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. Preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to investments, agent receivables, intangible assets, policy liabilities, income taxes, regulatory requirements and contingencies. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The Company believes the following accounting policies, judgments and estimates, which have been discussed with the Audit Committee of the Board of Directors, critically impact preparation of its consolidated financial statements.

Investment in Debt and Equity Securities. The Company holds debt and equity interests in a variety of companies, many of which are seeking to exploit recent technology advancements. The majority of these are publicly traded and many have experienced volatile market prices. Company management periodically evaluates whether the declines in fair value of investments are other-than-temporary. These evaluations involve significant judgment. The evaluations consist of a review of qualitative and quantitative factors, including analysis of the issuer's competitive position in its markets, deterioration in the financial condition of the issuer, downgrades of the security by a rating agency, and other publicly available issuer-specific news or general market conditions. Declines in fair values of securities deemed to be temporary and which the Company has the ability and intent to hold until full recovery are included as an unrealized loss in shareholders' equity. Declines in fair values of securities deemed to be other-than-temporary are included in net income as realized investment losses. Future adverse changes in market conditions or poor operating results of underlying investments could result in losses or an inability to recover the current carrying value of the investments, thereby possibly requiring an impairment charge in the future.

Deferred Acquisition Costs ("DAC"). The Company is required to defer certain policy acquisition costs and amortize them over future periods. These costs include commissions and certain other expenses that vary with and are primarily associated with acquiring new business. The deferred costs are recorded as an asset commonly referred to as deferred policy acquisition costs ("DAC"). The DAC asset balance is subsequently charged to income over the lives of the underlying contracts in relation to the anticipated emergence of revenue or profits. Actual revenue or profits can vary from Company estimates, resulting in an increase or decrease in the rate of amortization. The Company regularly evaluates its DAC balances to determine if actual experience or other evidence suggests that earlier estimates should be revised. Assumptions considered significant include surrender and lapse rates, mortality, expense levels, investment performance, and estimated interest spread. Should actual experience dictate that the Company change its assumptions regarding the emergence of future revenues or profits (commonly referred to as "unlocking"), the Company would record a charge or credit to bring its DAC balance to the level it would have been if using the new assumptions from the inception date of each policy.

DAC is also subject to periodic recoverability and loss recognition testing. These tests ensure that the present value of future contract-related cash flows will support the capitalized DAC balance to be amortized in the future. The present value of these cash flows, less the benefit reserve, is compared with the unamortized DAC balance and if the DAC balance is greater, the deficiency is charged to expense as a component of amortization and the asset balance is reduced to the recoverable amount. For more information about accounting for DAC see Note 1, Summary of Significant Accounting Policies, in the Notes to Consolidated Financial Statements.

Goodwill and Intangible Impairment. The balance of the Company's goodwill and value of insurance acquired (VIF) was \$2.7 million at December 31, 2006. The recovery of these assets is dependent on the fair value of the business to which they relate. Pursuant to Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets", goodwill is subject to annual impairment tests based on the estimated fair value of the respective assets. There are numerous assumptions and estimates underlying the determination of the estimated fair value of these assets. Different valuation methods and assumptions can produce significantly different results that could affect the amount of any potential impairment charge that might be required to be recognized. During both 2006 and 2005, the Company concluded that no impairment adjustment was necessary for its goodwill or VIF.

Policy Liabilities. Establishing policy liabilities for the Company's long-duration insurance contracts requires making many assumptions, including policyholder persistency, mortality rates, investment yields, discretionary benefit increases,

new business pricing, and operating expense levels. The Company evaluates historical experience for these factors when assessing the need for changing current assumptions. However, since many of these factors are interdependent and subject to short-term volatility during the long-duration contract period, substantial estimates and judgment are required. Accordingly, if actual experience emerges differently from that assumed, any such difference would be recognized in the current year's Consolidated Statement of Operations.

Deferred Income Taxes. The Company records a valuation allowance to reduce its deferred tax assets to the amount that it believes is more likely than not to be realized. In assessing the need for the valuation allowance, the Company has not assumed future taxable income. In the event the Company were to determine that it would be able to realize its deferred tax assets in the future in excess of its net recorded amount, an adjustment to deferred tax assets would increase income in the period such determination was made. Likewise, should the Company determine that it would not be able to realize all or part of its net deferred tax assets in the future, an adjustment to deferred tax assets would be charged to income in the period such determination was made.

FINANCIAL POSITION

Assets. At December 31, 2006, the Company's available-for-sale fixed maturities had a fair value of \$101,062,000 and amortized cost of \$102,759,000. The Company's fixed maturities portfolio decreased approximately 8.3% during 2006 and increased 0.6% during 2005, on an amortized cost basis. Shown below is a distribution by rating category of the Company's fixed maturities portfolio as of December 31, 2006.

Standard & Poor's Corporation Rating	Amortized Cost ¹	Fair Value ²
Investment grade:		
AAA to A-	\$ 62,349,847	\$ 61,546,629
BBB+ to BBB-	36,289,824	35,737,920
Total investment grade	98,639,671	97,284,549
Non-investment grade:		
BB+ to BB-	2,440,534	2,335,995
B+ to B-	98,173	135,625
CCC+ to C	-	-
CI to not rated	1,580,153	1,305,597
Total non-investment grade	4,118,860	3,777,217
Total fixed maturities	\$ 102,758,531	\$ 101,061,766

¹ Net of write-downs on bonds whose decline in value is believed to be other-than-temporary

² Fair values as of December 31, 2006 were obtained primarily from Interactive Data Corporation.

The Company believes it has a well-diversified portfolio and has no plans to adjust its non-investment grade portfolio significantly, unless necessary to satisfy requirements of state regulators or rating agencies. The Company purchases non-investment grade bonds to obtain higher yields or convertible features and attempts to reduce credit risk by portfolio diversification. Non-investment grade securities comprised 4.0% and 3.8% of the fixed maturities portfolio, on an amortized cost basis, at December 31, 2006 and 2005, respectively. During 2006 and 2005, the Company did not recognize any impairment losses on fixed maturities. The Company reviews its fixed maturity portfolio quarterly for impairment losses which might be other than temporary losses and recognizes all such losses in the quarter they are deemed other than temporary.

Realized investment losses included \$687,000, \$0 and \$807,000 of pretax impairment losses in 2006, 2005 and 2004, respectively. The impairments recorded were the result of the continued credit deterioration of specific issuers in the bond and equity markets, especially in the biomedical and technology industries.

Shown below are the Company's four largest holdings in non-investment grade bonds by a single issuer as of December 31, 2006.

December 31, 2006	Non-Investment Grade	
	Amortized Cost	Fair Value
Largest	\$ 1,498,636	\$ 1,346,250
Second largest	923,818	887,497
Third largest	498,309	469,793
Fourth largest	495,855	447,675
Total	\$ 3,416,619	\$ 3,151,216

The Company had no guarantee or other type of enhancement associated with the issuers represented above.

During 2006, the Company's investment in equity securities increased \$548,000 on a cost basis, and increased \$849,000 on a fair value basis, after increasing \$1,001,000 on a cost basis, and decreasing \$363,000 on a fair value basis during 2005. As of December 31, 2006, 2005 and 2004, there were \$589,000, \$288,000 and \$1,652,000 respectively, of unrealized gains on equity securities.

The Company reviews its marketable investments each quarter to determine if there have been declines in their value that in management's opinion is other-than-temporary. These reviews involve qualitative and quantitative information relating to an individual company or industry and general factors impacting the economy. However, due to wide market fluctuations occurring during recent years, determining whether declines are temporary has become much more complex and judgmental.

These reviews resulted in the recognition of impairment losses on equity securities totaling \$687,000 during 2006 (\$218,000, \$257,000, \$142,000 and \$70,000 for the first, second, third and fourth quarters, respectively). During 2006, equity securities were sold which contained \$465,000 of impairment write downs and fixed securities were sold which contained \$183,000 of impairment write downs. There were no impairments on fixed securities in 2006. During 2005, equity securities were sold which contained impairment write-downs of \$358,000 and no fixed maturities were sold which contained impairment write downs. During 2004, the recognition of impairment losses on equity securities totaled \$473,000 (\$101,000, \$319,000 and \$53,000 for the first, third and fourth quarters, respectively). In addition, \$334,000 of impairment losses were recognized on fixed maturities during 2004, all in the third quarter. During 2004, equity securities were sold which contained \$640,000 of impairment write downs and fixed securities were sold which contained \$425,000 of impairment write downs.

Citizens Security owns the building in which the Company and its subsidiaries maintain their home offices. They occupy approximately 32% of the building with the balance available for lease to third-party tenants. Market conditions for this property are generally favorable. An updated appraisal obtained during 2002 indicates the market value of the property is approximately \$2,725,000 higher than its carrying amounts.

At December 31, 2006, the Company has recorded \$756,000 of goodwill and \$12,571,000 of deferred policy acquisition costs and value of insurance acquired. As noted in the above discussion of critical accounting policies and estimates, these intangibles, and the recorded value of policy liabilities, are based on many assumptions that require substantial estimates and judgment. At December 31, 2006 and December 31, 2005 the Company reassessed the assumptions supporting these values in accordance with SFAS No. 142. Although no impairment was considered necessary, management will continue to monitor the appropriateness of the recorded values of these intangibles and will make adjustments to such values in the future as management deems necessary.

Liabilities. A comparison of total policy liabilities as of December 31, 2006, 2005 and 2004 is shown below. Approximately 89% of the 2006 total consists of insurance policy benefit reserves while policyholder deposit liabilities represent 11% of the total.

December 31	2006	2005	2004
Home Service Life	\$ 37,512,117	\$ 36,880,468	\$ 36,056,122
Broker Life	44,036,626	44,583,236	45,086,466
Preneed Life	42,306,466	44,548,992	45,155,805
Dental	250,633	605,298	669,361
Other Health	1,565,265	1,851,858	1,914,235
Total	\$ 125,671,107	\$ 128,469,852	\$ 128,881,989

Home Service Life premiums decreased 4.7% in 2006 from 2005 (Home Service Life revenue, including net investment and other income, decreased by 1.9% in 2006 from 2005) with net growth in policy liabilities of 1.7% and 2.2% in 2006 and 2005, respectively due to the ageing of the policy portfolio for this segment. Broker Life premiums decreased 3.3% in 2006 compared with an increase of 9.8% in 2005. Pre-need Life premiums decreased dramatically in 2006 (46.0%) as the result of the Company's earlier modification of certain policy benefits and commissions (which resulted in the loss of a number of producers) as well as an intentional refocusing of marketing efforts towards segments that the Company believes offer more positive potential in the current environment. During 2006, Dental premiums decreased 4.3% from 2005 due to continued competition in this market and more aggressive renewal underwriting procedures by the Company. The Company has strengthened renewal underwriting standards in an effort to improve the loss ratio on this product. The Other Health Premiums decreased 4.7% compared to 2005 because these products are not being actively marketed as the company continues to redirect its focus to other segments in an effort to improve profitability in those segments.

Shown below is a progression of the Company's policyholder deposit activity for the year ended December 31, 2006.

Year Ended December 31, 2006	Total	Annuity and Other	Universal Life
Beginning Balance	\$ 14,716,369	\$ 9,254,397	\$ 5,461,972
Deposits	534,525	74,760	459,765
Withdrawals	1,522,229	886,194	636,035
Interest Credited	591,164	378,079	213,085
Ending Balance	\$ 14,319,829	\$ 8,821,042	\$ 5,498,787

As indicated above, total policyholder deposits decreased by a net \$396,540 during 2006. The Company is not devoting significant marketing effort toward Annuity, Universal Life and other deposit products and has elected not to aggressively compete in crediting excess interest on such products.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not participate in any off-balance sheet arrangements.

CONSOLIDATED RESULTS AND ANALYSIS

While preparing the current year's financial statements, the Company discovered an error in the compilation and reporting of certain reinsurance transactions that caused the Net Income (Loss) to be misstated by \$192,547, \$91,720, \$107,058 and \$122,566 for 2005 and the first, second and third quarters of 2006, respectively. The previously issued consolidated financial statements have been restated herein to reflect the correction of this error. See Note 2-CORRECTION OF AN ERROR and Note 10 - QUARTERLY FINANCIAL DATA in the NOTES TO CONSOLIDATED FINANCIAL STATEMENTS for a presentation of the originally reported amounts, the related changes and the restated amounts.

