Significant Policies in Preparation of Consolidated Financial Statements

- (1) Scope of consolidation
 - 1) Consolidated subsidiaries: 2
Principal subsidiaries
TSB Capital, Ltd.
TSB Servicer, Ltd.
 - 2) Non-consolidated subsidiaries
There are no non-consolidated subsidiaries.
- (2) Application of equity method
There are no affiliates accounted for under the equity method.
- (3) Fiscal year end of consolidated subsidiaries
Fiscal year ends of all consolidated subsidiaries are March 31.
- (4) Valuation of assets and liabilities of consolidated subsidiaries
The assets and liabilities of consolidated subsidiaries, including the portion attributable to minority shareholders, were evaluated at fair value.
- (5) Amortization of goodwill
Goodwill is amortized over 5 years on a straight-line basis, except that when the excess is immaterial it is expensed or credited to income in the year of acquisition.

Notes to the Consolidated Financial Statements:

1. The amounts are rounded down to the nearest million of yen.
2. Subsidiaries and affiliated companies are defined in accordance with Article 2, Paragraph 8, of the Banking Law and Article 4, of the Enforcement Ordinance of the Banking Law.

Standards of Accounting Method

1. Trading Securities
Trading Securities are stated at market value. Unrealized gain or loss on trading securities is recognized in earnings. Cost of securities sold is determined by the moving-average method.
2. Available-for-sale Securities
Available-for-sale securities whose fair value is readily determinable are carried at fair value. Unrealized gain or loss on these securities is included in "Net assets", net of taxes. Available-for-sale securities whose fair value is not readily determinable are carried at cost or amortized cost. Cost of securities sold is determined by the moving-average method.
3. Money held in trust
Trust assets which are held as trust assets in money held in trust are carried in the same method as in the case of the Bank's possession of such trust assets.
4. Derivative financial instruments
Derivative financial instruments are stated at fair value.
5. Depreciation
 - (1) Tangible fixed assets
Tangible fixed assets are carried at cost less accumulated depreciation. Depreciation of tangible fixed assets of the Bank, except for buildings, is computed using the declining-balance method. Depreciation of the Bank's buildings is computed using the straight-line method.
The primary estimated useful lives of buildings and equipment are as follows:

Buildings	8 years to 50 years
Equipment	2 years to 20 years

Depreciation of tangible fixed assets of consolidated subsidiaries is computed principally using the declining-balance method over the estimated useful lives.

(2) Intangible fixed assets

Amortization for intangible fixed assets is computed using the straight-line method. Costs of computer software developed or obtained for internal use are deferred and amortized over the estimated useful lives (5 years) as defined by the Bank and its consolidated subsidiaries.

6. Loans acquired from other financial institutions

Loans on deeds and bills discounted which the Bank acquired from other financial institutions are initially recorded at acquisition cost in the balance sheet, and the differences between the acquisition cost and principal amount are amortized in proportion to the principal over the life of each loan. Overdrafts and loans on notes are carried at principal and such differences are recorded as a liability and amortized over the remaining term of each loan using the straight-line method. Regardless of the above treatments, loans to debtors classified as likely to become bankrupt, virtually bankrupt or legally bankrupt are recorded at their respective acquisition costs and the differences are not amortized.

7. Allowance for loan losses

The Bank's allowance for loan losses is provided pursuant to its internal rules governing written-off of claims and the allowance for loan losses.

For claims against debtors who are normal or whose claims are being restructured as prescribed in the Special Committee on Auditing Issues Concerning Banks and Other Institutions Report No.4, "Practical Guideline Concerning the Validation of Internal Controls and the Auditing of Bad Debts Written off and the Allowance for Bad Debts with Respect to the Self-Assessment of Assets Undertaken by Bank and Other Financial Institutions", issued by Japanese Institution of Certified Public Accountants (JICPA), claims have been classified into given categories and an allowance is provided based on the loan loss ratios derived from records of loan losses over a certain historical period.

