GTECH INTERNATIONAL RESOURCES LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JANUARY 31, 2008 (UNAUDITED)

1. Nature and continuance of operations

The Company was incorporated under the laws of the Yukon Territory and is registered extra-provincially in the Province of British Columbia, Canada.

Previously, the Company was in the process of exploring its mineral properties and had not determined whether these properties contained ore reserves that were economically recoverable. The Company has written-off all amounts shown for mineral properties and their related deferred costs. The Company is currently investigating opportunities in the field of biotechnology.

2. Significant accounting policies

(a) Mineral properties and deferred costs

The Company has written-off all of its mineral property interests and retains a residual royalty entitlement in respect of its Aurex exploration property.

(b) Fair value of financial instruments

The carrying amount of cash and cash equivalents, accounts payable and accrued expenses approximate their fair value due to their short-term nature.

(c) Stock option plan

Options are granted periodically by the Directors under the Company's stock option plan. The Company has elected to apply the fair value method of accounting for stock options on a prospective basis and, accordingly, the fair value of stock options granted is calculated using a Black-Scholes option-pricing model and included as a stock based compensation expense.

(d) Income taxes

Effective from January 1, 2000, the Company adopted the recommendations of the Canadian Institute of Chartered Accountants with respect to accounting for income taxes, whereby income taxes are calculated using the liability method of accounting. Temporary differences arising from the difference between the tax basis of an asset or liability and its carrying amount on the balance sheet are used to calculate future income tax liabilities or assets. These standards also require that the future income tax liabilities or assets are measured using tax rates and laws expected to apply in the periods that the temporary differences are expected to reverse. The Company has currently provided for a full valuation allowance against any potential tax assets. The implementation of the new recommendations, which were applied retroactively, has had no effect on these consolidated financial statements.

(e) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. Actual results may differ from these estimates.

3. Exploration agreements

CANADA; YUKON TERRITORY

Aurex Property - Mayo Mining District

The Company previously had a 100% interest in this property, which consisted of 155 mineral claims. On August 16, 2001, the Company agreed with Yukon Zinc Corp. ("Yukon Zinc") to accept \$84,000, to be paid by the issue of 600,000 common shares in Yukon Zinc, as final settlement for the sale of the property. The property was subsequently sold to Stratagold Corporation. Gtech International Resources Limited retains a 1.5% royalty on the project which Stratagold Corporation may purchase from the Company for \$1,000,000.

Revenue Creek Area - Whitehorse Mining District

The Company previously owned 69 mineral claims which it sold to ATAC Resources Limited ("ATAC"), a Canadian public company, on January 16, 2002. The Company agreed to accept 200,000 common shares in ATAC and a cash payment of \$5,000 in final settlement for the transfer of the project. Gtech International Resources Limited retains a 2% net smelter royalty which ATAC may purchase from the Company for \$600,000.

4. Related party transactions

The Company is a subsidiary of Genetic Technologies Limited ("GTG"), a public company listed on both the Australian Securities Exchange (code: GTG) and NASDAQ Global Market (ticker: GENE). As at January 31, 2008, GTG owned 3,918,499 shares of the Company, representing approximately 75.82% of the Company's issued shares.

5. Share capital (cont.)

Summary of options outstanding

Number outstanding	Exercise price	Expiry date
200,000	\$0.45	August 26, 2010

During the year ended April 30, 2006, the Company granted stock options to Directors to acquire up to an aggregate of 200,000 common shares at an exercise price of \$0.45 per share with a total fair value of \$48,600, of which \$16,200 was recognised as an expense during that year. The remaining expense of \$32,400 was recognised as an expense during the year ended April 30, 2007.

The fair value of stock options used to calculate compensation expense is estimated using the Black-Scholes Option Pricing Model with the following assumptions: a risk-free interest rate of 3.54%, an expected life of 5 years, an expected volatility of 60%, and no expectation for the payment of dividends.

Option pricing models require the input of highly subjective assumptions, particularly as to the expected price volatility of the stock. Changes in these assumptions can materially affect the fair value estimate and therefore it is Management's view that the existing models do not necessarily provide a single reliable measure of the fair value of the Company's stock option grants.

Summary of warrants outstanding

As at January 31, 2008, there were no warrants outstanding.

6. Loss per share

Loss per share is calculated using the weighted-average number of common shares outstanding during the year. Fully-diluted loss per share is not disclosed as it is anti-dilutive.

7. Subsequent events

There were no significant events which occurred subsequent to the end of the period under review.

8. Segmented information

As at January 31, 2008, all of the Company's assets, amounting to \$440,240 were located in Canada. The only revenue earned by the Company during the three-month period ended January 31, 2008 was interest received of \$2,851 (2007: \$2,978), which was earned in Canada.

OVERALL PERFORMANCE

Description of Business

The Company realised all of its listed securities during the financial year ended April 30, 2004 and now holds the majority of its assets in the form of cash deposits (\$440,240 as at January 31, 2008). No securities of the Company were issued during the three-month period ended January 31, 2008. The Company is a reporting issuer in British Columbia, Alberta and the Yukon Territory and trades on the NEX board of the TSX Venture Exchange under the symbol GCH.H:NEX.

The Company has previously announced its decision to focus its activities on identifying new business opportunities for the Company to acquire. The Directors anticipate that, once they have identified a suitable project, they may convene a Special Meeting of Shareholders to consider and vote on the change of business direction. It is likely that, once a suitable project has been identified and approved by shareholders, further placements will be made to raise additional funds for its development. The Board has not identified any specific factors that would impact the Company's ability to acquire a project.

As at the date of this MD&A, the Company is pursuing several opportunities which may, subject to receiving any necessary Shareholder approval, result in a potential project being acquired by the Company.

The Company incurred total expenses of \$3,495 during the three-month period ended January 31, 2008. As at January 31, 2008, the Company had working capital of \$439,864, and believes that it has sufficient funds to pay its ongoing expenses.

Previously, the Company was a junior resource company engaged in the acquisition and exploration of mineral properties in British Columbia and the Yukon Territory. The Company still retains a 1.5% net smelter royalty on the Aurex Property which Stratagold Corporation may purchase at any time for \$1,000,000. The Company also owned 69 mineral claims, which it sold on January 16, 2002 to ATAC Resources Limited ("ATAC"). The Company agreed to accept 200,000 common shares in ATAC and a cash payment of \$5,000 in final settlement for the transfer of the project. These shares were then subsequently sold by the Company during the fiscal year ended April 30, 2004. Gtech International Resources Limited retains a 2% net smelter royalty which ATAC may purchase from the Company for \$600,000.

Results from operations

The Company reported a net loss for the three-month period ended January 31, 2008 of \$644, compared to a net loss of \$10,242 for the three-month period ended January 31, 2007. Total expenses for the three-month period ended January 31, 2008 were \$3,495, compared to the three-month period ended January 31, 2007 of \$13,220. Total costs incurred during the period under review in relation to identifying new opportunities for the Company, as stated in the Description of Business section of this Report, were \$Nil. Until such time as an appropriate business opportunity is identified, the Company's results from operations are unlikely to change significantly.

Revenue for the three-month period ended January 31, 2008 consisted of interest received of \$2,851, compared to the previous corresponding period of \$2,978.

During the three-month period ended January 31, 2008, \$3,495 (January 31, 2007: \$12,710) was spent on general and administration expenses.

Accounting policies

Accounting Policies are listed in Note 2 of the Financial Statements of the Company as at January 31, 2008. There were no changes in accounting policies during the period under review.
