Nine months ended September 30, 2007	73,103	(35,284)	(31,391)	26,914
Year ended December 31, 2007	95,226	(52,728)	(40,094)	22,890

2. Dividend information

	Dividend per share (Yen)		
	Interim	Year-end	Annual cash dividend
December 31, 2007	—	—	0.00
December 31, 2008	500.00		750.00
December 31, 2008 (forecasts)		250.00	

(Note) Interim dividend amount per share (¥500) includes ¥250 as a special dividend.

3. Consolidated forecasts for December 2008 term (from January 1, 2008 to December 31, 2008)

	Revenue		Operating income		Income before income taxes		Net income		Net income per share
	(Millions of yen)	(%)	(Millions of yen)	(%)	(Millions of yen)	(%)	(Millions of yen)	(%)	(Yen)
Annual	295,000	11.5	50,000	16.8	45,000	20.0	27,000	12.5	3,939.00

(Notes) The percentages shown next to revenue, operating income, income before income taxes and net income represent year-on-year changes

There is no change to our forecast from the previous quarter.

4. Other information

- (1) Change of material subsidiaries : None
- (2) Adoption of any simplified accounting method : None
- (3) Change of accounting methods : None

(Cautionary note regarding future-related information)

The forecasts contained in this report have been prepared on the basis of information that is currently available. Because such estimates are inherently very uncertain, actual results may differ from the forecasts. The Company does not guarantee that it will achieve these estimated results and advises readers to refrain from depending solely on these forecasts. Readers should also note that the Company is under no obligation to revise this information on a regular basis.

1. Qualitative information regarding consolidated business results

Throughout the quarter ended September 30, 2008, Jupiter Telecommunications Co., Ltd. (the Company) or its consolidated group (the J:COM Group) continued to make steady progress under its Volume plus Value growth and content strategies. At the same time, the J:COM Group strove to promote an area strategy with the aim of enhancing competitiveness as well as operational efficiency in each individual service area in the J:COM Group.

Under the volume strategy, the J:COM Group has positioned its efforts to reestablish a growth trend in TV operations as a key theme in fiscal 2008. In working to achieve this objective, steps have been taken to increase the number of customer contact points by diversifying its sales routes. As a part of these endeavors, the J:COM Group has placed particular emphasis on strengthening marketing efforts, increasing the number of J:COM Shops to 43 as of September 30, 2008. On September 9, 2008, the Company announced its intentions to acquire majority a share of Jyohoku New Media Co., Ltd. (Taito Cable Television) on December 1, 2008. Located next to a J:COM Group service area, this acquisition will further expand the J:COM Group's network and coverage into Taito Ward, Tokyo.

In pursuit of its value strategy, the J:COM Group worked to increase the number of services offered per subscribing household (the bundle ratio) and to enhance added value in existing services. In relation to high-speed Internet access services, the J:COM Group further expanded almost all systems for 160 Mbps ultra high-speed Internet access services as of July 31, 2008. In addition to increasing subscribing households, this initiative contributed to an improvement in the average monthly revenue per user (ARPU).

From a content strategy perspective, the J:COM Group bolstered the quality of the programming content on the new Channel Ginga, which was launched in April 2008. In this manner, the J:COM Group is endeavoring to further expand the breadth of its audience.

Striving to enhance operational efficiency and competitiveness, the J:COM Group continues to implement various measures to streamline its organization. The merger between J:COM Tokyo Co., Ltd. and Sakura Cable TV Co., Ltd. on July 1, 2008 was followed on August 25, 2008 by the acquisition of a majority equity stake in Fukuoka Cable Network Co., Ltd., an affiliated company previously accounted for by the equity method. Fukuoka Cable Network Co., Ltd. then merged with Cable Vision 21 Inc. on September 1, 2008. More recently, the J:COM Group has announced its decision to merge J:COM West Co., Ltd. with Kyoto Cable Communications Co., Ltd. on December 1, 2008.

Also the J:COM Group has announced its plan to merge wholly-owned subsidiaries, J:COM Technologies Co., Ltd., its cable network engineering company and @NetHome Co., Ltd., its IP/IT solution and digital contents provider, on January 1, 2009.

