Independent Auditors' Report

To the Stockholders and Board of Directors
DELTA EQUITY SERVICES CORPORATION
Bolton, Massachusetts

We have audited the accompanying balance sheets of DELTA EQUITY SERVICES CORPORATION, as of December 31, 2007 and 2006, and the related statements of operations, changes in stockholder's equity and comprehensive income, changes in liabilities subordinated to claims of general creditors, and cash flows for the years then ended, that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of DELTA EQUITY SERVICES CORPORATION as of December 31, 2007 and 2006, and the results of its operations, changes in stockholder's equity, changes in liabilities subordinated to claims of general creditors, and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Independent Auditors' Report - continued

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in supplementary schedules contained on pages 15 and 16 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DELTA EQUITY SERVICES CORPORATION

NOTES TO FINANCIAL STATEMENTS

December 31, 2007 and 2006

Note 1. Summary of Significant Accounting Policies

NATURE OF BUSINESS

Delta Equity Services Corporation (the Company) is located in Bolton, Massachusetts. The Company is a registered Broker and Dealer in securities, and conducts business on a fully-disclosed basis over a nation-wide network of registered representatives. The Company, through its registered representatives, offers services in stocks, bonds, mutual funds, and other securities to retail clients. The Company is subject to the regulations of certain federal and state agencies, and undergoes periodic examinations by the Financial Industry Regulatory Authority (FINRA, formerly the National Association of Securities Dealers, Inc.).

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Recognition of Income

Commissions earned on securities transactions and related income and expenses are recorded on a settlement date basis, an industry standard.

Concentration of Credit Risk

The Company maintains a cash balance at a Bolton, MA bank. At times during the years ended December 31, 2007 and 2006, balances on deposit exceeded Federal Deposit Insurance Corporation insured limits.

Management Fees

The Company pays monthly management fees to Andover Capital Corporation, a related corporation wholly-owned by Raymond L. Grenier, the president and sole shareholder of the Company, under a management contract (See Related Party Transactions, Note 7). The fees provide compensation for supervisory responsibilities, and for any operational and overhead expenses incurred. These fees, in addition to the expenses incurred by Andover Capital Corporation in connection with the Company's broker and dealer business, shall include 100% of the Company's first \$50,000 in pre-tax profits, 50% of its pre-tax profits below \$400,000, and 25% of any pre-tax profits over \$400,000.

DELTA EQUITY SERVICES CORPORATION

NOTES TO FINANCIAL STATEMENTS

December 31, 2007 and 2006

Note 1. Summary of Significant Accounting Policies - continued

Allowance for Doubtful Accounts

Management believes that accounts receivable are fully collectible; thus, an allowance for potentially doubtful accounts was not considered necessary at December 31, 2007 or 2006.

Income Taxes

In accordance with Statement of Financial Accounting Standards No. 109 (SFAS No. 109), "Accounting for Income Taxes," the Company computes its future income tax payments, using current tax rates, on temporary differences resulting from the different periods in which events are recognized in the financial statements and in the income tax returns. SFAS No. 109 requires deferred tax assets and liabilities to be adjusted when tax rates or other provisions of the income tax laws change. The Company provides for income taxes based upon pre-tax earnings at applicable federal and state corporate income tax rates. Thus, current income taxes are provided for on taxable income. There were not any significant differences in the timing of recognition of transactions for financial and income tax reporting purposes for the years ended December 31, 2007 and 2006.

Depreciation

Depreciation is provided for on a straight-line basis using the estimated useful lives of the related assets. The Company's fixed assets at December 31, 2007, and at December 31, 2006, were comprised entirely of computer and office equipment with estimated useful lives of three years (See Fixed Assets, Note 3).

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

DELTA EQUITY SERVICES CORPORATION

Note 3. Fixed Assets

The Company's fixed assets consisted of:

	<u>2007</u>	<u>2006</u>
Computer and office equipment	\$ 58,618	\$ 49,067
Less accumulated depreciation	<u>(45,164)</u>	<u>(37,310)</u>
Fixed assets, net	\$ <u>13,454</u>	\$ <u>11,757</u>

Depreciation expense for the years ended December 31, 2007 and 2006 was \$7,854 and \$9,376, respectively.

