Consolidated Financial Report for the 3Q of FY 2007

TOKYO, JAPAN, January 29, 2008 - Elpida Memory, Inc (Elpida), Japan's leading supplier of Dynamic Random Access Memory (DRAM), today announced its consolidated financial results for the third quarter of FY 2007 which ended on December 31, 2007.

1. Business Results

(1) 3Q of FY 2007 Operating Results (October 1, 2007 - December 31, 2007)

(Billions of yen)

	3 mo. ended Dec 31, 2007 (3Q-FY2007)	3 mo. ended Sep 30, 2007 (2Q-FY2007)	QoQ Chg (%)	3 mo. ended Dec 31, 2006 (3Q-FY2006)	YoY Chg (%)
Net sales	94.0	111.6	-15.7	142.6	-34.1
Gross profit	5.2	19.8	-73.8	41.2	-87.4
Operating income (loss)	(8.9)	6.1	-	27.3	-
Ordinary income (loss)	(12.8)	0.1	-	26.6	-
Net income (loss)	(12.1)	3.3	-	24.9	-

Note: Figures in the table are not audited.

In the 3Q world PC shipments remained strong QoQ, but aggressive capital spending and advances in process migration among DRAM makers over the past year led to a significantly oversupplied DRAM market, creating additional downward pressure on prices. According to DRAMeXchange, the average spot price for 512 megabit (Mb) DDR2 SDRAM, a leading DRAM product for PCs, in the 3Q fell more than 40% QoQ.

Given this environment, Elpida's DRAM selling prices also decreased. But supported by the strength of its Premier DRAM business the company managed to limit the fall in the blended DRAM average selling price (ASP) to 18% QoQ. In the manufacturing area, a boost in production capacity and a series of improvements in fab production at Hiroshima Elpida Memory (Hiroshima Elpida), as well as product procurement from the Rexchip Electronics Corporation (Rexchip) manufacturing joint venture, made possible 15% QoQ growth in bit shipments.

Forecasts included in this document are forward-looking statements that are based on management's view from the information available at the time of this report. These statements involve risks and uncertainties. Actual results may be materially different from those discussed in the forward-looking statements. The factors that may affect Elpida include, but are not limited to, changes in the DRAM market and industry environment, changes in technologies and design, problems related to its supply of key material and equipment, loss of or decreased demand from key customers, changes in exchange rates, general economic conditions and natural disasters. Elpida disclaims any obligation to update or, except in the limited circumstances required by the Tokyo Stock Exchange, announce publicly any revision to any of the forward-looking statements.

Elpida's 3Q net sales fell 16% QoQ to 94.0 billion yen. Gross profit fell 74% to 5.2 billion yen and operating losses totaled 8.9 billion yen. Equity affiliate losses of 2.1 billion yen arising mainly in connection with Rexchip and foreign exchange losses of 0.8 billion yen led to an ordinary loss of 12.8 billion yen and a net loss of 12.1 billion yen.

(2) Sales by business segment

(Billions of yen)

	3 mo. ended Dec 31, 2007 (3Q-FY2007)		3 mo. ended Sep 30, 2007 (2Q-FY2007)		QoQ Chg	3 mo. ended Dec 31, 2006 (3Q-FY2006)		YoY Chg
	%		%		%	%		%
Premier DRAM ⁽¹⁾	58.3	62.0	60.5	54.2	-3.5	49.1	34.4	+18.7
Computing DRAM ⁽¹⁾	35.7	38.0	51.1	45.8	-30.1	93.5	65.6	-61.8
Total net sales	94.0	100.0	111.6	100.0	-15.7	142.6	100.0	-34.1

Note: Figures in the table are not audited.

Premier DRAM consists of DRAMs for digital consumer electronics and mobile devices, and others.

Computing DRAM consists of DRAMs for servers and personal computers.

□ Premier DRAM

The 3Q witnessed growth in shipments of high-density DRAMs for mobile devices and high-end digital consumer electronics but prices for some low-density products fell to unexpectedly lower levels. As a result 3Q Premier DRAM net sales fell 4% QoQ. However on a YoY basis sales rose 19% to 58.3 billion yen, supported by firm shipment volumes.

