Immediate Report

Nature of the Event: Fees paid by the Company to its auditors during 2006

Further to the publication of the Directors Report within the framework of the Periodic Report for 2006 (which was published on March 21, 2007) and in accordance with the instructions of the Securities Authority, following are the data relating to fees paid by the Company to its auditors during 2006 (including a comparison to 2005):

- A. The fees for audit and related services and tax services totaled US\$ 551,000 in 2006 (compared with US\$ 510,000 in 2005) in Israel and the subsidiaries outside of Israel (6,293 hours in 2006 compared with 6,707 hours in 2005). The amount paid for tax services does not exceed 45% of the fees detailed in this clause.
- B. Other fees – The total fees for services provided by the auditors that are not included in clause A above totaled US\$ 49,000 in 2006 (compared with US\$ 53,000 in 2005) in Israel and the subsidiaries outside of Israel.

Immediate Report

Nature of the Event: Acquisition of Raychan Food Industries Ltd.

1. Frutarom Industries Ltd. ("**Frutarom**") announced today that it has completed, through its subsidiary Frutarom Ltd., the acquisition of 100% of the share capital of the Israeli company Raychan Food Industries Ltd. ("**Raychan**") after the Israeli Anti Trust Commission granted final approval on August 15 for the merger. In consideration for Raychan's shares, Frutarom paid US\$ 1.05 million and assumed Raychan's debt (minus working capital) in the amount of US\$ 1.23 million. Raychan's sales for 2006 reached about US\$ 5.5 million, mostly in Israel.

Raychan develops, produces and markets flavor compounds and markets ingredients for the food industry. Raychan's activity is highly synergetic with Frutarom's activity in Israel and that of Nesse, which was acquired at the beginning of 2006. Raychan's activity broadens Frutarom's product offering in the fields of savory and functional products and solutions to its customers in Israel and worldwide. Raychan's products will be integrated into the product range produced by Frutarom's Flavors Division, which is the most profitable of Frutarom's activities. Frutarom intends to utilize the many cross selling opportunities inherent in the acquisition and to sell Raychan's products to Frutarom customers in markets where Raychan was less active to date (such as Eastern Europe and Turkey) in order to maximize the synergy between the companies' activities. The acquisition will strengthen Frutarom's technological capabilities and its research and development infrastructure, especially in the field of savory flavor compounds. The acquisition will improve the service and quality Frutarom provides to its customers in this field, in Israel or elsewhere. Frutarom's manpower will benefit and be strengthened considerably by the addition of Raychan's experienced and skilled employees and Raychan's management will be integrated into Frutarom's management in Israeli and contribute its experience.

Frutarom is acting to complete the integration of Raychan's activities with its own at Frutarom's sites in Haifa and Acco within several months in order to maximize the expected operational savings.

2. Date and time at which the Company was first made aware of the event: 27/08/2007 at 15:00.

Sincerely Yours,

Eyal Shohat, Adv.
VP Legal Affairs and Corporate Secretary

Immediate Report

Nature of the Event: Response to publications

Further to news items that appeared today in the media regarding the submission of a class action against Frutarom, Frutarom Industries Ltd. hereby advises that it has received a document that appears to be a "request for approval of a class action" for odors supposedly originating from the Company's plant in the Haifa Bay area.

The Frutarom plant in the Haifa Bay area produces flavors and fine ingredients, mainly for the food and beverage industries. The plant's activities and production meet the most stringent of international standards and regulations. Frutarom works in full coordination with the Office of Environmental Protection and invests considerable resources in protecting the environment.

The Company's management and legal advisors estimate, after reviewing the document, that this is a false claim without any merit and intend to request that it be rejected.

Sincerely Yours,

Eyal Shohat, Adv.

FRUTAROM CONTINUES TREND OF SALES GROWTH

FIRST QUARTER SALES GREW 26.8% TO US\$ 91.7 M

DOUBLE-DIGIT GROWTH IN CORE ACTIVITIES FAR SURPASSING GROWTH RATE IN THE MARKET

INTEGRATION PROCESS IN ACTIVITIES ACQUIRED RECENTLY IN ENGLAND, USA AND ISRAEL PROCEEDING AS PLANNED TO ACHIEVE MAXIMUM UTILIZATION OF COMMERCIAL SYNERGY AND OPERATIONAL SAVINGS

Haifa, Israel – August 21, 2007. Frutarom (LSE: FRUTq, TASE: FRUT, OTC: FRUTF) today presented its results for the second quarter of 2007.

The trend of sales growth that has characterized Frutarom's activity in the past seven years continued in the second quarter of this year while achieving double digit growth in core activities that is considerably higher than the growth rate in Frutarom's field of activity. This growth was achieved through the implementation of Frutarom's rapid growth strategy, combining organic growth in core activities with strategic acquisitions of activities and knowhow in its main business segments and in strategic geographic regions. In implementing this strategy for rapid growth in recent years, Frutarom has established its position as one of the ten leading global companies in its field. Frutarom's current global dispersal enables it to make acquisitions where the Company is already active and enjoy quick utilization of the considerable synergy inherent in these acquisitions by making substantial improvement to the acquired activities' margins by achieving maximum operating savings:

Belmay Limited – was acquired on April 1, 2007, in consideration for US\$ 17.1 million. Belmay is a leading flavors company in the English market that develops, produces and markets flavors for the food and beverage industry.

Jupiter Flavours Limited – which develops, produces and markets flavors, in England, on April 19, 2007. In consideration, Frutarom paid US\$ 2.8 million.