With less than three years remaining in the countdown to the complete changeover to terrestrial digital broadcasting in July 2011, the J:COM Group recognizes that its response will play an increasingly important role in the future. For this reason, the J:COM Group established the Digital Project Promotion Office in October 2008, to serve as its central coordinating body, and has launched the Digital Project. Through these means, the J:COM Group will actively promote the smooth migration to terrestrial digital broadcasting and endeavor to further increase the number of households utilizing its cable television services.

As a result of the measures outlined above, the total number of subscribing households (the number of households that subscribe to one or more services) of consolidated managed system operators as of September 30, 2008 rose to 2,903,300 households, an increase of 288,000 households (or 11%) from September 30, 2007. By type of service, cable television subscribers grew by 187,100 households (or 9%) from September 30, 2007 to 2,346,800 households as of September 30, 2008. Of this total, the number of digital subscribers rose by 402,200 households (or 29%) from September 30, 2007 to 1,767,600 households as of September 30, 2008, accounting for 75% of all cable television subscribers. The number of high-speed Internet access and telephony services subscribers increased by 166,800 households (or 14 %) and 250,700 households (or 20%), respectively as compared to September 30, 2007, rising to 1,348,800 households and 1,510,600 households, respectively as of September 30, 2008. The bundle ratio improved to 1.79 as of September 30, 2008 as compared to 1.76 at September 30, 2007. The average monthly revenue per subscribing household (ARPU) increased from ¥7,668 for the nine months ended September 30, 2007 to ¥7,774 for the nine months ended September 30, 2008.

In the following discussion, we quantify the impact of acquisitions on our results of operations. The acquisition impact represents our estimate of the difference between the operating results of the periods under comparison that is attributable to the timing of an acquisition. In general, we base our estimate of the acquisition impact on an acquired entity's operating results during the first three months following the acquisition date such that changes from those operating results in subsequent periods are considered to be organic changes. Included as acquisitions are (i) the July 2007 acquisition of Jupiter Visual Communications Co., Ltd., (ii) the September 2007 merger with Jupiter TV Co., Ltd., (iii) the January 2008 acquisition of Kyoto Cable Communications Co., Ltd., (iv) the February 2008 acquisition of a part of CATV business of Kobe City Development & Management Foundation and (v) the August 2008 step acquisition of Fukuoka Cable Network Co., Ltd.

Revenue

Total revenue increased by ¥23,248 million, or 12% from ¥194,403 million for the nine months ended September 30, 2007 to ¥217,651 million for the nine months ended September 30, 2008. This increase includes ¥9,774 million that is attributable to the aggregate impact of acquisitions. Excluding the effects of these acquisitions, total revenue increased by ¥13,474 million, or 7%. Subscription fees increased by ¥14,713 million, or 9%, from ¥170,946 million for the nine months ended September 30, 2007 to ¥185,659 million for the nine months ended September 30, 2008. This increase includes ¥2,295 million that is attributable to the aggregate impact of acquisitions. Excluding the impact of acquisitions, subscription fees increased by ¥12,418 million, or 7%.

Cable television subscription fees increased by ¥7,686 million, or 8%, from ¥91,579 million for the nine months ended September 30, 2007 to ¥99,265 million for the nine months ended September 30, 2008. The increase in cable television subscription revenue includes a 7% organic increase in subscription fees that is attributable to an increase in the average number of digital cable subscribers, for which we charge a higher fee compared to our analog cable service, and the associated increase in ARPU. As of September 30, 2008, 75% of cable television subscribers were receiving our digital service, compared to 63% as of September 30, 2007.

High-speed Internet subscription fees increased by ¥4,672 million, or 9% from ¥49,443 million for the nine months ended September 30, 2007 to ¥54,115 million for the nine months ended September 30, 2008. The increase in high-speed Internet subscription revenue includes an 8% organic increase in subscription fees that is attributable to the net effect of (i) an increase in the average number of high-speed Internet subscribers and (ii) lower ARPU due to product bundling discounts.

Telephony subscription fees increased by ¥2,355 million, or 8%, from ¥29,924 million for the nine months ended September 30, 2007 to ¥32,279 million for the nine months ended September 30, 2008. The increase in telephony subscription revenue includes a 7% organic increase in subscription fees that is attributable to the net effect of (i) an increase in the average number of telephony subscribers and (ii) lower ARPU due to a decrease in call volumes.

Other revenue increased by ¥8,535 million, or 36%, from ¥23,457 million for the nine months ended September 30, 2007 to ¥31,992 million for the nine months ended September 30, 2008. This increase includes ¥7,479 million that is attributable to the aggregate impact of acquisitions. The acquisition impact is mainly attributable to the merger with Jupiter TV Co., Ltd.