Premiums and Other Considerations. The following table details premiums and other considerations received during the past three years.

Year Ended December 31	2005		
	2006	(As Restated)	2004
Home Service Life	\$ 6,714,926	\$ 7,044,443	\$ 7,179,911
Broker Life	3,719,307	3,847,481	3,504,600
Preneed Life	2,700,048	5,000,413	6,936,819
Dental	8,401,886	8,778,104	9,322,936
Other Health	836,800	877,747	1,028,143
Total	\$ 22,372,967	\$ 25,548,188	\$ 27,972,409

Home Service Life premium decreased 4.7% and 1.9% in 2006 and 2005, respectively. New sales began to decline in the fourth quarter of 2005 and continued to decline in 2006 as a result of producer response to the Company's introduction of a variable first year commission program designed to improve persistency in this segment. The Company also lost its regional representative for the Florida and Georgia region, as well as several producers in that region early in 2005. The Company continues its efforts to attract successful, experienced Home Service agents. In the fourth quarter of 2004, the Company began to geographically expand the Home Service market, hiring a new regional representative to recruit new agents in Ohio and Pennsylvania. Company management considers it a challenge to increase new sales even modestly, while providing incentive to keep business in force for longer periods than we have historically experienced (i.e. improve our persistency rate) in this segment.

The decrease in Broker Life premium of 3.3% during 2006 resulted primarily from decreases in ordinary and group products, offset by the growth of \$518,000 in the Final Expense product introduced in early 2005 in an effort to strengthen the growth of this segment by better meeting the desires of our policyholders and agents. The increase in Broker Life premium of 9.8% from 2004 to 2005 resulted primarily from the premiums on the final expense product introduced in 2005.

The 46.0% and 27.9% decrease in Preneed Life premium during 2006 and 2005, respectively, resulted from the Company's modification of certain policy benefits and commissions (which resulted in a loss in the number of producers) and an intentional refocusing of marketing efforts toward segments that the Company believes offer more positive potential in the current environment.

Dental premiums decreased 4.3% during 2006 as competition in this market continues to intensify. The company has strengthened renewal underwriting standards in an effort to improve the loss ratio for this product. The result, as expected, was a decrease in premium and a decrease in the overall claims loss ratio from 69.7% in 2005 to 63.9 % in 2006. During recent years, new business production has become increasingly competitive as larger providers expand their marketing initiatives. However, the Company has historically maintained strong customer and agent loyalty by continuing to improve customer service, including sales and administrative support functions. In January 2005 the Company began expanding its capacity to administer more Dental business without increasing administration costs by replacing our group administration system with a current state of the art system. The new system was placed in service in January 2006 and the Company added additional functionality features throughout 2006 including a group website and a preferred provider network. The Company plans to add future enhancements to include third party administration capability, online enrollment and auto adjudication of claims. The Company also employed a senior marketing executive and a regional sales representative in 2006 to focus marketing efforts on the Dental segment.

The Company has not been actively marketing Other Health policies for several years. However, in response to agent requests, certain cancer and disability protection products have been updated and promoted. Pricing, underwriting, and claims experience on these products are closely monitored. Due to unsatisfactory financial results in this product line, the Company discontinued selling new disability policies in October 2004, and increased premium rates approximately 35% effective February 1, 2006 in the state of New Jersey, where the majority of such policies have been issued, resulting in a decrease of \$276,000 in the Net Loss for this segment in 2006 compared to 2005.

Investments. The Company monitors its available-for-sale fixed maturities and equity securities to assure they are strategically positioned within the current market environment. This practice has historically resulted in holding significant equity security positions, which tend to dampen current income yields in favor of an overall total return focus. The Company's equity securities comprised 8.5% and 7.1% of its total investment portfolios at December 31, 2006 and 2005, respectively. The Company's investment income yields were 5.3%, 5.1%, and 4.7% for 2006, 2005, and 2004, respectively. The 2006 yield increase resulted primarily from increasing interest rates on new investments, as well as improved short-term yields during the year. Although the Company's total return on investments has historically been favorable, returns in recent years have been severely impacted by declines in the airline, biomedical, automobile, telecommunications and technology sectors, declines in the fixed maturities market (due to increasing rates), a general economic slump and the effect of terrorist events on the securities markets.

As detailed in the following table, net realized and unrealized investment (losses) totaled approximately (\$2,228,000) and (\$3,356,000) for the years ended December 31, 2006 and 2005, respectively. The Company does not anticipate severe deterioration in the securities markets although there is considerable volatility in the equities markets. At December 31, 2006 and 2005, the Company's investment portfolios contained net unrealized gains (losses) outstanding of \$(1,107,000) and \$1,124,000, respectively. Below is an approximate calculation of investment income yields and "total return" (defined as yields including net investment income, net realized investment gains or losses and net change in the excess or deficit of market values over book values of the investment portfolios or unrealized gains (losses)) yields for the five years ended December 31, 2006.

Year Ended December 31,	2006	2005	2004	2003	2002
Investment Income	\$ 6,675,220	\$ 6,905,947	\$ 6,349,451	\$ 5,909,696	\$ 5,665,596
Gains and Losses:					
Fixed Maturities:					
Realized gains (losses)	433,660	107,400	633,275	67,903	(228,710)
Unrealized gains (losses)	(2,533,579)	(2,772,067)	(262,986)	1,079,228	1,130,402
Net Fixed Maturities	(2,099,919)	(2,664,667)	370,289	1,147,131	901,692
Equity Securities:					
Realized gains (losses)	(429,619)	672,865	2,234,976	1,909,732	(2,241,058)
Unrealized gains (losses)	301,470	(1,364,263)	(1,623,273)	2,622,024	(408,399)
Net Equity Securities	(128,149)	(691,398)	611,703	4,531,756	(2,649,457)
Total Gains and (Losses)	(2,228,068)	(3,356,065)	981,992	5,678,887	(1,747,765)
Total Return	\$ 4,447,152	\$ 3,549,882	\$ 7,331,443	\$ 11,588,583	\$ 3,917,831
Average Cash and Investments	\$ 127,198,391	\$ 134,800,118	\$ 135,819,153	\$ 131,440,555	\$ 117,460,000
Yield - Income	5.20%	5.10%	4.70%	4.50%	4.80%
Yield - Total Return	3.50%	2.60%	5.40%	8.80%	3.30%

The Company realized significant gains on the sales of equity securities and high yield, below investment grade bonds during 2004 and 2003 as we repositioned our portfolio to include a greater proportion of investment grade bonds. As bond interest rates began to increase in 2005 and 2006, we experienced significant unrealized losses on our fixed maturity portfolio (due to lower than market yields on our portfolio). Company management continues to monitor the equities and fixed maturity markets, and to reposition the portfolios as considered appropriate.

Segment Earnings. Pretax profit is shown below for the Company's five business segments, along with total net realized investment gains and interest expense.

Year Ended December 31	2006	2005 (As Restated)	2004
<u>Segment Profit (Loss):</u>			
Home Service Life	\$ (176,484)	\$ (12,783)	\$ (616,755)
Broker Life	(110,698)	(221,847)	(961,413)
Preneed Life	376,774	464,393	(275,350)
Dental	(58,985)	(193,140)	(150,335)
Other Health	(29,975)	(305,604)	(303,463)
Segment Totals	632	(268,981)	(2,307,316)
Net realized investment gains	4,041	780,265	2,868,250
Less Interest expense	486,645	379,519	354,200
Income (loss) before income taxes	\$ (481,972)	\$ 131,765	\$ 206,734

The 2006 decrease in pretax income of \$614,000 results from the *negative effects* of: (a) a decrease in net premiums earned of \$3,175,000 or 12.4% (Pre-need decreased \$2,300,000, Dental decreased \$376,000, Home Service decreased \$330,000, Broker Life decreased \$128,000 (net of an increase in new final expense premiums of \$901,000) and Other Health decreased \$41,000); (b) a decrease in investment and other income of \$196,000; (c) a decrease in net realized investment gains of \$776,000; (d) an increase in general expenses and depreciation of \$428,000 and (e) an increase in interest expense of \$107,000, offset by the *positive effects* of: (f) a decrease in policyholder benefits of \$3,554,000; (g) a decrease in commissions of \$113,000; (h) an increase in acquisition costs deferred of \$208,000 and (i) a decrease in amortization of deferred policy acquisition costs and value of insurance acquired of \$194,000.

The 2005 decrease in pretax income of \$75,000 results from the *positive effects* of: (a) an increase in investment and other income of \$577,000; (b) a decrease in policyholder benefits and commissions of \$2,849,000; (c) a decrease in general expenses and depreciation of \$864,000 and (d) a decrease in amortization of deferred policy acquisition costs and value of insurance acquired of \$236,000, offset by the *negative effects* of: (e) a decrease in net premiums earned of \$2,425,000, or 8.7% (Preneed decreased \$1,937,000, Dental decreased \$545,000, Home Service decreased \$135,000, Other Health decreased \$150,000, while Broker Life increased \$343,000 (including new final expense premiums of \$537,000)); (f) a decrease in net realized investment gains of \$2,088,000; (g) an increase in interest expense of \$25,000 and (h) a decrease in acquisition costs deferred of \$63,000.

Home Service Life

In 2006 the Home Service Life segment benefited by \$160,000 of higher investment and other income and a decrease of \$322,000 in benefits and reserves, offset by a \$329,000 decrease in premium and a \$317,000 increase in expenses (including net deferral of policy acquisition costs), resulting in an increase in the segment loss of \$164,000.

Broker Life

The \$111,000 decrease in loss in the Broker Life segment is the result of a decrease of \$334,000 in policyholder benefits, a decrease in expenses of \$197,000, offset by a decrease in premiums of \$128,000 (primarily from decreases in ordinary and group products, offset by the growth of \$901,000 in the Final Expense product), and a decrease in investment and other income of \$292,000.

Pre-need Life

The \$88,000 decrease in profit in the Preneed life segment for 2006 is the result of a decrease of \$2,300,000 in premiums, and a decrease of \$45,000 in investment and other income, offset by a decrease of \$1,849,000 in policyholder benefits, a decrease in commissions of \$247,000 and a decrease of \$161,000 in expenses (including net deferral of policy acquisition costs). During 2002, the Company accepted a significant amount of single-premium business, which generally has higher than average mortality rates. At that time, significant management and marketing resources were devoted to this business. To improve profitability, annual benefit growth rates were reduced in early 2003 and again in September 2004. Also, twice during 2002, certain commission rates were reduced and agent contracts revised to encourage production of the more profitable multi-pay products. Management has not focused marketing resources on this segment for the past several years. As a result, we have experienced significant declines in premiums and policy benefits, generating a segment profit for the past two years.

Dental

Information regarding Dental profitability is included below. The "contribution margin" shown below is a direct margin without allocable investment income and general expense.

Year Ended December 31	2006	2005	2004
Premium	\$ 8,401,886	\$ 8,778,104	\$ 9,322,936
Claims and Reserves	\$ 5,369,335	\$ 6,114,254	\$ 6,729,685
Contribution Margin	\$ 2,078,614	\$ 1,606,266	\$ 1,393,735
Claim Ratio	63.90%	69.70%	72.20%

The contribution margin increased in 2006 by \$472,000 due primarily to the Company's aggressive renewal underwriting and re-rating. Although premiums decreased \$376,000 in 2006, benefits decreased \$745,000, and commissions decreased \$104,000. Expenses for the Dental segment increased \$328,000 due to the increased marketing resources allocated to this segment (the Company employed a senior marketing executive for this segment in August of 2005, a regional representative in the fourth quarter of 2005 and an additional senior executive in September 2006).