The Belmay and Jupiter acquisitions established Frutarom's position as the leading flavors producer in the British market. Frutarom is in the process of integrating the three sites—Belmay's, Jupiter's, and Frutarom's in England—into one in order to achieve the greatest efficiency and annual operational savings of over US\$ 3 million.

Raychan Be'erot Yitzhak Food Industries Ltd. – which develops, produces and markets flavor compounds and markets ingredients for the food industry. The consideration for the acquisition is US\$ 1.0 million plus the assumption of Raychan's debt in the amount of approximately US\$ 1.2 million. Following final approval from the Israeli Anti Trust Commissioner last week, the transaction is expected to be completed within a few days. Raychan's activity is highly synergetic with Frutarom's activity. Frutarom intends to complete the integration of Raychan's activity with the activity at Frutarom's existing sites in Haifa and Acco within the next few months, thereby maximizing efficiency and operational savings.

Adumim Food Additives Ltd. – on June 28, 2007, Frutarom signed an agreement to acquire the assets of Adumim, which has two main fields of activity: the development, production and marketing of ingredients and unique fine ingredients for the food and functional food industries, and the development and production of dietary additives containing medicinal plant extracts, vitamins and minerals. In consideration for the acquisition Frutarom will pay approximately US\$4.3 million. Following final approval from the Israeli Anti Trust Commissioner last week, the transaction is expected to be completed within a few days. Frutarom intends to integrate Adumim's activity with its own at Frutarom's site in Haifa to achieve maximum efficiency and operational savings.

Abaco – on July 3, 2007, Frutarom acquired the American company Abaco, which develops, produces and markets unique fine ingredients for the flavors and fragrances industry. Frutarom paid a consideration of US\$ 4.0 million in cash and assumed Abaco's debt in the amount of US\$ 1.1 million. Upon completing the acquisition Frutarom began the process of integrating Abaco's activity with Frutarom USA's activity in order to exploit and utilize the considerable synergy, both operational and commercial, that exists between Frutarom and Abaco's activities in order to best extract the cross selling opportunities and maximize cost savings.

These acquisitions continue the implementation of the rapid growth strategy of Frutarom, which is already considered one of the ten largest companies in the world in the field of flavors and fragrances. Frutarom is working to integrate the acquired activities with its existing activity and to extract maximum synergy, both commercial and operational, in order to take best advantage of opportunities for cross selling and cost savings and to significantly improve the margins of the acquired activities.

Frutarom's **sales in the second quarter** of 2007 grew 26.8% to total US\$ 91.7 million. Even when excluding the acquisitions made and the influence of currency exchange rates, Frutarom achieved accelerated double digit growth in its core activities. The following factors were the main contributors to the growth in sales: (1) Growth in the sales of flavors produced and sold by the Flavors Division; (2) Growth in sales of the Fine Ingredients Division's core activity products; (3) The integration of Acatris's activity, which was acquired and consolidated as of October 2006 with the Frutarom Group's global activity; (4) The merger of Belmay and Jupiter, which were acquired and consolidated with the Frutarom Group's global activity as of April 2007; (5) Utilization of the synergy and cross selling opportunities between Frutarom's Divisions, existing customers and products and those added through the acquisitions made in recent years; and (4) The strengthening of the European currencies and New Israeli Shekel (in which most of Frutarom's sales are made) against the dollar (excluding the influence of the stronger Western European currencies, sales grew 23.6% in the second quarter).

Sales in the first half of 2007 grew 20.1% to total US\$ 172.2 million.

Gross profit for the second quarter rose 25.0% to reach US\$ 32.8 million compared with US\$ 26.3 million last year. **Gross margin for the second quarter** reached 35.8% in the quarter compared with 36.3% in the same quarter of 2006. The gross profit and margin in the second quarter were influenced by the continued global trend of rising prices for raw materials used in Frutarom's production. Frutarom continues working to adjust the selling prices of its products to these price rises in order to improve its gross margin.

Operating profit for the second quarter totaled US\$ 8.5 million, compared with US\$ 9.7 million in the same quarter in 2006. Operating margin reached 9.3% compared with 13.4% in the same period of last year. Both gross and operating margin for the quarter were influenced by:

- Belmay and Jupiter's current margin, which, as expected, is lower than Frutarom's. This margin does not reflect the profitability expected once the reorganization process in the UK activity is completed, the synergy is utilized and the expected savings are achieved.
- Implementation of the ERP system at the Company's sites in Israel and Switzerland. The ERP project is progressing as planned and is in the final stages of implementation at Frutarom's main sites in Israel and Switzerland.

Operating and gross margin for the second quarter were also influenced by the following one-time factors: (1) reorganization expenses in the amount of US\$ 1.1 million in the Company's activity in the UK recorded in the second quarter following the acquisition of Belmay and Jupiter in England and the integration of three sites into one in order to achieve maximum efficiency and annual operational savings, estimated at over US\$ 3 million; and (2) income in the amount of US\$ 1.1 million in accordance with the acquisition agreement for the Food Systems activity from IFF and with the earn out mechanism in the agreement, that was recorded in the second quarter of 2006. **Excluding one-time expenses and income**, gross profit totaled US\$ 33.0 million compared with US\$ 26.3 million in the second quarter of 2006, and operating profit reached US\$ 9.7 million in the

second quarter of this year compared with US\$ 8.6 million in the second quarter of 2006. During the first half, gross profit—excluding one time expenses and income, reached US\$ 62.8 million compared with US\$ 53.3 million in the first half of 2006, and operating profit reached US\$ 20.1 million in the first half of this year compared with US\$ 18.9 million in the first half of 2006.

