**INTRODUCTION**

First Ship Lease Trust ("FSL Trust") is a provider of leasing services on a bareboat charter basis to the international shipping industry. It has a modern, high quality and diverse portfolio of 18 vessels consisting of four containerships, nine product tankers, three chemical tankers and two dry bulk carriers as at 31 December 2007. These vessels have an average age of approximately four years, and an average remaining lease period of approximately eight years (excluding extension periods and early buy-out options).

FSL Trust was constituted under a Trust Deed dated 19 March 2007 entered with FSL Trust Management Pte. Ltd. as its trustee-manager. FSL Trust seeks to become the leading provider of leasing services on a bareboat charter basis to the international shipping industry. To achieve this, FSL Trust Management Pte. Ltd. will focus on rapidly growing the vessel portfolio of FSL Trust through accretive acquisitions with long-term bareboat charters. FSL Trust was listed on 27 March 2007 on the Singapore Exchange Securities Trading Limited ("SGX-ST") with an initial portfolio of 13 vessels.

On 7 November 2007, FSL Trust acquired two product tankers from two affiliates of privately held Goda Shipping & Transportation Ltd. under a sale-leaseback arrangement, bringing FSL Trust's portfolio to a total of 18 vessels. This acquisition was immediately accretive to FSL Trust's distribution per unit (See paragraph 9(b) - Review of performance for the quarter ended 31 December 2007).

The quarter under review falls under the Subordination Period (27 March 2007 (listing date) to 30 June 2009). During this Subordination Period, the Sponsor<sup>1</sup> has agreed to subordinate its entitlement to the distribution in respect of 50% of its Units, and the Trustee-Manager has agreed to subordinate its management fees should the forecasted DPU be not achieved in any quarter.

The DPU payable for the quarter ended 31 December 2007 is US2.42¢. This exceeds the forecasted quarterly DPU of US2.13¢, hence, the Sponsor and the Trustee-Manager do not have to surrender any of their distributions and management fees, respectively.

The DPU achieved for this quarter is 13.6% higher than the forecasted DPU. The Trustee-Manager will not be entitled to any incentive fees as such fees are only payable if the actual Net Distributable Amount per unit exceeds US2.45¢ (15% above the forecasted DPU of US2.13¢).

Note:

- (a) Includes non-cash items like depreciation and amortization of debt upfront fees and initial direct costs.

<sup>1</sup> The Sponsor is First Ship Lease Pte. Ltd.. As at 31 December 2007, the Sponsor owns 30.1% of the units in FSL Trust.

FOR THE PERIOD FROM 19 MARCH 2007 TO 31 DECEMBER 2007**

**9(b) Review of performance for the quarter ended 31 December 2007**

On 7 November 2007, FSL Trust acquired two product tankers from Groda Shipping & Transportation Ltd. under a sale-leaseback arrangement for a total consideration of US\$113.0 million via its wholly-owned special purpose companies. This acquisition was immediately accretive to FSL Trust's distribution, contributing an additional US0.188¢ for the quarter ended 31 December 2007.

The incremental lease rentals arising from the purchase and concurrent leaseback of three product tankers from James Fisher Everard Limited in June 2007 and two product tankers from Groda Shipping & Transportation Ltd. in November 2007 primarily lifted revenue by 31.4% to US\$15.2 million against projection for the quarter under review.

Correspondingly, total operating expenses rose 24.5% to US\$11.4 million, due mainly to increased depreciation from the additional acquired vessels.

Financing cost, which amounted to US\$2.0 million, comprised mainly interest expense (US\$1.7 million) incurred for the loans drawn to finance three product tankers from James Fisher Everard Limited in June 2007 and two product tankers from Groda Shipping & Transportation Ltd. in November 2007.

Against projection, net profit after tax fell by 14.3% to US\$1.9 million. FSL Trust was capitalized solely by equity at its initial public offering. As new vessels are acquired and financed 100% by debt, the net profit of FSL Trust will fall as the periodic interest expense and depreciation expense relating to the acquired vessels exceed the lease rentals received. The profitability of FSL Trust will stabilize once the long-term capital structure of 1:1 debt to equity is achieved.

For the quarter under review, a total of US\$12.1 million was available for distribution to unitholders. FSL Trust's policy is to apply 100% of the Net Distributable Amount to unitholders. Based on the total distributable amount of US\$12.1 million, the DPU is US2.42¢, an increase of 13.6% over the projected DPU.

**10. Outlook and Prospects**

Management believes that the on-going global credit crisis is net beneficial for FSL Trust as ship operators are facing greater difficulty in raising conventional bank finance and as such are turning increasingly to alternative financing solutions including leasing. As a result of these developments, management has raised its annual acquisition target from US\$200 million to US\$300 million. Any near term acquisitions will continue to be funded exclusively by debt. The existing US\$250 million credit facility remains about US\$90 million undrawn. Given FSL Trust's long-term capital structure target of 1:1 for debt to equity, upon full drawing under the current credit facility, FSL Trust has incremental borrowing capacity of about US\$200 million. Management foresees no problems in raising these incremental debt funds on competitive terms and expects to do so within the first quarter of 2008.
