Skanska sells ongoing office project in Warsaw for EUR 115 M, about SEK 1.1 billion, with capital gain of EUR 37 M, about SEK 350 M

Skanska is selling the ongoing commercial development project Atrium City in Warsaw for EUR 115 M, about SEK 1.1 billion, to the German investment fund DEKA. The capital gain is EUR 37 M, about SEK 350 M, and will be reported in the quarterly reports as from the third quarter of 2008 and thereafter as the project completion progresses. By year-end 2008, the project is scheduled to be 70 percent completed.

The new office building Atrium City in the city centre comprises approximately 21,000 square meters of office space. Construction started in the autumn of 2007, and the project will be completed during the second quarter of 2009.

Approximately 90 percent of the leasable space is leased. Contracted tenants include Deloitte, King Sturge and Deutsche Bank.

"The continued strong demand for new and modern office space, in combination with Skanska's strong brand, has made the leasing of this project a success. Because most of the property has now been leased, it is natural for us to sell it and focus on developing new office projects in Central Europe," says Lars Vardheim, Business Unit President, Skanska Commercial Development Europe.

Currently, Skanska is developing 120,000 square meters of office space in central Europe cities Warsaw, Wroclaw, Prague, Ostrava and Budapest.

Skanska Commercial Development Europe initiates and develops office and logistic property projects. Operations are focused on the metropolitan areas of Hungary, the Czech Republic and Poland.

Skanska Commercial Development Europe is divided into three regional companies: Skanska Property Hungary, Skanska Czech Republic and Skanska Property Poland.

13:00 pm CET

Skanska to build a Kesko hypermarket in Finland for EUR 32.3 M, about SEK 300 M

Skanska has been contracted to build a hypermarket in Vantaa, in the Helsinki Metropolitan area, Finland. The contract sum is EUR 32.3 M, approximately SEK 300 M, which will be included in order bookings for the third quarter. The customer is the Finnish retail chain Kesko.

The K-citymarket will have the gross area of about 27,000 sq m, with a sales area of about 13,000 sq m. The underground parking area will take about 400 cars. The K-citymarket will include a hypermarket and a number of special stores.

Construction begins this month and will be completed in October 2009.

During the past year Skanska has completed ten new retail projects or extensions of retail centers in Finland.

Skanska Finland is one of the leading construction companies in Finland and Estonia. The company is active in building construction, residential and commercial premises, as well as civil engineering projects. The combined sales for Skanska's Finnish and Estonian operations in 2007 were SEK 9.7 billion and the company employed about 3,400 people. Skanska's operations in Finland also cover residential and commercial project development and public-private partnerships.