Profit before tax for the second quarter totaled US\$ 8.6 million, compared with US\$ 9.1 million in the same period last year. **During the first half of the year, profit before tax** reached US\$ 18.7 million, compared with US\$ 19.8 million in the same period last year. **Taxes on income for the second quarter** grew to US\$ 2.7 million compared with US\$ 0.5 million in the same quarter in 2006, when tax arrangements were made in Germany following the Nesse acquisition and the Company recorded a one time tax reduction in the amount of US\$ 1.5 million. **Taxes on income for the first half** grew to US\$ 5.2 million compared with US\$ 2.4 million in the same quarter in 2006, when the Company recorded a one time tax benefit in the amount of US\$ 1.3 million upon receiving approval as a plant characterized by high technological turnover and the Company's tax expenses decreased on a one-time basis for tax arrangements in Germany, as stated above.

Net profit for the second quarter totaled US\$ 5.9 million compared with US\$ 8.6 million in the same quarter last year. Net margin reached 6.5% compared with 11.9% in the same quarter of 2006. **Excluding one-time expenses and income, net profit for the second quarter of 2007** reached US\$ 6.7 million compared with US\$ 6.2 million for the second quarter in 2006.

Net profit for the first half of 2007 totaled US\$ 13.5 million compared with US\$ 17.4 million in the same quarter of 2006 and net margin reached 7.9% compared with 12.1%. **Excluding one-time expenses and income, net profit in the first half of 2007** reached US\$ 14.3 million compared with US\$ 13.8 million in the first half of 2006.

Frutarom's **shareholders' equity** as at June 30, 2007 totaled US\$ 229.4 million (62.4% of the balance sheet) compared with US\$ 200.8 million (70.8% of the balance sheet) at June 30, 2006. The growth in shareholders' equity is mainly due to the profit for the period.

According to **Ori Yehudai, Frutarom President and Chief Executive Officer**, "In the second quarter of 2007, Frutarom achieved accelerated organic growth in its core activities in line with the business strategy we have been implementing in recent years. This growth comes, among others, from utilizing the considerable synergy from our acquisitions in the last few years and it will grow as we realize the synergy of the acquisitions made this year." Yehudai added, "We are working determinedly in order to complete within several months the integration of Belmay and Jupiter with Frutarom UK's existing activity at the Belmay site in order to achieve the greatest possible operational efficiency and savings, which are estimated at over US\$ 3 million annually. Similarly, upon completing the acquisition of Raychan and Adumim we will act to merge their activity with the activity at our sites in Haifa and Acco." Yehudai concluded, "Frutarom continues working to implement the Company's strategy for rapid growth and to utilize the synergy and many cross selling opportunities in the acquisitions of recent years, which will help to sustain organic growth in Frutarom's core activities. Frutarom invests considerable resources in identifying and executing additional strategic acquisitions, mainly in countries and markets where it has substantial activity."

FRUTAROM INDUSTRIES LTD. ("THE COMPANY")

NOTICE OF CALL FOR THE ANNUAL GENERAL MEETING OF THE SHAREHOLDERS OF THE COMPANY

**IN ACCORDANCE WITH THE COMPANIES LAW (NOTICE OF GENERAL MEETING AND CLASS
MEETING IN PUBLIC COMPANY) – 2000**

Notice is hereby given of the Annual General Meeting of the shareholders of the Company to be held on September 10, 2007 at 10:30 Israel (08:30 GMT) in the Company's offices at 32 Pinchas Rosen Street, Herzlia, having as its agenda:

1. Review of the Annual Financial Report and the Directors Report

Review of the Annual Financial Reports and the Directors Reports of the Company for the year ended December 31, 2005 and for the year ended December 31, 2006.

2. Electing Directors Who Are Not External Directors

To elect the candidates in the proposed resolution below to serve as members of the Board of Directors of the Company until the end of the next Annual General Meeting of the Company.

Proposed resolution: To re-elect Dr. John J. Farber, Mrs. Maya Farber, Mr. John L. Oram, Mr. Hans Abderhalden and Mr. Yair Seroussi for an additional term as members of the Board of Directors of the Company until the end of the next Annual General Meeting of the Company. (For further information on the directors refer to the Annual Report published by the Company on March 20, 2007.)

3. Appointment of Auditors and Determination of their Fees

To appoint Kesselman & Kesselman, members of PricewaterhouseCoopers, as the auditors of the Company for the year 2007 and until the end of the next Annual General Meeting of the Company, and to authorize the Board of Directors of the Company to determine their fees.

Proposed resolution: To appoint the firm of Kesselman & Kesselman, members of PricewaterhouseCoopers, as the Company's auditors for 2007 and until the end of the next Annual General Meeting of the Company, and to authorize the Company's Board of Directors to determine their fees.

Majority Required for the Above Resolutions

To pass the resolutions detailed above in #2 and #3 in the agenda at the Annual General Meeting (including a postponement of the Meeting), an ordinary majority of the shareholders present and voting in the Meeting is required.

Entitlement

The record date for the rights of the shareholders to vote at the General Meeting, as stated in Section 182 of the Companies Law – 1999 (the "Companies Law") and the Companies Regulations (Written Vote and Position Notices) – 2005 is August 9, 2007.

Shareholders can vote in person or by proxy. The proxy appointment for voting will be deposited in the Company's offices no less than 48 hours before the time determined for the start of the Meeting. In addition, regarding the proposed resolution in #2 above, the shareholders are entitled to vote using a voting ballot that states their voting. The voting ballot and the position notices (as defined in Section 88 of the Companies Law) is attached as Annex A to this notice (the vote will be done on the second part of the voting ballot) and may also be found on the distribution website of the Israeli Securities Authority (www.magna.isa.gov.il) and on the website of the Tel Aviv Stock Exchange Ltd. (<http://maya.tase.co.il>).

