Independent Auditors' Report

**The Board of Directors
Commonwealth Capital Securities Corp.
Clearwater, Florida**

We have audited the accompanying statement of financial condition of **Commonwealth Capital Securities Corp.** as of February 29, 2008 and the related statements of operations, changes in stockholder's equity and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of **Commonwealth Capital Securities Corp.** as of February 29, 2008 and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

PLAN. PERFORM. PROSPER

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Commonwealth Capital Securities Corp.

Notes to Financial Statements

1. Organization and Significant Accounting Policies

Organization

Commonwealth Capital Securities Corp. (the "Company") is a wholly owned subsidiary of Commonwealth of Delaware, Inc., which is a wholly owned subsidiary of Commonwealth Capital Corp. (the "Parent").

The Company has registered with the Securities and Exchange Commission as a broker-dealer pursuant to Section 17 of the Securities Exchange Act of 1934, and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company operates under the exemptive provisions of SEC Rule 15c3-3. The Company sells units of its affiliated partnerships through broker/dealer firms to their customers throughout the United States.

The Company does not hold funds or securities for, or owe any money or securities to, customers and does not carry amounts of, or for customers. Accordingly, the Company operates under the exemptive provisions of Securities and Exchange Commission ("SEC") Rule 15c3-3(k)(2)(i).

Cash

The Company considers all highly liquid investments with a maturity of three months or less to be cash. Cash is invested in a money market fund, which invests in Treasury obligations. Cash, at February 29, 2008, was held in the custody of one financial institution. At times, the balances may exceed federally insured limits. The Company mitigates this risk by depositing funds with a major financial institution. The Company has not experienced any losses in such account, and believes that it is not exposed to any significant credit risk.

Commonwealth Capital Securities Corp.

Notes to Financial Statements

1. Organization and Significant Accounting Policies (continued)

Commission/Broker Expense

Selling commissions are 8% of the partners' contributed capital and dealer manager fees are 2% of the partners' contributed capital. These costs have been deducted in the accompanying financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Income Taxes

The Company accounts for income taxes under the provisions of Statement of Financial Accounting Standard No. 109, *Accounting for Income Taxes*.

Recent Pronouncements

In February 2008, the FASB issued Staff Position 48-2 ("FSP FIN 48-2"), effectively deferring the effective date of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* ("FIN 48"). The interpretation clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*. Specifically, the pronouncement prescribes a "more likely than not" recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on the related derecognition, classification, interest and penalties, accounting for interim periods, disclosure and transition of

Commonwealth Capital Securities Corp.

Notes to Financial Statements

uncertain tax positions. FSP FIN 48-2 defers the effective date of FIN 48 for nonpublic entities to annual financial statements for fiscal years beginning after December 15, 2007. The Company is currently evaluating the potential impact of FIN 48 on the financial statements.

In June 2007, the FASB issued Staff Position 07-1 *Clarification of the Scope of the Audit and Accounting Guide and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies* ("FSP SOP 07-1-1"). SOP 07-1 was issued in June 2007 and provides guidance for determining whether an entity is an investment company and whether investment company accounting should be retained by a parent company in consolidation or by an equity method investor. SOP 07-1 was effective for financial statements issued for fiscal years beginning on or after December 15, 2007. FSP SOP 07-1-1 delays the effective date of SOP 07-1 indefinitely. The company is currently evaluating the impact that adoption of SOP 07-1 may have on the financial statements.

2. Transactions with Related Parties

Commission Revenue and Brokerage Fee Expense

The Company recognizes commission revenue and brokerage fee expense on an accrual basis based on the trade date of the underlying customer transactions.

The Company earns commission revenue of approximately 10% on sales of limited partnership units. The commission revenue for the year ended February 29, 2008 is related to Commonwealth Income & Growth Private Fund III, and Commonwealth Income & Growth Fund VI, affiliated partnerships.

Commonwealth Capital Securities Corp.

Notes to Financial Statements

2. Transactions with Related Parties (continued)

Expenses

The Parent reimburses the Company for certain expenses paid by the Company. For the year ended February 29, 2008, no amounts were reimbursed by the Parent to the Company. In addition, expenses incurred by the Parent in connection with the administration and operation of the Company may not be reimbursed directly to the Parent. The operating results or financial condition of the Company may have been significantly different had the companies been autonomous.

3. Regulatory Net Capital Requirements

The Company is subject to the net capital rules of the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum regulatory net capital and requires that the ratio of aggregate indebtedness to regulatory net capital, both as defined, shall not exceed 15-to-1. At February 29, 2008, the Company's regulatory net capital, required regulatory net capital, and ratio of aggregate indebtedness to regulatory net capital were as follows:

Regulatory net capital	\$	18,907
Required regulatory net capital	\$	5,000
Ratio of aggregate indebtedness to regulatory net capital		3.8-to-1

4. Income Taxes

The Company is a member of a consolidated group for federal income tax purposes and files as a separate entity for state income tax purposes. Income taxes have been provided as though the Company were a taxpaying entity separate from the consolidated group of which it is a member. No income tax provision is necessary due to the net operating loss carryover available from the consolidated group.

**Report on Internal Accounting
Control Required by SEC Rule 17a-5**

An independent firm associated with
Moore Stephens International Limited

**The Board of Directors
Commonwealth Capital Securities Corp.
Clearwater, Florida**

In planning and performing our audit of the financial statements of **Commonwealth Capital Securities Corp.** ("Company"), as of and for the year ended February 29, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control that we consider to be a material weakness, as defined above.

PLAN. PERFORM. PROSPER

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at February 29, 2008, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the Financial Industry Regulatory Authority, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