For claims against debtors who are likely to become bankrupt, an allowance is provided at the amount deemed necessary based on overall solvency assessment of the amount of claims, net of expected amounts recoverable from the disposal of collateral or the execution of guarantees.

For claims against debtors who are legally bankrupt or virtually bankrupt, an allowance is provided based on the amount of claims, after charge-offs and net of any amounts expected to be collected through the disposal of collateral or the execution of guarantees.

For claims against debtors who are likely to become bankrupt or whose claims are being restructured, if the amount of the claims exceeds a certain level for which the amount of future cash flows can be reasonably estimated, an allowance is provided for the difference between the present value of the expected future cash flows discounted at the initial contracted interest rate and the carrying value of each claim.

All claims are assessed by the credit organization divisions based on the internal rules for self-assessment of asset quality. The credit examination division, which is independent from credit organization divisions, subsequently performs a review of their assessments, and an allowance is provided based on the results.

Allowance for loan losses on claims purchased from other financial institutions are directly offset against any income from the amortization of the difference between the contractual principal and the acquisition costs of the purchased claims since the amortization income represents a change in the credit risk of the purchased claims.

For collateralized or guaranteed claims against debtors who are legally bankrupt or virtually bankrupt, the amount of claims exceeding the estimated value of the collateral or guarantees, which is deemed uncollectible, has been charged-off against the respective claims. The Bank has, starting from this fiscal year, discontinued the method and adopted an accounting policy where claims will not be charged off

until collections on claims are completed or the amount deemed uncollectible is determined. Instead, an allowance will be established for the uncollectible portion. The amounts remaining as at March 31, 2008, which was charged off for the year ended March 31, 2007, were 4,090 million yen.

The consolidated subsidiaries' allowance for loan losses is provided based on the historical loan loss experience for normal claims and on estimates of collectibility on a loan-by-loan basis for impaired loans. (Significant accounting change)

The Bank's allowance for loan losses is provided pursuant to the internal rules governing the written-off of claims and the allowance for loan losses.

For collateralized or guaranteed claims against debtors who are legally bankrupt or virtually bankrupt, the amount of claims exceeding the estimated value of the collateral or guarantees, which is deemed uncollectible, has been charged-off against the respective claims.

In recent years, several claims exist after the method, considerable amounts were collected (e.g., sales of collateral). In view of these circumstances, starting from this fiscal year, the Bank has decided to discontinue the method and to adopt an accounting policy where claims will not be charged off until collections on claims are completed or the amount deemed uncollectible is determined. Instead, an allowance will be established for the uncollectible portion and claims will be charged off after collections on claims are completed or the amount deemed uncollectible has been virtually determined.

In accordance with this accounting change, loans and allowance for loan losses increased by 9,123 million yen respectively, as compared with the amounts which would have been recorded under the previous method.

In the consolidated statements of income, the amount of partial write-offs, which is 9,123 million yen, included in written-off of loans under the previous method is presented as transfer to allowance for loan losses. This accounting change had no impact on ordinary profit and income before income taxes on the consolidated statements of income for the year ended March 31, 2008.

Loans to bankrupt borrowers increased by 3,918 million yen and past due loans increased by 5,205 million yen and total amount of loans to bankrupt borrowers, past due loans, loans past due three months or more and restructured loans was 9,123 million yen.

8. Provision for bonuses

The provision for bonuses is provided based on the estimated amounts attributed to the current fiscal year for future bonus payments to employees.

9. Provision for directors' bonuses

The provision for directors' bonuses is provided based on the estimated amounts attributed to the current fiscal year for future bonus payments to directors and executive officers.

10. Provision for directors' retirement benefits

The provision for directors' retirement benefits is provided based on the estimated amounts of the future payments attributed to the current fiscal year.

11. Provision for losses on dormant deposit repayments

The provision for losses on dormant deposit repayments which were recorded as profit is provided for the future repayments based on the historical repayments experience.

(Significant accounting change)

Until the year ended March 31, 2007, deposits which were recorded as profit were expensed when they were reimbursed.

