SEMBCORP SIGNS MASTER AGREEMENT FOR NEW INTEGRATED INDUSTRIAL TOWNSHIP PROJECT IN GUANGXI, CHINA

SINGAPORE, October 22, 2008 – Sembcorp has signed a Master Agreement to invest in its third industrial township project in China and its first in South China, the Guangxi-Singapore Industrial Park. The signing took place today during the 5th China-ASEAN Business & Investment Summit in Nanning, between Sembcorp Industrial Parks, a wholly-owned subsidiary of Sembcorp Industries, and the Guangxi Nongken Bureau, an administrative organisation of the Guangxi provincial government.

The Master Agreement establishes an understanding for the joint development of an integrated industrial township project in Beihai, Guangxi, in South China. The proposed industrial township will span two separate locations: 500 hectares in Tieshangang and 1,000 hectares in Konggang. Owing to its proximity to Tieshangang Port, the proposed site in Tieshangang has been earmarked for predominantly industrial use. The Konggang site, which is 15 kilometres away from Beihai City, is to be developed as an industrial township encompassing industrial, commercial and residential facilities. The entire 1,500 hectare project is expected to be worth up to RMB 1.7 billion over ten years, with the first phase of development expected to cover 260 hectares.

The Guangxi-Singapore Industrial Park will be Sembcorp's first industrial park and township project in southern China. Its location offers a strategic advantage, as Guangxi is well-connected to ASEAN via overland connections to Vietnam and sea routes via the Beibu Gulf, also known as the Gulf of Tonkin. With this, Guangxi is in a good position to benefit from trade opportunities and investments arising from the upcoming ASEAN-China Free Trade Agreement. Guangxi also benefits from ready transportation links between South and Southwest China.