Shareholders are entitled to approach the Company directly to receive the voting ballot and position notices. A Stock Exchange member will, at no cost, send a link to the voting ballot and position notices on the distribution website by Email to any shareholder who is not registered in the shareholder register and whose shares are registered with that Stock Exchange member, if the shareholder has advised that he so desires and only when the notice is made regarding a particular share account and prior to the record date. A shareholder whose shares are registered with a member of the Stock Exchange is entitled to receive confirmation of his ownership from the Exchange member through which he holds the shares at a branch of the Exchange member or by mail at his mailing address for the cost of the mailing alone, if the shareholder so desires and if this request is made in advance to a certain share account.

The last date for submitting position notices to the Company is August 20, 2007.

The last date for submitting voting ballots to the Company is up to 72 hours before the time of the vote.

An adjourned Meeting, if required, will be held on September 17, 2007, at the same time and at the same location.

Review of Documents

The proposed resolutions may be reviewed at the Company's offices at 25 HaShaish St., Haifa (tel. +972 4 846 2401, fax +972 4 872 2517) on Sunday-Thursday during normal working hours.

Immediate Report

Nature of the Event: Knowledge Agreement

1. Frutarom Industries Ltd ("**Frutarom**") announced that it has signed an exclusive agreement with Ramot at Tel Aviv University Ltd ("**Ramot**"), to commercialize unique knowhow (patent pending) developed by Professor Michael Ovadia of Tel Aviv University, to produce an innovative extract from cinnamon with anti viral properties. The comprehensive research performed in Professor Ovadia's laboratory demonstrated the extract's ability to rapidly neutralize a broad range of viruses that cause infectious diseases in both humans and animal, such as human and avian influenza, herpes (HSV-1) and human immunodeficiency virus (HIV-1). Another unique activity of this innovative extract is its ability to boost the immune system against viruses, demonstrated by the ability to serve as a vaccination agent in chicken embryos infected with Newcastle disease virus (NDV). Trials performed together with a veterinary company showed that chicken embryos can be vaccinated against the NDV virus while they are still in the egg and in so doing, significantly improve the efficiency of the vaccine's administration, increase success rates and reduce mortality.

The agreement with Ramot gives Frutarom an exclusive global license to commercialize the knowhow in order to manufacture and market the unique natural extract, based on knowhow currently being patented. Frutarom intends to market this unique product to the nutraceutical, functional food, health food and animal feed industries and to further develop the knowhow as a drug for humans and animals as part of the Company's unique natural product offering. Frutarom will invest in further research and development of this unique product and additional applications within Frutarom's fields of activity. Professor Michael Ovadia will lead the

research.

Frutarom will use its considerable knowhow in natural product manufacturing for the research, development and scaling up of the product's manufacturing process in accordance with international quality standards so as to achieve industrial scale production and commercialization. Frutarom estimates that the product will be launched in about a year.

The cooperation with Ramot is part of Frutarom's broad strategic plan to expand Frutarom's offering of unique natural products and to strengthen Frutarom's position and standing as a leading global supplier of natural products and functional food ingredients for tasty and healthy solutions. As part of this strategy, Frutarom invests in and cooperates with start-up companies, research institutes and universities that develop innovative and unique technologies. This supports Frutarom's own ongoing research and development activities, carried out in-house by its R&D teams throughout the world.

2. Date and time at which the Company was first made aware of the event: 27/06/2007.

Sincerely yours,

Eyal Shohat, Adv.

Immediate Report

Nature of the Event: Acquisition of Abaco

Frutarom Industries Ltd. ("Frutarom") announced today that on July 3, 2007, its wholly owned subsidiary, Frutarom U.S.A. Inc., signed an agreement to acquire 100% of the ownership of Abaco (Abaco Manufacturing, LLC and Abaco Incorporated) ("**Abaco**"), a privately owned American company located in Georgia, in consideration for US\$4 million (and assumption of the company's debt of \$1.1 million). Abaco's sales in 2006 totaled approximately US\$3.2 million.

Abaco develops, produces and markets unique ingredients for the flavor and fragrance industry and has synergetic activities with those of Frutarom's Fine Ingredients Division, whose main development laboratories and production facilities are located in the U.S., the U.K. and Israel. The acquisition is expected to enhance Frutarom's activities in the U.S., which is a strategic market for the Frutarom Group, and to expand the product line offered by the Fine Ingredients Division to its customers in the U.S.A. and globally. Abaco has hundreds of customers, both multinational and local, with whom it enjoys long term relationships. Frutarom intends to utilize the multiple cross selling opportunities arising from the acquisition and to offer Frutarom's products to Abaco's many customers in the U.S.A. and throughout the world, as well as offering Abaco's products to Frutarom's existing customer base. The acquisition will strengthen Frutarom's capabilities and expertise in the field of unique ingredients for the flavor and fragrance industry and improve the service and quality that Frutarom provides to its customers, particularly in the U.S.A.

Abaco was founded in 1989 and its principals have decades of accumulated knowledge and experience in the field of ingredients for the flavor and fragrance industry. With the merging of the two companies' activities, Frutarom will benefit from the addition of high quality employees, especially in the realm of development, marketing and sales. Abaco's management will be integrated with that of Frutarom U.S.A., contributing its experience and network.

Sincerely Yours,

Eyal Shohat, Adv.
VP Legal Affairs and Corporate Secretary

Tel Aviv Stock Exchange Ltd. http://www.tase.co.il/

Immediate Report

Nature of the Event: Acquisition of the activity of Adumim Food Additives Ltd.