The contribution margin increased in 2005 by \$213,000 from 2004 due primarily to the Company's aggressive renewal and re-rating as well as not renewing a large group with a particularly high morbidity rate in December 2004. The Company has encountered more competition as additional insurers continue to expand in the Dental market and Dental providers continue to provide higher levels of care to patients. The Company is continuing its ongoing efforts to maintain profitability in this line by reconfiguring products to provide adequate margins for the various dental procedures, utilizing a third-party company to provide expert assistance with ongoing adjudication of claims, and continuing its program of aggressive renewal underwriting and re-rating. We are also focusing significant marketing resources to this segment to create significant long-term premium growth in the segment.

Other Health

The decrease in the segment loss of \$276,000 in the Other Health is primarily the result of a decrease in policyholder benefits of \$304,000 partially offset by a decrease in premiums of \$41,000. The Company has not devoted significant marketing effort toward its Other Health products in recent years. However, during 2002 through 2004, a significant increase in disability claims occurred, with a concentration in New Jersey. The Company implemented a 35% rate increase on its disability products in New Jersey effective in early 2006, and discontinued accepting applications for this policy in New Jersey in the fall of 2004.

Income Taxes. Historically, the Company has experienced a relatively low effective current income tax rate, due primarily to the small life insurance company deduction, along with operating loss carryforwards and capital loss carryforwards. The effective expense (benefit) rate is 54% in 2006 and 0.0% in 2005.

The small life insurance company deduction allows the Life Insurance Subsidiaries to reduce their taxable income by 60% before computing their current provisions for regular or alternative minimum tax. However, for purposes of computing deferred income tax liabilities under the provisions of SFAS No. 109, "Accounting for Income Taxes", the Company is precluded from assuming the small life insurance company deduction will be available in the future. Accordingly, by disallowing this deduction, SFAS No. 109 significantly increases the deferred taxes on the Life Insurance Subsidiaries' temporary differences. Thus, when a significant increase or decrease occurs in the Company's net temporary differences, the related deferred tax is computed using the 34% federal tax rate, whereas tax may actually be paid on these net liabilities (when realized) at a rate potentially as low as 17% (the alternative minimum tax rate after application of the allowable small life insurance company deduction). The Company's gross deferred federal income tax liabilities and assets are more fully discussed in Note 6 of the Notes to Consolidated Financial Statements. The gross deferred tax assets are offset, to some extent, by valuation allowances related to the Company and to the Life Insurance Subsidiaries and then offset against existing deferred tax liabilities. The Company's valuation allowance is designed to reduce deferred tax assets to their estimated ultimate realization value.

Statutory Insurance Information. For insurance regulatory and rating purposes, the Insurance Subsidiaries report on the basis of statutory accounting principles ("SAP"). In recent years, various state insurance departments and the NAIC have expressed concern, essentially about the "rate of return" earned by holders of small face amount life policies, potentially including Preneed policies. Although the Company does not believe calculating a simple "rate of return" or premium "pay-back" measure is meaningful for traditional life insurance products, certain state insurance regulators are considering actions that could alter the profitability of existing contracts or eliminate small face amount policies as a viable product offering.

During December 2002, the Company strengthened the statutory capital position of Citizens Security by acquiring \$2,000,000 of Citizens Security redeemable preferred stock. During January 2001, the Company contributed 100% of the capital stock of Citizens Insurance to Citizens Security. The statutory value of this contribution was \$3,540,555. Citizens Security has reported its investments in United Liberty and Citizens Insurance on the equity method of accounting, since their acquisitions in 1998 and 2001, respectively. However, beginning in 2001, new rules changed the statutory equity method of accounting to preclude a parent insurer from recording as income, its share of undistributed subsidiary earnings. For 2006, 2005, and 2004, Citizens Security reported as income the \$99,900, \$250,000 and \$1,174,000 respectively, of dividend distributions that it received from United Liberty and Citizens Insurance. At December 31, 2006, Citizens Security reported its investments in United Liberty and Citizens Insurance at their statutory equity values of \$2,281,472 and \$2,501,700 respectively. To provide a more detailed understanding of Citizens Security's operations, shown below are SAP basis net income (loss), pretax net operating income (loss), statutory capital and surplus, asset valuation reserves, and capital ratios for Citizens Security for the five years ended December 31, 2006.

Year Ended	Net	Pretax Net	Statutory	Asset	Capital
December 31	Income (Loss)	Operating	Capital and	Valuation	Ratio ²
		Income (Loss)	Surplus	Reserves ¹	
2006	\$ (14,889)	\$ 29,714	\$ 11,296,774	\$ 1,501,070	12.19%
2005	\$ 1,314,175	\$ 461,953	\$ 11,560,743	\$ 1,579,280	12.37%
2004	\$ 1,636,500	\$ 146,794	\$ 10,755,568	\$ 2,049,370	12.00%
2003	\$ 706,397	\$ (496,618)	\$ 11,128,656	\$ 2,637,741	13.10%
2002	\$ (1,184,496)	\$ (64,815)	\$ 9,903,639	\$ 862,732	11.60%

¹ Asset Valuation Reserves are statutory liabilities that act as contingency reserves in the event of extraordinary losses on invested assets and as a buffer for policyholders' surplus to reduce the impact of realized and unrealized investment losses. The 2002 through 2006 amounts also include United Liberty's asset valuation reserves. Citizens Insurance does not have an Asset Valuation Reserve.

² Represents Statutory Capital and Surplus plus Asset Valuation Reserves divided by invested assets plus cash.

The following table shows the changes to Citizens Security's statutory capital and surplus for the five years ended December 31, 2006.

	2006	2005	2004	2003	2002
Balance at beginning of the year	\$11,560,743	\$10,755,568	\$11,128,656	\$9,903,639	\$9,687,289
Operating income (loss)	29,714	478,985	264,271	(352,170)	(42,778)
Net realized gains (losses)	(44,602)	835,190	1,372,229	1,058,567	(1,141,718)
Net unrealized gains (losses)	368,011	(473,395)	(1,801,699)	2,414,923	(950,278)
Change in deferred income taxes	(327,038)	(639,677)	(555,456)	85,666	(190,000)
Change in nonadmitted assets	(388,488)	147,526	(202,550)	(223,514)	475,124
Change in Asset Valuation Reserve	97,527	456,546	550,117	(1,758,455)	66,000
Additional paid in surplus	907	-	-	-	2,000,000
Balance at the end of the year	\$11,296,774	\$11,560,743	\$10,755,568	\$11,128,656	\$9,903,639

In addition to the statutory totals shown above, Citizens Insurance generated statutory net income of approximately \$20,000, \$56,000, and \$76,000 during 2006, 2003 and 2002, respectively without remitting any dividends to its parent. Citizens Insurance generated statutory net income of \$22,000 and \$56,000 and paid dividends of \$250,000 and \$1,174,000 to Citizens Security in 2005 and 2004, respectively. United Liberty generated statutory net income (loss) of approximately \$280,000, \$117,000, (\$692,000), 536,000, and (\$328,000), during 2006, 2005, 2004, 2003 and 2002, respectively and remitted dividends to its parent of \$99,900, and \$54,000 in 2006 and 2003, respectively.

Statutory capital and surplus, specifically the component called surplus, is used to fund the expansion of an insurance company's first year individual life and accident and health sales. The first year commission and underwriting expenses on such sales will often exceed first year premiums. Accordingly, a statutory loss (surplus strain) often occurs on these sales during the first policy year. Historically, the Company's level of life insurance sales has not significantly impacted statutory surplus.

The Company completed a strategic review of its products and operations, resulting in the mitigation of the significant losses incurred in the Preneed Life business segment in prior years and strengthening the potential for future profitability in the Broker Life, Home Service Life and Dental segments by increasing premiums, strengthening underwriting policies, modifying commissions, and where possible, lowering interest crediting or policy growth rates.

CASH FLOW AND LIQUIDITY

The Company borrowed \$2,000,000 from its Chairman in December 2002 to strengthen the statutory capital position of its principal insurance subsidiary. The Company borrowed an additional \$1,000,000, \$1,000,000 and \$1,330,000 in 2003, 2005 and 2006, respectively from its Chairman for general operating capital, including bank debt service. These borrowings are considered current debt as a result of a 90-day call provision in the loan agreement. The Company also has \$208,337 of commercial bank debt outstanding, with an equal amount maturing in April 2007 and July 2007. During the first half of 2005 the Company did not comply with a loan covenant (debt to earnings ratio) and did not comply with another covenant (borrower's equity) at June 30, 2006 on this debt and received a waiver from the lender of each violation through June 30, 2006. In return for the waivers the Company's Chairman agreed to personally guarantee the outstanding bank debt. The Company was in compliance with the debt covenant for the last two quarters of 2006. Regarding the currently scheduled debt repayments, the Company believes its available resources will be adequate to service 2007 commercial bank debt obligations. In addition, the Company's Chairman has expressed potential willingness to loan the Company an additional \$200,000 if necessary, which would service debt obligations through 2007. Additional information regarding debt obligations is included in Note 5 of the Notes to Consolidated Financial Statements.

A summary of all known commitments of the Company as of December 31, 2006, including the aforementioned borrowings, and an estimate (based on reasonable assumptions and anticipated trends) of payments to be made for future policy benefits and contract claims, is as follows:

Contractual Obligations	Payments Due by Period				
	Total	Less than 1 Year	1-3 years	3-5 years	More than 5 years
Future Policy Benefits and Contract Claims (a)	\$ 125,376,466	\$ 9,606,344	\$ 13,274,970	\$ 12,197,478	\$ 90,297,674
Note Payable to Bank	215,560	215,560	-	-	-
Note Payable to Related Party	5,823,025	5,823,025	-	-	-
Operating Leases	184,383	49,914	115,371	19,098	-

(a) Anticipated cash benefit payments not including any future earnings or additional premium

Management is not aware of any other commitments or unusual events that could materially affect the Company's capital resources.

The Company provided (used) approximately \$(2,668,000), \$138,000 and \$913,000 of cash flow from operating activities during 2006, 2005 and 2004, respectively. The fluctuations are principally attributable to a decrease in Preneed Life premiums in all three years.

Cash provided by (used in) investment activities of \$8,106,000, \$316,000, and \$(2,464,000) during 2006, 2005, and 2004 respectively, relates primarily to investing additional Preneed Life premiums in fixed maturity securities in 2004, primarily from the sale of short-term investments for \$612,000, less approximately \$300,000 used to acquire new equipment in 2005 and primarily sales and maturities of securities in excess of new investments, offset by approximately \$652,000 used to acquire new equipment in 2006.

Cash used in financing activities during 2006 of \$1,024,000 includes \$1,167,000 of debt repayments, \$672,000 of net withdrawals of policyholder deposits and \$515,000 used to repurchase common stock of the Company, offset by additional borrowings of \$1,330,000 from the Company's Chairman. The \$1,592,000 of cash used in financing activities during 2005 includes \$1,416,000 of debt repayments and \$1,176,000 of net withdrawals of policyholder deposits, offset by additional borrowings of \$1,000,000 from the Company's Chairman. The \$2,346,000 of cash used in financing activities during 2004 includes \$1,342,000 of debt repayments, \$902,000 of net withdrawals of policyholder deposits and \$102,000 used to repurchase common stock of the Company.

The Company is subject to various market risks. However, the most significant such risks relate to fluctuations in prices of equity securities and interest rates (which affect market prices of fixed maturity securities). Historically, total returns on the Company's equity portfolio have been favorable and the Company has successfully managed the risk of equity security price fluctuations over many years. The Company devotes significant attention to the equity markets and repositions the Company's portfolio upon detection of adverse risk trends associated with individual securities or overall markets. The Company also manages market risks associated with investments in option securities, as described in Note 3 of the Notes to Consolidated Financial Statements. The fair value of the Company's equity portfolio was approximately \$9,429,000 and \$8,580,000 at December 31, 2006 and 2005, respectively. Accordingly, a 10% decline in equity prices would have reduced the fair value of the Company's equity portfolio by \$943,000 and \$858,000 at December 31, 2006 and 2005, respectively. The average cost value of the Company's equity portfolio was \$7,995,000 and \$7,559,000 during 2006 and 2005, respectively.