"Treatment for Auditing of Reserve under Special Taxation Measures Law, Reserve under Special Laws and Reserve for Retirement Benefits to Directors and Corporate Auditors" (JICPA Audit and Assurance Practice Committee Report No.42) was announced on April 13, 2007.

In accordance with this accounting change, from this fiscal year, a provision for losses on dormant deposit repayments was provided based on the historical repayments experience, as adjusted for estimated future repayments.

As a result, ordinary profit decreased by 71 million yen and income before income taxes decreased by

512 million yen compared with the amount which would have been recorded under the previous method.

12. Provision for possible losses on refund of interest

The provision for possible losses on refund of interest was recognized based on the past experience of refunds and claims of refunds arising from the loans of a consolidated subsidiary of the Bank, as adjusted for estimated future refunds.

13. Foreign currency assets and liabilities

Assets and liabilities denominated in foreign currencies are translated into yen primarily at the spot rates in effect at each balance sheet date.

14. Lease transactions

Non-cancelable leases are accounted for as operating leases (whether such leases are classified as operating or finance leases), except that lease agreements that stipulate the transfer of ownership of the leased assets to the lessees are accounted for as finance leases.

15. Hedge accounting

In order to hedge interest-rate risk arising from financial assets and liabilities, the Bank applies deferral hedge accounting as prescribed in the Industry Audit Committee Report No. 24, "Accounting and Auditing Treatment of Accounting Standard for Financial Instruments in the Banking Industry," issued by the JICPA. Under the Industry Audit Committee Report No. 24, the Bank groups its deposits (hedged items) and interest-rate swaps (hedging instruments) by maturity and assesses the hedge effectiveness by comparing the changes in value of each basket of deposits and the corresponding changes in value of the interest-rate swaps.

Deferral hedge accounting is also applied individually on some loans and bills discounted (hedged items) and interest-rate swaps (hedging instruments).

16. Consumption taxes

Transactions subject to national and local consumption taxes are recorded at amounts exclusive of consumption taxes. Consumption taxes levied on the purchases of fixed assets, which are not tax-deductible, are charged to income as incurred.

Changes in the Basis for Presentation and Consolidation

The definitions of securities in "Accounting Standards for Financial Instruments" (ASBJ Statement No10) and in "Practical Guidelines on Accounting Standards for Financial Instruments" (JICPA Laws and Regulations Committee Report No.14) were partially revised on June 19, 2007 and on July 4, 2007 respectively, which is applicable from the fiscal year ending on or after the enforcement date of the Financial Instruments and Exchange Law. The Bank has adopted the revised standards and guideline commencing with this fiscal year.

Notes to the Consolidated Balance Sheets:

1. Loans to bankrupt borrowers and past due loans are included in loans and bills discounted, and the amounts were 9,706 million yen and 21,248 million yen, respectively.
Loans to bankrupt borrowers represent loans which have been placed in non-accrual status due to substantial delinquency or to other reasons ("non-accrual loans"), and meet certain provisions as stipulated in Article 96, Paragraph 1, Subparagraphs 3 or 4 of the Enforcement Ordinance of the Corporation Tax Law of Japan.
Past due loans represent non-accrual loans, other than loans to bankrupt borrowers and loans on which the payment of interest has been deferred in order to assist the restructuring of these borrowers who are experiencing financial difficulties.
2. Loans past due for three months or more are included in loans and bills discounted, and the amount was 403 million yen. Loans past due for three months or more represent loans on which the payment of principal or interest is three months or more past due from the day following the contractual due date.

Such loans exclude loans to bankrupt borrowers and past due loans.

