Notice Concerning Revisions to Forecasts for Fiscal Year Ending March 31, 2008

In view of our current business trends, we announced revisions to our prior forecasts made on April 26, 2007 for fiscal year ending March 31, 2008 as follows:

1. Revision to Forecasts for Fiscal Year Ending March 31, 2008

(1) Consolidated Results (Millions of yen)

	Net Sales	Operating Income	Ordinary Income	Net Income
Prior forecasts(A)	145,000	9,350	9,500	4,900
Revised forecasts (B)	138,000	9,900	10,200	5,200
Change (B-A)	(7,000)	550	700	300
Rate of change (%)	(4.8%)	5.9%	7.4%	6.1%
(For reference) Fiscal year ended March 31, 2007	137,344	8,560	8,892	4,377

(2) Non-consolidated Results (Millions of yen)

	Net Sales	Operating Income	Ordinary Income	Net Income
Prior forecasts (A)	137,000	8,800	8,950	4,800
Revised forecasts (B)	130,000	9,200	9,500	4,900
Change (B-A)	(7,000)	400	550	100
Rate of change (%)	(5.1%)	4.5%	6.1%	2.1%
(For reference) Fiscal year ended March 31, 2007	130,632	7,736	8,139	4,137

2. Reason for the revisions

Although we have seen steady demands for system development backed by strong corporate earnings and our business is growing with an increase in projects mainly from financial institutions and manufacturing companies, net sales is expected to fall short of our prior forecasts primarily due to the decreased hardware sales for telecommunications in 1st half and a sell of one of our businesses earlier

this year.

Operating income, ordinary income and net income are expected to exceed the prior forecasts, due to an improvement in profitability of software development and data processing businesses, together with the decrease in selling, general and administrative expenses achieved by streamlining of administrative operations which offset the increased investments in human resources.