Regarding interest rate risk, the value of the Company's fixed-maturity investment portfolio will increase or decrease in an inverse relationship with fluctuations in interest rates while net investment income earned on newly-acquired fixed-maturities increases or decreases in direct relationship with interest rate changes. Management estimates that a 100 basis point increase in interest rates ("rate shock") would have decreased the fair value of its \$101.1 million fixed maturity portfolio by approximately 5.5% or \$5.3 million at December 31, 2006 and 6.3% or \$7.1 million at December 31, 2005. From an income perspective, the Company does not believe rising interest rates present a significant risk, as essentially all of the Company's policy liabilities bear fixed rates. However, approximately 38% of policy liabilities contain provisions permitting interest or benefit adjustments at the discretion of the Boards of Directors of the Insurance Subsidiaries. The Company's cash flow testing (described below) indicates that overall profitability will generally be enhanced in rising interest rate scenarios. From a liquidity perspective, the Company's fixed rate policy liabilities have been relatively insensitive to interest rate fluctuations. Accordingly, the Company believes gradual increases in interest rates do not present a significant liquidity exposure. The Company monitors economic conditions on a regular basis and manages this interest rate risk primarily by adjusting the duration of its fixed-maturity portfolio. Historically, the Company has maintained conservative durations in its fixed-maturity portfolio. During 2006 and 2005, the Company decreased durations of the fixed maturity portfolio. At December 31, 2006 cash and fixed-maturity investments with maturities of less than five years equaled approximately 24% of total policy liabilities compared to approximately 19% at December 31, 2005. Notwithstanding the foregoing, if interest rates rise significantly in a short timeframe, there can be no assurance that the life insurance industry, including the Company, would not experience increased levels of surrenders and reduced sales, and thereby be materially adversely affected.

Interest expense on the Company's debt varies quarterly and is therefore also subject to interest rate risk. For its commercial bank debt, the Company elects the lower of the prime lending rate or the one-month LIBOR rate plus 2.75%. For its related party debt, the interest rate is the higher of 6% or the commercial bank prime lending rate plus 1%. At December 31, 2006, the weighted average rate on the Company's \$5,538,337 borrowings was 9.20%. The Company believes its current liquidity position and profitability levels are adequate to guard against this interest rate risk.

In addition to the measures described above, the Life Insurance Subsidiaries comply with the NAIC promulgated Standard Valuation Law ("SVL") which specifies minimum reserve levels and prescribes methods for determining them, with the intent of enhancing solvency. The SVL also requires the Company to perform annual cash flow testing for its Life Insurance Subsidiaries. This testing is designed to ensure that statutory reserve levels will maintain adequate protection in a variety of potential interest rate scenarios. The Actuarial Standards Board of the American Academy of Actuaries also requires cash flow testing as a basis for the actuarial opinion on the adequacy of the reserves which is a required part of the annual statutory reporting process.

Cash flow testing projects cash inflows from assets and cash outflows for liabilities in various assumed economic and yield curve scenarios. This is a dynamic process, whereby the performance of the assets and liabilities is directly related to the scenario assumptions. (An example would involve the credited interest rate on annuity products and how such rates vary depending upon projected earnings rates, which are based upon asset performance under a particular economic scenario.)

The Life Insurance Subsidiaries' most recent cash flow testing, which was completed in February 2007, involved a review of two basic measures. The first was the value of free market surplus, which is defined as the difference between the projected market value of assets and liabilities at the end of the analysis period (typically 10-30 years). Deficits could indicate the need for corrective action depending upon the severity and the number of scenarios in which a deficit appeared. A second measure involved distributable earnings. Negative earnings for extended durations might impair the ability of the Life Insurance Subsidiaries to continue without exhausting surplus. Again, depending upon severity and frequency, corrective measures might be needed. Based on results of the testing, no corrective measures were indicated at the current

time. However, such testing is ongoing and dynamic in nature and future events in the interest and equity markets or a significant change in the composition of Life Insurance Subsidiaries' business could negatively impact testing results and require the initiation of corrective measures.

Any necessary corrective measures could take one or more forms. The duration of existing assets might not match well with those of the liabilities. Certain liabilities, such as those associated with indemnity accident and health, short-term disability and group dental products, are short-term in nature and are best matched with cash and short-term investments. By contrast, whole life insurance, which involves lifetime obligations, is usually best matched by longer duration maturities. In the event there are insufficient assets of these types, a repositioning of the investment portfolio might be undertaken.

Initially balanced durations do not guarantee positive future results. Asset type, quality, and yield will vary depending upon the economic scenario tested. Liabilities will be similarly affected. Projected reinvestment yields may cause overall yields to fall below those required to support projected liabilities. In that event, portfolio realignment might involve the type, quality and yield of investments rather than duration. Alternatively, additional reserve amounts could be allocated to cover any future shortfalls.

The above discussion centers on asset management. Other possible corrective measures might involve liability realignment. The Company's marketing plan could be modified to emphasize certain product types and reduce others. New business levels could be varied in order to find the optimum level. Management believes that the Company's current liquidity, current bond portfolio maturity distribution and cash flow from operations give it substantial resources to administer its existing business and fund growth generated by direct sales.

FORWARD-LOOKING INFORMATION

All statements, trend analyses and other information contained in this report relative to markets for the Company's products and trends in the Company's operations or financial results, as well as other statements including words such as "anticipate", "believe", "plan", "estimate", "expect", "intend", and other similar expressions, constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from those contemplated by the forward-looking statements. Such factors include, among other things:

- the market value of the Company's investments, including stock market performance and prevailing interest rate levels (*see the Cash Flow and Liquidity section of this Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations*);
- customer and agent response to new products, distribution channels and marketing initiatives, including exposure to unrecoverable advanced commissions;
- mortality, morbidity, lapse rates, and other factors which may affect the profitability of the Company's insurance products;
- regulatory changes or actions, including those relating to regulation of insurance products and insurance companies (*see the State Insurance Regulation section of Item 1 - Business*);
- ratings assigned to the Company and its subsidiaries by independent rating organizations which the Company believes are important to the sale of its products;
- general economic conditions and increasing competition which may affect the Company's ability to sell its products;
- the Company's ability to achieve anticipated levels of operating efficiencies and meet cash requirements based upon projected liquidity sources;
- unanticipated adverse litigation outcomes (*see Item 3 - Legal Proceedings*); and
- changes in the Federal income tax laws and regulations, which may affect the relative tax advantages of some of the Company's products.

There can be no assurance that other factors not currently anticipated by management will not also materially and adversely affect the Company's results of operations.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Risk management includes the identification and measurement of various forms of risk, the establishment of risk thresholds and the creation of processes intended to maintain risks within these thresholds while optimizing returns on the underlying assets or liabilities. Management considers risk management an integral part of managing our core business.

The Company is subject to various market risks. Market risk is the risk of change in the value of securities held in our portfolio primarily as the result of changes in interest rates or equity prices. The Company devotes significant attention to the equities and the fixed maturities markets and repositions the Company's portfolio upon detection of adverse risk trends associated with individual issuers or overall markets. As part of our asset/liability management the Company, in consultation with consulting actuaries, performs an asset adequacy analysis annually, employing dynamic models of assets and liabilities to project financial results under several sensitivity scenarios of changing assumptions. For 2006 none of the eleven deterministic scenarios produced a negative market value at the end of the thirtieth projection year.

Quantitative and qualitative disclosures about market risk are further described in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the section "Cash Flow and Liquidity" of this Form 10-K

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

**ITEM 9. CHANGES IN AND DISAGREEMENTS WITH
ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

There has been no change in accountants nor have there been any disagreements on accounting and financial disclosure requiring disclosure pursuant to the Instructions to this Item.

ITEM 9A. CONTROLS AND PROCEDURES

The Company's chief executive officer and chief financial officer, with the participation of management, have evaluated the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rule 13a-15(e)) as of December 31, 2006. Based on the evaluation, they concluded that the controls and procedures are effective except for those controls and procedures related to certain reinsurance transactions that did not prevent or detect the accounting errors identified in Notes 2 and 10 to the consolidated financial statements. Controls and procedures were subsequently revised to remediate this material weakness. There have been no other significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

ITEM 9B. OTHER INFORMATION

There is no other information requiring disclosure pursuant to the Instructions to this Item.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Shareholders and Board of Directors
Citizens Financial Corporation

We have audited the accompanying consolidated balance sheets of Citizens Financial Corporation and subsidiaries (the Company) as of December 31, 2006 and 2005, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2006. Our audits also included the financial statement schedules listed in the Index at Item 15(a). These financial statements and schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Citizens Financial Corporation and subsidiaries at December 31, 2006 and 2005, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedules, when considered in relation to the basic financial statements taken as a whole, present fairly in all material respects the information set forth therein.

As discussed in Note 2 to the consolidated financial statements, during 2006 the Company changed its method of accounting for certain reinsurance contracts to conform with U.S. generally accepted accounting principles. The Company has retroactively restated its 2005 consolidated financial statements to implement this change as of January 1, 2005, the inception date of the initial reinsurance contract related to the change.

Citizens Financial Corporation and Subsidiaries
December 31, 2006

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1--NATURE OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation and Presentation. The accompanying consolidated financial statements include the accounts of Citizens Financial Corporation and its wholly owned subsidiaries: Citizens Security Life Insurance Company ("Citizens Security"), United Liberty Life Insurance Company ("United Liberty"), Citizens Insurance Company ("Citizens Insurance"), Citizens Security Benefit Services, Inc. ("Citizens Security Benefits") and Corporate Realty Service, Inc. ("Corporate Realty"). These entities are collectively hereinafter referred to as the Company. United Liberty and Citizens Insurance are also wholly owned subsidiaries of Citizens Security. All significant intercompany accounts and transactions are eliminated in consolidation.

Nature of Operations. The Company engages primarily in the business of life insurance, annuities and accident and health insurance through Citizens Security and United Liberty ("the Life Insurance Subsidiaries"). The Life Insurance Subsidiaries offer life, fixed-rate annuity and accident and health insurance products to individuals and groups through independent agents. Citizens Insurance was acquired during 1999 and is licensed as a property and casualty insurer in six states but currently has no business in force. Corporate Realty manages the Company's real estate along with two other properties affiliated with the Company's Chairman (see Note 15).

The individual life insurance products currently offered by the Life Insurance Subsidiaries consist of traditional whole life insurance and universal life insurance policies. Citizens Security also sells group life and accidental death and dismemberment policies. The fixed-rate annuity products offered by Citizens Security consist of flexible premium deferred annuities, life policy annuity riders, and single premium deferred annuities. Citizens Security's individual accident and health insurance products provide coverage for monthly income during periods of hospitalization, scheduled reimbursement for specific hospital and surgical expenses and cancer treatments, and lump sum payments for accidental death or dismemberment, while the group accident and health products provide coverage for short and long-term disability, income protection and dental procedures.

Citizens Security is licensed to sell products in the District of Columbia and 20 states primarily located in the South and Southeast. United Liberty is licensed to sell products in 21 states primarily located in the South, Midwest, and West. United Liberty's ongoing sales efforts are focused primarily in nine states where Citizens Security is not licensed.

The Life Insurance Subsidiaries market their portfolio of products through the personal producing general agent distribution system and presently have approximately 3,300 sales representatives. Many of these also represent other insurance carriers. Approximately 1,000 of the agents specialize in the Home Service market while approximately 500 are Preneed representatives who market through funeral homes. These markets consist primarily of individuals who desire whole life policies with policy limits typically below \$10,000.

Use of Estimates. The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments. The Company classifies fixed maturities and equity securities as "available-for-sale." Available-for-sale securities are carried at fair value, with unrealized gains and losses included in accumulated other comprehensive income (loss), net of applicable deferred income taxes and adjustments to related deferred policy acquisition costs. Mark-to-market accounting is used for equity options embedded in convertible bonds and all other derivatives. Changes in the fair value of derivatives are reported currently as realized gains or losses.

Company management periodically evaluates whether the declines in fair value of investments are other-than-temporary. These evaluations consist of a review of qualitative and quantitative factors, including analysis of the issuer's competitive position in its markets, deterioration in the financial condition of the issuer, downgrades of the security by a rating agency, and other publicly available issuer-specific news or general market conditions. For investments in companies with no quoted market price, the Company considers similar qualitative and quantitative factors and also takes into account the cost of the investment, the type of investment, subsequent purchases of the same or similar investments, the current financial position and operating results of the issuer, and such other factors as may be relevant. Declines in fair values of securities deemed to be

other-than-temporary are included in the results of operations as realized investment losses in the period of determination. Determining what constitutes an other-than-temporary decline involves significant judgment. Declines in fair value below cost not considered other-than-temporary in the current period could be considered other-than-temporary in a future period and reduce earnings to the extent of the write-down.