3. Restructured loans are included in loans and bills discounted, and the amount was 10,874 million yen. Restructured loans represent loans which have been restructured to provide relief to the borrowers by reducing interest rates, by rescheduling interest payments and payments on principal, or by waiving claims for borrowers experiencing financial difficulties. Such loans exclude loans to bankrupt borrowers, past due loans and loans past due for three months or more.
4. Total amount of loans to bankrupt borrowers, past due loans, loans past due for three months or more and restructured loans was 42,233 million yen. The amount stated in Notes 1 through 4 represents the gross receivable amounts before a reduction for the allowance for loan losses.
5. Bills discounted, which can be either sold or repledged by the Bank, are treated as financing transactions rather than as sales in accordance with the Industry Audit Committee Report No.24, "Accounting and Auditing Treatment of Accounting Standard for Financial Instruments in the Banking Industry." The total face value was 1,587 million.
6. A loan participation transaction which transfers substantially all the risks and rewards of the transferred asset is accounted for as a sale of a loan by an originating lender to a participant. Loan participation agreements, which were accounted for as sales of loans, totaled 59 million yen. The loan in which the Bank was a participant under loan participation agreements and which were accounted for as loans to debtors amounted to 1,168 million yen.
7. Assets pledged as collateral were as follows:

Securities	24,073 million yen
------------	--------------------

 Liabilities secured by such pledged assets were as follows:

Deposits	1,342 million yen
----------	-------------------

 In addition, securities of 29,318 million yen were pledged as collateral principally to clearing agencies for settlement of foreign and domestic exchange transactions, and security deposits of 2,548 million yen were included in "Other assets."
8. Overdraft agreements and loan commitments are agreements under which the Bank and its consolidated subsidiaries are obliged to extend loans up to a prearranged limit unless the customer is in breach of contract. The loan commitments not yet utilized at March 31, 2008 totaled 144,409 million yen, of which 67,496 million yen, related to agreements whose contractual terms were for one year or less or which were unconditionally cancelable at any time. As the majority of these agreements expire without the right to extend the loans being exercised, the unutilized balance of the commitments does not affect the future cash flows of the Bank or of its consolidated subsidiaries. These agreements usually include provisions which stipulate that the Bank and its consolidated subsidiaries have the right either to refuse the execution of the loans or to reduce the contractual commitments when there is a change in the borrower's financial condition, or when additional assurance of the financial stability and creditworthiness of a borrower is necessary, or when other unforeseen circumstances arise. The Bank and its consolidated subsidiaries take various measures to protect their credit. Such measures include obtaining real estate or securities as collateral upon entering into the agreements, monitoring a customer's business on a regular basis in accordance with established internal procedures, and amending loan commitment agreements as and when necessary.
9. Accumulated depreciation on tangible fixed assets was 4,296 million yen.
10. Subordinated notes of 15,500 million yen were included in "Bonds payable."
11. Net assets per common share was 157,612.10 yen
12. Besides tangible fixed assets included in the balance sheet, some equipment, vehicles and office equipment are used under lease agreements
13. The Bank was examined by the Tokyo Regional Taxation Bureau for its corporate income taxes (corporate tax, inhabitant taxes and enterprise tax) for the period from the fiscal year ended March 31, 2002 through March 31, 2004. As a result of this examination, The Bank received a disposition concerning certain differences in profit recognized on the amortization of the differences between the

carrying value of purchased loans related to business transfers and the related purchase amounts as well as timing differences in profit recognition (the amount of profit which should have been recognized was different or the profit should have been recognized earlier for the tax purpose). Since the Bank believes that its original treatment of profit on the amortization was appropriate from both accounting and tax perspectives, the Bank petitioned the National Tax Tribunal for a reexamination.

On July 10, 2007, the Bank's petition was dismissed. However, the bank has disputed the legal basis for this disposition. Thus, on January 8, 2009, the Bank filed a tax suit in Tokyo District Court after having carefully considered countermeasures for the dismissal.

The conflicting amount about adequacy of this imposition, which the Bank paid tentatively, is 1,573 million yen.

Notes to the Consolidated Statements of Income:

1. "Other ordinary income" includes income from derivatives other than for trading or hedging of 1,064 million yen and gain on sales of loans of 452 million yen.
2. "Ordinary income" includes gain on sales of loans of 3,134 million yen and gain on recoveries of purchased loans of 2,731 million yen
3. "Other ordinary expenses" includes loss on sales of loans of 778 million yen and loss on foreign exchange transactions of 554 million yen.
4. "Other expenses" includes written-off of loans of 3,206 million yen.
5. "Extraordinary loss" includes loss on devaluation of securities of 13,610 million yen and provision for losses on dormant deposit repayments, which have been incurred in the past fiscal years, of 441 million yen.