□ Computing DRAM

The start of DRAM procurement from Rexchip in the 3Q enabled the group to elevate its PC DRAM shipments. But 3Q Computing DRAM net sales fell 30% QoQ and 62% YoY to 35.7 billion yen due to sharp falls in both spot and contract prices.

⁽¹⁾ Since the 2Q of FY 2007 (the three-month period ended on Sep 30, 2007) the Digital Consumer Electronics & Mobile Devices segment and Other segment have been merged into a segment called "Premier DRAM" while the Server segment and PC segment have been merged into a segment called "Computing DRAM". For YoY comparison purposes, the 3Q of FY 2006 (the three-month period ended on Dec 31, 2006) sales figure for Premier DRAMs is based on the total sales of Digital Consumer Electronics & Mobile Devices and Other products while the sales figure in the same quarter for Computing DRAMs is based on total sales of Server and PC products.

2. Financial Conditions

(1) Assets, Liabilities and Net Assets

Total assets at the end of the 3Q rose 10.5 billion yen compared with the end of FY 2006 to 772.9 billion yen. The main plus factors were an increase in other receivables stemming in part from the sale of 200mm wafer processing equipment and growth in investments and other assets based on the investment in Rexchip. The main minus factors were lower cash and time deposits largely as a result of payments for capital equipment and investment in Rexchip, and also a drop in accounts receivable on account of lower net sales.

End-3Q interest-bearing debt fell 5.5 billion yen compared with the end of FY 2006 to 224.1 billion yen. This mainly resulted, on the one hand, from an increase in corporate debt following the issuance of an unsecured 20.0 billion yen straight bond in November 2007 and, on the other, from partial repayment of borrowings and lease obligations.

Net assets at the end of the 3Q have risen by 4.3 billion yen compared with the end of FY 2006 to 383.3 billion yen, largely because the cumulative total of net income from the preceding nine months (FY 2007 1Q through 3Q) was added to retained earnings.

(2) Cash Flows

Regarding cash flow for the 3Q, operating activities provided net cash of 13.2 billion yen while investing activities used 31.0 billion yen. As a result, free cash flow (a combination of net cash provided by operating activities and net cash used in investing activities) saw a net outflow of 17.8 billion yen. Financing activities in the 3Q provided net cash of 17.6 billion yen as a result of issuance of straight bonds and other factors.

3. Outlook

Tightly balanced supply and demand conditions in the DRAM market can result in extreme price volatility, which can strongly affect our business results. Since a precise forecast of future PC DRAM prices is quite difficult Elpida is not presenting earnings forecasts. Instead, as shown below, we are presenting several estimates relevant to the 4Q of FY 2007 and the full term that can be used as a general guideline.

[For the quarter]

	3Q FY07 (Actual)	4Q FY07 (Estimate)
QoQ bit growth	+15%	+20%
QoQ ASP change	-18%	N/A
Depreciation and amortization	24.1	25
Selling, general and administrative expenses	14.1	14

[For the year]

(Billions of yen)	
	FY207 (Estimate)
YoY bit growth	90-100%
Depreciation and amortization	94
Selling, general and administrative expenses	56
CAPEX	160
Investment in Rexchip	81

Note: Forecasts are approximations.

4. Others

(1) Changes in significant subsidiaries in the nine-month period ended on December 31, 2007 (changes in specified subsidiaries resulting in changes in scope of consolidation)

In August, 2007 Elpida created a new sales umbrella subsidiary, Elpida Memory International B.V., to oversee the sales of subsidiaries in two regions, Europe (one subsidiary) and Asia (three subsidiaries).

(2) Adoption of simplified accounting methods

None.

(3) Changes in accounting policies

During the nine-month period ended on December 31, 2007 Elpida and its domestic subsidiaries changed the depreciation method for property, plant and equipment acquired after March 31, 2007 due to a revision in the Japanese Corporation Tax Law and accompanying regulations. As a reflection of this change for the first nine months or three quarters of FY 2007 operating income has been reduced by 843 million yen, ordinary losses have increased by 843 million yen and income before income taxes has decreased by 843 million yen.
