INDEPENDENT AUDITORS' REPORT

Board of Directors
Signature Financial Group, Inc.
Torrance, California

We have audited the accompanying balance sheet of Signature Financial Group, Inc. (the "Company") as of December 31, 2007, and the related statements of operations, stockholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2007, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information listed in the table of contents is not a required part of the basic financial statements, but is supplementary information required by the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SIGNATURE FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2007

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a. Description of Business – Signature Financial Group, Inc. (“the Company”) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of FINRA, formerly the National Association of Securities Dealers (NASD). The Company is a Missouri Corporation that provides services primarily in the San Diego, California area. The Company changed its name in August of 2004; previously operating under the name Rentz, Christian & Company.
- b. Revenue Recognition – Fees from commissions and the related costs are recognized on a trade date basis.
- c. Furniture and Office Equipment – Furniture and office equipment is stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the corresponding assets.
- d. Advertising Costs – Advertising costs are expensed as incurred.
- e. Income Taxes – Deferred tax liabilities and assets are recognized for the tax effect of differences between the financial statement and tax bases of assets and liabilities. A valuation allowance is established to reduce deferred tax assets if it is more likely than not that a deferred tax asset will not be realized.

2. SIGNIFICANCE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. OPERATING LEASES

The Company leases office facilities under a non-cancelable operating lease. Rental expense related to this lease approximated \$25,997 for the year ended December 31, 2007. The minimum rental commitments are \$22,796 and \$19,460 in 2008 and 2009, respectively.

4. INCOME TAXES

Income tax expense for 2007 totaled \$894.

The difference between the effective tax rate and the statutory federal income tax rate of 15% results primarily from non-deductible penalties and the California state tax rate, which is included in income tax expense.

5. NET CAPITAL REQUIREMENTS

The company is subject to the SEC Uniform Net Capital Rule (rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2007, the Company had net capital of \$29,546, which met the \$5,000 requirement. The Company's net capital ratio at December 31, 2007 was 1.4 to 1.

SIGNATURE FINANCIAL GROUP, INC.

Schedule II

**Computation of Reserve Requirements Under Rule 15c3-3 of the
Securities and Exchange Commission**

December 31, 2007

An exemption is claimed from Rule 15c3-3 under the exemptive provisions of paragraph (k)(2)(i) as the Company does not hold customer funds or securities. All accounts are on a fully disclosed basis.

SIGNATURE FINANCIAL GROUP, INC.

Schedule III

Information Relating to Possession or Control Requirements Under Rule 15c3-3 of the Securities and Exchange Commission

December 31, 2007

An exemption is claimed from Rule 15c3-3 under the exemptive provisions of paragraph (k)(2)(i). The Company did not maintain possession or control of any customer funds or securities as of December 31, 2007.

Report on Internal Control Required by SEC Rule 17a-5(g)(1) for a Broker-Dealer
Claiming an Exemption from SEC Rule 15c3-3

To Directors and Shareholders of
Signature Financial Group, Inc.

In planning and performing our audit of the financial statements and supplemental schedules of Signature Financial Group, Inc. (the Company), as of and for the year ended December 31, 2007 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2007, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, FINRA, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