Frutarom Industries Ltd ("Frutarom") announced today that on June 28, 2007 its wholly owned subsidiary, Frutarom Ltd., signed an agreement to acquire the activity of Adumim Food Additives Ltd. ("Adumim"), a public company listed on the Tel Aviv Stock Exchange, which was established in 1977 by, among others, Dr. Eli Pintus and Prof. Nissim Garti. According to the terms of the agreement Frutarom will purchase Adumim's assets (excluding its real estate and customer debit and cash balances) in consideration for US\$4,250,000. Adumim's sales for 2006 totaled approximately US\$5.5 million (23.5 million NIS), mostly in Israel.

Adumim has two main fields of activity: development, production and marketing of ingredients and unique fine ingredients for the food and functional food industries which provide the final product with flavor, color, texture, a long shelf life and healthful values; and development and production of food ingredients containing medicinal plant extracts, vitamins and minerals known to have positive health benefits and nutrition products for the elderly (including ill people who have difficulty consuming solid food.)

Adumim's activity is synergetic and compatible with the Frutarom Group's operations and will broaden Frutarom's product portfolio and the natural, healthful solutions which Frutarom offers its customers worldwide, especially in the fields of food, nutraceuticals and functional food. The acquisition will also strengthen Frutarom in the natural emulsions and clean label areas, both of which are characterized by an above average growth rate. Adumim's products, some of which are patented, will be integrated into the range of products produced and marketed by both Frutarom's Flavors and Fine Ingredient divisions. Frutarom intends to utilize the cross selling opportunities

created from this acquisition and to sell Adumim products to its existing customers, located in 120 countries, via its 45 marketing and sales offices, thus maximizing the synergy between the companies' operations. The cross selling will also include Adumim's customers located outside Israel, to whom Adumim sells unique products, some of which are patented.

Adumim holds 45.8% of the share capital in NutraLease Ltd. ("**NutraLease**") which was established at the initiative of Prof. Nissim Garti of The Hebrew University of Jerusalem's Casali Institute of Applied Chemistry and one of the founders of Adumim. NutraLease has developed new and unique nano-encapsulation technology that enables a unique delivery system through which insoluble materials may be added to foods, beverages, medications and cosmetic products without adversely affecting their quality. The patented technology helps to enhance the solubility of active ingredients, to increase their bio-availability and to control the release of active ingredients, including flavors and medications. The technology also helps with the introduction of insoluble materials into clear beverages, which is currently a rapidly growing field. Adumim has exclusive production and marketing rights for products based on the unique technology developed by NutraLease for the food industry. Frutarom intends to develop this activity and to bring this unique technology to its customers around the world.

Adumim abounds with research, development and innovation, led by Dr. Eli Pintus and Prof. Nissim Garti, each of whom has accrued decades of applied research experience. The integration of Adumim's operations with those of Frutarom will strengthen the Frutarom Group's research and development infrastructure, which will benefit from the addition of high quality personnel in the fields of development of fine ingredients and unique technology.

Completion of the acquisition is subject, among others, to the approval of the Israeli Anti Trust Commissioner.

Sincerely Yours,

Eyal Shohat, Adv.
VP Legal Affairs and Corporate Secretary

Eyal Shohat, Adv.
Vice President - Legal Affairs

FRUTAROM CONTINUES TREND OF SALES GROWTH

THIRD QUARTER SALES GREW 23% TO US\$ 87.7 M

DOUBLE-DIGIT GROWTH CONTINUES IN CORE ACTIVITIES, FAR SURPASSING GROWTH RATE IN THE MARKET

INTEGRATION PROCESS IN ACTIVITIES ACQUIRED RECENTLY IN ENGLAND, USA, ISRAEL AND GERMANY PROCEEDING AS PLANNED TO ACHIEVE MAXIMUM UTILIZATION OF COMMERCIAL SYNERGY AND OPERATIONAL SAVINGS

Haifa, Israel - November 20, 2007. Frutarom (LSE: FRUTq, TASE: FRUT, OTC: FRUTF) today presented its results for the third quarter of 2007.

The trend of sales growth that has characterized Frutarom's activity in the past seven years continued in the third quarter of this year while achieving accelerated growth in core activities that is considerably higher than the growth rate in Frutarom's field of activity. This growth is being achieved through the successful implementation of Frutarom's rapid growth strategy, combining organic growth in core activities with strategic acquisitions of activities and knowhow in its main business segments and in strategic geographic regions. This year Frutarom made seven strategic acquisitions that are synergetic with the activity at its sites worldwide while utilizing the Company's global spread, which enables it to quickly enjoy the considerable commercial synergy in these acquisitions. Frutarom acquired Belmay and Jupiter in England at the beginning of the second quarter, and Raychan and Adumim in Israel and the American company Abaco during the third quarter. In October of this year, the German Gewurzmueller group was acquired and in November, the activity of RAD Natural Technologies was acquired in Israel. Frutarom is working to integrate the acquired activities with its existing activity and to extract synergy, both commercial and operational, in order to take best advantage of opportunities for cross selling while making substantial cost savings and significantly improving the margins of the acquired activities.

The accelerated growth contributed to establishing Frutarom's position as one of the ten leading global companies in its field and to strengthening its global spread, with sales to over 120 countries, 18 production sites, 24 research and development laboratories and 48 sales and marketing offices.

