To the Stockholder
Trading Services Group, Inc.
Memphis, Tennessee

We have audited the accompanying statements of financial condition of Trading Services Group, Inc. as of December 31, 2007 and 2006, and the related statements of income, changes in stockholder's equity, and cash flows for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Notes to Financial Statements
December 31, 2007 and 2006

Note 1 - Summary of significant accounting policies

Organization and nature of operations

Trading Services Group, Inc. (the "Company"), a Tennessee corporation, is a wholly-owned subsidiary of Consulting Services Group, LLC ("CSG"). The Company is registered with the Securities and Exchange Commission ("SEC") and the National Association of Securities Dealers, Inc. ("NASD"), and is subject to regulation under the Securities Exchange Act of 1934. The Company is an introducing broker.

The Company executes all of its customers' transactions on a fully disclosed basis through clearing broker-dealers who carry the accounts and securities of the Company's customers.

Accounts receivable

Accounts receivable includes commissions and fee amounts receivable from clearing broker-dealers, and are stated at the amount management expects to collect from balances outstanding at year-end. Management closely monitors outstanding balances and writes off all balances not expected to be collected. Based upon management's assessment of the credit history with clearing broker-dealers having outstanding balances and current relationships with them, it has concluded that realization losses on balances outstanding at year-end will be immaterial.

Revenue recognition

Commissions and related clearing expenses are recognized on a trade-date basis. Commissions are recorded at gross, and the clearing broker-dealer fees are recorded as expenses in the accompanying statements of income. Other revenue represents special projects performed for clients on a fee basis and is recognized as income when the services are performed.

Income taxes

The Company follows the asset and liability method for deferred income taxes as required by the provisions of Statement of Financial Accounting Standards No. 109. Under the asset and liability method, deferred income taxes are recognized, if applicable, for the tax consequences of "temporary differences" by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

TRADING SERVICES GROUP, INC.

Report of Independent Accountants on Internal Controls Required by SEC Rule 17a-5 for a
Broker/Dealer Claiming an Exemption from SEC Rule 15c3-3
For the Year Ended December 31, 2007

To the Stockholder
Trading Services Group, Inc.
Memphis, Tennessee

In planning and performing our audit of the financial statements and supplemental information of Trading Services Group, Inc. (the "Company") for the year ended December 31, 2007, we considered its internal control, including control activities for safeguarding securities, to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons.
2. Recordation of differences required by Rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and the transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

TRADING SERVICES GROUP, INC.

Report of Independent Accountants on Internal Controls Required by SEC Rule 17a-5 for a
Broker/Dealer Claiming an Exemption from SEC Rule 15c3-3 (Continued)
For the Year Ended December 31, 2007

Because of inherent limitations in any internal control or the practices and procedures referred to above, misstatements due to errors or fraud may occur and not be detected. Also, projection of any evaluation of internal control to future periods is subject to the risk that internal control may become inadequate because of changes in conditions, or that the effectiveness of its design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our consideration of its internal control, we believe that the Company's practices and procedures were adequate at December 31, 2007 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
