We have audited the accompanying statements of financial condition of First Wall Street Corporation (an S Corporation) as of December 31, 2007 and 2006 and the related statements of income, changes in shareholder's equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. We believe that our audits provide a reasonable basis for our opinion.

NOTE A: NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

First Wall Street Corporation (the "Company") was formed in 1982 and is a licensed securities broker-dealer under the jurisdiction of FINRA (Financial Industry Regulatory Authority). The Company operates as an introducing broker and sells investments to clients. The investment sales generate commissions to the Company. Most of the Company's clients are located in the Southern California area. The Company conducts its business in accordance with the exemption under section (k)(2)(ii) of rule 15c-3-3.

In July of 1997, the Company elected to be taxed under the provisions of Subchapter "S" of the Internal Revenue Code. Under "S" Corporation status, the annual taxable income and losses of the Company is reported by the shareholders on their individual Federal and State income tax returns. No Federal income tax liability will be reflected in the financial statements.

Cash and cash equivalents

The Company considers cash and investments with maturity dates of three months or less at the date of investment to be cash and cash equivalents.

Marketable securities

Marketable securities consist of publicly traded U.S. government obligations which are recorded at fair market value. They are considered trading securities and accrued interest is included in net income.

Concentrations of credit risk

During the years ended December 31, 2007 and 2006, the Company maintained some of their cash in deposit accounts that are not federally insured. The amount of cash that was not federally insured totaled \$330,952 and \$134,539, as of December 31, 2007 and 2006, respectively.

Actual results could differ from those estimates.

Independent Auditors' Report on Internal Accounting Control

The Board of Directors
First Wall Street Corporation
La Jolla, California

In planning and performing our audit of the financial statements and supplemental schedules of First Wall Street Corporation (the Company) for the year ended December 31, 2007, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design and operation of the specific internal control components does not reduce to a relatively low level of risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007 to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the Securities and Exchange Commission, the Financial Industry Regulatory Authority, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