Frutarom's results and margins were significantly influenced by the acquisitions made this year. The acquisitions have contributed to sales growth but at this point in time, during the merger of the acquired activities with Frutarom's existing activity they have not contributed to profit and have affected profitability, as expected. Upon completion of the merger process, savings will be made in many expenses and substantial operational improvement achieved. Completing the merger of the three sites in England into one, following the acquisition of Belmay and Jupiter will, in Frutarom's estimation, lead to annual operational savings of over US\$ 3 million as of the beginning of 2008. Completion of the merger of Abaco with the Fine Ingredients Division's activity in the USA and the merger of Raychan's and Adumim's activity with the Flavors Division's activity in Israel and its transfer to Frutarom's plants in Israel, while achieving considerable operational savings, is also expected to contribute to improved margin in 2008. Frutarom estimates that as of the first quarter of 2008, each of the acquisitions will not only contribute to the continued trend of sales growth, but also to growth in profit through improved margin.

An additional, important influence on the results of Frutarom's activity and margin is the ongoing upward trend in most raw materials prices used by Frutarom in its production, with an even more significant increase in the prices of many natural raw materials, which are the majority of the raw materials used by Frutarom. During the third and fourth quarters Frutarom has and will continue to act determinedly to raise the selling prices of its products in order to adjust them to the continued rise in raw materials prices, just as many of its customers in the global food industry are doing.

Frutarom's sales in the third quarter of 2007 grew 23.0% to total US\$ 87.7 million. Excluding the influence of the strengthening Western European currencies, Frutarom's sales for the quarter grew 20.0%. The main contributors to the growth in sales were: (1) growth in the sales of flavors produced and sold by the Flavors Division; (2) the integration of Acatris's and Abaco's activities, which were acquired and consolidated as of October 2006 and July 2007, respectively, with the Fine Ingredients Division's global activity; (3) the merger of Belmay and Jupiter, which were acquired and consolidated with the Flavors Division's activity as of April 2007; (4) the merger of Raychan's and Adumim's activities, which were acquired and consolidated with the Flavors

Division's activity in Israel as of September 2007; (5) utilization of the synergy and crossselling opportunities between Frutarom's Divisions, existing customers and products and those added through the acquisitions made in recent years; (6) the strengthening of the European currencies and New Israeli Shekel (in which most of Frutarom's sales are made) against the dollar; and (7) growth in the activity of Trade & Marketing in Israel.

Sales in the first nine months of 2007 grew 21.1% to total US\$ 260.0 million. Excluding the influence of the strengthening Western European currencies, sales for the quarter grew 18.0%.

Gross profit for the third quarter rose 17.1% to reach US\$ 31.5 million compared with US\$ 26.9 million in the same quarter last year. Gross margin for the third quarter reached 36.0% in the quarter compared with 37.8% in the same quarter of 2006.

Operating profit for the third quarter totaled US\$ 8.3 million, compared with US\$ 9.2 million in the same quarter in 2006. Operating margin reached 9.5% compared with 13.1% in the same period of last year. Operating profit for the first nine months totaled US\$ 27.2 million, compared with US\$ 29.3 million in the same period in 2006. Operating margin reached 10.4% compared with 13.6% in the same period of last year.

Excluding one-time expenses and income in the first nine months of the year and the same period last year, operating profit rose to total US\$ 28.4 million compared with US\$ 27.6 million in the first nine months of 2006. Operating margin was 10.9% compared with 12.9% in the same period last year.

Profit before tax for the third quarter totaled US\$ 6.6 million, compared with US\$ 9.2 million in the same period last year. Taxes on income for the third quarter totaled US\$ 0.7 million compared with US\$ 2.2 million in the same quarter in 2006. The decrease in taxes on income derives from the expected reduction of the tax rate in Germany as of January 1, 2008, which led to a decline of US\$ 0.7 million in deferred tax, and from a decrease in tax in the amount of US\$ 0.5 million in Israel as the result of the revaluation in the New Israeli Shekel against the US dollar.

Net profit for the third quarter totaled US\$ 5.9 million compared with US\$ 7.0 million in the same quarter last year. Net margin reached 6.7% compared with 9.8% in the same quarter of 2006. Net profit for the first nine months of 2007 was US\$ 19.4 million compared with US\$ 24.4 million in the same quarter of 2006, and net margin reached 7.4% compared with 11.4%. Excluding one-time expenses and income in the first nine months of 2007 and the same period in 2006, net profit for the first nine months of 2007 reached US\$ 19.0 million compared with US\$ 20.6 million in the first nine months of 2006. As stated, margin was influenced by the increase in raw materials prices and by the merger of acquisitions that have contributed to sales but not to profit and have temporarily affected margin, as expected.

Frutarom's shareholders' equity as at September 30, 2007 totaled US\$ 242.6 million (62.3% of the balance sheet) compared with US\$ 206.7 million (69.7% of the balance sheet) at September 30, 2006. The growth in shareholders' equity is mainly due to the profit for the period and the changes in the US dollar exchange rate against the other currencies that are the autonomous subsidiaries' main activity currency, which influenced the currency translation differences equity fund and caused the growth in the shareholders' equity balance.