II. Loan Portfolio & Deposits

Change of accounting policy regarding write-offs for Non Performing Loans

The Bank's allowance for loan losses is provided pursuant to the internal rules governing the written-off of claims and the allowance for loan losses.

For collateralized or guaranteed claims against debtors who are legally bankrupt or virtually bankrupt, the amount of claims exceeding the estimated value of the collateral or guarantees, which is deemed uncollectible, has been charged-off against the respective claims ("Partial write-offs").

In recent years, several claims exist after Partial write-offs, considerable amounts were collected (e.g., sales of collateral). In view of these circumstances, starting from this fiscal year, the Bank has decided to discontinue Partial write-offs and to adopt an accounting policy where claims will not be charged off until collections on claims are completed or the amount deemed uncollectible is determined. Instead, an allowance will be established for the uncollectible portion.

For the purpose of reference, the balances, in case of continuing Partial write-offs, of Risk-managed Loans & Bills Discounted as well as Disclosed Claims under Financial Revitalization Law will be presented below.

Tokyo (Friday, May 22, 2008) – Today, The Tokyo Star Bank, Limited ("the Bank") announces there have been changes of its parent and other affiliate companies as follows:

1. The Background

Japan Blue Sky Capital Partners, L.P., Japan Banking Investment Partners, L.P., Tokyo Capital Management Partners, L.P. and Cayman Strategic Partners, L.P. (collectively, the "Major Shareholders") made a Tender Offer (the "Tender Offer") for the share and warrants of the Bank from February 5, 2008 to March 6, 2008 and, as a result, have acquired 98.31% of the total number of voting rights. Although Cayman Strategic Partners, L.P. ("CSP") owns 41.26% of the total number of voting rights by itself, CSP has entered into the Shareholders' Agreement with respect to the election or removal of directors, etc., with Japan Banking Investment Partners, L.P. ("JBIP") and subsequently JBIP has become a party that "agrees to exercise its voting rights to the same effect as CSP". Consequently CSP, deemed to own over 50% of the total number of voting rights, has become the Bank's parent company. Besides, as Japan Ireland Capital Partners, Ltd. ("JICP"), the general partner of CSP, has been confirmed that any rights granted to CSP specified in the agreement shall be exercised by JICP, JICP is deemed to be a parent company to CPS and consequently to be a parent of the Bank, the subsidiary of CPS.

Furthermore, JBIP and Tokyo Capital Management Partners, L.P., who own 24.47% and 21.34% of the total number of voting rights respectively, are deemed to be the Bank's other affiliate companies.

5. Effective Date of the Changes

Friday, March 14, 2008.

6. Plans Hereafter

As the Major Shareholders were not successful in acquiring all of the Bank's shares through the Tender Offer, the Major Shareholders intend to acquire 100% of the issued shares of the Bank hereafter. For detailed information, please refer to the announcement "The Change of the Major Shareholders" made on March 7, 2008.

Regarding the specific procedure, the Bank will disclose immediately after it will be determined.

There will be no impact expected on business performance at this time by the changes of the parent companies.

7. Disclosure requirement of the "Unlisted Parent companies, etc."

Japan Ireland Capital Partners, Ltd. is deemed to be the unlisted parent company, required for its disclosure.