For purposes of computing realized gains and losses on fixed maturities and equity securities sold, the carrying amount is determined using the specific-identification method. Policy loans are carried at unpaid balances. Investment real estate is carried at depreciated cost. Short-term investments, which consist of certificates of deposit, are carried at cost, which approximates fair value. Cash and cash equivalents consist of highly liquid investments with maturities of three months or less at the date of purchase and are also carried at cost, which approximates fair value.

Deferred Policy Acquisition Costs. Commissions and other policy acquisition costs that vary with, and are primarily related to, the production of new insurance contracts are deferred, to the extent recoverable from future policy revenues and gross profits, and amortized over the life of the related contracts. See Premiums, Benefits and Expenses regarding amortization methods.

Property and Equipment. Property and equipment, including the home office building, are carried at cost less accumulated depreciation, using principally the straight-line method of depreciation. Accumulated depreciation at December 31, 2006 was \$2,800,971 (\$2,422,555 at December 31, 2005).

Goodwill and Value of Insurance Acquired. Goodwill represents the excess of purchase price of purchased subsidiaries, over amounts assigned (based on estimated fair values at the date of acquisition) to the identifiable net assets acquired. The recovery of these assets is dependent on the fair value of the business to which they relate. Pursuant to SFAS No. 142, "Goodwill and Other Intangible Assets", goodwill is subject to annual impairment tests based on the estimated fair value of the respective assets. There are numerous assumptions and estimates underlying the determination of the estimated fair value of goodwill. Different valuation methods and assumptions can produce significantly different results that could affect the amount of any potential impairment charge that might be required to be recognized. During both 2006 and 2005, the Company, in consultation with its consulting actuaries, concluded that no impairment adjustment was necessary for its goodwill.

Value of insurance acquired is recorded for the estimated value assigned to the insurance in force of the purchased subsidiaries at the dates of acquisition. The assigned value is amortized over the expected remaining life of the insurance in force using methods consistent with that used for amortization of policy acquisition costs (as described under Premiums, Benefits and Expenses). At December 31, 2006, accumulated amortization was \$7,359,858 (\$7,012,200 at December 31, 2005).

Benefit Reserves and Policyholder Deposits. Traditional life and accident and health insurance products include those contracts with fixed and guaranteed premiums and benefits and consist principally of whole-life and term insurance policies, limited-payment life insurance policies and certain annuities with life contingencies. Reserves on such policies are based on assumed investment yields that range from 5% to 7%. This assumption is based on management's expectations for long term total returns, and has been reduced for policies issued beginning in 2005 in light of the extended low returns we have experienced in recent years. Reserves on traditional life and accident and health insurance products are determined using the net level premium method based on future investment yields, mortality, withdrawals, and other assumptions, including dividends on participating policies. Such assumptions are based on past experience and include provisions for possible unfavorable deviation.

Benefit reserves and policyholder contract deposits on universal life, other interest-sensitive life products and investment-type products are determined using the retrospective deposit method and consist of policy account balances, before deducting surrender charges, which accrue to the benefit of the policyholder.

Participating insurance business constituted approximately 0.6%, 5% and 5% of ordinary life insurance in force at December 31, 2006, 2005 and 2004, and 0.4%, 3%, and 3% of annualized ordinary life premium in force at December 31, 2006, 2005, and 2004, respectively. Participating dividends are determined at the discretion of the Board of Directors.

Reserves on insurance policies acquired by purchase are based on assumptions considered appropriate as of the date of purchase. Assumed investment yields for such acquired policies range from 5.5% to 9.0%.

Premiums, Benefits and Expenses. Premiums for traditional individual life (including Preneed) and accident and health policies are recognized as revenue when legally collectible from policyholders. Benefit claims (including an estimated provision for claims incurred but not reported), benefit reserve changes and expenses (except those deferred) are charged to expense as incurred. Deferred policy acquisition costs related to traditional life and accident and health policies are charged to

expense over the life of the policy using methods and assumptions consistent with those used in estimating liabilities for future policy benefits. In determining whether a premium deficiency exists on short-duration policies, management does not give consideration to investment income.

Revenues for universal life and investment-type products consist of policy charges for the cost of insurance, policy initiation, administrative surrender fees and investment income. Expenses include interest credited to policyholder account balances, incurred administrative expenses and benefit payments in excess of policy account balances. Deferred policy acquisition costs related to universal life and investment-type products are amortized in relation to the incidence of expected gross profits over the life of the policies. Expected gross profits are reviewed at each reporting period, and to the extent actual experience varies from that previously assumed, the effects of such variances are recorded in the current period.

Liabilities for Policy Claims. Policy claim liabilities are based on known liabilities plus estimated future liabilities developed from trends of historical data applied to current exposures. These liabilities are closely monitored and adjustments for changes in experience are made in the period identified.

Federal Income Taxes. The Company uses the liability method of accounting for income taxes. Deferred income taxes are provided for cumulative temporary differences between balances of assets and liabilities determined under GAAP and balances determined for tax reporting purposes.

Earnings Per Share. Basic and diluted earnings per share amounts are based on the weighted average number of common shares outstanding during the year.

Note 2-CORRECTION OF AN ERROR

While preparing the 2006 consolidated financial statements, the Company discovered an error in the compilation and reporting of certain reinsurance transactions that caused the net income (loss) to be misstated by \$192,547, \$91,720, \$107,058 and \$122,566 for 2005 and the first, second and third quarters of 2006, respectively, within the final expense product line included in the Broker Life segment. The previously issued financial statements have been restated herein to reflect the correction of this error.

The Company's retained earnings as of January 1, 2006 as previously reported was reduced by \$192,547 to correct this error for 2005. The restated amounts within the Company's balance sheet at December 31, 2005 and statement of operations for the year then ended are as follows:

	As Previously Reported	Increase (Decrease)	As Restated
Balance Sheet at December 31, 2005			
Reinsurance Recoverable	\$ 2,749,655	\$ (55,936)	\$ 2,693,719
Accrued Expenses and other Liabilities	1,999,327	136,611	2,135,938
Retained Earnings	7,962,312	(192,547)	7,769,765
Statement of Operations for the year ended December 31, 2005			
Premiums ceded	\$ 874,039	\$ 107,572	\$ 981,611
Policyholder benefits ceded	1,104,013	(29,039)	1,074,974
Increase (decrease) in net benefit reserves	351,576	55,936	407,512
Income before income tax expense and net income	324,312	(192,547)	131,765
Net income per common share, basic and diluted	0.19	(0.11)	0.08

See Note 10 – QUARTERLY FINANCIAL DATA in the NOTES TO CONSOLIDATED FINANCIAL STATEMENTS for the originally reported amounts, the related changes and the restated amounts for each of the quarters in 2006 and 2005.

Note 3-INVESTMENTS

The cost and fair value of investments in fixed maturities and equity securities are shown below. The cost amounts are adjusted for amortization of premium and accretion of discount on fixed maturities and for write-downs of securities whose decline in value has been judged to be other-than-temporary. The table shows the Company's investments' gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at December 31, 2006 and 2005.

2006

Available-for-sale securities:	Amortized Cost	Gross Unrealized Losses			Fair Value
		Gross Unrealized Gains	Less Than 12 Months	Greater Than 12 Months	
US Government Obligations	\$ 14,637,198	\$ 28,925	\$ 3,598	\$ 212,559	\$ 14,449,966
State and Political Subdivisions	1,999,992	8	-	22,183	1,977,817
Corporate Bonds	85,420,020	679,497	534,188	1,641,428	83,923,901
Mortgage-Backed Securities	701,321	14,018	-	5,257	710,082
Total Fixed Maturity Securities	102,758,531	722,448	537,786	1,881,427	101,061,766
Equity Securities	8,840,149	741,634	137,206	15,312	9,429,265
Total	\$ 111,598,680	\$ 1,464,082	\$ 674,992	\$ 1,896,739	\$ 110,491,031

2005

Available-for-sale securities:	Amortized Cost	Gross Unrealized Losses			Fair Value
		Gross Unrealized Gains	Less Than 12 Months	Greater Than 12 Months	
US Government Obligations	\$ 14,342,151	\$ 77,845	\$ 122,526	\$ 19,236	\$ 14,278,234
State and Political Subdivisions	2,092,176	140,012	-	-	2,232,188
Corporate Bonds	92,786,118	1,959,969	1,058,140	156,584	93,531,363
Mortgage-Backed Securities	2,867,513	29,198	13,724	-	2,882,987
Total Fixed Maturity Securities	112,087,958	2,207,024	1,194,390	175,820	112,924,772
Equity Securities	8,292,389	911,661	564,015	60,000	8,580,035
Total	\$ 120,380,347	\$ 3,118,685	\$ 1,758,405	\$ 235,820	\$ 121,504,807

The following table summarizes, for all securities in an unrealized loss position at December 31, 2006, the estimated fair value, pre-tax gross unrealized loss and number of securities by length of time those securities have been continuously in an unrealized loss position:

	Estimated fair value	Gross unrealized loss	Number of securities
Fixed Maturities:			
Less than 12 months	\$ 16,449,976	\$ 537,786	23
Greater than 12 months	55,014,563	1,881,427	86
Total fixed maturities	71,464,539	2,419,213	109
Equities:			
Less than 12 months	2,312,343	137,206	8
Greater than 12 months	266,562	15,312	1
Total equities	2,578,905	152,518	9
Total	\$ 74,043,444	\$ 2,571,731	118

When a security is placed on the watch list, it is monitored for further market value changes and additional news related to the issuer's financial condition. The focus is on objective evidence that may influence the evaluation of impairment factors.

The decision to impair a security incorporates both quantitative criteria and qualitative information. The Company considers a number of factors including, but not limited to: (a) the length of time and the extent to which the fair value has been less than book value, (b) the financial condition and near term prospects of the issuer, (c) the intent and ability of the Company to retain its investment for a period of time sufficient to fully recover to cost, (d) whether the debtor is current on interest and principal payments and (e) general market conditions and industry or sector specific factors.

The Company's decision to impair a security is primarily based on whether the security's fair value is likely to remain significantly below its book value in light of all of the factors considered. For securities that are impaired, the security is adjusted to fair value and the resulting losses are recognized in realized gains (losses) in the Consolidated Statements of Operations.

Investments that are impaired at December 31, 2006 for which an other-than-temporary impairment has not been recognized consist mainly of corporate bond issues. The impairment of these securities has been deemed as temporary (attributable to increased interest rates in the bond market) due to the assigned rating, the typical fluctuations of these particular securities in the marketplace and management's intent and the Company's ability to hold them until they have substantially recovered the unrealized losses. The aggregated unrealized losses at December 31, 2006 are approximately 2.3% of the aggregated amortized cost of all securities. There are a total of 118 securities held that are considered temporarily impaired, 89 of which have been impaired for twelve months or longer. Of the 109 fixed maturities deemed to be temporarily impaired, three are rated by Standard and Poor's as BB+ to BB- (i.e. non-investment grade), while all the others are investment grade bonds. The Company considered one equity investment as other-than-temporarily impaired and wrote the cost down by \$70,000 at December 31, 2006 (in addition to previous write downs of other equities during the year totaling \$617,000)

The fair values for investments in fixed maturities and equity securities are based on quoted market prices, where available. For investments in fixed maturities and equity securities not actively traded, fair values are estimated using values obtained from independent pricing services.

The annual change in net unrealized investment appreciation or depreciation, for the years ended December 31, 2006, 2005 and 2004, and the amount of net realized investment gains or losses included in net income (loss) for the respective years then ended are shown below.