According to Ori Yehudai, Frutarom President and Chief Executive Officer, "In the third quarter of 2007, Frutarom again achieved accelerated organic growth in its core activities in line with the business strategy we have been implementing in recent years. This growth comes, among others, from the accelerated shift of many leading food companies to the use of natural flavors and ingredients, with the emphasis on clean labels and functional and organic food, fields in which Frutarom intensified its investment in recent years in implementing its vision:

"To Be the Preferred Partner for Tasty and Healthy Success," while utilizing the considerable synergy with the acquisitions made from Frutarom in recent years. We expect this growth to intensify as we realize the synergy of the acquisitions made this year." Yehudai added, "Our plans for the merger of this year's seven acquisitions are progressing according to our expectations and during the fourth quarter we expect to complete the integration of Belmay and Jupiter in England, Raychan and Adumim in Israel, and Abaco in the USA, while achieving substantial savings and improving these activities' margin. Upon completing these processes, the acquisitions made this year will contribute not just to the ongoing upward trend in sales, but also to substantial growth in profit while improving margin." Yehudai also said, "Similar to many of our customers in the global food market, we are working determinedly to raise the selling prices of our products in order to adjust them to the continuing rise in raw materials prices." Yehudai concluded, "Frutarom continues working to implement the Company's strategy for rapid growth and to utilize the synergy and many cross selling opportunities in the acquisitions of recent years, which will contribute to sustain profitable organic growth in Frutarom's core activities. Frutarom invests considerable resources in identifying and executing additional strategic acquisitions, mainly in countries and markets where it has substantial activity."

Background on the Company

Frutarom is a global company active in the global markets for flavors and ingredients. Frutarom has significant production and development centers on three continents and markets its products on five continents to over 5,000 customers in more than 120 countries. Frutarom's products are intended mainly for the food, beverage, flavor, fragrance, pharmaceutical, nutraceutical, health food, functional food, food additives, and cosmetic industries.

Frutarom operates through two Divisions:

- The Flavors Division, which develops, produces and markets flavor compounds and food systems.
- The Fine Ingredients Division, which develops, produces and markets natural flavor extracts, natural functional food ingredients, natural pharmaceutical/nutraceutical extracts, specialty essential oils and citrus products, and aroma chemicals.

Frutarom's products are produced at its plants in the United States, England, Switzerland, Germany, Israel, Denmark, China, and Turkey. The Company's global marketing organization includes branches in Israel, the United States, England, Switzerland, Germany, Belgium, Holland, Denmark, France, Hungary, Romania, Russia, Ukraine, Kazakhstan, Belarus, Turkey, Brazil, Mexico, China, Japan, Hong Kong, India and Indonesia. The Company also works through local agents and distributors worldwide. Frutarom has about 1,500 employees worldwide.

Immediate Report on an Event Outside the Ordinary Course of Business

Regulation 36(a) of the Securities Regulations (Periodic and Immediate Reports), 1970

Nature of the Event: Acquisition of RAD Natural Technologies

Frutarom Industries Ltd. ("Frutarom") hereby announces that it acquired the activity of RAD Natural Technologies Ltd. ("**RAD**") through its subsidiary Frutarom Ltd. on Thursday, November 15, 2007. Led by Dr. Rina Reznick, a world expert in natural anti-oxidants, RAD researches, develops, produces markets, distributes and sells unique natural plant extracts with anti-oxidant properties for use in food, dietary supplements and cosmetic products. RAD possesses unique knowhow, which is protected by patents, in this field. RAD's sales for 2006 totaled US\$ 1.2 million and US\$ 0.9 million for the first six months of 2007. As part of the agreement, Dr. Reznick agreed to be employed by Frutarom at least until December 31, 2009, and Frutarom agreed to employ her at least until that date.

In accordance with the acquisition agreement, Frutarom acquired RAD's assets, including fixed assets, inventory, agreements, orders, goodwill, intellectual property and prepaid expenses (Frutarom will not assume RAD's liabilities), in consideration for a cash payment of US\$ 4.1 million, which was financed with bank loans. The acquisition agreement also determines an earn out mechanism for a future payment, such that RAD will be entitled to an additional payment if the accumulated sales for RAD's products in 2008 and 2009 are more than US\$ 4 million. If the accumulated sales for RAD's products in 2008 and 2009 exceed US\$ 11.1 million, the maximum additional payment to which RAD will be entitled will be US\$ 4.9 million.

RAD's activity is synergetic with and complements Frutarom's activity and expands the range of natural health and taste solutions that Frutarom offers its customers worldwide. RAD has an impressive pipeline of projects together with its varied customers throughout the world, including

large, multinational leaders in their fields. The acquisition of RAD combined with the acquisition of the Gewurzmuller group in October of this year, of Raychan in August 2007 and the Nesse group at the end of 2006, join Frutarom's existing activity in Israel in the field. These acquisitions consolidate and boost Frutarom as a leading global supplier to food manufacturers of unique, natural solutions characterized by taste and health, all in accordance with Frutarom's strategy. RAD's products, which are protected by patents, will be integrated with the offering of products produced and marketed by Frutarom's Flavors Division. Frutarom will act to extract the greatest advantage from the cross selling opportunities included in the acquisition and to sell RAD's products to Frutarom's customers in the 120 countries in which it operates and thereby maximize the existing synergy.

Date and time when the Company first became aware of the reported event: November 15, 2007.

Sincerely yours,

Eyal Shohat, Adv.
VP Legal Affairs and Corporate Secretary

Immediate Report on an Event Outside the Ordinary Course of Business

Regulation 36(a) of the Securities Regulations (Periodic and Immediate Reports), 1970

Nature of the Event: Acquisition of Gewurzmuller Group - Clarifications

Further to the Immediate Report dated October 14, 2007 related to the acquisition of 100% of the share equity of Gewurzmuller GbmH and Blessing Biotech GmbH in Germany (together hereinafter: the "**Gewurzmuller Group**") and in accordance with the instructions of the Israeli Securities Authority, following are further details relating to the acquisition:

1. Sales of the Gewurzmuller Group during the first seven months of 2007 totaled Eur 29.2 million.
2. The Gewurzmuller Group's adjusted operating profit for the first seven months of 2007 totaled Eur 4.1 million.

