NOTES TO FINANCIAL STATEMENTS

NOTE A

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BUSINESS OF THE COMPANY

FBT INVESTMENTS, INC. (the Company) is a wholly owned subsidiary of Firsttrust Corporation (the Parent), a Louisiana bank holding company.

The Company provides retail brokerage services to customers primarily in Louisiana. The Company is a registered broker-dealer pursuant to the Securities Exchange Act of 1934, and is a member of the Financial Industry Regulatory Authority. The Company is a non-clearing broker and, as such, has an agreement with a third-party clearing organization to carry and clear its customers' margin, cash accounts, and transactions on a fully-disclosed basis.

FURNITURE AND EQUIPMENT

Furniture, equipment, and leasehold improvements are stated at cost, less accumulated depreciation computed on the straight-line method over the estimated useful lives of the assets. Depreciation and amortization charged to operations amounted to \$4,040 for the year ended December 31, 2007.

INCOME TAXES

The Company is an S Corporation for income tax purposes. Under this election, taxable income or loss of the Company is included in the tax return of its stockholder.

CASH AND CASH EQUIVALENTS

For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

REVENUE RECOGNITION

Commission income and expenses related to customers' securities transactions are reported on the trade date basis. Fee income is recorded as the related services are provided and fees are earned.

FBT INVESTMENTS, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE B

RECEIVABLE FROM CLEARING BROKERS

Accounts receivable from clearing brokers represent uncollected commissions and fees due from other brokers.

NOTE C

AGREEMENT WITH CLEARING ORGANIZATION

The Company utilizes Pershing, LLC as its clearing broker. Terms of the agreement with the clearing organization call for the Company to maintain compensating balances of \$25,000. At December 31, 2007, \$25,000 of cash is restricted for that purpose. In addition, terms of the agreement require the Company to compensate Pershing, LLC on a "per transaction" basis with a minimum compensation of \$25,000 per calendar quarter.

NOTE D

COMMITMENTS AND CONTINGENCIES

The Company clears all customers' securities transactions through a clearing broker, on a fully disclosed basis, which, in accordance with accounting principles generally accepted in the United States of America, are not included on the statement of financial condition. These transactions are referred to as an "off-statement of financial condition commitments" and differ from the Company's statement of financial condition activities in that they do not give rise to funded assets or liabilities. The Company receives a commission for initiating such transactions for its customers. Initiating these trades for its customers involves various degrees of credit and market risk in excess of amounts recognized on the statement of financial condition. The Company minimizes its exposure to loss under these commitments by subjecting the customer accounts to credit approval, monitoring processes, and by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company and the clearing broker monitor required margin levels daily and, positions when necessary.

Once a trade is executed, a customer is allowed three business days to settle the transaction by payment of the settlement price (when purchasing securities) or the delivery of the securities (when selling securities). The Company is required by law to immediately complete a securities transaction when a customer fails to settle. The Company is at risk for any loss realized in completing transactions for its customers. At December 31, 2007, all unsettled transactions were subsequently settled by customers without loss to the Company or open commitments were adequately collateralized.

The Board of Directors
FBT INVESTMENTS, INC.

Independent Auditor's Report on Internal Control

In planning and performing our audit of the financial statements of **FBT INVESTMENTS, INC.** for the year ended December 31, 2007, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by **FBT INVESTMENTS, INC.**, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007, to meet the SEC's objectives.

This report is intended solely for the information and use of the Members, management, the Securities and Exchange Commission, the Financial Industry Regulatory Authority, the New York Stock Exchange and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
