Municipal Underwritings

Municipal underwriting revenue consists of underwriting and advisory fees. Underwriting fees are recorded at the time the underwriting is completed and the revenue is reasonably determinable, typically on a settlement date basis. Advisory fees are recorded as revenue when earned.

2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The accounts maintained at banks are insured by the Federal Deposit Insurance Corporation up to \$100,000. The cash accounts maintained at the clearing agent are insured by the Securities Investor Protection Corporation up to \$100,000. The funds held at the clearing agent could be subject to withdrawal restrictions in the event that cash and the market value of securities held falls below 115% of loans payable to the clearing agent. As of December 31, 2007, there were no restrictions on withdrawal.

The Company defines cash equivalents as highly liquid investments with original maturities of less than ninety (90) days that are not held for sale in the ordinary course of business.

Securities Owned

The securities accounts at the clearing agent are insured by the Securities Investor Protection Corporation up to \$500,000. Unrealized appreciation or depreciation is included in the "government and municipal sales and trading" caption in the statement of operations. Interest on securities owned is accrued as earned.

Furniture and Equipment

Furniture and equipment are carried at cost. Depreciation of furniture and equipment is computed using the straight-line method over the estimated useful life of the assets.

Loans Payable on Demand

The Company has various loans outstanding to its clearing agent totaling approximately \$1.1 million as of December 31, 2007. The average interest rate for the year ended December 31, 2007, was 4.25%. The loans represent securities inventory loans and are secured by the Company's securities owned and funds held at the clearing agent having a combined market value of approximately \$2.4 million at December 31, 2007.

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. For income tax reporting, the Company has a June 30 fiscal year end.

3 – SECURITIES OWNED

4 – RETIREMENT PLAN

The Company sponsors a 401(k) retirement plan for the benefit of all eligible fulltime employees, as defined. The plan provides for employee-participant contributions and discretionary employer-sponsor contributions. No contribution to the Plan has been authorized by the Company's Board of Directors for 2007.

5 – INCOME TAXES

Approximate deferred tax asset as of December 31, 2007, consisted of:

State Net Operating Loss Carryforward	\$ 162,200
Valuation Allowance	<u>(162,200)</u>
Net Deferred Tax Asset	<u>\$ -</u>

The Company has a Pennsylvania net operating loss carryover of approximately \$2.2 million which will expire in various years from 2008 through 2027. The valuation allowance was established due to the uncertainty of utilization of the state net operating loss carryover. The net change in the total valuation allowance for the year ended December 31, 2007, was a decrease of approximately \$56,500.

6 – LEASING ARRANGEMENTS

The Company leases office space under an operating lease which expires in September 2008. The lease calls for monthly rents of approximately \$6,000. The Company also is committed to lease certain equipment under operating lease agreements expiring at various dates through November 2011. Rent expense under the Company's operating leases approximated \$71,500 in 2007. Approximate annual future minimum lease obligations under non-cancelable operating leases having remaining lease terms in excess of one year as of December 31, 2007 are as follows.

2008	\$ 8,700

7 – RELATED PARTY TRANSACTIONS

The Company shares office space and facilities with a related entity (a company related through common ownership). The related entity reimburses the Company for its share of costs incurred on behalf of the related entity. During 2007, the Company received reimbursements of approximately \$333,600 from the related entity.

8 – NET CAPITAL REQUIREMENTS

The Company, as a registered broker-dealer in securities, is subject to the net capital rule adopted by the Securities and Exchange Commission and administered by the Financial Industry Regulatory Authority. This rule requires that the Company's "aggregate indebtedness" not exceed 15 times its "net capital," as such terms are defined in the rule. The Financial Industry Regulatory Authority may require a broker-dealer to reduce its business activity if its net capital ratio should exceed 12 to 1 and may prohibit a broker-dealer from expanding its business if the ratio exceeds 10 to 1. At December 31, 2007, the Company's aggregate indebtedness to net capital ratio was .40 to 1 and its net capital was approximately \$1.1 million. The minimum net capital required is equal to the greater of \$250,000 or 6-2/3% of "aggregate indebtedness" resulting in excess net capital of approximately \$880,000. Therefore, the Company was free of all restrictions.

9 – FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET CREDIT RISK AND CONCENTRATIONS OF CREDIT RISK

The Company's business involves the participation in underwriting activities, primarily with public entities in and contiguous to the Commonwealth of Pennsylvania. As part of this activity, the Company executes commitments to acquire securities as part of the underwriting and executes security sale transactions with customers. Market risk arises should the value of the securities committed to be underwritten by the Company decline before the closing of the transaction. Credit risk is eliminated through a transaction closing at which time funds are exchanged for the underwritten securities. No contractual amounts of committed underwriting purchases or sales were open as of December 31, 2007.

The Company executes customer securities transactions on a cash basis only. The industry requires each trade to settle within a specified time, generally three business days. The Company is exposed to market and credit risk on unsettled transactions in the event of the counterparty's inability to settle the transaction. Accordingly, the Company may have to purchase or sell the securities at prevailing market prices to satisfy the trade. At December 31, 2007, the contractual amount of unsettled purchases and sales were approximately \$3.7 million and \$3.0 million, respectively. All unsettled trades were closed subsequent to December 31, 2007, with no loss to the Company.

**9 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET CREDIT RISK AND
CONCENTRATIONS OF CREDIT RISK (CONTINUED)**

The Company's customers are located primarily in Pennsylvania; accordingly, they are subject to the economic environment of this geographic area. As all transactions with customers are on a cash basis, no accounting loss potential exists on settled transactions. Securities owned are primarily obligations of the U.S. Government and municipalities within the Commonwealth of Pennsylvania. No off-balance-sheet credit risk exists with respect to these securities, and collateral is not obtained.