Year Ended December 31	2006	2005	2004
Fixed maturities:			
Change in net unrealized appreciation/depreciation	\$ (2,533,579)	\$ (2,772,067)	\$ (262,986)
Net realized gains	\$ 433,660	\$ 107,400	\$ 633,275
Equity securities:			
Change in net unrealized appreciation/depreciation	\$ 301,470	\$ (1,364,263)	\$ (1,623,273)
Net realized gains (losses)	\$ (429,619)	\$ 672,865	\$ 2,234,975

The amortized cost and fair value of investments in fixed maturities at December 31, 2006, by contractual maturity, are shown below. Expected maturities for investments in fixed maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations, sometimes without prepayment penalties.

December 31, 2006	Amortized Cost	Fair Value
Due in one year or less	\$ 9,748,173	\$ 9,575,244
Due after one year through five years	13,100,042	12,962,579
Due after five years through ten years	57,474,967	56,563,673
Due after ten years	21,734,028	21,250,188
Subtotal	102,057,210	100,351,684
Mortgage-backed securities with multiple maturity dates	701,321	710,082
Total	\$ 102,758,531	\$ 101,061,766

Proceeds during 2006, 2005 and 2004 from sales and maturities of investments in available-for-sale securities were \$32,753,908, \$35,838,301 and \$54,774,500, respectively. Gross gains of \$594,167, \$608,542 and \$1,286,065 and gross losses of \$160,502, \$501,142 and \$652,790 were realized on the sales of available-for-sale fixed maturities during 2006, 2005, and 2004, respectively. Included in gross realized losses during 2004 are net adjustments to the carrying amounts of available-for-sale fixed maturities of \$333,676 relating to declines in value which were considered by management to be other than temporary (none in 2006 or 2005). Net realized gains from the sales of fixed maturities have been reduced by \$9,128, \$1,152

and \$17,641 in 2006, 2005 and 2004 respectively, due to related changes in amortization patterns of deferred policy acquisition costs. In addition, net realized gains from the sales of fixed maturities have been reduced by \$10,087 in 2004 for incentive fees earned by the portfolio manager (none in 2006 or 2005).

Gross gains of \$992,591, \$1,301,523 and \$3,519,715 and gross losses of \$1,490,596, \$628,658 and \$1,281,739 were realized on the sales of available-for-sale equity securities during 2006, 2005 and 2004, respectively. Included in gross realized losses during 2006 and 2004 are adjustments to the carrying amounts of available-for-sale equity securities of \$687,987 and \$473,421, respectively, relating to declines in value that were considered by management to be other than temporary (none in 2005). Net realized gains from the sale of equity securities have been reduced by \$9,056, \$7,216 and \$62,260 in 2006, 2005 and 2004, respectively, due to changes in amortization patterns of deferred policy acquisition costs. In addition, net realized gains from the sale of available-for-sale equity securities have been reduced by \$35,599 in 2004 for incentive and management fees earned by the portfolio manager (none in 2006 or 2005).

Net unrealized appreciation (depreciation) of available-for-sale securities is summarized as follows:

December 31	2006	2005
Net appreciation (depreciation) on available-for-sale securities:		
Fixed maturities	\$ (1,696,765)	\$ 836,814
Equity securities	589,116	287,646
Adjustment of deferred policy acquisition costs	51,625	(32,509)
Deferred income taxes	-	(371,261)
Net unrealized appreciation (depreciation)	\$ (1,056,024)	\$ 720,690

Investment management services were provided through January 31, 2004 by a firm affiliated with certain board members and shareholders of the Company – see Note 15 - Related Party Transactions.

Major categories of net investment income are summarized as follows:

Year Ended December 31	2006	2005	2004
Fixed maturities	\$ 5,665,213	\$ 6,002,557	\$ 5,604,791
Equity securities	264,548	337,494	337,808
Investment real estate	362,811	365,898	315,208
Policy loans	284,972	287,236	278,503
Short-term investments and other	389,326	164,013	72,204
Subtotal	6,966,870	7,157,198	6,608,514
Investment expense	(291,650)	(251,251)	(259,063)
Net investment income	\$ 6,675,220	\$ 6,905,947	\$ 6,349,451

The decrease in investment income for fixed maturities and increase for short-term investments results from the disposals and sales of high yielding bonds and carrying a larger than usual cash balance with increased short-term yields.

The Company limits credit risk by diversifying its investment portfolio among government and corporate fixed maturities and common and preferred equity securities. It further diversifies these investment portfolios within industry sectors. As a result, management believes that significant concentrations of credit risk do not exist. The only investment (other than U.S. Governments) comprising more than ten percent of shareholders' equity at December 31, 2006 is Boston Properties Limited Partnership (\$1,561,087). At December 31, 2006, the Company had no investments that had not been income producing for a period of at least twelve months prior to year-end and had no fixed maturity securities on non-accrual status at December 31, 2006.

The following table is a reconciliation of the net unrealized gains (losses) arising during the year and the changes in net unrealized gains (losses) as reported on the accompanying statements of shareholders' equity.

Year Ended	Pretax Amount	Tax	Net-of-Tax Amount
<u>December 31, 2006</u>			
Unrealized loss	\$ (2,155,603)	\$ (369,870)	\$ (1,774,047)
Less: Reclassification adjustment for gains realized in net income	4,041	1,374	2,667
Change in net unrealized loss	\$ (2,159,644)	\$ (371,244)	\$ (1,776,714)
<u>December 31, 2005</u>			
Unrealized loss	\$ (3,222,939)	\$ (1,095,802)	\$ (2,127,137)
Less: Reclassification adjustment for gains realized in net income	780,265	265,290	514,975
Change in net unrealized loss	\$ (4,003,204)	\$ (1,361,092)	\$ (2,642,112)

As an income generation strategy, the Company takes certain option positions, generally on equity securities or related market indices and on equity options embedded in convertible bonds. Although such positions may be covered by actual securities owned or offsetting options, hedge accounting is not used. Accordingly, all such positions are marked to market and changes in value reported as realized gains or losses. During 2006 and 2005, option purchases totaled approximately \$52,000 and \$9,000, respectively, consideration received for options written totaled approximately \$638,000 and \$290,000 in 2006 and 2005, respectively, and related net realized gains totaled approximately \$193,000 and \$56,000 in 2006 and 2005, respectively. At December 31, 2006, net short option positions outstanding had a market value of \$(102,000) (included in Other liabilities in the Consolidated Balance Sheets) including equity options embedded in convertible bonds. At December 31, 2005, net short option positions outstanding had a market value of \$(179,000).

Pursuant to requirements of certain state insurance departments, the Company has investments with a carrying amount of \$49,264,219 at December 31, 2006, placed on deposit at various financial institutions that are restricted from withdrawal without prior regulatory approval.

The Company owns the building and land, which it currently occupies. At both December 31, 2006 and 2005, the Company occupied approximately 32% of the building with the remaining space leased or available for lease to third-party tenants. The accompanying financial statements reflect the proportionate Company occupied share of the building and related operating expense as property and equipment and general expense, respectively. The remaining portions are reflected as investment real estate and as a reduction of investment income, respectively. Accumulated depreciation at December 31, 2006 and 2005 on the investment real estate portion of the building was \$1,556,909 and \$1,484,482, respectively.

The Company leases office space to third-party tenants under non-cancelable lease agreements. Future minimum rental income (based on leases currently effective) is \$610,000, \$595,000, \$563,000, \$434,000 and \$156,000 for years 2007 through 2011, respectively.

Note 4-VALUE OF INSURANCE ACQUIRED

The value of insurance acquired is an asset, which represents the present value of future profits on business acquired, using discount rates of 6.6% to 9.0%. Balances outstanding relate primarily to the purchase of United Liberty, two additional companies which have been merged into Citizens Security (Integrity National Life Insurance Company and Old South Life Insurance Company) and the National Affiliated Investors Life block of business. An analysis of the value of insurance acquired for the years ended December 31, 2006, 2005 and 2004 is as follows:

Year Ended December 31	2006	2005	2004
Balance at beginning of year	\$ 2,284,174	\$ 2,689,902	\$ 3,119,609
Accretion of interest	129,019	151,212	178,070
Amortization	(476,677)	(556,940)	(607,777)
Balance at end of year	\$ 1,936,516	\$ 2,284,174	\$ 2,689,902

Amortization of the value of insurance acquired (net of interest accretion) in each of the following five years will be approximately: 2007 - \$287,000; 2008 - \$243,000; 2009 - \$206,000; 2010 - \$175,000 and 2011 - \$149,000.

Note 5-DEBT

Debt consists of the following:

December 31	2006	2005
Commercial bank, due 2007	\$ 208,337	\$ 1,375,003
Related party, due 2007	5,330,000	4,000,000
Total	\$ 5,538,337	\$ 5,375,003

The Company's outstanding commercial bank borrowings relate primarily to various insurance company acquisitions. Interest is payable quarterly at the lower of the bank's prime lending rate or the one-month LIBOR rate plus 2.75% (7.85% at December 31, 2006). Scheduled principal installments are due as follows: April 2007 and July 2007 - \$104,169 each. The loan agreement for the bank note contains covenants regarding asset acquisitions, shareholders' equity and dividends, and maintenance of a debt to earnings ratio. During the first half of 2005 the Company did not comply with a loan covenant (debt to earnings ratio) and did not comply with another covenant (borrower's equity) at June 30, 2006 on this debt and received a waiver from the lender of each violation through June 30, 2006. In return for the waivers, the Company's Chairman agreed to personally guarantee the outstanding bank debt. The Company was in compliance with the debt covenants for the last two quarters of 2006. Regarding the currently scheduled debt repayments, the Company believes its available resources will be adequate to service 2007 debt obligations. In addition, the Company's Chairman has expressed potential willingness to loan the Company an additional \$200,000, if necessary, which management believes will service debt obligations through 2007. The Company has pledged the issued and outstanding common and preferred stock of Citizens Security as collateral for the commercial bank note.

The Company borrowed \$2,000,000 from its Chairman in December 2002 to strengthen the statutory capital position of its principal insurance subsidiary. The Company borrowed an additional \$1,000,000, \$1,000,000 and \$1,330,000 in 2003, 2005 and 2006, respectively from its Chairman for general operating capital, including bank debt service. These borrowings are considered current debt as a result of a 90-day call provision in the loan agreement. Interest on the debt is payable quarterly by the Company at an annual rate equal to the greater of 6.00% or the prime lending rate plus 1% (9.25% at December 31, 2006). The outstanding principal is callable upon 90 days notice or otherwise due on June 30, 2007, except however, under terms of a subordination agreement between the Chairman and the Company's commercial bank, repayment is prohibited until all outstanding commercial bank borrowings are repaid.

Cash paid for interest on debt was \$486,646, \$379,519, and \$354,201, during 2006, 2005 and 2004, respectively.

Note 6-NET INCOME (LOSS) AND DIVIDENDS PER SHARE

The following table sets forth the computation of net income per share. There were no outstanding dilutive instruments in any year. No dividends were paid or accrued for 2006, 2005, or 2004.

Year Ended December 31	2006	2005 (As Restated)	2004
Numerator: Net Income (loss)	\$ (835,904)	\$ 131,765	\$ 255,613
Denominator: Weighted average common shares	1,652,605	1,671,628	1,680,227
Net Income (Loss) Per Share, basic and diluted:	\$ (0.51)	\$ 0.08	\$ 0.15

Note 7-INCOME TAXES

Income taxes consist of the following:

Year Ended December 31	2006	2005	2004
Current tax expense (benefit)	\$ (21,000)	\$ (88,000)	\$ 245,000
Deferred tax expense (benefit)	374,000	88,000	(294,000)
Income tax expense (benefit)	\$ 353,000	\$ -	\$ (49,000)

Deferred income taxes are provided for cumulative temporary differences between balances of assets and liabilities determined under GAAP and balances determined for tax reporting purposes.

