NOTES TO THE FINANCIAL STATEMENTS

1. Basis of preparation and accounting policies

The unaudited condensed consolidated interim financial statements ("interim financial statements") are prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and Appendix 16 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

These interim financial statements should be read in conjunction with the 2007 annual financial statements.

The accounting policies and methods of computation used in the preparation of these condensed interim financial statements are consistent with those used in the annual financial statements for the year ended 31 December 2007.

Certain comparative figures in the income statement for the six months ended 30 June 2007 have been reclassified to conform to current period's presentation. This reclassification had no impact to the results of the Group for the six months ended 30 June 2007.

HKICPA has issued a number of interpretations that are effective for accounting periods beginning on or after 1 January 2008. The Group has carried out an assessment of these interpretations and considered that they have no significant impact on these financial statements.

2. Revenue and segment information

The Company acted as an investment holding company during the period. The principal activities of the Group comprised the publishing, printing and distribution of the *South China Morning Post*, *Sunday Morning Post* and other print and digital publications, property investment, video and film post-production, and music publishing.

During the six months ended 30 June 2008, the Group has disposed of its entire interest in the video and film post-production operation and entered into negotiation with a third party in relation to the disposal of the Group's music publishing business. Accordingly, the results of these operations are presented as discontinued operations in the income statement. The comparative information for the six months ended 30 June 2007 has been reclassified to conform to the current period's presentation.

Earnings per share (HK cents)	8.0	11.2	(29)

* Represents an increase in excess of 100%

Profit attributable to shareholders dropped \$50.5 million or 29% to \$124.5 million, mainly due to decline in notices advertising following the change in listing rules in June 2007 and the volatile stock market.

Staff costs increased 2% or \$3.0 million due to salary increment and higher recruitment expense. Production costs dropped 10%, mainly because of decrease in average newsprint cost from US\$635 to US\$604 per metric ton and lower consumption. Latest market price of 48.8 gsm newsprint has surged significantly to US\$881 per metric ton driven by high oil price, weak US dollar, reduced worldwide newsprint capacity and high demand. Other operating expenses increased mainly due to higher legal and professional fees, traveling expenses for reporting Sichuan earthquake and Olympic events and volume discount granted to customers in line with increase in Display advertising revenue.

FINANCIAL REVIEW BY BUSINESS

Publishing

Publishing revenues dropped 13% and accounted for 96% of total revenue of the Group. EBITDA and operating profit margin went down due to the loss of high margin notices revenue.

The audited circulation of *South China Morning Post* and *Sunday Morning Post* both showed a moderate increase of 1%, driven mainly by growth in subscriptions, Macau market and sales to airlines.

Display advertising revenue increased 6%, contributed mainly by rising demand of creative ad executions and higher advertising volume and yield generated from *Post Magazine*. The first ever panorama was published in May 2008 and we had a record number of wrappers in the first half of 2008.

Recruitment advertising revenue decreased 2% due to slow down of recruitment activity as a result of the worsening global economy. Volatile stock market and the stagnant property market in Hong Kong also contribute to the uncertainty for the second half year and some companies have ceased all hiring activities. Other cost cautious clients are shifting towards lower cost publications or online, which has benefited *Jiu Jik* and online recruitment, revenue of which increased by 16% and 18% respectively.

Notices revenue dropped 72% or \$90.2 million, within which revenue from result and other corporate announcements dropped \$47.7 million, while IPO related revenue dropped \$42.5 million.

Revenue from result and other corporate announcements went down after the implementation of the HKEx rules which abolished the requirement to publish announcements in newspaper in June 2007 (Phase 1) and the requirement to publish notification in newspaper in December 2007 (Phase 2). The first half results reflected the full impact of the changes in listing rules.

Revenue from IPOs declined owing to the volatile stock market, which resulted in companies holding back or postponing their listing plans. Number of IPOs and revenue per IPO were both lower than last year.

Revenue from Magazine Division grew 5% to \$67.4 million. Advertising sales from *Cosmopolitan* and *Harper's Bazaar* remained strong, despite the fierce competition on newsstands which has led to lower circulation revenue. Net profit from Magazine Division was lower, mainly because of the pre-launch expenses of a new magazine title in Mainland China.

Investment Properties

A floor in the Bank of America Tower was leased out at a higher rent and the advertising board in Leighton Road also generated higher revenue than last year.

Video and Film Post-Production

The operation has been sold through a management buyout on 30 April 2008. The Group has recognised a gain on disposal of \$5.2 million.

Music Publishing

Despite difficult market situation, revenue increased mainly from the sale of one compilation album which featured 50 greatest hits and 10 music videos released during the period. The album aroused much public interests and brand awareness. We also closed a number of synchronization deals for concert live products and licensed songs for heavily-played TV commercials.

