COMMUNICATION OF INTERNAL CONTROL MATTERS

To the Board of Directors
Premier Securities of America, Inc.
4600 Colony Point
Suwanee, GA 30024

In planning and performing our audit of the financial statements of Premier Securities of America, Inc., for the year ended January 31, 2008, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure. However, we did not note any matters involving the internal control structure and its operation that we consider reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the Company's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above.