Significant components of the Company's deferred tax liabilities and assets as of December 31, 2006 and 2005 are as follows:

Year Ended December 31	2006	2005 (As Restated)
Deferred Tax Liabilities:		
Value of insurance acquired	\$ (658,000)	\$ (777,000)
Deferred policy acquisition costs	(2,610,000)	(2,357,000)
Net unrealized gains on available-for-sale securities	-	(371,000)
Other	(382,000)	(271,000)
Total deferred tax liabilities	(3,650,000)	(3,776,000)
Deferred Tax Assets:		
Policy and contract reserves	3,584,000	3,655,000
Fixed maturities and equity securities	266,000	207,000
Real estate	549,000	549,000
Alternative minimum tax credit carryforwards	290,000	265,000
Net operating and capital loss carryforwards	727,000	432,000
Net unrealized losses on available-for-sale securities	182,000	-
Other	295,000	418,000
Total deferred tax assets	5,893,000	5,526,000
Valuation allowance for deferred tax assets	(1,963,000)	(1,467,000)
Net deferred tax assets after valuation allowance	3,930,000	4,059,000
Net deferred tax asset (liability)	\$ 280,000	\$ 283,000

The Company has generally not been currently taxable, accumulating operating and capital loss carryovers for tax purposes that create uncertainties as to future realization of related tax benefits and ultimate effective rates. This significantly impacts the Company's determination of its deferred income tax accounts, and requires periodic "true-ups" (\$84,000 in 2005).

The following is a reconciliation of income tax expense (benefit) at the federal statutory rate, to the tax at the Company's effective income tax rate:

Year Ended December 31	2006	2005 (As Restated)	2004
Tax at the statutory rate	\$ (164,000)	\$ 45,000	\$ 70,000
Small life company deduction	-	(17,000)	-
State and local income tax	(22,000)	(48,000)	(68,000)
Change in valuation allowance	490,000	(59,000)	53,000
True-up	94,000	84,000	-
Other	(35,000)	9,000	(99,000)
Dividend exclusion	(10,000)	(14,000)	(5,000)
Tax at the effective rate	\$ 353,000	\$ -	\$ (49,000)

Income taxes of \$33,957 were refunded in 2006. Income taxes refunded in 2005 were \$172,691 and income taxes (paid) in 2004 were (\$34,437). The Company has \$1,127,000 of net operating loss carryforwards, which begin to expire in the year 2018. The change in the valuation allowance is due principally to the limitation in the expected utilization of loss carryforwards.

Under the tax law in effect prior to 1984, a portion of income of Citizens Security was not taxed when earned. It was accumulated in a tax account known as policyholders' surplus. Under the provisions of the Deficit Reduction Act of 1984, policyholders' surplus accounts were frozen at their December 31, 1983 balance of \$859,000 for Citizens Security on a merged basis. Distributions from the policyholders' surplus would be subject to income tax. The relevant tax law was amended by Section 705 of the American Jobs Creation Act of 2004 (Public Law 108-357-Oct. 22, 2004). Section 705 amended IRC Section 815 by providing that distributions from the policyholders surplus account made during any taxable year of a stock life insurance company beginning after December 31, 2004, and before January 1, 2007 will not be added to the insurance company's taxable income, and that any distribution to shareholders during such years would be treated first as a distribution out of policyholders surplus. Therefore, Citizens Security paid a cash dividend to the Company for the full balance of the policyholders' surplus account of \$859,000 on December 27, 2006.

Note 8-STATUTORY ACCOUNTING PRACTICES AND SHAREHOLDERS' EQUITY

The Insurance Subsidiaries are domiciled in Kentucky and prepare their statutory-basis financial statements in accordance with statutory accounting practices ("SAP") prescribed or permitted by the Kentucky Office of Insurance ("KOI"). "Prescribed" statutory accounting practices include state insurance laws, regulations, and general administrative rules, as well as a variety of publications of the National Association of Insurance Commissioners ("NAIC"). "Permitted" statutory accounting practices encompass all accounting practices that are not prescribed; such practices may differ from state to state, may differ from company to company within a state, and may change in the future.

Statutory-basis net income (loss) and capital and surplus for the Company's combined insurance operations, for the three years ended December 31, 2006 are shown below. These amounts are combined totals for Citizens Security, United Liberty, and Citizens Insurance, with adjustments to eliminate intercompany holdings and activity.

Year Ended December 31	2006	2005	2004
Net Income (Loss)	\$ 184,634	\$ 1,203,045	\$ (172,701)
Capital and Surplus	\$ 11,296,774	\$ 11,560,743	\$ 10,755,568

Principal differences between SAP and GAAP include: a) costs of acquiring new policies are generally deferred and amortized for GAAP; b) value of insurance in force acquired is established as an asset for GAAP; c) benefit reserves are calculated using more realistic investment, mortality and withdrawal assumptions for GAAP; d) the change in SAP deferred income taxes associated with timing differences is recorded directly to equity rather than as a component of net income as required for GAAP; e) assets and liabilities of acquired companies are adjusted to their fair values at acquisition with the excess purchase price over such fair values recorded as goodwill under GAAP; f) available-for-sale fixed maturity investments are reported at fair value with unrealized gain and losses reported as a separate component of shareholders' equity for GAAP; and g) statutory asset valuation reserves and interest maintenance reserves are not required for GAAP.

Statutory restrictions limit the amount of dividends which the insurance companies may pay. Generally, dividends during any year may not be paid, without prior regulatory approval, in excess of the lesser of (a) 10% of statutory shareholders' surplus as of the preceding December 31, or (b) statutory net operating income for the preceding year. During 2006, Citizens Security made a capital infusion to Citizens Insurance of \$50,000. United Liberty paid dividends to Citizens Security of \$99,900, during 2006, (none in 2005 and 2004) and Citizens Insurance paid dividends to Citizens Security of \$250,000 and \$1,174,090 in 2005 and 2004, respectively (none in 2006). The Insurance Subsidiaries must each maintain \$1,250,000 of capital and surplus, the minimum required for insurance companies domiciled in Kentucky. The KOI imposes minimum risk-based capital ("RBC") requirements on insurance enterprises that were developed by the NAIC. The formulas for determining the amount of RBC specify various weighting factors that are applied to financial balances and various levels of activity based on the perceived degree of risk. Regulatory compliance is determined by a ratio (the "Ratio") of the enterprise's regulatory total adjusted capital, as defined by the NAIC, to its required authorized control level RBC, as defined by the NAIC. Enterprises below specific trigger points or ratios are classified within certain levels, each of which requires specified corrective action. Based on RBC computations as of December 31, 2006, the Insurance Subsidiaries each have statutory capital in excess of minimum regulatory requirements.

Note 9--SEGMENT INFORMATION

The Company's operations are managed along five business segments representing its principal insurance product lines: Home Service Life, Broker Life, Preneed Life, Dental, and Other Health. Products in all five lines are sold through independent agency operations. Home Service Life consists primarily of traditional life insurance coverage sold in amounts of \$10,000 and less to middle and lower income individuals. This distribution channel is characterized by a significant amount of agent contact with customers throughout the year. Broker Life product sales consist primarily of simplified issue and graded-benefit policies in amounts of \$10,000 and less, as well as our new final expense product in amounts of \$10,000 to \$35,000. Other products, which are not aggressively marketed, in this segment include: group life, universal life, annuities and participating life policies. Preneed Life products are sold to individuals in connection with prearrangement of their funeral and include single premium and multi-pay policies with benefits generally in amounts of \$10,000 and less. These policies are generally sold to middle aged to elderly individuals. Dental products are term policies generally sold to small and intermediate size employer groups. Other Health products include various accident and health policies sold to individuals and employer groups.

Segment information as of December 31, 2006, 2005 and 2004, and for the years then ended is as follows:

Year Ended December 31	2006	2005 (As Restated)	2004
Revenue:			
Home Service Life	\$ 8,840,283	\$ 9,009,607	\$ 8,873,473
Broker Life	5,929,126	6,348,960	5,731,569
Preneed Life	5,156,860	7,501,933	9,422,793
Dental	8,433,802	8,820,190	9,358,935
Other Health	911,392	961,952	1,103,521
Segment Totals	29,271,463	32,642,642	34,490,291
Net realized investment gains	4,041	780,265	2,868,250
Total Revenue	\$ 29,275,504	\$ 33,422,907	\$ 37,358,541

Below are the net investment income amounts that are included in the revenue totals above.

Year Ended December 31	2006	2005	2004
Net Investment Income:			
Home Service Life	\$ 2,056,568	\$ 1,912,948	\$ 1,649,798
Broker Life	2,138,296	2,435,012	2,169,421
Preneed Life	2,377,294	2,435,051	2,421,733
Dental	30,884	40,968	35,069
Other Health	72,178	81,968	73,430
Segment Totals	\$ 6,675,220	\$ 6,905,947	\$ 6,349,451

The Company evaluates performance based on several factors, of which the primary financial measure is segment profit. Segment profit represents pretax earnings, determined in accordance with the accounting policies described in Note 1, except net realized investment gains and interest expense are excluded. A significant portion of the Company's realized investment gains and losses are generated from investments in equity securities.

Year Ended December 31	2006	2005 (As Restated)	2004
<u>Segment Profit (Loss):</u>			
Home Service Life	\$ (176,484)	\$ (12,783)	\$ (616,755)
Broker Life	(110,698)	(221,847)	(961,413)
Preneed Life	376,774	464,393	(275,350)
Dental	(58,985)	(193,140)	(150,335)
Other Health	(29,975)	(305,604)	(303,463)
Segment Totals	632	(268,981)	(2,307,316)
Net realized investment gains	4,041	780,265	2,868,250
Less Interest expense	486,645	379,519	354,200
Income (loss) before income taxes	\$ (481,972)	\$ 131,765	\$ 206,734

Depreciation and amortization amounts below consist of amortization of the value of insurance acquired and deferred policy acquisition costs, along with depreciation expense.

Year Ended December 31	2006	2005	2004
<u>Depreciation and Amortization:</u>			
Home Service Life	\$ 563,307	\$ 674,534	\$ 701,531
Broker Life	619,021	433,686	365,988
Preneed Life	428,939	589,333	824,291
Dental	126,473	70,122	45,431
Other Health	29,000	28,695	55,706
Segment Totals	\$ 1,766,740	\$ 1,796,370	\$ 1,992,947

Segment asset totals are determined based on policy liabilities outstanding in each segment.

Year Ended December 31	2006	2005 (As Restated)	2004
<u>Assets:</u>			
Home Service Life	\$ 42,233,804	\$ 41,620,007	\$ 41,465,725
Broker Life	49,098,467	51,305,778	54,414,225
Preneed Life	54,193,219	57,603,193	58,560,125
Dental	250,030	913,764	1,025,005
Other Health	1,504,029	1,782,055	1,805,479
Total Assets	\$ 147,279,549	\$ 153,224,797	\$ 157,270,559

Note 10--QUARTERLY FINANCIAL DATA (Unaudited)

While preparing the 2006 consolidated financial statements, the Company discovered an error in the compilation and reporting of certain reinsurance transactions that caused the Net Income (Loss) to be misstated for the first, second and third quarters of 2006, respectively. The previously issued quarterly financial statements have been restated below to reflect the correction of this error. Below is also selected consolidated quarterly financial data for the year ended December 31, 2005 with the originally reported amounts, the related changes and the restated amounts for the second, third and fourth quarters of 2005:

Year 2006 - Quarter (As Restated)	1	2	3	4

Included in the corrections noted above, net policyholder benefits and increase in net benefits increased by \$84,975, \$36,028, \$68,858 and \$75,123 for 2005 and the first, second and third quarters of 2006, respectively.

Upon review for impaired securities, the Company recognized as realized losses (included in Investment gains (losses), net) \$218,133, \$256,714, \$141,999 and \$70,271 in the 1st, 2nd, 3rd and 4th quarters, respectively during 2006. There were no such realized losses from impairments recognized in 2005.

Note 11--REINSURANCE

The Company currently follows the general practice of reinsuring that portion of risk on the life of any individual that is in excess of \$40,000 for individual policies (under yearly renewable term and coinsurance agreements) and \$20,000 for group policies (under a group yearly renewable term agreement). Graded death benefit and simplified issue coverages above \$4,000 are generally 50% reinsured, with the Life Insurance Subsidiaries maintaining a maximum \$10,000 risk on any one policyholder. Individual and group accidental death coverage and a minor portion of cancer coverage are 100% reinsured. To the extent that reinsuring companies are unable to meet obligations under reinsurance agreements, the Company would remain liable. Reinsurance premiums, expenses, recoveries and reserves related to reinsured business are accounted for on bases consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts.