Note 4. Other Investments

At December 31, 2007 and 2006, the Company's other investments were comprised of equity securities classified as available for sale. Marketable securities considered available for sale are recorded in the financial statements at fair market value, in accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities". The corresponding unrealized gain or loss in the fair market value in relation to cost is accounted for as a separate item in the stockholder's equity section of the balance sheet. Realized gains and losses of available for sale securities are determined using the specific identification method and are included in earnings.

At December 31, 2006, the Company had positions in certain securities resulting from unsettled sales to customers. The securities, included in the 2006 financial statements at their fair value of \$551,259, were traded on December 29, 2006 but did not settle until January 2, 2007.

The Company also held positions in securities made available to the Company in a private placement offering made by the National Association of Securities Dealers, Inc. (now FINRA) to its member firms.

Repayments of the liability, as shown on Page 6 of these financial statements, were \$84,000 and \$110,000 during 2007 and 2006, respectively.

The above subordinated liability was covered by an agreement approved by the National Association of Securities Dealers, Inc. and was therefore available in computing net capital under the Securities and Exchange Commission's uniform net capital rule. To the extent that such borrowings were required for the Company's continued compliance with minimum net capital requirements, they could not be repaid.

DELTA EQUITY SERVICES CORPORATION

NOTES TO FINANCIAL STATEMENTS

December 31, 2007 and 2006

Note 6. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1). This rule requires the maintenance of minimum net capital, and also requires that the ratio of aggregate indebtedness to net capital, as defined by rule 15c3-1, shall not exceed 15 to 1. The rule provides that equity capital may not be withdrawn, liabilities subordinated to claims of general creditors may not be repaid, or cash dividends may not be paid if the resulting capital ratio would exceed 10 to 1. The Company, at December 31, 2007 and at December 31, 2006, had net capital of \$672,510 and \$439,756, respectively, which was \$612,502 and \$310,594, respectively, in excess of its required net capital. Supervisory and overhead costs incurred under this arrangement totaled approximately \$2,500,000 and \$1,719,000 for the years ended December 31, 2007 and 2006, respectively.

The Company also provides services to, and receives services from, Bolton Securities Corporation (Bolton), a related corporation doing business as a registered investment advisor (RIA) under an agreement entered into beginning in April 2006. For the services Bolton provides, the Company pays a fee of \$2,000 per month; these fees totaled \$24,000 and \$16,000 for the years ended December 31, 2007 and 2006, respectively.

For acting as paymaster for Bolton's registered investment advisor agents and for providing accounting, clerical, legal, supervisory and technical support, the Company receives 25% of Bolton's RIA revenue, net of the related commissions. The Company recognized approximately \$28,000 under this agreement during the year ended December 31, 2007.

NOTES TO FINANCIAL STATEMENTS

December 31, 2007 and 2006

Note 12. Exempt Provisions Under Rule 15c3-3

The Company claims an exemption from Securities and Exchange Commission Rule 15c3-3(k)(2)(ii), as an introducing broker or dealer who clears all transactions for customers on a fully disclosed basis with a clearing broker or dealer, which carries all the accounts of such customers and maintains and preserves such books and records pertaining thereto pursuant to rule 17a-3 and 17a-4, as are customarily made by a clearing broker or dealer.

Note 13. Business Concentrations

Six of those registered representatives were responsible for approximately 45% and 43% of the Company's commission volume during the years ended December 31, 2007 and 2006, respectively.

Note 14. Contingencies

During 2007 and 2006, the Company was involved in various claims and lawsuits against the Company, arising in the normal course of business. INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
REQUIRED BY SEC RULE 17a-5

To the Stockholders and Board of Directors
DELTA EQUITY SERVICES CORPORATION
Bolton, Massachusetts

In planning and performing our audit of the financial statements and supplementary schedules of DELTA EQUITY SERVICES CORPORATION for the year ended December 31, 2007, we considered its internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

We also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry security accounts for customers or perform custodial functions related to customer securities, we did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts, verifications and comparisons, in the recordation of differences required by rule 17a-13, or in complying with the requirements for prompt payment for securities under section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives.

Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007, to meet the SEC's objectives.

This report is intended solely for the use of the Board of Directors, management, the SEC, the Financial Industry Regulatory Authority, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used for any other purpose.