Announcement of the partial amendments to the Articles of Incorporation and Acquisition of all the shares with the right to acquire all the issued shares

Tokyo (Friday, May 23, 2008) – Today, The Tokyo Star Bank, Limited (“the Bank”) announces that the Board of directors meeting has adopted resolutions of the partial amendments of the Articles of Incorporation and acquisition of all the shares with the right to acquire all the issued shares to be resolved at the #7 general shareholders’ meeting held on Thursday, June 26, 2008 as follows:

Partial amendments to the Articles of Incorporation to acquire 100% of the outstanding shares of the Bank

1. Partial amendments to the Articles of Incorporation #1, #2 and Acquiring all the shares with the right to acquire all the issued shares (#3)

(1) Reasons for the amendment

As the Bank announced on March 7th, 2008 in “The Change of the Major Shareholders”, the Tender Offer (the “Tender Offer”) for the shares and warrants of the Bank, commenced since February 5, 2008 by Japan Blue Sky Capital Partners, L.P., Japan Banking Investment Partners, L.P., Tokyo Capital Management Partners, L.P., and Cayman Strategic Partners, L.P. (collectively, the “Major Shareholders”) was completed on March 6, 2008. It has resulted in the fact that the Major Shareholders own 688,198 shares (98.31% of the total number of voting rights) as of March 31, 2008.

Additionally, as the Bank announced on February 4, 2008 in “Announcement Concerning Expression of Opinion for Tender Offer for Shares etc. of the Company”, the Bank can expect to further increase its value under the mid to long term growth strategy, by developing and marketing new financial products, aggressively expanding its network by entering new local markets, expanding its channels by entering into partnerships with other entities of other industries diversifying business portfolio by entering new business markets, implementing brand strengthening strategies by utilizing know-how on finance business and the vast network of the Major Shareholders and Advantage Partners, LLP, and obtaining active management support on planning and implementation of various strategies that require large

investment and has adopted a resolution to express approval opinion concerning the Tender Offer and to be acquired 100% of the issued shares of the Bank by the Major Shareholders.

For these reasons, the Bank has adopted a resolution at the board of directors meeting to take the following actions for the purpose to become a wholly owned subsidiary.

(2) Actions to be taken

To partially amend the Articles of Incorporation to convert the Bank into a company with classes of shares (#1), to partially amend the Articles of Incorporation to adopt the right of the Bank to acquire all the issued shares of the Bank and to issue a new class of common shares to shareholders in exchange for acquiring all the shares issued (#2), and to resolve to issue a new class of common shares at the rate of 0.00005 per share in exchange for acquiring all the shares issued effective date as of August 1st, 2008.

Subsequent to the resolution of the agenda of partial amendment of the Articles of Incorporation #1, the Bank will be converted into a company with classes of shares. In order for the Bank to amend the Articles of Incorporation to adopt the right of the Bank to acquire all the issued shares of the Bank (#2), the class-shareholders' meeting by the shareholders of classes of shares will also be held concurrently to resolve to the same effect pursuant to the Article 111-2-1 of the Corporation code.

For those shareholders who are only entitled to receive fractional shares that are in total less than one share as a result of the above exchange, the cash amount that equals the amount the shareholders selling the total number of fractional shares would receive will be paid in cash pursuant to the article 234 of the corporation code. Further, the determination of the Bank's purchase price and the acquiring price will ultimately be made by the court, and such price may be different from the Tender Offer price. The shareholders should be aware that each shareholder will be responsible for undertaking the necessary procedures and making their own decisions when making these petitions and claims.

(3) Consequence

Such changes to the Bank's Articles of Incorporation to be taken as addressed above, the share of the Bank will then be falling under the delisting criteria set forth in the Listing Regulations of the Tokyo Stock Exchange Group, Inc. (the "TSE"), and will thereafter be delisted one month after the assignment to the delisting post by TSE on the next day from the shareholders' meeting and subsequent class shareholders' meeting by the Bank's common shareholders. Even if the procedure to change the Bank's Articles of Incorporation may not be taken, as a result of the Tender Offer the number of the shares of the Bank in distribution is less than 5% of that of the listed shares, the shares of the Bank will then be delisted pursuant to the delisting criteria set forth in the Listing Regulations of the TSE one

month after the assignment to the delisting post by TSE on the next day after the submission of the Securities Report (or after the deadline of its submission). After the delisting, the share of the Bank can no longer be traded on the TSE.