Operating Costs and Expenses

Operating and programming costs increased by ¥6,408 million, or 8%, from ¥77,613 million for the nine months ended September 30, 2007 to ¥84,021 million for the nine months ended September 30, 2008. This increase includes ¥3,624 million that is attributable to the aggregate impact of acquisitions. The remaining increase is primarily due to cost directly related to growth of our subscriber base and increase in personnel costs.

Selling, general and administrative expenses increased by ¥5,608 million, or 15%, from ¥38,166 million for the nine months ended September 30, 2007 to ¥43,774 million for the nine months ended September 30, 2008. This increase includes ¥3,665 million that is attributable to the aggregate impact of acquisitions. The remaining increase is primarily attributable to increases in personnel costs.

Depreciation and amortization expenses increased by ¥3,269 million, or 7%, from ¥47,240 million for the nine months ended September 30, 2007 to ¥50,509 million for the nine months ended September 30, 2008. This increase is attributable to the aggregate impact of acquisitions and additions to fixed assets related to the installation of services to new customers.

Operating income, as a result of the above items, increased by ¥7,963 million, or 25% from ¥31,384 million for the nine months ended September 30, 2007 to ¥39,347 million for the nine months ended September 30, 2008.

Interest expense, net decreased by ¥349 million, or 11%, from ¥3,169 million for the nine months ended September 30, 2007 to ¥3,518 million for the nine months ended September 30, 2008.

Income before income taxes increased by ¥7,798 million, or 29% from ¥27,245 million for the nine months ended September 30, 2007 to ¥35,043 million for the nine months ended September 30, 2008.

Net income increased by ¥2,488 million, or 14%, from ¥17,953 million for the nine months ended September 30, 2007 to ¥20,441 million for the nine months ended September 30, 2008 for the reasons set forth above.

2. Financial position

Asset, Liability and Shareholders' equity

Total assets increased by ¥23,108 million, from ¥680,416 million as of December 31, 2007 to ¥703,524 million as of September 30, 2008. The increase is primarily due to acquisitions made in 2008.

Total liabilities increased by ¥2,239 million, from ¥345,008 million as of December 31, 2007 to ¥347,247 million as of September 30, 2008. The increase is primarily due to acquisitions made in 2008.

Shareholders' equity increased by ¥18,087 million, from ¥330,009 million as of December 31, 2007 to ¥348,096 million as of September 30, 2008. The increase is primarily due to net income for the nine months ended September 30, 2008.

Cash flows

For the nine months ended September 30, 2008, the net cash provided by our operating activities of ¥71,871 million, and existing cash and cash equivalent was used to fund net cash used in our investing and financing activities of ¥32,566 million and ¥26,103 million, respectively.

Cash Provided by Operating Activities. Net cash flows provided by operating activities decreased ¥1,232 million from ¥73,103 million for the nine months ended September 30, 2007 to ¥71,871 million for the nine months ended September 30, 2008. The decrease is primarily attributable to (i) an increase in cash used for our operating and SG&A expenses, (ii) an increase in cash paid for income taxes and (iii) an increase in cash used as a result of changes in our working capital accounts. These decreases were partially offset by an increase in our revenue for the nine months ended September 30, 2008.

Cash Used in Investing Activities. Net cash used in investing activities decreased ¥2,718 million from ¥35,284 million for the nine months ended September 30, 2007 to ¥32,566 million for the nine months ended September 30, 2008. The net cash used for the nine months ended September 30, 2008 primarily consisted of ¥28,934 million for capital expenditures and ¥3,848 million for our acquisition of new subsidiaries and business operations as compared to ¥31,334 million and ¥4,289 million, respectively, for the nine months ended September 30, 2007.

Cash Used in Financing Activities. Net cash used in financing activities decreased ¥5,288 million from ¥31,391 million for the nine months ended September 30, 2007 to ¥26,103 million for the nine months ended September 30, 2008. The decrease is primarily attributable to a ¥9,856 million decrease in net principal repayments of debt and capital lease obligations. These decreases were partially offset by a ¥3,428 million increase in cash dividends payments for the nine months ended September 30, 2008.

Segment Information

(1) Operating segments

The Company's new channel services are considered a separate operating segment, however, due to the insignificant size of these channel service operations, management has determined it has one reportable segment "Broadband communications services" as of September 30, 2008. Therefore, information on operating segments is not applicable in this section.