Note 12--CONTINGENCIES

United Liberty, which the Company acquired in 1998, defended an action in an Ohio state court brought by two policyholders in 2000. The Complaint referred to a class of life insurance policies, including related certificates of participation, that United Liberty issued over a period of years ended around 1971 (known as "Five Star Policies"). It alleged that United Liberty's dividend payments on these policies from 1993 through 1999 were less than the amounts required by the certificates of participation. It did not specify the amount of the alleged underpayment but implied a maximum of about \$850,000. The plaintiffs also alleged that United Liberty was liable to pay punitive damages, also in an unspecified amount, for breach of an implied covenant of good faith and fair dealing to the plaintiffs in relation to the dividends. The action was certified as a class action on behalf of all policyholders who were Ohio residents and whose policies were still in force in 1993. United Liberty denied the material allegations of the Complaint and defended the action vigorously.

As a result of a provisional settlement agreement dated October 8, 2004, that applied to all holders of the Five Star Policies wherever they reside, United Liberty recognized as of December 31, 2004 an obligation for future payments to the policyholders and their attorneys totaling \$825,000. The terms of the settlement agreement were subject to the approval of the court in which the action was pending. On October 21, 2005, a Final Order and Judgment was entered by the Court. The Final Order and Judgment approved the provisional Settlement Agreement dated October 8, 2004, and became final and effective on November 20, 2005.

The \$825,000 obligation for future payments included in the consolidated financial statements as of December 31, 2005 and 2004 consists of [i] up to \$500,000 payable to all persons who owned Five Star Policies that were still in force in 1993, [ii] \$315,000 in attorneys' fees payable to counsel for the class and [iii] a \$10,000 incentive award payable to the lead plaintiffs for the class. The \$500,000 portion is payable in respect of dividend obligations on the Five Star Policies from 1993 through 2000 and is to be paid in a lump sum to those policy holders whose policies are no longer in force and in three annual installments to those policy holders whose policies are still in force at their anniversary date. United liberty made the first payments dated January 12, 2006 to those whose policies were no longer in force, which totaled \$278,698. The attorneys' fees and incentive award were also paid on that date (prior to the "Initial Payment Date" set as sixty days subsequent to the end of the appeal period). Additional payments were made throughout 2006, leaving a balance of the related obligation for future payments at December 31, 2006 of \$166,600.

In addition, the Company is party to other lawsuits in the normal course of business. Based on information currently available, management believes that currently pending lawsuits will be resolved without material financial impact to the Company.

Note 13--FAIR VALUES OF FINANCIAL INSTRUMENTS

The fair values of financial instruments, and the methods used in estimating these values, are as follows:

Fixed Maturities: The fair values for investments in fixed maturities are based on quoted market prices, where available. For those fixed maturities that are not actively traded, fair values are estimated using values obtained from independent pricing services. Available-for-sale fixed maturities are carried at fair value in the accompanying statements of financial condition. At December 31, 2006 and 2005, the fair value of available-for-sale fixed maturities was \$101,061,766 and \$112,924,772, respectively.

Equity Securities: The fair values for investments in equity securities are based on quoted market prices. Equity securities are carried at fair value in the accompanying statements of financial condition. At December 31, 2006 and 2005, the fair value of equity securities was \$9,429,265 and \$8,580,035, respectively.

Short-Term Investments: The carrying amount of short-term investments approximates their fair value. At both December 31, 2006 and 2005 the fair value of short-term investments was \$40,000.

Cash and Cash Equivalents: The carrying amount of cash and cash equivalents approximates their fair value. At December 31, 2006 and 2005, the fair value of cash and cash equivalents was \$7,966,604 and \$3,552,969, respectively.

Policy Loans: The carrying amount of policy loans approximates their fair value. At December 31, 2006 and 2005, the fair value of policy loans was \$4,452,885 and \$4,495,291, respectively.

Investment Contracts: The carrying amount of investment-type fixed annuity contracts approximates their fair value. At December 31, 2006 and 2005, the fair value of investment-type fixed annuity contracts was \$8,821,042 and \$9,254,397, respectively.

Notes Payable: The carrying amounts of notes payable approximate their fair values. At December 31, 2006 and 2005, the fair value of notes payable was \$5,538,337 and \$5,375,003, respectively.

Note 14--BENEFIT PLANS

The Company has a 401(k) savings plan for its full-time employees. The Company contributes matching contributions at the discretion of its Board of Directors. Company expense associated with this plan totaled \$57,642, \$52,345, and \$57,401 in 2006, 2005 and 2004, respectively.

Note 15--RELATED PARTY TRANSACTIONS

The Company has various transactions with its President and Chairman of the Board (the "Chairman") or entities he controls. Through January 31, 2004 the Chairman provided investment portfolio management for the Company and its subsidiaries through SMC Advisors, Inc. (of which the Chairman is the principal officer, a director, and the sole shareholder). The investment portfolio management contracts provided for total annual fixed fees of \$45,000 and incentive compensation equal to five percent (5%) of the sum of the net realized and unrealized capital gains in the fixed maturities and equity securities portfolios of the Company during each contract year. Any excess of net realized and unrealized capital losses over net realized and unrealized capital gains at the end of a contract year were not carried forward to the next contract year. Fixed fees totaled \$3,750 in 2004. Incentive fees of \$47,668 were incurred and paid for 2004. The investment management contracts were terminated as of January 31, 2004 when the Chairman was named Chairman and Chief Executive Officer of each of the Insurance Subsidiaries. The Company also maintains a portion of its investments under a Trust Agreement with a bank controlled by the Chairman. Fees to the bank are based on assets held. Such fees were \$35,609, \$44,664, and \$52,772 in 2006, 2005, and 2004, respectively. The Company also manages certain commercial real estate affiliated with its Chairman. The Company charges the real estate projects management and leasing fees at market rates, which totaled \$158,372, \$146,903, and \$143,101 during 2006, 2005, and 2004, respectively. The Company borrowed \$1,330,000 and 1,000,000 from its Chairman in 2006 and 2005, respectively, in addition to previous borrowings totaling \$3,000,000. Terms of the note require interest to be paid quarterly at the greater of 6% per year or the commercial bank prime lending rate plus 1% (9.25% at December 31, 2006).

Note 16 - RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In September 2005, the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants (AcSEC) issued Statement of Position 05-1 (SOP 05-1), "Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection with Modifications or Exchanges of Insurance Contracts." SOP 05-1 provides guidance on accounting by insurance enterprises for deferred acquisition costs on internal replacements of insurance contracts other than those specifically described in Statement of Financial Accounting Standards (SFAS) No. 97, "Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and for Realized Gains and Losses from the Sale of Investments." SOP 05-1 defines an internal replacement as a modification in product benefits, features, rights, or coverages that occurs by exchange of a contract for a new contract, or by amendment, endorsement, or rider to a contract, or by the election of a feature or coverage within a contract. SOP 05-1 is effective for internal replacements occurring in fiscal years beginning after December 31, 2006 and is required to be adopted by the Company on January 1, 2007. Retrospective application of SOP 05-1 to previously issued

consolidated financial statements is not permitted. Based upon management's review of the Company's historical and expected transactions, the impact on the Company's financial statements of implementing this standard is not expected to be material.

In June 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48 (FIN 48), "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109." FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes." Specifically, FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006 and is required to be adopted by the Company on January 1, 2007. Management is continuing to evaluate the impact of adopting this interpretation and anticipates that it will not have a significant impact on the Company's consolidated financial position and results of operations.

We consent to the incorporation by reference in the Registration Statement (Form S-8 No. 33-86519) pertaining to the Citizens Financial Corporation 1999 Stock Option Plan of our report dated March 26, 2007 with respect to the consolidated financial statements and schedules of Citizens Financial Corporation included in the Annual Report (Form 10-K) for the year ended December 31, 2006.

/s/ Ernst & Young LLP

Cincinnati, Ohio
March 27, 2007

EXHIBIT 31.1

Certification of Principal Executive Officer
Certification for Annual Report on Form 10K

I, Darrell R. Wells, certify that:

- 1) I have reviewed this annual report on Form 10-K of Citizens Financial Corporation;
- 2) Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report;
- 3) Based on my knowledge, the financial statements and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this annual report;
- 4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and we have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - c) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected or is reasonably likely to materially affect the registrant's internal control over financial reporting; and
- 5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

EXHIBIT 32.1
Section 1350 Certification -- Principal Executive Officer

Citizens Financial Corporation and Subsidiaries

In connection with the Annual Report on Form 10-K of Citizens Financial Corporation (the "Company") for the year ended December 31, 2006, as filed with the Securities and Exchange Commission on the date hereof (the "Report") I, Darrell R. Wells, Chief Executive Officer of the Company, certify pursuant to 18 U.S.C. § 1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

1. The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

By: /s/ Darrell R. Wells
Darrell R. Wells
President and Chief Executive Officer

Date: March 30, 2007

A signed original of this written statement required by Section 906, or other document authenticating, acknowledging, or otherwise adopting the signature that appears in typed form within the electronic version of this written statement required by Section 906, has been provided to Citizens Financial Corporation and will be retained by CFC and furnished to the Securities and Exchange Commission or its staff upon request.

The foregoing certification is being furnished to the Securities and Exchange Commission as an exhibit to the Form 10-K and shall not be considered filed as part of the Form 10-K.

EXHIBIT 32.2
Section 1350 Certification -- Principal Financial Officer

Citizens Financial Corporation and Subsidiaries

In connection with the Annual Report on Form 10-K of Citizens Financial Corporation (the "Company") for the year ended December 31, 2006, as filed with the Securities and Exchange Commission on the date hereof (the "Report") I, Len E. Schweitzer, Vice President and Chief Financial Officer of the Company, certify pursuant to 18 U.S.C. § 1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

1. The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

A signed original of this written statement required by Section 906, or other document authenticating, acknowledging, or otherwise adopting the signature that appears in typed form within the electronic version of this written statement required by Section 906, has been provided to Citizens Financial Corporation and will be retained by CFC and furnished to the Securities and Exchange Commission or its staff upon request.

The foregoing certification is being furnished to the Securities and Exchange Commission as an exhibit to the Form 10-K and shall not be considered filed as part of the Form 10-K.

Performance Graph

The graph below compares the five-year cumulative total return, assuming the reinvestment of dividends, if any, of the Company's Class A Stock with the Russell 2000 Index and the Total Return Industry Index for NASDAQ Insurance Stocks, prepared by Center for Research in Securities Prices. The graph assumes \$100 invested at the per share closing price on December 31, 2001 in each of the Company's Class A Stock, the Russell 2000 Index and the Total Return Industry Index for NASDAQ Insurance Stocks. The Company did not pay dividends during any of these years.

	<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>2006</u>
Citizens Financial	\$100.00	\$60.61	\$104.12	\$85.33	\$75.76	\$77.58
Russell	\$100.00	\$79.52	\$117.09	\$138.52	\$144.86	\$171.47
NASDAQ Insurance	\$100.00	\$100.78	\$124.56	\$146.18	\$169.49	\$191.64

COMPANY INFORMATION

General Information

The Company has prepared the consolidated financial statements of Citizens Financial Corporation and its subsidiaries. The Company has responsibility for the financial information presented and has applied judgment to the information available, made estimates, and given due consideration to materiality in preparing the financial statements and other financial information in this Annual Report.

The financial statements, in the opinion of the management, present fairly the financial position of Citizens Financial Corporation and its subsidiaries and the results of their operations, changes in stockholders' equity and cash flows for the stated dates and periods in conformity with appropriate generally accepted accounting principles. The Company's independent auditors, Ernst & Young LLP, whose report on their audits is included in this Annual Report, have audited these financial statements.

The Company maintains accounting systems and related controls and communicates policies and procedures designed to provide reasonable, but not absolute, assurance that the financial records are reliable for preparing financial statements, provide appropriate information for management of the business, and maintain accountability for assets. Due regard has been given to the necessary balance between the cost of systems of internal control and the benefits derived.

The Audit Committee of the Board of Directors of Citizens Financial Corporation meet annually in private session with the independent auditors to review the auditor's comments on the Company's systems and controls.

The Company's Code of Business Ethics and Conduct is posted on its website.
