INDEPENDENT AUDITORS' REPORT

Board of Directors  
Berghoff & Company, Inc.

We have audited the accompanying statement of financial condition of Berghoff & Company, Inc. as of March 31, 2008 that you are filing pursuant to rule 17a-5 under the Securities and Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to attain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Berghoff & Company, Inc. as of March 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

BERGHOFF & COMPANY, INC.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2008

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization - The Company was incorporated in the state of Delaware on March 15, 1973. The Company is registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority (FINRA), formerly known as the National Association of Securities Dealers, Inc. (NASD). The Company's principal business activity is the sale of securities.

Securities Owned - Securities positions are valued at market value and securities not readily marketable are valued at fair value as determined by the board of directors. The resulting difference between cost and market (or fair value) is included in income.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on a trade date basis.

Cash Equivalents - Cash equivalents are defined as certificates of deposit and U.S. government obligations with a maturity date, when acquired by the Company, of less than 90 days and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and are commonly referred to as "money market funds."

Depreciation - Depreciation of office furniture and equipment is provided for using the straight line method over five and seven year periods. Leasehold improvements are being depreciated over a fifteen year period.

Deferred Income Taxes - Deferred income taxes are provided due to income and expenses, principally relating to differences in depreciation, being recognized in different periods for tax and financial reporting purposes.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2008

NOTE 2 - OFF-BALANCE-SHEET RISK AND CLEARING AGREEMENT

The Company enters into various transactions involving derivatives and other off-balance sheet instruments. These financial instruments include mortgage-backed to-be-announced securities (TBAs) and securities purchased and sold on a when-issued basis (when-issued securities). TBA's and when-issued securities provide for the delayed delivery of the underlying instrument.

Since the Company enters into the foregoing transactions involving derivatives and other off-balance sheet financial instruments solely for the benefit of its customers, the Company does not bear any of the credit or market risk of these financial instruments, with the exception of the risk to the Company should its customers fail to honor their obligations related to the foregoing derivatives and other off-balance sheet financial instruments, as mentioned below.

In order to facilitate securities transactions, including the aforementioned transactions, the Company has entered into an agreement with another broker/dealer (Clearing Broker/dealer) whereby the Company forwards (introduces) customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The processing and, if applicable, any financing pertaining to the introduced securities transactions are performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing Broker/dealer. As part of the terms of the agreement between the Company and Clearing Broker/dealer, the Company is held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.