(2) Segment information by region

Since the Company does not have any overseas subsidiaries or branches, this section is not applicable.

**August 15, 2008
FOR IMMEDIATE RELEASE**

**JUPITER TELECOMMUNICATIONS ANNOUNCES
JULY 2008 SUBSCRIBER FIGURES**

Tokyo, Japan -- Jupiter Telecommunications Co., Ltd. (JASDAQ: 4817), the largest multiple system operator (MSO) in Japan based on the number of customers served, has announced that the total subscribing households as of July 31, 2008 served by J:COM's 19 managed franchises reached approximately 2.89 million, up 179,600, or 6.6% since July 31, 2007. Combined revenue generating units (RGUs) for cable television, high-speed Internet access and telephony services reached 5.15 million, up 427,300 or 9.0% since July 31, 2007. The bundle ratio (average number of services received per subscribing household) increased to 1.79 as of July 31, 2008 from 1.75 since July 31, 2007. The cable television digital migration rate as of July 31, 2008 increased to 74% from 60% as of July 31, 2007.

* Since January 2008, J:COM subscriber figures include subscribers of Kyoto Cable Communications Co., Ltd., which was moved onto the J:COM subscriber management system in July 2008. The impact of the integration in July resulted in an increase of 300 cable television and a decrease of 100 high-speed Internet access services subscribing households as compared to the previous method.

Details are provided in the table below:

Year-Over-Year Subscribing Household Comparisons: (Rounded to the nearest hundred)

Total managed franchises: 19 franchises; 42 systems:

	Revenue Generating Units				Total Subscribing Households
	Cable Television	High-Speed Internet Access	Telephony	RGU Total	
As of July 31, 2008	2,338,200	1,333,500	1,480,200	5,151,900	2,885,200
As of July 31, 2007	2,231,600	1,208,100	1,284,900	4,724,600	2,705,600

About Jupiter Telecommunications Co., Ltd.

Established in 1995, Jupiter Telecommunications Co., Ltd. is Japan's largest multiple system operator (MSO or J:COM Company) and multiple channel operator (MCO or Jupiter TV Company). J:COM Company provides cable television, high-speed Internet access, telephony and mobile services to customers through 19 managed franchises (as of July 31, 2008) operating at the local level serving 2.89 million subscribing households (as of July 31, 2008) in the Sapporo, Kanto, Kansai, and Kyushu regions. The number of serviceable households or "homes passed" in J:COM franchise areas is 10.50 million. Jupiter TV Company, formerly Jupiter TV Co., Ltd., invests in and operates 16 premium channels which are provided to CATV, satellite and telecom operators. Jupiter Telecommunication's principal shareholder is LGI/Sumisho Super Media and is a public company, trading on the JASDAQ stock exchange under code No. 4817. For more information (available in English and Japanese), visit J:COM's website at <http://www.jcom.co.jp/english.html>

For IMMEDIATE RELEASE

Jupiter Telecommunications to Acquire Majority Stake in Fukuoka Cable Network

Tokyo, Japan – Jupiter Telecommunications Co., Ltd. (J:COM, JASDAQ:4817), the largest multiple system operator (MSO) in Japan based on the number of customers served, announced today that it has acquired a total of 7,400 shares (18.5% of the 40,000 total outstanding shares) of the Fukuoka Cable Network Co., Ltd. (FCN), one of the group companies of J:COM and an equity-method applied affiliate. J:COM's stake in FCN has increased from 45% to 63.5% as a result of the share acquisition.

As previously announced, FCN will merge with Cable Vision 21 Inc., (CV21) a consolidated subsidiary of J:COM as of September 1st, 2008. FCN will be the surviving company and its company name will be changed to J:COM Fukuoka Co.,Ltd.

As cable system operators of the J:COM Group, both FCN and CV21 have been providing a "Quadruple Play" of services including cable television, high-speed internet access, telephony and mobile services to their customers in the Kyushu region under the J:COM brand. In the midst of a rapidly evolving and highly competitive business climate, the J:COM group aims to sharpen its competitive edge by fostering continuous growth through increased administrative efficiency that the merged group companies can provide.

About Jupiter Telecommunications Co., Ltd.

