- (1) The net portfolio value is calculated based upon the present value of the discounted cash flows from assets and liabilities. The difference between the present value of assets and liabilities is the net portfolio value and represents the market value of equity for the given interest rate scenario. Net portfolio value is useful for determining, on a market value basis, how much equity changes in response to various interest rate scenarios. Large changes in net portfolio value reflect increased interest rate sensitivity and generally more volatile earnings streams.
- (2) Represents the increase (decrease) in the estimated net portfolio value at the indicated change in interest rates compared to the net portfolio value assuming no change in interest rates.
- (3) Calculated as the net portfolio value divided by the market value of assets ("net portfolio value ratio").
- (4) Calculated as the increase (decrease) in the net portfolio value ratio assuming the indicated change in interest rates over the estimated portfolio value of assets assuming no change in interest rates.
- (5) Calculated based on the present value of the discounted cash flows from assets. The market value of assets represents the value of assets under the various interest rate scenarios and reflects the sensitivity of those assets to interest rate changes.

Description of Office Facilities**

Exhibit II-1
First Savings Bank Northwest
Description of Office Facilities

At March 31, 2007, we had one full service office, which we own. In October 2004, we began the renovation and expansion of our existing office with the construction of a new two-story office building on property adjacent to our existing office. The new building has approximately 49,500 square feet, including 47 underground garage parking spaces, and is located on 2nd Street South between Wells Avenue and Williams Avenue in downtown Renton, Washington. This unique setting allows us to house each of our operations in adjoining offices, but with different addresses. The first phase of construction was completed in September 2005 and it is the site of First Financial Holdings, MHC's, First Financial Northwest's and First Savings Bank's offices at 201 Wells Avenue South. This location is also the site for the operations of First Financial Northwest's subsidiary, First Financial Diversified, at the address of 208 Williams Avenue South. The final phase of construction, which included the renovation of our existing office, was completed in March 2006 and has approximately 6,400 square feet, plus 11 parking spaces. Beginning in January 2007, this space housed the operations of First Savings Bank's subsidiary, Executive House, at 207 Wells Avenue South. The total investment for the renovation of our existing office, land purchases, construction of the new office building and equipment was approximately \$14.1 million.

Footnotes for Table CA05 (NAICS)

Personal Income by Major Source and Earnings by Industry

- 1/ The estimates of earnings are based on the 2002 North American Industry Classification System (NAICS).
- 2/ Census Bureau midyear population estimates. Estimates for 2001-2004 reflect county population estimates available as of April 2005.
- 3/ Contributions for government social insurance are included in earnings by type and industry but they are excluded from personal income.
- 4/ The adjustment for residence is the net inflow of the earnings of interarea commuters. For the United States, it consists of adjustments for border workers: Wage and salary disbursements to U.S. residents commuting to Canada less wage and salary disbursements to Canadian and Mexican residents commuting into the United States.
- 5/ Rental income of persons includes the capital consumption adjustment.
- 6/ Proprietors' income includes the inventory valuation adjustment and capital consumption adjustment.
- 7/ "Other" consists of wage and salary disbursements to U.S. residents employed by international organizations and foreign embassies and consulates in the United States.
- 8/ Broomfield County, CO, was created from parts of Adams, Boulder, Jefferson, and Weld counties effective November 15, 2001. Estimates for Broomfield county begin with 2002.
- o All state and local area dollar estimates are in current dollars (not adjusted for inflation).
- E The estimate shown here constitutes the major portion of the true estimate.
- (D) Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals.
- (L) Less than \$50,000, but the estimates for this item are included in the totals.
- (N) Data not available for this year.

- (1) Average of high/low or bid/ask price per share.
- (2) Or since offering price if converted or first listed in 2005 or within the past 52 weeks. Percent change figures are actual year-to-date and are not annualized.
- (3) EPS (earnings per share) is based on actual trailing twelve month data and is not shown on a pro forma basis.
- (4) Excludes intangibles (such as goodwill, value of core deposits, etc.).
- (5) ROA (return on assets) and ROE (return on equity) are indicated ratios based on trailing twelve month common earnings and average common equity and assets balances.
- (6) Annualized, based on last regular quarterly cash dividend announcement.
- (7) Indicated dividend as a percent of trailing twelve month earnings.
- (8) Excluded from averages due to actual or rumored acquisition activities or unusual operating characteristics.
- (9) For MHC institutions, market value reflects share price multiplied by public (non-MHC) shares.

* All thrifts are RAIF insured unless otherwise noted with an asterisk. Parentheses following market averages indicate the number of institutions included in the respective averages. All figures have been adjusted for stock splits, stock dividends, and secondary offerings.

- (1) Average of high/low or bid/ask price per share.
(2) Or since offering price if converted or first listed in 2001 or in the past 52 weeks. Percent change figures are actual year-to-date and are not annualized.
(3) EPS (earnings per share) is based on actual trailing twelve month data and is not shown on a pro forma basis.
(4) Excludes intangibles (such as goodwill, value of core deposits, etc.).
(5) ROA (return on assets) and ROE (return on equity) are indicated ratios based on trailing twelve month common earnings and average common equity and assets balances, ROE (return on investment) is current EPS divided by current price.
(6) Annualized, based on last regular quarterly cash dividend announcement.
(7) Indicated dividend as a percent of trailing twelve month earnings.
(8) Excluded from averages due to actual or rumored acquisition activities or unusual operating characteristics.

* All thrifts are SAIF insured unless otherwise noted with an asterisk. Parentheses following market averages indicate the number of institutions included in the respective averages. All figures have been adjusted for stock splits, stock dividends, and secondary offerings.