With regard to the financial data for 2007 above (hereinafter: the "**Financial Data**"), it is being emphasized that the data are is post adjustments resulting from activities that were not acquired, deduction of inter company profit, and various adjustments resulting from the fact that prior to the acquisition the Gewurzmuller Group was a private, family-owned company. The Financial Data are based on the Gewurzmuller Group's managerial reports as at July 31, 2007, which were prepared according to German GAAP. The managerial reports were not audited or reviewed by the auditor and the actual results may therefore differ from the above Financial Data.

3. The Gewurzmuller Group's total assets as at December 31, 2006, according to its financial reports prepared in accordance with German GAAP, totaled Eur 22.1 million and total liabilities on the same date reached Eur 11.4 million.
4. The statutory tax rate that will apply to the Gewurzmuller Group for 2007 is 38.34%. This rate is expected to decrease to 29.83% as of January 1, 2008 following a change to the German tax rates.
5. The consideration for the acquisition was financed through a long term (five year) bank loan bearing an annual interest rate of 12 months Libor plus 1% during the first year and an 12 months Libor plus 1.2% from the second year. Under the loan agreement Frutarom Industries Ltd. (hereinafter: the "Company") made the following covenants:
 - a. The Company's shareholders capital will be not less than US\$ 180,000,000.
 - b. The Company's shareholders capital will be not less than an amount equal to 30% of the Company's total balance sheet.
 - c. The ratio received from dividing the balance of the Company's financial liabilities by the operating profit for serving the loan (Operating profit for servicing the loan is defined as the accumulated amount of operating profit from current activity before financial expenses and taxes, plus depreciation and amortization expenses) will be not more than 6.

Date and time when the Company first became aware of the reported event: October 16, 2007.

Sincerely yours,

Eyal Shohat, Adv.
VP Legal Affairs and Corporate Secretary

Immediate Report on an Event Outside the Ordinary Course of Business

Regulation 36(a) of the Securities Regulations (Periodic and Immediate Reports), 1970

Nature of the Event: Acquisition of Gewurzmuller Group

Frutarom Industries Ltd. ("Frutarom") today announced that on October 11, 2007, it signed an agreement to acquire 100% of the share capital of the German companies Gewurzmuller GmbH and Blessing Biotech GmbH ("**Gewurzmuller**" and "**Blessing Biotech**" respectively and together the "**Gewurzmuller Group**"), in consideration for a cash payment of US\$ 67 million (approximately Euro 47.3 million). The acquisition agreement also determines an earn out mechanism for a future payment, such that the final consideration to be paid will reflect a value for the Gewurzmuller Group based on a 7.1 multiple of the 2007 EBITDA. The Gewurzmuller Group's sales for 2006 totaled approximately US\$ 65 million (approximately Euro 46 million). Frutarom used long term loans to finance the acquisition.

Gewurzmuller was established by the Rendlen family, the seller, in 1896 and today is a leading international group with an excellent reputation in its field. Gewurzmuller, which employs 190 people, develops, produces and markets unique and innovative savory solutions, including savory flavors, seasoning compounds and functional ingredients for the food industry, with special emphasis on the fields of processed meat and convenience food. Blessing Biotech develops, produces and markets starter cultures, which are natural products based on microbiological processes, mainly fermentation of microorganisms and enzymes, and which are used to manufacture food, especially meat, dairy and baked goods. Starter cultures enable food manufacturers to control flavor, color, texture and shelf life.

The Gewurzmuller Group operates two production sites in Stuttgart, Germany. The main site, which was built two years ago, is modern and efficient and would allow a substantial increase in production

capacity. The main site also meets the most stringent standards of the European food and beverage industry.

The Gewurzmuller Group has sales and marketing representatives in 12 countries. The Group's extensive customer base includes thousands of food manufacturers, among them leaders in their field, especially in East and West Europe, in particular Germany, Austria, Switzerland, Sweden, Denmark, Russia, Ukraine and Bulgaria.

The acquisition of Gewurzmuller continues the implementation of Frutarom's rapid growth strategy. This is an important strategic and significant acquisition that further establishes Frutarom's position as one of the ten largest global leaders in the field of flavors and enhances the Company's presence and position as a leading global producer of savory flavors.

Gewurzmuller's activity is especially synergetic with Frutarom's and will be integrated with the successful activity of the German company Nesse, which was acquired by Frutarom at the beginning of 2006, and with Frutarom's activity in Israel. The acquisition considerably boosts both Frutarom's technological capabilities and its product offering to customers worldwide in the field of savory flavors and functional products, as well as Frutarom's extensive customer base. Frutarom will act to extract the greatest advantage from the operational synergy between its activities and the Gewurzmuller Group's activities in Germany and elsewhere in order to achieve optimal operational efficiency and savings.

The global savory flavors market is growing annually by 4%-6% and at even higher rates in the emerging markets, where Gewurzmuller is also active. Frutarom considers the field of savory flavors to be an important strategic growth engine and is investing considerably at its sites worldwide in developing innovative and unique products with high added value.

Frutarom's personnel in the fields of unique savory flavors and functional ingredients will benefit from the significant addition of experienced and skilled employees at all levels. The Gewurzmuller Group's strong, experienced management, including the Rendlen family (the seller), will be integrated into Frutarom's management. The Gewurzmuller Group has extensive research and development activity, possesses patented products and processes, and collaborates with leading European universities.

Date and time when the Company first became aware of the reported event: October 11, 2007.

Sincerely yours,

Eyal Shohat, Adv.
VP Legal Affairs and Corporate Secretary