Established in 1995, Jupiter Telecommunications Co., Ltd. is Japan's largest multiple system operator (MSO or J:COM Company) and multiple channel operator (MCO or Jupiter TV Company). J:COM Company provides cable television, high-speed Internet access, telephony and mobile services to customers through 19 managed franchises (as of July 31, 2008) operating at the local level serving 2.89 million subscribing households (as of July 31, 2008) in the Sapporo, Kanto, Kansai, and Kyushu regions. The number of serviceable households or "homes passed" in J:COM franchise areas is 10.50 million. Jupiter TV Company, formerly Jupiter TV Co., Ltd., invests in and operates 16 premium channels which are provided to CATV, satellite and telecom operators. Jupiter Telecommunication's principal shareholder is LGI/Sumisho Super Media and is a public company, trading on the JASDAQ stock exchange under code No. 4817. September 9th, 2008
For IMMEDIATE RELEASE

**J:COM Takes Managing Stake in
Taito Cable Television
Consolidation is Scheduled for December 2008**

Tokyo, Japan – Jupiter Telecommunications Co., Ltd. (J:COM, JASDAQ:4817), the largest multiple system operator (MSO) in Japan based on the number of customers served, announced today that it has signed a preliminary agreement of stock purchase with Taito Ward, Tokyo, the largest stockholder of Jyohoku New Media Co., Ltd. (Taito Cable Television, Headquarters: Tokyo). J:COM will acquire 4,800 shares out of the total 5,200 outstanding shares held by Taito Ward. J:COM also plans to acquire any additional Taito Cable Television shares from other shareholders, with the intent of securing majority voting rights as of December 1st, 2008 and turning the company into a consolidated subsidiary. The details of this transaction are outlined below.

Details

1. Purpose of the Share Acquisition

J:COM's growth strategy focuses on proactive investment into cable television service operators. The acquisition of 4,800 outstanding shares of Taito Cable Television from Taito Ward is part of that strategy. Taito Cable Television operates throughout Taito Ward, Tokyo with approximately 80,000 serviceable households or "homes passed."

The service areas of Taito Cable Television are densely populated and located next to the Sumida Ward, a J:COM service area, enabling potential synergies in terms of business strategy. J:COM anticipates that, taking advantage of its management resources such as its sales team, product line up and customer support, the penetration rate for the multi-channel service of Taito Cable Television is expected to improve from the current high-teen level to over 20%, which is the average of the J:COM group. Furthermore, the additional capital investment will be minimal, due to the area already having the trunk line network fully upgraded.

Taito Ward, home to many of the country's most significant cultural treasures, historical sites, and traditional events, boasts an abundance of popular sightseeing areas. J:COM will utilize this variety of attractive subjects as content for the J:COM community channels and as such further strengthen its own media product line-up.

2. Outline of the company to be acquired

1. Company Name Jyohoku New Media Co., Ltd. (referred to as Taito Cable Television)
2. Main Businesses Cable television broadcasting, telecommunication, etc.
3. Date of Establishment May 16th, 1985
4. Head Office 1-7-5, Kita Ueno, Taito-ku, Tokyo
5. Representative Masao Fukami, President
6. Capital Amount 1,920 million yen
7. Number of Employees 30 (as of March 31st, 2008)
8. Major Shareholders Taito Ward (13.54%), East Japan Railway Company (13.54%), Nippon Densetsu Kogyo (13.2%), ITX Corporation (10.42%)
9. Total Outstanding Shares 38,400 shares
10. Account End End of March

11. Business performance trends for most recent fiscal years

	March, 2007	March, 2008
Sales	1,654	1,453
Operating Income	177	35
Ordinary Income	183	42
Net Income	111	17
Total Assets	3,157	3,516
Shareholder's Equity	1,583	1,601

※ JPY in millions, rounded down to the nearest million

12. Current subscribing household status

	As of the end of March 2008
Service area	Taito Ward, Tokyo (Ueno, Asakusa, Yanaka, Negishi, etc.)
Number of homes passed	Approximately 80,000
Total number of subscribing households	15,900
Cable television	13,800
High-speed internet access	4,600

3. Seller

1. Name Taito Ward
2. Representative Hiroshi Yoshizumi, Ward Mayor
3. Head Office 4-5-6, Higashi Ueno, Taito-ku, Tokyo

4. Contents of Share Acquisition and Date of Transfer

1. Content Acquire 4,800 shares (12.5% of the total outstanding shares) from Taito Ward, one of the current major stockholders under Jyohoku New Media Co., Ltd.
2. Date of Transfer December 1st, 2008 (expected)

5. Impact on business performance

The impact of the acquisition on our business performance of 2008 will be immaterial, as Taito Cable Television is scheduled to become a subsidiary company of J:COM on December 1st, 2008.