LIQUIDITY AND CAPITAL RESOURCES

Overview

As at 30 June 2008, the Group's only borrowing was a bank overdraft of \$16.2 million denominated in Renminbi, which was payable within one year. The Group's cash and bank balances are held predominantly in Hong Kong dollars and the Group has no significant exposure to foreign exchange fluctuations.

As at 30 June 2008, the Group had no gearing (after deducting bank balances and deposits). The ratio of current assets to current liabilities was 2.5 times.

The Group expects its beginning cash balances, cash generated from operations and funds available from external sources to be adequate to meet its working capital requirements, repay bank overdrafts, finance planned capital expenditures and pay dividends.

Operating Activities

The newspaper publishing business was the major source of the Group's cash flow from operating activities. Net cash generated from operating activities for the six months ended 30 June 2008 was \$124.8 million compared with \$160.0 million for the same period last year. The lower cash flow was mainly caused by the drop in notices advertising revenue.

Investment Activities

Net cash inflow from investing activities for the six months ended 30 June 2008 was \$4.7 million compared with an outflow of \$3.4 million in 2007. The major cash inflows for the current period were net proceeds from the disposal of subsidiaries, dividend and interest income, offset by capital expenditure on systems enhancements and investment in computer-to-plate technology.

Financing Activities

Net cash used in financing activities for the six months ended 30 June 2008 was \$156.7 million, comprising dividend payments of \$156.1 million to shareholders of the Group and interest payment on bank overdraft.

OUTLOOK

With the change in listing rules on company announcements last year, we expect that revenues from corporate notices in the second half year will be consistent with the first half of this year. Revenue from IPO announcements however will depend on mood of the market and preliminary feedback from people in the industry suggests that a recovery is unlikely this year.

The second half of 2008 is full of challenges. The surging fuel prices and rampant inflation pressure will inevitably lead to slowdown in global economy. We have already seen a decline in banking and property advertising, and although the luxury sector was not affected in the first half year, some advertisers have started to reduce ad budget for the second half. We expect that the growth in display advertising revenue will slow down in the second half of this year.

The recruitment market in Hong Kong remains strong, even though employers are beginning to slow down their expansion plan amid uncertainty over the economy. Given the trend to go online for recruitment advertising, we will continue our investment to enhance *classifiedpost.com* and *jiujik.com* and to explore new opportunities outside our home market.

STAFF

As at 30 June 2008, the Group had 985 employees compared with 1,032 as at 31 December 2007. Salaries of employees are maintained at competitive levels while discretionary bonuses are granted based on individual and business performance. Other employee benefits include provident fund, medical insurance and share option scheme.

INTERIM DIVIDEND

The Directors have declared an interim dividend of HK6 cents per share, amounting to HK\$93,657,000, payable to shareholders whose names appear on the Register of Members of the Company on Friday, 26 September 2008 and payable on Thursday, 2 October 2008.

BOOK CLOSURE

The Register of Members of the Company will be closed from Tuesday, 23 September 2008 to Friday, 26 September 2008, both days inclusive. All transfers of shares accompanied by the relevant share certificates must be lodged with the Company's Hong Kong branch share registrars, Computershare Hong Kong Investor Services Limited of Room no. 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration not later than 4:30 p.m. on Monday, 22 September 2008 so as to qualify for the interim dividend.

CORPORATE GOVERNANCE

The Board of Directors (the "Board") and management are committed to upholding the Group's obligations to shareholders. We regard the promotion and protection of shareholders' interests as one of our priorities and keys to success.

Over the years, the Group has put in place sound corporate governance practices to ensure it adheres to the highest ethical and business standards. The key test of corporate governance practices is if they align the interests of management with those of shareholders to adequately protect and promote shareholders' interests. The Group constantly reviews these guidelines and policies and implements new ones to ensure they remain relevant and practical in today's fast changing business environment and market expectations.

The corporate governance principles adopted by the Group during the six months ended 30 June 2008 are in line with the corporate governance statement as set out in the Company's 2007 Annual Report. The Group's corporate governance practices comply with all the code provisions of the Code on Corporate Governance Practices ("Stock Exchange Code") as set out in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules") except where stated and explained below. The Group also adheres to the recommended best practices of the Stock Exchange Code insofar as they are relevant and practicable.

The Group has an Executive Chairman. No individual has been appointed as a chief executive officer. The Executive Chairman oversees the management of the Board and the Group's business with the assistance of the Group's senior management team. The Executive Chairman oversees the overall management of the Group. Other functions normally undertaken by a chief executive officer of a company are delegated to members of the Group's senior management team.

This structure deviates from the relevant code provision of the Stock Exchange Code that requires the roles of the chairman and chief executive officer to be separate and not performed by the same individual. The Board has considered this matter carefully and decided not to adopt the provision. The Board believes that the current management structure has been effective in facilitating the operation and development of the Group and its business for a considerable period of time and that the necessary checks and balances consistent with sound corporate governance practices are in place.