Established in 1995, Jupiter Telecommunications Co., Ltd. is Japan's largest multiple system operator (MSO or J:COM Company) and multiple channel operator (MCO or Jupiter TV Company). J:COM Company provides cable television, high-speed Internet access, telephony and mobile services to customers through 19 managed franchises (as of July 31, 2008) operating at the local level serving 2.89 million subscribing households (as of July 31, 2008) in the Sapporo, Kanto, Kansai, and Kyushu regions. The number of serviceable households or "homes passed" in J:COM franchise areas is 10.50 million. Jupiter TV Company, formerly Jupiter TV Co., Ltd., invests in and operates 16 premium channels which are provided to CATV, satellite and telecom operators. Jupiter Telecommunication's principal shareholder is LGI/Sumisho Super Media and is a public company, trading on the JASDAQ stock exchange under code No. 4817. September 12th, 2008

For IMMEDIATE RELEASE

Announcement of Group Company Merger in Kansai Area

Tokyo, Japan – Jupiter Telecommunications Co., Ltd. (J:COM, JASDAQ:4817), the largest multiple system operator (MSO) in Japan based on the number of customers served, has announced today that J:COM West Co., Ltd. and Kyoto Cable Communications Co., Ltd., both consolidated subsidiaries of J:COM, have signed an agreement to merge as of December 1, 2008. Below is a detailed outline of the merger proposal.

1. Merger Objectives and Significance

As cable system operators of the J:COM Group, both J:COM West Co., Ltd. and Kyoto Cable Communications Co., Ltd. have been providing quality broadcasting and telecommunication services including cable television and high-speed Internet access under the J:COM brand throughout their service areas in the Osaka and Kyoto prefectures. In the midst of a rapidly evolving and highly competitive business climate in the Kansai area, the J:COM group aims to sharpen its competitive advantage and promote continuous growth by fostering increased administrative efficiency through the consolidation of common operational functions and optimized distribution of managerial resources.

As a result of this merger, J:COM West Co., Ltd. will become the largest cable television operator in Japan serving approximately 900,000 subscribing households with approximately 3,620,000 serviceable households, or “homes passed” in four prefectures in the Kansai area (Osaka, Kyoto, Hyogo and Wakayama prefectures). This will enable J:COM West Co., Ltd. to provide a higher level of assurance and reliability to its customers by enhancing its presence in the market. The expansion of its business operations will also allow for improved financial strength and greater managerial efficiency throughout the company.

2. Merger Outline

① Schedule

Board meeting and execution of the merger agreement:	September 12, 2008
Extraordinary shareholders' meeting:	October 30, 2008 (expected)
Effective date of the merger:	December 1, 2008 (expected)

② Merger Scheme

Merger by absorption while maintaining J:COM West Co., Ltd. as the surviving company

Company name	J:COM West Co., Ltd. (the surviving company)	Kyoto Cable Communications Co., Ltd.
Business Operations	Cable television service Telephony service Internet access service	Cable television service Internet access service
Service areas	Osaka, Hyogo and Wakayama Prefectures	Kyoto Prefecture
Date of Establishment	February 3, 1997	November 30, 1984
Headquarters	Chuo-ku, Osaka	Shimogyo-ku, Kyoto
Representative	Masayuki Matsumoto, President	Akio Kominami, President
Capital amount	15,500 million yen	4,267 million yen
Largest shareholder and its shareholding percentage	Jupiter Telecommunications Co., Ltd. 90.74%	Jupiter Telecommunications Co., Ltd. 99.24%

The impact of the merger will have no influence on the consolidated business performances of the group companies because this merger will be executed between consolidated companies of J:COM.

J:COM TECHNOLOGIES CO., LTD.

September 29th, 2008
FOR IMMEDIATE RELEASE

**Announcement of Group Company Merger Between
 TEC:J and @NetHome**

Tokyo, Japan – Jupiter Telecommunications Co., Ltd. (J:COM, JASDAQ:4817), the largest multiple system operator (MSO) in Japan based on the number of customers served, has announced today that J:COM Technologies Co., Ltd. (TEC:J) and @NetHome Co., Ltd. (@NetHome), both consolidated subsidiaries of J:COM, will merge together on January 1st, 2009. Below is a detailed outline of the merger proposal.

1. Merger Objectives and Significance

Established in 1995, TEC:J has secured itself as the largest cable network engineering company in Japan providing an array of technical support services including network maintenance and operation management for all partners within the J:COM group as well as other cable television companies. Established in 1999, @NetHome has been providing the J:COM group, as well as many of Japan’s various cable network companies, with internet access services, fixed-line phone services, digital content distribution, and Earthquake Alert services.

Through the establishment of an integrated operational framework in order to oversee the J:COM company’s “Triple Play” service including cable television, high-speed internet access and telephony services, the merger will allow J:COM to sharpen its competitive advantage and promote continuous growth by fostering increased administrative efficiency through the consolidation of common operational functions and optimizing allocation of managerial resources. With the expansion of company’s scale and resulting higher presence, customers can expect a higher level of assurance and reliability, while the company can pursue further increases in financial strength and an improvement in managerial efficiency.

2. Merger Outline

①Schedule	
J:COM Board meeting	September 25 th , 2008
Board meetings of the merging companies and execution of the merger agreement:	September 25 th , 2008
Extraordinary shareholders’ meetings of the merging companies:	Scheduled to take place between October and December 31 st , 2008
Effective date of the merger:	Scheduled for January 1 st , 2009
②Surviving Company:	J:COM Technologies Co., Ltd
③Official Name of New Company:	To be decided at the J:COM Technologies Co., Ltd. extraordinary shareholders’ meeting.

3. Outline of Merging Companies (as of August 31st, 2008)

About Jupiter Telecommunications Co., Ltd.

Established in 1995, Jupiter Telecommunications Co., Ltd. is Japan's largest multiple system operator (MSO or J:COM Company) and multiple channel operator (MCO or Jupiter TV Company). J:COM Company provides cable television, high-speed Internet access, telephony and mobile services to customers through 18 consolidated subsidiaries (as of September 30, 2008) at the local level serving 2.90 million subscribing households (as of September 30, 2008) in the Sapporo, Kanto, Kansai, and Kyushu regions. The number of serviceable households or "homes passed" in J:COM franchise areas is approximately 10.85 million*. Jupiter TV Company, formerly Jupiter TV Co., Ltd., invests in and operates 16 premium channels which are provided to CATV, satellite and telecom operators. Jupiter Telecommunication's principal shareholder is LGI/Sumisho Super Media and is a public company, trading on the JASDAQ stock exchange under code No. 4817. For more information (available in English and Japanese), visit J:COM's website at <http://www.jcom.co.jp/english.html>

* Since September 2008, the number of "homes passed" of the former Cable West Group and J:COM Kobe Miki have been calculated by the same method as the rest of the J:COM group subsidiaries. As a result, the number of consolidated homes passed increased by 222,000 for the former and 40,000 for the latter, respectively, compared to the previous method.

FOR IMMEDIATE RELEASE

J:COM Announces Organizational and Personnel Changes

Tokyo, Japan – Jupiter Telecommunications Co., Ltd. (J:COM; JASDAQ:4817), the largest multiple system operator (MSO) in Japan based on the number of customer served, announces the approval of organizational and personnel changes effective as of November 1st, 2008.

Summary of Organizational and Personnel Changes

1. Establishment of Sales Promotion and Marketing Divisions

With the goal of establishing a more flexible organization capable of swift responses to rapidly evolving market trends and diversifying customer needs, the Marketing & Media Business Division reorganized into a new Sales Promotion Division and a new Marketing Division. The Sales Promotion Division consists of the Sales Strategy Department, while the Marketing Division consists of Marketing Department, Broadcasting Production Department, Interactive Media Promotion Department, and Media Planning & Administration Department.

2. Service Strategy Division and Technology Division Reorganization

New Technology Department re-titled as the Technology Development Department and transferred from the Service Strategy Division to the Technology Division, adding to the preexisting Technology Strategy, Network Engineering, Telecommunications Technology and Procurement Department to form the new Technology Division incorporating five separate departments under its umbrella.

By concentrating all of technology related functions into Technology Division, we facilitate integrated development and operation of triple services to bolster the company's competitive edge in technology and improve the efficiency in organization.

Personnel Changes

Effective November 1st, 2008

Mr. Mineo Fukuda
